Units: 4 Examination of the communicative elements of leadership in entertainment products and processes; the role of communication experts in supporting, coaching and facilitating entertainment leadership. Instruction Mode: Lecture Grading Option: Letter

CMGT 586 Entertainment Media: Content, Theory, and Industry Practices
Units: 4 Examination of social scientific theory and research on patterns of media content; effects of mass media exposure on individuals and society; and industry practices. Instruction Mode: Lecture Grading Option: Letter

CMGT 587 Audience Analysis
Units: 4 Fundamental principles of audience research; critique of existing methodologies; implications for global audiences and mass media markets. Instruction Mode: Lecture Grading Option: Letter

CMGT 588 Global Storytelling: The Power of Narrative
Units: 4 Theory, structure and effects of culture on narrative. Story in non-profit and health organizations; new fields that recognize the importance of storytelling; storytelling in diverse media. Instruction Mode: Lecture Grading Option: Letter

CMGT 589 Storytelling, Culture and Experiential Communication
Units: 4 Terms Offered: FaSp How to communicate through storytelling in contemporary culture. Strategic story development for brands, for self-branding, and for social impact. Story creation utilizes narrative theories and workshop-style participatory activities. Instruction Mode: Lecture Grading Option: Letter

CMGT 590 Directed Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Research leading to the master's degree. Maximum units which may be applied to the degree to be determined by the school. Duplicates Credit in former COMM 590. Instruction Mode: Lecture Grading Option: Credit/No Credit

CMGT 591 Communication Internship
Units: 1, 2 Max Units: 03 Terms Offered: FaSpSm Field experience in applying communication principles to settings in organizations, campaigns, or other contexts; analysis and assessment of issues and problems. Registration Restriction: Open only to graduate students in the following majors: Communication PhD, Communication Management, Global Communication, Digital Social Media, Public Diplomacy, Public Diplomacy (Practitioner and Mid-Career Professional) Instruction Mode: Lecture Grading Option: Credit/No Credit

CMGT 592 Theory and Practice of Professional Presentations
Units: 2 Application of communication and persuasion theories in the creation of oral presentations; critical assessment of the role of new technologies for professional presentations. Instruction Mode: Lecture Grading Option: Credit/No Credit

CMGT 597a Communication Research Practicum
Units: 2 Terms Offered: FaSpSm Students design and produce an original project appropriate for their emphasis area within the Master of Communication degree. *Prerequisite:* CMGT 501 and CMGT 540. Duplicates Credit in former CMGT 597. Instruction Mode: Lecture Grading Option: Letter

CMGT 597b Communication Research Practicum
Units: 2 Terms Offered: FaSpSm Students design and produce an original project appropriate for their emphasis area within the Master of Communication degree. *Prerequisite:* CMGT 501 and CMGT 540. Duplicates Credit in former CMGT 597. Instruction Mode: Lecture Grading Option: Letter

CMGT 599 Special Topics
Units: 2, 3, 4 Max Units: 8.0 Instruction Mode: Lecture Grading Option: Letter

Motion Picture Producing

Note: Instructor availability for a particular course or section cannot be guaranteed.

CMPP 541a Producing Workshop
Units: 4 Terms Offered: Fa Hands-on workshops in creative and physical filmmaking. Duplicates Credit in CTPR 504 and former CMPP 541L. Instruction Mode: Lecture Grading Option: Letter

CMPP 541b Producing Workshop
Units: 4 Terms Offered: Sp Further hands-on creative and physical filmmaking, making more advanced short films. Duplicates Credit in CTPR 504 and former CMPP 541L. Instruction Mode: Lecture Grading Option: Letter

CMPP 548 Introduction to Producing for Television
Units: 2 Terms Offered: Fa An introduction to the creative and business aspects of producing for television. Registration Restriction: Open only to PFTM students. Instruction Mode: Lecture Grading Option: Letter

CMPP 550 Script Analysis for the Producer
Units: 2 Terms Offered: FaSp Detailed evaluation of completed scripts and of the producer's role in bringing them to fruition. Instruction Mode: Lecture Grading Option: Letter

CMPP 560 Script Development
Units: 2 Terms Offered: FaSp From idea and story to finished shooting script. Instruction Mode: Lecture Grading Option: Letter

CMPP 561 Motion Picture and Television Marketing
Units: 2 Terms Offered: Fa Analysis and preparation of film and television show marketing campaigns from creative concept to targeting across various media. Instruction Mode: Lecture Grading Option: Letter

CMPP 563 Producing Symposium
Units: 1 Terms Offered: Fa Lectures on creative aspects of producing. Instruction Mode: Lecture Grading Option: Credit/No Credit

CMPP 564 Digital Media and Entertainment
Units: 2 Terms Offered: Sp Exploring the effect of digital media on the entertainment landscape. Instruction Mode: Lecture Grading Option: Letter

CMPP 565 Scheduling and Budgeting
Units: 4 Terms Offered: FaSp Concept and preparation of a complete schedule and budget. Instruction Mode: Lecture Grading Option: Letter

CMPP 566 Finance
Units: 2 Terms Offered: FaSp Seminar on financial aspects of film industry and methods of financing films. Instruction Mode: Lecture Grading Option: Letter

CMPP 568 Producing for Television
Units: 2 Terms Offered: Fa Discussions of the creative and financial aspects of television producing. Instruction Mode: Lecture Grading Option: Letter

CMPP 569 Seminar on Non-Mainstream Producing
Units: 2 Terms Offered: FaSp Discussions on non-major studio producing options, including non-traditional financing and non-theatrical producing. Instruction Mode: Lecture Grading Option: Letter

CMPP 570 Advanced Television
Units: 2 Terms Offered: Fa Advanced studies of the business of television, including the economic structure of the television industry. Instruction Mode: Lecture Grading Option: Letter

CMPP 571 Producing the Screenplay
Units: 2 Terms Offered: FaSp Workshop for the creation and development of a screenplay or teleplay. Instruction Mode: Lecture Grading Option: Letter

CMPP 589a Graduate Film Business Seminar
Units: 3 Terms Offered: Fa Economics of the entertainment industry, including entertainment law, and rights acquisition. Includes weekly film screening. Instruction Mode: Lecture Grading Option: Letter

CMPP 589b Graduate Film Business Seminar
Units: 4 Terms Offered: Sp Economics of the entertainment industry, including

entertainment law, and rights acquisition. Includes weekly film screening. Instruction Mode: Lecture Grading Option: Letter

CMPP 591 Producing Practicum
Units: 2 Terms Offered: Irregular Producing workshop encompassing all aspects of producing, including script development, budgeting, casting and actual production. Instruction Mode: Lecture Grading Option: Letter

CMPP 592 Individual Project Seminar
Units: 4 Terms Offered: Sp Directed research project and seminars in related topics. Duplicates Credit in former CTPR 592. Instruction Mode: Lecture Grading Option: Letter

CMPP 599 Special Topics
Units: 2 Terms Offered: Irregular Investigation of new and emerging aspects of producing motion pictures and television; special and experimental subjects. Instruction Mode: Lecture Grading Option: Letter

Cinematic Arts

Note: Instructor availability for a particular course or section cannot be guaranteed.

CNTV 101 Reality Starts Here
Units: 2 Terms Offered: Fa Introduction to emerging forms of immersive entertainment, to Cinematic Arts faculty, and to guest speakers who will comment on the changing nature of the industry. Instruction Mode: Lecture Grading Option: Credit/No Credit

CNTV 325 Film and Digital Cinematography
Units: 3 Terms Offered: Sm The craft of cinematography for film and digital media; includes lectures, on-set film and video production exercises, and scene studies. Instruction Mode: Lecture Grading Option: Letter

CNTV 332 The Art of Motion Picture Editing
Units: 2 Analyzing and deconstructing all the elements of the art of creatively manipulating visual images through editing. Instruction Mode: Lecture Grading Option: Letter

CNTV 367 The Music Video: Business and Practice
Units: 4 Terms Offered: Sm Creating concepts, writing treatments, pitching, and the realities and details of music video production including budgeting, pre- and post-production. Duplicates Credit in CTPR 497 Music Video Production. Instruction Mode: Lecture Grading Option: Letter

CNTV 370 3-D Animation for Film and Video
Units: 4 Terms Offered: Sm The basics of 3-D computer animation techniques and their use in creating animated characters. Instruction Mode: Lecture Grading Option: Letter

CNTV 372 Developing the Screenplay
Units: 2 Terms Offered: Sm The process of script development, examining a project from the initial idea and tracking its progress through to the completed screenplay ready for production. Instruction Mode: Lecture Grading Option: Letter

CNTV 375 Breaking Into the Entertainment Industry
Units: 2 Terms Offered: FaSm An overview of the entertainment industry and the tools needed to secure jobs and survive and succeed in the market. Instruction Mode: Lecture Grading Option: Letter

CNTV 390 Special Problems
Units: 1, 2, 3, 4 Terms Offered: Irregular Supervised, individual studies. No more than one registration permitted. Enrollment by petition only. Instruction Mode: Lecture Grading Option: Letter

CNTV 392 Filmmaking Intensive
Units: 4 Terms Offered: Sm The basic technical and aesthetic concepts underlying motion picture production and an exploration of visual language. Instruction Mode: Lecture Grading Option: Letter

CNTV 393 16mm Filmmaking: Structuring Scenes That Work
Units: 4 Terms Offered: Sm The creative and technical aspects of 16mm filmmaking, particularly as they apply to the short film or the individual scene. Instruction Mode: Lecture Grading Option: Letter

Units: 4 Terms Offered: Sm An intensive online course in expressing ideas through the moving image. Writing, directing, photographing and editing short projects. Instruction Mode: Lecture Grading Option: Letter

CNTV 405 Studio Producing and Directing
Units: 4 Terms Offered: Sm Understanding the craft and art of directing in the studio system, and developing a working methodology for creative producing. Instruction Mode: Lecture Grading Option: Letter

CNTV 410 Non-Fiction Filmmaking
Units: 4 Terms Offered: Sm Conceiving, researching, writing, producing, directing, and editing an original non-fiction work and exploring practical training in techniques of non-fiction film. Instruction Mode: Lecture Grading Option: Letter

CNTV 411 Creating the Short Film
Units: 4 Terms Offered: Sm An overview of the concerns, functions and responsibilities associated with creating a short narrative film. Casting, producing and directing an individual project. Instruction Mode: Lecture Grading Option: Letter

CNTV 413 Digital Editing
Units: 4 Terms Offered: Sm Introduction to non-linear editing techniques, hardware, digitizing, logging, and special effects, using the AVID Media Composer editing system. Instruction Mode: Lecture Grading Option: Letter

CNTV 415 Commercial Production: The Art of the Sixty-Second Story
Units: 4 Terms Offered: Sm The three main components of commercials: agency creation, spot production, and post-production. Writing, pitching, casting, directing, and editing commercials. Instruction Mode: Lecture Grading Option: Letter

CNTV 419 Inside the Business of Film and Television
Units: 4 Terms Offered: FaSpSm An overview of the contemporary studio system, independent films, and television, including script analysis, pitching, optioning properties, the marketplace, representation, career management, and networking. Instruction Mode: Lecture Grading Option: Letter

CNTV 420 Independent Feature Filmmaking
Units: 2 Terms Offered: FaSpSm Independent feature film development, financing, production, and distribution. Discussions with independent filmmakers. Instruction Mode: Lecture Grading Option: Letter

CNTV 427 The Art and Commerce of Independent Film
Units: 4 Terms Offered: FaSp A comprehensive analysis of the development-to-release life cycle of independently produced films. Instruction Mode: Lecture Grading Option: Letter

CNTV 440 The Business of the Entertainment Industry: Motion Pictures, Television, Animation, Video Games, and Interactive Entertainment
Units: 2 Terms Offered: Fa An in-depth analysis of the history, evolution, and current state of the motion picture, television, animation, video game, and interactive entertainment industries. Instruction Mode: Lecture Grading Option: Letter

CNTV 441 Business and Cinematic Arts Entertainment Practicum
Units: 2 Terms Offered: Sp Application of business and cinematic arts concepts to entertainment industry networking and career-building experiences. Peer collaboration/competition, and identifying organizational compatibility. Registration Restriction: Open only to Business Administration (Cinematic Arts) majors Instruction Mode: Lecture Grading Option: Letter

CNTV 457 The Entertainment Entrepreneur: Getting Your First Project Made
Units: 2 Terms Offered: Fa The practical aspects of entrepreneurial producing in the entertainment industry. Identifying and understanding the pitfalls and benefits of creating one's own projects. Instruction Mode: Lecture Grading Option: Letter

CNTV 458 Producing and Marketing Feature Length Films
Units: 2 Terms Offered: Fa The principles and business practices of producing and marketing feature length films in the motion picture industry. Registration Restriction: Open only to Business Administration (Cinematic Arts) majors Instruction Mode: Lecture Grading Option: Letter

CNTV 463 Television: Integrating Creative and Business Objectives
Units: 2 Terms Offered: Fa An investigation of the creative and business sides of television and how they connect, including changes caused by fractionalization and digital technology. Registration Restriction: Open only to Business Administration (Cinematic Arts) students. Instruction Mode: Lecture Grading Option: Letter

CNTV 467 The Future of Digital Media and the Entertainment Industry
Units: 2 Terms Offered: Sp Examines how digital media will affect the future of the television, motion picture, game, music, and interactive industries. Instruction Mode: Lecture Grading Option: Letter

CNTV 474 Digital DNA: Media Redefined
Units: 2 Terms Offered: FaSp A practical, hands-on learning experience in creating media content and turning that content into a myriad of viable businesses. Instruction Mode: Lecture Grading Option: Credit/No Credit

CNTV 478 Horror Film Analysis and Production
Units: 4 Terms Offered: Sm The fundamentals of horror filmmaking, analysis of horror as a genre and professional opportunities in the entertainment industry. Instruction Mode: Lecture Grading Option: Letter

CNTV 490x Directed Research
Units: 1, 2, 3, 4, 5, 6, 7, 8 Max Units: 12.0 Terms Offered: FaSpSm Individual research and readings. Instruction Mode: Lecture Grading Option: Letter

CNTV 495 Internship in Cinematic Arts
Units: 1, 2, 4 Max Units: 04 Terms Offered: FaSpSm On-the-job film, television, and interactive industry experience in the areas of interest of the individual student. Requires departmental approval. Duplicates Credit in former CTIN 495 and former CTPR 495 Instruction Mode: Lecture Grading Option: Credit/No Credit

CNTV 499 Special Topics
Units: 2, 3, 4 Max Units: 8.0 Selected topics in cinematic arts. Instruction Mode: Lecture Grading Option: Letter

CNTV 501 Cinematic Arts Seminar
Units: 1 Max Units: 4.0 Terms Offered: Fa Introduction to an industry and art form in the midst of transformation, with guest speakers and cinematic arts faculty who will address new research and technologies. Instruction Mode: Lecture Grading Option: Credit/No Credit

CNTV 521 The World of the Producer
Units: 4 Terms Offered: FaSp A comprehensive overview of the role of the producer in creating television programming, feature films, and new media content. Instruction Mode: Lecture Grading Option: Letter

CNTV 522 The Television Industry: Networks, Cable and the Internet
Units: 4 Terms Offered: FaSp The current state of the television industry and future business paradigms. Instruction Mode: Lecture Grading Option: Letter

CNTV 523 Feature Film Financing and the Studio System
Units: 4 Terms Offered: FaSp An overview of the motion picture studio system and how to finance feature films. Principles, business practices, and future trends. Instruction Mode: Lecture Grading Option: Letter

CNTV 524 Digital Technologies and the Entertainment Industry
Units: 4 Terms Offered: FaSp The impact of digital technologies on the film, television, and music industries from content creation to distribution. Instruction Mode: Lecture Grading Option: Letter

CNTV 525 Entertainment Marketing in Today's Digital Environment
Units: 4 Terms Offered: Fa Entertainment industry marketing disciplines, covering motion pictures, television, music, theme parks, home entertainment, and video games. Current principles and business practices. Instruction Mode: Lecture Grading Option: Letter

CNTV 530 Cinematic Ethics
Units: 1 Terms Offered: FaSp An introductory course in the ethical questions professionals encounter in the field of cinematic arts. Case studies and guest lectures. Registration Restriction: Open only to students in the School of Cinematic Arts Instruction Mode: Lecture, Discussion Grading Option: Letter

CNTV 561 Publicity for Cinema and Television
Units: 4 Terms Offered: FaSp Analysis and preparation of advertising and publicity campaigns for entertainment films and television. Duplicates Credit in former CTPR 561 Instruction Mode: Lecture Grading Option: Letter

CNTV 562 Seminar in Motion Picture Business
Units: 4 Terms Offered: FaSp Problems of studio operation, production, distribution, exhibition or legal procedures relating to the motion picture. Duplicates Credit in former CTPR 562 Instruction Mode: Lecture Grading Option: Letter

Units: 2 or 4 Max Units: 8.0 Terms Offered: FaSp Detailed investigations and discussion of various aspects of film. Instruction Mode: Lecture Grading Option: Letter

CNTV 590 Directed Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Terms Offered: FaSpSm Research leading to the master's degree. Maximum units which may be applied to the degree to be determined by the department. Instruction Mode: Lecture Grading Option: Credit/No Credit

CNTV 594a Master's Thesis
Units: 2 Terms Offered: FaSpSm Credit on acceptance of thesis. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

CNTV 594b Master's Thesis
Units: 2 Terms Offered: FaSpSm Credit on acceptance of thesis. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

CNTV 594z Master's Thesis
Units: 0 Terms Offered: FaSpSm Credit on acceptance of thesis. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

CNTV 595 Professional Practicum
Units: 1, 2, 4 Max Units: 8 Terms Offered: FaSpSm Film, media, archival and interactive industry experience in areas of interest to the individual student, and development of a personal brand. Requires departmental approval. Registration Restriction: Open only to graduate students. Grading Option: Credit/No Credit

CNTV 599 Special Topics
Units: 2, 3, 4 Max Units: 8.0 Terms Offered: FaSp Detailed investigation of new or emerging aspects of cinematic arts; special subjects offered by visiting faculty; experimental subjects. Instruction Mode: Lecture Grading Option: Letter

CNTV 794a Doctoral Dissertation
Units: 2 Terms Offered: FaSpSm Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress & Credit/No Credit

CNTV 794b Doctoral Dissertation
Units: 2 Terms Offered: FaSpSm Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress & Credit/No Credit

CNTV 794c Doctoral Dissertation
Units: 2 Terms Offered: FaSpSm Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress & Credit/No Credit

CNTV 794d Doctoral Dissertation
Units: 2 Terms Offered: FaSpSm Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress & Credit/No Credit

CNTV 794z Doctoral Dissertation
Units: 0 Terms Offered: FaSpSm Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress & Credit/No Credit

Comparative Literature

COLT 101gp Masterpieces and Masterminds: Literature and Thought
Units: 4 Terms Offered: Fa A broad introduction to the great works of Western culture from antiquity to 1800. Satisfies New General Education in Category B: Humanistic Inquiry Satisfies Global Perspective in Category H: Traditions and Historical Foundations Satisfies Old General Education in Category I: Western Cultures and Traditions Duplicates Credit in former COLT 150x. Units: 4 Introduction to critical reflection on the image. Analysis of criticism, fiction, film, and visual artifacts. Instruction Mode: Lecture Grading Option: Letter

COLT 490x Directed Research
Units: 1, 2, 3, 4, 5, 6, 7, 8 Max Units: 12.0 Individual research and readings. Not available for graduate credit. *Prerequisite:* departmental approval. Instruction Mode: Lecture Grading Option: Letter

COLT 495 Senior Honors Thesis
Units: 4 Writing of an honors thesis under individual faculty supervision. Instruction Mode: Lecture Grading Option: Letter

COLT 499 Special Topics
Units: 2, 3, 4 Max Units: 8.0 Intensive study of selected author or authors in the context of a major literary tradition. Instruction Mode: Lecture Grading Option: Letter

COLT 510 Introduction to Translation Studies
Units: 4 Terms Offered: FaSp Introduction to the graduate certificate in Translation Studies; study of canonical works in translation theory. Registration Restriction: Only open to graduate students Instruction Mode: Lecture Grading Option: Letter Crosslisted as CSLC 510

COLT 511 Translating Race
Units: 4 Max Units: 08 Terms Offered: FaSp Contemporary notions of racial, cultural, and religious difference across languages and history. *Recommended Preparation:* COLT 510 Registration Restriction: Only open to graduate students Instruction Mode: Lecture Grading Option: Letter Crosslisted as CSLC 511

COLT 512 Literary and Cinematic Translingualism and Translation
Units: 4 Max Units: 08 Terms Offered: FaSp Introduces key debates regarding translingualism and translation in postcolonial, comparative, and cross-cultural literary and cinematic contexts Registration Restriction: Open only to graduate students Instruction Mode: Lecture Grading Option: Letter Crosslisted as CSLC 512

COLT 519 Translation in Theory and Practice
Units: 4 Terms Offered: FaSp Workshop in translation; capstone to graduate certificate in Translation Studies. Registration Restriction: Open only to graduate students Instruction Mode: Lecture Grading Option: Letter Crosslisted as CSLC 519

COLT 525 Studies in Literary and Cultural History
Units: 4 Max Units: 08 Literary and cultural currents from classical antiquity through modernity. Varying focus on specific genres, periods, movements or problematics. Instruction Mode: Lecture Grading Option: Letter Crosslisted as CSLC 525

COLT 545 Studies in Literature and the Other Arts
Units: 4 Max Units: 08 Study of intersections between the literary arts and music, opera, film, theatre, photography, dance or painting. Instruction Mode: Lecture Grading Option: Letter Crosslisted as CSLC 545

COLT 555 Studies in Literatures of the Americas
Units: 4 Max Units: 8.0 Comparative study of literary currents in the U.S., Canada, Latin America, and the Caribbean. Instruction Mode: Lecture Grading Option: Letter Crosslisted as CSLC-555

COLT 565 Studies in Literatures of Asia
Units: 4 Max Units: 8.0 Study of major cultural paradigms and their divergent influences in the literatures of China, Japan, Korea, and Southeast Asia. Instruction

Mode: Lecture Grading Option: Letter Crosslisted as CSLC-565

COLT 575 Studies in Literature and Ethnicity
Units: 4 Max Units: 8.0 Study of literary expression in different cultural, racial, or religious communities. Possible focus on African, Asian, Hispanic, or Jewish themes across several national traditions. Instruction Mode: Lecture Grading Option: Letter

COLT 585 Studies in Literature and Gender
Units: 4 Max Units: 8.0 Emphasis on gender difference and sexual difference as signifying categories for literary works, criticism, or theory. Instruction Mode: Lecture Grading Option: Letter

COLT 593 Teaching Practicum for Graduate Students
Units: 2 Terms Offered: FaSp Practical principles for the long-term development of effective teaching within College disciplines. Intended for teaching assistants in Dornsife college. Registration Restriction: Open only to Dornsife College doctoral students Instruction Mode: Lecture Grading Option: Credit/No Credit

COLT 602 Seminar in Literary Theory
Units: 4 Max Units: 12 Intensive study of a theoretical tradition or critical movement, or of an individual topic or thinker, in literary criticism or theory. Instruction Mode: Lecture Grading Option: Letter Crosslisted as CSLC 602

COLT 620 Seminar in Literature, Culture and Thought
Units: 4 Max Units: 12 Varying focus on social and political thought, psychoanalysis, and philosophy in relation to literary and cultural analysis. Instruction Mode: Lecture Grading Option: Letter Crosslisted as CSLC 620

Communication

COMM 200 Communication and Social Science
Units: 4 Terms Offered: FaSp
Social scientific inquiry into human communication; core theories of message production and reception in interpersonal, group and organizational contexts. Instruction Mode: Lecture, Discussion Grading Option: Letter

COMM 204 Public Speaking
Units: 4 Principles and practices of effective oral communication; analysis of the speaking-listening process; selection and organization of speech materials; use of new presentation technologies. Instruction Mode: Lecture Grading Option: Letter

COMM 205x Communication Practicum
Units: 1, 2 Max Units: 4.0 Students address communication issues in a field setting. They will evaluate communication practices using appropriate methodology. Projects are jointly evaluated by internship supervisor and professor. Instruction Mode: Lecture Grading Option: Credit/No Credit

COMM 206 Communication and Culture
Units: 4 Terms Offered: FaSpSm Examines cultural institutions, ideologies, artifacts, and productions; role of culture in everyday life; cultural studies as methodology; culture and power. Instruction Mode: Lecture, Discussion Grading Option: Letter Crosslisted as ACAD-206

COMM 209 Communication and Media Economics
Units: 4 Terms Offered: FaSp Economic and political economic principles for the analysis of communication and media industries including broadcasting, newspapers, motion pictures, music, video games, advertising and public relations. Instruction Mode: Lecture, Discussion Grading Option: Letter

COMM 211x Professional Effectiveness Through Third Space Thinking
Units: 2 Terms Offered: Fa Experiential learning and structured practice to build skills in communication effectiveness, problem solving, decision making and self-awareness. Not for major credit for Communication majors. Credit Restriction: Not available for major credit for communication majors Instruction Mode: Lecture Grading Option: Letter

COMM 300 Entertainment, Communication and Society
Units: 4 Terms Offered: FaSp Theoretical foundation for understanding the construction, consumption, and consequences of entertainment from classical to contemporary times; situates entertainment within the ecology of information and communication. Instruction Mode: Lecture Grading Option: Letter

COMM 301Lg Empirical Research in Communication
Units: 4 Terms Offered: FaSpSm Experimental and survey methods for communication study; basic statistical concepts, procedures, and tests. Satisfies New General Education in Category F: Quantitative Reasoning Instruction Mode: Lecture, Lab Required Grading Option: Letter

COMM 302 Persuasion
Units: 4 Theories and research in social influence; strategies and tactics of persuasive communications in such settings as politics, public relations, advertising, business. Instruction Mode: Lecture Grading Option: Letter

COMM 303 Learning from Case Studies in Communication
Units: 4 Case study approaches to communication research; reliability, validity, generalizability, and ethics in qualitative social research; cases in communication policy and practices. Instruction Mode: Lecture Grading Option: Letter

COMM 304 Interpersonal Communication
Units: 4 Analysis of face-to-face interaction; role of communication in the development, maintenance and destruction of relationships; communication processes in managing interpersonal conflict. Instruction Mode: Lecture Grading Option: Letter

COMM 305 Understanding Social Science Research
Units: 4 Students learn to be consumers rather than creators of social science research. Examines the challenges and opportunities of communicating research through mass media. Instruction Mode: Lecture Grading Option: Letter

COMM 306 Innovation, Entertainment, and the Arts
Units: 4 Terms Offered: FaSpSm Explorations of innovation in the entertainment business. The effects of digital mobile media on TV, movies, music, advertising, social networks and art. Instruction Mode: Lecture Grading Option: Letter Crosslisted as ACAD-306

COMM 307 Sound Clash: Popular Music and American Culture
Units: 4 Music as inter-cultural communication and method for exploring race and ethnicity in the constitution of American culture and American self; role of music industry. Instruction Mode: Lecture Grading Option: Letter

COMM 308 Communication and Conflict
Units: 4 Nature and functions of communication in human conflict; development of communication skills for managing conflict productively in interpersonal, organizational and intercultural contexts. Instruction Mode: Lecture Grading Option: Letter

COMM 309 Communication and Technology

Units: 4 Examines issues of visual images in communication related to history, modernity, cityscapes, news media, advertising, evidence, science, digital technology, and globalization. Instruction Mode: Lecture Grading Option: Letter

COMM 451 Visual Communication and Social Change
Units: 4 Analysis of photography's evolution; new strategies for the photographic image, photo documentary work and global social issues; analysis of images on blogs and Websites. Instruction Mode: Lecture Grading Option: Letter

COMM 454 Media, Money, and Society
Units: 4 Money as communication; social scientific analysis of money and financial markets; money and popular culture; the business press; representations of Wall Street in Hollywood cinema. Instruction Mode: Lecture Grading Option: Letter

COMM 456 Entertainment, Marketing and Culture
Units: 4 Explores blurring of entertainment, marketing and culture in advanced information economies; intersections of culture and media and their social ramifications. Instruction Mode: Lecture Grading Option: Letter

COMM 457 Youth and Media
Units: 4 Terms Offered: FaSp Exploration of youth media and culture, including television, movies, video games, toys, magazines, music, social media. Examines representations of youth and youth as audience. Instruction Mode: Lecture Grading Option: Letter

COMM 458m Race and Ethnicity in Entertainment and the Arts
Units: 4 Terms Offered: FaSpSm Examines how race and ethnicity as social categories are shaped by communication media; focuses on how race and ethnicity sustain entertainment and media industries. *Recommended Preparation:* COMM 206 Instruction Mode: Lecture Grading Option: Letter Crosslisted as AMST 458

COMM 459 Fact and Fiction: From Journalism to the Docudrama
Units: 4 (Enroll in JOUR 459)

COMM 460 Collaboration and Group Decision Making
Units: 4 Advanced seminar examining the theoretical, empirical and practical aspects of human and technological communication in group processes; experiential and/or field experiences in group observation. Instruction Mode: Lecture Grading Option: Letter

COMM 464 Social Responsibility of the News Media
Units: 4 (Enroll in JOUR 460)

COMM 465m Gender in Media Industries and Products
Units: 4 Examination of the effect of gender stratification in media industries upon the cultural products they create, especially gender and gender/race role portrayals. Instruction Mode: Lecture Grading Option: Letter

COMM 466m People of Color and the News Media
Units: 4 (Enroll in JOUR 466m)

COMM 467 Gender and the News Media
Units: 4 (Enroll in JOUR 467)

COMM 468 Cross-Cultural Negotiations: Communication and Strategy
Units: 4 Application of intercultural communication theories and negotiation theories in the preparation and execution of global negotiations; strategies for creating mutual gains and sustained partnerships. Instruction Mode: Lecture Grading Option: Letter Crosslisted as MOR-468, PPD-468

COMM 473 Advanced Issues in Communication and Technology
Units: 4 Advanced level readings into human-computer interfaces; social interaction with artifacts; concept of presence, and emerging social and psychological issues of new communication and computer technologies. *Prerequisite:* COMM 301. Instruction Mode: Lecture Grading Option: Letter

COMM 475 Environmental Communication
Units: 4 Communication about environmental controversies in the public sphere: history of environmentalism; forms of citizen participation; media coverage; advocacy campaigns and movements; scientific and industrial discourses. Instruction Mode: Lecture Grading Option: Letter

COMM 479 Trauma and Communication
Units: 4 Terms Offered: FaSp Trauma and testimony in the field of communication; interdisciplinary analysis of testimonial networks; trauma and protest journalism; trauma and memory; news coverage of catastrophe; trauma in cinema and popular culture. Instruction Mode: Lecture Grading Option: Letter

COMM 480 Nonverbal Communication
Units: 4 Theory and research; examination of the influence of environmental factors, physical behavior, and vocal cues on human communication. Instruction Mode: Lecture Grading Option: Letter

COMM 482 Comparative Media in Europe
Units: 4 Terms Offered: Sm (Enroll in JOUR 482)

COMM 486 Human and Technological Systems in Organizations
Units: 4 How communication and information technologies are linked to organizational control, design, cultures; technology and competitive advantage; ethics and policy issues; technology-mediated work. *Recommended Preparation:* COMM 385. Instruction Mode: Lecture Grading Option: Letter

COMM 487 Communication and Global Organizations
Units: 4 The role of communication in global organizations; information, networks, and communication technologies for global organizing; computer-based collaborative work and virtual organizations. *Recommended Preparation:* COMM 385. Instruction Mode: Lecture Grading Option: Letter

COMM 488 Communication Research in Organizations
Units: 4 Seminar in application of communication research tools; diagnosis and analysis of communication problems; current topics in organizational communication scholarship; students complete original research projects. *Recommended Preparation:* COMM 385. Instruction Mode: Lecture Grading Option: Letter

COMM 489 Campaign Communication
Units: 4 Problems in political communication: creating an informed electorate, use of mass media, factors in voter persuasion. Guest experts in political analysis, opinion polling, communication evaluation. Instruction Mode: Lecture Grading Option: Letter

COMM 490x Directed Research
Units: 1, 2, 3, 4, 5, 6, 7, 8 Max Units: 12.0 Individual research and readings. Instruction Mode: Lecture Grading Option: Letter

COMM 494x Research Practicum
Units: 2, 3, 4 Max Units: 4.0 Students gain research experience in the design, implementation, analysis, and reporting of communication research. Students serve as research assistants to faculty members. Instruction Mode: Lecture Grading Option: Letter

COMM 495 Honors Seminar
Units: 4 Max Units: 8.0 Advanced study of issues in communication; recent developments in communication and rhetorical theories. Recommended for seniors. *Recommended Preparation:* COMM 301Lg. Registration Restriction: Open only to students in COMM honors program. Instruction Mode: Lecture Grading Option: Letter

COMM 497x Honors Thesis
Units: 4 Terms Offered: FaSp Writing of the honors thesis. Instruction Mode: Lecture Grading Option: Letter

COMM 498 Ethical Issues in Entertainment and Communication
Units: 4 Terms Offered: FaSpSm Examines social and political controversies over conflicting ethical standards for communication in a variety of media: mass-media, communication technology and entertainment. Instruction Mode: Lecture Grading Option: Letter

COMM 499 Special Topics
Units: 2, 3, 4 Max Units: 8.0 Selected topics in communication Instruction Mode: Lecture Grading Option: Letter

COMM 502 Theoretical Approaches to Multidisciplinary Design Projects
Units: 4 Terms Offered: Fa Focuses on theories and research in communication and social sciences to bridge disciplines to produce a proposal, business plan, publication, or a research project. Registration Restriction: Open only to Communication Data Science and to Digital Social Media majors Instruction Mode: Lecture Grading Option: Letter

COMM 504x Interpersonal Communication
Units: 4 Theories of communication behavior in relatively unstructured, face-to-face situations; examination of decoder-encoder, message, channel, and situational variables. Instruction Mode: Lecture Grading Option: Letter

COMM 508x Power, Politics and Conflict in Communication
Units: 4 Human communicative behavior involving the creation and resolution of conflict in interpersonal, small group, and formal organizational settings. Instruction Mode: Lecture Grading Option: Letter

COMM 509x Classical Rhetorical Theory
Units: 4 Theories of rhetoric from the fifth century B.C. through the fifth century A.D.; emphasis on the Sophists, Plato, Aristotle, Cicero, Quintilian, and St. Augustine. Instruction Mode: Lecture Grading Option: Letter

COMM 511x Contemporary Rhetorical Theory
Units: 4 Theories of rhetoric from the 18th century to the present; emphasis on Perelman, Burke, Habermas, Grassi, and Booth. Instruction Mode: Lecture Grading Option: Letter

COMM 512x Rhetorical Criticism
Units: 4 Theories and methods of assessing popular persuasive art forms such as contemporary drama, music, poetry, and journalism as well as traditional forms of public address. Instruction Mode: Lecture Grading Option: Letter

COMM 513x Neoclassical Rhetorical Theory
Units: 4 Theories of rhetoric from the fifth century A.D. through the 18th century; emphasis on dictamin, praedicandi, poetriae, Alquin, Ramus, Port-Royalists, Bacon, Campbell, Blair, and Whately. Instruction Mode: Lecture Grading Option: Letter

COMM 514x Social Movements as Rhetorical Form
Units: 4 Study of the rhetoric of social change; methodologies for analysis and appraisal; investigation of specific collective protest and reform movements. Instruction Mode: Lecture Grading Option: Letter

COMM 515x Postmodern Rhetorical Theory
Units: 4 Implications of postmodernity for rhetorical theory and criticism; issues of textuality, agency, and subjectivity in communication; study of selected postmodern figures. Instruction Mode: Lecture Grading Option: Letter

COMM 516x Feminist Theory and Communication
Units: 4 Implications of feminist theory for communication; topics include epistemology, critique of science/technology, women and language, feminist approaches to media and film, women and the workplace. Instruction Mode: Lecture Grading Option: Letter Crosslisted as SWMS-516

COMM 517x Rhetorical Theory and Culture
Units: 4 Issues of culture in recent rhetorical theory; in-depth examination of representative idealist, pragmatist, structuralist, critical, and post-modern accounts of the symbolic construction of cultural forms. Instruction Mode: Lecture Grading Option: Letter

COMM 518x American Public Address
Units: 4 History and criticism of major American speakers and speeches with reference to the social, political, and intellectual background of their times. Instruction Mode: Lecture Grading Option: Letter

COMM 519x Cultural Studies in Communication
Units: 4 Theoretical foundations, history, and development of cultural studies in communication; implications of issues of nationalism, colonialism, technologies, popular culture, and politics of bodies for communication. Instruction Mode: Lecture Grading Option: Letter

COMM 520 The Rhetoric of the Presidential Campaign Trail
Units: 4 Students follow the ongoing presidential campaign and consider topics such as gender, race, new media, polling, religion, and advertising on election outcomes. Instruction Mode: Lecture Grading Option: Letter

COMM 521x Argumentation
Units: 4 Foundation of critical deliberation; the nature of informal reasoning; logical and ethical problems; analysis and appraisal of naturalistic argument. Instruction Mode: Lecture Grading Option: Letter

COMM 522x Kenneth Burke's Dramatistic Theory
Units: 4 Studies the contributions of Kenneth Burke, among the most significant figures in the development of contemporary rhetorical theory and criticism. Instruction Mode: Lecture Grading Option: Letter

COMM 524x Small Group Process
Units: 4 Contemporary theoretical models; problems in determination and measurement of variables in small group communication environments; assessment of recent research. Instruction Mode: Lecture Grading Option: Letter

COMM 525x Humanistic and Social Scientific Approaches to Human Communication I
Units: 4 Overview of the humanistic and social scientific approaches to the study of communication; emphasis on rhetorical/critical and macro social scientific perspectives. Instruction Mode: Lecture Grading Option: Letter

COMM 526x Humanistic and Social Scientific Approaches to Human Communication II
Units: 4 Overview of the humanistic and

social scientific approaches to the study of communication; emphasis on macro and micro social scientific, symbolic and structural perspectives. Instruction Mode: Lecture Grading Option: Letter

COMM 546 The Political Economy of Innovation
Units: 4 How does innovation occur and spread? How has innovation changed over time? Instruction Mode: Lecture Grading Option: Letter

COMM 550 Quantitative Research Methods in Communication
Units: 4 Epistemological assumptions, design, and beginning methods of quantitative analysis in communication research. Instruction Mode: Lecture Grading Option: Letter

COMM 552 Qualitative Research Methods in Communication
Units: 4 Developing expertise in qualitative methods, including participant-observation, ethnography, discourse analysis and historiography in communication research. Instruction Mode: Lecture Grading Option: Letter

COMM 553 Global Internet Governance
Units: 4 Terms Offered: FaSp Explores cybersecurity, privacy, network neutrality and other critical issues in internet governance through the lenses of international political economy and media theories. Instruction Mode: Lecture Grading Option: Letter Crosslisted as IR 553

COMM 554 Regression and Multivariate Communication Research
Units: 4 Advanced analysis of variance, regression models, path analysis, MANOVA, and discriminant analysis. Instruction Mode: Lecture Grading Option: Letter

COMM 556 Advanced Methods in Communication Research
Units: 4 Structural Equation Modeling, LISREL, log linear and other advanced statistical methods used in contemporary communication research. Instruction Mode: Lecture Grading Option: Letter

COMM 557 Data Science for Communication and Social Networks
Units: 4 Terms Offered: FaSp Learn to harness the power of data science and computational techniques to study social and communication networks and extract value, knowledge and insights from big data. *Recommended Preparation:* DSCI 552 Instruction Mode: Lecture Grading Option: Letter

COMM 559 Globalization, Communication and Society
Units: 4 Comparative analysis of social, cultural and political impacts of communication technology and media; emphasis given to communication's influence in the social dimensions of globalization. Instruction Mode: Lecture Grading Option: Letter

COMM 560 Global Media and Communication in China and Asia
Units: 4 The characteristics of global communication in global capitalism and the political economic processes within which policies, interests, and implications of global communication are embedded. Instruction Mode: Lecture Grading Option: Letter

COMM 561 Leading and Communicating Change in Global Organizations
Units: 4 Communication perspectives on the process and outcomes of globalization; role of large media organizations in the global flow of information; and leadership and multiculturalism. Instruction Mode: Lecture Grading Option: Letter

COMM 563 Black Popular Culture: Theory and Central Debates
Units: 4 Examines black popular cultures as indexes for historical struggles over race, gender, nationalism, identity, subjectivity, aesthetics, institutional resources, political/cultural autonomy, and ideology. Instruction Mode: Lecture Grading Option: Letter

COMM 564 Communication, Culture and Capitalism
Units: 4 A survey of scholarship about the relationship between money and culture, with emphasis on poststructural accounts of neoliberalism. Instruction Mode: Lecture Grading Option: Letter

COMM 566 Using Theory to Craft Policies to Affect Change
Units: 4 Review path-breaking ideas from Nobel-winning economists; examine specific cases, trying to understand the process by which markets and institutions transform ideas into results. Instruction Mode: Lecture Grading Option: Letter

COMM 567 The Political Economy of Privacy and Cybersecurity
Units: 4 Considers the challenges of maintaining and protecting privacy while improving cybersecurity in the United States and globally. Instruction Mode: Lecture Grading Option: Letter

COMM 570 Economics of the Communication Industries
Units: 4 The economic forces that determine the structure and outputs of communication and media industries, including newspapers, broadcasting, cable, and telecommunications. Instruction Mode: Lecture Grading Option: Letter

COMM 572 Theories of Computer-Mediated Communication
Units: 4 Selected topics in the study of new technologies for human communication: adoption of CMC technologies; social networking; self-presentation and impression formation in CMC; online friendships. Instruction Mode: Lecture Grading Option: Letter

COMM 573 Networked Publics: Theories and Encounters
Units: 4 Examines models of a democratic public sphere, with special focus on design and use of networked information infrastructures supporting free speech. Instruction Mode: Lecture Grading Option: Letter

COMM 574 Science and Technology Studies for Communication and Media
Units: 4 Introduction to the field of Science and Technology Studies; examines sociotechnical models of knowledge, power and society as related to communication and media. Instruction Mode: Lecture Grading Option: Letter

COMM 575 Advocacy and Social Change in Entertainment and the Media
Units: 4 Examines how diverse groups (i.e., governmental agencies, advertisers, health organizations, advocacy groups, actors, social scientists) attempt to influence audiences through entertainment and traditional media channels. Instruction Mode: Lecture Grading Option: Letter

COMM 576 Civic Media and Participatory Politics
Units: 4 Examines tools and practices enabling activists to exert voice and influence public policies; ways citizens are working to meet the information needs of their communities. Instruction Mode: Lecture Grading Option: Letter

COMM 577 Fandom, Participatory Culture and Web 2.0
Units: 4 Emerging models of audience engagement and participation in a networked culture with a strong focus on grassroots communities and their relationships with cult media content. Instruction Mode: Lecture Grading Option: Letter

COMM 578 New Media Literacies
Units: 4 Examines intersection of education and participatory culture, literacy and media change, the participation gap, informal learning and knowledge communities, emerging social skills and cultural competencies. Instruction Mode: Lecture Grading Option: Letter

COMM 579 Entrepreneurship in the New Media
Units: 4 Examination of how the digital revolution is creating news media entrepreneurs, and changing the way news is disseminated by journalists and heard by consumers. Instruction Mode: Lecture Grading Option: Letter

COMM 580 Media and Politics
Units: 4 Mass media in American political life, including political reporting, election campaigns, non-electoral politics, and the media as a political issue. Instruction Mode: Lecture Grading Option: Letter

COMM 582 Information and Communication Technology for Development
Units: 4 Roles of media institutions and communications behavior in national development, including political, economic, and social spheres; Western and non-Western conceptions of development processes. Instruction Mode: Lecture Grading Option: Letter

COMM 585x Organizational Communication
Units: 4 Theory and research; field experience in analyzing and solving communication problems in organizations. Instruction Mode: Lecture Grading Option: Letter

COMM 590 Directed Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Research leading to the master's degree. Maximum units which may be applied to the degree to be determined by the school. Duplicates Credit in former COMM 590. Instruction Mode: Lecture Grading Option: Credit/No Credit

COMM 594a Master's Thesis
Units: 2 Credit on acceptance of thesis. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

COMM 594b Master's Thesis
Units: 2 Credit on acceptance of thesis. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

COMM 594z Master's Thesis
Units: 0 Credit on acceptance of thesis. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

COMM 598 Practicum in Global Communication Research
Units: 4 Terms Offered: Sp Development and assessment of research into global communication; selection of appropriate research methodologies; production of scholarly research; and completion of an internship/practicum. Registration Restriction: Open only to Global Communication master students Instruction Mode: Lecture Grading Option: Letter

COMM 599 Special Topics
Units: 2, 3, 4 Max Units: 8.0 Instruction Mode: Lecture Grading Option: Letter

COMM 602 Seminar in Persuasion
Units: 4 Classical and contemporary theories of persuasion, attitude formation and change; impact of cognition, affect and emotions; cultural and group influences; message strategies and framing. Instruction Mode: Lecture Grading Option: Letter

COMM 605 Advanced Macro Theories of Communication
Units: 4 Advanced macro theories of communication and culture creation/change; emphasis on structural-functionalism, neo-Marxism, critical theory, symbolic interactionism, phenomenology, post-structuralism, deconstruction. Instruction Mode: Lecture Grading Option: Letter

COMM 610 Studies in Rhetorical Theory
Units: 4 Max Units: 12.0 Problems in rhetorical theory and criticism; advanced, specialized interest areas of individual faculty on the frontiers of knowledge. Instruction Mode: Lecture Grading Option: Letter

COMM 611 Communication Technology and Healthcare
Units: 4 Impact on healthcare and patient empowerment of new communication technologies including social media and mobile communications, online interventions, syndromic surveillance, user-generated reviews, electronic health records. Instruction Mode: Lecture Grading Option: Letter

COMM 612 Designing Health Communication Interventions
Units: 4 Effectively changing health outcomes for target population using games, mobile and online interventions; formative and summative evaluation; virtual environments for fMRI studies. Instruction Mode: Lecture Grading Option: Letter

COMM 613 Grant Writing in Communication
Units: 4 Finding the right grant; how to develop theory, optimize funding, write critical components of grants, form collaborations with experts; how review panels work. Instruction Mode: Lecture Grading Option: Letter

COMM 614 Computational Approaches in Health Communication
Units: 4 Statistical and computational approaches to health communication data; better understanding, using simulations, of how theory might better guide empirical research. Instruction Mode: Lecture Grading Option: Letter

COMM 615 Health Communication
Units: 4 Evaluation of research about communication in patient care, health campaigns for diverse publics, tools for disease management, and outreach to producers in mass media. Instruction Mode: Lecture Grading Option: Letter

COMM 616 Health Communication for Prevention
Units: 4 Examination of health communication efforts for the prevention of diseases or other adverse physical or mental health outcomes by the promotion of behavior change. Instruction Mode: Lecture Grading Option: Letter

COMM 618 Mass Media Effects
Units: 4 Theoretical and research questions about mass communication effects; criticism and interpretation of current research and theory, and formulation of new theory. Instruction Mode: Lecture Grading Option: Letter

COMM 620 Studies in Communication Theory
Units: 4 Max Units: 12.0 Current problems in communication theory and research: advanced, specialized interest areas of individual faculty on the frontiers of knowledge. Instruction Mode: Lecture Grading Option: Letter

COMM 629 Global Culture
Units: 4 Examines the relationship of culture to globalization, ranging from nationalism and colonialism to global cultural products, multinational cultural production, diasporic cultures, global media, and cosmopolitanism. Instruction Mode: Lecture Grading Option: Letter

COMM 630 Communication Technology and Social Change
Units: 4 Impact of technological advances on human communication practices and theories; trends, forecasts, implications. Instruction Mode: Lecture Grading Option: Letter

COMM 635 Economics of Information
Units: 4 Applications of macro and microeconomic principles: economic role of the information sector; production, distribution, and pricing of information products; information in the functioning of markets. Instruction Mode: Lecture Grading Option: Letter

COMM 636 Interpretive and Cultural Approaches in Organizational Communication
Units: 4 Interpretive, critical and cultural research in organizational communication; emphasis on narrative approaches to ethnographic studies, critical essays, and quantitative intercultural research in organizational communication. Instruction Mode: Lecture Grading Option: Letter

COMM 637 Current Readings in Organizational Communication
Units: 4 Recent developments in organizational communication theory and research; emerging issues and methodologies; future directions. Instruction Mode: Lecture Grading Option: Letter

COMM 638 Global, International and Intercultural Communication in Organizations
Units: 4 Communication processes in global organizational transformation; influences of information technology, intercultural variables, and globalization on decision-making, operations and practices of international and transnational organizations. Instruction Mode: Lecture Grading Option: Letter

COMM 640 Communication and Organizational Change
Units: 4 Analysis of communication and information networks in organizations and their relationships with communication technologies, organizational behavior, and management. Instruction Mode: Lecture Grading Option: Letter

COMM 641 Organizations and Communication Technologies
Units: 4 Communication technology impacts on organizations; organizational influence on technology development and deployment; methods for organizational communication technology studies; critiques and implications for theory and research. Instruction Mode: Lecture Grading Option: Letter

COMM 645 Communication Networks
Units: 4 Conceptual and analytic issues in network perspectives; emphasis on communication patterns, processes, content, influences and impacts. Instruction Mode: Lecture Grading Option: Letter

COMM 647x Network Society
Units: 4 Advanced research seminar examining the interaction between communication technology, society, economy, politics and culture from interdisciplinary and cross-cultural perspectives. Instruction Mode: Lecture Grading Option: Letter

COMM 648 Online Communities and Networks
Units: 4 Examination of academic research on the social, cultural, political, and economic effects of online communities; policy implications of this research; mobile technology's role in community building. Instruction Mode: Lecture Grading Option: Letter

COMM 649 Methodologies in Cultural Studies
Units: 4 Terms Offered: FaSp An exploration of theoretical, technical, and political implications of cross-disciplinary scholarship rooted in cultural studies. Instruction Mode: Lecture Grading Option: Letter

COMM 650 Survey Construction and Validation
Units: 4 Principles of survey construction and validation; format selection, sampling, question wording, adaptation for international audiences, response option formats, order, and avoiding acquiescence bias and breakoffs. Instruction Mode: Lecture Grading Option: Letter

COMM 651 Experimental and Quasi-Experimental Designs
Units: 4 Advantages and drawbacks to experimental designs and quasi experimental designs for social research and theory building. Emphasis on how to design and report experiments. Instruction Mode: Lecture Grading Option: Letter

COMM 652 Ethnographic Field Research in Communication
Units: 4 Terms Offered: FaSp Explores ethnography as research mode including theory and practice of ethnographic

research; epistemological and political underpinnings of ethnographic research. Instruction Mode: Lecture Grading Option: Letter

COMM 653 Research, Practice and Social Change
Units: 4 Examination of theoretical models and best practices of academic research and advocacy relationships; students conduct a community-based research project using a model of community-based participatory research. Instruction Mode: Lecture Grading Option: Letter

COMM 654 Art, Artists and Society
Units: 4 Cultural and temporal differences in defining arts, artists and audiences; transmitting cultural beliefs through art; understanding aesthetic responses; experiences of alienation and incomprehension with art. Instruction Mode: Lecture Grading Option: Letter

COMM 655 Studies in Sound, Music and Communication
Units: 4 An introduction to listening as a methodology of critical practice. Key topics in the study and interpretation of sound and music as forms of communication. Instruction Mode: Lecture Grading Option: Letter

COMM 656 Theorizing Race, Culture, Cross-Cultural Exchange
Units: 4 Intersection of communication and culture; focus on race, ethnicity, interracial and intraracial relations in shaping political, social dynamics of U.S. in late 20th and early 21st centuries. Instruction Mode: Lecture Grading Option: Letter

COMM 657 Critical Theories of Race and Culture
Units: 4 Terms Offered: FaSp Examines the historical emergence of ideas about race, modernity and colonialism and the role of culture in shaping how we understand race today. Instruction Mode: Lecture Grading Option: Letter Crosslisted as AMST 657, SOCI 659

COMM 660 Entertainment and Games
Units: 4 Contemporary meaning of "entertainment," historical and cultural developments of entertainment; entertainment as psychological process of responding to/interacting with various media. Instruction Mode: Lecture Grading Option: Letter

COMM 662 Video Games Research
Units: 4 History and content, motivation and selection, reception and reaction processes, and effects of video games; students conduct original research into video game usage and effects. Instruction Mode: Lecture Grading Option: Letter

COMM 670 Economic Cultures
Units: 4 Explores and analyzes the interaction between culture and economy by observing different types of economic practices. Instruction Mode: Lecture Grading Option: Letter

COMM 672 Experiments in Critical Writing
Units: 4 Seminar and workshop dedicated to the practice of critical non-fiction writing, and the role of the creative impulse in scholarly criticism and print journalism. Instruction Mode: Lecture Grading Option: Letter

COMM 673 Public Intellectuals
Units: 4 Terms Offered: FaSp Explores alternative genres of public-facing writing (blog posts, interviews, op-eds, policy statements, multimedia publishing); considers exemplars of academics engaging with the public. Instruction Mode: Lecture Grading Option: Letter

COMM 675 Independent Study
Units: 1, 2, 3, 4 A supervised course tailored to specific student interests. The professor and student develop a syllabus that permits exploration of advanced or specialized topics. Instruction Mode: Lecture Grading Option: Credit/No Credit

COMM 694 Preliminary Research Paper
Units: 2 Independent research designed to demonstrate the student's ability to conceptualize, conduct, and present scholarly research. Instruction Mode: Lecture Grading Option: Credit/No Credit Crosslisted as Parallel to COMM 794a COMM 794b COMM 794c COMM 794d COMM 794z .

COMM 790 Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Research leading to the doctorate. Maximum units which may be applied to the degree to be determined by the school. Instruction Mode: Lecture Grading Option: Credit/No Credit

COMM 794a Doctoral Dissertation
Units: 2 Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

COMM 794b Doctoral Dissertation
Units: 2 Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

COMM 794c Doctoral Dissertation
Units: 2 Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

COMM 794d Doctoral Dissertation
Units: 2 Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

COMM 794z Doctoral Dissertation
Units: 0 Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

Thematic Option

CORE 101g Symbols and Conceptual Systems: Thematic Option Honors Program
Units: 4 Terms Offered: FaSp Study of the structures through which we shape our experience in religion, philosophy, literature, music, and the visual arts, and of competing theories of interpretation. Satisfies New General Education in B Humanistic Inquiry Instruction Mode: Lecture, Discussion, Lab Grading Option: Letter

CORE 102gp Culture and Values: Thematic Option Honors Program
Units: 4 Terms Offered: Fa Systematic reasoning about values and ways of living; close reading of major texts within the Western tradition; Biblical and classical through contemporary sources. Satisfies New General Education in Category B: Humanistic Inquiry Satisfies Global Perspective in Category H: Traditions and Historical Foundations Instruction Mode: Lecture, Discussion, Lab Grading Option: Letter

CORE 103g The Process of Change in Science: Thematic Option Honors Program
Units: 4 Terms Offered: FaSp Critical problems in the development of scientific thought, studied as vehicles for understanding the content and structure of the sciences. Specific subject matter in selected scientific disciplines will be presented. Satisfies New General Education in Category D: Life Sciences Instruction Mode: Lecture, Discussion, Lab Grading Option: Letter

CORE 104gw Change and the Future: Thematic Option Honors Program
Units: 4 Terms Offered: FaSp Analysis of historical change; social and political theory and revolutionary thought; introduction to competing images of future states of affairs; the continuing process of change. Satisfies New General Education in Category C: Social Analysis Satisfies Global Perspective in Category G: Citizenship in a Diverse World Instruction Mode: Lecture, Discussion, Lab Grading Option: Letter

CORE 111 Writing Seminar I: Thematic Option Honors Program
Units: 4 Terms Offered: Fa Instruction Mode: Lecture Grading Option: Letter

CORE 112 Writing Seminar II: Thematic Option Honors Program
Units: 4 Terms Offered: Sp Instruction Mode: Lecture Grading Option: Letter

CORE 195 Summer Seminar
Units: 3 Terms Offered: Sm An honors course for high school students in summer; each section focuses on a topic in the arts or humanities, social or natural sciences. Instruction Mode: Lecture Grading Option: Letter

CORE 200 Liberal Arts Reading Salon
Units: 2 Terms Offered: FaSp Critical readings of a series of texts in the liberal arts designed to promote discussion of important themes, theoretical approaches, research directions, and interdisciplinary connections. Instruction Mode: Lecture Grading Option: Credit/No Credit

CORE 301 Modes of Inquiry
Units: 4 Terms Offered: FaSp Modern tools of cultural and discursive analysis which seek to demystify "the natural," as it appears in the formation of cultures, their institutions, and individuals. Instruction Mode: Lecture Grading Option: Letter

CORE 400 Capstone
Units: 2 Guided study of select works of classical literature in relation to contemporary issues and concerns. Capstone for minor in Classical Perspectives. *Recommended Preparation:* completion of at least 10 units towards the Classical Perspectives minor, including CORE 200 Registration Restriction: registration requires departmental approval (D-clearance) Instruction Mode: Lecture Grading Option: Letter

CORE 401x Ethics and Leadership
Units: 4 Terms Offered: FaSpSm Debates concerning moral and cultural ethics in a

globalizing world; paradigms of leadership, ethical conduct, moral courage, and humanitarianism. Instruction Mode: Lecture Grading Option: Credit/No Credit

CORE 450 Los Angeles: A Polymathic Inquiry
Units: 2, 4 Max Units: 4 Terms Offered: FaSp A guided polymathic inquiry into Los Angeles as fact and imaginative creation, featuring in-depth student research and projects. Instruction Mode: Lecture Grading Option: Letter

CORE 499 Special Topics
Units: 2, 3, 4 Max Units: 8.0 Intensive interdisciplinary exploration of a selected theme, problem process, or period. Instruction Mode: Lecture Grading Option: Letter

CORE 601 Teaching Analytical Writing Through Readings in the Humanities
Units: 1 Max Units: 4.0 Terms Offered: Fa Theories and practices in the university-level teaching of close-reading and analytical writing, using texts central to Western tradition. Graduate student professionalism through topical workshops and discussions. Instruction Mode: Lecture Grading Option: Credit/No Credit

School of Art and Design (Critical Studies)

CRIT 150gp Histories of Art, Design and Visual Culture
Units: 4 Terms Offered: FaSp A loosely chronological, thematic survey of art, visual culture, design, and critical theory from the early modern period through modernism (1500 – 1950). Satisfies New General Education in Category A: The Arts Satisfies Global Perspective in Category H: Traditions and Historical Foundations Duplicates Credit in former FACS 150 Instruction Mode: Lecture, Discussion Grading Option: Letter

CRIT 160g Critical Theory in Art, Design and Visual Culture
Units: 4 Terms Offered: FaSp An issues-based introduction to critical theory in the twentieth and twenty-first centuries, especially as it relates to philosophy, art, design, and visual culture. *Recommended Preparation:* CRIT 150 Satisfies New General Education in Category B: Humanistic Inquiry Registration Restriction: Open only to Roski Art majors and minors Instruction Mode: Lecture, Discussion Grading Option: Letter

CRIT 350gw Global Art, Design and Visual Culture since 1960
Units: 4 Terms Offered: FaSp A critical history of art, design, visual culture, and visual theory since 1960, addressing through a postcolonial/decolonial lens the concepts and practices of "global" art. *Recommended Preparation:* CRIT 150gp and CRIT 160g Satisfies New General Education in Category B: Humanistic Inquiry Satisfies Global Perspective in Category G: Citizenship in a Diverse World Registration Restriction: Open only to Roski Art majors and minors Duplicates Credit in former FA 350 Instruction Mode: Lecture, Discussion Grading Option: Letter

CRIT 371 Art in the Public Realm: Contemporary Issues
Units: 4 Terms Offered: FaSpSm Critical frameworks and theoretical perspectives of contemporary public art issues explored through case studies and discussions with artists, architects, and designers engaging the public realm. Duplicates Credit in former PAS 371. Instruction Mode: Lecture Grading Option: Letter

CRIT 410 Theory and Design: Deconstruction
Units: 4 Terms Offered: FaSp Addresses overlapping issues in contemporary design and art relating to activism, audience and technologies of making and dissemination. *Recommended Preparation:* CRIT 150gp, CRIT 160g and CRIT 350gw, or permission of instructor Instruction Mode: Lecture Grading Option: Letter

CRIT 415 Performance: Event, Action, Situation
Units: 4 Terms Offered: FaSpSm Focused exploration of the role of the body in performance, action and the question of the "event" in contemporary art and design. *Recommended Preparation:* CRIT 150gp, CRIT 160g, CRIT 350gw or permission of instructor Instruction Mode: Lecture Grading Option: Letter

CRIT 420 The Artist: As Contemporary Subject in Popular Culture
Units: 4 Terms Offered: FaSp Addresses relationships among contemporary art, design and popular culture, with a focus on specific visual media and their histories. *Recommended Preparation:* CRIT 150gp, CRIT 160g, CRIT 350gw or permission of instructor Instruction Mode: Lecture Grading Option: Letter

CRIT 425 Identity and Visual Representation
Units: 4 A critical study of the relationship between identity or coalitional politics and specific practices, meanings, and sitings of contemporary art and design. *Recommended Preparation:* CRIT 150gp, CRIT 160g, CRIT 350gw or permission of instructor Instruction Mode: Lecture Grading Option: Letter

CRIT 430 Undergrounds and Avant-Gardes: Experimental Art, Design and Film
Units: 4 Terms Offered: FaSpSm Study of theories of critique or resistance in art and cultural studies, particularly in relation to developments in contemporary art, design and popular culture. *Recommended Preparation:* CRIT 150gp, CRIT 160g, CRIT 350gw or permission of instructor Instruction Mode: Lecture Grading Option: Letter

CRIT 435 Alternative Spaces: Art, Design and Visual Culture
Units: 4 Terms Offered: FaSpSm Histories of art and design from alternative points of view, exposing the limits of conventional histories of art and design. *Recommended Preparation:* CRIT 150gp, CRIT 160g, CRIT 350gw or permission of instructor Instruction Mode: Lecture Grading Option: Letter

CRIT 440 Curatorial Issues: from the Art Gallery to Social Media
Units: 4 Terms Offered: FaSpSm History and theory of curating, exhibitions, and museums, critically examining the historical structures and current politics informing contemporary practices and institutions. *Recommended Preparation:* CRIT 150gp, CRIT 160g, CRIT 350gw or permission of instructor Instruction Mode: Lecture Grading Option: Letter

CRIT 445 Art and Design in the Public Realm
Units: 4 Terms Offered: FaSpSm Focuses on contemporary artistic and design practices in relation to questions of the public sphere and audience, addressing topics from public art to social practice. *Recommended Preparation:* CRIT 150gp, CRIT 160g, CRIT 350gw or permission of instructor Instruction Mode: Lecture Grading Option: Letter

CRIT 450 Visualizing the City: Los Angeles
Units: 4 Terms Offered: FaSpSm Explores the relationships among art, design, visual culture, urban spaces and institutions, through urban, social and visual theory. *Recommended Preparation:* CRIT 150gp, CRIT 160g, CRIT 350gw or permission of instructor Instruction Mode: Lecture Grading Option: Letter

CRIT 455 Digital Media, Art and Theory
Units: 4 Terms Offered: FaSpSm An investigation into the non-indexical or non-photographic moving image and the expanded field of digital media in the 21st century starting with animation. *Recommended Preparation:* Basic understanding of 20th century art history and some experience reading and discussing critical theory Instruction Mode: Lecture Grading Option: Letter

CRIT 499 Special Topics
Units: 1, 2, 3, 4, 5, 6, 7, 8 Max Units: 8.0 Terms Offered: FaSpSm Comprehensive exploration of particular aspects of public art. Duplicates Credit in former PAS 499. Instruction Mode: Lecture Grading Option: Letter

CRIT 500 Theory and History of Performance Studies
Units: 4 Terms Offered: FaSp Exploration of the various theories and methodologies associated with performance and visual studies as interrelated with the histories of practice in these fields. Registration Restriction: Open only to graduate students Instruction Mode: Lecture Grading Option: Letter

CRIT 510 History and Theory of Art and Exhibitions
Units: 4 Terms Offered: Fa Gives broad and deep overview of history of "art" as a conceptual and practical category, emphasizing development of exhibitionary sites and engagement with public sphere. Instruction Mode: Lecture Grading Option: Letter

CRIT 512 Art and Curatorial Visits
Units: 2 Terms Offered: Fa Site visits relating to art and curatorial practices, from art museums and artists' studios to public art offices and performance venues, and meet professionals. Instruction Mode: Lecture Grading Option: Letter

CRIT 515 Visiting Artist and Scholar Seminar
Units: 2 Max Units: 4.0 Terms Offered: FaSp (Enroll in ART 515)

CRIT 520 Performing Identity
Units: 4 Terms Offered: FaSpSm The history and theory of identity politics in relation to performance and performativity, with a focus on post-1950 Euro-American

culture. Instruction Mode: Lecture Grading Option: Letter

CRIT 525 Making and Curating Art: Pedagogy and Praxis
Units: 4 Terms Offered: Sp Provides students with a foundation in the history and theory of studio art and curatorial education and develops their teaching skills in these areas. Instruction Mode: Lecture Grading Option: Letter Crosslisted as ART-525

CRIT 530 Art and Globalization
Units: 4 Terms Offered: SpSm (Enroll in ART 530)

CRIT 540 Contemporary Asian Art
Units: 4 Terms Offered: FaSpSm Explores contemporary Asian art and visual culture in global contexts. Instruction Mode: Lecture Grading Option: Letter

CRIT 550 Contemporary Art and its Publics
Units: 4 Terms Offered: FaSpSm Contemporary art practices and issues of display, exhibition, dissemination, community and audience, in relation to art and politics. Instruction Mode: Lecture Grading Option: Letter

CRIT 555 Methods of Curating: Introduction to Curatorial Practicum
Units: 4 Terms Offered: Sp First in a sequence of three courses on history/theory of curatorial methods, with practical experience necessary to mounting exhibitions and devising interfaces with the public. Duplicates Credit in PAS 555a. Instruction Mode: Lecture Grading Option: Letter

CRIT 556 Curatorial Practicum: Individual/Group Projects
Units: 4 Terms Offered: Fa Second in a sequence of three courses on history/theory of curatorial methods, with practical experience necessary to mounting exhibitions and devising interfaces with the public. *Prerequisite:* CRIT 555. Duplicates Credit in PAS 555b. Instruction Mode: Lecture Grading Option: Letter

CRIT 557 Curatorial Practicum: Group Project Summation
Units: 4 Terms Offered: Sp Third in a sequence of three courses on history/theory of curatorial methods, with practical experience necessary to mounting exhibitions and devising interfaces with the public. *Prerequisite:* CRIT 556. Duplicates Credit in PAS 555c. Instruction Mode: Lecture Grading Option: Letter

CRIT 560 Visual Theory/Performance Theory
Units: 4 Terms Offered: FaSp Exploration of interrelated themes that examine how the time-based art of theatre intersects with other art forms and surpasses its preexisting boundaries. Registration Restriction: Open only to graduate students Instruction Mode: Lecture Grading Option: Letter

CRIT 570 Performance Theory and Praxis
Units: 4 Terms Offered: FaSp Social Practice as a transitional platform for intersectional themes between visual art, media culture, political advocacy, policy making and public space. Registration Restriction: Open only to graduate students Instruction Mode: Lecture Grading Option: Letter

CRIT 590 Directed Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Terms Offered: FaSpSm Research leading to the master's degree. Maximum units which may be applied to the degree to be determined by the department. Duplicates Credit in former PAS 590. Instruction Mode: Lecture Grading Option: Credit/No Credit

CRIT 591 Field Internship Experience
Units: 1 Max Units: 2.0 Terms Offered: FaSpSm Supervised internship in an art institution or an art agency, or with an independent curator or artist, on projects and research specific to public space. *Recommended Preparation:* Completion of first year of courses. Duplicates Credit in former PAS 591. Instruction Mode: Lecture Grading Option: Credit/No Credit

CRIT 594a Master's Thesis
Units: 2 Terms Offered: FaSpSm Credit on acceptance of thesis. *Recommended Preparation:* 28 units of coursework. Duplicates Credit in former PAS 594abz. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

CRIT 594b Master's Thesis
Units: 2 Terms Offered: FaSpSm Credit on acceptance of thesis. *Recommended Preparation:* 28 units of coursework. Duplicates Credit in former PAS 594abz. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

CRIT 594z Master's Thesis
Units: 0 Terms Offered: FaSpSm Credit on acceptance of thesis. *Recommended Preparation:* 28 units of coursework. Duplicates Credit in former PAS 594abz. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

CRIT 599 Special Topics
Units: 1, 2, 3, 4, 5, 6, 7, 8 Max Units: 8.0 Terms Offered: FaSpSm Selected topics in various specialty areas of public art. Duplicates Credit in former PAS 599. Instruction Mode: Lecture Grading Option: Letter

Computer Science

CSCI 100xg Explorations in Computing
Units: 4 A behind-the-scenes overview of the computational/algorithmic principles that form the basis of today's digital society. Exploration areas include social media, web search, videogames and location-based services. Satisfies New General Education in Category F: Quantitative Reasoning Instruction Mode: Lecture, Lab Grading Option: Letter

CSCI 101L Fundamentals of Computer Programming
Units: 3 Terms Offered: FaSp Introduction to the design of solutions to computer solvable problems. Algorithm design, solution implementation using a high-level programming language, program correctness and verification. Instruction Mode: Lecture, Lab Required Grading Option: Letter

CSCI 102L Fundamentals of Computation
Units: 2 Fundamental concepts of algorithmic thinking as a primer to programming. Introduction to C++. Instruction Mode: Lecture, Lab Required, Quiz Grading Option: Letter

CSCI 103L Introduction to Programming
Units: 4 Terms Offered: FaSp Basic datatypes, assignments, control statements (if, switch, for, while), input/output (printf, scanf, cin, cout), functions, arrays, structures, recursion, dynamic memory, file handling. Programming in C/C++. *Prerequisite:* CSCI 102L Instruction Mode: Lecture, Lab Required, Quiz Grading Option: Letter

CSCI 104L Data Structures and Object Oriented Design
Units: 4 Terms Offered: FaSp Introduces the student to standard data structures (linear structures such as linked lists, (balanced) trees, priority queues, and hashtables), using the C++ programming language. *Prerequisite:* CSCI 103L and CSCI 170 Instruction Mode: Lecture, Lab Required, Quiz Grading Option: Letter

CSCI 109 Introduction to Computer Science
Units: 2 Terms Offered: FaSp An introduction to, and overview of, Computer Science; both as a discipline and a body of knowledge. Instruction Mode: Lecture Grading Option: Letter

CSCI 110 Introduction to Digital Logic
Units: 3 (Enroll in EE 101)

CSCI 170 Discrete Methods in Computer Science
Units: 4 Terms Offered: FaSp Sets, functions, series. Big-O notation and algorithm analysis. Propositional and first-order logic. Counting and discrete probability. Graphs and basic graph algorithms. Basic number theory. *Prerequisite:* CSCI 102L Instruction Mode: Lecture, Discussion, Quiz Grading Option: Letter

CSCI 201L Principles of Software Development
Units: 4 Terms Offered: FaSp Object-oriented paradigm for programming in-the-large in Java; writing sophisticated concurrent applications with animation and graphic user interfaces; using professional tools on team project. *Prerequisite:* CSCI 104L.

CSCI 270 Introduction to Algorithms and Theory of Computing
Units: 4 Terms Offered: FaSpSm Algorithm analysis. Greedy algorithms, divide and conquer, dynamic programming, graph algorithms. NP-completeness and basic recursion theory and undecidability. Sorting lower bounds. Number-theory based cryptography. *Prerequisite:* CSCI 104L and CSCI 170 Duplicates Credit in former CSCI 303 Instruction Mode: Lecture, Discussion, Quiz Grading Option: Letter

CSCI 280 Video Game Production
Units: 4 Terms Offered: FaSpSm (Enroll in ITP 280)

CSCI 281 Pipelines for Games and Interactives
Units: 4 Terms Offered: FaSp Explores the aesthetic development/technical implementation necessary to achieve unique, compelling, intuitive visual design in games. Students will develop group visual game design portfolios. Instruction Mode: Lecture Grading Option: Letter

CSCI 310 Software Engineering
Units: 4 Terms Offered: Sp Introduction to the software engineering process

and software lifecycle. Covers project management, requirements, architecture, design, implementation, testing, and maintenance phase activities in team based projects. *Prerequisite:* CSCI 201L Duplicates Credit in former CSCI 377 Instruction Mode: Lecture Grading Option: Letter

CSCI 350 Introduction to Operating Systems
Units: 4 Basic issues in concurrency, deadlock control, synchronization scheduling, memory management, protection and access control, inter-process communication, and structured design. Laboratory experiences with Unix-like operating system. Duplicates credit in CSCI 402. *Prerequisite:* CSCI 201L and (CSCI 356 or EE 354L) Duplicates Credit in CSCI 402 Instruction Mode: Lecture, Quiz Grading Option: Letter

CSCI 352L Computer Organization and Architecture
Units: 3 Terms Offered: Sp (Enroll in EE 352L)

CSCI 353 Introduction to Internetworking
Units: 4 Global Internet: design principles, layering, protocol design/analysis. Networked applications, Internet structure/ architecture, Protocols for transport/ congestion control, network layer/ routing, link layer/MAC. Network security. *Prerequisite:* CSCI 201; *Recommended Preparation:* Familiarity with C and C++. Duplicates Credit in EE 450. Instruction Mode: Lecture, Discussion Grading Option: Letter

CSCI 356 Introduction to Computer Systems
Units: 4 Computer organization; entity abstraction and representation; program execution; code optimization; memory usage; exception handling; processing control; computer performance; hands-on work done in C and assembly. *Prerequisite:* CSCI 104L *Recommended Preparation:* Familiarity with memory management and parameter passing used in the C++ programming language Duplicates Credit in EE 352L Instruction Mode: Lecture, Discussion Grading Option: Letter

CSCI 360 Introduction to Artificial Intelligence
Units: 4 Concepts and algorithms underlying the understanding and construction of intelligent systems. Agents, problem solving, search, representation, reasoning, planning, machine learning. *Prerequisite:* CSCI 104L and CSCI 170 Duplicates Credit in former CSCI 460 Instruction Mode: Lecture Grading Option: Letter

CSCI 368 Programming Graphical User Interfaces
Units: 4 Terms Offered: FaSp (Enroll in ITP 368)

CSCI 380 Video Game Programming
Units: 4 Terms Offered: FaSpSm (Enroll in ITP 380)

CSCI 390 Special Problems
Units: 1, 2, 3, 4 Supervised, individual studies. No more than one registration permitted. Enrollment by petition only. Instruction Mode: Lecture Grading Option: Letter

CSCI 401 Capstone: Design and Construction of Large Software Systems
Units: 4 Max Units: max 8 Terms Offered: FaSp Group project with an outside stakeholder to develop real-world software solutions to large-scale problems. Topics include software engineering, professional preparation, and recent computer science research. *Prerequisite:* CSCI 270 and CSCI 310 Duplicates Credit in the former CSCI 477a and CSCI 477b Instruction Mode: Lecture Grading Option: Letter

CSCI 402 Operating Systems
Units: 4 Terms Offered: FaSpSm Concurrency, deadlock control, synchronization, process and thread scheduling, memory management, file systems, security and access control, communication and networking, distributed file systems, data management. *Recommended Preparation:* CSCI 201L or CSCI 455x; CSCI 356 or EE 352L Duplicates Credit in CSCI 350 Instruction Mode: Lecture, Discussion Grading Option: Letter

CSCI 404 Capstone: Creating Your High-Tech Startup
Units: 4 Capstone class in which students create their own technology startup, leveraging comprehensive CS knowledge and best industry practices. *Prerequisite:* CSCI 201 and CSCI 270 and ITP 466 Instruction Mode: Lecture Grading Option: Letter

CSCI 410x Translation of Programming Languages
Units: 3 Concepts of assemblers, compilers, interpreters and their design; macro assemblers, Polish notation and translation techniques; operator precedence parsing, push down automata, code generation. *Prerequisite:* CSCI 201L Credit Restriction: Not available for graduate credit to computer science majors Instruction Mode: Lecture Grading Option: Letter

CSCI 420 Computer Graphics
Units: 4 Terms Offered: FaSp Computer graphics, OpenGL, 2D and 3D transformations, Bézier splines, computer animation, rendering including ray tracing, shading and lighting, artistic rendering, virtual reality, visualization. *Prerequisite:* CSCI 104L and (MATH 225 or (EE 141L and (MATH 126 or MATH 127 or MATH 129))) Instruction Mode: Lecture, Discussion Grading Option: Letter

CSCI 423 Native Console Multiplayer Game Development
Units: 4 Implementation of AAA style multiplayer game running on consoles and DX11. Console development in native C++, console SDKs, engine components, gameplay, networking, data prediction/ replication. *Prerequisite:* CSCI 522 or ITP 380; *Recommended Preparation:* ITP 485. Instruction Mode: Lecture Grading Option: Letter

CSCI 426 Game Prototyping
Units: 4 Developing games or technology based on current and relevant special topics. Instruction Mode: Lecture Grading Option: Letter

CSCI 430 Introduction to Computer and Network Security
Units: 4 Terms Offered: Sp A broad overview of security threats and defenses, security systems and functionalities, as well as current security practices. Includes homeworks and in-class exercises to provide practical experience working with such systems. *Prerequisite:* CSCI 201. Instruction Mode: Lecture Grading Option: Letter

CSCI 435 Professional C++
Units: 4 Terms Offered: FaSp (Enroll in ITP 435)

CSCI 439 Compiler Development
Units: 4 Terms Offered: Sp (Enroll in ITP 439)

CSCI 445L Introduction to Robotics
Units: 4 Terms Offered: FaSpSm Designing, building and programming mobile robots; sensors, effectors, basic control theory, control architectures, some advanced topics, illustrations of state-of-theart. Teamwork; final project tested in a robot contest. *Prerequisite:* CSCI 103. Instruction Mode: Lecture, Lab Required Grading Option: Letter Crosslisted as EE-445

CSCI 450 Introduction to Computer Networks
Units: 4 Terms Offered: FaSpSm (Enroll in EE 450)

CSCI 452 Parallel and Distributed Computation
Units: 4 (Enroll in EE 451)

CSCI 454L Introduction to System-on-Chip
Units: 4 Terms Offered: Fa (Enroll in EE 454L)

CSCI 455x Introduction to Programming Systems Design
Units: 4 Terms Offered: FaSp Intensive introduction to programming principles, discrete mathematics for computing, software design and software engineering concepts. *Prerequisite:* departmental approval. Instruction Mode: Lecture, Lab Grading Option: Letter Crosslisted as EE-455

CSCI 457 Computer Systems Organization
Units: 3 (Enroll in EE 457)

CSCI 458 Numerical Methods
Units: 4 (Enroll in MATH 458)

CSCI 459 Computer Systems and Applications Modeling Fundamentals
Units: 3 Terms Offered: Sp Techniques and tools needed to construct/evaluate models of computer systems and applications. Analytical and simulation methods, capacity planning, performance/reliability evaluation, and decision-making. *Prerequisite:* MATH 225, CSCI 201. Instruction Mode: Lecture Grading Option: Letter

CSCI 461 Artificial Intelligence for Sustainable Development
Units: 4 Terms Offered: FaSp Hands-on AI: data mining, machine learning, optimization and fairness in the context of applications with environmental and societal benefit. *Prerequisite:* CSCI 270 and (CSCI 360 or CSCI 467) *Recommended Preparation:* Python programming skills> Courses that use Python (depending on instructor) include: CSCI 353, CSCI 360, CSCI 445L, EE 250L, EE 364, ITP 115, and ITP 116 . Instruction Mode: Lecture Grading Option: Letter

CSCI 467 Introduction to Machine Learning
Units: 4 Methods for building intelligent and

adaptive systems from statistical analyses; theoretical understanding of such methods and the computational implications. *Prerequisite:* (CSCI 270 and MATH 225) and (EE 364 or MATH 407) *Recommended Preparation:* CSCI 360, comfortable with mathematical derivations, such as those in MATH 225; comfortable with manipulating vectors and matrices Instruction Mode: Lecture, Discussion Grading Option: Letter

CSCI 475 Theory of Computation
Units: 4 Terms Offered: Fa History of the theory of computing, foundational theorems and theoretical frameworks of computer science, solvable and unsolvable problems. *Prerequisite:* CSCI 270 Instruction Mode: Lecture Grading Option: Letter

CSCI 476 Cryptography: Secure Communication and Computation
Units: 4 Introduction to modern Cryptography; mathematical / algorithmic studies of methods for protecting information in computer and communication systems: Public-Key Cryptosystems, zero-knowledge proofs, data privacy. *Prerequisite:* CSCI 270. Instruction Mode: Lecture Grading Option: Letter

CSCI 477 Concepts of Programming Languages
Units: 4 Terms Offered: FaSp The history and means of describing programming languages, means of control in modern languages and alternate programming language paradigms. *Prerequisite:* CSCI 201L Instruction Mode: Lecture Grading Option: Letter

CSCI 485 File and Database Management
Units: 4 Terms Offered: FaSp File input/output techniques, basic methods for file organization, file managers, principles of databases, conceptual data models, and query languages. *Prerequisite:* CSCI 201 Instruction Mode: Lecture Grading Option: Letter

CSCI 487 Programming Game Engines
Units: 4 Terms Offered: FaSp (Enroll in ITP 485)

CSCI 490x Directed Research
Units: 1, 2, 3, 4, 5, 6, 7, 8 Max Units: 12.0 Individual research and readings. Instruction Mode: Lecture Grading Option: Letter

CSCI 491aL Final Game Project
Units: 4 Terms Offered: FaSpSm Design, iterative prototyping, and development of a 1st playable level. Registration Restriction: Open only to seniors. Instruction Mode: Lecture, Lab Required Grading Option: Letter

CSCI 491bL Final Game Project
Units: 2 Terms Offered: FaSpSm Design, iterative stage 2 prototyping and development of a refined game. Instruction Mode: Lecture, Lab Required Grading Option: Letter

CSCI 495 Senior Project
Units: 3 (Enroll in PHYS 495)

CSCI 499 Special Topics
Units: 2, 3, 4 Max Units: 08 Selected topics in computer science. Instruction Mode: Lecture, Discussion Grading Option: Letter

CSCI 501 Numerical Analysis and Computation
Units: 3 (Enroll in MATH 501)

CSCI 502a Numerical Analysis
Units: 3 (Enroll in MATH 502a)

CSCI 502b Numerical Analysis
Units: 3 (Enroll in MATH 502b)

CSCI 504a Numerical Solutions of Ordinary and Partial Differential Equations
Units: 3 (Enroll in MATH 504a)

CSCI 504b Numerical Solutions of Ordinary and Partial Differential Equations
Units: 3 (Enroll in MATH 504b)

CSCI 505a Applied Probability
Units: 3 (Enroll in MATH 505a)

CSCI 505b Applied Probability
Units: 3 (Enroll in MATH 505b)

CSCI 510 Software Management and Economics
Units: 4 Theories of management and their application to software projects. Economic analysis of software products and processes. Software cost and schedule estimation, planning and control. Instruction Mode: Lecture Grading Option: Letter Crosslisted as ISE 512

CSCI 511 Personal Software Process (PSP) and Project
Units: 3 Terms Offered: Sp Individual analysis, planning, development and maintenance of a software product or development artifact, using the principles and practices of PSP. Analysis of project's lessons learned. Instruction Mode: Lecture Grading Option: Letter

CSCI 512 Testing and Analysis of Software Systems
Units: 4 Introduces students to the topic of automated testing and analysis of large-scale modern software systems. *Recommended Preparation:* CSCI 571; Java programming skills; Linux system administration. Instruction Mode: Lecture Grading Option: Letter

CSCI 513 Autonomous Cyber-Physical Systems
Units: 4 Terms Offered: FaSp Components, software and applications of cyber-physical systems; autonomy; control techniques; development and testing; artificial intelligence and machine learning algorithms. *Recommended Preparation:* Fundamentals of control and automata theory; familiarity with Matlab, Simulink, and R Instruction Mode: Lecture Grading Option: Letter

CSCI 520 Computer Animation and Simulation
Units: 4 Fundamental techniques of computer animation and simulation, knowledge and/or experience in the design, scripting, production and post-production stages of computer animation. *Prerequisite:* CSCI 420 or CSCI 580 *Recommended Preparation:* Familiarity with calculus, linear algebra, and numerical computation; C/C++ programming skills Instruction Mode: Lecture Grading Option: Letter

CSCI 521 Optimization: Theory and Algorithms
Units: 3 Terms Offered: Fa (Enroll in ISE 520)

CSCI 522 Game Engine Development
Units: 4 Terms Offered: Fa The principles of developing game engines targeted at modern PC and game console hardware. Instruction Mode: Lecture Grading Option: Letter

CSCI 523L Networked Games
Units: 4 Terms Offered: FaSpSm Design and implementation of networked games, from the origins of the supporting technologies in distributed systems, visual simulations, networked virtual environments, and shipped games. *Recommended Preparation:* CSCI 420 or CSCI 580 or an equivalent course in graphics. Instruction Mode: Lecture, Lab Required Grading Option: Letter

CSCI 524 Networked Artificial Intelligence
Units: 4 Networked game communication architectures, protocol development, architecting networked game AI clients/services. Character following, knowledge representation and reasoning, dynamic play strategies, search, learning, and planning. *Recommended Preparation:* CSCI 420 or CSCI 580 or an equivalent course in graphics Instruction Mode: Lecture, Lab Grading Option: Letter

CSCI 526 Advanced Mobile Devices and Game Consoles
Units: 4 Terms Offered: FaSpSm Explore the complex engineering process required to design and build a real-time graphics engine to support physical realism on mobile devices. *Recommended Preparation:* CSCI 420 or CSCI 580 or an equivalent course in graphics Instruction Mode: Lecture, Lab Required Grading Option: Letter

CSCI 527 Applied Machine Learning for Games
Units: 4 Terms Offered: FaSp Application of machine learning for AI-bot creation, gameplay analysis, and real-time game player understanding. Duplicates credit in CSCI 566 Deep Learning and Its Applications. *Prerequisite:* CSCI 561 or CSCI 567 Duplicates Credit in CSCI 566 Instruction Mode: Lecture Grading Option: Letter

CSCI 529a Advanced Game Projects
Units: 4 Terms Offered: FaSp Team projects intended to address the multifaceted technical and creative challenges that are inherent to comprehensive game development. *Recommended Preparation:* CSCI 522 or CTIN 488. Instruction Mode: Lecture Grading Option: Letter

CSCI 529b Advanced Game Projects
Units: 2 Terms Offered: FaSpSm Provides students in various areas of game specialization the practice of design, iterative stage 2 prototyping and development of a refined game. *Prerequisite:* CSCI 529a Instruction Mode: Lecture, Lab Grading Option: Letter

CSCI 530 Security Systems
Units: 4 Terms Offered: FaSp Protecting computer networks and systems using cryptography, authentication, authorization, intrusion detection and response. Includes lab to provide practical experience working with such systems. *Prerequisite:* CSCI 402. Instruction Mode: Lecture Grading Option: Letter

CSCI 531 Applied Cryptography
Units: 4 Intensive overview of cryptography for practitioners, historical perspective on early systems, number theoretic foundations of modern day cryptosystems

and basic cryptanalysis. *Recommended Preparation:* Programming in C/C++ (CSCI 103), Data structures (CSCI 104) Instruction Mode: Lecture, Discussion Grading Option: Letter

CSCI 532 Innovation for Defense Applications
Units: 4 Terms Offered: FaSp Development of problem statements and innovative software prototypes for defense, intelligence and homeland security applications; team projects; hands-on experience. *Recommended Preparation:* An introductory programming class such as CSCI 103L and the ability to write short programs or scripts to manipulate data. Instruction Mode: Lecture Grading Option: Letter

CSCI 533 Algebraic Combinatorics
Units: 3 Terms Offered: Irregular (Enroll in MATH 533)

CSCI 534 Affective Computing
Units: 4 Terms Offered: Sp Overview of the theory of human emotion, techniques for recognizing and synthesizing emotional behavior, and design application. *Recommended Preparation:* CSCI 561 Instruction Mode: Lecture Grading Option: Letter Crosslisted as PSYC 532

CSCI 535 Multimodal Probabilistic Learning of Human Communication
Units: 4 Principles and techniques to understand, build, and utilize multimodal machine learning algorithms through automatically understanding, recognizing, and analyzing phenomena of human communication. *Recommended Preparation:* CSCI 542 or CSCI 567 or CSCI 573 or equivalent Instruction Mode: Lecture Grading Option: Letter

CSCI 536 Linear Programming and Extensions
Units: 3 Terms Offered: Fa (Enroll in ISE 536)

CSCI 538 Augmented, Virtual and Mixed Reality
Units: 4 Terms Offered: FaSp Technical design and implementation of immersive environments; visual simulations, interactive 3D graphics and games. *Recommended Preparation:* CSCI 420 or CSCI 580 Instruction Mode: Lecture, Lab Grading Option: Letter

CSCI 540 Self-Organization
Units: 4 Massively distributed systems whose global behavior emerges from local interactions of components. Global to local compilation; robot swarms; formation of shapes/spatial patterns; self-assembly; programmable matter. Registration Restriction: Graduate standing in science or engineering Instruction Mode: Lecture Grading Option: Letter

CSCI 542 Neural Computation with Artificial Neural Networks
Units: 3 Terms Offered: Sp Computation and adaptation in networks of interconnected distributed processing units; classical and statistical approaches to neural nets; state of-the-art neural network research. *Recommended Preparation:* basic statistics, linear algebra. Instruction Mode: Lecture Grading Option: Letter

CSCI 544 Applied Natural Language Processing
Units: 4 Introduction to key components of human language technologies, including: information extraction, sentiment analysis, question answering, machine translation. *Recommended Preparation:* proficiency in programming, algorithms and data structures, basic knowledge of linear algebra. Instruction Mode: Lecture Grading Option: Letter

CSCI 545 Robotics
Units: 4 Terms Offered: FaSpSm Fundamental skills for modeling and controlling of dynamic systems for robotic applications and graphics animations; control theory; kinematics; dynamics; sensor processing; real-time operating systems; robot labs. *Recommended Preparation:* Basic knowledge in linear algebra (matrices and vectors), calculus, programming in C/C++ or any another language or permission of the instructor Instruction Mode: Lecture, Lab Grading Option: Letter Crosslisted as EE-545

CSCI 548 Information Integration on the Web
Units: 4 Terms Offered: FaSpSm Foundations and techniques in information integration as it applies to the Web, including view integration, wrapper learning, record linkage, and streaming dataflow execution. *Prerequisite:* CSCI 561 *Recommended Preparation:* CSCI 585 and some programming experience Instruction Mode: Lecture Grading Option: Letter

CSCI 549 Nanorobotics
Units: 3 Terms Offered: Sp Introduction to nanotechnology. Nanorobotic systems: sensing; actuation and propulsion; control; communication; power; programming and coordination of robot swarms. Nanomanipulation and nanoassembly with atomic force microscopes. Instruction Mode: Lecture Grading Option: Letter

CSCI 550 Advanced Data Stores
Units: 4 Selected topics on highly available, elastic data stores. Topics include non-relational data models, simple interfaces and query languages, weak consistency and benchmarking techniques. *Prerequisite:* CSCI 485 or CSCI 585 Instruction Mode: Lecture Grading Option: Letter

CSCI 551 Computer Networking
Units: 4 Protocol design for computer communication networks, network routing, transport protocols, internetworking. *Prerequisite:* CSCI 350 (CSCI 353 or EE 450) and (CSCI 350 or CSCI 402) *Recommended Preparation:* C-language programming Instruction Mode: Lecture, Quiz Grading Option: Letter

CSCI 552 Asynchronous VLSI Design
Units: 3 (Enroll in EE 552)

CSCI 553 Computational Solution of Optimization Problems
Units: 3 Terms Offered: Sp (Enroll in EE 553)

CSCI 554 Cyber-Physical Systems: A Computing Perspective
Units: 4 Terms Offered: Sp (Enroll in EE 554)

CSCI 555L Advanced Operating Systems
Units: 4 Advanced topics in operating system research: new OS structures, novel memory management, communication, file system, process management, reliability and security techniques. *Prerequisite:* CSCI 350 or CSCI 402 Instruction Mode: Lecture, Lab Required Grading Option: Letter

CSCI 556 Introduction to Cryptography
Units: 4 Modern secret codes. Public key cryptosystems of Rivest- Shamir-Adleman, Diffie-Hellman and others. The underlying number theory and computational complexity theory. *Prerequisite:* CSCI 570 or CSCI 581 Instruction Mode: Lecture Grading Option: Letter

CSCI 557 Computer Systems Architecture
Units: 4 Terms Offered: FaSp (Enroll in EE 557)

CSCI 558L Internetworking and Distributed Systems Laboratory
Units: 3 Terms Offered: FaSp Students complete laboratory exercises in operating system and network management, distributed systems, TCP/IP, SNMP, NFS, DNS, etc. Term project required. *Prerequisite:* CSCI 402 and EE 450/CSCI 450; *Recommended Preparation:* CSCI 551 and CSCI 555. Instruction Mode: Lecture, Lab Required Grading Option: Letter

CSCI 559 Machine Learning I: Supervised Methods
Units: 4 Terms Offered: Sp (Enroll in EE 559)

CSCI 561 Foundations of Artificial Intelligence
Units: 4 Terms Offered: FaSpSm Foundations of symbolic intelligent systems, search, logic, knowledge representation, planning, learning. *Recommended Preparation:* good programming and algorithm analysis skills Instruction Mode: Lecture, Discussion, Quiz Grading Option: Letter Crosslisted as EE 561

CSCI 563 Building Knowledge Graphs
Units: 4 Terms Offered: FaSp (Enroll in DSCI 558)

CSCI 564 Brain Theory and Artificial Intelligence
Units: 3 Terms Offered: Fa Introduces neural modeling, distributed artificial intelligence and robotics approaches to vision, motor control and memory. *Prerequisite:* graduate standing. Instruction Mode: Lecture Grading Option: Letter Crosslisted as NEUR-535

CSCI 565 Compiler Design
Units: 4 Terms Offered: Sp Formal grammar; parsing methods and lexical analysis; code generation; local and global code optimization; and dynamic allocation. *Prerequisite:* CSCI 455x. Instruction Mode: Lecture Grading Option: Letter

CSCI 566 Deep Learning and Its Applications
Units: 4 Terms Offered: Fa Deep learning research in computer vision, natural language processing and robotics; neural networks; deep learning algorithms, tools and software. *Recommended Preparation:* CSCI 567, Python programming, calculus, linear algebra, probability and statistics, knowledge of machine learning Duplicates Credit in CSCI 527 Instruction Mode: Lecture Grading Option: Letter

CSCI 567 Machine Learning
Units: 4 Terms Offered: Fa Statistical methods for building intelligent and adaptive systems that improve performance from experiences; focus on theoretical understanding of these methods and their

computational implications. *Recommended Preparation:* Undergraduate level training or course work in linear algebra, multivariate calculus, basic probability and statistics; an undergraduate level course in Artificial Intelligence may be helpful but is not required. Instruction Mode: Lecture, Discussion Grading Option: Letter Crosslisted as ISE-568

CSCI 568 Requirements Engineering
Units: 4 Techniques for successful requirements analysis and requirements engineering (RE) of software-intensive systems. Systematic process of developing requirements through cooperative problem analysis, representation, and validation. *Prerequisite:* CSCI 577a Instruction Mode: Lecture Grading Option: Letter

CSCI 569 Social Media Analytics
Units: 4 Introduction to quantitative analysis of social data. Topics include social network analysis, text analysis, machine learning and statistical methods and they are used to study influence, information diffusion, sentiment analysis and prediction of individual and social behavior online. *Recommended Preparation:* statistics, AI and/or machine learning, knowledge of at least one programming language (Java, C++, Python) Instruction Mode: Lecture Grading Option: Letter

CSCI 570 Analysis of Algorithms
Units: 4 Terms Offered: FaSpSm Explores fundamental techniques such as recursion, Fourier transform ordering, dynamic programming for efficient algorithm construction. Examples include arithmetic, algebraic, graph, pattern matching, sorting, searching algorithms. Instruction Mode: Lecture Grading Option: Letter

CSCI 571 Web Technologies
Units: 4 Terms Offered: FaSpSm Advanced study of programming languages with application to the Web. Languages for client-side and server-side processing. Examples taken from: HTML, Java, JavaScript, Perl, XML and others. *Recommended Preparation:* knowledge of at least two programming languages. Instruction Mode: Lecture Grading Option: Letter

CSCI 572 Information Retrieval and Web Search Engines
Units: 4 Terms Offered: FaSpSm Examines key aspects of information retrieval as they apply to search engines; web crawling, indexing, querying and quality of results are studied. *Recommended Preparation:* Familiarity in programming in multiple languages, C, C++, and/or Java and experience with a database Instruction Mode: Lecture Grading Option: Letter

CSCI 573 Probabilistic Reasoning
Units: 3 Terms Offered: Fa Reasoning under uncertainty, statistical directed and undirected graphical models, temporal modeling, inference in graphical models, parameter learning, decisions under uncertainty. *Recommended Preparation:* An undergraduate level course in probability theory. Instruction Mode: Lecture Grading Option: Letter Crosslisted as ISE-574

CSCI 574 Computer Vision
Units: 3 Terms Offered: Fa Description and recognition of objects, shape analysis, edge and region segmentation, texture, knowledge based systems, image understanding. *Prerequisite:* CSCI 455x. Instruction Mode: Lecture Grading Option: Letter Crosslisted as EE-574

CSCI 576 Multimedia Systems Design
Units: 4 End-to-end multimedia systems-content creation, compression, distribution using modern standards, DRM solutions, Digital-Cinema pipeline, multimedia classification, virtual-augmented reality, natural-language multimedia queries, multimodal media analysis, stereoscopic-holographic technologies. *Recommended Preparation:* familiarity with C or C++ Instruction Mode: Lecture Grading Option: Letter

CSCI 577a Software Engineering
Units: 4 Terms Offered: FaSp Software life cycle processes; planning considerations for product definition, development, test, implementation, maintenance. Software requirements elicitation and architecture synthesis. Team project. *Prerequisite:* graduate standing. Instruction Mode: Lecture Grading Option: Letter

CSCI 577b Software Engineering
Units: 4 Terms Offered: FaSp Software development, test, implementation, and maintenance methods. CASE tools and software environments. Software product engineering, configuration management, quality engineering, documentation. Application via projects. *Prerequisite:* CSCI 577a. Instruction Mode: Lecture Grading Option: Letter

CSCI 578 Software Architectures
Units: 4 Study of concepts, principles and scope of software system architectures, including architectural styles, languages, connectors, middleware, dynamism, analysis, testing and domain-specific approaches. Instruction Mode: Lecture Grading Option: Letter

CSCI 580 3-D Graphics and Rendering
Units: 4 Course outlines the process of creating images from 3D models. Includes transformations, shading, lighting, rastorization, texturing, and other topics. Instruction Mode: Lecture, Discussion Grading Option: Letter

CSCI 581 Logic and its Applications
Units: 3 Formal systems, first order logic, truth, completeness, compactness, Godel incompleteness, recursive functions, undecidability. Selected applications, e.g., theorem proving, artificial intelligence, program verification, databases, computational complexity. *Prerequisite:* CSCI 430 and MATH 470. Instruction Mode: Lecture Grading Option: Letter

CSCI 582 Geometric Modeling
Units: 3 Terms Offered: Sp Mathematical models and computer representations for three-dimensional solids; underlying topics from set theory, geometry, and topology. Fundamental algorithms; applications to CAD/CAM and robotics. *Recommended Preparation:* Linear algebra and data structures. Instruction Mode: Lecture Grading Option: Letter

CSCI 583 Machine Learning Theory
Units: 4 Developing the core concepts and techniques, inherent abilities, and limitations of learning algorithms in well-defined learning models. *Recommended Preparation:* CSCI 270, CSCI 567 Instruction Mode: Lecture Grading Option: Letter

CSCI 585 Database Systems
Units: 4 Terms Offered: FaSpSm Database system architecture; conceptual database models; semantic, object-oriented, logic-based, and relational databases; user and program interfaces; database system implementation; integrity, security, concurrency and recovery. *Recommended Preparation:* Knowledge of relational databases, SQL, relational algebra and physical database design is required Registration Restriction: Open only to graduate students. Instruction Mode: Lecture, Discussion, Quiz Grading Option: Letter

CSCI 586 Database Systems Interoperability
Units: 4 Federated and multi-database systems, database networking, conceptual and schematic diversity, information sharing and exchange, knowledge discovery, performance issues. *Prerequisite:* CSCI 585 Instruction Mode: Lecture Grading Option: Letter

CSCI 587 Geospatial Information Management
Units: 4 Techniques to efficiently store, manipulate, index and query geospatial information in support of real-world geographical and decision-making applications. *Prerequisite:* CSCI 485 or CSCI 585 or SSCI 582 *Recommended Preparation:* Familiarity with conceptual data modeling tools such as Entity-Relationship (ER) data model, logical data models such as the relational and object-relational data model, SQL3 as a commercial query language, normal forms and logical data design. Familiarity with the physical design of a database using persistent data structures such as B+-tree and Hash indexes Instruction Mode: Lecture Grading Option: Letter

CSCI 589 Software Engineering for Embedded Systems
Units: 4 Terms Offered: FaSpSm Software engineering methods and techniques for embedded, resource constrained, and mobile environments. Applications to real-time operating systems and wireless networking systems. Class project. Instruction Mode: Lecture Grading Option: Letter

CSCI 590 Directed Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Research leading to the master's degree. Maximum units which may be applied to the degree to be determined by the department. Instruction Mode: Lecture Grading Option: Credit/No Credit

CSCI 591 Computer Science Research Colloquium
Units: 1 Max Units: 2 Exploration and critical assessment of research activities in computer science. Course will serve as a forum for current research presentations from academia and industry Instruction Mode: Lecture Grading Option: Credit/No Credit

CSCI 593 Mathematical Foundations for System Design: Modeling, Analysis, and Synthesis
Units: 3 (Enroll in EE 581)

CSCI 594a Master's Thesis
Units: 2 Terms Offered: FaSpSm Credit on acceptance of thesis. Instruction Mode:

Lecture Grading Option: In-progress to Credit/No Credit

CSCI 594b Master's Thesis
Units: 2 Terms Offered: FaSpSm Credit on acceptance of thesis. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

CSCI 594z Master's Thesis
Units: 0 Terms Offered: FaSpSm Credit on acceptance of thesis. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

CSCI 596 Scientific Computing and Visualization
Units: 4 Hands-on training on the basics of parallel computing and scientific visualization in the context of computer simulations in science and engineering. *Recommended Preparation:* CSCI 455x and MATH 458. Instruction Mode: Lecture, Discussion Grading Option: Letter

CSCI 598 Professional Writing and Communication for Computer Scientists
Units: 1 Instruction in discipline-specific workplace writing and communication skills for computer science graduate students. Registration Restriction: Open only to graduate students in Computer Science Instruction Mode: Lecture Grading Option: Credit/No Credit

CSCI 599 Special Topics
Units: 2, 3, 4 Max Units: 9.0 Course content to be selected each semester from recent developments in computer science. Instruction Mode: Lecture Grading Option: Letter

CSCI 610 Advanced Program Analysis and Verification
Units: 4 Advanced techniques for analyzing and verifying software systems; topics include program analysis, automated verification, and software testing. *Recommended Preparation:* CSCI 512, Java Programming Skills Instruction Mode: Lecture Grading Option: Letter

CSCI 620 Computer Animation and Simulation
Units: 4 Animation and Simulation techniques for computer games, virtual reality, and film visual effects. Research methods, SIGGRAPH papers. Deformable objects, fluids, sound, collision detection, haptics, rigid bodies, GPUs. *Prerequisite:* CSCI 420 or CSCI 520 or CSCI 580 *Recommended Preparation:* Familiarity with calculus, linear algebra, and numerical computation and C++ programming skills Registration Restriction: Open only to doctoral students Instruction Mode: Lecture Grading Option: Letter

CSCI 621 Digital Geometry Processing
Units: 4 Digital geometry processing (subfield of computer graphics), that covers the full pipeline from 3D scanning, processing, to 3D printing. *Recommended Preparation:* Solid background in linear algebra, numerical optimization, and C/C++ programming. CSCI 420 Computer Graphics is recommended. Open only to Computer Science doctoral students. Registration Restriction: Open only to Computer Science doctoral students. Instruction Mode: Lecture Grading Option: Letter

CSCI 625 Program Synthesis and Computer-Aided Verification
Units: 4 Terms Offered: FaSp Introduction to the principles and practices of software verification and program synthesis. *Recommended Preparation:* Knowledge of discrete math and algorithm design. Background in systems and software engineering. Instruction Mode: Lecture Grading Option: Letter

CSCI 631 Privacy in the World of Big Data
Units: 4 Privacy challenges that arise in the world driven by data. An overview of algorithmic and technical approaches to addressing them. *Recommended Preparation:* thorough understanding of algorithms, proof-based mathematics, and basic probability Instruction Mode: Lecture Grading Option: Letter

CSCI 644 Natural Language Dialogue Systems
Units: 4 Computational models of natural language dialogue; conversational interfaces to artificial systems; dialogue system architectures and applications; Reinforcement learning of dialogue policies. *Recommended Preparation:* CSCI 544 or CSCI 561 or CSCI 662 or EE 619; Java, C++ or Python Instruction Mode: Lecture Grading Option: Letter

CSCI 646 Coordinated Mobile Robotics
Units: 4 State-of-the-art techniques for coordinating robot teams. Distributed approaches; task allocation; control and stability; network topology; coverage and monitoring; caging; bio-inspired approaches; persistence; probabilistic methods. *Recommended Preparation:* Solid background in linear algebra, programming and algorithm analysis skills. Registration Restriction: Open only to Computer Science doctoral students. Instruction Mode: Lecture Grading Option: Letter

CSCI 648 Advanced Information Integration
Units: 4 Focus on foundations and techniques for information integration. Topics include Semantic Web, linked data, data integration, entity linkage, source modeling, and information extraction. *Prerequisite:* CSCI 561; *Recommended Preparation:* CSCI 585 and programming experience. Registration Restriction: Open only to Computer Science doctoral students. Instruction Mode: Lecture Grading Option: Letter

CSCI 651 Advanced Computer Networking
Units: 4 Computer communication protocols and systems, including classic and contemporary literature. The emphasis is on conceptual issues in the design and implementation of computer internetworks. *Prerequisite:* EE 450 (CSCI 353 or CSCI 350) and (CSCI 350 or CSCI 402) Registration Restriction: Open to PhD students in Computer Science Instruction Mode: Lecture Grading Option: Letter

CSCI 652 Internet Measurement
Units: 4 The investigation of problems, techniques, results, and challenges that arise in measuring the Internet, including what measurements tell us about the Internet and how to improve Internet services. *Prerequisite:* CSCI 551 Instruction Mode: Lecture Grading Option: Letter

CSCI 653 High Performance Computing and Simulations
Units: 4 Terms Offered: FaSpSm Advanced high-performance computer simulation techniques; multiscale deterministic and stochastic simulation algorithms on parallel and distributed computing platforms; immersive and interactive visualization of simulation data. *Prerequisite:* CSCI 596 Instruction Mode: Lecture, Discussion Grading Option: Letter

CSCI 655 Advanced Topics in Operating Systems
Units: 4 Terms Offered: Fa Advanced OS architectures; methods in design and evaluation of process management and concurrency; reliable distributed file systems; memory management, for cloud and virtualized environments. *Prerequisite:* CSCI 350 or CSCI 402 Instruction Mode: Lecture Grading Option: Letter

CSCI 656 Networked Systems in Cloud Computing
Units: 4 Systems and network design and protocols in cloud computing and data centers networks. *Prerequisite:* CSCI 551 or CSCI 651 Instruction Mode: Lecture Grading Option: Letter

CSCI 657 Advanced Distributed Systems
Units: 4 The foundations and modern applications of distributed systems. Topics include: logical time, fault tolerance, group communication, consensus, consistency, transactions, and peer-to-peer. *Recommended Preparation:* Proficiency in a high-level language, ideally C++, and familiarity with Git. Registration Restriction: Open only to Computer Science doctoral students. Instruction Mode: Lecture Grading Option: Letter

CSCI 658 Diagnosis and Design of Reliable Digital Systems
Units: 3 (Enroll in EE 658)

CSCI 659 Introduction to Online Optimization
Units: 4 Foundation and advances of the theory of online learning/online convex optimization/sequential decision making. *Recommended Preparation:* Familiarity with probability, convex analysis, calculus, and analysis of algorithms Instruction Mode: Lecture Grading Option: Letter

CSCI 662 Advanced Natural Language Processing
Units: 4 Computational models of natural language. Formalisms for describing structures of human language, and algorithms for learning language structures from data. *Recommended Preparation:* proficiency in programming, algorithms and data structures, discrete math, probability theory, and calculus. Registration Restriction: Open only to doctoral students Duplicates Credit in former CSCI 562. Instruction Mode: Lecture Grading Option: Letter

CSCI 663 Artificial Intelligence for Social Good
Units: 4 Terms Offered: Fa Deployment of artificial intelligence tools in various social good contexts such as health, environmental sustainability, public safety and public welfare. *Recommended Preparation:* Familiarity with: linear programming and optimization; Excel, CPLEX, R or other optimization software or statistical analysis techniques; and Amazon

Mechanical Turk Instruction Mode: Lecture Grading Option: Letter

CSCI 668 Search and Planning
Units: 4 Foundations of the design and implementation of search and planning techniques from artificial intelligence, including their theory and applications. *Prerequisite:* CSCI 561 *Recommended Preparation:* undergraduate introduction to algorithms and data structures undergraduate or graduate introduction to artificial intelligence ability to program in C/C++ Registration Restriction: Open only to doctoral students Instruction Mode: Lecture Grading Option: Letter

CSCI 670x Advanced Analysis of Algorithms
Units: 4 Terms Offered: FaSpSm Fundamental techniques for design and analysis of algorithms. Dynamic programming; network flows; theory of NP-completeness; linear programming; approximation, randomized, and online algorithms; basic cryptography. *Prerequisite:* CSCI 570; *Recommended Preparation:* familiarity with algorithms and discrete mathematics. Registration Restriction: Open only to doctoral students. Instruction Mode: Lecture Grading Option: Letter Crosslisted as ISE-670

CSCI 671 Randomized Algorithms
Units: 4 Standard techniques in the design and analysis of randomized algorithms and random structures. Topics include tail bounds, Markov Chains, VC-dimension, probabilistic method. *Prerequisite:* CSCI 570 or CSCI 670 *Recommended Preparation:* Basic background in probability and linear algebra Instruction Mode: Lecture Grading Option: Letter Crosslisted as ISE-671

CSCI 672 Approximation Algorithms
Units: 4 Algorithmic techniques include combinatorial algorithms and rounding of linear and semi-definite programs. Applications include network design, graph cuts, covering problems, and approximation hardness. *Prerequisite:* CSCI 570 or CSCI 670 *Recommended Preparation:* basic background in probability and linear algebra. Instruction Mode: Lecture Grading Option: Letter

CSCI 673 Structure and Dynamics of Networked Information
Units: 4 Algorithms for analyzing network data and spreading information over networks. Focuses on broadly applicable mathematical tools and techniques, including spectral techniques, approximation algorithms and randomization. *Prerequisite:* CSCI 570 or CSCI 670 *Recommended Preparation:* basic background in probabilities, linear algebra. Instruction Mode: Lecture Grading Option: Letter

CSCI 674a Advanced Topics in Computer Vision
Units: 3 Selected topics from current active research areas including image segmentation, shape analysis and object recognition, inference of 3-D shape, motion analysis, knowledge-based system, neural nets. *Prerequisite:* CSCI 574. Instruction Mode: Lecture Grading Option: Letter Crosslisted as EE-674A

CSCI 674b Advanced Topics in Computer Vision
Units: 3 Selected topics from current active research areas including image segmentation, shape analysis and object recognition, inference of 3-D shape, motion analysis, knowledge-based system, neural nets. *Prerequisite:* CSCI 574. Instruction Mode: Lecture Grading Option: Letter Crosslisted as EE-674B

CSCI 675 Convex and Combinatorial Optimization
Units: 4 Topics include: Convex sets and functions; convex optimization problems; geometric and Lagrangian duality; simplex algorithm; ellipsoid algorithm and its implications; matroid theory; submodular optimization. *Prerequisite:* CSCI 570 or CSCI 670 *Recommended Preparation:* Mathematical maturity and a solid grounding in linear algebra Instruction Mode: Lecture Grading Option: Letter

CSCI 677 Advanced Computer Vision
Units: 4 Fundamental issues in computer vision: theory, algorithms and applications. Image formation, image segmentation, inference and measurement of 3-D, motion analysis, object and activity recognition. *Recommended Preparation:* Calculus, analytical geometry, linear algebra and probability theory. Programming in C or C++, data structures, algorithms. Instruction Mode: Lecture Grading Option: Letter Crosslisted as EE 676

CSCI 678 Theoretical Machine Learning
Units: 4 Terms Offered: Fa The mathematical foundation of machine learning with a focus on algorithm design for sequential prediction problems. *Recommended Preparation:* MATH 208x, MATH 225, MATH 125g, CSCI 570 and CSCI 567 Instruction Mode: Lecture Grading Option: Letter

CSCI 685 Advanced Topics in Database Systems
Units: 4 Advanced techniques in database management. Topics include optimization, cache management, data mining and knowledge discovery, decision support, spatial indexes, parallel and distributed systems, extendible storage. *Prerequisite:* CSCI 485 or CSCI 585 Instruction Mode: Lecture Grading Option: Letter

CSCI 686 Advanced Big Data Analytics
Units: 4 Advanced statistical inference and data mining techniques for data analytics, including: topic modeling, structure learning, time-series analysis, learning with less supervision, and massive-scale data analytics. *Prerequisite:* CSCI 567 Instruction Mode: Lecture Grading Option: Letter

CSCI 697 Seminar in Computer Science Research
Units: 1 Max Units: 2.0 Terms Offered: FaSp Introduction of Ph.D. students to the broad range of computer science research. Two semesters registration required. Duplicates Credit in former CSCI 597. Instruction Mode: Lecture Grading Option: Credit/No Credit

CSCI 698 Practicum in Teaching Computer Science
Units: 1 Max Units: 2.0 Terms Offered: FaSp Practical principles for the longterm development of effective teaching in Computer Science. Intended for teaching assistants for classes offered by the Computer Science department. Registration Restriction: Only open to Computer Science doctoral students. Instruction Mode: Lecture Grading Option: Credit/No Credit

CSCI 699 Special Topics
Units: 2, 3, 4 Max Units: 08 Terms Offered: FaSpSm Course content to be selected each semester from recent developments in computer science. Registration Restriction: Open only to doctoral students Instruction Mode: Lecture Grading Option: Letter

CSCI 790 Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Research leading to the doctorate. Maximum units which may be applied to the degree to be determined by the department. Instruction Mode: Lecture Grading Option: Credit/No Credit

CSCI 794a Doctoral Dissertation
Units: 2 Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

CSCI 794b Doctoral Dissertation
Units: 2 Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

CSCI 794c Doctoral Dissertation
Units: 2 Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

CSCI 794d Doctoral Dissertation
Units: 2 Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

CSCI 794z Doctoral Dissertation
Units: 0 Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

Comparative Studies in Literature and Culture

CSLC 501 Introduction to Comparative Media Studies
Units: 4 Ways of thinking about the differences and relations among different cultural media: literature, film, video, manga/comics, "new media," and so forth. Instruction Mode: Lecture Grading Option: Letter

CSLC 502 Introduction to Literary Theory
Units: 4 Major developments in 20th century literary criticism, with special attention to theoretical work of the past three decades. Duplicates Credit in former COLT 502. Instruction Mode: Lecture Grading Option: Letter

CSLC 503 Introduction to Comparative Studies in Culture
Units: 4 Examines culture as an instrument of discursive practice that shapes social formations in Asia, Europe, North and Latin America. Instruction Mode: Lecture Grading Option: Letter

CSLC 510 Introduction to Translation Studies
Units: 4 Terms Offered: FaSp (Enroll in COLT 510)

CSLC 511 Translating Race
Units: 4 Max Units: 8 Terms Offered: FaSp (Enroll in COLT 511)

CSLC 512 Literary and Cinematic Translingualism and Translation
Units: 4 Max Units: 8 Terms Offered: FaSp (Enroll in COLT 512)

CSLC 519 Translation in Theory and Practice
Units: 4 Terms Offered: FaSp (Enroll in COLT 519)

CSLC 525 Studies in Literary and Cultural History
Units: 4 Max Units: max 8 (Enroll in COLT 525)

CSLC 545 Studies in Literature and the Other Arts
Units: 4 Max Units: max 8 (Enroll in COLT 545)

CSLC 555 Studies in Literatures of the Americas
Units: 4 Max Units: max 8 (Enroll in COLT 555)

CSLC 565 Studies in Literatures of Asia
Units: 4 Max Units: max 8 (Enroll in COLT 565)

CSLC 575 Studies in Sound: An Introduction to Sound Studies
Units: 4 Introduction to foundational texts in sound studies. Topics include conceptions of noise, silence, vibration, voice, listening/hearing, rhythm, sound technologies and histories of the senses. Registration Restriction: Open only to graduate students Instruction Mode: Lecture Grading Option: Letter

CSLC 590 Directed Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Research leading to the master's degree. Duplicates Credit in former COLT 590. Instruction Mode: Lecture Grading Option: Credit/No Credit

CSLC 596 Internship for Curricular Practical Training
Units: 1, 2, 3 Max Units: 03 Terms Offered: FaSpSm Part-time or full-time practical work experience in the student's field of study. The internship must be located at an off-campus facility. Students are individually supervised by faculty. May not be taken until the student has completed at least on semester of enrollment in the graduate program. Registration Restriction: Open only to doctoral students Instruction Mode: Lecture Grading Option: Credit/No Credit

CSLC 599 Special Topics
Units: 1, 2, 3, 4, 5, 6, 7, 8 Max Units: 08 Terms Offered: FaSpSm Special topics in comparative studies in literature and culture Instruction Mode: Lecture Grading Option: Letter

CSLC 600 Professional Development I: Publication
Units: 2 Terms Offered: Sp Preparation of book and article manuscripts for publication and placement in presses and journals; revising dissertations for publication; preparing papers for conferences. Students produce an article manuscript ready for submission to a journal. Registration Restriction: Open only to doctoral students. Duplicates Credit in former COLT 603. Instruction Mode: Lecture Grading Option: Credit/No Credit

CSLC 601 Seminar in Comparative Media Studies
Units: 4 Max Units: 12 Intensive comparative study of visual and literary media. Instruction Mode: Lecture Grading Option: Letter

CSLC 602 Seminar in Literary Theory
Units: 4 Max Units: max 12 (Enroll in COLT 602)

CSLC 603 Seminar in Comparative Studies in Culture
Units: 4 Max Units: 12 Intensive study of intellectual and cultural history, with a focus on key literary and theoretical texts. Instruction Mode: Lecture Grading Option: Letter

CSLC 620 Seminar in Literature, Culture, and Thought
Units: 4 Max Units: max 12 (Enroll in COLT 620)

CSLC 640 Seminar in Film and Visual Studies
Units: 4 Max Units: 12 Intensive study of various types of discourse (film, photography, literature) and their intersection with wider social, political, and theoretical issues. Instruction Mode: Lecture Grading Option: Letter

CSLC 650 Seminar in Sound Studies of the Global South
Units: 4 Advanced seminar in sound studies focused on comparativism and the Global South, including South America, South Asia, Africa and the African diaspora. Registration Restriction: Open only to graduate students Instruction Mode: Lecture Grading Option: Letter

CSLC 700 Professional Development II: Writing the Prospectus
Units: 2 Terms Offered: Fa Methodology of writing a dissertation prospectus; a structured workshop environment for completing a prospectus. Instruction Mode: Lecture Grading Option: Credit/No Credit

CSLC 701 Professional Development III: Writing the Doctoral Dissertation
Units: 2 Terms Offered: FaSp A formal occasion to critically interrogate the organization of doctoral dissertation and experiment with academic writing as a creative process. Instruction Mode: Lecture Grading Option: Credit/No Credit

CSLC 702x Professional Development IV: Applying for Academic Positions
Units: 2 Terms Offered: Fa Designed to familiarize students in the Comparative Studies in Literature and Culture doctoral program with the process of seeking an academic position. Credit Restriction: Not available for degree credit for any major Instruction Mode: Lecture Grading Option: Credit/No Credit

CSLC 790 Research
Units: 1 Max Units: 12.0 Research leading to the doctorate. Maximum units that may be applied to the degree to be determined by the department. Instruction Mode: Lecture Grading Option: Credit/No Credit

CSLC 794a Doctoral Dissertation
Units: 2 Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

CSLC 794b Doctoral Dissertation
Units: 2 Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

CSLC 794c Doctoral Dissertation
Units: 2 Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

CSLC 794d Doctoral Dissertation
Units: 2 Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

CSLC 794z Doctoral Dissertation
Units: 0 Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

Animation

Note: Instructor availability for a particular course or section cannot be guaranteed.

