Over the past decade, genomics has led to massive changes in biomedical research in which top medical schools lead in research and clinical trials by leveraging investments in genomics infrastructure coupled to strong bioinformatics. In particular, the emergence next-generation sequencing (NGS) technology has changed how systems are being studied at the molecular, cellular and systems level through hundreds of novel assays. Even further, these assays on NGS platforms have been translated to the clinic, changing how clinical researchers approach patient-driven trials. This may never be more evident than through the recent signing of bi-partisan legislation, the 21st Century Cures Act, the Precision Medicine Initiative, the Cancer Moonshot and the BRAIN Initiative. Genomics represents a central and foundational discipline underpinning these programs; it represents the emerging standard for molecular research. To be competitive small and large universities are making massive investments to build NGS infrastructure, expertise and informatics.

The department is committed to excellence in translational genomics education and research, bringing to bear vast experience and expertise in molecular genetics, genome science, biomedical informatics, translational science, and molecular medicine. The ultimate goal is to serve the Keck community by bridging basic and clinical research through discovery and validation of novel diagnostics and therapeutics for earlier diagnosis and smarter treatments.

Translation and Entrepreneurship in Biomedical Sciences Certificate
USC Thornton School of Music

Since its founding in 1884, the USC Thornton School of Music has become the center of higher education in music in the western United States and is among the top schools of music in the nation. Situated in the heart of the vital musical life of Los Angeles, USC Thornton brings together a distinguished faculty and gifted students from around the world. It is in this wonderfully diverse cultural milieu that students are offered instruction in virtually all professional and scholarly branches of music, including instrumental and vocal performance, jazz, popular music performance, music production, early music, composition, screen scoring, music industry, musicology, music teaching and learning, arts leadership, pedagogy, choral and sacred music, conducting and opera. In addition to its major programs, USC Thornton also offers a wide array of music minors and general interest courses for students majoring in other disciplines. The USC Thornton Symphony, Chamber Choir, Concert Choir, Opera, Wind Ensemble, Popular Music Ensembles, Songwriter Showcases, Jazz Orchestra, Contemporary Music Ensemble, Early Music Ensemble and a wide variety of large and small choral and instrumental ensembles offer students a broad performing experience. More than 500 formal and informal concerts and recitals are presented on campus each year and the school regularly presents eminent visiting artists and scholars in master classes, workshops, lectures, seminars and in performance.

Los Angeles is the home of numerous musical organizations whose performances contribute immeasurably to the cultural life of the region, and is also the home of the nation's major recording, radio, film and television industries. All offer abundant opportunities to the serious young music professional.

Faculty
Robert Mann Chair in Strings and Chamber Music: Glenn Dicterow, BA
Bowen H. "Buzz" McCoy and Barbara M. McCoy Endowed Chair in Jazz at the Flora L. Thornton School of Music, Honoring President Steven B. Sample, 10th President of the University of Southern California: Bob Mintzer, BA*
Gregor Piatigorsky Chair in Violoncello: Ralph Kirshbaum, BA
H. Robert Reynolds Chair in Wind Conducting: H. Robert Reynolds, MM
Judge Widney Professor of Music: Midori Goto, MA*
Judge Widney Professor of Music: Michael Tilson Thomas
Judge Widney Professor of Poetry and Public Culture: Dana Gioia, MA, MBA

Professors: Arthur C. Bartner, EdD*; Bruce Brown, PhD*; Ken Cazan, BFA*; Terry Cravens, DMA*; Donald Crockett, PhD*; Robert A. Cutietta, DEd; Joanna Demers, PhD*; Glenn Dicterow, BA; Kevin Fitz-Gerald, Art. Dipl; Stewart Gordon, DMA*; Jeffrey Kahane, MA; Ralph Kirshbaum, BA; Larry Livingston, MM; Ronald McCurdy, PhD; Richard McIlvvery, MM; Bob Mintzer, BA*; Tim Page, BA; Alan Pasqua, BM*; Daniel Pollack, MS*; Frank Potenza, MM*; Jo-Michael Scheibe, DMA*; Alan Smith, DMA*; Richard Smith, MM; John Thomas, MM; Frank Ticheli, DMA* Associate Professors: Yehuda Gilad, Dipl*; Adam Gilbert, PhD; Rod Gilfry, MM; Cristian Grases, DMA; Elizabeth Hynes, BM; Beatriz Ilari, Ph.D; David Moore, BM; Andrew Norman, Art Dipl Assistant Professors: Ted Hearne, MM; Nate Sloan, Ph.D; Scott Spencer, PhD; Lisa Vest, Ph.D*; Nina Young, DMA

Professors of Practice: Bernardine Blaha, MM; Daniel Carlin, MM; Lucinda Carver, DMA*; Peter Erskine; Kenneth Foster, MA; Mark Goldstein, JD; Brian Head, MM*; Lynn Helding, MM; Veronika Krausas, DMA; Richard Schmunk, DMA*; Nick Stimpfle, DMA; Scott Tennant, MM; Joel Timm, DMA; James Walker, BME* Associate Professors of Practice: Lina Bahn, DM*; Rotem Gilbert, DMA*; Trudy Green, MA; Susan Heffter, DMA*; William Kanengiser, MM*; Sharon Lavery, MM; Yura Lee, Art Dipl; Kevin Lyman, BS; Brent McMunn, MM; Karen Parks, MM; Antoinette Parry, MM; Stephen Pierce, DMA; Christopher Sampson, MM; Tram Sparks, DMA; Nick Stobius, MM; Lisa Sylvester, DMA Assistant Professors of Practice: Jeffrey Allen, BA; Thomas Michael Allen, MM; Russell Ferrante, Dipl; Sean Friar, PhD; Michael Garcia, BA; Jason Goldman, MM; Sean Holt, MA*; Timothy Kobza, MM; Judy Lewis, EDD; Brian Malouf, BA; Sean Nye, PhD; Patrice Rushen, BA; Michael Smith, BA; Mark Weiser, MM

Lecturers and Senior Lecturers (full-time): David Armay, MM; William Biersach, BA; Charles Gutierrez, AA; William Kennedy, Andrew Left, JD; Timo Preece, MS/MA; Christopher Roze, DMA; Aaron Serfaty, BFA; Stephen Trovato, BS

Adjunct Professors: Jeff Brabec; Todd Brabec; Martin Chatlifour; Pam Frank; Vincent Mendoza; Howard Nelson; Norman Pearson; H. Robert Reynolds; Cherry Rhodes; Pepe Romero; Carl St. Clair; James Self, Jo Ann Turovsky; Allan Vogel; Peter Webster; Richard Wolf

Adjunct Associate Professors: James Babor; Margaret Baljer; Karen Dreyfus; Judith Farmer; David Howard; Joseph Pereira; Andrew Shulman; Bing Wang

Adjunct Assistant Professors: Adriana Balic; Jon Burlingame; Neal Desby; Susan Feldman; Bruce Forman; Parmer Fuller; Thomas Hooten; Paul Jackson Jr.; Adam Koller; Jennifer Marotta; Leah Morrison; Derek Oleszkiewicz; Robert Shpeard; Andrea Stolpe; Robert Young

Adjunct Instructors: Andy Abad; Helane Anderson; Pete Anthony; Michael Arron; Steve Becknell; Bobby Borg; Jae Deal; Snehal Desai; Sean Dougal; Sara Gazarek; Peter Golub; Kathleen Grace; Tim Greivign; Jeremy Gruber; David Herrin; Joel High; Ben Hong; Alphonso Johnson; Lyndia Johnson; Michael Kaminsky; Jennifer Kampani; Laura Karpman; Patrick Kirst; Marion Kuszyk; Edwin Livingston; Ginny Luke; Andrew Martin; Mary Mattei; Jessica Maxfield; Roy McCurdy; Loren McIndy; Jazmin Morales; Shawn Mouser; Sung-Hwa Park; David Peo; John Schmidt; Garry Schyman; Lawrence Shragge; Michael Stever; Douglas Tomquist; Vivian Wong; Lindsay Wollfington; Vincent Womack

Lecturers (Part-time): Angela Blasi; Lot Demeyer; Jeremy Frank; Rakefet Hak; Paul Hodgins; Charles Koster; Eric Pham; Troy Quinn; Jason Yoshida

Distinguished Professor Emeritus of Composition: Stephen Hartke, PhD*; Morten Lauridsen, DMA*

Emertus Professors: William Dahning, DMA*; Gary Glaze, MM*; James Hopkins, PhD*; Frederick Lesemann, DMA*; Thom Mason, DMA*; Donald Mclnnes, MM; Cynthia Munzer, BM*; John Perry, MM; William A. Schaefer, MA; Margaret Schaper, MM*; Alice Schoenfeld*; Bryan Simms, PhD*; Ladd Thomas, DMA; William Thomson, PhD; Nancy Woods, MM

Emeritus Associate Professor of Practice: Kenneth Lopez, BA

Emeritus Senior Lecturer: Patrick Kelley, BM

*Recipient of university-wide or school teaching award.

Degree Programs

The Thornton School of Music offers professional and academic degrees at the bachelor's, master's and doctoral levels. These degrees are summarized below:

Bachelor of Music: Students working toward this professional degree have a wide choice of specializations: choral music, composition, music industry, instrumental performance, jazz studies, popular music performance, music production and vocal arts. Students can take either a single major program or double majors in several combinations such as piano and composition, string, or percussion instrument. The two majors must be offered by different departments but lead to the same degree (for example, Bachelor of Music). Double majors consisting of two majors in the same department are not permitted. The degree is granted by the Thornton School of Music.

Bachelor of Arts: These degrees are designed for students with a strong music background who wish to combine professional music training with substantial study in other disciplines.

Bachelor of Science: Offered by the Thornton School of Music in the specialized area of music industry.

Minors in Music: Eight different minors in music are offered, each approaching the discipline from a unique perspective and with a distinct curriculum: Jazz Studies, Musical Studies (Performance), Musical Theatre, Music Industry, Music Production, Music Recording, Popular Music Studies and Songwriting.

Master of Music: This is a professional degree that represents proficiency in one area of musical practice and relevant knowledge in musical literature, performance and technique. It requires a minimum of 30 graduate units, of which 15 must be at the 500 level or higher. Students complete a thesis, recital(s)
or other capstone project as part of the degree requirements. The degree can be earned in choral music, composition, jazz studies, keyboard collaborative arts, guitar, organ, piano, voice or instrumental performance, teaching and learning, or sacred music. The degree is granted by the Thornton School of Music.

Master of Arts: This degree, offered through the Graduate School in conjunction with the Thornton School of Music, stresses music history or early music performance, with emphasis on scholarly research.

Master of Science: Two degrees are offered in Arts Leadership and Music Industry.

Doctor of Musical Arts: This is a professional degree that represents the highest level of expertise in a major field of musical practice and competence in several additional areas. Students may specialize in choral music, composition, jazz studies, vocal or instrumental performance, sacred music, or teaching and learning.

Doctor of Philosophy: Conferred by the Graduate School, this is an academic degree in the field of historical musicology. A substantial background in music, research and languages is required.

Entrance to the Degree Programs
Admission to a degree program is granted through USC’s admission process, described in the Admission section of this catalogue. Supplementary materials are also required for students seeking admission to the Thornton School of Music, which are described online at music.usc.edu.

Applicants to a program within the school are screened by appropriate faculty selection committees that hold auditions, interviews and examine supporting materials. Letters of acceptance are issued by the USC Office of Admission.

Audition
A performance audition is required of applicants to most degree and certificate programs in the Thornton School of Music. Detailed information regarding audition requirements for specific Thornton programs is available online at music.usc.edu.

Graduate Record Examinations
Scores from the general test of the Graduate Record Examinations (GRE) are required for application and admission to the Master of Arts, Doctor of Philosophy and certain Master of Music and Doctor of Musical Arts degrees. (The music subject test is not required.) Test scores on the GRE that are more than five years old at the time of application are not accepted.

Placement Tests
Undergraduate transfer students who have had formal study in any of the following areas must take the appropriate placement examination prior to their first registration: aural skills, theory, music history, conducting, analysis, orchestration and performance. The results of these examinations determine placement in appropriate sequential courses.

Admission to Graduate Standing
All students entering a graduate-level degree program (MA, MM, DMA, PhD) at USC Thornton, who have not previously completed a degree at USC Thornton, must take a series of entrance exams in core music subjects. These exams are called Music Graduate Entrance Exams (MGEEs). Information regarding which exams are required for specific majors is available from the Thornton Student Affairs office.

MGEEs are administered during the week prior to the first week of classes each fall and spring semester. Entering students must take all required exams at the scheduled exam time prior to the beginning of their first semester in the program. If any given exam is not passed on the first attempt, that exam can be retaken at the scheduled exam time prior to the beginning of the second semester in the program. If the exam is not passed on the second attempt, the corresponding review course must be successfully completed with a grade of B minus or better before the beginning of the third semester in the program. No MGEE can be attempted after the second semester in the program, regardless of whether the exam has previously been attempted. If students complete any MGEE after their second semester in the program, the score earned on said exam will be invalid. Failure to fulfill all MGEE requirements by the beginning of the third semester – either through exams or review courses – may delay permission to fulfill degree requirements such as recitals, comprehensive or qualifying examinations, thesis projects, and dissertations, and may also have a negative impact on financial aid eligibility.

If a student is not able to take an exam at the scheduled exam time, the exam administrator may choose to administer a similar exam at another scheduled time during the first week of the semester. This alternate exam time will be arranged in rare cases and at the sole discretion of the exam administrator.

Test of English as a Foreign Language (TOEFL) or International English Language Testing System (IELTS)
The Thornton School of Music adheres to the USC Admission policies regarding TOEFL and IELTS scores. With some exceptions, international applicants from non-English-speaking countries are required to submit these scores by the application deadline. Test scores that are more than two years old at the time of application are not accepted. For any applicant whose first language is not English, regardless of educational background or immigration status, the Thornton School may require as a condition of admission that she or he take the International Student English (ISE) exam, administered by the USC American Language Institute, as well as complete any English language course work that may be prescribed from the results of that exam.

Advanced Standing Credit for Music Courses Taken at Accredited Institutions
Music courses completed with satisfactory grades at a regionally accredited institution of higher education may be acceptable for transfer. A review of transcripts and course syllabi will be required in order to determine transferability of course work. The Thornton School may also require a student to take a placement test (at no cost) to determine the extent of his or her knowledge in a given area of musical study before a final determination is made regarding transferability of course work.

Advanced Standing Credit for Music Courses Not Taken at Accredited Institutions
Music courses completed at an institution that is not regionally accredited will generally not be transferable. In exceptional cases, the Thornton School may consider petitions for transfer credit for these courses. The petition review process will include evaluation of transcripts with letter grades, course syllabi for each course for which transfer credit is being requested, and examples of work completed for a grade in those courses. Additional information may also be required in order for the Thornton School to complete a full transfer credit evaluation.

Curriculum Requirements
The curriculum requirements for each major are listed under each degree. The USC course classification and numbering system is explained in the Registration section of this catalogue. In addition, music courses sometimes carry the following abbreviations: CD = Conducting; CG = Classical Guitar; HC = Harpsichord; OR = Organ; P = Piano; SG = Studio Guitar; VA = Viola; VC = Voice Coaching; VO = Voice.

Change of Curriculum
To change from one curriculum to another, a student must apply and be approved for the new curriculum by the appropriate department chair and declare the intent to change curriculum through his or her academic adviser in the Thornton School.

Non-Degree Programs
Students who have highly specialized interests that may not be met through degree programs may apply for admission to one of the following non-degree programs.

Artist Diploma Program
This program is designed for young artists of exceptional ability and musical sensitivity who plan careers as solo performers. The Artist Diploma Program provides young artists the opportunity to devote their full time to concentrated study and practice for
the duration of their assigned programs. This program typically requires two to three consecutive years of study for completion.

Graduate Certificate in Arts Leadership
The graduate program in arts leadership is a two-semester certificate program for artists, arts administrators and cultural workers of all types to develop the skills necessary to become successful leaders in the arts and arts organizations in a rapidly changing and radically altered contemporary world.

Graduate Certificate Program in Performance
This two-year graduate-level program is designed for students who have completed their undergraduate education in music, or its equivalent, and intend to concentrate their energies on the full-time development of their discipline.

Honor Society
Pi Kappa Lambda
Pi Kappa Lambda is a national honor society established in 1918 for the promotion and recognition of scholarship and performance in music. Students of the Thornton School of Music are eligible for election to Eta chapter at the University of Southern California, established in 1923, according to guidelines established by the board of the Eta chapter.

Undergraduate Degrees
Minors in Music
Minor in Performing Arts Studies
The minor in performing arts provides an interdisciplinary inquiry into the nature and aesthetics of the performing arts. It combines the disciplines of cinematic arts, dance, music and theatre. The minor is a unique course of study that looks at how the performing arts contribute to a culturally literate society. See the USC School of Dramatic Arts section of this catalogue.

Graduate Degrees
Admission-Audition Requirements
Applicants to graduate programs in the Thornton School of Music must fulfill all music admission requirements described at usc.edu/music, in addition to fulfilling all USC graduate admission requirements. See Thornton School of Music Degree Programs and Entrance to the Degree Programs sections of this catalogue for further information.

Bachelor's Degree
Choral Music (BA)*
Overview
The Bachelor of Arts in Choral Music combines the flexibility of a Bachelor of Arts program with an in-depth education in choral music that includes an introduction to choral music and course work in choral conducting, choral development, choral arranging, diction and choral ensemble.

Entrance Requirements
Admission to Thornton programs is granted through the USC admission process. Applicants are screened by appropriate faculty selection committees. Specific entrance requirements are reviewed on an annual basis and published online at music.usc.edu.

General Education Requirements
The university's General Education program provides a coherent, integrated introduction to the breadth of knowledge you will need to consider yourself (and to be considered by other people) a generally well-educated person. This program is effective for all students entering USC in fall 2015 or later, or transfer students beginning college elsewhere at that time and subsequently transferring to USC. It requires eight courses in six Core Literacies, plus two courses in Global Perspectives (which may double-count with courses in the Core Literacies) and two courses in writing. In addition, all entering freshmen are expected to complete a General Education Seminar during their first year at USC. These seminars satisfy one of the Core Literacy requirements above.

Note that courses within the major will also satisfy certain Core Literacy requirements. Please work with your major adviser to determine those courses.

Choral Music (BM)
Overview
All USC Thornton undergraduate programs in classical performance and composition combine a rigorous foundation of the finest conservatory training with curricular flexibility for students to chart their own artistic pathways. All curricular components are designed to support students in creating a distinctive musical voice and preparing for a fulfilling musical career.
Entrance Requirements
Admission to Thornton programs is granted through the USC admission process. Applicants are screened by appropriate faculty selection committees. Specific entrance requirements are reviewed on an annual basis and published online at music.usc.edu.

General Education Requirements
USC's General Education program, revised in fall 2015, provides a coherent, integrated approach to the study of the liberal arts, with the goal of nurturing habits of thought that are essential for professional success, personal development, and meaningful lifelong learning. Eight courses are required in six Core Literacies, in addition to two courses in Global Perspectives, two courses in Writing, and one General Education Seminar taken during the first year at USC. With careful planning, certain courses (including courses required for the music major) can fulfill more than one of these general education requirements. Academic advisers in the Thornton School carefully guide Thornton students in making their course choices. This typically will result in Thornton students taking a total of eight courses (including two writing courses) in order to fulfill all of the USC general education requirements.

Capstone Project
Young Artist Project
During the junior and senior years of the program, students develop and fully realize unique individualized, mentored projects related to their work as classical musicians. This could involve developing a hybrid performance, conducting original research, exploring new creative technologies or applying creative expression to a pressing social issue.

Composition (BM)

Overview
All USC Thornton undergraduate programs in classical performance and composition combine a rigorous foundation of the finest conservatory training with curricular flexibility for students to chart their own artistic pathways. All curricular components are designed to support students in creating a distinctive musical voice and preparing for a fulfilling musical career.

Entrance Requirements
Admission to Thornton programs is granted through the USC admission process. Applicants are screened by appropriate faculty selection committees. Specific entrance requirements are reviewed on an annual basis and published online at music.usc.edu.

General Education Requirements
USC's General Education program, revised in fall 2015, provides a coherent, integrated approach to the study of the liberal arts, with the goal of nurturing habits of thought that are essential for professional success, personal development, and meaningful lifelong learning. Eight courses are required in six Core Literacies, in addition to two courses in Global Perspectives, two courses
in Writing, and one General Education Seminar taken during the first year at USC. With careful planning, certain courses (including courses required for the music major) can fulfill more than one of these general education requirements. Academic advisers in the Thornton School carefully guide Thornton students in making their course choices. This typically will result in Thornton students taking a total of eight courses (including two writing courses) in order to fulfill all of the USC general education requirements.

Capstone Projects

Young Artist Project

During the junior and senior years of the program, students develop and fully realize unique individualized, mentored projects related to their work as classical musicians. This could involve developing a hybrid performance, conducting original research, exploring new creative technologies, or applying creative expression to a pressing social issue.

Recital

A senior recital must be completed under approved faculty supervision and guidance. The faculty of the department of the student's major program determines the detailed requirements of the recital, including content, length, format and other specifications. In cases in which a performance venue is required in order to present the recital, reservations must be made according to the current guidelines of the Music Operations office.

GE-A: The Arts (one course)

GE-B: Humanistic Inquiry (two courses)

GE-C: Social Analysis (two courses)

GE-D: Life Sciences (one course)

GE-E: Physical Sciences (one course)

GE-F: Quantitative Reasoning (one course)

Global Perspectives

GE-G: Citizenship in a Global Era (one course)

GE-H: Traditions and Historical Foundations (one course)

Writing

• WRIT 150 Writing and Critical Reasoning–Thematic Approaches Units: 4

• WRIT 340 Advanced Writing Units: 3, 4

Core Thornton Academic Courses (36 units)

• MUCD 348 Instrumental Conducting and Orchestration Units: 2

• MUCO 132a Aural Skills I Units: 2

• MUCO 132b Aural Skills I Units: 2

• MUCO 133a Theory I Units: 3

• MUCO 133b Theory I Units: 3

• MUCO 232a Aural Skills II Units: 2

• MUCO 232b Aural Skills II Units: 2

• MUCO 233a Theory II Units: 3

• MUCO 233b Theory II Units: 3

• MUHL 250g Music and Ideas Units: 4

• MUHL 350g Western Art Music History I Units: 4

• MUHL 351 Western Art Music History II Units: 4

• MUSC 496 Careers in Music Units: 2

Program Specific Courses (40 units)

Individual Instruction (24 units)

• MUCO 137a Composition I Units: 4

• MUCO 137b Composition I Units: 4

• MUCO 237a Composition II Units: 4

• MUCO 237b Composition II Units: 4

• MUCO 337a Composition III Units: 2

• MUCO 337b Composition III Units: 2

• MUCO 437a Composition IV Units: 2

• MUCO 437b Composition IV Units: 2

Ensembles (2 units)

MUEN Ensemble Electives at the 300-level: two 1-unit courses

Program Intensive (14 units)

• MUCO 135 Counterpoint I Units: 2

• MUCO 235 Counterpoint II Units: 2

• MUCO 336a Orchestration II Units: 2

• MUCO 336b Orchestration II Units: 2

• MUCO 434 Analytical Techniques Units: 2

Select 2 units from the following:

• MTEC 474a Electronic Synthesizer Techniques Units: 2, 3, 4

• MTEC 474b Electronic Synthesizer Techniques Units: 2, 3, 4

• MTEC 301 Individual Instruction Units: 1, 2

Select 2 units from the following:

• MPKS 250a Keyboard Instruction I Units: 2

• MPKS 250b Keyboard Instruction I Units: 2

Electives (20 units)

Contemporary Division Electives (4 units)

Select 4 units from the Contemporary Division

Courses include those listed below or others, in consultation with your chair and the Contemporary Division:

• MPGU 145 Guitar Proficiency for the Pop Guitarist Units: 2

• MPGU 150 Functional Skills for the Popular Guitarist Units: 2

• MPPM 120 Popular Music Performance I Units: 2

• MPPM 240 Drumming Proficiency for the Popular Musician Units: 2

• MPPM 250 Keyboard Proficiency for the Popular Musician Units: 2

• MPPM 370 The Vocal Edge: Contemporary Vocal Performance Techniques Units: 2

• MTEC 245 Introduction to MIDI Sequencing Units: 1

• MTEC 246 Introduction to Audio Recording and Editing Units: 1

• MTEC 248 Introduction to Music Notation Units: 1

• MTEC 249 Introduction to Web Design for Musicians Units: 1

• MTEC 277x Introduction to Music Technology Units: 4

• MUIN 272x Basics of the Music Industry Units: 4

• MUIN 425 Live Music Production and Promotion Units: 2

• MUJZ 141a Basic Keyboard Skills for the Improviser Units: 2

• MUJZ 450 Intermediate Jazz Improvisation Units: 2

• MUSC 255 Songwriting I Units: 2

General Electives (16 units)

Capstone Projects (4 units)

• MUSC 480 Young Artist Project I Units: 2

• MUSC 481 Young Artist Project II Units: 2

Total Required For Degree: 132

* With correct planning, only 32 units (6 GE and 2 Writing courses) will be needed outside of your major requirements.

**Requirement may be fulfilled with MPKS 301 Piano if proficiency level equivalent to MPKS 250b is demonstrated by examination.

Jazz Studies (BM)

Overview

The Bachelor of Music in Jazz Studies consists of course work in the major, core music studies (theory, aural skills, music history, conducting, large ensemble) and USC's general education and writing program.

Entrance Requirements

Admission to Thornton programs is granted through the USC admission process. Applicants are screened by appropriate faculty selection committees. Specific entrance requirements are reviewed on an annual basis and published online at music.usc.edu.

General Education Requirements

The university's General Education program provides a coherent, integrated introduction to the breadth of knowledge you will need to consider yourself (and to be considered by other people) a generally well-educated person. This program
is effective for all students entering USC in fall 2015 or later, or transfer students beginning college elsewhere at that time and subsequently transferring to USC. It requires eight courses in six Core Literacies, plus two courses in Global Perspectives (which may double-count with courses in the Core Literacies) and two courses in writing. In addition, all entering freshmen are expected to complete a General Education Seminar during their first year at USC. These seminars satisfy one of the Core Literacy requirements above.

Note that courses within the major will also satisfy certain Core Literacy requirements. Please work with your major adviser to determine those courses.

**Capstone Projects**
A senior recital or senior project must be completed under approved faculty supervision and guidance. The faculty of the department of the student's major program determines the detailed requirements of the recital or project, including content, length, format and/or other specifications. Note that senior projects must first be approved by the Jazz faculty. In cases in which a performance venue is required in order to present the recital, reservations must be made according to the current guidelines of the Music Operations office.

**Curriculum Requirements for Non-Guitar**

**General Education *  
Core Literacies**
- GE-A: The Arts (one course)
- GE-B: Humanistic Inquiry (two courses)
- GE-C: Social Analysis (two courses)
- GE-D: Life Sciences (one course)
- GE-E: Physical Sciences (one course)
- GE-F: Quantitative Reasoning (one course)

**Global Perspectives**
- GE-G: Citizenship in a Global Era (one course)
- GE-H: Traditions and Historical Foundations (one course)

**Writing**
- WRIT 150 Writing and Critical Reasoning–Thematic Approaches Units: 4
- WRIT 340 Advanced Writing Units: 3, 4

**Lessons (16 units)**
- MUJZ 153 Individual Instruction Units: 1, 2
  4 units total of MUJZ 153 in your primary instrument
- MUJZ 253 Individual Instruction Units: 1, 2
  4 units total of MUJZ 253 in your primary instrument
- MUJZ 353 Individual Instruction Units: 1, 2
  4 units total of MUJZ 353 in your primary instrument
- MUJZ 453 Individual Instruction Units: 1, 2
  4 units total of MUJZ 453 in your primary instrument

**Music Ensembles (14 units)**

Select 14 units from the following as directed by the department:
- MUEN 305 Vocal Jazz Ensemble Units: 1
- MUEN 326 Guitar Ensemble Units: 1
- MUEN 329 Jazz Ensemble Units: 1
- MUEN 332 Jazz Chamber Music Units: 1

**Program Intensive Courses (28 units)**
- MPPM 240 Drumming Proficiency for the Popular Musician Units: 2
- MUIN 270 Introduction to the Music Industry Units: 4
- MUJZ 141a Basic Keyboard Skills for the Improviser Units: 2
  4 units total of MUJZ 141a
- MUJZ 305a Advanced Jazz Theory Units: 2
- MUJZ 305b Advanced Jazz Theory Units: 2
  4 units total of MUJZ 305b
- MUJZ 395 Jazz Elements II Units: 2
- MUJZ 400 Arranging for Jazz Ensemble Units: 2

Select 2 units from the following as directed by the department:
- MUJZ 445 Advanced Jazz Ensemble Units: 2

Select 4 units from the following:
- MTEC 245 Introduction to MIDI Sequencing Units: 1
- MTEC 246 Introduction to Audio Recording and Editing Units: 1
- MTEC 248 Introduction to Music Notation Units: 1
- MTEC 249 Introduction to Web Design for Musicians Units: 1
- MTEC 443 Desktop Music Production Units: 2
- MTEC 444 Non-Linear MIDI Sequencing Units: 2
- MTEC 445 Advanced Desktop Music Production Units: 2
- MTEC 446a Computer Assisted Recording and Editing Units: 2
- MTEC 446b Computer Assisted Recording and Editing Units: 2
- MTEC 474a Electronic Synthesizer Techniques Units: 2, 3, 4

**Core Thornton Academic Courses (24 units)**
- MPPM 350g A History of Popular Music Units: 4
- MUHL 350g Western Art Music History I Units: 4
- MUHL 351 Western Art Music History II Units: 4
- MUSC 102g World Music Units: 4
- MUSC 115gp Western Music as Sounding History Units: 4
- MUSC 200g The Broadway Musical: Reflections of American Diversity Units: 4
- MUSC 210g Electronic Music and Dance Culture Units: 4
- MUSC 250g The Music of Black Americans Units: 4
- MUSC 320gmw Hip-hop Music and Culture Units: 4
- MUSC 371g Musical Genre Bending Units: 4
- MUSC 372g Music, Turmoil and Nationalism Units: 4
- MUSC 373g Writing About Popular Music Units: 4
- MUSC 460 Film Music: History and Function from 1930 to the Present Units: 4
- MUSC 465 Music, Television and American Culture Units: 4

**Electives (18 units)**

**Capstone Projects**
Senior Recital or Senior Project: 0 units

Total required for degree: 132

* With correct planning, only 32 units (6 GE and 2 Writing courses) will be needed outside of your major requirements.

**Curriculum Requirements for Guitar**

**General Education *  
Core Literacies**
- GE-A: The Arts (one course)

Total required for degree: 132

* With correct planning, only 32 units (6 GE and 2 Writing courses) will be needed outside of your major requirements.

Music (BA)*

Overview
The Bachelor of Arts in Music combines the flexibility of a Bachelor of Arts program with an in-depth education in music that includes theory, aural skills, music history and keyboard instruction.

Entrance Requirements
Admission to Thornton programs is granted through the USC admission process. Applicants are screened by appropriate faculty selection committees. Specific entrance requirements are reviewed on an annual basis and published online at music.usc.edu.

General Education Requirements
The university’s General Education program provides a coherent, integrated introduction to the breadth of knowledge you will need to consider yourself (and to be considered by other people) a generally well-educated person. This program is effective for all students entering USC in fall 2015 or later, or transfer students beginning college elsewhere at that time and subsequently transferring to USC. It requires eight courses in six Core Literacies, plus two courses in Global Perspectives (which may double-count with courses in the Core Literacies) and two courses in writing. In addition, all entering freshmen are expected to complete a General Education Seminar during their first year at USC. These seminars satisfy one of the Core Literacy requirements above.

Note that courses within the major will also satisfy certain Core Literacy requirements. Please work with your major adviser to determine those courses.

Curriculum Requirements
General Education *
Core Literacies
- GE-A: The Arts (one course)
- GE-B: Humanistic Inquiry (two courses)
- GE-C: Social Analysis (two courses)
- GE-D: Life Sciences (one course)
- GE-E: Physical Sciences (one course)
- GE-F: Quantitative Reasoning (one course)

Global Perspectives
- GE-G: Citizenship in a Global Era (one course)
- GE-H: Traditions and Historical Foundations (one course)

Writing
- WRIT 150 Writing and Critical Reasoning—Thematic Approaches Units: 4
- WRIT 340 Advanced Writing Units: 3, 4
Lessons (6 units)
Individual Instruction at the 301 level in primary instrument/voice
  • 6 units total of individual instruction

Music Ensembles (4 units)
Ensemble Electives at the 300-level: four 1-unit courses

Core Thornton Academic Courses (38)
  • MPKS 250a Keyboard Instruction I Units: 2
  • MPKS 250b Keyboard Instruction I Units: 2
  • MUCO 132a Aural Skills I Units: 2
  • MUCO 132b Aural Skills I Units: 2
  • MUCO 133a Theory I Units: 3
  • MUCO 133b Theory I Units: 3
  • MUCO 232a Aural Skills II Units: 2
  • MUCO 232b Aural Skills II Units: 2
  • MUCO 233a Theory II Units: 3
  • MUCO 233b Theory II Units: 3
  • MUCO 338x Elementary Orchestration Units: 2
  • MUHL 250g Music and Ideas Units: 4
  • MUHL 350g Western Art Music History I Units: 4
  • MUHL 351 Western Art Music History II Units: 4

Foreign Language (12 units)
Three 4-unit courses in the same language

Music Electives at the 300 or 400 Level (16 units)

Electives (20 units)
Total required for degree: 128

*With correct planning, only 32 units (6 GE and 2 Writing courses) will be needed outside of your major requirements.

Curriculum Areas of Study
Within the curriculum for the BA, students may wish to focus in a particular area of music that suits their interest and the faculty's expertise. Students may specialize in one area or may design individual programs of study by choosing various combinations of electives that best meet their needs and career objectives.

Relevant courses for each area are posted at usc.edu/music. One such option is listed below.

Vocal Jazz Option: This option is designed for students with a strong interest in the performance of solo and ensemble vocal jazz music. Students should take two semesters of Vocal Jazz Techniques, as well as individual instruction in jazz voice. Students may also perform in vocal ensembles and with instrumental combos.

Music Industry (BM)

Bachelor of Music
The Bachelor of Music (BM) is a professional degree granted by the Thornton School of Music. The various majors for the degree are listed below, along with specified requirements for each.

Senior Recital/Culminative Project
All performance majors are required, as indicated in the specific curriculum listings below, to either present a senior recital or complete a culminating project. Both must be completed under approved faculty supervision and guidance. The faculty of the department of the student's major program determine the detailed requirements of these recitals and projects, including content, length, format, and other specifications. In cases in which a performance venue is required in order to present the recital or complete the project, reservations must be made according to the current guidelines of the Music Operations office.

General Education Requirements
The university's general education program provides a coherent, integrated introduction to the breadth of knowledge you will need to consider yourself (and to be considered by other people) a generally well-educated person. This program is effective for all students entering USC in fall 2015 or later, or transfer students beginning college elsewhere at that time and subsequently transferring to USC. It requires eight courses in six Core Literacies, plus two courses in Global Perspectives (which may double-count with courses in the Core Literacies) and two courses in writing.

The provost has allowed an exception to the rules governing the new general education requirements for certain groups of students pursuing performance degrees in music. Students pursuing the Bachelor of Music in Jazz Studies or the Bachelor of Music in Performance (in all tracks except organ) may satisfy their social issues and first writing requirement separately by taking WRIT 130 (instead of WRIT 150) in the spring of their freshman year. In addition those pursuing the Bachelor of Music in Performance (vocal arts) may satisfy Category I of the new program with MUHL 331 and MUHL 332.

In all other respects, students in the Thornton School of Music must satisfy the general education requirements as described on the General Education Program page.

Individual Instruction Limitations
Music majors may accumulate a maximum of 16 units of individual instruction at the 300 level toward an undergraduate degree program.

Entrance Requirements
Applicants must submit the Thornton School of Music Supplementary Application, a statement of objectives, resume and repertoire list. A performance audition according to the requirements of the department of the applicant's primary instrument or voice is also required.

Curriculum Requirements
  • General education 6 courses
  • Writing 2 courses
  • MPxx 153 Units: 4 units total of individual instruction in primary instrument/voice
  • MPxx 253 Units: 4 units total of individual instruction in primary instrument/voice
  • MPxx 353 Units: 4 units total of individual instruction in primary instrument/voice*
  • MUCO 230a Keyboard Instruction I Units: 2
  • MUCO 230b Keyboard Instruction I Units: 2
  • MUCO 340 Choral Conducting I Units: 2 or MUCO 343 Instrumental Conducting I Units: 2
  • Ensemble electives: 2 units total
  • MUCO 132a Aural Skills I Units: 2
  • MUCO 132b Aural Skills II Units: 2
  • MUCO 133a Theory I Units: 3
  • MUCO 133b Theory II Units: 3
  • MUHL 250g Music and Ideas Units: 4
  • MUHL 350g Western Art Music History I Units: 4
  • MUHL 351 Western Art Music History II Units: 4

Two courses from the following:
  • MUIN 370 Music Publishing and Licensing Units: 2
  • MUIN 385 Radio in the Music Industry Units: 4
  • MUIN 425 Live Music Production and Promotion Units: 4
  • MUIN 430 Artist Management and Development Units: 4
  • MUIN 435 Manufacture and Distribution of Musical Products Units: 4
  • MUIN 440 Arts Management Units: 4
  • MUIN 443 The Business of Music for Visual Media Units: 4
  • MUIN 445 International Music Industry Units: 4
  • MUIN 495 Web Design for the Music Industry Units: 4
Music Technology requirements:
- MTEC 175 Fundamentals of Audio Recording Units: 2
- MTEC 176 Critical Listening Units: 2
- MTEC 275 Fundamentals of Audio Engineering Units: 4

6 units from the following:
- MUIN 287 The Business and Economics of the Recording Industry Units: 2
- MUIN 340 Introduction to Sound Reinforcement Units: 4
- MTEC 389 Digital Equipment and Recording Units: 2
- MTEC 392a Acoustics and Speaker Design Units: 2
- MTEC 422 Operation of the Radio Studio Units: 2
- MTEC 446a Computer Assisted Recording and Editing Units: 2
- MTEC 446b Computer Assisted Recording and Editing Units: 2
- MUIN 476a Advanced Sound Reinforcement Units: 2
- MUIN 476b Advanced Sound Reinforcement Units: 2
- MTEC 477 Remote Recording Techniques Units: 2
- MTEC 478 Advanced Multichannel Remix Units: 2
- MTEC 479 Audio Mastering Units: 2
- MUIN 497 Current Topics, Case Studies, and Analysis
- MUIN 498 Advanced Sound Reinforcement Units: 4
- MUIN 499 Music Media Solutions Units: 4

Electives: 6 units
- Junior Recital: 0 units

Total required for degree: 132

*All individual instruction units must be taken in the same area in which the students auditioned.

Music Industry (BS)

Overview
The Bachelor of Science in the Music Industry is a professional degree that prepares students to enter a variety of careers in the music industry of today. Students must fulfill a series of core requirements for the degree.

Entrance Requirements
Admission to Thornton programs is granted through the USC admission process. Applicants are screened by appropriate faculty selection committees. Specific entrance requirements are reviewed on an annual basis and published online at music.usc.edu.

General Education Requirements
The university's General Education program provides a coherent, integrated introduction to the breadth of knowledge you will need to consider yourself (and to be considered by other people) a generally well-educated person. This program is effective for all students entering USC in fall 2015 or later, or transfer students beginning college elsewhere at that time and subsequently transferring to USC. It requires eight courses in six Core Literacies, plus two courses in Global Perspectives (which may double-count with courses in the Core Literacies) and two courses in Writing. In addition, all entering freshmen are expected to complete a General Education Seminar during their first year at USC. These seminars satisfy one of the Core Literacy requirements above.

Note that courses within the major will also satisfy certain Core Literacy requirements. Please work with your major adviser to determine those courses.

Business-related Requirements
In addition to the above general education requirements, the following courses offered through the USC Marshall School of Business, the USC Leventhal School of Accounting and the USC Dornsife College of Letters, Arts and Sciences are required.

Capstone Project
A capstone project must be completed under approved faculty supervision and guidance. The faculty of the department of the student's major program determines the detailed requirements of the project, including content, length, format and other specifications. In cases in which a performance venue is required in order to present the project, reservations must be made according to the current guidelines of the Music Operations office.

Curriculum Requirements

General Education *

Core Literacies
- GE-A: The Arts (one course)
- GE-B: Humanistic Inquiry (two courses)
- GE-C: Social Analysis (two courses)
- GE-D: Life Sciences (one course)
- GE-E: Physical Sciences (one course)
- GE-F: Quantitative Reasoning (one course)

Global Perspectives
- GE-G: Citizenship in a Global Era (one course)
- GE-H: Traditions and Historical Foundations (one course)

Writing
- WRIT 150 Writing and Critical Reasoning–Thematic Approaches Units: 4
- WRIT 340 Advanced Writing Units: 3, 4

Business Related Courses (12 units)
- ACCT 410x Foundations of Accounting Units: 4
- Any 4 unit ECON course

One course from the following:
- BAEP 450 Fundamentals of Entrepreneurship Units: 4
- BAEP 451 The Management of New Enterprises Units: 4

Program Intensive Courses (28 units)
- MPPM 100 Popular Music Forum Units: 1 (2 units total of MPPM 100)
- MTEC 175 Fundamentals of Audio Recording Units: 2
- MTEC 176 Critical Listening Units: 2
- MUIN 270 Introduction to the Music Industry Units: 4
- MUIN 360 Introduction to Music Law Units: 4
- MUIN 370 Music Publishing and Licensing Units: 2
- MUIN 425 Live Music Production and Promotion Units: 4
- MUIN 450 Practicum in Music Industry Issues (Internship) Units: 2, 3, 4 (4 units total of MUIN 450)

- MUIN 495 Web Design for the Music Industry Units: 4
- MUIN 496 Music Media Solutions Units: 4

Select 8 units from the following:
- MUIN 340 Introduction to Sound Reinforcement Units: 4
- MUIN 476a Advanced Sound Reinforcement Units: 2
- MUIN 476b Advanced Sound Reinforcement Units: 2
- MTEC 245 Introduction to MIDI Sequencing Units: 1
- MTEC 246 Introduction to Audio Recording and Editing Units: 1
- MTEC 248 Introduction to Music Notation Units: 1
Electives (20 units)
Capstone Projects (2 units)
- MUI 498a Final Capstone Project Units: 1
- MUI 498b Final Capstone Project Units: 1
Total units: 128
*With correct planning, only 32 units (6 GE and 2 Writing courses) will be needed outside of your major requirements.

Music Production (BM)
Overview
The Bachelor of Music in Music Production consists of course work in the major area, core music classes, USC's general education and writing, as well as electives to take advantage of the offerings of the Thornton School and of the entire university.

Entrance Requirements
Admission to Thornton programs is granted through the USC admission process. Applicants are screened by appropriate faculty selection committees. Specific entrance requirements are reviewed on an annual basis and published online at music.usc.edu.

General Education Requirements
USC’s General Education program, revised in fall 2015, provides a coherent, integrated approach to the study of the liberal arts, with the goal of nurturing habits of thought that are essential for professional success, personal development, and meaningful lifelong learning. Eight courses are required in six Core Literacies, in addition to two courses in Global Perspectives, two courses in Writing, and one General Education Seminar taken during the first year at USC. With careful planning, certain courses (including courses required for the music major) can fulfill more than one of these general education requirements. Academic advisers in the Thornton School carefully guide Thornton students in making their course choices. This typically will result in Thornton students taking a total of eight courses (including two writing courses) in order to fulfill all of the USC general education requirements.

Capstone Project
A capstone project must be completed under approved faculty supervision and guidance. The faculty of the department of the student's major program determines the detailed requirements of the project, including content, length, format and other specifications. In cases in which a performance venue is required in order to present the project, reservations must be made according to the current guidelines of the Music Operations office.

Curriculum Requirements
General Education *
Core Literacies
- GE-A: The Arts (one course)
- GE-B: Humanistic Inquiry (two courses)
- GE-C: Social Analysis (two courses)
- GE-D: Life Sciences (one course)
- GE-E: Physical Sciences (one course)
- GE-F: Quantitative Reasoning (one course)

Global Perspectives
- GE-G: Citizenship in a Global Era (one course)
- GE-H: Traditions and Historical Foundations (one course)

Writing
- WRIT 150 Writing and Critical Reasoning–Thematic Approaches Units: 4
- WRIT 340 Advanced Writing Units: 3, 4

Core Thornton Academic Courses (34 units)
- MUCO 131a Harmony in Popular Music Units: 2
- MUCO 131b Harmony in Popular Music Units: 2
- MUCO 132a Aural Skills I Units: 2
- MUCO 132b Aural Skills I Units: 2
- MUCO 133a Theory I Units: 3
- MUCO 133b Theory I Units: 3
• MU CO 232a Aural Skills II Units: 2
• MU CO 232b Aural Skills II Units: 2
• MUHL 250g Music and Ideas Units: 4

One course from the following:
• MPPM 350g A History of Popular Music Units: 4
• MUHL 350g Western Art Music History I Units: 4
• MUJZ 350g A History of Jazz Music Units: 4

One course from the following:
• MUHL 351 Western Art Music History II Units: 4
• MUSC 102gw World Music Units: 4
• MUSC 115gp Western Music as Sounding History Units: 4
• MUSC 200gmw The Broadway Musical: Reflections of American Diversity Units: 4
• MUSC 210g Electronic Music and Dance Culture Units: 4
• MUSC 250gmw The Music of Black Americans Units: 4
• MUSC 320gmv Hip-hop Music and Culture Units: 4
• MUSC 371g Musical Genre Bending Units: 4
• MUSC 372g Music, Turmoil and Nationalism Units: 4

Performance (Popular Music) (BM)

Overview
The Bachelor of Music in Popular Music is designed for students interested in pursuing a career in the performance of popular music. This program consists of course work in the major performance area, core music classes, USC's general education and writing, as well as electives to take advantage of the offerings of the Thornton School and of the entire university.

Entrance Requirements
Admission to Thornton programs is granted through the USC admission process. Applicants are screened by appropriate faculty selection committees. Specific entrance requirements are reviewed on an annual basis and published online at music.usc.edu.

General Education Requirements
The university's General Education program provides a coherent, integrated introduction to the breadth of knowledge you will need to consider yourself (and to be considered by other people) a generally well-educated person. This program is effective for all students entering USC in fall 2015 or later, or transfer students beginning college elsewhere at that time and subsequently transferring to USC. It requires eight courses in six Core Literacies, plus two courses in Global Perspectives.
(which may double-count with courses in the Core Literacies) and two courses in writing. In addition, all entering freshmen are expected to complete a General Education Seminar during their first year at USC. These seminars satisfy one of the Core Literacy requirements above. Note that courses within the major will also satisfy certain Core Literacy requirements. Please work with your major adviser to determine those courses.

Capstone Project
A capstone project must be completed under approved faculty supervision and guidance. The faculty of the department of the student’s major program determines the detailed requirements of the project, including content, length, format and other specifications. In cases in which a performance venue is required to present the project, reservations must be made according to the current guidelines of the Music Operations office.

 ***Keyboardists will substitute a class in guitar or voice.

Performance (Studio Guitar) (BM)

Overview
The Bachelor of Music in Studio Guitar consists of course work in the major, core music studies (theory, aural skills, music history, conducting, large ensemble) and USC’s general education and writing program.

Entrance Requirements
Admission to Thornton programs is granted through the USC admission process. Applicants are screened by appropriate faculty selection committees. Specific entrance requirements are reviewed on an annual basis and published online at music.usc.edu.

General Education Requirements
The university’s General Education program provides a coherent, integrated introduction to the breadth of knowledge you will need to consider yourself (and to be considered by other people) a generally well-educated person. This program is effective for all students entering USC in fall 2015 or later, or transfer students beginning college elsewhere at that time and subsequently transferring to USC. It requires eight courses in six Core Literacies, plus two courses in Global Perspectives (which may double-count with courses in the Core Literacies) and two courses in writing. In addition, all entering freshmen are expected to complete a General Education Seminar during their first year at USC. These seminars satisfy one of the Core Literacy requirements above.

Note that courses within the major will also satisfy certain Core Literacy requirements. Please work with your major adviser to determine those courses.

Capstone Projects
A junior and senior recital must be completed under approved faculty supervision and guidance. The faculty of the department of the student's major program determines the detailed requirements of the recitals, including content, length, format and other...
specifications. In cases in which a performance venue is required in order to present the recitals, reservations must be made according to the current guidelines of the Music Operations office.

**Curriculum Requirements for Traditional Emphasis**

**General Education** *

**Core Literacies**

GE-A: The Arts (one course)
GE-B: Humanistic Inquiry (two courses)
GE-C: Social Analysis (two courses)
GE-D: Life Sciences (one course)
GE-E: Physical Sciences (one course)
GE-F: Quantitative Reasoning (one course)

**Global Perspectives**

GE-G: Citizenship in a Global Era (one course)
GE-H: Traditions and Historical Foundations (one course)

**Writing**

- WRIT 150 Writing and Critical Reasoning–Thematic Approaches Units: 4
- WRIT 340 Advanced Writing Units: 3, 4

**Lessons (16 units)**

- MPGU 153 Individual Instruction Units: 1 or 2
  
  4 units total of MPGU 153 (Studio Guitar)
- MPGU 253 Individual Instruction Units: 1 or 2
  
  4 units total of MPGU 253 (Studio Guitar)
- MPGU 353 Individual Instruction Units: 1 or 2
  
  4 units total of MPGU 353 (Studio Guitar)
- MPGU 453 Individual Instruction Units: 1 or 2
  
  4 units total of MPGU 453 (Studio Guitar)

**Music Ensembles (10 units)**

- MUEN 326 Guitar Ensemble Units: 1
  
  6 units total of MUEN 326
- Ensemble electives: four 1-unit courses

**Program Intensive Courses (27 units)**

- MPGU 158 Guitarists in the U.S. Units: 2
- MPGU 159 Functional Skills for Studio Guitarists I Units: 2
- MPGU 258 Functional Skills for Studio Guitarists I Units: 2
- MPGU 358 Performance Practices for Studio Guitarists Units: 2
  
  4 units total of MPGU 358
- MPGU 415 Studio Guitar Pedagogy Units: 2
- MPGU 416 Evolution of the Guitar in the United States Units: 3
- MPGU 426 Classical Guitar History and Literature Units: 2
- MPGU 428A Improvisation and Arranging for Guitarists Units: 3
- MPGU 428B Improvisation and Arranging for Guitarists Units: 3
- MPGU 458 Current Electric Guitar Styles Units: 2

Performance (Violin), (Viola), (Violoncello), (Double Bass) or (Harp) (BM)

Overview
All USC Thornton undergraduate programs in classical performance and composition combine a rigorous foundation of the finest conservatory training with curricular flexibility for students to chart their own artistic pathways. All curricular components are designed to support students in creating a distinctive musical voice and preparing for a fulfilling musical career.

Entrance Requirements
Admission to Thornton programs is granted through the USC admission process. Applicants are screened by appropriate faculty selection committees. Specific entrance requirements are reviewed on an annual basis and published online at music.usc.edu.

General Education Requirements
USC's General Education program, revised in fall 2015, provides a coherent, integrated approach to the study of the liberal arts, with the goal of nurturing habits of thought that are essential for professional success, personal development, and meaningful lifelong learning. Eight courses are required in six Core Literacies, in addition to two courses in Global Perspectives, two courses in Writing, and one General Education Seminar taken during the first year at USC. With careful planning, certain courses (including courses required for the music major) can fulfill more than one of these general education requirements. Academic advisers in the Thornton School carefully guide Thornton students in making their course choices. This typically will result in Thornton students taking a total of eight courses (including two writing courses) in order to fulfill all of the USC general education requirements.

Capstone Projects
Young Artist Project
During the junior and senior years of the program, students develop and fully realize unique individualized, mentored projects related to their work as classical musicians. This could involve developing a hybrid performance, conducting original research, exploring new creative technologies, or applying creative expression to a pressing social issue.
• MPPM 120 Popular Music Performance I Units: 2
• MPPM 240 Drumming Proficiency for the Popular Musician Units: 2
• MPPM 250 Keyboard Proficiency for the Popular Musician Units: 2

Minor

Jazz Studies Minor
This 21-unit minor program in jazz studies incorporates course work in individual instruction, the history of jazz masters, techniques of jazz improvisation and jazz theory for improvisers. The minor is not available to BM jazz studies majors.

Requirements for admission are: GPA per university regulations and an audition.

Required Courses (19 units)
• MUCO 130a Basics of Music Theory Units: 3
• MUJZ 150 Beginning Jazz Improvisation Units: 2
• MUJZ 301 Individual Instruction Units: 1, 2
• MUJZ 450 Intermediate Jazz Improvisation Units: 2
• MUSC 250gmw The Music of Black Americans Units: 4

Select 4 units from the following:
• MUEN 305 Vocal Jazz Ensemble Units: 1
• MUEN 326 Guitar Ensemble Units: 1
• MUEN 329 Jazz Ensemble Units: 1
• MUEN 332 Jazz Chamber Music Units: 1

Music Electives (2 units)
Music courses numbered 300–499 (2 units total)

Total units: 21

Music Industry Minor
A minor in the music industry is offered for undergraduate students to provide them with the background necessary to enter varied fields in the music business and to familiarize them with standard practices and procedures. A minimum of 20 units is required for completion of this minor. The minor is not available to music industry majors.

Prerequisite
Acceptance into the program might require a personal interview by the Thornton School of Music.

Students admitted to this minor will be expected to have a minimum GPA of 2.0 and to maintain that average with no grade lower than a "C" for all courses taken in the minor.

Required Courses
• MUJN 272x Basics of the Music Industry Units: 4

Select 4 units from the following:
• MUSC 115gp Western Music as Sounding History Units: 4
• MUSC 210g Electronic Music and Dance Culture Units: 4
• MUSC 250gmw The Music of Black Americans Units: 4
• MUSC 320gmw Hip-hop Music and Culture Units: 4
• MUSC 422 The Beatles: Their Music and Their Times Units: 4
• MUSC 423 Classic Rock: Popular Music of the Sixties and Seventies Units: 2

Total Required For Degree: 132

General Electives (12 units)

**Select 8 units from the following:**

- MTEC 245 Introduction to MIDI Sequencing: 1
- MTEC 246 Introduction to Audio Recording and Editing Units: 1
- MTEC 277x Introduction to Music Technology Units: 4
- MTEC 446a Computer Assisted Recording and Editing Units: 2
- MTEC 446b Computer Assisted Recording and Editing Units: 2
- MUIN 280 Communications in the Music Industry Units: 4
- MUIN 370 Music Publishing and Licensing Units: 2
- MUIN 372 Business and Legal Aspects of the Music Industry Units: 4
- MUIN 410 Marketing, Branding and Strategic Alliances in Music Units: 2
- MUIN 420 DIY Music Marketing Units: 2
- MUIN 425 Live Music Production and Promotion Units: 4
- MUIN 430 Artist Management and Development Units: 4
- MUIN 444 Music Supervision Units: 4
- MUIN 495 Web Design for the Music Industry Units: 4
- MUIN 497 Current Topics, Case Studies, and Analysis Units: 2

**Total units: 20**

### Music Production Minor

A successful career in the 21st century music industry often requires that musicians be the songwriter, performer, producer and/or audio engineer on any given project. The minor in Music Production allows students to develop the creative, collaborative and technical skills required to compose, arrange and produce for contemporary music projects.

**Prerequisite**

Acceptance into the program might require a personal interview by the Thornton School of Music to assure that the student has sufficient musical background and skill. Students admitted to this minor will be expected to have a minimum GPA of 2.0 and to maintain that average with no grade lower than a “C” for all courses taken in the minor.

**Required Courses**

- MTEC 245 Introduction to MIDI Sequencing: 1
- MTEC 246 Introduction to Audio Recording and Editing Units: 1
- MTEC 277x Introduction to Music Technology Units: 4
- MTEC 446a Computer Assisted Recording and Editing Units: 2
- MTEC 446b Computer Assisted Recording and Editing Units: 2
- MUIN 280 Communications in the Music Industry Units: 4
- MUIN 370 Music Publishing and Licensing Units: 2
- MUIN 372 Business and Legal Aspects of the Music Industry Units: 4
- MUIN 410 Marketing, Branding and Strategic Alliances in Music Units: 2
- MUIN 420 DIY Music Marketing Units: 2
- MUIN 425 Live Music Production and Promotion Units: 4
- MUIN 430 Artist Management and Development Units: 4
- MUIN 444 Music Supervision Units: 4
- MUIN 495 Web Design for the Music Industry Units: 4
- MUIN 497 Current Topics, Case Studies, and Analysis Units: 2

**Select 8 units from the following:**

- MTEC 378 Introduction to Mixing and Mastering Units: 2
- MTEC 443 Desktop Music Production Units: 2
- MTEC 444 Non-Linear MIDI Sequencing Units: 2
- MTEC 445 Advanced Desktop Music Production Units: 2
- MTEC 446a Computer Assisted Recording and Editing Units: 2
- MTEC 446b Computer Assisted Recording and Editing Units: 2
- MTEC 474a Electronic Synthesizer Techniques Units: 2, 3, 4
  (2 units total)
- MTEC 474b Electronic Synthesizer Techniques Units: 2, 3, 4
  (2 units total)
- MTEC 478 Advanced Multichannel Remix Units: 2
- MUSC 355 Songwriting II Units: 2
- MUSC 388x Elementary Orchestration Units: 2
- SCOR 403 Introduction to Scoring Movies and Television Units: 2
- SCOR 405 Introduction to Scoring Video Games Units: 2

**Note:**

*Music Industry majors can substitute MTEC 175 and MTEC 176 for MTEC 277.*

**Courses have prerequisites**

**Total Units: 19**

### Music Recording Minor

A minor in music recording is offered for undergraduate students to provide them with the background necessary to enter the field of audio engineering and to familiarize them with the standards and techniques used in audio recording, editing, mixing and mastering.

**Prerequisite**

Acceptance into the program might require a personal interview by the Thornton School of Music to assure that the student has sufficient musical background and skill. Students admitted to this minor will be expected to have a minimum GPA of 2.0 and to maintain that average with no grade lower than a “C” for all courses taken in the minor.

Students must apply for this minor, and admission is based on successful completion of MTEC 277x. Generally, students who earn a B or better in this course and have a GPA of 2.0 or higher are admitted. Declared engineering (ENGR) majors with a GPA of 3.0 or higher may be admitted before completing MTEC 277x.

**Required Courses**

- MTEC 275 Fundamentals of Audio Engineering Units: 4
- MTEC 277x Introduction to Music Technology Units: 4
- MTEC 446a Computer Assisted Recording and Editing Units: 2

**8 units from the following:**

- MTEC 378 Introduction to Mixing and Mastering Units: 2
- MTEC 389 Digital Equipment and Recording Units: 2
- MTEC 392a Acoustics and Speaker Design Units: 2
- MTEC 430 Advanced Instrumental Recording Units: 2
- MTEC 446a Computer Assisted Recording and Editing Units: 2
- MTEC 446b Computer Assisted Recording and Editing Units: 2
- MTEC 478 Advanced Multichannel Remix Units: 2
- MTEC 479 Audio Mastering Units: 2
- MTEC 491 The Recording Console Units: 4
- MTEC 493 Audio Signal Processing Equipment Units: 2
- MUIN 340 Introduction to Sound Reinforcement Units: 4

**Total units: 18**

*Music Industry majors can substitute MTEC 175 and MTEC 176 for MTEC 277x.*

### Musical Studies Minor

This 18-unit program in musical studies, with an emphasis in performance, incorporates the study of music theory, music history, performance, and ensembles. Students may enter the program in their freshman year. An audition is required for this minor, which is not available to music majors.

**Required Courses**

- MUCO 130ax Basics of Music Theory Units: 3
- MUCO 130bx Basics of Music Theory Units: 3
- MUEN 300--499
- MUSC 115gp Western Music as Sounding History Units: 4
- Individual Instruction at the 301 level

**Total Units: 18**

### Musical Theatre Minor

The minor in musical theatre, interdisciplinary in nature, is a 21-unit program incorporating the study of acting, dance or movement, vocal arts and related musical subjects. Admission to the minor requires an audition for music but not for theatre.
Required Courses (13 units)
- MPVA 402 Musical Theatre Workshop I Units: 3
- MPVA 412 Musical Theatre Workshop II Units: 3
- MUSC 200gmw The Broadway Musical: Reflections of American Diversity Units: 4
- THTR 343 Musical Theatre Audition Units: 3

Select 8 units from the following: *
- DANC 175 Choreography for the Screen Units: 2
- DANC 181–189
- MPVA 301 Individual Instruction Units: 1, 2
- THTR 101 Introduction to Acting Units: 4
- THTR 216 Movement for Actors Units: 2
- THTR 252a Intermediate Acting I: American Drama Units: 2
- THTR 252b Intermediate Acting I: American Drama Units: 2
- THTR 316 Advanced Movement for Actors Units: 2
- THTR 352a Intermediate Acting II Units: 2
- THTR 352b Intermediate Acting II Units: 2

Total units: 21

*Note for dance, music and theatre majors: dance majors must select 8 units in music and/or theatre, music majors must select 8 units in dance and/or theatre, and theatre majors must select 8 units in dance and/or music. Exception: Theatre majors may select THTR 216 and/or THTR 316 as part of the 8-unit requirement.

Popular Music Studies Minor
This minor consists of courses that examine different aspects of popular music. The minor focuses on the study of the repertoires and their cultural and social context. Students must be in good academic standing to be admitted. No previous musical experience is required.

Course Requirements (16 units total)
Choose 16 units from the following:
- MUSC 102gw World Music Units: 4
- MUSC 200gmw The Broadway Musical: Reflections of American Diversity Units: 4
- MUSC 210g Electronic Music and Dance Culture Units: 4
- MUSC 250gmw The Music of Black Americans Units: 4
- MUSC 320gmw Hip-hop Music and Culture Units: 4
- MUSC 373g Writing About Popular Music Units: 4
- MUSC 422 The Beatles: Their Music and Their Times Units: 4
- MUSC 423 Classic Rock: Popular Music of the Sixties and Seventies Units: 2
- MUSC 424 Iconic Figures of Popular Music Units: 2
- MUSC 444 American Roots Music: History and Culture Units: 4
- MUSC 460 Film Music: History and Function from 1930 to the Present Units: 4
- MUSC 465 Music, Television and American Culture Units: 4

Songwriting Minor
The minor in songwriting incorporates practical instruction in the craft of songwriting and in performance skills, instruction in the technology relevant to songwriting, and critical studies in the relevant repertoires.

Requirements for admission: Those who are considering this program should enroll in MUSC 255 Songwriting I. Admission will be based on songwriting ability and potential as determined by the songwriting faculty.

Required Courses (16 units)
- MTEC 245 Introduction to MIDI Sequencing Units: 1
- MTEC 246 Introduction to Audio Recording and Editing Units: 1
- MUCO 130ax Basics of Music Theory Units: 3
- MUCO 130bx Basics of Music Theory Units: 3
- MUSC 255 Songwriting I Units: 2
- MUSC 355 Songwriting II Units: 2
- MUSC 455 Songwriting III: The Performing Songwriter Units: 2

Choose one course from the following:
- MTEC 443 Desktop Music Production Units: 2
- MTEC 446a Computer Assisted Recording and Editing Units: 2

Choose 4 units from the following:
- COMM 306 Innovation, Entertainment, and the Arts Units: 4
- COMM 307 Sound Clash: Popular Music and American Culture Units: 4
- COMM 384 Interpreting Popular Culture Units: 4
- COMM 440 Music as Communication Units: 4
- MUSC 102gw World Music Units: 4
- MUSC 115gp Western Music as Sounding History Units: 4
- MUSC 200gmw The Broadway Musical: Reflections of American Diversity Units: 4
- MUSC 210g Electronic Music and Dance Culture Units: 4
- MUSC 250gmw The Music of Black Americans Units: 4
- MUSC 320gmw Hip-hop Music and Culture Units: 4
- MUSC 371g Musical Genre Bending Units: 4
- MUSC 372g Music, Turmoil and Nationalism Units: 4
- MUSC 373g Writing About Popular Music Units: 4
- MUSC 422 The Beatles: Their Music and Their Times Units: 4
- MUSC 423 Classic Rock: Popular Music of the Sixties and Seventies Units: 2
- MUSC 424 Iconic Figures of Popular Music Units: 2
- MUSC 444 American Roots Music: History and Culture Units: 4
- MUSC 460 Film Music: History and Function from 1930 to the Present Units: 4
- MUSC 465 Music, Television and American Culture Units: 4

Total units: 20

Diploma

Artist Diploma Program
This program is designed for young artists of exceptional ability and musical sensitivity who plan careers as solo performers. The Artist Diploma Program provides young artists with the opportunity to devote their full time to concentrated study and practice for the duration of their assigned programs.

Entrance Requirements
Following the recommendation of the student’s major department, a performance audition, consisting of a full-length recital before the Artist Diploma Committee, is required.

Curriculum Requirements
A minimum of 16 units at the 754 level (from MPEM, MPGU, MPKS, MPST, MPVA or MPWP) and four full-length recitals are required. This program requires four consecutive semesters of study for completion.

Master's Degree

Arts Leadership (MS)

Overview
USC's Arts Leadership program (ARTL) is a flexible, multi-disciplinary graduate program for artists, arts administrators and cultural entrepreneurs who want to expand their personal vision and develop the ability to create a life and a career in the nonprofit arts. The curriculum is appropriate for both early and mid-career individuals engaged in any or multiple arts disciplines, who recognize that the rapidly changing world of the 21st century requires an innovative approach to arts leadership. The program is highly individualized, allowing students to design the course of study that is most appropriate for them and their career aspirations.

Admission
Admission to Thornton programs is granted through the USC admission process. Applicants are screened by appropriate faculty selection committees. Specific entrance requirements
are reviewed on an annual basis and published online at music.usc.edu.

Unit and Grade Requirements

Students must complete at least 26 semester units at USC, including the Practicum. A grade point average of not less than 3.0 (A = 4.0) is required for all graduate courses, and a grade of B or higher is required for all courses in the major department. Students who transfer credits must achieve this average on all combined transferred and residence units.

Transferred Credits

All credits transferred must be the equivalent of corresponding current work at USC. Course work completed at another institution that has been approved by the Thornton School for transfer credit must have been completed within seven years from the date of admission to a master's degree program to be applied toward that degree. Transfer credit petitions must be filed with the appropriate Thornton adviser during the first semester in residence.

Time Limit

The time limit for completing the Master of Science degree is five years. Progress is measured from the beginning of the first course at USC applied toward the degree. Extensions will be granted by petition to the Thornton School for only the most compelling reasons.

Capstone

A practicum project is required as the capstone for the Master of Science in Arts Leadership. Students will conceptualize, develop and complete an arts project of his or her own choosing to pursue in conjunction with the course work. The practicum project will be centered around a complex leadership challenge that resonates both for the student's particular artistic circumstances and for the field of arts leadership.

Curriculum Requirements

Program Intensive Courses (11 units)

- ARTL 500 Arts Leadership and Arts Entrepreneurship Units: 2
- ARTL 501 Executive Leadership in the Arts Units: 2
- ARTL 502 Issues in the Arts and the Contemporary World Units: 2
- ARTL 503 Arts Organizations: Innovation and New Models Units: 2
- ARTL 504 Arts and the Community: Current Practice and New Visions Units: 2
- ARTL 520 Arts Leadership Intensive Units: 1

Field Experience Courses (4 units)

Select 4 units from the following:

- ARTL 512 Essentials of Orchestra Management Units: 2
- ARTL 590 Directed Research Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12
- MUSC 598 Internship in Music Units: 1, 2, 3, 4

Elective Concentration Courses (12 units)

Students will select a topic area of concentration related to their interests. Relevant courses will be chosen from around the University in consultation with and approved by the Arts Leadership Program Director in conjunction with appropriate department chairs and directors.

Suggested topic areas include but are not limited to:

- Curatorial
- Organizational Communication
- Globalization and the Arts
- Diversity, Equity and Inclusion in the Arts
- Art and Technology
- Organizational Management
- Cultural Entrepreneurship
- Art and Social Change

Capstone Project (4 units)

- ARTL 510 Arts Leadership Practicum Units: 2
- 4 units total of ARTL 510

Total Units: 31

Choral Music (MM)

Overview

The MM in choral music consists of course work in choral conducting, choral music seminars, choral literature, choral development, music history, and vocal arts. The program culminates with a graduate recital.

Admission

Admission to Thornton programs is granted through the USC admission process. Applicants are screened by appropriate faculty selection committees. Specific entrance requirements are reviewed on an annual basis and published online at music.usc.edu.

Unit and Grade Requirements

Students must complete at least 26 semester units at USC, including the thesis or recital. A grade point average of not less than 3.0 (A = 4.0) is required for all graduate courses in music, and a grade of B or higher is required for all courses in the major department. Students who transfer credits must achieve this average on all combined transferred and residence units.

Transferred Credits

All credits transferred must be the equivalent of corresponding current work at USC. Course work completed at another institution that has been approved by the Thornton School for transfer credit must have been completed within seven years from the date of admission to a master's degree program to be applied toward that degree. Transfer credit petitions must be filed with the appropriate Thornton adviser during the first semester in residence.

Time Limit

The time limit for completing the Master of Music degree is five years. Progress is measured from the beginning of the first course at USC applied toward the degree. Extensions will be granted by petition to the Thornton School for only the most compelling reasons.

Music Graduate Entrance Exams

All students entering a graduate-level degree program (MA, MM, DMA, PhD) at USC Thornton, who have not previously completed a degree at USC Thornton, must take a series of entrance exams in core music subjects. These exams are called Music Graduate Entrance Exams (MGEES). Information regarding which exams are required for specific majors is available from the Thornton Student Affairs office. Also see the Thornton School of Music Admission to Graduate Standing section of this catalogue for specific policies relating to these exams.

Master's Recital

One public recital is required of all candidates for the Master of Music degree (Choral Music), as indicated below. Candidates must apply for recital dates, according to the current guidelines of the Music Operations office. Some departments require that a candidate be prepared to play or conduct the recital program for the approval of a faculty committee in advance.

Comprehensive Review

Candidates for the Master of Music must pass a comprehensive review toward the end of their course of study, usually in the final semester. This review, which is administered by the faculty of the major department, consists of an oral or written examination, covering relevant aspects of musical performance, literature, and/or technique. A final oral examination in choral literature, conducting and rehearsal techniques will be administered by the choral music faculty.

Curriculum Requirements

Keyboard Proficiency

A keyboard proficiency test will be given by the choral faculty during the student's first semester in residence to determine if additional study in keyboard is required.
Lessons (2 units)
- MPVA 501 Individual Instruction Units: 1 or 2
- VO (2 units total)

Music Ensembles (2 units)
- Ensemble Units: 2 units total*

Program Intensive Courses (16 units)
- MUCD 541 Choral Conducting III Units: 2
  (6 units total)
- MUCM 541 Choral Literature I Units: 2
- MUCM 542 Choral Literature II Units: 2
- MUCM 590 Directed Research Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12
  (2 units total)
- MUCM 641 Choral Literature III Units: 2

Core Thornton Academic Courses (10 units)
- MUCD 443 Instrumental Conducting II Units: 2
- MUHL 570 Research Materials and Techniques Units: 2
- MUHL Electives at 500 level Units: 4 units total

Choose one course from the following:
- MPVA 541 Advanced Vocalogy Units: 2 **
- MPVA 542 Vocal Pedagogy Teaching Practicum Units: 2

Capstone Projects (0 units)
- Graduate recital Units: 0
- Comprehensive review Units: 0

Total units: 30
*Choral music majors must participate in a choral ensemble chosen from MUEN 510 or MUEN 512 each semester if enrolled for 4 or more units.

**Courses with similar content in MPVA 541 taken at another institution may be substituted, subject to Vocal Arts departmental approval. Consult with the Vocal Arts and Sacred Music departments to finalize substitution approval and/or course placement.

Community Music (MM)

Overview
The Master of Music in Community Music is for musicians with a commitment to developing the necessary skills and best understandings of music teaching and learning in community settings. The program will build upon music preparation from the undergraduate level with course work designed to nurture skills in community music teaching, program development, professional practice, scholarship and research. With the wide range of courses available, the program can be tailored for a variety of student goals. This degree provides an academic link to the rich music teaching and learning opportunities available through community programs in urban Los Angeles and, in particular, to the Thornton Community Engagement Programs.

Admission
Admission to Thornton programs is granted through the USC admission process. Applicants are screened by appropriate faculty selection committees. Specific entrance requirements are reviewed on an annual basis and published online at music.usc.edu.

Graduate Record Examinations
Scores from the General Test of the Graduate Record Examinations (GRE) are required for application and admission to the MM in Community Music. Detailed requirements are available at the Thornton Website, music.usc.edu. Test scores on the GRE that are more than five years old at the time of application are not accepted.

Unit and Grade Requirements
Students must complete at least 26 semester units at USC, including a capstone and comprehensive review. A grade point average of not less than 3.0 (A = 4.0) is required for all graduate courses in music, and a grade of B or higher is required for all courses in the major department. Students who transfer credits must achieve this average on all combined transferred and residence units.

Transferred Credits
All credits transferred must be the equivalent of corresponding current work at USC. Course work completed at another institution that has been approved by the Thornton School for transfer credit must have been completed within seven years from the date of admission to a master's degree program to be applied toward that degree. Transfer credit petitions must be filed with the appropriate Thornton adviser during the first semester in residence.

Time Limit
The time limit for completing the Master of Music degree is five years. Progress is measured from the beginning of the first course at USC applied toward the degree. Extensions will be granted by petition to the Thornton School for only the most compelling reasons.

Music Graduate Entrance Exams
All students entering this graduate-level degree program at USC Thornton, who have not previously completed a degree at USC Thornton, must take a series of entrance exams in core music subjects. These exams are called Music Graduate Entrance Exams (MGEEs). Information regarding which exams are required for specific majors is available from the Thornton Student Affairs office. Also see the USC Thornton School of Music Admission to Graduate Standing section of this catalogue for specific policies relating to these exams.

Capstone and Comprehensive Review
A final project is required for candidates as a capstone for the Master of Music in Community Music. The project will consist of a scholarly document written on a topic approved by the Music Teaching and Learning department. Candidates must also submit a comprehensive portfolio of representative work product consistent with their work in classes and in the field.

Guidance Committee
Before registering for MTAL 592, a student must establish a guidance committee composed of three members of the faculty, approved by the department chair, of which at least two are from the home department. The chair of the guidance committee directly supervises the preparation of the project. The final acceptance of the project and portfolio is based upon the unanimous recommendation of all three members of the committee.

Curriculum Requirements
Program Intensive Courses (minimum of 22 units)*
- MTAL 500 Research Foundations in Music Teaching and Learning Units: 3
- MTAL 535 Community Engagement Through Music Units: 2
- MTAL 537 Community Engagement Models and Frameworks in Music Units: 1
- MTAL 538 Music in the Community, Program Development and Evaluation Units: 2
- MTAL 607 Alternative Models in Music Teaching and Learning Units: 2

Select two courses from the following:
- ARTL 503 Arts Organizations: Innovation and New Models Units: 2
- MTAL 502 Sociological Foundations of Music Teaching and Learning Units: 3
- MTAL 503 Philosophical and Advocacy Issues in Music Teaching and Learning Units: 3
- MTAL 721 Qualitative Research in Music Teaching and Learning Units: 3

Select a minimum of three courses from the following:**
- MTAL 470 Improvisation and Composition for Teaching and Learning Units: 2
**Composition (MM)**

**Master of Music**

**Unit and Grade Requirements**

Thirty units of graduate work are required; a minimum of 15 units (excluding thesis or project) must be at the 500 level or higher. All students must satisfy the specified requirements of their major department (see department chair or academic adviser). Students must complete at least 26 semester units at USC, including the thesis or recital. A grade point average of not less than 3.0 (A = 4.0) is required for all graduate courses in music, and a grade of B or higher is required for all courses in the major department. Students who transfer credits must achieve this average on all combined transferred and residence units.

**Transferred Credits**

All credits transferred must be the equivalent of corresponding current work at USC. Course work completed at another institution that has been approved by the Thornton School for transfer credit must have been completed within seven years from the date of admission to a master's degree program to be applied toward that degree. Transfer credit petitions must be filed with the appropriate Thornton adviser during the first semester in residence.

**Time Limit**

The time limit for completing the Master of Music degree is five years. Progress is measured from the beginning of the first course at USC applied toward the degree. Extensions will be granted by petition to the Thornton School for only the most compelling reasons.

**Thesis/Project/Portfolio Requirements and Qualifying Exam Committees**

A composition portfolio is required of candidates for the Master of Music degree in composition; a thesis or final project is required of candidates for the Master of Music degree in music education. For music education majors, the thesis will consist of a research document written on a topic approved by the music teaching and learning department; the final project will consist of a creative project that will present the arrangement, production or design of innovative ideas, materials or curricula for specific applications in teaching music. Before registering for 594a Thesis, or a similarly required course for a capstone project or portfolio, a student must establish a qualifying exam committee composed of three members of the faculty, approved by the department chair, of which at least two are from the home department. The chair of the qualifying exam committee directly supervises the preparation of the thesis, the final acceptance of which is based upon the unanimous recommendation of all three members of the committee.

**Master's Recital**

One or more public recitals are required of all candidates for the Master of Music degree, as indicated below. Candidates must apply for recital dates, according to the current guidelines of the Music Operations office. Some departments require that a candidate be prepared to play or conduct the recital program for the approval of a faculty committee in advance.

**Comprehensive Review**

Candidates for the Master of Music must pass a comprehensive review toward the end of their course of study, usually in the final semester. This review, which is administered by the faculty of the major department, consists of an oral or written examination, covering relevant aspects of musical performance, literature, and/or technique.

**Master of Music in Composition**

**Prerequisite**

The applicant must hold a Bachelor of Music degree with a major in composition or theory.

**Curriculum Requirements**

- **Unit and Grade Requirements**
  - **Master of Music**

This review, which is administered by the faculty of the major department, consists of an oral or written examination, covering relevant aspects of musical performance, literature, and/or technique.

**Master of Music in Conducting**

**Prerequisite**

The applicant must hold a bachelor's degree with a music major and have at least one year of experience conducting an orchestra.

**Curriculum Requirements**

- MUCD 550 Orchestral Conducting Seminar Units: 2 (8 units total)
- Ensemble (preferably chamber music) Units: 4 units total
- MUHL 570 Research Materials and Techniques Units: 2
- MUHL 575 Music of the Baroque Era Units: 2, 2 years
- MUHL 591 Seminar in Baroque Repertories and Performance Practice Units: 2
- MUCO 501 Introduction to the Analysis of Tonal Music Units: 2
- MUCO 502 Introduction to the Analysis of Post-Tonal Music Units: 2
- Electives
- Two graduate recitals Units: 0
- Comprehensive review Units: 0

One course from

- MUHL 573 Music of the Middle Ages Units: 2, 2 years
- MUHL 574 Music of the Renaissance Units: 2, 2 years
- MUHL 576 Music of the Classical Period Units: 2, 2 years
- MUHL 577 Music of the 19th Century Units: 2, 2 years or
- MUHL 578 Music since 1900 Units: 2

**Contemporary Teaching Practice (MM)**

**Overview**

The Master of Music in Contemporary Teaching Practice is designed as an intensive program and places special emphasis on urban settings. The overall goal of this degree is to provide a credential path for graduate music students who wish to teach in public and private schools in California and other states. The program will build on the students’ undergraduate preparation in music (including music theory, aural skills, keyboard skills, music history and performance education including playing, singing, conducting and ensemble work) by adding courses in music teaching and learning and general education. Special course work in music in the lives of children and youth, contemporary teaching methods, music composition/improvisation, research and assessment, and community and entrepreneurial engagement will highlight the degree. Certain courses will include extensive field experiences in the schools. Attention will be paid to children with special needs and English Language Learners (ELL), as mandated by the state of California. Finally, as a special opportunity, newly conferred students in this degree will have the ability to access monthly online mentoring sessions with USC faculty. This opportunity will be available in the first year of teaching, after the degree has been conferred.

**Admission**

Admission to Thornton programs is granted through the USC admission process. Applicants are screened by appropriate faculty selection committees. Specific entrance requirements are reviewed on an annual basis and published online at music.usc.edu.

**Graduate Record Examination**

Scores from the General Test of the Graduate Record Examinations (GRE) are required for application and admission to the MM in Contemporary Teaching Practice. Detailed requirements are available at the Thornton Website, music.usc.edu. Test scores on the GRE that are more than five years old at the time of application are not accepted.

**Unit and Grade Requirements**

Students must complete at least 30 semester units at USC, including the comprehensive review. A grade point average of not less than 3.0 (A = 4.0) is required for all graduate courses in music, and a grade of B or higher is required for all courses in the major department. Students who transfer credits must achieve this average on all combined transferred and residence units.

**Transferred Credits**

All credits transferred must be the equivalent of corresponding current work at USC. Course work completed at another institution that has been approved by the Thornton School for transfer credit must have been completed within seven years from the date of admission to a master's degree program to be applied toward that degree. Transfer credit petitions must be filed with the appropriate Thornton adviser during the first semester in residence.

**Time Limit**

The time limit for completing the Master of Music degree is five years. Progress is measured from the beginning of the first course at USC applied toward the degree. Extensions will be granted by petition to the Thornton School for only the most compelling reasons.

**Music Graduate Entrance Exam**

All students entering this graduate-level degree program at USC Thornton, who have not previously completed a degree at USC Thornton, must take a series of entrance exams in core music subjects. These exams are called Music Graduate Entrance Exams (MGEES). Information regarding which exams are required for specific majors is available from the Thornton Student Affairs office. Also see the Thornton School of Music Admission to Graduate Standing section of this catalogue for specific policies relating to these exams.

**Comprehensive Review**

Candidates for the Master of Music in Contemporary Teaching Practice must submit a comprehensive portfolio of music teaching experiences consistent with their work in class and in the field. This portfolio is reviewed by faculty in the department.
Curriculum Requirements

Program Intensive Courses (24 units)
- MTAL 470 Improvisation and Composition for Teaching and Learning Units: 2
- MTAL 475 Teaching and Learning: Children Units: 2
- MTAL 476 Teaching and Learning: Youth Units: 2
- MTAL 480 Contemporary Pedagogy, Small Instrumental Ensembles Units: 3
- MTAL 481 Contemporary Pedagogy, Larger Instrumental Ensembles Units: 3
- MTAL 482 Contemporary Pedagogy, Vocal and General Music Units: 2
- MTAL 503 Philosophical and Advocacy Issues in Music Teaching and Learning Units: 3
- MTAL 535 Community Engagement Through Music Units: 2
- MTAL 588 Guided Practice Units: 3
- MTAL 615 Assessment and Reflective Practice Units: 2

Courses from USC Rossier School of Education (10 units)
- EDUC 670 Introduction to Curriculum and Pedagogy in Urban Schools Units: 4
- EDUC 671 Contexts for Educational Equity, Access, and Agency Units: 3
- EDUC 672 Integrated Language Development Across the Curriculum Units: 3

Comprehensive Review (0 units)

Proficiencies (0 units)
- Certification in music for children with special needs
- Competency playing test in snare drum, drum set, acoustic and electric guitar, and electronic keyboard
- Competency playing test in flute, clarinet, trumpet, trombone, violin, and cello
- Competency singing test in vocal technique

Total Units: 34

Additional Note:

Information for Certification:
California has a two-tier credential structure. A five-year preliminary credential is the first credential issued after an individual meets basic credential requirements. A clear credential is issued when all credential requirements have been completed. Upon successful completion of the MM, CTP degree candidates are recommended for a Preliminary credential. Internships and Induction programs that lead to clear credentials are currently satisfied under the purview of your district of employment. All Preliminary Credential teacher candidates must meet the following requirements in order to be recommended/endorsed for a teaching credential: Basic Skills Competency, successful completion of all MM, CTP course work, evidence of successful completion and passing of the edTPA (Teaching Performance Assessment) and verification of training in cardiopulmonary resuscitation (CPR) that covers infant, child and adult CPR skills.

Early Music Performance Emphasis (MA)

Master of Arts

This degree is under the jurisdiction of the Graduate School. Students should also refer to The Graduate School section of this catalogue for general regulations.

Departmental Requirements

Applicants will be evaluated on the basis of scores on the Graduate Record Examinations, transcripts of previous college courses, a research paper and letters of reference.

Regular (classified) standing is achieved when the general test of the Graduate Record Examinations has been taken, and when the Music Graduate Entrance Examinations have been completed satisfactorily. Remedial course work, if recommended, may be substituted for repetition of examinations.

Language Requirement

Students are required to demonstrate a reading knowledge by passing an examination in one foreign language chosen by the student from among French, German, Italian or Latin. This requirement must be passed prior to the comprehensive examination.

Prerequisites

Applicants should have an undergraduate degree with a major in music or the equivalent, and a substantial background in languages, arts and letters.

Degree Requirements for the Early Music Performance Emphasis

Requirements
- MUEN 550 Early Music Ensemble Units: 1 (3 units total)
- MUHL 570 Research Materials and Techniques Units: 2
- MUHL 572 Seminar in Historical Musical Notation Units: 2
- MUHL 574 Music of the Renaissance Units: 2, 2 years
- MUHL 575 Music of the Baroque Era Units: 2, 2 years
- MUHL 589 Seminar in Renaissance Repertories and Performance Practice Units: 2
- MUHL 591 Seminar in Baroque Repertories and Performance Practice Units: 2
- MUHL 594a Master's Thesis Units: 2
- MUHL 594b Master's Thesis Units: 2
- MPEM 450 Collegium Workshop Units: 1 (2 units total)
- MPEM 553 Individual Instruction Units: 1 or 2 (5 units total)
- Elective in music
- Electives in letters, arts and sciences

Total units: 32

The thesis will include the planning, research, preparation, and leadership of a full-length program in early music. This practical work will be supported by a written essay that deals, as appropriate, with historical data sources, authentic performance practices and a stylistic assessment of the repertoire that is performed. In lieu of a comprehensive examination, candidates for the Early Music Performance Emphasis will be required to pass periodic reviews to demonstrate progress.

Jazz Studies (MM)

Master of Music

Unit and Grade Requirements

Thirty units of graduate work are required; a minimum of 15 units (excluding thesis or project) must be at the 500 level or higher. All students must satisfy the specified requirements of their major department (see department chair or academic adviser). Students must complete at least 26 semester units at USC, including the thesis or recital. A grade point average of not less than 3.0 (A = 4.0) is required for all graduate courses in music, and a grade of B or higher is required for all courses in the major department. Students who transfer credits must achieve this average on all combined transferred and residence units.

Transferred Credits

All credits transferred must be the equivalent of corresponding current work at USC. Course work completed at another institution that has been approved by the Thornton School for transfer credit must have been completed within seven years from the date of admission to a master's degree program to be applied toward that degree. Transfer credit petitions must be filed with the appropriate Thornton adviser during the first semester in residence.

Time Limit

The time limit for completing the Master of Music degree is five years. Progress is measured from the beginning of the first course at USC applied toward the degree. Extensions will be granted by petition to the Thornton School for only the most compelling reasons.
Thesis/Project/Portfolio Requirements and Qualifying Exam Committees

A composition portfolio is required of candidates for the Master of Music degree in composition; a thesis or final project is required of candidates for the Master of Music degree in music education. For music education majors, the thesis will consist of a research document written on a topic approved by the music teaching and learning department; the final project will consist of a creative project that will present the arrangement, production or design of innovative ideas, materials or curricula for specific applications in teaching music. Before registering for 594a Thesis, or a similarly required course for a capstone project or portfolio, a student must establish a qualifying exam committee composed of three members of the faculty, approved by the department chair, of which at least two are from the home department. The chair of the qualifying exam committee directly supervises the preparation of the thesis, the final acceptance of which is based upon the unanimous recommendation of all three members of the committee.

Master’s Recital

One or more public recitals are required of all candidates for the Master of Music degree, as indicated below. Candidates must apply for recital dates, according to the current guidelines of the Music Operations office. Some departments require that a candidate be prepared to play or conduct the recital program for the approval of a faculty committee in advance.

Comprehensive Review

Candidates for the Master of Music must pass a comprehensive review toward the end of their course of study, usually in the final semester. This review, which is administered by the faculty of the major department, consists of an oral or written examination, covering relevant aspects of musical performance, literature, and/or technique.

Master of Music in Jazz Studies
Prerequisite
The applicant must hold a Bachelor of Music degree with a major in jazz studies or its equivalent.
Curriculum Requirements
- MUEN 505 Vocal Jazz Ensemble Units: 1 or 2
- MUEN 529 Jazz Ensemble Units: 1 (4 units total)
- MUEN 532 Jazz Chamber Music Units: 1 (4)
- MUHL 570 Research Materials and Techniques Units: 2
- MUHL 578 Music since 1900 Units: 2
- MUHL electives at the 500 level
- MUJZ 443 Jazz Pedagogy Units: 2 or 4
- MUJZ 545 Jazz Ensemble Development Units: 2, 2 years
- MUJZ 547 Jazz Composition Units: 2
- MUJZ 553 Individual Instruction Units: 1 or 2 (8 units total)
- Electives
- Two graduate recitals Units: 0
- Comprehensive review Units: 0

Total units: 30

Music History and Literature Emphasis (MA)

Master of Arts
This degree is under the jurisdiction of the Graduate School. Students should also refer to The Graduate School section of this catalogue for general regulations.

Departmental Requirements
Applicants will be evaluated on the basis of scores on the Graduate Record Examinations, transcripts of previous college courses, a research paper and letters of reference.

Regular (classified) standing is achieved when the general test of the Graduate Record Examinations has been taken, and when the Music Graduate Entrance Examinations have been completed satisfactorily. Remedial course work, if recommended, may be substituted for repetition of examinations.

Language Requirement
Students are required to demonstrate a reading knowledge by passing an examination in one foreign language chosen by the student from among French, German, Italian or Latin. This requirement must be passed prior to the comprehensive examination.

Prerequisites
Applicants should have an undergraduate degree with a major in music or the equivalent, and a substantial background in languages, arts and letters.

Degree Requirements for the Music History and Literature Emphasis
Requirements
- MUHL 570 Research Materials and Techniques Units: 2
- MUHL courses numbered MUHL 579 Studies in Music History Units: 4, 600–699 Units: 6 units total
- Courses in history, language, literature or the arts other than music
- Electives
- Comprehensive examination Units: 0

Courses drawn from: 8 total units
- MUHL 500–699
- MUCO 501 Introduction to the Analysis of Tonal Music Units: 2
- MUCO 502 Introduction to the Analysis of Post-Tonal Music Units: 2

Total units: 30

Music Industry (MS)

Overview
The Master of Science in Music Industry program aims to produce the next generation of music industry leaders via a comprehensive yet student-tailored education. Class topics include copyright, concerts, artist management, marketing data and analysis, and a one-semester internship. Additionally, students have four emphasis track options including music performance, supervision, the business of touring/live event promotion, and entrepreneurship.

Admission
Admission to Thornton programs is granted through the USC admission process. Applicants are screened by appropriate faculty selection committees. Specific entrance requirements are reviewed on an annual basis and published online at music.usc.edu.

Unit and Grade Requirements
Students must complete at least 32 semester units at USC, including the portfolio. A grade point average of not less than 3.0 (A = 4.0) is required for all USC courses. Students who transfer credits must achieve this average on all combined transferred and resident units.

Transferred Credits
All credits transferred must be the equivalent of corresponding current work at USC. Course work completed at another institution that has been approved by the Thornton School for transfer credit must have been completed within seven years from the date of admission to a master’s degree program to be applied toward that degree. Transfer credit petitions must be filed with the appropriate Thornton adviser during the first semester in residence.

Time Limit
The time limit for completing the Master of Science degree is five years. Progress is measured from the beginning of the first course at USC applied toward the degree. Extensions will be granted by petition to the Thornton School for only the most compelling reasons.
Portfolio Requirement
A portfolio, as capstone to a two-semester immersion into a student-led music campaign, is required for graduation. The Music Industry faculty will provide students with additional details for this requirement.

Curriculum Requirements

Program Intensive Courses (27 units)
- MUIN 510 The Music Industry: Careers, Rights and Income Streams Units: 4
- MUIN 511 Music Industry History: Entrepreneurs, Moguls and Catalogs Units: 2
- MUIN 512 The Management of Live Performances Units: 2
- MUIN 520 Artist Management: Campaign Planning, Pitching, Partnerships Units: 2
- MUIN 521 Music Industry/Producers Forum Units: 1
- MUIN 522 Music Marketing, Branding and Campaigns Units: 3
- MUIN 523 Survey/Analysis of Music Agreements Units: 4
- MUIN 530 Mentorship Units: 1

Before registering for 594a Thesis, or a similarly required course for a capstone project or portfolio, a student must establish a qualifying exam committee composed of three members of the faculty, approved by the department chair, of which at least two are from the home department. The chair of the qualifying exam committee directly supervises the preparation of the thesis, the final acceptance of which is based upon the unanimous recommendation of all three members of the committee.

**Master's Recital**
One or more public recitals are required of all candidates for the Master of Music degree, as indicated below. Candidates must apply for recital dates, according to the current guidelines of the Music Operations office. Some departments require that a candidate be prepared to play or conduct the recital program for the approval of a faculty committee in advance.

**Comprehensive Review**
Candidates for the Master of Music must pass a comprehensive review toward the end of their course of study, usually in the final semester. This review, which is administered by the faculty of the major department, consists of an oral or written examination, covering relevant aspects of musical performance, literature, and/ or technique.

**Master of Music in Performance (Piano)**

**Prerequisite**
The applicant must hold a Bachelor of Music degree in piano or equivalent.

**Curriculum Requirements**
- Ensemble
- MUHL 570 Research Materials and Techniques Units: 2
- MUHL electives at 500 level Units: 6
- MPKS 553 Individual Instruction Units: 1 or 2 P (8)
- MPKS 450a Piano Pedagogy: Intermediate Literature and Functional Skills Units: 2
- MPKS 520 Special Studies in Solo Repertoire for Piano Units: 2 (6 units total)
- Electives
- Two graduate recitals Units: 0
- Comprehensive review Units: 0

**Performance (Studio Guitar) (MM)**

**Master of Music**

**Unit and Grade Requirements**
Thirty units of graduate work are required; a minimum of 15 units (excluding thesis or project) must be at the 500 level or higher. All students must satisfy the specified requirements of their major department (see department chair or academic adviser). Students must complete at least 26 semester units at USC, including the thesis or recital. A grade point average of not less than 3.0 (A = 4.0) is required for all graduate courses in music, and a grade of B or higher is required for all courses in the major department. Students who transfer credits must achieve this average on all combined transferred and residence units.

**Transferred Credits**
All credits transferred must be the equivalent of corresponding current work at USC. Course work completed at another institution that has been approved by the Thornton School for transfer credit must have been completed within seven years from the date of admission to a master's degree program to be applied toward that degree. Transfer credit petitions must be filed with the appropriate Thornton adviser during the first semester in residence.

**Time Limit**
The time limit for completing the Master of Music degree is five years. Progress is measured from the beginning of the first course at USC applied toward the degree. Extensions will be granted by petition to the Thornton School for only the most compelling reasons.

**Thesis/Project/Portfolio Requirements and Qualifying Exam Committees**
A composition portfolio is required of candidates for the Master of Music degree in composition; a thesis or final project is required of candidates for the Master of Music degree in music education. For music education majors, the thesis will consist of a research document written on a topic approved by the music teaching and learning department; the final project will consist of a creative project that will present the arrangement, production or design of innovative ideas, materials or curricula for specific applications in teaching music. Before registering for 594a Thesis, or a similarly required course for a capstone project or portfolio, a student must establish a qualifying exam committee composed of three members of the faculty, approved by the department chair, of which at least two are from the home department. The chair of the qualifying exam committee directly supervises the preparation of the thesis, the final acceptance of which is based upon the unanimous recommendation of all three members of the committee.

**Master's Recital**
One or more public recitals are required of all candidates for the Master of Music degree, as indicated below. Candidates must apply for recital dates, according to the current guidelines of the Music Operations office. Some departments require that a candidate be prepared to play or conduct the recital program for the approval of a faculty committee in advance.

**Comprehensive Review**
Candidates for the Master of Music must pass a comprehensive review toward the end of their course of study, usually in the final semester. This review, which is administered by the faculty of the major department, consists of an oral or written examination, covering relevant aspects of musical performance, literature, and/ or technique.
Master of Music in Performance (Studio Guitar)

Prerequisite
The applicant must hold a bachelor's degree with a major in music with guitar as the principal instrument.

Curriculum Requirements
- MUEN 526 Guitar Ensemble Units: 1 (2 units total)
- Electives
- MUHL 570 Research Materials and Techniques Units: 2
- MUHL 578 Music since 1900 Units: 2
- MUHL electives at the 500 level
- MPGU 553 Individual Instruction Units: 1 or 2 SG (8 units total)
- MPGU 558 Advanced Studio Guitar Performance Class Units: 1 (4 units total)
- Music electives
- Electives
- Two graduate recitals Units: 0
- Comprehensive review Units: 0

Total units: 30

Performance (Violin), (Viola), (Violoncello), (Double Bass) or (Harp) (MM)

Overview
The MM in violin, viola, violoncello, double bass or harp performance is a two-year, 30-unit program consisting of individual instruction, ensembles, conducting, Baroque music, music history and electives. A graduate recital is required.

Admission
Admission to Thornton programs is granted through the USC admission process. Applicants are screened by appropriate faculty selection committees. Specific entrance requirements are reviewed on an annual basis and published online at music.usc.edu.

Unit and Grade Requirements
Thirty units of graduate work are required; a minimum of 15 units (excluding thesis or project) must be at the 500 level or higher. All students must satisfy the specified requirements of their major department (see department chair or academic adviser). Students must complete at least 26 semester units at USC, including the thesis or recital. A grade point average of not less than 3.0 (A = 4.0) is required for all graduate courses in music, and a grade of B or higher is required for all courses in the major department. Students who transfer credits must achieve this average on all combined transferred and residence units.

Transferred Credits
All credits transferred must be the equivalent of corresponding current work at USC. Course work completed at another institution that has been approved by the Thornton School for transfer credit must have been completed within seven years from the date of admission to a master's degree program to be applied toward that degree. Transfer credit petitions must be filed with the appropriate Thornton adviser during the first semester in residence.

Time Limit
The time limit for completing the Master of Music degree is five years. Progress is measured from the beginning of the first course at USC applied toward the degree. Extensions will be granted by petition to the Thornton School for only the most compelling reasons.

Music Graduate Entrance Exams
All students entering a graduate-level degree program (MA, MM, DMA, PhD) at USC Thornton, who have not previously completed a degree at USC Thornton, must take a series of entrance exams in core music subjects. These exams are called Music Graduate Entrance Exams (MGEEs). Information regarding which exams are required for specific majors is available from the Thornton Student Affairs office. Also see the Thornton School of Music Admission to Graduate Standing section of this catalogue for specific policies relating to these exams.

Master's Recital
One public recital is required of all candidates for the Master of Music degree (Violin, Viola, Violoncello, Double Bass or Harp), as indicated below. Candidates must apply for recital dates, according to the current guidelines of the Music Operations office. Some departments require that a candidate be prepared to play or conduct the recital program for the approval of a faculty committee in advance.

Comprehensive Review
Candidates for the Master of Music must pass a comprehensive review toward the end of their course of study, usually in the final semester. This review, which is administered by the faculty of the major department, consists of an oral or written examination, covering relevant aspects of musical performance, literature, and/or technique.

Master of Music in Performance (Violin), (Viola), (Violoncello) or (Harp)

Prerequisite
The applicant must hold a Bachelor of Music degree with a major in a string instrument or equivalent.

Curriculum Requirements For Violin, Viola, Violoncello and Harp Majors

Core Thornton Academic Courses (8 units)
- MUHL 570 Research Materials and Techniques Units: 2
- MUHL 578 Music since 1900 Units: 2
- MUHL electives at the 500 level: 4 units total

Individual Instruction (8 units)
- MPST 553 Individual Instruction Units: 1 or 2
- 8 units total of MPST 553 in your primary instrument

Ensembles (6 units)
- MUEN 520 USC Symphony Units: 1
- 4 units total of MUEN 520
- MUEN 527 String Chamber Music Units: 1
- 4 units total of MUEN 527

Program Intensive Courses (4 units)
- MPKS 481 Interpretation of Baroque Music Units: 2
- MUCD 443 Instrumental Conducting II Units: 2

Music Electives (2 units)
- Music electives: 2 units total

Capstone Projects (0 units)
- Graduate Recital: 0 units
- Comprehensive Review: 0 units

Total Units: 30

Master of Music in Performance (Double Bass)

Prerequisite
The applicant must hold a Bachelor of Music degree with a major in a string instrument or equivalent.

Curriculum Requirements For Double Bass Majors

Core Thornton Academic Courses (8 units)
- MUHL 570 Research Materials and Techniques Units: 2
- MUHL 578 Music since 1900 Units: 2
- MUHL electives at the 500 level: 4 units total

Individual Instruction (8 units)
- MPST 553 Individual Instruction Units: 1 or 2
- 8 units total of MPST 553 (Double Bass)

Ensembles (6 units)
- MUEN 520 USC Symphony Units: 1
- 4 units total of MUEN 520
- MUEN 527 String Chamber Music Units: 1
Select one unit from the following:
- MUEN 525 Wind and Percussion Chamber Music Units: 1
- MUEN 527 String Chamber Music Units: 1
- MUEN 530 Contemporary Music Ensemble Units: 1
- MUEN 550 Early Music Ensemble Units: 1

Program Intensive Courses (4 units)
- MPKS 481 Interpretation of Baroque Music Units: 2
- MUCD 443 Instrumental Conducting II Units: 2

Music Electives (4 units)
Music electives: 4 units total
Capstone Projects (0 units)
- Graduate Recital: 0 units
- Comprehensive Review: 0 units

Total Units: 30

Performance (Vocal Arts) (MM)

Overview
The MM in vocal arts performance is a two-year, 30-unit program consisting of individual instruction, ensembles, cantata and oratorio, pedagogy, vocal literature, music history and electives. A graduate recital is required.

Admission
Admission to Thornton programs is granted through the USC admission process. Applicants are screened by appropriate faculty selection committees. Specific entrance requirements are reviewed on an annual basis and published online at music.usc.edu.

Unit and Grade Requirements
Thirty units of graduate work are required; a minimum of 15 units (excluding thesis or project) must be at the 500 level or higher. All students must satisfy the specified requirements of their major department (see department chair or academic adviser). Students must complete at least 26 semester units at USC, including the thesis or recital. A grade point average of not less than 3.0 (A = 4.0) is required for all graduate courses in music, and a grade of B or higher is required for all courses in the major department. Students who transfer credits must achieve this average on all combined transferred and residence units.

Transferred Credits
All credits transferred must be the equivalent of corresponding current work at USC. Course work completed at another institution that has been approved by the Thornton School for transfer credit must have been completed within seven years from the date of admission to a master's degree program to be applied toward that degree. Transfer credit petitions must be filed with the appropriate Thornton adviser during the first semester in residence.

Time Limit
The time limit for completing the Master of Music degree is five years. Progress is measured from the beginning of the first course at USC applied toward the degree. Extensions will be granted by petition to the Thornton School for only the most compelling reasons.

Music Graduate Entrance Exams
All students entering a graduate-level degree program (MA, MM, DMA, PhD) at USC Thornton, who have not previously completed a degree at USC Thornton, must take a series of entrance exams in core music subjects. These exams are called Music Graduate Entrance Exams (MGEEs). Information regarding which exams are required for specific majors is available from the Thornton Student Affairs office. Also see the Thornton School of Music Admission to Graduate Standing section of this catalogue for specific policies relating to these exams.

Master's Recital
One public recital is required of all candidates for the Master of Music degree (Vocal Arts), as indicated below. Candidates must apply for recital dates, according to the current guidelines of the Music Operations office. Some departments require that a candidate be prepared to play or conduct the recital program for the approval of a faculty committee in advance.

Comprehensive Review
Candidates for the Master of Music must pass a comprehensive review toward the end of their course of study, usually in the final semester. This review, which is administered by the faculty of the major department, consists of an oral or written examination, covering relevant aspects of musical performance, literature, and/or technique.

Master of Music in Performance (Vocal Arts)

Prerequisite
The applicant must hold a Bachelor of Music degree with a major in vocal arts. Students who have not had formal training in foreign language, diction, vocal pedagogy, acting for singers, song literature and in Italian, French or German languages must show competency in these areas through examination or complete appropriate course work with a grade of B or higher.

Curriculum Requirements
Lessons (8 units)
- MPVA 553 Individual Instruction Units: 1 or 2
  8 units total of MPVA 553 (Voice)
Music Ensembles (2 units)
- 500 level Music Ensemble (two 1-unit courses)
Program Intensive Courses (6 units)
- MPVA 443 Cantata and Oratorio Units: 2; 2 years
- MPVA 540 Special Studies in Vocal Literature Units: 2
- MPVA 541 Advanced Vocology Units: 2
Core Thornton Academic Courses (4 units)
- MUHL Electives at the 500 level (2 units total)
Electives (10 units)
- Electives in music at the 400 or 500 level (6 units total)
- Electives in non-music or music at the 400 or 500 level (4 units total)
Capstone Projects
- Graduate Recital (0 units)
- Comprehensive Review (0 units)

Total Units: 30

Comprehensive Review
A final examination in vocal pedagogy, art song and oratorio literature and diction will be administered by the vocal arts faculty. Students are required to write extensive program notes for the degree recital.

USC Opera
USC Opera is an integral part of the Vocal Arts Department, providing career development opportunities for singers, coaches, pianists, conductors and directors. The program includes instruction in opera history and literature, coaching techniques, stage direction, body movement for singers, stage training, role study and analysis.

The opera workshop is a repertory experience involving preparation and performance of operatic works and excerpts for performance both on and off the USC campus.

Sacred Music (MM)

Overview
The MM in sacred music consists of course work in sacred music, choral conducting, choral literature, choral development, music history, and vocal arts. The program culminates with a graduate recital or project.

Admission
Admission to Thornton programs is granted through the USC admission process. Applicants are screened by appropriate
faculty selection committees. Specific entrance requirements are reviewed on an annual basis and published online at music.usc.edu.

**Unit and Grade Requirements**

Students must complete at least 26 semester units at USC, including the thesis or recital. A grade point average of not less than 3.0 (A = 4.0) is required for all graduate courses in music, and a grade of B or higher is required for all courses in the major department. Students who transfer credits must achieve this average on all combined transferred and residence units.

**Transferred Credits**

All credits transferred must be the equivalent of corresponding current work at USC. Course work completed at another institution that has been approved by the Thornton School for transfer credit must have been completed within seven years from the date of admission to a master’s degree program to be applied toward that degree. Transfer credit petitions must be filed with the appropriate Thornton adviser during the first semester in residence.

**Time Limit**

The time limit for completing the Master of Music degree is five years. Progress is measured from the beginning of the first course at USC applied toward the degree. Extensions will be granted by petition to the Thornton School for only the most compelling reasons.

**Music Graduate Entrance Exams**

All students entering a graduate-level degree program (MA, MM, DMA, PhD) at USC Thornton, who have not previously completed a degree at USC Thornton, must take a series of entrance exams in core music subjects. These exams are called Music Graduate Entrance Exams (MGEEs). Information regarding which exams are required for specific majors is available from the Thornton Student Affairs office. Also see the Thornton School of Music Admission to Graduate Standing section of this catalogue for specific policies relating to these exams.

**Master’s Recital/Project**

Students majoring in Sacred Music must complete a recital or a project, as approved by the department. Candidates completing the recital must perform one public recital. Candidates must apply for recital dates, according to the current guidelines of the Music Operations office. Some departments require that a candidate be prepared to play or conduct the recital program for the approval of a faculty committee in advance. Candidates completing the project must work with the department to determine the details for this requirement.

**Comprehensive Review**

Candidates for the Master of Music must pass a comprehensive review toward the end of their course of study, usually in the final semester. This review, which is administered by the faculty of the major department, consists of an oral or written examination, covering relevant aspects of musical performance, literature, and technique. A final oral examination in sacred music and related areas will be administered by the sacred and choral music faculty.

**Curriculum Requirements**

**Keyboard and Voice Proficiency**

Proficiency tests in keyboard and voice will be given by the choral and sacred music faculty during the student’s first semester in residence to determine if additional study in either medium is required.

**Lessons (2 units)**

Take 2 units from the following:
- MPKS 501 Individual Instruction Units: 1 or 2 ** (PI or OR)
- MPVA 501 Individual Instruction Units: 1 or 2 **

**Music Ensembles (2 units)**

- Ensemble Units: 2 units total*

**Program Intensive Courses (20 units)**

- MSCR 571 Music of the Great Liturgies Units: 2
- MSCR 572 Sacred Music Administration Units: 2
- MSCR 590 Directed Research Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 (2 units total)
- MUCD 541 Choral Conducting III Units: 2 ** (4 units total)
- MUCM 440 Choral Development Units: 2 **
- MUCM 541 Choral Literature I Units: 2 **
- MUCM 542 Choral Literature II Units: 2 **

**Choose one course from the following:**

- MSCR 473 Hymnology Units: 2
- MSCR 475 Introduction to Jewish Music Units: 2

**Choose one course from the following:**

- MSCR 474 The Organ in Worship and Congregational Life Units: 2
- MPVA 541 Advanced Vocology Units: 2 ***
- MPVA 542 Vocal Pedagogy Teaching Practicum Units: 2

**Core Thornton Academic Courses (4 units)**

- MUHL 570 Research Materials and Techniques Units: 2
- MUHL electives at the 500 level Units: 2 units total

**Electives (2 units)**

**Capstone Projects (0 units)**

- Graduate recital or project Units: 0
- Comprehensive review Units: 0

**Total units: 30**

*Sacred music majors must participate in a choral ensemble chosen from MUEN 508, MUEN 510, MUEN 511 or MUEN 512 each semester if enrolled for 4 or more units.

**In some cases, MUHL 500-level courses and/or private instruction in organ, piano, voice or guitar may be substituted for MUCM 440, MUCM 541, MUCM 542 and MUCM 541. In some cases, instruction in guitar or another instrument may be substituted for MPKS 501 or MPVA 501.

***Courses with similar content in MPVA 541 taken at another institution may be substituted, subject to Vocal Arts departmental approval. Consult with the Vocal Arts and Sacred Music departments to finalize substitution approval and/or course placement.

**Screen Scoring (MM)**

**Overview**

This two-semester master’s program focuses on the art and craft of composing, orchestrating, programming, conducting, producing, recording, mixing, editing, copying and integrating music for screen-based media, including motion pictures, television programming, video games, Internet fare and other new visual media. Classes are also offered in technology, entrepreneurship and the business of making movies.

**Admission**

Admission to Thornton programs is granted through the USC admission process. Applicants are screened by appropriate faculty selection committees. Specific entrance requirements are reviewed on an annual basis and published online at music.usc.edu.

**Unit and Grade Requirements**

Students must complete at least 26 semester units at USC, including the portfolio. A grade point average of not less than 3.0 (A = 4.0) is required for all graduate courses in music, and a grade of B or higher is required for all courses in the major department. Students who transfer credits must achieve this average on all combined transferred and residence units.

**Portfolio Requirement**

A portfolio of multiple original manuscript scores for films and/or games, along with screening copies containing audio tracks, is required for graduation. The scoring faculty will provide students with additional details for this requirement.
Curriculum Requirements
Lessons (4 units)
• SCOR 502 Individual Instruction in Advanced Screen Scoring
  Units: 1, 2
• 4 units total of SCOR 502

Program Intensive Courses (32 units)
• CTPR 410 The Movie Business: From Story Concept to
  Exhibition Units: 2
• CTPR 473 Spotting Music for Cinema Units: 2
• SCOR 503a Advanced Scoring for Motion Pictures and
  Television Units: 2
• SCOR 503b Advanced Scoring for Motion Pictures and
  Television Units: 2
• SCOR 504a Orchestral Scoring Units: 2
• SCOR 504b Orchestral Scoring Units: 2
• SCOR 505a Advanced Game Scoring and Integration
  Units: 2
• SCOR 505b Advanced Game Scoring and Integration
  Units: 2
• SCOR 506 Applied Techniques in Contemporary Scoring
  Units: 2
• SCOR 511a History of Film Scoring Units: 2
• SCOR 511b History of Film Scoring Units: 2
• SCOR 512 Entrepreneurialism for the Screen Composer
  Units: 2
• SCOR 521a Recording, Mixing and Editing for the Screen
  Composer Units: 2
• SCOR 521b Recording, Mixing and Editing for the Screen
  Composer Units: 2
• SCOR 523a Advanced Screen Scoring Technology Units: 2
• SCOR 523b Advanced Screen Scoring Technology Units: 2

Portfolio Requirement
Portfolio: 0 units
Total Units: 36

Teaching and Learning (MM)
Overview
The goal of this professional degree is to prepare the student for an advanced level of pre-college teaching and leadership in the music education profession by developing core knowledge and expertise in pedagogical skills and scholarship. It provides a seamless transition into the DMA in Teaching and Learning, with most units being transferable to the DMA requirements.

Admission
Admission to Thornton programs is granted through the USC admission process. Applicants are screened by appropriate faculty selection committees. Specific entrance requirements are reviewed on an annual basis and published online at music.usc.edu.

Graduate Record Examinations
Scores from the General Test of the Graduate Record Examinations (GRE) are required for application and admission to the MM in Teaching and Learning. Detailed requirements are available at the Thornton Website, music.usc.edu. Test scores on the GRE that are more than five years old at the time of application are not accepted.

Unit and Grade Requirements
Students must complete at least 26 semester units at USC, including the capstone. A grade point average of not less than 3.0 (A = 4.0) is required for all graduate courses in music, and a grade of B or higher is required for all courses in the major department. Students who transfer credits must achieve this average on all combined transferred and residence units.

Transferred Credits
All credits transferred must be the equivalent of corresponding current work at USC. Course work completed at another institution that has been approved by the Thornton School for transfer credit must have been completed within seven years from the date of admission to a master's degree program to be applied toward that degree. Transfer credit petitions must be filed with the appropriate Thornton advisor during the first semester in residence.

Time Limit
The time limit for completing the Master of Music degree is five years. Progress is measured from the beginning of the first course at USC applied toward the degree. Extensions will be granted by petition to the Thornton School for only the most compelling reasons.

Music Graduate Entrance Exams
All students entering a graduate-level degree program (MA, MM, DMA, PhD) at USC Thornton, who have not previously completed a degree at USC Thornton, must take a series of entrance exams in core music subjects. These exams are called Music Graduate Entrance Exams (MGEEs). Information regarding which exams are required for specific majors is available from the Thornton Student Affairs office. Also see the Thornton School of Music Admission to Graduate Standing section of this catalogue for specific policies relating to these exams.

Capstone and Guidance Committee
A thesis or final project is required for candidates as a capstone for the Master of Music in Teaching and Learning. The thesis will consist of a research document written on a topic approved by the Music Teaching and Learning department; the final project will consist of a creative project that will present the arrangement, production or design of innovative ideas, materials or curricula for specific applications in teaching music. Before registering for 594a Thesis or 590 and 592 (for the project option), a student must establish a guidance committee composed of three members of the faculty, approved by the department chair, of which at least two are from the home department. The chair of the guidance committee directly supervises the preparation of the thesis, the final acceptance of which is based upon the unanimous recommendation of all three members of the committee.

Comprehensive Review
Candidates for the Master of Music must pass a comprehensive review toward the end of their course of study, usually in the final semester. This review, which is administered by the faculty of the major department, consists of an oral or written examination, covering relevant aspects of musical performance, literature, and/or technique.

Curriculum Requirements
Applied Music (4 units)
4-units total are to be earned by choosing from the following:
Individual instruction (lessons); courses in conducting, composition or arranging; or ensemble. Individual instruction and ensembles must be at the 500 level. Conducting, composition and arranging courses must be at the 400 or 500 level.

Program Intensive Courses (11 units)
• MTAL 500 Research Foundations in Music Teaching and
  Learning Units: 3
• MTAL 505 Teaching and Learning Music Units: 2
  Two courses from the following:
• MTAL 501 Historical Foundations of Music Education Units: 3
• MTAL 502 Sociological Foundations of Music Teaching and
  Learning Units: 3
• MTAL 503 Philosophical and Advocacy Issues in Music
  Teaching and Learning Units: 3
• MTAL 504 Psychological Foundations of Music Units: 3

Core Thornton Academic Courses (8 units)
MUHL electives at the 500 level: two 2-unit courses
One course from the following:
• MUCD 441 Choral Conducting II Units: 2
• MUCD 443 Instrumental Conducting II Units: 2
One course from the following:
- MUCO 501 Introduction to the Analysis of Tonal Music
  Units: 2
- MUCO 502 Introduction to the Analysis of Post-Tonal Music
  Units: 2

Electives in music at the 400 or 500 level (3 units)
Comprehensive Review (0 units)

Capstone Project (4 units)
Choose one group from the following:
- MTAL 594a Master's Thesis Units: 2
- MTAL 594b Master's Thesis Units: 2
- MTAL 590 Directed Research Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12
  (2 units total of MTAL 590) and
- MTAL 592 Final Project Units: 2

Total units: 30

Graduate Certificate
Arts Leadership Graduate Certificate

Certificate in Arts Leadership (ARTL)
The graduate program in arts leadership is a two-semester certificate program for artists, arts administrators and cultural workers of all types to develop the skills necessary to become successful leaders in the arts and arts organizations in a rapidly changing and radically altered contemporary world. The program is based in the Thornton School of Music, but it is designed to be applicable for artists/students engaged in any of the arts disciplines who want to develop their leadership skills in the hybrid and holistic environment of the contemporary arts. The program is highly individualized and deeply student centered in its approach, with simultaneous emphases on research, discovery, theory and current practice. With strong faculty mentorship and guidance from the director of the program and other working professionals in the field, students explore the dimensions of the most current issues and ideas while developing specific real-world applications of these ideas to their own practice as artists and leaders.

The program consists of a minimum of 18 units which can be completed in two semesters. The program begins with a 2-unit gateway course (ARTL 500), which introduces the students to the varied, complex and contentious issues in the arts and arts leadership that currently exist in the contemporary arts world. From this experience, students will develop a life plan that examines their own career and life trajectory for the next several years, providing a guidepost for their own personal development in arts leadership. Students will take four core courses including ARTL 501, which focuses on a deep understanding and application of the challenges of executive leadership in the arts and ARTL 502, which looks at major environmental trends affecting the arts and how that impacts the student's leadership role in the arts.

To succeed in these courses, students must develop an ability to think, speak and write critically about the arts in the contemporary world, key components of strong arts leadership. There is also a two semester practicum, ARTL 510, in which the student creates, develops and completes an actual arts leadership project of his or her own choosing, supported by faculty mentorship and the cohort of other practicum students.

Admission to the program is by application, reviewed and approved by the director of the program. Admission to the practicum requires a project proposal to be created by the student and approved by the director of the program.

Core Courses
- ARTL 500 Arts Leadership and Arts Entrepreneurship Units: 2
- ARTL 501 Executive Leadership in the Arts Units: 2
- ARTL 502 Issues in the Arts and the Contemporary World Units: 2
- ARTL 503 Arts Organizations: Innovation and New Models Units: 2

- ARTL 504 Arts and the Community: Current Practice and New Visions Units: 2
- ARTL 510 Arts Leadership Practicum Units: 2 (2 semesters) (4 units total)

Total units: 14

Select a Minimum of 4 Units From the Following Courses*
- MUIN 570 The Music Industry Units: 4
- PAS 561 Curatorial/Organizational Models Units: 2
- PAS 571 Histories of Art in the Public Sphere Units: 3
- PAS 572 Contemporary Art in the Public Sphere Units: 3
- PAS 585 Theorizing the Public Realm Units: 3
- PPD 675 Nonprofit Management and Leadership Units: 4
- PPD 687 Strategic Management in the Nonprofit Sector Units: 4
- PPD 689 The Nonprofit Sector and Philanthropy Units: 4
- PPDE 645 Financial Management of Nonprofit Organizations Units: 4

Total units: 4
*Courses may be chosen from this list or in consultation with the Director of Arts Leadership.
**Prerequisite: PPD 675 and PPD 689

Minimum total units: 18

Performance Graduate Certificate

This two-year graduate-level program is designed for students who have completed their undergraduate education in music, or its equivalent, and intend to concentrate their energies on the full-time development of their discipline.

Entrance Requirements

A performance audition is required with repertory to be determined by the student's primary department.

Curriculum Requirements

The requirements for this program consist of 16 units of Graduate Certificate Performance (4 units per semester of MPEM 554, MPGU 554, MPKS 554, MPST 554, MPVA 554, MPWP 554 or MUJZ 554). Graduate Certificate Performance encompasses individual instruction, studio class and two ensembles or the equivalent as appropriate to the discipline.

Doctoral Degree

Choral Music (DMA)

Overview

The DMA in Choral Music consists of the following areas of study: the basic DMA curriculum, course work in the major, an academic field and two elective fields.

Degree Prerequisites

DMA applicants must complete the appropriate master of music degree program or its equivalent.

Admission

Admission to Thornton programs is granted through the USC admission process. Applicants are screened by appropriate faculty selection committees. Specific entrance requirements are reviewed on an annual basis and published online at music.usc.edu.

Graduate Record Examinations

Scores from the General Test of the Graduate Record Examinations (GRE) are required for application and admission to the DMA in Choral Music. Detailed requirements are available at the Thornton Website, music.usc.edu. Test scores on the GRE that are more than five years old at the time of application are not accepted.

Grade Point Average Requirements

A minimum grade point average of 3.0 (A = 4.0) is required for all graduate course units in music. A grade of B or higher is
required for all courses in the major field. For courses in academic and elective fields, the minimum passing grade is C.

Transfer Credit
The Degree Progress Department in the Office of Academic Records and Registrar determines whether course work taken elsewhere is available for transfer credit. A maximum of 30 units of transfer credit may be applied toward a doctoral degree in music. Whether such credit is applicable toward a specific requirement in a major or minor field is determined by the Thornton School department in which the subject is taught, pending approval by the dean of the Thornton School. Transfer credit petitions must be filed with the Thornton doctoral adviser during the first semester in residence. Transfer work must have been completed within 10 years of admission to the DMA program to be applied toward that degree.

Residence Requirement
A minimum of two years of full-time study beyond the Master of Music degree is required for the Doctor of Musical Arts. At least one year of full-time study beyond the master's degree (6 units or more per semester) must be in residence at USC.

Time Schedule
The time limit for completing the Doctor of Musical Arts degree is eight years. For students who earned an applicable master's degree within five years prior to admission to the doctoral program, the time limit for completing the Doctor of Musical Arts degree is six years. Progress is measured from the beginning of the first course at USC applied toward the degree. Extensions will be granted by petition to the Thornton School for only the most compelling reasons.

Music Graduate Entrance Exams
All students entering a graduate-level degree program (MA, MM, DMA and PhD) at USC Thornton, who have not previously completed a degree at USC Thornton, must take a series of entrance exams in core music subjects. These exams are called Music Graduate Entrance Exams (MGEES). Information regarding which exams are required for specific majors is available from the Thornton Student Affairs office. Also see the Thornton School of Music Admission to Graduate Standing section of this catalogue for specific policies relating to these exams.

Foreign Language
An academic reading knowledge of French, German, Italian or Spanish is required of all students, either by taking a course approved by the Thornton School or by written examination approved by the Thornton School. Departments within the Thornton School may require additional language skills. All language requirements must be fulfilled one semester before entering the third semester in the program. Students with an academic reading knowledge of a language other than English, French, German, Italian or Spanish, may make a written request to the Thornton doctoral adviser to meet this requirement with a different language. In these cases, students must propose and gain the permission of a member of the USC faculty who will agree to create and grade the examination that would ultimately determine fulfillment of the requirement.

Course Requirements
Each student is required to complete four areas of concentration: the major field, an academic field and two elective fields.

Required courses for each major curriculum are listed in the description of major programs below. Required courses for any academic or elective field are determined for their respective fields by the faculty advisers on a student's DMA guidance committee.

A minimum of 65 graduate units beyond the bachelor's degree are required to complete a DMA degree. Fifty-five or more units must be in music. 12 of these beyond the master's level must be in the major. At least 40 of these must be at the 500 level or higher. All course work earned under these requirements for a doctoral degree is considered to be obsolete after 10 years from the date of completion of such work and may not be used to fulfill degree requirements.

Academic and Elective Fields
For the academic field students must choose one from Musicology, Theory and Analysis, Music Teaching and Learning, Choral Music or Sacred Music. For the elective fields students will choose two fields from among 50 possible areas, including Composition, Performance, Early Music, Jazz Studies, Music Teaching and Learning, Choral Music, Sacred Music, Conducting, Pedagogy, Electroacoustic Media, Music Industry, as well as areas outside of music. The fields students are required to take are determined by the department in which they are administered. Eight to 10 units are taken in the academic field. Six to 8 units are taken in each elective field. The academic field may not duplicate a major or an elective field. No more than two of the four fields of concentration may be under the guidance of the same department within the Thornton School of Music, and at least one of the elective fields must culminate in a substantial written paper or examination.

Students must apply to their chosen fields. Admission to academic and elective fields is determined by the appropriate department, prior to the Graduate Committee Interview. Individualized programs of study will be created in each field in consultation with a faculty adviser in each area.

Graduate Committee Interview
Before the completion of 16 units beyond the master's degree and before permission to present the second doctoral recital is requested, doctoral students must meet with the Graduate Advisory Committee of the Thornton School of Music to discuss their progress in the program and their goals for the future. In preparation for this interview, students must prepare a dossier according to specific instructions available from the Thornton doctoral adviser. The committee determines the student's continuation in the program, and approves both the student's individualized curriculum (including all fields of concentration) and the members of his or her DMA guidance committee.

DMA Guidance Committee
The DMA guidance committee is composed of at least five members: two faculty members from the major department, one of whom will serve as chair, and a faculty member from each of the three other areas of concentration. At least three members of a committee must be full-time faculty of rank in the Thornton School. The composition of the DMA Guidance Committee is proposed and approved as part of the Graduate Committee Interview.

The guidance committee administers the written and oral parts of the comprehensive examination. The committee continues to serve until the comprehensive examination has been passed, the dissertation topic approved (if applicable) and the student is admitted to candidacy (if applicable). For students in curricula that require recitals, the two major field advisers serve as the recital committee and are responsible for determining the approved format, content, scheduling, and presentation of these performances for credit toward the requirements of the degree.

Comprehensive Examination
The comprehensive examination for the DMA is administered by the student's guidance committee. This examination consists of written and oral components and is designed to assess the student's mastery of his or her fields of concentration and readiness for professional independence as a performer, composer, teacher, researcher and/or scholar. The student must obtain permission from the guidance committee to take the comprehensive examination and schedule it at least two months in advance to ensure the committee's availability. The examination must be taken after completion of all required course work for all fields of concentration, except (in some cases) a limited number of the required units of Individual Instruction in the major field. In degree programs that require the presentation of four major recitals, at least two major recitals must be presented prior to the administration of the comprehensive examination. Up to two required recitals may be presented after the comprehensive
examination. The dissertation (if required) must be written after the comprehensive examination. Comprehensive examinations will not be scheduled during summer sessions except under extraordinary circumstances and only with the written approval of members of the guidance committee. All portions of the examination must be completed within one month.

The comprehensive examination is comprised of a substantial culminating work for each field of concentration, as well as an oral examination with the student's guidance committee. The culminating work for each field may be a written examination, paper, project or recital, as appropriate for the particular field. For the academic field and at least one elective field, this culminating requirement must be a substantial written examination or paper. Following the successful completion of all culminating requirements and the approval of each by the corresponding faculty adviser, the student will sit for a two-hour oral examination with the guidance committee. This oral examination covers in greater depth the topics discussed in the written examinations and other requirements for the fields of concentration. The oral examination may also cover new material as determined by the guidance committee.

The two major field advisers and the academic field adviser must be present at the oral examination and render a judgment on the acceptability of the comprehensive examinations as a whole. It is highly preferable that the faculty advisers for the two elective fields participate in the oral examination with the other members of the guidance committee. If, however, there are challenges with scheduling or other issues that are reasonably unresolvable, the participation of the faculty advisers for elective fields is not required for the oral examination if they feel that the candidate has demonstrated knowledge and mastery of material that is appropriate for an elective field in their disciplines.

The examinations will be reported as passing if there is no more than one dissenting vote on the committee. A student must pass both the written and oral portions to pass the comprehensive examination. A pass on the examination cannot be made contingent upon any form of additional work.

If a student fails the comprehensive examination, the guidance committee may permit the student to repeat it once at a mutually satisfactory time within a period of not less than six months nor more than one year from the date of the first oral examination. A student may not take the comprehensive examination more than twice.

The comprehensive examination serves as the qualifying examination for programs that require a dissertation.

Admission to Candidacy
For the DMA in Choral Music, admission to candidacy occurs after the student has passed the comprehensive examination, upon formal action of the dean of the Thornton School. The dissertation must be completed after admission to candidacy.

Doctoral Dissertation
A dissertation based on original investigation and/or creative work is required of candidates in Composition, Music Teaching and Learning and Choral Music. The dissertation must reveal scholarly ability, technical mastery, capacity for independent research and originality in creative thought.

Dissertation Committee
After the guidance committee recommends admission to candidacy and approves the dissertation topic, the committee is reduced to three members. This smaller committee shall be the dissertation committee and will guide the student through the completion of the dissertation. Additional members may be added at the discretion of the chair of the committee if the topic requires special expertise.

Registration for Dissertation
The student must register in 794 Dissertation each semester after admission to candidacy until degree requirements (including the dissertation) are completed. Registration for 794 in no less than two regular semesters following admission to candidacy entitles the candidate to supervision by the dissertation committee. If the dissertation is not completed and accepted within two semesters, the candidate must register for 794 each semester thereafter until the document has been accepted. No more than 8 units of credit in 794 may be accumulated regardless of the number of semesters the candidate may be required to register.

A candidate who must withdraw temporarily from registration in 794 for a semester must report this in writing to the Thornton doctoral adviser before the beginning of that semester. As part of that report, the candidate must also petition for a formal leave of absence. During a leave of absence the candidate will not be entitled to assistance from his or her dissertation committee or to the use of university services and facilities. A leave of absence will be granted only under exceptional circumstances.

Format for Theses and Dissertations
All dissertations submitted for requirements for graduate degrees must conform to university regulations in format and method of preparation. See the USC Graduate School's guidelines for Theses and Dissertations.

Abstract of Dissertation
Since the abstract of the dissertation is published in Dissertation Abstracts International, it should be written with care and be representative of the final draft of the dissertation.

Defense of the Dissertation
After meeting all requirements including the comprehensive examination, the candidate must defend the dissertation. This defense takes place in order for the committee to determine whether the dissertation should be approved or rejected. While this oral defense is open to the general university community, only the members of the dissertation committee have the authority to recommend its acceptance or rejection. The recommendation must be unanimous in order for the dissertation to be approved.

At least seven weeks before the scheduled date of the defense of the dissertation, written approval by all members of the candidate’s dissertation committee, along with a typed copy of the dissertation abstract, must be filed with the doctoral adviser of the Thornton School of Music.

A candidate may defend the dissertation on the basis of an approved preliminary copy. If the defense is satisfactory and the committee is satisfied with the manuscript as presented, the committee then signs the Approval to Submit Defended and Final Copy of the Doctoral Work form. If additional work is required, the form is left unsigned until the work has been approved.

The final electronic PDF copy of the dissertation, together with signed signature sheet and approval forms, must be presented to the Thesis Editor in the USC Graduate School by the Graduate School’s submission date and times. Approval of format and acceptance by the Graduate School must be presented to the doctoral adviser of the Thornton School of Music at least one week before the end of the semester.

Curriculum Requirements for Choral Music Major
A keyboard proficiency test will be given by the choral faculty during the student’s first semester in residence to determine if additional study in keyboard is required.

Basic DMA Curriculum (20 units) - Required for All DMA Candidates

- MUCD 441 Choral Conducting II Units: 2*
- MUCD 443 Instrumental Conducting II Units: 2
- MUCO 501 Introduction to the Analysis of Tonal Music Units: 2
- MUCO 502 Introduction to the Analysis of Post-Tonal Music Units: 2
- MTAL 505 Teaching and Learning Music Units: 2
- MUHL 570 Research Materials and Techniques Units: 2
- MUHL electives numbered 500 through 695: 6 units total
- Ensemble Units: 2 units total
Note: Courses with similar content taken for graduate credit at another accredited institution may be substituted, subject to departmental approval. Master's degree credit for ensemble taken at USC may fulfill this requirement, subject to departmental approval.

Lessons, Ensemble and Performance Classes (10 units)

• Ensemble (500 level; choral music majors must participate in a choral ensemble each semester if enrolled for 4 or more units) Units: 2 units total
• MUCD 541 Choral Conducting III Units: 2
  4 units total of MUCD 541
• MUCD 641 Choral Conducting IV Units: 2
• MUCD 653 Performance Units: 1 or 2
  2 units total of MUCD 653

Program Intensive Courses (12 units)

• MSCR 571 Music of the Great Liturgies Units: 2
• MUCM 440 Choral Development Units: 2 **
• MUCM 541 Choral Literature I Units: 2 **
• MUCM 542 Choral Literature II Units: 2 **
• MUCM 641 Choral Literature III Units: 2
• MUCO 441 Choral Arranging Units: 1, 2
  2 units total of MUCO 441

Electives to Fulfill the Academic Field and Two Elective Fields (19 units)

Conduct two principal choral concerts; at least one of which will include instrumental ensemble (0 units)

Comprehensive Examinations (0 units)

Examinations that include the major area, one academic field and two elective fields.

Capstone Project (4 units)

• MUCM 794a Doctoral Dissertation Units: 2
• MUCM 794b Doctoral Dissertation Units: 2

Total units: 65

*Choral music majors are not required to take MUCD 441.
**May be taken as part of the master's degree.

Composition (DMA)

Overview

The DMA in Composition consists of the following areas of study: the basic DMA curriculum, course work in the major, an academic field and two elective fields.

Degree Prerequisites

DMA applicants must complete the appropriate master of music degree program or its equivalent.

Admission

Admission to Thornton programs is granted through the USC admission process. Applicants are screened by appropriate faculty selection committees. Specific entrance requirements are reviewed on an annual basis and published online at music.usc.edu.

Grade Point Average Requirements

A minimum grade point average of 3.0 (A = 4.0) is required for all graduate course units in music. A grade of B or higher is required for all courses in the major field. For courses in academic and elective fields, the minimum passing grade is C.

Transfer Credit

The Degree Progress Department in the Office of Academic Records and Registrar determines whether course work taken elsewhere is available for transfer credit. A maximum of 30 units of transfer credit may be applied toward a doctoral degree in music. Whether such credit is applicable toward a specific requirement in a major or minor field is determined by the Thornton School department in which the subject is taught, pending approval by the dean of the Thornton School. Transfer credit petitions must be filed with the Thornton doctoral adviser during the first semester in residence. Transfer work must have been completed within 10 years of admission to the DMA program to be applied toward that degree.

Residence Requirement

A minimum of two years of full-time study beyond the Master of Music degree is required for the Doctor of Musical Arts. At least one year of full-time study beyond the master's degree (6 units or more per semester) must be in residence at USC.

Time Schedule

The time limit for completing the Doctor of Musical Arts degree is eight years. For students who earned an applicable master's degree within five years prior to admission to the doctoral program, the time limit for completing the Doctor of Musical Arts degree is six years. Progress is measured from the beginning of the first course at USC applied toward the degree. Extensions will be granted by petition to the Thornton School for only the most compelling reasons.

Music Graduate Entrance Exams

All students entering a graduate-level degree program (MA, MM, DMA and PhD) at USC Thornton, who have not previously completed a degree at USC Thornton, must take a series of entrance exams in core music subjects. These exams are called Music Graduate Entrance Exams (MGEEs). Information regarding which exams are required for specific majors is available from the Thornton Student Affairs office. Also see the USC Thornton School of Music Admission to Graduate Standing section of this catalogue for specific policies relating to these exams.

Foreign Language

An academic reading knowledge of French, German, Italian or Spanish is required of all students, either by taking a course approved by the Thornton School or by written examination approved by the Thornton School. Departments within the Thornton School may require additional language skills. All language requirements must be fulfilled one semester before entering the third semester in the program. Students with an academic reading knowledge of a language other than English, French, German, Italian or Spanish, may make a written request to the Thornton doctoral adviser to meet this requirement with a different language. In these cases, students must propose and gain the permission of a member of the USC faculty who will agree to create and grade the examination that would ultimately determine fulfillment of the requirement.

Course Requirements

Each student is required to complete four areas of concentration: the major field, an academic field and two elective fields.

Required courses for each major curriculum are listed in the description of major programs below. Required courses for any academic or elective field are determined for their respective fields by the faculty advisers on a student's DMA guidance committee.

A minimum of 65 graduate units beyond the bachelor's degree are required to complete a DMA degree. Fifty-five or more units must be in music, 12 of these beyond the master's level must be in the major. At least 40 of these must be at the 500 level or higher.

All course work earned under these requirements for a doctoral degree is considered to be obsolete after 10 years from the date of completion of such work and may not be used to fulfill degree requirements.

Academic and Elective Fields

For the academic field students must choose one from Musicology, Theory and Analysis, Music Teaching and Learning, Choral Music or Sacred Music. For the elective fields students will choose two fields from among 50 possible areas, including Composition, Performance, Early Music, Jazz Studies, Music Teaching and Learning, Choral Music, Sacred Music, Conducting, Pedagogy, Electroacoustic Media, Music Industry, as well as areas outside of music. The fields comprise courses that are determined by the department in which they are administered. Eight to 10 units
are taken in the academic field. Six to 8 units are taken in each elective field. The academic field may not duplicate a major or an elective field. No more than two of the four fields of concentration may be under the guidance of the same department within the Thornton School of Music, and at least one of the elective fields must culminate in a substantial written paper or examination. Students must apply to their chosen fields. Admission to academic and elective fields is determined by the appropriate department, prior to the Graduate Committee Interview. Individualized programs of study will be created in each field in consultation with a faculty adviser in each area.

Graduate Committee Interview

Before the completion of 16 units beyond the master’s degree and before permission to present the second doctoral recital is requested, doctoral students must meet with the Graduate Advisory Committee of the Thornton School of Music to discuss their progress in the program and their goals for the future. In preparation for this interview, students must prepare a dossier according to specific instructions available from the Thornton doctoral adviser. The committee determines the student’s continuation in the program, and approves both the student’s individualized curriculum (including all fields of concentration) and the members of his or her DMA guidance committee.

DMA Guidance Committee

The DMA guidance committee is composed of at least five members: two faculty members from the major department, one of whom will serve as chair, and a faculty member from each of the three other areas of concentration. At least three members of a committee must be full-time faculty of rank in the Thornton School. The composition of the DMA Guidance Committee is proposed and approved as part of the Graduate Committee Interview.

The guidance committee administers the written and oral parts of the comprehensive examination. The committee continues to serve until the comprehensive examination has been passed, the dissertation topic approved (if applicable) and the student is admitted to candidacy (if applicable). For students in curricula that require recitals, the two major field advisers serve as the recital committee and are responsible for determining the approved format, content, scheduling and presentation of these performances for credit toward the requirements of the degree.

Comprehensive Examination

The comprehensive examination for the DMA is administered by the student’s guidance committee. This examination consists of written and oral components and is designed to assess the student’s mastery of his or her fields of concentration and readiness for professional independence as a performer, composer, teacher, researcher and/or scholar. The student must obtain permission from the guidance committee to take the comprehensive examination and schedule it at least two months in advance to ensure the committee’s availability. The examination must be taken after completion of all required course work for all fields of concentration, except (in some cases) a limited number of the required units of Individual Instruction in the major field. In degree programs that require the presentation of four major recitals, at least two major recitals must be presented prior to the administration of the comprehensive examination. Up to two required recitals may be presented after the comprehensive examination. The dissertation (if required) must be written after the comprehensive examination. Comprehensive examinations will not be scheduled during summer sessions except under extraordinary circumstances and only with the written approval of members of the guidance committee. All portions of the examination must be completed within one month.

The comprehensive examination is comprised of a substantial culminating work for each field of concentration, as well as an oral examination with the student’s guidance committee. The culminating work for each field may be a written examination, paper, project or recital, as appropriate for the particular field. For the academic field and at least one elective field, this culminating requirement must be a substantial written examination or paper. Following the successful completion of all culminating requirements and the approval of each by the corresponding faculty adviser, the student will sit for a two-hour oral examination with the guidance committee. This oral examination covers in greater depth the topics discussed in the written examinations and other requirements for the fields of concentration. The oral examination may also cover new material as determined by the guidance committee.

The two major field advisers and the academic field adviser must be present at the oral examination and render a judgment on the acceptability of the comprehensive examinations as a whole. It is highly preferable that the faculty advisers for the two elective fields participate in the oral examination with the other members of the guidance committee. If, however, there are challenges with scheduling or other issues that are reasonably unresolvable, the participation of the faculty advisers for elective fields is not required for the oral examination if they feel that the candidate has demonstrated knowledge and mastery of material that is appropriate for an elective field in their disciplines.

The examinations will be reported as passing if there is no more than one dissenting vote on the committee. A student must pass both the written and oral portions to pass the comprehensive examination. A pass on the examination cannot be made contingent upon any form of additional work.

If a student fails the comprehensive examination, the guidance committee may permit the student to repeat it once at a mutually satisfactory time within a period of not less than six months nor more than one year from the date of the first oral examination. A student may not take the comprehensive examination more than twice.

The comprehensive examination serves as the qualifying examination for programs that require a dissertation.

Admission to Candidacy

For the DMA in Composition, admission to candidacy occurs after the student has passed the comprehensive examination, upon formal action of the dean of the Thornton School. The dissertation must be completed after admission to candidacy.

Doctoral Dissertation

A dissertation based on original investigation and/or creative work is required of candidates in Composition, Music Teaching and Learning and Choral Music. The dissertation must reveal scholarly ability, technical mastery, capacity for independent research and originality in creative thought.

Dissertation Committee

After the guidance committee recommends admission to candidacy and approves the dissertation topic, the committee is reduced to three members. This smaller committee shall be the dissertation committee and will guide the student through the completion of the dissertation. Additional members may be added at the discretion of the chair of the committee if the topic requires special expertise.

Registration for Dissertation

The student must register in 794 Dissertation each semester after admission to candidacy until degree requirements (including the dissertation) are completed. Registration for 794 in no less than two regular semesters following admission to candidacy entitles the candidate to supervision by the dissertation committee. If the dissertation is not completed and accepted within two semesters, the candidate must register for 794 each semester thereafter until the document has been accepted. No more than 8 units of credit in 794 may be accumulated regardless of the number of semesters the candidate may be required to register. A candidate who must withdraw temporarily from registration in 794 for a semester must report this in writing to the Thornton doctoral adviser before the beginning of that semester. As part of that report, the candidate must also petition for a formal leave of absence. During a leave of absence the candidate will not be
entitled to assistance from his or her dissertation committee or to the use of university services and facilities. A leave of absence will be granted only under exceptional circumstances.

Format for Theses and Dissertations
All dissertations submitted for requirements for graduate degrees must conform to university regulations in format and method of preparation. See the USC Graduate School's guidelines for Theses and Dissertations.

Abstract of Dissertation
Since the abstract of the dissertation is published in Dissertation Abstracts International, it should be written with care and be representative of the final draft of the dissertation.

Defense of the Dissertation
After meeting all requirements including the comprehensive examination, the candidate must defend the dissertation. This defense takes place in order for the committee to determine whether the dissertation should be approved or rejected. While this oral defense is open to the general university community, only the members of the dissertation committee have the authority to recommend its acceptance or rejection. The recommendation must be unanimous in order for the dissertation to be approved.

At least seven weeks before the scheduled date of the defense of the dissertation, written approval by all members of the candidate's dissertation committee, along with a typed copy of the dissertation abstract, must be filed with the doctoral adviser of the Thornton School of Music.

If additional work is required, the form is left unsigned until the work has been approved.

The final electronic PDF copy of the dissertation, together with signed signature sheet and approval forms, must be presented to the Thesis Editor in the USC Graduate School by the Graduate School's submission date and times. Approval of format and acceptance by the Graduate School must be presented to the doctoral adviser of the Thornton School of Music at least one week before the end of the semester.

Curriculum Requirements for Composition Major
Basic DMA Curriculum (20 units) - Required for All DMA Candidates
• MTAL 505 Teaching and Learning Music Units: 2
• MUCD 441 Choral Conducting II Units: 2
• MUCD 443 Instrumental Conducting II Units: 2
• MUCO 501 Introduction to the Analysis of Tonal Music Units: 2
• MUCO 502 Introduction to the Analysis of Post-Tonal Music Units: 2
• MUHL 570 Research Materials and Techniques Units: 2
• MUhl electives numbered 500 through 695: 6 units total
• Ensemble Units: 2 units total

Note: Courses with similar content taken for graduate credit at another accredited institution may be substituted, subject to departmental approval. Master's degree credit for ensemble taken at USC may fulfill this requirement, subject to departmental approval.

Lessons, Ensemble and Performance Classes (8 units)
• MUCO 637 Advanced Composition II Units: 1, 2
• 4 units total of MUCO 637
• MUCO 737 Advanced Composition III Units: 1 or 2
• 4 units total of MUCO 737

Program Intensive Courses (8 units)
• MUCO 536 Advanced Orchestration I Units: 1, 2, 3, 4
• 2 units total of MUCO 536

• MUCO 592 Selected Topics in Graduate Composition Units: 2
• 4 units total of MUCO 592
• MUCO 636 Advanced Orchestration II Units: 1 or 2
• 2 units total of MUCO 636

Electives to Fulfill the Academic Field and Two Elective Fields (25 units)

Comprehensive Examinations (0 units)
Examinations that include the major area, one academic field and two elective fields.

Graduate Recital (0 units)

Capstone Project (4 units)
• MUCO 794a Doctoral Dissertation Units: 2
• MUCO 794b Doctoral Dissertation Units: 2

Total units: 65

Jazz Studies (DMA)

Overview
The DMA in Jazz Studies consists of the following areas of study: the basic DMA curriculum, course work in the major, an academic field and two elective fields.

Degree Prerequisites
DMA applicants must complete the appropriate master of music degree program or its equivalent.

Admission
Admission to Thornton programs is granted through the USC admission process. Applicants are screened by appropriate faculty selection committees. Specific entrance requirements are reviewed on an annual basis and published online at music.usc.edu.

Grade Point Average Requirements
A minimum grade point average of 3.0 (A = 4.0) is required for all graduate course units in music. A grade of B or higher is required for all courses in the major field. For courses in academic and elective fields, the minimum passing grade is C.

Transnt Credit
The Degree Progress Department in the Office of Academic Records and Registrar determines whether course work taken elsewhere is available for transfer credit. A maximum of 30 units of transfer credit may be applied toward a doctoral degree in music. Whether such credit is applicable toward a specific requirement in a major or minor field is determined by the Thornton School department in which the subject is taught, pending approval by the dean of the Thornton School. Transfer credit petitions must be filed with the Thornton doctoral adviser during the first semester in residence. Transfer work must have been completed within 10 years of admission to the DMA program to be applied toward that degree.

Residence Requirement
A minimum of two years of full-time study beyond the Master of Music degree is required for the Doctor of Musical Arts. At least one year of full-time study beyond the master's degree (6 units or more per semester) must be in residence at USC.

Time Schedule
The time limit for completing the Doctor of Musical Arts degree is eight years. For students who earned an applicable master's degree within five years prior to admission to the doctoral program, the time limit for completing the Doctor of Musical Arts degree is six years. Progress is measured from the beginning of the first course at USC applied toward the degree. Extensions will be granted by petition to the Thornton School for only the most compelling reasons.

Music Graduate Entrance Exams
All students entering a graduate-level degree program (MA, MM, DMA and PhD) at USC Thornton, who have not previously
completed a degree at USC Thornton, must take a series of entrance exams in core music subjects. These exams are called Music Graduate Entrance Exams (MGEEs). Information regarding which exams are required for specific majors is available from the Thornton Student Affairs office. Also see the Thornton School of Music Admission to Graduate Standing section of this catalogue for specific policies relating to these exams.

Foreign Language
An academic reading knowledge of French, German, Italian or Spanish is required of all students, either by taking a course approved by the Thornton School or by written examination approved by the Thornton School. Departments within the Thornton School may require additional language skills. All language requirements must be fulfilled one semester before entering the third semester in the program. Students with an academic reading knowledge of a language other than English, French, German, Italian or Spanish, may make a written request to the Thornton doctoral adviser to meet this requirement with a different language. In these cases, students must propose and gain the permission of a member of the USC faculty who will agree to create and grade the examination that would ultimately determine fulfillment of the requirement.

Course Requirements
Each student is required to complete four areas of concentration: the major field, an academic field and two elective fields.

Required courses for each major curriculum are listed in the description of major programs below. Required courses for any academic or elective field are determined for their respective fields by the faculty advisers on a student’s DMA guidance committee.

A minimum of 65 graduate units beyond the bachelor’s degree are required to complete a DMA degree. Fifty-five or more units must be in music, 12 of these beyond must be in the major. At least 40 of these must be at the 500 level or higher. All course work earned under these requirements for a doctoral degree is considered to be obsolete after 10 years from the date of completion of such work and may not be used to fulfill degree requirements.

Academic and Elective Fields
For the academic field students must choose one from Musicology, Theory and Analysis, Music Teaching and Learning, Choral Music or Sacred Music. For the elective fields students will choose two fields from among 50 possible areas, including Composition, Performance, Early Music, Jazz Studies, Music Teaching and Learning, Choral Music, Sacred Music, Conducting, Pedagogy, Electroacoustic Media, Music Industry, as well as areas outside of music. The fields comprise courses that are determined by the department in which they are administered. Eight to 10 units are taken in the academic field. Six to 8 units are taken in each elective field. The academic field may not duplicate a major or an elective field. No more than two of the four fields of concentration may be under the guidance of the same department within the Thornton School of Music; at least one of the elective fields must culminate in a substantial written paper or examination. Admission to academic and elective fields is determined by the appropriate department, prior to the Graduate Committee Interview. Individualized programs of study will be created in each field in consultation with a faculty adviser in each area.

Graduate Committee Interview
Before the completion of 16 units beyond the master’s degree and before permission to present the second doctoral recital is requested, doctoral students must meet with the Graduate Advisory Committee of the Thornton School of Music to discuss their progress in the program and their goals for the future. In preparation for this interview, students must prepare a dossier according to specific instructions available from the Thornton doctoral adviser. The committee determines the student’s continuation in the program, and approves both the student’s individualized curriculum (including all fields of concentration) and the members of his or her DMA guidance committee.

DMA Guidance Committee
The DMA guidance committee is composed of at least five members: two faculty members from the major department, one of whom will serve as chair, and a faculty member from each of the three other areas of concentration. At least three members of a committee must be full-time faculty of rank in the Thornton School. The composition of the DMA Guidance Committee is proposed and approved as part of the Graduate Committee Interview.

The guidance committee administers the written and oral parts of the comprehensive examination. The committee continues to serve until the comprehensive examination has been passed, the dissertation topic approved (if applicable) and the student is admitted to candidacy (if applicable). For students in curricula that require recitals, the two major field advisers serve as the recital committee and are responsible for determining the approved format, content, scheduling, and presentation of these performances for credit toward the requirements of the degree.

Comprehensive Examination
The comprehensive examination for the DMA is administered by the student’s guidance committee. This examination consists of written and oral components and is designed to assess the student's mastery of his or her fields of concentration and readiness for professional independence as a performer, composer, teacher, researcher and/or scholar. The student must obtain permission from the guidance committee to take the comprehensive examination and schedule it at least two months in advance to ensure the committee’s availability. The examination must be taken after completion of all required course work for all fields of concentration, except (in some cases) a limited number of the required units of individual instruction in the major field. In degree programs that require the presentation of four major recitals, at least two major recitals must be presented prior to the administration of the comprehensive examination. Up to two required recitals may be presented after the comprehensive examination. The dissertation (if required) must be written after the comprehensive examination. Comprehensive examinations will not be scheduled during summer sessions except under extraordinary circumstances and only with the written approval of members of the guidance committee. All portions of the examination must be completed within one month.

The comprehensive examination is comprised of a substantial culminating work for each field of concentration, as well as an oral examination with the student’s guidance committee. The culminating work for each field may be a written examination, paper, project or recital, as appropriate for the particular field. For the academic field and at least one elective field, this culminating requirement must be a substantial written examination or paper. Following the successful completion of all culminating requirements and the approval of each by the corresponding faculty adviser, the student will sit for a two-hour oral examination with the guidance committee. This oral examination covers in greater depth the topics discussed in the written examinations and other requirements for the fields of concentration. The oral examination may also cover new material as determined by the guidance committee.

The two major field advisers and the academic field adviser must be present at the oral examination and render a judgment on the acceptability of the comprehensive examinations as a whole. It is highly preferable that the faculty advisers for the two elective fields participate in the oral examination with the other members of the guidance committee. If, however, there are challenges with scheduling or other issues that are reasonably unresolvable, the participation of the faculty advisers for elective fields is not required for the oral examination if they feel that the candidate has demonstrated knowledge and mastery of material that is appropriate for an elective field in their disciplines.
The examinations will be reported as passing if there is no more than one dissenting vote on the committee. A student must pass both the written and oral portions to pass the comprehensive examination. A pass on the examination cannot be made contingent upon any form of additional work. If a student fails the comprehensive examination, the guidance committee may permit the student to repeat it once at a mutually satisfactory time within a period of not less than six months nor more than one year from the date of the first oral examination. A student may not take the comprehensive examination more than twice.

The comprehensive examination serves as the qualifying examination for programs that require a dissertation.

Curriculum Requirements for Jazz Studies

Major

Basic DMA Curriculum (20 units) - Required for All DMA Candidates

- MTAL 505 Teaching and Learning Music Units: 2
- MUCD 441 Choral Conducting II Units: 2
- MUCD 443 Instrumental Conducting II Units: 2
- MUJO 501 Introduction to the Analysis of Tonal Music Units: 2
- MUJO 502 Introduction to the Analysis of Post-Tonal Music Units: 2
- MUJO 570 Research Materials and Techniques Units: 2
- MUJO electives numbered 500 through 695: 6 units total
- Ensemble Units: 2 units total

Note:

Courses with similar content taken for graduate credit at another accredited institution may be substituted, subject to departmental approval. Master's degree credit for ensemble taken at USC may fulfill this requirement, subject to departmental approval.

Lessons, Ensemble and Performance Classes (12 units)

- MUJO 532 Jazz Chamber Music Units: 1
- 4 units total of MUJO 532
- MUJO 653 Performance Units: 1 or 2
- 8 units total of MUJO 653

Program Intensive Courses (12 units)

- MUJO 443 Jazz Pedagogy Units: 2
- MUJO 545 Jazz Ensemble Development Units: 2, 2 years
- MUJO 547 Jazz Composition Units: 2
- 4 units total of MUJO 547
- MUJO 688 Special Topics in Jazz Performance Units: 2
- 4 units total of MUJO 688

Electives to Fulfill the Academic Field and Two Elective Fields (21 units)

Comprehensive Examinations (0 units)

Examinations that include the major area, one academic field and two elective fields.

Recitals (0 units)

- Two recitals of original compositions and arrangements written while in the DMA program: 0
- Lecture-recital in conjunction with an appropriate research project: 0

Total units: 65

Music, Historical Musicology Emphasis, (PhD)

The Doctor of Philosophy degree with a major in music is granted by the Graduate School. Candidates for the PhD in music should also refer to the Graduate School section of this catalogue for general regulations.

A substantial background in music and liberal arts is required. Graduate course requirements for the PhD are adapted to the needs and research interests of the individual student. A minimum of 60 post-baccalaureate units is required.

Foreign Language Requirements

Students are required to demonstrate a reading knowledge by passing an examination in German and one other foreign language chosen by the student from among French, Italian or Latin. With the permission of the chair of the qualifying exam committee, a foreign language relevant to the dissertation may be chosen in place of French, Italian or Latin. The language requirement for the MA degree may be applied toward the PhD Doctoral language requirements should be passed as early as possible, but, at latest, during the fourth semester of course work.

Screening Procedure

Before the completion of 24 units of graduate work at USC and with the approval of the department chair, students must be interviewed by the curriculum committee of the School of Music. Continuance in course work will be contingent upon approval of the committee. PhD candidates in musicology who did not receive an MA degree from USC must take the MA comprehensive examination in historical musicology prior to the interview. Continuance in course work will be contingent upon passing these examinations.

Historical Musicology Emphasis

Requirements

- MUJO 570 Research Materials and Techniques Units: 2
- Courses selected from:
  - MUJO 579 Studies in Music History Units: 4
  - MUJO 600–699

Total units: 12

Electives in history, language, literature or arts other than music

Total units: 8

Courses drawn from:

- MUJO 500–699
- MUJO 501 Introduction to the Analysis of Tonal Music Units: 2
- MUJO 502 Introduction to the Analysis of Post-Tonal Music Units: 2

Total units: 10

Electives in music, letters, arts and sciences

Total units: 24

Dissertation

- MUJO 794a Doctoral Dissertation Units: 2
- MUJO 794b Doctoral Dissertation Units: 2

Total units: 4

Total units: 60

Performance - Organ, Percussion or Winds (DMA)

Overview

The DMA in Performance - Organ, Percussion or Winds consists of the following areas of study: the basic DMA curriculum, course work in the major, an academic field and two elective fields.

Degree Prerequisites

DMA applicants must complete the appropriate master of music degree program or its equivalent.

Admission

Admission to Thornton programs is granted through the USC admission process. Applicants are screened by appropriate faculty selection committees. Specific entrance requirements are reviewed on an annual basis and published online at music.usc.edu.

Grade Point Average Requirements

A minimum grade point average of 3.0 (A = 4.0) is required for all graduate course units in music. A grade of B or higher is
required for all courses in the major field. For courses in academic and elective fields, the minimum passing grade is C.

Transfer Credit
The Degree Progress Department in the Office of Academic Records and Registrar determines whether course work taken elsewhere is available for transfer credit. A maximum of 30 units of transfer credit may be applied toward a doctoral degree in music. Whether such credit is applicable toward a specific requirement in a major or minor field is determined by the Thornton School department in which the subject is taught, pending approval by the dean of the Thornton School. Transfer credit petitions must be filed with the Thornton doctoral adviser during the first semester in residence. Transfer work must have been completed within 10 years of admission to the DMA program to be applied toward that degree.

Residence Requirement
A minimum of two years of full-time study beyond the Master of Music degree is required for the Doctor of Musical Arts. At least one year of full-time study beyond the master's degree (6 units or more per semester) must be in residence at USC.

Time Schedule
The time limit for completing the Doctor of Musical Arts degree is eight years. For students who earned an applicable master's degree within five years prior to admission to the doctoral program, the time limit for completing the Doctor of Musical Arts degree is six years. Progress is measured from the beginning of the first course at USC applied toward the degree. Extensions will be granted by petition to the Thornton School for only the most compelling reasons.

Music Graduate Entrance Exams
All students entering a graduate-level degree program (MA, MM, DMA and PhD) at USC Thornton, who have not previously completed a degree at USC Thornton, must take a series of entrance exams in core music subjects. These exams are called Music Graduate Entrance Exams (MGEEs). Information regarding which exams are required for specific majors is available from the Thornton Student Affairs office. Also see the Thornton School of Music Admission to Graduate Standing section of this catalogue for specific policies relating to these exams.

Foreign Language
An academic reading knowledge of French, German, Italian or Spanish is required of all students, either by taking a course approved by the Thornton School or by written examination approved by the Thornton School. Departments within the Thornton School may require additional language skills. All language requirements must be fulfilled one semester before entering the third semester in the program. Students with an academic reading knowledge of a language other than English, French, German, Italian or Spanish, may make a written request to the Thornton doctoral adviser to meet this requirement with a different language. In these cases, students must propose and gain the permission of a member of the USC faculty who will agree to create and grade the examination that would ultimately determine fulfillment of the requirement.

Course Requirements
Each student is required to complete four areas of concentration: the major field, an academic field and two elective fields.

Required courses for each major curriculum are listed in the description of major programs below. Required courses for any academic or elective field are determined for their respective fields by the faculty advisers on a student’s DMA guidance committee.

A minimum of 65 graduate units beyond the bachelor's degree are required to complete a DMA degree. Fifty-five or more units are to be in music, 12 of these beyond the master's level must be in the major. At least 40 of these must be at the 500 level or higher. All course work earned under these requirements for a doctoral degree is considered to be obsolete after 10 years from the date of completion of such work and may not be used to fulfill degree requirements.

Academic and Elective Fields
For the academic field students must choose one from Musicology, Theory and Analysis, Music Teaching and Learning, Choral Music or Sacred Music. For the elective fields students will choose two fields from among 50 possible areas, including Composition, Performance, Early Music, Jazz Studies, Music Teaching and Learning, Choral Music, Sacred Music, Conducting, Pedagogy, Electroacoustic Media, Music Industry, as well as areas outside of music. The fields comprise courses that are determined by the department in which they are administered. Eight to 10 units are taken in the academic field. Six to 8 units are taken in each elective field. The academic field may not duplicate a major or an elective field. No more than two of the four fields of concentration may be under the guidance of the same department within the Thornton School of Music, and at least one of the elective fields must culminate in a substantial written paper or examination. Students must apply to their chosen fields. Admission to academic and elective fields is determined by the appropriate department, prior to the Graduate Committee Interview. Individualized programs of study will be created in each field in consultation with a faculty advisor in each area.

Graduate Committee Interview
Before the completion of 16 units beyond the master's degree and before permission to present the second doctoral recital is requested, doctoral students must meet with the Graduate Advisory Committee of the Thornton School of Music to discuss their progress in the program and their goals for the future. In preparation for this interview, students must prepare a dossier according to specific instructions available from the Thornton doctoral adviser. The committee determines the student's continuation in the program, and approves both the student's individualized curriculum (including all fields of concentration) and the members of his or her DMA guidance committee.

DMA Guidance Committee
The DMA guidance committee is composed of at least five members: two faculty members from the major department, one of whom will serve as chair, and a faculty member from each of the three other areas of concentration. At least three members of a committee must be full-time faculty of rank in the Thornton School. The composition of the DMA Guidance Committee is proposed and approved as part of the Graduate Committee Interview.

The guidance committee administers the written and oral parts of the comprehensive examination. The committee continues to serve until the comprehensive examination has been passed, the dissertation topic approved (if applicable) and the student is admitted to candidacy (if applicable). For students in curricula that require recitals, the two major field advisers serve as the recital committee and are responsible for determining the approved format, content, scheduling, and presentation of these performances for credit toward the requirements of the degree.

Comprehensive Examination
The comprehensive examination for the DMA is administered by the student's guidance committee. This examination consists of written and oral components and is designed to assess the student's mastery of his or her fields of concentration and readiness for professional independence as a performer, composer, teacher, researcher and/or scholar. The student must obtain permission from the guidance committee to take the comprehensive examination and schedule it at least two months in advance to ensure the committee's availability. The examination must be taken after completion of all required course work for all fields of concentration, except (in some cases) a limited number of the required units of Individual Instruction in the major field.

In degree programs that require the presentation of four major recitals, at least two major recitals must be presented prior to
the administration of the comprehensive examination. Up to two required recitals may be presented after the comprehensive examination. The dissertation (if required) must be written after the comprehensive examination. Comprehensive examinations will not be scheduled during summer sessions except under extraordinary circumstances and only with the written approval of members of the guidance committee. All portions of the examination must be completed within one month.

The comprehensive examination is comprised of a substantial culminating work for each field of concentration, as well as an oral examination with the student's guidance committee. The culminating work for each field may be a written examination, paper, project or recital, as appropriate for the particular field. For the academic field and at least one elective field, this culminating requirement must be a substantial written examination or paper. Following the successful completion of all culminating requirements and the approval of each by the corresponding faculty adviser, the student will sit for a two-hour oral examination with the guidance committee. This oral examination covers in greater depth the topics discussed in the written examinations and other requirements for the fields of concentration. The oral examination may also cover new material as determined by the guidance committee.

The two major field advisers and the academic field adviser must be present at the oral examination and render a judgment on the acceptability of the comprehensive examinations as a whole. It is highly preferable that the faculty advisers for the two elective fields participate in the oral examination with the other members of the guidance committee. If, however, there are challenges with scheduling or other issues that are reasonably unresolvable, the participation of the faculty advisers for elective fields is not required for the oral examination if they feel that the candidate has demonstrated knowledge and mastery of material that is appropriate for an elective field in their disciplines.

The examinations will be reported as passing if there is no more than one dissenting vote on the committee. A student must pass both the written and oral portions to pass the comprehensive examination. A pass on the examination cannot be made contingent upon any form of additional work.

If a student fails the comprehensive examination, the guidance committee may permit the student to repeat it once at a mutually satisfactory time within a period of not less than six months nor more than one year from the date of the first oral examination. A student may not take the comprehensive examination more than twice.

The comprehensive examination serves as the qualifying examination for programs that require a dissertation.

Curriculum Requirements for Performance Major - Organ, Percussion or Winds

It is the objective of the performance curriculum to combine high standards of performance with intellectual accomplishments appropriate to a university degree. Candidates electing this major must present at least four major public appearances: two solo recitals and two other appropriate appearances. The exact format, content and scheduling of the four appearances are the responsibility of the candidate's faculty advisers for the major field of study.

Basic DMA Curriculum (20 units) - Required for All DMA Candidates

- MTAL 505 Teaching and Learning Music Units: 2
- MUCD 441 Choral Conducting II Units: 2
- MUCD 443 Instrumental Conducting II Units: 2
- MU CO 501 Introduction to the Analysis of Tonal Music Units: 2
- MU CO 502 Introduction to the Analysis of Post-Tonal Music Units: 2
- MUHL 570 Research Materials and Techniques Units: 2
- MUHL Electives numbered 500 through 695: 6 units total
- Ensemble Units: 2 units total

Note:

Courses with similar content taken for graduate credit at another accredited institution may be substituted, subject to departmental approval. Master's degree credit for ensemble taken at USC may fulfill this requirement, subject to departmental approval.

Individual Instruction (12 units)

- Individual instruction 653 (take organ, percussion or winds for a maximum of 12 units): 12 units total in your primary instrument

Electives to Fulfill the Academic Field and Two Elective Fields (33 units)

Recitals (0 units)

- Two solo recitals and two other appropriate performances

Units: 0

Comprehensive Examinations (0 units)

Examinations which include the major area, one academic field, and two elective fields.

Total Units: 65

Majors in percussion and winds must participate in a large ensemble each semester if enrolled in 4 or more units.

Performance - Violin, Viola, Violoncello, Double Bass or Harp (DMA)

Overview

The DMA in Performance - Violin, Viola, Violoncello, Double Bass or Harp consists of the following areas of study: the basic DMA curriculum, course work in the major, an academic field and two elective fields.

Degree Prerequisites

DMA applicants must complete the appropriate master of music degree program or its equivalent.

Admission

Admission to Thornton programs is granted through the USC admission process. Applicants are screened by appropriate faculty selection committees. Specific entrance requirements are reviewed on an annual basis and published online at music.usc.edu.

Grade Point Average Requirements

A minimum grade point average of 3.0 (A = 4.0) is required for all graduate course units in music. A grade of B or higher is required for all courses in the major field. For courses in academic and elective fields, the minimum passing grade is C.

Transfer Credit

The Degree Progress Department in the Office of Academic Records and Registrar determines whether course work taken elsewhere is available for transfer credit. A maximum of 30 units of transfer credit may be applied toward a doctoral degree in music. Whether such credit is applicable toward a specific requirement in a major or minor field is determined by the Thornton School department in which the subject is taught, pending approval by the dean of the Thornton School. Transfer credit petitions must be filed with the Thornton doctoral adviser during the first semester in residence. Transfer work must have been completed within 10 years of admission to the DMA program to be applied toward that degree.

Residence Requirement

A minimum of two years of full-time study beyond the Master of Music degree is required for the Doctor of Musical Arts. At least one year of full-time study beyond the master's degree (6 units or more per semester) must be in residence at USC.

Time Schedule

The time limit for completing the Doctor of Musical Arts degree is eight years. For students who earned an applicable master's degree within five years prior to admission to the doctoral program,
the time limit for completing the Doctor of Musical Arts degree is six years. Progress is measured from the beginning of the first course at USC applied toward the degree. Extensions will be granted by petition to the Thornton School for only the most compelling reasons.

Music Graduate Entrance Exams

All students entering a graduate-level degree program (MA, MM, DMA and Ph.D) at USC Thornton, who have not previously completed a degree at USC Thornton, must take a series of entrance exams in core music subjects. These exams are called Music Graduate Entrance Exams (MGEEs). Information regarding which exams are required for specific majors is available from the Thornton Student Affairs office. Also see the Thornton School of Music Admission to Graduate Standing section of this catalogue for specific policies relating to these exams.

Foreign Language

An academic reading knowledge of French, German, Italian or Spanish is required of all students, either by taking a course approved by the Thornton School or by written examination approved by the Thornton School. Departments within the Thornton School may require additional language skills. All language requirements must be fulfilled one semester before entering the third semester in the program. Students with an academic reading knowledge of a language other than English, French, German, Italian or Spanish, may make a written request to the Thornton doctoral adviser to meet this requirement with a different language. In these cases, students must propose and gain the permission of a member of the USC faculty who will agree to create and grade the examination that would ultimately determine fulfillment of the requirement.

Course Requirements

Each student is required to complete four areas of concentration: the major field, an academic field and two elective fields.

Required courses for each major curriculum are listed in the description of major programs below. Required courses for any academic or elective field are determined for their respective fields by the faculty advisers on a student's DMA guidance committee.

A minimum of 65 graduate units beyond the bachelor's degree are required to complete a DMA degree. Fifty-five or more units must be in music, 12 of these beyond the master's level must be in the major. At least 40 of these must be at the 500 level or higher. All course work earned under these requirements for a doctoral degree is considered to be obsolete after 10 years from the date of completion of such work and may not be used to fulfill degree requirements.

Academic and Elective Fields

For the academic field students must choose one from Musicology, Theory and Analysis, Music Teaching and Learning, Choral Music or Sacred Music. For the elective fields students will choose two fields from among 50 possible areas, including Composition, Performance, Early Music, Jazz Studies, Music Teaching and Learning, Choral Music, Sacred Music, Conducting, Pedagogy, Electroacoustic Media, Music Industry, as well as areas outside of music. The fields comprise courses that are determined by the department in which they are administered. Eight to 10 units are taken in the academic field. Six to 8 units are taken in each elective field. The academic field may not duplicate a major or an elective field. No more than two of the four fields of concentration may be under the guidance of the same department within the Thornton School of Music, and at least one of the elective fields must culminate in a substantial written paper or examination. Students must apply to their chosen fields. Admission to academic and elective fields is determined by the appropriate department, prior to the Graduate Committee Interview. Individualized programs of study will be created in each field in consultation with a faculty advisor in each area.

Graduate Committee Interview

Before the completion of 16 units beyond the master's degree and before permission to present the second doctoral recital is requested, doctoral students must meet with the Graduate Advisory Committee of the Thornton School of Music to discuss their progress in the program and their goals for the future. In preparation for this interview, students must prepare a dossier according to specific instructions available from the Thornton doctoral adviser. The committee determines the student's continuation in the program, and approves both the student's individualized curriculum (including all fields of concentration) and the members of his or her DMA guidance committee.

DMA Guidance Committee

The DMA guidance committee is composed of at least five members: two faculty members from the major department, one of whom will serve as chair, and a faculty member from each of the three other areas of concentration. At least three members of a committee must be full-time faculty of rank in the Thornton School. The composition of the DMA Guidance Committee is proposed and approved as part of the Graduate Committee Interview.

The guidance committee administers the written and oral parts of the comprehensive examination. The committee continues to serve until the comprehensive examination has been passed, the dissertation topic approved (if applicable) and the student is admitted to candidacy (if applicable). For students in curricula that require recitals, the two major field advisers serve as the recital committee and are responsible for determining the approved format, content, scheduling, and presentation of these performances for credit toward the requirements of the degree.

Comprehensive Examination

The comprehensive examination for the DMA is administered by the student's guidance committee. This examination consists of written and oral components and is designed to assess the student's mastery of his or her fields of concentration and readiness for professional independence as a performer, composer, teacher, researcher and/or scholar. The student must obtain permission from the guidance committee to take the comprehensive examination and schedule it at least two months in advance to ensure the committee's availability. The examination must be taken after completion of all required course work for all fields of concentration, except (in some cases) a limited number of the required units of Individual Instruction in the major field. In degree programs that require the presentation of four major recitals, at least two major recitals must be presented prior to the administration of the comprehensive examination. Up to two required recitals may be presented after the comprehensive examination. The dissertation (if required) must be written after the comprehensive examination. Comprehensive examinations will not be scheduled during summer sessions except under extraordinary circumstances and only with the written approval of members of the guidance committee. All portions of the examination must be completed within one month.

The comprehensive examination is comprised of a substantial culminating work for each field of concentration, as well as an oral examination with the student's guidance committee. The culminating work for each field may be a written examination, paper, project or recital, as appropriate for the particular field. For the academic field and at least one elective field, this culminating requirement must be a substantial written examination or paper. Following the successful completion of all culminating requirements and the approval of each by the corresponding faculty adviser, the student will sit for a two-hour oral examination with the guidance committee. This oral examination covers in greater depth the topics discussed in the written examinations and other requirements for the fields of concentration. The oral examination may also cover new material as determined by the guidance committee.

The two major field advisers and the academic field adviser must be present at the oral examination and render a judgment on
the acceptability of the comprehensive examinations as a whole. It is highly preferable that the faculty advisers for the two elective fields participate in the oral examination with the other members of the guidance committee. If, however, there are challenges with scheduling or other issues that are reasonably unsolvable, the participation of the faculty advisers for elective fields is not required for the oral examination if they feel that the candidate has demonstrated knowledge and mastery of material that is appropriate for an elective field in their disciplines.

The examinations will be reported as passing if there is no more than one dissenting vote on the committee. A student must pass both the written and oral portions to pass the comprehensive examination. A pass on the examination cannot be made contingent upon any form of additional work.

If a student fails the comprehensive examination, the guidance committee may permit the student to repeat it once at a mutually satisfactory time within a period of not less than six months nor more than one year from the date of the first oral examination. A student may not take the comprehensive examination more than twice.

The comprehensive examination serves as the qualifying examination for programs that require a dissertation.

Curriculum Requirements for Performance Major - Violin, Viola, Violoncello or Harp

It is the objective of the performance curriculum to combine high standards of performance with intellectual accomplishments appropriate to a university degree. Candidates electing this major must present at least four major public appearances: two solo recitals and two other appropriate appearances. The exact format, content and scheduling of the four appearances are the responsibility of the candidate’s faculty advisers for the major field of study.

Basic DMA Curriculum (20 units) - Required for All DMA Candidates

- MTAL 505 Teaching and Learning Music Units: 2
- MUCD 441 Choral Conducting II Units: 2
- MUCD 443 Instrumental Conducting II Units: 2
- MUCO 501 Introduction to the Analysis of Tonal Music Units: 2
- MUCO 502 Introduction to the Analysis of Post-Tonal Music Units: 2
- MUHL 570 Research Materials and Techniques Units: 2
- MUHL electives numbered 500 through 695: 6 units total
- Ensemble Units: 2 units total

Note: Courses with similar content taken for graduate credit at another accredited institution may be substituted, subject to departmental approval. Master's degree credit for ensemble taken at USC may fulfill this requirement, subject to departmental approval.

Individual Instruction (12 units)

- MPST 653 Performance Units: 1 or 2
- 12 units total of MPST 653 (Double Bass)

Recitals (0 units)

- Two solo recitals and two other appropriate performances
- Units: 0

Comprehensive Examinations (0 units)

Examinations which include the major area, one academic field, and two elective fields.

Total Units: 65 Majors in strings must participate in a large ensemble each semester if enrolled in four or more units.

Curriculum Requirements for Performance Major - Double Bass

It is the objective of the performance curriculum to combine high standards of performance with intellectual accomplishments appropriate to a university degree. Candidates electing this major must present at least four major public appearances: two solo recitals and two other appropriate appearances. The exact format, content and scheduling of the four appearances are the responsibility of the candidate's faculty advisers for the major field of study.

Basic DMA Curriculum (20 units) - Required for All DMA Candidates

- MTAL 505 Teaching and Learning Music Units: 2
- MUCD 441 Choral Conducting II Units: 2
- MUCD 443 Instrumental Conducting II Units: 2
- MUHO 501 Introduction to the Analysis of Tonal Music Units: 2
- MUHO 502 Introduction to the Analysis of Post-Tonal Music Units: 2
- MUHL 570 Research Materials and Techniques Units: 2
- MUHL electives numbered 500 through 695: 6 units total
- Ensemble Units: 2 units total

Note: Courses with similar content taken for graduate credit at another accredited institution may be substituted, subject to departmental approval. Master's degree credit for ensemble taken at USC may fulfill this requirement, subject to departmental approval.

Individual Instruction (12 units)

- MPST 653 Performance Units: 1 or 2
- 12 units total of MPST 653 (Double Bass)

Electives to Fulfill the Academic Field and Two Elective Fields (33 units)

Recitals (0 units)

- Two solo recitals and two other appropriate performances
- Units: 0

Comprehensive Examinations (0 units)

Examinations which include the major area, one academic field, and two elective fields.

Total Units: 65 Majors in strings must participate in a large ensemble each semester if enrolled in four or more units.

Performance - Vocal Arts (DMA)

Overview

The DMA in Performance - Vocal Arts consists of the following areas of study: the basic DMA curriculum, course work in the major, an academic field and two elective fields.

Degree Prerequisites

DMA applicants must complete the appropriate master of music degree program or its equivalent.

Admission

Admission to Thornton programs is granted through the USC admission process. Applicants are screened by appropriate faculty selection committees. Specific entrance requirements are reviewed on an annual basis and published online at music.usc.edu.

Grade Point Average Requirements

A minimum grade point average of 3.0 (A = 4.0) is required for all graduate course units in music. A grade of B or higher is required for all courses in the major field. For courses in academic and elective fields, the minimum passing grade is C.

Transfer Credit

The Degree Progress Department in the Office of Academic Records and Registrar determines whether course work taken elsewhere is available for transfer credit. A maximum of 30 units of
transfer credit may be applied toward a doctoral degree in music. Whether such credit is applicable toward a specific requirement in a major or minor field is determined by the Thornton School department in which the subject is taught, pending approval by the dean of the Thornton School. Transfer credit petitions must be filed with the Thornton doctoral adviser during the first semester in residence. Transfer work must have been completed within 10 years of admission to the DMA program to be applied toward that degree.

Residence Requirement

A minimum of two years of full-time study beyond the Master of Music degree is required for the Doctor of Musical Arts. At least one year of full-time study beyond the master’s degree (6 units or more per semester) must be in residence at USC.

Time Schedule

The time limit for completing the Doctor of Musical Arts degree is eight years. For students who earned an applicable master’s degree within five years prior to admission to the doctoral program, the time limit for completing the Doctor of Musical Arts degree is six years. Progress is measured from the beginning of the first course at USC applied toward the degree. Extensions will be granted by petition to the Thornton School for only the most compelling reasons.

Music Graduate Entrance Exams

All students entering a graduate-level degree program (MA, MM, DMA and PhD) at USC Thornton, who have not previously completed a degree at USC Thornton, must take a series of entrance exams in core music subjects. These exams are called Music Graduate Entrance Exams (MGEEs). Information regarding which exams are required for specific majors is available from the Thornton Student Affairs office. Also see the USC Thornton School of Music Admission to Graduate Standing section of this catalogue for specific policies relating to these exams.

Foreign Language

An academic reading knowledge of French, German, Italian or Spanish is required of all students, either by taking a course approved by the Thornton School or by written examination approved by the Thornton School. Departments within the Thornton School may require additional language skills. All language requirements must be fulfilled one semester before entering the third semester in the program. Students with an academic reading knowledge of a language other than English, French, German, Italian or Spanish, may make a written request to the Thornton doctoral adviser to meet this requirement with a different language. In these cases, students must propose and gain the permission of a member of the USC faculty who will agree to create and grade the examination that would ultimately determine fulfillment of the requirement.

Course Requirements

Each student is required to complete four areas of concentration: the major field, an academic field and two elective fields.

Required courses for each major curriculum are listed in the description of major programs below. Required courses for any academic or elective field are determined for their respective fields by the faculty advisers on a student’s DMA guidance committee.

A minimum of 65 graduate units beyond the bachelor’s degree are required to complete a DMA degree. Fifty-five or more units must be in music, 12 of these beyond the master’s level must be in the major. At least 40 of these must be at the 500 level or higher. All course work earned under these requirements for a doctoral degree is considered to be obsolete after 10 years from the date of completion of such work and may not be used to fulfill degree requirements.

Academic and Elective Fields

For the academic field students must choose one from Musicology, Theory and Analysis, Music Teaching and Learning, Choral Music or Sacred Music. For the elective fields students will choose two fields from among 50 possible areas, including Composition, Performance, Early Music, Jazz Studies, Music Teaching and Learning, Choral Music, Sacred Music, Conducting, Pedagogy, Electroacoustic Media, Music Industry, as well as areas outside of music. The fields comprise courses that are determined by the department in which they are administered. Eight to 10 units are taken in the academic field. Six to 8 units are taken in each elective field. The academic field may not duplicate a major or an elective field. No more than two of the four fields of concentration may be under the guidance of the same department within the Thornton School of Music, and at least one of the elective fields must culminate in a substantial written paper or examination. Students must apply to their chosen fields. Admission to academic and elective fields is determined by the appropriate department, prior to the Graduate Committee Interview. Individualized programs of study will be created in each field in consultation with a faculty adviser in each area.

Graduate Committee Interview

Before the completion of 16 units beyond the master’s degree and before permission to present the second doctoral recital is requested, doctoral students must meet with the Graduate Advisory Committee of the Thornton School of Music to discuss their progress in the program and their goals for the future. In preparation for this interview, students must prepare a dossier according to specific instructions available from the Thornton doctoral adviser. The committee determines the student’s continuation in the program, and approves both the student’s individualized curriculum (including all fields of concentration) and the members of his or her DMA guidance committee.

DMA Guidance Committee

The DMA guidance committee is composed of at least five members: two faculty members from the major department, one of whom will serve as chair, and a faculty member from each of the three other areas of concentration. At least three members of a committee must be full-time faculty of rank in the Thornton School. The composition of the DMA Guidance Committee is proposed and approved as part of the Graduate Committee Interview.

The guidance committee administers the written and oral parts of the comprehensive examination. The committee continues to serve until the comprehensive examination has been passed, the dissertation topic approved (if applicable) and the student is admitted to candidacy (if applicable). For students in curricula that require recitals, the two major field advisers serve as the recital committee and are responsible for determining the approved format, content, scheduling, and presentation of these performances for credit toward the requirements of the degree.

Comprehensive Examination

The comprehensive examination for the DMA is administered by the student’s guidance committee. This examination consists of written and oral components and is designed to assess the student’s mastery of his or her fields of concentration and readiness for professional independence as a performer, composer, teacher, researcher and/or scholar. The student must obtain permission from the guidance committee to take the comprehensive examination and schedule it at least two months in advance to ensure the committee’s availability. The examination must be taken after completion of all required course work for all fields of concentration, except (in some cases) a limited number of the required units of Individual Instruction in the major field. In degree programs that require the presentation of four major recitals, at least two major recitals must be presented prior to the administration of the comprehensive examination. Up to two required recitals may be presented after the comprehensive examination. The dissertation (if required) must be written after the comprehensive examination. Comprehensive examinations will not be scheduled during summer sessions except under extraordinary circumstances and only with the written approval of members of the guidance committee. All portions of the examination must be completed within one month.
The comprehensive examination is comprised of a substantial culminating work for each field of concentration, as well as an oral examination with the student's guidance committee. The culminating work for each field may be a written examination, paper, project, or recital, as appropriate for the particular field. For the academic field and at least one elective field, this culminating requirement must be a substantial written examination or paper. Following the successful completion of all culminating requirements and the approval of each by the corresponding faculty advisor, the student will sit for a two-hour oral examination with the guidance committee. This oral examination covers in greater depth the topics discussed in the written examinations and other requirements for the fields of concentration. The oral examination may also cover new material as determined by the guidance committee.

The two major field advisers and the academic field advisor must be present at the oral examination and render a judgment on the acceptability of the comprehensive examinations as a whole. It is highly preferable that the faculty advisors for the two elective fields participate in the oral examination with the other members of the guidance committee. If, however, there are challenges with scheduling or other issues that are reasonably unsolvable, the participation of the faculty advisors for elective fields is not required for the oral examination if they feel that the candidate has demonstrated knowledge and mastery of material that is appropriate for an elective field in their disciplines.

The examinations will be reported as passing if there is no more than one dissenting vote on the committee. A student must pass both the written and oral portions to pass the comprehensive examination. A pass on the examination cannot be made contingent upon any form of additional work.

If a student fails the comprehensive examination, the guidance committee may permit the student to repeat it once at a mutually satisfactory time within a period of not less than six months nor more than one year from the date of the first oral examination. A student may not take the comprehensive examination more than twice.

The comprehensive examination serves as the qualifying examination for programs that require a dissertation.

Curriculum Requirements for Performance Major - Vocal Arts

It is the objective of the performance curriculum to combine high standards of performance with intellectual accomplishments appropriate to a university degree. Candidates electing this major must present at least four major public appearances: two solo recitals and two other appropriate appearances. The exact format, content and scheduling of the four appearances are the responsibility of the candidate’s faculty advisors for the major field of study.

Basic DMA Curriculum (20 units) - Required for All DMA Candidates

- MTAL 505 Teaching and Learning Music Units: 2
- MUCD 441 Choral Conducting II Units: 2
- MUCD 443 Instrumental Conducting II Units: 2
- MUCO 501 Introduction to the Analysis of Tonal Music Units: 2
- MUCO 502 Introduction to the Analysis of Post-Tonal Music Units: 2
- MUHL 570 Research Materials and Techniques Units: 2
- MUHL electives numbered 500 through 695: 6 units total
- Ensemble Units: 2 units total

Note: Courses with similar content taken for graduate credit at another accredited institution may be substituted, subject to departmental approval. Master's degree credit for ensemble taken at USC may fulfill this requirement, subject to departmental approval.

Individual Instruction (12 units)

- MPVA 653 Individual Instruction Units: 1 or 2
- 12 units total of MPVA 653 (Voice)

Program Intensive Courses (2 units)

- MPVA 541 Advanced Vocology Units: 2

Electives to Fulfill the Academic Field and Two Elective Fields (31 units)

Recitals (0 units)

- Two solo recitals and two other appropriate performances

Comprehensive Examinations (0 units)

Examinations which include the major area, one academic field, and two elective fields.

Total Units: 65

Performance — Classical Guitar (DMA)

Overview

The DMA in Classical Guitar consists of the following areas of study: the basic DMA curriculum, course work in the major, an academic field and two elective fields.

Degree Prerequisites

DMA applicants must complete the appropriate master of music degree program or its equivalent.

Admission

Admission to Thornton programs is granted through the USC admission process. Applicants are screened by appropriate faculty selection committees. Specific entrance requirements are reviewed on an annual basis and published online at music.usc.edu.

Grade Point Average Requirements

A minimum grade point average of 3.0 (A = 4.0) is required for all graduate course units in music. A grade of B or higher is required for all courses in the major field. For courses in academic and elective fields, the minimum passing grade is C.

Transfer Credit

The Degree Progress Department in the Office of Academic Records and Registrar determines whether course work taken elsewhere is available for transfer credit. A maximum of 30 units of transfer credit may be applied toward a doctoral degree in music. Whether such credit is applicable toward a specific requirement in a major or minor field is determined by the Thornton School department in which the subject is taught, pending approval by the dean of the Thornton School. Transfer credit petitions must be filed with the Thornton doctoral adviser during the first semester in residence. Transfer work must have been completed within 10 years of admission to the DMA program to be applied toward that degree.

Residence Requirement

A minimum of two years of full-time study beyond the Master of Music degree is required for the Doctor of Musical Arts. At least one year of full-time study beyond the master’s degree (6 units or more per semester) must be in residence at USC.

Time Schedule

The time limit for completing the Doctor of Musical Arts degree is eight years. For students who earned an applicable master’s degree within five years prior to admission to the doctoral program, the time limit for completing the Doctor of Musical Arts degree is six years. Progress is measured from the beginning of the first course at USC applied toward the degree. Extensions will be granted by petition to the Thornton School for only the most compelling reasons.

Music Graduate Entrance Exams

All students entering a graduate-level degree program (MA, MM, DMA and PhD) at USC Thornton, who have not previously completed a degree at USC Thornton, must take a series of entrance exams in core music subjects. These exams are called Music Graduate Entrance Exams (MGEEs). Information regarding which exams are required for specific majors is available from the
Thorton Student Affairs office. Also see the Thornton School of Music Admission to Graduate Standing section of this catalogue for specific policies relating to these exams.

Foreign Language
An academic reading knowledge of French, German, Italian or Spanish is required of all students, either by taking a course approved by the Thornton School or by written examination approved by the Thornton School. Departments within the Thornton School may require additional language skills. All language requirements must be fulfilled one semester before entering the third semester in the program. Students with an academic reading knowledge of a language other than English, French, German, Italian or Spanish, may make a written request to the Thornton doctoral adviser to meet this requirement with a different language. In these cases, students must propose and gain the permission of a member of the USC faculty who will agree to create and grade the examination that would ultimately determine fulfillment of the requirement.

Course Requirements
Each student is required to complete four areas of concentration: the major field, an academic field and two elective fields.

Required courses for each major curriculum are listed in the description of major programs below. Required courses for any academic or elective field are determined for their respective fields by the faculty advisers on a student's DMA guidance committee.

A minimum of 65 graduate units beyond the bachelor's degree are required to complete a DMA degree. Fifty-five or more units must be in music, 12 of these beyond the master's level must be in the major. At least 40 of these must be at the 500 level or higher. All course work earned under these requirements for a doctoral degree is considered to be obsolete after 10 years from the date of completion of such work and may not be used to fulfill degree requirements.

Academic and Elective Fields
For the academic field students must choose one from Musicology, Theory and Analysis, Music Teaching and Learning, Choral Music or Sacred Music. For the elective fields students will choose two fields from among 50 possible areas, including Composition, Performance, Early Music, Jazz Studies, Music Teaching and Learning, Choral Music, Sacred Music, Conducting, Pedagogy, Electroacoustic Media, Music Industry, as well as areas outside of music. The fields comprise courses that are determined by the department in which they are administered. Eight to 10 units are taken in the academic field. Six to 8 units are taken in each elective field. No more than two of the four fields of concentration may be under the guidance of the same department within the Thornton School of Music, and at least one of the elective fields must culminate in a substantial written paper or examination. Students must apply to their chosen fields. Admission to academic and elective fields is determined by the appropriate department, prior to the Graduate Committee Interview. Individualized programs of study will be created in each field in consultation with a faculty advisor in each area.

Graduate Committee Interview
Before the completion of 16 units beyond the master's degree and before permission to present the second doctoral recital is requested, doctoral students must meet with the Graduate Advisory Committee of the Thornton School of Music to discuss their progress in the program and their goals for the future. In preparation for this interview, students must prepare a dossier according to specific instructions available from the Thornton doctoral adviser. The committee determines the student's continuation in the program, and approves both the student's individualized curriculum (including all fields of concentration) and the members of his or her DMA guidance committee.

DMA Guidance Committee
The DMA guidance committee is composed of at least five members: two faculty members from the major department, one of whom will serve as chair, and a faculty member from each of the three other areas of concentration. At least three members of a committee must be full-time faculty of rank in the Thornton School. The composition of the DMA Guidance Committee is proposed and approved as part of the Graduate Committee Interview.

The guidance committee administers the written and oral parts of the comprehensive examination. The committee continues to serve until the comprehensive examination has been passed, the dissertation topic approved (if applicable) and the student is admitted to candidacy (if applicable). For students in curricula that require recitals, the two major field advisers serve as the recital committee and are responsible for determining the approved format, content, scheduling, and presentation of these performances for credit toward the requirements of the degree.

Comprehensive Examination
The comprehensive examination for the DMA is administered by the student's guidance committee. This examination consists of written and oral components and is designed to assess the student's mastery of his or her fields of concentration and readiness for professional independence as a performer, composer, teacher, researcher and/or scholar. The student must obtain permission from the guidance committee to take the comprehensive examination and schedule it at least two months in advance to ensure the committee's availability. The examination must be taken after completion of all required course work for all fields of concentration, except (in some cases) a limited number of the required units of Individual Instruction in the major field. In degree programs that require the presentation of four major recitals, at least two major recitals must be presented prior to the administration of the comprehensive examination. Up to two required recitals may be presented after the comprehensive examination. The dissertation (if required) must be written after the comprehensive examination. Comprehensive examinations will not be scheduled during summer sessions except under extraordinary circumstances and only with the written approval of members of the guidance committee. All portions of the examination must be completed within one month.

The comprehensive examination is comprised of a substantial culminating work for each field of concentration, as well as an oral examination with the student's guidance committee. The culminating work for each field may be a written examination, paper, project or recital, as appropriate for the particular field. For the academic field and at least one elective field, this culminating requirement must not duplicate a major or an elective field. No more than two of the four fields of concentration may be under the guidance of the same department within the Thornton School of Music, and at least one of the elective fields must culminate in a substantial written paper or examination. Students must apply to their chosen fields. Admission to academic and elective fields is determined by the appropriate department, prior to the Graduate Committee Interview. Individualized programs of study will be created in each field in consultation with a faculty advisor in each area.

The two major field advisers and the academic field adviser must be present at the oral examination and render a judgment on the acceptability of the comprehensive examinations as a whole. It is highly preferable that the faculty advisers for the two elective fields participate in the oral examination with the other members of the guidance committee. If, however, there are challenges with scheduling or other issues that are reasonably unresolvable, the participation of the faculty advisers for elective fields is not required for the oral examination if they feel that the candidate has demonstrated knowledge and mastery of material that is appropriate for an elective field in their disciplines.

The examinations will be reported as passing if there is no more than one dissenting vote on the committee. A student must pass both the written and oral portions to pass the comprehensive examination. A pass on the examination cannot be made contingent upon any form of additional work.
If a student fails the comprehensive examination, the guidance committee may permit the student to repeat it once at a mutually satisfactory time within a period of not less than six months nor more than one year from the date of the first oral examination. A student may not take the comprehensive examination more than twice.

The comprehensive examination serves as the qualifying examination for programs that require a dissertation.

**Curriculum Requirements for Performance Major — Classical Guitar**

**Basic DMA Curriculum (20 units) - Required for All DMA Candidates**

- MTAL 505 Teaching and Learning Music Units: 2
- MUCD 441 Choral Conducting II Units: 2

  - Two solo recitals and two other appropriate performances Units: 0

**Total units: 65**

**Performance — Early Music (DMA)**

**Overview**

The DMA in Early Music consists of the following areas of study: the basic DMA curriculum, course work in the major, an academic field and two elective fields.

**Degree Prerequisites**

DMA applicants must complete the appropriate master of music degree program or its equivalent.

**Admission**

Admission to Thornton programs is granted through the USC admission process. Applicants are screened by appropriate faculty selection committees. Specific entrance requirements are reviewed on an annual basis and published online at music.usc.edu.

**Graduate Record Examinations**

Scores from the General Test of the Graduate Record Examinations (GRE) are required for application and admission to the DMA in Early Music. Detailed requirements are available at the Thornton Website, music.usc.edu. Test scores on the GRE that are more than five years old at the time of application are not accepted.

**Grade Point Average Requirements**

A minimum grade point average of 3.0 (A = 4.0) is required for all graduate course units in music. A grade of B or higher is required for all courses in the major field. For courses in academic and elective fields, the minimum passing grade is C.

**Transfer Credit**

The Degree Progress Department in the Office of Academic Records and Registrar determines whether course work taken elsewhere is available for transfer credit. A maximum of 30 units of transfer credit may be applied toward a doctoral degree in music. Whether such credit is applicable toward a specific requirement in a major or minor field is determined by the Thornton School department in which the subject is taught, pending approval by the dean of the Thornton School. Transfer credit petitions must be filed with the Thornton doctoral adviser during the first semester in residence. Transfer work must have been completed within 10 years of admission to the DMA program to be applied toward that degree.

**Residence Requirement**

A minimum of two years of full-time study beyond the Master of Music degree is required for the Doctor of Musical Arts. At least one year of full-time study beyond the master's degree (6 units or more per semester) must be in residence at USC.

**Time Schedule**

The time limit for completing the Doctor of Musical Arts degree is eight years. For students who earned an applicable master’s degree within five years prior to admission to the doctoral program, the time limit for completing the Doctor of Musical Arts degree is six years. Progress is measured from the beginning of the first course at USC applied toward the degree. Extensions will be granted by petition to the Thornton School for only the most compelling reasons.