CTAN 101L Introduction to the Art of Animation
Units: 2 Terms Offered: Fa Theory and practice of animation across organic and digital media with an emphasis on self-exploration. Instruction Mode: Lecture, Lab Required Grading Option: Letter

CTAN 102L Introduction to the Art of Movement
Units: 2 Terms Offered: Sp Theory and practice of animation with a focus on movement, gesture, timing and performance. *Prerequisite:* CTAN 101. Instruction Mode: Lecture, Lab Required Grading Option: Letter

CTAN 110 Design Fundamentals for Animation I
Units: 2 Terms Offered: FaSp Developing skills in design, composition, shape language, image-making, and visual thinking to create more sophisticated style frames and imagery for animation practice. Registration Restriction: Open only to Animation and Digital Arts majors Instruction Mode: Lecture, Lab Grading Option: Letter

CTAN 200g The Rise of Digital Hollywood
Units: 4 Terms Offered: Sp An overview of the evolution of computer graphics in modern media. Satisfies New General Education in Category A: The Arts Instruction Mode: Lecture Grading Option: Letter

CTAN 201L Intermediate Animation Production
Units: 3 Terms Offered: Fa Tools, skills and procedures used in animation production with a focus on professional execution of independent and collaborative productions. *Prerequisite:* CTAN 102. Instruction Mode: Lecture, Lab Required Grading Option: Letter

CTAN 202L Introduction to 3-D Character Animation
Units: 3 Terms Offered: Sp 3-D animation performance utilizing preset rigs and virtual characters. Emphasis on timing, gesture, and performance. Registration Restriction: Open only to sophomores in Animation and Digital Arts Instruction Mode: Lecture, Lab Required Grading Option: Letter

CTAN 210 Design Fundamentals for Animation II
Units: 2 Terms Offered: FaSp Applying design principles in image-making and motion with software skills in After Effects to produce creative content and expand animation practice. *Prerequisite:* CTAN 110 Registration Restriction: Open only to Animation and Digital Arts majors Instruction Mode: Lecture, Lab Grading Option: Letter

CTAN 220 Introduction to Storyboarding
Units: 2 Terms Offered: FaSp A practical introductory course that emphasizes the fundamentals of digital storyboarding to include storyboarding basics, proper composition, staging for clarity, pitching and critique. *Recommended Preparation:* Basic drawing skills Registration Restriction: Open only to Animation and Digital Arts majors Instruction Mode: Lecture Grading Option: Letter

CTAN 280 Intermediate Character Animation for Games
Units: 4 Terms Offered: Fa An applied introduction to the techniques used for animating 3-D bipedal human character content for the movement and interactive experience within 3-D video games. *Prerequisite:* CTAN 452 or ITP 215L Instruction Mode: Lecture, Lab Grading Option: Letter

CTAN 301L 3-D Character Performance Animation
Units: 3 Terms Offered: Fa Advanced 3-D character animation with an emphasis on performance, lip-syncing, timing and execution. *Prerequisite:* CTAN 202L. Registration Restriction: Open only to juniors in Animation and Digital Arts. Instruction Mode: Lecture, Lab Required Grading Option: Letter

CTAN 302L Expanded Concepts in 2-D/3-D Animation
Units: 3 Terms Offered: Sp Integration of advanced concepts to create and produce a short 2-D/3-D animated work with original sound and content. *Prerequisite:* CTAN 301L. Registration Restriction: Open only to juniors in Animation and Digital Arts. Instruction Mode: Lecture, Lab Required Grading Option: Letter

CTAN 305 Professionalism of Animation
Units: 2 Terms Offered: FaSp Understanding the business of the animation industry. Developing presentation skills for interviewing and pitching, preparing personal marketing tools, researching employment opportunities, and practicing networking techniques. Instruction Mode: Lecture Grading Option: Letter

CTAN 320 Cinematography for Animators
Units: 2 Terms Offered: FaSp The basic cinematic principles for animation, and how to shoot storyboards for the best composition to serve the story. *Prerequisite:* CTAN 452 Registration Restriction: Open only to Animation and Digital Arts majors Instruction Mode: Lecture Grading Option: Letter

CTAN 330 Animation Fundamentals
Units: 2 Terms Offered: Sp An introduction to the fundamentals of animation, covering such topics as timing, anticipation, reaction, overlapping action, and metamorphosis. Instruction Mode: Lecture Grading Option: Letter

CTAN 336 Ideation and Pre-Production
Units: 2 Terms Offered: Sp Emphasis on lateral thinking working across boundaries to find underlying principles in terms of ideation: the act of becoming an agent of ideas. *Prerequisite:* CTAN 301L Registration Restriction: Open only to juniors in the School of Cinematic Arts Instruction Mode: Lecture, Lab Grading Option: Letter

CTAN 401a Senior Project
Units: 4 Terms Offered: Fa Understanding the requirements and relationships between theory and practice regarding the complexity of an animated film in idea and execution. *Prerequisite:* CTAN 336 Registration Restriction: Open only to seniors in the School of Cinematic Arts Instruction Mode: Lecture Grading Option: Letter

CTAN 401b Senior Project
Units: 4 Terms Offered: FaSp Completion and exhibition of the short animated film to demonstrate understanding and further examination of the possibilities of animation time based graphic media. *Prerequisite:* CTAN 401a Instruction Mode: Lecture, Lab Grading Option: Letter

CTAN 410 Audio Design for Animation and Immersive Media
Units: 2 Terms Offered: FaSp Experimental and traditional audio design practices for animation, culminating in an immersive audio project utilizing acoustic design, surround sound, and professional recording and editing tools. Instruction Mode: Lecture Grading Option: Letter

CTAN 420 Concept Design for Animation
Units: 2 Terms Offered: FaSp Creating characters and environments for animation, live action, and video games. Instruction Mode: Lecture Grading Option: Letter

CTAN 423L Principles of Digital Animation: Visualizing Science
Units: 2 Terms Offered: FaSp Principles of 2-D and 3-D digital animation applied to scientific themes and research topics. Duplicates Credit in former CTAN 523. Instruction Mode: Lecture, Lab Required Grading Option: Letter

CTAN 425 Studio Careers: Story to Screen
Units: 2 Terms Offered: FaSp Seminar featuring guest speakers from major animation studios to provide an overview of a feature animation pipeline from development to pre-production, production and post-production. Instruction Mode: Lecture Grading Option: Letter

CTAN 432 The World of Visual Effects
Units: 2 Terms Offered: FaSpSm Introduction to the expanding field of visual effects; topics include integration for cinematic storytelling and the study of digital productions employing the latest visual effects. Instruction Mode: Lecture Grading Option: Letter

CTAN 435 Story Art Development
Units: 2 Terms Offered: FaSp Using basic storyboarding techniques to develop a sense of character, plot, and continuity. Technical aspects of developing ideas into films. Instruction Mode: Lecture Grading Option: Letter

CTAN 436 Writing for Animation
Units: 2 Terms Offered: Fa Workshop exploring concept and structure of long and short form animated films through practical writing exercises. Instruction Mode: Lecture Grading Option: Letter

CTAN 443L Character Development for 3-D Animation and Games
Units: 2 Terms Offered: FaSpSm Development, modeling, and animation with an emphasis on character setup features: rigging, skeletons, deformers and scripting. Applying principles of traditional animation to 3-D character rig/puppet. *Prerequisite:* CTAN 452 or ITP 215L Instruction Mode: Lecture, Lab Required Grading Option: Letter

CTAN 448 Introduction to Film Graphics — Animation
Units: 4 Terms Offered: FaSp An introduction to methods for creating analog animation through experimentation with imagery, concepts and materials. Emphasis on basic timing principles and hands-on techniques. Instruction Mode: Lecture Grading Option: Letter

CTAN 450a Animation Theory and Techniques
Units: 2 Terms Offered: FaSp Methods for creating animation blending traditional techniques with contemporary technologies. Instruction Mode: Lecture, Lab Grading Option: Letter

CTAN 450b Animation Theory and Techniques
Units: 2 Terms Offered: FaSp Instruction in methods for planning and executing a short animated film. Topics covered include storyboarding, visual development and production planning. Instruction Mode: Lecture Grading Option: Letter

CTAN 450c Animation Theory and Techniques
Units: 2 Terms Offered: FaSp Practical completion of a short animated film. Instruction Mode: Lecture, Lab Grading Option: Letter

CTAN 451 History of Animation
Units: 2 Terms Offered: Fa In-depth survey of historical developments, styles, techniques, theory and criticism of animation as an art form. Instruction Mode: Lecture Grading Option: Letter

CTAN 452 Introduction to 3-D Computer Animation
Units: 2 Max Units: 4.0 Terms Offered: FaSp Lecture and laboratory in computer animation: geometric modeling, motion specification, lighting, texture mapping, rendering, compositing, production techniques, systems for computer-synthesized animation. Instruction Mode: Lecture, Lab Grading Option: Letter

CTAN 453 3-D Animation for Motion Graphics
Units: 2 Terms Offered: FaSp Principles and skills for using Cinema 4D software to animate, model and render animation projects. Instruction Mode: Lecture, Lab Grading Option: Letter

CTAN 455L Organic Modeling for Animation
Units: 2 Terms Offered: FaSp The art of digital sculpting for animated characters, with visual effects integration. *Recommended Preparation:* CTAN 452 or

CTAN 462. Instruction Mode: Lecture, Lab Required Grading Option: Letter

CTAN 460 Character Design Workshop
Units: 2 Terms Offered: Sp The basics of character design for animation: anatomy, poses, facial expressions, silhouettes, and anthropomorphism. Development of a portfolio. Instruction Mode: Lecture Grading Option: Letter

CTAN 462 Visual Effects
Units: 2 Terms Offered: FaSp Survey of contemporary concepts and approaches to production in the current state of film and video effects work. Digital and traditional methodologies will be covered, with a concentration on digital exercises illustrating modern techniques. Instruction Mode: Lecture, Lab Grading Option: Letter

CTAN 463L Creative Workflow in Visual Effects
Units: 2 Terms Offered: FaSp Spherical panoramic photography, 3-D digital environment techniques and a range of visual effects work while providing the stage for the student's storytelling. *Prerequisite:* CTAN 462. Instruction Mode: Lecture, Lab Required Grading Option: Letter

CTAN 464L Digital Lighting and Rendering
Units: 2 Terms Offered: FaSp Concepts, tools and techniques used to create cinematic lighting and rendering in computer-generated imagery (CGI). *Prerequisite:* CTAN 452 or CTAN 462. Instruction Mode: Lecture, Lab Required Grading Option: Letter

CTAN 465L Digital Effects Animation
Units: 2 Terms Offered: FaSp All aspects of digital effects animation, including particles, dynamics, and fluids. Creating water, fire, explosions, and destruction in film. *Prerequisite:* CTAN 452 or CTAN 462. Instruction Mode: Lecture, Lab Required Grading Option: Letter

CTAN 466 Projection Mapping Design and Production
Units: 2 Terms Offered: FaSp An exploration of projection mapping with hands-on learning and projects providing professional skills and workflows for helping students create their own content. *Recommended Preparation:* Familiarity with any 3-D application Instruction Mode: Lecture, Lab Grading Option: Letter

CTAN 470 Documentary Animation Production
Units: 2 Terms Offered: FaSp Examination of the history, techniques, and methods of documentary animation production. Collaboration on a short film project. Instruction Mode: Lecture Grading Option: Letter

CTAN 480 Advanced Character Animation for Games
Units: 2 Terms Offered: Fa Advanced techniques for animating 3-D creature characters in games. An emphasis on unique non-human fantasy characters. *Prerequisite:* CTAN 280 Instruction Mode: Lecture, Lab Grading Option: Letter

CTAN 485L Pipeline and Character Modeling for Animation
Units: 2 Terms Offered: FaSp Modeling and pipeline integration for 3-D animation props, sets and characters. Prior knowledge in Maya preferred. Instruction Mode: Lecture, Lab Required Grading Option: Letter

CTAN 495 Visual Music
Units: 2 Terms Offered: Fa Experimental animation providing the opportunity to produce individual or group projects. Focus is non-conventional techniques for image creation and collaboration between composer and visual artist. Instruction Mode: Lecture Grading Option: Letter

CTAN 496 Directed Studies
Units: 2 Max Units: 4 Terms Offered: FaSp Individual research under faculty guidance. Registration Restriction: Open only to Animation and Digital Arts majors Instruction Mode: Lecture Grading Option: Letter

CTAN 497L Procedural Animation
Units: 2 Terms Offered: FaSp Introduction to software packages and practices exploring current animation techniques that leverage simulation systems. Artificial intelligence as a tool for animation. *Prerequisite:* CTAN 452 Instruction Mode: Lecture, Lab Required Grading Option: Letter

CTAN 499 Special Topics
Units: 2, 3, 4 Max Units: 8.0 Terms Offered: FaSpSm Detailed investigation of new or emerging aspects of cinema and/or television; special subjects offered by visiting faculty; experimental subjects. Instruction Mode: Lecture Grading Option: Letter

CTAN 501 Experiments in 2-D Digital Animation
Units: 2 Terms Offered: FaSp 2-D Digital animation exploring the art form as a fertile terrain for experimentation, exhibition and activism. *Recommended Preparation:* 2-D digital experience. Instruction Mode: Lecture Grading Option: Letter

CTAN 502L Experiments in Immersive Design
Units: 2 Terms Offered: FaSp An in-depth exploration of aesthetics and techniques involved in the conceptualization, design and creation of virtual reality and stereoscopic imaging. Duplicates Credit in former CTAN 502a Instruction Mode: Lecture, Lab Required Grading Option: Letter

CTAN 503 Storyboarding for Animation
Units: 2 Terms Offered: Sp Focus on film grammar, perspective, and layout, staging and acting as it relates to storyboarding for animation. Instruction Mode: Lecture Grading Option: Letter

CTAN 504L Creative Production in Virtual Reality
Units: 2 Terms Offered: FaSp A creative studio course in producing both a linear cinematic virtual reality short film and associated real-time immersive experience. *Prerequisite:* CTAN 502L Instruction Mode: Lecture, Lab Required Grading Option: Letter

CTAN 505 The Business of Animation
Units: 2 Terms Offered: Sp Professional knowledge and application of fundamental business skills associated with working in the animation industry, academia or the arts. Instruction Mode: Lecture Grading Option: Letter

CTAN 508L Live Action Integration with Visual Effects
Units: 2 Terms Offered: Sp Survey of the digital techniques required to successfully marry live action shooting with CGI elements and green screen footage. *Prerequisite:* CTAN 462. Instruction Mode: Lecture, Lab Required Grading Option: Letter

CTAN 522 Animation Department Seminar
Units: 1 Max Units: 6.0 Terms Offered: FaSp A weekly seminar required of all MFA Animation students. This course includes guest speakers, faculty and student presentations followed by lively and critical discussion. Instruction Mode: Lecture Grading Option: Credit/No Credit

CTAN 524 Contemporary Topics in Animation and Digital Arts
Units: 2 Terms Offered: FaSp Explores the relationship of science, philosophy and art to new forms of animation and digital media practice, with a focus on dreams and consciousness. Instruction Mode: Lecture Grading Option: Letter

CTAN 525 Gesture Movement for Animation
Units: 2 Terms Offered: FaSp The concepts of animation performance, body and facial gesture, and the emotional and psychological resonance through cinematic arts. Instruction Mode: Lecture Grading Option: Letter

CTAN 536 Storytelling for Animation
Units: 2 Terms Offered: Sp Storytelling workshop for animators; application of dramatic techniques to visual concepts to derive three-dimensional stories which can serve as bases for finished films. Registration Restriction: Open only to cinematic arts students. Duplicates Credit in CTAN 436. Instruction Mode: Lecture Grading Option: Letter

CTAN 544 Introduction to the Art of Animation
Units: 3 Terms Offered: Fa Fundamentals of film, video and computer animation production. Orientation to assist students on determining future emphases and specialties. Registration Restriction: Open only to Animation and Digital Arts master students. Instruction Mode: Lecture, Lab Grading Option: Letter

CTAN 547 Animation Production I
Units: 3 Terms Offered: Sp Practicum in film, video and computer animation emphasizing the production process through individual projects. *Prerequisite:* CTAN 544. Registration Restriction: Open only to Animation and Digital Arts master students. Instruction Mode: Lecture, Lab Grading Option: Letter

CTAN 550 Stop Motion Puppet and Set Design
Units: 2 Terms Offered: Fa Puppet and set design for stop motion animation while providing guidance on armature rigs that allow the character to be animated effectively. Instruction Mode: Lecture Grading Option: Letter

CTAN 551 Stop Motion Performance
Units: 2 Terms Offered: Sp Incorporating classic stop motion techniques for puppet performance and animation. Emphasis on timing, performance, movement, animation

and gesture. *Prerequisite:* CTAN 550. Instruction Mode: Lecture Grading Option: Letter

CTAN 555 Animation Design and Production
Units: 4 Terms Offered: Fa Exploring creative strategies to designing form and content. Developing style and investigating multiple techniques, including live action and sound. Production of a 30–60 second work. *Prerequisite:* CTAN 547. Instruction Mode: Lecture Grading Option: Letter

CTAN 563 Advanced Character Animation Performance
Units: 2 Terms Offered: FaSp Advanced feature-quality techniques in 3-D character animation emphasizing acting, facial animation, lip-sync, body mechanics, blocking and polish with multiple characters over sequential shots. *Prerequisite:* CTAN 301L or CTAN 577b Instruction Mode: Lecture Grading Option: Letter

CTAN 564L Motion Capture Fundamentals
Units: 2 Terms Offered: Fa Fundamental principles of motion capture technology explored while working through a structured series of assignments based around performance, gesture and motion. *Prerequisite:* CTAN 452 or CTAN 462. Instruction Mode: Lecture, Lab Required Grading Option: Letter

CTAN 565L Motion Capture Performance
Units: 2 Terms Offered: Sp The art of directing, acting, and creating story for motion capture will be explored while learning the technology behind bringing virtual actors to life. *Prerequisite:* CTAN 564. Instruction Mode: Lecture, Lab Required Grading Option: Letter

CTAN 570 Motion Graphic Design
Units: 3 Terms Offered: FaSp Creating well-designed motion graphic animation work through effective visual communication, design strategies and software skill learning in a professional context. *Recommended Preparation:* Experience using Adobe After Effects, Photoshop and Illustrator software. Some experience with Maya or Cinema 4D 3-D animation software Instruction Mode: Lecture, Lab Grading Option: Letter

CTAN 575 Cinematic and Media-Based Installations
Units: 2 Terms Offered: Sp The history and practice of media-based installation art, from site-specific architectural projection mapping, to activist and public art, video sculptures and immersive, physical transformations. Instruction Mode: Lecture, Lab Grading Option: Letter

CTAN 577a Fundamentals of Animation
Units: 2 Terms Offered: Fa The exploration of the techniques of the art of character animation with an emphasis on discipline, performance and personality observation, specializing in classical Hollywood animation. Registration Restriction: Open only to Animation and Digital Arts master students. Instruction Mode: Lecture Grading Option: Letter

CTAN 577b Fundamentals of Animation
Units: 2 Terms Offered: Sp The exploration of the techniques of the art of character animation with an emphasis on discipline, performance and personality observation, specializing in classical Hollywood animation. Registration Restriction: Open only to Animation and Digital Arts master students. Instruction Mode: Lecture, Lab Grading Option: Letter

CTAN 579 Expanded Animation
Units: 2 Terms Offered: Sp Incorporation of traditional image making methods as well as digital and new media technologies to convey non-linear narratives over internal and external landscapes. Instruction Mode: Lecture Grading Option: Letter

CTAN 582 Basic Animation Production Technologies
Units: 2 Terms Offered: Fa Introduction for animation majors to the basic techniques and processes of film, video and computer systems, including cinematography, editing and sound. Registration Restriction: Open only to M.F.A. animation and digital arts students. Duplicates Credit in former CTAN 482. Instruction Mode: Lecture Grading Option: Letter

CTAN 591 Animation Pre-Thesis Seminar
Units: 2 Terms Offered: Sp A pre-production seminar, where students complete the research, development, script and storyboards for their thesis project to be executed in CTAN 594a, CTAN 594b, CTAN 594z. Instruction Mode: Lecture Grading Option: Letter

CTAN 592 Master Class
Units: 2, 3, 4, 5, 6 Max Units: 12.0 Terms Offered: Fa A special projects course in which students produce a major work through weekly meetings with a master artist/animator. Topics must be approved prior to enrollment. *Recommended Preparation:* previous advanced animation production experience. Instruction Mode: Lecture Grading Option: Letter

CTAN 593 Directed Studies in Animation
Units: 2 Max Units: 4.0 Terms Offered: FaSpSm Individual exploration in the areas of contemporary technology, animation techniques or experimental film through internships, residencies or directed studies. Registration Restriction: Open only to Animation and Digital Arts master students. Instruction Mode: Lecture Grading Option: Letter

CTAN 594a Master's Thesis
Units: 2 Credit on acceptance of thesis. Instruction Mode: Lecture, Lab Grading Option: In-progress to Credit/No Credit

CTAN 594b Master's Thesis
Units: 2 Credit on acceptance of thesis. Instruction Mode: Lecture, Lab Grading Option: In-progress to Credit/No Credit

CTAN 594z Master's Thesis
Units: 0 Credit on acceptance of thesis. Instruction Mode: Lecture, Lab Grading Option: In-progress to Credit/No Credit

CTAN 599 Special Topics
Units: 2, 3, 4 Max Units: 8.0 Terms Offered: Irregular Detailed investigation of new or emerging aspects of cinema; special subjects offered by visiting faculty; experimental subjects. Instruction Mode: Lecture Grading Option: Letter

Cinema and Media Studies

Note: Instructor availability for a particular course or section cannot be guaranteed.

CTCS 150gw Visions of Diversity in the Cinematic Arts
Units: 4 Terms Offered: FaSp Representations of marginalized groups in digital media, and how they have shaped conversations, altered public discourse and policy, and impacted the lives of underrepresented people. Satisfies New General Education in Category B: Humanistic Inquiry Satisfies Global Perspective in Category G: Citizenship in a Diverse World Registration Restriction: Open only to USC School of Cinematic Arts students Instruction Mode: Lecture, Discussion Grading Option: Letter

CTCS 190g Introduction to Cinema
Units: 4 Terms Offered: FaSp Gateway to majors and minors in cinematic arts. Technique, aesthetics, criticism, and social implications of cinema. Lectures accompanied by screenings of appropriate films. Satisfies New General Education in Category A: The Arts Instruction Mode: Lecture, Discussion Grading Option: Letter

CTCS 191 Introduction to Television and Video
Units: 4 Terms Offered: FaSp Exploration of the economic, technological, aesthetic, and ideological characteristics of the television medium; study of historical development of television and video including analysis of key works; introduction to TV/video theory and criticism. Instruction Mode: Lecture, Discussion Grading Option: Letter

CTCS 192gm Race, Class, and Gender in American Film
Units: 4 Terms Offered: FaSpSm Analyzes issues of race, class and gender in contemporary American culture as represented in the cinema. Satisfies New General Education in Category A: The Arts Instruction Mode: Lecture Grading Option: Letter

CTCS 200g History of the International Cinema I
Units: 4 Terms Offered: Fa The development of international cinema from its beginnings to World War II. Lectures, screenings, and discussions. Satisfies New General Education in Category A: The Arts Instruction Mode: Lecture, Discussion Grading Option: Letter

CTCS 201 History of the International Cinema II
Units: 4 Terms Offered: Sp The development of international cinema from World War II to the present. Lectures, screenings and discussions. Instruction Mode: Lecture, Discussion Grading Option: Letter

CTCS 303 Japanese Anime
Units: 2 Explores the visual, dramatic and social conventions of Japanese animation in film and television. Examines anime fan communities, manga and their impact. Instruction Mode: Lecture Grading Option: Letter

CTCS 306 Cinema and Media Theory and Practice
Units: 2 Max Units: max 10 Terms Offered: FaSpSm Theories and case studies of contemporary issues in film, television and digital media research. Students will be required to design their own undergraduate research projects. Instruction Mode: Lecture Grading Option: Letter

CTCS 367 Global Media
Units: 4 Terms Offered: FaSp Studies in the global configurations of television industries and cultures, including new technologies and the textual and sociological analysis

of global media events and programming. Instruction Mode: Lecture Grading Option: Letter

CTCS 373 Literature and Film
Units: 4 (Enroll in COLT 373)

CTCS 379 Nationalism and Postcolonialism in Southeast Asian Cinema
Units: 4 (Enroll in COLT 379)

CTCS 392 History of the American Film, 1925–1950
Units: 4 Terms Offered: Sp Screenings of American film classics and their relationship to society. Lectures and discussions. Instruction Mode: Lecture Grading Option: Letter

CTCS 393 Postwar Hollywood, 1946-1962
Units: 4 Terms Offered: Fa Cinematic and extra-cinematic determinants of Post-Classical and Modernist Hollywood studio and independent genres, styles, and the star-phenomenon and their relationship to American history and culture. Instruction Mode: Lecture Grading Option: Letter

CTCS 394 History of the American Film, 1977–present
Units: 4 Terms Offered: Sp Cinematic and extra-cinematic determinants of Postmodernist Hollywood studio and independent genres, styles, and the star-phenomenon and their relationship to American history and culture. Instruction Mode: Lecture Grading Option: Letter

CTCS 400 Non-Fiction Film and Television
Units: 4 Terms Offered: Fa An international survey of documentary, informational, and independent experimental film, video and television. Instruction Mode: Lecture Grading Option: Letter

CTCS 402 Practicum in Film/Television Criticism
Units: 4 Max Units: 8.0 Terms Offered: FaSp Exercise in writing film and television criticism using new and classic films and television programs. Instruction Mode: Lecture Grading Option: Letter

CTCS 403 Studies in National and Regional Media
Units: 4 Terms Offered: FaSp Detailed investigation of traditions, achievements, and trends of film and/or electronic media in a particular country or region. Instruction Mode: Lecture Grading Option: Letter

CTCS 404 Television Criticism and Theory
Units: 4 Terms Offered: Sp The evaluation of television programs and their reception from various theoretical perspectives which may include cultural studies, race and ethnic studies, psychoanalysis, gender and queer studies, and semiotics. Instruction Mode: Lecture Grading Option: Letter

CTCS 406 History of American Television
Units: 4 Terms Offered: Fa History of television as an entertainment, information, and art medium. Emphasis on programming and institutional history, including issues of regulation, censorship, aesthetics and activism. Instruction Mode: Lecture Grading Option: Letter

CTCS 407 African American Cinema
Units: 4 Terms Offered: Irregular Intensive survey of African American cinema; topics include history, criticism, politics, and cinema's relationship to other artifacts of African American culture. Instruction Mode: Lecture Grading Option: Letter

CTCS 408 Contemporary Political Film and Digital Media
Units: 4 Terms Offered: Irregular Examination of a variety of politically engaged films and digital media recently produced in the U.S. and abroad, with particular emphasis on aesthetic strategies. Instruction Mode: Lecture Grading Option: Letter

CTCS 409 Censorship in Cinema
Units: 4 Terms Offered: Fa An inquiry into the practice and patterns of censorship in cinema. Instruction Mode: Lecture Grading Option: Letter

CTCS 411 Film, Television and Cultural Studies
Units: 4 Max Units: 8.0 Terms Offered: FaSp Detailed examination of film/television from the perspectives and insights of Cultural Studies; focus on the production and reception of cultural texts, practices, and communities. Instruction Mode: Lecture Grading Option: Letter

CTCS 412 Gender, Sexuality and Media
Units: 4 Max Units: 8.0 Terms Offered: FaSpSm Examines how gender and sexuality are figured in cinema and television with an emphasis on the development of feminist media theory. Instruction Mode: Lecture Grading Option: Letter Crosslisted as SWMS-412

CTCS 414 Latina/o Screen Cultures
Units: 4 Terms Offered: FaSpSm Examination of Latino/a moving image production including film, video, and digital media in the context of the politics of race, class, gender, sexuality, and international relations. Instruction Mode: Lecture Grading Option: Letter Crosslisted as AMST-414

CTCS 417 African American Television
Units: 4 Terms Offered: Irregular Intensive survey of the history of African American images on American television. Topics include history, criticism, politics, and television's relationship to African American culture. Instruction Mode: Lecture Grading Option: Letter

CTCS 462 Critical Theory and Analysis of Games
Units: 4 Terms Offered: FaSp (Enroll in CTIN 462)

CTCS 464 Film and/or Television Genres
Units: 4 Max Units: 8.0 Terms Offered: FaSpSm Rigorous examination of film and/or television genres: history, aesthetics, cultural context, social significance, and critical methodologies. Instruction Mode: Lecture Grading Option: Letter

CTCS 466 Theatrical Film Symposium
Units: 4 Max Units: 8.0 Terms Offered: FaSp Lectures and readings on creative problems in the motion picture industry; current films; interviews with visiting producers, directors, writers, performers. Instruction Mode: Lecture Grading Option: Letter

CTCS 467 Television Symposium
Units: 4 Max Units: 8.0 Lectures and readings on creative problems in the television industry; study of current and historical trends, interviews with producers, directors, writers and performers. Instruction Mode: Lecture Grading Option: Letter

CTCS 469 Film and/or Television Style Analysis
Units: 4 Max Units: 8.0 Terms Offered: FaSpSm Intensive study of the style of an auteur, studio, film or television making mode in terms of thematic and formal properties and their influences upon the art of film. Instruction Mode: Lecture Grading Option: Letter

CTCS 473 Film and Media Theory
Units: 4 Terms Offered: FaSp Influential ideas and theoretical approaches that have shaped the making and study of film. Students are encouraged to take this course in their junior year. *Prerequisite:* CTCS 190 Instruction Mode: Lecture Grading Option: Letter

CTCS 478 Culture, Technology and Communications
Units: 4 Terms Offered: FaSp Cultural study of communications technology and its relationship to society. Evaluation of the social and cultural impact of technologies from the telegraph to the Internet. Instruction Mode: Lecture Grading Option: Letter

CTCS 482 Transmedia Entertainment
Units: 4 Terms Offered: FaSp An examination of transmedia, or cross-platform, entertainment: commercial and grassroots texts, theoretical framework, historical context, and commercial projects. Developing transmedia strategies for existing media properties. Instruction Mode: Lecture Grading Option: Letter

CTCS 494 Advanced Cinema and Media Studies Seminar
Units: 4 Max Units: 08 Terms Offered: FaSp Rotating topics involving detailed study of the historical, cultural and aesthetic analysis of film, television, and new media technologies. Registration Restriction: Not open to Freshmen Instruction Mode: Lecture Grading Option: Letter

CTCS 495 Honors Seminar
Units: 4 Terms Offered: FaSpSm Advanced work in the historical, cultural and aesthetic analysis of film, television, and new media technologies. *Corequisite:* CTCS 473. Registration Restriction: Open only to students in CTCS Honors program. Instruction Mode: Lecture Grading Option: Letter

CTCS 499 Special Topics
Units: 2, 3, 4 Max Units: 8.0 Terms Offered: FaSpSm Detailed investigation of new or emerging aspects of cinema and/or television; special subjects offered by visiting faculty; experimental subjects. Instruction Mode: Lecture Grading Option: Letter

CTCS 500 Seminar in Film Theory
Units: 4 Terms Offered: Fa Introduction to classical and contemporary film theory; exploration of their relationship to filmic experimentation. Instruction Mode: Lecture Grading Option: Letter

CTCS 501 World Cinema Before 1945
Units: 2 Terms Offered: FaSp Historical survey of global cinema from its beginnings until 1945. Instruction Mode: Lecture Grading Option: Letter

CTCS 502 World Cinema After 1945
Units: 2 Terms Offered: Fa Historical survey

of film from a global perspective from 1945 until the present. Instruction Mode: Lecture Grading Option: Letter

CTCS 503 Survey History of the United States Sound Film
Units: 2 Terms Offered: Sp Survey history of the United States film from 1927 to the present, with emphasis upon film as art form, economic institution, technology, and cultural product. Instruction Mode: Lecture Grading Option: Letter

CTCS 504 Survey of Television History
Units: 2 Terms Offered: Sp An exploration of the historical, cultural, business, creative, and technological aspects of television. Instruction Mode: Lecture Grading Option: Letter

CTCS 505 Survey of Interactive Media
Units: 2 Terms Offered: Fa A survey course exploring the historical, cultural, business, creative and technological aspects of the new interactive media. Instruction Mode: Lecture Grading Option: Letter

CTCS 506 Critical Studies Colloquium/ Professional Seminar
Units: 2 Terms Offered: FaSpSm Provides orientation to the profession, opportunities for academic and professional growth and development. Recommended for entering students. Instruction Mode: Lecture Grading Option: Letter

CTCS 510 Case Studies in National Media and/or Regional Media
Units: 4 Max Units: 12.0 Terms Offered: FaSp Seminar on media's impact in defining nation and/or region in specific cultural contexts. Also addresses issues of exile, diaspora, transnationalism and globalism. Instruction Mode: Lecture Grading Option: Letter

CTCS 511 Seminar: Non-Fiction Film/Video
Units: 4 Terms Offered: Sp Aesthetic, rhetorical, and ideological issues in nonfiction film and video. Instruction Mode: Lecture Grading Option: Letter

CTCS 517 Introductory Concepts in Cultural Studies
Units: 4 Terms Offered: Fa Introduction to central concepts, key theories, and/ or leading figures in cultural studies, particularly as they relate to issues of popular culture and visual media. Instruction Mode: Lecture Grading Option: Letter

CTCS 518 Seminar: Avant-Garde Film/Video
Units: 4 Terms Offered: Irregular Aesthetic, historical and ideological issues in avant-garde film and video. Instruction Mode: Lecture Grading Option: Letter

CTCS 520 Film History Through the Archives and Special Collections
Units: 4 Terms Offered: Fa A historical exploration of film and television through the artifacts, images and writings used in their creation. Instruction Mode: Lecture Grading Option: Letter

CTCS 521 Media Archiving: History and Practice
Units: 4 Terms Offered: Sp An introduction to the field of moving image archive and the complexities of preserving and managing moving image collections. Instruction Mode: Lecture Grading Option: Letter

CTCS 564 Seminar in Film and Television Genres
Units: 4 Max Units: 8 Terms Offered: FaSp Advanced study of a selected genre of film and/or television — its relationship to history, society, and culture, as well as to genre theory. Instruction Mode: Lecture Grading Option: Letter

CTCS 567 Seminar in Film/Television and a Related Art
Units: 4 Max Units: 8 Terms Offered: Irregular Historical, critical, aesthetic, and theoretical issues raised by a comparison of cinema and television and other allied art forms. Instruction Mode: Lecture Grading Option: Letter

CTCS 569 Seminar in Film and Television Authors
Units: 4 Max Units: 8 Seminar in the style of an auteur, studio, filmmaking, or televisual mode in terms of thematic and formal properties and their influences upon the art of film and/or television. Instruction Mode: Lecture Grading Option: Letter

CTCS 585 Seminar in Film/Television Critical Theory and Production
Units: 4 Terms Offered: Irregular A conjoint theory/production seminar, in which the study of media texts will be combined with media production informed by the theoretical study. Specific themes and area of focus may vary. Instruction Mode: Lecture Grading Option: Letter

CTCS 587 Seminar in Television Theory
Units: 4 Max Units: 8.0 Terms Offered: Sp Detailed investigation and discussion of various aspects of television, including genre, textual analysis, production and distribution systems and audience studies. Instruction Mode: Lecture Grading Option: Letter

CTCS 599 Special Topics
Units: 2, 3, 4 Max Units: 8.0 Terms Offered: Irregular Detailed investigation of new or emerging aspects of cinema; special subjects offered by visiting faculty; experimental subjects. Instruction Mode: Lecture Grading Option: Letter

CTCS 673 Topics in Theory
Units: 4 Max Units: 8.0 Terms Offered: FaSp Contemporary theoretical frameworks and their relationship to film and television studies. Topics differ from semester to semester. Instruction Mode: Lecture Grading Option: Letter

CTCS 677 Cultural Theory
Units: 4 Terms Offered: FaSp Seminar in theoretical approaches to cultural studies; focus on interdisciplinary research of media and audiences, covering a range of methods and theoretical frameworks; concentration varies. Instruction Mode: Lecture Grading Option: Letter

CTCS 678 Seminar in Film Theory and Medium Specificity
Units: 4 Max Units: 8.0 Terms Offered: Irregular Explores the way film has been theorized in relationship to traditional media that preceded it and electronic media that followed. Instruction Mode: Lecture Grading Option: Letter Crosslisted as ENGL-678

CTCS 679 Seminar in Genre and/or Narrative Theory
Units: 4 Terms Offered: Irregular Seminar in theoretical issues concerning genre and/or narrative as they pertain to media, literature or cultural forms. Areas of focus vary from semester to semester. Instruction Mode: Lecture Grading Option: Letter Crosslisted as ENGL-679

CTCS 688 Moving Image Histories: Methods and Approaches
Units: 4 Terms Offered: FaSpSm Research seminar in methods and approaches to moving image history including film, television, and digital media. Focus on archival research and issues in writing history. Instruction Mode: Lecture Grading Option: Letter

CTCS 690 Special Problems
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Terms Offered: FaSpSm Field production; organization and administration of local film-producing units; experimental aspects of film communication; advanced work in film history and criticism; teaching cinema. Instruction Mode: Lecture Grading Option: Credit/No Credit

CTCS 790 Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Terms Offered: FaSpSm Research leading to the doctorate. Maximum units which may be applied to the degree to be determined by the department. Instruction Mode: Lecture Grading Option: Credit/No Credit

CTCS 791 Historical and Critical Research Methods
Units: 2 Max Units: 4.0 Terms Offered: FaSp Methods and procedures for historical and critical research in the visual media. Required tutorial with Ph.D. student's dissertation committee chair, designed to assist initial work on dissertation. Instruction Mode: Lecture, Lab Grading Option: Letter

CTCS 794a Doctoral Dissertation
Units: 2 Terms Offered: FaSpSm Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

CTCS 794b Doctoral Dissertation
Units: 2 Terms Offered: FaSpSm Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

CTCS 794c Doctoral Dissertation
Units: 2 Terms Offered: FaSpSm Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

CTCS 794d Doctoral Dissertation
Units: 2 Terms Offered: FaSpSm Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

CTCS 794z Doctoral Dissertation
Units: 0 Terms Offered: FaSpSm Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

Interactive Media

Note: Instructor availability for a particular course or section cannot be guaranteed.

CTIN 101 Fundamentals of Procedural Media
Units: 2 Terms Offered: FaSp Introduction to the procedural nature of interactive media and games, though the coding language Processing. Students will develop proficiency in reading and creating computational media. Duplicates Credit in

former CTIN 400 Instruction Mode: Lecture Grading Option: Letter

CTIN 110 Statistical Analysis for Games: Storytelling with Numbers
Units: 4 Terms Offered: Sp An introductory course on using statistical analysis for user research and assessment of interactive projects. Instruction Mode: Lecture Grading Option: Letter

CTIN 190 Introduction to Interactive Entertainment
Units: 4 Terms Offered: FaSp Critical vocabulary and historical perspectives on interactive entertainment; students articulate their own ideas, while wrestling with the larger conceptual issues at play within the field. Duplicates Credit in former CTIN 309 Instruction Mode: Lecture Grading Option: Letter

CTIN 191 Survey of Themed Entertainment
Units: 4 Terms Offered: FaSp Introduction to the field of themed entertainment and education design, covering its history, and, especially, current practice. Instruction Mode: Lecture Grading Option: Letter

CTIN 200L The New Games Industry
Units: 2 Terms Offered: Sm An overview of what it means to be a professional game developer in the modern and rapidly changing economic environment. Instruction Mode: Lecture, Lab Required Grading Option: Letter

CTIN 202 Foundations of Game Development
Units: 2 Terms Offered: Sm Foundational concepts for game designers, including playcentric design and flexible skills and knowledge for collaboratively creating and discussing playable systems. Instruction Mode: Lecture, Lab Grading Option: Letter

CTIN 290 Digital Media Workshop
Units: 4 Terms Offered: FaSp Exploration of a variety of moving image aesthetics and methodologies in order to highlight how the language of cinema shapes contemporary digital and interactive media practices. Instruction Mode: Lecture, Lab Grading Option: Letter

CTIN 291 Advanced Games Crew
Units: 2 Max Units: 04 Terms Offered: FaSp Hands-on creating experiences for students who want to work as crew on an advanced game project. Instruction Mode: Lecture Grading Option: Letter

CTIN 332 Games for Animation
Units: 2 Terms Offered: Sp Contemporary examples and theories of the crossover between animation and video game practices. Instruction Mode: Lecture Grading Option: Letter

CTIN 401L Interface Design for Games
Units: 2 Terms Offered: Fa Introduction to the aesthetics, terminology and common trends of interface design for games. Topics include 2-D and 3-D spaces and user/camera perspectives. Instruction Mode: Lecture, Lab Required Grading Option: Letter

CTIN 403L Advanced Visual Design for Games
Units: 2 Terms Offered: Sp The scope of visual game design, including the role of characters, architecture, indoor and outdoor spaces, and environmental effects and sounds. *Prerequisite:* CTIN 401L; *Recommended Preparation:* CTAN 443L. Instruction Mode: Lecture, Lab Required Grading Option: Letter

CTIN 404L User Research for Games
Units: 2 Terms Offered: Sp Concepts and methods of usability assessment. The emphasis will be on understanding the issues surrounding game interfaces, and utilizing usability assessment methods. Instruction Mode: Lecture, Lab Required Grading Option: Letter

CTIN 405L Design and Technology for Mobile Experiences
Units: 2 Terms Offered: Sp Critical and pragmatic insights into designing mobile experiences and technology. Design groups will develop a mobile project using principles from readings and class discussions. Instruction Mode: Lecture, Lab Required Grading Option: Letter

CTIN 406L Sound Design for Games
Units: 2 Terms Offered: Sp Introduction to the techniques, terminology, and implementation of sounds in games, including establishing a sense of place and concepts of realistic sound. Instruction Mode: Lecture, Lab Required Grading Option: Letter

CTIN 409 Producing Interactive Projects
Units: 2 Terms Offered: Fa An in-depth exploration of the development and production concepts woven into the USC Games curriculum and utilized in the professional games industry. Instruction Mode: Lecture Grading Option: Letter

CTIN 411 Tabletop Game Mechanics Seminar
Units: 2 Terms Offered: FaSp Seminar on the design patterns and mechanics of successful tabletop games. Includes guest speakers on the latest trends in gaming content, tools, business and culture. Duplicates Credit in former CTIN 511 Instruction Mode: Lecture Grading Option: Credit/No Credit

CTIN 420 Tabletop Roleplaying Games
Units: 2 Terms Offered: Sp An overview of tabletop roleplaying games and the design space around roleplaying. *Recommended Preparation:* CTIN 488 or CTIN 541 Instruction Mode: Lecture Grading Option: Letter

CTIN 426 Video Games, Identity, and Diversity
Units: 2 Terms Offered: FaSp Thinking about video games in relation to many personal and cultural factors, including race, disability, class, gender, sexuality, and body type. Instruction Mode: Lecture Grading Option: Letter

CTIN 432 Polishing and Publishing Interactive Media
Units: 2 Terms Offered: Fa Mentorship, guidance, and key skills related to pitching, presenting, and releasing games or other creative work. Instruction Mode: Lecture, Lab Grading Option: Letter

CTIN 444 Audio Expression
Units: 2 Terms Offered: Sp Foundational aesthetic principles and creative technologies for game audio. Processing, mixing, and controlling sound for games for expressive effect. *Recommended Preparation:* CTIN 406L. Instruction Mode: Lecture Grading Option: Letter

CTIN 452L Themed Entertainment Design
Units: 4 Terms Offered: Fa The fundamentals of design, technology, operations and process for the creation of themed entertainment experiences and story-centric place-making. *Prerequisite:* (CTIN 191 and CTIN 488) or CTIN 541 Instruction Mode: Lecture, Lab Required Grading Option: Letter

CTIN 456 Game Design for Business
Units: 2 Terms Offered: Sp Designed to provide the business professional with effective communication skills in working with the designers of games and game related venues. Instruction Mode: Lecture Grading Option: Letter

CTIN 458 Business and Management of Games
Units: 2 Terms Offered: FaSp Overview of current business models in games and interactive media, methods for pitching and getting products funded; copyright and intellectual property. Instruction Mode: Lecture Grading Option: Letter

CTIN 459L Game Industry Workshop
Units: 4 Terms Offered: Fa Exploration of industry-related game play research questions. Student teams will develop concepts and materials to solve a research problem posed by an industry partner. *Prerequisite:* CTIN 488; *Recommended Preparation:* CTIN 489. Instruction Mode: Lecture, Lab Required Grading Option: Letter

CTIN 462 Critical Theory and Analysis of Games
Units: 4 Terms Offered: Sp Formal, aesthetic, and cultural aspects of digital games, critical discourse around gameplay, and the relationship of digital games to other media. *Recommended Preparation:* CTIN 488. Instruction Mode: Lecture Grading Option: Letter Crosslisted as CTCS-462

CTIN 463 Anatomy of a Game
Units: 4 Terms Offered: Fa Examine two game products from concept to delivery; introduce students to each of the professional disciplines involved in making digital games. *Recommended Preparation:* CTIN 488. Instruction Mode: Lecture Grading Option: Letter

CTIN 464 Game Studies Seminar
Units: 2 Max Units: 4.0 Terms Offered: Fa Rigorous examination of interactive entertainment: genres, history, aesthetics, cultural context, and social significance. Topics vary by semester. Instruction Mode: Lecture Grading Option: Letter

CTIN 478 Level Design Workshop
Units: 2 Terms Offered: FaSp
A workshop on focused design tasks, creating many levels on paper and in game engines. *Prerequisite:* CTIN 488 or CTIN 541 *Recommended Preparation:* CTIN 483 Instruction Mode: Lecture, Lab Grading Option: Letter

CTIN 479 Documentary and Activist Games
Units: 2 Terms Offered: Sp How interaction design and games document reality. The unique abilities of interactive media in the realms of non-fiction, documentary, and activism. *Recommended Preparation:* CTIN

190, CTIN 488 or CTIN 541. Instruction Mode: Lecture Grading Option: Letter

CTIN 480 Directing for Games and Interactive Media
Units: 2 Terms Offered: Sp An introduction to the skills of directorial perspective, scene breakdown, thematic intent, project planning, team building, communication, situational decision-making and response to change. *Prerequisite:* CTIN 489 or CTIN 532L Instruction Mode: Lecture Grading Option: Letter

CTIN 481 Augmenting Reality: Worldbuilding for Games and Spaces
Units: 2 Terms Offered: FaSp Creative narrative design approaches to augmented reality for use in games, physical spaces and community events. Instruction Mode: Lecture Grading Option: Letter

CTIN 482 Designing Social Games
Units: 2 Max Units: 04 Terms Offered: FaSp Leading industry techniques and networking fundamentals; designing an original social game. Duplicates Credit in former CNTV 482 Instruction Mode: Lecture Grading Option: Letter

CTIN 483 Introduction to Game Development
Units: 4 Terms Offered: FaSp Introduction to technical and creative aspects of game development, including the art of creating the digital game prototype and development of games; coding experience required. *Prerequisite:* CTIN 101 or ITP 115 or CSCI 103L *Recommended Preparation:* CTIN 290 Instruction Mode: Lecture, Lab Grading Option: Letter

CTIN 484L Intermediate Game Development
Units: 2 Terms Offered: FaSpSm Advanced topics in game programming and implementation such as using game engines, creating digital prototypes, player controls and level design. *Prerequisite:* CTIN 483 or CSCI 104L or ITP 215L *Concurrent Enrollment:* CTIN 489 Instruction Mode: Lecture, Lab Required Grading Option: Letter

CTIN 485 Advanced Game Development
Units: 2 Max Units: 06 Terms Offered: FaSp Advanced concepts in 3-D game development: story and character progression, emergent game-play, comprehensive game mechanics and artificial intelligence. *Prerequisite:* CTIN 484L or CTIN 541 Instruction Mode: Lecture, Lab Grading Option: Letter

CTIN 486 Alternative Control Workshop
Units: 2 Terms Offered: Sp Design of game projects using immersive input devices. Development of play mechanics, feedback systems and game design for immersive environments. Instruction Mode: Lecture, Lab Grading Option: Letter

CTIN 487 Streaming Explorations: Games and Entertainment for Community
Units: 2 Terms Offered: FaSp Best practices and strategies for streaming. Students build a personality and audience through the course, receiving advice and feedback from emerging leaders in the field. Instruction Mode: Lecture Grading Option: Letter

CTIN 488 Game Design Workshop
Units: 4 Terms Offered: FaSp An introduction to making games. Students will explore the principles of game design through the entirely analog creation of card, board and tabletop games. *Recommended Preparation:* CTIN 190 Instruction Mode: Lecture, Lab Grading Option: Letter

CTIN 489 Intermediate Game Design Workshop
Units: 2 Terms Offered: FaSp A follow-up to the introductory game design class, this course will introduce more advanced concepts in game design and game theories, including ideation, digital prototyping and level design. *Prerequisite:* CTIN 483, CTIN 488 or CTIN 541; *Concurrent Enrollment:* concurrent enrollment: CTIN 484. Instruction Mode: Lecture Grading Option: Letter

CTIN 490x Directed Research
Units: 1, 2, 3, 4, 5, 6, 7, 8 Max Units: 12.0 Terms Offered: FaSpSm Individual research and readings. Instruction Mode: Lecture Grading Option: Letter

CTIN 491L Advanced Game Project I
Units: 4 Max Units: 08 Terms Offered: Fa Students work in teams on pre-production and production of a functional digital game suitable for showcases, festivals, and further development. *Prerequisite:* CTIN 484L Duplicates Credit in former CTIN 491a Instruction Mode: Lecture, Lab Required Grading Option: Letter

CTIN 492L Experimental Game Topics
Units: 4 Max Units: 8.0 Terms Offered: FaSp Development of a game around a custom-made physical interface; various technologies and techniques involved in a software/hardware integration; peripheral design. Instruction Mode: Lecture, Lab Required Grading Option: Letter

CTIN 493L Advanced Game Project II
Units: 2 Max Units: 4.0 Terms Offered: Sp Students work in teams to polish and finalize a functional digital game suitable for distribution via the web and/or submission into independent games festivals. Duplicates Credit in former CTIN 491b. Instruction Mode: Lecture, Lab Required Grading Option: Letter

CTIN 497 Interactive Media Startup
Units: 1 Max Units: 3.0 Terms Offered: FaSp Pitching, production planning, forming a company and seeking funding for your creative media idea. Duplicates Credit in former CTIN 497ab. Instruction Mode: Lecture Grading Option: Letter

CTIN 499 Special Topics
Units: 2, 3, 4 Max Units: 8.0 Terms Offered: FaSpSm Detailed investigation of new or emerging aspects of cinema, television, and/or interactive media; special subjects offered by visiting faculty; experimental subjects. Instruction Mode: Lecture Grading Option: Letter

CTIN 501 Interactive Cinema
Units: 2 Terms Offered: FaSp Provide students with a vocabulary of conceptual and artistic means to create computer based interactive works. Instruction Mode: Lecture Grading Option: Letter

CTIN 503 Interactive Entertainment, Science, and Healthcare
Units: 2 Terms Offered: FaSpSm Overview of foundational concepts required for design, development and evaluation of interactive entertainment and transmedia-based interventions at the intersection of neuroscience, public health and medicine. *Recommended Preparation:* Proficiency in conducting literature reviews; social media use; using interactive media and playing games. Registration Restriction: Open only to seniors and graduate students. Instruction Mode: Lecture Grading Option: Letter

CTIN 506 Procedural Expression
Units: 2 Terms Offered: Fa Developing procedural literacy in the analysis and creation of computational media; an introduction to how we create meaningful experiences using rules and interaction. Duplicates Credit in former CTIN 400. Instruction Mode: Lecture Grading Option: Letter

CTIN 510 Research Methods for Innovation, Engagement and Assessment
Units: 2 Terms Offered: Sp Planning, designing, and analyzing a research study for a digital media project. Production of a written report and presentation. *Recommended Preparation:* CTIN 506, CTIN 541, and CTCS 505. Instruction Mode: Lecture Grading Option: Letter

CTIN 520 Experience and Design of Public Interactives
Units: 2 Terms Offered: Sp Introduction to the design of public interactives, the meaning of built space and environmental experiences, and the relationship between interactivity and social communication. Instruction Mode: Lecture Grading Option: Letter

CTIN 532L Interactive Design and Production I
Units: 4 Terms Offered: Fa The development of interactive experiences with an emphasis on prototyping and development. Instruction Mode: Lecture, Lab Required Grading Option: Letter

CTIN 534L Experiments in Interactivity I
Units: 4 Terms Offered: Fa Experimental studio course to explore concepts of structure, aesthetics and content of interactive experience design. Instruction Mode: Lecture, Lab Required Grading Option: Letter

CTIN 541 Design for Interactive Media
Units: 4 Terms Offered: Fa Practical exploration and practicum on the fundamental process and principles of interactive media design. Students develop design and prototyping skills while working in collaborative teams. Instruction Mode: Lecture, Lab Grading Option: Letter

CTIN 542 Interactive Design and Production II
Units: 2 Terms Offered: Sp Rapid prototyping and forward iteration of thesis project ideas developed in CTIN 548. *Prerequisite:* CTIN 532L *Concurrent Enrollment:* CTIN 548 Instruction Mode: Lecture, Lab Grading Option: Letter

CTIN 544 Experiments in Interactivity II
Units: 2 Terms Offered: Sp Experimental studio course in application of technology to interactive experience. *Prerequisite:* CTIN 534. Instruction Mode: Lecture, Lab Grading Option: Letter

CTIN 548 Preparing the Interactive Project
Units: 2 Terms Offered: Sp An advanced production workshop in which students

design and prepare for the production of their advanced project. *Prerequisite:* CTIN 532. Instruction Mode: Lecture Grading Option: Letter

CTIN 558 Business of Interactive Media
Units: 2 Terms Offered: Fa In-depth investigation of publication, distribution, business and legal aspects of the interactive entertainment business. Instruction Mode: Lecture Grading Option: Letter

CTIN 575 Health and Interactive Entertainment Research Lab
Units: 2, 4 Max Units: 08 Terms Offered: FaSpSm Emerging transdisciplinary research methods for conducting formative or summative evaluation of interactive entertainment-based interventions. Instruction Mode: Lecture, Lab Grading Option: Credit/No Credit

CTIN 583 Game Development for Designers
Units: 2 Terms Offered: Sp The fundamentals of 3-D real time game engines, scripting for interactivity, and building games with digital tools. *Recommended Preparation:* CTIN 506 Instruction Mode: Lecture, Lab Grading Option: Letter

CTIN 584a Individual Interactive Workshop
Units: 4 Individual experimental projects involving the creative use of interactive media and film production skills. Instruction Mode: Lecture Grading Option: In-progress & Letter Grade

CTIN 584b Individual Interactive Workshop
Units: 2 Individual experimental projects involving the creative use of interactive media and film production skills. Instruction Mode: Lecture Grading Option: In-progress & Letter Grade

CTIN 584c Individual Interactive Workshop
Units: 2 Individual experimental projects involving the creative use of interactive media and film production skills. Instruction Mode: Lecture Grading Option: In-progress & Letter Grade

CTIN 584z Individual Interactive Workshop
Units: 0 Individual experimental projects involving the creative use of interactive media and film production skills. Instruction Mode: Lecture Grading Option: In-progress & Letter Grade

CTIN 590 Directed Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Terms Offered: FaSpSm Research project leading to the master's degree. Maximum units which may be applied to the degree to be determined by the department. Instruction Mode: Lecture Grading Option: Credit/No Credit

CTIN 591 Advanced Development Project
Units: 2 Max Units: 8.0 Terms Offered: FaSp Students from many disciplines work in large teams to create an innovative, large-scale interactive media or game project. *Recommended Preparation:* CTCS 505, CTIN 541. Instruction Mode: Lecture Grading Option: Letter

CTIN 593 Integrative Project: Media-based Interventions in Healthcare
Units: 2, 4 Max Units: 4 A project that showcases integrative mastery of prior and newly acquired knowledge, skills and interests. Permission of instructor required. *Prerequisite:* CTIN 503. *Corequisite:* IML 543. Registration Restriction: Open only to Media Arts, Games and Health majors. Instruction Mode: Lecture Grading Option: Credit/No Credit

CTIN 594a Master's Thesis
Units: 2 Terms Offered: FaSp Credit on acceptance of thesis. *Prerequisite:* CTIN 548. Instruction Mode: Lecture Grading Option: In-progress & Credit/No Credit

CTIN 594b Master's Thesis
Units: 2 Terms Offered: FaSp Credit on acceptance of thesis. *Prerequisite:* CTIN 548. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

CTIN 594z Master's Thesis
Units: 0 Terms Offered: FaSp Credit on acceptance of thesis. *Prerequisite:* CTIN 548. Instruction Mode: Lecture Grading Option: In-progress & Credit/No Credit

CTIN 599 Special Topics
Units: 2, 3, 4 Max Units: 8.0 Terms Offered: FaSpSm Detailed investigation of new or emerging aspects of interactive media; special subjects offered by visiting faculty; experimental subjects. Instruction Mode: Lecture Grading Option: Letter

Production

Note: Instructor availability for a particular course or section cannot be guaranteed.

CTPR 240x Practicum in Production
Units: 2 or 4 Terms Offered: Sm Basic production techniques: introduction to the cinematic elements, production techniques, and equipment; film and/or videotape production. Instruction Mode: Lecture Grading Option: Letter

CTPR 241 Fundamentals of Cinema Technique
Units: 2 Terms Offered: FaSp Introduction to cinema production techniques and equipment including producing, directing, camera, lighting, and editing. Instruction Mode: Lecture Grading Option: Letter

CTPR 280 Structure of the Moving Image
Units: 2 Terms Offered: FaSp Basic theory and application of the concepts of time, space, composition, movement, light and color in motion picture production. Instruction Mode: Lecture Grading Option: Letter

CTPR 285 Lateral Thinking for Filmmaking Practice
Units: 2 Terms Offered: FaSp Introduces contemporary concepts of production, emphasizing the variety of contemporary media and significant related concepts. Projects created using laptops, phones and networks. Instruction Mode: Lecture, Discussion Grading Option: Letter

CTPR 288 Originating and Developing Ideas for Film
Units: 2 Terms Offered: FaSp Exercises in observation, imaginative association, visualization, etc., that deepen the creative process, leading to ideas, stories, characters and images for narrative, documentary and experimental films. Instruction Mode: Lecture Grading Option: Letter

CTPR 290 Cinematic Communication
Units: 4, 6 Terms Offered: FaSpSm Introduction to the interrelationship of visuals, sound, and editing in cinematic communication. Workshops in directing and producing. Individual and group projects. *Recommended Preparation:* CTPR 285. Instruction Mode: Lecture, Lab Grading Option: Letter

CTPR 294 Directing in Documentary, Fiction and New Media
Units: 4 Terms Offered: FaSp Basic concepts of directing in new media, documentary and fictional narrative. Includes work with actors, documentary concepts, and creation of short new media projects. *Concurrent Enrollment:* CTPR 295L Instruction Mode: Lecture Grading Option: Letter

CTPR 295L Cinematic Arts Laboratory
Units: 4 Terms Offered: FaSp The aesthetics and tools of the major disciplines of cinematic arts: producing, cinematography, sound, and editing. *Concurrent Enrollment:* Concurrent enrollment: CTPR 294. Instruction Mode: Lecture, Lab Required Grading Option: Letter

CTPR 310 Intermediate Production
Units: 4, 6 Terms Offered: FaSpSm Principles of visual and aural communication; idea development and realization using image, movement, pace, the spoken word and other sounds; small crew projects. *Prerequisite:* CTPR 294, CTPR 295L. Instruction Mode: Lecture, Discussion Grading Option: Letter

CTPR 327 Motion Picture Cinematography
Units: 3 Terms Offered: FaSpSm Use of high definition motion picture equipment to explore the fundamentals of shot design, movement and lighting. In class group projects. Instruction Mode: Lecture Grading Option: Letter

CTPR 335 Motion Picture Editing
Units: 3 Terms Offered: FaSp Theory, techniques, and practices in picture editing; use of standard editing equipment; individual projects. Instruction Mode: Lecture Grading Option: Letter

CTPR 340 Creating the Motion Picture Sound Track
Units: 2 Terms Offered: FaSpSm Techniques and aesthetics for recording production sound, editing dialogue, sound effects, music, Foley and preparing for the mix. For film, television, and other media. Instruction Mode: Lecture Grading Option: Letter

CTPR 371 Directing for Television
Units: 4 Terms Offered: FaSp Preparation of director's preproduction blockout; study of direction for live, tape, and film production, for both dramatic and informational television. Instruction Mode: Lecture Grading Option: Letter

CTPR 375 Functions of a Director
Units: 4 Terms Offered: Sp Theoretical considerations of the director in relationship to the multiple facets of film production. Instruction Mode: Lecture Grading Option: Letter

CTPR 382 Advanced Multi-Camera Television Comedy Pilot
Units: 4 Terms Offered: FaSp A hands-on course which allows students to experience all aspects of multi-camera television production by creating a pilot episode of a situation comedy. *Recommended Preparation:* experience working at Trojanvision. Instruction Mode: Lecture Grading Option: Letter

CTPR 385 Colloquium: Motion Picture Production Techniques
Units: 4 Terms Offered: FaSpSm Basic procedures and techniques applicable to production of all types of films; demonstration by production of a short film from conception to completion. Instruction Mode: Lecture Grading Option: Letter

CTPR 386 Art and Industry of the Theatrical Film
Units: 4 Terms Offered: FaSp Detailed analysis of one theatrical film from conception through critical reception to develop an understanding of motion pictures as art, craft, and industry. Instruction Mode: Lecture Grading Option: Letter

CTPR 404 Practicum in Podcast Production
Units: 2 Terms Offered: FaSp The basics of podcast production, including creating an idea, researching and writing the script, hosting, casting, recording and promoting a podcast episode. Instruction Mode: Lecture Grading Option: Letter

CTPR 406 Visual Story and Communication
Units: 2 Terms Offered: FaSp How visuals communicate emotions and ideas in streaming media, advertising, digital games, business and legal presentations and documentary and scripted filmmaking. Instruction Mode: Lecture Grading Option: Letter

CTPR 409 Practicum in Television Production
Units: 1, 2, 4 Max Units: 08 Terms Offered: FaSp Television production laboratory course covers operating cameras, creating graphics, technical operations, controlling audio and floor-managing live productions. Students plan and produce actual Trojan Vision programs. Instruction Mode: Lecture Grading Option: Letter

CTPR 410 The Movie Business: From Story Concept to Exhibition
Units: 2 Terms Offered: FaSp Examination of the industry from story ideas through script development, production and exhibition; evaluation of roles played by writers, agents, studio executives, marketing and publicity. Instruction Mode: Lecture Grading Option: Letter

CTPR 421 Practicum in Editing
Units: 2 Terms Offered: FaSpSm Workshop in how editing can shape storytelling, using content from a variety of media and in various styles. Modern non-linear equipment and techniques. *Prerequisite:* CTPR 310 or CTPR 335. Instruction Mode: Lecture Grading Option: Letter

CTPR 422 Makeup for Motion Pictures
Units: 2 Terms Offered: FaSp Lecture-laboratory in makeup relating it to mood of the story and emulsion of the camera stock. Instruction Mode: Lecture, Lab Grading Option: Letter

CTPR 423 Introduction to Special Effects in Cinema
Units: 2 Terms Offered: FaSp Introductory workshop in the aesthetics and practices of special effects, embracing both the classical and contemporary modes. Instruction Mode: Lecture Grading Option: Letter

CTPR 424 Practicum in Cinematography
Units: 2 Terms Offered: FaSp Camera and lighting workshop in color cinematography, beginning with digital still photography and moving into 16mm and advanced digital cameras. In-class exercises. *Prerequisite:* CTPR 310 or CTPR 327 Instruction Mode: Lecture Grading Option: Letter

CTPR 425 Production Planning
Units: 2 Terms Offered: FaSp Theory, discussion, and practical application of production planning during preproduction and production of a film. Instruction Mode: Lecture Grading Option: Letter

CTPR 426 The Production Experience
Units: 2 Terms Offered: FaSp To provide students with basic working knowledge of both the skills of the motion picture set and production operations through classroom lectures and hands-on experience. Instruction Mode: Lecture Grading Option: Letter

CTPR 427 Introduction to Color Grading
Units: 2 Terms Offered: FaSpSm Exploration of the various aspects of color grading and how it can enhance storytelling. *Prerequisite:* CTPR 310 or CTPR 508 Instruction Mode: Lecture Grading Option: Letter

CTPR 428 Summer Production Workshop
Units: 2, 3, 4 Max Units: 8.0 Terms Offered: Sm To investigate disciplines of Cinema-TV with emphasis on one of the following areas: writing, directing, editing, camera, sound, editing, producing, interactive, computer animation or digital. Instruction Mode: Lecture Grading Option: Letter

CTPR 431 Developing the Documentary Production
Units: 2 Terms Offered: FaSp The tools and skills necessary to turn an idea into a documentary story, using sample reels, pitches, and writing to develop a professional proposal. Instruction Mode: Lecture Grading Option: Letter

CTPR 438 Practicum in Producing
Units: 2 Terms Offered: FaSp A comprehensive overview of the role of the producer. How projects are conceived, developed, packaged, financed and marketed. *Prerequisite:* CTPR 310 or CTPR 425. Instruction Mode: Lecture Grading Option: Letter

CTPR 440 Practicum in Sound
Units: 2 Max Units: 4.0 Terms Offered: FaSp Aesthetic and technical skills of production and postproduction sound necessary to create a motion picture soundtrack. *Prerequisite:* CTPR 310 or CTPR 340. Instruction Mode: Lecture Grading Option: Letter

CTPR 441 Sound Design
Units: 2 Terms Offered: FaSp The historical, theoretical, and practical aspects of sound design for genre films. Exploration of the techniques and processes for creating sounds that do not exist. *Prerequisite:* CTPR 310 or CTPR 508 Instruction Mode: Lecture, Discussion Grading Option: Letter

CTPR 447 Producing Visual Effects
Units: 2 Terms Offered: FaSp The complex creative, technical, financial, logistical and political challenges of incorporating visual effects into film projects from initial pre-production through final delivery. *Prerequisite:* CTPR 310 or CTPR 508 Instruction Mode: Lecture Grading Option: Letter

CTPR 448 World Building Design Studio
Units: 2 Terms Offered: FaSp Integrating visual and scenario design in the construction of worlds as containers for narrative in documentary, drama, fiction, fantasy, and immersive media. Instruction Mode: Lecture Grading Option: Letter

CTPR 450 The Production and Post-Production Assistant
Units: 2 Terms Offered: FaSp Detailed view of the process of making media. Introducing fundamental thinking typical of each craft. Weekend crew experience and responsibilities. *Prerequisite:* CTPR 310. Registration Restriction: Open only to Cinematic Arts Film and Television Production majors. Instruction Mode: Lecture Grading Option: Letter

CTPR 454 Acting for Film and Television
Units: 4 Terms Offered: FaSp Intensive examination of skills and techniques necessary for successful performances in film and television. Practical application through in-class exercises and assigned projects. Instruction Mode: Lecture Grading Option: Letter

CTPR 455 Survey of Production Design
Units: 2 Terms Offered: FaSpSm How production designers in film and television use graphic tools to create thematic visuals based on a script. Lectures, guest speakers, individual projects. Instruction Mode: Lecture Grading Option: Letter

CTPR 456 Introduction to Art Direction
Units: 2 Terms Offered: FaSp Introduction to drafting, set design, set decoration and creating models for students with diverse abilities. Guest lectures, group discussions and hands-on workshop. Instruction Mode: Lecture Grading Option: Letter

CTPR 457 Creating Poetic Cinema
Units: 2 Terms Offered: Fa An investigation of poetic cinema from four different perspectives: found poetry; applied poetry; poetry as image; and poetry in narrative fiction. Production of short films. Instruction Mode: Lecture Grading Option: Letter

CTPR 458 Organizing Creativity: Entertainment Industry Decision Making
Units: 2 Terms Offered: Sp Analysis of the unique structures in the entertainment industry for organizing and managing creativity. Students research and chart pathways to leadership. Registration Restriction: Open only to juniors, seniors, and graduate students. Instruction Mode: Lecture Grading Option: Letter

CTPR 459 Introduction to Media and Social Change
Units: 4 The history and theory of media and social change, including various disciplines and approaches: social marketing, communication campaign design, entertainment-education and specific media. Instruction Mode: Lecture Grading Option: Letter

CTPR 460 Film Business Procedures and Distribution
Units: 2 or 4 Max Units: 8.0 Terms Offered: FaSpSm Financing, budgeting, management as applied to films; problems of distribution, including merchandising, cataloging, evaluation, and film library management. Instruction Mode: Lecture Grading Option: Letter

CTPR 461 Managing Television Stations and Internet Media
Units: 2 Terms Offered: FaSpSm Managing electronic media, including radio and television stations, broadcast and cable networks, and the Internet. Instruction Mode: Lecture Grading Option: Letter

CTPR 462 Masters of Directorial Style
Units: 2 Max Units: 4 Terms Offered: FaSp The study of exceptional directors from different eras with contrasting stylistic approaches, and how these techniques can creatively inform the student's own work. Instruction Mode: Lecture Grading Option: Letter

CTPR 464 Directing the Television Sketch Comedy Show
Units: 2 Max Units: 4 Terms Offered: FaSp Concepts and skills in directing sketch comedy shows, using the techniques of live television. Hands-on experience on live weekly shows. *Recommended Preparation:* CTPR 371 or CTPR 476 or CTPR 484 or CTPR 523 or CTPR 532. Instruction Mode: Lecture Grading Option: Letter

CTPR 465 Practicum in Production Design
Units: 2 Terms Offered: FaSp Practical instruction in script breakdown, location surveys, traditional and computer-aided working drawings, model making, set decoration, construction and scenic departments. *Prerequisite:* CTPR 310 or CTPR 456 Instruction Mode: Lecture Grading Option: Letter

CTPR 466 The Art of the Pitch
Units: 2 Terms Offered: FaSpSm Presenting ideas for feature and television projects to buyers: shaping ideas for pitching, assessing and targeting the marketplace, in-class pitching of projects. *Prerequisite:* CTPR 310. Instruction Mode: Lecture Grading Option: Letter

CTPR 469 Creating Webisodes
Units: 2 Max Units: 4 Terms Offered: FaSp Production of a fully realized pilot episode, series bible and sizzle reel for a web series. *Prerequisite:* CTPR 310 or CTPR 508 Instruction Mode: Lecture Grading Option: Letter

CTPR 470 Practicum in On-screen Direction of Actors
Units: 4 Terms Offered: FaSp Concentration on the basic skills in working with actors from a director's point of view. Instruction Mode: Lecture Grading Option: Letter

CTPR 473 Spotting Music for Cinema
Units: 2 Terms Offered: FaSp A real world approach to spotting music for film: why film music exists and the many ways it is used in storytelling. For filmmakers as well as composers. Instruction Mode: Lecture Grading Option: Letter

CTPR 474 Documentary Production
Units: 4 Terms Offered: FaSpSm Pairs produce, direct, shoot, and edit a short documentary on a subject of their choice. Finished projects will be suitable for broadcast/festivals. Instruction Mode: Lecture Grading Option: Letter

CTPR 476 Directing The Comedic Scene
Units: 2 Terms Offered: FaSpSm Directing comedy: casting, rehearsing, directing actors, scene analysis, staging, shooting, and editing, leading to the filming of a two-person comic scene. Instruction Mode: Lecture Grading Option: Letter

CTPR 477 Collaborative Directing for Film and Television
Units: 2, 4 Terms Offered: FaSp Directing individual episodes of a composite feature-length film, in collaboration with other student directors. *Prerequisite:* CTPR 476 or CTPR 478 or CTPR 532 Instruction Mode: Lecture Grading Option: Letter

CTPR 478 Practicum in Directing
Units: 2 Terms Offered: FaSp Concepts of directing for motion pictures, emphasizing the working relationship of actors and directors. Scenes will be staged in class and filmed for class presentation. *Prerequisite:* CTPR 310. Instruction Mode: Lecture Grading Option: Letter

CTPR 479 Straight to Series: Development of Episodic TV Drama
Units: 2 Terms Offered: Fa Collaborative writing, preproduction and shooting of a pilot act for an original episodic television drama, shot on stage sets built for the show. Instruction Mode: Lecture Grading Option: Letter

CTPR 480 Advanced Production Workshop
Units: 4 Terms Offered: FaSpSm Directors, producers, cinematographers, editors and sound designers collaborate to produce, shoot, edit and deliver fictional, documentary or experimental projects. *Prerequisite:* CTPR 450 *Recommended Preparation:* CTPR 478 required to direct Registration Restriction: Open only to Film and Television Production majors Instruction Mode: Lecture Grading Option: Letter

CTPR 481 Contemporary Directing Practice
Units: 4 Terms Offered: FaSp Directing seven short projects ranging from short exercises to a scripted and polished final project. Focus will be upon development as a director. *Prerequisite:* CTPR 478 Registration Restriction: Open only to Cinematic Arts, Film and Television Production majors Instruction Mode: Lecture Grading Option: Letter

CTPR 484 Advanced Multi-Camera Television Workshop
Units: 4 Max Units: 08 Terms Offered: FaSp Exercises and practical application for writing and producing a multi-camera television project. Special attention to the development of the sitcom. *Recommended Preparation:* CTPR 371 required for undergraduate students who wish to direct a sitcom and CTPR 523 for graduate students who wish to direct. Instruction Mode: Lecture Grading Option: Letter

CTPR 486 Straight to Series: Production of Episodic TV Drama
Units: 4 Max Units: 08 Terms Offered: FaSpSm Collaborative production and postproduction of an original episodic drama, shot on original sets on stage and on location. *Prerequisite:* CTPR 450 or CTPR 504 or CTPR 508 Instruction Mode: Lecture, Lab Grading Option: Letter

CTPR 487 Recording for Film Scores
Units: 2 Terms Offered: FaSp Exploration of the role of the recording studio in professional film and video productions. Emphasis on technical and hardware considerations. Instruction Mode: Lecture Grading Option: Letter

CTPR 491 Internet Famous: How To Make Viral Comedy
Units: 2 Terms Offered: FaSp Translating traditional storytelling tools into short form comedy that stands out online. Writing, directing and producing creative projects designed for current online platforms. Instruction Mode: Lecture Grading Option: Letter

CTPR 496 The Film Industry: Career Challenges and Choices for Women
Units: 2 Terms Offered: FaSp This class discusses women's roles in the entertainment industry and career opportunities available for women in the business, corporate and creative sectors. Instruction Mode: Lecture Grading Option: Letter

CTPR 497 Music Video and Commercial Production
Units: 2 Terms Offered: FaSpSm Writing, budgeting, shooting, editing and directing a music video and commercial. Getting the job, dealing with the band, working with the record and advertising companies. *Prerequisite:* CTPR 310 or CTPR 508 Instruction Mode: Lecture Grading Option: Letter

CTPR 499 Special Topics
Units: 2, 3, 4 Max Units: 8.0 Terms Offered: FaSpSm Detailed investigation of new or emerging aspects of cinema and/or television; special subjects offered by visiting faculty; experimental subjects. Instruction Mode: Lecture Grading Option: Letter

CTPR 502 Collaboration and Creativity
Units: 1 Terms Offered: FaSp Foundations for fruitful collaborative experiences via readings, presentations, in-class exercises and real-life challenges and advice from professionals. Instruction Mode: Lecture Grading Option: Letter

CTPR 504 Fundamentals of Production
Units: 4 Terms Offered: FaSpSm Each student writes/directs a group exercise; includes: collaboration, script breakdown, story beats, casting, directing, camera operation, expressive cinematography, scene structure, AVID, editing and sound design. Instruction Mode: Lecture Grading Option: Credit/No Credit

CTPR 506 Visual Expression
Units: 2 Terms Offered: FaSp Exploring the relationship between story structure and visual structure, discussion of aesthetics and technical controls, in-class examples

and screenings, photographic assignments. *Prerequisite:* CTAN 547 or CTIN 534L or CTPR 504 or CTPR 507 Instruction Mode: Lecture Grading Option: Letter

CTPR 507 Production I
Units: 4 Terms Offered: FaSpSm The effective communication of ideas through the language of cinema; one directing exercise; two short HD projects; introductions to producing, directing, editing, cinematography, and sound. Instruction Mode: Lecture, Lab Grading Option: Letter

CTPR 508 Production II
Units: 6 Terms Offered: FaSpSm Practicum in group production, emphasizing the collaborative process and the expressive use of sound and image. *Prerequisite:* CTPR 507 and CTWR 505 Registration Restriction: Open only to graduate students Instruction Mode: Lecture, Lab Grading Option: Letter

CTPR 510 Concepts of Cinematic Production
Units: 2 Terms Offered: FaSpSm Overview of the process of making media. Introduces fundamental thinking typical of each craft. Presents realities of careers and ethical issues in media. *Corequisite:* CTPR 507. Instruction Mode: Lecture Grading Option: Letter

CTPR 515 Global Exchange Workshop
Units: 2 Max Units: 04 Terms Offered: Sm An intense workshop in documentary filmmaking. Student teams from USC and a Chinese university make short documentaries on Los Angeles and Beijing as global cities. Instruction Mode: Lecture Grading Option: Letter

CTPR 522 Reality Television Survey
Units: 2 Terms Offered: FaSpSm A comprehensive overview of the world of reality television; each student will develop and pitch an original reality-based program. Instruction Mode: Lecture Grading Option: Letter

CTPR 523 Introduction to Multiple-Camera Production
Units: 2 Terms Offered: FaSp How to direct comedy or dramatic scenes, using multiple camera techniques. Students also serve as crew members, learning lighting, mixing, studio controls, and stage management. *Prerequisite:* CTPR 508. Instruction Mode: Lecture Grading Option: Letter

CTPR 531 Planning the Documentary Production
Units: 2 Terms Offered: FaSpSm A preproduction workshop for the research and planning of a documentary project to be executed in CTPR 547 or an advanced production workshop class. *Prerequisite:* CTPR 508. Instruction Mode: Lecture, Discussion Grading Option: Letter

CTPR 532 Intermediate Directing
Units: 2 Terms Offered: FaSp Practical experience in staging dramatic narrative scenes, emphasizing directing actors, rehearsal techniques and camera blocking. *Prerequisite:* CTPR 508 Instruction Mode: Lecture Grading Option: Letter

CTPR 533 Directing Techniques
Units: 2 Terms Offered: FaSp Practicum in more complex directing issues concentrating both on performance and exploration of shaping scenes visually through blocking of action and placement of camera. *Prerequisite:* CTPR 532. Instruction Mode: Lecture Grading Option: Letter

CTPR 534 Intermediate Production Design
Units: 2 Terms Offered: Irregular Exercises concentrating on script analysis, blocking the scene, ground plans, elevations, visual research and concepts, departmental collaboration, and presentation of work. *Prerequisite:* CTPR 508 Instruction Mode: Lecture, Discussion Grading Option: Letter

CTPR 535 Intermediate Editing
Units: 2 Terms Offered: FaSp Editorial construction of film sequences to analyze the interrelationships of the various film elements, both visual and aural. *Prerequisite:* CTPR 508 or CTAN 547. Instruction Mode: Lecture Grading Option: Letter

CTPR 536 Editing for Scriptwriters
Units: 2 Terms Offered: FaSp Principles, techniques, practices and theories of editorial construction of film and TV scenes and sequences. Duplicates Credit in former CTWR 536. Instruction Mode: Lecture Grading Option: Letter

CTPR 537 Intermediate Cinematography
Units: 2 Terms Offered: FaSp Close study through practical in class exercises of the technical and aesthetic principles of cinematography. Introduction to 16mm film and advanced digital cameras. *Prerequisite:* CTPR 508 or CTAN 547. Instruction Mode: Lecture Grading Option: Letter

CTPR 538 Intermediate Producing
Units: 2 Terms Offered: FaSp Definition, examination and practical experience in the role of the line producer as it relates to preproduction, production and post production. *Prerequisite:* CTPR 508. Instruction Mode: Lecture Grading Option: Letter

CTPR 540 Intermediate Sound
Units: 2 Terms Offered: FaSp Practical and aesthetic considerations relating to recording, editing and sound design. *Prerequisite:* CTPR 507 or CTAN 547. Instruction Mode: Lecture Grading Option: Letter

CTPR 543 Editing the Advanced Project
Units: 2 Terms Offered: Irregular Utilitarian seminar focused on editing advanced projects. *Corequisite:* CTPR 481a, CTPR 581a or CTPR 587a. Instruction Mode: Lecture Grading Option: Letter

CTPR 546L Production III, Fiction
Units: 6 Max Units: 12.0 Terms Offered: FaSp An intensive workshop experience in which students, crewing in their area of specialization, complete the shooting and postproduction of projects up to thirty minutes in length. Qualifying courses: for directors, CTPR 532, and for cinematographers, CTPR 537; *Prerequisite:* CTPR 508. Instruction Mode: Lab Required, Lecture Grading Option: Letter

CTPR 547L Production III, Documentary
Units: 6 Max Units: 12 Terms Offered: FaSp Intensive workshop; students shoot and finish documentary projects up to about 25 minutes. Qualifying courses: for directors, CTPR 431 or CTPR 531; for cinematographers, CTPR 424 or CTPR 537. *Prerequisite:* CTPR 450 or CTPR 508 Instruction Mode: Lecture, Lab Required Grading Option: Letter

CTPR 551 Directing in a Virtual World
Units: 2 Terms Offered: FaSp Telling cinematic stories using visual effects and virtual backgrounds, environments, and characters. Hands-on exercises emphasizing directing. *Prerequisite:* CTAN 462; *Recommended Preparation:* CTAN 555 or CTPR 532 or CTPR 537. Registration Restriction: Open only to Cinematic Arts students. Instruction Mode: Lecture Grading Option: Letter

CTPR 552 Advanced Directing
Units: 2 Terms Offered: FaSp An advanced production class in directing. Encounters with experienced directors; and individual student production of a short. *Prerequisite:* CTPR 532 *Recommended Preparation:* CTPR 533 Instruction Mode: Lecture, Discussion Grading Option: Letter

CTPR 554 Advanced Sound
Units: 2 Terms Offered: FaSpSm Study of the technical and aesthetic elements of sound design at the professional level. Intended for those contemplating a career in the field of audio. *Prerequisite:* CTPR 540 or one of the following in equivalent crew position: CTPR 546L or CTPR 547L. Instruction Mode: Lecture, Lab Grading Option: Letter

CTPR 555 Advanced Production Design
Units: 2 The execution of a production designer's in-depth analysis and fully detailed breakdown of a feature-length script for story, character, sets, locations, set dressing, props, fabrics, color and texture. *Prerequisite:* CTPR 534 Instruction Mode: Lecture, Discussion Grading Option: Letter

CTPR 556 Advanced Professional Editing Tools and Software
Units: 2 Terms Offered: FaSpSm Advanced editing tools for picture editors, picture editing assistants, DIT, post supervisors and VFX editors, including AVID, After Effects, Photoshop, Scriptsync, Davinci Resolve and more. *Prerequisite:* CTPR 421 or CTPR 535 or CTPR 480 or CTPR 484 or CTPR 486 or CTPR 546L or CTPR 547L Instruction Mode: Lecture Grading Option: Letter

CTPR 557 Advanced Cinematography
Units: 2 Terms Offered: FaSpSm Advanced camera and lighting techniques for those considering a professional career in cinematography. *Prerequisite:* CTPR 424 or CTPR 537 Instruction Mode: Lecture Grading Option: Letter

CTPR 558 Advanced Producing
Units: 2 Terms Offered: FaSpSm Defines and examines the role of the Executive/Feature Producer through the preproduction, production and post production phases. *Prerequisite:* CTPR 538 or one of the following in equivalent crew position: CTPR 486, CTPR 546, CTPR 547. Instruction Mode: Lecture Grading Option: Letter

CTPR 565 Making Media for Social Change
Units: 2 Terms Offered: FaSp Each student will produce and direct a film incorporating a social issue of his/her choice into the narrative of the film. *Prerequisite:* CTPR 310 or CTPR 508. Instruction Mode: Lecture Grading Option: Letter

CTPR 566 The Pitch Class: Film and TV
Units: 2 Terms Offered: FaSp Developing, pitching and selling your feature motion picture and TV projects. Registration Restriction: Open only to seniors and master students in the USC School of Cinematic Arts Instruction Mode: Lecture Grading Option: Letter

CTPR 572 The World of Television: From Concept to Air and Everything in Between
Units: 2 Terms Offered: FaSp Takes projects from conception to sale, including development, production, post-production, and marketing. Students will develop original projects. *Prerequisite:* CTPR 508. Instruction Mode: Lecture Grading Option: Letter

CTPR 573 Developing and Producing the Advanced Project
Units: 2 Terms Offered: FaSp An advanced preproduction workshop in which students complete the development and production planning of an advanced project to be executed in Individual Production Workshop or Advanced Production Seminar. *Prerequisite:* CTPR 508 *Recommended Preparation:* submission of script required Duplicates Credit in former CTPR 553 Instruction Mode: Lecture Grading Option: Letter

CTPR 581a Individual Production Workshop
Units: 4 Terms Offered: FaSpSm Individual experimental projects involving the creative use of visuals (live action or animated) and sound. Qualifying courses: CTPR 532 (for directors); CTPR 558 (for producers). Graded IP/Letter. *Prerequisite:* CTPR 573 and CTPR 484 or CTPR 486 or CTPR 546L or CTPR 547L Registration Restriction: Open only to Cinematic Arts, Film and Television Production majors Instruction Mode: Lecture Grading Option: In Progress and Letter

CTPR 581b Individual Production Workshop
Units: 2 Terms Offered: FaSpSm Individual experimental projects involving the creative use of visuals (live action or animated) and sound. Graded IP/Letter. *Prerequisite:* CTPR 581a Registration Restriction: Open only to Cinematic Arts, Film and Television Production majors Instruction Mode: Lecture Grading Option: In Progress and Letter

CTPR 581c Individual Production Workshop
Units: 2 Terms Offered: FaSpSm Individual experimental projects involving the creative use of visuals (live action or animated) and sound. Graded IP/Letter. *Prerequisite:* CTPR 581b Registration Restriction: Open only to Cinematic Arts, Film and Television Production majors Instruction Mode: Lecture Grading Option: In Progress and Letter

CTPR 581z Individual Production Workshop
Units: 0 Terms Offered: FaSpSm Individual experimental projects involving the creative use of visuals (live action or animated) and sound. Graded IP/Letter. *Prerequisite:* CTPR 581c Registration Restriction: Open only to Cinematic Arts, Film and Television Production majors Instruction Mode: Lecture Grading Option: In Progress and Letter

CTPR 582a Advanced Production Seminar
Units: 2 Terms Offered: FaSpSm Advanced individual film or video projects under the guidance of a faculty mentor, without benefit of university equipment or resources. Qualifying courses: CTPR 532 (for directors); CTPR 558 (for producers). Graded IP/Letter. *Prerequisite:* CTPR 573 and CTPR 484 or CTPR 486 or CTPR 546L or CTPR 547L Registration Restriction: Open only to Cinematic Arts, Film and Television Production majors Instruction Mode: Lecture Grading Option: In Progress and Letter

CTPR 582b Advanced Production Seminar
Units: 2 Terms Offered: FaSpSm Advanced individual film or video projects under the guidance of a faculty mentor, without benefit of university equipment or resources. Graded IP/Letter. *Prerequisite:* CTPR 582a Registration Restriction: Open only to Cinematic Arts, Film and Television Production majors Instruction Mode: Lecture Grading Option: In Progress and Letter

CTPR 582z Advanced Production Seminar
Units: 0 Terms Offered: FaSpSm Advanced individual film or video projects under the guidance of a faculty mentor, without benefit of university equipment or resources. Graded IP/Letter. *Prerequisite:* CTPR 582b Registration Restriction: Open only to Cinematic Arts, Film and Television Production majors Instruction Mode: Lecture Grading Option: In Progress and Letter

CTPR 583 Graduate Television Production
Units: 6 Terms Offered: FaSp Advanced television group production workshop for students who want to produce an advanced multi-camera project. Qualifying courses: CTPR 532 (for directors); CTPR 538 (for producers). *Prerequisite:* CTPR 573 Registration Restriction: Open only to Cinematic Arts, Film and Television Production majors Instruction Mode: Lecture Grading Option: Letter

CTPR 585a Advanced Producing Project
Units: 2 Terms Offered: FaSpSm Supervised, individual study leading to the creation of a producer's package. The package will include script, schedule, budget, finance and marketing plan. Graded IP/Letter. *Prerequisite:* CTPR 538 *Corequisite:* CTPR 558 or CTPR 572 Registration Restriction: Open only to Film and Television Production majors Instruction Mode: Lecture Grading Option: In Progress to Letter

CTPR 585b Advanced Producing Project
Units: 2 Terms Offered: FaSpSm Supervised, individual study leading to the creation of a producer's package. The package will include script, schedule, budget, finance and marketing plan. Graded IP/Letter. *Prerequisite:* CTPR 585a Registration Restriction: Open only to Cinematic Arts, Film and Television Production majors Instruction Mode: Lecture Grading Option: In Progress and Letter

CTPR 585z Advanced Producing Project
Units: 0 Terms Offered: FaSpSm Supervised, individual study leading to the creation of a producer's package. The package will include script, schedule, budget, finance and marketing plan. Graded IP/Letter. *Prerequisite:* CTPR 585b Registration Restriction: Open only to Cinematic Arts, Film and Television Production majors Instruction Mode: Lecture Grading Option: In Progress and Letter

CTPR 587a Group Production Workshop
Units: 4 Terms Offered: FaSpSm Advanced group project involving the creative use of visuals (live action or animated) and sound specifically designed for students who want to work in pairs. Qualifying courses: CTPR 532 (for directors); CTPR 558 (for producers). *Prerequisite:* CTPR 573 Registration Restriction: Open only to Cinematic Arts, Film and Television Production majors Instruction Mode: Lecture Grading Option: In Progress and Letter

CTPR 587b Group Production Workshop
Units: 2 Terms Offered: FaSpSm Advanced group project involving the creative use of visuals (live action or animated) and sound specifically designed for students who want to work in pairs. *Prerequisite:* CTPR 587a Registration Restriction: Open only to Cinematic Arts, Film and Television Production majors Instruction Mode: Lecture Grading Option: In Progress and Letter

CTPR 587c Group Production Workshop
Units: 2 Terms Offered: FaSpSm Advanced group project involving the creative use of visuals (live action or animated) and sound specifically designed for students who want to work in pairs. *Prerequisite:* CTPR 587b Registration Restriction: Open only to Cinematic Arts, Film and Television Production majors Instruction Mode: Lecture Grading Option: In Progress and Letter

CTPR 587z Group Production Workshop
Units: 0 Terms Offered: FaSpSm Advanced group project involving the creative use of visuals (live action or animated) and sound specifically designed for students who want to work in pairs. *Prerequisite:* CTPR 587c Registration Restriction: Open only to Cinematic Arts, Film and Television Production majors Instruction Mode: Lecture Grading Option: In Progress and Letter

CTPR 594a Master's Thesis
Units: 2 Credit on acceptance of thesis. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

CTPR 594b Master's Thesis
Units: 2 Credit on acceptance of thesis. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

CTPR 594z Master's Thesis
Units: 0 Credit on acceptance of thesis. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

CTPR 599 Special Topics
Units: 2, 3, 4 Max Units: 8.0 Terms Offered: Irregular Detailed investigation of new or emerging aspects of cinema; special subjects offered by visiting faculty; experimental subjects. Instruction Mode: Lecture Grading Option: Letter

Curriculum, Teaching and Special Education

CTSE 593a Master's Seminar
Units: 2 Terms Offered: FaSpSm An examination and analysis of research and literature from the student's area of focus. Required of all master's candidates who do not enroll in the Master's Thesis (594abz). Instruction Mode: Lecture Grading Option: Credit/No Credit

CTSE 593b Master's Seminar
Units: 2 Terms Offered: FaSpSm An examination and analysis of research and literature from the student's area of focus. Required of all master's candidates who do not enroll in the Master's Thesis (594abz). Instruction Mode: Lecture Grading Option: Credit/No Credit

Writing

Note: Instructor availability for a particular course or section cannot be guaranteed.

CTWR 100g Story: Character, Conflict, and Catharsis
Units: 4 Terms Offered: Fa Fundamentals course on the elements of scene writing, story structure, and character development. Registration Restriction: Open only to students in Writing for Screen and Television Instruction Mode: Lecture, Discussion Grading Option: Letter

CTWR 105 Nonverbal Thinking: Visual and Aural
Units: 2 Terms Offered: Sp An introduction to non-verbal elements of images and sounds which convey meaning, mood, and emotion. Instruction Mode: Lecture Grading Option: Letter

CTWR 106a Screenwriting Fundamentals
Units: 4 Terms Offered: FaSp Introduction to and overview of the elements of theme, plot, character, and dialogue in dramatic writing for film. Instruction Mode: Lecture Grading Option: Letter

CTWR 106b Screenwriting Fundamentals
Units: 4 Terms Offered: FaSp Exercises in dramatic writing: theme, plot, character, dialogue and images. Integration of these elements into scenes and sequences. Instruction Mode: Lecture Grading Option: Letter

CTWR 120 Genesis of the Screenplay
Units: 2 Terms Offered: Sp The evolution of the screenplay from its roots in myths, plays, and short stories. Writing original treatments for film and television inspired by literary masters. Instruction Mode: Lecture Grading Option: Letter

CTWR 206a Writing the Screenplay
Units: 4 Terms Offered: Fa Development of synopsis and treatment for a theatrical or documentary screenplay: theme, plot, character, mise-en-scene and utilization of cinematic elements. Instruction Mode: Lecture Grading Option: Letter

CTWR 206b Writing the Screenplay
Units: 4 Terms Offered: Sp Writing a feature-length screenplay based on treatment developed in CTWR 206a. Includes a first draft and a polish. Instruction Mode: Lecture Grading Option: Letter

CTWR 211g The Television Writer: An Agent of Change
Units: 4 Terms Offered: FaSp The television writer as an agent of change across current social issues including, but not limited to: race, gender, and class. Satisfies New General Education in Category A: The Arts Instruction Mode: Lecture Grading Option: Letter

CTWR 212 Fundamental Topics of Writing for Film and TV
Units: 2, 4 Max Units: max 8 Terms Offered: FaSpSm Introductory course focusing on varying topics of fundamentals for feature writing and television writing. Instruction Mode: Lecture Grading Option: Letter

CTWR 213 Content and Consciousness
Units: 2 Terms Offered: Fa Inquiry into the relationship between cognitive and affective knowledge as it relates to the art of screenwriting and the screenwriter. Instruction Mode: Lecture Grading Option: Letter

CTWR 215 Practicum in Writing Short Films
Units: 2 Terms Offered: Sp Developing stories less than feature length; writing screenplays from them; understanding what length each story demands; creating idiosyncratic forms and styles. Instruction Mode: Lecture Grading Option: Letter

CTWR 250 Breaking the Story
Units: 2 Terms Offered: SpSm Examination of the fundamental elements of a good story, and how to use those elements to develop new screenplay ideas. *Recommended Preparation:* CTWR 106b. Instruction Mode: Lecture Grading Option: Letter

CTWR 305 Advanced Screenwriting: The Relationship Screenplay
Units: 4 Terms Offered: FaSpSm An inquiry into the complex nature of human relationships by writing an original feature length screenplay that examines the multidimensional world of characters and the ties that bind them together. Registration Restriction: Open only to Writing for Screen and Television majors. Instruction Mode: Lecture Grading Option: Letter

CTWR 306 Advanced Screenwriting: Alternative Narrative
Units: 4 Terms Offered: Sp Develop and write an original feature-length screenplay utilizing a non-linear narrative story structure that examines the creative use of time, perspective, and point of view to enhance both character and story. *Prerequisite:* CTWR 305. Instruction Mode: Lecture Grading Option: Letter

CTWR 314 Writing To Be Performed
Units: 2 Terms Offered: Fa Understanding the elements of screen performance to enhance the writing of complex characters and human relationships. *Prerequisite:* CTWR 100. Registration Restriction: Open only to Writing for Screen and Television majors. Instruction Mode: Lecture Grading Option: Letter

CTWR 315x Filmwriting
Units: 3 Terms Offered: FaSpSm The basics of screenwriting: theme, story structure, characterization, format, dialogue, and scene description. A character profile, short treatment, and first 30 pages of the screenplay are written. Lectures, screenings, and in-class readings. Instruction Mode: Lecture Grading Option: Letter

CTWR 321 Introduction to Hour-Long Television Writing
Units: 2 Terms Offered: FaSp The fundamentals of writing for dramatic episodic television. Writing scenes from popular television shows and examination of television story structure. *Prerequisite:* CTWR 100g or CTWR 402 or CTWR 409 or CTWR 413 Instruction Mode: Lecture Grading Option: Letter

CTWR 324 Introduction to Half-Hour Television Writing
Units: 2 Terms Offered: FaSp The fundamentals of writing for comedic episodic television. Writing scenes from popular comedy series and examination of half-hour television comedy story structure. *Prerequisite:* CTWR 409 or CTWR 413 *Recommended Preparation:* CTWR 404 Instruction Mode: Lecture Grading Option: Letter

CTWR 401 Writing the First Draft Feature Screenplay
Units: 4 Max Units: 8.0 Terms Offered: Sm Writing an outline and the first draft of a feature-length screenplay. Emphasis on character interrelationships, conflict, and three-act structure. Instruction Mode: Lecture Grading Option: Letter

CTWR 402 Writing and Social Change
Units: 2 An introductory course in writing for the screen with an emphasis on social issues. Duplicates Credit in CTWR 412. Instruction Mode: Lecture Grading Option: Letter

CTWR 403 Writing the Narrative Podcast Series
Units: 2 Max Units: 04 Terms Offered: FaSp Development of an original narrative podcast. Emphasis on dramatic elements of auditory storytelling and character development. *Recommended Preparation:* CTWR 411 or CTWR 416 Instruction Mode: Lecture Grading Option: Letter

CTWR 404 Foundations of Comedy
Units: 2 Study of comedy theory and practical applications in film, television, and social media. Lectures and screenings of comedic forms tracing past, present and future. Instruction Mode: Lecture Grading Option: Letter

CTWR 405 Storytelling for Virtual and Augmented Reality
Units: 2 Terms Offered: FaSpSm Storytelling for the 360-degree visual arena. Focus on immersive worlds, challenges of virtual and augmented reality, and active audience engagement. *Prerequisite:* CTAN 436 or CTAN 536 or CTWR 100g or CTWR 412 or CTWR 413 or CTWR 505 or CTWR 513 or CTWR 518 Instruction Mode: Lecture Grading Option: Letter

CTWR 407 Creating the Comedic Character
Units: 2 Utilization of various techniques for character to emerge naturally in scene and stories. Creating multiple comedic characters to generate future stories. *Recommended Preparation:* CTWR 404. Instruction Mode: Lecture Grading Option: Letter

CTWR 409 Fundamentals of Screenwriting: Character, Conflict and Story
Units: 4 Terms Offered: FaSp Introduction to writing compelling scenes, creating authentic characters, three-act structure

and feature film outlining. Instruction Mode: Lecture Grading Option: Letter

CTWR 410L Character Development and Storytelling for Games
Units: 4 Terms Offered: Fa An exploration of characters and story worlds as they relate to gaming with an emphasis on emotionally rich environments in interactive entertainment. *Recommended Preparation:* CTIN 488. Instruction Mode: Lecture, Lab Required Grading Option: Letter

CTWR 411 Television Script Analysis
Units: 2 Terms Offered: Sp In-depth analysis of the craft of writing prime-time episodic television. Examination of situation comedies and dramas through weekly screenings and lectures. Instruction Mode: Lecture Grading Option: Letter

CTWR 412 Introduction to Screenwriting
Units: 2 Introduction to the formal elements of writing the short film. Instruction Mode: Lecture Grading Option: Letter

CTWR 413 Writing the Short Script I
Units: 2 Preparation of scripts for short films: form, structure, planning. Registration Restriction: Open only to Cinematic Arts Film and Television production majors. Instruction Mode: Lecture Grading Option: Letter

CTWR 414 The Screenplay
Units: 2 Students study story structure and develop several story outlines, write a short script for possible production, a feature film outline and first act. *Prerequisite:* CTWR 413; *Recommended Preparation:* CTWR 416. Registration Restriction: Open only to Cinematic Arts Film and Television Production majors. Instruction Mode: Lecture Grading Option: Letter

CTWR 415a Advanced Writing
Units: 2 Terms Offered: FaSp Principles of the feature film; creating theme, character and structure that combine into a feature-length story treatment. *Prerequisite:* CTWR 409 or CTWR 413 *Recommended Preparation:* CTWR 416 Instruction Mode: Lecture Grading Option: Letter

CTWR 415b Advanced Writing
Units: 2 Creation of script with extensive work-shopping of scenes in class leading to a first draft and revision as a final assignment. Instruction Mode: Lecture Grading Option: Letter

CTWR 416 Motion Picture Script Analysis
Units: 2 Critical analysis of story structure from classic films to contemporary works. Identification of key story concepts and elements of three-act structure. Instruction Mode: Lecture Grading Option: Letter

CTWR 417 Script Coverage and Story Analysis
Units: 2 Terms Offered: FaSp Evaluation of completed scripts prior to their production. Coverage and analysis of scripts as potential properties from the perspective of a production company. Instruction Mode: Lecture Grading Option: Letter

CTWR 418a Senior Thesis
Units: 4 Terms Offered: Fa Creation of feature-length treatment and first draft senior thesis screenplay, including "pitching" experiences. Instruction Mode: Lecture Grading Option: Letter

CTWR 418b Senior Thesis
Units: 4 Terms Offered: Sp Completion and revision of senior thesis project and introduction to motion picture industry procedures and practices through interaction with industry representatives. *Prerequisite:* CTWR 305. Instruction Mode: Lecture Grading Option: Letter

CTWR 419a Senior Thesis in Dramatic Television
Units: 4 Terms Offered: Fa Advanced workshop developing an original hour-long dramatic series including characters, world, and story lines for season one. Final assignment is completed hour-long pilot episode. *Prerequisite:* CTWR 305 and CTWR 421; *Recommended Preparation:* CTWR 411. Instruction Mode: Lecture Grading Option: Letter

CTWR 419b Senior Thesis in Dramatic Television
Units: 4 Terms Offered: Sp Revision of original pilot script, writing of mid-season episode, and completion of bible for original dramatic series developed in first semester. Instruction Mode: Lecture Grading Option: Letter

CTWR 420a Senior Thesis in Half-Hour Television Comedy
Units: 4 Intense study in developing an original half-hour television comedy pilot including special attention to development of multiple seasons and character evolution. *Prerequisite:* CTWR 437 or CTWR 439. *Recommended Preparation:* CTWR 404. Registration Restriction: Open only to Writing for Television and Screen majors. Instruction Mode: Lecture Grading Option: Letter

CTWR 420b Senior Thesis in Half-Hour Television Comedy
Units: 4 Rewrite, casting, and stage performance of the comedy development process. A rewrite of the final draft and completion of the series bible with multiple seasons. *Prerequisite:* CTWR 420a. Registration Restriction: Open only to Writing for Television and Screen majors. Instruction Mode: Lecture Grading Option: Letter

CTWR 421 Writing the Hour-Long Dramatic Series
Units: 2 Max Units: 04 Terms Offered: FaSp Writing an episode of an existing dramatic television series within the hour-long format with an emphasis on conception, pitching, characterization and structure. *Prerequisite:* CTWR 321 or CTWR 324 or CTWR 505 or CTWR 514a *Recommended Preparation:* CTWR 411 Instruction Mode: Lecture Grading Option: Letter

CTWR 422 Creating the Dramatic Television Series
Units: 2 Max Units: 4.0 Terms Offered: FaSm Examination and creation of the world, characters, and concept for an original hour-long dramatic series. Writing an outline for an original dramatic pilot. Instruction Mode: Lecture Grading Option: Letter

CTWR 430 Comedy Writers and Their Work
Units: 2 Max Units: 06 Terms Offered: FaSp Detailed investigation of specific comedy writers, comedy genres, and the works they've influenced. Lectures include screenings and visiting screenwriters. Instruction Mode: Lecture Grading Option: Letter

CTWR 431 Screenwriters and Their Work
Units: 2 Max Units: 6.0 Terms Offered: FaSpSm Detailed investigation of a specific screenwriter's style and the works they've influenced. Lectures include screenings and visiting screenwriters. Instruction Mode: Lecture Grading Option: Letter

CTWR 432 Television Writers and Their Work
Units: 2 Max Units: 06 Terms Offered: FaSp Detailed investigation of various television writers' styles, the worlds they have created, and the works they've influenced. Lectures include screenings and visiting television writers. Instruction Mode: Lecture Grading Option: Letter

CTWR 433 Adaptations: Transferring Existing Work to the Screen
Units: 2 Terms Offered: Fa An examination of motion picture adaptations; problems attendant upon translating a novel, play, or other creative forms into screenplays. *Prerequisite:* CTWR 206b or CTWR 414 or CTWR 514a or CTWR 529. Instruction Mode: Lecture Grading Option: Letter

CTWR 434 Writing the Half-Hour Comedy Series
Units: 2 Max Units: 06 Terms Offered: FaSp Writing an episode of an existing half-hour comedy series, with emphasis on the anatomy of a joke, comedic structure and character. *Prerequisite:* CTWR 321 or CTWR 324 or CTWR 505 *Recommended Preparation:* CTWR 404 Instruction Mode: Lecture Grading Option: Letter

CTWR 435 Writing for Film and Television Genres
Units: 2, 3, 4 Max Units: 08 Terms Offered: FaSp Preparation of proposals and scripts for different types of film or television programming: emphasis on conception, structure, characterization and format. *Prerequisite:* CTWR 206b or CTWR 415b *Recommended Preparation:* CTWR 416 Instruction Mode: Lecture Grading Option: Letter

CTWR 437 Writing the Original Situation Comedy Pilot
Units: 4 Max Units: 8 Advanced workshop for writing an original half-hour comedy series, including a pilot script, summary of characters, and story lines for first season. *Prerequisite:* CTWR 421 or CTWR 434 *Recommended Preparation:* CTWR 411 Instruction Mode: Lecture Grading Option: Letter

CTWR 438 Linked Narrative Storytelling for the Web
Units: 2, 4 Max Units: 08 Terms Offered: FaSp Create, develop, and execute episodic video content for the web. Focus on content and characters that are viable in the internet landscape. Instruction Mode: Lecture Grading Option: Letter

CTWR 439 Writing the Original Dramatic Series Pilot
Units: 4 Max Units: 8 Terms Offered: FaSp An advanced workshop in which students create an original dramatic series, including a first script and a summary of characters and storylines. *Prerequisite:* CTWR 421 or CTWR 434. Instruction Mode: Lecture Grading Option: Letter

CTWR 441 Writing Workshop in Creativity and Imagination
Units: 2 Terms Offered: FaSp Students will explore a variety of problem solving techniques to strengthen their creative work and apply these techniques to individual writing projects. Instruction Mode: Lecture Grading Option: Letter

CTWR 449 Rewriting the Original Dramatic Series Pilot
Units: 4 Max Units: 8.0 An advanced workshop in which an original hour-long television pilot will be rewritten with emphasis on character, world creation and future story lines. *Prerequisite:* CTWR 439; *Recommended Preparation:* CTWR 411. Instruction Mode: Lecture Grading Option: Letter

CTWR 453 Advanced Feature Rewriting
Units: 4 Max Units: max 8 Terms Offered: FaSpSm An advanced workshop in which a feature length screenplay will be rewritten using a specific methodology that focuses on a macro to micro approach to revision. *Prerequisite:* CTWR 305 or CTWR 415b Instruction Mode: Lecture Grading Option: Letter

CTWR 459a Entertainment Industry Seminar
Units: 2 Terms Offered: Fa Examination and analysis of various topics, issues and resources pertaining to creative, legal and business perspectives for writers in the entertainment industry. *Prerequisite:* CTWR 459a for CTWR 459b. Instruction Mode: Lecture Grading Option: Letter

CTWR 459b Entertainment Industry Seminar
Units: 2 Terms Offered: Sp Examination and analysis of various topics, issues and resources pertaining to creative, legal and business perspectives for writers in the entertainment industry. *Prerequisite:* CTWR 459a for CTWR 459b. Instruction Mode: Lecture Grading Option: Letter

CTWR 468 Screenwriting in Collaboration
Units: 4 Max Units: 08 Terms Offered: Sp Writing an original screenplay or pilot collaboratively with a partner, with special attention paid to the writing team dynamic and the 'third' writer's voice. *Prerequisite:* CTWR 305 or CTWR 415b or CTWR 514b or CTWR 523 *Recommended Preparation:* CTWR 416 or CTWR 516 Instruction Mode: Lecture Grading Option: Letter

CTWR 477 Staff Writing the Sketch Comedy Show
Units: 2 Max Units: 6.0 Terms Offered: Sp Staff writing a sketch comedy show with emphasis on creating comedic characters, political humor, monologue writing, and joke construction. A live show will be produced. *Prerequisite:* CTWR 404. Instruction Mode: Lecture Grading Option: Letter

CTWR 487 Staff Writing the Multi-Camera Television Series
Units: 4 Max Units: 8.0 Terms Offered: Fa Working on the writing staff of an original multi-camera television series, with emphasis on the writers' room experience and how to executive produce an episode. *Prerequisite:* CTWR 434. Instruction Mode: Lecture Grading Option: Letter

CTWR 489a Straight to Series: Writing and Producing the Episodic Drama
Units: 2, 4 Terms Offered: FaSp Staff writing and producing the original episodic drama, from development to post-production. *Prerequisite:* CTWR 321 or CTWR 413 or CTWR 505 or CTWR 513 *Recommended Preparation:* CTWR 411 Duplicates Credit in former CTWR 489 Instruction Mode: Lecture Grading Option: Letter

CTWR 489b Straight to Series: Writing and Producing the Episodic Drama
Units: 2, 4 Terms Offered: FaSp Staff writing and producing the original episodic drama, from development to post-production. *Prerequisite:* CTWR 489a *Recommended Preparation:* CTWR 411 Duplicates Credit in former CTWR 489 Instruction Mode: Lecture Grading Option: Letter

CTWR 497 Staff Writing the Single-Camera Half-Hour Series
Units: 4 Max Units: 8.0 Terms Offered: Fa Working on the writing staff for an original single-camera half-hour television series, with emphasis on the writers' room experience and challenges of single-camera half-hour television. *Prerequisite:* CTWR 434 or CTWR 534; *Recommended Preparation:* CTWR 404. Instruction Mode: Lecture Grading Option: Letter

CTWR 499 Special Topics
Units: 2, 3, 4 Max Units: 8.0 Terms Offered: FaSpSm Detailed investigation of new or emerging aspects of cinema and/or television; special subjects offered by visiting faculty; experimental subjects. Instruction Mode: Lecture Grading Option: Letter

CTWR 502 Graduate Writing Symposium
Units: 1 Terms Offered: Sp A survey of the creative and professional range of the working screenwriter. *Recommended Preparation:* CNTV 501. Instruction Mode: Lecture Grading Option: Credit/No Credit

CTWR 505 Creating the Short Film
Units: 2 Terms Offered: FaSp Strengthening and deepening the ability to conceive and develop ideas that will lead to compelling, authentic, and personally meaningful films. *Concurrent Enrollment:* Concurrent enrollment: CTPR 507, CTPR 510. Duplicates Credit in CTWR 528. Instruction Mode: Lecture Grading Option: Letter

CTWR 509 Understanding the Process of Film Making
Units: 2 Terms Offered: Sp An introduction for screenwriters to the process of creating a feature film, from script through release print, including pre-production, production and post-production. Instruction Mode: Lecture Grading Option: Letter

CTWR 510 Fundamentals of Storytelling for Animation
Units: 2 Terms Offered: FaSp Introduction to the fundamentals of storytelling with techniques and practices that work best for animated stories. Instruction Mode: Lecture Grading Option: Letter

CTWR 513 Writing the Short Script
Units: 2 Terms Offered: Fa Preparation of scripts for short films; dramatic, informational, experimental, and other forms. *Concurrent Enrollment:* Concurrent enrollment: CTWR 514a. Instruction Mode: Lecture Grading Option: Letter

CTWR 514a Basic Dramatic Screenwriting
Units: 2 Terms Offered: Fa Dramaturgy for the fiction and nonfiction work. Techniques for creating the original or adapted theatrical script. Open to graduate screenwriting majors (CTWR) and dramatic writing (Theatre) majors only. Emphasizes narrative development, through short scripts, sequences, and story outlines. *Concurrent Enrollment:* Concurrent enrollment: CTWR 513. Instruction Mode: Lecture Grading Option: Letter

CTWR 514b Basic Dramatic Screenwriting
Units: 2 Terms Offered: Sp Dramaturgy for the fiction and nonfiction work. Techniques for creating the original or adapted theatrical script. Open to graduate screenwriting majors (CTWR) and dramatic writing (Theatre) majors only. Development of an outline and feature length, original script. Instruction Mode: Lecture Grading Option: Letter

CTWR 515a Practicum in Screenwriting
Units: 4 Terms Offered: FaSp Creation of a feature screenplay from presentation through treatment, including some scene work. *Prerequisite:* CTWR 514a; CTWR 515a for CTWR 515b; CTWR 515b for CTWR 515c; CTWR 515c for CTWR 515d. Instruction Mode: Lecture Grading Option: Letter

CTWR 515b Practicum in Screenwriting
Units: 4 Terms Offered: FaSp Comprehensive rewriting of a second and third draft of a feature screenplay leading to a polished and professional piece. *Prerequisite:* CTWR 514a; CTWR 515a for CTWR 515b; CTWR 515b for CTWR 515c; CTWR 515c for CTWR 515d. Instruction Mode: Lecture Grading Option: In-progress & Letter Grade

CTWR 515c Practicum in Screenwriting
Units: 1 Terms Offered: FaSp Supervised rewrite of feature screenplay. *Prerequisite:* CTWR 514a; CTWR 515a for CTWR 515b; CTWR 515b for CTWR 515c; CTWR 515c for CTWR 515d. Instruction Mode: Lecture Grading Option: In-progress & Letter Grade

CTWR 515d Practicum in Screenwriting
Units: 1 Terms Offered: FaSp Supervised rewrite of feature screenplay. *Prerequisite:* CTWR 514a; CTWR 515a for CTWR 515b; CTWR 515b for CTWR 515c; CTWR 515c for CTWR 515d. Instruction Mode: Lecture Grading Option: Letter

CTWR 516 Advanced Motion Picture Script Analysis
Units: 2 Terms Offered: FaSp Critical analysis of the structure of films from the classics to current award winners. Students will learn how to identify key story concepts and break down three act structure in finished films and scripts. Instruction Mode: Lecture Grading Option: Letter

CTWR 517a Thesis in Half-Hour Television Comedy
Units: 4 Terms Offered: Fa Developing an original half-hour comedy television series, including characters, world and storylines for season one. Completion of a first draft script, polish, and series bible. *Prerequisite:* CTWR 514b; *Corequisite:* CTWR 534. Registration Restriction: Open only to Writing for Screen and Television master students. Instruction Mode: Lecture Grading Option: Letter

CTWR 517b Thesis in Half-Hour Television Comedy
Units: 4 Terms Offered: Fa Developing

an original half-hour comedy television series, including characters, world and storylines for season one. Completion of a first draft script, polish, and series bible. The re-write, casting, and performance stages of television comedy development. The completion of a final draft of the pilot script and series bible. *Prerequisite:* CTWR 514b; *Corequisite:* CTWR 534. Registration Restriction: Open only to Writing for Screen and Televisions master students. Instruction Mode: Lecture Grading Option: Letter

CTWR 518 Introduction to Interactive Writing
Units: 2 Terms Offered: Sp A series of exercises written and discussed for interactive experiences. Instruction Mode: Lecture Grading Option: Letter

CTWR 519a Thesis in Television Drama
Units: 4 Terms Offered: FaSpSm Part A — writing the pilot — is an intensive workshop in which master's students develop an original television 1-hour series including characters, world and storylines for season one. Final assignment is the finished pilot episode of the series. *Prerequisite:* CTWR 514b. *Corequisite:* CTWR 521. Registration Restriction: Open only to Writing for Screen and Television master students. Instruction Mode: Lecture Grading Option: Letter

CTWR 519b Thesis in Television Drama
Units: 4 Part A — Writing the series bible and mid-season episode — is part two of the television thesis course. Students develop their original series further by writing the bible for the series and the mid-season episode which is reflective of storylines, characters and settings developed in part A of the course. Open to Writing for Screen and Television master students only. Instruction Mode: Lecture Grading Option: Letter

CTWR 520 Advanced Scene Writing Workshop
Units: 2 Terms Offered: FaSp Intensive workshop oriented specifically to writing and rewriting the most effective and telling dramatic scenes to heighten audience participation and greater story impact. *Prerequisite:* CTWR 514b or CTWR 523 Instruction Mode: Lecture Grading Option: Letter

CTWR 521 Advanced Hour-Long Television Drama
Units: 2 Max Units: 4.0 Terms Offered: Fa Writing the first draft and revision of an episode of an existing dramatic television series. *Corequisite:* CTWR 514a. Registration Restriction: Open only to master students in Theatre (Dramatic Writing) and in Writing for Screen and Television. Instruction Mode: Lecture Grading Option: Letter

CTWR 522 Advanced Hour-Long Television Development
Units: 2 Terms Offered: FaSp Investigation of development process for hour-long television, addressing issues of character, world, story and concept. Vetting of multiple series ideas for viability. *Prerequisite:* CTWR 514a or CTWR 523 Instruction Mode: Lecture Grading Option: Letter

CTWR 523 Introduction to the Screenplay
Units: 4 Introduction to formal elements of the screenplay through lectures and the workshopping of a complete first draft of a feature-length script. *Prerequisite:* CTAN 536 or CTWR 505 or CTWR 518; *Recommended Preparation:* CTWR 516. Instruction Mode: Lecture Grading Option: Letter

CTWR 526 Advanced Storytelling for Interactive Media
Units: 2 Advanced writing workshop addressing issues specific to interactive storytelling regarding construction of narrative and character as seen in games and other forms of interactive media. *Prerequisite:* CTWR 518. Instruction Mode: Lecture Grading Option: Letter

CTWR 528 Screenwriting Fundamentals
Units: 2 Terms Offered: FaSp Introduction to the principles of screenwriting with special emphasis on story, characterization and dramatization. Instruction Mode: Lecture Grading Option: Letter

CTWR 529 Intermediate Screenwriting
Units: 2 Terms Offered: FaSp Emphasizes structural elements crucial to the feature film. Techniques for creating an original and adapted theatrical-length script. *Prerequisite:* CTPR 507 and CTWR 505. Instruction Mode: Lecture Grading Option: Letter

CTWR 530 Advanced Animation Screenwriting
Units: 2 Terms Offered: FaSp Advanced storytelling for the animated narrative. Emphasis on long form, rewriting and character development. Instruction Mode: Lecture Grading Option: Letter

CTWR 533 Rewriting the Feature Screenplay
Units: 4 Max Units: 08 Terms Offered: FaSp Rewriting the feature-length screenplay. Focus on macro to micro approach to revision. *Prerequisite:* CTWR 523 *Recommended Preparation:* CTWR 516 Duplicates Credit in former CTWR 533ab Instruction Mode: Lecture Grading Option: Letter

CTWR 534 Advanced Half-Hour Television Comedy
Units: 2 Max Units: 4.0 Terms Offered: Fa Advanced workshop in writing the first draft and revision of an episode of an existing comedic television series. The comedy writing room will be emphasized. *Corequisite:* CTWR 514a. Registration Restriction: Open only to master students in Theatre (Dramatic Writing) and in Writing for Screen and Television. Instruction Mode: Lecture Grading Option: Letter

CTWR 537 Advanced Half-Hour Comedy Series Pilot
Units: 4 Max Units: 8.0 Development of an original half-hour comedy series; writing of the pilot episode and series bible. *Prerequisite:* CTWR 514a. Registration Restriction: Open only to master students in Theatre (Dramatic Writing) and Writing for Screen and Television. Instruction Mode: Lecture Grading Option: Letter

CTWR 539 Advanced Hour-Long Drama Series Pilot
Units: 4 Max Units: 8.0 Development of an original one hour drama series; writing of the pilot episode and series bible. *Prerequisite:* CTWR 514a. Registration Restriction: Open only to master students in Theatre (Dramatic Writing) and Writing for Screen and Television. Instruction Mode: Lecture Grading Option: Letter

CTWR 541 Dreams, the Brain, and Storytelling
Units: 2 Terms Offered: FaSpSm Examination of the links between the brain, creativity, neuroscience and storytelling. Through lectures, screenings, and readings, students will log dreams for use in creative exercises. Instruction Mode: Lecture Grading Option: Letter

CTWR 543 The Character-Driven Screenplay
Units: 4 Terms Offered: FaSp Advanced screenwriting wherein a first draft of a feature-length script will be developed and written with an emphasis on character as story engine. *Prerequisite:* CTWR 505 *Recommended Preparation:* CTWR 516 Registration Restriction: Open only to master students in Cinematic Arts Film and Television Production (CAPR) Instruction Mode: Lecture Grading Option: Letter

CTWR 549 Advanced Rewriting Workshop in Hour-Long Drama
Units: 4 Max Units: max 8 Advanced television writing, emphasizing the rewrite of a first draft pilot script and series bible for an hour-long television series. *Prerequisite:* CTWR 539 Instruction Mode: Lecture Grading Option: Letter

CTWR 550 Advanced Story Development
Units: 2 Terms Offered: FaSp Advanced development of the story creation process by examining the core elements of a good story. Compiling a portfolio of story ideas. *Prerequisite:* CTWR 514a or CTWR 523 Instruction Mode: Lecture Grading Option: Letter

CTWR 553 Advanced Rewriting Workshop
Units: 4 Max Units: max 8 Terms Offered: FaSp Advanced feature screenwriting, emphasizing the rewrite of a first draft script. *Prerequisite:* CTWR 514b or CTWR 533b Instruction Mode: Lecture Grading Option: Letter

CTWR 555 Pitching for Film and Television
Units: 2 Terms Offered: FaSp Development and pitching of ideas for motion pictures, episodic and television pilots. Reducing ideas to basic components enhancing verbal presentation skills. *Prerequisite:* CTWR 305 or CTWR 415b or CTWR 514b or CTWR 533b . Instruction Mode: Lecture Grading Option: Letter

CTWR 557 Seminar in the Business of Writing and Producing Television
Units: 2 Terms Offered: Sm Examination of the role of the television writer in production through lectures, readings, and practical experiences on set. *Prerequisite:* CTWR 537 or CTWR 539. Instruction Mode: Lecture Grading Option: Letter

CTWR 559 The Business of Writing for Screen and Television
Units: 2 Terms Offered: FaSp Examination and in-depth analysis of the studio system, the television development process, literary representation, new emerging markets, and the Writers Guild of America. *Prerequisite:* CTWR 514b. Instruction Mode: Lecture Grading Option: Letter

CTWR 560 Advanced Business Practices for Writers
Units: 2 Advanced seminar and analysis of the current state of the film and television markets as it relates to writers. Weekly

industry guests and current trends. *Prerequisite:* CTWR 559. Instruction Mode: Lecture Grading Option: Letter

CTWR 572 Practicum in Directing Actors for Film
Units: 2 or 4 Terms Offered: FaSp Seminar in directing actors for film; emphasis on demonstration and laboratory exercises, script analysis, and detailed study in character motivations. Instruction Mode: Lecture Grading Option: Letter

CTWR 574 Advanced Seminar in Directing Actors for Film
Units: 2 Terms Offered: FaSp Emphasis on detailed script analysis and character motivation. Individual projects. *Prerequisite:* CTWR 572, CTCS 673 or CTPR 532. Instruction Mode: Lecture Grading Option: Letter

CTWR 585 Advanced Genre Writing
Units: 2 or 4 Max Units: 8.0 Development and execution of writing in various genres of film, television, or new media scripts. *Prerequisite:* CTWR 514b. Instruction Mode: Lecture Grading Option: Letter

CTWR 587 Advanced Television Staff Writing
Units: 4 Max Units: max 8 An advanced workshop course in the development and writing of a television series as a writing staff including the production of episodes. *Prerequisite:* CTWR 521 or CTWR 534 *Recommended Preparation:* CTWR 537 or CTWR 539 Instruction Mode: Lecture Grading Option: Letter

CTWR 599 Special Topics
Units: 2, 3, 4 Max Units: 8.0 Terms Offered: Irregular Detailed investigation of new or emerging aspects of cinema; special subjects offered by visiting faculty; experimental subjects. Instruction Mode: Lecture Grading Option: Letter

Clinical and Experimental Therapeutics

CXPT 590 Directed Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Terms Offered: FaSpSm Research leading to the master's degree. Maximum units which may be applied to the degree to be determined by the department. Instruction Mode: Lecture Grading Option: Credit/No Credit

CXPT 594a Master's Thesis
Units: 2 Terms Offered: FaSpSm Credit on acceptance of Master's thesis. *Recommended Preparation:* Completion of all required course work for MS degree Instruction Mode: Lecture Grading Option: In Progress / Credit / No Credit

CXPT 594b Master's Thesis
Units: 2 Terms Offered: FaSpSm Credit on acceptance of master's thesis. *Prerequisite:* CXPT 594a Instruction Mode: Lecture Grading Option: In Progress/Credit/No Credit

CXPT 594z Master's Thesis
Units: 0 Terms Offered: FaSpSm Credit on acceptance of Masters thesis. *Prerequisite:* CXPT 594b Instruction Mode: Lecture Grading Option: In Progress/Credit/No Credit

CXPT 596 Internship for Curricular Practical Training
Units: 1, 2, 3 Max Units: 03 Terms Offered: FaSpSm Part-time or full-time, practical work experience in the student's field of study. The internship must be located at an off-campus facility. Students are individually supervised by faculty. May not be taken until the student has completed at least one semester of enrollment in the graduate program with a cumulative 3.0 GPA. Registration Restriction: Open only to graduate students Instruction Mode: Lecture Grading Option: Credit/No Credit

CXPT 599 Special Topics
Units: 1, 2, 3, 4, 5, 6, 7, 8 Max Units: 08 Selected topics in Clinical and Experimental Therapeutics. Instruction Mode: Lecture Grading Option: Letter

CXPT 609 Preclinical Experimental Drug Therapeutic Development
Units: 4 Terms Offered: Sp Evolution of a chemical entity as it is transformed into a drug candidate. Open only to students in clinical and experimental therapeutics and management of drug development. Registration Restriction: Open only to students in Clinical and Experimental Therapeutics and Management of Drug Development. Instruction Mode: Lecture Grading Option: Letter

CXPT 610 Experimental and Clinical Drug Metabolism and Transport
Units: 4 Terms Offered: Fa Focus on the absorption, distribution, metabolism and elimination (ADME) of new chemical entities, with particular focus on biotransformation process. Instruction Mode: Lecture, Quiz Grading Option: Letter

CXPT 664 Clinical Problem Solving
Units: 3 Terms Offered: FaSp Experiential/ case base course for graduate students who are enrolled in the Clinical Experimental Therapeutics (CXPT) MS or PHTS-PhD programs. Duplicates Credit in former PHRD 664 Instruction Mode: Lecture, Discussion Grading Option: Letter

CXPT 790 Research
Units: 1 Max Units: 12 Terms Offered: FaSpSm Research-based course for students enrolled in the CXPT PhD program who are preparing for their written and oral qualifying examination. Instruction Mode: Lecture Grading Option: Credit/No Credit

CXPT 794a Doctoral Dissertation
Units: 2 Terms Offered: FaSpSm Independent research course for students enrolled in the CXPT PhD program who have passed their written and oral qualifying examination and advanced to PhD candidacy. Instruction Mode: Lecture Grading Option: In Progress/Credit/No Credit

CXPT 794b Doctoral Dissertation
Units: 2 Terms Offered: FaSpSm Independent research course for students enrolled in the CXPT PhD program who have passed their written and oral qualifying examination and advanced to PhD candidacy. *Prerequisite:* CXPT 794a Instruction Mode: Lecture Grading Option: In Progress/Credit/No Credit

CXPT 794c Doctoral Dissertation
Units: 2 Terms Offered: FaSpSm Independent research course for students enrolled in the CXPT PhD program who have passed their written and oral qualifying examination and advanced to PhD candidacy. *Prerequisite:* CXPT 794b Instruction Mode: Lecture Grading Option: In Progress/Credit/No Credit

CXPT 794d Doctoral Dissertation
Units: 2 Terms Offered: FaSpSm Independent research course for students enrolled in the CXPT PhD program who have passed their written and oral qualifying examination and advanced to PhD candidacy. *Prerequisite:* CXPT 794c Instruction Mode: Lecture Grading Option: In Progress/Credit/No Credit

CXPT 794z Doctoral Dissertation
Units: 0 Terms Offered: FaSpSm Independent research course for students enrolled in the CXPT PhD program who have passed their written and oral qualifying examination and advanced to PhD candidacy. *Prerequisite:* CXPT 794d Instruction Mode: Lecture Grading Option: In Progress/Credit/No Credit

Dance

DANC 101 Colloquium: What is the Medium of Dance Today?
Units: 1 Max Units: 2.0 Terms Offered: FaSpSm Topics related to dance techniques, repertory and varied art forms. Aimed at the interdisciplinary expansion of dance literacy and connections to allied art forms. Registration Restriction: Open only to dance majors. Instruction Mode: Lecture Grading Option: Letter

DANC 103 Conditioning for Dancers
Units: 2 Max Units: 4.0 Terms Offered: FaSpSm Designed for the specific needs of the dancer in preparation for professional training, combining somatic work with the foundation of scientific principles. Instruction Mode: Lecture Grading Option: Letter

DANC 105 Dance Science: Analysis of Dance Movement
Units: 4 Max Units: 08 Terms Offered: FaSpSm A broad overview of the scientific principles of exercise physiology, functional anatomy, kinesiology, and bio-mechanics with applications to dance. *Prerequisite:* DANC 103 Instruction Mode: Lecture Grading Option: Letter

DANC 107 World Perspective on Dance Performance
Units: 2 Max Units: 4.0 Terms Offered: FaSpSm The practice and aesthetics of international dance styles through lecture and participant-driven interaction. Instruction Mode: Lecture Grading Option: Letter

DANC 110 Dance Technique I
Units: 3 Max Units: 12 Terms Offered: FaSpSm Fundamental technique studies in a studio setting. Concentration on classical ballet, hip hop and its derivatives, partnering and contemporary techniques essential to the dancers' development. Placement audition required. Registration Restriction: Open only to dance majors Instruction Mode: Lecture Grading Option: Letter

DANC 120L Repertory and Performance I
Units: 2 Max Units: 04 Terms Offered: FaSpSm Study and guided practice of choreographic repertory. Emphasis in choreographic intention, stylistic approaches and performance technique. Registration Restriction: Open only to Dance majors Instruction Mode: Lecture, Lab Required Grading Option: Letter

DANC 130 Improvisation and Composition I: Introduction
Units: 2 Max Units: 04 Terms Offered: FaSpSm An introduction to improvisational and composition skills that start to prepare students for the creative processes of dancing, dancemaking and performance. Registration Restriction: Open only to dance majors Instruction Mode: Lecture Grading Option: Letter

DANC 131 Improvisation and Composition II: Introduction
Units: 2 Max Units: 04 Terms Offered: FaSpSm Continued investigation and introduction to improvisational and compositional skills in preparation for the creative processes of dancing, dance-making and performance. *Prerequisite:* DANC 130 Registration Restriction: Open only to dance majors. Instruction Mode: Lecture Grading Option: Letter

DANC 149 Kaufman Summer Bridge
Units: 0 Terms Offered: Sm Pre-professional technique, repertory and composition studies in a studio setting. Instruction Mode: Lecture Grading Option: Credit/No Credit

DANC 150 Dance and New Media
Units: 1, 2, 3, 4 Max Units: 08 Terms Offered: FaSpSm An introduction to various genres within Dance and New Media, including simple hands-on work with existing and emerging technologies used in creating and delivering media-dance works. No previous dance experience is required. Duplicates Credit in former DANC 305 Instruction Mode: Lecture Grading Option: Letter

DANC 170 Choreography and Performance
Units: 2 Max Units: 08 Terms Offered: FaSpSm Compositional methods and approaches to developing choreographic ideas; integration of improvisational techniques as a means to generate movement ideas and expand movement vocabulary, edit choreographic material, and evaluate and execute choreography and performance. Duplicates Credit in former DANC 385 and former THTR 385 Instruction Mode: Lecture, Lab Grading Option: Letter

DANC 171 Commercial Dance: Professional Dance Preparation
Units: 1, 2 Max Units: 08 Terms Offered: FaSpSm Designed to explore the commercial dance industry in Los Angeles and provide specific tools in preparation for auditions, on-screen performances, and interactions with agents. *Recommended Preparation:* DANC 184b and DANC 184c Instruction Mode: Lecture Grading Option: Letter

DANC 172 Introduction to Commercial Dance
Units: 1, 2 Max Units: 08 Terms Offered: FaSpSm Designed to introduce students to the styles, norms and standards prevalent in the commercial dance industry. Exploration of technical approaches, practical skills and historical benchmarks. Instruction Mode: Lecture Grading Option: Letter

DANC 175 Choreography for the Screen
Units: 2 Max Units: 04 Terms Offered: FaSpSm Creative choreography of theatrical dance for the screen. Emphasis on rhythmic analysis, versatility, composition, notation techniques, and stylizing. Duplicates Credit in former DANC 482 and former THTR 482 Instruction Mode: Lecture Grading Option: Letter

DANC 177 Introduction to Dance Forms and Techniques
Units: 1, 2 Max Units: 16 Terms Offered: FaSpSm An embodied studio course introducing the foundational techniques, histories and contexts of a variety of dance forms and styles. Instruction Mode: Lecture Grading Option: Letter

DANC 180 African Dance
Units: 2 Max Units: 04 Terms Offered: FaSpSm African Dance technique at the beginning/intermediate level: knowing, understanding, experiencing culture, emphasizing cultural traditions, community outreach and diversity; works through artistic process, practice, performance, and related activities, using dance, theatre and music work rooted in the African tradition and contemporary African aesthetics; focus on West and Central African traditional dance and music. Instruction Mode: Lecture Grading Option: Letter

DANC 181a Contemporary Dance
Units: 2 Max Units: 04 Terms Offered: FaSpSm An introduction to methods developed from modern and post-modern dance techniques, including the study of the rebellious, individualistic, and democratic nature of dance in the 20th and 21st centuries. Duplicates Credit in former THTR 181a Instruction Mode: Lecture Grading Option: Letter

DANC 181b Contemporary Dance
Units: 2 Max Units: 04 Terms Offered: FaSpSm Continued study in the fusion of modern, post-modern dance and classical ballet techniques encompassing the study of the democratic nature of dance and choreographic composition in the 20th and 21st centuries. *Prerequisite:* DANC 181a Duplicates Credit in former THTR 181b Instruction Mode: Lecture Grading Option: Letter

DANC 181c Contemporary Dance
Units: 2 Max Units: 04 Terms Offered: FaSpSm An advanced exploration of modern, post-modern dance and classical ballet techniques encompassing the study of the democratic nature of dance, improvisation and choreographic composition in the 20th and 21st centuries. *Prerequisite:* DANC 181b Duplicates Credit in former DANC 182a Instruction Mode: Lecture Grading Option: Letter

DANC 183a Ballet
Units: 2 Max Units: 04 Terms Offered: FaSpSm An introduction to Classical Ballet technique with beginning-level barre and center work, focusing on correct body alignment and musicality. Development of a basic knowledge of ballet history and terminology. Duplicates Credit in former THTR 183a Instruction Mode: Lecture Grading Option: Letter

DANC 183b Ballet
Units: 2 Max Units: 04 Terms Offered: FaSpSm Continued study of Classical Ballet technique with intermediate-level barre and center work, focusing on developing greater clarity, coordination, musicality, and knowledge of ballet history and terminology. *Prerequisite:* DANC 183a Duplicates Credit in former THTR 183b Instruction Mode: Lecture Grading Option: Letter

DANC 183c Ballet
Units: 2 Max Units: 04 Terms Offered: FaSpSm Advanced study of Classical Ballet technique with emphasis on clarity, precision, musicality, movement quality, and artistic expression. Introduction of beats, tours, advanced adagio and allegro combinations, and pointe work. *Prerequisite:* DANC 183b Duplicates Credit in former THTR 183c Instruction Mode: Lecture Grading Option: Letter

DANC 183d Ballet
Units: 2 Max Units: 04 Terms Offered: FaSpSm Elementary to intermediate-level pointe technique for women and men, including strengthening exercises, barre and center work, and variations from classical and contemporary ballets. *Prerequisite:* DANC 183c Duplicates Credit in former THTR 183d Instruction Mode: Lecture Grading Option: Letter

DANC 184a Jazz Dance
Units: 2 Max Units: 04 Terms Offered: FaSpSm An introduction to Jazz Dance technique, focusing on African and Latin based diaspora dances with European influences, improvisation, and strength/stretching series. Duplicates Credit in former THTR 184a Instruction Mode: Lecture Grading Option: Letter

DANC 184b Jazz Dance
Units: 2 Max Units: 04 Terms Offered: FaSpSm Continued study of Jazz Dance technique at the intermediate level, focusing on African and Latin based diaspora dances with European influences, improvisation, center work, performance techniques, and strength/stretching series. *Prerequisite:* DANC 184a Duplicates Credit in former THTR 184b Instruction Mode: Lecture Grading Option: Letter

DANC 184c Jazz Dance
Units: 2 Max Units: 04 Terms Offered: FaSpSm Advanced study of Jazz Dance technique, focusing on Broadway, commercial, and concert Jazz Dance, with a continued emphasis on improvisation, center work, and performance techniques. *Prerequisite:* DANC 184b Duplicates Credit in former THTR 184c Instruction Mode: Lecture Grading Option: Letter

DANC 184d Jazz Dance
Units: 2 Max Units: 04 Terms Offered: FaSpSm Advanced practice in Jazz Dance technique, focusing on African and Latin-based diaspora dances with European influences, improvisation and strength / stretching series. Strong emphasis on commercial Jazz dance styles. *Prerequisite:* DANC 184c Instruction Mode: Lecture Grading Option: Letter

DANC 185a Hip Hop Dance
Units: 2 Max Units: 08 Terms Offered: FaSpSm An introduction to elements of Hip Hop Dance, including technique, movement, musical rhythm, tempo, and phrasing, as well as the historical context required to develop the skills needed to practice and perform this popular dance form. Duplicates Credit in former THTR 185 and former DANC 185 Instruction Mode: Lecture Grading Option: Letter

DANC 185b Hip Hop Dance
Units: 2 Max Units: 08 Terms Offered: FaSpSm Continued study of Hip Hop Dance elements on an intermediate level, augmenting the historical context, technique, fluidity, and musicality required to execute the form with greater movement acuity. *Prerequisite:* DANC 185a Instruction Mode: Lecture Grading Option: Letter

DANC 186 Afro Cuban Dance
Units: 2 Max Units: 4 Terms Offered: FaSpSm An introduction to Afro Cuban Dance techniques, basic drum rhythms, and musicality, with an understanding of cultural practices and vocalizations. Afro Cuban Dance examines the traditions related to specific ethnic groups in Latin Europe and West Africa, and the influences of Rumba and Salsa Dance on the form. Instruction Mode: Lecture Grading Option: Letter

DANC 187 Bollywood Dance
Units: 2 Max Units: 4 Terms Offered: FaSpSm An introduction to basic and intermediate Bollywood Dance, including technique, movement, musical rhythm, phrases, and choreography. Inspired by the high energy music from Indian films, Bollywood is a fusion form that combines traditional Indian folk and classical dances with Hip Hop, Jazz, Latin, and Middle-eastern dance. Instruction Mode: Lecture Grading Option: Letter

DANC 188a International Style Ballroom Dance
Units: 2 Max Units: 04 Terms Offered: FaSpSm Introduction to International Standard, International Latin, and American Style ballroom dances. Designed to introduce students to the fundamentals of ballroom dance, emphasizing partner connection, communication, and creativity, with the practical application of dance within a social setting. Duplicates Credit in former THTR 188a Instruction Mode: Lecture Grading Option: Credit/No Credit

DANC 188b International Style Ballroom Dance
Units: 2 Max Units: 04 Terms Offered: FaSpSm Continued study in International Standard, International Latin, and American Style ballroom dances. Designed for advanced knowledge in ballroom styles, emphasizing rhythmic sequences, partnering techniques, complex patterns, and performance quality. *Prerequisite:* DANC 188a Duplicates Credit in former THTR 188b Instruction Mode: Lecture Grading Option: Credit/No Credit

DANC 189a Tap Dance
Units: 2 Max Units: 04 Terms Offered: FaSpSm An introduction to basic Tap Dance technique, rhythms, syncopation, and musicality, developing into complex steps and elementary dances with progressive understanding of weight change, improvisation, and combinations of sound. Duplicates Credit in former THTR 189a Instruction Mode: Lecture Grading Option: Letter

DANC 189b Tap Dance
Units: 2 Max Units: 04 Terms Offered: FaSpSm Continued study of Tap Dance technique, focusing on more complex rhythmic patterns and combinations and introducing advanced steps and combinations, all with continued emphasis on improvisation and musicality. *Prerequisite:* DANC 189a Duplicates Credit in former THTR 189b Instruction Mode: Lecture Grading Option: Letter

DANC 189c Tap Dance
Units: 2 Max Units: 04 Terms Offered: FaSpSm An introduction to advanced Tap Dance technique, rhythms, syncopation, and musicality, developing into complex phrases and advanced dances with progressive understanding of weight change, improvisation and combinations of sound. *Prerequisite:* DANC 189b Instruction Mode: Lecture Grading Option: Letter

DANC 190 Gaga: People
Units: 1, 2 Max Units: 08 Terms Offered: FaSpSm Explore the movement language, rooted in guided improvisation, developed by Ohad Naharin of Batsheva Dance Company. Open to all, regardless of dance or movement background. Instruction Mode: Lecture Grading Option: Credit/No Credit

DANC 191 Gaga: Dancers
Units: 1, 2 Max Units: 08 Terms Offered: FaSpSm Explore the movement language, rooted in guided improvisation, developed by Ohad Naharin of Batsheva Dance Company. Previous dance experience is required. Instruction Mode: Lecture Grading Option: Credit/No Credit

DANC 195 Kaufman in the Community
Units: 1, 2, 3, 4 Max Units: 12 Terms Offered: FaSpSm Practice-based community engagement through dance, pedagogy and program development. Instruction Mode: Lecture Grading Option: Letter

DANC 200L Dance Technique for Musical Theatre
Units: 2, 3 Max Units: 16 Terms Offered: FaSp Studio and classroom training for Musical Theatre performers. Foundational technique, culture and stylistic history of jazz, ballet, tap and social dance forms. Registration Restriction: Open only to musical theatre students in the School of Dramatic Arts Instruction Mode: Lecture, Lab Required Grading Option: Letter

DANC 201 Colloquium: History of Performance and Cultural Context
Units: 1 Max Units: 02 Terms Offered: FaSpSm Study of the historical and cultural context of selected dance techniques. Guest lectures and student presentations will inform class discussions. *Prerequisite:* DANC 101 Registration Restriction: Open only to dance majors Instruction Mode: Lecture Grading Option: Letter

DANC 210 Dance Technique II
Units: 3 Max Units: 12 Terms Offered: FaSpSm Intermediate technique studies in a studio setting. Concentration on classical ballet, hip hop and its derivatives, partnering and contemporary techniques essential to the dancers' development. *Prerequisite:* DANC 110 Registration Restriction: Open only to dance majors Instruction Mode: Lecture Grading Option: Letter

DANC 212g Dance in Popular Culture
Units: 4 Terms Offered: FaSpSm Examination of the role of dance in popular culture in a classroom setting. Studies of dance styles and their evolution in recreational and professional contexts through research, observation, and practice. Satisfies New General Education in Category A: The Arts Instruction Mode: Lecture Grading Option: Letter

DANC 218 Introduction to Dance for the Camera: New Media and Editing
Units: 2 Max Units: 04 Terms Offered: FaSpSm Effective navigation and utilization of ubiquitous, portable digital technologies in film to create an individualized archive and portfolio of their choreographic projects and performances. Instruction Mode: Lecture Grading Option: Letter

DANC 220L Repertory and Performance II
Units: 2 Max Units: 04 Terms Offered: FaSpSm Continued studies and guided practice of choreographic repertory. Investigation of choreographic vocabulary, intention, stylistic approaches, and performance technique for group work. *Prerequisite:* DANC 120L Registration Restriction: Open only to dance majors Instruction Mode: Lecture, Lab Required Grading Option: Letter

DANC 230 Improvisation and Composition III: Intermediate
Units: 2 Max Units: 04 Terms Offered: FaSpSm Expansion of improvisation and composition skills for the creative processes of dancing, dance-making and performance. *Prerequisite:* DANC 131 Registration Restriction: Open only to dance majors Instruction Mode: Lecture Grading Option: Letter

DANC 231 Improvisation and Composition IV: Intermediate
Units: 2 Max Units: 04 Terms Offered: FaSpSm Further development of improvisation and composition skills for the creative processes of dancing, dance-making and performance. *Prerequisite:* DANC 230 Registration Restriction: Open only to dance majors. Instruction Mode: Lecture Grading Option: Letter

DANC 280g Introduction to Dance as an Art Form
Units: 4 Terms Offered: FaSpSm Gateway to the minor in dance. An interdisciplinary overview of dance relating to the aesthetic and art in various subjects. Applications of the elements of dance studies, art criticism, and viewing productions to explore topic such as architecture, photography, poetry, technology, cinematic arts, sports, medicine, and more. Satisfies New General Education in Category A: The Arts Duplicates Credit in former THTR 280 Instruction Mode: Lecture Grading Option: Letter

DANC 285 Elements of Dance Production
Units: 1, 2, 3, 4 Max Units: 08 Terms Offered: FaSpSm Theoretical aspects of creativity, choreography, accompaniment, dance notation and production; application in individual and group composition. Duplicates Credit in former THTR 285 Instruction Mode: Lecture Grading Option: Letter

DANC 301 Colloquium: The Role of the Dance Artist in Society
Units: 1 Max Units: 02 Terms Offered: FaSpSm Examination of the role of the artist in society. Development of an individual understanding and guiding philosophy for professional development in the dance field. *Prerequisite:* DANC 201 Registration Restriction: Open only to

dance majors Instruction Mode: Lecture Grading Option: Letter

DANC 302g Hip Hop Don't Stop: Black Social Dance Culture and Media
Units: 4 Terms Offered: FaSpSm Introduction to the history and practice of Urban Folk Dance including hip hop, freestyle, street dance and the relevant social dances of the 20th century. Satisfies New General Education in Category A: The Arts Duplicates Credit in former DANC 402 Instruction Mode: Lecture Grading Option: Letter

DANC 310 Dance Technique III
Units: 3 Max Units: 12 Terms Offered: FaSpSm Advanced technique studies in a studio setting. Concentration on classical ballet, hip hop and its derivatives, partnering and contemporary techniques essential to the dancers' development. *Prerequisite:* DANC 210 Registration Restriction: Open only to dance majors Instruction Mode: Lecture Grading Option: Letter

DANC 312gw African American Dance
Units: 4 Terms Offered: FaSpSm Exploration of the discursive foundations, political motivations, and aesthetic strategies of dance writers and artists whose works have enabled the category of "black dance." Satisfies New General Education in Category A: The Arts Satisfies Global Perspective in Category G: Citizenship in a Diverse World Duplicates Credit in former DANC 412 Instruction Mode: Lecture Grading Option: Letter

DANC 320L Repertory and Performance III
Units: 2 Max Units: 04 Terms Offered: FaSpSm Study and guided practice of new works and developing roles. Emphasis on the dancer as collaborator in the creative process. *Prerequisite:* DANC 220L Registration Restriction: Open only to dance majors Instruction Mode: Lecture, Lab Required Grading Option: Letter

DANC 333gw Origins of Jazz Dance
Units: 4 Terms Offered: FaSpSm Examining the role that vernacular dance and music play in the creation of Jazz Dance, taught in lecture format; practical studies in Jazz Dance, from recreational to professional settings. Satisfies New General Education in Category A: The Arts Satisfies Global Perspective in Category G: Citizenship in a Diverse World Instruction Mode: Lecture Grading Option: Letter

DANC 342gp International and Historical Perspectives on Dance
Units: 4 Terms Offered: FaSpSm Exploration of dance as an art form in its artistic, political, and socio-cultural climate. Studies of the continuum of dance within its historical context. Satisfies New General Education in Category B: Humanistic Inquiry Satisfies Global Perspective in Category H: Traditions and Historical Foundations Duplicates Credit in former DANC 442a Instruction Mode: Lecture Grading Option: Letter

DANC 345 Artist in Residence
Units: 1, 2, 3, 4 Max Units: 08 Terms Offered: FaSpSm Investigation and development of choreographic methods and practices through observation and active participation with the guest artist. Registration Restriction: Open only to dance majors Instruction Mode: Lecture Grading Option: Letter

DANC 347 Artist Collaborative
Units: 1, 2, 3, 4 Max Units: 8.0 Terms Offered: FaSpSm Development of an artistic work of two or more media, working with colleagues and or faculty in allied disciplines. Registration Restriction: Open only to dance majors. Instruction Mode: Lecture Grading Option: Letter

DANC 349 Expert Series
Units: 1, 2 Max Units: 16 Terms Offered: FaSpSm An embodied encounter with prominent practitioners in the field. Students will experience an array of technical vocabularies, repertory and strategies for improvisation and composition. Instruction Mode: Lecture Grading Option: Letter

DANC 350 Advanced Composition
Units: 2 Max Units: 08 Terms Offered: FaSpSm Explore a variety of compositional forms and methods to develop a personalized choreographic approach. *Prerequisite:* DANC 231 Registration Restriction: Open only to dance majors Duplicates Credit in former DANC 330 and former DANC 430 Instruction Mode: Lecture Grading Option: Letter

DANC 352g Dancing with Words
Units: 4 Terms Offered: FaSpSm Development of descriptive and analytical skills involved in writing about dance in various contexts and mediums, including writing for the purposes of dance scholarship, criticism and pedagogy as well audience development, marketing, grant solicitation and social media. Satisfies New General Education in Category A: The Arts Instruction Mode: Lecture Grading Option: Letter

DANC 355 Performance Lab
Units: 1, 2, 3, 4 Max Units: 12 Terms Offered: FaSpSm Intermediate and advanced solo and partnering techniques in classical, contemporary, and street dance. Some sections are open only to dance majors. Instruction Mode: Lecture Grading Option: Letter

DANC 362 Pilates Mat Training
Units: 2 Max Units: 4.0 Terms Offered: FaSpSm Mat exercises designed to promote healthy movement practices, develop strength, balance, flexibility and coordination. Instruction Mode: Lecture Grading Option: Letter

DANC 363g Dancing on the Screen
Units: 4 Terms Offered: FaSpSm The study of dance in movies, television, internet, mobile devices and new media. Examining dance on screen, influenced by storytelling, camera technology and editing. Satisfies New General Education in Category A: The Arts Instruction Mode: Lecture Grading Option: Letter

DANC 370 Dance in Los Angeles
Units: 1, 2, 3, 4 Max Units: 08 Terms Offered: FaSpSm Explore the multifaceted world of dance in Los Angeles, where history, socioeconomics, race, gender, sexuality, commerce and entertainment intersect to create genres that influence contemporary life. Instruction Mode: Lecture Grading Option: Letter

DANC 372 Intermediate / Advanced Commercial Dance
Units: 1, 2 Max Units: 08 Terms Offered: FaSpSm Designed to build higher level skills in preparation for success in the commercial dance industry. Development of an intermediate/advanced technical skill set in preparation for auditions, on-screen performances and interactions with agents. Duplicates Credit in DANC 171 Instruction Mode: Lecture Grading Option: Letter

DANC 388 Senior Seminar in Dance
Units: 4 Max Units: 08 Terms Offered: FaSpSm Synthesis of principles, philosophy, and history of dance, culminating in senior individual project. Duplicates Credit in former THTR 388 Instruction Mode: Lecture Grading Option: Letter

DANC 399 Maymester: Dance Capitals of the World
Units: 1, 2, 3, 4 Max Units: 16 Terms Offered: Sp Investigate various dance topics across major cities of artistic inspiration in a Maymester format. Courses may include lectures, site visits and practical studies and may be held at USC or off campus, including abroad. Instruction Mode: Lecture Grading Option: Letter

DANC 410 Dance Technique IV
Units: 3 Max Units: 12 Terms Offered: FaSpSm Pre-professional technique studies in a studio setting with concentration on classical ballet, hip hop and its derivatives, and contemporary techniques essential to the dancers' development. *Prerequisite:* DANC 310 Registration Restriction: Open only to dance majors Instruction Mode: Lecture Grading Option: Letter

DANC 420L Repertory and Performance IV
Units: 2 Max Units: 04 Terms Offered: FaSpSm Study and guided practice of significant roles in new and existing choreography. Emphasis on refinement of partnering, solo and group performance technique. *Prerequisite:* DANC 320L Registration Restriction: Open only to dance majors Instruction Mode: Lecture, Lab Required Grading Option: Letter

DANC 432 Creativity, Culture, Commerce and Community
Units: 2 Max Units: 04 Terms Offered: FaSpSm Exploration of artistic entrepreneurial mechanisms to initiate innovative endeavors in the professional dance world which are relevant to today's culture, communities, customs and business landscape. Instruction Mode: Lecture Grading Option: Letter

DANC 442 International and Historical Perspectives on Dance II
Units: 4 Terms Offered: FaSpSm Exploration of dance as an art form in its artistic, political, and socio-cultural climate. Studies of the continuum of dance within its historical context. *Prerequisite:* DANC 342g Duplicates Credit in former DANC 442b Instruction Mode: Lecture Grading Option: Letter

DANC 470 Dance Leadership
Units: 2 Terms Offered: FaSpSm An examination of leadership in the dance world through concepts of capacity building, strategic planning and infrastructure to articulate a mission statement, understand models of entity structure, contracts, marketing, financial responsibilities, governance, engagement with community, grants and funding. Registration Restriction:

Open only to dance majors Instruction Mode: Lecture Grading Option: Letter

DANC 480 Advanced Performance Studies: Senior Seminar
Units: 1 Max Units: 02 Terms Offered: FaSpSm Seminar and studio course in preparation of the senior project to be presented in spring semester, in performance, choreography, scholarship or entrepreneurship. Registration Restriction: Open only to dance majors Instruction Mode: Lecture Grading Option: Letter

DANC 483 Dance Performance
Units: 2 Max Units: 08 Terms Offered: FaSpSm Preparation, rehearsal, and performance of experimental choreography in main stage repertory. Duplicates Credit in former THTR 483 Instruction Mode: Lecture Grading Option: Letter

DANC 485 Advanced Performance Studies: Senior Project
Units: 1 Max Units: 02 Terms Offered: FaSpSm Development and presentation of senior project in performance, choreography, media, music, scholarship or entrepreneurial enterprise. Senior projects presented to faculty panel in open performance venue. *Prerequisite:* DANC 480 Registration Restriction: Open only to dance majors Instruction Mode: Lecture Grading Option: Letter

DANC 490x Directed Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Max Units: 12 Terms Offered: FaSpSm Individual research and readings. Registration Restriction: Open only to dance majors and minors Instruction Mode: Lecture Grading Option: Letter

DANC 495 Dance Internship
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18 Max Units: 36 Terms Offered: FaSpSm Practical experience linked with information and learned skills. Providing supervised field application of dance theories and practices within an employment context in dance. Registration Restriction: Open only to dance majors Instruction Mode: Lecture Grading Option: Letter

DANC 499 Special Topics
Units: 1, 2, 3, 4 Max Units: 08 Terms Offered: FaSpSm Selected topics of current interest. Instruction Mode: Lecture Grading Option: Letter

DANC 549 Pre-Professional Dance Technique
Units: 0 Terms Offered: FaSp Pre-professional technique studies in a studio setting designed for the 2021 graduating class of the Kaufman School of Dance BFA program. Concentration on classical ballet, hip hop, contemporary, jazz and other techniques in a capstone training experience. *Prerequisite:* DANC 410 Instruction Mode: Lecture Grading Option: Credit/No Credit

DANC 590 Directed Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Research leading to the master's degree. Maximum units which may be applied to the degree to be determined by the department. Instruction Mode: Lecture Grading Option: Credit/No Credit

DANC 599 Special Topics
Units: 1, 2, 3, 4, 5, 6, 7, 8 Max Units: 08 Seminars in selected areas of study. Instruction Mode: Lecture Grading Option: Letter

DANC 790 Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Research leading to the doctorate. Maximum units which may be applied to the degree to be determined by the department. Instruction Mode: Lecture Grading Option: Credit/No Credit

Dental Biochemistry

DBIO 310 Oral Biochemistry
Units: 2 Terms Offered: Fa Biochemical insight into oral tissues and saliva — emphasizing antimicrobial protection (systemic and therapeutic) against demineralization and connective tissue destruction. Instruction Mode: Lecture Grading Option: Letter

DBIO 501 Biochemistry and Molecular Biology
Units: 2 Biochemical properties of carbohydrates, lipids, amino acids, proteins, and nucleic acids — emphasizing molecular structure-function interrelatedness, integrated metabolism, and molecular biology of the cell. Instruction Mode: Lecture Grading Option: Letter

Dentistry

DENT 221 Introduction to Dentistry
Units: 1 History and current role of dental science in the health services field; review of research; overview of dental procedures with laboratory experience and practice observation. Instruction Mode: Lecture Grading Option: Letter

DENT 402 Formal Science-Writing
Units: 2 A scientist-taught, lecture-workshop-tutorial format for developing skills in formal science-writing (e.g., abstracts, journal articles, grants). Not open to students in the School of Dentistry. Instruction Mode: Lecture Grading Option: Letter

DENT 412 Fundamentals of Craniofacial and Dental Technology
Units: 3 Terms Offered: Sp Biomedical engineering and technology applied to oral health professions. Dental biomaterials, CAD-CAM, digital dental technology and tissue engineering applications to craniofacial diseases, disorders, and enhancements. Duplicates Credit in former BME 412. Instruction Mode: Lecture Grading Option: Letter Crosslisted as BME-412

Dental Histology

DHIS 310 Basic Tissues and Histology and Embryology
Units: 2 Terms Offered: Fa Histology of basic tissues, oral histology, orofacial embryology, orofacial clefts and functional correlates. Instruction Mode: Lecture Grading Option: Letter

DHIS 701 Advanced Oral Histology
Units: 2 Microscopic anatomy, ultrastructure and histochemistry of developing and functional oral tissues; based on recent advanced in oral LM, TEM, and SEM histology. Instruction Mode: Lecture Grading Option: Letter

Dental Hygiene

DHYG 311a Fundamentals of Clinical Dental Hygiene Practice
Units: 3 Principles and techniques of clinical dental hygiene with emphasis on preventive dentistry; laboratory and preclinical experience in techniques of complete oral prophylaxis services; and clinical application thereof. Instruction Mode: Lecture Grading Option: Letter

DHYG 311b Fundamentals of Clinical Dental Hygiene Practice
Units: 3 Principles and techniques of clinical dental hygiene with emphasis on preventive dentistry; laboratory and preclinical experience in techniques of complete oral prophylaxis services; and clinical application thereof. Instruction Mode: Lecture Grading Option: Letter

DHYG 314L Dental Morphology Laboratory
Units: 1 Fundamentals of tooth morphology and characteristics of the deciduous and permanent dentition. Instruction Mode: Lab Required Grading Option: Letter

DHYG 316 Patient Education in Preventive Dental Care
Units: 1 Principles and methods for teaching and motivating patients to practice effective oral care. Instruction Mode: Lecture Grading Option: Letter

DHYG 318 Dental Specialties
Units: 2 Procedures performed in selected dental specialty areas with emphasis on the role of the dental hygienist. Instruction Mode: Lecture Grading Option: Letter

DHYG 320 Preventive Dental Therapy
Units: 2 Terms Offered: Sp Study of etiology, risk factors and preventive management of periodontal disease and dental caries. Setting up community and individual preventive oral health care programs. Instruction Mode: Lecture Grading Option: Letter

DHYG 401 Introduction to Advanced Dental Hygiene
Units: 2 Principles and techniques of advanced dental hygiene with emphasis on advanced root instrumentation and dental hygiene treatment planning. Instruction Mode: Lecture Grading Option: Letter

DHYG 410a Clinic: Dental Hygiene
Units: 2, 3, 4, 5, 6, 7 each Application of advanced techniques with emphasis on increased proficiency in skills: principles of prevention; periodontal examination; root planing; soft tissue curettage; local anesthesia; inhalation sedation. Instruction Mode: Lecture Grading Option: Letter

DHYG 410b Clinic: Dental Hygiene
Units: 2, 3, 4, 5, 6, 7 each Application of advanced techniques with emphasis on increased proficiency in skills: principles of prevention; periodontal examination; root planing; soft tissue curettage; local anesthesia; inhalation sedation. Instruction Mode: Lecture Grading Option: Letter

DHYG 410c Clinic: Dental Hygiene
Units: 2, 3, 4, 5, 6, 7 each Application of advanced techniques with emphasis on increased proficiency in skills: principles of prevention; periodontal examination; root planing; soft tissue curettage; local anesthesia; inhalation sedation. Instruction Mode: Lecture Grading Option: Letter

DHYG 411a Dental Literature Review
Units: 2 Seminar-discussion and analysis of current dental literature in selected topics related to dental hygiene practice.

Instruction Mode: Lecture, Discussion
Grading Option: Letter

DHYG 411b Dental Literature Review
Units: 2 Seminar-discussion and analysis of current dental literature in selected topics related to dental hygiene practice. Instruction Mode: Lecture, Discussion Grading Option: Letter

DHYG 412 Preventive Dental Care Programs
Units: 1 Methods for development and implementation of programs involved with the delivery of preventive dental care. Instruction Mode: Lecture Grading Option: Letter

DHYG 413a Dental Hygiene Educational Concepts
Units: 2 Educational concepts for development of dental hygiene curriculum, including teaching and learning strategies, curriculum design, course development and evaluation methods. Instruction Mode: Lecture Grading Option: Letter

DHYG 413b Dental Hygiene Educational Concepts
Units: 2 Educational concepts for development of dental hygiene curriculum, including teaching and learning strategies, curriculum design, course development and evaluation methods. Instruction Mode: Lecture Grading Option: Letter

DHYG 414a Advanced Dental Hygiene
Units: 2 Advanced dental hygiene techniques: treatment, referral and maintenance of the advanced periodontitis patient emphasizing treatment planning and patient management. Instruction Mode: Lecture Grading Option: Letter

DHYG 414b Advanced Dental Hygiene
Units: 2 Advanced dental hygiene techniques: treatment, referral and maintenance of the advanced periodontitis patient emphasizing treatment planning and patient management. Instruction Mode: Lecture Grading Option: Letter

DHYG 415a Directed Clinical Teaching
Units: 2 Experience in clinical teaching with supervision and evaluation of undergraduate dental hygiene and doctoral dental students engaging in patient care. Instruction Mode: Lecture Grading Option: Letter

DHYG 415b Directed Clinical Teaching
Units: 2 Experience in clinical teaching with supervision and evaluation of undergraduate dental hygiene and doctoral dental students engaging in patient care. Instruction Mode: Lecture Grading Option: Letter

DHYG 417 Issues in Dental Health Care Delivery
Units: 1 Study of current trends in public health care delivery, manpower, finance mechanisms, and quality assurance. Instruction Mode: Lecture Grading Option: Letter

DHYG 422 Essentials of Dental Hygiene Practice
Units: 1 A review of the moral, legal, and ethical responsibilities of the dental hygienist. Other topics: securing a position, dental economics, taxes, insurance, and human relationships in the dental office. Instruction Mode: Lecture Grading Option: Letter

DHYG 424 Research Methods
Units: 2 Terms Offered: Sm Research design and methods, scientific database searching, evidence resources and evaluating information based on evidence-based principles. Application of basic research design methodology for analysis of literature. Duplicates Credit in former DHYG 424ab. Instruction Mode: Lecture Grading Option: Letter

DHYG 430 Seminar: Initial Periodontal Therapy
Units: 2 Presentation of selected clinical cases with documentation of clinical findings, diagnosis, treatment planning, and therapy. Instruction Mode: Lecture Grading Option: Letter

DHYG 431 Seminar: Periodontal Treatment Planning
Units: 2 Periodontal treatment planning; case presentations of uncomplicated periodontitis progressing to complex treatment involving multidisciplinary approach. Instruction Mode: Lecture Grading Option: Letter

DHYG 460a Clinic: Advanced Dental Hygiene
Units: 2 Clinical experience in advanced dental hygiene; preventive and therapeutic skills with emphasis on advanced periodontal instrumentation and expanded functions for the registered dental hygienist. Instruction Mode: Lecture Grading Option: Letter

DHYG 460b Clinic: Advanced Dental Hygiene
Units: 2 Clinical experience in advanced dental hygiene; preventive and therapeutic skills with emphasis on advanced periodontal instrumentation and expanded functions for the registered dental hygienist. Instruction Mode: Lecture Grading Option: Letter

DHYG 460c Clinic: Advanced Dental Hygiene
Units: 1 Clinical experience in advanced dental hygiene; preventive and therapeutic skills with emphasis on advanced periodontal instrumentation and expanded functions for the registered dental hygienist. Instruction Mode: Lecture Grading Option: Letter

DHYG 460d Clinic: Advanced Dental Hygiene
Units: 1 Clinical experience in advanced dental hygiene; preventive and therapeutic skills with emphasis on advanced periodontal instrumentation and expanded functions for the registered dental hygienist. Instruction Mode: Lecture Grading Option: Letter

DHYG 501 Dental Hygiene Theory and Science I
Units: 3 Terms Offered: Fa Issues related to professional development and the advancement of the discipline of dental hygiene. *Concurrent Enrollment:* DHYG 502. Instruction Mode: Lecture Grading Option: Letter

DHYG 502 Dental Hygiene Seminar I
Units: 1 Terms Offered: Fa Ethical principles guiding research and practice in the health care setting, with an emphasis on the rights and protection of human subjects. *Concurrent Enrollment:* DHYG 501 Instruction Mode: Lecture Grading Option: Letter

DHYG 504 Dental Hygiene Theory and Science II
Units: 3 Terms Offered: Sp Issues related to oral health promotion and disease prevention, and health services research. Includes epidemiology, health disparities, quality assurance, literacy and cultural competency. *Concurrent Enrollment:* DHYG 505 Instruction Mode: Lecture Grading Option: Letter

DHYG 505 Dental Hygiene Seminar II
Units: 1 Terms Offered: Sp Design of community health programs and health research. Includes project and study design, and applying methodological and statistical knowledge to project development. *Concurrent Enrollment:* DHYG 504 Instruction Mode: Lecture Grading Option: Letter

DHYG 506 Research Methodologies and Statistics
Units: 3 Terms Offered: Fa Process and fundamentals of research protocol design and statistical methods. Includes research design and methods, scientific database searching and evidence-based resources. Instruction Mode: Lecture Grading Option: Letter

DHYG 507 Dental Hygiene Theory and Science III
Units: 3 Terms Offered: Sm Analysis of disease diagnoses, medical complications, pharmacologic interventions and therapeutic treatment modalities associated with a variety of system diseases. *Concurrent Enrollment:* DHYG 508 Instruction Mode: Lecture Grading Option: Letter

DHYG 508 Dental Hygiene Seminar III
Units: 1 Terms Offered: Sm Strategies for project data management and analysis, and dissemination of scholarly information through journal publications and oral and poster scientific presentations. *Concurrent Enrollment:* DHYG 507 Instruction Mode: Lecture Grading Option: Letter

DHYG 510 Capstone Project
Units: 4 Terms Offered: Fa Students will complete independent field work to implement planned scholarly activities in their professional area of interest, culminating in a written paper and an oral defense. Instruction Mode: Lecture Grading Option: Letter

DHYG 511 Classroom and Clinical Instruction Design
Units: 2 Terms Offered: Sp Apply teaching and learning theories to the development of educational interventions to teach clinical dental hygiene skills in both clinical and laboratory classroom settings. Instruction Mode: Lecture Grading Option: Letter

DHYG 512 Student Teaching
Units: 2 Terms Offered: Sm Applied study of dental hygiene education, with practical experience teaching in the classroom and laboratory settings, and teaching in the dental hygiene clinic. *Prerequisite:* DHYG 511. Instruction Mode: Lecture Grading Option: Letter

DHYG 513 Educational Theory and Instructional Design
Units: 2 Terms Offered: Fa (Enroll in EDUC 622)

DHYG 514 Technology in Higher Education
Units: 2 Terms Offered: Sm (Enroll in EDUC 632)

DHYG 600 Dental Hygiene Professional Issues
Units: 2 Terms Offered: Fa Explore issues related to professional development and advancement of the discipline of dental hygiene and addressing the growth of the knowledge base of the profession Registration Restriction: Open only to master student in Dental Hygiene Instruction Mode: Lecture Grading Option: Letter

DHYG 601 Development of Systematic Investigations
Units: 1 Terms Offered: Fa Focus of research study development that impacts the dental hygiene profession by exploring the ethical and legal principles that guide research and practice in healthcare. Registration Restriction: Open only to master students in Dental Hygiene Instruction Mode: Lecture Grading Option: Letter

DHYG 602 Research Methods and Biostatistics
Units: 2 Terms Offered: Fa Understand research process with fundamentals of research protocol design and statistical methods commonly used in healthcare. Registration Restriction: Open only to master students in Dental Hygiene Instruction Mode: Lecture Grading Option: Letter

DHYG 603 Learning Theories and Technology
Units: 2 Terms Offered: Fa Theories of learning with emphasis will be placed on teaching strategies to a variety of audiences and use of technology in the learning process. Registration Restriction: Open only to master students in Dental Hygiene Instruction Mode: Lecture Grading Option: Letter

DHYG 604 Health Advocacy Program Planning and Evaluation
Units: 2 Terms Offered: Sp Explore issues related to oral health promotion and disease prevention and health services research by investigating oral health reports and surveys influencing the DH profession. Registration Restriction: Open only to master students in Dental Hygiene Instruction Mode: Lecture Grading Option: Letter

DHYG 605 Professional Leadership in Program Development
Units: 2 Terms Offered: Sp Introduce concepts of business planning for the healthcare professional. Grant writing; application of leadership theory; professional leadership development in education, healthcare, research and business settings. Registration Restriction: Open only to master students in Dental Hygiene Instruction Mode: Lecture Grading Option: Letter

DHYG 606 Multidisciplinary Population Health Management Strategies
Units: 2 Terms Offered: Sm Explore population health management of multidisciplinary team care for complex patient populations and strategies for group dynamics for collaborative practice Registration Restriction: Open only to master students in Dental Hygiene Instruction Mode: Lecture Grading Option: Letter

DHYG 607 Knowledge Assessment
Units: 1 Terms Offered: Sm An intensive course developing and evaluating dental hygiene skills and scholarly activities for application in advanced professional careers. Registration Restriction: Open only to master students in Dental Hygiene Instruction Mode: Lecture, Lab, Quiz Grading Option: Letter

DHYG 608 Current Trends in Oral Healthcare
Units: 1 Terms Offered: Fa Current trends in oral healthcare is explored by evaluating the evolving discoveries of wellness, pathology and risk factors affecting oral health. Registration Restriction: Open only to master students in Dental Hygiene Instruction Mode: Lecture Grading Option: Letter

DHYG 609 Capstone Project Fieldwork
Units: 1 Terms Offered: Fa Guided learning of the research process by the design and fieldwork implementation of an approved Capstone project with proper data management. Registration Restriction: Open only to master students in Dental Hygiene Instruction Mode: Lecture Grading Option: Letter

DHYG 610 Capstone Project
Units: 2 Terms Offered: Sp Independent study through guided learning to complete a capstone project including preparation of a publishable manuscript that will be defended in an oral presentation. Registration Restriction: Open only to master students in Dental Hygiene Instruction Mode: Lecture Grading Option: Letter

DHYG 611 Research Writing
Units: 2 Terms Offered: Fa Enhancement of critical research thinking by fulfilling anticipated conceptual components of the journal article; perfection of writing skills by correcting inter- and intra-sentence distractions. Registration Restriction: Open only to master students in Dental Hygiene Instruction Mode: Lecture Grading Option: Letter

DHYG 612 Dental Hygiene Curriculum and Program Design
Units: 2 Terms Offered: Sp Prepare dental hygienists with basic guidelines and skills for development of dental hygiene program and curriculum. Focus on designing academic courses, course materials and overall evaluation methods. Registration Restriction: Open only to master students in Dental Hygiene Instruction Mode: Lecture, Discussion Grading Option: Letter

DHYG 613 Laboratory and Clinical Course Development
Units: 2 Terms Offered: Sm Curriculum design for teaching psycho-motor skills in a simulation laboratory and providing feedback and strategies for achieving competence in student-patient clinical setting. Registration Restriction: Open only to master students in Dental Hygiene Instruction Mode: Lecture Grading Option: Letter

DHYG 614 Dental Hygiene Student Teaching Practicum
Units: 3 Terms Offered: Fa Application of theory and skills developed through student teaching in the classroom, laboratory and clinical settings. *Prerequisite:* DHYG 612 and DHYG 613 Registration Restriction: Open only to master students in Dental Hygiene Instruction Mode: Lecture Grading Option: Letter

DHYG 615 Geriatric Healthcare Program Planning
Units: 1 Terms Offered: Fa Independent learning environment of interactive experiences to understand the complexities of oral health care management of older people and geriatric care facilities. Registration Restriction: Open only to master students in Dental Hygiene Instruction Mode: Lecture Grading Option: Letter

Oral Diagnosis and Radiology

DIAG 415 Radiographic Techniques
Units: 1 Clinical application of radiographic chairside and dark room techniques and quality control. Instruction Mode: Lecture Grading Option: Letter

DIAG 521 Principles of Oral Radiology
Units: 2 Introduction to ionizing radiation and its use in the health professions; radiation biology, physics and hygiene; descriptive terms used in radiography, with illustrations; documentation. Instruction Mode: Lecture Grading Option: Letter

DIAG 522 Radiographic Techniques
Units: 1 Clinical applications of radiographic chairside and darkroom techniques; quality control and evaluation of the radiograph. Instruction Mode: Lecture Grading Option: Letter

DIAG 523 Oral Maxillofacial Imaging
Units: 2 Terms Offered: Sm Clinical application of intraoral and extraoral radiographic techniques; emphasis upon radiation physics, biology, safety, film and digital imaging and image interpretation. Instruction Mode: Lecture Grading Option: Letter

DIAG 615 Digital and Oral Maxillofacial Imaging
Units: 2, 3, 4 Terms Offered: FaSp Introduction to computer based imaging in dentistry. Student will learn to use video cameras, scanners, intraoral sensors and advanced imaging technology. *Prerequisite:* DIAG 521, DIAG 522. Instruction Mode: Lecture Grading Option: Letter

DIAG 621 CAD/CAM in Dentistry
Units: 1 Modern principles of dental Computer Assisted Design/Computer Assisted Manufacturing and will fabricate such restorations in the laboratory. Instruction Mode: Lecture Grading Option: Letter

Dental Materials

DMAT 316L Dental Materials and Clinical Procedures
Units: 2 Biomechanical principles, properties, and manipulation of dental materials; armamentarium for various dental procedures. Instruction Mode: Lecture, Lab Required Grading Option: Letter

DMAT 505 Dental Materials Update
Units: 1 Biocompatibility of dental materials, restorative materials and techniques update, critical analysis of published literature. Includes specific laboratory

testing research methodology and design of clinical trials. Instruction Mode: Lecture Grading Option: Letter

DMAT 521a Dental Materials
Units: 2 Properties, biomechanical function, manipulation, and clinical application of dental materials. Correlates restorative, biological, and materials sciences. Instruction Mode: Lecture Grading Option: Letter

DMAT 521b Dental Materials
Units: 2 Properties, biomechanical function, manipulation, and clinical application of dental materials. Correlates restorative, biological, and materials sciences. Instruction Mode: Lecture Grading Option: Letter

DMAT 701 Advanced Biomaterials
Units: 2 Terms Offered: FaSpSm Fundamental principles of materials science and clinical dentistry relative to proper selection and manipulation of dental materials. Registration Restriction: Open only to the Herman Ostrow School of Dentistry Instruction Mode: Lecture Grading Option: Letter

Digital Media Management

DMM 500 Principles and Theories of Digital Media Management
Units: 2 Terms Offered: FaSpSm Explores the digital media environment, its sociohistorical evolution and the impact of digital technologies and media on practices within cultural and business ecosystems. Registration Restriction: Open only to Digital Media Management students Instruction Mode: Lecture Grading Option: Letter

DMM 505 Digital Audience Research and Analysis
Units: 2 Terms Offered: FaSpSm Explores research methodologies and digital audience analytics, evaluating online audience needs and wants and focusing on data-driven and ethical decision making. Registration Restriction: Open only to Digital Media Management students Instruction Mode: Lecture Grading Option: Letter

DMM 510 Digital Media Buying, Measurement and Analytics
Units: 2 Terms Offered: FaSpSm Examines digital media advertising sales technologies: digital advertising, media buying, digital asset performance measurement and data collection methodologies used for business planning. Registration Restriction: Open only to Digital Media Management students Instruction Mode: Lecture Grading Option: Letter

DMM 515 Digital Content, Production and Distribution
Units: 2 Terms Offered: FaSpSm Explores the evolution of digital media content, content categories in digital media, innovations in content production techniques and technologies and the digital distribution revolution. Registration Restriction: Open only to Digital Media Management students Instruction Mode: Lecture Grading Option: Letter

DMM 520 Strategic Digital Media Marketing
Units: 2 Terms Offered: FaSpSm Case studies and examples to ideate, create and evaluate cutting-edge techniques used to implement long-range strategies for ethical digital media management and marketing. Registration Restriction: Open only to Digital Media Management students Instruction Mode: Lecture Grading Option: Letter

DMM 525 Digital Media Leadership
Units: 2 Terms Offered: FaSpSm Examines personal leadership principles and practices applicable to digital media, focused on leading within organizations, building diverse, high-performing teams and delivering digital media initiatives. Registration Restriction: Open only to Digital Media Management students Instruction Mode: Lecture Grading Option: Letter

DMM 530 Managing Digital Media Teams and Projects
Units: 2 Terms Offered: FaSpSm Covers the principles and skills needed to manage teams and projects within the digital media environment and achieve organizational goals through strategic planning. Registration Restriction: Open only to Digital Media Management students Instruction Mode: Lecture Grading Option: Letter

DMM 535 Digital Content Direction
Units: 2 Terms Offered: FaSpSm Covers principles and strategies for directing digital content across platforms to achieve organizational objectives beyond creating awareness, informing or entertaining. Registration Restriction: Open only to Digital Media Management students Instruction Mode: Lecture Grading Option: Letter

DMM 540 Developing Effective User Engagement Strategies
Units: 2 Terms Offered: FaSpSm Covers strategies to balance the needs of creating a user experience and content with the ethical imperatives of fostering equity, diversity and inclusion. Registration Restriction: Open only to Digital Media Management students Instruction Mode: Lecture Grading Option: Letter

DMM 545 Digital Platforms: Disruptions and Directions
Units: 2 Terms Offered: FaSpSm Explores how the platform economy is disrupting traditional marketplaces and industries with new, digital technologies and ways for optimizing outcomes from those changes. Registration Restriction: Open only to Digital Media Management students Instruction Mode: Lecture Grading Option: Letter

DMM 550 Digital Media Innovation and Entrepreneurship
Units: 2 Terms Offered: FaSpSm Covers management of digital media innovation within digital media organizations and new entrepreneurial ventures, and ways for alleviating challenges to equity and diversity. Registration Restriction: Open only to Digital Media Management students Instruction Mode: Lecture Grading Option: Letter

DMM 555 Digital Media Management Capstone
Units: 2 Terms Offered: FaSpSm Students create an innovative idea or initiative that solves a problem or achieves a goal within a digital media organization or business unit. Registration Restriction: Open only to Digital Media Management students Instruction Mode: Lecture Grading Option: Letter

Dental Problem Based Learning

DPBL 501a Dental Problem Based Learning — Human Structure I
Units: 3 Terms Offered: FaSpSm Problem based learning presentation of normal and abnormal structures including anatomy, cell biology, embryology, histology, pathology from cells, tissues and organs of the human body. All material discussed with direct relationship to a well-characterized human clinical case. Acceptance to DDS program required. Instruction Mode: Lecture Grading Option: Letter

DPBL 501b Dental Problem Based Learning — Human Structure I
Units: 3 Terms Offered: FaSpSm Problem based learning presentation of normal and abnormal structures including anatomy, cell biology, embryology, histology, pathology from cells, tissues and organs of the human body. All material discussed with direct relationship to a well-characterized human clinical case. Acceptance to DDS program required. Instruction Mode: Lecture Grading Option: Letter

DPBL 501c Dental Problem Based Learning — Human Structure I
Units: 3 Terms Offered: FaSpSm Problem based learning presentation of normal and abnormal structures including anatomy, cell biology, embryology, histology, pathology from cells, tissues and organs of the human body. All material discussed with direct relationship to a well-characterized human clinical case. Acceptance to DDS program required. Instruction Mode: Lecture Grading Option: Letter

DPBL 502a Dental Problem Based Learning — Human Function I
Units: 8 Terms Offered: FaSpSm Problem based learning presentation of normal and abnormal function including biochemistry, endocrinology, genetics, immunology, microbiology, nutrition, pharmacology, physiology from cells, tissues and organs of the human body. All material discussed with direct relationship to a well-characterized human clinical case. Acceptance to DDS program required. Instruction Mode: Lecture Grading Option: Letter

DPBL 502b Dental Problem Based Learning — Human Function I
Units: 8 Terms Offered: FaSpSm Problem based learning presentation of normal and abnormal function including biochemistry, endocrinology, genetics, immunology, microbiology, nutrition, pharmacology, physiology from cells, tissues and organs of the human body. All material discussed with direct relationship to a well-characterized human clinical case. Acceptance to DDS program required. Instruction Mode: Lecture Grading Option: Letter

DPBL 502c Dental Problem Based Learning — Human Function I
Units: 8 Terms Offered: FaSpSm Problem based learning presentation of normal and abnormal function including biochemistry, endocrinology, genetics, immunology, microbiology, nutrition, pharmacology, physiology from cells, tissues and organs of the human body. All material discussed with direct relationship to a well-characterized

human clinical case. Acceptance to DDS program required. Instruction Mode: Lecture Grading Option: Letter

DPBL 503a Dental Problem Based Learning — Human Behavior I
Units: 2 Terms Offered: FaSpSm
Problem based learning presentation of normal and abnormal behavior including communication, ethics, multiculturalism, patient management, phobias associated with treatment of patients with and without special needs. All material discussed with direct relationship to a well-characterized human clinical case. Acceptance to DDS program required. Instruction Mode: Lecture Grading Option: Letter

DPBL 503b Dental Problem Based Learning — Human Behavior I
Units: 2 Terms Offered: FaSpSm
Problem based learning presentation of normal and abnormal behavior including communication, ethics, multiculturalism, patient management, phobias associated with treatment of patients with and without special needs. All material discussed with direct relationship to a well-characterized human clinical case. Acceptance to DDS program required. Instruction Mode: Lecture Grading Option: Letter

DPBL 503c Dental Problem Based Learning — Human Behavior I
Units: 2 Terms Offered: FaSpSm
Problem based learning presentation of normal and abnormal behavior including communication, ethics, multiculturalism, patient management, phobias associated with treatment of patients with and without special needs. All material discussed with direct relationship to a well-characterized human clinical case. Acceptance to DDS program required. Instruction Mode: Lecture Grading Option: Letter

DPBL 504a Dental Problem Based Learning — Human Clinical Dentistry I
Units: 4 Terms Offered: FaSpSm Problem based learning approach to the delivery of dental health care. Didactic, preclinical and clinical principles of endodontics, geriatrics, oral diagnosis, oral pathology, oral radiology, oral surgery, orthodontics, pediatric dentistry, periodontics, prosthodontics and restorative dentistry will be presented with a direct relationship to a well-characterized human clinical case. Acceptance to DDS program required. Instruction Mode: Lecture Grading Option: Letter

DPBL 504b Dental Problem Based Learning — Human Clinical Dentistry I
Units: 4 Terms Offered: FaSpSm Problem based learning approach to the delivery of dental health care. Didactic, preclinical and clinical principles of endodontics, geriatrics, oral diagnosis, oral pathology, oral radiology, oral surgery, orthodontics, pediatric dentistry, periodontics, prosthodontics and restorative dentistry will be presented with a direct relationship to a well-characterized human clinical case. Acceptance to DDS program required. Instruction Mode: Lecture Grading Option: Letter

DPBL 504c Dental Problem Based Learning — Human Clinical Dentistry I
Units: 4 Terms Offered: FaSpSm Problem based learning approach to the delivery of dental health care. Didactic, preclinical and clinical principles of endodontics, geriatrics, oral diagnosis, oral pathology, oral radiology, oral surgery, orthodontics, pediatric dentistry, periodontics, prosthodontics and restorative dentistry will be presented with a direct relationship to a well-characterized human clinical case. Acceptance to DDS program required. Instruction Mode: Lecture Grading Option: Letter

DPBL 511a Dental Problem Based Learning — Human Structure II
Units: 2 Terms Offered: FaSpSm Problem based learning presentation of normal and abnormal structures including anatomy, cell biology, embryology, histology, pathology from cells, tissues and organs of the human body. All material discussed with direct relationship to a well-characterized human clinical case. *Prerequisite:* DPBL 502c. Instruction Mode: Lecture Grading Option: Letter

DPBL 511b Dental Problem Based Learning — Human Structure II
Units: 2 Terms Offered: FaSpSm Problem based learning presentation of normal and abnormal structures including anatomy, cell biology, embryology, histology, pathology from cells, tissues and organs of the human body. All material discussed with direct relationship to a well-characterized human clinical case. *Prerequisite:* DPBL 502c. Instruction Mode: Lecture Grading Option: Letter

DPBL 511c Dental Problem Based Learning — Human Structure II
Units: 2 Terms Offered: FaSpSm Problem based learning presentation of normal and abnormal structures including anatomy, cell biology, embryology, histology, pathology from cells, tissues and organs of the human body. All material discussed with direct relationship to a well-characterized human clinical case. *Prerequisite:* DPBL 502c. Instruction Mode: Lecture Grading Option: Letter

DPBL 512a Dental Problem Based Learning — Human Function II
Units: 5 Terms Offered: FaSpSm Problem based learning presentation of normal and abnormal function including biochemistry, endocrinology, genetics, immunology, microbiology, nutrition, pharmacology, physiology from cells, tissues and organs of the human body. All material discussed with direct relationship to a well-characterized human clinical case. *Prerequisite:* DPBL 502c. Instruction Mode: Lecture Grading Option: Letter

DPBL 512b Dental Problem Based Learning — Human Function II
Units: 5 Terms Offered: FaSpSm Problem based learning presentation of normal and abnormal function including biochemistry, endocrinology, genetics, immunology, microbiology, nutrition, pharmacology, physiology from cells, tissues and organs of the human body. All material discussed with direct relationship to a well-characterized human clinical case. *Prerequisite:* DPBL 502c. Instruction Mode: Lecture Grading Option: Letter

DPBL 512c Dental Problem Based Learning — Human Function II
Units: 5 Terms Offered: FaSpSm Problem based learning presentation of normal and abnormal function including biochemistry, endocrinology, genetics, immunology, microbiology, nutrition, pharmacology, physiology from cells, tissues and organs of the human body. All material discussed with direct relationship to a well-characterized human clinical case. *Prerequisite:* DPBL 502c. Instruction Mode: Lecture Grading Option: Letter

DPBL 513a Dental Problem Based Learning — Human Behavior II
Units: 3 Terms Offered: FaSpSm
Problem based learning presentation of normal and abnormal behavior including communication, ethics, multiculturalism, patient management, phobias associated with treatment of patients with and without special needs. All material discussed with direct relationship to a well-characterized human clinical case. *Prerequisite:* DPBL 502c. Instruction Mode: Lecture Grading Option: Letter

DPBL 513b Dental Problem Based Learning — Human Behavior II
Units: 3 Terms Offered: FaSpSm
Problem based learning presentation of normal and abnormal behavior including communication, ethics, multiculturalism, patient management, phobias associated with treatment of patients with and without special needs. All material discussed with direct relationship to a well-characterized human clinical case. *Prerequisite:* DPBL 502c. Instruction Mode: Lecture Grading Option: Letter

DPBL 513c Dental Problem Based Learning — Human Behavior II
Units: 2 Terms Offered: FaSpSm
Problem based learning presentation of normal and abnormal behavior including communication, ethics, multiculturalism, patient management, phobias associated with treatment of patients with and without special needs. All material discussed with direct relationship to a well-characterized human clinical case. *Prerequisite:* DPBL 502c. Instruction Mode: Lecture Grading Option: Letter

DPBL 514a Dental Problem Based Learning — Human Clinical Dentistry II
Units: 7 Terms Offered: FaSpSm Problem based learning approach to the delivery of dental health care. Didactic, preclinical and clinical principles of endodontics, geriatrics, oral diagnosis, oral pathology, oral radiology, oral surgery, orthodontics, pediatric dentistry, periodontics, prosthodontics and restorative dentistry will be presented with a direct relationship to a well-characterized human clinical case. *Prerequisite:* DPBL 504c. Instruction Mode: Lecture Grading Option: Letter

DPBL 514b Dental Problem Based Learning — Human Clinical Dentistry II
Units: 7 Terms Offered: FaSpSm Problem based learning approach to the delivery of dental health care. Didactic, preclinical and clinical principles of endodontics, geriatrics, oral diagnosis, oral pathology, oral radiology, oral surgery, orthodontics, pediatric dentistry, periodontics, prosthodontics and restorative dentistry will be presented with a direct relationship to a well-characterized human clinical case. *Prerequisite:* DPBL 504c. Instruction Mode: Lecture Grading Option: Letter

DPBL 514c Dental Problem Based Learning — Human Clinical Dentistry II
Units: 8 Terms Offered: FaSpSm Problem based learning approach to the delivery of dental health care. Didactic, preclinical and clinical principles of endodontics, geriatrics, oral diagnosis, oral pathology, oral radiology, oral surgery, orthodontics, pediatric dentistry, periodontics, prosthodontics and restorative dentistry will be presented with a direct relationship to a well-characterized human clinical case. *Prerequisite:* DPBL 504c. Instruction Mode: Lecture Grading Option: Letter

DPBL 521a Dental Problem Based Learning — Human Structure III
Units: 1 Terms Offered: FaSpSm Problem based learning presentation of normal and abnormal structures including anatomy, cell biology, embryology, histology, pathology from cells, tissues and organs of the human body. All material discussed with direct relationship to a well-characterized human clinical case. *Prerequisite:* DPBL 511c. Instruction Mode: Lecture Grading Option: Letter

DPBL 521b Dental Problem Based Learning — Human Structure III
Units: 1 Terms Offered: FaSpSm Problem based learning presentation of normal and abnormal structures including anatomy, cell biology, embryology, histology, pathology from cells, tissues and organs of the human body. All material discussed with direct relationship to a well-characterized human clinical case. *Prerequisite:* DPBL 511c. Instruction Mode: Lecture Grading Option: Letter

DPBL 521c Dental Problem Based Learning — Human Structure III
Units: 1 Terms Offered: FaSpSm Problem based learning presentation of normal and abnormal structures including anatomy, cell biology, embryology, histology, pathology from cells, tissues and organs of the human body. All material discussed with direct relationship to a well-characterized human clinical case. *Prerequisite:* DPBL 511c. Instruction Mode: Lecture Grading Option: Letter

DPBL 522a Dental Problem Based Learning — Human Function III
Units: 1 Terms Offered: FaSpSm Problem based learning presentation of normal and abnormal function including biochemistry, endocrinology, genetics, immunology, microbiology, nutrition, pharmacology, physiology from cells, tissues and organs of the human body. All material discussed with direct relationship to a well-characterized human clinical case. *Prerequisite:* DPBL 512c. Instruction Mode: Lecture Grading Option: Letter

DPBL 522b Dental Problem Based Learning — Human Function III
Units: 1 Terms Offered: FaSpSm Problem based learning presentation of normal and abnormal function including biochemistry, endocrinology, genetics, immunology, microbiology, nutrition, pharmacology, physiology from cells, tissues and organs of the human body. All material discussed with direct relationship to a well-characterized human clinical case. *Prerequisite:* DPBL 512c. Instruction Mode: Lecture Grading Option: Letter

DPBL 522c Dental Problem Based Learning — Human Function III
Units: 1 Terms Offered: FaSpSm Problem based learning presentation of normal and abnormal function including biochemistry, endocrinology, genetics, immunology, microbiology, nutrition, pharmacology, physiology from cells, tissues and organs of the human body. All material discussed with direct relationship to a well-characterized human clinical case. *Prerequisite:* DPBL 512c. Instruction Mode: Lecture Grading Option: Letter

DPBL 523a Dental Problem Based Learning — Human Behavior III
Units: 1 Terms Offered: FaSpSm
Problem based learning presentation of normal and abnormal behavior including communication, ethics, multiculturalism, patient management, phobias associated with treatment of patients with and without special needs. All material discussed with direct relationship to a well-characterized human clinical case. *Prerequisite:* DPBL 502c. Instruction Mode: Lecture Grading Option: Letter

DPBL 523b Dental Problem Based Learning — Human Behavior III
Units: 1 Terms Offered: FaSpSm
Problem based learning presentation of normal and abnormal behavior including communication, ethics, multiculturalism, patient management, phobias associated with treatment of patients with and without special needs. All material discussed with direct relationship to a well-characterized human clinical case. *Prerequisite:* DPBL 502c. Instruction Mode: Lecture Grading Option: Letter

DPBL 523c Dental Problem Based Learning — Human Behavior III
Units: 1 Terms Offered: FaSpSm
Problem based learning presentation of normal and abnormal behavior including communication, ethics, multiculturalism, patient management, phobias associated with treatment of patients with and without special needs. All material discussed with direct relationship to a well-characterized human clinical case. *Prerequisite:* DPBL 502c. Instruction Mode: Lecture Grading Option: Letter

DPBL 524a Dental Problem Based Learning — Human Clinical Dentistry III
Units: 14 Terms Offered: FaSpSm Problem based learning approach to the delivery of dental health care. Didactic, preclinical and clinical principles of endodontics, geriatrics, oral diagnosis, oral pathology, oral radiology, oral surgery, orthodontics, pediatric dentistry, periodontics, prosthodontics and restorative dentistry will be presented with a direct relationship to a well-characterized human clinical case. *Prerequisite:* DPBL 502c. Instruction Mode: Lecture Grading Option: Letter

DPBL 524b Dental Problem Based Learning — Human Clinical Dentistry III
Units: 14 Terms Offered: FaSpSm Problem based learning approach to the delivery of dental health care. Didactic, preclinical and clinical principles of endodontics, geriatrics, oral diagnosis, oral pathology, oral radiology, oral surgery, orthodontics, pediatric dentistry, periodontics, prosthodontics and restorative dentistry will be presented with a direct relationship to a well-characterized human clinical case. *Prerequisite:* DPBL 502c. Instruction Mode: Lecture Grading Option: Letter

DPBL 524c Dental Problem Based Learning — Human Clinical Dentistry III
Units: 14 Terms Offered: FaSpSm Problem based learning approach to the delivery of dental health care. Didactic, preclinical and clinical principles of endodontics, geriatrics, oral diagnosis, oral pathology, oral radiology, oral surgery, orthodontics, pediatric dentistry, periodontics, prosthodontics and restorative dentistry will be presented with a direct relationship to a well-characterized human clinical case. *Prerequisite:* DPBL 502c. Instruction Mode: Lecture Grading Option: Letter

DPBL 531a Dental Problem Based Learning — Human Structure IV
Units: 1 Terms Offered: FaSp Problem based learning presentation of normal and abnormal structures including anatomy, cell biology, embryology, histology, pathology from cells, tissues and organs of the human body. All material discussed with direct relationship to a well-characterized human clinical case. *Prerequisite:* DPBL 502c. Instruction Mode: Lecture Grading Option: Letter

DPBL 531b Dental Problem Based Learning — Human Structure IV
Units: 1 Terms Offered: FaSp Problem based learning presentation of normal and abnormal structures including anatomy, cell biology, embryology, histology, pathology from cells, tissues and organs of the human body. All material discussed with direct relationship to a well-characterized human clinical case. *Prerequisite:* DPBL 502c. Instruction Mode: Lecture Grading Option: Letter

DPBL 532a Dental Problem Based Learning — Human Function IV
Units: 1 Terms Offered: FaSp Problem based learning presentation of normal and abnormal function including biochemistry, endocrinology, genetics, immunology, microbiology, nutrition, pharmacology, physiology from cells, tissues and organs of the human body. All material discussed with direct relationship to a well-characterized human clinical case. *Prerequisite:* DPBL 512c. Instruction Mode: Lecture Grading Option: Letter

DPBL 532b Dental Problem Based Learning — Human Function IV
Units: 1 Terms Offered: FaSp Problem based learning presentation of normal and abnormal function including biochemistry, endocrinology, genetics, immunology, microbiology, nutrition, pharmacology, physiology from cells, tissues and organs of the human body. All material discussed with direct relationship to a well-characterized human clinical case. *Prerequisite:* DPBL 512c. Instruction Mode: Lecture Grading Option: Letter

DPBL 533a Dental Problem Based Learning — Human Behavior IV
Units: 1 Terms Offered: FaSp Problem based learning presentation of normal and abnormal behavior including communication, ethics, multiculturalism, patient management, phobias associated with treatment of patients with and without special needs. All material discussed with direct relationship to a well-characterized human clinical case. *Prerequisite:* DPBL

523c. Instruction Mode: Lecture Grading Option: Letter

DPBL 533b Dental Problem Based Learning — Human Behavior IV
Units: 1 Terms Offered: FaSp Problem based learning presentation of normal and abnormal behavior including communication, ethics, multiculturalism, patient management, phobias associated with treatment of patients with and without special needs. All material discussed with direct relationship to a well-characterized human clinical case. *Prerequisite:* DPBL 523c. Instruction Mode: Lecture Grading Option: Letter

DPBL 534a Dental Problem Based Learning — Human Clinical Dentistry IV
Units: 13 Terms Offered: FaSp Problem based learning approach to the delivery of dental health care. Didactic, preclinical and clinical principles of endodontics, geriatrics, oral diagnosis, oral pathology, oral radiology, oral surgery, orthodontics, pediatric dentistry, periodontics, prosthodontics and restorative dentistry will be presented with a direct relationship to a well-characterized human clinical case. *Prerequisite:* DPBL 502c. Instruction Mode: Lecture Grading Option: Letter

DPBL 534b Dental Problem Based Learning — Human Clinical Dentistry IV
Units: 13 Terms Offered: FaSp Problem based learning approach to the delivery of dental health care. Didactic, preclinical and clinical principles of endodontics, geriatrics, oral diagnosis, oral pathology, oral radiology, oral surgery, orthodontics, pediatric dentistry, periodontics, prosthodontics and restorative dentistry will be presented with a direct relationship to a well-characterized human clinical case. *Prerequisite:* DPBL 502c. Instruction Mode: Lecture Grading Option: Letter

Pharmacology

DPHR 410 Principles of Pharmacology
Units: 2 Basic principles of drug action; application of drugs in the prevention and treatment of disease; harmful effects of drugs on biological systems. Instruction Mode: Lecture Grading Option: Letter

DPHR 501 Pharmacology
Units: 3 General principles of drug action: prescription writing; toxicology; pharmacology of drugs affecting cardiovascular, autonomic, endocrine, and central nervous systems; drug control of pain, anxiety, infection.