**Music Graduate Entrance Exams**

All students entering a graduate-level degree program (MA, MM, DMA and PhD) at USC Thornton, who have not previously completed a degree at USC Thornton, must take a series of entrance exams in core music subjects. These exams are called Music Graduate Entrance Exams (MGEEs). Information regarding which exams are required for specific majors is available from the Thornton School. Evaluation of MGEEs are available for transfer credit. A maximum of 30 units of transfer credit may be applied toward a doctoral degree in music. Whether such credit is applicable toward a specific requirement in a major or minor field is determined by the Thornton School of Music Admission to Graduate Standing section of this catalogue for specific policies relating to these exams.

**Foreign Language**

An academic reading knowledge of French, German, Italian or Spanish is required of all students, either by taking a course approved by the Thornton School or by written examination approved by the Thornton School. Departments within the Thornton School may require additional language skills. All language requirements must be fulfilled one semester before entering the third semester in the program. Students with an academic reading knowledge of a language other than English, French, German, Italian or Spanish, may make a written request to the Thornton School for the THUS 570 Foreign Language. This course is six credits and must be completed within the first year of study. In these cases, students must propose and gain the permission of a member of the USC faculty who will agree to create and grade the examination that would ultimately determine fulfillment of the requirement.

**Course Requirements**

Each student is required to complete four areas of concentration: the major field, an academic field and two elective fields.

Required courses for each major curriculum are listed in the description of major programs below. Required courses for any academic or elective field are determined for their respective fields by the faculty advisers on a student's DMA guidance committee.

A minimum of 65 graduate units beyond the bachelor's degree are required to complete a DMA degree. Fifty-five or more units
must be in music, 12 of these beyond the master's level must be in the major. At least 40 of these must be at the 500 level or higher. All course work earned under these requirements for a doctoral degree is considered to be obsolete after 10 years from the date of completion of such work and may not be used to fulfill degree requirements.

Academic and Elective Fields

For the academic field students must choose one from Musicology, Theory and Analysis, Music Teaching and Learning, Choral Music or Sacred Music. For the elective fields students will choose two fields from among 50 possible areas, including Composition, Performance, Early Music, Jazz Studies, Music Teaching and Learning, Choral Music, Sacred Music, Conducting, Pedagogy, Electroacoustic Media, Music Industry, as well as areas outside of music. The fields comprise courses that are determined by the department in which they are administered. Eight to 10 units are taken in the academic field. Six to 8 units are taken in each elective field. The academic field may not duplicate a major or an elective field. No more than two of the four fields of concentration may be under the guidance of the same department within the Thornton School of Music, and at least one of the elective fields must culminate in a substantial written paper or examination. Students must apply to their chosen fields. Admission to academic and elective fields is determined by the appropriate department, prior to the Graduate Committee Interview. Individualized programs of study will be created in each field in consultation with a faculty advisor in each area.

Graduate Committee Interview

Before the completion of 16 units beyond the master's degree and before permission to present the second doctoral recital is requested, doctoral students must meet with the Graduate Advisory Committee of the Thornton School of Music to discuss their progress in the program and their goals for the future. In preparation for this interview, students must prepare a dossier according to specific instructions available from the Thornton doctoral advisor. The committee determines the student's continuation in the program, and approves both the student's individualized curriculum (including all fields of concentration) and the members of his or her DMA guidance committee.

DMA Guidance Committee

The DMA guidance committee is composed of at least five members: two faculty members from the major department, one of whom will serve as chair, and a faculty member from each of the three other areas of concentration. At least three members of a committee must be full-time faculty of rank in the Thornton School. The composition of the DMA Guidance Committee is proposed and approved as part of the Graduate Committee Interview.

The guidance committee administers the written and oral parts of the comprehensive examination. The committee continues to serve until the comprehensive examination has been passed, the dissertation topic approved (if applicable) and the student is admitted to candidacy (if applicable). For students in curricula that require recitals, the two major field advisers serve as the recital committee and are responsible for determining the approved format, content, scheduling, and presentation of these performances for credit toward the requirements of the degree.

Comprehensive Examination

The comprehensive examination for the DMA is administered by the student's guidance committee. This examination consists of written and oral components and is designed to assess the student's mastery of his or her fields of concentration and readiness for professional independence as a performer, composer, teacher, researcher and/or scholar. The student must obtain permission from the guidance committee to take the comprehensive examination and schedule it at least two months in advance to ensure the committee's availability. The examination must be taken after completion of all required course work for all fields of concentration, except (in some cases) a limited number of the required units of Individual Instruction in the major field.

In degree programs that require the presentation of four major recitals, at least two major recitals must be presented prior to the administration of the comprehensive examination. Up to two required recitals may be presented after the comprehensive examination. The dissertation (if required) must be written after the comprehensive examination. Comprehensive examinations will not be scheduled during summer sessions except under extraordinary circumstances and only with the written approval of members of the guidance committee. All portions of the examination must be completed within one month.

The comprehensive examination is comprised of a substantial culminating work for each field of concentration, as well as an oral examination with the student’s guidance committee. The culminating work for each field may be a written examination, paper, project or recital, as appropriate for the particular field. For the academic field and at least one elective field, this culminating requirement must be a substantial written examination or paper. Following the successful completion of all culminating requirements and the approval of each by the corresponding faculty adviser, the student will sit for a two-hour oral examination with the guidance committee. This oral examination covers in greater depth discussion of the topics discussed in the written examinations and other requirements for the fields of concentration. The oral examination may also cover new material as determined by the guidance committee.

The two major field advisers and the academic field adviser must be present at the oral examination and render a judgment on the acceptability of the comprehensive examinations as a whole. It is highly preferable that the faculty advisers for the two elective fields participate in the oral examination with the other members of the guidance committee. If, however, there are challenges with scheduling or other issues that are reasonably unresolvable, the participation of the faculty advisers for elective fields is not required for the oral examination if they feel that the candidate has demonstrated knowledge and mastery of material that is appropriate for an elective field in their disciplines.

The examinations will be reported as passing if there is no more than one dissenting vote on the committee. A student must pass both the written and oral portions to pass the comprehensive examination. A pass on the examination cannot be made contingent upon any form of additional work.

If a student fails the comprehensive examination, the guidance committee may permit the student to repeat it once at a mutually satisfactory time within a period of not less than six months nor more than one year from the date of the first oral examination. A student may not take the comprehensive examination more than twice.

The comprehensive examination serves as the qualifying examination for programs that require a dissertation.

Curriculum Requirements for Performance Major — Early Music

Basic DMA Curriculum (20 units) - Required for All DMA Candidates

- MTAL 505 Teaching and Learning Music Units: 2
- MUCO 441 Choral Conducting II Units: 2
- MUCD 443 Instrumental Conducting II Units: 2
- MUCO 501 Introduction to the Analysis of Tonal Music Units: 2
- MUCO 502 Introduction to the Analysis of Post-Tonal Music Units: 2
- MUHL 570 Research Materials and Techniques Units: 2
- MUHL electives numbered 500 through 695: 6 units total *
- Ensemble Units: 2 units total

Note

Courses with similar content taken for graduate credit at another accredited institution may be substituted, subject to departmental approval. Master's degree credit for ensemble taken at USC may fulfill this requirement, subject to departmental approval.
Lessons, Ensemble and Performance Classes (16 units)
- MPEM 650 Collegium Directing Units: 2
- 4 units total of MPEM 650
- MPEM 653 Performance Units: 1 or 2
- 8 units total of MPEM 653
- MUEN 650 Early Music Ensemble Units: 1
- 4 units total of MUEN 650

Program Intensive Courses (6 units)
- MUHL 572 Seminar in Historical Musical Notation Units: 2
- MUHL 589 Seminar in Renaissance Repertories and Performance Practice Units: 2
- MUHL 591 Seminar in Baroque Repertories and Performance Practice Units: 2

Electives to Fulfill the Academic Field and Two Elective Fields (23 units)

Comprehensive Examinations (0 units)
Examinations which include the major area, one academic field, and two elective fields.

Recitals (0 units)
- Four graduate recitals: two as soloist and ensemble director, one lecture-recital, and one recital of the student's choice

Units: 0

Total units: 65

*Must include MUHL 574 and MUHL 575.

Performance — Keyboard Collaborative Arts (DMA)
Overview
The DMA in Keyboard Collaborative Arts consists of the following areas of study: the basic DMA curriculum, course work in the major, an academic field and two elective fields.

Degree Prerequisites
DMA applicants must complete the appropriate master of music degree program or its equivalent.

Admission
Admission to Thornton programs is granted through the USC admission process. Applicants are screened by appropriate faculty selection committees. Specific entrance requirements are reviewed on an annual basis and published online at music.usc.edu.

Grade Point Average Requirements
A minimum grade point average of 3.0 (A = 4.0) is required for all graduate course units in music. A grade of B or higher is required for all courses in the major field. For courses in academic and elective fields, the minimum passing grade is C.

Transfer Credit
The Degree Progress Department in the Office of Academic Records and Registrar determines whether course work taken elsewhere is available for transfer credit. A maximum of 30 units of transfer credit may be applied toward a doctoral degree in music. Whether such credit is applicable toward a specific requirement in a major or minor field is determined by the Thornton School department in which the subject is taught, pending approval by the dean of the Thornton School. Transfer credit petitions must be filed with the Thornton doctoral adviser during the first semester in residence. Transfer work must have been completed within 10 years of admission to the DMA program to be applied toward that degree.

Residence Requirement
A minimum of two years of full-time study beyond the Master of Music degree is required for the Doctor of Musical Arts. At least one year of full-time study beyond the master's degree (6 units or more per semester) must be in residence at USC.

Time Schedule
The time limit for completing the Doctor of Musical Arts degree is eight years. For students who earned an applicable master's degree within five years prior to admission to the doctoral program, the time limit for completing the Doctor of Musical Arts degree is six years. Progress is measured from the beginning of the first course at USC applied toward the degree. Extensions will be granted by petition to the Thornton School for only the most compelling reasons.

Music Graduate Entrance Exams
All students entering a graduate-level degree program (MA, MM, DMA and PhD) at USC Thornton, who have not previously completed a degree at USC Thornton, must take a series of entrance exams in core music subjects. These exams are called Music Graduate Entrance Exams (MGEEs). Information regarding which exams are required for specific majors is available from the Thornton School of Music Admission to Graduate Standing section of this catalogue for specific policies relating to these exams.

Foreign Language
An academic reading knowledge of French, German, Italian or Spanish is required of all students, either by taking a course approved by the Thornton School or by written examination approved by the Thornton School. Departments within the Thornton School may require additional language skills. All language requirements must be fulfilled one semester before entering the third semester in the program. Students with an academic reading knowledge of a language other than English, French, German, Italian or Spanish, may make a written request to the Thornton doctoral adviser to meet this requirement with a different language. In these cases, students must propose and gain the permission of a member of the USC faculty who will agree to create and grade the examination that would ultimately determine fulfillment of the requirement.

Course Requirements
Each student is required to complete four areas of concentration: the major field, an academic field and two elective fields.

Required courses for each major curriculum are listed in the description of major programs below. Required courses for any academic or elective field are determined for their respective fields by the faculty advisers on a student's DMA guidance committee.

A minimum of 65 graduate units beyond the bachelor's degree are required to complete a DMA degree. Fifty-five or more units must be in music, 12 of these beyond the master's level must be in the major. At least 40 of these must be at the 500 level or higher. All course work earned under these requirements for a doctoral degree is considered to be obsolete after 10 years from the date of completion of such work and may not be used to fulfill degree requirements.

Academic and Elective Fields
For the academic field students must choose one from Musicology, Theory and Analysis, Music Teaching and Learning, Choral Music or Sacred Music. For the elective fields students will choose two fields from among 50 possible areas, including Composition, Performance, Early Music, Jazz Studies, Music Teaching and Learning, Choral Music, Sacred Music, Conducting, Pedagogy, Electroacoustic Media, Music Industry, as well as areas outside of music. The fields comprise courses that are determined by the department in which they are administered. Eight to 10 units are taken in each elective field. The academic field may not duplicate a major or an elective field. No more than two of the four fields of concentration may be under the guidance of the same department within the Thornton School of Music, and at least one of the elective fields must culminate in a substantial written paper or examination.

Students must apply to their chosen fields. Admission to academic...
and elective fields is determined by the appropriate department, prior to the Graduate Committee Interview. Individualized programs of study will be created in each field in consultation with a faculty advisor in each area.

Graduate Committee Interview
Before the completion of 16 units beyond the master’s degree and before permission to present the second doctoral recital is requested, doctoral students must meet with the Graduate Advisory Committee of the Thornton School of Music to discuss their progress in the program and their goals for the future. In preparation for this interview, students must prepare a dossier according to specific instructions available from the Thornton doctoral adviser. The committee determines the student’s continuation in the program, and approves both the student’s individualized curriculum (including all fields of concentration) and the members of his or her DMA guidance committee.

DMA Guidance Committee
The DMA guidance committee is composed of at least five members: two faculty members from the major department, one of whom will serve as chair, and a faculty member from each of the three other areas of concentration. At least three members of a committee must be full-time faculty of rank in the Thornton School. The composition of the DMA Guidance Committee is proposed and approved as part of the Graduate Committee Interview.

The guidance committee administers the written and oral parts of the comprehensive examination. The committee continues to serve until the comprehensive examination has been passed, the dissertation topic approved (if applicable) and the student is admitted to candidacy (if applicable). For students in curricula that require recitals, the two major field advisers serve as the recital committee and are responsible for determining the performances for credit toward the requirements of the degree.

Comprehensive Examination
The comprehensive examination for the DMA is administered by the student’s guidance committee. This examination consists of written and oral components and is designed to assess the student’s mastery of his or her fields of concentration and readiness for professional independence as a performer, composer, teacher, researcher and/or scholar. The student must obtain permission from the guidance committee to take the comprehensive examination and schedule it at least two months in advance to ensure the committee’s availability. The examination must be taken after completion of all required course work for all fields of concentration, except (in some cases) a limited number of the required units of Individual Instruction in the major field.

In degree programs that require the presentation of four major recitals, at least two major recitals must be presented prior to the administration of the comprehensive examination. Up to two required recitals may be presented after the comprehensive examination. The dissertation (if required) must be written after the comprehensive examination. Comprehensive examinations will not be scheduled during summer sessions except under extraordinary circumstances and only with the written approval of members of the guidance committee. All portions of the examination must be completed within one month.

The comprehensive examination is comprised of a substantial culminating work for each field of concentration, as well as an oral examination with the student’s guidance committee. The culminating work for each field may be a written examination, paper, project or recital, as appropriate for the particular field. For the academic field and at least one elective field, this culminating requirement must be a substantial written examination or paper. Following the successful completion of all culminating requirements and the approval of each by the corresponding faculty adviser, the student will sit for a two-hour oral examination with the guidance committee. This oral examination covers in greater depth the topics discussed in the written examinations and other requirements for the fields of concentration. The oral examination may also cover new material as determined by the guidance committee.

The two major field advisers and the academic field adviser must be present at the oral examination and render a judgment on the acceptability of the comprehensive examinations as a whole. It is highly preferable that the faculty advisers for the two elective fields participate in the oral examination with the other members of the guidance committee. If, however, there are challenges with scheduling or other issues that are reasonably unresolvable, the participation of the faculty advisers for elective fields is not required for the oral examination if they feel that the candidate has demonstrated knowledge and mastery of material that is appropriate for an elective field in their disciplines.

The examinations will be reported as passing if there is no more than one dissenting vote on the committee. A student must pass both the written and oral portions to pass the comprehensive examination. A pass on the examination cannot be made contingent upon any form of additional work.

If a student fails the comprehensive examination, the guidance committee may permit the student to repeat it once at a mutually satisfactory time within a period of not less than six months nor more than one year from the date of the first oral examination. A student may not take the comprehensive examination more than twice.

The comprehensive examination serves as the qualifying examination for programs that require a dissertation.

Curriculum Requirements for Performance Major — Keyboard Collaborative Arts
Basic DMA Curriculum (20 units) - Required for All DMA Candidates

- MTAL 505 Teaching and Learning Music Units: 2
- MUCD 441 Choral Conducting II Units: 2
- MUHL electives numbered 500 through 695: 6 units total
- MUCO 501 Introduction to the Analysis of Baroque Music Units: 2
- MUCO 502 Introduction to the Analysis of Tonal Music Units: 2
- MUHL 570 Research Materials and Techniques Units: 2
- MUHL electives numbered 500 through 695: 6 units total
- Ensemble Units: 2 units total

Note: Courses with similar content taken for graduate credit at another accredited institution may be substituted, subject to departmental approval. Master’s degree credit for ensemble taken at USC may fulfill this requirement, subject to departmental approval.

Lessons (12 units)
- MPKS 653 Performance Units: 1 or 2
- 12 units total of MPKS 653

Program Intensive Courses (6 units)
- MPKS 481 Interpretation of Baroque Music Units: 2
- MPKS 560 Song Interpretation Master Class Units: 2
- MPKS 561 Chamber Music Interpretation Master Class Units: 2

Electives to Fulfill the Academic Field and Two Elective Fields (27 units)

Comprehensive Examinations (0 units)
Examinations, which include the major area, one academic field and two elective fields.

Recitals (0 units)
- Four doctoral level recitals; one with voice(s), one with instrument(s), one lecture recital, and other recital as approved Units: 0

Total units: 65

The exact format, content and scheduling of the four graduate recitals are the responsibility of the candidate’s major professor.
Performance — Piano (DMA)

Overview
The DMA in Piano consists of the following areas of study: the basic DMA curriculum, course work in the major, an academic field and two elective fields.

Degree Prerequisites
DMA applicants must complete the appropriate master of music degree program or its equivalent.

Admission
Admission to Thornton programs is granted through the USC admission process. Applicants are screened by appropriate faculty selection committees. Specific entrance requirements are reviewed on an annual basis and published online at music.usc.edu.

Grade Point Average Requirements
A minimum grade point average of 3.0 (A = 4.0) is required for all graduate course units in music. A grade of B or higher is required for all courses in the major field. For courses in academic and elective fields, the minimum passing grade is C.

Transfer Credit
The Degree Progress Department in the Office of Academic Records and Registrar determines whether course work taken elsewhere is available for transfer credit. A maximum of 30 units of transfer credit may be applied toward a doctoral degree in music. Whether such credit is applicable toward a specific requirement in a major or minor field is determined by the Thornton School department in which the subject is taught, pending approval by the dean of the Thornton School. Transfer credit petitions must be filed with the Thornton doctoral adviser during the first semester in residence. Transfer work must have been completed within 10 years of admission to the DMA program to be applied toward that degree.

Residence Requirement
A minimum of two years of full-time study beyond the Master of Music degree is required for the Doctor of Musical Arts. At least one year of full-time study beyond the master's degree (6 units or more per semester) must be in residence at USC.

Time Schedule
The maximum time limit for completing the Doctor of Musical Arts degree is eight years. For students who earned an applicable master's degree within five years prior to admission to the doctoral program, the time limit for completing the Doctor of Musical Arts degree is six years. Progress is measured from the beginning of the first course at USC applied toward the degree. Extensions will be granted by petition to the Thornton School for only the most compelling reasons.

Music Graduate Entrance Exams
All students entering a graduate-level degree program (MA, MM, DMA and PhD) at USC Thornton, who have not previously completed a degree at USC Thornton, must take a series of entrance exams in core music subjects. These exams are called Music Graduate Entrance Exams (MGEEs). Information regarding which exams are required for specific majors is available from the Thornton Student Affairs office. Also see the Thornton School of Music Admission to Graduate Standing section of this catalogue for specific policies relating to these exams.

Foreign Language
An academic reading knowledge of French, German, Italian or Spanish is required of all students, either by taking a course approved by the Thornton School or by written examination approved by the Thornton School. Departments within the Thornton School may require additional language skills. All language requirements must be fulfilled one semester before entering the third semester in the program. Students with an academic reading knowledge of a language other than English, French, German, Italian or Spanish, may make a written request to the Thornton doctoral adviser to meet this requirement with a different language. In these cases, students must propose and gain the permission of a member of the USC faculty who will agree to create and grade the examination that would ultimately determine fulfillment of the requirement.

Course Requirements
Each student is required to complete four areas of concentration: the major field, an academic field and two elective fields.

Required courses for each major curriculum are listed in the description of major programs below. Required courses for any academic or elective field are determined for their respective fields by the faculty advisers on a student's DMA guidance committee. A minimum of 65 graduate units beyond the bachelor's degree are required to complete a DMA degree. Fifty-five or more units must be in music. Twelve of these beyond the master's level must be in the major. At least 40 of these must be at the 500 level or higher.

All course work earned under these requirements for a doctoral degree is considered to be obsolete after 10 years from the date of completion of such work and may not be used to fulfill degree requirements.

Academic and Elective Fields
For the academic field students must choose one from Musicology, Theory and Analysis, Music Teaching and Learning, Choral Music or Sacred Music. For the elective fields students will choose two fields from among 50 possible areas, including Composition, Performance, Early Music, Jazz Studies, Music Teaching and Learning, Choral Music, Sacred Music, Conducting, Pedagogy, Electroacoustic Media, Music Industry, as well as areas outside of music. The fields comprise courses that are determined by the department in which they are administered. Eight to 10 units are taken in the academic field. Six to 8 units are taken in each elective field. The academic field may not duplicate a major or an elective field. No more than two of the four fields of concentration may be under the guidance of the same department within the Thornton School of Music, and at least one of the elective fields must culminate in a substantial written paper or examination.

Students must apply to their chosen fields. Admission to academic and elective fields is determined by the appropriate department, prior to the Graduate Committee Interview. Individualized programs of study will be created in each field in consultation with a faculty adviser in each area.

Graduate Committee Interview
Before the completion of 16 units beyond the master's degree and before permission to present the second doctoral recital is requested, doctoral students must meet with the Graduate Advisory Committee of the Thornton School of Music to discuss their progress in the program and their goals for the future. In preparation for this interview, students must prepare a dossier according to specific instructions available from the Thornton doctoral adviser. The committee determines the student's continuation in the program, and approves both the student's individualized curriculum (including all fields of concentration) and the members of his or her DMA guidance committee.

DMA Guidance Committee
The DMA guidance committee is composed of at least five members: two faculty members from the major department, one of whom will serve as chair, and a faculty member from each of the three other areas of concentration. At least three members of a committee must be full-time faculty of rank in the Thornton School. The composition of the DMA Guidance Committee is proposed and approved as part of the Graduate Committee Interview.

The guidance committee administers the written and oral parts of the comprehensive examination. The committee continues to serve until the comprehensive examination has been passed, the dissertation topic approved (if applicable) and the student is admitted to candidacy (if applicable). For students in curricula that require recitals, the two major field advisers serve as the recital committee and are responsible for determining the
approved format, content, scheduling, and presentation of these performances for credit toward the requirements of the degree.

Comprehensive Examination
The comprehensive examination for the DMA is administered by the student's guidance committee. This examination consists of written and oral components and is designed to assess the student's mastery of his or her fields of concentration and readiness for professional independence as a performer, composer, teacher, researcher and/or scholar. The student must obtain permission from the guidance committee to take the comprehensive examination and schedule it at least two months in advance to ensure the committee's availability. The examination must be taken after completion of all required course work for all fields of concentration, except (in some cases) a limited number of the required units of Individual Instruction in the major field. In degree programs that require the presentation of four major recitals, at least two major recitals must be presented prior to the administration of the comprehensive examination. Up to two required recitals may be presented after the comprehensive examination. The dissertation (if required) must be written after the comprehensive examination. Comprehensive examinations will not be scheduled during summer sessions except under extraordinary circumstances and only with the written approval of members of the guidance committee. All portions of the examination must be completed within one month.

The comprehensive examination is comprised of a substantial culminating work for each field of concentration, as well as an oral examination with the student's guidance committee. The culminating work for each field may be a written examination, paper, project or recital, as appropriate for the particular field. For the academic field and at least one elective field, this culminating requirement must be a substantial written examination or paper. Following the successful completion of all culminating requirements and the approval of each by the corresponding faculty adviser, the student will sit for a two-hour oral examination with the guidance committee. This oral examination covers in greater depth the topics discussed in the written examinations and other requirements for the fields of concentration. The oral examination may also cover new material as determined by the guidance committee.

The two major field advisers and the academic field adviser must be present at the oral examination and render a judgment on the acceptability of the comprehensive examinations as a whole. It is highly preferable that the faculty advisers for the two elective fields participate in the oral examination with the other members of the guidance committee. If, however, there are challenges with scheduling or other issues that are reasonably irresolvable, the participation of the faculty advisers for elective fields is not required for the oral examination if they feel that the candidate has demonstrated knowledge and mastery of material that is appropriate for an elective field in their disciplines.

The examinations will be reported as passing if there is no more than one dissenting vote on the committee. A student must pass both the written and oral portions to pass the comprehensive examination. A pass on the examination cannot be made contingent upon any form of additional work.

If a student fails the comprehensive examination, the guidance committee may permit the student to repeat it once at a mutually satisfactory time within a period of not less than six months nor more than one year from the date of the first oral examination. A student may not take the comprehensive examination more than twice.

The comprehensive examination serves as the qualifying examination for programs that require a dissertation.

- 4 units total of MUEN 526

Electives to Fulfill the Academic Field and Two Elective Fields (25 units)

Comprehensive Examinations (0 units)

Examinations which include the major area, one academic field, and two elective fields.

Recitals (0 units)

- Four doctoral recitals, one of which must be a lecture recital in conjunction with an appropriate research project Units: 0

Total units: 65

Sacred Music (DMA)

Overview
The DMA in Sacred Music consists of the following areas of study: the basic DMA curriculum, course work in the major, an academic field and two elective fields.

Degree Prerequisites
DMA applicants must complete the appropriate master of music degree program or its equivalent.

Admission
Admission to Thornton programs is granted through the USC admission process. Applicants are screened by appropriate faculty selection committees. Specific entrance requirements are reviewed on an annual basis and published online at music.usc.edu.

Graduate Record Examinations
Scores from the General Test of the Graduate Record Examinations (GRE) are required for application and admission to the DMA in Sacred Music. Detailed requirements are available at the Thornton Website, music.usc.edu. Test scores on the GRE that are more than five years old at the time of application are not accepted.

Grade Point Average Requirements
A minimum grade point average of 3.0 (A = 4.0) is required for all graduate course units in music. A grade of B or higher is required for all courses in the major field. For courses in academic and elective fields, the minimum passing grade is C.

Transfer Credit
The Degree Progress Department in the Office of Academic Records and Registrar determines whether course work taken elsewhere is available for transfer credit. A maximum of 30 units of transfer credit may be applied toward a doctoral degree in music. Whether such credit is applicable toward a specific requirement in a major or minor field is determined by the Thornton School department in which the subject is taught, pending approval by the dean of the Thornton School. Transfer credit petitions must be filed with the Thornton doctoral adviser during the first semester in residence. Transfer work must have been completed within 10 years of admission to the DMA program to be applied toward that degree.

Residence Requirement
A minimum of two years of full-time study beyond the Master of Music degree is required for the Doctor of Musical Arts. At least one year of full-time study beyond the master's degree (six units or more per semester) must be in residence at USC.

Time Schedule
The time limit for completing the Doctor of Musical Arts degree is eight years. For students who earned an applicable master's degree within five years prior to admission to the doctoral program, the time limit for completing the Doctor of Musical Arts degree is six years. Progress is measured from the beginning of the first course at USC applied toward the degree. Extensions will be granted by petition to the Thornton School for only the most compelling reasons.

Music Graduate Entrance Exams
All students entering a graduate-level degree program (MA, MM, DMA and PhD) at USC Thornton, who have not previously completed a degree at USC Thornton, must take a series of entrance exams in core music subjects. These exams are called Music Graduate Entrance Exams (MGEES). Information regarding which exams are required for specific majors is available from the Thornton Student Affairs office. Also see the Thornton School of Music Admission to Graduate Standing section of this catalogue for specific policies relating to these exams.
Foreign Language
An academic reading knowledge of French, German, Italian or Spanish is required of all students, either by taking a course approved by the Thornton School or by written examination approved by the Thornton School. Departments within the Thornton School may require additional language skills. All language requirements must be fulfilled one semester before entering the third semester in the program. Students with an academic reading knowledge of a language other than English, French, German, Italian or Spanish, may make a written request to the Thornton doctoral adviser to meet this requirement with a different language. In these cases, students must propose and gain the permission of a member of the USC faculty who will agree to create and grade the examination that would ultimately determine fulfillment of the requirement.

Course Requirements
Each student is required to complete four areas of concentration: the major field, an academic field and two elective fields.

Required courses for each major curriculum are listed in the description of major programs below. Required courses for any academic or elective field are determined for their respective fields by the faculty advisers on a student's DMA guidance committee.

A minimum of 65 graduate units beyond the bachelor's degree are required to complete a DMA degree. Fifty-five or more units must be in music, 12 of these beyond the master's level must be in the major. At least 40 of these must be at the 500 level or higher. All course work earned under these requirements for a doctoral degree is considered to be obsolete after 10 years from the date of completion of such work and may not be used to fulfill degree requirements.

Academic and Elective Fields
For the academic field students must choose one from Musicology, Theory and Analysis, Music Teaching and Learning, Choral Music or Sacred Music. For the elective fields students will choose two fields from among 50 possible areas, including Composition, Performance, Early Music, Jazz Studies, Music Teaching and Learning, Choral Music, Sacred Music, Conducting, Pedagogy, Electroacoustic Media, Music Industry, as well as areas outside of music. The fields comprise courses that are determined by the department in which they are administered. Eight to ten units are taken in the academic field. Six to eight units are taken in each elective field. The academic field may not duplicate a major or an elective field. No more than two of the four fields of concentration may be under the guidance of the same department within the Thornton School of Music, and at least one of the elective fields must culminate in a substantial written paper or examination. Students must apply to their chosen fields. Admission to academic and elective fields is determined by the appropriate department, prior to the Graduate Committee Interview. Individualized programs of study will be created in each field in consultation with a faculty adviser in each area.

Graduate Committee Interview
Before the completion of 16 units beyond the master's degree and before permission to present the second doctoral recital is requested, doctoral students must meet with the Graduate Advisory Committee of the Thornton School of Music to discuss their progress in the program and their goals for the future. In preparation for this interview, students must prepare a dossier according to specific instructions available from the Thornton doctoral adviser. The committee determines the student's continuation in the program, and approves both the student's individualized curriculum (including all fields of concentration) and the members of his or her DMA guidance committee.

DMA Guidance Committee
The DMA guidance committee is composed of at least five members: two faculty members from the major department, one of whom will serve as chair, and a faculty member from each of the three other areas of concentration. At least three members of a committee must be full-time faculty of rank in the Thornton School. The composition of the DMA Guidance Committee is proposed and approved as part of the Graduate Committee Interview. The guidance committee administers the written and oral parts of the comprehensive examination. The committee continues to serve until the comprehensive examination has been passed, the dissertation topic approved (if applicable) and the student is admitted to candidacy (if applicable). For students in curricula that require recitals, the two major field advisers serve as the recital committee and are responsible for determining the approved format, content, scheduling, and presentation of these performances for credit toward the requirements of the degree.

Comprehensive Examination
The comprehensive examination for the DMA is administered by the student's guidance committee. This examination consists of written and oral components and is designed to assess the student's mastery of his or her fields of concentration and readiness for professional independence as a performer, composer, teacher, researcher and/or scholar. The student must obtain permission from the guidance committee to take the comprehensive examination and schedule it at least two months in advance to ensure the committee's availability. The examination must be taken after completion of all required course work for all fields of concentration, except (in some cases) a limited number of the required units of Individual Instruction in the major field.

In degree programs that require the presentation of four major recitals, at least two major recitals must be presented prior to the administration of the comprehensive examination. Up to two required recitals may be presented after the comprehensive examination. The dissertation (if required) must be written after the comprehensive examination. Comprehensive examinations will not be scheduled during summer sessions except under extraordinary circumstances and only with the written approval of members of the guidance committee. All portions of the examination must be completed within one month.

The comprehensive examination is comprised of a substantial culminating work for each field of concentration, as well as an oral examination with the student's guidance committee. The culminating work for each field may be a written examination, paper, project or recital, as appropriate for the particular field. For the academic field and at least one elective field, this culminating requirement must be a substantial written examination or paper. Following the successful completion of all culminating requirements and the approval of each by the corresponding faculty adviser, the student will sit for a two-hour oral examination with the guidance committee. This oral examination covers in greater depth the topics discussed in the written examinations and other requirements for the fields of concentration. The oral examination may also cover new material as determined by the guidance committee.

The two major field advisers and the academic field adviser must be present at the oral examination and render a judgment on the acceptability of the comprehensive examinations as a whole. It is highly preferable that the faculty advisers for the two elective fields participate in the oral examination with the other members of the guidance committee. If, however, there are challenges with scheduling or other issues that are reasonably unresolvable, the participation of the faculty advisers for elective fields is not required for the oral examination if they feel that the candidate has demonstrated knowledge and mastery of material that is appropriate for an elective field in their disciplines.

The examinations will be reported as passing if there is no more than one dissenting vote on the committee. A student must pass both the written and oral portions to pass the comprehensive examination. A pass on the examination cannot be made contingent upon any form of additional work.

If a student fails the comprehensive examination, the guidance committee may permit the student to repeat it once at a mutually satisfactory time within a period of not less than six months nor
more than one year from the date of the first oral examination. A student may not take the comprehensive examination more than twice. The comprehensive examination serves as the qualifying examination for programs that require a dissertation.

Admission to Candidacy
For students pursuing the dissertation option, admission to candidacy occurs after the student has passed the comprehensive examination, upon formal action of the dean of the Thornton School. The dissertation must be completed after admission to candidacy. For students pursuing the project option, the project must also be completed after the student has passed the comprehensive examination.

Doctoral Project
The doctoral project must be approved by the department and may take the form of a lecture recital, a composition, a musical edition, or other appropriate creative endeavor. The doctoral project must reveal creative and scholarly ability, technical mastery, and must take a form relevant to the field. The evaluation of the doctoral project is made by the department in accordance with Thornton School of Music practice in evaluation of capstone doctoral recitals.

Doctoral Dissertation
A dissertation based on original investigation and/or creative work is required of candidates in Composition, Music Teaching and Learning, and Choral Music. This also applies to Sacred Music candidates who pursue the dissertation option. The dissertation must reveal scholarly ability, technical mastery, capacity for independent research and originality in creative thought.

Dissertation Committee
After the guidance committee recommends admission to candidacy and approves the dissertation topic, the committee is reduced to three members. This smaller committee shall be the dissertation committee and will guide the student through the completion of the dissertation. Additional members may be added at the discretion of the chair of the committee if the topic requires special expertise.

Registration for Dissertation
The student must register in 794 Dissertation each semester after admission to candidacy until degree requirements (including the dissertation) are completed. Registration for 794 in no less than two regular semesters following admission to candidacy entitles the candidate to supervision by the dissertation committee. If the dissertation is not completed and accepted within two semesters, the candidate must register for 794 each semester thereafter until the document has been accepted. No more than 8 units of credit in 794 may be accumulated regardless of the number of semesters the candidate may be required to register.

A candidate who must withdraw temporarily from registration in 794 for a semester must report this in writing to the Thornton doctoral adviser before the beginning of that semester. As part of that report, the candidate must also petition for a formal leave of absence. During a leave of absence the candidate will not be entitled to assistance from his or her dissertation committee or to the use of university services and facilities. A leave of absence will be granted only under exceptional circumstances.

Format for Theses and Dissertations
All dissertations submitted for requirements for graduate degrees must conform to university regulations in format and method of preparation. See the USC Graduate School’s guidelines for Theses and Dissertations.

Abstract of Dissertation
Since the abstract of the dissertation is published in Dissertation Abstracts International, it should be written with care and be representative of the final draft of the dissertation.

Defense of the Dissertation
After meeting all requirements including the comprehensive examination, the candidate must defend the dissertation. This defense takes place in order for the committee to determine whether the dissertation should be approved or rejected. While this oral defense is open to the general university community, only the members of the dissertation committee have the authority to recommend its acceptance or rejection. The recommendation must be unanimous in order for the dissertation to be approved.

At least seven weeks before the scheduled date of the defense of the dissertation, written approval by all members of the candidate’s dissertation committee, along with a typed copy of the dissertation abstract, must be filed with the doctoral adviser of the Thornton School of Music.

A candidate may defend the dissertation on the basis of an approved preliminary copy. If the defense is satisfactory and the committee is satisfied with the manuscript as presented, the committee then signs the Approval to Submit Defended and Final Copy of the Doctoral Work form. If additional work is required, the form is left unsigned until the work has been approved.

The final electronic PDF copy of the dissertation, together with signed signature sheet and approval forms, must be presented to the Thesis Editor in the USC Graduate School by the Graduate School’s submission date and times. Approval of format and acceptance by the Graduate School must be presented to the doctoral adviser of the Thornton School of Music at least one week before the end of the semester.

Curriculum Requirements for Sacred Music Major
Proficiency tests in both keyboard and voice will be given by the choral and sacred music faculty during the student’s first semester in residence to determine if additional study in either area is required.

Basic DMA Curriculum (20 units) - Required for All DMA Candidates
- MTAL 505 Teaching and Learning Music Units: 2
- MUCO 501 Introduction to the Analysis of Post-Tonal Music: 2
- MUCD 443 Choral Conducting II Units: 2
- MUCD 443 Instrumental Conducting II Units: 2
- MUCO 501 Introduction to the Analysis of Tonal Music Units: 2
- MUCO 502 Introduction to the Analysis of Post-Tonal Music Units: 2
- MUHL 570 Research Materials and Techniques Units: 2
- MUHL electives numbered 500 through 695: 6 units total
- Ensemble Units: 2 units total

Note:
Courses with similar content taken for graduate credit at another accredited institution may be substituted, subject to departmental approval. Master's degree credit for ensemble taken at USC may fulfill this requirement, subject to departmental approval.

Music Ensembles (2 units)
- Music Ensemble at the 500-level: 2 units total*
Electives to Fulfill the Academic Field and Two Elective Fields (25 units)****

Comprehensive Examinations (0 units)
Examinations, which include the major area, one academic field and two elective fields.

Capstone Project (8 units)
Choose one option from the following:

Dissertation Option:

- Individual Instruction at the 501 level (2 units total)
- MSCR 790 Research Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 (2 units total)
- MSCR 794a Doctoral Dissertation Units: 2
- MSCR 794b Doctoral Dissertation Units: 2

Final Project Option:

- MSCR 790 Research Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 (2 units total)
- MUCD 653 Performance Units: 1 or 2 (2 units total)
- Individual Instruction at the 501 level (4 units total)
- Lecture/Recital Units: 0

Total required for degree: 65

*Sacred music majors must participate in a choral ensemble chosen from MUEN 508, MUEN 510, MUEN 511 or MUEN 512 each semester if enrolled for 4 or more units.

**If these courses have already been taken toward a Master of Music degree at USC, then 500-level MUHL courses or 500-level MUCO analysis courses should be substituted, on consultation with the Sacred Music faculty.

***Courses with similar content in MPVA 541 taken at another institution may be substituted, subject to Vocal Arts departmental approval. Consult with the Vocal Arts and Sacred Music departments to finalize substitution approval and/or course placement.

****Requires one elective field in a performance area.

Teaching and Learning (DMA)

Overview

The DMA in Teaching and Learning consists of the following areas of study: the basic DMA curriculum, course work in the major, an academic field and two elective fields.

The DMA curriculum has been designed to extend beyond the public school setting and prepare students for collegiate teaching in both traditional and alternative settings (such as community-based and on-line programs). Further, the degree offers innovative courses on teaching at the college level. Students have the opportunity to intern with university professors in music education methodology classes. The program also includes core scholarly subjects, such as research, sociology, philosophy, psychology and history of music education. The focus goes beyond the traditional band/orchestra/choir model and extends to additional areas especially relevant to the current diverse and technologically proficient student population.

The professional degree stresses teaching with cutting-edge technological tools while developing core knowledge and expertise in pedagogical skills and scholarship. Students will acquire writing and design skills for a wide range of multimedia publications, while being able to pursue a choice of research activities or advanced creative work that will enable them to lead our profession to new heights. USC is one of the few universities that equally values students being able to declare elective fields in areas outside of music education, while also achieving rigorous scholarship, writing and multimedia design skills, and gaining pedagogical experience that prepares them for collegiate teaching in a rapidly changing society.

Degree Prerequisites

DMA applicants must complete the appropriate master of music degree program or its equivalent.

Admission

Admission to Thornton programs is granted through the USC admission process. Applicants are screened by appropriate faculty selection committees. Specific entrance requirements are reviewed on an annual basis and published online at music.usc.edu.

Graduate Record Examinations

Scores from the General Test of the Graduate Record Examinations (GRE) are required for application and admission to the DMA in Teaching and Learning. Detailed requirements are available at the Thornton Website, music.usc.edu. Test scores on the GRE that are more than five years old at the time of application are not accepted.

Grade Point Average Requirements

A minimum grade point average of 3.0 (A = 4.0) is required for all graduate course units in music. A grade of B or higher is required for all courses in the major field. For courses in academic and elective fields, the minimum passing grade is C.

Transfer Credit

The Degree Progress Department in the Office of Academic Records and Registrar determines whether course work taken elsewhere is available for transfer credit. A maximum of 30 units of transfer credit may be applied toward a doctoral degree in music. Whether such credit is applicable toward a specific requirement in a major or minor field is determined by the Thornton School department in which the subject is taught, pending approval by the dean of the Thornton School. Transfer credit petitions must be filed with the Thornton doctoral adviser during the first semester in residence. Transfer work must have been completed within 10 years of admission to the DMA program to be applied toward that degree.

Residence Requirement

A minimum of two years of full-time study beyond the Master of Music degree is required for the Doctor of Musical Arts. At least one year of full-time study beyond the master's degree (6 units or more per semester) must be in residence at USC.

Time Schedule

The time limit for completing the Doctor of Musical Arts degree is eight years. For students who earned an applicable master's degree within five years prior to admission to the doctoral program, the time limit for completing the Doctor of Musical Arts degree is six years. Progress is measured from the beginning of the first course at USC applied toward the degree. Extensions will be granted by petition to the Thornton School for only the most compelling reasons.

Music Graduate Entrance Exams

All students entering a graduate-level degree program (MA, MM, DMA and PhD) at USC Thornton, who have not previously completed a degree at USC Thornton, must take a series of entrance exams in core music subjects. These exams are called Music Graduate Entrance Exams (MGEEs). Information regarding which exams are required for specific majors is available from the Thornton Student Affairs office. Also see the Thornton School of Music Admission to Graduate Standing section of this catalogue for specific policies relating to these exams.

Foreign Language

An academic reading knowledge of French, German, Italian or Spanish is required of all students, either by taking a course approved by the Thornton School or by written examination approved by the Thornton School. Departments within the Thornton School may require additional language skills. All language requirements must be fulfilled one semester before entering the third semester in the program. Students with an academic reading knowledge of a language other than English, French, German, Italian or Spanish, may make a written request to the Thornton doctoral adviser to meet this requirement with a
different language. In these cases, students must propose and gain the permission of a member of the USC faculty who will agree to create and grade the examination that would ultimately determine fulfillment of the requirement.

**Course Requirements**

Each student is required to complete four areas of concentration: the major field, an academic field and two elective fields.

Required courses for each major curriculum are listed in the description of major programs below. Required courses for any academic or elective field are determined for their respective fields by the faculty advisers on a student's DMA guidance committee.

A minimum of 65 graduate units beyond the bachelor's degree are required to complete a DMA degree. Fifty-five or more units must be in music, 12 of these beyond the master's level must be in the major. At least 40 of these must be at the 500 level or higher. All course work earned under these requirements for a doctoral degree is considered to be obsolete after 10 years from the date of completion of such work and may not be used to fulfill degree requirements.

**Academic and Elective Fields**

For the academic field students must choose one from Musicology, Theory and Analysis, Music Teaching and Learning, Choral Music or Sacred Music. For the elective fields students will choose two fields from among 50 possible areas, including Composition, Performance, Early Music, Jazz Studies, Music Teaching and Learning, Choral Music, Sacred Music, Conducting, Pedagogy, Electroacoustic Media, Music Industry, as well as areas outside of music. The fields comprise courses that are determined by the department in which they are administered. Eight to 10 units are taken in the academic field. Six to 8 units are taken in each elective field. The academic field may not duplicate a major or an elective field. No more than two of the four fields of concentration may be under the guidance of the same department within the Thornton School of Music, and at least one of the elective fields must culminate in a substantial written paper or examination.

Students must apply to their chosen fields. Admission to academic and elective fields is determined by the appropriate department, prior to the Graduate Committee Interview. Individualized programs of study will be created in each field in consultation with a faculty advisor in each area.

**Graduate Committee Interview**

Before the completion of 16 units beyond the master's degree and before permission to present the second doctoral recital is requested, doctoral students must meet with the Graduate Advisory Committee of the Thornton School of Music to discuss their progress in the program and their goals for the future. In preparation for this interview, students must prepare a dossier according to specific instructions available from the Thornton doctoral advisor. The committee determines the student's continuation in the program, and approves both the student's individualized curriculum (including all fields of concentration) and the members of his or her DMA guidance committee.

**DMA Guidance Committee**

The DMA guidance committee is composed of at least five members: two faculty members from the major department, one of whom will serve as chair, and a faculty member from each of the three other areas of concentration. At least three members of a committee must be full-time faculty of rank in the Thornton School. The composition of the DMA Guidance Committee is proposed and approved as part of the Graduate Committee Interview. The guidance committee administers the written and oral parts of the comprehensive examination. The committee continues to serve until the comprehensive examination has been passed, the dissertation topic approved (if applicable) and the student is admitted to candidacy (if applicable). For students in curricula that require recitals, the two major field advisers serve as the recital committee and are responsible for determining the approved format, content, scheduling, and presentation of these performances for credit toward the requirements of the degree.

**Comprehensive Examination**

The comprehensive examination for the DMA is administered by the student's guidance committee. This examination consists of written and oral components and is designed to assess the student's mastery of his or her fields of concentration and readiness for professional independence as a performer, composer, teacher, researcher and/or scholar. The student must obtain permission from the guidance committee to take the comprehensive examination and schedule it at least two months in advance to ensure the committee's availability. The examination must be taken after completion of all required course work for all fields of concentration, except (in some cases) a limited number of the required units of Individual Instruction in the major field. In degree programs that require the presentation of four major recitals, at least two major recitals must be presented prior to the administration of the comprehensive examination. Up to two required recitals may be presented after the comprehensive examination. The dissertation (if required) must be written after the comprehensive examination. Comprehensive examinations will not be scheduled during summer sessions except under extraordinary circumstances and only with the written approval of members of the guidance committee. All portions of the examination must be completed within one month.

The comprehensive examination comprises a substantial culminating work for each field of concentration, as well as an oral examination with the student's guidance committee. The culminating work for each field may be a written examination, paper, project or recital, as appropriate for the particular field. For the academic field and at least one elective field, this culminating requirement must be a substantial written examination or paper. Following the successful completion of all culminating requirements and the approval of each by the corresponding faculty adviser, the student will sit for a two-hour oral examination with the guidance committee. This oral examination covers in greater depth the topics discussed in the written examinations and other requirements for the fields of concentration. The oral examination may also cover new material as determined by the guidance committee.

The two major field advisers and the academic field adviser must be present at the oral examination and render a judgment on the acceptability of the comprehensive examinations as a whole. It is highly preferable that the faculty advisers for the two elective fields participate in the oral examination with the other members of the guidance committee. If, however, there are challenges with scheduling or other issues that are reasonably unresolvable, the participation of the faculty advisers for elective fields is not required for the oral examination if they feel that the candidate has demonstrated knowledge and mastery of material that is appropriate for an elective field in their disciplines.

The examinations will be reported as passing if there is no more than one dissenting vote on the committee. A student must pass both the written and oral portions to pass the comprehensive examination. A pass on the examination cannot be made contingent upon any form of additional work.

If a student fails the comprehensive examination, the guidance committee may permit the student to repeat it once at a mutually satisfactory time within a period of not less than six months nor more than one year from the date of the first oral examination. A student may not take the comprehensive examination more than twice.

The comprehensive examination serves as the qualifying examination for programs that require a dissertation.

**Admission to Candidacy**

For the DMA in Teaching and Learning, admission to candidacy occurs after the student has passed the comprehensive examination, upon formal action of the dean of the Thornton School. The dissertation must be completed after admission to candidacy.
Doctoral Dissertation

A dissertation based on original investigation and/or creative work is required of candidates in Composition, Music Teaching and Learning and Choral Music. The dissertation must reveal scholarly ability, technical mastery, capacity for independent research and originality in creative thought.

Dissertation Committee

After the guidance committee recommends admission to candidacy and approves the dissertation topic, the committee is reduced to three members. This smaller committee shall be the dissertation committee and will guide the student through the completion of the dissertation. Additional members may be added at the discretion of the chair of the committee if the topic requires special expertise.

Registration for Dissertation

The student must register in 794 Dissertation each semester after admission to candidacy until degree requirements (including the dissertation) are completed. Registration for 794 in no less than two regular semesters following admission to candidacy entitles the candidate to supervision by the dissertation committee. If the dissertation is not completed and accepted within two semesters, the candidate must register for 794 each semester thereafter until the document has been accepted. No more than 8 units of credit in 794 may be accumulated regardless of the number of semesters the candidate may be required to register.

A candidate who must withdraw temporarily from registration in 794 for a semester must report this in writing to the Thornton doctoral adviser before the beginning of that semester. As part of that report, the candidate must also petition for a formal leave of absence. During a leave of absence the candidate will not be entitled to assistance from his or her dissertation committee or to the use of university services and facilities. A leave of absence will be granted only under exceptional circumstances.

Format for Theses and Dissertations

All dissertations submitted for requirements for graduate degrees must conform to university regulations in format and method of preparation. See the USC Graduate School’s guidelines for Theses and Dissertations.

Abstract of Dissertation

Since the abstract of the dissertation is published in Dissertation Abstracts International, it should be written with care and be representative of the final draft of the dissertation.

Defense of the Dissertation

After meeting all requirements including the comprehensive examination, the candidate must defend the dissertation. This defense takes place in order for the committee to determine whether the dissertation should be approved or rejected. While this oral defense is open to the general university community, only the members of the dissertation committee have the authority to recommend its acceptance or rejection. The recommendation must be unanimous in order for the dissertation to be approved.

At least seven weeks before the scheduled date of the defense of the dissertation, written approval by all members of the candidate’s dissertation committee, along with a typed copy of the dissertation abstract, must be filed with the doctoral advisor of the Thornton School of Music.

A candidate may defend the dissertation on the basis of an approved preliminary copy. If the defense is satisfactory and the committee is satisfied with the manuscript as presented, the committee then signs the Approval to Submit Defended and Final Copy of the Doctoral Work form. If additional work is required, the form is left unsigned until the work has been approved.

The final electronic PDF copy of the dissertation, together with signed signature sheet and approval forms, must be presented to the Thesis Editor in the USC Graduate School by the Graduate School’s submission date and times. Approval of format and acceptance by the Graduate School must be presented to the doctoral adviser of the Thornton School of Music at least one week before the end of the semester.

Curriculum Requirements for Teaching and Learning Major

Basic DMA Curriculum (20 units) - Required for All DMA Candidates

- MUCD 441 Choral Conducting II Units: 2
- MUCD 443 Instrumental Conducting II Units: 2
- MUCO 501 Introduction to the Analysis of Tonal Music Units: 2
- MUCO 502 Introduction to the Analysis of Post-Tonal Music Units: 2
- MTAL 505 Teaching and Learning Music Units: 2
- MUHL 570 Research Materials and Techniques Units: 2
- MUHL electives numbered 500 through 695: 5 units total
- Ensemble Units: 2 units total

Note:
Courses with similar content taken for graduate credit at another accredited institution may be substituted, subject to departmental approval. Master's degree credit for ensemble taken at USC may fulfill this requirement, subject to departmental approval.

Program Intensive Courses (20 units)

- MTAL 502 Sociological Foundations of Music Teaching and Learning Units: 3
- MTAL 503 Philosophical and Advocacy Issues in Music Teaching and Learning Units: 3
- MTAL 607 Alternative Models in Music Teaching and Learning Units: 3
- MTAL 615 Assessment and Reflective Practice Units: 3
- MTAL 720 Quantitative Research in Music Teaching and Learning Units: 3
- MTAL 721 Qualitative Research in Music Teaching and Learning Units: 3
- MTAL 790 Research Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12
- 1 unit total of MTAL 790

Electives within MTAL Department (6 units)***

Electives to Fulfill the Academic Field and Two Elective Fields (20 units minimum)****

Comprehensive Examinations (0 units)
Examinations include the major area, one academic field and two elective fields.

Capstone Project (4 units)

- MTAL 794a Doctoral Dissertation Units: 2
- MTAL 794b Doctoral Dissertation Units: 2

Total units: 68**

*Music Teaching and Learning students are required to take MTAL 605 instead of MTAL 505 in the basic DMA curriculum.

**MTAL 500 satisfies the requirement of MUHL 570 in the basic DMA curriculum.

***Electives within MTAL will be chosen in consultation with the department.

****It is possible for Music Teaching and Learning students to elect either the academic field or one of the elective field options from outside of the Thornton School. Possible options might include psychology, sociology, education, social work or statistics. These options must be approved by the Graduate Advisory Committee.
USC School of Pharmacy

Founded in 1905, the USC School of Pharmacy is the oldest and foremost pharmacy school in Southern California. The school is a national leader known for its progressive curriculum and research excellence. Approximately 50 percent of the practicing pharmacists in Southern California are graduates of USC. The school has an average student body of 755 full-time students in the PharmD program and 417 students pursuing MS, PhD, DRSc and undergraduate degrees in pharmacoecology and toxicology, pharmaceutical sciences, health economics, regulatory science, healthcare decision analysis and biopharmaceutical marketing. There are 77 full-time faculty and more than 300 part-time and volunteer faculty at the school.

The school occupies state-of-the-art facilities on the USC Health Sciences Campus in metropolitan Los Angeles, adjacent to the Los Angeles County+USC Medical Center (one of the largest teaching hospitals in the country), the USC Norris Cancer Hospital and the Keck Hospital of USC. USC School of Pharmacy students receive clinical training at these facilities and many other affiliated hospitals, healthcare clinics, skilled nursing facilities, home healthcare agencies and pharmacies in the Southern California region.

Recognized as one of the most innovative schools of pharmacy, the USC School of Pharmacy serves as a model for other progressive schools. In 1950, USC was the first to establish a Doctor of Pharmacy program. Additional national "firsts" that distinguish the school include: first clinical pharmacy program (1968); first PharmD/MBA dual degree program (1988); first MS and PhD programs in pharmaceutical economics and policy (1994) and first professional doctorate in regulatory science (2008).

Consistently the top private pharmacy school nationwide, the school is a member of the American Association of Colleges of Pharmacy, and the PharmD program is accredited by the Accreditation Council for Pharmacy Education, 135 S. LaSalle Street, Suite 4100, Chicago, IL 60603-4810, phone: (312) 664-3575; fax: (312) 664-4652 or (312) 664-7008.

John Stauffer Dean’s Chair in Pharmaceutical Sciences: Vassilios Papadopoulos, DPharm, PhD
William A. and Josephine A. Heeres, Endowed Chair in Community Pharmacy: Steven Chen, PharmD
University Professor and Boyd P. and Elsie D. Welin Professor in Pharmaceutical Sciences: Jean Chen Shih, PhD
Distinguished Professor of Pharmacy, Public Policy, and Economics and Leonard D. Schaeffer Director’s Chair: Dana Goldman, PhD
John A. Biles Professor in Pharmaceutical Sciences: Julio A. Camarero, PhD
Gavin Herbert Professorship in Pharmaceutical Sciences: Andrew MacKay, PhD
Charles Krown/Pharmacy Alumni Professor in Pharmaceutical Sciences: Enrique Cadenas, MD, PhD
Emeritus Professor and Dean: Timothy M. Chan, PhD
Emeritus Professors: Eric J. Lien, PhD; Bradley R. Williams, PharmD; Wei-Chiang Shen, PhD

Department of Pharmacology and Pharmaceutical Sciences
Professors of Pharmacoecology and Pharmaceutical Sciences: Enrique Cadenas, MD, PhD; Julio A. Camarero, PhD; Sarah F. Hamm-Alvarez, PhD; Vassilios Papadopoulos, DPharm, PhD; Jean C. Shih, PhD; Bangyang Stiles, PhD; Clay C.C. Wang, PhD
Associate Professors of Pharmacoecology and Pharmaceutical Sciences: James D. Adams, Jr., PhD; Martine Culty, PhD; Roger F. Duncan, PhD; Ian S. Haworth, PhD; J. Andrew MacKay, PhD; Curtis T. Okamoto, PhD
Assistant Professors of Pharmacology and Pharmaceutical Sciences: Jianming Xie, PhD; Yong (Tiger) Zhang, PhD; Zhipeng Lu, PhD
Lecturers: Rebecca Romero, PhD; Angel Tabancay, PhD

Titus Department of Clinical Pharmacy
Professors of Clinical Pharmacy: Melvin F. Baron, PharmD, MPA; Paul M. Beringer, PharmD; Daryl Davies, PhD; Julie A. Dopheide, PharmD; Kari L. Franson, PharmD, PhD; Stanley G. Louie, PharmD; Tien M.H. Ng, PharmD; Glen L. Stimmel, PharmD; Annie Wong-Beringer, PharmD
Associate Professors of Clinical Pharmacy: Steven Chen, PharmD; Melissa Durham, PharmD;Kevin L. Forrester, PharmD; Lisa W. Goldstone, PharmD; William C. Gong, PharmD; Cynthia L.L. Lieu, PharmD; Edith Mirzaian, PharmD; Irving Steinberg, PharmD; Fred G. Weissman, PharmD, JD
Assistant Professors: Houda Alachkar, PharmD, PhD; Serghei Mangul, PhD
Assistant Professors of Clinical Pharmacy: Carla Blieden, PharmD; Michelle Chu, PharmD; Jennifer H. Cupo-Abbott, PharmD; David Dadiomov, PharmD; Richard Dang, PharmD; Tatyana Gurvich, PharmD; Emily Han, PharmD; Connie Kang, PharmD; Kum Ja K, Lee, PharmD; Eni Minejima, PharmD; Scott Mosley, PharmD; Rory O’Callaghan-Kim, PharmD; Tam Phan, PharmD; Raffi Svdjian, PharmD, MBA; Patrick Tabon, PharmD; Ying Wang, PharmD; Paul J. Wong, PharmD; Maryann Wu, EdD
Research Professor: Jing Liang, MD, PhD
Research Assistant Professor of Clinical Pharmacy: Liana Asatryan, PhD

Department of Pharmaceutical and Health Economics

Professors of Pharmaceutical and Health Economics: Dana Goldman, PhD; Joel W. Hay, PhD; Darius N. Lakdawalla, PhD
Associate Professors of Pharmaceutical and Health Economics: Geoffrey Joyce, PhD; Grant D. Lawless, MD, RPh; Jeffrey S. McCombs, PhD; John Romley, PhD; Seth Seabury, PhD; Ken S. Wong, PhD
Assistant Professors of Pharmaceutical and Health Economics: William V. Padula, PhD; Erin Trish, PhD
Research Assistant Professors of Pharmaceutical and Health Economics: Bo Zhou, PhD; Steven Fox, MD, PhD

Department of Regulatory and Quality Sciences

Professor, Department of Regulatory and Quality Sciences: Frances J. Richmond, PhD
Associate Professor, Department of Regulatory and Quality Sciences: Eunjoo Pacifici, PharmD, PhD
Assistant Professors, Department of Regulatory and Quality Sciences: Terry David Church, DRSc; C. Benson Kuo, PhD; Nancy Pire-Smerkanich, DRSc; Susan Bain, DRSc

Programs

The School of Pharmacy offers curricula leading to the Doctor of Pharmacy (PharmD) and Doctor of Regulatory Science (DRSc) degrees and graduate degrees through the Graduate School including: Doctor of Philosophy (PhD) in Health Economics; and the PhD Programs in Pharmaceutical and Translational Sciences which is a one-year umbrella program after which students select one of the following three tracks to complete their PhD degree in Pharmaceutical Sciences, Molecular Pharmacology and Toxicology, or Clinical and Experimental Therapeutics. The School also offers Master of Science (MS) in Pharmaceutical Economics and Policy; Master of Science (MS) in Pharmaceutical Sciences; Master of Science (MS) in Molecular Pharmacology and Toxicology; Master of Science (MS) in Clinical and Experimental Therapeutics; Master of Science (MS) in Healthcare Decision Analysis; Master of Science (MS) in Biopharmaceutical Marketing; Master of Science (MS) in Regulatory Science; Master of Science (MS) in Regulatory Management: Master of Science (MS) in Management of Drug Development; and Master of Science (MS) in Medical Product Quality. Eight dual degree programs are also offered, including: PharmD/PhD, PharmD/JD, PharmD/MBA, PharmD/MPH, PharmD/MS in Regulatory Science, PharmD/MS in Gerontology, PharmD/MS in Global Medicine, PharmD/MS in Healthcare Decision Analysis, and a joint degree in Pharmaceutical Economics and Policy (PhD). Graduate certificates include clinical research design and management, food safety, healthcare decision analysis, medical product quality, preclinical drug development, patient and product safety, and regulatory and clinical affairs.

The School of Pharmacy also offers a Bachelor of Science (BS) in Pharmacology and Drug Development and minors in Science and Management of Biomedical Therapeutics, and Foundation in Regulatory Sciences.

Doctor of Pharmacy (PharmD) Program

Admission Requirements for the Doctor of Pharmacy (PharmD) Program

Applicants should possess a bachelor's degree from an accredited college or university. A cumulative grade point average of 3.0 and a prerequisite grade point average of 3.0 or higher is strongly recommended. All students should complete the pre-requisite courses that are required by the USC School of Pharmacy before they start the program. An interview is mandatory and required of all students prior to admission. International students are required to complete the TOEFL and may request a virtual interview.

Acceptance criteria will be assessed on a case-by-case basis. The admission committee reviews each student holistically, taken all application materials and the interview process into consideration when making an admission decision. Along with being academically prepared, having the soft skills to communicate, problem solve, build relationships and show your ability to think critically are important characteristics to demonstrate.

Tuition and Fees (Estimated)

Tuition for the PharmD at USC School of Pharmacy degree programs is charged at a flat rate (which differs from standard USC tuition). See the Tuition and Fees section for fee information. These fees are subject to change.

Doctor of Pharmacy students must pay a $1,000 non-refundable acceptance deposit that is applicable toward tuition. For deposit information in other degree programs in the School of Pharmacy, please consult appropriate offices.

Honor Societies

Rho Chi

The Rho Chi chapter of Rho Chi, the academic honor society in pharmacy, was established at USC in 1925. Charters for chapters of this organization are granted only to student groups in those colleges that are members in good standing of the American Association of Colleges of Pharmacy. Eligibility for membership is based on high attainment in scholarship, character, personality and leadership. All candidates selected for membership must have completed three semesters of the pharmacy program (or post-qualifying exam for PhD students), and they must be approved by the dean of the School of Pharmacy.

Phi Lambda Sigma

The Phi Lambda Sigma chapter was established at USC in 1988. This national pharmacy leadership society is devoted to identifying, supporting and recognizing the contribution of pharmacy students to their colleges, their classmates, their campuses, their communities and to their chosen profession.

Undergraduate Honors Program

The undergraduate honors in pharmacology and drug development (post code 1681) is awarded through successful completion of the senior capstone project. The project is a demonstration of knowledge in the student's chosen area of interest which results in a product/project, research data, research paper, or portfolio of work, and a presentation. This experience encourages students to use a variety of skills in the areas of writing, speaking, research, and documentation, which distinguishes them as scholars and future leaders in pharmacy.

Student Housing and Service Facility, Health Sciences Campus

There are limited university-managed accommodations on the Health Sciences Campus. Currie Hall has a state-of-the-art fitness center, 24-hour academic success center, pool, wi-fi and fully furnished apartments with enhanced-privacy floor plans. For more information about Currie Hall, call (213) 784-7558 or visit the Currie Hall Website. For bookstore information, call (323) 442-2674. Students may also live in student housing on the University Park Campus, located about eight miles from the Health Sciences Campus.

Student Health Services, Health Sciences Campus

Services of the Student Health Center, covered by the mandatory student health fee, include the ambulatory care health services provided by the Student Health Center nursing staff. The Student Health Center is located in the USC Health Care
Consultation Center, 1500 San Pablo Street, Suite 104, adjacent to the USC University Hospital, one block northeast of the School of Pharmacy. The telephone number is (323) 442-5980. In addition to the student health fee, all students must have major medical insurance coverage from the USC Student Health Plan. A student may request a waiver of the USC Student Health Plan if covered by a personal medical plan that meets criteria established by the Health Insurance Office.

Graduate Degrees

The School of Pharmacy, through the Graduate School, offers curricula leading to the MS and PhD degrees in clinical and experimental therapeutics, molecular pharmacology and toxicology, pharmaceutical sciences and health economics, as well as a doctorate in Regulatory Sciences (DRSc). The PhD Programs in Pharmaceutical and Translational Sciences (PHTS) is a one-year umbrella program after which students select a particular track to complete their degree with a PhD in pharmaceutical sciences, molecular pharmacology and toxicology, or clinical and experimental therapeutics. The school also offers interdisciplinary MS degrees in regulatory science, in the management of drug development, in medical product quality, in healthcare decision analysis and in biopharmaceutical markets. The MS degree in pharmaceutical economics and policy is offered jointly with the USC Price School of Public Policy and the Department of Economics. In addition, the school offers dual degrees with the schools of law, business, gerontology and medicine as well as other programs. Instructions given in the Admission section of this catalogue are to be followed. An online application is required. See the Graduate Admission application page. Additional information may be obtained by calling (323) 442-1474 or sending an email to pharmgrd@usc.edu.

Admission Requirements for the Master of Science in Clinical and Experimental Therapeutics

Applicants should possess a bachelor's degree or equivalent from an accredited college or university. Applicants with graduate or professional degrees are encouraged to apply. A minimum grade point average of 3.0 (A = 4.0) and qualifying scores on the GRE or equivalent examination are required. Special attention is given to the grades achieved in science courses relevant to the program (e.g., chemistry, biology, biochemistry, pharmacology and mathematics). Students who have research experience and/or work experience in the pharmaceutical arena are encouraged to apply.

Acceptance criteria for those individuals will be assessed on a case-by-case basis. English proficiency is essential. Students will be selected for admission, whenever possible, after interviews with one or more members of faculty.

Admission Requirements for the Master of Science in Molecular Pharmacology and Toxicology and Master of Science in Pharmaceutical Sciences

Applicants should possess a bachelor's or master's degree in pharmacy, chemistry, biology or other related disciplines from an accredited college or university. A minimum grade point average of 3.0 and qualifying scores on the GRE are required. Special attention is given to the grades achieved in science courses relevant to the program (e.g., chemistry, biology, biochemistry, pharmacology and mathematics). Applicants must have demonstrated proficiency in verbal and written English and in fundamental scientific areas such as organic and physical chemistry, biochemistry, biology, mathematics, statistics and computer science. Three letters from faculty knowledgeable about the student's ability and capability are required. These letters should provide a thorough assessment of the student's experience in laboratory research, ability to communicate in verbal and written English, motivation and creativity, and other qualities in the student's academic performance.

Applications for admission are reviewed by the Pharmacology and Pharmaceutical Sciences Graduate Admissions Committee of the School of Pharmacy and are evaluated primarily on the basis of academic excellence.

Admission Requirements for Programs in Pharmaceutical and Translational Sciences: Doctor of Philosophy in Clinical and Experimental Therapeutics, Doctor of Philosophy in Molecular Pharmacology and Toxicology, and Doctor of Philosophy in Pharmaceutical Sciences

All prospective students will apply through the single umbrella program Pharmaceutical and Translational Sciences and become enrolled in one of the three participating PhD programs after having successfully completed the first year's course work and rotations. Application materials will be reviewed by a joint admission committee, with equal representation of faculty from each track, evaluating applications on the basis of academic excellence and scientific research commitment.

Applicants should have a baccalaureate degree in natural sciences, or sufficient courses in mathematics and the life sciences. This is required to provide a strong background for studies in biomedical and biological research. Appropriate undergraduate degrees include biology, physiology, engineering, chemistry or computer science.

For those interested in pursuing PhD training in the Clinical and Experimental Therapeutics track, special emphasis will be given to applicants with an advanced professional degree (e.g. PharmD, MD, DDS). A student currently enrolled in the PharmD program may pursue a PharmD/PhD dual degree by following the admission procedure in the Catalogue.

Applicants should have a strong record of academic achievement and satisfactory performance on general and advanced portions of the GRE. A minimum grade point average of 3.0 is required and previous research experience is expected.

In addition to the application for admission, three letters of recommendation from faculty knowledgeable of the student's ability and capability are required. These letters should provide a thorough assessment of the student's experience in laboratory research, ability to communicate in verbal and written English, motivation, creativity and other qualities in the student's academic performance. The student's research and professional experience should be well described within the application and include a personal statement summarizing career objectives and research interests.

Admission Requirements for the Master of Science in Pharmaceutical Economics and Policy

Applicants for admission must have achieved a minimum 3.0 GPA in an undergraduate or professional school and adequate scores on the GRE. In addition, applicants will be required to have completed upper-division courses in statistical methods, calculus and microeconomics.

Admission Requirements for the Doctor of Philosophy in Health Economics

Candidates with a bachelor's, master's or PharmD degree are invited to apply. Applicants must have demonstrated proficiency in verbal and written English and aptitude in economics, mathematics, statistics and computer science. Deficiencies in economics and statistical background can be addressed through preliminary course work after admission to the program. A minimum grade point average of at least 3.0 (A = 4.0) is required. Special attention is given to the grades achieved in economics, statistics and mathematics courses relevant to the program. A qualifying score on the GRE in verbal and quantitative areas is required. Students with GRE scores of 1200 or better will be given priority for financial aid support.

Admission Requirements for the Master of Science in Healthcare Decision Analysis

Applicants should possess a bachelor's degree or equivalent from an accredited college or university. Applicants with graduate or professional degrees are encouraged to apply. A minimum
Admission Requirements for the Master of Science in Biopharmaceutical Marketing

Applicants should possess a bachelor's degree or equivalent from an accredited college or university. Applicants with graduate or professional degrees are encouraged to apply. A minimum grade point average of 3.0 and qualifying scores on the GRE or GMAT examinations are required. The program encourages the participation of part-time students with work experience.

Admission Requirements for the Doctorate of Science in Regulatory Science

The program is designed for individuals with strong professional experience and demonstrated intellectual and leadership capabilities. Applicants are expected to have a GPA of 3.0 on university-level course work and five or more years of professional experience. Admission requirements include university transcripts, a résumé, at least three letters of reference, and a one-page personal statement that outlines the background and goals of the applicant. Students are encouraged even at this early stage to identify areas in which they are interested in conducting research.

Additional requirements for international students are outlined by university regulations under Admission of International Students. (See Admission and Orientation.) Students are not required to provide GRE scores unless indicated by the program director.

Students with an appropriate graduate or professional degree may use some previous graduate courses as transfer units toward the overall credit requirements of the Doctor of Regulatory Science program with the approval of the program director and under the normal rules of the university. Students who have graduated from the Master of Science program in Regulatory Science at USC are eligible to apply all of the previously taken course work toward the doctoral degree. Students with graduate degrees from outside of the Regulatory Science program are required to take a minimum of 32 units of course work and 4 units of dissertation research to complete the requirements for graduation. The course work requirements will be determined on an individual basis in consultation with the program director and participant's advisers.

Admission Requirements for the Master of Science in Management of Drug Development

Applicants should possess a bachelor's degree or equivalent from an accredited college or university. Applicants with graduate or professional degrees are encouraged to apply. A minimum grade point average of 3.0 or equivalent examination are required. The program encourages the participation of part-time students with work experience. Acceptance criteria for those individuals will be assessed on a case-by-case basis. English proficiency is essential.

Admission Requirements for the Master of Science in Medical Product Quality

Applicants should possess a bachelor's degree or equivalent from an accredited college or university. Applicants with graduate or professional degrees are encouraged to apply. A minimum grade point average of 3.0 and qualifying scores on the GRE or equivalent examination are normally required. The program encourages the participation of part-time students who are already working in the industry as well as students who have recently completed or are about to complete an undergraduate program.

Admission Requirements for the Master of Science in Biopharmaceutical Marketing

Applicants should possess a bachelor's degree or equivalent from an accredited college or university. Applicants should also possess a doctoral degree or equivalent from an accredited college or university. A minimum grade point average of 3.0 and a qualifying score on the GRE are expected. In addition, for international students, qualifying scores on the TOEFL or equivalent examination are expected. The program encourages the participation of part-time students who are already working in the industry as well as students who have recently completed or are about to complete a doctoral program.

Admission Requirements for the Master of Science in Regulatory Management

Applicants should possess a bachelor's degree or equivalent from an accredited college or university. Applicants should also possess a doctoral degree or equivalent from an accredited college or university. A minimum grade point average of 3.0 is required. The program encourages the participation of part-time students who are already working in the industry as well as students who have recently completed or are about to complete a doctoral program.

Admission of International Students to Graduate Degree Programs

All requirements described in this section are also applicable to the admission of international students. In addition, special application and admission procedures are required of international students. Refer to the section on Admission of International Students in this catalogue.

Degree Requirements

These degrees are under the jurisdiction of the School of Pharmacy and/or jointly with the Graduate School. Students should also refer to the Requirements for Graduation section and The Graduate School section of this catalogue for general regulations. All courses applied toward the degrees must be courses accepted by the Graduate School.

- Master of Science in Biopharmaceutical Marketing
- Master of Science in Clinical and Experimental Therapeutics
- Master of Science in Healthcare Decision Analysis
- Master of Science in Management of Drug Development
- Master of Science in Medical Product Quality
- Master of Science in Molecular Pharmacology and Toxicology
- Master of Science in Pharmaceutical Economics and Policy
- Master of Science in Pharmaceutical Sciences
- Master of Science in Regulatory Management
- Master of Science in Regulatory Science
- Doctor of Philosophy in Clinical and Experimental Therapeutics
- Doctor of Philosophy in Health Economics
- Doctor of Philosophy in Molecular Pharmacology and Toxicology
- Doctor of Philosophy in Pharmaceutical Sciences
- Doctor of Philosophy in Pharmaceutical Economics and Policy
- Doctor of Regulatory Science
• PharmD
• PharmD/Juris Doctor
• PharmD/Master of Business Administration Dual Degree Program
• PharmD/Master of Science, Gerontology
• PharmD/Master of Science, Global Medicine
• PharmD/Master of Science, Healthcare Decision Analysis
• PharmD/Master of Public Health
• PharmD/Master of Science, Regulatory Science
• PharmD/Doctor of Philosophy

Non-Degree Programs
Office of Continuing Professional Development
1985 Zonal Avenue
Los Angeles, CA 90089-9121

Continuing Education
The School of Pharmacy, Office of Continuing Professional Development, is a recognized provider of continuing pharmacy education accredited by the Accreditation Council for Pharmacy Education (ACPE) and recognized by the California State Board of Pharmacy and throughout the United States.

Programs are designed to educate pharmacists about current issues in pharmaceutical care, practice management, therapeutics and other topics of professional interest. Continuing education programs are held at the School of Pharmacy and other locations.

For information concerning continuing education programs contact the Office of Continuing Professional Development.

Bachelor's Degree
Pharmacology and Drug Development (BS)

The Bachelor of Science in Pharmacology and Drug Development (PDD) provides a well-defined pathway for science and non-science majors to gain significant knowledge in pharmacology, pharmaceutical sciences, toxicology and medical product development, marketing and use.

Pharmacology is the science of drugs including their origin, composition, pharmacokinetics, pharmacodynamics, therapeutic uses and toxicity. Drug development is the discipline that deals with the process of turning a new chemical entity (NCE) into a safe and effective medication for the advancement of human health. Completion of the PDD major will significantly prepare USC undergraduates for advanced training in health related fields including pharmacy, medicine and dentistry. Other clinical specialties. The PDD major is also uniquely suited to provide coursework applicable for undergraduates interested in drug discovery/development training that will lead to careers in biotech, pharmaceutical and biomedical industries ranging from private companies to governmental careers.

The Bachelor of Science in Pharmacology and Drug Development requires the completion of a minimum of 128 units that include:

1. General Education and Writing Requirements
2. Foundational courses designed to prepare students for the major
3. An introductory 4-unit lower-division (200 level) course in Pharmaceutical and Regulatory Science (RXRS)
4. A minimum number of 32 units of upper-division (300 level and above) courses in Pharmaceutical and Regulatory Science (RXRS)
5. A minimum of 8 units of upper-division (300 level and above) courses in Biological Sciences (BISC) unique to the major

The Bachelor of Science in Pharmacology and Drug Development provides a novel path for science and non-science undergraduates at USC to gain significant knowledge in the disciplines of pharmacology and drug development. Pharmacology is the science of drugs including their origin, composition, pharmacokinetics, pharmacodynamics, therapeutic uses and toxicology. Drug development is the discipline that deals with the process of turning a new chemical entity (NCE) into a safe and effective medication for the advancement of human health. Completion of the major will prepare students for advanced clinical training in health-related fields including pharmacy, medicine and dentistry. It will also provide foundational education that can lead to new opportunities for students considering careers in biotech, pharmaceutical sciences and biomedical industries.

The Bachelor of Science in Pharmacology and Drug Development is conferred by the USC School of Pharmacy.

Calculus
Select one course
• MATH 108g Contemporary Precalculus Units: 4
• MATH 118gx Fundamental Principles of Calculus Units: 4
• MATH 125g Calculus I Units: 4

Statistics
Select one course
• BISC 305g Statistics for Biological Sciences Units: 4
• BME 423 Statistical Methods in Biomedical Engineering Units: 4
• HP 340Lg Health Behavior Statistical Methods Units: 4
• MATH 208x Elementary Probability and Statistics Units: 4
• PSYC 274Lg Statistics Units: 4

Chemistry
Select two courses
• CHEM 105aLg General Chemistry Units: 4
• CHEM 105bL General Chemistry Units: 4
• CHEM 115aLg Advanced General Chemistry Units: 4
• CHEM 115bL Advanced General Chemistry Units: 4

Courses must be selected from either the general chemistry or the advanced general chemistry series.

Biology
Select two courses
• BISC 120Lg General Biology: Organismal Biology and Evolution Units: 4
• BISC 220Lg General Biology: Cell Biology and Physiology Units: 4
• BISC 121Lg Advanced General Biology: Organismal Biology and Evolution Units: 4
• BISC 221Lg Advanced General Biology: Cell Biology and Physiology Units: 4

Courses must be selected from either the general biology or the advanced general biology series.

Pharmaceutical and Regulatory Science (RXRS) Unit Requirement
Students must complete a minimum of 36 units of RXRS coursework, including one 4-unit lower division RXRS course and a minimum of 32 units of upper division (300 level and above) RXRS courses. A maximum of 4 units can be met by taking Directed Research (RXRS 490)

Pharmaceutical and Regulatory Science (RXRS) Requirement (Part 1)
One course
• RXRS 200 Approaches to Pharmacology and Drug Development Units: 4
Pharmaceutical and Regulatory Science (RXRS) Requirement (Part 2)
One course
• RXRS 402 Human Pharmacology: Challenge of Therapeutics in Society Units: 4

Pharmaceutical and Regulatory Science (RXRS) Requirement (Part 3)
Select one course
• RXRS 302 Introduction to Pharmacology and Therapeutics Units: 4
• RXRS 413w Globalization of the Biomedical Industry Units: 4

Pharmaceutical and Regulatory Science (RXRS) Requirement (Part 4)
Select four courses
• RXRS 304 Mysterious Deaths: From Poisons in Literature and History to Forensic Toxicology Units: 4
• RXRS 403 Neuropsychopharmacology in Health and Disease Units: 4
• RXRS 407 The Discovery, Development and Marketing of Medicines Units: 4
• RXRS 408 Arming the Immune System for Novel Therapies Units: 4
• RXRS 410 Cancer Biology and Pharmacotherapy Units: 4
• RXRS 411 Innovations in Medical Product Development Units: 4
• RXRS 414 Buzzed: Modern Substances of Abuse and Addiction Units: 4
• RXRS 416 Medical Products: From Idea to Market Units: 4
• RXRS 420 Organ Physiology, Drug Delivery, and Drug Action Units: 4

Pharmaceutical and Regulatory Science (RXRS) Requirement (Part 5)
The remaining units may be selected from the following RXRS courses, including, but not limited to:
• RXRS 405 Breaking Brains: The Pharmacology of Addiction Units: 4
• RXRS 406 Clinical Pharmacology and Medication Management Units: 4
• RXRS 412 Ethics, Drugs and Society Units: 4
• RXRS 417 Food Safety: The Good, The Bad and The Deadly Units: 4
• RXRS 418 Plant Medicines in Modern Medicine Units: 4
• RXRS 490x Directed Research Units: 1, 2, 3, 4, 5, 6, 7, 8
A maximum of 4 units can be met by taking Directed Research (RXRS 490).

Biological Sciences (BISC) Requirement
Select two courses
• BISC 300L Introduction to Microbiology Units: 4
• BISC 307L General Physiology Units: 4
• BISC 320Lq Molecular Biology Units: 4
• BISC 330L Biochemistry Units: 4

Minor
Foundation in Regulatory Sciences Minor
The Foundation in Regulatory Sciences minor will deepen students' understanding of current regulations and quality practices with practical application in the development and commercialization of drugs, biologics and medical device products. This minor will broaden perspectives and integrate knowledge to allow students to effectively understand the regulatory process.

Students who minor in Foundation in Regulatory Sciences must take a minimum of five upper division RXRS courses, totaling at least 20 units. All courses must be at the 300 and 400 level, and must be unique to this minor and must not overlap with the major or another minor. A maximum of 4 units can be met by taking Directed Research (RXRS 490x).

Only students with a declared major are eligible to apply. Students must be in sophomore standing and have completed a minimum of 32 USC units as an entering freshman or 16 units as an entering transfer student.

Required Courses (12 units)
• RXRS 402 Human Pharmacology: Challenge of Therapeutics in Society Units: 4
• RXRS 413w Globalization of the Biomedical Industry Units: 4
• RXRS 416 Medical Products: From Idea to Market Units: 4

Electives (minimum of 8 RXRS course units)
Select a minimum of 8 RXRS courses totaling a minimum of 8 units. A maximum of 4 units can be met by taking Directed Research (RXRS 490).
• RXRS 304 Mysterious Deaths: From Poisons in Literature and History to Forensic Toxicology Units: 4
• RXRS 403 Neuropsychopharmacology in Health and Disease Units: 4
• RXRS 405 Breaking Brains: The Pharmacology of Addiction Units: 4
• RXRS 406 Clinical Pharmacology and Medication Management Units: 4
• RXRS 407 The Discovery, Development and Marketing of Medicines Units: 4
• RXRS 408 Arming the Immune System for Novel Therapies Units: 4
• RXRS 410 Cancer Biology and Pharmacotherapy Units: 4
• RXRS 411 Innovations in Medical Product Development Units: 4
• RXRS 412 Ethics, Drugs and Society Units: 4
• RXRS 414 Buzzed: Modern Substances of Abuse and Addiction Units: 4
• RXRS 417 Food Safety: The Good, The Bad and The Deadly Units: 4
• RXRS 418 Plant Medicines in Modern Medicine Units: 4
• RXRS 420 Organ Physiology, Drug Delivery, and Drug Action Units: 4
• RXRS 490x Directed Research Units: 1, 2, 3, 4, 5, 6, 7, 8

Science and Management of Biomedical Therapeutics Minor
The minor in Science and Management of Biomedical Therapeutics consists of a minimum of 20 units of Pharmaceutical and Regulatory Science (RXRS) course work, 16 of which must be at the 300 or 400 level, and which are unique to this minor and do not overlap with the major, another minor or general education requirements of the undergraduate students.

The minor in Science and Management of Biomedical Therapeutics requires a minimum of five RXRS courses. A maximum of 4 units can be met by taking Directed Research (RXRS 490). Only students with a declared major are eligible to apply. Students must be in sophomore standing and have completed a minimum of 32 USC units as an entering freshman or 16 units as an entering transfer student.

Course work within the minor will focus on domains of pharmacology, pharmaceutical sciences, toxicology, nutritional sciences, medical product development and drug use and abuse. Students will select course work in consultation with an academic adviser.

Required Pharmaceutical and Regulatory Science (RXRS) Courses
To gain a solid foundation for the minor, at least two core courses (selected from the four below) are required:
• RXRS 402 Human Pharmacology: Challenge of Therapeutics in Society Units: 4
• RXRS 403 Neuropsychopharmacology in Health and Disease Units: 4
• RXRS 407 The Discovery, Development and Marketing of Medicines Units: 4
• RXRS 416 Medical Products: From Idea to Market Units: 4
Additional Pharmaceutical and Regulatory Science (RXRS) Courses
The remaining units may be selected from the following RXRS courses. A maximum of 4 units of lower-division course work permitted. Students may select courses from the required course work category to complete the minimum five RXRS course requirement.

- RXRS 200 Approaches to Pharmacology and Drug Development Units: 4
- RXRS 201p The History and Geography of Drugs Units: 4
- RXRS 302 Introduction to Pharmacology and Therapeutics Units: 4
- RXRS 304 Mysterious Deaths: From Poisons in Literature and History to Forensic Toxicology Units: 4
- RXRS 404 Neuroimmunity in Health and Disease Units: 2
- RXRS 405 Breaking Brains: The Pharmacology of Addiction Units: 4
- RXRS 406 Clinical Pharmacology and Medication Management Units: 4
- RXRS 408 Arming the Immune System for Novel Therapies Units: 4
- RXRS 410 Cancer Biology and Pharmacotherapy Units: 4
- RXRS 411 Innovations in Medical Product Development Units: 4
- RXRS 412 Ethics, Drugs and Society Units: 4
- RXRS 413 Globalization of the Biomedical Industry Units: 3
- RXRS 414 Buzzed: Modern Substances of Abuse and Addiction Units: 4
- RXRS 417 Food Safety: The Good, The Bad and The Deadly Units: 4
- RXRS 418 Plant Medicines in Modern Medicine Units: 4
- RXRS 420 Organ Physiology, Drug Delivery, and Drug Action Units: 4
- RXRS 490x Directed Research Units: 1, 2, 3, 4, 5, 6, 7, 8

Joint Degree
Pharmaceutical Economics and Policy (PhD)
Application deadline: December 1
The Department of Economics and the Department of Pharmaceutical Economics and Policy (USC School of Pharmacy) jointly offer a program of study leading to the PhD degree and to the MA degree in the process of work toward the PhD degree.

Required courses include both core requirements and area requirements. Core requirements include courses in economic theory, econometrics, and research methods. Area requirements include courses in health economics, pharmaceutical economics, welfare theory and applied econometrics.

For a detailed description of this program, see the School of Pharmacy section of this catalogue.

Master's Degree
Biopharmaceutical Marketing (MS)

Master of Science in Biopharmaceutical Marketing
The Master's Program in Biopharmaceutical Marketing (BPMK) is an intensive, industry focused and uniquely targeted program designed to produce graduates whose undergraduate and graduate backgrounds in marketing, communication, biological and pharmaceutical, related sales and advertising, drug management and other healthcare-involved business are enhanced by knowledge and skills appropriate for a highly regulated environment, specifically in the application and practice of biopharmaceutical marketing. Biopharmaceutical marketing is a uniquely emerging branch of drug product development, management, market placement, access and insurance coverage, outcomes and value determinations that functions at the intersection of audience segmented product marketing, healthcare industry and government regulatory issues and treatment efficiency, including value and reimbursement. This program will provide the opportunity for mid-career professionals as well as highly motivated new graduates to enter a field in which public and private payers, biopharmaceutical industry and government cannot find sufficient qualified individuals and technically skilled managers to meet demand.

The Biopharmaceutical Marketing Master of Science (BPMK) program will require 27 academic units over an intensive one year (12 months) or part-time option over two years. Students will have a core of seven core courses totaling 21 units (typically 3 units each), with two capstone projects (3 units each) required to complete the 27 unit requirement for graduation. This program will incorporate only customized and uniquely designed courses to target the marketing requirements of the biopharmaceutical industry. Capstone project may either use a standard format of topics and experience or can be customized to fit the individual student’s experience, career plans and areas of interest. Each customized capstone project will be supervised by a dedicated mentor possessing complimentary skills and experience along with the program director.

Biopharmaceutical Marketing Requirements
Complete all following courses:

- BPMK 500 Biopharmaceutical Market: Reimbursement Strategy Units: 3
- BPMK 501 Healthcare Payers, Insurance and Coverage Policy Units: 3
- BPMK 502 Biopharmaceutical Product Development and Marketing Units: 3
- BPMK 503 Biopharmaceutical Advertising and Communication Units: 3
- BPMK 504 Payer Formulary Placement: Value and Access Units: 3
- BPMK 505 Product Health Economics and Valuation Units: 3
- BPMK 506 Biopharmaceutical Product Pricing and Competition Units: 3
- BPMK 510 Capstone I: Biopharmaceutical Management Project Units: 3
- BPMK 511 Capstone II: Biopharmaceutical Management Project Units: 3

Clinical and Experimental Therapeutics (MS)
A Master of Science in Clinical Experimental and Therapeutics (28 units) will be granted on the basis of completion of at least 24 units of formal course work, in addition to 4 units earned by either completing and successfully presenting a thesis (CXPT 594a and CXPT 594b, both 2-unit courses based on the results of an original investigation), or by completing a non-thesis option. Students must choose one of these options by the end of the first year of study.

Three courses (11 units) are required: CXPT 609, CXPT 664 and PM 510L. The remaining units will be taken from courses offered within the School of Pharmacy or in various related disciplines outside the department, if approved by the Clinical Experimental Therapeutics Program Director.

All 28 units must be at the 400 level or above, with a maximum of 8 units of 400-level courses applied toward the degree.

Healthcare Decision Analysis (MS)

Curriculum Requirements
A Master of Science degree in healthcare decision analysis will be granted upon completion of at least 33 units of formal course work. Students with experience in industry or government can substitute an equivalent amount of formal course work with a research project, subject to the approval from program administrators.

Course requirements normally include a minimum of eight courses (24 units) with emphasis on applied health care policy, business intelligence and technical analysis. Recommended course work and electives include some courses available in other departments of the university and will be selected in
consultation with the program advisers according to the areas of
intended specialization of the participant in order to meet the credit
requirements of the program. Students should develop a specific plan
of study in consultation with the graduate advisers before beginning the program.

Grade Point Average
A grade point average of at least 3.0 (A = 4.0) must be achieved on
graduate course work at USC.

Management of Drug Development (MS)
A Master of Science degree in the management of drug
development will be granted upon completion of at least 32 units
of course work. The program is offered on both a full-time and
part-time basis, and courses are also available in distance formats.
Course requirements normally include a minimum of three courses concerned with translational aspects of medical
product development. Recommended courses to satisfy this core
requirement include RSCI 531, RSCI 532, PSCI 664 or CXPT 609. The program must also include a minimum of one course in
each of: regulatory science, quality assurance, clinical research,
business and statistics. Students should develop a specific plan of
study in consultation with graduate advisers before beginning the program.

Medical Product Development
Recommended course work includes:
- CXPT 609 Preclinical Experimental Drug Therapeutic
  Development Units: 4
- PSCI 664 Drug Discovery and Design Units: 4
- RSCI 531 Industrial Approaches to Drug Discovery Units: 4
- RSCI 532 Early Stage Drug Development Units: 3

Medical Product Quality (MS)
To keep medical products safe and effective, a strong system
of quality management is required. Quality is assured through
compliance with strict regulations and is assessed by regulatory
agencies through audits and inspections. A Master of Science
degree in Medical Product Quality is a specialized program
designed to prepare individuals to function effectively as quality
specialists in pharmaceutical and medical device sectors. The
degree will be granted upon completion of at least 32 units
of course work. Course requirements normally include a minimum of four
courses concerned with the quality aspects of medical product
development and manufacturing and a minimum of one course
each in regulatory science, risk management, statistics and project
management. The program is offered on both a full-time and part-
time basis, and courses are also available in distance formats.
Students should develop a specific plan of study in consultation
with their graduate adviser before beginning the program.

Molecular Pharmacology and Toxicology
(MS)
A Master of Science in Molecular Pharmacology and Toxicology
(28 units) will be granted on the basis of completion of at least
24 units of formal course work, in addition to four units earned
by either completing and successfully presenting a thesis (MPTX
594a and MPTX 594b, both 2-unit courses based on the results
of an original investigation), or by completing a non-thesis option.
Students must choose one of these options by the end of the first
year of study.

Three courses (12 units) are required from Department of
Pharmacology and Pharmaceutical Sciences: PSCI 501, PSCI
502 and PSCI 503. Additionally, four units are in a degree-specific
required course: MPTX 500.

The remaining units will be taken from courses offered within
the Department of Pharmacology and Pharmaceutical Sciences or
in various related disciplines outside the department, if approved
by the Department of Pharmacology and Pharmaceutical Sciences
Graduate Affairs Committee.

All 28 units must be at the 500 level or above.

Pharmaceutical Economics and Policy (MS)
The Department of Pharmaceutical Economics and Policy
(School of Pharmacy) offers a program of study leading to the
MS degree. Applicants must apply to the Graduate School
and meet the admissions requirements of the program. This
program requires students to demonstrate skills in the analysis of
pharmaceutical and health technology innovations, as well as an
understanding of contemporary health policy issues.

A minimum of 36 units of graduate level courses is required.

Grade Point Average
A grade point average of at least 3.0 (A = 4.0) must be achieved on
graduate course work at USC.

Recommended Courses
Students must complete all recommended courses for the degree
within five years of entry into the program. It is recommended
that the student complete the following 36 units of graduate level
course work.

- PPD 501a Economics for Policy, Planning and Development
  Units: 2 and
- PPD 501b Economics for Policy, Planning and Development
  Units: 2
- HCDA 506 Foundations of Insurance and Global Access
  Units: 3
- PMEP 509 Research Design Units: 4
- PMEP 525 Pharmacoeconomics I Units: 4
- PMEP 526 Pharmacoeconomics II Units: 2
- PMEP 527 Pharmacoeconomics III Units: 4
  or approved elective
- PMEP 535 Behavioral Science and Policy in Healthcare
  Units: 4
- PMEP 539 Economic Assessment of Medical Care Units: 4
- PMEP 547 Programming Methods for Empirical Analysis of
  Health Data Units: 4
- PMEP 551 Introduction to Health Econometrics Units: 4
- PMEP 552 Advanced Health Econometrics I Units: 4
  or approved elective
- PMEP 590 Directed Research Units: 1, 2, 3, 4, 5, 6, 7, 8, 9,
  10, 11, 12

Note:
- The student must satisfactorily complete the recommended
courses in public administration (PPD 501a and PPD 501b) prior
to enrolling in PMEP 525 and PMEP 526.

Additional Degree Requirements
The student is also required to complete an empirical research
project on a topic relevant to pharmaceutical economics and
policy. This paper will be completed under the advisement of a
faculty member in the Department of Pharmaceutical and Health
Economics and be approved by two additional faculty.

List of Approved Electives
- ECON 401 Mathematical Methods in Economics Units: 4
- ECON 415 Behavioral Economics Units: 4
- ECON 419 Advanced Econometrics Units: 4
- ECON 500 Microeconomic Analysis and Policy Units: 4
- ECON 513 Practice of Econometrics Units: 4
- ECON 601 Microeconomic Theory I Units: 4
- ECON 603 Microeconomic Theory II Units: 4
- ECON 604 Game Theory Units: 4
- ECON 611 Probability and Statistics for Economists Units: 4
- ECON 615 Applied Econometrics Units: 4
- ECON 688 Empirical Industrial Organization Units: 4
- HCDA 506 Foundations of Insurance and Global Access
  Units: 3
- HCDA 507 Foundations of Product Development and
  Commercialization Units: 3
- MEDS 500 Basic Concepts in Global Health Units: 4
- PM 510L Principles of Biostatistics Units: 4
- PM 511aL Data Analysis Units: 4
- PM 511bL Data Analysis Units: 4
• PM 511cL Data Analysis Units: 4
• PM 512 Principles of Epidemiology Units: 4
• PM 523 Design of Clinical Studies Units: 3
• PM 536 Program Evaluation and Research Units: 4
• PM 552 Statistical Methods in Clinical Trials Units: 3
• PM 560 Statistical Programming With R Units: 2
• PSYC 426 Motivated Behaviors and Addiction Units: 4

Pharmaceutical Sciences (MS)
A Master of Science in Pharmaceutical Sciences (28 units) will be granted on the basis of completion of at least 24 units of formal course work, in addition to 4 units earned by either completing and successfully presenting a thesis (PSCI 594a and PSCI 594b, both 2-unit courses based on the results of an original investigation), or by completing a non-thesis option. Students must choose one of these options by the end of the first year of study.

Three courses (12 units) are required from Department of Pharmacology and Pharmaceutical Sciences: PSCI 501, PSCI 502 and PSCI 503. Additionally, 4 units are in a degree-specific required course: PSCI 665.

The remaining units will be taken from courses offered within the Department of Pharmacology and Pharmaceutical Sciences or in various related disciplines outside the department, if approved by the Department of Pharmacology and Pharmaceutical Sciences Graduate Affairs Committee.

All 28 units must be at the 500 level or above.

Regulatory Management (MS)
Regulatory management relates to the leadership of teams involved in the regulatory and legal requirements of biomedical product development to the scientific study needed to establish product safety and efficacy. The Master of Science in Regulatory Management program is designed to provide post-doctoral scientists with the knowledge and skills necessary to become leaders in regulatory and clinical research. A Masters of Science in Regulatory Management will be granted upon completion of at least 24 units of formal course work. Degree requirements include courses concerned with the regulatory aspects of medical product development, quality assurance, clinical research and business. Students should develop a specific plan of study in consultation with the graduate advisers before beginning the program.

Course Work
Students may select courses from areas within the regulatory science program, including from regulatory science, quality management, and clinical development, including that of business, human resource management, and project management. Suggested course options include but are not limited to the following:
• MPTX 511 Introduction to Medical Product Regulation Units: 3
• MPTX 512 Regulation of Pharmaceutical and Biological Products Units: 3
• MPTX 513 Regulation of Medical Devices and Diagnostics Units: 3
• MPTX 517 Structure and Management of Clinical Trials Units: 4
• RSCI 590 Directed Research Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12

Regulatory Science (MS)
Regulatory science relates the regulatory and legal requirements of biomedical product development to the scientific study needed to establish product safety and efficacy. A Master of Science degree in regulatory science will be granted upon completion of at least 36 units of formal course work. Course requirements normally include a minimum of three courses concerned with regulatory aspects of medical product development and a minimum of one course each in quality assurance, clinical research, business, statistics and law. Recommended course work includes some courses available in other departments of the university. Students should develop a specific plan of study in consultation with the graduate advisers before beginning the program.

Graduate Certificate
Clinical Research Design and Management Certificate
The graduate certificate in clinical research design and management is designed to strengthen the statistical, research and project management skills of clinical researchers and their associated clinical team members. Students must complete at least 12 units of course work including at least two courses in clinical design and trial management, one course in ethics and one course in a specialized aspect of design, management or statistics, subject to the approval of the program director. The program will include course work delivered in nontraditional formats such as intensive weekend sessions and will use distance learning tools, Webcast lectures and study materials. Courses can be taken on site, by distance or as a blended combination. Students should confirm their specific course work plan in consultation with the graduate advisers before beginning the program. Students who have bachelor's degrees from accredited colleges or universities must submit an application for graduate study through the regulatory science program of the School of Pharmacy. GRE scores are not required for admission to the certificate program. Students are expected to enroll each semester until the program is completed.

Requirements
Introduction to Clinical Trials
• MPTX 517 Structure and Management of Clinical Trials Units: 4
Clinical Design/Statistics (choose one)
• MPTX 522 Introduction to Clinical Trial Design and Statistics Units: 3
• PM 510L Principles of Biostatistics Units: 4
Biomedical Ethics
• MPTX 602 Science, Research and Ethics Units: 2
Elective (choose at least one)
• MPTX 511 Introduction to Medical Product Regulation Units: 3
• MPTX 522 Introduction to Clinical Trial Design and Statistics Units: 3
• PM 510L Principles of Biostatistics Units: 4
• RSCI 506 Auditing Principles Units: 3
• RSCI 520 Introduction to Risk Management for Health Care Products Units: 2
• RSCI 527 Medical Product Safety Units: 3
• RSCI 603 Managing Complex Projects Units: 3
*Note:
Cannot be double counted as an elective and the Clinical Design/Statistics requirement.

Food Safety Certificate
The graduate certificate in food safety is a 12-unit program of course work designed to strengthen the knowledge base and functional "toolkit" of individuals who deal with the production and management of food in industry and government. Students are required to take an entry level course that focuses on regulatory requirements for foods and dietary supplements and two additional courses that focus on food science and food/drug toxicology respectively. Final course work will be selected from a small grouping of electives that deal with quality systems or risk management. The program will include course work delivered in nontraditional formats, such as intensive weekend sessions, and will use distance learning tools, Webcast lectures and study materials. Courses can be taken on site, by distance or as a blended combination. Students should confirm their specific course work plan in consultation with the graduate advisers before beginning the program. Students who have bachelor's degrees
from accredited colleges or universities must submit an application for graduate study through the regulatory science program of the School of Pharmacy. GRE scores are not required for admission to the certificate program. Students are expected to enroll each semester until the program is completed.

**Requirements**
- MPTX 514 Regulation of Food and Dietary Supplements Units: 3
- MPTX 524 Introduction to Food Science and Technology Units: 3
- RSCI 525 Introduction to Drug and Food Toxicology Units: 3

**Quality/Risk Management Option:**
Select at least one course (3 units):
- MPTX 511 Introduction to Medical Product Regulation Units: 3
- MPTX 515 Quality Systems and Standards Units: 3
- MPTX 526 Chemistry Manufacturing and Controls Units: 3
- RSCI 508 Quality Assurance for Drugs and Biologics Units: 3
- RSCI 509 Quality Assurance, Medical Devices and Combination Products Units: 3
- RSCI 520 Introduction to Risk Management for Health Care Products Units: 2
- RSCI 529 Application of Risk Management Tools and Techniques Units: 2

**Healthcare Decision Analysis Certificate**
The Healthcare Decision Analysis (HCDA) Certificate program gives students the tools and knowledge to succeed in the complex world of healthcare data analytics, international access and reimbursement, product pricing and value assessment, insurance operations and design, along with competitive business intelligence. Course work is typically delivered in nontraditional formats such as intensive weekend sessions, Webcast lectures, and distance learning tools. Courses must be taken on-site. Students should confirm their specific course work plan in consultation with the graduate adviser before beginning the program. Students who have bachelor’s degrees from accredited colleges or universities must submit an application for graduate study through the Healthcare Decision Analysis program. GRE scores are not required for admission to the certificate program. Students are expected to enroll each semester until the program is completed.

Students must complete at least 12 units of specified course work, which normally will include two introductory courses on healthcare insurance and access, and product development and commercialization, along with two additional elective courses. The certificate can be completed on a part-time basis but must be finished within five years.

**Required Courses**
- HCDA 506 Foundations of Insurance and Global Access Units: 3
- HCDA 507 Foundations of Product Development and Commercialization Units: 3

**Electives (select two):**
- HCDA 501 Fundamentals of Healthcare Insurance Design Units: 3
- HCDA 502 Comparative International Healthcare Systems Units: 3
- HCDA 503 Competitive Healthcare Intelligence Units: 3
- HCDA 510 Business Implications of Healthcare Policy Units: 3
- HCDA 515 Healthcare Decision Analysis and Modeling Units: 3
- HCDA 520 Health Economic and Outcomes Methodology Units: 3
- HCDA 525 Healthcare Literature Analysis and Applications Units: 3
- HCDA 530 Total Product Development: Benchtop to Launch Units: 3
- HCDA 540 Executive Leadership and Healthcare Marketing Units: 3
- HCDA 550 Healthcare Innovation: Creativity to Value Units: 3
- HCDA 553 Advanced Pricing Strategies Units: 3
- HCDA 560 Managing Effective Partnerships and Mergers Units: 3
- HCDA 570 Asia Pacific: Access, Delivery and Reimbursement Units: 3

**Medical Product Quality Graduate Certificate**
The graduate certificate in Medical Product Quality is a 12-unit program designed for students with a background in biological, pharmaceutical and biomedical sciences and biomedical engineering. Quality assurance and quality control are the two functions in the biomedical industry that are responsible for the testing and oversight required to ensure the safety of the health care products that are manufactured. An essential tenet of regulatory oversight is the assurance of quality through guidelines, audits and inspections. In this program the regulations and guidelines to ensure the quality of drugs, biologics and medical devices, both in the United States and internationally, will be studied to develop an understanding of the basic principles important for the interpretation and implementation of quality practices and quality systems. Course work is typically delivered in nontraditional formats such as intensive weekend sessions and will use distance learning tools, Webcast lectures and study materials. Courses can be taken on site, by distance or as a blended combination. Students should confirm their specific course work plan in consultation with the graduate advisers before beginning the program. Students who have bachelor’s degrees from accredited colleges or universities must submit an application for graduate study through the regulatory science program of the School of Pharmacy. GRE scores are not required for admission to the certificate program. Students are expected to enroll each semester until the program is completed.

Students must complete 12 units of specified course work (four course minimum), that normally will include an introductory course in the basic principles of quality systems, a course in project management, a course in quality tools and one elective chosen from the quality or regulatory offerings. The certificate can be completed on a part-time basis but must be finished within five years.

Choose at least one Quality Systems course from:
- MPTX 515 Quality Systems and Standards Units: 3
- RSCI 508 Quality Assurance for Drugs and Biologics Units: 3
- RSCI 509 Quality Assurance, Medical Devices and Combination Products Units: 3

Choose at least one Quality Tools course from:
- RSCI 506 Auditing Principles Units: 3
- RSCI 507 Quality Systems and Statistical Process Control Units: 2
- RSCI 535 Methods Development and Validation Units: 3

**Project Management**
- RSCI 603 Managing Complex Projects Units: 3

Choose an elective from the Quality or Regulatory offerings (minimum 3 units)
Elective course selected in consultation with academic adviser

**Patient and Product Safety Certificate**
The graduate certificate in patient and product safety is a 12-unit program that educates students in the emerging field of safety and risk management in the health care environment. It is designed to produce graduates who have a particular expertise in the evaluation and mitigation of medical errors and healthcare product problems. Course work is typically delivered in nontraditional formats such as intensive weekend sessions and
will use distance learning tools, Webcasts and study materials. Courses can be taken on site, by distance or as a blended combination. Students should confirm their specific course work plan in consultation with the graduate advisers before beginning the program. Students who have bachelor's degrees from accredited colleges or universities must submit an application for graduate study through the regulatory science program of the School of Pharmacy. GRE scores are not required for admission to the certificate program. Students are expected to enroll each semester until the program is completed.

Students must complete 12 units of specified course work, that normally will include an introductory course in the basic principles of risk management, a second course in the use of risk management tools, and two additional courses in patient and product safety respectively as listed below. In addition, a course in medical ethics is recommended. Most students will take the courses that are listed in the sample student program below, but if students have already strong previous experience in risk management or safety, other statistical or quality courses taught in graduate programs at USC may be substituted with the permission of the program director. The certificate can be completed on a part-time basis but must be finished within five years. Courses may be selected from the following recommended course list.

**Recommended Course List**
- MPTX 515 Quality Systems and Standards Units: 3
- MPTX 517 Structure and Management of Clinical Trials Units: 4
- MPTX 602 Science, Research and Ethics Units: 2
- RSCI 520 Introduction to Risk Management for Health Care Products Units: 2
- RSCI 527 Medical Product Safety Units: 3
- RSCI 529 Application of Risk Management Tools and Techniques Units: 2
- RSCI 603 Managing Complex Projects Units: 3

**Preclinical Drug Development Certificate**

The graduate certificate in preclinical drug development provides advanced foundational training in preclinical aspects of drug development, translational research and regulatory control. Students must complete at least 12 units of course work including at least three courses in preclinical design and development (typically, RSCI 530 Translational Medicine: An Overview; RSCI 531 Industrial Approaches to Drug Discovery; RSCI 532 Early Stage Drug Development) and one course in a related aspect of research design, regulation or ethics, subject to the approval of the program director. The program will include course work delivered in nontraditional formats such as intensive weekend sessions and will use distance capabilities to capture and Webcast lectures and study materials. Courses can be taken on site, by distance or as a blended combination. Students should confirm their specific course work plan in consultation with graduate advisers before beginning the program. Students who have baccalaureate degrees from accredited colleges or universities must submit an application for graduate study through the regulatory science program of the School of Pharmacy. GRE scores are not required for admission to the certificate program. Students are expected to enroll each semester until the program is completed.

**Regulatory and Clinical Affairs Certificate**

The graduate certificate in regulatory and clinical affairs is designed to provide specialized education for individuals interested in developing a systematic understanding of the U.S. regulatory system for medical products. Students must complete at least 12 units of course work including an introductory course in regulatory affairs:

**Requirements**

- **Introductory Course (1 course)**
  - MPTX 511 Introduction to Medical Product Regulation Units: 3

**Advanced Regulation (1 course)**
- MPTX 512 Regulation of Pharmaceutical and Biological Products Units: 3
- MPTX 513 Regulation of Medical Devices and Diagnostics Units: 3
- MPTX 514 Regulation of Food and Dietary Supplements Units: 3

**Clinical Trials (1 course)**
- MPTX 517 Structure and Management of Clinical Trials Units: 4
- MPTX 518 Writing Regulatory Drug Submissions Units: 3
- MPTX 522 Introduction to Clinical Trial Design and Statistics Units: 3
- MPTX 526 Chemistry Manufacturing and Controls Units: 3
- RSCI 525 Introduction to Drug and Food Toxicology Units: 3

**Quality Assurance and Risk Management (1 course)**
- MPTX 515 Quality Systems and Standards Units: 3
- RSCI 508 Quality Assurance for Drugs and Biologics Units: 3
- RSCI 509 Quality Assurance, Medical Devices and Combination Products Units: 3
- RSCI 520 Introduction to Risk Management for Health Care Products Units: 2

**Minimum Units: 12**

**Additional Requirements**

Other courses may be substituted with the approval of the program director. The program will include course work delivered in nontraditional formats such as intensive weekend sessions and will use distance capabilities to capture and Webcast lectures and study materials. Courses can be taken on site, by distance or as a blended combination. Students should confirm their specific course work plan in consultation with the graduate advisers before beginning the program. Students who have a baccalaureate degree from an accredited college or university must submit an application for graduate study through the regulatory science program of the School of Pharmacy. GRE scores are not required for admission to the certificate program. Students are expected to enroll each semester until the program is completed.

**Dual Degree**

**Doctor of Pharmacy/Doctor of Philosophy (PharmD/PhD)**

The Doctor of Pharmacy/Doctor of Philosophy (PharmD/PhD) program is designed to permit qualified PharmD students with a bachelor of science or equivalent degree to pursue research training in the pharmaceutical sciences and toxicology. A student accepted into the joint program must meet all requirements for the PharmD, as well as the requirements for the PhD in the pharmaceutical sciences or toxicology sections listed in this catalogue. A maximum of 20 units from the PharmD program may be credited toward the PhD. Up to 12 units of these PharmD courses may, at the discretion of the student's PhD adviser, be counted toward the required 24 units of core course work.

**Admission Procedure**

Students applying for the dual degree program must meet the respective admission requirements for each program. This includes having completed a baccalaureate degree from an accredited college or university with a minimum GPA of 3.0 and a minimum GRE score of 1000. Students will not be given special consideration for admission to either program because they are applying for the dual degree. Students may apply to the dual PharmD/PhD degree program in two ways. First, they may apply at the time they submit their PharmD application by concurrently submitting applications to both programs. Students who elect this approach must identify themselves on both applications as potential dual degree students. Students who are admitted to
both programs will be offered admission to the PharmD and will
be offered admission to the dual degree program contingent
on passing all courses in their first year of the PharmD with a
minimum 3.0 GPA. Students who are accepted by only one
program may choose to attend that program but will not be eligible
for the dual degree. Second, students can apply to the dual degree
by submitting an application to one of the PhD programs in the
School of Pharmacy during their first two years of enrollment in
the PharmD prior to the respective published application deadlines
for the PhD programs. Students who elect this approach must
apply through the PharmD program. Students admitted to the PhD
program using this approach will be offered admission to the dual
dergonment on their having maintained a minimum 3.0 GPA
in the PharmD program.

Doctor of Pharmacy/Juris Doctor (PharmD/ JD)

Admission Requirements
Admission to the dual Doctor of Pharmacy/Juris Doctor
(PharmD/JD) program is competitive, and involves meeting
admission requirements and gaining acceptance to both the
School of Pharmacy and the USC Gould School of Law. Students
will not be given special consideration for admission to either program because they are applying for the dual degree. Students
who have a baccalaureate degree may apply to the dual PharmD/
JD degree program in two ways.
First, they may apply at the time they submit their PharmD
application by concurrently submitting applications to both schools. Students who elect this approach must identify themselves
on their PharmD applications as potential dual PharmD/JD degree
students. Students who are admitted to both schools will be
offered admission to the dual degree contingent on passing all
courses in their first year of the PharmD with a minimum 3.0 GPA.
Students pursuing the dual PharmD/JD degree must notify the
law school in a timely fashion that they will be enrolling in the dual
PharmD/JD degree program and will not matriculate at the law
school until the following year. Students who are accepted by only
one school may choose to attend that school but will not be eligible
for the dual degree.
Second, students can apply to the dual degree by submitting
an application to the Gould School of Law during their first year
of enrollment in the PharmD program prior to the law school’s
published application deadline. Students who elect this approach
must apply through the School of Pharmacy. Students who are
admitted to the law school using this approach would be offered
admission to the dual degree contingent on passing all courses in
their first year of the PharmD with a minimum 3.0 GPA. See the
admissions section of the School of Pharmacy and the Gould
School of Law for specific requirements.

PharmD Requirements
Dual degree students should graduate with their PharmD
degrees at the completion of the first semester of the sixth
academic year of the dual degree program. Students will be
eligible to sit for the Pharmacy Board Exams after completion of
the PharmD degree requirements. However, dual degree students
will not actually be awarded their PharmD degrees until they
complete requirements for both degrees.

Juris Doctor Requirements
Dual degree students must complete their JD course work
during the second to sixth years of the dual degree program.
Students cannot receive the JD degree under the requirements of
the dual degree program without prior or simultaneous completion of
the PharmD degree.
Both professions require passing a state board or bar exam to practice the respective professions. Neither of these professional
doctoral degrees requires a thesis or comprehensive final exam.

Year I (P1) Curriculum
Fall
- PHRD 501 Pharmaceutics I Units: 3
- PHRD 503 Biological Systems I Units: 4
- PHRD 511 Pharmacy Practice and Professionalism 1 Units: 5
- PHRD 515 Metabolism and Cell Biology Units: 2
- PHRD 517 Pharmacogenetics Units: 2
- PHRD 521 Medicinal Chemistry Units: 2
- Spring
- PHRD 502 Pharmaceutics II Units: 2
- PHRD 504 Biological Systems II Units: 4
- PHRD 512 Pharmacy Practice and Professionalism 2 Units: 3
- PHRD 514 Calculations and Compounding Units: 2
- PHRD 516 Non-Prescription Therapies Units: 3
- PHRD 520 Pharmacists’ Patient Care Process Units: 1
- PHRD 552 Pharmaceutics III Units: 3

Year II (P2) Curriculum
- PHRD 508 Pharmacy Literature Analysis and Drug
  Information Units: 3
  Fall
- PHRD 559 Therapeutics: Pharmacokinetics Units: 3
- PHRD 563 Case Conference 1 Units: 2
- PHRD 567 Pharmacy Law Units: 2
- PHRD 572 Therapeutics: General Medicine and Inflammatory
  Disorders Units: 5
  Spring
- PHRD 564 Case Conference 2 Units: 2
- PHRD 570 Therapeutics: Central Nervous System Units: 5
- PHRD 603 Therapeutics: Endocrine System Units: 5
- PHRD 634 Scholarly Project 1 Units: 1
- Pharmacy Practice Experiences Must complete all three
courses between P2 and P3 year
- PHRD 624 Community Pharmacy Practice Units: 4
- PHRD 625 Hospital Pharmacy Practice Units: 3
- PHRD 627 Elective Pharmacy Practice Experience Units: 2

Year III (P3) Curriculum
- PHRD 611 Therapeutics: Infectious Diseases Units: 5
  Fall
- PHRD 619 Therapeutics: Cardiovascular System Units: 5
- PHRD 622 Case Conference 3 Units: 2
- PHRD 635 Scholarly Project 2 Units: 1
- Electives: 0-3 units*
  Spring
- PHRD 608 Therapeutics: Oncology Units: 2
- PHRD 610 Therapeutics: Special Populations Units: 3
- PHRD 623 Case Conference 4 Units: 1
- PHRD 633 Pharmacy Management and Economics Units: 2
- PHRD 636 Scholarly Project 3 Units: 1
- PHRD 650 APPE Gateway Units: 2
- Pharmacy Practice Experiences Must complete all three
courses between P2 and P3 year
- PHRD 624 Community Pharmacy Practice Units: 4
- PHRD 625 Hospital Pharmacy Practice Units: 3
- PHRD 627 Elective Pharmacy Practice Experience Units: 2
- Electives: 0-9 units**

Note:
*Elective courses: Students MUST complete a minimum of 3
units of elective courses for the PharmD degree. Students will be
provided a list of courses approved each year.
**APPE courses are described below. Students may begin their
APPEs in late March or early April of their P3 year and may be
assigned to any of APPEs listed below.

Required APPE Courses
Students must complete all APPE courses below (24 units) and
the Doctor of Pharmacy Capstone courses (0 units).
- PHRD 701 Acute Care Clinical APPE Units: 6
- PHRD 704 Primary Care APPE Units: 6
- PHRD 705 Community Pharmacy APPE Units: 6
- PHRD 718 Hospital Pharmacy Practice APPE Units: 6
- PHRD 796a Doctor of Pharmacy Capstone Units: 0
- PHRD 796b Doctor of Pharmacy Capstone Units: 0, 3
Elective APPE Courses
Students must complete 12 units from the list below.
- PHRD 714 Nuclear Pharmacy APPE Units: 6
- PHRD 725 International Pharmacy Practice Experience Units: 3, 6
- PHRD 731 Advanced Geriatrics APPE Units: 6
- PHRD 738 Pharmaceutical Industry APPE Units: 6
- PHRD 750 Advanced Pharmacy Practice Elective (APPE) Units: 6
- PHRD 751 Non-traditional Advanced Pharmacy Elective (APPE) Units: 6

Plus a minimum of 65 units of JD Course Work

Doctor of Pharmacy/Master of Business Administration (PharmD/MBA)
Responding to the growing demand on pharmacists to be knowledgeable in both science and business administration, the USC School of Pharmacy in 1988 helped pioneer an innovation in pharmaceutical education by offering this unique five-year dual degree program.
The Doctor of Pharmacy/Master of Business Administration (PharmD/MBA) dual degree program is offered cooperatively by the School of Pharmacy and the USC Marshall School of Business. Students must complete concurrently all requirements established by both schools for their respective degrees.
The program involves completion of the first year in the School of Pharmacy, the second in the Marshall School of Business, and then completion of the balance of both degrees during the third through fifth years. A total of 48 units must be completed in the Marshall School of Business.
First Year: Required Pharmacy School courses.
Second Year: Required MBA courses and graduate business electives.
Third to Fifth Years: remaining Pharmacy courses and graduate business electives sufficient to bring the total units completed in the Marshall School of Business to at least 48. Dual degree students may not count courses taken outside the Marshall School of Business toward the 48 units. The PharmD and the MBA are awarded simultaneously upon completion of the School of Pharmacy and the Marshall School of Business requirements.

MBA Admission Requirements
Applicants to this program must have a baccalaureate degree from an accredited college or university and should apply during their first year of pharmacy studies. Only students who have successfully completed one year in the School of Pharmacy will be considered for admission to the Marshall School of Business. See the Marshall School of Business for admission requirements.

Doctor of Pharmacy/Master of Public Health (PharmD/MPH)
The School of Pharmacy and the Master of Public Health program, in recognition of the rapidly changing health care environment, and in response to the growing demand for pharmacists who are knowledgeable in both pharmacy and population-based health care issues, have developed a dual degree program. The joint PharmD/MPH degree will enable graduates to be more responsive to today’s health care needs and will provide training for pharmacists who seek to be agents of change within the profession and to assume leadership roles in the pharmacy field and in public health at the local, state and national levels.
The PharmD and the MPH degrees are awarded simultaneously upon completion of the School of Pharmacy and the Master of Public Health requirements.

Admission Requirements and Procedures
Students applying for the dual degree program must meet the respective admission requirements for each program. This includes having completed a baccalaureate degree from an accredited college or university with a minimum GPA of 3.0 and having acceptable GRE and TOEFL or IELTS scores as applicable. Students will not be given special consideration for admission to either program because they are applying for the dual degree. Students may apply to the dual PharmD/MPH degree program in two ways. First, they may apply at the time they submit their PharmD application by concurrently submitting applications to both programs. Students who elect this approach must identify themselves on both applications as potential dual degree students.
Students who are admitted to both programs will be offered admission to the PharmD and will be offered admission to the dual degree program contingent on passing all courses in their first year of the PharmD with a minimum 3.0 GPA. Students who are accepted by only one program may choose to attend that program, but will not be eligible for the dual degree. Second, students can apply to the dual degree by submitting an application to the MPH program during their first year of enrollment in the PharmD prior to the MPH published application deadline. Students who elect this approach must apply through the School of Pharmacy.

Year I (P1) Curriculum
- PHRD 501 Pharmaceutics I Units: 3

Fall
- PHRD 503 Biological Systems I Units: 4
- PHRD 511 Pharmacy Practice and Professionalism 1 Units: 5
- PHRD 515 Metabolism and Cell Biology Units: 2
- PHRD 517 Pharmacogenetics Units: 2
- PHRD 521 Medicinal Chemistry Units: 2

Spring
- PHRD 502 Pharmaceutics II Units: 2
- PHRD 504 Biological Systems II Units: 4
- PHRD 512 Pharmacy Practice and Professionalism 2 Units: 3
- PHRD 514 Calculations and Compounding Units: 2
- PHRD 516 Non-Prescription Therapies Units: 3
- PHRD 520 Pharmacists' Patient Care Process Units: 1
- PHRD 552 Pharmaceutics III Units: 3

Year II (P2) Curriculum
- PHRD 508 Pharmacy Literature Analysis and Drug Information Units: 3

Fall
- PHRD 559 Therapeutics: Pharmacokinetics Units: 3
- PHRD 563 Case Conference 1 Units: 2
- PHRD 567 Pharmacy Law Units: 2
- PHRD 572 Therapeutics: General Medicine and Inflammatory Disorders Units: 5

Spring
- PHRD 564 Case Conference 2 Units: 2
- PHRD 570 Therapeutics: Central Nervous System Units: 5
- PHRD 603 Therapeutics: Endocrine System Units: 5
- PHRD 634 Scholarly Project 1 Units: 1

Pharmacy Practice Experiences
Must complete all three courses between P2 and P3 year
- PHRD 624 Community Pharmacy Practice Units: 4
- PHRD 625 Hospital Pharmacy Practice Units: 3
- PHRD 627 Elective Pharmacy Practice Experience Units: 2

Year III (P3) Curriculum
- PHRD 611 Therapeutics: Infectious Diseases Units: 5

Fall
- PHRD 619 Therapeutics: Cardiovascular System Units: 5
- PHRD 622 Case Conference 3 Units: 2
- PHRD 635 Scholarly Project 2 Units: 1
- Elective*: 0-3 units

Spring
- PHRD 608 Therapeutics: Oncology Units: 2
- PHRD 610 Therapeutics: Special Populations Units: 3
- PHRD 623 Case Conference 4 Units: 1
• PHRD 633 Pharmacy Management and Economics Units: 2
• PHRD 636 Scholarly Project 3 Units: 1
• PHRD 650 APPE Gateway Units: 2
• Elective* and/or APPE**: 0-9 units

**Pharmacy Practice Experiences**
Must complete all three courses between P2 and P3 year:
• PHRD 624 Community Pharmacy Practice Units: 4
• PHRD 625 Hospital Pharmacy Practice Units: 3
• PHRD 627 Elective Pharmacy Practice Experience Units: 2

Note:
*Elective courses: Students MUST complete a minimum of 3 units of elective courses for the degree. Students will be provided a list of courses approved each year.
**APPE courses are described below. Students may begin their APPEs in late March or early April of their P3 year and may be assigned to any of APPEs listed below.

**Required APPE Courses**
Students must complete all APPE courses below (24 units) and the Doctor of Pharmacy Capstone courses (0 units).
• PHRD 701 Acute Care Clinical APPE Units: 6
• PHRD 704 Primary Care APPE Units: 6
• PHRD 705 Community Pharmacy APPE Units: 6
• PHRD 718 Hospital Pharmacy Practice APPE Units: 6
• PHRD 796a Doctor of Pharmacy Capstone Units: 0
• PHRD 796b Doctor of Pharmacy Capstone Units: 0, 3

Elective APPE Courses
Students must complete 12 units from the list below.
• PHRD 714 Nuclear Pharmacy APPE Units: 6
• PHRD 725 International Pharmacy Practice Experience Units: 3, 6
• PHRD 731 Advanced Geriatrics APPE Units: 6
• PHRD 738 Pharmaceutical Industry APPE Units: 6
• PHRD 750 Advanced Pharmacy Practice Elective (APPE) Units: 6
• PHRD 751 Non-traditional Advanced Pharmacy Elective (APPE) Units: 6

**MPH Curriculum**
Students in the PharmD/MPH dual degree must complete 38 units of MPH specific coursework (18 units of MPH core + 20 units of concentration course work). Relevant courses taken in the School of Pharmacy will be counted toward the MPH concentration elective requirement.

**Doctor of Pharmacy/Master of Science, Gerontology**
The emerging impact of the elderly on the health care system has created a need for health care providers who understand the unique needs of the elderly. As drug therapy remains the primary therapeutic option for chronic disease, the demand for prescription drugs will continue to rise. There is a demand for pharmacists who are equipped to meet the pharmaceutical care needs of this population. Geriatric pharmacy is recognized as a specialty, with board certification through the Commission for Certification in Geriatric Pharmacy. The PharmD/MS, Gerontology program will provide extensive education and training in the unique health care needs of older adults. It will allow student pharmacists with a career interest in geriatrics or gerontology to work with health care planning or delivery organizations to develop and implement progressive pharmaceutical care programs for the elderly.

**Application and Admission Requirements**
Students who intend to pursue the dual PharmD/MSG degree must be accepted by both programs. This includes having completed a baccalaureate degree from an accredited college or university with a minimum GPA of 3.0 and a minimum equivalent GRE score of 1000. Students will not be given special consideration for admission to either program because they are applying for the dual degree. Students may apply to the dual PharmD/MS degree program in two ways. First, they may apply at the time they submit their PharmD application by concurrently submitting applications to both programs. Students who elect this approach must identify themselves on both applications as potential dual degree students. Students who are admitted to both programs will be offered admission to the PharmD and will be offered admission to the dual degree program. Second, students can apply to the dual degree by submitting an application to the MS program during their first year of enrollment in the PharmD prior to the MS published application deadline. Students who elect this approach must apply through the School of Pharmacy. Students admitted to the MS program using this approach will be offered admission to the dual degree contingent on passing all courses in their first year of the PharmD with a minimum 3.0 GPA. Students accepted to the dual degree program must maintain a minimum 3.0 GPA in their Gerontology and PharmD courses.

**Recommended Program**
First year: Required Year I PharmD course work
Second year: Required Gerontology course work
Third year: Required Year II PharmD course work
Fourth year: Required Year III PharmD course work
Fifth year: Required Year IV PharmD course work

**Graduation Requirements**
Students must complete all requirements for the PharmD (see the Professional Degrees page) and MS, Gerontology degrees as listed in the current catalogue with a minimum cumulative 3.0 GPA. The specific MS course requirements for the dual PharmD/ MS degree are listed on the School of Gerontology Dual Degree Programs page.

**Doctor of Pharmacy/Master of Science, Global Medicine**
The dual degree in Pharmacy and Global Medicine is designed for students who are interested in providing pharmaceutical care to underserved populations around the world. Students enrolled in this dual degree program will benefit from an advanced understanding of the role of, and issues surrounding, modern medicine in developing countries.

**Requirements**
Students must gain admission to and fulfill the degree requirements for both programs, which include 136 units for the Doctor of Pharmacy and 32 units for the MS in Global Medicine.

**Program Adaptation**
Because MEDS 503 and MEDS 504, core requirements for the MS in Global Medicine program, cover the same material as PHRD 503 and PHRD 504, the PharmD/MS, Global Medicine dual degree program substitutes PHRD 503 and PHRD 504 for MEDS 503 and MEDS 504 as core requirements for the dual degree.

**Year I (P1) Curriculum**
• PHRD 501 Pharmaceutics I Units: 3
  Fall
• PHRD 503 Biological Systems I Units: 4
• PHRD 511 Pharmacy Practice and Professionalism 1 Units: 5
• PHRD 515 Metabolism and Cell Biology Units: 2
• PHRD 517 Pharmacogenetics Units: 2
• PHRD 521 Medicinal Chemistry Units: 2
  Spring
• PHRD 502 Pharmaceutics II Units: 2
• PHRD 504 Biological Systems II Units: 4
• PHRD 512 Pharmacy Practice and Professionalism 2 Units: 3
• PHRD 514 Calculations and Compounding Units: 2
• PHRD 516 Non-Prescription Therapies Units: 3
• PHRD 520 Pharmacists’ Patient Care Process Units: 1
• PHRD 552 Pharmaceutics III Units: 3
Year II (P2) Curriculum

- PHRD 508 Pharmacy Literature Analysis and Drug Information Units: 3
- PHRD 559 Therapeutics: Pharmacokinetics Units: 3
- PHRD 563 Case Conference 1 Units: 2
- PHRD 567 Pharmacy Law Units: 2
- PHRD 572 Therapeutics: General Medicine and Inflammatory Disorders Units: 5

Spring
- PHRD 564 Case Conference 2 Units: 2
- PHRD 570 Therapeutics: Central Nervous System Units: 5
- PHRD 603 Therapeutics: Endocrine System Units: 5
- PHRD 634 Scholarly Project 1 Units: 1

Pharmacy Practice Experiences Must complete all three courses between P2 and P3 year
- PHRD 624 Community Pharmacy Practice Units: 4
- PHRD 625 Hospital Pharmacy Practice Units: 3
- PHRD 627 Elective Pharmacy Practice Experience Units: 2

Year III (P3) Curriculum

- PHRD 611 Therapeutics: Infectious Diseases Units: 5
- PHRD 619 Therapeutics: Cardiovascular System Units: 5
- PHRD 622 Case Conference 3 Units: 2
- PHRD 635 Scholarly Project 2 Units: 1
- Electives: 0-3 units*

Spring
- PHRD 608 Therapeutics: Oncology Units: 2
- PHRD 610 Therapeutics: Special Populations Units: 3
- PHRD 623 Case Conference 4 Units: 1

- PHRD 636 Scholarly Project 3 Units: 1
- PHRD 650 APPE Gateway Units: 2

Pharmacy Practice Experiences Must complete all three courses between P2 and P3 year
- PHRD 624 Community Pharmacy Practice Units: 4
- PHRD 625 Hospital Pharmacy Practice Units: 3
- PHRD 627 Elective Pharmacy Practice Experience Units: 2
- Electives: 0-9 units**

Note:
*Elective courses: Students MUST complete a minimum of 3 units of elective courses for the PharmD degree. Students will be provided a list of courses approved each year.
**APPE courses are described below. Students may begin their APPEs in late March or early April of their P3 year and may be assigned to any of APPEs listed below.

Required APPE Courses

Students must complete all APPE courses below (24 units) and the Doctor of Pharmacy Capstone courses (0 units).
- PHRD 701 Acute Care Clinical APPE Units: 6
- PHRD 704 Primary Care APPE Units: 6
- PHRD 705 Community Pharmacy APPE Units: 6
- PHRD 718 Hospital Pharmacy Practice APPE Units: 6
- PHRD 796a Doctor of Pharmacy Capstone Units: 0
- PHRD 796b Doctor of Pharmacy Capstone Units: 0, 3

Elective APPE Courses

Students must complete 12 units from the list below.
- PHRD 714 Nuclear Pharmacy APPE Units: 6
- PHRD 725 International Pharmacy Practice Experience Units: 3, 6
- PHRD 731 Advanced Geriatrics APPE Units: 6
- PHRD 738 Pharmaceutical Industry APPE Units: 6
- PHRD 750 Advanced Pharmacy Practice Elective (APPE) Units: 6
- PHRD 751 Non-traditional Advanced Pharmacy Elective (APPE) Units: 6

Doctor of Pharmacy/Master of Science, Regulatory Science

Regulatory science is the branch of knowledge that relates the regulatory and legal requirements of biomedical product development to the scientific testing and oversight needed to ensure product safety and efficacy. The program provides an opportunity for advanced preparation in the fields of regulatory affairs, quality assurance and clinical research. Students must complete concurrently all of the requirements established for the respective degrees. The program alternates the courses required for the PharmD program during the fall and spring terms with courses required in summer terms for the MS program. Students will typically take courses in the summers of years two to four. Up to 12 appropriate units of course work from the PharmD program can be applied toward the MS degree. The PharmD and the MS, Regulatory Science degrees will be awarded simultaneously upon completion of requirements for the two programs.

Admission Requirements and Procedures

Students applying for the dual degree program must meet the respective admission requirements for each program and must have a baccalaureate degree. Students will not be given special consideration for admission to either program because they are applying for the dual degree. Students may apply to the dual PharmD/MS, Regulatory Science degree program in two ways. First, they may apply at the time they submit their PharmD application by concurrently submitting applications to both programs. Students who elect this approach must identify themselves on both applications as potential dual degree students. Students who are admitted to both programs will be offered admission to the PharmD and will be offered admission to the dual degree program contingent on passing all courses in their first year of the PharmD with a minimum 3.0 GPA. Students who are accepted by only one program may choose to attend that program but will not be eligible for the dual degree. Second, students can apply to the dual degree by submitting an application to the MS in Regulatory Science program during their first or second year of enrollment in the PharmD prior to the MS in Regulatory Science published application deadline. Students who elect this approach must apply through the School of Pharmacy. Students admitted to the MS in Regulatory Science using this approach will be offered admission to the dual degree contingent on passing all courses in their PharmD studies with a minimum 3.0 GPA.

Healthcare Decision Analysis (PharmD/MS)

The Healthcare Decision Analysis (HCDA) program gives students the tools and knowledge to succeed in the complex world of healthcare data analytics, international access and reimbursement, product pricing and value assessment, insurance operations and design, along with competitive business intelligence. A dual degree of Doctor of Pharmacy and Master of Science in Healthcare Decision Analysis will be granted upon the completion of the course work required for the PharmD degree, and the HCDA core and elective units. Dual degree students will be credited up to 9 units of appropriate PharmD course work toward the MS. HCDA. Dual degree students will select from a series of HCDA core courses and required electives to meet the MS, HCDA degree requirements. Electives will be considered from the disciplines: applied healthcare policy, business intelligence, regulatory science, and healthcare economics, along with all required clerkships and rotations offered through the USC School of Pharmacy. Students should develop a specific plan of study in consultation with program administrators before beginning the program.

Doctoral Degree

Clinical and Experimental Therapeutics (PhD)

The goal of the PhD program in Clinical and Experimental Therapeutics is to develop a scientist who is engaged in team science through interdisciplinary education; competent in
conducting research across clinical and basic science disciplines; and integrates basic investigations and clinical observations in applied research to better understand disease process, advance drug development and evaluate efficacy and toxicity of therapeutic regimens with the goal of improving the safe, effective and economical use of therapeutic modalities by patients.

The program applies an interdisciplinary approach that focuses the graduate studies directly toward translational, rather than basic science, aiming to educate students with the perspective and skill set to identify important connections between fundamental biomedical research and human disease. This program emphasizes cross-training between clinical and basic sciences focusing on the investigation of disease processes, drug development and the efficacy and toxicity of therapeutic regimens. Course requirements and research opportunities for graduate students enrolled in the program provide both experimental (basic) and disease-focused experiences that complement the graduate's research focus.

Course Requirements
A minimum of 60 units is required. At least 26 of the 60 units are to be formal graduate course work at the 500- level or above, exclusive of seminars and directed research. Students must complete 14 units of course work before they are eligible for the screening procedure. Additional course work relevant to the research interests of the student may be required by the student's advisers or the student's qualifying exam committee, with an emphasis on cross-training and taking into account the amount and level of previous scientific preparation and the nature of the research dissertation that will be the major endpoint of the program. Specifically, recommended course work differs between students who have an advanced professional degree (Track I) and those who do not (Track II). A maximum of 12 units may be transferred from graduate studies elsewhere.

In the first year, all students (Tracks I and II) are recommended to take 14 units of course work in translational medicine (RSCI 530, 2 units), research design (CXP 509, 4 units), biostatistics (PM 510, 4 units), and clinical trial design (MPTX 517, 4 units). In the second year, Track I students will take the remaining 12 units of course work as electives based on the background of the student and the proposed research focus of the student. Track II students who do not have an advanced professional degree are recommended to select from the following courses as part of their electives: systems physiology and disease (INTD 572 and INTD 573, 4 units each) or pathology (INTD 550, INTD 551, 4 units each). Other electives that can be chosen are INTD 531, INTD 561, PM 533, PM 538, PM 570 and PSCI 665.

The remaining 34 of the 60 units required for the PhD degree may be fulfilled with other courses including ethics, interdisciplinary seminar, directed research and dissertation. Note that to become eligible to take the qualifying exam, Track II students must fulfill the prescribed clinical experiences that match the disease-related topic of the student's thesis work as approved by the student's advisers and advisory committee. Students with a bachelor's degree in a health care subject area (e.g., nursing, pharmacy, medicine) will be evaluated on a case basis and may be required to meet the therapeutic course work or clinical experience component described above, as determined by their background and previous experiences.

Foreign Language Requirement
There is no formal language requirement. However, an individual qualifying exam committee can require competency in a foreign language or a computer language if it is relevant for the student's area of research.

Qualifying Exam Committee
Upon admission, the student will be assigned to a member of the graduate faculty who will serve as his or her temporary adviser until a permanent adviser has been identified. The student's program of study will be under the direction of the qualifying exam committee composed of at least five members, one of whom must be from outside the department. Because of the centrality of research in the PhD program, the student is encouraged to get acquainted with the participating faculty mentors from the day they enter the program, and have selected a research direction, paired graduate advisers (clinical and basic scientists), and qualifying exam committee no later than the third semester of study. The graduate affairs committee will serve as the qualifying exam committee until one is selected.

Screening Procedure
The performance of each student will be evaluated no later than the end of the second semester of enrollment in the graduate program. This screening procedure is conducted by the student's qualifying exam committee or, if a student has not yet selected a qualifying exam committee, by the graduate affairs committee. The committee reviews the student's progress to date in various areas including course work, research interests, and laboratory performance on his or her research project or laboratory rotations. If a performance deficiency is determined, specific goals will be established that the student must fulfill to continue in the program. Passing this screening procedure is prerequisite to continuation in the PhD program.

Qualifying Examination
Students will be required to pass a comprehensive written and oral examination on the chosen disease-focused area of research emphasis. The examination will encompass basic scientific concepts relevant to the disease under study and the laboratory techniques in that discipline, fundamental principles of clinical research and design, biostatistics, and therapeutics in the chosen disease-focused area of research. The examination is administered by the qualifying exam committee and consists of two parts: a written examination administered to all students at the end of their second year of study and a detailed written proposal and its oral presentation and defense by the student to the qualifying exam committee. The examination process is conducted by the student's advisory committee with oversight by the graduate affairs committee. All course and qualifying examination requirements for the Doctor of Philosophy must be completed within two-and-a-half years after admission. After passing these examinations, the student is admitted to candidacy for the PhD degree.

Dissertation
A dissertation based on original investigation in a relevant scientific area is required for the PhD. The dissertation research must represent a significant contribution to science and should demonstrate the candidate’s scholarly advancement and competence to undertake independent research. An oral defense of the dissertation will be held after the candidate submits the final draft of the dissertation to the dissertation committee. (See Theses and Dissertations in the Graduate School section.)

Student Teaching
Teaching experience is considered an integral part of the training of graduate students. As part of the general requirements for the PhD degree, each student is required to participate in the teaching program of the School of Pharmacy.

Health Economics (PhD)
The Department of Pharmaceutical and Health Economics (in the School of Pharmacy) offers a program of study leading to the PhD degree in Health Economics. The program focuses on microeconomics; econometrics; health economics and policy; public finance; pharmaceutical economics and policy. The program offers one track in microeconomics and a second track in pharmaceutical economics and policy.

Microeconomics Track
Students in the microeconomics track will complete the microeconomic theory and econometric sequence and course work in health economics. They will receive focused training and mentoring in health economics through collaboration on research projects.
Satisfactory completion of the economic theory sequence with a grade point average of B or higher. At least one of the econometrics courses must be completed with a grade of B or higher. The courses recommended for fulfilling the requirements for the Microeconomics Track are:

- GSBA 602 Selected Issues in Economic Theory I Units: 3
- PMEP 509 Research Design Units: 4
- ECON 636 Health Economics I Units: 4
- ECON 693 Seminar in Applied Economics and Public Policy Units: 2
- GSBA 612 Selected Issues in Economic Theory II Units: 3 or
- PMEP 525 Pharmacoeconomics I Units: 4 and
- PMEP 526 Pharmacoeconomics II Units: 2
- PMEP 535 Behavioral Science and Policy in Healthcare Units: 4
- PMEP 544 Health Economics II Units: 4
- PMEP 547 Programming Methods for Empirical Analysis of Health Data Units: 4
- PMEP 551 Introduction to Health Econometrics Units: 4
- PMEP 552 Advanced Health Econometrics I Units: 4
- PMEP 553 Advanced Health Econometrics II Units: 4
- PMEP 698 Seminar in Pharmaceutical Economics and Policy Units: 1

Additional Requirements

Students in the microeconomics track will complete the microeconomic theory and econometric sequence and course work in health economics. They will receive focused training and mentoring in health economics through collaboration on research projects.

Foreign Language Requirement

There is no formal foreign language requirement. However, competence in the use of one computer programming language is required for the graduate degree. Such competence can be demonstrated either by course work or examination.

Grade Point Average

A grade point average (GPA) of at least 3.0 and typically considerably higher (on a scale of 4.0) must have been achieved on all graduate work at USC for the passing of the screening procedure. The Graduate School requires a minimum GPA of 3.0 on all course work taken as a graduate student at USC.

Unit Requirements

The PhD in Health Economics requires a minimum of 64 units of graduate-level courses numbered 500 or higher (excluding 794) and a minimum of 4 units of 794. A maximum of two full courses (eight units) or their equivalent may be PMEP 790 (research) since directed research will generally be incorporated into most 500- and 600-level courses. Exceptions will be considered on an individual basis. Normally, a full-time graduate student course load is three full courses or their equivalent per semester, with a four-course maximum. Students may transfer and substitute up to 24 units of graduate course work from other universities to fulfill the required 64 units of graduate credit subject to the approval of the department.

Screening Procedure

The student's progress will be reviewed after each semester and before registration for any additional course work to determine if progress has been satisfactory. The screening procedure will include satisfactory performance on written screening exams covering the major topics covered in the recommended coursework for each track.

Qualifying Exam

Upon successful completion of the first two years of course and grade requirements, and following passing of required screening procedures, the student takes a general written and oral examination on the chosen area of research emphasis after presenting a detailed written dissertation proposal. After passing these examinations, the student is admitted to candidacy for the PhD degree.

The student will select a member of the graduate faculty who will serve as his or her adviser and chair of the student's qualifying exam committee. The student should consult the director of Graduate Studies for the Health Economics program on the selection of his or her adviser and chair of the PhD qualifying exam committee after taking the written screening examinations. The chairman of the student's PhD qualifying exam committee advises the student on matters of curriculum and graduate opportunities. The qualifying exam committee is composed of five members. The committee chair and at least two additional members must have appointments in the student's program. Faculty eligible to serve as committee chairs and members include tenured, tenure-track, and research faculty, teaching faculty, practitioner faculty or clinical faculty (RTPC) faculty. The committee chair and at least three members must be research active in a field relevant to the research thesis and one member of the committee must be tenured or tenure-track; and the committee membership requires approval by the dean of the school. Visiting faculty may not serve on qualifying exam committees. The vice provost for graduate programs is an ex officio member of all qualifying exam committees.

The composition of all PhD qualifying exam committees must be approved by the chair of Graduate Studies for the Health Economics program. The student must form his or her qualifying exam committee soon after passing the departmental screening procedure.

Dissertation Proposal Preparation

The student is required to register for two units of PMEP 790 and write a research paper on a topic suitable for a dissertation. Typically, the chair of the student's guidance committee directs this work. The resulting essay becomes part of the student's written dissertation proposal which constitutes the written portion of the qualifying exam. This proposal is presented and critiqued during the oral portion of the qualifying examination.

Dissertation

After admission to candidacy, the student forms a dissertation committee comprising three faculty members, one of whom can be from an outside department. The chair of this committee is the dissertation supervisor. The student must register for PMEP 794a, PMEP 794b, PMEP 794c, PMEP 794d, or PMEP 794x each semester, excluding summer sessions, until the dissertation and all other degree requirements are completed.

The student is expected to complete a dissertation based on an original investigation. The dissertation must represent a significant contribution to knowledge and must be defended in an oral examination administered by the dissertation committee (see the section on Theses and Dissertations).

Student Teaching

Teaching experience is considered an integral part of the training of graduate students. As part of the general requirements for the PhD, all students are required to undergo training as an educator. This will include participating in seminars on educational techniques and hands-on teaching experiences through participation in didactic and small group teaching in the School of Pharmacy or the USC Price School of Public Policy.

Seminar Requirements

Every student is recommended to take and satisfactorily complete 4 units of research seminars chosen from ECON 693, PMEP 698 or the equivalent. At least one of these seminars must be related to the student's major field, and the same seminar may be taken more than once. Before completing the dissertation, it is recommended that the student present at least one original research paper in a seminar of his or her choice. This paper should typically consist of original results contained in the student's dissertation.

Three electives at the 500 level or higher from the School of Pharmacy's Health Economics Program and from the departments of economics, mathematical statistics, biometry, epidemiology, public administration, computer science or other relevant fields are required.
Pharmaceutical Economics and Policy Track

Students in the pharmaceutical economics and policy track will specialize in areas such as cost-effectiveness, comparative effectiveness, drug therapy outcomes and organization of pharmaceutical markets. They will receive focused training and mentoring in pharmaceutical economics and policy through collaboration on research projects.

Satisfactory completion of the pharmaceutical economics and policy sequence with an average grade of B or higher

- ECON 636 Health Economics I Units: 4
- GSBA 602 Selected Issues in Economic Theory I Units: 3
- PMEP 500 Research Design Units: 4
- PMEP 525 Pharmacoeconomics I Units: 4
- PMEP 526 Pharmacoeconomics II Units: 2
- PMEP 527 Pharmacoeconomics III Units: 4
- PMEP 535 Behavioral Science and Policy in Healthcare Units: 4
- PMEP 539 Economic Assessment of Medical Care Units: 4
- PMEP 547 Programming Methods for Empirical Analysis of Health Data Units: 4
- PMEP 551 Introduction to Health Econometrics Units: 4
- PMEP 552 Advanced Health Econometrics I Units: 4
- PMEP 553 Advanced Health Econometrics II Units: 4
- PMEP 688 Seminar in Pharmaceutical Economics and Policy Units: 1

Additional Requirements

**Foreign Language Requirement**

There is no formal foreign language requirement. However, competence in the use of one computer programming language is required for the graduate degree. Such competence can be demonstrated either by course work or examination.

**Grade Point Average**

A grade point average (GPA) of at least 3.0 and typically considerably higher (on a scale of 4.0) must have been achieved on all graduate work at USC for the passing of the screening procedure. The Graduate School requires a minimum GPA of 3.0 on all course work taken as a graduate student at USC.

**Unit Requirements**

The PhD in Health Economics requires a minimum of 64 units of graduate-level courses numbered 500 or higher (excluding 794) and a minimum of 4 units of 794. A maximum of two full courses (eight units) or their equivalent may be PMEP 790 (research) since directed research will generally be incorporated into most 500- and 600-level courses. Exceptions will be considered on an individual basis. Normally, a full-time graduate student course load is three full courses or their equivalent per semester, with a four-course maximum. Students may transfer and substitute up to 24 units of graduate course work from other universities to fulfill the required 64 units of graduate credit subject to the approval of the department.

**Screening Procedure**

The student's progress will be reviewed after each semester and before registration for any additional course work to determine if progress has been satisfactory. The screening procedure will include satisfactory performance on written screening exams covering the major topics covered in the recommended coursework for each track.

**Qualifying Exam**

Upon successful completion of the first two years of course and grade requirements, and following passing of required screening procedures, the student takes a general written and oral examination on the chosen area of research emphasis after presenting a detailed written dissertation proposal. After passing these examinations, the student is admitted to candidacy for the PhD degree.

The student will select a member of the graduate faculty who will serve as his or her adviser and chair of the student's qualifying exam committee. The student should consult the director of Graduate Studies for the Health Economics program on the selection of his or her adviser and chair of the PhD qualifying exam committee after taking the written screening examinations. The chairman of the student’s PhD qualifying exam committee advises the student on matters of curriculum and graduate opportunities. The qualifying exam committee is composed of five members. The committee chair and at least two additional members must have appointments in the student's program. Faculty eligible to serve as committee chairs and members include tenured, tenure-track, and research faculty, teaching faculty, practitioner faculty or clinical faculty (RTPC) faculty. The committee chair and at least three members must be research active in a field relevant to the research thesis and one member of the committee must be tenured or tenure track; and the committee membership requires approval by the dean of the school. Visiting faculty may not serve on qualifying exam committees. The vice provost for graduate programs is an ex officio member of all qualifying exam committees.

The composition of all PhD qualifying exam committees must be approved by the director of Graduate Studies for the Health Economics program. The student must form his or her qualifying exam committee soon after passing the departmental screening procedure.

**Dissertation Proposal Preparation**

The student is required to register for 2 units of PMEP 790 and write a research paper on a topic suitable for a dissertation. Typically, the chair of the student's guidance committee directs this work. The resulting essay becomes part of the student's written dissertation proposal, which constitutes the written portion of the qualifying exam. This proposal is presented and critiqued during the oral portion of the qualifying examination.

**Dissertation**

After admission to candidacy, the student forms a dissertation committee comprising three faculty members, one of whom can be from an outside department. The chair of this committee is the dissertation supervisor. The student must register for PMEP 794a, PMEP 794b, PMEP 794c, PMEP 794d, or PMEP 794e each semester, excluding summer sessions, until the dissertation and all other degree requirements are completed.

The student is expected to complete a dissertation based on an original investigation. The dissertation must represent a significant contribution to knowledge and must be defended in an oral examination administered by the dissertation committee (see the section on Theses and Dissertations).

**Student Teaching**

Teaching experience is considered an integral part of the training of graduate students. As part of the general requirements for the PhD, all students are required to undergo training as an educator. This will include participating in seminars on educational techniques and hands-on teaching experiences through participation in didactic and small group teaching in the School of Pharmacy or the USC Price School of Public Policy.

**Seminar Requirements**

Every student is recommended to take and satisfactorily complete 4 units of research seminars chosen from PMEP 698 or the equivalent. At least one of these seminars must be related to the student's major field and the same seminar may be taken more than once. Before completing the dissertation, it is recommended that the student present at least one original research paper in a seminar of his or her choice. This paper should typically consist of original results contained in the student's dissertation. A minimum of three electives at the 500 level or higher from the School of Pharmacy's Pharmaceutical Economics and Policy Program and from the departments of economics, mathematical statistics, biometry, epidemiology, public administration, computer science or other relevant fields are required.

**List of Electives**

- ECON 401 Mathematical Methods in Economics Units: 4
- ECON 415 Behavioral Economics Units: 4
- ECON 419 Advanced Econometrics Units: 4
- ECON 500 Microeconomic Analysis and Policy Units: 4
Molecular Pharmacology and Toxicology (PhD)

This program emphasizes basic as well as applied research in various aspects of drug discovery and molecular and behavioral mechanisms of action. Research opportunities span investigations of fundamental molecular and cellular physiological mechanisms, including receptor activity, intracellular signaling and the regulation of gene expression, to the molecular bases of disease and aging, including avenues of pharmacological intervention.

A minimum of 60 units is required for the Doctor of Philosophy degree. At least 24 units of course work are required at the 500-level or above, exclusive of seminar and directed research. The Doctor of Philosophy candidate must select a minimum of 12 units from courses offered in the Department of Pharmacology and Pharmaceutical Sciences (PPSI), eight of which must be selected from the core 4-unit courses. The remainder of the 24 units may be taken from PPSI courses or from courses offered in other departments that are approved by the PPSI graduate affairs committee. The qualifying exam committee may require more than 24 units of course work. A maximum of 12 units can be transferred from graduate studies elsewhere.

Foreign Language Requirement

There is no formal language requirement. However, an individual qualifying exam committee can require competency in a foreign language or a computer language if it is relevant for the student's area of research.

Qualifying Exam Committee

Upon admission, the student will be assigned to a member of the graduate faculty who will serve as his or her temporary adviser until a permanent adviser has been identified. The student's program of study will be under the direction of a qualifying exam committee composed of at least five members, one of whom must be from outside the department. The student should select a graduate adviser and qualifying exam committee no later than the third semester in residence. The graduate affairs committee will serve as the qualifying exam committee until one is selected.

Screening Procedure

The performance of each student will be evaluated no later than the end of the second semester of enrollment in the graduate program. This screening procedure is conducted by the student's qualifying exam committee or, if a student has not yet selected a qualifying exam committee, by the graduate affairs committee. The committee reviews the student's progress to date in various areas including course work, research interests and laboratory performance on his or her research project or laboratory rotations. If a performance deficiency is determined, specific goals will be established that the student must fulfill to continue in the program. Passing this screening procedure is prerequisite to continuation in the PhD program.

Qualifying Examination

Students will be required to pass a comprehensive qualifying examination in major areas of molecular pharmacology, including fundamental principals of molecular and cellular biology. The examination is administered by the qualifying exam committee and consists of two parts: a written examination administered to all students at the end of their second year of study and a written proposal outlining the dissertation goals, and its oral presentation and defense by the student to the qualifying exam committee. The examination process is conducted by the student's advisory committee with oversight by the graduate affairs committee. The qualifying examination must be completed within three years after admission, unless an extension is obtained from the qualifying exam committee.

Annual Research Appraisal (ARA)

Beginning in the third year, each graduate student will meet with the qualifying exam committee and present a progress report on his or her research. Prior to the meeting the student will present a short written document describing significant experiments during the past year, problems and projected studies. This document is distributed to the committee members and is included in the student's file. The oral ARA meeting is intended to be a working session between the student and the qualifying exam committee. Experimental results and problems are discussed in this context, as well as a research plan for the next year of work. A satisfactory ARA is required for each year in the graduate program.

Dissertation

A dissertation based on original investigation in a relevant scientific area is required for the PhD. The dissertation research should demonstrate the student's ability to undertake independent research through planning, conducting and evaluating experiments. The dissertation research must represent a significant contribution to knowledge. A public oral defense of the dissertation will be held after the candidate submits the final draft of the dissertation to the dissertation committee, and it is approved by the graduate adviser and dissertation committee. For additional details, see Theses and Dissertations.

Student Teaching

Teaching experience is considered an integral part of the training of graduate students. As part of the general requirements for the PhD degree, each student is required to participate in the teaching program of the School of Pharmacy.

Pharmaceutical Sciences (PhD)

This program emphasizes basic as well as applied research in drug delivery and targeting, utilizing medicinal chemistry, computational chemistry, pharmaceutics, pharmacodynamics, molecular pharmacology, immunology and cell biology.

A minimum of 60 units is required for the Doctor of Philosophy degree. At least 24 units of course work are required at the 500-level or above, exclusive of seminar and directed research. The Doctor of Philosophy candidate must select a minimum of 12 units from courses offered in the Department of Pharmacology and Pharmaceutical Sciences (PPSI), eight of which must be selected from the core 4-unit courses. The remainder of the 24 units may be taken from PPSI courses or from courses offered in other departments that are approved by the PPSI graduate affairs committee. The qualifying exam committee may require more than 24 units of course work. A maximum of 12 units can be transferred from graduate studies elsewhere.

Foreign Language Requirement

There is no formal foreign language requirement. However, an individual qualifying exam committee can require competency in a foreign language or some other research tool such as computer language, if this is relevant for the student's area of research.
Both applications have been received by the Office of Admission. Applications will not be reviewed until deadlines are November 1. Applicants are encouraged to apply well before the November 1 deadline to allow time for file review.

The performance of each student will be evaluated no later than the end of the second semester of enrollment in the graduate program. This screening procedure is conducted by the student's qualifying exam committee or, if a student has not selected his or her research adviser at that time, by the Graduate Review Committee of the department. The committee reviews thoroughly the student's progress up to that point in various areas including course work, research interests and laboratory performance on his or her research project or laboratory rotations. If a performance deficiency is detected at that point by the committee, the student will be recommended to either take additional course work or transfer to the Master of Science program. Passing this screening procedure is prerequisite to continuation in the PhD program.

Students will be required to pass a comprehensive qualifying examination in major areas of the pharmaceutical sciences. The examination is administered by the qualifying exam committee and consists of two parts: a written examination and a written proposition outlining a research project, followed by an oral examination based on the proposition and questions dealing with the written examination. All course and qualifying examination requirements for the Doctor of Philosophy must be completed within two and one half years after admission.

A dissertation based on original investigation is required. The research should make a contribution to science and should demonstrate the candidate’s scholarly advancement and competence to undertake independent research. An oral defense of the dissertation will be held after the candidate submits the final draft of the dissertation to the dissertation committee (see Theses and Dissertations).

Teaching experience is considered an integral part of the training of graduate students. Thus, as part of the general requirements for the PhD, each student is required to participate in the teaching program of the School of Pharmacy.

The USC School of Pharmacy offers a full-time, four-year course of study leading to the Doctor of Pharmacy (PharmD). An undergraduate BA or BS degree is required for admission to the program. A description of the curriculum is listed in the following pages. The degree will be conferred only upon successful completion of all Doctor of Pharmacy degree requirements. The USC School of Pharmacy Doctor of Pharmacy program is accredited by the Accreditation Council for Pharmacy Education, which is the sole agency providing accreditation for professional degree programs in pharmacy.

The School of Pharmacy requires applicants to complete both the Pharmacy College Application Service (PharmCAS) and a supplemental application for admission. The supplemental application is available at pharmacyschool.usc.edu.

Both the PharmCAS and the supplemental applications deadlines are November 1. Applicants are encouraged to follow the instructions carefully for both the PharmCAS and supplemental applications. Applications will not be reviewed until both applications have been received by the Office of Admission and Student Affairs. An interview is required for admission. Only applicants with complete application files are evaluated for an interview and only highly qualified applicants will be granted interviews. Not all applicants will be invited for an interview. Applicants are encouraged to apply well before the November 1 deadline to allow time for file review.

Admission to the School of Pharmacy requires completion of a baccalaureate degree; completion of the specified prerequisite college courses, with a grade of C or better; and a minimum 3.0 (A = 4.0) grade point average, both in the prerequisite courses and cumulative grade point average.

Courses for science majors are required to meet the Pre-Pharmacy Requirements

To be eligible for admission to the School of Pharmacy, applicants must take required prerequisite college courses, including general biology (one-year course with laboratory), excluding human anatomy and physiology), general chemistry (one-year course with laboratory, including inorganic and qualitative analysis), organic chemistry (one-year course with laboratory), biochemistry (one course upper division), microbiology (one course), calculus (one semester or two quarters), statistics (one course) and human physiology (one course for science majors). The science requirements should be completed at an accredited four-year university.

Prerequisite courses are subject to change, and applicants are encouraged to check with the school prior to submitting an application.

Baccalaureate Examinations

Upper-division molecular biology, physics (thermodynamics and electromagnetism), microeconomics, statistics (non-business), human behavior in either general psychology, introductory sociology, or cultural anthropology

Grades of pass/no pass or credit/no credit will not be accepted (unless a course is only offered on a pass/no pass basis). Online courses are not accepted for science courses with a laboratory requirement.

Mathematics and Sciences

Courses must include calculus, general biology, microbiology, human physiology, general chemistry, biochemistry, and organic chemistry. Only courses for science majors are acceptable. It is highly recommended that math and science courses be completed during the regular academic year and not during a summer term.

Advanced Placement and International Baccalaureate Examinations

Applicants may use AP and IB courses to meet certain USC School of Pharmacy prerequisites with the following provisos. AP results are acceptable only with scores of 4 or 5. Results for IB courses are acceptable with a score of 5. Credit for AP or IB courses is limited to a maximum of two courses (total). In addition, the AP or IB courses taken may be applied to a maximum of one
semester/one quarter of general chemistry or general biology; they may not be used to satisfy the laboratory requirement. Note: AP/IB courses used to meet prerequisites will be for course credit only (i.e., they will not count toward the GPA). The Admission Committee recommends that applicants enroll in all of the required pre-pharmacy courses. Please contact the School of Pharmacy Office of Admission for specific information.

**Entrance Examination**

An interview is required for admission.

**Special Admission Program for EnteringFreshmen**

The Trojan Admission Prepharmacy (TAP) program provides priority consideration for admission to the USC School of Pharmacy’s four-year Doctor of Pharmacy (PharmD) program for USC undergraduates who are accepted to the program. The TAP program is designed to attract highly qualified, mature high school seniors applying to USC. Students accepted into the TAP program apply to the Doctor of Pharmacy program during their final year of undergraduate education. Students must meet all regular admission criteria to the School of Pharmacy, including a BA/BS degree from USC, specific academic performance standards (GPA) and complete an interview. Students in the TAP program are required to complete all prerequisite courses at USC and meet regularly with a TAP program advisor. A specific listing of USC courses and a recommended program for TAP participants may be obtained from the School of Pharmacy Office of Admission or online at pharmcyschool.usc.edu/programs/pre/tap.

**PharmD Curriculum Requirements**

The completion of the four-year professional curriculum is required for the Doctor of Pharmacy (PharmD) degree. The PharmD curriculum is a “block” program, meaning all students enroll for specified courses each semester and progress as a “class” through the curriculum. Students do not have a choice in the course sequence and must remain full-time students throughout the program. Students have a limited number of elective course choices and a list of electives offered is available to students prior to registration each semester. Student progress is permitted only when the prior semester has been successfully completed. Students should view the curriculum outlined here as advisory only and subject to modification. A minimum of 136 units is required for graduation.

Students enrolled in the Doctor of Pharmacy program are required to hold an Intern Pharmacist license in good standing (clear of restrictions) issued by the California Board of Pharmacy as an intern pharmacist for the entire length of the program. Licensure is required because completion of the pharmacy program requires placement in health care settings for experiential learning during each academic year. The School of Pharmacy has developed technical standards to inform students of the non-academic requirements of the program. Placement in health care settings requires the applicants pass criminal background screening and/or drug screening tests.

The pharmacist of tomorrow will provide preventive and therapeutic pharmaceutical care, provide drugs to patients, communicate in health care matters, meet the ethical and legal requirements of the practice of pharmacy and maintain professional expertise.

The curriculum committee of the School of Pharmacy has developed guidelines and patient care competencies consistent with interpretations of this new role. An appropriate and dynamic educational program is needed to develop these competencies. Therefore curriculum changes may be necessary in order to meet scientific advances, population profile changes, increasing health expectations, technological advances, or changes in health services.

**Core Curriculum**

Foundational courses in biomedical, pharmaceutical, social administrative and clinical sciences comprise the first three years of the program. A Pharm.D. Scholarly Project must also be completed by the end of the third year of the program. Students must complete Introductory Pharmacy Practice Experiences (IPPEs) throughout their first three years in the program. Students may begin Advanced Pharmacy Practice Experiences (APPEs) as early as late March or early April of the third year and throughout the fourth year of the program.

**Year I (P1) Curriculum**

- PHRD 501 Pharmaceutics I Units: 3

**Fall**

- PHRD 503 Biological Systems I Units: 4
- PHRD 511 Pharmacy Practice and Professionalism 1 Units: 5
- PHRD 515 Metabolism and Cell Biology Units: 2
- PHRD 517 Pharmacogenetics Units: 2
- PHRD 521 Medicinal Chemistry Units: 4
- PHRD 524 Community Pharmacy Practice Units: 3
- PHRD 563 Case Conference 1 Units: 3
- PHRD 570 Therapeutics: Central Nervous System Units: 5
- PHRD 572 Therapeutics: Pharmacokinetics Units: 2
- PHRD 611 Therapeutics: Infectious Diseases Units: 3
- PHRD 624 Community Pharmacy Practice Units: 3
- PHRD 625 Hospital Pharmacy Practice Units: 2
- PHRD 634 Scholarly Project 1 Units: 5
- PHRD 650 APPE Gateway Units: 2

**Year II (P2) Curriculum**

- PHRD 508 Pharmacy Literature Analysis and Drug Information Units: 3

**Fall**

- PHRD 559 Therapeutics: Pharmacokinetics Units: 3
- PHRD 563 Case Conference 1 Units: 2
- PHRD 567 Pharmacy Law Units: 2
- PHRD 572 Therapeutics: General Medicine and Inflammatory Disorders Units: 5
- PHRD 590 Therapeutics: Endocrine System Units: 5
- PHRD 634 Scholarly Project 1 Units: 1
- Electives: 0-3 units*

**Pharmacy Practice Experiences**

Must complete all three courses between P2 and P3 year

- PHRD 624 Community Pharmacy Practice Units: 4
- PHRD 625 Hospital Pharmacy Practice Units: 3
- PHRD 627 Elective Pharmacy Practice Experience Units: 2

**Year III (P3) Curriculum**

**Fall**

- PHRD 611 Therapeutics: Infectious Diseases Units: 5
- PHRD 619 Therapeutics: Cardiovascular System Units: 5
- PHRD 622 Case Conference 3 Units: 2
- PHRD 635 Scholarly Project 2 Units: 1
- Electives: 0-3 units*

**Spring**

- PHRD 608 Therapeutics: Oncology Units: 2
- PHRD 610 Therapeutics: Special Populations Units: 3
- PHRD 623 Case Conference 4 Units: 1
- PHRD 633 Pharmacy Management and Economics Units: 2
- PHRD 636 Scholarly Project 3 Units: 1
- PHRD 650 APPE Gateway Units: 2
- Electives: 0-9 units**

**Pharmacy Practice Experiences**

Must complete all three courses between P2 and P3 year

- PHRD 624 Community Pharmacy Practice Units: 4
- PHRD 625 Hospital Pharmacy Practice Units: 3
- PHRD 627 Elective Pharmacy Practice Experience Units: 2

Note:

*Elective courses: Students MUST complete a minimum of 3 units of elective courses for the degree. Students will be provided a list of courses approved each year.
Required APPE Courses
Students must complete all APPE courses below (24 units) and the Doctor of Pharmacy Capstone courses (0 units).

- PHRD 701 Acute Care Clinical APPE Units: 6
- PHRD 704 Primary Care APPE Units: 6
- PHRD 705 Community Pharmacy APPE Units: 6
- PHRD 718 Hospital Pharmacy Practice APPE Units: 6
- PHRD 796a Doctor of Pharmacy Capstone Units: 0
- PHRD 796b Doctor of Pharmacy Capstone Units: 0, 3

Elective APPE Course
Students must complete 12 units from the list below.

- PHRD 725 International Pharmacy Practice Experience Units: 3, 6
- PHRD 731 Advanced Geriatrics APPE Units: 6
- PHRD 738 Pharmaceutical Industry APPE Units: 6
- PHRD 750 Advanced Pharmacy Practice Elective (APPE) Units: 6
- PHRD 751 Non-traditional Advanced Pharmacy Elective (APPE) Units: 6

Degree Requirements
All students in the Doctor of Pharmacy degree program must meet course requirements, grade point average requirements, licensure requirements, competency assessment requirements (PCOA) and program residency requirements.

- All course requirements must be completed with a grade of "C" or better for letter graded courses and a grade of Credit (defined as B quality work or better) in non-letter graded courses.
- Grade point average requirements: Students must have a cumulative grade point average of 2.5 in the Doctor of Pharmacy curriculum to meet graduation requirements.

- Licensure requirements: All students must obtain and maintain a license in good standing (clear of restrictions) as an Intern Pharmacist issued by the California State Board of Pharmacy at all times during the program.

- Competency assessment requirements: Students are required to take and demonstrate satisfactory performance on the national PCOA Exam (Pharmacy Curriculum Outcomes Assessment). The PCOA exam is administered by the NABP (National Association of Boards of Pharmacy) and is required by ACPE (Accreditation Council for Pharmacy Education) for a Doctor of Pharmacy degree.

- Residency requirements: Students must complete all requirements for the degree within 6 years. The degree will not be conferred until the student has successfully completed all Doctor of Pharmacy degree requirements. Students are subject to the degree requirements in the USC Catalogue current for the semester of their admission into the Doctor of Pharmacy program unless progression is delayed.

Registration
Details of the School of Pharmacy registration procedures will be included in the orientation program prior to the first week of classes.

Cancellation of Registration
During the didactic portion of the Doctor of Pharmacy program (P1, P2 and P3 years), a student may only withdraw from the entire block of courses enrolled in a semester and may not selectively withdraw from a single course or group of courses. During the APPE portion of the curriculum, students may not withdraw from an APPE after the completion of the fourth week of a six-week course and must contact the School of Pharmacy Office of Admission and Student Affairs. Procedures for readmission into the program or makeup of incomplete courses are included in the school's academic policies and procedures handbook.

Regulatory Science (DRSc)
The Doctor of Regulatory Science program cultivates research, leadership and inquiry skills for advanced students in the emerging profession of global regulatory science. It is designed to produce graduates with expertise in strategic management, policy development and research assessment who can play leadership roles in the public sector, academia and the medical products industry. Participants in this program will take a set of interdependent courses that extend from a strong core of basic regulatory science course work and additionally focus on three main areas — global product strategy, product lifecycle strategy, and project and personnel management. After students have completed foundational course work, they will participate as a cohort that typically has a two-year cycle of classes and an additional year of dissertation research. The program has been designed to meet the needs of individuals who are already working full-time outside of the university. The doctoral degree will be administered by the School of Pharmacy.

Admission
The program is designed for individuals with strong professional experience and demonstrated intellectual and leadership capabilities. Applicants are expected to have a GPA of 3.0 on university-level course work and five or more years of professional experience. Admission requirements include university transcripts, a resume, at least three letters of reference, and a one-page personal statement that outlines the background and goals of the applicant. Students are encouraged even at this early stage to identify areas in which they are interested in conducting research. Additional requirements for international students are outlined by university regulations under Admission of International Students. Students are not required to provide GRE scores unless indicated by the program director.

Students with an appropriate graduate or professional degree may use some previous graduate courses as transfer units toward the overall credit requirements of the Doctor of Regulatory Science program with the approval of the program director and under the normal rules of the university. Students who have graduated from the MS program in Regulatory Science can apply all of the previously taken course work toward the doctoral degree. Students with graduate degrees from outside of the regulatory science program are required to take a minimum of 32 units of course work and 4 units of dissertation research to complete the requirements for graduation. The course work requirements will be determined on an individual basis in consultation with the program director and participant's advisers.

Curriculum Requirements
The Doctor of Regulatory Science is administered by the School of Pharmacy. It requires participants to complete 64 units that include the following elements:

- Foundation courses 15 Units
- Product lifecycle strategy 8 Units
- Global strategy 8 Units
- Project/personnel management 8 Units
- Research methods 4 Units
- Dissertation 4 Units

Additional Requirements
Additional elective course work will be selected in consultation with the program advisers according to the areas of intended specialization of the participant in order to meet the credit requirements of the program. Typically foundational courses and some electives will be taken in the first two years of the program. Advanced courses in product lifecycle strategy, global strategy and project/personnel management will normally be taken by the doctoral cohort of students during the third and fourth years of the program. Dissertation planning and research will typically commence in the third year of the program, and extend until the successful completion of the dissertation.
Foundation Courses
Fifteen or more units of foundation courses may be taken as part of the master's program in regulatory science, or with prior approval, from another graduate program with similar objectives. Required foundation courses normally include: MPTX 511 Introduction to Medical Product Regulation; two from MPTX 512 Regulation of Pharmaceutical and Biological Products, MPTX 513 Regulation of Medical Devices and Diagnostics, MPTX 514 Regulation of Food and Dietary Supplements; MPTX 515 Quality Systems and Standards, MPTX 516 Medical Products and the Law; MPTX 517 Structure and Management of Clinical Trials. Other courses may be substituted after the participant's background preparation has been considered.

Product Lifecycle Strategy
Eight or more units of course work related to product lifecycle management, from discovery to commercialization, will be drawn from a broad list of courses offered in regulatory science or through the Titus Family Department of Clinical Pharmacy and Pharmaceutical Economics and Policy. Included in this list are: PMEP 538 Pharmaceutical Economics; PMEP 539 Economic Assessment of Medical Care; RSCI 601 Biomedical Commerce. Other courses may also be considered in consultation with the supervisors and program director. Students are also encouraged to take courses outside the School of Pharmacy when more specialized courses fit their professional research or development plans.

Global Regulatory Strategy and Policy
Eight or more units of course work related to global regulatory strategy could include some of the following courses: MPTX 519 Global Regulation of Medical Products; PPD 571 International Public Policy and Management Seminar; RSCI 604 Regulatory Strategy in Asia; RSCI 608 Regulatory Strategy in Europe and the Americas.

Project and Personnel Management
Eight or more units of relevant course work should typically include: MPTX 602 Science, Research and Ethics; RSCI 603 Managing Complex Projects; RSCI 605 Managing Organizations and Human Resources. Graduate courses in other university departments or schools can be substituted with the approval of the program director.

Research Methods
Participants will typically take PMEP 509 Research Design or MPTX 522 Introduction to Clinical Trial Design and Statistics.

Student Progress and Assessments
In the third year, students are expected to identify a pair of advisers including one USC faculty member and one adviser from industry or the private sector. Students are typically placed in study groups of three or four whose dissertation interests are most similar and whose collective supervisors will oversee their academic and research progress. This committee will form the dissertation committee.

At the completion of the foundational course work, students will undergo a competency review that will include considerations of academic progress. Students are expected to maintain a GPA of 3.0 and will be required to pass a written examination designed to assure the professional competence of the student prior to advancing further in the program. Students who do not pass this preliminary review, administered prior to entering the dissertation and advanced course work phase of the program, will be notified of dismissal from the program in writing by the associate dean for graduate studies in the School of Pharmacy.

Doctoral Dissertation
Students must enroll in RSCI 794a, RSCI 794b, RSCI 794c, RSCI 794d, RSCI 794z for at least two terms, during which time they will develop a dissertation proposal and conduct the necessary research and analysis in collaboration with the supervisory team. The dissertation committee will approve the thesis plan and monitor its progress. Each student will be required to produce and defend an independent dissertation as a requirement for graduation. A maximum of 6 dissertation units can be applied to satisfy the degree requirement, but students should register for the dissertation units in each term subsequent to the completion of their course work requirements. Institutional Review Board approval is required for all human studies.

PhD Programs in Pharmaceutical and Translational Sciences (PHTS)

Graduate Affairs Office
Pharmaceutical Sciences Building
1985 Zonal Avenue
Los Angeles, CA 90089-3031
(323) 442-1474
FAX: (323) 442-2258
Email: pharmgrd@usc.edu
Website: pharmgradprograms.usc.edu

Program Director: Annie Wong-Beringer, PharmD

The USC PhD Programs in Pharmaceutical and Translational Sciences (PHTS) prepare students for careers in academia and advanced scientific research in a broad range of settings. The training encompasses a unique scientific framework from drug discovery, delivery and development to application of genetics and genomics to experimental and clinical/translational research. The umbrella structure is intended to bring together students during their first year to attend foundation core courses and seminars. The goal of the shared experiences is to introduce them to a broad range of pharmaceutical sciences research methods and build a solid foundation in scientific writing, biostatistics, literature evaluation and ethical conduct in research. Complementing their foundation course work, the students will choose from laboratories across the three PhD program tracks (MPTX, PSCI, CXPT) to do rotations during their first year. This fosters interdisciplinary cross-training among students, collaborations among faculty, and assists students in finding the ideal laboratory and faculty mentor in line with the specialized track of study they want to pursue.

At the end of the spring semester of the first year, students will select a faculty adviser and a specific PhD program track from among the three participating programs listed below. In subsequent years, students will take classes that will differ depending on the PhD program they join. In addition, each student will complete qualifying examinations for the chosen PhD program and will develop and complete an original research project that will serve as the basis for a doctoral dissertation.

PhD Graduate Programs: Three Tracks
- Molecular Pharmacology and Toxicology (MPTX)
- Pharmaceutical Sciences (PSCI)
- Clinical and Experimental Therapeutics (CXPT)

PHTS Admission Requirements
Application Deadline (priority review): December 1

All prospective students will apply through the single umbrella program Pharmaceutical and Translational Sciences (PHTS). Application materials will be reviewed by a joint admission committee, with equal representation of faculty from each track, evaluating applications on the basis of academic excellence and scientific research commitment. Applicants should have a baccalaureate degree in natural sciences, or sufficient courses in mathematics and the life sciences. This is required to provide a strong background for studies in biomedical and biological research. Appropriate undergraduate degrees include biology, physiology, engineering, chemistry or computer science.
Applicants should have a strong record of academic achievement and satisfactory performance on the general and advanced portions of the GRE. Other requirements for admission include: a detailed statement of purpose as well as three letters of recommendation, one of which should be from a wet laboratory or computational research mentor. Previous research experience is expected. Students are admitted for the academic year in the fall semester. Applicants who are accepted with minor deficiencies are expected to correct these during the first year following enrollment.

Admission Criteria

The Admission Committee will consider applications based on the following factors:

1. Overall Grade Point Average (GPA)
   A minimum GPA of 3.0 is required. Special attention is given to grades achieved in science courses relevant to the program (e.g., chemistry, biology, biochemistry, pharmacology and physiology).

2. Graduate Record Examinations (GRE) Score
   GRE scores of 153 Quantitative and 144 Verbal (new exam) or a combined Verbal and Quantitative GRE score of 1000 (old exam) are required. However, priority for financial support is given to applicants with GRE scores of at least 308 (new exam) or 1200 (old exam).

3. Letters of Recommendation
   Three letters from faculty knowledgeable of the student's ability and capability are required. These letters should provide a thorough assessment of the student's experience in laboratory research, ability to communicate in verbal and written English, motivation, creativity and other qualities in the student's academic performance.

4. TOEFL Scores for International Applicants
   A minimum TOEFL (computer based) score of 100 is required. A score of 100 is highly competitive for admission and financial support. An IELTS score of 7 is competitive; and an iBT minimum score of 100, with at least 20 in each section, is required.

5. Research and Professional Experience
   The student's research and professional experience should be well described within the application. Also, a résumé (if provided), and/or a personal statement summarizing career objectives and research interests, published manuscripts and letters of reference should be included. These documents will help the Admissions Committee in their evaluation of the candidate’s background preparation for success in the PhD program. For those interested in pursuing PhD training in the Clinical and Experimental Therapeutics (CXPT) track, special emphasis will be given to applicants with an advanced professional degree (e.g. PharmD, MD, DDS).

Application Deadline

Applications may be submitted anytime between September 1 and January 15 — the deadline for consideration for admission for the following fall semester. Applications will be reviewed as they are received, beginning in the Fall. Early acceptance will be offered to outstanding applicants.

Consideration for certain USC Scholarships and Fellowships begins in December. Applications must be received by December 1 to receive full consideration for these opportunities.

Admission decisions will continue to be made until the class is filled, usually by mid to late spring. Applications are only considered for admission beginning in the fall term, except under exceptional circumstances.

Financial Support

Admitted students are supported by research and teaching assistantships or fellowships during their graduate training. Tuition, health insurance, dental insurance and health center fees are also covered.

Lab Rotations

During the first year, students rotate through the labs of at least two faculty members of the program (potential research advisers). By the first summer of graduate study; but no later than after 12 months in the program, each student is expected to have selected a faculty mentor/research adviser.

Admission Requirements for PhD Programs in PHTS

All prospective students will apply through the single umbrella program Pharmaceutical and Translational Sciences (PHTS) and become enrolled in the MPTX, PSCI or CXPT PhD programs after having successfully completed the first year's course work and rotations. During the PHTS year, students must complete the foundation core curriculum of 24 units, maintain a 3.0 grade point average with no grade lower than a C on all courses and must complete at least two laboratory rotations in order to continue on to one of the three PhD program tracks below.

Doctor of Philosophy in Molecular Pharmacology and Toxicology (MPTX)

Program Director: Roger Duncan, PhD
This track provides training in molecular mechanisms of disease as well as disease and drug interaction. Course work emphasizes cell biology and molecular pharmacology. Research areas are laboratory based and include molecular and neuro-pharmacology, receptor pharmacology, cancer biology and pharmacology, metabolism and biochemistry, and oxidant toxicology.

MPTX students are recommended to take PSCI 664 (4, Fa) Drug Design and Discovery; MPTX 500 (4, Sp) Cell Signaling; and PSCI 665 (4, Sp) Drug Transport and Delivery.

PhD students must supplement course work by registering for 790 Research /794 Doctoral Dissertation (a-d & z) during the fall, spring and summer semesters as needed to complete the minimum 60 units required for the PhD program.

As part of the requirements for the PhD degree in Molecular Pharmacology and Toxicology, students must adhere to the unit/course requirements, guidance committee and dissertation committee guidelines and must complete the qualifying examination, annual research appraisal, and dissertation and oral defense as outlined in the sections following the descriptions of the PhD programs.

Doctor of Philosophy in Pharmaceutical Sciences (PSCI)

Program Director: Roger Duncan, PhD
This track provides training that emphasizes basic as well as applied research through advanced course work in contemporary pharmaceutical sciences. Independent laboratory research areas include drug design, development, targeting, and delivery, medicinal chemistry, computational chemistry, pharmaceutics, pharmacokinetics, pharmacodynamics, immunology, and molecular and cell biology.

PSCI students are recommended to take MPTX 500 (4, Sp) Cell Signaling and PSCI 665 (4, Sp) Drug Transport and Delivery.

PhD students must supplement course work by registering for 790 Research /794 Doctoral Dissertation (a-d & z) during the fall, spring and summer semesters as needed to complete the minimum 60 units required for the PhD program.

As part of the requirements for the PhD degree in Pharmaceutical Sciences students must adhere to the unit/course requirements, guidance committee and dissertation committee guidelines and must complete the qualifying examination, annual research appraisal, and dissertation and oral defense as outlined in the sections following the descriptions of the PhD programs.

Doctor of Philosophy in Clinical and Experimental Therapeutics (CXPT)

Program Director: Stan Louie, PharmD
This track provides cross-training between clinical and basic sciences — focusing on the investigation of disease processes, drug development and the efficacy and toxicity of therapeutic regimens. Course requirements and research opportunities for graduate students enrolled in the track provide both experimental (basic) and disease-focused experiences that complement the
graduate’s respective research focus. The emphasis in this track is clinical translational, rather than basic science research. CXPT students are recommended to take CXPT 609 (4, Sp) Preclinical Experimental Therapeutic Drug Development; MPTX 517 (4, FaSpSm) Clinical Trial Design; PHRD 664 (3, Sp) Clinical Problem Solving (for students without an advanced professional degree).

PhD students must supplement course work by registering for 790 Research /794 Doctoral Dissertation (a-d and z) during the fall, spring and summer semesters as needed to complete the minimum 60 units required for the PhD program.

As part of the requirements for the PhD degree in Clinical and Experimental Therapeutics, students must adhere to the unit/course requirements, guidance committee and dissertation committee guidelines and must complete the qualifying examination, annual research appraisal, and dissertation and oral defense as outlined in the sections following the descriptions of the PhD programs.

**Unit/Course Requirements**

A minimum of 60 units of graduate course credits is required for the PhD, including course work, and research and dissertation units. At least 24 units of formal course work are required at the 500 level or above (see Course Offerings below), exclusive of directed research. No more than 8 units of 794 Doctoral Dissertation may be applied toward the PhD degree. Students must complete the first year PHTS foundation curriculum as well as course requirements for their specific PhD program track. Additional course work relevant to the research interests of the student may be required by the student's guidance committee or by the student's faculty adviser. A minimum of 12 of the 24 units is to be taken in courses in the student's chosen track. Of the total 60 units, 36 units may be fulfilled with other courses, directed research and dissertation.

**Graduate Seminar**

All first-year PhD candidate students are required to attend departmental and other scheduled school-wide seminars. Students in their second year and above are required to present at least one departmental seminar each year.

**Individual Development Plan (IDP)**

All PhD students regardless of their chosen tracks/PhD programs are required to complete an Individual Development Plan (IDP) annually at the end of each year of matriculation. IDPs are intended to serve as a tool to facilitate communication between trainees and their advisers. The student will meet with his/her adviser and IDP committee to systematically identify training needs and competencies, establish goals and take stock of year-by-year progress during the PhD years; and to plan and prepare for their post-PhD future while they are in graduate school. The IDP committee is composed of the student's primary adviser (or program chair if the student does not yet have an adviser at the end of the first year) along with two other members from the student's qualifying or dissertation committee (see below), with the option of substituting one of the committee members with a professional from the student's career of interest.

**Guidance Committee**

After 24 units of course work, which includes the PHTS core curriculum and course requirements for one of the three PhD program tracks, the student, in consultation with his/her faculty adviser, will nominate five faculty members to serve on the guidance committee for the qualifying examination. A minimum of three of the faculty must be from the student's PhD program track. The chair of the guidance committee must be a member of the student's PhD program track and the faculty adviser is expected to be on the committee as the chair. These nominations are submitted to the Graduate Affairs Office. The appointment form is signed by the committee members, the chair of the program and the dean or dean designate for formal appointment.

**Qualifying Examination**

Students will be required to pass a qualifying exam by the end of the first semester of their third academic year. Before permission is granted to sit for the qualifying examination, all students must complete the 24 required units as stated above, with no grades lower than “C” and with an overall GPA of 3.0 or better. Final evaluation of the examination is determined by a consensus of the guidance committee. If a student fails, it is at the discretion of the committee to allow the student to repeat the examination within 60 days. The program has the option to dismiss the student from the program with or without the option of a terminal master's degree after the first or second failure.

**Dissertation Committee**

After advancement to candidacy, the student must form a dissertation committee, in consultation with his or her faculty adviser. A minimum of three committee members must be selected, one of which is the faculty adviser, and at least one of which must be a tenured or tenure-track faculty member of the student's PhD program track. One committee member may be non-tenure track. The chair of the dissertation committee is usually the faculty adviser. The dissertation committee is responsible for counseling the student during preparation of the dissertation and conducting the final oral examination during the dissertation defense. Students are expected to meet with the dissertation committee once per year to discuss progress. Dissertation committee members are expected to read and comment on a dissertation within two weeks from its submission. The student and faculty will coordinate a timeline for the student to present the thesis to the dissertation committee. This timeline must allow all dissertation committee members enough time to fulfill their responsibilities within the four-week deadline.

**Dissertation and Oral Defense**

A dissertation based on original investigation in a relevant scientific area is required for the PhD. The dissertation research must represent a significant contribution to science and should demonstrate the candidate’s scholarly advancement and competence to undertake independent research through planning, conducting and evaluating experiments. Students should have at least one first author publication accepted in a peer-reviewed journal before the defense. A public oral defense of the dissertation will be held after the candidate submits the final draft of the dissertation to the dissertation committee, and it is approved by the graduate adviser and dissertation committee.

All doctoral candidates must be registered in 794 Doctoral Dissertation each semester (excluding summer sessions) from the time of their advancement to candidacy until their dissertation is approved and submitted to the Graduate School.

**Student Teaching**

Teaching experience is considered an integral part of the training of graduate students. Thus, each PhD student is given the opportunity to participate in the teaching program of the School of Pharmacy.

**PHTS Foundation Core Curriculum**

- MPTX 502 Pharmacology Units: 4
- MPTX 602 Science, Research and Ethics Units: 2
- PM 510 Principles of Biostatistics Principles of Biostatistics Units: 4
- PSCI 556 Principal Research Approaches and Scientific Writing Units: 4

**Additional Core Curriculum for MPTX, PSCI and CXPT Tracks**

At least one of the following three courses, from the MPTX, PSCI and CXPT tracks should be selected:

- CXPT 609 Preclinical Experimental Drug Therapeutic Development Units: 4
- MPTX 500 Molecular Pharmacology and Toxicology I Units: 4
- PSCI 665 Drug Transport and Delivery Units: 4
Additional graduate courses offered in the School of Pharmacy
To reach the required 24 units of course work, the student can take more than one of the track courses, and any of the approved courses listed below, as well as other individualized program selected offerings approved by PHTS and the student's adviser.

- CXPT 664 Clinical Problem Solving Units: 3
- MPTX 517 Structure and Management of Clinical Trials Units: 4
- PHTS 654 Computation in Drug Discovery and Development Units: 2
- PSCI 557 Introduction to Tools and Techniques for Chemical Biology Units: 2
- PSCI 599 Special Topics Units: 2, 3, 4
- PSCI 655 Immunopharmaceutics Units: 2, 2 years
- PSCI 667 Intracellular Drug Delivery and Targeting Units: 2, 2 years

Additional campus-wide general courses
To reach the required 24 units of course work, the student can take more than one of the track courses, and any of the approved courses listed below, as well as other individualized program selected offerings approved by PHTS and the student's adviser.

- INTD 531 Cell Biology Units: 4
- INTD 549 Protein Chemistry — Structure and Function Units: 4
- INTD 561 Molecular Biology Units: 4
- INTD 572 Medical Physiology I Units: 4

PhD Programs in Pharmaceutical and Translational Sciences (PHTS)
- Clinical and Experimental Therapeutics (PhD)
- Molecular Pharmacology and Toxicology (PhD)
- Pharmaceutical Sciences (PhD)
USC Price School of Public Policy

The USC Price School of Public Policy provides a dynamic learning environment where interdisciplinary education abounds. At USC Price, students choose a program of study from the independent yet related fields of public administration and leadership, public policy, nonprofits and philanthropy, health management and policy, urban planning, real estate development and executive leadership. Students are supported by a committed faculty who contribute to the strong sense of community present in the school.

The school’s mission is to improve the quality of life for people and their communities. Faculty engage in solving some of society’s most pressing issues — and challenge students to do the same. USC Price is renowned for its expertise in areas such as: sustainability and the environment, health care policy, nonprofit management, housing and real estate, transportation, infrastructure, urban development and land use, social policy, governance, civic engagement, community development, immigration and risk analysis, among others.

Defining characteristics of USC Price are the depth of its academic classroom experience and connecting classroom theory to professional practice through practicums, internships and laboratory work locally, nationally and around the globe. Students can also participate in international exchange programs and acquire knowledge and skills necessary to become successful leaders in a global market. Students graduate with the knowledge, skills and experiences to lead in their chosen field of practice.

Today’s complex challenges call for leaders who are able to work across disciplines and across the public, private and nonprofit sectors to find solutions. It is for this multidisciplinary reality that USC Price prepares its students.

USC Price students go on to hold high-ranking appointments in our nation’s capital, analyze and determine public policy, design new transportation systems, and redesign city, county, state and federal governance structures — in the United States and abroad.

Administration
Dana Goldman, PhD, Interim Dean
Neeraj Sood, PhD, Vice Dean for Faculty Affairs and Research
Juliet Musso, PhD, Vice Dean for Academic Affairs
LaVonna Lewis, PhD, Associate Dean of Diversity, Equity and Inclusion
Carol A. Rush, MPA, Associate Dean, Student Affairs and Enrollment Management
John Sonago, MA, Associate Dean for Development and External Relations
Melissa Azarcon, Associate Dean for Finance
Linda Peacore, Associate Dean for Administration
Katie Johnson, Assistant Dean for Faculty and Academic Affairs

Faculty
Wallis Annenberg Chair in Communication and Journalism: Manuel Castells, PhD (Communication)
Judith & John Bedrosian Chair in Governance & Public Enterprise: Jason Doctor, PhD
Blue Cross of California Chair in Health Care Finance: Glenn A. Melnick, PhD
Margaret and John Ferraro Chair in Effective Local Government: Genevieve Giuliano, PhD*
James Irvine Chair in Urban and Regional Planning: Elizabeth Curnid-Halkett, PhD
Lusk Chair in Real Estate: Richard K. Green, PhD (Business)
Jeffrey J. Miller Chair in Government, Business and the Economy: Elizabeth Graddy, PhD*
Emery Evans Olson Chair in Nonprofit Entrepreneurship and Public Policy: James M. Ferris, PhD
Price Family Chair in Social Innovation: Christine Beckman, PhD
Quintiles Chair in Pharmaceutical and Regulatory Innovation: Darius Lakdawalla, PhD (Pharmacy)
Leonard D. Schaeffer Director’s Chair of the USC Leonard D. Schaeffer Center for Health Policy and Economics; Distinguished Professor: Dana Goldman, PhD*
The Norman Topping National Medical Enterprise Chair in Medicine and Public Policy: Jason Doctor, PhD
Turpanjian Chair in Civil Society & Social Change: Manuel Pastor, PhD (Sociology, and American Studies and Ethnicity)
Borstein Family Endowed Professor of Real Estate: Christian L. Redfearn, PhD
Provost Professor of Public Policy, Psychology, and Behavioral Science: Wandi Bruine de Bruin, PhD
Governor Downey Professor of State and Global Policy: Arnold Schwarzenegger
Frances R. and John J. Duggan Distinguished Professor of Public Administration: Shui Yang Tan, PhD*
Houston I. Flournoy Professor in State Government: Lois Takahashi, PhD
William M. Keck Professor of Energy Resources: Donald Paul, PhD (Engineering and Earth Sciences)
John Milner Professor of Child Welfare: Jacquelyn McCroskey, PhD (Social Work)
Mary Pickford Foundation Professor: Kathleen Wilber, PhD (Gerontology)
UPS Foundation Professor: Jon Pynoos, PhD (Gerontology)
Judge Widney Professor: Leonard D. Schaeffer
Judge Widney Professor of Poetry and Public Culture: Dana Gioia, MA, MBA
Professors: Ali E. Abbas, PhD (Engineering); Antonio Bento, PhD; Marlon Boarnet, PhD; Ann Crigler, PhD (Political Science); Howard Greenwald, PhD; Eric Heikkila, PhD; Dan Mazmanian, PhD; James Moore II, PhD (Engineering); Dowell Myers, PhD; Michael B. Nichol, PhD; Ann Owens, PhD (Sociology); Gary Painter, PhD; Jane Pisano, PhD; Alison D. Renteln, PhD* (Political Science); Lisa Schweitzer, PhD; David Sloane, PhD; Neeraj Sood, PhD; Robert Suro (Journalism); Defotol von Winterfeldt, PhD (Engineering)
Associate Professors: Emma Aguila, PhD; Nicole Esparza, PhD; Christian Grose, PhD (Political Science); Geoffrey Joyce, PhD (Pharmacy); Annette Kim, PhD; Pamela McCann, PhD; Juliet Musso, PhD*; Christian Redfearn, PhD; William Resh, PhD; Peter Robertson, PhD*; John Romley, PhD; Jeffrey Sellers, PhD (Political Science); Abby Wood (Law); Julie M. Zissimopoulos, PhD
Assistant Professors: Geoffrey Boeing, Alice Chen, PhD; Spencer Couts, PhD; Jorge De la Roca, PhD; Moussa Diop, PhD; Kathleen Doherty, PhD; Nicolas Duquette, PhD; Alexandra Graddy-Reed, PhD; Janna King, PhD; Eugene Lin, MD, MS (Medicine)
Visiting Professors: Wandi Bruine de Bruin; Rosalie Pacula, PhD
Professors (Teaching): Grace Bahng, PhD; Elizabeth Falletta, MRED; LaVonna B. Lewis, PhD; Deborah J. Natoli, PhD; Dora Vertenten, DPA
Associate Professors (Teaching): Tara Blanc, PhD; Mary Lynne Boom, PhD; Rym Kaki, PhD; William Leach, PhD; John Loper, MRED; T.J. McCarthy, PhD; Mark D. Phillips, PhD; Kelly Rawlings, PhD; Michael Thom, PhD
Assistant Professor (Teaching): Lisa Ozaeta, DrPH
Research Professors: Michael Cousineau, PhD (Medicine); Adam Rose, PhD
Research Associate Professor: Dan Wei, PhD
Research Assistant Professors: Jonathan Eyer, PhD; Jakub Hlavka, PhD; Karen Mulligan, PhD; Mindy Romero, PhD; Erin Trish, PhD; Karen Van Nuyts, PhD; Bryan Tysinger, PhD
Professors of Practice: Phil Dalton, MS (Health Management and Policy), MPH; Carol J. Geffner, PhD (Governance, Management
The Price School of Public Policy offers the following degrees:

### Degrees Offered

- Bachelor of Science in Public Policy
- Bachelor of Science in Real Estate Development
- Bachelor of Science in Urban Studies and Planning
- Master of Health Administration
- Executive Master of Health Administration
- Executive Master of Leadership
- Master of International Public Policy and Management
- Master of Urban Planning
- Master of Planning and Development Studies
- Master of Public Administration
- Master of Public Policy
- Master of Public Policy Data Science
- Master of Nonprofit Leadership and Management
- Master of Real Estate Development
- Doctor of Philosophy in Public Policy and Management
- Doctor of Philosophy in Urban Planning and Development
- Doctor of Policy, Planning, and Development

The Bachelor of Science and the school's master's degrees are also offered jointly as a progressive five-year program and the school participates in the following interdisciplinary minors:

- Construction Planning and Management
- Education Policy
- Health Policy
- International Policy and Management
- Law and Public Policy
- Nonprofits, Philanthropy and Volunteerism
- Real Estate Development
- Urban Sustainable Planning

The Master of Urban Planning is offered as a dual master's degree with programs in architecture, curatorial practices and the public sphere, heritage conservation, landscape architecture, business administration, public administration, public health, public policy, real estate development and social work.