DPHR 601 Clinical Drug Therapy in Dentistry
Units: 2 Clinical pharmacology of drug therapy important to dental practice using case history disease signs and symptoms and attendant drug therapy. Instruction Mode: Lecture Grading Option: Letter

DPHR 701 Advanced Pharmacology
Units: 1 Pharmacologic principles and practice of drug use to control anxiety, pain, and infection. Treatment of drug and medical emergencies as they relate to dental specialty practice. Instruction Mode: Lecture Grading Option: Letter

Data Science

DSCI 250 Introduction to Data Science
Units: 4 Terms Offered: Fa Fundamentals of data science: representation of data and knowledge, role of a data scientist, data storage / processing / analytics, machine learning, big data and data visualization. *Recommended Preparation:* A basic understanding of engineering and / or technology is recommended. *Corequisite:* ITP 115 Duplicates Credit in former INF 250 Instruction Mode: Lecture Grading Option: Letter

DSCI 351 Foundations of Data Management
Units: 4 Terms Offered: Sm Data modeling, data storage, indexing, relational databases, key-value/document store, NoSQL, distributed file system, parallel computation and big-data analytics. *Prerequisite:* DSCI 250 and ITP 115 *Recommended Preparation:* Programming experience (e.g., Python or Java) Duplicates Credit in former INF 351 Instruction Mode: Lecture Grading Option: Letter

DSCI 352 Applied Machine Learning and Data Mining
Units: 4 Terms Offered: Fa Foundational course focusing on the understanding, application and evaluation of machine learning and data mining approaches in data-intensive scenarios. *Prerequisite:* DSCI 250 and MATH 208x Duplicates Credit in former INF 352 Instruction Mode: Lecture Grading Option: Letter

DSCI 429 Security and Privacy
Units: 4 Terms Offered: Sp Basic concepts in information security and privacy; implications of security and privacy breaches; security and privacy policies, threats and protection mechanisms; security and privacy laws, regulations and ethics. Duplicates Credit in former INF 429 Instruction Mode: Lecture Grading Option: Letter

DSCI 454 Data Visualization and User Interface Design
Units: 4 Terms Offered: Fa Design of systems for data visualization; user interface design for exploring and interacting with data. *Prerequisite:* DSCI 250 Duplicates Credit in former INF 454 Instruction Mode: Lecture Grading Option: Letter

DSCI 510 Principles of Programming for Data Science
Units: 4 Terms Offered: FaSp Programming in Python for retrieving, searching and analyzing data from the Web. Learning to manipulate large data sets. Duplicates Credit in former INF 510 Instruction Mode: Lecture, Lab Grading Option: Letter

DSCI 519 Foundations and Policy for Information Security
Units: 4 Terms Offered: Fa Threats to information systems; technical and procedural approaches to threat mitigation; policy specification and foundations of policy for secure systems; mechanisms for building secure security services; risk management. Background in computer security preferred. Recommended previous courses of study include computer science, electrical engineering, computer engineering, management information systems and/or mathematics. Duplicates Credit in former INF 519 Instruction Mode: Lecture Grading Option: Letter

DSCI 523 Computer Systems Assurance
Units: 4 Terms Offered: Fa Assurance that an information system will behave as expected; assurance approaches for fielding secure information systems; case studies. Recommended preparation: Prior degree in computer science, electrical engineering, computer engineering, management information systems and/or mathematics. Some background in computer security preferred. *Prerequisite:* DSCI 519 Duplicates Credit in former INF 523 Instruction Mode: Lecture Grading Option: Letter

DSCI 525 Trusted System Design, Analysis and Development
Units: 4 Terms Offered: Sp Analysis of computer security and why systems are not secure. Concepts and techniques applicable to the design of hardware and software for Trusted Systems. *Prerequisite:* DSCI 519 Duplicates Credit in former INF 525 Instruction Mode: Lecture Grading Option: Letter

DSCI 526 Secure Systems Administration
Units: 4 Terms Offered: Fa The administrator's role in information system testing, certification, accreditation, operation and defense from cyber attacks. Security assessment. Examination of system vulnerabilities. Policy development. Recommended preparation: previous degree in computer science, mathematics, computer engineering, data science and/or information security undergraduate program. Also, it is highly recommended that students have successfully completed course work involving policy and network security. *Prerequisite:* CSCI 530 Duplicates Credit in former INF 526 Instruction Mode: Lecture, Lab Grading Option: Letter

DSCI 527 Secure Systems Engineering
Units: 3 Terms Offered: Fa The process of designing, developing and fielding secure information systems. Developing assurance evidence. Completion of a penetration analysis. Detecting architectural weaknesses. Case studies. Recommended preparation: Previous degree in computer science, mathematics, computer engineering or data science; moderate to intermediate understanding of the fundamentals of information assurance and distributed systems and network security. Knowledge and skill in programming. *Prerequisite:* DSCI 525 Duplicates Credit in former INF 527 Instruction Mode: Lecture Grading Option: Letter

DSCI 528 Computer Forensics
Units: 4 Terms Offered: Fa Preservation, identification, extraction and documentation of computer evidence stored on a computer. Data recovery; File System Analysis; Investigative Techniques and Methodologies; Forensic Reports and Presentations. Duplicates Credit in former INF 528 Instruction Mode: Lecture Grading Option: Letter

DSCI 529 Security and Privacy
Units: 4 Terms Offered: Sp Covers societal implications of information privacy and how to design systems to best preserve privacy. Recommended Preparation: general familiarity with the use of common Internet and mobile applications. *Recommended Preparation:* General familiarity with the use of common Internet and mobile applications Duplicates Credit in former INF 529

Instruction Mode: Lecture Grading Option: Letter

DSCI 531 Fairness in Artificial Intelligence
Units: 4 Terms Offered: FaSp Basic and advanced fairness concepts and methods; applications to societal data for studying fairness and bias; fairness and bias effects in learning algorithms. *Recommended Preparation:* Knowledge of Python, linear algebra, probability, and statistics. Familiarity with artificial intelligence and machine learning. Instruction Mode: Lecture Grading Option: Letter

DSCI 534 Biomedical Data Privacy Issues and Solutions
Units: 4 Terms Offered: FaSp Privacy concerns in healthcare; current law and regulations; existing and emerging technologies shaped by ethics, privacy considerations and medical implications; special attention given to genomic data. *Recommended Preparation:* Prior experience with information security, public policy, and legal frameworks is not required for this course. Basic understanding of engineering and/or technology principles. Instruction Mode: Lecture Grading Option: Letter

DSCI 549 Introduction to Computational Thinking and Data Science
Units: 4 Terms Offered: FaSp Introduction to data analysis techniques and associated computing concepts for non-programmers. Topics include foundations for data analysis, visualization, parallel processing, metadata, provenance and data stewardship. Recommended preparation: mathematics and logic undergraduate courses. *Recommended Preparation:* Mathematics and logic undergraduate courses Duplicates Credit in former INF 549 Instruction Mode: Lecture Grading Option: Letter

DSCI 550 Data Science at Scale
Units: 4 Terms Offered: FaSp Fundamentals of big data informatics techniques. Data lifecycle; the data scientist; machine learning; data mining; NoSQL databases; tools for storage/processing/analytics of large data set on clusters; in-data techniques. *Recommended Preparation:* A basic understanding of engineering principles and programming language is desirable Duplicates Credit in former INF 550 Instruction Mode: Lecture Grading Option: Letter

DSCI 551 Foundations of Data Management
Units: 4 Function and design of modern storage systems, including cloud; data management techniques; data modeling; network attached storage, clusters and data centers; relational databases; the map-reduce paradigm. *Recommended Preparation:* Understanding of networks and databases; experience with probability, statistics, and programming Duplicates Credit in former INF 551, former INF 559, DSCI 559 Instruction Mode: Lecture Grading Option: Letter

DSCI 552 Machine Learning for Data Science
Units: 4 Terms Offered: FaSpSm Practical applications of machine learning techniques to real-world problems. Uses in data mining and recommendation systems and for building adaptive user interfaces. Duplicates Credit in former INF 552 Instruction Mode: Lecture Grading Option: Letter

DSCI 553 Foundations and Applications of Data Mining
Units: 4 Terms Offered: FaSpSm Data mining and machine learning algorithms for analyzing very large data sets. Emphasis on Map Reduce. Case studies. *Recommended Preparation:* DSCI 551 and DSCI 552. Probability, linear algebra, basic programming and machine learning Duplicates Credit in former INF 553 Instruction Mode: Lecture Grading Option: Letter

DSCI 554 Data Visualization
Units: 4 Terms Offered: Fa Graphical depictions of data for communication, analysis and decision support. Cognitive processing and perception of visual data and visualizations. Designing effective visualizations. Implementing interactive visualizations. Duplicates Credit in former INF 554 Instruction Mode: Lecture Grading Option: Letter

DSCI 555 Interaction Design and Usability Testing
Units: 4 Terms Offered: FaSp Understand and apply user interface theory and techniques to design, build and test responsive applications that run on mobile devices and/or desktops. *Recommended Preparation:* Knowledge of data management, machine learning, data mining and data visualization Duplicates Credit in former INF 555 Instruction Mode: Lecture Grading Option: Letter

DSCI 556 User Experience Design and Strategy
Units: 4 Terms Offered: FaSp The practice of User Experience Design and Strategy principles for the creation of unique and compelling digital products and services. *Recommended Preparation:* Basic familiarity with web development and/or graphic design using a digital layout tool Duplicates Credit in former INF 556 Instruction Mode: Lecture Grading Option: Letter

DSCI 558 Building Knowledge Graphs
Units: 4 Terms Offered: FaSp Foundations, techniques and algorithms for building knowledge graphs and doing so at scale. Topics include information extraction, data alignment, entity linking and the Semantic Web. *Recommended Preparation:* DSCI 553 and Experience programming in Python *Corequisite:* (DSCI 551 or INF 551 or CSCI 585) and (DSCI 552 or INF 552 or CSCI 567) Duplicates Credit in former INF 558 Instruction Mode: Lecture Grading Option: Letter Crosslisted as CSCI 563

DSCI 559 Introduction to Data Management
Units: 3 Terms Offered: Sp Function, design, and use of modern data management systems, including cloud; data management techniques; data modeling; network attached storage, clusters and data centers; relational databases; the map-reduce paradigm. *Recommended Preparation:* Understanding of engineering principles, basic programming skills, familiarity with Python Duplicates Credit in DSCI 551, former INF 559 and former INF 551 Instruction Mode: Lecture Grading Option: Letter Crosslisted as ISE 559

DSCI 560 Data Science Professional Practicum
Units: 4 Terms Offered: Sp Student teams working on external customer data analytic challenges; project/presentation based; real client data and implementable solutions for delivery to actual stakeholders; capstone to degree. *Recommended Preparation:* Knowledge of data management, machine learning, data mining and data visualization Duplicates Credit in former INF 560 Instruction Mode: Lecture Grading Option: Letter

DSCI 562 Integration of Medical Imaging Systems
Units: 4 (Enroll in BME 527)

DSCI 563 Medical Diagnostics, Therapeutics and Informatics Applications
Units: 3 (Enroll in BME 528)

DSCI 564 Probability and Statistics for Data Science
Units: 4 Fundamental concepts in probability and statistics from a data science perspective; rigorous probabilistic reasoning and problem solving; statistical methods used in data science. *Recommended Preparation:* Multivariate calculus, linear algebra, linear system theory Duplicates Credit in former INF 564 Instruction Mode: Lecture Grading Option: Letter

DSCI 570 Foundations of Communication Data Science
Units: 3 Terms Offered: Sp Modeling behavior and understanding network structures using graph theory and game theory. Using massive data to analyze group behavior. *Recommended Preparation:* Minimum one year of calculus and background in matrix operations Duplicates Credit in former INF 570 Instruction Mode: Lecture Grading Option: Letter

DSCI 590 Directed Research
Units: 1, 1.5, 2, 2.5, 3, 3.5, 4, 4.5, 5, 6, 7, 8, 9, 10, 11, 12 Terms Offered: FaSpSm Research leading to the master's degree; maximum units which may be applied to the degree to be determined by the department. Instruction Mode: Lecture Grading Option: Credit/No Credit

DSCI 599 Special Topics
Units: 1, 2, 3, 4, 5, 6, 7, 8 Max Units: 08 Terms Offered: FaSp Course content to be selected each semester from recent developments in Data Science. Instruction Mode: Lecture Grading Option: Letter

Digital Social Media

DSM 510 Introduction to Digital Social Media
Units: 4 Terms Offered: Fa Explores the sector of digital social media and online communities, with a focus on user experience, social impact, strategic content creation and models for success. Registration Restriction: Open only to Digital Social Media majors Instruction Mode: Lecture Grading Option: Letter

DSM 520 Managing Technologies for Digital Media
Units: 4 Terms Offered: Fa Strategies and decision-making for development and management of online sites, mobile

apps and social platforms, including search optimization, monetization, product development and user experience testing. Registration Restriction: Open only to Digital Media majors Instruction Mode: Lecture Grading Option: Letter

DSM 550 Analytics and Research Methodology
Units: 4 Terms Offered: Sp Teaches the use and interpretation of digital analytics as well as the use of research design, methodology, and basic statistics for digital sites and apps. Registration Restriction: Open only to digital social media majors Instruction Mode: Lecture Grading Option: Letter

DSM 560 Digital Media Policy, Law, Practices, and Regulation
Units: 4 Terms Offered: Sp Explores laws, policies, and regulations affecting online sites, mobile apps, games, and social platforms, including intellectual property, contracts, libel/defamation, and financial aspects of digital content. Registration Restriction: Open only to digital social media majors Instruction Mode: Lecture Grading Option: Letter

DSM 590 Directed Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Terms Offered: FaSpSm Research leading to graduate degree. Maximum units which may be applied to degree determined by department. Instruction Mode: Lecture Grading Option: Credit/No Credit

DSM 596 Final Project Capstone
Units: 4 Terms Offered: FaSpSm Students produce a working site, app or embedded social platform project with digital/multimedia elements. Development includes pitching, conceptualization and launching of the final project. Registration Restriction: Open only to Digital Social Media majors Instruction Mode: Lecture Grading Option: Letter

DSM 599 Special Topics
Units: 1, 2, 3, 4, 5, 6, 7, 8 Max Units: 08 Terms Offered: FaSpSm Special Topics in Digital Social Media. Instruction Mode: Lecture Grading Option: Letter

Data Sciences and Operations

DSO 401 Business Information Systems – Spreadsheet Applications
Units: 2 Terms Offered: FaSp Applied understanding of how spreadsheets are used to analyze business information. Create real world software applications for use in accounting, finance, marketing and operations. Duplicates Credit in former IOM 401. Instruction Mode: Lecture Grading Option: Letter

DSO 402 Business Information Systems – Database Applications
Units: 2 Terms Offered: Fa Applied understanding of how work group databases are used to analyze business information. Create real world software applications used in accounting, finance, marketing and operations. Duplicates Credit in former IOM 402. Instruction Mode: Lecture Grading Option: Letter

DSO 424 Business Forecasting
Units: 4 Terms Offered: Sp A variety of forecasting techniques used by a variety of businesses. Emphasis on learning to apply these techniques to real data. *Prerequisite:* BUAD 310g or BUAD 312g or EE 364 or MATH 407 Duplicates Credit in the former IOM 424 Instruction Mode: Lecture Grading Option: Letter

DSO 427 Designing Spreadsheet-Based Business Models
Units: 4 Terms Offered: Fa Application of decision analysis, simulation and optimization techniques to managerial problems. Learn how to create and present useful spreadsheet models to analyze practical business problems. *Recommended Preparation:* BUAD 310g or BUAD 312g Duplicates Credit in former IOM 427 Instruction Mode: Lecture Grading Option: Letter

DSO 428 Essentials and Digital Frontiers of Big Data
Units: 4 Terms Offered: Fa An overview of key concepts of big data and related digital technologies and their applications to different business problems. Hands-on experience at introductory level. Duplicates Credit in former IOM 428 Instruction Mode: Lecture Grading Option: Letter

DSO 431 Digital Innovation as Competitive Advantage
Units: 4 Terms Offered: FaSp Implementing transformative digital technologies. Strategies to complete with ERP, blockchain, cloud, cryptocurrency, fintech, insurtech, API economy, digital platforms/ecosystems, open data, AI and ML. Duplicates Credit in former IOM 431 Instruction Mode: Lecture Grading Option: Letter

DSO 433 Designing Digital Processes and User Experiences
Units: 4 Terms Offered: Sp Analyzing and improving business processes with digital technologies; use cases; business case design. Duplicates Credit in former IOM 433 Instruction Mode: Lecture Grading Option: Letter

DSO 435 Enterprise Data Architecture
Units: 4 Terms Offered: Fa Management of enterprise data architecture including data structures, conceptual data modeling, logical data modeling, structured query language (SQL), and physical optimization of high performance data architecture. Duplicates Credit in former IOM 435. Instruction Mode: Lecture Grading Option: Letter

DSO 443 Current Trends in Digital Business Models
Units: 4 Terms Offered: Fa How rapidly developing digital technologies change the organization, structure and operations of media industries. Provides the perspective of new players in the media industries. Duplicates Credit in former IOM 443 Instruction Mode: Lecture Grading Option: Letter

DSO 455 Project Management
Units: 4 Terms Offered: Fa Topics related to project management in a variety of industries such as real estate projects, new product launch, plant location, etc. Duplicates Credit in former IOM 455 Instruction Mode: Lecture Grading Option: Letter

DSO 458 Essentials of Business Data Analysis Using R
Units: 4 Terms Offered: Sp Problem-solving and algorithmic thinking. R programming for business. Small programs that solve specific business analytics tasks. Assessing the validity of analytics-based recommendations. *Prerequisite:* BUAD 310g or BUAD 312g Instruction Mode: Lecture Grading Option: Letter

DSO 462 Managing a Small Business on the Internet
Units: 2 Terms Offered: FaSp Foundational knowledge for managing a small business on the internet including strategies, tools, and resources integrated with hands-on skills for developing a small business website. Duplicates Credit in former IOM 462. Instruction Mode: Lecture Grading Option: Letter

DSO 464 Deep Learning for AI and Business Applications
Units: 4 Terms Offered: Sp Gather, categorize, analyze, interpret, evaluate relevant qualitative/quantitative information. Extract patterns from unstructured Big Data. Find crucial heterogeneity for business decisions with real-time data. *Recommended Preparation:* calculus, linear algebra, and linear regression, and some basic programming training and experience (e.g. R or Python) Instruction Mode: Lecture Grading Option: Letter

DSO 482 Supply Chain Management
Units: 4 Terms Offered: Sp Issues in supply chain management. Supply chain performance and dynamics. Tools for planning, control and coordination. Supply chain design and strategy. *Prerequisite:* BUAD 311 or BUAD 315x Instruction Mode: Lecture Grading Option: Letter

DSO 483 Operations Consulting
Units: 4 Terms Offered: Sp Study of concepts and techniques for improving operations, formulation and implementation of operations strategy, and development of frameworks for process design, selection and performance evaluation. *Prerequisite:* BUAD 311. Duplicates Credit in IOM 483. Instruction Mode: Lecture Grading Option: Letter

DSO 499 Special Topics
Units: 2, 3, 4 Max Units: 8.0 Selected topics reflecting current trends and recent developments in data sciences, information systems, operations management, and statistics. May be repeated only if topic is different. Instruction Mode: Lecture Grading Option: Letter

DSO 505 Sustainable Supply Chains
Units: 1.5 Terms Offered: Fa Sustainability concepts and frameworks, design for environment, closed-loop supply chains, sustainability in sourcing, green facilities, renewable energy, facility location and transportation decisions, strategic sustainability implementation. Registration Restriction: Online registration open only to graduate business and accounting students Duplicates Credit in former IOM 505 Instruction Mode: Lecture Grading Option: Letter

DSO 506 Sourcing and Supplier Management
Units: 1.5 Terms Offered: Fa Factors to consider when making sourcing decisions (costs, prices, ethics, globalization); impact of sourcing on other activities such as product design or inventory management. Registration Restriction: Online registration open only to graduate business and accounting students. Duplicates Credit in

former IOM 506 Instruction Mode: Lecture Grading Option: Letter

DSO 510 Business Analytics
Units: 1.5, 3 Terms Offered: FaSpSm Foundational knowledge for business analytics, including strategies, methods, and tools integrated with hands-on skills for defining business analytics for data-driven decision making and innovation. Registration Restriction: Online registration open to only graduate business and accounting students Instruction Mode: Lecture Grading Option: Letter

DSO 516 Probability and Data Modeling
Units: 1.5 Terms Offered: FaSp Principles of probability methodology. Application for providing structure to uncertainty. Develop, implement, and use probability models. Registration Restriction: Online registration limited to graduate business and accounting students Instruction Mode: Lecture Grading Option: Letter

DSO 520 Logistics Management
Units: 3 Terms Offered: Sm Gives students a managerial knowledge of basic logistics concepts and principles. Some topics include management of logistics cost integration, transportation, distribution, and customer service. Registration Restriction: Online registration open only to graduate business and accounting students Duplicates Credit in former IOM 520 Instruction Mode: Lecture Grading Option: Letter

DSO 522 Applied Time Series Analysis for Forecasting
Units: 1.5, 3 Terms Offered: FaSp Survey of forecasting and time series methods. Models for stationary and nonstationary time series; ARIMA model identification, estimation, and forecast development. Seasonal and dynamic models. Web registration open only to graduate business and accounting students. *Recommended Preparation:* (GSBA 506a and GSBA 506b) or GSBA 524 or (GSBA 516 and GSBA 545) Registration Restriction: Online registration open only to graduate business and accounting students Duplicates Credit in former IOM 522 Instruction Mode: Lecture Grading Option: Letter

DSO 528 Data Warehousing, Business Intelligence, and Data Mining
Units: 1.5, 3 Terms Offered: FaSm Introduction to data-warehousing, multidimensional database, on-line analytical processing, and survey of business intelligence applications that extract useful information from data warehouses. Business applications emphasized. Registration Restriction: Online registration open only to graduate business and accounting students Instruction Mode: Lecture Grading Option: Letter

DSO 529 Advanced Regression Analysis
Units: 3 Terms Offered: Sp Computer-assisted analysis of business data; advanced multiple regression analysis, survey analysis, ANOVA testing for Marketing-type applications and Times Series Analysis methods will be covered. *Prerequisite:* GSBA 506b or GSBA 524 or GSBA 545 Duplicates Credit in former IOM 529 Instruction Mode: Lecture Grading Option: Letter

DSO 530 Applied Modern Statistical Learning Methods
Units: 3 Terms Offered: FaSp Overview of highly computational modern statistical learning methods; applications of logistic regression, neural networks, LASSO, trees, boosting and GAM, etc., to finance and marketing data. Registration Restriction: Online registration open only to graduate business and accounting students Duplicates Credit in former IOM 530 Instruction Mode: Lecture Grading Option: Letter

DSO 531 Digital Foundations for Business Innovation
Units: 1.5 Terms Offered: FaSp Developing a strategic perspective on emerging digital innovations shaping consumer-oriented businesses. Topics include artificial intelligence, autonomous vehicles, augmented/virtual reality, post-screen usability and cybersecurity. Registration Restriction: Online registration open only to graduate accounting and business students Instruction Mode: Lecture Grading Option: Letter

DSO 534 Discrete-Event Simulation for Process Management
Units: 1.5 Terms Offered: FaSp Application of discrete-event simulation models to events that occur randomly over time. Representation using process flow diagrams. Use of simulation methodology to improve process performance. *Corequisite:* DSO 516 Registration Restriction: Online registration limited to graduate business and accounting students Duplicates Credit in former DSO 532 Instruction Mode: Lecture Grading Option: Letter

DSO 536 Monte Carlo Simulation and Decision Models
Units: 1.5 Terms Offered: FaSp Application of Monte Carlo simulation to determine a range of outcomes for all possible courses of action. Application of Excel simulation. *Corequisite:* DSO 516 Registration Restriction: Online registration limited to graduate business and accounting students. Credit Restriction: Online registration limited to graduate business and accounting students Duplicates Credit in former DSO 532 Instruction Mode: Lecture Grading Option: Letter

DSO 543 Global Business Issues in the Networked Digital Industry
Units: 3 Terms Offered: Fa Assessing business impact of emerging technologies on companies, business models and strategies in the "converging" digital communications, media and entertainment industries. Incorporates company field projects. Registration Restriction: Online registration open to only graduate business and accounting students Duplicates Credit in former IOM 543 Instruction Mode: Lecture Grading Option: Letter

DSO 545 Statistical Computing and Data Visualization
Units: 1.5, 3 Terms Offered: FaSp Data cleaning and reshaping; good vs. bad graphics; univariate, bivariate, trivariate, hypervariate and time series graphics; interactive graphics; web-related computing. Registration Restriction: Online registration open only to graduate business and accounting students Instruction Mode: Lecture Grading Option: Letter

DSO 547 Designing Spreadsheet-Based Business Models
Units: 3 Terms Offered: FaSp Application of decision analysis, simulation and optimization techniques to managerial problems. Learn how to create and present useful spreadsheet models to analyze practical business models. Registration Restriction: Online registration open only to graduate business and accounting majors Duplicates Credit in former IOM 547 Instruction Mode: Lecture Grading Option: Letter

DSO 548 Emerging Technologies in Supply Chain Management
Units: 3 Terms Offered: Sm Insights into the emerging technologies of artificial intelligence, machine learning, Blockchain and the theoretical difficulties and implementation challenges of these technologies. Registration Restriction: Online registration open only to graduate accounting and business students Instruction Mode: Lecture Grading Option: Letter

DSO 549 Application of Lean Six Sigma
Units: 3 Terms Offered: Sp Application of Six Sigma practices and techniques to improve operations in organizations. Registration Restriction: Online registration open only to graduate business and accounting students Duplicates Credit in ISE 507 and former IOM 549 Instruction Mode: Lecture Grading Option: Letter

DSO 551 Digital Transformation in the Global Enterprise
Units: 3 Terms Offered: Sp Leveraging large enterprise system applications for strategic value; managing organizational transformation of global enterprises through digital business platforms; coping with disruptive technologies. Registration Restriction: Online registration open only to graduate business and accounting students Duplicates Credit in former IOM 551 Instruction Mode: Lecture Grading Option: Letter

DSO 552 SQL Databases for Business Analysts
Units: 1.5 Terms Offered: FaSp SQL; relational database systems; data storage; data manipulation; data aggregation. Registration Restriction: Online registration open only to graduate accounting and business students Instruction Mode: Lecture Grading Option: Letter

DSO 553 NoSQL Databases in Big Data
Units: 1.5 Terms Offered: FaSp NoSQL; semi-structured and unstructured databases; data storage; data manipulation; distributed databases. *Prerequisite:* DSO 552 Registration Restriction: Online registration open only to graduate accounting and business majors Instruction Mode: Lecture Grading Option: Letter

DSO 554 Digital Strategies for Sustainability in Global Markets
Units: 3 Terms Offered: Sp Designing and executing business strategies for sustainability (environmental, economic, social/cultural) enabled by digital technologies. Emerging market contexts; team consulting project; international travel. Registration Restriction: Online registration open only to graduate accounting and business students Duplicates Credit in the

former GSBA 554 Instruction Mode: Lecture Grading Option: Letter

DSO 556 Business Models for Digital Platforms
Units: 3 Terms Offered: FaSp Managing Business models in digital platform ecosystems; designing new products and services for digital platforms; establishing digital platform leadership; assessing emerging niches in digital spaces. Registration Restriction: Online registration open only to graduate business and accounting majors Duplicates Credit in former GSBA 556 Instruction Mode: Lecture Grading Option: Letter

DSO 557a Global Supply Chain Management in International Settings
Units: 1.5 Terms Offered: Fa Study of global logistics infrastructures – water, rail, road, and air – through readings, team research and presentation, international site visits, and final written report. Open only to Global Supply Chain Management majors. Registration Restriction: Open only to Global Supply Chain Management majors. Duplicates Credit in former IOM 557ab. Instruction Mode: Lecture Grading Option: Letter

DSO 557b Global Supply Chain Management in International Settings
Units: 1.5 Terms Offered: Fa The influence of value-added services and regulatory issues on suppliers and supply chains. Readings, team research and presentation, site visits (LA), and final written report. Open only to Global Supply Chain Management majors. Registration Restriction: Open only to Global Supply Chain Management majors. Duplicates Credit in former IOM 557ab. Instruction Mode: Lecture Grading Option: Letter

DSO 560 Text Analytics and Natural Language Processing
Units: 1.5 Terms Offered: Sp Acquire, analyze, visualize and perform natural language processing (NLP) on text data. Apply Python, machine learning packages, statistical methodology and computer code to business decision-making. *Prerequisite:* DSO 545 *Corequisite:* DSO 530 Instruction Mode: Lecture Grading Option: Letter

DSO 562 Fraud Analytics
Units: 3 Terms Offered: Sp Fraud detection model systems; identify normal vs. outlying behavior; malicious adversaries; complex datasets; supervised and unsupervised fraud statistical models; measures of model efficacy. *Prerequisite:* DSO 545 *Recommended Preparation:* Proficiency in Python programming language and machine learning algorithms *Corequisite:* DSO 530 Instruction Mode: Lecture Grading Option: Letter

DSO 565 Supply Chain Analytics
Units: 3 Terms Offered: Sp Analytics for supply chain planning. Data-driven decision making, solving real-world problems, utilizing scalable technology, current industry best practices and inventory/network optimization. Registration Restriction: Online registration open only to graduate accounting and business students Instruction Mode: Lecture Grading Option: Letter

DSO 570 The Analytics Edge: Data, Models, and Effective Decisions
Units: 3 Terms Offered: FaSp Decision making under uncertainty using real data applying the most advanced optimization, statistical and probability methods. Registration Restriction: Online registration open to only graduate business and accounting students Duplicates Credit in former IOM 570 Instruction Mode: Lecture Grading Option: Letter

DSO 572 Strategies for Digital Analytics
Units: 1.5 Terms Offered: FaSp Foundation in digital analytics in tandem with digital strategy and solutions through a design thinking approach to working with digital and web data. *Recommended Preparation:* DSO 545 Registration Restriction: Online registration open only to graduate accounting and business majors Instruction Mode: Lecture Grading Option: Letter

DSO 573 Data Analytics Driven Dynamic Strategy and Execution
Units: 3 Terms Offered: Fa Advanced applications of data analytics in dynamic strategy formulation and execution; analytics and business methods for data connected enterprises to continuously enhance their competitive advantage. Registration Restriction: Online registration open only to graduate business and accounting students Instruction Mode: Lecture Grading Option: Letter

DSO 574 Using Big Data: Challenges and Opportunities
Units: 3 Terms Offered: Sp How companies can implement 'big data' initiatives to improve business activities. How leading companies have successfully implemented 'big data' initiatives and why some have failed. Registration Restriction: Online registration open only to graduate business and accounting students Instruction Mode: Lecture Grading Option: Letter

DSO 580 Project Management
Units: 3 Terms Offered: FaSp Applications of systems theory and concepts, matrix organizational structures, PERT/CPM project modeling, and management information systems to the management of complex and critical projects. *Recommended Preparation:* GSBA 504b or GSBA 534 Registration Restriction: Online registration open only to graduate accounting and business majors Duplicates Credit in former IOM 580 Instruction Mode: Lecture Grading Option: Letter

DSO 581 Supply Chain Management
Units: 3 Terms Offered: FaSp Issues in supply chain management. Supply chain performance and dynamics. Tools for planning, control and coordination. Supply chain design and strategy. *Recommended Preparation:* GSBA 504b or GSBA 534 Registration Restriction: Online registration open only to graduate business and accounting students Duplicates Credit in former IOM 581 Instruction Mode: Lecture Grading Option: Letter

DSO 582 Service Management: Economics and Operations
Units: 3 Terms Offered: Sp Examination of the service industry from a managerial and entrepreneurial perspective; emphasis on the tactical decisions needed to design and deliver successful and profitable services. *Recommended Preparation:* GSBA 504b or GSBA 534 Registration Restriction: Online registration open only to graduate accounting and business students Duplicates Credit in former IOM 582 Instruction Mode: Lecture Grading Option: Letter

DSO 583 Operations Consulting
Units: 3 Terms Offered: Sp Development of conceptual and analytic skills for improving operations. Analysis of business strategy, formulating and implementing operations strategy, process analysis and design, and project management. Registration Restriction: Online registration open to only graduate business and accounting students Duplicates Credit in former IOM 583 Instruction Mode: Lecture Grading Option: Letter

DSO 586 Global Healthcare Operations Management
Units: 3 Terms Offered: Sp Application of operations management tools and techniques to improve the performance of healthcare delivery systems. May include international travel. Registration Restriction: Online registration open only to graduate business and accounting students. Duplicates Credit in former IOM 586. Instruction Mode: Lecture Grading Option: Letter

DSO 588 Supply Chain Finance
Units: 3 Terms Offered: Fa Combines finance and supply chain management. Assess financial opportunities, finance fragmentation, challenges, optimizing working capital and managing risk in supply chain finance. Registration Restriction: Online registration open only to graduate accounting and business students Instruction Mode: Lecture Grading Option: Letter

DSO 590 Directed Research
Units: 1, 2, 3, 4, 5 Max Units: 12.0 Terms Offered: FaSpSm Research leading to the master's degree. Maximum units which may be applied to the degree to be determined by the department. Open only to master's students. Registration Restriction: Open only to master's students. Duplicates Credit in former IOM 590. Instruction Mode: Lecture Grading Option: Credit/No Credit

DSO 592 Field Research in Data Sciences or Operations
Units: 0.5, 1, 1.5, 2.5, 3, 3.5, 4 Max Units: 12.0 Terms Offered: FaSpSm Individual or team projects studying the practices of an industry, company, government agency, country, geographic region, etc. Proposal, data collection, analyses, and written report. Open only to graduate students. *Recommended Preparation:* completion of required MBA, MAcc, or MBT courses. Registration Restriction: Open only to graduate students. Duplicates Credit in former IOM 592. Instruction Mode: Lecture Grading Option: Credit/No Credit

DSO 593 Independent Research in Data Sciences or Operations
Units: 0.5, 1, 1.5, 2, 2.5, 3, 3.5, 4 Max Units: 12 Terms Offered: FaSpSm Independent research beyond normal course offerings. Proposal, research and written report/paper required. Graded CR/NC. Registration Restriction: Open only to graduate students Instruction Mode: Lecture Grading Option: Credit/No Credit

DSO 595 Internship in Data Sciences or Operations
Units: 0.5, 1, 1.5, 2 Max Units: 09 Terms Offered: FaSpSm Supervised on-the-job

business experience in the student's area of interest (Curricular Practical Training). Recommended preparation: completion of required MBA, MSGSCM, or MSBA courses. *Recommended Preparation:* completion of required MBA, MSGSCM, or MSBA courses Registration Restriction: Open only to master's business students Instruction Mode: Lecture Grading Option: Credit/No Credit

DSO 596 Research Practicum in Data Sciences or Operations
Units: 0.5, 1, 1.5, 2 Max Units: 8.0 Terms Offered: FaSpSm Hands-on practical experience working with a Marshall faculty member in the Data Sciences and Operations Department on an ongoing research project. Open only to graduate students. *Recommended Preparation:* completion of all required courses in the student's program. Registration Restriction: Open only to graduate students. Duplicates Credit in the former IOM 596. Instruction Mode: Lecture Grading Option: Letter

DSO 597 Consulting Project in Data Sciences or Operations
Units: 0.5, 1, 1.5, 2, 2.5, 3, 3.5, 4, 4.5, 5 Max Units: 12 Terms Offered: FaSpSm Individual or team project solving real business problems for an existing business entity, domestic and/or international. Proposal, field research, analyses and oral and written presentations. Open only to graduate business students. Registration Restriction: Online registration open only to graduate business and accounting students Duplicates Credit in former IOM 597 Instruction Mode: Lecture Grading Option: Credit/No Credit

DSO 598 Special Topics
Units: 1, 1.5, 2 or 3 Max Units: 9.0 Terms Offered: FaSpSm Selected topics reflecting current trends and recent developments in data sciences, operations management, supply chain management and/or decision support systems. Online registration open only to graduate business students. Registration Restriction: Open only to graduate business students. Instruction Mode: Lecture Grading Option: Credit/No Credit

DSO 599 Special Topics
Units: 1, 1.5, 2, 3 Max Units: 09 Terms Offered: FaSpSm Selected topics reflecting current trends and recent developments in data sciences, operations management, supply chain management and/or decision support systems. Registration Restriction: Online registration open only to graduate accounting and business students Duplicates Credit in former IOM 599 Instruction Mode: Lecture Grading Option: Letter

DSO 606 Bayesian Data Analysis
Units: 3 Terms Offered: Fa Principles of Bayesian inference, subjective probability, posterior inference via Markov chain Monte Carlo, applications to latent variable models. Hierarchical models and shrinkage estimation. Model averaging. Duplicates Credit in former IOM 606. Instruction Mode: Lecture Grading Option: Letter

DSO 607 High Dimensional Statistics and Big Data Problems
Units: 3 Terms Offered: Fa Overview of cutting-edge developments of methodologies, theory, and algorithms in high-dimensional statistical learning and big data problems; their applications to business and many other disciplines. *Recommended Preparation:* Courses in calculus, linear algebra and linear regression Registration Restriction: Open only to doctoral students Instruction Mode: Lecture Grading Option: Letter

DSO 621 Research Forum
Units: 1 Max Units: 4.0 Terms Offered: FaSp Seminar. Review and discuss current research in Data Sciences and Operations. Presentations by faculty, visiting researchers, and advanced students. Open only to Marshall PhD students. Open only to Marshall PhD students. Instruction Mode: Lecture Grading Option: Credit/No Credit

DSO 670 Current Research in Operations Management
Units: 1.5, 3 Max Units: 06 Terms Offered: FaSp Critique of the current research-based literature in operations management to include scheduling, forecasting, MRP, technology planning, inventory management, and facilities location and layout. Duplicates Credit in former IOM 670 Instruction Mode: Lecture Grading Option: Letter

DSO 671 Inventory Models and Supply Chain Management
Units: 3 Terms Offered: Fa Single product, single location inventory models; multi-echelon inventory models; assembly systems; inventory and pricing; value of information; incentives and coordination in supply chains. Open only to doctoral students. Registration Restriction: Open only to doctoral students. Duplicates Credit in former IOM 671. Instruction Mode: Lecture Grading Option: Letter

DSO 673 Mathematical Programming
Units: 3 Terms Offered: Fa Integer programming; duality theory; shortest path and max flow problems; network flow; matching problems; convex sets and functions; lagrange duality; unconstrained minimization methods; optimization problems. Open only to doctoral students. Registration Restriction: Open only to doctoral students. Duplicates Credit in former IOM 673. Instruction Mode: Lecture Grading Option: Letter

DSO 674 Queueing and Stochastic Networks
Units: 3 Terms Offered: Sp Jackson Networks; Kelly networks; the M/G/1 model and the Pollaczek–Khintchine formula; the G/G/1 queue; the GI/GI/1+GI queue and its diffusion approximation. Open only to doctoral students. Registration Restriction: Open only to doctoral students. Duplicates Credit in former IOM 674. Instruction Mode: Lecture Grading Option: Letter

DSO 677 Dynamic Programming and Markov Decision Processes
Units: 3 Terms Offered: Sp Introduction to Decision Analysis; MDP model formulation and examples; Finite horizon models; Infinite-horizon models: Discounted MDPs; Average reward criteria; Continuous-time models. Open only to doctoral students. Registration Restriction: Open only to doctoral students. Duplicates Credit in former IOM 677. Instruction Mode: Lecture Grading Option: Letter

DSO 699 Special Topics
Units: 1, 1.5, 2, 3 Max Units: 08 Terms Offered: FaSpSm Exploration of emerging topics, literature and research techniques in contemporary data sciences, operations management, supply chain management, and/or decision support systems. Registration Restriction: Open only to doctoral students Instruction Mode: Lecture Grading Option: Letter

Development, Stem Cells and Regenerative Medicine

DSR 542 Principles of Developmental and Stem Cell Biology
Units: 4 Terms Offered: Sm Introduction to developmental and stem cell biology. Lectures and lab component prepare students for a career in developmental and stem cell biology and regenerative medicine. *Prerequisite:* INTD 561 and (PM 549 or BIOC 543) Instruction Mode: Lecture, Lab Grading Option: Letter

DSR 574 Stem Cell and Developmental Biology Seminar Series
Units: 1 Max Units: 10 Terms Offered: FaSp Selected topics in Development, Stem Cell, and Regeneration. Instruction Mode: Lecture Grading Option: Credit/No Credit Crosslisted as SCRM 574

DSR 580 Clinical Perspective of Regenerative Medicine
Units: 1 Max Units: 4.0 Terms Offered: Sp Offers interaction with clinicians in patient-care setting to understand the need and role of regenerative medicine in bedside management. Instruction Mode: Lecture Grading Option: Credit/No Credit

DSR 610 Current Topics in Regenerative Medicine
Units: 1 Max Units: 12 Terms Offered: Sp Selected topics on sub-fields within developmental and stem cell biology including review of contemporary literature and research. Registration Restriction: Open only to DSR and SCRM graduate students Instruction Mode: Lecture Grading Option: Letter Crosslisted as SCRM 610

DSR 620 Current Topics in Stem Cell Biology and Organogenesis
Units: 1 Max Units: 12 Terms Offered: Fa Selected topics on sub-fields within stem cell biology and organogenesis. Includes review of contemporary literature and research. Open only to master and doctoral students. Registration Restriction: Open only to master and doctoral students. Instruction Mode: Lecture Grading Option: Letter Crosslisted as SCRM 620

DSR 790 Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Terms Offered: FaSpSm Research leading to the doctorate. Maximum units which may be applied to the degree to be determined by the department. Open only to doctoral students. Registration Restriction: Open only to doctoral students. Instruction Mode: Lecture Grading Option: Credit/No Credit

DSR 794a Doctoral Dissertation
Units: 2 Terms Offered: FaSpSm Credit on acceptance of dissertation. Open only to doctoral students. Registration Restriction: Open only to doctoral students. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

DSR 794b Doctoral Dissertation
Units: 2 Terms Offered: FaSpSm Credit on acceptance of dissertation. Open only to doctoral students. Registration Restriction:

Open only to doctoral students. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

DSR 794c Doctoral Dissertation
Units: 2 Terms Offered: FaSpSm Credit on acceptance of dissertation. Open only to doctoral students. Registration Restriction: Open only to doctoral students. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

DSR 794d Doctoral Dissertation
Units: 2 Terms Offered: FaSpSm Credit on acceptance of dissertation. Open only to doctoral students. Registration Restriction: Open only to doctoral students. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

DSR 794z Doctoral Dissertation
Units: 0 Terms Offered: FaSpSm Credit on acceptance of dissertation. Open only to doctoral students. Registration Restriction: Open only to doctoral students. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

East Asian Languages and Cultures

EALC 101x Conversational Chinese and Intercultural Communication
Units: 2 Terms Offered: FaSp Basic Mandarin conversational skills for effective communication in familiar, everyday Chinese contexts and better understanding of intercultural communication through content-based language acquisition. Not available for credit to East Asian Area Studies and East Asian Languages and Cultures majors and minors. Instruction Mode: Lecture Grading Option: Credit/No Credit

EALC 102 Language, Art and Culture: Calligraphy
Units: 2 Terms Offered: FaSp This course introduces students to the origin of the basic Chinese scripts and the basic principles and styles of calligraphy. Instruction Mode: Lecture Grading Option: Letter

EALC 103a Fundamental Chinese I
Units: 2 Terms Offered: FaSpSm The first half of EALC 104. The sound system of modern Chinese; aural comprehension, oral expression, basic patterns and writing system. Duplicates Credit in EALC 104 Instruction Mode: Lecture Grading Option: Letter

EALC 103b Fundamental Chinese I
Units: 2 Terms Offered: FaSpSm The second half of EALC 104. The sound system of modern Chinese; aural comprehension, oral expression, basic patterns and writing system. *Prerequisite:* EALC 103a Duplicates Credit in EALC 104 Instruction Mode: Lecture Grading Option: Letter

EALC 104 Chinese I
Units: 4 Terms Offered: FaSpSm The sound system of modern Chinese; aural comprehension, oral expression, basic patterns, and writing system. Instruction Mode: Lecture Grading Option: Letter

EALC 106 Chinese II
Units: 4 Terms Offered: FaSpSm Dialogue practice and conversation; reading of simple stories and essays; comparison of Chinese and English grammar; writing of paragraphs. *Prerequisite:* EALC 104 or EALC 103b Instruction Mode: Lecture Grading Option: Letter

EALC 108 Reading and Writing Chinese
Units: 4 Terms Offered: FaSp The basics of reading and writing modern Chinese; intensive reading and writing of paragraphs, essays, and stories; extensive reading of beginner-level authentic materials. Instruction Mode: Lecture Grading Option: Letter

EALC 110gp East Asian Humanities: The Great Tradition
Units: 4 Terms Offered: FaSp Introduction to the major humanities traditions of China, Japan, and Korea through an examination of representative works drawn from literature, aesthetics, philosophy, religion, and historical writing. Satisfies New General Education in Category B: Humanistic Inquiry Satisfies Global Perspective in Category H: Traditions and Historical Foundations Satisfies Old General Education in Category II: Global Cultures and Traditions Instruction Mode: Lecture, Discussion Grading Option: Letter

EALC 115 Korean I
Units: 4 Terms Offered: FaSpSm Basic Korean conversation practice, aural comprehension, basic grammar and building proficiency of reading and writing with Hangul (Korean alphabet). Instruction Mode: Lecture Grading Option: Letter

EALC 117 Korean II
Units: 4 Terms Offered: FaSpSm Continuation of EALC 115, basic conversation practice, aural comprehension, basic grammar and building proficiency of reading and writing. *Prerequisite:* EALC 115 or EALC 119 Instruction Mode: Lecture Grading Option: Letter

EALC 118 Essential Communications in Korean I
Units: 2 Max Units: 4 Terms Offered: FaSp A basic foundation of Korean, focusing on conversation skills. Students communicate on a variety of familiar topics and handle basic transactions. Registration Restriction: Open to all majors, no class standing restrictions, no school restrictions. Instruction Mode: Lecture Grading Option: Credit/No Credit

EALC 119 Essential Communications in Korean II
Units: 2 Max Units: max 4 Terms Offered: FaSp Continuation of EALC 118. Aims to develop basic communication skills required for survival in Korea. Students will practice simple conversations and understand some cultural practices through Korean drama clips. *Prerequisite:* EALC 118 Registration Restriction: No major, class standing or school restrictions. Instruction Mode: Lecture Grading Option: Credit/No Credit

EALC 120 Japanese I
Units: 4 Terms Offered: FaSpSm Basic Japanese conversation practice, basic grammar and building proficiency of reading and writing Hiragana and Katakana (Japanese alphabetical systems) and some basic kanji (Chinese characters). Instruction Mode: Lecture Grading Option: Letter

EALC 121 Extensive Reading in Japanese I
Units: 2 Max Units: 4.0 Terms Offered: FaSp Development of reading skill in Japanese for elementary level students through short stories written for learners of Japanese and authentic materials written for native Japanese speakers. *Prerequisite:* EALC 120. Instruction Mode: Lecture Grading Option: Letter

EALC 122 Japanese II
Units: 4 Terms Offered: FaSpSm Continuation of EALC 120. Basic Japanese conversation practice, basic grammar and building proficiency of reading and writing Hiragana and Katakana and basic kanji. *Prerequisite:* EALC 120. Instruction Mode: Lecture Grading Option: Letter

EALC 125g Introduction to Contemporary East Asian Cinema and Culture
Units: 4 An introduction to and overview of the contemporary cinemas of East Asia: China (Hong Kong, the People's Republic, and Taiwan), Japan, and Korea. Satisfies New General Education in Category B: Humanistic Inquiry Satisfies Old General Education in Category II: Global Cultures and Traditions Instruction Mode: Lecture, Discussion Grading Option: Letter

EALC 130gp Introduction to East Asian Ethical Thought
Units: 4 Terms Offered: FaSp Introduction to the history of Chinese, Japanese, and Korean ethical thought; perspectives on human nature, historical writing, religious options, and aesthetic implications. Conducted in English. Satisfies New General Education in Category B: Humanistic Inquiry Satisfies Global Perspective in Category H: Traditions and Historical Foundations Satisfies Old General Education in Category II: Global Cultures and Traditions Instruction Mode: Lecture, Discussion Grading Option: Letter

EALC 145g Introduction to Chinese Culture, Art and Literature
Units: 4 Terms Offered: FaSp Introduction to the civilization, art and literature of pre-modern China through the lens of the cultural products of identity. Satisfies New General Education in Category B: Humanistic Inquiry Satisfies Old General Education in Category II: Global Cultures and Traditions Instruction Mode: Lecture, Discussion Grading Option: Letter

EALC 150gw Global Chinese Cinema and Cultural Studies
Units: 4 Terms Offered: FaSp Examination of the transnational production and circulation of Chinese-language cinema. Analysis of the larger sociocultural significance of films by engaging their historical context. Satisfies New General Education in Category B: Humanistic Inquiry Satisfies Global Perspective in Category G: Citizenship in a Diverse World Satisfies Old General Education in Category II: Global Cultures and Traditions Instruction Mode: Lecture, Discussion Grading Option: Letter

EALC 202 Language, Art, and Culture: Calligraphy II
Units: 2 Max Units: 4 Terms Offered: FaSpSm Furthers students' knowledge in the Chinese writing system and develops students' skills in a more advanced calligraphy style. *Prerequisite:* EALC 102 Instruction Mode: Lecture Grading Option: Letter

EALC 204 Chinese III
Units: 4 Terms Offered: Fa Conversational practice: reading of stories and essays; writing of short essays. *Prerequisite:* EALC 106. Instruction Mode: Lecture Grading Option: Letter

EALC 206 Chinese IV
Units: 4 Terms Offered: Sp Continuation of EALC 204, with emphasis on reading and writing, frequent interaction with native speakers. *Prerequisite:* EALC 204. Instruction Mode: Lecture Grading Option: Letter

EALC 207a Intermediate Chinese: Reading and Oral Communication
Units: 4 Terms Offered: Sm Improving Chinese reading techniques and oral presentation skills in an immersive environment. Offered only in Taiwan. *Prerequisite:* EALC 106. Instruction Mode: Lecture Grading Option: Letter

EALC 207b Intermediate Chinese: Reading and Oral Communication
Units: 4 Terms Offered: Sm Improving Chinese reading techniques and oral presentation skills in an immersive environment. Offered only in Taiwan. *Prerequisite:* EALC 204. Instruction Mode: Lecture Grading Option: Letter

EALC 215 Korean III
Units: 4 Terms Offered: Fa Drill to increase proficiency in dialogue, reading, and writing; intermediate level readings. *Prerequisite:* EALC 117. Instruction Mode: Lecture Grading Option: Letter

EALC 217 Korean IV
Units: 4 Terms Offered: Sp Advanced level reading of modern Korean and exercises in written composition. *Prerequisite:* EALC 215. Instruction Mode: Lecture Grading Option: Letter

EALC 220 Japanese III
Units: 4 Terms Offered: FaSpSm Continuation of EALC 122. Conversation practice, basic to intermediate grammar, and building proficiency of reading and writing Hiragana and Katakana with additional kanji. *Prerequisite:* EALC 122. Instruction Mode: Lecture Grading Option: Letter

EALC 221 Extensive Reading in Japanese II
Units: 2 Max Units: 08 Terms Offered: FaSp Development of reading skills in Japanese for intermediate level students through short stories written for learners of Japanese and authentic materials written for native speakers. *Prerequisite:* EALC 220 Instruction Mode: Lecture Grading Option: Letter

EALC 222 Japanese IV
Units: 4 Terms Offered: FaSpSm Continuation of EALC 220. More sophisticated grammar and vocabulary for natural conversation. Enhancing fundamental reading and writing skills, expanding the knowledge of kanji. *Prerequisite:* EALC 220. Instruction Mode: Lecture Grading Option: Letter

EALC 255gw Southeast Asian Literature and Film
Units: 4 Terms Offered: FaSp Comparative approach and general introduction to literature and cinema from the four major nations of maritime Southeast Asia (Indonesia, the Philippines, Singapore, and Malaysia). Satisfies New General Education in Category B: Humanistic Inquiry Satisfies Global Perspective in Category G: Citizenship in a Diverse World Instruction Mode: Lecture, Discussion Grading Option: Letter Crosslisted as COLT 255

EALC 264g Asian Aesthetic and Literary Tradition
Units: 4 (Enroll in COLT 264gp)

EALC 266 Science Fiction in East Asia
Units: 4 Terms Offered: FaSp Cross-cultural examination of science fiction literature and film in East Asia. Analysis of the genre's historical developments and its synergy and conflict with technoindustrial modernity in the region. Instruction Mode: Lecture Grading Option: Letter

EALC 304 Advanced Modern Chinese I
Units: 4 Terms Offered: Fa Reading selections from different styles of modern Chinese writings, analysis of stylistic techniques and syntactic structure, composition, and translation. *Prerequisite:* EALC 206. Instruction Mode: Lecture Grading Option: Letter

EALC 306 Advanced Modern Chinese II
Units: 4 Terms Offered: Sp Continuation of EALC 304; composition exercises in different styles of writing. *Prerequisite:* EALC 304. Instruction Mode: Lecture Grading Option: Letter

EALC 315 Advanced Korean I
Units: 4 Terms Offered: Fa Advanced reading in modern Korean materials; improvement of skills in conversation, composition, and translation. *Prerequisite:* EALC 217. Instruction Mode: Lecture Grading Option: Letter

EALC 317 Advanced Korean II
Units: 4 Terms Offered: Sp Continuation of EALC 315, with emphasis on the use of Chinese characters, translation, and composition exercises. *Prerequisite:* EALC 315. Instruction Mode: Lecture Grading Option: Letter

EALC 318 Readings in Contemporary Korean
Units: 4 Terms Offered: FaSpSm Selected readings in a variety of Korean styles. Materials are from essays, short stories and newspapers. *Prerequisite:* EALC 217. Instruction Mode: Lecture Grading Option: Letter

EALC 320 Advanced Japanese I
Units: 4 Strengthen intermediate Japanese language proficiency. Oral/aural communication skills as well as reading and writing skills. Promote an understanding of the present-day Japanese culture. *Prerequisite:* EALC 222. Instruction Mode: Lecture Grading Option: Letter

EALC 322 Advanced Japanese II
Units: 4 Terms Offered: FaSp Continuation of EALC 320. Improve and strengthen abilities to speak, listen, read and write, coping with more involved materials and situation. *Prerequisite:* EALC 320. Instruction Mode: Lecture Grading Option: Letter

EALC 324gw Contemporary China: Cultural Politics and Social Realities
Units: 4 (Enroll in ANTH 324gw)

EALC 332 Modern Korean Literature in Translation
Units: 4 Terms Offered: Fa Introduction to Korean literature, with discussion of critical approaches to literary discourse, historical contexts of literary production, and aspects of contemporary popular culture. Instruction Mode: Lecture Grading Option: Letter

EALC 333g Introduction to Korean Film
Units: 4 Terms Offered: Fa Survey of Korean film, the film industry, and critical issues from the colonial period to the present. Satisfies New General Education in Category B: Humanistic Inquiry Instruction Mode: Lecture, Discussion Grading Option: Letter

EALC 334 Chinese Language Through Films and Television
Units: 4 Terms Offered: FaSp Enhancement of functional, advanced-level Mandarin proficiency for vocabulary, grammar, listening, speaking, reading, writing, and cultural awareness through selected Chinese-language films and television programs. *Prerequisite:* EALC 206. Instruction Mode: Lecture Grading Option: Letter

EALC 335m Korean American Literature
Units: 4 Survey of Korean American literature from the mid-20th century until the most recent years. Focus on issues and topics central to Korean American experience. Instruction Mode: Lecture Grading Option: Letter

EALC 336 Chinese Language through Films and Television II
Units: 4 Terms Offered: FaSp Further enhancement of functional, advanced-level Mandarin proficiency for vocabulary, grammar, listening, speaking, reading, writing, and cultural awareness through selected Chinese-language films and television programs. *Prerequisite:* EALC 304 and EALC 334. Instruction Mode: Lecture Grading Option: Letter

EALC 340gp Japanese Civilization
Units: 4 Terms Offered: FaSp Survey of the main characteristics and development of art, literature, philosophy, religion, political and social institutions through different periods. Conducted in English. Satisfies New General Education in Category B: Humanistic Inquiry Satisfies Global Perspective in Category H: Traditions and Historical Foundations Satisfies Old General Education in Category II: Global Cultures and Traditions Instruction Mode: Lecture, Discussion Grading Option: Letter

EALC 342gp Japanese Literature and Culture
Units: 4 Terms Offered: FaSp Japanese literature from the earliest times to the present; development of prose, poetry and the novel; evolution of theatre; Japanese literature under Western influence. Conducted in English. Satisfies New General Education in Category B: Humanistic Inquiry Satisfies Global Perspective in Category H: Traditions and Historical Foundations Satisfies Old General Education in Category II: Global Cultures and Traditions Instruction Mode: Lecture, Discussion Grading Option: Letter

EALC 344gp Korean Culture from Ancient to Modern Times
Units: 4 Terms Offered: Sp The history of Korean literature and culture from the ancient to the modern era. *Recommended Preparation:* HIST 105. Satisfies New General Education in Category B:

Humanistic Inquiry Satisfies Global Perspective in Category H: Traditions and Historical Foundations Satisfies Old General Education in Category II: Global Cultures and Traditions Instruction Mode: Lecture, Discussion Grading Option: Letter

EALC 345 Korean Civilization
Units: 4 Survey of the main characteristics and development of Korean art, literature, philosophy, religion, political and social institutions through different periods. Conducted in English. Instruction Mode: Lecture Grading Option: Letter

EALC 346g Hallyu, the Korean Wave
Units: 4 Terms Offered: Fa Critical overview of the Korean Wave (Hallyu), the phenomenon defined as the growing, global circulation and consumption of Korean popular culture. Satisfies New General Education in Category B: Humanistic Inquiry Instruction Mode: Lecture Grading Option: Letter

EALC 350gp Chinese Civilization
Units: 4 Terms Offered: FaSp Characteristics and aspects of Chinese civilization; interpretation of philosophy, literature, religion, art, music. Conducted in English. Satisfies New General Education in Category B: Humanistic Inquiry Satisfies Global Perspective in Category H: Traditions and Historical Foundations Satisfies Old General Education in Category II: Global Cultures and Traditions Instruction Mode: Lecture, Discussion Grading Option: Letter

EALC 352g Chinese Literature and Culture
Units: 4 Terms Offered: FaSp Readings of Chinese poetry, prose, novels and drama; influence of the West on Chinese literature and culture in modern times. Conducted in English. Satisfies New General Education in Category B: Humanistic Inquiry Satisfies Old General Education in Category II: Global Cultures and Traditions Instruction Mode: Lecture, Discussion Grading Option: Letter

EALC 354g Modern Chinese Literature in Translation
Units: 4 Readings in modern Chinese poetry, fiction, and drama since 1919. Satisfies New General Education in Category B: Humanistic Inquiry Satisfies Old General Education in Category II: Global Cultures and Traditions Instruction Mode: Lecture, Discussion Grading Option: Letter

EALC 355 Studies in Chinese Thought
Units: 4 Chinese thought, particularly as formulated in the three great traditions: Confucianism, Taoism, Buddhism. Instruction Mode: Lecture Grading Option: Letter

EALC 358g Transnational Chinese Literature and Culture
Units: 4 Terms Offered: Sp An introduction to Sinophone literatures and cultures (in English translation) from the Asia-Pacific region, including Taiwan, Hong Kong, Tibet, Southeast Asia, and North America. Satisfies New General Education in Category B: Humanistic Inquiry Instruction Mode: Lecture, Discussion Grading Option: Letter

EALC 360g Performing Japan: Bodies, Media, and Textuality
Units: 4 Terms Offered: FaSp The classical foundations of Japanese performance, including noh, puppet theater, and kabuki; exploration of how these genres are implicated in modern and contemporary Japanese performance. Satisfies New General Education in Category A: The Arts Instruction Mode: Lecture, Discussion Grading Option: Letter

EALC 361 Global East Asia
Units: 4 Max Units: 12 Terms Offered: Sp (Enroll in EASC 360)

EALC 365 Studies in Japanese Thought
Units: 4 Influence of native traditions and imported Chinese traditions on Japanese civilization; religious, ethical, aesthetic, and political aspects. Instruction Mode: Lecture Grading Option: Letter

EALC 366 Chinese Professional Internship: Communication and Culture
Units: 2 Max Units: 6 Terms Offered: FaSpSm Combined classroom discussion and supervised internship at companies. Practical experience in applying communication and cultural knowledge in a professional, "real world" employment context. *Prerequisite:* EALC 206 Grading Option: Letter

EALC 374 Language and Society in East Asia
Units: 4 The interaction of language with society in countries of East Asia: language and identity, the politicization of language, language change, language and gender. Instruction Mode: Lecture Grading Option: Letter Crosslisted as LING-374

EALC 375 Women and Gender in China: Past and Present
Units: 4 An examination of changes in sex roles and in constructs of the female as influenced by traditional Chinese thought and later social developments. Instruction Mode: Lecture Grading Option: Letter Crosslisted as SWMS-375

EALC 377 Law and Society in Premodern China and Japan
Units: 4 (Enroll in HIST 377)

EALC 380 Cultural Topics in East Asian Literature
Units: 4 Selected themes, genres, and periods in East Asian literature, e.g., Taoism and Buddhism, women, folktales. Instruction Mode: Lecture Grading Option: Letter

EALC 381g Visual Cultures of Asia
Units: 4 Max Units: max 8 Terms Offered: FaSp (Enroll in AHIS 381)

EALC 382 Art and Cultural Heritage in East Asia
Units: 4 Terms Offered: FaSpSm Introduction to heritage studies with a focus on the developments and representative examples in China, Korea, and Japan. Instruction Mode: Lecture Grading Option: Letter Crosslisted as AHIS 382

EALC 383 Later Chinese Art
Units: 4 (Enroll in AHIS 385)

EALC 384 Early Chinese Art
Units: 4 (Enroll in AHIS 384)

EALC 385 Myth, Folklore, and Fantasy in Japanese Literature and Film
Units: 4 Terms Offered: FaSp Examines the uses of myth, folklore, and fantasy in Japanese culture across a range of genres and media from the premodern period to contemporary times. Instruction Mode: Lecture Grading Option: Letter

EALC 386 Readings in Modern Korean Literature
Units: 4 Selected readings from modern Korean short stories, novels, plays and essays. Readings will be in English and Korean. *Prerequisite:* EALC 217. Instruction Mode: Lecture Grading Option: Letter

EALC 387 Early Japanese Art
Units: 4 (Enroll in AHIS 386)

EALC 388 Later Japanese Art
Units: 4 (Enroll in AHIS 387)

EALC 390 Special Problems
Units: 1, 2, 3, 4 Supervised, individual studies. No more than one registration permitted. Enrollment by petition only. Instruction Mode: Lecture Grading Option: Letter

EALC 400 Classical Chinese I
Units: 4 Introduction to the classical styles, selections from classical style writings, contrastive analysis of modern and classical Chinese, translation and writing practice. *Prerequisite:* EALC 206. Instruction Mode: Lecture Grading Option: Letter

EALC 402 Classical Chinese II
Units: 4 Continuation of EALC 400. Instruction Mode: Lecture Grading Option: Letter

EALC 404 Advanced Modern Chinese III
Units: 4 Terms Offered: Fa Readings in modern Chinese literary, documentary, and epistolary styles; stylistic and syntactic analysis; composition; translation. *Prerequisite:* EALC 306. Instruction Mode: Lecture Grading Option: Letter

EALC 406 Advanced Modern Chinese IV
Units: 4 Terms Offered: Sp Continuation of EALC 404. Instruction Mode: Lecture Grading Option: Letter

EALC 407 News and Web Chinese
Units: 4 Terms Offered: FaSp Reading selections from newspaper articles and online reports to further develop proficiency in advanced Chinese and understanding of the society and culture. *Prerequisite:* EALC 404 Instruction Mode: Lecture Grading Option: Letter

EALC 410 Chinese-English Translation
Units: 4 Structure, vocabulary, and techniques of written translation and oral interpretation; classroom and laboratory practice; English-Chinese and Chinese-English. Instruction Mode: Lecture Grading Option: Letter

EALC 412a Business Chinese
Units: 4 Practice in the basic vocabulary and idioms of foreign trade and other commercial transactions in Mandarin. *Prerequisite:* EALC 306. Instruction Mode: Lecture Grading Option: Letter

EALC 412b Business Chinese
Units: 4 Continuation of EALC 412a. *Prerequisite:* EALC 306. Instruction Mode: Lecture Grading Option: Letter

EALC 413 Business Japanese
Units: 4 Terms Offered: FaSpSm Practical advanced level Japanese business terms and their usage in a variety of business situations; cultural insights on Japanese customs that underlie business transactions. *Prerequisite:* EALC 222 Instruction Mode: Lecture Grading Option: Letter

EALC 415 Advanced Korean III
Units: 4 Terms Offered: Fa Selected readings in Korean texts, pre- modern and modern, in various literary and non-fiction genres; focus on developing reading and translation skills. *Prerequisite:* EALC 317. Instruction Mode: Lecture Grading Option: Letter

EALC 416 Advanced Chinese Oral Communication
Units: 2 Terms Offered: FaSp Enhancement of advanced conversational skills through descriptions, summaries of texts, active participation in discussions, debates and oral presentations in class. *Prerequisite:* EALC 406. Instruction Mode: Lecture Grading Option: Letter

EALC 417 Advanced Korean IV
Units: 4 Terms Offered: Sp Continuation of EALC 415. Instruction Mode: Lecture Grading Option: Letter

EALC 418 Korean Writing in Mixed Script
Units: 4 Terms Offered: FaSp Selected readings in Korean texts written in mixed script; a systematic study of Chinese characters and translation of text. *Prerequisite:* EALC 217. Instruction Mode: Lecture Grading Option: Letter

EALC 419 Newspaper and Documentary Korean
Units: 4 Terms Offered: FaSp Selected readings from newspapers, magazines, and other journalistic publications; analysis of styles and practice in writing articles. *Prerequisite:* EALC 217. Instruction Mode: Lecture Grading Option: Letter

EALC 422 Advanced Japanese III
Units: 4 Terms Offered: Fa Students develop advanced levels of Japanese linguistic knowledge and communication skills through speaking, listening, reading and writing activities using authentic Japanese texts and discourse. *Prerequisite:* EALC 322. Instruction Mode: Lecture Grading Option: Letter

EALC 424 Advanced Japanese IV
Units: 4 Terms Offered: Sp Continuation of EALC 422. Students continue to improve their Japanese language competence in the course of acquiring Japanese pragmatic skills and cultural knowledge. *Prerequisite:* EALC 422. Instruction Mode: Lecture Grading Option: Letter

EALC 426 Classical Japanese
Units: 4 Introduction to the fundamentals of classical grammar; readings from various classical works, both poetry and prose; translation practice. *Prerequisite:* EALC 322. Instruction Mode: Lecture Grading Option: Letter

EALC 427 Women's Lives in Premodern Japanese Literature
Units: 4 Terms Offered: Fa The social lives of women in ancient and medieval Japan as viewed through poetry, memoir, tale literature, legal documents, and personal correspondence. *Recommended Preparation:* Any course in Japanese literature or civilization. Instruction Mode: Lecture Grading Option: Letter

EALC 428 Nature and the Ecological Imagination in Japanese Literature
Units: 4 Terms Offered: FaSpSm Examination of cultural perceptions about nature and how they affect attitudes toward the environment: includes comparisons to Euro-American as well as other East Asian traditions. Instruction Mode: Lecture Grading Option: Letter

EALC 429 Gender in Korean Film and Literature
Units: 4 Terms Offered: Sp Changing representations of gender in Korean films and literary works over the course of the 20th century. *Recommended Preparation:* HIST 105 and EALC 332. Instruction Mode: Lecture Grading Option: Letter

EALC 430 Gender and Sexuality in Korean Literature and Culture
Units: 4 Examination of the changing representations of gender and sexuality in Korean cultural texts over the course of the 20th century. Instruction Mode: Lecture Grading Option: Letter Crosslisted as SWMS-430

EALC 431 The Taoist Tradition
Units: 4 Close reading of primary text(s) of early Chinese Taoist thinkers (in translation), along with analysis of relevant secondary scholarship. *Recommended Preparation:* EALC 355. Instruction Mode: Lecture Grading Option: Letter Crosslisted as REL-431

EALC 435 Ethnic Identity and Minority Politics in China
Units: 4 (Enroll in ANTH 435)

EALC 438 The Tale of Genji and its Worlds
Units: 4 Terms Offered: FaSp Explores the translation, history, and reception of The Tale of Genji, including its adaptation across multiple media and genres from premodern times to the present. Instruction Mode: Lecture Grading Option: Letter

EALC 440 Current Topics in Japanese
Units: 4 Max Units: 16 Terms Offered: FaSp Mastery of near native proficiency of the Japanese Language by handling variety topics of contemporary Japan such as literature, history, social and cultural issues. *Recommended Preparation:* EALC 424 or equivalent Registration Restriction: No registration restrictions Credit Restriction: No credit restrictions Instruction Mode: Lecture Grading Option: Letter

EALC 450 Contemporary Japanese Literature and Global Modernity
Units: 4 Terms Offered: FaSp Examination of historical currents in contemporary Japanese literature and popular culture and the role translation plays in their global circulation and redefinition. Instruction Mode: Lecture Grading Option: Letter

EALC 452 Chinese Fiction
Units: 4 Development of Chinese fiction and readings from English translations of major Chinese novels such as the Dream of the Red Chamber, All Men are Brothers, and others. Conducted in English. Instruction Mode: Lecture Grading Option: Letter

EALC 454 Bildungsroman in Modern East Asia
Units: 4 Terms Offered: Sp Comparative study of core narratives of youth and its destiny in modern literature from China, Japan, Korea, and Taiwan. Readings include scholarship on European literature. Instruction Mode: Lecture Grading Option: Letter Crosslisted as COLT-453

EALC 455 Japanese Fiction
Units: 4 Japanese fiction from early to modern times; literary, philosophical, and social aspects of tales and novels. Conducted in English. Instruction Mode: Lecture Grading Option: Letter

EALC 460 Love, Self and Gender in Japanese Literature
Units: 4 Terms Offered: Sp Examines conceptions of love, self, gender, and sexuality in Japanese literature and culture of the modern and pre-modern periods with comparisons to European and Chinese literature. Instruction Mode: Lecture Grading Option: Letter Crosslisted as COLT-460

EALC 465 Topics in Korean Visual and Cultural Studies
Units: 4 Terms Offered: FaSp Examination of dominant and emergent critical issues in the study of modern and contemporary Korean visual culture. Instruction Mode: Lecture Grading Option: Letter

EALC 470 Introduction to East Asian Linguistics
Units: 4 Survey of the sound systems, writing systems, grammatical systems, historical development, and social environments of the Chinese, Japanese, and Korean languages. *Prerequisite:* EALC 406 or EALC 417 or EALC 424. Instruction Mode: Lecture Grading Option: Letter

EALC 475 Topics in Chinese Photography
Units: 4 Terms Offered: FaSp An exploration of key topics in the history, theory and criticism of photography in China, from the mid 19th century to the present. *Recommended Preparation:* Prior coursework in Chinese history, politics, or cultural studies, art history, media studies, or studio art Instruction Mode: Lecture Grading Option: Letter

EALC 480 Marxism and Culture in East Asia
Units: 4 Terms Offered: FaSp Intensive reading on current transnational issues in the study of East Asian or Asian cultures. Instruction Mode: Lecture Grading Option: Letter

EALC 481 Studies in Japanese Art
Units: 4 Max Units: max 16 (Enroll in AHIS 481)

EALC 482 Japanese Photography
Units: 4 Terms Offered: FaSp (Enroll in AHIS 482)

EALC 484 Studies in Chinese Art
Units: 4 Max Units: max 16 (Enroll in AHIS 484)

EALC 485 Material Culture of the Silk Road
Units: 4 Terms Offered: FaSpSm Introduction to the history and material culture of the Silk Road with emphasis on the arts of Dunhuang and Kucha. Instruction Mode: Lecture Grading Option: Letter Crosslisted as AHIS 485

EALC 489 The Mongol Era in China: Genghis Khan, Khubilai, Marco Polo
Units: 4 Terms Offered: FaSp An exploration of the Mongol era in China through an examination of three great historical figures, including how depictions of them have changed over time. Instruction Mode: Lecture Grading Option: Letter

EALC 490x Directed Research
Units: 1, 2, 3, 4, 5, 6, 7, 8 Max Units: 12.0 Individual research and readings. Not

available for graduate credit. Instruction Mode: Lecture Grading Option: Letter

EALC 494a Honors Thesis
Units: 4 Terms Offered: Sp Research and writing of original thesis under guidance of faculty member. Instruction Mode: Lecture Grading Option: In-progress & Letter Grade

EALC 494b Honors Thesis
Units: 4 Terms Offered: Fa Research and writing of original thesis under guidance of faculty member. Open only to EALC majors. Instruction Mode: Lecture Grading Option: In-progress to Letter Grade

EALC 499 Special Topics
Units: 2, 3, 4 Max Units: 8.0 Instruction Mode: Lecture Grading Option: Letter

EALC 500 Advanced Classical Chinese I
Units: 4 Reading in classical Chinese and practice in classical vocabulary and syntax, with emphasis on translation into English and modern Chinese. *Prerequisite:* EALC 402. Instruction Mode: Lecture Grading Option: Letter

EALC 501 History of Chinese Literature
Units: 4 Max Units: 12 Terms Offered: FaSp An in-depth survey of literary development concerning periods, thought, genres and socio-cultural backgrounds in China. In English. Instruction Mode: Lecture Grading Option: Letter

EALC 502 Advanced Classical Chinese II
Units: 4 Continuation of EALC 500. *Prerequisite:* EALC 500. Instruction Mode: Lecture Grading Option: Letter

EALC 503 Chinese Poetry
Units: 4 Literary studies of the theory and practice of Chinese poetry from major poets. *Prerequisite:* 4th year Chinese. Instruction Mode: Lecture Grading Option: Letter

EALC 504 Selections from Modern Chinese Literature
Units: 4 Literary currents and representative writings of the 20th century. *Prerequisite:* EALC 306. Instruction Mode: Lecture Grading Option: Letter

EALC 505 Introduction to East Asian Languages and Cultures
Units: 4 Max Units: 12 Terms Offered: FaSp An in-depth introduction to East Asian studies. Registration Restriction: Open only to graduate students Instruction Mode: Lecture Grading Option: Letter

EALC 506 Selections from Classical Chinese Literature
Units: 4 Writings of the important periods and genres of Chinese literary history. *Prerequisite:* EALC 406. Instruction Mode: Lecture Grading Option: Letter

EALC 507 East Asia in Cross-Cultural Theories
Units: 4 Max Units: 12 Terms Offered: FaSp Introduction to major theoretical paradigms particularly relevant to the study of East Asian cultures. Seminal Western theoretical texts with studies on East Asia. Instruction Mode: Lecture Grading Option: Letter

EALC 509 Transnational Korean Cinema
Units: 4 Max Units: 12 Terms Offered: FaSp Korean cinema since the early 20th century, focusing on transnational production, circulation and consumption. Instruction Mode: Lecture Grading Option: Letter

EALC 510 Contemporary Japanese Cinema
Units: 4 Max Units: 12 Terms Offered: FaSp Japanese cinema since the 1980s focusing on the works by filmmakers. Instruction Mode: Lecture Grading Option: Letter

EALC 512 Japanese Literature and Film
Units: 4 Terms Offered: FaSp Relationship between Japanese literature and film, focusing on the transition from literary text to film text. Open to graduate students only. Instruction Mode: Lecture Grading Option: Letter

EALC 515 Classical Japanese Poetics
Units: 4 Max Units: 12 Terms Offered: FaSp An analysis of major texts of the Japanese literary tradition from the 8th to the 16th century. Instruction Mode: Lecture Grading Option: Letter

EALC 520 Modern Japanese Writers
Units: 4 Selections illustrative of major literary trends and literary works since the Meiji Restoration. *Prerequisite:* EALC 422. Instruction Mode: Lecture Grading Option: Letter

EALC 522 Classical Japanese Writers
Units: 4 Writings representative of important periods and genres of Japanese literary history up to the Meiji Restoration. *Prerequisite:* EALC 426. Instruction Mode: Lecture Grading Option: Letter

EALC 525 Local/Global Asia: Tourism, Travel, and Modernity
Units: 4 Terms Offered: FaSp Explores how tourism and travel have shaped the experience of modernity in Asia. Readings are drawn from anthropology, history, cultural studies and geography. *Recommended Preparation:* Intended for graduate students with previous training in cultural studies and/or humanistic social science research methods and theory Registration Restriction: Open only to doctoral students Instruction Mode: Lecture Grading Option: Letter

EALC 528 Ecocriticism and the Environmental Humanities in East Asia
Units: 4 Max Units: 12 Terms Offered: FaSp Examines literature and the environment in Japan and comparatively, including theories and approaches developed in the fields of ecocriticism, film studies and the environmental humanities. Registration Restriction: Open only to master and doctoral students Instruction Mode: Lecture Grading Option: Letter

EALC 530 Race, Ethnicity and Multiculturalism in East Asia
Units: 4 Max Units: 12 Terms Offered: FaSp Examination of scholarship and cultural production on issues and theories of race, ethnicity and multiculturalism in East Asia (China, Japan, Korea and Southeast Asia). Instruction Mode: Lecture Grading Option: Letter

EALC 531 Proseminar in Chinese Cultural History
Units: 4 Max Units: 12 Terms Offered: FaSp Intensive readings in English concerning interpretive issues in the study of Chinese cultural history. Instruction Mode: Lecture Grading Option: Letter

EALC 532 Proseminar in Korean Cultural History
Units: 4 Introduction to Korean cultural and social history through intensive reading of the English-language literature on Korean history and culture. Instruction Mode: Lecture Grading Option: Letter

EALC 533 Proseminar in Japanese Cultural History
Units: 4 Intensive readings, chronologically arranged, in interpretive issues in the study of Japanese cultural history. Readings in English. Instruction Mode: Lecture Grading Option: Letter

EALC 534 Modernity and Cultural Representation in Korea
Units: 4 Max Units: 12 Terms Offered: FaSp In-depth introduction to the cultural history, including emerging trends and new methodologies within modern Korean literary and cultural studies. Instruction Mode: Lecture Grading Option: Letter

EALC 535 Proseminar in Chinese Visual Culture
Units: 4 Max Units: 12 Terms Offered: FaSp Chinese visual culture through the complex interface of art and thought. Examines architectural layout, pictorial representation, decorative motif as part of cultural production that intertwines with intellectual trends. Instruction Mode: Lecture Grading Option: Letter

EALC 536 Studies in Modern Japanese History
Units: 4 (Enroll in HIST 534)

EALC 537 Structure of the Korean Language
Units: 4 Description and theoretical analysis of phonology, morphology and syntax of modern Korean; comprehensive view of the properties of the Korean structure. *Prerequisite:* EALC 470. Instruction Mode: Lecture Grading Option: Letter

EALC 541 Seminar: Japan
Units: 4 Social, economic, political, and cultural problems in modern Japan. Bibliographic and reference materials. *Prerequisite:* HIST 436. Instruction Mode: Lecture Grading Option: Letter

EALC 543 Seminar: Japanese Literature
Units: 4 Readings in original texts in the works of selected major writers; lectures dealing with intellectual and cultural backgrounds of the periods and the authors. *Prerequisite:* EALC 520, EALC 522. Instruction Mode: Lecture Grading Option: Letter

EALC 545 Japanese Literary Criticism and Theory
Units: 4 Max Units: 12 Terms Offered: FaSp Representative theories of literature; history of classical and modern literary criticism. *Prerequisite:* EALC 520 or EALC 522 Instruction Mode: Lecture Grading Option: Letter

EALC 547 Structure of the Japanese Language
Units: 4 Descriptive analysis of phonetic, phonological, and grammatical structure of Japanese. Conducted in English. *Prerequisite:* EALC 470. Instruction Mode: Lecture Grading Option: Letter

EALC 551 Seminar: China
Units: 4 Individual research and seminar reports on selected phases of Chinese traditional civilization. Instruction Mode: Lecture Grading Option: Letter

EALC 553 Seminar: Chinese Literature
Units: 4 Max Units: 12 Terms Offered: FaSp Research in different genres of

Chinese literature, traditional and modern. Instruction Mode: Lecture Grading Option: Letter

EALC 555 Chinese Literary Criticism and Theory
Units: 4 Classical and modern literary theories and criticism; comparisons with literary theory and criticism in the West. Instruction Mode: Lecture Grading Option: Letter

EALC 556 Seminar on Women and the Family in China
Units: 4 An introduction to the current state of research on women and the family in China, and training in feminist analytic approaches for further work in the China field of other areas. Instruction Mode: Lecture Grading Option: Letter Crosslisted as SWMS-556

EALC 557 Structure of the Chinese Language
Units: 4 Descriptive analysis of phonology, morphology, and syntax of modern Chinese. Conducted in English. *Prerequisite:* EALC 404. Instruction Mode: Lecture Grading Option: Letter Crosslisted as LING-557

EALC 558 History of the Chinese Language
Units: 4 Evolution of the Chinese language from the earliest time to the present: lectures and the reading of texts. Conducted in English. *Prerequisite:* EALC 557. Instruction Mode: Lecture Grading Option: Letter

EALC 560 Comparative Syntax of East Asian Languages
Units: 4 Max Units: 12.0 Terms Offered: FaSp Descriptive-comparative study of the Chinese, Japanese and Korean languages with an emphasis on their structures, range of properties, similarities and dissimilarities. *Prerequisite:* EALC 537 or EALC 547 or EALC 557. Instruction Mode: Lecture Grading Option: Letter

EALC 561 Topics and Issues in East Asian Linguistics
Units: 4 Max Units: 12.0 Descriptive and theoretical analysis of the grammars of Chinese, Japanese, and Korean; emphasis on comparative studies of these languages and English. Instruction Mode: Lecture Grading Option: Letter Crosslisted as LING-561

EALC 562 Teaching of the East Asian Languages
Units: 4 Materials and methods in teaching East Asian languages; application of methods and techniques of foreign/second language teaching to East Asian language teaching. *Prerequisite:* EALC 537 or EALC 547 or EALC 557. Instruction Mode: Lecture Grading Option: Letter

EALC 565 Bibliography and Research Methods in Chinese Studies
Units: 4 An introduction to reference works and research methods in all fields on sinology; works in Chinese, Japanese and Western languages. Instruction Mode: Lecture Grading Option: Letter

EALC 570 Narratives of Desire in Modern Chinese Literature
Units: 4 Terms Offered: FaSp The study of prominent fiction women writers from the first half of the 20th century in English and original translations. Open to graduate students only. *Prerequisite:* EALC 553. Instruction Mode: Lecture Grading Option: Letter

EALC 575 Literary and Artistic Movements in Modern China
Units: 4 Terms Offered: FaSp Introduction to literary and artistic movements in 20th century China. Open to graduate students only. Instruction Mode: Lecture Grading Option: Letter

EALC 580 Readings in East Asian Linguistics
Units: 4 Max Units: 12.0 Terms Offered: FaSp Survey of some representative works in generative grammar since the mid '60s, including those that deal with similar phenomena in the contexts of more recent theoretical frameworks as well as non-generative grammatical works on Chinese, Japanese, and Korean. Instruction Mode: Lecture Grading Option: Letter

EALC 588a Directed Readings
Units: 2 Assigned readings according to individual needs. Instruction Mode: Lecture Grading Option: Letter

EALC 588b Directed Readings
Units: 2 Assigned readings according to individual needs. Instruction Mode: Lecture Grading Option: Letter

EALC 590 Directed Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Research leading to the master's degree. Maximum units which may be applied to the degree to be determined by the department. Instruction Mode: Lecture Grading Option: Credit/No Credit

EALC 593 Teaching Practicum for East Asian Studies
Units: 2 Max Units: 04 Terms Offered: FaSp Enhances the teaching experience of teaching assistants in East Asian studies through a collaborative study of relevant pedagogical principles, resources, and techniques. Registration Restriction: Open only to master and doctoral students Instruction Mode: Lecture Grading Option: Credit/No Credit

EALC 594a Master's Thesis
Units: 2 Credit on acceptance of thesis. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

EALC 594b Master's Thesis
Units: 2 Credit on acceptance of thesis. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

EALC 594z Master's Thesis
Units: 0 Credit on acceptance of thesis. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

EALC 596 Internship for Curricular Practical Training
Units: 1, 2, 3 Max Units: 03 Terms Offered: FaSpSm Part-time or full-time, practical work experience in the student's field of study. The internship must be located at an off-campus facility. Students are individually supervised by faculty. May not be taken until the student has completed at least one semester of enrollment in the graduate program with a cumulative 3.0 GPA. Registration Restriction: Open only to graduate students Instruction Mode: Lecture Grading Option: Credit/No Credit

EALC 599 Special Topics
Units: 2, 3, 4 Max Units: 8.0 Terms Offered: FaSpSm Special topics in East Asian Languages and Cultures. Instruction Mode: Lecture Grading Option: Letter

EALC 610 Seminar: Buddhism and the Literary Arts in Japan
Units: 4 Seminar on the impact of Buddhism on the literary tradition of medieval Japan. Selected topics. Instruction Mode: Lecture Grading Option: Letter

EALC 620 Seminar in East Asian Linguistics
Units: 4 Max Units: 12.0 Terms Offered: FaSp Detailed theoretical discussions and empirical studies of the issues and development in East Asian linguistics. Instruction Mode: Lecture Grading Option: Letter

EALC 650 Research Seminar in Chinese Documents
Units: 4 An introduction to the different genres of documents for the study of Chinese civilization, and training in their use. Instruction Mode: Lecture Grading Option: Letter

EALC 700 Professionalization Seminar for Advanced Graduate Students
Units: 2 Max Units: 04 Terms Offered: FaSp Familiarizes advanced graduate students with topics relevant to academic work in East Asian humanities, including research planning, dissertation writing, publishing, and conference presentation. Registration Restriction: Open only to graduate students Instruction Mode: Lecture Grading Option: Credit/No Credit

EALC 794a Doctoral Dissertation
Units: 2 Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

EALC 794b Doctoral Dissertation
Units: 2 Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

EALC 794c Doctoral Dissertation
Units: 2 Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

EALC 794d Doctoral Dissertation
Units: 2 Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

EALC 794z Doctoral Dissertation
Units: 0 Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

East Asian Studies

EASC 150gp East Asian Societies
Units: 4 Terms Offered: FaSp Main patterns of change in modern China, Japan, and Korea; historical framework and the insights of geography, economics, political science, and other disciplines. Satisfies New General Education in Category C: Social Analysis Satisfies Global Perspective in Category H: Traditions and Historical Foundations Satisfies Old General Education in Category II: Global Cultures and Traditions Instruction Mode: Lecture, Discussion Grading Option: Letter

EASC 160gmp China and the World
Units: 4 Terms Offered: FaSp Advanced-level introduction to China and its relations with the wider world in historic and contemporary perspective. Satisfies New General Education in Category C: Social Analysis Satisfies Global Perspective in Category H: Traditions and Historical Foundations Satisfies Old General Education in Category II: Global Cultures and Traditions Instruction Mode: Lecture, Discussion Grading Option: Letter

EASC 360 Global East Asia
Units: 4 Max Units: 12 Terms Offered: Sp Maymester Study Abroad Program to China or Japan with a focus on globalization. Instruction Mode: Lecture Grading Option: Letter Crosslisted as EALC 361

EASC 490x Directed Research
Units: 1, 2, 3, 4, 5, 6, 7, 8 Max Units: 12.0 Terms Offered: FaSpSm Individual research and readings. Instruction Mode: Lecture Grading Option: Letter

EASC 495 Honors Thesis
Units: 4 Terms Offered: FaSpSm Writing the honors thesis: for East Asian Area Studies Honors majors. Registration Restriction: Open only to East Asian Area Studies majors Instruction Mode: Lecture Grading Option: Letter

EASC 499 Special Topics
Units: 2, 3, 4 Max Units: 8.0 Terms Offered: Irregular Interdisciplinary examination of various areas of East Asian studies. Instruction Mode: Lecture Grading Option: Letter

EASC 590 Directed Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Terms Offered: FaSpSm Research leading to the master's degree. Maximum units which may be applied to the degree to be determined by the department. Instruction Mode: Lecture Grading Option: Credit/No Credit

EASC 591 Interdisciplinary Seminar
Units: 4 Max Units: 8.0 Terms Offered: Irregular An examination of a broad topic in the study of China, Korea, or Japan. Guest speakers, student reports, papers. Readings in English and the appropriate Asian language(s). Instruction Mode: Lecture Grading Option: Letter

EASC 592 Proseminar on Issues and Trends in Contemporary East Asia
Units: 4, 2 years Terms Offered: Fa Introduction to graduate level study of policy issues and major trends in contemporary China, Japan, and Korea; contributions of various academic disciplines. Instruction Mode: Lecture Grading Option: Letter

EASC 593x Understanding East Asia: An Introduction for Professional School Students
Units: 3 Terms Offered: Sp Historical, social, political and cultural survey of China, Japan and Korea with focus on topics of particular relevance for business practitioners and other professionals. Instruction Mode: Lecture Grading Option: Letter

EASC 594a Master's Thesis
Units: 2 Terms Offered: FaSpSm Credit on acceptance of thesis. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

EASC 594b Master's Thesis
Units: 2 Terms Offered: FaSpSm Credit on acceptance of thesis. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

EASC 594z Master's Thesis
Units: 0 Terms Offered: FaSpSm Credit on acceptance of thesis. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

EASC 595 Research Methods and Prospectus Writing
Units: 2 Terms Offered: Sp Research skills to launch a specific research project, usually a master's thesis. Registration Restriction: Open only to graduate students Instruction Mode: Lecture Grading Option: Letter

EASC 596 Internship for Curricular Practical Training
Units: 1, 2, 3 Max Units: 03 Terms Offered: FaSpSm Part-time or full-time, practical work experience in the student's field of study. The internship must be located at an off-campus facility. Students are individually supervised by faculty. May not be taken until the student has completed at least one semester of enrollment in the graduate program with a cumulative 3.0 GPA. Registration Restriction: Open only to graduate students Instruction Mode: Lecture Grading Option: Credit/No Credit

EASC 599 Special Topics
Units: 2, 3, 4 Max Units: 8.0 Terms Offered: FaSpSm Special topics in East Asian Area Studies. Instruction Mode: Lecture Grading Option: Letter

Economics

ECON 101 Free People, Free Thought and Free Markets
Units: 4 Terms Offered: FaSpSm (Enroll in PHIL 101)

ECON 203g Principles of Microeconomics
Units: 4 Terms Offered: FaSp Behavior of firms and consumers, functions of the price system, competition and monopoly, labor markets, poverty, government regulation, international trade, and the environment. Satisfies New General Education in Category F: Quantitative Reasoning Instruction Mode: Lecture, Discussion Grading Option: Letter

ECON 205g Principles of Macroeconomics
Units: 4 Terms Offered: FaSp Unemployment, inflation and output determination and links. Effects of government taxation and spending on growth, investment, saving, consumption, and trade. Satisfies New General Education in Category F: Quantitative Reasoning Instruction Mode: Lecture, Discussion Grading Option: Letter

ECON 238xg Political Economy and Social Issues
Units: 4 Terms Offered: Fa Contending politico-economic perspectives in modern Western thought: conservatism, liberalism, radicalism, and their relevance for contemporary policy issues including government and markets, class, race, gender, poverty and inequality. Satisfies Old General Education in Category VI: Social Issues Instruction Mode: Lecture, Discussion Grading Option: Letter

ECON 303 Intermediate Microeconomic Theory
Units: 4 Terms Offered: FaSp Decision-making by business firms, consumer preferences and behavior, uncertainty, competition, monopoly, labor and resource markets, efficient resource allocation, externalities, and government policy. *Prerequisite:* ECON 203; MATH 118gx or MATH 125; *Corequisite:* ECON 205. Instruction Mode: Lecture Grading Option: Letter

ECON 304 Mathematical Microeconomics
Units: 4 Terms Offered: FaSp Explores the theoretical framework of how economic agents make choices and what the implications of these choices are; presentation and application of analytical tools. *Prerequisite:* ECON 203g and (MATH 118gx or MATH 125g) Instruction Mode: Lecture Grading Option: Letter

ECON 305 Intermediate Macroeconomic Theory
Units: 4 Terms Offered: FaSp The determinants of aggregate income, employment, and inflation; economic fluctuations; fiscal and monetary policy; financial markets; the national debt. *Prerequisite:* ECON 203 and ECON 205; MATH 118gx or MATH 125. Instruction Mode: Lecture Grading Option: Letter

ECON 317 Introduction to Statistics for Economists
Units: 4 Terms Offered: FaSp Introduction to statistical methods appropriate for analyzing economic data: probability theory, random variables and probability distributions, sampling, estimation, statistical inference. *Prerequisite:* MATH 118gx or MATH 125. Instruction Mode: Lecture Grading Option: Letter

ECON 318 Introduction to Econometrics
Units: 4 Terms Offered: FaSp Application of statistical methods to economic data: estimating economic relationships using regression analysis, testing hypotheses involving economic behavior, forecasting economic variables. *Prerequisite:* ECON 317 Duplicates Credit in former ECON 414 Instruction Mode: Lecture Grading Option: Letter

ECON 319 Advanced Introduction to Econometrics
Units: 4 Terms Offered: FaSp Understanding, evaluating and interpreting econometric papers that use linear regression methods and an emphasis on matrix algebra, calculus and mathematical proofs. *Prerequisite:* ECON 317 and MATH 125g and MATH 225 Duplicates Credit in ECON 318 Instruction Mode: Lecture Grading Option: Letter

ECON 322 Economic History and Modernization of the Middle East
Units: 4 Terms Offered: Irregular Economic history of the Middle East from the rise of Islam to the modern era. Roles of law, religion. Processes of institutional transformation, stagnation, modernization. *Prerequisite:* ECON 203. Instruction Mode: Lecture Grading Option: Letter

ECON 330 The Political Economy of Institutions
Units: 4 Social functions served by the rules, laws, regulations, and customs that constrain human activity. Processes

whereby such institutions adapt, or fail to adapt, to changing circumstances. *Prerequisite:* ECON 203. Instruction Mode: Lecture Grading Option: Letter

ECON 332 Contracts, Organizations and Institutions
Units: 4 Contract law and economic organization, determinants of firm boundaries, transaction cost economics, agency theory, incomplete contracting, business strategy, bureaucracy, institutional environment, politics and property rights. *Prerequisite:* ECON 203. Instruction Mode: Lecture Grading Option: Letter

ECON 339 Philosophy of Economics
Units: 4 (Enroll in PHIL 339)

ECON 340 Economics of Less Developed Countries
Units: 4 Causes of economic underdevelopment: historical, institutional, structural, ideological, technological, cultural. Patterns and theories of development. Role of government, international trade, and education in economic growth. *Prerequisite:* ECON 203 or ECON 205. Instruction Mode: Lecture Grading Option: Letter

ECON 342 Economic Development of the Middle East
Units: 4 Terms Offered: FaSp Contemporary economic problems of the Middle East: comparative and historical perspectives on issues of institutions, investment, oil, trade, migration, finance, inequality, labor and capital markets. *Prerequisite:* ECON 203; *Recommended Preparation:* ECON 205 and ECON 303. Instruction Mode: Lecture Grading Option: Letter

ECON 343 Economic Development of East Asia
Units: 4 Contemporary economic problems of East Asian countries: management, labor, technology, trade, investment. Determinants of their high growth rates in the late 20th century. *Prerequisite:* ECON 203 or ECON 205. Instruction Mode: Lecture Grading Option: Letter

ECON 344 Economic Development of Sub-Saharan Africa
Units: 4 Terms Offered: FaSpSm Contemporary economic problems of sub-Saharan African economies: policies and endowments. Focus on issues of poverty, agriculture, health, macroeconomy and political economy. *Prerequisite:* ECON 203 or ECON 205. Instruction Mode: Lecture Grading Option: Letter

ECON 346 Economics of Transition and Development: China
Units: 4 Terms Offered: FaSpSm A focus on the Chinese economy, its reform and transition to a market economy, its relation with East Asian countries and integration into the world economy. *Prerequisite:* ECON 203 or ECON 205. Instruction Mode: Lecture Grading Option: Letter

ECON 348g Current Problems of the American Economy
Units: 4 Terms Offered: Fa A comprehensive investigation of problems stemming from changing composition of the work force, urban decline, new technologies, inequalities, ethnic relations, government deficits. Prospects for continued growth. *Prerequisite:* ECON 203 or ECON 205. Satisfies Old General Education in Category VI: Social Issues Instruction Mode: Lecture, Discussion Grading Option: Letter

ECON 350 The World Economy
Units: 4 Terms Offered: SpSm International cooperation and conflict in the world economy. Global economic problems of growth and development, trade and finance, migration, economic stability, and the environment. *Prerequisite:* ECON 203 or ECON 205. Instruction Mode: Lecture Grading Option: Letter

ECON 351x Microeconomics for Business
Units: 4 Terms Offered: FaSpSm Development and business applications of: theory of the firm; theory of the consumer; intertemporal decisions; decisions under risk; market failures; industrial and enterprise structure. Not for major credit for: economics, economics / mathematics, social sciences (economics) majors. *Prerequisite:* MATH 118 or MATH 125 or MATH 126 or MATH 226; *Corequisite:* ECON 352x Duplicates Credit in former ECON 251. Instruction Mode: Lecture Grading Option: Letter

ECON 352x Macroeconomics for Business
Units: 4 Terms Offered: FaSpSm Theoretical development and significance to business and markets of economic growth; inflation; unemployment; monetary and fiscal policy; business cycles; savings and investment; exchange rates. *Recommended Preparation:* introductory economics course, high school math, and algebra. *Corequisite:* ECON 351x Duplicates Credit in former ECON 252x. Instruction Mode: Lecture Grading Option: Letter

ECON 357 Money, Credit, and Banking
Units: 4 The money, bond, stock, and other financial markets; portfolio choice; determinants of asset prices and interest rates; inflation; interactions between financial markets and government policies. *Prerequisite:* ECON 203 and ECON 205. Instruction Mode: Lecture Grading Option: Letter

ECON 360 Public Finance
Units: 4 Role of the government; income and corporate taxation; direct versus indirect taxation; optimal tax structure; public goods; public sector pricing; public debt and macroeconomic stability. *Prerequisite:* ECON 203 and ECON 205. Instruction Mode: Lecture Grading Option: Letter

ECON 361 Understanding Financial Crises
Units: 4 Terms Offered: FaSp Key facts and basic mechanisms concerning financial crises and related topics (bank runs, sovereign default decision, currency collapse). *Prerequisite:* ECON 203g and ECON 205g Instruction Mode: Lecture Grading Option: Letter

ECON 366 Urban Economics
Units: 4 Urban trends and problems, including changing urban form and function, urban public finance, housing, renewal, poverty, race, transportation, and the environment. *Prerequisite:* ECON 203 and ECON 205. Instruction Mode: Lecture Grading Option: Letter

ECON 369 Economics of European Integration
Units: 4 Terms Offered: FaSp The challenges of policy coordination among independent political entities, starting from the aftermath of German unification (and the ramifications it had in a fixed exchange rate system) to the recent national debt crisis that followed the great recession. *Prerequisite:* ECON 203g and ECON 205g Instruction Mode: Lecture Grading Option: Letter

ECON 390 Special Problems
Units: 1, 2, 3, 4 Supervised, individual studies. No more than one registration permitted. Enrollment by petition only. Instruction Mode: Lecture Grading Option: Letter

ECON 395 Economic Policy Issues
Units: 4 Selected policy dilemmas, including welfare reform, urban renewal, government budget deficits, regulation and deregulation, environmental problems, immigration, and global development. Lectures by leading authorities and weekly discussion sessions. *Prerequisite:* ECON 203 and ECON 205. Instruction Mode: Lecture Grading Option: Letter

ECON 401 Mathematical Methods in Economics
Units: 4 Terms Offered: Fa Introduction to quantitative methods for analyzing economic equilibria; comparative statics and dynamics. Utility theory, consumer behavior, and profit maximization. Model formulation in micro and macroeconomics. *Prerequisite:* ECON 303. Instruction Mode: Lecture Grading Option: Letter

ECON 404 Games and Economics
Units: 4 Analysis of strategic economic interactions. Topics include bargaining, insurance, patents, voting, environmental depletion, strategic trade, learning, reputation, strikes, corporate takeovers, and the provision of public goods. *Prerequisite:* ECON 303. Instruction Mode: Lecture Grading Option: Letter

ECON 405 Neuroeconomics
Units: 4 Introduction to the methodology used in experimental neuroeconomics and discussion of neural correlates of decision-making. *Prerequisite:* ECON 303. Instruction Mode: Lecture Grading Option: Letter

ECON 410 Economics of Health and Healthcare
Units: 4 Terms Offered: FaSp Detailed discussion of economic models, including models of health, addiction, demand for healthcare and demand for insurance. *Prerequisite:* ECON 303 Instruction Mode: Lecture Grading Option: Letter

ECON 415 Behavioral Economics
Units: 4 Examination of the traditional and behavioral theories of decision-making and the state of the art in the field. *Prerequisite:* ECON 303. Instruction Mode: Lecture Grading Option: Letter

ECON 419 Advanced Econometrics
Units: 4 Terms Offered: FaSpSm Analysis of binary dependent variable models, panel data analysis, program evaluations, IV analysis, basics of time series and forecasting. *Prerequisite:* (ECON 303 and ECON 305 and ECON 317 and ECON 318) and (MATH 125g or MATH 126 or

MATH 225 or MATH 226) Instruction Mode: Lecture Grading Option: Letter

ECON 420 Experimental Economics
Units: 4 Examination of economic theories and patterns of behavior useful in building new theories. *Prerequisite:* ECON 303; *Recommended Preparation:* ECON 317. Instruction Mode: Lecture Grading Option: Letter

ECON 432 Economics of Happiness
Units: 4 What is happiness? How does it vary by socio-economic status and over the life cycle? This course will develop insight into the nature and determinants of subjective well-being. *Prerequisite:* ECON 303; *Recommended Preparation:* ECON 305. Instruction Mode: Lecture Grading Option: Letter

ECON 433 Empirical Economics Research
Units: 4 Terms Offered: FaSp Analysis of economic variables; investigation of empirical economics to estimate or test for relationships using various forms of data. *Prerequisite:* ECON 303, ECON 305, ECON 317 and ECON 318. Instruction Mode: Lecture Grading Option: Letter

ECON 434 Economic Analysis of Law
Units: 4 Common law and property; rationing of justice, resource allocation between prevention and enforcement; division of decision making between public and private sectors. *Prerequisite:* ECON 303. Instruction Mode: Lecture Grading Option: Letter

ECON 450 International Trade
Units: 4 Determinants and economic consequences of international trade patterns; effects of trade restrictions and trading blocs; trade negotiations and arrangements. *Prerequisite:* ECON 303. Instruction Mode: Lecture Grading Option: Letter

ECON 451 The Politics of International Trade
Units: 4 (Enroll in IR 430)

ECON 452 International Finance
Units: 4 Consequences of trade deficits; theories of capital and currency markets, exchange rate regimes, and international monetary coordination. *Prerequisite:* ECON 305. Instruction Mode: Lecture Grading Option: Letter

ECON 457 Financial Markets
Units: 4 General equilibrium analysis of economies with financial markets; decision making under uncertainty; methods of risk reduction; portfolio theory and valuation of securities; efficiency of security markets. *Prerequisite:* ECON 303. Instruction Mode: Lecture Grading Option: Letter

ECON 460 Economic Applications of Machine Learning
Units: 4 Terms Offered: FaSp A capstone course that introduces state-of-the-art estimation methods for high-dimensional data. *Prerequisite:* ECON 318 and MATH 225 and CSCI 103L and DSCI 250 *Recommended Preparation:* MATH 226g Instruction Mode: Lecture Grading Option: Letter

ECON 471 Economics of Labor Markets and Human Capital
Units: 4 A human capital interpretation of labor demand and supply; wage determination, differentials, and discrimination; job turnover and occupational mobility; unions and collective bargaining. *Prerequisite:* ECON 303. Instruction Mode: Lecture Grading Option: Letter

ECON 472 Economics of Medical Care
Units: 4 Health as an investment in human capital; analysis of the demand for and supply of health services and manpower; health insurance; cost-effectiveness analysis; market structures and the pricing of medical services. *Prerequisite:* ECON 303. Instruction Mode: Lecture Grading Option: Letter

ECON 474 Economic Consulting and Applied Managerial Economics
Units: 4 Terms Offered: FaSp Economic consulting and managerial economic methods applied in real world problems. Economic methods to analyze issues of intellectual property, environmental damage, trademark infringement, brand value, and consumer demand. *Prerequisite:* ECON 303. Instruction Mode: Lecture Grading Option: Letter

ECON 480 Economics of Industrial Organization
Units: 4 Pricing and resource allocation in imperfectly competitive markets; monopoly regulation, collusion, cartels, mergers and antitrust; patents and development incentives; industry case studies. *Prerequisite:* ECON 303. Instruction Mode: Lecture Grading Option: Letter

ECON 487 Resource and Environmental Economics
Units: 4 Management and extraction of renewable and non-renewable natural resources; environmental externalities and regulation of air, water, and land pollution; market incentives versus direct regulation. *Prerequisite:* ECON 303. Instruction Mode: Lecture Grading Option: Letter Crosslisted as ENST-487

ECON 490x Directed Research
Units: 1, 2, 3, 4, 5, 6, 7, 8 Max Units: 12.0 Terms Offered: FaSpSm Supervised individual research. Instruction Mode: Lecture Grading Option: Letter

ECON 495 Honors Thesis
Units: 4 Individual research supervised by a faculty adviser. Successful completion required for departmental honors degree. Instruction Mode: Lecture Grading Option: Letter

ECON 499 Special Topics
Units: 2, 3, 4 Max Units: 8.0 Terms Offered: FaSpSm Selected topics in economic theory, history, or policy. Instruction Mode: Lecture Grading Option: Letter

ECON 500 Microeconomic Analysis and Policy
Units: 4 Terms Offered: FaSp Theories of the household and the firm; product and factor markets; perfect and imperfect competition; welfare criteria. Instruction Mode: Lecture Grading Option: Letter

ECON 501 Macroeconomic Analysis and Policy
Units: 4 Terms Offered: FaSp Theories of aggregate economic activity; design and use of macroeconometric models; stabilization and control of inflation, unemployment, and growth. Instruction Mode: Lecture Grading Option: Letter

ECON 502 Mathematical Methods in Dynamic Economics
Units: 4 Terms Offered: SpSm Movement of economic systems over time; differential and difference equations; introduction to the optimal control of economic processes; dynamic programming and optimal strategies; selected applications. *Prerequisite:* ECON 401. Instruction Mode: Lecture Grading Option: Letter

ECON 504 Game Theory with Economic and Financial Applications
Units: 4 Terms Offered: FaSp Students will cover large ground in applying game theory to economic and financial markets and interactions in a diverse set of examples like reputation, herding, bubbles and crashes, auctions, strategic information revelation and information accumulation in markets. We will witness the wide range of applications that is amenable to game theoretical analysis. *Prerequisite:* ECON 303 and ECON 404 and MATH 544L and MATH 547 Instruction Mode: Lecture Grading Option: Letter

ECON 506 Field Experiments
Units: 4 Terms Offered: FaSp Learn to design, analyze and interpret field experiments and understand their practical significance to applied economics, business and policy. Instruction Mode: Lecture Grading Option: Letter

ECON 508 Neurofinance
Units: 4 Terms Offered: FaSp Investigate human behavior in Economics. Use neuroscience as a new lens on financial decision-making; focus on specific topics in behavioral and neuro-finance. *Recommended Preparation:* Intermediate level microeconomic theory and basic calculus Instruction Mode: Lecture Grading Option: Letter

ECON 513 Practice of Econometrics
Units: 4 Terms Offered: FaSpSm Application of econometric tools using standard econometric software packages for microcomputers; empirical applications to selected economic problems of estimation and inference. Instruction Mode: Lecture Grading Option: Letter

ECON 514 Empirical Finance
Units: 4 Terms Offered: FaSp Foundational knowledge of empirical methods in finance on selected topics and econometric methods, including time-series, asset returns and pricing models. *Prerequisite:* ECON 513 Instruction Mode: Lecture Grading Option: Letter

ECON 515 Time Series Analysis
Units: 4 Terms Offered: FaSp Understanding and implementing models commonly used in time series econometrics. Emphasis is placed on intuition and application. Assists students understanding how to use time series data to test hypotheses and serve as an introduction to the ideas and techniques of forecasting. *Corequisite:* ECON 513 Instruction Mode: Lecture Grading Option: Letter

ECON 521 Open Economy Macroeconomics
Units: 4 Terms Offered: FaSp The balance of payments, macroeconomic policy in an open economy, exchange rate determination, exchange rate systems, currency crises, international financial

arrangements and monetary history. *Prerequisite:* ECON 501 Instruction Mode: Lecture Grading Option: Letter

ECON 523 Economic History and Development
Units: 4 Historical trends in developed and developing societies in various aspects of modernization such as human resources, capital, technology, resource allocation, income distribution, international relations. Instruction Mode: Lecture Grading Option: Letter

ECON 527 Theory of Value: Classical Origins and Neoclassical Critique
Units: 4 Terms Offered: FaSpSm Classical economic theory; its precursors, main contributors, extensions and critics; focus upon the writings and ideas of Smith, Say, Malthus, Ricardo, Mill and Marx. Instruction Mode: Lecture Grading Option: Letter

ECON 533 Capstone Research Seminar
Units: 2 Terms Offered: FaSp Provides Masters students with a centerpiece of their graduate experience whereby they are able to experience first-hand turning the theory of their studies into practice under the guidance of an experienced faculty member. Instruction Mode: Lecture Grading Option: Credit/No Credit

ECON 537 Contracts, Organizations and Institutions
Units: 4 Information, property rights, bargaining, transaction costs, incentives, free-riding and contracting in organizations; the nature of cooperation; bureaucracies. Instruction Mode: Lecture Grading Option: Letter

ECON 538 Values and Social Analysis
Units: 4 Factors that make values an essential feature of human society; how values develop, change, and are abandoned; role of values in economic development. Instruction Mode: Lecture Grading Option: Letter

ECON 541 Economic Development
Units: 4 Development, underdevelopment and the problems thereof; agriculture, industry, trade, population, human capital, capital formation; structural, technological, environmental and institutional changes; political economy of the state. Instruction Mode: Lecture Grading Option: Letter

ECON 550 Applied Trade Policy
Units: 4 Terms Offered: FaSp Introduction and exploration of quantitative methods and data sources used for applied trade policy analysis. *Prerequisite:* ECON 303 *Corequisite:* ECON 500 Instruction Mode: Lecture Grading Option: Letter

ECON 555 Topics in Asset Pricing Theory
Units: 4 Terms Offered: FaSp How do investors evaluate risks? With what information? How do they form their beliefs? Via empirical evidence and theoretical works, this course addresses these questions. *Recommended Preparation:* ECON 508 and ECON 514 and ECON 606 Instruction Mode: Lecture Grading Option: Letter

ECON 564 Introduction to Market Design
Units: 4 Terms Offered: FaSp Introduction to market design; combined use of economic theory, experiments and empirical analysis; analyze and engineer market rules and institutions. Instruction Mode: Lecture Grading Option: Letter

ECON 570 Big Data Econometrics
Units: 4 Terms Offered: FaSp Introduction to the theory and practice of causal econometrics in modern settings of large-scale data. Major algorithms from machine learning focused on methodology and applications. *Corequisite:* ECON 513 Instruction Mode: Lecture Grading Option: Letter

ECON 572 Economics and International Health
Units: 4 Terms Offered: FaSp Apply microeconomics to explore public health issues throughout the world, with an emphasis on developing countries. Instruction Mode: Lecture Grading Option: Letter

ECON 573 Applied Program Evaluation
Units: 4.0 Terms Offered: FaSp Become equipped with a toolkit of common econometric methods that can be used to assess the causal effect of a policy. *Prerequisite:* ECON 513 *Recommended Preparation:* Familiarity with programming in R Instruction Mode: Lecture, Lab Grading Option: Letter

ECON 580 Antitrust Economics and Competition Policy
Units: 4 Terms Offered: FaSp Efficiency, market failure, government regulation, some basics for antitrust economics, competition policy analysis and collusion and agreements among competitors. *Prerequisite:* ECON 500 or ECON 513. Instruction Mode: Lecture Grading Option: Letter

ECON 584 Economic Consulting and Applied Econometrics
Units: 4 Terms Offered: FaSp Economic methods to analyze issues of intellectual property, environmental damage, trademark infringement, brand value and consumer demand, using an applied econometric approach. *Corequisite:* ECON 513 Instruction Mode: Lecture Grading Option: Letter

ECON 587 Urban Economics
Units: 4.0 Terms Offered: FaSp The role of designing incentives to reduce negative urban externalities and the interplay between spatial Big Data and testing urban economics hypotheses. *Recommended Preparation:* Statistics or Econometrics *Corequisite:* ECON 500 Instruction Mode: Lecture Grading Option: Letter

ECON 590 Directed Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Terms Offered: FaSpSm Research leading to the master's degree. Maximum units which may be applied to the degree to be determined by the department. Instruction Mode: Lecture Grading Option: Credit/No Credit

ECON 593x Practicum in Teaching the Liberal Arts
Units: 2 Terms Offered: Fa Practical principles for the long-term development of effective teaching within college disciplines. Intended for teaching assistants in Dornsife College. Registration Restriction: Open only to doctoral students in Economics. Instruction Mode: Lecture Grading Option: Credit/No Credit

ECON 594a Master's Thesis
Units: 2 Terms Offered: FaSpSm Credit on acceptance of thesis. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

ECON 594b Master's Thesis
Units: 2 Terms Offered: FaSpSm Credit on acceptance of thesis. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

ECON 594z Master's Thesis
Units: 0 Terms Offered: FaSpSm Credit on acceptance of thesis. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

ECON 595 Research Seminar in Spatial Economics and Data Sciences
Units: 4 Terms Offered: FaSp Original spatial analysis research; integrate economics, data creation, and spatial analytics. Instruction Mode: Lecture Grading Option: Letter

ECON 596 Internship for Curricular Practical Training
Units: 1, 2, 3 Max Units: 03 Terms Offered: FaSpSm Part-time or full-time, practical work experience in the student's field of study. The internship must be located at an off-campus facility. Students are individually supervised by faculty. May not be taken until the student has completed at least one semester of enrollment in the graduate program with a cumulative 3.0 GPA. Registration Restriction: Open only to graduate students Instruction Mode: Lecture Grading Option: Credit/No Credit

ECON 599 Special Topics
Units: 2, 3, 4 Max Units: 8.0 Terms Offered: FaSpSm Selected topics in economics as developed by the instructor. Instruction Mode: Lecture Grading Option: Letter

ECON 600 Economics of Choice
Units: 4 Reviews the normative and positive theories of choice drawing upon recent theoretical and empirical work in cognitive and evolutionary psychology, artificial intelligence, linguistics and economics. *Prerequisite:* ECON 500. Instruction Mode: Lecture Grading Option: Letter

ECON 601 Microeconomic Theory I
Units: 4 Terms Offered: Fa Optimization of the consumer and the firm; duality and imputed value; perfect and imperfect competition in product and factor markets. Instruction Mode: Lecture Grading Option: Letter

ECON 602 Macroeconomic Theory I
Units: 4 Terms Offered: Fa Aggregate demand, supply and government policy; theories of economic growth and business cycles; static and dynamic implications of government policies. Duplicates Credit in former ECON 505 Instruction Mode: Lecture Grading Option: Letter

ECON 603 Microeconomic Theory II
Units: 4 Terms Offered: Sp General equilibrium theory; existence, uniqueness, and stability; welfare economics; social choice; dynamic models and uncertainty; special topics. *Prerequisite:* ECON 601. Instruction Mode: Lecture Grading Option: Letter

ECON 604 Game Theory
Units: 4 Strategies and equilibrium concepts; dynamic and repeated games; incomplete information and learning in

games. *Prerequisite:* ECON 601. Instruction Mode: Lecture Grading Option: Letter

ECON 605 Macroeconomic Theory II
Units: 4 Terms Offered: Sp Macroeconomic theory based on the concepts of optimal growth and intertemporal equilibrium; overlapping generations models; recent developments in macroeconomic theory. *Prerequisite:* ECON 601 and ECON 602. Instruction Mode: Lecture Grading Option: Letter

ECON 606 Behavioral Theories of Decision-Making
Units: 4 Examination of behavioral theories used to describe and predict choices made in both an individual decision-making setting and strategic environments. *Prerequisite:* ECON 601. Instruction Mode: Lecture Grading Option: Letter

ECON 607 Topics in Dynamic Optimization
Units: 4 Theory and numerical methods for dynamic optimization and control; selected applications in economic analysis and econometrics. *Prerequisite:* ECON 502 and knowledge of FORTRAN. Instruction Mode: Lecture Grading Option: Letter

ECON 608 Advanced Neuroeconomics
Units: 4 Terms Offered: FaSp Advanced methodology of neuroeconomics including neural activity, memory, value and reward systems, emotions and risk. Instruction Mode: Lecture Grading Option: Letter

ECON 609 Econometric Methods
Units: 4 Terms Offered: FaSp Review of statistical methods of estimation and inference, linear regression with multicollinearity and serial correlation; multivariate regression and simultaneous equations. *Prerequisite:* ECON 611. Duplicates Credit in former ECON 511. Instruction Mode: Lecture Grading Option: Letter

ECON 610 Quantitative Analysis in Macroeconomics
Units: 4 Terms Offered: Sp Dynamic economics, applied general equilibrium models, computational and calibration tools, discrete-state dynamic programming, log-linearization of Euler equations. *Prerequisite:* ECON 602, ECON 605. Instruction Mode: Lecture Grading Option: Letter

ECON 611 Probability and Statistics for Economists
Units: 4 Terms Offered: Fa Introduction to probability theory and statistical inference to prepare students for graduate courses in econometrics and economic theory; probability, random variables, distributions, estimation, testing, asymptotics. Instruction Mode: Lecture Grading Option: Letter

ECON 612 Econometric Theory
Units: 4 Inference and prediction, generalized and restricted least squares, specification analysis, multivariate and seemingly unrelated regressions, simultaneous equations techniques, dynamic models, instrumental variable estimation. *Prerequisite:* ECON 609. Instruction Mode: Lecture Grading Option: Letter

ECON 613 Economic and Financial Time Series I
Units: 4 Terms Offered: Fa Simultaneous equation models, dynamic structural econometric models, vector autoregressions, causality, forecasting, univariate and multivariate nonstationary time series, tests for unit roots, cointegration, autoregressive conditional heteroscedasticity models, time series models with changes in regime. *Prerequisite:* ECON 609. Instruction Mode: Lecture Grading Option: Letter

ECON 614 Economic and Financial Time Series II
Units: 4 Terms Offered: Sp Stock returns, predictability and volatility, random walk and variance-bounds tests, estimation of capital asset, multifactor, and derivative pricing models, term structure of interest rates. *Prerequisite:* ECON 604. Instruction Mode: Lecture Grading Option: Letter

ECON 615 Applied Econometrics
Units: 4 Terms Offered: Fa Use of quantitative models to describe and forecast economic activity; estimation and application of such models to selected policy problems. *Prerequisite:* ECON 609. Instruction Mode: Lecture Grading Option: Letter

ECON 616 Experimental Economics
Units: 4 Laboratory methods for testing economic theory; experimental comparison of alternative market and non-market institutions; identification of behavioral responses to alternative regulations. *Prerequisite:* ECON 500 or ECON 601. Instruction Mode: Lecture Grading Option: Letter

ECON 620aL Experimental Methods I
Units: 4 Terms Offered: FaSp Experimental methods of and design of computer-based experiments. Use of standard software for data collection in individual decision-making experiments and games. *Prerequisite:* ECON 601 *Recommended Preparation:* ECON 616 Instruction Mode: Lecture, Lab Required Grading Option: Credit/No Credit

ECON 620bL Experimental Methods II
Units: 4 Terms Offered: FaSp Experimental methods relying on non-choice data. Design methods of experiments that record information in decision-making and physiological data of emotions. *Prerequisite:* ECON 620aL and ECON 601 *Recommended Preparation:* ECON 616 Instruction Mode: Lecture, Lab Required Grading Option: Credit/No Credit

ECON 625 Economic Analysis of Social Networks
Units: 4 Terms Offered: FaSp Mathematical tools for the study of social and economic networks. *Prerequisite:* ECON 609 *Recommended Preparation:* ECON 615 Instruction Mode: Lecture Grading Option: Letter

ECON 634 Political Economy of Institutions
Units: 4 The functions of laws, rules, customs, conventions, and other restrictions on economic and social activity. Theories of institutional evolution. *Prerequisite:* ECON 500 or ECON 601. Duplicates Credit in former ECON 534. Instruction Mode: Lecture Grading Option: Letter

ECON 636 Health Economics I
Units: 4 Terms Offered: Fa Techniques of microeconometric analysis to inform health policy. Topics include: demand for health, medical care, and insurance, risk selection, medical innovation. *Recommended Preparation:* ECON 601, ECON 611 Duplicates Credit in former PMEP 534 Instruction Mode: Lecture Grading Option: Letter Crosslisted as PMEP 534

ECON 639 Contemporary Economic Policy: Theory and Practice
Units: 4 History and analysis of the fundamental continuing policy issues: recession, inflation, public debt, regulation, international competition, energy resources and environmental issues, welfare and income distribution. *Prerequisite:* ECON 500 and ECON 501. Instruction Mode: Lecture Grading Option: Letter

ECON 641 Empirical Analysis of Economic Development
Units: 4 Terms Offered: FaSp Theory and empirics of the sources of and barriers to economic development and the micro underpinnings of macroeconomic dynamics of growth, inequality, and productivity. *Prerequisite:* ECON 601, ECON 609. Instruction Mode: Lecture Grading Option: Letter

ECON 642 Poverty, Human Resources and Economic Development
Units: 4 Terms Offered: FaSpSm Household production models and intra-household models of behavior and their empirical implementation, focus on poverty, human resource investments and their interaction with public policies. *Prerequisite:* ECON 501, ECON 609. Instruction Mode: Lecture Grading Option: Letter

ECON 644 Economic Development Programming and Policy Planning
Units: 4 Model construction and application to policy and planning: open economy macroeconomics, trade and investment, institutions, technology, income inequality, environment, policy reforms, political economy. *Prerequisite:* ECON 501 or ECON 602; ECON 500 or ECON 601. Instruction Mode: Lecture Grading Option: Letter

ECON 645 Economic Growth
Units: 4 Terms Offered: Fa Surveys theoretical and empirical developments in growth macroeconomics. To equip students to undertake frontier research and policy work to reduce global income inequality. *Prerequisite:* ECON 602. Registration Restriction: Open only to graduate students. Instruction Mode: Lecture Grading Option: Letter

ECON 650 International Trade Theory
Units: 4 General equilibrium theory applied to theory and practice of commercial policy, economic growth, and trade. *Prerequisite:* ECON 500 or ECON 601. Instruction Mode: Lecture Grading Option: Letter

ECON 651 International Monetary Theory
Units: 4 Terms Offered: FaSp Balance of payments concepts and measures; price theory and the foreign exchange market; international monetary systems; adjustment mechanisms; speculation and official intervention. *Prerequisite:* ECON 601 Instruction Mode: Lecture Grading Option: Letter

ECON 652 Economics of Financial Markets II
Units: 4 Terms Offered: Sp Financial market equilibrium and partial equilibrium asset pricing in discrete and continuous

time; properties of equilibria with and without complete markets; theory of option prices; Black-Scholes pricing formula; term structure of interest rates; hedging strategies and managing market risk using options, futures and swaps; hedging exchange-rates risks. *Prerequisite:* ECON 601. Instruction Mode: Lecture Grading Option: Letter

ECON 653 Empirical International Economics
Units: 4 Terms Offered: FaSp Empirical treatment of advanced topics in international finance including the determination of real and nominal exchange rates; stabilization policies in developing currencies and currency crisis models. Econometric methods in analyzing foreign exchange data and in forecasting. *Recommended Preparation:* ECON 625, ECON 651 Instruction Mode: Lecture Grading Option: Letter

ECON 659 Economics of Financial Markets I
Units: 4 Terms Offered: Fa Equilibrium model of finance economy; absence of arbitrage; complete and incomplete markets; asset pricing theory; representative agent pricing. Capital Asset Pricing Model, martingale property of security prices. *Prerequisite:* ECON 601. Instruction Mode: Lecture Grading Option: Letter

ECON 661 Topics in Macroeconomics
Units: 4 Terms Offered: FaSp Current areas of research in macroeconomics: Structural Change; Inequality and Macroeconomics. *Prerequisite:* ECON 602 and ECON 605 Instruction Mode: Lecture Grading Option: Letter

ECON 663 Financial and Monetary Macroeconomics
Units: 4 Terms Offered: FaSp Macroeconomic models of financing and nominal rigidities. Focuses on the ways through which the financial system or financing constraints can affect macroeconomic fluctuations. *Prerequisite:* ECON 601 and ECON 602 and ECON 605 and ECON 611 Instruction Mode: Lecture Grading Option: Letter

ECON 671 Economics of Labor and Human Capital
Units: 4 A human capital interpretation of labor demand and supply; wage determination, differentials, and discrimination; job turnover and occupational mobility; unions and collective bargaining. *Prerequisite:* ECON 500 or ECON 601. Instruction Mode: Lecture Grading Option: Letter

ECON 673 Program Evaluation
Units: 4 This course first proposes various means of evaluating an economic program. It then applies the tools to specific problems. *Prerequisite:* ECON 500 or ECON 601; ECON 609. Instruction Mode: Lecture Grading Option: Letter

ECON 680 Industrial Organization
Units: 4 Decision making, economic behavior and organization in firms; types of competition and market structure; property rights, nonprofit decision making. *Prerequisite:* ECON 500 or ECON 601. Instruction Mode: Lecture Grading Option: Letter

ECON 681 Economics of Regulated Industries
Units: 4 Theories and methods of government regulation; effects of regulation on various industries; behavior of regulatory agencies. *Prerequisite:* ECON 500 or ECON 601. Instruction Mode: Lecture Grading Option: Letter

ECON 687 Urban Economics
Units: 4 Terms Offered: FaSp Economic models will be used to understand the main facts observed in cities in the developed and developing world. Special attention will be paid to empirical hypothesis testing and developing an urban economics research agenda. Students will be exposed to new data sets being collected using smart phones and other novel technologies that have greatly expanded our ability to test relevant hypotheses. Instruction Mode: Lecture Grading Option: Letter

ECON 688 Empirical Industrial Organization
Units: 4 Econometric analysis of industrial organization issues including industry regulation and deregulation, collusions and pricing in differentiated oligopolistic markets, entry and exit, auction mechanisms, contractual relationships. *Prerequisite:* ECON 601, ECON 603; *Recommended Preparation:* ECON 600, ECON 603, ECON 612, ECON 615, ECON 680. Instruction Mode: Lecture Grading Option: Letter

ECON 690 Seminar in Economic Theory
Units: 2 Max Units: 8.0 Terms Offered: FaSp Current research in economic theory presented by faculty, students and outside scholars. Instruction Mode: Lecture Grading Option: Credit/No Credit

ECON 691 Seminar in Econometrics
Units: 2 Max Units: 8.0 Terms Offered: FaSp Current research in econometrics presented by faculty, students and outside scholars. Instruction Mode: Lecture Grading Option: Credit/No Credit

ECON 692 Seminar in Economic Development
Units: 2 Max Units: 8.0 Terms Offered: FaSp Current research in international, regional, and urban development economics presented by faculty, students and outside scholars. Instruction Mode: Lecture Grading Option: Credit/No Credit

ECON 693 Seminar in Applied Economics and Public Policy
Units: 2 Max Units: 8.0 Terms Offered: FaSp Current research in applied microeconomics, macroeconomics and public policy presented by faculty, students and outside scholars. Instruction Mode: Lecture Grading Option: Credit/No Credit

ECON 694 Seminar in Dynamic Economics
Units: 2 Max Units: 8.0 Terms Offered: FaSp Topics in dynamic economics involving business fluctuations, economic growth and development, micro-economic adjustments and market mechanisms; related quantitative and qualitative methods; empirical research involving economic change. Instruction Mode: Lecture Grading Option: Credit/No Credit

ECON 695 Internship in Mathematical Finance
Units: 4 Terms Offered: Sm Internship for students in the Mathematical Finance master's program. Practical training in real market environments. Real-world first-hand experience in implementing trading strategies. Application of mathematical finance to real financial markets. Instruction Mode: Lecture Grading Option: Letter

ECON 696 Empirical Microeconomics Seminar
Units: 2 Max Units: 8.0 Terms Offered: FaSp Presentations on current research in empirical microeconomics by outstanding scholars from leading economics departments and faculty at USC. Registration Restriction: Open only to Economics Ph.D. students. Instruction Mode: Lecture Grading Option: Credit/No Credit

ECON 700 Research on Frontier Economics
Units: 2 Max Units: 08 Terms Offered: FaSpSm Examination of various frontier research topics of economics through critical discussions of research papers that study the most recent economic research agendas. Instruction Mode: Lecture Grading Option: Letter

ECON 715 Advanced Topics in Econometrics
Units: 4 Time-series methods; aggregation; structural models and methods such as factor analysis and multiple indicator models; various special topics. *Prerequisite:* ECON 612 and ECON 613. Instruction Mode: Lecture Grading Option: Letter

ECON 790 Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Terms Offered: FaSpSm Research leading to the doctorate. Maximum units which may be applied to the degree to be determined by the department. Instruction Mode: Lecture Grading Option: Credit/No Credit

ECON 794a Doctoral Dissertation
Units: 2 Terms Offered: FaSpSm Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

ECON 794b Doctoral Dissertation
Units: 2 Terms Offered: FaSpSm Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

ECON 794c Doctoral Dissertation
Units: 2 Terms Offered: FaSpSm Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

ECON 794d Doctoral Dissertation
Units: 2 Terms Offered: FaSpSm Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

ECON 794z Doctoral Dissertation
Units: 0 Terms Offered: FaSpSm Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

Education Counseling

EDCO 030x The Process of Paraprofessional Counseling for Young Adults
Units: 2 Terms Offered: Sp Explores the theoretical processes involved in paraprofessional counseling with specific application to issues faced by young adults. Instruction Mode: Lecture Grading Option: Credit/No Credit

EDCO 324m Asian American Psychology
Units: 4 Terms Offered: Sp Psychological issues of Asian Americans such as cultural identity, intergenerational conflict, stereotypes, interracial dating and marriage, educational achievement, and mental health. Instruction Mode: Lecture Grading Option: Letter

EDCO 503 Ethical and Legal Issues in Counseling
Units: 3 Terms Offered: Sp Examination of current legal, ethical, and other professional issues in the practice of counseling and psychotherapy. *Prerequisite:* EDUC 500. Instruction Mode: Lecture Grading Option: Letter

EDCO 504 Behavior Management in the Classroom
Units: 3 Terms Offered: Sp Analysis of student behavior in school settings. Emphasis is on a problem-solving functional approach to behavioral changes. Instruction Mode: Lecture Grading Option: Letter

EDCO 505 Counseling and Collaborative Consultation in the School Setting
Units: 3 Terms Offered: Sp Theory and practice of collaborative consultations provided by school counselors and school psychologists to improve student achievement and the learning environment. Duplicates Credit in EDUC 540 Instruction Mode: Lecture Grading Option: Letter

EDCO 506 Development, Administration and Evaluation of Pupil Personnel Services
Units: 3 Terms Offered: Fa Develop skills in the evaluation and management of pupil personnel services programs in the public schools for comprehensive support of student learning and achievement. Instruction Mode: Lecture Grading Option: Letter

EDCO 541 Theories in Counseling
Units: 3 Terms Offered: FaSp Theory, research, and practice of psychological counseling. *Corequisite:* EDUC 500. Instruction Mode: Lecture Grading Option: Letter

EDCO 574 School Counseling Practicum
Units: 1, 2 Max Units: 2.0 Terms Offered: FaSpSm Supervised practice in school counseling. *Prerequisite:* EDCO 503, EDCO 541. Instruction Mode: Lecture Grading Option: Credit/No Credit

EDCO 575 School Counseling Field Experience
Units: 1, 2, 3, 4 Max Units: 4.0 Terms Offered: FaSpSm Supervised field experience in applying knowledge and skills within a K–12 school setting. *Prerequisite:* EDCO 574. Instruction Mode: Lecture Grading Option: Credit/No Credit

Higher and Postsecondary Education

EDHP 500 Foundations of Higher, Adult, and Professional Education
Units: 3 Terms Offered: Fa Contemporary issues in higher, adult, and professional education in the United States; analytic perspectives from various disciplines (history, philosophy, sociology); implications for policy and practice. Instruction Mode: Lecture Grading Option: Letter

EDHP 502 Administration of Higher, Adult, and Professional Education
Units: 3 Terms Offered: Sp Policies and theories for governance and management. Relations between historical and contemporary organizational processes in postsecondary education. Critique and applications of current research. Instruction Mode: Lecture Grading Option: Letter

EDHP 503 Curriculum, Teaching, and Learning in Higher, Adult, and Professional Education
Units: 3 Terms Offered: Sp Curriculum, teaching, and learning strategies for general, vocational, and professional education; planning for lifelong learning; theories, policies, and practices for higher, adult, and professional education. Instruction Mode: Lecture Grading Option: Letter

EDHP 552 The Politics of Difference
Units: 3 Explores strategies for restructuring institutions of higher education to improve student support and achievement among historically marginalized groups. Duplicates Credit in EDUE 560 Instruction Mode: Lecture Grading Option: Letter

EDHP 560 Feminist Theory
Units: 4 Terms Offered: FaSpSm (Enroll in SWMS 560)

EDHP 565 Intervention Strategies in College Student Development
Units: 3 Terms Offered: Sp Exploration of current campus issues such as violence, diversity and academic remediation, and their related intervention strategies (policy-based, programmatic, and counseling-based). Instruction Mode: Lecture Grading Option: Letter

EDHP 580 The Community College
Units: 3 Terms Offered: SpSm The community college movement; history; aims; curriculum; types of administrative organization; teaching procedures; relation to lower and higher institutions; profiles of faculty and students; evaluation. Instruction Mode: Lecture Grading Option: Letter

EDHP 587 Fieldwork in Higher, Adult, and Professional Education
Units: 1, 2, 3, 4, 5, 6, 7, 8 Max Units: 8.0 Terms Offered: FaSpSm Structured participation in supervised teaching or administrative activities. Assignments matched with student's goals, training, experience. *Recommended Preparation:* EDHP 563, EDHP 565. Instruction Mode: Lecture Grading Option: Credit/No Credit

EDHP 593a Master's Seminar
Units: 2 Terms Offered: FaSpSm An examination and analysis of research and literature in the student's area of focus. Required for all master's candidates who do not enroll in the Master's Thesis (EDHP 594a, EDHP 594b, EDHP 594z). Instruction Mode: Lecture Grading Option: Credit/No Credit

EDHP 593b Master's Seminar
Units: 2 Terms Offered: FaSpSm An examination and analysis of research and literature in the student's area of focus. Required for all master's candidates who do not enroll in the Master's Thesis (EDHP 594a, EDHP 594b, EDHP 594z). Instruction Mode: Lecture Grading Option: Credit/No Credit

EDHP 594a Master's Thesis
Units: 2 Terms Offered: FaSpSm Required for all master's candidates who do not enroll in the Master's Seminar (EDHP 593a, EDHP 593b). Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

EDHP 594b Master's Thesis
Units: 2 Terms Offered: FaSpSm Required for all master's candidates who do not enroll in the Master's Seminar (EDHP 593a, EDHP 593b). Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

EDHP 594z Master's Thesis
Units: 0 Terms Offered: FaSpSm Required for all master's candidates who do not enroll in the Master's Seminar (EDHP 593a, EDHP 593b). Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

EDHP 657 Leadership and Management in Student Affairs
Units: 3 Terms Offered: Sp Delivery of student services and programs in higher education, organizational behavior, management systems, administrative procedures, and alternative leadership styles. Registration Restriction: Open only to USC Rossier School of Education PASA students Instruction Mode: Lecture Grading Option: Letter

EDHP 679 Legal Issues in the Administration of Higher Education
Units: 3 Terms Offered: Sm Analysis of legal issues related to the administration of higher education; emphasis on relations with students, faculty, staff, alumni, and campus communities. *Prerequisite:* EDHP 500 or appropriate experience. Instruction Mode: Lecture Grading Option: Letter

EDHP 687 Student Development in Higher Education
Units: 3 Terms Offered: Sp Theories of college student development and application of developmental models to program design, interventions, outreach, and research programs. Instruction Mode: Lecture Grading Option: Letter

Educational Policy, Planning and Administration

EDPA 308 Politics and American Education
Units: 4 Terms Offered: FaSp Historical study of political, legislative, judicial decisions that have shaped American education; interaction of educators, courts, legislative bodies; emphasis on in-depth analysis of current issues. Instruction Mode: Lecture Grading Option: Letter

EDPA 612 Qualitative Methods in Educational Research
Units: 3 Terms Offered: SpSm Overview of the assumptions, methods and techniques of qualitative educational research; discussion and application of analytical tools derived from anthropology, sociology, history, and related social sciences. Instruction Mode: Lecture Grading Option: Letter

Educational Psychology and Technology

EDPT 310 Parental Influences on Children's Educational Development
Units: 4 Terms Offered: FaSp Basic principles and theories of child development and learning with emphasis on parent-child, parent-school, and child-school relationships. Instruction Mode: Lecture Grading Option: Letter

EDPT 502 Learning and Individual Differences
Units: 3 Terms Offered: FaSpSm Theory and research in learning, development, and individual differences, and social psychology related to education or training contexts. Instruction Mode: Lecture Grading Option: Letter

EDPT 540 Introduction to Educational Measurement and Evaluation
Units: 3 Terms Offered: FaSp Survey of theories, concepts, and procedures for assessing intellective and non-intellective characteristics and for evaluating individual and program performances. Instruction Mode: Lecture Grading Option: Letter

EDPT 550 Statistical Inference
Units: 3 Terms Offered: FaSpSm Application of statistical techniques in education; emphasis on underlying principles and concepts coupled with selected inferential techniques using desk-top computer software. Instruction Mode: Lecture Grading Option: Letter

EDPT 570 Language and Cultural Diversity in Learning
Units: 3 Terms Offered: Fa Analysis of current research and theory regarding the influences of language and culture on learning and cognition, with a special focus on academic achievement and instructional transactions. Instruction Mode: Lecture Grading Option: Letter

EDPT 576 Technology in Contemporary Education and Training
Units: 3 Terms Offered: FaSp Development and scope of instructional technology and its role in modern educational and training systems; overview of instructional development; innovation and trends in the field. Instruction Mode: Lecture Grading Option: Letter

EDPT 642 Measurement Theory
Units: 3 Terms Offered: Fa Mathematical concepts and psychometric theory underlying test construction and interpretation; emphasis on current research in the area. *Prerequisite:* EDPT 652. Instruction Mode: Lecture Grading Option: Letter

EDPT 652 Multiple Regression
Units: 3 Terms Offered: Sp Applied multiple regression analysis using Stata. *Recommended Preparation:* Introductory Statistics Instruction Mode: Lecture Grading Option: Letter

EDPT 654 Multivariate Statistical Techniques
Units: 3 Terms Offered: FaSpSm Multivariate statistical procedures in the analysis of behavioral inquiries; particular emphasis on multivariate analysis of variance. *Prerequisite:* EDPT 652. Instruction Mode: Lecture Grading Option: Letter

EDPT 655 Advanced Research Methods in Education
Units: 3 Terms Offered: Sp Focuses on principles of research design in education including literature synthesis, formulation of research problem and questions, selection of methodology and integration of research proposal. *Prerequisite:* EDPT 550. Instruction Mode: Lecture Grading Option: Letter

Education

EDUC 140m Mind, Belief and Behavior: Learning in a Diverse World
Units: 4 Terms Offered: FaSpSm Examination of current research about learning and motivation in the context of human diversity. Instruction Mode: Lecture Grading Option: Letter

EDUC 200 Introduction to the Teaching Profession
Units: 2 Identification and discussion of current issues and trends in schools and the teaching profession. Introduction to the development of a professional portfolio. Instruction Mode: Lecture Grading Option: Letter

EDUC 204L Sociological Foundations of Education
Units: 3 Terms Offered: FaSp Introduction to the sociological foundations of education through focused study of schools, teacher-student relations, and classroom processes as they relate to social stratification. Instruction Mode: Lecture, Lab Required Grading Option: Letter

EDUC 205L Child Development and Learning in Schools
Units: 3 Terms Offered: FaSp Introduction to processes of development and learning in school aged children, with an emphasis on school contexts. Instruction Mode: Lecture, Lab Required Grading Option: Letter

EDUC 392 Undergraduate Research Methods
Units: 2 Terms Offered: Sp (Enroll in AMST 392)

EDUC 409 Foundations of Language Education
Units: 3 Terms Offered: FaSp Overview of research and current theories in bilingual, second language, and foreign language instruction. Instruction Mode: Lecture Grading Option: Letter

EDUC 410 The Teaching of Reading and Writing
Units: 4 Terms Offered: FaSp Analysis of reading/writing processes; methods/materials for teaching literacy in elementary schools; issues in biliteracy and instruction; classroom observation/participation in small-group instruction. Admission to the major. Instruction Mode: Lecture Grading Option: Letter

EDUC 411 Sociopolitical and Raciolinguistic Contexts of Language
Units: 4 Terms Offered: FaSp Systematic study of effective policies and practices of multilingual and multicultural education based upon raciolinguistic and sociopolitical understandings of second language learning. Instruction Mode: Lecture, Lab Grading Option: Letter

EDUC 412 Linguistically and Culturally Sustaining Teaching
Units: 4 Terms Offered: FaSp Introduction to critical multilingual pedagogy for equitable, inclusive and effective language learning lesson design. Instruction Mode: Lecture, Lab Grading Option: Letter

EDUC 413 Methods and Models of Instruction for Language Minority Students
Units: 2 Terms Offered: FaSp Curriculum materials and teaching strategies for use in successfully teaching language minority students in both elementary and secondary schools. Instruction Mode: Lecture Grading Option: Letter

EDUC 415 Content to Pedagogy: Mathematics in the Elementary School
Units: 2 Terms Offered: FaSp Bridging college level mathematics content and elementary school curricula to design developmentally appropriate mathematics instruction. *Concurrent Enrollment: Concurrent enrollment:* EDUC 424a or EDUC 424b. Instruction Mode: Lecture Grading Option: Letter

EDUC 416 Content to Pedagogy: Art in the Elementary School
Units: 2 Terms Offered: Sp Transformation of content in art to curriculum in the elementary classroom. *Corequisite:* EDUC 424b. Instruction Mode: Lecture Grading Option: Letter

EDUC 417 Content to Pedagogy: From Science Content to Science Curriculum
Units: 2 Terms Offered: FaSp An overview of the goals and content of science instruction at the elementary level coupled with appropriate science curricular and pedagogical models. *Concurrent Enrollment: Concurrent enrollment:* EDUC 424a or EDUC 424b. Instruction Mode: Lecture Grading Option: Letter

EDUC 418 Content to Pedagogy: From Social Sciences to Social Studies
Units: 2 Terms Offered: FaSp Content, concepts, methods, and values for integrating the social sciences in the social studies. *Concurrent Enrollment: Concurrent enrollment:* EDUC 424a or EDUC 424b. Instruction Mode: Lecture Grading Option: Letter

EDUC 419 Content to Pedagogy: P.E. for Elementary Students
Units: 2 Terms Offered: Sp Transformation of content in Physical Education to curriculum in the elementary classroom. *Corequisite:* EDUC 424b. Instruction Mode: Lecture Grading Option: Letter

EDUC 420 Technology, Media and Culturally Sustaining Education
Units: 4 Terms Offered: FaSp Select, create and use multimedia and technology to plan for more effective and equitable learning in schools, communities and organizations. *Recommended Preparation:* EDUC 411 Duplicates Credit in EDUC 435 Instruction Mode: Lecture Grading Option: Letter

EDUC 421 Global Issues: Impact on Educational Outcomes
Units: 4 Terms Offered: FaSpSm Situates U.S. education within the global context and examines the impact of global issues on national and international schooling in the 21st Century. Instruction Mode: Lecture Grading Option: Letter

EDUC 422 Education for Social Change
Units: 4 Terms Offered: FaSp Examines access to schooling and quality education across student difference indexed by race, class and gender. Promotes understanding of U.S. public schooling for equitable outcomes. Duplicates Credit in EDUC 435 Instruction Mode: Lecture Grading Option: Letter

EDUC 423 Unrealized Promise and Hope for Education in 21st Century
Units: 4 Terms Offered: FaSpSm Investigates the promise of education and often-failed outcomes though the lens of literacy/language. Focuses on literacy to promote student agency for successful educational attainment. *Recommended Preparation:* Freshman Seminar on a topic in education Instruction Mode: Lecture Grading Option: Letter

EDUC 424a Curriculum and Methods in Elementary Education
Units: 2 Terms Offered: FaSp Curriculum materials and teaching procedures in the elementary school. *Concurrent Enrollment:* concurrent enrollment: EDUC 425a. Instruction Mode: Lecture Grading Option: Letter

EDUC 424b Curriculum and Methods in Elementary Education
Units: 2 Terms Offered: FaSp Curriculum materials and teaching procedures in the elementary school. *Concurrent Enrollment:* concurrent enrollment: EDUC 425b. Instruction Mode: Lecture Grading Option: Letter

EDUC 425a Observation and Directed Teaching in Elementary Schools
Units: 3 Terms Offered: FaSp Observation and experience in teaching under supervision in elementary schools (one semester at the kindergarten-primary level and one semester in the intermediate or upper grades). *Concurrent Enrollment:* Concurrent enrollment: EDUC 424a. Instruction Mode: Lecture Grading Option: Letter

EDUC 425b Observation and Directed Teaching in Elementary Schools
Units: 3 Terms Offered: FaSp Observation and experience in teaching under supervision in elementary schools (one semester at the kindergarten-primary level and one semester in the intermediate or upper grades). *Concurrent Enrollment:* Concurrent enrollment: EDUC 424b. Instruction Mode: Lecture Grading Option: Letter

EDUC 426 Educational Inquiry
Units: 4 Terms Offered: FaSp Introduction to the skills and knowledge required to be competent consumers and producers of education research. Students will be asked to design an educational study. Instruction Mode: Lecture Grading Option: Letter

EDUC 427 Vectors that Influence Early Childhood Development
Units: 4 Terms Offered: FaSp Investigating early childhood issues from professional perspectives: historian, journalist, premedical, and law. Instruction Mode: Lecture Grading Option: Letter

EDUC 428 The Effects of Curriculum and Institution on Early Childhood
Units: 4 Terms Offered: FaSp The study of research, philosophy, and pedagogy that informs political, parents, community members, schools and their curriculum. Duplicates Credit in EDUC 435 Instruction Mode: Lecture, Lab Grading Option: Letter

EDUC 429 Early Childhood and Contemporary Society
Units: 4 Terms Offered: FaSp Consequences of "corporate world" on developing expectations of young children as consumers and scholars, an emphasis on films, television, and toys that effect intellectual growth. Instruction Mode: Lecture Grading Option: Letter

EDUC 430 Early Childhood: Action Research Focus
Units: 4 Terms Offered: FaSp Selecting an instructional or developmental problem of young children to investigate through an action research design. Instruction Mode: Lecture Grading Option: Letter

EDUC 431 Education Policy in the United States
Units: 4 Terms Offered: Sp Analysis of key issues in education policy. Understanding the policymaking process, including policy design, implementation and analysis. Instruction Mode: Lecture Grading Option: Letter

EDUC 432 Inequality in Education
Units: 4 Terms Offered: Fa Exploration of the role of education in causing or ameliorating opportunity gaps. Social stratification and its effects. Instruction Mode: Lecture Grading Option: Letter

EDUC 433 Elementary Mathematics for Teaching
Units: 4 Terms Offered: FaSpSm Dissection of elementary mathematics curriculum in order to gain the deep understanding of an effective teacher. Registration Restriction: Open only to juniors and seniors Instruction Mode: Lecture Grading Option: Letter

EDUC 434 Secondary Mathematics for Teaching
Units: 4 Terms Offered: FaSpSm Dissect secondary mathematics curriculum to gain a deep understanding needed to be an effective teacher. *Prerequisite:* MATH 226g Instruction Mode: Lecture Grading Option: Letter

EDUC 435 Education and Society
Units: 4 Terms Offered: FaSp Examine relationship between education and society; identify intractable issues denying access to quality education by race, class and gender. Duplicates Credit in EDUC 422, EDUC 420, EDUC 428 Instruction Mode: Lecture Grading Option: Letter

EDUC 436 Applications of Mathematics Curriculum and Pedagogy
Units: 4 Terms Offered: FaSpSm Explore the integration of curriculum, teaching in urban school communities. Instruction Mode: Lecture Grading Option: Letter

EDUC 437 Research in Teaching and Learning Mathematics
Units: 4 Terms Offered: FaSpSm Addressing the basic designs, with emphasis on the characteristics of research, in learning and teaching mathematics education and their impacts on curricula, instruction and learning. Instruction Mode: Lecture Grading Option: Letter

EDUC 438 Truth in Mathematics
Units: 4 Terms Offered: FaSpSm Addresses the needs for mathematical arguments and proofs in learning and teaching mathematics. Instruction Mode: Lecture Grading Option: Letter

EDUC 490x Directed Research
Units: 1, 2, 3, 4, 5, 6, 7, 8 Max Units: 12.0 Terms Offered: FaSpSm Individual research and readings. Instruction Mode: Lecture Grading Option: Letter

EDUC 499 Special Topics
Units: 2, 3, 4 Max Units: 8.0 Terms Offered: FaSp Seminar in selected topics in education. Specific topics to be determined at the time seminar is offered. Instruction Mode: Lecture Grading Option: Letter

EDUC 500 The Counseling Process
Units: 3 Theoretical foundations, models, values, and assumptions underlying psychological counseling; cross-cultural perspectives, ethical and legal considerations. *Concurrent Enrollment:* Concurrent enrollment: EDUC 507. Duplicates Credit in former EDCO 500. Instruction Mode: Lecture Grading Option: Letter

EDUC 503 Learning and Motivation
Units: 3 Terms Offered: FaSpSm Design and advancement of learning and motivation outcomes in various environments through a systematic examination and application of current research. Instruction Mode: Lecture Grading Option: Letter

EDUC 507 Professional Identity, Law and Ethics for Counselors
Units: 3 History of the field of counseling and professional identity development for counselors are addressed. Examination of current legal, ethical, and other professional issues in counseling. *Concurrent Enrollment:* Concurrent enrollment: EDUC 500. Instruction Mode: Lecture Grading Option: Letter

EDUC 508 Interrogating Systems of Inequity in Professional Practice
Units: 2 Terms Offered: FaSpSm Framing the graduate experience for master's students. Examining self and field of professional practice in the context of achieving equity. Instruction Mode: Lecture Grading Option: Letter

EDUC 510 Theories of Language Learning and Teaching
Units: 3 Terms Offered: FaSpSm Application of learning theories to the design of second language instruction and student assessment to promote motivation, investment, self-regulation and engagement among language learners. Registration Restriction: Open only to majors in Teaching English to Speakers of Other Languages Instruction Mode: Lecture Grading Option: Letter

EDUC 511 Introduction to Counseling
Units: 3 Terms Offered: Fa The role of the school counselor. An overview of key elements in increasing access to and equity for primary and secondary education for all

students. Instruction Mode: Lecture Grading Option: Letter

EDUC 512 Reading and Writing Methods for Secondary Teaching
Units: 2 Terms Offered: Fa Analysis of reading/writing processes; methods for teaching literacy in grades 9–12; issues in biliteracy and instruction. Instruction Mode: Lecture Grading Option: Letter

EDUC 514 School Counseling Seminar
Units: 3 Terms Offered: Sp Current issues and problems in school counseling; emphasis is on K–12 learning and achievement. Instruction Mode: Lecture Grading Option: Letter

EDUC 515 Theories of Marriage and Family Therapy
Units: 3 Major psychotherapeutic orientations relating to family systems, marital relationships, and communications theory applied to the family unit. *Prerequisite:* EDUC 500, EDUC 507, EDCO 541. Instruction Mode: Lecture Grading Option: Letter

EDUC 520 Career and College Readiness Counseling
Units: 3 Terms Offered: FaSpSm Theoretical foundations of individual and systemic characteristics that impact college and career choices. Consideration of economic, political, social and policy issues. Registration Restriction: Registration is restricted to USC Rossier School of Education Master students in the School Counseling Program Duplicates Credit in EDUC 600 Instruction Mode: Lecture Grading Option: Letter

EDUC 521 Assessment and Instruction for Diverse Language Learners
Units: 3 Terms Offered: FaSpSm Assessment practices and strategies in English language instruction with special attention to learner differences (social, cultural, physical, intellectual) that influence academic performance. Open only to MAT TESOL and TESOL (online) students. Registration Restriction: Open only to Teaching English to Speakers of Other Languages and Teaching English to Speakers of Other Languages (online). Instruction Mode: Lecture Grading Option: Letter

EDUC 522 Challenges in Urban Education: Accountability
Units: 3 Terms Offered: Sp Issues related to accountability theory and practice in urban education settings. Open only to EdD students. Registration Restriction: Open only to Ed.D. students. Instruction Mode: Lecture Grading Option: Letter

EDUC 523 Challenges in Urban Education: Diversity
Units: 3 Terms Offered: Fa Diversity issues in urban educational settings. Open only to EdD students. Registration Restriction: Open only to Ed.D. students. Instruction Mode: Lecture Grading Option: Letter

EDUC 524 Challenges in Urban Education: Leadership
Units: 3 Terms Offered: Sp Theories, principles, and concepts of leadership in urban K–12 schools and institutions of higher education. Open only to EdD students. Registration Restriction: Open only to Ed.D. students. Instruction Mode: Lecture Grading Option: Letter

EDUC 525 Challenges in Urban Education: Learning
Units: 3 Terms Offered: Fa Theory and research in learning, motivation, and instruction for diverse educational settings. Open only to EdD students. Registration Restriction: Open only to Ed.D. students. Instruction Mode: Lecture Grading Option: Letter

EDUC 526 Language Teaching: Planning and Instruction
Units: 3 Terms Offered: FaSp Introduces a broad range of theories that inform and underpin second language learning and teaching, their critical review and applications for designing of classroom learning and teaching experiences. Registration Restriction: Open only to Rossier School of Education master's students Instruction Mode: Lecture Grading Option: Letter

EDUC 527 Assessment in the Language Classroom
Units: 2 Terms Offered: Sm Introduces students to relevant research in language assessment, reviews concepts of reliability and validity and examines assessment practices in the classroom. Instruction Mode: Lecture Grading Option: Letter

EDUC 528 Course Proposal Project
Units: 2 Terms Offered: Sm Using a framework of course development, students present a course proposal, linking the theoretical, methodological and practical principles gained from all course work in the program. Instruction Mode: Lecture Grading Option: Letter

EDUC 529 Political and Academic Issues Affecting Gifted Students
Units: 3 Terms Offered: FaSpSm Examination of the political and academic issues affecting gifted and high-ability students. Psychosocial reasons contributing to achievement and underachievement. Institutional and personal factors inhibiting potential. Open only to MAT students. Instruction Mode: Lecture Grading Option: Letter

EDUC 530 Differentiated Curriculum and Pedagogy for Gifted Students
Units: 3 Terms Offered: FaSpSm Recognizing the talent and potential of gifted and high ability students. How gifted education can be generalized to affect the education of all students. Open only to MAT students. Instruction Mode: Lecture Grading Option: Letter

EDUC 531 Student Disability Issues in Higher Education
Units: 3 Terms Offered: Fa History of the disability movement; current research on the success of students with disabilities in higher education; legal and management issues. Instruction Mode: Lecture Grading Option: Letter

EDUC 532 Inquiry Methods I
Units: 3 Terms Offered: Sp Logic and methods of quantitative data analysis in the examination of educational issues and the framing of solutions for them. Open only to EdD students. Instruction Mode: Lecture Grading Option: Letter

EDUC 533 School Leadership: Theory and Practice
Units: 3 Terms Offered: Fa Theories and principles of leadership and the application of principles to solve authentic problems in elementary and secondary schools. Instruction Mode: Lecture Grading Option: Letter

EDUC 535 Teaching Secondary English and Language Arts
Units: 4 Terms Offered: FaSpSm Instructional procedures, techniques, strategies, and resources for teaching English in secondary classrooms. Open only to MAT students. Instruction Mode: Lecture Grading Option: Letter

EDUC 536 Inquiry Methods II
Units: 3 Terms Offered: Sp Logic and methods of qualitative data analysis in the examination of educational issues and the framing of solutions for them. Open only to EdD students. Instruction Mode: Lecture Grading Option: Letter

EDUC 537 Leading with the Community and Culture in Context
Units: 3 Terms Offered: Sp Creating a positive culture of learning to promote student success. Strategies to engage diverse communities. Instruction Mode: Lecture Grading Option: Letter

EDUC 538 Entrepreneurial School Leadership
Units: 2 Terms Offered: Fa Entrepreneurial opportunities in education. Developing the skills and knowledge for entrepreneurial leadership to improve educational outcomes. Instruction Mode: Lecture Grading Option: Letter

EDUC 539 Teaching Secondary Science
Units: 4 Terms Offered: FaSpSm Instructional procedures, techniques, strategies, and resources for teaching science in secondary classrooms. Open only to MAT students. Instruction Mode: Lecture Grading Option: Letter

EDUC 540 Assessment in Counseling
Units: 3 Terms Offered: FaSpSm Understand educational and psychological instruments, psychometric concepts and rationale for the use of instruments in the school counseling setting. Registration Restriction: Registration is restricted to USC Rossier School of Education Duplicates Credit in EDCO 505 Instruction Mode: Lecture Grading Option: Letter

EDUC 542 Substance Abuse Counseling
Units: 3 Terms Offered: FaSpSm Focus on theoretical models of substance abuse counseling and understanding the role of assessment, treatment, medical and psychological complications, family and recovery. Instruction Mode: Lecture Grading Option: Letter

EDUC 543 Family Counseling
Units: 3 Terms Offered: FaSpSm Master family counseling approaches, systemic models of K-12 family functioning and therapeutic interventions to work with families of diverse backgrounds. Instruction Mode: Lecture Grading Option: Letter

EDUC 544 Psychological Assessment
Units: 3 Utilizing a wide range of clinical assessment tools with cultural sensitivity to achieve a comprehensive patient profile to guide the therapeutic process. Duplicates Credit in former EDCO 544 Instruction Mode: Lecture Grading Option: Letter

EDUC 545 Teaching Secondary Mathematics
Units: 4 Terms Offered: FaSpSm

Instructional procedures, techniques, strategies, and resources for teaching mathematics in secondary classrooms. Open only to MAT students. Instruction Mode: Lecture Grading Option: Letter

EDUC 546 Psychopathology for Marriage and Family Therapy
Units: 3 Theories of psychological impairment emphasizing diagnosis of child and family dysfunction. Practice in utilizing DSM-IV classification of case studies. Duplicates Credit in former EDCO 546. Instruction Mode: Lecture Grading Option: Letter

EDUC 547 Career Development: Theory and Process
Units: 3 Theories and process of career development; principles of career and leisure planning and counseling applicable throughout life. Duplicates Credit in former EDCO 548. Instruction Mode: Lecture Grading Option: Letter

EDUC 548 Data-Driven Leadership for Schools
Units: 3 Terms Offered: Sm Analyzing, interpreting, and using data to increase effectiveness of instruction and programs, improve student learning, and reduce or eliminate the achievement gap. Instruction Mode: Lecture Grading Option: Letter

EDUC 549 Supervising Instruction for Optimal Learning
Units: 3 Terms Offered: Sm Application of adult learning theory to evaluate instruction. Appropriate professional development to improve student achievement. Instruction Mode: Lecture Grading Option: Letter

EDUC 552 Literacies in the Content Area
Units: 3 Terms Offered: FaSpSm Literacy and language within content areas. Developing reading, writing, speaking and listening skills for real audiences. Academic language. Instruction Mode: Lecture Grading Option: Letter

EDUC 553 Psychopharmacology and the Effects of Substance Abuse
Units: 3 Terms Offered: Sp Focus on the effects of psychotropic medication, alcohol, and other substances on behavior. The professional and ethical issues for marriage and family therapists. Instruction Mode: Lecture Grading Option: Letter

EDUC 555 STEM Education in Secondary Classrooms
Units: 3 Terms Offered: FaSpSm Developing innovative practices in designing inquiry-based lesson plans to facilitate integrating the STEM disciplines as a foundation for teaching. Instruction Mode: Lecture Grading Option: Letter

EDUC 557 Civics Education
Units: 3 Terms Offered: FaSpSm Uses of pedagogical practices for increasing student engagement in the study of history and civics. Becoming critical thinkers, problem solvers, and effective citizens. Instruction Mode: Lecture Grading Option: Letter

EDUC 558 Culture Learning in Schools: Latino
Units: 3 History, values, beliefs, and the demography of Spanish-speaking people; implications for the American classroom. Conducted in English. No previous knowledge of Latino culture is needed. Registration Restriction: Open only to USC Rossier School of Education students

Instruction Mode: Lecture Grading Option: Letter

EDUC 559 Discourse Analysis and Technology in STEM Classrooms
Units: 3 Terms Offered: FaSpSm Using multiple assessment strategies and technology to assess mathematical and scientific thinking and performance. Instruction Mode: Lecture Grading Option: Letter

EDUC 560 Primary Language Instruction in a Bilingual Setting
Units: 3 Terms Offered: Fa Bilingual programs, their goals, personnel, teaching methods, and materials. Instruction Mode: Lecture Grading Option: Letter

EDUC 561 TESOL Instruction and Methods of Teaching A
Units: 3 Overview of approaches and methods in TESOL, topics include curriculum and lesson planning, lesson sequencing and delivery and methods for teaching reading, writing, speaking and listening. Registration Restriction: Open only to majors in Teaching English to Speakers of Other Languages. Instruction Mode: Lecture Grading Option: Letter

EDUC 562 Teaching English to Speakers of Other Languages Pedagogy II
Units: 3 Introduction to microcomponents of effective teaching, including curriculum and lesson planning, lesson sequencing and delivery, and creating a classroom environment conducive to English language learning. Instruction Mode: Lecture Grading Option: Letter

EDUC 563 Teaching from a Comparative and International Perspective
Units: 3 Terms Offered: FaSpSm Examines the social context of schooling from a comparative and international perspective, connections between cultural beliefs and societal values; issues of social stratification and marginalization. Instruction Mode: Lecture Grading Option: Letter

EDUC 564 Teacher Leadership
Units: 2 Terms Offered: FaSpSm Strategies of leadership that lead from influencing learning in the classroom to influencing learning across an entire school. Becoming an instructional leader. Instruction Mode: Lecture Grading Option: Letter

EDUC 567 English and Language Arts in Elementary Social Studies
Units: 4 Terms Offered: FaSpSm Integrating English and language arts development with learning in elementary social studies classrooms. Factors affecting the teaching and learning of social studies and language arts. Open only to MAT students. Instruction Mode: Lecture Grading Option: Letter

EDUC 569a Capstone Portfolio in Learning and Instruction
Units: 2 The culminating experience in the Master of Arts in Teaching Program for students in the non-credential track. Open only to MAT students. Duplicates Credit in former EDUC 569. Instruction Mode: Lecture Grading Option: Letter

EDUC 569b Capstone Portfolio in Learning and Instruction
Units: 2 The culminating experience in the Master of Arts in Teaching Program for students in the non-credential track. Open only to MAT students. Duplicates Credit in former EDUC 569. Instruction Mode: Lecture Grading Option: Letter

EDUC 570 Research Methods and Data Analysis
Units: 3 Terms Offered: FaSpSm Various research designs and their appropriateness for addressing different research questions. Threats to validity and other challenges in research. Basic statistical methods and their use. *Recommended Preparation:* beginning statistics course. Instruction Mode: Lecture Grading Option: Letter

EDUC 572a Teaching in an International and Intercultural Context
Units: 2 Terms Offered: Fa Examines social context of education from an international and intercultural perspective, linkages between societal values, culture, and schooling, and implications for the role of teachers. Instruction Mode: Lecture Grading Option: Letter

EDUC 572b Teaching in an International and Intercultural Context
Units: 2 Terms Offered: Fa Examines social context of education from an international and intercultural perspective, linkages between societal values, culture, and schooling, and implications for the role of teachers. Instruction Mode: Lecture Grading Option: Letter

EDUC 573 Introduction to Special Education
Units: 3 Terms Offered: FaSpSm Effective and appropriate educational settings for students with disabilities. Legal and professional responsibilities. Components for an inclusive classroom. Instruction Mode: Lecture Grading Option: Letter

EDUC 574 Collaboration, Families and Case Management
Units: 3 Terms Offered: FaSpSm Planning and implementing effective educational services for students receiving special education services. Potential interventions for family support. Coordination of services. Instruction Mode: Lecture Grading Option: Letter

EDUC 575 Assessment and Curriculum for Students with Disabilities
Units: 3 Terms Offered: FaSpSm Developing effective educational interventions for students with disabilities. Formal and informal assessment. Curriculum strategies. Instruction Mode: Lecture Grading Option: Letter

EDUC 576 Establishing and Maintaining an Effective Classroom Ecology
Units: 3 Terms Offered: FaSpSm Environmental and personal factors affecting student achievement. Intervention methodologies. Creating an effective learning environment. Instruction Mode: Lecture Grading Option: Letter

EDUC 577 Guided Practice: Mild/Moderate Disabilities
Units: 3 Terms Offered: FaSpSm Supervised practicum in observation and teaching. Focus on planning, implementing, and assessing instruction for whole classes and individual students with mild/moderate disabilities. Instruction Mode: Lecture Grading Option: Letter

EDUC 578 Integrating the Arts into the Secondary Curriculum
Units: 3 Terms Offered: FaSpSm Methods for integrating the arts into secondary

classroom instruction. Critical and creative thinking, aesthetic education. Instruction Mode: Lecture Grading Option: Letter

EDUC 579 Media Selection and Evaluation
Units: 2 Terms Offered: FaSpSm Selection and evaluation of media and technologies in support of instructional design based on a survey of current research and recommendations. Instruction Mode: Lecture Grading Option: Letter

EDUC 580 Transforming STEM Education into Teaching Science
Units: 3 Terms Offered: FaSpSm The convergence of science, technology, engineering, and mathematics (STEM) as a foundation for teaching science. Instruction Mode: Lecture Grading Option: Letter

EDUC 581 STEM Education from a Project-Based Learning Approach
Units: 3 Terms Offered: FaSpSm Model-based reasoning and inquiry as a means of integrating STEM disciplines. Instruction Mode: Lecture Grading Option: Letter

EDUC 582 Assessment and Evaluation
Units: 2 Terms Offered: FaSpSm Overview of the concepts and procedures for assessment and evaluation of individual and overall performance in various learning environments. Instruction Mode: Lecture Grading Option: Letter

EDUC 583 Counseling through the Lifespan
Units: 3 Developmental issues and life events from infancy to old age and their effect upon individuals, couples, and family relationships. Instruction Mode: Lecture Grading Option: Letter

EDUC 584 Facilitating Creativity and Innovation in STEM Classrooms
Units: 3 Terms Offered: FaSpSm The role of creativity in STEM education. Theories and approaches to facilitating creative and innovative thinking. Instruction Mode: Lecture Grading Option: Letter

EDUC 585 Action Research Project
Units: 3 Terms Offered: FaSpSm Design and implementation of a STEM-based project. Instruction Mode: Lecture Grading Option: Letter

EDUC 586 Design of Learning Environments
Units: 3 Terms Offered: FaSpSm Design of learning environments through application of design principles; project-based practice in aligning instructional design, media selection, and the features of learning spaces. Instruction Mode: Lecture Grading Option: Letter

EDUC 587 Master's Studio A
Units: 2 Terms Offered: FaSpSm Students propose and design a capstone project that applies knowledge and skills learned throughout the program and prepare a coursework portfolio. Instruction Mode: Lecture Grading Option: Letter

EDUC 588 Master's Studio B
Units: 4 Terms Offered: FaSpSm Students implement the capstone project and submit a portfolio that integrates program coursework. Instruction Mode: Lecture Grading Option: Letter

EDUC 589 Human Lifespan Development
Units: 3 Terms Offered: FaSpSm Fundamentals of human physical, motor, mental, social, and emotional development, spanning the prenatal period through late adulthood. Duplicates Credit in the former EDPT 520. Instruction Mode: Lecture Grading Option: Letter

EDUC 590 Directed Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Terms Offered: FaSpSm Research leading to the master's degree. Maximum units which may be applied to the degree to be determined by the department. Instruction Mode: Lecture Grading Option: Credit/No Credit

EDUC 591 Diversity: Power, Equity and Inclusion
Units: 3 Terms Offered: FaSpSm Appraises practices that maintain power; creates strategies to empower individuals and marginalized groups by intervening to achieve equitable outcomes in education, professions and communities. Instruction Mode: Lecture Grading Option: Letter

EDUC 592a Applied Linguistics for TESOL
Units: 3 Terms Offered: FaSp Exploration of English language systems including words, sounds, sentence structure, and discourse and application of this knowledge to teaching English as second or foreign language. Duplicates Credit in the former EDUC 571. Instruction Mode: Lecture Grading Option: Letter

EDUC 592b Applied Linguistics for TESOL
Units: 3 Terms Offered: FaSp Exploration of English language systems including words, sounds, sentence structure, and discourse and application of this knowledge to teaching English as second or foreign language. Duplicates Credit in the former EDUC 571. Instruction Mode: Lecture Grading Option: Letter

EDUC 593a Master's Seminar
Units: 2 An examination and analysis of research and literature in the student's area of focus. Duplicates Credit in former EDCO 593ab. Instruction Mode: Lecture Grading Option: Credit/No Credit

EDUC 593b Master's Seminar
Units: 2 An examination and analysis of research and literature in the student's area of focus. Duplicates Credit in former EDCO 593ab. Instruction Mode: Lecture Grading Option: Credit/No Credit

EDUC 594a Master's Thesis
Units: 2 Credit on acceptance of thesis. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

EDUC 594b Master's Thesis
Units: 2 Credit on acceptance of thesis. Instruction Mode: Lecture Grading Option: In-progress & Credit/No Credit

EDUC 594z Master's Thesis
Units: 0 Credit on acceptance of thesis. Instruction Mode: Lecture Grading Option: In-progress & Credit/No Credit

EDUC 595 Instructional Design
Units: 3 Terms Offered: FaSpSm Formulation and design of effective instruction; emphasis on analysis of media characteristics and instrumentation requirements. Duplicates Credit in the former EDPT 520. Instruction Mode: Lecture Grading Option: Letter

EDUC 596 English Language Learning Design, Teaching and Technology
Units: 3 Terms Offered: FaSp Students collaboratively design and deliver synchronous and asynchronous online language learning opportunities. Students become versatile with adapting content, technical aspects of video-conferencing and interactional dynamics Duplicates Credit in the former EDUC 540a and EDUC 540b Instruction Mode: Lecture Grading Option: Letter

EDUC 599 Special Topics
Units: 1, 2, 3, 4 Max Units: 9.0 Terms Offered: FaSpSm Selected topics in various areas of education. Instruction Mode: Lecture Grading Option: Letter

EDUC 601 Seminar in Social Psychology
Units: 4 Max Units: max 8 Terms Offered: Fa (Enroll in PSYC 512)

EDUC 602 Self-concept and Motivation
Units: 4 (Enroll in PSYC 602)

EDUC 603 Framing Organizational Change and Leadership
Units: 4 Terms Offered: Fa Students identify and research problems of practice particularly pertinent in urban learning. The presentation of problems of practice requires the use of sound evidence-based research. Instruction Mode: Lecture Grading Option: Letter

EDUC 604 National Perspective on School Leadership
Units: 1 Terms Offered: Sm Students will examine the cultural, political, and economic issues pertinent to urban education within the national context to prepare them to be effective school leaders. Instruction Mode: Lecture Grading Option: Letter

EDUC 605 Framing Educational Leadership
Units: 1 Terms Offered: FaSm Critical analysis and creative expression applied to problems of practice. Supported and unsupported assertions. Evidence-based decision-making. The quality of evidence used to support arguments. Open only to doctoral students. Instruction Mode: Lecture Grading Option: Credit/No Credit

EDUC 607 Role of School Counselors in Student Learning and Motivation
Units: 3 Terms Offered: FaSpSm The process of identifying and assessing learning and motivational issues in schools, the application of research-based interventions, and the evaluation of effectiveness of these interventions. Instruction Mode: Lecture Grading Option: Letter

EDUC 608 School Connectedness, Climate, and Classroom Management
Units: 2 Terms Offered: Fa Prevention, education, and training for achievement. Data collection for assessment and evaluation of school climate, crisis and classroom management conducive to learning and success. Instruction Mode: Lecture Grading Option: Letter

EDUC 609 Academic Advising in Postsecondary Education
Units: 3 Terms Offered: Fa Contemporary issues in academic advising in

postsecondary education. Examines and analyzes relevant theories, policies, and practices related to academic advising. Instruction Mode: Lecture Grading Option: Letter

EDUC 610 Higher Education Administration in China
Units: 3 Terms Offered: Sm Examination of student affairs and higher education administration practices in the People's Republic of China. Course concludes with a trip to China. Instruction Mode: Lecture Grading Option: Letter

EDUC 611 Athletic Administration
Units: 3 Terms Offered: Sp Analysis and discussion of critical issues in intercollegiate athletics. Student-athlete academic and social accountability; challenges of NCAA policies; commercialization, marketing, and fundraising in college athletics. Instruction Mode: Lecture Grading Option: Letter

EDUC 612 Application of Human Development Theory in School Counseling
Units: 3 Terms Offered: FaSpSm
A theoretical perspective of human development across the lifespan. Issues and challenges faced by school counselors. Instruction Mode: Lecture Grading Option: Letter

EDUC 613 Title IX and Gender Issues in Athletic and Academic Administration
Units: 3 Terms Offered: FaSpSm Overview of Title IX and gender issues in institutions of higher education and implications for all postsecondary institutions. Registration Restriction: Open only to graduate students Instruction Mode: Lecture Grading Option: Letter

EDUC 614 Research and Assessment in Higher Education
Units: 3 Terms Offered: Sm Theory and practice of outcomes assessment, program evaluation, and research design in postsecondary educational administration. Instruction Mode: Lecture Grading Option: Letter

EDUC 615 Ethics in Athletic Administration
Units: 3 Terms Offered: Fa Ethical concerns in intercollegiate athletics. Review, analysis, and discussion of ethical and moral conduct in sports. Relevance of social justice to ethical behaviors. Instruction Mode: Lecture Grading Option: Letter

EDUC 616 Higher Education Capstone
Units: 3 Terms Offered: FaSp Capstone seminar course focused on the future of student affairs and higher education. Registration Restriction: Open only to master students in Postsecondary Administration and Student Affairs Instruction Mode: Lecture Grading Option: Letter

EDUC 617 The Student Athlete in Higher Education
Units: 3 Terms Offered: Fa Examination of student athletes in higher education. Effective strategies for counseling and advising college student athletes; issues and challenges of athletic amateurism. Instruction Mode: Lecture Grading Option: Letter

EDUC 618 School Counseling Professional Portfolio
Units: 2 Terms Offered: Fa Preparation of an electronic resource portfolio that addresses a field based practice. The culminating experience for the M.Ed., School Counseling program. Instruction Mode: Lecture Grading Option: Letter

EDUC 619 Framing Educational Leadership in a Global Context
Units: 4 Terms Offered: Sm Globalization as a distinct phenomenon. Assessment of impact of globalization on educational systems and institutions. Open only to doctoral students. Instruction Mode: Lecture Grading Option: Letter

EDUC 620 Fundamentals of Creativity, Innovation, and Entrepreneurship
Units: 2 Terms Offered: Sm The genesis and facilitation of creative ideas in educational practice. The transformation of creativity into innovation and entrepreneurship. Open only to doctoral students. Instruction Mode: Lecture Grading Option: Letter

EDUC 622 Educational Theory and Instructional Design
Units: 2 Terms Offered: Fa Theories and elements of learning. Application in educational settings. Methodology for course development and evaluation. Emphasis on strategies, tools, and use of technology. Instruction Mode: Lecture Grading Option: Letter Crosslisted as DHYG-513

EDUC 623 Understanding Research That Informs Leadership
Units: 3 Terms Offered: Fa Understanding, interpreting, and applying education research. Open only to doctoral students. Registration Restriction: Open only to doctoral students. Instruction Mode: Lecture Grading Option: Letter

EDUC 624 Educational Organizations: Governance and Finance I
Units: 2 Terms Offered: Fa Overview of economic concepts of education. Linkages between economic growth, development, and education. Impact of globalization. Open only to doctoral students. Instruction Mode: Lecture Grading Option: Letter

EDUC 625a Induction Plan and Assessment of Candidate Competence
Units: 1 Terms Offered: FaSpSm The development of an individualized induction plan and assessment of competence for meeting requirements for the Clear Administrative Services Credential. Duplicates Credit in former EDUC 595 Instruction Mode: Lecture Grading Option: Credit/No Credit

EDUC 625b Induction Plan and Assessment of Candidate Competence
Units: 1 Terms Offered: FaSpSm The development of an individualized induction plan and assessment of competence for meeting requirements for the Clear Administrative Services Credential. Duplicates Credit in former EDUC 596. Instruction Mode: Lecture Grading Option: Credit/No Credit

EDUC 626 Fostering Entrepreneurship in Educational Systems
Units: 2 Terms Offered: Fa The role of entrepreneurship in education and conditions that support entrepreneurism within an educational organization. How social entrepreneurship partnerships improve educational outcomes. Open only to doctoral students. Instruction Mode: Lecture Grading Option: Letter

EDUC 627 Education Performance Problems: Role of Learning
Units: 3 Terms Offered: Sp Contemporary perspectives on learning and motivation. Strategies and tools for identifying, diagnosing, and solving learning and motivational challenges and opportunities. Registration Restriction: Open only to doctoral students. Instruction Mode: Lecture Grading Option: Letter

EDUC 628 Educational Organizations: Governance and Finance II
Units: 2 Terms Offered: Sp Diversification and differentiation of educational institutions globally. The finances of higher education. Open only to doctoral students. Instruction Mode: Lecture Grading Option: Letter

EDUC 629 Consulting Practicum Context Analysis
Units: 3 Terms Offered: Sm Preparation, design, and analysis of an education-related problem. *Prerequisite:* EDUC 723 Registration Restriction: Open only to doctoral students. Instruction Mode: Lecture Grading Option: Letter

EDUC 630 Organizations and Policy: Current Issues
Units: 4 Terms Offered: FaSp Study of contemporary issues in educational organizations, policy and change in K–12 and higher education with an explicit focus on the improvement of urban education. Open to students admitted to the PhD only. Instruction Mode: Lecture Grading Option: Letter

EDUC 631 Locating Educational Performance Problems
Units: 3 Terms Offered: Sp Development and implementation of strategies for locating, solving and evaluating solutions to performance problems in educational organizations. Open only to doctoral students. Instruction Mode: Lecture Grading Option: Letter

EDUC 632 Technology in Higher Education
Units: 2 Terms Offered: Sm The integration of technology in higher education and the relationship to quality of teaching, access to learners, and cost-effectiveness for universities and colleges. Instruction Mode: Lecture Grading Option: Letter Crosslisted as DHYG-514

EDUC 633 Child and Elder Abuse and Domestic Violence
Units: 2 A review of laws governing mandated reporting of child and elder abuse, the procedures involved, as well as etiology, effects, and treatment interventions. Instruction Mode: Lecture Grading Option: Letter

EDUC 634 Couples Counseling
Units: 3 Examines relational development and change, strategies for intervention with

couples, and selected issues in couples relationship functioning. *Prerequisite:* EDUC 500, EDUC 507, EDCO 541. Instruction Mode: Lecture Grading Option: Letter

EDUC 635 Psychotherapy with Children and Adolescents
Units: 3 Training in unique diagnostic considerations in working with children and adolescents. Exposure to empirically supported treatment modalities for children and adolescents. *Prerequisite:* EDUC 500, EDUC 507, EDCO 541. Duplicates Credit in former EDCO 554. Instruction Mode: Lecture Grading Option: Letter

EDUC 636 Perspectives on Human Sexuality
Units: 3 The physiological-psychological and socio-cultural variables associated with sexual identity and sexual behavior with an emphasis upon sexual dysfunctions. *Prerequisite:* EDUC 507. Duplicates Credit in former EDCO 516. Instruction Mode: Lecture Grading Option: Letter

EDUC 637 Group Counseling: Theory and Process
Units: 3 Theory, research, and practice of group counseling. Includes laboratory experience. *Prerequisite:* EDUC 500, EDUC 507, EDCO 541. Duplicates Credit in former EDCO 542. Instruction Mode: Lecture Grading Option: Letter

EDUC 638 Multicultural Counseling: Research and Practice
Units: 3 An examination of the cultural, socioeconomic, and language factors that impact historically marginalized populations; alternative multicultural counseling approaches. Duplicates Credit in former EDCO 551 Instruction Mode: Lecture Grading Option: Letter

EDUC 639 Approaches and Strategies for Language Teaching
Units: 4 Terms Offered: FaSp Overview of approaches, models and strategies in language teaching, topics include lesson planning, and implementation of the lesson for language and content area instruction. Duplicates Credit in EDUC 561 Instruction Mode: Lecture Grading Option: Letter

EDUC 640 The Research University in the 21st Century
Units: 4 Terms Offered: FaSp An examination of the current transformation of the American research university with a focus on key issues that confront academics who work in research universities. Open to students admitted to the PhD only. Instruction Mode: Lecture Grading Option: Letter

EDUC 641 Human Capital and School Organization
Units: 3 Terms Offered: Fa School leadership, organization, management and development of school personnel. Capitalizing on school resources to meet school goals. Instruction Mode: Lecture Grading Option: Letter

EDUC 642 Controversies in Learning and Instruction
Units: 4 Terms Offered: FaSp An introduction to learning research and theory, issues in learning and educational psychology situated in the context of diverse, urban settings. Open to students admitted to the PhD only. Instruction Mode: Lecture Grading Option: Letter

EDUC 643 Advancing Community Support through Social Media
Units: 2 Terms Offered: Fa Use of social media to communicate school vision. Incorporating objectives, strategies, assessment, and accountability measures in communication plans. Instruction Mode: Lecture Grading Option: Letter

EDUC 644 Practicum in Counseling
Units: 3 Max Units: 6.0 Supervised clinical work with clients, including adults, couples, children, and families. *Prerequisite:* EDUC 500, EDUC 507, EDUC 546, EDCO 541. Duplicates Credit in former EDCO 560. Instruction Mode: Lecture Grading Option: Credit/No Credit

EDUC 645a Fieldwork in Counseling
Units: 3 Supervised field experience in a clinical setting. *Prerequisite:* EDUC 644. Duplicates Credit in former EDCO 561. Instruction Mode: Lecture Grading Option: Credit/No Credit

EDUC 645b Fieldwork in Counseling
Units: 3 Supervised field experience in a clinical setting. *Prerequisite:* EDUC 644. Duplicates Credit in former EDCO 561. Instruction Mode: Lecture Grading Option: Credit/No Credit

EDUC 646 Marriage and Family Therapy Capstone: Leadership Project
Units: 2 Terms Offered: Sp Culminating academic, professional and reflective experience for MFT candidates in their final year. Students will identify and address issues of professional and clinical practice. Registration Restriction: Open only to USC Rossier School of Education students in the Marriage and Family Therapy program Duplicates Credit in former EDUC 646a and former EDUC 646b Instruction Mode: Lecture Grading Option: Letter

EDUC 647 School Leadership Seminar
Units: 2 Terms Offered: Sp Planning, design, and development of an action research plan for school improvement using multiple measures of project assessment. Instruction Mode: Lecture Grading Option: Letter

EDUC 648a Apprenticeship in School Administration and Leadership
Units: 2 Terms Offered: FaSp Supervised field experience in administrative areas of K–12 schools. Development of Administrative Services Portfolio. Instruction Mode: Lecture Grading Option: Letter

EDUC 648b Apprenticeship in School Administration and Leadership
Units: 2 Terms Offered: FaSp Supervised field experience in administrative areas of K–12 schools. Development of Administrative Services Portfolio. Instruction Mode: Lecture Grading Option: Letter

EDUC 649 Teaching Practice to Support Language Learners
Units: 4 Terms Offered: FaSp Introduces components of effective teaching, including lesson and unit planning, creating a classroom environment conducive to learning, and classroom management strategies. Duplicates Credit in EDUC 562 Instruction Mode: Lecture Grading Option: Letter

EDUC 650 Ways of Seeing: Applying Social Science and Critical Theories to Education
Units: 4 Terms Offered: FaSp Examines the intersections of inequality and education, focusing on how each disciplinary perspective outlines a logic for change. Registration Restriction: Open only to Urban Education Policy majors Instruction Mode: Lecture Grading Option: Letter

EDUC 651 Introduction to Qualitative Research Methods
Units: 3 Terms Offered: FaSpSm Introduces qualitative methodologies, qualitative data collection and analysis techniques, support in drafting research proposals, and paradigms on how to critically think about inquiry. Instruction Mode: Lecture Grading Option: Letter

EDUC 652 Inquiry Methods III
Units: 3 Terms Offered: FaSpSm Logic and methods of qualitative data analysis in the examination of educational issues and the framing of solutions for them. *Prerequisite:* EDUC 532 and EDUC 536 Registration Restriction: Open only to Organizational Change and Leadership students Instruction Mode: Lecture Grading Option: Letter

EDUC 653 Advanced Qualitative Research
Units: 3 Terms Offered: Sp Interactive seminar that explores the theoretical underpinnings and practicalities of interviews, portraiture, focus groups, life histories, and cultural biographies. *Recommended Preparation:* introductory statistics. Instruction Mode: Lecture Grading Option: Letter

EDUC 654 Advanced Qualitative Research Methods II
Units: 3 Terms Offered: FaSpSm Designed to follow Advanced Qualitative Research, focuses on data analysis in the qualitative research tradition, writing and publishing from qualitative data. Instruction Mode: Lecture Grading Option: Letter

EDUC 655 Social Foundations of Language Education
Units: 4 Terms Offered: FaSp Candidates engage in systematic study of the social aspects of language learning and their significance for structuring learning opportunities for diverse students in language classrooms. Duplicates Credit in former EDUC 565a and former EDUC 565b Instruction Mode: Lecture Grading Option: Letter

EDUC 656 Applied Linguistics for English Language Educators
Units: 3 Terms Offered: FaSp Introduction to systems of English language and language in use. Contrasts systems of English to other languages to identify issues of interest for language teachers. Duplicates Credit in EDUC 592a, EDUC 592b, the former EDUC 571 Instruction Mode: Lecture Grading Option: Letter

EDUC 657 Social Foundations of Research
Units: 3 Terms Offered: Fa Foundations in social science research with exposure to broad cross-section of research methods, design, and analytical techniques. Open only to doctoral students. Registration Restriction: Open only to doctoral students.

Instruction Mode: Lecture Grading Option: Letter

EDUC 658 Hierarchical Linear Models
Units: 3 Terms Offered: Fa Application of two- and three-level multilevel models in educational settings, fixed and random effects, growth models. *Recommended Preparation:* a working understanding and knowledge of regression analysis and related Stata software. Instruction Mode: Lecture Grading Option: Letter

EDUC 659 Introduction to Causal Inference in Educational Settings
Units: 3 Terms Offered: Sm An introduction to quasi- and non-experimental methods researchers use to strengthen causal linkages between educational policies and reforms, and student, teacher, and other outcomes. *Recommended Preparation:* EDUC 658 Instruction Mode: Lecture Grading Option: Letter

EDUC 660a Clinical Practice Seminar in Language Teaching
Units: 2 First of two-course series focused on helping students translate theory to practice. Designed for students completing fieldwork required for the teaching credential. *Recommended Preparation:* Completion of CTC basic skills and subject matter competency test required to begin student teaching Instruction Mode: Lecture Grading Option: Letter

EDUC 660b Clinical Practice Seminar in Language Teaching
Units: 2 Terms Offered: FaSp Second of two-course series focused on helping students translate theory to practice. Part B also facilitates preparation for and submission of the EdTPA. *Prerequisite:* EDUC 660a Instruction Mode: Lecture Grading Option: Letter

EDUC 661 Equity in College and Career Access
Units: 3 Terms Offered: Fa Focus on College and Career Readiness using an equity lens with a foundation in the relevant theories, conceptual frameworks and issues. *Recommended Preparation:* EDUC 609 Registration Restriction: Open only to EDCN and MFTH students Instruction Mode: Lecture Grading Option: Letter

EDUC 663 Race and Racism in Education
Units: 3 Terms Offered: FaSpSm Race, racism, racial equity, Critical Race Theory (CRT) will be explored particularly within educational institutions, with a heavy focus placed on practice. Registration Restriction: Open only to graduate students Instruction Mode: Lecture Grading Option: Letter

EDUC 665 Foundations and Design of Educational Research
Units: 4 Terms Offered: Fa Build knowledge, skills and perspective to design and carry out scholarship as an educational researcher. Registration Restriction: Open only to PhD students Instruction Mode: Lecture Grading Option: Letter

EDUC 670 Introduction to Curriculum and Pedagogy in Urban Schools
Units: 4 General introduction to curriculum and instruction (pedagogy) affecting teaching and learning across disciplines, grade levels, and different social contexts of schooling. Registration Restriction: Open only to MAT students Instruction Mode: Lecture Grading Option: Letter

EDUC 671 Contexts for Educational Equity, Access, and Agency
Units: 3 Terms Offered: FaSpSm Examines how environmental, pedagogical, and curricular choices can be cultivated with greater knowledge of culture, gender, orientation, race, learning differences and language. Registration Restriction: Open only to MAT students Instruction Mode: Lecture Grading Option: Letter

EDUC 672 Integrated Language Development Across the Curriculum
Units: 3 Understanding of language development and the connection between language and learning in school, across all curricular areas. Registration Restriction: Open only to MAT students Instruction Mode: Lecture Grading Option: Letter

EDUC 673 Applications of Curriculum and Pedagogy, Part A
Units: 4 Candidates apply content-area knowledge utilizing a repertoire of pedagogical practices responsive to the needs and interests of diverse learners. Registration Restriction: Open only to MAT students Instruction Mode: Lecture Grading Option: Credit/No Credit

EDUC 674 Identifying and Teaching to Student Differences
Units: 3 Building on EDUC 671, course proceeds with greater focus on learner behavior, ability, and language to access strategies to differentiate, scaffold, and assess learning. Registration Restriction: Open only to MAT students Instruction Mode: Lecture Grading Option: Letter

EDUC 675 Literacy Development and Instruction in Elementary Education
Units: 3 Literacy development and instruction, with a focus on the importance of literacy for academic success and civic participation. Registration Restriction: Open only to MAT students Instruction Mode: Lecture Grading Option: Letter

EDUC 676 Literacy Development and Instruction in Secondary Education
Units: 3 Prepares prospective secondary teachers to integrate literacy instruction within their content area by creating authentic opportunities for learners to develop literacy skills. Registration Restriction: Open only to MAT students Instruction Mode: Lecture Grading Option: Letter

EDUC 677 Applications of Curriculum and Pedagogy, Part B
Units: 4 Max Units: 08 Terms Offered: FaSpSm Building on EDUC 673, prepares candidates to apply curricular principles to lesson development and determine how content should be delivered to maximize learning. Registration Restriction: Open only to MAT students Instruction Mode: Lecture Grading Option: Credit/No Credit

EDUC 678 Applying Knowledge and Strategies for Teaching All Students
Units: 2 Building on EDUC 673, prepares candidates to apply curricular principals to lesson development and determine how content should be delivered to maximize learning. Registration Restriction: MAT Students Only Instruction Mode: Lecture Grading Option: Letter

EDUC 679 Blended Learning Experiences for Students in Urban Schools
Units: 2 Design, implement, and evaluate technology-rich learning environments to customize and individualize learning opportunities and assessments for K-12 students. Registration Restriction: Open only to MAT students Instruction Mode: Lecture Grading Option: Letter

EDUC 680 Critical Research and Reflection in Urban Education
Units: 4 Terms Offered: FaSp Using the inquiry as stance research process and critical self-reflection, conduct research to understand the factors for effective teaching and learning in urban education contexts. *Prerequisite:* EDUC 670 and EDUC 671 and EDUC 672 and EDUC 674 and (EDUC 675 or EDUC 676) Registration Restriction: Open only to students in the MAT Program Instruction Mode: Lecture Grading Option: Letter

EDUC 681 Research, Policy and Practice in Urban Education
Units: 4 Terms Offered: FaSpSm Development of urban education through the social, historical and political lens as it shapes and influences education research and policy. Instruction Mode: Lecture Grading Option: Letter

EDUC 682 Introduction to Quantitative Research Methods in Education
Units: 3 Terms Offered: FaSpSm Basic concepts of quantitative/statistical methods common in education research, emphasizing applications with data. Introduces sampling, types of validity, statistical inference, bivariate analysis, internal / external validity. Instruction Mode: Lecture Grading Option: Letter

EDUC 683 Proseminar in Urban Education Policy
Units: 1 Max Units: 03 Terms Offered: FaSpSm Introduction to faculty and their research; provides professional development on a variety of topics. Instruction Mode: Lecture Grading Option: Credit/No Credit

EDUC 684 Research Synthesis
Units: 3 Max Units: FaSpSm Skill development in rigorous literature reviewing practices, systematic research synthesis methods and meta-analytic techniques in social science. *Recommended Preparation:* Social Foundations and Quantitative methods Instruction Mode: Lecture Grading Option: Letter

EDUC 685 School-to-Prison Nexus
Units: 3 Terms Offered: FaSpSm Understanding the multifaceted and complex relationship between education and criminology through research from sociological, psychological, educational and criminal justice perspectives. Instruction Mode: Lecture Grading Option: Letter

EDUC 686 Responding to Gifted Students
Units: 4 Terms Offered: FaSpSm Addresses the political, social, economic and educational factors that deter or enhance the identification and education of diverse PreK-12 gifted students. Duplicates Credit in EDUC 529 and EDUC 530 Instruction Mode: Lecture Grading Option: Letter

EDUC 687 Capstone Seminar
Units: 3 Terms Offered: Fa Synthesize institutional, public and non-public sources of data to write and orally present an enrollment management plan for both campus and external stakeholders.

Registration Restriction: Open only to Enrollment Management and Policy students Instruction Mode: Lecture Grading Option: Letter

EDUC 688 Institutions, Organizations, and Equity in Education
Units: 3 Terms Offered: Sp Examine how sociologists and organizational theorists conceptualize institutions, stasis, and change. Learn to apply these perspectives to pressing issues of educational equity. Instruction Mode: Lecture Grading Option: Letter

EDUC 689 Fiscal Support and Expenditure in Higher Education
Units: 3 Terms Offered: Sp Analyses of private and public financial support and expenditure patterns; includes recent trends in state and federal legislation related to higher education. Instruction Mode: Lecture Grading Option: Letter

EDUC 690 Framing and Enrollment Management
Units: 3 Terms Offered: Sm Identify and research enrollment management practices while developing academic literacy skills. Students will understand roles and responsibilities in Enrollment Management offices. Registration Restriction: Open only to Enrollment Management and Policy majors Instruction Mode: Lecture Grading Option: Letter

EDUC 691 Admission Policy and Practice
Units: 3 Terms Offered: Fa Examines admission policy within the contexts of history, social class, professional practice, and the interplay of institutions and society. Registration Restriction: Open only to Enrollment Management and Policy majors Instruction Mode: Lecture Grading Option: Letter

EDUC 692 Role of Diversity in Admissions
Units: 3 Terms Offered: Fa Addresses college access, the manifestations of diversity through the admission process, and a primer on the role of identities, demographics, and intersectionality within them. Registration Restriction: Open only to Enrollment Management and Policy majors Instruction Mode: Lecture Grading Option: Letter

EDUC 693 Institutional Positioning in Student Recruitment
Units: 3 Terms Offered: Sm Explores market research, demand, pricing, value, segmentation, positioning, consumer-centric communication, and the characteristics of a market-oriented enrollment management unit. Registration Restriction: Open only to Enrollment Management and Policy majors Instruction Mode: Lecture Grading Option: Letter

EDUC 694 Legal Issues in Enrollment Management
Units: 3 Terms Offered: Sp Examines legal issues in enrollment management and addresses the intersection of law and policy, including implications for decision-making by higher education officials. Registration Restriction: Open only to Enrollment Management and Policy Instruction Mode: Lecture Grading Option: Letter

EDUC 695 Organizations and Leadership in Education
Units: 3 Terms Offered: Sm Emphasizes models of educational organizations and how they are influenced by the contexts and problems they experience, with emphasis on leadership, change management, and governance. Registration Restriction: Open only to Enrollment Management and Policy Instruction Mode: Lecture Grading Option: Letter

EDUC 696 Financial Aid in Enrollment Management
Units: 3 Terms Offered: Sp Examines institutional budgets, the role of tuition, influences on the price of higher education, and the purpose and processes of applying for and packaging financial aid. Registration Restriction: Open only to Enrollment Management and Policy majors Instruction Mode: Lecture Grading Option: Letter

EDUC 697 Research, Planning, and Accountability
Units: 3 Terms Offered: Fa Develop a research perspective related to understanding and solving complex problems and strategic planning in enrollment management. Registration Restriction: Open only to Enrollment Management and Policy majors Instruction Mode: Lecture Grading Option: Letter

EDUC 698 Enhancing Student Retention
Units: 3 Terms Offered: Fa Examines how student characteristics are associated with persistence and graduation, how rates vary with institutional type, and the institutional role in student success. Registration Restriction: Open only to Enrollment Management and Policy majors Instruction Mode: Lecture Grading Option: Letter

EDUC 700 Research and Practice in the Preparation of Teachers
Units: 3 Research on the preparation of teachers for diverse populations. Measures of teacher quality and student achievement. Existing practices in teacher education from multiple perspectives. Instruction Mode: Lecture Grading Option: Letter

EDUC 701 Pedagogy in Teacher Education
Units: 3 A critical examination of pedagogical practices in teacher education. The design of pedagogical approaches and programs for diverse and underserved students in urban schools. Instruction Mode: Lecture Grading Option: Letter

EDUC 702 Curriculum, Teacher Preparation, and Student Learning
Units: 3 The process and role of curriculum in a variety of urban settings, teacher preparation, and professional growth. The philosophical and psychological foundations of curriculum development. Open only to doctoral students. Instruction Mode: Lecture Grading Option: Letter

EDUC 703 Examining Literacy Theories and Practice
Units: 3 Literacy theories as practiced in urban, teacher education and professional development settings using an inquiry approach to examine best practice. Open only to doctoral students. Instruction Mode: Lecture Grading Option: Letter

EDUC 704 Evaluation and Assessment in Teacher Education
Units: 3 Terms Offered: Fa Evaluation and assessment in the context of public schools, teacher preparation and professional growth in urban settings. Policy implications of data-based decision making and program implementation. Instruction Mode: Lecture Grading Option: Letter

EDUC 705 Survey Design and Analysis
Units: 3 Terms Offered: FaSpSm Design, collection, and analysis of survey data; survey analysis techniques including classical test theory, item response theory, differential item functioning, scaling, linking. Instruction Mode: Lecture Grading Option: Letter

EDUC 706 Proseminar in Higher Education
Units: 3 Critical issues in urban higher education from historical and philosophical perspectives. Instruction Mode: Lecture Grading Option: Letter

EDUC 707 Administration in Higher Education
Units: 3 Terms Offered: Fa Administrative issues in higher education. Academic leadership related to undergraduate and graduate education. Quality standards and assessment. How administrators create efficiency, effectiveness, performance, and change. Instruction Mode: Lecture Grading Option: Letter

EDUC 708 Student Development Theory and Today's Critical Issues
Units: 3 Terms Offered: Sm Examination of traditional and emergent student development theories. Instruction Mode: Lecture Grading Option: Letter

EDUC 709 Financing and Assessing Colleges for Equity
Units: 3 Terms Offered: Fa Examination of federal, state, local and individual roles in financing of higher education towards enhancing equity and reducing opportunity gaps. Instruction Mode: Lecture Grading Option: Letter

EDUC 710 Assessment, Organizational Learning and Performance
Units: 3 The role of assessment in higher education. An analysis of the purpose and value of particular assessment approaches and instruments, in particular those addressing classroom learning and institutional effectiveness. Instruction Mode: Lecture Grading Option: Letter

EDUC 711 Social Factors Influencing Learning and Motivation
Units: 3 Social psychological principles and research techniques applied to educational problems; school environment, group behavior, teacher effectiveness, teacher-student interaction, behavioral change. Open only to doctoral students. Instruction Mode: Lecture Grading Option: Letter

EDUC 712 Advanced Study of Motivation: Theory, Research and Application
Units: 3 Terms Offered: Fa Analysis of motivational principles; diagnosis and solutions to motivation gaps in learning environments; and motivation and efficacy theories and principles. Registration Restriction: Open only to doctoral students Instruction Mode: Lecture Grading Option: Letter

EDUC 713 Human Lifespan Development
Units: 3 Terms Offered: FaSpSm An examination of issues related to the development of diverse students and

the development of environments that promote motivated behavior. Registration Restriction: Open only to doctoral students Instruction Mode: Lecture Grading Option: Letter

EDUC 714 Measurement and Evaluation for Decision-Making
Units: 3 Terms Offered: Sm Collecting, analyzing, and using quantitative data to solve problems of practice and in evaluating educational institutions, programs, and policies. Open only to doctoral students. Instruction Mode: Lecture Grading Option: Letter

EDUC 715 Advanced Study of Learning and Instruction: Theory, Research and Application
Units: 3 Terms Offered: Sm Current research in the application of learning theories and the applicability of this research across a variety of contexts. Registration Restriction: Open only to doctoral students Instruction Mode: Lecture Grading Option: Letter

EDUC 716 Instructional Leadership
Units: 3 Terms Offered: Sm Examines the role of instructional leaders in improving student performance; current issues in curriculum design and implementation; and effective instructional leadership approaches for school improvement. Open only to doctoral students. Duplicates Credit in former CTSE 688. Instruction Mode: Lecture Grading Option: Letter

EDUC 717 Resourcing Schools for Equity and Excellence
Units: 3 Terms Offered: Fa Applying economic theory to the study of education. Application of market theory to education, partnerships, allocation of resources and the examination of educational enterprises. Registration Restriction: Open only to doctoral students Duplicates Credit in former EDPA 615 Instruction Mode: Lecture Grading Option: Letter

EDUC 718 Maximizing Human Resources in Education
Units: 3 Terms Offered: Sm Strategically understanding the management of human capital to ensure high student performance. How to attract and retain top quality teachers. Open only to doctoral students. Duplicates Credit in former EDPA 610. Instruction Mode: Lecture Grading Option: Letter

EDUC 719 Education Policy and Politics
Units: 3 Terms Offered: Fa Major issues facing educators in the 21st century. Emphasis on how educational policy can focus on incentives for schools to improve student learning. Registration Restriction: Open only to doctoral students Duplicates Credit in former EDPA 613 Instruction Mode: Lecture Grading Option: Letter

EDUC 720 Leadership for Principals
Units: 3 Terms Offered: Sm The role of the principal as an instructional leader with a focus on improving student achievement. Open only to doctoral students. Duplicates Credit in former EDPA 600. Instruction Mode: Lecture Grading Option: Letter

EDUC 721 Seminar in the Superintendency
Units: 3 Terms Offered: Sm The role of the superintendent in establishing a focus on student achievement and holding school sites accountable. How superintendents support student learning through leadership. Registration Restriction: Open only to doctoral students Duplicates Credit in former EDPA 618 Instruction Mode: Lecture Grading Option: Letter

EDUC 723 Evaluating and Assessing Educational System Outcomes
Units: 3 Terms Offered: Sm Evaluating impact. Examination of key assessment theories; planning and implementation of learning and program effectiveness. *Prerequisite:* EDUC 631 Registration Restriction: Open only to doctoral students. Instruction Mode: Lecture Grading Option: Letter

EDUC 724 Creating Policy Alternatives for Educational Settings
Units: 3 Terms Offered: Sm Effective policy-making and constructing alternatives. Open only to doctoral students. Instruction Mode: Lecture Grading Option: Letter

EDUC 725 Analyzing Organizational Change and Its Effectiveness
Units: 3 Terms Offered: Fa Designed to help leaders apply research about learning and motivation to the strengthening of organizational performance in organizations around the world. Instruction Mode: Lecture Grading Option: Letter

EDUC 726 Making Choices: Deciding Among Policy Alternatives
Units: 3 Terms Offered: Fa Models of decision making including cost-benefit analysis, risk-benefit analysis, and decision analysis. Ethical considerations and the political environment. Open only to doctoral students. Registration Restriction: Open only to doctoral students. Instruction Mode: Lecture Grading Option: Letter

EDUC 727 Implementing Policy in Educational Systems
Units: 3 Terms Offered: Sp Effective policy-making. Human and financial resources to support implementation. Targeting resources to support implementation to attain policy goals. *Prerequisite:* EDUC 726 Registration Restriction: Open only to doctoral students. Instruction Mode: Lecture Grading Option: Letter

EDUC 728 Global Trends: Emerging Ideas, Emerging Markets
Units: 3 Terms Offered: Sp Examination of a range of emerging markets in education. Global efforts of institutions of higher education to access new markets through collaborations and offshore endeavors. Open only to doctoral students. Instruction Mode: Lecture Grading Option: Letter

EDUC 729 Assessing Policy Impact in Educational Settings
Units: 3 Terms Offered: Sp Theory and practice of educational policy evaluation. Limits of rationality and the political forces that shape policy. Preparation of an evaluation design. *Prerequisite:* EDUC 727 Registration Restriction: Open only to doctoral students. Instruction Mode: Lecture Grading Option: Letter

EDUC 730 Using Communication to Facilitate Organizational Change
Units: 2, 3 Terms Offered: FaSpSm Addresses communication strategies that leaders use to facilitate positive change in their organization. Reinforces written, non-verbal, and verbal communication skills through leadership situations. Registration Restriction: Open only to Organizational Change and Leadership majors Instruction Mode: Lecture Grading Option: Letter

EDUC 731 Economics of Organizational Change and Learning Environments
Units: 3 Terms Offered: FaSpSm Leadership, problem solving, communication, research, reflection, and professional dispositions will concurrently expand. Candidates will acquire the knowledge and skills to identify and implement economic change. Instruction Mode: Lecture Grading Option: Letter

EDUC 732 Building Capacity for Organizational Change
Units: 3 Terms Offered: FaSpSm Focuses on learning issues related to building organizational capacity for change through leadership and development of personnel within an organization. Instruction Mode: Lecture Grading Option: Letter

EDUC 733 Analyzing Data and Identifying Solutions
Units: 3 Terms Offered: Sp Designed to help students interpret study data and construct evidence-based solutions for real-time organizational problems of practice. *Prerequisite:* EDUC 629 Registration Restriction: Open only to USC Rossier School of Education students Duplicates Credit in EDUC 725 Instruction Mode: Lecture Grading Option: Letter

EDUC 764a Dissertation in Practice
Units: 1 Terms Offered: FaSpSm Credit on acceptance of Dissertation in Practice. *Prerequisite:* EDUC 629 Registration Restriction: Open only to Rossier School of Education Global Executive and Organizational Change and Leadership doctoral students Instruction Mode: Lecture Grading Option: In Progress to Credit/No Credit

EDUC 764b Dissertation in Practice
Units: 1 Terms Offered: FaSpSm Credit on acceptance of Dissertation in Practice. *Prerequisite:* EDUC 764a Registration Restriction: Open only to Rossier School of Education Global Executive and Organizational Change and Leadership doctoral students Instruction Mode: Lecture Grading Option: In Progress to Credit/No Credit

EDUC 764c Dissertation in Practice
Units: 1 Terms Offered: FaSpSm Credit on acceptance of Dissertation in Practice. *Prerequisite:* EDUC 764b Registration Restriction: Open only to Rossier School of Education Global Executive and Organizational Change and Leadership doctoral students Instruction Mode: Lecture Grading Option: In Progress to Credit/No Credit

EDUC 764d Dissertation in Practice
Units: 1 Terms Offered: FaSpSm Credit on acceptance of Dissertation in Practice. *Prerequisite:* EDUC 764c Registration Restriction: Open only to Rossier School of Education Global Executive and Organizational Change and Leadership doctoral students Instruction Mode: Lecture Grading Option: In Progress to Credit/No Credit

EDUC 764z Dissertation in Practice
Units: 0 Terms Offered: FaSpSm Credit on acceptance of Dissertation in Practice. *Prerequisite:* EDUC 764d Registration Restriction: Open only to Rossier School of Education Global Executive and

Organizational Change and Leadership doctoral students Instruction Mode: Lecture Grading Option: In Progress to Credit/No Credit

EDUC 790 Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Terms Offered: FaSpSm Research leading to the doctorate. Maximum units which may be applied to the degree to be determined by the department. Instruction Mode: Lecture Grading Option: Credit/No Credit

EDUC 791 Proposal for Doctoral Dissertation
Units: 1 Terms Offered: FaSpSm Preparation of initial dissertation proposal. Instruction Mode: Lecture Grading Option: Credit/No Credit

EDUC 792 Critique of Research in Education
Units: 3 Terms Offered: FaSp A survey and critical analysis of selected research and literature. Open to students admitted to the EdD only. Instruction Mode: Lecture Grading Option: Credit/No Credit

EDUC 794a Doctoral Dissertation
Units: 2 Terms Offered: FaSp Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

EDUC 794b Doctoral Dissertation
Units: 2 Terms Offered: FaSp Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

EDUC 794c Doctoral Dissertation
Units: 2 Terms Offered: FaSp Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

EDUC 794d Doctoral Dissertation
Units: 2 Terms Offered: FaSp Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

EDUC 794z Doctoral Dissertation
Units: 0 Terms Offered: FaSp Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

Education Expanded

EDUE 560 Identity and Diversity
Units: 3 Explore the historical and contemporary foundations of hierarchies and relationships of power, sociocultural diversity of experiences and sociopolitical resistance within higher education. Registration Restriction: Open only to Postsecondary Administration and Student Affairs majors Duplicates Credit in EDHP 552 Instruction Mode: Lecture Grading Option: Letter

EDUE 563 History of Higher Education
Units: 3 Terms Offered: Fa Examination of roles and functions of higher education from historical and contemporary perspectives, with a focus on equity and urban education. Registration Restriction: Open only to USC Rossier School of Education PASA students Duplicates Credit in EDHP 500 and EDUC 508 Instruction Mode: Lecture Grading Option: Letter

EDUE 571 Research Methods and Applied Educational Ethnography
Units: 3 Terms Offered: Sp Explore the use of quantitative, qualitative and mixed methods research to explore problems/ opportunities of practice in higher education. Registration Restriction: Open only to Postsecondary Administration and Student Affairs majors Duplicates Credit in EDHP 551 and EDUC 570 Instruction Mode: Lecture Grading Option: Letter

EDUE 596 Internship for Curricular Practical Training
Units: 1, 2, 3 Max Units: 03 Terms Offered: FaSpSm Part-time or full-time, practical work experience in the student's field of study. The internship must be located at an off-campus facility. Students are individually supervised by faculty. May not be taken until the student has completed at least one semester of enrollment in the graduate program with a cumulative 3.0 GPA. Registration Restriction: Open only to graduate students Instruction Mode: Lecture Grading Option: Credit/No Credit

EDUE 700 Foundations in Urban Education
Units: 3 Terms Offered: Fa Explores urban P-20 education through social, historical, and political lenses and how research and policy shape professional practice in Los Angeles and the United States. Instruction Mode: Lecture Grading Option: Letter

EDUE 701 Foundations in Leadership in Education
Units: 3 Terms Offered: Fa Provides foundational knowledge about leadership theory and practice to support students' development as critically conscious leaders who take action to address inequities in urban contexts. *Concurrent Enrollment:* EDUE 700 Duplicates Credit in EDUC 524 Instruction Mode: Lecture Grading Option: Letter

EDUE 702 Foundations in Learning
Units: 3 Terms Offered: Sp Supports the development of critically conscious leaders who facilitate learning in urban contexts by understanding how culture, identity and power influence learners' opportunities to learn. *Prerequisite:* EDUE 700 and EDUE 701 Duplicates Credit in EDUC 525 Instruction Mode: Lecture Grading Option: Letter

EDUE 703 Power, Diversity and Equity
Units: 3 Terms Offered: Sp Explores power, diversity and equity through the social, historical, and political lenses as these constructs shape and impact education (P-20) research, policy and professional practice. *Prerequisite:* EDUE 700 Duplicates Credit in EDUC 523 Instruction Mode: Lecture Grading Option: Letter

EDUE 704 Leadership Enactment
Units: 3 Terms Offered: Sm Provides students with the opportunity to acquire or deepen knowledge and skills related to acting as a critically conscious leaders who address existing educational inequities. *Prerequisite:* EDUE 700 and EDUE 701 Instruction Mode: Lecture Grading Option: Letter

EDUE 705 Communicating as Leaders
Units: 3 Terms Offered: Fa Develops critically conscious leaders' ability to communicate effectively and in innovative ways with multiple audiences in multiple formats including scholarly, internal and external communications. *Prerequisite:* EDUE 700 and EDUE 701 and EDUE 702 and EDUE 703 and EDUE 704 Instruction Mode: Lecture Grading Option: Letter

EDUE 718 Leading for Instructional Improvement
Units: 3 Terms Offered: Sm Improves K-12 practitioners' instructional leadership capacity, addressing power and its impact on creating and perpetuating educational inequities for historically marginalized and minoritized children and adults. Instruction Mode: Lecture Grading Option: Letter

EDUE 722 Leading Transformational Learning
Units: 3 Terms Offered: Sm Explores the macro context of policies, structures and procedures that affect those who are responsible for the education of teachers in K-12 and higher education. *Prerequisite:* EDUE 700 and EDUE 702 Registration Restriction: Open only to Educational Leadership Doctoral Students in Rossier Instruction Mode: Lecture Grading Option: Letter

EDUE 723 Curriculum and Instructional Leadership
Units: 3 Terms Offered: Fa Social, political, economic and scholarly factors determining curriculum and instructional design and implementation and implications for formal and informal leaders in P-20 contexts are explored. *Prerequisite:* EDUE 722 Instruction Mode: Lecture Grading Option: Letter

EDUE 724 Culturally Responsive Educational Leadership
Units: 3 Terms Offered: Sm Prepares education leaders to enact culturally responsive change in order to transform teaching, learning, and educational practices in their urban professional context. *Prerequisite:* EDUE 723 Instruction Mode: Lecture Grading Option: Letter

EDUE 725 Inter-Disciplinary Curriculum, Instruction and Assessment P-20
Units: 3 Terms Offered: FaSpSm Educational leaders utilize spatial data and technologies to study their leadership trajectories across urban P-20 settings and bring inter-disciplinary approaches to curriculum, instruction, and assessment. *Prerequisite:* EDUE 724 Instruction Mode: Lecture Grading Option: Letter

EDUE 726 Research Methods 1
Units: 3 Terms Offered: Fa Explores the historically complex relationship between education research, education (in)equity and personal practice, and will highlight the possibilities of research to foster justice in education through the examination of the utility of basic and applied quantitative, qualitative and mixed methods research. Instruction Mode: Lecture Grading Option: Letter

EDUE 727 Research Methods 2
Units: 3 Terms Offered: Sp Building on Research Methods 1, students learn to implement a research design by conducting pilot studies to answer quantitative and qualitative research questions. *Prerequisite:* EDUE 726 *Corequisite:* EDUE 780a Instruction Mode: Lecture Grading Option: Letter

EDUE 780a Dissertation in Practice
Units: 3 Terms Offered: Sp Supports students to prepare a literature review, overview of methodology and other

contextual writing for their dissertations in practice and prepare for the qualifying exam. *Prerequisite:* EDUE 726 *Corequisite:* EDUE 727 Duplicates Credit in EDUC 792 Instruction Mode: Lecture Grading Option: Credit/No Credit

EDUE 780b Dissertation in Practice
Units: 2 Terms Offered: Sm Builds on EDUE 780a as students finalize their literature reviews, overview of methodology and other contextual writing for the dissertation in practice and qualifying exam. *Prerequisite:* EDUE 726 and EDUE 727 and EDUE 780a Duplicates Credit in EDUC 794a and EDUC 794b Instruction Mode: Lecture Grading Option: Credit/No Credit

EDUE 784a Dissertation in Practice, Data Analysis
Units: 2 Terms Offered: FaSp Builds students' knowledge and skills for analyzing quantitative and qualitative data and reporting results and findings for their Dissertations in Practice. *Prerequisite:* EDUE 726 and EDUE 727 and EDUE 780a and EDUE 780b Instruction Mode: Lecture Grading Option: In Progress and Credit/ No Credit

EDUE 784b Dissertation in Practice, Data Analysis
Units: 2 Terms Offered: FaSpSm Builds students' knowledge and skills for analyzing quantitative and qualitative data and reporting results and findings for their Dissertations in Practice. *Prerequisite:* EDUE 780a and EDUE 780b and EDUE 784a Instruction Mode: Lecture Grading Option: In Progress and Credit/No Credit

EDUE 784c Dissertation in Practice, Data Analysis
Units: 2 Terms Offered: FaSpSm Builds students' knowledge and skills for analyzing quantitative and qualitative data and reporting results and findings for their Dissertations in Practice. *Prerequisite:* EDUE 780a and EDUE 780b and EDUE 784b Instruction Mode: Lecture Grading Option: In Progress and Credit/No Credit

EDUE 784d Dissertation in Practice, Data Analysis
Units: 2 Terms Offered: FaSpSm Builds students' knowledge and skills for analyzing quantitative and qualitative data and reporting results and findings for their Dissertations in Practice. *Prerequisite:* EDUE 780a and EDUE 780b and EDUE 784c Instruction Mode: Lecture Grading Option: In Progress and Credit/No Credit

EDUE 784z Dissertation in Practice, Data Analysis
Units: 0 Terms Offered: FaSpSm Builds students' knowledge and skills for analyzing quantitative and qualitative data and reporting results and findings for their Dissertations in Practice. *Prerequisite:* EDUE 780a and EDUE 780b and EDUE 784d Instruction Mode: Lecture Grading Option: In Progress and Credit/No Credit

Electrical Engineering

EE 101 Introduction to Digital Logic
Units: 3 Terms Offered: FaSp Boolean algebra; number systems; Boolean function synthesis; binary arithmetic; codes; combinational logic devices; sequential circuits; state machine design and implementation. Duplicates Credit in former EE 154. Instruction Mode: Lecture, Discussion Grading Option: Letter Crosslisted as CSCI-110

EE 105 Introduction to Electrical Engineering
Units: 4 Terms Offered: Fa Electrical engineering overview: communications, computers, circuits, components, signals, electromagnetics, microelectronics; data encoding and compression, USPS and UPC product codes, DVDs, semiconductor devices, and integrated circuits. Instruction Mode: Lecture, Lab Grading Option: Letter

EE 109L Introduction to Embedded Systems
Units: 4 Terms Offered: Fa Information representations, embedded programming, digital and serial I/O, analog-to-digital conversion, and interrupt mechanisms. Elementary analog, logic, and state-machine design. *Corequisite:* EE 155L or CSCI 103L Instruction Mode: Lecture, Lab Required Grading Option: Letter

EE 141L Applied Linear Algebra for Engineering
Units: 4 Introduction to linear algebra with engineering applications. Weekly laboratory exercises using MATLAB. Duplicates Credit in former EE 241 Instruction Mode: Lecture, Lab Required Grading Option: Letter

EE 155L Introduction to Computer Programming for Electrical Engineers
Units: 4 Terms Offered: Fa Introduction to solving engineering problems using computational methods. Survey of various programming languages and their strengths and weaknesses. Program structure, input/output, conditionals, loops, functions, arrays. Instruction Mode: Lecture, Lab Required Grading Option: Letter

EE 202L Linear Circuits
Units: 4 Lumped circuit elements; network equations; zero-input and zerostate responses; sinusoidal steady-state analysis; impedance; resonance; network functions; power concepts; transformers; Laplace transforms. *Corequisite:* MATH 245 Instruction Mode: Lecture, Lab Required Grading Option: Letter

EE 250L Distributed Systems for the Internet of Things
Units: 4 Introduction to hardware, operating systems, signal processing and control, network protocols, mobile applications, databases, cloud computing, machine learning and security for the Internet of Things. *Prerequisite:* EE 109L and (EE 155L or CSCI 103L) *Recommended Preparation:* Experience with DIY electronics, Linux and programming in a distributed, networked environment Registration Restriction: Open only to students with at least a sophomore standing Instruction Mode: Lecture, Lab Required Grading Option: Letter

EE 301L Linear Systems
Units: 4 Terms Offered: FaSp Representation and analysis of linear time-invariant systems primarily for the continuous time case. Convolution, Fourier series and transform, Laplace transform, controls and communications applications. *Prerequisite:* EE 141L and EE 202L Instruction Mode: Lecture, Lab Grading Option: Letter

EE 322 Introduction to Digital Audio and Acoustics
Units: 4 Terms Offered: Fa Fundamentals of digital audio along with an in-depth examination of the key factors that affect audio quality: room acoustics and human perception (psychoacoustics). *Recommended Preparation:* Matlab basic proficiency *Corequisite:* EE 301L Instruction Mode: Lecture Grading Option: Letter

EE 326Lx Essentials of Electrical Engineering
Units: 4 Network analysis and theorems; transient analysis; transformers; semiconductor physics and circuits; power amplifiers, modulation and demodulation, and pulse, digital, and switching circuits. Introduction to instrumentation. *Prerequisite:* PHYS 152L, MATH 126. Instruction Mode: Lecture, Lab Required Grading Option: Letter

EE 337L Engineering Nano-Systems
Units: 3 Terms Offered: Sp Methods to control and exploit the phenomena of nanoscience, and the integration of nano-technology into systems. Development of fundamental concepts through a series of experimental modules. *Prerequisite:* PHYS 152. Duplicates Credit in former EE 238L. Instruction Mode: Lecture, Lab Grading Option: Letter

EE 338 Physical Electronics
Units: 4 Semiconductor device characteristics and applications. Physical models of electronic conduction in solids, p-n junctions, bipolar and field effect transistors and other solid-state devices. *Prerequisite:* EE 202L and PHYS 152L Instruction Mode: Lecture, Discussion Grading Option: Letter

EE 348L Electronic Circuits
Units: 4 Terms Offered: FaSp Basic analog and digital circuit design using Bipolar Junction Transistors, Field Effect Transistors and integrated circuits. *Corequisite:* EE 338. Instruction Mode: Lecture, Lab Required Grading Option: Letter

EE 352L Computer Organization and Architecture
Units: 3 Computer organization and architecture. Concepts include: computer evolution and performance, system busses, cache memory, internal and external memory, input/output, operating system support, computer arithmetic. *Prerequisite:* CSCI 104. Instruction Mode: Lecture, Lab Required Grading Option: Letter Crosslisted as CSCI-352

EE 354L Introduction to Digital Circuits
Units: 4 Digital system design and implementation; synchronous design of datapath and control; schematic/ Verilog-based design, simulation, and implementation in Field Programmable Gate Arrays; timing analysis; semester-end project. *Prerequisite:* EE 109L Duplicates Credit in former EE 254 Instruction Mode: Lecture, Lab Required Grading Option: Letter

EE 355x Software Design for Electrical Engineers
Units: 4 Object-oriented programming techniques, basic data structures, and elementary complexity analysis for the modeling, simulation, and solution of

engineering problems. *Prerequisite:* EE 155L Credit Restriction: Not available for credit for CSCI, CSGM, CSBA, or CECS majors Duplicates Credit in former CSCI 355x Instruction Mode: Lecture, Lab Grading Option: Letter

EE 364 Introduction to Probability and Statistics for Electrical Engineering and Computer Science
Units: 4 Terms Offered: FaSp Introduction to concepts of randomness and uncertainty: probability, random variables, statistics. Applications to digital communications, signal processing, automatic control, computer engineering and computer science. *Prerequisite:* MATH 225 or MATH 245 Instruction Mode: Lecture, Discussion Grading Option: Letter

EE 370 Electromagnetics for Engineering Systems
Units: 4 Electromagnetic plane-wave propagation and interactions with simple media, transmission/reception of wireless signals in complex environments. Optimization design methods for system applications. *Prerequisite:* PHYS 172L or PHYS 162L Instruction Mode: Lecture, Discussion, Lab Required Grading Option: Letter

EE 390 Special Problems
Units: 1, 2, 3, 4 Supervised, individual studies. No more than one registration permitted. Enrollment by petition only. Instruction Mode: Lecture Grading Option: Letter

EE 415 Introduction to MEMS
Units: 3 (Enroll in AME 455)

EE 422x Electromagnetic Systems Design
Units: 3 Terms Offered: FaSp Applied electromagnetics for large- and small-scale electromechanical systems. Comprehensive design project. Capstone design experience. *Prerequisite:* EE 330. Instruction Mode: Lecture Grading Option: Letter

EE 434Lx Digital Signal Processing Design Laboratory
Units: 4 Experiments and design project in digital signal processing (e.g., real-time DSP, acoustics, video) including: systems specification, preliminary analysis, trade-off studies, implementation, presentation. Capstone design experience. *Prerequisite:* EE 483. Instruction Mode: Lecture, Lab Required Grading Option: Letter

EE 436 Introduction to Condensed Matter Physics
Units: 4 Terms Offered: Irregular, Sp (Enroll in PHYS 440)

EE 439 Principles of Semiconductor Processing
Units: 3 (Enroll in MASC 439)

EE 443 Introduction to Power Systems
Units: 4 Components of power systems; analysis techniques in electrical power generation transmission and utilization; and environmental and economic considerations in system operations and planning. *Prerequisite:* EE 370 Instruction Mode: Lecture Grading Option: Letter

EE 444 Power Systems Technology
Units: 4 Terms Offered: Fa Comprehensive assessment of the technical, environmental, and regulatory challenges that affect the future delivery and utilization of electric power. Case-study analysis. *Prerequisite:* EE 202L Instruction Mode: Lecture Grading Option: Letter

EE 445 Introduction to Robotics
Units: 4 (Enroll in CSCI 445)

EE 447Lx Mixed Signal Electronic Circuits
Units: 4 Application of solid-state electronic devices to the design of linear and mixed-signal systems. Laboratory experiments and projects involving the design of electronic hardware. Capstone design experience. *Prerequisite:* EE 348. Instruction Mode: Lecture, Lab Required Grading Option: Letter

EE 448L Communication Electronics
Units: 4 Terms Offered: FaSp Analysis, design, and experimental evaluation of transistor-level communication circuits and micro-systems. Transmission lines, impedance matching, noise, distortion, tuned amplifiers, mixers, oscillators, phase-locked loops. *Prerequisite:* EE 348. Instruction Mode: Lecture, Lab Required Grading Option: Letter

EE 450 Introduction to Computer Networks
Units: 4 Terms Offered: FaSpSm Network architectures; layered protocols, network service interface; local, wide area, wireless networks; Internet protocols; link protocols; addressing; routing; flow control; software defined network; multimedia networks. Registration Restriction: Open only to junior, senior and graduate students Duplicates Credit in CSCI 353 Instruction Mode: Lecture, Discussion, Quiz Grading Option: Letter Crosslisted as CSCI 450

EE 451 Parallel and Distributed Computation
Units: 4 Introduction to parallel programming techniques, models and optimization strategies; Application mapping to multi-core, accelerator, GPU and cloud platforms; High Performance Computing and Data Science applications. *Prerequisite:* EE 355x or CSCI 201L *Recommended Preparation:* High-level programming Instruction Mode: Lecture, Lab Grading Option: Letter Crosslisted as CSCI 452

EE 452L Game Hardware Architectures
Units: 3 Terms Offered: Fa Architectural principles underlying modern game console hardware design; introduction to the programming techniques, optimization strategies, and hardware insights to create powerful games. *Prerequisite:* EE 352. Instruction Mode: Lecture, Lab Required Grading Option: Letter Crosslisted as CSCI-452

EE 453 Computing Platforms and Paradigms
Units: 4 Microarchitecture performance, storage technologies, FPGA and GPU architecture, and cloud-based architectures combining heterogeneous processing resources. Programming paradigms including CUDA, MapReduce and OpenMP. *Prerequisite:* EE 250L Instruction Mode: Lecture, Discussion Grading Option: Letter

EE 454L Introduction to System-on-Chip
Units: 4 Terms Offered: Fa Design flow, tools, and issues related to System/Network-on-Chip (S/Noc) design for real-time embedded systems with applications in mobile, cloud, aerospace, and medical electronics. *Prerequisite:* EE 354. Instruction Mode: Lecture, Lab Required Grading Option: Letter Crosslisted as CSCI 454

EE 455x Introduction to Programming Systems Design
Units: 4 (Enroll in CSCI 455)

EE 457 Computer Systems Organization
Units: 4 Terms Offered: FaSpSm Register Transfer level machine organization; performance; arithmetic; pipelined processors; exceptions, out-of-order and speculative execution, cache, virtual memory, multi-core multi-threaded processors, cache coherence. *Prerequisite:* EE 354 Instruction Mode: Lecture, Discussion, Quiz Grading Option: Letter Crosslisted as CSCI 457

EE 459Lx Embedded Systems Design Laboratory
Units: 4 Terms Offered: Sp Specification, design, implementation, testing and documentation of a digital system project using embedded processors, programmable logic, analog I/O interfaces and application specific hardware. Capstone design experience. *Prerequisite:* EE 354L *Recommended Preparation:* Proficient in programming in the "C" language; knowledge of programming on the level of EE 155L or CSCI 103L Registration Restriction: Open only to seniors Credit Restriction: Not available for graduate credit Instruction Mode: Lecture, Lab Required Grading Option: Letter

EE 467 Introduction to Communication Systems
Units: 3 Analog and digital communication systems. (De)modulation and (de) multiplexing of AM/FM/PM, noise, digital data formats, error rates, and spectral analysis. Review of wireless, networking, and optical systems. *Prerequisite:* EE 301. Instruction Mode: Lecture Grading Option: Letter

EE 470L Electromagnetic Wave Engineering
Units: 4 Application of Maxwell's equations to electromagnetic waves and electrical engineering devices. *Prerequisite:* EE 370 *Recommended Preparation:* Familiarity with MATLAB Instruction Mode: Lecture, Lab Grading Option: Letter

EE 471 Applied Quantum Mechanics for Engineers
Units: 4 Introductory quantum mechanics and applications. Schrodinger equation, atomic and molecular processes, time-dependent perturbation theory. Applications to lasers, solid-state demos and gaseous devices. *Prerequisite:* EE 470L Instruction Mode: Lecture Grading Option: Letter Crosslisted as MASC 471

EE 472 Introduction to Lasers and Laser Systems
Units: 3 Terms Offered: Fa Electric dipole transitions; traveling wave and resonant amplifiers; laser pumping and rate equations; threshold, frequency, and power output of lasers; holography; laser

communication systems. *Corequisite:* EE 470. Instruction Mode: Lecture Grading Option: Letter Crosslisted as PHYS-472

EE 473L Lasers and Optics Laboratory
Units: 3 Terms Offered: Sp Introductory design/research laboratory in lasers and optics, which typically includes fiber optics, photonics, electro-optics, optical sensors, optical communication, optical signal processing and computing. *Corequisite:* EE 470. Instruction Mode: Lab Required, Lecture Grading Option: Letter Crosslisted as PHYS-473

EE 475 Wireless Communication Technology
Units: 3 Terms Offered: FaSpSm Fundamentals of wireless communication from a device point of view. Lab experiments and design project. *Recommended Preparation:* EE 467 Instruction Mode: Lecture Grading Option: Letter

EE 476 Chemical Engineering Materials
Units: 4 Terms Offered: Fa (Enroll in CHE 476)

EE 477L MOS VLSI Circuit Design
Units: 4 Terms Offered: FaSpSm Analysis and design of digital MOS VLSI circuits including area, delay and power minimization. Laboratory assignments including design, layout, extraction, simulation and automatic synthesis. *Prerequisite:* EE 338 or EE 354L Instruction Mode: Lecture, Lab Required Grading Option: Letter

EE 479 Analog Integrated Circuit Design
Units: 4 Terms Offered: Sp MOSFET and BJT operation and models; elementary amplifier configurations; biasing and references; frequency response; feedback; operational amplifiers. *Prerequisite:* EE 348. Instruction Mode: Lecture, Discussion Grading Option: Letter

EE 481L Control Systems Laboratory
Units: 3 Terms Offered: Sp (Enroll in AME 443)

EE 482 Linear Control Systems
Units: 4 Terms Offered: FaSpSm Analysis of linear time-invariant (LTI) control systems; stability of LTI systems; frequency response, proportional-integral-differential (PID) and root-locus compensation techniques. *Prerequisite:* EE 301L Duplicates Credit in AME 451 Instruction Mode: Lecture, Lab Grading Option: Letter

EE 483 Introduction to Digital Signal Processing
Units: 4 Terms Offered: FaSp Fundamentals of digital signal processing covering: discrete time linear systems, quantization, sampling, Z-transforms, Fourier transforms, FFTs and filter design. *Prerequisite:* EE 301L *Recommended Preparation:* Familiarity with MATLAB Instruction Mode: Lecture, Discussion Grading Option: Letter

EE 484x Communication System Design
Units: 3 Terms Offered: Sp Design and analysis of analog and digital communication systems. System models, requirements, development, performance analysis and component selection techniques. Comprehensive system design project. Capstone design experience. *Prerequisite:* EE 364, EE 475; *Recommended Preparation:* EE 467. Instruction Mode: Lecture Grading Option: Letter

EE 490x Directed Research
Units: 1, 2, 3, 4, 5, 6, 7, 8 Max Units: 12.0 Individual research and readings. Instruction Mode: Lecture Grading Option: Letter

EE 492a Undergraduate Project
Units: 2 For the undergraduate degree. Credit on acceptance of project. In Progress (IP) (EE 492a) or letter grade (EE 492b). Instruction Mode: Lecture Grading Option: In Progress to Letter

EE 492b Undergraduate Project
Units: 2 For the undergraduate degree. Credit on acceptance of project. In Progress (IP) (EE 492a) or letter grade (EE 492b). *Prerequisite:* EE 492a Instruction Mode: Lecture Grading Option: Letter

EE 494a Undergraduate Thesis
Units: 2 For the undergraduate degree. Credit on acceptance of thesis. IP (EE 494a) or letter grade (EE 494b). Registration Restriction: Open only to seniors Instruction Mode: Lecture Grading Option: In Progress/Letter

EE 494b Undergraduate Thesis
Units: 2 For the undergraduate degree. Credit on acceptance of thesis. IP (EE 494a) or letter grade (EE 494b). *Prerequisite:* EE 494a Registration Restriction: Open only to seniors Instruction Mode: Lecture Grading Option: Letter

EE 496 Capstone Design
Units: 4 Capstone design project for the undergraduate degree. Project topics vary from semester to semester. Instruction Mode: Lecture Grading Option: Letter

EE 499 Special Topics
Units: 2, 3, 4 Max Units: 8.0 Course content will be selected each semester from current developments in the field of electrical engineering. Instruction Mode: Lecture Grading Option: Letter

EE 501 Solid State
Units: 4 Terms Offered: Sp (Enroll in MASC 501)

EE 502 Advanced Solid State
Units: 3 (Enroll in MASC 502)

EE 503 Probability for Electrical and Computer Engineers
Units: 4 Terms Offered: FaSp Rigorous coverage of probability, discrete and continuous random variables, functions of multiple random variables, covariance, correlation, random sequences, Markov chains, estimation, and introduction to statistics. Duplicates Credit in EE 464 and EE 465. Instruction Mode: Lecture, Discussion Grading Option: Letter

EE 504L Solid-State Processing and Integrated Circuits Laboratory
Units: 4 Laboratory oriented with lectures keyed to practical procedures and processes. Solid-state fabrication and analysis fundamentals; basic device construction techniques. *Prerequisite:* EE 507 or EE 508 *Recommended Preparation:* Basic theory of semiconductor devices, including pn junction diodes and MOSFETs (EE 338 or equivalent). Registration Restriction: Open only to graduate students Instruction Mode: Lecture, Lab Required Grading Option: Letter

EE 505 Analog, Mixed-Signal, and RF Integrated-Circuit Tape-Out
Units: 4 Terms Offered: Sm Complete systematic tape-out flow including schematic design, simulation, layout and post-layout verification of analog, mixed-signal or radio-frequency integrated circuits. *Prerequisite:* EE 536a Instruction Mode: Lecture Grading Option: Letter

EE 506 Semiconductor Physics
Units: 4 Terms Offered: FaSp Semiconductor bonds, crystallography, band structure assumptions, group theory, band structure results, k.p. method, quantum wells, wires and dots, superlattices, amorphous, organic semiconductors, defects, statistics, surfaces. *Prerequisite:* MASC 501 and EE 471 Instruction Mode: Lecture Grading Option: Letter Crosslisted as MASC 506

EE 507 Micro- and Nano-Fabrication Technology
Units: 4 Terms Offered: Sp Physical basis of technologies for the fabrication of micro- and nano-scale devices. Thin-film deposition, etching, and material modification processes; pattern transfer methods. *Recommended Preparation:* graduate standing in engineering, physics, or chemistry Duplicates Credit in former EE 508 Instruction Mode: Lecture Grading Option: Letter Crosslisted as MASC 507

EE 509 Nanophotonics and Metamaterials
Units: 4 Overview of electromagnetic theory and numerical design needed to understand and design photonic devices. Includes discussion of integrated photonic waveguides and resonant cavities, photonic crystals, plasmonics, and metamaterials. *Prerequisite:* EE 470L *Recommended Preparation:* prior coursework in solid-state physics, quantum mechanics, and electromagnetics, prior experience using MATLAB Instruction Mode: Lecture Grading Option: Letter

EE 510 Linear Algebra for Engineering
Units: 4 Terms Offered: FaSp Introduction to linear algebra and matrix theory and their underlying concepts; applications to engineering problems; mathematically rigorous and foundational to other classes in communication, control, and signal processing. *Recommended Preparation:* EE 141L and MATH 445 or equivalent (calculus, undergraduate linear algebra, matrix theory) Instruction Mode: Lecture, Discussion Grading Option: Letter

EE 511 Simulation Methods for Stochastic Systems
Units: 1 Project-oriented investigation of simulation methods used for the analysis and design of complex stochastic systems whose operation and performance are affected by random events. *Recommended Preparation:* MatLab programming experience. *Corequisite:* EE 503; Instruction Mode: Lecture Grading Option: Letter

EE 512 Stochastic Processes
Units: 3 Probability theory and stochastic processes, including renewal theory, Markov chains, Brownian motion, martingales, and stochastic calculus. Applications in communication networks, queuing theory and financial systems. *Prerequisite:* EE 503 and (EE 441 or EE