The Master of Public Administration is offered as a dual master's degree with programs in urban planning, gerontology, Jewish nonprofit management, law and social work.

The Master of Real Estate Development is offered as a dual degree with the Master of Business Administration, Juris Doctor and Master of Urban Planning.

The Master of Health Administration is offered as a dual degree with the Master of Science in Gerontology.

The Master of Public Policy is offered as a dual degree with programs in law and urban planning.

### National Honor Societies

- **Pi Alpha Alpha**
  - Pi Alpha Alpha is the national honor society for public affairs and administration. Graduate students in the Price School of Public Policy who have completed at least 18 semester units and have earned a 3.7 grade point average are eligible for membership.

- **Pi Sigma Alpha**
  - Pi Sigma Alpha is the national honor society for students in public administration, political science and international relations. Students who have completed at least three courses from among these fields and have earned at least a 3.5 grade point average are eligible to apply.

### Undergraduate Degrees

The Price School of Public Policy offers a suite of degrees that allow undergraduate students to gain the skills and knowledge necessary to understand complex health, environmental and urban issues, as well as to potentially enter the professional fields of health and nonprofit management, public policy, real estate development, and urban planning. Students may enroll in the Bachelor of Science in Public Policy, Bachelor of Science in Urban Studies and Planning or the Bachelor of Science in Real Estate Development. In addition, students can select from a challenging set of minors or possibly the very competitive progressive degrees associated with the Master of Health Administration, Master of Urban Planning and Master of Public Administration.

### Admission

Freshman and transfer students may indicate their desire to declare a Price School major on their university application. Students enrolled at USC wishing to declare either a Price major or to be admitted into the minors must be in good academic standing. Interested current USC students should contact the Admissions and Recruitment Office in RGL 111 for more information.

### Advisement

Students must discuss courses of study with the appropriate undergraduate advisers throughout their college enrollment and need to develop their own individual programs with faculty and staff advisers at the time of first enrollment and throughout their college careers.
Progressive Degrees in the Price School of Public Policy

The Price School of Public Policy offers students who have demonstrated exceptional academic success the opportunity to earn both bachelor’s and master’s degrees in a progressive degree program. This program allows students to earn both the Bachelor of Science and a master’s degree in five years. Further details about progressive degrees can be found on the Requirements for Graduation page.

Admission

Admission is available after the completion of 64 units of course work toward the undergraduate degree. Students must apply for admission to the progressive degree program after completing 64 units of applicable course work to their undergraduate programs, but prior to the completion of 96 units of course work (not including AP, IB or courses taken prior to high school graduation). The application for admission to the progressive degree plan must be accompanied by a course proposal plan and two letters of recommendation with one at least from a Price School faculty member.

Awards of Degrees

The Bachelor of Science and master’s degree may be awarded separately upon completion of all degree requirements, but the master’s degree will not be awarded before the bachelor’s degree. Students who elect not to complete the master’s, must complete 128 units to earn the bachelor’s degree, including 32 units of upper-division Price course work (including any graduate Price classes).

Time Limits

All requirements for the progressive degree must be completed within 12 semesters. If not completed within that time, students will no longer be eligible for the master’s degree but may still earn the bachelor’s.

Transfer of Credits

Graduate courses will not be accepted for transfer credit. Undergraduate classes may be transferred in accordance with university guidelines.

Minor Programs

Minor in Construction Planning and Management

This program covers the most current theories and practice of construction planning and management. The program provides a valuable adjunct credential to professional school students pursuing careers in business administration, public administration, environmental studies, and other areas; and a unique opportunity for professional focus to students in the USC Dornsife College of Letters, Arts and Sciences.

Construction activities are complex. In contemporary society, effective planning and management of these activities requires specialized knowledge of the technical, economic and political environment. This program couples the knowledge of how construction activities are organized with a broader understanding of the urban system in which construction projects are embedded. With the exception of statistics, all of the required courses are within the Department of Civil Engineering and the Price School of Public Policy.

Any USC undergraduate who has completed the equivalent of two full-time semesters in good standing is eligible to pursue the minor program. This minor program is rigorous enough to serve as an introductory credential for students subsequently electing to pursue advanced studies in development, urban planning, construction management or allied fields.

See the Department of Civil Engineering for course requirements.

Minor in International Policy and Management

The minor in international policy and management brings together courses from the School of International Relations, dealing with the new global challenges, specific regions of the world, and international organizations and policies, and the Price School of Public Policy, dealing with core management skills and public policy processes. Students will examine the changes and challenges which are transforming the world, and the policy and management skills used to deal with them. To increase their understanding of the context and application of these concepts, students must complete a semester-long internship either in Washington, D.C. (through participation in the Washington, D.C. semester program) or in Los Angeles with an organization that has an international focus.

Students minor in international policy and management take three courses in international relations, including the gateway course, IR 305w Managing New Global Problems; three courses in public policy and management; and an approved internship through the School of International Relations (IR 491x Field Study). For additional course information, see International Relations.

Graduate Degrees

Admission

Applicants for admission to the Master of Health Administration; Executive Master of Health Administration; Executive Master of Leadership; Master of Nonprofit Management and Leadership; Master of Urban Planning; Master of Planning and Development Studies; Master of Public Administration; Master of Public Policy; Master of International Public Policy and Management; Master of Real Estate Development; Doctor of Policy, Planning, and Development; Doctor of Philosophy in Public Policy and Management; and Doctor of Philosophy in Urban Planning and Development must have a bachelor’s degree or its equivalent from an accredited educational institution. In recognition of the increasing diversity of capabilities required as the theories and practices of policy, planning, and development evolve, students from a variety of undergraduate and graduate backgrounds are encouraged to apply.

Applicants for admission will be expected to have completed a broad range of undergraduate courses in addition to their academic major or professional concentration. Generally, this will be reflected in completion of courses from the following fields: English; economics (basic theory); political science, history or sociology; physical or natural science; art or philosophy. In addition, mathematics (algebra, calculus, probability theory) and a course in statistics are strongly recommended.

Application for Admission

Admission to graduate programs in the Price School of Public Policy is highly selective and competitive. Preference is given to those with a record of high educational achievement and personal qualities favoring success in the fields of planning or development. Applicants must have achieved superior grades during undergraduate and graduate education. A grade point average of at least 3.0 (A = 4.0) is normally expected as well as satisfactory scores on the Graduate Record Examinations (GRE). The GRE and GMAT are neither accepted nor required for the DPPD or executive MHA programs. Students applying for admission to the Master of Nonprofit Management and Leadership, Master of Urban Planning, Master of Planning and Development Studies or the Master of Real Estate Development program must submit results from the Graduate Management Administration Test (GMAT). MRED applicants may also submit results from the Law School Admission Test (LSAT). In exceptional cases, an applicant who has not met these scholarship requirements may be admitted with conditions of admission.

For specific information on admission requirements and application procedures, contact the Price School of Public Policy, Office of Recruitment and Admissions, at (213) 740-0550. Certificate in Transportation Systems applicants should apply to the USC Viterbi School of Engineering. For additional information, contact the school at (213) 740-0587.
Transfer Credit

The Degree Progress Department determines whether work done elsewhere is available for consideration for credit toward the USC degree. That office requires official transcripts of all course work done before entering USC. A Graduate Transfer Credit Statement of these official transcripts, done after a student has been admitted to regular status at USC, will indicate which units are available for transfer. These courses do not apply toward the degree unless, and until, the student’s major department approves and submits transfer credit to the Degree Progress Department in the Office of Academic Records and Registrar.

Application of any available transfer credits toward a graduate degree will be determined by the director of the particular degree program, based on the semester units available for transfer as shown on the Transfer Credit Statement.

These general guidelines are followed by the admissions evaluator and by faculty members: (1) the work must be completed at an accredited graduate school; (2) the grade must be B or better; (3) the work must be a fair and reasonable equivalent to current USC course work at the graduate level which fits into the logical program for the degree; (4) the units are not more than seven years old at the time of admission to their master’s program or 10 years old for a doctoral program; (5) the units must reflect current knowledge in the field; and (6) the work must be completed prior to admission to the USC program.

USC does not give transfer credit for life experience, credit by examination, noncredit extension courses or thesis course supervision.

Please consult with your degree director before enrolling in courses outside of USC. In many of the Price School’s master’s degree programs, only courses taken outside of USC prior to admission may be applied to your degree.

Waiver of Course Content

The school recognizes that some applicants may have covered the material contained in core courses or courses required for a particular specialization. Under these circumstances, one particular course requirement may be waived, allowing the student to complete a more advanced course in the same area. Students who have a background in a particular area of study may be allowed to substitute other courses. In these situations, students do not receive unit credit but are permitted to take course work, which does not repeat earlier academic experiences.

Waiver of content is usually given only in the case of previous academic study of the subject, not in the case of experiential background in the area.

Students who believe they are eligible for content waiver decisions must petition the faculty of the school, providing evidence of the previous work through transcripts, syllabi and other pertinent material. Contact the school’s Student Affairs Office for information.

Master of Science in Health Systems Management Engineering

This program is jointly sponsored by the Epstein Industrial and Systems Engineering Department and the Price School of Public Policy (Master of Health Administration program), and administered by the Epstein Industrial and Systems Engineering Department. For more information, see Health Systems Management Engineering (MS).

Graduate Professional Labs

USC’s Price School of Public Policy offers professional consulting-like experience for graduate students in its core master's degree programs. Participants are presented with a challenging professional assignment and a well-defined client and terms of reference. Students typically work in teams to produce a professional report and related materials that are presented to the client at the close of the assignment. The terms of reference for the lab vary each year depending upon the client, the instructor and the setting, among other considerations.

In principle, these professional labs may be held anywhere, either in Los Angeles, elsewhere in the United States or abroad.

The Price School professional laboratory teaches students to integrate scholarly knowledge with professional practice. Likewise, it helps participants make the transition from the classroom back to a “real world” setting. In the case of international labs, participants also gain a deeper and more direct understanding of how the culture of professional practice can vary from one setting to the next. Through the Price School professional laboratory students build their credentials and experience while also extending their network of professional contacts.

These professional labs are intended primarily for graduate students in public administration, urban planning, real estate development, public policy and health administration. A distinctive feature of the professional laboratory is that it is intended as an integrative professional experience across the school, so that students from any of these programs may participate fully.

Each summer the Price School offers one or more international labs/workshops. Recent international labs have been held in China, Brazil, Germany, Morocco, Italy and Vietnam. All students are encouraged to take at least one international lab course.

Exchange Program

The Price School International Exchange Programs are one-semester exchange programs with a host institution in Germany or South Korea during either the fall or spring semester. These programs provide opportunities for students to acquire knowledge and skills necessary to become successful leaders in a global market. Students complete a maximum of 12 units at the host institution. All instruction is in English; proficiency in a foreign language is not required. Courses completed are graded credit/no credit on the student's USC transcript. The courses are selected from a list approved by the Price School of Public Policy. Students must work with their program administrator to understand how the courses will return to their degree.

Graduate Certificate Programs

Certificate in Health Systems Operations

This 17-unit graduate certificate is jointly sponsored by the Epstein Industrial and Systems Engineering Department and the Price School of Public Policy (Master of Health Administration program), and administered by the Epstein Industrial and Systems Engineering Department. See the Industrial and Systems Engineering Department for course requirements.

Non-Credit Programs Offered by the Center for International Training and Development

Management Effectiveness Program

This is a four-week intensive training program in the art and science of management. The program is designed to enhance leadership effectiveness and the development of a management generalist perspective.

International Executive Development Laboratory

This five-week laboratory focuses on issues in executive leadership, strategic management, environmental analysis, international finance and economics, computer-based project planning, and implementation of planned change strategies.

Dual Degree Programs

A dual degree program is an academic option that allows a student to enroll in two graduate programs simultaneously. Application must be made to both schools, and if accepted to both, the student pursues a specially designed program that combines selected courses from the two academic units. Students are required to seek advisement from both schools. The student will have the opportunity to acquire the knowledge and skills from two fields of study.

The dual degree program enables the student to integrate a closely related field with planning or development. The purpose of the dual program is to provide an enriched educational experience; accordingly, concurrent course work in the two fields is required.

Since the unit requirements of dual degrees depend upon the mutual transfer of units between the two academic units, no other transfer of credits will be allowed.
Students who decide, at any point, to earn only one of the two degrees must meet all the regular requirements for earning that degree alone.

Students in Master of Urban Planning dual degree programs must fulfill the comprehensive examination and appropriate internship requirements except where noted otherwise.

Master of Heritage Conservation/Master of Urban Planning

See the Master of Heritage Conservation/Master of Urban Planning (MHC/UMP) for degree requirements.

Master of Urban Education Policy/Master of Public Policy

See the Master of Urban Education Policy/Master of Public Policy (PhD/MPP) for degree requirements.

Master of Urban Planning/Master of Advanced Architectural Studies

The Master of Urban Planning/Master of Advanced Architectural Studies dual degree program facilitates highly related cross-disciplinary studies in architecture and in urban planning at the master's level. This program offers students interested in developing a career in urban design an opportunity to make more substantial commitments in both disciplines and to achieve a more coherent and extensive knowledge in the design of built environments and public policy. This dual degree program normally requires five semesters in residence.

Qualified students who are admitted to the graduate programs in both the School of Architecture and the USC Price School of Public Policy may complete both degrees in a highly integrated five-semester program. Such students must already possess a five-year professional degree in architecture.

Requirements

Requirements for completion of the dual degree program are 72 units, including 36 units in architecture and 36 units in planning. See the USC School of Architecture for course requirements.

Master of Urban Planning/Master of Business Administration

See the Master of Business Administration/Master of Urban Planning (MBA/UMP) for degree requirements.

Master of Urban Planning/Master of Arts, Curatorial Practices and the Public Sphere

See the Master of Urban Planning/Master of Arts, Curatorial Practices and the Public Sphere (MUP/MA) for degree requirements.

Master of Urban Planning/Master of Landscape Architecture

The dual degree option in urban planning and landscape architecture (in the USC School of Architecture) trains professionals in policy and design, and to be competent with design problems at different scales, but with a distinctly urban focus. Candidates must be independently admitted to the Master of Urban Planning and Master of Landscape Architecture programs. The dual degree program normally requires between five and seven semesters in residence.

Requirements

Completion of the dual degree requires 24 units of courses in urban planning, 10 units of thesis option I or II and either 32 units of landscape architecture (for those students admitted with advanced standing); 48 units of landscape architecture (for those students admitted with advanced placement); or 74 units of landscape architecture (for those students admitted to the three-year curriculum). See USC School of Architecture for course requirements.

Juris Doctor/Master of Real Estate Development

See the USC Gould School of Law for degree requirements.

Master of Real Estate Development/Master of Business Administration

See the Master of Business Administration/Master of Real Estate Development (MBA/MRED) for degree requirements.

Regulations Concerning a Second Master's Degree

For rules governing a second master's degree, see the Requirements for Graduation page. In accordance with these policies, transfer credits will be granted only on the basis of a written petition to the MPA program coordinator and on the basis of credits recognized by USC in a Transfer Credit Statement.

Teaching Opportunities

Students may want to prepare for teaching as well as for public service. By careful planning in the upper division of the undergraduate degree and during the graduate years, requirements for a bachelor's degree, a master's degree and the university recommendation for a community college instructorship may be met without unnecessary duplication of effort and waste of time. Those interested in teaching should consult advisers in both the USC Price School of Public Policy and the USC Rossier School of Education before beginning upper-division and graduate work.

Public Administration Professional Sequence with the Viterbi School of Engineering

Regulations governing the Master of Science in Civil Engineering permit some candidates for this degree to take 12 units outside the School of Engineering. Those who wish to do so may take up to 12 units in public administration. Two courses in this sequence must be selected from among PPD 500, PPD 501a, PPD 501b, PPD 540, PPD 541, PPD 545, PPD 546. One course in this sequence must be selected from among PPD 542, PPD 557, PPD 666, PPD 541 requires PPD 502x and statistics as prerequisites. PPD 546 should be taken last if elected.

Joint Degree Program

Master of Arts in Long Term Care Administration

This program is designed to prepare competent individuals to administer the long term care needs of America's elderly population. It is jointly offered by the Davis School of Gerontology, the Marshall School of Business, and the Price School of Public Policy. For information see the USC Leonard Davis School of Gerontology.

Doctoral Degrees

The USC Price School of Public Policy offers the Doctor of Philosophy in Public Policy and Management (PhD), the Doctor of Philosophy in Urban Planning and Development (PhD) and the Doctor of Policy, Planning, and Development (DPPD). The PhD degrees are designed to prepare individuals for university level teaching and research. The DPPD degree is intended to develop a high level of conceptual and research competence for professional leadership in planning and development. The DPPD is administered by the Price School of Public Policy; the PhD programs are administered by the Graduate School and the faculty of the Price School of Public Policy. PhD students must consult The Graduate School section of this catalogue for regulations and requirements pertaining to its degrees. Students should also consult the Academic Policies section of this catalogue.

Completion of the requirements for all these degrees is assumed to take a minimum of three years of approved graduate study and research beyond the bachelor's degree. For the PhD student, a minimum of 24 graduate units completed in residence on the University Park Campus in Los Angeles is required. DPPD students are required to complete a minimum of 24 units at the University Park Campus. Full-time study is represented by enrollment in 6 units during the semester. Usually the school and the student's qualifying exam committee insist on a clear and mutually understood commitment of time and energy by the student to ensure significant involvement in the
doctoral learning experience. For university policies regarding continuous enrollment, leave of absence and readmission, see the Requirements for Graduation page.

Application and Admission

Admission to graduate standing for the PhD or DPPD is recommended by the school's admissions committee acting under guidelines established by the Graduate School as outlined in the Graduate School section and the Graduate Admission section. In addition to those guidelines, DPPD students are expected to have a minimum of five years of substantial relevant experience. Students intending to apply should direct questions about the program and all materials for the admission application to Doctoral Programs, Office of Student Affairs, RGL 111, Price School of Public Policy, University of Southern California, University Park, Los Angeles, CA 90089-0626.

The deadline for applications for admission to the PhD and DPPD programs is December 1. Applications for admission are made once each year for fall semester admission. The admission decision for PhD students is made using criteria that include verification that the applicant has a bachelor's degree from an accredited college or university, has maintained a high grade point average in the last 60 units of undergraduate work, and has earned a competitive score on the verbal and quantitative portions of the Graduate Record Examinations (GRE). Other elements of the applicant's educational and experiential background are also evaluated, including performance in other advanced degrees. DPPD applicants must also provide evidence of at least five years of practical administrative or other relevant experience. The GRE and GMAT scores are neither accepted nor required for the DPPD program.

Each applicant should submit the following: (1) one copy of official transcripts of all previous college and university work (be sure that these official transcripts show an awarded degree where appropriate); (2) copies of GRE scores; (3) a 1,000-word essay discussing the applicant's background and reasons for wanting to pursue a PhD degree and identifying his or her personal, educational and professional goals; (4) an up-to-date résumé, including academic and professional accomplishments; (5) three letters of recommendation, two from previous instructors, the other from an instructor or from a professional supervisor or colleague. The letters should indicate the applicant's academic and professional accomplishments and potential; (6) a completed USC Graduate Admission Application, along with the nonrefundable application fee; (7) a writing sample of approximately 1,000 words (in addition to the applicant essay); and (8) a completed Price School of Public Policy Supplemental Graduate Application.

International applicants are asked to submit additional information. Applicants should carefully choose, and clearly state, the degree objective (PhD or DPPD) for which they are applying, since different sets of admissions criteria exist for each of them.

Transfer Credits

The application of any available transfer credits toward a graduate degree at USC will be determined by the faculty and the dean of the Price School of Public Policy, based on the semester units available for transfer as shown in the Transfer Credit Statement (determined by the USC Office of Academic Records and Registrar). Refer to Admission with Advanced Standing for more information.

Deferral of Enrollment

Admission to the university is granted for a specified semester, and it is expected that students will begin their programs during that semester. The school will normally allow students to defer their enrollment up to one year from the admission semester. Students who wish to defer enrollment should notify the school in writing no more than 30 days after the beginning of the semester of admission. Students who do not inform the school in a timely manner of their intent to defer enrollment may be required to reapply for admission.

Please note that more stringent regulations apply to international students. See the Admission and Orientation section of this catalogue.

Admission to Candidacy

Acceptance to graduate standing does not in itself imply that the student is admitted or will be admitted to candidacy for an advanced degree. Application for admission as a candidate for an advanced degree is a separate and subsequent step. See The Graduate School section of this catalogue.

Admission of International Students

All international applicants for admission to doctoral programs should submit materials to Doctoral Programs, Recruitment and Admissions Office, RGL 111, Price School of Public Policy, University of Southern California, University Park, Los Angeles, CA 90089-0626. See the Admission of International Students section of this catalogue.

Screening

PhD students are required to have a 3.3 overall GPA in first-year courses to continue in the program. DPPD students are required to pass a screening procedure after 16 units of coursework. The procedure is designed to ensure that only those students who have demonstrated intellectual and scholarly potential continue in the program.

There are differences between the screening process for PhD and DPPD students. Students should consult the relevant faculty director of the doctoral program in which they are enrolled.

Qualifying Exam Committee (for the PhD programs)

A qualifying exam committee assists the student in outlining an academic program leading toward the degree. Students will form an initial qualifying exam committee by the end of the first fall semester. The committee might not yet include the Graduate School representative from outside the Price School, but must include at least three tenure track Price School faculty members, one of whom is identified as the chair. This committee bears responsibility for counseling the doctoral student, for approving a course schedule and preliminary and qualifying examinations, and for recommending the student for admission to candidacy. After approval of the student's program and proposed time schedule, the program is submitted in writing to the relevant director. This should be accomplished by the beginning of the second year, following successful screening.

The complete qualifying exam committee must be in place no later than the third semester. The chair should have recognized expertise in the qualifying area and should be a regular participant in the qualifying examination committee for that area. The majority of the members of the qualifying exam committee (typically at least three out of five) should be experts in the area in which the student is qualifying and should be regular participants in the qualifying examination committee. The remaining members should have a clear interest in this area with the exception of the outside member whose primary responsibility is to serve as the representative of the Graduate School, ensuring the university's commitment to the equitable treatment of all students and that the highest quality education standards are upheld.

Students will formalize their relationship with their committees through the development of a work plan that specifies all courses, degree progress, seminar attendance and what was learned from these sessions as well as a research plan that articulates major research questions being explored. At the end of the first year of study, the qualifying exam committee chair reviews and approves the work plan. At the end of the second year, the full qualifying exam committee reviews the work plan and the second year paper.

Bachelor's Degree

Public Policy (BS)

The Bachelor of Science in Public Policy is an interdisciplinary major that prepares students for graduate study and/or professional careers by engaging them in the analysis of...
society’s political, social and economic issues. The major introduces students to theoretical foundations and practical applications through a set of cross-cutting introductory courses and specialized courses in one of four tracks: health policy and management, public policy and law, philanthropy, nonprofits and social innovation, or advanced policy analysis. Students will be introduced to analytical and research tools relevant for and connected to professional practice, as exemplified by consultative class projects and the mandatory internship.

Pre-Major Requirements
Students must complete the pre-major requirements. A minimum grade of C, 2.0 (A = 4.0), must be earned in each of the pre-major courses. All pre-major requirements must be taken for a letter grade.
- ECON 203g Principles of Microeconomics Units: 4
- MATH 117g Introduction to Mathematics for Business and Economics Units: 4

Core Curriculum (30 Units)
- PPD 225 Public Policy and Management Units: 4
- PPD 240g Citizenship and Public Ethics Units: 4
- PPD 300 Social Justice Issues in Public Policy and Urban Planning Units: 4
- PPD 301 PPD Practices: Internship Seminar Units: 2
- PPD 315 Analytic Foundations for Public Policy Units: 4
- PPD 303 Statistics for Policy, Planning, and Development Units: 4
- PPD 373 Public Policy and Planning Analysis Units: 4
- PPD 431 Undergraduate Policy, Planning, and Development Studio Units: 4

Tracks
Students select one track for degree emphasis; they take 28 units from the track selected. Each track includes five required courses and two elective courses with the exception of the Advanced Policy Analysis track, which has four required courses and three elective courses. During advisement, students will be given a list of recommended elective courses particularly appropriate for the chosen track. Students may work with their adviser for approval to take track electives outside of the courses listed to meet their academic needs. The required courses for each track are listed below followed by track elective options.

Health Policy and Management Track

Required Track Courses (28 units: 20 required, 8 electives)
- PPD 325 Fundamentals of Health Policy and Management Units: 4
- PPD 330 Introduction to Health Care Systems Units: 4
- PPD 357 Government and Business Units: 4
- PPD 415 Health Policy Units: 4
- PPD 413 Administration of Health Care Organizations Units: 4
- Track Electives (Select two)
  - GERG 416 Health Issues in Adulthood Units: 4
  - HP 408 Environmental Health in the Community Units: 4
  - HP 412 Health Promotion and Prevention Policy Units: 4
  - LAW 403 Mental Health Law Units: 4
  - PPD 314 Public Policy and Law Units: 4
  - PPD 318 Financial Accounting in Public and Nonprofit Organizations Units: 4
  - PPD 320 Organizational Behavior in Public Administration Units: 4
  - PPD 403 Management Analysis I Units: 4
  - PPD 404 Empirical Methods for Public Policy Units: 4
  - PPD 407 Financial Management of Public and Nonprofit Organizations Units: 4
  - PPD 414 Community Health Policy and Planning Units: 4
  - PPD 478 Social Innovation Units: 4

Philanthropy, Nonprofits and Social Innovation Track

Required Track Courses (28 units: 20 required, 8 electives)
- PPD 353 Philanthropy and Social Change Units: 4
- PPD 371 The Nonprofit Sector and the Public Interest Units: 4
- PPD 402 Management of Public and Nonprofit Organizations Units: 4
- PPD 407 Financial Management of Public and Nonprofit Organizations Units: 4
- PPD 478 Social Innovation Units: 4
- Track Electives (Select 2)
  - BUCC 485 Business Communication Management for Nonprofits Units: 4
  - IR 371 Global Civil Society: Non-State Actors in World Politics Units: 4
  - PPD 318 Financial Accounting in Public and Nonprofit Organizations Units: 4
  - PPD 320 Organizational Behavior in Public Administration Units: 4
  - PPD 372m Public Service in an Urban Setting Units: 4
  - PPD 382 International Development Units: 4
  - PPD 404 Empirical Methods for Public Policy Units: 4

Public Policy and Law Track

Required Track Courses (28 units: 20 required, 8 electives)
- PPD 313 Finance of the Public Sector Units: 4
- PPD 314 Public Policy and Law Units: 4
- PPD 342 Crime and Public Policy Units: 4
- LAW 300 Concepts in American Law Units: 4
- POSC 340 Constitutional Law Units: 4
- LAW 200w Law and Society Units: 4
- ECON 434 Economic Analysis of Law Units: 4
- LAW 310w Global Justice for Mass Atrocities and Genocide Units: 4
- LAW 403 Mental Health Law Units: 4
- LAW 404 Law and Psychology: Examining the Criminal Justice Process Units: 4
- POSC 444 Civil and Political Rights and Liberties Units: 4
- PPD 357 Government and Business Units: 4
- Track Electives (Select 2)
  - PPD 360 Urban Transportation Planning and Policy Units: 4
  - PPD 361 Sustainable Communities, Policy and Planning Units: 4
  - PPD 371 The Nonprofit Sector and the Public Interest Units: 4
  - PPD 382 International Development Units: 4
  - PPD 404 Empirical Methods for Public Policy Units: 4
  - PPD 410 Comparative Urban Development Units: 4
  - PPD 414 Community Health Policy and Planning Units: 4
  - PPD 478 Social Innovation Units: 4
  - PPD 485m U.S. Immigration Policy Units: 4

For the two track requirements that consist of a choice (POSC 340 or LAW 300 and LAW 200w or PPD 357), the courses not used to satisfy these requirements may be taken as electives.

Advanced Policy Analysis Track

Required Track Courses (28 units: 16 required, 12 electives)
- ECON 205g Principles of Macroeconomics Units: 4
- ECON 303 Intermediate Microeconomic Theory Units: 4
- PPD 313 Finance of the Public Sector Units: 4
- PPD 404 Empirical Methods for Public Policy Units: 4
- Track Electives (Select three from within a concentration)
  a) Environmental and Energy Policy
    - ECON 487 Resource and Environmental Economics Units: 4
    - PPD 344 Environmental Policy and Sustainable Development Units: 4
    - PPD 361 Sustainable Communities, Policy and Planning Units: 4
    - PPD 410 Comparative Urban Development Units: 4
    - PPD 427L Geographic Information Systems and Planning Applications Units: 4
b) International Development and Policy
• POSC 456 Women in International Development Units: 4
• PPD 358a Urban and Regional Economics Units: 4
• PPD 360 Urban Transportation Planning and Policy Units: 4
• PPD 380a International Perspectives on Urban Problem Solving Units: 4
• PPD 380b International Perspectives on Urban Problem Solving Units: 4
• PPD 421 Land Use, Environment, and Housing in Developing Countries Units: 4
• PPD 422 Transportation and Technology and the Future of Mobility Units: 4
• PPD 439 Housing and Community Development Units: 4
• SOCI 470 Social Change in Low-Income Countries Units: 4
• c) Health Policy
• GERO 416 Health Issues in Adulthood Units: 4
• HP 408 Environmental Health in the Community Units: 4
• HP 412 Health Promotion and Prevention Policy Units: 4
• PPD 314 Public Policy and Law Units: 4
• PPD 413 Administration of Health Care Organizations Units: 4
• PPD 414 Community Health Policy and Planning Units: 4
• PPD 415 Health Policy Units: 4

Cross-cutting Topics Course
Students will be required to take 4 units of a cross-cutting topics course. It is taken preferably junior year after completion of the core curriculum. Students may select a course from the list below. If a student uses a course to satisfy a requirement or elective that has already been taken in the track requirements, it can not be double-counted as the cross-cutting course. The cross-cutting course must be a different course.
• PPD 313 Finance of the Public Sector Units: 4
• PPD 314 Public Policy and Law Units: 4
• PPD 325 Fundamentals of Health Policy and Management Units: 4
• PPD 342 Crime and Public Policy Units: 4
• PPD 353 Philanthropy and Social Change Units: 4
• PPD 357 Government and Business Units: 4
• PPD 371 The Nonprofit Sector and the Public Interest Units: 4
• PPD 400 Topics in Public Policy and Urban Studies Units: 4
• PPD 404 Empirical Methods for Public Policy Units: 4

Additional Requirements

Capstone
All students will take 4 units of a capstone experience during their senior year. This may be fulfilled by taking PPD 431: Undergraduate Policy, Planning, and Development Studio (4) or PPD 497a Senior Thesis, PPD 497b Senior Thesis (2-2). Students wishing to enroll in PPD 497a, PPD 497b must have a 3.7 GPA in PPD courses and an overall 3.5 GPA.

Internships
Public Policy majors are required to complete 140 hours of internship by enrolling in PPD 301 PPD Practicum: Internship Seminar or the Washington, D.C., Semester internship. Internships are matched as closely as possible to the student's interests and skills.
PPD 301 and the internship in a position provide numerous opportunities to develop and formulate future career goals, as well as to gain personal and professional experience while completing the undergraduate degree.

Honors
Price School honors are available at graduation to qualified PPD majors and result in a special designation of departmental honors on a student's transcript. Achievement of PPD honors requires a 3.7 GPA in PPD major courses and a 3.5 overall GPA as well as nomination by the professor in the capstone experience. In addition, students must earn an A in their capstone course (PPD 497a, PPD 497b or PPD 431).

Washington, D.C., Semester
The Washington, D.C., Semester program provides an intensive semester of confrontation with the political center of the nation and its complex components. The program offers opportunities for behind-the-scenes work in national government agencies and related organizations, combined with an academic environment and the chance to explore, share and learn with a group of fellow students.

Real Estate Development (BS)
Price School students are trained to look at the interaction between people and place and the consequences for our communities. The Bachelor of Science in Real Estate Development explores the broader context of real estate allowing students to launch their careers by grasping the full structure of the industry and its role in society. The pre-major courses integrate the many disciplines that are the foundation for real estate education, including accounting, economics and business finance. The real estate core classes taken through the Price School focus on real estate principles, financial analysis, market analysis, land use policy, urban design and the history of cities. Students also select electives to complement their interests from either the Price School or closely related disciplines. Throughout, the students' education will be connected to professional practice, as exemplified by the mandatory internship. Finally, the major is structured to provide students with sufficient elective credits to explore minors or other programs at USC so they can broaden their education to better prepare themselves for the next stage of their lives.

Admission
Freshman and transfer students may indicate their desire to declare a Price School major on their university application. Students enrolled at USC wishing to declare either Price major or to be admitted into the minors must be in good academic standing.

Students who have taken Foundation Prerequisites or Real Estate Core classes out of sequence (including enrollment in PPD/RED 435 or PPD/RED 437 prior to RED 375) before declaring the major are not eligible for admission into the Bachelor of Science in Real Estate Development program.

Students who wish to pursue the Bachelor of Science in Real Estate Development as a second bachelor's must satisfy all university requirements for a second bachelor's and complete 32 units unique to the Real Estate Development major.

General Education Requirements
The university's general education program provides a coherent, integrated introduction to the breadth of knowledge you will need to consider yourself (and to be considered by other people) a generally well-educated person. This program requires eight courses in six Core Literacies, plus two courses in Global Perspectives (which may double-count with courses in the Core Literacies) and two courses in writing. See the General Education program and the Requirements for Graduation pages for more information.

Foundation Prerequisites (28 units)
• ACCT 410x Foundations of Accounting Units: 4
• BUAD 215x Foundations of Business Finance Units: 4
• ECON 203g Principles of Microeconomics Units: 4
• MATH 117g Introduction to Mathematics for Business and Economics Units: 4
• PPD 225 Public Policy and Management Units: 4
• PPD 245g The Urban Context for Policy and Planning Units: 4

Note:
*May double count as general education.
Real Estate Core (24 units)
- RED 362 Real Estate Development Fundamentals Units: 4
- RED 375 Real Estate Development Analysis Units: 4
- RED 417 History of Planning and Development Units: 4
- RED 425 Designing Livable Communities Units: 4
- RED 435 Analyzing Real Estate Markets Units: 4
- RED 437 Advanced Finance and Investment for Real Estate Development Units: 4

Additional Requirements
Real Estate Electives (11-12 units)
Students select 11-12 units of course work from the Price School or in related fields. Elective classes must be approved by the Price School academic adviser.

Capstone (4 units)
Students will complete four units of a capstone experience during their senior year. This may be fulfilled by taking PPD 431 Undergraduate Policy, Planning, and Development Studio (4) or PPD 497a Senior Thesis, PPD 497b Senior Thesis (2-2). Students wishing to enroll in PPD 497a, PPD 497b must have a 3.7 GPA in Price School courses and an overall 3.5 GPA.

Internships
Students are required to complete 140 hours of internship by enrolling in PPD 301 PPD Practices: Internship Seminar. Internships are matched as closely as possible to the student's interests and skills. PPD 301 and the internship provide opportunities to develop and formulate future career goals, as well as to gain personal and professional experience while completing the undergraduate degree.

Honors
Price School honors are available at graduation to qualified students and result in a special designation of departmental honors on a student's transcript. Achievement of Price School honors requires a 3.7 GPA in Price School major courses, a 3.5 overall GPA, as well as nomination by the professor of the capstone experience. In addition, students must earn an A in their capstone course (PPD 431 or PPD 497a, PPD 497b).

Urban Studies and Planning (BS)
The Bachelor of Science in Urban Studies and Planning is an interdisciplinary major that prepares students for graduate study and careers as change agents in the urban world. The major introduces students to theoretical foundations and practical applications through a set of introductory courses and develop expertise through electives. Students will learn analytical techniques for urban sustainability, methods for stakeholder engagement, approaches for poverty alleviation, and the role of the built environment and geographic data in city problem solving. Environmental analysis and sustainability, Geographic Information Systems, statistics, urban design, applied field research, and the mandatory internship are a sample of the courses and tools used to educate our students and to better prepare them for their professional careers or graduate studies.

The program requires a minimum of 128 units.

Pre-major Requirements
Students must complete the pre-major requirements. A minimum grade of C, 2.0 (A=4.0), must be earned in each of the pre-major courses. All pre-major requirements must be taken for a letter grade.
- ECON 203g Principles of Microeconomics Units: 4
- MATH 117g Introduction to Mathematics for Business and Economics Units: 4

Core Curriculum
- PPD 240g Citizenship and Public Ethics Units: 4
- PPD 245g The Urban Context for Policy and Planning Units: 4
- PPD 300 Social Justice Issues in Public Policy and Urban Planning Units: 4
- PPD 301 PPD Practices: Internship Seminar Units: 2
- PPD 303 Statistics for Policy, Planning, and Development Units: 4

Urban Studies and Planning Core (20 units)
- PPD 227 Urban Planning and Development Units: 4
- PPD 427L Geographic Information Systems and Planning Applications Units: 4
- PPD 430 Urban Informatics Units: 4
- RED 417 History of Planning and Development Units: 4
- RED 425 Designing Livable Communities Units: 4

Urban Studies and Planning Electives (16 units)
Students in this major select 16 units of electives. Students may petition to take elective outside of the list below.
- PPD 250m Cities in the Developing World Units: 4
- PPD 306 Visual Methods in Policy, Management, Planning and Development Units: 4
- PPD 357 Government and Business Units: 4
- PPD 358 Urban and Regional Economics Units: 4
- PPD 360 Urban Transportation Planning and Policy Units: 4
- PPD 361 Sustainable Communities, Policy and Planning Units: 4
- PPD 364 Technology and the City Units: 4
- PPD 382 International Development Units: 4
- PPD 410 Comparative Urban Development Units: 4
- PPD 414 Community Health Policy and Planning Units: 4
- PPD 416 Food Policy and Planning Units: 2
- PPD 420 Environmental Impact Assessment Units: 4
- PPD 421 Land Use, Environment, and Housing in Developing Countries Units: 4
- PPD 422 Transportation and Technology and the Future of Mobility Units: 4
- PPD 438 Local Economic Development Units: 4
- PPD 439 Housing and Community Development Units: 4
- PPD 478 Social Innovation Units: 4
- RED 362 Real Estate Development Fundamentals Units: 4

Additional Requirements
Cross-cutting Topics Courses
Students will be required to take 4 units of cross-cutting topics courses (PPD 400), preferably in junior year after they have completed the core curriculum.

Capstone
All students will take 4 units of a capstone experience during their senior year. This may be fulfilled by taking PPD 431 Undergraduate Policy, Planning, and Development Studio (4) or PPD 497a Senior Thesis, PPD 497b Senior Thesis (2-2). Students wishing to enroll in PPD 497a, PPD 497b must have a 3.7 GPA in PPD courses and an overall 3.5 GPA.

Internships
Urban Studies and Planning majors are required to complete 140 hours of internship by enrolling in PPD 301 PPD Practices; Internship Seminar or the Washington, D.C., Semester internship. Internships are matched as closely as possible to the student's interests and skills.

PPD 301 and the internship provide numerous opportunities to develop and formulate future career goals, as well as to gain personal and professional experience while completing the undergraduate degree.

Honors
Price School honors are available at graduation to qualified PPD majors and result in a special designation of departmental honors on a student's transcript. Achievement of PPD honors requires a 3.7 GPA in PPD major courses and a 3.5 overall GPA as well as nomination by the professor in the capstone experience. In addition, students must earn an A in their capstone course (PPD 497a, PPD 497b or PPD 431).
Washington, D.C., Semester

The Washington, D.C., Semester program provides an intensive semester of confrontation with the political center of the nation and its complex components. The program offers opportunities for behind-the-scenes work in national government agencies and related organizations, combined with an academic environment and the chance to explore, share and learn with a group of fellow students.

Minor

Construction Planning and Management Minor (Public Policy)

This program covers the most current theories and practice of construction planning and management. The program provides a valuable adjunct credential to professional school students pursuing careers in business administration, public administration, environmental studies, and other areas; and a unique opportunity for professional focus to students in the USC Dornsife College of Letters, Arts and Sciences.

Construction activities are complex. In contemporary society, effective planning and management of these activities requires specialized knowledge of the technical, economic and political environment. This program couples the knowledge of how construction activities are organized with a broader understanding of the urban system in which construction projects are embedded.

With the exception of statistics, all of the required courses are within the Department of Civil Engineering and the Price School of Public Policy. Any USC undergraduate who has completed the equivalent of two full-time semesters in good standing is eligible to pursue the minor program. This minor program is rigorous enough to serve as an introductory credential for students subsequently electing to pursue advanced studies in development, urban planning, construction management or allied fields.

See the Construction Planning and Management Minor in the Department of Civil Engineering for course requirements.

Education Policy Minor

Education is one the largest expenditures of state and local governments, and educational costs continue to rise. Yet many are dissatisfied with the performance of the education system—both the low levels of achievement relative to our international peers and the considerable opportunity and achievement gaps that separate racial/ethnic and socioeconomic groups. As governments face increasingly tight budgets, they are turning to new and novel policies and interventions to address our educational challenges.

The 20-unit minor is designed to equip students with both substantive and methodological skills relating to the analysis of education policy. Students gain from the expertise of faculty in the Sol Price School of Public Policy and the USC Rossier School of Education. The program’s content courses introduce students to the most pressing policy issues in education today.

Required Courses (20 Units)

- EDUC 431 Education Policy in the United States: 4
- EDUC 432 Inequality in Education: 4
- PPD 225 Public Policy and Management: 4
- PPD 303 Statistics for Policy, Planning, and Development: 4
- PPD 315 Analytic Foundations for Public Policy: 4

Health Administration Minor

This 20-unit minor in health administration provides students with a background in administration and management issues in the field of health care and the skills necessary to pursue health-related management opportunities in the for-profit, nonprofit and governmental sectors.

Required Courses (12 Units)

- PPD 325 Fundamentals of Health Policy and Management: 4
- PPD 330 Introduction to Health Care Systems: 4
- PPD 413 Administration of Health Care Organizations: 4

Electives (8 Units)

- PPD 318 Financial Accounting in Public and Nonprofit Organizations: 4
- PPD 320 Organizational Behavior in Public Administration: 4
- PPD 403 Management Analysis I: 4
- PPD 407 Financial Management of Public and Nonprofit Organizations: 4
- PPD 414 Community Health Policy and Planning: 4

Health Policy Minor

This 16-unit minor in health policy provides students with a background in the policy issues and challenges globally, nationally and locally related to quality, cost and access to health care. Students in this minor will acquire an understanding of these issues and the skills required to influence health policy.

Required Courses (12 Units)

- PPD 325 Fundamentals of Health Policy and Management: 4
- PPD 330 Introduction to Health Care Systems: 4
- PPD 415 Health Policy: 4

Electives (4 Units)

- GER1416 Health Issues in Adulthood: 4
- HP 408 Environmental Health in the Community: 4
- HP 412 Health Promotion and Prevention Policy: 4
- HP 422 AIDS in Society: 4
- LAW 403 Mental Health Law: 4
- PPD 357 Government and Business: 4
- PPD 414 Community Health Policy and Planning: 4

Law and Public Policy Minor

The minor in law and public policy draws upon four fields of study: public policy and management, law, economics and political science. It provides students with an understanding of the political and economic contexts in which laws are made as well as how legal institutions shape policy formulation. Students learn to analyze the consequences of policy and alternatives; the roles played by government, business and nonprofit organizations in public decision making; and the legal bases for various areas of public policy.

Students minoring in law and public policy take 20 units, including the gateway class, PPD 225 Public Policy and Management, and one elective. The latter enables the student to focus on a specific area of law.

Required Courses

- POSC 340 Constitutional Law: 4
- PPD 225 Public Policy and Management: 4
- PPD 314 Public Policy and Law: 4
- PPD 315 Analytic Foundations for Public Policy: 4

And one of the following:

- ECON 434 Economic Analysis of Law: 4
- FBE 403 Introduction to the Legal Environment of Business: 4
- LAW 200w Law and Society: 4
- LAW 300 Concepts in American Law: 4
- LAW 403 Mental Health Law: 4
- POSC 345 International Law: 4
- POSC 347 Environmental Law: 4
- POSC 432 Politics of Local Criminal Justice: 4
- POSC 440 Comparative Law and the Judicial Process: 4
- POSC 441m Cultural Diversity and the Law: 4
- POSC 444 Civil and Political Rights and Liberties: 4
- POSC 452 Critical Issues in Law and Public Policy: 4
Nonprofits, Philanthropy and Volunteerism Minor

This four-course minor enables students to learn about the nonprofit sector — its organizations, philanthropy and voluntary action. The three-course core provides: (1) an overview of the nonprofit sector and philanthropy and its role in the United States, including its historical and theoretical foundations, its various components and its relation to public policy; (2) a focus on voluntary action and service as one means for social change and problem-solving; and (3) insights into the management of nonprofit organizations. Students select an elective that extends their understanding to the role of nongovernmental organizations in international affairs or to the role of public relations for nonprofits.

This minor is intended for students who plan (1) to work in a nonprofit or charitable organization, whether it is a large organization such as United Way, a small social service agency, an environmental advocacy group, a museum or a religious organization, (2) to participate with nonprofits as a volunteer throughout their lives or (3) pursue further graduate work in a service-related profession.

Required Courses
- PPD 371 The Nonprofit Sector and the Public Interest Units: 4
- PPD 402 Management of Public and Nonprofit Organizations Units: 4
- PPD 478 Social Innovation Units: 4

Electives (select one)
- BUO 485 Business Communication Management for Nonprofits Units: 4
- IR 371 Global Civil Society: Non-State Actors in World Politics Units: 4
- PPD 318 Financial Accounting in Public and Nonprofit Organizations Units: 4
- PPD 353 Philanthropy and Social Change Units: 4
- PPD 372m Public Service in an Urban Setting Units: 4
- PR 455 Public Relations for Non-Profit Organizations Units: 4

Real Estate Development Minor

This minor provides students with an overview of the field of real estate development - its principles, the urban context and history, finance, as well as the opportunity to select an elective. The minor requires 20 units, including four core courses and 4 units of electives. The minor is intended for any student with an interest in a career in real estate development or other areas that might be related to real estate such as local government, urban planning, public-private partnerships, real estate finance or related entrepreneurial ventures.

Core
- PPD 227 Urban Planning and Development Units: 4
- PPD 245g The Urban Context for Policy and Planning Units: 4
- PPD 427L Geographic Information Systems and Planning Applications Units: 4
- RED 425 Designing Livable Communities Units: 4

Electives (4 units):
- PPD 227 Urban Planning and Development Units: 4
- PPD 358 Urban and Regional Economics Units: 4
- PPD 361 Sustainable Communities, Policy and Planning Units: 4
- PPD 439 Housing and Community Development Units: 4
- RED 417 History of Planning and Development Units: 4

Total Units: 20

Urban Sustainable Planning Minor

The 20-unit minor in urban sustainable planning focuses on the application of public policy, urban planning and public management to the analysis and solution of urban problems. It draws upon the interdisciplinary faculty and programs of the Price School of Public Policy and includes foundational courses that introduce students to the nature of urban phenomena and the analysis and solution of urban problems. The minor also introduces students to the professional and academic fields of either urban planning and development or public policy and public management. In addition, based on their specific interests, students have the opportunity to explore in greater depth three areas and approaches of urban problem-solving. This minor is appropriate for students interested in expanding their understanding of the fields of urban planning and public policy and management as potential professional careers as well as increasing their comprehension of the analysis and solution of urban problems.

Required Core Courses (12 units)
- PPD 247 Urban Planning and Development Units: 4
- PPD 427L Geographic Information Systems and Planning Applications Units: 4
- RED 425 Designing Livable Communities Units: 4

Electives (8 units)
- PPD 227 Urban Planning and Development Units: 4
- PPD 358 Urban and Regional Economics Units: 4
- PPD 360 Urban Transportation Planning and Policy Units: 4
- PPD 361 Sustainable Communities, Policy and Planning Units: 4
- PPD 414 Community Health Policy and Planning Units: 4
- PPD 438 Local Economic Development Units: 4
- PPD 439 Housing and Community Development Units: 4
- RED 417 History of Planning and Development Units: 4

Master's Degree

Dollinger Master of Real Estate Development (MRED)

The Master of Real Estate Development program is a carefully integrated program that brings together the three main elements of real estate development: design, finance and policy. It is a one-year full-time or two-year evening executive program of study designed to provide students with the knowledge and skills they require to compete successfully in the development industry. The curriculum encompasses eight areas of study with which developers must be conversant, including real estate law, economics, finance, market analysis, negotiation, planning, architecture and engineering. Courses are taught by full-time faculty members from the Price School of Public Policy. In addition, practicing developers, lawyers, planners and other professionals make regular contributions to the course of study, helping students link learning to practice.

Curriculum Requirements

The program of graduate study for the professional degree requires successful completion of the core curriculum (36 units), elective courses (8 units) and a comprehensive examination. Students must complete a total of 44 units.

Core Curriculum

The core comprises 13 lecture-seminar courses that combine lectures, projects, case analyses, and exercises which allow students to experience all facets of the developer's tasks and problems. The integrative project, RED 575, provides problem solving exercises and the evaluation of actual development situations. Courses emphasize various design, regulatory and fiscal problems associated with urban development and the developer's role in improving development standards in the industry.

Core Courses
- PPD 500 Intersectoral Leadership Units: 2
- PPD 501a Economics for Policy, Planning and Development Units: 2
- RED 509 Market Analysis for Real Estate Units: 4
• RED 542 Finance of Real Estate Development Units: 3
• RED 544 Real Estate Capital Markets Units: 2
• RED 546 Applications of Real Estate Finance to Problems of Development Units: 3
• RED 547 Project Management and Construction Units: 2
• RED 551 The Approval Process Units: 4
• RED 562 Legal Issues in Real Estate Development Units: 4
• RED 573 Design History and Criticism Units: 2
• RED 574 Building Typologies Units: 2
• RED 575L Community Design and Site Planning Units: 2, 3, 4
• RED 598 Real Estate Product Development Units: 2, 3, 4

Additional Requirements
Eight units of elective course work are required for the Master of Real Estate Development. These courses may be taken in the schools of Public Policy, Architecture, Business, Law and the Department of Civil Engineering. Admission to some classes requires advanced prerequisites and is subject to availability and approval of the instructor.

Comprehensive Examination
Successful completion of a comprehensive written and oral examination is required of all students seeking the Master of Real Estate Development degree. The examination explicitly covers the core courses. It is normally administered late in the spring semester by a faculty committee appointed by the dean. Students who fail the examination once may take it again within one year. The examination may not be repeated more than once.

General Requirements
Residence and Course Load
The Master of Real Estate Development may be completed on either a full-time or part-time basis. Both options begin in the summer session in June. The full-time program requires 11 months of study. The evening executive option is completed over a two-year period. Students are also expected to participate fully in all extracurricular activities associated with the Master of Real Estate Development program, including the weekly speaker series.

Students who wish to take a leave of absence for a semester or longer must request it from the dean in writing; such leaves may be granted for up to one year.

Students must have an approved laptop computer as required by instructors and must demonstrate calculator and spreadsheet skills.

Time Limit
The time limit within which students in the program must complete the requirements for the Master of Real Estate Development is governed by the following regulations:
All requirements for the Master of Real Estate Development must be completed within five calendar years from the first course at USC applied toward the degree.

University regulations prohibit the acceptance of credits for courses taken toward a Master of Real Estate Development degree more than seven years after the date they were successfully completed.

Grade Point Average Requirement
While enrolled in the program, a student must maintain a grade point average of at least 3.0 for all courses taken toward the degree.

Probation and Disqualification
Any student with a cumulative grade point average of below 3.0 for all courses taken in the program will be placed on academic probation. A student may be disqualified to continue toward a graduate degree if the student has been on academic probation for two consecutive semesters. Whether or not on academic probation or warning, a student may be disqualified at any time from continuing in the program if the dean of the school, after consultation with the faculty, determines that the student is deficient in academic achievement or in another qualification required for the attainment of the Master of Real Estate Development degree.

Course Exemptions and Transfer of Credits
Courses taken toward other degree programs, if determined by the dean to be equivalent to courses in the curriculum, may be accepted for subject credit only. All students are required to complete 44 units while enrolled in the Master of Real Estate Development program. The acceptance of previous course work for subject credit will enable the student to take additional elective courses.

Health Administration (Executive MHA)
The Executive MHA Program offers clinical and management professionals an opportunity to advance their careers in health care and to more effectively improve health services within their communities. Mid- to senior-level professionals who have the ambition and potential to serve as industry leaders in the highly dynamic and competitive health care environment are encouraged to consider the Executive MHA degree. The Executive MHA is geared to those who have demonstrated capabilities, yet who will benefit from expanded skills and competencies that will enable them to lead.

Participants sharpen their business acumen by gaining exposure to and in-depth knowledge of the latest theories and the best in contemporary health management practice. A practical, problem-solving approach ensures that skills can immediately be applied on the job.

Requirements for Admission
Applicants for the Executive Master of Health Administration apply directly to the program. A minimum of five years of experience with progressively greater levels of responsibility in health care or a related field is required for entry into the Executive MHA program. Applicants must have earned a bachelor's degree from an accredited college or university. A minimum grade point average of 3.0 in undergraduate course work is required. Allowances may be made when justified by exceptional work experience and letters of recommendation.

Prerequisites
Accounting
A basic competence in accounting is required for the Executive MHA program. The accounting prerequisite must be satisfied before enrolling in HMGT 565 Managing the Organization's Financial Health. This prerequisite may be met in one of three ways: (1) completing the non-credit Executive MHA accounting workshop with a passing score; (2) demonstrating prior work experience or (3) completing prior course work at an accredited academic institution in accounting and finance.

Curriculum
The Executive MHA offers a hybrid online/in-residence executive education program that will prepare the graduate to meet career objectives. The program provides students with the flexibility to meet program requirements while maintaining full-time administrative positions, but also emphasizes the importance of an integrated approach to executive education. In addition to the synchronous and asynchronous learning modules included in each course, students will participate in five-day, in-residence sessions at the University Park Campus twice during the program. The first in-residence session will occur before the midpoint of the program, and the second session will be a capstone experience in the last semester of the program. The Executive MHA degree program does not require a supervised field placement (residency) in a health care organization.

The curriculum of the EMHA is organized around five themes: thriving in transformational times through innovative leadership; delivering cost-effective care in an era of value-based purchasing; providing efficient management and administration; developing and implementing strategies to enhance patient safety and quality of care; and demonstrating organizational and clinical
effectiveness through health information technology. These integrated themes and the associated content provide graduates with a comprehensive approach that expands their understanding of the key principles and applications necessary to function in a senior administrative leadership role.

Required Courses (36 Units)
- HMGT 512 Information Technology and Patient Engagement Units: 2
- HMGT 520 Leading People and Health Care Organizations Units: 4
- HMGT 540 Health Economics, Financing and Reimbursement Units: 4
- HMGT 565 Managing the Organization's Financial Health Units: 4
- HMGT 570 Strategic Management Units: 4
- HMGT 575 Managing and Improving Health Units: 4
- HMGT 600 Managing Risk Units: 2
- HMGT 601 Operations Management for Accountability Units: 4
- HMGT 602 Operational Efficiency Processes in Health Care Organizations Units: 2
- HMGT 603 Developing and Monitoring of Quality and Patient Safety Outcomes Units: 2
- PPD 511 Health Information Systems Units: 2
- PPD 518 Quality of Care Concepts Units: 2

Additional Requirements

Participants in the executive program gain practical skills. Emphasis is given to executive decision-making; development of sound planning, analytical and leadership capabilities; and strong interpersonal communication. More specifically, Executive MHA graduates will achieve advanced competency in disciplines which include economics and finance, health care regulation, business development, operations, strategic analysis and management, organizational design, quality and outcomes assessment and information management. Our graduates will model effective leadership and management in a rapidly evolving health care environment.

The core faculty is drawn from the USC Price School of Public Policy and includes senior, experienced faculty, along with nationally renowned academic specialists and health care experts. The opportunity to interact with health care’s leading thinkers, policymakers and practitioners is an essential component of the Executive MHA program.

The Executive MHA office is located in Ralph and Goldy Lewis Hall, Room 307, Price School of Public Policy, (213) 740-2984, email emha@usc.edu.

Health Administration (MHA)

The issues surrounding the delivery and financing of health services have an enormous impact on individuals and the communities in which we live. The health care industry now accounts for more than 15 percent of the U.S. economy. Fast-moving developments in technology, economics, ethics, finance, policy, management and globalization are driving changes in the health sector. Effective health leadership requires an understanding of governance systems and the complex interplay between the public, private and nonprofit sectors as well as the dual imperatives of both the clinical and business facets of health care delivery. As the health care system changes, career opportunities abound. The field has a tremendous need for leaders, managers and analysts — in hospitals, health plans, physician practices, health-related enterprises, community health organizations, social advocacy groups, and regulatory and legislative agencies.

The Price School of Public Policy's multidisciplinary nature, with degree programs in public policy, public administration, urban planning, and international policy, adds breadth that distinguishes USC's MHA degree, providing students with an understanding of the larger social context in which the health sector is embedded and how it intersects and interacts with other social policy issues. The Price School programs in health management and policy offer two degree options — the Master of Health Administration and the Executive Master of Health Administration. These degrees position the student to acquire the knowledge, skills and applied experience to shape health policy and lead health organizations. Requirements for the Executive MHA differ from those of the traditional MHA and are found on the program page.

The Master of Health Administration builds a solid foundation emphasizing managerial, analytical and public policy skills for those entering the health field, while the Executive Master of Health Administration deepens professional skills and permits those already working in the health field to advance to higher levels of leadership.

The MHA curriculum incorporates five major areas of competence: management/operations/leadership; health policy analysis; health finance; health information technology; and, health care quality. Each student will be exposed to these core areas and will specialize in two of them. The program prepares students for management positions in hospitals; managed care systems; physician groups; ambulatory care systems, government agencies concerned with health care policy, planning, quality assurance and regulation; and private firms involved in health care consulting, finance, performance assessment and evaluation.

Requirements for Admission

General

Applicants must have a bachelor's degree from an accredited college or university. Applicants may take courses on limited standing pending formal admission to the master's degree program.

Applicants with bachelor's degrees must have a minimum grade point average of 3.0 in their undergraduate course work and a score of at least 500 on the verbal and at least 500 on the quantitative sections of the GRE. Deviations from these minimums will be allowed when justified by exceptional work experience, letters of recommendation or improvement in academic performance during the third and fourth years of undergraduate study.

Prerequisites

Statistics

A basic competence in descriptive and inferential statistics is also required for the MHA program. The statistics prerequisite must be satisfied prior to enrollment. This prerequisite may be met in one of two ways: (1) entering students must have passed an undergraduate inferential statistics class, with a grade of "B" or better, at an approved university within three years of matriculation, or (2) completing PPD 502x Statistical Foundations for Public Management and Policy with a grade of "B" or better (this course credit may not count toward the MHA degree).

Limited Status Students (Preadmission)

Students taking courses who have not been admitted to the school are designated limited status students. These students may be waiting for part of their application package materials to arrive; or they may be investigating whether an MHA may be right for them.

To be considered for limited status reenrollment, interested students need to complete the Price School of Public Policy Limited Student Application for Enrollment form and submit official or unofficial copies of their transcripts from their bachelor's degree granting institution. Students with a 3.0 grade point average (A = 4.0) may enroll in up to 8 units of graduate courses in the Price School of Public Policy.

Price School of Public Policy Limited Student Application for Enrollment forms may be obtained from the Admissions Office, USC Price School of Public Policy, University of Southern California, RGL 111, Los Angeles, CA 90089-0626, telephone (213) 740-6842. Limited students may only enroll during the in-person registration period (the week before classes begin).

Limited status students may apply only 8 units of appropriate graduate work toward the MHA after admission. Units beyond these first 8 must be petitioned for through the school. Students
Certificate Program

Information regarding the Certificate Program in Health Management and Policy Programs can be found on the Graduate Certificates page.

Curriculum

Curriculum for the MHA includes 48 units (40 required units and 8 elective units). In addition, a supervised field placement (residency) in a health service organization is required. The MHA degree is designed to be completed in two years of full-time study, but can be extended for those who work while going to school. Evening classes and classes that meet in an intensive, workshop format of two to four sequential days of training are designed to accommodate working professionals.

Required Core (40 Units)

- PPD 506 Introduction to Microeconomics: Applications in Health Units: 2
- PPD 509 Problems and Issues in the Health Field Units: 4
- PPD 510a Financial Management of Health Services Units: 4
- PPD 511 Health Information Systems Units: 2
- PPD 512 Health Administration Residency Seminar Units: 2
- PPD 513 Legal Issues in Health Care Delivery Units: 2
- PPD 514 Economic Concepts Applied to Health Units: 4
- PPD 515 Strategic Management of Health Organizations Units: 4
- PPD 516 Financial Accounting for Health Care Organizations Units: 4
- PPD 517 Concepts and Practices in Managing Health Care Organizations Units: 2
- PPD 518 Quality of Care Concepts Units: 2
- PPD 545 Public and Nonprofit Organizational Behavior Units: 4
- PPD 558 Multivariate Statistical Analysis Units: 4

Electives

In addition to the 40 required units, students are required to take 8 units of electives. Elective courses will be taken in two of the five specialization areas: management/operations/leadership; health policy analysis; health finance; health information technology; and health care quality. The two specializations will be selected by the student with the advice and written consent of the MHA program director and faculty advisor.

Residency

The MHA student is required to complete a 1,000 hour residency at a health care organization, generally during the second year of study. This residency may be reduced, but can include at least 500 hours, depending on the health care experience of the student. The residency is designed to provide the student with practical administrative experience that complements program course work.

International Public Policy and Management (IPPM)

The International Public Policy and Management (IPPM) Program offers a Master of International Public Policy and Management (IPPM). The degree is designed for managers, planners and analysts involved in social sector programs who want to strengthen their management skills and further develop their policy analysis capabilities. For professionals working in the social sectors, IPPM offers an opportunity to deepen their conceptual understanding of the forces driving change in their sectors and to develop an analytical approach for accessing and reshaping social policy. The program is well-suited for mid-career professionals working in the social sectors, such as physicians, nurses and pharmacists in the health professions; educators and administrators in the teaching professions; government regulators, managers and staff; community organizers, aid workers and others working in the NGO sector; and reporters and others in the news professions interested in covering social issues.

This program is specifically designed for international students and U.S. students who wish to work in international settings, including the Pacific Rim, Latin America and countries in other regions with evolving social systems.

Students are required to complete a minimum of 32 units. All students must fulfill core requirements (18 units) in fundamental policy analysis and management disciplines and an additional 14 units in an area of concentration chosen by the student. The core requirements include: PPD 501a Economics for Policy, Planning and Development; PPD 542 Policy and Program Evaluation; PPD 569 Applied International Policy Analysis and Management Project; PPD 570 Applied Statistics for Planning, Policy and Management; and PPD 571 International Public Policy and Management Seminar.

Students select an area of concentration in which they complete a set of recommended elective courses. Each concentration allows students to pursue in depth one or more areas of particular relevance to their career goals. The concentration areas enable students in the inter disciplinary IPPM program to establish a second “home” in one of the school’s programs, such as health administration or urban planning. Students are required to consult with IPPM faculty advisers to choose elective courses from a recommended list of courses relevant to the IPPM degree.

Through the integrated curriculum, participants gain practical skills, which are developed within an appropriate conceptual context. Many of the courses and applied projects integrate examples and data from the student’s home countries. Program graduates will have achieved advanced competency in disciplines that include public sector economics, applied methods for public policy analysis, evaluation and management.

Core faculty are drawn from the Price School of Public Policy and include senior, experienced faculty along with leading practitioners and experts in applied fields such as community development, international trade policy, health care policy, and so forth. In addition to the participation of distinguished visiting scholars as guest lecturers in class sessions, the program features an international seminar on public policy and management with guest lectures by policy makers. The opportunity to interact with leading scholars, policy makers, and practitioners from the United States and abroad is an essential component of the program.

The program begins in mid-June with intensive English language workshops and the course in applied statistics. The language workshop can be waived for students with 250+ computer-based TOEFL scores or 600+ paper-based TOEFL scores, or a score of 6.5 on the IELTS exam with no less than a score of 6 on each band score. In the fall semester, international students transition into the regular program consisting of required courses and electives in their chosen concentration area. Some international students may be required to enroll in additional English language workshops depending on how they score on required English exams. Most students can expect to complete the program in 13 months. The intensive nature of the program is designed for full-time students who take a leave from work while enrolled in the program. This approach minimizes the amount of time that professionals must be away from their full-time careers to pursue an advanced degree.

Applicants should have at least a bachelor’s degree from an accredited university and three to seven years of significant professional experience. The IPPM Program office is located in the Price School of Public Policy, Von KleinSmid Center, Room 253, phone (213) 740-0547, fax (213) 821-1331, email ippm@usc.edu.

Leadership (Executive ML)

The Executive Master of Leadership Program offers professionals from a variety of fields including public administration, public policy, planning, law enforcement, transportation and other public, nonprofit and business organizations, with at least five years of professional experience, the opportunity to build leadership skills at five levels: individual,
Requirements for Admission

Applicants for the Executive Master of Leadership apply directly to the program. A minimum of five years of experience with progressively greater levels of responsibility is required for entry into the program.

Candidates for admission must have earned a bachelor's degree from an accredited college or university with a minimum 3.0 grade point average. Exceptions to the minimum GPA requirement may be made when justified by exceptional work experience and letters of recommendation.

Applicants must submit a standard USC graduate application and fee along with official transcripts from all undergraduate and graduate institutions attended. Letters of recommendation, a current resume, an essay and an interview will also be required.

Degree Requirements

Students are required to complete 28 units of graduate work — 16 units of required core courses and 12 units of electives.

Required Core Courses (16 Units)

- PPD 640 Leadership Foundations: Competencies and Core Values Units: 4
- PPD 641 Leading Individuals, Groups and Teams Units: 4
- PPD 642 Strategic Leadership of Organizations Units: 4
- PPD 643 Leading Transformations Across Sectors: Integrative Seminar Units: 4

Electives

In addition to these 16 required units, students are required to take 12 units of electives.

Elective courses will be selected in consultation with the faculty adviser based on the student's individual learning/development plan. Students will choose these electives in order to concentrate in a particular area of study. The following are examples of concentrations that are available: public management, nonprofit policy and management, urban planning, transportation, public policy and political management. The Price School of Public Policy offers a wide range of electives to students each semester. In addition to these 16 required units, students are required to take 12 units of electives. Elective courses will be selected in consultation with the faculty adviser based on the student's individual learning/development plan. Students will choose these electives in order to concentrate in a particular area of study. The following are examples of concentrations that are available: public management, nonprofit policy and management, urban planning, transportation, public policy and political management. The Price School of Public Policy offers a wide range of electives to students each semester.

Master of Public Administration with Seoul National University

This graduate program offers students a unique opportunity to develop skills and expertise in the field of public administration from a U.S. and Korean perspective. The program is designed and offered in partnership with Seoul National University (SNU). Students spend a year at USC Price and a year at Seoul National University and earn the MPA degree.

Admissions

Students wishing to pursue the dual MPA degree will have to apply to both SNU GSPA and USC Price separately and fulfill both institutions' admissions criteria independently. Please see the

Price Website for further information.

Sample Program - Price Students

Year One - USC (24 Units)

- PPD 503 Economics for Public Policy Units: 4 or
- PPD 540 Fundamentals of Public Administration Units: 4
- PPD 504 Essential Statistics for Public Management Units: 2
- PPDE 505 Professional Workshop in Public Administration Units: 2
- PPD 541 Public Financial Management and Budgeting Units: 4
- PPD 545 Public and Nonprofit Organizational Behavior Units: 4
- Electives: one 4-unit management elective and one 4-unit analytics elective

Year Two - SNU (19 Units)

M2856.000100* Theories of Global Public Administration, or M2856.000600 Economics and Public Administration Units: 3

Electives Units: 6

PPD 546 ** Capstone in Public Administration Units: 4

*Price students would take either PPD 540 or PPD 503 in their first year, and then would take the equivalent SNU GSPA course for the other one in their second year.

**The capstone course is taken in the last semester at Price.

Sample Program - SNU Students

Year One - SNU (18 Units)

M2856.000100 Theories of Global Public Administration Units: 3
M2856.000300 Social Research Methods of Public Administration Units: 3
Electives Units: 6

Independent study (thesis preparation) Units: 6

Year Two - USC (24 Units)

- PPD 503 Economics for Public Policy Units: 4 or
- PPD 540 Fundamentals of Public Administration Units: 4
- PPDE 505 Professional Workshop in Public Administration Units: 2
- PPD 541 Public Financial Management and Budgeting Units: 4
- PPD 545 Public and Nonprofit Organizational Behavior Units: 4
- Electives: including one management elective and one analytic elective

Variations from the above:

Price students could take both the PPD 540 and PPD 503 courses in either their first year or their second year, instead of one of the two in each year.

GSPA students could take Economics and Public Administration in their first year rather than in their second year at Price, and they could take PPD 540 in their second year at Price rather than in their first year.

Price students could take Social Research Methods of Public Administration at GSPA in their second year instead of their analytic elective at USC in their first year, and GSPA students could take Policy and Program Evaluation (PPD 542) at Price in their second year instead of Social Research Methods of Public Administration in their first year.

Nonprofit Leadership and Management (MNLM)

The Master of Nonprofit Leadership and Management (MNLM) program is designed to prepare students to distinguish themselves as leaders in the nonprofit sector whether managing nonprofits, advocating for social change or developing and implementing innovation solutions to social problems.

Degree Requirements

Students are required to complete 40 units of graduate work, with 30 units of core organized under three areas: theory and context, leadership and management, and analytical skills and 10 elective
units based on their interests.

**Required Core Courses**
- PPD 503 Economics for Public Policy Units: 4
- PPD 542 Policy and Program Evaluation Units: 4 *  
- PPD 675 Nonprofit Management and Leadership Units: 4
- PPD 689 The Nonprofit Sector and Philanthropy Units: 4  
- PPDE 645 Financial Management of Nonprofit Organizations Units: 4  
- PPDE 680 Board Governance and Leadership Units: 2
- PPDE 681 Fund Development for Nonprofit Organizations Units: 4  
- PPDE 682 Capstone in Nonprofit Leadership and Management Units: 4  
  *PPD 502 is a prerequisite for PPD 542.

**Electives**  
Students complete 10 units of electives based on their interest and in consultation with their adviser.

**Planning and Development Studies (MPDS)**  
The Master of Planning and Development Studies degree is designed for mid-career professionals in planning, development or related disciplines who desire to update and/or redirect their professional skills and careers. The program is very flexible, allowing students to pursue areas of expertise that they find valuable in their present or future careers. Entering students must have a minimum of five years of planning, development or related professional work experience.

**Curriculum Requirements**  
The Master of Planning and Development Studies program requires completion of 28 units. Basic degree requirements consist of two core courses; 16 units in a concentration area approved by an adviser; and an integrative seminar course during which the student completes a written and oral comprehensive examination.

**Required Courses**
- PPD 611 Policy Issues in Planning and Development Units: 4  
- PPD 612 Research and Analytical Techniques Units: 4
- PPD 638 Integrative Seminar Units: 4 (normally in the last semester in conjunction with the comprehensive examination)

**Concentration Area(s)**
Students elect a concentration area from one of three already defined or, with prior approval by an adviser, design a concentration from Price School of Public Policy courses and USC graduate courses. A minimum of eight units must be Price School of Public Policy courses. The three defined concentration areas are:

**Community Economic Development**
Select 16 units from the following courses:
- PPD 618 Housing Facilities and Community Development Units: 4
- PPD 623 Community Development and Site Planning Units: 4  
- PPD 624 Local Economic Development: Theory and Finance Units: 4
- PPD 625 Planning and Economic Development Finance Units: 4
- PPD 626 Public/Private and Mixed Enterprises Planning Units: 2, 4
- PPDE 631 Geographic Information Systems for Policy, Planning, and Development Units: 2  
- RED 509 Market Analysis for Real Estate Units: 4
- RED 542 Finance of Real Estate Development Units: 3
- RED 546 Applications of Real Estate Finance to Problems of Development Units: 3

**Environmental Policy and Planning**
Select 16 units from the following courses:
- PLUS 600 Environmental Goods in Planning and Development Units: 4
- PLUS 633 Seminar in Comparative Housing Policy and Urban Planning Programs Units: 4  
- PPD 531L Planning Studio Units: 4
- PPD 542 Policy and Program Evaluation Units: 4
- PPD 619 Smart Growth and Urban Sprawl: Policy Debates and Planning Solutions Units: 4  
- PPD 620 General Plans Units: 4
- PPD 621 Environmental Impacts Units: 4
- PPD 622 Seminar in Urban Development Units: 4
- PPD 631 Geographic Information Systems for Policy, Planning, and Development Units: 2
- PPD 634 Institutional and Policy Issues in Transportation Units: 4
- PPD 712 Seminar in Public Policy Units: 4

**International Planning and Development**
Select 16 units from the following courses:
- PLUS 631 Seminar in Physical Planning and Design in Developing Countries Units: 4
- PLUS 632 National Urban Policy in Developing Countries Units: 4
- PLUS 633 Seminar in Comparative Housing Policy and Urban Planning Programs Units: 4
- PLUS 635 Urban Finance Units: 4
- PLUS 640 International Urban Development Units: 4
- PPD 626 Public/Private and Mixed Enterprises Planning Units: 2, 4
- RED 583 International Development Opportunities Units: 2
- RED 585 Comparative International Development Workshop Units: 2, 3, 4

**Integrative Seminar and Comprehensive Examination**
Successful completion of a comprehensive examination is required of all students seeking the Master of Planning and Development Studies degree. The integrative seminar course (PPD 638) and comprehensive exam should be taken during the semester of intended graduation. During the seminar class, students identify a practice-oriented problem covering the core courses and concentration area, which ideally is sponsored by a planning and/or development office or firm. The student will: (1) prepare a professional-quality document; (2) present the solution to a faculty committee with invited sponsor guests; and (3) have an oral defense. Students who fail the examination may take it again within one year, but it may only be repeated once.

**General Requirements**

**Residence and Course Load**
The Master of Planning and Development Studies may be completed in one academic year of 12 units in the fall and spring semesters and the four-unit integrative seminar/comprehensive examination the following summer semester.
At least 18 units of graduate study must be done in residence at the University Park Campus, the USC State Capital Center or at an approved off-campus study center.

**Time Limit**
Students in the program must complete all requirements for the Master of Planning and Development Studies within five calendar years from the beginning of the semester in which the student was admitted to the program.

**Grade Point Average Requirement**
While enrolled in the program, a student must maintain a grade point average of at least 3.0 (A = 4.0) for all courses taken toward the degree.

**Probation and Disqualification**
Any student with a cumulative grade point average below 3.0 for all courses taken in the program will be placed on academic probation. A student whose semester grade point average is below 3.0, but whose cumulative grade point average is 3.0 or higher, will be placed on warning.
A student may be disqualified to continue toward a graduate degree if the student has been on academic probation for two consecutive semesters. Whether or not on academic probation or warning, a student may be disqualified at any time from continuing in the program if the dean of the school, after consultation with the faculty, determines the student is deficient in any degree requirement.

Course Exemption and Transfer of Credits
Credit for graduate work may be transferred from approved graduate schools as determined by the USC Degree Progress Department in the Office of Academic Records and Registrar on recommendation of the dean of the school. Not more than four units of graduate work, with grades of B or better, can be transferred for credit toward the Master of Planning and Development Studies degree.

The following courses, or their equivalents, may not normally be transferred for unit credit from other institutions: PPD 611, PPD 612 and PPD 638. Undergraduate work may not be transferred into the degree program for unit credit.

Some applicants for admission to the school will have been engaged in work in planning, development or closely related activities. Although this experience should be beneficial to the students involved, it may not be considered equivalent to academic education.

Public Administration (MPA)
Admission
The Master of Public Administration programs are under the jurisdiction of the Price School of Public Policy. All admissions decisions are made by the school, following guidelines set by the university. See the Admission section of this catalogue.

All questions about the programs and all materials required for admission should be submitted to: MPA Programs, Admissions Office, RGL 111, University Park, University of Southern California, Los Angeles, CA 90089-0626.

Admission to each of these programs is determined by the faculty and admissions committees connected with those areas. Application packages should be sent directly to the program office.

Applications
The admission decision is made using criteria which include verification that the applicant has completed a bachelor's degree from an accredited college, has maintained a B average in undergraduate course work and has earned an acceptable score on the verbal and quantitative portions of the Graduate Record Examinations (GRE) or the Graduate Management Admissions Test (GMAT). Other elements of the applicant's educational and experiential background are also evaluated. International students whose native language is not English must also submit a Test of English as a Foreign Language (TOEFL) score.

Each candidate should submit the following to the school: (1) official transcripts of all previous college and university work, showing an awarded degree where appropriate; (2) copies of GRE or GMAT scores; (3) an essay answering questions on the admission questionnaire provided by the school; (4) an up-to-date resume which includes academic and professional accomplishments; (5) three or more letters of evaluation from previous instructors and from professional associates who can attest to the applicant's potential; (6) completed USC Graduate Admission Application, along with the nonrefundable processing fee; and (7) completed Price School of Public Policy Supplemental Graduate Application.

International applicants may be asked to supply additional information. See the Graduate Admission section of this catalogue.

Deadlines
Applications for admission are evaluated monthly. Those students who are also applying for financial aid, or who must meet other deadlines for admission, should submit application materials early enough to allow the admissions decision to be made in advance of those other deadlines.

The admissions process generally takes about four to six weeks after all necessary materials have been submitted.

Pre-Service/In-Service Designation
Most MPA students are classified as pre-service or in-service students at the time of admission. Pre-service students are those who enter the program with less than two years of professional work experience. In addition to course work, pre-service students complete an internship. Students pursuing a dual-degree program are not classified as pre-service or in-service. Appeals for reclassification of this designation must be submitted during the first semester of enrollment.

International Students
Students applying for graduate programs should send applications and appropriate documents to the MPA Programs Admissions Office, which processes all such applications.

Admission
A student is accepted for admission only for the semester indicated on the letter of admission. If the student desires to enter at another time, or if the student cannot arrive on campus in time for the semester in which he or she was admitted, the student must contact the MPA Programs Admissions Office in writing. That office will contact the Office of International Admissions.

Students who do not enroll for the semester indicated on the letter of admission cannot be guaranteed admission to a later session. They will need to work with the MPA Programs Admissions Office to determine procedures to follow.

Registration Requirements
International students on student visas must be registered as full-time students as arranged by the Office of International Services. Doctoral students must carry a load of at least 6 units to be considered full-time students. A full-time graduate load is eight units. Such students are not eligible to be considered students without formal registration and may be in violation of immigration laws when not properly registered.

International students who have questions about registration requirements should contact the Office of Recruitment and Student Affairs.

Admission Status
MPA applicants may be permitted to take courses before the admission process is completed or they may be admitted before certain conditions have been met; each student must, however, attain regular status (standing) admission to the school prior to or upon completion of 8 graduate units.

Limited Status Students (Preadmission)
Students taking courses who have not been admitted to the school are designated limited status students. These students may be taking courses to meet prerequisites; they may be waiting for part of their application package materials to arrive; or they may be investigating whether an MPA is the best choice for them.

To be considered for limited status enrollment, interested students need to complete the Price School of Public Policy Limited Student Application for Enrollment form and submit official or unofficial copies of their transcripts from their bachelor's degree granting institution. Students with a 3.0 grade point average (A = 4.0) may enroll in up to 12 units of graduate courses in the Price School of Public Policy.

Limited status students may only enroll during the in-person registration period (the week before classes begin).

Limited status students may apply only 12 units of appropriate graduate work toward the MPA after admission. Units beyond
PhD Candidates
PhD students who pass the qualifying examinations and complete the MPA course requirements or their equivalent during their course work at USC may, with the recommendation of the coordinator of the MPA program, apply for and receive the MPA degree.

MPA Curriculum
The MPA course requirements are designed to address current and future professional competencies for accomplishment; to establish a sequence of basic required courses; and to maximize student choice and depth in specialized studies. The curriculum requires 40 units for completion (41 for pre-service students). Pre-service students, that is, those who have less than 25 months’ employment experience in a professional level position, are also required to take an internship that includes a one-unit seminar.

Core Courses
The core courses cluster along two themes: political institutions and organizations and analytics for public administration.

Institutions and Organizations (10 units)
- PPD 540 Fundamentals of Public Administration Units: 4
- PPD 545 Public and Nonprofit Organizational Behavior Units: 4
- PPDE 505 Professional Workshop in Public Administration Units: 2 or
- PPDE 506 Professional Residency in Public Administration Units: 1 and
- PPDE 507 Capstone Residency in Public Administration Units: 1

Analytics (10 units)
- PPD 503 Economics for Public Policy Units: 4
- PPD 504 Essential Statistics for Public Management Units: 2
- PPD 541 Public Financial Management and Budgeting Units: 4 or
- PPDE 645 Financial Management of Nonprofit Organizations Units: 4

Electives (16 units)
Students will pursue 16 units of electives, 8 of which are chosen from a list of courses that extend their competencies in institutional/organizational management and analytic reasoning. They may take these from the Price School, or select related courses from other schools at USC. They are encouraged to cluster their electives around particular areas of interest while also maximizing opportunities to obtain graduate certificates.

Students who are pursuing a certificate program may petition to substitute certificate-related course(s) for the analytic and/or management elective with approval by the director of the program.

Analytic Elective (4 units)
Students will select one 4-unit elective course from the following list:
- PPD 542 Policy and Program Evaluation Units: 4
- PPD 554 Foundations of Policy Analysis Units: 4
- PPD 557 Modeling and Operations Research Units: 4
- PPD 558 Multivariate Statistical Analysis Units: 4

Management Elective (4 units)
Students will select one 4-unit elective course from the following list:
- PPD 672 Collaborative Governance Units: 4
- PPD 673 Strategic Planning in the Public Sector Units: 4
- PPDE 648 Performance Management Units: 4

Capstone
Students complete the capstone which integrates the competencies attained in the core and electives courses as students complete a policy or management analysis for an organizational client.
- PPD 546 Capstone in Public Administration Units: 4

Internship
Pre-service students (those with fewer than 25 months employment in a professional level position) are required to complete at least 300 hours of an internship and an internship seminar (PPD 543). MPA students may enroll in the internship seminar during their first semester. Students are encouraged but not required to complete their internship hours in conjunction with the internship seminar.

Thesis Option
Thesis option, PPD 594a Master’s Thesis (2 units), PPD 594b Master’s Thesis (4 units), may be taken as part of the elective category. Information regarding the thesis contract is available from the MPA director. All theses and dissertations submitted in fulfillment of requirements for graduate degrees must conform to university regulations with regard to form and method of preparation.

Additional Requirements
PPD 540 must be taken in the first semester or within the first 12 units and PPD 546 must be taken in the final semester or the last 12 units of the student’s program.

Public Policy (MPP)
The Master of Public Policy (MPP) program is designed to prepare students for careers as professional policy analysts. Through an interdisciplinary curriculum and real-world experience, students gain an understanding of the policy process, and develop the capacity to formulate, analyze and implement public policy.

The MPP degree is offered at the University Park Campus only.

Requirements for Admission
Candidates for admission must have maintained a minimum B (3.0) average during their undergraduate degree work and attain a score of at least 500 on the verbal and at least 500 on the quantitative sections of the GRE. Exceptions to these requirements are allowed if justified by outstanding work experience, letters of recommendation, or demonstrated improvement in academic performance during undergraduate studies.

Applicants must have a bachelor's degree from an accredited institution and have a basic competence in descriptive and inferential statistics. This prerequisite may be met in one of two ways: (1) entering students must have passed an undergraduate inferential statistics class, with a grade of “B” or better, at an approved university within three years of matriculation, and must pass the MPP lab associated with PPD 554 Foundations of Policy Analysis, or (2) take PPD 502x Statistical Foundations for Public Management and Policy and complete with a grade of “B” or better. If students select to take PPD 502, the units associated with this class may not be used toward the MPP degree.

Degree Requirements
Students are required to complete 48 units of graduate work, with 24 units of core and 24 elective units divided between management, analytic and specialization areas.

Required Core Courses
- PPD 503 Economics for Public Policy Units: 4
- PPD 554 Foundations of Policy Analysis Units: 4
- PPD 555 Public Policy Formulation and Implementation Units: 4
- PPDE 558 Multivariate Statistical Analysis Units: 4
- PPD 560 Methods for Policy Analysis Units: 4
- PPD 561a Policy Analysis Practicum Units: 1
- PPD 561b Policy Analysis Practicum Units: 3

Note:
*During a student’s final semester of the program, the Policy Analysis Practicum is required as a component of the program’s 48 units of course work. The practicum is an opportunity for
students to apply their analytic skills to a current problem for an actual client. Admission to the practicum is granted on the approval of the MPP director, and normally requires prior completion of most required courses.

Electives
Students complete 4 units of management elective, 8 units of analytic elective and 12 units of specialization elective. These electives typically are selected to support specialization in a substantive policy area (e.g., environment or community economic development).

Management Elective (Choose 4 Units)
- PPD 541 Public Financial Management and Budgeting Units: 4
- PPD 545 Public and Nonprofit Organizational Behavior Units: 4
- PPD 654 Information Technology Management in the Public Sector Units: 4
- PPD 656 Political Management: Theory and Applied Techniques Units: 4
- PPD 662 Intergovernmental Management: State Perspective Units: 4
- PPD 673 Strategic Planning in the Public Sector Units: 4
- PPD 675 Nonprofit Management and Leadership Units: 4
- PPD 690 Alternative Dispute Resolution Units: 4
- PPDE 645 Financial Management of Nonprofit Organizations Units: 4

Analytic Elective (Choose 6-8* Units)
- COMM 650 Survey Construction and Validation Units: 4
- PPD 542 Policy and Program Evaluation Units: 4
- PPD 587 Risk Analysis Units: 4
- PPD 636 Urban Spatial Ethnography and Critical Cartography Units: 4
- PPD 647 Finance of the Public Sector Units: 4
- PPDE 660 Environmental Policy Design and Analysis Units: 4
- PPDE 661 Methods for Equity Analysis Units: 4
- PPDE 665 Economic Impact Analysis: Methods and Applications Units: 2
- PPDE 668 Applied Econometrics for Program Evaluation Units: 4
- PPDE 671 Economic Analysis of Education Policy Units: 4
- SSCI 581 Concepts for Spatial Thinking Units: 4

Note:
*Students who select PPDE 665 to meet their analytic requirement will add the remaining 2 units to the 12 specialization units in consultation with their academic adviser.

Additional Requirements
In addition, students take 12-14 units of additional electives selected by the students with the advice of the academic adviser or director of the MPP program. These electives typically are taken in an area of policy specialization, such as: community economic development, education policy, environmental policy, health, infrastructure, international policy and development, media and communications, philanthropy and nonprofit, and transportation. Students may not take more than 12 units outside of the Price School of Public Policy without written consent of the director of the MPP program.

Public Policy Data Science (MS)
data.science.usc.edu

Program Director (Data Science): Yolanda Gil, PhD
Program Co-Director (Public Policy): T.J. McCarthy, PhD

Big data is revolutionizing the way many agencies operate, particularly with respect to governance transparency and accountability, law enforcement, transportation and housing policy. Big data is changing strategies for crime-fighting, defense, national intelligence, social programs, and finance and operations of agencies. The Master of Science in Public Policy Data Science is a multi-disciplinary program offered jointly between the USC Sol Price School of Public Policy and the Data Science Program in the department of Computer Science at the Viterbi School of Engineering, and will provide a curriculum that will make degree recipients appealing to the employers of the 21st century.

Statistics Prerequisite
Applicants must have a bachelor's degree from an accredited institution and have a basic competence in descriptive and inferential statistics. This prerequisite may be met in one of two ways: (1) entering students must have passed an undergraduate inferential statistics class, with a grade of "B" or better, at a Price school-approved university within three years of matriculation, and must pass the MPP lab associated with PPD 554 Foundations of Policy Analysis, or (2) take PPD 502x Statistical Foundations for Public Management and Policy and complete with a grade of "B" or better. If students select to take PPD 502x, the units associated with this class may not be used toward the Public Policy Data Science degree.

Public Policy Courses

Core Courses (12 units):
- PPD 503 Economics for Public Policy Units: 4
- PPD 554 Foundations of Policy Analysis Units: 4
- PPD 558 Multivariate Statistical Analysis Units: 4

Elective Course
Select one from the following:
- PPD 555 Public Policy Formulation and Implementation Units: 4
- PPD 560 Methods for Policy Analysis Units: 4
- PPDE 668 Applied Econometrics for Program Evaluation Units: 4

Data Science Courses

Core Courses (12 units):
- DSCI 510 Principles of Programming for Data Science Units: 4
- DSCI 549 Introduction to Computational Thinking and Data Science Units: 4
- DSCI 559 Data Science at Scale Units: 4

Note:
Students with a computer science background will have the option of replacing DSCI 510, DSCI 549, and DSCI 550 with DSCI 551, DSCI 552, and DSCI 553.

Elective Course
Select one from the following:
- DSCI 551 Foundations of Data Management Units: 4
- DSCI 552 Machine Learning for Data Science Units: 4
- DSCI 553 Foundations and Applications of Data Mining Units: 4
- DSCI 554 Data Visualization Units: 4
- DSCI 555 Interaction Design and Usability Testing Units: 4
- DSCI 556 User Experience Design and Strategy Units: 4

Capstone
Students will complete a capstone experience and project through enrollment in DSCI 560.
- DSCI 560 Data Science Professional Practicum Units: 4

Urban Planning (Executive MUP Online)
The USC Price Executive Master of Urban Planning (EMUP) degree is built to respond to the needs of the professionals who are rising leaders in urban planning, urban policy and development. The curriculum is designed to train professionals committed to crossing boundaries, and to educating persons who seek synergy between the public objectives and business aspects of planning.

The core of the EMUP revolves around the interlocking themes of urban economics, citizen participation and governance, urban design and site analysis, and data analytics and visualization. The degree does not train narrow experts in any of those four areas. Instead, the degree trains professionals who will be leaders in fields where the interplay of those themes is essential to private
sector development, public sector planning and policy, and the goals of non-profit entities.

The target audience is experienced professionals in fields allied with urban planning and public policymaking, where place is a central feature: community development and redevelopment, real estate development, architecture, urban design, law, public policy, economic development, and infrastructure.

The degree is designed to be completed by working professionals in four semesters of part-time study. The degree will be 24 units, taken over four semesters. Each semester is 5 units of online course work. There are also two four-day in-person intensives.

For admission information, please go to the USC Price Website.

Required Courses (24 Units)

Students will take 12 courses for this program.

- PLUS 660 Economics of a Productive Development - A Public/Private Perspective Units: 3
- PLUS 661 Politics and Process of Urban Development Units: 2
- PLUS 662 Planning and Development Case Study Units: 1
- PLUS 663 Designing Livable Environments I Units: 1
- PLUS 664 Urban Political Economy and Urban Development Units: 2
- PLUS 665 Economics for a Productive City Units: 3
- PLUS 667 Effective Engagement with Stakeholders Units: 3
- PLUS 668 Big Data for Planning and Development Units: 2
- PLUS 669 Designing Livable Environments II Units: 1
- PLUS 670 Communicating Data for Planning and Development Units: 1
- PLUS 671 Leading a Collaborative City Units: 4
- PLUS 672 Integrating Concepts for Action Units: 1

Urban Planning (MUP)

The Master of Urban Planning (MUP) degree trains students to be leaders and innovators in all aspects of urban planning. Students study the traditional elements of urban planning while being immersed in innovative and emerging themes. Students will study normative approaches to social justice, equity, and inclusion in planning practice, data resources, and visualization techniques that are transforming cities, and methods for crafting place-based approaches to societies most pressing issues.

Planners are engaged in evaluating and guiding community and urban development at geographic scales, ranging from the local American neighborhood to the global village utilizing the public, private and nonprofit sectors. Cities worldwide are being transformed by technology, mass movements of populations and demographic transitions, environmental challenge, rapid economic change, and questions of distribution and justice. Planners play a central role as analysts, conveners, forward-thinkers, and innovators.

The MUP curriculum provides a core of knowledge around five themes – (1) the interaction of planning theory and history with normative questions of justice, (2) the use of research, data, and evidence to inform the public good, (3) the economics of urban areas, including the economics of environmental externalities and cost benefit analysis, (4) the legal context for planning, and (5) the built environment and urban design. In all cases, students are immersed in study that includes comparative approaches and examples from international examples, training students to be globally adept. A goal of the MUP curriculum is to prepare planners to practice anywhere in the world.

The Planning Accreditation Board of the American Planning Association and the Association of Collegiate Schools of Planning accredit the MUP program.

All persons pursuing the MUP will complete core courses which present basic theories, techniques and methods. Concentrations are available in six areas: arts and culture; design of the built environment; economic development; environmental planning and analysis; housing and real estate development; and mobility and transportation planning. A concentration in any of these areas qualifies graduates for a wide range of private, public and nonprofit sector careers with government agencies, consulting firms, corporations, utilities, international technical assistance programs, nonprofit and special interest organizations and joint public-private ventures.

Core Curriculum (16 units):

- PPD 522 Planning Theory and History for a Just Society Units: 4
- PPD 523 Urban and International Development Units: 4
- PPD 528 Physical Planning: Urban and Community Design Units: 2
- PPD 529 Planning Law and Legal Frameworks of Planning Units: 2
- PPD 534 Data, Evidence, and Communication of the Public Good Units: 4

Concentrations (16 units)

There are six concentrations available in the Master of Urban Planning program. Each concentration has a required gateway and method course for 8 units and students select 8 units of concentration electives.

Arts and Culture Concentration

In post-industrial societies, arts and culture play an increasingly important role economically, socially, and environmentally. In Arts and Culture Planning students will prepare for positions in cultural affairs offices, nonprofit advocacy and program providers, economic development organizations, and political offices. Students will consider such concepts as cultural economy, creative placekeeping and placemaking, and cultural heritage as they learn to assess and spatially analyze community dynamics and work with disparate types of art interventions with those skills related to community engagement and improvement.

Gateway Course:
- PPDE 641 Art and the City Units: 4

Methods Course:
- PPDE 636 Urban Spatial Ethnography and Critical Cartography Units: 4

Concentration Electives (8 units):

- ARCH 549 Fundamentals of Heritage Conservation Units: 3
- ARCH 555 Global Perspectives in Heritage Conservation Units: 2
- ARCH 585 Visual Storytelling and Entrepreneurship in Media Units: 2
- ARTL 502 Issues in the Arts and the Contemporary World Units: 2
- ARTL 504 Arts and the Community: Current Practice and New Visions Units: 2
- PPD 623 Community Development and Site Planning Units: 4
- PPDE 631 Public Space: Theory, Policy, and Design Units: 4
- PPDE 633 Communicating City Design: Positions and Representations Units: 2
- PPDE 638 Race, Arts, and Placemaking Units: 4

Design of the Built Environment Concentration

In contemporary settings, planning and construction typically do not begin with a blank slate. Rather, new structures are inserted into an existing built environment, which must be respected for its historical heritage and its contributions to the new. Design of the Built Environment offers students the opportunity to prepare for practice in urban design as well as for community planners addressing issues of health and environmental justice through design. Students will acquire skills to assess, plan, and design spaces using sophisticated methods as well as the ability to spatially analyze stressors within the built environment that inhibit residents’ quality of life.

Gateway Course:
- PPD 644 Shaping the Built Environment Units: 4

Methods Course:
- PPD 627 Design Skills for Urban Planners Units: 4
Concentration Electives (8 units):
• ARCH 549 Fundamentals of Heritage Conservation Units: 3 units
• ARCH 550 Heritage Conservation Policy and Planning Units: 3 units
• PPDE 530 Historical Analysis of Urban Form and Planning Practice Units: 2 units
• PPD 615 Comparative Urbanization, Development, and Inequality Units: 4 units
• PPD 618 Housing Facilities and Community Development Units: 4 units
• PPD 619 Smart Growth and Urban Sprawl: Policy Debates and Planning Solutions Units: 4 units
• PPD 623 Community Development and Site Planning Units: 4 units
• PPD 631 Geographic Information Systems for Policy, Planning, and Development Units: 2 units
• PPDE 631 Public Space: Theory, Policy, and Design Units: 4 units
• PPDE 635 Housing and Land Use in Rapidly Urbanizing Regions Units: 4 units
• PPDE 644 Land Use and Transportation Planning Units: 4 units

Environmental Planning and Analysis Concentration
Metropolitan areas are the source of most of our environmental quality problems, such as air and water pollution, species and habitat problems, and greenhouse gas emissions. Planning and design of our cities and communities play a critical role in both pollution and exposure to its damages. How and where we site housing, commercial centers, or trash dumps helps to determine how much pollution is generated and who is affected. This concentration addresses issues of environmental justice, sustainable urban design, public health, and climate change. Students will learn methods for analyzing environmental impacts, relationships between exposure and health, urban vulnerabilities to climate change effects, and the role of urban planning and public policies in achieving more sustainable and livable urban environments.

Gateway Course:
• PPDE 640 Environmental Planning and Analysis Units: 4 units

Methods Course:
• PPDE 634 Methodology, Methods and Tools for Urban Sustainability Units: 2, 3, 4 (4 units required)

Concentration Electives (8 units):
• PPD 615 Comparative Urbanization, Development, and Inequality Units: 4 units
• PPD 618 Housing Facilities and Community Development Units: 4 units
• PPD 620 General Plans Units: 4 units
• PPD 621 Environmental Impacts Units: 4 units
• PPD 627 Design Skills for Urban Planners Units: 4 units
• PPD 631 Geographic Information Systems for Policy, Planning, and Development Units: 2 units
• PPD 692 Transportation and the Environment Units: 4 units
• PPDE 635 Coastal Policy and Planning Units: 4 units
• PPDE 635 Housing and Land Use in Rapidly Urbanizing Regions Units: 4 units
• PPDE 637 Urban Mass Transit Units: 4 units

Concentration Electives (8 units):
• PPDE 639 Housing Dynamics for Policy and Planning Units: 4 units

Methods Course:
• PPD 625 Planning and Economic Development Finance Units: 4 units

Concentration Electives (8 units):
• PPD 616 Participatory Methods in Planning and Policy Units: 4 units
• PPD 617 Urban Demography and Growth Units: 4 units
• PPD 622 Seminar in Urban Development Units: 4 units
• PPD 624 Local Economic Development: Theory and Finance Units: 4 units
• PPD 626 Public/Private and Mixed Enterprises Planning Units: 2, 4 (4 units required)
• PPD 639 Introduction to Community and Economic Development Units: 4 units
• PPDE 635 Housing and Land Use in Rapidly Urbanizing Regions Units: 4 units
• RED 510 Real Estate Practice and Principles Units: 4 units
• RED 511 Foundations of Real Estate Analysis Units: 4 units
• RED 512 Real Estate Project Analysis Units: 4 units

Economic Development Concentration
Economic development focuses on core activities of workforce development, strategies for job generation, and methods for improving the fiscal well-being of local areas. Specific topics include the technology sector, arts and culture sector, advanced manufacturing, and logistics related to trade through the ports. Students in the Economic Development concentration will learn the fundamentals of urban economies, the causes and consequences of economic decline, strategies of subsidy and tax revenue use, strategies of public/private partnerships, incubators, micro-financing, and other entrepreneur and small business development strategies. To support their analytic work, they will also acquire skills of demographic and economic analysis, and spatial analysis of local economies. Students' skills will equip them to work in either the public or private sector.

Gateway:
• PPD 639 Introduction to Community and Economic Development Units: 4 units

Methods Course:
• PPD 625 Planning and Economic Development Finance Units: 4 units

Concentration Electives (8 units):
• PPD 622 Seminar in Urban Development Units: 4 units
• PPD 624 Local Economic Development: Theory and Finance Units: 4 units
• PPD 626 Public/Private and Mixed Enterprises Planning Units: 2, 4 (4 units required)
• PPDE 635 Housing and Land Use in Rapidly Urbanizing Regions Units: 4 units
• RED 510 Real Estate Practice and Principles Units: 4 units
• RED 511 Foundations of Real Estate Analysis Units: 4 units
• RED 512 Real Estate Project Analysis Units: 4 units

Mobility and Transportation Planning Concentration
Transportation is essential to urban life. The movement of both people and goods is a fundamental determinant of land use and urban form, as well as of quality of life. These movements take place by motorized vehicles (cars, trucks, trains, buses), bicycles, and walking, all of which are studied in this concentration. Transportation is being disrupted by technology in ways that have not occurred in a century, and students in this concentration will learn how to lead innovation in rapidly evolving public, private, and non-profit settings. Transportation and urban mobility students will acquire skills related to transportation analysis, travel behavior, environmental impacts of mobility, spatial analysis, land
use and transportation relationships, and design of sustainable transportation strategies and policies.

Gateway:
- PPD 634 Institutional and Policy Issues in Transportation: 4 units

Methods Course:
- PPD 633 Methods and Modeling Tools for Transportation Planning: 4 units

Concentration Electives (8 units):
- PPD 557 Modeling and Operations Research: 4 units
- PPD 589 Port Engineering: Planning and Operational Analysis: 4 units
- PPD 621 Environmental Impacts: 4 units
- PPD 630 Urban Economic Analysis: 4 units
- PPD 631 Geographic Information Systems for Policy, Planning, and Development: 2 units
- PPD 635 Principles of Transportation Systems Analysis: 4 units
- PPD 692 Transportation and the Environment: 4 units
- PPDE 637 Urban Mass Transit: 4 units
- PPDE 644 Land Use and Transportation Planning: 4 units

Planning Studios (4 units)
Planning studios are an integral part of the curriculum of the Price School of Public Policy, providing the essential educational link between academic education and professional practice. The planning studios require that students learn to work together as a team by applying their respective capabilities and knowledge to a real-world common problem and to produce a professional project. Students must complete 4 units of planning studios.

- PPD 531L Planning Studio Units: 4, 8, 12

Capstone (4 units)
All Master of Urban Planning students must complete PPD 629 Capstone in Urban Planning (4 units).

- PPD 629 Capstone in Urban Planning: 4 units

Free Electives (8 units)

Total Units: 48

Additional Requirements

Internship
Students working toward the Master of Urban Planning degree must complete an internship of at least 10 weeks duration and 400 hours in an organization engaged in planning or a closely related activity. Students must submit a report to the director of career services describing and evaluating the internship experience. Arrangements must also be made for an evaluative report of the internship by the student's supervisor submitted directly to the academic adviser. The internship is not for unit credit.

Students often fulfill their internship while working part-time in a planning-related job during their course of study in the program or in the summer between the two academic years. If a student has had equivalent career experience prior to admission to the program, the department chair may waive the internship requirement on the recommendation of the student's academic adviser.

The Price Office of Career Services actively works with school alumni and area planning organizations to assist students in obtaining appropriate internships. Numerous internship opportunities are available in the greater Los Angeles area. The student is responsible for securing the internship and fulfilling the requirement.

Directed Research
With the advice of the faculty, a student may elect to enroll in directed research as an elective. Working directly with a faculty member, the student pursues an interest or problem appropriate to the student's program of study.

The faculty member supervising the student must approve the final product of directed research. The final product may be a written report, article, graphic formulation, physical model, mathematical-statistical analysis, computer output or film — depending on the most appropriate expression of the research undertaken.

General Requirements

Residence and Course Load
The Master of Urban Planning normally requires two academic years of full-time study. Courses are also scheduled to allow completion on a part-time basis.

At least 36 units of graduate-level study must be done in residence at USC. The residency requirement may not be interrupted without prior permission from the Price School of Public Policy. Students accepted into the program with academic deficiencies will require a correspondingly longer time to complete their course work. Students seeking the degree on a part-time basis must take at least one course each semester.

Students must be enrolled at USC for the fall and spring semesters each year until all degree requirements have been met. Students who find it necessary to be excused from a semester of registration must request a leave of absence from the Academic Programs Office by the last day to drop/add courses of the semester in question; such leaves may be granted for up to one year. For additional information refer to USC policies governing continuous enrollment, readmission, and leaves of absence in the Academic Policies section of this catalogue.

Time Limits
All requirements for the Master of Planning must be completed within five calendar years from the beginning of the semester in which the student was admitted to the program. University regulations prohibit the acceptance of credits for courses taken toward the Master of Planning degree more than seven years after the date they were successfully completed.

Grade Point Average Requirement
While enrolled in the program a student must maintain a grade point average of at least 3.0 for all courses taken toward the degree.

Probation and Disqualification
Any student with a cumulative grade point average below 3.0 for all courses taken in the program will be placed on academic probation. A student whose semester grade point average is below 3.0, but whose cumulative grade point average is 3.0 or higher, will be placed on academic warning.

A student may be disqualified to continue toward a graduate degree if the student has been on academic probation for two consecutive semesters. Whether or not on academic probation or warning, a student may be disqualified at any time from continuing in the program if the dean of the school, after consultation with the faculty, determines that the student is deficient in academic achievement or in another qualification required for the attainment of the Master of Urban Planning degree.

Course Exemptions and Transfer of Credits
Graduate work by transfer may be accepted from approved graduate schools as determined by the USC Articulation Office upon recommendation of the dean of the school. Not more than 12 units of graduate work, with grades of B or better may be transferred for credit to the Master of Planning degree.

The following courses, or their equivalents, cannot normally be transferred for unit credit from other institutions: PPD 522, PPD 523, PPD 528, PPD 529, PPD 531L, PPD 534, PPD 629, PPD 594a, PPD 594b, PPD 594z. Undergraduate work will not be credited for advanced or graduate standing. Students may petition to receive subject credit for these courses; but unit requirements must be met through the completion of additional electives. Some applicants for admission to the school have been engaged in work in planning, development or closely related
activities. Although this experience may have been beneficial to the students involved and may satisfy the internship requirement, it may not be considered equivalent to academic education.

**Graduate Certificate**

**City/County Management Certificate**

The graduate certificate in City/County Management is for students interested in acquiring the foundational training needed to pursue a career in public service leadership and provides students with the necessary knowledge, training and skills development that will ensure their professional success as a future city/county manager.

The Certificate in City/County Management consists of 16 units of graduate course work.

**Required Courses (16 Units)**

- PPD 541 Public Financial Management and Budgeting Units: 4
- PPD 542 Policy and Program Evaluation Units: 4
- PPD 651 Seminar in the Administration of Local Government Units: 4
- PPD 672 Collaborative Governance Units: 4

**Additional Requirements**

**Admission Requirements and Application Procedures**

Applicants for the Certificate in City/County Management who are currently enrolled in a graduate program at USC and are in good standing with a 3.0 GPA only need to submit the appropriate paperwork for adding the certificate program, which may be obtained from the program administrator.

Applicants for the Certificate in City/County Management who have not matriculated at USC must make a formal application for admission to the certificate program; provide transcripts of all college work, a resume and one letter of recommendation.

Please contact the USC Price Office of Admissions at uscprice@usc.edu for more information.

**Health Management and Policy Programs Certificate**

The Health Management and Policy Programs of the Price School of Public Policy offers certificate programs in specialized areas of health care administration. The certificates are designed to provide practitioners with means for improving or updating their knowledge and experience in a challenging and professionally relevant course of study. Certificates are offered in Administration of Long Term Care Programs and Management of Ambulatory Care Systems. Applicants for the certificate programs must make formal application for admission to the certificate program, provide transcripts of all college work, supplemented by three letters of recommendation, including one from a former instructor, a resume and a personal statement describing their career goals and the relationship of the certificate to those ends.

It is expected that applicants to the certificate programs should have graduated from a recognized college with an approximate grade point average of B in the last 60 units of college work. Non-graduates may be admitted if the director believes that there is evidence to suggest that the applicant is capable of graduate level work.

Successful completion of the certificate will not be a deciding factor in the admission decision for the degrees offered by the Health Management and Policy Programs or the Price School of Public Policy.

**Ambulatory Care**

The Ambulatory Care program requires 20 units of graduate credit including a 16-unit core and a four-unit specialized seminar in the area of the certificate concentration.

**Core courses (16 units) are:**

- PPD 509 Problems and Issues in the Health Field Units: 4
- PPD 510a Financial Management of Health Services Units: 4 or

- PPD 516 Financial Accounting for Health Care Organizations Units: 4
- PPD 545 Public and Nonprofit Organizational Behavior Units: 4 or
- PPD 557 Modeling and Operations Research Units: 4

**One specialized seminar as follows (four units):**

- PPD 600 Management of Managed Care Organizations Units: 2
- PPD 601 Management of Long-Term Care Organizations Units: 4
- GER 550 Administration and System Management in Programs for Older Adults Units: 4

**Certificate in Administration of Long Term Care Programs**

The Certificate in Administration of Long Term Care Programs requires 16 units of course work.

**The required courses are**

- GER 500 Perspectives on a Changing Society: An Introduction to Aging Units: 4
- PPD 513 Legal Issues in Health Care Delivery Units: 2
- PPD 518 Quality of Care Concepts Units: 2
- PPD 601 Management of Long-Term Care Organizations Units: 4
- PPD 510a Financial Management of Health Services Units: 4 or
- PPDE 645 Financial Management of Nonprofit Organizations Units: 4

*Note:*

The program can be completed via distance learning.

**Additional Requirements**

Completing a certificate program does not constitute completion of or admission to the Master of Health Administration (MHA) or Executive Master of Health Administration (EMHA) degree programs nor will it be a deciding factor in the admission decision to those programs. Students in the MHA program, however, may qualify for award of these certificates if they complete the applicable course requirements.

**Homeland Security and Public Policy Certificate**

This graduate certificate program provides students with a foundation in homeland security and public policy. It is designed to provide expertise to individuals working in the field with an interest in refining their risk and security analysis skills as well as others with interest in the field. The certificate develops risk analysis skills and provides students with the knowledge needed to understand the issues surrounding the increasingly important issues of homeland security and public policy.

Applicants for the Certificate in Homeland Security and Public Policy who are currently enrolled in a graduate program at USC in good standing with a 3.0 GPA only need to submit the appropriate paperwork for adding the certificate program which may be obtained from the student services adviser.

Applicants for the Certificate in Homeland Security and Public Policy who have not matriculated at USC must make a formal application for admission to the certificate program, provide transcripts of all college work, a resume and one letter of recommendation.

The certificate in homeland security and public policy consists of 15–16 units of graduate course work depending on the course selected.

**Required Core Course (4 units)**

- PPD 683 Homeland Security and Public Policy Units: 4

**Three additional courses (11-12 units):**

- PPD 503 Economics for Public Policy Units: 4
- PPD 587 Risk Analysis Units: 4
Nonprofit Management and Policy Certificate

This graduate certificate program provides students with a foundation in nonprofit management and policy. The certificate develops nonprofit management skills and provides students the knowledge needed to understand the increasing importance of nonprofits in society and their role in forming and influencing public policy.

Applicants for the Certificate in Nonprofit Management and Policy who are currently enrolled in a graduate program at USC and are in good standing with a 3.0 GPA only need to submit the appropriate paperwork for adding the certificate program, which may be obtained from the student services adviser.

Applicants for the Certificate in Nonprofit Management and Policy who have not matriculated at USC must make a formal application for admission to the certificate program, provide transcripts of all college work, a resume and one letter of recommendation.

The certificate in nonprofit management and policy consists of 16 units of graduate course work.

Core Courses (12 Units)
- PPD 675 Nonprofit Management and Leadership Units: 4
- PPD 687 Strategic Management in the Nonprofit Sector Units: 4
- PPD 689 The Nonprofit Sector and Philanthropy Units: 4

Additional Requirements

Elective Course

Students select 4 elective units. The elective course(s) may be taken from within the Price School of Public Policy course offerings or other USC units. The elective selection must be approved by the faculty adviser for the certificate program.

Up to 10 units of the certificate may be applied to both the certificate and the core requirements or electives in the Master of Public Administration program. Up to 12 units may be applied toward both the certificate and the core or electives in the Master of Public Policy program.

The Master of Public Administration director will provide advisement.

Political Management Certificate

This graduate certificate program provides students with a foundation in political management. It is designed to provide expertise for students who wish to work in public policy advocacy, in political relations, with elected officials and with the public, nonprofit or private sectors.

Applicants who are currently enrolled in a graduate program at USC and are in good standing with a 3.0 GPA only need to submit the appropriate paperwork for adding the certificate program which may be obtained from the student services adviser.

Applicants who have not matriculated at USC must make a formal application for admission to the certificate program, as well as provide transcripts of all college work, a resume and one letter of recommendation.

The Certificate in Political Management consists of 14–16 units of graduate course work depending on the courses selected.

Core Course (4 Units)
- PPD 658 Advocacy in Public Administration Units: 4

Foundation Course

Select one: 2 or 4 units
- PPD 500 Intersectoral Leadership Units: 2
- PPD 540 Fundamentals of Public Administration Units: 4
- PPD 554 Foundations of Policy Analysis Units: 4
- PPD 684 Leadership Development in the Public and Nonprofit Sectors Units: 2

Choose Two of the Following (8 Units)
- PPD 616 Participatory Methods in Planning and Policy Units: 4
USC Price School of Public Policy

- PPD 656 Political Management: Theory and Applied Techniques Units: 4
- PPD 657 Political Leadership in Public Organizations Units: 4
- PPD 693 Communicating Public Policy Units: 4

Note:
Up to 10 units of the certificate may be applied toward both the certificate and to the core requirements or electives in the Master of Public Administration. Up to 12 units may be applied toward both the certificate and toward core or electives in the Master of Public Policy or Master of Planning.
The director of the graduate programs in public policy and management will provide advisement.

Public Financial Management Certificate
Complex social and economic climates - at the national, state, and local level - make sound public financial management essential to the fiscal sustainability and growth of communities everywhere. This graduate certificate program provides students with the skills to analyze financial information, assess public sector finance systems, prepare and manage budgets, and ensure the financial accountability of public organizations.

Required Courses
Complete each of the following courses (12 units):
- PPD 501a Economics for Policy, Planning and Development Units: 2
- PPD 501b Economics for Policy, Planning and Development Units: 2
- PPD 541 Public Financial Management and Budgeting Units: 4
- PPD 647 Finance of the Public Sector Units: 4

Elective Courses
Complete one of the following (4 units):
- PPD 624 Local Economic Development: Theory and Finance Units: 4
- PPD 625 Planning and Economic Development Finance Units: 4
- PPD 652 Financial Administration in Local Government Units: 4

Note
Course substitutions are permitted with advanced approval of the program director. Any of the above courses taken to satisfy normal degree requirements count also toward this certificate requirements up to the university's maximum double counting rules.

Public Management Certificate
This program provides students with a solid foundation of training and skills in management. Individuals who need training in public administration but who are unable to enroll for the Master of Public Administration (MPA) degree may find this certificate program of particular interest. Key to the program's success is the close integration of the academic curriculum and the application of skills and theory to managerial work assignments. Students may enroll at any time throughout the year.
The program consists of four courses:
- PPD 540 Fundamentals of Public Administration Units: 4
- PPD 542 Policy and Program Evaluation Units: 4
- PPD 545 Public and Nonprofit Organizational Behavior Units: 4
- and one elective selected from any 500-level offering in the Price curriculum.

Public Policy Certificate
This graduate certificate program provides students with a foundation in public policy analysis. It is designed to provide expertise in public policy to individuals who do not want to pursue the Master of Public Policy degree. Potential students include those who are pursuing another degree and want to complement that work with a specialization in public policy, as well as qualified students holding a bachelor's degree who have not matriculated at USC. The certificate develops policy analytic skills and their integration with a policy issue area of interest to the student.
Applicants for the Certificate in Public Policy who have not matriculated at USC must make a formal application for admission to the certificate program, provide transcripts of all college work, a resume and one letter of recommendation.
The program consists of 16 units of graduate course work.

Core Courses (12 Units)
- PPD 503 Economics for Public Policy Units: 4
- PPD 554 Foundations of Policy Analysis Units: 4
- PPD 555 Public Policy Formulation and Implementation Units: 4

Choose one course from a policy area (4 Units)
There are many policy issues courses from which to choose (e.g., health, nonprofit, transportation, environment, housing). The Master of Public Policy director will provide advisement.

Real Estate Development Certificate
This graduate certificate program provides students with a foundation of the key elements of real estate development. It is designed to provide these foundations for non-Master of Real Estate Development students who wish to obtain this knowledge to complement their graduate program of study as well as their careers. For admissions information, visit the Price School Website.
The certificate in real estate development consists of 12 units of graduate course work: RED 510, RED 511, and RED 512.

Social Innovation Certificate
Persistent social problems such as concentrated poverty, environmental degradation, and income inequality demand innovative new solutions to addressing these issues and improving the quality of life for all members of society. This certificate prepares future social innovators to design innovative policy solutions, create social enterprises and develop new financial tools to speed the pace of social innovation.
Students will take 13-15* units of course work depending on the electives chosen. There are two required courses (7 units) and students select two elective courses.
*Total unit value depends on elective courses selected.

Required Courses
- BAEP 591 Social Entrepreneurship Units: 2, 3
- PPDE 580 Social Innovation Units: 4

Electives (Student Select Two)
*Students select two electives. Price courses are 4 units. Marshall courses are 3 units. Therefore, the total unit value completed for the certificate will vary depending on the courses selected.
- BAEP 564 Investing in Impact Ventures Units: 3
- MOR 555 Designing High Performance Organizations Units: 3
- MOR 566 Environmental Sustainability and Competitive Advantage Units: 1.5, 3
- PPD 665 Contemporary Issues in Philanthropy Units: 4
- PPD 686 Business and Public Policy Units: 4
- PPD 689 The Nonprofit Sector and Philanthropy Units: 4
- PPDE 683 Social Finance and Development Units: 4

Social Justice Certificate
The graduate certificate in Social Justice is for students interested in understanding the set of factors that contribute to a broad range of disparities (or inequities) and the challenges that exist when managing, planning and policy making among diverse populations. The course work in this certificate focuses on the theories and analytic tools that are needed to assess issues in social justice.
The certificate in Social Justice consists of 12 units of graduate course work.
Core Courses (8 units)
Students will take two core courses.
  • PPDE 664 Seminar in Social Justice and Public Policy Units: 4
  • PPD 616 Participatory Methods in Planning and Policy Units: 4
or
  • PPDE 661 Methods for Equity Analysis Units: 4

Elective Course
Students select one 4-unit elective course from the following:
  • AMST 560 Readings on Race and Ethnicity Units: 4
  • AMST 580 Readings in Cultural Studies Units: 4
  • COMM 653 Research, Practice and Social Change Units: 4
  • PPD 606 Urban Health Policy Units: 4
  • PPD 616 Participatory Methods in Planning and Policy Units: 4 *
  • PPD 617 Urban Demography and Growth Units: 4
  • PPD 618 Housing Facilities and Community Development Units: 4
  • PPD 628 Urban Planning and Social Policy Units: 4
  • PPD 668 U.S. Immigration Policy Units: 4
  • PPD 690 Alternative Dispute Resolution Units: 4
  • PPDE 636 Urban Spatial Ethnography and Critical Cartography Units: 4
  • PPDE 661 Methods for Equity Analysis Units: 4 *
  • PPDE 663 Media for Policy Change Units: 4
  • SOCI 642 Sex and Gender in Society Units: 4

Note:
* Students will take PPD 616 or PPDE 661 as their methodology course for the certificate. They may select the alternate course to satisfy the elective requirement but cannot double count either course for this program.

Sustainable Policy and Planning Certificate
This graduate certificate program provides students with a foundation in policy and planning issues in sustainability and the environment. The certificate develops analytic and methodological skills and provides students the knowledge to understand the increasing importance of issues surrounding the environment and sustainability in policy and planning.

For admissions information, please visit the Price Website. The Department of Urban Planning and Spatial Analysis will provide advisement.

The Certificate in Sustainable Policy and Planning consists of 16-18 units of graduate course work:

Required Courses (10 units)
  • PPD 568 Environmental Governance and Sustainability Units: 2
  • PPDE 634 Methodology, Methods and Tools for Urban Sustainability Units: 2, 3, 4 (4 units required)
  • PPDE 660 Environmental Policy Design and Analysis Units: 4

Elective Courses (6-8 units)
Students select 6 to 8 * units of electives.
  • ARCH 519 Sustainability in the Environment: Infrastructures, Urban Landscapes, and Buildings Units: 3 *
  • ENE 502 Environmental and Regulatory Compliance Units: 4 *
  • ENE 505 Energy and the Environment Units: 4 *
  • GEOL 525 The Science of Climate Change Units: 4
  • MOR 566 Environmental Sustainability and Competitive Advantage Units: 1.5, 3 *
  • PPD 587 Risk Analysis Units: 4
  • PPD 619 Smart Growth and Urban Sprawl: Policy Debates and Planning Solutions Units: 4
  • PPD 621 Environmental Impacts Units: 4
  • PPD 690 Alternative Dispute Resolution Units: 4
  • PPD 692 Transportation and the Environment Units: 4
  • PPD 694 Coastal Policy and Planning Units: 4
  • PPDE 632 Sustainable Cities Units: 4
  • PPDE 644 Land Use and Transportation Planning Units: 4

Note:
*If students select 3-unit courses, they will take 6-7 units of electives. Others will take 8.

Dual Degree
Master of Health Administration/Master of Science in Gerontology (MHA/MS)
Gerontology and health administration students can specialize in health care administration (profit and nonprofit) through the dual degree with the USC Leonard Davis School of Gerontology and the USC Price School of Public Policy’s Health Administration Program. Students in the dual degree program must be admitted by both academic units and complete 78 units of post-graduate academic work.

Gerontology Requirements
  • GERO 510 Physiology of Development and Aging Units: 4
  • GERO 520 Life Span Developmental Psychology Units: 2 or 4
  • GERO 530 Life Span Developmental Sociology Units: 4
  • GERO 540 Social Policy and Aging Units: 4
  • GERO 550 Administration and System Management in Programs for Older Adults Units: 4
  • GERO 555 Integrating Gerontology: A Multidisciplinary Approach Units: 4
  • GERO 591 Field Practicum Units: 1-12
  • GERO 593 Research Methods Units: 4

Total units: 36

Health Administration Requirements
  • PPD 506 Introduction to Microeconomics: Applications in Health Units: 2
  • PPD 509 Problems and Issues in the Health Field Units: 4
  • PPD 510a Financial Management of Health Services Units: 4
  • PPD 512 Health Administration Residency Seminar Units: 2
  • PPD 513 Legal Issues in Health Care Delivery Units: 2
  • PPD 514 Economic Concepts Applied to Health Units: 4
  • PPD 515 Strategic Management of Health Organizations Units: 4
  • PPD 516 Financial Accounting for Health Care Organizations Units: 4
  • PPD 517 Concepts and Practices in Managing Health Care Organizations Units: 2
  • PPD 518 Quality of Care Concepts Units: 2
  • PPD 545 Public and Nonprofit Organizational Behavior Units: 4
  • PPD 558 Multivariate Statistical Analysis Units: 4
  • PPD 601 Management of Long-Term Care Organizations Units: 4

Total units: 42

Additional Requirements
Statistics: The statistics requirement for dual degree students is the same as those that apply to the Master of Health Administration.

Program Adaptation: The USC Davis School of Gerontology will waive GERO 589 because students enrolled in this program will have a primary professional focus in health administration. Students enrolled in the dual degree are not required to take PPD 511 (as opposed to the stand alone MHA degree students) because they develop the necessary proficiency related to their career goals in long term care administration through other courses such as GERO 550, GERO 591 and GERO 593. In addition, PPD 601 is required for the dual degree (and not the stand alone MHA program) because most of these students will work in long-term care facilities and this course is critical for success in that market.

Students in the MHA stand alone program are required to complete a 1,000 hour residency at a health care organization,
generally during the second year of study. Students in the dual degree program may be waived from this requirement with enrollment in GERO 591 which is a supervised experiential learning experience. Student in this situation may then waive PPD 512 and will take 2 units of Price electives for this dual degree.

Any course substitutions are done by petition on an individual basis and should be part of a carefully developed course of study. The USC Price School of Public Policy should be consulted concerning this program of study.

Master of Public Administration/Master of Arts, Jewish Nonprofit Management (MPA/MA)

The Master of Public Administration/Master of Arts in Jewish Nonprofit Management (MPA/MA) has been developed, in cooperation between the USC Price School of Public Policy and the Zelikow School of Jewish Nonprofit Management at HUC-JIR, to prepare those students who want to pursue a career in Jewish nonprofit management. Students in this dual degree program develop policy and leadership practices that support a strategic understanding of how the application of financial, program resources shape a community’s future. The MA in Jewish Nonprofit Management program is project based. Through paid field internships in Jewish organizations and consulting projects, students apply what is learned in the classroom in a real world experience that develops their professional expertise.

Students must complete 68 units of course work, 34 in Public Administration and a minimum of 34 credits in Jewish Nonprofit Management. There is an opportunity to spend either 12 months in Sacramento, California, or Washington, D.C. At these sites, students attend classes while serving internships in the offices of politicians, lobbyists or other advocates.

Students must meet admission requirements and be admitted by both the Price School of Public Policy and the Zelikow School of Jewish Nonprofit Management.

Curriculum Requirements

The program begins in June of each year and continues for the next 24 months. Students are expected to work out individual course plans with advisers from each school.

In addition to applying to the Price School of Public Policy, those interested in the program should contact Melissa Garai at the Zelikow School at (213) 765-2173 or visit the Website at ZSJNM.HUC.edu, for more information about its requirements.

Public administration course work may be taken in Los Angeles or Sacramento. In Sacramento, a student will complete the Price core and elective courses, will take independent study with an HUC professor, and will serve in an internship while enrolled in HUC fieldwork classes.

Public Administration Requirements

- PPD 503 Economics for Public Policy Units: 4
- PPD 540 Fundamentals of Public Administration Units: 4
- PPD 541 Public Financial Management and Budgeting Units: 4 or
- PPDE 645 Financial Management of Nonprofit Organizations Units: 4
- PPD 545 Public and Nonprofit Organizational Behavior Units: 4
- PPD 546 Capstone in Public Administration Units: 4
- PPDE 505 Professional Workshop in Public Administration Units: 2

Electives

One management elective (4 units) and 8 additional elective units are required for a total of 12 units.

Management Elective

Choose one:

- PPD 675 Nonprofit Management and Leadership Units: 4 or
- PPD 689 The Nonprofit Sector and Philanthropy Units: 4

Additional Electives

Choose 8 units:

- PPD 684 Leadership Development in the Public and Nonprofit Sectors Units: 2
- PPD 685 Human Resources Management in Public and Non-Profit Sectors Units: 2
- PPDE 646 Grant Writing Practicum Units: 2
- PPDE 649 International Development NGOs: Theory, Policy and Management Issues Units: 4

Note: Substitutions may be requested by petition to the graduate advisor in the Price School of Public Policy.

Additional Requirements

Fieldwork Requirement

Throughout the program, students are expected to serve in supervised internships. Fieldwork is administered cooperatively by the faculties of the Zelikow School of Jewish Nonprofit Management and the Price School of Public Policy.

Program Adaptation

Students enrolled in the dual degree are not required to take PPD 504 or an analytic elective in the MPA program (as opposed to the stand alone MPA degree students) because they develop the necessary proficiencies in research methods (including relevant statistical analysis material) in the courses offered in the Zelikow School of Jewish Nonprofit Management (CS 900A Capstone and CS 900B Capstone). Students in the dual degree may elect an alternative 4 units within the Price School.

Master of Public Administration/Master of Science in Gerontology (MPA/MS)

The Master of Public Administration/Master of Science in Gerontology (MPA/MS) dual degree offers students interested in management of agencies and institutions the opportunity to gain in-depth knowledge of the administrative and organizational processes and management skills necessary for the effective delivery of services to older persons.

In the MPA/MS dual degree, students spend their first year taking the required courses in the USC Leonard Davis School of Gerontology. The research course, GERO 593 Research Methods and the capstone course GERO 555 Integrating Gerontology: A Multidisciplinary Approach, are taken in the USC Leonard Davis School of Gerontology. The student begins courses in the Price School of Public Policy during the second semester of the first year.

Two versions of this dual degree are available, one with a general orientation and one with an emphasis on health services administration. Students must apply to both schools and, if accepted to both, participate in a specially designed program combining course work from both schools.

Curriculum requirements for the general focus dual degree are detailed in the USC Leonard Davis School of Gerontology section of this catalogue. Students are encouraged to seek advisement as they plan their actual programs, since curriculum changes may occur.

Gerontology Requirements

- GERO 510 Physiology of Development and Aging Units: 4
- GERO 520 Life Span Developmental Psychology Units: 2 or 4
- GERO 530 Life Span Developmental Sociology Units: 4
- GERO 540 Social Policy and Aging Units: 4
- GERO 550 Administration and System Management in Programs for Older Adults Units: 4
- GERO 555 Integrating Gerontology: A Multidisciplinary Approach Units: 4
- GERO 591 Field Practicum Units: 1-12
- GERO 593 Research Methods Units: 4
- Gerontology elective Units: 4

Total units: 40
Public Administration Requirements

- PPD 503 Economics for Public Policy Units: 4
- PPD 504 Essential Statistics for Public Management Units: 2
- PPD 540 Fundamentals of Public Administration Units: 4
- PPD 545 Public and Nonprofit Organizational Behavior Units: 4
- PPD 546 Capstone in Public Administration Units: 4
- PPD 505 Professional Workshop in Public Administration Units: 2
- PPD 541 Public Financial Management and Budgeting Units: 4 or
- PPDE 645 Financial Management of Nonprofit Organizations Units: 4

Electives
Students select one analytic elective course (4 units).

*NOTE: Electives in Public Administration need to be selected from approved analytic electives (see MPA requirements). Any substitutions must be approved by the graduate adviser in the Price School of Public Policy.

Total units: 28

Additional Requirements

Program Adaptation

For the MS in Gerontology, 12 units of electives are waived as well as GERO 589 Case Studies in Leadership and Change Management because students enrolled in this program have a primary professional focus in public administration. For the Master of Public Administration, 12 units of gerontology courses are used as the substantive specialization.

Master of Public Administration/Master of Social Work (MPA/MSW)

The Master of Public Administration/Master of Social Work (MPA/MSW) dual degree offers students interested in careers as administrators of social agencies the opportunity to prepare for social work while developing the administrative capabilities necessary in the public sector.

The MPA/MSW requires two calendar years of full-time study. The first academic year is devoted to the standard social work first year curriculum. During the second year, the curriculum combines social work and public administration course work. The curriculum for both summers will be in public administration.

Students can enter this program only with the written consent of both schools. Students who apply initially to the USC Suzanne Dworak-Peck School of Social Work must declare their intention to pursue the MPA/MSW dual degree at the time of their application. If admission is approved, such students will be admitted to the dual degree program. Social work students selecting this program are required to select the Community Organization, Planning and Administration concentration in their second year program.

Students must complete 82 units (54 in social work and 28 in public administration).

Social Work (54 Units)

Contact the USC Suzanne Dworak-Peck School of Social Work for Social Work requirements.

Public Administration (28 Units)

- PPD 503 Economics for Public Policy Units: 4
- PPD 504 Essential Statistics for Public Management Units: 2
- PPD 540 Fundamentals of Public Administration Units: 4
- PPD 546 Capstone in Public Administration Units: 4
- PPDE 505 Professional Workshop in Public Administration Units: 2
- PPD 541 Public Financial Management and Budgeting Units: 4 or
- PPDE 645 Financial Management of Nonprofit Organizations Units: 4

Note:
*PPD 545 is not required as students in this dual take SOWK 506 Human Behavior and the Social Environment, which covers similar content.

Electives

Students take 8 units of electives (one management and one analytic).

Electives in Public Administration need to be selected from approved management and analytic electives (see MPA requirements). Any substitutions must be approved by the graduate adviser in the Price School of Public Policy.

Master of Public Health/Master of Urban Planning (MPH/MUP)

The Master of Public Health/Master of Urban Planning (MPH/MUP) dual degree is designed for individuals who envision a career that combines urban planning and public health disciplines.

This dual degree combines the knowledge of urban planning with an understanding of health from a population perspective. It will provide training for planning, evaluating and guiding healthy community and urban development, and will enable graduates who seek to be agents of change within the profession to assume leadership roles in planning and in public health at the local, state and national levels. The degree requires 32 MUP units and 34 MPH units for a total of 66 units required for the dual degree.

Urban Planning Requirements

- PPD 522 Planning Theory and History for a Just Society Units: 4
- PPD 523 Urban and International Development Units: 4
- PPD 528 Physical Planning: Urban and Community Design Units: 2
- PPD 529 Planning Law and Legal Frameworks of Planning Units: 2
- PPD 531L Planning Studio Units: 4, 8, 12 (4 units required)
- PPD 534 Data, Evidence, and Communication of the Public Good Units: 4
- PPD 629 Capstone in Urban Planning Units: 4

Concentrations

There are six concentrations available in the Master of Urban Planning program. They are as follows: Arts and Culture, Design of the Built Environment, Environmental Planning and Analysis, Housing and Real Estate Development, Economic Development, and Mobility and Transportation Planning. Students must select a concentration gateway and methodology course (4 units each, 8 units total). Please see the Master of Urban Planning section of the catalogue for the concentration descriptions and course lists.

Internship

Dual degree students, like all other MUP students, must fulfill an internship requirement. Students will take 200 hours of planning internship placement in addition to 1 unit in PM 596 and 1 unit in PM 597. See below for further internship details for this dual degree.

MPH Core Requirements

- PM 502 Foundations of Public Health Units: 4
- PM 503 Practice of Public Health Units: 4
- PM 510L Principles of Biostatistics Units: 4
- PM 512 Principles of Epidemiology Units: 4
- PM 532 Practicum in Public Health Units: 1
- PM 597 Capstone in Public Health Units: 1

MPH Concentration Core Requirements

Students may choose one of two concentrations in the MPH program: Community Health Promotion and Health Services and Policy. Students are required to complete the concentration core requirements (16 units) specific to their chosen concentration of study. Relevant courses taken in the Price School of Public Policy will be counted toward the MPH concentration elective requirement required by non-dual degree students.

Students will complete a total of 34 units specific to the MPH program.
MPH Practicum Requirement

For PM 596, students will complete an internship specific to meet the competencies of the students’ chosen concentration. Dual degree students will enroll in this 1-unit course and complete at least a 150-hour placement. The other 150 hours would be waived because students will spend 200 hours during their planning internship, acquiring additional relevant practical experience. (Note: This is consistent with the established dual degree programs with medicine, pharmacy, social work and clinical psychology).

Units required to complete program: 66

Master of Public Policy/Juris Doctor (MPP/JD)

The Price School of Public Policy and the USC Gould School of Law offer a dual degree that enables qualified students to earn both a Juris Doctor and a Master of Public Policy in approximately four years of study. The dual degree allows students to acquire a blend of the analytic skills of public policy and an understanding of legal institutions and processes. This combination of knowledge is well suited for law students who want to affect the policy-making process and craft legislation to aid in the achievement of public policy goals. It is equally appropriate for prospective policy analysts who are interested in law and public policy.

Students must apply to, and be accepted by, both schools. They may be accepted to the dual degree at the time of their acceptance to the law school or at the beginning of their second year of law school. Dual degree students spend the first year of the program completing the required first year of law school. The remaining units of law school courses and the required 36 units of core MPP courses are taken by students in the second through fourth years.

Students are required to complete 114 units of course work, 78 units in the law school and 36 units in the Price School of Public Policy. To earn the JD, all students (including dual degree students) must complete 37 numerically graded law units at USC after the first year. The associate dean may make exceptions to this rule for students enrolled in law school honors programs. In addition, the MPP program has a statistics prerequisite. Please see the MPP degree in the Price School of Public Policy section of the catalogue for the requirements.

Required MPP Courses

The required MPP courses are

• PPD 503 Economics for Public Policy Units: 4
• PPD 554 Foundations of Policy Analysis Units: 4
• PPD 555 Public Policy Formulation and Implementation Units: 4
• PPD 558 Multivariate Statistical Analysis Units: 4
• PPD 560 Methods for Policy Analysis Units: 4
• PPD 561a Policy Analysis Practicum Units: 1
• PPD 561b Policy Analysis Practicum Units: 3

Management Elective

4 units of a management elective

• PPD 541 Public Financial Management and Budgeting Units: 4
• PPD 545 Public and Nonprofit Organizational Behavior Units: 4
• PPD 654 Information Technology Management in the Public Sector Units: 4
• PPD 656 Political Management: Theory and Applied Techniques Units: 4
• PPD 662 Intergovernmental Management: State Perspective Units: 4
• PPD 673 Strategic Planning in the Public Sector Units: 4
• PPD 675 Nonprofit Management and Leadership Units: 4
• PPD 690 Alternative Dispute Resolution Units: 4
• PPDE 645 Financial Management of Nonprofit Organizations Units: 4

Analytic Elective

and 8 units of an analytic elective

• COMM 650 Survey Construction and Validation Units: 4
• PPD 542 Policy and Program Evaluation Units: 4
• PPD 587 Risk Analysis Units: 4
• PPD 647 Finance of the Public Sector Units: 4
• PPDE 660 Environmental Policy Design and Analysis Units: 4
• PPDE 661 Methods for Equity Analysis Units: 4
• PPDE 636 Urban Spatial Ethnography and Critical Cartography Units: 4
• PPDE 665 Economic Impact Analysis: Methods and Applications Units: 2
• PPDE 668 Applied Econometrics for Program Evaluation Units: 4
• PPDE 671 Economic Analysis of Education Policy Units: 4
• SSCI 581 Concepts for Spatial Thinking Units: 4

Master of Public Policy/Master of Urban Planning (MPP/MUP)

The Master of Public Policy/Master of Urban Planning dual degree program gives students the opportunity to develop a depth of analytic and design skills with which to effectively address the problems of urban communities. The dual degree program normally requires six semesters in residence.

Requirements

Completion of the dual degree requires 72 units.

Prerequisites

Applicants must have a basic competence in descriptive and inferential statistics for the MPP program. This prerequisite may be met in one of two ways: (1) entering students must have passed an undergraduate inferential statistics class, with a grade of "B" or better, at an approved university within three years of matriculation, and must pass the MPP lab associated with PPD 554 Foundations of Policy Analysis, or (2) take PPD 502x Statistical Foundations for Public Management and Policy and complete with a grade of "B" or better. If students select to take PPD 502, the units associated with this class may not be used for graduate credit.

Public Policy Courses

Students take 40 units in the MPP program.

• PPD 503 Economics for Public Policy Units: 4
• PPD 554 Foundations of Policy Analysis Units: 4
• PPD 555 Public Policy Formulation and Implementation Units: 4
• PPD 558 Multivariate Statistical Analysis Units: 4
• PPD 660 Methods for Policy Analysis Units: 4
• PPD 561a Policy Analysis Practicum Units: 1
• PPD 561b Policy Analysis Practicum Units: 3

Analytic Electives

Units: 6-8*

• COMM 650 Survey Construction and Validation Units: 4
• PPD 542 Policy and Program Evaluation Units: 4
• PPD 587 Risk Analysis Units: 4
• PPD 647 Finance of the Public Sector Units: 4
• PPDE 636 Urban Spatial Ethnography and Critical Cartography Units: 4
• PPDE 660 Environmental Policy Design and Analysis Units: 4
• PPDE 661 Methods for Equity Analysis Units: 4
• PPDE 665 Economic Impact Analysis: Methods and Applications Units: 2
• PPDE 668 Applied Econometrics for Program Evaluation Units: 4
• PPDE 671 Economic Analysis of Education Policy Units: 4
• SSCI 581 Concepts for Spatial Thinking Units: 4

Note: Students who select PPDE 665 will take an additional 2 units of electives in consultation with the adviser.
One management elective from the following list:
• PPD 541 Public Financial Management and Budgeting Units: 4
• PPD 545 Public and Nonprofit Organizational Behavior Units: 4
• PPD 654 Information Technology Management in the Public Sector Units: 4
• PPD 656 Political Management: Theory and Applied Techniques Units: 4
• PPD 662 Intergovernmental Management: State Perspective Units: 4
• PPD 673 Strategic Planning in the Public Sector Units: 4
• PPD 675 Nonprofit Management and Leadership Units: 4
• PPD 690 Alternative Dispute Resolution Units: 4
• PPD 645 Financial Management of Nonprofit Organizations Units: 4

Public Policy Elective
Students select 4 units of public policy electives.

Urban Planning Courses
Students in this dual degree will take 32 units of urban planning coursework. Students must select one of the six available concentrations and select a gateway and methodology course associated with the concentration. Please see the Master of Urban Planning section of the catalogue for the concentration options.
• PPD 522 Planning Theory and History for a Just Society Units: 4
• PPD 523 Urban and International Development Units: 4
• PPD 528 Physical Planning: Urban and Community Design Units: 4
• PPD 529 Planning Law and Legal Frameworks of Planning Units: 4
• PPD 531L Planning Studio Units: 4, 8, 12 4 units required
• PPD 534 Data, Evidence, and Communication of the Public Good Units: 4
• PPD 629 Capstone in Urban Planning Units: 4

Concentration Courses (8 units)
Students choose one of the six available concentrations in the MUP program: Arts and Culture, Design of the Built Environment, Environmental Planning and Analysis, Housing and Real Estate Development, Economic Development, and Mobility and Transportation Planning. Students are required to complete the concentration gateway and methodology requirements (8 units) specific to their selected concentration of study. Please see the Master of Urban Planning section of the catalogue for the concentration options.

Students in the dual MUP/MPP program do not need to take an additional 8 units of concentration electives as in the standalone MUP program due to the required electives in the MPP. Through advisement, students are encouraged to select elective courses that meet their interests and educational goals.

Additional Requirements
Internship
Dual degree students, like all other MUP students, must fulfill the internship requirement.

Master of Real Estate Development/ Juris Doctor (MRED/JD)
The Juris Doctor/Master of Real Estate Development dual degree program provides the opportunity for in-depth study of legal issues and real estate development. The increasingly regulatory environment developers work within demands that professionals in the real estate industry have a strong understanding of the legal system. Lawyers who plan to specialize in real estate law will benefit from a thorough understanding of the development process, including financial, planning, marketing and design issues. Application must be made to both the USC Gould School of Law and the USC Price School of Public Policy. This program normally requires three years (including one summer) of full-time study in residence to complete.

Requirements for completion of the dual degree program are 112 units, including 78 units in law and 34 units in planning and development. To earn the JD, all students (including dual degree students) must complete 37 numerically graded law units at USC after the first year. The associate dean may make exceptions to this rule for students enrolled in law school honors programs.

Law School
• LAW 502 Procedure I Units: 2, 3, 4
• LAW 503 Contracts Units: 2, 3, 4
• LAW 504 Criminal Law Units: 3
• LAW 505 Legal Profession Units: 2, 3, 4
• LAW 507 Torts I Units: 2, 3, 4
• LAW 512 Law, Language and Values Units: 2, 3, 4
• LAW 515 Legal Research, Writing and Advocacy I Units: 2
• LAW 516 Legal Research, Writing and Advocacy II Units: 2
• LAW electives including fulfillment of the upper division writing requirement and skills course Units: 45

Real Estate Development
• PPD 500 Intersectoral Leadership Units: 2
• PPD 501a Economics for Policy, Planning and Development Units: 2
• RED 509 Market Analysis for Real Estate Units: 4
• RED 542 Finance of Real Estate Development Units: 3
• RED 544 Real Estate Capital Markets Units: 2
• RED 546 Applications of Real Estate Finance to Problems of Development Units: 3
• RED 547 Project Management and Construction Units: 2
• RED 551 The Approval Process Units: 4
• RED 573 Design History and Criticism Units: 2
• RED 575L Community Design and Site Planning Units: 2, 3, 4
• RED 598 Real Estate Product Development Units: 2, 3, 4
• Elective from the Price School of Public Policy Units: 2

Additional Requirements
Students are required to complete a comprehensive examination administered by faculty members from both the law school and the Price School of Public Policy.

Students are required to complete a comprehensive examination administered by faculty members from both the law school and the Price School of Public Policy.

Students must have an approved laptop computer as required by instructors and must demonstrate calculator and spreadsheet skills.

Master of Real Estate Development/Master of Business Administration (MRED/MBA)
The Master of Real Estate Development/Master of Business Administration dual degree program enables students to expand their skills in planning, land development, marketing, decision sciences, accounting, management, finance and economics. The program is targeted for students who have a clear career goal of becoming real estate developers but who lack formal training in business. The program normally requires two years (including summers) of full-time study in residence to complete.

Requirements
A total of 82 units is required. Required courses include: all required courses in an MBA program; FBE 565 Economics of Urban Land Use: Feasibility Studies (3 units); FBE 588 Advanced Real Estate Law (3 units); graduate business electives sufficient to bring the total units completed in the USC Marshall School of Business to at least 48; and Policy, Planning, and Development courses (34 units). Dual degree students may not count courses taken outside the USC Marshall School of Business toward the 48 units. Students must have an approved laptop computer as required by instructors and must demonstrate calculator and spreadsheet skills.
Real Estate Development
- PPD 500 Intersectoral Leadership Units: 2
- RED 509 Market Analysis for Real Estate Units: 4
- RED 542 Finance of Real Estate Development Units: 3
- RED 544 Real Estate Capital Markets Units: 2
- RED 546 Applications of Real Estate Finance to Problems of Development Units: 3
- RED 547 Project Management and Construction Units: 2
- RED 551 The Approval Process Units: 4
- RED 573 Design History and Criticism Units: 2
- RED 574 Building Typologies Units: 2
- RED 575L Community Design and Site Planning Units: 2, 3, 4
- RED 598 Real Estate Product Development Units: 2, 3, 4
- Elective from the Price School of Public Policy Units: 4

Additional Requirements
Comprehensive Examination: Students are required to complete a comprehensive examination administered by faculty members from both the Marshall School of Business and the Price School of Public Policy.

Master of Urban Planning/Master of Arts, Curatorial Practices and the Public Sphere (MUP/MA)
The Master of Urban Planning/Master of Arts, Curatorial Practices and the Public Sphere offers an unusually rich opportunity for students interested in developing a new knowledge base to become successful professionals working in the arena of organizing art projects in urban public space, planning and community development. Los Angeles and the facilities at USC provide a unique learning laboratory to educate a more competitive professional with a better understanding of both the administration of public art and issues of urban planning. This dual degree requires 58 units for completion, 26 in Roski and 32 in urban planning in Price.

Required Roski Courses
The following Roski courses are required for the degree (26 units):
- ART 515 Visiting Artist and Scholar Seminar Units: 2 (4 units required)
- CRIT 510 History and Theory of Art and Exhibitions Units: 4
- CRIT 512 Art and Curatorial Visits Units: 2
- CRIT 555 Methods of Curating: Introduction to Curatorial Practicum Units: 4
- CRIT 556 Curatorial Practicum: Individual/Group Projects Units: 4
- CRIT 557 Curatorial Practicum: Group Project Summation Units: 4
- CRIT 594a Master's Thesis Units: 2
- CRIT 594b Master's Thesis Units: 2

Required Urban Planning Courses
The following Planning courses are required for the degree (24 units):
- PPD 522 Planning Theory and History for a Just Society Units: 4
- PPD 523 Urban and International Development Units: 4
- PPD 528 Physical Planning: Urban and Community Design Units: 2
- PPD 529 Planning Law and Legal Frameworks of Planning Units: 2
- PPD 534 Data, Evidence, and Communication of the Public Good Units: 4
- PPD 531L Planning Studio Units: 4, 8, 12 (4 units required)
- PPD 629 Capstone in Urban Planning Units: 4

Concentration Courses (8 units)
There are six concentrations available in the Master of Urban Planning program: Arts and Culture, Design of the Built Environment, Environmental Planning and Analysis, Housing and Real Estate Development, Economic Development, and Mobility and Transportation Planning. Students must select a concentration gateway and methodology course (4 units each, 8 units total). Please see the Master of Urban Planning section of the catalogue for the concentration descriptions and course lists.

Additional requirements for the dual degree
There are 400 hours of internship required for the degree, usually pursued in the summer of the second year (fifth and final semester).

Master of Urban Planning/Master of Public Administration (MUP/MPA)
The Master of Urban Planning/Master of Public Administration dual degree program is designed for the study of the relationships between planning and public administration. Administrative skills, budgeting and fiscal analysis, a knowledge of operations services of local governments, and formulation and conduct of planning operations within the context of municipal management are required. This dual degree program normally requires five semesters in residence.

Requirements
Requirements for completion of the dual degree program are 64 units, including 32 units in public administration (including 8 units of management and analytic electives) and 32 units in urban planning.

Public Administration
- PPD 503 Economics for Public Policy Units: 4
- PPD 504 Essential Statistics for Public Management Units: 2
- PPDE 505 Professional Workshop in Public Administration Units: 2
- PPD 540 Fundamentals of Public Administration Units: 4
- PPD 545 Public and Nonprofit Organizational Behavior Units: 4
- PPD 546 Capstone in Public Administration Units: 4
- PPD 541 Public Financial Management and Budgeting Units: 4 or
- PPDE 645 Financial Management of Nonprofit Organizations Units: 4

Electives
Students select one management elective (4 units) and one analytic elective (4 units) for a total of 8 units. Please see the Master of Public Administration for course options.

Urban Planning
- PPD 522 Planning Theory and History for a Just Society Units: 4
- PPD 523 Urban and International Development Units: 4
- PPD 528 Physical Planning: Urban and Community Design Units: 2
- PPD 529 Planning Law and Legal Frameworks of Planning Units: 2
- PPD 531L Planning Studio Units: 4, 8, 12 (4 units required)
- PPD 534 Data, Evidence, and Communication of the Public Good Units: 4
- PPD 629 Capstone in Urban Planning Units: 4

Concentrations
There are six concentrations available in the Master of Urban Planning program. They are as follows: Arts and Culture, Design of the Built Environment, Environmental Planning and Analysis, Housing and Real Estate Development, Economic Development, and Mobility and Transportation Planning. Students must select a concentration gateway and methodology course (4 units each, 8 units total). Please see the Master of Urban Planning section of the catalogue for the concentration descriptions and course lists.

Master of Urban Planning/Master of Real Estate Development (MUP/MRED)
The Master of Urban Planning/Master of Real Estate Development dual degree program enables students to expand their skills in planning, land development, market analysis, finance
and economics. Exposure to both fields becomes an educational as well as a professional asset for careers in either real estate development or urban planning. This dual degree program normally requires five semesters, including one summer, in residence.

Requirements
A total of 74 units is required for the dual degree, all from within the Price School of Public Policy.

Urban Planning Core
- PPD 522 Planning Theory and History for a Just Society
  Units: 4
- PPD 523 Urban and International Development Units: 4
- PPD 531L Planning Studio Units: 4, 8, 12 (4 units required)
- PPD 534 Data, Evidence, and Communication of the Public Good Units: 4

Concentrations
There are six concentrations available in the Master of Urban Planning program. They are as follows: Arts and Culture, Design of the Built Environment, Environmental Planning and Analysis, Housing and Real Estate Development, Economic Development, and Mobility and Transportation Planning. Students must select a concentration gateway and methodology course (4 units each, 8 units total). Please see the Master of Urban Planning section of the catalogue for the concentration descriptions and course lists.

Real Estate Core
- PPD 500 Intersectoral Leadership Units: 2
- PPD 501A Economics for Policy, Planning and Development Units: 2
- RED 509 Market Analysis for Real Estate Units: 4
- RED 542 Finance of Real Estate Development Units: 3
- RED 544 Real Estate Capital Markets Units: 2
- RED 546 Applications of Real Estate Finance to Problems of Development Units: 3
- RED 547 Project Management and Construction Units: 2
- RED 551 The Approval Process Units: 4
- RED 562 Legal Issues in Real Estate Development Units: 4
- RED 573 Design History and Criticism Units: 2
- RED 574 Building Typologies Units: 2
- RED 575L Community Design and Site Planning Units: 2, 3, 4
- RED 598 Real Estate Product Development Units: 2, 3, 4

Additional Requirements
Electives: 14 additional units of elective courses taken within the Price School of Public Policy. Students in this dual degree do not take the Urban Planning capstone but are required to complete the MRED comprehensive examination.

The internship requirement is waived for students who enter the program with professional experience in either planning, real estate or a related field.

Program Adaptation: MUP/MRED dual degree students may waive PPD 529 because RED 562 covers similar material. PPD 528 may also be waived for this dual because MRED students take three design courses which cover similar material (RED 573, RED 574 and RED 575L). Students in this dual also do not need to take PPD 629 (the MUP Capstone) as they will be required to take the MRED comprehensive exam.

Master of Urban Planning/Master of Social Work (MUP/MSW)
The dual degree program between the USC Suzanne Dworak-Peck School of Social Work and the USC Price School of Public Policy offers unique opportunities for students who want to devote their professional careers to social policy, social planning or social services delivery. Students with a dual degree will have broader employment options beyond those in traditional planning or social work.

The schedule of courses allows students to experience direct service in the first year so that course work planning is supplemented by a knowledge of consumers, service delivery, etc. Courses for both schools are taken simultaneously, intermingling social work and planning content. Two years of field practicums in social work provide in-depth exposure to social service issues from both planning and direct service perspectives, thus satisfying some of the planning laboratory/workshop requirements and eliminating the need for a separate planning internship requirement.

Requirements
Requirements for completion of the MSW/MUP degree are 83 units including 51 units in social work and 32 units in urban planning. Students must select a community organization, planning and administration concentration in the second year of their social work program.

Social Work
Contact the USC Suzanne Dworak-Peck School of Social Work for Social Work requirements.

Urban Planning
- PPD 522 Planning Theory and History for a Just Society
  Units: 4
- PPD 523 Urban and International Development Units: 4
- PPD 528 Physical Planning: Urban and Community Design Units: 2
- PPD 529 Planning Law and Legal Frameworks of Planning Units: 2
- PPD 531L Planning Studio Units: 4, 8, 12 (4 units required)
- PPD 534 Data, Evidence, and Communication of the Public Good Units: 4
- PPD 629 Capstone in Urban Planning Units: 4

Concentrations
There are six concentrations available in the Master of Urban Planning program. They are as follows: Arts and Culture, Design of the Built Environment, Environmental Planning and Analysis, Housing and Real Estate Development, Economic Development, and Mobility and Transportation Planning. Students must select a concentration gateway and methodology course (4 units each, 8 units total). Dual degree students do not need to take concentration electives as they will complete elective units in Social Work. Please see the Urban Planning (MUP) entry in the catalogue for the concentration descriptions and course lists.

Additional Requirements
Dual degree students, like all other MUP students, must fulfill the internship requirement.

Doctoral Degree
Policy, Planning, and Development (DPPD)
The USC Price Doctor of Policy, Planning, and Development offers established professionals in the public, private and nonprofit sectors a high level academic experience to enhance their leadership capabilities, to develop their capacities in social change and innovation, and to extend their knowledge of policy, administration, planning and development. Through their interaction with Price faculty and advanced practitioners, including members of their cohort, participants in the program will become more adaptive agents of change as they address the most complex and challenging governance problems of our times.

The goals of the DPPD are: to create a unique educational environment that will forge advanced professionals into a cadre for effective social, political and economic change; to develop professionals who can apply new policy, planning and administrative tools to design and implement new and integrative public policies; to establish and impart a new set of problem-solving paradigms for examining and altering decision making; and to equip professionals with sophisticated analytical tools and a sharper global and cultural awareness.

The DPPD offers a rigorous curriculum, an applied approach and an interdisciplinary course of study that provides knowledge,
practice-based skills, and research capabilities for today’s leaders. Moreover, the program prepares advanced professionals to provide change leadership in social innovation, particularly in urban communities. Doctoral candidates will specialize in a particular domain, one often cutting across disciplinary boundaries, that enables students to align their research and doctoral thesis with their professional and intellectual interests.

Applicants are expected to hold a master's degree in planning, public policy, public administration, leadership, real estate development or a closely related field. Applicants without master's degrees in other fields will be expected to complete foundation courses prior to entering the degree core courses in consultation with the appropriate degree director. Those admitted without advanced standing complete a total of 60 units.

**Prerequisite**

Applicants are required to have a basic competence in descriptive and inferential statistics. This prerequisite may be met in one of two ways: (1) entering students must have passed a college level inferential statistics class, with a grade of "B" or better, at an approved university within three years of matriculation or (2) take PPD 502 Statistical Foundations for Public Management and Policy and complete with a grade of "B" or better. If students select to take PPD 502, the units associated with this class may not be used toward the DPPD degree.

**Professional Advisory Committee**

By the end of the second year of study, the student will form a three-member Professional Advisory Committee consisting of three persons. The chair of the committee will be a full-time USC Price faculty member (tenured, tenure-track or full-time teaching or research faculty member). However, other committee members may include either faculty or professionals in the field of the student's area of interest. This committee will oversee the student's program to its conclusion. One member of the committee needs to be a tenure-track or tenured professor at USC.

**Curriculum Requirements**

The DPPD program is administered by the Price School of Public Policy. A minimum of 80 units of course work beyond the baccalaureate is required for a doctoral degree including research courses and 4 units of doctoral dissertation. A minimum of 36 units of course work beyond the first graduate degree, exclusive of dissertation units, is required for doctoral degree students admitted with Advanced Standing. If a student enters with a related master's degree, he or she may be admitted with advanced standing and complete a minimum of 40 units.

**Foundation Courses (20 units)**

Up to 20 units of foundation courses are required for students admitted without advanced standing. These courses may be taken from the school's master's degree programs or, with prior approval, from other USC graduate programs.

**Required Courses**

Students are required to complete 16 units of required core courses, 4 units of methodology, 16 units of field coursework, and 4 units of professional dissertation (PLUS 694a PLUS 694b PLUS 694c PLUS 694d PLUS 694z).

**Core Courses (16 units)**

- PLUS 650 Public Policy and Globalization Units: 4
- PLUS 651 Applied Research Design and Inquiry Units: 4
- PLUS 652 Place, Institutions, and Governance Units: 4
- PLUS 653 Leading Change and Innovation in Urban Communities Units: 4

**Methodology Course (4 units)**

Students select one 4-unit methods course, to be determined and approved by the student's professional advisory committee.

**Field of Study (16 units)**

In consultation with their faculty advisor and Professional Advisory Committee, students will craft the field of study and identify associated courses related to their professional area of interest. The field may or may not reflect standard academic boundaries and we expect most fields would cut across traditional disciplinary boundaries. Students should take advantage of USC's resources in developing the field, especially taking into consideration the relationship of practice to theory. The field of study should be seen as providing the tools for effective practice in the student's area of interest. Sixteen units of course work are required for the field of study, of which 8 may be taken outside the Price School of Public Policy. Four units of the 16 units of field courses should be directed research with the student's Professional Advisory Committee Chair, to prepare for writing the professional dissertation.

**Qualifying Exam**

Students will hold a formal defense of their dissertation topic at the end of year three as the qualifying examination. Upon successful completion, students advance to doctoral candidacy and enroll in PLUS 694a, PLUS 694b, PLUS 694c, PLUS 694d and PLUS 694z.

**Dissertation (4 units)**

The professional dissertation is a research-based study of a policy issue, an administrative process, or other element of professional practice. Students are expected to enroll in PLUS 694a, PLUS 694b, PLUS 694c, PLUS 694d and PLUS 694z in fall and spring semesters for a minimum of four units, typically with their cohort, once they have defended a professional dissertation proposal. PLUS 694a, PLUS 694b, PLUS 694c, PLUS 694d and PLUS 694z will be taken in year four to satisfy this requirement.

Each professional dissertation should be designed to present an innovative or original contribution to the world of practice, and is expected to be a substantial work that satisfies the rigorous standards of academic research and creativity. It is likely that dissertations will cut across various fields and disciplines. The parameters of the professional dissertation are intentionally left open, allowing the project to be produced as solely text, or text in conjunction with film, computer program, design or other multimedia format.

The dissertation is supervised by the student's Professional Advisory Committee. Students must then maintain continuous registration in the PLUS 694a, PLUS 694b, PLUS 694c, PLUS 694d and PLUS 694z series until completion of the professional dissertation. Upon completion of an approved draft of the dissertation, students will present their findings in an open session but the Professional Advisory Committee will be the sole evaluator.

**General Requirements**

The DPPD is administered by the Price School of Public Policy. At least 24 units must be fulfilled in residence at USC. The total length of study must not exceed six academic years. Policies regarding time limits, leaves of absence, scholarship standings, academic warning and other issues not directly addressed here are consistent with those of the Graduate School.

**Public Policy and Management (PhD)**

The Price School offers two PhD programs. Both the Doctor of Philosophy (PhD) in Public Policy and Management and the Doctor of Philosophy (PhD) in Urban Planning and Development degree programs are under the jurisdiction of the Graduate School. Students should also refer to Graduate and Professional Education and The Graduate School sections of this catalogue for general regulations. All courses applied toward the degrees must be courses accepted by The Graduate School.

This PhD program in the Price School emphasizes a rigorous program of advanced study and research, stressing qualitative or quantitative analysis and the theoretical foundations of their field of study. This program is designed to provide students with the opportunity to develop their own specialization and expertise in their major field while also offering a breadth of knowledge in an especially rich intellectual environment.
Curriculum Requirements

Theoretical Core (11-12 Units)*
- PPD 711 Theoretical Foundation of Public Management Units: 4
- PPD 712 Seminar in Public Policy Units: 4
- PPD 715 Political Economy and Institutional Analysis Units: 4 *

Note:
*Students may petition to substitute PPD 715 with a different theory course derived from a discipline. Examples include MOR 602, ECON 500, etc.

Methodology (20 units):
- PPD 706 Paradigms of Research and the Design of Inquiry Units: 4
- PPD 558 Multivariate Statistical Analysis Units: 4 or 
- ECON 513 Practice of Econometrics Units: 4
- PPD 716 Econometrics for Policy, Planning and Management I Units: 4 *
- PPD 717 Econometrics for Policy, Planning and Management II Units: 4 *
- PPDE 668 Applied Econometrics for Program Evaluation Units: 4 *

Note:
*Students may petition to substitute PPDE 668, PPD 716, PPD 717 with different methodology courses with the approval of the faculty adviser or qualifying exam chair (if applicable), and the PhD director. Students with master's degrees and who have taken an equivalent course to PPD 558 may petition to substitute this course requirement with another methodology course.

Field Courses (12 units)
Students select 12 units of field courses that can be used to develop disciplinary expertise related to specialization interest or additional methodological expertise. Fields are developed with qualifying exam committee approval, can include any combination of the Price School and outside courses and are unique to each student.

Directed Research (4 units)
Students will enroll in four units of directed research during their first year (2 units fall and 2 units spring). This will ensure they get involved in a research experience during their first year with faculty mentors.
- PPD 790 Research Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12

Research Seminar (4 units)
Students will take PPD 710a, PPD 710b (2 units each, 4 total units), the Price School research seminar course.
- PPD 710a Research Seminar Units: 2
- PPD 710b Research Seminar Units: 2

Teaching Seminar (2 units)
Students will take one semester of the teaching seminar:
- PPD 700 Teaching Seminar (2 units)

Students entering the doctoral program without a relevant master's degree in public administration or public policy or a related field will be required to complete prerequisites (10-11 units) relevant to their program as determined by their faculty adviser.

Additional Requirements

Admission with Advanced Standing
Students entering the doctoral program with a master's degree from an accredited institution in public management/administration, public policy, planning, or urban development or related field may be admitted with advanced standing to either PhD program. In the Public Policy and Management program, students must complete a minimum of 53-54 units of doctoral classes beyond that graduate degree, exclusive of PPD 794a Doctoral Dissertation, PPD 794b Doctoral Dissertation, PPD 794c Doctoral Dissertation, PPD 794d Doctoral Dissertation, PPD 794z Doctoral Dissertation units, for a minimum of 57-58 semester units. In the Urban Planning and Development program, students must complete a minimum of 54 units of doctoral classes beyond that graduate degree, exclusive of PPD 794a Doctoral Dissertation, PPD 794b Doctoral Dissertation, PPD 794c Doctoral Dissertation, PPD 794d Doctoral Dissertation, PPD 794z Doctoral Dissertation units, for a minimum of 58 semester units. Additional course work may be required if deemed necessary by the student's faculty following the screening examination.

A maximum of 6 units of transfer credit may be applied toward a doctoral degree with advanced standing and with the approval of the faculty adviser or PhD director. Only course work not used to complete the master's degree described above is available for transfer credit. No exceptions are allowed.

Qualifying Exam Committee
Students will form an initial qualifying exam committee by the end of the first fall semester, which officially oversees the development of the student's academic program through the qualifying examination. Students should refer to the Graduate School section regarding the qualifying exam committee and the outside member. The complete qualifying exam committee must be in place no later than the third semester.

Screening Procedures
Students must have a 3.3 overall GPA in first-year courses to continue in the program.

Work Plans
At the end of each spring semester, the student submits an academic work plan for the coming year to his or her qualifying exam committee chair. The plan should include courses, degree progress, seminar attendance and what was learned from those, and a research plan that articulates the major research questions being explored. At the conclusion of year one, the chair reviews and approves the work plan and at the end of year two, the chair reviews the work plan and the second year plan.

Qualifying Examination
The qualifying exam committee prepares a comprehensive written examination covering the fields of study. Following completion of the written portion, the entire committee conducts an oral examination of the student, focusing on material both complementary and supplementary to the written examination but relevant to the field and overall program selected by the student. Upon passing both portions of the qualifying examination, the student becomes a candidate for the Doctor of Philosophy degree. The qualifying exam will occur in the fall semester of year three.

Proposal Defense
Students are expected to have a proposal defense by the end of their third year after passing the qualifying exam.

Doctoral Dissertation
The dissertation is based on original research. The research is supervised by a dissertation committee of three or more faculty members. Students should refer to the Graduate School section regarding the dissertation committee. A two-semester minimum registration in PPD 794a, PPD 794b, PPD 794c, PPD 794d, PPD 794z is required of all candidates. Students must maintain continuous registration until completion of the dissertation.

Defense of the Dissertation
Oral defense of the dissertation before the dissertation committee is usually made on a preliminary draft.

Format for Theses and Dissertations
All theses and dissertations submitted in fulfillment of requirements for graduate degrees must conform to university regulations with regard to format and method of preparation. Regulations for Format and Presentation of Theses and Dissertations is available from the Graduate School Website.

General Requirements
Refer to the Graduate School section in this catalogue for policies regarding time limits, leave of absence, scholarship standing and probation.

Urban Planning and Development (PhD)
The Price School offers two PhD programs. Both the Doctor of Philosophy (PhD) in Public Policy and Management and the Doctor of Philosophy (PhD) in Urban Planning and Development degree programs are under the jurisdiction of the Graduate School. Students should also refer to Graduate and Professional
Education and The Graduate School sections of this catalogue for general regulations. All courses applied toward the degrees must be courses accepted by The Graduate School.

The PhD programs in the Price School both emphasize rigorous programs of advanced study and research, stressing qualitative or quantitative analysis and the theoretical foundations of their field of study. The programs are designed to provide students with the opportunity to develop their own specialization and expertise in either major field — public policy and management or urban planning and development — while also offering them a breadth of knowledge in an especially rich intellectual environment.

Curriculum Requirements
The Doctor of Philosophy in Public Policy and Management and the Doctor of Philosophy in Urban Planning and Development are administered by the doctoral committee of the school. The PhD program in Public Policy and Management requires the completion of 64 units of course work, comprising the following elements outlined below:

PhD, Urban Planning and Development
Core Curriculum

Theoretical Core (8 Units)
• PPD 713 Advanced Planning Theory Units: 4
• PPD 714 Advanced Urban Development Units: 4

Methodology (20 units)
• PPD 558 Multivariate Statistical Analysis Units: 4
• PPD 706 Paradigms of Research and the Design of Inquiry Units: 4
• PPD 708 Qualitative Methods Units: 4
• PPDE 668 Applied Econometrics for Program Evaluation Units: 4
• One additional methods courses selected with qualifying exam committee approval Units: 4

Note:
Students may petition to substitute PPD 708, PPDE 668 with different methodology courses with the approval of the faculty advisor or qualifying exam chair (if applicable), and the PhD director. Students with master's degrees and who have taken an equivalent course to PPD 558 may petition to substitute this course requirement with another methodology course.

Specialized Field Courses (16 units)
Students take a minimum of four courses to develop their specialized area of study. Courses may be taken in the Price School or other USC units. Students, working with their qualifying exam committees, have considerable flexibility in forming specializations.

Directed Research (2, 2; 4 units total)
Students will enroll in four units of directed research during their first year (2 units fall and 2 units spring). This will ensure they get involved in a research experience during their first year with faculty mentors.
• PPD 790 Research Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12

Research Seminar (4 units)
Students will take PPD 710a, PPD 710b (2 units each, 4 total units), the Price School research seminar course.
• PPD 710a Research Seminar Units: 2
• PPD 710b Research Seminar Units: 2

Teaching Seminar (2 units)
Students will take one semesters of the teaching seminar:
• PPD 700 Teaching Seminar Units: 2

Students entering the doctoral program without a relevant master's degree in urban planning or a related field will be required to complete prerequisites (10 units) relevant to their program.

Additional Requirements
Admission with Advanced Standing
Students entering the doctoral program with a master's degree from an accredited institution in public management/administration, public policy, planning, or urban development or related field may be admitted with advanced standing to either PhD program. In the Public Policy and Management program, students must complete a minimum of 53-54 units of doctoral classes beyond that graduate degree, exclusive of PPD 794a Doctoral Dissertation, PPD 794b Doctoral Dissertation, PPD 794c Doctoral Dissertation, PPD 794d Doctoral Dissertation, PPD 794z Doctoral Dissertation units, for a minimum of 57-58 semester units. In the Urban Planning and Development program, students must complete a minimum of 54 units of doctoral classes beyond that graduate degree, exclusive of PPD 794a Doctoral Dissertation, PPD 794b Doctoral Dissertation, PPD 794c Doctoral Dissertation, PPD 794d Doctoral Dissertation, PPD 794z Doctoral Dissertation units, for a minimum of 58 semester units. Additional course work may be required if deemed necessary by the student's faculty following the screening examination.

A maximum of 6 units of transfer credit may be applied toward a doctoral degree with advanced standing and with the approval of the faculty advisor or PhD director. Only course work not used to complete the master's degree described above is available for transfer credit. No exceptions are allowed.

Qualifying Exam Committee
Students will form an initial qualifying exam committee by the end of the first fall semester, which officially oversees the development of the student's academic program through the qualifying examination. Students should refer to the Graduate School section regarding the qualifying exam committee and the outside member. The complete qualifying exam committee must be in place no later than the third semester.

Screening Procedures
Students must have a 3.3 overall GPA in first-year courses to continue in the program.

Work Plans
At the end of each spring semester, the student submits an academic work plan for the coming year to his or her qualifying exam committee chair. The Plan should include courses, degree progress, seminar attendance and what was learned from those, and a research plan that articulates the major research questions being explored. At the conclusion of year one, the chair reviews and approves the work plan and at the end of year two, the chair reviews the work plan and the second year paper.

Qualifying Examination
The qualifying exam committee prepares a comprehensive written examination covering the fields of study. Following completion of the written portion, the entire committee conducts an oral examination of the student, focusing on material both complementary and supplementary to the written examination but relevant to the field and overall program selected by the student. Upon passing both portions of the qualifying examination, the student becomes a candidate for the Doctor of Philosophy degree. The qualifying exam will occur in the fall semester of year three. Proposal Defense
Students are expected to have a proposal defense by the end of their third year after passing the qualifying exam.

Doctoral Dissertation
The dissertation is based on original research. The research is supervised by a dissertation committee of three or more regular USC faculty, at least one of whom must be from outside the Price School of Public Policy. A two-semester minimum registration in PPD 794a, PPD 794b, PPD 794c, PPD 794d, PPD 794z is required of all candidates. Students must maintain continuing registration until completion of the dissertation.

Defense of the Dissertation
Oral defense of the dissertation before the dissertation committee is usually made on a preliminary draft.
**Aerospace Studies**

Physical Education Building 112  
(213) 740-2670  
Administration  
Reid Wynans, Lieutenant Colonel, USAF  
Faculty  
Professor: Reid Wynans (Lieutenant Colonel, USAF)  
Assistant Professors: Nate Barnhart, (Major, USAF); Kaili Morikawa, (Captain, USAF)  
The Department of Aerospace Studies offers a three- to four-year program of instruction leading directly to commissioning as an officer in the United States Air Force. To obtain a commission, qualified students must pass an aptitude test, physical fitness assessment and a medical examination; complete the Aerospace Studies program of instruction and concurrently receive an undergraduate or graduate degree. Credits earned in Aerospace Studies courses may be counted as electives in some degree programs. Those students who qualify for and are selected to enter Air Force pilot training will be given flight instruction upon graduation. Qualified applicants may compete for a variety of Air Force scholarships, some of which pay full tuition, books and associated fees. USC also offers a matching $4,000 scholarship per year for all AFROTC scholarship recipients. See the Tuition and Fees page for additional scholarship information. Students dual-enrolled as AFROTC cadets are offered competitive opportunities to attend various related symposia and professional development opportunities throughout the year.

**Program Requirements**

**Academic Year Program**  
This program consists of up to eight semesters of Aerospace Studies academic and Leadership Laboratory courses (AEST 100a, AEST 100b through AEST 400a, AEST 400b) plus a two-week summer field training course. All students, regardless of desire to pursue a military commission, may enroll in the academic courses that focus on such disciplines as Foundations of the United States Air Force, Team and Leadership Fundamentals, and National Security Affairs. The program can be tailored for students who join during their freshman or sophomore years. The open enrollment classes consist of one hour of academics for the AEST 100 and AEST 200 courses and three hours of academics for the AEST 300 and AEST 400 courses. The Leadership Laboratory courses are for AFROTC Cadets only.

**Summer Training Courses**  
Field training is offered during the summer at Maxwell Air Force Base in Montgomery, Alabama. Students participate in two weeks of intensive training, normally between their sophomore and junior years. Additional summer training courses at locations around the world are available to interested students to build leadership and human relations skills, develop cultural and language proficiency, provide a general orientation in Air Force specialties and motivate cadets toward an Air Force career. The training opportunities vary each year but may include cultural and language immersion programs, engineering research and apprenticeships, and orientation programs related to other air, space and cyberspace specialties.

**Military Science**

Physical Education Building 110  
(213) 740-1854  
Administration  
Laura J. Skinner (Lieutenant Colonel, U.S. Army)  
Faculty  
Professor/Commander: Laura J. Skinner (Lieutenant Colonel, U.S. Army)  
The Department of Military Science provides professional training for students leading to a commission, upon graduation, in the Active Army, Army Reserve or the Army National Guard. Through the Army Reserve Officers’ Training Corps Program (AROTC), scholarship benefits include full tuition, fees and book stipends. Scholarships are also available for Guaranteed Reserve Forces Duty. Military science instruction is focused on hands-on leadership development and the practical application of military skills needed to produce America’s future leaders. Additionally, military science courses count as electives in many degree programs. MS 101 and MS 102 are open to students who are not enrolled in the program, but have an interest in leadership, management, military history or military training. Enrollment in the Army ROTC program is open to qualified full-time students.

**Scholarship Program**  
The majority of Army ROTC cadets attend USC on Army scholarships. All Army scholarships are merit-based and are not dependent on individual financial need. Scholarships are available for both Active Duty and Guaranteed Reserve Forces Duty. Scholarships are awarded on a competitive basis to qualified applicants for two-, three- or four-year periods depending on the applicant's academic level and program of study. Scholarship cadets receive benefits that cover full tuition, fees and a book stipend, and are available to all majors. See the Tuition and Fees page for additional scholarship information.

**Enrolled Cadets**  
Contracted scholarship and non-scholarship cadets can receive a monthly stipend. Contracted scholarship cadets receive an annual book allowance. All enrolled scholarship and non-scholarship cadets receive uniforms and military science textbooks from the department.

**Four-Year Program**  
The four-year military science curriculum is designed to be part of the student’s undergraduate degree program. During the freshman and sophomore years, students receive introductory instruction in the theory of warfare, military history, military
leadership and basic military skills. During the junior and senior years, cadets participate in a professional development program with instruction in leadership, management, military justice and advanced military skills.

Three-Year Program
The three-year program is available to qualified sophomore undergraduate students. Students may compress the first two years of the ROTC program by attending two ROTC classes per semester during their sophomore year. Scholarships are available, on a competitive basis, for students with three years remaining toward the completion of their undergraduate degree. Transfer students who meet the same criteria are also eligible for scholarships. Upon acceptance, students then follow the military science program described for the four-year program.

Two-Year Program
The two-year program is available to qualified junior and senior undergraduate students and graduate students who have two years of academic work remaining. Veterans who have achieved junior academic status and meet enrollment criteria are also eligible for this program. Students may receive credit for the first two years of the ROTC program by attending the Army ROTC Basic Camp at Fort Knox, Kentucky, or by previous participation.

Naval Science

Physical Education Building (PED) 101
(213) 740-2663

Administration
Sean M. McBride, BS, MS (Colonel, U.S. Marine Corps), Commanding Officer

Faculty
Professor: Sean M. McBride, BS, MS, (Colonel, U.S. Marine Corps)
Associate Professor: Robert Hill, BS, MS (Commander, U.S. Navy)
Assistant Professors: Nicholas D. Patitas, BS (Captain, U.S. Marine Corps); Nicholas S. Smith, BS (Lieutenant, U.S. Navy); Eric G. Tan, BA (Lieutenant, U.S. Navy); John G. Frem, BS (Lieutenant, U.S. Navy)

The Department of Naval Science provides professional training for undergraduate students (midshipmen) leading to a commission, upon graduation, in the United States Navy or the United States Marine Corps. Through the Naval Reserve Officers Training Corps Program (NROTC), scholarship students receive full tuition, fees, book stipend and $250–$400 per month subsistence allowance. The university also provides an additional automatic scholarship of $4,000 per year for each NROTC scholarship recipient.

Non-scholarship students may apply to participate as members of the midshipman battalion with limited financial assistance, earning a commission upon completion of the baccalaureate degree. Because of the rapid development of highly technical ship systems, aviation and other military equipment, the majority of Navy scholarships are awarded to science and engineering majors; however, limited Navy scholarships and all Marine Corps scholarships are currently available to students pursuing any major offered by the university, as long as they complete basic technical requirements. In addition to university requirements, midshipmen must complete 17–23 units of naval science courses, a physical fitness test and three active duty summer training sessions, each about three to six weeks long.

All naval science courses are open to students who are not in the program but have an interest in the Navy and Marine Corps related fields, such as engineering, navigation, amphibious warfare, naval operations, history and leadership/management.

Program Requirements

Scholarship Program
The majority of naval science students attend the university on Navy or Marine Corps scholarships. Scholarships are awarded primarily on a four-year basis to high school seniors selected in nationwide competition. Two- and three-year scholarship programs are also available with a similar selection process. In addition to tuition and fees, books and uniforms, students receive subsistence allowance of $250–$400 per month. Navy Option midshipmen later will be required upon graduation to serve a minimum of five years of active military service. Additional requirements may be required for specific job assignments. The NROTC program only commissions Naval officers into the following communities: Aviation (pilot or naval flight officer), Submarine Warfare, Surface Warfare, Special Operations (Explosive Ordnance Disposal), Special Warfare (SEALs) or Medical/Dental Corps.

College Program
Students may join NROTC as non-scholarship "College Program" students. These students receive uniforms and participate as regular midshipmen in the program but do not receive scholarship or stipend funds or attend summer training. College Program students must complete and be selected for a two- or three-year scholarship or be placed in an "Advanced Standing" status in order to continue in the program and receive an active duty commission.

Marine Corps Option
The Marine Corps option prepares midshipmen for service as second lieutenants in the United States Marine Corps. Marine Option Midshipmen must successfully complete Officer Candidate School (OCS) in order to earn their commission. This intensive 6-week course is completed during their final summer training session. Marine Corps Option students also participate, on a limited basis, in local field training exercises during the academic year. Marine Corps Option midshipmen will be required upon graduation to serve at least four years on active duty.

Requirements for Commissioning
Students must meet USC degree requirements in their chosen fields and complete the prescribed naval science courses and Naval Science Laboratory (NS LAB). In addition, Navy scholarship students must include in their programs MATH 125 Calculus I and MATH 126 Calculus II and PHYS 151Lg Fundamentals of Physics I: Mechanics and Thermodynamics and PHYS 152L Fundamentals of Physics II: Electricity and Magnetism; two courses of English, one course in American history/national security policy and one course in world culture/regional studies.

For more detailed program information, go to the USC NROTC Website at usc.edu/dept/nrotc.
The USC Suzanne Dworak-Peck School of Social Work offers programs of study leading to the Master of Social Work (MSW), Doctorate of Social Work (DSW), and Doctor of Philosophy (PhD) in social work as well as the Master of Science in Nursing (MSN). These programs provide the student a broad background of knowledge about health and welfare problems, the meaning of programs past and present that have been established to meet them, and current issues and policy trends in the field.

At the same time, the student is helped to become a professional person through development of a philosophy in harmony with that of the profession: to prevent and mitigate severe social problems that challenge the viability of culturally diverse and complex urban settings; to build on the strengths of individuals, families, and communities; and to lead the scholarly search for innovative, efficacious and just solutions.

Administration
Sarah Gehlert, PhD, Dean
Concepcion Barrio, PhD, Interim Executive Vice Dean
Michael Hurtuburt, PhD, Director, Doctoral Programs
Charles Kaplan, PhD, Associate Dean, Research
Joshua Watson, EdD, Assistant Dean, Student Services
Leslie Wind, PhD, Chair, MSW Program
Janet Schneiderman, PhD, Chair, MSN Program

Faculty
Chinese-American Golden Age Association/Dr. Frances Wu
Endowed Chair: Iris Chi, DSW
Dean’s Professor of Social Work and Business: Michélie E. Mor Barak, PhD*

Frances L. and Albert G. Feldman Endowed Professorship in Social Policy and Health: Lawrence Palinkas, PhD
Frances G. Larson Professor of Social Work Research: John Brekke, PhD*

John Milner Professor of Child Welfare: Jacquelyn McCroskey, DSW*

David Warren Stein/Violet Goldberg Sachs Professor of Mental Health: Marleen Wong, PhD

Richard M. and Ann L. Thor Professor in Urban Social Development: Suzanne Wenzel, PhD

Professors: John Brekke, PhD*; Iris Chi, DSW; John Clapp, PhD; Yuri Jang, PhD; Jacquelyn McCroskey, DSW*; Michélie E. Mor Barak, PhD*; Lawrence Palinkas, PhD; Avelardo Valdez, PhD; Suzanne Wenzel, PhD

Associate Professors: Cleopatra Abdou, PhD; Maria Aranda, PhD*; Concepcion Barrio, PhD; Devon Brooks, PhD; Carl Castro, PhD; Julie Cederbaum, PhD; Alice Cepeda, PhD; Jeremy Goldbach, PhD; Benjamin Henwood, PhD; Michael Hurtuburt, PhD; Helen Land, PhD*; Karen Lincoln, PhD; Ferol Mennen, DSW*; Eric Rice, PhD; Dorian Traube, PhD; Shinny Wu, PhD; Ann Marie Yamada, PhD

Assistant Professors: John Bloach, PhD; Robyn Cox, PhD; Jordan Davis, PhD; Daniel Hackman, PhD; Elizabeth Kim, PhD; Jennifer Lewis, PhD; Jane Okom, PhD; Karen Phillips, PhD; Melissa Pinedo, PhD; Jennifer Scott, EdD; Elisa Slade, PhD; Lihh Werhahn, PhD; Roberto Zayas, PhD

Clinical Professors: Eileen Abel, PhD; Rafael Angulo, MSW; Margarita Artavia, MSW; Judith Axiosovitz, MSW; Annalisia Ennile, PhD; Stephen Hydon, EdD; Anne Katz, PhD; Paul Maiden, PhD; Murali Nair, PhD; Tyan Parker Dominguez, PhD; Renee Smith-Maddox, PhD; Doni Whislet, PhD; Marleen Wong, PhD

Clinical Associate Professors: Rosamaria Alamo, PhD; Jane Allgood, PhD; Estela Andujo, MSW; Juan Araque, PhD; Kathleen Becker, DNP; Karra Bikson, PhD; David Bringhurst, PhD; Nikki Cavalier, MSW; Ruth Cisloowski, MSW; Tony Cox, EdD; Kimberly Finney, PhD; Terence Fitzgerald, PhD; Pamela Franzwa, MSW; Kim Goodman, MSW; Blanca Harper, DSW; Suh Chen Hsiao, DPDD; Maria Hu, DSW; Dawn Joosten-Hagye, PhD; Seth Kurzban, PhD; Terri Lee, MSW; Jennifer Lewis, PhD; Omar Lopez, MSW; Martha Lyon-Levine, PhD; Shannon Mayeda, PhD; Renee Michelsten, MSS; Sam Mistano, JD; Sharon O’Neill, JD, DNP; Christina Paddock, MSW; Elizabeth Phillips, PhD; Michael Rank, PhD; Erik Schott, EdD; Michael Sela-Amir, PhD; Melissa Singh, EdD; Candace Smith, EdD; Fred Stone, PhD; Ruth Supranovich, EdD; Vivien Villaverde, MSW; Benita Walton-Moss, PhD; Deborah Waters-Roman, EdD; Eugenia Weiss, PsyD; Ruth White, PhD; June Wiley, PhD; Leslie Wind, PhD; Lisa Wobbe-Keit, MSW; Beverly Younger, PhD; Kristen Zaleski, PhD; Michelle Zappas, DNP

Clinical Assistant Professors: Danielle Brown, MSW; Steven Bush, EdD; Laura Cardinal, MSW; Gabriel Crenshaw, PsyD; Kerry Doyle, MSW; Josephine Fava-Hochuli, DNP; William Feuerborn, DSW; Umeka Franklin, EdD; Susan Hess, MSW; Janett Hildebrand, PhD; Harry Hunter Jr., PhD; Jane James, JD; Wanda Jewell, PhD; Tracie Kirkland, DNP; Stacy Kratz, PhD; Britani Morris, MSW; Jan Nissly, PhD; Jennifer Parga, MSW; Holly Priebe Sotelo, MSW; Cynthia Sanchez, DNP; Sara Schwartz, PhD; Andrea Witkin, PhD; Kathleen Woodruff, DNP

Senior Lecturers: Marco Formigoni, MSW; Laura Gale, EdD; Iris Gonzalez-Thrash, MSW; Robert Hernandez, DSW; Cheryl Macon-Oliver, MSW; Sara McSweyn, MSW; Richard Newmyer, MSW; Aimee Odette, DSW; Cynthia Rollo-Carlson, MSW; Lily Ross, MSW; Shane’a Thomas, MSW

Lecturers: Cassandra Fatouros, MSW/MSA; Lisa Kabot, MSW; Jessica Klein, MSW; Debbie Murad, MSW; Dorothy Nieto Manzer, MSW; Carol Ann Peterson, PhD; Stephanie Wander, MBA; James Wind, MBA

Research Professor: Charles Kaplan, PhD
Research Associate Professors: Donald Lloyd, PhD; Janet Schneiderman, PhD
Research Assistant Professors: Hazel Atuel, PhD; Sara Kintzle, PhD; Sonya Negriff, PhD; John Pridel, PhD; Harmony Rhoades, PhD; Sherrie Wilcox, PhD; Hsin Yi Hsiao, PhD

Emeritus Professors: Howard J. Parad, DSW*; Rino Patti, DSW*; Barbara Solomon, DSW*

Emeritus Field Education Faculty: Rhoda G. Sarnat, MA

*Recipient of university-wide or school teaching award.

Degree Programs

The Suzanne Dworak-Peck School of Social Work offers the Master of Social Work (MSW), the Master of Science in Nursing (MSN), the Doctorate of Social Work (DSW), the Doctor of Philosophy (PhD) and the dual Master of Social Work/Doctor of Philosophy, Social Work (MSW/PhD) degrees. In addition, the school offers dual degrees with the schools of business, gerontology, law, medicine, public policy and the Hebrew Union College.

Dual Degree Programs

The Suzanne Dworak-Peck School of Social Work currently offers dual degree programs with several other USC professional schools. In addition, the school maintains a dual degree program at Hebrew Union College located adjacent to the USC campus.

The goal of these programs is to encourage graduate students to gain a recognized competence in another discipline that has direct relevance to the roles filled by social workers in society. Dual degree programs are based on the premise that some topics covered in the school are also addressed in the curricula of other departments, so that some credit toward an MSW degree may be given for specific courses in the cooperating department. Similarly, these departments have recognized that some credit toward their corresponding degree may be awarded for work completed
in the Suzanne Dworak-Peck School of Social Work. For this reason, students enrolled in dual degree programs can obtain both degrees with a reduced number of total units. Students wishing to enroll in dual degree programs must apply for and be admitted to both schools.

Master of Social Work/Master of Science, Gerontology

The MSW/MS Gerontology dual degree offers the student interested in direct service or community organization the credentials most valued in clinical and therapeutic practice. Students enrolled in this dual degree receive an MSW as well as an MS in Gerontology. This dual degree requires completion of 73 units: 32 units of work in the Davis School of Gerontology and 41 units in the Suzanne Dworak-Peck School of Social Work. The course work is usually completed over a 24-month period for full-time students.

Students must complete MSW course work in foundation, field instruction and core courses specific to the AMHW or SCI departments. See the Master of Social Work/Master of Science, Gerontology (MSW/MS Gerontology) in the USC Leonard Davis School of Gerontology for course requirements.

Master of Social Work/Master of Public Administration

The Master of Social Work/Master of Public Administration (MSW/MPA) dual degree program provides those students interested in careers as administrators of social service agencies the opportunity to combine preparation in the substantive field of social work with the acquisition of the administrative capabilities necessary in the public sector. Students must complete 82 units: 54 units in social work and 28 units in public administration.

Dual degree students must complete MSW course work in foundation, field and core courses specific to the AMHW, SCI or CYF departments.

Most students complete both program requirements in 24 months for full-time students. See the USC Price School of Public Policy for course requirements.

Master of Social Work/Master of Urban Planning

The Master of Social Work/ Master of Urban Planning (MSW/MUP) dual degree program between the USC Suzanne Dworak-Peck School of Social Work and the USC Price School of Public Policy offers unique opportunities for students who want to devote their professional careers to social policy, social planning or social services delivery.

Students must complete 83 units, including 51 units in social work and 32 units in urban planning. They must also select a community organization, planning, and administration concentration in the second year of their social work program.

There are six concentrations available in the Master of Urban Planning program. Please see Urban Planning (MUP) for the concentration descriptions and course lists.

Master of Social Work/Juris Doctor, Law

The Master of Social Work and Juris Doctor (MSW/JD) dual degree program with the USC Gould School of Law is a four-year program in which students complete a total of 121 units. This includes 45 units in social work and 76 units in law.

To earn the JD, all students (including dual degree students) must complete 35 numerically graded law units at USC after the first year. The associate dean may make exceptions to this rule for students enrolled in law school honors programs. Students must apply to both programs prior to matriculation. The program of study is as follows:

First and Second Years: Complete both the first-year JD program of study and MSW course work in foundation, field and core courses specific to the AMHW, SCI or CYF departments.

Third Year: Complete the second year JD program.

Fourth Year: Complete the remaining required core department and field courses and one semester of field instruction and the final semester of the JD program in the spring.

The law school gives credit for the third semester in the Suzanne Dworak-Peck School of Social Work. At the same time, the latter recognizes law courses as substitutions for a one-semester practice course, special topics courses, the third semester of social policy and one semester of field instruction (for which a clinical law semester is substituted).

Master of Social Work/Master of Business Administration, Business

The MSW/MBA dual degree develops knowledge and skills in working with individuals, families and groups, as well as organizational dynamics, marketing, decision sciences, accounting, and human relations. Students interested in working in the management of human services and not-for-profit organizations will develop knowledge of human resources, philanthropic and corporate social responsibility, organizational development, and information management.

Prospective students must apply to both the Suzanne Dworak-Peck School of Social Work and the USC Marshall School of Business.

The MSW/MBA requires completion of a total of 96 units: 48 in the Marshall School of Business and 48 in the Suzanne Dworak-Peck School of Social Work.

Students must select the Department of Social Change and Innovation (SCI). Dual degree students must complete MSW course work in foundation, field and core courses specific to the SCI department.

Course requirements in the Marshall School of Business include all required courses in an MBA program and graduate business electives sufficient to bring the total units completed in the Marshall School of Business to at least 48. Dual degree students may not count courses taken outside the Marshall School of Business toward the 48 units. For MBA admission and degree requirements, visit USC Marshall School of Business.

The MBA and the MSW degrees are awarded simultaneously upon completion of all program requirements.

Hamovitch Center for Science in the Human Services

The Hamovitch Center for Science in the Human Services, located in the Suzanne Dworak-Peck School of Social Work, serves as the administrative umbrella for the school’s centers of research excellence. These centers of interdisciplinary research include the areas of aging, behavioral health, child welfare, homelessness, severe mental illness, veterans and military families, and management and policy. The center hosts seminars and colloquia, which are open to the university and community.

Research projects are supported by federal, state, county and school resources. The center engages faculty in research, demonstration, and application in building and testing theory, developing research instruments, testing models of service and treatment modalities, and evaluating programs and service policy. The center also provides opportunities for doctoral students to acquire research training through ongoing and newly initiated faculty research projects. Doctoral students are encouraged to apply to participate in such projects, which often lead to dissertation possibilities. Predoctoral fellowships and/or research assistantships for projects conducted at the center are sometimes available to incoming and ongoing doctoral students. The center also enables doctoral students to conduct their own research through the auspices of the center, including their dissertation research. All doctoral students are encouraged to attend and participate in the center’s colloquia and programs to enhance their involvement with and skills in research and knowledge development.

Minor

Social Work and Juvenile Justice Minor

The Social Work and Juvenile Justice minor is designed for students who want to increase their knowledge of the juvenile justice system and service environments for diverse youth
populations. This minor is fit for students in the behavioral and social sciences and any student interested in developing a broad knowledge of issues in the field of juvenile justice. The minor is of particular interest to students wishing to pursue graduate studies in social work, law, sociology, psychology, public health or education.

Required Courses
- SOWK 200xm Institutional Inequality in American Political and Social Policy Units: 4
- SOWK 324 Juvenile Justice in America Units: 4
- SOWK 350 Adolescent Gang Intervention Units: 4
- SOWK 424 Community Experience in Juvenile Justice Environments Units: 4

Master's Degree

Master of Science in Nursing, Family Nurse Practitioner (MSN-FNP)

The program of study that leads to the Master of Science in Nursing, Family Nurse Practitioner (MSN-FNP) degree consists of 49 units (31 units of theory; 12 units of clinical practicum; and 6 units of Social Work courses). The program, which prepares students to practice as family nurse practitioners (FNP), is administered primarily online via the Virtual Academic Center within the Suzanne Dworak-Peck School of Social Work, and features two on-campus intensives (OCI) providing students with opportunities for skills assessments and patient simulations. The clinical practica can be taken in various healthcare settings, including private practice and community-based facilities, and are based on the student's geographical location. The USC MSN-FNP degree is offered in a full-time (five-semester) or part-time (eight-semester) format.

The Department of Nursing is committed to achieving distinction and preparing diverse leaders in research, education and advanced nursing practice. The department aims to work collaboratively with its Suzanne Dworak-Peck School of Social Work and Keck School of Medicine and other health science colleagues to improve patient care by preparing outstanding advanced practice nurses who provide evidence-based health care, and transform the health care system by preparing leaders in health care policy and research.

Required Courses

MSN-FNP Students are required to take the following courses:
- NURS 501 Pathophysiology for Advanced Nursing Practice Units: 4
- NURS 502 Advanced Health Assessment Across the Life Span Units: 3
- NURS 503 Theory: Clinical Management of Adult Patients Units: 3
- NURS 504 Pharmacology for Advanced Practice Nursing Units: 3
- NURS 505 Clinical Practicum: Management of Adult Patients Units: 3
- NURS 507 Theory: Clinical Management of the Childbearing/Childrearing Family Units: 3
- NURS 600 Theory: Clinical Management of Adult Patients with Complex Medical Issues Units: 3
- NURS 601 Clinical Practicum: Management of the Childbearing/Childrearing Family Units: 3
- NURS 602 Research/Analytical Methods Units: 3
- NURS 603 Transforming Research Evidence into Practice Units: 3
- NURS 604 Clinical Practicum: Management of Adult Patients with Complex Medical Issues Units: 3
- NURS 605 Professional Issues in Advanced Practice Nursing Units: 2
- NURS 606 Health Policy Principles in Changing Health Care Contexts Units: 2
- NURS 607 Theory: Family Primary Care Units: 2
- NURS 608 Clinical Practicum: Family Primary Care Units: 3
- SOWK 506 Human Behavior and the Social Environment Units: 3
- Plus one elective in Social Work (3 units)

Bridge Course Requirement

During the admissions process, applicants will be identified for NURS 500 Bridge Course based on grades in prior science courses and/or length of time away from an academic program of more than five years. Students that successfully complete and receive credit for the Bridge Course will start the full- or part-time MSN-FNP program course sequence in the following semester. Students who do not receive credit for the Bridge Course will not be admitted to the program of study but may reapply to the program in one year.

- NURS 500 Bridge Course Units: 2

Nursing (MSN)

The program of study that leads to the Master of Science in Nursing degree consists of 49 units (31 units of theory; 12 units of clinical practicum; and 6 units of Social Work courses). The program, which prepares students to practice as family nurse practitioners (FNP), is administered primarily online via the Virtual Academic Center within the Suzanne Dworak-Peck School of Social Work, and features two on-campus intensives (OCI) providing students with opportunities for skills assessments and patient simulations. The clinical practica can be taken in various healthcare settings, including private practice and community-based facilities, and are based on the student's geographical location. The USC MSN degree is offered in a full-time (five-semester) or part-time (eight-semester) format. You can learn more about the online nursing program by requesting information here.

The Department of Nursing is committed to achieving distinction and preparing diverse leaders in research, education and advanced nursing practice. The department aims to work collaboratively with its Suzanne Dworak-Peck School of Social Work and Keck School of Medicine and other health science colleagues to improve patient care by preparing outstanding advanced practice nurses who provide evidence-based health care, and transform the health care system by preparing leaders in health care policy and research.

Required Courses

MSN Students are required to take the following courses:
- NURS 501 Pathophysiology for Advanced Nursing Practice Units: 4
- NURS 502 Advanced Health Assessment Across the Life Span Units: 3
- NURS 503 Theory: Clinical Management of Adult Patients Units: 3
- NURS 504 Pharmacology for Advanced Practice Nursing Units: 3
- NURS 505 Clinical Practicum: Management of Adult Patients Units: 3
- NURS 507 Theory: Clinical Management of the Childbearing/Childrearing Family Units: 3
- NURS 600 Theory: Clinical Management of Adult Patients with Complex Medical Issues Units: 3
- NURS 601 Clinical Practicum: Management of the Childbearing/Childrearing Family Units: 3
- NURS 602 Research/Analytical Methods Units: 3
- NURS 603 Transforming Research Evidence into Practice Units: 3
- NURS 604 Clinical Practicum: Management of Adult Patients with Complex Medical Issues Units: 3
- NURS 605 Professional Issues in Advanced Practice Nursing Units: 2
- NURS 606 Health Policy Principles in Changing Health Care Contexts Units: 2
- NURS 607 Theory: Family Primary Care Units: 2
- NURS 608 Clinical Practicum: Family Primary Care Units: 3
- SOWK 506 Human Behavior and the Social Environment Units: 3
- Plus one elective in Social Work (3 units)
Bridge Course Requirement
During the admissions process, applicants will be identified for NURS 500 Bridge Course based on grades in prior science courses and/or length of time away from an academic program of more than five years. Students that successfully complete and receive credit for the Bridge Course will start the full- or part-time MSN program course sequence in the following semester. Students who do not receive credit for the Bridge Course will not be admitted to the program of study but may reapply to theprogram in one year.

Social Work (MSW)
The program of study that leads to the Master of Social Work degree consists of 60 units (42 units of course work and 18 units of field practicum). The program is available at these locations: University Park Campus and Virtual Academic Center via the Internet and can be completed in a full-time (four-semester) program or part-time (six- or eight-semester) program. In addition, some classes are offered at City Center in downtown Los Angeles.

The basic generalist curriculum introduces students to the range of social welfare problems and programs, and to the varieties of human behavior with which social work is concerned. At the same time, students learn the methods by which the social worker, the social agency and the organized community work with people and problems. Field instruction, under supervision in a social agency, is scheduled for two or three days a week, enabling students to apply theory to practice. All content areas include content on diversity, social work values and ethics, and economic justice and populations at risk. At the completion of foundation requirements, students are expected to have acquired a sense of professional responsibility and the ability to use knowledge on behalf of the individual, the group and the community.

The school is organized into three departments: 1) Children, Youth and Families; 2) Adult Mental Health and Wellness; 3) Social Change and Innovation. Students will select one of these departments of study and, upon completion of the generalist curriculum, take required courses and electives focused on department-specific issues. Student take six required department courses, a required diversity courses, and three electives focused on the student's individual interests.

Specific course content includes:

Department of Children, Youth and Families (CYF)
This department prepares students to address the needs of vulnerable children, youth and families from the earliest years of childhood through adolescence and the transition to adulthood. Course work focuses on promoting wellness and preventing trauma, as well as which kinds of service programs are showing the best results for families with different makeup from a variety of racial, ethnic and socioeconomic groups. Students are trained to serve families in a variety of service settings, including health, mental health, early education, schools, child welfare and juvenile justice.

Department of Adult Mental Health and Wellness (AMHW)
This department is focused on enhancing the health and well-being of younger and older adults within families, agencies, institutions, communities and other environments, and eliminating disparities. The curriculum offers course work in mental health and substance use, integrated primary and behavioral health care, wellness and recovery, promotion of healthy aging, social welfare policy, and program and policy evaluation and analysis.

Department of Social Change and Innovation (SCI)
This department prepares students to lead bold, large-scale solutions to social problems and drive positive change in organizations, businesses and government agencies. Students can customize their learning experience by specializing in community organization, workplace interventions or military social work, and taking courses in social change, advocacy, evaluation research, organizational planning and development. The community track prepares students to think critically about problems in communities and organizations, identify barriers to progress and design interventions to facilitate change. The business track prepares students for corporate settings, where they may help employees manage the demands between work and life and companies build positive relationships with their communities.

This system of curriculum offerings provides a strong educational program with a continuing commitment to a generalist base and a focused set of specialized content, in combination with a range of options to meet special interests. This program enables graduates to move into the social work community with a combination of knowledge and skills in a broad arena, as well as in-depth knowledge and skills in a particular method, population or area of service.

The curriculum builds on a liberal arts foundation that all entering students are required to have. The applicant should have a range of undergraduate courses in the humanities and the social and physical sciences.

General Requirements
The Master of Social Work degree requires a minimum of 60 semester units of courses, including field education (1000 clock hours).

The degree is not awarded solely on the basis of credits earned but also requires evidence of competence in both theory and practice. At their discretion, the faculty may require courses or fieldwork or both beyond the minimum requirements.

Time Limit
The master's degree program requires two academic years of full-time study or a structured part-time program that must be completed in a maximum of four years.

Grade Point Average Requirement
In accordance with the requirements of the Graduate School, a grade point average of 3.0 (A = 4.0) is required for admission to the USC Suzanne Dworak-Peck School of Social Work. Likewise, the university requires an overall GPA of 3.0 for graduation from the master's degree program.

Course Requirements
All newly admitted MSW students will follow a program that includes one course in social work practice; one course in policy; one course in human behavior; one course in research methods; one course in diversity; four semesters of field education; six department-specific core courses and three electives.

Course requirements are organized into one semester of generalist practice course work and three semesters of specialized practice course work. Academic credit is not granted for life experience or work experience in lieu of the field practicum or any other courses in the curriculum.

Required Courses
MSW students are required to take the following courses:

• SOWK 506 Human Behavior and the Social Environment Units: 3
• SOWK 536 Policy and Advocacy in Professional Social Work Units: 3
• SOWK 544 Social Work Practice With Individuals, Families, and Groups Units: 3
• SOWK 546 Science of Social Work Units: 3
• SOWK 588 Integrative Learning for Social Work Practice Units: 2
• SOWK 589a Applied Learning in Field Education Units: 3
• SOWK 589b Applied Learning in Field Education Units: 3
• SOWK 630 Diversity, Social Justice, and Culturally Competent Social Work Practice Units: 3
• SOWK 698a Integrative Learning for Advanced Social Work Practice Units: 1
SOWK 698b Integrative Learning for Advanced Social Work Practice Units: 1
SOWK 699a Advanced Applied Learning in Field Education Units: 4
SOWK 699b Advanced Applied Learning in Field Education Units: 4
Plus six additional department core courses and three additional Social Work electives totaling 27 units.

Additional Requirements

Field Education
Field education is an integral part of the Master of Social Work curriculum. Two year-long field education courses are required. The school works closely with thousands of community agencies, organizations, businesses and other field partners to ensure that students receive valuable hands-on practice experience that complements their classroom learning. Students must complete two field internships, or 1,000 field hours in order to be awarded the Master of Social Work degree. The first placement requires 16 hours a week at a practicum agency that aligns with a student's department and includes a two-hour practice lab in the first semester. In these labs, students will be trained to apply three evidence-based interventions: motivational interviewing, problem-solving therapy and cognitive behavioral therapy. In the second semester, students will participate in a two-unit field seminar while completing 16 hours a week at a practicum agency. In the second year of the program, students will increase their field time to 20 hours a week, and in some cases, they may be able to remain at their original field site if the organization can facilitate advanced learning experiences. Additionally, second-year students will participate in a one-unit field seminar where they will learn to apply evidenced-based interventions specific to their department.

Field education takes place in selected agencies and centers, which represent the complete range of social services. Field placements are approved on the basis of the quality of their professional practice, commitment to social justice and to addressing social work problems, interest in participating in professional education, and ability to make personnel and resources available. Field instructors, who are employed by either the agency or the school, are responsible for teaching students in their field placements. The senior associate dean for field education is administratively responsible for all field assignments.

Each placement in field education is made on an individual basis, which takes into consideration the following: geographic location, previous experiences, future goals, professional interests, special needs and stipend requirements. In these placements, students engage in selected and organized social work activities that provide practical experience in applying skills learned in the classroom.

The number of field placement options for non-driving students is limited. Students are encouraged to have access to an automobile for field placement.

Research Requirement
The research requirement consists of one foundation course. In the generalist course of study, SOWK 546 is designed to impart knowledge of research methodology and statistics. Students are required to enroll in courses that combine research skills with evaluation and program development in their department field of study.

Transfer Students
Applicants who have recently completed part or all of the first half of graduate study at a Council on Social Work Education-accredited school of social work may apply as transfer students. In addition to materials described in the section on application procedures, transfer students should forward course syllabi and a bulletin of the school for the year in which the course or courses were taken.

Transfer credits may be applied for those courses determined to be equivalent to USC’s first-year courses or to meet the expectation of the second-year electives. The grade point average for any course taken at another school of social work must be at least 3.0 on a 4.0 grading scale. Where foundation courses are similar, but not equivalent, transfer students may be permitted to take a waiver examination for possible exemption from those courses. Transferred credit for fieldwork will be computed on the basis of clock hours completed as well as on the breadth and depth of contents covered.

Military Social Work and Veteran Services
The Suzanne Dworak-Peck School of Social Work offers a Military Social Work and Veteran Services program in the MSW curriculum targeting military personnel, spouses and other military dependents and military retirees who wish to maintain a post-military career affiliation with the armed forces; military veterans who wish to provide professional services to their military comrades; and civilian personnel who are committed to assisting military personnel, their families and military veterans with adapting, coping and managing the stresses and strains of military life and post-military life.

Course Requirements
Beyond the basic professional social work foundation course requirements of the Master of Social Work degree, the program in Military Social Work and Veteran Services will offer a series of specialized courses focusing on the needs of military personnel, veterans and their families. Students will take two courses in special topics that focus on this area of practice. Individuals pursuing the Military Social Work and Veteran Services program options will also be able to select from a variety of highly relevant elective courses that will serve to enhance their training and future service delivery capabilities.

Advanced Standing Option
The Suzanne Dworak-Peck School of Social Work offers an advanced standing option for students who have graduated with a Bachelor of Social Work (BSW) degree from a Council on Social Work Education (CWSE)-accredited BSW program within the past five years. To be eligible for the advanced standing option, students must have successfully completed their BSW with a minimum GPA of 3.00 for the last 60/90 units of undergraduate work. A cumulative 3.5 GPA for all social work courses with a grade of B or better is required for admission.

Students admitted to advanced standing will bypass 23 units of the MSW program and be required to complete 37 units total of the following course work:

- SOWK 630 Diversity, Social Justice, and Culturally Competent Social Work Practice Units: 3
- SOWK 698a Integrative Learning for Advanced Social Work Practice Units: 1
- SOWK 698b Integrative Learning for Advanced Social Work Practice Units: 1
- SOWK 699a Advanced Applied Learning in Field Education Units: 4
- SOWK 699b Advanced Applied Learning in Field Education Units: 4
- Plus six additional department core courses and two additional Social Work electives totaling 24 units.

Note: Our Advanced Standing Program is offered both on-campus and online through our Virtual Academic Center and can be completed in three semesters (full-time) or five semesters (part-time).

Dual Degree

Master of Social Work/Doctor of Philosophy (MSW/PhD)

Dual Degree Programs
The Suzanne Dworak-Peck School of Social Work currently offers dual degree programs with a number of other USC professional schools. In addition, the school maintains a dual
degree program at Hebrew Union College located adjacent to the USC campus.

The goal of these programs is to encourage graduate students to gain a recognized competence in another discipline which has direct relevance to the roles filled by social workers in society. Dual degree programs are based on the premise that some topics covered in the school are also addressed in the curricula of other departments, so that some credit toward an MSW degree may be given for specific courses in the cooperating department. Similarly, these departments have recognized that some credit toward their corresponding degree may be awarded for work completed in the Suzanne Dworak-Peck School of Social Work. For this reason, students enrolled in dual degree programs can obtain both degrees with a reduced number of total units. Students wishing to enroll in dual degree programs must apply for and be admitted to both schools.

Master's/PhD Requirements

The MSW/PhD dual degree program is a course of study leading to both a graduate degree (Master of Social Work) and Doctor of Philosophy (PhD) in social work. This course of study is offered to exemplary students seeking advanced research based study in social work to become professional leaders who will make significant contributions to the knowledge base of the profession in the social work academic world.

Application:

Prospective students must meet both the MSW and PhD standing admission requirements.

Program Requirements:

A total of at least 90 units is required for the dual degree with at least 42 units in the MSW program and at least 48 units in the PhD program (exclusive of SOWK 794a, SOWK 794b, SOWK 794c, SOWK 794d, SOWK 794z, Doctoral Dissertation). The program can be completed within four years.

Required MSW Courses

Core course requirements include the required MSW courses outlined below. Students will take their remaining MSW units in department core courses specific to either the AMHW, SCI or CYF department. Students will be advised into the appropriate courses.

- SOWK 544 Social Work Practice With Individuals, Families, and Groups Units: 3
- SOWK 546 Science of Social Work Units: 3
- SOWK 588 Integrative Learning for Social Work Practice Units: 2
- SOWK 589a Applied Learning in Field Education Units: 3
- SOWK 589b Applied Learning in Field Education Units: 3
- SOWK 698a Integrative Learning for Advanced Social Work Practice Units: 1
- SOWK 698b Integrative Learning for Advanced Social Work Practice Units: 1
- SOWK 699a Advanced Applied Learning in Field Education Units: 4
- SOWK 699b Advanced Applied Learning in Field Education Units: 4
*Must be taken in the Suzanne Dworak-Peck School of Social Work or elsewhere at USC

PhD Course Requirements

Students must complete a minimum of 48 course units beyond the master's degree (exclusive of SOWK 794a SOWK 794b SOWK 794c SOWK 794d SOWK 794z Doctoral Dissertation). Students must complete at least 24 units within the Suzanne Dworak-Peck School of Social Work and at least three courses in other departments or schools within the university. At least 8 of these 12 units must be in courses with a substantive rather than a research-methodology or statistic focus. Students must also take at least one 3-unit elective and one additional research or statistics course either in the Suzanne Dworak-Peck School of Social Work or elsewhere in the university. Each student must develop a concentration either in another discipline outside the Suzanne Dworak-Peck School of Social Work (such as gerontology; sociology; psychology; preventive medicine; business; policy, planning and development; or political science) or in a problem area where different external courses in different departments or schools bear on a specific social problem like homelessness. An overall grade point average of B (3.0) on all graduate work attempted in the doctoral program is required for graduation.

Core Content

All students are expected to master core content. They must also complete 12 units from the substantive five core courses.

Required PhD Courses

Substantive Courses – Students choose four:

- SOWK 702 Theories of Human Behavior in the Contexts of Social Environments Units: 3
- SOWK 703 Explanatory Theories for Larger Social Systems Units: 3
- SOWK 743 Theories for Practice with Small Systems Units: 3
- SOWK 733 Policy Analysis and Advocacy in a Comparative Social Policy Context Units: 3
- SOWK 744 Theories for Practice with Large Systems Units: 3
- Macro focus: students with a macro focus in policy, community organization or administration must complete either SOWK 702 or SOWK 743.
- Micro focus: students with a micro focus in direct practice must complete either SOWK 703, SOWK 733 or SOWK 744.

Core Courses:

- SOWK 760L Introduction to Social Work Statistics Units: 3
- SOWK 761L Multiple Regression for Social Work Research Units: 3
- SOWK 762 Social Work Research Methods I Units: 3
- SOWK 763 Social Work Research Methods II: Issues in Research for Social Work Practice Units: 3
- SOWK 764 Advanced Multivariate Statistics Units: 3

Other Requirements

Elective* Units: 3
Research or statistics course* Units: 3
Three external courses outside of Social Work Units: 9
SOWK 790 Research Units: 6

Individualized Study Plan

MSW/PhD dual degree students will develop an Individualized Study Plan (ISP) at two points in their educational process. They will develop a plan with their mentor before the fall semester begins in year 1 to identify courses they plan to take in their first and second years. It will be approved by the doctoral committee. Students will develop a plan with their mentor in the spring semester of their second year to identify courses and tutorials they will take in their third and fourth years.

Master of Social Work/Juris Doctor, Law (MSW/JD)

The Master of Social Work and Juris Doctor (MSW/JD) dual degree program is a four-year program. Students are required to complete 121 units of course work, including 76 units in the USC Gould School of Law and 45 units in the USC Suzanne Dworak-Peck School of Social Work.

Program Requirements:

To earn the JD, all students (including dual degree students) must complete 37 numerically graded law units at USC after the first year. The associate dean may make exceptions to this rule for students enrolled in law school honors programs. Students must apply to both programs prior to matriculation. The program of study is as follows:

First Year: Complete the first year JD program of study.
Second Year: Begin taking course requirements in the Suzanne Dworak-Peck School of Social Work, which includes the required courses outlined in the Social Work (MSW) section of the catalogue. Students will also begin to take department core courses specific to the MSW in either the AMHW, SCI or CYF department. Students will be advised into the appropriate courses.
Third Year: Complete the second year JD program.
Fourth Year: Complete the remaining required MSW courses, per advisement, and the final semester of the JD program in the spring.

The law school gives credit for the third semester in the Suzanne Dworak-Peck School of Social Work, while the latter recognizes law courses as substitutions for a one-semester practice course, special topics courses, a third semester of social policy and one semester of field instruction (for which a clinical law semester is substituted).

Master of Social Work/Master of Arts, Jewish Nonprofit Management (MSW/MA)

Dual Degree Programs

The Suzanne Dworak-Peck School of Social Work currently offers dual degree programs with a number of other USC professional schools. In addition, the school maintains a dual degree program at Hebrew Union College located adjacent to the USC campus.

The goal of these programs is to encourage graduate students to gain a recognized competence in another discipline which has direct relevance to the roles filled by social workers in society.

Dual degree programs are based on the premise that some topics covered in the school are also addressed in the curricula of other departments, so that some credit toward an MSW degree may be given for specific courses in the cooperating department. Similarly, these departments have recognized that some credit toward their corresponding degree may be awarded for work completed in the Suzanne Dworak-Peck School of Social Work. For this reason, students enrolled in dual degree programs can obtain both degrees with a reduced number of total units. Students wishing to enroll in dual degree programs must apply for and be admitted to both schools.

Master's Requirements

The dual degree program combines in-class learning and fieldwork under the auspices of the Hebrew Union College-Jewish Institute of Religion's School of Jewish Nonprofit Management (formerly the School of Jewish Communal Service) and the University of Southern California's Suzanne Dworak-Peck School of Social Work.

Application:

Students must apply to both programs prior to matriculation.

Program Requirements:

Students in this dual degree program simultaneously pursue graduate studies leading to the MSW and an MA in Jewish Nonprofit Management over a 24-month period for full-time students. A total of 80 units must be completed to meet the requirements of both degrees (42 units in social work and 38 units at the HUC-JIR School of Jewish Nonprofit Management).

Course requirements in the Suzanne Dworak-Peck School of Social Work include the required courses outlined below. Students will take their remaining MSW units in department core courses specific to either the AMHW, SCI or CYF department. Students will be advised into the appropriate courses.

See Hebrew Union College for MAJNM degree requirements.

Required MSW Courses

- SOWK 506 Human Behavior and the Social Environment Units: 3
- SOWK 536 Policy and Advocacy in Professional Social Work Units: 3
- SOWK 544 Social Work Practice With Individuals, Families, and Groups Units: 3
- SOWK 546 Science of Social Work Units: 3
- SOWK 589a Applied Learning in Field Education Units: 3
- SOWK 589b Applied Learning in Field Education Units: 3
- SOWK 630 Diversity, Social Justice, and Culturally Competent Social Work Practice Units: 3

Master of Social Work/Master of Public Administration (MSW/MPA)

Dual Degree Programs

The Suzanne Dworak-Peck School of Social Work currently offers dual degree programs with a number of other USC professional schools. In addition, the school maintains a dual degree program at Hebrew Union College located adjacent to the USC campus.

The goal of these programs is to encourage graduate students to gain a recognized competence in another discipline which has direct relevance to the roles filled by social workers in society.

Dual degree programs are based on the premise that some topics covered in the school are also addressed in the curricula of other departments, so that some credit toward an MSW degree may be given for specific courses in the cooperating department. Similarly, these departments have recognized that some credit toward their corresponding degree may be awarded for work completed in the Suzanne Dworak-Peck School of Social Work. For this reason, students enrolled in dual degree programs can obtain both degrees with a reduced number of total units. Students wishing to enroll in dual degree programs must apply for and be admitted to both schools.

Master's Requirements

The Master of Social Work/Master of Public Administration/ (MSW/MPA) dual degree program provides those students interested in careers as administrators of social service agencies the opportunity to combine preparation in the substantive field of social work with the acquisition of the administrative capabilities necessary in the public sector.

Program Requirements:

Students must complete 82 units: 54 units in social work and 28 units in public administration.

Course requirements in the Suzanne Dworak-Peck School of Social Work include the required courses in outlined in the Social
Work (MSW) section of the catalogue. Students will take their remaining MSW units in department core courses specific to either the AMHW, SCI or CYF department. Students will be advised into the appropriate courses.

For MPA degree requirements, see Master of Public Administration/Master of Social Work (MPA/MSW). Most students complete both program requirements over a 24-month period for full-time students.

**Master of Social Work/Master of Public Health (MSW/MPH)**

**Dual Degree Programs**

The Suzanne Dworak-Peck School of Social Work currently offers dual degree programs with a number of other USC professional schools. In addition, the school maintains a dual degree program at Hebrew Union College located adjacent to the USC campus.

The goal of these programs is to encourage graduate students to gain a recognized competence in another discipline which has direct relevance to the roles filled by social workers in society. Dual degree programs are based on the premise that some topics covered in the school are also addressed in the curricula of other departments, so that some credit toward an MSW degree may be given for specific courses in the cooperating department. Similarly, these departments have recognized that some credit toward their corresponding degree may be awarded for work completed in the Suzanne Dworak-Peck School of Social Work. For this reason, students enrolled in dual degree programs can obtain both degrees with a reduced number of total units. Students wishing to enroll in dual degree programs must apply for and be admitted to both schools.

**Master’s Requirements**

The Master of Social Work/Master of Public Health (MSW/MPH) dual degree offers the student interdisciplinary preparation in the fields of public health and social work leading to the Master of Social Work (MSW) and Master of Public Health (MPH) degrees.

The dual degree program is a collaborative effort between the Suzanne Dworak-Peck School of Social Work and the Department of Preventive Medicine in the Keck School of Medicine. The objectives of the program are to provide students with the knowledge and skills necessary to promote health, prevent disease and enhance the delivery of health and social services in the community. Students will build interdisciplinary skills and an interdisciplinary professional identity by developing an understanding of the breadth of each field and their interface, while permitting concentration in particular specialization areas. The program prepares graduates for work in a variety of interdisciplinary settings; and for some, it will provide the basis for doctoral study.

Students must complete a minimum of 82 units for completion of this dual degree; 48 units in Social Work and 34 units in Public Health. Most students complete both program requirements over three years for full-time students; however, the program may be completed in less time if the student takes a full course load during the two summer sessions (MPH course work only; MSW is not available during the summer).

Course requirements in the Suzanne Dworak-Peck School of Social Work include the required courses outlined in the Social Work (MSW) section of the catalogue. Students will take their remaining MSW units in department core courses specific to either the AMHW, SCI or CYF departments. Students will be advised into the appropriate courses.

Students will take MPH course work specific to the following public health concentrations, based on their chosen MSW department:

- AMHW and CYF Students will take required curriculum in the Community Health Promotion concentration.
- SCI Students will take required curriculum in the Health Services and Policy concentration.

Students in the dual degree program are not required to take the 8 units of concentration electives.

**Master of Social Work/Master of Science, Gerontology (MSW/MS)**

**Dual Degree Programs**

The Suzanne Dworak-Peck School of Social Work currently offers dual degree programs with a number of other USC professional schools. In addition, the school maintains a dual degree program at Hebrew Union College located adjacent to the USC campus.

The goal of these programs is to encourage graduate students to gain a recognized competence in another discipline which has direct relevance to the roles filled by social workers in society. Dual degree programs are based on the premise that some topics covered in the school are also addressed in the curricula of other departments, so that some credit toward an MSW degree may be given for specific courses in the cooperating department. Similarly, these departments have recognized that some credit toward their corresponding degree may be awarded for work completed in the Suzanne Dworak-Peck School of Social Work. For this reason, students enrolled in dual degree programs can obtain both degrees with a reduced number of total units. Students wishing to enroll in dual degree programs must apply for and be admitted to both schools.

**Master’s Requirements**

The Master of Social Work and Master of Science, Gerontology (MSW/MSG) dual degree offers the student interested in direct service or community organization the credentials most valued in clinical and therapeutic practice. Students enrolled in this dual degree receive an MSW as well as an MS in Gerontology.

**Program Requirements:**

This dual degree requires completion of 73 units: 32 units of work in the Davis School of Gerontology and 41 units in the Suzanne Dworak-Peck School of Social Work. The course work is usually completed over a 24-month period for full-time students.

Course requirements in the Suzanne Dworak-Peck School of Social Work include the required courses outlined below. Students will take their remaining MSW units in department core courses specific to either the AMHW or SCI departments only. Students will be advised into the appropriate courses.

For MSG degree requirements, see the USC Leonard Davis School of Gerontology.

**Required MSW Courses**

- SOWK 506 Human Behavior and the Social Environment Units: 3
- SOWK 536 Policy and Advocacy in Professional Social Work Units: 3
- SOWK 544 Social Work Practice With Individuals, Families, and Groups Units: 3
- SOWK 546 Science of Social Work Units: 3
- SOWK 588 Integrative Learning for Social Work Practice Units: 2
- SOWK 589a Applied Learning in Field Education Units: 3
- SOWK 589b Applied Learning in Field Education Units: 3
- SOWK 630 Diversity, Social Justice, and Culturally Competent Social Work Practice Units: 3

**Doctoral Degree**

**Social Work (DSW)**

The Doctorate of Social Work (DSW) program at the USC Suzanne Dworak-Peck School of Social Work offers an advanced practice doctorate in social change and innovation for agency and community leaders and entrepreneurs. The DSW program prepares experienced professionals to develop practical, applied solutions to large-scale social challenges that directly impact vulnerable, marginalized or otherwise disadvantaged populations. The foundation for the DSW curriculum rests on three pillars:

1. Problem definition within the Grand Challenges for Social Work;
Admission Requirements

Applicants for admission to the doctoral program must meet the following requirements:

1. A master's degree from a program accredited by the Council on Social Work Education or from another field related to social work.
2. Academic promise, as evidenced by above average achievement in undergraduate and professional education and a personal statement outlining the applicant's scholarly goals.
3. Professional competence as demonstrated through substantial experience in responsible social work, internships or other positions either during or subsequent to the master's program.
4. Personal qualities compatible with performance in social work and indicating a potential for leadership in the field: skill in relationships, flexibility and openness to new ideas, maturity, identification with the profession of social work, and commitment to furthering the development of the profession.
5. Satisfactory performance on the Graduate Record Examinations — existing test scores may be submitted if the GRE has been completed no more than five years prior to the date of application. Information may be obtained from the USC Center for Testing and Assessment, Student Union 301, Los Angeles, CA 90089-0896, (213) 740-7166, or from the Educational Testing Service at ets.org.
6. Satisfactory performance on the Test of English as a Foreign Language (TOEFL) or International Language Testing System (IELTS) for all international students prior to the date of application. Existing test scores may be submitted if the TOEFL or IELTS has been completed no more than two years prior to the date of application. Information may be obtained from the USC Center for Testing and Assessment, Student Union 301, Los Angeles, CA 90089-0896, (213) 740-7166, or from the Educational Testing Service at ets.org.
7. Submission of application materials as required. Instructions for application to the Doctor of Philosophy in Social Work program may be obtained by writing to the director of the program.

Under unusual circumstances, applications from persons who do not meet these requirements, including those who have just been awarded the MSW degree, will be considered. In cases where the MSW (or its equivalent) has recently been granted and the applicant does not have the prerequisite post-master's degree employment experience, it may be required that such experience be acquired concurrent with enrollment in the doctoral program.

Under very unusual circumstances, applications to the doctoral program in social work will be considered from those who do not hold the MSW or an equivalent degree. Such applicants, in order to be admitted to the program, must have a master's degree (or its equivalent) in a field related to social work and a demonstrated commitment to the field of social work as evidenced by substantial contribution to the knowledge base of the profession. Admission decisions on applicants who do not hold an MSW or equivalent degree will be made by the full Doctoral Program Committee of the Suzanne Dworak-Peck School of Social Work rather than by a subcommittee of that body.

Priority will be given to applications that are completed by January 1.

Application Procedure

All applicants to the doctoral program must submit the following information: (1) graduate admission application using the university’s online system; (2) statement of purpose which is submitted as part of the online application; (3) current resume which is uploaded as part of the online application; (4) all undergraduate and graduate transcripts; (5) four letters of reference, at least three of which are from persons who can assess the student's scholarly potential; (6) recent GRE scores; (7) recent TOEFL or IELTS scores; (8) documented evidence of
financial support is required of all international applicants; (9) PhD Information Form for the Suzanne Dworak-Peck School of Social Work; (10) career plans and goals; and (11) scholarly writing sample.

Foreign Language/Research/English Language Requirements

There is no foreign language requirement for the PhD degree. Competence in advanced research methodology and statistics is required through satisfactory completion of required courses. All international students are required to submit their TOEFL or IELTS scores from a test date prior to application and to meet university requirements for teaching.

Course Requirements

Students must complete a minimum of 48 course units beyond the master's degree (exclusive of SOWK 794a, SOWK 794b, SOWK 794c, SOWK 794d, SOWK 794z Doctoral Dissertation). Students must complete at least 24 units within the Suzanne Dworak-Peck School of Social Work and at least three courses in other departments or schools within the university. At least 8 of these 12 units must be in courses with a substantive rather than a research-methodology or statistic focus. Students must also take at least one 3-unit elective and one additional research or statistics course either in the Suzanne Dworak-Peck School of Social Work or elsewhere in the university. Each student must develop a concentration either in another discipline outside the Suzanne Dworak-Peck School of Social Work (such as gerontology; sociology; psychology; preventive medicine; business; policy; planning and development; or political science) or in a problem area where different external courses in different departments or schools bear on a specific social problem like homelessness. An overall grade point average of B (3.0) on all graduate work attempted in the doctoral program is required for graduation.

Core Content

All students are expected to master core content. They must also complete 12 units from the substantive five core courses.

Required Courses

24 units from the following:

- SOWK 702 Theories of Human Behavior in the Contexts of Social Environments Units: 3
- SOWK 703 Explanatory Theories for Larger Social Systems Units: 3
- SOWK 733 Policy Analysis and Advocacy in a Comparative Social Policy Context Units: 3
- SOWK 743 Theories for Practice with Small Systems Units: 3
- SOWK 744 Theories for Practice with Large Systems Units: 3

Core Courses:

- SOWK 760L Introduction to Social Work Statistics Units: 3
- SOWK 761L Multiple Regression for Social Work Research Units: 3
- SOWK 762 Social Work Research Methods I Units: 3
- SOWK 763 Social Work Research Methods II: Issues in Research for Social Work Practice Units: 3
- SOWK 764 Advanced Multivariate Statistics Units: 3

Macro focus: students with a macro focus in policy, community organization or administration must complete either SOWK 702 or SOWK 743 as part of their core curriculum.

- SOWK 702 Theories of Human Behavior in the Contexts of Social Environments Units: 3 or
- SOWK 743 Theories for Practice with Small Systems Units: 3

Micro focus: students with a micro focus in direct practice must complete either SOWK 703, SOWK 733 or SOWK 744.

- SOWK 703 Explanatory Theories for Larger Social Systems Units: 3 or
- SOWK 733 Policy Analysis and Advocacy in a Comparative Social Policy Context Units: 3 or
- SOWK 744 Theories for Practice with Large Systems Units: 3

Other Requirements

- Elective Units: 3 *
- Research or statistics course Units: 3 *
- SOWK 790 Research Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 (6 units required)

Note:

*Must be taken in the Suzanne Dworak-Peck School of Social Work or elsewhere at USC

Additional Requirements

Students must complete a minimum of 12 units per semester in their first semester and second semester of their first year in the program to maintain their status as full-time students and eligibility for financial support from the Suzanne Dworak-Peck School of Social Work.

Individualized Course of Study

The second year of the curriculum is largely individualized to meet each student's educational goals. It is organized around a specific field of social work practice or a problem area. In the case of fields of practice or problem area, students gain knowledge of that field's development and policies; one level of comparative practice theory applicable to that field; comparative explanatory theory appropriate to the field and the chosen practice level; and advanced research methods which can be used to explore field-specific questions.

Field of Practice is defined as a field of activity in which there is an identifiable service delivery system, a continuum of care for clients, and a defined or established role for social workers.

Given the current expertise of the faculty and available faculty resources, students may choose from the following fields of practice specializations:

- Given the current expertise of the faculty and available faculty resources, students may choose from the following fields of practice specializations: (1) families and children, (2) mental health, (3) health, (4) occupational/industrial employment, (5) aging/gerontology, or (6) economic security/income maintenance.

- Additional fields of practice can be added to the above choices depending on faculty interest, expertise and availability.

- Problem Area is defined as a social or service delivery problem that is relevant to the field of social work such as homelessness or urban health systems.

- Practice Theory is defined as advanced knowledge of comparative practice theories at one point on the intervention continuum as they relate to the field of practice chosen. The practice intervention continuum is defined to include practice with individuals, families and groups, as well as community practice, administration, planning and policy practice.

- Explanatory Theory is defined as advanced knowledge of comparative social science theories as they relate to the field of practice and level of intervention chosen.

- Specialized Research Skills is defined as advanced skills in research methodology and statistics which support the student's dissertation within the field of practice.

- Students fulfill the requirement in the mastery of the content of their individualized course of study through a combination of at least three (2-unit) directed tutorials (SOWK 790) with members of the social work faculty, at least three university courses in other departments of the university and an elective.

- Students prepare an individualized course study plan with their faculty adviser in the spring of the first year that is approved by the doctoral committee. It details classes and tutorials that each student will take during the second year of the program.

Opportunities for Further Skill Development

The program offers students skills training in both teaching and research.

Teaching Skills

All doctoral students must teach for two semesters before they graduate. Requirements may be fulfilled by coteaching, teaching
as an assistant or solo teaching. Before beginning these teaching experiences, students must take a teaching course approved by the doctoral committee. International students must meet the English proficiency standards set forth by the American Language Institute and participate, if necessary, in specialized training offered by the Center for Excellence in Teaching.

Additional Research Skills
Students are also offered the opportunity for enhanced skills building in research through a research internship. The one- or two-semester internship (SOWK 785), starting typically in the spring of the second year, is designed to provide students with hands-on, practical experience with an ongoing faculty research project prior to the start of their own dissertation research. Typically, activities include data collection and/or analysis. The practicum is expected to yield a paper of publishable quality co-authored by the student and the faculty member.

Students may enroll in SOWK 599 by petitioning the doctoral committee in writing. The decision to grant or deny admission will be based on each applicant's learning and research interests and permission of the instructor.

The usual program includes two years of full-time course work, plus an additional period for completing the qualifying examinations and dissertation. In rare cases, students who are not able to take the full-time program because of employment may spread course work over three years. They must, however, have the equivalent of full-time study in residence for at least one year.

Students should specify whether they are applying for the full-time or part-time program at the time they apply to the program. Part-time students usually carry two courses per semester during the academic year. They may wish to accelerate their progress by enrolling in appropriate courses when available during the summer session.

The time limit for completing all requirements for the PhD degree is eight years from the first course taken at USC to be applied toward the degree. Students who have completed an applicable master's degree at USC or elsewhere (almost all students in the social work doctoral program) must complete the PhD in six years.

Transfer of Credit
The transfer of post-master's doctoral course work from another institution will only be considered if a grade of B or better (A = 4.0) has been obtained, and the course has been completed within the last five years. Transfer of credits must be petitioned and approved by both the Suzanne Dworak-Peck School of Social Work and the Graduate School.

Screening Procedures
When students have completed a minimum of 16 units (but not more than 24 units) of doctoral course work, the doctoral committee assesses their performance and makes a decision about their readiness to continue in the program. If the decision is to deny permission to continue, the students are so notified. If permission is granted, a qualifying exam committee is established.

Qualifying Exam Committee
The qualifying exam committee is composed of five faculty members, four of whom, including the chair, are from the Suzanne Dworak-Peck School of Social Work and one from an academic unit of the university other than the Suzanne Dworak-Peck School of Social Work. The function of the qualifying exam committee is to oversee the development of the student's academic program through the qualifying examination.

Qualifying Examination
As a prerequisite to candidacy for the PhD degree, students must pass written and oral qualifying examinations. In order to take the examinations, students must complete all core courses, at least 6 units of SOWK 790 tutorials and at least 32 units of course work in the doctoral program with a minimum grade point average of 3.0.

All students must pass a qualifying examination by completing a paper that the examination committee judges to be of publishable quality and passing an oral examination on subject matter related to the paper. The paper must deal with a substantive theoretical, model-building or methodological issue in the student's chosen area. Critical reviews of the literature or reports of empirical studies conducted by the student specifically for the qualifying examination are acceptable. The topic of the paper will be chosen in conjunction with the student's chair and must be defended before and agreed to by the entire examination committee. The content of the paper is to go beyond products developed for tutorials and must be an independent effort. Further details for completing the paper and oral examination are provided as needed. When students pass the written and oral portions of the qualifying examination, they advance to candidacy.

In accordance with university policy, since the two portions of the qualifying examination are considered part of a single examination, only one retake of either portion of the examination is permitted. When the oral examination has been passed, the student is formally admitted to candidacy.

Doctoral Dissertation
When the student is admitted to candidacy, a dissertation committee is established consisting of three members of the qualifying exam committee, one of whom must be from outside the Suzanne Dworak-Peck School of Social Work. The dissertation committee has the responsibility of providing consultation in research, approving the dissertation, conducting the final oral examination and recommending the candidate for the PhD degree.

The doctoral dissertation should make a contribution to knowledge and theory related to the profession of social work. Dissertations must not only show technical mastery of the subject and research methodology but must also demonstrate the candidate's ability to work independently as a scholar.

The first step in the dissertation process is the development of a dissertation proposal. Normally about 25-30 pages, the proposal should contain a clear statement of purpose, a rationale for the research, research questions or hypotheses, a review of pertinent literature, and an explication of the research methods to be used including the design, instrumentation, sampling procedures and plan for analysis. The proposal must include human subject clearances for the anticipated research obtained from the appropriate school and university committees.

It is expected that students will begin work on their dissertation prospectus as soon as possible after completion of the qualifying examinations, and that an acceptable proposal will be presented within three months of the completion of the examination.

Abstract of Dissertation
Since the abstract of the dissertation is also published in Dissertation Abstracts International, it should be written with care and must be representative of the final draft of the dissertation. A shorter abstract for publication in Social Work Research and Abstracts is also required.

Final Oral Examination
Upon approval of the final draft of the dissertation by all members of the dissertation committee, the candidate must pass a general final oral examination. After the candidate successfully completes the final oral examination, the committee recommends the candidate to the Graduate School for the PhD degree.
Courses of Instruction

The terms indicated are expected but are not guaranteed. For the courses offered during any given term, consult the Schedule of Classes.

Arts, Technology and the Business of Innovation

ACAD 174 Innovators Forum
Units: 2 Max Units: 04 Terms Offered: FaSp Leaders in diverse disciplines, industries and the arts present and discuss problems facing society and critique real-world projects that challenge the concept of innovation. Duplicates Credit in former ACAD 175 Instruction Mode: Lecture Grading Option: Letter

ACAD 176 Rapid Visualization
Units: 4 Terms Offered: FaSp Techniques, methods, concepts, tools, and materials that are used to quickly visualize and communicate ideas and develop problem-solving skills. Instruction Mode: Lecture Grading Option: Letter

ACAD 177 Digital Toolbox for Design
Units: 2 Terms Offered: FaSp Basics of industry-standard creative, analytical and presentation software. Applications include design, illustration, presentation and publishing. Instruction Mode: Lecture Grading Option: Letter

ACAD 178 Digital Toolbox: Motion Graphics
Units: 2 Terms Offered: FaSp Basics of industry standard software for motion graphics, visual effects, animation design, generative art and interactive visual experiences. Instruction Mode: Lecture Grading Option: Letter

ACAD 179 Digital Toolbox: Excel for Business Management
Units: 2 Terms Offered: Sp Eight-week course designed to provide a spreadsheet format to analyze information and build Microsoft Excel-based models for business management and creative data visualization. Registration Restriction: Open only to Arts, Technology and the Business of Innovation students. Instruction Mode: Lecture Grading Option: Letter

ACAD 180 Digital Toolbox: Sound and Audio
Units: 2 Terms Offered: FaSp Basics of industry standard hardware and software used for designing, creating, processing and distributing sound and audio. Instruction Mode: Lecture Grading Option: Letter

ACAD 181g Disruptive Innovation
Units: 4 Terms Offered: Fa Critical approaches to social and cultural changes stemming from disruptive innovations in the arts, science, technology, communications, new media, politics and business. Satisfies New General Education in Category C: Social Analysis Registration Restriction: Open only to USC Iovine and Young Academy students. Instruction Mode: Lecture Grading Option: Letter

ACAD 182 Case Studies in Innovation
Units: 4 Terms Offered: FaSp Employing a case-study methodology, students analyze the artistic, technological, and entrepreneurial factors and address the conceptual, ethical, and logistical issues that lead to disruptive innovation. Instruction Mode: Lecture Grading Option: Letter

ACAD 187 Digital Toolbox: 3D Design
Units: 2 Terms Offered: FaSp Basics of industry standard software for modeling and rendering 3D materials, objects and lighting. Includes instruction in pipelines for 3D assets. Instruction Mode: Lecture Grading Option: Letter

ACAD 188 Digital Toolbox: Modeling Products I
Units: 2 Tools and techniques specific to CAD design and design improvements, focused on the ideation and development new products. Instruction Mode: Lecture Grading Option: Letter

ACAD 189 Digital Toolbox: Modeling Products II
Units: 2 An investigation of the tools and techniques specific to intermediate CAD design and design improvements, focused on the ideation and development new products. Corequisite: ACAD 188 Instruction Mode: Lecture Grading Option: Letter

ACAD 200 Advanced Sound and Audio
Units: 4 Terms Offered: FaSp An in-depth study of sound, acoustics, psychoacoustics, and the standard components of the audio signal chain, including microphones, mixers, interfaces, signal processors, amplifiers, loudspeakers, and audio-distribution systems. Recommended Preparation: ACAD 180. Instruction Mode: Lecture Grading Option: Letter

ACAD 202 Modeling Physical Systems
Units: 4 Terms Offered: Fa The physics of mechanics and motion is integrated with differential and integral calculus. The concepts are linked through a computational, problem-solving methodology. Instruction Mode: Lecture, Lab Grading Option: Letter

ACAD 203 Statics
Units: 3 Terms Offered: FaSp (Enroll in AME 201)

ACAD 204 Strength of Materials
Units: 3 Terms Offered: FaSp (Enroll in AME 204)

ACAD 206 Communication and Culture
Units: 4 Terms Offered: FaSpSm (Enroll in COMM 206)

ACAD 207 Multimedia for Designers and Entrepreneurs I
Units: 4 Terms Offered: FaSp Basics of industry-standard hardware and software specific to creating effective and compelling multimedia experiences. Instruction Mode: Lecture Grading Option: Letter

ACAD 240 Materials: Denim to Nanotubes
Units: 4 Terms Offered: Fa Covers the fundamentals of materials science and introduce students to the principles of designing with specific materials in mind. Instruction Mode: Lecture Grading Option: Letter

ACAD 245 Product Design I
Units: 4 Terms Offered: FaSp An introductory course in learning how to design physical products, including the processes for determining consumer need, market opportunity and competitive product analysis. Prerequisite: ACAD 176 or DES 102 Instruction Mode: Lecture Grading Option: Letter

ACAD 255 Advancing Journalism with Human-Centered Design
Units: 4 Employing a human-centered design framework, students research and develop novel solutions to experience, collaboration and culture issues that pervade newsrooms worldwide. Instruction Mode: Lecture, Lab Grading Option: Letter Crosslisted as JOUR 255

ACAD 256 Designing for News and Information
Units: 4 Techniques and methods used to improve the user experience on digital and physical platforms for the delivery of news and information. Instruction Mode: Lecture, Lab Grading Option: Letter Crosslisted as JOUR 256

ACAD 260 Introduction to Healthcare Innovation
Units: 4 Terms Offered: FaSp Introductions to various health innovations, including pathways, technology, techniques and outcomes. A framework for innovation in healthcare and overview of tools for health innovators. Instruction Mode: Lecture, Lab Grading Option: Letter Crosslisted as MHD 260

ACAD 261 Human Health and Technology
Units: 4 Terms Offered: FaSp Introduction to major concepts and theories on the biological, scientific and technological aspects of health care and disease prevention and management. nHealth, surveillance, electronic/personal health records, wearables, virtual/augmented realities, telehealth. Instruction Mode: Lecture, Lab Grading Option: Letter Crosslisted as MDS 261

ACAD 275 Dev I
Units: 4 Terms Offered: Sp Web page design and creation, web objects, scripting and interactivity. Includes developing skills to design and build interactive websites. Duplicates Credit in former ITP 204 Instruction Mode: Lecture Grading Option: Letter

ACAD 276 Dev II
Units: 4 Terms Offered: Fa Fundamentals of server-side scripting and web templates. Design and creation of data structures and databases. Visualize analytics and data. Prerequisite: ACAD 275 Instruction Mode: Lecture Grading Option: Letter

ACAD 277 Dev III: Advanced Topics
Units: 4 Max Units: 08 Terms Offered: Sp An accelerated approach to object-oriented programming, including foundations of applications for devices with a focus on user interface design. Prerequisite: ACAD 276 Instruction Mode: Lecture Grading Option: Letter

ACAD 280 Designing for Digital Experiences
Units: 4 Terms Offered: FaDesigning elegant and powerful interfaces and experiences for the ways people interact with data, devices, systems and digital environments. Prerequisite: ACAD 275
ACAD 281 Designing for Physical Experiences
Units: 4 Experience-based solutions for the design of branded environments and the development of prototypes that are entertaining, informational and inspirational. Prerequisite: ACAD 176 Recommended Preparation: Install Sketch up, Rhino, Solidworks, CAD, Vectorworks or similar to create plans and elevations and/or renderings. Maker space training. Instruction Mode: Lecture, Lab Grading Option: Letter

ACAD 301 Understanding Play
Units: 4 Examines various theories of play and how it shapes and defines human experiences. Instruction Mode: Lecture Grading Option: Letter

ACAD 302 The Hacker Imagination: from Ancient Greece to Cupertino
Units: 4 Exploring issues in innovation, design and invention from the perspective of the hacker imagination. Instruction Mode: Lecture Grading Option: Letter

ACAD 306 Innovation, Entertainment, and the Arts
Units: 4 Designing effective and compelling multimedia experiences, including through the application of intermediate tools and techniques related to state-of-the-art creative hardware and software. Prerequisite: ACAD 207 Instruction Mode: Lecture Grading Option: Letter Crosslisted as ITP 307

ACAD 308 Computer-Aided Design for Bio-Mechanical Systems
Units: 3 (Enroll in ITP 308)

ACAD 309g Dreams & Madness: The Art of Japan’s Golden Age of Animation
Units: 4 Terms Offered: FaSp An in-depth look at the art, politics, and cultural impact of several Japanese filmmakers including Isao Takahata, Hayao Miyazaki, Satoshi Kon, Mamoru Hosoda and Makoto Shinkai. Satisfies New General Education in Category A: The Arts Instruction Mode: Lecture Grading Option: Letter

ACAD 310 Launching Disruptive Ventures
Units: 4 Terms Offered: FaSp (Enroll in BAEP 310)

ACAD 311 Design for User Experience
Units: 4 Terms Offered: FaSp (Enroll in ITP 310)

ACAD 312 Materials Behavior and Processing
Units: 4 Terms Offered: FaSp (Enroll in MASC 310)

ACAD 315x Basics of Project and Operations Management for Non-Majors
Units: 2 Terms Offered: Fa (Enroll in BUAD 315x)

ACAD 324g The Practice of Design: Ideation to Innovation
Units: 4 History and application of proven collaborative design processes and methodologies as they relate to ideation and innovation. Satisfies New General Education in Category A: The Arts Instruction Mode: Lecture Grading Option: Letter

ACAD 330 3D Design: Objects and Space
Units: 4 Terms Offered: FaSp (Enroll in DES 330)

ACAD 331x Influence and Collaboration
Units: 2 Terms Offered: FaSp (Enroll in MOR 331x)

ACAD 341 Android App Development
Units: 4 Terms Offered: FaSp (Enroll in ITP 341)

ACAD 342 iOS App Development
Units: 4 Terms Offered: FaSp (Enroll in ITP 342)

ACAD 343 Mobile Development for Content and Media
Units: 1 (Enroll in ITP 343)

ACAD 344 Advanced iOS App Development
Units: 4 Terms Offered: FaSp (Enroll in ITP 344)

ACAD 345 Product Design II
Units: 4 A thorough look into developing a feasible consumer product through implementing all aspects of the R&D process, including consumer insights, competitive analysis, ideation and manufacturability. Prerequisite: ACAD 245 Recommended Preparation: ACAD 188 Corequisite: ACAD 188 Instruction Mode: Lecture Grading Option: Letter

ACAD 350 International Experience
Units: 2 Max Units: 08 Terms Offered: Sp International study tour providing in-depth and field-based knowledge in design, technology and/or business. Sites selected from the world's most exciting established and emerging innovation hubs. Instruction Mode: Lecture Grading Option: Letter

ACAD 351 Technologies and Practices for Analytics
Units: 4 (Enroll in ITP 350)

ACAD 352 Digital Audio Recording and Processing
Units: 4 Terms Offered: FaSp The principles, techniques, and aesthetics of digital audio recording and processing with an emphasis on mastering for multimedia integration. Recommended Preparation: ACAD 200 Instruction Mode: Lecture Grading Option: Letter

ACAD 354 Synthesis and Sound Design
Units: 4 Terms Offered: FaSp A comprehensive study of the elements of electronic synthesis and sampling, as well as the use of “live” and “found” audio recordings for creative sound design purposes. Recommended Preparation: ACAD 200 Instruction Mode: Lecture Grading Option: Letter

ACAD 356 Audio and Media Integration
Units: 4 Terms Offered: FaSp Methods and techniques for integrating audio into various media and applications including: film and video, Internet streaming, mobile devices, and other digital and computer applications. Recommended Preparation: ACAD 200 Instruction Mode: Lecture Grading Option: Letter

ACAD 360 Design Strategy: Problem Solving for Organizations
Units: 4 Terms Offered: Sp A professional, collaborative and multidisciplinary consulting approach to diagnosing problems and applying design-based solutions on behalf of organizations. Prerequisite: ACAD 181g and ACAD 182 Instruction Mode: Lecture Grading Option: Letter

ACAD 362 Analytics for Health Innovators
Units: 4 Terms Offered: FaSp Theory and methods of health data analytics, including foundational knowledge in statistical methods, data mining, big data applications, visual analytics and physician performance. Instruction Mode: Lecture, Lab Grading Option: Letter Crosslisted as MDES 362

ACAD 365 Managing Data in C++
Units: 4 Terms Offered: FaSp (Enroll in ITP 365)

ACAD 366 Designing Media and Communication Projects for Social Change
Units: 4 Terms Offered: FaSpSm (Enroll in COMM 366)

ACAD 375 Business and Professional Communication
Units: 4 Terms Offered: FaSpSm (Enroll in COMM 375)

ACAD 376 Discerning and Making I: Concept and Feasibility
Units: 4 Terms Offered: Fa Practicum through which student teams serve as design strategists for industry collaborators, and learn advanced methods and processes to solve problems in collaborative, field-specific environments. Prerequisite: ACAD 177 and ACAD 178 and ACAD 180 and ACAD 187 Registration Restriction: Open only to Arts, Technology and the Business of Innovation majors Instruction Mode: Lecture Grading Option: Letter

ACAD 377 Discerning and Making II: Creation and Implementation
Units: 4 Terms Offered: Sp Continuation of ACAD 376. Prerequisite: ACAD 376 Registration Restriction: Open only to Arts, Technology and the Business of Innovation majors Instruction Mode: Lecture Grading Option: Letter

ACAD 382 Mobile Game Development
Units: 4 Terms Offered: Sp (Enroll in ITP 382)

ACAD 385x Marketing of Creative Disruption and Innovation
Units: 4 Terms Offered: Fa (Enroll in MKT 385x)

ACAD 387x Cloud Architecture and Applications
Units: 4 (Enroll in ITP 387)

ACAD 404 Advanced Front-End Web Development
Units: 4 Terms Offered: Fa (Enroll in ITP 404)

ACAD 405 Advanced Back-End Web Development
Units: 4 Terms Offered: Sp (Enroll in ITP 405)

ACAD 407 Multimedia for Designers and Entrepreneurs III
Units: 4 Designing persuasive multimedia experiences; new and experimental media types; intermediate production methods; advanced techniques for creative software. Prerequisite: ACAD 307 Instruction Mode:
Lecture Grading Option: Letter Crosslisted as ITP 407

ACAD 419 Professional Internship
Units: 2 Max Units: 08 Terms Offered: FaSpSm An experiential/academic opportunity in an arts, technology and business related facility. Written analysis, evaluation, and working internship. Instruction Mode: Lecture Grading Option: Letter

ACAD 425 Web Application Security
Units: 4 (Enroll in ITP 425)

ACAD 442 Mobile App Project
Units: 4 (Enroll in ITP 442)

ACAD 445 Product Design III
Units: 4 (Enroll in ITP 445)

ACAD 460 Web Application Project
Units: 4 Terms Offered: Sp (Enroll in ITP 460)

ACAD 463 Evidence Based Medicine for Health Innovators
Units: 2 Terms Offered: FaSp Introduction to evidence based medicine (EBM) for non-clinicians, including how EBM impacts health care. Includes basics of research, studies and systematic reviews. Prerequisite: ACAD 345 Instruction Mode: Lecture Grading Option: Letter

ACAD 464 Mining Health Data Through Machine Learning
Units: 4 Terms Offered: FaSp Explores both supervised and unsupervised machine learning tools to mine health data to gain insights for predictive analytics for health organizations. Includes deep learning technologies. Prerequisite: ACAD 362 Instruction Mode: Lecture, Lab Grading Option: Letter Crosslisted as MDES 463

ACAD 467 Strategic Management of Innovation
Units: 4 Terms Offered: Sp (Enroll in MOR 467)

ACAD 475a The Garage Experience
Units: 4, 8 Terms Offered: Fa Academy capstone leading to innovative outcomes, including advanced research artifacts, operational prototypes, and breakthrough enterprises across multiple fields and industries. Prerequisite: ACAD 377 Registration Restriction: Open only to Arts, Technology and the Business of Innovation majors Instruction Mode: Lecture Grading Option: Letter

ACAD 475b The Garage Experience
Units: 4, 8 Terms Offered: Sp Continuation of ACAD 475a. Students refine and perfect outcomes, leading to a pitch/presentation to faculty and industry experts for funding or validation, and critical networking. Prerequisite: ACAD 475a Registration Restriction: Open only to Arts, Technology and the Business of Innovation majors Instruction Mode: Lecture Grading Option: Letter

ACAD 476 Technologies for Interactive Marketing
Units: 4 (Enroll in ITP 476)

ACAD 490 Directed Research
Units: 1, 2, 3, 4, 5, 6, 7, 8 Max Units: 12.0 Terms Offered: FaSpSm Individual research and readings. Not available for graduate credit. Instruction Mode: Lecture Grading Option: Letter

ACAD 491 Individual Instruction
Units: 1, 2, 3, 4 Max Units: 16 Terms Offered: FaSpSm Weekly, individual instruction with an Academy professor for deep exploration and study within an Academy core discipline. Instruction Mode: Lecture Grading Option: Letter

ACAD 499 Special Topics
Units: 2, 3, 4 Max Units: 8.0 Comprehensive exploration of particular aspects of art, technology and the business of innovation. Instruction Mode: Lecture Grading Option: Letter

ACAD 499 Special Topics
Units: 0.0 Comprehensive exploration of particular aspects of art, technology and the business of innovation. Instruction Mode: Lecture Grading Option: Letter

ACCT 410x Foundations of Accounting
Units: 4 Terms Offered: FaSp Beginning accounting theory and principles. Prerequisite: ACCT 201 or ACCT 205 Instruction Mode: Lecture Grading Option: Letter

ACCT 411 Introduction to Financial Accounting
Units: 4 Terms Offered: FaSp First course in financial accounting. Prerequisite: ACCT 201 or ACCT 205 Instruction Mode: Lecture Grading Option: Letter

ACCT 412 Principles of Managerial Accounting
Units: 4 Terms Offered: FaSp Smaller class size, more teacher/student interaction. Prerequisite: ACCT 201 or ACCT 205 Instruction Mode: Lecture Grading Option: Letter

ACCT 425 Web Application Security
Units: 4 Terms Offered: FaSp Understanding of decision-making, problem solving, and research skills as a supplement to managerial accounting knowledge for accounting professionals. Prerequisite: BUAD 281 or BUAD 305 Instruction Mode: Lecture Grading Option: Letter

ACCT 373 Introduction to Auditing and Assurance Services
Units: 2 Terms Offered: FaSp Exploration of the requisite skills and knowledge needed to offer services in assurance, attestation or auditing engagements. Prerequisite: ACCT 370 and ACCT 371 Instruction Mode: Lecture, Discussion Grading Option: Letter

ACCT 374 Introduction to Tax Issues
Units: 2 Terms Offered: FaSp Basic tax principles, introduction to U.S. federal, state and local tax systems, income and expense definitions, property transactions, and fundamentals of individual taxation. Prerequisite: BUAD 281 or BUAD 305 Instruction Mode: Lecture Grading Option: Letter

ACCT 377 Valuation for Financial Statement Purposes
Units: 2 Terms Offered: FaSp Explores Accounting Standards Codification (ASC) 820 "Fair Value Measurements and Disclosures" and reviews the historical background of US GAAP fair value guidance. Prerequisite: ACCT 370. Instruction Mode: Lecture Grading Option: Letter

ACCT 380x Introduction to Enterprise Risk Management
Units: 4 Terms Offered: Irregular Understand the concept of risk, risk assessment and management frameworks; learn to identify, analyze, manage and mitigate and communicate this risk to stakeholders. Credit Restriction: Not available for major credit in Accounting Instruction Mode: Lecture Grading Option: Letter Crosslisted as BUAD 380

ACCT 385x Introduction to Risk Management and Insurance
Units: 4 Terms Offered: Irregular Understand the underlying economics, structure, and business models of an organization (often an insurance carrier) willing to accept risk for diverse situations: property, life, healthcare. Credit Restriction: Not available for major credit in Accounting Instruction Mode: Lecture Grading Option: Letter Crosslisted as BUAD 385

ACCT 387 Risk Management in Entertainment, Sports and the Arts
Units: 4 Terms Offered: FaSp Knowledge and skills needed to identify, analyze, control, finance and report on the risks particular to entertainment, sports and the arts. Credit Restriction: Not available for major credit in Accounting Instruction Mode: Lecture Grading Option: Letter Crosslisted as BUAD 387

ACCT 390 Special Problems
Units: 1, 2, 3, 4 Terms Offered: FaSpSm Supervised, individual study. No more than one registration permitted. Enrollment by petition only. Instruction Mode: Lecture Grading Option: Letter

ACCT 410x Foundations of Accounting
Units: 4 Terms Offered: FaSpSm Non-technical presentation of accounting
for users of accounting information; introduction to financial and managerial accounting. Not open to students with course credits in accounting. Not available for unit or course credit toward a degree in Accounting or Business Administration. Instruction Mode: Lecture Grading Option: Letter

ACCT 415x Intermediate Financial Accounting for Non-Accounting Majors
Units: 4 Terms Offered: FaSp In-depth study of balance sheet, income statement, and cash flow statement issued from the perspective of a user (not preparer) of corporate financial reports. Not open to accounting majors. Prerequisite: ACCT 410x or BUAD 280 or BUAD 305 Registration Restriction: Not open to accounting majors Credit Restriction: Not available for degree credit to accounting majors Duplicates Credit in former ACCT 411x and ACCT 412x Instruction Mode: Lecture Grading Option: Letter

ACCT 416 Financial Reporting and Analysis
Units: 2 Terms Offered: FaSp Examination of the role of financial statement analysis in the prediction of a firm's future financial performance. Prerequisite: ACCT 372 and ACCT 373 and ACCT 374 and ACCT 377 Instruction Mode: Lecture, Discussion Grading Option: Letter

ACCT 420 Accounting Ethics
Units: 4 Terms Offered: FaSp Theoretical knowledge and practical application accountants need to identify ethical issues and reconcile conflicts among competing stakeholders' interests in all major areas of accounting practice. Prerequisite: ACCT 372 and ACCT 373 and ACCT 374 and ACCT 377 Instrucrion Mode: Lecture, Discussion Grading Option: Letter

ACCT 442 The Ethics of Financial and Political Accountability
Units: 4 (Enroll in HIST 442)

ACCT 462 Detecting Fraudulent Financial Reporting
Units: 2Terms Offered: FaSp Understanding/identifying methods of fraudulent financial reporting, and signals that financial statements were fictitiously prepared; major frameworks for analyzing ethical dilemmas; reforms in corporate reporting environment. Prerequisite: ACCT 370 or ACCT 415x Instruction Mode: Lecture Grading Option: Letter

ACCT 463 Internal Audit
Units: 2 Terms Offered: FaSp Examination of internal audit/auditors and their relationship to management, the investors, the regulators, and the external auditors. Prerequisite: ACCT 370, ACCT 373 Instruction Mode: Lecture Grading Option: Letter

ACCT 470 Advanced External Financial Reporting Issues
Units: 4 Terms Offered: FaSp Develop capabilities to identify and resolve advanced external financial reporting challenges, focusing primarily on operating, financing, and investing activities of business enterprises. Duplicates Credit in ACCT 470ab. Prerequisite: ACCT 370 Corequisite: ACCT 377 Duplicates Credit in former ACCT 470ab Instruction Mode: Lecture Grading Option: Letter

ACCT 471 Accounting Information Systems
Units: 2 Terms Offered: FaSp Issues related to the design, control, and implementation of accounting information systems. Prerequisite: ACCT 371 Instruction Mode: Lecture Grading Option: Letter

ACCT 472 Managerial Accounting
Units: 2 Terms Offered: FaSp Understanding of systems providing cost information useful in management decision-making and problem solving. Prerequisite: ACCT 372 Instruction Mode: Lecture Grading Option: Letter

ACCT 473 Financial Statement Auditing
Units: 2 Terms Offered: FaSp Course builds on the background developed in ACCT 373, specifically the process used by external auditors to conduct financial statement audits. Prerequisite: ACCT 373 Instruction Mode: Lecture Grading Option: Letter

ACCT 474 Tax Issues for Business
Units: 2 Terms Offered: FaSp Capabilities to identify and articulate tax issues related to a business entity's life: formation, investing, financing and operations, and change of form. Prerequisite: ACCT 374, Duplicates Credit in former ACCT 451 Instruction Mode: Lecture Grading Option: Letter

ACCT 475 Systems Security and Audit
Units: 2 Terms Offered: FaSp Issues related to the security, control, and auditing of accounting information systems. Prerequisite: ACCT 371 Instruction Mode: Lecture Grading Option: Letter

ACCT 476 Performance Measurement Issues
Units: 2 Terms Offered: FaSp Introduction to understanding how management control systems can enhance achievement of the organization's objectives and strategies. Prerequisite: ACCT 410x or BUAD 281 or BUAD 305 Instruction Mode: Lecture Grading Option: Letter

ACCT 477 Intermediate Fair Value Issues in Accounting
Units: 2 Terms Offered: FaSp Develops the ability to identify and understand new areas of emerging guidance involving fair value issues and to recognize and demonstrate appropriate application of methodologies. Prerequisite: ACCT 377 Instruction Mode: Lecture Grading Option: Letter

ACCT 478 Accounting Systems Design
Units: 4 Terms Offered: FaSp Explores the design of accounting systems. Introduction to tools and techniques for analyzing and designing accounting systems with an emphasis on systems controls and reporting. Prerequisite: ACCT 371 Instruction Mode: Lecture Grading Option: Letter

ACCT 479 Accounting Systems Development
Units: 4 Terms Offered: FaSp Examines the fundamentals of accounting systems development. Introduction to the concepts of implementation and support, with emphasis on system quality assurance, evaluation and attestation. Prerequisite: ACCT 476, Duplicates Credit in former ACCT 454 Instruction Mode: Lecture Grading Option: Letter

ACCT 490x Directed Research
Units: 1, 2, 3, 4, 5, 6, 7, 8 Max Units: 12.0 Terms Offered: FaSpSm Individual research and readings. Instruction Mode: Lecture Grading Option: Letter

ACCT 493 Leventhal Honors Research Seminar
Units: 2 Terms Offered: Sp Provides the methodological tools to identify research problems, develop researchable hypotheses, apply appropriate methodologies, conduct research, derive meaningful conclusions from data, write a research proposal. Registration Restriction: Open only to Accounting and Business Majors Instruction Mode: Lecture Grading Option: Letter

ACCT 494 Marshall Honors Research and Thesis
Units: 2 Max Units: 04 Terms Offered: FaSpSm Experience in conducting research and writing a thesis under supervision of a faculty adviser. Prerequisite: ACCT 493 or BUAD 493 Registration Restriction: Open only to Leventhal and Marshall Honors students Duplicates Credit in BUAD 494 Instruction Mode: Lecture Grading Option: Credit/No Credit

ACCT 495 Accounting Internship: Work, Ethics and Communication
Units: 2 Terms Offered: Sp Provides insights and tools for the work environment specifically integrating technical communication and ethical decision-making; bridging classroom learning and "real world" experience. Recommended Preparation: ACCT 370, BUAD 302 Registration Restriction: Open only to accounting majors Instruction Mode: Lecture Grading Option: Credit/No Credit

ACCT 499 Special Topics
Units: 2, 3, 4 Max Units: 08 Terms Offered: FaSpSm Selected topics reflecting current trends and recent developments in the field of accounting. Topics vary each semester. Instruction Mode: Lecture Grading Option: Letter

ACCT 509 Concepts of Financial and Management Accounting
Units: 4 Terms Offered: FaSp Introduction to the concepts of financial and managerial accounting. The course will provide coverage of key concepts needed by managers of businesses in order to communicate information important in decision-making. Registration Restriction: Not open to business or accounting majors Duplicates Credit in ACCT 535, GSBA 510, GSBA 518 and GSBA 536 Instruction Mode: Lecture Grading Option: Letter

ACCT 525x Intensive Accounting Principles and Practices
Units: 15 Terms Offered: Sm Technical accounting theory and principles necessary for graduate work. Satisfies the prerequisite requirements for intermediate and advanced accounting, auditing, and tax. Recommended Preparation: introductory accounting courses. Instruction Mode: Lecture Grading Option: Letter

ACCT 526 Global Accounting Experience
Units: 1.5 Terms Offered: Sp Cross-border transactions in the global economy examining accounting, legal, and tax environments, economic and political systems, and cultural differences. Includes international travel to selected region. Instruction Mode: Lecture Grading Option: Letter
ACCT 527 Financial Statement Analysis - Audit Perspective
Units: 1.5 Terms Offered: Sm Analysis of corporate financial reports to evaluate the firm's past and present performance as well as to predict likely future performance from an auditor's perspective. Prerequisite: ACCT 541L Registration Restriction: Online registration open only to Master of Accounting students Duplicates Credit in ACCT 581 Instruction Mode: Lecture Grading Option: Letter

ACCT 528 Fair Value Accounting: GAAP, IFRS and Emerging Issues
Units: 1.5 Terms Offered: FaSp Case study approach to explore fair value issues in accounting; research and analysis of causes of valuation differences. Registration Restriction: Online registration open only to graduate business and accounting majors Instruction Mode: Lecture Grading Option: Letter

ACCT 529 Tax Data Analytics
Units: 3 Terms Offered: Fa Tax analytics from management's perspective; sources of accounting data, introduction to database and ERP tools; application of data and analytics to tax issues. Corequisite: ACCT 55T and ACCT 56T Registration Restriction: Open only to Master of Business Taxation students Instruction Mode: Lecture Grading Option: Letter

ACCT 530L Ethics for Professional Accountants
Units: 3 Terms Offered: FaSp Provides the ethical grounding that accountants need to identify ethical issues and reconcile conflicts among competing stakeholder interests. Registration Restriction: Open only to business and accounting students. Instruction Mode: Lecture, Lab Grading Option: Letter

ACCT 531T Taxation of Cross-Border Transactions Using Data Analytics
Units: 3 Terms Offered: Fa Introduction to income taxation of cross-border transactions, state/local and multinational taxation; application of data and analytics tools to multifaceted tax issues. Registration Restriction: Open only to Master of Business Taxation students Instruction Mode: Lecture Grading Option: Letter

ACCT 532 Financial Accounting for Mergers and Acquisitions
Units: 1.5 Terms Offered: FaSp Practical problems in accounting for business combinations. Consolidated financial statements: fair value, acquisition and equity basis accounting. Prerequisite: GSBA 510 Duplicates Credit in former ACCT 582 Instruction Mode: Lecture Grading Option: Letter

ACCT 533 Mergers and Acquisitions: Tax Planning and Strategy
Units: 1.5 Terms Offered: FaSp Tax planning and strategy in corporate restructuring including mergers, acquisitions, and divestitures. Tax background not required to be successful in this course. Prerequisite: GSBA 510 Duplicates Credit in former ACCT 582 Instruction Mode: Lecture Grading Option: Letter

ACCT 535 Management and Cost Accounting
Units: 3 Terms Offered: FaSp Presentation of accounting data for management use in decision making; cost accounting, profit planning, decision analysis, systems for revenue and costs control, responsibility accounting. Prerequisite: ACCT 585 or GSBA 510. Registration Restriction: Open only to business and accounting students. Duplicates Credit in GSBA 510 and GSBA 536 Instruction Mode: Lecture Grading Option: Letter

ACCT 536 Advanced Cost Analysis and Management Accounting
Units: 3 Terms Offered: Sm Analysis and design of systems that provide cost information useful in making strategic and operating decisions. Advantages and limitations of activity-based costing methods. Prerequisite: GSBA 510 or ACCT 535. Instruction Mode: Lecture Grading Option: Letter

ACCT 537 Performance Measurement, Evaluation, and Incentives
Units: 3 Terms Offered: Sp Financial responsibility centers, financial and nonfinancial performance measures, budgets and variances, evaluation techniques and styles, incentives. Strategy implementation and execution. Corporate governance. Registration Restriction: Online registration limited to graduate accounting and business students Instruction Mode: Lecture Grading Option: Letter

ACCT 538 Financial Technologies in Accounting and Auditing
Units: 3 Terms Offered: Sp New, emerging and potential technologies for accounting and audit, emphasizing data and analytics. Actual and potential effects of new technologies in accounting and auditing settings. Registration Restriction: Online registration open only to Master of Accounting (Data and Analytics) students Instruction Mode: Lecture Grading Option: Letter

ACCT 541L Auditing in the Enhanced Data Age
Units: 3 Terms Offered: Fa Framework of the audit model including use of large data sets with automated audit tools. A lab environment is an integral part of the course. Corequisite: ACCT 548 Registration Restriction: Online registration open only to Master of Accounting (Data and Analytics) students Instruction Mode: Lecture, Lab Grading Option: Letter

ACCT 542 Fraud Analytics in the Audit
Units: 1.5 Terms Offered: Sm Understanding/identifying fraud risk from an auditor's perspective; development of an analytics skillset to detect financial fraud risk. Prerequisite: ACCT 541L Registration Restriction: Online registration open only to Master of Accounting (Data and Analytics) students Instruction Mode: Lecture, Lab Grading Option: Letter

ACCT 546 Auditing and Assurance Services
Units: 3 Terms Offered: FaSp Concepts and principles governing independent professional services that provide assurance on the reliability and relevance of information, including financial statement information. Topics include demand and supply issues for these services, basic principles of evidence, risk assessment and testing. Recommended Preparation: ACCT 525x. Instruction Mode: Lecture Grading Option: Letter

ACCT 547 Enterprise Information Systems
Units: 3 Terms Offered: Fa Focuses on accounting enterprise database models and information technology required to support those systems. Includes analysis and design of interfunctional process flows through reengineering to exploit technology capabilities. Instruction Mode: Lecture Grading Option: Letter

ACCT 548L IT Audit and Data Applications
Units: 3 Terms Offered: Fa Exploration of the role systems play in organizations, the technology that supports these systems and issues relating to technology risk, system/ application security and system review/audit. Corequisite: ACCT 541L Registration Restriction: Online registration open only to graduate accounting majors Instruction Mode: Lecture, Lab Required Grading Option: Letter

ACCT 549 Advanced Enterprise Systems and Technologies
Units: 3 Terms Offered: Fa Design, control and development of advanced enterprise systems, using reengineering, focusing on accounting and financial systems, using a wide range of emerging existing technologies. Registration Restriction: Online registration open only to graduate accounting majors Instruction Mode: Lecture Grading Option: Letter

ACCT 550T Tax Research and Professional Responsibilities
Units: 3 Terms Offered: Fa Tax law research methods; interpreting statutes, cases and rulings; communicating research results; administration and professional responsibilities of tax practice. Registration Restriction: Online registration limited to graduate business taxation students Instruction Mode: Lecture Grading Option: Letter

ACCT 551T Taxation of Partnerships and S-Corps
Units: 3 Terms Offered: Fa Federal taxation of flow-through entities, including: partnerships, S corporations, limited liability partnerships (LLPs) and limited liability companies (LLCs). Recommended Preparation: ACCT 550T or ACCT 560T or LAW 600. Instruction Mode: Lecture Grading Option: Letter

ACCT 554 Research, Theory and Ethics in Taxation
Units: 3 Terms Offered: Fa Basic theories of tax law, application of research tools, interpretation of statutes, cases and rulings, within the context of the professional responsibilities of tax practice. Registration Restriction: Online registration open only to graduate business taxation students Duplicates Credit in ACCT 550T, ACCT 560T Instruction Mode: Lecture Grading Option: Letter

ACCT 555T Advanced Financial Statement Auditing Topics
Units: 3 Terms Offered: FaSp Advanced coverage of topics in financial statement auditing including market effects of auditing, auditor litigation and client acceptance, errors and fraud, analytical procedures, and going-concern assessment. Prerequisite: ACCT 525x. Instruction Mode: Lecture Grading Option: Letter
ACCT 558 Advanced Accounting Valuation
Units: 1.5 Terms Offered: Sp Explores complex valuation issues arising in financial reporting and the related professional standards and guidance. Prerequisite: ACCT 528. Instruction Mode: Lecture Grading Option: Letter

ACCT 559 Strategy and Operations Through CFO Lens
Units: 3 Terms Offered: FaSp Examination of strategic objectives and operations within specific industries and companies. Chief Financial Officers present how they view the business as a whole and measure performance effectively. Registration Restriction: Online registration limited to graduate business and accounting students Instruction Mode: Lecture Grading Option: Letter

ACCT 560T Tax Theory and Ethics
Units: 3 Terms Offered: FaSp Taxation and its relationship to business and investment decisions; the effects of taxation on business organization, capital structure, policies, operations, and expansion. Recommended Preparation: An introductory tax course Registration Restriction: Online registration limited to graduate business and accounting students Instruction Mode: Lecture Grading Option: Letter

ACCT 561T Income Tax of Corporations and Their Shareholders
Units: 3 Terms Offered: FaSp Concepts and principles governing the taxation of corporations and their shareholders; the effect of taxes on corporate formation, capital structure, distributions, and liquidations. Recommended Preparation: ACCT 550T or ACCT 560T or LAW 800. Instruction Mode: Lecture Grading Option: Letter

ACCT 562 Methods and Motivations of Financial Reporting Fraud
Units: 1.5 Terms Offered: FaSp Discover and analyze signals of major and frequently committed methods of fraudulent financial reporting, frauds, and corporate governance. Recommended Preparation: ACCT 562 or other intermediate accounting course Registration Restriction: Online registration open only to graduate business and accounting students. Instruction Mode: Lecture Grading Option: Letter

ACCT 563T Federal Estate and Gift Taxes
Units: 3 Terms Offered: FaSpSm Taxation of decedents' estates and lifetime gifts; valuation of property subject to estate and gift taxes. Prerequisite: ACCT 550T Registration Restriction: Online registration open only to graduate accounting students Instruction Mode: Lecture Grading Option: Letter

ACCT 567T Taxation of Transactions in Property
Units: 3 Terms Offered: FaSp Taxation of gains and losses from sales, exchanges and other transactions involving property, especially real estate; tax planning. Prerequisite: ACCT 550T. Registration Restriction: Open only to graduate accounting majors. Instruction Mode: Lecture Grading Option: Letter

ACCT 568T International Taxation
Units: 3 Terms Offered: FaSpSm Taxation of cross-border transactions of U.S. citizens and corporations and of U.S. source income of foreign persons and corporations; planning for organization of international operations under the tax laws. Prerequisite: ACCT 561T Instruction Mode: Lecture Grading Option: Letter

ACCT 569T Advanced Partnership Taxation
Units: 3 Terms Offered: Sp Advanced tax concepts involving partnerships and limited liability companies, designed to produce a level of expertise in Subchapter K of the Internal Revenue Code. Prerequisite: ACCT 551T. Instruction Mode: Lecture Grading Option: Letter

ACCT 570T State and Local Tax Concepts
Units: 3 State income taxes; property tax; other state and local taxes; the effect of state and local taxes on multistate operations. Prerequisite: ACCT 550T Recommended Preparation: ACCT 561T or minimum one year of work in corporate taxation Registration Restriction: Online registration open only to graduate students in Business Taxation. Instruction Mode: Lecture Grading Option: Letter

ACCT 571T Taxation of Business Owners and High Net-Worth Individuals
Units: 3 Terms Offered: SpSm Application of tax law in areas of compensation planning, investment planning, tax shelters, and current developments relating to the individual taxpayer. Prerequisite: ACCT 550T Registration Restriction: Online registration open only to graduate accounting students Instruction Mode: Lecture Grading Option: Letter

ACCT 572 Corporate Accounting and Reporting
Units: 3 Terms Offered: FaSp A study of financial reporting and disclosure issues with an emphasis on the use of corporate financial statements and their accompanying footnotes. Prerequisite: GSBA 510. Instruction Mode: Lecture Grading Option: Letter

ACCT 573T Federal Tax Procedure
Units: 3 Terms Offered: SpSm Tax reporting and collection procedures; administrative and judicial procedures governing tax controversies; the rights and obligations of the taxpayer. Prerequisite: ACCT 550T; ACCT 560T or LAW 600. Instruction Mode: Lecture Grading Option: Letter

ACCT 574T Accounting and Corporate Governance in Global Business
Units: 3 Terms Offered: Sp How corporate governance and financial reporting systems are influenced by business environments internationally. Global perspective of governance and reporting challenges and mechanisms for their remedy. Recommended Preparation: GSBA 510 or other Financial Accounting course Registration Restriction: Online registration open only to graduate accounting and business students Instruction Mode: Lecture Grading Option: Letter

ACCT 575T Taxation of Financial Markets
Units: 3 Terms Offered: Sm Taxation of financial market products with an emphasis on derivative products. Basics of tax forwards, futures, options, swaps, collars and floor. Time value of money considerations. Prerequisite: ACCT 561T. Instruction Mode: Lecture Grading Option: Letter

ACCT 576T Tax Consolidations
Units: 3 Terms Offered: FaSp Concepts and principles of taxation of companies operating as consolidated groups. Prerequisite: ACCT 550T and ACCT 561T. Instruction Mode: Lecture Grading Option: Letter

ACCT 577T Compensation
Units: 3 Concepts of taxation of employers and employees from various forms of compensation, including pension plans, profit sharing plans, stock ownership plans, and deferred compensation arrangements. Prerequisite: ACCT 550T and ACCT 560T. Instruction Mode: Lecture Grading Option: Letter

ACCT 578T Advanced Corporate Taxation
Units: 3 Terms Offered: Sp Analysis of corporate divisions and reorganizations, carryovers, and other advanced topics in corporate taxation. Prerequisite: ACCT 561T. Instruction Mode: Lecture Grading Option: Letter

ACCT 579T Advanced International Taxation
Units: 3 Analysis of tax treaties, foreign currency transactions, international licensing, reorganization of foreign corporations, and other current topics as the law changes. Prerequisite: ACCT 568T. Instruction Mode: Lecture Grading Option: Letter

ACCT 580T Tax Accounting Methods
Units: 3 Terms Offered: FaSpSm Concepts governing timing of recognition of income and deductions for income tax purposes. Covers differences between GAAP and income tax accounting for all taxpayers. Prerequisite: ACCT 550T. Instruction Mode: Lecture Grading Option: Letter

ACCT 581 Financial Statement Analysis
Units: 3 Terms Offered: FaSpSm Analysis of corporate financial reports from a decision-maker's perspective. This course is case-and-applications-oriented. Applications include credit analysis, equity valuation, and financial distress. Prerequisite: GSBA 510 Registration Restriction: Online registration limited to graduate accounting and business students. Duplicates Credit in ACCT 527 Instruction Mode: Lecture Grading Option: Letter

ACCT 583 Income Tax Accounting and Auditing
Units: 3 Terms Offered: FaSp Examination of FAS 109 and roles of auditors, tax professionals and corporate financial personnel in preparing, analyzing and reviewing accrual of income taxes. Prerequisite: ACCT 561T or ACCT 585. Registration Restriction: Open only to graduate majors. Instruction Mode: Lecture Grading Option: Letter

ACCT 584 Family Wealth Preservation
Units: 3 Terms Offered: Sp Analysis of transfer of property during lifetime or at death from a tax saving perspective. Registration Restriction: Online registration limited to graduate business and accounting students Instruction Mode: Lecture Grading Option: Letter
### COURSES OF INSTRUCTION

| Course Code | Course Title | Units | Term Offered | Credit/No Credit | Grading Option | Instruction Mode | Registration Restriction | Preparation | Prerequisite | Instruction Mode | Registration | Instruction Mode | Registration | |---|---|---|---|---|---|---|---|---|---|---|---|---|---|
| ACCT 587 | Forensic Accounting | 1, 1.5 | Units Offered: FaSp | Hands-on practice | Individual or team project solving real business problems for an existing business entity. | Online registration limited to graduate accounting students | ACCT 572 Registration | Required | | ACCT 587 | Lecture | No Credit | | |
| ACCT 588 | Analysis and Implications of SEC Registration and Reporting | 3 Terms Offered: SpSm | Proposal, research and written report required. | | | | | | | | | | | |
| ACCT 590 | Directed Research | 1, 2, 3, 4 | Research leading to the master's degree. | | Lecture | No Credit | | | | | | | | |
| ACCT 592 | Field Research in Accounting | 0.5, 1, 1.5, 2, 2.5, 3, 3.5, 4, 4 | Max | Individual or team projects studying the business practices of an industry. | | Lecture | Open only to graduate business and accounting students | | | | | | | |
| ACCT 593 | Independent Research in Accounting | 0.5, 1, 1.5, 2, 2.5, 3, 3.5, 4 | Max | Independent research beyond normal course offerings. | | Lecture | Open only to Marshall Ph.D. students | | | | | | | |
| ACCT 595 | Internship in Accounting | 0.5, 1, 1.5, 2, 3 Max | Supervised on-the-job business experience in the field of Accounting. | | Lecture | Open only to graduate accounting students | | | | | | | |
| ACCT 596 | Research Practicum in Accounting | 0.5, 1, 1.5, 2, 2 Max | Offered: FaSp | Hands-on practical experience working with a Leventhal faculty member on an ongoing research project. | Online registration limited to graduate accounting students | Lecture | Grading Option: Credit/No Credit | | | | | | |
| ACCT 597 | Consulting Project in Accounting | 0.5, 1, 1.5, 2, 2.5, 3, 3.5, 4, 4.5 | Max | Individual or team project solving real business problems for an existing business entity. | | Lecture | Online registration limited to graduate and accounting students | | | | | | | |
| ACCT 599 | Special Topics | 1, 1.5, 2, 3, 4 Max | Offered: 09 | Irregular New developments in contemporary accounting. | | Lecture | Grading Option: Credit | | | | | | | |
| ACCT 601 | Applied Econometrics and Research Design | 1.5 | Terms Offered: Sp | Develop a strong intuition for the research design methodologies commonly used in archival accounting research. | Recommended Preparation: Graduate level Econometrics course Registration Restriction: Open only to Accounting doctoral students | Lecture | Grading Option: Letter | | | | | | | |
| ACCT 602 | Judgment and Decision-Making Research in Accounting | 1.5 | Terms Offered: Irregular | Key psychological drivers of judgment and decision-making research in accounting. | Recommended Preparation: Completion of MACc or MBT course work | Lecture | Grading Option: Letter | | | | | | | |
| ACCT 604 | Survey of Management Accounting Research | 3 | Survey of major topics in accounting research with coverage of both key research questions and frequently used methods. | | Lecture | Grading Option: Letter | | | | | | | |
| ACCT 605 | Survey of Financial Reporting Research | 3 | Terms Offered: Fa Survey of major topics and methods in research on financial reporting with coverage of both key research questions and frequently used methods. | | Lecture | Grading Option: Letter | | | | | | | |
| ACCT 606 | Survey of Tax Research | 3 | Survey of major topics and methods in research on taxation with coverage of both key research questions and frequently used methods. | | Lecture | Grading Option: Letter | | | | | | | |
| ACCT 607 | Positive Accounting Research | 3 | Survey of major topics related to positive accounting research with coverage of both key research questions and frequently used methods. | | Lecture | Grading Option: Letter | | | | | | | |
| ACCT 608 | Survey of Accounting Research | 3 | Terms Offered: FaSp | Seminar that surveys both seminal and cutting edge research in financial accounting, managerial accounting, accounting information systems, and tax accounting. | | Lecture | Grading Option: Letter | | | | | | | |
| ACCT 611 | Selected Topics in Accounting Research | 1.5 | Max | Irregular | | Lecture | Grading Option: Letter | | | | | | | |
| ACCT 621 | Research Forum | 1 Max | Terms Offered: FaSp | Seminar | | Lecture | Grading Option: Credit/No Credit | | | | | | | |
| ACCT 630 | Auditing and Archival Research | 1.5 | Terms Offered: | Irregular | | Lecture | Letter | | | | | | | |
| ACCT 641 | Debt Contracting and Banking Research | 1.5 | Terms Offered: | Irregular | | Lecture | Letter | | | | | | | |
| ACCT 642 | Research on Disclosure and Information Intermediaries | 1.5 | Terms Offered: | Irregular | | Lecture | Letter | | | | | | | |
| ACCT 661 | Accounting Research Methodology | 2 | Advanced doctoral seminar | Concerned with review and critique of accounting research forum papers and with the preparation, presentation, and defense of research proposals and papers. | | Lecture | Grading Option: Letter | | | | | | |
Academic Medicine

ACMD 501 Introduction to Academic Medicine Worldwide
Units: 3
Introduction to academic medicine worldwide. Instruction Mode: Lecture Grading Option: Letter

ACMD 502 Becoming a Leader in Academic Medicine Worldwide
Units: 3
Introduction to leadership within the context of global academic medicine and health professions. Instruction Mode: Lecture Grading Option: Letter

ACMD 503 Leading Change in Academic Medical Centers
Units: 3
Introduction to leading change within the context of global academic medicine and health professions. Instruction Mode: Lecture Grading Option: Letter

ACMD 511 Competencies in Academic Medicine and Health I
Units: 3
Competencies related to patient care, practice based learning and improvement, and systems-based practice. Instruction Mode: Lecture Grading Option: Letter

ACMD 512 Competencies in Academic Medicine and Health II
Units: 3
Competencies related to patient care, practice based learning and improvement, and systems-based practice. Instruction Mode: Lecture Grading Option: Letter

ACMD 513 Professionalism in Academic Medicine and Health
Units: 3
Professionalism in academic medicine and health. Instruction Mode: Lecture Grading Option: Letter

ACMD 514 Accreditation and Program Evaluation in Academic Medicine
Units: 3
Evaluating health professions training programs within guidelines of relevant accreditation organizations; models of evaluation, designing plans and tools for evaluation of program elements. Instruction Mode: Lecture Grading Option: Letter

ACMD 591 Designing Research on Innovations in Academic Medicine
Units: 2
Introduction to and scholarly review of innovations in health professions education; needs assessment, problem selection, use of research methods to study an innovation. Instruction Mode: Lecture Grading Option: Letter

ACMD 592 Implementing Research on Innovation in Academic Medicine
Units: 2
Mentored research on an innovation in academic medicine leading to the master’s degree. The project will result in a formal written research report. Prerequisite: ACMD 591. Instruction Mode: Lecture Grading Option: Letter

ACMD 593 Foundations of Academic Writing
Units: 1
Basic writing principles for academic research papers, grant proposals and journal articles. Recommended Preparation: Complete previous research methods course. Instruction Mode: Lecture Grading Option: Credit/No Credit

ACMD 594 Fieldwork: Designing Innovations for the Health Professions
Units: 1, 2, 3
Fieldwork design for an innovation in academic medicine or other health-related field that is ready to move to publication. Instruction Mode: Lecture Grading Option: Credit/No Credit

ACMD 595 Fieldwork: Supporting the Educational Enterprise in Academic Medicine
Units: 3
Support functions in academic medical centers and health professions schools. Instruction Mode: Lecture Grading Option: Letter

ACMD 604 Supporting the Educational Enterprise in Academic Medicine
Units: 3
Support functions in academic medical centers and health professions schools. Instruction Mode: Lecture Grading Option: Letter

ACMD 605 Faculty Development for Health Sciences Faculty Educators
Units: 2
Role of faculty development programs in health professions schools; tools for delivering effective continuing education and faculty development. Instruction Mode: Lecture Grading Option: Letter

ACMD 615 Maintenance of Competence in the Health Professions
Units: 2
Maintenance of competence and continuing professional development (CPD) of physicians and other health care professionals; trends, needs, strategies, assessing outcomes, examining effectiveness of CPD programs. Instruction Mode: Lecture Grading Option: Letter

ACMD 621 Capstone Portfolio for the Master of Academic Medicine
Units: 1
A portfolio of projects for teachers and learners; develop a personal portfolio that represents each learner's accomplishment of the core competencies of the MACM program. Instruction Mode: Lecture Grading Option: Credit/No Credit

Advanced Dental Education

Conjoint Program

ADNT 701 Research Methodologies in Dentistry
Units: 2
Critical evaluation of the scientific principles in the development, execution, and interpretation of methodologies used in dentistry. Instruction Mode: Lecture Grading Option: Letter

ADNT 702 Physical Diagnosis
Units: 2
Didactic and clinical experience in physical diagnosis relevant to practice of the dental specialties. Instruction Mode: Lecture Grading Option: Letter

ADNT 703a Seminar: Combined Treatment Planning
Units: 2
Each Interdisciplinary consideration of complex cases which involve several of the dental specialties. Instruction Mode: Lecture Grading Option: Letter

ADNT 703b Seminar: Combined Treatment Planning
Units: 2
Each Interdisciplinary consideration of complex cases which involve several of the dental specialties. Instruction Mode: Lecture Grading Option: Letter

ADNT 703c Seminar: Combined Treatment Planning
Units: 2
Each Interdisciplinary consideration of complex cases which involve several of the dental specialties. Instruction Mode: Lecture Grading Option: Letter

ADNT 703d Seminar: Combined Treatment Planning
Units: 2
Each Interdisciplinary consideration of complex cases which involve several of the dental specialties. Instruction Mode: Lecture Grading Option: Letter

ADNT 703e Seminar: Combined Treatment Planning
Units: 2
Each Interdisciplinary consideration of complex cases which involve several of the dental specialties. Instruction Mode: Lecture Grading Option: Letter

ADNT 703f Seminar: Combined Treatment Planning
Units: 2
Each Interdisciplinary consideration of complex cases which involve several of the dental specialties. Instruction Mode: Lecture Grading Option: Letter

ADNT 703g Seminar: Combined Treatment Planning
Units: 2
Each Interdisciplinary consideration of complex cases which involve several of the dental specialties. Instruction Mode: Lecture Grading Option: Credit/No Credit

ADNT 703h Seminar: Combined Treatment Planning
Units: 2
Each Interdisciplinary consideration of complex cases which involve several of the dental specialties. Instruction Mode: Lecture Grading Option: Credit/No Credit

ADNT 703i Seminar: Combined Treatment Planning
Units: 2
Each Interdisciplinary consideration of complex cases which involve several of the dental specialties. Instruction Mode: Lecture Grading Option: Credit/No Credit

ADNT 703j Seminar: Combined Treatment Planning
Units: 2
Each Interdisciplinary consideration of complex cases which involve several of the dental specialties. Instruction Mode: Lecture Grading Option: Credit/No Credit
ADNT 704c Oral Biology
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13 each. Interdisciplinary consideration of contemporary biology of the cell, bone, teeth, periodontium, occlusion, dental pulp, pain and human growth and development. Instruction Mode: Lecture Grading Option: Letter

ADNT 706 Seminar: Diseases of Childhood
Units: 2 Introral hard and soft tissue pathologic conditions in children, common bacterial and viral diseases and their transmission in the pediatric dental environment. Instruction Mode: Lecture Grading Option: Credit/No Credit

ADNT 707 Behavior of the Child Patient
Units: 2 Child and adolescent psychological growth and development; Human communication, needs, motivation, and learning. Critical analysis of patient management, team treatment, and practice administration. Instruction Mode: Lecture Grading Option: Letter

ADNT 710 Internship: Dental Education
Units: 1, 2, 3, 4, 5 Practical experience teaching predoctoral students. Units and hours variable. Instruction Mode: Lecture Grading Option: Letter

Aerostas Studies

AEST 100a Aerospace Studies I: Air Force Mission and Organization
Units: 1 Terms Offered: FaSp Organization and function of NORAD, tactical air, military airlift, systems, logistics, air training and communications commands; Army, Navy, Marines; reserves; separate operating agencies. Instruction Mode: Lecture Grading Option: Letter

AEST 100b Aerospace Studies I: Air Force Mission and Organization
Units: 1 Terms Offered: FaSp Organization and function of NORAD; emphasis on the Army Air Corps; communication skills. Instruction Mode: Lecture Grading Option: Letter

AEST 200a Aerospace Studies II: Air Force History
Units: 1 Terms Offered: FaSp Development of aerospace power in the U.S. through World War II; emphasis on the Army Air Corps; communication skills. Instruction Mode: Lecture Grading Option: Letter

AEST 200b Aerospace Studies II: Air Force History
Units: 1 Terms Offered: FaSp Development of aerospace power since World War II; emphasis on international confrontations involving the United States; communication skills. Instruction Mode: Lecture Grading Option: Letter

AEST 210a Leadership Laboratory II
Units: 1 Terms Offered: FaSp Introduction to the military experience focusing on customs and courtesies, drill and ceremonies, and the environment of an Air Force officer. Instruction Mode: Lecture Grading Option: Credit/No Credit

AEST 210b Leadership Laboratory II
Units: 1 Terms Offered: FaSp Introduction to the military experience focusing on customs and courtesies, drill and ceremonies, and the environment of an Air Force officer. Instruction Mode: Lecture Grading Option: Credit/No Credit

AEST 220a Advanced Leadership Laboratory II
Units: 1 Terms Offered: FaSp Additional exposure to the military experience focusing on continuing AFROTC cadets, focusing on customs and courtesies, drill and ceremonies, and the environment of an Air Force officer. Instruction Mode: Lecture Grading Option: Credit/No Credit

AEST 220b Advanced Leadership Laboratory II
Units: 1 Terms Offered: FaSp Additional exposure to the military experience focusing on continuing AFROTC cadets, focusing on customs and courtesies, drill and ceremonies, and the environment of an Air Force officer. Instruction Mode: Lecture Grading Option: Credit/No Credit

AEST 300a Aerospace Studies III: Air Force Management and Leadership
Units: 3 Terms Offered: FaSp Air Force management focusing on the new manager in the Air Force milieu. Emphasis on communication skills peculiar to the Air Force. Instruction Mode: Lecture Grading Option: Letter

AEST 300b Aerospace Studies III: Air Force Management and Leadership
Units: 3 Terms Offered: FaSp Air Force management focusing on the new manager in the Air Force milieu. Emphasis on communication skills peculiar to the Air Force. Instruction Mode: Lecture Grading Option: Letter

AEST 310a Leadership Laboratory III
Units: 1 Terms Offered: FaSp Practical introduction to Air Force leadership focusing on military communicative skills, group dynamics, and application of theories of leadership and management. Instruction Mode: Lecture Grading Option: Credit/No Credit

AEST 310b Leadership Laboratory III
Units: 1 Terms Offered: FaSp Practical introduction to Air Force leadership focusing on military communicative skills, group dynamics, and application of theories of leadership and management. Instruction Mode: Lecture Grading Option: Credit/No Credit

AEST 400a Aerospace Studies IV: National Security Forces in Contemporary American Society
Units: 3 Terms Offered: FaSp Military professionalism and the context in which defense policy is formulated and implemented; national security policy, political/social constraints, and military justice. Instruction Mode: Lecture Grading Option: Letter

AEST 400b Aerospace Studies IV: National Security Forces in Contemporary American Society
Units: 3 Terms Offered: FaSp Military professionalism and the context in which defense policy is formulated and implemented; national security policy, political/social constraints, and military justice. Instruction Mode: Lecture Grading Option: Letter

AEST 410a Leadership Laboratory IV
Units: 1 Terms Offered: FaSp Advanced Air Force leadership experience focusing on the practical development of the Air Force officer through command and staff positions within the Cadet Corps. Instruction Mode: Lecture Grading Option: Credit/No Credit

AEST 410b Leadership Laboratory IV
Units: 1 Terms Offered: FaSp Advanced Air Force leadership experience focusing on the practical development of the Air Force officer through command and staff positions within the Cadet Corps. Instruction Mode: Lecture Grading Option: Credit/No Credit

AEST 420a Leadership Laboratory V
Units: 1 Terms Offered: FaSp Advanced leadership experiences for AFROTC continuing cadets. Instruction Mode: Lecture Grading Option: Credit/No Credit

AEST 420b Leadership Laboratory V
Units: 1 Terms Offered: FaSp Advanced leadership experiences for AFROTC continuing cadets. Instruction Mode: Lecture Grading Option: Credit/No Credit

Art History

AHIS 100g Introduction to Visual Culture
Units: 4 Terms Offered: Sp The description and analysis of various forms of visual culture, including both mass media and "high" art representations, both Western and non-Western images. Satisfies New General Education in Category B: Humanistic Inquiry Satisfies Old General Education in Category V: Arts and Letters Instruction Mode: Lecture, Discussion Grading Option: Letter

AHIS 102gp Foundations of Western Art: Prehistoric to Renaissance
Units: 4 Terms Offered: Sp The description and analysis of various forms of visual culture, including both mass media and "high" art representations, both Western and non-Western images. Satisfies New General Education in Category B: Humanistic Inquiry Satisfies Old General Education in Category V: Arts and Letters Instruction Mode: Lecture, Discussion Grading Option: Letter

AHIS 121gp Foundations of Western Art: Renaissance to Contemporary
Units: 4 Terms Offered: FaSpSm European
art and its legacy in the Americas. Painting, sculpture, architecture and other visual media considered in relation to social and cultural history. Satisfies New General Education in Category A: The Arts

Satisfies Global Perspective in Category H: Traditions and Historical Foundations
Satisfies Old General Education in Category I: Western Cultures and Traditions

Instruction Mode: Lecture, Discussion
Grading Option: Letter

AHIS 125gp Arts of Asia I: Antiquity to 1300
Units: 4
Terms Offered: Fa An introduction to the major art forms and monuments of religious art in India, Southeast Asia, China, and Japan from pre-history to 1300. Satisfies New General Education in Category A: The Arts Satisfies Global Perspective in Category H: Traditions and Historical Foundations Satisfies Old General Education in Category II: Global Cultures and Traditions

Instruction Mode: Lecture, Discussion Grading Option: Letter

AHIS 126g Arts of Asia II: 1300 to the Present
Units: 4
Terms Offered: Sp A survey of the art and architecture of India, China, Korea, and Japan from 1300 to the present. Satisfies New General Education in Category A: The Arts Satisfies Old General Education in Category I: Western Cultures and Traditions

Instruction Mode: Lecture, Discussion Grading Option: Letter

AHIS 127g Arts of the Ancient Americas
Units: 4
Terms Offered: Fa A survey of the art, architecture, and archaeology of the diverse array of peoples and cultures in ancient Mesoamerica and the South American Andean Mountains. Satisfies New General Education in Category B: Humanistic Inquiry Satisfies Old General Education in Category II: Global Cultures and Traditions

Instruction Mode: Lecture Grading Option: Letter

AHIS 128gp Arts of Latin America
Units: 4
Terms Offered: Sp A survey of the art, architecture, and visual culture of Latin America from the colonial period to the present, focusing on connections to culture and society. Satisfies New General Education in Category A: The Arts Satisfies Global Perspective in Category H: Traditions and Historical Foundations Satisfies Old General Education in Category II: Global Cultures and Traditions

Instruction Mode: Lecture, Discussion Grading Option: Letter

AHIS 201g Digging into the Past
Units: 4
Terms Offered: Sp A broad survey, covering some 8,000 years and focusing on the material culture of the ancient world in a historical and sociocultural context. Satisfies New General Education in Category A: The Arts Satisfies Global Perspective in Category H: Traditions and Historical Foundations Satisfies Old General Education in Category I: Western Cultures and Traditions

Instruction Mode: Lecture, Discussion Grading Option: Letter

AHIS 215g Studies in Architecture and Urbanism
Units: 4
Terms Offered: FaSpSm Analyzing a wide range of case studies, this course provides a roadmap to analyze and interpret the built environment in many different eras and contexts. Satisfies New General Education in Category A: The Arts

Instruction Mode: Lecture Grading Option: Letter

AHIS 220g Medieval Visual Culture
Units: 4
Terms Offered: Fa Medieval visual culture as an introduction to the Christian heritage of western civilization and to the interaction of Church and state from the 3rd to the 13th century. Satisfies New General Education in Category A: The Arts Satisfies Old General Education in Category I: Western Cultures and Traditions

Instruction Mode: Lecture Grading Option: Letter

AHIS 230 Art and Culture in Early Modern Europe
Units: 4
Survey of European art from the 15th to the 17th century. Case studies in Renaissance and Baroque art with emphasis on artists in major urban centers.

Instruction Mode: Lecture Grading Option: Letter

AHIS 240g Introduction to American Art
Units: 4
Terms Offered: FaSp An Introduction to North American visual and material culture from the late sixteenth century to the present. Satisfies New General Education in Category A: The Arts Satisfies Old General Education in Category I: Western Cultures and Traditions

Instruction Mode: Lecture, Discussion Grading Option: Letter

AHIS 250gm Art, Modernity and Difference
Units: 4
Terms Offered:Fa Consideration of various categories of "Modern" as they have been constructed in Western art of the late 19th and 20th centuries. Satisfies New General Education in Category A: The Arts

Instruction Mode: Lecture Grading Option: Letter

AHIS 255g Culture Wars: Art and Social Conflict in the Modern World
Units: 4
Terms Offered: FaSp Examination of social conflicts and political controversies in American culture through the lenses of visual art and photography. Satisfies New General Education in Category A: The Arts Satisfies Old General Education in Category VI: Social Issues

Instruction Mode: Lecture, Discussion Grading Option: Letter

AHIS 270 L.A. Now: Contemporary Art in Los Angeles
Units: 4
Exposes the production, display and critical reception of contemporary art, taking Los Angeles as its laboratory.

Instruction Mode: Lecture Grading Option: Letter

AHIS 282 Korean Art
Units: 4
Introduction to the richness and complexity of artistic expression in Korean art through the study of painting, sculpture, ceramics, and architecture through the 19th century.

Instruction Mode: Lecture Grading Option: Letter

AHIS 301 Guardians of the Past? Art Preservation, Ethics, and the Law
Units: 4
Terms Offered: FaSp Introduction to key ethical, historical, and legal debates about art preservation and collecting across the globe.

Instruction Mode: Lecture Grading Option: Letter

AHIS 304gm Art, Power and Identity in Renaissance Italy
Units: 4
Explores the visual, material and performative aspects of Italian culture in the expression of power and the construction of identity in the Renaissance. Satisfies New General Education in Category A: The Arts

Instruction Mode: Lecture Grading Option: Letter

AHIS 318 Arts of the Ancient Andes
Units: 4
Survey of the art and architecture of the ancient cultures of the Andes in South America.

Instruction Mode: Lecture Grading Option: Letter

AHIS 319 Mesoamerican Art and Culture
Units: 4
Introductory survey of painting, sculpture, and architecture of Mesoamerica before the Spanish conquest presented in their social, cultural, and political contexts.

Instruction Mode: Lecture Grading Option: Letter

Crosslisted as ETST-319

AHIS 320 Aegean Archaeology
(Enroll in CLAS 323)

AHIS 321 Greek Art and Archaeology
Units: 4
Terms Offered: Fa Survey of artistic works and monuments of ancient Greece from the Geometric through the Hellenistic period (c. 1000 - 30 BCE). Instruction Mode: Lecture Grading Option: Letter

Crosslisted as CLAS 321, ARCG 321

Units: 4
An introduction to sub-Saharan art (sculpture, textiles, architecture, masquerades, performances and body arts) in the context of issues of function, gender, politics and ethnic diversity. Instruction Mode: Lecture
Grading Option: Letter

AHIS 378 Modern Russian Art
Units: 4
(Enroll in SLL 378) Instruction Mode: Lecture
Grading Option: Letter

AHIS 381g Visual Cultures of Asia
Units: 4
Terms Offered: FaSp Exploration of one or more major traditions of visual culture in Asia through cross-cultural interdisciplinary perspectives. Satisfies New General Education in Category B: Humanistic Inquiry Instruction Mode: Lecture
Grading Option: Letter Crosslisted as EALC 381

AHIS 382 Art and Cultural Heritage in East Asia
Units: 4
Terms Offered: FaSpSmt Enroll in EALC 382)

AHIS 384 Early Chinese Art
Units: 4
A survey of Chinese architecture, ceremonial bronzes, sculpture, ceramics and painting from antiquity through the Tang Dynasty. Instruction Mode: Lecture
Grading Option: Letter Crosslisted as EALC-384

AHIS 385 Later Chinese Art
Units: 4
A survey of Chinese painting from 900 to the present, emphasizing the role of painting within the context of Chinese intellectual history. Instruction Mode: Lecture
Grading Option: Letter Crosslisted as EALC-385

AHIS 386 Early Japanese Art
Units: 4
A survey of Japanese Buddhist and secular architecture, sculpture and painting from antiquity to 1333, stressing the relation of art to cultural context. Instruction Mode: Lecture
Grading Option: Letter Crosslisted as EALC-387

AHIS 387 Later Japanese Art
Units: 4
A survey of Japanese architecture, garden design, ceramics, and painting from 1333 to the present, stressing the role of art within cultural context. Instruction Mode: Lecture
Grading Option: Letter Crosslisted as EALC-388

AHIS 390 Special Problems
Units: 1
Max Units: 4.0 Supervised, individual studies. No more than one registration permitted. Enrollment by petition only. Instruction Mode: Lecture
Grading Option: Letter

AHIS 400x Undergraduate Apprenticeship
Units: 2
Max Units: 4.0 Terms Offered: FaSpSm Independent work in art museums, galleries or art history related institutes supervised by on-site professionals and USC faculty. Not available for credit to art history majors. Available to upper-division art history majors only. Instruction Mode: Lecture
Grading Option: Credit/No Credit

AHIS 415 Object-Worlds: Histories and Theories of Things
Units: 4
Developing strategies for analyzing what material culture of the past can tell us about the individuals and cultures that interacted with it. Instruction Mode: Lecture
Grading Option: Letter Crosslisted as CLAS 415, ARCG 415

AHIS 420 Studies in Ancient Art
Units: 4
Max Units: 16.0 Terms Offered: Irregular In-depth exploration of specified topics within the area of Ancient art and architecture. Instruction Mode: Lecture
Grading Option: Letter

AHIS 425 Interdisciplinary Studies in Classical Art and Archaeology: Research and Methodology
Units: 4
Max Units: 8.0 Terms Offered: Irregular Each year a different topic in Greek and Roman art and archaeology will be examined in depth. Emphasis on interdisciplinary methodological approaches and research techniques. Instruction Mode: Lecture
Grading Option: Letter Crosslisted as CLAS-425

AHIS 427 Archaeological Theories, Methods, and Practice
Units: 4
Terms Offered: FaSp Examined are various theoretical approaches, methods, and practice of archaeology in a seminar style format, with lectures, oral presentations, and museum visits. Instruction Mode: Lecture
Grading Option: Letter

AHIS 428 Studies in Colonial Latin American Art
Units: 4
Terms Offered: FaSpSm In-depth exploration of specified topics within colonial Latin American art. Instruction Mode: Lecture
Grading Option: Letter

AHIS 429 Studies in Art, Science, and Technology
Units: 4
Terms Offered: FaSpSm Examination of the connections between art, science, and technology, focusing on a specific time period and/or set of questions. Instruction Mode: Lecture
Grading Option: Letter

AHIS 430 Studies in Renaissance Art
Units: 4
In-depth exploration of specified topics within the area of Renaissance art and architecture. Recommended Preparation: AHIS 230 or AHIS 330.
Duplicates Credit in former AHIS 444 and AHIS 446. Instruction Mode: Lecture  
Grading Option: Letter

AHIS 433 Studies in Medieval Art  
Units: 4 Max Units: 16.0 In-depth exploration of specified topics within the area of Medieval art and architecture. Instruction Mode: Lecture Grading Option: Letter

AHIS 436 The Philosophy of Art  
Instruction Mode: FaSp Discusses writings on aesthetics, the history of aesthetics and art criticism, the philosophy of art, and modern philosophical notions such as genius and originality. Instruction Mode: Lecture Grading Option: Letter

AHIS 449 History of Prints and Drawings  
Terms Offered: Irregular Aspects of the history of the graphic arts; stylistic and technical considerations may both be included or specific areas stressed at the choice of the instructor. Instruction Mode: Lecture Grading Option: Letter

AHIS 453 Studies in Baroque Art  
Units: 4 Max Units: 16.0 In-depth exploration of specified topics within the area of 17th century art and architecture. Recommended Preparation: AHIS 230 or AHIS 344. Instruction Mode: Lecture Grading Option: Letter

AHIS 460 Studies in 18th and 19th Century Art  
Units: 4 Max Units: 8.0 In-depth exploration of specified topics within the area of 18th and 19th century art and architecture. Instruction Mode: Lecture Grading Option: Letter

AHIS 465 Studies in American Art  
Units: 4 Max Units: 8.0 In-depth exploration of a specified topic in the history of American art. Instruction Mode: Lecture Grading Option: Letter Crosslisted as AMST-465

AHIS 466 Studies in the Decorative Arts and Design  
Units: 4 Exploration of a specified topic in the history of the decorative arts and design in Europe and America. Instruction Mode: Lecture Grading Option: Letter

AHIS 467 19th Century French Art  
Units: 4 Terms Offered: FaSp Exploration of the main movements in 19th century French art, using the city of Paris and its museums. Field trips in conjunction with coursework. Instruction Mode: Lecture Grading Option: Letter

AHIS 468 Studies in Modern Art  
Units: 4 Max Units: 8.0 Terms Offered: Irregular In-depth exploration of a specified topic in art of the late 19th and/or early 20th centuries. Instruction Mode: Lecture Grading Option: Letter

AHIS 469 Critical Approaches to Photography  
Units: 4 Terms Offered: Irregular Selected problems in the history, theory and criticism of photography; recent scholarship considered in relationship to specific photographers and photographic images. Instruction Mode: Lecture Grading Option: Letter

AHIS 470 Studies in Contemporary Art  
Units: 4 In-depth exploration of specified topics within the area of contemporary art and architecture. Instruction Mode: Lecture Grading Option: Letter

AHIS 475m Blackness in American Visual Culture  
Units: 4 A historical overview of how people of African descent have been represented visually in American culture. Instruction Mode: Lecture Grading Option: Letter Crosslisted as AMST-475

AHIS 476 The Art of Walt Disney  
Units: 4 Terms Offered: FaSp The trajectory of Walt Disney’s career, artistic influences and his artistic reception within a broad range of institutional contexts, including museums. Instruction Mode: Lecture, Discussion Grading Option: Letter

AHIS 477 Studies in Visual and Material Culture  
Units: 4 Max Units: 16.0 In-depth exploration of selected topics in visual and material culture. Instruction Mode: Lecture Grading Option: Letter

AHIS 479 History in the Museum: The Past in Objects  
Units: 4 (Enroll in HIST 479)  
AHIS 481 Studies in Japanese Art  
Units: 4 Max Units: 16.0 In-depth exploration of specified topics within the area of Japanese art and architecture. Instruction Mode: Lecture Grading Option: Letter Crosslisted as EALC-481

AHIS 482 Japanese Photography  
Units: 4 Terms Offered: FaSp Surveys the evolution of Japanese photography from 1850 to 21st century and examines how photography has helped define Japan’s national and cultural identity. Recommended Preparation: AHIS 125sp Instruction Mode: Lecture Grading Option: Letter Crosslisted as EALC 482

AHIS 484 Studies in Chinese Art  
Units: 4 Max Units: 16.0 In-depth exploration of specified topics within the area of Chinese art and architecture. Instruction Mode: Lecture Grading Option: Letter Crosslisted as EALC-484

AHIS 485 Material Culture of the Silk Road  
Units: 4 Terms Offered: FaSpSm (Enroll in EALC 485)

AHIS 486 Introduction to Museums: Past, Present, and Future  
Units: 4 Terms Offered: Sp Comprehensive exploration of the role of art museums in society. Inquiry into the present and future potential of museums as a complex force in society. Instruction Mode: Lecture Grading Option: Letter

AHIS 488 Topics in Art Conservation  
Units: 4 Terms Offered: FaSp Introduction to heritage conservation, an interdisciplinary field devoted to preserving material objects and structures that are deemed to hold cultural significance. Instruction Mode: Lecture Grading Option: Letter

AHIS 489 History of the Book  
Units: 4 Terms Offered: FaSp Introduction to the history of the book; books as material objects and practices of reading, collecting and storing. Instruction Mode: Lecture, Discussion Grading Option: Letter

AHIS 490x Directed Research  
Units: 1, 2, 3, 4, 5, 6, 7, 8 Max Units: 12.0 Terms Offered: FaSp Individual research and readings. Instruction Mode: Lecture Grading Option: Letter

AHIS 492 Museum Educator Training  
Units: 2 Terms Offered: FaSp Experiential research conducted at the Getty Center museums; supervised development of docent skills. Instruction Mode: Lecture Grading Option: Letter

AHIS 494 Undergraduate Proseminar in Art History  
Units: 4 Terms Offered: FaSp Historiography and methodology: introduction to techniques of research and writing. Required of all art history majors, preferably in the junior year, Instruction Mode: Lecture Grading Option: Letter

AHIS 495a Undergraduate Honors Thesis  
Units: 2 Terms Offered: FaSp Research and writing of original thesis under guidance of faculty member. Departmental approval. Instruction Mode: Lecture Grading Option: Letter

AHIS 495b Undergraduate Honors Thesis  
Units: 4 Terms Offered: (Madrid Center only) From Romanticism through Goya in relation to European and Mediterranean antecedents using paintings in the Prado Museum. Field trips in conjunction with coursework. Instruction Mode: Lecture Grading Option: Letter

AHIS 497 Senior Seminar in Early Modern Studies  
Units: 4 Terms Offered: Sp (Enroll in ENGL 497)  
AHIS 498 The Gods and Goddesses of the Renaissance  
Units: 4 Terms Offered: FaSp Renaissance visual and material culture and the visual representation of Ancient mythology, recovery and reception of ancient art, and collecting practices. Instruction Mode: Lecture Grading Option: Letter

AHIS 500 Methods and Theory of Art History  
Units: 4 Terms Offered: Fa Methodologies, theories and critical traditions that have shaped the discipline. Emphasis will vary depending on faculty. Required of all first-year MA and PhD candidates. Instruction Mode: Lecture Grading Option: Letter

AHIS 501 Problems in the History and Theory of Collecting and Display  
Units: 4 Explores the history of patronage, collecting and display in the private and public spheres (e.g., salons, galleries, museums, and international expositions). Instruction Mode: Lecture Grading Option: Letter

AHIS 502 Markets, Value and the Institutions of Art  
Units: 4 Intensive examination of economic, societal, and aesthetic frameworks in which art was sold, bought, exhibited and reviewed. Explores how perceptions of art and value were shaped. Instruction Mode: Lecture Grading Option: Letter

Units: 4 How collections are organized by category — e.g., period, culture, materials, or mode of production. Examines collecting protocols, historiography and modes of collecting and viewing associated with that category. Instruction Mode: Lecture Grading Option: Letter

AHIS 504 Museum Research Assistance
Units: 1 Terms Offered: FaSp Working within an institution with a collection and reflecting, in class meetings, upon how collections are formed, shaped and used. Instruction Mode: Lecture Grading Option: Letter

AHIS 505 Seminar in Feminist Theory and Visual Culture
Units: 4 Recent feminist scholarship in art history, cultural studies, film theory. Feminist theory in relation to art from the late 19th and 20th centuries. Occasional film screenings. Instruction Mode: Lecture Grading Option: Letter

AHIS 509 Seminar in Arts of the Ancient Americas
Units: 4 Max Units: 16.0 In-depth exploration of a specified topic in the arts of the ancient Americas, which includes North, Central, and South America. Instruction Mode: Lecture Grading Option: Letter

AHIS 510 Seminar in Ancient Art
Units: 4 Max Units: 16.0 Instruction Mode: Lecture Grading Option: Letter

AHIS 511 Seminar in Medieval Art
Units: 4 Max Units: 16.0 Instruction Mode: Lecture Grading Option: Letter

AHIS 512 Seminar in Renaissance Art
Units: 4 Max Units: 16.0 Recommended Preparation: relevant languages. Instruction Mode: Lecture Grading Option: Letter

AHIS 513 Seminar in Baroque Art
Units: 4 Max Units: 0.0 Instruction Mode: Lecture Grading Option: Letter

AHIS 514 Seminar in 18th and 19th Century European Art
Units: 4 Max Units: 16.0 Instruction Mode: Lecture Grading Option: Letter

AHIS 515 Seminar in Contemporary Art
Units: 4 Max Units: 16.0 Instruction Mode: Lecture Grading Option: Letter

AHIS 516 Seminar in the History of Photography and Visual Culture
Units: 4 Terms Offered: FaSpSm Explores the history of photography with emphasis on the way the medium has been used as a form of communication and knowledge transmission. Registration Restriction: Open only to seniors and graduate students. Instruction Mode: Lecture Grading Option: Letter

AHIS 517 Seminar in Korean Art
Units: 4 Max Units: 8.0 In-depth exploration of a specified topic in the history of Korean art. Instruction Mode: Lecture Grading Option: Letter

AHIS 518 Seminar in Chinese Art
Units: 4 Max Units: 0.0 Instruction Mode: Lecture Grading Option: Letter

AHIS 519 Seminar in Japanese Art
Units: 4 Max Units: 16.0 Instruction Mode: Lecture Grading Option: Letter

AHIS 520 Seminar in Modern Art
Units: 4 Max Units: 16.0 In-depth exploration of a specified topic within the area of European art of the late 19th and early 20th centuries. Instruction Mode: Lecture Grading Option: Letter

AHIS 521 Seminar in Modern German Art
Units: 4 Max Units: 8.0 In-depth exploration of a specific topic in modern German art of the 19th and early 20th centuries. Instruction Mode: Lecture Grading Option: Letter

AHIS 522 Writing (and) the History of Art
Units: 4 Examination of how various forms of writing and different contexts of presentation shape the visual experience of art and the understanding of its history, encouraging students to think critically about how to develop a voice of their own. Instruction Mode: Lecture Grading Option: Letter

AHIS 524 Readings in Greek and Roman Authors on Ancient Art and Monuments
Units: 4 Terms Offered: FaSpSm In-depth exploration of specific topics in the arts of ancient Greek and Roman authors writing on Greek and Roman art, monuments and topography. Topics vary from year to year. Departmental approval. Instruction Mode: Lecture Grading Option: Letter

AHIS 525 Seminar in American Art
Units: 4 In-depth exploration of a specified topic in the history of American art. Instruction Mode: Lecture Grading Option: Letter Crosslisted as AMST-525

AHIS 528 Seminar in Colonial Latin American Art
Units: 4 Terms Offered: FaSpSm In-depth exploration of specific topics in the arts of colonial Latin America. Instruction Mode: Lecture Grading Option: Letter

AHIS 529 Seminar in Art, Science, and Technology
Units: 4 Terms Offered: FaSpSm In-depth exploration of the connections between art, science, and technology, focusing on a specific time period and/or set of questions. Instruction Mode: Lecture Grading Option: Letter

AHIS 550 Art, Business and the Law
Units: 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Terms Offered: FaSpSm Research leading to the doctorate. Maximum units which may be applied to the degree to be determined by the department. Instruction Mode: Lecture Grading Option: Credit/No Credit

AHIS 593x Practicum in Teaching the Liberal Arts
Units: 2 Terms Offered: FaPractical principles for the long-term development of effective teaching within College disciplines. Intended for teaching assistants in Dornsife College. Registration Restriction: Open only to Art History doctoral students. Instruction Mode: Lecture Grading Option: Credit/No Credit

AHIS 594a Master's Thesis
Units: 2 Credit upon acceptance of thesis. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

AHIS 594b Master's Thesis
Units: 2 Credit upon acceptance of thesis. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

AHIS 594z Doctoral Dissertation
Units: 2 Credit upon acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

AHIS 595 Seminar on Advanced Writing and Professionalization in Art History
Units: 2 Terms Offered: FaTrains History graduate students to write for a variety of professional purposes, such as grant and job applications, conference abstracts, and reviews. Registration Restriction: Open only to master and doctoral Art History students. Instruction Mode: Lecture Grading Option: Credit/No Credit

AHIS 596 Seminar in Feminist Theory and Visual Culture
Units: 4 Recent feminist scholarship in art history, cultural studies, film theory. Feminist theory in relation to art from the late 19th and 20th centuries. Occasional film screenings. Instruction Mode: Lecture Grading Option: Letter

AHIS 599 Special Topics
Units: 2, 3, 4 Max Units: 8.0 Terms Offered: Irregular Comprehensive exploration of particular aspects of the history of art. Instruction Mode: Lecture Grading Option: Letter

AHIS 790 Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Terms Offered: FaSpSm Research leading to the doctorate. Maximum units which may be applied to the degree to be determined by the department. Instruction Mode: Lecture Grading Option: Credit/No Credit

AHIS 794a Doctoral Dissertation
Units: 2 Terms Offered: FaSpSm Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

AHIS 794b Doctoral Dissertation
Units: 2 Terms Offered: FaSpSm Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

AHIS 794c Doctoral Dissertation
Units: 2 Terms Offered: FaSpSm Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

AHIS 794d Doctoral Dissertation
Units: 2 Terms Offered: FaSpSm Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

AHIS 794z Doctoral Dissertation
Units: 2 Credit upon acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

AHIS 794a Master's Thesis
Units: 2 Credit upon acceptance of thesis. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit
American Language Institute

ALI 090x Beginning English as a Second Language for International Students
Units: 12 Required for international students assessed to have no proficiency in English by the International Student English Examination (ISE). Instruction Mode: Lecture Grading Option: Credit/No Credit

ALI 103x Elective Courses in English as a Second Language for International Students
Units: 2, 3, 4, 5, 6, 7, 8 Terms Offered: FaSpSm Specialized tutorial classes in listening, speaking, reading, or writing. A maximum of 4 units may be counted toward a degree. Instruction Mode: Lecture Grading Option: Credit/No Credit

ALI 134 Intermediate Oral Skills
Units: 1 Terms Offered: FaSpSm Required for international students whose oral skills are assessed to be at the intermediate level by the International Student English Examination (ISE) or previous ALI course. Instruction Mode: Lecture Grading Option: Credit/No Credit

ALI 135 Intermediate Writing Skills
Units: 1 Terms Offered: FaSpSm Required for international students whose writing skills are assessed to be at the intermediate level by the International Student English Examination (ISE) or previous ALI course. Instruction Mode: Lecture Grading Option: Credit/No Credit

ALI 144 High Intermediate Oral Skills
Units: 1 Terms Offered: FaSpSm Required for international students whose oral skills are assessed to be at the high intermediate level by the International Student English Examination (ISE) or previous ALI course. Instruction Mode: Lecture Grading Option: Credit/No Credit

ALI 145 High Intermediate Writing Skills
Units: 1 Terms Offered: FaSpSm Required for international students whose writing skills are assessed to be at the high intermediate level by the International Student English Examination (ISE) or previous ALI course. Instruction Mode: Lecture Grading Option: Credit/No Credit

ALI 200 Elementary English as a Second Language for International Students
Units: 12 Terms Offered: FaSpSm Required for international students assessed to be at the beginning level by the International Student English Examination (ISE) or by the completion of a lower level ALI course. Instruction Mode: Lecture Grading Option: Credit/No Credit

ALI 211 Low Intermediate ESL (II) for International Students
Units: 6 Required for international students assessed to have intermediate level writing skills, but pre-intermediate level oral skills or by completion of a lower level ALI course. Instruction Mode: Lecture Grading Option: Credit/No Credit

ALI 224 Academic and Professional Speaking Skills I
Units: 2 Max Units: 06 Terms Offered: FaSpSm Required for international students whose oral skills are assessed to be at the low intermediate level by the International Student English Examination (ISE) or previous ALI course. Duplicates Credit in former ALI 210 Instruction Mode: Lecture Grading Option: Credit/No Credit

ALI 225 Academic and Professional Writing Skills I
Units: 2 Max Units: 06 Terms Offered: FaSpSm Required for international students whose writing skills are assessed to be at the low intermediate level by the International Student English Examination (ISE) or previous ALI course. Duplicates Credit in former ALI 210 Instruction Mode: Lecture Grading Option: Credit/No Credit

ALI 234 Academic and Professional Speaking Skills II
Units: 2 Max Units: 06 Terms Offered: FaSpSm Required for international students whose oral skills are assessed to be at the intermediate level by the International Student English Examination (ISE) or previous ALI course. Duplicates Credit in former ALI 220 Instruction Mode: Lecture Grading Option: Credit/No Credit

ALI 235 Academic and Professional Writing Skills II
Units: 2 Max Units: 06 Terms Offered: FaSpSm Required for international students whose writing skills are assessed to be at the intermediate level by the International Student English Examination (ISE) or previous ALI course. Instruction Mode: Lecture Grading Option: Credit/No Credit

ALI 242 High Intermediate Pronunciation
Units: 2 Terms Offered: FaSpSm Required for international students whose pronunciation skills are assessed at the high intermediate level by the International Student English Examination (ISE) or previous ALI course. Instruction Mode: Lecture Grading Option: Credit/No Credit

ALI 244 Academic and Professional Speaking Skills III
Units: 2 Max Units: 06 Terms Offered: FaSpSm Required for international students whose writing skills are assessed to be at the high intermediate level by the International Student English Examination (ISE) or previous ALI course. Duplicates Credit in former ALI 230 and former ALI 240 Instruction Mode: Lecture Grading Option: Credit/No Credit

ALI 245 Academic and Professional Writing III
Units: 2 Max Units: 06 Terms Offered: FaSpSm Required for international students whose writing skills are assessed to be at the high intermediate level by the International Student English Examination (ISE) or previous ALI course. Duplicates Credit in former ALI 231 and former ALI 240 Instruction Mode: Lecture Grading Option: Credit/No Credit

ALI 246 Intermediate Oral Communication for ITAs
Units: 3 Terms Offered: FaSpSm Required for international teaching assistants (ITAs) whose oral skills are assessed to be at the high intermediate level by the ITA exam or previous ALI course. Instruction Mode: Lecture Grading Option: Credit/No Credit

ALI 254 Intermediate Oral Communication for ITAs
Units: 3 Terms Offered: FaSpSm Required for international teaching assistants (ITAs) who, after taking the ITA Oral Interview Exam, are determined to need the particular skills taught in this course. Instruction Mode: Lecture Grading Option: Credit/No Credit

ALI 271 Language Tutorial for International Teaching Assistants
Units: 2 Terms Offered: FaSpSm Individualized tutorial on the language and oral skills used by international teaching assistants in the performance of his or her duties. Based on observation and feedback. Instruction Mode: Lecture Grading Option: Credit/No Credit

ALI 274 Advanced Academic and Professional Spoken English
Units: 2 Terms Offered: FaSpSm Required for international teaching assistants (ITAs) who, after taking the ITA Oral Interview Exam, are determined to need the particular skills taught in this course. Instruction Mode: Lecture Grading Option: Credit/No Credit

ALI 275 Writing for Publication and Dissertations
Units: 2 Terms Offered: FaSpSm Elective course for international graduate students focusing on conventions of advanced academic writing and problems in syntax, vocabulary, and register for writing and/or publishing dissertations. Instruction Mode: Lecture Grading Option: Credit/No Credit

ALI 276 Workshop for International Teaching Assistants
Units: 2 Max Units: 08 Terms Offered: Sm Language assistance and individualized instruction to help International Teaching Assistants develop the skills and language proficiency necessary to perform their classroom duties. Graded CR/NC. Registration Restriction: Open only to International Teaching Assistants. Instruction Mode: Lecture Grading Option: Credit/No Credit
ALLE 280 English Skills and Strategies for the Job Search
Units: 2 Max Units: 4.0 Elective course for undergraduate and graduate international students. Introduces students to job search skills and strategies while focusing on improving their English. **Instruction Mode:** Lecture **Grading Option:** Credit/No Credit

**Aerospace and Mechanical Engineering**

**AME 101L Introduction to Mechanical Engineering and Graphics**
Units: 4 Terms Offered: Fa Gateway to the bachelor of science degree in mechanical engineering. Introduction to mechanical engineering disciplines and practice; graphical communication and layout of machine parts; introduction to computer-aided drafting and drawing. **Instruction Mode:** Lecture, Lab Required **Grading Option:** Letter

**AME 105 Introduction to Aerospace Engineering**
Units: 4 Terms Offered: Fa Gateway to the Aerospace Engineering major. Introduction to flight vehicle performance and propulsion. Elements of the physics of gases. Laboratory: computers and graphics; rigid model rocket and glider test flights. **Instruction Mode:** Lecture, Lab **Grading Option:** Letter

**AME 150L Introduction to Computational Methods**
Units: 4 Terms Offered: Sp Computer programming; organization of problems for computational solution; introduction to software for computation and graphics; applications to engineering problems. **Corequisite:** MATH 125. **Instruction Mode:** Lecture, Lab **Grading Option:** Letter

**AME 201 Statics**
Units: 3 Terms Offered: FaSp Analysis of forces acting on particles and rigid bodies in static equilibrium; equivalent systems of forces; friction; centroids and moments of inertia; introduction to energy methods. **Prerequisite:** PHYS 151Lg or PHYS 161Lg or PHYS 171L Recommended Preparation: **AME 201L or CE 205 Recommended Preparation:** PHYS 151Lg **Instruction Mode:** Lecture, Discussion **Grading Option:** Letter

**AME 202 Dynamics**
Units: 3 Terms Offered: FaSp Dynamics of particles and rigid bodies; systems of particles and rigid bodies; rigid bodies; and particle systems. **Prerequisite:** MATH 245 or AME 202L or CSE 270 **Instruction Mode:** Lecture, Discussion **Grading Option:** Letter

**AME 204 Strength of Materials**
Units: 3 Terms Offered: FaSp Stress, strain and deflection of mechanical elements due to tension, shear, bending, or torsion; combined loads; energy methods, statically determinate structures; strength-based design. **Prerequisite:** AME 201 or CE 205 **Instruction Mode:** Lecture, Discussion **Grading Option:** Letter Crosslisted as ACAD 203

**AME 222 Fundamentals of Audio Engineering**
Units: 3 Terms Offered: Fa (Enroll in EE 222 )

**AME 231L Mechanical Behavior of Materials**
Units: 3 Terms Offered: Sp Material properties of metals, ceramics, and composites; stress-strain relationships; microstructural characteristics; fracture, fatigue, and creep; effects of processing. **Corequisite:** AME 204 **Instruction Mode:** Lecture, Lab **Grading Option:** Letter Crosslisted as ACAD 231L

**AME 232L Manufacturing Processes**
Units: 3 Terms Offered: Fa (Enroll in ISE 232L)

**AME 261 Basic Flight Mechanics**
Units: 4 Terms Offered: Sp Performance of flight vehicles; maximum speed, rate-of-climb, range, and endurance; basic stability and control, weight, and balance; computer exercises. **Recommended Preparation:** ITP 168 **Instruction Mode:** Lecture, Discussion **Grading Option:** Letter

**AME 291 Undergraduate Design Projects I**
Units: 1 Max Units: 4.0 Terms Offered: FaSp Analysis, design, fabrication, and evaluation of devices intended for use in local and national design competitions. Intended for lower division students or those with little prior project experience. **Instruction Mode:** Lecture, Discussion **Grading Option:** Credit/No Credit

**AME 301 Dynamics**
Units: 3 Terms Offered: FaSp Dynamics of particles and rigid bodies; systems of particles and rigid bodies; coupled rigid body systems; introduction to vibrations. **Prerequisite:** AME 201 or CE 205 **Recommended Preparation:** PHYS 151Lg **Instruction Mode:** Lecture, Discussion **Grading Option:** Letter Crosslisted as ACAD 301

**AME 302 Dynamic Systems**
Units: 3 Terms Offered: FaSp Modeling of lumped parameter elements and systems; free and forced response of first and second order systems; design oriented approach to dynamic systems. **Prerequisite:** MATH 245 **Recommended Preparation:** AME 301 or CE 215 **Instruction Mode:** Lecture, Discussion **Grading Option:** Letter

**AME 303 Dynamics of Machinery**
Units: 3 Terms Offered: FaSpMsm Kinematics and dynamics of machines; balancing of rotating and reciprocating machinery; gyroscopic effects; critical speeds; energy variation in machinery; introduction to mechanism design. **Prerequisite:** AME 301 or CE 235. **Instruction Mode:** Lecture, Discussion **Grading Option:** Letter

**AME 305 Mechanical Design**
Units: 3 Terms Offered: Fa Design and analysis of mechanical elements including shafts, bearings, springs, screws, belts and gears; strength, fatigue and deflection considerations in machine design. **Prerequisite:** AME 204 or CE 225. **Instruction Mode:** Lecture, Discussion **Grading Option:** Letter

**AME 308 Computer-Aided Analyses for Aero-Mechanical Design**
Units: 3 Terms Offered: FaSpMsm Introduction to the finite element method; practical application of computer analysis tools for structural analysis and design. **Prerequisite:** AME 204 **Corequisite:** AME 301 **Instruction Mode:** Lecture, Lab. **Grading Option:** Letter

**AME 309 Dynamics of Fluids**
Units: 4 Terms Offered: FaSp Fluid statics; conservation of mass, momentum, and energy in integral and differential form; applications. Laminar and turbulent pipe flow; compressible flow; potential flow over bodies. **Prerequisite:** AME 201 **Recommended Preparation:** AME 310 **Corequisite:** MATH 245 **Instruction Mode:** Lecture, Discussion **Grading Option:** Letter

**AME 310 Engineering Thermodynamics**
Units: 3 Terms Offered: FaSp Fundamental laws of thermodynamics applied to actual and perfect gases and vapors; energy concepts, processes, and applications. **Prerequisite:** MATH 226 or MATH 227 or MATH 229 **Recommended Preparation:** PHYS 151Lg, high-level programming language **Instruction Mode:** Lecture, Discussion **Grading Option:** Letter

**AME 331 Heat Transfer**
Units: 3 Terms Offered: Sp General principles underlying heat transfer by conduction, convection, and radiation; steady and transient conditions; heat exchangers. **Prerequisite:** AME 310; **Corequisite:** AME 309 or CE 309. **Instruction Mode:** Lecture, Discussion **Grading Option:** Letter

**AME 341L Mechnoptrons Laboratory I and II**
Units: 3 Terms Offered: FaSpA A coordinated laboratory and lecture sequence on aeromechanical instrumentation and device control stressing the symbiotic integration of mechanical, optical and electronic components. **Prerequisite:** PHYS 152L or PHYS 162L and (MATH 126 or MATH 127 or MATH 129) **Instruction Mode:** Lecture, Lab **Grading Option:** Letter

**AME 341bL Mechnoptrons Laboratory I and II**
Units: 3 Terms Offered: FaSpA A coordinated laboratory and lecture sequence on aeromechanical instrumentation and device control stressing the symbiotic integration of mechanical, optical and electronic components. **Prerequisite:** PHYS 152L, MATH 126. **Instruction Mode:** Lecture, Lab **Required Grading Option:** Letter

**AME 390 Special Problems**
Units: 1, 2, 3, 4 Supervised, individual studies. No more than one registration permitted. **Enrollment by petition only. **Instruction Mode:** Lecture, Discussion **Grading Option:** Letter

**AME 403 Stress Analysis**
Units: 3 Terms Offered: Sp Theories of failure, shear center, unsymmetrical bending, curved beams, torsion of non-circular sections; cylinders, rotating discs, thermal stresses, inelastic strains, energy methods. **Prerequisite:** AME 204. **Instruction Mode:** Lecture, Discussion **Grading Option:** Letter

**AME 404 Computational Solutions to Engineering Problems**
Units: 3 Terms Offered: Fa Mathematical aspects of the solutions to typical advanced mechanical engineering problems. Modeling, simulation, computational aspects, computer solutions, and computational tools. **Recommended Preparation:** FORTRAN, MATLAB and Maple. **Instruction Mode:** Lecture **Grading Option:** Letter

**AME 405 Functional Approach to Computational Methods**
Units: 3 Terms Offered: Sp Introduction to computational methods in engineering; learning to develop and implement numerical algorithms for solving a range of mathematics, physics, and engineering problems. Suitable for undergraduate students in aerospace, bio, civil and
mechanical engineering. Recommended Preparation: 1 year of college-level calculus and physics Instruction Mode: Lecture

AME 408 Computer-Aided Design of Mechanical Systems
Units: 3; Terms Offered: FaSp Design of mechanical systems using advanced graphics techniques; computer-aided drafting optimization; elements of computer graphics, solids modeling; introduction to computer-aided manufacturing. Prerequisite: AME 204 or CE 225; Recommended Preparation: AME 308; Instruction Mode: Lecture Grading Option: Letter

AME 409 Senior Design Project
Units: 4; Terms Offered: Sp Modeling, analysis, integration, layout and performance analysis of a mechanical system to meet specified design requirements. Prerequisite: senior standing. Instruction Mode: Lecture, Lab Grading Option: Letter

AME 410 Engineering Design Theory and Methodology
Units: 3; Terms Offered: Fa Product planning and task clarification, voice of customers, quality function deployment, conceptual and embodiment design, axiomatic theory of design, product quality and manufacturability, design decision-making. Recommended Preparation: AME 305. Instruction Mode: Lecture Grading Option: Letter

AME 412 Molecular Theory of Gases
Units: 3; Terms Offered: Irregular Molecular structure, intermolecular potentials; molecular processes in gases; molecular interpretation of concepts of classical thermodynamics; radiative transport phenomena in gases. Prerequisite: AME 310. Instruction Mode: Lecture Grading Option: Letter

AME 414 Engineering Thermodynamics II
Units: 3; Terms Offered: Sp Application of thermodynamic principles to fluid flow, power cycles, and refrigeration, with modern applications to thermodynamic cycles and introduction to equilibrium electrochemistry. Prerequisite: AME 310 Recommended Preparation: Basic knowledge of Physics and a programming language Duplicates Credit in former AME 312 Instruction Mode: Lecture Grading Option: Letter

AME 415 Turbine Design and Analysis
Units: 3; Terms Offered: Fa Physics of turbine operation; design and analysis for the development of turbine hardware for propulsion and power generation. Recommended Preparation: familiarity with Matlab. Instruction Mode: Lecture Grading Option: Letter

AME 420 Engineering Vibrations I
Units: 3; Terms Offered: Fa Theory of free and forced vibrations with and without damping; systems of single and multiple degrees of freedom; iteration; methods; vibration isolation; instrumentation. Prerequisite: MATH 245 Instruction Mode: Lecture, Discussion Grading Option: Letter

AME 428 Mechanics of Materials
Units: 3 (Enroll in CE 428)

AME 430 Thermal Systems Design
Units: 3; Terms Offered: Fa Design methodology for thermal systems; boilers, condensers, air conditioning, power generation, air pollution control, combustion and alternative fuels. Prerequisite: AME 331; Recommended Preparation: AME 312. Instruction Mode: Lecture Grading Option: Letter

AME 436 Energy and Propulsion
Units: 3; Terms Offered: Fa Performance and analysis of reciprocating, jet, rocket engines, and hybrid systems. Characteristics of inlets, compressors, combustion, turbines, nozzles and engine systems. Energy and environmental problems. Prerequisite: AME 310; AME 309 or CE 309. Instruction Mode: Lecture Grading Option: Letter

AME 441aL Senior Projects Laboratory
Units: 3; Terms Offered: FaSp Individual engineering projects designed and constructed to model and test a physical principle or system. Prerequisite: AME 341bL. Instruction Mode: Lecture, Lab Required Grading Option: Letter

AME 441bL Senior Projects Laboratory
Units: 3; Terms Offered: FaSp Individual engineering projects designed and constructed to model and test a physical principle or system. Prerequisite: AME 341bL. Instruction Mode: Lecture, Lab Required Grading Option: Letter

AME 443 Control Systems Laboratory
Units: 3; Terms Offered: Sp Vibration measurement and analysis, simulation, design, and experimental verification of mechanical control systems; identification of system parameters, implementation of controllers, verification of closed-loop performance via experimentation and stimulation. Prerequisite: AME 420 or AME 451 or EE 482. Duplicates Credit in former AME 442bL. Instruction Mode: Lecture, Lab Grading Option: Letter Crosslisted as EE-481L

AME 451 Linear Control Systems I
Units: 3; Terms Offered: Sp Linear control system methods, block diagrams; transfer functions; stability; root-locus and frequency domain analysis and design; state space and multiloop systems. Prerequisite: AME 302 and MATH 245. Duplicates Credit in EE 482. Instruction Mode: Lecture Grading Option: Letter

AME 453 Engineering Dynamics
Units: 3; Terms Offered: Sp Principles of dynamics applied to mechanical and aerospace problems. Introduction to gyroscopic motion and rigid body dynamics. Prerequisite: MATH 245. Instruction Mode: Lecture Grading Option: Letter

AME 455 Introduction to MEMS
Units: 3; Terms Offered: Sp Introduction to micro-electro-mechanical systems; scaling effects on material properties, fluid flows, dynamical behavior; fabrication methods; design considerations for MEMS sensors and transducers. Recommended Preparation: AME 301, AME 309 and AME 310. Instruction Mode: Lecture Grading Option: Letter Crosslisted as EE-415

AME 457 Engineering Fluid Dynamics
Units: 3; Terms Offered: Fa Laminar and turbulent boundary layer flow with and without heat transfer; boundary layer separation, stability, transition and control; introduction to compressible fluid flow. Prerequisite: AME 310; AME 309 or CE 309. Instruction Mode: Lecture Grading Option: Letter

AME 459 Flight Mechanics
Units: 3; Terms Offered: Fa Applications of basic aerodynamics to aircraft and missile performance, power and thrust, stability and control, compressibility effects. Recommended Preparation: AME 309. Instruction Mode: Lecture Grading Option: Letter

AME 460 Aerodynamic Theory
Units: 3; Basic relations describing the inviscid flow field about bodies and wings moving at subsonic and supersonic speeds. Prerequisite: AME 309. Instruction Mode: Lecture Grading Option: Letter

AME 461 Formation Data Sensing with Well Logs
Units: 4; Terms Offered: Fa (Enroll in PTE 461)

AME 462 Economic, Risk and Formation Productivity Analysis
Units: 4; (Enroll in PTE 462)

AME 463L Introduction to Transport Processes in Porous Media
Units: 4; Terms Offered: Fa (Enroll in PTE 463L)

AME 464L Modeling and Simulation of Subsurface Flow Systems
Units: 4; Terms Offered: Sp (Enroll in PTE 464L)

AME 465L Drilling Technology and Subsurface Methods
Units: 3; (Enroll in PTE 465L) Instruction Mode: Lecture, 3 hours; laboratory, 3 hours.

AME 481 Aircraft Design
Units: 4; Terms Offered: Sp Aircraft design and analysis, design requirements and specifications; integration of structure, propulsion, control system, and aerodynamic configuration; performance analysis and prediction. Instruction Mode: Lecture Grading Option: Letter

AME 485 Aerospace Structures I
Units: 3; Terms Offered: FaSp Design, qualification, and workmanship verification of aerospace structures. Analysis for assessing buckling and crippling, welds, and analysis of connections and thin-walled structures. Prerequisite: AME 204 Recommended Preparation: AME 231L or MASC 310 Duplicates Credit in former AME 353 Instruction Mode: Lecture Grading Option: Letter

AME 486 Mechanics of Composite Materials for Modern Structures
Units: 3; Terms Offered: FaSp Current and potential applications of composite materials including manufacturing methods; determining mechanical properties; failure analysis; and design, inspection, and repair considerations. Prerequisite: AME 204 Registration Restriction: Open only to seniors. Instruction Mode: Lecture Grading Option: Letter

AME 490x Directed Research
Units: 1, 2, 3, 4, 5, 6, 7, 8; Max Units: 12.0 Individual research and readings. Not available for graduate credit. Instruction Mode: Lecture Grading Option: Letter

AME 491 Undergraduate Design Projects II
Units: 1; Max Units: 4.0; Terms Offered: FaSp Analysis, design, fabrication, and evaluation of devices intended for entry
in local and national design competitions. Intended for students with prior project experience. Upper division standing.

**Instruction Mode:** Lecture

**Grading Option:** Credit/No Credit

**AME 499 Special Topics**

Units: 2, 3, 4 Max Units: 8.0

Terms Offered: FaSpFx Course content to be selected each semester from recent developments in mechanical engineering and related fields. **Instruction Mode:** Lecture **Grading Option:** Letter

**AME 501 Innovative Conceptual Design for New Product Development**

Units: 3 Terms Offered: Fa (Enroll in ISE 501)

**Instruction Mode:** Lecture **Grading Option:** Letter

**AME 502 Modern Topics in Aerospace Design**

Units: 3 Terms Offered: Fa Current topics in Aerospace Engineering are addressed by a number of industry panelists. Students, under panelists' supervision and guidance, complete independent research reports and briefings. **Recommended Preparation:** AME 261, AME 441, AME 481 or equivalents. Genuine interest in design of flight vehicles. **Registration Restriction:** Open only to seniors, master and doctoral students. **Instruction Mode:** Lecture **Grading Option:** Letter

**AME 503 Advanced Mechanical Design**

Units: 3 Terms Offered: Fa Specific problems and methods of analysis in mechanical systems design. **Instruction Mode:** Lecture **Grading Option:** Letter

**AME 504L Mechatronic Systems Engineering**

Units: 3 Terms Offered: Fa (Enroll in ISE 511L)

**Instruction Mode:** Lecture **Grading Option:** Letter

**AME 505 Engineering Information Modeling**

Units: 3 Terms Offered: Sp Symbolic and object-oriented modeling, product and process modeling for design and manufacturing, information models for computer integrated and collaborative engineering, information modeling for life-cycle engineering. **Instruction Mode:** Lecture **Grading Option:** Letter

**AME 506 Continuum Mechanics**

Units: 4 Terms Offered: Fa A unified mathematical description for modeling the mechanics and thermodynamics of continua, including topics like elasticity, inelastic material modeling and fluid behavior. **Instruction Mode:** Lecture **Grading Option:** Letter

**AME 507 Mechanics of Solids I**

Units: 4 (Enroll in CE 507)

**AME 509 Applied Elasticity**

Units: 4 Terms Offered: Sp Cartesian tensors; kinematics of deformation, balance laws, and constitutive equations; variational principles, finite elasticity; plate and cylindrical shells; viscoelasticity; analytical and numerical solutions for elasticity. **Prerequisite:** AME 403 **Instruction Mode:** Lecture **Grading Option:** Letter

**AME 510 Advanced Computational Design and Manufacturing**

Units: 3 Terms Offered: Sp (Enroll in ISE 510)

**AME 511 Compressible Gas Dynamics**

Units: 4 Terms Offered: Sp Compressible flow equations; Rayleigh/Fanno flows; shock/expansion waves and interactions; potential flow, small disturbance theory and similarity, hypersonics; viscosity, high-temperature and radiation effects. **Registration Restriction:** Open only to master students **Instruction Mode:** Lecture **Grading Option:** Letter

**AME 513a Fundamentals and Applications of Combustion**

Units: 4 Terms Offered: Fa Chemical equilibrium, flame temperature, chemical kinetics, transport phenomena, conservation equations of multi-component reacting flows, laminar flames, droplet combustion, flame speed, combustion pollutants, atmospheric pollution processes. **Duplicates Credit in former AME 513 Instruction Mode:** Lecture **Grading Option:** Letter

**AME 513b Fundamentals and Applications of Combustion**

Units: 4 Terms Offered: Sp Advanced topics in combustion including analytical methods, stretch effects, stability, ignition and extinction of flames, plasma-assisted combustion, turbulence effects, detonations, and micropower generation. **Prerequisite:** AME 513a **Instruction Mode:** Lecture **Grading Option:** Letter

**AME 515 Advanced Heat and Mass Diffusion**

Units: 4 Terms Offered: Fa Analytical techniques for heat and mass diffusion problems in various geometries; application to heat/mass transfer in solids, liquids, porous media and biogeochemical materials. **Recommended Preparation:** AME 526 **Instruction Mode:** Lecture **Grading Option:** Letter

**AME 516 Convection Processes**

Units: 3 Terms Offered: Sp Analysis of isothermal and nonisothermal boundary layers. Exact and approximate solutions of laminar and turbulent flows. Variable-property and high-speed effects; dimensional analysis. **Prerequisite:** AME 457, **Recommended Preparation:** AME 526, AME 331. **Instruction Mode:** Lecture **Grading Option:** Letter

**AME 517 Radiation Heat Transfer**

Units: 3 Terms Offered: Fa Radiation properties; black body radiation; shape factors of radiation network analogy and solar radiation. **Prerequisite:** AME 331; **Corequisite:** AME 525 or AME 526. **Instruction Mode:** Lecture **Grading Option:** Letter

**AME 520 Modeling of Bio-Systems**

Units: 3 Terms Offered: Sp Interacting population dynamics, Cheyne-Stokes respiration, reaction kinetics, biological switches, neuronal models, BZ reaction, phase locking, reaction diffusion, chemotaxis, biological waves, and animal coat patterns. **Recommended Preparation:** MATH 245. **Instruction Mode:** Lecture **Grading Option:** Letter Crosslisted as BISC-522, BME-520

**AME 521 Engineering Vibrations II**

Units: 4 Terms Offered: Sp Multi-degree of freedom systems; continuous systems; modal analysis. Beams, rods, membranes, plates, shells. Approximate methods; Galerkin, Rayleigh Ritz, assumed-mode, finite elements. **Prerequisite:** AME 420 **Instruction Mode:** Lecture **Grading Option:** Letter

**AME 522 Nonlinear Dynamical Systems, Vibrations, and Chaos**

Units: 4 Terms Offered: Fa Flows on a line and circle; phase plane methods; bifurcation theory; limit cycle/relaxation oscillations; chaotic systems, one-dimensional maps, the Lorenz equations, fractals and strange attractors. **Instruction Mode:** Lecture **Grading Option:** Letter

**AME 523 Random Vibrations**

Units: 3 Terms Offered: Irregular Random processes, ergodic theory, Ito calculus. Linear systems under stationary and nonstationary excitations, Fokker-Planck equations. Failure analysis and first passage problems. **Prerequisite:** AME 420, basic probability (or MATH 407), AME 451 recommended. **Instruction Mode:** Lecture **Grading Option:** Letter

**AME 524 Advanced Engineering Dynamics**

Units: 4 Terms Offered: Fa Principle of virtual work, constraints, Lagrange's equations, Gibbs-Appell equations, Gauss's principle, theory of rotation of rigid bodies, Hamiltonian mechanics, control and mechanics. **Instruction Mode:** Lecture, Discussion **Grading Option:** Letter

**AME 525 Engineering Analysis**

Units: 4 Terms Offered: FaSpSm Engineering mathematical methods: linear algebra, eigen problems, introduction to linear partial differential equations, transforms and complex variable theory. **Instruction Mode:** Lecture **Grading Option:** Letter

**AME 526 Introduction to Mathematical Methods in Engineering II**

Units: 4 Terms Offered: FaSpSm An intermediate and comprehensive methods of engineering mathematics course covering basic methods for solving linear partial differential equations including the method of characteristics and Green's function. **Instruction Mode:** Lecture **Grading Option:** Letter

**AME 527 Elements of Vehicle and Energy Systems Design**

Units: 3 Terms Offered: Irregular Design synthesis of aero/hydro/mechanical systems; techniques of design; conceptual thinking; problem definition, configurational development, analytic engineering approximation, oral briefings and group problem solving. **Instruction Mode:** Lecture **Grading Option:** Letter

**AME 528 Finite Element Analysis**

Units: 4 Terms Offered: Fa (Enroll in CE 528)

**AME 529 Aircraft Structures Analysis**

**AME 530a Dynamics of Incompressible Fluids**

Units: 4 Terms Offered: Fa A unified discussion of low-speed fluid mechanics including exact solutions; approximation techniques for low and high Reynolds numbers; inviscid flows; surface waves;
dynamic stability; turbulence. Instruction Mode: Lecture Grading Option: Letter

AME 530b Dynamics of Incompressible Fluids
Units: 3 Terms Offered: FaSp A unified discussion of low-speed fluid mechanics including exact solutions; approximation techniques for low and high Reynolds numbers; inviscid flows; surface waves; dynamic stability; turbulence. Instruction Mode: Lecture Grading Option: Letter

AME 532a Flight Vehicle Stability and Control
Units: 3 Terms Offered: FaSp Response of flight to linear, nonlinear, and randomly defined disturbances. Generation and measurement of error signals in navigational systems. Stability and control techniques. Recommended Preparation: AME 459. Instruction Mode: Lecture Grading Option: Letter

AME 532b Flight Vehicle Stability and Control
Units: 3 Terms Offered: FaSp Response of flight to linear, nonlinear, and randomly defined disturbances. Generation and measurement of error signals in navigational systems. Stability and control techniques. Recommended Preparation: AME 459. Instruction Mode: Lecture Grading Option: Letter

AME 533 Multi-Phase Flows
Units: 3 Terms Offered: Sp Physics of the interaction between phases, empirical and analytical methods of solution to relevant technological problems. Prerequisite: AME 457. Instruction Mode: Lecture Grading Option: Letter

AME 534 Nuclear Thermal-Hydraulics
Units: 3 Terms Offered: FaThermal-fluid phenomena for nuclear power stations. Heat generation by nuclear reactions, conduction in fuel rods, and transport of generated heat by convection, boiling, and condensation. Prerequisite: AME 457 or AME 530a; and AME 526 and AME 581; Recommended Preparation: undergraduate degree in engineering. Instruction Mode: Lecture Grading Option: Letter

AME 535a Introduction to Computational Fluid Mechanics
Units: 3 Terms Offered: FaSp Convergence, consistency, stability: finite difference, finite element, and spectral methods; direct and iterative procedures for steady problems; linear diffusion and advection problems; non-linear advection problems. Recommended Preparation: AME 526. Instruction Mode: Lecture Grading Option: Letter

AME 535b Introduction to Computational Fluid Mechanics
Units: 3 Terms Offered: FaSp Generalized curvilinear coordinates; grid generation; numerical techniques for transonic and supersonic inviscid flows; boundary layer flows; reduced Navier-Stokes equations; compressible and incompressible viscous flows. Recommended Preparation: AME 511 or AME 530a, AME 535a. Instruction Mode: Lecture Grading Option: Letter

AME 536 Biofluid Mechanics: Transport and Circulatory Systems
Units: 4 Terms Offered: Fa An analytical and theoretical introduction to fluid dynamics and transport phenomena of the physiological systems such as cardiovascular, respiratory and renal system. Recommended Preparation: Elementary knowledge of fluid mechanics and solid mechanics; coursework in mathematical techniques for undergraduate engineering majors Instruction Mode: Lecture Grading Option: Letter Crosslisted as BME 540

AME 537 Microfluidics
Units: 3 Terms Offered: Fa Introduction to fluid dynamics in the microscale. Scaling parameters, dynamic, thermodynamic, electroosmotic and electrochemical forces. Flow in microdevices, external flow measurement and control, microvalves and micropumps. Limited to students with graduate standing. Recommended Preparation: AME 309, MATH 445. Instruction Mode: Lecture Grading Option: Letter

AME 539 Multi-body Dynamics
Units: 4 Terms Offered: Sp Kinematics and kinetics of rigid body motion, quaternions; quaternions equations; elastic vibrations of continua; geometric and material nonlinearities; Galerkin methods; complex dynamical systems; computational methods. Instruction Mode: Lecture Grading Option: Letter

AME 541 Linear Control Systems II
Units: 4 Terms Offered: Fa State space representation, linearization, solution of state equations; controllability and observability; state feedback, state observers; optimal control; output feedback. Prerequisite: AME 451 Recommended Preparation: Knowledge of a programming language (MATLAB, SIMULINK) Duplicates Credit in EE 585 Instruction Mode: Lecture, Discussion Grading Option: Letter

AME 542 Theory of Plates and Shells
Units: 2 Terms Offered: Sp (Enroll in CE 542)

AME 543 Structural Instability and Failure
Units: 4 Terms Offered: Sp (Enroll in CE 543)

AME 544 Computer Control of Mechanical Systems
Units: 3 Terms Offered: Sp Computer control as applied to machine tools, mechanical manipulators, and other mechanical machinery; discrete time controller design; microprocessor implementation of motion and force control servos. Prerequisite: AME 451. Instruction Mode: Lecture Grading Option: Letter

AME 545 Modeling and Control of Distributed Dynamic Systems
Units: 3 Terms Offered: Sp Modeling and analysis of complex flexible mechanical systems; distributed transfer function synthesis; frequency-domain control methods; smart structure design; applications in vibration and noise control. Prerequisite: AME 521 and AME 541. Instruction Mode: Lecture Grading Option: Letter

AME 546 Design for Manufacturing Assembly
Units: 4 Terms Offered: Sp Overview of methods and tools for creating products that are easier to manufacture and assemble thereby reducing manufacturing costs. Instruction Mode: Lecture Grading Option: Letter

AME 547 Foundations for Manufacturing Automation
Units: 4 Terms Offered: Fa An overview of the building blocks that underlie automation; mechanics-based models for designing automated systems; decision-making tools and methods for supporting manufacturing automation. Recommended Preparation: AME 451 or background in Linear Controls Instruction Mode: Lecture Grading Option: Letter

AME 548 Analytical Methods in Robotics
Units: 3 Terms Offered: Irregular Homogeneous transformations; formal definition of robot manipulators; kinematic equations and their solution; differential relationships; dynamics; control; static forces; compliance. Prerequisite: EE 545; EE 482 or AME 451; knowledge of linear algebra. Instruction Mode: Lecture Grading Option: Letter Crosslisted as EE 548

AME 549 Systems Architecting
Units: 3 Terms Offered: FaSm (Enroll in SAE 549)

AME 550 Seminar in Aerospace and Mechanical Engineering
Units: 1 Max Units: 0.5 Terms Offered: FaSp Recent developments and research in aerospace and mechanical engineering and related fields. Oral and written reports. Registration Restriction: Open only to AME graduate students. Duplicates Credit in former AME 550a and former AME 550b Instruction Mode: Lecture Grading Option: Credit/No Credit

AME 551 Mechanical Behavior of Engineering Materials
Units: 4 Terms Offered: FaSm (Enroll in MASC 551)

AME 552 Nonlinear Control Systems
Units: 4 Terms Offered: Sp Phase plane, describing function, applications to mechanical and aerospace systems. Lyapunov stability theory; Popov theorem. Circle criterion. Lyapunov redesign. Sliding mode control. Backstepping. Passivity. Prerequisite: AME 541 or EE 585 Recommended Preparation: Background in dynamics and classical control system Instruction Mode: Lecture Grading Option: Letter

AME 553a Digital Control Systems
Units: 3 (Enroll in EE 543aL) Instruction Mode: (Lab is required for the b section only)

AME 553b Digital Control Systems
Units: 1 (Enroll in EE 543bL)

AME 554 Additive Manufacturing Technologies
Units: 4 Terms Offered: Fa Overview and working principles of commonly used additive manufacturing processes; process models; process and material selection; cost estimation methods; current applications and future directions. Instruction Mode: Lecture Grading Option: Letter

AME 559 Creep
Units: 3 Terms Offered: Fa (Enroll in MASC 559)

AME 560 Fatigue and Fracture
Units: 3 Terms Offered: Sp (Enroll in MASC 560)
AME 561 Dislocation Theory and Applications
Units: 4 Terms Offered: Sp (Enroll in MASC 561)

AME 567 Collaborative Engineering Principles and Practice
Units: 3 Terms Offered: Sp (Enroll in ISE 567)

AME 572L Experimental Engineering Projects
Units: 3 Experimental methods appropriate to engineering research, emphasizing interdisciplinary investigations. Individual projects. Instruction Mode: Lab Required Grading Option: Letter

AME 573 Aerosol Physics and Chemistry
Units: 3 Terms Offered: Sp Examination of the fundamentals of aerosol formation and evolution, aerosol effects on health and climate, and the principles of aerosol measurement. Instruction Mode: Lecture Grading Option: Letter

AME 575 Advanced Engineering Analysis
Units: 3 Terms Offered: Fa Solution of engineering problems by methods of calculus variations, integral equations, asymptotic expansions. Prerequisite: CE 525 or AME 526 and AME 526. Instruction Mode: Lecture Grading Option: Letter

AME 577 Survey of Energy and Power for a Sustainable Future
Units: 3 Terms Offered: FaSp Power production includes conventional fossil fuels, synthetic fuels, hydroelectric, solar, wind, geothermal, biomass and nuclear. The environmental consequences of various energy sources are discussed. Duplicates Credit in CHE 510. Instruction Mode: Lecture Grading Option: Letter

AME 578 Modern Alternative Energy Conversion Devices
Units: 3 Terms Offered: FaSp Alternative energy/power conversion including fuel cells, photovoltaic, batteries, and biologically inspired energy processes; biomass conversion and utilization; Environmental implications of alternative energy processes. Instruction Mode: Lecture Grading Option: Letter

AME 579 Numerical Modeling of Single and Multiphase Reactive Flows
Units: 4 Terms Offered: Fa Principles of numerical modeling of reacting flows. Physical and statistical description of combustion subprocesses: flames, edge flames, ignition, sprays. Multi physics principles of modeling. Prerequisite: AME 535a and AME 513b Instruction Mode: Lecture Grading Option: Letter

AME 581 Introduction to Nuclear Engineering
Units: 3 Terms Offered: Fa Review of basic nuclear physics, binding energy, reactor kinetics, thermal transport in reactor systems, radioactivity, shielding, reactor safety and health effects of radiation, risk assessment. Open only to graduate students. Recommended Preparation: Undergraduate degree in engineering; AME 310, MATH 245, PHYS 153L. Instruction Mode: Lecture Grading Option: Letter

AME 582 Nuclear Reactor Physics
Units: 3 Terms Offered: Sp Neutron-induced fission chain reactions, reactor criticality. Neutron transport and diffusion in nuclear reactors. Mathematical/numerical modeling foundation for diffusion theory and transport calculations for fission reactor design/analysis. Prerequisite: AME 526 and AME 581. Recommended Preparation: undergraduate degree in engineering and PHYS 153L. Instruction Mode: Lecture Grading Option: Letter

AME 583 Effects of Radiation on Health
Units: 3 Terms Offered: Sp Nuclear physics relevant to human health. Biological effects of radiation, quantification and measurement of different types of radiation affecting living tissue, radiation protection, nuclear accidents. Prerequisite: AME 526 and AME 581. Recommended Preparation: undergraduate degree in engineering and PHYS 153L. Instruction Mode: Lecture Grading Option: Letter

AME 584 Fracture Mechanics and Mechanisms
Units: 3 Terms Offered: Fa (Enroll in MASC 584)

AME 585 Aerospace Structures II
Units: 3 Terms Offered: FaSp Analysis of repairs in aircraft/launch vehicles. Flexible dynamics for spacecraft, random vibration, deployable spacecraft components, certification of thermal protection systems. Practical finite element analysis. Prerequisite: AME 485 Instruction Mode: Lecture Grading Option: Letter

AME 588 Materials Selection
Units: 4 Terms Offered: Fa (Enroll in MASC 583)

AME 590 Directed Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Research leading to the master's degree. Maximum units which may be applied to the degree to be determined by the department. Instruction Mode: Lecture Grading Option: Credit/No Credit

AME 594a Master's Thesis
Units: 2 Credit on acceptance of thesis. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

AME 594b Master's Thesis
Units: 2 Credit on acceptance of thesis. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

AME 599 Special Topics
Units: 2, 3, 4 Max Units: 9.0 Terms Offered: FaSp Course content will be selected each semester to reflect current trends and developments in the field of mechanical engineering. Instruction Mode: Lecture Grading Option: Letter

AME 620 Aero and Hydrodynamic Wave Theory
Units: 3 Linear and nonlinear wave motion in fluids: group velocity, dispersion, wave action, wave patterns, evolution equations, solitons and solitary waves, resonance phenomena. Recommended Preparation: AME 526 and CE 309. Instruction Mode: Lecture Grading Option: Letter

AME 621 Stability of Fluids
Units: 3 Linear and nonlinear stability analysis applied to free shear layers, boundary layers and jets; Rayleigh-Benard convective instabilities and centrifugal instability of rotating flows. Recommended Preparation: AME 530b. Instruction Mode: Lecture Grading Option: Letter

AME 623 Dynamics of Stratified and Rotating Flows
Units: 3 Fluid motions in which density gradients and/or rotation are important, including internal wave motions with rotation, flow past obstacles, viscous effects, singular perturbations. Recommended Preparation: AME 530b. Instruction Mode: Lecture Grading Option: Letter

AME 624 The Fluid Dynamics of Natural Phenomena
Units: 3 Application of the basic concepts of rotating, stratified fluid motion to problems in meteorology, oceanography, geophysics and astrophysics. Instruction Mode: Lecture Grading Option: Letter

AME 630 Transition to Chaos in Dynamical Systems
Units: 3 Bifurcation theory and universal routes to chaos in deterministic systems; application to maps and differential flows; characterization of strange attractors. Recommended Preparation: AME 526. Instruction Mode: Lecture Grading Option: Letter

AME 640 Advanced Theory of Elasticity
Units: 3 (Enroll in CE 640)

AME 645 Uncertainty Modeling and Stochastic Organization
Units: 3 (Enroll in CE 645)

AME 647 Multiscale Methods in Mechanics
Units: 3 (Enroll in CE 647)

AME 651 Statistical Theories of Turbulence

AME 652 Turbulent Shear Flows

AME 690 Directed Research
Units: 1, 2, 3, 4 Max Units: 8.0 Laboratory study of specific problems by candidates
for the degree Engineer in Mechanical Engineering. *Instruction Mode:* Lecture
*Grading Option:* Credit/No Credit

**AME 694a Thesis**
*Units:* 2 Required for the degree Engineer in Aerospace Engineering. Credit on acceptance of thesis. *Instruction Mode:* Lecture
*Grading Option:* In-progress to Credit/No Credit

**AME 694b Thesis**
*Units:* 2 Required for the degree Engineer in Aerospace Engineering. Credit on acceptance of thesis. *Instruction Mode:* Lecture
*Grading Option:* In-progress to Credit/No Credit

**AME 790 Research**
*Units:* 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Research leading to the doctorate. Maximum units which may be applied to the degree to be determined by the department. *Instruction Mode:* Lecture
*Grading Option:* Credit/No Credit

**AME 794a Doctoral Dissertation**
*Units:* 2 Credit on acceptance of dissertation. *Instruction Mode:* Lecture
*Grading Option:* In-progress to Credit/No Credit

**AME 794b Doctoral Dissertation**
*Units:* 2 Credit on acceptance of dissertation. *Instruction Mode:* Lecture
*Grading Option:* In-progress to Credit/No Credit

**AME 794c Doctoral Dissertation**
*Units:* 2 Credit on acceptance of dissertation. *Instruction Mode:* Lecture
*Grading Option:* In-progress to Credit/No Credit

**AME 794d Doctoral Dissertation**
*Units:* 0 Credit on acceptance of dissertation. *Instruction Mode:* Lecture
*Grading Option:* In-progress to Credit/No Credit

**Anesthesia and Medicine**

**AMED 421 Seminar: Teaching Local Anesthesia**
*Units:* 1 Techniques of teaching local anesthesia to dental hygiene students. *Instruction Mode:* Lecture
*Grading Option:* Letter

**AMED 502 Emergency Medicine**
*Units:* 2 Recognition and management of life-threatening emergencies, including unconsciousness, altered consciousness, respiratory distress, convulsions, drug-related emergencies, and chest pain. *Instruction Mode:* Lecture
*Grading Option:* Letter

**AMED 523 Pharmacosedation II**
*Units:* 1 Introduction to intravenous sedation; evaluation of patient, selection of technique and procedure; prevention of complications, recognition and management of complications; introduction to general anesthesia. *Instruction Mode:* Lecture
*Grading Option:* Letter

**AMED 524 Pain and Anxiety Control**
*Units:* 2 *Terms Offered:* Sp Theory and techniques for pain control, anxiety includes: local anesthetics, drugs, adjunctive premedication, techniques in oral, rectal, intramuscular, inhalation sedation, prevention, management of complications. *Instruction Mode:* Lecture
*Grading Option:* Letter

**AMED 610 Physical Diagnosis/Cardiology**
*Units:* 1 Participation in the Cardiac Clinic at LAC+USC Medical Center; experience in cardiac auscultation, abnormal breath sounds, use of cardiac drugs, and prosthetic valve management. *Instruction Mode:* Lecture
*Grading Option:* Letter

**AMED 750a Physical Evaluation and Anesthesia**
*Units:* 2 In-depth examination of physical evaluation, emergency medicine, basic life support, inhalation sedation, intravenous sedation, local anesthesia, and patient monitoring; includes clinical experience. *Instruction Mode:* Lecture
*Grading Option:* Letter

**AMED 750b Physical Evaluation and Anesthesia**
*Units:* 2 In-depth examination of physical evaluation, emergency medicine, basic life support, inhalation sedation, intravenous sedation, local anesthesia, and patient monitoring; includes clinical experience. *Instruction Mode:* Lecture
*Grading Option:* Letter

**AMED 750c Physical Evaluation and Anesthesia**
*Units:* 1 In-depth examination of physical evaluation, emergency medicine, basic life support, inhalation sedation, intravenous sedation, local anesthesia, and patient monitoring; includes clinical experience. *Instruction Mode:* Lecture
*Grading Option:* Letter

**American Studies and Ethnicity**

**AMST 101gmw Race and Class in Los Angeles**
*Units:* 4 *Terms Offered:* FaSp Analysis of race and the economic, political, gender, and social dimensions of contemporary Los Angeles including topics such as residential segregation, economic inequality, and city politics. Satisfies New General Education in Category C: Social Analysis Satisfies Global Perspective in Category G: Citizenship in a Diverse World *Instruction Mode:* Lecture, Discussion
*Grading Option:* Letter

**AMST 135gwm Peoples and Cultures of the Americas**
*Units:* 4 *Terms Offered:* FaSp A history of cultures and people in the Americas; the social, historical, economic and cultural formations that together make up the Latino/a American imaginary. Satisfies New General Education in Category C: Social Analysis Satisfies Global Perspective in Category G: Citizenship in a Diverse World Satisfies Old General Education in Category II: Global Cultures and Traditions *Instruction Mode:* Lecture, Discussion
*Grading Option:* Letter

**AMST 140gw Borderlands in a Global Context**
*Units:* 4 Interdisciplinary survey of theory and borderland site cases, national sentiment, linguistic and cultural conflicts, exploration of local, regional, and national identities in cultural contact zones. Satisfies New General Education in Category C: Social Analysis Satisfies Global Perspective in Category G: Citizenship in a Diverse World *Instruction Mode:* Lecture, Discussion
*Grading Option:* Letter

**AMST 150gw The American War in Viet Nam**
*Units:* 4 Examination of the ways that different nations and cultures have remembered the Vietnam War or the American War as it is called in Vietnam. Satisfies New General Education in Category B: Humanistic Inquiry Satisfies Global Perspective in Category G: Citizenship in a Diverse World Satisfies Old General Education in Category V: Arts and Letters Duplicates Credit in former AMST 377. *Instruction Mode:* Lecture, Discussion
*Grading Option:* Letter

**AMST 200gm Introduction to American Studies and Ethnicity**
*Units:* 4 *Terms Offered:* FaSp Introduction to American studies and ethnic studies. Provides an overview of major theories, concepts, and issues. Satisfies New General Education in Category C: Social Analysis *Instruction Mode:* Lecture, Discussion
*Grading Option:* Letter

**AMST 201g LGBTQ America**
*Units:* 4 Examines how U.S. sexual identity and experience are represented in the 20th and 21st century and introduces the interdisciplinary field of LGBTQ Studies. Satisfies New General Education in Category B: Humanistic Inquiry *Instruction Mode:* Lecture, Discussion
*Grading Option:* Letter

**AMST 202m Interethic Diversity in the West**
*Units:* 4 Introduction to community, culture, and ethnicity within the Western United States with emphasis on African American, Asian American, and Chicano/Latino cultures and social patterns. *Instruction Mode:* Lecture
*Grading Option:* Letter

**AMST 204g Introduction to Native Studies**
*Units:* 4 *Terms Offered:* FaSp Overview of Native American studies, including Indigenous intellectualism and resistance through language revitalization, film-making, and the recognition of one another. Satisfies New General Education in Category C: Social Analysis *Instruction Mode:* Lecture
*Grading Option:* Letter

**AMST 205g Introduction to American Popular Culture**
*Units:* 4 *Terms Offered:* FaSp Examines the relationship between U.S. national culture, race, and popular culture. Satisfies New General Education in Category B: Humanistic Inquiry *Instruction Mode:* Lecture, Discussion
*Grading Option:* Letter

**AMST 206gm The Politics and Culture of the 1960s**
*Units:* 4 *Terms Offered:* Sp Examines political and cultural change in the United States during the decade of the 1960s. Satisfies New General Education in
AMST 250gm The African Diaspora
Units: 4 Terms Offered: FaSp History, political-economy and aesthetics of the African Diaspora with emphasis on Latin America, the Caribbean, Europe and Africa. Satisfies New General Education in Category C: Social Analysis Satisfies Global Perspective in Category G: Citizenship in a Diverse World Instruction Mode: Lecture, Discussion Grading Option: Letter

AMST 251gw Race and Mixed Race
Units: 4 Terms Offered: Irregular Concepts of race and mixed race historically shaped through law, science, and popular culture, including their social construction and evolution over time. Satisfies New General Education in Category C: Social Analysis Satisfies Global Perspective in Category G: Citizenship in a Diverse World Instruction Mode: Lecture, Discussion Grading Option: Letter

AMST 220gw The Making of Asian America
Units: 4 Terms Offered: FaSp Historical, social, and cultural analysis of (East, South, and Southeast) Asians in the United States. Themes examined: immigration, race and gender relations, ethnic culture, community and identity. Satisfies New General Education in Category C: Social Analysis Satisfies Global Perspective in Category G: Citizenship in a Diverse World Instruction Mode: Lecture, Discussion Grading Option: Letter

AMST 230 Introduction to African American Studies
Units: 4 Examines the socio-historical and political imperatives of multi-disciplinary scholarship foundational to the study of African Americans. Satisfies New General Education in Category C: Social Analysis Instruction Mode: Lecture, Discussion Grading Option: Letter

AMST 240gm Representing 9/11 and Hurricane Katrina
Units: 4 Terms Offered: FaSp (Enroll in ANTH 240gm)

AMST 242gm Social Responses to Disaster
Units: 4 Exploration of social complexities associated with U.S. disasters; influences of (political) action on mitigation, response, recovery; how activities and investment vary along racial and economic lines. Satisfies Old General Education in Category VI: Social Issues Instruction Mode: Lecture, Discussion Grading Option: Letter

AMST 250gm African American Popular Culture
Units: 4 Terms Offered: Sp Examines history of popular cultural forms such as literature, music, dance, theatre, and visual arts produced by and about African Americans. Concurrent Enrollment: Concurrent enrollment: MDA 140. Satisfies New General Education in Category C: Social Analysis Satisfies Global Perspective in Category G: Citizenship in a Diverse World Instruction Mode: Lecture, Discussion Grading Option: Letter Crosslisted as ENGL-285

AMST 301 gp America, the Frontier, and the New West
Units: 4 Terms Offered: FaSp Introduction to the interdisciplinary study of American political, cultural, and social life with a particular emphasis on the Western United States as a region. Recommended Preparation: HIST 100, ENGL 263. Satisfies New General Education in Category B: Humanities Inquiry Satisfies Global Perspective in Category H: Traditions and Historical Foundations Satisfies Old General Education in Category I: Western Cultures and Traditions Instruction Mode: Lecture, Discussion Grading Option: Letter

AMST 305 Art and Performance in the Americas
Units: 4 Terms Offered: Irregular Critically examine the histories, formations, and possibilities of art and performance from the 1970s forward. Instruction Mode: Lecture Grading Option: Letter

AMST 312 Documenting Latinx Los Angeles Food Cultures
Units: 4 (Enroll in ANTH 312)

AMST 318 Global Cyphers: Hip Hop Circles Around the World
Units: 4 Terms Offered: Irregular (Enroll in FREN 318)

AMST 320 Social Construction of Race and Citizenship
Units: 4 Terms Offered: FaSp Comparative perspective on the social construction of race and citizenship. Social, economic and political experiences of selected groups in the U.S. are examined. Instruction Mode: Lecture Grading Option: Letter Crosslisted as POSC 322

AMST 326 Latinx Media Studies
Units: 4 Terms Offered: FaSp (Enroll in COMM 326)

AMST 328 Asian American Politics
Units: 4 Terms Offered: FaSp (Enroll in POSC 328)

AMST 330m Black Music and the Political Imagination
Units: 4 Explores the changing political meanings of “Black music” throughout the 20th century, from freedom to a threat to civil order, from racial integration to Black liberation. Duplicates Credit in the former GEG 362m. Instruction Mode: Lecture Grading Option: Letter

AMST 332m Post-Civil Rights Black America
Units: 4 Analyzes the political, economic, and cultural experiences of the post-1965 period through an interrogation of contemporary conditions, movements and responses to power in Black America. Instruction Mode: Lecture Grading Option: Letter

AMST 333 Religion in the Borderlands
Units: 4 (Enroll in REL 333)

AMST 336 Re-Viewing Religion in Asian America
Units: 4 (Enroll in REL 336)

AMST 337m Islam in Black America: From Slavery to Hip Hop
Units: 4 Exploration of the rise of Islam in Black America, and the relationship of Black American Muslims to more recent Muslim immigrants using historical and sociopolitical frameworks. Instruction Mode: Lecture Grading Option: Letter Crosslisted as REL-337

AMST 340m Latino/a LA
Units: 4 Examination of spatial and social patterns of the Latino/a population in Los Angeles. Emphasis on economic, demographic and cultural processes. Duplicates Credit in the former GEG 340. Instruction Mode: Lecture Grading Option: Letter

AMST 342m Law and Identities
Units: 4 Examines the complex and contested interaction between the law and racial, gender, religious, ethnic, and sexual identities using historical and contemporary cases. Instruction Mode: Lecture Grading Option: Letter

AMST 343 Food, Health and Culture in Los Angeles
Units: 4 Terms Offered: FaSp Examination of Los Angeles' diverse food cultures as well as the food justice issues that affect many low-income residents of neighborhoods surrounding USC campus. Duplicates Credit in SPAN 385 Instruction Mode: Lecture Grading Option: Letter

AMST 344m Islamic Law and American Society
Units: 4 Examination of the nature and substance of Islamic law (Shar'a) and how it relates to American democracy, society and secularism. Instruction Mode: Lecture Grading Option: Letter Crosslisted as REL-344

AMST 345 Law and American Indian Studies
Units: 4 Terms Offered: FaSp Examines indigenous sovereignties and the historical and contemporary legal histories and cases which inform them. Instruction Mode: Lecture Grading Option: Letter

AMST 348m Race and Environmentalism
Units: 4 Relationships between environmentalism, environmental problems and racial-ethnic minorities. Rise of environmental justice movement.
AMST 350 Junior Seminar in American Studies and Ethnicity: Theories and Methods  
Units: 4  
Terms Offered: FaSp  
Advanced study in interdisciplinary theories and methods for analyzing race and ethnicity in the United States, including a comparative study of topics such as inequality, gender, and class.  
Instruction Mode: Lecture  
Grading Option: Letter  
AMST 353m Race and Racism in the Americas  
Units: 4  
Terms Offered: FaSp  
Examination of selected topics in the historical development of racism with the goal of understanding the complex ways in which race has functioned in the modern world.  
Instruction Mode: Lecture  
Grading Option: Letter  
AMST 357m Latino Social Movements  
Units: 4  
Terms Offered: FaSp  
Focuses on the political experience of Latinos in the U.S. by analyzing their political experiences and perspectives, their histories of identity formation, and their political organizations.  
Instruction Mode: Lecture  
Grading Option: Letter  
AMST 364m African American Art  
Units: 4  
Terms Offered: FaSp  
Enroll in AHIS 365m  
AMST 365 Leadership in the Community — Internship  
Units: 4  
Terms Offered: FaSp  
Eight to 10 hours per week in a community-based internship plus two hour lecture. Theoretical and practical issues associated with community leadership.  
Instruction Mode: Lecture  
Grading Option: Letter  
AMST 373m History of the Mexican American  
Units: 4  
Terms Offered: FaSp  
Racial and cultural background of Mexico; immigration and conquest; the Mexican in California and the southwest; the rise of contemporary Mexican-American consciousness.  
Duplicative Credit in former HIST 472.  
Instruction Mode: Lecture  
Grading Option: Letter  
AMST 376m Contemporary Issues in Asian American Communities  
Units: 4  
Terms Offered: FaSp  
Enroll in SOCI 378m  
AMST 378m Introduction to Asian American History  
Units: 4  
Terms Offered: FaSp  
Comparative examination of the social, economic, and political experiences of Asian immigrants and their descendants in the U.S.  
Duplicative Credit in former HIST 378.  
Instruction Mode: Lecture  
AMST 379 Arabs in America  
Units: 4  
Terms Offered: FaSp  
Arab immigration and acculturation in the U.S. from late 19th century to present; emphasis on community formation, race, religion and gender.  
Instruction Mode: Lecture  
Grading Option: Letter  
AMST 380 American Popular Culture  
Units: 4  
Terms Offered: FaSp  
Enroll in HIST 380  
AMST 382 America and the World: Japan Case Study  
Units: 4  
Terms Offered: Sm  
Transnational, global perspective on American culture to examine the relationship between Los Angeles and various cities in Japan. Trip to Japan.  
Instruction Mode: Lecture  
Grading Option: Letter  
AMST 383 Jews in American Popular Culture  
Units: 4  
Terms Offered: FaSp  
Enroll in JS 383  
AMST 385 African American Culture and Society  
Units: 4  
Terms Offered: Sp  
Examines social and cultural issues affecting the past and present lives of African Americans in the United States.  
Instruction Mode: Lecture  
Grading Option: Letter  
AMST 389m Carceral Geographies  
Units: 4  
Terms Offered: FaSp  
Examines the social and physical landscapes of carceral spaces, the politics of incarceration, and the creation of space in prison institutions.  
Instruction Mode: Lecture  
Instruction Mode: Letter  
AMST 390 Special Problems  
Units: 1, 2, 3, 4  
Grading Option: Supervised, individual studies.  
No more than one registration; by petition only.  
Instruction Mode: Lecture  
Grading Option: Letter  
AMST 392 Undergraduate Research Methods  
Units: 2  
Terms Offered: FaSpSm  
Examines processes of scholarly research; quantitative and qualitative research methods; faculty mentorship; experiential learning; research proposal writing; careers in research. Sophomore or junior standing in the major. Departmental approval.  
Instruction Mode: Lecture  
Grading Option: Letter  
AMST 395m African American Humor and Culture  
Units: 4  
Terms Offered: FaSp  
Examines one of several traditions of African American humor for insights into shifting notions of race, culture, language and identity in and beyond Black America.  
Instruction Mode: Lecture  
Grading Option: Letter  
AMST 406 Social Media Storytelling for Latinx Audiences  
Units: 2  
Enroll in JOUR 406  
AMST 414 Latino/a Screen Cultures  
Units: 4  
Terms Offered: FaSpSm  
Enroll in CTGS 414  
AMST 424m Political Participation and American Diversity  
Units: 4  
Terms Offered: Fa  
Enroll in POSC 424m  
AMST 428 Latino Politics  
Units: 4  
Terms Offered: Fa  
Enroll in POSC 428  
AMST 432m Racial and Ethnic Relations in a Global Society  
Units: 4  
Terms Offered: FaSp  
Enroll in SOCI 432m  
AMST 440 Graphic America: Reading American Culture Through Graphic Novels  
Units: 4  
Examines American identity and culture through exploration of graphic novels that vary widely in theme, including ancestry, race, gender, sexuality, throughout American history.  
Instruction Mode: Lecture  
Grading Option: Letter  
AMST 442 American Literature, 1920 to the Present  
Units: 4  
Terms Offered: FaSp  
Enroll in ENGL 442  
AMST 444m Native American Literature  
Units: 4  
Terms Offered: FaSp  
Enroll in ENGL 444m  
AMST 445 African American Anthropology  
Units: 4  
Terms Offered: FaSp  
Enroll in ANTH 445  
AMST 446 Cultural Circuits in the Americas  
Units: 4  
Terms Offered: FaSp  
How does culture move within and across the Americas? What are the relationships between new global media conglomerates, "national cultural industries," and local cultural practices?  
Instruction Mode: Lecture  
Instruction Mode: Letter  
AMST 447 Caribbean Literature  
Units: 4  
An introduction to Caribbean studies, using literature and film, with a focus on specific islands examined in their transnational and global contexts.  
Instruction Mode: Lecture  
Grading Option: Letter  
AMST 448m Chicanos and Latino Literature  
Units: 4  
Terms Offered: FaSp  
Development of poetry, essay, short story and novel of the Chicoano and Latino peoples of the United States, with particular emphasis on the differentiating characteristics between the multiple cultures that constitute the Latino populations.  
Duplicative Credit in former ENGL 448.  
Instruction Mode: Lecture  
Grading Option: Letter  
AMST 449m Asian American Literature  
Units: 4  
Terms Offered: FaSp  
Survey of Asian American literature from the earliest time to the present; development of prose, poetry and novel.  
Instruction Mode: Lecture  
Grading Option: Letter  
AMST 452m Race, Gender and Sexuality  
Units: 4  
Examination of sexual discourses in the United States in the context of slavery, empire, sex work, labor markets, schools and prisons.  
Instruction Mode: Lecture  
Grading Option: Letter  
AMST 456m People of Color and the News Media  
Units: 4  
Enroll in JOUR 466m  
AMST 456m Race and Ethnicity in Entertainment and the Arts  
Units: 4  
Terms Offered: FaSpSm  
Enroll in COMM 458m  
AMST 464m Latino News Media in the United States  
Units: 4  
Enroll in JOUR 465m  
AMST 465 Studies in American Art  
Units: 4  
Max Units: 8  
Terms Offered: FaSp  
Enroll in AHIS 465  
AMST 466m The Psychology of African Americans  
Units: 4  
Terms Offered: FaSp  
Provides an introduction to the study of health, mental health, and social behavior among African Americans.
AMST 475m Blackness in American Visual Culture
Units: 4 Terms Offered: FaSp (Enroll in AHIS 475m)

AMST 483 Religion and Popular Culture in the United States
Units: 4 Terms Offered: Sp (Enroll in REL 483)

AMST 490x Directed Research
Units: 1, 2, 3, 4, 5, 6, 7, 8 Max Units: 12.0 Individual research and readings.
Instruction Mode: Lecture Grading Option: Letter

AMST 492 Research Methods in American Studies and Ethnicity
Units: 4 Develop the research proposal and methods for completing a senior honors thesis; for students in one of the four American Studies and Ethnicity honors programs. Instruction Mode: Lecture Grading Option: Letter

AMST 493 Senior Honors Thesis in American Studies and Ethnicity
Units: 4 Writing the honors thesis; for students in one of the four American Studies and Ethnicity majors and Honors Program. Instruction Mode: Lecture Grading Option: Letter

AMST 498 Senior Seminar in American Studies and Ethnicity
Units: 4 Terms Offered: FaSp Capstone course for majors, highlighting interdisciplinary study of race and ethnicity in a comparative context. Prerequisite: AMST 200. Instruction Mode: Lecture Grading Option: Letter

AMST 499 Special Topics
Units: 2, 3, 4 Max Units: 8.0 Special topics in the earth sciences. Field trip required when appropriate to the topic. Departmental approval required. Instruction Mode: Lecture Grading Option: Letter

AMST 500 Introduction to American Studies and Ethnicity
Units: 4 Terms Offered: FaAn exploration of theoretical influences, and methodological approaches current in American Studies and Ethnic Studies. Instruction Mode: Lecture Grading Option: Letter

AMST 509 Key Topics in Linguistic Anthropology
Units: 4 Terms Offered: FaSp (Enroll in ANTH 509)

AMST 510 Readings in Chicano/Latino Studies
Units: 4 Terms Offered: FaSp Perspectives from the major debates that have driven the development of the field of Chicano/Latino/a studies across the disciplines. Instruction Mode: Lecture Grading Option: Letter

AMST 519 Indigenous, Decolonial and Transhemispheric American Studies
Units: 4 Terms Offered: FaSp Evaluate pressing social science and humanities concerns hemispherically in relation to first peoples, decolonialization, land, cultural memory, and politics within comparative ethnic studies. Instruction Mode: Lecture Grading Option: Letter

AMST 520 Readings in Asian American Studies
Units: 4 Terms Offered: FaSp Graduate seminar covering critical themes in the interdisciplinary field of Asian American Studies, including perspectives from anthropology, literature, sociology, history, political science, religious studies, cultural studies, women/gender studies and psychology. Instruction Mode: Lecture Grading Option: Letter

AMST 522 Transpacific History
Units: 4 (Enroll in HIST 560)

AMST 525 Seminar in American Art Studies
Units: 4 Terms Offered: FaSp (Enroll in AHIS 525)

AMST 530 Readings in African American Studies
Units: 4 Max Units: 8.0 Terms Offered: FaSp Seminar exploring crucial theoretical, methodological and historical issues in the development of African American Studies. Instruction Mode: Lecture Grading Option: Letter

AMST 534 Critical Studies in Whiteness
Units: 4 Max Units: 8.0 Terms Offered: FaSp Examines meaning of "whiteness" from historical and other disciplinary perspectives; focus is on how whiteness operates within specific racial regimes to perpetuate inequality. Instruction Mode: Lecture Grading Option: Letter

AMST 552 Archives and Subcultures
Units: 4 Terms Offered: FaSm Introduction to the practice of archival research with an emphasis on the literary and historical methods of documenting subcultural groups, particularly racial and sexual minorities. Instruction Mode: Lecture Grading Option: Letter

AMST 553 Race, Gender and Sexuality
Units: 4 Interdisciplinary investigation of concepts, theories, and debates in the study of race and its intersection with gay, lesbian, trans, heterosexual and other sexualities/genders. Instruction Mode: Lecture Grading Option: Letter

AMST 554 Readings in Chicano/Latino History
Units: 4 Terms Offered: FaSp Readings, analyses, and discussion of various approaches, topics, and genres in the field of Chicano/Latino history. Instruction Mode: Lecture Grading Option: Letter Crosslisted as SWMS-553

AMST 555 Readings in Chicano/Latino History
Units: 4 Terms Offered: FaSp Readings, analyses, and discussion of various approaches, topics, and genres in the field of Chicano/Latino history. Instruction Mode: Lecture Grading Option: Letter Crosslisted as HIST-554

AMST 560 Readings on Race and Ethnicity
Units: 4 Terms Offered: FaSp Exploration of research on race and ethnicity in the United States as it pertains to political, social, economic, cultural and historical issues. Instruction Mode: Lecture Grading Option: Letter

AMST 562 The Practice of Ethnography
Units: 4 (Enroll in ANTH 562)

AMST 567 Body, Power and Politics
Units: 4 Terms Offered: FaSp Surveys interdisciplinary research and theory on the human body, state power, scientific knowledge, professions and representation. Instruction Mode: Lecture Grading Option: Letter Crosslisted as SWMS 567

AMST 570 Readings on Los Angeles and Urban Culture
Units: 4 Terms Offered: FaSp Exploration of some of the leading scholarship from a variety of disciplines writing about Los Angeles and the Southern California area. Particular emphasis is placed on the intersections of historical, contemporary and cultural issues that inform recent scholarship on Los Angeles. Instruction Mode: Lecture Grading Option: Letter

AMST 572 Quantitative Methods for a Diverse Society
Units: 4 Terms Offered: FaSp Seminar in theoretical approaches to cultural studies, with an emphasis on the analysis of race, gender, sexuality, and class in the U.S. Instruction Mode: Lecture Grading Option: Letter

AMST 580 Readings in Cultural Studies
Units: 4 Max Units: 8.0 Terms Offered: FaSp Introduction to key texts on poststructuralism and its theorizing of the body, power, and historical trauma. Instruction Mode: Lecture Grading Option: Letter

AMST 585 Topics in Cultural Theory
Units: 4 Max Units: 8.0 Terms Offered: FaSp How did Marx conceptualize capital? Historical materialism? Dialectical materialism? What roles do race, class, gender, sexuality, territory and the state perform? Instruction Mode: Lecture Grading Option: Credit/No Credit

AMST 590 Directed Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Terms Offered: FaSpSm Research leading to the master's degree. Maximum units which may be applied to the degree to be determined by the program. Instruction Mode: Lecture Grading Option: Credit/No Credit

AMST 593 Practicum in Teaching the Liberal Arts: American Studies
Units: 2 Terms Offered: FaSp Practical principles for the long term development of effective teaching within college disciplines, intended for teaching assistants in American Studies and Ethnicity. Duplicates Credit in MDA 593. Instruction Mode: Lecture Grading Option: Credit/No Credit

AMST 599 Special Topics
Units: 2, 3, 4 Max Units: 8.0 Seminar in selected topics in American studies and ethnic studies. Instruction Mode: Lecture Grading Option: Letter

AMST 610 Interdisciplinary Research Seminar in Chicano/Latino Studies
Units: 4 Max Units: 8.0 Terms Offered: FaSp Exploration of issues involved in conducting research in the interdisciplinary field of Chicano/Latino Studies and guides students through the design and completion of a journal-quality research paper. Recommended Preparation: graduate reading course in Chicano/Latino Studies.
AMST 622 Research Seminar on Transpacific Studies
Units: 4 Terms Offered: FaSpSm Interdisciplinary research seminar foregrounding a multilateral approach towards understanding the political, cultural, economic, and military relations and conflicts between Asia, the Americas, and the Pacific. Instruction Mode: Lecture Grading Option: Letter

AMST 630 Interdisciplinary Research Seminar: African American Studies
Units: 4 Terms Offered: FaSp Methodological and theoretical approaches to conducting research in African American Studies; design and completion of a publishable research paper. Instruction Mode: Lecture Grading Option: Letter

AMST 657 Critical Theories of Race and Culture
Units: 4 Terms Offered: FaSpSm (Enroll in COMM 657)

AMST 660 Interdisciplinary Research Seminar in Race and Ethnicity
Units: 4 Explores issues of conducting interdisciplinary research in race and ethnicity and guides students through the design and completion of a journal-quality research paper. Recommended Preparation: graduate reading course in race and ethnicity. Instruction Mode: Lecture Grading Option: Letter

AMST 662 Research Seminar in Comparative Ethnic Studies
Units: 4 Examination of the historical evolution and current status of comparative and relational ethnic studies. Original research project required. Instruction Mode: Lecture Grading Option: Letter

AMST 670 Interdisciplinary Research Seminar on Los Angeles
Units: 4 Introduces students to issues of - urban-based research concerning Los Angeles and guides students through the design and completion of a journal-quality research paper. Recommended Preparation: graduate reading course on Los Angeles. Instruction Mode: Lecture Grading Option: Letter

AMST 680 Interdisciplinary Research Seminar in Cultural Studies
Units: 4 Explores theoretical approaches to cultural studies as an interdisciplinary field and guides students through the design and completion of a journal-quality research paper. Recommended Preparation: graduate reading course in cultural studies. Instruction Mode: Lecture Grading Option: Letter

AMST 700 Theories and Practices of Professional Development
Units: 4 Terms Offered: FaSpSm Offers students a structured environment in which to write their dissertation proposals and focus on professional development. Completion of qualifying exam. Instruction Mode: Lecture Grading Option: Credit/No Credit

AMST 701 Contemporary Theories of American Studies and Ethnicity
Units: 4 Max Units: 8.0 Terms Offered: Sp Seminar in representative theoretical works in the fields of American Studies and Ethnic Studies published in the past fifteen years. Instruction Mode: Lecture Grading Option: Letter

AMST 790 Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Terms Offered: FaSpSm Research leading to the doctorate. Maximum units which may be applied to the degree to be determined by the program. Instruction Mode: Lecture Grading Option: Credit/No Credit

AMST 794a Doctoral Dissertation
Units: 2 Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

AMST 794b Doctoral Dissertation
Units: 2 Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

AMST 794c Doctoral Dissertation
Units: 2 Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

AMST 794d Doctoral Dissertation
Units: 2 Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

AMST 794e Doctoral Dissertation
Units: 0 Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

ANAT 501 Functional Neuroanatomy-Neuropathology
Units: 3 Structure and function of the human nervous system. Includes participation in neurology clinics at LAC+USC Medical Center. Instruction Mode: Lecture Grading Option: Letter

ANAT 502 Advanced Pharmacology of Anesthesiology
Units: 4 Terms Offered: Term in-depth study of pharmacokinetic/pharmacodynamic principles to anesthetic case management including airway and blood/fluid management, anesthesia machine, and postoperative pain. Lecture/case study format. Registration Restriction: Open only to Doctor of Nurse Anesthesia Program majors. Instruction Mode: Lecture Grading Option: Letter

ANAT 503 Advanced Pharmacology of Anesthesiology Practice I
Units: 4 Terms Offered: FaSpSm Basic theory of anesthesiology administration, anesthetic management, pharmacokinetic/pharmacodynamic principles, uptake and distribution of inhalational anesthetics, and pharmacology of respiratory and cardiovascular drugs. Application of pharmacologic principles to anesthetic management. Registration Restriction: Open only to Doctor of Nurse Anesthesia Program majors. Instruction Mode: Lecture Grading Option: Letter

ANAT 504 Advanced Pharmacology of Anesthesiology Practice II
Units: 4 Terms Offered: Sp Pharmacokinetic/pharmacodynamic principles of drugs covering different organs systems (cardiovascular, CNS, hematology, endocrine), herbal therapies, chemotherapy and antimicrobials. Application of pharmacology to anesthetic management using problem-based learning. Prerequisite: ANST 501 and ANST 502. Instruction Mode: Lecture Grading Option: Letter

ANAT 521 Head and Neck Anatomy Laboratory
Units: 2 Dissection of the head and neck with emphasis on the osteology and morphology of the face. Prerequisite: ANAT 701 enrollment. Instruction Mode: Lecture Grading Option: Letter

ANAT 722 Advanced Head and Neck Anatomy Laboratory
Units: 1 Dissection of the head and neck with emphasis on the osteology and morphology of the face. Prerequisite: ANAT 701 enrollment. Instruction Mode: Lecture Grading Option: Letter

Anesthesiology
ANST 501 Advanced Pharmacology of Anesthesia Practice I
Units: 4 Terms Offered: FaSpSm Pharmacokinetic and pharmacodynamic principles, uptake and distribution of inhalational anesthetics, and pharmacology of respiratory and cardiovascular drugs. Application of pharmacologic principles to anesthetic management. Registration Restriction: Open only to Doctor of Nurse Anesthesia Program majors. Instruction Mode: Lecture Grading Option: Letter

ANST 502 Principles of Nurse Anesthesia Practice
Units: 4 Terms Offered: FaSpSm Basic theory of anesthesiology administration, preanesthetic assessment, physical examination, monitoring. Case management including airway and blood/ fluid management, anesthesia machine, and postoperative pain. Lecture/case study format. Registration Restriction: Open only to Doctor of Nurse Anesthesia Program majors. Instruction Mode: Lecture Grading Option: Letter

ANST 504 Advanced Pathophysiology Related to Anesthesia Practice
Units: 4 Terms Offered: Sp In-depth study of cardiovascular, respiratory, renal, liver, endocrine and neurophysiology and pathophysiology with application of these principles to anesthetic case management using problem-based learning. Prerequisite: ANST 501, ANST 502. Instruction Mode: Lecture Grading Option: Letter

ANST 506 Advanced Principles of Nurse Anesthesia Practice
Units: 4 Terms Offered: FaSpSm Advanced theory of anesthesia management for general and specialized procedures, diagnostic procedures, pediatrics and obstetrics. Prerequisite: ANST 503 and ANST 504 Registration Restriction: Open only to Doctor of Nurse Anesthesia Program majors. Instruction Mode: Lecture Grading Option: Letter

ANST 508 Research: Investigative Inquiry
Units: 3 Terms Offered: Fa Utilization of research, which includes the evaluation of research, problem identification within the practice setting, awareness of practice outcomes and the clinical application of
research. Recommended Preparation: research course; basic statistics. Instruction Mode: Lecture Grading Option: Letter

ANST 590 Directed Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12
Terms Offered: FaSpSm Research leading to the master's degree in nurse anesthesia. Maximum units which may be applied to the degree to be determined by the department. Prerequisite: ANST 508. Instruction Mode: Lecture Grading Option: Credit/No Credit

ANST 591 Special Projects
Units: 1, 2, 3, 4, 5 Max Units: 12 Terms Offered: FaSpSm Supervised learning in an academic and/or clinical area of focus reflecting current trends and development in the field of nurse anesthesia. Registration Restriction: Only open to Doctor of Nurse Anesthesia Practice students Instruction Mode: Lecture Grading Option: Credit/No Credit

ANST 600 Gateway Tools
Units: 2 Emphasize strategies that build critical skills for the transition from clinician to doctoral level scholarship and clinical practice. Discussions used to develop awareness, self regulation, internal motivation, empathy, social skills and role transition. Acceptance into the USC Program of Nurse Anesthesia. Registration Restriction: Open to Doctor of Nurse Anesthesia Practice students only Instruction Mode: Lecture, Discussion Grading Option: Credit/No Credit

ANST 601 Professional Integration to the Clinical Environment
Units: 2 Correlation of techniques of anesthetic administration with application of scientific and pharmacologic theory in the clinical environment with observation and supervised clinical instruction. Registration Restriction: Open only to Doctor of Nurse Anesthesia Practice students only Instruction Mode: Lecture, Discussion Grading Option: Letter

ANST 602 Analytical Methods for Evidence-Based Practice
Units: 3 Evaluation of the appropriateness of statistical methods applied to answer research questions and impact of statistical choice on the application and interpretation of evidence-based medicine to nurse anesthesia practice. Instruction Mode: Lecture, Discussion Grading Option: Letter

ANST 603 Anatomy and Advanced Health Assessment
Units: 4 Terms Offered: FaSpSm Lectures and laboratory simulation in anatomy emphasizing structure and function of major organs to include brain, cardiovascular, lungs, liver, kidneys and musculoskeletal systems. Acceptance into the USC Program of Nurse Anesthesia. Registration Restriction: Open to Doctor of Nurse Anesthesia Practice students only Instruction Mode: Lecture Grading Option: Letter

ANST 604 Healthcare Policy for Advocacy in Health Care
Units: 3 Examining the health care system focusing on policy development, health care costs, quality and patient safety, access to care, disparities, and future trends. Instruction Mode: Lecture, Discussion Grading Option: Letter

ANST 605 Clinical Prevention and Population Health
Units: 3 Focuses on positive/protective social and behavioral factors influencing well-being of individuals and populations. Public health promotion strategies, clinical prevention and lifestyle choices will be reviewed. Instruction Mode: Lecture, Discussion Grading Option: Letter

ANST 607 Advanced Health Assessment
Units: 2 Terms Offered: FaSpSm Advanced health assessment of all human systems utilizing advanced assessment techniques, concepts and approaches. Registration Restriction: Open only to Nurse Anesthesia Practice students only Instruction Mode: Lecture Grading Option: Credit/No Credit

ANST 608 Advanced Clinical Anatomy for Nurse Anesthesia Practice
Units: 2 Investigation of the cardiovascular, respiratory, renal, hepatic, spinal, head and neck, musculoskeletal and nervous system anatomy with emphasis on these systems relating to anesthesia management. Concurrent Enrollment: ANST 610 Registration Restriction: Open only to Doctor of Nurse Anesthesia Practice students Instruction Mode: Lecture Grading Option: Letter

ANST 609 Advanced Health Assessment
Units: 3 Focuses on the patient's health history, on inspection, palpation, percussion and auscultation of major organ systems and differential diagnosis. Registration Restriction: Open only to Doctor of Nurse Anesthesia Practice students Instruction Mode: Lecture Grading Option: Letter

ANST 610 Advanced Physiology for Nurse Anesthesia Practice
Units: 4 Terms Offered: FaSpSm An investigation of human cardiovascular, respiratory, renal, hepatic, neurological, and hematological systems and cellular physiology with special emphasis on how these systems relate to anesthesia management. Registration Restriction: Open only to Doctor of Nurse Anesthesia Program Majors Instruction Mode: Lecture Grading Option: Letter

ANST 611 Leadership and Collaborative Practice
Units: 3 Terms Offered: FaSpSm Emphasis on the professional components of nurse anesthesia practice including scope of practice, organizational leadership, accountability, ethics and collaborative practice. Registration Restriction: Open only to Doctor of Nurse Anesthesia Practice Majors Instruction Mode: Lecture Grading Option: Letter

ANST 612 Clinical-Technology Interface
Units: 3 Exploring informatics, the integration of computer science, cognitive science, and informational science to manage and communicate data, information, knowledge and wisdom in healthcare delivery. Instruction Mode: Lecture Grading Option: Letter

ANST 613 Clinical Residency in Nurse Anesthesia I
Units: 2 Terms Offered: FaSpSm Correlation of techniques of anesthesia administration with application of scientific and pharmacologic theory in the clinical setting with observation and supervised clinical residency. Prerequisite: ANST 501 and ANST 502 Registration Restriction: Open to Doctor of Nurse Anesthesia Practice students only Instruction Mode: Lecture, Lab Grading Option: Letter

ANST 614 Clinical Residency in Nurse Anesthesia II
Units: 2 Terms Offered: FaSpSm Correlation of techniques of anesthesia administration with application of scientific and pharmacologic theory in the clinical setting with observation and supervised clinical residency. Prerequisite: ANST 614 Registration Restriction: Open to Doctor of Nurse Anesthesia Practice students only Instruction Mode: Lecture, Lab Grading Option: Letter

ANST 615 Clinical Residency in Nurse Anesthesia III
Units: 2 Terms Offered: FaSpSm Correlation of techniques of anesthesia administration with application of scientific and pharmacologic theory expanded to geriatric, obstetrical, and pediatric anesthesia; anesthetic management includes medically compromised patients. Prerequisite: ANST 614 and ANST 615 Registration Restriction: Open to Doctor of Nurse Anesthesia Practice students only Instruction Mode: Lecture, Lab Grading Option: Letter

ANST 616 Advanced Clinical Residency in Nurse Anesthesia I
Units: 2 Terms Offered: FaSpSm Correlating techniques of anesthesia administration with application of scientific and pharmacologic theory expanded to trauma anesthesia, critical care and pain management. Prerequisite: ANST 614 and ANST 615 and ANST 616 and ANST 617 Registration Restriction: Open to Doctor of Nurse Anesthesia Practice students only Instruction Mode: Lecture, Lab Grading Option: Letter

ANST 617 Advanced Clinical Residency in Nurse Anesthesia II
Units: 2 Terms Offered: FaSpSm Correlation of techniques of anesthesia administration with application of scientific and pharmacologic theory expanded to trauma anesthesia, critical care and pain management. Prerequisite: ANST 614 and ANST 615 and ANST 616 and ANST 617 Registration Restriction: Open to Doctor of Nurse Anesthesia Practice students only Instruction Mode: Lecture, Lab Grading Option: Letter

ANST 618 Advanced Clinical Residency in Nurse Anesthesia III
Units: 2 Terms Offered: FaSpSm Correlation of techniques of anesthesia administration with application of scientific and pharmacologic theory expanded to trauma anesthesia, critical care and pain management. Prerequisite: ANST 614 and ANST 615 and ANST 616 and ANST 617 Registration Restriction: Open to Doctor of Nurse Anesthesia Practice students only Instruction Mode: Lecture, Lab Grading Option: Letter

ANST 619 Advanced Clinical Residency in Nurse Anesthesia IV
Units: 3 Terms Offered: FaSpSm Correlating techniques of anesthesia administration with application of scientific and pharmacologic theory expanded to trauma anesthesia, critical care and pain management. Prerequisite: ANST 614 and ANST 615 and ANST 616 and ANST 617 and ANST 618 Registration Restriction: Open only to Doctor of Nurse Anesthesia Practice students Instruction Mode: Lecture, Lab Grading Option: Letter

ANST 630 Clinical Synthesis I
Units: 2 Terms Offered: FaSpSm Lecture and simulation curriculum promoting synthesis and mastery of topics integral to the art and science of nurse anesthesia planning, management and delivery. Registration Restriction: Open only to Doctor of Nurse Anesthesia students Duplicates Credit in former ANST 620a
and former ANST 620b Instruction Mode: Lecture Grading Option: Letter

ANST 632 Clinical Synthesis II
Units: 2
Terms Offered: FaSpSm Part two of a formal curriculum promoting synthesis and mastery of topics integral to the art and science of nurse anesthesia planning, management and delivery. Prerequisite: ANST 631 Registration Restriction: Open only to Doctor of Nurse Anesthesia students Duplicates Credit in ANST 621b and former ANST 621a Instruction Mode: Lecture Grading Option: Letter

ANST 633 Clinical Synthesis III
Units: 2
Terms Offered: Lecture and advanced simulation curriculum promoting synthesis and mastery of topics integral to the art and science of nurse anesthesia planning, management and delivery. Prerequisite: ANST 632 Registration Restriction: Open only to Doctor of Nurse Anesthesia students Instruction Mode: Lecture Grading Option: Letter

ANST 690 Directed Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12
Terms Offered: FaSpSm Research, in part, leading to a doctoral degree in nurse anesthesia. Maximum units which may be applied to the degree to be determined by the department. Prerequisite: ANST 508 Registration Restriction: Open only to Doctor of Nurse Anesthesia majors Instruction Mode: Lecture Grading Option: Letter

ANST 691 The Doctor of Nurse Anesthesia Practice Essentials
Units: 2
Terms Offered: FaSpSm Lecture and laboratory, lecture and advanced simulation curriculum promoting synthesis and mastery of topics integral to the art and science of nurse anesthesia planning, management and delivery. Prerequisite: ANST 690 Registration Restriction: Open only to Doctor of Nurse Anesthesia students Instruction Mode: Lecture Grading Option: Credit/No Credit

ANST 694a Doctoral Capstone Project
Units: 1
Terms Offered: FaSpSm Mentored research on an individualized topic of interest leading to the professional doctorate. The project will culminate in a formal written research paper or presentation. Prerequisite: ANST 694a Registration Restriction: Open only to Doctor of Nurse Anesthesia Practice students Instruction Mode: Lecture Grading Option: Credit/No Credit

ANST 694d Doctoral Capstone Project
Units: 1
Terms Offered: FaSpSm Mentored research on an individualized topic of interest leading to the professional doctorate. The project will culminate in a formal written research paper or presentation. Prerequisite: ANST 694c Registration Restriction: Open only to Doctor of Nurse Anesthesia Practice students only Instruction Mode: Lecture Grading Option: Credit/No Credit

Anthropology

ANTH 101g Body, Mind and Healing: Introduction to Medical Anthropology
Units: 4
Terms Offered: FaSp The body, illness and healing from a cultural perspective, including comparative studies of folk healing systems, curing rituals and Western biomedical practices. Satisfies New General Education in Category C: Social Analysis Instruction Mode: Lecture Grading Option: Letter

ANTH 105g Culture, Medicine and Politics
Units: 4
Terms Offered: Fa Survey of the impact of public institutions, the private sector, and cultural practices on health and the delivery of health care in the United States. Satisfies Old General Education in Category VI: Social Issues Instruction Mode: Lecture, Discussion Grading Option: Letter

ANTH 125g Social Issues in Human Sexuality and Reproduction
Units: 4
Terms Offered: FaSp The nature of the "natural" (biological) and "unnatural" (social and cultural) dimensions of human sexuality and reproduction. Satisfies Old General Education in Category VI: Social Issues Instruction Mode: Lecture, Discussion Grading Option: Letter

ANTH 140g Mesoamerican Cosmovision and Culture
Units: 4
Terms Offered: Sp An exploration of the culture and contributions of pre-Columbian high civilizations (Maya, Aztecs, etc.) and their descendants as they resist and assimilate to the modern world. Satisfies New General Education in Category C: Social Analysis Satisfies Old General Education in Category II: Global Cultures and Traditions Instruction Mode: Lecture, Discussion Grading Option: Letter

ANTH 200Lg The Human Animal
Units: 4 Max Units: 12.0 (Enroll in HBSO 200Lg) Instruction Mode: Lecture Grading Option: Letter

ANTH 201g Principles of Human Organization
Units: 4
Terms Offered: FaSpSm Major culture types, nonagricultural food-gatherers and herders, peasant and tribal societies, sophisticated kingdoms; social, political, economic, and religious institutions. Satisfies New General Education in Category C: Social Analysis Instruction Mode: Lecture, Discussion Grading Option: Letter

ANTH 202g Archaeology: Our Human Past
Units: 4
Terms Offered: FaSp Archaeology as the means of investigating our shared human past, from the origins of humanity to the foundations of current civilization.