510 or EE 518) Instruction Mode: Lecture, Discussion Grading Option: Letter

EE 513 Solid State Energy Devices
Units: 3 Design and operation of solar photovoltaic energy converters, thermovoltoic energy converters, thermoelectric energy converters, and solid state light emitters; their roles in renewal and conservation of energy. *Recommended Preparation:* EE 338. Instruction Mode: Lecture Grading Option: Letter

EE 514 Quantum Error Correction
Units: 4 A comprehensive introduction to quantum error correction and decoherence control, from the basics to the cutting edge, enabling students to delve into current research topics. *Recommended Preparation:* EE 520 Instruction Mode: Lecture Grading Option: Letter

EE 515 High-Voltage Technology
Units: 3 High voltage engineering basic concepts; theoretical, design, and practical aspects of overvoltages, travelling-waves, insulation, and aging; breakdown mechanisms; insulation coordination. Instruction Mode: Lecture Grading Option: Letter

EE 516 High-Voltage DC Transmission Systems
Units: 4 AC/DC conversion processes, converter technologies, and design; harmonics, controls, and protection; AC/DC interactions and system performance; modeling, application, and installation; current-source versus voltage-source converters. *Prerequisite:* EE 443 Instruction Mode: Lecture Grading Option: Letter

EE 517 Statistics and Data Analysis for Engineers
Units: 4 Terms Offered: FaSpSm Statistics and data analysis emphasizing computation and problem solving: confidence intervals, hypothesis tests, bootstrap and Monte Carlo estimation, regression, Bayesian and statistical learning techniques. *Prerequisite:* EE 503 Instruction Mode: Lecture, Discussion Grading Option: Letter

EE 518 Mathematics and Tools for Financial Engineering
Units: 4 Students will build a mathematical background for studying financial engineering. Emphasis is on analysis, proofs and examples. Mathwork's financial toolbox will be introduced. Instruction Mode: Lecture, Discussion Grading Option: Letter

EE 519 Speech Recognition and Processing for Multimedia
Units: 3 Terms Offered: Fa Speech production, acoustics, perception, synthesis, compression, recognition, transmission. Coding for speech, music, and CD-quality. Feature extraction. Echo cancellation. Audio, visual synchronization. Multimedia, internet use. *Prerequisite:* EE 483. Instruction Mode: Lecture Grading Option: Letter

EE 520 Introduction to Quantum Information Processing
Units: 4 Terms Offered: FaSpSm Basics of quantum computation and information: quantum bits and registers, unitary gates, algorithms, error correction and cryptography. Experimental realizations and near-term quantum technology. *Recommended Preparation:* An advanced course in complex linear algebra, such as EE 510 Instruction Mode: Lecture Grading Option: Letter

EE 521 Power Systems Analysis and Design
Units: 4 Power system planning, studies, and design; time-domain modeling and analysis of power-system networks; power flow, stability, fault, and economic dispatch analysis; symmetrical components. *Prerequisite:* EE 443 Instruction Mode: Lecture Grading Option: Letter

EE 522 Immersive Audio Signal Processing
Units: 4 Terms Offered: Sp Fundamentals of room acoustics, human perception (psychoacoustics) and digital audio signal processing algorithms to create immersive audio environments. *Recommended Preparation:* Familiarity with the basics of linear signals and systems, Fourier Transforms, Filters, Matlab proficiency, all at the level of EE 301L Instruction Mode: Lecture Grading Option: Letter

EE 523 Advanced Biomedical Imaging
Units: 4 Terms Offered: Sp (Enroll in BME 525)

EE 524 Transients in Power Systems
Units: 3 Overvoltages during faults, voltage recovery, arcing faults, restrikes, theory of switching surges. Systems grounding, traveling waves, lightning and surge protection, insulation coordination. *Prerequisite:* EE 443. Instruction Mode: Lecture Grading Option: Letter

EE 525 Power System Protection
Units: 4 Theory of system and equipment protection, characteristics of relays, relay coordination, and system considerations. *Prerequisite:* EE 443 Instruction Mode: Lecture Grading Option: Letter

EE 526 Renewable Energy in Power Systems
Units: 4 Renewable energy sources and their integration in electrical networks. Power-flow control from highly variable resources. Cost analysis and planning. Instruction Mode: Lecture Grading Option: Letter

EE 527 Net-Centric Power-System Control
Units: 3 Terms Offered: FaSpSm Control and stability of large-scale systems such as the electric power grid. Integration with information networks. *Recommended Preparation:* EE 482. *Corequisite:* EE 521; Instruction Mode: Lecture Grading Option: Letter

EE 528 Power Electronics
Units: 4 Terms Offered: Fa Fundamentals of switched-mode power converters operating under steadystate and transient conditions. Feedback control systems. Magnetic circuit design. *Prerequisite:* EE 443 Instruction Mode: Lecture Grading Option: Letter

EE 529 Optics
Units: 4 Geometrical optics, electromagnetic wave propagation, reflection and refraction at interfaces, imaging with lenses and mirrors, optics of the eye, optical instruments (microscopes/ telescopes/ cameras), and polarization. *Recommended Preparation:* EE 470 or graduate standing Instruction Mode: Lecture, Discussion Grading Option: Letter

EE 530 Optical Materials, Instruments and Devices
Units: 4 Optical materials and devices; design and theory of selected optical instruments and components; properties of modulators; optical sources and detectors; emerging technologies relevant to system design. *Prerequisite:* EE 529 Instruction Mode: Lecture Grading Option: Letter

EE 531 Nonlinear Optics
Units: 4 Theory of nonlinear optical susceptibility and application to self-focusing, harmonic generation, and parametric interactions. Raman and Brillouin scattering. Coherent spectroscopy. *Prerequisite:* EE 470L *Recommended Preparation:* Familiarity with Maxwell's equations Instruction Mode: Lecture Grading Option: Letter

EE 532 Wireless Internet and Pervasive Computing
Units: 3 Terms Offered: Fa Wireless Internet access technologies, 3G cellular systems, WAP and PKI protocols, mobile computing devices, network security for mobile E-commerce, software and middleware for pervasive, cluster, grid, and Internet computing. *Prerequisite:* EE 450; *Recommended Preparation:* EE 457. Instruction Mode: Lecture Grading Option: Letter

EE 533 Network Processor Design and Programming
Units: 3 Terms Offered: Sp Understanding of network processor architecture, applications, and other relevant issues. Program network processor and test under realistic network environment. Design and deploy custom network processor. *Prerequisite:* EE 457; *Recommended Preparation:* EE 450. Instruction Mode: Lecture Grading Option: Letter

EE 534 Materials Characterization
Units: 4 Terms Offered: Fa (Enroll in MASC 534)

EE 535 Wireless Communications
Units: 4 Terms Offered: Sp The mobile communication channel; techniques used to combat the channel; cellular communications; multiple-access techniques; example mobile communication systems. *Prerequisite:* EE 503 *Recommended Preparation:* Basic electromagnetic theory, digital communications systems; EE 510 Instruction Mode: Lecture, Discussion Grading Option: Letter

EE 536a Analog Integrated Circuits
Units: 4 MOSFET operation and models; elementary amplifier configurations; biasing and references; frequency response; noise; feedback; operational amplifiers; frequency compensation; non-linearity and mismatch; passive and active filters. *Prerequisite:* EE 348L Instruction Mode: Lecture, Discussion Grading Option: Letter

EE 536b Analog Integrated Circuits
Units: 4 Terms Offered: Sp Advanced topics in analog integrated circuits: Advanced feedback concepts; active filters; ultra-low-power and ultra-low-voltage subthreshold design; analog signal processing for

machine learning and artificial intelligence. *Prerequisite:* EE 536a Instruction Mode: Lecture, Discussion Grading Option: Letter

EE 537 Modern Solid-State Devices
Units: 4 Terms Offered: Fa Integrated-circuit technologies for mixed-signal communication and data systems. Constituent device models and their limitations. Contemporary research topics. *Prerequisite:* EE 338 Instruction Mode: Lecture Grading Option: Letter

EE 538 Computing Principles for Electrical Engineers
Units: 2 Terms Offered: Sp Survey of computing principles and practice of software design: object-oriented and non object-oriented, testing, template libraries, time-space complexity, data structures, algorithms, and dynamic programming. *Recommended Preparation:* Exposure to computer programming Instruction Mode: Lecture, Discussion Grading Option: Letter

EE 539 Engineering Quantum Mechanics
Units: 4 Terms Offered: Fa Quantum mechanics for engineering majors who work with solid-state devices, quantum electronics, and photonics. Schroedinger equation, perturbation theory, electronic and optical processes. *Recommended Preparation:* Experience with linear algebra, Newtonian mechanics, Maxwell's equations, and MATLAB Instruction Mode: Lecture, Quiz Grading Option: Letter Crosslisted as MASC 539

EE 540 Introduction to Quantum Electronics
Units: 4 Fundamentals of light amplification; laser amplifiers and oscillators; atomic pumping; maser and laser systems; definitions of coherence; measurements in quantum electronics. *Prerequisite:* EE 470L *Recommended Preparation:* Quantum Mechanics at the level of EE 471 or (PHYS 438a and PHYS 438b) Instruction Mode: Lecture Grading Option: Letter

EE 541 A Computational Introduction to Deep Learning
Units: 2 Terms Offered: Fa Deep learning frameworks for training multilayer perceptrons, convolutional and recurrent neural networks; Python, virtual environments, linux and shell scripting, cloud computing, including GPUs and datasets. *Recommended Preparation:* Graduate standing and a typical undergraduate ECE background including the equivalent of EE 105 and EE 155L and some exposure to a high-level scripting language such as Python or Matlab. *Corequisite:* EE 503 and EE 510 Instruction Mode: Lecture Grading Option: Letter

EE 542 Internet and Cloud Computing
Units: 3 Terms Offered: Fa Principles and technologies of server clusters, virtualized datacenters, Grids/P2P, Internet clouds, social networks, Internet of Things (IoT), and their innovative applications. *Recommended Preparation:* EE 450 or EE 457. Instruction Mode: Lecture Grading Option: Letter

EE 543aL Digital Control Systems
Units: 3 Terms Offered: Fa Design, analysis, and implementation of digital control systems using microcomputers; Z-transform methods; frequency domain and state space approach; computational aspects; sampling and quantization. *Prerequisite:* EE 482. Duplicates Credit in b: former EE 485abL. Instruction Mode: Lecture Grading Option: Letter Crosslisted as AME-553A

EE 543bL Digital Control Systems
Units: 1 Modeling of real processes; design and implementation of digital control systems in the controls laboratory. *Prerequisite:* EE 543a. Duplicates Credit in b: former EE 485abL. Instruction Mode: Lab Required Grading Option: Letter Crosslisted as AME-553B

EE 544 Radio Frequency Systems and Hardware
Units: 3 Terms Offered: Sp Elements of radio frequency communication systems: modulation/demodulation strategies, transmission-channel impairments, performance criteria, hardware (low-noise amplifiers, mixers, oscillators), digital back-end, contemporary case studies. *Prerequisite:* EE 301, EE 348, EE 364. Instruction Mode: Lecture, Discussion Grading Option: Letter

EE 545 Robotics
Units: 3 Terms Offered: FaSp (Enroll in CSCI 545)

EE 546 Mathematics of High-Dimensional Data
Units: 4 Terms Offered: Irregular Modern developments in data representation/analysis, nonconvex optimization, high-dimensional probability, sketching, clustering, low-rank models, inverse problems, applications in imaging, machine learning, computer vision and neuroscience. *Prerequisite:* EE 510 and EE 503 Instruction Mode: Lecture Grading Option: Letter

EE 547 Applied and Cloud Computing for Electrical Engineers
Units: 2 Terms Offered: Fa Introduction to cloud applications; software development and deployment within cloud platforms; interactive user-facing interfaces; API development; databases, virtualization, asynchronous execution, testing and scalability. *Prerequisite:* EE 538 Instruction Mode: Lecture, Discussion Grading Option: Letter

EE 548 Analytical Methods in Robotics
Units: 3 (Enroll in AME 548)

EE 549 Nanotechnology for Materials, Electronics, and Circuits
Units: 4 Nanotechnology for advanced nanomaterials, nanoelectronics devices, and circuits, including the rigorous treatment of electronic band structures of carbon nanotubes, graphene, and two-dimensional materials. Instruction Mode: Lecture Grading Option: Letter

EE 550 Data Networks: Design and Analysis
Units: 4 Applications of stochastic modeling and optimization techniques to communication network design and analysis. Data link control; performance models; multi-access channels; routing and flow control. *Prerequisite:* EE 450 and EE 503 *Recommended Preparation:* Probability analysis and general mathematical analysis Instruction Mode: Lecture, Discussion Grading Option: Letter

EE 551 Principles of Radar
Units: 3 Terms Offered: Irregular Signal propagation, reflections from targets; radar equation; detection of scintillating targets; resolution; ambiguity functions; clutter rejection; tracking radars. *Prerequisite:* EE 364 and EE 470. Instruction Mode: Lecture Grading Option: Letter

EE 552 Asynchronous VLSI Design
Units: 4 Terms Offered: Sp Asynchronous channels and architectures; implementation design styles; controller synthesis; hazards, and races; Petri-nets; performance analysis, and optimization; globally asynchronous, locally synchronous design. *Prerequisite:* EE 477L *Recommended Preparation:* EE 457 or other basic course in computer architecture Registration Restriction: Open only to graduate students Instruction Mode: Lecture, Discussion Grading Option: Letter

EE 553 Computational Solution of Optimization Problems
Units: 3 Terms Offered: Sp Computer algorithms for system optimization. Search techniques, gradient methods, parameter optimization in control systems. Optimization with constraints; linear and nonlinear programming. Random search techniques. *Prerequisite:* EE 441 or EE 510 Instruction Mode: Lecture Grading Option: Letter Crosslisted as CSCI 553

EE 554 Cyber-Physical Systems: A Computing Perspective
Units: 4 Terms Offered: Sp Cyber-physical systems; models of computation; programming models; compiler analysis; automatic parallelization; heterogeneous computing and memory systems; multicores; interconnect; mapping; scheduling; real-time operating systems; reliability; fault-tolerance. Instruction Mode: Lecture, Discussion, Lab Grading Option: Letter Crosslisted as CSCI 554

EE 555 Broadband Network Architectures
Units: 3 Terms Offered: FaSpSm Broadband network architectures and services, technologies for high-speed access and core networks, optical infrastructure for layered network architectures, high performance switch and router architectures. *Prerequisite:* EE 450 and EE 503. Instruction Mode: Lecture, Discussion Grading Option: Letter

EE 556 Stochastic Systems and Reinforcement Learning
Units: 4 Terms Offered: Sp Stochastic system models, Dynamic programming, Linear quadratic control, Kalman filtering and estimation, System identification, approximate dynamic programming methods, adaptive control, reinforcement and online learning. *Prerequisite:* EE 503 *Recommended Preparation:* EE 512 Instruction Mode: Lecture, Discussion Grading Option: Letter Crosslisted as ISE 556

EE 557 Computer Systems Architecture
Units: 4 Terms Offered: FaSp Computer architecture from a design perspective: Pipelined processors, speculative execution, VLIW, vector processors, GPU/GPGPU, memory technology and systems, interconnection networks, shared-memory and message-passing multiprocessors, chip multiprocessors. *Prerequisite:* EE 457 Instruction Mode: Lecture, Discussion Grading Option: Letter Crosslisted as CSCI 557

EE 558 Optical Fiber Communication Systems
Units: 3 Terms Offered: FaSp State-of-the-art optical fiber communication systems. Emphasis on optoelectronic-device and communication-systems issues necessary to provide high-speed and/or networked optical communications. *Recommended Preparation:* EE 338; basic knowledge of optics, semiconductor, and communications concepts. Instruction Mode: Lecture Grading Option: Letter

EE 559 Machine Learning I: Supervised Methods
Units: 4 Terms Offered: Sp Distribution-free and probabilistic methods for supervised classification and regression; learning algorithms; optimization techniques; feature-space transformations; parametric and nonparametric methods; Bayes decision theory; artificial neural networks. *Recommended Preparation:* knowledge of Python at the level of EE 541 (A Computational Introduction to Deep Learning); knowledge of multivariate calculus. *Corequisite:* EE 503 and EE 510 Instruction Mode: Lecture, Discussion Grading Option: Letter Crosslisted as CSCI 559

EE 560L Digital System Design
Units: 4 ASIC design, FPGAs, VHDL, verilog, test benches, simulation, synthesis, timing analysis, post-synthesis simulation, FIFOs, handshaking, memory interface, PCI bus protocol, CAD tools, design lab exercises. *Prerequisite:* EE 457 Instruction Mode: Lecture, Lab Required Grading Option: Letter

EE 561 Foundations of Artificial Intelligence
Units: 3 Terms Offered: FaSp (Enroll in CSCI 561)

EE 562 Random Processes in Engineering
Units: 4 Random vectors, sequences, and functions. Linear transformations, second moment theory, spectral densities, narrowband processes, Gaussian processes, correlation detection, linear minimum mean square error estimation. *Prerequisite:* EE 503 and (EE 441 or EE 510) Duplicates Credit in former EE 562a Instruction Mode: Lecture Grading Option: Letter

EE 563 Estimation Theory
Units: 3 Terms Offered: Fa Parameter estimation and state estimation technique including: least squares, BLUE, maximum-likelihood, maximum a posteriori, Kalman-prediction, Kalman-filtering and Kalman smoothing and extended Kalman filtering. *Prerequisite:* EE 503 Instruction Mode: Lecture, Discussion Grading Option: Letter

EE 564 Digital Communication and Coding Systems
Units: 4 Digital modulations. Optimal reception. Performance analysis. Classical and modern codes. Viterbi, forward-backward, and iterative decoding. Practical designs for channels with memory or nonlinearities. Example systems. *Prerequisite:* EE 503 and (EE 441 or EE 510) *Recommended Preparation:* Basic computer skills (simple programs and plotting) Instruction Mode: Lecture, Discussion Grading Option: Letter

EE 565 Information Theory and Its Application to (Big) Data Sciences
Units: 4 Terms Offered: FaSp Entropy and mutual information. Variable and fixed-length, lossless and lossy compression. Universal compression. Text and multimedia compression. Channel capacity. Error-correcting codes. Erasure and Gaussian channels. *Prerequisite:* EE 503 Duplicates Credit in former EE 565a Instruction Mode: Lecture, Discussion Grading Option: Letter

EE 566 Optical Information Processing
Units: 3 Terms Offered: Sp Coherent and incoherent optical transforming, imaging and two-dimensional information processing systems; optical image processing, spatial frequency response and filtering; optical and digital holography. *Recommended Preparation:* continuous-time Fourier transforms, linear systems, signals/function Instruction Mode: Lecture Grading Option: Letter

EE 567 Communication Systems
Units: 3 Terms Offered: FaSpSm Analysis of communication systems operating from very low to optical frequencies. Comparison of modulation and detection methods. System components description. Optimum design of communication systems. *Recommended Preparation:* EE 441 or EE 510 *Corequisite:* EE 503 Instruction Mode: Lecture Grading Option: Letter

EE 568 Parallel Programming
Units: 4 Terms Offered: Sp Parallel programming and computation models, shared memory, message passing; performance modeling and optimization; communication computation tradeoffs; heterogeneous computing; stream processing; application acceleration. *Recommended Preparation:* EE 451 or EE 457 and a high level programming language at the level of CSCI 455x Instruction Mode: Lecture, Discussion Grading Option: Letter

EE 569 Introduction to Digital Image Processing
Units: 4 Terms Offered: Sp Image sampling, 2-D image transform, image enhancement, geometric image modification, morphologic processing, edge detection, texture analysis, image filtering and restoration. *Recommended Preparation:* EE 503, C/C++ or Matlab programming ability Instruction Mode: Lecture, Discussion Grading Option: Letter

EE 570a Advanced Electromagnetic Theory
Units: 4 Classical electromagnetic field theory and its usage in understanding and analytically modelling advanced applied electrical engineering devices. *Recommended Preparation:* EE 470 (or equivalent); working knowledge of vector algebra, vector calculus, differential equations, and complex variables Instruction Mode: Lecture, Discussion Grading Option: Letter

EE 570b Advanced Electromagnetic Theory
Units: 4 Classical electromagnetic field theory and its usage in understanding and analytically modelling advanced applied electrical engineering devices. *Prerequisite:* EE 570a Instruction Mode: Lecture, Discussion Grading Option: Letter

EE 571 Wave Interactions with Random and Inhomogeneous Media
Units: 4 Analyses and applications of electromagnetic wave scattering and propagation in inhomogenous media, including random media and periodic structures. *Prerequisite:* EE 470L Instruction Mode: Lecture, Discussion Grading Option: Letter

EE 572a Plasma Dynamics
Units: 3 Particle drifts, collision phenomena, Boltzmann and Vlasov equations, hydrodynamic equations, Coulomb interactions; waves in a cold and hot plasma, plasma oscillations, Landau damping, hydromagnetic waves. Instruction Mode: Lecture Grading Option: Letter

EE 572b Plasma Dynamics
Units: 3 Particle drifts, collision phenomena, Boltzmann and Vlasov equations, hydrodynamic equations, Coulomb interactions; waves in a cold and hot plasma, plasma oscillations, Landau damping, hydromagnetic waves. Instruction Mode: Lecture Grading Option: Letter

EE 573a Antenna Systems Engineering
Units: 3 Analysis of idealized antenna models, including the dyadic Green's function, reciprocity, aperture radiation, methods of moments, geometrical and physical optics, reflectors, arrays. *Prerequisite:* EE 470. Instruction Mode: Lecture, Discussion Grading Option: Letter

EE 573b Antenna Systems Engineering
Units: 4 Introduction to the analytical and numerical techniques used in the analysis and design of modern reflector antenna systems, including physical optics, asymptotic techniques, shaping and feeds. *Prerequisite:* EE 573a and EE 470L Instruction Mode: Lecture Grading Option: Letter

EE 574 Computer Vision
Units: 3 Terms Offered: Fa (Enroll in CSCI 574)

EE 575 Computational Differential Geometry for Engineers
Units: 3 Differential geometry of curves and surfaces, vectors, tensors, manifolds, curvature, Lie groups, Riemannian geometry, numerical PDEs, heat and Laplace equation, Applications to computer vision, machine learning, signal and image processing. *Recommended Preparation:* Good background in calculus and familiarity with Matlab or C++ Instruction Mode: Lecture Grading Option: Letter

EE 576 Integrated Memory Devices and Technologies
Units: 4 Fundamental device physics, integration technology and cutting-edge innovations in integrated microelectronic

memory devices and systems, and their applications in data storage and emerging beyond-von-Neumann computing. *Recommended Preparation:* Understanding of basic semiconductor device physics and fabrication technology is useful, but not required Instruction Mode: Lecture, Discussion Grading Option: Letter

EE 577a VLSI System Design
Units: 4 Terms Offered: FaSp MOS logic; system design; memory design; datapath subsystem design; circuit simulation; basic device physics; simple device layout: structured chip design; timing; project chip; silicon compilers. *Prerequisite:* EE 477L Instruction Mode: Lecture, Discussion, Quiz Grading Option: Letter

EE 577b VLSI System Design
Units: 2 Terms Offered: FaSp Semi-custom ASIC VLSI flow; RTL coding, logic synthesis, automatic placement & routing, memory and memory interface design, signal integrity issues and solutions *Prerequisite:* EE 577a Instruction Mode: Lecture, Discussion Grading Option: Letter

EE 578 Computational Electromagnetics for Engineers
Units: 4 Computational electromagnetics: numerical methods; partial differential equations, integral equations; finite difference and finite element methods; electromagnetic scattering, nanophotonics, waveguides, antennas; Maxwell, acoustic, and quantum simulation. Instruction Mode: Lecture Grading Option: Letter

EE 580 System Verification
Units: 4 Functional/timing/power verification of complex systems. Simulation-based, formal/semi-formal/assertion languages and tools (SystemVerilog, UVM, UPF, etc.) FPGA prototyping, hardware acceleration, statistical modeling and machine learning. Instructor permission required. *Recommended Preparation:* EE 457 and EE 477L; scripting using Python, OOP using C++; algorithms, statistics and probability Instruction Mode: Lecture, Discussion, Quiz Grading Option: Letter

EE 581 Mathematical Foundations for System Design: Modeling, Analysis, and Synthesis
Units: 4 Fundamental techniques underlying the methodologies for system design, from integrated circuits to cyber-physical systems. Design flows, fundamental classes of models, and verification and synthesis techniques. *Recommended Preparation:* Exposure to the fundamentals of calculus or discrete mathematics, some background in programming, and an inclination to formal reasoning Instruction Mode: Lecture, Lab Grading Option: Letter Crosslisted as CSCI 593

EE 582 CMOS:Nano Neuromorphic Circuits
Units: 4 Design and simulation of CMOS and nano electronic circuits modeling brain cells, including neurons and glial cells; low-power design; simulation laboratory. *Prerequisite:* EE 348L *Recommended Preparation:* EE 477L or EE 479 Instruction Mode: Lecture, Lab Grading Option: Letter Crosslisted as BME 582

EE 583 Statistical Signal Processing
Units: 3 Characterization of discrete-time random processes. Parametric and non-parametric spectral estimation, adaptive filtering, signal subspace methods, independent components analysis, non-Gaussian signal processing. *Prerequisite:* EE 503. Instruction Mode: Lecture Grading Option: Letter

EE 584 Chaotic Systems
Units: 3 Terms Offered: Fa Logistic map, chaotic bifurcation, strange attractors, and fractals. Conservative dynamical systems and measure preserving transformations. Ergodicity. Kolmogorov-Sinai entropy. Chaotic/stochastic realization. Chaos in feedback. *Prerequisite:* EE 562a, EE 562b. Instruction Mode: Lecture Grading Option: Letter

EE 585 Linear System Theory
Units: 4 Terms Offered: FaSpSm Analysis of linear dynamical systems by state-space and input-output techniques; stability, controllability, observability; observer-based controller; linear quadratic regulator. *Prerequisite:* EE 441 or EE 510 *Recommended Preparation:* Solid knowledge of linear algebra Duplicates Credit in AME 541 Instruction Mode: Lecture Grading Option: Letter

EE 586L Advanced DSP Design Laboratory
Units: 4 Terms Offered: Sp Real-time adaptive signal processing design projects using special purpose DSP processors. Suitable project areas include acoustics, speech, arrays, image compression and biomedical signal processing. Permission of instructor required. *Prerequisite:* EE 483 *Recommended Preparation:* At least one 500-level DSP course Instruction Mode: Lecture, Lab Required Grading Option: Letter

EE 587 Nonlinear Control Systems
Units: 4 Terms Offered: Fa State-space Models. Equilibrium points. Limit Cycles. Linearization. Nonlinear Phenomena. Lyapunov Stability. Analysis and Design of Nonlinear Systems. Passivity. Backstepping. Feedback and Input-Output Linearization. *Prerequisite:* EE 585 *Recommended Preparation:* Beneficial (but not required): classical control (at the level of EE 482 or equivalent) and some prior exposure to Matlab and/or Simulink. Background in probability (at level of EE 503 or equivalent). Duplicates Credit in AME 552 Instruction Mode: Lecture Grading Option: Letter

EE 588 Optimization for the Information and Data Sciences
Units: 4 Convex sets, functions, and optimization problems. Basic convex analysis and theory of convex programming. Novel, efficient first-order algorithms. Applications in the information and data sciences. *Prerequisite:* EE 510 *Recommended Preparation:* EE 503 Instruction Mode: Lecture, Discussion Grading Option: Letter

EE 589 Quantum Information Theory
Units: 4 Terms Offered: Sp Quantum Shannon theory: quantum channels and entanglement; dense coding, teleportation, quantum compression, and quantum capacity theorems. Open problems in quantum communication. *Recommended Preparation:* A strong working knowledge of complex linear algebra and probability theory (at the level of MATH 225, MATH 307, EE 364, etc.); knowledge of quantum information at the level of EE 520 or EE 514 Instruction Mode: Lecture Grading Option: Letter

EE 590 Directed Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Terms Offered: FaSpSm Research leading to the master's degree. Maximum units which may be applied to the degree to be determined by the department. Instruction Mode: Lecture Grading Option: Credit/No Credit

EE 591 Magnetic Resonance Imaging and Reconstruction
Units: 3 Terms Offered: FaSp Principles of magnetic resonance imaging. Spin physics, Fourier-based acquisition and reconstruction, generation of tissue contrast, fast imaging, artifact correction, advanced image reconstruction. *Prerequisite:* EE 483; *Recommended Preparation:* EE 441 and EE 503. Familiarity with MATLAB is required. Instruction Mode: Lecture Grading Option: Letter

EE 592 Computational Methods for Inverse Problems
Units: 4 Terms Offered: FaSpSm A rigorous description of vector space and functional analysis concepts and tools that are useful for solving inverse problems in real-world applications. *Prerequisite:* EE 483 and (EE 441 or EE 510) *Recommended Preparation:* EE 503 Instruction Mode: Lecture Grading Option: Letter

EE 593 Robust Multivariable Control
Units: 4 Terms Offered: Fa Singular values of the various sensitivity matrices are introduced to quantify the benefits of multivariable feedback systems operating in an uncertain environment and controllers are designed for the worst-case disturbances making them "robust." *Prerequisite:* EE 482 *Recommended Preparation:* Nonlinear and Adaptive Control on the level of EE 587 *Corequisite:* EE 585 Instruction Mode: Lecture Grading Option: Letter

EE 594a Master's Thesis
Units: 2 Terms Offered: FaSpSm For the master's degree. Credit on acceptance of thesis. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

EE 594b Master's Thesis
Units: 2 Terms Offered: FaSpSm For the master's degree. Credit on acceptance of thesis. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

EE 594z Master's Thesis
Units: 0 Terms Offered: FaSpSm For the master's degree. Credit on acceptance of thesis. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

EE 595 Software Design and Optimization
Units: 4 Software strategies for applications constrained by power consumption, memory space and verification time; assignments incorporate key elements of planning, modeling, design simulation and testing. *Recommended Preparation:* Strong programming skills, (OOP and scripting),

knowledge of algorithms, statistics and probability theory Instruction Mode: Lecture, Discussion, Quiz Grading Option: Letter

EE 596 Wavelets and Graphs for Signal Processing and Machine Learning
Units: 4 Multirate signal processing, wavelets and filter banks. Overcomplete and sparse signal representations. Graph signal processing. Applications to compression, sensing, time-frequency analysis, and machine learning. *Prerequisite:* EE 483 and (EE 441 or EE 510) Instruction Mode: Lecture Grading Option: Letter

EE 597 Wireless Networks
Units: 4 Terms Offered: FaSp Introduction to wireless networking technologies; fundamental architectural and design principles used at all protocol layers; optimization, performance evaluation and implementation using mathematical analysis, simulations, and experiments. *Prerequisite:* EE 450 and EE 503 *Recommended Preparation:* EE 467 or equivalent; familiarity with Matlab and C programming Instruction Mode: Lecture, Discussion Grading Option: Letter

EE 598 Electrical Engineering Research Seminar
Units: 1 Max Units: 2.0 Introduction to research in electrical engineering. Topics vary by semester. May be repeated for up to one unit of credit for MS students, two units of credit for PhD students. Registration Restriction: Open only to Master's and Doctoral Students. Instruction Mode: Lecture Grading Option: Credit/No Credit

EE 599 Special Topics
Units: 2, 3, 4 Max Units: 9.0 The course content will be selected each semester to reflect current trends and developments in the field of electrical engineering. Instruction Mode: Lecture Grading Option: Letter

EE 601 Advanced Semiconductor Device Physics
Units: 4 Terms Offered: Sp Fundamentals and limitations of nanoscale electronic and photonic semiconductor components. Engineering classical, mesoscale, and quantum electron and photon dynamics in advanced devices. *Recommended Preparation:* EE 471 or EE 539 Instruction Mode: Lecture, Discussion Grading Option: Letter Crosslisted as MASC 601

EE 603 System Identification
Units: 4 Terms Offered: FaSp (Enroll in CE 603)

EE 604 Computational Methods in Applied Physics
Units: 4 Methods for solving physics-based problems with no analytic solution including eigen problems, scattering/linear-response problems, nonlinear wave propagation and stochastic systems. *Recommended Preparation:* Familiarity with differential equations and wave equations at the level of EE 370; computer programming experience at the level of EE 155L Instruction Mode: Lecture Grading Option: Letter

EE 607 Microelectromechanical Systems
Units: 4 Terms Offered: FaSp Exploration of the technology methods and physical principles of MEMS, and survey various MEMS of current interest. *Recommended Preparation:* Knowledge of microfabrication, electromagnetic fields and waves, and mechanics Instruction Mode: Lecture Grading Option: Letter

EE 612 Science and Practice of Nanotechnology
Units: 3 Terms Offered: Fa In-depth discussions of important topics in nanotechnology, including both the implementation and the underlying theory. *Prerequisite:* EE 330 or EE 470. Instruction Mode: Lecture Grading Option: Letter

EE 619 Advanced Topics in Automatic Speech Recognition
Units: 3 Terms Offered: FaSpSm Advanced topics in automatic speech recognition, speaker recognition, spoken dialogue, conversational multimedia interfaces. *Recommended Preparation:* EE 519 and CSCI 544 and EE 503. Instruction Mode: Lecture Grading Option: Letter

EE 626 Survey of Energy and Power for a Sustainable Future
Units: 3 Terms Offered: FaSp (Enroll in AME 577)

EE 631 Mixed-Signal Integrated Circuits
Units: 4 Fundamentals of sampling and discrete-time signals; analog to digital converters; digital to analog converters; switched-capacitor circuits. *Prerequisite:* EE 536a Instruction Mode: Lecture Grading Option: Letter

EE 632a Integrated Communication Systems
Units: 4 System- and transistor-level analysis and design of integrated circuits for wireless communications. Wireless communication concepts; radiofrequency transceiver architectures; low-noise amplifiers; mixers; oscillators; power amplifiers. Duplicates Credit in former EE 632 Instruction Mode: Lecture Grading Option: Letter

EE 632b Integrated Communication Systems
Units: 4 System- and transistor-level analysis and design of integrated circuits for wireless and wireline communications; phase- and delay-locked loops; frequency synthesizers; clock and data recovery. *Prerequisite:* EE 632a Instruction Mode: Lecture Grading Option: Letter

EE 635 Advanced Wireless Communications
Units: 3 Fundamentals of advanced wireless systems, including multi-antenna, cognitive, and cooperative systems as well as exploration of current standards in wireless networks in use today. *Prerequisite:* EE 535; *Recommended Preparation:* basic programming course. Instruction Mode: Lecture Grading Option: Letter

EE 637L Current and Future Computing Devices and Technology
Units: 4 State-of-the-art computing devices; current trends in device technologies; future directions. *Prerequisite:* EE 537 Instruction Mode: Lecture, Lab Required Grading Option: Letter

EE 638 Applications of Machine Learning for Medical Data
Units: 4 Application of machine learning models and algorithms to medical applications, learning from data and classification of disorders. Overview of health data, collection with sensors, body area networks, brain image data and other publicly available medical applications data. *Prerequisite:* EE 660 or CSCI 561 or INF 552 Instruction Mode: Lecture Grading Option: Letter

EE 641 Deep Learning Systems
Units: 2 Terms Offered: Fa Neural networks for nonlinear regression, classification, reinforcement learning; back-propagation learning for multilayer perceptrons, convolutional and recurrent networks; applications in audio processing vision and autonomy. *Prerequisite:* EE 541 and EE 559 Instruction Mode: Lecture Grading Option: Letter

EE 642 Advanced Geometrical Optics
Units: 3 First order design of optical systems; origin of aberrations and their effects on wave propagation and imaging based on geometrical and physical optics. *Prerequisite:* EE 529. Instruction Mode: Lecture Grading Option: Letter

EE 645 Uncertainty Modeling and Stochastic Optimization
Units: 3 (Enroll in CE 645)

EE 648 Game Theory with Engineering Applications
Units: 4 Terms Offered: Irregular Basics of strategic games, Bayesian games, Dynamic games, Cooperative games, Mechanism design and auctions, Network economics, Resource sharing mechanisms in networks. *Recommended Preparation:* EE 503 Instruction Mode: Lecture Grading Option: Letter

EE 649 Stochastic Network Optimization
Units: 3 Terms Offered: FaSpSm Optimization of wireless and ad-hoc mobile networks; opportunistic scheduling, flow control; back-pressure routing; queue stability; energy-delay and utility-delay trade-offs. *Prerequisite:* EE 503. Instruction Mode: Lecture Grading Option: Letter

EE 650 Advanced Topics in Computer Networks
Units: 3 Terms Offered: Irregular Protocol modeling: flow and congestion control, dynamic routing, distributed implementation; broadcast communication media and multiple access protocols; local networks, satellite networks, terrestrial radio networks. *Prerequisite:* EE 450 and EE 503; *Recommended Preparation:* EE 550 or CSCI 551. Instruction Mode: Lecture Grading Option: Letter

EE 652 Low-Power Wireless Networks
Units: 3 Terms Offered: Fa Implementation of low-power wireless protocols for medium access, scheduling, multi-hop routing, congestion control, localization, synchronization. IP stack for the Internet of Things. Wireless sensor network applications. *Prerequisite:* EE 450; *Recommended Preparation:* CSCI 402, strong programming skills, and experience with Linux. Instruction Mode: Lecture Grading Option: Letter Crosslisted as CSCI-652

EE 653 Advanced Topics in Microarchitecture
Units: 3 Current research topics related to microprocessor architecture. Dynamically / statically scheduled processors, multithreading, chip multiprocessors, systems on a chip. Power, performance,

complexity, dependability issues. Impact of technology. *Prerequisite:* EE 557. Instruction Mode: Lecture Grading Option: Letter

EE 657 Parallel and Distributed Computing
Units: 3 Terms Offered: FaSpSm Scalable multiprocessor systems and clusters, virtual machine, service oriented architecture, network-based computing, peer-to-peer, grid and cloud based storage and computing, case studies. *Prerequisite:* EE 557; *Recommended Preparation:* EE 450. Instruction Mode: Lecture Grading Option: Letter

EE 658 Diagnosis and Design of Reliable Digital Systems
Units: 3 Terms Offered: Fa Fault models; test generation; fault simulation; self-checking and self-testing circuits; design for testability; fault tolerant design techniques; case studies. *Prerequisite:* graduate standing. Instruction Mode: Lecture Grading Option: Letter Crosslisted as CSCI-658

EE 659 Interconnection Networks
Units: 3 Terms Offered: Sp Theory, design and analysis of interconnection networks for multiprocessor systems. Study of direct and indirect topologies, deadlock-free routing, flow control, network interfaces, optical interconnects. *Prerequisite:* EE 557. Instruction Mode: Lecture Grading Option: Letter

EE 660 Machine Learning II: Mathematical Foundations and Methods
Units: 4 Terms Offered: Fa Supervised, semi-supervised, and unsupervised machine learning; domain adaptation and transfer learning. Feasibility of learning, model complexity, and performance (error) on unseen data. *Prerequisite:* EE 503 and EE 510 and EE 559 *Recommended Preparation:* Experience with Python at the level of EE 541. Familiarity with general machine learning methods including regression and classification and with computational complexity at the level of EE 538 Instruction Mode: Lecture, Discussion Grading Option: Letter

EE 664 Advanced Topics in Communication Theory
Units: 3 Modern communication theory for heterogeneous networks. Novel methods for communication network analysis and design. New theoretical tools: e.g. interference alignment, polar codes, and sparse approximation. *Prerequisite:* EE 564 *Recommended Preparation:* EE 535 and EE 565a, EE 565b. Instruction Mode: Lecture Grading Option: Letter

EE 665 Advanced Topics in Information Theory
Units: 3 Terms Offered: Fa Multi-terminal and network information theory. Network coding. Coding for special applications such as data storage. Applications of information theory to computational biology and data analytics. *Prerequisite:* EE 565 Instruction Mode: Lecture Grading Option: Letter

EE 669 Multimedia Data Compression
Units: 3 Terms Offered: FaSpSm Lossless compression, audio/speech coding, vector quantization, fractal compression, JPEG and JPEG-2000, video compression techniques and MPEG standards, video transmission over wired and wireless networks. *Recommended Preparation:* EE 503. Instruction Mode: Lecture, Discussion Grading Option: Letter

EE 674a Advanced Topics in Computer Vision
Units: 3 Terms Offered: Irregular (Enroll in CSCI 674a)

EE 674b Advanced Topics in Computer Vision
Units: 3 Terms Offered: Irregular (Enroll in CSCI 674b)

EE 675 Data Analysis and Control Techniques for Neurotechnology Design
Units: 4 Terms Offered: Sp Data analysis, machine learning and control-theoretic mathematical tools used in studying the brain and designing neurotechnologies such as brain-machine interfaces. *Prerequisite:* EE 503 *Recommended Preparation:* EE 441 Instruction Mode: Lecture Grading Option: Letter

EE 676 Advanced Computer Vision
Units: 4 (Enroll in CSCI 677)

EE 677 VLSI Architectures and Algorithms
Units: 3 VLSI models; measures of area, volume and time; mapping algorithms; systolic arrays; area time tradeoffs; applications to signal and image processing problems. *Recommended Preparation:* EE 457 and CSCI 570 Instruction Mode: Lecture Grading Option: Letter

EE 680 Computer-Aided Design of Digital Systems I
Units: 3 Terms Offered: Sp Synthesis; partitioning; placement; routing of digital circuits; integrated circuit design methods; simulation at the switch, gate, register transfer and system levels. *Prerequisite:* EE 581; *Recommended Preparation:* EE 577a. Instruction Mode: Lecture Grading Option: Letter

EE 681 Computer-Aided Design of Digital Systems II
Units: 3 Theory and techniques for design and analysis of digital logic; specification, formal models; hardware-descriptive languages; formal verification, high level synthesis; logic synthesis. Instruction Mode: Lecture Grading Option: Letter

EE 682 Law and Intellectual Property for Engineers
Units: 3 Terms Offered: Sp Detailed introduction to the modern American legal system with a special focus on intellectual-property doctrines. *Recommended Preparation:* EE 503. Instruction Mode: Lecture Grading Option: Letter

EE 689 Computational Intelligence and Neural Learning
Units: 4 Terms Offered: Sp Computational intelligence techniques that include neural systems, deep learning, adaptive pattern classification, fuzzy function approximation, simulated annealing and evolutionary computing, and hybrid systems. *Recommended Preparation:* EE 483, EE 503 or equivalent, EE 510 Registration Restriction: United States Duplicates Credit in former EE 500 Instruction Mode: Lecture Grading Option: Letter

EE 690 Directed Research
Units: 1, 2, 3, 4 Terms Offered: FaSpSm Laboratory study of specific problems by candidates for the degree Engineer in Electrical Engineering. Instruction Mode: Lecture Grading Option: Credit/No Credit

EE 790 Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Terms Offered: FaSpSm Research leading to the doctorate. Maximum units which may be applied to the degree to be determined by the department. Instruction Mode: Lecture Grading Option: Credit/No Credit

EE 794a Doctoral Dissertation
Units: 2 Terms Offered: FaSpSm Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

EE 794b Doctoral Dissertation
Units: 2 Terms Offered: FaSpSm Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

EE 794c Doctoral Dissertation
Units: 2 Terms Offered: FaSpSm Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

EE 794d Doctoral Dissertation
Units: 2 Terms Offered: FaSpSm Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

EE 794z Doctoral Dissertation
Units: 0 Terms Offered: FaSpSm Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

Endodontics

ENDO 501 Clinical Endodontics
Units: 1 Diagnosis and treatment procedures for basic clinical endodontics, including management of endodontic emergencies; relationship of endodontics to the various dental disciplines. Instruction Mode: Lecture Grading Option: Letter

ENDO 502 Advanced Endodontics
Units: 1 Theoretical principles for the treatment of advanced endodontic cases; alternative methods of endodontic therapy; introduction to interspecialty cases. Instruction Mode: Lecture Grading Option: Letter

ENDO 521 Preclinical Endodontics
Units: 3 Theoretical principles of endodontic therapy related to pulpal and periapical disease; training in procedures of localizing, preparing, and filling the root canal of human teeth. Instruction Mode: Lecture Grading Option: Letter

ENDO 562a Clinic: Concentrated Early Endodontics
Units: 0 Early clinical experience including assigned clinic demonstration block. Instruction Mode: Lecture Grading Option: In-progress to Letter Grade

ENDO 562b Clinic: Concentrated Early Endodontics
Units: 0 Early clinical experience including assigned clinic demonstration block. Instruction Mode: Lecture Grading Option: In-progress to Letter Grade

ENDO 562c Clinic: Concentrated Early Endodontics
Units: 0 Early clinical experience including assigned clinic demonstration block. Instruction Mode: Lecture Grading Option: In-progress to Letter Grade

ENDO 562d Clinic: Concentrated Early Endodontics
Units: 1 Early clinical experience including assigned clinic demonstration block. Instruction Mode: Lecture Grading Option: Letter

ENDO 563a Clinic: Endodontic Therapy
Units: 0, 1, 2 Clinical experience emphasizing diagnosis, treatment planning, and endodontic patient management. Instruction Mode: Lecture Grading Option: In-progress to Letter Grade

ENDO 563b Clinic: Endodontic Therapy
Units: 0, 1, 2 Clinical experience emphasizing diagnosis, treatment planning, and endodontic patient management. Instruction Mode: Lecture Grading Option: Letter

ENDO 610 Clinical Advanced Endodontics
Units: 2 In-depth discussion of endodontic surgery, retreatment, and hemisection cases; includes clinical experience in advanced endodontic cases. Instruction Mode: Lecture Grading Option: Letter

ENDO 701a Seminar: Biological Basis of Endodontic Therapy
Units: 1 Investigation of the theoretical and biological bases of clinical endodontic procedures. Instruction Mode: Lecture Grading Option: Letter

ENDO 701b Seminar: Biological Basis of Endodontic Therapy
Units: 1 Investigation of the theoretical and biological bases of clinical endodontic procedures. Instruction Mode: Lecture Grading Option: Letter

ENDO 701c Seminar: Biological Basis of Endodontic Therapy
Units: 1 Investigation of the theoretical and biological bases of clinical endodontic procedures. Instruction Mode: Lecture Grading Option: Letter

ENDO 701d Seminar: Biological Basis of Endodontic Therapy
Units: 1 Investigation of the theoretical and biological bases of clinical endodontic procedures. Instruction Mode: Lecture Grading Option: Letter

ENDO 702 Seminar: Advanced Clinical Endodontics
Units: 2 Course designed to train students in the management of simple and complex endodontic cases. Instruction Mode: Lecture Grading Option: Letter

ENDO 703a Seminar: Review of Endodontic Literature
Units: 1 Critical review and analysis of classical and current endodontic literature. Instruction Mode: Lecture Grading Option: Letter

ENDO 703b Seminar: Review of Endodontic Literature
Units: 1 Critical review and analysis of classical and current endodontic literature. Instruction Mode: Lecture Grading Option: Letter

ENDO 703c Seminar: Review of Endodontic Literature
Units: 1 Critical review and analysis of classical and current endodontic literature. Instruction Mode: Lecture Grading Option: Letter

ENDO 703d Seminar: Review of Endodontic Literature
Units: 1 Critical review and analysis of classical and current endodontic literature. Instruction Mode: Lecture Grading Option: Letter

ENDO 704a Seminar: Surgical Endodontics
Units: 2 Indications, principles, and techniques of surgical endodontics. Instruction Mode: Lecture Grading Option: Letter

ENDO 704b Seminar: Surgical Endodontics
Units: 2 Indications, principles, and techniques of surgical endodontics. Instruction Mode: Lecture Grading Option: Letter

ENDO 705a Seminar: Endodontic Case Presentation
Units: 4 Student presentation of cases for critique and analysis. Instruction Mode: Lecture Grading Option: Letter

ENDO 705b Seminar: Endodontic Case Presentation
Units: 4 Student presentation of cases for critique and analysis. Instruction Mode: Lecture Grading Option: Letter

ENDO 710 Seminar: Endodontic Practice Management
Units: 2 Organizing, staffing, and evaluation of an endodontic practice. Modes and patterns of management including use of auxiliaries. Emphasis on endodontist general practitioner relationship; legal aspects of dental practice. Instruction Mode: Lecture Grading Option: Letter

ENDO 711 Alternatives in Endodontics
Units: 4 Alternative endodontic techniques presented by guest clinicians. Emphasis on endodontics and its relationship with periodontal, restorative, and surgical disciplines. Instruction Mode: Lecture Grading Option: Letter

ENDO 761a Clinic: Advanced Endodontics
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9 each Advanced clinical experience emphasizing the diagnosis and management of complicated endodontic cases. Instruction Mode: Lecture Grading Option: Letter

ENDO 761b Clinic: Advanced Endodontics
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9 each Advanced clinical experience emphasizing the diagnosis and management of complicated endodontic cases. Instruction Mode: Lecture Grading Option: Letter

ENDO 761c Clinic: Advanced Endodontics
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9 each Advanced clinical experience emphasizing the diagnosis and management of complicated endodontic cases. Instruction Mode: Lecture Grading Option: Letter

ENDO 761d Clinic: Advanced Endodontics
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9 each Advanced clinical experience emphasizing the diagnosis and management of complicated endodontic cases. Instruction Mode: Lecture Grading Option: Letter

ENDO 761e Clinic: Advanced Endodontics
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9 each Advanced clinical experience emphasizing the diagnosis and management of complicated endodontic cases. Instruction Mode: Lecture Grading Option: Letter

ENDO 761f Clinic: Advanced Endodontics
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9 each Advanced clinical experience emphasizing the diagnosis and management of complicated endodontic cases. Instruction Mode: Lecture Grading Option: Letter

ENDO 790 Directed Research: Endodontics
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Principles of planning, organizing, and executing a clinical or educational research project. Instruction Mode: Lecture Grading Option: Credit/No Credit

Environmental Engineering

ENE 200 Environmental Engineering Principles
Units: 4 Terms Offered: FaSpSm Analysis of water, air and land pollution, including hazardous waste; engineering of mitigation measures; water and wastewater treatment systems. *Prerequisite:* (CHEM 105aLg or CHEM 115aLg) and (MATH 126g or MATH 129) and (PHYS 151Lg or PHYS 161Lg) *Recommended Preparation:* CE 110 *Corequisite:* CHEM 105bL or CHEM 115bL Instruction Mode: Lecture Grading Option: Letter

ENE 201 Introduction to Applied Environmental Science and Engineering
Units: 4 Gateway to BS in Civil Engineering (Environmental Engineering), BS, Environmental Engineering, and Minor in Environmental Engineering. Fundamental concepts of environmental science and engineering. Pollution control and remediation for air, water and soil. Pollution remediation for developing countries. Instruction Mode: Lecture Grading Option: Letter Crosslisted as ENST-201

ENE 215 Energy Systems and Environmental Tradeoffs
Units: 4 Terms Offered: Fa Energy fundamentals; critical issues facing energy extraction, cultivation, transformation, transportation, consumption and disposal; environmental impacts. *Prerequisite:* PHYS 151Lg Instruction Mode: Lecture Grading Option: Letter

ENE 300 Contaminant Transport in the Environment
Units: 4 Terms Offered: Fa Fundamentals of the physical mechanisms controlling solute transport in environmental flows. *Prerequisite:* MATH 245 and (PHYS 151Lg or PHYS 161Lg) and (CE 309 or ENE 410) *Recommended Preparation:* Knowledge of environmental engineering principles on the level of ENE 200 Instruction Mode: Lecture Grading Option: Letter

ENE 390 Special Problems
Units: 1, 2, 3, 4 Supervised, individual studies. No more than one registration permitted. Enrollment by petition only. Instruction Mode: Lecture Grading Option: Letter

ENE 400 Quantitative Sustainability
Units: 4 Terms Offered: Fa Concepts of quantitative sustainable design and engineering decision-making; economic and environmental sustainability assessments linked to design decisions under uncertainty; design of engineered

technologies. *Prerequisite:* ENE 215 Instruction Mode: Lecture Grading Option: Letter

ENE 410 Environmental Fluid Mechanics
Units: 4 Terms Offered: Sp Fluid Statics; equations of motion; continuity, momentum, energy principles; dimensional analysis; mixing, dispersion in environments and between environments; ground water flow; manifold diffusers; hydraulic transients. *Prerequisite:* MATH 245 Duplicates Credit in CE 309 and AME 309 Instruction Mode: Lecture Grading Option: Letter

ENE 415 Environmental Organic Chemistry
Units: 4 Terms Offered: Fa Qualitative and quantitative prediction of partitioning constants governing fate of organic chemicals in the environment; transformation pathways, reaction kinetics, and analysis of organic contaminants. *Corequisite:* ENE 300 and CE 363L Instruction Mode: Lecture Grading Option: Letter

ENE 426 Particulate Air Pollutants: Properties / Behavior / Measurement
Units: 4 Terms Offered: Sp Particulate air pollutants, their measurement and instrumentation methods and their effects on the environment and human health; optical properties and visibility degradation. *Prerequisite:* ENE 200 Duplicates Credit in former ENE 526 Instruction Mode: Lecture, Discussion Grading Option: Letter

ENE 428 Air Pollution Fundamentals
Units: 4 Terms Offered: Sp Quantitative overview of air pollution and the physical and chemical processes that describe its behavior. *Prerequisite:* MATH 245 and PHYS 151Lg and (CHEM 105bL or CHEM 115bL) *Recommended Preparation:* Environmental engineering principles on the level of ENE 200 Instruction Mode: Lecture, Discussion Grading Option: Letter

ENE 429 Air Pollution Control
Units: 3 Terms Offered: Sp Emission surveys; engineering controls of aerosols and gaseous contaminants at emission sources, disposition of contaminants. Field trips. *Prerequisite:* ENE 428; CE 309 or ENE 410. Instruction Mode: Lecture Grading Option: Letter

ENE 443 Environmental Chemistry
Units: 3 (Enroll in CE 443)

ENE 465 Water Supply and Sewerage System Design
Units: 4 Terms Offered: Sp (Enroll in CE 465)

ENE 486 Design of Solid and Hazardous Waste Engineering Systems
Units: 3 Terms Offered: Fa Engineering design of solid and hazardous waste facilities such as waste minimization, secured landfill, and hazardous waste treatment. *Prerequisite:* ENE 200 Instruction Mode: Lecture Grading Option: Letter

ENE 495 Seminars in Environmental Engineering
Units: 1 Terms Offered: FaSp Hazardous waste management, biodegradation of environmental pollutants, groundwater problems, waste minimization, energy resources, and air pollution control. Instruction Mode: Lecture Grading Option: Letter

ENE 499 Special Topics
Units: 2, 3, 4 Max Units: 8.0 Terms Offered: FaSp Course content to be selected each semester from recent developments in environmental engineering and related fields. Instruction Mode: Lecture Grading Option: Letter

ENE 502 Environmental and Regulatory Compliance
Units: 4 Terms Offered: Sp Federal and state environmental laws; environmental impact assessment techniques; permitting for industrial facility construction and operation. Registration Restriction: Open only to graduate students Instruction Mode: Lecture Grading Option: Letter

ENE 503 Microbiology for Environmental Engineers
Units: 3 (Enroll in CE 503)

ENE 504 Solid Waste Management
Units: 3 (Enroll in CE 504)

ENE 505 Energy and the Environment
Units: 4 Terms Offered: FaSp The environmental impacts of energy extraction, cultivation, transformation, transportation, and consumption. Instruction Mode: Lecture Grading Option: Letter

ENE 506 Ecology for Environmental Engineers
Units: 3 Terms Offered: Fa The role of environmental engineering in maintaining stability of freshwater, marine, and terrestrial ecosystems; macroscopic plant and animal forms as indicators of water quality. Instruction Mode: Lecture Grading Option: Letter

ENE 510 Water Quality Management and Practice
Units: 4 Terms Offered: Fa Surface and ground water quality and resources management; water reclamation and reuse; green stormwater infrastructure; sustainability and carbon footprint for water and wastewater systems. *Recommended Preparation:* CE 363L and CE 453 Instruction Mode: Lecture Grading Option: Letter

ENE 512 Environmental Fluid Mechanics
Units: 4 Terms Offered: Sp Application of the fundamentals on the physical laws governing fluid flow and analyzing transport of contaminant in the environment and the risks involved. *Recommended Preparation:* CE 309 or ENE 410 or AME 309 Instruction Mode: Lecture Grading Option: Letter

ENE 514a Advanced Sanitary Engineering Design
Units: 3 (Enroll in CE 514a)

ENE 514b Advanced Sanitary Engineering Design
Units: 3 (Enroll in CE 514b)

ENE 516 Hazardous Waste Management
Units: 3 Standards and regulations for the management of hazardous waste: identification, transportation, monitoring, storage, treatment, and disposal practices. Instruction Mode: Lecture Grading Option: Letter

ENE 517 Industrial and Hazardous Waste Treatment and Disposal
Units: 3 (Enroll in CE 517)

ENE 518 Environmental Systems Engineering and Management
Units: 3 Evaluating, implementing and managing effective environmental systems to prevent pollution, conserve energy and resources, reduce risks and achieve sustainability in business and industries. Instruction Mode: Lecture Grading Option: Letter

ENE 523 Physiochemical Processes in Environmental Engineering
Units: 4 Terms Offered: Fa (Enroll in CE 523)

ENE 527 Climate Change and Atmospheric Aerosols
Units: 4 Terms Offered: Fa Climate change; climate science fundamentals; Earth's energy balance and atmosphere; greenhouse gas dynamics; fundamentals of airborne particles; climate-aerosol interactions; particle-radiation and particle-cloud interactions. *Recommended Preparation:* ENE 428 Registration Restriction: Open only to seniors and graduate students Instruction Mode: Lecture Grading Option: Letter, Discussion Crosslisted as CE 527

ENE 535 Applied Air Quality Management
Units: 4 Terms Offered: Sp Air pollutants, emission levels, and air borne concentrations; Links between pollutant emissions, air quality measurements and health effects; Environmental management in private or public sectors. *Recommended Preparation:* Knowledge of general chemistry on the level of CHEM 105bL or CHEM 115bL; thermodynamics on the level of AME 310; and calculus on the level of MATH 226g or MATH 229 Instruction Mode: Lecture, Discussion Grading Option: Letter

ENE 553 Biological Processes in Environmental Engineering
Units: 3 (Enroll in CE 553)

ENE 560 Environmental Aspects of Oil and Gas Production
Units: 3 Environmental aspects of drilling for and producing oil and gas, and the necessary safety practices. Attention is given to the urban areas. Instruction Mode: Lecture Grading Option: Letter

ENE 562 Aquatic Chemistry
Units: 4 Terms Offered: Sp Quantitative prediction of chemical speciation in aquatic systems, including acid-base chemistry, precipitation / dissolution, complexation, oxidation/reduction and phase partitioning of organics. Applications to water treatment. *Recommended Preparation:* General Chemistry (CHEM 105aLg and CHEM 105bL); Differential and Integral Calculus (MATH 125g and MATH 129); Linear Algebra; Familiarity with Thermodynamics (such as PHYS 151Lg) Instruction Mode: Lecture Grading Option: Letter Crosslisted as CE 562

ENE 563 Chemistry and Biology of Natural Waters
Units: 3 (Enroll in CE 563)

ENE 580 Applied Environmental Engineering Biotechnology
Units: 3 Fundamentals of bioremediation processes; bioremediation technologies for decontamination of air, water, and soil; global applications of bioremediation techniques. Instruction Mode: Lecture Grading Option: Letter

ENE 590 Directed Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Research leading to the master's degree.

Maximum units which may be applied to the degree to be determined by the department. Instruction Mode: Lecture Grading Option: Credit/No Credit

ENE 591 Civil and Environmental Engineering Research Colloquium
Units: 1 Max Units: 02 Terms Offered: FaSp (Enroll in CE 591)

ENE 594a Master's Thesis
Units: 2 Credit on acceptance of thesis. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

ENE 594b Master's Thesis
Units: 2 Credit on acceptance of thesis. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

ENE 594z Master's Thesis
Units: 0 Credit on acceptance of thesis. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

ENE 596 Chemical Reactions in the Atmosphere
Units: 3 Terms Offered: Fa Chemical reactions and scavenging processes important in urban air pollution. Effects of solar irradiation on vehicle exhaust gases, oxides of nitrogen and sulfur. Instruction Mode: Lecture Grading Option: Letter Crosslisted as CHE-596

ENE 599 Special Topics
Units: 2, 3, 4 Max Units: 9.0 Terms Offered: FaSp Course content will be selected each semester to reflect current trends and developments in the field of environmental engineering. Instruction Mode: Lecture Grading Option: Letter

ENE 790 Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Research leading to the doctorate. Maximum units which may be applied to the degree to be determined by the department. Instruction Mode: Lecture Grading Option: Credit/No Credit

ENE 794a Doctoral Dissertation
Units: 2 Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

ENE 794b Doctoral Dissertation
Units: 2 Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

ENE 794c Doctoral Dissertation
Units: 2 Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

ENE 794d Doctoral Dissertation
Units: 2 Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

ENE 794z Doctoral Dissertation
Units: 0 Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

English

ENGL 105x Creative Writing for Non-Majors
Units: 4 Max Units: 8.0 Terms Offered: FaSp Introductory workshop in writing poetry, short fiction and nonfiction for love of the written and spoken word. Instruction Mode: Lecture Grading Option: Letter

ENGL 112Lxg Data, Denial or Doom?: Talking about Climate Change
Units: 4 Terms Offered: Sp (Enroll in BISC 112Lxg)

ENGL 170g The Monster and the Detective
Units: 4 Terms Offered: FaSp Cultural images of disorder and chaos, and of the search for order and reason, from the eighteenth century to the present. Satisfies New General Education in Category B: Humanistic Inquiry Duplicates Credit in ARLT 101g Instruction Mode: Lecture, Discussion Grading Option: Letter

ENGL 172g The Art of Poetry
Units: 4 Introduction to the pleasures and power of poetry, exploring elements drawn from high-points of English poetry, and the lives and works of major poets. Satisfies New General Education in Category B: Humanistic Inquiry Satisfies Old General Education in Category V: Arts and Letters Duplicates Credit in ARLT 101g Instruction Mode: Lecture, Discussion Grading Option: Letter

ENGL 174g Reading the Heart: Emotional Intelligence and the Humanities
Units: 4 A study of emotional intelligence through literature, history and the arts with a focus on anger, happiness, love and empathy. Satisfies New General Education in Category B: Humanistic Inquiry Instruction Mode: Lecture, Discussion Grading Option: Letter

ENGL 176g Los Angeles: the City, the Novel, the Movie
Units: 4 An exploration of the culture, vibrancy, heritage, mythology, variety, and pathology of a city that was born in hopes and captured the world's imagination. Satisfies New General Education in Category B: Humanistic Inquiry Satisfies Old General Education in Category V: Arts and Letters Instruction Mode: Lecture, Discussion Grading Option: Letter

ENGL 230g Shakespeare and His Times
Units: 4 Close study of Shakespeare's plays and poems to introduce his language, stagecraft, literary "genius," social and literary contexts, precursors and rivals, and legacy. Satisfies New General Education in Category B: Humanistic Inquiry Satisfies Old General Education in Category V: Arts and Letters Instruction Mode: Lecture, Discussion Grading Option: Letter

Units: 4 Max Units: 12.0 Studies in major and minor, canonic and non-canonic writers. Instruction Mode: Lecture Grading Option: Letter

ENGL 650 Multicultural Literary Studies
Units: 4 Max Units: 12.0 Theories of race and ethnicity, cultural imperialism, discourse of power and class, literatures of the Americas, and other topics. Instruction Mode: Lecture Grading Option: Letter

ENGL 660 Studies in Genre
Units: 4 Max Units: 12.0 History, transformation, and theory of genre; studies in epic, lyric, drama, comedy, tragedy, the novel, biography, essay, and other forms. Instruction Mode: Lecture Grading Option: Letter

ENGL 678 Seminar in Film Theory and Medium Specificity
Units: 4 Max Units: max 8 (Enroll in CTCS 678)

ENGL 679 Seminar in Genre and/or Narrative Theory
Units: 4 Max Units: max 8 (Enroll in CTCS 679)

ENGL 693 Graduate Nonfiction Form and Theory
Units: 4 Max Units: 16 Terms Offered: FaSp Study of conventional and experimental works of creative nonfiction, from memoir to poetry, criticism and scholarship, focusing on issues of form, ethics, style and audience. Registration Restriction: Open only to English and Creative Writing doctoral students Instruction Mode: Lecture Grading Option: Letter

ENGL 694 Graduate Nonfiction Writing Workshop
Units: 4 Max Units: 16 Terms Offered: FaSp Intensive practicum in advanced level nonfiction writing, intended to develop high level creative compositional ability. Registration Restriction: Open only to doctoral students in English and Creative Writing Instruction Mode: Lecture Grading Option: Letter

ENGL 695 Graduate Fiction Form and Theory
Units: 4 Max Units: max 16 Terms Offered: FaSp Seminar. Studies in fiction form and function or critical theory. Registration Restriction: Open only to doctoral students Instruction Mode: Lecture Grading Option: Letter

ENGL 696 Graduate Poetry Writing Workshop
Units: 4 Max Units: max 16 Terms Offered: FaSp Intensive practicum in advanced level poetry writing, intended to develop high level creative compositional ability. Open only to Creative Writing PhD degree candidates. Registration Restriction: Open only to doctoral English students Instruction Mode: Lecture Grading Option: Letter

ENGL 697 Graduate Fiction Writing Workshop
Units: 4 Max Units: max 16 Terms Offered: FaSp Intensive practicum in advanced level fiction writing, intended to develop high level creative compositional ability. Open only to Creative Writing PhD degree candidates. Registration Restriction: Open only to English doctoral students Instruction Mode: Lecture Grading Option: Letter

ENGL 698 Graduate Poetry Form and Theory
Units: 4 Max Units: 16 Terms Offered: FaSp Seminar. Studies in poetry form and function or critical theory. Registration Restriction: Open only to doctoral students

Instruction Mode: Lecture Grading Option: Letter

ENGL 700x Theories and Practices of Professional Development I
Units: 2 Terms Offered: FaSp A structured environment in which to craft a research project, write a dissertation prospectus, and define areas of professional expertise. *Recommended Preparation:* passage of screening exam. Instruction Mode: Lecture Grading Option: Credit/No Credit

ENGL 701x Theories and Practices of Professional Development II
Units: 2 Terms Offered: Fa This two-credit course helps ABD students craft their professional identities and placement materials as they make the transition from graduate school to their academic position. Instruction Mode: Lecture Grading Option: Credit/No Credit

ENGL 790 Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Research leading to the doctorate. Maximum units which may be applied to the degree to be determined by the department. Instruction Mode: Lecture Grading Option: Credit/No Credit

ENGL 794a Doctoral Dissertation
Units: 2 Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

ENGL 794b Doctoral Dissertation
Units: 2 Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

ENGL 794c Doctoral Dissertation
Units: 2 Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

ENGL 794d Doctoral Dissertation
Units: 2 Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

ENGL 794z Doctoral Dissertation
Units: 0 Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

Engineering

ENGR 100a Engineering Honors Colloquium
Units: 1 Recent developments in a highly technological society with emphasis on selected topics. Enrollment limited to members of the Viterbi School of Engineering Honors Program. Instruction Mode: Lecture Grading Option: Credit/No Credit

ENGR 100b Engineering Honors Colloquium
Units: 1 Recent developments in a highly technological society with emphasis on selected topics. Enrollment limited to members of the Viterbi School of Engineering Honors Program. Instruction Mode: Lecture Grading Option: Credit/No Credit

ENGR 100c Engineering Honors Colloquium
Units: 1 Recent developments in a highly technological society with emphasis on selected topics. Enrollment limited to members of the Viterbi School of Engineering Honors Program. Instruction Mode: Lecture Grading Option: Credit/No Credit

ENGR 100d Engineering Honors Colloquium
Units: 1 Recent developments in a highly technological society with emphasis on selected topics. Enrollment limited to members of the Viterbi School of Engineering Honors Program. Instruction Mode: Lecture Grading Option: Credit/No Credit

ENGR 101 Introduction to Engineering
Units: 3 Terms Offered: Fa Gateway to the majors and minors in engineering. Introduction to engineering disciplines. Historical and current trends in engineering; ethical and societal factors in engineering solutions. Hands-on design experiences; USC laboratory tours. Instruction Mode: Lecture Grading Option: Letter

ENGR 102 Engineering Freshman Academy
Units: 2 Introduction to the profession of engineering. Ethical, political and societal consequences of engineering innovations and the impact of engineering on everyday life. Team projects and guest lectures. Open to freshmen only. Instruction Mode: Lecture Grading Option: Letter

ENGR 150L Engineering Science and Systems: From Humans to Robots
Units: 3 Terms Offered: Fa Hands-on multidisciplinary engineering course that uses robotics as a theme to cover material from all areas of engineering. Laboratory; programming; team projects; end-of-semester exhibition. Open only to freshmen. *Recommended Preparation:* Basic programming experience (e.g., C, C++, C#, Java, Python). Registration Restriction: Open only to freshmen. Instruction Mode: Lecture, Lab Required Grading Option: Letter

ENGR 265g Ethics, Technology and Value
Units: 4 Terms Offered: FaSp (Enroll in PHIL 265g)

ENGR 270 Ethics for Engineers
Units: 2 Provides students with innovative problem-solving skills and strategies to identify and solve contemporary ethical challenges in engineering and scientific contexts. Instruction Mode: Lecture Grading Option: Letter

ENGR 301 Technical Entrepreneurship
Units: 3 (Enroll in BUAD 301)

ENGR 305 Engineering Biology Matters
Units: 3 Terms Offered: Fa Engineering students will learn biological phenomena in the context of engineering principles and explore biological mechanisms and processes as analogies for designing engineered systems. *Recommended Preparation:* CHEM 105a, MASC 110. Instruction Mode: Lecture Grading Option: Letter

ENGR 345 Principles and Practices of Global Innovation
Units: 3 Terms Offered: FaSp A global class using the classroom-without-borders platform and learning-from-diversity pedagogy to study the dynamic life cycle of technology innovation in competitive global market with classmates abroad. Instruction Mode: Lecture Grading Option: Letter

ENGR 395ax Cooperative Education Work Experience
Units: 1 or 2 Max Units: 5.0 Supervised work experience in a professional environment related to a specific degree program, academic level, and career objective. Acceptance into Cooperative Education Program required. Instruction Mode: Lecture Grading Option: In-progress & Credit/No Credit

ENGR 395bx Cooperative Education Work Experience
Units: 1 or 2 Max Units: 5.0 Supervised work experience in a professional environment related to a specific degree program, academic level, and career objective. Acceptance into Cooperative Education Program required. Instruction Mode: Lecture Grading Option: In-progress & Credit/No Credit

ENGR 395cx Cooperative Education Work Experience
Units: 1 or 2 Max Units: 5.0 Supervised work experience in a professional environment related to a specific degree program, academic level, and career objective. Acceptance into Cooperative Education Program required. Instruction Mode: Lecture Grading Option: In-progress & Credit/No Credit

ENGR 395dx Cooperative Education Work Experience
Units: 1 or 2 Max Units: 5.0 Supervised work experience in a professional environment related to a specific degree program, academic level, and career objective. Acceptance into Cooperative Education Program required. Instruction Mode: Lecture Grading Option: Credit/No Credit

ENGR 400 Engineering Honors Project
Units: 1, 2, 3 Max Units: 12.0 Terms Offered: FaSpSm Supervised interdisciplinary studies and projects. Enrollment limited to members of the Viterbi School of Engineering Honors Program. Instruction Mode: Lecture Grading Option: Credit/No Credit

ENGR 401x Communicating Science and Engineering to Children
Units: 3 Max Units: 6.0 Terms Offered: FaSp Engineering students communicate their knowledge, collaborate constructively with peers, and inspire underserved children to develop a curiosity and persistence for science and engineering. Registration Restriction: Open only to junior and senior engineering students. Instruction Mode: Lecture Grading Option: Letter

ENGR 410 Social Media for Scientists and Engineers
Units: 2 Terms Offered: FaSp An introduction to how social media and science intersect in a compelling manner to engage a variety of audiences. Instruction Mode: Lecture Grading Option: Letter

ENGR 461 Engineering Economics and Technology Development
Units: 4 Terms Offered: Sp Introduction to the theory and practice of engineering economics in the context of technology development. Registration Restriction: Open only to juniors and seniors Instruction Mode: Lecture Grading Option: Letter

ENGR 471a Interdisciplinary Capstone Design
Units: 2 Terms Offered: Fa A culminating experience in applying technical skills they have acquired in their engineering course work to solve a design problem sponsored by an external customer. Registration Restriction: Open only to juniors and seniors Instruction Mode: Lecture, Lab Grading Option: Letter

ENGR 471b Interdisciplinary Capstone Design
Units: 2 Terms Offered: Sp A culminating experience in applying technical skills they have acquired in their engineering coursework to solve a design problem sponsored by an external customer. *Prerequisite:* ENGR 471a Registration Restriction: Open only to juniors and seniors Instruction Mode: Lecture, Lab Grading Option: Letter

ENGR 493 Dean's Seminar in Entrepreneurship: Disruptive Technologies with an Entrepreneurial Mindset
Units: 2 Terms Offered: Fa Understand, evaluate and manage disruptive technologies in the context of starting and developing a new business. Lectures and discussions with a diverse array of successful business leaders and entrepreneurs. Registration Restriction: Open only to sophomores, juniors, seniors or first year graduate students in Engineering Duplicates Credit in former BUAD 493x Instruction Mode: Lecture Grading Option: Credit/No Credit

ENGR 499 Special Topics
Units: 2, 3, 4 Max Units: 8.0 Current developments in the field of engineering. Instruction Mode: Lecture Grading Option: Letter

ENGR 501x Engineering Writing and Communication for Master's Students
Units: 3 Terms Offered: FaSp Academic and discipline-specific writing skills. Emphasis on structure of discourse and writing process. Presentation and oral communication skills also addressed. Instruction Mode: Lecture Grading Option: Credit/No Credit

ENGR 502x Writing Skills for Engineering PhD Students
Units: 2 Max Units: 4.0 Terms Offered: FaSpSm Writing of engineering curriculum- and research-related projects for PhD students. Focus is on conference papers, dissertations and proposals, journal articles, and other forms. Instruction Mode: Lecture Grading Option: Credit/No Credit

ENGR 503x Oral Communication Skills for Engineering PhD Students
Units: 2 Max Units: 4.0 Terms Offered: FaSpSm Academic and professional presentation skills for PhD students. Preparation for qualifying exams, conference paper presentations, and other forms of oral communication. Use of visual aids and poster displays included. Instruction Mode: Lecture Grading Option: Credit/No Credit

ENGR 504x Fellowship Proposal Writing for Engineering PhD Students
Units: 2 Terms Offered: FaSp Preparation of essays and other materials for research fellowship applications. Open only to PhD engineering students. Instruction Mode: Lecture Grading Option: Credit/No Credit

ENGR 509 Patent Law for Scientists and Engineers
Units: 3 Terms Offered: Sp Tools for engineering and science graduate students to make informed decisions about obtaining and enforcing patent protection for their future inventions: validity, infringement, unenforceability. *Recommended Preparation:* EE 682 or ISE 565. Instruction Mode: Lecture Grading Option: Letter

ENGR 576 Invention and Technology Development
Units: 3 (Enroll in CE 576)

ENGR 595a Professional Writing and Communication for Internships
Units: 1 Terms Offered: FaSpSm Focus on writing and communication skills for master's students pursuing a professional internship. Registration Restriction: Open only to graduate engineering students Instruction Mode: Lecture Grading Option: Credit/No Credit

ENGR 595b Professional Writing and Communication for Internships
Units: 0 Terms Offered: FaSpSm Focus on writing and communication skills for master's students pursuing a professional internship. *Prerequisite:* ENGR 595a Registration Restriction: Open only to graduate engineering students Instruction Mode: Lecture Grading Option: Credit/No Credit

ENGR 595c Professional Writing and Communication for Internships
Units: 0 Terms Offered: FaSpSm Focus on writing and communication skills for master's students pursuing a professional internship. *Prerequisite:* ENGR 595b Registration Restriction: Open only to graduate engineering students Instruction Mode: Lecture Grading Option: Credit/No Credit

ENGR 595d Professional Writing and Communication for Internships
Units: 0 Terms Offered: FaSpSm Focus on writing and communication skills for master's students pursuing a professional internship. *Prerequisite:* ENGR 595c Registration Restriction: Open only to graduate engineering students Instruction Mode: Lecture Grading Option: Credit/No Credit

ENGR 595z Professional Writing and Communication for Internships
Units: 0 Terms Offered: FaSpSm Focus on writing and communication skills for master's students pursuing a professional internship. *Prerequisite:* ENGR 595d Registration Restriction: Open only to graduate engineering students Instruction Mode: Lecture Grading Option: Credit/No Credit

ENGR 596 Internship in Engineering
Units: 1 Max Units: 3.0 Terms Offered: FaSpSm Part-time or full-time, practical work experience in the student's field of study. The internship must be located at an off-campus facility. Students are individually supervised by faculty. May not be taken until the student has completed at least one semester of enrollment in the graduate program. Instruction Mode: Lecture Grading Option: Credit/No Credit

ENGR 597x Internship in Engineering with Professional Writing and Communication
Units: .5 Terms Offered: FaSpSm Practical work experience; professional communication and writing skills. Registration Restriction: Open only to master students in engineering Credit Restriction: Not available for graduate credit Instruction Mode: Lecture Grading Option: Credit/No Credit

ENGR 598 Professional Internship Experiences
Units: 0 Terms Offered: FaSpSm Part-time or full-time practical work experience in a particular field of study. The internship must be located at an off-campus facility. *Prerequisite:* ENGR 597x Registration Restriction: Open only to master students in engineering Instruction Mode: Lecture Grading Option: Credit/No Credit

ENGR 599 Special Topics
Units: 2, 3, 4 Current developments in the field of engineering; topics to be selected each semester. Instruction Mode: Lecture Grading Option: Letter

Environmental Studies

ENST 100g Introduction to Environmental Studies
Units: 4 Terms Offered: FaSp Gateway to the majors and minors in Environmental Studies. Provides students with an overview of how government agencies and societal institutions address (or fail to address) the interrelated social and scientific aspects of environmental problems and policies. Satisfies New General Education in Category C: Social Analysis Instruction Mode: Lecture Grading Option: Letter

ENST 150gx Environmental Issues in Society
Units: 4 Terms Offered: Fa Exploration of the major social, political, economic, religious, and philosophical disagreements that exist between scholars, leaders, and citizens concerning today's most serious environmental issues and problems. Satisfies New General Education in C Social Analysis Satisfies Old General Education in Category VI: Social Issues Instruction Mode: Lecture, Discussion Grading Option: Letter Crosslisted as IR-150

ENST 201 Introduction to Applied Environmental Science and Engineering
Units: 4 (Enroll in ENE 201)

ENST 270 Introduction to Environmental Law and Politics
Units: 4 Terms Offered: Sp (Enroll in POSC 270)

ENST 298aL Introduction to Scientific Diving
Units: 2 Terms Offered: Sp Extensive academic preparation in the physics, physiology, safety, and methodology for in-water scientific diving. *Recommended Preparation:* background in natural science and/or environmental studies Duplicates Credit in former ENST 298 Instruction Mode: Lecture, Lab Required Grading Option: Letter Crosslisted as ARCG 298a

ENST 298bL Introduction to Scientific Diving
Units: 2 Terms Offered: Sp Extensive academic preparation in the physics, physiology, safety, and methodology for in-water scientific diving. *Prerequisite:* ENST 298a *Recommended Preparation:* background in natural science and/or environmental studies Duplicates Credit in former ENST 298 Instruction Mode: Lecture, Lab Required Grading Option: Letter Crosslisted as ARCG 298b

ENST 310 Sustainable Fisheries Management
Units: 4 Terms Offered: Sp Examination of scientific, social, political, and economic factors of fisheries management, engaging students in key issues of coastal and marine sustainability. *Prerequisite:* ENST 100g *Recommended Preparation:* Any introductory Biology course Instruction Mode: Lecture Grading Option: Letter

ENST 320a Water and Soil Sustainability; Energy and Air Sustainability
Units: 4 Terms Offered: Fa Overview of issues related to water and soil sustainability including science, policy and business aspects. *Recommended Preparation:* ENST 100. Duplicates Credit in former ENST 420. Instruction Mode: Lecture Grading Option: Letter

ENST 320b Water and Soil Sustainability; Energy and Air Sustainability
Units: 4 Terms Offered: Sp Overview of issues related to water and soil sustainability including science, policy and business aspects. *Recommended Preparation:* ENST 100. Duplicates Credit in former ENST 430. Instruction Mode: Lecture Grading Option: Letter

ENST 323 Politics of Global Environment
Units: 4 (Enroll in IR 323)

ENST 335 Science, Health and the Environment
Units: 4 Terms Offered: Sp Exploration of environmentally transmitted human diseases; understanding the human/pathogen/environment nexus that leads to disease in human populations; disease transmission reduction. *Prerequisite:* BISC 103Lgx or BISC 120Lg Instruction Mode: Lecture Grading Option: Letter Crosslisted as BISC 335

ENST 344 Environmental Ethics
Units: 4 Terms Offered: Sp Explores issues concerning behavior of humans towards the nonhuman world. Examines a wide spectrum of ethical issues. *Prerequisite:* ENST 100 or ENST 150 Instruction Mode: Lecture Grading Option: Letter

ENST 347 Environmental Law
Units: 4 (Enroll in POSC 347)

ENST 352 Conservation Biology
Units: 4 Terms Offered: Sp (Enroll in BISC 352)

ENST 370 Marine and Coastal Environmental Policy
Units: 4 Terms Offered: Sp Survey of major environmental policies both international and domestic as they relate to fisheries, shipping, pollution, seaports and coastal management. *Recommended Preparation:* ENST 100, ENST 387. Instruction Mode: Lecture Grading Option: Letter

ENST 387 Economics for Natural Resources and the Environment
Units: 4 Terms Offered: Fa An introduction to the economic tools and issues that affect natural resource use and environmental management. Instruction Mode: Lecture Grading Option: Letter

ENST 390 Special Problems
Units: 1, 2, 3, 4 Supervised, individual studies. No more than one registration permitted. Enrollment by petition only. Instruction Mode: Lecture Grading Option: Letter

ENST 396 Directed Governmental and Political Leadership Internship
Units: 2, 3, 4, 5, 6, 7, 8 Max Units: max 8 (Enroll in POSC 395)

ENST 410 Water and Energy Management in the Asia-Pacific Region
Units: 4 Terms Offered: Sp An exploration of how the essential resources of water and energy are managed in the Asia-Pacific region and the implications of such management. *Prerequisite:* ENST 320a, ENST 320b . Instruction Mode: Lecture Grading Option: Letter

ENST 412 Oceans, Climate, and the Environment
Units: 4 Terms Offered: FaSp (Enroll in GEOL 412)

ENST 413 Sustainable Aquaculture and Food Security
Units: 4 Terms Offered: Fa Assessing the potential for aquaculture, the fastest growing component of food production systems, to contribute to food security goals while maintaining environmental, social and economic sustainability. *Prerequisite:* ENST 100g Instruction Mode: Lecture Grading Option: Letter

ENST 422 Ecological Security and Global Politics
Units: 4 (Enroll in IR 422)

ENST 427 The Global Environment
Units: 4 Terms Offered: FaSpSm (Enroll in BISC 427)

ENST 432 Environment and Governance: International and National Policy
Units: 4 Terms Offered: Sm Exposes students to policy makers and major institutions that work closely with local decision makers towards developing environmental policy framework. Instruction Mode: Lecture Grading Option: Letter

ENST 436 Environmental Politics
Units: 4 (Enroll in POSC 436)

ENST 440 Environmental Risk Assessment
Units: 4 Terms Offered: Sp Assesses various potential environmental risks and examines how science, government, business, and industry measure and prepare for environmental risks. *Recommended Preparation:* ENST 100. Instruction Mode: Lecture Grading Option: Letter

ENST 442 Global Climate Change: Policy and Society
Units: 4 Terms Offered: Sp Examines climate change policy at the international, national, state, and local levels, and explores the role civil society plays in climate change politics. *Prerequisite:* ENST 320b or POSC 270 Instruction Mode: Lecture Grading Option: Letter

ENST 445 Earth Climate: Past, Present, and Future
Units: 4 Terms Offered: Fa Examination of the tools used to reconstruct past climate change and a thorough discussion of past climate changes on earth with an emphasis on the recent past. *Prerequisite:* MATH 118 or MATH 125 and ENST 320b; *Recommended Preparation:* any introductory GEOL course. Instruction Mode: Lecture Grading Option: Letter Crosslisted as GEOL-445

ENST 456L Conservation Genetics
Units: 4 Terms Offered: Sp (Enroll in BISC 456)

ENST 466 Business and Environmental Sustainability
Units: 4 (Enroll in MOR 466)

ENST 470 Environmental Hydrogeology
Units: 4 Terms Offered: FaSpSm (Enroll in GEOL 470)

ENST 480 Integrated Ecosystem Management in Micronesia
Units: 4 Terms Offered: SpSm Field studies in ecosystem management tools used to investigate complex environmental problems in Micronesia. Historical, cultural, and scientific topics, direct observations of biological, physical, and chemical conditions. *Corequisite:* ENST 298a. Instruction Mode: Lecture Grading Option: Letter

ENST 483 Tropical Coastal Zone Sustainability
Units: 4 Terms Offered: Sm Field skills and management tools to investigate environmental problems in coastal zones; cultural and scientific topics; collection and analysis of environmental data. *Recommended Preparation:* ENST 100g Instruction Mode: Lecture Grading Option: Letter

ENST 485 Role of the Environment in the Collapse of Human Societies
Units: 4 Terms Offered: Sm Field studies in the roles of environmental problems in the collapse of ancient civilizations and analogous problems facing contemporary populations in those same places. *Recommended Preparation:* ENST 100. Instruction Mode: Lecture Grading Option: Letter

ENST 487 Resource and Environmental Economics
Units: 4 (Enroll in ECON 487)

ENST 490x Directed Research
Units: 1, 2, 3, 4, 5, 6, 7, 8 Max Units: 12.0 Terms Offered: FaSpSm Individual research and readings. Instruction Mode: Lecture Grading Option: Letter

ENST 492 Directed Environmental Policy and Science Internship
Units: 2, 4 Max Units: 4 Terms Offered: FaSp Provides opportunities for professional development in environmental policy and science and prepares students for career or graduate school in environmental-related fields. Students are placed in internships and guided before and during the internship period. Students gain practical experience and learn how government and nongovernmental organizations pursue and implement environmental policy and science work. Registration Restriction: Open only to Juniors and Seniors in Environmental

Science and Health, and Environmental Studies majors Instruction Mode: Lecture Grading Option: Letter

ENST 495 Senior Seminar in Environmental Studies
Units: 4 Terms Offered: Sp Students form multidisciplinary teams and are asked to study and resolve a major environmental problem facing a particular region or target population. Instruction Mode: Lecture Grading Option: Letter

ENST 499 Special Topics
Units: 1, 2, 3, 4, 5, 6, 7, 8 Max Units: 08 Selected topics dealing with environmental issues and problems. Instruction Mode: Lecture Grading Option: Letter

ENST 500 Interdisciplinary Approaches to Environmental Studies
Units: 4 Terms Offered: Fa Students will develop advanced skills to address complex environmental issues that society faces today. Different approaches for studying environmental processes and resources will be examined. Instruction Mode: Lecture Grading Option: Letter

ENST 501 Environmental Science I
Units: 2 Terms Offered: Fa Exposes students to critical scientific principles, concepts, and issues related to pollution control, remediation, and ecology. *Corequisite:* ENST 502. Instruction Mode: Lecture Grading Option: Letter

ENST 502 Environmental Science Seminar I
Units: 1 Terms Offered: Fa A series of biweekly guest lectures on critical scientific principles, concepts, and issues related to pollution control, remediation, and ecology. Instruction Mode: Lecture Grading Option: Letter

ENST 503 Environmental Science II
Units: 2 Terms Offered: Sp A continuation of ENST 501. Exposes students to critical scientific principles, concepts, and issues related to pollution control, remediation, and ecology. *Prerequisite:* ENST 501; *Corequisite:* ENST 504. Instruction Mode: Lecture Grading Option: Letter

ENST 504 Environmental Science Seminar II
Units: 1 Terms Offered: Sp A continuation of ENST 502. A series of biweekly guest lectures on critical scientific principles, concepts, and issues related to pollution control, remediation, and ecology. Instruction Mode: Lecture Grading Option: Letter

ENST 505a Advanced Environmental Science Seminar
Units: 2 Terms Offered: FaSp Ties together science, technology, and finance with risk assessment and policy. Instruction Mode: Lecture Grading Option: Letter

ENST 505b Advanced Environmental Science Seminar
Units: 2 Terms Offered: FaSp Ties together science, technology, and finance with risk assessment and policy. Instruction Mode: Lecture Grading Option: Letter

ENST 510 Statistics for Environmental Analysis
Units: 4 This course introduces graduate students to the various quantitative techniques and methodological approaches used in pollution control, natural resources management, and environmental protection. Instruction Mode: Lecture Grading Option: Letter

ENST 520 Environmental Law and Policy
Units: 4 Terms Offered: Sp Introduces students to the central issues, concepts, and theories in environmental law and policy and analyzes present environmental laws and regulations. Instruction Mode: Lecture Grading Option: Letter

ENST 530 Environmental Risk Analysis
Units: 4 Terms Offered: Fa Analyzes various potential environmental risks and examines how science, government, and business measure and prepare for environmental risks. Instruction Mode: Lecture Grading Option: Letter

ENST 540 California Coastal Zone Science and Policy
Units: 4 Terms Offered: Sp Science and policy issues used to characterize and manage California coastal resources. Key issues include: coastal pollution, public health, ecosystem management, and marine reserves. *Recommended Preparation:* ENST 500. Instruction Mode: Lecture Grading Option: Letter

ENST 590 Directed Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Research leading to the master's degree. Maximum units which may be applied to the degree to be determined by the department. Instruction Mode: Lecture Grading Option: Credit/No Credit

ENST 594a Master's Thesis
Units: 2 Credit on acceptance of thesis. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

ENST 594b Master's Thesis
Units: 2 Credit on acceptance of thesis. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

ENST 594z Master's Thesis
Units: 0 Credit on acceptance of thesis. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

ENST 595 Graduate Seminar in Environmental Studies
Units: 4 Terms Offered: Sp Addresses the obstacles to environmental policymaking and management by examining the interrelationships between science, technology, and social science. *Recommended Preparation:* ENST 500, ENST 501, ENST 502, ENST 503, ENST 504. Instruction Mode: Lecture Grading Option: Letter

ENST 599 Special Topics
Units: 2, 3, 4 Max Units: 8.0 Subjects specifically relevant to an environmental studies field, sometimes conducted as intensive short courses. Instruction Mode: Lecture Grading Option: Letter

Design

DES 102 Design Fundamentals
Units: 4 Terms Offered: FaSp Introduction to the basic elements and processes of visual communication and design. Instruction includes studio projects, lectures and readings. Various media used. Duplicates Credit in former FADN 102 Instruction Mode: Lecture Grading Option: Letter

DES 105 Art and Design Studio I
Units: 4 Terms Offered: FaSp (Enroll in ART 105)

DES 106 Art and Design Studio II
Units: 4 Terms Offered: FaSp (Enroll in ART 106)

DES 110 Drawing for Art and Design
Units: 4 Terms Offered: FaSpSm (Enroll in ART 110)

DES 123xg The Design Challenge: Exploring the Design Process
Units: 4 Terms Offered: FaSpSm An overview of the creative design process and introduction to techniques to solve visual problems. Satisfies New General Education in Category A: The Arts Credit Restriction: Not available for credit for Roski majors Instruction Mode: Lecture Grading Option: Letter

DES 202 Design II
Units: 4 Terms Offered: FaSp Exploration of essential elements of traditional and digital design, including color and image-text integration, editing information, typography and sequencing. *Prerequisite:* DES 102 or FADN 102 *Corequisite:* DES 203 or FADN 203 Duplicates Credit in former FADN 202 Instruction Mode: Lecture Grading Option: Letter

DES 203 Digital Tools for Design
Units: 2 Terms Offered: FaSp Exploration of the processes of germination, ideation and application/execution in design integrated with computer usage. *Corequisite:* DES 202 Duplicates Credit in former FADN 203 Instruction Mode: Lecture Grading Option: Letter

DES 213 Digital Tools in 3D Design
Units: 2 Terms Offered: FaSp 3D digital modeling, rendering, digital capture and production methods for product, package and environmental design. *Prerequisite:* FADN 102 or DES 102 Instruction Mode: Lecture Grading Option: Letter

DES 230 3D Design: Materials and Tools
Units: 4 Terms Offered: FaSp Introduction to the study of 3-D Design. Includes a wide investigation of materials, tools, and techniques specific to dimensional design as they apply to package, product, and environmental design. *Prerequisite:* DES 102 or FADN 102 or ART 140 Duplicates Credit in former FADN 230 Instruction Mode: Lecture Grading Option: Letter

DES 302 Design III
Units: 4 Terms Offered: FaSp Advanced exploration of typography and image-text integration, including collaborative projects, pre-press and proofing techniques, narrative concepts and information architecture. *Prerequisite:* DES 202 or FADN 202 Duplicates Credit in former FADN 302 Instruction Mode: Lecture Grading Option: Letter

DES 303 Web Design
Units: 2 Terms Offered: FaSp A workshop-based course that focuses on software applications in design and web design. *Prerequisite:* DES 203 or FADN 203 Duplicates Credit in former FADN 303 Instruction Mode: Lecture Grading Option: Letter

DES 313 Graphic Design in Fashion
Units: 4 Terms Offered: FaSpSm An intensive studio and lecture course focusing on the applications of graphic design in fashion and related fields. *Prerequisite:* DES 102 or FADN 102 *Recommended Preparation:* DES 203 Duplicates Credit in

former FADN 313 Instruction Mode: Lecture Grading Option: Letter

DES 314 Illustration for Art and Design
Units: 2 Terms Offered: FaSp (Enroll in ART 314)

DES 322 Publication Design
Units: 4 Terms Offered: FaSp Application of layout, typography, design principles and image making in the design and production of books, magazines, zines and digital books. *Prerequisite:* (DES 202 or FADN 202) and (DES 203 or FADN 203) *Recommended Preparation:* DES 332a Instruction Mode: Lecture, Lab Grading Option: Letter

DES 323g Design Theory
Units: 4 Terms Offered: FaSp A comprehensive study of visual communication focusing on graphic design from 1900 to the present. An introduction to design thinking, language and principles including political and cultural implications. Satisfies New General Education in Category A: The Arts Duplicates Credit in former FADN 323 Instruction Mode: Lecture Grading Option: Letter

DES 330 3D Design: Objects and Space
Units: 4 Terms Offered: FaSp A continuation of DES 230 to produce finished models and prototypes of package, product and environmentally-based designs in actual and virtual space. *Prerequisite:* DES 230 or FADN 230 Duplicates Credit in former FADN 330 Instruction Mode: Lecture Grading Option: Letter

DES 332a Typography
Units: 2 Terms Offered: FaSp The study of visual communication through the use of letterforms from historical tradition to contemporary experimental rebellion. Duplicates Credit in former FADN 332a Instruction Mode: Lecture Grading Option: Letter

DES 332b Typography
Units: 2 Terms Offered: FaSp Continuation of DES 332a. *Prerequisite:* DES 332a or FADN 332a Duplicates Credit in former FADN 332b Instruction Mode: Lecture Grading Option: Letter

DES 333 New York Design Study Tour
Units: 2 Terms Offered: Sp Historical and contemporary aspects of the New York design world, including a one-week trip to New York City to visit design firms, studios and museums. Airfare and accommodations extra. By application only. Duplicates Credit in former FADN 333 Instruction Mode: Lecture Grading Option: Letter

DES 402 Advanced Design Projects
Units: 4 Max Units: 12 Terms Offered: FaSp Advanced information design within a flexible curriculum. Emphasis on team-oriented projects. *Prerequisite:* DES 302 or FADN 302 Duplicates Credit in former FADN 402 Instruction Mode: Lecture Grading Option: Letter

DES 413 Professional Practice in Design
Units: 4 Terms Offered: FaSp A summation of one's practice, with a focus on transitioning to a career as a professional designer. *Prerequisite:* DES 402 or FADN 402 Registration Restriction: Open only to Seniors in the Roski School of Art and Design Instruction Mode: Lecture Grading Option: Letter

DES 418 Independent Studies in Design
Units: 1, 2, 3, 4 Max Units: 12 Terms Offered: FaSpSm Independent research of specific topics under the direction of a faculty member. Administrative and faculty approval required. *Recommended Preparation:* appropriate 300-level course work Instruction Mode: Lecture Grading Option: Letter

DES 419 Professional Internship in the Arts
Units: 2 Max Units: 4 Terms Offered: FaSpSm (Enroll in ART 419)

DES 432 Special Projects in Design
Units: 2 Terms Offered: FaSp Students work on projects for outside clients, and receive instruction in professional practices, advanced design techniques, and sophisticated technology. By invitation or portfolio review only. Only open to upper division students. *Prerequisite:* DES 302 or FADN 302 Duplicates Credit in former FADN 432 Instruction Mode: Lecture Grading Option: Letter

DES 433 International Design Study Tour
Units: 2 Terms Offered: FaSp An immersive experience in the design culture of a global city or region that includes a short (two-week or less) international trip. Instruction Mode: Lecture Grading Option: Letter

DES 494a Senior Thesis
Units: 2 Terms Offered: FaSpSm Research and writing of a senior-level thesis or thesis project under the supervision of a faculty committee. Registration Restriction: Open only to senior BFA Design majors Instruction Mode: Lecture Grading Option: In Progress to Credit/No Credit

DES 494b Senior Thesis
Units: 2 Terms Offered: FaSpSm Research and writing of a senior-level thesis or thesis project under the supervision of a faculty committee. *Prerequisite:* DES 494a Registration Restriction: Open only to senior BFA Design majors Instruction Mode: Lecture Grading Option: In Progress to Credit/No Credit

DES 499 Special Topics
Units: 2, 3, 4 Max Units: 8 Terms Offered: FaSpSm Selected topics of current interest. Instruction Mode: Lecture Grading Option: Letter

DES 503 Contemporary Issues in Design
Units: 4 Terms Offered: Fa An analytic seminar of topics, ideas and concepts in the contemporary design world. Instruction Mode: Lecture Grading Option: Letter

DES 513 Visiting Designers Forum
Units: 2 Max Units: 04 Terms Offered: Fa Professional practice of design featuring formal presentations by visiting designers. Instruction Mode: Lecture Grading Option: Letter

DES 514 Designers in Residence Forum
Units: 2 Max Units: 04 Terms Offered: Sp Seminar in the professional practice of design featuring formal presentations and mentoring opportunities by designers in residence. Instruction Mode: Lecture Grading Option: Letter

DES 520 Individual Studies
Units: 2 Max Units: 06 Terms Offered: FaSp Investigation of creative problems through various design media. Instruction Mode: Lecture Grading Option: Letter

DES 523 Design Theory
Units: 4 Terms Offered: FaSp A critical examination of issues, theories, movements and practices that are relevant to the contemporary professional designer. Instruction Mode: Lecture Grading Option: Letter

DES 530 Design Studio Co-Lab
Units: 2 Max Units: 06 Terms Offered: FaSp A critical examination of contextual issues, theories, movements and ideas that are relevant to the contemporary design practice in collaboration with a professional client. Instruction Mode: Lecture Grading Option: Letter

DES 540 Design Pedagogy
Units: 4 Terms Offered: Sp A critical examination and application of the issues, theories, and ideas that support the studio practice and teaching of contemporary design. Instruction Mode: Lecture Grading Option: Letter

DES 543 Design Study Tour
Units: 2 Terms Offered: FaSp Historical and contemporary aspects of urban design with visits to design firms, studios and museums in selected cities across the United States. Airfare and accommodations extra. Instruction Mode: Lecture Grading Option: Letter

DES 550 Advancement
Units: 2 Terms Offered: FaSpSm A preparatory workshop to prepare students advancing to candidacy. *Recommended Preparation:* Completion of 24 units of course work Registration Restriction: Open only to master students in the USC Roski School of Art and Design Instruction Mode: Lecture Grading Option: Credit/No Credit

DES 590 Directed Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Max Units: 12 Terms Offered: FaSpSm Research leading to the master's degree. Maximum units which may be applied to the degree to be determined by the department. Registration Restriction: Open only to master students in the USC Roski School of Art and Design Instruction Mode: Lecture Grading Option: Credit/No Credit

DES 591 Field Internship Experience
Units: 2 Terms Offered: FaSpSm Supervised internship in a design firm, or with an independent designer, on projects and research specific to design practice. *Recommended Preparation:* Completion of first year of courses Instruction Mode: Lecture Grading Option: Credit/No Credit

DES 594a Master's Thesis
Units: 2 Terms Offered: FaSpSm Credit on acceptance of thesis. *Recommended Preparation:* 30 units of course work Registration Restriction: Open only to master students in the USC Roski School of Art and Design Instruction Mode: Lecture Grading Option: Credit/No Credit

DES 594b Master's Thesis
Units: 2 Terms Offered: FaSpSm Master's thesis *Prerequisite:* DES 594a *Recommended Preparation:* 30 units of coursework Registration Restriction: Open only to master students in the USC Roski School of Art and Design Instruction Mode: Lecture Grading Option: Credit/No Credit

DES 594z Master's Thesis
Units: 0 Terms Offered: FaSpSm Credit upon acceptance of master's thesis.

Registration Restriction: Open only to master students Instruction Mode: Lecture Grading Option: Credit/No Credit

DES 599 Special Topics
Units: 2, 3, 4 Max Units: 08 Terms Offered: FaSpSm Selected topics in the various specialty areas within design at the graduate level. Topic will vary from semester to semester. Instruction Mode: Lecture Grading Option: Letter

Finance and Business Economics

FBE 206 The Power of Personal Finance
Units: 2 Terms Offered: FaSp Develop knowledge and skills in areas of money management, budgeting, financial goal attainment, insurance, credit cards, and investments. Instruction Mode: Lecture Grading Option: Letter

FBE 299 Special Topics
Units: 2, 4 Max Units: 4 Terms Offered: FaSpSm Introduction to current developments in finance and business economics. Instruction Mode: Lecture Grading Option: Letter

FBE 391 Real Estate Finance and Investment
Units: 4 Terms Offered: FaSp Introduction to income-producing real estate from the perspective of finance, market analysis, capital markets, development and investment. Includes focus on analytical techniques and computer applications. *Prerequisite:* BUAD 215 or BUAD 306. Duplicates Credit in former FBE 365. Instruction Mode: Lecture Grading Option: Letter

FBE 400x Introduction to Real Estate Finance and Development
Units: 4 Terms Offered: Fa Case analysis examining economic and financial aspects of real estate decisions for non-business majors. Focuses on dynamics of financing, markets and the development process. Duplicates Credit in former FBE 200x. Instruction Mode: Lecture Grading Option: Letter

FBE 402 Government and Business
Units: 4 American mixed capitalism, welfare, market failure, and the role of government in business; regulation and the public utilities, antitrust policy, and current topics in regulation-deregulation. Instruction Mode: Lecture Grading Option: Letter

FBE 403 Introduction to the Legal Environment of Business
Units: 4 Terms Offered: FaSp Legal principles of business: litigation process, constitutional law, torts, product liability, crimes, contracts, sales and leases, intellectual property, international law, agency, employment law, and ethics. Duplicates Credit in the former BUAD 403. Instruction Mode: Lecture Grading Option: Letter

FBE 405 Behavioral Finance
Units: 4.0 Terms Offered: FaSp Theories and applications of financial decision-making, using insights from psychology and neuroscience. Impact of behavioral biases on market prices. In-class experiments will be conducted. *Prerequisite:* BUAD 215x or BUAD 306 Instruction Mode: Lecture Grading Option: Letter

FBE 416 Managerial Economics
Units: 4 Application of microeconomic theory to problems of the firm, quantification of demand and cost relationships; pricing policies. *Prerequisite:* BUAD 311; and BUAD 351 or ECON 203 or ECON 351. Instruction Mode: Lecture Grading Option: Letter

FBE 421 Financial Analysis and Valuation
Units: 4 Terms Offered: FaSp Develops and uses tools of financial analysis to evaluate the performance and assess the value of individual companies in an industry context. *Prerequisite:* ACCT 410x or BUAD 280 or BUAD 305 Registration Restriction: Open only to undergraduates Instruction Mode: Lecture Grading Option: Letter

FBE 423 Introduction to Venture Capital and Private Equity
Units: 4 Terms Offered: FaSp Introduction to venture capital and private equity. Topics include fundraising, valuation of new firms and venture capital securities, and exiting investments through public offerings. *Prerequisite:* BUAD 215 or BUAD 306. Instruction Mode: Lecture Grading Option: Letter

FBE 424 Financial Institutions and Capital Markets
Units: 4 Terms Offered: FaSp Money and capital markets; derivative markets; foreign exchange markets; investment banks and nonbank finance, financial crises; commercial banks, Federal Reserve and conduct of monetary policy. *Prerequisite:* (BUAD 351 and BUAD 352) or (ECON 203g and ECON 205g) or (ECON 351x and ECON 352x) Registration Restriction: Open only to Sophomores, Juniors and Seniors Duplicates Credit in former FBE 324 Instruction Mode: Lecture Grading Option: Letter

FBE 427 Real Estate Law
Units: 4 Terms Offered: FaSp Principles of law regarding real property transactions; buyer-seller, debtor-creditor, landlord-tenant relationships; environmental law and land use control; investments and syndication. Instruction Mode: Lecture Grading Option: Letter

FBE 428 Introduction to Employment Law
Units: 4 Terms Offered: FaSpSm Survey of current employment law topics including employment discrimination arising within modern workplaces. Legal and business strategies for managing diversity for organizational success. Instruction Mode: Lecture Grading Option: Letter

FBE 429 International Business Law
Units: 4 Terms Offered: FaSp Introductory course on the legal and regulatory environment of international business transactions. Instruction Mode: Lecture Grading Option: Letter

FBE 431 Financial Policies and Corporate Governance
Units: 4 Terms Offered: FaSp Presentation of the theory and institutional details of corporate finance, with emphasis on debt and dividend policies, governance/voting rights, and security issuance and retirement. *Prerequisite:* BUAD 215 or BUAD 306. Instruction Mode: Lecture Grading Option: Letter

FBE 432 Corporate Financial Strategy
Units: 4 Terms Offered: FaSp Linkage between financial theory and policy and corporate strategy, the role of financial managers in developing corporate strategy; applications of concepts and techniques using cases. *Prerequisite:* ACCT 410x or BUAD 280 or BUAD 305 Instruction Mode: Lecture Grading Option: Letter

FBE 433 Corporate Governance and CEO Pay
Units: 4 Terms Offered: Sp Explores how value is created (or destroyed) through incentive compensation and corporate governance. Focus on bonuses, stock options, executive compensation, and financing policies. *Prerequisite:* BUAD 215 or BUAD 306. Instruction Mode: Lecture Grading Option: Letter

FBE 435 Applied Finance in Fixed Income Securities
Units: 4 Terms Offered: Sp Emphasis on hedging tools necessary for portfolio managers. Introduction of all securities available in fixed income and provision of tools to analyze investments. *Prerequisite:* BUAD 215 or BUAD 306. Instruction Mode: Lecture Grading Option: Letter

FBE 436 Financial Management of Multinational Corporations
Units: 4 International scope and dimension of financial planning; working capital management; financing and investment decisions of multinational corporations. *Prerequisite:* BUAD 215 or BUAD 306. Instruction Mode: Lecture Grading Option: Letter

FBE 437 Entrepreneurial Finance: Financial Management for Developing Firms
Units: 4 Terms Offered: Fa Internal financial management of developing firms. Cash flow analysis; capital budgeting; sources of financing; risk analysis; measurement of profits; and mergers and acquisitions. *Prerequisite:* BUAD 215 or BUAD 306. Instruction Mode: Lecture Grading Option: Letter

FBE 440 Trading and Exchanges
Units: 4 Terms Offered: Sp Theories, practices and technologies of trading at exchanges and in dealer networks. Sources of liquidity, volatility, profitability and institutional change. Domestic and international public policy issues. Instruction Mode: Lecture Grading Option: Letter

FBE 441 Investments
Units: 4 Terms Offered: FaSp Theories and applications of investment decision-making; the behavior of security prices, portfolio theory, asset pricing models, market efficiency, bond valuation and term structure, derivative securities. *Prerequisite:* BUAD 215 or BUAD 306. Instruction Mode: Lecture Grading Option: Letter

FBE 443 Introduction to Forecasting and Risk Analysis
Units: 4 Terms Offered: Sp Introduction to econometric tools and versions of Capital Asset Pricing Models to estimate financial risk, stock market risk premia and to project economic activity. *Prerequisite:* (BUAD 215x or BUAD 306) and (BUAD 310g or BUAD 312g) Instruction Mode: Lecture Grading Option: Letter

FBE 453a Advanced Practicum in Investment Management
Units: 4 Terms Offered: Fa Application of investment management techniques in a laboratory setting. Stock selection, asset allocation, industry analysis, investment

thesis research; off-site visits; oral and written presentations. *Prerequisite:* BUAD 215x or BUAD 306 *Corequisite:* FBE 421 or FBE 441 Registration Restriction: Open only to students admitted to the Marshall Undergraduate Student Investment Fund program Instruction Mode: Lecture Grading Option: Letter

FBE 453b Advanced Practicum in Investment Management
Units: 4 Application of advanced investment management techniques in a laboratory setting. Bond portfolio management, quantitative stock screens, derivatives trading, portfolio optimization. Off-site visits and presentations. Open only to senior business majors. Instruction Mode: Lecture Grading Option: Letter

FBE 458 Law of Forming, Financing and Managing Businesses
Units: 4 Terms Offered: FaSpSm Law and ethics of agency, partnerships, corporations, limited liability companies, governmental regulation, mergers, creditor rights, secured transactions, bankruptcy, securities regulation and antitrust. Instruction Mode: Lecture Grading Option: Letter

FBE 459 Financial Derivatives
Units: 4 Terms Offered: Fa A rigorous introduction to the pricing and corporate use of financial derivatives — futures, options, forwards, and swaps — on stocks, exchange rates, bonds, and commodities. *Prerequisite:* BUAD 215 or BUAD 306. Instruction Mode: Lecture Grading Option: Letter

FBE 460 Mergers, Acquisitions and Restructuring
Units: 4 Terms Offered: FaSpSm Practical understanding of the major strategic, economic, financial, human resources, and governance issues of mergers, acquisitions, and restructuring. *Prerequisite:* BUAD 215x or BUAD 306. Instruction Mode: Lecture Grading Option: Letter

FBE 462 International Trade, Finance and Commercial Policy
Units: 4 Terms Offered: FaSp Commercial policies, treaty relationships, examination of policies influencing world trade and finance, the international financial system, exchange rates. *Prerequisite:* (ECON 203g and ECON 205g) or (BUAD 351 and BUAD 352) or (ECON 351x and ECON 352x) Registration Restriction: Open only to sophomores, juniors, and seniors Instruction Mode: Lecture Grading Option: Letter

FBE 465 Real Estate Analysis and Computer Modeling
Units: 2 Terms Offered: FaSp Real estate valuation. Three approaches to valuation: Market comparison, income, and cost. Highest and best use analysis. State of the art real estate software. *Prerequisite:* FBE 391 or FBE 400 Instruction Mode: Lecture Grading Option: Letter

FBE 466 Management of Real Estate Development: Feasibility Studies
Units: 4 Terms Offered: Sp By means of a significant real-world case study chosen each term, the development process is examined from the interrelated perspectives of finance, market analysis, and design and construction technology. Team-generated development proposals are proposed and presented in a consulting environment that includes industry participants. *Prerequisite:* FBE 391 and FBE 470 or FBE 400. Instruction Mode: Lecture Grading Option: Letter

FBE 469 Mixed Use Development Process
Units: 4 Terms Offered: Sp (Enroll in RED 469)

FBE 470 Advanced Real Estate Analysis
Units: 4 Terms Offered: FaSp Mixed lecture/case approach covering market analysis, asset valuation, ownership structure, negotiation, asset management, corporate real estate, portfolio management, and affordable housing, appraisal and advanced financial modeling. *Prerequisite:* FBE 391. Duplicates Credit in former FBE 465. Instruction Mode: Lecture Grading Option: Letter

FBE 489 Real Estate Capital Markets
Units: 4 Terms Offered: Fa Topics in real estate capital markets including markets for debt and equity; residential and commercial mortgages and mortgage-backed securities; REITs; institutional sources of capital. *Prerequisite:* FBE 391 or FBE 400 Instruction Mode: Lecture Grading Option: Letter

FBE 491 Real Estate Finance Colloquium
Units: 2 Terms Offered: FaSp The roles of economics and finance in real estate. Lessons from history, the origin of real estate bubbles, how real estate markets work. Instruction Mode: Lecture Grading Option: Letter

FBE 495x Practicum in Business Issues (Internship)
Units: 1 Max Units: 12.0 Terms Offered: FaSpSm Combined classroom discussion and structured, supervised field application of business theories and practices within a part-time employment context. Open only to undergraduate students in Finance and Business Economics certificate. Registration Restriction: Open only to undergraduate students in Finance and Business Economics certificate. Instruction Mode: Lecture Grading Option: Credit/No Credit

FBE 498 Special Topics
Units: 1, 2, 3, 4 Max Units: 08 Terms Offered: Irregular Current developments in the field of finance and business economics; topics to be selected each semester. (Graded CR/NC) *Prerequisite:* BUAD 215x or BUAD 306 Instruction Mode: Lecture Grading Option: Credit/No Credit

FBE 499 Special Topics
Units: 2, 3, 4 Max Units: 8.0 Terms Offered: FaSpSm Current developments in the field of finance and business economics; topics to be selected each semester. *Prerequisite:* BUAD 215 or BUAD 306. Instruction Mode: Lecture Grading Option: Letter

FBE 501 Investment Banking Fundamentals
Units: 1.5 Terms Offered: FaSpSm The role of an investment banking associate. Students will effectively function as a junior banker through a sell-side merger and acquisition (M & A) process. Registration Restriction: Online registration open only to graduate accounting and business students Instruction Mode: Lecture Grading Option: Letter

FBE 504 The FinTech Revolution: Disrupting Traditional Finance
Units: 1.5 Terms Offered: FaSp Emerging business models in finance including crowdfunding, marketplace lending, new payment solutions and wealth management automation. Registration Restriction: Online registration open only to graduate business and accounting students Instruction Mode: Lecture Grading Option: Letter

FBE 506 Quantitative Methods in Finance
Units: 3 Terms Offered: Fa The development of single and bivariate mathematical and statistical methods used in modern finance and economics and applications of these methods. Registration Restriction: Open only MS in Finance students Duplicates Credit in former FBE 506a and FBE 506b Instruction Mode: Lecture Grading Option: Letter

FBE 523 Venture Capital and Private Equity
Units: 3 Terms Offered: FaSp Advanced analysis of the economics of the private equity markets. Consider and value private securities in venture capital, initial public offerings, and leveraged buyouts. *Prerequisite:* GSBA 521b or GSBA 548. Instruction Mode: Lecture Grading Option: Letter

FBE 524 Money and Capital Markets
Units: 3 Terms Offered: Fa Review of financial institutions and markets, the determinants of interest rates, the impact of government regulation and policy on the financial system. *Prerequisite:* GSBA 521b or GSBA 548. Instruction Mode: Lecture Grading Option: Letter

FBE 525 Financial Institution Management, Strategy and Valuation
Units: 3 Terms Offered: Fa Application of economic and financial analytic techniques to the managerial problems of financial institutions and implications for financial firm strategy and valuation. *Prerequisite:* GSBA 521b or GSBA 548. Instruction Mode: Lecture Grading Option: Letter

FBE 526 Macroeconomic Analysis for Business
Units: 3 Terms Offered: Sp The economic environment of business: American economic and social goals and policies and their impact on business; growth, stability, and the new priorities; international forces influencing business. Registration Restriction: Online registration open only to graduate business and accounting students Instruction Mode: Lecture Grading Option: Letter

FBE 527 Entrepreneurial Finance: Financial Management for Developing Firms
Units: 3 Terms Offered: FaSp Internal financial management of developing firms. Cash flow analysis; capital budgeting; sources of financing; risk analysis; measurement of profits; and mergers and acquisitions. *Prerequisite:* GSBA 521b or GSBA 548. Instruction Mode: Lecture Grading Option: Letter

FBE 529 Financial Analysis and Valuation
Units: 3 Terms Offered: FaSp An applications-oriented course to develop the financial and accounting tools required to do financial planning valuation and

assessment of financial performance. *Prerequisite:* GSBA 521b or GSBA 548 Duplicates Credit in FIM 529 Instruction Mode: Lecture Grading Option: Letter

FBE 531 Corporate Financial Policy and Corporate Governance
Units: 1.5, 3 Terms Offered: FaSp Advanced analysis of the determinants of corporate capital structure and payout policies, allocation and value of corporate control, and security issuance and retirement. *Prerequisite:* GSBA 521b or GSBA 548. Instruction Mode: Lecture Grading Option: Letter

FBE 532 Corporate Financial Strategy
Units: 3 Terms Offered: FaSpSm Linkage between financial theory and policy and corporate strategy; the role of financial managers in developing corporate strategy; applications of concepts and techniques using cases. *Prerequisite:* GSBA 521b or GSBA 548. Instruction Mode: Lecture Grading Option: Letter

FBE 533 CEO Pay, Corporate Governance, and the Politics of Finance
Units: 3 Terms Offered: Sp Explores how value is created (or destroyed) in organizations, focusing on compensation and incentive systems and the causes and consequences of government (and populist) intervention. *Prerequisite:* GSBA 521b or GSBA 548. Instruction Mode: Lecture Grading Option: Letter

FBE 535 Applied Finance in Fixed Income Securities
Units: 1.5, 3 Terms Offered: FaSp The basic principles underlying fixed income securities and how these principles apply to the practical aspects of fixed income management. *Prerequisite:* GSBA 521b or GSBA 548. Instruction Mode: Lecture Grading Option: Letter

FBE 540 Hedge Funds
Units: 3 Terms Offered: FaSp Introduction to the investment strategies used by hedge funds, the quantitative tools and business plans used to implement them. *Prerequisite:* GSBA 521b or GSBA 548. *Recommended Preparation:* statistics and calculus. Instruction Mode: Lecture Grading Option: Letter

FBE 543 Forecasting and Risk Analysis
Units: 3 Terms Offered: SpSm Application of econometric tools and versions of capital asset pricing models to estimate financial risk and stock market risk premia for portfolio management. *Prerequisite:* FBE 506 or GSBA 506b or GSBA 524 or (GSBA 516 and GSBA 545) Instruction Mode: Lecture Grading Option: Letter

FBE 545 Applied Financial Modeling
Units: 3 Terms Offered: FaSp Hands-on Excel skills necessary to analyze complicated financial situations and to present the analysis in a coherent and professional manner. Registration Restriction: Online registration open only to graduate business and accounting students Instruction Mode: Lecture Grading Option: Letter

FBE 550 High Yield Bond Investing - Managing Credit Risk
Units: 1.5 Terms Offered: FaSp Review the structure of the high yield bond market. Develop a practical approach to assess credit risk and understand how deals are structured and priced. Registration Restriction: Online registration open only to graduate accounting and business students Instruction Mode: Lecture Grading Option: Letter

FBE 551 Quantitative Investing
Units: 3 Terms Offered: Fa Build, test and implement the types of models in use by quantitative asset managers. *Prerequisite:* FBE 555 Instruction Mode: Lecture Grading Option: Letter

FBE 553a Applied Portfolio Management
Units: 3 Terms Offered: Fa Application of portfolio management techniques in a laboratory setting. Stock selection, asset allocation, industry analysis, investment thesis research; off-site visits; oral and written presentations. *Prerequisite:* GSBA 521b or GSBA 548. *Corequisite:* FBE 555. Instruction Mode: Lecture Grading Option: Letter

FBE 553b Applied Portfolio Management
Units: 3 Terms Offered: Sp Application of advanced portfolio management techniques in a laboratory setting. Bond portfolio management, quantitative stock screens, derivatives trading, portfolio optimization. Off-site visits and presentations. *Prerequisite:* FBE 553a Instruction Mode: Lecture Grading Option: Letter

FBE 554 Trading and Exchanges
Units: 3 Terms Offered: Sp Theories, practices and technologies of trading at exchanges and in dealer networks. Sources of liquidity, volatility, profitability and institutional change. Domestic and international public policy issues. Registration Restriction: Online registration open only to graduate accounting and business students Duplicates Credit in FBE 440 Instruction Mode: Lecture Grading Option: Letter

FBE 555 Investment Analysis and Portfolio Management
Units: 3 Terms Offered: FaSp Analysis and management of common stocks and fixed income securities; development of modern portfolio theory and the efficient market hypothesis; organization of securities markets. *Prerequisite:* GSBA 521b or GSBA 548. Instruction Mode: Lecture Grading Option: Letter

FBE 557 Business Law and Ethics
Units: 3 Terms Offered: FaSpSm Business law of traditional and e-contracts, UCC, crimes, torts, employment, ethics, social responsibility, intellectual property, digital law, e-commerce, accountants' liability, property, estates, and government regulation. Registration Restriction: Online registration open only to graduate business and accounting students Instruction Mode: Lecture Grading Option: Letter

FBE 558 Law for Structuring, Financing, and Managing Businesses
Units: 3 Terms Offered: FaSp Legal environment of agency law, general and limited partnerships, limited liability companies, corporate formation and financing, corporate governance, securities law, acquisitions, bankruptcy, and business ethics. Registration Restriction: Online registration open only to graduate accounting and business students Instruction Mode: Lecture Grading Option: Letter

FBE 559 Management of Financial Risk
Units: 3 Terms Offered: FaSp Analysis of commodity, futures, and options contracts; theoretical and empirical approaches; spot and futures price relationships, speculation and hedging strategies; market efficiency. *Prerequisite:* GSBA 521b or GSBA 548. Instruction Mode: Lecture Grading Option: Letter

FBE 560 Mergers and Acquisitions
Units: 3 Terms Offered: Sp Practical application of the critical components of mergers and acquisitions: deal flow strategies, preliminary negotiations, deal structures, due diligence, valuation, post-merger integration, and regulations. *Prerequisite:* GSBA 521b or GSBA 548. Instruction Mode: Lecture Grading Option: Letter

FBE 563 Global Trade and Finance
Units: 3 Terms Offered: Sp Impact of trade globalization in goods, services and financial securities on business decisions; special attention to foreign currency markets, foreign investments and international portfolios investments. Registration Restriction: Online registration open only to graduate accounting and business students Instruction Mode: Lecture Grading Option: Letter

FBE 564 International Financial Management
Units: 3 Terms Offered: Sm Financial management of the multinational firm; legal entities and taxation abroad; risk in foreign operations; strategies in foreign exchange, money and capital markets and institutions. *Prerequisite:* GSBA 521b or GSBA 548. Instruction Mode: Lecture Grading Option: Letter

FBE 565 Economics of Urban Land Use: Feasibility Studies
Units: 3 Terms Offered: Sp Economic, market and financial analysis related to feasibility of real estate development; theory and case analysis. *Prerequisite:* GSBA 521b or GSBA 548. Instruction Mode: Lecture Grading Option: Letter

FBE 570 Advanced Topics in Real Estate Finance
Units: 3 Terms Offered: Fa Current topics in real estate finance including sources of equity and debt, the role of capital markets, REITs, conduits, portfolio analysis, and acquisition of distressed assets. Cases and analytic methods. *Prerequisite:* GSBA 521b or GSBA 548; *Recommended Preparation:* FBE 591. Instruction Mode: Lecture Grading Option: Letter

FBE 571 Introduction to Financial Analysis: Practicum
Units: 3 Terms Offered: FaSp This introductory financial analysis (tools, techniques) practicum, emphasizes practical application of asset valuation and portfolio management techniques for those with little previous experience. *Prerequisite:* GSBA 548 or GSBA 521b. Duplicates Credit in FBE 572 and FBE 573. Instruction Mode: Lecture Grading Option: Credit/No Credit

FBE 572 Intermediate Financial Analysis: Practicum
Units: 3 Terms Offered: Sp This practicum emphasizes asset valuation, including applications of tools and inputs (including economics, accounting, and quantitative

techniques) in asset valuation for those with prior experience. *Prerequisite:* GSBA 548 or GSBA 521b. Duplicates Credit in FBE 571 and FBE 573. Instruction Mode: Lecture Grading Option: Credit/No Credit

FBE 573 Advanced Financial Analysis: Practicum
Units: 3 Terms Offered: Sp This is an advanced practicum emphasizing portfolio management skills, including applied strategies (tools, inputs) in equity and fixed-income management for those with extensive prior experience. *Prerequisite:* GSBA 548 or GSBA 521b. Duplicates Credit in FBE 571 and FBE 572. Instruction Mode: Lecture Grading Option: Credit/No Credit

FBE 588 Advanced Real Estate Law
Units: 3 Terms Offered: Sm Legal aspects of real estate transactions; partnerships, syndicates, and other ownership forms. Legal aspects of land use control, zoning and environmental impact reports. Registration Restriction: Online registration open only to graduate accounting and business students Duplicates Credit in RED 562 Instruction Mode: Lecture Grading Option: Letter

FBE 589 Mortgages and Mortgage-Backed Securities and Markets
Units: 3 Terms Offered: Fa Valuation and analysis of residential and commercial mortgages and mortgage-backed securities and related markets. *Prerequisite:* GSBA 521b or GSBA 548. Instruction Mode: Lecture Grading Option: Letter

FBE 590 Directed Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Terms Offered: FaSpSm Research leading to the master's degree. Maximum units which may be applied to the degree to be determined by the department. Instruction Mode: Lecture Grading Option: Credit/No Credit

FBE 591 Real Estate Finance and Investment
Units: 3 Terms Offered: FaSp Analysis of investment in and financing of real estate assets including projections, valuation, deal structure, contracts, portfolio and tax and entity considerations. *Prerequisite:* GSBA 521b or GSBA 548. Instruction Mode: Lecture Grading Option: Letter

FBE 592 Field Research in Finance or Business Economics
Units: 0.5, 1, 1.5, 2, 2.5, 3.0, 3.5, 4 Max Units: 12.0 Terms Offered: FaSpSm Individual or team projects studying the business practices of an industry, company, government agency, country, geographic region, etc. Proposal, data collection, analyses, and written report. Registration Restriction: Open only to master and doctoral students Instruction Mode: Lecture Grading Option: Credit/No Credit

FBE 593 Independent Research in Finance or Business Economics
Units: 0.5, 1, 1.5, 2, 2.5, 3.0, 3.5, 4 Max Units: 12.0 Terms Offered: FaSpSm Independent research beyond normal course offerings. Proposal, research and written report/paper required. Registration Restriction: Open only to master students Instruction Mode: Lecture Grading Option: Credit/No Credit

FBE 595 Internship in Finance or Business Economics
Units: 0.5, 1, 1.5, 2 Max Units: 09 Terms Offered: FaSpSm Supervised on-the-job business experience in the student's area of interest. (Curricular Practical Training.) Graded CR/NC. *Recommended Preparation:* Completion of required MBA, MAcc, MBT, or MS Finance course work Registration Restriction: Open only to master students in accounting and business majors Instruction Mode: Lecture Grading Option: Credit/No Credit

FBE 596 Research Practicum in Finance or Business Economics
Units: 0.5, 1, 1.5, 2 Max Units: 8.0 Terms Offered: FaSpSm Hands-on practical experience working with a Marshall faculty member in the Finance and Business Economics Department on an ongoing research project. Registration Restriction: Open only to master and doctoral students Instruction Mode: Lecture Grading Option: Credit/No Credit

FBE 597 Consulting Project in Finance or Business Economics
Units: 0.5, 1, 1.5, 2, 2.5, 3, 3.5, 4, 4.5, 5 Max Units: 12 Terms Offered: FaSp Individual or team project solving real business problems for an existing business entity, domestic and/or international. Proposal, field research, analyses and oral and written presentations. *Recommended Preparation:* Completion of required MBA, MAcc, MBT, or MS Finance course work Registration Restriction: Open only to graduate students Instruction Mode: Lecture Grading Option: Credit/No Credit

FBE 598 Special Topics
Units: 1, 1.5, 2, 3 Max Units: 09 Terms Offered: Irregular Current developments in the field of Finance and Business Economics; topics to be selected each semester. Registration Restriction: Online registration open only to graduate business and accounting students Instruction Mode: Lecture Grading Option: Credit/No Credit

FBE 599 Special Topics
Units: 1, 1.5, 2, 3 Max Units: 09 Terms Offered: Irregular Current developments in the field of Finance and Business Economics; topics to be selected each semester. Registration Restriction: Online registration open only to graduate accounting and business students Instruction Mode: Lecture Grading Option: Letter

FBE 621 Research Forum
Units: 1 Max Units: 4.0 Terms Offered: FaSp Seminar. Review and discuss current research in Finance and Business Economics. Presentations by faculty, visiting researchers, and advanced students. Open only to Marshall PhD students. Instruction Mode: Lecture Grading Option: Credit/No Credit

FBE 630 Fundamentals of Corporate Finance
Units: 1.5 Terms Offered: Sp Core theory and empirical evidence in corporate finance. Registration Restriction: Open only to doctoral students Instruction Mode: Lecture Grading Option: Letter

FBE 631a Advanced Corporate Finance
Units: 1.5 Terms Offered: FaSp Advanced and frontier issues in corporate finance. A: financial intermediation, investment-cash flow sensitivity, internal capital markets, diversification, and business groups. *Prerequisite:* FBE 630 Registration Restriction: Open only to doctoral students Duplicates Credit in former FBE 631 Instruction Mode: Lecture Grading Option: Letter

FBE 631b Advanced Corporate Finance
Units: 1.5 Terms Offered: FaSp Advanced and frontier issues in corporate finance. B: mergers and divestitures, product market competition, corporate governance, and finance and development. *Prerequisite:* FBE 630 Registration Restriction: Open only to doctoral students Duplicates Credit in former FBE 631 Instruction Mode: Lecture Grading Option: Letter

FBE 633 Fundamentals of Asset Pricing
Units: 1.5 Terms Offered: Sp Financial Economics course that focuses on core theory and empirical evidence in asset pricing. Registration Restriction: Open only to doctoral students Instruction Mode: Lecture Grading Option: Letter

FBE 634a Advanced Asset Pricing
Units: 1.5 Terms Offered: FaSp Advanced asset pricing in financial economics focusing on advanced empirical methods: (a) emphasis on quantitative models, (b) emphasis on GMM and regression. *Prerequisite:* FBE 633 Registration Restriction: Open only to doctoral students Duplicates Credit in former FBE 634 Instruction Mode: Lecture Grading Option: Letter

FBE 634b Advanced Asset Pricing
Units: 1.5 Terms Offered: FaSp Advanced asset pricing in financial economics focusing on advanced empirical methods: (a) emphasis on Quantitative models, (b) emphasis on GMM and regression. *Prerequisite:* FBE 634a Registration Restriction: Open only to doctoral students Duplicates Credit in former FBE 634 Instruction Mode: Lecture Grading Option: Letter

FBE 652 Financial Economics I
Units: 3 Terms Offered: Irregular Doctoral level seminar in financial economics; concentration on corporate finance theory and evidence. Instruction Mode: Lecture Grading Option: Letter

FBE 653 Financial Economics II
Units: 3 Terms Offered: Irregular Doctoral level seminar in financial economics; concentration on contingent claims and continuous time models. Instruction Mode: Lecture Grading Option: Letter

FBE 654 Ph.D. Seminar-Empirical Research Methods in Finance
Units: 3 Terms Offered: Irregular Empirical financial research methods are introduced. Applications are discussed and critiqued. Special attention is given to new statistical methods and to identifying fruitful research programs. Instruction Mode: Lecture Grading Option: Letter

FBE 655 Financial Economics III
Units: 3 Terms Offered: Sp Doctoral-level seminar in financial economics; concentration on the theory of corporate governance and incentives in organizations. Instruction Mode: Lecture Grading Option: Letter

FBE 670 Selected Topics in Finance Research
Units: 1.5 Max Units: 6 Terms Offered: FaSp Selected topics in finance research. Registration Restriction: Open only to doctoral students Instruction Mode: Lecture Grading Option: Letter

FBE 699 Special Topics
Units: 1, 1.5, 2, 3 Max Units: 08 Terms Offered: FaSpSm Exploration of emerging topics, literature and research techniques in contemporary finance and/or business economics. Registration Restriction: Open to doctoral students only. Instruction Mode: Lecture Grading Option: Letter

Food Industry Management

FIM 410 Leadership in the Food Industry
Units: 2 Terms Offered: Sp An integrated approach for executives in the food industry to understand different leadership styles, tools, and dynamics while working to further define and improve their own leadership skills. Registration Restriction: Open only to Food Industry Management students Instruction Mode: Lecture Grading Option: Letter

FIM 481 Marketing Management in the Food Industry
Units: 4 Terms Offered: Sp An integrated approach to marketing new and existing products and services within a strategic food industry management context. Registration Restriction: Open only to Food Industry Management students Instruction Mode: Lecture Grading Option: Letter

Units: 1 Terms Offered: Sp Significant models of change processes; how and why they are used. Change management tools including organizational culture diagnosis, force field analysis, and social network analysis. Registration Restriction: Open only to students in the MS in Food Industry Leadership program Duplicates Credit in MOR 554 Instruction Mode: Lecture Grading Option: Letter

FIM 560 Decision Making in the Food Industry
Units: 1 Terms Offered: Sm Evaluate the nature, causes, and consequences of deviations from "optimal" choice. Leverage psychological insights about how the brain works to make better decisions. Registration Restriction: Open only to students in the MS in Food Industry Leadership program Duplicates Credit in MOR 560 Instruction Mode: Lecture Grading Option: Letter

FIM 564 Innovation in the Food Industry
Units: 1 Terms Offered: Sm Frameworks for innovating strategically to strengthen critical thinking skills to develop creative and innovative business solutions. Discover and create growth opportunities in the food industry. Registration Restriction: Open only to MS in Food Industry Leadership students Duplicates Credit in MOR 564 Instruction Mode: Lecture Grading Option: Letter

FIM 567 Influence and Power in the Food Industry
Units: 1 Terms Offered: Sm Explore frameworks to effectively wield power and influence. Develop individual competencies that enhance personal impact effectively and ethically. Registration Restriction: Open only to students in the MS in Food Industry Leadership program Duplicates Credit in MOR 567 Instruction Mode: Lecture Grading Option: Letter

FIM 569 Negotiation in the Food Industry
Units: 1 Terms Offered: Fa Evaluate the negotiation process via analytical frameworks and develop negotiation skills experientially to achieve business solutions within the food industry. Registration Restriction: Open only to Master of Science in Food Industry Leadership students Duplicates Credit in MOR 569 Instruction Mode: Lecture Grading Option: Letter

FIM 571 Leadership in the Food Industry
Units: 1 Terms Offered: Sm Analyze leadership styles and examine leadership behaviors and demands. Assess personal approach to leadership within the food industry. Registration Restriction: Open only to students in the MS in Food Industry Leadership program Duplicates Credit in MOR 571 Instruction Mode: Lecture Grading Option: Letter

FIM 574 Food Industry for the Future
Units: 1 Terms Offered: Sp Societal trends, innovative technologies, and novel business models, which provide various possibilities for food industry transformation. Registration Restriction: Open only to students in the MS in Food Industry Leadership program Duplicates Credit in MOR 564 Instruction Mode: Lecture Grading Option: Letter

FIM 591 Food Industry Leadership Capstone Project
Units: 3 Terms Offered: Sp Integrative team projects addressing unstructured business situations for actual clients. Application of analytical tools and critical thinking methods spanning multiple disciplines. Registration Restriction: Open only to students in the MS in Food Industry Leadership program Instruction Mode: Lecture Grading Option: Letter

Fixed Prosthodontics

FPRO 520 Preclinical Fixed Prosthodontics (ISP)
Units: 2 Basic fundamentals of fixed prosthodontics; preparation for clinical procedures in posterior PFM's, posterior mandibular FPD's and in restoring endodontically treated teeth. Instruction Mode: Lecture Grading Option: Letter

FPRO 521 Preclinical Fixed Prosthodontics I
Units: 3 Fundamentals and principles of posterior prosthodontic procedures, including diagnosis, biomechanic principles, and construction of fixed prosthodontic restorations. Instruction Mode: Lecture Grading Option: Letter

FPRO 522 Preclinical Fixed Prosthodontics II
Units: 3 Fundamentals of aesthetic restorations; fabrication of posterior and anterior porcelain-fused-to-metal restorations and anterior porcelain jacket crown; restoration of endodontically treated teeth. Instruction Mode: Lecture Grading Option: Letter

FPRO 561a Clinic: Fixed Prosthodontics I
Units: 0 Clinical application of fixed prosthodontic principles in patient treatment. Instruction Mode: Lecture Grading Option: In-progress to Letter Grade

FPRO 561b Clinic: Fixed Prosthodontics I
Units: 0 Clinical application of fixed prosthodontic principles in patient treatment. Instruction Mode: Lecture Grading Option: In-progress to Letter Grade

FPRO 561c Clinic: Fixed Prosthodontics I
Units: 0 Clinical application of fixed prosthodontic principles in patient treatment. Instruction Mode: Lecture Grading Option: In-progress to Letter Grade

FPRO 561d Clinic: Fixed Prosthodontics I
Units: 3 Clinical application of fixed prosthodontic principles in patient treatment. Instruction Mode: Lecture Grading Option: Letter

FPRO 562a Clinic: Fixed Prosthodontics II
Units: 0, 1, 2, 3 Clinical application of fixed prosthodontic principles in patient treatment. Instruction Mode: Lecture Grading Option: In-progress to Letter Grade

FPRO 562b Clinic: Fixed Prosthodontics II
Units: 0, 1, 2, 3 Clinical application of fixed prosthodontic principles in patient treatment. Instruction Mode: Lecture Grading Option: Letter

FPRO 601 Advanced Fixed Prosthodontics
Units: 4 Critical review and evaluation of the fixed prosthodontic literature; guided experience in the laboratory and clinical phases of fixed prosthodontic therapy. Instruction Mode: Lecture Grading Option: Letter

French

FREN 012x French 120 Language Practicum
Units: 1 Terms Offered: FaSp English grammar as it relates to French in order to improve students' French language skills; explicit pronunciation and intonation practice. Requires concurrent enrollment in either FREN 120 French I or MPVA 261 French Language and Diction. Credit Restriction: Not available for major or degree credit Instruction Mode: Lecture Grading Option: Credit/No Credit

FREN 015x French 150 Language Practicum
Units: 1 Terms Offered: FaSpSm English grammar as it relates to French in order to improve students' French language skills; explicit pronunciation and intonation practice. *Concurrent Enrollment:* FREN 150 Credit Restriction: Not available for degree credit Instruction Mode: Lecture Grading Option: Credit/No Credit

Units: 2 Max Units: 4.0 Terms Offered: FaSp A thematic seminar for entering students in the USC Dornsife College of Letters, Arts and Sciences, exploring an area of academic study, research, or creative work. Instruction Mode: Lecture Grading Option: Credit/No Credit

Geriatric Dentistry

GDEN 710 Knowledge Assessment for GDEN Students
Units: 1 Terms Offered: Sm Review of topics explored in the previous courses of the program, including lectures and practical demonstrations or simulations and examinations of overall discipline knowledge. *Prerequisite:* OFPM 722 and OFPM 725 and GDEN 713 and GDEN 715 Registration Restriction: Open only to Geriatric Dentistry students Duplicates Credit in GDEN 716 Instruction Mode: Lecture Grading Option: Letter

GDEN 711a Case Portfolio Preparation for GDEN Students
Units: .5 Terms Offered: FaSpSm Examination of clinical cases of geriatric patients through online conferences. Development and defense of portfolio of multiple cases. Open only to master's and professional dental students. Registration Restriction: Open only to Master and Professional Dental students. Instruction Mode: Lecture Grading Option: Letter

GDEN 711b Case Portfolio Preparation for GDEN Students
Units: .5 Terms Offered: FaSpSm Examination of clinical cases of geriatric patients through online conferences. Development and defense of portfolio of multiple cases. Open only to master's and professional dental students. Registration Restriction: Open only to Master and professional Dental students. Instruction Mode: Lecture Grading Option: Letter

GDEN 711c Case Portfolio Preparation for GDEN Students
Units: .5 Terms Offered: FaSpSm Examination of clinical cases of geriatric patients through online conferences. Development and defense of portfolio of multiple cases. Open only to master's and professional dental students. Registration Restriction: Open only to Master and professional Dental students. Instruction Mode: Lecture Grading Option: Letter

GDEN 711d Case Portfolio Preparation for GDEN Students
Units: .5 Terms Offered: FaSpSm Examination of clinical cases of geriatric patients through online conferences. Development and defense of portfolio of multiple cases. Open only to master's and professional dental students. Registration Restriction: Open only to Master and professional Dental students. Instruction Mode: Lecture Grading Option: Letter

GDEN 711e Case Portfolio Preparation for GDEN Students
Units: .5, Terms Offered: FaSpSm Examination of clinical cases of geriatric patients through online conferences. Development and defense of portfolio of multiple cases. Open only to master's and professional dental students. Registration Restriction: Open only to Master and Professional Dental students. Instruction Mode: Lecture Grading Option: Letter

GDEN 712a Capstone Research Project for GDEN Students
Units: .5 Terms Offered: FaSpSm Production and defense of a research plan that demonstrates significant understanding of a topic in geriatric dentistry. *Prerequisite:* GDEN 733 Registration Restriction: Open only to GDEN students Duplicates Credit in OFPM 729a Instruction Mode: Lecture Grading Option: Letter

GDEN 712b Capstone Research Project for GDEN Students
Units: .5 Terms Offered: FaSpSm Production and defense of a research plan that demonstrates significant understanding of a topic in geriatric dentistry. *Prerequisite:* GDEN 712a Duplicates Credit in OFPM 729b Instruction Mode: Lecture Grading Option: Letter

GDEN 712c Capstone Research Project for GDEN Students
Units: .5 Terms Offered: FaSpSm Production and defense of a research plan that demonstrates significant understanding of a topic in geriatric dentistry. *Prerequisite:* GDEN 712b Registration Restriction: Open only to GDEN students Duplicates Credit in OFPM 729c Instruction Mode: Lecture Grading Option: Letter

GDEN 712d Capstone Research Project for GDEN Students
Units: .5 Terms Offered: FaSpSm Production and defense of a research plan that demonstrates significant understanding of a topic in geriatric dentistry. *Prerequisite:* GDEN 712c Duplicates Credit in OFPM 729d Instruction Mode: Lecture Grading Option: Letter

GDEN 713 Common Systemic Conditions in Older Patients
Units: 2 Terms Offered: FaSpSm Lectures on topics pertinent to the aging patient that highlight the differences between aging physiologic changes and disease-caused conditions most common to this demographic. Open only to master's and professional dental students. Registration Restriction: Open only to Master and Professional Dental students. Instruction Mode: Lecture Grading Option: Letter

GDEN 714 Topics in Gerontology
Units: 2 Terms Offered: FaSpSm Gerontology topics for dentists including clinical assessment tools for aging patients, policy issues, myths, social supports, and consent and communication issues in the clinical setting. Open only to master's and professional dental students. Registration Restriction: Open only to Master and Professional Dental students. Instruction Mode: Lecture Grading Option: Letter

GDEN 715 Geriatric Dentistry Issues
Units: 2 Terms Offered: FaSpSm Common geriatric dentistry topics including epidemiology of oral diseases, common dental diseases, their management and prevention protocols for older adult patients. Open only to master's and professional dental students. Registration Restriction: Open only to Master and Professional Dental students. Instruction Mode: Lecture Grading Option: Letter

GDEN 716 Knowledge Assessment for GDEN Certificate Students
Units: 1 Terms Offered: Sm Review of topics explored in the certificate program, including lectures and practical demonstrations or simulations and examinations of overall discipline knowledge. Open only to certificate in Geriatric Dentistry students. (Duplicates credit in GDEN 710) *Prerequisite:* GDEN 711a and GDEN 711b and GDEN 713 and GDEN 714 and GDEN 715 and OFPM 722 and OFPM 725 Registration Restriction: Open only to certificate in Geriatric Dentistry students. Duplicates Credit in GDEN 710 Instruction Mode: Lecture, Quiz Grading Option: Letter

GDEN 722 Internal Medicine and Systemic Disease for Dental Residents
Units: 2 Terms Offered: FaSpSm (Enroll in OFPM 722)

GDEN 725 Epidemiology, Nutrition and Aging for Dental Residents
Units: 2 Terms Offered: FaSpSm (Enroll in OFPM 725)

GDEN 730 OFPM Case Portfolio Preparation for Dental Residents
Units: .5 Max Units: 01 Terms Offered: FaSpSm Examination of clinical cases of geriatric patients with orofacial pain and oral lesions through online conferences in preparation, development and defense of portfolio of multiple cases. Registration Restriction: Open only to master and professional dental students in Geriatric Dentistry Duplicates Credit in GDEN 711a, GDEN 711b, GDEN 711c, GDEN 711d Instruction Mode: Lecture Grading Option: Letter

GDEN 731 GDEN Case Portfolio Preparation for Dental Residents
Units: .5 Max Units: 01 Terms Offered: FaSpSm Examination of clinical cases of geriatric patients with complex medical conditions through online conferences in preparation, development and defense of portfolio of multiple cases. Registration Restriction: Open only to master and professional dental students in Geriatric Dentistry Duplicates Credit in GDEN 711a, GDEN 711b, GDEN 711c, GDEN 711d Instruction Mode: Lecture Grading Option: Letter

GDEN 732 Case Portfolio Defense for GDEN Students
Units: .5 Terms Offered: FaSpSm Examination of clinical cases of geriatric patients with complex medical conditions through online conferences in preparation, development and in person defense of portfolio of multiple cases. *Prerequisite:* GDEN 730 and GDEN 731 or (GDEN 711a and GDEN 711b and GDEN 711c and GDEN 711d) Registration Restriction: Open only to master and professional dental students in Geriatric Dentistry Duplicates Credit in GDEN 711e Instruction Mode: Lecture Grading Option: Letter

GDEN 733 Research Methodology
Units: 2 Terms Offered: FaSpSm A coordinated approach to understanding, critically assessing and applying the principles of scientific inquiry through the study of clinically relevant, discipline specific literature. Instruction Mode: Lecture Grading Option: Letter

Earth Sciences

GEOL 105Lg Planet Earth
Units: 4 Terms Offered: FaSpSm Geologic structure and evolution of planet earth. Principles of plate tectonics, rocks and minerals, processes of mountain building, continent and ocean formation, earthquakes, volcanism, development of landforms by running water and glaciers. Satisfies New General Education in Category E: Physical Sciences Satisfies Old General Education in Category III: Scientific Inquiry Instruction Mode: Lecture, Lab Required Grading Option: Letter

GEOL 107Lg Oceanography
Units: 4 Terms Offered: FaSp Physical, chemical, and geological character of the oceans and ocean basins. Origin of the oceans. Ocean processes and agents. Economic value of the oceans. Satisfies New General Education in Category E: Physical Sciences Satisfies Old General Education in Category III: Scientific Inquiry Instruction Mode: Lecture, Lab Required Grading Option: Letter

GEOL 108Lg Crises of a Planet
Units: 4 Terms Offered: FaSpSm Impact of civilization on planet earth, and impact of earth's natural evolution on society: earthquakes, volcanism, landslides, floods, global warming, acid rain, groundwater depletion and pollution; mineral and fossil fuel depletion, formation of the ozone hole. Satisfies New General Education in Category E: Physical Sciences Satisfies Old General Education in Category IV: Science and Its Significance Instruction Mode: Lecture, Lab Required Grading Option: Letter

GEOL 115L Exploring California's National Parks
Units: 4 Terms Offered: FaSpSm Overview of basic geologic principles and California geology taught through California's National Parks; additional focus on park history, policy, economics, and geologic hazards affecting parks. Lecture, 3 hours; laboratory, 2 hours. One all-day and one three-day field trip to a National Park required. Instruction Mode: Lecture, Required Lab Grading Option: Letter

GEOL 125Lg Earth History: A Planet and Its Evolution
Units: 4 Terms Offered: FaSpSm Basic principles of physics, chemistry, biology, and mathematics used in evaluating clues written in the rock record, and the processes that have shaped our planet. Satisfies New General Education in Category E: Physical Sciences Satisfies Old General Education in Category IV: Science and Its Significance Instruction Mode: Lecture, Lab Required Grading Option: Letter

GEOL 126Lg The History of Life on Earth: A View from the Museum
Units: 4 Terms Offered: FaSp Topically-driven exploration of evolution, environmental change, and the history of life on Earth via the fossil record with the Natural History Museum of Los Angeles as a laboratory. How the changing Earth and life co-evolved through time. Satisfies New General Education in Category D: Life Sciences Instruction Mode: Lecture, Lab Required Grading Option: Letter

GEOL 130Lg The Nature of Scientific Inquiry
Units: 4 Terms Offered: FaSp Examination of the scientific process: what constitutes science; evolution of ideas about the nature of space, time, matter, and complexity;

paradigm shifts in the biological and earth sciences. Satisfies New General Education in Category E: Physical Sciences Satisfies Old General Education in Category III: Scientific Inquiry Instruction Mode: Lecture, Lab Required Grading Option: Letter

GEOL 145g Lies, Damn Lies and Statistics
Units: 4 Terms Offered: FaSp Quantitative reasoning tools to form reliable judgments from quantitative evidence, discerning truth from lies, science from pseudoscience. Application to contemporary scientific and social issues. Satisfies New General Education in Category F: Quantitative Reasoning Instruction Mode: Lecture, Discussion Grading Option: Letter

GEOL 150Lg Climate Change
Units: 4 Terms Offered: FaSp Exploration of factors that influence climate and the scientific basis for concern about rising greenhouse gases, the threat to human society know as global warming. Satisfies New General Education in Category E: Physical Sciences Satisfies Old General Education in Category IV: Science and Its Significance Instruction Mode: Lecture, Lab Required Grading Option: Letter

GEOL 157Lg The Logic of Climate Change: From Data to Deeds
Units: 4 Terms Offered: Sp Quantitative underpinnings of the scientific case for man-made climate change. Analysis of climate data, examination of potential causes, attribution of causes, and civilizational consequences. Satisfies New General Education in Category F: Quantitative Reasoning Instruction Mode: Lecture, Lab Required Grading Option: Letter

GEOL 160Lg Introduction to Geosystems
Units: 4 Terms Offered: FaSpSm Survey of natural geological/ environmental processes (systems) and variability active near the earth's surface in the region that houses most life (the biosphere). Satisfies New General Education in Category E: Physical Sciences Instruction Mode: Lecture, Lab Required Grading Option: Letter

GEOL 165g Metals and Life on Earth
Units: 4 Terms Offered: Fa The role of metals in life, from the origin of life to modern environmental problems. Satisfies New General Education in Category D: Life Sciences Instruction Mode: Lecture, Discussion Grading Option: Letter

GEOL 240Lg Earthquakes
Units: 4 Terms Offered: FaSpSm Causes of earthquakes and nature of large faults; earthquake hazard and risk; world's great earthquakes; understanding the Richter scale. *Concurrent Enrollment:* Concurrent enrollment: MDA 140. Satisfies New General Education in Category E: Physical Sciences Satisfies Old General Education in Category IV: Science and Its Significance Instruction Mode: Lecture, Lab Required Grading Option: Letter

GEOL 241Lg Energy Systems
Units: 4 Terms Offered: FaSpSm Energy resources from a global perspective, including fossil fuels, nuclear, and renewable energy. Satisfies New General Education in Category E: Physical Sciences Satisfies Old General Education in Category IV: Science and Its Significance Instruction Mode: Lecture, Lab Required Grading Option: Letter

GEOL 290L Special Laboratory
Units: 1 Terms Offered: FaSp Laboratory component for GEOL 105, GEOL 107, GEOL 108, GEOL 125, GEOL 130, GEOL 150, or GEOL 240 for students with equivalent lecture credit from another institution. Instruction Mode: Lecture, Lab Required Grading Option: Letter

GEOL 305L Introduction to Engineering Geology
Units: 4 Terms Offered: Sp Principles of geology with emphasis on structural geology, hydrogeology and geological hazards; basic geologic considerations in civil engineering practice; introduction to mineralogy and petrology. Field trip required. Duplicates Credit in GEOL 105 and GEOL 108. Instruction Mode: Lecture, Lab Required Grading Option: Letter

GEOL 315L Minerals and Earth Systems
Units: 4 Terms Offered: Fa Minerals and their formation in Earth geosystems; includes discussions of mineral properties, crystal structures, uses and bio geochemical importance. *Recommended Preparation:* any introductory GEOL course. *Corequisite:* CHEM 105a or CHEM 115a; Instruction Mode: Lecture, Lab Required Grading Option: Letter

GEOL 316L Petrologic Systems
Units: 4 Terms Offered: Sp Formation and identification of igneous, metamorphic and sedimentary rocks; interpretation of tectonic and environmental settings based on rock type and chemistry. *Prerequisite:* GEOL 315. Instruction Mode: Lecture, Lab Required Grading Option: Letter

GEOL 320L Surficial Processes and Stratigraphic Systems
Units: 4 Terms Offered: Fa Processes of erosion, sediment transport, and deposition that shape the land surface; landscape response to tectonism; recognition and interpretation of depositional environments in the stratigraphic record. *Corequisite:* GEOL 315. Duplicates Credit in former GEOL 334L, GEOL 451L. Instruction Mode: Lecture, Lab Required Grading Option: Letter

GEOL 321L Structural Geology and Tectonics
Units: 4 Terms Offered: Sp Field and theoretical aspects of rock deformation, analysis of structural systems, and stress and strain; orogenic belts and plate tectonics; introduction to field techniques and construction of geologic maps. *Recommended Preparation:* GEOL 320. Instruction Mode: Lecture, Lab Required Grading Option: Letter

GEOL 351L Climate Systems
Units: 4 Terms Offered: FaSp Introduces systems behavior in the context of climate dynamics. Modules of instruction geared to climate system application to real world problems. *Prerequisite:* MATH 125. Instruction Mode: Lecture, Lab Required Grading Option: Letter

GEOL 387ag Undergraduate Team Research
Units: 2 Terms Offered: FaSpSm Introduction to scientific inquiry, field research opportunities, and history of physical sciences; strategies, research methodologies, and writing skills for proposals, abstracts, papers, and professional development. *Recommended Preparation:* A GE course in Earth Science. b. Multidisciplinary, learner-centered, individual and team-based student research, abroad and in the U.S.; field data collection and interpretation, mentored by domestic and international scientists. Duplicates Credit in the former GEOL 385. Instruction Mode: Lecture Grading Option: Letter

GEOL 387bg Undergraduate Team Research
Units: 2 Max Units: 4.0 Terms Offered: FaSpSm *Recommended Preparation:* A GE course in Earth Science. b. Multidisciplinary, learner-centered, individual and team-based student research, abroad and in the U.S.; field data collection and interpretation, mentored by domestic and international scientists. Duplicates Credit in the former GEOL 385. Instruction Mode: Lecture, Discussion Grading Option: Letter

GEOL 387cg Undergraduate Team Research
Units: 2 Max Units: 4.0 Terms Offered: FaSpSm *Recommended Preparation:* A GE course in Earth Science. b. Multidisciplinary, learner-centered, individual and team-based student research, abroad and in the U.S.; field data collection and interpretation, mentored by domestic and international scientists. Satisfies Old General Education in Category III: Scientific Inquiry Duplicates Credit in the former GEOL 385. Instruction Mode: Lecture, Discussion, Lab Required Grading Option: Letter

GEOL 390 Special Problems
Units: 1, 2, 3, 4 Supervised individual studies. No more than one registration permitted. Enrollment by petition only. Instruction Mode: Lecture Grading Option: Letter

GEOL 412 Oceans, Climate, and the Environment
Units: 4 Terms Offered: FaSp Fundamentals of climate including atmosphere and ocean. Topics include radiative energy balance, ocean-atmosphere linkages and approaches to study climate while building quantitative and qualitative skills. *Recommended Preparation:* GEOL 107Lg or GEOL 150Lg or GEOL 160Lg *Corequisite:* MATH 125g and (CHEM 105aLg or CHEM 103Lgx) Registration Restriction: Not open to freshmen Instruction Mode: Lecture Grading Option: Letter Crosslisted as ENST 412, BISC 412

GEOL 425L Data Analysis in the Earth and Environmental Sciences
Units: 4 Terms Offered: Fa Introduction to mathematical methods giving insight into earth and environmental data. Topics include probability and statistics, timeseries analysis, spectral analysis, inverse theory, interpolation. *Recommended Preparation:* MATH 126, familiarity with matrix algebra. Instruction Mode: Lecture, Lab Required Grading Option: Letter

GEOL 427 The Global Environment
Units: 4 Terms Offered: FaSpSm (Enroll in BISC 427)

GEOL 432L Introduction to Field Techniques
Units: 2 Terms Offered: FaSpSm Introduction to field techniques used in a variety of Earth Science disciplines.

Field and digital techniques for map making including use of GIS, GPS, and digital tablets. Field analyses of rocks and rock structures. Map interpretation and digital processing of field data. Includes weekly labs and some weekend field trips. *Recommended Preparation:* GEOL 316L, GEOL 320L, GEOL 321L Instruction Mode: Lecture, Lab Required Grading Option: Letter

GEOL 433L Paleontology and Evolution in Deep Time
Units: 4 Terms Offered: Fa Origin and evolution of life; Precambrian life; evolutionary history of major groups during the Phanerozoic; mass extinctions; deep time and evolutionary processes. *Recommended Preparation:* any introductory GEOL course. Instruction Mode: Lecture, Lab Required Grading Option: Letter

GEOL 440L Geophysics and Geoengineering
Units: 4 Terms Offered: Sp Plate tectonics, magnetic and gravity fields, earthquakes, seismic waves, reflection and refraction seismics, heat transport, mantle convection, deep Earth structure, data analysis. Includes field trip. *Prerequisite:* MATH 126; *Corequisite:* PHYS 135b or PHYS 152. Instruction Mode: Lecture, Lab Required Grading Option: Letter

GEOL 441 Seismic Exploration Geophysics
Units: 4 Terms Offered: FaSp Seismic wave theory, ray theory, reflection, refraction, data processing, signal enhancement, field instrumentation and techniques on land and at sea; geological interpretation of seismic data. One field trip. Instruction Mode: Lecture Grading Option: Letter

GEOL 445 Earth Climate: Past, Present, and Future
Units: 4 (Enroll in ENST 445)

GEOL 450L Geosystems
Units: 4 Terms Offered: Fa Geosystems, such as mantle convection, active faults, climate, and the carbon cycle, will be studied using numerical models and concepts such as chaos, universality, emergence, and intermittency. *Prerequisite:* MATH 125; *Recommended Preparation:* MATH 126. Instruction Mode: Lecture, Lab Required Grading Option: Letter

GEOL 460L Geochemistry
Units: 4 Terms Offered: Fa Composition, origin, and evolution of the earth; principles of physical chemistry applied to aqueous systems; reaction-diffusion modeling and problems in sedimentary geochemistry; global (bio)geochemical cycles and environmental problems. *Prerequisite:* CHEM 105b or CHEM 115b and MATH 126. Instruction Mode: Lecture, Lab Required Grading Option: Letter

GEOL 465L Field Geology
Units: 4 Max Units: 8.0 Terms Offered: SpSm Ten days to four weeks of field study in an area of geological complexity, with preparatory instruction. *Recommended Preparation:* introductory earth science course, e.g., GEOL 105), GEOL 315. One or more of GEOL 316 , GEOL 320. Instruction Mode: Lecture, Lab Required Grading Option: Letter

GEOL 470L Environmental Hydrogeology
Units: 4 Terms Offered: FaSpSm Concepts in hydrogeology and application to environmental problems. Topics include groundwater and surface water hydrology, chemistry, and contamination. Includes labs, guest lectures, and field trips. *Recommended Preparation:* GEOL 105, GEOL 160. Instruction Mode: Lecture, Lab Required Grading Option: Letter Crosslisted as ENST-470

GEOL 474 Ecosystem Function and Earth Systems
Units: 4 (Enroll in BISC 474)

GEOL 483 Geobiology and Astrobiology
Units: 4 Terms Offered: Sp (Enroll in BISC 483)

GEOL 485L Tectonic Geomorphology
Units: 4 Terms Offered: FaSp Focuses on the analysis of landforms that develop and evolve in tectonically active settings through the interplay of tectonics, climate, and surface processes. *Recommended Preparation:* GEOL 320L, GEOL 321L Instruction Mode: Lecture, Lab Required Grading Option: Letter

GEOL 490x Directed Research
Units: 1, 2, 3, 4, 5, 6, 7, 8 Max Units: 12.0 Individual research and readings. Instruction Mode: Lecture Grading Option: Letter

GEOL 491x Earth Sciences Internship
Units: 1, 2, 3, 4, 5, 6, 7, 8 Max Units: 8 Terms Offered: FaSpSm Local, national, and international internships providing earth sciences experience in a professional setting. Registration Restriction: Not available for graduate credit. Department permission required Instruction Mode: Lecture Grading Option: Letter

GEOL 494x Senior Thesis
Units: 2 Terms Offered: FaSp Writing of a thesis under individual faculty super vision. Instruction Mode: Lecture Grading Option: Letter

GEOL 499 Special Topics
Units: 2, 3, 4 Max Units: 8.0 Special topics in the earth sciences. Field trip required when appropriate to the topic. Instruction Mode: Lecture Grading Option: Letter

GEOL 500 Paleoecology
Units: 3 Terms Offered: FaSp Principles of paleoecology for marine and terrestrial settings; interrelationships between organisms and their environment in geologic time including evolutionary and conservation paleoecology. *Recommended Preparation:* GEOL 577L Instruction Mode: Lecture Grading Option: Letter

GEOL 501 Paleobiology
Units: 3 Terms Offered: Fa Concepts and methods for functional morphologic analysis of fossil marine invertebrates. Systematics theory and methodology, macro evolution, and broad biotic trends in the Phanerozoic. *Recommended Preparation:* GEOL 433. Instruction Mode: Lecture Grading Option: Letter

GEOL 505 Introductory Graduate Seminar in Earth Sciences
Units: 2 Terms Offered: Fa Lectures by Earth Sciences faculty about current research; introduction of new graduate students to the breadth of current research; applying for research funding; practicing effective research presentations. Instruction Mode: Lecture Grading Option: Credit/No Credit

GEOL 510L Advanced Stratigraphic Field Methods
Units: 3 Terms Offered: Fa Stratigraphic field methods and computer-assisted data analysis. Field trips incorporating vertical and lateral facies analysis; collection of paleocurrent, fabric, paleomagnetic, photogeologic and compaction data. *Recommended Preparation:* GEOL 320L Instruction Mode: Lecture, Lab Required Grading Option: Letter

GEOL 511L Depositional Systems
Units: 3 Analysis of depositional systems, including conceptual methods of lithostratigraphy, biostratigraphy, chronostratigraphy, and paleoecology; description of major depositional environments. Instruction Mode: Lecture, Lab Required Grading Option: Letter

GEOL 512 Introduction to Chemical and Physical Oceanography
Units: 4 Terms Offered: Fa (Enroll in OS 512)

GEOL 513 Practical Carbonate Chemistry
Units: 3 Terms Offered: FaSp In-depth review of carbonate chemistry, aqueous and solid phase; speciation, calculations of carbonate parameters, carbonate biogeochemistry, sedimentary diagenesis and sedimentary records. *Recommended Preparation:* Basic chemistry and principles of oceanography and sedimentology Instruction Mode: Lecture Grading Option: Letter

GEOL 514 Marine Geology
Units: 3 Terms Offered: Fa Origin and characteristics of ocean basins; marine sedimentary environments; shoreline classification and character; evolution of oceanic features. Instruction Mode: Lecture Grading Option: Letter

GEOL 515 Introduction to Atmospheric Science
Units: 3 Terms Offered: Fa Elementary physical principles underlying the behavior of Earth's atmosphere. Dry and moist thermodynamics, radiative transfer, conservation laws, fundamental dynamical balances, instability theory, cloud physics. *Recommended Preparation:* PHYS 161, PHYS 304. Instruction Mode: Lecture Grading Option: Letter

GEOL 520 Biosedimentology
Units: 3 Terms Offered: FaSpSm Ancient and recent bioturbation and microbial structures and their utilization in stratigraphic, paleoenvironmental, paleoecological, sedimentological and geochemical studies. *Recommended Preparation:* GEOL 320L and GEOL 433L Instruction Mode: Lecture Grading Option: Letter

GEOL 521L Advanced Structural Geology
Units: 3 Terms Offered: FaSp Advanced field and theoretical aspects of rock deformation, strain and stress analyses, and evolution of structural systems. Includes lab, field trip(s), and class project. Instruction Mode: Lecture, Lab Required Grading Option: Letter

GEOL 525 The Science of Climate Change
Units: 4 Terms Offered: Sp Introduction to the fundamental aspects and the factors that influence ocean and atmospheric

behavior, and how the earth's climate has varied in the past. Instruction Mode: Lecture Grading Option: Letter

GEOL 530 Modern Perspectives on Crustal Dynamics
Units: 3 Max Units: 12 Terms Offered: FaSp Deformation mechanisms, strength and structure of the crust. Fractal scaling in structures and dynamic processes, Geodetic measurement of crustal deformation and spatio-temporal patterns of seismicity. Instruction Mode: Lecture Grading Option: Letter

GEOL 531 Plate Interactions: Geological Aspects
Units: 3, 2 years Terms Offered: Sp Principles and geometrics of plate tectonics; geologic characteristics of modern plate boundaries of divergent, convergent, transform type; ocean basin and orogen development from worldwide examples. Field trip. Instruction Mode: Lecture Grading Option: Letter

GEOL 532 Advanced Geologic Mapping
Units: 3 Terms Offered: Fa Principles of mapping geologically complex terranes of different structural style. Fieldwork will be coordinated with seminar review of diverse structural phenomena. Field trips. *Recommended Preparation:* GEOL 321, GEOL 465. Instruction Mode: Lecture Grading Option: Letter

GEOL 533L Continental Margin Arcs
Units: 3 Evolution of continental margin arcs, magmatic systems within arcs. Arcs as tectonic elements and "differentiation factories" leading to formation and removal of continental material. *Recommended Preparation:* GEOL 316, GEOL 321. Instruction Mode: Lecture, Lab Required Grading Option: Letter

GEOL 534L Mechanics of Lithospheric Deformation
Units: 3 Terms Offered: Fa The mechanical description of deformational processes at both crustal and lithospheric scales, and the interpretation of geological and geophysical data in terms of these processes. Instruction Mode: Lecture, Lab Required Grading Option: Letter

GEOL 535L Microstructures and Deformation Mechanisms
Units: 3, 3 years Terms Offered: Fa Examination of deformation mechanisms and resulting microstructures in rocks; chemical and textural equilibrium; physical and chemical processes during fluid flow; prophyroblast-matrix relationships; interpretation of kinematic indicators. Laboratory. *Prerequisite:* GEOL 321. Instruction Mode: Lecture, Lab Required Grading Option: Letter

GEOL 536 Principles of Geomagnetism and Paleomagnetism
Units: 3, 2 years Terms Offered: Sp Historic geomagnetic field behavior, secular variation, rock magnetism, paleomagnetic techniques, magnetic polarity time scale, apparent-polar-wander paths, and applications to strati graphic and geotectonic studies. *Recommended Preparation:* GEOL 440. Instruction Mode: Lecture Grading Option: Letter

GEOL 537 Rock Mechanics
Units: 3, 2 years Terms Offered: Sp Elasticity, fracture, and flow properties of rocks and minerals; effects of temperature, pressure, petrology, fractures, and interstitial fluids. Experimental techniques and geological applications. Instruction Mode: Lecture Grading Option: Letter

GEOL 538 Tectonic Evolution of Western North America
Units: 3, 2 years Terms Offered: Sp Geosynclinal and orogenic development of western North America from the Precambrian to present, in the light of plate tectonics concepts. Field trips. *Recommended Preparation:* GEOL 321. Instruction Mode: Lecture Grading Option: Letter

GEOL 540 The Mantle System
Units: 3 Terms Offered: Sp Dynamics and structure of the deep earth and its relationship to earth evolution. *Recommended Preparation:* GEOL 440 and GEOL 534. Instruction Mode: Lecture Grading Option: Letter

GEOL 545 Modeling and Numerical Techniques for Marine Scientists
Units: 4 Terms Offered: Sp (Enroll in BISC 545)

GEOL 550 Chemical Equilibrium and Disequilibrium in Geology
Units: 3, 2 years Terms Offered: Sp Phase equilibria; phase diagrams; thermodynamics of aqueous and solid solutions; irreversible thermodynamics; kinetics, diffusion, and metasomatism, with applications to problems in petrology and geochemistry. *Prerequisite:* GEOL 460. Instruction Mode: Lecture Grading Option: Letter

GEOL 551 Introduction to Seismology
Units: 3, 2 years Terms Offered: Fa Basic elements of seismology for the study of the earth's interior and the tectonic process, utilizing observations of seismic waves. Instruction Mode: Lecture Grading Option: Letter

GEOL 552 Advanced Seismology
Units: 3 Advanced methods of theoretical seismology for studying the generation of seismic waves from natural and artificial sources and the propagation through realistic earth models. Instruction Mode: Lecture Grading Option: Letter

GEOL 553 Physics of Earthquakes
Units: 3, 2 years Terms Offered: Fa Basic physics of earthquakes and seismicity. Continuum elasticity; fracture mechanics; laboratory friction; damage rheology; physics of critical phenomena; spatio-temporal seismicity patterns; analysis of complex data sets. *Recommended Preparation:* GEOL 537 and/or GEOL 551. Instruction Mode: Lecture Grading Option: Letter

GEOL 555 Paleoceanography
Units: 3 Mesozoic and Cenozoic paleoceanography; analytical approaches applied to water mass history, paleocirculation, paleoproductivity, nutrient cycling, and paleotemperature reconstruction. Lecture, readings, and research project. *Recommended Preparation:* GEOL 412 or GEOL 512 and GEOL 460. Instruction Mode: Lecture Grading Option: Letter

GEOL 556 Active Tectonics
Units: 3 Terms Offered: Sp Aspects of deformation and associated seismicity at active plate margins around the world. Includes review of plate tectonics, seismology, geodesy, paleomagnetism, geodynamics, - Quaternary dating techniques, tectonic geomorphology, paleoseismology, and seismic hazard assessment. Two weekend field trips required. *Prerequisite:* GEOL 321. *Recommended Preparation:* GEOL 530, GEOL 531 Instruction Mode: Lecture Grading Option: Letter

GEOL 557 Numerical Modeling of Earth Systems
Units: 3 Terms Offered: Fa The quantitative modeling of ordinary and partial differential equations as they arise in geology, geophysics, climate modeling and related fields with practical, numerical focus. *Recommended Preparation:* GEOL 425, GEOL 534, and GEOL 540. Instruction Mode: Lecture Grading Option: Letter

GEOL 558 Inverse Theory in the Earth Sciences
Units: 3 Terms Offered: FaSp Short review of probability theory, and extensive coverage of linear inverse theory, including seismic imaging. Non-linear inverse problems and factor analysis. *Recommended Preparation:* GEOL 425. Instruction Mode: Lecture Grading Option: Letter

GEOL 560 Marine Geochemistry
Units: 3, 2 years Terms Offered: Sp Principles of chemical sedimentology and aquatic chemistry; diagenesis, authigenesis, and the geochemical cycle. *Prerequisite:* GEOL 460. Instruction Mode: Lecture Grading Option: Letter

GEOL 564 Isotope Geochemistry
Units: 3, 2 years Terms Offered: Sp Variations in the isotopic composition of elements in the earth's crust with applications to geological problems, including geochronology, geothermometry, ore genesis, and crustal evolution. Instruction Mode: Lecture Grading Option: Letter

GEOL 566 Geochemistry Seminar
Units: 1, 2, 3, 4 Current topics in geochemistry. Instruction Mode: Lecture Grading Option: Letter

GEOL 567 Stable Isotope Geochemistry
Units: 3 Theoretical basis; nuclide nomenclature, partition function ratios, mechanisms and rates of isotope exchange; mass spectrometry and extraction techniques; application of stable isotopes to geologic problems. Instruction Mode: Lecture Grading Option: Letter

GEOL 568L Metamorphic Petrology
Units: 3, 2 years Terms Offered: Fa An introduction to advanced study of metamorphic mineral assemblages with use of experimental and field data. Instruction Mode: Lecture, Lab Required Grading Option: Letter

GEOL 569L Igneous Petrology
Units: 3, 2 years Terms Offered: Fa Study of igneous and meta-igneous rocks from the basis of experimental and field data and theoretical considerations. Instruction Mode: Lecture, Lab Required Grading Option: Letter

GEOL 575 Organic Geochemistry
Units: 3 Terms Offered: Sp Advanced course on the fundamentals and frontiers

of organic geochemistry. Topics include biomarker and isotope geochemical approaches to reconstructing past marine, terrestrial environmental change. *Recommended Preparation:* CHEM 105a, CHEM 105b , CHEM 322a, CHEM 322b, GEOL 150, GEOL 412, or equivalent background. Instruction Mode: Lecture Grading Option: Letter

GEOL 577L Micropaleontology
Units: 3, 2 years Terms Offered: Fa Microscopic fossils, especially foraminifera, their classification, the common genera, morphology, evolutionary trends; laboratory and field techniques. *Recommended Preparation:* GEOL 433. Instruction Mode: Lecture, Lab Required Grading Option: Letter

GEOL 585 Science of Hazard Prediction
Units: 3 Terms Offered: FaSp Advanced treatment of probabilistic forecasting of natural hazards: physical-process modeling, statistical forecasting, representations of uncertainty, proper scoring, testing and use in risk analysis and decision-making. *Prerequisite:* MATH 407 and MATH 408 Instruction Mode: Lecture Grading Option: Letter

GEOL 590 Directed Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Research leading to the master's degree. Maximum units which may be applied to the degree to be determined by the department. Instruction Mode: Lecture Grading Option: Credit/No Credit

GEOL 593 Practicum in Teaching the Liberal Arts
Units: 2 Practical principles for the long-term development of effective teaching within college disciplines. Intended for teaching assistants in Dornsife College. Instruction Mode: Lecture Grading Option: Credit/No Credit

GEOL 594a Master's Thesis
Units: 2 Credit on acceptance of thesis. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

GEOL 594b Master's Thesis
Units: 2 Credit on acceptance of thesis. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

GEOL 594z Master's Thesis
Units: 0 Credit on acceptance of thesis. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

GEOL 596 Internship for Curricular Practical Training
Units: 1, 2, 3 Max Units: 03 Terms Offered: FaSpSm Part-time or full-time practical work experience in the student's field of study. The internship must be located at an off-campus facility. Students are individually supervised by faculty. May not be taken until the student has completed at least one semester of enrollment in the graduate program. Registration Restriction: Open only to graduate students Instruction Mode: Lecture Grading Option: Credit/No Credit

GEOL 599 Special Topics
Units: 2, 3, 4 Max Units: 9.0 Terms Offered: Irregular Special topics in the earth sciences. Field trip required when appropriate to the topic. *Prerequisite:* second-year graduate standing normally required. Instruction Mode: Lecture Grading Option: Letter

GEOL 601 Seminar in Sedimentary Geology
Units: 1, 2, 3 Max Units: 6.0 Terms Offered: Sp Analysis and discussion of current topics in sedimentary geology; topics will be chosen by students and faculty to focus on areas of recent advances. Instruction Mode: Lecture Grading Option: Letter

GEOL 609 Seminar in Earthquake Physics
Units: 3 Max Units: 06 Terms Offered: FaSp Current research on the physics governing earthquakes and faults, including results from continuum and fracture mechanics, statistical physics, lab experiments and seismological observations. Registration Restriction: Open only to graduate students Instruction Mode: Lecture Grading Option: Letter

GEOL 650 Recent Advances in Paleontology
Units: 3 Selected review of recent ideas in paleobiology, evolution, and paleoecology related to examining the current frontiers in paleontology. Instruction Mode: Lecture Grading Option: Letter

GEOL 790 Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Research leading to the doctorate. Maximum units which may be applied to the degree to be determined by the department. Instruction Mode: Lecture Grading Option: Credit/No Credit

GEOL 794a Doctoral Dissertation
Units: 2 Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

GEOL 794b Doctoral Dissertation
Units: 2 Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

GEOL 794c Doctoral Dissertation
Units: 2 Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

GEOL 794d Doctoral Dissertation
Units: 2 Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

GEOL 794z Doctoral Dissertation
Units: 0 Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

German

GERM 020x Course in Reading German
Units: 2 For graduate students who wish help in meeting the German reading requirement for the PhD degree. Emphasis on development of reading skills. Instruction Mode: Lecture Grading Option: Credit/No Credit

GERM 025x Course in Reading German
Units: 2 Continuation of 020x. Reading selections appropriate to candidate's major field. Instruction Mode: Lecture Grading Option: Credit/No Credit

GERM 101 German I
Units: 4 Introduction to modern German. Oral practice, listening and reading comprehension. Basic structures necessary for simple spoken and written expression. Instruction Mode: Lecture Grading Option: Letter

GERM 102 German II
Units: 4 Continuation of German I. Introduction to German culture. *Prerequisite:* GERM 101. Instruction Mode: Lecture Grading Option: Letter

GERM 201 German III, Conversation and Composition
Units: 4 Intermediate German. Increasing emphasis on listening and speaking skills and a review of basic structures of German. Discussion of cultural aspects. *Prerequisite:* GERM 102. Instruction Mode: Lecture Grading Option: Letter

GERM 221 Conversational German IV
Units: 4 Conversational German in a variety of topical settings and vocabulary domains. *Prerequisite:* GERM 201. Instruction Mode: Lecture Grading Option: Letter

GERM 310 Business German I
Units: 4 Terms Offered: Sp Introduction to German business language structure including correspondence and oral communication. In German. *Prerequisite:* GERM 201. Instruction Mode: Lecture Grading Option: Letter

GERM 311 Business German II
Units: 4 Terms Offered: Fa Continuation of GERM 310. Terminology and style of commercial and legal texts, analyzed and applied in oral and written work. In German. *Prerequisite:* GERM 201. Instruction Mode: Lecture Grading Option: Letter

GERM 320 Composition and Conversation on Contemporary Affairs
Units: 4 Practice in oral and written German, emphasizing contemporary cultural and social developments in the German-speaking countries of Europe. In German. *Prerequisite:* GERM 221. Instruction Mode: Lecture Grading Option: Letter

GERM 325 Composition and Conversation in Cultural History
Units: 4 Practice in oral and written German, emphasizing the cultural history of the German-speaking countries of Europe. In German. *Prerequisite:* GERM 221. Instruction Mode: Lecture Grading Option: Letter

GERM 330 Introduction to Literary Studies
Units: 4 Review of essential literary terms, concepts, and critical methods through analysis and discussion of selected primary and secondary works. In German. Instruction Mode: Lecture Grading Option: Letter

GERM 335 Applied German Drama
Units: 4 Max Units: 8.0 Works of a German playwright in their social and cultural context, leading to a dramatization of one of the works. In German. Instruction Mode: Lecture Grading Option: Letter

GERM 340 German Prose Fiction from Goethe to Thomas Mann
Units: 4 Examines German prose fiction from the late 18th to the early 20th centuries, with particular emphasis on how narrative texts are constructed. In English. Instruction Mode: Lecture Grading Option: Letter

GERM 346 German Folklore and Popular Culture
Units: 4 Survey and analysis of folklore and cultural phenomena, including tales, legends, and myths; folk and popular music; beliefs and customs. In English. Instruction Mode: Lecture Grading Option: Letter

GERM 351 Colloquium on Drama
Units: 4 German drama from the 18th century, with emphasis on modernism (since Büchner) and the 20th century avant garde styles: Expressionist, Epic, Grotesque, Documentary, and Sprechtheater. In German. Instruction Mode: Lecture Grading Option: Letter

GERM 352 Colloquium on Poetry
Units: 4 Definition and analysis of lyric genre through a study of major poets, such as Goethe, Schiller, Heine, Rilke, and Hofmannsthal; poetic traditions from the 17th century to the present. In German. Instruction Mode: Lecture Grading Option: Letter

GERM 353 Colloquium on Prose
Units: 4 Study of German prose from the 18th century to the present; emphasis on narrative and thematic perspectives in relation to social change and on modernism since Kafka. In German. Instruction Mode: Lecture Grading Option: Letter

GERM 360g 20th Century German Prose: Texts and Films
Units: 4 Aesthetic and historical analysis of major German 20th century novels, complemented by brief study of cinematic adaptation of each text. Texts in English; films with subtitles. Satisfies New General Education in Category B: Humanistic Inquiry Instruction Mode: Lecture Grading Option: Letter

GERM 370 Literature and Culture in Vienna at the Turn of the Century
Units: 4 Literature, culture, and society in Vienna 1890–1925; works by figures such as Schnitzler, Hofmannsthal, Kafka, Musil, Kraus, Schönberg, Kokoschka, Freud, Wittgenstein, and others. In English. Instruction Mode: Lecture Grading Option: Letter

GERM 372g Literature and Culture in Berlin in the 1920s
Units: 4 Literature, culture, and society through works by figures such as Kaiser, Toller, Brecht/Weill, Piscator, Th. Mann, Doeblin, Lukacs, Heidegger, etc. Films: Caligari, Metropolis, Berlin, M, Blue Angel. In English. Satisfies New General Education in Category B: Humanistic Inquiry Instruction Mode: Lecture Grading Option: Letter

GERM 375g The German Exile Experience
Units: 4 Terms Offered: FaSp Surveys the work of German intellectuals, writers, artists, and scientists in U.S. exile during the time of the Nazi government in the 1930s and 1940s. Satisfies New General Education in Category B: Humanistic Inquiry Instruction Mode: Lecture Grading Option: Letter

GERM 390 Special Problems
Units: 1, 2, 3, 4 Supervised, individual studies. No more than one registration permitted. Enrollment by petition only. Instruction Mode: Lecture Grading Option: Letter

GERM 410 Profile of German Literature I
Units: 4 Survey of major trends in German literature within their historical and cultural contexts from the beginnings to the Baroque period. In German. Instruction Mode: Lecture Grading Option: Letter

GERM 420 Profile of German Literature II
Units: 4 Survey of major trends, figures, and authors in German literature and culture of the 18th and 19th centuries within the European context. In German. Instruction Mode: Lecture Grading Option: Letter

GERM 430 Age of Goethe
Units: 4 Background and significance of the period; lyrics, major dramatic and prose works from 1770–1832; Storm and Stress; Classicism; Goethe and Schiller. In German. Instruction Mode: Lecture Grading Option: Letter

GERM 440 Women's Literature in Germany I
Units: 4 Reading and analysis of medieval texts from German-speaking countries, written by and about women: science, love, poetry, letters, drama, mysticism, romance. Conducted in German. Instruction Mode: Lecture Grading Option: Letter

GERM 460 Expressionism to the Present
Units: 4 Representative authors and works since 1910; World War I, Expressionism, New Objectivity, World War II; literature after 1945: East and West, Swiss and Austrian. Instruction Mode: Lecture Grading Option: Letter

GERM 465 Germany East and West
Units: 4 Study of the ideological, economic, social, and cultural differences between East and West Germany between 1945 and 1990 and their impact on today's unified Germany. In English. Instruction Mode: Lecture Grading Option: Letter

GERM 466 The German Speaking Nations
Units: 4 Focus on the culture, history, and society of Austria, East and West Germany, and Switzerland. In German. Instruction Mode: Lecture Grading Option: Letter

GERM 470 Advanced Composition and Stylistics
Units: 4 Development of competence in written expression; fundamentals of style in expository writing. In German. Instruction Mode: Lecture Grading Option: Letter

GERM 490x Directed Research
Units: 1, 2, 3, 4, 5, 6, 7, 8 Individual research and readings. Instruction Mode: Lecture Grading Option: Letter

GERM 499 Special Topics
Units: 2, 3, 4 Max Units: 8.0 Intensive study of selected topics or regions. Instruction Mode: Lecture Grading Option: Letter

Gerontology

GERO 200 Gerontology: The Science of Adult Development
Units: 4 Terms Offered: FaSp Introduction to adult development through the lifespan; biological, psychological, and social processes; gerontology as a career for the future. Instruction Mode: Lecture Grading Option: Letter

GERO 310 Physiology of Aging
Units: 4 Terms Offered: Fa Effects of normative aging processes on homeostatic mechanisms and how these changes relate to development of disorder and disease in later life. Instruction Mode: Lecture Grading Option: Letter

GERO 311 Medical Issues of Older Persons: An Introduction to Geriatrics
Units: 4 Terms Offered: Sp Clinical cases for understanding changes occurring with normal aging, health behaviors that modify age-dependent diseases and history, prevention and treatment of age-related diseases and disorders. Instruction Mode: Lecture Grading Option: Letter

GERO 315g A Journey into the Mind
Units: 4 Terms Offered: Sp Introduction to the brain and mind. A unique multimedia approach to stress how knowledge about the mind is gained from scientific and clinical investigations. Satisfies New General Education in Category D: Life Sciences Instruction Mode: Lecture Grading Option: Letter

GERO 320g Psychology of Adult Development
Units: 4 Terms Offered: FaSpSm How psychologists study thinking, memory, emotions, personality, and behavior, and how people change in these throughout adulthood to old age. *Recommended Preparation:* PSYC 100Lg Satisfies New General Education in Category C: Social Analysis Instruction Mode: Lecture Grading Option: Letter

GERO 321 Introduction to Psychology and Aging
Units: 4 Terms Offered: FaSp An introduction to the core curriculum in the study of Gerontology. Research perspectives on adult development and aging; methodological issues; personality and relationship issues; general mental and emotional components of aging; research methods. Duplicates Credit in GERO 320g Instruction Mode: Lecture Grading Option: Letter

GERO 330 Society and Adult Development
Units: 4 Terms Offered: FaSp How social relationships affect adults of different ages; the changing contract across generations; interaction of culture, race, family and social values with adult development. Instruction Mode: Lecture Grading Option: Letter

GERO 340 Policy, Values, and Power in an Aging Society
Units: 4 Terms Offered: FaSp How Americans' political values affect public policy. Studies of landmark legislation to explore the social contract between generations and role of governments in social welfare. Instruction Mode: Lecture Grading Option: Letter

GERO 350 Administrative Problems in Aging
Units: 2 or 4 Terms Offered: Fa Analysis of the skills, approaches and issues involved in the planning, development, and implementation of programs directed at meeting the needs of older persons. Instruction Mode: Lecture Grading Option: Letter

GERO 353g Social and Behavioral Foundations of Health and Aging
Units: 4 Terms Offered: Fa Explore social and behavioral foundations of health, longevity, and medicine, in the context of an increasingly diverse and long-lived

population. Satisfies New General Education in Category C: Social Analysis Instruction Mode: Lecture

GERO 380m Diversity in Aging
Units: 4 Exploring diversity in the older population and variability in the human aging process. Instruction Mode: Lecture Grading Option: Letter

GERO 385 Transitions in Adulthood
Units: 2 or 4 An exploration of the critical issues and transitions in the adult years, including careers, relationships, parenthood, and major turning points for personal development. Instruction Mode: Lecture Grading Option: Letter

GERO 390 Special Problems
Units: 1-4 Supervised, individual studies. No more than one registration permitted. Enrollment by petition only. Instruction Mode: Lecture Grading Option: Letter

GERO 402 Housing for the Elderly: Policy, Programs, and Design
Units: 2 An overview of housing policies, programs and design for the elderly, including analysis and evaluation of past, current and proposed government programs. Instruction Mode: Lecture Grading Option: Letter

GERO 411L Physiology, Nutrition, and Aging
Units: 2 or 4 Explores nutritional needs and the physiological, psychological, and sociological relationships to nutrition. Laboratory experiments in assessment and evaluation. Instruction Mode: Lecture, Lab Required Grading Option: Letter

GERO 412L Exercise and Aging: Principles and Programs
Units: 2 or 4 Physiological, psychological, and sociological aspects of exercise. Laboratory involvement in assessment and evaluation of fitness. Instruction Mode: Lecture, Lab Required Grading Option: Letter

GERO 414 Neurobiology of Aging
Units: 4 Terms Offered: Fa Age-related changes in nervous system structure and function; relationship of brain changes to changes in cognitive function and perception; Alzheimer's and Parkinson's diseases. Instruction Mode: Lecture Grading Option: Letter

GERO 415 Neuroaffective Disorders of Aging
Units: 4 Terms Offered: Sp Methods of studying, evaluating, and treating cognitive, psychiatric, and behavioral problems associated with medical conditions of old age. Instruction Mode: Lecture Grading Option: Letter

GERO 416 Health Issues in Adulthood
Units: 4 Terms Offered: Sp Physiological, psychological, and social health problems of adults as they are impacted by health choices throughout life. Instruction Mode: Lecture Grading Option: Letter

GERO 417 Imaging of Human Aging in Health and Disease
Units: 4 Terms Offered: Sp An introduction to the use of imaging techniques to study human senescence and its related diseases. Instruction Mode: Lecture Grading Option: Letter

GERO 435m Women and Aging: Psychological, Social and Political Implications
Units: 4 Terms Offered: FaSpSm Problems and resources of the middle-aged and older woman in a changing society; including discrimination, stereotypes, employment, social interaction, etc. Instruction Mode: Lecture Grading Option: Letter Crosslisted as SWMS-434

GERO 437 Social and Psychological Aspects of Death and Dying
Units: 2 or 4 Terms Offered: FaSp Introduction and critical survey of the current issues, concepts, and research of the social and psychological aspects of death and dying. Instruction Mode: Lecture Grading Option: Letter

GERO 440 Biodemography of Aging
Units: 4 Consideration of the biological and social-cultural factors that govern the evolution of life spans and the life of humans and selected animal models *Prerequisite:* BISC 120 or BISC 121 *Recommended Preparation:* recommended preparation: statistics. Instruction Mode: Lecture Grading Option: Letter Crosslisted as BISC 440

GERO 452 Economic Issues and the Aged
Units: 2 or 4 Analysis of economic factors associated with the aged; implications for individuals, society, and the economy; lifecycle economics, retirement, income maintenance, and social security. Instruction Mode: Lecture Grading Option: Letter

GERO 461 Seminar in Molecular and Computational Biology
Units: 2 Terms Offered: FaSpSm (Enroll in BISC 461) Grading Option: Letter

GERO 470 Aging and Business
Units: 4 Terms Offered: Fa An introduction to the dynamic roles of business in an aging society focusing on workplace issues, marketing to mature consumers, and careers for business gerontologists. Instruction Mode: Lecture Grading Option: Letter

GERO 475 Ethical Issues in Geriatric Health Care
Units: 4 Biomedical ethical issues that are encountered in working with geriatric patients. Examination of ethical theory and the application of theory to clinical settings. Instruction Mode: Lecture Grading Option: Letter

GERO 481 Case Management for Older Adults
Units: 4 Terms Offered: Fa Overview of the concepts, characteristics, skills, and clinical issues of case management in a variety of settings serving older persons. Instruction Mode: Lecture Grading Option: Letter

GERO 483 Global Health and Aging
Units: 4 Terms Offered: Fa Overview of the impact aging populations will have on global institutions from a variety of perspectives. Examination of public health policy issues. Instruction Mode: Lecture Grading Option: Letter Crosslisted as HP-483

GERO 485 Clinical Management of Infectious Diseases in Older Adults
Units: 2 Introduce students to a comprehensive investigation into infectious diseases that affects diverse aspects of our lives. Instruction Mode: Lecture Grading Option: Letter

GERO 487 The Life Course, Health and the Arts, 1900-2020
Units: 4 Terms Offered: FaSp Explore lifespan health, diversity and aging via examination of visual arts, music, environmental design, fashion, film and media, literature, physical movement, spoken word and food. Instruction Mode: Lecture Grading Option: Letter

GERO 488 Food, Culture, Disease and Longevity in Italy and in the Mediterranean
Units: 4 Terms Offered: SpSm Examines the historical, political, economic, social, and artistic past of food in the Mediterranean, particularly in Italy from Roman times to the present. Instruction Mode: Lecture Grading Option: Letter

GERO 489 Finding the Key to a Long, Happy Life in Nicoya, Costa Rica
Units: 4 Terms Offered: Sm Immersion into lifestyles shown to improve quality of life and extend lifespan by studying populations in "Blue Zone" communities throughout the world. Instruction Mode: Lecture Grading Option: Letter

GERO 490x Directed Research
Units: 1-8 Max Units: 12.0 Individual research and readings. Not available for graduate credit. Instruction Mode: Lecture Grading Option: Letter

GERO 491 Practicum
Units: 2-8 Max Units: 8.0 Terms Offered: FaSpSm Supervised experience in one or more community agencies. Instruction Mode: Lecture Grading Option: Credit/No Credit

GERO 492 Senior Seminar
Units: 4 Terms Offered: Sp An in-depth integration of major research and professional themes in the study of human development and aging. Instruction Mode: Lecture Grading Option: Letter

GERO 493p Longevity and Death among Ancient and Modern European Populations (Italy)
Units: 2 Terms Offered: SpSm The discoveries of ancient humans and bodies that have been preserved illuminate the connection between diet, health, and disease. Satisfies Global Perspective in Category H: Traditions and Historical Foundations Instruction Mode: Lecture Grading Option: Credit/No Credit

GERO 494 Emotion-Cognition Interactions and Aging
Units: 4 Terms Offered: Sm Covers the paradox of emotion in aging, as well as how stress and emotion influence cognition and the brain across the lifespan. Instruction Mode: Lecture Grading Option: Letter

GERO 495 Practicum in Geriatric Care
Units: 4 Terms Offered: FaSpSm Supervised experience in a geriatric health care setting which allows students to put theories and ideas into practice. Graded CR/NC. Lecture, discussion, and fieldwork. Instruction Mode: Lecture Grading Option: Letter

GERO 496 Introduction to Clinical Geriatrics
Units: 4 Medical problems of older adults emphasizing common geriatric syndromes,

chronic illness, and alternative approaches to primary health care of older persons and their families. Upper division standing. *Prerequisite:* BISC 220 or BISC 221. Instruction Mode: Lecture

GERO 497a Honors Seminar
Units: 2 Terms Offered: FaSpSm Advanced study of empirical approaches in gerontology. Preparation, progress, presentation, and evaluation of Senior Honors Thesis research. *Prerequisite:* standing in Gerontology Honors Program. Instruction Mode: Lecture Grading Option: Letter

GERO 497b Honors Seminar
Units: 2 Terms Offered: FaSpSm Advanced study of empirical approaches in gerontology. Preparation, progress, presentation, and evaluation of Senior Honors Thesis research. *Prerequisite:* standing in Gerontology Honors Program. Instruction Mode: Lecture Grading Option: Letter

GERO 497c Honors Seminar
Units: 2-4 Terms Offered: FaSpSm Advanced study of empirical approaches in gerontology. Preparation, progress, presentation, and evaluation of Senior Honors Thesis research. *Prerequisite:* standing in Gerontology Honors Program. Instruction Mode: Lecture Grading Option: Letter

GERO 498 Nutrition, Genes, Longevity and Diseases
Units: 4 Terms Offered: Sm Examines the role of nutrition and genes and the impact each has on longevity and diseases, particularly diseases related to aging. Offered in Genoa, Italy. Instruction Mode: Lecture Grading Option: Letter

GERO 499 Special Topics
Units: 2-4 Max Units: 8.0 Terms Offered: FaSpSm Examination of special topics in the area of gerontology. Instruction Mode: Lecture Grading Option: Letter

GERO 500 Perspectives on a Changing Society: An Introduction to Aging
Units: 4 Terms Offered: Fa Analysis of physical, mental, and social age-related changes as well as implications of population aging trends for individuals and society. Instruction Mode: Lecture Grading Option: Letter

GERO 501 Applied Legal and Regulatory Issues in Aging
Units: 4 Terms Offered: Fa Analysis of shifting legal and regulatory issues affecting the delivery of aging services. Instruction Mode: Lecture Grading Option: Letter

GERO 502 Marketing and Shifts in Consumer Decision Making
Units: 4 Terms Offered: Fa Branding, marketing, and consumer behavior through examination of established, transitioning and emerging aging services and organizations. Instruction Mode: Lecture Grading Option: Letter

GERO 504 Current Issues in Aging Services Management
Units: 4 Terms Offered: Sp Basic skills needed for an executive working in an aging services environment. Recommended for entry level administrators and managers. Instruction Mode: Lecture Grading Option: Letter

GERO 505 Housing and Community Policies and Programs
Units: 4 Terms Offered: FaSp Examination of the behavioral and social consequences of design and the environment to create a more satisfying physical environment for both frail and active older adults. Instruction Mode: Lecture Grading Option: Letter

GERO 506 Technological Innovations in Aging (Gerontechnology)
Units: 4 Terms Offered: Sp Reflections on shifts in preferences for aging in place and the market ramifications of innovations in science and technology on older consumers and service providers. Instruction Mode: Lecture Grading Option: Letter

GERO 507 End of Life Care
Units: 4 Terms Offered: Sp Examination of programs related to end of life care. Cultural competencies in working with a diverse population on end of life issues. Instruction Mode: Lecture Grading Option: Letter

GERO 508 The Mind and Body Connection through the Lifespan
Units: 4 Terms Offered: FaSpSm An introduction to mind-body processes involved in healthy aging. Examines the interplay of emotions, beliefs, and behaviors in shaping health-relevant biological processes. Instruction Mode: Lecture Grading Option: Letter

GERO 509 Mindful Aging: Spirituality, Gratitude, and Resilience
Units: 4 Terms Offered: Sp Fosters vital imaginative connections to transform one's understanding and experience of the aging process from within, in order to re-envision the aging process as a spiritual journey. Instruction Mode: Lecture Grading Option: Letter

GERO 510 Physiology of Development and Aging
Units: 4 Terms Offered: Sp Examination of lifespan physiology of human development, growth, and aging; major emphasis in the physiology of the later years and implications for health maintenance. Instruction Mode: Lecture Grading Option: Letter

GERO 511 Fundamentals of Clinical Nutrition Screening and Assessment
Units: 4 Terms Offered: Sp Examines tools and resources used to evaluate the nutrition status of individuals across the lifespan including biochemical, anthropometric and subjective global assessment. Open only to graduate students. Registration Restriction: Open only to graduate students. Instruction Mode: Lecture Grading Option: Letter

GERO 512 Communicating Nutrition and Health
Units: 2 Terms Offered: Fa Overview of current understanding of the dietary and nutritional needs of individuals across their lifespan. Registration Restriction: Open only to graduate students. Instruction Mode: Lecture Grading Option: Letter

GERO 513 Fundamentals of Nutrition: Macronutrients
Units: 2 Terms Offered: Fa Principles of metabolism of macronutrients (carbohydrates, lipids and proteins) and human nutrition; life stages, disease states, consumption, digestion, absorption, transport and storage of macronutrients. Registration Restriction: Open only to graduate students Instruction Mode: Lecture Grading Option: Letter

GERO 514 The Art of Geriatric Symptom Management
Units: 4 Terms Offered: Fa Explore issues related to common aging related symptoms/ syndromes, patient and caregiver factors and alternative methods for symptom management. Instruction Mode: Lecture Grading Option: Letter

GERO 515L Food Production and Food Service Management
Units: 4 Terms Offered: FaSp A study of principles and procedures for food systems including techniques of food preparation, development, modification and evaluation of recipes, menus and products. Registration Restriction: Open only to graduate students. Instruction Mode: Lecture, Lab Required Grading Option: Letter

GERO 516 Introduction to Genomic Science for Biologists
Units: 4 Terms Offered: FaSp Broad introduction to genomics for students with a biology background, including overviews of 'wet' genomics techniques, available public databases and useful analytical tools. *Prerequisite:* BISC 120Lg and BISC 220Lg Instruction Mode: Lecture Grading Option: Letter

GERO 517L Advanced Therapeutic Nutrition
Units: 4 Terms Offered: Fa Application of nutrition science, physiology, biochemistry, and metabolism to evaluate critically ill patients and plan nutrition intervention and monitoring. Registration Restriction: Open only to graduate students. Instruction Mode: Lecture, Lab Required Grading Option: Letter

GERO 518 Current Topics in Clinical Nutrition
Units: 4 Terms Offered: Sp Discuss various factors that affect nutrition and aging. Topics include allergies in nutrition, food toxins, weight factors, and prevention and treatment of multiple organ systems. Registration Restriction: Open only to graduate students. Instruction Mode: Lecture Grading Option: Letter

GERO 519 Recent Advances in Neurobiology and Endocrinology of Aging
Units: 2 or 4 Theories of the biology of aging and the effects of age on functional integrity of the total organism. Instruction Mode: Lecture Grading Option: Letter Crosslisted as BISC-519

GERO 520 Life Span Developmental Psychology
Units: 2 or 4 Terms Offered: FaSm Behavior from adulthood to old age; study of major components of behavior such as perception, cognitive processes, personality, intergenerational relationships, sexuality, and life styles. Instruction Mode: Lecture Grading Option: Letter

GERO 522 Counseling Older Adults and Their Families
Units: 2 or 4 Terms Offered: Sp Theory and application of assessment and intervention techniques with older adults and their families. Topics include: treatment modalities, psychopathology, ethical and legal issues, brain disorders. Instruction Mode: Lecture Grading Option: Letter

GERO 530 Life Span Developmental Sociology
Units: 4 Terms Offered: Sp Life span perspective on the sociological theories of marriage and the family, inter-generational relationships, work and retirement, and other forms of social organization. Instruction Mode: Lecture Grading Option: Letter

GERO 540 Social Policy and Aging
Units: 4 Terms Offered: Fa Major legislation and programs; examination and analysis of policy-making and political processes affecting development and implementation of programs for older persons. Instruction Mode: Lecture Grading Option: Letter

GERO 541 Health Care Delivery Models: Comparative Approaches
Units: 4 Examination of current trends and future prospects of finance and reimbursement systems. Topics include major legislation and programs such as Medicare and Medicaid. Instruction Mode: Lecture Grading Option: Letter

GERO 550 Administration and System Management in Programs for Older Adults
Units: 4 Terms Offered: Sp Application of theories of administration and system management to public and volunteer programs and services for older adults including residential institutions and community programs. Instruction Mode: Lecture Grading Option: Letter

GERO 551 Applied Policy Skills in Aging
Units: 4 Terms Offered: Sp An overview and application of techniques and approaches used in the definition and analysis of policy problems in aging. *Prerequisite:* GERO 540. Instruction Mode: Lecture Grading Option: Letter

GERO 552 Human Resources and Aging
Units: 4 Terms Offered: FaSp Addresses legal issues and liability arising out of the employer-employee relationship, and how to identify and act proactively to minimize such risk. Registration Restriction: Open only to graduate students Instruction Mode: Lecture Grading Option: Letter

GERO 554 Evaluation: Incorporating Evidence-Based Practices
Units: 4 Terms Offered: Sp Examination of the evaluation of health and service delivery in aging services industries. Instruction Mode: Lecture Grading Option: Letter

GERO 555 Integrating Gerontology: A Multidisciplinary Approach
Units: 4 Terms Offered: Sp Aging (commonalities and distinctions) as addressed by biologists, psychologists, and sociologists. Topics include research perspectives, normative aging, functional decline and disability, and aging and society. Instruction Mode: Lecture Grading Option: Letter

GERO 557 Geriatric Care Management
Units: 4 Terms Offered: Sp Overview of concepts, issues, and approaches to geriatric care management. Includes analysis and practice of a variety of care management clinical skills. Instruction Mode: Lecture Grading Option: Letter

GERO 560 Fundamentals of Nutrition: Micronutrients
Units: 4 Terms Offered: Sp Explore the role of micronutrients, vitamins, minerals and phytonutrients in human nutrition, including digestion, absorption, metabolism, and major biological, physiological and metabolic roles. Registration Restriction: Open only to graduate students Instruction Mode: Lecture Grading Option: Letter

GERO 561 Introduction to Aging and Normal Changes with Aging
Units: 4 Terms Offered: FaSp Introduces medical and health care professionals to the interdisciplinary field of gerontology. Examines the world's changing demography; effects of aging on physical, psychological and social changes; aging process, ethical issues, aging stereotypes. Instruction Mode: Lecture Grading Option: Letter

GERO 562 Diseases of Aging with Emphasis on Cardiovascular Disease and Diabetes
Units: 4 Terms Offered: FaSp An introduction to the diseases of aging with an emphasis on cardiovascular disease and diabetes. Instruction Mode: Lecture Grading Option: Letter

GERO 563 Geronpsychology
Units: 4 Terms Offered: FaSp Understanding geronpsychology and cognition in advanced age; psychosocial theories of aging and psychodynamic models. Instruction Mode: Lecture Grading Option: Letter

GERO 564 Multiple Chronic Conditions and Older Adults
Units: 4 Terms Offered: FaSp Complexities of treating older persons with multiple chronic diseases and conditions. Instruction Mode: Lecture Grading Option: Letter

GERO 565 Novel Technologies in Aging and Assisted Living
Units: 4 Terms Offered: FaSp Focuses on the understanding of technology use with older adults. Examines telemedicine and e-health technologies as well as ethical considerations. Instruction Mode: Lecture Grading Option: Letter

GERO 566 Cognitive Decline: Alzheimer's Disease and Dementia and Advances in Imaging
Units: 4 Terms Offered: FaSp Covers cognitive decline for people with Alzheimer's Disease or other forms of dementia. Imaging technology to identify and find treatment options. Instruction Mode: Lecture Grading Option: Letter

GERO 567 Prevention of Chronic Diseases through Nutrition, Physical Activity and Lifestyle Changes
Units: 4 Terms Offered: FaSp Nutrition, psychical engagement and social interaction. Interventions, assessments, screening protocols and guidelines for nutrition in older adults. Instruction Mode: Lecture Grading Option: Letter

GERO 568 Adaptive Age-Friendly Environments and Injury Prevention
Units: 4 Terms Offered: FaSpSm Covers adaptive, age-friendly environment and injury prevention for older adults. Adaptations in household safety, assistive technology, ergonomics and universal design principles. Instruction Mode: Lecture Grading Option: Letter

GERO 569 Healthcare Leadership and Administration
Units: 1 Terms Offered: FaSpSm Application of basic management concepts in a healthcare setting; achieving patient care goals and objectives via team caregiving. Instruction Mode: Lecture Grading Option: Letter

GERO 574 Leadership and Management in Senior Living
Units: 3 Terms Offered: FaSpSm Management and leadership in senior living organizations. Managerial techniques as well as leadership styles will be analyzed and reviewed. Instruction Mode: Lecture Grading Option: Letter

GERO 575 Marketing Senior Living
Units: 3 Terms Offered: FaSpSm Current practices in marketing senior living and associated services. Examines behaviors and preferences of older adults and their families. Explores new media platforms. Instruction Mode: Lecture Grading Option: Letter

GERO 576 Finance and Senior Living
Units: 3 Terms Offered: FaSpSm Unique aspects of senior living financial structures, revenue management and accounting principles. Instruction Mode: Lecture Grading Option: Letter

GERO 577 Food Service and Senior Living
Units: 2 Terms Offered: FaSpSm Addresses the food services components of senior living. Covers pricing, menu design and nutrition. Instruction Mode: Lecture Grading Option: Letter

GERO 578 Revenue Management for Senior Living
Units: 2 Terms Offered: FaSpSm Understanding of revenue sources for senior living. Develop skills and approaches to managing sustainable strategies. Instruction Mode: Lecture Grading Option: Letter

GERO 579 Branding Senior Living
Units: 2 Terms Offered: FaSpSm Marketing models aimed to provide services for senior living. Analyze various institution's models for marketing, communicating and technological influence to brand a facility. Instruction Mode: Lecture Grading Option: Letter

GERO 585 The Aging Family
Units: 2 or 4 Terms Offered: Sm Family processes and structure in families with aged persons will be reviewed, including marital and family therapy and intervention strategies. Instruction Mode: Lecture Grading Option: Letter

GERO 589 Case Studies in Leadership and Change Management
Units: 4 Terms Offered: Fa Examination of case studies of issues affecting the aging services industries and the role industry leaders play in reacting to change. Instruction Mode: Lecture Grading Option: Letter

GERO 590 Directed Research
Units: 1-12 Terms Offered: FaSpSm Research leading to the master's degree. Maximum units which may be applied to the degree to be determined by the department. Instruction Mode: Lecture Grading Option: Credit/No Credit

GERO 591 Field Practicum
Units: 1-12 Max Units: 12.0 Terms Offered: FaSpSm Supervised experiential learning in one or more organizations that serve

older adults; includes a regularly scheduled seminar. Instruction Mode: Lecture Grading Option: Credit/No Credit

GERO 592 Multidisciplinary Research Seminar in Aging
Units: 2 Max Units: 8.0 Terms Offered: FaSp Multidisciplinary perspectives on current research in gerontology, including physiology, neurobiology, health and medicine, psychology, sociology, and public policy. Topics will change each semester. Instruction Mode: Lecture Grading Option: Letter

GERO 593 Research Methods
Units: 4 Terms Offered: Fa An introduction to research methods and their application to gerontology including problem formation, research design, data collection, descriptive and analytic statistics, interpretation, and report preparation. Instruction Mode: Lecture Grading Option: Letter

GERO 594a Master's Thesis
Units: 2 Terms Offered: FaSpSm Credit on acceptance of thesis. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

GERO 594b Master's Thesis
Units: 2 Terms Offered: FaSpSm Credit on acceptance of thesis. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

GERO 594z Master's Thesis
Units: 0 Terms Offered: FaSpSm Credit on acceptance of thesis. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

GERO 599 Special Topics
Units: 2-4 Max Units: 8.0 Terms Offered: FaSpSm Examination of special topics in the area of gerontological study. Instruction Mode: Lecture Grading Option: Letter

GERO 600 Geroscience: Molecular and Cellular Biology
Units: 4 Terms Offered: Fa Emphasizes the molecular and cellular biology of aging and age-related pathology and other aspects of basic aging research, including evolutionary biology, demography, epidemiology and bioinformatics. Instruction Mode: Lecture, Discussion Grading Option: Letter

GERO 601 Molecular Genetics of Aging
Units: 4 Terms Offered: Sp Explores concepts of molecular and genetic regulation of healthy aging, lifespan, and age-related diseases. Instruction Mode: Lecture, Discussion Grading Option: Letter

GERO 602a Seminar on Discoveries in Biogerontology
Units: 2 Terms Offered: FaSp Critical analyses of primary scientific data and interpretations presented in the literature. Duplicates Credit in former GERO 602. Instruction Mode: Lecture Grading Option: Letter

GERO 602b Seminar on Discoveries in Biogerontology
Units: 2 Terms Offered: FaSp Critical analyses of primary scientific data and interpretations presented in the literature. Duplicates Credit in former GERO 602. Instruction Mode: Lecture Grading Option: Letter

GERO 603 Research Integrity
Units: 2 Terms Offered: Fa Explores scientific integrity, mentoring, scientific record keeping, authorship, peer review, animal and human experimentation, conflict of interest, data ownership and intellectual property, and genetic technology. Instruction Mode: Lecture Grading Option: Letter

GERO 605 Research and Journal Club Presentation Workshop
Units: 2 Terms Offered: Fa Intensive training in journal club and research talk presentations for graduate students in the Biology of Aging PhD program. Registration Restriction: Open only to doctoral students in Biology of Aging Instruction Mode: Lecture Grading Option: Credit/No Credit

GERO 606 Bioinformatics
Units: 2 Terms Offered: FaSp A bioinformatics lab using a published RNA-seq data set as a testbed for students to learn coding principles, genomic biology and applied genomic statistics. Registration Restriction: Open only to doctoral students Instruction Mode: Lecture, Lab Grading Option: Letter

GERO 610 The Aging Society
Units: 4 Terms Offered: Sp The interaction of demographic and economic processes, with emphasis on how the contemporary nature of these interactions influence public policy response to an aging population. Instruction Mode: Lecture Grading Option: Letter

GERO 613 Health and Aging
Units: 4 Terms Offered: Sp Examination of changes in health related to age, changes in health in populations over time, and the key health issues facing older persons. Instruction Mode: Lecture Grading Option: Letter

GERO 614L Laboratory Rotations in the Biology of Aging
Units: 4 Max Units: 12 Terms Offered: FaSpSm Mandatory organized laboratory rotation. Allows students to participate in laboratory activities. Designed to help select dissertation adviser and research. Registration Restriction: Open only to doctoral students Instruction Mode: Lecture, Lab Required Grading Option: Credit/No Credit

GERO 616 Mass Spectrometry
Units: 2 Terms Offered: FaSp Introduction to mass spectrometry and its application to gerontology. Problem formation; research design and data collection; descriptive and analytical statistics; interpretation and report preparation. Registration Restriction: Open only to doctoral students in Biology of Aging Instruction Mode: Lecture Grading Option: Letter

GERO 620 Psychology of Aging
Units: 4 Terms Offered: Fa Overview of topics in the psychology of aging. Includes research and theory bearing on cognitive, personality, adaptive, and social processes throughout the adult life span. Open only to doctoral students. *Recommended Preparation:* undergraduate course work in psychology. Registration Restriction: Open only to doctoral students. Instruction Mode: Lecture Grading Option: Letter

GERO 626 Current Research in Alzheimer's Disease and Related Dementias
Units: 2 Terms Offered: FaSp Lectures from researchers at the forefront of research in Alzheimer disease and related disorders. Registration Restriction: Open only to doctoral students Instruction Mode: Lecture Grading Option: Letter

GERO 628 Theories of Aging
Units: 4 An examination of the nature and adequacy of existing explanations of aging. Focus will be on psychological, sociological, and biological paradigms, and on the epistemology of theory. Instruction Mode: Lecture Grading Option: Letter Crosslisted as SOCI-628

GERO 640 Data Analysis Strategies
Units: 4 Terms Offered: FaSpSm Hands-on experience in developing and testing hypotheses using various types of databases, data management and analysis strategies and written presentation of findings. *Recommended Preparation:* GERO 593. Instruction Mode: Lecture Grading Option: Letter

GERO 645 Politics and Policy Processes in an Aging Society
Units: 4 Terms Offered: Fa Dynamics of the policy-making process in the context of aging policy in the United States; focus on the political system and its social dynamics. Instruction Mode: Lecture Grading Option: Letter

GERO 655 Research Training Grant Proposal Development in Gerontology
Units: 4 Terms Offered: Fa Integrative grant writing and development of collaborative, interdisciplinary projects in gerontology as studied by biomedical, psychological, and social scientists. Instruction Mode: Lecture Grading Option: Letter

GERO 666 Free Radical Chemistry, Biology, and Medicine
Units: 4 Terms Offered: Fa Explores the chemical and physical chemical nature of free radicals and related reactive species. Examines the roles of antioxidants and how they work. *Recommended Preparation:* Course work in biology and chemistry. Instruction Mode: Lecture Grading Option: Letter Crosslisted as PSCI-633

GERO 690 Directed Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Terms Offered: FaSpSm Directed research for PhD candidates. Maximum units which may be applied to the degree to be determined by the department. Instruction Mode: Lecture Grading Option: Credit/No Credit

GERO 790 Research
Units: 1-12 Terms Offered: FaSpSm Research leading to the doctorate. Maximum units which may be applied to the degree to be determined by the department. Instruction Mode: Lecture Grading Option: Credit/No Credit

GERO 794a Doctoral Dissertation
Units: 2 Terms Offered: FaSpSm Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

GERO 794b Doctoral Dissertation
Units: 2 Terms Offered: FaSpSm Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

GERO 794c Doctoral Dissertation
Units: 2 Terms Offered: FaSpSm Credit on acceptance of dissertation. Instruction

Mode: Lecture Grading Option: In-progress to Credit/No Credit

GERO 794c Doctoral Dissertation
Units: 2 Terms Offered: FaSpSm Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

GERO 794d Doctoral Dissertation
Units: 2 Terms Offered: FaSpSm Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

GERO 794z Doctoral Dissertation
Units: 0 Terms Offered: FaSpSm Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

General Education Seminar

GESM 110g Seminar in the Arts
Units: 4 Terms Offered: FaSpSm The multifaceted history of the creative act, its analysis, production, and context as a representation of human experience. Satisfies New General Education in Category A: The Arts Registration Restriction: Open only to freshmen. Instruction Mode: Lecture Grading Option: Letter

GESM 111g Seminar in the Arts
Units: 4 Terms Offered: FaSp The multifaceted history of the creative act, its analysis, production, and context as a representation of human experience. Offered by a USC professional school. Satisfies New General Education in Category A: The Arts Registration Restriction: Open only to freshmen Duplicates Credit in GESM 110 Instruction Mode: Lecture Grading Option: Letter

GESM 120g Seminar in Humanistic Inquiry
Units: 4 Terms Offered: FaSpSm Interpretation and analysis of works of the imagination, exploring language, thought, and cultural traditions in relation to one another. Satisfies New General Education in Category B: Humanistic Inquiry Registration Restriction: Open only to freshmen. Instruction Mode: Lecture Grading Option: Letter

GESM 121g Seminar in Humanistic Inquiry
Units: 4 Terms Offered: FaSp Critical appreciation of various forms of human expression, evaluating works of literature, philosophy, and the arts to enable informed opinions about ideas and values. Offered by a professional school. Satisfies New General Education in Category B: Humanistic Inquiry Registration Restriction: Open only to freshmen Duplicates Credit in GESM 120 Instruction Mode: Lecture Grading Option: Letter

GESM 130g Seminar in Social Analysis
Units: 4 Terms Offered: FaSpSm Individual and collective human action as it shapes and is shaped by economic organizations, political institutions, and broad social and cultural settings. Satisfies New General Education in Category C: Social Analysis Registration Restriction: Open only to freshmen. Instruction Mode: Lecture Grading Option: Letter

GESM 131g Seminar in Social Analysis
Units: 4 Terms Offered: FaSp The causes and consequences of social phenomena; quantitative and qualitative methods of the social sciences; how people behave and influence the world through cultural forms. Offered by a professional school. Satisfies New General Education in Category C: Social Analysis Duplicates Credit in GESM 130 Instruction Mode: Lecture Grading Option: Letter

GESM 140g Seminar in the Life Sciences
Units: 4 Terms Offered: FaSpSm Scientific understanding of a full range of living systems from molecules to ecosystems, prokaryotes to humans, past and present. (Satisfies GE-D, Life Sciences). Satisfies New General Education in Category D: Life Sciences Registration Restriction: Open only to freshmen. Instruction Mode: Lecture Grading Option: Letter

GESM 141g Seminar in the Life Sciences
Units: 4 Terms Offered: FaSp Scientific understanding of living systems from molecules to ecosystems; how data is generated and interpreted; how scientific discovery spurs technological growth and impacts society. Offered by a professional school. Satisfies New General Education in Category D: Life Sciences Registration Restriction: Open only to freshmen Duplicates Credit in GESM 140 Instruction Mode: Lecture Grading Option: Letter

GESM 150Lg Seminar in the Physical Sciences
Units: 4 Terms Offered: FaSpSm Analysis of natural phenomenon through quantitative description and synthesis; the processes by which scientific knowledge is obtained, evaluated, and placed in social context. (Satisfies GE-E, Physical Sciences) Satisfies New General Education in Category E: Physical Sciences Registration Restriction: Open only to freshmen. Instruction Mode: Lecture, Lab Required Grading Option: Letter

GESM 151Lg Seminar in the Physical Sciences
Units: 4 Terms Offered: FaSp Natural phenomena analyzed through quantitative description and synthesis to demonstrate how scientific knowledge is obtained, evaluated and made socially relevant. A separate lab is required. Offered by a professional school. Registration Restriction: Open only to freshmen Duplicates Credit in GESM 150 Instruction Mode: Lecture, Required Lab Grading Option: Letter

GESM 160g Seminar in Quantitative Reasoning
Units: 4 Terms Offered: FaSpSm Analysis and manipulation of data and information related to quantifiable objects, symbolic elements, or logic; formal reasoning, abstract representation, and empirical analysis. (Satisfies GE-F, Quantitative Reasoning). Satisfies New General Education in Category F: Quantitative Reasoning Registration Restriction: Open only to freshmen. Instruction Mode: Lecture Grading Option: Letter

GESM 161g Seminar in Quantitative Reasoning
Units: 4 Terms Offered: FaSp Logical or statistical inference, probability, or mathematical analysis used as tools to evaluate hypotheses, claims, questions, or problems within a formal mode of thought. Offered by a professional school. Satisfies New General Education in Category F: Quantitative Reasoning Registration Restriction: Open only to freshmen Duplicates Credit in GESM 160 Instruction Mode: Lecture Grading Option: Letter

General Practice Residency

GPR 601 Hospital Dentistry I
Units: 1 Terms Offered: FaSpSm Residents learn the nature of performing dentistry within a hospital setting. Instruction Mode: Lecture Grading Option: Credit/No Credit

GPR 603a Dental Ethics
Units: .5, Terms Offered: FaSpSm Residents prepare for ethical dilemmas which may occur when they are practicing dentistry. Instruction Mode: Lecture, Discussion Grading Option: Credit/No Credit

GPR 603b Dental Ethics
Units: .5, Terms Offered: Fa Residents prepare for ethical dilemmas which may occur when they are practicing dentistry. Instruction Mode: Lecture, Discussion Grading Option: Credit/No Credit

GPR 603c Dental Ethics
Units: .5, Terms Offered: Sp Residents prepare for ethical dilemmas which may occur when they are practicing dentistry. Instruction Mode: Lecture, Discussion Grading Option: Credit/No Credit

GPR 603d Dental Ethics
Units: .5, Terms Offered: SpSm Residents prepare for ethical dilemmas which may occur when they are practicing dentistry. Instruction Mode: Lecture, Discussion Grading Option: Credit/No Credit

GPR 604a Practice Management
Units: .5, Terms Offered: FaSm Residents learn the tools and principles of running or working in a private practice. Instruction Mode: Lecture Grading Option: Credit/No Credit

GPR 604b Practice Management
Units: .5, Terms Offered: FaSpSm Residents learn the tools and principles of running or working in a private practice. Instruction Mode: Lecture Grading Option: Credit/No Credit

GPR 604c Practice Management
Units: .5, Terms Offered: FaSpSm Residents learn the tools and principles of running or working in a private practice. Instruction Mode: Lecture Grading Option: Credit/No Credit

GPR 604d Practice Management
Units: .5, Terms Offered: FaSpSm Residents learn the tools and principles of running or working in a private practice. Instruction Mode: Lecture Grading Option: Credit/No Credit

GPR 605a Review of General Dentistry Literature
Units: 1 Terms Offered: FaSpSm Residents learn how to research various topics and to critically review each article in order to practice evidence-based dentistry. Instruction Mode: Lecture, Discussion Grading Option: Credit/No Credit

GPR 605b Review of General Dentistry Literature
Units: 1 Terms Offered: FaSpSm Residents learn how to research various topics and to critically review each article in order to practice evidence-based dentistry.