Satisfies New General Education in Category C: Social Analysis Instruction Mode: Lecture Grading Option: Letter Crosslisted as CLAS 202, ANST 202

ANTH 205g Introduction to Global Studies and Overseas Research
Units: 4
Terms Offered: Sp Cultural differences and social processes examined in global and regional networks. Issues are studied ethnocritically, using materials from several disciplines. Satisfies New General Education in Category C: Social Analysis Instruction Mode: Lecture Grading Option: Letter

ANTH 207 Introduction to Heritage Studies
Units: 4
Terms Offered: FaSp Explores the interdisciplinary field of heritage studies and investigates how cultural heritage is defined, valued and protected. Instruction Mode: Lecture Grading Option: Letter

ANTH 235g The Changing Pacific
History, Culture, Politics
Units: 4
Terms Offered: Fa Current social and political developments in the South Pacific analyzed from the perspective of the historical relationship between indigenous cultures and the West. Concurrent Enrollment: Concurrent enrollment: MDA 140. Satisfies New General Education in Category C: Social Analysis Satisfies Old General Education in Category II: Global Cultures and Traditions Instruction Mode: Lecture Grading Option: Letter

ANTH 240gm Representing 9/11 and Hurricane Katrina
Units: 4
Terms Offered: FaSp Critical examination of visual, textual, and performative representations of culture and identity anchored by discussion of the terrorist attacks of 9/11 and Hurricane Katrina. Recommended Preparation: ANTH 263g Satisfies Old General Education in Category VI: Social Issues Instruction Mode: Lecture Grading Option: Letter Crosslisted as AMST 240

ANTH 250g Race and Sexual Politics in Southeast Asia
Units: 4
Terms Offered: FaSpSm Southeast Asia is studied as a meeting place of different races and cultural traditions, with emphasis on the precolonial heritage of sexual equality and postcolonial reinterpretations of men's and women's worlds. Satisfies New General Education in Category C: Social Analysis Satisfies Old General Education in Category II: Global Cultures and Traditions Instruction Mode: Lecture, Discussion Grading Option: Letter

ANTH 263g Exploring Culture through Film
Units: 4
Terms Offered: FaSpSm Concepts of social anthropology using filmic representations of societies throughout the world in contrast to written ethnography. Satisfies New General Education in Category C: Social Analysis Satisfies Old General Education in Category II: Global Cultures and Traditions Instruction Mode: Lecture, Discussion Grading Option: Letter

ANTH 273g Shamans, Spirits and Ancestors: Non-Western Religious Traditions
Units: 4
Terms Offered: Fa An intensive study of local systems of belief and knowledge in selected societies in the Pacific, Asia, Africa, the Caribbean and Latin America with emphasis on ideas
of the spirit world. Satisfies Old General Education in Category II: Global Cultures and Traditions. Instruction Mode: Lecture

ANTH 300 Evolution, Ecology, and Culture
Units: 4 Max Units: 12.0 Terms Offered: FaSpSm (Enroll in HBIO 300) Instruction Mode: Lecture Grading Option: Credit/No Credit

ANTH 301g The Global Performance of Healing
Units: 4 Survey of the performance of healing in cross-cultural perspective. The course culminates in field research to Spiritist centers outside the United States. Satisfies New General Education in Category C: Social Analysis Instruction Mode: Lecture Grading Option: Letter

ANTH 302 Humans and Ancient Environments
Units: 4 Terms Offered: FaSp Examine ways that humans have caused and adapted to environmental change in the past. Recommended Preparation: ANTH 202 and GEOL 105Lg or GEOL 150Lg. Instruction Mode: Lecture Grading Option: Letter

ANTH 303 Exploring Ancient Ways of Living: Experimental Archaeology
Units: 4 (Enroll in REL 303)

ANTH 304 Prehistoric Archaeology
Units: 4 Examination of the rise of human social complexity from the first Homo Sapiens through the development of agriculture, chiefdoms, states and empires. Recommended Preparation: HBIO 200Lg. Instruction Mode: Lecture Grading Option: Letter

ANTH 305 Childhood, Birth and Reproduction
Units: 4 Terms Offered: Fa Cross-cultural analysis and comparison of the experience and cultural conception of birth, maternity, parenthood, and childhood in western and non-western societies. Instruction Mode: Lecture Grading Option: Letter Crosslisted as SWMS-305

ANTH 306 Primate Social Behavior and Ecology
Units: 4 Terms Offered: FaSpSm (Enroll in HBIO 306)

ANTH 307 Trojan Archaeology: Excavating USC
Units: 4 Archaeological excavation on USC's campus features training in research design, digging, survey, mapping, archive use, artifact analysis, public communication, and confronting political and ethical challenges. Recommended Preparation: ANTH 202g Instruction Mode: Lecture, Lab Grading Option: Letter Crosslisted as ARCG 307

ANTH 308 Origins and Evolution of Human Behavior
Units: 4 (Enroll in HBIO 308)

ANTH 309L Virtual and Digital Culture, Heritage and Archaeology
Units: 2, 4 Max Units: 04 Terms Offered: FaSpSm (Enroll in ARCG 309L)

ANTH 310 Archaeology of the Americas
Units: 4 Terms Offered: Irregular Pre-Columbian culture from early hunters to the Spanish conquest in major geographical areas of Mexico, Central America, Peru, or the United States. Instruction Mode: Lecture Grading Option: Letter Crosslisted as ARCG 310

ANTH 311 Old World Archaeology
Units: 4 Terms Offered: Irregular Neolithic revolution and origins of civilization in major culture centers such as Mesopotamia, Egypt, India, or China. Instruction Mode: Lecture Grading Option: Letter

ANTH 312 Documenting Latinx Los Angeles Food Cultures
Units: 4 Explores Latinx food in Los Angeles through an anthropological lens. Students experience, document and analyze local food knowledge and traditions through active field study. Instruction Mode: Lecture Grading Option: Letter Crosslisted as AMST 312

ANTH 314g The Nature of Maya Civilization
Units: 4 A seminar forum on Maya culture from the evolutionary present; problems of origins, classic florescence, systems collapse, conquests, persistence, and transformation today. Satisfies New General Education in Category C: Social Analysis Satisfies Old General Education in Category II: Global Cultures and Traditions Instruction Mode: Lecture, Discussion Grading Option: Letter

ANTH 315g Native North Americans
Units: 4 Terms Offered: Fa Indigenous peoples of North America: major cultural themes, contemporary issues, language revitalization, native sovereignty, environmental issues, decolonization. Satisfies New General Education in Education in Category C: Social Analysis Satisfies Old General Education in Category II: Global Cultures and Traditions Instruction Mode: Lecture, Discussion Grading Option: Letter Crosslisted as SWMS-305

ANTH 316gmp Native Americans in American Public Life
Units: 4 Terms Offered: Sp Role of Native Americans in American public life from colonial times to the present; Native American societies and governments and their relations to the U.S. Satisfies New General Education in Category C: Social Analysis Satisfies Global Perspective in Category H: Traditions and Historical Foundations Satisfies Old General Education in Category II: Global Cultures and Traditions Instruction Mode: Lecture, Discussion Grading Option: Letter Crosslisted as HIST 317gmp

ANTH 317 Imaging Indians: From Warriors to Windtalkers
Units: 4 Terms Offered: Fa An historical and anthropological overview of 500 years of the presentation of differing and, often, contradictory perceptions of Native American life and character in popular and academic media. Instruction Mode: Lecture Grading Option: Letter

ANTH 318 Ethics and Global Heritage
Units: 4 (Enroll in REL 304)

ANTH 320 Male and Female in Pacific Society
Units: 4 Terms Offered: Sp Cultural variations in gender systems and historical changes due to colonialism and development in Polynesia, Melanesia, Indonesia, and other Pacific Rim cultures. Instruction Mode: Lecture Grading Option: Letter

ANTH 322 Anthropology of Bali
Units: 4 Terms Offered: Sp An introduction to the methodology of social anthropology, focusing on the culture of the Indonesian island of Bali. Instruction Mode: Lecture Grading Option: Letter

ANTH 323 Southeast Asian Cultures Today: Globalization and Multiple Modernities
Units: 4 The cultural and social diversity of Southeast Asia today, focusing on globalization, modernity, and change. Instruction Mode: Lecture Grading Option: Letter

ANTH 324 Contemporary China: Cultural Politics and Social Realities
Units: 4 Everyday life, politics, social transformations, and cultural practices in the People's Republic of China, from cultural studies and social science perspectives. Instruction Mode: Lecture Grading Option: Letter Crosslisted as EALC 324

ANTH 325 Global Studies Research Methods
Units: 4 Terms Offered: Fa Methods for field research in international settings include ethnography, archival work, surveying and documentation; preparation for overseas research and senior thesis. Recommended Preparation: ANTH 205. Instruction Mode: Lecture Grading Option: Letter

ANTH 326 European Cultures and Societies
Units: 4 Terms Offered: FaSpSm Europe as a geographic area in terms of its linguistic, ethnic and cultural diversity, explored especially through the study of folk traditions. Instruction Mode: Lecture Grading Option: Letter

ANTH 327 Anthropology of the Middle East and Islam
Units: 4 Terms Offered: Sp Explores written and visual ethnohistory for study of Middle East community, sociopolitical forms and religious life. Examines scriptural and living Islam and dynamics of contemporary Islamic revival. Instruction Mode: Lecture Grading Option: Letter

ANTH 328m Culture Change and the Mexican People
Units: 4 Terms Offered: Irregular Culture change theories and methods (archaeology, community studies, participant-observation) used to examine the varied experiences of peoples in Mexico and the U.S. Southwest. Instruction Mode: Lecture Grading Option: Letter

ANTH 329 Archaeology and Global Cultural Heritage
Units: 4 Exploration of the role archaeology plays in the creation of modern national, ethnic, racial and other types of identities worldwide. Instruction Mode: Lecture Grading Option: Letter

ANTH 330m Culture, Gender and Politics in South Asia
Units: 4 Terms Offered: Fa Examination of violence, identity, law, religion, nationalism, development, caste, kinship, gender, and the South Asian diaspora. Instruction Mode: Lecture Grading Option: Letter Crosslisted as SWMS-330

ANTH 332g Anthropology and Narrative Medicine
Units: 4 Terms Offered: Fa Exploration of
illness, disability, and healing narratives, how narratives are culturally shaped, and their significance for western biomedical practices. Satisfies New General Education in Category C: Social Analysis Instruction Mode: Lecture, Discussion Grading Option: Letter

ANTH 335g Forms of Folklore
Units: 4 Terms Offered: Fa Sp Political
Introduction to folklore as a discipline, including folklore research methods and theory. Core course for the minor in Folklore and Popular Culture. Satisfies New General Education in Category C: Social Analysis Instruction Mode: Lecture, Discussion Grading Option: Letter

ANTH 335 Comparative Muslim Societies
Units: 4 Terms Offered: Irregular Examines issues of nationality, religion, and culture among Muslim peoples in the Middle East, Africa, East Asia, and the Soviet Union from an anthropological perspective. Instruction Mode: Lecture Grading Option: Letter

ANTH 336 Health, Gender and Ethnicity
Units: 4 Terms Offered: Sp (Enroll in SWMS 336)

ANTH 337 Anthropology of Warfare
Units: 4 Examination of the origins of warfare, its evolution and the changes it brought to human civilization. Recommended Preparation: ANTH 202, ANTH 304. Instruction Mode: Lecture Grading Option: Letter

ANTH 338g Food in Culture and Society
Units: 4 Terms Offered: FaSp An introduction to the field of food studies, as a historical and cross-disciplinary study of the place of food in culture and society. Satisfies New General Education in Category C: Social Analysis Instruction Mode: Lecture Grading Option: Letter

ANTH 340 Anthropology In and Of the Museum
Units: 4 Terms Offered: FaSp Examines museums as objects of anthropological analysis. History and theory of museums as institutions that shape heritage and identity. Recommended Preparation: Introduction to Socio-Cultural Anthropology Instruction Mode: Lecture Grading Option: Letter

ANTH 344g Living with the Past: Encountering History through Ritual, Experience and Practice
Units: 4 Uses anthropology to explore the gaps between official histories and lived traditions. Ritual, practice and phenomenology in the production and transmission of historic knowledges. Satisfies New General Education in Category C: Social Analysis Instruction Mode: Lecture, Discussion Grading Option: Letter

ANTH 345 Politics, Social Organization, and Law
Units: 4, 2 years Terms Offered: Sp Political and legal systems of primitive societies, social control, and structure. Instruction Mode: Lecture Grading Option: Letter

ANTH 355 Urban Anthropology
Units: 4 Terms Offered: Irregular Exploration of empirical and analytical approaches employed by anthropologists in studying urban phenomena cross-culturally; urban origins, structure, and social processes. Instruction Mode: Lecture Grading Option: Letter

ANTH 357 Cultures of Genocide
Units: 4 Terms Offered: FaSp The comparative analysis of genocide in different cultures and historical moments in order to understand the processes through which genocide has been perpetuated, as well as different cultural responses to it. Prerequisite: ANTH 100 Recommended Preparation: ANTH 200lg. Satisfies New General Education in Category C: Social Analysis Instruction Mode: Lecture Grading Option: Letter

ANTH 360 Symbolic Anthropology
Units: 4 Terms Offered: Fa The role of symbols in the evolution of culture; symbolic aspects of myth, ritual, and social life. Prerequisite: sophomore standing. Instruction Mode: Lecture Grading Option: Letter

ANTH 365 Life History in Anthropological Perspective
Units: 4 Terms Offered: Irregular Examination of one’s life within its sociocultural context; study of family history, autobiography, diary, journal, and film; research and writing of a life history. Instruction Mode: Lecture Grading Option: Letter

ANTH 370 Sex, Love, and Marriage: An Introduction to Kinship
Units: 4 Terms Offered: Sp Comparative examination of family and kinship in tribal, peasant, and complex societies, emphasizing non-Western cultures, societal and normative consequences of forms and functions in family. Instruction Mode: Lecture Grading Option: Letter Crosslisted as SWMS 370

ANTH 371gm Cross-Cultural Research on Urban Gangs
Units: 4 Terms Offered: FaSpSm Youth gang dynamics and their effects on institutions. Comparative analysis of Asian, African, and Mexican American gangs. Satisfies New General Education in Category C: Social Analysis Instruction Mode: Lecture, Discussion Grading Option: Letter

ANTH 372 Interpretation of Myth and Narrative
Units: 4 Terms Offered: Fa Oral narratives from non-Western cultures; communications about deeply-held beliefs, psychological tensions, social problems, and the structure of the mind. Instruction Mode: Lecture Grading Option: Letter

ANTH 373 Magic, Witchcraft and Healing
Units: 4 Analysis of the practices of witches and witch doctors, priests, diviners and traditional healers in Western and non-Western societies, relating their practices to religion and medicine. Instruction Mode: Lecture Grading Option: Letter

ANTH 375 Anthropology for Consulting and Design
Units: 4 Terms Offered: FaSpSm Practical training in qualitative research methods for design consulting and real-world problem solving in development, government, and corporate contexts. Socially-engaged ethnography; anthropology as cultural critique. Recommended Preparation: Previous course work in Anthropology Instruction Mode: Lecture Grading Option: Letter

ANTH 376 Scientific Analysis in Archaeology
Units: 4 Examination of the range of scientific techniques and technologies used for the analysis and interpretation of material culture recovered during archaeological excavations. Recommended Preparation: ANTH 202g Instruction Mode: Lecture Grading Option: Letter Crosslisted as ARC 376

ANTH 377g Archaeological Interpretation of Complex Societies
Units: 4 Archaeologists translate raw data sets into broader understanding through interpretation. Students engage specific examples and develop their own perspectives on past societies. (Block semester) Recommended Preparation: ANTH 202g Satisfies New General Education in Category C: Social Analysis Instruction Mode: Lecture Grading Option: Letter Crosslisted as ARC 377

ANTH 380 Sex and Gender in Anthropological Perspective
Units: 4 Cultural construction of gender in a number of non-Western societies is compared to ideas of sex and sexual differences in American society. Instruction Mode: Lecture Grading Option: Letter Crosslisted as SWMS-380

ANTH 385m Men and Masculinity
Units: 4 (Enroll in SWMS 385m)

ANTH 390 Special Problems
Units: 1, 2, 3, 4 Terms Offered: Irregular Supervised, individual studies. No more than one registration permitted. Enrollment by petition only. Instruction Mode: Lecture Grading Option: Letter

ANTH 393 Directed Internship
Units: 2, 3, 4, 5, 6, 7, 8 Max Units: 08 Terms Offered: FaSp (Enroll in MDES 401) Real-world work experience in an internship position, while also learning to apply anthropological theory and research methods to complete a related research project. Enrollment requires permission from department. Recommended Preparation: ANTH 200 or 300-level course with a grade of B or higher Registration Restriction: Only open to juniors, seniors, and graduate anthropology and related majors Instruction Mode: Lecture Grading Option: Letter

ANTH 395m African American Humor and Culture
Units: 4 (Enroll in AMST 395m)

ANTH 400 Maya Resilience: Constructing Past and Present Identities
Units: 4 Terms Offered: Irregular Examination of how the Maya, past and present, have forged their cultural identity. Issues are explored through visits to sites and communities. Recommended Preparation: ANTH 202g, ANTH 310, ANTH 314g or another anthropologically based archaeology course Instruction Mode: Lecture Grading Option: Letter Crosslisted as ARCG 400

ANTH 401 Environment and Politics in the Middle East
Units: 4 Terms Offered: FaSp (Enroll in MDES 401)

ANTH 405 Evolutionary Medicine
Units: 4 Terms Offered: Fa (Enroll in HBIO 405)
ANTH 406 Theory and Method in Human Evolutionary Biology  
Units: 4  Terms Offered: FaSpSm (Enroll in HBIO 408)  

ANTH 407 Peasant Society  
Units: 4  Terms Offered: Sp Comparative study of the social, economic, political, and religious characteristics of peasant societies as they have existed and continue to exist in Asia, Africa, and Latin America.  
Instruction Mode: Lecture Grading Option: Letter  

ANTH 409 Indigenous Languages in the Contemporary World  
Units: 4  Terms Offered: Sm Examination of indigenous languages in Northern Ireland, with a focus on the sociopolitical dimension of revitalization movement.  
Instruction Mode: Lecture Grading Option: Letter  

ANTH 410a Ethnographic Field Methods and Practicum  
Units: 4  Terms Offered: FaSp Survey of anthropological methods for acquiring and analyzing data. Ethnographic research methods and modes of analysis; development of a field research project.  
Prerequisite: ANTH 201.  
Instruction Mode: Lecture Grading Option: Letter  

ANTH 410b Ethnographic Field Methods and Practicum  
Units: 4  Terms Offered: FaSp Survey of anthropological methods for acquiring and analyzing data. Implementation of the field project.  
Prerequisite: ANTH 201.  
Instruction Mode: Lecture Grading Option: Letter  

ANTH 415 Global Studies Senior Seminar  
Units: 4  Terms Offered: Fa Preliminary analysis for research data for overseas research to compare results, discuss writing strategies and gain comparative perspective to prepare a senior thesis.  
Recommended Preparation: ANTH 205, ANTH 325.  
Instruction Mode: Lecture Grading Option: Letter  

ANTH 425 Peoples and Cultures of Latin America  
Units: 4  Terms Offered: Irregular Cultures of the indigenous peoples of South America; results of Spanish conquest and colonialism on present folk societies and their cultures.  
Instruction Mode: Lecture Grading Option: Letter  

ANTH 435 Ethnic Identity and Minority Politics in China  
Units: 4  Modern history and contemporary conditions of ethnic groups in the People's Republic of China, with a focus on the politics of race, belonging and border regions.  
Instruction Mode: Lecture Grading Option: Letter Crosslisted as EALC 435  

ANTH 440 History of Anthropological Theory  
Units: 4  Terms Offered: Sp Ideas about man, culture, and society which have formed the field of anthropology as a research discipline; present trends and problems.  
Instruction Mode: Lecture Grading Option: Letter  

ANTH 441w Cities of the Middle East  
Units: 4  (Enroll in MDES 441w)  

ANTH 445 African American Anthropology  
Units: 4  Terms Offered: FaSp An examination of anthropological research on race and African American culture, from the 18th century to the present.  
Recommended Preparation: AMST 385, ANTH 263.  
Instruction Mode: Lecture Grading Option: Letter Crosslisted as AMST-445  

ANTH 450 Field Research in Maya Archaeology  
Units: 4  Terms Offered: Sm Hands on research experience at a Maya ruin, including archaeological survey and excavation in the jungle.  
Prerequisite: ANTH 202g or ANTH 310 or ANTH 314g  
Corequisite: ANTH 400 Instruction Mode: Lecture Grading Option: Letter Crosslisted as ARCG 450  

ANTH 460 Economic Anthropology  
Units: 4  Terms Offered: Irregular Comparative study of human systems of valuation and exchange. Topics include labor and work; manufacturing, trade and infrastructure; monetization and commodification.  
Instruction Mode: Lecture Grading Option: Letter  

ANTH 465 Archaeology and Society  
Units: 4  Terms Offered: FaSpSm (Enroll in CLASS 465)  

ANTH 470 Multidisciplinary Seminar in Visual Anthropology  
Units: 2 or 4  Terms Offered: Irregular Application of broad cast journalism, cinema, and anthropology to ethnographic film making.  
Instruction Mode: Lecture Grading Option: Letter  

ANTH 472 Visual Techniques in Anthropology: Still  
Units: 4  Terms Offered: Fa Visual techniques for data collection and analysis in anthropological research. Visual anthropology research using 35 mm, photography skills, fieldwork procedures, data analysis, and presentation formats.  
Instruction Mode: Lecture Grading Option: Letter  

ANTH 474 Posthuman Anthropology  
Units: 4  Terms Offered: Sp Examines how posthumanism is reshaping our understanding of humankind, including the ways in which "vernacular posthumanisms" are increasingly enacted in our everyday lives.  
Recommended Preparation: Introduction to the history of anthropological research or Philosophy  
Instruction Mode: Lecture Grading Option: Letter  

ANTH 475 Ethnographic Film Analysis  
Units: 4  Terms Offered: Irregular Analysis of film as a tool for investigating primitive and modern cultures and societies.  
Instruction Mode: Lecture Grading Option: Letter  

ANTH 476 Ethnographic Film Theory from a Historical Perspective  
Units: 4  Technologies and uses of, theoretical frameworks for, and the presentation styles of ethnographic materials are examined from an historical perspective.  
Instruction Mode: Lecture Grading Option: Letter  

ANTH 480 Heritage and Power  
Units: 4  Capstone seminar critically explores the idea of heritage and how discourses of race, ethnicity and culture elide with what is referred to as "heritage."  
Registration Restriction: Open only to seniors  
Instruction Mode: Lecture Grading Option: Letter  

ANTH 481l GIS for Investigating the Past  
Units: 4  Training of archaeology students in the use of GIS through the understanding of basic principles and theoretical restrictions of geospatial sciences.  
Recommended Preparation: ANTH 202g, SSCI 382L  
Instruction Mode: Lecture, Lab Required  
Grading Option: Letter Crosslisted as ARCG 481  

ANTH 485 Global Studies Senior Thesis Seminar  
Units: 4  Terms Offered: Sp Provides senior Global Studies majors with the practical and theoretical skills needed to write a successful undergraduate thesis in Global Studies.  
Prerequisite: ANTH 325 and ANTH 415 and ANTH 205 Registration  
Restriction: Open only to graduating seniors majoring in Global Studies  
Instruction Mode: Lecture Grading Option: Letter  

ANTH 490 Directed Research  
Units: 1, 2, 3, 4, 5, 6, 7, 8  Max Units: 12.0  
Terms Offered: FaSpSm Individual research and readings.  
Instruction Mode: Lecture Grading Option: Letter  

ANTH 491 Directed Research for Honors  
Units: 4  Terms Offered: Irregular Individually guided research and readings culminating in the production of an honors thesis.  
Prerequisite: 3.0 GPA; ANTH 201 plus 8 units of upper-division anthropology courses.  
Instruction Mode: Lecture Grading Option: Letter  

ANTH 499 Special Topics  
Units: 2, 3, 4  Max Units: 8.0  
Terms Offered: Irregular Current literature: social change, comparative institutions, organizational ideology.  
Instruction Mode: Lecture Grading Option: Letter  

ANTH 501 History and Foundations of Anthropology  
Units: 4  Terms Offered: Fa A brief critical introduction to the history of anthropological thought over the course of the discipline's long twentieth century, from the 1880s to the present.  
Registration Restriction: Open only to graduate students  
Instruction Mode: Lecture Grading Option: Letter  

ANTH 502 Contemporary Theory in Anthropology  
Units: 4  Terms Offered: Sp Explores the emergence and transformation of modern anthropology as an empirically based, but theoretically informed, practice of knowledge production about human sociality and culture.  
Registration Restriction: Open only to graduate students  
Instruction Mode: Lecture Grading Option: Letter  

ANTH 503 Regional Ethnography  
Units: 4  Terms Offered: Sp An intensive analysis of the anthropology of a major culture area.  
Instruction Mode: Lecture Grading Option: Letter  

ANTH 506 Primate Behavior and Sociobiology  
Units: 4  Advanced course on the behavior, ecology and socio - biology of living primates. Takes a Darwinian approach to behaviors such as parenting, mating, diet and feeding, competition, and demography.  
Instruction Mode: Lecture Grading Option: Letter  

COURSES OF INSTRUCTION 821
ANTH 509 Key Topics in Linguistic Anthropology
Units: 4 Terms Offered: FaSp Introduction to key topics in linguistic anthropology with special focus on interrelations between language, identity, culture, gender, and power in the U.S. and beyond. Instruction Mode: Lecture Grading Option: Letter Crosslisted as AMST-509

ANTH 510 Urban Anthropology
Units: 4 Terms Offered: Fa Intensive ethnographic analysis of specialized urban niches, microsettings, ethnicity, community studies. Instruction Mode: Lecture Grading Option: Letter

ANTH 554 Women in Global Perspective
Units: 4 (Enroll in SWMS 554)

ANTH 562 The Practice of Ethnography
Units: 4 Terms Offered: Sp Major approaches to ethnographic fieldwork are explored in classic cases. Instruction Mode: Lecture Grading Option: Letter Crosslisted as AMST-562

ANTH 575 Seminar in Ethnographic Film
Units: 4 Terms Offered: Fa A survey of ethnographic film using both the dimensions of natural history descriptions and process, contrasted with naturalism and structuralism as tools of controlled comparison and analysis. Instruction Mode: Lecture Grading Option: Letter

ANTH 576L Anthological Media Seminar
Units: 4 Max Units: 8.0 A hands-on laboratory-based survey of post-production techniques in video and audio production, including exercises to prepare students to shoot their own documentaries. Recommended Preparation: visual anthropology background. Instruction Mode: Lecture Lab Required Grading Option: Letter

ANTH 577L Advanced Anthological Media Seminar
Units: 4 Max Units: 8.0 A hands-on laboratory-based survey of post-production technologies, including editing both new and older footage. Students should be finishing their own documentaries. Prerequisite: ANTH 576. Instruction Mode: Lecture, Lab Required Grading Option: Letter

ANTH 590 Directed Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Terms Offered: FaSpSm Research leading to the master's degree. Maximum units which may be applied to the degree to be determined by the department. Graded CR/NC. Instruction Mode: Lecture Grading Option: Credit/No Credit

ANTH 593 Practicum for Teaching in the Liberal Arts
Units: 2 Terms Offered: Fa Sp Practical principles for the long-term development of effective teaching within college disciplines. Intended for teaching assistants in Dornsife College. Registration Restriction: Open only to doctoral students in Anthropology. Instruction Mode: Lecture Grading Option: Letter

ANTH 594a Master's Thesis
Units: 2 Terms Offered: FaSpSm Credit on acceptance of thesis. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

ANTH 594b Master's Thesis
Units: 2 Terms Offered: FaSpSm Credit on acceptance of thesis. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

ANTH 594c Master's Thesis
Units: 2 Terms Offered: FaSpSm Credit on acceptance of thesis. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

ANTH 594d Master's Thesis
Units: 2 Terms Offered: FaSpSm Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

ANTH 595 Ethnographic Postproduction
Units: 4 Provides supervision in developing a visual media thesis project and understanding the requirements - scholarly and technical - for producing a publication-ready work of scholarly media. Recommended Preparation: ANTH 576L. Instruction Mode: Lecture Grading Option: Credit/No Credit

ANTH 599 Special Topics
Units: 2, 3, 4 Max Units: 8.0 Terms Offered: Fa Instruction Mode: Lecture Grading Option: Letter

ANTH 601 Feminist Issues in Anthropology
Units: 4 Terms Offered: FaSpSm Feminist concerns in both Western and Non-Western societies are examined in relation to globalization; the practice of ethnography and issues of power. Instruction Mode: Lecture Grading Option: Letter

ANTH 602 The Anthropology of Popular Culture
Units: 4 Terms Offered: FaSpSm The relationship between anthropology and popular culture is explored through a critical examination of the category "popular culture." Registration Restriction: Open only to graduate students. Instruction Mode: Lecture Grading Option: Letter

ANTH 603 Experiments in Ethnographic Writing
Units: 4 Terms Offered: FaSpSm The problems of representation involved in rendering experience into narrative are examined in a number of contemporary "experiments." Instruction Mode: Lecture Grading Option: Letter

ANTH 604 Bodies and Practices
Units: 4 Terms Offered: FaSpSm The cultural construction of body image, embodied practice, race, sexuality and healing. Instruction Mode: Lecture Grading Option: Letter

ANTH 605 Race: Performance, Politics, Cultural Production
Units: 4 Terms Offered: FaSpSm Focuses on the performance and social construction of race and its intersection with gender, sexuality, class, place, nation and empire. Instruction Mode: Lecture Grading Option: Letter

ANTH 606 Seminar on Nationalism and Ethnicity
Units: 4 Cross-cultural analysis of nationalism and ethnicity from an ethnographic perspective. Instruction Mode: Lecture Grading Option: Letter

ANTH 650 Seminar in Ethnography and Interpretation
Units: 4 A seminar where issues in contemporary ethnography and interpretation are discussed, grouped around a theme of current concern, such as power and resistance, colonialism, Marxist approaches, feminism, etc. Prerequisite: ANTH 501. Instruction Mode: Lecture Grading Option: Letter

ANTH 790 Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Terms Offered: FaSpSm Research leading to the doctorate. Minimum 8 units, maximum number of units which may be applied to the degree to be determined by the department. Instruction Mode: Lecture Grading Option: Credit/No Credit

ANTH 794a Doctoral Dissertation
Units: 2 Terms Offered: FaSpSm Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

ANTH 794b Doctoral Dissertation
Units: 2 Terms Offered: FaSpSm Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

ANTH 794c Doctoral Dissertation
Units: 2 Terms Offered: FaSpSm Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

ANTH 794d Doctoral Dissertation
Units: 2 Terms Offered: FaSpSm Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

ANTH 794e Doctoral Dissertation
Units: 0 Terms Offered: FaSpSm Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

Arabic

ARAB 122 Arabic I
Units: 4 Terms Offered: FaSpSm Introduction to Modern Standard Arabic: Development of speaking, listening, reading, and writing skills in contemporary cultural contexts. Duplicates Credit in former MDES 122. Instruction Mode: Lecture Grading Option: Letter

ARAB 152 Arabic II
Units: 4 Terms Offered: FaSpContinuation of Arabic I. Prerequisite: ARAB 122. Duplicates Credit in former MDES 152. Instruction Mode: Lecture Grading Option: Letter

ARAB 222 Arabic III
Units: 4 Terms Offered: FaSpIntermediate Modern Standard Arabic. Continued development of speaking, listening, reading, and writing skills. Prerequisite: ARAB 152. Duplicates Credit in former MDES 222. Instruction Mode: Lecture Grading Option: Letter

ARAB 252 Arabic IV
Units: 4 Terms Offered: FaSpContinuation of Arabic III. Continued development of speaking, listening, reading, and writing skills in Modern Standard Arabic. Prerequisite: ARAB 222. Duplicates Credit in former MDES 252. Instruction Mode: Lecture Grading Option: Letter

ARAB 300 Introduction to Translation
Units: 4 Introduces students to the fundamentals of Arabic-English translation and offers analytical, linguistic and cross-cultural factors affecting interpreting and translation. Prerequisite: ARAB 222. Instruction Mode: Lecture Grading Option: Letter Crosslisted as LING 300
ARAB 322 Advanced Arabic I
Units: 4 Advanced expression in written and spoken Arabic, including reading of original texts, understanding different registers, and exposure to modern Arabic cultures. Prerequisite: ARAB 252. Duplicates Credit in former MDES 322. Instruction Mode: Lecture Grading Option: Letter

ARAB 333 Colloquial Arabic: Regional Dialects
Units: 4 Max Units: 8 Introduction to a regional Arabic dialect, focusing primarily on verbal skills. Prerequisite: ARAB 222. Duplicates Credit in former MDES 333. Instruction Mode: Lecture Grading Option: Letter

ARAB 334 Media Arabic
Units: 4 Terms Offered: FaSp Introduction and development of language skills encountered in print and broadcast media Arabic. Prerequisite: ARAB 222. Duplicates Credit in former MDES 334. Instruction Mode: Lecture Grading Option: Letter

ARAB 352 Advanced Arabic II
Units: 4 Terms Offered: FaSp Continuation of Advanced Arabic I. Prerequisite: ARAB 322. Duplicates Credit in former MDES 352. Instruction Mode: Lecture Grading Option: Letter

Archaeology

ARCG 202g Archaeology: Our Human Past
Units: 4 Terms Offered: FaSp (Enroll in ANTH 202)

ARCG 298aL Introduction to Scientific Diving
Units: 2 Terms Offered: Sp (Enroll in ENST 298a)

ARCG 298bL Introduction to Scientific Diving
Units: 2 Terms Offered: Sp (Enroll in ENST 298b)

ARCG 304 Ethics and Global Heritage
Units: 4 (Enroll in REL 304)

ARCG 305L Virtual and Digital Culture, Heritage and Archaeology
Units: 2, 4 Max Units: 04 Terms Offered: FaSpSm In-depth exploration of 3D digital, immersive, virtual or extended reality visualizations of cultural heritage, archaeology, historical sites and artifacts, including their legal and ethical dimensions. Recommended Preparation: ANTH 202g Instruction Mode: Lecture, Lab Required Grading Option: Letter Crosslisted as ANTH 309, REL 305

ARCG 306L Maritime Archaeology Survey and Technology
Units: 4 Introduction to the use of remote sensing technologies for underwater archaeology, mapping and research on submerged cultural heritage remains whether ancient sites or sunken ships. Recommended Preparation: ANTH 202g Instruction Mode: Lecture, Lab Required Grading Option: Letter

ARCG 307 Trojan Archaeology: Excavating USC
Units: 4 (Enroll in ANTH 307)

ARCG 308 Techniques and Issues in 3D Imaging and Modeling
Units: 2 In-depth exploration of applications, techniques and standards involved in stereoscopic imaging and photogrammetric modeling. Instruction Mode: Lecture, Lab Grading Option: Letter

ARCG 310 Archaeology of the Americas
Units: 4 Terms Offered: Irregular (Enroll in ANTH 310)

ARCG 321 Greek Art and Archaeology
Units: 4 Terms Offered: Fa (Enroll in AHIS 321)

ARCG 322 Roman Art and Archaeology
Units: 4 Terms Offered: Fa (Enroll in AHIS 322)

ARCG 323p Roman Archaeology: History, Methods and Field Work
Units: 4 Students learn archaeological methods and practices in the city and environs of Rome. Satisfies Global Perspective in Category H: Traditions and Historical Foundations Duplicates Credit in AHIS 325 Instruction Mode: Lecture Grading Option: Letter

ARCG 370gp Digs and Dispute: Religion and Archaeology in Israel
Units: 4 Terms Offered: FaSp (Enroll in JS 370gp)

ARCG 372 Scientific Analysis in Archaeology
Units: 4 (Enroll in ANTH 372)

ARCG 373 Archaeological Interpretation of Complex Societies
(Enroll in ANTH 373)

ARCG 376 Scientific Analysis in Archaeology
Units: 4 (Enroll in ANTH 376)

ARCG 377 Archaeological Interpretation of Complex Societies
(Enroll in ANTH 377)

ARCG 378 Jewish Magic in the Ancient World
Units: 4 Terms Offered: Sp (Enroll in JS 378)

ARCG 400 Maya Resilience: Constructing Past and Present Identities
Units: 4 Terms Offered: Sm (Enroll in ANTH 400)

ARCG 415 Object-Worlds: Histories and Theories of Things
Units: 4 (Enroll in AHIS 415)

ARCG 465 Archaeology and Society
Units: 3 Terms Offered: Fa (Enroll in CLAS 465)

ARCG 481L GIS for Investigating the Past
Units: 4 (Enroll in ANTH 481)

ARCG 482 Field Research in Maya Archaeology
Max Units: 4 Terms Offered: Sm (Enroll in ANTH 482)

ARCG 490x Directed Research
Units: 1, 2, 3, 4, 5, 6, 7, 8 Max Units: 12 Individual research and readings. Not available for graduate credit. Recommended Preparation: ANTH 202g or ANTH 307 or REL 494 Instruction Mode: Lecture Grading Option: Letter

ARCG 494 Lab Methods and Theories in Archaeology
Units: 4 (Enroll in REL 494)

Architecture

All courses must be taken in sequential order, a before b.

ARCH 102a Architectural Design I
Units: 4 Terms Offered: FaSpSm Introduction to principles and processes; sequence of exercises emphasizing development of basic skills, ideas, and techniques used in the design of simplified architectural projects. Instruction Mode: Lecture, Lab Required Grading Option: Letter

ARCH 102b Architectural Design II
Units: 6 Terms Offered: FaSpSm Continuing development of principles and processes; sequence of projects selected to broaden awareness of design issues at various scales in the urban context. Prerequisite: ARCH 102a. Instruction Mode: Lab Required, Lecture Grading Option: Letter

ARCH 202aL Architectural Design II
Units: 6 Terms Offered: FaSpSm Continuing development of principles and processes; sequence of projects selected to broaden awareness of design issues at various scales in the urban context. Prerequisite: ARCH 202a. Instruction Mode: Lab Required, Lecture Grading Option: Letter

ARCH 203 Visualizing and Experiencing the Built Environment
Units: 4 Methods for direct observation and recording of the directly experienced built environment through drawing, diagramming, photographing, and writing. Course includes exercises and field experience. Instruction Mode: Lecture Grading Option: Letter

ARCH 205aL Building Science I
Units: 4 Terms Offered: FaSp The process and communication of building design: physical building shell, systems for structure, enclosure, and space ordering. Prerequisite: CE 106. Instruction Mode: Lecture, Lab Required Grading Option: Letter

ARCH 205bL Building Science I
Units: 4 Terms Offered: FaSp The process and communication of building design: physical building shell, systems for structure, enclosure, and space ordering. Prerequisite: CE 106. Instruction Mode: Lab Required, Lecture Grading Option: Letter
ARCH 207 Computer Applications in Architecture
Units: 2 Terms Offered: Fa Introduction for the non-programmer to the uses of the computer in architecture, including the application of existing programs and their implications for design. Overview and use of software types. Instruction Mode: Lecture Grading Option: Letter
ARCH 211 Materials and Methods of Building Construction
Units: 3 Terms Offered: Sp Basic considerations and design implications of the problem of determination of the materials and construction details and processes for buildings. Instruction Mode: Lecture Grading Option: Letter
ARCH 213a Building Structures and Seismic Design
Units: 3 Terms Offered: FaSp Investigation and design of elements and systems for building structures; applied mechanics, strength of materials, structural investigation as a design tool. Recommended Preparation: PHYS 125 and MATH 108g. Satisfies New General Education in F Quantitative Reasoning Instruction Mode: Lecture Grading Option: Letter
ARCH 213b Building Structures and Seismic Design
Units: 3 Terms Offered: FaSp Investigation and design of structure systems: their resistance to seismic and wind forces and integration with architectural design for synergy of form and structure. Recommended Preparation: PHYS 125 and MATH 108g. Satisfies New General Education in F Quantitative Reasoning Instruction Mode: Lecture, Lab Grading Option: Letter
ARCH 214ag World History of Architecture
Units: 3 Terms Offered: Sp A world-wide perspective of architectural history as a product of social, cultural, religious, and political dimensions, 4500 BCE to 1500 CE. Satisfies New General Education in Category A: The Arts Instruction Mode: Lecture Grading Option: Letter
ARCH 214bg World History of Architecture
Units: 3 Terms Offered: Fa A world-wide perspective of architectural history as a product of social, cultural, religious, and political dimensions, 1500 CE to present. Satisfies New General Education in Category A: The Arts Instruction Mode: Lecture Grading Option: Letter
ARCH 215 Design for the Thermal and Atmospheric Environment
Units: 3 Terms Offered: Fa Ideas, problems, and computations related to the design of buildings in response to the thermal and atmospheric environment; passive solar systems, mechanical control systems. Instruction Mode: Lecture Grading Option: Letter
ARCH 220 The Architect’s Sketchbook
Units: 2 Terms Offered: FaSp The architect’s sketchbook as a portable laboratory for perceiving and documenting space introduces the study of the built environment. On-site sessions develop drawing, observation, and visualization skills. Instruction Mode: Lecture, Lab Grading Option: Letter
ARCH 302aL Architectural Design III
Units: 6 Terms Offered: FaSp Special integrative year including design issues relating to housing. Prerequisite: ARCH 202bL. Instruction Mode: Lab Required, Lecture Grading Option: Letter
ARCH 302bL Architectural Design III
Units: 6 Terms Offered: FaSp Special integrative year including design issues relating to housing. Prerequisite: ARCH 202bL. Instruction Mode: Lab Required, Lecture Grading Option: Letter
ARCH 303 Principles of Spatial Design I
Units: 4 Introduction to design principles and processes; sequence of exercises emphasizing development of basic skills, ideas, and techniques used in the creation of simplified urban space design projects. Prerequisite: ARCH 203. Instruction Mode: Lecture Grading Option: Letter
ARCH 304x Intensive Survey: Prehistory to the Present
Units: 4 Terms Offered: Fa An intensive historical overview of architecture from prehistory to the present, emphasizing interrelationships of various global cultures and how social conditions were translated into form. Instruction Mode: Lecture Grading Option: Letter
ARCH 305aL Building Science II
Units: 3 Exploration of digital tools with an emphasis on building information modeling (BIM), parametric modeling, and interoperability including special topics in Architecture/ Engineering/ Construction (AEC) and sustainable design. Recommended Preparation: basic computer skills. Instruction Mode: Lecture Grading Option: Letter
ARCH 305bL Building Science II
Units: 3 Terms Offered: FaSp The design of a building as a complex of interacting systems; relations of subsystems; influences of production and marketing on design. Prerequisite: ARCH 205aL, ARCH 205bL. Instruction Mode: Lecture, Lab Required, Lecture Grading Option: Letter
ARCH 306m Shelter
Units: 4 Terms Offered: Sp Investigation of issues, processes, and roles of individuals, groups and communities in relation to present and future shelter needs and aspirations. Instruction Mode: Lecture Grading Option: Letter
ARCH 307 Digital Tools for Architecture
Units: 3 Exploration of digital tools with an emphasis on building information modeling (BIM), parametric modeling, and interoperability including special topics in Architecture/ Engineering/ Construction (AEC) and sustainable design. Recommended Preparation: basic computer skills. Instruction Mode: Lecture Grading Option: Letter
ARCH 313 Design of Building Structures
Units: 3 Terms Offered: Fa Problems and processes of design of building structures; structural investigation for design; codes and standards; design of elements and systems of wood, steel, masonry, and concrete for gravity and lateral loads. Prerequisite: ARCH 213a. Instruction Mode: Lecture Grading Option: Letter
ARCH 314 History of Architecture: Contemporary Issues
Units: 3 Terms Offered: Fa Examination of the buildings, issues and images, the polemics and personalities that are animating current architectural discourse and practice. Prerequisite: ARCH 214bg. Instruction Mode: Lecture Grading Option: Letter
ARCH 315 Design for the Luminous and Sonic Environment
Units: 3 Terms Offered: Sp Ideas, problems, and computations related to the design of buildings in response to the luminous and sonic environment. Instruction Mode: Lecture Grading Option: Letter
ARCH 316 Place and Culture
Units: 3 Terms Offered: FaSpSm (Study abroad programs only) Study of the relationships between places and culture through readings, lectures, discussion and weekly field trips. Instruction Mode: Lecture Grading Option: Letter
ARCH 326 The Modern Movement in Architecture
Units: 4 Terms Offered: Sp Major theories of modern architecture are presented by studying the work of masters such as: Gropius, Mies van der Rohe, Corbusier, and Kahn. Instruction Mode: Lecture Grading Option: Letter
ARCH 341 History of Italian Architecture 1400–1990
Units: 4 Terms Offered: Sp Introduction to the important buildings, architects and architectural movements in Italy from the Renaissance to the present. Instruction Mode: Lecture Grading Option: Letter
ARCH 370 Architectural Studies — Expanding the Field
Units: 2 Survey of opportunities, specializations, and professions related to architecture provides a resource for professional growth for architecture majors, and introduction to the field for non-majors. Instruction Mode: Lecture Grading Option: Letter
ARCH 390 Special Problems
Units: 1, 2, 3, 4 Terms Offered: FaSp Supervised, individual studies. No more than one registration permitted. Enrollment by petition only. Instruction Mode: Lecture Grading Option: Letter
ARCH 402aL Architectural Design IV
Units: 6 Terms Offered: FaSpSm Selected areas of specialization; three projects chosen with advisement from various studio offerings that concentrate on different areas of vital concern. Prerequisite: ARCH 302bL. Instruction Mode: Lab Required, Lecture Grading Option: Letter
ARCH 402bL Architectural Design IV
Units: 6 Terms Offered: FaSpSm Selected areas of specialization; three projects chosen with advisement from a variety of studio offerings that concentrate on different areas of vital concern. Prerequisite: ARCH 302bL. Instruction Mode: Lab Required, Lecture Grading Option: Letter
ARCH 403 Principles of Spatial Design II
Units: 4 Emphasis on developing advanced urban spatial design solutions set within contemporary urban conditions, with a particular emphasis on ecological public space, neighborhoods and districts. Prerequisite: ARCH 303. Instruction Mode: Lecture Grading Option: Letter
ARCH 404 Topics in Modern Architecture in Southern California
Units: 3 Terms Offered: Sp Investigation of modern architecture in southern California
ARCH 405L Building Science III
Units: 4 Terms Offered: FaSpSm. Analysis of building systems as an experimental process. Prerequisite: ARCH 305L.

ARCH 408 Designing with Natural Forces
Units: 3 Terms Offered: Sp. Investigation of natural force effects and their relationships to architecture; laboratory work includes drawing, photography, model building and tests on models. Instruction Mode: Lecture Grading Option: Letter

ARCH 409 Architectural Sustainability Tools and Methods
Units: 3 Terms Offered: Sp. Lectures, comparative studies and exercises on international architectural sustainability rating and certification systems. Instruction Mode: Lecture Grading Option: Letter

ARCH 410 Computer Transformations
Unites: 2 Terms Offered: FaSpSm. To explore the potential of computer-integrated design software; to develop techniques for critical analysis of architectural precedents; to expand the ability to visualize options; to expand perception; and to learn the basics of computer-integrated design. Instruction Mode: Lecture Grading Option: Letter

ARCH 411 Architectural Technology
Units: 3 Terms Offered: Sp. Architectural design considered as a technological problem; influence of technology on design; buildings as integrated sets of subsystems. Prerequisite: ARCH 313. Instruction Mode: Lecture Grading Option: Letter

ARCH 412 Architectural Sustainability
Units: 3 Terms Offered: FaSpSm. Study of building systems as an experimental process. Prerequisite: ARCH 305L.

ARCH 417 Computer Programming in Architecture
Units: 3 Terms Offered: FaPrinciples underlying computer programming, emphasizing algorithms, procedures, and program structures applicable to architecture. Instruction Mode: Lecture Grading Option: Letter

ARCH 418 Visual Communication and Graphic Expression
Units: 3 Terms Offered: Fa. An exploratory study of fundamental and innovative visual communication principles and graphic expression techniques to facilitate the design enquiry process for architects. Registration Restriction: Not open to Freshman and Sophomore students. Instruction Mode: Lecture, Lab Grading Option: Letter

ARCH 419 Architectural Sustainability Tools and Methods
Units: 3 Terms Offered: Sp. Lectures, comparative studies and exercises on international architectural sustainability rating and certification systems. Instruction Mode: Lecture Grading Option: Letter

ARCH 420 Digital Architectural Photography
Units: 2 Terms Offered: FaSp. Perceiving and documenting the built environment through the perspective and frame of the digital camera. Mastering the basic principles of the digital image through an understanding of frame, light, exposure, color correction, and printing output. Instruction Mode: Lecture Grading Option: Letter

ARCH 422L Architectural Photography — Film and Digital
Units: 3 Terms Offered: FaSp. See how light alters the visual impact of architectural forms; master architectural images both with film and digital; become a professional image developer/processor utilizing photographic software. Instruction Mode: Lecture. Lab Required Grading Option: Letter

ARCH 423 Light, Color and the Character of Material
Units: 2 Terms Offered: Sp. Color theory, constructed drawings, constructed shadows, descriptive geometry, constructed perspective drawing, and layered wash techniques lead to experimentation with methods representing materiality and construction in design projects. Registration Restriction: Not open to Freshman and Sophomore students. Instruction Mode: Lecture Grading Option: Letter

ARCH 424L Field Studies in Architecture
Units: 2 Terms Offered: FaSpSm (Study abroad programs only.) Field studies using direct observation, site recordings/ documentation, analysis and evaluation supplemented by discussions and readings in architecture. Prerequisite: Departmental approval. Recommended Preparation: core curriculum. Instruction Mode: Lecture, Lab Required Grading Option: Letter

ARCH 425L Field Studies in Urbanism
Units: 2 Terms Offered: FaSpSm (Study abroad programs only.) Field studies using direct observation, site recordings/ documentation, analysis and evaluation supplemented by discussions and readings in urbanism. Prerequisite: Departmental approval. Recommended Preparation: core curriculum. Instruction Mode: Lecture, Lab Required Grading Option: Letter

ARCH 430 Design Teaching Methods
Units: 2 The teaching of architectural design is introduced through readings, seminar discussions, and the observation of teaching in action. In addition to a one hour per week seminar, each student will participate in a design practicum. Prerequisite: ARCH 302L. Instruction Mode: Lecture Grading Option: Letter

ARCH 431 Media, Places and Culture
Units: 4 Terms Offered: Sp. Critical observation of the architecture of public buildings and places and the importance of design in promoting a better contemporary public life. Instruction Mode: Lecture Grading Option: Letter

ARCH 432 Architecture of the Public Realm
Units: 4 Terms Offered: Sp. Critical observation of the architecture of public buildings and places and the importance of design in promoting a better contemporary public life. Instruction Mode: Lecture Grading Option: Letter

ARCH 433 Landscape Architecture
Units: 4 Terms Offered: Sp. Critical observation of the nature of landscape architecture. Topics include: regional ecology, field drawing, measured drawings, computer software (Adobe Creative Suite, Autocad, Rhinoceros, GIS). Registration Restriction: Open only to master students in Landscape Architecture. Instruction Mode: Lecture, Lab Grading Option: Letter

ARCH 434 Literature and the Urban Experience
Units: 4 Terms Offered: Sp. Post-industrial revolution urban environments and dynamic relationships in cities such as Manchester, Paris, St. Petersburg, New York, and Los Angeles, as revealed in novels, architecture, and urban forms. Instruction Mode: Lecture Grading Option: Letter

ARCH 440M Women's Spaces in History: "Hussies," "Harems" and "Housewives"
Units: 4 Terms Offered: Fa. Methods for studying patterns of spatial differentiation of women throughout history from home to city embodied in gender specific language and gendered spaces. Instruction Mode: Lecture Grading Option: Letter

ARCH 444 Great Houses of Los Angeles
Units: 4 Terms Offered: FaSp. An introduction to the architectural philosophies of seven influential California architects through readings and site visits to significant case studies. Duplication Credit: in former ARCH 322. Instruction Mode: Lecture Grading Option: Letter

within its cultural and historic contexts. Instruction Mode: Lecture Grading Option: Letter

ARCH 405L Building Science III
Units: 4 Terms Offered: FaSpSm. Analysis of building systems as an experimental process. Prerequisite: ARCH 305L, ARCH 305BL. Instruction Mode: Lecture, Lab Required Grading Option: Letter

ARCH 408 Designing with Natural Forces
Units: 3 Terms Offered: Fa. Investigation of natural force effects and their relationships to architecture; laboratory work includes drawing, photography, model building and tests on models. Instruction Mode: Lecture Grading Option: Letter

ARCH 409 Architectural Sustainability Tools and Methods
Units: 3 Terms Offered: Sp. Lectures, comparative studies and exercises on international architectural sustainability rating and certification systems. Instruction Mode: Lecture Grading Option: Letter

ARCH 410 Computer Transformations
Unites: 2 Terms Offered: FaSpSm. To explore the potential of computer-integrated design software; to develop techniques for critical analysis of architectural precedents; to expand the ability to visualize options; to expand perception; and to learn the basics of computer-integrated design. Instruction Mode: Lecture Grading Option: Letter

ARCH 411 Architectural Technology
Units: 3 Terms Offered: Sp. Architectural design considered as a technological problem; influence of technology on design; buildings as integrated sets of subsystems. Prerequisite: ARCH 313. Instruction Mode: Lecture Grading Option: Letter

ARCH 412 Architectural Sustainability
Units: 3 Terms Offered: FaSpSm. Study of building systems as an experimental process. Prerequisite: ARCH 305L.

ARCH 417 Computer Programming in Architecture
Units: 3 Terms Offered: FaPrinciples underlying computer programming, emphasizing algorithms, procedures, and program structures applicable to architecture. Instruction Mode: Lecture Grading Option: Letter

ARCH 418 Designing with Natural Forces
Units: 3 Terms Offered: Fa. Investigation of natural force effects and their relationships to architecture; laboratory work includes drawing, photography, model building and tests on models. Instruction Mode: Lecture Grading Option: Letter

ARCH 419 Architectural Sustainability Tools and Methods
Units: 3 Terms Offered: Sp. Lectures, comparative studies and exercises on international architectural sustainability rating and certification systems. Instruction Mode: Lecture Grading Option: Letter

ARCH 420 Visual Communication and Graphic Expression
Units: 3 Terms Offered: Fa. An exploratory study of fundamental and innovative visual communication principles and graphic expression techniques to facilitate the design enquiry process for architects. Registration Restriction: Not open to Freshman and Sophomore students. Instruction Mode: Lecture, Lab Grading Option: Letter

ARCH 421 Digital Architectural Photography
Units: 2 Terms Offered: FaSp. Perceiving and documenting the built environment through the perspective and frame of the digital camera. Mastering the basic principles of the digital image through an understanding of frame, light, exposure, color correction, and printing output. Instruction Mode: Lecture Grading Option: Letter

ARCH 422L Architectural Photography — Film and Digital
Units: 3 Terms Offered: FaSp. See how light alters the visual impact of architectural forms; master architectural images both with film and digital; become a professional image developer/processor utilizing photographic software. Instruction Mode: Lecture. Lab Required Grading Option: Letter

ARCH 423 Light, Color and the Character of Material
Units: 2 Terms Offered: Sp. Color theory, constructed drawings, constructed shadows, descriptive geometry, constructed perspective drawing, and layered wash techniques lead to experimentation with methods representing materiality and construction in design projects. Registration Restriction: Not open to Freshman and Sophomore students. Instruction Mode: Lecture Grading Option: Letter

ARCH 424L Field Studies in Architecture
Units: 2 Terms Offered: FaSpSm (Study abroad programs only.) Field studies using direct observation, site recordings/ documentation, analysis and evaluation supplemented by discussions and readings in architecture. Prerequisite: Departmental approval. Recommended Preparation: core curriculum. Instruction Mode: Lecture, Lab Required Grading Option: Letter

ARCH 425L Field Studies in Urbanism
Units: 2 Terms Offered: FaSpSm (Study abroad programs only.) Field studies using direct observation, site recordings/ documentation, analysis and evaluation supplemented by discussions and readings in urbanism. Prerequisite: Departmental approval. Recommended Preparation: core curriculum. Instruction Mode: Lecture, Lab Required Grading Option: Letter

ARCH 430 Design Teaching Methods
Units: 2 The teaching of architectural design is introduced through readings, seminar discussions, and the observation of teaching in action. In addition to a one hour per week seminar, each student will participate in a design practicum. Prerequisite: ARCH 302L. Instruction Mode: Lecture Grading Option: Letter

ARCH 431 Media, Places and Culture
Units: 4 Terms Offered: Sp. Critical observation of the architecture of public buildings and places and the importance of design in promoting a better contemporary public life. Instruction Mode: Lecture Grading Option: Letter

ARCH 432 Architecture of the Public Realm
Units: 4 Terms Offered: Sp. Critical observation of the architecture of public buildings and places and the importance of design in promoting a better contemporary public life. Instruction Mode: Lecture Grading Option: Letter

ARCH 433 Landscape Architecture
Units: 4 Terms Offered: Sp. Critical observation of the nature of landscape architecture. Topics include: regional ecology, field drawing, measured drawings, computer software (Adobe Creative Suite, Autocad, Rhinoceros, GIS). Registration Restriction: Open only to master students in Landscape Architecture. Instruction Mode: Lecture, Lab Grading Option: Letter

ARCH 434 Literature and the Urban Experience
Units: 4 Terms Offered: Sp. Post-industrial revolution urban environments and dynamic relationships in cities such as Manchester, Paris, St. Petersburg, New York, and Los Angeles, as revealed in novels, architecture, and urban forms. Instruction Mode: Lecture Grading Option: Letter

ARCH 440M Women's Spaces in History: "Hussies," "Harems" and "Housewives"
Units: 4 Terms Offered: Fa. Methods for studying patterns of spatial differentiation of women throughout history from home to city embodied in gender specific language and gendered spaces. Instruction Mode: Lecture Grading Option: Letter

ARCH 444 Great Houses of Los Angeles
Units: 4 Terms Offered: FaSp. An introduction to the architectural philosophies of seven influential California architects through readings and site visits to significant case studies. Duplication Credit: in former ARCH 322. Instruction Mode: Lecture Grading Option: Letter
ARCH 447 Ecological Factors in Design
Units: 3 Lectures, laboratory exercises and field trips introduce basic knowledge of incorporating ecological factors in urban design and interaction of landscape science with the human environment. Duplicates Credit in former ARCH 361 Instruction Mode: Lecture, Lab Grading Option: Letter

ARCH 445 Contemporary Asian Architecture
Units: 4 Terms Offered: Fa Exploration of various "Asian" architectures, comparisons of areas, identifying current trends and impact of Asia on Southern California and Los Angeles. Instruction Mode: Lecture Grading Option: Letter

ARCH 485 The Landscape Imaginary
Units: 4 A cross-cultural introduction to ideas about and attitudes toward nature, landscape and the environment. Instruction Mode: Lecture Grading Option: Letter

ARCH 469 Mixed Use Development Process
Units: 4 Terms Offered: Sp (Enroll in RED 469)

ARCH 470a Architectural Studies Capstone
Units: 1 Introduction to methods of inquiry, research framework, and scholarly writing necessary to develop a comprehensive foundation for the Architectural Studies Capstone (ARCH 470b). Registration Restriction: Open only to seniors in Architectural Studies Duplicates Credit in former ARCH 470 Instruction Mode: Lecture Grading Option: Letter

ARCH 470b Architectural Studies Capstone
Units: 3 Collaborative research project and research paper in an area of concentration. Prerequisite: ARCH 470a Registration Restriction: Open only to seniors in Architectural Studies Duplicates Credit in former ARCH 470 Instruction Mode: Lecture Grading Option: Letter

ARCH 481 Furniture Design
Units: 3 Terms Offered: FaSp An investigation into 20th century furniture design and its relationships to architecture, art and design, Instruction Mode: Lecture, Lab Grading Option: Letter

ARCH 490x Directed Research
Units: 1, 2, 3, 4, 5, 6, 7, 8 Max Units: 12.0 Terms Offered: FaSpSm Individual research and readings. Instruction Mode: Lecture, Lab Grading Option: Letter

ARCH 499 Special Topics
Units: 2, 3, 4 Max Units: 8.0 Terms Offered: FaSpSm Selected topics in various specialty areas of architecture. Instruction Mode: Lecture Grading Option: Letter

ARCH 500a Comprehensive Architectural Design
Units: 2, 6 Terms Offered: Fa Selected areas of specialization: projects chosen from a variety of studio offerings, all with an emphasis on the comprehensive design of buildings. Prerequisite: ARCH 402a and ARCH 402b Corequisite: ARCH 501. Instruction Mode: Lecture, Lab Required Grading Option: Letter

ARCH 500b Comprehensive Architectural Design
Units: 0 Terms Offered: Fa Selected areas of specialization; projects chosen from a variety of studio offerings, all with an emphasis on the comprehensive design of buildings. Prerequisite: 402abL Corequisite: 501. Instruction Mode: Lecture Grading Option: In-progress to Letter Grade

ARCH 501 Critical Topics in Architecture
Units: 2 Terms Offered: Fa Seminar supporting the research, development, and writing of Degree Project Paper provides a comprehensive base of information for the final Bachelor of Architecture studio. Prerequisite: ARCH 402bL. Instruction Mode: Lecture Grading Option: Letter

ARCH 502aL Architectural Design V
Units: 6 Terms Offered: Sp The final architectural project under the guidance of a faculty adviser to demonstrate architectural knowledge, skills, and professional interests and goals. Prerequisite: ARCH 500aL and ARCH 501 Registration Restriction: Open only to Architecture seniors Instruction Mode: Lecture, Lab Required Grading Option: In Progress and Letter

ARCH 502zL Architectural Design V
Units: 0 Terms Offered: Sp The final comprehensive architectural project under the guidance of a faculty adviser to demonstrate architectural knowledge, skills, and professional interests and goals. Instruction Mode: Lecture, Lab Required Grading Option: In-progress & Letter Grade

ARCH 505aL Graduate Architecture Design I
Units: 6 Terms Offered: FaSp A general introduction to architectural principles, intended to develop design and critical thinking skills and proficiency to communicate those ideas effectively. Instruction Mode: Lecture, Lab Required Grading Option: Letter

ARCH 505bL Graduate Architecture Design I
Units: 6 Terms Offered: FaSpA general introduction to architectural principles, intended to develop design and critical thinking skills and proficiency to communicate those ideas effectively. Instruction Mode: Lecture, Lab Required Grading Option: Letter

ARCH 507 Theories of Computer Technology
Units: 3 Terms Offered: FaSp Fundamental theories and meanings of computation as a technique in architectural design. Instruction Mode: Lecture Grading Option: Letter

ARCH 510 Independent Degree Project Preparation
Units: 1 Terms Offered: Fa Research and analysis, including written and graphic components, that tests a question or proposition in detail in preparation for Independent Degree Project Document. Corequisite: ARCH 501. Instruction Mode: Lecture Grading Option: Letter

ARCH 511L Building Systems: Materials and Construction
Units: 4 Terms Offered: Fa Studies of construction system development within the architectural design context; processes and issues of selection, evaluation, optimization, integration, design control, and innovation. Prerequisite: Departmental approval. Instruction Mode: Lecture, Lab Required Grading Option: Letter

ARCH 512 Material + Process: Material Systems
Units: 2 Confronts the conventional concepts behind modern building science and material applications, reapplying the processes of fabrication and methods of construction to investigate materiality. Prerequisite: ARCH 211 or ARCH 511L. Instruction Mode: Lecture Grading Option: Letter

ARCH 513L Seminar: Advanced Structures
Units: 4 Terms Offered: Fa Issues and problems in the development of structural systems for buildings: design criteria, system choice, design development, optimization, subsystem integration. Instruction Mode: Lab Required Grading Option: Letter

ARCH 514a Global History of Architecture
Units: 3 Terms Offered: FaSpA historical survey of global architecture, analyzed as a product of social, cultural, religious and political forces. 4500 BCE to 1500 CE. Instruction Mode: Lecture Grading Option: Letter

ARCH 514b Global History of Architecture
Units: 3 Terms Offered: FaSpA historical survey of global architecture, analyzed as a product of social, cultural, religious and political forces. 1500 CE to present. Instruction Mode: Lecture Grading Option: Letter

ARCH 515L Seminar: Advanced Environmental Systems
Units: 4 Terms Offered: Fa A compressed course in design criteria and calculation methods for mechanical and passive solar systems (loads, plant system, duct, and storage sizing) and lighting and acoustics (GIE and IES methods, dBA and NC systems). Instruction Mode: Lab Required Grading Option: Letter

ARCH 517 Current Topics in Building Science
Units: 1 Max Units: 6.0 Critical studies in building science ranging from sustainability, lighting, acoustics, materials and methods, structures, energy issues, digital media, and fabrication. Students focus on minimum of two topics. Instruction Mode: Lecture Grading Option: Letter

ARCH 518 Advanced Surface Tectonics: Methods in Material and Enclosure
Units: 2 Terms Offered: Fa Studies in contemporary building systems through analysis, research, and computational methods leading to the design of a prototypical building surface. Recommended Preparation: A prior knowledge of fundamental building systems and 3D modeling. Instruction Mode: Lecture Grading Option: Letter

ARCH 519 Sustainability in the Environment: Infrastructures, Urban Landscapes, and Buildings
Units: 3 Terms Offered: Fa Methodologies and exercises on contextual design and environmentally sound technologies (EST's) applications for the sustainability of urban infrastructures, operative landscapes, and building integration in the urban system. Instruction Mode: Lecture Grading Option: Letter
ARCH 520 Housing and Community Design for an Aging Population
Units: 2 Exploration of the role design plays in enhancing independence and well-being for older people by examining cross-cultural models of housing and community design. Instruction Mode: Lecture Grading Option: Letter

ARCH 521 Health and the Designed Environment: Landscape, Place, and Architecture
Units: 4 Case study-oriented course presenting critical relationships between human health and well-being and architecture and landscape architectural design at three scales: buildings, public space, and the urban landscape. Instruction Mode: Lecture Grading Option: Letter

ARCH 522 Healthcare Design
Units: 2 The evolution of healthcare design and construction is traced from small scale to major medical centers with emphasis on technology, landscape design and public health. Registration Restriction: Not open to freshmen and sophomores. Instruction Mode: Lecture Grading Option: Letter

ARCH 523aL Structural Design and Analysis
Units: 3 Terms Offered: FaSp Introduction to behavior and analysis of building structures. Structural loading, materials, and element types will be explored to understand the basic building blocks of buildings. Recommended Preparation: One-semester college-level course in physics or calculus. Instruction Mode: Lecture, Lab Required Grading Option: Letter

ARCH 523bL Structural Design and Analysis
Units: 3 Terms Offered: FaSp Investigation and design of building structural systems for gravity, wind and seismic loading. Comprehensive design exploration of framing type, materials, detailing, layout, form and integration. Recommended Preparation: One-semester college-level course in physics or calculus. Instruction Mode: Lecture, Lab Required Grading Option: Letter

ARCH 524 Professional Practicum
Units: 1 Max Units: 2.0 Terms Offered: FaSpSm Comparative studies of professional practice between U.S. firms and firms in other countries. Registration Restriction: Open to international upper-division undergraduate and graduate architecture students only. Instruction Mode: Lecture Grading Option: Credit/No Credit

ARCH 525 Professional Practice: Pre-Design, Project and Office Administration
Units: 3 Design methodology, typology programming, site analysis, budget formulation and pro-forma procedures. Office management, emphasizing professional service and professional ethics as well as project management focusing on the architect's responsibilities during construction. Instruction Mode: Lecture Grading Option: Letter

ARCH 526 Professional Practice: Legal and Economic Context, Project Documentation
Units: 3 Terms Offered: Sp Design methodology, typology programming, site analysis, budget formulation and pro-forma procedures. Office management, emphasizing professional service and professional ethics as well as project management focusing on the architect's responsibilities during construction. Prerequisite: ARCH 500a or ARCH 605b. Instruction Mode: Lecture Grading Option: Letter

ARCH 527 Case Studies: The Development of Urban Housing
Units: 2 Terms Offered: Fa An exploration of the various elements and stages of the housing development process. Recommended Preparation: a preliminary understanding of real estate or housing. Instruction Mode: Lecture Grading Option: Letter

ARCH 528 Urban Housing: Types and Typologies
Units: 2 Terms Offered: Fa Applications and precedents for the architect interested in designing multi-family housing. Review of the sources of modern housing types, the impact of building codes and technology on the form and construction of housing, and study of housing densities; comparative analysis of multi-family residential patterns. Major emphasis on critical knowledge of historic housing typologies as they are applied to site conditions and groupings, building form, section, organization, and the design of individual dwellings. Recommended Preparation: two years of undergraduate architectural studies. Instruction Mode: Lecture Grading Option: Letter

ARCH 529 Urban Housing: Programs, Precedents, and Recent Case Studies
Units: 2 Terms Offered: Sp Historical overview of the major domestic and international housing developments and innovations since the early 20th century. Case study format examining a wide range of issues that determine the form of urban housing in various cultures. Major emphasis on the detail analysis of social, technical, and design factors affecting recent housing developments. Recommended Preparation: two years of undergraduate architectural studies. Instruction Mode: Lecture Grading Option: Letter

ARCH 530 Landscape Architecture Practice
Units: 3 Terms Offered: FaSp Introduction to the principles and ethics, scope and activities, and types of organization for landscape architecture practice. Duplicates Credit in former ARCH 630. Instruction Mode: Lecture Grading Option: Letter

ARCH 531 Urban Ecology
Units: 4 Terms Offered: FaSp Lectures, laboratory exercises and field trips introducing basic knowledge of the continually transforming landscape as a base for human settlement. Instruction Mode: Lecture Grading Option: Letter

ARCH 532 Elements of the Urban Landscape
Units: 2 Terms Offered: Fa Study of the basic spatial and infrastructure elements of the city, and how urban places are formed. Typological analysis of buildings, open space, and urban patterns. Instruction Mode: Lecture Grading Option: Letter

ARCH 533 Urban Landscape Case Studies
Units: 2 Terms Offered: Sp Lectures, discussion, and individual research on the physical, formal, and spatial characteristics of historical urban centers. Instruction Mode: Lecture Grading Option: Letter

ARCH 534 Landscape Construction: Topographic Design
Units: 3 Terms Offered: Sp Techniques, strategies, materials, and standards to topographic design and construction in landscape architecture. In-class labs practice basic grading, drainage design, and stormwater management. Instruction Mode: Lecture Grading Option: Letter

ARCH 535 Landscape Construction: Performance Approaches
Units: 3 Terms Offered: Fa Develop tools and knowledge to expand the performative boundaries of landscape architecture beyond common typologies. Topics range from ecological infrastructure to design with weather patterns. A systematic approach to case studies, landscape technologies, and field trips seeds the knowledge base and representational methods necessary to design and build these complex landscape performances. Instruction Mode: Lecture Grading Option: Letter

ARCH 536 The Landscape Planning Process
Units: 3 Terms Offered: FaSp Methods of assessing urban places regarding natural, social, cultural and political factors; identification of landscape architecture planning and project implementation issues and strategies. Instruction Mode: Lecture Grading Option: Letter

ARCH 537 Plant Ecology + Identification
Units: 2 Terms Offered: Fa Principles and concepts of plant ecology and regional plant identification; introduction to California native plant species and communities with field trips and case studies. Instruction Mode: Lecture Grading Option: Letter

ARCH 538L Planting Design
Units: 2 Principles of planting design for landscape architecture focusing on form/ space and sustainable performance. Planting design strategies for improved planetary health and resilience. Prerequisite: ARCH 537 Instruction Mode: Lecture, Lab Required Grading Option: Letter

ARCH 539L Media for Landscape Architecture
Units: 3 Terms Offered: Fa Development of methods and skills for the study of landscape architecture design and for project presentation, including natural resource and urban mapping. Registration Restriction: Open only to Planning and Landscape Architecture majors. Instruction Mode: Lecture, Lab Required Grading Option: Letter

ARCH 540 Topics in Media for Landscape Architecture
Units: 2 Max Units: 6.0 Terms Offered: FaSp Exploration of emerging techniques for landscape architecture study, presentation and documentation; topics vary from year to year; may be repeated for credit when subject matter is different. Instruction Mode: Lecture, Lab Required Grading Option: Letter

ARCH 541aL Landscape Architecture Design
Units: 6 Terms Offered: FaSp Projects on urban sites with emphasis on cultural and ecological purpose and on urban place and
ARCH 541bL Landscape Architecture Design Units: 6 Terms Offered: FaSp Projects in urban settings with emphasis on landscape continuities as well as development of integrative schematic proposals and detailed open space design. Instruction Mode: Lecture, Lab Required Grading Option: Letter

ARCH 542aL Landscape Architecture Design Units: 6 Terms Offered: FaSp Project strategies for urban infrastructure repair and intervention, phasing, and design of initial catalytic projects. Prerequisite: ARCH 541bL. Instruction Mode: Lecture, Lab Required Grading Option: Letter

ARCH 543 Research Methods Units: 1 Terms Offered: Fa Introduction to methods of inquiry and documentation including critical review of published materials, techniques for systematic observation, generating findings from comparative studies of relevant precedents and problems, and legible presentation of outcomes. Instruction Mode: Lecture Grading Option: Letter

ARCH 544 Landscape as Urbanism: Case Studies Units: 2 Terms Offered: Fa Global cities are studied through their relationship to landscape systems (hydrological, infrastructural, etc). Projects are examined as incremental interventions in the formation of the evolving urban landscape. Instruction Mode: Lecture Grading Option: Letter

ARCH 545 Contemporary Theories of Landscape Architecture Units: 3 Terms Offered: FaSp Explores contemporary landscape architecture theories, propositions and projects in the context of cities. The exploration methodology includes the study of epochal projects and theoretical texts. Instruction Mode: Lecture Grading Option: Letter

ARCH 546 Topics in Landscape Architecture: Issues and Practices Units: 2 Max Units: 6 A broad range of developing urban landscape conditions and issues, both domestic and global, are given focused attention. Instruction Mode: Lecture Grading Option: Letter

ARCH 547 Advanced Topics in Urban Ecology Units: 3 Terms Offered: Sp Builds on knowledge related to the impacts of anthropocentrism on our current environmental/landscape condition - stresses on biodiversity, urban heat island, sea-level rise, etc, and strategies at mitigating these conditions - urban forestry, building soils, etc. Recommended Preparation: ARCH 531 Instruction Mode: Lecture Grading Option: Letter

ARCH 548 Media for Landscape Architecture: 3D Design Units: 3 Developing and communicating landscape architecture design intent using visualization tools for three-dimensional studies. Instruction Mode: Lecture Grading Option: Letter

ARCH 549 Fundamentals of Heritage Conservation Units: 3 Terms Offered: FaSm Concepts and strategies for conservation of significant elements of the built environment: buildings, sites and communities as revealed by readings, site visits, and case studies. Instruction Mode: Lecture Grading Option: Letter

ARCH 550 Heritage Conservation Policy and Planning Units: 3 Terms Offered: Sp Conservation practice within an economic, political, and cultural context looking at the regulatory environment, public advocacy and policy, real estate development, heritage tourism, environmental sustainability, cultural diversity, and interpretation. Recommended Preparation: ARCH 549. Instruction Mode: Lecture Grading Option: Letter

ARCH 551 Conservation Methods and Materials Units: 3 Terms Offered: Sp Concepts and techniques for building conservation including identification of treatments, recordation and research, material properties and behavior, building forensics, and project implementation. Recommended Preparation: ARCH 549. Instruction Mode: Lecture Grading Option: Letter

ARCH 552 Introduction to Historic Site Documentation Units: 2 Terms Offered: Sp Survey of basic guidelines and standards for documentation in historic preservation, including cultural resource surveys, historic structures reports and Historic American Building Survey and Historic American Engineering Record recordation. Instruction Mode: Lecture Grading Option: Letter

ARCH 553 History of American Architecture and Urbanism Units: 3 Terms Offered: Fa History of American architecture and urbanism from prehistory to World War II examined in relation to European influences and indigenous developments. Instruction Mode: Lecture Grading Option: Letter

ARCH 554 Heritage Conservation Practicum — Advanced Documentation Units: 3 Max Units: 12.0 Terms Offered: FaSp Heritage conservation practicum utilizing in-depth documentation methodology to explore the historic built environment of greater Los Angeles. Topics will vary from year to year; may be repeated for credit when subject matter is different. Instruction Mode: Lecture Grading Option: Letter

ARCH 555 Global Perspectives in Heritage Conservation Units: 2 Max Units: 4.0 Terms Offered: Fa In-depth analysis of international heritage conservation practices with a focus on a single country, continent, or world region outside the United States. Topics will vary from year to year; may be repeated for credit when subject matter is different. Instruction Mode: Lecture Grading Option: Letter

ARCH 556 Readings in Heritage Conservation Theory Units: 2 Terms Offered: Fa Trans-disciplinary intensive reviewing of primary discussion course related to issues in contemporary heritage conservation. Prerequisite: ARCH 549. Instruction Mode: Lecture Grading Option: Letter

ARCH 557 Sustainable Conservation of the Historic Built Environment Units: 2 Terms Offered: Fa Analysis of the intersection between "green building" and historic resources with an emphasis on stewardship and sustainability. Instruction Mode: Lecture Grading Option: Letter

ARCH 558 Fundamentals of Place-Making Units: 2 Concepts and strategies for urban design and place-making for heritage conservation as revealed by place-making exercises, site visits, and case studies. Instruction Mode: Lecture Grading Option: Letter

ARCH 560 A History of Architectural Theory: 1400-1914 Units: 2 A seminar on architectural history from Alberti to Scott, reviewing seminal texts and subsequent criticisms. Duplicates Credit in former ARCH 441 Instruction Mode: Lecture Grading Option: Letter

ARCH 561 Urbanism Themes and Case Studies Units: 2 Terms Offered: Fa Examines urbanism through case studies in theory and design to understand the impacts of globalization, technology, and sustainability on the contemporary city. Instruction Mode: Lecture Grading Option: Letter

ARCH 562 Architecture Themes and Case Studies Units: 2 Terms Offered: Fa Architectural themes and case studies focusing on the design and development of architecture, from the industrial city to today. Instruction Mode: Lecture Grading Option: Letter

ARCH 563 Contemporary Architectural Theory Units: 2 Terms Offered: Sp Investigates, compares, and critiques modern and contemporary theories of the designed and built environment by focusing on key figures, movements, and texts. Instruction Mode: Lecture Grading Option: Letter

ARCH 564 Descriptive and Computational Architectural Geometry Units: 2 Terms Offered: Sp Introduction to the history, methods, and cases of descriptive and computational geometry impacting representational, modeling, and historically significant paradigms of architectural design. Introduces a range of geometric first principles, technologies and techniques through contemporary design tools. Instruction Mode: Lecture Grading Option: Letter

ARCH 565 Global History of Designed Landscapes Units: 3 Terms Offered: Fa Understanding of the global history of landscape design in relation to social, political, religious, environmental and aesthetic principles; current design theory, projects and their historical references are critically reviewed and analyzed. Duplicates Credit in ARCH 465 Instruction Mode: Lecture Grading Option: Letter
<table>

**ARCH 566 Cross Cultural Topics in Landscape Architecture History**  
Units: 3  
Max Units: 6.0  
Terms Offered: FaSp  
Prerequisite: ARCH 542L and ARCH 543L  
Recommended Preparation: Some knowledge of the historical context and cultural landscapes of various regions.  
Instruction Mode: Lecture  
Grading Option: Letter

**ARCH 567L Landscape Architecture Vertical Workshop and Debate Series**  
Units: 0.5  
Max Units: 3  
Terms Offered: FaSp  
Prerequisite: ARCH 541L and ARCH 542L  
Registration限制: Only open to master's students in Landscape Architecture  
Instruction Mode: Lecture  
Grading Option: Letter

**ARCH 573 Seismic Design**  
Units: 2  
Terms Offered: FaSp  
Recommended Preparation: Basic understanding of structural engineering principles.  
Instruction Mode: Lecture  
Grading Option: Letter

**ARCH 574 Parametric Design**  
Units: 3  
Terms Offered: FaSp  
Recommended Preparation: Basic knowledge of design software.  
Instruction Mode: Lecture  
Grading Option: Letter

**ARCH 575a Systems**  
Units: 3  
Terms Offered: Sp  
Recommended Preparation: Basic knowledge of physics and/or exposure to architectural design.  
Instruction Mode: Lecture  
Grading Option: Letter

**ARCH 575b Systems**  
Units: 3  
Terms Offered: Sp  
Recommended Preparation: Basic knowledge of physics and/or exposure to architectural design.  
Instruction Mode: Lecture  
Grading Option: Letter

**ARCH 576 Sustainable Design for Healthy Indoor Environments**  
Units: 3  
Course outlines the design and performance aspects necessary to ensure indoor environmental quality and the occupants' environmental health and productivity.  
Instruction Mode: Lecture  
Grading Option: Letter

**ARCH 577L Lighting Design**  
Units: 4  
Terms Offered: FaSp  
Recommended Preparation: Some knowledge of physics and exposure to the design process and design presentation skills.  
Instruction Mode: Lecture, Lab  
Grading Option: Letter

**ARCH 578 Technology-Enabled Architecture, Engineering and Construction (AEC) Projects**  
Units: 4  
Terms Offered: Sp (Enroll in CE 578)  
Recommended Preparation: Some knowledge of technology and its application in architectural design.  
Instruction Mode: Lecture  
Grading Option: Letter

**ARCH 579 Sustainable Building and Environment using LEED Metrics**  
Units: 3  
Fundamental knowledge of sustainable building concepts, current environmental design building rating systems, building performance and diagnostics metrics, as well as reference standards related to sustainable design.  
Instruction Mode: Lecture  
Grading Option: Letter

**ARCH 590L Field Studies**  
Units: 4  
Max Units: 8.0  
Terms Offered: FaSp  
Recommended Preparation: Some knowledge of technology and its application in architectural design.  
Instruction Mode: Lecture, Lab  
Grading Option: Letter

**ARCH 598L City Cine: Visuality, Media and Urban Experience**  
Units: 4  
Course explores the relationship between urban experience and visual media (from the photographic, to the filmic, to the digital) from circa 1880 to the present.  
Instruction Mode: Lecture  
Grading Option: Letter

**ARCH 604L Built Environment Design I**  
Units: 3  
Reserved for freshmen and sophomores  
Recommended Preparation: Basic knowledge of physics and/or exposure to architectural design.  
Instruction Mode: Lecture  
Grading Option: Letter

**ARCH 605aL Graduate Architecture Design I**  
Units: 1  
Max Units: 9  
Terms Offered: FaSpSm  
Grading Option: Credit/No Credit

**ARCH 605b Graduate Architecture Design II**  
Units: 6  
Terms Offered: FaSpSm  
Grading Option: Credit/No Credit

**ARCH 605c Graduate Architecture Design III**  
Units: 6  
Terms Offered: FaSpSm  
Grading Option: Credit/No Credit

**ARCH 606 Advanced Architectural Theories**  
Units: 2  
Terms Offered: FaSpSm  
Recommended Preparation: Basic knowledge of architectural history and theory.  
Instruction Mode: Lecture  
Grading Option: Letter

**ARCH 607 Advanced Computation**  
Units: 2  
Max Units: 6.0  
Terms Offered: FaSpSm  
Recommended Preparation: Basic knowledge of architectural history and theory.  
Instruction Mode: Lecture  
Grading Option: Letter

**ARCH 608 Urban Theory: Los Angeles Case Study**  
Units: 2  
Terms Offered: FaSpSm  
Recommended Preparation: Basic knowledge of urban theory and planning.  
Instruction Mode: Lecture  
Grading Option: Letter
ARCH 609 Advanced Fabrication
Units: 2 Max Units: 6.0 Terms Offered: FaSpSm Introduction to a range of new technologies and techniques examining technical and theoretical implications including a range of digital fabrication technologies, robotics and film-making techniques. Instruction Mode: Lecture Grading Option: Letter

ARCH 610L Advanced Graduate Architecture Design
Units: 6 Terms Offered: FaSpSm Elective advanced design and research studio investigations. As faculty-led topical themes, the design-based projects will engage critical topics engaging diverse areas of specialization. Prerequisite: ARCH 605b. Instruction Mode: Lecture, Lab Required Grading Option: Letter

ARCH 611 Advanced Building Systems Integration
Units: 4 Terms Offered: Sp Design criteria development, material and construction process methods, occupancy based load profiles, performance/material life-cycle-mandates, durability for advanced building systems including integrity in sustainable urban systems. Instruction Mode: Lecture Grading Option: Letter

ARCH 613L Seminar: Structures Research
Units: 4 Terms Offered: Sp An overview of research topics in building structures; detailed investigation of selected major issues. Instruction Mode: Lecture, Lab Required Grading Option: Letter

ARCH 614 Contemporary Issues in Architecture: A Critical Dialectic
Units: 3 Terms Offered: Fa Issues that are important to the contemporary built environment are explored using a dialectical format to encourage debate, augmented by invited speakers and topical readings. Prerequisite: ARCH 214a, ARCH 214b and ARCH 514a, ARCH 514b. Instruction Mode: Lecture Grading Option: Letter

ARCH 615L Seminar: Environmental Systems Research
Units: 4 Terms Offered: Sp A detailed examination of current issues in the thermal, acoustical, and radiant environment; recent developments in criteria, systems, controls, design tools and simulations; an understanding of the relationships between environmental factors, economics, and architectural goals. Instruction Mode: Lecture, Lab Required Grading Option: Letter

ARCH 619 Digital Fabrication - Materials and Methods of Production
Units: 3 Terms Offered: FaSpSm Overview of multiple fabrication, manufacturing, and construction techniques used in the production of architecture, furniture and industrial design. Registration Restriction: Not open to freshman, sophomore and junior students Instruction Mode: Lecture Grading Option: Letter

ARCH 635 Landscape Construction: Assembly and Documentation
Units: 3 Terms Offered: Sp Learn and practice the process by which a landscape design is assembled through materials systems and design documentation. Instruction Mode: Lecture Grading Option: Letter

ARCH 639 Media for Landscape Architecture: Dynamic Systems
Units: 2 Terms Offered: Fa Computational capabilities of parametric software, computational flow dynamics, procedural media, and geospatial analysis, to analyze and generate both existing and emergent systems at the landscape scale. Prerequisite: ARCH 549 Instruction Mode: Lecture, Lab Grading Option: Letter

ARCH 642L Landscape Architecture Design
Units: 6 Terms Offered: Fa Fully integrated landscape place design; reclamation sites at significant urban or natural locations. Prerequisite: ARCH 542aL, ARCH 542bL. Instruction Mode: Lecture, Lab Required Grading Option: Letter

ARCH 690L Directed Research
Units: 2, 3, 4, 5, 6, 7, 8 Terms Offered: FaSpSm Instruction Mode: Lecture, Lab Required Grading Option: Credit/No Credit

ARCH 690bL Directed Research
Units: 2, 3, 4, 5, 6, 7, 8 Terms Offered: FaSpSm Instruction Mode: Lecture, Lab Required Grading Option: Credit/No Credit

ARCH 691a Heritage Conservation
Thesis Preparation and Thesis
Units: 1 Terms Offered: Sp Introduction to, and exploration of, topics leading to the development of a thesis prospectus and directed research towards the completion of the master's thesis in heritage conservation. Prerequisite: ARCH 549 Registration Restriction: Open only to Master of Heritage Conservation students. Instruction Mode: Lecture Grading Option: In Progress/Credit/No Credit

ARCH 691b Heritage Conservation
Thesis Preparation and Thesis
Units: 4 Terms Offered: Sp Introduction to, and exploration of, topics leading to the development of a thesis prospectus and directed research towards the completion of the master's thesis in heritage conservation. Prerequisite: ARCH 549 Registration Restriction: Open only to Master of Heritage Conservation students. Instruction Mode: Lecture Grading Option: In Progress/Credit/No Credit

ARCH 691z Heritage Conservation
Thesis Preparation and Thesis
Units: 0 Terms Offered: Sp A detailed examination of current issues in the thermal, acoustical, and radiant environment; recent developments in criteria, systems, controls, design tools and simulations; an understanding of the relationships between environmental factors, economics, and architectural goals. Instruction Mode: Lecture, Lab Required Grading Option: Letter

ARCH 692L Building Science Thesis
Units: 0 Terms Offered: FaSpSm Research and thesis for the Master of Building Science degree. Prerequisite: ARCH 596. Instruction Mode: Lecture, Lab Required Grading Option: In-progress to Credit/No Credit

ARCH 693aL M.Arch. Thesis, Option I
Units: 2 Terms Offered: FaSpSm Directed research option for M.Arch. degree. Prerequisite: ARCH 549 Instruction Mode: Lecture, Lab Required Grading Option: In-progress to Credit/No Credit

ARCH 693bL M.Arch. Thesis, Option I
Units: 8 Terms Offered: FaSpSm Directed research option for M.Arch. degree. Instruction Mode: Lecture, Lab Required Grading Option: In-progress to Credit/No Credit

ARCH 693cL M.Arch. Thesis, Option I
Units: 0 Terms Offered: FaSpSm Directed research option for M.Arch. degree. Instruction Mode: Lecture, Lab Required Grading Option: In-progress to Credit/No Credit

ARCH 694 Research Publication
Methods for Building Science
Units: 2 Technical documentation, graphic representation, and verbal presentation for writing and presenting journal articles and conference presentations in building science. Recommended Preparation: completion of MBS Core Seminars. Registration Restriction: Open only to Master of Building Science students. Instruction Mode: Lecture Grading Option: Letter

ARCH 695aL M.Arch. Thesis, Option II
Units: 8 Terms Offered: FaSpSm Design thesis for the Master of Architecture degree. Registration Restriction: Open only to Master's level Architecture students. Instruction Mode: Lecture, Lab Required Grading Option: In-progress to Credit/No Credit

ARCH 695bL M.Arch. Thesis, Option II
Units: 2 Terms Offered: FaSpSm Design thesis for the Master of Architecture degree. Registration Restriction: Open only to Master's level Architecture students. Instruction Mode: Lecture, Lab Required Grading Option: In-progress to Credit/No Credit

ARCH 695cL M.Arch. Thesis, Option II
Units: 0 Terms Offered: FaSpSm Design thesis for the Master of Architecture degree. Instruction Mode: Lecture, Lab Required Grading Option: In-progress to Credit/No Credit

ARCH 696a Building Science Thesis
Units: 1 Research and thesis for the Master of Building Science degree. Instruction Mode: Lecture, Lab Required Grading Option: In-progress to Credit/No Credit

ARCH 696b Building Science Thesis
Units: 8 Research and thesis for the Master of Building Science degree. Instruction Mode: Lecture, Lab Required Grading Option: In-progress to Credit/No Credit

ARCH 696c Building Science Thesis
Units: 0 Research and thesis for the Master of Building Science degree. Instruction Mode: Lecture, Lab Required Grading Option: In-progress to Credit/No Credit

ARCH 696zL Building Science Thesis
Units: 0 Research and thesis for the Master of Building Science degree. Instruction Mode: Lecture, Lab Required Grading Option: In-progress to Credit/No Credit
ARCH 605bL or ARCH 702L.

Letter Option:
Lecture, Lab Required

Research investigations that concentrate on emphasizing diverse areas of vital concern. Projects will be faculty-led investigations that concentrate on diverse areas of vital concern. Instruction Mode: Lecture, Lab Required

Grading Option: In-progress to Credit/No Credit

ARCH 697bL MLArch Thesis, Option II
Units: 8 Terms Offered: FaSpSm Field studies and thesis for the MLArch degree. Instruction Mode: Lecture, Lab Required

Grading Option: In-progress to Credit/No Credit

ARCH 697zL MLArch Thesis, Option II
Units: 0 Terms Offered: FaSpSm Field studies and thesis for the MLArch degree. Instruction Mode: Lecture, Lab Required

Grading Option: In-progress to Credit/No Credit

ARCH 698aL Advanced Design-Research
Units: 3 Terms Offered: FaSpSm Directed research option for the MLArch degree. Registration Restriction: Open only to master students in Landscape Architecture and in Planning/Landscape Architecture Instruction Mode: Lecture Grading Option: Letter

ARCH 698bL Advanced Design-Research
Units: 6 Terms Offered: FaSpSm Directed research option for the MLArch degree. Prerequisite: ARCH 698aL Registration Restriction: Open only to master students in Landscape Architecture and in Planning/Landscape Architecture Instruction Mode: Lecture, Lab Required

Grading Option: In Progress and Letter

ARCH 698zL Advanced Design-Research
Units: 0 Terms Offered: FaSpSm Directed research option for the MLArch degree. Instruction Mode: Lecture, Lab Required

Grading Option: In-progress to Credit/No Credit

ARCH 702L Advanced Graduate Architecture Design – Themes
Units: 6 Advanced thematic topical investigations emphasizing diverse areas of specialization. Projects will be faculty-led research investigations that concentrate on diverse areas of vital concern. Instruction Mode: Lecture, Lab Required

Grading Option: Letter

ARCH 705L Advanced Graduate Architecture Design – Topics
Units: 6 Max Units: 12.0 Terms Offered: FaSm Advanced topical investigations emphasizing diverse areas of specialization. Projects will be faculty-led research investigations that concentrate on diverse areas of vital concern. Prerequisite: ARCH 605bL or ARCH 702L. Registration Restriction: Open only to Architecture majors. Instruction Mode: Lecture, Lab Required

Grading Option: Letter

ARCH 793aL Architecture Directed Design Research Option I
Units: 2 Terms Offered: FaSpSm Directed Design Research option for graduate level architecture degree. Prerequisite: ARCH 605bL or ARCH 702L. Registration Restriction: Open only to Architecture majors. Instruction Mode: Lecture, Lab Required

Grading Option: In-progress to Credit/No Credit

ARCH 793bL Architecture Directed Design Research Option I
Units: 6 Terms Offered: FaSpSm Directed Design Research option for graduate level architecture degree. Prerequisite: ARCH 605bL or ARCH 702L. Registration Restriction: Open only to Architecture majors. Instruction Mode: Lecture, Lab Required

Grading Option: In-progress to Credit/No Credit

ARCH 793z Architecture Directed Design Research Option I
Units: 0 Directed Design Research option for graduate level architecture degree. Credit on acceptance of research project. Prerequisite: ARCH 793bL Instruction Mode: Lecture Grading Option: Credit/No Credit

ARCH 794a Doctoral Dissertation
Units: 2 Terms Offered: FaSpSm Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

ARCH 794b Doctoral Dissertation
Units: 2 Terms Offered: FaSpSm Instruction Mode: Lecture Grading Option: In-progress & Credit/No Credit

ARCH 794c Doctoral Dissertation
Units: 2 Terms Offered: FaSpSm Instruction Mode: Lecture Grading Option: In-progress & Credit/No Credit

ARCH 794d Doctoral Dissertation
Units: 0 Terms Offered: FaSpSm Instruction Mode: Lecture Grading Option: In-progress & Credit/No Credit

ARCH 795aL Architecture Thesis Option II
Units: 2 Terms Offered: FaSpSm Thesis option for graduate level architecture degree. Prerequisite: ARCH 605bL or ARCH 702L. Registration Restriction: Open only to Architecture majors. Instruction Mode: Lecture, Lab Required

Grading Option: Credit/No Credit

ARCH 795bL Architecture Thesis Option II
Units: 6 Terms Offered: FaSpSm Thesis option for graduate level architecture degree. Prerequisite: ARCH 605bL or ARCH 702L. Registration Restriction: Open only to Architecture majors. Instruction Mode: Lecture, Lab Required

Grading Option: In-progress to Credit/No Credit

ARCH 795z Architecture Thesis Option II
Units: 0 Thesis option for graduate level architecture degree. Credit on acceptance of research project. Prerequisite: ARCH 795bL Instruction Mode: Lecture Grading Option: Credit/No Credit

ARCH 797xg Creating and Understanding Visuals
Units: 4 Terms Offered: FaSpSm Lecture-studio course on the theory and history behind contemporary art, design, and visual communication; students also create work, informed by ideas from the lecture. Satisfies New General Education in Category A: The Arts Credit Restriction: Not available for credit for Roski majors Instruction Mode: Lecture Grading Option: Letter

ARCH 798x Art and Design Studio I
Units: 4 Terms Offered: FaSpSm Introduction to the fundamental elements in art making, design creation and thinking, including key principles of process and critical analysis. Instruction Mode: Lecture Grading Option: Letter Crosslisted as DES 105

ART 106 Art and Design Studio II
Units: 4 Terms Offered: FaSpSm An introduction to the fundamental elements in art making, design creation and thinking, including the key principles of process and critical analysis. Instruction Mode: Lecture Grading Option: Letter Crosslisted as DES 105

ART 110 Drawing for Art and Design
Units: 4 Terms Offered: FaSpSm An introduction to drawing, both skill and perception oriented, as the basic tool for all the visual arts and design. Duplicates Credit in former FAPT 105 Instruction Mode: Lecture, Lab Grading Option: Letter Crosslisted as DES 110

ART 120 Painting I
Units: 4 Terms Offered: FaSpSm Practical introduction to oil and acrylic mediums, painting equipment, processes, and media. Primary experience in: color, composition and perception through representational and abstract painting. Duplicates Credit in former FACE 112 Instruction Mode: Lecture Grading Option: Letter

ART 130 Ceramics I
Units: 4 Terms Offered: FaSpSm Practical and theoretical exploration of the nature of surface, form, volume and mass as fundamental elements of clay sculpture and the ceramic object. Duplicates Credit in former FAPT 106 Instruction Mode: Lecture, Lab Grading Option: Letter

ART 140 Sculpture I
Units: 4 Terms Offered: FaSpSm Practical and theoretical introduction to sculpture as dimensional manipulation. Primary exploration of form, mass, gravity, surface, structure and associative recognition in three-dimensional art. Duplicates Credit in former FAPT 106 Instruction Mode: Lecture, Lab Grading Option: Letter

ART 141xg Creating and Understanding Visuals
Units: 4 Terms Offered: FaSpSm Lecture-studio course on the theory and history behind contemporary art, design, and visual communication; students also create work, informed by ideas from the lecture. Satisfies New General Education in Category A: The Arts Credit Restriction: Not available for credit for Roski majors Instruction Mode: Lecture Grading Option: Letter

ART 150 Introduction to Photography: Process and Concept
Units: 4 Terms Offered: FaSpSm Digital photography as a medium of contemporary art. Includes concept development, DSLR cameras, lighting, digital workflow, software, large format printing and installation. Duplicates Credit in former FAPH 209 Instruction Mode: Lecture Grading Option: Letter

ART 207a Two-Dimensional Art Workshop
Units: 2 Max Units: 08 Terms Offered: FaSpSm Studio practice to develop standards of judgment and appreciation of the visual arts. Duplicates Credit in former FA 207a Instruction Mode: Lecture Grading Option: Letter
ART 207b Two-Dimensional Art Workshop
Units: 2  Max Units: 8  Terms Offered: FaSpSm Continuation of ART 207a.
Prerequisite: ART 207a Duplicates Credit in former FA 207b Instruction Mode: Lecture
Grading Option: Letter

ART 208a Three-Dimensional Art Workshop
Units: 2  Terms Offered: FaSpSm Studio practice to develop standards of judgment and appreciation of the visual arts.
Duplicates Credit in former FA 208a Instruction Mode: Lecture, Lab Grading Option: Letter

ART 208b Three-Dimensional Art Workshop
Units: 2  Terms Offered: FaSpSm Continuation of ART 208a. Prerequisite: ART 208a Duplicates Credit in former FA 208b Instruction Mode: Lecture, Lab Grading Option: Letter

ART 230 Wheel Throwing
Units: 4  Terms Offered: FaSp An introductory course using wheel throwing techniques for ceramics to explore a variety of forms through three-dimensional exercises. Duplicates Credit in former FACE 212 Instruction Mode: Lecture, Lab Grading Option: Letter

ART 243 Construction Techniques
Units: 2  Terms Offered: FaSp Exploration of art fabrication and the techniques and philosophies of working with a variety of materials. Recommended Preparation: ART 140 Duplicates Credit in former FASC 246 Instruction Mode: Lecture, Lab Grading Option: Letter

ART 250 Black and White Film and Darkroom Photography
Units: 4  Terms Offered: FaSp Introduces film cameras, development, and darkroom techniques, photographic history, theory and practice within a darkroom context. Duplicates Credit in ART 160 Instruction Mode: Lecture Grading Option: Letter

ART 260 Introduction to Video: Projection and Virtual Worlds in Art
Units: 4  Terms Offered: FaSp An introductory course exploring contemporary processes and practices of video experimentation in art including the camera, editing, digital manipulation and spatial and virtual platforms. Duplicates Credit in former FAIN 220 Instruction Mode: Lecture Grading Option: Letter

ART 280 Studio Critique I
Units: 2  Terms Offered: FaSp Interdisciplinary forum where students develop research skills, learn how to best articulate their artistic production, discuss materials related to their research interests, and critique the work of their peers. Registration Restriction: Open only to sophomores in Art and Fine Arts majors Instruction Mode: Lecture Grading Option: Letter

ART 300 Professional Practices
Units: 2  Terms Offered: FaSpSm Instruction on producing written and visual documentation of art/design work, proposals, statements, and portfolios; applications for art/design employment opportunities, grants, research projects, and graduate school. Registration Restriction: Open only to sophomores, juniors and seniors Duplicates Credit in former FA 300 Instruction Mode: Lecture Grading Option: Letter

ART 310 Drawing II
Units: 4  Terms Offered: FaSpSm Directed examination of personal approaches in drawing; emphasis on making visual and artistic decisions and developing an appropriate attitude towards individual expression. Prerequisite: ART 110 or FADW 101 Duplicates Credit in former FADW 301 Instruction Mode: Lecture Grading Option: Letter

ART 311 Anatomical Drawing from Life
Units: 2  Terms Offered: FaSpSm An advanced, concentrated study of the human figure; expands on skills depicting and visualizing the human form. Prerequisite: ART 110 or FADW 101 Duplicates Credit in former FADW 321 Instruction Mode: Lecture Grading Option: Letter

ART 312 Comics Project
Units: 4  Max Units: 8  Terms Offered: FaSp All aspects of comics will be covered, from writing and composition to inking and marketing through the production of an individual 15-page comic creation. Recommended Preparation: Any drawing, graphic design or creative writing course Instruction Mode: Lecture Grading Option: Letter

ART 314 Illustration for Art and Design
Units: 2  Terms Offered: FaSp Illustration techniques across the range of fine art, cartooning, street art, narrative arts, animation, scientific imaging, editorial cartooning and others. Digital and hybrid approaches. Recommended Preparation: ART 110, ART 120, or any graphic design course Instruction Mode: Lecture Grading Option: Letter Crosslisted as DES 314

ART 320 Painting II
Units: 4  Terms Offered: FaSpSm Directed examination of aesthetic concepts; investigation into personal ideas related to the development of a creative visual language in painting. Prerequisite: ART 120 or FAPT 105 Duplicates Credit in former FAPT 316 Instruction Mode: Lecture Grading Option: Letter

ART 330 Ceramics II
Units: 4  Terms Offered: FaSp Directed examination of aesthetic concepts and investigation into personal ideas as they relate to the development of a creative visual language in ceramics. Prerequisite: ART 130 or FACE 112 Duplicates Credit in former FACE 312 Instruction Mode: Lecture Grading Option: Letter

ART 331 Clay and Glazes
Units: 2  Terms Offered: Sp A foundation in the formulation of clay bodies and glaze materials through lectures and studio exercises to suit specific needs with the artist in mind. Recommended Preparation: ART 130 or ART 230 Duplicates Credit in former FACE 313 Instruction Mode: Lecture, Lab Grading Option: Letter

ART 340 Sculpture II
Units: 4  Terms Offered: FaSp Directed examination of three-dimensional aesthetic concepts; development of an individual approach to creative vision. Prerequisite: ART 140 Duplicates Credit in former FASC 306 Instruction Mode: Lecture Grading Option: Letter

ART 350 Intermediate Photography: Studio, Field, Independent Projects
Units: 4  Terms Offered: FaSpSm Continued examination of the conceptual, technical, aesthetic and historical tools necessary for a well-informed deliberate art practice. Emphasis on generating self-directed ideas. Prerequisite: ART 150 Duplicates Credit in former FAPH 309 Instruction Mode: Lecture Grading Option: Letter

ART 360 Video Installation and Moving Image Environments
Units: 4  Terms Offered: FaSpSm Advanced studio course. Investigates video installation as an evolving contemporary art form that extends the conversation of video art beyond the frame and into live, hybrid media, site-specific and multiple channel environments. Prerequisite: ART 260 or FAIN 220 Duplicates Credit in former FAIN 320 Instruction Mode: Lecture Grading Option: Letter

ART 361 Post-Internet Art and Aesthetics
Units: 4  Terms Offered: FaSp A technically and conceptually intensive studio exploring contemporary processes and practices of Internet art and online expression. Prerequisite: ART 260 Recommended Preparation: ART 150 Duplicates Credit in former FAIN 315 Instruction Mode: Lecture Grading Option: Letter

ART 362 Ideas in Intermedia
Units: 4  Terms Offered: FaSp An examination of the impact of digital media on contemporary culture, with attention to a particular, changing topic each semester. Duplicates Credit in former FAIN 330 Instruction Mode: Lecture Grading Option: Letter

ART 370 Printmaking
Units: 4  Terms Offered: FaSpSm Introductory course in various printmaking techniques; necessary skills and inherent expressive qualities of different printmaking methods are explored. Duplicates Credit in former FAIN 330 Instruction Mode: Lecture, Lab Grading Option: Letter

ART 380 Studio Critique II
Units: 2  Terms Offered: FaSpSm A continuation of ART 280 for third-year students, providing an interdisciplinary forum for artistic practice and a deepening critique of one's work and the work of peers. Prerequisite: ART 280 Registration Restriction: Open only to juniors in Art and Fine Arts majors Instruction Mode: Lecture Grading Option: Letter

ART 390 Special Problems
Units: 1, 2, 3, 4  Terms Offered: FaSpSm Supervised, individual studies. No more than one registration permitted. Enrollment by petition only. Duplicates Credit in former FA 390 Instruction Mode: Lecture Grading Option: Letter

ART 410 Topics in Advanced Drawing
Units: 4  Max Units: 12  Terms Offered: FaSpSm Continued directed examination of personal approaches in drawing, emphasis on making visual and artistic decisions and developing an appropriate attitude toward visual expression. Prerequisite: ART 310 or FADW 301 Duplicates Credit in former FA 401 and FADW 401 Instruction Mode: Lecture Grading Option: Letter
ART 415 Studies in Drawing and Painting
Units: 4 Max Units: 12 Terms Offered: FaSp
A studio examination of rotating topics in drawing/painting, either media-based or content-driven, with individual and collaborative projects; topics change each semester. Recommended Preparation: ART 310; ART 320; or permission of instructor. Duplicates Credit in former FADM 331 and former ART 315 Instruction Mode: Lecture Grading Option: Letter

ART 418 Independent Studies in Studio Arts
Units: 1, 2, 3, 4 Terms Offered: FaSpSm
Independent research of specific topics under the direction of a faculty member. Administrative and faculty approval required. Recommended Preparation: appropriate 300-level course work. Duplicates Credit in former FA 418 Instruction Mode: Lecture Grading Option: Letter

ART 419 Professional Internship in the Arts
Units: 2 Max Units: 04 Terms Offered: FaSpSm
An experiential/academic opportunity in a museum, gallery, community cultural center or related facility. Lectures, seminars, written analysis and working internship. Registration Restriction: Open only to upper-division fine arts majors. Duplicates Credit in former FA 419 Instruction Mode: Lecture Grading Option: Credit/No Credit Crosslisted as DES 419

ART 420 Topics in Advanced Painting Units: 4 Max Units: 12 Terms Offered: FaSpSm
Directed painting with continued emphasis on personal choices regarding appropriation of conceptual images and arrangement, material processes, scale, number of paintings. Ongoing critical response to painting. Prerequisite: ART 320 or FAPT 305 Duplicates Credit in former FAPT 405 Instruction Mode: Lecture, Lab Grading Option: Letter

ART 430 Topics in Advanced Ceramics Units: 4 Max Units: 12 Terms Offered: FaSpSm
Continued directed examination of aesthetic concepts and invention into personal ideas as they relate to the development of a creative visual language in ceramics. Prerequisite: ART 330 or FACE 312 Duplicates Credit in former FACE 412 Instruction Mode: Lecture, Lab Grading Option: Letter

ART 434 Sound Art
Units: 2 Terms Offered: Sp A survey of developments in non-traditional musical instrument making in clay including design, fabrication and composition, culminating in a musical performance. Recommended Preparation: ART 130 or FACE 112 Instruction Mode: Lecture Grading Option: Letter

ART 440 Topics in Advanced Sculpture Units: 4 Max Units: 12 Terms Offered: FaSp
Individual direction of the study of aesthetic issues in sculpture; investigation of an individual creative vision. Prerequisite: ART 340 or FASC 306 Duplicates Credit in former FASC 406 Instruction Mode: Lecture, Lab Grading Option: Letter

ART 441 Installation Art
Units: 4 Terms Offered: FaSp
Students challenge the traditional art object as they explore the use of space and time in their artwork. Prerequisite: ART 140 Recommended Preparation: any upper division art or design course Instruction Mode: Lecture Grading Option: Letter

ART 442 Art and Technology
Units: 4 Terms Offered: Sp An interdisciplinary course between art and engineering that addresses creative thinking in the manipulation of media and the communication of ideas. Duplicates Credit in former FASC 436 Instruction Mode: Lecture Grading Option: Letter

ART 443 Woodworking
Units: 2 Terms Offered: FaSp Exploration of the essential skills in woodworking through lecture, demonstration and hands-on training. Includes instruction in joinery and relevant machinery and hand tools. Instruction Mode: Lecture Grading Option: Letter

ART 444 Modeling and Mold Making
Units: 2 Terms Offered: FaSp Introduction to plaster mold making using clay and wax for both ceramics and sculpture. Exploration of various casting materials. Duplicates Credit in former FASC 136 and former ART 142 Instruction Mode: Lecture Grading Option: Letter

ART 445 Metal
Units: 2 Terms Offered: FaSp Introduction to metal in fine art. Emphasis on technical efficiencies and effective solutions working in a variety of metals. Recommended Preparation: ART 140 Duplicates Credit in former FASC 236 and former ART 242 Instruction Mode: Lecture Grading Option: Letter

ART 450 Topics in Advanced Photography
Units: 4 Max Units: 12 Terms Offered: FaSp In-depth exploration of photographic and artistic concepts as they apply to the articulation of personal work. Prerequisite: ART 350 or FAPH 309 Duplicates Credit in former FAPH 409 Instruction Mode: Lecture, Lab Grading Option: Letter

ART 460 Post-Material Studio
Units: 4 Max Units: 08 Terms Offered: FaSp Advanced studio and discussion course that affords the student a conceptual and practical platform from which to discuss and realize a major work or series. Recommended Preparation: any upper division studio course or permission of instructor. Duplicates Credit in former FAIN 440 Instruction Mode: Lecture Grading Option: Letter

ART 461 Techniques in After Effects
Units: 2 Terms Offered: FaSp An immersive experience in the artistic culture of a specific city or region that includes a short (less than two weeks) international trip. Registration Restriction: Open only to seniors in Fine Arts Instruction Mode: Lecture Grading Option: Letter

ART 480 International Art Study Tour
Units: 2 Max Units: 02 Terms Offered: FaSp
An immersive experience in the artistic culture of a specific city or region that includes a short (less than two weeks) international trip. Instruction Mode: Lecture Grading Option: Letter

ART 484 Contemporary Issues in Art
Units: 4 Max Units: 12 Terms Offered: FaSp
An advanced studio course whose aim is to expand a student's relationship to, and understanding of, contemporary artistic dissemination, discourse, and display via a series of rotating topics. Recommended Preparation: Junior standing and permission of instructor. Instruction Mode: Lecture Grading Option: Letter

ART 485 Studio Capstone
Units: 4 Terms Offered: Sp A faculty mentored course supporting advanced conceptual exploration and the development of an ambitious, self-defined series or body of work; may culminate in a group exhibition or individual project. Registration Restriction: Open only to seniors in Art and Fine Arts majors. Instruction Mode: Lecture Grading Option: Letter

ART 490 Directed Research
Units: 1, 2, 3, 4, 5, 6, 7, 8 Max Units: 12 Terms Offered: FaSpSm Individual research and readings. Credit Restriction: Not available for graduate credit. Duplicates Credit in former FA 490 Instruction Mode: Lecture Grading Option: Letter

ART 494a Senior Thesis
Units: 2 Max Units: 04 Terms Offered: FaSp
Individual research under the guidance of faculty member for senior-level BFA students, leading to a substantial paper or other project. Registration Restriction: Open only to seniors in Fine Arts Instruction Mode: Lecture Grading Option: Letter

ART 494b Senior Thesis
Units: 2 Terms Offered: FaSp
Individual research under the guidance of faculty member for senior level BFA students, leading to a substantial paper or project. Prerequisite: ART 494a Registration Restriction: Open only to seniors in Fine Arts Instruction Mode: Lecture Grading Option: Letter

ART 499 Special Topics
Units: 2, 3, 4 Max Units: 08 Terms Offered: FaSpSm Comprehensive exploration of particular aspects of visual art. Duplicates Credit in former FA 499 Instruction Mode: Lecture Grading Option: Letter

ART 515 Visiting Artist and Scholar Seminar
Units: 2 Max Units: 4.0 Terms Offered: FaSp
Lecture and discussion course in the professional practice of art featuring formal presentations by visiting artists and scholars. Duplicates Credit in FA 515. Instruction Mode: Lecture Grading Option: Letter Crosslisted as CRIT 515

ART 520 Individual Studies
Units: 2 Max Units: 9.0 Terms Offered: FaSp Investigation of creative problems through various media. Course may be repeated. Duplicates Credit in former FA 520. Instruction Mode: Lecture Grading Option: Letter
ART 525 Making and Curating Art: Pedagogy and Praxis
Units: 4 Terms Offered: Sp (Enroll in CRIT 525)

ART 530 Art and Globalization
Units: 4 Terms Offered: SpSm Tracks the historical emergence and proliferation of globalization and its relationship to political, economic and cultural phenomena. Instruction Mode: Lecture Grading Option: Letter Crosslisted as CRIT 530

ART 535 Group Critique
Units: 2 Max Units: 8 Terms Offered: FaSp Presentation and critique which builds students’ skills in presenting and contextualizing their artwork for peer review; analytic discussion regarding directions in contemporary art. Instruction Mode: Lecture Grading Option: Letter

ART 590 Directed Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Research leading to graduate degree. Maximum units which may be applied to degree determined by department. Duplicates Credit in former FA 590. Instruction Mode: Lecture Grading Option: Credit/No Credit

ART 594a Master’s Thesis
Units: 2 Credit on acceptance of Thesis. Registration Restriction: Open only to masters students. Duplicates Credit in former FA 594abz. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

ART 594b Master’s Thesis
Units: 2 Credit on acceptance of Thesis. Registration Restriction: Open only to masters students. Duplicates Credit in former FA 594abz. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

ART 594c Master’s Thesis
Units: 0 Credit on acceptance of Thesis. Registration Restriction: Open only to masters students. Duplicates Credit in former FA 594abz. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

ART 599 Special Topics
Units: 1, 2, 3, 4, 5, 6, 7, 8 Max Units: 8.0 Comprehensive exploration of particular aspects of the history of art. Duplicates Credit in former FA 599. Instruction Mode: Lecture Grading Option: Letter

Arts and Letters

ARTL 100g Arts and Letters
Units: 4 Terms Offered: FaSp Critical analysis of significant works of literature, philosophy, visual arts, music and/or film; intensive reading and writing to develop knowledge of analytical techniques in the humanities. Limited to freshmen and sophomores. Satisfies Old General Education in Category V: Arts and Letters Duplicates Credit in ARLT 100 and in former LTA 100 and in former LTA 101. Instruction Mode: Lecture Grading Option: Letter

ARTL 101g Studies in Arts and Letters
Units: 4 Terms Offered: FaSp Critical analysis of significant works of literature, philosophy, visual arts, music and/or film; intensive reading and writing to develop knowledge of analytical techniques in the humanities. Limited to students with sophomore status or higher. Satisfies Old General Education in Category V: Arts and Letters Duplicates Credit in ARLT 100 and in former LTA 100 and in former LTA 101. Instruction Mode: Lecture Grading Option: Letter

ARTL 105g First Year Seminar: Arts and Letters
Units: 4 Terms Offered: FaSpSm Critical analysis of significant literary, philosophical, and artistic texts; intensive reading and writing to develop analytical skills in interpreting and responding to original works. Satisfies Old General Education in Category V: Arts and Letters Duplicates Credit in ARLT 100g and ARLT 101g. Instruction Mode: Lecture Grading Option: Letter

Arts Leadership

ARTL 310 Music and Dance In Paris Salon Culture
Units: 2 Terms Offered: Sp During this twenty-four day Maymester course in Paris, students will explore moments in Parisian salon culture as sites of artistic inspiration and collaboration. Registration Restriction: Priority will be given to majors in Thornton and Kaufman, then minors in Thornton and Kaufman, then the general USC population. Instruction Mode: Lecture Grading Option: Letter

ARTL 490x Directed Research
Units: 1, 2, 3, 4, 5, 6, 7, 8 Max Units: 12.0 Individual research and readings. Registration Restriction: Open only to juniors and seniors Instruction Mode: Lecture Grading Option: Letter

ARTL 499 Special Topics
Units: 2, 3, 4 Max Units: 8.0 Selected topics of current interest. Instruction Mode: Lecture Grading Option: Letter

ARTL 500 Arts Leadership and Arts Entrepreneurship
Units: 2 Terms Offered: FaSp Introduction to key issues involved in both managing an arts organization and creating sustainable enterprise. For students in music, arts, public policy, and related fields. Instruction Mode: Lecture Grading Option: Letter

ARTL 501 Executive Leadership in the Arts
Units: 2 Terms Offered: FaSp Investigation into a variety of leadership approaches within an arts organization, with a focus on the development of the student's own leadership capacity. Instruction Mode: Lecture Grading Option: Letter

ARTL 502 Issues in the Arts and the Contemporary World
Units: 2 Terms Offered: FaSp Examination of major environmental trends including changing demographics, new business models, rapidly developing technology and globalization, and understanding their implications for the arts. Instruction Mode: Lecture Grading Option: Letter

ARTL 503 Arts Organizations: Innovation and New Models
Units: 2 Terms Offered: FaSp Designed for current and future arts leaders interested in looking critically at organizational practice and bringing innovative solutions to old problems in a contemporary context. Instruction Mode: Lecture Grading Option: Letter

ARTL 504 Arts and the Community: Current Practice and New Visions
Units: 2 Terms Offered: FaSp Exploration of a range of ideas, ideologies and strategies that have historically been used to connect arts organizations to their communities. Instruction Mode: Lecture Grading Option: Letter

ARTL 510 Arts Leadership Practicum
Units: 2 Max Units: 4.0 Terms Offered: FaSp Year-long practicum which puts ideas and concepts into practice. Each student will conceptualize, develop, and complete an arts project of his/her own choosing. Instruction Mode: Lecture Grading Option: Letter

ARTL 512 Essentials of Orchestra Management
Units: 2 Ten day seminar that provides in depth, participative instruction in orchestra management and the practicalities of being a successful leader of an arts organization. Instruction Mode: Lecture Grading Option: Letter

ARTL 520 Arts Leadership Intensive
Units: 1 Five-day, intensive course that serves as a deep-dive introduction to the field for all Arts Leadership students. Instruction Mode: Lecture Grading Option: Letter

ARTL 590 Directed Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Research leading to the master's degree. Maximum units which may be applied to the degree to be determined by the department. Instruction Mode: Lecture Grading Option: Credit/No Credit

ARTL 599 Special Topics
Units: 2, 3, 4 Max Units: 8.0 Selected topics of current interest. Instruction Mode: Lecture Grading Option: Letter

Communication and Journalism

ASCJ 020x Annenberg Skills
Units: 1 Intensive skills boot camps teach the verbal, written, and digital skills needed for "real world" jobs. Not available for degree credit. Instruction Mode: Lecture Grading Option: Credit/No Credit

ASCJ 100 The Changing World of Communication and Journalism
Units: 2 Survey of major themes in media and communication; exploring what it means to be a professional in the fields of communication, journalism, and public relations. Instruction Mode: Lecture Grading Option: Letter

ASCJ 200 Navigating Media and News in the Digital Age
Units: 4 Terms Offered: FaSp Students will be engaged as discriminating media/news consumers and contributors. Emphasis on critical skills needed to understand, employ, enjoy and help shape our media landscape. Instruction Mode: Lecture, Lab Grading Option: Letter

ASCJ 210 Contours of Change in Media and Communication
Units: 4 Provides an introduction to
cultivating a curious, critical, and proactive approach to the challenges of social change. Students will be encouraged to develop an expansive and critical definition and understanding of change as it relates to the role of media and communication in producing and responding to political and cultural transformations that shape our status as citizens and our ideas of citizenship. Instruction Mode: Lecture, Discussion Grading Option: Letter

ASTC 220x Annenberg Experimental
Units: 0, 1, 2 Max Units: 6.0 Cutting-edge, experimental, experiential, interdisciplinary, results-based classes taught in new ways and places. Instruction Mode: Lecture Grading Option: Credit/No Credit

ASTC 420 Annenberg Collaboratory
Units: 0, 1, 2, 3, 4 Max Units: 8.0 Collaborative, cutting-edge, experimental, experiential, interdisciplinary, results-based classes taught in new ways and places. Recommended Preparation: ASTC 220. Instruction Mode: Lecture Grading Option: Letter

Astronautics and Space Technology
ASTE 101L Introduction to Astronautics
Units: 4 Terms Offered: Fa Gateway to the Astronautical Engineering major. Introduction to space, space exploration and the space business. Elements of orbits, spacecraft systems, rocket propulsion, and communications. Laboratory: introduction to graphics, computation and simulation. Instruction Mode: Lecture, Lab Required Grading Option: Letter

ASTE 280 Foundations of Astronautical Engineering
Units: 3 Terms Offered: Sp Coordinate systems and transformations. Spherical trigonometry. Orientation angles. Spacecraft orbits and orbital maneuvers. Introduction to rocket propulsion, spacecraft altitude dynamics and control and space environment. Prerequisite: MATH 226g and PHYS 151LQ Recommended Preparation: Skill in MATLAB programming. Instruction Mode: Lecture Grading Option: Letter

ASTE 291 Team Projects I
Units: 1 Max Units: 4.0 Terms Offered: FaSp Participation in ASTE undergraduate student team projects. Intended for lower-division students or those with little prior project experience. Instruction Mode: Lecture Grading Option: Letter

ASTE 301a Thermal and Statistical Systems
Units: 3 Terms Offered: FaSp Thermodynamics and statistical mechanics; kinetics of atoms, molecules, and photons; compressible fluid dynamics. Prerequisite: MATH 245, PHYS 153L. Duplicates Credit in former AME 311ab. Instruction Mode: Lecture Grading Option: Letter

ASTE 301b Thermal and Statistical Systems
Units: 3 Terms Offered: FaSp Thermodynamics and statistical mechanics; kinetics of atoms, molecules, and photons; compressible fluid dynamics. Prerequisite: MATH 245, PHYS 153L. Duplicates Credit in former AME 311ab. Instruction Mode: Lecture Grading Option: Letter

ASTE 331a Spacecraft Systems Engineering
Units: 3 Terms Offered: Fa Introduction to spacecraft systems; propulsion, attitude dynamics and control, structures, communications, power, thermal control. Space environment. Systems engineering as applied to spacecraft. Prerequisite: ASTE 280. Recommended Preparation: Skill in MATLAB programming and spreadsheets. Corequisite: PHYS 153L. Duplicates Credit in former ASTE 330 Instruction Mode: Lecture Grading Option: Letter

ASTE 331b Spacecraft Systems Engineering
Units: 3 Terms Offered: Sp Introduction to spacecraft systems; propulsion, attitude dynamics and control, structures, communications, power, thermal control. Space environment. Systems engineering as applied to spacecraft. Prerequisite: ASTE 331a Recommended Preparation: Skill in MATLAB programming and spreadsheets. Duplicates Credit in former ASTE 330 Instruction Mode: Lecture Grading Option: Letter

ASTE 390 Special Problems
Units: 1, 2, 3, 4 Supervised, individual studies. No more than one registration permitted. Enrollment by petition only.

ASTE 421x Space Mission Design
Units: 3 Terms Offered: Sp Space systems engineering process: requirements definition; trade studies; system integration; technical reviews; cost and schedule development; case studies; ethics. Capstone design experience. Prerequisite: ASTE 330. Registration Restriction: Open only to seniors. Instruction Mode: Lecture Grading Option: Letter

ASTE 445 Molecular Gas Dynamics
Units: 3 Physical description of kinetic nature of gas flows; distribution function; introduction to the Boltzmann equation; free-molecule flow; surface and molecular reflection properties; Monte Carlo flow calculations. Recommended Preparation: AME 300 or PE 310. Duplicates Credit in former AME 485. Instruction Mode: Lecture Grading Option: Letter

ASTE 470 Spacecraft Propulsion
Units: 3 Introduction to rocket engineering. Space missions and thrust requirements. Compressible gas dynamics. Propellant chemistry and thermodynamics. Liquid- and solid-fueled rockets. Nuclear and electric propulsion. Prerequisite: senior or graduate standing. Instruction Mode: Lecture Grading Option: Letter

ASTE 480 Spacecraft Dynamics
Units: 3 Two-body motion, rigid-body motion, attitude dynamics and maneuvers, spacecraft stabilization: gravity gradient, reaction wheels, magnetic torques, thruster attitude control. Prerequisite: senior standing. Instruction Mode: Lecture Grading Option: Letter

ASTE 490x Directed Research
Units: 1, 2, 3, 4, 5, 6, 7, 8 Max Units: 12.0 Terms Offered: FaSpSm Individual research and reading. Instruction Mode: Lecture Grading Option: Letter

ASTE 491 Team Projects II
Units: 1 Max Units: 4.0 Terms Offered: FaSp Participation in ASTE undergraduate student team projects. Intended for students with prior project experience. Instruction Mode: Lecture Grading Option: Letter

ASTE 499 Special Topics
Units: 2, 3, 4 Max Units: 8.0 Course content to be selected each semester. Current developments in astronautics, space technology, and related fields. Instruction Mode: Lecture Grading Option: Letter

ASTE 501a Physical Gas Dynamics
Units: 3 Terms Offered: FaSp Molecular structure; radiative processes; microscopic description of gas phenomena; translational, rotational, vibrational, and electronic freedom degrees; particle energy distributions; microscopic representation of thermodynamic functions. Prerequisite: graduate standing or departmental approval. Instruction Mode: Lecture Grading Option: Letter

ASTE 501b Physical Gas Dynamics

ASTE 505a Plasma Dynamics

ASTE 505b Plasma Dynamics

ASTE 520 Spacecraft System Design
Units: 3 System components; vehicle structure, propulsion systems, flight dynamics, thermal control, power systems, telecommunication. Interfaces and tradeoffs between these components. Testing, system reliability, and integration. Instruction Mode: Lecture Grading Option: Letter

ASTE 523 Design of Low Cost Space Missions
Units: 3 Terms Offered: Sp Reviews all aspects of space mission design for practical approaches to reducing cost. Examines "LightSat" mission experience and potential applicability to large-scale missions. Graduate standing in engineering or science. Recommended Preparation: ASTE 520 or some experience in space engineering. Instruction Mode: Lecture Grading Option: Letter

ASTE 524 Human Spaceflight
Units: 3 Engineering, technologies, and systems for human spaceflight. Life support, space environments, crew accommodations. Mission operations,
ASTE 527 Space Studio Architecting
Units: 3 Terms Offered: Sp Programmatic/conceptual design synthesis/choice creation methods for complex space missions. Aerospace system engineering/architecture tools to create innovative projects. Evaluated by faculty/industry/NASA experts. Recommended Preparation: ASTE 520 or experience in space industry. Instruction Mode: Lecture Grading Option: Letter

ASTE 528 Reliability of Space Systems
Units: 3 Terms Offered: Fa Reliable space system design and operations for human and robotic space, applications, and commercial space. Reliability of space systems, subsystems, hardware, software and human reliability. Recommended Preparation: ASTE 520 or equivalent course on fundamentals of space systems Registration Restriction: Open only to graduate students in science or engineering Instruction Mode: Lecture Grading Option: Letter

ASTE 529 Safety of Space Systems and Space Missions
Units: 3 Engineering methodology and analysis techniques for safety certification and mission assurance of robotic and human space systems and space missions by government and commercial industry. Recommended Preparation: ASTE 520 or some experience in space engineering. Registration Restriction: Open only to Engineering graduate students. Instruction Mode: Lecture Grading Option: Letter

ASTE 535 Space Environments and Spacecraft Interactions
Units: 3 Space environments and interactions with space systems. Vacuum, neutral and ionized species, plasma, radiation, micrometeoroids. Phenomena important for spacecraft operations. Instruction Mode: Lecture Grading Option: Letter

ASTE 545 Computational Techniques in Rarefied Gas Dynamics

ASTE 546 Computational Plasma Dynamics
Units: 3 Terms Offered: Sp Plasma simulation techniques; particle-in-cell (PIC); PIC with Monte Carlo; computational magnetohydrodynamics. Parallelization. Applications in engineering and space plasma physics. Prerequisite: ASTE 505a. Instruction Mode: Lecture Grading Option: Letter

ASTE 552 Spacecraft Thermal Control
Units: 3 Terms Offered: Sp Spacecraft and orbit thermal environments; design, analysis, testing of spacecraft thermal control system and components; active and passive thermal control, spacecraft and launch vehicle interfaces. Instruction Mode: Lecture Grading Option: Letter

ASTE 553 Systems for Remote Sensing from Space
Units: 3 The operation, accuracy, resolution, figures of merit, and application of instruments which either produce images of ground scenes or probe the atmosphere as viewed primarily from space. Instruction Mode: Lecture Grading Option: Letter

ASTE 554 Spacecraft Sensors
Units: 3 Terms Offered: Fa Spacecraft sensors from concept and design to building, testing, interfacing, integrating, and operations. Optical and infrared sensors, radiometers, radars, phased arrays, signal processing, noise reduction. Recommended Preparation: ASTE 520. Instruction Mode: Lecture Grading Option: Letter

ASTE 555 Space Cryogenic Systems and Applications
Units: 3 Terms Offered: Fa Theory and practice in cryogenic engineering as applied to space systems, emphasizing sensor cooling techniques; cryostats; cryoradiators; mechanical cryocoolers; introductions to superfluidity and superconductivity. Recommended Preparation: ASTE 520 or equivalent course on fundamentals of space systems Registration Restriction: Graduate standing in science or engineering Instruction Mode: Lecture Grading Option: Letter

ASTE 556 Spacecraft Structural Dynamics
Units: 3 Applied analytical methods (vibrations, control and multidegree of freedom systems, finite element modeling, spacecraft applications); requirements definition process; analytical cycles; and design verification. Instruction Mode: Lecture Grading Option: Letter

ASTE 557 Spacecraft Structural Strength and Materials
Units: 3 Spacecraft structural strength analysis and design concepts overview; spacecraft material selection; analysis of composite sandwich and multidegree of freedom systems, finite element modeling, spacecraft applications); requirements definition process; analytical cycles; and design verification. Instruction Mode: Lecture Grading Option: Letter

ASTE 561 Human Factors of Spacecraft Operations
Units: 3 Terms Offered: Fa Engineering fundamentals and experimental methods of human factors design and evaluation for spacecraft which incorporate human-in-the-loop control. Instruction Mode: Lecture Grading Option: Letter

ASTE 562 Spacecraft Life Support Systems
Units: 3 Terms Offered: Sp Engineering fundamentals of spacecraft systems design and analysis to support human life in the space environment. Prerequisite: ASTE 524 Instruction Mode: Lecture Grading Option: Letter

ASTE 566 Ground Communications for Satellite Operations
Units: 3 Terms Offered: Sp Theory, practice, architecture, operations of ground satellite communications with satellites. Practical implementation of satellite communications system and reception and analysis of satellite transmitted signals. Prerequisite: ASTE 520 Registration Restriction: Open only to USC Viterbi School of Engineering students Instruction Mode: Lecture, Lab Grading Option: Letter

ASTE 570 Liquid Rocket Propulsion
Units: 3 Terms Offered: Sp Liquid-propelled rocket propulsion systems. Capillary devices for gas-free liquid acquisition in zero gravity. Ground and in-orbit operations. Propellant life predictions and spacecraft end-of-life de-orbiting strategies. Prerequisite: ASTE 470 Instruction Mode: Lecture Grading Option: Letter

ASTE 571 Solid Rocket Propulsion
Units: 3 Terms Offered: Fa Fundamental concepts, implementation and applications of solid rocket propulsion, Propellants, performance, ballistics, structures and systems used for space launch vehicles, sounding rockets and rocket motors. Prerequisite: ASTE 470 or ASTE 575 Instruction Mode: Lecture Grading Option: Letter

ASTE 572 Advanced Spacecraft Propulsion
Units: 3 Terms Offered: Fa Fundamentals, technologies, and design of space launch vehicles. Propulsion, trajectory analysis and optimization, static and dynamic structural loads, stability, control, and safety. Recommended Preparation: ASTE 470 or equivalent course work in spacecraft propulsion Instruction Mode: Lecture Grading Option: Letter

ASTE 574 Space Launch Vehicle Design
Units: 3 Terms Offered: Fa Fundamentals, technologies, and design of space launch vehicles. Propulsion, trajectory analysis and optimization, static and dynamic structural loads, stability, control, and safety. Recommended Preparation: ASTE 470 or equivalent course work in spacecraft propulsion Instruction Mode: Lecture Grading Option: Letter

ASTE 575 Rocket and Spacecraft Propulsion
Units: 3 Terms Offered: Sp Space missions, rocket dynamics, and propulsion requirements. Thermodynamics and combustion; compressible gas dynamics in nozzles. Liquid- and solid-propellant rockets; launch systems. Advanced propulsion. Registration Restriction: Open only to graduate students Duplicates Credit in ASTE 470 Instruction Mode: Lecture Grading Option: Letter

ASTE 577 Entry and Landing Systems for Planetary Surface Exploration
Units: 3 Terms Offered: Sp Multi-disciplinary engineering theory, simulation techniques, and unique technologies for landing robotic and human space vehicles on the surface of planets and moons. Recommended Preparation: ASTE 520 or similar course in fundamentals of space systems Registration Restriction: Open only to engineering students Instruction Mode: Lecture Grading Option: Letter

ASTE 580 Orbital Mechanics
Units: 3 Physical principles; two-body and central force motion; trajectory connection maneuvers; position and velocity in conic orbits; Lambert's problem; celestial mechanics; orbital perturbations. Instruction Mode: Lecture Grading Option: Letter

<td>Supervised, individual studies. No more than one registration permitted. Enrollment by petition only. Instruction Mode: Lecture Grading Option: Letter</td>
</tr>
<tr>
<td><strong>ASTR 400 The Solar System</strong></td>
</tr>
<tr>
<td>Units: 4</td>
</tr>
<tr>
<td>Terms Offered: Fa</td>
</tr>
<tr>
<td>Earth's motions: planets and their satellites; comets, meteorites, interplanetary matter; elementary celestial mechanics. Prerequisite: MATH 226. Instruction Mode: Lecture Grading Option: Letter</td>
</tr>
<tr>
<td><strong>ASTR 422 Galaxies and Large-Scale Structures in the Universe</strong></td>
</tr>
<tr>
<td>Units: 4, 2 years</td>
</tr>
<tr>
<td>Terms Offered: Sp</td>
</tr>
<tr>
<td>Galaxies and clusters of galaxies: their content, structure, dynamics, distribution, and motions; the cosmic microwave background: theory and observation; elements of observational cosmology. Prerequisite: PHYS 153L or PHYS 163L Instruction Mode: Lecture Grading Option: Letter</td>
</tr>
<tr>
<td><strong>Astronomy</strong></td>
</tr>
<tr>
<td><strong>ASTR 424 Cosmology</strong></td>
</tr>
<tr>
<td>Units: 4</td>
</tr>
<tr>
<td>Terms Offered: Sp</td>
</tr>
<tr>
<td>Concepts of space-time, general relativity applied to an homogeneous and expanding universe. Universe's content and thermal history. Introduction to current observational tests of cosmology. Prerequisite: PHYS 153L or PHYS 163L Instruction Mode: Lecture Grading Option: Letter</td>
</tr>
<tr>
<td><strong>ASTR 450 Stellar Astrophysics</strong></td>
</tr>
<tr>
<td>Units: 4</td>
</tr>
<tr>
<td>Terms Offered: Fa</td>
</tr>
<tr>
<td>Observation and theory of stellar atmospheres and stellar interiors. Theory of stellar evolution. Physical and astronomical significance of the end states of stellar evolution. Prerequisite: PHYS 153L or PHYS 163L Instruction Mode: Lecture Grading Option: Letter</td>
</tr>
</tbody>
</table>
ASTR 490x Directed Research
Units: 1, 2, 3, 4, 5, 6, 7, 8 Max Units: 12.0
Individual research and readings. Not available for graduate credit. Prerequisite: one-semester division in astronomy and departmental approval. Instruction Mode: Lecture, Lab Grading Option: Letter

ASTR 499 Special Topics
Units: 1, 2, 3, 4, 5, 6, 7, 8 Max Units: 08 Special Topics in Astronomy. Prerequisite: PHYS 304. Instruction Mode: Lecture Grading Option: Letter

ASTR 540 Advanced Cosmology
Units: 3 Perturbed Einstein's and Boltzman equations. Universe's content, anisotropies: initial conditions, linear evolution, comparisons with observations. Prerequisite: PHYS 504, PHYS 508a, PHYS 508b, PHYS 510, PHYS 518. Instruction Mode: Lecture Grading Option: Letter

ASTR 740 Selected Topics in Astrophysics
Units: 3 Max Units: 6.0 Selected topics in cosmology. Course content includes dark matter, dark energy, gravitational lensing, the cosmic microwave background, inflation, galaxy and galaxy cluster surveys. Prerequisite: ASTR 540. Instruction Mode: Lecture Grading Option: Letter

Business Entrepreneurship
BAEP 310 Launching Disruptive Ventures
Units: 4 Terms Offered: FaSp Fundamentals of entrepreneurship tracing new venture evolution, including recognition of disruptive opportunities, entrepreneurial financial analysis, and understanding the innovator's and investor's mindset. Prerequisite: ACAD 181 or BUAD 201x. Duplicates Credit in BAEP 423, BAEP 450, BAEP 451, BUAD 301. Instruction Mode: Lecture Grading Option: Letter Crosslisted as ACAD-310

BAEP 423 Management of Small Businesses
Units: 4 Terms Offered: FaSp, Strategic, organizational, financial, and human issues facing the small business. Duplicates Credit in BAEP 310 and BAEP 423 or BAEP 450 and BAEP 451 and BUAD 301. Instruction Mode: Lecture Grading Option: Letter

BAEP 450 Fundamentals of Entrepreneurship
Units: 4 Terms Offered: FaSpSm Starting and managing one's own business: developing a viable concept, organizing the enterprise, market and financial planning, and controlling the organization. Duplicates Credit in BAEP 310, BAEP 423, BAEP 450, BUAD 301. Instruction Mode: Lecture Grading Option: Letter

BAEP 451 The Management of New Enterprises
Units: 4 Terms Offered: FaSpSm Developing and conceptual skills in entrepreneurship and venture management. Duplicates Credit in BAEP 310, BAEP 423, BAEP 450, BUAD 301. Instruction Mode: Lecture Grading Option: Letter

BAEP 452 Feasibility Analysis
Units: 4 Terms Offered: FaSp Students develop, analyze, and validate entrepreneurial concepts (including marketing, operational, and financial considerations) using customer feedback and risk assessment to conclude worthiness to pursue. Prerequisite: BAEP 310 or BAEP 423 or BAEP 450 or BAEP 451 or BUAD 301. Instruction Mode: Lecture Grading Option: Letter

BAEP 453 Venture Management
Units: 4 Terms Offered: FaSp Design and application of organization structures and systems in management of new ventures. Prerequisite: BAEP 310 or BAEP 423 or BAEP 450 or BAEP 451 or BUAD 301. Instruction Mode: Lecture Grading Option: Letter

BAEP 454 Venture Initiation: Launching and Scaling Your Startup
Units: 4 Terms Offered: Sp Learn to build a startup from concept to reality. Focus on real-world entrepreneurial action and execution. Prerequisite: BAEP 452. Instruction Mode: Lecture Grading Option: Letter

BAEP 455 Founder's Dilemmas
Units: 4 Terms Offered: FaSp Prepares potential founders, hires, and investors for the decisions they will face both before and during their involvement with new ventures. Registration Restriction: Open only to sophomores, juniors, and seniors Instruction Mode: Lecture Grading Option: Letter

BAEP 460 Seminar in Entrepreneurship
Units: 2 Max Units: 4.0 Terms Offered: FaSpSm Perspectives into the art and science of entrepreneurship under the guidance of a master instructor. Specific topics vary. Instruction Mode: Lecture Grading Option: Letter

BAEP 465 Digital Playbook for Entrepreneurs: Creating a Tech Startup
Units: 2 Terms Offered: FaSpSm Learn to use digital tools and technologies, such as social media, mobile, cloud computing, and e-commerce, to start and grow entrepreneurial ventures. Instruction Mode: Lecture Grading Option: Letter

BAEP 466 Growth Hacking: Scaling Startups
Units: 2 Terms Offered: FaSp Accelerate the growth of an entrepreneurial business with applied analytics tools and methods. Instruction Mode: Lecture Grading Option: Letter

BAEP 470 The Entrepreneurial Mindset — Taking the Leap
Units: 2 Terms Offered: Sp A deeper insight into the entrepreneurial mind, how it approaches opportunities and challenges and gives leadership to an organization. Instruction Mode: Lecture Grading Option: Letter

BAEP 471 Social Innovation Design Lab
Units: 4 Terms Offered: Sp Introduction to design thinking as applied to innovation and entrepreneurship. Hands-on projects to create solutions to specific societal problems faced by underprivileged communities. Registration Restriction: Open only to sophomores, juniors and seniors. Instruction Mode: Lecture Grading Option: Letter

BAEP 472 The Science of Peak Performance
Units: 2 Terms Offered: Sp Ingrains expertise and application of the science of peak performance, broadens preparation for personal challenge, and builds business-centered critical thinking and applied analytical skills. Registration Restriction: Open only to sophomores, juniors and seniors Instruction Mode: Lecture Grading Option: Letter

BAEP 473 Sales Mindset for Entrepreneurs
Units: 2 Terms Offered: FaSp The sales planning decisions that entrepreneurs make, including how to accelerate startup revenue, what metrics drive success and how to build great sales teams. Instruction Mode: Lecture Grading Option: Letter

BAEP 474 The Entrepreneur's Guide to Intellectual Property
Units: 2 Terms Offered: FaSp The fundamentals of intellectual property – its value, its basic workings, and its role in entrepreneurship, business in general, science, the arts, and the professions. Instruction Mode: Lecture Grading Option: Letter

BAEP 475 Entertainment Entrepreneurship
Units: 2 Terms Offered: FaSp Explore the current entrepreneurial trends and opportunities in the entertainment industry and uncover the key success factors for entrepreneurs in this industry. Instruction Mode: Lecture Grading Option: Letter

BAEP 480 Entrepreneurial Family Business
Units: 4 Terms Offered: FaSp Explores the dynamics of family and privately held businesses. Exploring generational and extended family issues, opportunities and obstacles faced in today’s environment. Instruction Mode: Lecture Grading Option: Letter

BAEP 491 Introduction to Social Entrepreneurship
Units: 4 Terms Offered: FaSp Analysis of social enterprise models from micro-finance to job development. Analysis of basic issues regarding the difference between socially responsible companies, for-profit, and non-profit-run enterprises. Instruction Mode: Lecture Grading Option: Letter

BAEP 495 Practicum in Business Issues (Internship)
Units: 1 Terms Offered: FaSpSm Combined classroom discussion and field application of business theories and practices; part-time internship employment. Project to be jointly defined by student, employer and professor. Instruction Mode: Lecture Grading Option: Credit/No Credit

BAEP 496 The Digital Startup Launchpad
Units: 2 Terms Offered: FaSp Real-life challenge of imagining, prototyping, testing and iterating, building, pricing, marketing, distributing and selling a digital product or service. Prerequisite: BAEP 452 and ITP 466 and ITP 476 Corequisite: ITP 496 Instruction Mode: Lecture Grading Option: Letter
BAEP 497 Field Project in Entrepreneurship
Units: 2 Max Units: 4.0 Terms Offered: FaSpSm Individual or team projects solving real problems for an enterprise. Situation analyses; research proposal composition; field research techniques; statistical analysis; oral and written presentations. Registration Restriction: Open only to juniors and seniors. Instruction Mode: Lecture Grading Option: Credit/No Credit

BAEP 499 Special Topics
Units: 2, 3, 4 Max Units: 8.0 Terms Offered: FaSpSm Current developments in the field of entrepreneurship. Topics to be selected each semester. Instruction Mode: Lecture Grading Option: Letter

BAEP 549 The Entrepreneurial Journey
Units: 2 Terms Offered: FaSpSm An introduction to entrepreneurship with a focus on opportunity recognition and the entrepreneurial mindset. Development of knowledge and skills in launching new ventures. Registration Restriction: Online registration open only to BUSV, ENTR, and MMM majors. Duplicates Credit in BAEP 550, BAEP 551, GSBA 550a and GSBA 550b Instruction Mode: Lecture Grading Option: Letter

BAEP 550 Entrepreneurship and Venture Management
Units: 1.5 Terms Offered: FaSpSm Develop conceptual and practical knowledge in entrepreneurship and new venture management. Registration Restriction: Online registration limited to graduate business and accounting students. Duplicates Credit in BAEP 549, BAEP 551, GSBA 550a and GSBA 550b Instruction Mode: Lecture Grading Option: Letter

BAEP 551 Introduction to New Ventures
Units: 3 Terms Offered: FaSpSm Study and development of analytical and conceptual skills in the management of new enterprises and new ventures within large organizations. Registration Restriction: Online registration limited to graduate business and accounting students. Duplicates Credit in BAEP 549, BAEP 550, GSBA 550a and GSBA 550b Instruction Mode: Lecture Grading Option: Letter

BAEP 552 Venture Feasibility
Units: 3 Terms Offered: FaSpSm Develop, evaluate, and pursue new business concepts through the application of analytical techniques and hands-on customer discovery activities. Corequisite: BAEP 549 or BAEP 550 or BAEP 551 or GSBA 550b Registration Restriction: Online registration open only to graduate business and accounting majors. Duplicates Credit in BAEP 549, GSBA 550a and GSBA 550b Instruction Mode: Lecture Grading Option: Letter

BAEP 553 Cases in New Venture Management
Units: 1.5, 3 Terms Offered: FaSpSm Cases and readings expose students to the challenges of developing long-range strategies for entrepreneurial ventures. Case work emphasizes developing new industries, growth through strategic alliances, and issues involved in the long-term strategic positioning of emerging companies. Registration Restriction: Online registration open only to graduate accounting and business students Instruction Mode: Lecture Grading Option: Letter

BAEP 554 Venture Initiation
Units: 3 Terms Offered: Sp Learn to launch and scale a new business through entrepreneurial action and execution. Prerequisite: BAEP 552 or BAEP 556 or BAEP 566. Instruction Mode: Lecture Grading Option: Letter

BAEP 555 Founder's Dilemmas: Anticipate and Avoid Startup Pitfalls
Units: 3 Terms Offered: Sp Delves into founders' early decisions about when and whether to found, co-founders, hires, and investors that tend to get them into trouble down the road. Registration Restriction: Online registration open only to graduate accounting and business students. Instruction Mode: Lecture Grading Option: Letter

BAEP 556 Technology Feasibility
Units: 3 Terms Offered: Fa SpLearn critical thinking and analytical skills they need to evaluate, value, and manage technology as intellectual property. Understand the technology commercialization process, use data mining and assessment techniques for patent databases, and study the unique business issues facing high technology start-ups. Registration Restriction: Online registration open only to graduate business and accounting students. Instruction Mode: Lecture Grading Option: Letter

BAEP 557 Technology Commercialization
Units: 3 Terms Offered: Sp Identification, evaluation and commercialization of new technologies. Attention will be placed on the legal, financial and marketing aspects of technology transfer and development. Registration Restriction: Online registration open only to graduate business and accounting students. Instruction Mode: Lecture Grading Option: Letter

BAEP 558 The Entrepreneurial Advisor: Problem Solving for Early-Stage Companies
Units: 1.5, 3 Terms Offered: FaSp Experiential course designed to develop skills in framing and solving complex problems in young companies. Apply skills to real ventures participating in course projects. Registration Restriction: Online registration open only to graduate accounting and business students. Instruction Mode: Lecture Grading Option: Letter

BAEP 559 Investing in New Ventures
Units: 3 Terms Offered: FaSp Focus on the entrepreneurial skill set applied to new venture opportunities. Taught from the field of social impact investing, learn how social entrepreneurs attract for-profit investors and how conscious investors are utilizing investments to achieve social impact. Registration Restriction: Online registration open only to graduate business and accounting majors. Instruction Mode: Lecture Grading Option: Letter

BAEP 560 Acquiring Your Own Business or Opportunity
Units: 3 Terms Offered: Sp Issues faced by the entrepreneur who wishes to acquire an enterprise; appropriateness of an enterprise, understanding funding sources and valuation methods, developing a plan for due diligence, negotiating and consummating the transaction. The acquisition process, approaches to valuation, and the roles of the various parties in negotiating and consummating an acquisition of an existing business. Registration Restriction: Online registration open only to graduate accounting and business students. Instruction Mode: Lecture Grading Option: Letter

BAEP 561 Entrepreneurship in Innovative Industries: Life Sciences
Units: 1.5 Terms Offered: Sp The challenges of new venture creation in the biotechnology, medical device, and healthcare areas; experience, evaluate, and analyze profits of current impact in the life sciences. Registration Restriction: Online registration open only to graduate accounting and business students. Instruction Mode: Lecture Grading Option: Letter

BAEP 562 Entrepreneurship in eCommerce
Units: 1.5 Terms Offered: FaSp Introduction to building, funding, and running an entrepreneurial eCommerce business. Registration Restriction: Online registration open only to graduate business and accounting students. Instruction Mode: Lecture Grading Option: Letter

BAEP 563 Corporate Entrepreneurship
Units: 3 Terms Offered: Sp How established organizations build successful new businesses through corporate venturing and intrapreneurship. Learn to apply an entrepreneurial mindset and entrepreneurial frameworks within an established organization. Registration Restriction: Online registration open only to graduate accounting and business students. Instruction Mode: Lecture Grading Option: Letter

BAEP 564 Investing in Impact Ventures
Units: 3 Terms Offered: Sp Exploring the field of social impact investing, learn how social entrepreneurs attract for-profit investors and how conscious investors are utilizing investments to achieve social impact. Registration Restriction: Online registration open only to graduate business and accounting majors. Instruction Mode: Lecture Grading Option: Letter

BAEP 566 Cases in Feasibility Analysis for Social Ventures
Units: 3 Terms Offered: Fa Study of analytical techniques used to evaluate business concepts with a specific focus on the development of a new social venture. Recommended Preparation: BAEP 589 or BAEP 591 Registration Restriction: Online registration open only to graduate business and accounting majors. Duplicates Credit in BAEP 552 Instruction Mode: Lecture Grading Option: Letter

BAEP 567 Social Entrepreneurship: Design, Develop, and Deliver
Units: 3 Terms Offered: Sp Develop the analytical, conceptual, and practical skills required to design, develop, and deliver a new social business concept and opportunity. Prerequisite: BAEP 566 Registration Restriction: Open only to master students in Social Entrepreneurship. Instruction Mode: Lecture Grading Option: Letter

BAEP 571 Social Innovation Design
Units: 3 Terms Offered: Fa Use innovative
problem-solving approaches to design radically affordable solutions to challenges faced by under-resourced communities. Engage in early-stage market and rapid prototyping. Registration Restriction: Open only to master students in Social Entrepreneurship Instruction Mode: Lecture Grading Option: Letter

BAEP 579 Entrepreneurship in the Media and Entertainment Industry Units: 1.5 Terms Offered: FaSp Introduction to the ever-evolving field of media and entertainment with a focus on entrepreneurial opportunities within the industry. Registration Restriction: Online registration open only to graduate accounting and business students Instruction Mode: Lecture Grading Option: Letter

BAEP 585 Seminar: The Entrepreneurial Mindset Units: 1.5 Terms Offered: FaSp Explore the art and science of entrepreneurship under the guidance of a master entrepreneur. Registration Restriction: Online registration open only to graduate accounting and business majors Instruction Mode: Lecture Grading Option: Letter

BAEP 589 Social Entrepreneurship Units: 2 Terms Offered: Sm Lead and manage with entrepreneurial methodology for charities, non-government organizations, social oriented enterprises and not for profit organizations. Registration Restriction: Online registration open only to graduate accounting and business majors Instruction Mode: Lecture Grading Option: Credit/No Credit

BAEP 590 Directed Research Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Terms Offered: FaSpSrn Research leading to the master's degree. Maximum units which may be applied to the degree to be determined by the department. Instruction Mode: Lecture Grading Option: Credit/No Credit

BAEP 591 Social Entrepreneurship Units: 2, 3 Terms Offered: Sp Lead and manage with entrepreneurial methodology for charities, non-government organizations, social oriented enterprises and not for profit organizations. Registration Restriction: Online registration open only to graduate business and accounting majors Instruction Mode: Lecture Grading Option: Credit/No Credit

BAEP 592 Field Research in Business Entrepreneurship Units: 0.5, 1, 1.5, 2, 2.5, 3, 3.5, 4, 4.5, 5 Max Units: 12 Terms Offered: FaSpSrn Individual or team projects solving real business problems for an existing business entity, domestic and/or international. Proposal, field research, analyses and oral and written presentations. Registration Restriction: Open only to specified graduate accounting and business students. Instruction Mode: Lecture Grading Option: Credit/No Credit

BAEP 596 Research Practicum in Business Entrepreneurship Units: 0.5-2, Max Units: 8.0 Terms Offered: FaSpSrn Hands-on practical experience working with a faculty member in the Lloyd Greif Center for Entrepreneurial Studies on an ongoing research project. Instruction Mode: Lecture Grading Option: Credit/No Credit

BAEP 597 Consulting Project in Business Entrepreneurship Units: 0.5, 1, 1.5, 2, 2.5, 3, 3.5, 4, 4.5, 5 Max Units: 12.0 Terms Offered: FaSpSrn Individual or team project solving real business problems for an existing business entity, domestic and/or international. Proposal, field research, analyses and oral and written presentations. Registration Restriction: Open only to Master and Doctoral Students. Instruction Mode: Lecture Grading Option: Credit/No Credit

BAEP 598 Special Topics Units: 1, 1.5, 2, 3 Max Units: 09 Terms Offered: Irregular Current developments in the field of entrepreneurship: topics to be selected each semester. Graded CR/NC. Registration Restriction: Online registration open only to graduate business and accounting students Instruction Mode: Lecture Grading Option: Credit/No Credit

Biochemistry
BIOC 501 Recent Advances in Biochemistry Units: 2, 3, 4 Max Units: 16 Terms Offered: FaSpSrn Lectures on areas of intermediary metabolism and the chemistry of natural products. Prerequisite: BISC 435 and CHEM 431 Instruction Mode: Lecture Grading Option: Letter

BIOC 500 Biochemistry Seminar Units: 1 Max Units: 4 Terms Offered: FaSpSrn Formal presentations and discussion by students of material from research literature. Instruction Mode: Lecture Grading Option: Letter

BIOC 504 Molecular Biology of Cancer Units: 4 Terms Offered: Sp (Enroll in INTD 504)
design, what was discovered about their biochemical mechanisms of action and whether their clinical activities came up to the original expectations. Other aspects such as the origin of the concepts of combination chemotherapy and biochemical modulation will also be addressed.

Instruction Mode: Lecture Grading Option: Letter

BIOC 561 Molecular Biology
Units: 4 Terms Offered: Fa (Enroll in INTD 561)

BIOC 571 Biochemistry
Units: 4 Terms Offered: Fa (Enroll in INTD 571)

BIOC 573 Optimal Research Presentations
Units: 1 Max Units: 12 Terms Offered: FaSpSm Research leading to the dissertation. Maximum units which may be applied to the degree to be determined by the department. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

BIOC 574 Medical Physiology II
Units: 4 Terms Offered: Sp (Enroll in INTD 573)

BIOC 575 Predictive and Prognostic Biomarkers in Cancer Treatment
Units: 2 Exploration of how appropriate biomarkers can predict response to cancer therapy, tumor recurrence after surgery, rapid detection of tumor response and overall prognosis. Recommended Preparation: INTD 571 and a basic understanding of molecular biology. Instruction Mode: Lecture Grading Option: Letter

BIOC 581 Toolbox for Biochemistry and Molecular Biology
Units: 4.0 Terms Offered: Fa Explores the principles and applications of traditional and state-of-the-art methods in molecular biology and biochemistry with live demonstrations of techniques when feasible. Recommended Preparation: Fundamental knowledge of DNA, RNA and protein. Concurrent Enrollment: BIOC 571 Instruction Mode: Lecture Grading Option: Letter

BIOC 590 Directed Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Terms Offered: FaSpSm Research leading to the master of science degree. Maximum units which may be applied to the degree will be determined by the department. Graded CR/NC. Instruction Mode: Lecture Grading Option: Credit/No Credit

BIOC 594a Master's Thesis
Units: 2 Terms Offered: FaSpSm Credit on acceptance of thesis. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

BIOC 594b Master's Thesis
Units: 2 Terms Offered: FaSpSm Credit on acceptance of thesis. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

BIOC 594z Master's Thesis
Units: 0 Terms Offered: FaSpSm Credit on acceptance of thesis. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

BIOC 596 Internship for Curriculum Practical Training
Units: 1, 2, 3 Max Units: 03 Terms Offered: FaSpSm Part-time or full-time, practical work experience in the student's field of study. The internship must be located at an off-campus facility. Students are individually supervised by faculty. May not be taken until the student has completed at least one semester of enrollment in the graduate program with a cumulative 3.0 GPA. Registration Restriction: Open only to graduate students Instruction Mode: Lecture Grading Option: Credit/No Credit

BIOC 599 Special Topics
Units: 2, 3, 4 Units: 8.0 Instruction Mode: Lecture Grading Option: Letter

BIOC 790 Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Terms Offered: FaSpSm Research leading to the dissertation. Maximum units which may be applied to the degree to be determined by the department. Instruction Mode: Lecture Grading Option: Credit/No Credit

BIOC 794a Doctoral Dissertation
Units: 2 Terms Offered: FaSpSm Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

BIOC 794b Doctoral Dissertation
Units: 2 Terms Offered: FaSpSm Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

BIOC 794c Doctoral Dissertation
Units: 2 Terms Offered: FaSpSm Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

BIOC 794d Doctoral Dissertation
Units: 2 Terms Offered: FaSpSm Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

BIOC 794z Doctoral Dissertation
Units: 0 Terms Offered: FaSpSm Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

Biological Sciences

BISC 101Lgx Cellular and Molecular Biology
Units: 4 Terms Offered: FaSpSm Cell and molecular biology with examples related to human biology and diseases. Fundamental life processes examined at the genetic, cellular and molecular levels. Satisfies New General Education in Category D: Life Sciences Satisfies Old General Education in Category III: Scientific Inquiry Credit Restriction: Not for major credit Instruction Mode: Lecture, Lab Required Grading Option: Letter

BISC 102Lgx Humans and Their Environment
Units: 4 Terms Offered: FaSpSp An examination of the physical and biological laws that influence agriculture, pollution, population dynamics (including humans), climate, biodiversity and ecosystem structure and function. Satisfies New General Education in Category D: Life Sciences Satisfies Old General Education in Category IV: Science and Its Significance Instruction Mode: Lecture, Lab Required Grading Option: Letter

BISC 103Lgx General Biology for the Environment and Life
Units: 4 Study of common skills in biology, including basics of evolution, systematics, ecology, genetics, biochemistry and molecular biology, physiology, and anatomy. Satisfies New General Education in Category D: Life Sciences Satisfies Old General Education in Category III: Scientific Inquiry Credit Restriction: Not for major credit Instruction Mode: Lecture, Lab Required Grading Option: Letter

BISC 104Lgx How the Body Works
Units: 4 Terms Offered: FaSpSm Credit on function of the human body, including the role of organ systems, tissues, and cells in normal function. Major concepts relating to disease, substance abuse and lifestyle. Satisfies New General Education in Category D: Life Sciences Satisfies Old General Education in Category III: Scientific Inquiry Instruction Mode: Lecture, Lab Required Grading Option: Letter

BISC 108L Special Laboratory I
Units: 1 Laboratory component for BISC 120 for entering freshmen or transfer students with advanced placement or equivalent lecture credit from another institution. Instruction Mode: Lecture, Lab Required Grading Option: Letter

BISC 109L Special Laboratory II
Units: 1 Laboratory component for BISC 220 for entering freshmen or transfer students with advanced placement or equivalent lecture credit from another institution. Instruction Mode: Lecture, Lab Required Grading Option: Letter

BISC 110g Good Genes, Bad Genes
Units: 4 Terms Offered: Sp Introduction to the scientific method; basic instruction in molecular biology with emphasis on how biological research advancement has impacted medicine, commerce and society in general. Recommended Preparation: High school biology Satisfies New General Education in Category D: Life Sciences Instruction Mode: Lecture, Discussion Grading Option: Letter

BISC 115Lgx The Biology of Food
Units: 4 Terms Offered: FaSpSm Exploration of molecular biology, biochemistry, microbiology, nutrition and the history of biology through the study of food, focusing on food's relationship to the biological world. Satisfies New General Education in Category D: Life Sciences Credit Restriction: Not available for credit Biology majors Instruction Mode: Lecture, Lab Required Grading Option: Letter

BISC 120Lg General Biology: Organismal Biology and Evolution
Units: 4 Terms Offered: FaSpSm In-depth survey of key topics related to advances in our knowledge of the diversity of life and evolution; origin of life; eukaryotes/prokaryotes; ecology, Satisfies New General Education in Category D: Life Sciences Satisfies Old General Education in Category III: Scientific Inquiry Credit Restriction: Not for major credit Instruction Mode: Lecture, Lab Required Grading Option: Letter

BISC 121Lg Advanced General Biology: Organismal Biology and Evolution
Units: 4 Terms Offered: Fa Equivalent to BISC 120, but taught at a higher level for exceptionally well-prepared students. Admission to the course by departmental approval only. Corequisite: CHEM 115aLg. Satisfies New General Education in Category D: Life Sciences Satisfies Old General Education in Category III: Scientific Inquiry Credit Restriction: Not for major credit Instruction Mode: Lecture, Lab Required Grading Option: Letter

BISC 122Lg Advanced General Biology: Organismal Biology and Evolution
Units: 4 Terms Offered: Fa Equivalent to BISC 120, but taught at a higher level for exceptionally well-prepared students. Admission to the course by departmental approval only. Corequisite: CHEM 115aLg. Satisfies New General Education in Category D: Life Sciences Satisfies Old General Education in Category III: Scientific Inquiry Credit Restriction: Not for major credit Instruction Mode: Lecture, Lab Required Grading Option: Letter
Mode: Lecture, Lab Required Grading Option: Letter

BISC 140G Our Blue Planet in a Changing Climate
Units: 4 Terms Offered: Sp Introduction to biological oceanography and marine ecosystems. Impact of climate changes on marine ecosystems. Analysis of ocean-related case studies being discussed by mainstream media. Satisfies New General Education in D Life Sciences Instruction Mode: Lecture, Discussion Grading Option: Letter

BISC 150L The Nature of Human Health and Disease
Units: 4 Terms Offered: FaSp The human organism; the nature of inherited and acquired diseases; the biological and societal basis for the AIDS epidemic; therapy, drug design and the future. Satisfies New General Education in Category D: Life Sciences Satisfies Old General Education in Category IV: Science and Its Significance Instruction Mode: Lecture, Lab Required Grading Option: Letter

BISC 180L Evolution
Units: 4 Terms Offered: Sp Changes in the physical and biological universe over time; origins of life, dinosaurs, human evolution. Implications of evolutionary mechanisms and mass extinctions for human survival. Satisfies New General Education in Category D: Life Sciences Satisfies Old General Education in Category IV: Science and Its Significance Instruction Mode: Lecture, Lab Required Grading Option: Letter

BISC 193 Introduction to Research I
Units: 1 Terms Offered: Fa A series of lectures and discussions at which faculty of the department introduce their research activities to students entering biology and related majors. Corequisite: BISC 120Lg or BISC 121Lg Instruction Mode: Lecture Grading Option: Credit/No Credit

BISC 194 Introduction to Research II
Units: 1 Terms Offered: Sp A series of lectures and discussions at which faculty of the department introduce their research activities to students entering biology and related majors. Corequisite: BISC 220Lg or BISC 221Lg Instruction Mode: Lecture Grading Option: Credit/No Credit

BISC 199 Neuroscience Colloquium
Units: 1 Terms Offered: Sp Introduction to research activities conducted by Neuroscience faculty at USC. Instruction Mode: Lecture Grading Option: Credit/No Credit Crosslisted as NEUR 199

BISC 220Lg General Biology: Cell Biology and Physiology
Units: 4 Terms Offered: Sp In-depth survey of key topics related to advances in our knowledge of cellular biology and physiology: cell composition/metabolism; gene action; organism structure and function. Recommended Preparation: high school chemistry; BISC 120Lg or BISC 121Lg Satisfies New General Education in Category D: Life Sciences Satisfies Old General Education in Category D: Life Sciences Duplicates Credit in BISC 110L, BISC 111L, and BISC 221L Instruction Mode: Lecture, Lab Required Grading Option: Letter

BISC 221Lg Advanced General Biology: Cell Biology and Physiology
Units: 4 Terms Offered: Sp Equivalent to 220L, but taught at a higher level for exceptionally well-prepared students. Admission to the course by departmental approval only. Prerequisite: BISC 120Lg or BISC 121Lg, Corequisite: CHEM 105bL or CHEM 115bL. Satisfies New General Education in Category D: Life Sciences Duplicates Credit in BISC 110L, BISC 111L, and BISC 220L Instruction Mode: Lecture, Lab Required Grading Option: Letter

BISC 230L The Biology of the Brain
Units: 4 Terms Offered: FaSpSm Exploration of the unique properties of brain cells that allow complex perceptions and behaviors; examination of structure and activity of brain cells that underlie function. Satisfies New General Education in Category D: Life Sciences Satisfies Old General Education in Category IV: Science and Its Significance Credit Restriction: Not available for credit in any major. Instruction Mode: Lecture, Lab Required Grading Option: Letter

BISC 290 Introduction to Biological Research
Units: 2, 4 Max Units: 04 Terms Offered: FaSpSm Experience in basic techniques through supervised research in the research laboratory of a departmental faculty member. Prerequisite: (BISC 120Lg or BISC 121Lg) and (BISC 220Lg or BISC 221Lg) and (CHEM 105bL or CHEM 115bL) Instruction Mode: Lecture, Lab Required Grading Option: Letter

BISC 300L Introduction to Microbiology
Units: 4 Terms Offered: Sp Comparative approach to bacteria, Archaea and viruses; their structure, life cycles, geochemical activity, ecology and nutrition. Fundamentals of metabolism and microbial genetics. Prerequisite: BISC 320, CHEM 322aL or CHEM 325aL Instruction Mode: Lecture, Lab Required Grading Option: Letter

BISC 305L General Physiology
Units: 4 Terms Offered: Fa Statistical methods in biological science and medicine, including populations and samples, random sampling, confidence intervals, paired samples and regression. Satisfies New General Education in Category F: Quantitative Reasoning Instruction Mode: Lecture, Discussion Grading Option: Letter

BISC 307L General Physiology
Units: 4 Terms Offered: Sp Physiological functions of the circulatory, digestive, endocrine, integumentary, musculoskeletal, nervous, respiratory, and urogenital systems of animals. Prerequisite: BISC 220Lg or BISC 221Lg Instruction Mode: Lecture, Lab Required Grading Option: Letter

BISC 310 Statistical Thinking for Quantitative Biology
Units: 4 Terms Offered: Sp (Enroll in QBio 310)

BISC 312x Molecular Biochemistry
Units: 4 Terms Offered: FaSp Structure and function of biological macromolecules; major metabolic pathways including glycolysis and photosynthesis. DNA replication, repair, and recombination; gene expression, regulation and epigenetics. Recommended Preparation: BISC 220 or BISC 221 Instruction Mode: Lecture Grading Option: Letter

BISC 313L Evolution and Population Genetics
Units: 4 Terms Offered: Sp History of evolutionary thought; molecular basis for evolution; dynamics of genes in populations; speciation and macro evolution; patterns of evolution. Prerequisite: BISC 220Lg or BISC 221Lg; BISC 120Lg or BISC 121Lg; Recommended Preparation: BISC 320Lg, BISC 325, and familiarity with algebra, basic chemistry, and basic physics. Instruction Mode: Lecture, Lab Required Grading Option: Letter

BISC 315L Introduction to Ecology
Units: 4 Terms Offered: Fa Organism-environment interactions; dynamics of populations, communities, and ecosystems; evolutionary forces. Prerequisite: BISC 103Lg or BISC 120Lg or BISC 121Lg Instruction Mode: Lecture, Lab Required Grading Option: Letter

BISC 320Lg Molecular Biology
Units: 4 Terms Offered: Sp Structure and synthesis of nucleic acids and proteins; molecular biology of prokaryotes and eukaryotes; principles of genetics and cell biology. Prerequisite: CHEM 105bL or CHEM 108L or CHEM 115bL Satisfies New General Education in Category D: Life Sciences Instruction Mode: Lecture, Lab Required Grading Option: Letter

BISC 321 Multidisciplinary Seminar: Science, Technology and Society
Units: 2 Terms Offered: Sp Builds upon a basic science background to provide students with an understanding of cutting edge scientific research, its technological applications and its societal ramifications. Prerequisite: (BISC 120Lg or BISC 121Lg or BISC 220Lg or BISC 221Lg) and (CHEM 105bL or CHEM 107L or CHEM 115aLg) and (PHY 135a or PHY 135Lg) Duplicates Credit in former MDA 321 Instruction Mode: Lecture Grading Option: Letter

BISC 325 Genetics
Units: 4 Terms Offered: Fa Transmission genetics and genotype/phenotype; mapping methods; complex traits; genetics of human disease and population genetics. Prerequisite: (BISC 120Lg or BISC 121Lg) and (BISC 220Lg or BISC 221Lg) and (BISC 312x or BISC 320Lg) and CHEM 322aL Corequisite: CHEM 322bL or CHEM 325bL Instruction Mode: Lecture Grading Option: Letter

BISC 330L Biochemistry
Units: 4 Terms Offered: FaSp Basic biochemical principles; classes of molecules - structure and function; cellular energetics. Prerequisite: CHEM 322aL, or CHEM 325aL Duplicates Credit in former BISC 316 Instruction Mode: Lecture, Lab Required Grading Option: Letter Crosslisted as CHEM 330

BISC 335 Science, Health, and the Environment
Units: 4 Terms Offered: Sp (Enroll in ENST 335)

BISC 352 Conservation Biology
Units: 4 Terms Offered: Sp Principles of conservation science in marine and
terrestrial ecosystems with emphasis on protecting biological diversity and balancing the needs of nature with those of humans. Recommended Preparation: Introductory course in biology such as BISC 103, BISC 120 or BISC 121, or AP Biology credit. Instruction Mode: Lecture, Lab Grading Option: Letter Crosslisted as ENST-352

**BISC 363L Mammalogy**

Units: 4 Terms Offered: FaSp Introduction to the morphology, classification, distribution and physiology of mammals; study of major mammalian groups worldwide and identification and field study of local species. Instruction Mode: Lecture, Lab Required Grading Option: Letter

**BISC 365L Phylogenetics and Evolution**

Units: 2 Terms Offered: FaSp Underlying biological philosophies of systematics and phylogenetic algorithms used to infer phylogenetic relationships between organisms. Interpretation and production of cladograms and phylogenetic trees. Recommended Preparation: BISC 120Lg or HBIO 200Lg Instruction Mode: Lecture Grading Option: Letter

**BISC 369L Ecology and the Natural History of California**

Units: 4 Terms Offered: Sp Marine, freshwater, and terrestrial communities of California. Life histories, morphology, special evolutionary adaptations. Relationships between organisms and their biological-physical-chemical environment. Offered on Catalina. Emphasis on field biology. Prerequisite: BISC 120Lg or BISC 121Lg Instruction Mode: Lecture, Lab Required Grading Option: Letter

**BISC 371L Molecular Approaches to the Diversity of Life**

Units: 4 Patterns of evolutionary change investigating the molecular basis of heredity utilizing DNA data. History, principles and application of molecular systematics, and genetic variation. Taught on Catalina Island. Prerequisite: BISC 120Lg or BISC 121Lg; BISC 220Lg or BISC 221Lg; Recommended Preparation: BISC 320Lg Instruction Mode: Lecture, Lab Required Grading Option: Letter

**BISC 390 Special Problems**

Units: 1, 2, 3, 4 Supervised, individual studies. No more than one registration permitted. Enrollment by petition only. Instruction Mode: Lecture Grading Option: Letter

**BISC 401 Introduction to Computational Analysis of Biological Data**

Units: 4 Terms Offered: FaSp (Enroll in OBIO 401)

**BISC 403 Advanced Molecular Biology**

Units: 4 Terms Offered: Fa Molecular mechanisms and control of DNA replication, DNA repair, recombination, gene expression, cell growth, and development in prokaryotic and eukaryotic organisms from bacteria to humans. Prerequisite: BISC 320 Recommended Preparation: BISC 313 or BISC 325. Instruction Mode: Lecture Grading Option: Letter

**BISC 405L General Embryology**

Units: 4 Terms Offered: FaVertebrate and human development; cellular differentiation; germ cell development and growth; hormonal regulation of reproductive cycles; cleavage through neurulation and subsequent development of primary organs. Prerequisite: BISC 120Lg or BISC 121Lg; BISC 220Lg or BISC 221Lg; Recommended Preparation: two from BISC 313, BISC 320Lg, BISC 325 and BISC 330L. Instruction Mode: Lecture, Lab Required Grading Option: Letter

**BISC 406L Biotechnology**

Units: 4 Terms Offered: Fa Techniques in molecular biology and biochemistry applied to prokaryotic and eukaryotic model systems; applications of recombinant DNA and genomic technology. Prerequisite: BISC 320Lg; Recommended Preparation: BISC 313 or BISC 325. Instruction Mode: Lecture, Lab Required Grading Option: Letter

**BISC 407 Cellular and Molecular Neuroscience**

Units: 4 Terms Offered: FaSp An examination of individual neuron cell development, target location, and establishment of functional synapses; how dysfunction in these processes contributes to neurological and neuropsychiatric diseases. Recommended Preparation: BISC 421 Instruction Mode: Lecture, Discussion Grading Option: Letter Crosslisted as NEUR 407

**BISC 408 Systems Neuroscience: From Synapses to Perception**

Units: 4 Terms Offered: Sp Sensory systems to illustrate basic concepts regarding the functional organization of the brain, from the microscopic arrangement of neural circuits to global processes such as perception. Prerequisite: BISC 421. Instruction Mode: Lecture, Discussion Grading Option: Letter Crosslisted as NEUR 408

**BISC 410 Applications of Molecular Biology to Medicine**

Units: 4 Terms Offered: Sp Advances and trends in the understanding, diagnosis and treatment of human diseases. Prerequisite: BISC 312x or BISC 330L or CHEM 350 Registration Restriction: Open only to seniors or exceptionally well-prepared students with instructor permission Instruction Mode: Lecture Grading Option: Letter

**BISC 411 Advanced Cell Biology**

Units: 4 Terms Offered: FaSpSm The synthesis, transport and assembly of the complex structures that mediate eukaryotic cellular function. Electrical and biochemical mechanisms underlying intercellular communication. Prerequisite: BISC 220Lg or BISC 221Lg; BISC 320Lg. Instruction Mode: Lecture Grading Option: Letter

**BISC 412 Oceans, Climate, and the Environment**

Units: 4 Terms Offered: FaSp (Enroll in GEOL 412)

**BISC 414 Biology of Cancer**

Units: 4 Terms Offered: Sp Focus on the advances in the biology of cancer, from fundamental molecular signaling pathways to DNA repair to stem cell biology, through primary research literature reviews. Prerequisite: BISC 320Lg Recommended Preparation: BISC 325 Instruction Mode: Lecture Grading Option: Letter

**BISC 419L Environmental Microbiology**

Units: 4 Terms Offered: FaSpSm Qualitative and quantitative appraisal of microbial activities in pure and contaminated environments; microbial community and its development; interspecific relationships; effects of microorganisms on their surroundings. Recommended Preparation: BISC 300L Instruction Mode: Lecture, Lab Required Grading Option: Letter

**BISC 421 Neurobiology**

Units: 4 Terms Offered: Fa Structure, function, and development of nervous systems; neural integration and mechanisms of behavior; organization and operation of brains. Prerequisite: BISC 220Lg or BISC 221Lg Instruction Mode: Lecture Grading Option: Letter Crosslisted as NEUR 421

**BISC 422L Neurobiology Laboratory**

Units: 2 Terms Offered: Sp Experimentation on excitable cells, synapses, and neural circuits; intracellular and extracellular techniques for recording, stimulation, and identification of nerve and muscle cells. Corequisite: BISC 421. Instruction Mode: Lab Required Grading Option: Letter

**BISC 423 Epilepsy to Ecstasy: Biological Basis of Neurological Disorders**

Units: 4 Terms Offered: FaSp Examination of various neurological disorders originating from developmental signaling and/or anatomical abnormalities. Prerequisite: BISC 421 Instruction Mode: Lecture Grading Option: Letter Crosslisted as NEUR 423

**BISC 424 Brain Architecture**

Units: 4 Terms Offered: Sp How the parts of the brain are interconnected to form a complex biological computer, from historical, evolutionary and developmental perspectives. Instruction Mode: Lecture Grading Option: Letter Crosslisted as NEUR 424

**BISC 425 Genetics through the Scientific Literature**

Units: 4 Terms Offered: Sp Literature-based seminar in current and classical topics in genetics. Recommended Preparation: BISC 325 Instruction Mode: Lecture Grading Option: Letter

**BISC 426 Principles of Neural Development**

Units: 4 Terms Offered: Sp Basic phenomena and principles of neural development, their relation to functional development of neural circuits, behavior, and disease. General concepts and experimental approaches are emphasized. Prerequisite: BISC 421. Instruction Mode: Lecture Grading Option: Letter Crosslisted as NEUR-426

**BISC 427 The Global Environment**

Units: 4 Terms Offered: FaSpSm Earth’s development as a habitable planet, from origin to human impacts on global biogeochemical cycles in the ocean, land, and atmosphere. Discussion of environmental alternatives. Prerequisite: BISC 103Lg or BISC 120Lg or BISC 121Lg and CHEM 103lx or CHEM 108L or CHEM 115BL Registration Restriction: Open only to Biological Sciences, Environmental Studies, Geological Sciences majors Instruction Mode: Lecture Grading Option: Letter Crosslisted as ENST 427, GEOL 427
BISC 428 The Biology of Tropical Diseases
Units: 4 Max Units: 8 | Terms Offered: |Sm Biological and biochemical approaches to the prevention and treatment of infectious and chronic tropical diseases. Course is offered off campus and summer only.
Instruction Mode: Lecture Grading Option: Letter

BISC 429 Cancer Immunology
Units: 4 Terms Offered: Sp In-depth study of the role of the immune system in oncogenesis. Discussion of cellular transformation, immune surveillance, immune-based therapies, and new approaches in cancer treatment.
Prerequisite: BISC 220Lg or BISC 221Lg Recommended Preparation: Familiarity with Molecular Biology, Genetics, Principles of Biochemistry
Instruction Mode: Lecture Grading Option: Letter

BISC 431L Aquatic Microbiology
Units: 4 Terms Offered: FaSpSm Introduction to the habitat, phylogenetic, physiological and metabolic diversity of microbial life in aquatic environments.
Prerequisite: BISC 220Lg or BISC 221Lg Duplicates Credit in BISC 419L Instruction Mode: Lecture, Lab Required Grading Option: Letter

BISC 434 Introduction to Genome Science
Units: 4 Terms Offered: Sp Characterization of the sequence, function and evolution of genomes; study of the molecular basis of phenotypes and the relationship between genomics and synthetic biology.
Recommended Preparation: BISC 325 Instruction Mode: Lecture Grading Option: Letter

BISC 435 Advanced Biochemistry
Units: 4 Terms Offered: Sp Macro molecular structure and function; enzymeology; metabolic regulation.
Prerequisite: BISC 330L Instruction Mode: Lecture Grading Option: Letter

BISC 437 Comparative Physiology of Animals
Units: 4 Terms Offered: Sp Control of the internal environment of animals in relation to their external environment. Thermal regulation, osmoregulation, excretion, and ion balance. Offered on Catalina.
Prerequisite: BISC 120 or BISC 121; BISC 220 or BISC 221; Recommended Preparation: two from BISC 313, BISC 320Lg, BISC 325 and BISC 330L Instruction Mode: Lecture, Lab Required Grading Option: Letter

BISC 438 Nutritional Biochemistry
Units: 4 Terms Offered: FaSp Metabolism of carbohydrates, proteins, fats. Biochemical basis of nutrition's impact on metabolic functions, including vitamins, minerals and biologically active non-nutrients; medical aspects of nutrition.
Prerequisite: BISC 330L Instruction Mode: Lecture Grading Option: Letter

BISC 440B Dendrohydrology
Units: 4 Max Units: 8 | Terms Offered: Sm Introduction to dendrohydrology including the tree-ring chronology, dendroclimatological methods, and dendroecological approaches.
Prerequisite: BISC 480L

BISC 444 Practical Analysis of Biological Data in R
Units: 2 Max Units: 4 | Terms Offered: | FaSp Topical seminar in marine and environmental biology. Instruction Mode: Lab Recommended Grading Option: Letter

BISC 445L Fundamentals of Vertebrate Biology
Units: 4 Terms Offered: Sp Evolution and comparative anatomy of vertebrates.
Prerequisite: BISC 120Lg or BISC 121Lg; BISC 220Lg or BISC 221Lg; Recommended Preparation: two from BISC 313, BISC 320Lg, BISC 325 and BISC 330L Instruction Mode: Lecture, Lab Required Grading Option: Letter

BISC 447L Island Biogeography and Field Ecology
Units: 4 Terms Offered: Sp Biogeography, geology, ecology, climate, flora, and fauna of terrestrial and marine environments of Catalina and the Channel Islands including laboratory and field techniques of ecology.
Taught on Catalina Island. Prerequisite: BISC 120Lg or BISC 121Lg. Instruction Mode: Lecture, Lab Required Grading Option: Letter

BISC 450L Principles of Immunology
Units: 4 Terms Offered: Sa Immune processes, humoral and cellular; immunoglobulins; antibody formation; antigen-antibody interactions; immune dyscrasias; transplantation and tumor immunity; basic hematological and immunohematology.
Prerequisite: BISC 220Lg or BISC 221Lg Instruction Mode: Lecture, Lab Required Grading Option: Letter

BISC 455L Molecular Approaches to Microbial Diversity — Catalina Semester
Units: 4 Terms Offered: Fa Overview and practical application of genetic and immunological techniques for examining diversity and community structure of natural microbial assemblages in aquatic ecosystems.
Prerequisite: BISC 320Lg Corequisite: BISC 431L Instruction Mode: Lecture, Lab Required Grading Option: Letter

BISC 456L Conservation Genetics
Units: 4 Terms Offered: Fa Biological principles underlying population and conservation including ecology, evolution, genetics and biogeography. Covers both marine and terrestrial environment, with special emphasis on island biology.
Prerequisite: BISC 120Lg or BISC 121Lg; BISC 220Lg or BISC 221Lg; Recommended Preparation: BISC 320Lg; BISC 313 or BISC 325. Duplicates Credit in BISC 373L Instruction Mode: Lecture, Lab Required Grading Option: Letter Crosslisted as ENST-456

BISC 457L Methods in Marine Biology and Biological Oceanography
Units: 4 Terms Offered: Sp Introduction to standard methods used in oceanography and marine biology through a combination of lectures, laboratory exercises and field experiences.
Prerequisite: BISC 103 or BISC 120 or BISC 121. Instruction Mode: Lecture, Lab Required Grading Option: Letter

BISC 460 Seminar in Marine and Environmental Biology
Units: 2 Max Units: 4 | Terms Offered: | FaSp Topical seminar in marine and environmental biology. Instruction Mode: Lecture Grading Option: Letter

BISC 461 Seminar in Molecular and Computational Biology
Units: 2 Terms Offered: FaSpSm Topical seminar in molecular and computational biology. Instruction Mode: Lecture Grading Option: Letter Crosslisted as GERO-461

BISC 462 Seminar in Neurobiology
Units: 2 Max Units: 0 | Terms Offered: FaSp Topical seminar in neurobiology. Registration Restriction: Open only to juniors, seniors, master and doctoral students.
Instruction Mode: Lecture Grading Option: Letter Crosslisted as NEUR 462

BISC 469L Marine Biology
Units: 4 Terms Offered: Sp Oceanography and marine biology, sampling techniques, evolutionary adaptations, morphology, systematics.
Prerequisite: BISC 103Lgx or BISC 120Lg or BISC 121Lg Recommended Preparation: BISC 473L Instruction Mode: Lecture, Lab Required Grading Option: Letter

BISC 473L Biological Oceanography
Units: 4 Terms Offered: Fa Biological, physical, chemical dynamics and analysis of the ocean; primary production of phytoplankton, secondary production by zooplankton, bacterial remineralization; physiology, ecology of fishes, marine mammals.
Prerequisite: BISC 103 or BISC 120 or BISC 121Lg Registration Restriction: Junior, Senior, or with permission from the instructor
Instruction Mode: Lecture, Lab Required Grading Option: Letter

BISC 474L Ecosystem Function and Earth Systems
Units: 4 Terms Offered: Sa General principles of ecosystem function, energy flow and materials cycling in marine systems at various scales and the importance of microbial processes in these systems. Taught on Catalina Island.
Prerequisite: BISC 120Lg or BISC 121Lg
Instruction Mode: Lecture, Lab Required Grading Option: Letter Crosslisted as GEOL-474

BISC 478 Computational Genome Analysis
Units: 4 Terms Offered: Sp Introduction to algorithms and statistics for genome analysis and their applications. Analysis of DNA sequencing, sequence comparison, genetic variation, gene expression, disease association and evolution.
Instruction Mode: Lecture Grading Option: Letter Crosslisted as QBIO 478

BISC 479L Computational Genome Analysis Laboratory
Units: 4 Terms Offered: Sp (Enroll in QBIO 479L)

BISC 480L Developmental Biology
Units: 4 Terms Offered: FaSp Basic mechanisms of animal development are considered at different levels of analysis. Emphasis is on molecular, genetic and cellular processes underlying vertebrate and invertebrate development. General concepts and evolutionary mechanisms are emphasized.
Prerequisite: BISC 220Lg or BISC 221Lg Instruction Mode: Lecture, Lab Required Grading Option: Letter

BISC 481 Structural Bioinformatics: From Atoms to Cells
Units: 4 Terms Offered: Fa Introduction to computational and experimental methods for structural bioinformatics. Analysis of
### COURSES OF INSTRUCTION

**Grading Option:** Letter

**Instruction Mode:** Lecture

BISC 536 Advanced Seminar in Marine Biogeochemistry
Units: 2
Terms Offered: FaSp
Instruction Mode: Lecture
Grading Option: Letter

BISC 537 Seminar in Cellular and Molecular Biotechnology
Units: 2
Max Units: 8.0
Terms Offered: FaSp
Instruction Mode: Lecture
Grading Option: Letter

BISC 538 Metals and Biology in Oceanic Regimes
Units: 2
Terms Offered: Sp
Instruction Mode: Lecture
Grading Option: Letter

BISC 542 Seminar in Molecular Biology
Units: 1
Max Units: 6.0
Terms Offered: FaSp
Instruction Mode: Lecture
Grading Option: Credit/No Credit

BISC 544 Advanced Reading in Molecular Biology
Units: 1, 2
Max Units: 0.4
Terms Offered: FaSpSm
Instruction Mode: Lecture
Grading Option: Letter

BISC 545 Modeling and Numerical Techniques for Marine Scientists
Units: 4
Terms Offered: Sp
Instruction Mode: Lecture
Grading Option: Letter

BISC 572 Medical Physiology I
Units: 4
Terms Offered: Fa
Instruction Mode: Enroll in INTD 572

BISC 574 Systems Physiology and Disease II
Units: 4
Terms Offered: Sp
Instruction Mode: Enroll in INTD 573

BISC 576 Practical Statistics and Bioinformatics
Units: 2
Terms Offered: Fa
Instruction Mode: Lecture
Grading Option: Letter

BISC 577a Computational Molecular Biology Laboratory
Units: 2
Terms Offered: Sp
Instruction Mode: Lecture
Grading Option: Letter

BISC 577b Computational Molecular Biology Laboratory
Units: 2
Terms Offered: Fa
Instruction Mode: Lecture
Grading Option: Letter

BISC 581L Current Problems in Marine Sciences
Units: 4
Max Units: 16.0
Terms Offered: Independent
Instruction Mode: Lecture, Lab
Grading Option: Required

BISC 582 Advanced Biological Oceanography
Units: 4
Terms Offered: Fa
Instruction Mode: Lecture
Grading Option: Letter

BISC 583 Evolution and Adaptation of Marine Organisms
Units: 4
Terms Offered: Sp
Instruction Mode: Lecture
Grading Option: Letter

BISC 584 Faculty Lecture Series
Units: 2
Terms Offered: Sp
Instruction Mode: Lecture
Grading Option: Letter

BISC 585 Scientific Writing and Reviewing
Units: 2
Terms Offered: Sp
Instruction Mode: Lecture
Grading Option: Letter

BISC 586 Biological Oceanographic Instrumentation
Units: 2
Terms Offered: Sp
Instruction Mode: Lecture
Grading Option: Letter

BISC 587 Communicating Ocean Science
Units: 4
Terms Offered: Sp
Instruction Mode: Lecture
Grading Option: Letter

BISC 587a Computational Molecular Biology Laboratory
Units: 2
Terms Offered: Sp
Instruction Mode: Lecture
Grading Option: Letter

BISC 588 Introduction to Bioinformatics
Units: 2
Terms Offered: Fa
Instruction Mode: Lecture
Grading Option: Letter

BISC 590 Directed Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12
Terms Offered: FaSpSm
Instruction Mode: Lecture
Grading Option: Credit/No Credit

BISC 593 Practicum in Teaching the Biological Sciences
Units: 2
Terms Offered: FaSp
Instruction Mode: Lecture
Grading Option: Credit/No Credit

BISC 596 Internship for Curricular Practical Training
Units: 1, 2, 3, 4
Max Units: 03
Terms Offered: FaSpSm
Instruction Mode: Lecture
Grading Option: Credit/No Credit

BISC 790 Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12
Terms Offered: FaSpSm
Instruction Mode: Lecture
Grading Option: Credit/No Credit

BISC 794a Doctoral Dissertation
Units: 2
Terms Offered: FaSpSm
Instruction Mode: Lecture
Grading Option: In-progress

BISC 794b Doctoral Dissertation
Units: 2
Terms Offered: FaSpSm
Instruction Mode: Lecture
Grading Option: In-progress

BISC 794c Doctoral Dissertation
Units: 2
Terms Offered: FaSpSm
Instruction Mode: Lecture
Grading Option: In-progress

BISC 794d Doctoral Dissertation
Units: 2
Terms Offered: FaSpSm
Instruction Mode: Lecture
Grading Option: In-progress
BKN 540 Neuromuscular Systems
Units: 3
Terms Offered: Fa
Prerequisite: BKN 504

BKN 550 Neurobehavioral Basis of Movement
Units: 4
Terms Offered: Sp

BKN 551 Musculoskeletal and Biomechanical Basis of Movement
Units: 4
Terms Offered: Fa

BKN 552 Physiological Basis of Voluntary Movement
Units: 4
Terms Offered: Sp

BKN 553 Experimental Methods for the Analysis of Human Movement
Units: 4
Terms Offered: Fa

BKN 554 Anatomy Introduction to Biomechanics
Units: 2
Terms Offered: Fa

BKN 555 Functional Neuroanatomy with Lab Dissection
Units: 3
Terms Offered: Fa

BKN 556 Movement Analysis for Sport
Units: 4
Terms Offered: Fa

BKN 557b Physiological Correlates of Therapeutic Exercise
Units: 4
Terms Offered: Fa

BKN 558 Physiological Correlates of Therapeutic Exercise
Units: 4
Terms Offered: Fa

BKN 559 Readings in Biokinetics
Units: 3
Max Units: 8.0
Terms Offered: Fa

BKN 560 Movement Analysis for Sport
Units: 4
Terms Offered: Fa

BKN 563 Biomechanics
Units: 2, 2
Terms Offered: Sp

BKN 564 Principles of Musculoskeletal Imaging
Units: 2
Terms Offered: Sm

BKN 565 Neurobiology of Locomotion
Units: 2
Terms Offered: Fa

BKN 566 Neurobiology of Locomotion
Units: 4
Terms Offered: Fa

BKN 568 Principles of Musculoskeletal Imaging
Units: 2
Terms Offered: Fa

BKN 570 Directed Research
Units: 3, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12
Terms Offered: Fa

BKN 571 Functional Neuroanatomy
Units: 3
Terms Offered: Fa

BKN 572 Advanced Dissection
Units: 4
Terms Offered: Fa

BKN 573a Advanced Dissection
Units: 2
Terms Offered: Fa

BKN 573b Advanced Dissection
Units: 2
Terms Offered: Fa

BKN 575 Principles of Musculoskeletal Imaging
Units: 2
Terms Offered: Sm

BKN 578 Classic Readings in Biokinetics
Units: 2
Terms Offered: Fa

BKN 580 Biokinetic Laboratory
Units: 3
Terms Offered: Fa

BKN 581 Variety of Motor Control and Learning
Units: 3
Terms Offered: Fa

BKN 582 Therapeutic Exercise
Units: 3
Terms Offered: Fa

BKN 585 Systematic Research Writing
Units: 3
Terms Offered: Sm

BKN 587a Physiological Correlates of Therapeutic Exercise
Units: 4
Terms Offered: Fa

BKN 590 Advanced Research
Units: 2
Terms Offered: Fa

BKN 591 Advanced Research
Units: 2
Terms Offered: Fa

BKN 592 Research Methods
Units: 2
Terms Offered: Fa

BKN 593 Behavioral Basis of Motor Control and Learning
Units: 3
Terms Offered: Fa

BKN 594 Directed Research
Units: 3
Terms Offered: Fa

BKN 595 Advanced Research
Units: 2
Terms Offered: Fa

BKN 596 Internship for Curricular Practical Training
Units: 1, 2, 3
Max Units: 3
Terms Offered: Fa

BKN 597b Systematic Research Writing
Units: 3
Terms Offered: Sm

BKN 598 Directed Research
Units: 3
Terms Offered: Fa

BKN 599 Directed Research
Units: 3
Terms Offered: Fa

BKN 600 Sports Science Internship
Units: 2, 3, 4
Terms Offered: Fa

COURSES OF INSTRUCTION 847
vary depending on the setting and credit hours. Allows students a progressively increasing amount of responsibility with respect to athlete/subject and/or data involvement. Prerequisite: BKN 551 and BKN 552 and BKN 550 and BKN 553 

BKN 610L Technology in Sport: Field Assessment of Athlete Performance Units: 2 Terms Offered: FaSpSm

Overview of the techniques and hardware used to assess athlete performance outside of a laboratory setting. Prerequisite: BKN 551 and BKN 552 and BKN 553

BKN 611L Technology in Sport: Physiology and Electrophysiology of the Nervous System Units: 2 Terms Offered: FaSpSm

Introduction to the physiological assessment of athlete performance. Focus on understanding, performing and interpreting physiological assessments such as metabolic testing (VO2max), hydration, oxygen saturation, body composition, lactate threshold, heart rate, core body temperature. Prerequisite: BKN 551 and BKN 552 and BKN 553

BKN 613L Technology in Sport: Advanced Study in Biokinetics Units: 1, 2, 3, 4 Max Units: 8.0 Terms Offered: FaSpSm Examination of selected mechanisms underlying normal movement and pathological movement. Instruction Mode: Lecture Grading Option: Letter

BKN 615 Principles of Skeletal Adaptation Units: 4, 2 years Terms Offered: Sm

Introduction to the integrative physiology of skeletal adaptation to mechanical loading. Emphasis on mechanical and chemical regulation of bone mass. Instruction Mode: Lecture Grading Option: Letter

BKN 617 Modeling the Motor System: An Introduction Units: 2, 2 years Terms Offered: Sp

Introduction to the basic principles and models of the primate motor system. Emphasis on arm control. Instruction Mode: Lecture Grading Option: Letter

BKN 618L Modeling the Motor System: Laboratory Units: 1, 2 years Terms Offered: Sp

Introduction of computer programming and implementation of computational models in a laboratory setting. Instruction Mode: Lecture, Lab Required Grading Option: Letter

BKN 621 Electromyography in Research and Practice Units: 3, 2 years Terms Offered: Fa

Physiology and electrophysiology of muscular contraction, how it is collected, quantified and processed. Uses of electromyographic information for research and clinical assessments. Recommended Preparation: human anatomy, skeletal muscle physiology. Instruction Mode: Lecture Grading Option: Letter

BKN 623 Neuroplasticity and Neural Repair Units: 3, 2 years Terms Offered: Fa

Integration of basic research on neuroplasticity and clinical research on central nervous system reorganization after brain injury. Implication for neurorecovery and rehabilitation. Instruction Mode: Lecture Grading Option: Letter

BKN 630 Resistance Training Techniques for High Performance Athletes Units: 2 Terms Offered: FaSpSm

Introduction to training methods and techniques as they pertain to high performance athletes with a focus on advanced resistance training programs and periodization schemes. Prerequisite: BKN 551 and BKN 552 and BKN 550 and BKN 553

BKN 672 Advanced Independent Study in Biokinetics Units: 1, 2, 3, 4

Letters to the doctorate. Maximum units which may be applied to the degree to be determined by the department. Instruction Mode: Lecture Grading Option: Credit/No Credit

BKN 790 Research Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12

Terms Offered: FaSpSm Research leading to the doctorate. Instruction Mode: Lecture Grading Option: Credit/No Credit

BKN 79a Doctoral Dissertation Units: 2 Terms Offered: FaSpSm Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

BKN 79b Doctoral Dissertation Units: 2 Terms Offered: FaSpSm Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

BKN 79c Doctoral Dissertation Units: 2 Terms Offered: FaSpSm Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

Biopharmaceutical Marketing

BPMK 500 Biopharmaceutical Market: Reimbursement Strategy Units: 3 Terms Offered: Sm

Gain fundamental analytic skills and insights of medical trends directly from global payers, industry and government policy leaders covering healthcare reform, access and future therapies. Recommended Preparation: Graduate degree in pharmacy, medicine, or related MS or PhD program. Instruction Mode: Lecture Grading Option: Letter

BPMK 501 Healthcare Payers, Insurance and Coverage Policy Units: 3 Terms Offered: Sm

Review evolution, design, forecasting future healthcare and coverage policies. Actuarial costs impact and controls on insurance premiums. Master and design successful formulary and reimbursement tactics. Instruction Mode: Lecture Grading Option: Letter

BPMK 502 Biopharmaceutical Product Development and Marketing Units: 3 Terms Offered: Sm

Portfolio role of clinical trials, regulatory and government agencies in product development. Winning through strategy! Planning profiles for novel products R&D vs. unmet medical needs. Instruction Mode: Lecture Grading Option: Letter

BPMK 503 Biopharmaceutical Advertising and Communication Units: 3 Terms Offered: Fa

Understand product positioning, timing and market opportunities. Key message development and communication pathways, budgets, quantitative measures for Grab and Growth! Integrated launch and market planning. Instruction Mode: Lecture Grading Option: Letter

BPMK 504 Payer Formulary Placement: Value and Access Units: 3 Terms Offered: Sp

Profile insurance categories, controls and public demands. Aligning formulary and value measures and results. Play to Win! Quantitative assessment of market segmentation and evidence generation. Instruction Mode: Lecture Grading Option: Letter

BPMK 505 Product Health Economics and Valuation Units: 3 Terms Offered: Fa

Applied microeconomic tools, health technology assessment, cost effectiveness and commercial utility research. Practical understanding data sets and applications of real-world outcomes research and innovative modeling. Instruction Mode: Lecture Grading Option: Letter

BPMK 506 Biopharmaceutical Product Pricing and Competition Units: 3 Terms Offered: Sp

Design risk maps, methods and processes for competitive intelligence. War Games! Pricing tools and revenue models. Instruction Mode: Lecture Grading Option: Letter

BPMK 510 Capstone I: Biopharmaceutical Management Project Unit: 3 Terms Offered: Fa

Program directed basic research and topics to develop student core skills surrounding research design, execution, planning, presentation and defense, consistent with BP industry standards. Instruction Mode: Lecture Grading Option: Letter

BPMK 511 Capstone II: Biopharmaceutical Management Project Units: 3 Terms Offered: Sp

Student directed advanced research and topics to develop student individual skills surrounding research design, execution, planning, presentation and defense, consistent with BP industry standards. Instruction Mode: Lecture Grading Option: Letter

Biomaterials and Digital Dentistry

BMD 588a Digital Technology Applied to Dentistry

Units: 3 Terms Offered: FaSpSm Weekly seminar devoted to critically review, analyze, and discuss digital technologies applied to dentistry. Registration Restriction: Open only to the Herman Ostrow School of Dentistry Instruction Mode: Lecture Grading Option: Letter
BMDD 588b Digital Technology Applied to Dentistry
Units: 3 Terms Offered: FaSpSm Weekly seminar devoted to critically review, analyze, and discuss digital technologies applied to dentistry. Prerequisite: BMDD 588a Registration Restriction: Open only to the Herman Ostrow School of Dentistry Instruction Mode: Lecture Grading Option: Letter

BMDD 590 Directed Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Terms Offered: FaSpSm Research leading to the master's degree. Maximum units which may be applied to the degree to be determined by the department. Registration Restriction: Open only to the Herman Ostrow School of Dentistry Instruction Mode: Lecture Grading Option: Credit/No Credit

BMDD 594a Master's Thesis
Units: 2 Credit on acceptance of thesis. Registration Restriction: Open only to the Herman Ostrow School of Dentistry Instruction Mode: Lecture Grading Option: In Progress to Credit/No Credit

BMDD 594b Master's Thesis
Units: 2 Credit on acceptance of thesis. Prerequisite: BMDD 594a Registration Restriction: Open only to the Herman Ostrow School of Dentistry Instruction Mode: Lecture Grading Option: In Progress to Credit/No Credit

BMDD 594z Master's Thesis
Units: 0 Credit on acceptance of thesis. Prerequisite: BMDD 594b Registration Restriction: Open only to the Herman Ostrow School of Dentistry Instruction Mode: Lecture Grading Option: In Progress to Credit/No Credit

Biomedical Engineering

BME 101 Introduction to Biomedical Engineering
Units: 4 Terms Offered: Fa Historical development and survey of major areas comprising biomedical engineering: theoretical, neurobiology and systems physiology, biomedical instrumentation, artificial organ and prosthetic devices, biomedical computer applications. Instruction Mode: Lecture, Lab Grading Option: Letter

BME 201 Biomedical Engineering Practice
Units: 2 Terms Offered: Fa Examination of the technical and practical challenges involved in the development of medical devices, including neural implants, in industry and the clinical setting. Recommended Preparation: BME 101. Instruction Mode: Lecture Grading Option: Letter

BME 202 Control and Communication in the Nervous System
Units: 4 Terms Offered: Fa An introduction to the structure and function of the nervous system for biomedical engineers. Modeling of neurophysiological processes at single neuron and systems levels. Prerequisite: MATH 126g or MATH 129. Duplicates Credit in former BME 402 Instruction Mode: Lecture Grading Option: Letter

BME 204 Biomedical Prototyping and Fabrication
Units: 2 Terms Offered: FaSp Development of physical prototypes of biomedical devices and systems; acquisition and practice of skills for documentation and fabrication; prototype testing and validation against requirements. Instruction Mode: Lecture, Lab Grading Option: Letter

BME 210 Biomedical Computer Simulation Methods

BME 302L Medical Electronics
Units: 4 Terms Offered: Sp Electronic design and measurements for medical applications. Use of integrated circuits, biopotential measurements, static and dynamic calibration of physiological transducers. Prerequisite: EE 202L. Instruction Mode: Lecture, Lab Required Grading Option: Letter

BME 308 Computer-Aided Design for Bio-Mechanical Systems
Units: 3 (Enroll in ITP 308)

BME 350 Biomedical Engineering Industrial Project
Units: 3 Terms Offered: Sp In-depth training in specific skills relevant to biomedical industry. Placement in summer internship following successful completion of the course. Junior standing. Prerequisite: BME 210. Instruction Mode: Lecture Grading Option: Letter

BME 390 Special Problems
Units: 1, 2, 3, 4 Supervised, individual studies. No more than one registration permitted. Enrollment by petition only. Instruction Mode: Lecture Grading Option: Letter

BME 402 Control and Communication in the Nervous System
Units: 4 Terms Offered: Fa An introduction to the structural and functional elements common to nervous systems, with emphasis on cellular dynamics, interneuronal communication, sensory and effector systems. Prerequisite: (BME 210 and MATH 245) and (BISC 110g or BISC 220Lg). Instruction Mode: Lecture, Discussion Grading Option: Letter

BME 403L Physiological Systems
Units: 4 Terms Offered: Fa A thorough bioengineering treatment of the physiological properties of various mammalian organ systems: e.g., cardiovascular, respiratory, renal, and musculoskeletal. Prerequisite: BISC 220Lg and MATH 245 Corequisite: EE 202L. Instruction Mode: Lecture, Lab Required Grading Option: Letter

BME 404 Orthopaedic Biomechanics
Units: 4 Terms Offered: Fa Mechanical properties of biological tissues, application of statics and kinetics to assess loads within the musculoskeletal structures, and fundamentals of orthopaedic implant performance. Prerequisite: PHYS 151Lg and MATH 245 Recommended Preparation: Basic knowledge of anatomical structures, fundamentals of mechanics of materials including stress-strain relations, and mechanical properties of materials

Corequisite: AME 201 Instruction Mode: Lecture, Discussion Grading Option: Letter

BME 405L Senior Projects: Measurements and Instrumentation
Units: 4 Terms Offered: FaSp Application of instrumentation and measurement techniques to biomedical engineering projects involving measurement, replacement or augmentation of biomedical systems. Prerequisite: BME 210, EE 202L. Instruction Mode: Lecture, Lab Required Grading Option: Letter

BME 406 Introduction to Bioengineering in Medicine
Units: 4 Terms Offered: Fa Bioengineering concepts and technologies applied to cancer diagnosis, drug discovery, immunotherapeutic development, stem cell techniques and therapies, mechanistic research. Instruction Mode: Lecture Grading Option: Letter

BME 408 Rehabilitation Engineering and Assistive Technologies
Units: 2 Terms Offered: Fa Introduction to technologies used for rehabilitation and improved function, including limb and spinal orthoses and prostheses, gait analysis and sensory aids and augmentation. Recommended Preparation: Basic background in statics and dynamics at the level taught in AME 201 and AME 301. Instruction Mode: Lecture Grading Option: Letter

BME 410L Introduction to Biomaterials and Tissue Engineering
Units: 4 Terms Offered: FaSp In-depth survey of the cells, materials, and techniques used to engineer human tissues for applications in regenerative medicine and drug screening. Prerequisite: CHEM 322L and BISC 220Lg Instruction Mode: Lecture, Lab Required Grading Option: Letter Crosslisted as CHE 410

BME 412 Craniofacial and Dental Technology
Units: 4 (Enroll in DENT 412)

BME 413 Bioengineering Signals and Systems
Units: 4 Terms Offered: Fa Introduction to concepts relating to linear signals and systems theory, time and frequency domain analysis, and application of these concepts to problems in Biomedical Engineering. Prerequisite: PHYS 152 Instruction Mode: Lecture, Discussion Grading Option: Letter

BME 414 Rehabilitation Engineering
Units: 3 Terms Offered: FaSp An introduction to rehabilitation technology: limb and spinal orthoses; limb prostheses; functional electrical stimulation; sensory aids. Recommended Preparation: AME 201. Instruction Mode: Lecture, Discussion Grading Option: Letter

BME 415 Regulation of Medical Products
Units: 2 Terms Offered: Fa In-depth examination of medical product development with emphasis on the regulations that govern the design, fabrication and maintenance of medical products. Registration Restriction: Open only to seniors. Duplicates Credit in BME 416 Instruction Mode: Lecture Grading Option: Letter

BME 416L Development and Regulation of Medical Products
Units: 4 Terms Offered: Fa An introduction to the process of medical product development with emphasis on the regulations that govern the design, fabrication and maintenance of medical products.
to medical product development and the regulations that govern their design, fabrication and maintenance; practical applications to a proposed product.

Prerequisite: BME 405L

Duplicates Credit in BME 415 Instruction Mode: Lecture, Lab Required Grading Option: Letter

BME 423 Statistical Methods in Biomedical Engineering
Units: 4
Terms Offered: Fa, Engineering

Applications of parametric and nonparametric tests, analysis of variance, linear regression, time-series analysis, and autoregressive modeling, with biomedical applications to statistical analysis of biomedical data.

Prerequisite: MATH 245
Instruction Mode: Lecture, Discussion Grading Option: Letter

BME 425 Basics of Biomedical Imaging
Units: 3
Terms Offered: Fa, Engineering

clinical applications and modern physics concepts underlying X-ray imaging, Computed Tomography (CT), nuclear medicine, positron emission tomography, Magnetic Resonance Imaging (MRI), ultrasound imaging.

Prerequisite: PHYS 152L
Instruction Mode: Lecture Grading Option: Letter

BME 426 Basics of Biomedical Imaging: Ionizing Radiation
Units: 2
Terms Offered: Fa, Ionizing radiation imaging techniques; x-ray imaging, mammography, fluoroscopy, CT and nuclear medicine imaging including SPECT and PET; engineering and modern physics concepts; clinical applications.

Prerequisite: PHYS 152L
Instruction Mode: Lecture Grading Option: Letter

BME 427 Basics of Biomedical Imaging: Non-Ionizing Radiation
Units: 2
Terms Offered: Sp, Non-ionizing radiation imaging techniques; MRI, ultrasound and emerging optical imaging techniques including fluorescence, Raman and photoacoustic imaging; engineering and modern physics concepts; clinical applications.

Prerequisite: PHYS 152L
Instruction Mode: Lecture Grading Option: Letter

BME 430 Principles and Applications of Systems Biology
Units: 4

Prerequisite: MATH 245 and (BME 210 or CHE 205)
Recommended Preparation: BISC 220L
Instruction Mode: Lecture, Discussion Grading Option: Letter
Crosslisted as CHE 430, QBIO 430

BME 451L Fundamentals of Biomedical Microdevices
Units: 4
Terms Offered: Fa, Introduction to biomedical microdevices with emphasis on microtechnologies and biomedical microelectromechanical systems (bioMEMS). Principles for measurement of small-scale biological phenomena and clinical applications.

Recommended Preparation: Basic biology and electronics
Corequisite: EE 202L
Instruction Mode: Lecture, Lab Required Grading Option: Letter

BME 452 Introduction to Biomimetic Neural Engineering
Units: 2
Terms Offered: Fa, Engineering principles, biology, technological challenges and state-of-the-art developments in the design of implantable biomimetic microelectronic devices that interface with the nervous system.

Recommended Preparation: Basic knowledge of biology
Corequisite: EE 202L
Instruction Mode: Lecture Grading Option: Letter

BME 453 Engineering Biomedical Innovation
Units: 3
Terms Offered: Sp, Engineering principles in design, modeling, and analysis of biomedical innovations will be presented to develop creative solutions for real-world medical problems or treatment implementation.

Registration Restriction: Open only to juniors and seniors
Instruction Mode: Lecture Grading Option: Letter

BME 459L Introduction to Nanomedicine and Drug Delivery
Units: 4
Terms Offered: Sp, Drug delivery and use of nanoengineered materials, including cutting-edge nanoparticle-based therapy, imaging, and tissue engineering.

Prerequisite: CHEM 322L
Recommended Preparation: BISC 220L
Instruction Mode: Lecture, Lab Required Grading Option: Letter

BME 489 Biochemical Engineering
Units: 4
Terms Offered: Sp, Enroll in CHE 489

BME 490 Directed Research
Units: 1, 2, 3, 4, 5, 6, 7, 8
Max Units: 12.0

Individual research and readings. Not available for graduate credit.

Instruction Mode: Lecture Grading Option: Letter

BME 499 Special Topics
Units: 2, 3, 4
Max Units: 8.0

Current trends and developments in the field of biomedical engineering.

Instruction Mode: Lecture Grading Option: Letter

BME 501 Advanced Topics in Biomedical Systems
Units: 4
Terms Offered: FaSpSm, FaSpSm

FaSpSm Integration of biomedical science, engineering principles and state-of-the-art technology for the study of selected physiological systems in the laboratory setting.

Laboratory, Instruction Mode: Lecture, Lab Required Grading Option: Credit/No Credit

BME 505L Laboratory Projects in Biomedical Engineering
Units: 4
Terms Offered: FaSpSm

Integration of biomedical science, engineering principles and state-of-the-art technology for the study of selected physiological systems in the laboratory setting.

Laboratory, Instruction Mode: Lecture, Lab Required Grading Option: Credit/No Credit

BME 506 Bioengineering of Disease and Cell Therapeutics
Units: 4
Terms Offered: Sp, Introduction to micro-/nano-technologies, microscopy, single-cell techniques, microfluidics, regenerative medicine, and Organs on Chips.

Recommended Preparation: BISC 220L or equivalent;
BISC 320L or equivalent; CHEM 322L and CHEM 322L or equivalent

Instruction Mode: Lecture Grading Option: Letter

BME 510 Cellular Systems Engineering
Units: 3
Terms Offered: Fa, Introduction to the materials, tools, and techniques used to engineer functional biological tissues. Topics include stem cells, biomaterials, microfabrication, regenerative medicine, and Organs on Chips.

Recommended Preparation: BISC 220L or equivalent;
BISC 320L or equivalent; CHEM 322L

Instruction Mode: Lecture Grading Option: Letter

BME 511 Physiological Control Systems
Units: 4
Terms Offered: Sp, Application of control theory to physiological systems; static analysis of closed-loop systems; time-domain analysis of linear control identification methods; nonlinear control.

Recommended Preparation: Exposure to Ordinary Differential Equations, Laplace Transforms and Matlab/Simulink programming Instruction Mode: Lecture, Discussion Grading Option: Letter

BME 513 Signal and Systems Analysis
Units: 4
Terms Offered: Fa, Classification; representation; statistical analysis; orthogonal expansions; least-squares estimation; harmonic analysis; Fourier, Laplace and Z transforms; the linear system; filtering; modeling and simulation; linear control theory.

Recommended Preparation: Introductory courses in signal and system analysis (e.g., BME 413) and basic Matlab proficiency in signal processing including Discrete Fourier Transform Instruction Mode: Lecture Grading Option: Letter

BME 514 Physiological Signals and Data Analytics
Units: 4
Terms Offered: Sp, Application of linear time- and frequency-domain techniques, adaptive filtering, nonlinear dynamics and machine learning approaches to the analysis of physiological signals.

Prerequisite: BME 513

Recommended Preparation: Working knowledge of MATLAB and/or PYTHON Instruction Mode: Lecture Grading Option: Letter

BME 515 Data Analytics in Biomedical Engineering
Units: 4
Terms Offered: Sp, Presentation and application of advanced computational/mathematical methodologies for analysis of biomedical time-series data, emphasizing predictive analytics to advance biomedical
BME 520 Modeling of Bio-Systems
Units: 3 Terms Offered: Sp (Enroll in AME 520)

BME 523 Measurement and Processing of Biomedical Signals
Units: 3 Terms Offered: Sp Acquisition, analysis, and display of biological data using digital computers; laboratory applications of digital signal processing and real time analysis. Prerequisite: BME 513. Instruction Mode: Lecture Grading Option: Letter

BME 525 Advanced Biomedical Imaging
Units: 4 Terms Offered: Sp Advanced scientific and engineering principles of biomedical imaging including magnetic resonance, X-ray computed tomography, ultrasound and single photon and positron emission tomography. Recommended Preparation: BME 513 or EE 483 or previous/concurrent exposure to linear systems and signals, Fourier Transform, and signal processing in the frequency domain. Registration Restriction: Open only to master and doctoral students. Instruction Mode: Lecture Grading Option: Letter Crosslisted as EE 523

BME 527 Integration of Medical Imaging Systems
Units: 4 Introduce basic concepts of Medical Imaging Informatics with an introduction to clinical information systems (e.g., PACS, RIS, EMR) related to the imaging workflow in a clinical healthcare enterprise. Instruction Mode: Lecture Grading Option: Letter Crosslisted as DSCI 562

BME 528 Medical Diagnostics, Therapeutics and Informatics Applications
Units: 4 Terms Offered: Sp Picture archive communication system (PACS) design and implementation; clinical PACS-based imaging informatics; telemedicine/teleradiology; image content indexing, image data mining; grid computing in large-scale imaging informatics; image-assisted diagnosis, surgery and therapy. Recommended Preparation: BME 527 or previous/concurrent exposure to clinical systems in radiology (e.g., EMR/RIS/PACS) and imaging informatics. Instruction Mode: Lecture Grading Option: Letter Crosslisted as DSCI 563

BME 530 Introduction to Systems Biology

BME 533 Seminar in Bioengineering
Units: 1 Max Units: 3.0 Terms Offered: FaSp Instruction Mode: Lecture Grading Option: Credit/No Credit

BME 535 Ultrasonic Imaging
Units: 3 Terms Offered: Sp All aspects of ultrasonic imaging including ultrasound and tissue interaction, ultrasonic transducers, instrumentation, imaging methods, clinical applications, biosafety, and recent developments in the field. Instruction Mode: Lecture Grading Option: Letter

BME 536 Intracardiac Ultrasonic Transducers
Units: 3 Terms Offered: Fa Background and foundation covering the design, fabrication and testing of ultrasonic transducers and arrays. Design approaches, modeling tools will be discussed. Design project assigned. Instruction Mode: Lecture Grading Option: Letter

BME 540 Biofluid Mechanics: Transport and Circulatory Systems
Units: 4 Terms Offered: Fa (Enroll in AME 536)

BME 551 Introduction to Bio-MEMS and Nanotechnology
Units: 3 Terms Offered: Sp Principles and biocompatible aspects of micro-electromechanical systems (MEMS) and nanotechnology, including microfluidics, nanowire sensors, nanomotors, quantum dots, biofuel cells and molecular imaging. Recommended Preparation: Basic biology and electronics. Instruction Mode: Lecture Grading Option: Letter

BME 552 Neural Implant Engineering
Units: 3 Terms Offered: Sp Advanced studies of the basic neuroscience, engineering design requirements and technological issues associated with implantable neural prostheses, with particular emphasis on retinal and cortical function. Instruction Mode: Lecture Grading Option: Letter

BME 559 Nanomedicine and Drug Delivery
Units: 4 Terms Offered: Fa Drug delivery and use of nanoengineered materials, including cutting-edge nanoparticle-based therapy, imaging and tissue engineering. Nanotechnology and the regulatory landscape is introduced. Recommended Preparation: Organic Chemistry (CHEM 322AL equivalent) and Cell Biology and Physiology (BISC 220Lin equivalent). Instruction Mode: Lecture Grading Option: Letter

BME 566a Topics in Health, Technology and Engineering
Units: 2 Terms Offered: Fa An interdisciplinary approach to impart the skills, knowledge and familiarity with stages of collaborative projects related to medical device and methods innovation in healthcare settings. Concurrent Enrollment: Concurrent enrollment: BME 567a. Instruction Mode: Lecture Grading Option: Letter

BME 566b Topics in Health, Technology and Engineering
Units: 2 Terms Offered: Sp Interdisciplinary approach to impart the skills, knowledge and familiarity with stages of collaborative projects related to medical device and methods innovation in healthcare settings. Concurrent Enrollment: Concurrent enrollment: BME 567b. Instruction Mode: Lecture Grading Option: Letter

BME 567a Case Studies in Health, Technology and Engineering
Units: 1 Terms Offered: Fa Learning from cases illustrating paths from health care problems to solutions. Faculty, students and invited guests will provide examples of both successful and unsuccessful innovation attempts. Concurrent Enrollment: a: Concurrent enrollment: BME 566c. b: Concurrent enrollment: BME 566d. Registration Restriction: Open only to Health, Technology and Engineering students. Instruction Mode: Lecture Grading Option: Letter

BME 567b Case Studies in Health, Technology and Engineering
Units: 1 Terms Offered: Sp Learning from cases illustrating paths from health care problems to solutions. Faculty, students and invited guests will provide examples of both successful and unsuccessful innovation attempts. Concurrent Enrollment: a: Concurrent enrollment: BME 566c. b: Concurrent enrollment: BME 566d. Registration Restriction: Open only to Health, Technology and Engineering students. Instruction Mode: Lecture Grading Option: Letter

BME 575L Computational Neuroengineering
Units: 3 Terms Offered: Sp Introduction to computational modeling in neuroengineering, anchored in examples of brain function. Topics include transduction, synapses, spiking, networks, normalization, learning, Bayesian models, and Kalman filtering. Prerequisite: BME 502. Instruction Mode: Lecture, Lab Required Grading Option: Letter Crosslisted as NEUR-534

BME 582 CMOS: Nano Neuromorphic Circuits
Units: 4 (Enroll in EE 582)

BME 590 Directed Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Research leading to the master's degree. Maximum units which may be applied to the degree is determined by the department. Instruction Mode: Lecture Grading Option: Credit/No Credit

BME 594a Master's Thesis
Units: 2 Credit on acceptance of thesis. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

BME 594b Master's Thesis
Units: 2 Credit on acceptance of thesis. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

BME 594c Master's Thesis
Units: 0 Credit on acceptance of thesis.
BME 599 Special Topics
Units: 2, 3, 4 Max Units: 9.0 Current trends and developments in the field of biomedical engineering. Instruction Mode: Lecture Grading Option: Credit/No Credit

BME 620L Applied Electrophysiology
Units: 4 Terms Offered: Fa, W The theoretical basis and applied design principles for medical instrumentation and instrumentation that interact with electrically excitable tissues of the body. Prerequisite: BME 502. Instruction Mode: Lecture, Lab Required Grading Option: Letter

BME 650 Biomedical Measurement and Instrumentation
Units: 4 Terms Offered: Sp Design of biomedical instrumentation and diagnostic devices (aspects such as mechanics, electronic architecture and chemical and biological components) used to measure physiological parameters. Recommended Preparation: BME 513. Basic knowledge of electronics (EE 202L or equivalent courses), physics (PHYS 152L or equivalent courses), and chemistry (CHEM 105aL or equivalent courses). Instruction Mode: Lecture Grading Option: Letter

BME 670 Early Visual Processing
Units: 4 Terms Offered: Fa Interdisciplinary topics in biological and artificial low-level visual processing. Retina, lateral geniculate nucleus; computer vision; neurophysiology, retinal prostheses; molecular biology, phototransduction; edge detection; movement. Prerequisite: NSCI 524 or BME 502 or CSI 574. Instruction Mode: Lecture Grading Option: Letter

BME 671 Late Visual Processing
Units: 4 Terms Offered: Sp Interdisciplinary topics in biological and artificial high-level visual processing. Visual cortex; computer vision; neurophysiology; psychophysics; MRI: computational models; orientation selectivity; stereopsis; motion; contours; object recognition. Prerequisite: NSCI 524 or BME 502 or CSI 574. Instruction Mode: Lecture Grading Option: Letter

BME 680 Modeling and Simulation of Physiological Systems
Units: 3 Terms Offered: Irregular Mathematical theories and computation techniques for modeling physiological systems, with emphasis on cardiorespiratory, metabolic, and neuronal functions. Instruction Mode: Lecture Grading Option: Letter

BME 790 Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Research applicable to the doctorate. Instruction Mode: Lecture Grading Option: Credit/No Credit

BME 794a Doctoral Dissertation
Units: 2 Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

BME 794b Doctoral Dissertation
Units: 2 Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

BME 794c Doctoral Dissertation
Units: 0 Credit on acceptance of thesis. Prerequisite: BITE 594a Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

BME 794d Doctoral Dissertation
Units: 0 Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

Biomedical Implants and Tissue Engineering
BITE 502 Introduction to Biomedical Implants
Units: 3 Terms Offered: Fa/Sp/Sm In-depth exploration of the biologic basis of osseointegration and host conditions that affect the outcome of wound healing. Instruction Mode: Lecture, Discussion Grading Option: Letter

BITE 503 Clinical Applications of Tissue Engineering
Units: 4 Terms Offered: Fa/Sp/Sm Provides clinicians and clinical scientists with the fundamental understanding of the field of tissue engineering, as applied to the reconstruction of the tissues in the maxillofacial region. Instruction Mode: Lecture, Discussion Grading Option: Letter

BITE 584 Evidence Based Practice
Units: 3 Terms Offered: Fa/Sp/Sm Focuses on scientific search engines and search strategies to evaluate and incorporate literature to establish an evidence-based dental implant practice. Instruction Mode: Lecture, Discussion Grading Option: Letter

BITE 585 Biomaterial and Protocols
Units: 3 Terms Offered: Fa/Sp/Sm Focuses on material science, host response and clinical outcome of biomaterial application in the craniofacial region. Instruction Mode: Lecture, Discussion Grading Option: Letter

BITE 586 Current Trends in Biomedical Implants and Tissue Engineering
Units: 3 Terms Offered: Fa/Sp/Sm Explores the developments in regenerative medicine with immediate or future translational applications in biomedical implants and tissue engineering for the maxillofacial region. Instruction Mode: Lecture, Discussion Grading Option: Letter

BITE 590 Directed Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Terms Offered: Fa/Sp/Sm Project-based research under the guidance of a scientific adviser. Maximum units which may be applied to the degree to be determined by the department. Instruction Mode: Lecture Grading Option: Credit/No Credit

BITE 594a Master's Thesis
Units: 2 Terms Offered: Fa/Sp/Sm Credit on acceptance of thesis. Instruction Mode: Lecture Grading Option: In progress to Credit/No Credit

BITE 594b Master's Thesis
Units: 2 Terms Offered: Fa/Sp/Sm Credit on acceptance of thesis. Prerequisite: BITE 594a Instruction Mode: Lecture Grading Option: In progress to Credit/No Credit

BITE 594c Master's Thesis
Units: 0 Credit on acceptance of thesis. Prerequisite: BITE 594b Instruction Mode: Lecture Grading Option: In progress to Credit/No Credit

Business Administration
BUAD 020x Survey of Business Administration
Units: 3 Terms Offered: Fa/Sp/Sm Survey of the important topics in business administration, including marketing, accounting, finance, management information systems, leadership, business communication, and human resource management. Recommended Preparation: 2–5 years management experience. Instruction Mode: Lecture Grading Option: Credit/No Credit

BUAD 040 Executive Development
Units: 4 Problems and cases in contemporary management and business economics in American society. Registration Restriction: Open to USC employees. Instruction Mode: Lecture Grading Option: Credit/No Credit

BITE 585 Biomaterial and Protocols
Units: 3 Terms Offered: Fa/Sp/Sm Focuses on material science, host response and clinical outcome of biomaterial application in the craniofacial region. Instruction Mode: Lecture, Discussion Grading Option: Letter

BUAD 101 Freshman Leadership Seminar
Units: 2 Terms Offered: Fa/Sp/Sm Colloquium of leading researchers, authors, and administrators in the Marshall School of Business and other schools at USC. Industry leaders will also be invited to talk about leadership challenges. Instruction Mode: Lecture Grading Option: Credit/No Credit

BUAD 102 Global Leadership Seminar
Units: 2 Terms Offered: Fa/Sp/Sm Provides insight into the opportunities and challenges faced by business professionals operating in a global environment, with a specific focus on China. International travel may require additional fees. Prerequisite: BUAD 101. Instruction Mode: Lecture Grading Option: Credit/No Credit

BUAD 104 Learning About International Commerce
Units: 2 Terms Offered: Fa/Sp/Sm Focuses on global trade issues and challenges faced by business professionals operating in a global environment, with a specific focus on China. Instruction Mode: Lecture Grading Option: Credit/No Credit

BUAD 105 The Business Experience
Units: 2 Terms Offered: Fa Introduction to and overview of key business functions, their relationships, and how various professional disciplines come together to help form a successful enterprise. Registration Restriction: Open only to business and accounting majors. Instruction Mode: Lecture Grading Option: Letter

BUAD 111 World Bachelor in Business Program Freshman Academy
Units: 2 Terms Offered: Fa Introduction to selected academic subject matter, development of intercultural communication skills, and access to business professionals. Registration Restriction: Enrollment limited to students in the World
Bachelor in Business degree program

**Instruction Mode:** Lecture

**Grading Option:** Credit/No Credit

**BUAD 114 Global Social Impact**

**Units:** 2

Terms Offered: Sp

Assess and advise NGOs or social enterprises.

Team projects, international travel and presentations.

**Recommended Preparation:**

**BUAD 111 Registration Restriction:**

Enrollment limited to students in the World Bachelor in Business degree program

**Instruction Mode:** Lecture

**Grading Option:** Letter

**BUAD 200x Economic Foundations for Business**

**Units:** 2

Terms Offered: FaSp

Examines fundamental concepts of both microeconomics and macroeconomics as they pertain to business and financial decisions.

**Instruction Mode:** Lecture

**Grading Option:** Letter

**BUAD 201x Introduction to Business for Non-Majors**

**Units:** 4

Terms Offered: FaSp

Introduces the principles and practices of businesses, sequence of exercises developing the basic skills, and influence of the economy on business and individual decisions.

**Instruction Mode:** Lecture

**Grading Option:** Letter

**BUAD 204 Global Business from a Local Perspective**

**Units:** 2

Terms Offered: Sp

Concepts, frameworks and cultural insights into global business. Includes readings, group projects and visits with Los Angeles area companies that have an international presence.

**Registration Restriction:** Open only to Business and Accounting majors.

**Duplicates Credit in BUAD 102 and BUAD 104.**

**Instruction Mode:** Lecture

**Grading Option:** Credit/No Credit

**BUAD 206 Transfer International Experience**

**Units:** 2

Max Units: 4.0

Terms Offered: Sp

**Registration Restriction:** Open only to transfer business and accounting majors.

**Instruction Mode:** Lecture

**Grading Option:** Credit/No Credit

**BUAD 206a Transfer International Experience**

**Units:** 1

Max Units: 2.0

Terms Offered: FaSp

**Registration Restriction:** Open only to transfer business and accounting majors.

**Instruction Mode:** Lecture

**Grading Option:** Credit/No Credit

**BUAD 206b Transfer International Experience**

**Units:** 1

Max Units: 2.0

Terms Offered: FaSp

**Registration Restriction:** Open only to transfer business and accounting majors.

**Instruction Mode:** Lecture

**Grading Option:** Credit/No Credit

**BUAD 215x Foundations of Business Finance**

**Units:** 4

Terms Offered: FaSp

Principles and practices of modern financial management; use of financial statements; valuation of investment; asset pricing under uncertainty; elements of financial decisions.

**Prerequisite:** ACCT 410x or BUAD 280 or BUAD 305 Credit Restriction: Not available for degree credit for accounting or business administration majors.

**Duplicates Credit in BUAD 250 Instruction Mode:** Lecture

**Grading Option:** Letter

**BUAD 252 Choosing and Planning a Future Career in Business**

**Units:** 2

Terms Offered: FaSp

Explore and plan for future career choices and options in business. Learn theoretical principles, best practices and strategies, and contemporary workplace issues/trends.

**Instruction Mode:** Lecture

**Grading Option:** Credit/No Credit

**BUAD 280 Introduction to Financial Accounting**

**Units:** 3

Terms Offered: FaSp

Emphasis on understanding financial statements and the impact of business transactions on information presented to management and interested stakeholders.

**Prerequisite:** Duplicates Credit in BUAD 305 Instruction Mode: Lecture

**Grading Option:** Letter

**BUAD 281 Introduction to Managerial Accounting**

**Units:** 3

Terms Offered: FaSp

An emphasis on understanding accounting information, combined with a variety of techniques and best practices, supports enhanced management decision making.

**Prerequisite:** Duplicates Credit in BUAD 280 or BUAD 305 Instruction Mode: Lecture

**Grading Option:** Letter

**BUAD 301 Technology Entrepreneurship**

**Units:** 3

Terms Offered: FaSp

Starting and managing a technological business: developing a viable concept, market and financial planning, product development, organizing the venture, protecting intellectual property rights.

**Prerequisite:** Duplicates Credit in BAEP 310, BAEP 423, BAEP 450, BAEP 451 Instruction Mode: Lecture

**Grading Option:** Letter Crosslisted as ENGR-301

**BUAD 302 Communication Strategy in Business**

**Units:** 4

Terms Offered: FaSp

Theory, practices, and techniques of business communication strategy essential to external and organizational communication; group and interpersonal communication; development of skill in oral and written communication.

**Prerequisite:** Duplicates Credit in BUAD 302g or BUAD 312g or BUAD 310g or EE 364 Instruction Mode: Lecture

**Grading Option:** Letter

**BUAD 304 Organizational Behavior and Leadership**

**Units:** 4

Terms Offered: FaSp

The role of leadership in business organizations; concepts and skills for managing oneself and others.

**Registration Restriction:** Open only to freshmen, sophomores and juniors

**Instruction Mode:** Lecture

**Grading Option:** Letter

**BUAD 305 Abridged Core Concepts of Accounting Information**

**Units:** 4

Terms Offered: FaSp

Uses of accounting information in decision-making; accounting issues concerning income and cash flows, economic resources and capital.

**Registration Restriction:** Open only to transfer business and accounting majors

**Duplicates Credit in BUAD 280 and BUAD 281 Instruction Mode:** Lecture

**Grading Option:** Letter

**BUAD 306 Business Finance**

**Units:** 4

Terms Offered: FaSp

Financial problems of business enterprise; function of financial manager; sources of funds; instruments, institutions, and practices of finance; problems of financial management using case studies.

**Prerequisite:** Duplicates Credit in BUAD 215x Instruction Mode: Lecture

**Grading Option:** Letter

**BUAD 307 Marketing Fundamentals**

**Units:** 4

Terms Offered: FaSp

Develops a managerial viewpoint in planning and evaluating marketing decisions of the firm: products, pricing, channels, promotion, information processing, legal implications, and marketing in contemporary society.

**Prerequisite:** Duplicates Credit in MKT 385x Instruction Mode: Lecture, Discussion

**Grading Option:** Letter

**BUAD 310g Applied Business Statistics**

**Units:** 4

Terms Offered: FaSp

Statistical methods for business analysis; data exploration and description; sampling distributions; estimation; hypothesis testing, simple and multiple regression; model building, Extensive computer applications.

**Prerequisite:** Duplicates Credit in BUAD 312g and the former ITP 251 Satisfies New General Education in Category F: Quantitative Reasoning Registration Restriction: Open only to undergraduate students Duplicates Credit in BUAD 312g and the former ITP 251 Instruction Mode: Lecture

**Grading Option:** Letter

**BUAD 311 Operations Management**

**Units:** 4

Terms Offered: FaSp

Fundamentals of operations management. Skills needed to analyze, manage, and improve business processes. Topics include: process, capacity, service, and inventory management concepts; corequisite: (BUAD 310g or BUAD 312g or EE 364 or MATH 407) Duplicates Credit in BUAD 311T and BUAD 315x Instruction Mode: Lecture

**Grading Option:** Letter

**BUAD 312g Statistics and Data Science for Business**

**Units:** 4

Terms Offered: FaSp

Statistical methods for business analysis; exploration and visualization of large data sets; simulation; hypothesis testing, multiple regression modeling, and confidence intervals. Extensive computer applications.

Satisfies New General Education in Category F: Quantitative Reasoning Registration Restriction: Open only to undergraduate students Duplicates Credit in BUAD 310g and former ITP 251 Instruction Mode: Lecture

**Grading Option:** Letter

**BUAD 315x Basics of Project and Operations Management for Non-Majors**

**Units:** 2

Terms Offered: FaSp

Introduction to tools and methods for design, production, and delivery of goods and services. Techniques for planning, monitoring, and controlling complex projects.

**Registration Restriction:** Not open to business and accounting majors and exchange students Duplicates Credit in BUAD 311 and BUAD 311T Instruction Mode: Lecture

**Grading Option:** Letter
BUAD 351 Economic Analysis for Business Decisions
Units: 4 Terms Offered: FaSpSm Theory of the firm in the enterprise system; profits, demand, and cost analysis; market competition and resource allocation; problems of size efficiency and growth. Prerequisite: ECON 110g or MATH 112g or MATH 126g or MATH 226g Recommended Preparation: introductory economics course Registration Restriction: Open only to undergraduate students Duplicates Credit in ECON 351x Instruction Mode: Lecture Grading Option: Letter

BUAD 352 Macroeconomic Analysis for Business Decisions
Units: 4 Terms Offered: FaSpSm Behavior of economic indicators over business fluctuations, economic growth, monetary and fiscal policy, exchange rate movements. Prerequisite: ECON 203g and ECON 205g Corequisite: BUAD 351 or ECON 351x Registration Restriction: Open only to undergraduate students Duplicates Credit in ECON 352x and former BUAD 350 Instruction Mode: Lecture Grading Option: Letter

BUAD 380x Introduction to Enterprise Risk Management
Units: 4 Terms Offered: Irregular (Enroll in ACCT 380x)

BUAD 385x Introduction to Risk Management and Insurance
Units: 4 Terms Offered: Irregular (Enroll in ACCT 385x)

BUAD 387x Risk Management in Entertainment, Sports and the Arts
Units: 4 Terms Offered: FaSp (Enroll in ACCT 387)

BUAD 390 Special Problems
Units: 1, 2, 3, 4 Supervised, individual studies. No more than one registration permitted. Enrollment by petition only. Instruction Mode: Lecture Grading Option: Letter

BUAD 425 Data Analysis for Decision Making
Units: 2 Terms Offered: FaSpSm Leveraging large corporate datasets; slice and dice data with dashboards; data mining and statistical tools; neural network; multiple and logistic regression; decision tree; gain inference and decision making; clustering. Prerequisite: (BUAD 281 or BUAD 305) and BUAD 302 and BUAD 304 and BUAD 306 and BUAD 307 and (BUAD 310g or BUAD 312g) and (BUAD 351 or ECON 351(x)) and (BUAD 352 or ECON 352(x)) Instruction Mode: Lecture Grading Option: Letter

BUAD 494 Marshall Honors Research and Thesis
Units: 2 Max Units: 04 Terms Offered: FaSpSm Experience in conducting research and writing a thesis under the supervision of a faculty adviser. Prerequisite: ACCT 493 or BUAD 493 Registration Restriction: Open only to students in the Marshall Honors program Duplicates Credit in ACCT 494 Instruction Mode: Lecture Grading Option: Credit/No Credit

BUAD 495 Practicum in Business Issues (Internship)
Units: 1 Max Units: 12.0 Combined classroom discussion and structured, supervised field application of business theories and practices within a part-time employment context. Registration Restriction: Open only to: Freshmen, Sophomore, Junior, Senior. Instruction Mode: Lecture Grading Option: Credit/No Credit

BUAD 497 Strategic Management
Units: 4 Terms Offered: FaSpSm Examination of managerial decision-making, planning, and policy under changing environments; readings, cases, exercises, simulations. Prerequisite: (ACCT 410x or BUAD 281 or BUAD 305) and BUAD 302 and BUAD 304 and BUAD 307 and (BUAD 310g or BUAD 312g) and (BUAD 351 or ECON 351(x)) and (BUAD 352 or ECON 352(x)) Instruction Mode: Lecture Grading Option: Letter

BUAD 499 Special Topics
Units: 2, 3, 4 Max Units: 08 Terms Offered: Irregular Selected topics reflecting current trends and recent developments in business. Instruction Mode: Lecture Grading Option: Letter

Business Communication
BUCO 252 The Art of Case Analysis and Presentation
Units: 2 Terms Offered: FaSpSm Develop analytical problem-solving and persuasive presentation skills to successfully analyze strategic business situations and convincingly argue your position in a competitive environment. Instruction Mode: Lecture Grading Option: Letter Crosslisted as MOR-252

BUCO 260 Business Communication Across Cultures
Units: 2 Terms Offered: FaSp Develop intercultural communication competencies, analyze international business situations, build on/or prepare for GLP and LINC trips, internships abroad, and international exchange programs. Instruction Mode: Lecture Grading Option: Letter

BUCO 333mw Communication in the Working World - Managing Diversity
Units: 4 Terms Offered: FaSp Communication strategies to manage workplace diversity. Historical, social, legal precedents. Institutional barriers to diversity. Race, gender, sexual orientation, age, physical disabilities, culture. Satisfies Global Perspective in Category G. Citizenship in a Diverse World Instruction Mode: Lecture Grading Option: Letter

BUCO 425 Ethics and Professional Communication
Units: 4 Terms Offered: FaSp Study the intersection between business and professional leadership, language, and ethics. Analyze and present results to public audiences through publications, professional conferences, ethics case competitions. Instruction Mode: Lecture Grading Option: Letter

BUCO 445 Building Oral Communication Expertise
Units: 4 Terms Offered: FaSp Personal branding development; building expertise in persuasive business briefings and presentations, both in-person and via new media channels; framing the message based upon emotional intelligence. Instruction Mode: Lecture Grading Option: Letter

BUCO 450 Communication for Organizations: Exploring Creativity
Units: 2 Terms Offered: FaSp Development of individual creative thinking and problem-solving skills; exploration of workplace creativity; advancement of management communication skills necessary to foster organizational innovation. Instruction Mode: Lecture Grading Option: Letter

BUCO 458 Managing Communication and New Media
Units: 4 Terms Offered: FaSp Individual and team exploration of 21st century media tools and their impact on communication strategies in business. Course uses social media, collaborative software, virtual immersion, and video conferencing. Instruction Mode: Lecture Grading Option: Letter

BUCO 460 International Business Communication
Units: 4 Terms Offered: FaSp Explore the cultural dynamics and organizational communication models that contribute to successful business practices in multinational corporations and other global settings. Instruction Mode: Lecture Grading Option: Letter

BUCO 485 Business Communication Management for Nonprofits
Units: 4 Communication environment; communication activities for fundraising and visibility; research and evaluation methods; grant proposals; strategies for communicating social mission to media, government and for-profit partners. Instruction Mode: Lecture Grading Option: Letter

BUCO 499 Special Topics
Units: 2, 3, 4 Max Units: 8.0 Terms Offered: FaSp Sm Current developments in the field of business communication. Topics vary from semester to semester. Instruction Mode: Lecture Grading Option: Letter

BUCO 503 Advanced Managerial Communication
Units: 1, 5, 3 Terms Offered: FaSp Optimize individual, interpersonal communication dynamics and advance skill development through executive coaching model and applied business communication theory. Recommended Preparation: prior course work or experience in management or business communication Registration Restriction: Online registration open only to graduate business and accounting students
**COURSES OF INSTRUCTION** 855

**Instruction Mode:** Lecture Grading Option: Letter

**BUCO 504T Writing for Accounting and Tax Professionals**

Units: 3 Terms Offered: FaSp Analyze, design, develop, and present theory-based communication solutions and strategies to sophisticated interpersonal, group, organizational, and environmental communication issues and problems. Recommended Preparation: GSBA 502 or GSBA 523 or GSBA 542. Registration Restriction: Open only to graduate accounting and taxation students. Instruction Mode: Lecture Grading Option: Letter

**BUCO 533 Managing Communication in Organizations**

Units: 1.5, 3 Terms Offered: FaSp Analyze, design, develop, and present theory-based communication solutions and strategies to sophisticated interpersonal, group, organizational, and environmental communication issues and problems. Recommended Preparation: GSBA 502 or GSBA 523 or GSBA 542. Registration Restriction: Open only to graduate business and accounting students. Instruction Mode: Lecture Grading Option: Letter

**BUCO 534 Unconscious Bias, Diversity and Inclusion**

Units: 1 Terms Offered: Fa The knowledge, tools, and strategies needed to manage and leverage diversity, inclusion, and equity to achieve organizational effectiveness and success. Registration Restriction: Open only to students in the MS in Food Industry Leadership program. Instruction Mode: Lecture Grading Option: Letter

**BUCO 536 Leading with Digital Communication**

Units: 1.5 Terms Offered: FaSp Theory and practice of communicating via social media and other forms of new media to achieve business goals and build your credibility as a leader. Registration Restriction: Online registration open only to graduate business and accounting majors. Instruction Mode: Lecture Grading Option: Letter

**BUCO 552 Defining and Communicating Your Professional Value**

Units: 1.5 Terms Offered: FaSp Understand how to define and communicate your individual professional identity and value to employers across diverse professional fields using specialized applied tools. Registration Restriction: Online registration open only to graduate accounting and business majors. Instruction Mode: Lecture Grading Option: Letter

**BUCO 590 Directed Research**

Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Terms Offered: FaSpSm Research leading to the master's degree. Maximum units which may be applied to the degree to be determined by the department. Instruction Mode: Lecture Grading Option: Credit/No Credit

**BUCO 592 Field Research in Management Communication**

Units: 0.5, 1, 1.5, 2, 2.5, 3.0, 3.5, 4 Max Units: 12.0 Terms Offered: FaSpSm Individual or team projects studying the communication practices of an industry, company, government agency, country, geographic region, etc. Proposal, data collection, analyses, and written report. Recommended Preparation: completion of required MBA course work. Registration Restriction: Open only to master and doctoral students. Instruction Mode: Lecture Grading Option: Credit/No Credit

**BUCO 593 Independent Management Communication**

Units: 0.5, 1, 1.5, 2, 2.5, 3.0, 3.5, 4 Max Units: 12.0 Terms Offered: FaSpSm Independent research beyond normal course offerings. Proposal, research and written report/paper required. Instruction Mode: Lecture Grading Option: Credit/No Credit

**BUCO 595 Internship in Management Communication**

Units: 0.5, 1, 1.5, 2 Max Units: 9.0 Terms Offered: FaSpSm Supervised on-the-job business experience in the field of management communication. (Curricular Practical Training.) Recommended Preparation: completion of required MBA, MACc., or MBT course work. Registration Restriction: Open only to Business and Accounting master students. Instruction Mode: Lecture Grading Option: Credit/No Credit

**BUCO 596 Research Practicum in Management Communication**

Units: 0.5, 1.0, 1.5, 2, 2.5, 3.0, 3.5, 4.5, 5 Max Units: 12.0 Terms Offered: FaSpSm Individual or team project solving real business problems for an existing business entity, domestic and/or international. Proposal, field research, analyses and oral and written presentations. Registration Restriction: Open only to Master and Doctoral Students. Instruction Mode: Lecture Grading Option: Credit/No Credit

**BUCO 597 Consulting Project in Management Communication**

Units: 0.5, 1.5, 2, 2.5, 3.0, 3.5, 4.5, 5 Max Units: 10.0 Terms Offered: FaSpSm Supervised hands-on practical experience working with a Management Communication faculty member on an ongoing research project. Registration Restriction: Open only to master and doctoral students. Instruction Mode: Lecture Grading Option: Credit/No Credit

**BUCO 633 Writing a Journal Article for Publication**

Units: 2 Max Units: 4.0 Terms Offered: FaSp Developing strategies for productive academic writing; drafting and revising an article for journal submission. Registration Restriction: Open only to doctoral students. Instruction Mode: Lecture Grading Option: Letter

**BUCO 634 Presenting Your Research**

Units: 1 Terms Offered: FaSpSm Oral presentation skills for academic and professional conferences and teaching. Registration Restriction: Open only to doctoral students. Instruction Mode: Lecture Grading Option: Letter

**BUCO 635 Preparing for the Academic Job Market**

Units: 1 Terms Offered: FaSpSm Creating job application packets; writing research and teaching philosophy statements; interviewing; preparing the job talk. Registration Restriction: Open only to doctoral students. Instruction Mode: Lecture Grading Option: Letter

**BUCO 636 Communication for Doctoral Students: Tutorial**

Units: 1 Max Units: 4.0 Individualized tutorial focusing on academic writing and presentation skills for dissertations, conference papers, and journal articles. Prerequisite: BU CO 633 or BU CO 634 or BU CO 635. Instruction Mode: Lecture Grading Option: Credit/No Credit

**BUCO 637 Communication for Doctoral Students: Succeeding as a Teacher**

Units: 1 Terms Offered: Sm Theories of teaching and learning; strategies for developing course materials; practical advice for managing common challenges; lecturing, leading discussion, creating in-class activities. Instruction Mode: Lecture Grading Option: Credit/No Credit

**Cancer Biology and Genomics**

CBG 504 Molecular Biology of Cancer

Units: 4, 2 years Terms Offered: Sp (Enroll in INTD 504)

**CBG 580 Topics in Cancer (Epi) Genomics**

Units: 1.0 Max Units: 12 Terms Offered: FaSpSm Selected topics in Cancer Biology and Genomics including review of contemporary literature and research. Instruction Mode: Lecture Grading Option: Letter

**CBG 790 Research**

Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Terms Offered: FaSpSm Research leading to the doctorate. Maximum units which may be applied to the degree to be determined by the department. Instruction Mode: Lecture Grading Option: Credit/No Credit

**CBG 794a Doctoral Dissertation**

Units: 2 Terms Offered: FaSpSm Credit on acceptance of dissertation. Registration Restriction: Open only to doctoral students. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

**CBG 794b Doctoral Dissertation**

Units: 2 Terms Offered: FaSpSm Credit on acceptance of dissertation. Registration Restriction: Open only to doctoral students. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

**CBG 794c Doctoral Dissertation**

Units: 2 Terms Offered: FaSpSm Credit on acceptance of dissertation. Registration Restriction: Open only to doctoral students. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

**CBG 794d Doctoral Dissertation**

Units: 2 Terms Offered: FaSpSm Credit on acceptance of dissertation. Registration Restriction: Open only to doctoral students. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

**Craniofacial Biology**

CBY 561 Molecular Biology

Units: 4 Terms Offered: Fa (Enroll in INTD 561)

**CBY 571 Biochemistry**

Units: 4 Terms Offered: Fa (Enroll in INTD 571)
CBY 573 Molecular Embryology
Units: 4 Principles of developmental biology; emphasis on molecular genetics and cellular and molecular mechanisms of tissue interaction and morphodifferentiation.

CBY 574 Statistical Methods in Bioexperimentation
Units: 3 Experimental design and analysis as applied to all levels of biologic organization; hypothesis construction; probability; univariate and multivariate analysis; basic epidemiology.

CBY 575 Biologic Basis of Oral-facial Disease
Units: 3 Terms Offered: FaSpSm Cell and molecular biology of oral tissues in disease; emphasis on immunopathology. Duplicates Credit in former CBY 575a.

CBY 576 Biochemical Aspects of Periodontal Disease
Units: 3 Terms Offered: FaSpSm Cell and molecular biology of oral tissues in disease; emphasis on molecular oral pathology. Duplicates Credit in former CBY 576b.

CBY 578 Pathological Conditions of the Craniofacial Complex
Units: 3 Terms Offered: FaSpSm Acquired and inherited, systemic and local disease resulting in craniofacial morbidity; cellular and molecular expression as related to etiology, diagnosis, treatment, and prognosis.

CBY 579L Craniofacial Molecular Genetics
Units: 4 Principles and methodologies of mammalian molecular genetics; laboratory exercises applied to pre- and postnatal craniofacial growth and development.

CBY 580a Seminars in Craniofacial Biology
Units: 2 Seminars presented by recognized researchers in the various disciplines relating to craniofacial biology; selected readings in preparation for discussion. Grading Option: Graded CR/NC.

CBY 580b Seminars in Craniofacial Biology
Units: 2 Seminars presented by recognized researchers in the various disciplines relating to craniofacial biology; selected readings in preparation for discussion. Grading Option: Graded CR/NC.

CBY 582L Laboratory Methods
Units: 3 Contemporary methods of laboratory analysis, including theoretical and practical exposure to procedures and equipment in the research laboratory.

CBY 583 Craniofacial Clinical Genetics
Units: 4 Principles of human genetics; clinically oriented normal and abnormal human embryology; diagnosis and natural history of human craniofacial birth defects; genetic counseling and bioethics.

CBY 585 Systematic Research Writing
Units: 3 Terms Offered: FaSpSm Enhancement of critical research thinking by fulfilling anticipated conceptual components of the journal article; perfection of writing skills by correcting inter- and intra-sentence flaws.

CBY 586X Scientific Writing Practicum
Units: 3 Development of writing skill while completing a discipline required project (proposal, dissertation, journal article). Seminar and tutorial format. Not for graduate credit. Prerequisite: CBY 585 or DENT 402.

CBY 587 Cell and Molecular Biology of Craniofacial Tissues
Units: 3 Contemporary cell and molecular biology as applied to the development, structure, and function of craniofacial tissues.

CBY 590 Directed Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Research leading to the master's degree. Maximum units which may be applied to the degree to be determined by the department. Grading Option: Graded CR/NC.

CBY 594a Master's Thesis
Units: 2 Credit on acceptance of thesis. Grading Option: Graded IP/CR/NC.

CBY 594b Master's Thesis
Units: 2 Credit on acceptance of thesis. Grading Option: Graded IP/CR/NC.

CBY 594z Doctoral Dissertation
Units: 2 Credit on acceptance of dissertation. Grading Option: Graded IP/CR/NC.

CBY 794a Doctoral Dissertation
Units: 2 Credit on acceptance of dissertation. Grading Option: Graded IP/CR/NC.

CBY 794b Doctoral Dissertation
Units: 2 Credit on acceptance of dissertation. Grading Option: Graded IP/CR/NC.

CBY 794c Doctoral Dissertation
Units: 2 Credit on acceptance of dissertation. Grading Option: Graded IP/CR/NC.

CBY 794d Doctoral Dissertation
Units: 2 Credit on acceptance of dissertation. Grading Option: Graded IP/CR/NC.

CBY 794z Doctoral Dissertation
Units: 0 Credit on acceptance of dissertation. Grading Option: Graded IP/CR/NC.

Civil Engineering
CE 106 Introduction to Civil Engineering
Units: 2 Terms Offered: Fa Introduction to the civil engineering discipline, subdisciplines, technology and problem solving; technical report writing; contemporary civil engineering topics; engineering ethics. Instruction Mode: Lecture Grading Option: Letter

CE 107L Introduction to Civil Engineering Graphics
Units: 2 Terms Offered: FaSpSm Graphic communication and drawing; Free-hand sketching; Use of CAD software; Drawing in 2-D, including lettering, dimensioning, and detailing; Drawing and modeling in 3-D. Instruction Mode: Lecture, Lab Required Grading Option: Letter

CE 108 Introduction to Computer Methods in Civil Engineering
Units: 2 Terms Offered: Sp Computer programming, organization of problems for computational solution, flow charts, programming; numerical methods; analysis and solution of civil engineering problems. Instruction Mode: Lecture Grading Option: Letter

CE 110 Introduction to Environmental Engineering
Units: 2 Terms Offered: Fa Basic concepts of environmental engineering including topics of water, land, energy, air, climate, resource management, human society and professional development. Instruction Mode: Lecture Grading Option: Letter

CE 119 Probability Concepts and Civil Engineering
Units: 2 Terms Offered: FaSpSm Elements of statistical data exploration, interpretation and analysis. Corequisite: MATH 245 Instruction Mode: Lecture Grading Option: Letter

CE 215 Statics and Dynamics
Units: 2 Terms Offered: FaSpSm Kinematics and kinetics of systems of particles and rigid bodies; equivalent force systems; distributed forces and applications; moments of inertia, momentum, energy, vibrations; Euler's equations. Prerequisite: PHYS 151Lg Duplicates Credit in former CE 205 and former CE 235 Instruction Mode: Lecture, Discussion Grading Option: Letter

CE 225 Mechanics of Deformable Bodies
Units: 4 Terms Offered: FaSpSm Analysis of stress and strain; axial, flexural, and torsional behavior of slender bars; elastic deflections; combined stresses; introduction to elastic stability and energy methods. Prerequisite: CE 215 Instruction Mode: Lecture, Discussion Grading Option: Letter

CE 309 Fluid Mechanics
Units: 4 Terms Offered: Sp Fluid statics; relative velocity field; total acceleration; divergence theorem; conservation of mass, energy, and momentum; applied to engineering problems in laminar and turbulent flow. Prerequisite: MATH 226g or MATH 229 Corequisite: CE 225 Instruction Mode: Lecture Grading Option: Letter
CE 334L Mechanical Behavior of Materials
Units: 4  Terms Offered: Fa Basic material science, atomic bonding, crystalline structures, structural and mechanical behavior and characterization of metals, concrete, wood, composites and asphalt. Prerequisite: CE 225 or AME 204 and (CHM 105GaL or CHEM 115Lg) and PHYS 152L Instruction Mode: Lecture, Lab Required  Grading Option: Letter Crosslisted as MASC 334

CE 358L Elementary Theory of Structures
Units: 4  Terms Offered: Fa Deformations and deflections of elastic systems; statically indeterminate beams, arches, and frames; secondary stresses; computer analysis of simple structural systems. Prerequisite: CE 225 Instruction Mode: Lecture, Discussion, Lab Required  Grading Option: Letter Crosslisted as CE 558L

CE 363L Water Chemistry and Analysis
Units: 4  Terms Offered: Sp Chemistry of water purification technology and water pollution control, chemical processes in natural and engineering environments; physical/chemical and biological characterization of water and wastewater. Prerequisite: ENE 200 and (CHEM 105bL or CHEM 115bL) Duplicates Credit in former CE 463 Instruction Mode: Lecture, Lab Required  Grading Option: Letter

CE 390 Special Problems
Units: 1, 2, 3, 4  Supervised, individual studies. No more than one registration permitted. Enrollment by petition only. Instruction Mode: Lecture Grading Option: Letter

CE 402 Computer Methods in Engineering
Units: 2  Terms Offered: Sp Application of computer-oriented numerical analysis methods and tools to a broad spectrum of practical science and engineering problems. Use of Python, R and computer algebra. Prerequisite: CE 108 and MATH 245 Instruction Mode: Lecture Grading Option: Letter

CE 404 Business and Intellectual Property Law for Engineers
Units: 3  Terms Offered: Fa An examination of legal issues confronting the professional engineer. Topics include the legal system, contracts, risk management, forms of doing business, capital formation and intellectual property rights. Instruction Mode: Lecture Grading Option: Letter Crosslisted as ISE-404

CE 408 Risk and Decision Analysis in Civil Engineering
Units: 2  Terms Offered: FaSp Introduction to probabilistic concepts and to the formulation and solution of related problems in civil and environmental engineering. Corequisite: MATH 245 Instruction Mode: Lecture Grading Option: Letter

CE 409L Computer-Aided Design
Units: 3  Applications of interactive computer graphics to design problems; automated drafting: 3-D graphic algorithms. Analysis of design process from information processing viewpoint. Prerequisite: CE 225 Instruction Mode: Lecture, Lab Required  Grading Option: Letter

CE 409L Computer-Aided Design
Units: 3  Applications of interactive computer graphics to design problems; automated drafting: 3-D graphic algorithms. Analysis of design process from information processing viewpoint. Prerequisite: CE 225 Instruction Mode: Lecture, Lab Required  Grading Option: Letter

CE 410L Introduction to Environmental Engineering Microbiology
Units: 4  Terms Offered: Fa Fundamentals and applications of microbiology in the context of natural and engineered environmental systems. Prerequisite: BISC 220Lg and (CHEM 105aLg or CHEM 115aLg) and (CHEM 105bL or CHEM 115bL) Duplicates Credit in former CE 210 Instruction Mode: Lecture, Lab Required  Grading Option: Letter

CE 412 Construction Contracts and Law
Units: 2  Terms Offered: Sp Legal aspects of property development and construction: land use, construction practices and specifications, architecture and engineering contracts, agency, subcontracting, professional registration, liability, insurance, liens, bonds. Instruction Mode: Lecture Grading Option: Letter

CE 428 Mechanics of Materials
Units: 3  Analysis of stress and deformation; equations of elasticity; bending of beams; elastic instability; torsion problems; introduction to plates and shells; elastic wave propagation; numerical methods. Prerequisite: CE 225 Instruction Mode: Lecture Grading Option: Letter Crosslisted as AME-428

CE 443 Environmental Chemistry
Units: 3  Terms Offered: Fa Chemistry of water, gas, liquid and solid wastes. Chemical principles applicable to environmental engineering. Prerequisite: CHEM 105bL or CHEM 115bL Instruction Mode: Lecture Grading Option: Letter Crosslisted as ENE-443

CE 450 Basic Coastal Engineering
Units: 3  Terms Offered: FaSp Mechanics of wave motion; wave refraction, diffraction and reflection; wave forecasting; shore processes; planning of coastal engineering projects; design of seawalls, breakwaters and offshore installations. Instruction Mode: Lecture Grading Option: Letter Crosslisted as CE 450

CE 451 Water Resources and Coastal Engineering
Units: 4  Terms Offered: Sp Control and utilization of inland and coastal water, quantitative hydrology, groundwater, probability concepts, extreme events, coastal hydrodynamics, wave-structures interactions, multiple purposes water projects, economic study. Prerequisite: CE 309 Instruction Mode: Lecture Grading Option: Letter

CE 453 Water Quality Science and Engineering
Units: 4  Terms Offered: FaSp Water quality criteria and fundamentals of acceptability; processes employed in treatment of water and wastewater; water reclamation and reuse; sustainability in water and wastewater systems. Prerequisite: CHEM 105aLg or CHEM 115aLg Corequisite: CE 309 Instruction Mode: Lecture Grading Option: Letter

CE 456 Structural Design I
Units: 4  Terms Offered: FaSp Structural design processes for wood, steel, concrete, and masonry structural beams, columns, and connections; determination of structural loads; framing systems; and applications of structural mechanics to the design process. Prerequisite: CE 478 Instruction Mode: Lecture Grading Option: Letter Crosslisted as CE 478

CE 457 Structural Design II
Units: 4  Terms Offered: Sp Design of structural systems in wood, steel, concrete and masonry, and the performance of structural systems for wind and seismic forces. Prerequisite: CE 358L and CE 456 Duplicates Credit in former CE 207 and former CE 478 Instruction Mode: Lecture Grading Option: Letter

CE 458 Computational Structural Analysis
Units: 4  Terms Offered: Sp Computerized structural analysis; displacement method; force method; large scale structural systems; static analyses; structural dynamics of systems; earthquake engineering; nonlinear analysis; elastic stability and buckling. Prerequisite: CE 358L Instruction Mode: Lecture, Lab Grading Option: Letter

CE 459 Introduction to Structural Dynamics
Units: 2  Terms Offered: Fa Response of single and multiple degree of freedom systems to dynamic excitation; structural modeling and approximate solutions; introduction to earthquake resistant design. Prerequisite: CE 458 Instruction Mode: Lecture Grading Option: Letter

CE 460 Construction Engineering
Units: 4  Terms Offered: FaSp Introduction to the construction processes; estimating and bidding, construction administration, planning and scheduling, equipment and methods, labor relations, cost control systems, safety and ethics. Instruction Mode: Lecture Grading Option: Letter

CE 461 Construction Estimating
Units: 4  Terms Offered: FaSp Fundamental principles and practices of advanced building cost estimating using Revit Models and industry standard databases. Recommended Preparation: CE 450 Registration Restriction: Open only to juniors, seniors and graduate students Instruction Mode: Lecture Grading Option: Letter

CE 462 Construction Methods and Equipment
Units: 2  Terms Offered: FaSp Current procedures in selected fields of construction; organization and planning; equipment economics; machinery. Recommended Preparation: CE 450 Registration Restriction: Open only to juniors, seniors and graduate students Instruction Mode: Lecture Grading Option: Letter

CE 464 Geotechnical Engineering
Units: 3  Fundamentals of soil mechanics and foundation engineering; soil classification, seepage, stress-strain behavior, shear strength, consolidation, design of retaining structures and foundations, and slope stability. Instruction Mode: Lecture, Lab Grading Option: Letter

CE 465 Water Supply and Sewerage System Design
Units: 4  Terms Offered: Sp Design of water...
supply systems, storm drains, sanitary sewers, and lift stations. Prerequisite: CE 453 Instruction Mode: Lecture Grading Option: Letter CE 455 Crosslisted as ENES 455

CE 467L Geotechnical Engineering
Units: 4 Terms Offered: Sp Fundamentals of geotechnical engineering; soil classification, seepage, stress-strain behavior, shear strength, consolidation, design of retaining structures and foundations, and slope stability. Soil testing. Prerequisite: CE 225. Duplicates Credit in CE 464. Instruction Mode: Lecture, Lab Required Grading Option: Letter

CE 469 Sustainable Design and Construction
Units: 2 Terms Offered: Fa Leadership in Energy and Environmental Design (LEED); green building strategies; carbon footprinting; calculating the embodied energy of building materials; cyclical processes in design and construction. Instruction Mode: Lecture Grading Option: Letter

CE 470 Building Information Modeling: Project Visualization and Simulation for Management
Units: 4 Terms Offered: Sp Building Information Modeling, current BIM technologies; coordination of design and construction; information management throughout building lifecycle; project visualization and simulation for integrated practice. Registration Restriction: Open only to juniors, seniors and graduate students Instruction Mode: Lecture Grading Option: Letter

CE 471 Principles of Transportation Engineering
Units: 4 Terms Offered: Fa Planning, design, construction, maintenance, and operation of facilities for air, water, rail and highway transit systems. Prerequisite: MATH 226g or MATH 227 or MATH 229 Instruction Mode: Lecture Grading Option: Letter

CE 473 Engineering Law, Finance and Ethics
Units: 3 Terms Offered: Fa An examination of the legal, financial and ethical issues regularly considered by all practicing engineers. Instruction Mode: Lecture Grading Option: Letter

CE 476 Design of Hydraulic Systems
Units: 4 Terms Offered: Fa Design of pressurized and free surface hydraulic systems, piping networks, surge suppression, pumps, turbines, submarine outfalls, water wave interactions with marine structures, breakwater design. Prerequisite: CE 309 Duplicates Credit in former CE 466 Instruction Mode: Lecture Grading Option: Letter

CE 478 Timber and Masonry Design
Units: 3 Terms Offered: Fa Characteristics and properties of wood; beams, columns, trusses, connectors, and diaphragms. Properties of masonry, working stress and strength design, seismic design requirements. Prerequisite: CE 207; CE 225. Instruction Mode: Lecture Grading Option: Letter

CE 480 Civil and Environmental Engineering Capstone Design
Units: 4 Terms Offered: Sp Civil and Environmental Engineering capstone design project incorporating all disciplines of Civil Engineering and Environmental Engineering. Prerequisite: CE 408 and (CE 456 or CE 457 or CE 476 or CE 485) Instruction Mode: Lecture Grading Option: Letter

CE 482 Subsurface Foundation Design
Units: 4 Terms Offered: Fa Site exploration and characterization; analysis and design of structural foundations, including spread footings, mats, piles and drilled shafts; retaining wall and braced excavation design. Prerequisite: CE 467L Instruction Mode: Lecture Grading Option: Letter

CE 484 Water Treatment Design
Units: 3 Terms Offered: Fa Predesign studies, precipitation softening, coagulation and flocculation, sedimentation, filtration, sludge handling, chlorination, chloramination, ozonation; plant hydraulics, flow measurement, pumps, instrumentation and control, tertiary treatment. Prerequisite: CE 451. Instruction Mode: Lecture Grading Option: Letter

CE 485 Water Treatment Design
Units: 4 Terms Offered: Sp Engineering design of unit operations and unit processes for municipal wastewater treatment, including preliminary, primary, secondary, tertiary, and advanced treatments; disinfection; sludge treatment; sidestream treatment. Prerequisite: CE 453 and CE 363L Instruction Mode: Lecture Grading Option: Letter

CE 486a Innovation in Engineering and Design for Global Crises
Units: 3 Terms Offered: Fa Engineering innovation to design products, services and technologies with a human-centered approach to help solve the needs of people affected by global crises. Instruction Mode: Lecture Grading Option: Letter

CE 486b Innovation in Engineering and Design for Global Crises
Units: 3 Terms Offered: Sp Engineering innovation to design products, services and technologies with a human-centered approach to help solve the needs of people affected by global crises. Prerequisite: CE 485a Instruction Mode: Lecture Grading Option: Letter

CE 490x Directed Research
Units: 1, 2, 3, 4, 5, 6, 7, 8 Max Units: 12.0 Individual research and readings. Instruction Mode: Lecture Grading Option: Letter

CE 495 Seminars in Civil Engineering
Units: 1 Terms Offered: Fa/Sp Information necessary for successful transition to engineering practice with emphasis on substantive engineering topics, employee rights and responsibilities, communication skills, ethic and lifelong learning. Instruction Mode: Lecture Grading Option: Credit/No Credit

CE 499 Special Topics
Units: 2, 3, 4 Max Units: 8.0 Course content to be selected and announced during the previous semester in civil engineering and related fields. Instruction Mode: Lecture Grading Option: Letter

CE 501 Construction Practices
Units: 4 Terms Offered: Fa/Sp Systems, processes, and constraints governing the initiation, direction, engineering, and delivery of major construction projects. Professional construction management, responsibilities, and practice. Instruction Mode: Lecture Grading Option: Letter

CE 502 Construction Accounting, Finance and Strategy
Units: 4 Terms Offered: Fa/Sp Fundamental accounting principles, financial analysis and financial control, strategic management and a review of alternative project delivery methods. Instruction Mode: Lecture Grading Option: Letter Crosslisted as ISE 502

CE 503 Microbiology for Environmental Engineers
Units: 3 Basic microbiology of water, air, and soil. Application of microbiology to the practice of environmental pollution control. Instruction Mode: Lecture Grading Option: Letter Crosslisted as ENE-503

CE 504 Solid Waste Management
Units: 3 Characterization, production, storage, collection, and transport of solid wastes; alternative disposal methods; design principles and environmental impact; management of radiological solid wastes. Instruction Mode: Lecture Grading Option: Letter Crosslisted as ENE-504

CE 505 Data Management for Civil and Environmental Engineering
Units: 2 Terms Offered: Fa The basics of databases and database management systems as applied to engineering problems. Introduction to data mining concepts, techniques and knowledge discovery in database principles. Instruction Mode: Lecture Grading Option: Letter

CE 506 Heavy Construction Estimating
Units: 3 Terms Offered: Fa Methods engineering, work analysis and pricing for route construction. Grading, draining, paving, haul economy, plant-materials production, pipeline and bridge building. Instruction Mode: Lecture Grading Option: Letter

CE 507 Mechanics of Solids I
Units: 4 Terms Offered: Fa Fundamental theory of linear elasticity applicable to multiple branches of solid mechanics. Recommended Preparation: Expected to have knowledge of mechanics of deformable bodies or solid mechanics on the level of CE 225 or AME 204 Instruction Mode: Lecture Grading Option: Letter Crosslisted as AME 507

CE 508 Mechanics of Solids II
Units: 3 Thermal stresses; introduction to elastic stability; yield criteria; constitutive equations for elastoplastic materials; elastoplastic stress analysis; viscoelasticity and creep. Prerequisite: CE 507 or CE 428. Instruction Mode: Lecture Grading Option: Letter

CE 509 Mechanics of Solids III
Units: 3 Advanced topics in mechanics of solids; complex variable methods for plane problems; three-dimensional problems; introduction to fracture mechanics. Prerequisite: CE 507. Instruction Mode: Lecture Grading Option: Letter

CE 510 Groundwater Management
Units: 3 Groundwater hydrology, aquifer testing technology, groundwater quality and contamination, geophysical method, well design and development, basin water balance, computer modeling, legal aspects, groundwater management system.
CE 453. Principles of Foundation Engineering
Units: 3. Fundamental methods in foundation engineering; plastic collapse, limit equilibrium, bearing capacity, slope stability; soil-structure interaction; application of numerical methods, finite differences and finite elements. Prerequisite: CE 464. Instruction Mode: Lecture Grading Option: Letter

CE 533 Geotechnical Earthquake Engineering
Units: 4. Terms Offered: Fa. Fundamentals and design-oriented understanding of the "state-of-the-practice" of geotechnical earthquake engineering, related to analysis and design of foundations, slopes and retaining walls. Recommended Preparation: Knowledge of soil phase parameters and phase relations; effective stress concepts; and soil strength parameters and laboratory strength testing procedures on the level of CE 467L. Instruction Mode: Lecture Grading Option: Letter

CE 534 Design of Earth Structures
Units: 3. Designed to provide a thorough understanding of the analytical and design principles underlying the construction of a broad range of earth structures. Instruction Mode: Lecture Grading Option: Letter

CE 535 Earthquake Engineering: Strong Motion Studies
Units: 2. Terms Offered: Fa. Earthquake source mechanisms: wave propagation, scattering, diffraction and amplification; scaling of strong ground motion for seismic hazard analysis for earthquake resistant design. Instruction Mode: Lecture Grading Option: Letter

CE 537 Advanced Reinforced Concrete Structures
Units: 4. Terms Offered: Fa. Advanced beam flexural analysis; shear behavior of beams; beam-columns and interaction diagrams; torsion; structural wall design; analysis of D-regions; nonlinear behavior of RC systems. Recommended Preparation: CE 457; CE 225 or AME 204; CHEM 105aLg or CHEM 115aLg; PHYS 152L. Instruction Mode: Lecture Grading Option: Letter

CE 538 Prestressed Concrete Structures
Units: 2. Terms Offered: Fa. Introduction to the concept, principles and applications of prestressed concrete; covers the analysis and design of prestressed concrete structures. Recommended Preparation: Expected to have knowledge of reinforced concrete design on the level of CE 457. Instruction Mode: Lecture Grading Option: Letter

CE 539 Advanced Steel Structures
Units: 4. Terms Offered: Fa. Structural steel and its properties, the design of typical steel buildings and design performance of steel buildings for earthquake loads. Recommended Preparation: Steel structure design knowledge on the level of CE 457. Instruction Mode: Lecture Grading Option: Letter

CE 540 Modeling and Analysis of Tall and Special Structures
Units: 2. Terms Offered: Sp. Integration of structural modeling with the analysis and design of tall and special structures to
resist earthquake motion through inelastic response. Prerequisite: CE 529 and CE 541
Recommended Preparation: Experience with ETAB and SAP. Instruction Mode: Lecture Grading Option: Letter
CE 541 Dynamics of Structures
Units: 4 Terms Offered: Fa Forced vibrations of discrete and distributed systems; energy methods; analytical
methods; computational techniques; approximate methods; random vibration
concepts; nonstationary response; structural control; nonlinear system
response. Registration Restriction: Open only to graduate students Duplicates Credit
in former CE 541a and former CE 541b Instruction Mode: Lecture Grading Option: Letter
CE 542 Theory of Plates and Shells
Units: 2 Terms Offered: Sp Theory of plate bending; rectangular and circular plates; energy methods; numerical methods;
vibration of plates, stability of plates, introduction to shell theory, membrane
and bending stresses, cylindrical shells. Recommended Preparation: CE 358L or equivalent Instruction Mode: Lecture Grading Option: Letter Crosslisted as AME 542
CE 543 Structural Instability and Failure
Units: 4 Terms Offered: Sp Stability analysis of columns, frames, plates, circular rings and shells; Energy-based method; Dynamic
analysis of structural stability; Elastic fracture mechanics; Small-strain plasticity. Recommended Preparation: Undergraduate strength of materials class on the level of
CE 125 Instruction Mode: Lecture Grading Option: Letter Crosslisted as AME 543
CE 545a Advanced Finite Element Method in Structural and Continuum Mechanics
Units: 3 Finite elements in nonlinear mechanics, elasticity, plasticity, viscoelasticity, advanced finite element applications in fracture mechanics, heat transfer, fluid mechanics, computational
implementation of finite element method. Prerequisite: CE 529a. Instruction Mode: Lecture Grading Option: Letter
CE 545b Advanced Finite Element Method in Structural and Continuum Mechanics
Units: 3 Mathematical aspects of the finite element method; correctness of discretizations for elliptic, parabolic, and
hyperbolic equations; accuracy and convergence considerations; stability of
finite element algorithms. Prerequisite: CE 545a. Instruction Mode: Lecture Grading Option: Letter
CE 546 Structural Mechanics of Composite Materials
Units: 2 Terms Offered: Sp Structural mechanics and applications of composites are discussed: anisotropic materials;
laminated composites; buckling and dynamics; strength and failure; inter-
 laminar stresses; de-lamination; design considerations. Recommended Preparation: CE 358L or equivalent Instruction Mode: Lecture Grading Option: Letter
CE 547 Earthquake Engineering: Response of Structures
Units: 4 Terms Offered: Fa Develop skills for using current knowledge about structural response in the design of earthquake
resistant structures. Instruction Mode: Lecture Grading Option: Letter
CE 548 Timber and Masonry Design
Units: 2 Terms Offered: Fa Introduction to the design of timber and masonry structures including seismic design of wood and masonry structural systems. Instruction Mode: Lecture Grading Option: Letter
CE 549 Building Design Project
Units: 3 Terms Offered: Sp Integrated design project following design office procedures. A building will be designed in
detail using the team approach. Capstone for MEng in Structural Design. Prerequisite: CE 459 or CE 541a, CE 458 or CE 529a, CE 537; Corequisite: CE 539. Instruction Mode: Lecture Grading Option: Letter
CE 550 Computer-Aided Engineering
Units: 3 Basic concepts of computer-
aided engineering, Modeling; simulation; visualization; optimization; artificial intelligence; manufacturing; information management. Organization and management of computer-aided engineering projects. Instruction Mode: Lecture Grading Option: Letter
CE 551 Computer-Aided Engineering Project
Units: 3 Computer-aided engineering in a project environment. Responding to RFPs; conceptual design; preliminary analysis;
overall and detailed analysis and design; trade-off studies; project management; project presentation. Instruction Mode: Lecture Grading Option: Letter
CE 552 Managing and Financing Public Engineering Works
Units: 3 Terms Offered: FaSpSm Tools for improving the efficiency and effectiveness of public engineering works, taking into
account the political and policy context. Recommended Preparation: microeconomic theory. Instruction Mode: Lecture Grading Option: Letter Crosslisted as PPD-552
CE 553 Biological Processes in Environmental Engineering
Units: 4 Terms Offered: Sp Design of aerobic and anaerobic biological treatment processes for organic and inorganic
pollutant removal and resource recovery from waste streams. Prerequisite: CE 453 Instruction Mode: Lecture Grading Option: Letter Crosslisted as ENE 553
CE 554 Risk and Reliability Analysis for Civil Infrastructure Systems
Units: 3 Terms Offered: Sp Elements of feasibility, reliability, and risk analysis of civil infrastructure systems, simulation,
optimization, life-cycle cost, evaluation and decision making. Instruction Mode: Lecture Grading Option: Letter
CE 555 Underwater Structures
Units: 3 Loads on underwater structures; stress analysis of typical structural elements; buckling problems; dynamic response. Prerequisite: CE 507. Instruction Mode: Lecture Grading Option: Letter
CE 557 Advanced Building Estimating
Units: 3 Terms Offered: Sp Processes in compiling a bid for construction of nonresidential building. Instruction Mode: Lecture Grading Option: Letter
CE 558 International Construction and Engineering
Units: 3 Terms Offered: Sp Business development and project management in international markets. Topics include
marketing, planning, contracts and negotiations, procurement, logistics, personnel and financing. Construction operations in adverse environments. Instruction Mode: Lecture Grading Option: Letter
CE 559 Strategic Planning in Construction Engineering
Units: 3 Terms Offered: Sp Elements and techniques of strategic planning for construction engineering. Fundamentals of engineering as a service sector
enterprise. Assessment of markets (including international issues), competitors, and technology. Aspects of overseas engineering business. Management of
CE 560 Simulation of Civil Infrastructure Systems Performance
Units: 3 Time/space and frequency
wave number domain analysis, spectral
representation of wind, earthquake and other natural loads, FEM techniques for system response simulation. Instruction Mode: Lecture Grading Option: Letter
CE 561 Uncertainty Quantification and Data Analytics in Civil and Mechanical Engineering
Units: 4 Terms Offered: Fa Data analysis and interpretation in the context of civil and mechanical engineering applications with a focus on statistical aspects of data and models. Recommended Preparation: Elementary statistics and probability concepts including introduction to statistical dependence expectation and probability distribution functions on the level of CE 408 Instruction Mode: Lecture Grading Option: Letter
CE 562 Aquatic Chemistry
Units: 4 Terms Offered: Sp (Enroll in ENE 562)
CE 563 Chemistry and Biology of Natural Waters
Units: 3 Chemical and biological limnology; cycles of carbon, nitrogen, phosphorous, sulfur, and other biologically-mediated chemical transformations; effect of pollution on biology and chemistry of natural waters. Prerequisite: CE 443 and CE 453. Instruction Mode: Lecture Grading Option: Letter Crosslisted as ENE-563
CE 564 Construction Planning and Preconstruction
Units: 4 Terms Offered: Fa The steps and processes for the planning and pre-construction phases of a projec using tools and technologies for budgeting, scheduling and planning. Recommended Preparation: Knowledge of construction practices at the level of CE 501 Registration Restriction: Open only to graduate students Instruction Mode: Lecture Grading Option: Letter
CE 565 Wave Propagation in Solids
Units: 3 Elastic waves in infinite and semi-
infinite regions; plates and bars; steady-state and transient scattering; dynamic stress concentration; viscoelastic and plastic bodies. Instruction Mode: Lecture Grading Option: Letter
CE 567 Smart Infrastructures
Units: 3 Examination of smart infrastructures relating to energy, water,
waste and transportation drawing from the fields of engineering, sustainability, communications, sociology, and psychology. Instruction Mode: Lecture Grading Option: Letter

CE 568 Fundamental Concepts of Computing and Programming in Civil and Environmental Engineering
Units: 4 Terms Offered: Sp
Concepts of computing and programming related to engineering; Form and operation of modern computational devices; Data structures and algorithms that support CEE software applications. Registration Restriction: Prerequisite: CE 556 and former CE 566. Recommended Preparation: General background in programming languages. Instruction Mode: Lecture Grading Option: Letter

CE 569 Project Controls
Units: 4 Terms Offered: FaSp
Project controls principles including costs and schedules, cost engineering concepts, schedule development, status evaluation, progress monitoring and responses to variances and changes. Duplicates Credit in former CE 556 and former CE 566. Instruction Mode: Lecture Grading Option: Letter

CE 570 Building Information Modeling for Collaborative Construction
Units: 3 Terms Offered: FaSp
Multidisciplinary and geographically distributed virtual project teams used to simulate engineering and construction problems for projects selected in collaboration with industry partners. Prerequisite: CE 470; Recommended Preparation: CE 556, CE 566. Instruction Mode: Lecture Grading Option: Letter

CE 571 Nuclear Safety and Security: Human Performance and Safety Culture
Units: 3 Provides an overview of human-systems integration considerations, human performance and safety culture in the nuclear power operations. Instruction Mode: Lecture Grading Option: Letter

CE 572 Construction Labor Management
Units: 2 Unionism in construction. Craft tradition, objectives, regulation, motivation, labor force economics, productivity, and techniques. Recommended Preparation: Hiring systems, supervision of labor operations, jurisdicalitization. Instruction Mode: Lecture Grading Option: Letter

CE 573 Advanced Technologies in AEC Practices
Units: 4 Terms Offered: Fa
Data-centric engineering paradigms, modeling and simulation technologies; applications for Architecture, Engineering and Construction (AEC) projects or challenges. Instruction Mode: Lecture Grading Option: Letter

CE 574 Construction Means and Methods
Units: 4 Terms Offered: Fa
Job site logistics, field management, means and methods as they pertain to the builder, with an emphasis on constructability, productivity and schedule impacts for building construction. Instruction Mode: Lecture Grading Option: Letter

CE 575 Sustainability, Well-Being and Innovation in the Built Environment
Units: 4 Terms Offered: Sp
Exploration of topics in sustainability, well-being and innovation in the built environment. Specifically, sustainable and healthy built environments; metrics and initiatives; end-user interactions; and innovation. Instruction Mode: Lecture Grading Option: Letter

CE 578 Technology-Enabled Architecture, Engineering and Construction (AEC) Projects
Units: 4 Terms Offered: Sp
Integration of architecture, engineering and construction practices through the development of a construction project. Instruction Mode: Lecture Grading Option: Letter Crosslisted as ARCH 578

CE 579 Introduction to Transportation Planning Law
Units: 2 Terms Offered: FaSp
Integration of federal and state statutory and regulatory requirements affecting California transportation systems, including transportation planning and funding law; and government contracting, environmental and civil rights requirements. Recommended Preparation: General background in either planning or engineering; should have an interest in transportation, but no prior coursework in transportation is needed. Instruction Mode: Lecture Grading Option: Letter Crosslisted as PPDR 580

CE 580 Law and Finance for Engineering Innovation
Units: 3 (Enroll in ISE 565)

CE 581 Negotiation For Engineering Management
Units: 3 Terms Offered: Sp
Recommended Preparation: General background in negotiation. Instruction Mode: Lecture Grading Option: Letter Crosslisted as PPD 581

CE 582 Transportation System Security and Emergency Management
Units: 4 Terms Offered: FaSp
Multimodal transportation resilience with emphasis on transit systems. Principles of emergency management, preparedness, vulnerability assessment, countermeasures. Related topics in policy and economics. Instruction Mode: Lecture Grading Option: Letter Crosslisted as PPD 582

CE 583 Design of Transportation Facilities
Units: 4 Terms Offered: Sp
Planning, design, staging, construction, test and maintenance of the public works and facilities for land, water and air transportation. Recommended Preparation: CE 471 and CE 545; probability and statistics on the level of CE 408. This course is primarily for graduate engineering students. It is not appropriate for applied social science students. Instruction Mode: Lecture Grading Option: Letter

CE 584 Intelligent Transportation Systems
Units: 4 Terms Offered: FaSp
Fundamentals of intelligent transportation systems, including automated vehicle technology and applications, communication systems, advanced transportation management systems, policy issues, transportation network services and smart cities. Recommended Preparation: Prior coursework in transportation engineering at the level of CE 471 or PPDE/CE 637 Registration Restriction: Note that this course is primarily for graduate engineering students, but is accessible to applied social science students if they have a special interest in the topic, particularly if they have an undergraduate engineering background. Students who are unsure of their preparation should consult with the instructor, who will help make a careful determination of whether students are likely to succeed in the course. Instruction Mode: Lecture Grading Option: Letter

CE 585 Traffic Engineering and Control
Units: 3 Terms Offered: Sp
Covers conceptual and engineering geometric design, installation, and calibration of vehicular storage and traffic controls; safe flow optimization of vehicles on various thoroughfares. Recommended Preparation: CE 471. Instruction Mode: Lecture Grading Option: Letter

CE 586 Modeling Transportation Network Supply and Demand
Units: 4 Terms Offered: Sp
Theories and applications of transportation network demand and supply models and simulation techniques. Hands-on opportunities to work with simulation software to solve problems. Recommended Preparation: Undergraduate engineering background or the equivalent, including basic knowledge of 1 programming language, statistics and optimization (such as linear programming). Instruction Mode: Lecture, Discussion Grading Option: Letter

CE 587 Transportation Energy Analysis
Units: 3 Energy consumption and socioeconomic impacts of past, present, and future transportation systems; analysis of alternatives between energy-intensive and low-cost transportation modes. Instruction Mode: Lecture Grading Option: Letter

CE 588 Railroad Engineering
Units: 3 Railroad infrastructure including passenger and freight operations, track alignment (horizontal and vertical) design, basic components and terminology used in rail design and an understanding of this mode of transportation. Recommended Preparation: CE 471. Instruction Mode: Lecture Grading Option: Letter

CE 589 Port Engineering: Planning and Operational Analysis
Units: 4 Terms Offered: Sp
Recommended Preparation: General background in either planning or engineering; should have an interest in transportation and logistics with some prior related coursework. Instruction Mode: Lecture Grading Option: Letter Crosslisted as ISE 589, PPD 589

CE 590 Directed Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12
Research leading to the master's degree. Maximum units which may be applied to the degree to be determined by the department. Instruction Mode: Lecture Grading Option: Credit/No Credit

CE 594a Master's Thesis
Units: 2 Credit on acceptance of thesis. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

CE 594b Master's Thesis
Units: 2 Credit on acceptance of thesis. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

CE 594c Master's Thesis
Units: 0 Credit on acceptance of thesis. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

CE 599 Special Topics
Units: 1, 2, 3, 4, 5, 6, 7, 8 Max Units:
09 Course content will be selected each semester to reflect current trends and developments in the field of civil engineering. Instruction Mode: Lecture

Grading Option: Letter

CE 603 System Identification
Units: 4 Terms Offered: FaSp Methods for building linear and nonlinear dynamical models from input and output time series data; theoretical models, algorithms, and toolbox implementation. Prerequisite: EE 482 or AME 451 Recommended Preparation: Basic probability (e.g., CE 408, EE 364, or MATH 407). Exposure to basic optimization (e.g., ISE 530 or ISE 536) Registration Restriction: Open only to graduate students Instruction Mode: Lecture Grading Option: Letter Crosslisted as EE 603

CE 611 Stochastic Modeling and Simulation
Units: 3 Stochastic methods for modeling and simulating physical, chemical and biological processes. Topics include: Stochastic partial differential equations, Monte Carlo simulations, moment equation methods, stochastic expansions. Instruction Mode: Lecture Grading Option: Letter Crosslisted as PTE-611, CHE-611

CE 629 Advanced Finite Element Analysis
Units: 2 Terms Offered: Sp Nonlinear mechanics; geometric nonlinearity; total Lagrangian and updated Lagrangian formulations; hyperelasticity, plasticity, viscoelasticity; computational fluid mechanics; static and eigenvalue solvers; geometric modeling, meshing and optimization. Prerequisite: CE 529a or CE 529 Duplicates Credit in former CE 529b Instruction Mode: Lecture Grading Option: Letter

CE 633 Urban Transportation Planning and Management
Units: 4, 2 years Terms Offered: Fa (Enroll in PPD 633)

CE 634 Institutional and Policy Issues in Transportation
Units: 4 Terms Offered: Sp (Enroll in PPD 634)

CE 637 Urban Mass Transit
Units: 4 Terms Offered: Fa (Enroll in PPDE 637)

CE 638 Stochastic Optimization
Units: 3 Terms Offered: FaSp (Enroll in ISE 638)

CE 640 Advanced Theory of Elasticity
Units: 3 Curvilinear tensors; equations of nonlinear elasticity; elementary solutions; small deformations superimposed on large deformations; bifurcation of equilibrium states; nonlinear shell theory. Prerequisite: CE 507. Instruction Mode: Lecture Grading Option: Letter Crosslisted as AME-640

CE 645 Uncertainty Modeling and Stochastic Optimization
Units: 3 Introduction to the mathematical foundations, numerical algorithms, and computational tools necessary for solving problems of optimization under uncertainty. Instruction Mode: Lecture Grading Option: Letter Crosslisted as AME-645, ISE-645, EE-645

CE 647 Multiscale Methods in Mechanics
Units: 3 Behavior of man-made and natural materials at different scales; experimental methods to characterize behavior; governing equations, interscale coupling, information exchange; probabilistic representations; error analysis. Prerequisite: AME 525 or AME 526 or CE 525 or CE 526. Instruction Mode: Lecture Grading Option: Letter Crosslisted as AME-647

CE 670 Advanced Research Methods for Built Environment Informatics
Units: 3 Terms Offered: FaSp Research methods in informatics for intelligent built environments; data acquisition, analysis and interpretation for adaptive and responsive built environments and their interactions with end users. Instruction Mode: Lecture Grading Option: Letter

CE 690 Directed Research
Units: 1, 2, 3, 4, 4 Max Units: 8.0 Laboratory study of specific problems by candidates for the degree Engineer in Civil Engineering. Instruction Mode: Lecture Grading Option: Credit/No Credit

CE 690 Transportation and the Environment
Units: 4 Terms Offered: Sp (Enroll in PPD 690)

CE 694a Thesis
Units: 2 Required for the degree Engineer in Civil Engineering. Credit on acceptance of thesis. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

CE 694b Thesis
Units: 2 Required for the degree Engineer in Civil Engineering. Credit on acceptance of thesis. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

CE 694z Thesis
Units: 0 Required for the degree Engineer in Civil Engineering. Credit on acceptance of thesis.

CE 790 Research
Units: 1, 2, 3, 4, 6, 7, 8, 9, 10, 11, 12 Research leading to the doctorate. Maximum units which may be applied to the degree to be determined by the department. Instruction Mode: Lecture Grading Option: Credit/No Credit

CE 794a Doctoral Dissertation
Units: 2 Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

CE 794b Doctoral Dissertation
Units: 2 Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

CE 794c Doctoral Dissertation
Units: 2 Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

CE 794d Doctoral Dissertation
Units: 0 Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

Community Oral Health
COH 593a Capstone Project
Units: 2 Terms Offered: FaSpSm Guided learning of the research process by the design and implementation of an approved project. Instruction Mode: Lecture Grading Option: Letter

COH 593b Capstone Project
Units: 2 Terms Offered: FaSpSm Independent study to prepare an oral defense of the Capstone project. Prerequisite: COH 593a Instruction Mode: Lecture Grading Option: Letter

COH 701 Community Health Sciences
Units: 2 Terms Offered: FaSpSm Examination of common theoretical and conceptual models, health education methodologies and emerging technology to provide health services in community settings. Instruction Mode: Lecture Grading Option: Letter

COH 702 Social and Behavioral Sciences
Units: 2 Terms Offered: FaSpSm Social and behavioral factors of diverse groups that can affect the health status and choices of communities. Instruction Mode: Lecture Grading Option: Letter

COH 703 Community Health Program Planning and Implementation
Units: 2 Terms Offered: FaSpSm Introduction to the concepts and processes used in evidence-based community oral health program development. Instruction Mode: Lecture Grading Option: Letter

COH 704 Environmental Health Sciences
Units: 3 Terms Offered: FaSpSm Environmental factors affecting community health and evidence-based approaches to control or reduce the risks of these health problems. Instruction Mode: Lecture Grading Option: Letter

COH 705 Research and Biostatistics in Healthcare
Units: 2 Terms Offered: FaSpSm Introduction to research processes; emphasizes methods and designs frequently used to study health and health care delivery. Instruction Mode: Lecture Grading Option: Letter

COH 706 Foundations and Strategies in Health Education
Units: 2 Terms Offered: FaSpSm Examines the impact of education in community oral health, identifying strategies to engage and empower the members of the community to achieve health and wellness. Instruction Mode: Lecture Grading Option: Letter

COH 707 Epidemiology
Units: 2 Terms Offered: FaSpSm The fundamental understanding of epidemiology that concerns various domains and disciplines; application of epidemiologic principles in community oral health projects. Instruction Mode: Lecture Grading Option: Letter

COH 708 Community Health Science Administration, Assessment and Evaluation
Units: 2 Terms Offered: FaSpSm Development of foundational knowledge and skills to be administrative and executive leaders in the healthcare industry. Instruction Mode: Lecture Grading Option: Letter
COH 709 Community Health Program Execution and Communication
Units: 2 Terms Offered: FaSpSm
Development of oral and written communication skills as a health professional. Instruction Mode: Lecture Grading Option: Letter

COH 710 Health Assessment
Units: 2 Terms Offered: FaSpSm
The importance of health assessment: identification of strategies to understand the needs and priorities of a community. Instruction Mode: Lecture Grading Option: Letter

COH 711 Practicum 1
Units: 1 Terms Offered: FaSpSm
Provides the opportunity to apply acquired competencies to real world settings to improve health promotion and disease prevention. Instruction Mode: Lecture Grading Option: Letter

COH 712 Practicum 2
Units: 1 Terms Offered: FaSpSm
Incorporates a service learning approach involving a partnership between the student, community organization and designated faculty or research team members. Instruction Mode: Lecture Grading Option: Letter

COH 713 Health Education and Promotion
Units: 2 Terms Offered: FaSpSm
Development of an action plan for health education and promotion, including the planning, design, and evaluation of instruction and materials. Instruction Mode: Lecture Grading Option: Letter

COH 714 Community Health Funding and Support
Units: 2 Terms Offered: FaSpSm
Approaches to the generation and allocation of financial support for community health programs, policies, and systems. Instruction Mode: Lecture Grading Option: Letter

COH 715 Community Health Practice Standards
Units: 2 Terms Offered: FaSpSm
Standards of practice, regulations, policies, and ethical principles that affect healthcare providers, payers, and other stakeholders in community healthcare settings. Instruction Mode: Lecture Grading Option: Letter

COH 716 Healthcare Communication Technology
Units: 2 Terms Offered: FaSpSm
Emerging technology for patient and professional communication and education applications for patient access to care. Instruction Mode: Lecture Grading Option: Letter

COH 717 Practicum 3
Units: 1 Terms Offered: FaSpSm
Participation in a multidisciplinary team; collection of community health data to build a plan for sustainability and maintenance. Instruction Mode: Lecture Grading Option: Letter

Chemical Engineering

CHE 120 Introduction to Chemical Engineering
Units: 4 Terms Offered: FaSp Problem-solving techniques in chemical engineering, including an introduction to engineering problem analysis, mass balances, and energy balances. Corequisite: MATH 125g and (CHEM 105aL or CHEM 115aL) Registration Restriction: Open only to the Viterbi School of Engineering CHEM 120g. Instruction Mode: Lecture, Discussion Grading Option: Letter

CHE 205 Numerical Methods in Chemical Engineering
Units: 3 Terms Offered: Fa Sp Computational tools for solving numerical problems in Chemical Engineering. Prerequisite: MATH 125. Instruction Mode: Lecture, Discussion Grading Option: Letter

CHE 301 Introduction to Engineering Biology
Units: 4 Terms Offered: Fa Engineering methods to understand and design molecules, cells, and living organisms. Techniques to analyze biological systems at the molecular and microscopic level. Computational analysis. Prerequisite: CHEM 105a or CHEM 115a or MASC 110. Recommended Preparation: Basic understanding of chemistry, atoms, and molecules. Completion of an Advanced Placement chemistry class in high school is acceptable preparation for CHE 301g. Satisfies New General Education in Category D: Life Sciences Registration Restriction: Open only to Viterbi School of Engineering students. Instruction Mode: Lecture Grading Option: Letter

CHE 305 Numerical and Statistical Analysis for Chemical Engineers
Units: 4 Terms Offered: Fa Introduction to numerical algorithms, computational tools, principles of probability and statistics, and their application to chemical engineering problems. Prerequisite: MATH 125g and MATH 126g Corequisite: CHEM 226g. Duplicates Credit in former CHE 205 and former CHE 405 Instruction Mode: Lecture Grading Option: Letter

CHE 330 Chemical Engineering Thermodynamics
Units: 4 Terms Offered: Fa Basic laws, energy and entropy balances. Multi-component phase behavior. Physical and chemical equilibria. Energy conversion and equilibrium separation processes, estimation and use of property data. Corequisite: MATH 226g Instruction Mode: Lecture, Discussion Grading Option: Letter

CHE 350 Introduction to Separation Processes
Units: 4 Terms Offered: Sp Introduction to the design of chemical separation processes based on the principles of phase equilibrium, material balance and energy balance. Prerequisite: CHEM 105bL or CHEM 115bL. Recommended Preparation: CHEM 330 Instruction Mode: Lecture Grading Option: Letter

CHE 390 Special Problems
Units: 1, 2, 3, 4 Supervised, individual studies. No more than one registration permitted. Enrollment by permission only. Instruction Mode: Lecture Grading Option: Letter

CHE 391 Introduction to Nanotechnology Research
Units: 2 Planning and execution of an experiment, and presentation of findings through oral presentations and a written report. Application of the scientific method learned through immersion in a lab environment. Instruction Mode: Lecture, Lab Required Grading Option: Credit/No Credit

CHE 405 Applications of Probability and Statistics for Chemical Engineers
Units: 3 Terms Offered: Fa Principles of probability and statistics, random variables and random functions. Application to chemical engineering problems, including process design, process safety, heterogeneous materials and processes. Prerequisite: MATH 245 Instruction Mode: Lecture Grading Option: Letter

CHE 410L Introduction to Biomaterials and Tissue Engineering
Units: 4 Terms Offered: FaSp(Enroll in BME 410L)

CHE 430 Principles and Applications of Systems Biology
Units: 4 Terms Offered: Fa (Enroll in BME 430)

CHE 442 Chemical Reactor Design
Units: 4 Terms Offered: Fa Problem-solving techniques in Chemical Reactor Design, including the description of chemical kinetics and rates, and analysis of mass balances, and energy balances. Prerequisite: MATH 245 and CHE 443 Instruction Mode: Lecture, Discussion Grading Option: Letter

CHE 443 Viscous Flow
Units: 4 Terms Offered: Sp Fundamental principles of fluid mechanics and momentum transfer applied to chemical engineering and chemical processing operations. Corequisite: CHE 350 or MATH 245 Instruction Mode: Lecture, Discussion Grading Option: Letter

CHE 444al Chemical Engineering Laboratory
Units: 2 Terms Offered: Sp Conduct experiments and analyze data to generate results used to solve chemical engineering problems. Communicate results, data, and solutions in written reports and oral presentations. Prerequisite: CHE 120 Corequisite: CHE 350 and CHE 390 Instruction Mode: Lecture, Lab Required Grading Option: Letter

CHE 444bl Chemical Engineering Laboratory
Units: 2 Terms Offered: Fa Conduct experiments and analyze data to generate results used to solve chemical engineering problems. Communicate results, data, and solutions in written reports and oral presentations. Prerequisite: CHE 330 Corequisite: CHE 443 Instruction Mode: Lecture, Lab Required Grading Option: Letter

CHE 444cl Chemical Engineering Laboratory
Units: 2 Terms Offered: Sp Conduct experiments and analyze data to generate results used to solve chemical engineering problems. Communicate results, data, and solutions in written reports and oral presentations. Prerequisite: CHE 330 and CHE 444bl Corequisite: CHE 447 Instruction Mode: Lecture, Lab Required, Quiz Grading Option: Letter

CHE 445 Heat Transfer in Chemical Engineering Processes
Units: 2 Phenomenological rate laws, differential and macroscopic equations, and elementary kinetic theory of heat transfer processes with emphasis on conduction and convection. Prerequisite: CHE 443, MATH 245. Duplicates Credit in AME 331.
Instruction Mode: Lecture Grading Option: Letter

CHE 446 Mass Transfer in Chemical Engineering Processes
Units: 3
Terms Offered: Sp Molecular and continuum approaches to diffusion and convection in fluids and multicomponent mixtures; simultaneous mass, heat and momentum transfer; steady-state and time-dependent diffusion; Maxwell-Stefan equations. Prerequisite: MATH 245, CHE 443, CHE 445. Instruction Mode: Lecture Grading Option: Letter

CHE 447 Heat and Mass Transfer in Chemical Engineering Processes
Units: 4
Terms Offered: Sp Differential and macroscopic equations of heat transfer; molecular and continuum approaches to diffusion and convection in fluids; simultaneous heat, mass and momentum transfer. Prerequisite: MATH 245 and CHE 443 Duplicates Credit in former CHE 445 and former CHE 446 Instruction Mode: Lecture Grading Option: Letter

CHE 450 Sustainable Energy
Units: 4
Terms Offered: Fa Overview of sustainable energy, with emphasis on quantitative approaches to evaluate sustainability and examination of renewable sources of energy from the perspective of sustainability. Prerequisite: CHE 330 Corequisite: CHE 443 Instruction Mode: Lecture, Discussion Grading Option: Letter

CHE 460L Chemical Process Dynamics and Control
Units: 4
Terms Offered: Sp Dynamic analysis and automation of chemical processes using closed loop control schemes. Control schemes are analyzed, simulated and implemented in the laboratory. Prerequisite: CHE 120 Corequisite: MATH 245 Instruction Mode: Lecture, Lab Required Grading Option: Letter

CHE 461 Formation Data Sensing with Well Logs
Units: 4
Terms Offered: Fa (Enroll in PTE 461)

CHE 462 Economic, Risk and Formation Productivity Analysis
Units: 4
Terms Offered: Fa in PTE 462

CHE 463L Introduction to Transport Processes in Porous Media
Units: 4
Terms Offered: Fa (Enroll in PTE 463L)

CHE 464L Modeling and Simulation of Subsurface Flow Systems
Units: 4
Terms Offered: Sp (Enroll in PTE 464L)

CHE 465L Drilling Technology and Subsurface Methods
Units: 3
Enroll in PTE 465L

CHE 472 Polymer Science and Engineering
Units: 4
Terms Offered: Fa Introduction to major concepts in chemistry and physics of synthetic polymers, and understanding of how they are used in the modern engineering applications Prerequisite: CHEM 322a, Instruction Mode: Lecture Grading Option: Letter Crosslisted as MASC 472

CHE 474L Polymer Science and Engineering Laboratory
Units: 3
Terms Offered: Sp Experimental methods for the preparation, characterization, and properties of synthetic polymers. Recommended Preparation: CHE 472, Instruction Mode: Lab Required Grading Option: Letter

CHE 475 Physical Properties of Polymers
Units: 4
Terms Offered: Sp Introduction to polymer physical properties and characterization. Instruction Mode: To synthesis techniques and processing techniques, natural and synthetic materials, property optimization and modern applications. Recommended Preparation: CHEM 325aL Instruction Mode: Lecture Grading Option: Letter Crosslisted as MASC 475

CHE 476 Chemical Engineering Materials
Units: 4
Terms Offered: Fa Introduction to major concepts in materials science and engineering directly applicable to materials-related processing, research and development in chemical engineering. Prerequisite: CHEM 322a Instruction Mode: Lecture Grading Option: Letter Crosslisted as EE 476 and MASC 476

CHE 477 Computer Assisted Polymer Engineering and Manufacturing
Units: 3
Terms Offered: Sp Estimation of physical, mechanical, chemical and processing properties of thermal plastics. Major molding processes. Mold flow simulation and residual stress analysis. Case studies. Prerequisite: junior class standing. Instruction Mode: Lecture Grading Option: Letter

CHE 480 Chemical Process and Plant Design
Units: 4
Terms Offered: Sp Design and evaluate a chemical process/plant based on safety, economics, sustainability and engineering viability through the application of unit operations, thermodynamics, kinetics and separations. Prerequisite: CHE 485 Registration Restriction: Open only to seniors Instruction Mode: Lecture Grading Option: Letter

CHE 485 Computer-Aided Chemical Process Design
Units: 4
Terms Offered: Fa Simulate, design and optimize chemical engineering unit operations and process using modern process simulation software. Prerequisite: CHE 442 and CHE 443 Instruction Mode: Lecture Grading Option: Letter

CHE 486 Design of Environmentally Benign Process Plants
Units: 3
Terms Offered: Sp Chemical Process Plants interact with the environment as an integrated system. This course discusses design procedures to minimize unwanted effluents to air, water and solid wastes. Corequisite: CHE 480 or CHE 485. Instruction Mode: Lecture Grading Option: Letter

CHE 487 Nanotechnology and Nanoscale Engineering through Chemical Processes
Units: 4
Terms Offered: Fa Properties and processing of nanomaterials including polymeric, metallic, and ceramic nanoparticles, composites, colloids, and surfactant self-assembly for templated nanomaterial production. Prerequisite: CHEM 105aLg or CHEM 115aLg or MASC 110L Instruction Mode: Lecture Grading Option: Letter

CHE 488 Molecular and Cellular Bioengineering
Units: 3
Terms Offered: Fa Design, synthesis, and analysis of biological molecules; routes to understand and engineer living systems at the molecular and cellular level; systems and synthetic biology. Prerequisite: BISC 320. Instruction Mode: Lecture Grading Option: Letter

CHE 489 Biochemical Engineering
Units: 4
Terms Offered: Sp Theoretical, quantitative, and experimental methods for understanding and engineering cellular systems for biotechnological applications. Prerequisite: CHE 330 and BISC 320Lg Instruction Mode: Lecture Grading Option: Letter Crosslisted as BME 489

CHE 490x Directed Research
Units: 1, 2, 3, 4, 5, 6, 7, 8 Max Units: 12.0 Individual research and readings. Instruction Mode: Lecture Grading Option: Letter

CHE 491 Nanotechnology Research for Undergraduates
Units: 2
Max Units: 4.0 Independent research in nanotechnology. Research project selected by the student in close consultation with a research adviser. Prerequisite: CHE 391L. Registration Restriction: Open only to juniors and seniors. Instruction Mode: Lecture Grading Option: Letter

CHE 499 Special Topics
Units: 2, 3, 4 Max Units: 8.0 Course content to be selected each semester from recent developments in chemical engineering and related fields. Instruction Mode: Lecture Grading Option: Letter

CHE 501 Modeling and Analysis of Chemical Engineering Systems
Units: 4
Terms Offered: Fa Advanced treatment of mathematical modeling and analysis of Chemical Engineering core topics including fluid flow, heat and mass transfer, reaction engineering, and deformation of materials. Recommended Preparation: Knowledge of real analysis on the level of MATH 425a and MATH 425b Corequisite: CHE 442 and CHE 447 Registration Restriction: Open only to graduate students Instruction Mode: Lecture Grading Option: Letter

CHE 502 Numerical Methods for Diffusive and Convective Transport
Units: 3
Terms Offered: Sp Numerical solution of ordinary and partial differential equations describing fluid flow, diffusion with chemical reaction, and conduction in heterogeneous media. Instruction Mode: Lecture Grading Option: Letter

CHE 510 Energy and Process Efficiency
Units: 3
Terms Offered: Sp Management and engineering strategies utilized to improve energy efficiency. Registration Restriction: Open only to master and doctoral students. Duplicates Credit in AME 577. Instruction Mode: Lecture Grading Option: Letter

CHE 520 Mathematical Methods for Deep Learning
Units: 4
Terms Offered: Sp (Enroll in MASC 520)

CHE 523 Principles of Electrochemical Engineering
Units: 3
(Enroll in MASC 523)
CHE 530 Thermodynamics for Chemical Engineers
Units: 4 Terms Offered: Sp
Prerequisite: CHEM 102, CHEM 324, MATH 192, MATH 217, or MATH 292
Recommended Preparation: Advanced knowledge of calculus
Course Description: Fundamentals of thermodynamics. Theoretical and practical aspects of energy and entropy. Molecular theory of substances. Applications of energy and entropy to chemical systems. Maximum units which may be applied to the degree to be determined by the department. Concurrent Enrollment: CHEM 105aL, CHEM 105bL.
CHE 532 Vapor-Liquid Equilibrium
Units: 3 Thermodynamics of phase relations; prediction and correlation of phase behavior. Prerequisite: CHE 330.
Instruction Mode: Lecture Grading Option: Letter
CHE 538 Transport Processes I
Units: 4 Terms Offered: Fa
Prerequisite: CHE 330, CHE 472, CHEM 105aL.
Recommended Preparation: CHE CHE 330, CHEM 330, CHEM 445.
Instruction Mode: Lecture Grading Option: Letter
CHE 540 Viscous Flow
Units: 3 Fluid mechanical problem of interest to chemical engineers involving laminar flows of incompressible fluids, viscous-dominated creeping flows, and motion of bubbles and drops. Prerequisite: CHE 309 or AME 309 or CHE 443.
Instruction Mode: Lecture Grading Option: Letter
CHE 541 Mass Transfer
Units: 3 Fundamentals of mass transfer within a single phase and between phases; applications to separation processes. Recommended Preparation: CHE 445.
Instruction Mode: Lecture Grading Option: Letter
CHE 542 Chemical Engineering Kinetics
Units: 4 Terms Offered: Sp
Prerequisite: CHE 442
Recommended Preparation: BS degree in Chemical Engineering or equivalent
Instruction Mode: Lecture Grading Option: Letter
CHE 544 Heat Transmission
Units: 3 Principles of conduction, radiation, and convection of heat; application to chemical and related industries. Recommended Preparation: CHE 330, CHE 445.
Instruction Mode: Lecture Grading Option: Letter
CHE 550 Seminars in Chemical Engineering
Units: 0, 1 Max Units: 02 Terms
CHE 554 Principles of Tissue Engineering
Units: 3 Terms Offered: Fa
Prerequisite: CHE 330, CHE 472, CHEM 105aL.
Recommended Preparation: CHE 445, CHE 476, CHE 489.
Instruction Mode: Lecture Grading Option: Letter
CHE 560 Advanced Separation and Bioseparation Processes
Units: 3 Terms Offered: Sp
Instruction Mode: Lecture Grading Option: Letter
CHE 566 Process Data Analytics and Machine Learning
Units: 3 Terms Offered: Fa
Prerequisite: CHE 330, CHE 445
Recommended Preparation: Programming experience in R or MATLAB preferred; an understanding of engineering statistics and knowledge of matrix operations; emphasis is on linear algebraic approach over a probabilistic approach. Registration Restriction: Open only to graduate students.
Instruction Mode: Lecture Grading Option: Letter
CHE 590 Directed Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12
Research leading to the master's degree. Maximum units which may be applied to the degree to be determined by the department.
Instruction Mode: Lecture Grading Option: Letter
CHE 594a Master's Thesis
Units: 2 Credit on acceptance of thesis.
Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit
CHE 594b Master's Thesis
Units: 2 Credit on acceptance of thesis.
Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit
CHE 594c Master's Thesis
Units: 0 Credit on acceptance of thesis.
Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit
CHE 596 Chemical Reactions in the Atmosphere
Units: 3
Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit
CHEM 103Lg General Chemistry for the Environment and Life
Units: 4 Terms Offered: FaSpSm Chemistry for environmental studies, neuroscience, and other life sciences: organic and inorganic structures, nomenclature, stoichiometry, solutions, gases, non-covalent interactions, equilibria, acid-base and redox reactions. Satisfies New General Education in Category E: Physical Sciences Satisfies Old General Education in Category III: Scientific Inquiry Instruction Mode: Lecture, Lab Required Grading Option: Letter

CHEM 105aLg General Chemistry
Units: 4 Terms Offered: FaSpSm Fundamental principles and laws of chemistry; laboratory work emphasizes quantitative procedures. Prerequisite: To all more advanced courses in chemistry. CHEM 050x or passing of placement test. Satisfies New General Education in Category E: Physical Sciences Satisfies Old General Education in Category III: Scientific Inquiry Duplicates Credit in CHEM 115aLg or CHEM 115bL Instruction Mode: Lecture, Lab Required, Quiz Grading Option: Letter

CHEM 108L General Chemistry for Chemistry Majors
Units: 4 Terms Offered: FaSp Fundamental principles and laws of chemistry emphasizing contemporary chemistry; laboratory work focuses on quantitative procedures. Satisfies New General Education in Category E: Physical Sciences Registration Restriction: Open only to Chemistry and Biochemistry majors Duplicates Credit in CHEM 105a and CHEM 115aL Instruction Mode: Lecture, Lab, Quiz Grading Option: Letter

CHEM 105bL Advanced General Chemistry
Units: 4 Terms Offered: FaSpSm Chemistry for exceptionally well-prepared students with equivalent lecture credit from another institution. Prerequisite: consent of department head. Instruction Mode: Lab Required Grading Option: Letter

CHEM 201Lg Chemistry in the Environment, Energy and Society
Units: 4 A range of issues where chemistry impacts society will be explored. Topics such as global warming, pollution, energy utilization and genetic engineering will be covered. Students who have taken CHEM 105a, CHEM 105b previously or concurrently with CHEM 201 will not receive credit for CHEM 201. Satisfies Old General Education in Category IV: Science and Its Significance Instruction Mode: Lecture, Lab Required Grading Option: Letter

CHEM 203Lg AIDS Drug Discovery and Development
Units: 4 Terms Offered: Fa Sp Fundamental principles underlying molecular approaches to diagnosis and treatment of diseases, using specific models within a societal (business, legal, ethical) context. Satisfies New General Education in Category D: Life Sciences Satisfies Old General Education in Category IV: Science and Its Significance Instruction Mode: Lecture, Lab Required Grading Option: Letter

CHEM 205Lg Chemical Forensics: The Science, and Its Impact
Units: 4.0 Units: 4 Terms Offered: FA Sp Scientific principles underlying forensic approaches to the investigation of crimes and its societal impact on law, culture and media. Satisfies New General Education in Category E: Physical Sciences Satisfies Old General Education in Category IV: Science and Its Significance Instruction Mode: Lecture, Lab Required Grading Option: Letter

CHEM 221L Organic Chemistry Problem Solving Workshop
Units: 2 Terms Offered: SP Distance learning course designed to bridge the gap between general and organic chemistry. Focus on problem solving and understanding coverage of organic chemistry. Not for major credit for chemistry, chemistry (chemical nanosciences), chemistry (chemical physics), chemistry (research) or chemistry (chemical biology) majors. Prerequisite: CHEM 105bL Instruction Mode: Lecture Grading Option: Credit/No Credit

CHEM 250x Organic Chemistry Tutorial A
Units: 2.0 Units: 2 Terms Offered: Fa Sp Major principles of organic chemistry and its relevance. Topics covered parallel to those of CHEM 322aL. Prerequisite: CHEM 105bL Corequisite: CHEM 322aL Instruction Mode: Lecture Grading Option: Credit/No Credit

CHEM 251x Organic Chemistry Tutorial B
Units: 2.0 Units: 2 Terms Offered: Fa Sp Structured tutorial course, which enable students to understand fundamental principles, better approach problems with success. Explores the major principles of organic chemistry and its relevance. Topics covered will parallel CHEM 322bL. Prerequisite: CHEM 322aL Corequisite: CHEM 322bL Instruction Mode: Lecture Grading Option: Credit/No Credit
Prerequisite: CHEM 105bL or CHEM 108L or CHEM 115bL, Instruction Mode: Lecture, Discussion, Lab Required, Quiz Grading Option: Letter

CHEM 322L Organic Chemistry
Units: 4 Terms Offered: FaSpSm Chemistry of the carbon compounds of the aliphatic and aromatic series; laboratory preparation of typical compounds of both series. Prerequisite: CHEM 322al or CHEM 325al, Instruction Mode: Lecture, Discussion, Lab Required, Quiz Grading Option: Letter

CHEM 325al Organic Chemistry
Units: 4 Terms Offered: Fa Required of majors in chemistry. Prerequisite: CHEM 105bL or CHEM 108L or CHEM 115bL, Registration Restriction: Open only to Chemistry and Biochemistry majors, Instruction Mode: Lecture, Discussion, Lab Required, Quiz Grading Option: Letter

CHEM 325bl Organic Chemistry
Units: 4 Terms Offered: Sp Required of majors in chemistry. Prerequisite: CHEM 325al, or CHEM 322al, Registration Restriction: Open only to Chemistry and Biochemistry majors, Instruction Mode: Lecture, Lab Required Grading Option: Letter

CHEM 330L Biochemistry
Units: 4 Terms Offered: FaSp Enroll in BISC 330L

CHEM 332L Physical Chemical Measurements
Units: 4 Experimental study of topics discussed in CHEM 430 and CHEM 431; adsorption, magnetic susceptibility; electron spin resonance, kinetics, equilibria, molecular spectra and structure, viscosity, dielectric properties, Coreyquisite: CHEM 430 or CHEM 431, Instruction Mode: Lecture, Discussion, Lab Required Grading Option: Letter

CHEM 350g Molecular Principles of Biochemistry
Units: 4 Terms Offered: FaSp Biomolecular structures, protein and nucleic acid chemistry and functions, carbohydrates, lipids, membranes, enzyme catalysis and kinetics, coenzymes, biochemical signaling, major metabolic pathways, control of gene expression, replication, transcription, and translation. Prerequisite: CHEM 105bL or CHEM 108L or CHEM 115bL Recommended Preparation: BISC 220L or BISC 221L Coreyquisite: CHEM 322al or CHEM 325al, Instruction Mode: Lecture, Discussion Grading Option: Letter

CHEM 390 Special Problems
Units: 1, 2, 3, 4 Supervised, individual studies. No more than one registration permitted. Enrollment by petition only, Instruction Mode: Lecture Grading Option: Letter

CHEM 423L Advanced Laboratory Techniques in Organic and Inorganic Chemistry
Units: 4 Terms Offered: Sp Advanced synthetic, analytical, and physical measurement techniques in organic and inorganic chemistry. Emphasis on laboratory work with discussion of theoretical background. Prerequisite: CHEM 300L, CHEM 322bl, or CHEM 325bl, Instruction Mode: Lecture, Lab Required, Discussion Grading Option: Letter

CHEM 426 Advanced Organic Chemistry
Units: 4 Terms Offered: Fa Advanced treatment of organic chemistry from a mechanistic point of view according to the following topics: polar and isopolar reactions, intermediates. Prerequisite: CHEM 322bl or CHEM 325bl, Instruction Mode: Lecture Grading Option: Letter

CHEM 430 Physical Chemistry
Thermodynamics and Kinetics
Units: 4 Terms Offered: Fa Kinetic theory; equations of state; thermodynamics; phase equilibria; chemical equilibrium; statistical thermodynamics; kinetics; electrochemistry; surface and colloid chemistry; polymers, Prerequisite: CHEM 300L or CHEM 322al or CHEM 325al, and (MATH 225 or MATH 226g) and PHYS 151L Duplicates Credit in former CHEM 430a Instruction Mode: Lecture, Discussion Grading Option: Letter

CHEM 431 Physical Chemistry: Quantum Mechanics
Units: 4 Terms Offered: Sp Classical and quantum mechanics; atomic structure; molecular structure; chemical bonds; solid state; symmetry; electric and magnetic properties of molecules; atomic spectroscopy; rotational and vibrational spectroscopy; electronic spectroscopy. Prerequisite: PHYS 152L Duplicates Credit in former CHEM 430b Instruction Mode: Lecture, Discussion Grading Option: Letter

CHEM 432 Physical Chemistry for the Life Sciences
Units: 4 Terms Offered: Fa Principles of physical chemistry relevant for the life sciences; thermodynamics, chemical equilibria, molecular dynamics, kinetics, molecular structures and interactions, spectroscopy, statistical thermodynamics and macromolecular structure, Prerequisite: CHEM 300L or CHEM 322al or CHEM 325al, MATH 126; PHYS 153aL or PHYS 151L Duplicates Credit in CHEM 430a, Instruction Mode: Lecture, Discussion Grading Option: Letter

CHEM 433 Advanced Inorganic Chemistry
Units: 4 Terms Offered: Sp Atomic structure, theory of bonding, molecular structure, metallic state, coordination compounds, transition and nontransition metals, magnetic and optical properties, crystal field theory, mechanism of reactions, Prerequisite: CHEM 105bl or CHEM 108L or CHEM 115bl and CHEM 322al or CHEM 325al, Instruction Mode: Lecture, Discussion Grading Option: Letter

CHEM 453 Advanced Inorganic Chemistry
Units: 4 Terms Offered: Sp Fundamentals governing coordination compounds, coordination chemistry, magnetic properties, organometallics, catalysis, instruction mode: Discussion, Lecture Grading Option: Letter

CHEM 455 Chemical Nanotechnology
Units: 4 Studies in the fundamental principles governing nanoscale materials. Structure and chemical bonding, preparative methods, and electrical, optical and magnetic properties of nanoscale materials and applications. Prerequisite: CHEM 322al or CHEM 325al, Instruction Mode: Lecture, Discussion Grading Option: Letter

CHEM 463L Chemical Nanotechnology Laboratory
Units: 2 Experimental techniques in the synthesis and characterization of nanoscale materials. Emphasis on examining size-dependent properties of various nano-scale materials using spectroscopic techniques. Prerequisite: CHEM 322al or CHEM 325al, Instruction Mode: Lecture, Lab Grading Option: Letter

CHEM 465L Chemical Instrumentation
Units: 4 Principles of operation of instruments used in physical sciences. Basic electronics, interconnection of building blocks, data acquisition and data reduction, noise, instrument systems, Prerequisite: CHEM 332 or CHEM 430b or CHEM 431, Instruction Mode: Lecture, Lab Required Grading Option: Letter

CHEM 467L Advanced Chemical Biology Laboratory
Units: 2 Principles, methods and protocols of chemical biology through experimental focusing on the interactions of small molecules with biomacromolecules such as proteins and DNA. Prerequisite: CHEM 322 or CHEM 325b Coreyquisite: CHEM 330 Instruction Mode: Lecture, Lab Grading Option: Letter

CHEM 488 Introduction to Theory and Practice of X-ray Crystallography
Units: 4 Terms Offered: Fa Introduction to single crystal X-ray diffraction theory and its extension to two-dimensional diffraction. Application of modern instrumentation and software techniques to problems of current chemical interest. Prerequisite: CHEM 300; CHEM 322a or CHEM 325a; and CHEM 322b or CHEM 325b, Instruction Mode: Lecture Grading Option: Letter

CHEM 490x Directed Research
Units: 1, 2, 3, 4, 5, 6, 7, 8 Max Units: 12.0 Terms Offered: FaSpSm Individual research and readings, Instruction Mode: Lecture Grading Option: Letter

CHEM 494x Advanced Research Experience
Units: 2, 4, 5, 6, 7, 8 Max Units: 4.0 Terms Offered: FaSpSm Directed undergraduate research supervised by faculty, with advanced capstone research experience, Prerequisite: CHEM 490, Instruction Mode: Lecture Grading Option: Letter

CHEM 495 Beyond the Classroom - Research in Modern Chemistry
Units: 2 Current topics in chemical research, understanding structures of modern graduate training program and navigating the process of graduate program application. Registration Restriction: Open only to juniors and seniors, Instruction Mode: Lecture Grading Option: Letter

CHEM 499 Special Topics
Units: 2, 3, 4 Max Units: 8.0 Lectures and discussions on specialized topics in chemistry, Instruction Mode: Lecture, Discussion Grading Option: Letter

CHEM 510x Alternative Energy Technologies and Options
Units: 4 Introduce the essential scientific background to understand complex issues involving energy use and its environmental consequences. Critically analyze energy issues that will shape policy decisions. Instruction Mode: Lecture Grading Option: Letter

CHEM 515 Structure and Bonding in Inorganic and Organometallic Chemistry
Units: 4 An integrated core course of structure and bonding in inorganic, coordination and organometallic chemistry within an oxidation state framework. Symmetry, electronic properties, Instruction
CHEM 516 Synthesis, Reactivity, and Mechanism in Inorganic and Organometallic Chemistry
Units: 4 A reactivity framework for inorganic and organometallic chemistry. Synthesis, reaction mechanisms and energetics. Homogeneous catalysis. Prerequisite: CHEM 515. Instruction Mode: Lecture Grading Option: Letter

CHEM 519 Biochemistry and Molecular Biology: An Introduction for Chemists
Units: 4 Amino acids and peptides; protein structure and function; enzyme kinetics; structure, analysis and synthesis of nucleic acids; chemical biology of DNA and RNA; biotechnology. Instruction Mode: Lecture Grading Option: Letter

CHEM 520a Advanced Chemical Biology
Units: 2 Chemical approaches to investigate protein function and posttranslational modifications. Recommended Preparation: CHEM 322ab, and BISC 330 (or equivalent). Instruction Mode: Lecture Grading Option: Letter

CHEM 520b Advanced Chemical Biology
Units: 2 Chemical approaches to investigate protein function and posttranslational modifications. Recommended Preparation: CHEM 322ab, and BISC 330 (or equivalent). Instruction Mode: Lecture Grading Option: Letter

CHEM 521 Basic Principles of Physical Methods in Biochemistry
Units: 2 Principles underlying physical analytical methods commonly utilized in research in biochemistry and molecular biology. Instruction Mode: Lecture Grading Option: Letter

CHEM 523 Introduction to Functional Inorganic Materials
Units: 2 An introduction to functional inorganic materials emphasizing crystalline materials and how their properties can be understood based on their structure, elemental composition, and electronic structure. Recommended Preparation: A basic understanding of molecular orbital theory and electronic structure of extended solids Instruction Mode: Lecture, Discussion Grading Option: Letter

CHEM 524 Inorganic Materials Chemistry
Units: 2 Studies in the fundamental principles governing inorganic materials. Structure and chemical bonding, preparative methods, and electrical, optical and magnetic properties of inorganic materials and applications. Prerequisite: CHEM 515. Instruction Mode: Lecture Grading Option: Letter

CHEM 526 Structure and Mechanism in Organic Chemistry
Units: 4 Review of modern structural theory of organic chemistry; and relation to the mechanisms of organic chemical reactions. Instruction Mode: Lecture Grading Option: Letter

CHEM 527 Synthetic Organic Chemistry
Units: 4 A survey of representative groups of widely used synthetic organic reactions; emphasis on scope, limitations, and stereochemical consequences. Instruction Mode: Lecture Grading Option: Letter

CHEM 532 Molecular Photochemistry and Photophysics
Units: 2 Temas Offered: FaSp Molecular electronic structure; description of the excited state; radiative/nonradiative decay and electron/energy transfer. Recommended Preparation: CHEM 515 and CHEM 526 Instruction Mode: Lecture Grading Option: Letter

CHEM 535 Introduction to Molecular Spectroscopy
Units: 4 Theory and experimental methods of molecular spectroscopy and applications to chemistry. Rotational, vibrational, electronic and nuclear magnetic resonance spectrosopies. Prerequisite: CHEM 544. Instruction Mode: Lecture Grading Option: Letter

CHEM 536 Molecular Dynamics
Units: 2 or 4 Potential energy surfaces, reaction dynamics, scattering theories, classical trajectories, statistical theories, molecular energy transfer, photodissociation dynamics, gas- surface interactions, experimental results, beam and laser techniques. Instruction Mode: Lecture Grading Option: Letter

CHEM 538 Mathematical Techniques of Physical Chemistry
Units: 4 Fundamentals and techniques of mathematics and physics. Linear algebra, differential equations, mechanics, electricity and magnetism. Applications to physical chemistry/chemical physics. Instruction Mode: Lecture Grading Option: Letter

CHEM 539 Surface Chemistry
Units: 4 Physical and chemical properties of solid surfaces; thermodynamics and kinetics of gas chemisorption; chemical bonding at surfaces; applications to catalysis and electronic materials. Instruction Mode: Lecture Grading Option: Letter

CHEM 540 Introduction to Statistical Mechanics
Units: 4 Study of macroscopic systems from molecular viewpoint using statistical mechanics: ensembles, fluctuations, gases, gas-solid interfaces, crystals, polymers, critical phenomena, non-equilibrium systems. Instruction Mode: Lecture, Discussion Grading Option: Letter

CHEM 544 Introduction to Quantum Chemistry
Units: 4 Basic principles of quantum mechanics and their application to chemistry. Electronic structure of atoms and molecules. Instruction Mode: Lecture Grading Option: Letter

CHEM 545 Theory and Practice of Molecular Electronic Structure
Units: 4 Provide working knowledge and hands-on experience in current quantum chemical methods for chemists who would like to employ these techniques in their own research. Prerequisite: CHEM 538, CHEM 544. Instruction Mode: Lecture Grading Option: Letter

CHEM 546 Mathematics in Physical Chemistry
Units: 2 Introduction to mathematical methods in physical chemistry and quantum mechanics: ordinary and partial differential equations, orthogonal polynomials, Fourier series, Fourier transforms, eigenvalue and matrix equations Duplicates Credit in CHEM 538 Instruction Mode: Lecture, Discussion Grading Option: Letter

CHEM 547 Numerical Calculations in Physical Chemistry
Units: 2 Introduction to numerical calculations in physical chemistry and quantum mechanics: translational and vibrational wavepackets, tunneling motions, particle in a potential, rotational-vibrational spectra of diatomic molecules. Duplicates Credit in CHEM 538 Instruction Mode: Lecture, Discussion Grading Option: Letter

CHEM 548 Computer Simulations of Chemical and Biological Systems
Units: 4 Key aspects of the rapidly growing field of computer simulation of molecular systems in general and biological molecules in particular. Recommended Preparation: undergraduate course in physical chemistry or equivalent. Instruction Mode: Lecture Grading Option: Letter

CHEM 550 Special Topics in Chemical Physics
Units: 4 (Enroll in PHYS 550)

CHEM 555 Computational Quantum Chemistry: Methods and Applications
Units: 2, 3, 4 Max Units: 04 Introduction to modern computational quantum chemistry. Prediction of molecular structure, molecular spectra and molecular reaction mechanisms using ab initio and semi-empirical methods. Prerequisite: CHEM 430bor CHEM 431 Recommended Preparation: CHEM 544 Instruction Mode: Lecture, Discussion Grading Option: Letter

CHEM 556 Polymer Synthesis
Units: 4 Concepts of polymer structure and stereochemistry. Organic chemistry of polymerization reactions with emphasis on condensation, radical, cationic, anionic, and coordination- -metathesis polymerization. Instruction Mode: Lecture Grading Option: Letter

CHEM 556L Advanced Practical Nuclear Magnetic Resonance Spectroscopy
Units: 2 Application of multidimensional and time resolved NMR spectroscopy to problems in structure determination and thermochemistry. Prerequisite: CHEM 322b or CHEM 326b; Recommended Preparation: CHEM 625. Instruction Mode: Lecture, Lab Required Grading Option: Letter

CHEM 557 Seminar in Chemical Biology
Units: 2 Max Units: 4.0 Introduce students to emerging research areas in chemical biology through a thorough discussion of seminal research articles and presentations of current research topics. Recommended Preparation: some research experience and familiarity with literature search. Instruction Mode: Lecture Grading Option: Letter

CHEM 570 Seminar in Physical Chemistry
Units: 2 Max Units: 4.0 Emerging research areas in physical and theoretical chemistry through a thorough discussion of seminal research articles and presentations of current research topics. Recommended Preparation: some research experience and familiarity with literature search. Instruction Mode: Lecture Grading Option: Letter
Preparation: some research experience and familiarity with literature search. Instruction Mode: Lecture Grading Option: Letter

CHEM 577a Medicinal Chemistry and Drug Design
Units: 2 Introduction to fundamentals of medicinal chemistry with special attention to the drug discovery process. Recommended Preparation: PSCI 664 and CHEM 519. PSCI 664, Instruction Mode: Lecture Grading Option: Letter

CHEM 577b Medicinal Chemistry and Drug Design
Units: 2 Concepts, methods and examples of current approaches to drug design including computer-based molecular modeling techniques. Recommended Preparation: PSCI 664 and CHEM 519. PSCI 664, Instruction Mode: Lecture Grading Option: Letter

CHEM 580 Current Topics in Inorganic Chemistry and Nanoscience
Units: 2 Max Units: 4.0 Introduction to emerging research areas in inorganic chemistry and nanoscience through a discussion of seminal research articles and presentations of current research topics. Instruction Mode: Lecture, Discussion Grading Option: Letter

CHEM 581 Current Topics in Sustainable Energy Generation and Storage
Units: 2 Introduction to emerging research areas in the chemistry of sustainable energy generation and storage through discussion of core research areas and presentations on current research. Instruction Mode: Lecture, Discussion Grading Option: Letter

CHEM 588 Advanced Practical X-ray Structure Determination of Small Molecules
Units: 2 Advanced techniques and methods in small molecule X-ray crystal structure determination. Emphasis on practical and laboratory work. Duplicates Credit in former CHEM 588a Instruction Mode: Lecture Grading Option: Letter

CHEM 589 Macromolecular Crystallography
Units: 2 Advanced techniques and methods in X-ray crystal structure determination of biological macromolecules with emphasis on practical work. Duplicates Credit in former CHEM 588b Instruction Mode: Lecture Grading Option: Letter

CHEM 590 Directed Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Terms Offered: FaSpSm Research leading to the master's degree. Maximum units which may be applied to the degree to be determined by the department. Instruction Mode: Lecture Grading Option: Credit/No Credit

CHEM 593x Practicum in Teaching Chemistry
Units: 2 Practical principles for effective teaching in the laboratory. Intended for teaching assistants in Chemistry. Instruction Mode: Lecture Grading Option: Credit/No Credit

CHEM 594a Master's Thesis
Units: 2 Terms Offered: FaSpSm Credit on acceptance of thesis. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

CHEM 594b Master's Thesis
Units: 2 Terms Offered: FaSpSm Credit on acceptance of thesis. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

CHEM 594z Master's Thesis
Units: 0 Terms Offered: FaSpSm Credit on acceptance of thesis. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

CHEM 596 Internship for Curricular Practical Training
Units: 1, 2, 3 Max Units: 0 Part-time or full-time, practical work experience in the student's field of study. The internship must be located at an off-campus facility. Students are individually supervised by faculty. May not be taken until the student has completed at least one semester of enrollment in the graduate program. Registration Restriction: Open only to graduate students Instruction Mode: Lecture Grading Option: Credit/No Credit

CHEM 599 Special Topics
Units: 2, 3, 4 Special topics in chemistry. Instruction Mode: Lecture, Discussion Grading Option: Letter

CHEM 625 Chemical Applications of Magnetic Resonance Spectroscopy
Units: 4 Elementary theory of magnetic resonance spectroscopy, methods of spectral analysis, treatment of Fourier Transform methods and time dependent phenomena; recent applications in organic chemistry. Instruction Mode: Lecture Grading Option: Letter

CHEM 626 Natural Products Chemistry
Units: 2 Survey of the chemistry and biogenesis of the major classes of secondary metabolites along biogenetic lines: terpenes, acetogenins, and alkaloids. Instruction Mode: Lecture Grading Option: Letter

CHEM 630 Fundamentals of Electrochemical Energy Systems
Units: 2 Fundamentals of electrochemical energy systems including various batteries, fuel cells and electrolyzers with a focus on materials, operating principles and applications. Instruction Mode: Lecture Grading Option: Letter

CHEM 632 Introduction to Surface Chemistry and Electroanalysis
Units: 2 Introduction to principles governing physical and chemical behavior of surfaces: structures, thermodynamics, adsorption, desorption, diffusion, electron transfer and electrocatalytic reactions, and experimental surface analytical techniques. Instruction Mode: Lecture Grading Option: Letter

CHEM 661 Selected Topics in Polymer Synthesis
Units: 2, 3, 4 Max Units: 8.0 Advanced level study in selected areas of polymer synthesis. Critical evaluation of recent advances. Topic examples: ionomer polymerization; stereo chemistry of polymers; silicon polymers; ladder polymers. Instruction Mode: Lecture Grading Option: Letter

CHEM 790 Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Terms Offered: FaSpSm Research leading to the doctorate. Maximum units which may be applied to the degree to be determined by the department. Instruction Mode: Lecture Grading Option: Credit/No Credit

CHEM 794a Doctoral Dissertation
Units: 2 Terms Offered: FaSpSm Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

CHEM 794b Doctoral Dissertation
Units: 2 Terms Offered: FaSpSm Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

CHEM 794d Doctoral Dissertation
Units: 2 Terms Offered: FaSpSm Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

CHEM 794c Doctoral Dissertation
Units: 2 Terms Offered: FaSpSm Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

CHEM 794z Doctoral Dissertation
Units: 0 Terms Offered: FaSpSm Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

Criminal Justice

CJ 500 Criminology
Units: 2 Terms Offered: FaSpSm Key theories and frameworks used to explain crime and inform responses to crime. Registration Restriction: Open only to USC Bovard College Students Instruction Mode: Lecture Grading Option: Letter

CJ 505 Analysis of Criminal Justice Systems
Units: 2 Terms Offered: FaSpSm The criminal justice system’s response to crime through a theoretical and interdisciplinary lens. Registration Restriction: Open only to USC Bovard College Students Instruction Mode: Lecture Grading Option: Letter

CJ 510 Criminal Justice Leadership
Units: 2 Terms Offered: FaSpSm Theory and practice of traditional and contemporary approaches to leadership in the context of criminal justice. Registration Restriction: Open only to USC Bovard College Students Instruction Mode: Lecture Grading Option: Letter

CJ 515 Applied Research Methods for Criminal Justice
Units: 2 Terms Offered: FaSpSm Fundamental research methods and design commonly used to answer questions related to criminal justice. Registration Restriction: Open only to USC Bovard College Students Instruction Mode: Lecture Grading Option: Letter

CJ 520 Applied Statistics and Data Analysis in Criminal Justice
Units: 2 Terms Offered: FaSpSm Fundamentals of statistics and statistical analyses commonly used to interpret crime data for evaluation and performance. Registration Restriction: Open only to USC Bovard College Students Instruction Mode: Lecture Grading Option: Letter

CJ 525 Ethical Decision-Making in Criminal Justice
Units: 2 Terms Offered: FaSpSm Examination and analysis of how societal expectations for ethical behavior and regulatory oversight affect leaders and
managers in criminal justice. Registration Restriction: Open only to USC Bovard College Students Instruction Mode: Lecture

CJ 530 Organizational Change in Criminal Justice
Units: 2 Terms Offered: FaSpSm Knowledge, skills, and tools necessary to lead organizational change within the context of criminal justice systems. Registration Restriction: Open only to USC Bovard College Students Instruction Mode: Lecture

Grading Option: Letter

CJ 535 Youthful Offenders
Units: 2 Terms Offered: FaSpSm Key concepts and evidence-based interventions and responses to promote positive growth and reduced recidivism in the youthful offender population. Registration Restriction: Open only to USC Bovard College Students Instruction Mode: Lecture

Grading Option: Letter

CJ 540 Criminal Justice Policy and Program Development
Units: 2 Terms Offered: FaSpSm In-depth analysis of all major stages of the criminal justice policy-making process. Registration Restriction: Open only to USC Bovard College Students Instruction Mode: Lecture

Grading Option: Letter

CJ 545 Criminal Investigations
Units: 2 Terms Offered: FaSpSm Explores criminal investigative techniques such as search and seizure, use of technology, and multi-jurisdictional and transnational crime investigations. Registration Restriction: Open only to USC Bovard College Students Instruction Mode: Lecture

Grading Option: Letter

CJ 550 Corrections and Community Supervision
Units: 2 Terms Offered: FaSpSm Examines evidence-based corrections and community supervision practices including offender rehabilitation, bail, restorative justice and victims’ issues. Registration Restriction: Open only to USC Bovard College Students Instruction Mode: Lecture

Grading Option: Letter

CJ 555 Making a Difference in Criminal Justice
Units: 2 Terms Offered: FaSpSm Preparing for the critical role of leadership through policy evaluation and policy change initiatives. Registration Restriction: Open only to USC Bovard College Students Instruction Mode: Lecture

Grading Option: Letter

Classics

All of the following courses require a knowledge of Greek or Latin.

CLAS 500 to CLAS 794z.

CLAS 101g The Ancient World
Units: 4 Terms Offered: FaSpSm (Enroll in HIST 101g)

CLAS 150gp The Greeks and their Legacies
Units: 4 Terms Offered: FaSp Classical Greek and Roman mythology as inspiration for literature, art, music, and film in various historical contexts. Satisfies New General Education in Category A: The Arts and Historical Foundations Satisfies Old General Education in Category I: Western Cultures and Traditions Instruction Mode: Lecture

Grading Option: Letter

CLAS 151gp The Legacy of Rome
Units: 4 Terms Offered: FaSp Ancient Roman values, ideas, and institutions of relevance to later periods of civilization. Satisfies New General Education in Category B: Humanistic Inquiry Satisfies Global Perspective in Category H: Traditions and Historical Foundations Satisfies Old General Education in Category I: Western Cultures and Traditions Instruction Mode: Lecture

Grading Option: Letter

CLAS 160gp Ancient Lives
Units: 4 Terms Offered: FaSp The lives of prominent Greeks, Romans and others in their ancient historical and biographical contexts and in modern reevaluations through various written and visual media. Satisfies New General Education in Category B: Humanistic Inquiry Satisfies Global Perspective in Category H: Traditions and Historical Foundations Satisfies Old General Education in Category I: Western Cultures and Traditions Instruction Mode: Lecture

Grading Option: Letter

CLAS 170gp Classics of Music and Literature: from Ancient Greece Through Contemporary Life
Units: 4 Terms Offered: FaSp Joint introduction to classical music and classical literature through close study of works of music inspired by the Greek and Roman literary tradition. Satisfies New General Education in Category A: The Arts Satisfies Global Perspective in Category H: Traditions and Historical Foundations Satisfies Old General Education in Category I: Western Cultures and Traditions Instruction Mode: Lecture

Grading Option: Letter

CLAS 180g Classic Mythology and the Mythic Imagination
Units: 4 Introduction to central works of mythology in classical Greek, Roman and Near Eastern traditions; emphasis on the relationship of myth, culture and the human imagination. Satisfies New General Education in Category B: Humanistic Inquiry Satisfies Global Perspective in Category H: Traditions and Historical Foundations Instruction Mode: Lecture

Grading Option: Letter

CLAS 202 Archaeology: Our Human Past
Units: 4 (Enroll in ANTH 202)

CLAS 212 Archaeology: Interpreting the Past
Units: 4 Terms Offered: Sp Methods and techniques employed in modern archaeological research, including the tools and principles of allied scientific fields and the impact of analytical and technological advances. Instruction Mode: Lecture, Lab

Grading Option: Letter

CLAS 280gp Classical Mythology in Art and Literature
Units: 4 Terms Offered: FaSp Classical Greek and Roman mythology as inspiration for literature, art, music, and film in various historical contexts. Satisfies New General Education in Category A: The Arts Satisfies Global Perspective in Category H: Traditions and Historical Foundations Satisfies Old General Education in Category I: Western Cultures and Traditions Instruction Mode: Lecture

Grading Option: Letter

CLAS 300 Women in Antiquity
Units: 4 Theoretical approaches to women's history; evidence for the daily life, legal status, and religion of ancient Greek and Roman women; the female in literature and art. Instruction Mode: Lecture

Grading Option: Letter Crosslisted as SWMS-300

CLAS 305 Roman Law
Units: 4 History and elements of Roman law, including persons, property, obligations, and inheritance, in context of social structure (family, gender, class, slavery, empire). Recommended Preparation: CLAS 151 or HIST 101.

Instruction Mode: Lecture

Grading Option: Letter

CLAS 307 Law and Society in Classical Greece
Units: 4 Investigations of the legal culture of classical Greece, focusing on regulation of social practices and on the role of social values in defining crime. Instruction Mode: Lecture

Grading Option: Letter

CLAS 310 Pagans and Christians
Units: 4 The Christian reception and transformation of pagan religious and philosophical thought. Instruction Mode: Lecture

Grading Option: Letter

CLAS 315 Sport and Spectacle in the Ancient World
Units: 4 Terms Offered: FaSp The role of athletic training and competition in ancient society, from the Greek Olympic games to Roman gladiatorial combat and modern recreations. Instruction Mode: Lecture

Grading Option: Letter

CLAS 320gp Diversity and the Classical Western Tradition
Units: 4 Terms Offered: Sp Political, ethical, and ideological aspects of classical Western attitudes towards human diversity. Relationship between classical tradition and - contemporary discussions of diversity and unity. Satisfies New General Education in Category B: Humanistic Inquiry Satisfies Global Perspective in Category H: Traditions and Historical Foundations Satisfies Old General Education in Category I: Western Cultures and Traditions Instruction Mode: Lecture

Grading Option: Letter

CLAS 321 Greek Art and Archaeology
Units: 4 Terms Offered: Fa (Enroll in AHIS 321)

CLAS 322 Roman Art and Archaeology
Units: 4 Terms Offered: Sp (Enroll in AHIS 322)

CLAS 323 Aegean Archaeology
Units: 4 Terms Offered: FaSp Survey of the Bronze Age Aegean societies of Minoan Crete and Mycenaean Greece; emphasis on archaeological theory and method in a prehistoric context. Instruction Mode: Lecture

Grading Option: Letter Crosslisted as AHIS-320, REL-323

CLAS 324 Late Antique Art and Archaeology
Units: 4 Investigation of the transformation between classical antiquity and the middle ages through examination of cities, buildings, images and artifacts of the 3rd–8thcentury Mediterranean. Instruction Mode: Lecture

Grading Option: Letter Crosslisted as AHIS-324

CLAS 325 Ancient Epic
Units: 4 Representative epics of the Greek
and Roman world; development of the character of the hero; later influences. 

**Instruction Mode:** Lecture 

**Grading Option:** Letter 

**AHIS 201g Lecture** 

Instruction Mode: 

**CLAS 328 Archaeology of Religion in the Greco-Roman World** 

Units: 4 Examination of ancient objects, images and archaeological sites as evidence for religious practice and ideas about the sacred in the Greco-Roman world. 

Recommended Preparation: AHIS 120gp, AHIS 201g 

**Instruction Mode:** Lecture 

**CLAS 336 Ancients VS. Moderns** 

Units: 4 Terms Offered: FaSp The history of the conflicts and compromises between advocates of antiquity and of modernity that continues to shape our own approaches to the past. 

**Instruction Mode:** Lecture 

**CLAS 333 Cult and City in Ancient Greece** 

Units: 4 Explores the relationship between civic and religious institutions in ancient Greece: city planning, warfare, mystery cults, drama, sacrifice, and women’s rituals. 

**Instruction Mode:** Lecture 

**CLAS 336 Rome and its Discontents: Literature and Social Change** 

Units: 4 Terms Offered: FaSp A study of major literary texts in translation from early imperial Rome and their responses to profound political and social change. 

**Instruction Mode:** Lecture 

**CLAS 337g Ancient Drama** 

Units: 4 Tragedies and comedies of the ancient world; later influences. Satisfies New General Education in Category B: Humanistic Inquiry 

**Instruction Mode:** Lecture 

**CLAS 338 Warfare, State, and Society in the Ancient World** 

Units: 4 War, warriors, and their relationship to politics and culture in the ancient world. Mobilization, socioeconomic status of soldiers, discipline, organization, and hierarchy. Memory of war. 

**Instruction Mode:** Lecture 

**CLAS 339 Ancient Science** 

Units: 4 Cross-cultural investigation of aims, origins, and transmission of various scientific traditions in antiquity. Relationship between science and philosophy, scientific thought and practice. 

**Instruction Mode:** Lecture 

**CLAS 340 Ethics and Politics in Ancient Rome** 

Units: 4 Introduction to ethical and political thought of classical Roman writers. Relationship between theory and practice. Implications for contemporary society. 

**Instruction Mode:** Lecture 

**CLAS 348g Athens in the Age of Democracy and Empire** 

Units: 4 Terms Offered: FaSp Democratic Institutions and practices, empire building, and cultural innovations of fifth and fourth century B.C. Athens using historical, rhetorical, dramatic, philosophical, and artistic sources. Satisfies New General Education in Category B: Humanistic Inquiry 

**Instruction Mode:** Lecture 

**CLAS 349g Ancient Empires** 

Units: 4 Terms Offered: FaSpSm History and cultures of the ancient empires of southwest Asia, from Cyrus the Great to the establishment of Islam. Satisfies New General Education in Category C: Social Analysis 

**Instruction Mode:** Lecture 

**CLAS 370 Leaders and Communities: Classical Models** 

Units: 4 Terms Offered: FaSp Examination of political and moral leadership in classical republican, democratic, and imperial communities; consideration of how these models are useful to contemporary democracies. 

**Instruction Mode:** Lecture 

**CLAS 371 From Alexander to Cleopatra: The Mediterranean in an Age of Expansion** 

Units: 4 Terms Offered: FaSp The history and culture of the Greek kingdoms in Egypt and Asia. 

**Instruction Mode:** Lecture 

**CLAS 375 Alexander the Great** 

Units: 4 Ancient sources on Alexander’s life, personality and conquests. Modern evaluations of his achievements as a prototype for autocracy and empire-building from antiquity to today. 

**Instruction Mode:** Lecture 

**CLAS 378 Ptolemaic Egypt** 

Units: 4 Terms Offered: FaSp Social, cultural, and political history of Egypt from Alexander to Cleopatra; state formation; immigration and cultural interaction between ethnic groups. 

**Instruction Mode:** Lecture 

**CLAS 380 Approaches to Myth** 

Units: 4 Advanced study of uses and interpretations of myth. Approaches include myth and ritual; psychology; gender; myth in literature, film and art. 

**Instruction Mode:** Lecture 

**CLAS 390 Special Problems** 

Units: 1, 2, 3, 4 Supervised, individual studies. No more than one registration permitted. Enrollment by petition only. 

**Instruction Mode:** Lecture 

**CLAS 410a Research in Classical Studies** 

Units: 2 Current approaches to study of the ancient world. Research methods and resources. 

**Registration Restriction:** Open only to Classics majors. 

**Instruction Mode:** Lecture 

**CLAS 410b Research in Classical Studies** 

Units: 2 Supervised independent research and writing of project developed in CLAS 

**COURSES OF INSTRUCTION**
requires a knowledge of Greek or Latin. Instruction Mode: Lecture Grading Option: Letter

**CLAS 501b Cross Registration with UCLA**

Units: 2/12 Special studies in selected areas of classical civilization and literature. Recommended Preparation: This course requires a knowledge of Greek or Latin. Instruction Mode: Lecture Grading Option: Letter

**CLAS 501c Cross Registration with UCLA**

Units: 2/12 Special studies in selected areas of classical civilization and literature. Recommended Preparation: This course requires a knowledge of Greek or Latin. Instruction Mode: Lecture Grading Option: Letter

**CLAS 501d Cross Registration with UCLA**

Units: 2/12 Special studies in selected areas of classical civilization and literature. Recommended Preparation: This course requires a knowledge of Greek or Latin. Instruction Mode: Lecture Grading Option: Letter

**CLAS 510 Seminar in Classical Philology**

Units: 4 Max Units: 12 Terms Offered: Fa Close study of the Greek and Latin languages and linguistic theory. Recommended Preparation: Knowledge of Greek or Latin.

**CLAS 511 Sanskrit I**

Units: 4 Introduces the student to the fundamentals of Sanskrit grammar, the ancient Indo-European language most closely related to Greek. Recommended Preparation: Knowledge of Greek or Latin.

**CLAS 512 Sanskrit II**

Units: 4 Completes the acquisition of the fundamentals of Sanskrit grammar and enables the student to read a variety of Vedic and classical Sanskrit texts. Recommended Preparation: This course requires a knowledge of Greek or Latin.

**CLAS 515 Topics in Classical Scholarship**

Units: 4 Max Units: 12 Terms Offered: FaSp Intensive study of individual authors, genres, periods, or areas of classical scholarship. Recommended Preparation: Knowledge of Greek or Latin. Recommended Preparation: Knowledge of Greek or Latin.

**CLAS 520 Approaches to Antiquity**

Units: 4 Max Units: 12 Terms Offered: FaSp Study in the history and theory of classical scholarship. Recommended Preparation: Knowledge of Greek or Latin. Recommended Preparation: Knowledge of Greek or Latin.

**CLAS 525 Studies in Ancient and Pre-Modern Cultures**

Units: 4 Max Units: 12 Terms Offered: FaSp Investigation of cultural interaction among Greeks, Romans and other ancient peoples. Includes a comparative study of pre-modern cultures. Recommended Preparation: Knowledge of Greek or Latin. Recommended Preparation: Knowledge of Greek or Latin.

**CLAS 540 Seminar in Early Greek Literature**

Units: 4, 3 years Terms Offered: Fa Homer through Aeschylus. Instruction Mode: Lecture Grading Option: Letter

**CLAS 545 Seminar in Theoretical Approaches to Greek Culture and Literature**

Units: 4 Max Units: 12 Terms Offered: FaSp Introduces students to the study of Greek culture and to the range of theories useful for modeling that culture and its literature. Instruction Mode: Lecture Grading Option: Letter

**CLAS 550 Seminar in Classical and Hellenistic Literature**

Units: 4, 3 years Terms Offered: Sp Tragic poetry, comic poetry, Hellenistic poetry. Instruction Mode: Lecture Grading Option: Letter

**CLAS 555 Seminar in Greek History, Culture and Society**

Units: 4 Max Units: 12 Terms Offered: FaSp Develops a historical framework for Greek culture from the Mycenaean period through the Hellenistic world. Emphasis on prose texts: historians, philosophers, orators. Instruction Mode: Lecture Grading Option: Letter

**CLAS 560 Seminar in Republican Latin Literature**

Units: 4, 3 years Terms Offered: Fa Early Latin literature through Virgil. Instruction Mode: Lecture Grading Option: Letter

**CLAS 565 Seminar in Theoretical Approaches to Roman Culture and Literature**

Units: 4 Max Units: 12 Terms Offered: FaSp Introduces students to the study of Roman culture and to a range of theories useful for modeling that culture and its literature. Instruction Mode: Lecture Grading Option: Letter

**CLAS 570 Seminar in Imperial Latin Literature**

Units: 4, 3 years Terms Offered: Sp Latin literature from the Augustan period to that of the Antonines. Instruction Mode: Lecture Grading Option: Letter

**CLAS 575 Seminar in Roman History, Culture and Society**

Units: 4 Max Units: 12 Terms Offered: FaSp Introduces students to research in Roman history and historiography. Instruction Mode: Lecture Grading Option: Letter

**CLAS 590 Directed Research**

Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Terms Offered: FaSp Research leading to the master's degree. Maximum units which may be applied to the degree to be determined by the department. Instruction Mode: Lecture Grading Option: Credit/No Credit

**CLAS 593x Practicum in Teaching Liberal Arts: Classics**

Units: 2 Terms Offered: Fa Basic principles of philosophical pedagogy, with emphasis on practical applications and the importance of career-long skill development. Required for first-semester teaching assistants in Classics. Registration Restriction: Open only to doctoral students in Classics.

**CLAS 594a Master's Thesis**

Units: 2 Terms Offered: FaSp Credit on acceptance of thesis. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

**CLAS 594b Master's Thesis**

Units: 0 Terms Offered: FaSp Credit on acceptance of thesis. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

**CLAS 594z Special Topics**

Units: 2, 3, 4 Max Units: 8.0 Terms Offered: FaSpSm Special topics in classical language, literature and culture. Instruction Mode: Lecture Grading Option: Letter

**CLAS 790 Research**

Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11 12 Research leading to the doctorate. Maximum units which may be applied to the degree to be determined by the department. Instruction Mode: Lecture Grading Option: Credit/No Credit

**CLAS 794a Doctoral Dissertation**

Units: 2 Terms Offered: FaSp Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

**CLAS 794b Doctoral Dissertation**

Units: 2 Terms Offered: FaSp Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

**CLAS 794c Doctoral Dissertation**

Units: 2 Terms Offered: FaSp Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

**CLAS 794d Doctoral Dissertation**

Units: 2 Terms Offered: FaSp Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

**Community Dentistry**

**CMDT 501 Introduction to Community Dentistry Programs**

Units: 1 Lectures and practical field experiences introducing the role of the dentist in a variety of organized public health programs. Instruction Mode: Lecture Grading Option: Letter

**CMDT 502a Contemporary Dental Practice**

Units: 2 Economic, legal, and professional aspects of dental practice; alternative careers in dentistry. Instruction Mode: Lecture Grading Option: Letter

**CMDT 502b Contemporary Dental Practice**

Units: 2 Economic, legal, and professional aspects of dental practice; alternative careers in dentistry. Instruction Mode: Lecture Grading Option: Letter
CMGT 503 Strategic Communication Consulting
Units: 4 Communication consulting skills including facilitation, training, presentation coaching, benefits writing, speech writing, and communicating organizational change; consulting basics, proposals, cost estimating, and final reports. Instruction Mode: Lecture Grading Option: Letter

CMGT 504 Writing for Strategic Communication
Units: 4 Writing skills necessary for an organizational communicator; review of strategic writing fundamentals; development of portfolio of diverse media applications based on strategic corporate communication requirements. Instruction Mode: Lecture Grading Option: Letter

CMGT 505 Communication in Work Settings
Units: 4 How work settings determine communication: basic structures of communication, influence of technology, social contexts, and physical space. Applications to management. Instruction Mode: Lecture Grading Option: Letter

CMGT 506 Images and Image Management
Units: 4 Examines images and image manipulation in communication, management and social control. Synthesizes work ranging from cognition and interpersonal behavior to mass media and popular culture. Instruction Mode: Lecture Grading Option: Letter

CMGT 507 Information Management
Units: 4 Develops conceptual frameworks for understanding information, uncertainty, ambiguity, and knowledge. Principles for decision-making, awareness of biases, mathematics of risktaking, and practices for sense-making. Duplicates Credit in former COMM 507. Instruction Mode: Lecture Grading Option: Letter

CMGT 508 Communicating Strategy and Change
Units: 4 Examination of role of communication in developing and implementing business strategy; critical assessment and practice with models, tools, and techniques for communicating change. Instruction Mode: Lecture Grading Option: Letter

CMGT 509 Influential Communication in the Marketplace
Units: 4 Promotional messages as both creative expressions and agents for behavioral change; application of social science theories of persuasion and compliance in interpersonal and mass-media venues. Instruction Mode: Lecture Grading Option: Letter

CMGT 510 Communication, Values, Attitudes and Behavior

CMGT 511 Health Communication
Units: 4 Connections between health providers' communication and patients' well-being; communication language, nonverbal behavior, physical settings, design of media messages, information technologies in patient education and care. Instruction Mode: Lecture Grading Option: Letter

CMGT 512 Unintended Consequences of Communication
Units: 4 A multidisciplinary examination of the unintended consequences of interpersonal, mass media, political, commercial and social communication by analyzing tactical and strategic errors in communication campaigns. Instruction Mode: Lecture Grading Option: Letter

CMGT 514 Analytical Tools for Communication Decisions
Units: 4 Terms Offered: Fa Decision making for communication professionals utilizing statistics, methods, and analysis. Identifying solutions and how to communicate these solutions to others. Prerequisite: CMGT 540 Registration Restriction: Open only to Communication Management majors. Instruction Mode: Lecture Grading Option: Letter

CMGT 515 Innovation and the Information Economy
Units: 4 Analysis of the innovation dynamics fueled by the information and communication technology revolution; economic, technological, institutional and personal underpinnings of innovation and entrepreneurship. Instruction Mode: Lecture Grading Option: Letter

CMGT 520 Social Roles of Communication Media
Units: 4 How mass media shape public images of groups, channel political power, promote consumption of goods. Social and political theories as tools in evaluating media impact. Instruction Mode: Lecture Grading Option: Letter

CMGT 528 Web Strategies for Organizations
Units: 4 Terms Offered: Sp Students learn to assess organizations' online needs, to examine the use of the Internet in terms of electronic commerce and global pressures, and design Web page strategies. Instruction Mode: Lecture Grading Option: Letter

CMGT 529 Social Media Entertainment: Creator Industry, Management and Practices
Units: 4 Terms Offered: Sp Maps the global rise and evolution of Social Media Entertainment and China's Wang Hong industries distinguished by creators, aka influencers, YouTubers, live streamers, KOLs and Wang Hong. Instruction Mode: Lecture Grading Option: Letter

CMGT 530 Social Dynamics of Communication Technologies
Units: 4 Impact of television, satellites, computers, and other new technologies; competing theories about the role of technology in society; historical effects of introducing new technologies. Instruction Mode: Lecture Grading Option: Letter

CMGT 531 Communication and the International Economy
Units: 4 Examines the impact of global economic changes on communications industries, the political and economic forces shaping these industries and the roles of its managers. Instruction Mode: Lecture Grading Option: Letter

CMGT 532 Development of American Electronic Media Industry
Units: 4 Origins of American radio and
television broadcasting industry and an analysis of its development into the contemporary media industry; covers history, technology, regulation, and business practices. Instruction Mode: Lecture Grading Option: Letter

CMGT 533 Emerging Communication Technologies
Units: 4 Basics of multimedia; new forms of audio and video interactive technologies; computer communication networks; social, political, cultural, interpersonal, organizational issues related to emerging communication technologies. Duplicates Credit in former COMM 533. Instruction Mode: Lecture Grading Option: Letter

CMGT 535 Online Communities for Organizations
Units: 4 How Web-based technologies affect organizational communication, including issues related to collaboration, innovation and knowledge management, forecasting, and networking. Duplicates Credit in former COMM 535. Instruction Mode: Lecture Grading Option: Letter

CMGT 536 Team Communication and Leadership
Units: 4 Theories of effective team communication and leadership; case studies of effective and ineffective teams and leaders; teamwork and communication development, and distributed work teams. Instruction Mode: Lecture Grading Option: Letter

CMGT 537 The Industry, Science and Culture of Video Games
Units: 4 History, social dynamics, and cultural impact of video games; developments in technology and design; issues confronting the video game industry and organizations. Instruction Mode: Lecture Grading Option: Letter

CMGT 540 Uses of Communication Research
Units: 4 Applications of both data and interpretation in communications management. Topics include: audience ratings, surveys, experimental tests of programs and campaigns, formative evaluations, secondary data sources. Registration Restriction: Open only to Communication Management and Communications Management Online students. Instruction Mode: Lecture Grading Option: Letter

CMGT 541 Integrated Communication Strategies
Units: 4 Communication strategies for product marketing and advertising; communication's role in developing domestic and international marketplaces; practical applications of persuasion theory. Instruction Mode: Lecture Grading Option: Letter

CMGT 542 Business Strategies of Communication Firms

CMGT 543 Managing Communication in the Entertainment Industry
Units: 4 Examination, application and critique of traditional and contemporary organizational communication theory as it applies to the entertainment industry's unique internal and external environments. Instruction Mode: Lecture Grading Option: Letter Crosslisted as PR 583

CMGT 544 Creating Organizational Identity: Meaning Through Messages
Units: 4 Use of rhetorical theories and communication models to create organizational identification with internal and external audiences; the role of values and ethics in creating identities. Instruction Mode: Lecture Grading Option: Letter

CMGT 545 Communication and Global Competition
Units: 4 How communication technologies are used to secure competitive advantage; how firms use communication systems to sustain effective positioning in an industry; convergence of communication industries. Instruction Mode: Lecture Grading Option: Letter

CMGT 546 Sports Media and Society
Units: 4 History and evolution of sports media industry; traditional, new and alternative sports media; globalization of sports; sports promotions and personalities. Instruction Mode: Lecture Grading Option: Letter

CMGT 547 Distribution of Recordings: Media, Retail and Online Channels
Units: 4 Cultural and critical analyses of radio and recording industry development and business strategy; influence of legal and regulatory institutions, impact of new forms of distribution. Instruction Mode: Lecture Grading Option: Letter

CMGT 548 Issues in Children's Media
Units: 4 Historical review of children's programming; programming genres; ethical and business issues of marketing to children; children's uses of various media. Instruction Mode: Lecture Grading Option: Letter

CMGT 549 Case Studies in Digital Entertainment
Units: 4 Explores foundation of U.S. media policy in the digital age; students prepare White Papers on an urgent issue of contemporary digital media and entertainment policy. Instruction Mode: Lecture Grading Option: Letter

CMGT 550 Hollywood 3.0 — Entertainment Industry in the Convergence Age
Units: 4 In-depth analysis of the challenges confronting the entertainment industry in the wake of media convergence including a survey of media convergence history and theories. Instruction Mode: Lecture Grading Option: Letter

CMGT 551 Communicating Entertainment Media Identities
Units: 4 Understanding dynamics in entertainment markets enabled by emerging digital technologies; broad and niche strategies to target appropriate audiences, building audience engagement with entertainment content identities. Instruction Mode: Lecture Grading Option: Letter

CMGT 552 Visual Storytelling: Production, Management and Culture
Units: 4 Focuses on management, production and distribution of scripted film, television and web stories to understand visual storytelling as a communicative strategy for advertising and education. Instruction Mode: Lecture Grading Option: Letter

CMGT 553 Marketing Communication Theory and Application
Units: 4 Terms Offered: Sp Applies communication theory and research to understand emerging marketing communication topics and issues. Registration Restriction: Open only to Master of Communication Management students. Instruction Mode: Lecture Grading Option: Letter

CMGT 554 Copywriting and Creativity
Units: 4 Foundational and advanced practices for copywriting and related design in communication; integrated analysis of concepts and pragmatics surrounding creativity for communication effectiveness. Instruction Mode: Lecture Grading Option: Letter

CMGT 555 Online Marketing Communication Development and Analysis
Units: 4 Analysis and development of online communication and marketing campaigns; exploration of current Internet best practices in social media, SEM, privacy, location-based marketing, and online measurement. Instruction Mode: Lecture Grading Option: Letter

CMGT 556 Global Marketing Communication
Units: 4 Communication strategies in a global marketing environment; analysis of global market challenges and opportunities; effective global integrated communication to create and sustain competitive advantage. Instruction Mode: Lecture Grading Option: Letter

CMGT 557 Communication Policy in the Global Marketplace
Units: 4 Comparative analysis of various countries' communication and information technology policies; examines developments in telecommunications, broadcasting, and entertainment industries and policy questions for the global marketplace. Instruction Mode: Lecture Grading Option: Letter

CMGT 558 The International Entertainment Marketplace
Units: 4 Global influences on entertainment industries (broadcasting, film, telecommunications, Internet, video games, and music); case analyses of specific organizations and geographic regions; impact on local cultures. Instruction Mode: Lecture Grading Option: Letter

CMGT 559 Global Hollywood
Units: 4 Examines the influence of the transglobal flow of media between the U.S. entertainment industries and other national media industries. Instruction Mode: Lecture Grading Option: Letter

CMGT 560 Communications Policy
Units: 4 Evolving regulation of telephone, radio, television, cable, print, and other media. Major policy-makers and decision points in policy-making at local, state, national, and international levels. Instruction Mode: Lecture Grading Option: Letter
CMGT 562 Foundations of Effective PR Writing
Units: 4 Terms Offered: Other (Enroll in PR 562)

CMGT 564 Methodological Fundamentals of Big Data in Communication
Units: 4 Understanding of fundamental methodological issues about big data: types, platforms, tools, analysis techniques, and relevant theoretical frameworks. Instruction Mode: Lecture Grading Option: Letter

CMGT 565 Communication Law and Broadcasting
Units: 4 History and present status of broadcast regulations; emphases on First Amendment, character of regulatory agencies, impact of court decisions, influence of technological advances. Instruction Mode: Lecture Grading Option: Letter

CMGT 566 Communication Law and New Technologies
Units: 4 Development of law in newer technologies. Cases include cable television, low power television, direct broadcast satellites, teletext, video cassettes, telephone, data networks, computer regulation. Instruction Mode: Lecture Grading Option: Letter

CMGT 567 Internet Policy, Practice and Regulation
Units: 4 Examines how legal decisions impact commercial and personal uses of the Internet; regulatory responses to court decisions. Instruction Mode: Lecture Grading Option: Letter

CMGT 568 Influencer Strategies
Units: 4 Terms Offered: Fa Students master skills and strategies to distinguish the truly influential from the merely popular, manage international influencer campaigns and develop successful influencers. Instruction Mode: Lecture Grading Option: Letter

CMGT 571 Communications Technologies
Units: 4 Basic technological concepts necessary to understand the workings of modern communications products and services, to include frequency, bandwidth, electricity, modulation, and digital conversion. Instruction Mode: Lecture Grading Option: Letter

CMGT 573 Evaluating Communication Needs
Units: 4 Participation as consultants in field projects. Use of organizational, interpretive, and statistical methods to design organizational communication systems is emphasized. Instruction Mode: Lecture Grading Option: Letter

CMGT 574 Tele-Media: Strategic and Critical Analysis
Units: 4 Strategic and critical analyses of emerging and new communication technologies from historical, business, financial, consumer, and policy perspectives. Instruction Mode: Lecture Grading Option: Letter

CMGT 576 Communication Strategies for Conflict Management
Units: 4 Communication strategies for effective negotiation, mediation and facilitation of disputes; structures for public interventions; emergence of online dispute resolution systems. Instruction Mode: Lecture Grading Option: Letter

CMGT 577 Communicating Corporate Social Responsibility
Units: 4 Evolution, models, metrics and stakeholders. Key communication issues in designing and implementing initiatives, CSR reporting, strategic partnerships and online communities. Analysis of communication paradoxes. Instruction Mode: Lecture Grading Option: Letter

CMGT 578 Non-profit Advocacy
Units: 4 Examines non-profit advocacy (vs. for-profit communication) marked by different rhythmic and creative drivers; non-profit audience analysis; creation of conversations for viral communication impact. Instruction Mode: Lecture Grading Option: Letter

CMGT 580 Chinese Media and Society
Units: 4 The political economy of communications and information in China’s broader process of development and reentry into global capitalism; particular media and communication conditions and policies. Instruction Mode: Lecture Grading Option: Letter

CMGT 581 Media in Social Services: Design and Evaluation of Campaigns
Units: 4 Theory and research issues in the use of media for changing behavior in health, public safety, welfare, and other areas of social services. Duplicates Credit in former COMM 581. Instruction Mode: Lecture Grading Option: Letter

CMGT 582 International Communication: National Development
Units: 4 Comparison of traditional communication programs and newer information and communication technologies for analyzing needs of international communities; design, implementation, monitoring, and evaluation of development-related projects. Instruction Mode: Lecture Grading Option: Letter

CMGT 583 Social Marketing and Entertainment Education
Units: 4 Theoretical foundations of social marketing and entertainment education; uses of dramatic serials, telenovelas and animation to promote human rights; program design, evaluation. Instruction Mode: Lecture Grading Option: Letter

CMGT 584 Communication and the Multicultural Marketplace
Units: 4 Popular culture and marketing communication; race, gender, sexual orientation and consumer culture; consumption patterns and identity, loyalty and self-actualization; cultural marketing campaigns and sociopolitical conflict. Instruction Mode: Lecture Grading Option: Letter

CMGT 585 Communication Leadership in the Entertainment Industry
Units: 4 Examination of the communicative elements of leadership in entertainment products and processes; the role of communication experts in supporting, coaching and facilitating entertainment leadership. Instruction Mode: Lecture Grading Option: Letter

CMGT 586 Entertainment Media: Content, Theory and Industry Practices
Units: 4 Examination of social scientific theory and research on patterns of media content; effects of mass media exposure on individuals and society; and industry practices. Instruction Mode: Lecture Grading Option: Letter

CMGT 587 Audience Analysis
Units: 4 Fundamental principles of audience research; critique of existing methodologies; implications for global audiences and mass media markets. Instruction Mode: Lecture Grading Option: Letter

CMGT 588 Global Storytelling: The Power of Narrative
Units: 4 Theory, structure and effects of culture on narrative. Story in non-profit and health organizations; new fields that recognize the importance of storytelling; storytelling in diverse media. Instruction Mode: Lecture Grading Option: Letter

CMGT 589 Storytelling, Culture and Experiential Communication
Units: 4 Terms Offered: FaSp How to communicate through storytelling in contemporary culture. Strategic story development for brands, for self-branding, and for social impact. Story creation utilizes narrative theories and workshop-style participatory activities. Instruction Mode: Lecture Grading Option: Letter

CMGT 590 Directed Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Research leading to the master's degree. Maximum units which may be applied to the degree to be determined by the school. Duplicates Credit in former COMM 590. Instruction Mode: Lecture Grading Option: Credit/No Credit

CMGT 591 Communication Internship
Units: 1, 2 Max Units: 03 Terms Offered: FaSpSm Field experience in applying communication principles to settings in organizations, campaigns, or other contexts; analysis and assessment of issues and problems. Registration Restriction: Open only to graduate students in the following majors: Communication PhD, Communication Management, Global Communication, Digital Social Media, Public Diplomacy, Public Diplomacy (Practitioner and Mid-Career Professional) Instruction Mode: Lecture Grading Option: Credit/No Credit

CMGT 592 Theory and Practice of Professional Presentations
Units: 2 Application of communication and persuasion theories in the creation of oral presentations; critical assessment of the role of new technologies for professional presentations. Instruction Mode: Lecture Grading Option: Credit/No Credit

CMGT 597a Communication Research Practicum
Units: 2 Terms Offered: FaSpSm Students design and produce an original project appropriate for their emphasis area within the Master of Communication degree. Prerequisite: CMGT 501 and CMGT 540. Duplicates Credit in former CMGT 597. Instruction Mode: Lecture Grading Option: Letter

CMGT 597b Communication Research Practicum
Units: 2 Terms Offered: FaSpSm Students design and produce an original project appropriate for their emphasis area within the Master of Communication degree. Prerequisite: CMGT 501 and CMGT 540.
CMPP 541a Producing Workshop
Units: 4 Terms Offered: Fa Hands-on workshops in creative and physical filmmaking. Duplicates Credit in CTPR 504 and former CMPP 541L. Instruction Mode: Lecture Grading Option: Letter

CMPP 541b Producing Workshop
Units: 4 Terms Offered: Sp Further hands-on creative and physical filmmaking, making more advanced short films. Duplicates Credit in CTPR 504 and former CMPP 541L. Instruction Mode: Lecture Grading Option: Letter

CMPP 548 Introduction to Producing for Television
Units: 2 Terms Offered: Fa An introduction to the creative and financial aspects of producing for television. Registration Restriction: Open only to FPTM students. Instruction Mode: Lecture Grading Option: Letter

CMPP 550 Script Analysis for the Producer
Units: 2 Terms Offered: Fa Sp Detailed evaluation of completed scripts and of the producer's role in bringing them to fruition. Instruction Mode: Lecture Grading Option: Letter

CMPP 560 Script Development
Units: 2 Terms Offered: FaSp From idea and story to finished shooting script. Instruction Mode: Lecture Grading Option: Letter

CMPP 561 Motion Picture and Television Marketing
Units: 2 Terms Offered: Fa Analysis and preparation of film and television show marketing campaigns from creative concept to targeting across various media. Instruction Mode: Lecture Grading Option: Letter

CMPP 563 Producing Symposium
Units: 1 Terms Offered: Fa Lectures on creative aspects of producing. Instruction Mode: Lecture Grading Option: Credit/No Credit

CMPP 564 Digital Media and Entertainment
Units: 2 Terms Offered: Sp Exploring the effect of digital media on the entertainment landscape. Instruction Mode: Lecture Grading Option: Letter

CMPP 565 Scheduling and Budgeting
Units: 4 Terms Offered: FaSp Concept and preparation of a complete schedule and budget. Instruction Mode: Lecture Grading Option: Letter

CMPP 566 Finance
Units: 2 Terms Offered: FaSp Seminar on financial aspects of film industry and methods of financing films. Instruction Mode: Lecture Grading Option: Letter

CMPP 568 Producing for Television
Units: 2 Terms Offered: Fa Discussions of the creative and financial aspects of television producing. Instruction Mode: Lecture Grading Option: Letter

CMPP 569 Seminar on Non-Mainstream Producing
Units: 2 Terms Offered: FaSp Discussions on non-mainstream studio producing, including non-traditional financing and non-theatrical producing. Instruction Mode: Lecture Grading Option: Letter

CMPP 570 Advanced Television
Units: 2 Terms Offered: Fa Advanced studies of the business of television, including the economic structure of the television industry. Instruction Mode: Lecture Grading Option: Letter

CMPP 571 Producing the Screenplay
Units: 2 Terms Offered: FaSp Workshop for the creation and development of a screenplay or teleplay. Instruction Mode: Lecture Grading Option: Letter

CMPP 589a Graduate Film Business Seminar
Units: 3 Terms Offered: Fa Economics of the entertainment industry, including entertainment law, and rights acquisition. Includes weekly film screening. Instruction Mode: Lecture Grading Option: Letter

CMPP 589b Graduate Film Business Seminar
Units: 2 Terms Offered: Sp Economics of the entertainment industry, including entertainment law, and rights acquisition. Includes weekly film screening. Instruction Mode: Lecture Grading Option: Letter

CMPP 591 Producing Practicum
Units: 2 Terms Offered: Irregular Producing workshop encompassing all aspects of producing, including script development, budgeting, casting and actual production. Instruction Mode: Lecture Grading Option: Letter

CMPP 592 Individual Project Seminar
Units: 4 Terms Offered: Sp Directed research project and seminars in related topics. Duplicates Credit in former CTPR 592. Instruction Mode: Lecture Grading Option: Letter

CMPP 599 Special Topics
Units: 2 Terms Offered: Irregular Investigation of new and emerging aspects of producing motion pictures and television; special and experimental subjects. Instruction Mode: Lecture Grading Option: Letter

CMPP 669 Seminar on Non-Mainstream Producing
Units: 2 Terms Offered: FaSp Discussions on non-mainstream studio producing, including non-traditional financing and non-theatrical producing. Instruction Mode: Lecture Grading Option: Letter

CMPP 670 Advanced Television
Units: 2 Terms Offered: Fa Advanced studies of the business of television, including the economic structure of the television industry. Instruction Mode: Lecture Grading Option: Letter

CMPP 671 Producing the Screenplay
Units: 2 Terms Offered: FaSp Workshop for the creation and development of a screenplay or teleplay. Instruction Mode: Lecture Grading Option: Letter

CMPP 789a Graduate Film Business Seminar
Units: 3 Terms Offered: Fa Economics of the entertainment industry, including entertainment law, and rights acquisition. Includes weekly film screening. Instruction Mode: Lecture Grading Option: Letter

CMPP 789b Graduate Film Business Seminar
Units: 2 Terms Offered: Sp Economics of the entertainment industry, including entertainment law, and rights acquisition. Includes weekly film screening. Instruction Mode: Lecture Grading Option: Letter

CMPP 991 Producing Practicum
Units: 2 Terms Offered: Irregular Producing workshop encompassing all aspects of producing, including script development, budgeting, casting and actual production. Instruction Mode: Lecture Grading Option: Letter

CMPP 992 Individual Project Seminar
Units: 4 Terms Offered: Sp Directed research project and seminars in related topics. Duplicates Credit in former CTPR 592. Instruction Mode: Lecture Grading Option: Letter

CMPP 999 Special Topics
Units: 2 Terms Offered: Irregular Investigation of new and emerging aspects of producing motion pictures and television; special and experimental subjects. Instruction Mode: Lecture Grading Option: Letter

CMPT 504 Producing
Units: 2 Terms Offered: FaSp Seminar on creative and financial aspects of television producing. Instruction Mode: Lecture Grading Option: Letter

CMPT 569 Seminar on Non-Mainstream Producing
Units: 2 Terms Offered: FaSp Discussions on non-mainstream studio producing, including non-traditional financing and non-theatrical producing. Instruction Mode: Lecture Grading Option: Letter

CMPT 570 Advanced Television
Units: 2 Terms Offered: Fa Advanced studies of the business of television, including the economic structure of the television industry. Instruction Mode: Lecture Grading Option: Letter

CMPT 571 Producing the Screenplay
Units: 2 Terms Offered: FaSp Workshop for the creation and development of a screenplay or teleplay. Instruction Mode: Lecture Grading Option: Letter

CMPT 589a Graduate Film Business Seminar
Units: 3 Terms Offered: Fa Economics of the entertainment industry, including entertainment law, and rights acquisition. Includes weekly film screening. Instruction Mode: Lecture Grading Option: Letter

CMPT 589b Graduate Film Business Seminar
Units: 2 Terms Offered: Sp Economics of the entertainment industry, including entertainment law, and rights acquisition. Includes weekly film screening. Instruction Mode: Lecture Grading Option: Letter

CMPT 591 Producing Practicum
Units: 2 Terms Offered: Irregular Producing workshop encompassing all aspects of producing, including script development, budgeting, casting and actual production. Instruction Mode: Lecture Grading Option: Letter

CMPT 592 Individual Project Seminar
Units: 4 Terms Offered: Sp Directed research project and seminars in related topics. Duplicates Credit in former CTPR 592. Instruction Mode: Lecture Grading Option: Letter

CMPT 599 Special Topics
Units: 2 Terms Offered: Irregular Investigation of new and emerging aspects of producing motion pictures and television; special and experimental subjects. Instruction Mode: Lecture Grading Option: Letter

CMPT 669 Seminar on Non-Mainstream Producing
Units: 2 Terms Offered: FaSp Discussions on non-mainstream studio producing, including non-traditional financing and non-theatrical producing. Instruction Mode: Lecture Grading Option: Letter

CMPT 670 Advanced Television
Units: 2 Terms Offered: Fa Advanced studies of the business of television, including the economic structure of the television industry. Instruction Mode: Lecture Grading Option: Letter

CMPT 671 Producing the Screenplay
Units: 2 Terms Offered: FaSp Workshop for the creation and development of a screenplay or teleplay. Instruction Mode: Lecture Grading Option: Letter

CMPT 789a Graduate Film Business Seminar
Units: 3 Terms Offered: Fa Economics of the entertainment industry, including entertainment law, and rights acquisition. Includes weekly film screening. Instruction Mode: Lecture Grading Option: Letter

CMPT 789b Graduate Film Business Seminar
Units: 2 Terms Offered: Sp Economics of the entertainment industry, including entertainment law, and rights acquisition. Includes weekly film screening. Instruction Mode: Lecture Grading Option: Letter

CMPT 991 Producing Practicum
Units: 2 Terms Offered: Irregular Producing workshop encompassing all aspects of producing, including script development, budgeting, casting and actual production. Instruction Mode: Lecture Grading Option: Letter

CMPT 992 Individual Project Seminar
Units: 4 Terms Offered: Sp Directed research project and seminars in related topics. Duplicates Credit in former CTPR 592. Instruction Mode: Lecture Grading Option: Letter

CMPT 999 Special Topics
Units: 2 Terms Offered: Irregular Investigation of new and emerging aspects of producing motion pictures and television; special and experimental subjects. Instruction Mode: Lecture Grading Option: Letter

CMPT 332 The Art of Motion Picture Editing
Units: 2 Analyzing and deconstructing all the elements of the art of creatively manipulating visual images through editing. Instruction Mode: Lecture Grading Option: Letter

CMPT 367 The Music Video: Business and Practice
Units: 4 Terms Offered: Sm Creating concepts, writing treatments, pitching, and the realities and details of music video production including budgeting, pre- and post-production. Duplicates Credit in CTPR 497 Music Video Production. Instruction Mode: Lecture Grading Option: Letter

CMPT 370 3-D Animation for Film and Video
Units: 4 Terms Offered: Sm The basics of 3-D computer animation techniques and their use in creating animated characters. Instruction Mode: Lecture Grading Option: Letter

CMPT 372 Developing the Screenplay
Units: 2 Terms Offered: Sm The process of script development, examining a project from the initial idea and tracking its progress through to the completed screenplay ready for production. Instruction Mode: Lecture Grading Option: Letter

CMPT 375 Breaking into the Entertainment Industry
Units: 2 Terms Offered: FaSpSm An overview of the entertainment industry and the tools needed to secure jobs and survive and succeed in the market. Instruction Mode: Lecture Grading Option: Letter

CMPT 390 Special Problems
Units: 1, 2, 3, 4 Terms Offered: Irregular Supervised, individual studies. No more than one registration permitted. Enrollment by petition only. Instruction Mode: Lecture Grading Option: Letter

CMPT 392 Filmmaking Intensive
Units: 4 Terms Offered: Sm The basic technical and aesthetic concepts underlying motion picture production and an exploration of visual language. Instruction Mode: Lecture Grading Option: Letter

CMPT 393 16mm Filmmaking: Structuring Scenes That Work
Units: 4 Terms Offered: Sm The creative and technical aspects of 16mm filmmaking, particularly as they apply to the short film or the individual scene. Instruction Mode: Lecture Grading Option: Letter

CMPT 405 Studio Producing and Directing
Units: 4 Terms Offered: Sm Understanding the craft and art of directing in the studio system, and developing a working methodology for creative producing. Instruction Mode: Lecture Grading Option: Letter

CMPT 410 Non-Fiction Filmmaking
Units: 4 Terms Offered: Sm Conceiving, researching, writing, producing, directing, and editing an original non-fiction work and exploring practical training in techniques of non-fiction film. Instruction Mode: Lecture Grading Option: Letter

CMPT 411 Creating the Short Film
Units: 4 Terms Offered: Sm An overview of the concerns, functions and responsibilities associated with creating a short narrative film. Casting, producing and directing an
independent project. Instruction Mode: Lecture

CNTV 413 Digital Editing
Units: 4 Terms Offered: Sm An introduction to nonlinear editing techniques, hardware, digitizing, logging, and special effects, using the AVID Media Composer editing system. Instruction Mode: Lecture Grading Option: Letter

CNTV 415 Commercial Production: The Art of the Sixty-Second Story
Units: 4 Terms Offered: Sm The three main components of commercials: agency creation, spot production, and post-production. Writing, pitching, casting, directing, and editing commercials. Instruction Mode: Lecture Grading Option: Letter

CNTV 419 Inside the Business of Film and Television
Units: 4 Terms Offered: FaSp Sm An overview of the contemporary studio system, independent films, and television, including script analysis, pitching, optioning properties, the marketplace, representation, career management, and networking. Instruction Mode: Lecture Grading Option: Letter

CNTV 420 Independent Feature Filmmaking
Units: 2 Terms Offered: FaSpSm Independent feature film development, financing, production, and distribution. Discussions with independent filmmakers. Instruction Mode: Lecture Grading Option: Letter

CNTV 427 The Art and Commerce of Independent Film
Units: 4 Terms Offered: FaSp A comprehensive analysis of the development-to-release life cycle of independently produced films. Instruction Mode: Lecture Grading Option: Letter

CNTV 440 The Business of the Entertainment Industry: Motion Pictures, Television, Animation, Video Games, and Interactive Entertainment
Units: 2 Terms Offered: Fa An in-depth analysis of the history, evolution, and current state of the motion picture, television, animation, video games, and interactive entertainment industries. Instruction Mode: Lecture Grading Option: Letter

CNTV 441 Business and Cinematic Arts Entertainment Practicum
Units: 2 Terms Offered: Sp Application of business and cinematic arts concepts to entertainment industry networking and career-building experiences. Peer collaboration/competition, and identifying organizational compatibility. Registration Restriction: Open only to Business Administration (Cinematic Arts) majors. Instruction Mode: Lecture Grading Option: Letter

CNTV 457 The Entrepreneur: Getting Your First Project Made
Units: 2 Terms Offered: Fa The practical aspects of entrepreneurial producing in the entertainment industry. Identifying and understanding the pitfalls and benefits of creating one's own projects. Instruction Mode: Lecture Grading Option: Letter

CNTV 458 Producing and Marketing Feature Length Films
Units: 2 Terms Offered: Fa The principles and business practices of producing and marketing feature length films in the motion picture industry. Registration Restriction: Open only to Business Administration (Cinematic Arts) majors. Instruction Mode: Lecture Grading Option: Letter

CNTV 463 Television: Integrating Creative and Business Objectives
Units: 2 Terms Offered: Fa An investigation of the creative and business sides of television and how they connect, including changes caused by digitalization and digital technology. Registration Restriction: Open only to Business Administration (Cinematic Arts) students. Instruction Mode: Lecture Grading Option: Letter

CNTV 467 The Future of Digital Media and the Entertainment Industry
Units: 2 Terms Offered: SSp Examines how digital media will affect the future of the television, motion picture, game, music, and interactive industries. Instruction Mode: Lecture Grading Option: Letter

CNTV 474 Digital DNA: Media Redefined
Units: 2 Terms Offered: FaSpA practical, hands-on learning experience in creating media content and turning that content into a myriad of viable businesses. Instruction Mode: Lecture Grading Option: Credit/No Credit

CNTV 478 Horror Film Analysis and Production
Units: 4 Terms Offered: Sm The fundamentals of horror filmmaking, analysis of horror films and the opportunities in the entertainment industry. Instruction Mode: Lecture Grading Option: Letter

CNTV 490x Directed Research
Units: 1, 2, 3, 4, 5, 6, 7, 8 Max Units: 12.0 Terms Offered: FaSpSm Individual research and readings. Instruction Mode: Lecture Grading Option: Letter

CNTV 495 Internship in Cinematic Arts
Units: 1, 2, 4 Max Units: 04 Terms Offered: FaSpSm On-the-job film, television, and interactive industry experience in the areas of interest of the individual student. Requires departmental approval. Duplicates Credit in former CTIN 495 and former CTPR 495 Instruction Mode: Lecture Grading Option: Credit/No Credit

CNTV 499 Special Topics
Units: 2, 3, 4, 5 Max Units: 8.0 Selected topics in cinematic arts. Instruction Mode: Lecture Grading Option: Letter

CNTV 501 Cinematic Arts Seminar
Units: 1 Max Units: 4.0 Terms Offered: Fa Introduction to an industry and art form in the midst of transformation, with guest speakers and cinematic arts faculty who will address new research and technologies. Instruction Mode: Lecture Grading Option: Credit/No Credit

CNTV 521 The World of the Producer
Units: 4 Terms Offered: FaSp A comprehensive overview of the role of the producer in creating television programming, feature films, and new media content. Instruction Mode: Lecture Grading Option: Letter

CNTV 522 The Television Industry: Networks, Cable and the Internet
Units: 4 Terms Offered: FaSp The current state of the entertainment industry and how to finance feature films. Principles, business practices, and future trends. Instruction Mode: Lecture Grading Option: Letter

CNTV 523 Feature Film Financing and the Studio System
Units: 4 Terms Offered: FaSpAn overview of the motion picture studio system and the impact of digital technologies on the film, television, and music industries from content creation to distribution. Instruction Mode: Lecture Grading Option: Letter

CNTV 524 Digital Technologies and the Entertainment Industry
Units: 4 Terms Offered: FaSp The impact of digital technologies on the film, television, and music industries from content creation to distribution. Instruction Mode: Lecture Grading Option: Letter

Units: 4 Deconstructive analysis of theories of language, representation, selfhood, the human, art and technology, politics and ethics. Study of works by Derrida and others. Instruction Mode: Lecture Grading Option: Letter

COLT 487 Critical Image
Units: 4 Introduction to critical reflection on the image. Analysis of criticism, fiction, film, and visual artifacts. Instruction Mode: Lecture Grading Option: Letter

COLT 490x Directed Research
Units: 1, 2, 3, 4, 5, 6, 7, 8 Max Units: 12.0 Individual research and readings. Not available for graduate credit. Prerequisite: departmental approval. Instruction Mode: Lecture Grading Option: Letter

COLT 495 Senior Honors Thesis
Units: 4 Writing of an honors thesis under individual faculty supervision. Instruction Mode: Lecture Grading Option: Letter

COLT 499 Special Topics
Units: 2, 3, 4 Max Units: 8.0 Intensive study of selected author or authors in the context of a major literary tradition. Instruction Mode: Lecture Grading Option: Letter

COLT 510 Introduction to Translation Studies
Units: 4 Terms Offered: FaSp Introduction to the graduate certificate in Translation Studies; study of canonical works in translation theory. Registration Restriction: Only open to graduate students Instruction Mode: Letter Grading Option: Letter

COLT 511 Translating Race
Units: 4 Max Units: 08 Terms Offered: FaSp Contemporary notions of racial, cultural, and religious difference across languages and history. Recommended Preparation: COLT 510 Registration Restriction: Only open to graduate students Instruction Mode: Lecture Grading Option: Letter Crosslisted as CSLC 510

COLT 512 Literary and Cinematic Translations and Translation
Units: 4 Max Units: 08 Terms Offered: FaSp Introduces key debates regarding translanguaging and translation in postcolonial, comparative, and cross-cultural literary and cinematic contexts. Registration Restriction: Open only to graduate students Instruction Mode: Lecture Grading Option: Letter Crosslisted as CSLC 512

COLT 519 Translation in Theory and Practice
Units: 4 Terms Offered: FaSp Workshop in translation; capstone to graduate certificate in Translation Studies. Registration Restriction: Open only to graduate students Instruction Mode: Lecture Grading Option: Letter Crosslisted as CSLC 519

COLT 525 Studies in Literary and Cultural History
Units: 4 Max Units: 08 Literary and cultural currents from classical antiquity through modernity. Varying focus on specific genres, periods, movements or problematic. Instruction Mode: Lecture Grading Option: Letter Crosslisted as CSLC 525

COLT 545 Studies in Literature and the Other Arts
Units: 4 Max Units: 08 Study of intersections between the literary arts and music, opera, film, theatre, photography, dance or painting. Instruction Mode: Lecture Grading Option: Letter Crosslisted as CSLC 545

COLT 555 Studies in Literatures of the Americas
Units: 4 Max Units: 8.0 Comparative study of literary currents in the U.S., Canada, Latin America, and the Caribbean. Instruction Mode: Lecture Grading Option: Letter Crosslisted as CSLC-555

COLT 565 Studies in Literatures of Asia
Units: 4 Max Units: 8.0 Study of major cultural paradigms and their divergent influences in the literatures of China, Japan, Korea, and Southeast Asia. Instruction Mode: Lecture Grading Option: Letter Crosslisted as CSLC-565

COLT 575 Studies in Literature and Ethnicity
Units: 4 Max Units: 8.0 Study of literary expression in different cultural, racial, or religious communities. Possible focus on African, Asian, Hispanic, or Jewish themes across several national traditions. Instruction Mode: Lecture Grading Option: Letter

COLT 585 Studies in Literature and Gender
Units: 4 Max Units: 8.0 Emphasis on gender difference and sexual difference as signifying categories for literary works, criticism, or theory. Instruction Mode: Lecture Grading Option: Letter

COLT 593 Teaching Practicum for Graduate Students
Units: 2 Terms Offered: FaSp Practical principles for the long-term development of effective teaching within College disciplines. Intended for teaching assistants in Domínske college. Registration Restriction: Open only to Domínside College doctoral students Instruction Mode: Lecture Grading Option: Credit/No Credit

COLT 602 Seminar in Literary Theory
Units: 4 Max Units: 12 Intensive study of a theoretical tradition or critical movement, or of an individual topic or thinker, in literary criticism or theory. Instruction Mode: Lecture Grading Option: Letter Crosslisted as CSLC 602

COLT 620 Seminar in Literature, Culture and Thought
Units: 4 Max Units: 12 Varying focus on social and political thought, psychoanalysis, and philosophy in relation to literary and cultural analysis. Instruction Mode: Lecture Grading Option: Letter Crosslisted as CSLC 620

Communication

COMM 200 Communication and Social Science
Units: 4 Terms Offered: FaSp Social scientific inquiry into human communication; core theories of message production and reception in interpersonal, group and organizational contexts. Instruction Mode: Lecture, Discussion Grading Option: Letter

COMM 203 Communication and Mass Media
Units: 4 Terms Offered: FaSp Survey of mass communication research; history, content, effects, theories and policy implications of various media. Instruction Mode: Lecture, Discussion Grading Option: Letter

COMM 204 Public Speaking
Units: 4 Principles and practices of effective oral communication; analysis of the speaking-listening process; selection and organization of speech materials; use of new presentation technologies. Instruction Mode: Lecture Grading Option: Letter

COMM 205x Communication Practicum
Units: 1, 2 Max Units: 4.0 Students address communication issues in a field setting. They will evaluate communication practices using appropriate methodology. Projects are jointly evaluated by internship supervisor and professor. Instruction Mode: Lecture Grading Option: Credit/No Credit

COMM 260 Communication and Culture
Units: 4 Terms Offered: FaSp Economic and political economic principles for the analysis of communication and media industries including broadcasting, newspapers, motion pictures, music, video games, advertising and public relations. Instruction Mode: Lecture, Discussion Grading Option: Letter Crosslisted as ACAD-206

COMM 299 Communication and Media Economics
Units: 4 Terms Offered: FaSp Economic and political economic principles for the analysis of communication and media industries including broadcasting, newspapers, motion pictures, music, video games, advertising and public relations. Instruction Mode: Lecture, Discussion Grading Option: Letter

COMM 211x Professional Effectiveness Through Third Space Thinking
Units: 2 Terms Offered: FaSp Experiential learning and structured practice to build skills in communication effectiveness, problem solving, decision making and self-awareness. Not for major credit for Communication majors. Credit Restriction: Not available for major credit for communication majors Instruction Mode: Lecture Grading Option: Letter

COMM 300 Entertainment, Communication and Society
Units: 4 Terms Offered: FaSp Theoretical foundation for understanding the construction, consumption, and consequences of entertainment from classical to contemporary times; situates entertainment within the ecology of information and communication. Instruction Mode: Lecture Grading Option: Letter

COMM 301 Lg Empirical Research in Communication
Units: 4 Terms Offered: FaSpSm Experimental and survey methods for communication study; basic statistical concepts, procedures, and tests. Satisfies New General Education in Category F: Quantitative Reasoning Instruction Mode: Lecture, Lab Required Grading Option: Letter

COMM 302 Persuasion
Units: 4 Theories and research in social influence; strategies and tactics of persuasive communications in such settings as politics, public relations, advertising, business. Instruction Mode: Lecture Grading Option: Letter

COMM 303 Learning from Case Studies in Communication
Units: 4 Case study approaches to
communication research; reliability, validity, generalizability, and ethics in qualitative social research; cases in communication policy and practice. Instruction Mode: Lecture Grading Option: Letter

COMM 304 Interpersonal Communication
Units: 4 Analysis of face-to-face interaction; role of communication in the development, maintenance, and destruction of relationships; communication processes in managing interpersonal conflict. Instruction Mode: Lecture Grading Option: Letter

COMM 305 Understanding Social Science Research
Units: 4 Students learn to be consumers rather than creators of social science research. Examines the challenges and opportunities of communicating research through mass media. Instruction Mode: Lecture Grading Option: Letter

COMM 306 Innovation, Entertainment, and the Arts
Units: 4 Terms Offered: FaSp Sm Explorations of innovation in the entertainment business. The effects of digital and social media on TV, movies, music, advertising, social networks and art. Instruction Mode: Lecture Grading Option: Letter Crosslisted as ACAD-306

COMM 307 Sound Clash: Popular Music and American Culture
Units: 4 Music as inter-cultural communication and method for exploring race and ethnicity in the constitution of American culture and American self; role of music industry. Instruction Mode: Lecture Grading Option: Letter

COMM 308 Communication and Conflict
Units: 4 Nature and functions of communication in human conflict; development of communication skills for managing conflict productively in interpersonal, organizational and intercultural contexts. Instruction Mode: Lecture Grading Option: Letter

COMM 309 Communication and Technology
Units: 4 Terms Offered: FaSp Cultural, social, political, and economic dynamics of communication technologies, including internet architecture, social media, participatory cultures, privacy, surveillance, networked journalism, big data, algorithms, online activism. Instruction Mode: Lecture, Discussion Grading Option: Letter

COMM 310 Media and Society
Units: 4 Interplay between media and society, including family and children's socialization, inter-group relations and community, pornography and violence, gender and race, media ethics, conduct of politics. Instruction Mode: Lecture Grading Option: Letter

COMM 311 Rhetoric and the Public Sphere
Units: 4 Terms Offered: FaSp Humanistic approaches to inquiry in communication; qualitative research techniques; core theories of message production and reception in social, political, and mediated contexts. Instruction Mode: Lecture, Discussion Grading Option: Letter

Units: 2 Max Units: 4 Students engage with a community partner, bridging classroom learning with "real world" experiences by working within the diverse community surrounding USC. Instruction Mode: Lecture Grading Option: Letter

COMM 369w Public Diplomacy and Global Citizenship
Units: 4 (Enroll in PUBD 369w)

COMM 371 Media Censorship and the Law
Units: 4 Terms Offered: FaSp The study of current and historical battles over the limits of free expression from press and public parks to television, movies, music, online and social media. Instruction Mode: Lecture

COMM 372 The Image of the Journalist in Popular Culture
Units: 4 (Enroll in JOUR 372)

COMM 373 Media Technologies and Free Speech
Units: 4 Terms Offered: FaSp Exploration of how freedom of speech has been adapted and applied to "new media" from film to computer algorithms and video games. Instruction Mode: Lecture Grading Option: Letter

COMM 375 Business and Professional Communication
Units: 4 Terms Offered: FaSpSm Oral and written communication skills demanded in the workplace including informative and persuasive speeches; interviewing; team communication; and training material preparation. Recommended Preparation: COMM 204. Instruction Mode: Lecture Grading Option: Letter

COMM 381 Issues in Contemporary Sport
Units: 4 Explores social, political and ethical issues in elite sports and how issues are addressed through popular media; examination includes the relationship between sports and politics. Instruction Mode: Lecture Grading Option: Letter

COMM 382 Sports, Business and Media in Today's Society
Units: 4 (Enroll in JOUR 380)

COMM 383m Sports, Communication and Culture
Units: 4 Rhetorical and critical approaches to sports and public discourse; application to sports organizations, the news and popular media; representations of gender and race in sports. Instruction Mode: Lecture Grading Option: Letter

COMM 384 Interpreting Popular Culture
Units: 4 Popular culture as an indicator of cultural values, a producer and reflection of cultural meaning, and a means of communication; theory and case studies. Instruction Mode: Lecture Grading Option: Letter

COMM 385 Organizational Communication
Units: 4 How communication processes both create organizations and are constrained by them. Theory and research into topics such as culture, technology, power, leadership and decision-making in a variety of organizational contexts. Instruction Mode: Lecture Grading Option: Letter

COMM 387 Sports and Social Change
Units: 4 Application of critical, sociological and rhetorical theories to sports events and sport media; examination of the role of sports in enacting social change. Instruction Mode: Lecture Grading Option: Letter

COMM 388 Ethics in Human Communication
Units: 4 Value perspectives on communication in varied settings: interpersonal, organizational, and public. Issues of truth and responsibility in family and social interactions, advertising, and governmental communication. Instruction Mode: Lecture Grading Option: Letter

COMM 390 Special Problems
Units: 1, 2, 3, 4 Supervised, individual studies. No more than one registration permitted. Enrollment by petition only. Instruction Mode: Lecture Grading Option: Letter

COMM 391 Made in Italy: The Marketing of an Ideal
Units: 4 Terms Offered: FaSp Examines case studies on important Italian companies, ranging from the transportation to the luxury goods industries from both an economical and business point of view. Registration Restriction: Open only to Communication, Journalism and Public Relations majors Instruction Mode: Lecture Grading Option: Letter Crosslisted as PR 391

COMM 392 Media and Migration in Times of European Crisis
Units: 4 Terms Offered: FaSp Investigates the implications of the perceptual process of mass media generated immigration discourse in Europe. Registration Restriction: Open only to Communication, Journalism, and Public Relations majors Instruction Mode: Lecture Grading Option: Letter Crosslisted as JOUR 392

COMM 393 The Rhetoric of Rome
Units: 4 Terms Offered: FaSp Examination of the modern city as a communicative text with Rome as the case study. Registration Restriction: Open only to Communication, Journalism, and Public Relations majors Instruction Mode: Lecture Grading Option: Letter

COMM 395m Gender, Media and Communication
Units: 4 Issues of gender in communication, including: media representations of femininity and masculinity; and gender's role in communication at the interpersonal, public, and cultural levels. Instruction Mode: Lecture, Discussion Grading Option: Letter Crosslisted as SWMS 395

COMM 396g Fashion, Media and Culture
Units: 4 Fashion as a form of communication and culture; fashion's role in identity, body politics, art, nationhood, celebrity and Hollywood culture, youth cultures and subversive practices. Satisfies New General Education in Category A: The Arts Instruction Mode: Lecture Grading Option: Letter

COMM 400 Seminar in Communication
Units: 4 Max Units: 12.0 Advanced readings in communication theory and research (broadly defined); specialized interest areas of individual faculty on the frontiers of knowledge; seminar topics change each semester. Instruction Mode: Lecture Grading Option: Letter

COMM 401 Audience Analysis
Units: 4 Examines audience analysis methodologies including focus groups, shadow juries, surveys, test marketing and content analysis; application of
statistical sampling procedures, data analysis, interpretation and presentation. 
Prerequisite: COMM 301Lg. Instruction Mode: Lecture Grading Option: Letter 

COMM 402 Public Communication Campaigns 
Units: 4 Theory and research in public health communication campaigns; design, implementation, and evaluation; extensive discussion of historical case studies and reasons for success or failure. Instruction Mode: Lecture Grading Option: Letter 

COMM 405 From the Ground Up: Communicating About Food 
Units: 4 Terms Offered: Irregular explores food communication as a facilitator of human interaction and cultural diplomacy; controversies regarding food production/consumption; and evolution of food entertainment programming. Instruction Mode: Lecture Grading Option: Letter 

COMM 411 Communication Criticism 
Units: 4 Terms Offered: FaSp Methods and functions of criticism in forms of public communication; historical-contextual, textual and interpretive procedures; divergent theoretical approaches including formalism, dramatism, genre and ideology. Recommended Preparation: COMM 311 Instruction Mode: Lecture Grading Option: Letter 

COMM 412 Communication and Social Movements 
Units: 4 Social and political movements as rhetorical phenomena; ideology, organization, and influence of such movements as civil rights, "New Left," feminism, "New Right," environmentalism. Instruction Mode: Lecture Grading Option: Letter 

COMM 413 Propaganda, Ideology, and Public Controversy 
Units: 4 Terms Offered: FaSp Seminar examining the relationship between propaganda, ideology, critical thinking and rhetoric; application to contemporary controversies, both domestic and global; role of public argument. Instruction Mode: Lecture Grading Option: Letter 

COMM 414 Communication and Social Change in China 
Units: 4 Examines social, political, and cultural implications of media and communication on Chinese society; regulations relevant to Chinese communication; market reforms, telecommunication, Internet and creative industries. Instruction Mode: Lecture Grading Option: Letter 

COMM 415m African American Rhetoric and Image 
Units: 4 Interactive course addresses how people of color use symbols to construct identities and communities and disrupt networks through media, politics, entertainment and technology. Recommended Preparation: COMM 311 Instruction Mode: Lecture Grading Option: Letter 

COMM 417 Global Engagement: Designing Public Diplomacy Strategies 
Units: 4 (Enroll in PUBD 417) 

COMM 418 International Exchanges and Public Diplomacy 
Units: 4 (Enroll in PUBD 418) 

COMM 419 Public Diplomacy in Los Angeles 
Units: 4 (Enroll in PUBD 419) 

COMM 420 Regional Studies in Public Diplomacy 
Units: 4 Max Units: 08 (Enroll in PUBD 420) 

COMM 421 Legal Communication 
Units: 4 Terms Offered: FaSp How lawyers and judges communicate in the courtroom; how legal issues are discussed by lay people; how lawyers and judges are viewed in popular culture. Recommended Preparation: COMM 322 Instruction Mode: Lecture Grading Option: Letter 

COMM 422 Legal Issues and New Media 
Units: 4 Examines laws and regulatory policies shaping new media, especially the Internet; impact of regulation on development and use of communication technology. Instruction Mode: Lecture Grading Option: Letter 

COMM 425 Communicating Religion 
Units: 4 Genres of religious communication, including sermon, prayer, ritual, polemic, and revival. Impact of technological and cultural change on religious advocacy, beliefs, and practices. Instruction Mode: Lecture Grading Option: Letter Crosslisted as REL--425 

COMM 426 Religion, Media and Hollywood: Faith in TV 
Units: 4 How religion, ethics and spirituality are embedded, embodied and emplotted in television drama; how secular texts represent “lived religion” to increasingly diverse audiences. Instruction Mode: Lecture Grading Option: Letter Crosslisted as REL--426 

COMM 427 Topics in Media Economics, Law and Policy 
Units: 4 Max Units: 8 Selected current topics in the overlapping areas of media economics, law, and policy. Instruction Mode: Lecture Grading Option: Letter 

COMM 429 The Internet, Economy, and Society 
Units: 4 Terms Offered: Sp Examines the effects of the Internet on communication industries, the economy, economic policy, and on social, political, and cultural practices. Instruction Mode: Lecture Grading Option: Letter 

COMM 430 Global Entertainment 
Units: 4 Survey of economic, political, and cultural dimensions of the global entertainment marketplace; focuses on the international production and distribution of media products and services. Instruction Mode: Lecture Grading Option: Letter 

COMM 431 Global Strategy for the Communications Industry 
Units: 4 Addresses the practical and theoretical aspects of the international economy that are most relevant to management strategy in the communications industry. Instruction Mode: Lecture Grading Option: Letter 

COMM 432 American Media and Entertainment Industries 
Units: 4 Examines the history, technology, regulations and business practices of American broadcast and entertainment industries. Instruction Mode: Lecture Grading Option: Letter 

COMM 433 Home Entertainment: From Networks to Streaming 
Units: 4 Terms Offered: FaSp History and impact of television and ancillary home entertainment (pay television, cable television, home video, DVD, DVR, video-on-demand, games, streaming, etc.) on media industries, devices and consumer experience. Instruction Mode: Lecture Grading Option: Letter 

COMM 434 Italian Media: Popes, Politicians, and Popular Culture 
Units: 4 Terms Offered: FaSp Provides an overview of 2,000 years of Italian-style communications, from Julius Caesar to Machiavelli, Mussolini and the Mafia. Instruction Mode: Lecture Grading Option: Letter 

COMM 440 Music as Communication 
Units: 4 Examines music’s unique characteristics as a communicative form and the cultural, economic, political and social influences in music interpretation and production. Instruction Mode: Lecture Grading Option: Letter 

COMM 443 Communicating Better Health: What Works and Why 
Units: 4 Terms Offered: Sp How communication -- interpersonal, mass media, information technologies -- shapes health behavior. Topics: doctor-patient consultations; marketing campaigns; health in entertainment, news; internet; social media; mobile devices. Instruction Mode: Lecture Grading Option: Letter Crosslisted as HP 443 

COMM 444 Critical Theories of Sport 
Units: 4 Examines issues in the overlapping areas of media and broadcast platforms. Instruction Mode: Lecture Grading Option: Letter 

COMM 445 Global Networks of Sport 
Units: 4 Examines networks, technologies, and cultural implications of media and broadcast platforms. Instruction Mode: Lecture Grading Option: Letter 

COMM 449 Perspectives on the Networked Press 
Units: 4 Critical survey of the forces defining today’s networked press, examining the people, technologies, and institutions that produce news in today’s online environments. Recommended Preparation: COMM 309 Instruction Mode: Lecture Grading Option: Letter 

COMM 450 Visual Culture and Communication 
Units: 4 Examines issues of visual images in communication related to history, modernity, cityscapes, news media, advertising, evidence, science, digital technology, and globalization. Instruction Mode: Lecture Grading Option: Letter 

COMM 451 Visual Communication and Social Change 
Units: 4 Analysis of photography’s evolution; new strategies for the photographic image, photo documentary work and global social issues; analysis of images on blogs and Websites. Instruction Mode: Lecture Grading Option: Letter 

COMM 454 Media, Money, and Society 
Units: 4 Money as communication; social

</table>
emphasize on dictamin, praedicandi, poetriae, Alquin, Ramus, Port-Royalists, Bacon, Campbell, Blair, and Whately. 

Instruction Mode: Lecture Grading Option: Letter

COMM 514x Social Movements as Rhetorical Form
Units: 4 Study of the rhetoric of social change; methodologies for analysis and appraisal; investigation of specific collective protest and reform movements. Instruction Mode: Lecture Grading Option: Letter

COMM 515x Postmodern Rhetorical Theory
Units: 4 Implications of postmodernity for rhetorical theory and criticism; issues of textuality, agency, and subjectivity in communication; study of selected postmodern figures. Instruction Mode: Lecture Grading Option: Letter

COMM 516x Feminist Theory and Communication
Units: 4 Implications of feminist theory for communication; topics include epistemology, critique of science/technology, women and language, feminist approaches to media and film, women and the workplace. Instruction Mode: Lecture Grading Option: Letter Crosslisted as SWMS-516

COMM 517x Rhetorical Theory and Culture
Units: 4 Issues of culture in recent rhetorical theory; in-depth examination of representative idealist, pragmatist, structuralist, critical, and post-modern accounts of the symbolic construction of cultural forms. Instruction Mode: Lecture Grading Option: Letter

COMM 518x American Public Address
Units: 4 History and criticism of major American speakers and speeches with reference to the social, political, and intellectual background of their times. Instruction Mode: Lecture Grading Option: Letter

COMM 519x Cultural Studies in Communication
Units: 4 Theoretical foundations, history, and development of cultural studies in communication; implications of issues of nationalism, colonialism, technologies, popular culture, and politics of bodies for communication. Instruction Mode: Lecture Grading Option: Letter

COMM 520 The Rhetoric of the Presidential Campaign Trail
Units: 4 Students follow the ongoing presidential campaign and consider topics such as gender, race, new media, polling, religion, and advertising on election outcomes. Instruction Mode: Lecture Grading Option: Letter

COMM 521x Argumentation
Units: 4 Foundation of critical deliberation; the nature of informal reasoning; logical and ethical problems; analysis and appraisal of naturalistic argument. Instruction Mode: Lecture Grading Option: Letter

COMM 522x Kenneth Burke’s Dramatic Theory
Units: 4 Studies the contributions of Kenneth Burke, among the most significant figures in the development of contemporary rhetorical theory and criticism. Instruction Mode: Lecture Grading Option: Letter

COMM 524x Small Group Process
Units: 4 Contemporary theoretical models; problems in determination and measurement of variables in small group communication environments; assessment of recent research. Instruction Mode: Lecture Grading Option: Letter

COMM 525x Humanistic and Social Scientific Approaches to Human Communication
Units: 4 Overview of the humanistic and social scientific approaches to the study of communication; emphasis on rhetorical/critical and macro social scientific perspectives. Instruction Mode: Lecture Grading Option: Letter

COMM 526x Humanistic and Social Scientific Approaches to Human Communication II
Units: 4 Overview of the humanistic and social scientific approaches to the study of communication; emphasis on macro and micro social scientific, symbolic and structural perspectives. Instruction Mode: Lecture Grading Option: Letter

COMM 546 The Political Economy of Innovation
Units: 4 How does innovation occur and spread? How has innovation changed over time? Instruction Mode: Lecture Grading Option: Letter

COMM 550 Quantitative Research Methods in Communication
Units: 4 Epistemological assumptions, design, and beginning methods of quantitative analysis in communication research. Instruction Mode: Lecture Grading Option: Letter

COMM 551x Qualitative Research Methods in Communication
Units: 4 Developing expertise in qualitative methods, including participant-observation, ethnography, discourse analysis and historiography in communication research. Instruction Mode: Lecture Grading Option: Letter

COMM 553 Global Internet Governance
Units: 4 Terms Offered: FaSp Explores cybersecurity, privacy, network neutrality and other critical issues in internet governance through the lenses of international political economy and media theories. Instruction Mode: Lecture Grading Option: Letter Crosslisted as IR 553

COMM 554 Regression and Multivariate Communication Research
Units: 4 Advanced analysis of variance, regression models, path analysis, MANOVA, and discriminant analysis. Instruction Mode: Lecture Grading Option: Letter

COMM 556 Advanced Methods in Communication Research
Units: 4 Structural Equation Modeling, LISREL, log linear and other advanced statistical methods used in contemporary communication research. Instruction Mode: Lecture Grading Option: Letter

COMM 557 Data Science for Communication and Social Networks
Units: 4 Terms Offered: FaSp Learn to harness the power of data science and computational techniques to study social and communication networks and extract value, knowledge and insights from big data. Recommended Preparation: DSCI 552 Instruction Mode: Lecture Grading Option: Letter

COMM 559 Globalization, Communication and Society
Units: 4 Comparative analysis of social, cultural and political impacts of communication technology and media; emphasis given to communication’s influence in the social dimensions of globalization. Instruction Mode: Lecture Grading Option: Letter

COMM 560 Global Media and Communication in China and Asia
Units: 4 The characteristics of global communication in global capitalism and the political economic processes within which policies, interests, and implications of global communication are embedded. Instruction Mode: Lecture Grading Option: Letter

COMM 561 Leading and Communicating Change in Global Organizations
Units: 4 Communication perspectives on the process and outcomes of globalization; role of large media organizations in the global flow of information; and leadership and multiculturalism. Instruction Mode: Lecture Grading Option: Letter

COMM 563 Black Popular Culture: Theory and Central Debates
Units: 4 Examines black popular cultures as indexes for historical struggles over race, gender, nationalism, identity, subjectivity, aesthetics, institutional resources, political/cultural autonomy, and ideology. Instruction Mode: Lecture Grading Option: Letter

COMM 564 Communication, Culture and Capitalism
Units: 4 A survey of scholarship about the relationship between money and culture, with emphasis on poststructural accounts of neoliberalism. Instruction Mode: Lecture Grading Option: Letter

COMM 566 Using Theory to Craft Policies to Affect Change
Units: 4 Review path-breaking ideas from Nobel-winning economists; examine specific cases, trying to understand the process by which markets and institutions transform ideas into results. Instruction Mode: Lecture Grading Option: Letter

COMM 567 The Political Economy of Privacy and Cybersecurity
Units: 4 Considers the challenges of maintaining and protecting privacy while improving cybersecurity in the United States and globally. Instruction Mode: Lecture Grading Option: Letter

COMM 570 Economics of the Communication Industries
Units: 4 The economic forces that determine the structure and outputs of communication and media industries, including newspapers, broadcasting, cable, and telecommunications. Instruction Mode: Lecture Grading Option: Letter

COMM 572 Theories of Computer-Mediated Communication
Units: 4 Selected topics in the study of new technologies for human communication: adoption of CMC technologies; social networking; self-presentation and impression formation in CMC; online friendships. Instruction Mode: Lecture Grading Option: Letter
COMM 573 Networked Publics: Theories and Encounters
Units: 4 Examines models of a democratic public sphere, with special focus on design and use of networked information infrastructures supporting free speech. Instruction Mode: Lecture Grading Option: Letter

COMM 574 Science and Technology Studies for Communication and Media
Units: 4 Introduction to the field of Science and Technology Studies; examines sociotechnical models of knowledge, power and society as related to communication and society as related to communication. Instruction Mode: Lecture Grading Option: Letter

COMM 575 Advocacy and Social Change in Entertainment and the Media
Units: 4 Examines how diverse groups (i.e., governmental agencies, advertisers, health organizations, advocacy groups, actors, social scientists) attempt to influence audiences through entertainment and traditional media channels. Instruction Mode: Lecture Grading Option: Letter

COMM 576 Civic Media and Participatory Politics
Units: 4 Examines tools and practices enabling activists to exert voice and influence public policies; ways citizens are working to meet the information needs of their communities. Instruction Mode: Lecture Grading Option: Letter

COMM 577 Fandom, Participatory Culture and Web 2.0
Units: 4 Emerging models of audience engagement and participation in a networked media. Instruction Mode: Lecture Grading Option: Letter

COMM 578 New Media Literacies
Units: 4 Examines intersection of education and participatory culture, literacy and media change, the participation gap, informal learning and knowledge communities, emerging social skills and cultural competencies. Instruction Mode: Lecture Grading Option: Letter

COMM 579 Entrepreneurship in the New Media
Units: 4 Examination of how the digital revolution is creating news media entrepreneurs, and changing the way news is disseminated by journalists and heard by consumers. Instruction Mode: Lecture Grading Option: Letter

COMM 580 Media and Politics
Units: 4 Mass media in American political life, including political reporting, election campaigns, non-electoral politics, and the media as a political issue. Instruction Mode: Lecture Grading Option: Letter

COMM 582 Information and Communication Technology for Development
Units: 4 Roles of media institutions and communications behavior in national development, including political, economic, and social spheres; Western and non-Western conceptions of development processes. Instruction Mode: Lecture Grading Option: Letter

COMM 585x Organizational Communication
Units: 4 Theory and research; field experience, analyzing and solving communication problems in organizations. Instruction Mode: Lecture Grading Option: Letter

COMM 590 Directed Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Research leading to the master’s degree. Maximum units which may be applied to the degree to be determined by the school. Duplicates Credit in former COMM 590. Instruction Mode: Lecture Grading Option: Credit/No Credit

COMM 594a Master’s Thesis
Units: 2 Credit on acceptance of thesis. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

COMM 594b Master’s Thesis
Units: 2 Credit on acceptance of thesis. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

COMM 594z Master’s Thesis
Units: 0 Credit on acceptance of thesis. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

COMM 598 Practicum in Global Communication
Units: 4 Terms Offered: Sp Development and assessment of research into global communication; selection of appropriate research methodologies; production of scholarly research; and completion of an internship/practicum. Registration Restriction: Open only to Global Communication master students. Instruction Mode: Lecture Grading Option: Letter

COMM 599 Special Topics
Units: 2, 3, 4 Max Units: 8.0 Instruction Mode: Lecture Grading Option: Letter

COMM 602 Seminar in Persuasion
Units: 4 Classical and contemporary theories of persuasion, attitude formation and change; impact of cognition, affect and emotions; cultural and group influences; message strategies and framing. Instruction Mode: Lecture Grading Option: Letter

COMM 605 Advanced Macro Theories of Communication
Units: 4 Advanced macro theories of communication and culture creation/ change; emphasis on structural-functionalism, neo-Marxism, critical theory, symbolic interactionism, phenomenology, post-structuralism, deconstruction. Instruction Mode: Lecture Grading Option: Letter

COMM 610 Studies in Rhetorical Theory
Units: 4 Max Units: 12.0 Problems in rhetorical theory and criticism; advanced, specialized interest areas of individual faculty on the frontiers of knowledge. Instruction Mode: Lecture Grading Option: Letter

COMM 611 Communication Technology and Healthcare
Units: 4 Impact on healthcare and patient empowerment of new communication technologies including social media and mobile communications, online interventions, syndromic surveillance, user-generated reviews, electronic health records. Instruction Mode: Lecture Grading Option: Letter

COMM 612 Designing Health Communication Interventions
Units: 4 Effectively changing health outcomes for target population using games, mobile and online interventions; formative and summative evaluation; virtual environments for fMRI studies. Instruction Mode: Lecture Grading Option: Letter

COMM 613 Grant Writing in Communication
Units: 4 Finding the right grant; how to develop theory, optimize funding, write critical components of grants, form collaborations with experts; how review panels work. Instruction Mode: Lecture Grading Option: Letter

COMM 614 Computational Approaches in Health Communication
Units: 4 Statistical and computational approaches to health communication data; better understanding, using simulations, of how theory might better guide empirical research. Instruction Mode: Lecture Grading Option: Letter

COMM 615 Health Communication
Units: 4 Evaluation of research about communication in patient care, health campaigns for diverse publics, tools for disease management, and outreach to producers in mass media. Instruction Mode: Lecture Grading Option: Letter

COMM 616 Health Communication for Prevention
Units: 4 Examination of health communication efforts for the prevention of diseases or other adverse physical or mental health outcomes by the promotion of behavior change. Instruction Mode: Lecture Grading Option: Letter

COMM 618 Mass Media Effects
Units: 4 Theoretical and research questions about mass communication effects; criticism and interpretation of current research and theory, and formulation of new theory. Instruction Mode: Lecture Grading Option: Letter

COMM 620 Studies in Communication Theory
Units: 4 Max Units: 12.0 Current problems in communication theory and research; advanced, specialized interest areas of individual faculty on the frontiers of knowledge. Instruction Mode: Lecture Grading Option: Letter

COMM 629 Global Culture
Units: 4 Examines the relationship of culture to globalization, ranging from nationalism and colonialism to global cultural products, multinational cultural production, diasporic cultures, global media, and cosmopolitanism. Instruction Mode: Lecture Grading Option: Letter

COMM 630 Communication Technology and Social Change
Units: 4 Impact of technological advances on human communication practices and theories; trends, forecasts, implications. Instruction Mode: Lecture Grading Option: Letter

COMM 635 Economies of Information
Units: 4 Applications of macro and microeconomic principles: economic role of the information sector; production, distribution, and pricing of information products; innovation in the functioning of
markets. **Instruction Mode:** Lecture  
**Grading Option:** Letter

**COMM 636 Interpretive and Cultural Approaches in Organizational Communication**  
**Units:** 4  
Interpretive, critical and cultural research in organizational communication; emphasis on narrative approaches to ethnographic studies, critical essays, and quantitative intercultural research in organizational communication. **Instruction Mode:** Lecture  
**Grading Option:** Letter

**COMM 637 Current Readings in Organizational Communication**  
**Units:** 4  
Recent developments in organizational communication theory and research; emerging issues and methodologies; future directions. **Instruction Mode:** Lecture  
**Grading Option:** Letter

**COMM 638 Global, International and Intercultural Communication in Organizations**  
**Units:** 4  
Communication processes in global organizational transformation; influences of information technology, intercultural variables, and globalization on decision-making, operations and practices of international and transnational organizations. **Instruction Mode:** Lecture  
**Grading Option:** Letter

**COMM 640 Communication and Organizational Change**  
**Units:** 4  
Analysis of communication and information networks in organizations and their relationships with communication technologies, organizational behavior, and management. **Instruction Mode:** Lecture  
**Grading Option:** Letter

**COMM 641 Organizations and Communication Technologies**  
**Units:** 4  
Communication technology impacts on organizations; organizational influence on technology development and deployment; methods for organizational communication technology studies; critiques and implications for theory and research. **Instruction Mode:** Lecture  
**Grading Option:** Letter

**COMM 645 Communication Networks**  
**Units:** 4  
Conceptual and analytic issues in network perspectives; emphasis on communication patterns, processes, content, influences and impacts. **Instruction Mode:** Lecture  
**Grading Option:** Letter

**COMM 647 Network Society**  
**Units:** 4  
Advanced research seminar examining the interaction between communication technology, society, economy, politics and culture from interdisciplinary and cross-cultural perspectives. **Instruction Mode:** Lecture  
**Grading Option:** Letter

**COMM 648 Online Communities and Networks**  
**Units:** 4  
Examination of academic research on the social, cultural, political, and economic effects of online communities; policy ramifications of this research; mobile technology's role in community building. **Instruction Mode:** Lecture  
**Grading Option:** Letter

**COMM 649 Methodologies in Cultural Studies**  
**Units:** 4  
**Terms Offered:** FaSp  
Exploration of theoretical, technical, and political implications of cross-disciplinary scholarship rooted in cultural studies. **Instruction Mode:** Lecture  
**Grading Option:** Letter

**COMM 650 Survey Construction and Validation**  
**Units:** 4  
Principles of survey construction and validation; format selection, sampling, question wording, adaptation for international audiences, response option formats, order, and avoiding acquiescence bias and breakoffs. **Instruction Mode:** Lecture  
**Grading Option:** Letter

**COMM 651 Experimental and Quasi-Experimental Designs**  
**Units:** 4  
Advantages and drawbacks to experimental designs and quasi experimental designs for social research and theory building. Emphasis on how to design and report experiments. **Instruction Mode:** Lecture  
**Grading Option:** Letter

**COMM 652 Ethnographic Field Research in Communication**  
**Units:** 4  
**Terms Offered:** FaSp  
Explores ethnography as research mode including theory and practice of ethnographic research; epistemological and political underpinnings of ethnographic research. **Instruction Mode:** Lecture  
**Grading Option:** Letter

**COMM 653 Research, Practice and Social Change**  
**Units:** 4  
Examination of theoretical models and best practices of academic research and advocacy relationships; students conduct a community-based research project using a model of community-based participatory research. **Instruction Mode:** Lecture  
**Grading Option:** Letter

**COMM 654 Art, Artists and Society**  
**Units:** 4  
Cultural and temporal differences in defining arts, artists and audiences; transmitting cultural beliefs through art; understanding aesthetic responses; experiences of alienation and incomprehension with art. **Instruction Mode:** Lecture  
**Grading Option:** Letter

**COMM 655 Studies in Sound, Music and Communication**  
**Units:** 4  
An introduction to listening as a methodology of critical practice. Key topics in the study and interpretation of sound and music as forms of communication. **Instruction Mode:** Lecture  
**Grading Option:** Letter

**COMM 656 Theorizing Race, Culture, Cross-Cultural Exchange**  
**Units:** 4  
Intersection of communication and culture; focus on race, ethnicity, intercultural and intraracial relations in shaping political, social dynamics of U.S. in late 20th and early 21st centuries. **Instruction Mode:** Lecture  
**Grading Option:** Letter

**COMM 657 Critical Theories of Race and Culture**  
**Units:** 4  
**Terms Offered:** FaSp  
Examines the historical emergence of ideas about race, modernity and colonialism and the role of culture in shaping how we understand race today. **Instruction Mode:** Lecture  
**Grading Option:** Letter  
*Crosslisted as AMST 657, SOCI 659*

**COMM 660 Entertainment and Games**  
**Units:** 4  
**Terms Offered:** FaSp  
Contemporary meaning of "entertainment," historical and cultural developments of entertainment; entertainment as psychological process of responding to/interactive with various media. **Instruction Mode:** Lecture  
**Grading Option:** Letter

**COMM 662 Video Games Research**  
**Units:** 4  
History and concepts of video game design and selection, reception and reaction processes, and effects of video games; students conduct original research into video game usage and effects. **Instruction Mode:** Lecture  
**Grading Option:** Letter

**COMM 670 Economic Cultures**  
**Units:** 4  
Explores and analyzes the interaction between culture and economy by observing different types of economic practices. **Instruction Mode:** Lecture  
**Grading Option:** Letter

**COMM 672 Experiments in Critical Writing**  
**Units:** 4  
Seminar and workshop dedicated to the practice of critical non-fiction writing, and the role of the creative impulse in scholarly criticism and print journalism. **Instruction Mode:** Lecture  
**Grading Option:** Letter

**COMM 673 Public Intellectuals**  
**Units:** 4  
Terms Offered: FaSp  
Explores alternative genres of public-facing writing (blog posts, interviews, op-eds, policy statements, multimedia publishing); considers exemplars of academics engaging with the public. **Instruction Mode:** Lecture  
**Grading Option:** Letter

**COMM 675 Independent Study**  
**Units:** 1, 2, 3, 4  
A supervised course tailored to specific student interests. The professor and student develop a syllabus that permits exploration of advanced or specialized topics. **Instruction Mode:** Lecture  
**Grading Option:** Credit/No Credit

**COMM 694 Preliminary Research Paper**  
**Units:** 2  
Independent research designed to demonstrate the student's ability to conceptualize, conduct, and present scholarly research. **Instruction Mode:** Lecture  
**Grading Option:** Credit/No Credit

**COMM 794a Doctoral Dissertation**  
**Units:** 2  
Credit on acceptance of dissertation. **Instruction Mode:** Lecture  
**Grading Option:** In-progress to Credit/No Credit

**COMM 794b Doctoral Dissertation**  
**Units:** 2  
Credit on acceptance of dissertation. **Instruction Mode:** Lecture  
**Grading Option:** In-progress to Credit/No Credit

**COMM 794c Doctoral Dissertation**  
**Units:** 2  
Credit on acceptance of dissertation. **Instruction Mode:** Lecture  
**Grading Option:** In-progress to Credit/No Credit

**COMM 794d Doctoral Dissertation**  
**Units:** 2  
Credit on acceptance of dissertation. **Instruction Mode:** Lecture  
**Grading Option:** In-progress to Credit/No Credit

**COMM 794 Preliminary Research Paper**  
**Units:** 2  
Supervised research to demonstrate the student's ability to conceptualize, conduct, and present scholarly research. **Instruction Mode:** Lecture  
**Grading Option:** Credit/No Credit

**COMM 794 Independent Study**  
**Units:** 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12  
Research leading to the doctorate. Maximum units which may be applied to the degree to be determined by the school. **Instruction Mode:** Lecture  
**Grading Option:** Credit/No Credit

**COMM 794 Doctoral Dissertation**  
**Units:** 2  
Credit on acceptance of dissertation. **Instruction Mode:** Lecture  
**Grading Option:** Credit/No Credit
COMM 794z Doctoral Dissertation
Units: 0 Credit on acceptance of dissertation. Instruction Mode: Lecture
Grading Option: In-progress to Credit/No Credit

Thematic Option
CORE 101g Symbols and Conceptual Systems: Thematic Option Honors Program
Units: 4 Terms Offered: FaSp Study of the structures through which we shape our experiences in religion, philosophy, literature, music, and the visual arts, and of competing theories of interpretation. Satisfies New General Education in B Humanistic Inquiry Instruction Mode: Lecture, Discussion, Lab Grading Option: Letter

CORE 102gp Culture and Values: Thematic Option Honors Program
Units: 4 Terms Offered: Fa Systematic reasoning about values and ways of living; close reading of major texts within the Western tradition; Biblical and classical through contemporary sources. Satisfies New General Education in Category B: Humanistic Inquiry Satisfies Global Perspective in Category H: Traditions and Historical Foundations Instruction Mode: Lecture, Discussion, Lab Grading Option: Letter

CORE 103g The Process of Change in Science: Thematic Option Honors Program
Units: 4 Terms Offered: FaSp Critical problems in the development of scientific thought, studied as vehicles for understanding the content and structure of the sciences. Specific subject matter in selected scientific disciplines will be presented. Satisfies New General Education in Category D: Life Sciences Instruction Mode: Lecture, Discussion, Lab Grading Option: Letter

CORE 104gw Change and the Future: Thematic Option Honors Program
Units: 4 Terms Offered: FaSp Analysis of historical change; social and political theory and revolutionary thought; introduction to competing images of future states of affairs; the continuing process of change. Satisfies New General Education in Category C: Social Analysis Satisfies Global Perspective in Category G: Citizenship in a Diverse World Instruction Mode: Lecture, Discussion, Lab Grading Option: Letter

CORE 111 Writing Seminar I: Thematic Option Honors Program
Units: 4 Terms Offered: Fa Instruction Mode: Lecture Grading Option: Letter

CORE 112 Writing Seminar II: Thematic Option Honors Program
Units: 4 Terms Offered: Sp Instruction Mode: Lecture Grading Option: Letter

CORE 195 Summer Seminar
Units: 3 Terms Offered: Sm An honors course for high school students in summer; each section focuses on a topic in the arts or humanities, social or natural sciences. Instruction Mode: Lecture Grading Option: Letter

CORE 200 Liberal Arts Reading Salon
Units: 2 Terms Offered: FaSp Critical readings of a series of texts in the liberal arts designed to promote discussion of important themes, theoretical approaches, research directions, and interdisciplinary connections. Instruction Mode: Lecture Grading Option: Credit/No Credit

CORE 301 Modes of Inquiry
Units: 4 Terms Offered: FaSp Modern tools of cultural and discursive analysis which seek to demystify “the natural,” as it appears in the formation of cultures, their institutions, and individuals. Instruction Mode: Lecture Grading Option: Letter

CORE 400 Capstone
Units: 2 Guided study of select works of classical literature in relation to contemporary issues and concerns. Capstone for minor in Classical Perspectives. Recommended Preparation: completion of at least 10 units towards the Classical Perspectives minor, including CORE 200 Registration Restriction: registration requires departmental approval (D-clearance) Instruction Mode: Lecture Grading Option: Letter

CORE 401x Ethics and Leadership
Units: 4 Terms Offered: FaSpSm Debates concerning moral and cultural ethics in a globalizing world; paradigms of leadership, ethical conduct, moral courage, and humanitarianism. Instruction Mode: Lecture Grading Option: Credit/No Credit

CORE 450 Los Angeles: A Polymathic Inquiry
Units: 2, 4 Max Units: 4 Terms Offered: FaSp A guided polymathic inquiry into Los Angeles as fact and imaginative creation, featuring in-depth student research and projects. Instruction Mode: Lecture Grading Option: Letter

CORE 499 Special Topics
Units: 2, 3, 4 Max Units: 8.0 Intensive interdisciplinary exploration of a selected theme, problem process, or period. Instruction Mode: Lecture Grading Option: Letter

CORE 601 Teaching Analytical Writing Through Readings in the Humanities
Units: 1 Max Units: 4.0 Terms Offered: Fa Theories and practices in the university-level teaching of close-reading and analytical writing, using texts central to Western tradition. Graduate student professionalism through topical workshops and discussions. Instruction Mode: Lecture Grading Option: Credit/No Credit

School of Art and Design (Critical Studies)
CRIT 150gp Histories of Art, Design and Visual Culture
Units: 4 Terms Offered: FaSp A loosely chronological, thematic survey of art, visual culture, design, and critical theory from the early modern period through modernism (1500 – 1950). Satisfies New General Education in Category A: The Arts Satisfies Global Perspective in Category H: Traditions and Historical Foundations Duplicates Credit in former FACS 150 Instruction Mode: Lecture, Discussion Grading Option: Letter

CRIT 160g Critical Theory in Art, Design and Visual Culture
Units: 4 Terms Offered: FaSp An issues-based introduction to critical theory in the twentieth and twenty-first centuries, especially as it relates to philosophy, art, design, and visual culture. Recommended Preparation: CRIT 150 Satisfies New General Education in Category B: Humanistic Inquiry Registration Restriction: Open only to Roski Art majors and minors Instruction Mode: Lecture, Discussion Grading Option: Letter

CRIT 350gw Global Art, Design and Visual Culture since 1960
Units: 4 Terms Offered: FaSp A critical history of art, design, visual culture, and visual theory since 1960, addressing through a postcolonial/decolonial lens the concepts and practices of “global” art. Recommended Preparation: CRIT 150g and CRIT 160g Satisfies New General Education in Category B: Humanistic Inquiry Satisfies Global Perspective in Category G: Citizenship in a Diverse World Registration Restriction: Open only to Roski Art majors and minors Duplicates Credit in former FA 350 Instruction Mode: Lecture, Discussion Grading Option: Letter

CRIT 371 Art in the Public Realm: Contemporary Issues
Units: 4 Terms Offered: FaSpSm Critical frameworks and theoretical perspectives of contemporary public art issues explored through case studies and discussions with artists, architects, and designers engaging the public realm. Duplicates Credit in former PAS 371. Instruction Mode: Lecture Grading Option: Letter

CRIT 410 Theory and Design: Deconstruction
Units: 4 Terms Offered: FaSp Addresses overlapping issues in contemporary design and art relating to activism, audience and technologies of making and dissemination. Recommended Preparation: CRIT 150g, CRIT 160g and CRIT 350gw, or permission of instructor Instruction Mode: Lecture Grading Option: Letter

CRIT 415 Performance: Event, Action, Situation
Units: 4 Terms Offered: FaSpSm Focused exploration of the role of the body in performance, action and the question of the "event" in contemporary art and design. Recommended Preparation: CRIT 150gp, CRIT 160g, CRIT 350gw or permission of instructor Instruction Mode: Lecture Grading Option: Letter

CRIT 420 The Artist: As Contemporary Subject in Popular Culture
Units: 4 Terms Offered: FaSp Addresses relationships among contemporary art, design and popular culture, with a focus on specific visual media and their histories. Recommended Preparation: CRIT 150gp, CRIT 160g, CRIT 350gw or permission of instructor Instruction Mode: Lecture Grading Option: Letter

CRIT 425 Identity and Visual Representation
Units: 4 A critical study of the relationship between identity or coalitional politics and specific practices, meanings, and sitings of contemporary art and design. Recommended Preparation: CRIT 150gp, CRIT 160g, CRIT 350gw or permission of instructor Instruction Mode: Lecture Grading Option: Letter

CRIT 430 Undergrounds and Avant-Gardes: Experimental Art, Design and Film
Units: 4 Terms Offered: FaSpSm Study of theories of critique or resistance in art and cultural studies, particularly in relation to developments in contemporary art,
design and popular culture. Recommended Preparation: CRIT 150g, CRIT 160g, CRIT 350g or permission of instructor Instruction Mode: Lecture Grading Option: Letter

CRIT 435 Alternative Spaces: Art, Design and Visual Culture
Units: 4 Terms Offered: FaSpSm Histories of art and design from alternative points of view, exposing the limits of conventional histories of art and design. Recommended Preparation: CRIT 150g, CRIT 160g, CRIT 350g or permission of instructor Instruction Mode: Lecture Grading Option: Letter

CRIT 440 Curatorial Issues: from the Art Gallery to Social Media
Units: 4 Terms Offered: FaSpSm History and theory of curating, exhibitions, and museums, critically examining the historical structures and current politics informing contemporary practices and institutions. Recommended Preparation: CRIT 150g, CRIT 160g, CRIT 350g or permission of instructor Instruction Mode: Lecture Grading Option: Letter

CRIT 450 Visualizing the City: Los Angeles
Units: 4 Terms Offered: FaSpSm Explores the relationships among art, design, visual culture, urban spaces and institutions, through urban, social and visual theory. Recommended Preparation: CRIT 150g, CRIT 160g, CRIT 350g or permission of instructor Instruction Mode: Lecture Grading Option: Letter

CRIT 455 Digital Media, Art and Theory
Units: 4 Terms Offered: FaSpSm Art investigation into the non-indexical or non-photographic moving image and the expanded field of digital media in the 21st century starting with animation. Recommended Preparation: Basic understanding of 20th century art history and some experience reading and discussing critical theory Instruction Mode: Lecture Grading Option: Letter

CRIT 499 Special Topics
Units: 1, 2, 3, 4, 5, 6, 7, 8 Max Units: 8.0 Terms Offered: FaSpSm Comprehensive exploration of particular aspects of public art. Duplicates Credit in former PAS 499. Instruction Mode: Lecture Grading Option: Letter

CRIT 500 Theory and History of Performance Studies
Units: 4 Terms Offered: FaSp Exploration of the various theories and methodologies associated with performance and visual studies. Units are interrelated with the histories of practice in these fields. Registration Restriction: Open only to graduate students Instruction Mode: Lecture Grading Option: Letter

CRIT 510 History and Theory of Art and Exhibitions
Units: 4 Terms Offered: Fa Gives broad and deep overview of history of "art" as a conceptual and practical category, emphasizing development of exhibitionary sites and engagement with public sphere. Instruction Mode: Lecture Grading Option: Letter

CRIT 512 Art and Curatorial Visits
Units: 2 Terms Offered: Fa Site visits relating to art and curatorial practices, from art museums and artists' studios to public art offices and performance venues, and meet professionals. Instruction Mode: Lecture Grading Option: Letter

CRIT 515 Visiting Artist and Scholar Seminar
Units: 2 Max Units: 4.0 Terms Offered: FaSp The history and theory of identity politics in relation to performance and performativity, with a focus on post-1950 Euro-American culture. Instruction Mode: Lecture Grading Option: Letter

CRIT 520 Performing Identity
 Units: 4 Terms Offered: FaSpSm The history and theory of identity politics in relation to performance and performativity, with a focus on post-1950 Euro-American culture. Instruction Mode: Lecture Grading Option: Letter

CRIT 525 Making and Curating Art: Pedagogy and Praxis
Units: 4 Terms Offered: Sp Provides students with a foundation in the history and theory of studio art and curatorial education and develops their teaching skills in these areas. Instruction Mode: Lecture Grading Option: Letter Crosslisted as ART-525

CRIT 530 Art and Globalization
Units: 4 Terms Offered: SpSm (Enroll in ART 530)

CRIT 540 Contemporary Asian Art
Units: 4 Terms Offered: FaSpSm Explores contemporary Asian art and visual culture in global contexts. Instruction Mode: Lecture Grading Option: Letter

CRIT 550 Contemporary Art and its Publics
Units: 4 Terms Offered: FaSpSm Contemporary art practices and issues of display, exhibition, dissemination, community and audience, in relation to art and politics. Instruction Mode: Lecture Grading Option: Letter

CRIT 555 Methods of Curating: Introduction to Curatorial Practicum
Units: 4 Terms Offered: Sp First in a sequence of three courses on history/ theory of curatorial methods, with practical experience necessary to mounting exhibitions and devising interfaces with the public. Duplicates Credit in PAS 555a. Instruction Mode: Lecture Grading Option: Letter

CRIT 556 Curatorial Practicum: Individual/Group Projects
Units: 4 Terms Offered: Fa Second in a sequence of three courses on history/ theory of curatorial methods, with practical experience necessary to mounting exhibitions and devising interfaces with the public. Prerequisite: CRIT 555. Duplicates Credit in PAS 555b. Instruction Mode: Lecture Grading Option: Letter

CRIT 557 Curatorial Practicum: Group Project Summation
Units: 4 Terms Offered: Sp Third in a sequence of three courses on history/ theory of curatorial methods, with practical experience necessary to mounting exhibitions and devising interfaces with the public. Prerequisite: CRIT 556. Duplicates Credit in PAS 555c. Instruction Mode: Lecture Grading Option: Letter

CRIT 560 Visual Theory/Performance Theory
Units: 4 Terms Offered: FaSp Exploration of interrelated themes that examine how the time-based art of theatre intersects with other art forms and surpasses its preexisting boundaries. Registration Restriction: Open only to graduate students Instruction Mode: Lecture Grading Option: Letter

CRIT 570 Performance Theory and Praxis
Units: 4 Terms Offered: FaSp Social Practice as a transitional platform for intersectional themes between visual art, media culture, political advocacy, policy making and public space. Registration Restriction: Open only to graduate students Instruction Mode: Lecture Grading Option: Letter

CRIT 590 Directed Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Terms Offered: FaSpSm Research leading to the master's degree. Maximum units which may be applied to the degree to be determined by the department. Duplicates Credit in former PAS 590. Instruction Mode: Lecture Grading Option: Credit/No Credit

CRIT 591 Field Internship Experience
Units: 1 Max Units: 2.0 Terms Offered: FaSpSm Supervised internship in an art institution or an art agency, or with an independent curator or artist, on projects and research specific to public space. Recommended Preparation: Completion of first year of courses. Duplicates Credit in former PAS 591. Instruction Mode: Lecture Grading Option: Credit/No Credit

CRIT 594a Master's Thesis
Units: 2 Terms Offered: FaSpSm Credit on acceptance of thesis. Recommended Preparation: 28 units of coursework. Duplicates Credit in former PAS 594ab. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

CRIT 594b Master's Thesis
Units: 2 Terms Offered: FaSpSm Credit on acceptance of thesis. Recommended Preparation: 28 units of coursework. Duplicates Credit in former PAS 594ab. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

CRIT 594c Master's Thesis
Units: 0 Terms Offered: FaSpSm Credit on acceptance of thesis. Recommended Preparation: 28 units of coursework. Duplicates Credit in former PAS 594ab. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

CRIT 599 Special Topics
Units: 1, 2, 3, 4, 5, 6, 7, 8 Max Units: 8.0 Terms Offered: FaSpSm Selected topics in various specialty areas of public art. Duplicates Credit in former PAS 599. Instruction Mode: Lecture Grading Option: Letter

Computer Science
CSCI 100xg Explorations in Computing
Units: 4 A behind-the-scenes overview of the computational/algorithmic principles
that form the basis of today's digital society. Exploration areas include social media, web search, videogames and location-based services. Satisfies New General Education in Category F: Quantitative Reasoning

**Instruction Mode:** Lecture, Lab

**Grading Option:** Letter

**CSCI 101L Fundamentals of Computer Programming**

**Units:** 3

**Terms Offered:** FaSp Introduction to the design of solutions to computer solvable problems. Algorithm design, solution implementation using a high-level programming language, program correctness and verification. **Instruction Mode:** Lecture, Lab Required **Grading Option:** Letter

**CSCI 102L Fundamentals of Computation**

**Units:** 2

Fundamental concepts of algorithmic thinking as a primer to programming. Introduction to C++. **Instruction Mode:** Lecture, Lab Required, Quiz **Grading Option:** Letter

**CSCI 103L Introduction to Programming**

**Units:** 4

Terms Offered: FaSp Basic data structures, algorithms, control statements (if, switch, for, while), input/output (printf, scanf, cin, cout), functions, arrays, structures, recursion, dynamic memory, file handling. Programming in C/C++. **Prerequisite:** CSCI 102L, **Instruction Mode:** Lecture, Lab Required, Quiz **Grading Option:** Letter

**CSCI 104L Data Structures and Object Oriented Design**

**Units:** 4

Terms Offered: FaSp Introduces the student to standard data structures (linear structures such as linked lists, (balanced) trees, priority queues, and hash tables), using the C++ programming language. **Prerequisite:** CSCI 103L and CSCI 170 **Instruction Mode:** Lecture, Lab Required, Quiz **Grading Option:** Letter

**CSCI 110 Introduction to Computer Science**

**Units:** 2

Terms Offered: FaSp An introduction to, and overview of, Computer Science; both as a discipline and a body of knowledge. **Instruction Mode:** Lecture **Grading Option:** Letter

**CSCI 110L Introduction to Digital Logic**

**Units:** 3

(Enroll in EE 101)

**CSCI 117 Discrete Methods in Computer Science**

**Units:** 4

Terms Offered: FaSp Sets, functions, series, Big-O notation and algorithm analysis. Propositional and first-order logic. Counting and discrete probability. Graphs and basic graph algorithms. Basic number theory. **Prerequisite:** CSCI 102L, **Instruction Mode:** Lecture, Discussion, Quiz **Grading Option:** Letter

**CSCI 201L Principles of Software Development**

**Units:** 4

Terms Offered: FaSp Object-oriented paradigm for programming in-the-large in Java; writing sophisticated concurrent applications with animation and graphic user interfaces; using professional tools on team project. **Prerequisite:** CSCI 104L

**CSCI 270 Introduction to Algorithms and Theory of Computing**

**Units:** 4

Terms Offered: FaSpSm Algorithm analysis. Greedy algorithms, divide and conquer, dynamic programming, graph algorithms. NP-completeness and basic recursion theory and undecidability. Sorting lower bounds. Number-theory based cryptography. **Prerequisite:** CSCI 104L and CSCI 170 Duplicates Credit in former CSCI 303 **Instruction Mode:** Lecture, Discussion, Quiz **Grading Option:** Letter

**CSCI 280 Video Game Production**

**Units:** 4

Terms Offered: FaSpSm (Enroll in ITP 280)

**CSCI 281 Pipelines for Games and Interactives**

**Units:** 4

Terms Offered: FaSp Explores the aesthetic development/technical implementation necessary to achieve unique, compelling, intuitive visual design in games. Students will develop group visual design portfolios. **Instruction Mode:** Lecture **Grading Option:** Letter

**CSCI 310 Software Engineering**

**Units:** 4

Terms Offered: Sp Introduction to the software engineering process and software lifecycle. Covers project management, requirements, architecture, design, implementation, testing, and maintenance phase activities in team-based projects. **Prerequisite:** CSCI 201L, Duplicates Credit in former CSCI 377 **Instruction Mode:** Lecture **Grading Option:** Letter

**CSCI 350 Introduction to Operating Systems**

**Units:** 4

Basic issues in concurrency, deadlock control, synchronization scheduling, memory management, protection and access control, inter-process communication, and structured design. Laboratory experiences with Unix-like operating system. **Prerequisite:** CSCI 402, Duplicates Credit in former CSCI 402 **Instruction Mode:** Lecture, Quiz **Grading Option:** Letter

**CSCI 352L Computer Organization and Architecture**

**Units:** 3

Terms Offered: Sp (Enroll in ITP 352L)

**CSCI 353 Introduction to Internetworking**

**Units:** 4

Global Internet: design principles, layering, protocol design/analysis. Networked applications, Internet structure/architecture, Protocols for transport/congestion control, network layer/routing, link layer/MAC. Network security. **Prerequisite:** CSCI 201; **Recommended Preparation:** Familiarity with C and C++. Duplicates Credit in EE 450. **Instruction Mode:** Lecture, Discussion **Grading Option:** Letter

**CSCI 356 Introduction to Computer Systems**

**Units:** 4

Computer organization; entity abstraction and representation; program execution; code optimization; memory usage; exception handling; processing control; computer performance; hands-on work done in C and assembly. **Prerequisite:** CSCI 104L, **Recommended Preparation:** Familiarity with memory and management and parameter passing used in the C++ programming language. Duplicates Credit in EE 352L. **Instruction Mode:** Lecture, Discussion **Grading Option:** Letter

**CSCI 360 Introduction to Artificial Intelligence**

**Units:** 4

Concepts and algorithms underlying the understanding and construction of intelligent systems. Agents, problem solving, search, representation, reasoning, planning, machine learning. **Prerequisite:** CSCI 104L and CSCI 170 Duplicates Credit in former CSCI 460 **Instruction Mode:** Lecture **Grading Option:** Letter

**CSCI 368 Programming Graphical User Interfaces**

**Units:** 4

Terms Offered: FaSpSm (Enroll in ITP 368)

**CSCI 380 Video Game Programming**

**Units:** 4

Terms Offered: FaSpSm (Enroll in ITP 380)

**CSCI 390 Special Problems**

**Units:** 1, 2, 3, 4

Supervised, individual studies. No more than one registration permitted. Enrollment by petition only. **Instruction Mode:** Lecture **Grading Option:** Letter

**CSCI 401 Capstone: Design and Construction of Large Software Systems**

**Units:** 4

Max Units: max 8

Terms Offered: FaSp Group project with an outside stakeholder to develop real-world software solutions to large-scale problems. Topics include software engineering, professional preparation, and recent computer science research. **Prerequisite:** CSCI 270 and CSCI 310 Duplicates Credit in former CSCI 477a and CSCI 477b **Instruction Mode:** Lecture **Grading Option:** Letter

**CSCI 402 Operating Systems**

**Units:** 4

Terms Offered: FaSpSm Concurrency, deadlock control, synchronization, process and thread scheduling, memory management, file systems, security and access control, communication and networking, distributed file systems, data management. **Recommended Preparation:** CSCI 201L or CSCI 455x; CSCI 356 or EE 352L **Instruction Mode:** Lecture, Discussion **Grading Option:** Letter

**CSCI 404 Capstone: Creating Your High-Tech Startup**

**Units:** 4

Capstone class in which students create their own technology startup, leveraging comprehensive CS knowledge and best industry practices. **Prerequisite:** CSCI 201 and CSCI 270 and ITP 466 **Instruction Mode:** Lecture **Grading Option:** Letter

**CSCI 410x Translation of Programming Languages**

**Units:** 3

Concepts of assemblers, compilers, interpreters and their design; macro assemblers, Polish notation and translation techniques; operator precedence parsing, push down automata, code generation. **Prerequisite:** CSCI 201L Credit Restriction: Not available for graduate credit to computer science majors. **Instruction Mode:** Lecture **Grading Option:** Letter

**CSCI 420 Computer Graphics**

**Units:** 4

Terms Offered: FaSp Computer graphics, OpenGL, 2D and 3D transformations, Bézier splines, computer animation, rendering including ray tracing, shading and lighting, artistic rendering, virtual reality, visualization. **Prerequisite:** CSCI 104L and (MATH 225 or (EE 141L and (MATH 126 or MATH 127 or (MATH 131 and MATH 132)) or (MATH 141 and MATH 142)) or (MATH 225 and MATH 226))
MATH 129) Instruction Mode: Lecture, Discussion Grading Option: Letter

CSCI 423 Native Console Multiplayer Game Development
Units: 4 Implementation of AAA style multiplayer game running on consoles and DX11. Console development in native C++, console SDKs, engine components, gameplay, networking, data prediction/replication. Prerequisite: CSCI 222 or ITP 380; Recommended Preparation: ITP 485. Instruction Mode: Lecture Grading Option: Letter

CSCI 426 Game Prototyping
Units: 4 Developing games or technology based on current and relevant special topics. Instruction Mode: Lecture Grading Option: Letter

CSCI 430 Introduction to Computer and Network Security
Units: 4 Terms Offered: Sp A broad overview of security threats and defenses, security systems and functionalities, as well as current security practices. Includes homeworks and i-class exercises to provide practical experience working with such systems. Prerequisite: CSCI 201. Instruction Mode: Lecture Grading Option: Letter

CSCI 435 Professional C++
Units: 4 Terms Offered: FaSp (Enroll in ITP 435)

CSCI 439 Compiler Development
Units: 4 Terms Offered: Sp (Enroll in ITP 439)

CSCI 445L Introduction to Robotics
Units: 4 Terms Offered: FaSpSm Designing, building and programming mobile robots; sensors, effectors, basic control theory, control architectures, some advanced sensors, effectors, basic control theory, control architectures, some advanced topics, illustrations of state-of-the-art. Teamwork; final project tested in a robot contest. Prerequisite: CSCI 103. Instruction Mode: Lecture, Lab Required Grading Option: Letter Crosslisted as EE-445

CSCI 450 Introduction to Computer Networks
Units: 4 Terms Offered: FaSpSm Enroll in EE 450)

CSCI 452 Parallel and Distributed Computation
Units: 4 (Enroll in EE 451)

CSCI 454L Introduction to System-on-Chip
Units: 4 Terms Offered: Fa (Enroll in EE 454L)

CSCI 455x Introduction to Programming Systems Design
Units: 4 Terms Offered: FaSp Intensive introduction to programming principles, discrete mathematics for computing, software design and software engineering concepts. Prerequisite: departmental approval. Instruction Mode: Lecture, Lab Grading Option: Letter Crosslisted as EE-455

CSCI 457 Computer Systems Organization
Units: 3 (Enroll in EE 457)

CSCI 458 Numerical Methods
Units: 4 (Enroll in MATH 458)

CSCI 459 Computer Systems and Applications Modeling Fundamentals
Units: 3 Terms Offered: Sp Techniques and tools needed to construct/evaluate models of computer systems and applications. Analytical and simulation methods, capacity planning, performance/reliability evaluation, and decision-making. Prerequisite: MATH 225, CSCI 201. Instruction Mode: Lecture Grading Option: Letter

CSCI 467 Introduction to Machine Learning
Units: 4 Methods for building intelligent and adaptive systems from statistical analyses; theoretical understanding of such methods and the computational implications. Prerequisite: CSCI 270 and MATH 225 (and EE 364 or MATH 407) Recommended Preparation: CSCI 360, comfortable with mathematical derivations, such as those in MATH 225; comfortable with manipulating vectors and matrices Instruction Mode: Lecture, Discussion Grading Option: Letter

CSCI 475 Theory of Computation
Units: 4 Terms Offered: Fa History of the theory of computing, foundational theorems and theoretical frameworks of computer science, solvable and unsolvable problems. Prerequisite: CSCI 270 Instruction Mode: Lecture Grading Option: Letter

CSCI 476 Cryptography: Secure Communication and Computation
Units: 4 Introduction to modern Cryptography; mathematical/algorihmic studies of methods for protecting information in computer and communication systems: Public-Key Cryptosystems, zero-knowledge proofs, data privacy. Prerequisite: CSCI 270. Instruction Mode: Lecture Grading Option: Letter

CSCI 477 Concepts of Programming Languages
Units: 4 Terms Offered: FaSpSm The history and means of describing programming languages, means of control in modern languages and alternate programming language paradigms. Prerequisite: CSCI 201L Instruction Mode: Lecture Grading Option: Letter

CSCI 485 File and Database Management
Units: 4 Terms Offered: FaSpSm File input/output techniques, basic methods for file organization, file managers, principles of databases, conceptual models, data models, and query languages. Prerequisite: CSCI 201 Instruction Mode: Lecture Grading Option: Letter

CSCI 487 Programming Game Engines
Units: 4 Terms Offered: FaSpSm Enroll in ITP 485)

CSCI 490x Directed Research
Units: 1, 2, 3, 4, 5, 6, 7, 8 Max Units: 12.0 Individual research and readings. Instruction Mode: Lecture Grading Option: Letter

CSCI 491L Final Game Project
Units: 4 Terms Offered: FaSpSm Design, iterative prototyping and development of a refined game. Instruction Mode: Lecture, Lab Required Grading Option: Letter

CSCI 491Lb Final Game Project
Units: 2 Terms Offered: FaSpSm Design, iterative stage 2 prototyping and development of a refined game. Instruction Mode: Lecture, Lab Required Grading Option: Letter

CSCI 495 Senior Project
Units: 3 (Enroll in PHYS 495)
CSCI 521 Optimization: Theory and Algorithms
Units: 3 Terms Offered: Fa (Enroll in ISE 520)

CSCI 522 Game Engine Development
Units: 4 Terms Offered: Fa The principles of developing game engines targeted at modern PC and game console hardware. Instruction Mode: Lecture Grading Option: Letter

CSCI 523L Networked Games
Units: 4 Terms Offered: FaSpSm Design and implementation of networked games, from the origins of the supporting technologies in distributed systems, visual simulations, networked virtual environments, and shipped games. Recommended Preparation: CSCI 420 or CSCI 580 or an equivalent course in graphics. Instruction Mode: Lecture, Lab Required Grading Option: Letter

CSCI 524 Networked Artificial Intelligence
Units: 4 Networked game communication architectures, protocol development, architected networked game AI clients/ servers, Character following knowledge representation and reasoning, dynamic play strategies, search, learning, and planning. Recommended Preparation: CSCI 420 or CSCI 580 or an equivalent course in graphics. Instruction Mode: Lecture, Lab Grading Option: Letter

CSCI 526 Advanced Mobile Devices and Game Consoles
Units: 4 Terms Offered: FaSpSm Explore the complex engineering process required to design and build a real-time graphics engine to support physical realism on mobile devices. Recommended Preparation: CSCI 420 or CSCI 580 or an equivalent course in graphics. Instruction Mode: Lecture, Lab Required Grading Option: Letter

CSCI 527 Applied Machine Learning for Games
Units: 4 Terms Offered: FaSpSm Application of machine learning for AI-bot creation, gameplay analysis, and real-time gameplay player understanding. Duplicates Credit in CSCI 566 Deep Learning and Its Applications. Prerequisite: CSCI 561 or CSCI 567 Duplicates Credit in CSCI 566 Instruction Mode: Lecture Grading Option: Letter

CSCI 529a Advanced Game Projects
Units: 4 Terms Offered: FaSpSm Team projects intended to address the multifaceted technical and creative challenges that are inherent to comprehensive game development. Recommended Preparation: CSCI 522 or CTIN 488. Instruction Mode: Lecture Grading Option: Letter

CSCI 529b Advanced Game Projects
Units: 2 Terms Offered: FaSpSm Provides students in various areas of game specialization the practice of design, iterative stage 2 prototyping and development of a refined game. Prerequisite: CSCI 529a Instruction Mode: Lecture, Lab Grading Option: Letter

CSCI 530 Security Systems
Units: 4 Terms Offered: FaSpSm Protecting computer networks and systems using cryptography, authentication, authorization, intrusion detection and response. Includes lab to provide practical experience working with such systems. Prerequisite: CSCI 402. Instruction Mode: Lecture Grading Option: Letter

CSCI 531 Applied Cryptography
Units: 4 Intensive overview of cryptography for practitioners, historical perspective on early systems, number theoretic foundations of modern day cryptosystems and basic cryptoanalysis. Recommended Preparation: Programming in C/C++ (CSCI 103), Data structures (CSCI 104) Instruction Mode: Lecture, Discussion Grading Option: Letter

CSCI 533 Algebraic Combinatorics
Units: 3 Terms Offered: Irregular (Enroll in MATH 533)

CSCI 534 Affective Computing
Units: 4 Terms Offered: Sp Overview of the theory of human emotion, techniques for recognizing and synthesizing emotional behavior, and design application. Recommended Preparation: CSCI 561 Instruction Mode: Lecture Grading Option: Letter Crosslisted as PSYC 532

CSCI 535 Multimodal Probabilistic Learning of Human Communication
Units: 4 Principles and techniques to understand, build, and utilize multimodal machine learning algorithms through automatically understanding, recognizing, and analyzing phenomena of human communication. Recommended Preparation: CSCI 542 or CSCI 567 or CSCI 573 or equivalent Instruction Mode: Lecture Grading Option: Letter

CSCI 536 Linear Programming and Extensions
Units: 3 Terms Offered: Fa (Enroll in ISE 536)

CSCI 538 Augmented, Virtual and Mixed Reality
Units: 4 Terms Offered: FaSpSm Technical design and implementation of immersive environments; visual simulations, interactive 3D graphics and gaming. Recommended Preparation: CSCI 420 or CSCI 580 Instruction Mode: Lecture, Lab Grading Option: Letter

CSCI 540 Self-Organization
Units: 4 Massively distributed systems whose global behavior emerges from local interactions of components. Global to local compilation; robot swarms; formation of shapes/spatial patterns; self-assembly; programmable matter. Registration Restriction: Graduate standing in science or engineering Instruction Mode: Lecture Grading Option: Letter

CSCI 542 Neural Computation with Artificial Neural Networks
Units: 3 Terms Offered: Sp Computation and adaptation in networks of interconnected distributed processing units; classical and statistical approaches to neural nets; state-of-the-art neural network research. Recommended Preparation: basic statistics, linear algebra. Instruction Mode: Lecture Grading Option: Letter

CSCI 544 Applied Natural Language Processing
Units: 4 Introduction to key components of human language technologies, including: information extraction, sentiment analysis, question answering, machine translation. Recommended Preparation: proficiency in programming, algorithms and data structures, basic knowledge of linear algebra. Instruction Mode: Lecture Grading Option: Letter

CSCI 545 Robotics
Units: 4 Terms Offered: FaSpSm Fundamental skills for modeling and controlling of dynamic systems for robotic applications and graphics animations; control theory; kinematics; dynamics; sensor processing; real-time operating systems; robot labs. Recommended Preparation: Basic knowledge in linear algebra (matrices and vectors), calculus, programming in C/C++ or any another language or permission of the instructor Instruction Mode: Lecture, Lab Grading Option: Letter Crosslisted as EE-545

CSCI 548 Information Integration on the Web
Units: 4 Terms Offered: FaSpSm Foundations and techniques in information integration as it applies to the Web, including view integration, wrapper learning, record linkage, and streaming dataflow execution. Prerequisite: CSCI 561 Recommended Preparation: CSCI 585 and some programming experience Instruction Mode: Lecture Grading Option: Letter

CSCI 549 Nanorobotics
Units: 3 Terms Offered: Sp Introduction to nanotechnology. Nanorobotic systems: sensing; actuation and propulsion; control; communication; power; programming and coordination of robot swarms. Nanomanipulation and nanosurgery with atomic force microscopes. Instruction Mode: Lecture Grading Option: Letter

CSCI 550 Advanced Data Stores
Units: 4 Selected topics on highly available, elastic data stores. Topics include non-relational data models, simple interfaces and query languages, weak consistency and benchmarking techniques. Prerequisite: CSCI 485 or CSCI 585 Instruction Mode: Lecture Grading Option: Letter

CSCI 551 Computer Networking
Units: 4 Protocol design for computer communication networks, routing, transport protocols, internetworking. Prerequisite: CSCI 350 (CSCI 353 or EE 450) and (CSCI 350 or CSCI 402) Recommended Preparation: C-language programming Instruction Mode: Lecture, Quiz Grading Option: Letter

CSCI 552 Asynchronous VLSI Design
Units: 3 (Enroll in EE 552)

CSCI 553 Computational Solution of Optimization Problems
Units: 3 Terms Offered: Sp (Enroll in EE 553)

CSCI 554 Real Time Computer Systems
Units: 3 (Enroll in EE 554)

CSCI 555L Advanced Operating Systems
Units: 4 Advanced topics in operating system research: new OS structures, novel memory management, communication, file system, process management, reliability and security techniques. Prerequisite: CSCI 350 or CSCI 402 Instruction Mode: Lecture, Lab Required Grading Option: Letter

CSCI 556 Introduction to Cryptography
Units: 4 Modern secret codes. Public key cryptosystems of Rivest-Shamir-Adleman, Diffie-Hellman and others. The underlying number theory and computational
Lecture, Discussion, Quiz

Algorithm analysis skills

Preparation:
search, logic, knowledge representation,

Foundations of symbolic intelligent systems,

Units:
FaSpSm

Intelligence

Sp (Enroll in EE

Recommended Preparation:

Prerequisite: CSCI 402 and EE 450/CSCI 450; Recommended Preparation: CSCI 551 and CSCI 555. Instruction Mode: Lecture, Lab Required Grading Option: Letter

CSCI 559 Mathematical Pattern Recognition

Units: 3 Terms Offered: Sp (Enroll in EE 559)

CSCI 561 Foundations of Artificial Intelligence

Units: 4 Terms Offered: FaSpSm Foundations of symbolic intelligent systems, search, logic, knowledge representation, planning, learning. Recommended Preparation: good programming and algorithm analysis skills Instruction Mode: Lecture, Discussion, Quiz Grading Option: Letter Crosslisted as EE 561

CSCI 564 Brain Theory and Artificial Intelligence

Units: 3 Terms Offered: Fa Introduces neural modeling, distributed artificial intelligence and robotics approaches to vision, motor control and memory. Prerequisite: graduate standing. Instruction Mode: Lecture Grading Option: Letter Crosslisted as NEUR-535

CSCI 565 Compiler Design

Units: 4 Terms Offered: Sp Formal grammar; parsing methods and lexical analysis; code generation; local and global code optimization; and dynamic allocation. Prerequisite: CSCI 455x. Instruction Mode: Lecture Grading Option: Letter Crosslisted as NEUR-535

CSCI 566 Deep Learning and Its Applications

Units: 4 Terms Offered: Fa Deep learning research in computer vision, natural language processing and robotics; neural networks; deep learning algorithms, tools and software. Recommended Preparation: Python programming, calculus, linear algebra, probability and statistics, knowledge of machine learning Duplicates Credit in CSCI 527 Instruction Mode: Lecture Grading Option: Letter

CSCI 567 Machine Learning

Units: 4 Terms Offered: Fa Statistical methods for building intelligent and adaptive systems that improve performance from experiences; focus on theoretical understanding of these methods and their computational implications. Recommended Preparation: Undergraduate level training or course work in linear algebra, multivariate calculus, basic probability and statistics; an undergraduate level course in Artificial Intelligence may be helpful but is not required. Instruction Mode: Lecture, Discussion Grading Option: Letter Crosslisted as ISE-568

CSCI 568 Requirements Engineering

Units: 4 Techniques for successful requirements analysis and requirements engineering (RE) of software-intensive systems. Systematic process of developing requirements through cooperative problem analysis, representation, and validation. Prerequisite: CSCI 577a Instruction Mode: Lecture Grading Option: Letter

CSCI 569 Social Media Analytics

Units: 4 Introduction to quantitative analysis of social data. Topics include social network analysis, text analysis, machine learning and statistical methods and they are used to study influence, information diffusion, sentiment analysis and prediction of individual and social behavior online. Recommended Preparation: statistics, AI and/or machine learning, knowledge of at least one programming language (Java, C++, Python) Instruction Mode: Lecture Grading Option: Letter

CSCI 570 Analysis of Algorithms

Units: 4 Terms Offered: FaSpSm Explores fundamental techniques such as recursion, Fourier transform on ordered dynamic programming for efficient algorithm construction. Examples include arithmetic, algebraic, graph, pattern matching, sorting, searching algorithms. Instruction Mode: Lecture Grading Option: Letter

CSCI 571 Web Technologies

Units: 4 Terms Offered: FaSpSm Advanced study of programming languages with application to the Web. Languages for client-side and server-side processing. Examples taken from: HTML, Java, JavaScript, Perl, XML and others. Recommended Preparation: knowledge of at least two programming languages. Instruction Mode: Lecture Grading Option: Letter

CSCI 572 Information Retrieval and Web Search Engines

Units: 4 Terms Offered: FaSpSm Examines key aspects of information retrieval as they apply to search engines; web crawling, indexing, querying, quality of results are studied. Recommended Preparation: Familiarity in programming in multiple languages, C, C++, and/or Java and experience with a database Instruction Mode: Lecture Grading Option: Letter

CSCI 573 Probabilistic Reasoning

Units: 3 Terms Offered: Fa Reasoning under uncertainty, statistical directed and undirected graphical models, temporal modeling, inference in graphical models, parameter learning, decisions under uncertainty. Recommended Preparation: An undergraduate level course in probability theory. Instruction Mode: Lecture Grading Option: Letter Crosslisted as ISE-574

CSCI 574 Computer Vision

Units: 3 Terms Offered: Fa Description and recognition of objects, shape analysis, edge and region segmentation, texture, knowledge based systems, image understanding. Prerequisite: CSCI 455x. Instruction Mode: Lecture Grading Option: Letter Crosslisted as EE-574

CSCI 576 Multimedia Systems Design

Units: 4 End-to-end multimedia systems - content creation, compression, distribution using modern standards, DRM solutions, Digital-Cinema pipeline, multimedia classification, virtual-augmented reality, natural-language multimedia queries, multimodal media analysis, stereoscopic-holographic technologies. Recommended Preparation: familiarity with C or C++ Instruction Mode: Lecture Grading Option: Letter

CSCI 577a Software Engineering

Units: 4 Terms Offered: FaSpSm Software life cycle processes; planning considerations for product definition, development, test, implementation, maintenance. Software requirements elicitation and architecture synthesis. Team project. Prerequisite: graduate standing. Instruction Mode: Lecture Grading Option: Letter

CSCI 577b Software Engineering

Units: 4 Terms Offered: FaSpSm Software development, test, implementation, and maintenance methods. CASE tools and software environments. Software product engineering, configuration management, quality engineering, documentation. Application via projects. Prerequisite: CSCI 577a. Instruction Mode: Lecture Grading Option: Letter

CSCI 578 Software Architecture

Units: 4 Study of concepts and principles of design and implementation of software systems. Systematic process of developing requirements and architecture, design, and implementation of large-scale software systems. Instruction Mode: Lecture Grading Option: Letter

CSCI 580 3-D Graphics and Rendering

Units: 4 Course outlines the process of creating images from 3D models. Includes transformations, shading, lighting, rastorization, texture mapping, and other topics. Instruction Mode: Lecture, Discussion Grading Option: Letter

CSCI 581 Logic and its Applications

Units: 3 Formal systems, first order logic, truth, completeness, compactness, Godel incompleteness, recursive functions, undecidability. Selected applications, e.g., theorem proving, artificial intelligence, program verification, databases, computational complexity. Prerequisite: CSCI 430 and MATH 470. Instruction Mode: Lecture Grading Option: Letter

CSCI 582 Geometric Modeling

Units: 3 Terms Offered: Sp Mathematical models and computer representations for three-dimensional solids; underlying topics from set theory, geometry, and topology. Fundamental algorithms; applications to CAD/CAM and robotics. Recommended Preparation: Linear algebra and data structures. Instruction Mode: Lecture Grading Option: Letter

CSCI 583 Machine Learning Theory

Units: 4 Developing the core concepts and techniques, inherent abilities, and limitations of learning algorithms in well-defined learning models. Recommended Preparation: CSCI 270, CSCI 581 Instruction Mode: Lecture Grading Option: Letter

CSCI 585 Database Systems

Units: 4 Terms Offered: FaSpSm Database system architecture; conceptual database models; semantic, object-oriented, logic-based, and relational databases; user and program interfaces; database system implementation; integrity, security, concurrency and recovery. Recommended
**CSCI 586 Database Systems Interoperability**

Units: 4

Federated and multi-database systems, database networking, conceptual and schematic diversity, information sharing and exchange, knowledge discovery, performance issues. Prerequisite: CSCI 585 or SSCI 582

**CSCI 587 Geospatial Information Management**

Units: 4

Techniques to efficiently store, manipulate, index and query geospatial information in support of real-world geographical and decision-making applications. Prerequisite: CSCI 485 or CSCI 585 or SSCI 582

**CSCI 588 Software Engineering for Embedded Systems**

Units: 4

Software engineering methods and techniques for embedded, resource constrained, and mobile environments. Applications to real-time operating systems and wireless networking systems. Class project. Instruction Mode: Lecture Grading Option: Letter

**CSCI 590 Directed Research**

Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12

Research leading to the master's degree. Maximum units which may be applied to the degree to be determined by the department. Instruction Mode: Lecture Grading Option: Credit/No Credit

**CSCI 591 Computer Science Research Colloquium**

Units: 1

Max Units: 2

Exploration and critical assessment of research activities in computer science. Course will serve as a forum for current research presentations from academia and industry. Instruction Mode: Lecture Grading Option: Credit/No Credit

**CSCI 593 Mathematical Foundations for System Design: Modeling, Analysis, and Synthesis**

Units: 3

Enroll in EE 581

**CSCI 594a Master's Thesis**

Units: 2

Terms Offered: FaSpSm Credit on acceptance of thesis. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

**CSCI 594b Master's Thesis**

Units: 2

Terms Offered: FaSpSm Credit on acceptance of thesis. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

**CSCI 594z Master's Thesis**

Units: 0

Terms Offered: FaSpSm Credit on acceptance of thesis. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

**CSCI 596 Scientific Computing and Visualization**

Units: 4

Hands-on training on the basics of parallel computing and scientific visualization in the context of computer simulations in science and engineering. Recommended Preparation: CSCI 455x and MATH 458. Instruction Mode: Lecture, Discussion Grading Option: Letter

**CSCI 598 Professional Writing and Communication for Computer Scientists**

Units: 1

Instruction in discipline-specific workplace writing and communication skills for computer science graduate students. Registration Restriction: Open only to graduate students in Computer Science. Instruction Mode: Lecture Grading Option: Credit/No Credit

**CSCI 599 Special Topics**

Units: 2, 3, 4

Max Units: 9

Course content to be selected each semester from recent developments in computer science. Instruction Mode: Lecture Grading Option: Letter

**CSCI 601 Advanced Program Analysis and Verification**

Units: 4

Advanced techniques for analyzing and verifying software systems; topics include program analysis, automated verification, and software testing. Recommended Preparation: CSCI 512, Java Programming Skills Instruction Mode: Lecture Grading Option: Letter

**CSCI 620 Computer Animation and Simulation**

Units: 4

Animation and simulation techniques for computer games, virtual reality, and film visual effects. Research methods, SIGGRAPH papers, Deformable objects, fluids, sound, collision detection, haptics, rigid bodies, GPUs. Prerequisite: CSCI 420 or CSCI 520 or CSCI 580

**CSCI 621 Digital Geometry Processing**

Units: 4

Digital geometry processing (subfield of computer graphics), that covers the full pipeline from 3D scanning, processing, to 3D printing. Recommended Preparation: Solid background in linear algebra, numerical optimization, and C/C++ programming. CSCI 420 Computer Graphics is recommended. Open only to doctoral students. Instruction Mode: Lecture Grading Option: Letter

**CSCI 631 Privacy in the World of Big Data**

Units: 4

Privacy challenges that arise in the world driven by data. An overview of algorithmic and technical approaches to addressing them. Recommended Preparation: thorough understanding of algorithms, proof-based mathematics, and basic probability Instruction Mode: Lecture Grading Option: Letter

**CSCI 644 Natural Language Dialogue Systems**

Units: 4

Computational models of natural language dialogue; conversational interfaces to artificial systems; dialogue system architectures and applications; Reinforcement learning of dialogue policies. Recommended Preparation: CSCI 544 or CSCI 561 or CSCI 682 or EE 610; Java, C++ or Python Instruction Mode: Lecture Grading Option: Letter

**CSCI 646 Coordinated Mobile Robotics**

Units: 4

State-of-the-art techniques for coordinating robot teams. Distributed approaches; task allocation; control and stability; network topology; coverage and monitoring; caging; bio-inspired approaches; persistence; probabilistic methods. Recommended Preparation: Solid background in linear algebra, programming and algorithm analysis skills. Registration Restriction: Open only to Computer Science doctoral students. Instruction Mode: Lecture Grading Option: Letter

**CSCI 648 Advanced Information Integration**

Units: 4

Focus on foundations and techniques for information integration. Topics include Semantic Web, linked data, data integration, entity linkage, source modeling, and information extraction. Prerequisite: CSCI 561; Recommended Preparation: CSCI 585 and programming experience. Registration Restriction: Open only to Computer Science doctoral students. Instruction Mode: Lecture Grading Option: Letter

**CSCI 651 Advanced Computer Networking**

Units: 4

Computer communication protocols and systems, including classic and contemporary literature. The emphasis is on conceptual issues in the design and implementation of computer internetworks. Prerequisite: EE 450 (CSCI 353 or CSCI 350) and (CSCI 350 or CSCI 402) Registration Restriction: Open to PHD students in Computer Science Instruction Mode: Lecture Grading Option: Letter

**CSCI 652 Internet Measurement**

Units: 4

The investigation of problems, techniques, results, and challenges that arise in measuring the Internet, including what measurements tell us about the Internet and how to improve Internet services. Prerequisite: CSCI 551 Instruction Mode: Lecture Grading Option: Letter

**CSCI 653 High Performance Computing and Simulations**

Units: 4

Terms Offered: FaSpSm Advanced high-performance computer simulation techniques; multiscale deterministic and stochastic simulation algorithms on parallel and distributed computing platforms; immersive and interactive visualization of simulation data. Prerequisite: CSCI 596 Instruction Mode: Lecture, Discussion Grading Option: Letter

**CSCI 655 Advanced Topics in Operating Systems**

Units: 4

Terms Offered: Fa Advanced OS architectures; methods in design and evaluation of process management and concurrency; reliable distributed file systems; memory management, for cloud and virtualized environments. Prerequisite:
COURSES OF INSTRUCTION

CSCI 350 or CSCI 402 Instruction Mode: Lecture Grading Option: Letter
CSCI 656 Networked Systems in Cloud Computing Units: 4 Systems and network design and protocols in cloud computing and data centers networks. Prerequisite: CSCI 551 or CSCI 651 Instruction Mode: Lecture Grading Option: Letter

CSCI 657 Advanced Distributed Systems Units: 4 The foundations and modern applications of distributed systems. Topics include: logical time, fault tolerance, group communication, consensus, consistency, transactions, and peer-to-peer. Recommended Preparation: Proficiency in a high-level language, ideally C++, and familiarity with Git. Registration Restriction: Open only to Computer Science doctoral students. Instruction Mode: Lecture Grading Option: Letter

CSCI 658 Diagnosis and Design of Reliable Digital Systems Units: 3 (Enroll in EE 658)
CSCI 659 Introduction to Online Optimization Units: 4 Foundation and advances of the theory of online learning/online convex optimization and sequential decision making. Recommended Preparation: Familiarity with probability, convex analysis, calculus, and analysis of algorithms Instruction Mode: Lecture Grading Option: Letter

CSCI 662 Advanced Natural Language Processing Units: 4 Computational models of natural language. Formalisms for describing structures of human language, and algorithms for learning language structures from data. Recommended Preparation: proficiency in programming, algorithms and data structures, discrete math, probability theory, and calculus. Registration Restriction: Open only to doctoral students Duplicates Credit in former CSCI 562. Instruction Mode: Lecture Grading Option: Letter

CSCI 663 Artificial Intelligence for Social Good Units: 4 Terms Offered: Fa Deploymnt of artificial intelligence tools in various social good contexts such as health, environmental sustainability, public safety and public welfare. Recommended Preparation: Familiarity with: linear programming and optimization; Excel, CPLEX, R or other optimization software or statistical analysis techniques; and Amazon Mechanical Turk Instruction Mode: Lecture Grading Option: Letter

CSCI 669 Search and Planning Units: 4 Foundations of the design and implementation of search and planning techniques from artificial intelligence, including their theory and applications. Prerequisite: CSCI 561 Recommended Preparation: undergraduate introduction to algorithms and data structures undergraduate or graduate introduction to artificial intelligence ability to program in C/ C++, Registration Restriction: Open only to doctoral students Instruction Mode: Lecture Grading Option: Letter

CSCI 670x Advanced Analysis of Algorithms Units: 4 Terms Offered: FaSpSm

Fundamental techniques for design and analysis of algorithms. Dynamic programming; network flows; theory of NP-completeness; LP; linear programming; approximation, randomized, and online algorithms; basic cryptography. Prerequisite: CSCI 570; Recommended Preparation: familiarity with algorithms and discrete mathematics. Registration Restriction: Open only to doctoral students. Instruction Mode: Lecture Grading Option: Letter Crosslisted as ISE-670

CSCI 671 Randomized Algorithms Units: 4 Standard techniques in the design and analysis of randomized algorithms and random structures. Topics include tail bounds, Markov Chains, VC-dimension, probabilistic method. Prerequisite: CSCI 570 or CSCI 670 Recommended Preparation: Basic background in probability and linear algebra Instruction Mode: Lecture Grading Option: Letter Crosslisted as ISE-671

CSCI 672 Approximation Algorithms Units: 4 Algorithmic techniques include combinatorial algorithms and rounding of linear and semi-definite programs. Applications include network design, graph cuts, covering problems, and approximation hardness. Prerequisite: CSCI 570 or CSCI 670 Recommended Preparation: basic background in probability and linear algebra. Instruction Mode: Lecture Grading Option: Letter

CSCI 673 Structure and Dynamics of Networked Information Units: 4 Algorithms for analyzing network data and spreading information over networks. Focuses on broadly applicable mathematical tools and techniques, including spectral techniques, approximation algorithms and randomization. Prerequisite: CSCI 570 or CSCI 670 Recommended Preparation: basic background in probabilities, linear algebra. Instruction Mode: Lecture Grading Option: Letter

CSCI 674a Advanced Topics in Computer Vision Units: 3 Selected topics from current active research areas including image segmentation, shape analysis and object recognition, inference of 3-D shape, motion analysis, knowledge-based system, neural nets. Prerequisite: CSCI 574. Instruction Mode: Lecture Grading Option: Letter Crosslisted as EE-674A

CSCI 674b Advanced Topics in Computer Vision Units: 3 Selected topics from current active research areas including image segmentation, shape analysis and object recognition, inference of 3-D shape, motion analysis, knowledge-based system, neural nets. Prerequisite: CSCI 574. Instruction Mode: Lecture Grading Option: Letter Crosslisted as EE-674B

CSCI 675 Convex and Combinatorial Optimization Units: 4 Topics include: Convex sets and functions; convex optimization problems; geometric and Lagrangian duality; simplex algorithm; ellipsoid algorithm and its implications; matroid theory; submodular optimization. Prerequisite: CSCI 570 or CSCI 670 Recommended Preparation: Mathematical maturity and a solid grounding in linear algebra Instruction Mode: Lecture Grading Option: Letter

CSCI 677 Advanced Computer Vision Units: 4 Fundamental issues in computer vision: theory, algorithms and applications. Image formation, image segmentation, inference and measurement of 3-D, motion analysis, object and activity recognition. Recommended Preparation: Calculus, analytical geometry, linear algebra and probability theory. Programming in C or C++, data structures, algorithms. Instruction Mode: Lecture Grading Option: Letter Crosslisted as EE 676

CSCI 678 Theoretical Machine Learning Units: 4 Terms Offered: Fa The mathematical foundation of machine learning with a focus on algorithm design for sequential prediction problems. Recommended Preparation: MATH 208x, MATH 225, MATH 125g, CSCI 570 and CSCI 567 Instruction Mode: Lecture Grading Option: Letter

CSCI 685 Advanced Topics in Database Systems Units: 4 Advanced techniques in database management. Topics include optimization, cache management, data mining and knowledge discovery, decision support, spatial indexes, parallel and distributed systems, and data anonymization. Prerequisite: CSCI 485 or CSCI 585 Instruction Mode: Lecture Grading Option: Letter

CSCI 686 Advanced Big Data Analytics Units: 4 Advanced statistical inference and data mining techniques for data analytics, including: topic modeling, structure learning, time-series analysis, learning with less supervision, and massive-scale data analytics. Prerequisite: CSCI 567 Instruction Mode: Lecture Grading Option: Letter

CSCI 697 Seminar in Computer Science Research Units: 1 Max Units: 2.0 Terms Offered: FaSp Practical principles for the long-term development of effective teaching in Computer Science. Intended for teaching assistants for classes offered by the Computer Science department. Registration Restriction: Only open to Computer Science doctoral students. Instruction Mode: Lecture Grading Option: Credit/No Credit

CSCI 698 Practicum in Teaching Computer Science Units: 1 Max Units: 2.0 Terms Offered: FaSpPr Sm Course content to be selected each semester from recent developments in Computer Science. Registration Restriction: Open only to doctoral students. Instruction Mode: Lecture Grading Option: Credit/No Credit

CSCI 699 Special Topics Units: 2, 3, 4 Max Units: 08 Terms Offered: FaSpPr Sm Course content to be selected each semester from recent developments in Computer Science. Registration Restriction: Open only to doctoral students. Instruction Mode: Lecture Grading Option: Letter

CSCI 790 Research Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Research leading to the doctorate. Maximum units which may be applied to the degree to be determined by the department. Instruction Mode: Lecture Grading Option: Credit/No Credit
CSCI 794a Doctoral Dissertation
Units: 2 Credit on acceptance of dissertation. Instruction Mode: Lecture
Grading Option: In-progress to Credit/No Credit

CSCI 794b Doctoral Dissertation
Units: 2 Credit on acceptance of dissertation. Instruction Mode: Lecture
Grading Option: In-progress to Credit/No Credit

CSCI 794c Doctoral Dissertation
Units: 2 Credit on acceptance of dissertation. Instruction Mode: Lecture
Grading Option: In-progress to Credit/No Credit

CSCI 794d Doctoral Dissertation
Units: 0 Credit on acceptance of dissertation. Instruction Mode: Lecture
Grading Option: In-progress to Credit/No Credit

Comparative Studies in Literature and Culture

CSLC 501 Introduction to Comparative Media Studies
Units: 4 Ways of thinking about the differences and relations among different cultural media: literature, film, video, manga/comics, "new media," and so forth. Instruction Mode: Lecture Grading Option: Letter

CSLC 502 Introduction to Literary Theory
Units: 4 Major developments in 20th century literary criticism, with special attention to theoretical work of the past three decades. Duplicates Credit in former COLT 502. Instruction Mode: Lecture Grading Option: Letter

CSLC 503 Introduction to Comparative Studies in Culture
Units: 4 Examines culture as an instrument of discursive practice that shapes social formations in Asia, Europe, North and Latin America. Instruction Mode: Lecture Grading Option: Letter

CSLC 510 Introduction to Translation Studies
Units: 4 Terms Offered: FaSp (Enroll in COLT 510)

CSLC 511 Translating Race
Units: 4 Max Units: 8 Terms Offered: FaSp (Enroll in COLT 511)

CSLC 512 Literary and Cinematic Translingualism and Translation
Units: 4 Max Units: 8 Terms Offered: FaSp (Enroll in COLT 512)

CSLC 519 Translation in Theory and Practice
Units: 4 Terms Offered: FaSp (Enroll in COLT 519)

CSLC 525 Studies in Literary and Cultural History
Units: 4 Max Units: max 8 (Enroll in COLT 525)

CSLC 545 Studies in Literature and the Other Arts
Units: 4 Max Units: max 8 (Enroll in COLT 545)

CSLC 555 Studies in Literatures of the Americas
Units: 4 Max Units: max 8 (Enroll in COLT 555)

CSLC 565 Studies in Literatures of Asia
Units: 4 Max Units: max 8 (Enroll in COLT 565)

CSLC 590 Directed Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Research leading to the master's degree. Duplicates Credit in former COLT 590. Instruction Mode: Lecture Grading Option: Credit/No Credit

CSLC 596 Internship for Curricular Practical Training
Units: 1, 2, 3 Max Units: 03 Terms Offered: FaSpSm Part-time or full-time practical work experience in the student's field of study. The internship must be located at an off-campus facility. Students are individually supervised by faculty. May not be taken until the student has completed at least on semester of enrollment in the graduate program. Registration Restriction: Open only to doctoral students Instruction Mode: Lecture Grading Option: Credit/No Credit

CSLC 599 Special Topics
Units: 1, 2, 3, 4, 5, 6, 7, 8 Max Units: 08 Terms Offered: FaSpSm Special topics in comparative studies in literature and culture Instruction Mode: Lecture Grading Option: Letter

CSLC 600 Professional Development I: Publication
Units: 2 Terms Offered: Sp Preparation of book and article manuscripts for publication and placement in presses and journals; revising dissertations for publication; preparing papers for conferences. Students produce an article or a dissertation ready for submission to a journal. Registration Restriction: Open only to doctoral students. Duplicates Credit in former COLT 600. Instruction Mode: Lecture Grading Option: Credit/No Credit

CSLC 601 Seminar in Comparative Media Studies
Units: 4 Max Units: 12 Intensive comparative study of visual and literary media. Instruction Mode: Lecture Grading Option: Letter

CSLC 602 Seminar in Literary Theory
Units: 4 Max Units: max 12 (Enroll in COLT 602)

CSLC 603 Seminar in Comparative Studies in Culture
Units: 4 Max Units: 12 Intensive study of intellectual and cultural history, with a focus on key literary and theoretical texts. Instruction Mode: Lecture Grading Option: Letter

CSLC 604 Seminar in Film and Visual Studies
Units: 4 Max Units: 12 Intensive study of various types of discourse (film, photography, literature) and their intersection with wider social, political, and theoretical issues. Instruction Mode: Lecture Grading Option: Letter

CSLC 700 Professional Development II: Writing the Prospectus
Units: 2 Terms Offered: Fa Methodology of writing a dissertation prospectus; a structured workshop environment for completing a prospectus. Instruction Mode: Lecture Grading Option: Credit/No Credit

CSLC 701 Professional Development III: Writing the Doctoral Dissertation
Units: 2 Terms Offered: FaSp A formal occasion to critically interrogate the organization of doctoral dissertation and experiment with academic writing as a creative process. Instruction Mode: Lecture Grading Option: Credit/No Credit

CSLC 702x Professional Development IV: Applying for Academic Positions
Units: 2 Terms Offered: Fa Designed to familiarize students in the Comparative Studies in Literature and Culture doctoral program with the process of seeking an academic position. Credit Restriction: Not available for degree credit for any major Instruction Mode: Lecture Grading Option: Credit/No Credit

CSLC 790 Research
Units: 1 Max Units: 12.0 Research leading to the doctorate. Maximum units that may be applied to the degree to be determined by the department. Instruction Mode: Lecture Grading Option: Credit/No Credit

CSLC 794a Doctoral Dissertation
Units: 2 Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

CSLC 794b Doctoral Dissertation
Units: 2 Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

CSLC 794c Doctoral Dissertation
Units: 2 Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

CSLC 794d Doctoral Dissertation
Units: 2 Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

Animation
Note: Instructor availability for a particular course or section cannot be guaranteed.

CTAN 101L Introduction to the Art of Animation
Units: 2 Terms Offered: Fa Theory and practice of animation across organic and digital media with an emphasis on self-exploration. Instruction Mode: Lecture, Lab Required Grading Option: Letter

CTAN 102L Introduction to the Art of Movement
Units: 2 Terms Offered: Sp Theory and practice of animation with a focus on movement, gesture, timing and performance. Prerequisite: CTAN 101. Instruction Mode: Lecture, Lab Required Grading Option: Letter

CTAN 110 Design Fundamentals for Animation I
Units: 2 Terms Offered: FaSp Developing skills in design, composition, shape
language, image-making, and visual thinking to create more sophisticated style frames and imagery for animation practice. Registration Restriction: Open only to Animation and Digital Arts majors Instruction Mode: Lecture, Lab Grading Option: Letter

CTAN 200g The Rise of Digital Hollywood
Units: 3 Terms Offered: FaSp An overview of the evolution of computer graphics in modern media. Satisfies New General Education in Category A: The Arts Instruction Mode: Lecture Grading Option: Letter

CTAN 201L Intermediate Animation Production
Units: 3 Terms Offered: FaSp, Tools, skills and procedures used in animation production with a focus on professional execution of independent and collaborative productions. Prerequisite: CTAN 102. Instruction Mode: Lecture, Lab Required Grading Option: Letter

CTAN 202L Introduction to 3-D Character Animation
Units: 3 Terms Offered: Sp 3-D animation performance utilizing preset rigs and virtual characters. Emphasis on timing, gesture, and performance. Registration Restriction: Open only to sophomores in Animation and Digital Arts Instruction Mode: Lecture, Lab Required Grading Option: Letter

CTAN 210 Design Fundamentals for Animation II
Units: 2 Terms Offered: FaSp Applying design principles in image-making and motion with software skills in After Effects to produce creative content and expand animation practice. Prerequisite: CTAN 110 Registration Restriction: Open only to Animation and Digital Arts majors Instruction Mode: Lecture, Lab Grading Option: Letter

CTAN 220 Introduction to Storyboarding
Units: 2 Terms Offered: FaSp A practical introductory course that emphasizes the fundamentals of digital storyboarding to include storyboarding basics, proper composition, staging for clarity, pitching and critique. Recommended Preparation: Basic drawing skills Registration Restriction: Open only to Animation and Digital Arts majors Instruction Mode: Lecture, Lab Grading Option: Letter

CTAN 301L 3-D Character Performance Animation
Units: 3 Terms Offered: Fa Advanced 3-D character animation with an emphasis on performance, lip-syncing, timing and execution. Prerequisite: CTAN 202L. Registration Restriction: Open only to juniors in Animation and Digital Arts. Instruction Mode: Lecture, Lab Required Grading Option: Letter

CTAN 302L Expanded Concepts in 2-D/3-D Animation
Units: 3 Terms Offered: Sp Integration of advanced concepts to create and produce a short 2-D/3-D animated work with original sound and content. Prerequisite: CTAN 301L. Registration Restriction: Open only to juniors in Animation and Digital Arts. Instruction Mode: Lecture, Lab Required Grading Option: Letter

CTAN 305 Professionalism of Animation
Units: 2 Terms Offered: FaSp Understanding the business of the animation industry. Developing presentation skills for interviewing and pitching, preparing personal marketing tools, researching employment opportunities, and practicing networking techniques. Instruction Mode: Lecture Grading Option: Letter

CTAN 320 Cinematography for Animators
Units: 2 Terms Offered: FaSp The basic cinematic principles for animation, and how to shoot storyboards for the best composition to serve the story. Prerequisite: CTAN 452 Registration Restriction: Open only to Animation and Digital Arts majors Instruction Mode: Lecture Grading Option: Letter

CTAN 330 Animation Fundamentals
Units: 2 Terms Offered: Sp An introduction to the fundamentals of animation, covering such topics as timing, anticipation, reaction, overlapping action, and metamorphosis. Instruction Mode: Lecture Grading Option: Letter

CTAN 336 Ideation and Pre-Production
Units: 2 Terms Offered: Sp Emphasis on lateral thinking working across boundaries to find underlying principles in terms of ideation: the act of becoming an agent of ideas. Prerequisite: CTAN 301L Registration Restriction: Open only to juniors in the School of Cinematic Arts Instruction Mode: Lecture, Lab Grading Option: Letter

CTAN 401a Senior Project
Units: 4 Terms Offered: Fa Understanding the requirements and relationships between theory and practice regarding the complexity of an animated film in idea and execution. Prerequisite: CTAN 336 Registration Restriction: Open only to seniors in the School of Cinematic Arts Instruction Mode: Lecture Grading Option: Letter

CTAN 401b Senior Project
Units: 4 Terms Offered: FaSp Completion and exhibition of the short animated film to demonstrate understanding and further examination of the possibilities of animation time based graphic media. Prerequisite: CTAN 401a Instruction Mode: Lecture, Lab Grading Option: Letter

CTAN 410 Audio Design for Animation and Immersive Media
Units: 2 Terms Offered: FaSp Experimental and traditional audio design practices for animation, culminating in an immersive audio project utilizing acoustic design, surround sound, and professional recording and editing tools. Instruction Mode: Lecture Grading Option: Letter

CTAN 420 Concept Design for Animation
Units: 2 Terms Offered: FaSp Creating characters and environments for animation, live action, and video games. Instruction Mode: Lecture Grading Option: Letter

CTAN 422L Principles of Digital Animation: Visualizing Science
Units: 2 Terms Offered: FaSp Principles of 2-D and 3-D digital animation applied to scientific themes and research topics. Duplicates Credit in former CTAN 523. Instruction Mode: Lecture, Lab Required Grading Option: Letter

CTAN 432 The World of Visual Effects
Units: 2 Terms Offered: FaSp Sm Introduction to the expanding field of visual effects; topics include integration for cinematic storytelling and the study of digital productions employing the latest visual effects. Instruction Mode: Lecture Grading Option: Letter

CTAN 435 Story Art Development
Units: 2 Terms Offered: FaSp Using basic storyboarding techniques to develop a sense of character, plot, and continuity. Technical aspects of developing ideas into films. Instruction Mode: Lecture Grading Option: Letter

CTAN 436 Writing for Animation
Units: 2 Terms Offered: Fa Workshop exploring concept and structure of long and short form animated films through practical writing exercises. Instruction Mode: Lecture Grading Option: Letter

CTAN 443L Character Development for 3-D Animation and Games
Units: 2 Terms Offered: FaSp Sm Development, modeling, and animation with an emphasis on character setup features: rigging, skeletons, deformers, and scripting. Applying principles of traditional animation to 3-D character rig/puppet. Prerequisite: CTAN 452. Instruction Mode: Lecture, Lab Required Grading Option: Letter

CTAN 448 Introduction to Film Graphics
Units: 4 Terms Offered: FaSp An introduction to methods for creating analog animation through experimentation with imagery, concepts and materials. Emphasis on basic timing principles and hands-on techniques. Instruction Mode: Lecture Grading Option: Letter

CTAN 450 Animation Theory and Techniques
Units: 2 Terms Offered: FaSp Methods for creating animation blending traditional techniques with contemporary technologies. Instruction Mode: Lecture, Lab Grading Option: Letter

CTAN 450b Animation Theory and Techniques
Units: 2 Terms Offered: FaSp Instruction in methods for planning and executing a short animated film. Topics covered include storyboard, visual development and production planning. Instruction Mode: Lecture Grading Option: Letter

CTAN 450c Animation Theory and Techniques
Units: 2 Terms Offered: FaSp Practical completion of a short animated film. Instruction Mode: Lecture, Lab Grading Option: Letter

CTAN 451 History of Animation
Units: 2 Terms Offered: Fa In-depth survey of historical developments, styles, techniques, theory and criticism of animation as an art form. Instruction Mode: Lecture Grading Option: Letter

CTAN 452 Introduction to 3-D Computer Animation
Units: 2 Max Units: 4.0 Terms Offered: FaSp Lecture and laboratory in computer animation: geometric modeling, motion specification, lighting, texture mapping, rendering, compositing, production techniques, systems for computer-
synthesized animation. Instruction Mode: Lecture, Lab Grading Option: Letter

CTAN 453 3-D Animation for Motion Graphics
Units: 2 Terms Offered: FaSp Principles and skills for using Cinema 4D software to animate, model and render animation projects. Instruction Mode: Lecture, Lab Grading Option: Letter

CTAN 455L Organic Modeling for Animation
Units: 2 Terms Offered: FaSp The art of digital sculpting for animated characters, with visual effects integration. Recommended Preparation: CTAN 452 or CTAN 462. Instruction Mode: Lecture, Lab Required Grading Option: Letter

CTAN 460 Character Design Workshop
Units: 2 Terms Offered: Sp The basics of character design for animation: anatomy, poses, facial expressions, silhouettes, and anthropomorphism. Development of a portfolio. Instruction Mode: Lecture Grading Option: Letter

CTAN 462 Visual Effects
Units: 2 Terms Offered: FaSp Survey of contemporary concepts and approaches to production in the current state of film and video effects work. Digital and traditional methodologies will be covered, with a concentration on digital exercises illustrating modern techniques. Instruction Mode: Lecture, Lab Grading Option: Letter

CTAN 463L Creative Workflow in Visual Effects
Units: 2 Terms Offered: FaSp Spherical panoramic photography, 3-D digital environment techniques and a range of visual effects work while providing the stage for the student's storytelling. Prerequisite: CTAN 462. Instruction Mode: Lecture, Lab Required Grading Option: Letter

CTAN 464L Digital Lighting and Rendering
Units: 2 Terms Offered: FaSp Concepts, tools and techniques used to create cinematic lighting and rendering in computer-generated imagery (CGI). Prerequisite: CTAN 452 or CTAN 462. Instruction Mode: Lecture, Lab Required Grading Option: Letter

CTAN 465L Digital Effects Animation
Units: 2 Terms Offered: FaSp All aspects of digital effects animation, including particles, dynamics, and fluids. Creating water, fire, explosions, and destruction in film. Prerequisite: CTAN 452 or CTAN 462. Instruction Mode: Lecture, Lab Required Grading Option: Letter

CTAN 466L Projection Mapping Design and Production
Units: 2 Terms Offered: FaSp An exploration of projection mapping with hands-on learning and projects providing professional skills and workflows for helping students create their own content. Recommended Preparation: Familiarity with any 3-D application. Instruction Mode: Lecture, Lab Grading Option: Letter

CTAN 470 Documentary Animation Production
Units: 2 Terms Offered: FaSp Examination of the history, techniques, and methods of documentary animation production. Collaboration on a short film project. Instruction Mode: Lecture Grading Option: Letter

CTAN 485L Pipeline and Character Modeling for Animation
Units: 2 Terms Offered: FaSp Modeling and pipeline integration for 3-D animation props, sets and characters. Prior knowledge in Maya preferred. Instruction Mode: Lecture, Lab Required Grading Option: Letter

CTAN 495 Visual Music
Units: 2 Terms Offered: Fa Experimental animation providing the opportunity to produce individual or group projects. Focus is non-conventional techniques for image creation and collaboration between composer and visual artist. Instruction Mode: Lecture Grading Option: Letter

CTAN 496 Directed Studies
Units: 2 Max Units: 4 Terms Offered: FaSp Individual research under faculty guidance. Registration Restriction: Open only to Animation and Digital Arts majors. Instruction Mode: Lecture Grading Option: Letter

CTAN 497L Procedural Animation
Units: 2 Terms Offered: FaSp Introduction to software packages and practices exploring current animation techniques that leverage software systems. Artificial intelligence as a tool for animation. Prerequisite: CTAN 452 Instruction Mode: Lecture, Lab Required Grading Option: Letter

CTAN 499 Special Topics
Units: 2, 3, 4 Max Units: 8.0 Terms Offered: FaSpSm Detailing investigation of new or emerging aspects of cinema and/or television; special subjects offered by visiting faculty; experimental subjects. Instruction Mode: Lecture Grading Option: Letter

CTAN 501 Experiments in 2-D Digital Animation
Units: 2 Terms Offered: FaSp 2-D Digital animation exploring the art form as a fertile terrain for experimentation, exhibition and activism. Recommended Preparation: 2-D digital experience. Instruction Mode: Lecture Grading Option: Letter

CTAN 502L Experiments in Immersive Design
Units: 2 Terms Offered: FaSp An in-depth exploration of aesthetics and techniques involved in the conceptualization, design and creation of virtual reality and stereoscopic imaging. Prerequisite: CTAN 502a Instruction Mode: Lecture, Lab Required Grading Option: Letter

CTAN 503 Storyboarding for Animation
Units: 2 Terms Offered: Sp Focus on film grammar, perspective, and layout, staging and acting as it relates to storyboarding for animation. Instruction Mode: Lecture Grading Option: Letter

CTAN 504L Creative Production in Virtual Reality
Units: 2 Terms Offered: FaSp A creative studio course in producing both a linear cinematic virtual reality short film and associated real-time immersive experience. Prerequisite: CTAN 502L Instruction Mode: Lecture, Lab Required Grading Option: Letter

CTAN 505 The Business of Animation
Units: 2 Terms Offered: Sp Professional knowledge and application of fundamental business skills associated with working in the animation industry, academia or the arts. Instruction Mode: Lecture Grading Option: Letter

CTAN 508L Live Action Integration with Visual Effects
Units: 2 Terms Offered: Sp Survey of the digital techniques required to successfully marry live action shooting with CGI elements and green screen footage. Prerequisite: CTAN 462. Instruction Mode: Lecture, Lab Required Grading Option: Letter

CTAN 522 Animation Department Seminar
Units: 1 Max Units: 6.0 Terms Offered: FaSp A weekly seminar required of all MFA Animation students. This course includes guest speakers, faculty and student presentations followed by lively and critical discussion. Instruction Mode: Lecture Grading Option: Credit/No Credit

CTAN 524 Contemporary Topics in Animation and Digital Arts
Units: 2 Terms Offered: FaSp Explores the relationship of science, philosophy and art to new forms of animation and digital media practice, with a focus on dreams and consciousness. Instruction Mode: Lecture Grading Option: Letter

CTAN 525 Gesture Movement for Animation
Units: 2 Terms Offered: FaSp The concepts of animation performance, body and facial gesture, and the emotional and psychological resonance through cinematic arts. Instruction Mode: Lecture Grading Option: Letter

CTAN 536 Storytelling for Animation
Units: 2 Terms Offered: Sp Storytelling workshop for animators; application of dramatic techniques to visual concepts to derive three-dimensional stories which can serve as bases for finished films. Registration Restriction: Open only to cinematic arts students. Prerequisites: CTAN 436. Instruction Mode: Lecture Grading Option: Letter

CTAN 544 Introduction to the Art of Animation
Units: 3 Terms Offered: FaSp Fundamentals of film, video and computer animation production. Orientation to assist students on determining future emphases and specialties. Registration Restriction: Open only to Animation and Digital Arts master students. Instruction Mode: Lecture, Lab Grading Option: Letter

CTAN 547 Animation Production I
Units: 3 Terms Offered: Sp Practicum in film, video and computer animation emphasizing the production process through individual projects. Prerequisite: CTAN 544. Registration Restriction: Open only to Animation and Digital Arts master students. Instruction Mode: Lecture, Lab Grading Option: Letter

CTAN 550 Stop Motion Puppet and Set Design
Units: 2 Terms Offered: Fa Puppet and set design for stop motion animation while providing guidance on armature rigs that allow the character to be animated effectively. Instruction Mode: Lecture Grading Option: Letter
COURSES OF INSTRUCTION 899

CTAN 551 Stop Motion Performance
Units: 2
Terms Offered: Sp
Instruction Mode: Lecture Grading Option: Letter

CTAN 555 Animation Design and Production
Units: 4
Terms Offered: Fa, Sp
Creating well-designed motion graphic animation work. Specializing in classical Hollywood performance and personality observation, and impacting the lives of underrepresented people. Satisfies New General Education in Category B: Humanities Inquiry Satisfies Global Perspective in Category G: Citizenship in a Diverse World Registration Requirement: Open only to USC School of Cinematic Arts students Instruction Mode: Lecture, Lab Grading Option: Letter

CTAN 563 Advanced Computer Animation
Units: 2
Terms Offered: Fa, Sp
Advanced feature-quality techniques in 3-D character animation emphasizing acting, facial animation, lip-sync, body mechanics, blocking and polish with multiple characters over sequential shots. Prerequisite: CTAN 443L. Instruction Mode: Lecture Grading Option: Letter

CTAN 564L Motion Capture Fundamentals
Units: 2
Terms Offered: Fa
Fundamental principles of motion capture technology explored while working through a structured series of assignments based around performance, gesture and motion. Prerequisite: CTAN 452 or CTAN 462.
Instruction Mode: Lecture, Lab Required Grading Option: Letter

CTAN 565L Motion Capture Performance
Units: 2
Terms Offered: Sp
The art of directing, acting, and creating story for motion capture will be explored while learning the technology behind bringing virtual actors to life. Prerequisite: CTAN 564.
Instruction Mode: Lecture, Lab Required Grading Option: Letter

CTAN 570 Motion Graphic Design
Units: 3
Terms Offered: Fa, Sp
Creating well-designed motion graphic animation work through effective visual communication design strategies and software skill learning in a professional context. Recommended Preparation: Experience using Adobe After Effects, Photoshop and Illustrator software. Some experience with Maya or Cinema 4D 3-D animation software
Instruction Mode: Lecture, Lab Grading Option: Letter

CTAN 575 Cinematic and Media-Based Installations
Units: 2
Terms Offered: Sp
The history and practice of media-based installation art, from site-specific architectural projection mapping, to activist and public art, video sculptures and immersive, physical transformations.
Instruction Mode: Lecture, Lab Grading Option: Letter

CTAN 577a Fundamentals of Animation
Units: 2
Terms Offered: Fa
The exploration of the techniques of the art of character animation with an emphasis on discipline, performance and personality observation, specializing in classical Hollywood animation. Registration Restriction: Open only to Animation and Digital Arts master students.
Instruction Mode: Lecture Grading Option: Letter

CTAN 577b Fundamentals of Animation
Units: 2
Terms Offered: Sp
The exploration of the techniques of the art of character animation with an emphasis on discipline, performance and personality observation, specializing in classical Hollywood animation. Registration Restriction: Open only to Animation and Digital Arts master students.
Instruction Mode: Lecture, Lab Grading Option: Letter

CTAN 579 Expanded Animation
Units: 2
Terms Offered: Sp
Incorporation of traditional image making methods as well as digital and new media technologies to convey non-linear narratives over internal and external landscapes.
Instruction Mode: Lecture Grading Option: Letter

CTAN 582 Basic Animation Production Technologies
Units: 2
Terms Offered: Fa
Introduction for animation majors to the basic techniques and processes of film, video and computer systems, including cinematography, editing and sound. Registration Restriction: Open only to M.F.A. animation and digital arts students. Prerequisites: Credit in former CTAN 482.
Instruction Mode: Lecture Grading Option: Letter

CTAN 591 Animation Pre-Thesis Seminar
Units: 2
Terms Offered: Sp
A pre-production seminar, where students complete the research, development, script and storyboards for their thesis project to be executed in CTAN 594a, CTAN 594b, CTAN 594z.
Instruction Mode: Lecture Grading Option: Letter

CTAN 592 Master Class
Units: 2, 3, 4, 5, 6
Max Units: 12.0
Terms Offered: Fa
A special projects course in which students produce a major work through weekly meetings with a master artist/ animator. Topics must be approved prior to enrollment. Recommended Preparation: previous advanced animation production experience.
Instruction Mode: Lecture Grading Option: Letter

CTAN 593 Directed Studies in Animation
Units: 2
Max Units: 4.0
Terms Offered: Fa, Sp
In-depth exploration in the areas of contemporary technology, animation techniques or experimental film through internships, residencies or directed studies.
Instruction Mode: Lecture Grading Option: Letter

CTAN 594a Master’s Thesis
Units: 2
Credit on acceptance of thesis.
Instruction Mode: Lecture, Lab Grading Option: In-progress to Credit/No Credit

CTAN 594b Master’s Thesis
Units: 2
Credit on acceptance of thesis.
Instruction Mode: Lecture, Lab Grading Option: In-progress to Credit/No Credit

CTAN 594z Master’s Thesis
Units: 0
Credit on acceptance of thesis.
Instruction Mode: Lecture, Lab Grading Option: In-progress to Credit/No Credit

CTAN 599 Special Topics
Units: 2, 3, 4
Max Units: 8.0
Terms Offered: Irregular Detailed investigation of new or emerging aspects of cinema; special subjects offered by visiting faculty.
Instruction Mode: Lecture Grading Option: Letter

Cinema and Media Studies
Note: Instructor availability for a particular course or section cannot be guaranteed.

CTCS 150gw Visions of Diversity in the Cinematic Arts
Units: 4
Terms Offered: Fa, Sp
Representations of marginalized groups in digital media, and how they have shaped conversations, altered public discourse and policy, and impacted the lives of underrepresented people. Satisfies New General Education in Category B: Humanities Inquiry Satisfies Global Perspective in Category G: Citizenship in a Diverse World Registration Requirement: Open only to USC School of Cinematic Arts students Instruction Mode: Lecture, Discussion Grading Option: Letter

CTCS 190g Introduction to Cinema
Units: 4
Terms Offered: Fa, Sp
Gateway to majors and minors in cinematic arts. Techniques, aesthetics, criticism, and social implications of cinema.
Instruction Mode: Lecture, Discussion Grading Option: Letter

CTCS 191 Introduction to Television and Video
Units: 4
Terms Offered: Fa, Sp
Exploration of the economic, technological, aesthetic, and ideological characteristics of the television medium; study of historical development of television and video including analysis of key works; introduction to TV/video theory and criticism.
Instruction Mode: Lecture, Discussion Grading Option: Letter

CTCS 192gm Race, Class, and Gender in American Film
Units: 4
Terms Offered: Fa, Sp
Analyzes issues of race, class and gender in contemporary American culture as represented in the cinema. Satisfies New General Education in Category A: The Arts
Instruction Mode: Lecture Grading Option: Letter

CTCS 200g History of the International Cinema I
Units: 4
Terms Offered: Fa
The development of international cinema from its beginnings to World War II. Lectures, screenings, and discussions.
Instruction Mode: Lecture, Discussion Grading Option: Letter

CTCS 201 History of the International Cinema II
Units: 4
Terms Offered: Sp
The development of international cinema from World War II to the present. Lectures, screenings and discussions.
Instruction Mode: Lecture, Discussion Grading Option: Letter

CTCS 303 Japanese Anime
Units: 2
Explores the visual, dramatic and social conventions of Japanese animation in film and television. Examines anime fan communities, manga and their impact.
Instruction Mode: Lecture Grading Option: Letter

CTCS 306 Cinema and Media Theory and Practice
Units: 2
Max Units: 10
Terms Offered: Fa, Sp
Theories and case studies of contemporary issues in film, television and digital media research. Students will be
required to design their own undergraduate research projects. Instruction Mode: Lecture Grading Option: Letter

CTCS 367 Global Media
Units: 4 Terms Offered: FaSp Studies in the global configurations of television industries and cultures, including new technologies and the textual and sociological analysis of global media events and programming. Instruction Mode: Lecture Grading Option: Letter

CTCS 373 Literature and Film
Units: 4 (Enroll in COLT 373)

CTCS 379 Nationalism and Postcolonialism in Southeast Asian Cinema
Units: 4 (Enroll in COLT 379)

CTCS 392 History of the American Film, 1925–1950
Units: 4 Terms Offered: Sp Screenings of American film classics and their relationship to society. Lectures and discussions. Instruction Mode: Lecture Grading Option: Letter

CTCS 393 Postwar Hollywood, 1946–1962
Units: 4 Terms Offered: Fa Cinematic and extra-cinematic determinants of Post-Modernist Hollywood studio and independent genres, styles, and the star-phenomenon and their relationship to American history and culture. Instruction Mode: Lecture Grading Option: Letter

CTCS 394 History of the American Film, 1977–present
Units: 4 Ta Terms Offered: Sp Cinematic and extra-cinematic determinants of Postmodernist Hollywood studio and independent genres, styles, and the star-phenomenon and their relationship to American history and culture. Instruction Mode: Lecture Grading Option: Letter

CTCS 400 Non-Fiction Film and Television
Units: 4 Terms Offered: Fa An international survey of documentary, informational, and nonfiction experimental film, video and television. Instruction Mode: Lecture Grading Option: Letter

CTCS 402 Practicum in Film/Televison Criticism
Units: 4 Max Units: 8.0 Terms Offered: FaSp Exercise in writing film and television criticism using new and classic films and television programs. Instruction Mode: Lecture Grading Option: Letter

CTCS 403 Studies in National and Regional Media
Units: 4 Terms Offered: FaSp Detailed investigation of traditions, achievements, and trends of film and/or electronic media in a particular country or region. Instruction Mode: Lecture Grading Option: Letter

CTCS 404 Television Criticism and Theory
Units: 4 Terms Offered: Sp The evaluation of television programs and their reception from various theoretical perspectives which may include cultural studies, race and ethnic studies, psychoanalysis, gender and queer studies, and semiotics. Instruction Mode: Lecture Grading Option: Letter

CTCS 406 History of American Television
Units: 4 Terms Offered: Fa History of television as an entertainment, information, and art medium. Emphasis on programming and institutional history, including issues of regulation, censorship, aesthetics and activism. Instruction Mode: Lecture Grading Option: Letter

CTCS 407 African American Cinema
Units: 4 Terms Offered: Irregular Intensive survey of African American cinema; topics include history, criticism, politics, and cinema’s relationship to other artifacts of African American culture. Instruction Mode: Lecture Grading Option: Letter

CTCS 408 Contemporary Political Film and Digital Media
Units: 4 Terms Offered: Irregular Examination of a variety of politically engaged films and digital media recently produced in the U.S. and abroad, with particular emphasis on aesthetic strategies. Instruction Mode: Lecture Grading Option: Letter

CTCS 409 Censorship in Cinema
Units: 4 Terms Offered: Fa An inquiry into the practice and patterns of censorship in cinema. Instruction Mode: Lecture Grading Option: Letter

CTCS 411 Film, Television and Cultural Studies
Units: 4 Max Units: 8.0 Terms Offered: FaSp Detailed examination of film/television from the perspectives and insights of Cultural Studies; focus on the production and reception of cultural texts, practices, and communities. Instruction Mode: Lecture Grading Option: Letter

CTCS 412 Gender, Sexuality and Media
Units: 4 Max Units: 8.0 Terms Offered: FaSpSm Examines how gender and sexuality are figured in cinema and television with an emphasis on the development of feminist media theory. Instruction Mode: Lecture Grading Option: Letter Crosslisted as SWMS-412

CTCS 414 Latino/a Screen Cultures
Units: 4 Terms Offered: FaSpSm Examination of Latino/a moving image production including film, video, and digital media in the context of the politics of race, class, gender, sexuality, and international relations. Instruction Mode: Lecture Grading Option: Letter Crosslisted as AMST-414

CTCS 417 African American Television
Units: 4 Terms Offered: Irregular Intensive survey of the history of African American images on American television. Topics include history, criticism, politics, and television’s relationship to African American culture. Instruction Mode: Lecture Grading Option: Letter

CTCS 418 Critical Theory and Analysis of Games
Units: 4 Terms Offered: FaSp (Enroll in CTIN 462)

CTCS 466 Film and/or Television Genres
Units: 4 Max Units: 8.0 Terms Offered: FaSpSm Rigorous examination of film and/or television genres: history, aesthetics, cultural context, social significance, and critical methodologies. Instruction Mode: Lecture Grading Option: Letter

CTCS 467 Television Symposium
Units: 4 Max Units: 8.0 Terms Offered: FaSp Lectures and readings on creative problems in the television industry; study of current and historical trends, interviews with producers, directors, writers and performers. Instruction Mode: Lecture Grading Option: Letter

CTCS 468 Film and/or Television Style Analysis
Units: 4 Max Units: 8.0 Terms Offered: FaSpSm Intensive study of the style of an auteur, studio, film or television making mode in terms of thematic and formal properties and their influences upon the art of film. Instruction Mode: Lecture Grading Option: Letter

CTCS 473 Film and Media Theory
Units: 4 Terms Offered: FaSp Influential ideas and theoretical approaches that have shaped the making and study of film. Students are encouraged to take this course in their junior year. Prerequisite: CTCS 190 Instruction Mode: Lecture Grading Option: Letter

CTCS 478 Culture, Technology and Communications
Units: 4 Terms Offered: FaSp Cultural study of communications technology and its relationship to society. Evaluation of the social and cultural impact of technologies from the telegraph to the Internet. Instruction Mode: Lecture Grading Option: Letter

CTCS 482 Transmedia Entertainment
Units: 4 Terms Offered: FaSp An examination of transmedia, or cross-platform, entertainment: commercial and grassroots texts, theoretical framework, historical context, and commercial projects. Developing transmedia strategies for existing media properties. Instruction Mode: Lecture Grading Option: Letter

CTCS 494 Advanced Cinema and Media Studies Seminar
Units: 4 Max Units: 08 Terms Offered: FaSp Rotating topics involving detailed study of the historical, cultural and aesthetic analysis of film, television, and new media technologies. Registration Restriction: Not open to Freshmen Instruction Mode: Lecture Grading Option: Letter

CTCS 495 Honors Seminar
Units: 4 Terms Offered: FaSpSm Advanced work in the historical, cultural and aesthetic analysis of film, television, and new media technologies. Corequisite: CTCS 473. Registration Restriction: Open only to students in CTCS Honors program. Instruction Mode: Lecture Grading Option: Letter

CTCS 499 Special Topics
Units: 2, 3, 4 Max Units: 8.0 Terms Offered: FaSpSm Detailed investigation of new or emerging aspects of cinema and/or television; special subjects offered by visiting faculty; experimental subjects. Instruction Mode: Lecture Grading Option: Letter

CTCS 500 Seminar in Film Theory
Units: 4 Terms Offered: Fa An introduction to classical and contemporary film theory; exploration of their relationship to filmic
experimentation. Instruction Mode: Lecture
Grading Option: Letter

CTCS 501 World Cinema Before 1945
Units: 2 Terms Offered: FaSp Historical survey of global cinema from its beginnings until 1945. Instruction Mode: Lecture
Grading Option: Letter

CTCS 502 World Cinema After 1945
Units: 2 Terms Offered: Fa: Historical survey of film from a global perspective from 1945 until the present. Instruction Mode: Lecture
Grading Option: Letter

CTCS 503 Survey History of the United States Sound Film
Units: 2 Terms Offered: Sp: Survey history of the United States film from 1927 to the present, with emphasis upon film as art form, economic institution, technology, and cultural product. Instruction Mode: Lecture
Grading Option: Letter

CTCS 504 Survey of Television History
Units: 2 Terms Offered: Sp: An exploration of the historical, cultural, business, creative, and technological aspects of television. Instruction Mode: Lecture
Grading Option: Letter

CTCS 505 Survey of Interactive Media
Units: 2 Terms Offered: Fa: A survey course exploring the historical, cultural, business, creative, and technological aspects of the new interactive media. Instruction Mode: Lecture
Grading Option: Letter

CTCS 506 Critical Studies Colloquium/Professional Seminar
Units: 2 Terms Offered: FaSpSm Provides opportunities to the profession, opportunities for academic and professional growth and development. Recommended for entering students. Instruction Mode: Lecture
Grading Option: Letter

CTCS 510 Case Studies in National Media and/or Regional Media
Units: 4 Max Units: 12.0 Terms Offered: FaSp Seminar on media’s impact in defining nation and/or region in specific cultural contexts. Also addresses issues of exile, diaspora, transnationalism and globalization. Instruction Mode: Lecture
Grading Option: Letter

CTCS 511 Seminar: Non-Fiction Film/Video
Units: 4 Terms Offered: Sp: Aesthetic, rhetorical, and ideological issues in nonfiction film and video. Instruction Mode: Lecture
Grading Option: Letter

CTCS 517 Introductory Concepts in Cultural Studies
Units: 4 Terms Offered: Fa: Introduction to central concepts, key theories, and/or leading figures in cultural studies, particularly as they relate to issues of popular culture and visual media. Instruction Mode: Lecture
Grading Option: Letter

CTCS 518 Seminar: Avant-Garde Film/Video
Units: 4 Terms Offered: Irregular Aesthetic, historical and ideological issues in avant-garde film and video. Instruction Mode: Lecture
Grading Option: Letter

CTCS 520 Film History Through the Archives and Special Collections
Units: 4 Terms Offered: Fa: A historical exploration of film and television through the artifacts, images and writings used in their creation. Instruction Mode: Lecture
Grading Option: Letter

CTCS 521 Media Archiving: History and Practice
Units: 4 Terms Offered: Sp: An introduction to the field of moving image archive and the complexities of preserving and managing moving image collections. Instruction Mode: Lecture
Grading Option: Letter

CTCS 564 Seminar in Film and Television
Units: 4 Max Units: 8 Terms Offered: FaSp Advanced study of a selected genre of film and/or television — its relationship to history, society, and culture, as well as to genre theory. Instruction Mode: Lecture
Grading Option: Letter

CTCS 567 Seminar in Film/Television and a Related Art
Units: 4 Max Units: 8 Terms Offered: Irregular Historical, critical, aesthetic, and theoretical issues raised by a comparison of cinema and television and other allied art forms. Instruction Mode: Lecture
Grading Option: Letter

CTCS 569 Seminar in Film and Television Authors
Units: 4 Max Units: 8 Terms Offered: Irregular A conjoint seminar in the style of an auteur, studio, filmmaking, or televuesal mode in terms of thematic and formal properties and their influences upon the art of film and/or television. Instruction Mode: Lecture
Grading Option: Letter

CTCS 585 Seminar in Film/Television Critical Theory and Production
Units: 4 Terms Offered: Irregular A conjoint theory/production seminar, in which the study of media texts will be combined with media production informed by the theoretical study. Specific themes and area of focus may vary. Instruction Mode: Lecture
Grading Option: Letter

CTCS 587 Seminar in Television Theory
Units: 4 Max Units: 8.0 Terms Offered: Irregular Detailed investigation and discussion of various aspects of television, including genre, textual analysis, production and distribution systems and audience studies. Instruction Mode: Lecture
Grading Option: Letter

CTCS 599 Special Topics
Units: 2, 3, 4 Max Units: 8.0 Terms Offered: Irregular Detailed investigation of new or emerging aspects of cinema; special subjects offered by visiting faculty; experimental subjects. Instruction Mode: Lecture
Grading Option: Letter

CTCS 673 Topics in Theory
Units: 4 Max Units: 8.0 Terms Offered: FaSp Contemporary theoretical frameworks and their relationship to film and television studies. Topics differ from semester to semester. Instruction Mode: Lecture
Grading Option: Letter

CTCS 677 Cultural Theory
Units: 4 Terms Offered: FaSp Seminar in theoretical approaches to cultural studies; focus on interdisciplinary research of media and audiences, covering a range of methods and theoretical frameworks; concentration varies. Instruction Mode: Lecture
Grading Option: Letter

CTCS 678 Seminar in Film Theory and Medium Specificity
Units: 4 Max Units: 8.0 Terms Offered: Irregular Explores the ways film has been theorized in relationship to traditional media that preceded it and electronic media that followed. Instruction Mode: Lecture
Grading Option: Letter

CTCS 679 Seminar in Genre and/or Narrative Theory
Units: 4 Terms Offered: Irregular Seminar in theoretical issues concerning genre and/or narrative as they pertain to media, literature or cultural forms. Areas of focus vary from semester to semester. Instruction Mode: Lecture
Grading Option: Letter

CTCS 688 Moving Image Histories: Methods and Approaches
Units: 4 Terms Offered: FaSpSm Research seminar in methods and approaches to moving image history including film, television, and digital media. Focus on archival research and issues in writing history. Instruction Mode: Lecture
Grading Option: Letter

CTCS 690 Special Problems
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Terms Offered: FaSpSm Field production; organization and administration of local film-producing units; experimental aspects of film communication; advanced work in film history and criticism; teaching cinema. Instruction Mode: Lecture
Grading Option: Credit/No Credit

CTCS 790 Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Terms Offered: FaSpSm Research leading to the doctorate. Maximum units which may be applied to the degree to be determined by the department. Instruction Mode: Lecture
Grading Option: Credit/No Credit

CTCS 791 Historical and Critical Research Methods
Units: 2 Max Units: 4.0 Terms Offered: FaSp Methods and procedures for historical and critical research in the visual media. Required tutorial with Ph.D. student’s dissertation committee chair, designed to assist initial work on dissertation. Instruction Mode: Lecture, Lab
Grading Option: Letter

CTCS 794a Doctoral Dissertation
Units: 2 Terms Offered: FaSpSm Credit on acceptance of dissertation. Instruction Mode: Lecture
Grading Option: In-progress to Credit/No Credit

CTCS 794b Doctoral Dissertation
Units: 2 Terms Offered: FaSpSm Credit on acceptance of dissertation. Instruction Mode: Lecture
Grading Option: In-progress to Credit/No Credit

CTCS 794c Doctoral Dissertation
Units: 2 Terms Offered: FaSpSm Credit on acceptance of dissertation. Instruction Mode: Lecture
Grading Option: In-progress to Credit/No Credit

CTCS 794d Doctoral Dissertation
Units: 2 Terms Offered: FaSpSm Credit on acceptance of dissertation. Instruction Mode: Lecture
Grading Option: In-progress to Credit/No Credit

CTCS 794e Doctoral Dissertation
Units: 2 Terms Offered: FaSpSm Credit on acceptance of dissertation. Instruction Mode: Lecture
Grading Option: In-progress to Credit/No Credit

CTCS 794f Doctoral Dissertation
Units: 0 Terms Offered: FaSpSm Credit on acceptance of dissertation. Instruction Mode: Lecture
Grading Option: In-progress to Credit/No Credit

Interactive Media
Note: Instructor availability for a particular course or section cannot be guaranteed.
CTIN 101 Fundamentals of Procedural Media
Units: 2
Terms Offered: FaSp
Introduction to the procedural nature of interactive media and games, though the coding language Processing. Students will develop proficiency in reading and creating computational media. Duplicates Credit in former CTIN 400. Instruction Mode: Lecture
Grading Option: Letter

CTIN 110 Statistical Analysis for Games: Storytelling with Numbers
Units: 4
Terms Offered: Sp
A supplementary course on using statistical analysis for user research and assessment of interactive projects. Instruction Mode: Lecture
Grading Option: Letter

CTIN 190 Introduction to Interactive Entertainment
Units: 4
Terms Offered: FaSp
Practices. Instruction Mode: Lecture
Grading Option: Letter

CTIN 200L The New Games Industry
Units: 2
Terms Offered: Sm
An overview of what it means to be a professional game developer in the modern and rapidly changing economic environment. Instruction Mode: Lecture, Lab
Grading Option: Letter

CTIN 202 Foundations of Game Development
Units: 2
Terms Offered: Sm
Foundation concepts for game designers, including playcentric design and flexible skills and knowledge for collaboratively creating and discussing playable systems. Instruction Mode: Lecture, Lab
Grading Option: Letter

CTIN 290 Digital Media Workshop
Units: 4
Terms Offered: FaSp
Exploration of a variety of moving image aesthetics and methodologies in order to highlight how the language of cinema shapes contemporary digital and interactive media practices. Instruction Mode: Lecture, Lab
Grading Option: Letter

CTIN 291 Advanced Games Crew
Units: 2
Max Units: 04
Terms Offered: FaSp
Hands-on creating experiences for students who wish to work as crew on an advanced game project. Instruction Mode: Lecture
Grading Option: Letter

CTIN 332 Games for Animation
Units: 2
Terms Offered: Sp
Contemporary examples and theories of the crossover between animation and video game practices. Instruction Mode: Lecture
Grading Option: Letter

CTIN 401L Interface Design for Games
Units: 2
Terms Offered: Fa
Introduction to the aesthetics, terminolgy and common trends of interface design for games. Topics include 2-D and 3-D spaces and user interface aesthetics. Instruction Mode: Lecture, Lab
Grading Option: Letter

CTIN 403L Advanced Visual Design for Games
Units: 2
Terms Offered: Sp
The scope of visual game design, including the role of characters, architecture, indoor and outdoor spaces, and environmental effects and sounds. Prerequisite: CTIN 401L. Instruction Mode: Lecture, Lab Grading Option: Letter

CTIN 404L Usability Testing for Games
Units: 2
Terms Offered: Sp
Concepts and methods of usability assessment. The emphasis will be on understanding the issues surrounding game interfaces, and utilizing usability assessment methods. Instruction Mode: Lecture, Lab
Grading Option: Letter

CTIN 405L Design and Technology for Mobile Experiences
Units: 2
Terms Offered: Sp
Critical and pragmatic insights into designing mobile experiences and technology. Design groups will develop a mobile project using principles from readings and class discussions. Instruction Mode: Lecture, Lab
Grading Option: Letter

CTIN 406L Sound Design for Games
Units: 2
Terms Offered: Sp
Introduction to the techniques, terminology, and implementation of sounds in games, including establishing a sense of place and concepts of realistic sound. Instruction Mode: Lecture, Lab
Grading Option: Letter

CTIN 409 Producing Interactive Projects
Units: 2
Terms Offered: Fa
An in-depth exploration of the development and production concepts woven into the USC Games curriculum and utilized in the professional games industry. Instruction Mode: Lecture
Grading Option: Letter

CTIN 411 Tabletop Game Mechanics Seminar
Units: 2
Terms Offered: FaSp
Seminars on the design patterns and mechanics of successful tabletop games. Includes guest speakers on the latest trends in gaming content, tools, business and culture. Duplicates Credit in former CTIN 511. Instruction Mode: Lecture, Lab
Grading Option: Letter

CTIN 420 Tabletop Roleplaying Games
Units: 2
Terms Offered: Sp
An overview of tabletop roleplaying games and the design space around roleplaying. Recommended Preparation: CTIN 488 or CTIN 541. Instruction Mode: Lecture
Grading Option: Letter

CTIN 426 Video Games, Identity, and Diversity
Units: 2
Terms Offered: FaSp
Thinking about video games in relation to many personal and cultural factors, including race, disability, class, gender, sexuality, and body type. Instruction Mode: Lecture
Grading Option: Letter

CTIN 432 Polishing and Publishing Interactive Media
Units: 2
Terms Offered: Fa
Mentorship, guidance, and key skills related to pitching, presenting, and releasing games or other creative work. Instruction Mode: Lecture, Lab
Grading Option: Letter

CTIN 444 Audio Expression
Units: 2
Terms Offered: Sp
Foundational aesthetic principles and creative technologies for game audio. Processing, mixing, and controlling sound for games for expressive effect. Recommended Preparation: CTIN 406L. Instruction Mode: Lecture
Grading Option: Letter

CTIN 452L Themed Entertainment Design
Units: 4
Terms Offered: Fa
The fundamentals of design, technology, operations and process for the creation of themed entertainment experiences and story-centric place-making. Prerequisites: CTIN 488 or CTIN 541. Instruction Mode: Lecture
Grading Option: Letter

CTIN 456 Game Design for Business
Units: 2
Terms Offered: FaSp
Designed to provide the business professional with effective communication skills in working with the designers of games and game related venues. Instruction Mode: Lecture
Grading Option: Letter

CTIN 458 Business and Management of Games
Units: 2
Terms Offered: FaSp
Overview of current business models in games and interactive media, methods for pitching and getting products funded; copyright and intellectual property. Instruction Mode: Lecture
Grading Option: Letter

CTIN 459L Game Industry Workshop
Units: 4
Terms Offered: FaSp
Exploration of industry-related game play research questions. Student teams will develop concepts and materials to solve a research problem posed by an industry partner. Prerequisite: CTIN 488. Recommended Preparation: CTIN 489. Instruction Mode: Lecture
Grading Option: Letter

CTIN 462 Critical Theory and Analysis of Games
Units: 4
Terms Offered: Sp
Grading Option: Letter

CTIN 463 Anatomy of a Game
Units: 4
Terms Offered: FaSp
Examining two game products from concept to delivery; introduce students to each of the professional disciplines involved in making digital games. Recommended Preparation: CTIN 488. Instruction Mode: Lecture
Grading Option: Letter

CTIN 464 Game Studies Seminar
Units: 2
Max Units: 4.0
Terms Offered: FaSp
Rigorous examination of interactive entertainment: genres, history, aesthetics, cultural context, and social significance. Topics vary by semester. Instruction Mode: Lecture
Grading Option: Letter

CTIN 478 Level Design Workshop
Units: 2
Terms Offered: FaSp
A workshop focused on design tasks, creating many levels on paper and in game engines. Prerequisite: CTIN 488 or CTIN 541. Recommended Preparation: CTIN 483. Instruction Mode: Lecture, Lab
Grading Option: Letter
CTIN 479 Documentary and Activist Games
Units: 2 Terms Offered: Sp How interaction design and games document reality. The unique abilities of interactive media in the realms of non-fiction, documentary, and activism. Recommended Preparation: CTIN 190, CTIN 488 or CTIN 541. Instruction Mode: Lecture Grading Option: Letter

CTIN 480 Directing for Games and Interactive Media
Units: 2 Terms Offered: Sp An introduction to the skills of directorial perspective, scene breakdown, thematic intent, project planning, team building, communication, situational decision-making and response to change. Prerequisite: CTIN 489 or CTIN 532L Instruction Mode: Lecture Grading Option: Letter

CTIN 482 Designing Social Games
Units: 2 Max Units: 04 Terms Offered: FaSp Leading industry techniques and networking fundamentals; designing an original social game. Duplicates Credit in former CNTV 462 Instruction Mode: Lecture Grading Option: Letter

CTIN 483 Introduction to Game Development
Units: 4 Terms Offered: FaSp Introduction to technical and creative aspects of game development, including the art of creating the digital game prototype and development of games; coding experience required. Prerequisite: CTIN 101 or ITP 165 Recommended Preparation: CTIN 290 Instruction Mode: Lecture, Lab Grading Option: Letter

CTIN 484L Intermediate Game Development
Units: 2 Terms Offered: FaSpSm Advanced topics in game programming and implementation such as using game engines, creating digital prototypes, player controls and level design. Prerequisite: CTIN 483, CTIN 488 or CTIN 541; Concurrent Enrollment: concurrent enrollment CTIN 489. Instruction Mode: Lecture, Lab Required Grading Option: Letter

CTIN 485 Advanced Game Development
Units: 2 Max Units: 06 Terms Offered: FaSp Advanced concepts in 3-D game development: story and character progression, emergent gameplay, comprehensive game mechanics and artificial intelligence. Prerequisite: CTIN 483 and CTIN 484L and CTIN 488 and CTIN 489 Instruction Mode: Lecture, Lab Grading Option: Letter

CTIN 486 Alternative Control Workshop
Units: 2 Terms Offered: Sp Design of game projects using immersive input devices. Development of play mechanics, feedback systems and game design for immersive environments. Instruction Mode: Lecture, Lab Grading Option: Letter

CTIN 488 Game Design Workshop
Units: 4 Terms Offered: FaSp An introduction to making games. Students will explore the principles of game design through the entirely analog creation of card, board and tabletop games. Recommended Preparation: CTIN 190 Instruction Mode: Lecture, Lab Grading Option: Letter

CTIN 489 Intermediate Game Design Workshop
Units: 2 Terms Offered: FaSp A follow-up to the introductory game design class, this course will introduce more advanced concepts in game design and game theories, including ideation, digital prototyping and level design. Prerequisite: CTIN 485, CTIN 488 or CTIN 541; Concurrent Enrollment: concurrent enrollment CTIN 484. Instruction Mode: Lecture Grading Option: Letter

CTIN 490X Directed Research
Units: 1, 2, 3, 4, 5, 6, 7, 8 Max Units: 12.0 Terms Offered: FaSpSm Individual research and readings. Instruction Mode: Lecture Grading Option: Letter

CTIN 491L Advanced Game Project I
Units: 4 Max Units: 08 Terms Offered: Fa Students work in teams on pre-production and production of a functional digital game suitable for showcases, festivals, and further development. Prerequisite: CTIN 404L or CTIN 406L or CTIN 484L or CTIN 452 or ART 442 or FASC 436 Duplicates Credit in former CTIN 491b Instruction Mode: Lecture, Lab Required Grading Option: Letter

CTIN 492L Experimental Game Topics
Units: 4 Max Units: 8.0 Terms Offered: FaSp Development of a game around a custom-made physical interface: various technologies and techniques involved in a software/hardware integration; peripheral design. Instruction Mode: Lecture, Lab Required Grading Option: Letter

CTIN 493L Advanced Game Project II
Units: 2 Max Units: 04 Terms Offered: Sp Students work in teams to polish and finalize a functional digital game suitable for distribution via the web and/or submission into independent games festivals. Duplicates Credit in former CTIN 491b. Instruction Mode: Lecture, Lab Required Grading Option: Letter

CTIN 497 Interactive Media Startup
Units: 1 Max Units: 3.0 Terms Offered: FaSp Pitching, production planning, forming a company and seeking funding for your creative media idea. Duplicates Credit in former CTIN 497ab. Instruction Mode: Lecture, Lab Grading Option: Letter

CTIN 499 Special Topics
Units: 2, 3, 4 Max Units: 8.0 Terms Offered: FaSpSm Detailed investigation of new or emerging aspects of cinema, television, and/or interactive media; special subjects offered by visiting faculty; experimental subjects. Instruction Mode: Lecture Grading Option: Letter

CTIN 501 Interactive Cinema
Units: 2 Terms Offered: FaSp Provide students with a vocabulary of conceptual and artistic means to create computer based interactive works. Instruction Mode: Lecture Grading Option: Letter

CTIN 503 Interactive Entertainment, Science, and Healthcare
Units: 2 Terms Offered: FaSpSm Overview of foundational concepts required for design, development and evaluation of interactive entertainment and transmedia-based interventions at the intersection of neuroscience, public health and medicine. Recommended Preparation: Proficiency in conducting literature reviews; social media use; using interactive media and playing games. Registration Restriction: Open only to seniors and graduate students. Instruction Mode: Lecture Grading Option: Letter

CTIN 506 Procedural Expression
Units: 2 Terms Offered: Fa Developing procedural literacy in the analysis and creation of computational media; an introduction to how we create meaningful experiences using rules and interaction. Duplicates Credit in former CTIN 400. Instruction Mode: Lecture Grading Option: Letter

CTIN 510 Research Methods for Innovation, Engagement and Assessment
Units: 2 Terms Offered: Sp Planning, designing, and analyzing a research study for a digital media project. Production of a written report and presentation. Recommended Preparation: CTIN 506, CTIN 541, and CTCS 505. Instruction Mode: Lecture Grading Option: Letter

CTIN 520 Experience Design of Public Interactives
Units: 2 Terms Offered: Sp Introduction to the design of public interactives, the meaning of built space and environmental experiences, and the relationship between interactivity and social communication. Instruction Mode: Lecture Grading Option: Letter

CTIN 532L Interactive Design and Production I
Units: 4 Terms Offered: Fa The development of interactive experiences with an emphasis on prototyping and development. Instruction Mode: Lecture, Lab Required Grading Option: Letter

CTIN 534L Experiments in Interactivity I
Units: 4 Terms Offered: Fa Experimental studio course to explore concepts of structure, aesthetics and content of interactive experience design. Instruction Mode: Lecture, Lab Required Grading Option: Letter

CTIN 541 Design for Interactive Media
Units: 2 Terms Offered: Fa Practical exploration and/practicum on the fundamental technical and aesthetic principles in the design of interactive media. Students will develop design and prototyping skills. Instruction Mode: Lecture Grading Option: Letter

CTIN 542 Interactive Design and Production II
Units: 4 Terms Offered: FaSpSm Interactive design, prototyping and testing of projects developed in CTIN 548. Prerequisite: CTIN 532. Instruction Mode: Lecture, Lab Grading Option: Letter

CTIN 544 Experiments in Interactivity II
Units: 2 Terms Offered: Sp Experimental studio course in application of technology to interactive experience. Prerequisite: CTIN 534. Instruction Mode: Lecture, Lab Grading Option: Letter

CTIN 548 Preparing the Interactive Project
Units: 2 Terms Offered: Sp An advanced production workshop in which students design and prepare for the production of their advanced project. Prerequisite: CTIN 532. Instruction Mode: Lecture Grading Option: Letter
CTIN 558 Business of Interactive Media  
Units: 2  
Terms Offered: Fa, Sp  
Description: In-depth investigation of publication, distribution, business and legal aspects of the interactive entertainment business.  
Prerequisite: CTIN 503. Corequisite: IML 543. Registration Restriction: Open only to Media Arts, Games and Health majors.  
Instruction Mode: Lecture  
Grading Option: Letter

CTIN 575 Health and Interactive Entertainment Research Lab  
Units: 1-4  
Max Units: 6  
Terms Offered: FaSpSm  
Recommended Preparation: FaSpSm  
Description: Emerging interdisciplinary research methods for conducting formative or summative evaluation of interactive entertainment-based interventions.  
Instruction Mode: Lecture, Lab  
Grading Option: Credit/No Credit

CTIN 583 Game Development for Designers  
Units: 2  
Terms Offered: Sp  
Description:  
Prerequisite: CTIN 503. Corequisite: IML 543. Registration Restriction: Open only to Media Arts, Games and Health majors.  
Instruction Mode: Lecture  
Grading Option: Letter

CTIN 584a Individual Interactive Workshop  
Units: 4  
Terms Offered: FaSpSm  
Description:  
Prerequisite: CTIN 503. Corequisite: IML 543. Registration Restriction: Open only to Media Arts, Games and Health majors.  
Instruction Mode: Lecture  
Grading Option: Letter

CTIN 584b Individual Interactive Workshop  
Units: 2  
Terms Offered: FaSpSm  
Description:  
Prerequisite: CTIN 503. Corequisite: IML 543. Registration Restriction: Open only to Media Arts, Games and Health majors.  
Instruction Mode: Lecture  
Grading Option: Letter

CTIN 584c Individual Interactive Workshop  
Units: 0  
Terms Offered: FaSpSm  
Description:  
Prerequisite: CTIN 503. Corequisite: IML 543. Registration Restriction: Open only to Media Arts, Games and Health majors.  
Instruction Mode: Lecture  
Grading Option: Letter

CTIN 590 Directed Research  
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12  
Terms Offered: FaSpSm  
Description: Students from many disciplines work in large teams to create an innovative, large-scale interactive media or game project.  
Instruction Mode: Lecture  
Grading Option: Credit/No Credit

CTIN 591 Advanced Development Project  
Units: 2  
Max Units: 8  
Terms Offered: FaSpSm  
Description:  
Prerequisite: CTIN 503. Corequisite: IML 543. Registration Restriction: Open only to Media Arts, Games and Health majors.  
Instruction Mode: Lecture  
Grading Option: Letter

CTIN 593 Integrative Project: Media-based Interventions in Healthcare  
Units: 2  
Max Units: 4  
Terms Offered: FaSpSm  
Description:  
Prerequisite: CTIN 503. Corequisite: IML 543. Registration Restriction: Open only to Media Arts, Games and Health majors.  
Instruction Mode: Lecture  
Grading Option: Letter

CTPR 290 Cinematic Communication  
Units: 4, 6  
Terms Offered: FaSpSm  
Description:  
Prerequisite: CTIN 503. Corequisite: IML 543. Registration Restriction: Open only to Media Arts, Games and Health majors.  
Instruction Mode: Lecture  
Grading Option: Letter

CTPR 294 Directing in Documentary, Fiction and New Media  
Units: 4  
Terms Offered: FaSpSm  
Description:  
Prerequisite: CTIN 503. Corequisite: IML 543. Registration Restriction: Open only to Media Arts, Games and Health majors.  
Instruction Mode: Lecture  
Grading Option: Letter

CTPR 301 Creating the Non-Fiction Film  
Units: 4  
Terms Offered: FaSpSm  
Description:  
Prerequisite: CTIN 503. Corequisite: IML 543. Registration Restriction: Open only to Media Arts, Games and Health majors.  
Instruction Mode: Lecture  
Grading Option: Letter

CTPR 310 Intermediate Production  
Units: 4, 6  
Terms Offered: FaSpSm  
Description:  
Prerequisite: CTIN 503. Corequisite: IML 543. Registration Restriction: Open only to Media Arts, Games and Health majors.  
Instruction Mode: Lecture  
Grading Option: Letter

CTPR 325 Motion Picture Cinematography  
Units: 3  
Terms Offered: FaSpSm  
Description:  
Prerequisite: CTIN 503. Corequisite: IML 543. Registration Restriction: Open only to Media Arts, Games and Health majors.  
Instruction Mode: Lecture  
Grading Option: Letter

CTPR 335 Motion Picture Editing  
Units: 3  
Terms Offered: FaSpSm  
Description:  
Prerequisite: CTIN 503. Corequisite: IML 543. Registration Restriction: Open only to Media Arts, Games and Health majors.  
Instruction Mode: Lecture  
Grading Option: Letter

CTPR 340 Creating the Motion Picture Soundtrack  
Units: 2  
Terms Offered: FaSpSm  
Description:  
Prerequisite: CTIN 503. Corequisite: IML 543. Registration Restriction: Open only to Media Arts, Games and Health majors.  
Instruction Mode: Lecture  
Grading Option: Letter

CTPR 371 Directing for Television  
Units: 4  
Terms Offered: FaSpSm  
Description:  
Prerequisite: CTIN 503. Corequisite: IML 543. Registration Restriction: Open only to Media Arts, Games and Health majors.  
Instruction Mode: Lecture  
Grading Option: Letter

CTPR 374 Digital Video Production  
Units: 4  
Terms Offered: FaSpSm  
Description:  
Prerequisite: CTIN 503. Corequisite: IML 543. Registration Restriction: Open only to Media Arts, Games and Health majors.  
Instruction Mode: Lecture  
Grading Option: Letter
informational television. Instruction Mode: Lecture Grading Option: Letter
CTPR 375 Functions of a Director
Units: 4 Terms Offered: Sp Theoretical considerations of the director in relationship to the multiple facets of film production. Instruction Mode: Lecture Grading Option: Letter
CTPR 382 Advanced Multi-Camera Television Comedy Pilot
Units: 4 Terms Offered: FaSp A hands-on course which allows students to experience all aspects of multi-camera television production by creating a pilot episode of a situation comedy. Recommended Preparation: experience working at Trojanvision. Instruction Mode: Lecture Grading Option: Letter
CTPR 385 Colloquium: Motion Picture Production Techniques
Units: 4 Terms Offered: FaSpSm Basic procedures and techniques applicable to production of all types of films; demonstration by production of a short film from conception to completion. Instruction Mode: Lecture Grading Option: Letter
CTPR 386 Art and Industry of the Theatrical Film
Units: 4 Terms Offered: FaSp Detailed analysis of one theatrical film from conception through critical reception to develop an understanding of motion pictures as art, craft, and industry. Instruction Mode: Lecture Grading Option: Letter
CTPR 405 Filmic Expression
Units: 4 Terms Offered: Irregular Creative aspects of film production; analysis of audio and visual forces that make the film an expressive means of communication: individual projects. Prerequisite: CTPR 310 Instruction Mode: Lecture Grading Option: Letter
CTPR 406 Visual Story and Communication
Units: 2 Terms Offered: FaSp How visuals communicate emotions and ideas in streaming media, advertising, digital games, business and legal presentations and documentary and scripted filmmaking. Instruction Mode: Lecture Grading Option: Letter
CTPR 409 Practicum in Television Production
Units: 1, 2, 4 Max Units: 08 Terms Offered: FaSp Television production laboratory course covers operating cameras, creating graphics, technical operations, controlling audio and floor-managing live productions. Students plan and produce actual Trojan Vision programs. Instruction Mode: Lecture Grading Option: Letter
CTPR 410 The Movie Business: From Story Concept to Exhibition
Units: 2 Terms Offered: FaSp Examination of the industry from story ideas through script development, production and exhibition; evaluation of roles played by writers, agents, studio executives, marketing and publicity. Instruction Mode: Lecture Grading Option: Letter
CTPR 421 Practicum in Editing
Units: 2 Terms Offered: FaSpSm Workshop in how editing can shape storytelling, using content from a variety of media and in various styles. Modern non-linear equipment and techniques. Prerequisite: CTPR 310 or CTPR 335. Instruction Mode: Lecture Grading Option: Letter
CTPR 422 Makeup for Motion Pictures
Units: 2 Terms Offered: FaSp Lecture-laboratory in makeup relating it to mood of the story and emulsion of the camera stock. Instruction Mode: Lecture, Lab Grading Option: Letter
CTPR 423 Introduction to Special Effects in Cinema
Units: 2 Terms Offered: FaSp Introductory workshop in the aesthetics and practices of special effects, embracing both the classical and contemporary modes. Instruction Mode: Lecture Grading Option: Letter
CTPR 424 Practicum in Cinematography
Units: 2 Terms Offered: FaSp Camera and lighting workshop in color cinematography, beginning with digital still photography and moving into 16mm and advanced digital cameras. In-class exercises. Prerequisite: CTPR 310 or CTPR 327 Instruction Mode: Lecture Grading Option: Letter
CTPR 425 Production Planning
Units: 2 Terms Offered: FaSp Theory, discussion, and practical application of production planning during preproduction and production of a film. Instruction Mode: Lecture Grading Option: Letter
CTPR 426 The Production Experience
Units: 2 Terms Offered: FaSp To provide students with basic working knowledge of both the skills of the motion picture set and production operations through classroom lectures and hands-on experience. Instruction Mode: Lecture Grading Option: Letter
CTPR 427 Introduction to Color Grading
Units: 2 Terms Offered: FaSpSm Exploration of the various aspects of color grading and how it can enhance storytelling. Prerequisite: CTPR 310 or CTPR 508 Instruction Mode: Lecture Grading Option: Letter
CTPR 428 Summer Production Workshop
Units: 2, 3, 4 Max Units: 8.0 Terms Offered: Sm To investigate disciplines of Cinema-TV with emphasis on one of the following areas: writing, directing, editing, camera, sound, editing, producing, interactive, computer animation or digital. Instruction Mode: Lecture Grading Option: Letter
CTPR 431 Developing the Documentary Production
Units: 2 Terms Offered: FaSp The tools and skills necessary to turn an idea into a documentary story, using sample reels, pitches, and writing to develop a professional proposal. Instruction Mode: Lecture Grading Option: Letter
CTPR 438 Practicum in Producing
Units: 2 Terms Offered: FaSpA comprehensive overview of the role of the producer. How projects are conceived, developed, packaged, financed and marketed. Prerequisite: CTPR 310 or CTPR 425. Instruction Mode: Lecture Grading Option: Letter
CTPR 440 Practicum in Sound
Units: 2 Max Units: 4.0 Terms Offered: FaSp Aesthetics and technical skills of production and postproduction sound necessary to create a motion picture soundtrack. Prerequisite: CTPR 310 or
CTPR 459 Introduction to Media and Social Change
Units: 4
The history and theory of media and social change, including various disciplines and approaches: social marketing, communication campaign design, entertainment-education and specific media. Instruction Mode: Lecture Grading Option: Letter

CTPR 460 Film Business Procedures and Distribution
Units: 2 or 4 Max Units: 8.0
Terms Offered: FaSpSm Financing, budgeting, management as applied to films; problems of distribution, including merchandising, cataloging, evaluation, and film library management. Instruction Mode: Lecture Grading Option: Letter

CTPR 461 Managing Television Stations and Internet Media
Units: 2
Terms Offered: FaSpSm Managing electronic media, including radio and television stations, broadcast and cable networks, and the Internet. Instruction Mode: Lecture Grading Option: Letter

CTPR 462 Masters of Directorial Style
Units: 2
Terms Offered: FaSp The study of exceptional directors from different eras with contrasting stylistic approaches, and how these techniques can creatively inform the student’s own work. Instruction Mode: Lecture Grading Option: Letter

CTPR 464 Directing the Television Sketch Comedy Show
Units: 2
Terms Offered: FaSp Concepts and skills in directing sketch comedy shows, using the techniques of live television. Hands-on experience on live weekly shows. Recommended Preparation: CTPR 371 or CTPR 476 or CTPR 484 or CTPR 523 or CTPR 532. Instruction Mode: Lecture Grading Option: Letter

CTPR 465 Practicum in Production Design
Units: 2
Terms Offered: FaSpPractical instruction in script breakdown, location surveys, traditional and computer-aided working drawings, model making, set decoration, construction and scenic departments. Prerequisite: CTPR 310 or CTPR 456 Instruction Mode: Lecture Grading Option: Letter

CTPR 466 The Art of the Pitch
Units: 2
Terms Offered: FaSpSm Presenting ideas for feature and television projects to buyers: shaping ideas for pitching, assessing and targeting the marketplace, in-class pitching of projects. Prerequisite: CTPR 310. Instruction Mode: Lecture Grading Option: Letter

CTPR 469 Creating Webisodes
Units: 2
Max Units: 4
Terms Offered: FaSp Production of a fully realized pilot episode, series bible and sizzle reel for a web series. Prerequisite: CTPR 310 or CTPR 508 Instruction Mode: Lecture Grading Option: Letter

CTPR 470 Practicum in On-screen Direction of Actors
Units: 4
Terms Offered: FaSp Concentration on the basic skills in working with actors from a director’s point of view. Instruction Mode: Lecture Grading Option: Letter

CTPR 473 Spotting Music for Cinema
Units: 2
Terms Offered: FaSp A real world approach to spotting music for film: why film music exists and the many ways it is used in storytelling. For filmmakers as well as composers. Instruction Mode: Lecture Grading Option: Letter

CTPR 474 Documentary Production
Units: 4
Terms Offered: FaSpSm Pairs produce, direct, shoot, and edit a short documentary on a subject of their choice. Finished projects will be suitable for broadcast/festivals. Instruction Mode: Lecture Grading Option: Letter

CTPR 476 Directing The Comedic Scene
Units: 2
Terms Offered: FaSpSm Directing comedy: casting, rehearsing, directing actors, scene analysis, staging, shooting, and editing, leading to the filming of a two-person comic scene. Instruction Mode: Lecture Grading Option: Letter

CTPR 477 Collaborative Directing for Film and Television
Units: 2, 4
Terms Offered: FaSp Directing individual episodes of a composite feature-length film, in collaboration with other student directors. Prerequisite: CTPR 476 or CTPR 478 or CTPR 532 Instruction Mode: Lecture Grading Option: Letter

CTPR 478 Practicum in Directing
Units: 2
Terms Offered: FaSp Concepts of directing for motion pictures, emphasizing the working relationship of actors and directors. Scenes will be staged in class and filmed for class presentation. Prerequisite: CTPR 310. Instruction Mode: Lecture Grading Option: Letter

CTPR 479 Straight to Series: Development of Episodic TV Drama
Units: 2
Terms Offered: FaSp Collaborative writing, preproduction and shooting of a pilot act for an original episodic television drama, shot on stage sets built for the show. Instruction Mode: Lecture Grading Option: Letter

CTPR 480 Advanced Production Workshop
Units: 4
Terms Offered: FaSpSm Directors, producers, cinematographers, editors and sound designers collaborate to produce, shoot, edit and deliver fictional, documentary, experimental projects. Prerequisite: CTPR 450 Recommended Preparation: CTPR 478 required to direct Registration Restriction: Open only to Film and Television Production majors Instruction Mode: Lecture Grading Option: Letter

CTPR 481 Contemporary Directing Practice
Units: 4
Terms Offered: FaSp Directing seven short projects ranging from short exercises to a scripted and polished final project. Focus will be upon development as a director. Prerequisite: CTPR 478 Registration Restriction: Open only to Cinematic Arts, Film and Television Production majors Instruction Mode: Lecture Grading Option: Letter

CTPR 484 Advanced Multi-Camera Television Workshop
Units: 4
Max Units: 0
Terms Offered: FaSpExercises and practical application for writing and producing a multi-camera television project. Special attention to the development of the sitcom. Recommended Preparation: CTPR 371 required for undergraduate students who wish to direct a sitcom and CTPR 523 for graduate students who wish to direct. Instruction Mode: Lecture Grading Option: Letter

CTPR 486 Straight to Series: Production of Episodic TV Drama
Units: 4
Max Units: 0
Terms Offered: FaSpSm Collaborative production and postproduction of an original episodic drama, shot on original sets on stage and on location. Prerequisite: CTPR 450 or CTPR 504 or CTPR 508 Instruction Mode: Lecture, Lab Grading Option: Letter

CTPR 487 Recording for Film Scores
Units: 2
Terms Offered: FaSpSm Exploration of the role of the recording studio in professional film and video productions. Emphasis on technical and hardware considerations. Instruction Mode: Lecture Grading Option: Letter

CTPR 496 The Film Industry: Career Challenges and Choices for Women
Units: 2
Terms Offered: FaSpSm This class discusses women's roles in the entertainment industry and career opportunities available for women in the business, corporate and creative sectors. Instruction Mode: Lecture Grading Option: Letter

CTPR 497 Music Video and Commercial Production
Units: 2
Terms Offered: FaSpSm Writing, budgeting, shooting, editing and directing a music video and commercial. Getting the job, dealing with the band, working with the record and advertising companies. Prerequisite: CTPR 310 or CTPR 508 Instruction Mode: Lecture Grading Option: Letter

CTPR 499 Special Topics
Units: 2, 3, 4
Max Units: 8.0
Terms Offered: FaSpSm Foundations for fruitful collaborative experiences via readings, presentations, in-class exercises and real-life challenges and advice from professionals. Instruction Mode: Lecture Grading Option: Letter

CTPR 502 Collaboration and Creativity
Units: 1
Terms Offered: FaSpSm Foundations for fruitful collaborative experiences via readings, presentations, in-class exercises and real-life challenges and advice from professionals. Instruction Mode: Lecture Grading Option: Letter

CTPR 504 Fundamentals of Production
Units: 4
Terms Offered: FaSpSm Each student writes/directs a group exercise, includes: collaboration, script breakdown, story beats, casting, directing, camera operation, expressive cinematography, scene structure, AVID, editing and sound design. Instruction Mode: Lecture Grading Option: Credit No Credit

CTPR 506 Visual Expression
Units: 2
Terms Offered: FaSpSm Exploring the relationship between story structure and visual structure, discussion of aesthetics and technical controls, in-class examples and screenings, photographic assignments. Prerequisite: CTAN 547 or CTIN 534L or CTPR 504 or CTPR 507 Instruction Mode: Lecture Grading Option: Letter

CTPR 507 Production I
Units: 4
Terms Offered: FaSpSm The effective communication of ideas through the language of cinema: one directing exercise; two short HD projects; introductions to producing, directing,
COURSES OF INSTRUCTION 907

edits, cinematography, and sound. Instruction Mode: Lecture, Lab Grading Option: Letter

CTPR 508 Production II Units: 6 Terms Offered: FaSpSm Practicum in group production, emphasizing the collaborative process and the expressive use of sound and image. Prerequisite: CTPR 507 and CTWR 505 Registration Restriction: 2 Open only to graduate students Instruction Mode: Lecture, Lab Grading Option: Letter

CTPR 510 Concepts of Cinematic Production Units: 2 Terms Offered: FaSpSm Overview of the process of making media. Introduces fundamental thinking typical of each craft. Presents realities of careers and ethical issues in media. Corequisite: CTPR 507. Instruction Mode: Lecture Grading Option: Letter

CTPR 515 Global Exchange Workshop Units: 2 Max Units: 04 Terms Offered: Sm An intense workshop in documentary filmmaking. Student teams from USC and a Chinese university make short documentaries in Los Angeles, San Francisco, and Beijing as global cities. Instruction Mode: Lecture Grading Option: Letter

CTPR 522 Reality Television Survey Units: 2 Terms Offered: FaSpSm A comprehensive overview of the world of reality television; each student will design and pitch an original reality-based program. Instruction Mode: Lecture Grading Option: Letter

CTPR 523 Introduction to Multiple-Camera Production Units: 2 Terms Offered: FaSp How to direct comedy or dramatic scenes, using multiple camera techniques. Students also serve as crew members, learning lighting, mixing, studio controls, and stage management. Prerequisite: CTPR 506. Instruction Mode: Lecture Grading Option: Letter

CTPR 531 Planning the Documentary Production Units: 2 Terms Offered: FaSpSm A preproduction workshop for the research and planning of a documentary project to be executed in CTPR 547 or an advanced production workshop class. Prerequisite: CTPR 508. Instruction Mode: Lecture, Discussion Grading Option: Letter

CTPR 532 Intermediate Directing Units: 2 Terms Offered: FaSp Practical experience in staging dramatic narrative scenes, emphasizing directing actors, rehearsal techniques and camera blocking. Prerequisite: CTPR 508. Instruction Mode: Lecture Grading Option: Letter

CTPR 533 Directing Techniques Units: 2 Terms Offered: FaSpSm Practicum in more complex directing issues concentrating both on performance and exploration of shaped scenes visually through blocking of action and placement of camera. Prerequisite: CTPR 532. Instruction Mode: Lecture Grading Option: Letter

CTPR 534 Intermediate Production Design Units: 2 Terms Offered: Irregular Exercises concentrating on script analysis, blocking the scene, ground plans, elevations, visual research and concepts, departmental collaboration, and presentation of work. Prerequisite: CTPR 508 Instruction Mode: Lecture, Discussion Grading Option: Letter

CTPR 535 Intermediate Editing Units: 2 Terms Offered: FaSp Editorial construction of film sequences to analyze the interrelationships of the various film elements, both visual and aural. Prerequisite: CTPR 508 or CTAN 547. Instruction Mode: Lecture Grading Option: Letter

CTPR 536 Editing for Scriptwriters Units: 2 Terms Offered: FaSpPrinciples, techniques, practices and theories of editorial construction of film and TV scenes and sequences. Prerequisite: CTRW 536. Instruction Mode: Lecture Grading Option: Letter

CTPR 537 Intermediate Cinematography Units: 2 Terms Offered: FaSp Close study through practical in class exercises of the technical and aesthetic principles of cinematography. Introduction to 16mm film and advanced digital cameras. Prerequisite: CTPR 508 or CTAN 547. Instruction Mode: Lecture Grading Option: Letter

CTPR 538 Intermediate Producing Units: 2 Terms Offered: FaSp Definition, examination and practical experience in the role of the line producer as it relates to preproduction, production and post production. Prerequisite: CTPR 508. Instruction Mode: Lecture Grading Option: Letter

CTPR 540 Intermediate Sound Units: 2 Terms Offered: FaSp Practical and aesthetic considerations relating to recording, editing and sound design. Prerequisite: CTPR 507 or CTAN 547. Instruction Mode: Lecture Grading Option: Letter

CTPR 543 Editing the Advanced Project Units: 2 Terms Offered: Irregular Utilitarian seminar focused on editing advanced projects. Corequisite: CTPR 481a, CTPR 581a or CTPR 587a. Instruction Mode: Lecture Grading Option: Letter

CTPR 546 Intermediate Editing II Units: 2 Terms Offered: FaSpSm Practicum in group production, emphasizing the collaborative process and the expressive use of sound and image. Prerequisite: CTPR 508 and CTWR 505 Registration Restriction: 2 Open only to graduate students Instruction Mode: Lecture, Lab Grading Option: Letter

CTPR 547L Production III, Fiction Units: 6 Max Units: 12.0 Terms Offered: FaSp An intensive workshop experience in which students, shooting in their area of specialization, complete the shooting and postproduction of projects up to thirty minutes in length. Qualifying courses: for directors, CTPR 532, and for cinematographers, CTPR 537. Prerequisite: CTPR 508. Instruction Mode: Lab Required, Lecture Grading Option: Letter

CTPR 547L Production III, Documentary Units: 6 Max Units: 12.0 Terms Offered: FaSp Intensive workshop; students shoot and finish documentary projects up to about 25 minutes. Qualifying courses: for directors, CTPR 431 or CTPR 531; for cinematographers, CTPR 424 or CTPR 537. Prerequisite: CTPR 450 or CTPR 508 Instruction Mode: Lecture, Lab Required Grading Option: Letter

CTPR 551 Directing in a Virtual World Units: 2 Terms Offered: FaSp Telling cinematic stories using visual effects and virtual backgrounds, environments, and characters. Hands-on exercises emphasizing directing. Prerequisite: CTAN 462; Recommended Preparation: CTAN 555 or CTPR 532 or CTPR 537.

Registration Restriction: Open only to Cinematic Arts students. Instruction Mode: Lecture Grading Option: Letter

CTPR 552 Advanced Directing Units: 2 Terms Offered: FaSpSm Studying an advanced production class in directing. Encounters with experienced directors; and individual student production of a short. Prerequisite: CTPR 532 Recommended Preparation: CTPR 533 Instruction Mode: Lecture, Discussion Grading Option: Letter

CTPR 554 Advanced Sound Units: 2 Terms Offered: FaSpSm Study of the technical and aesthetic elements of sound design at the professional level. Intended for those contemplating a career in the field of audio. Prerequisite: CTPR 540 or one of the following in equivalent crew position: CTPR 546L or CTPR 547L. Instruction Mode: Lecture, Lab Grading Option: Letter

CTPR 555 Advanced Production Design Units: 2 The execution of a production designer’s in-depth analysis and fully detailed breakdown of a feature-length script for story, character, sets, locations, set dressing, props, fabrics, color and texture. Prerequisite: CTPR 534 Instruction Mode: Lecture, Discussion Grading Option: Letter

CTPR 556 Advanced Professional Editing Tools and Software Units: 2 Terms Offered: FaSpSm Advanced editing tools for picture editors, picture editing assistants, DIT, post supervisors and VFX editors, including AVID, After Effects, Photoshop, Scriptsync, Davinci Resolve and more. Prerequisite: CTPR 421 or CTPR 535 or CTPR 480 or CTPR 484 or CTPR 486 or CTPR 546L or CTPR 547L Instruction Mode: Lecture Grading Option: Letter

CTPR 557 Advanced Cinematography Units: 2 Terms Offered: FaSpSm Advanced camera and lighting techniques for those considering a professional career in cinematography. Prerequisite: CTPR 424 or CTPR 537 Instruction Mode: Lecture Grading Option: Letter

CTPR 558 Advanced Producing Units: 2 Terms Offered: FaSpSm Defines and examines the role of the Executive/Feature Producer through the preproduction, production and post production phases. Prerequisite: CTPR 538 or one of the following in equivalent crew position: CTPR 486, CTPR 546, CTPR 547. Instruction Mode: Lecture Grading Option: Letter

CTPR 559 Making Media for Social Change Units: 2 Terms Offered: FaSp Each student will produce and direct a film incorporating a social issue of his/her choice into the narrative of the film. Prerequisite: CTPR 310 or CTPR 508. Instruction Mode: Lecture Grading Option: Letter

CTPR 566 The Pitch Class: Film and TV Units: 2 Terms Offered: FaSp Developing, pitching and selling your feature motion picture and TV projects. Registration Restriction: Open only to seniors and master students in the USC School of Cinematic Arts Instruction Mode: Lecture Grading Option: Letter
CTPR 572 The World of Television: From Concept to Air and Everything in Between
Units: 2
Terms Offered: FaSp
Prerequisites: CTPR 508
Description: The course provides a comprehensive overview of the television production industry, including production, research, and marketing. Students will develop original projects and gain practical experience in television production.

CTPR 573 Developing and Producing the Advanced Project
Units: 2
Terms Offered: FaSp
Prerequisite: CTPR 508
Description: This course provides the tools and knowledge for students to develop and produce an advanced project, either individually or in a group, under the guidance of a faculty mentor. Students will have access to university equipment and resources.

CTPR 581a Individual Production Workshop
Units: 4
Terms Offered: FaSp
Prerequisite: CTPR 532
Description: This course is designed for students who want to work in pairs. It focuses on the creative use of visuals (live action or animated) and sound. Students will work on a group project involving the creative use of visuals (live action or animated) and sound. Graded IP/Letter.

CTPR 581b Individual Production Workshop
Units: 2
Terms Offered: FaSp
Prerequisite: CTPR 532
Description: This course is designed for students who want to work individually. It focuses on the creative use of visuals (live action or animated) and sound. Graded IP/Letter.

CTPR 581c Individual Production Workshop
Units: 2
Terms Offered: FaSp
Prerequisite: CTPR 532
Description: This course is designed for students who want to work individually. It focuses on the creative use of visuals (live action or animated) and sound. Graded IP/Letter.

CTPR 582a Advanced Production Seminar
Units: 2
Terms Offered: FaSp
Prerequisite: CTPR 532
Description: This course is designed for students who want to work individually. It focuses on the creative use of visuals (live action or animated) and sound. Graded IP/Letter.

CTPR 582b Advanced Production Seminar
Units: 2
Terms Offered: FaSp
Prerequisite: CTPR 532
Description: This course is designed for students who want to work individually. It focuses on the creative use of visuals (live action or animated) and sound. Graded IP/Letter.

CTPR 582z Advanced Production Seminar
Units: 0
Terms Offered: FaSp
Prerequisite: CTPR 532
Description: This course is designed for students who want to work individually. It focuses on the creative use of visuals (live action or animated) and sound. Graded IP/Letter.

CTPR 583 Graduate Television Production
Units: 6
Terms Offered: FaSp
Prerequisite: CTPR 532
Description: This course is designed for students who want to produce an advanced multi-camera project. It focuses on the creative use of visuals (live action or animated) and sound. Students will work on a group project involving the creative use of visuals (live action or animated) and sound. Graded IP/Letter.

CTPR 585a Advanced Producing Project
Units: 2
Terms Offered: FaSp
Prerequisite: CTPR 532
Description: This course is designed for students who want to produce an advanced project involving the creative use of visuals (live action or animated) and sound. Students will develop a comprehensive producer's package, including script, schedule, budget, finance, and marketing plan. Graded IP/Letter.

CTPR 585b Advanced Producing Project
Units: 2
Terms Offered: FaSp
Prerequisite: CTPR 532
Description: This course is designed for students who want to produce an advanced project involving the creative use of visuals (live action or animated) and sound. Students will develop a comprehensive producer's package, including script, schedule, budget, finance, and marketing plan. Graded IP/Letter.

CTPR 585z Advanced Producing Project
Units: 0
Terms Offered: FaSp
Prerequisite: CTPR 532
Description: This course is designed for students who want to produce an advanced project involving the creative use of visuals (live action or animated) and sound. Students will develop a comprehensive producer's package, including script, schedule, budget, finance, and marketing plan. Graded IP/Letter.

CTSE 593a Master's Seminar
Units: 2
Terms Offered: FaSp
Prerequisite: CTPR 532
Description: This course is designed for master's candidates who want to work in pairs. It focuses on the creative use of visuals (live action or animated) and sound. Students will develop a comprehensive producer's package. Graded IP/Letter.

CTPR 594a Master's Thesis
Units: 2
Terms Offered: FaSp
Prerequisite: CTPR 532
Description: This course is designed for students who want to work in pairs. It focuses on the creative use of visuals (live action or animated) and sound. Students will develop a comprehensive producer's package. Graded IP/Letter.

CTPR 594b Master's Thesis
Units: 2
Terms Offered: FaSp
Prerequisite: CTPR 532
Description: This course is designed for students who want to work in pairs. It focuses on the creative use of visuals (live action or animated) and sound. Students will develop a comprehensive producer's package. Graded IP/Letter.

CTPR 594z Master's Thesis
Units: 0
Terms Offered: FaSp
Prerequisite: CTPR 532
Description: This course is designed for students who want to work in pairs. It focuses on the creative use of visuals (live action or animated) and sound. Students will develop a comprehensive producer's package. Graded IP/Letter.

CTPR 599 Special Topics
Units: 2, 3, 4 Max Units: 8.0
Terms Offered: Irregular Detailed investigation of new or emerging aspects of cinema; special subjects offered by visiting faculty; experimental subjects. Graded IP/Letter.

Curriculum, Teaching and Special Education
CTSE 593a Master's Seminar
Units: 2
Terms Offered: FaSp
Prerequisite: CTPR 532
Description: This course is designed for students who want to work in pairs. It focuses on the creative use of visuals (live action or animated) and sound. Students will develop a comprehensive producer's package. Required of all master's candidates who do
not enroll in the Master's Thesis (594abz).

**Instruction Mode:** Lecture

**Grading Option:** Credit/No Credit

**CTSE 593b Master's Seminar**

Units: 2

Terms Offered: FaSp

Prerequisite: CTWR 412 or CTWR 413

Recommended Preparation: CTIN 488

**Instruction Mode:** Lecture

**Grading Option:** Letter

**CTWR 321 Introduction to Hour-Long Television Writing**

Units: 2

Terms Offered: FaSp

Prerequisite: CTWR 404 or CTWR 413

Recommended Preparation: CTIN 488

**Instruction Mode:** Lecture

episodic television. Examination of situation comedies and dramas through weekly screenings and lectures. **Instruction Mode:** Lecture **Grading Option:** Letter

**CTWR 412 Introduction to Screenwriting**

Units: 2 Exposition of the formal elements of writing the short film. **Instruction Mode:** Lecture **Grading Option:** Letter

**CTWR 413 Writing the Short Script I**

Units: 2 Preparation of scripts for short films. Format, structure, planning. **Registration Restriction:** Open only to Cinematic Arts Film and Television production majors. **Instruction Mode:** Lecture **Grading Option:** Letter

**CTWR 414 The Screenplay**

Units: 2 Students study story structure and develop several story outlines, write a short script that can be produced, while character, world creation and story lines for season one. **Final Requirement:** Letter

**CTWR 415a Advanced Writing**

Units: 2 Principles of the feature film: creation of a theme, character and structure that evolve into a feature-length story treatment. **Prerequisite:** CTWR 412 or CTWR 413. **Recommended Preparation:** CTWR 416. **Instruction Mode:** Lecture **Grading Option:** Letter

**CTWR 415b Advanced Writing**

Units: 2 Write a script with extensive work-shopping of scenes in class leading to a revised draft and as a final assignment. **Instruction Mode:** Lecture **Grading Option:** Letter

**CTWR 416 Motion Picture Script Analysis**

Units: 2 Critical analysis of story structure from classic films to contemporary works. Identification of key story concepts and elements of three-act structure. **Instruction Mode:** Lecture **Grading Option:** Letter

**CTWR 417 Script Coverage and Story Analysis**

Units: 2 Offered: FaSp Evaluation of completed scripts prior to their production. Coverage and analysis of scripts as potential properties from the perspective of a production company. **Instruction Mode:** Lecture **Grading Option:** Letter

**CTWR 418a Senior Thesis**

Units: 4 Offered: Fa Creation of a feature-length treatment and first draft senior thesis screenplay, including completing a feature-length treatment. **Instruction Mode:** Lecture **Grading Option:** Letter

**CTWR 418b Senior Thesis**

Units: 4 Offered: Sp Completion and revision of senior thesis project and introduction to motion picture industry procedures and practices through interaction with industry representatives. **Prerequisite:** CTWR 305. **Instruction Mode:** Lecture **Grading Option:** Letter

**CTWR 419a Senior Thesis in Dramatic Television**

Units: 4 Offered: Fa Advanced workshop developing an original hour-long dramatic series including characters, world, and story lines for season one. Final assignment is completed hour-long pilot episode. **Prerequisite:** CTWR 305 and CTWR 421. **Recommended Preparation:** CTWR 411. **Instruction Mode:** Lecture **Grading Option:** Letter

**CTWR 419b Senior Thesis in Dramatic Television**

Units: 4 Offered: Sp Revision of original pilot script, writing of mid-season episode, and completion of bible for original dramatic series developed in first semester. **Instruction Mode:** Lecture **Grading Option:** Letter

**CTWR 420a Senior Thesis in Half-Hour Television Comedy**

Units: 4 Intense study in developing an original half-hour television comedy pilot including special attention to development of multiple seasons and character evolution. **Prerequisite:** CTWR 437 or CTWR 439. **Recommended Preparation:** CTWR 404. **Registration Restriction:** Open only to Writing for Television and Screen majors. **Instruction Mode:** Lecture **Grading Option:** Letter

**CTWR 420b Senior Thesis in Half-Hour Television Comedy**

Units: 4 Rewrite, casting, and stage performance of comedy development process. A rewrite of the final draft and completion of the series bible with multiple seasons. **Prerequisite:** CTWR 420a. **Registration Restriction:** Open only to Writing for Television and Screen majors. **Instruction Mode:** Lecture **Grading Option:** Letter

**CTWR 421 Writing the Hour-Long Dramatic Series**

Units: 2 Max Units: 4 Writing an episode of an existing dramatic television series within the hour-long format with an emphasis on stage, pitch, character, and structure. **Prerequisite:** CTWR 321 or CTWR 324 or CTWR 514a or CTWR 529. **Recommended Preparation:** CTWR 411 **Instruction Mode:** Lecture **Grading Option:** Letter

**CTWR 422 Creating the Dramatic Television Series**

Units: 2 Max Units: 4, 0 Terms Offered: FaSpExamination of the creation of the world, characters, and concept for an original hour-long dramatic series. Writing an outline for an original dramatic pilot. **Instruction Mode:** Lecture **Grading Option:** Letter

**CTWR 430 Comedy Writers and Their Work**

Units: 2 Max Units: 06 Terms Offered: FaSp Detailed investigation of specific comedy writers, comedy genres, and the works they've influenced. Lectures include screenings and visiting screenwriters. **Instruction Mode:** Lecture **Grading Option:** Letter

**CTWR 431 Screenwriters and Their Work**

Units: 2 Max Units: 6 Terms Offered: FaSpSmDetailed investigation of a specific screenwriter's style and the works they've influenced. Lectures include screenings and visiting screenwriters. **Instruction Mode:** Lecture **Grading Option:** Letter

**CTWR 432 Television Writers and Their Work**

Units: 2 Max Units: 06 Terms Offered: FaSp Detailed investigation of various television writers' styles, the works they've created, and the works they've influenced. Lectures include screenings and visiting television writers. **Instruction Mode:** Lecture **Grading Option:** Letter

**CTWR 433 Adaptations: Transferring Existing Work to the Screen**

Units: 2 Terms Offered: FaAn examination of motion picture adaptations; problems attendant upon translating a novel, play, or other creative forms into screenplays. **Prerequisite:** CTWR 206b or CTWR 414 or CTWR 514a or CTWR 529. **Instruction Mode:** Lecture **Grading Option:** Letter

**CTWR 434 Writing the Half-Hour Comedy Series**

Units: 2 Max Units: 6 Writing an episode of an existing half-hour comedy series, with emphasis on the comedy, comedic structure, and character. **Prerequisite:** CTWR 321 or CTWR 324 or CTWR 529. **Recommended Preparation:** CTWR 416. **Instruction Mode:** Lecture **Grading Option:** Letter

**CTWR 435 Writing for Film and Television Genres**

Units: 2, 3, 4 Max Units: 08 Terms Offered: FaSp Preparation of proposals and scripts for different types of film or television programming: emphasis on concept, structure, characterization, and format. **Prerequisite:** CTWR 206b or CTWR 415b. **Recommended Preparation:** CTWR 416 **Instruction Mode:** Lecture **Grading Option:** Letter

**CTWR 437 Writing the Original Situation Comedy Pilot**

Units: 4 Max Units: 8 Advanced workshop for writing an original half-hour comedy series, including a pilot script, summary of characters, and story lines for first season. **Prerequisite:** CTWR 421 or CTWR 434. **Recommended Preparation:** CTWR 411 **Instruction Mode:** Lecture **Grading Option:** Letter

**CTWR 438 Linked Narrative Storytelling for the Web**

Units: 2, 4 Max Units: max 8 Terms Offered: FaSpCreate, develop, and execute episodic video content for the web. Focus on content and characters that are viable in the internet landscape. **Prerequisite:** CTWR 206b or CTWR 414 or CTWR 514b or CTWR 529. **Instruction Mode:** Lecture **Grading Option:** Letter

**CTWR 439 Writing the Original Dramatic Series Pilot**

Units: 4 Max Units: 8 Terms Offered: FaSp An advanced workshop in which students create an original dramatic series, including a first script and a summary of characters and storylines. **Prerequisite:** CTWR 421 or CTWR 434. **Instruction Mode:** Lecture **Grading Option:** Letter

**CTWR 441 Writing Workshop in Creativity and Imagination**

Units: 2 Terms Offered: FaSp Students will explore a variety of problem-solving techniques to strengthen their creative work and apply these techniques to individual writing projects. **Instruction Mode:** Lecture **Grading Option:** Letter

**CTWR 449 Rewriting the Original Dramatic Series Pilot**

Units: 4 Max Units: 8 Terms Offered: FaSp An advanced workshop in which an original hour-long television pilot will be rewritten with emphasis on character, world creation and
future story lines. Prerequisite: CTWR 439; Recommended Preparation: CTWR 411. Instruction Mode: Lecture Grading Option: Letter

CTWR 453 Advanced Feature Rewriting Units: 4 Max Units: 8 Terms Offered: FaSpSm An advanced workshop in which a feature length screenplay will be rewritten using a specific methodology that focuses on a micro to macro approach to revision. Prerequisite: CTWR 305 or CTWR 415b Instruction Mode: Lecture Grading Option: Letter

CTWR 459a Entertainment Industry Seminar Units: 2 Terms Offered: Fa Examination and analysis of various topics, issues and resources pertaining to creative, legal and business perspectives for writers in the entertainment industry. Prerequisite: CTWR 459a for CTWR 459b. Instruction Mode: Lecture Grading Option: Letter

CTWR 459b Entertainment Industry Seminar Units: 2 Terms Offered: Sp Examination and analysis of various topics, issues and resources pertaining to creative, legal and business perspectives for writers in the entertainment industry. Prerequisite: CTWR 459a for CTWR 459b. Instruction Mode: Lecture Grading Option: Letter

CTWR 468 Screenwriting in Collaboration Units: 4 Max Units: 8 Terms Offered: Sp Writing an original screenplay or pilot collaboratively with a partner, with special attention paid to the writing team dynamic and the ‘third’ writer’s voice. Prerequisite: CTWR 305 or CTWR 415b or CTWR 514b or CTWR 533a; Recommended Preparation: CTWR 416 or CTWR 516. Instruction Mode: Lecture Grading Option: Letter

CTWR 477 Staff Writing the Sketch Comedy Show Units: 2 Max Units: 6 Terms Offered: Sp Staff writing a sketch comedy show with emphasis on creating comedic characters, practical monologue writing, and joke construction. A live show will be produced. Prerequisite: CTWR 404. Instruction Mode: Lecture Grading Option: Letter

CTWR 487 Staff Writing the Multi-Camera Television Series Units: 2 Terms Offered: Fa Working on the writing staff of an original multi-camera television series, with emphasis on the writers’ room experience and how to execute produce an episode. Prerequisite: CTWR 434. Instruction Mode: Lecture Grading Option: Letter

CTWR 489a Straight to Series: Writing and Producing the Episodic Drama Units: 2, 4 Terms Offered: FaSp Staff writing and producing the original episodic drama, from development to post-production. Prerequisite: CTWR 321 or CTWR 413 or CTWR 505 or CTWR 513 Recommended Preparation: CTWR 411 Duplicates Credit in former CTWR 489 Instruction Mode: Lecture Grading Option: Letter

CTWR 489b Straight to Series: Writing and Producing the Episodic Drama Units: 2, 4 Terms Offered: FaSp Staff writing and producing the original episodic drama, from development to post-production. Prerequisite: CTWR 489a Recommended Preparation: CTWR 411 Duplicates Credit in former CTWR 489 Instruction Mode: Lecture Grading Option: Letter

CTWR 497 Staff Writing the Single-Camera Half-Hour Series Units: 4 Max Units: 6 Terms Offered: Fa Working on the writing staff for an original single-camera half-hour television series, with emphasis on the writers’ room experience and challenges of single-camera half-hour television. Prerequisite: CTWR 434 or CTWR 534; Recommended Preparation: CTWR 404. Instruction Mode: Lecture Grading Option: Letter

CTWR 499 Special Topics Units: 2, 3, 4 Max Units: 8.0 Terms Offered: FaSpSm Detailed investigation of new or emerging aspects of cinema and/ or television; special subjects offered by visiting faculty; experimental subjects. Instruction Mode: Lecture Grading Option: Letter

CTWR 502 Graduate Writing Symposium Units: 1 Terms Offered: Sp A survey of the creative and professional range of the working screenwriter. Recommended Preparation: CNTV 501. Instruction Mode: Lecture Grading Option: Credit/No Credit

CTWR 505 Creating the Short Film Units: 2 Terms Offered: FaSp Strengthening and deepening the ability to conceive and develop ideas that will lead to compelling, authentic, and personally meaningful films. Concurrent Enrollment: Concurrent enrollment with CTWR 510. Duplicates Credit in CTWR 528. Instruction Mode: Lecture Grading Option: Letter

CTWR 509 Understanding the Process of Film Making Units: 2 Terms Offered: Sp An introduction for screenwriters to the process of creating a feature film, from script through release print, including pre-production, production and post-production. Instruction Mode: Lecture Grading Option: Letter

CTWR 510 Fundamentals of Storytelling for Animation Units: 2 Terms Offered: FaSp Introduction to the fundamentals of storytelling with techniques and practices that work best for animated stories. Instruction Mode: Lecture Grading Option: Letter

CTWR 512 Writing the Short Script Units: 2 Terms Offered: FaSp Preparation of scripts for short films; dramatic, informational, experimental, and other forms. Concurrent Enrollment: Concurrent enrollment: CTWR 514a. Instruction Mode: Lecture Grading Option: Letter

CTWR 514a Basic Dramatic Screenwriting Units: 2 Terms Offered: Fa Dramaturgy for the fiction and nonfiction work. Techniques for creating the original or adapted theatrical screenwriting. Open to graduate screenwriting majors (CTWR) and dramatic writing (Theatre) majors only. Emphasizes narrative development, through short scripts, sequences, and story outlines. Concurrent Enrollment: Concurrent enrollment: CTWR 513. Instruction Mode: Lecture Grading Option: Letter

CTWR 514b Basic Dramatic Screenwriting Units: 2 Terms Offered: Sp Dramaturgy for the fiction and nonfiction work. Techniques for creating the original or adapted theatrical script. Open to graduate screenwriting majors (CTWR) and dramatic writing (Theatre) majors only. Development of an outline and feature film script. Instruction Mode: Lecture Grading Option: Letter

CTWR 515a Practicum in Screenwriting Units: 4 Terms Offered: FaSp Creation of a feature screenplay from presentation through treatment, including some scene work. Prerequisite: CTWR 514a; CTWR 515a for CTWR 515b; CTWR 515b for CTWR 515c; CTWR 515c for CTWR 515d. Instruction Mode: Lecture Grading Option: In-progress & Letter Grade

CTWR 515b Practicum in Screenwriting Units: 4 Terms Offered: FaSp Comprehensive rewriting of a second and third draft of a feature screenplay leading to a polished and professional rewrite. Prerequisite: CTWR 514a; CTWR 515a for CTWR 515b; CTWR 515b for CTWR 515c; CTWR 515c for CTWR 515d. Instruction Mode: Lecture Grading Option: In-progress & Letter Grade

CTWR 515d Practicum in Screenwriting Units: 1 Terms Offered: FaSp Supervised rewrite of feature screenplay. Prerequisite: CTWR 514a; CTWR 515a for CTWR 515b; CTWR 515b for CTWR 515c; CTWR 515c for CTWR 515d. Instruction Mode: Lecture Grading Option: Letter

CTWR 516 Advanced Motion Picture Script Analysis Units: 2 Terms Offered: FaSp Critical analysis of the structure of films from the classics to current award winners. Students will learn how to identify key story concepts and break down three act structure in finished films and scripts. Instruction Mode: Lecture Grading Option: Letter

CTWR 517a Thesis in Half-Hour Television Comedy Units: 4 Terms Offered: Fa Developing an original half-hour comedy television series, including characters, world and storylines for season one. Completion of a first draft script, pilot, and series bible. Prerequisite: CTWR 514b; Corequisite: CTWR 534. Registration Restriction: Open only to Writing for Screen and Television master students. Instruction Mode: Lecture Grading Option: Letter

CTWR 517b Thesis in Half-Hour Television Comedy Units: 4 Terms Offered: Fa Developing an original half-hour comedy television series, including characters, world and storylines for season one. Completion of a first draft script, pilot, and series bible. The re-write, casting, and performance stages of television comedy development. The completion of a final draft of the pilot script and series bible. Prerequisite: CTWR 514b; Corequisite: CTWR 534. Registration Restriction: Open only to Writing for Screen and Television master students. Instruction Mode: Lecture Grading Option: Letter
**CTWR 518 Introduction to Interactive Writing**
- Units: 2
- Terms Offered: FaSp
- Corequisite: CTWR 518

**CTWR 519a Thesis in Television Drama**
- Units: 4
- Prerequisite: CTWR 514a

**CTWR 519b Thesis in Television Drama**
- Units: 4
- Prerequisites: CTWR 514a, CTWR 514b

**CTWR 520 Advanced Scene Writing Workshop**
- Units: 2
- Prerequisites: CTWR 514a, CTWR 533a

**CTWR 521 Advanced Hour-Long Television Drama**
- Units: 2
- Prerequisites: CTWR 514a, CTWR 529

**CTWR 522 Advanced Hour-Long Television Development**
- Units: 2
- Prerequisites: CTWR 514a, CTWR 529

**CTWR 523 Introduction to the Screenplay**
- Units: 2
- Prerequisites: CTAN 536, CTWR 505, CTWR 518

**CTWR 524 Advanced Storytelling for Interactive Media**
- Units: 2

**CTWR 525 Dreams, the Brain, and Storytelling**
- Units: 2
- Prerequisites: FaSp

**CTWR 541 Advanced Rewriting Workshop in Hour-Long Drama**
- Units: 4
- Prerequisites: CTWR 514a, CTWR 529

**CTWR 557 Seminar in the Business of Writing and Producing Television**
- Units: 2
- Prerequisites: CTWR 537 or CTWR 539

**CTWR 559 The Business of Writing for Screen and Television**
- Units: 2
- Prerequisites: FaSp

**CTWR 560 Advanced Business Practices for Writers**
- Units: 2
industry guests and current trends. Prerequisite: CTWR 559. Instruction Mode: Lecture Grading Option: Letter

CTWR 572 Practicum in Directing Actors for Film
Units: 2 or 4 Terms Offered: FaSp Seminar in directing actors for film; emphasis on demonstration and laboratory exercises, script analysis, and detailed study in character motivation. Individual projects. Prerequisite: CTWR 572, CTCS 673 or CTRP 532. Instruction Mode: Lecture Grading Option: Letter

CTWR 574 Advanced Seminar in Directing Actors for Film
Units: 2 Terms Offered: FaSp Emphasis on detailed script analysis and character motivation. Individual projects. Prerequisite: CTWR 572, CTCS 673 or CTRP 532. Instruction Mode: Lecture Grading Option: Letter

CTWR 585 Advanced Genre Writing
Units: 2 or 4 Max Units: 8.0 Development and execution of writing in various genres of film, television, or new media scripts. Prerequisite: CTWR 514b. Instruction Mode: Lecture Grading Option: Letter

CTWR 587 Advanced Television Staff Writing
Units: 4 Max Units: max 8 An advanced workshop course in the development and writing of a television series as a writing staff including the production of episodes. Prerequisite: CTWR 521 or CTWR 534. Recommended Preparation: CTWR 537 or CTWR 539 Instruction Mode: Lecture Grading Option: Letter

CTWR 599 Special Topics
Units: 2, 3, 4 Max Units: 8.0 Terms Offered: Irregular Detailed investigation of new or emerging aspects of cinema; special subjects offered by visiting faculty; experimental subjects. Instruction Mode: Lecture Grading Option: Letter

Clinical and Experimental Therapeutics

CXPT 590 Directed Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Terms Offered: FaSpSm Research leading to the master's degree. Maximum units which may be applied to the degree to be determined by the department. Instruction Mode: Lecture Grading Option: Credit/No Credit

CXPT 594a Master's Thesis
Units: 2 Terms Offered: FaSpSm Credit on acceptance of Master's thesis. Recommended Preparation: Completion of all required course work for MS degree Instruction Mode: Lecture Grading Option: In Progress/Credit/No Credit

CXPT 594b Master's Thesis
Units: 2 Terms Offered: FaSpSm Credit on acceptance of Master's thesis. Prerequisite: CXPT 594a Instruction Mode: Lecture Grading Option: In Progress/Credit/No Credit

CXPT 594c Master's Thesis
Units: 0 Terms Offered: FaSpSm Credit on acceptance of Master's thesis. Prerequisite: CXPT 594b Instruction Mode: Lecture Grading Option: In Progress/Credit/No Credit

CXPT 596 Internship for Curricular Practical Training
Units: 2, 3 Max Units: 03 Terms Offered: FaSpSm Part-time or full-time, practical work experience in the student's field of study. The internship must be located at an off-campus facility. Students are individually supervised by faculty. May not be taken until the student has completed at least one semester of enrollment in the graduate program with a cumulative 3.0 GPA. Registration Restriction: Open only to graduate students. Instruction Mode: Lecture Grading Option: Credit/No Credit

CXPT 599 Special Topics
Units: 1, 2, 3, 4, 5, 6, 7, 8 Max Units: 08 Selected topics in Clinical and Experimental Therapeutics. Instruction Mode: Lecture Grading Option: Credit/No Credit

CXPT 609 Preclinical Experimental Drug Therapeutic Development
Units: 4 Terms Offered: Sp Evolution of a chemical entity as it is transformed into a drug candidate. Open only to students in clinical and experimental therapeutics and management of drug development. Registration Restriction: Open only to students in Clinical and Experimental Therapeutics and Management of Drug Development. Instruction Mode: Lecture Grading Option: Letter

CXPT 610 Experimental and Clinical Drug Metabolism and Transport
Units: 4 Terms Offered: FaSp Focus on the absorption, distribution, metabolism and elimination (ADME) of new chemical entities, with particular focus on biotransformation process. Instruction Mode: Lecture, Quiz Grading Option: Letter

CXPT 664 Clinical Problem Solving
Units: 3 Terms Offered: Sp (Enroll in PHRD 664)

CXPT 790 Research
Units: 1 Max Units: 12 Terms Offered: FaSpSm Research-based course for students enrolled in the CXPT PhD program who are preparing for their written and oral qualifying examination. Instruction Mode: Lecture Grading Option: Credit/No Credit

CXPT 794a Doctoral Dissertation
Units: 2 Terms Offered: FaSpSm Independent research course for students enrolled in the CXPT PhD program who have passed their written and oral qualifying examination and advanced to PhD candidacy. Instruction Mode: Lecture Grading Option: In Progress/Credit/No Credit

CXPT 794b Doctoral Dissertation
Units: 2 Terms Offered: FaSpSm Independent research course for students enrolled in the CXPT PhD program who have passed their written and oral qualifying examination and advanced to PhD candidacy. Prerequisite: CXPT 794a Instruction Mode: Lecture Grading Option: In Progress/Credit/No Credit

CXPT 794c Doctoral Dissertation
Units: 2 Terms Offered: FaSpSm Independent research course for students enrolled in the CXPT PhD program who have passed their written and oral qualifying examination and advanced to PhD candidacy. Prerequisite: CXPT 794b Instruction Mode: Lecture Grading Option: In Progress/Credit/No Credit

CXPT 794d Doctoral Dissertation
Units: 2 Terms Offered: FaSpSm Independent research course for students enrolled in the CXPT PhD program who have passed their written and oral qualifying examination and advanced to PhD candidacy. Prerequisite: CXPT 794c Instruction Mode: Lecture Grading Option: In Progress/Credit/No Credit

Dance

DANC 101 Colloquium: What is the Medium of Dance Today?
Units: 1 Max Units: 2.0 Terms Offered: FaSpSm Topics related to dance techniques, repertory and varied art forms. Aimed at the interdisciplinary expansion of dance literacy and connections to allied art forms. Registration Restriction: Open only to dance majors. Instruction Mode: Lecture Grading Option: Letter

DANC 103 Conditioning for Dancers
Units: 2 Max Units: 4.0 Terms Offered: FaSpSm Designed for the specific needs of the dancer in preparation for professional training, combining somatic work with the foundation of scientific principles. Instruction Mode: Lecture Grading Option: Letter

DANC 105 Dance Science: Analysis of Dance Movement
Units: 4 Max Units: 08 Terms Offered: FaSpSm A broad overview of the scientific principles of exercise physiology, functional anatomy, kinesiology, and bio-mechanics with applications to dance. Prerequisite: DANC 103 Instruction Mode: Lecture Grading Option: Letter

DANC 107 World Perspective on Dance Performance
Units: 2 Max Units: 4.0 Terms Offered: FaSpSm The practice and aesthetics of international dance styles through lecture and participant-driven interaction. Instruction Mode: Lecture Grading Option: Letter

DANC 110 Dance Technique I
Units: 3 Max Units: 12 Terms Offered: FaSpSm Fundamental technique studies in a studio setting. Concentration on classical ballet, hip hop and its derivatives, partnering and contemporary techniques essential to the dancers’ development. Placement audition required. Registration Restriction: Open only to dance majors Instruction Mode: Lecture Grading Option: Letter

DANC 120R Repertory and Performance I
Units: 2 Max Units: 04 Terms Offered: FaSpSm Study and guided practice of traditional and contemporary choreographic repertory. Emphasis in choreographic intention, stylistic approaches and performance technique. Registration Restriction: Open only to dance majors Instruction Mode: Lecture, Lab Required Grading Option: Letter

DANC 130 Improvisation and Composition I: Introduction
Units: 2 Max Units: 04 Terms Offered: FaSpSm An introduction to improvisational
and composition skills that start to prepare students for the creative processes of dancing, dance-making and performance. Recommended: Students interested in Dance technique are strongly encouraged to take former DANC 385 and former THTR 385.

**DANC 181a Contemporary Dance**

Units: 2 Max: Units: 04 Terms Offered: FaSpSm An introduction to Contemporary Dance openings to contemporary dance techniques, including the study of the rebellious, individualistic, and democratic nature of dance in the 20th and 21st centuries. Duplicates Credit in former THTR 181a Instruction Mode: Lecture Grading Option: Letter

**DANC 181b Contemporary Dance**

Units: 2 Max: Units: 04 Terms Offered: FaSpSm Continued study of the fusion of modern and post-modern dance techniques, focusing on the study of the democratic nature of dance and choreographic composition in the 20th and 21st centuries. Prerequisite: DANC 181a Duplicates Credit in former THTR 181b Instruction Mode: Lecture Grading Option: Letter

**DANC 181c Contemporary Dance**

Units: 2 Max: Units: 04 Terms Offered: FaSpSm An introduction to classical ballet techniques, basic drum rhythms, and stylizing, Duplicates Credit in former DANC 385 and former THTR 385 Instruction Mode: Lecture, Lab Grading Option: Letter

**DANC 170 Choreography and Performance**

Units: 2 Max: Units: 08 Terms Offered: FaSpSm Compositional methods and approaches to developing choreographic ideas; integration of improvisational techniques as a means to generate movement ideas and expand movement vocabulary, edit choreographic material, and evaluate and execute choreography and performance. Duplicates Credit in former DANC 385 and former THTR 385 Instruction Mode: Lecture, Lab Grading Option: Letter

**DANC 171 Commercial Dance: Professional Dance Preparation**

Units: 1, 2 Max: Units: 08 Terms Offered: FaSpSm Designed to explore the commercial dance industry in Los Angeles and San Francisco. Specific techniques in preparation for dance and emerging techniques in choreography, on-screen performances, and interactions with agents. Recommended Preparation: DANC 184b and DANC 184c Instruction Mode: Lecture Grading Option: Letter

**DANC 175 Choreography for the Screen**

Units: 2 Max: Units: 04 Terms Offered: FaSpSm Creative choreography of theatrical dance for the screen. Emphasis on rhythmic analysis, versatility, composition, notation techniques, and stylizing, Duplicates Credit in former DANC 452 and former THTR 482 Instruction Mode: Lecture Grading Option: Letter

**DANC 180 African Dance**

Units: 2 Max: Units: 04 Terms Offered: FaSpSm An introduction to the beginning/intermediate level: knowing, understanding, experiencing culture, emphasizing cultural traditions, community outreach and diversity; works through artistic process, practice, performance, and related activities, using dance, theatre and music work rooted in the African tradition and contemporary African aesthetics; focus on West and Central African traditional dance and music. Instruction Mode: Lecture Grading Option: Letter

**DANC 181a Contemporary Dance**

Units: 2 Max: Units: 04 Terms Offered: FaSpSm An introduction to methods developed from modern and post-modern dance techniques, including the study of the rebellious, individualistic, and democratic nature of dance in the 20th and 21st centuries. Duplicates Credit in former THTR 181a Instruction Mode: Lecture Grading Option: Letter

**DANC 181b Contemporary Dance**

Units: 2 Max: Units: 04 Terms Offered: FaSpSm Continued study in the fusion of modern, post-modern dance and classical ballet techniques, encompassing the study of the democratic nature of dance and choreographic composition in the 20th and 21st centuries. Prerequisite: DANC 181a Duplicates Credit in former THTR 181b Instruction Mode: Lecture Grading Option: Letter

**DANC 181c Contemporary Dance**

Units: 2 Max: Units: 04 Terms Offered: FaSpSm An introduction to classical ballet technique with beginning-level barre and center work, focusing on correct body alignment and musicality. Development of a basic knowledge of ballet history and terminology. Duplicates Credit in former THTR 183a Instruction Mode: Lecture Grading Option: Letter

**DANC 183a Ballet**

Units: 2 Max: Units: 04 Terms Offered: FaSpSm Continued study of classical ballet technique with intermediate-level barre and center work, focusing on developing technique: alignment, coordination, musicality, and knowledge of ballet history and terminology. Prerequisite: DANC 183a Duplicates Credit in former THTR 183b Instruction Mode: Lecture Grading Option: Letter

**DANC 183b Ballet**

Units: 2 Max: Units: 04 Terms Offered: FaSpSm An introduction to classical ballet technique with emphasis on clarity, precision, musicality, movement quality, and artistic expression. Transition of beats, tours, advanced adagio and allegro combinations, and pointe work. Prerequisite: DANC 183b Duplicates Credit in former THTR 183c Instruction Mode: Lecture Grading Option: Letter

**DANC 183d Ballet**

Units: 2 Max: Units: 04 Terms Offered: FaSpSm Elementary to intermediate-level pointe technique for women and men, including strengthening exercises, barre and center work, and variations from classical and contemporary ballets. Prerequisite: DANC 183c Duplicates Credit in former THTR 183d Instruction Mode: Lecture Grading Option: Letter

**DANC 184a Jazz Dance**

Units: 2 Max: Units: 04 Terms Offered: FaSpSm An introduction to Jazz Dance technique, focusing on African and Latin based diaspora dances with European influences, improvisation, and strength/stretching series. Prerequisite: DANC 184a Duplicates Credit in former THTR 184a Instruction Mode: Lecture Grading Option: Letter

**DANC 184b Jazz Dance**

Units: 2 Max: Units: 04 Terms Offered: FaSpSm Continued study of Jazz Dance technique at the intermediate level, focusing on African and Latin based diaspora dances with European influences, improvisation, center work, performance techniques, and strength/stretching series. Prerequisite: DANC 184a Duplicates Credit in former THTR 184b Instruction Mode: Lecture Grading Option: Letter

**DANC 184c Jazz Dance**

Units: 2 Max: Units: 04 Terms Offered: FaSpSm Advanced study of Jazz Dance technique, focusing on Broadway, commercial, and concert Jazz Dance, with a continued emphasis on improvisation, center work, and performance techniques. Prerequisite: DANC 184b Duplicates Credit in former THTR 184c Instruction Mode: Lecture Grading Option: Letter

**DANC 185a Hip Hop Dance**

Units: 2 Max: Units: 08 Terms Offered: FaSpSm An introduction to elements of Hip Hop Dance, including technique, movement, musical rhythm, tempo, and phrasing, as well as the historical context required to develop the skills needed to practice and perform this popular dance form. Duplicates Credit in former THTR 185 and former DANC 185 Instruction Mode: Lecture Grading Option: Letter

**DANC 185b Hip Hop Dance**

Units: 2 Max: Units: 08 Terms Offered: FaSpSm Continued study of Hip Hop Dance elements on an intermediate level, augmenting the historical context, technique, fluidity, and musicality required to execute the form with greater movement acuity. Prerequisite: DANC 185a Instruction Mode: Lecture Grading Option: Letter

**DANC 186 Afro Cuban Dance**

Units: 2 Max: Units: 04 Terms Offered: FaSpSm An introduction to Afro Cuban Dance techniques, basic drum rhythms, and musicality, with an understanding of cultural practices and vocalizations. Afro Cuban Dance examines the traditions related to specific ethnic groups in Latin Europe and West Africa, and the influences of Rumba and Salsa Dance on the form. Instruction Mode: Lecture Grading Option: Letter

**DANC 187 Bollywood Dance**

Inspired by the high energy music from Indian films, Bollywood is a fusion form that combines traditional Indian folk and classical dances
with Hip Hop, Jazz, Latin, and Middle-eastern dance. Instruction Mode: Lecture
Grading Option: Letter
DANC 188a International Style Ballroom Dance
Units: 2 Max Units: 04 Terms Offered: FaSpSm Introduction to International Standard, International Latin, and American Style ballroom dances. Designed to introduce students to the fundamentals of ballroom dance, emphasizing partner connection, communication, and creativity, with the practical application of dance within a social setting. Duplicates Credit in former THTR 188a Instruction Mode: Lecture Grading Option: Credit/No Credit
DANC 188b International Style Ballroom Dance
Units: 2 Max Units: 04 Terms Offered: FaSpSm Continued study in International Standard, International Latin, and American Style ballroom dances. Designed for advanced knowledge in ballroom styles, emphasizing rhythmic sequences, partnering techniques, complex patterns, and performance quality. Prerequisite: DANC 188a Duplicates Credit in former THTR 188b Instruction Mode: Lecture Grading Option: Credit/No Credit
DANC 189a Tap Dance
Units: 2 Max Units: 04 Terms Offered: FaSpSm Continued study of Tap Dance technique, rhythms, syncopation, and musicality, developing into complex steps and elementary dances with progressive understanding of weight change, improvisation, and combinations of sound. Duplicates Credit in former THTR 189a Instruction Mode: Lecture Grading Option: Letter
DANC 189b Tap Dance
Units: 2 Max Units: 04 Terms Offered: FaSpSm An introduction to basic Tap Dance technique, rhythms, syncopation, and musicality, developing into complex steps and elementary dances with progressive understanding of weight change, improvisation, and combinations of sound. Prerequisite: DANC 189a Duplicates Credit in former THTR 189b Instruction Mode: Lecture Grading Option: Letter
DANC 189c Tap Dance
Units: 2 Max Units: 04 Terms Offered: FaSpSm Continued study of Tap Dance technique, focusing on more complex rhythmic patterns and combinations and introducing advanced steps and combinations, all with continued emphasis on improvisation and musicality. Prerequisite: DANC 189a Duplicates Credit in former THTR 189b Instruction Mode: Lecture Grading Option: Letter
DANC 190a Gaga: People
Units: 1, 2 Max Units: 08 Terms Offered: FaSpSm An introduction to advanced Tap Dance technique, rhythms, syncopation, and musicality, developing into complex phrases and advanced dances with progressive understanding of weight change, improvisation and combinations of sound. Prerequisite: DANC 189b Instruction Mode: Lecture Grading Option: Letter
DANC 191a Gaga: Dancers
Units: 1, 2 Max Units: 08 Terms Offered: FaSpSm Explore the movement language, rooted in guided improvisation, developed by Ohad Naharin of Batsheva Dance Company. Open to all, regardless of dance or movement background. Instruction Mode: Lecture Grading Option: Credit/No Credit
DANC 191b Gaga: Dancers
Units: 1, 2 Max Units: 08 Terms Offered: FaSpSm Explore the movement language, rooted in guided improvisation, developed by Ohad Naharin of Batsheva Dance Company. Previous dance experience is required. Instruction Mode: Lecture Grading Option: Credit/No Credit
DANC 195 Kaufman in the Community
Units: 1, 2, 3, 4 Max Units: 12 Terms Offered: FaSpSm Practice-based community engagement through dance, pedagogy and program development. Instruction Mode: Lecture Grading Option: Letter
DANC 200L Dance Technique for Musical Theatre
Units: 2, 3 Max Units: 16 Terms Offered: FaSp Studio and classroom training for Musical Theatre performers. Foundational technique, culture and stylistic history of jazz, ballet, tap and social dance forms. Registration Restriction: Open only to musical theatre students in the School of Dramatic Arts Instruction Mode: Lecture, Lab Required Grading Option: Letter
DANC 210 Colloquium: History of Performance and Cultural Context
Units: 1 Max Units: 02 Terms Offered: FaSpSm Study of the historical and cultural context of selected dance techniques. Guest lectures and student presentations will inform class discussions. Prerequisite: DANC 101 Registration Restriction: Open only to dance majors Instruction Mode: Lecture Grading Option: Letter
DANC 210 Dance Technique II
Units: 3 Max Units: 12 Terms Offered: FaSpSm Intermediate technique studies in a studio setting. Concentration on classical ballet, hip hop and its derivatives, partnering and contemporary techniques essential to the dancers' development. Prerequisite: DANC 110 Registration Restriction: Open only to dance majors Instruction Mode: Lecture Grading Option: Letter
DANC 212g Dance in Popular Culture
Units: 1 Max Units: 04 Terms Offered: FaSpSm Effective navigation and utilization of ubiquitous, portable digital technologies in film to create an individualized archive and portfolio of their choreographic projects and performances. Instruction Mode: Lecture Grading Option: Letter
DANC 220L Repertory and Performance II
Units: 2 Max Units: 04 Terms Offered: FaSpSm Continued studies and guided practice of choreographic repertory. Investigation of choreographic vocabulary, intention, stylistic approaches, and performance technique for group work. Prerequisite: DANC 120L Registration Restriction: Open only to dance majors Instruction Mode: Lecture, Lab Required Grading Option: Letter
DANC 230 Improvisation and Composition III: Intermediate
Units: 2 Max Units: 04 Terms Offered: FaSpSm Expansion of improvisation and composition skills for the creative processes of dancing, dance-making and performance. Prerequisite: DANC 110 Registration Restriction: Open only to dance majors Instruction Mode: Lecture Grading Option: Letter
DANC 231 Improvisation and Composition IV: Intermediate
Units: 2 Max Units: 04 Terms Offered: FaSpSm Further development of improvisation and composition skills for the creative processes of dancing, dance-making and performance. Prerequisite: DANC 230 Registration Restriction: Open only to dance majors Instruction Mode: Lecture Grading Option: Letter
DANC 280g Introduction to Dance as an Art Form
Units: 4 Terms Offered: FaSpSm Gateway to the minor in dance. An interdisciplinary overview of dance relating to the aesthetic and art in various subjects. Applications of the elements of dance studies, art criticism, and viewing productions to explore topic such as architecture, photography, poetry, technology, cinematic arts, sports, medicine, and more. Satisfies New General Education in Category A: The Arts Duplicates Credit in former THTR 280 Instruction Mode: Lecture Grading Option: Letter
DANC 285 Elements of Dance Production
Units: 4 Max Units: 08 Terms Offered: FaSpSm Theoretical aspects of creativity, choreography, accompaniment, dance notation, and production; application in individual and group composition. Duplicates Credit in former THTR 285 Instruction Mode: Lecture Grading Option: Letter
DANC 301 Colloquium: The Role of the Dance Artist in Society
Units: 1 Max Units: 02 Terms Offered: FaSpSm Examination of the role of the artist in society. Development of an individual understanding and guiding philosophy for professional development in the dance field. Prerequisite: DANC 201 Registration Restriction: Open only to dance majors Instruction Mode: Lecture Grading Option: Letter
DANC 302g Hip Hop Don't Stop: Exploring Black Vernacular Dance
Units: 4 Terms Offered: FaSpSm Introduction to the history and practice of Urban Folk Dance including hip hop, freestyle, street dance and the relevant social dances of the 20th century. Satisfies New General Education in Category A: The Arts Duplicates Credit in former DANC 402 Instruction Mode: Lecture Grading Option: Letter
DANC 310 Dance Technique III
Units: 3 Max Units: 12 Terms Offered: FaSpSm Advanced technique studies in a studio setting. Concentration on classical ballet, hip hop and its derivatives, partnering and contemporary techniques essential to the dancers' development. Prerequisite: DANC 210 Registration Restriction: Open only to dance majors Instruction Mode: Lecture Grading Option: Letter
DANC 312g African American Dance
Units: 4 Terms Offered: FaSpSm Exploration of the discursive foundations,
DANC 332gw Origins of Jazz Dance
Units: 4 Terms Offered: FaSpSm
Prerequisite: open only to dance majors Instruction Mode: Lecture, Lab Required Grading Option: Letter
Restriction: 1, 2 Max Units: 2 Max

DANC 342g International and Historical Perspectives on Dance
Units: 4 Terms Offered: FaSpSm
Prerequisite: open only to dance majors Instruction Mode: Lecture Grading Option: Letter
Restriction: 1, 2 Max Units: 2 Max

DANC 345 Artist in Residence
Units: 1, 2, 3, 4 Max Units: 8 Terms Offered: FaSpSm
Prerequisite: open only to dance majors Instruction Mode: Lecture Grading Option: Letter
Restriction: 1, 2, 3 Max Units: 4 Max

DANC 347 Artist Collaborative
Units: 1, 2, 3, 4 Max Units: 8 Terms Offered: FaSpSm
Prerequisite: open only to dance majors Instruction Mode: Lecture Grading Option: Letter
Restriction: Duplicates Credit in former DANC 330

DANC 350 Advanced Composition
Units: 2 Max Units: 8 Terms Offered: FaSpSm
Prerequisite: DANC 231 Registration Restriction: Open only to dance majors Duplicates Credit in former DANC 330 and former DANC 430 Instruction Mode: Lecture Grading Option: Letter
Restriction: 1, 2 Max Units: 4 Max

DANC 352g Dancing with Words
Units: 4 Terms Offered: FaSpSm
Prerequisite: DANC 320L Registration Restriction: Open only to dance majors Instruction Mode: Lecture Grading Option: Letter
Restriction: 1, 2 Max Units: 4 Max

DANC 355 Performance Lab
Units: 1, 2, 3, 4 Max Units: 12 Terms Offered: FaSpSm
Prerequisite: DANC 352L Intermediate and advanced solo and partnering techniques in classical, contemporary, and street dance. Some sections are open only to dance majors Instruction Mode: Lecture Grading Option: Letter
Restriction: 4 Max Units: 4 Max

DANC 362 Pilates Mat Training
Units: 2 Max Units: 4 Terms Offered: FaSpSm
Prerequisite: DANC 352L Mat exercises designed to promote healthy movement practices, develop strength, balance, flexibility and coordination. Instruction Mode: Lecture Grading Option: Letter
Restriction: 1, 2 Max Units: 4 Max

DANC 363g Dancing on the Screen
Units: 4 Terms Offered: FaSpSm
Prerequisite: DANC 352L The study of dance in movies, television, internet, mobile devices and new media. Examining dance on screen, influenced by storytelling, camera technology and editing. Satisfies New General Education in Category A: The Arts Satisfies Global Perspective in Category G: Citizenship in a Diverse World Instruction Mode: Lecture Grading Option: Letter
Restriction: 1, 2 Max Units: 4 Max

DANC 370 Dance in Los Angeles
Units: 1, 2 Max Units: 4 Terms Offered: FaSpSm
Prerequisite: DANC 330 Explore the multifaceted world of dance in Los Angeles, where history, socioeconomics, race, gender, sexuality, commerce and entertainment intersect to create genres that influence contemporary life. Instruction Mode: Lecture Grading Option: Letter
Restriction: 1, 2 Max Units: 4 Max

DANC 388 Senior Seminar in Dance
Units: 4 Max Units: 8 Terms Offered: FaSpSm
Prerequisite: DANC 330 Synthesis of principles, philosophy, and history of dance, culminating in senior individual project. Duplicates Credit in former THTR 388 Instruction Mode: Lecture Grading Option: Letter
Restriction: 1, 2 Max Units: 4 Max

DANC 399 Maymester: Dance Capitals of the World
Units: 1, 2, 3, 4 Max Units: 16 Terms Offered: Sp Investigate various dance topics across major cities of artistic inspiration in a Maymester format. Courses may include lectures, site visits and practical studies and may be held at USC or off campus, including abroad. Instruction Mode: Lecture Grading Option: Letter
Restriction: 1, 2 Max Units: 16 Max

DANC 410 Dance Technique IV
Units: 3 Max Units: 12 Terms Offered: FaSpSm Pre-professional technique studies in a studio setting with concentration on classical ballet, hip hop and its derivatives, and contemporary techniques essential to the dancers' development. Prerequisite: DANC 310 Registration Restriction: Open only to dance majors Instruction Mode: Lecture Grading Option: Letter
Restriction: 1, 2 Max Units: 12 Max

DANC 420L Repertory and Performance IV
Units: 2 Max Units: 4 Terms Offered: FaSpSm
Prerequisite: DANC 352L Study and guided practice of significant roles in new and existing choreography. Emphasis on refinement of partnering, solo and group performance technique. Prerequisite: DANC 320L Registration Restriction: Open only to dance majors and minors Instruction Mode: Lecture Grading Option: Letter
Restriction: 1, 2 Max Units: 4 Max

DANC 432 Creativity, Culture, and Community
Units: 2 Max Units: 4 Terms Offered: FaSpSm Exploration of artistic entrepreneurial mechanisms to initiate innovative endeavors in the professional dance world which are relevant to today's culture, communities, customs and business landscape. Instruction Mode: Lecture Grading Option: Letter
Restriction: 1, 2 Max Units: 4 Max

DANC 442 International and Historical Perspectives on Dance II
Units: 4 Terms Offered: FaSpSm
Prerequisite: DANC 342g Duplicates Credit in former DANC 442b Instruction Mode: Lecture Grading Option: Letter
Restriction: 1, 2 Max Units: 4 Max

DANC 470 Dance Leadership
Units: 2 Terms Offered: FaSpSm An examination of leadership in the dance world through concepts of capacity building, strategic planning and infrastructure to articulate a mission statement, understand models of entity structure, contracts, marketing, financial responsibilities, governance, engagement with community, grants and funding. Registration Restriction: Open only to dance majors Instruction Mode: Lecture Grading Option: Letter
Restriction: 1, 2 Max

DANC 480 Advanced Performance Studies: Senior Seminar
Units: 1 Max Units: 2 Terms Offered: FaSpSm Seminar and studio course in preparation of the senior project to be presented in spring semester, in performance, choreography, scholarship or entrepreneurship. Registration Restriction: Open only to dance majors Instruction Mode: Lecture Grading Option: Letter
Restriction: 1 Max Units: 2 Max

DANC 483 Dance Performance
Units: 2 Max Units: 8 Terms Offered: FaSpSm Preparation, rehearsal, and performance of experimental choreography in main stage repertory. Duplicates Credit in former THTR 483 Instruction Mode: Lecture Grading Option: Letter
Restriction: 1, 2 Max Units: 4 Max

DANC 485 Advanced Performance Studies: Senior Project
Units: 1 Max Units: 2 Terms Offered: FaSpSm Development and presentation of senior project in performance, choreography, media, music, scholarship or entrepreneurial enterprise. Senior projects presented to faculty panel in open performance venue. Prerequisite: DANC 480 Registration Restriction: Open only to dance majors Instruction Mode: Lecture Grading Option: Letter
Restriction: 1, 2 Max Units: 4 Max

DANC 490x Directed Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12
Prerequisite: DANC 330

DANC 495 Dance Internship
Units: 1, 2, 3, 4 Max Units: 12 Terms Offered: FaSpSm
Prerequisite: DANC 330

DANC 499x Independent Research and Readings
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12
Prerequisite: DANC 330

DANC 500x Independent Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12
Prerequisite: DANC 330
dance theories and practices within an employment context in dance. Registration Restriction: Open only to dance majors. Instruction Mode: Lecture Grading Option: Letter

**DANC 499 Special Topics**
Units: 1, 2, 3, 4 Max Units: 08 Terms Offered: FaSpSm Selected topics of current interest. Instruction Mode: Lecture Grading Option: Letter

**DANC 590 Directed Research**
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Research leading to the master's degree. Maximum units which may be applied to the degree to be determined by the department. Instruction Mode: Lecture Grading Option: Credit/No Credit

**DANC 599 Special Topics**
Units: 2, 3, 4 Max Units: 8.0 Seminars in selected areas of study. Instruction Mode: Lecture Grading Option: Letter

**DANC 790 Research**
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Research leading to the doctorate. Maximum units which may be applied to the degree to be determined by the department. Instruction Mode: Lecture Grading Option: Credit/No Credit

**Dental Biochemistry**

**DBIO 310 Oral Biochemistry**
Units: 2 Terms Offered: Fa Biochemical insight into oral tissues and saliva — emphasizing antimicrobial protection (systemic and therapeutic) against demineralization and connective tissue destruction. Instruction Mode: Lecture Grading Option: Letter

**DBIO 501 Biochemistry and Molecular Biology**
Units: 2 Biochemical properties of carbohydrates, lipids, amino acids, proteins, and nucleic acids — emphasizing molecular structure-function interrelatedness, integrated metabolism, and molecular biology of the cell. Instruction Mode: Lecture Grading Option: Letter

**Dentistry**

**DENT 221 Introduction to Dentistry**
Units: 1 History and current role of dental science in the health services field; review of research; overview of dental procedures with laboratory experience and practice observation. Instruction Mode: Lecture Grading Option: Letter

**DENT 402 Formal Science-Writing**
Units: 2 A scientist-taught, lecture-workshop-tutorial format for developing skills in formal science-writing (e.g., abstracts, journal articles, grants). Not open to students in the School of Dentistry. Instruction Mode: Lecture Grading Option: Letter

**DENT 412 Fundamentals of Craniofacial and Dental Technology**
Units: 3 Terms Offered: Sp Biomedical engineering and technology applied to oral health professions. Dental biomaterials, CAD-CAM, digital dental technology and tissue engineering applications to craniofacial diseases, disorders, and enhancements. Duplicates Credit in former BME 412. Instruction Mode: Lecture Grading Option: Letter Crosslisted as BME-412

**Dental Histology**

**DHS 310 Basic Tissues and Histology and Embryology**
Units: 2 Terms Offered: Fa Histology of basic tissues, oral histology, orofacial embryology, orofacial clefts and functional correlates. Instruction Mode: Lecture Grading Option: Letter

**DHS 701 Advanced Oral Histology**
Units: 2 Microscopic anatomy, ultrastructure and histochemistry of developing and functional oral tissues; based on recent advanced in oral LM, TEM, and SEM histology. Instruction Mode: Lecture Grading Option: Letter

**Dental Hygiene**

**DHYG 311a Fundamentals of Clinical Dental Hygiene Practice**
Units: 3 Principles and techniques of clinical dental hygiene with emphasis on preventive dentistry; laboratory and preclinical experience in techniques of complete oral prophylaxis services; and clinical application thereof. Instruction Mode: Lecture Grading Option: Letter

**DHYG 311b Fundamentals of Clinical Dental Hygiene Practice**
Units: 3 Principles and techniques of clinical dental hygiene with emphasis on preventive dentistry; laboratory and preclinical experience in techniques of complete oral prophylaxis services; and clinical application thereof. Instruction Mode: Lecture Grading Option: Letter

**DHYG 314L Dental Morphology Laboratory**
Units: 1 Fundamentals of tooth morphology and characteristics of the deciduous and permanent dentition. Instruction Mode: Lab Required Grading Option: Letter

**DHYG 316 Patient Education in Preventive Dental Care**
Units: 1 Principles and methods for teaching and motivating patients to practice effective oral care. Instruction Mode: Lecture Grading Option: Letter

**DHYG 318 Dental Specialties**
Units: 2 Procedures performed in selected dental specialty areas with emphasis on the role of the dental hygienist. Instruction Mode: Lecture Grading Option: Letter

**DHYG 320 Preventive Dental Therapy**
Units: 2 Terms Offered: Sp Study of etiology, risk factors and preventive management of periodontal disease and dental caries. Setting up community and individual preventive oral health care programs. Instruction Mode: Lecture Grading Option: Letter

**DHYG 401 Introduction to Advanced Dental Hygiene**
Units: 2 Principles and techniques of advanced dental hygiene with emphasis on advanced root instrumentation and dental hygiene treatment planning. Instruction Mode: Lecture Grading Option: Letter

**DHYG 410a Clinic: Dental Hygiene**
Units: 2, 3, 4, 5, 6, 7 each Application of advanced techniques with emphasis on increased proficiency in skills: principles of prevention; periodontal examination; root planing; soft tissue curettage; local anesthesia; inhalation sedation. Instruction Mode: Lecture Grading Option: Letter

**DHYG 410b Clinic: Dental Hygiene**
Units: 2, 3, 4, 5, 6, 7 each Application of advanced techniques with emphasis on increased proficiency in skills: principles of prevention; periodontal examination; root planing; soft tissue curettage; local anesthesia; inhalation sedation. Instruction Mode: Lecture Grading Option: Letter

**DHYG 411a Dental Literature Review**
Units: 2 Seminar-discussion and analysis of current dental literature in selected topics related to dental hygiene practice. Instruction Mode: Lecture, Discussion Grading Option: Letter

**DHYG 411b Dental Literature Review**
Units: 2 Seminar-discussion and analysis of current dental literature in selected topics related to dental hygiene practice. Instruction Mode: Lecture, Discussion Grading Option: Letter

**DHYG 412 Preventive Dental Care Programs**
Units: 1 Methods for development and implementation of programs involved with the delivery of preventive dental care. Instruction Mode: Lecture Grading Option: Letter

**DHYG 413a Dental Hygiene Educational Concepts**
Units: 2 Educational concepts for development of dental hygiene curriculum, including teaching and learning strategies, curriculum design, course development and evaluation methods. Instruction Mode: Lecture Grading Option: Letter

**DHYG 413b Dental Hygiene Educational Concepts**
Units: 2 Educational concepts for development of dental hygiene curriculum, including teaching and learning strategies, curriculum design, course development and evaluation methods. Instruction Mode: Lecture Grading Option: Letter

**DHYG 414a Advanced Dental Hygiene**
Units: 2 Advanced dental hygiene techniques: treatment, referral and maintenance of the advanced periodontitis patient emphasizing treatment planning and patient management. Instruction Mode: Lecture Grading Option: Letter

**DHYG 414b Advanced Dental Hygiene**
Units: 2 Advanced dental hygiene techniques: treatment, referral and maintenance of the advanced periodontitis patient emphasizing treatment planning and patient management. Instruction Mode: Lecture Grading Option: Letter

**DHYG 415a Directed Clinical Teaching**
Units: 2 Experience in clinical teaching with supervision and evaluation of undergraduate dental hygiene and doctoral dental students engaging in patient care. Instruction Mode: Lecture Grading Option: Letter

**DHYG 415b Directed Clinical Teaching**
Units: 2 Experience in clinical teaching with supervision and evaluation of undergraduate dental hygiene and doctoral
dental students engaging in patient care. Instruction Mode: Lecture Grading Option: Letter

DHYG 417 Issues in Dental Health Care Delivery
Units: 1 Study of current trends in public health care delivery, manpower, finance mechanisms, and quality assurance. Instruction Mode: Lecture Grading Option: Letter

DHYG 422 Essentials of Dental Hygiene Practice
Units: 1 A review of the moral, legal, and ethical responsibilities of the dental hygienist. Other topics: securing a position, dental economics, taxes, insurance, and human relationships in the dental office. Instruction Mode: Lecture Grading Option: Letter

DHYG 424 Research Methods
Units: 2 Terms Offered: Sm Research design and methods, scientific database searching, evidence resources and evaluating information based on evidence-based principles. Application of basic research design methodology for analysis of literature. Duplicates Credit in former HYG 424ab. Instruction Mode: Lecture Grading Option: Letter

DHYG 430 Seminar: Initial Periodontal Therapy
Units: 2 Presentation of selected clinical cases with documentation of clinical findings, diagnosis, treatment planning, and therapy. Instruction Mode: Lecture Grading Option: Letter

DHYG 431 Seminar: Periodontal Treatment Planning
Units: 2 Periodontal treatment planning; case presentations of uncomplicated periodontitis progressing to complex treatment involving multidisciplinary approach. Instruction Mode: Lecture Grading Option: Letter

DHYG 460a Clinic: Advanced Dental Hygiene
Units: 2 Clinical experience in advanced dental hygiene; preventive and therapeutic skills with emphasis on advanced periodontal instrumentation and expanded functions for the registered dental hygienist. Instruction Mode: Lecture Grading Option: Letter

DHYG 460b Clinic: Advanced Dental Hygiene
Units: 2 Clinical experience in advanced dental hygiene; preventive and therapeutic skills with emphasis on advanced periodontal instrumentation and expanded functions for the registered dental hygienist. Instruction Mode: Lecture Grading Option: Letter

DHYG 460c Clinic: Advanced Dental Hygiene
Units: 1 Clinical experience in advanced dental hygiene; preventive and therapeutic skills with emphasis on advanced periodontal instrumentation and expanded functions for the registered dental hygienist. Instruction Mode: Lecture Grading Option: Letter

DHYG 460d Clinic: Advanced Dental Hygiene
Units: 1 Clinical experience in advanced dental hygiene; preventive and therapeutic skills with emphasis on advanced periodontal instrumentation and expanded functions for the registered dental hygienist. Instruction Mode: Lecture Grading Option: Letter

DHYG 501 Dental Hygiene Theory and Science I
Units: 3 Terms Offered: Fa Issues related to professional development and the advancement of the discipline of dental hygiene. Concurrent Enrollment: DHYG 502. Instruction Mode: Lecture Grading Option: Letter

DHYG 502 Dental Hygiene Seminar I
Units: 1 Terms Offered: Fa Ethical principles guiding research and practice in the health care setting, with an emphasis on the rights and protection of human subjects. Concurrent Enrollment: DHYG 501. Instruction Mode: Lecture Grading Option: Letter

DHYG 504 Dental Hygiene Theory and Science II
Units: 3 Terms Offered: Sp Issues related to oral health promotion and disease prevention, and health services research. Includes epidemiology, health disparities, quality assurance, literacy, and cultural competency. Concurrent Enrollment: DHYG 505. Instruction Mode: Lecture Grading Option: Letter

DHYG 505 Dental Hygiene Seminar II
Units: 1 Terms Offered: Sp Design of community health programs and health research. Includes project and study design, and applying methodological and statistical knowledge to project development. Concurrent Enrollment: DHYG 504. Instruction Mode: Lecture Grading Option: Letter

DHYG 506 Research Methodologies and Statistics
Units: 3 Terms Offered: Ra Process and fundamentals of research protocol design and statistical methods. Includes research design and methods, scientific database searching and evidence-based resources. Instruction Mode: Lecture Grading Option: Letter

DHYG 507 Dental Hygiene Theory and Science III
Units: 3 Terms Offered: Sm Analysis of disease diagnoses, medical complications, pharmacologic interventions and therapeutic treatment modalities associated with a variety of system diseases. Concurrent Enrollment: DHYG 508. Instruction Mode: Lecture Grading Option: Letter

DHYG 508 Dental Hygiene Seminar III
Units: 1 Terms Offered: Sm Strategies for project data management and analysis, and dissemination of scholarly information through journal publications and oral and poster scientific presentations. Concurrent Enrollment: DHYG 507. Instruction Mode: Lecture Grading Option: Letter

DHYG 510 Capstone Project
Units: 4 Ta Students will complete independent field work to implement planned scholarly activities in their professional area of interest, culminating in a written paper and an oral defense. Instruction Mode: Lecture Grading Option: Letter

DHYG 511 Classroom and Clinical Instruction Design
Units: 2 Terms Offered: Sp Apply teaching and learning theories to the development of educational interventions to teach clinical dental hygiene skills in both clinical and laboratory classroom settings. Instruction Mode: Lecture Grading Option: Letter

DHYG 512 Student Teaching
Units: 2 Terms Offered: Sm Applied study of dental hygiene education, with practical experience teaching in the classroom and laboratory settings, and teaching in the dental hygiene clinic. Prerequisite: DHYG 511. Instruction Mode: Lecture Grading Option: Letter

DHYG 513 Educational Theory and Instructional Design
Units: 2 Terms Offered: Fa (Enroll in EDUC 622)

DHYG 514 Technology in Higher Education
Units: 2 Terms Offered: Sm (Enroll in EDUC 632)

DHYG 600 Dental Hygiene Professional Issues
Units: 2 Terms Offered: Fa Explore issues related to professional development and advancement of the discipline of dental hygiene and addressing the growth of the knowledge base of the profession. Registration Restriction: Open only to master student in Dental Hygiene Instruction Mode: Lecture Grading Option: Letter

DHYG 601 Development of Systematic Investigations
Units: 1 Terms Offered: Fa Focus of research study development that impacts the dental hygiene profession by exploring the ethical and legal principles that guide research and practice in healthcare. Registration Restriction: Open only to master students in Dental Hygiene Instruction Mode: Lecture Grading Option: Letter

DHYG 602 Research Methods and Biostatistics
Units: 2 Terms Offered: Fa Understand research process with fundamentals of research protocol design and statistical methods commonly used in healthcare. Registration Restriction: Open only to master students in Dental Hygiene Instruction Mode: Lecture Grading Option: Letter

DHYG 603 Learning Theories and Technology
Units: 2 Terms Offered: Fa Theories of learning with emphasis will be placed on teaching strategies to a variety of audiences and use of technology in the learning process. Registration Restriction: Open only to master students in Dental Hygiene Instruction Mode: Lecture Grading Option: Letter

DHYG 604 Health Advocacy Program Planning and Evaluation
Units: 2 Terms Offered: Sp Explore issues related to oral health promotion and disease prevention and health services research by investigating oral health reports and surveys influencing the DH profession. Registration Restriction: Open only to master students in Dental Hygiene Instruction Mode: Lecture Grading Option: Letter

</thead>
<tbody>
<tr>
<td>DHYG 605 Professional Leadership in Program Development</td>
</tr>
<tr>
<td>Units: 2 Terms Offered: Sp Introduce concepts of business planning for the healthcare professional. Grant writing; application of leadership theory; professional leadership development in education, healthcare, research and business settings. Registration Restriction: Open only to master students in Dental Hygiene Instruction Mode: Lecture Grading Option: Letter</td>
</tr>
<tr>
<td>DHYG 606 Multidisciplinary Population Health Management Strategies</td>
</tr>
<tr>
<td>Units: 2 Terms Offered: Sm Explore population health management of multidisciplinary team care for complex patient populations and strategies for group dynamics for collaborative practice Registration Restriction: Open only to master students in Dental Hygiene Instruction Mode: Lecture Grading Option: Letter</td>
</tr>
<tr>
<td>DHYG 607 Knowledge Assessment</td>
</tr>
<tr>
<td>Units: 1 Terms Offered: Sm An intensive course developing and evaluating dental hygiene skills and scholarly activities for application in advanced professional careers. Registration Restriction: Open only to master students in Dental Hygiene Instruction Mode: Lecture, Lab, Quiz Grading Option: Letter</td>
</tr>
<tr>
<td>DHYG 608 Current Trends in Oral Healthcare</td>
</tr>
<tr>
<td>Units: 1 Terms Offered: Fa Current trends in oral healthcare is explored by evaluating the evolving discoveries of wellness, pathology and risk factors affecting oral health. Registration Restriction: Open only to master students in Dental Hygiene Instruction Mode: Lecture Grading Option: Letter</td>
</tr>
<tr>
<td>DHYG 609 Capstone Project Fieldwork</td>
</tr>
<tr>
<td>Units: 1 Terms Offered: Fa Guided learning of the research process by the design and fieldwork implementation of an approved Capstone project with proper data management. Registration Restriction: Open only to master students in Dental Hygiene Instruction Mode: Lecture Grading Option: Letter</td>
</tr>
<tr>
<td>DHYG 610 Capstone Project</td>
</tr>
<tr>
<td>Units: 2 Terms Offered: Sp Independent study through guided learning to complete a capstone project including preparation of a publishable manuscript that will be defended in an oral presentation. Registration Restriction: Open only to master students in Dental Hygiene Instruction Mode: Lecture Grading Option: Letter</td>
</tr>
<tr>
<td>DHYG 611 Research Writing</td>
</tr>
<tr>
<td>Units: 2 Terms Offered: Fa Enhancement of critical research thinking by fulfilling anticipated conceptual components of the journal article; perfection of writing skills by correcting inter- and intra-sentence distractions. Registration Restriction: Open only to master students in Dental Hygiene Instruction Mode: Lecture Grading Option: Letter</td>
</tr>
<tr>
<td>DHYG 612 Dental Hygiene Curriculum and Program Design</td>
</tr>
<tr>
<td>Units: 2 Terms Offered: Sp Prepare dental hygienists with basic guidelines and skills for development of dental hygiene program and curriculum. Focus on designing academic courses, course materials and overall evaluation methods. Registration Restriction: Open only to master students in Dental Hygiene Instruction Mode: Lecture, Discussion Grading Option: Letter</td>
</tr>
<tr>
<td>DHYG 613 Laboratory and Clinical Course Development</td>
</tr>
<tr>
<td>Units: 2 Terms Offered: Sm Curriculum design for teaching psycho-motor skills in a simulation laboratory and providing feedback and strategies for achieving competence in student-patient clinical setting. Registration Restriction: Open only to master students in Dental Hygiene Instruction Mode: Lecture Grading Option: Letter</td>
</tr>
<tr>
<td>DHYG 614 Dental Hygiene Student Teaching Practicum</td>
</tr>
<tr>
<td>Units: 3 Terms Offered: Fa Application of theory and skills developed through student teaching in the classroom, laboratory and clinical situations. Prerequisite: DHYG 612 and DHYG 613 Registration Restriction: Open only to master students in Dental Hygiene Instruction Mode: Lecture Grading Option: Letter</td>
</tr>
<tr>
<td>DHYG 615 Geriatric Healthcare Program Planning</td>
</tr>
<tr>
<td>Units: 1 Terms Offered: Fa Independent learning environment of interactive experiences to understand the complexities of oral health care management of older people and geriatric care facilities. Registration Restriction: Open only to master students in Dental Hygiene Instruction Mode: Lecture Grading Option: Letter</td>
</tr>
<tr>
<td>Oral Diagnosis and Radiology</td>
</tr>
<tr>
<td>DIAG 415 Radiographic Techniques</td>
</tr>
<tr>
<td>Units: 1 Clinical application of radiographic chairside and darkroom techniques and quality control. Instruction Mode: Lecture Grading Option: Letter</td>
</tr>
<tr>
<td>DIAG 521 Principles of Oral Radiology</td>
</tr>
<tr>
<td>Units: 2 Introduction to ionizing radiation and its use in the health professions; radiation biology; radiographic techniques and hygiene; descriptive terms used in radiography; with illustrations; documentation. Instruction Mode: Lecture Grading Option: Letter</td>
</tr>
<tr>
<td>DIAG 522 Radiographic Techniques</td>
</tr>
<tr>
<td>Units: 1 Clinical applications of radiographic chairside and darkroom techniques; quality control and evaluation of the radiograph. Instruction Mode: Lecture Grading Option: Letter</td>
</tr>
<tr>
<td>DIAG 523 Oral Maxillofacial Imaging</td>
</tr>
<tr>
<td>Units: 2, 3, 4 Terms Offered: Sm Clinical application of intraoral and extraoral radiographic techniques; emphasis upon radiation physics, biology, safety, film and digital imaging and image interpretation. Instruction Mode: Lecture Grading Option: Letter</td>
</tr>
<tr>
<td>DIAG 615 Digital and Oral Maxillofacial Imaging</td>
</tr>
<tr>
<td>Units: 2, 3, 4 Terms Offered: FaSp Introduction to computer based imaging in dentistry. Student will learn to use video cameras, scanners, intraoral sensors and advanced imaging technology. Prerequisite: DIAG 521, DIAG 522. Instruction Mode: Lecture Grading Option: Letter</td>
</tr>
<tr>
<td>DIAG 621 CAD/CAM in Dentistry</td>
</tr>
<tr>
<td>Units: 1 Modern principles of dental computer assisted design/computer assisted manufacturing and will fabricate such restorations in the laboratory. Instruction Mode: Lecture Grading Option: Letter</td>
</tr>
<tr>
<td>Dental Materials</td>
</tr>
<tr>
<td>DMAT 316L Dental Materials and Clinical Procedures</td>
</tr>
<tr>
<td>Units: 2 Biomechanical principles, properties, and manipulation of dental materials; armamentarium for various dental procedures. Instruction Mode: Lecture, Lab Required Grading Option: Letter</td>
</tr>
<tr>
<td>DMAT 505 Dental Materials Update</td>
</tr>
<tr>
<td>Units: 1 Biocompatibility of dental materials, restorative materials and techniques update, critical analysis of published literature. Includes specific laboratory testing research methodology and design of clinical trials. Instruction Mode: Lecture Grading Option: Letter</td>
</tr>
<tr>
<td>DMAT 521a Dental Materials</td>
</tr>
<tr>
<td>Units: 2 Properties, biomechanical function, manipulation, and clinical application of dental materials. Correlates restorative, biological, and materials sciences. Instruction Mode: Lecture Grading Option: Letter</td>
</tr>
<tr>
<td>DMAT 521b Dental Materials</td>
</tr>
<tr>
<td>Units: 2 Properties, biomechanical function, manipulation, and clinical application of dental materials. Correlates restorative, biological, and materials sciences. Instruction Mode: Lecture Grading Option: Letter</td>
</tr>
<tr>
<td>DMAT 701 Advanced Biomaterials</td>
</tr>
<tr>
<td>Units: 2 Terms Offered: FaSpSm Fundamental principles of materials science and clinical dentistry relative to proper selection and manipulation of dental materials. Registration Restriction: Open only to the Herman Ostrow School of Dentistry Instruction Mode: Lecture Grading Option: Letter</td>

| Units: 3 Terms Offered: FaSpSm Problem based learning presentation of normal and abnormal structures including anatomy, cell
biology, embryology, histology, pathology from cells, tissues and organs of the human body. All material discussed with direct relationship to a well-characterized human clinical case. Acceptance to DDS program required. Instructors: Grading Option: Lecture

**DPBL 502a Dental Problem Based Learning — Human Function I**

Units: 8 Terms Offered: FaSpSm Problem based learning presentation of normal and abnormal function including biochemistry, endocrinology, genetics, immunology, microbiology, nutrition, pharmacology, physiology from cells, tissues and organs of the human body. All material discussed with direct relationship to a well-characterized human clinical case. Acceptance to DDS program required. Instructors: Grading Option: Lecture

**DPBL 504c Dental Problem Based Learning — Human Clinical Dentistry I**

Units: 4 Terms Offered: FaSpSm Problem based learning approach to the delivery of dental health care. Didactic, preclinical and clinical principles of endodontics, geriatrics, oral diagnosis, oral pathology, oral radiology, oral surgery, orthodontics, pediatric dentistry, periodontics, prosthodontics and restorative dentistry will be presented with a direct relationship to a well-characterized human clinical case. Acceptance to DDS program required. Instructors: Grading Option: Lecture

**DPBL 504b Dental Problem Based Learning — Human Clinical Dentistry I**

Units: 4 Terms Offered: FaSpSm Problem based learning approach to the delivery of dental health care. Didactic, preclinical and clinical principles of endodontics, geriatrics, oral diagnosis, oral pathology, oral radiology, oral surgery, orthodontics, pediatric dentistry, periodontics, prosthodontics and restorative dentistry will be presented with a direct relationship to a well-characterized human clinical case. Acceptance to DDS program required. Instructors: Grading Option: Lecture

**DPBL 504a Dental Problem Based Learning — Human Clinical Dentistry I**

Units: 4 Terms Offered: FaSpSm Problem based learning approach to the delivery of dental health care. Didactic, preclinical and clinical principles of endodontics, geriatrics, oral diagnosis, oral pathology, oral radiology, oral surgery, orthodontics, pediatric dentistry, periodontics, prosthodontics and restorative dentistry will be presented with a direct relationship to a well-characterized human clinical case. Acceptance to DDS program required. Instructors: Grading Option: Lecture

**DPBL 502c Dental Problem Based Learning — Human Function I**

Units: 8 Terms Offered: FaSpSm Problem based learning presentation of normal and abnormal function including biochemistry, endocrinology, genetics, immunology, microbiology, nutrition, pharmacology, physiology from cells, tissues and organs of the human body. All material discussed with direct relationship to a well-characterized human clinical case. Acceptance to DDS program required. Instructors: Grading Option: Lecture

**DPBL 502b Dental Problem Based Learning — Human Function I**

Units: 8 Terms Offered: FaSpSm Problem based learning presentation of normal and abnormal function including biochemistry, endocrinology, genetics, immunology, microbiology, nutrition, pharmacology, physiology from cells, tissues and organs of the human body. All material discussed with direct relationship to a well-characterized human clinical case. Acceptance to DDS program required. Instructors: Grading Option: Lecture

**DPBL 502a Dental Problem Based Learning — Human Function I**

Units: 8 Terms Offered: FaSpSm Problem based learning presentation of normal and abnormal function including biochemistry, endocrinology, genetics, immunology, microbiology, nutrition, pharmacology, physiology from cells, tissues and organs of the human body. All material discussed with direct relationship to a well-characterized human clinical case. Acceptance to DDS program required. Instructors: Grading Option: Lecture

**DPBL 502c Dental Problem Based Learning — Human Function I**

Units: 8 Terms Offered: FaSpSm Problem based learning presentation of normal and abnormal function including biochemistry, endocrinology, genetics, immunology, microbiology, nutrition, pharmacology, physiology from cells, tissues and organs of the human body. All material discussed with direct relationship to a well-characterized human clinical case. Acceptance to DDS program required. Instructors: Grading Option: Lecture

**DPBL 502b Dental Problem Based Learning — Human Function I**

Units: 8 Terms Offered: FaSpSm Problem based learning presentation of normal and abnormal function including biochemistry, endocrinology, genetics, immunology, microbiology, nutrition, pharmacology, physiology from cells, tissues and organs of the human body. All material discussed with direct relationship to a well-characterized human clinical case. Acceptance to DDS program required. Instructors: Grading Option: Lecture

**DPBL 502a Dental Problem Based Learning — Human Function I**

Units: 8 Terms Offered: FaSpSm Problem based learning presentation of normal and abnormal function including biochemistry, endocrinology, genetics, immunology, microbiology, nutrition, pharmacology, physiology from cells, tissues and organs of the human body. All material discussed with direct relationship to a well-characterized human clinical case. Acceptance to DDS program required. Instructors: Grading Option: Lecture

**DPBL 502b Dental Problem Based Learning — Human Function I**

Units: 8 Terms Offered: FaSpSm Problem based learning presentation of normal and abnormal function including biochemistry, endocrinology, genetics, immunology, microbiology, nutrition, pharmacology, physiology from cells, tissues and organs of the human body. All material discussed with direct relationship to a well-characterized human clinical case. Acceptance to DDS program required. Instructors: Grading Option: Lecture

**DPBL 502a Dental Problem Based Learning — Human Function I**

Units: 8 Terms Offered: FaSpSm Problem based learning presentation of normal and abnormal function including biochemistry, endocrinology, genetics, immunology, microbiology, nutrition, pharmacology, physiology from cells, tissues and organs of the human body. All material discussed with direct relationship to a well-characterized human clinical case. Acceptance to DDS program required. Instructors: Grading Option: Lecture

**DPBL 502b Dental Problem Based Learning — Human Function I**

Units: 8 Terms Offered: FaSpSm Problem based learning presentation of normal and abnormal function including biochemistry, endocrinology, genetics, immunology, microbiology, nutrition, pharmacology, physiology from cells, tissues and organs of the human body. All material discussed with direct relationship to a well-characterized human clinical case. Acceptance to DDS program required. Instructors: Grading Option: Lecture

**DPBL 502a Dental Problem Based Learning — Human Function I**

Units: 8 Terms Offered: FaSpSm Problem based learning presentation of normal and abnormal function including biochemistry, endocrinology, genetics, immunology, microbiology, nutrition, pharmacology, physiology from cells, tissues and organs of the human body. All material discussed with direct relationship to a well-characterized human clinical case. Acceptance to DDS program required. Instructors: Grading Option: Lecture

**DPBL 502b Dental Problem Based Learning — Human Function I**

Units: 8 Terms Offered: FaSpSm Problem based learning presentation of normal and abnormal function including biochemistry, endocrinology, genetics, immunology, microbiology, nutrition, pharmacology, physiology from cells, tissues and organs of the human body. All material discussed with direct relationship to a well-characterized human clinical case. Acceptance to DDS program required. Instructors: Grading Option: Lecture

**DPBL 502a Dental Problem Based Learning — Human Function I**

Units: 8 Terms Offered: FaSpSm Problem based learning presentation of normal and abnormal function including biochemistry, endocrinology, genetics, immunology, microbiology, nutrition, pharmacology, physiology from cells, tissues and organs of the human body. All material discussed with direct relationship to a well-characterized human clinical case. Acceptance to DDS program required. Instructors: Grading Option: Lecture

**DPBL 502b Dental Problem Based Learning — Human Function I**

Units: 8 Terms Offered: FaSpSm Problem based learning presentation of normal and abnormal function including biochemistry, endocrinology, genetics, immunology, microbiology, nutrition, pharmacology, physiology from cells, tissues and organs of the human body. All material discussed with direct relationship to a well-characterized human clinical case. Acceptance to DDS program required. Instructors: Grading Option: Lecture

**DPBL 502a Dental Problem Based Learning — Human Function I**

Units: 8 Terms Offered: FaSpSm Problem based learning presentation of normal and abnormal function including biochemistry, endocrinology, genetics, immunology, microbiology, nutrition, pharmacology, physiology from cells, tissues and organs of the human body. All material discussed with direct relationship to a well-characterized human clinical case. Acceptance to DDS program required. Instructors: Grading Option: Lecture

**DPBL 502b Dental Problem Based Learning — Human Function I**

Units: 8 Terms Offered: FaSpSm Problem based learning presentation of normal and abnormal function including biochemistry, endocrinology, genetics, immunology, microbiology, nutrition, pharmacology, physiology from cells, tissues and organs of the human body. All material discussed with direct relationship to a well-characterized human clinical case. Acceptance to DDS program required. Instructors: Grading Option: Lecture

**DPBL 502a Dental Problem Based Learning — Human Function I**

Units: 8 Terms Offered: FaSpSm Problem based learning presentation of normal and abnormal function including biochemistry, endocrinology, genetics, immunology, microbiology, nutrition, pharmacology, physiology from cells, tissues and organs of the human body. All material discussed with direct relationship to a well-characterized human clinical case. Acceptance to DDS program required. Instructors: Grading Option: Lecture

**DPBL 502b Dental Problem Based Learning — Human Function I**

Units: 8 Terms Offered: FaSpSm Problem based learning presentation of normal and abnormal function including biochemistry, endocrinology, genetics, immunology, microbiology, nutrition, pharmacology, physiology from cells, tissues and organs of the human body. All material discussed with direct relationship to a well-characterized human clinical case. Acceptance to DDS program required. Instructors: Grading Option: Lecture
DPBL 513c Dental Problem Based Learning — Human Behavior II
Units: 2
Terms Offered: FaSpSm
Prerequisite: DPBL 502c.
Instruction Mode: Lecture Grading Option: Letter

DPBL 514c Dental Problem Based Learning — Human Clinical Dentistry II
Units: 8
Terms Offered: FaSpSm
Prerequisite: DPBL 504c.
Instruction Mode: Lecture Grading Option: Letter

DPBL 521a Dental Problem Based Learning — Human Structure III
Units: 1
Terms Offered: FaSpSm
Prerequisite: DPBL 511c.
Instruction Mode: Lecture Grading Option: Letter

DPBL 523a Dental Problem Based Learning — Human Behavior III
Units: 1
Terms Offered: FaSpSm
Prerequisite: DPBL 510c.
Instruction Mode: Lecture Grading Option: Letter

DPBL 524c Dental Problem Based Learning — Human Structure IV
Units: 1
Terms Offered: FaSpSm
Prerequisite: DPBL 502c.
Instruction Mode: Lecture Grading Option: Letter

DPBL 525c Dental Problem Based Learning — Human Behavior III
Units: 1
Terms Offered: FaSpSm
Prerequisite: DPBL 502c.
Instruction Mode: Lecture Grading Option: Letter

DPBL 526c Dental Problem Based Learning — Human Structure IV
Units: 1
Terms Offered: FaSpSm
Prerequisite: DPBL 502c.
Instruction Mode: Lecture Grading Option: Letter
relationship to a well-characterized human clinical case. Prerequisite: DPBL 502c. Instruction Mode: Lecture Grading Option: Letter

DPBL 532b Dental Problem Based Learning — Human Function IV Units: 1 Terms Offered: FaSp Problem based learning presentation of normal and abnormal function including biochemistry, endocrinology, genetics, immunity, microbiology, nutrition, pharmacology, physiology from cells, tissues and organs of the human body. All material discussed with direct relationship to a well-characterized human clinical case. Prerequisite: DPBL 512c. Instruction Mode: Lecture Grading Option: Letter

Pharmacology

DPHR 410 Principles of Pharmacology Units: 2 Basic principles of drug action; application of drugs in the prevention and treatment of disease; harmful effects of drugs on biological systems. Instruction Mode: Lecture Grading Option: Letter

DPHR 501 Pharmacology Units: 3 General principles of drug action: prescription writing; toxicology; pharmacology of drugs affecting cardiovascular, autonomic, endocrine, and central nervous systems; drug control of pain, anxiety, infection.

DPHR 601 Clinical Drug Therapy in Dentistry Units: 2 Clinical pharmacology of drug therapy important to dental practice using case history disease signs and symptoms and attendant drug therapy. Instruction Mode: Lecture Grading Option: Letter

Data Science

DSCI 250 Introduction to Data Science Units: 4 Terms Offered: Fa Fundamentals of data science: representation of data and knowledge, role of a data scientist, data storage/processing/analytics, machine learning, big data and data visualization. Recommended Preparation: A basic understanding of engineering and/or technology is recommended. Corequisite: ITP 115 Duplicates Credit in former INF 250 Instruction Mode: Lecture Grading Option: Letter

DSCI 351 Foundations of Data Management Units: 4 Terms Offered: Sm Data modeling, data storage, indexing, relational databases, key-value/document store, NoSQL, distributed file system, parallel computation and big-data analytics. Prerequisite: DSCI 250 and ITP 115 Recommended Preparation: Programming experience (e.g., Python or Java) Duplicates Credit in former INF 351 Instruction Mode: Lecture Grading Option: Letter

DSCI 352 Applied Machine Learning and Data Mining Units: 4 Terms Offered: Fa Foundational course focusing on the understanding, application and evaluation of machine learning and data mining approaches in data-intensive scenarios. Prerequisite: DSCI 250 and MATH 208x Duplicates Credit in former INF 352 Instruction Mode: Lecture Grading Option: Letter

DSCI 429 Security and Privacy Units: 4 Terms Offered: Sp Basic concepts in information security and privacy; implications of security and privacy breaches; security and privacy policies, threats and protection mechanisms; security and privacy laws, regulations and ethics. Duplicates Credit in former INF 429 Instruction Mode: Lecture Grading Option: Letter

DSCI 454 Data Visualization and User Interface Design Units: 4 Terms Offered: Fa Design of systems for data visualization; user interface design for exploring and interacting with data. Prerequisite: DSCI 250 Duplicates Credit in former INF 454 Instruction Mode: Lecture Grading Option: Letter

DSCI 510 Principles of Programming for Data Science Units: 4 Terms Offered: FaSp Programming in Python for retrieving, searching and analyzing data from the Web. Learning to manipulate large data sets. Duplicates Credit in former INF 510 Instruction Mode: Lecture, Lab Grading Option: Letter

DSCI 519 Foundations and Policy for Information Security Units: 4 Terms Offered: Fa Threats to information systems; technical and procedural approaches to threat mitigation; policy specification and foundations of policy for secure systems; mechanisms for building secure security services; risk management. Background in computer security preferred. Recommended previous courses of study include computer science, electrical engineering, computer engineering, management information systems and/or mathematics. Duplicates Credit in former INF 519 Instruction Mode: Lecture Grading Option: Letter

DSCI 523 Computer Systems Assurance Units: 4 Terms Offered: Fa Assurance that an information system will behave as expected; assurance approaches for fielding secure information systems; case studies. Recommended preparation: Prior degree in computer science, electrical engineering, computer engineering, management information systems and/or mathematics. Some background in computer security preferred. Prerequisite: DSCI 519 Duplicates Credit in former INF 523 Instruction Mode: Lecture Grading Option: Letter

DSCI 525 Trusted System Design, Analysis and Development Units: 4 Terms Offered: Sp Analysis of computer security and why systems are not secure. Concepts and techniques applicable to the design of hardware and software for Trusted Systems. Prerequisite: DSCI 519 Duplicates Credit in former INF 525 Instruction Mode: Lecture Grading Option: Letter

DSCI 526 Secure Systems Administration Units: 4 Terms Offered: Fa The administrator’s role in information system testing, certification, accreditation, operation and defense from cyber attacks. Security assessment. Examination of system vulnerabilities. Policy development. Recommended preparation: previous degree in computer science, mathematics, computer engineering, data science and/or information security undergraduate program. Also, it is highly recommended that students have successfully completed
DSCI 527 Secure Systems Engineering
Units: 3 Terms Offered: Fa The process of designing, developing and fielding secure information systems. Developing assurance evidence. Completion of a pen test analysis. Detecting architectural weaknesses. Case studies. Recommended preparation: Previous degree in computer science, mathematics, computer engineering or data science; moderate to intermediate understanding of the fundamentals of information assurance and distributed systems and network security. Knowledge and skill in programming. Prerequisite: DSCI 525 Duplicates Credit in former INF 527 Instruction Mode: Lecture Grading Option: Letter

DSCI 528 Computer Forensics
Units: 4 Terms Offered: Fa Preservation, identification, extraction and documentation of computer evidence stored on a computer or data recovery: File System Analysis: Investigative Techniques and Methodologies: Forensic Reports and Presentations. Duplicates Credit in former INF 528 Instruction Mode: Lecture Grading Option: Letter

DSCI 529 Security and Privacy
Units: 4 Terms Offered: Sp Covers societal implications of information privacy and how to design systems to best preserve privacy. Recommended Preparation: general familiarity with the use of common Internet and mobile applications. Recommended Preparation: General familiarity with the use of common Internet and mobile applications Duplicates Credit in former INF 529 Instruction Mode: Lecture Grading Option: Letter

DSCI 549 Introduction to Computational Thinking and Data Science
Units: 4 Terms Offered: FaSp Introduction to data analysis techniques and associated computational concepts for non-programmers. Topics include foundations for data analysis, visualization, parallel processing, metadata, provenance and data stewardship. Recommended preparation: mathematics and logic undergraduate data courses. Recommended Preparation: Mathematics and logic undergraduate courses Duplicates Credit in former INF 549 Instruction Mode: Lecture Grading Option: Letter

DSCI 550 Data Science at Scale
Units: 4 Terms Offered: FaSp Fundamentals of big data informatics techniques. Data lifecycle; the data scientist; machine learning; data mining; NoSQL databases: tools for storage/process/analytics of large data set on clusters; in-data techniques. Recommended Preparation: Basic familiarity with web development and/ or graphic design using a digital layout tool Duplicates Credit in former INF 550 Instruction Mode: Lecture Grading Option: Letter

DSCI 551 Foundations of Data Management
Units: 4 Function and design of modern storage systems, including cloud; data management techniques; data modeling; network attached storage, clusters and data centers; relational databases; the map-reduce paradigm. Recommended Preparation: Understanding of networks and databases; experience with probability, statistics, and programming Duplicates Credit in former INF 551, former INF 559, DSCI 559 Instruction Mode: Lecture Grading Option: Letter

DSCI 552 Machine Learning for Data Science
Units: 4 Terms Offered: FaSpSm Practical applications of machine learning techniques to real-world problems. Uses in data mining and recommendation systems and for building adaptive user interfaces. Duplicates Credit in former INF 552 Instruction Mode: Lecture Grading Option: Letter

DSCI 553 Foundations and Applications of Data Mining
Units: 4 Terms Offered: FaSpSm Data mining and machine learning algorithms for analyzing very large data sets. Emphasis on Map Reduce. Case studies. Recommended Preparation: DSCI 551 and DSCI 552. Probability, linear algebra, basic programming and machine learning Duplicates Credit in former INF 553 Instruction Mode: Lecture Grading Option: Letter

DSCI 554 Data Visualization
Units: 4 Terms Offered: Fa Graphical depictions of data for communication, analysis and decision support. Cognitive processing and perception of visual data and visualizations. Designing effective visualizations. Implementing interactive visualizations. Duplicates Credit in former INF 554 Instruction Mode: Lecture Grading Option: Letter

DSCI 555 Interaction Design and Usability Testing
Units: 4 Terms Offered: FaSp Understand and apply user interface theory and techniques to design, build and test responsive applications that run on mobile devices and/or desktops. Recommended Preparation: Knowledge of data management, machine learning, data mining and data visualization Duplicates Credit in former INF 555 Instruction Mode: Lecture Grading Option: Letter

DSCI 556 User Experience Design and Strategy
Units: 4 Terms Offered: FaSp The practice of User Experience Design and Strategy principles for the creation of unique and compelling digital products and services. Recommended Preparation: Basic familiarity with web development and/ or graphic design using a digital layout tool Duplicates Credit in former INF 556 Instruction Mode: Lecture Grading Option: Letter

DSCI 558 Building Knowledge Graphs
Units: 4 Terms Offered: FaSpSm Foundations, techniques, and algorithms for building knowledge graphs and doing so at scale. Topics include information extraction, data alignment, entity linking, and the Semantic Web. Prerequisite: (DSCI 551 or INF 551 or CSCI 585) and (DSCI 552 or INF 552 or CSCI 567) Recommended Preparation: DSCI 553 and Experience programming in Python Duplicates Credit in former INF 558 Instruction Mode: Lecture Grading Option: Letter

DSCI 559 Introduction to Data Management
Units: 3 Terms Offered: Sp Function, design, and use of modern data management systems, including cloud; data management techniques; data modeling; network attached storage, clusters and data centers; relational databases; the map-reduce paradigm. Recommended Preparation: Understanding of engineering principles, basic programming skills, familiarity with Python Duplicates Credit in former INF 551, former INF 559 and former INF 551 Instruction Mode: Lecture Grading Option: Letter Crosslisted as ISE 559

DSCI 560 Data Science Professional Practicum
Units: 4 Terms Offered: Sp Student teams working on external customer data analytic challenges; real client data and implementable solutions for delivery to actual stakeholders; capstone to degree. Recommended Preparation: Knowledge of data management, machine learning, data mining and data visualization Duplicates Credit in former INF 560 Instruction Mode: Lecture Grading Option: Letter

DSCI 562 Integration of Medical Imaging Systems
Units: 4 (Enroll in BME 527)

DSCI 563 Medical Diagnostics, Therapeutics and Informatics Applications
Units: 3 (Enroll in BME 528)

DSCI 564 Probability and Statistics for Data Science
Units: 4 Fundamental concepts in probability and statistics from a data science perspective; rigorous probabilistic reasoning and problem solving; statistical methods used in data science. Recommended Preparation: Multivariate real calculus, linear algebra, linear system theory Duplicates Credit in former INF 564 Instruction Mode: Lecture Grading Option: Letter

DSCI 570 Foundations of Communication Data Science
Units: 3 Terms Offered: Sp Modeling behavior and understanding network structures using graph theory and game theory. Using massive data to analyze group behavior. Recommended Preparation: Minimum one year of calculus and background in matrix operations Duplicates Credit in former INF 570 Instruction Mode: Lecture Grading Option: Letter

DSCI 590 Directed Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Terms Offered: FaSpSm Research leading to the master's degree; maximum units which may be applied to the degree to be determined by the department. Instruction Mode: Lecture Grading Option: Credit/No Credit

DSCI 599 Special Topics
Units: 1, 2, 3, 4, 5, 6, 7, 8 Max Units: 08 Terms Offered: FaSp Course content to be selected each semester from recent developments in Data Science. Instruction Mode: Lecture Grading Option: Letter
Digital Social Media

DSM 510 Introduction to Digital Social Media
Units: 4 Terms Offered: Fa Explores the sector of digital social media and online communities, with a focus on user experience, social impact, strategic content creation and models for success. Registration Restriction: Open only to Digital Media majors Instruction Mode: Lecture Grading Option: Letter

DSM 520 Managing Technologies for Digital Media
Units: 4 Terms Offered: Fa Strategies and decision-making for development and management of online sites, mobile apps and social platforms, including search optimization, monetization, product development and user experience testing. Registration Restriction: Open only to Digital Media majors Instruction Mode: Lecture Grading Option: Letter

DSM 550 Analytics and Research Methodology
Units: 4 Terms Offered: Sp Teaches the use of digital analytics as well as the use of research design, methodology, and basic statistics for digital sites and apps. Registration Restriction: Open only to digital social media majors Instruction Mode: Lecture Grading Option: Letter

DSM 560 Digital Media Policy, Law, Practices, and Regulation
Units: 4 Terms Offered: Sp Explores laws, policies, and regulations affecting online sites, mobile apps, games, and social platforms, including intellectual property, contracts, libel/depublication, and financial aspects of digital content. Registration Restriction: Open only to digital social media majors Instruction Mode: Lecture Grading Option: Letter

DSM 590 Directed Research
Units: 1 2 3 4 5 6 7 8 9 10 11 12 Terms Offered: Fa Sp Sm Research leading to graduate degree. Maximum units which may be applied to degree determined by department. Instruction Mode: Lecture Grading Option: Credit/No Credit

DSM 596 Final Project Capstone
Units: 4 Terms Offered: Fa Sp Sm Students produce a working site, app or embedded social platform project with digital/multimedia elements. Development includes pitching, conceptualization and launching of the final project. Registration Restriction: Open only to Digital Social Media majors Instruction Mode: Lecture Grading Option: Letter

DSM 599 Special Topics
Units: 1 2 3 4 5 6 7 8 Max Units: 08 Terms Offered: Fa Sp Sm Special Topics in Digital Social Media. Instruction Mode: Lecture Grading Option: Letter

Data Sciences and Operations

DSO 401 Business Information Systems – Spreadsheet Applications
Units: 2 Terms Offered: Fa Sp Applied understanding of how spreadsheets are used to analyze business information. Create real world software applications for use in accounting, finance, marketing, and operations. Duplicates Credit in former IOM 401. Instruction Mode: Lecture Grading Option: Letter

DSO 402 Business Information Systems – Database Applications
Units: 2 Terms Offered: Fa Applied understanding of how work group databases are used to analyze business information. Create real world software applications used in accounting, finance, marketing and operations. Duplicates Credit in former IOM 402. Instruction Mode: Lecture Grading Option: Letter

DSO 424 Business Forecasting
Units: 4 Terms Offered: Sp A variety of forecasting techniques used by a variety of businesses. Emphasis on learning to apply these techniques to real data. Prerequisite: BUAD 310g or BUAD 312g Duplicates Credit in the former IOM 424 Instruction Mode: Lecture Grading Option: Letter

DSO 427 Designing Spreadsheet-Based Business Models
Units: 4 Terms Offered: Fa Sp Application of decision analysis, simulation and optimization techniques to managerial problems. Learn how to create and present useful spreadsheet models to analyze practical business problems. Recommended Preparation: BUAD 310g or BUAD 312g Duplicates Credit in former IOM 427 Instruction Mode: Lecture Grading Option: Letter

DSO 428 Essentials and Digital Frontiers of Big Data
Units: 4 Terms Offered: Fa An overview of key concepts of big data and related digital technologies and their applications to different business problems. Hands-on experience at introductory level. Duplicates Credit in former IOM 428 Instruction Mode: Lecture Grading Option: Letter

DSO 431 Foundations of Digital Business Innovation
Units: 4 Terms Offered: Fa Sp Application of decision analysis, simulation and optimization techniques to managerial problems. Learn how to create and present useful spreadsheet models to analyze practical business problems. Recommended Preparation: BUAD 310g or BUAD 312g Duplicates Credit in former IOM 431 Instruction Mode: Lecture Grading Option: Letter

DSO 433 Designing Digital Processes and User Experiences
Units: 4 Terms Offered: Sp Analyzing and improving business processes with digital technologies; use cases; business case design. Duplicates Credit in former IOM 433 Instruction Mode: Lecture Grading Option: Letter

DSO 435 Enterprise Data Architecture
Units: 4 Terms Offered: Fa Management of enterprise data architecture including data structures, conceptual data modeling, logical data modeling, structured query language (SQL), and physical optimization of high performance data architecture. Duplicates Credit in former IOM 435. Instruction Mode: Lecture Grading Option: Letter

DSO 443 Current Trends in Digital Business Models
Units: 4 Terms Offered: Fa How rapidly developing digital technologies change the organization, structure and operations of media industries. Provides the perspective of new players in the media industries. Duplicates Credit in former IOM 443 Instruction Mode: Lecture Grading Option: Letter

DSO 455 Project Management
Units: 4 Terms Offered: Fa Sp Sm Research leading to graduate degree. Maximum units which may be applied to degree determined by department. Instruction Mode: Lecture Grading Option: Letter

DSO 462 Managing a Small Business on the Internet
Units: 4 Terms Offered: Fa Sp Sm Research leading to graduate degree. Maximum units which may be applied to degree determined by department. Instruction Mode: Lecture Grading Option: Letter

DSO 464 Deep Learning for AI and Business Applications
Units: 4 Terms Offered: Sp Gather, categorize, analyze, interpret, evaluate relevant qualitative/quantitative information. Extract patterns from unstructured Big Data. Find critical heterogeneity for business decisions with real-time data. Recommended Preparation: calculus, linear algebra, and linear regression, and some basic programming training and experience (e.g. R or Python) Instruction Mode: Lecture Grading Option: Letter

DSO 482 Supply Chain Management

DSO 483 Operations Consulting
Units: 4 Terms Offered: Sp Study of concepts and techniques for improving operations, formulation and implementation of operations strategy, and development of frameworks for process design, selection and performance evaluation. Prerequisite: BUAD 311. Duplicates Credit in IOM 483. Instruction Mode: Lecture Grading Option: Letter

DSO 499 Special Topics
Units: 2 3 4 Max Units: 8.0 Selected topics reflecting current trends and recent developments in data sciences, information systems, operations management, and statistics. May be repeated only if topic is different. Instruction Mode: Lecture Grading Option: Letter

DSO 505 Sustainable Supply Chains
Units: 1.5 Terms Offered: Fa Sustainability concepts and frameworks, design for environment, closed-loop supply chains, sustainability in sourcing, green facilities, renewable energy, facility location and transportation decisions, strategic sustainability implementation. Web registration open only to graduate business and accounting students. Registration Restriction: Open only to graduate business and accounting students. Duplicates Credit in the former IOM 505. Instruction Mode: Lecture Grading Option: Letter

DSO 506 Sourcing and Supplier Management
Units: 1.5 Terms Offered: Fa Factors to consider when making sourcing decisions (costs, prices, ethics, globalization); impact
of sourcing on other activities such as product design or inventory management. Open only to graduate business students. Registration Restriction: Open only to graduate business students. Duplicates Credit in former IOM 506. Instruction Mode: Lecture Grading Option: Letter

**DSO 510 Business Analytics**

*Units: 1.5, 3 Terms Offered: FaSpSm*

Foundational knowledge for business analytics, including strategies, methods, and tools integrated with hands-on skills for defining business analytics for data-driven decision making and innovation. Web registration open only to graduate business and accounting students. Duplicates Credit in former IOM 522. Instruction Mode: Lecture Grading Option: Letter

Web registration open only to graduate business and accounting students. Prerequisite: GSBA 506b or GSBA 524 or (GSBA 516 and Open 545) Registration Restriction: Online registration open only to graduate business and accounting students. Duplicates Credit in former IOM 529. Instruction Mode: Lecture Grading Option: Letter

**DSO 530 Applied Modern Statistical Learning Methods**

*Units: 3 Terms Offered: FaSp Overview of highly computational modern statistical learning methods; applications of logistic regression, neural networks, LASSO, trees, boosting and GAM, etc., to finance and marketing data. Registration Restriction: Online registration open only to graduate business and accounting students Duplicates Credit in former IOM 530 Instruction Mode: Lecture Grading Option: Letter

**DSO 531 Digital Foundations for Business Innovation**

*Units: 1.5 Terms Offered: FaSp Developing a strategic perspective on emerging digital innovations shaping consumer-oriented businesses. Topics include artificial intelligence, autonomous vehicles, augmented/virtual reality, post-screen usability and cybersecurity. Registration Restriction: Online registration open only to graduate accounting and business students Instruction Mode: Lecture Grading Option: Letter

**DSO 534 Discrete-Event Simulation for Process Management**

*Units: 1.5 Terms Offered: FaSp Application of discrete-event simulation models to events that occur randomly over time. Representation using process flow diagrams. Use of simulation methodology to improve process performance. Corequisites: DSO 516 Registration Restriction: Online registration limited to graduate business and accounting students Duplicates Credit in former DSO 532 Instruction Mode: Lecture Grading Option: Letter

**DSO 536 Monte Carlo Simulation and Decision Models**

*Units: 1.5 Terms Offered: FaSp Application of Monte Carlo simulation to determine a range of outcomes for a business course of action. Application of Excel simulation. Corequisites: DSO 516 Registration Restriction: Online registration limited to graduate business and accounting students. Duplicates Credit in former IOM 522 Instruction Mode: Lecture Grading Option: Letter

**DSO 543 Global Business Issues in the Networked Digital Industry**

*Units: 3 Terms Offered: FaSp Assessing business impact of emerging technologies on companies, business models and strategies in the “converging” digital communications, media and entertainment industries. Incorporates company field projects. Registration Restriction: Online registration open only to graduate business and accounting students. Duplicates Credit in former IOM 543 Instruction Mode: Lecture Grading Option: Letter

**DSO 545 Statistical Computing and Data Visualization**

*Units: 3 Terms Offered: FaSp Data cleaning and reshaping; good vs. bad graphics; univariate, bivariate, trivariate, hypervariate, and time series graphics; interactive graphics; web-related computing. Extensive computer applications using R. Registration Restriction: Online registration open only to graduate business and accounting students Instruction Mode: Lecture Grading Option: Letter

**DSO 547 Designing Spreadsheet-Based Business Models**

*Units: 3 Terms Offered: FaSp Application of decision analysis, simulation and optimization techniques to managerial problems. Learn how to create and present useful spreadsheet models to analyze practical business models. Registration Restriction: Online registration open only to graduate business and accounting majors Duplicates Credit in former IOM 547 Instruction Mode: Lecture Grading Option: Letter

**DSO 549 Application of Lean Six Sigma**

*Units: 3 Terms Offered: SpSm Application of Six Sigma practices and techniques to improve operations in organizations. Open only to graduate business students. Registration Restriction: Open only to graduate business students. Duplicates Credit in former IOM 549. Instruction Mode: Lecture Grading Option: Letter

**DSO 551 Digital Transformation in the Global Enterprise**

*Units: 3 Terms Offered: Sp Leveraging large enterprise system applications for strategic value; managing organizational transformation of global enterprises through digital business platforms; coping with disruptive technologies. Registration Restriction: Online registration open only to graduate business and accounting students Duplicates Credit in former IOM 551 Instruction Mode: Lecture Grading Option: Letter

**DSO 552 SQL Databases for Business Analysts**

*Units: 1.5 Terms Offered: FaSp SQL; relational database systems; data storage; data manipulation; data aggregation; transformation of global enterprises; data migration. Registration Restriction: Online registration open only to graduate accounting and business students Instruction Mode: Lecture Grading Option: Letter

**DSO 553 NoSQL Databases in Big Data**

*Units: 1.5 Terms Offered: FaSp NoSQL; semi-structured and unstructured databases; data storage; data manipulation; distributed databases. Prerequisite: DSO 552 Registration Restriction: Online registration open only to graduate accounting and business majors Instruction Mode: Lecture Grading Option: Letter

**DSO 554 Digital Strategies for Sustainability in Global Markets**

*Units: 3 Terms Offered: Sp Designing and executing business models for sustainability (environmental, economic, social/cultural) enabled by digital technologies. Emerging market contexts; team consulting project; international travel. Registration Restriction: Online registration open only to graduate accounting and business students Duplicates Credit in the
DSO 556 Business Models for Digital Platforms
Units: 3 Terms Offered: FaSp Managing Business models in digital platform ecosystems; designing new products and services for digital platforms; establishing digital platform leadership; assessing emerging niches in digital spaces. Registration Restriction: Online registration open only to graduate business and accounting majors. Duplicates Credit in former IOM 556. Instruction Mode: Lecture Grading Option: Letter

DSO 557a Global Supply Chain Management in International Settings
Units: 1.5 Terms Offered: Fa Study of global logistics infrastructures – water, rail, road, and air – through readings, team research and presentation, international site visits, and final written report. Open only to Global Supply Chain Management majors. Registration Restriction: Open only to Global Supply Chain Management majors. Duplicates Credit in former IOM 557ab. Instruction Mode: Lecture Grading Option: Letter

DSO 557b Global Supply Chain Management in International Settings
Units: 1.5 Terms Offered: Fa The influence of value-added services and regulatory issues on suppliers and supply chains. Readings, team research and presentation, site visits (LA), and final written report. Open only to Global Supply Chain Management majors. Registration Restriction: Open only to Global Supply Chain Management majors. Duplicates Credit in former IOM 557ab. Instruction Mode: Lecture Grading Option: Letter

DSO 560 Text Analytics and Natural Language Processing
Units: 1.5 Terms Offered: Sp Acquire, analyze, visualize and perform natural language processing (NLP) on text data. Apply Python, machine learning packages, statistical and probability methods, and computer code to business decision-making. Prerequisite: DSO 545 Corequisite: DSO 530 Instruction Mode: Lecture Grading Option: Letter

DSO 562 Fraud Analytics
Units: 3 Fraud detection model systems; identify normal vs. outlying behavior; malicious adversaries; complex datasets; supervised and unsupervised fraud statistical models; measures of model efficacy. Prerequisite: DSO 545 Recommended Preparation: Basic statistics and probability, database management, basic programming skills Corequisite: DSO 530 Instruction Mode: Lecture Grading Option: Letter

DSO 570 The Analytics Edge: Data, Models, and Effective Decisions
Units: 3 Terms Offered: FaSp Decision making under uncertainty using real data applying the most advanced optimization, statistical and probability methods. Registration Restriction: Online registration open to only graduate business and accounting students. Duplicates Credit in former IOM 570. Instruction Mode: Lecture Grading Option: Letter

DSO 572 Strategies for Digital Analytics
Units: 1.5 Terms Offered: FaSp Foundation in digital analytics in tandem with digital strategy and solutions through a design thinking approach to working with digital and web data. Recommended Preparation: DSO 545 Registration Restriction: Online registration open only to graduating and accounting business majors. Instruction Mode: Lecture Grading Option: Letter

DSO 573 Data Analytics Driven Dynamic Strategy and Execution
Units: 3 Terms Offered: Fa Advanced applications of data analytics in dynamic strategy formulation and execution; analytics and business methods for data connected enterprises to continuously enhance their competitive advantage. Registration Restriction: Online registration open only to graduate business and accounting students. Instruction Mode: Lecture Grading Option: Letter

DSO 574 Using Big Data: Challenges and Opportunities
Units: 3 Terms Offered: Sp How companies can implement ‘big data’ initiatives to improve business activities. How leading companies have successfully implemented ‘big data’ initiatives and why some have failed. Registration Restriction: Online registration open only to graduate business and accounting students. Instruction Mode: Lecture Grading Option: Letter

DSO 580 Project Management
Units: 3 Terms Offered: FaSp Applications of systems theory and concepts, matrix organizational structures, PERT/CPM project modeling, and management information systems to the management of complex and critical projects. Recommended Preparation: GSBA 504b or DSO 545 Registration Restriction: Online registration open only to graduate accounting and business majors. Duplicates Credit in former IOM 590. Instruction Mode: Lecture Grading Option: Letter

DSO 581 Supply Chain Management
Units: 3 Terms Offered: FaSp Issues in supply chain management. Supply chain performance and dynamics. Tools for planning and controlling supply chain coordination. Supply chain design and strategy. Open only to business majors. Recommended Preparation: GSBA 504b or DSO 545 Registration Restriction: Online registration open only to graduate accounting and business majors. Duplicates Credit in former IOM 591. Instruction Mode: Lecture Grading Option: Letter

DSO 582 Service Management: Economics and Operations
Units: 3 Terms Offered: Sp Examination of the service industry from a managerial and entrepreneurial perspective; emphasis on the tactical decisions needed to design and deliver successful and profitable services. Recommended Preparation: GSBA 504b or DSO 545 Registration Restriction: Online registration open only to graduate accounting and business students. Duplicates Credit in former IOM 582. Instruction Mode: Lecture Grading Option: Letter

DSO 583 Operations Consulting
Units: 3 Terms Offered: Sp Development of conceptual and analytic skills for improving operations. Analysis of business strategy, formulating an operations strategy, process analysis and design, and project management. Recommended Preparation: GSBA 504a or DSO 534 Registration Restriction: Online registration open only to graduate business and accounting students. Duplicates Credit in former IOM 583. Instruction Mode: Lecture Grading Option: Letter

DSO 586 Global Healthcare Operations Management
Units: 3 Terms Offered: FaSp Application of operations management tools and techniques to improve the performance of healthcare delivery systems. May include international travel. Registration Restriction: Online registration open only to graduate business and accounting students. Instruction Mode: Lecture Grading Option: Letter

DSO 588 Supply Chain Finance
Units: 3 Terms Offered: Fa Combines finance and supply chain management. Assess financial opportunities, finance fragmentation, challenges, optimizing working capital and managing risk in supply chain finance. Registration Restriction: Online registration open only to graduate accounting and business students. Instruction Mode: Lecture Grading Option: Letter

DSO 590 Directed Research
Units: 1, 2, 3, 4, 5 Max Units: 12.0 Terms Offered: FaSpSm Research leading to the master's degree. Maximum units which may be applied to the degree to be determined by the department. Open only to master's students. Duplicates Credit in former IOM 590. Instruction Mode: Lecture Grading Option: Credit/No Credit

DSO 592 Field Research in Data Sciences or Operations
Units: 0.5, 1, 1.5, 2.5, 3, 3.5, 4 Max Units: 12.0 Terms Offered: FaSpSm Individual or team projects studying the practices of an industry, company, government agency, country, geographic region, etc. Proposal, data collection, analyses, and written report required only to graduate students. Recommended Preparation: completion of required MBA, MAcc, or MBT courses. Registration Restriction: Open only to graduate students. Duplicates Credit in former IOM 592. Instruction Mode: Lecture Grading Option: Credit/No Credit

DSO 593 Independent Research in Data Sciences or Operations
Units: 0.5, 1, 1.5, 2.5, 3, 3.5, 4 Max Units: 12.0 Terms Offered: FaSpSm Independent research beyond normal course offerings. Proposal, research and written report/paper required. Open only to graduate students. Recommended Preparation: completion of required MBA, MAcc, or MBT courses. Registration Restriction: Open only to graduate students. Duplicates Credit in former IOM 593. Instruction Mode: Lecture Grading Option: Credit/No Credit

DSO 595 Internship in Data Sciences or Operations
Units: 0.5, 1, 1.5, 2 Max Units: 09 Terms Offered: FaSpSm Supervised on-the-job business experience in the student's area of interest (Curricular Practical Training). Recommended preparation: completion of required MBA, MGSCCM, or MSBA courses. Recommended Preparation: completion of required MBA, MGSCCM,
or MSBA courses Registration Restriction: Open only to master's business students Instruction Mode: Lecture Grading Option: Credit/No Credit

DSO 596 Research Practicum in Data Sciences or Operations Units: 0.5, 1, 1.5, 2, 2 Max Units: 8.0 Terms Offered: FaSpSm Hands-on practical experience working with a Marshall faculty member in the Data Sciences and Operations Department on an ongoing research project. Open only to graduate students. Recommended Preparation: completion of all required courses in the student's program. Registration Restriction: Open only to graduate students. Duplicates Credit in the former IOM 596. Instruction Mode: Lecture Grading Option: Letter

DSO 597 Consulting Project in Data Sciences or Operations Units: 0.5, 1, 1.5, 2, 2.5, 3, 4, 4.5, 5 Max Units: 12 Terms Offered: FaSpSm Individual or team project solving real business problems for an existing business entity, domestic and/or international. Proposal, field research, analyses and oral and written presentations. Open only to graduate business students. Registration Restriction: Online registration open only to graduate business and accounting students Duplicates Credit in former IOM 597. Instruction Mode: Lecture Grading Option: Credit/No Credit

DSO 598 Special Topics Units: 1, 1.5, 2 or 3 Max Units: 9.0 Terms Offered: FaSpSm Selected topics reflecting current trends and recent developments in data sciences, operations management, supply chain management and/or decision support systems. Online registration open only to graduate business students. Registration Restriction: Open only to graduate business students. Instruction Mode: Lecture Grading Option: Credit/No Credit

DSO 599 Special Topics Units: 1, 1.5, 2, 3 Max Units: 09 Terms Offered: FaSpSm Selected topics reflecting current trends and recent developments in data sciences, operations management, supply chain management and/or decision support systems. Registration Restriction: Online registration open only to graduate accounting and business students Duplicates Credit in former IOM 599. Instruction Mode: Lecture Grading Option: Letter

DSO 606 Bayesian Data Analysis Units: 3 Terms Offered: FaPrinciples of Bayesian inference, subjective probability, posterior inference via Markov chain Monte Carlo, applications to latent variable models. Hierarchical models and shrinkage estimation. Model averaging. Duplicates Credit in former IOM 606. Instruction Mode: Lecture Grading Option: Letter

DSO 607 High Dimensional Statistics and Big Data Problems Units: 3 Terms Offered: FaOverview of cutting-edge developments of methodologies, theory, and algorithms in high-dimensional statistical learning and big data problems; their applications to business and many other disciplines. Recommended Preparation: Courses in calculus, linear algebra and linear regression Registration Restriction: Open only to doctoral students Instruction Mode: Lecture Grading Option: Letter

DSO 621 Research Forum Units: 1 Max Units: 4.0 Terms Offered: FaSp Seminar. Review and discuss current research in Data Sciences and Operations. Presentations by faculty, visiting researchers, and advanced students. Open only to Marshall PhD students. Open only to Marshall PhD students. Instruction Mode: Lecture Grading Option: Credit/No Credit

DSO 670 Current Research in Operations Management Units: 1.5, 3 Max Units: 06 Terms Offered: FaSp Critique of the current research-based literature in operations management to include scheduling, forecasting, MRP, technology planning, inventory management, and facilities location and layout. Duplicates Credit in former IOM 670. Instruction Mode: Lecture Grading Option: Letter

DSO 671 Inventory Models and Supply Chain Management Units: 3 Terms Offered: Fa Single product, single location inventory models; multi-echelon inventory models; assembly systems; inventory and pricing; value of information; incentives and coordination in supply chains. Open only to doctoral students. Registration Restriction: Open only to doctoral students. Duplicates Credit in former IOM 671. Instruction Mode: Lecture Grading Option: Letter

DSO 673 Mathematical Programming Units: 3 Terms Offered: Fa Integer programming; duality theory; shortest path and max flow problems; network flow; matching problems; convex sets and functions; lagrange duality; unconstrained minimization methods; optimization problems. Open only to doctoral students. Registration Restriction: Open only to doctoral students. Duplicates Credit in former IOM 673. Instruction Mode: Lecture Grading Option: Letter

DSO 674 Queueing and Stochastic Networks Units: 3 Terms Offered: Sp Jackson Networks; Kelly networks; the M/G/1 model and the Pollaczek–Khintchine formula; the G/G/1 queue; the GI/GI+GI queue and its diffusion approximation. Open only to doctoral students. Registration Restriction: Open only to doctoral students. Duplicates Credit in former IOM 674. Instruction Mode: Lecture Grading Option: Letter

DSO 677 Dynamic Programming and Markov Decision Processes Units: 3 Terms Offered: Sp Introduction to Decision Analysis; MDP model formulation and examples; Finite horizon models; Infinite-horizon models: Discounted MDPs; Average reward criteria; Continuous-time models. Open only to doctoral students. Registration Restriction: Open only to doctoral students. Duplicates Credit in former IOM 677. Instruction Mode: Lecture Grading Option: Letter

DSO 679 Special Topics Units: 1, 1.5, 2, 3 Max Units: 08 Terms Offered: FaSpSm Exploration of emerging topics, literature and research techniques in contemporary data sciences, operations management, supply chain management, and/or decision support systems. Registration Restriction: Open only to doctoral students Instruction Mode: Lecture Grading Option: Letter

DSR 524 Principles of Developmental and Stem Cell Biology Units: 4 Terms Offered: Sm Introduction to developmental and stem cell biology. Lectures and lab component prepare students for a career in developmental and stem cell biology and regenerative medicine. Prerequisite: INTD 561 and (PM 549 or BIOL 543) Instruction Mode: Lecture, Lab Grading Option: Letter

DSR 574 Stem Cell and Developmental Biology Seminar Series Units: 1 Max Units: 10 Terms Offered: FaSp Selected topics in Development, Stem Cell, and Regeneration. Instruction Mode: Lecture Grading Option: Credit/No Credit Crosslisted as SCRM 574

DSR 580 Clinical Perspective of Regenerative Medicine Units: 1 Max Units: 4.0 Terms Offered: Sp Students interaction with the patient-care setting to understand the need and role of regenerative medicine in bedside management. Instruction Mode: Lecture Grading Option: Credit/No Credit

DSR 610 Current Topics in Regenerative Medicine Units: 1 Max Units: 12 Terms Offered: Sp Selected topics on sub-fields within developmental and stem cell biology including review of contemporary literature and research. Registration Restriction: Open only to DSR and SCRM graduate students Instruction Mode: Lecture Grading Option: Letter Crosslisted as SCRM 610

DSR 620 Current Topics in Stem Cell Biology and Organogenesis Units: 1 Max Units: 12 Terms Offered: Fa Selected topics on sub-fields within stem cell biology and organogenesis. Includes review of contemporary literature and research. Open only to master and doctoral students. Registration Restriction: Open only to master and doctoral students. Instruction Mode: Lecture Grading Option: Letter Crosslisted as SCRM 620

DSR 790 Research Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Terms Offered: FaSpSm Research leading to the doctorate. Maximum units which may be applied to the degree to be determined by the department. Open only to doctoral students. Registration Restriction: Open only to doctoral students. Instruction Mode: Lecture Grading Option: Credit/No Credit

DSR 794a Doctoral Dissertation Units: 2 Terms Offered: FaSpSm Credit on acceptance of dissertation. Open only to doctoral students. Registration Restriction: Open only to doctoral students. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

DSR 794b Doctoral Dissertation Units: 2 Terms Offered: FaSpSm Credit on acceptance of dissertation. Open only to doctoral students. Registration Restriction: Open only to doctoral students. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

DSR 794c Doctoral Dissertation Units: 2 Terms Offered: FaSpSm Credit on...
acceptance of dissertation. Open only to doctoral students. Registration Restriction: Open only to doctoral students. Instruction Mode: Lecture, Grading Option: In-progress to Credit/No Credit

DSR 794d Doctoral Dissertation
Units: 2 Terms Offered: FaSpSm Credit on acceptance of dissertation. Open only to doctoral students. Registration Restriction: Open only to doctoral students. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

DSR 794z Doctoral Dissertation
Units: 0 Terms Offered: FaSpSm Credit on acceptance of dissertation. Open only to doctoral students. Registration Restriction: Open only to doctoral students. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

East Asian Languages and Cultures

EALC 101x Conversational Chinese and Intercultural Communication
Units: 2 Terms Offered: FaSpSm Basic Mandarin conversational skills for effective communication in familiar, everyday Chinese contexts and better understanding of intercultural communication through content-based language acquisition. Not available for credit to East Asian Area Studies and East Asian Languages and Cultures majors and minors. Instruction Mode: Lecture Grading Option: Credit/No Credit

EALC 102 Language, Art and Culture: Calligraphy
Units: 2 Terms Offered: FaSp This course introduces students to the origin of the basic Chinese scripts and the basic principles and styles of calligraphy. Instruction Mode: Lecture Grading Option: Letter

EALC 103a Fundamental Chinese I
Units: 2 Terms Offered: FaSpSm The first half of EALC 104. The sound system of modern Chinese; aural comprehension, oral expression, basic patterns and writing system. Duplicates Credit in EALC 104 Instruction Mode: Lecture Grading Option: Letter

EALC 103b Fundamental Chinese II
Units: 2 Terms Offered: FaSpSm The second half of EALC 104. The sound system of modern Chinese; aural comprehension, oral expression, basic patterns and writing system. Prerequisite: EALC 103a Duplicates Credit in EALC 104 Instruction Mode: Lecture Grading Option: Letter

EALC 104 Chinese I
Units: 4 Terms Offered: FaSpSm The sound system of modern Chinese; aural comprehension, oral expression, basic patterns, and writing system. Instruction Mode: Lecture Grading Option: Letter

EALC 106 Chinese II
Units: 4 Terms Offered: FaSpSm Dialogue practice and conversation; reading of simple stories and essays; comparison of Chinese and English grammar; writing of paragraphs. Prerequisite: EALC 104 or EALC 103b Instruction Mode: Lecture Grading Option: Letter

EALC 108 Reading and Writing Chinese
Units: 4 Terms Offered: FaSp The basics of reading and writing modern Chinese; intensive reading and writing of paragraphs, essays, and stories; extensive reading of beginner-level authentic materials. Instruction Mode: Lecture Grading Option: Letter

EALC 110gp East Asian Humanities: The Great Tradition
Units: 4 Terms Offered: FaSp Sm Introduction to the major humanities traditions of China, Japan, and Korea through an examination of representative works drawn from literature, aesthetics, philosophy, religion, and historical writing. Satisfies New General Education in Category B: Humanistic Inquiry Satisfies Global Perspective in Category H: Traditions and Historical Foundations Satisfies Old General Education in Category II: Global Cultures and Traditions Instruction Mode: Lecture, Discussion Grading Option: Letter

EALC 115 Korean I
Units: 4 Terms Offered: FaSpSm Basic Korean conversation practice, aural comprehension, basic grammar and building proficiency of reading and writing with Hangul (Korean alphabet). Instruction Mode: Lecture Grading Option: Letter

EALC 117 Korean II
Units: 4 Terms Offered: FaSpSm Continuation of EALC 115, basic conversation practice, aural comprehension, basic grammar and building proficiency of reading and writing. Prerequisite: EALC 115 or EALC 119 Instruction Mode: Lecture Grading Option: Letter

EALC 118 Essential Communications in Korean I
Units: 2 Max Units: 4 Terms Offered: FaSp A basic foundation of Korean, focusing on conversation skills. Students communicate on a variety of familiar topics and handle basic transactions. Registration Restriction: Open to all majors, no class standing restrictions, no school restrictions. Instruction Mode: Lecture Grading Option: Credit/No Credit

EALC 119 Essential Communications in Korean II
Units: 2 Max Units: max 4 Terms Offered: FaSp Continuation of EALC 118. Aims to develop basic communication skills required for survival in Korea. Students will practice simple conversations and understand some cultural practices through Korean drama clips. Prerequisite: EALC 118 Registration Restriction: No major, class standing or school restrictions. Instruction Mode: Lecture Grading Option: Credit/No Credit

EALC 120 Japanese I
Units: 4 Terms Offered: FaSpSm Basic Japanese conversation practice, basic grammar and building proficiency of reading and writing Hiragana and Katakana (Japanese alphabetical systems) and some basic kanji (Chinese characters). Instruction Mode: Lecture Grading Option: Letter

EALC 121 Extensive Reading in Japanese I
Units: 2 Max Units: 4.0 Terms Offered: FaSp Development of reading skill in Japanese for elementary level students through short stories written for learners of Japanese and authentic materials written for native Japanese speakers. Prerequisite: EALC 120. Instruction Mode: Lecture Grading Option: Letter

EALC 122 Japanese II
Units: 4 Terms Offered: FaSpSm Continuation of EALC 120. Basic Japanese conversation practice, basic grammar and building proficiency of reading and writing Hiragana and Katakana and basic kanji. Prerequisite: EALC 120. Instruction Mode: Lecture Grading Option: Letter

EALC 125g Introduction to Contemporary East Asian Cinema and Culture
Units: 4 An introduction to and overview of the contemporary cinemas of East Asia: China (Hong Kong, the People's Republic, and Taiwan), Japan, and Korea. Satisfies New General Education in Category B: Humanistic Inquiry Satisfies Old General Education in Category II: Global Cultures and Traditions Instruction Mode: Lecture, Discussion Grading Option: Letter

EALC 130gp Introduction to East Asian Ethnic Thought

EALC 145g Introduction to Chinese Culture, Art and Literature
Units: 4 Terms Offered: FaSp Examines of the transnational production and circulation of Chinese-language cinema. Analysis of the larger sociocultural significance of films by engaging their historical context. Satisfies New General Education in Category B: Humanistic Inquiry Satisfies Global Perspective in Category G: Citizenship in a Diverse World Satisfies Old General Education in Category II: Global Cultures and Traditions Instruction Mode: Lecture, Discussion Grading Option: Letter

EALC 150gw Global Chinese Cinema and Cultural Studies
Units: 4 Terms Offered: FaSp Examination of the transnational production and circulation of Chinese-language cinema. Analysis of the larger sociocultural significance of films by engaging their historical context. Satisfies New General Education in Category B: Humanistic Inquiry Satisfies Global Perspective in Category G: Citizenship in a Diverse World Satisfies Old General Education in Category II: Global Cultures and Traditions Instruction Mode: Lecture, Discussion Grading Option: Letter

EALC 202 Language, Art, and Culture: Calligraphy II
Units: 2 Max Units: 4 Terms Offered: FaSpSm Further students' knowledge in the Chinese writing system and develops students' skills in a more advanced calligraphy style. Prerequisite: EALC 102 Instruction Mode: Lecture Grading Option: Letter

EALC 204 Chinese III
Units: 4 Terms Offered: Fa Convensional practice: reading of stories and essays; writing of short essays. Prerequisite: EALC
Units: 4 Terms Offered: Sp Continuation of reading and writing, frequent interaction with native speakers. Prerequisite: EALC 204. Instruction Mode: Lecture Grading Option: Letter

EALC 207a Intermediate Chinese: Reading and Oral Communication
Units: 4 Terms Offered: Sm Improving Chinese reading techniques and oral presentation skills in an immersive environment. Offered only in Taiwan. Prerequisite: EALC 106. Instruction Mode: Lecture Grading Option: Letter

EALC 207b Intermediate Chinese: Reading and Oral Communication
Units: 4 Terms Offered: Sm Improving Chinese reading techniques and oral presentation skills in an immersive environment. Offered only in Taiwan. Prerequisite: EALC 204. Instruction Mode: Lecture Grading Option: Letter

EALC 215 Korean III
Units: 4 Terms Offered: Fa Drill to increase proficiency in dialogue, reading, and writing; intermediate level readings. Prerequisite: EALC 117. Instruction Mode: Lecture Grading Option: Letter

EALC 217 Korean IV
Units: 4 Terms Offered: Sp Advanced level reading of modern Korean materials; improvement of skills in conversation, composition, and translation. Prerequisite: EALC 217. Instruction Mode: Lecture Grading Option: Letter

EALC 220 Japanese III
Units: 4 Terms Offered: FaSpSm Continued of EALC 122. Conversation practice, basic to intermediate grammar, and building proficiency of reading and writing. Prerequisite: EALC 122. Instruction Mode: Lecture Grading Option: Letter

EALC 221 Japanese IV
Units: 4 Terms Offered: FaSpSm Continuation of EALC 220. More sophisticated grammar and vocabulary for natural conversation. Enhancing fundamental reading and writing skills, expanding the knowledge of kanji. Prerequisite: EALC 220. Instruction Mode: Lecture Grading Option: Letter

EALC 255gw Southeast Asian Literature and Film
Units: 4 Terms Offered: FaSp Comparative approach and general introduction to literature and cinema from the four major nations of maritime Southeast Asia (Indonesia, the Philippines, Singapore, and Malaysia). Satisfies New General Education in Category B: Humanistic Inquiry Satisfies Global Perspective in Category G: Citizenship in a Diverse World Instruction Mode: Lecture, Discussion Grading Option: Letter Crosslisted as COLT 255

EALC 264g Asian Aesthetic and Literary Tradition
Units: 4 (Enroll in COLT 264gp) Terms Offered: Fa Reading selections from different styles of modern Chinese writings, analysis of stylistic techniques and syntactic structure, composition, and translation. Prerequisite: EALC 206. Instruction Mode: Lecture Grading Option: Letter

EALC 304 Advanced Modern Chinese II
Units: 4 Terms Offered: Sp Continuation of EALC 304; composition exercises in different styles of writing. Prerequisite: EALC 304. Instruction Mode: Lecture Grading Option: Letter

EALC 306 Advanced Modern Chinese II
Units: 4 Terms Offered: Sp Continuation of EALC 304; composition exercises in different styles of writing. Prerequisite: EALC 304. Instruction Mode: Lecture Grading Option: Letter

EALC 315 Advanced Korean I
Units: 4 Terms Offered: Fa Advanced reading in modern Korean materials; improvement of skills in conversation, composition, and translation. Prerequisite: EALC 217. Instruction Mode: Lecture Grading Option: Letter

EALC 317 Advanced Korean II
Units: 4 Terms Offered: Sp Continuation of EALC 315, with emphasis on the use of Chinese characters; translation, and composition exercises. Prerequisite: EALC 315. Instruction Mode: Lecture Grading Option: Letter

EALC 318 Readings in Contemporary Korean
Units: 4 Terms Offered: FaSpSm Selected readings in a variety of Korean styles. Materials are from essays, short stories and newspapers. Prerequisite: EALC 217. Instruction Mode: Lecture Grading Option: Letter

EALC 320 Advanced Japanese I
Units: 4 Strengthen intermediate Japanese language proficiency. Oral/aural communication skills as well as reading and writing skills. Promote an understanding of the present-day Japanese culture. Prerequisite: EALC 222. Instruction Mode: Lecture Grading Option: Letter

EALC 322 Advanced Japanese II
Units: 4 Terms Offered: FaSpSm Continuation of EALC 320. Improve and strengthen abilities to speak, listen, read and write, coping with more involved materials and situation. Prerequisite: EALC 320. Instruction Mode: Lecture Grading Option: Letter

EALC 324 Contemporary China: Cultural Politics and Social Realities
Units: 4 (Enroll in ANTH 324) Terms Offered: Fa Modern Chinese literature in translation. Prerequisite: EALC 220. Instruction Mode: Lecture Grading Option: Letter

EALC 332 Modern Korean Literature in Translation
Units: 4 Terms Offered: Fa Introduction to Korean literature, with discussion of critical approaches to literary discourse, historical contexts of literary production, and aspects of contemporary popular culture. Instruction Mode: Lecture Grading Option: Letter

EALC 333g Introduction to Korean Film
Units: 4 Terms Offered: Fa Survey of Korean film, the film industry, and critical issues from the colonial period to the present. Satisfies New General Education in Category B: Humanistic Inquiry Instruction Mode: Lecture, Discussion Grading Option: Letter

EALC 340gp Japanese Civilization
Units: 4 Terms Offered: FaSp Survey of the main characteristics and development of art, literature, philosophy, religion, political and social institutions through different periods. Conducted in English. Satisfies New General Education in Category B: Humanistic Inquiry Satisfies Global Perspective in Category H: Traditions and Historical Foundations Satisfies Old General Education in Category II: Global Cultures and Traditions Instruction Mode: Lecture, Discussion Grading Option: Letter

EALC 342gp Japanese Literature and Culture
Units: 4 Terms Offered: FaSp Japanese literature from the earliest times to the present; development of prose, poetry and the novel; evolution of theatre; Japanese literature under Western influence. Conducted in English. Satisfies New General Education in Category B: Humanistic Inquiry Satisfies Global Perspective in Category H: Traditions and Historical Foundations Satisfies Old General Education in Category II: Global Cultures and Traditions Instruction Mode: Lecture, Discussion Grading Option: Letter

EALC 344gp Korean Culture from Ancient to Modern Times
Units: 4 Terms Offered: Sp The history of Korean literature and culture from the ancient to the modern era. Recommended Preparation: HIST 105. Satisfies New General Education in Category B: Humanistic Inquiry Satisfies Global Perspective in Category H: Traditions and Historical Foundations Satisfies Old General Education in Category II: Global Cultures and Traditions Instruction Mode: Lecture, Discussion Grading Option: Letter
Conducted in English. Instruction Mode: Lecture Grading Option: Letter

EALC 346g Hallyu, the Korean Wave
Units: 4 Terms Offered: Fa Critical overview of the Korean Wave (Hallyu), the phenomenon defined as the growing, global circulation and consumption of Korean popular culture. Satisfies New General Education in Category B: Humanistic Inquiry Instruction Mode: Lecture Grading Option: Letter

EALC 350g Chinese Civilization
Units: 4 Terms Offered: FaSp Characteristics and aspects of Chinese civilization; interpretation of philosophy, literature, religion, art, music. Conducted in English. Satisfies New General Education in Category B: Humanistic Inquiry Satisfies Global Perspective in Category H: Traditions and Historical Foundations Satisfies Old General Education in Category II: Global Cultures and Traditions Instruction Mode: Lecture, Discussion Grading Option: Letter

EALC 352g Chinese Literature and Culture
Units: 4 Terms Offered: FaSp Readings of Chinese poetry, prose, novels and drama; influence of the West on Chinese literature and culture in modern times. Conducted in English. Satisfies New General Education in Category B: Humanistic Inquiry Satisfies Old General Education in Category II: Global Cultures and Traditions Instruction Mode: Lecture, Discussion Grading Option: Letter

EALC 354g Modern Chinese Literature in Translation
Units: 4 Readings in modern Chinese poetry, fiction, and drama since 1919. Satisfies New General Education in Category B: Humanistic Inquiry Satisfies Old General Education in Category II: Global Cultures and Traditions Instruction Mode: Lecture, Discussion Grading Option: Letter

EALC 355 Studies in Chinese Thought
Units: 4 Chinese thought, particularly as formed during the great traditions: Confucianism, Taoism, Buddhism. Instruction Mode: Lecture Grading Option: Letter

EALC 358g Transnational Chinese Literature and Culture
Units: 4 Terms Offered: Sp An introduction to Sinophone literatures and cultures (in English translation) from the Asia-Pacific region, including Taiwan, Hong Kong, Tibet, Southeast Asia, and North America. Satisfies New General Education in Category B: Humanistic Inquiry Instruction Mode: Lecture, Discussion Grading Option: Letter

EALC 360g Performing Japan: Bodies, Media, and Textuality
Units: 4 Terms Offered: FaSp The classical foundations of Japanese performance, including noh, puppet theater, and kabuki; exploration of how these genres are implicated in modern and contemporary Japanese performance. Satisfies New General Education in Category A: The Arts Instruction Mode: Lecture, Discussion Grading Option: Letter

Units: 4 Max Units: 12.0 Terms Offered: FaSp Survey of some representative works in generative grammar since the mid 60s, including those that deal with similar phenomena in the contexts of more recent theoretical frameworks as well as non-generative grammatical works on Chinese, Japanese, and Korean. Instruction Mode: Lecture Grading Option: Letter

EALC 588a Directed Readings
Units: 2 Assigned readings according to individual needs. Instruction Mode: Lecture Grading Option: Letter

EALC 588b Directed Readings
Units: 2 Assigned readings according to individual needs. Instruction Mode: Lecture Grading Option: Letter

EALC 590 Directed Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Research leading to the master's degree. Maximum units which may be applied to the degree to be determined by the department. Instruction Mode: Lecture Grading Option: Credit/No Credit

EALC 593 Teaching Practicum for East Asian Studies
Units: 2 Max Units: 04 Terms Offered: FaSp Enhances the teaching experience of teaching assistants in East Asian studies through a collaborative study of relevant pedagogical principles, resources, and techniques. Prerequisite: EALC 537 or EALC 547 or EALC 557. Instruction Mode: Lecture Grading Option: Credit/No Credit

EALC 594a Master's Thesis
Units: 2 Credit on acceptance of thesis. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

EALC 594b Master's Thesis
Units: 2 Credit on acceptance of thesis. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

EALC 594z Master's Thesis
Units: 2 Credit on acceptance of thesis. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

EALC 596 Internship for Curricular Practical Training
Units: 1, 2, 3, 4 Max Units: 03 Terms Offered: FaSpSm Part-time or full-time, practical work experience in the student's field of study. The internship must be located at an off-campus facility. Students are individually supervised by faculty. May not be taken until the student has completed at least one semester of enrollment in the graduate program with a cumulative 3.0 GPA. Registration Restriction: Open only to graduate students. Instruction Mode: Lecture Grading Option: Credit/No Credit

EALC 599 Special Topics
Units: 2, 3, 4 Max Units: 8.0 Terms Offered: FaSpSm Special topics in East Asian Languages and Cultures. Instruction Mode: Lecture Grading Option: Letter

EALC 610 Seminar: Buddhism and the Literary Arts in Japan
Units: 4 Seminar on the impact of Buddhism on the literary tradition of medieval Japan. Selected topics. Instruction Mode: Lecture Grading Option: Letter

EALC 620 Seminar in East Asian Linguistics
Units: 4 Max Units: 12.0 Terms Offered: FaSp Detailed theoretical discussions and empirical studies of the issues and development in East Asian linguistics. Instruction Mode: Lecture Grading Option: Letter

EALC 650 Research Seminar in Chinese Documents
Units: 4 An introduction to the different genres of documents for the study of Chinese civilization, and training in their use. Instruction Mode: Lecture Grading Option: Letter

EALC 700 Professionalization Seminar for Advanced Graduate Students
Units: 2 Max Units: 04 Terms Offered: FaSp Familiarizes advanced graduate students with topics relevant to academic work in East Asian humanities, including research planning, dissertation writing, publishing, and conference presentation. Registration Restriction: Open only to graduate students. Instruction Mode: Lecture Grading Option: Credit/No Credit

EALC 794a Doctoral Dissertation
Units: 2 Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

EALC 794b Doctoral Dissertation
Units: 2 Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

EALC 794d Doctoral Dissertation
Units: 2 Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

EAST ASIAN STUDIES

EASC 150gp East Asian Societies
Units: 4 Terms Offered: FaSp Main patterns of change in modern China, Japan, and Korea; historical framework and the insights of geography, economics, political science, and other disciplines. Satisfies New General Education in Category C: Social Analysis Satisfies Global Perspective in Category H: Traditions and Historical Foundations Satisfies Old General Education in Category II: Global Cultures and Traditions Instruction Mode: Lecture, Discussion Grading Option: Letter

EASC 160gmp China and the World
Units: 4 Terms Offered: FaSp Advanced-level introduction to China and its relations with the wider world in historic and contemporary perspective. Satisfies New General Education in Category C: Social Analysis Satisfies Global Perspective in Category H: Traditions and Historical Foundations Satisfies Old General Education in Category II: Global Cultures and Traditions Instruction Mode: Lecture, Discussion Grading Option: Letter

EASC 360 Global East Asia
Units: 4 Max Units: 12 Terms Offered: Sp Maymester Study Abroad Program to China or Japan with a focus on globalization. Instruction Mode: Lecture Grading Option: Letter Crosslisted as EALC 361

EASC 490x Directed Research
Units: 1, 2, 3, 4, 5, 6, 7, 8 Max Units: 12.0 Terms Offered: FaSpSm Individual research and readings. Instruction Mode: Lecture Grading Option: Letter

EASC 495 Honors Thesis
Units: 4 Terms Offered: FaSpSm Writing the honors thesis: for East Asian Area Studies Honors majors. Registration Restriction: Open only to East Asian Area Studies majors. Instruction Mode: Lecture Grading Option: Letter

EASC 499 Special Topics
Units: 2, 3, 4 Max Units: 8.0 Terms Offered: Irregular Interdisciplinary examination of various areas of East Asian studies. Instruction Mode: Lecture Grading Option: Letter
EASC 590 Directed Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12
Terms Offered: FaSpSm Research leading to the master’s degree. Maximum units which may be applied to the degree to be determined by the department. Instruction Mode: Lecture Grading Option: Credit/No Credit

EASC 591 Interdisciplinary Seminar
Units: 4 Max units: 8.0 Terms Offered: Irregular An examination of a broad topic in the study of China, Korea, or Japan. Guest speakers, student reports, papers. Readings in English and the appropriate Asian language(s). Instruction Mode: Lecture Grading Option: Letter

EASC 592 Proseminar on Issues and Trends in Contemporary East Asia
Units: 4, 2 years Terms Offered: Fa Introduce to graduate level study of policy issues and major trends in contemporary China, Japan, and Korea; contributions of various academic disciplines. Instruction Mode: Lecture Grading Option: Letter

Units: 4 Contract law and economic organization, determinants of firm boundaries, transaction cost economics, agency theory, incomplete contracting, business strategy, bureaucracy, institutional environment, politics and property rights. Prerequisite: ECON 203. Instruction Mode: Lecture Grading Option: Letter

ECON 333 Philosophy of Economics
Units: 4 (Enroll in PHIL 339)

ECON 340 Economics of Less Developed Countries
Units: 4 Causes of economic underdevelopment: historical, institutional, structural, ideological, technological, cultural. Patterns and theories of development. Role of government, international trade, and education in economic growth. Prerequisite: ECON 203 or ECON 205. Instruction Mode: Lecture Grading Option: Letter

ECON 342 Economic Development of the Middle East
Units: 4 Terms Offered: FaSp Contemporary economic problems of the Middle East: comparative and historical perspectives on issues of institutions, investment, oil, trade, migration, finance, inequality, labor and capital markets. Prerequisite: ECON 203; Recommended
COURSES OF INSTRUCTION

Preparation: ECON 205 and ECON 303.
Instruction Mode: Lecture Grading Option: Letter

ECON 343 Economic Development of East Asia
Units: 4 Contemporary economic problems of East Asian countries: management, labor, technology, trade, investment. Determinants of their high growth rates in the late 20th century. Prerequisite: ECON 203 or ECON 205. Instruction Mode: Lecture Grading Option: Letter

ECON 344 Economic Development of Sub-Saharan Africa
Units: 4 Terms Offered: FaSpSm Contemporary economic problems of sub-Saharan African economies: policies and endowments. Focus on issues of poverty, agriculture, health, macroeconomy and political economy. Prerequisite: ECON 203 or ECON 205. Instruction Mode: Lecture Grading Option: Letter

ECON 346 Economics of Transition and Development: China
Units: 4 Terms Offered: FaSpSm A focus on the Chinese economy, its reform and transition from a market economy, its relation with East Asian countries and integration into the world economy. Prerequisite: ECON 203 or ECON 205. Instruction Mode: Lecture Grading Option: Letter

ECON 348g Current Problems of the American Economy
Units: 4 Terms Offered: Fa A comprehensive investigation of problems stemming from changing composition of the work force, urban decline, new technologies, inequalities, ethnic relations, government deficits. Prospects for continued growth. Prerequisite: ECON 203 or ECON 205. Satisfies Old General Education in Category VI: Social Issues Instruction Mode: Lecture, Discussion Grading Option: Letter

ECON 350 The World Economy
Units: 4 Terms Offered: SpSm International cooperation and conflict in the world economy. Global economic problems of growth and development, trade and finance, migration, economic stability, and the environment. Prerequisite: ECON 203 or ECON 205. Instruction Mode: Lecture Grading Option: Letter

ECON 351x Microeconomics for Business
Units: 4 Terms Offered: FaSpSm Development and business applications of: theory of the firm; theory of the consumer; intertemporal decisions; decisions under risk; market failures; industrial and enterprise structure. Not for major credit for: economics, economics/mathematics, social sciences (economics) majors. Prerequisite: MATH 118 or MATH 125 or MATH 126 or MATH 226; Corequisite: ECON 352x Duplicates Credit in former ECON 251. Instruction Mode: Lecture Grading Option: Letter

ECON 352x Macroeconomics for Business
Units: 4 Terms Offered: FaSpSm Theoretical development and significance to business and markets of economic growth; inflation; unemployment; monetary and fiscal policy; business cycles; savings and investment; exchange rates. Recommended Preparation: introductory economics course, high school math, and algebra. Corequisite: ECON 351x Duplicates Credit in former ECON 252x. Instruction Mode: Lecture Grading Option: Letter

ECON 357 Money, Credit, and Banking
Units: 4 The money, bond, stock, and other financial markets; portfolio choice; determinants of asset prices and interest rates; inflation; interactions between financial markets and government policies. Prerequisite: ECON 203 and ECON 205. Instruction Mode: Lecture Grading Option: Letter

ECON 360 Public Finance
Units: 4 Role of the government; income and corporate taxation; direct versus indirect taxation; optimal tax structure; public goods; public sector pricing; public debt and macroeconomic stability. Prerequisite: ECON 203 and ECON 205. Instruction Mode: Lecture Grading Option: Letter

ECON 361 Understanding Financial Crises
Units: 4 Terms Offered: FaSpSm Key facts and basic mechanisms concerning financial crises and related topics (bank runs, sovereign default decision, currency collapse). Prerequisite: ECON 203g and ECON 205g Instruction Mode: Lecture Grading Option: Letter

ECON 366 Urban Economics
Units: 4 Urban trends and problems, including changing urban form and function, urban public finance, housing, renewal, poverty, race, transportation, and the environment. Prerequisite: ECON 203 and ECON 205. Instruction Mode: Lecture Grading Option: Letter

ECON 369 Economics of European Integration
Units: 4 Terms Offered: FaSpSm The challenges of policy coordination among independent political entities, starting from the aftermath of German unification (and the ramifications it had in a fixed exchange rate system) to the recent national debt crisis that followed the great recession. Prerequisite: ECON 203 and ECON 205. Instruction Mode: Lecture Grading Option: Letter

ECON 390 Special Problems
Units: 1, 2, 3, 4 Supervised, individual studies. No more than one registration permitted. Enrollment by petition only. Instruction Mode: Lecture Grading Option: Letter

ECON 395 Economic Policy Issues
Units: 4 Selected policy dilemmas, including welfare reform, urban renewal, government budget deficits, regulation and deregulation, environmental problems, immigration, and global development. Lectures by leading authorities and weekly discussion sessions. Prerequisite: ECON 203 and ECON 205. Instruction Mode: Lecture Grading Option: Letter

ECON 401 Mathematical Methods in Economics
Units: 4 Terms Offered: Fa Introduction to quantitative methods for analyzing economic equilibria; comparative statics and dynamics. Utility theory, consumer behavior, and profit maximization. Model formulation in micro and macroeconomics. Prerequisite: ECON 303. Instruction Mode: Lecture Grading Option: Letter

ECON 404 Games and Economics
Units: 4 Analysis of strategic economic interactions. Topics in economic game theory, insurance, patents, voting, environmental depletion, strategic trade, learning, reputation, strikes, corporate takeovers, and the provision of public goods. Prerequisite: ECON 303. Instruction Mode: Lecture Grading Option: Letter

ECON 405 Neuroeconomics
Units: 4 Introduction to the methodology used in experimental neuroeconomics and discussion of neural correlates of decision-making. Prerequisite: ECON 303. Instruction Mode: Lecture Grading Option: Letter

ECON 410 Economics of Health and Healthcare
Units: 4 Terms Offered: FaSpSm Analysis of binary dependent variable models, panel data analysis, program evaluations, IV analysis, basics of time series and forecasting. Prerequisite: (ECON 303 and ECON 305 and ECON 317 and ECON 318) and (MATH 125 or MATH 126 or MATH 225 or MATH 226) Instruction Mode: Lecture Grading Option: Letter

ECON 415 Behavioral Economics
Units: 4 Examination of the traditional and behavioral theories of decision-making and the state of the art in the field. Prerequisite: ECON 303. Instruction Mode: Lecture Grading Option: Letter

ECON 419 Advanced Econometrics
Units: 4 Terms Offered: FaSpSm Analysis of binary dependent variable models, panel data analysis, program evaluations, IV analysis, basics of time series and forecasting. Prerequisite: (ECON 303 and ECON 305 and ECON 317 and ECON 318) and (MATH 125 or MATH 126 or MATH 225 or MATH 226) Instruction Mode: Lecture Grading Option: Letter

ECON 420 Experimental Economics
Units: 4 Examination of economic theories and patterns of behavior useful in building new theories. Prerequisite: ECON 303. Recommended Preparation: ECON 317. Instruction Mode: Lecture Grading Option: Letter

ECON 432 Economics of Happiness
Units: 4 What is happiness? How does it vary by socio-economic status and over the life cycle? This course will develop insight into the nature and determinants of subjective well-being. Prerequisite: ECON 303; Recommended Preparation: ECON 305, Instruction Mode: Lecture Grading Option: Letter

ECON 433 Empirical Economics Research
Units: 4 Terms Offered: FaSpSm Analysis of economic variables; investigation of empirical economics to estimate or test for relationships using various forms of data. Prerequisite: ECON 303, ECON 305, ECON 317 and ECON 318. Instruction Mode: Lecture Grading Option: Letter

ECON 434 Economic Analysis of Law
Units: 4 Common law and property, rationing of justice, resource allocation between prevention and enforcement; division of decision making between public and private sectors. Prerequisite: ECON 303. Instruction Mode: Lecture Grading Option: Letter
ECON 450 International Trade
Units: 4 Determinants and economic consequences of international trade patterns; effects of trade restrictions and trading blocs; trade negotiations and arrangements. Prerequisite: ECON 303. Instruction Mode: Lecture Grading Option: Letter

ECON 451 The Politics of International Trade
Units: 4 (Enroll in IR 430)

ECON 452 International Finance
Units: 4 Consequences of trade deficits; theories of capital and currency markets, exchange rate regimes, and international monetary coordination. Prerequisite: ECON 305. Instruction Mode: Lecture Grading Option: Letter

ECON 457 Financial Markets
Units: 4 General equilibrium analysis of economies with financial markets; decision making under uncertainty; methods of risk reduction; portfolio theory and valuation of securities; efficiency of security markets. Prerequisite: ECON 303. Instruction Mode: Lecture Grading Option: Letter

ECON 460 Economic Applications of Machine Learning
Units: 4 Terms Offered: FaSp A capstone course that introduces state-of-the-art estimation methods for high-dimensional data. Prerequisite: ECON 318 and MATH 225 and ECON 472 and MATH 103L and DSCI 250 Recommended Preparation: MATH 226g Instruction Mode: Lecture Grading Option: Letter

ECON 471 Economics of Labor Markets and Human Capital
Units: 4 A human capital interpretation of labor demand and supply; wage determination, differentials, and discrimination; job turnover and occupational mobility; unions and collective bargaining. Prerequisite: ECON 303. Instruction Mode: Lecture Grading Option: Letter

ECON 472 Economics of Medical Care
Units: 4 Health as an investment in human capital; analysis of the demand for and supply of health services and manpower; health insurance; cost-effectiveness analysis; market structures and the pricing of medical services. Prerequisite: ECON 303. Instruction Mode: Lecture Grading Option: Letter

ECON 474 Economic Consulting and Applied Managerial Economics
Units: 4 Terms Offered: FaSp Economic consulting and managerial economic methods applied in real world problems. Economic methods to analyze issues of intellectual property, environmental damage, trademark infringement, brand value, and consumer demand. Prerequisite: ECON 303. Instruction Mode: Lecture Grading Option: Letter

ECON 480 Economics of Industrial Organization
Units: 4 Pricing and resource allocation in imperfectly competitive markets; monopoly regulation, collusion, cartels, mergers and antitrust; patents and development incentives; industry case studies. Prerequisite: ECON 303. Instruction Mode: Lecture Grading Option: Letter

ECON 487 Resource and Environmental Economics
Units: 4 Management and extraction of renewable and non-renewable natural resources; environmental externalities and regulation of air, water, and land pollution; market incentives versus direct regulation. Prerequisite: ECON 303. Instruction Mode: Lecture Grading Option: Letter Crosslisted as ENST 487

ECON 490X Directed Research
Units: 1, 2, 3, 4, 5, 6, 7, 8 Max Units: 12.0 Terms Offered: FaSpSm Supervised individual research. Instruction Mode: Lecture Grading Option: Letter

ECON 495 Honors Thesis
Units: 4 Individual research supervised by a faculty adviser. Successful completion required for departmental honors degree. Instruction Mode: Lecture Grading Option: Letter

ECON 499 Special Topics
Units: 2, 3, 4 Max Units: 8.0 Terms Offered: FaSpSm Selected topics in economic theory, history, or policy. Instruction Mode: Lecture Grading Option: Letter

ECON 500 Microeconomic Analysis and Policy
Units: 4 Terms Offered: FaSp Theories of the household and the firm; product and factor markets; perfect and imperfect competition; welfare criteria. Instruction Mode: Lecture Grading Option: Letter

ECON 501 Macroeconomic Analysis and Policy
Units: 4 Terms Offered: FaSp Theories of aggregate economic activity; design and use of macroeconomic models; stabilization and control of inflation, unemployment, and growth. Instruction Mode: Lecture Grading Option: Letter

ECON 502 Mathematical Methods in Dynamic Economics
Units: 4 Terms Offered: SpSm Movement of economic systems over time; differential and difference equations; introduction to the optimal control of economic processes; dynamic programming and optimal strategies; selected applications. Prerequisite: ECON 401. Instruction Mode: Lecture Grading Option: Letter

ECON 504 Game Theory with Economic and Financial Applications
Units: 4 Terms Offered: FaSp Students will cover large ground in applying game theory to economic and financial markets and interactions in a diverse set of examples like reputation, herding, bubbles and crashes, auctions, strategic information revelation and information accumulation in markets. We will witness the wide range of applications that is amenability to game theoretical analysis. Prerequisite: ECON 303 and ECON 404 and MATH 544L and MATH 547 Instruction Mode: Lecture Grading Option: Letter

ECON 508 Neurofinance
Units: 4 Terms Offered: FaSp Investigate human behavior in Economics. Use neuroscience as a new lens on financial decision-making; focus on specific topics in behavioral and neuro-finance. Recommended Preparation: Intermediate level microeconomic theory and basic calculus Instruction Mode: Lecture Grading Option: Letter

ECON 513 Practice of Econometrics
Units: 4 Terms Offered: FaSpSm Application of econometric tools using standard econometric software packages for microcomputers; empirical applications to selected economic problems of estimation and inference. Instruction Mode: Lecture Grading Option: Letter

ECON 514 Empirical Finance
Units: 4 Terms Offered: FaSp Foundational knowledge of empirical methods in finance on selected topics and econometric methods, including time-series, asset returns and pricing models. Prerequisite: ECON 513 Instruction Mode: Lecture Grading Option: Letter

ECON 515 Time Series Analysis
Units: 4 Terms Offered: FaSp Understanding and implementing models commonly used in time series econometrics. Emphasis is placed on intuition and application. Assists students understanding how to use time series data to test hypotheses and serve as an introduction to the ideas and techniques of forecasting. Corequisite: ECON 513 Instruction Mode: Lecture Grading Option: Letter

ECON 521 Open Economy Macroeconomics
Units: 4 Terms Offered: FaSp The balance of payments, macroeconomic policy in an open economy, exchange rate determination, exchange rate systems, currency crises, international financial arrangements and monetary history. Prerequisite: ECON 501 Instruction Mode: Lecture Grading Option: Letter

ECON 523 Economic History and Development
Units: 4 Historical trends in developed and developing societies in various aspects of modernization such as human resources, capital, technology, resource allocation, income distribution, international relations. Instruction Mode: Lecture Grading Option: Letter

ECON 527 Theory of Value: Classical Origins and Neoclassical Critique
Units: 4 Terms Offered: FaSpSm Classical economic theory; its precursors, main contributors, extensions and critiques; focus upon the writings and ideas of Smith, Say, Malthus, Ricardo, Mill and Marx. Instruction Mode: Lecture Grading Option: Letter

ECON 533 Capstone Research Seminar
Units: 2 Terms Offered: FaSp Provides Masters students with a centerpiece of their graduate experience whereby they are able to experience first-hand turning the theory of their studies into practice under the guidance of an experienced faculty member. Instruction Mode: Lecture Grading Option: Credit/No Credit

ECON 537 Contracts, Organizations and Institutions
Units: 4 Information, property rights, bargaining, transaction costs, incentives, free-riding and contracting in organizations; the nature of cooperation; bureaucracies. Instruction Mode: Lecture Grading Option: Letter

ECON 538 Values and Social Analysis
Units: 4 Factors that make values an essential feature of human society; how values develop, change, and are
abandoned; role of values in economic development. Instruction Mode: Lecture Grading Option: Letter

ECON 541 Economic Development Units: 4 Development, underdevelopment and the problems thereof; agriculture, industry, trade, population, human capital, capital formation; structural, technological, environmental and institutional changes; political economy of the state. Instruction Mode: Lecture Grading Option: Letter

ECON 550 Applied Trade Policy Units: 4 Terms Offered: FaSp Sm Introduction and exploration of quantitative methods and data sources used for applied trade policy analysis. Prerequisite: ECON 303 Corequisite: ECON 500 Instruction Mode: Lecture Grading Option: Letter

ECON 570 Big Data Econometrics Units: 4 Terms Offered: FaSp Introduction to the theory and practice of causal econometrics in modern settings of large-scale data. Major algorithms from machine learning focused on methodology and applications. Corequisite: ECON 513 Instruction Mode: Lecture Grading Option: Letter

ECON 580 Antitrust Economics and Competition Policy Units: 4 Terms Offered: FaSp Efficiency, market failure, government regulation, some basics for antitrust economics, competition policy, analysis and collusion and agreements among competitors. Prerequisite: ECON 500 or ECON 513. Instruction Mode: Lecture Grading Option: Letter

ECON 584 Economic Consulting and Applied Econometrics Units: 4 Terms Offered: FaSp Economic methods to analyze issues of intellectual property, environmental damage, trademark infringement, brand value and consumer demand, using an applied econometric approach. Corequisite: ECON 513 Instruction Mode: Lecture Grading Option: Letter

ECON 590 Directed Research Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Terms Offered: FaSp Sm Research leading to the master’s degree. Maximum term which may be applied to the degree to be determined by the department. Instruction Mode: Lecture Grading Option: Credit/No Credit

ECON 593x Practicum in Teaching the Liberal Arts Units: 2 Terms Offered: FaSp Practical principles for the long-term development of effective teaching within college disciplines. Intended for teaching assistants in Dornsife College. Registration Restriction: Open only to doctoral students in Economics. Instruction Mode: Lecture Grading Option: Credit/No Credit

ECON 594z Master’s Thesis Units: 0 Terms Offered: FaSpSm Credit on acceptance of thesis. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

ECON 594z Master’s Thesis Units: 0 Terms Offered: FaSpSm Credit on acceptance of thesis. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

ECON 595z Research Seminar in Spatial Economics and Data Sciences Units: 4 Terms Offered: FaSp Original spatial analysis research; integrate econometrics, data creation, and spatial analytics. Instruction Mode: Lecture Grading Option: Letter

ECON 596 Internship for Curricular Practical Training Units: 1, 2, 3, 4 Max Units: 03 Terms Offered: FaSpSm Part-time or full-time, practical work experience in the student’s field of study. The internship must be located at an off-campus facility. Students are individually supervised by faculty. May not be taken until the student has completed at least one semester of enrollment in the graduate program with a cumulative 3.0 GPA. Registration Restriction: Open only to graduate students. Instruction Mode: Lecture Grading Option: Credit/No Credit

ECON 599 Special Topics Units: 2, 3, 4 Max Units: 8.0 Terms Offered: FaSp Sm Selected topics in economics as developed by the instructor. Instruction Mode: Lecture Grading Option: Letter

ECON 600 Economics of Choice Units: 4 Reviews the normative and positive theories of choice drawing upon recent theoretical and empirical work in cognitive and evolutionary psychology, artificial intelligence, linguistics and economics. Prerequisite: ECON 500. Instruction Mode: Lecture Grading Option: Letter

ECON 601 Microeconomic Theory I Units: 4 Optimization of the consumer and the firm; duality and imputed value; perfect and imperfect competition in product and factor markets. Prerequisite: ECON 401; Recommended Preparation: ECON 500. Duplicates Credit in former ECON 503. Instruction Mode: Lecture Grading Option: Letter

ECON 602 Macroeconomic Theory I Units: 4 Aggregate demand, supply and government policy; theories of economic growth and business cycles; static and dynamic implications of government policies. Prerequisite: ECON 401. Duplicates Credit in former ECON 505. Instruction Mode: Lecture Grading Option: Letter

ECON 603 Microeconomic Theory II Units: 4 Terms Offered: Sp General equilibrium theory; existence, uniqueness, and stability; welfare economics; social choice; dynamic models and uncertainty; special topics. Prerequisite: ECON 601. Duplicates Credit in former ECON 505. Instruction Mode: Lecture Grading Option: Letter

ECON 604 Game Theory Units: 4 Strategies and equilibrium concepts; dynamic and finite games; incomplete information and learning in games. Prerequisite: ECON 601. Instruction Mode: Lecture Grading Option: Letter

ECON 605 Game Theory Units: 4 Terms Offered: Sp Game theory based on the concepts of optimal growth and intertemporal equilibrium; overlapping generations models; recent developments in macroeconomic theory. Prerequisite: ECON 601 and ECON 602. Instruction Mode: Lecture Grading Option: Letter

ECON 606 Behavioral Theories of Decision-Making Units: 4 Examination of behavioral theories used to describe and predict choices made in both an individual decision-making setting and strategic environments. Prerequisite: ECON 601. Instruction Mode: Lecture Grading Option: Letter

ECON 607 Topics in Dynamic Optimization Units: 4 Theory and numerical methods for dynamic optimization and control; selected applications in economic analysis and econometrics. Prerequisite: ECON 502 and knowledge of FORTRAN. Instruction Mode: Lecture Grading Option: Letter

ECON 608 Advanced Neuroeconomics Units: 4 Advanced methodology of neuroeconomics including neural activity, memory, value and reward systems, emotions, and risk. Prerequisite: ECON 503. Instruction Mode: Lecture Grading Option: Letter

ECON 609 Econometric Methods Units: 4 Terms Offered: FaSp Review of statistical methods of estimation and inference, linear regression with multicollinearity and serial correlation; multivariate regression and simultaneous equations. Prerequisite: ECON 611. Duplicates Credit in former ECON 511. Instruction Mode: Lecture Grading Option: Letter

ECON 610 Quantitative Analysis in Macroeconomics Units: 4 Terms Offered: Sp Dynamic economics, applied general equilibrium models, computational and calibration tools, discrete-state dynamic programming, log-linearization of Euler equations. Prerequisite: ECON 602, ECON 605. Instruction Mode: Lecture Grading Option: Letter

ECON 611 Probability and Statistics for Economists Units: 4 Terms Offered: FaSp Introduction to probability theory and statistical inference to prepare students for graduate courses in econometrics and economic theory; probability, random variables, distributions, estimation, testing, asymptotics. Prerequisite: MATH 226. Duplicates Credit in former ECON 514. Instruction Mode: Lecture Grading Option: Letter

ECON 612 Econometric Theory Units: 4 Inference and prediction, generalized and restricted least squares, specification analysis, multivariate and seemingly unrelated regressions, simultaneous equations techniques, dynamic models, instrumental variable estimation. Prerequisite: ECON 608. Instruction Mode: Lecture Grading Option: Letter

ECON 613 Economic and Financial Time Series I Units: 4 Terms Offered: FaSp Simultaneous equation models, dynamic structural econometric models, vector autoregressions, causality, forecasting, univariate and multivariate nonstationary time series, tests for unit roots,
### COURSES OF INSTRUCTION

| ECON 601 | Instruction Mode: Lecture
| Grading Option: Letter |
| ECON 687 Urban Economics | Units: 4 | Terms Offered: Fa, Sp | Economic models will be used to understand the main facts observed in cities in the developed and developing world. Special attention will be paid to empirical hypothesis testing and developing an urban economics research agenda. Students will be exposed to new data sets being collected using Smart Phones and other novel technologies that have greatly expanded our ability to test relevant hypotheses. Prerequisite: ECON 500 and ECON 501. Instruction Mode: Lecture Grading Option: Letter |
| ECON 688 Empirical Industrial Organization | Units: 4 | | Econometric analysis of industrial organization issues including industry regulation and deregulation, collusions and pricing in differentiated oligopolistic markets, entry and exit, auction mechanisms, contractual relationships. Prerequisite: ECON 601, ECON 603. Recommended Preparation: ECON 600, ECON 603, ECON 612, ECON 615, ECON 680. Instruction Mode: Lecture Grading Option: Letter |
| ECON 690 Seminar in Economic Theory | Units: 2 Max | Units: 8.0 | Terms Offered: FaSp | Current research in economic theory presented by faculty, students and outside scholars. Instruction Mode: Lecture Grading Option: Credit/No Credit |
| ECON 691 Seminar in Econometrics | Units: 2 Max | Units: 8.0 | Terms Offered: FaSp | Current research in econometrics presented by faculty, students and outside scholars. Instruction Mode: Lecture Grading Option: Credit/No Credit |
| ECON 692 Seminar in Economic Development | Units: 2 Max | Units: 8.0 | Terms Offered: FaSp | Current research in international, regional, and urban development economics presented by faculty, students and outside scholars. Instruction Mode: Lecture Grading Option: Credit/No Credit |
| ECON 693 Seminar in Applied Economics and Public Policy | Units: 2 Max | Units: 8.0 | Terms Offered: FaSp | Current research in applied microeconomics, macroeconomics and public policy presented by faculty, students and outside scholars. Instruction Mode: Lecture Grading Option: Credit/No Credit |
| ECON 694 Seminar in Dynamic Economics | Units: 2 Max | Units: 8.0 | Terms Offered: FaSp | Topics in dynamic economics involving business fluctuations, economic growth and development, micro-economic adjustments and market mechanisms; related quantitative and qualitative methods; empirical research involving economic change. Instruction Mode: Lecture Grading Option: Credit/No Credit |
| ECON 696 Empirical Microeconomics Seminar | Units: 2 Max | Units: 8.0 | Terms Offered: FaSp | Presentations on current research in empirical microeconomics by outstanding scholars from leading economics departments and faculty at USC. Registration restriction: Open only to Economics Ph.D. students. Instruction Mode: Lecture Grading Option: Credit/No Credit |
| ECON 700 Research on Frontier Economics | Units: 2 Max | Units: 08 | Terms Offered: FaSpSm | Examination of various frontier research topics of economics through critical discussions of research papers that study the most recent economic research agendas. Instruction Mode: Lecture Grading Option: Letter |
| ECON 715 Advanced Topics in Econometrics | Units: 04 | Time-series methods; aggregation; structural models and methods such as factor analysis and multiple indicator models; various special topics. Prerequisite: ECON 612 and ECON 613. Instruction Mode: Lecture Grading Option: Letter |
| ECON 790 Research | Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 | Terms Offered: FaSp | Research leading to the doctorate. Maximum units which may be applied to the degree to be determined by the department. Instruction Mode: Lecture Grading Option: Credit/No Credit |
| ECON 794a Doctoral Dissertation | Units: 2 Terms Offered: FaSpSm | Credit | Dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit |
| ECON 794b Doctoral Dissertation | Units: 2 Terms Offered: FaSpSm | Credit | on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit |
| ECON 794c Doctoral Dissertation | Units: 2 Terms Offered: FaSpSm | Credit | on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit |
| ECON 794d Doctoral Dissertation | Units: 2 Terms Offered: FaSpSm | Credit | on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit |
| ECON 794z Doctoral Dissertation | Units: 0 Terms Offered: FaSpSm | Credit | on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit |
| Education Counseling | EDCO 030x The Process of Paraprofessional Counseling for Young Adults | Units: 2 Terms Offered: Sp | Explores the theoretical processes involved in paraprofessional counseling with specific application to issues faced by young adults. Instruction Mode: Lecture Grading Option: Credit/No Credit |
| EDCO 324m Asian American Psychology | Units: 4 Terms Offered: | Sp | Psychological issues of Asian Americans such as cultural identity, intergenerational conflict, stereotypes, interracial dating and marriage, educational achievement, and mental health. Instruction Mode: Lecture Grading Option: Letter |
| EDCO 503 Ethical and Legal Issues in Counseling | Units: 3 Terms Offered: Sp | Examination of current legal, ethical, and other professional issues in the practice of counseling and psychotherapy. Prerequisite: EDUC 500. Instruction Mode: Lecture Grading Option: Letter |
| EDCO 504 Behavior Management in the Classroom | Units: 3 Terms Offered: Sp | Analysis of student behavior in school settings. Emphasis is on a problem-solving functional approach to behavioral changes. Instruction Mode: Lecture Grading Option: Letter |
| EDCO 505 Counseling and Collaborative Consultation in the School Setting | Units: 3 Terms Offered: Sp | Theory and practice of collaborative consultations provided by school counselors and school psychologists to improve student achievement and the learning environment. Instruction Mode: Lecture Grading Option: Letter |
| EDCO 506 Development, Administration and Evaluation of Pupil Personnel Services | Units: 3 Terms Offered: FaSp | Develop skills in the evaluation and management of pupil personnel services programs in the public schools for comprehensive support of student learning and achievement. Instruction Mode: Lecture Grading Option: Letter |
| EDCO 541 Theories in Counseling | Units: 3 Terms Offered: FaSp | Theory, research, and practice of psychological counseling. Corequisite: EDUC 500. Instruction Mode: Lecture Grading Option: Letter |
| EDCO 574 School Counseling Practicum | Units: 1, 2 Max | Units: 2.0 Terms Offered: FaSpSm | Supervised practice in school counseling. Prerequisite: EDCO 503, EDCO 541. Instruction Mode: Lecture Grading Option: Credit/No Credit |
| EDCO 575 School Counseling Field Experience | Units: 1, 2, 3, 4 Max | Units: 4.0 Terms Offered: FaSpSm | Supervised field experience in applying knowledge and skills within a K–12 school setting. Prerequisite: EDCO 574. Instruction Mode: Lecture Grading Option: Credit/No Credit |
| Higher and Postsecondary Education | EDHP 500 Foundations of Higher, Adult, and Professional Education | Units: 3 Terms Offered: Fa | Contemporary issues in higher, adult, and professional education in the United States; analytic perspectives from various disciplines (history, philosophy, sociology); implications for policy and practice. Instruction Mode: Lecture Grading Option: Letter |
| EDHP 502 Administration of Higher, Adult, and Professional Education | Units: 3 Terms Offered: Sp | Policies and theories for governance and management. Relations between historical and
contemporary organizational processes in postsecondary education. Critique and applications of current research. Instruction Mode: Lecture. Grading Option: Letter

EDHP 503 Curriculum, Teaching, and Learning in Higher, Adult, and Professional Education
Units: 3 Terms Offered: Sp Curriculum, teaching, and learning strategies for general, vocational, and professional education; planning for lifelong learning; theories, policies, and practices for higher, adult, and professional education. Instruction Mode: Lecture. Grading Option: Letter

EDHP 551 Applied Educational Ethnography
Units: 3 Terms Offered: Fa Research for improving leadership in higher, adult, and professional education. Ethnographically motivated field designs, observations, focused and unstructured interviews and unobtrusive techniques. Instruction Mode: Lecture. Grading Option: Letter

EDHP 552 The Politics of Difference
Units: 3 Explores strategies for restructuring institutions of higher education to improve student support and achievement among historically marginalized groups. Duplicates Credit in EDUE 560. Instruction Mode: Lecture. Grading Option: Letter

EDHP 560 Feminist Theory
Units: 4 Terms Offered: FaSpSm (Enroll in SWMS 560)

EDHP 563 Student Affairs Work in College
Units: 3 Terms Offered: Fa Principles, services, and organizational patterns of student affairs programs and services for two-year, four-year and professional higher education institutions. Instruction Mode: Lecture. Grading Option: Letter

EDHP 565 Intervention Strategies in College Student Development
Units: 3 Terms Offered: Sp Exploration of current campus issues such as violence, diversity and academic remediation, and their related intervention strategies (policy-based, programmatic, and counseling-based). Instruction Mode: Lecture. Grading Option: Letter

EDHP 580 The Community College
Units: 3 Terms Offered: SpSm The community college movement; history; aims; curriculum; types of administrative organization; teaching procedures; relation to local and regional institutions; profiles of faculty and students; evaluation. Instruction Mode: Lecture. Grading Option: Letter

EDHP 587 Fieldwork in Higher, Adult, and Professional Education
Units: 1, 2, 3, 4, 5, 6, 7, 8 Max Units: 8.0 Terms Offered: FaSpSm Structured participation in supervised teaching or administrative activities. Assignments matched with student's goals, training, and experience. Recommended Preparation: EDHP 585. Instruction Mode: Lecture. Grading Option: Credit/No Credit

EDHP 593a Master's Seminar
Units: 2 Terms Offered: FaSpSm An examination and analysis of research and literature in the student's area of focus. Required for all master's candidates who do not enroll in the Master's Thesis (EDHP 594a, EDHP 594b, EDHP 594z). Instruction Mode: Lecture. Grading Option: Credit/No Credit

EDHP 593b Master's Seminar
Units: 2 Terms Offered: FaSpSm An examination and analysis of research and literature in the student's area of focus. Required for all master's candidates who do not enroll in the Master's Thesis (EDHP 594a, EDHP 594b, EDHP 594z). Instruction Mode: Lecture. Grading Option: Credit/No Credit

EDHP 594a Master's Thesis
Units: 2 Terms Offered: FaSpSm Required for all master's candidates who do not enroll in the Master's Seminar (EDHP 593a, EDHP 593b). Instruction Mode: Lecture. Grading Option: In-progress to Credit/No Credit

EDHP 594b Master's Thesis
Units: 2 Terms Offered: FaSpSm Required for all master's candidates who do not enroll in the Master's Seminar (EDHP 593a, EDHP 593b). Instruction Mode: Lecture. Grading Option: In-progress to Credit/No Credit

EDHP 594c Master's Thesis
Units: 0 Terms Offered: FaSpSm Required for all master's candidates who do not enroll in the Master’s Seminar (EDHP 593a, EDHP 593b). Instruction Mode: Lecture. Grading Option: In-progress to Credit/No Credit

EDHP 657 Leadership and Management in Student Affairs
Units: 3 Terms Offered: Sp Delivery of student services and programs in higher education, organizational behavior, management systems, administrative procedures, and alternative leadership styles. Registration Restriction: Open only to USC Rossier School of Education PASA students. Instruction Mode: Lecture. Grading Option: Letter

EDHP 679 Legal Issues in the Administration of Higher Education
Units: 3 Terms Offered: Sm Analysis of legal issues related to the administration of higher education; emphasis on relations with students, faculty, staff, alumni, and campus communities. Prerequisite: EDHP 500 or appropriate experience. Instruction Mode: Lecture. Grading Option: Letter

EDHP 687 Student Development in Higher Education
Units: 3 Terms Offered: Sp Theories of college student development and application of developmental models to program design, interventions, outreach, and research programs. Instruction Mode: Lecture. Grading Option: Letter

EDPT 310 Parental Influences on Children's Educational Development
Units: 4 Terms Offered: FaSpSm Theory and research in learning, development, and individual differences, and social psychology related to education or training contexts. Instruction Mode: Lecture. Grading Option: Letter

EDPT 540 Introduction to Educational Measurement and Evaluation
Units: 3 Terms Offered: FaSpSm Survey of theories, concepts, and procedures for assessing intellecitive and non-intellecitive characteristics and for evaluating individual and program performances. Instruction Mode: Lecture. Grading Option: Letter

EDPT 550 Statistical Inference
Units: 3 Terms Offered: FaSpSm Application of statistical techniques in education; emphasis on underlying principles and concepts coupled with selected inferential techniques using desktop computer software. Instruction Mode: Lecture. Grading Option: Letter

EDPT 570 Language and Cultural Diversity in Learning
Units: 3 Terms Offered: Fa Analysis of current research and theory regarding the influences of language and culture on learning and cognition, with a special focus on academic achievement and instructional transactions. Instruction Mode: Lecture. Grading Option: Letter

EDPT 576 Technology in Contemporary Education and Training
Units: 3 Terms Offered: FaSpSm Development and scope of instructional technology and its role in modern educational and training systems; overview of instructional development; innovation and trends in the field. Instruction Mode: Lecture. Grading Option: Letter

EDPT 642 Measurement Theory
Units: 3 Terms Offered: FaSpSm Mathematical concepts and psychometric theory underlying test construction and interpretation; emphasis on current research in the area. Prerequisite: EDPT 652. Instruction Mode: Lecture. Grading Option: Letter

EDPT 652 Multiple Regression

EDPT 654 Multivariate Statistical Techniques
Units: 3 Terms Offered: FaSpSm
Multivariate statistical procedures in the analysis of behavioral inquiries; particular emphasis on multivariate analysis of variance. Prerequisite: EDPT 652. Instruction Mode: Lecture Grading Option: Letter

EDPT 655 Advanced Research Methods in Education
Units: 3 Terms Offered: Sp Focuses on principles of research design in education including literature synthesis, formulation of research problem and questions, selection of methodology and integration of research proposal. Prerequisite: EDPT 550. Instruction Mode: Lecture Grading Option: Letter

Education

EDUC 140m Mind, Belief and Behavior: Learning in a Diverse World
Units: 4 Terms Offered: FaSpSm Examination of current research about learning and motivation in the context of human diversity. Instruction Mode: Lecture Grading Option: Letter

EDUC 200 Introduction to the Teaching Profession
Units: 2 Identification and discussion of current issues and trends in schools and the teaching profession. Introduction to the development of a professional portfolio. Instruction Mode: Lecture Grading Option: Letter

EDUC 204L Sociological Foundations of Education
Units: 3 Terms Offered: FaSpSm Introduction to the sociological foundations of education through focused study of schools, teacher-student relations, and classroom processes as they relate to social stratification. Instruction Mode: Lecture, Lab Required Grading Option: Letter

EDUC 205L Child Development and Learning in Schools
Units: 3 Terms Offered: FaSp Introduction to processes of development and learning in school aged children, with an emphasis on school contexts. Instruction Mode: Lecture, Lab Required Grading Option: Letter

EDUC 392 Undergraduate Research Methods
Units: 2 Terms Offered: Sp (Enroll in AMST 392)

EDUC 409 Foundations of Language Education
Units: 3 Terms Offered: FaSp Overview of research and current theories in bilingual, second language, and foreign language instruction. Instruction Mode: Lecture Grading Option: Letter

EDUC 410 The Teaching of Reading and Writing
Units: 4 Terms Offered: FaSp Analysis of reading/writing processes; methods/materials for teaching literacy in elementary schools; issues in bileriteracy and instruction; classroom observation/participation in small-group instruction. Admission to the major. Instruction Mode: Lecture Grading Option: Letter

EDUC 411 Sociopolitical and Racist/Min Contexts of Language
Units: 4 Terms Offered: FaSp Systematic study of effective policies and practices of multilingual and multicultural education based upon raciolinguistic and sociopolitical understandings of second language learning. Instruction Mode: Lecture, Lab Grading Option: Letter

EDUC 412 Linguistically and Culturally Sustaining Teaching
Units: 4 Terms Offered: FaSp Introduction to critical multilingual pedagogy for equitable, inclusive and effective language learning. Instruction Mode: Lecture, Lab Grading Option: Letter

EDUC 413 Methods and Models of Instruction for Language Minority Students
Units: 2 Terms Offered: FaSp Curriculum materials and teaching strategies for use in successfully teaching language minority students in both elementary and secondary schools. Instruction Mode: Lecture Grading Option: Letter

EDUC 415 Content to Pedagogy: Mathematics in the Elementary School
Units: 2 Terms Offered: FaSp Bridging college level mathematics content and elementary school curricula to design developmentally appropriate mathematics instruction. Concurrent Enrollment: Concurrent enrollment: EDUC 424a or EDUC 424b. Instruction Mode: Lecture Grading Option: Letter

EDUC 416 Content to Pedagogy: Art in the Elementary School
Units: 2 Terms Offered: FaSpSM Transformation of content in art to curriculum in the elementary classroom. Corequisite: EDUC 424b. Instruction Mode: Lecture Grading Option: Letter

EDUC 417 Content to Pedagogy: From Science Content to Science Curriculum
Units: 2 Terms Offered: FaSpSM An overview of the goals and content of science instruction at the elementary level coupled with appropriate science curricular and pedagogical models. Concurrent Enrollment: Concurrent enrollment: EDUC 424a or EDUC 424b. Instruction Mode: Lecture Grading Option: Letter

EDUC 418 Content to Pedagogy: From Social Sciences to Social Studies
Units: 2 Terms Offered: FaSp Content, concepts, methods, and values for integrating the social sciences in the social studies. Concurrent Enrollment: Concurrent enrollment: EDUC 424a or EDUC 424b. Instruction Mode: Lecture Grading Option: Letter

EDUC 419 Content to Pedagogy: P.E. for Elementary Students
Units: 2 Terms Offered: Sp Transformation of content in Physical Education to curriculum in the elementary classroom. Corequisite: EDUC 424b. Instruction Mode: Lecture Grading Option: Letter

EDUC 420 Technology, Media and Culturally Sustaining Education
Units: 4 Terms Offered: FaSp Select, create and use multimedia and technology to plan for more effective and equitable learning in schools, communities and organizations. Recommended Preparation: EDUC 411 Instruction Mode: Lecture Grading Option: Letter

EDUC 421 Global Issues: Impact on Educational Outcomes
Units: 4 Terms Offered: FaSpSm Situates U.S. education within the global context and examines the impact of global issues on national and international schooling in the 21st Century. Instruction Mode: Lecture Grading Option: Letter

EDUC 422 Education for Social Change
Units: 4 Terms Offered: FaSpSm Examines access to schooling and quality education across student difference indexed by race, class and gender. Promotes understanding of U.S. public schooling for equitable outcomes. Instruction Mode: Lecture Grading Option: Letter

EDUC 423 Unrealized Promise and Hope for Education in 21st Century
Units: 4 Terms Offered: FaSpSm Investigates the promise of education and often-failed outcomes though the lens of literacy/language. Focuses on literacy to promote student agency for successful educational attainment. Recommended Preparation: Freshman Seminar on a topic in education Instruction Mode: Lecture Grading Option: Letter

EDUC 424a Curriculum and Methods in Elementary Education
Units: 2 Terms Offered: FaSp Curriculum materials and teaching procedures in the elementary school. Concurrent Enrollment: concurrent enrollment: EDUC 425a. Instruction Mode: Lecture Grading Option: Letter

EDUC 424b Curriculum and Methods in Elementary Education
Units: 2 Terms Offered: FaSp Curriculum materials and teaching procedures in the elementary school. Concurrent Enrollment: concurrent enrollment: EDUC 425b. Instruction Mode: Lecture Grading Option: Letter

EDUC 425a Observation and Directed Teaching in Elementary Schools
Units: 3 Terms Offered: FaSp Observation and experience in teaching under supervision in elementary schools (one semester at the kindergarten-primary level and one semester in the intermediate or upper grades). Concurrent Enrollment: Concurrent enrollment: EDUC 424a. Instruction Mode: Lecture Grading Option: Letter

EDUC 425b Observation and Directed Teaching in Elementary Schools
Units: 3 Terms Offered: FaSp Observation and experience in teaching under supervision in elementary schools (one semester at the kindergarten-primary level and one semester in the intermediate or upper grades). Concurrent Enrollment: Concurrent enrollment: EDUC 424b. Instruction Mode: Lecture Grading Option: Letter

EDUC 426 Educational Inquiry
Units: 4 Terms Offered: FaSp Introduction to the skills and knowledge required to be competent consumers and producers of education research. Students will be asked to design an educational study. Instruction Mode: Lecture Grading Option: Letter

EDUC 427 Vectors that Influence Early Childhood Development
Units: 4 Terms Offered: FaSp Investigating early childhood issues from professional perspectives: historian, journalist, premedical, and law. Instruction Mode: Lecture Grading Option: Letter
EDUC 428 The Effects of Curriculum and Institution on Early Childhood
Units: 4 Terms Offered: FaSp The study of research, philosophy, and pedagogy that informs political, parental, community members, schools and their curriculum. Instruction Mode: Lecture, Lab Grading Option: Letter
EDUC 429 Early Childhood and Corrosory Society
Units: 4 Terms Offered: FaSp Consequences of "corporate world" on developing expectations of young children as consumers and scholars, an emphasis on films, television, and toys that effect intellectual growth. Instruction Mode: Lecture Grading Option: Letter
EDUC 430 Early Childhood: Action Research Focus
Units: 4 Terms Offered: FaSp Selecting an instructional or developmental problem of young children to investigate through an action research design. Instruction Mode: Lecture Grading Option: Letter
EDUC 431 Education Policy in the United States
Units: 4 Terms Offered: Sp Analysis of key issues in education policy. Understanding the policymaking process, including policy design, implementation and analysis. Instruction Mode: Lecture Grading Option: Letter
EDUC 432 Elementary Mathematics for Teaching
Units: 4 Terms Offered: FaSpSm Dissection of elementary mathematics curriculum in order to gain the deep understanding of an effective teacher. Registration Restriction: Open only to juniors and seniors. Instruction Mode: Lecture Grading Option: Letter
EDUC 433 Secondary Mathematics for Teaching
Units: 4 Terms Offered: FaSpSm Dissection of secondary mathematics curriculum in order to gain a deep understanding needed to be an effective teacher. Prerequisite: MATH 226g Instruction Mode: Lecture Grading Option: Letter
EDUC 434 Secondary Mathematics for Teaching
Units: 4 Terms Offered: FaSpSm Dissect secondary mathematics curriculum in order to gain a deep understanding needed to be an effective teacher. Prerequisite: MATH 226g Instruction Mode: Lecture Grading Option: Letter
EDUC 435 Applications of Mathematics Curriculum and Pedagogy
Units: 4 Terms Offered: FaSpSm Explore the integration of curriculum, teaching in urban school communities. Instruction Mode: Lecture Grading Option: Letter
EDUC 437 Research in Teaching and Learning Mathematics
Units: 4 Terms Offered: FaSpSm Addressing the basic designs, with emphasis on the characteristics of research, in learning and teaching mathematics education and their impacts on curricula. Instruction Mode: Lecture Grading Option: Letter
EDUC 438 Truth in Mathematics
Units: 4 Terms Offered: FaSpSm Addresses the needs for mathematical arguments and proofs in learning and teaching mathematics. Instruction Mode: Lecture Grading Option: Letter
EDUC 490x Directed Research
Units: 1, 2, 3, 4, 5, 6, 7, 8 Max Units: 12.0 Terms Offered: FaSpSm Individual research and readings, examination and instruction. Instruction Mode: Lecture Grading Option: Letter
EDUC 499 Special Topics
Units: 2, 3, 4 Max Units: 8.0 Terms Offered: FaSp Seminar in selected topics in education. Specific topics to be determined at the time course offered. Instruction Mode: Lecture Grading Option: Letter
EDUC 500 The Counseling Process
Units: 3 Theoretical foundations, models, values, and assumptions underlying psychological counseling; cross-cultural perspectives, ethical and legal considerations. Concurrent Enrollment: Concurrent enrollment: EDUC 507. Duplicates Credit in former EDCO 500. Instruction Mode: Lecture Grading Option: Letter
EDUC 503 Learning and Motivation
Units: 3 Terms Offered: FaSpSm Design and advancement of learning and motivation outcomes in various environments through a systematic examination of the design of current research. Instruction Mode: Lecture Grading Option: Letter
EDUC 507 Professional Identity, Law and Ethics for Counselors
Units: 3 History of the field of counseling and professional identity development for counselors are addressed. Examination of current legal, ethical, and other professional issues in counseling. Concurrent Enrollment: Concurrent enrollment: EDUC 507. Duplicates Credit in former EDCO 500. Instruction Mode: Lecture Grading Option: Letter
EDUC 508 Interrogating Systems of Inequity in Professional Practice
Units: 2 Terms Offered: FaSpSm Framing the graduate experience for master's students. Examining self and field of professional practice in the context of achieving equity. Instruction Mode: Lecture Grading Option: Letter
EDUC 510 Theories of Language Learning and Teaching
Units: 3 Terms Offered: FaSpSm Application of learning theories to the design of second language instruction and student assessment to promote motivation, investment, self-regulation and engagement among language learners. Registration Restriction: Open only to majors in Teaching English to Speakers of Other Languages Instruction Mode: Lecture Grading Option: Letter
EDUC 511 Introduction to Counseling