Instruction Mode: Lecture, Discussion Grading Option: Credit/No Credit

GPR 605c Review of General Dentistry Literature
Units: 1 Terms Offered: FaSpSm Residents learn how to research various topics and to critically review each article in order to practice evidence-based dentistry. Instruction Mode: Lecture, Discussion Grading Option: Credit/No Credit

GPR 605d Review of General Dentistry Literature
Units: 1 Terms Offered: FaSpSm Residents learn how to research various topics and to critically review each article in order to practice evidence-based dentistry. Instruction Mode: Lecture, Discussion Grading Option: Credit/No Credit

GPR 611a Emergency Medicine
Units: .5, Terms Offered: FaSm Residents utilize medical knowledge to detect and identify early signs of medical emergencies. Instruction Mode: Lecture, Lab Grading Option: Credit/No Credit

GPR 611b Emergency Medicine
Units: .5, Terms Offered: FaSm Residents utilize medical knowledge to detect and identify early signs of medical emergencies. Instruction Mode: Lecture, Lab Grading Option: Credit/No Credit

GPR 611c Emergency Medicine
Units: .5, Terms Offered: FaSm Residents utilize medical knowledge to detect and identify early signs of medical emergencies. Instruction Mode: Lecture, Lab Grading Option: Credit/No Credit

GPR 611d Emergency Medicine
Units: .5, Terms Offered: FaSm Residents utilize medical knowledge to detect and identify early signs of medical emergencies. Instruction Mode: Lecture, Lab Grading Option: Credit/No Credit

GPR 622 Forensic Dentistry
Units: 1 Terms Offered: FaSpSm Introduction to Forensic Odontology. Residents to learn the principles of Dental Forensics. Instruction Mode: Lecture Grading Option: Credit/No Credit

GPR 701 Treating Medically Compromised Dental Patients
Units: 1 Terms Offered: FaSpSm Residents learn of various medical problems, how they relate to dental treatment and how to manage patients with various medical problems. Instruction Mode: Lecture Grading Option: Credit/No Credit

GPR 702 General Dentistry Overview
Units: 1 Terms Offered: FaSpSm Residents demonstrate the most appropriate and ideal restorative treatment utilizing various dental materials. Instruction Mode: Lecture Grading Option: Credit/No Credit

GPR 705a Periodontal Treatment Procedures
Units: .5, Terms Offered: FaSpSm Presentation of various techniques in current periodontal treatment. Instruction Mode: Lecture Grading Option: Credit/No Credit

GPR 705b Periodontal Treatment Procedures
Units: .5, Terms Offered: FaSpSm Presentation of various techniques in current periodontal treatment. Instruction Mode: Lecture Grading Option: Credit/No Credit

GPR 705c Periodontal Treatment Procedures
Units: .5, Terms Offered: FaSpSm Presentation of various techniques in current periodontal treatment. Instruction Mode: Lecture Grading Option: Credit/No Credit

GPR 705d Periodontal Treatment Procedures
Units: .5, Terms Offered: FaSpSm Presentation of various techniques in current periodontal treatment. Instruction Mode: Lecture Grading Option: Credit/No Credit

GPR 706a Treatment Planning
Units: 1 Terms Offered: Sm Residents lead seminars with case presentations of complex multidisciplinary treatment plans, completed therapy and staff conferences. Instruction Mode: Lecture, Discussion Grading Option: Credit/No Credit

GPR 706b Treatment Planning
Units: 1 Terms Offered: Fa Residents lead seminars with case presentations of complex multidisciplinary treatment plans, completed therapy and staff conferences. Instruction Mode: Lecture, Discussion Grading Option: Credit/No Credit

GPR 706c Treatment Planning
Units: 1 Terms Offered: Sp Residents lead seminars with case presentations of complex multidisciplinary treatment plans, completed therapy and staff conferences. Instruction Mode: Lecture, Discussion Grading Option: Credit/No Credit

GPR 706d Treatment Planning
Units: 1 Terms Offered: Sp Residents lead seminars with case presentations of complex multidisciplinary treatment plans, completed therapy and staff conferences. Instruction Mode: Lecture, Discussion Grading Option: Credit/No Credit

GPR 710a Oral and Maxillofacial Surgery
Units: 1 Terms Offered: FaSpSm More advanced instruction in oral and maxillofacial surgery and related diseases as appropriate to the practice of general dentistry; extensive clinical experience. Instruction Mode: Lecture Grading Option: Credit/No Credit

GPR 710b Oral and Maxillofacial Surgery
Units: 1 Terms Offered: FaSpSm More advanced instruction in oral and maxillofacial surgery and related diseases as appropriate to the practice of general dentistry; extensive clinical experience. Instruction Mode: Lecture Grading Option: Credit/No Credit

GPR 710c Oral and Maxillofacial Surgery
Units: 1 Terms Offered: FaSpSm More advanced instruction in oral and maxillofacial surgery and related diseases as appropriate to the practice of general dentistry; extensive clinical experience. Instruction Mode: Lecture Grading Option: Credit/No Credit

GPR 710d Oral and Maxillofacial Surgery
Units: 1 Terms Offered: FaSpSm More advanced instruction in oral and maxillofacial surgery and related diseases as appropriate to the practice of general dentistry; extensive clinical experience. Instruction Mode: Lecture Grading Option: Credit/No Credit

GPR 711a Implantology
Units: 1 Terms Offered: FaSpSm Residents recognize the importance of implant dentistry and various implant systems and their restorative options. Instruction Mode: Lecture, Lab Grading Option: Credit/No Credit

GPR 711b Implantology
Units: 1 Terms Offered: FaSpSm Residents recognize the importance of implant dentistry and various implant systems and their restorative options. Instruction Mode: Lecture, Lab Grading Option: Credit/No Credit

GPR 722 Occlusion, TMJ Dysfunction, Orofacial Pain
Units: 1 Terms Offered: FaSpSm Residents review the important role that Occlusion plays in General Dentistry and neuromuscular problems of the head and neck. Instruction Mode: Lecture Grading Option: Credit/No Credit

GPR 733a Advanced and Maxillofacial Prosthodontics
Units: .5, Terms Offered: FaSpSm Residents train to treat patients requiring various types of removable and fixed prosthetics, including Maxillofacial prostheses. Instruction Mode: Lecture Grading Option: Credit/No Credit

GPR 733b Advanced and Maxillofacial Prosthodontics
Units: .5, Terms Offered: FaSpSm Residents train to treat patients requiring various types of removable and fixed prosthetics, including Maxillofacial prostheses. Instruction Mode: Lecture Grading Option: Credit/No Credit

GPR 733c Advanced and Maxillofacial Prosthodontics
Units: .5, Terms Offered: FaSpSm Residents train to treat patients requiring various types of removable and fixed prosthetics, including Maxillofacial prostheses. Instruction Mode: Lecture Grading Option: Credit/No Credit

GPR 733d Advanced and Maxillofacial Prosthodontics
Units: .5, Terms Offered: FaSpSm Residents train to treat patients requiring various types of removable and fixed prosthetics, including Maxillofacial prostheses. Instruction Mode: Lecture Grading Option: Credit/No Credit

Global Policy, Planning and Development

GPPD 500a Global Policy Challenges and Solutions
Units: 2 Consideration of current public policy issues through informed discourse and debate; analysis and policy arguments. Registration Restriction: Open only to Master of Global Public Policy majors Instruction Mode: Lecture Grading Option: Letter

GPPD 500b Global Policy Challenges and Solutions
Units: 2 Consideration of current public policy issues through informed discourse and debate; analysis and policy arguments *Prerequisite:* GPPD 500a Registration Restriction: Open only to Master of Global Public Policy majors Instruction Mode: Lecture Grading Option: Letter

GPPD 510 Economic Foundations for Public Policy
Units: 3 Microeconomic foundations; analysis of public sector problems; markets; producer and consumer theory; private and social efficiency. Registration Restriction: Open only to Master of Global Public Policy majors Instruction Mode: Lecture Grading Option: Letter

GPPD 520 Leadership in Public-Private Partnerships
Units: 2 Issues across public/private partnerships; leadership and followership in cross-sector settings; organizational and institutional designs; problem solving, negotiation and conflict resolution. Registration Restriction: Open only to Master of Global Public Policy majors Instruction Mode: Lecture Grading Option: Letter

GPPD 530 Art and Craft of Public Policy Analysis
Units: 1 Foundations of public policy as a profession, and develops basic skills in policy analytic reasoning, policy design, normative analysis and ethics, and argumentation. Registration Restriction: Open only to Master of Global Public Policy majors Instruction Mode: Lecture Grading Option: Letter

GPPD 540 Comparative Institutions and Policy Context
Units: 3 Theoretical and empirical foundations on how institutions affect policy performance; comparative institutional analysis and framework; approaches to organizing public action. Registration Restriction: Open only to Master of Global Public Policy majors Instruction Mode: Lecture Grading Option: Letter

GPPD 550 Quantitative Methods for Public Policy
Units: 3 Economic theory and statistical inference methods to estimate the relationship between economic, social and political variables; foundations of data-based argumentation, specifically in regards to public policy in an international context. Registration Restriction: Open only to Master of Global Public Policy majors Instruction Mode: Lecture Grading Option: Letter

GPPD 560 Methods for Policy Evaluation
Units: 3 Methods utilized in the analysis of public policy choices; ex ante and ex post analysis; cost-benefit analysis; decision and risk analysis; applied social science methods. Registration Restriction: Open only to Master of Global Public Policy majors. Instruction Mode: Lecture Grading Option: Letter

GPPD 570 Institutions and Policy Processes
Units: 3 Policy formulation and implementation in a comparative context and in the context of an East-West dichotomy. Registration Restriction: Open only to Master of Global Public Policy majors Instruction Mode: Lecture Grading Option: Letter

GPPD 580 Policy Challenges in International Development
Units: 3 Overview of the overarching issues of problem definition of "development" and the policy implications of new ideas for development as it faces a new set of challenges in an increasingly globalized, complex, and interconnected world. Registration Restriction: Open only to Master of Global Public Policy majors Instruction Mode: Lecture Grading Option: Letter

GPPD 600a Public Policy Capstone
Units: 1 Terms Offered: Sp Hands-on experience in policy analysis. Participants learn to work on a specific, client oriented public policy issue, assess policy alternatives, and write an official report. Registration Restriction: Open only to Master of Global Public Policy majors Instruction Mode: Lecture Grading Option: Letter

GPPD 600b Public Policy Capstone
Units: 2 Terms Offered: Sm Hands-on experience in policy analysis. Participants learn to work on a specific, client oriented public policy issue, assess policy alternatives, and write an official report. Registration Restriction: Open only to Master of Global Public Policy majors. Instruction Mode: Lecture Grading Option: Letter

Greek

GR 120 Greek I
Units: 4 Terms Offered: FaSp Essentials of classical Greek grammar and vocabulary. Instruction Mode: Lecture Grading Option: Letter

GR 150 Greek II
Units: 4 Terms Offered: FaSp Essentials of classical Greek grammar and vocabulary, continued. Basic reading skills. *Prerequisite:* GR 120. Instruction Mode: Lecture Grading Option: Letter

GR 220 Greek III
Units: 4 Terms Offered: FaSp Reading Greek literature. Introduction to reading and translation of classical Greek prose and poetry. Extensive grammar review. *Prerequisite:* GR 150. Instruction Mode: Lecture Grading Option: Letter

GR 345 Greek Tragic Poets
Units: 4 Selected plays of Aeschylus, Sophocles, and Euripides. Instruction Mode: Lecture Grading Option: Letter

GR 353 Plato
Units: 4 Readings from the Republic or other dialogues. Instruction Mode: Lecture Grading Option: Letter

GR 354 Greek Historians
Units: 4 Selections from such representative historians as Herodotus and Thucydides. Instruction Mode: Lecture Grading Option: Letter

GR 355 Aristophanes
Units: 4 A study of at least three comedies. Instruction Mode: Lecture Grading Option: Letter

GR 362 Homer and the Greek Epic
Units: 4 Selections from the Iliad and/or Odyssey. Problems of oral composition and transmission. Instruction Mode: Lecture Grading Option: Letter

GR 365 Greek Lyric Poetry
Units: 4 Readings from Archilochus, Sappho, Alcaeus, Pindar, and other lyric poets. *Prerequisite:* GR 220. Instruction Mode: Lecture Grading Option: Letter

GR 375 Plutarch
Units: 4 Readings of selected works by the Greek author Plutarch. *Prerequisite:* GR 220. Instruction Mode: Lecture Grading Option: Letter

GR 390 Special Problems
Units: 1, 2, 3, 4 Terms Offered: FaSp Supervised, individual studies. No more than one registration permitted. Enrollment by petition only. Instruction Mode: Lecture Grading Option: Letter

GR 450 Readings in Greek Literature
Units: 4 Max Units: 12.0 Readings in various authors and genres of Greek literature. *Prerequisite:* 300-level Greek course. Instruction Mode: Lecture Grading Option: Letter

GR 490x Directed Research
Units: 1, 2, 3, 4, 5, 6, 7, 8 Max Units: 12.0 Terms Offered: FaSp Individual research and readings. Instruction Mode: Lecture Grading Option: Letter

GR 499 Special Topics
Units: 2, 3, 4 Max Units: 8.0 Instruction Mode: Lecture Grading Option: Letter

Graduate Studies

GRSC 596 Internship for Curricular Practical Training
Units: 1 Max Units: 03 Terms Offered: FaSpSm Part-time or full-time, practical work experience in the student's field of study. The internship must be located at an off-campus facility. Students are individually supervised by faculty. May not be taken until the student has completed at least one semester of enrollment in the graduate program with a cumulative 3.0 GPA. Registration Restriction: Graduate standing. Instruction Mode: Lecture Grading Option: Credit/No Credit

GRSC 610 The Innovation Process: Development, Diffusion and Leadership
Units: 4 Terms Offered: Fa Exploration of general principles and evolution of innovation, theoretical perspectives on the innovation process, organizing and leadership for innovation, and practical tools for innovation development, diffusion, market acceptance, and business planning. Instruction Mode: Lecture Grading Option: Letter

GRSC 615 Disciplinary Perspectives on Innovation
Units: 4 Terms Offered: Fa A deeper understanding of the innovation process via a survey of various disciplines' approaches to the subject. Instruction Mode: Lecture Grading Option: Letter

GRSC 791 Directed Research
Units: 2 Terms Offered: FaSpSm Directed Studies in Academic Innovation. Instruction Mode: Lecture Grading Option: Credit/No Credit

GRSC 800a Studies for the Qualifying Examination
Units: 0 Terms Offered: FaSpSm Studies for the Qualifying Examination. Students may enroll once they have completed all other degree requirements. Instruction Mode: Lecture Grading Option: Credit/No Credit

GRSC 800b Studies for the Qualifying Examination
Units: 0 Terms Offered: FaSpSm Studies for the Qualifying Examination. Students may enroll once they have completed all other degree requirements. *Prerequisite:* GRSC 800a Instruction Mode: Lecture Grading Option: Credit/No Credit

GRSC 800z Studies for the Qualifying Examination
Units: 0 Terms Offered: FaSpSm Studies for the Qualifying Examination. Students may enroll once they have completed all other degree requirements. *Prerequisite:* GRSC 800b Instruction Mode: Lecture Grading Option: Credit/No Credit

GRSC 810 Studies for Master's Examination
Units: 0 Terms Offered: FaSpSm *Prerequisite:* completion of all course work for the master's degree. Permission of the Graduate School. Instruction Mode: Lecture Grading Option: Non-Graded

GRSC 850a The Professoriate: Preparing for the Future
Units: 2 Terms Offered: FaSp Preparation for academic careers: various methodologies and approaches to teaching, learning, assessment, and research; statements of research and teaching philosophies; creation of online academic portfolio. Instruction Mode: Lecture Grading Option: Non-Graded

GRSC 850b The Professoriate: Preparing for the Future
Units: 2 Terms Offered: FaSp Preparation for academic careers: various methodologies and approaches to teaching, learning, assessment, and research; statements of research and teaching philosophies; creation of online academic portfolio. Instruction Mode: Lecture Grading Option: Credit/No Credit

Graduate School of Business Administration

GSBA 501 The Role of the Manager
Units: 3 Terms Offered: FaSp Fundamental roles of a manager and skill sets necessary to performing these roles. Open only to online MBA students. Registration Restriction: Open only to online MBA students. Instruction Mode: Lecture Grading Option: Letter

GSBA 502 Management Communication for Leaders
Units: 3 Terms Offered: Fa Integrates leadership theory and practice with communication skills to improve individual, team, and organizational performance. Emphasizes interpersonal, presentation, and writing skills; teamwork; and value-based leadership. Duplicates Credit in GSBA 523, GSBA 542 and the former GSBA 502ab. Open only to master's students. Instruction Mode: Lecture Grading Option: Letter

GSBA 503 Contemporary Issues in Competitive Global Strategy
Units: 1.5 Terms Offered: Sp Concepts and tools that help frame strategic issues in a multi-industry and global context. Craft strategies, position businesses and assets, and define firm boundaries. Registration Restriction: Open only to master's degree students Duplicates Credit in the former GSBA 580b and GSBA 582a Instruction Mode: Lecture Grading Option: Letter

GSBA 504a Operations Management
Units: 1.5 Terms Offered: Fa Formulation, modeling, analysis, and optimization of business decision problems; survey of concepts and techniques necessary to manage the operations function of a firm. Duplicates Credit in GSBA 534 and former GSBA 504. Instruction Mode: Lecture Grading Option: Letter

GSBA 504b Operations Management
Units: 1.5 Terms Offered: Fa Formulation, modeling, analysis, and optimization of business decision problems; survey of concepts and techniques necessary to manage the operations function of a firm. Duplicates Credit in GSBA 534 and former GSBA 504. Instruction Mode: Lecture Grading Option: Letter

GSBA 505 Fundamentals of Business
Units: 10 Terms Offered: FaSpSm Fundamentals of financial accounting, microeconomics, statistics, analytics and communication. *Prerequisite:* GSBA 501. Registration Restriction: Open only to online MBA students. Duplicates Credit in GSBA 506a, GSBA 506b, GSBA 510, GSBA 511, GSBA 516, GSBA 524, and GSBA 545. Instruction Mode: Lecture Grading Option: Letter

GSBA 506a Applied Managerial Statistics
Units: 1.5 Terms Offered: FaSpSm Principles of probability theory and classical statistics applied to business decision problems; survey analysis, estimation and prediction methods, evaluation, and control techniques. Duplicates Credit in GSBA 524, GSBA 516, GSBA 545. Instruction Mode: Lecture Grading Option: In-progress to Letter Grade

GSBA 506b Applied Managerial Statistics
Units: 1.5 Terms Offered: FaSpSm Principles of probability theory and classical statistics applied to business decision problems; survey analysis, estimation and prediction methods, evaluation, and control techniques. Duplicates Credit in GSBA 524, GSBA 516, GSBA 545. Instruction Mode: Lecture Grading Option: Letter

GSBA 507 Organizational Behavior
Units: 2 Terms Offered: Sp Study of human thought, motives, and behaviors in business settings. Explore how organizational structures and decisions can help to determine how human beings will respond. Registration Restriction: Open only to master students Duplicates Credit in GSBA 522a, GSBA 522b, GSBA 532, GSBA 533 and GSBA 543 Instruction Mode: Lecture Grading Option: Letter

GSBA 509 Marketing Management
Units: 1.5 Terms Offered: Fa Development of analytical, strategic, and planning skills. Application within an integrated strategic framework to the development of a comprehensive marketing plan for a product, service, and/or organization. Registration Restriction: Open only to master students Duplicates Credit in the former GSBA 509ab, GSBA 528 and GSBA 546 Instruction Mode: Lecture Grading Option: Letter

GSBA 510 Accounting Concepts and Financial Reporting
Units: 1.5, 2, 3 Terms Offered: Fa Information systems for public reporting and for management decision-making; theory of asset and income measurement; interpretation and uses of accounting data and financial statements; analysis of cases. Instruction Mode: Lecture Grading Option: Letter

GSBA 511 Microeconomics for Management
Units: 1.5, 3 Terms Offered: Fa Microeconomic theory with business applications; consumer demand, production theory, cost theory, and market theory; decision-making within the firm under different market and regulatory environments. Instruction Mode: Lecture Grading Option: Letter

GSBA 513 Interpersonal and Team Communication
Units: 1 Terms Offered: Sp Develop interpersonal effectiveness and leadership capacity when working within, across and outside an organization. Registration Restriction: Open only to master students Duplicates Credit in GSBA 502, GSBA 523, GSBA 523 and GSBA 542 Instruction Mode: Lecture Grading Option: Letter

GSBA 514 Leadership Communication Styles and Strategies
Units: 1 Terms Offered: Sm In-depth focus on managerial communication motivation and styles. Implications of leadership communication strategy and practice. Evaluate strategies and emerging tools to facilitate collaboration. Duplicates credit in GSBA 502, GSBA 523, GSBA 523, and GSBA 542. Registration Restriction: Open only to master students Duplicates Credit in GSBA 502, GSBA 523, GSBA 523, GSBA 542 Instruction Mode: Lecture Grading Option: Letter

GSBA 515 Communicating Professional Presence
Units: 1 Terms Offered: Sp Acquire the skills necessary to exhibit the elusive quality of professional presence. Exhibit credible competence. Handle impromptu speaking. Presentation messaging. Duplicates credit in GSBA 502, GSBA 523, GSBA 523, and GSBA 542. Registration Restriction: Open only to master students Duplicates Credit in GSBA 502, GSBA 523, GSBA 523, GSBA 542 Instruction Mode: Lecture Grading Option: Letter

GSBA 516 Essentials of Data Analysis and Modeling
Units: 1.5 Terms Offered: Fa Data collection, data analysis, and critical understanding of the role of data in making business decisions. Ways to quantify uncertainty and model decision problems. Duplicates Credit in GSBA 506a, GSBA 506b and GSBA 524. Instruction Mode: Lecture Grading Option: Letter

GSBA 518 Accounting Control Systems
Units: 3 Terms Offered: FaSpSm Accumulation and interpretation of accounting data by management; profit planning; analysis of operations; systems for control of production and distribution costs; cost and profit centers for decentralized control. *Recommended Preparation:* GSBA 510 Duplicates Credit in ACCT 509, ACCT 535, GSBA 536 Instruction Mode: Lecture Grading Option: Letter

GSBA 519a Strategic Formulation for Competitive Advantage
Units: 1.5 Terms Offered: FaSm Analyses of environments and competition, the basis of competitive strategy, strategy models, and the achievement of sustainable competitive advantage. Duplicates Credit in GSBA 529

and GSBA 540. Instruction Mode: Lecture Grading Option: Letter

GSBA 519b Strategic Formulation for Competitive Advantage
Units: 1.5 Terms Offered: FaSm Analyses of environments and competition, the basis of competitive strategy, strategy models, and the achievement of sustainable competitive advantage. Duplicates Credit in GSBA 529 and GSBA 540. Instruction Mode: Lecture Grading Option: Letter

GSBA 520 Business Fundamentals for Non-Business Professionals
Units: 3, 4 Terms Offered: FaSp An overview of concepts, tools and principles of business management to develop a general management point of view. Open only to non-business graduate students. Registration Restriction: Open only to non-business graduate students. Instruction Mode: Lecture Grading Option: Letter

GSBA 521a Corporate Finance
Units: 1.5 Terms Offered: Fa Basic principles of corporate finance; theory and application; management of short-term and long-term assets; financial instruments and markets; financial policy applications. *Recommended Preparation:* GSBA 510. Duplicates Credit in GSBA 548 and the former GSBA 521. Instruction Mode: Lecture Grading Option: Letter

GSBA 521b Corporate Finance
Units: 1.5 Terms Offered: Fa Basic principles of corporate finance; theory and application; management of short-term and long-term assets; financial instruments and markets; financial policy applications. *Recommended Preparation:* GSBA 510. Duplicates Credit in GSBA 548 and the former GSBA 521. Instruction Mode: Lecture Grading Option: Letter

GSBA 522a Managerial Perspectives
Units: 1.5 Terms Offered: FaSp Managerial careers, development of critical executive and managerial abilities, and the dynamics of organizational environment and systems as they impact managerial progression and work. Graded IP. Registration Restriction: Open only to master students Duplicates Credit in GSBA 507, GSBA 533 and GSBA 543 Instruction Mode: Lecture Grading Option: In Progress to Letter

GSBA 522b Managerial Perspectives
Units: 1.5 Terms Offered: FaSp Managerial careers, development of critical executive and managerial abilities, and the dynamics of organizational environment and systems as they impact managerial progression and work. Duplicates Credit in GSBA 507, GSBA 533 and GSBA 543 Instruction Mode: Lecture Grading Option: Letter

GSBA 523 Communication for Management
Units: 2, 3 Terms Offered: FaSp Internal and external communication, research methods; reports for decision-making; oral presentations and briefings; strategies to assure communication; field studies. Duplicates Credit in GSBA 502, GSBA 542 and the former GSBA 502ab. Instruction Mode: Lecture Grading Option: Letter

GSBA 523T Communication for Accounting and Tax Professionals
Units: 3 Communication strategies to ensure effective communication to internal and external business audiences at all levels; business writing and presentations; electronic communication; communicating ethics in business. Open only to accounting, business taxation, law/business, and taxation majors. Duplicates Credit in GSBA 502, the former GSBA 502b, GSBA 523 and GSBA 542. Instruction Mode: Lecture Grading Option: Letter

GSBA 524 Data Science for Business
Units: 2, 3 Terms Offered: Fa Principles of probability theory and classical statistics applied to business decision problems; survey analysis, estimation and prediction methods, evaluation, and control techniques. Registration Restriction: Open only to master students Duplicates Credit in GSBA 506a, GSBA 506b, GSBA 516, GSBA 545 Instruction Mode: Lecture Grading Option: Letter

GSBA 525 Introduction to Management and Strategy
Units: 1 Terms Offered: Fa Introduction to the concepts, tools, and first principles of strategy formulation and competitive analysis. Registration Restriction: Open only to MBA.PM students Instruction Mode: Lecture Grading Option: Credit/No Credit

GSBA 527 Structured Analysis for Unstructured Problems
Units: 1, 1.5 Terms Offered: Fa Development and application of critical thinking principles and creative problem-solving skills to solve difficult business and societal problems. Instruction Mode: Lecture Grading Option: Letter

GSBA 528 Marketing Management
Units: 3 Terms Offered: FaSpSm Marketing is treated as a managerial decision-making process. Emphasis is given to understanding the concepts, tools, and techniques that comprise a comprehensive marketing strategy. Registration Restriction: Open only to master students Duplicates Credit in GSBA 509, the former GSBA 509ab, and GSBA 546 Instruction Mode: Lecture Grading Option: Letter

GSBA 529 Strategic Formulation for Competitive Advantage
Units: 3 Terms Offered: FaSpSm Analyses of environments and competition, the bases of competitive strategy, strategy models, and the achievement of sustainable competitive advantage. Duplicates Credit in GSBA 519a, GSBA 519b and GSBA 540 Instruction Mode: Lecture Grading Option: Letter

GSBA 533 Organizational Behavior and Leadership
Units: 1.5 Terms Offered: FaSp Maximize organizational effectiveness through managing team and individual processes. Topics may include ethics, decision making, motivation, power and influence, organizational culture and change, negotiation. Registration Restriction: Open only to graduate students Duplicates Credit in GSBA 507, GSBA 522a, GSBA 522b, GSBA 543 Instruction Mode: Lecture Grading Option: Letter

GSBA 534 Operations Management
Units: 2, 3 Terms Offered: FaSpSm Formulation, modeling, analysis, and optimization of business decision problems; survey of concepts and techniques necessary to manage the operations function of the firm. *Recommended Preparation:* GSBA 506b or GSBA 524 or GSBA 516 and GSBA 545. Duplicates Credit in GSBA 504a, GSBA 504b. Instruction Mode: Lecture Grading Option: Letter

GSBA 535 Opportunity Recognition and Implementation
Units: 9.5 Terms Offered: FaSpSm Thematic exploration of entrepreneurship and key aspects of new venture development. Contract law, analytics, negotiations, and communication. *Prerequisite:* GSBA 505 Registration Restriction: Open only to Marshall Online MBA students Duplicates Credit in BAEP 549, BAEP 550, BAEP 551, GSBA 550a and GSBA 550b. Instruction Mode: Lecture Grading Option: Letter

GSBA 536 Accounting for Management Decision Making
Units: 2 Terms Offered: Sp The development, presentation and understanding of accounting information useful to managers. Techniques and best practices which, combined with accounting information, support enhanced management decision-making. Registration Restriction: Open only to master students Duplicates Credit in ACCT 509, ACCT 535, GSBA 518, GSBA 537 Instruction Mode: Lecture Grading Option: Letter

GSBA 537 Managing Inside the Firm
Units: 9.5 Terms Offered: FaSpSm Thematic exploration of managerial accounting, employment law, operations management and organizational behavior. Application of analytics and communication to optimize internal operations. *Prerequisite:* GSBA 505 Registration Restriction: Open only to online MBA students Duplicates Credit in GSBA 504, GSBA 504a, GSBA 504b, GSBA 518, GSBA 522a, GSBA 522b, GSBA 532 , GSBA 533, GSBA 534, GSBA 536, GSBA 543 Instruction Mode: Lecture Grading Option: Letter

GSBA 538 Managing Outside the Firm
Units: 9.5 Terms Offered: FaSpSm Thematic exploration of operations management, corporate finance, marketing, and microeconomics. Coordinating production processes, marketing strategies, and corporate financial plans in order to maximize growth. *Prerequisite:* GSBA 505, GSBA 509 Registration Restriction: Open only to online MBA students. Duplicates Credit in GSBA 506a, GSBA 506b, GSBA 509, GSBA 509a, GSBA 509b, GSBA 511, GSBA 521a, GSBA 521b, GSBA 528, GSBA 534, and GSBA 548. Instruction Mode: Lecture Grading Option: Letter

GSBA 539 Business Environment and Leadership
Units: 9.5 Terms Offered: FaSpSm Thematic exploration of finance, macroeconomics, international business, corporate strategy, and marketing strategy. *Prerequisite:* GSBA 505. Registration Restriction: Open only to online MBA students. Duplicates Credit in GSBA 519a, GSBA 519b, GSBA 521a, GSBA 521b, GSBA 529, GSBA 540, GSBA 548, GSBA 580a, and GSBA 580b. Instruction Mode: Lecture Grading Option: Letter

GSBA 540 Contemporary Issues in Competitive Strategy
Units: 1.5 Terms Offered: FaSp Introduces the role industry and competitive analysis serves in an organization. Topics covered include global competition, innovation, the

use of standards, competence, and building organizational capabilities to sustain competitive advantage. Duplicates Credit in GSBA 519a, GSBA 519b and GSBA 529. Instruction Mode: Lecture Grading Option: Letter

GSBA 541 Foundations of Your Professional Value
Units: .5 Terms Offered: Fa Foundational knowledge to discover, identify and leverage the professional value each person brings to today's job market. Registration Restriction: Open only to master students Instruction Mode: Lecture Grading Option: Credit/No Credit

GSBA 542 Communication for Management
Units: 1.5 Terms Offered: Fa Internal and external communication, research methods, reports for decision-making, oral presentations and briefings, strategies to assure communication; field studies. Duplicates Credit in GSBA 502, GSBA 523, GSBA 523T and the former GSBA 502ab. Instruction Mode: Lecture Grading Option: Letter

GSBA 543 Managerial Perspectives
Units: 3 Terms Offered: Sp Managerial careers, development of critical executive and managerial abilities, and the dynamics of organizational environment and systems as they impact managerial progression and growth. Registration Restriction: Open only to master students Duplicates Credit in GSBA 507, GSBA 522a, GSBA 522b, GSBA 533 Instruction Mode: Lecture Grading Option: Letter

GSBA 544 The Firm in the Global Economy
Units: 1.5 Terms Offered: Fa The economic environment of business and the forces influencing the firm. Duplicates Credit in GSBA 549 Instruction Mode: Lecture Grading Option: Letter

GSBA 545 Data Driven Decision Making
Units: 1.5 Terms Offered: Fa Data analysis technologies for business decision making; principles and techniques of statistical inference for business problem solving; foundations of data-driven regression and time series analytics. Duplicates Credit in GSBA 506ab and GSBA 524. Instruction Mode: Lecture Grading Option: Letter

GSBA 546 Strategic Marketing Management
Units: 2 Terms Offered: Sp Principles of marketing in a global marketplace. Skills and knowledge required to effectively conduct comprehensive and insightful analyses and develop effective marketing strategies. Registration Restriction: Open only to master students Duplicates Credit in GSBA 509 and GSBA 528 Instruction Mode: Lecture Grading Option: Letter

GSBA 548 Corporate Finance
Units: 2, 3 Terms Offered: FaSpSm Modern theory of corporate investment and financing decisions. Registration Restriction: Open only to graduate students Duplicates Credit in GSBA 521a and GSBA 521b Instruction Mode: Lecture Grading Option: Letter

GSBA 549 The Firm in the National and International Economy
Units: 3 Terms Offered: Sp The economic environment of business and international forces influencing the firm. Duplicates Credit in former GSBA 526 and GSBA 544. Instruction Mode: Lecture Grading Option: Letter

GSBA 550a Entrepreneurship
Units: .5 Terms Offered: Fa Fundamentals of entrepreneurship. Understanding the new venture creation process. Duplicates Credit in BAEP 549 and BAEP 550 and BAEP 551 Instruction Mode: Lecture Grading Option: In Progress to Letter

GSBA 550b Entrepreneurship
Units: 1 Terms Offered: Sp Fundamentals of entrepreneurship. Understanding the new venture creation process. *Prerequisite:* GSBA 550a Duplicates Credit in BAEP 549 and BAEP 550 and BAEP 551 Instruction Mode: Lecture Grading Option: Letter

GSBA 552 Problem Solving and Decision Making: An Integrative Approach
Units: 2 Terms Offered: Fa An integrative, multi-disciplined and immersion-based approach to addressing unstructured business situations and imperfect data using a variety of analytical tools and critical thought processes. Instruction Mode: Lecture Grading Option: Letter

GSBA 555 Management and Organization of the Creative Industries
Units: 3 Terms Offered: Sp How creative industries (motion pictures, television, publishing, radio, music, arts, games) operate and are organized. Critical discussion of pressing issues that these industries face. Registration Restriction: Online registration open only to graduate business and accounting students Instruction Mode: Lecture Grading Option: Letter

GSBA 560 The Perspective of Top Management
Units: 2 Terms Offered: Fa Using cases, students are introduced to top management issues of executive leadership, environmental and strategic analysis, use of financial statements, organizational assessment and design, technology management and decision support systems. Instruction Mode: Lecture Grading Option: Credit/No Credit

GSBA 561 Evaluating Market Performance
Units: 9 Terms Offered: Fa Evaluation of the firm by the market forces that affect its success; financial accounting and reporting; competitive market analysis; external communication; microeconomics; labor, customer and financial markets, statistical and decision analysis, financial and organization measures of effectiveness. Instruction Mode: Lecture Grading Option: Letter

GSBA 562 Management of Operations
Units: 11 Analysis of operations management and business functions; managerial accounting; finance; marketing; production; data processing and information systems; human resources management. Instruction Mode: Lecture Grading Option: Letter

GSBA 562a Management of Operations
Units: 1 Terms Offered: Fa Analysis of operations management and business functions; managerial accounting; finance; marketing; production; data processing and information systems; human resources management. Duplicates Credit in GSBA 562. Instruction Mode: Lecture Grading Option: In-progress to Letter Grade

GSBA 562b Management of Operations
Units: 10 Terms Offered: Sp Analysis of operations management and business functions; managerial accounting; finance; marketing; production; data processing and information systems; human resources management. Duplicates Credit in GSBA 562. Instruction Mode: Lecture Grading Option: Letter

GSBA 563 Technology and Information Systems Management
Units: 6 Impact of technology on organizations; new product development; investment decisions and capital budgeting; decision support systems, expert systems; information technology; organizational design; management of information systems. Instruction Mode: Lecture Grading Option: Letter

GSBA 563a Technology and Information Systems Management
Units: 2 Terms Offered: Sp Impact of technology on organizations; new product development; investment decisions and capital budgeting; decision support systems, expert systems; information technology; organizational design; management of information systems. Duplicates Credit in GSBA 563. Instruction Mode: Lecture Grading Option: In-progress to Letter Grade

GSBA 563b Technology and Information Systems Management
Units: 4 Terms Offered: Sp Impact of technology on organizations; new product development; investment decisions and capital budgeting; decision support systems, expert systems; information technology; organizational design; management of information systems. Duplicates Credit in GSBA 563. Instruction Mode: Lecture Grading Option: Letter

GSBA 564 Functional Strategies and Implementation
Units: 2 Terms Offered: Sm Developing functional strategies and interdependence to achieve organizational goals; negotiations, conflict resolution; communication strategies; organizational effectiveness; implementation and change strategies; self-assessment and individual presentations. Instruction Mode: Lecture Grading Option: Letter

GSBA 570 The Role of the Senior Executive
Units: 2 Terms Offered: Fa Introduction to strategic management; executive leadership; environmental analysis; international context; financial growth strategies; social, legal and macroeconomic issues; role of CEO with boards, media and other publics; business ethics, strategic planning project. Instruction Mode: Lecture Grading Option: Credit/No Credit

GSBA 571 Environmental Analysis: Establishing Competitive Advantage
Units: 9 Terms Offered: Fa Development of strategic planning processes; analysis of economic, social, political environment; forecasting; futures research; macroeconomics; international economics; technological developments; multinational management simulation; field projects.

Instruction Mode: Lecture Grading Option: Letter

GSBA 572 Strategic Planning for Growth
Units: 11 Formulation and implementation of strategies in different organizational and environmental contexts; financial growth strategies; comparative management; impact of taxation; technology strategies; product development and new market strategies. Instruction Mode: Lecture Grading Option: Letter

GSBA 572a Strategic Planning for Growth
Units: 3 Terms Offered: Fa Formulation and implementation of strategies in different organizational and environmental contexts; financial growth strategies; comparative management; impact of taxation; technology strategies; product development and new market strategies. Duplicates Credit in GSBA 572. Instruction Mode: Lecture Grading Option: In-progress to Letter Grade

GSBA 572b Strategic Planning for Growth
Units: 8 Terms Offered: Sp Formulation and implementation of strategies in different organizational and environmental contexts; financial growth strategies; comparative management; impact of taxation; technology strategies; product development and new market strategies. Duplicates Credit in GSBA 572. Instruction Mode: Lecture Grading Option: Letter

GSBA 573 Managing Strategic Change and Implementation
Units: 6 Management of the strategic change process for the total organization including implementing growth strategies, use of consultants, corporate governance, implementation in a multinational environment, leadership and power, use of technology, innovation, corporate cultures, executive succession, corporate relations. Instruction Mode: Lecture Grading Option: Letter

GSBA 573a Managing Strategic Change and Implementation
Units: 5 Terms Offered: Sp Management of the strategic change process for the total organization including implementing growth strategies, use of consultants, corporate governance, implementation in a multinational environment, leadership and power, use of technology, innovation, corporate cultures, executive succession, corporate relations. Duplicates Credit in GSBA 573. Instruction Mode: Lecture Grading Option: In-progress to Letter Grade

GSBA 573b Managing Strategic Change and Implementation
Units: 1 Terms Offered: Sm Management of the strategic change process for the total organization including implementing growth strategies, use of consultants, corporate governance, implementation in a multinational environment, leadership and power, use of technology, innovation, corporate cultures, executive succession, corporate relations. Duplicates Credit in GSBA 573. Instruction Mode: Lecture Grading Option: Letter

GSBA 574 The Executive of the Future
Units: 2 Terms Offered: Sm Forecasting future environments; the role of the executive in the future, changing organizations; executive development; personal development goal setting. Instruction Mode: Lecture Grading Option: Letter

GSBA 580 The Global Context of Business - PRIME
Units: 2 Terms Offered: Sp Impact of political, economic, and cultural factors on business performance and industry structure in a global context. PRIME. Requires international travel. Registration Restriction: Open only to full time MBA students Duplicates Credit in GSBA 580c, GSBA 582b, and the former GSBA 582 Instruction Mode: Lecture Grading Option: Letter

GSBA 581 Technology Innovation and Management
Units: 1.5 Terms Offered: Sm The synergistic use of technology innovation and management to improve organizational performance, enhance competitiveness, and create leadership opportunities. Duplicates Credit in former GSBA 581a and former GSBA 581b Instruction Mode: Lecture Grading Option: Letter

GSBA 582 The Global Context and International Business
Units: 1.5 Terms Offered: Sp Impact of political, economic, social/cultural and institutional factors on business performance and industry structure in a global context. GLOBE. Requires international travel. *Recommended Preparation:* MBA.PM core courses Registration Restriction: Open only to MBA.PM students Duplicates Credit in GSBA 582b and GSBA 580c Instruction Mode: Lecture Grading Option: Letter

GSBA 583 The Global Context of Business (IELP)
Units: 2 Terms Offered: Fa The economic and political realities of cross-border commerce in the 21st century. IELP. Requires international travel. *Recommended Preparation:* IBEAR MBA first term required courses Registration Restriction: Registration restricted to students in the International MBA program Instruction Mode: Lecture Grading Option: Letter

GSBA 584a International Business Consulting Project
Units: 2 Terms Offered: SpSm IBEAR team consulting projects addressing international business problems. Projects culminate in written and oral presentations to corporate clients. Registration Restriction: Open only to IBEAR MBA students Instruction Mode: Lecture Grading Option: In Progress to Letter

GSBA 584b International Business Consulting Project
Units: 1 Terms Offered: FaSp Continuation of GSBA 584a. *Prerequisite:* GSBA 584a Registration Restriction: Open only to IBEAR MBA students Instruction Mode: Lecture Grading Option: Letter

GSBA 590 Directed Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Terms Offered: FaSpSm Research leading to the master's degree. Maximum units which may be applied to the degree to be determined by the department. Instruction Mode: Lecture Grading Option: Credit/No Credit

GSBA 592 Field Research in Business
Units: 0.5, 1, 1.5, 2, 2.5, 3.0, 3.5, 4 Max Units: 12.0 Terms Offered: FaSpSm Individual or team projects studying the business practices of an industry, company, government agency, country, geographic region, etc. Proposal, data collection, analyses, and written report. *Recommended Preparation:* completion of required MBA, MAcc., or MBT course work. Registration Restriction: Open only to master and doctoral students Instruction Mode: Lecture Grading Option: Credit/No Credit

GSBA 593 Independent Research in Business
Units: 0.5, 1, 1.5, 2, 2.5, 3.0, 3.5, 4, Max Units: 12.0 Terms Offered: FaSpSm Independent research beyond normal course offerings. Proposal, research and written report/paper required. Open only to master's students. Registration Restriction: Open only to masters students. Instruction Mode: Lecture Grading Option: Credit/No Credit

GSBA 595 Internship in Business
Units: 0.5, 1, 1.5, 2 Max Units: 9.0 Terms Offered: FaSpSm Supervised on-the-job business experience in the student's area of interest. (Curricular Practical Training.) *Recommended Preparation:* Completion of required MBA, MAcc., or MBT course work. Registration Restriction: Open only to master students in Accounting and Business majors Instruction Mode: Lecture Grading Option: Credit/No Credit

GSBA 596 Research Practicum in Business
Units: 0.5-2, Max Units: 8.0 Terms Offered: FaSpSm Hands-on practical experience working with a Marshall faculty member on an ongoing research project. *Recommended Preparation:* completion of courses required for the MBA, MAcc., MBT, or PhD Registration Restriction: Open only to masters and doctoral students. Instruction Mode: Lecture Grading Option: Credit/No Credit

GSBA 597 Consulting Project in Business
Units: 0.5, 1, 1.5, 2, 2.5, 3, 3.5, 4, 4.5, 5 Max Units: 12.0 Terms Offered: FaSpSm Individual or team project solving real business problems for an existing business entity, domestic and/or international. Proposal, field research, analyses and oral and written presentations. Registration Restriction: Open only to Master and Doctoral Students. Instruction Mode: Lecture Grading Option: Credit/No Credit

GSBA 598 Special Topics
Units: 1, 1.5, 2, 3 Max Units: 09 Terms Offered: Irregular Selected topics reflecting current trends and recent developments in business administration. Graded CR/NC. Registration Restriction: Online registration open to only graduate accounting and business majors. Instruction Mode: Lecture Grading Option: Credit/No Credit

GSBA 599 Special Topics
Units: 1, 1.5, 2, 3 Max Units: 09 Terms Offered: Irregular Selected topics reflecting current trends and recent developments in business administration. Emphasis on cross-disciplinary inquiry. Registration Restriction: Online registration open to only graduate accounting and business students. Instruction Mode: Lecture Grading Option: Letter

GSBA 602 Selected Issues in Economic Theory I
Units: 3 Terms Offered: Fa Methodology and research perspectives of economics; contribution of the economics paradigm to accounting, management, finance, marketing, and decision sciences. *Recommended Preparation:* admission to doctoral program in business administration or department approval. Instruction Mode: Lecture Grading Option: Letter

GSBA 603 Causal Inference Research Methods
Units: 3 Terms Offered: Sp Contemporary approaches to causal inference in observational data for applied research in the social sciences. *Recommended Preparation:* one semester of graduate level econometrics and knowledge of STATA and R Registration Restriction: Open only to doctoral students Instruction Mode: Lecture Grading Option: Letter

GSBA 604 Regression and Generalized Linear Models for Business Applications
Units: 3 Terms Offered: Sp Theory and application of linear regression models; role of substantive theory in statistical model building; model specification, estimation, diagnostic checking; the general linear hypothesis. Instruction Mode: Lecture Grading Option: Letter

GSBA 610 Seminar in Business Research
Units: 3 Max Units: 9.0 Terms Offered: Irregular Critical analysis of research studies in the functional areas of business; practice in formulating and conducting research; presentation of original research of publishable quality (may be repeated for credit up to 9 units). Instruction Mode: Lecture Grading Option: Letter

GSBA 611 Seminar in Research Methodology
Units: 3 Terms Offered: FaSpSm Conceptual foundations of research methodology; survey and research design; measurement theory; advanced techniques of statistical investigation; data analysis using computer packages; preparation of research reports. Instruction Mode: Lecture Grading Option: Letter

GSBA 612 Selected Issues in Economic Theory II
Units: 3 Terms Offered: Sp Further investigation of selected topics in methodology and research perspectives of economics. Topics vary in response to new developments and current trends in the field. *Prerequisite:* GSBA 602. Instruction Mode: Lecture Grading Option: Letter

GSBA 625 Experimental Design and Analysis for Behavioral Science
Units: 3 Terms Offered: Fa Introduction to design, implementation and analyses of experiments. Designing experimental procedures (manipulations, measurements). Analyzing ANOVAs with manipulated and measured factors, mediation, reliability and discrimination analyses. Registration Restriction: Open only to doctoral students Instruction Mode: Lecture Grading Option: Letter

GSBA 690 Tutorial on the Research Process
Units: 3 Max Units: 9.0 Terms Offered: Sp Gain an understanding of the research process, identify/generate a research question, collect and organize data, predict results, and critically write and present the results. *Recommended Preparation:* GSBA first year PhD course work. Instruction Mode: Lecture Grading Option: Credit/No Credit

GSBA 790 Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Research leading to the doctorate. Maximum units which may be applied to the degree to be determined by the department. Instruction Mode: Lecture Grading Option: Credit/No Credit

GSBA 794a Doctoral Dissertation
Units: 2 Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

GSBA 794b Doctoral Dissertation
Units: 2 Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

GSBA 794c Doctoral Dissertation
Units: 2 Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

GSBA 794d Doctoral Dissertation
Units: 2 Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

GSBA 794z Doctoral Dissertation
Units: 0 Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

Global Security

GSEC 501 Foundations of Global Security
Units: 4 A survey of theories and challenges relating to International Relations and security studies broadly defined from WWI to present conflicts including human, environmental and economic concepts. Registration Restriction: Open only to master students Instruction Mode: Lecture Grading Option: Letter

GSEC 502 Global Governance and Globalization
Units: 4 Exploring competing perspectives on globalization and global governance, the sources and consequences of global power and authority, and the key actors, institutions, regimes and norms. Registration Restriction: Open only to master students Instruction Mode: Lecture Grading Option: Letter

GSEC 503 Economic Analysis and Global Policy Issues
Units: 4 Focuses on economic globalization from its post-World War II origins to its late 20th century heights and 21st century threats to its survival. Registration Restriction: Open only to master students Instruction Mode: Lecture Grading Option: Letter

GSEC 504 Research Design for Policy Evaluation
Units: 4 Discussion of the logic of research design - the question, theory, data and methods to analyse data and the design of studies answering causal questions. Registration Restriction: Open only to master students Instruction Mode: Lecture Grading Option: Letter

GSEC 505 Statistics for Policy Evaluation
Units: 4 An introduction to the use of regression analysis and its application to public policy, political science and economic research. Registration Restriction: Open only to master students Instruction Mode: Lecture Grading Option: Letter

GSEC 510 Security and Global Governance
Units: 4 Major theoretical approaches to the study of war; focus is on recent issues in security studies. Registration Restriction: Open only to master students Instruction Mode: Lecture Grading Option: Letter

GSEC 511 Transnational Crime and Global Illicit Networks
Units: 4 Introduction to and overview of transnational organized crime; its effects on international security, political, social and economic development of countries around the world. Registration Restriction: Open only to master students Instruction Mode: Lecture Grading Option: Letter

GSEC 521 Human Security and Humanitarian Intervention
Units: 4 Explore causes of human security threats, challenges to state sovereignty and actions to address failed states, conflicts and protect people through humanitarian intervention. Registration Restriction: Open only to master students Instruction Mode: Lecture Grading Option: Letter

GSEC 522 Global Human Rights
Units: 4 Explores competing conceptions of human rights, whether human rights are universal, problems of enforcement and the role of human rights in foreign policy. Registration Restriction: Open only to master students Instruction Mode: Lecture Grading Option: Letter

GSEC 523 Emerging Economies in Global Governance
Units: 4 The economic rise of four leading emerging economies, their impact on international economic institutions and the implications for global economic governance. Registration Restriction: Open only to master students Instruction Mode: Lecture Grading Option: Letter

GSEC 524 Global Health Governance and Security
Units: 4 An introduction to concepts, history, policy and practice of global health governance and an examination of social science and scientific frameworks for health security. Registration Restriction: Open only to master students Instruction Mode: Lecture Grading Option: Letter

Geriatric and Special Patient Dentistry

GSPD 504 Dental Treatment of the Geriatric and Special Patient
Units: 2 Social, psychological, economic and health factors which influence dental care for the geriatric and special patient populations; specific considerations and modifications of conventional dental treatment. Instruction Mode: Lecture Grading Option: Letter

GSPD 562a Clinic: Geriatric Dentistry
Units: 0 Clinical experience in dental treatment of geriatric patients at an

extramural site. Instruction Mode: Lecture Grading Option: In-progress to Letter Grade

GSPD 562b Clinic: Geriatric Dentistry
Units: 0 Clinical experience in dental treatment of geriatric patients at an extramural site. Instruction Mode: Lecture Grading Option: In-progress to Letter Grade

GSPD 562c Clinic: Geriatric Dentistry
Units: 1 Clinical experience in dental treatment of geriatric patients at an extramural site. Instruction Mode: Lecture Grading Option: Letter

GSPD 563a Clinic: Special Patient Care
Units: 0 Clinical experience in treatment of the physically, medically, or mentally disabled patient. Instruction Mode: Lecture Grading Option: In-progress to Letter Grade

GSPD 563b Clinic: Special Patient Care
Units: 0 Clinical experience in treatment of the physically, medically, or mentally disabled patient. Instruction Mode: Lecture Grading Option: In-progress to Letter Grade

GSPD 563c Clinic: Special Patient Care
Units: 1 Clinical experience in treatment of the physically, medically, or mentally disabled patient. Instruction Mode: Lecture Grading Option: Letter

GSPD 610 Clinical Gerontology
Units: 1 Clinical application of principles of geriatric dentistry. Evaluation, treatment planning, and clinical care of elderly patients at residential and skilled-nursing care facilities. Instruction Mode: Lecture Grading Option: Letter

GSPD 612 Special Patient Care Clinic
Units: 1 Clinical experience in the evaluation, diagnosis, treatment planning and management of oral problems in special needs patients. Instruction Mode: Lecture Grading Option: Letter

Human Behavior

HBHV 310 Interactional Skills in Dental Hygiene
Units: 1 Training in the application of behavioral and communication skills. Instruction Mode: Lecture Grading Option: Letter

HBHV 501 Behavioral Skills in Dentistry
Units: 1 Introduction to key personal, interpersonal, and professional factors that shape the doctor-patient relationship; ways interactional skills influence the effectiveness, durability, and satisfaction of the doctor-patient relationship. Instruction Mode: Lecture Grading Option: Letter

HBHV 502 Interactional Skills
Units: 1 Introduction to purpose, objectives, and principles of clinical interviewing. Instruction Mode: Lecture Grading Option: Letter

HBHV 504 Patient Education and Management
Units: 1 Management of difficult patients; psychology and behavioral treatment of pain; patient education of treatment planning; smoking cessation program. Instruction Mode: Lecture Grading Option: Letter

HBHV 550 Communications in Clinical Dentistry
Units: 1 Verbal and nonverbal communication in clinical dentistry; clinical experience in use of manual, verbal, and non-verbal communication skills during a traumatic injection procedure. Instruction Mode: Lecture Grading Option: Letter

HBHV 561a Clinic: Behavioral Dentistry
Units: 0 Clinical application of behavioral dentistry principles. Data collection, case presentation, fear reduction (iatrosedation), and tobacco cessation. Instruction Mode: Lecture Grading Option: In-progress to Letter Grade

HBHV 561b Clinic: Behavioral Dentistry
Units: 0 Clinical application of behavioral dentistry principles. Data collection, case presentation, fear reduction (iatrosedation), and tobacco cessation. Instruction Mode: Lecture Grading Option: In-progress to Letter Grade

HBHV 561c Clinic: Behavioral Dentistry
Units: 0 Clinical application of behavioral dentistry principles. Data collection, case presentation, fear reduction (iatrosedation), and tobacco cessation. Instruction Mode: Lecture Grading Option: In-progress to Letter Grade

HBHV 561d Clinic: Behavioral Dentistry
Units: 0 Clinical application of behavioral dentistry principles. Data collection, case presentation, fear reduction (iatrosedation), and tobacco cessation. Instruction Mode: Lecture Grading Option: In-progress to Letter Grade

HBHV 561e Clinic: Behavioral Dentistry
Units: 1 Clinical application of behavioral dentistry principles. Data collection, case presentation, fear reduction (iatrosedation), and tobacco cessation. Instruction Mode: Lecture Grading Option: Letter

HBHV 601 Understanding Stress in Dental Practice
Units: 2 Investigation of the approaches to understanding and managing stress, especially the stress issues in dentistry. Instruction Mode: Lecture Grading Option: Letter

Human Biology

HBIO 200Lg The Human Animal
Units: 4 Foundations of the human species. Examination of scientific evidence from Darwinian theory, primate behavior, fossils, and the behavior of modern people. Satisfies New General Education in Category D: Life Sciences Satisfies Old General Education in Category IV: Science and Its Significance Duplicates Credit in former ANTH 200. Instruction Mode: Lecture, Lab Required Grading Option: Letter Crosslisted as ANTH 200

HBIO 202Lg Nutrition for Life
Units: 4 Terms Offered: FaSpSm To develop an understanding of Nutrition, especially as it pertains to optimal health and prevention of diseases. A study of macro and micro nutrients. Satisfies New General Education in Category D: Life Sciences Duplicates Credit in EXSC 202L Instruction Mode: Lecture, Lab Grading Option: Letter

HBIO 203L Individualized Exercise Prescription
Units: 2 Terms Offered: FaSp Principles and theories related to exercise prescription; programs of weight-training, circuit-training, aerobics, flexibility, high and low-intensity training guidelines; safeguards and effectiveness. Duplicates Credit in former EXSC 203L. Instruction Mode: Lecture, Lab Required Grading Option: Letter

HBIO 205Lgx The Science of Sport
Units: 4 Terms Offered: FaSpSm The physiological and nutritional basis of human performance. Factors that facilitate and limit athletic achievement. Satisfies New General Education in Category D: Life Sciences Satisfies Old General Education in Category IV: Science and Its Significance Duplicates Credit in former EXSC 205Lxg. Instruction Mode: Lecture, Lab Required Grading Option: Letter

HBIO 250g The Pharmacology of Performance Enhancing Drugs
Units: 4 Terms Offered: Sp Evaluation of drugs, nutritional supplements, and ergogenic aids that are purported to enhance human athletic performance to promote weight and fat loss. Satisfies New General Education in Category D: Life Sciences Duplicates Credit in former EXSC 250. Instruction Mode: Lecture, Discussion Grading Option: Letter

HBIO 300 Evolution, Ecology, and Culture
Units: 4 Terms Offered: FaSpSm The roles of biology, culture, and the environment in shaping human society, integrating evolutionary biology and cultural theory. Duplicates Credit in former ANTH 300. Instruction Mode: Lecture Grading Option: Letter Crosslisted as ANTH 300

HBIO 301L Human Anatomy
Units: 4 Terms Offered: FaSp Major organ systems; functional implications of their relationships; gross and microscopic examination with an emphasis on practical skills in recognizing, dissecting, and differentiating anatomical structures. Duplicates Credit in former EXSC 301L. Instruction Mode: Lecture, Lab Required Grading Option: Letter

HBIO 302L Nutrition and Metabolism
Units: 4 Terms Offered: Fa Gastrointestinal physiology and energy metabolism as it relates to macronutrient intake. Theories and principles of nutrition and their impact on metabolic regulation. *Prerequisite:* BISC 220 or BISC 221. Duplicates Credit in former EXSC 200. Instruction Mode: Lecture, Lab Required Grading Option: Letter

HBIO 306 Biology of the Non-Human Primates
Units: 4 Terms Offered: FaSpSm Behavior and ecology of living nonhuman primates, with an emphasis on field studies of apes and monkeys. Topics include aggression, communication, reproduction and cognition. *Recommended Preparation:* HBIO 200Lg Duplicates Credit in former ANTH 306 Instruction Mode: Lecture Grading Option: Letter Crosslisted as ANTH 306

HBIO 308 Origins and Evolution of Human Behavior
Units: 4 Examination of the evidence for and against evolutionary bases of a range of human behaviors. Topics include sex differences, human reproductive strategies, race, IQ, human ecology. Duplicates Credit in former ANTH 308. Instruction Mode: Lecture Grading Option: Letter Crosslisted as ANTH 308

HBIO 309 The Human Machine
Units: 4 Terms Offered: FaSpSm An exploration of how the human body works and why it works the way it does; draws from the fields of anatomy,

biomechanics, physiology, engineering and paleoanthropology. *Recommended Preparation:* HBIO 200Lg Instruction Mode: Lecture Grading Option: Letter

HBIO 310 Sociopsychological Aspects of Sport and Physical Activity
Units: 4 Terms Offered: FaSp Examination of the individual in a social environment related to sport and physical activity; personality, motivation, attitude, and group behavior viewed in physical activity contexts. Duplicates Credit in former EXSC 310. Instruction Mode: Lecture Grading Option: Letter

HBIO 320 Muscle Physiology
Units: 4 Terms Offered: Sp Analysis of the skeletal muscular system (anatomy, physiology, biochemistry, and development) and its functional properties under both normal and pathological conditions. *Prerequisite:* BISC 220Lg or BISC 221Lg Duplicates Credit in former EXSC 300 Instruction Mode: Lecture Grading Option: Letter

HBIO 350 Nutrition and Homeostasis
Units: 4 Terms Offered: Sp Theories and principles of regulation of vitamin/mineral metabolism as it relates to homeostasis of organ systems. *Prerequisite:* HBIO 302 or CHEM 350 or BISC 330 or BISC 312 Duplicates Credit in former EXSC 350 Instruction Mode: Lecture, Discussion Grading Option: Letter

HBIO 360L Nutrition and Disease
Units: 4 Terms Offered: Fa Principles of diet therapy for the prevention and treatment of human disease. *Prerequisite:* BISC 220Lg or BISC 221Lg Instruction Mode: Lecture, Lab Required Grading Option: Letter

HBIO 370 Genetics and Disease
Units: 4 Terms Offered: FaSpSm An overview of the genetic underpinning of human health and disease. Inheritance of mendelian diseases, common diseases, developmental diseases and cancer; prenatal testing, genetic counseling and genetic therapies. *Prerequisite:* BISC 220Lg or BISC 221Lg Instruction Mode: Lecture, Discussion Grading Option: Letter

HBIO 400L Motor Control and Learning
Units: 4 Terms Offered: FaSp Theories of control and learning applied to motor performance; variables affecting performance in exercise, games, sports and dance. *Prerequisite:* BISC 220Lg or BISC 221Lg Duplicates Credit in former EXSC 400 Instruction Mode: Lecture, Lab Required Grading Option: Letter

HBIO 401L Physiology of Movement
Units: 4 Terms Offered: Sp Terminology, structure and function of muscle, bone and endocrine systems; Effects of exercise and training on those systems. *Prerequisite:* BISC 220Lg or BISC 221Lg Duplicates Credit in former EXSC 401 Instruction Mode: Lecture, Lab Required Grading Option: Letter

HBIO 403L Forensic Science of the Bones
Units: 4 Terms Offered: FaSpSm Comprehensive study of forensic anthropology; emphasis on identification of human remains and creation of biological profiles including age, sex, time and manner of death, etc. *Prerequisite:* HBIO 301L *Recommended Preparation:* HBIO 200Lg Instruction Mode: Lecture, Lab Required Grading Option: Letter

HBIO 405 Evolutionary Medicine
Units: 4 Terms Offered: Fa Evolutionary, cultural, and environmental factors in the emergence and existence of diseases; a Darwinian examination of illness in the human species. *Prerequisite:* BISC 120Lg or BISC 121Lg *Recommended Preparation:* HBIO 200Lg Duplicates Credit in former ANTH 405 Instruction Mode: Lecture Grading Option: Letter Crosslisted as ANTH 405

HBIO 406 Theory and Method in Human Evolutionary Biology
Units: 4 Terms Offered: FaSpSm Historical and theoretical approaches to major issues in the field of human evolutionary biology. Capstone course in which students will undertake an original independent research project. *Prerequisite:* HBIO 200Lg Registration Restriction: not open to freshman, sophomore, junior Instruction Mode: Lecture Grading Option: Letter Crosslisted as ANTH 406

HBIO 407L Endocrinology and Metabolism
Units: 4 Terms Offered: Sp Regulation of metabolic pathways and endocrinology in health and metabolic diseases. *Prerequisite:* HBIO 302L Registration Restriction: not open to freshman, sophomore and junior Duplicates Credit in former EXSC 406L Instruction Mode: Lecture, Lab Required Grading Option: Letter

HBIO 408L Biomechanics
Units: 4 Terms Offered: Fa Kinematic and kinetic analysis of human motion. Emphasis on performance enhancement and injury prevention. *Prerequisite:* (MATH 108g or MATH 125g) and (PHYS 135ag or PHYS 151Lg) Registration Restriction: Not open to freshmen and sophomores Duplicates Credit in former EXSC 408 Instruction Mode: Lecture, Lab Required Grading Option: Letter

HBIO 409 Metabolic Diseases
Units: 4 Terms Offered: FaSp Examination of the etiology, prevention, and treatment of metabolic disorders such as diabetes mellitus and obesity that are major threats to public health. *Prerequisite:* BISC 220Lg or BISC 221Lg Registration Restriction: Not open to freshmen, junior, sophomore Instruction Mode: Lecture Grading Option: Letter

HBIO 420L Applied Human Physiology
Units: 4 Terms Offered: FaSp
The physiology of the respiratory, cardiovascular, renal, musculoskeletal, digestive, endocrine, and nervous systems in humans, with application to human health and pathology. *Prerequisite:* BISC 220Lg or BISC 221Lg Duplicates Credit in former EXSC 405 Instruction Mode: Lecture, Lab Required Grading Option: Letter

HBIO 435 Neurobiology of Feeding Behavior and Obesity
Units: 4 Terms Offered: Fa Neurobiological systems that control feeding behavior and energy balance with an emphasis on the determinants of obesity. *Prerequisite:* BISC 220Lg or BISC 221Lg Instruction Mode: Lecture Grading Option: Letter

HBIO 439L Human Performance and Bioenergetics
Units: 2 or 4 Terms Offered: FaSp Application of physiology, biomechanics and perceptual-motor principles to the study of skill acquisition and human performance. *Prerequisite:* HBIO 408. Duplicates Credit in former EXSC 439L. Instruction Mode: Lecture, Lab Required Grading Option: Letter

HBIO 441L Prevention of Athletic Injuries
Units: 4 Terms Offered: Fa Application of scientific principles to conditioning, protecting, and rehabilitating the athlete. *Prerequisite:* HBIO 301. Duplicates Credit in former EXSC 441L. Instruction Mode: Lecture, Lab Required Grading Option: Letter

HBIO 442L Evaluation and Rehabilitation of Athletic Injuries
Units: 4 Terms Offered: Sp Application of scientific principles to evaluating and rehabilitating athletic injuries. *Prerequisite:* HBIO 301. Duplicates Credit in former EXSC 442L. Instruction Mode: Lecture, Lab Required Grading Option: Letter

HBIO 491L Laboratory Experience in Kinesiology
Units: 2, 4 Terms Offered: FaSpSm Practical laboratory experience in basic and applied exercise physiology, biochemistry, and/or biomechanics. Emphasizing development of laboratory techniques. *Prerequisite:* HBIO 203, HBIO 301, HBIO 302, HBIO 320. Duplicates Credit in former EXSC 491. Instruction Mode: Lecture, Lab Grading Option: Letter

HBIO 499 Special Topics
Units: 2, 3, 4 Max Units: 8.0 Terms Offered: FaSpSm Selected topics in Human and Evolutionary Biology. Instruction Mode: Lecture Grading Option: Letter

Health Care Decision Analysis

HCDA 501 Fundamentals of Healthcare Insurance Design
Units: 3 Terms Offered: Sm Introduction to insurance payer types, functions, actuarial pricing methods, network design and business operations impacting the provision of health benefits and reimbursement for medical products and services. Instruction Mode: Lecture Grading Option: Letter

HCDA 502 Comparative International Healthcare Systems
Units: 3 Terms Offered: Sp Health coverage and funding across seven industrial countries, with examination of variances and similarities in stated policy and outcomes by region and population mix. Instruction Mode: Lecture Grading Option: Letter

HCDA 503 Competitive Healthcare Intelligence
Units: 3 Terms Offered: Fa Analysis and techniques to evaluate marketplace opportunities with product launching, positioning strategies, intelligence gathering and decision-making. Instruction Mode: Lecture Grading Option: Letter

HCDA 506 Foundations of Insurance and Global Access
Units: 3 Terms Offered: Fa Basic overview focused on the coverage, payment, reimbursement and access to healthcare and pharmaceuticals across a global landscape including the US, EU, and the

big five countries of Asia-Pacific. Instruction Mode: Lecture Grading Option: Letter

HCDA 507 Foundations of Product Development and Commercialization
Units: 3 Terms Offered: Sp Basic introduction focused on the pathways and principles for managing new health technology discovery, funding, development, Food and Drug Administration (FDA) approval, and commercial market launch. Instruction Mode: Lecture Grading Option: Letter

HCDA 510 Business Implications of Healthcare Policy
Units: 3 Terms Offered: Sm Overview of healthcare policies that impact payers, employers, healthcare industry, state and federal agencies and consumers; individual and mandated benefits, medical loss ratio, health care exchanges and impact of comparative effectiveness review. Instruction Mode: Lecture Grading Option: Letter

HCDA 515 Healthcare Decision Analysis and Modeling
Units: 3 Terms Offered: Sp Quantitative methods of evaluating business, policy, pharmaceuticals, medical care resource allocations. Budget Impact Models, Decision Trees, Sensitivity Analysis tradeoffs between treatment strategies, interventions, risks, outcomes. Instruction Mode: Lecture Grading Option: Letter

HCDA 520 Health Economic and Outcomes Methodology
Units: 3 Comprehensive review of core biostatistics principles and applications through practical problem solving approach and case studies. Statistical methods, data validation and outcomes research, clinical trials. Instruction Mode: Lecture Grading Option: Letter

HCDA 525 Healthcare Literature Analysis and Applications
Units: 3 Review and critique of health economics, P&T and outcomes literature. Core biostatical measures used to deconstruct and evaluate published research through case studies. *Recommended Preparation:* HCDA 520. Instruction Mode: Lecture Grading Option: Letter

HCDA 530 Total Product Development: Benchtop to Launch
Units: 3 Systematic review from discovery to market assessment, bio-targeting through clinical trial design. Profile past and current launch strategies, pharmacovigilance, regulatory and filing requirements. Instruction Mode: Lecture Grading Option: Letter

HCDA 540 Executive Leadership and Healthcare Marketing
Units: 3 Critical principles of leadership, communication, best practice marketing presentations, project management techniques, business innovations and strategy. Use of case studies, team projects, real world examples.

HCDA 550 Healthcare Innovation: Creativity to Value
Units: 3 Systematically review creativity and innovation techniques across healthcare industry, examine breakthrough genomic and biopharmaceutical processes and thinking, evaluate novel therapeutic and economic measures transforming outcomes. Instruction Mode: Lecture Grading Option: Letter

HCDA 553 Advanced Pricing Strategies
Units: 3 Positioning products in global markets; market share targets, payer value, life cycle and launch techniques, tools for formulary positioning and reimbursement. Instruction Mode: Lecture Grading Option: Letter

HCDA 560 Managing Effective Partnerships and Mergers
Units: 3 M&A and partnering in the health care industry; law, due diligence, contracts, research alliances, structured agreements, global partners, and tactical business strategies. Instruction Mode: Lecture Grading Option: Letter

HCDA 570 Asia Pacific: Access, Delivery and Reimbursement
Units: 3 In-depth review China, India, Japan, Korea, Taiwan. Analyzing regional pharmaceutical industry, research, manufacturing, partnerships, licensing, trials. Compare insurance, pricing, access, reimbursement for drugs, healthcare services. Instruction Mode: Lecture Grading Option: Letter

HCDA 580 Seminars in Healthcare Decision Analysis
Units: 1, 2, 3 Max Units: 03 Terms Offered: FaSpSm Weekly seminar and literature series, review and discuss policy, biopharmaceuticals, insurance, global healthcare access issues. Student lead discussions, expert guest speakers, group projects, critical thinking. Instruction Mode: Lecture Grading Option: Letter

HCDA 589 Healthcare Consulting Enterprise Team Project
Units: 3 Max Units: 06 Terms Offered: FaSp Team projects solving real business problems in the healthcare industry by working directly with an existing company under the supervision of a faculty member. *Prerequisite:* HCDA 506 and HCDA 507 *Recommended Preparation:* Undergraduate or professional degree in pharmacy, medical or sciences, engineering, business and/or equivalent experience in the healthcare industry Instruction Mode: Lecture Grading Option: Letter

HCDA 590 Directed Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Max Units: 12.0 Terms Offered: FaSpSm Research leading to the master's degree. Maximum units which may be applied to the degree to be determined by the department. Instruction Mode: Lecture Grading Option: Credit/No Credit

HCDA 596 Internship for Curricular Practical Training
Units: 1, 2, 3 Max Units: 03 Terms Offered: FaSpSm Part-time or full-time, practical work experience in the student's field of study. The internship must be located at an off-campus facility. Students are individually supervised by faculty. May not be taken until the student has completed at least one semester of enrollment in the graduate program with a cumulative 3.0 GPA. Registration Restriction: Open only to graduate students Instruction Mode: Lecture Grading Option: Credit/No Credit

HCDA 599 Special Topics
Units: 2, 3, 4 Max Units: 8.0 Terms Offered: FaSpSm Special topics in Healthcare Decision Analysis. Instruction Mode: Lecture Grading Option: Letter

Hebrew

HEBR 120 Hebrew I
Units: 4 Terms Offered: FaSpSm Focuses on the acquisition of proficiency and communicative skills in speaking, reading, writing, and comprehension as well as cultural literacy. Instruction Mode: Lecture Grading Option: Letter

HEBR 150 Hebrew II
Units: 4 Terms Offered: FaSpSm A continuation of Hebrew I. Offers a higher level of skill development in reading, writing and conversation. *Prerequisite:* HEBR 120 Instruction Mode: Lecture Grading Option: Letter

HEBR 220 Hebrew III
Units: 4 Terms Offered: Fa Continuation of Hebrew II; stress on grammar, composition, and conversation. *Prerequisite:* HEBR 315. Instruction Mode: Lecture Grading Option: Letter

HEBR 315 Modern Hebrew Language (Hebrew IV)
Units: 4 Terms Offered: Sp Examines Hebrew in depth and introduces students to Modern Hebrew literature through major poems, novels and films from the 20th and 21st centuries. *Prerequisite:* HEBR 220 Instruction Mode: Lecture Grading Option: Letter

History

HIST 100gm The American Experience
Units: 4 Terms Offered: FaSpSm Patterns of American development from Colonial times to the present. Satisfies New General Education in Category B: Humanistic Inquiry Satisfies Old General Education in Category I: Western Cultures and Traditions Duplicates Credit in former HIST 200gm. Instruction Mode: Lecture, Discussion Grading Option: Letter

HIST 101gp State and Society in the Ancient World
Units: 4 Terms Offered: FaSpSm Achievements of the near East, Greece, and Rome with emphasis on the development of ideas, arts, and institutions which have influenced modern man. Satisfies New General Education in Category C: Social Analysis Satisfies Global Perspective in Category H: Traditions and Historical Foundations Satisfies Old General Education in Category I: Western Cultures and Traditions Instruction Mode: Lecture, Discussion Grading Option: Letter Crosslisted as CLAS 101

HIST 102gm The Worlds of Medieval Europe
Units: 4 Terms Offered: FaSp The social, political, religious, intellectual and cultural landscapes of Europe and the Mediterranean, c. 300 to c. 1400. Satisfies New General Education in Category B: Humanistic Inquiry Satisfies Old General Education in Category I: Western Cultures and Traditions Instruction Mode: Lecture, Discussion Grading Option: Letter

HIST 103g The Emergence of Modern Europe
Units: 4 Terms Offered: Fa Political, intellectual, and cultural developments in Europe, 1300–1815. Renaissance

and Reformation; absolute monarchy, scientific changes, and Enlightenment; French Revolution and Napoleon. Satisfies New General Education in Category B: Humanistic Inquiry Satisfies Old General Education in Category I: Western Cultures and Traditions Instruction Mode: Lecture, Discussion Grading Option: Letter

HIST 104gp Modern Europe
Units: 4 Terms Offered: Sp The Enlightenment, French Revolution, industrialization, Darwinism, socialism, nationalism, technological revolutions, mass culture, imperialism, race, fascism, communism, world wars, genocide, migration, the Cold War, terrorism. Satisfies New General Education in Category B: Humanistic Inquiry Satisfies Global Perspective in Category H: Traditions and Historical Foundations Satisfies Old General Education in Category I: Western Cultures and Traditions Instruction Mode: Lecture, Discussion Grading Option: Letter

HIST 105g The Korean Past
Units: 4 A topical and chronological study of the major political, social, and intellectual forces that have shaped the history of Korea. Satisfies New General Education in Category B: Humanistic Inquiry Satisfies Old General Education in Category II: Global Cultures and Traditions Instruction Mode: Lecture Grading Option: Letter

HIST 106g Chinese Lives: An Introduction to Chinese History
Units: 4 Terms Offered: FaSp Study of the lives of selected individuals who have helped to shape Chinese politics and culture. Satisfies New General Education in Category B: Humanistic Inquiry Satisfies Old General Education in Category II: Global Cultures and Traditions Instruction Mode: Lecture, Discussion Grading Option: Letter

HIST 107gp Introduction to the History of Japan
Units: 4 Terms Offered: FaSp Japan from the earliest times to the present; social, cultural, and political dimensions. Satisfies New General Education in Category B: Humanistic Inquiry Satisfies Global Perspective in Category H: Traditions and Historical Foundations Satisfies Old General Education in Category II: Global Cultures and Traditions Instruction Mode: Lecture, Discussion Grading Option: Letter

HIST 108g Histories of South Asia
Units: 4 History of South Asia from the tenth century to the present day; examines imperialism, capitalism, nationalism, and immigration. Satisfies New General Education in Category B: Humanistic Inquiry Instruction Mode: Lecture, Discussion Grading Option: Letter

HIST 109g The Latin American Experience
Units: 4 Introduction to Latin American history and cultures, providing tools to grasp the importance of the region within the larger Americas and the world. Satisfies New General Education in Category B: Humanistic Inquiry Instruction Mode: Lecture, Discussion Grading Option: Letter

HIST 180gw The Middle East
Units: 4 Terms Offered: FaSpSm Introduction to the history and the study of the Middle East from ancient to modern times. Satisfies New General Education in Category B: Humanistic Inquiry Satisfies Global Perspective in Category G: Citizenship in a Diverse World Satisfies Old General Education in Category II: Global Cultures and Traditions Instruction Mode: Lecture, Discussion Grading Option: Letter Crosslisted as MDES 180

HIST 185g A Survey of Armenian History
Units: 4 Terms Offered: FaSp Introduction to Armenian history and its connections with the region and the world. Satisfies New General Education in Category B: Humanistic Inquiry Instruction Mode: Lecture, Discussion Grading Option: Letter

HIST 190g History of Science: Antiquity to the Scientific Revolution
Units: 4 (Enroll in CLAS 190g)

HIST 195 Selected Themes and Topics in History
Units: 4 Terms Offered: Irregular Study of special historical themes and topics through readings, lectures, discussions, and supervised writings. Instruction Mode: Lecture Grading Option: Letter

HIST 201 Approaches to History
Units: 4 Terms Offered: FaSp Methods and theories of historical interpretation of evidence; uses of archives; modes of presenting the past to the public. Required of all history majors. Duplicates Credit in former HIST 300. Instruction Mode: Lecture Grading Option: Letter

HIST 210gw How to Be An American: Global Histories of U.S. Citizenship
Units: 4 Terms Offered: FaSp History of United States citizenship from its origins to the present day, with particular attention to relationship between law and culture. Satisfies New General Education in Category B: Humanistic Inquiry Satisfies Global Perspective in Category G: Citizenship in a Diverse World Instruction Mode: Lecture, Discussion Grading Option: Letter

HIST 211gp Race in America
Units: 4 Examines the origins of the idea of race and how this idea influenced the development of the United States from the colonial period to the present day. Satisfies New General Education in Category C: Social Analysis Satisfies Global Perspective in Category H: Traditions and Historical Foundations Instruction Mode: Lecture, Discussion Grading Option: Letter

HIST 215g Business and Labor in America
Units: 4 Terms Offered: Fa Expansion of business enterprise from colonial merchants to modern corporations; evolution of the labor force from artisans to skilled and unskilled industrial workers. Satisfies Old General Education in Category VI: Social Issues Instruction Mode: Lecture, Discussion Grading Option: Letter

HIST 220gp Murder on Trial in America
Units: 4 Examination of high-profile murders and murder trials in order to explore major social, political, and cultural issues from the colonial period to the present. Satisfies New General Education in Category B: Humanistic Inquiry Satisfies Global Perspective in Category H: Traditions and Historical Foundations Instruction Mode: Lecture Grading Option: Letter

HIST 225g Film, Power, and American History
Units: 4 Terms Offered: Sp U.S. motion pictures as both a response to and comment upon major events, problems, and themes in 20th century America. Satisfies New General Education in Category C: Social Analysis Satisfies Old General Education in Category VI: Social Issues Instruction Mode: Lecture, Discussion Grading Option: Letter

HIST 235g War and the American Experience
Units: 4 Terms Offered: Fa Comparative historical analysis of the American experience of war: war decision-making processes; evolution of strategy and tactics; the political, economic, and social effects of war. Satisfies New General Education in Category B: Humanistic Inquiry Satisfies Old General Education in Category VI: Social Issues Instruction Mode: Lecture, Discussion Grading Option: Letter

HIST 237gp Fascism
Units: 4 Historical analysis of Fascism, focusing on fascist movements and ideas in twentieth-century Italy and Germany and their spread around Europe and the world. Satisfies New General Education in Category C: Social Analysis Satisfies Global Perspective in Category H: Traditions and Historical Foundations Instruction Mode: Lecture, Discussion Grading Option: Letter

HIST 240gp The History of California
Units: 4 Terms Offered: Fa A thematic approach to California history from precontact to present; focus on peoples, environment, economic, social, and cultural development, politics, and rise to global influence. Satisfies New General Education in Category B: Humanistic Inquiry Satisfies Global Perspective in Category H: Traditions and Historical Foundations Satisfies Old General Education in Category VI: Social Issues Instruction Mode: Lecture, Discussion Grading Option: Letter

HIST 245mgp How Sex Changed: US History, 1870-the Present
Units: 4 An examination of how the shifting norms, discourses and representations of gender and sexuality have rocked American society during the last 150 years Satisfies New General Education in Category B: Humanistic Inquiry Satisfies Global Perspective in Category H: Traditions and Historical Foundations Satisfies Old General Education in Category VI: Social Issues Instruction Mode: Lecture, Discussion Grading Option: Letter

HIST 250g Climate Change: Science, History and Solutions
Units: 4 History and science of anthropogenic climate change; climate dynamics; carbon cycle; climate modeling; fossil fuel economy; climate denial and political tactics; group research of solutions. Satisfies New General Education in Category C: Social Analysis Instruction Mode: Lecture, Discussion Grading Option: Letter Crosslisted as ENST 250

HIST 251gp History of Science, Technology and Medicine
Units: 4 The political, cultural, social forces have shaped scientific achievements in the modern age. Satisfies New General Education in Category C: Social Analysis

Satisfies Global Perspective in Category H: Traditions and Historical Foundations Instruction Mode: Lecture, Discussion Grading Option: Letter

Units: 4 Examination of theoretical approaches to and historical accounts of resistance to genocide. Students conduct original research on how people oppose or resist mass atrocities. *Recommended Preparation:* course on the Holocaust or genocide. Instruction Mode: Lecture Grading Option: Letter

HIST 447 Law and Empire: An Introduction to Global Legal History
Units: 4 Terms Offered: FaSp Investigates the intersection of law and empire in order to introduce students to a global approach to legal history. Instruction Mode: Lecture Grading Option: Letter

HIST 451 The Mexican Revolution
Units: 4 Terms Offered: Other The roots, trajectory and outcome of the Mexican revolution of 1910. Instruction Mode: Lecture Grading Option: Letter

HIST 453 The Age of Emancipation
Units: 4 Examines the evolution of racial status law in the long 19th century, with special emphasis on the relationship between slavery, segregation, and citizenship. Instruction Mode: Lecture Grading Option: Letter

HIST 454 The World Pirates Made: Piracy and Privateering, 1500–1815
Units: 4 Research seminar on history of piracy and its role in rise of modern state and nation. *Recommended Preparation:* HIST 201. Instruction Mode: Lecture Grading Option: Letter

HIST 455 Advanced Topics in African-American History
Units: 4 Terms Offered: Sp Exploration of African-American history through primary and secondary sources employing a colloquium format with an emphasis on shared responsibility for comprehensive discussion and analysis. Instruction Mode: Lecture Grading Option: Letter

HIST 456 Race, Slavery, and the Making of the Atlantic World
Units: 4 Terms Offered: Other Introduction to the literature of the Atlantic World with a focus on slavery and its role in the emergence of the modern era. Seminar enrollment limited to 15 students. Instruction Mode: Lecture Grading Option: Letter

HIST 457 The American West
Units: 4 Terms Offered: Irregular The nation's westward movement from Colonial times to the present, with emphasis on the frontier's effect on American life and institutions. Instruction Mode: Lecture Grading Option: Letter

HIST 458 History of California
Units: 4 Terms Offered: Fa Exploration, colonization, and development of Hispanic California; coming of the Americans; political, economic, and cultural development of California since its acquisition by the United States. Instruction Mode: Lecture Grading Option: Letter

HIST 459 Race and the Carceral State
Units: 4 Explores the connections between historical and contemporary methods of incarceration - confinement, punishment, surveillance and discipline - and the production of racial hierarchies. Instruction Mode: Lecture Grading Option: Letter

HIST 460 War, Race, and the Constitution
Units: 4 Terms Offered: Irregular Examines the World War II incarceration of Japanese Americans and its impact on issues of civil liberties as well as national security. Instruction Mode: Lecture Grading Option: Letter

HIST 461 19th Century American Thought
Units: 4 Terms Offered: Fa Major American thinkers from Emerson and Margaret Fuller to William James and W.E.B. DuBois, with emphasis on race, religion, politics, and gender. Instruction Mode: Lecture Grading Option: Letter

HIST 462 20th Century American Thought
Units: 4 Terms Offered: Fa Major American thinkers from John Dewey and Jane Addams to Martin Luther King and Richard Rorty, with emphasis on race, religion, politics, and gender. Instruction Mode: Lecture Grading Option: Letter

HIST 463 The Constitutional History of the United States
Units: 4 Historical influences on changes in the structure, practice, and interpretation of the American Constitution, including debates about institutional powers and civil/political rights and liberties. *Recommended Preparation:* HIST 360 and HIST 361. Instruction Mode: Lecture Grading Option: Letter

HIST 464 Culture, Money, and Power: Japanese-American Relations since 1853
Units: 4 Terms Offered: Sp Examination of the role of cultural, economic, and military forces in shaping relations between two of the most important nations in the Asia/Pacific regions. *Recommended Preparation:* HIST 363 or appropriate International Relations course. Instruction Mode: Lecture Grading Option: Letter

HIST 465 America in the Cold War World, 1945–1991
Units: 4 Terms Offered: Fa America's role in the Cold War and the impact of that conflict on its people, society and culture. Instruction Mode: Lecture Grading Option: Letter

HIST 466 New World Orders: US and the Atlantic World, 1918-2018
Units: 4 Terms Offered: FaSp Critical examination of attempts by the United States and major European powers to institute varying kinds of order across borders. Instruction Mode: Lecture Grading Option: Letter

HIST 470 The Spanish Inquisition in the Early Modern Hispanic World
Units: 4, 2 years Terms Offered: Fa The Spanish Inquisition in Spain and Colonial Latin America, major theories and interpretations. Instruction Mode: Lecture Grading Option: Letter

HIST 473 Colonial Latin America Seminar
Units: 4 Terms Offered: Sp The history of colonial Latin America, focusing on the transformation of native Americans and Europeans into participants in a new colonial tradition. Duplicates Credit in HIST 371. Instruction Mode: Lecture Grading Option: Letter

HIST 478 The United States, 1789–1850
Units: 4 Terms Offered: Irregular The nation during the first six decades; development of American institutions; constitutional growth, expansion, sectionalism, and the Mexican War; the Compromise of 1850. Instruction Mode: Lecture Grading Option: Letter

HIST 479 History in the Museum: The Past in Objects
Units: 4 An examination of how museums collect and display objects, shaping ideas about human cultures and the world, from the Renaissance to the present. Instruction Mode: Lecture Grading Option: Letter Crosslisted as AHIS 479

HIST 480 Seminar in Middle East History
Units: 4 A readings and research seminar dealing with one topic in the history of the Middle East. Topics will change each time the course is offered. Instruction Mode: Lecture Grading Option: Letter Crosslisted as MDES-480

HIST 481 Producing Film Histories
Units: 4 Terms Offered: Sp History of film form and its institutions. Students will produce an original written or multimedia research project. Instruction Mode: Lecture Grading Option: Letter

HIST 484 The United States, 1919–1939
Units: 4 Terms Offered: Irregular Postwar reaction and the Twenties; the Great Depression and the New Deal; diplomacy between the wars. Instruction Mode: Lecture Grading Option: Letter

HIST 487 The United States since 1939
Units: 4 Terms Offered: Irregular A survey of the accelerating changes that transformed the nation's domestic life and revolutionized America's role in world affairs. Instruction Mode: Lecture Grading Option: Letter

HIST 488 Teaching History in the Secondary Schools
Units: 4 Terms Offered: Fa Seminar in research methods, textbook and online research and teaching materials, and instructional approaches for teaching history in secondary schools. Instruction Mode: Lecture Grading Option: Letter

HIST 490x Directed Research
Units: 1, 2, 3, 4, 5, 6, 7, 8 Max Units: 12.0 Terms Offered: FaSp Individual research and readings. Instruction Mode: Lecture Grading Option: Letter

HIST 492 Honors Thesis
Units: 4 Terms Offered: Sp Writing of the honors thesis; for students in the History Honors Program. Instruction Mode: Lecture Grading Option: Letter

HIST 493 Law, History and Culture Honors Thesis Seminar
Units: 4 Writing of the honors thesis; capstone for students in the Law, History and Culture major. Registration Restriction: Open only to Law, History and Culture majors Instruction Mode: Lecture Grading Option: Letter

HIST 494 Seminar in New Historical Writing
Units: 4, 2 years Terms Offered: Fa Historical writing experiments combining historical specificity with more fluid approaches to time, characterization and objectivity associated with 20th century artists. Instruction Mode: Lecture Grading Option: Letter

HIST 496 Internship in Public History
Units: 4 Max Units: 8 Terms Offered: Sp The ideas and practices of public history explored through a seminar and an internship at a museum, historical society, or archive. Registration Restriction: Not open to Freshman students Instruction Mode: Lecture Grading Option: Letter

HIST 497 Senior Seminar in Early Modern Studies
Units: 4 Terms Offered: Sp (Enroll in ENGL 497)

HIST 498 Seminar on Selected Historical Topics
Units: 4 Max Units: 8.0 Terms Offered: FaSp Advanced study in historical analysis and writing on selected topics and themes. Seminar enrollment limited to 15 students. *Recommended Preparation:* HIST 201. Instruction Mode: Lecture Grading Option: Letter

HIST 499 Special Topics
Units: 2, 3, 4 Max Units: 8.0 Terms Offered: Irregular Instruction Mode: Lecture Grading Option: Letter

HIST 500 Introduction to Graduate Historical Studies
Units: 4 Terms Offered: Fa Techniques, theories, and sub-disciplines of history. Instruction Mode: Lecture Grading Option: Letter

HIST 505 Studies in Early Medieval History
Units: 4 Terms Offered: Irregular Intensive study of subjects selected from the early Middle Ages, emphasizing source material, bibliography, and historiographic problems. Instruction Mode: Lecture Grading Option: Letter

HIST 506 Studies in Later Medieval History
Units: 4 Terms Offered: Irregular Intensive study of subjects selected from the later Middle Ages, emphasizing source material, bibliography, and historiographic problems. Instruction Mode: Lecture Grading Option: Letter

HIST 508 Studies in the Renaissance
Units: 4 Europe in the Renaissance: sources; secondary bibliography; and historiography. Instruction Mode: Lecture Grading Option: Letter

HIST 509 Studies in the Reformation
Units: 4 Readings, reports, and discussions of major problems, issues, and interpretations of the Reformation. Instruction Mode: Lecture Grading Option: Letter

HIST 510 Studies in Early Modern European History
Units: 4 Terms Offered: Irregular Readings of major interpretive studies on the 17th and 18th centuries. Instruction Mode: Lecture Grading Option: Letter

HIST 511 Studies in Early Modern British History
Units: 4 Readings of major interpretive and historiographical studies on 16th and 17th century British history. Instruction Mode: Lecture Grading Option: Letter

HIST 514 Studies in Modern European History, 1789–1914
Units: 4 Terms Offered: Fa Readings and current bibliography in the history of Europe from the French Revolution to the outbreak of World War I; emphasis on cultural history approaches. Instruction Mode: Lecture Grading Option: Letter

HIST 515 Studies in Modern European History: Europe's 20th Century
Units: 4 Terms Offered: Fa Readings in the history and historiography of Europe in the 20th century. Instruction Mode: Lecture Grading Option: Letter

HIST 516 Studies in the History of the Holocaust
Units: 4 Advanced study of the persecution and mass murder of the European Jewry, its history and its historiography. Registration Restriction: Open only to doctoral students Instruction Mode: Lecture Grading Option: Letter

HIST 517 Studies in Russian History
Units: 4 Terms Offered: Irregular Readings, discussions, and student papers in modern Russian history. Instruction Mode: Lecture Grading Option: Letter

HIST 518 Problems in Modern European Jewish History
Units: 4 Major themes, problems and debates in modern European (and global) Jewish history and historiography. Registration Restriction: Open only to doctoral students Instruction Mode: Lecture Grading Option: Letter

HIST 520 Modernity and Its Visual Cultures
Units: 4 Terms Offered: Sp Western visual culture 1850–1930: historical background of changes in high and popular culture, technological reproducibility, display and spectacularization; recent literature and theoretical approaches. Instruction Mode: Lecture Grading Option: Letter

HIST 525 Studies in British History
Units: 4 Terms Offered: Irregular Selected topics in English and British Empire history with emphasis on the 19th and 20th centuries. Instruction Mode: Lecture Grading Option: Letter

HIST 534 Studies in Modern Japanese History
Units: 4 Selected topics and historiography of modern Japan. Open only to doctoral students. Registration Restriction: Open only to doctoral students. Instruction Mode: Lecture Grading Option: Letter Crosslisted as EALC-536

HIST 535 Studies in Japanese History
Units: 4 Max Units: 8.0 Selected topics in historical problems dealing with Japan. Instruction Mode: Lecture Grading Option: Letter

HIST 536 Studies in Chinese History
Units: 2 or 4 Terms Offered: Irregular Selected topics in historical problems dealing with China. *Prerequisite:* HIST 340. Instruction Mode: Lecture Grading Option: Letter

HIST 540 Studies in Modern East Asian History
Units: 4 Max Units: 8.0 Terms Offered: Irregular Readings and analysis of a particular theme in modern Asian history, focusing on broad comparative issues like cultural identity, colonialism, nationalism, revolution, or interstate relations. Instruction Mode: Lecture Grading Option: Letter

HIST 544 Feminist Theory for Historians
Units: 4 Terms Offered: Fa Readings in contemporary feminist theory, focused especially on theories that address the construction, writing and general practice of history. Registration Restriction: Open only to graduate students Instruction Mode: Lecture Grading Option: Letter

HIST 546 Comparative History of Women and Gender in the West to 1800
Units: 4 Terms Offered: Fa Topically-focused readings in the comparative history of women and gender in Europe and the Americas before 1800. Registration Restriction: Open only to graduate students Instruction Mode: Lecture Grading Option: Letter

HIST 550 Studies in the History of Women, Gender and Sexuality
Units: 4 Terms Offered: Irregular Readings and current bibliography in the history of women, gender and sexuality. Instruction Mode: Lecture Grading Option: Letter

HIST 554 Readings in Chicano/Latino History
Units: 4 Terms Offered: FaSp (Enroll in AMST 554)

HIST 555 Studies in the American West
Units: 4 Zones of contact — physical, economic, political, ecological, symbolic, cultural, metaphorical — between peoples "west" of the Eurasian land mass since the rise of capitalist global expansion. Instruction Mode: Lecture Grading Option: Letter

HIST 560 Transpacific History
Units: 4 Exploration of the connections and divergences in the Pacific region, 19th century to present. Topics include transnationalism, war, political economy, international relations, immigration, environmentalism, and race. Instruction Mode: Lecture Grading Option: Letter Crosslisted as AMST-522

HIST 561 Historiography of Colonial Mexico
Units: 4 Terms Offered: Fa Introduction to the historiography of Colonial Mexico from 1500 to 1821. Instruction Mode: Lecture Grading Option: Letter

HIST 562 Studies in Colonial Latin American History
Units: 4 Introduction to readings and major historiographical developments in the study of colonial Latin America and the Caribbean, focusing on key fields and debates. Instruction Mode: Lecture Grading Option: Letter

HIST 563 Studies in Modern Latin American History
Units: 4 Introduction to readings and major historiographical developments in the study of Latin America and the Caribbean after independence, focusing on key fields and debates. Instruction Mode: Lecture Grading Option: Letter

HIST 565 Studies in American International History
Units: 4 Terms Offered: FaSm Readings and analyses of American policies, roles and principles in their interaction with peoples and nations of the world. Instruction Mode: Lecture Grading Option: Letter

HIST 566 Historical Scholarship on North America to 1800
Units: 4 Terms Offered: Fa Introduction to research in the fields of American Indian, colonial America, Atlantic world, and the early United States. Open only to graduate students. Registration Restriction: Open only to graduate students. Instruction Mode: Lecture Grading Option: Letter

HIST 567 Historical Scholarship on 19th Century America
Units: 4 Terms Offered: Sp Introduction to historiography and research in the political, economic, social, cultural, and intellectual history of the 19th century United States. Instruction Mode: Lecture Grading Option: Letter

HIST 568 Historical Scholarship on 20th and 21st Century America
Units: 4 Terms Offered: Sp Introduction to historiography and research in the political, economic, social, cultural, and intellectual history of the 20th and 21st century United States. Instruction Mode: Lecture Grading Option: Letter

HIST 575 Studies in 19th Century United States History
Units: 4 Max Units: 8.0 Terms Offered: Fa Intensive readings and bibliography in the Early National, Jacksonian, Civil War, and Post-Civil War periods. Instruction Mode: Lecture Grading Option: Letter

HIST 583 Studies in Urban History
Units: 4 Readings and analyses in the rise of the city and the impact of urbanization from the colonial era to the present. Instruction Mode: Lecture Grading Option: Letter

HIST 584 Seminar in American Social History
Units: 4 Terms Offered: Irregular Creation of communities and societies; industrialization, urbanization, working class life; families, women, ethnicity; immigration; racism; mobility; reform and radicalism, leisure. Instruction Mode: Lecture Grading Option: Letter

HIST 585 Studies in 20th Century American History
Units: 4 Readings and analyses in social and political problems, movements, and issues. Instruction Mode: Lecture Grading Option: Letter

HIST 586 Studies in American Intellectual and Cultural History
Units: 4 Readings, analyses, and discussion of selected topics relating to the history of American thought and the arts.

HIST 587 Studies in the Politics of American Popular Culture
Units: 4 Selected themes, theories, and key works in the politics of American popular culture. Instruction Mode: Lecture Grading Option: Letter

HIST 589 Fascism, Nazism and Communism
Units: 4 The rise of Nazism, fascism, and communism in 20th and 21st centuries and the ways in which those ideologies conflicted with democracy. Registration Restriction: Open only to doctoral students Instruction Mode: Lecture Grading Option: Letter

HIST 590 Directed Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Terms Offered: FaSpSm Research leading to the master's degree. Maximum units which may be applied to the degree to be determined by the department. Instruction Mode: Lecture Grading Option: Credit/No Credit

HIST 591 Quantitative Historical Research
Units: 4 Terms Offered: Irregular Teaches statistical concepts, methods, and tools for researching and interpreting the past. Instruction Mode: Lecture Grading Option: Letter

HIST 592 Historiography
Units: 4 Terms Offered: Sm Historical criticism; form and mechanics of presenting research; writers of history, their works and philosophies; theories of historical development. Instruction Mode: Lecture Grading Option: Letter

HIST 593 The Art of Historical Writing
Units: 4 Terms Offered: Sp An analysis of conventional forms of historical representation and the artistic and scientific challenges to them. Laboratory training in innovative forms of historical writing will be stressed. Instruction Mode: Lecture Grading Option: Letter

HIST 594a Master's Thesis
Units: 2 Terms Offered: FaSp Credit on acceptance of thesis. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

HIST 594b Master's Thesis
Units: 2 Terms Offered: FaSp Credit on acceptance of thesis. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

HIST 594z Master's Thesis
Units: 0 Terms Offered: FaSp Credit on acceptance of thesis. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

HIST 595x Practicum in Teaching the Liberal Arts
Units: 2 Terms Offered: Fa Basic principles of history pedagogy, with emphasis on practical applications and the importance of career-long skill development. Required for first semester teaching assistants in history. Instruction Mode: Lecture Grading Option: Credit/No Credit

HIST 602 Seminar in Ancient History
Units: 2 or 4 Max Units: 8.0 Terms Offered: Irregular Directed research in historical problems. Instruction Mode: Lecture Grading Option: Letter

HIST 605 Seminar in Medieval European History
Units: 2 or 4 Max Units: 8.0 Terms Offered: Irregular Directed research in historical problems. Instruction Mode: Lecture Grading Option: Letter

HIST 608 Seminar on Premodern Europe
Units: 4 Max Units: 8.0 Directed research on topics from late antiquity to the 18th century. Students will work with both their faculty advisers and the course instructor. Instruction Mode: Lecture Grading Option: Letter

HIST 610 Seminar in Early Modern European History
Units: 2 or 4 Max Units: 8.0 Terms Offered: Irregular Directed research in historical problems concerning the 17th and 18th centuries. Instruction Mode: Lecture Grading Option: Letter

HIST 615 Seminar in Modern European History
Units: 2 or 4 Max Units: 8.0 Terms Offered: Irregular Directed research in historical problems dealing with Europe since 1789. Instruction Mode: Lecture Grading Option: Letter

HIST 617 Seminar in Russian History
Units: 2 or 4 Max Units: 8.0 Terms Offered: Irregular Directed research in historical problems. Instruction Mode: Lecture Grading Option: Letter

HIST 620 Research Seminar on Modern Visual Culture
Units: 4 Terms Offered: Fa A research seminar focusing on Western visual culture since the mid-18th century. *Recommended Preparation:* HIST 520. Instruction Mode: Lecture Grading Option: Letter

HIST 630 Seminar in Japanese History
Units: 2 or 4 Max Units: 8.0 Terms Offered: Irregular Directed research in historical problems. Instruction Mode: Lecture Grading Option: Letter

HIST 635 Seminar in Chinese History
Units: 2 or 4 Max Units: 8.0 Terms Offered: Irregular Directed research in historical problems. *Prerequisite:* HIST 340. Instruction Mode: Lecture Grading Option: Letter

HIST 650 Seminar on Women's and Family History
Units: 4 Terms Offered: Sp Readings, discussions and directed research on women's and family histories. Instruction Mode: Lecture Grading Option: Letter

HIST 655 Seminar in Western American History
Units: 2 or 4 Max Units: 8.0 Selected topics in the history of the American frontier and the West. Instruction Mode: Lecture Grading Option: Letter

HIST 660 Research Seminar on Transpacific Studies
Units: 4 Terms Offered: FaSp (Enroll in AMST 622)

HIST 670 Illness and Healing in the Modern World
Units: 4 Terms Offered: Sp Illness and healing in Europe and the Americas since 1492, especially the changing clinical and cultural definitions and responses to disease and ailments. Instruction Mode: Lecture Grading Option: Letter

HIST 673 Seminar in Early North American History
Units: 4 Max Units: 8.0 Primary research on issues related to the history of the colonial and early national periods with an emphasis on areas that became the United States. Instruction Mode: Lecture Grading Option: Letter

HIST 675 Seminar in 19th Century United States History
Units: 4 Max Units: 8.0 Terms Offered: Sp Research in historical problems of the Antebellum, Civil War, and Post-Civil War periods. Instruction Mode: Lecture Grading Option: Letter

HIST 680 Seminar in 20th Century United States History
Units: 4 Max Units: 8.0 Terms Offered: Fa Directed research in historical problems of the Reform, World War I, interwar, World War II, and Post-War periods. Instruction Mode: Lecture Grading Option: Letter

HIST 700 Historical Explanation and Research Design
Units: 4 Designed for all doctoral candidates in their last year of course work, this practicum helps students define a dissertation topic and produce a prospectus. Instruction Mode: Lecture Grading Option: Credit/No Credit

HIST 790 Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Terms Offered: FaSpSm Research leading to the doctorate. Maximum units which may be applied to the degree to be determined by the department. Instruction Mode: Lecture Grading Option: Credit/No Credit

HIST 794a Doctoral Dissertation
Units: 2 Terms Offered: FaSp Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

HIST 794b Doctoral Dissertation
Units: 2 Terms Offered: FaSp Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

HIST 794c Doctoral Dissertation
Units: 2 Terms Offered: FaSp Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

HIST 794d Doctoral Dissertation
Units: 2 Terms Offered: FaSp Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

HIST 794z Doctoral Dissertation
Units: 0 Terms Offered: FaSp Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

Health Care Management

HMGT 510 The Dynamics of Health Care Leadership
Units: 4 A five-day residential provides an intensive, multi-faceted learning experience in leadership, communication, managed care, systems thinking, and the health care environment. Instruction Mode: Lecture Grading Option: Letter

HMGT 512 Information Technology and Patient Engagement
Units: 2 Terms Offered: FaSpSm Strategic management and utilization of healthcare information technology in the delivery of healthcare; patient engagement and the use of technology to facilitate participation in their own care. Registration Restriction: Open only to Executive Master of Health Administration students. Instruction Mode: Lecture Grading Option: Letter

HMGT 520 Leading People and Health Care Organizations
Units: 4 Terms Offered: Fa An exploration of contemporary work force issues and skills development in organizational design, performance measurement, teamwork, conflict resolution, leadership, and change management. Instruction Mode: Lecture Grading Option: Letter

HMGT 525 Managed Care Operations
Units: 4 Focuses on managerial, operational, and organizational aspects of managed care for integrated delivery systems, health plans, and medical groups. Instruction Mode: Lecture Grading Option: Letter

HMGT 540 Health Economics, Financing and Reimbursement
Units: 4 Terms Offered: Fa Provides a framework for the economic analysis of health care issues and provides students with an opportunity to apply economic methods to a number of actual health care problems. Registration Restriction: Open only to Health Administration majors Instruction Mode: Lecture Grading Option: Letter

HMGT 545 Systems Thinking and the Analysis of Data
Units: 4 Quality improvement and statistical tools for health managers. Covers analyzing processes; collecting and analyzing operational data; drawing valid conclusions from data. Instruction Mode: Lecture Grading Option: Letter

HMGT 550 Law, Regulation, and Ethics
Units: 4 An intensive introduction to business and health care law, ethics and regulation; gives executives practical knowledge regarding legal consideration in business transactions. Instruction Mode: Lecture Grading Option: Letter

HMGT 560 Customer-Focused Health Care Organization
Units: 2 Strategies for gaining and using customer-derived data in planning, marketing and managing health care organizations. Instruction Mode: Lecture Grading Option: Letter

HMGT 565 Managing the Organization's Financial Health
Units: 4 Terms Offered: Fa Executives confront and solve problems requiring use of accounting, finance, and management control principles; provides core financial skills for non-finance professionals. Instruction Mode: Lecture Grading Option: Letter

HMGT 570 Strategic Management
Units: 4 Terms Offered: Sm Provides skill development and application in the integrative discipline of strategic management including assessment, strategy formulation, implementation and control. Instruction Mode: Lecture Grading Option: Letter

HMGT 575 Managing and Improving Health
Units: 4 Terms Offered: Sp Methods for monitoring and improving the health of populations. Topics include outcomes management, risk-adjustment, development and implementation of practice guidelines. Instruction Mode: Lecture Grading Option: Letter

HMGT 600 Managing Risk
Units: 2 Terms Offered: FaSp Overview of reimbursement models in clinical and institutional settings; legal, financial and clinical assumption of risk pursuant to new and evolving federal and state statutory and regulatory provisions. Registration Restriction: Open only to EMHA students. Instruction Mode: Lecture Grading Option: Letter

HMGT 601 Operations Management for Accountability
Units: 4 Terms Offered: FaSp Hospital operations in the inpatient/outpatient setting; special emphasis on the growing requirement to more effectively manage across the continuum of care while assuming greater accountability in the delivery of care. Registration Restriction: Open only to EMHA students. Instruction Mode: Lecture Grading Option: Letter

HMGT 602 Operational Efficiency Processes in Health Care Organizations
Units: 2 Terms Offered: FaSp Improving productivity and efficiency of health care organizations combining the application of key operational analysis principles to improve quality, speed and productivity in the delivery of health care. Registration Restriction: Open only to EMHA students. Instruction Mode: Lecture Grading Option: Letter

HMGT 603 Developing and Monitoring of Quality and Patient Safety Outcomes
Units: 2 Terms Offered: Sm Overview of contemporary methods used to develop and monitor patient quality and safety outcomes; develop skill in data collection and analysis of clinical care outcomes;

focus on operationalizing outcomes that matter to payers, organizations, and clinicians. Registration Restriction: Open only to EMHA students. Instruction Mode: Lecture Grading Option: Letter

Health Promotion and Disease Prevention Studies

HP 101 Current Issues in Medical Education and Healthcare
Units: 2 Terms Offered: Sp Current critical issues in healthcare delivery; strategies to succeed in medical school and as physicians. Instruction Mode: Lecture Grading Option: Letter

HP 200 Introduction to Health Promotion and Disease Prevention
Units: 4 Terms Offered: Fa Introduction to strategies for promoting health and wellness. Includes self monitoring of health risk behavior, goal setting, and behavior changes. Instruction Mode: Lecture Grading Option: Letter

HP 230 Nutrition and Health
Units: 4 Terms Offered: FaSp Nutrition as it relates to health promotion across the lifespan and disease prevention. Discussion of nutrients, factors affecting food choices, food safety and global nutrition issues. Instruction Mode: Lecture Grading Option: Letter

HP 250 Introduction to Addiction Science
Units: 4 Terms Offered: Fa Causes and consequences of addiction as they relate to the individual, family, community and society are discussed. Instruction Mode: Lecture Grading Option: Letter

HP 270 Introduction to Global Health
Units: 4 Terms Offered: Fa Introduction to concepts of global health and disease control. Issues of globalization, global governance, emerging diseases, infectious disease treatment, and outbreak challenges. Instruction Mode: Lecture Grading Option: Letter

HP 290 Introduction to Research Apprenticeship
Units: 2 Max Units: 8.0 Terms Offered: FaSp Individual research apprenticeship in health related fields under supervision of a departmental faculty member. Instruction Mode: Lecture Grading Option: Credit/No Credit

HP 299 Special Topics
Units: 1, 2, 3, 4, 5, 6, 7, 8 Max Units: 08 Terms Offered: FaSpSm Special topics in Health Promotion and Global Health. Instruction Mode: Lecture Grading Option: Letter

HP 300 Theoretical Principles of Health Behavior
Units: 4 Terms Offered: FaSp Overview and analysis of predictors and consequences of health-related behaviors; theoretical viewpoints and strategies for behavior change. *Prerequisite:* PSYC 100. *Recommended Preparation:* HP 200; Instruction Mode: Lecture Grading Option: Letter

HP 320 Biological and Behavioral Basis of Disease
Units: 4 Terms Offered: FaSp Examination of the major systems of the human body; disease processes and behavioral risk factors. *Prerequisite:* BISC 220 or BISC 221. Instruction Mode: Lecture Grading Option: Letter

HP 340Lg Health Behavior Statistical Methods
Units: 4 Terms Offered: FaSp Intermediate statistics for health behavior studies; topics include descriptive statistics, hypothesis testing, correlation and regression, and use of computer software in data analysis. Satisfies New General Education in F Quantitative Reasoning Instruction Mode: Lecture, Lab Required Grading Option: Letter

HP 345 Health Issues in Entertainment Media
Units: 4 Terms Offered: FaSpSm Study of major chronic illnesses and their risk factors as a foundation for discussions about the portrayal of health and illness in entertainment media. Duplicates Credit in the former CNTV 345. Instruction Mode: Lecture Grading Option: Letter

HP 350L Health Behavior Research Methods
Units: 4 Terms Offered: FaSp Introduction to the design, conduct and evaluation of health behavior research studies; quantitative and qualitative approaches to research and analysis. *Recommended Preparation:* HP 340. Instruction Mode: Lecture, Lab Required Grading Option: Letter

HP 365gmw Culture, Lifestyle, and Health
Units: 4 Terms Offered: FaSp Comparison of national and international differences in health status as influenced by cultural practices and lifestyles within geographic, economic, and political environments. Satisfies New General Education in Category C: Social Analysis Satisfies Global Perspective in Category G: Citizenship in a Diverse World Duplicates Credit in HP 400m Instruction Mode: Lecture Grading Option: Letter

HP 370g Introduction to Epidemiology: Methods and Applications
Units: 4 Examines the primary goals and methods of epidemiology, the study of factors that influence health and disease in individuals and populations. Satisfies New General Education in Category F: Quantitative Reasoning Instruction Mode: Lecture Grading Option: Letter

HP 401 Cultural Competence in Medicine
Units: 4 Terms Offered: Fa Systematic development of specific professional skills for providing effective, culturally sensitive health services to diverse populations. *Recommended Preparation:* ANTH 101. Instruction Mode: Lecture Grading Option: Letter

HP 402 Maternal and Child Health
Units: 4 Terms Offered: Sp Health issues of women of childbearing age from pre-pregnancy through the postpartum period, and of children from their development in utero through early adolescence. *Recommended Preparation:* PSYC 100. Instruction Mode: Lecture Grading Option: Letter

HP 403 Behavioral Medicine
Units: 4 Terms Offered: Sp Examines behavioral risk factors for illness, health-enhancing and health-compromising behaviors, stress/coping in promoting health and preventing illness, and behavioral management of chronic illness. *Prerequisite:* PSYC 100. Instruction Mode: Lecture Grading Option: Letter

HP 404 Religion and Health
Units: 4 Terms Offered: Fa Differential relationships of religiosity and spirituality with health and risk behaviors, physical and mental health outcomes, coping skills and well-being across cultures and religions. Instruction Mode: Lecture Grading Option: Letter

HP 405 Sexually Transmitted Diseases: A Global Public Health Priority
Units: 4 An overview of the magnitude and impact of STDs including prevention, diagnosis, and treatment of common STDs, STD/HIV interrelationship, global burden, trends, public health challenges, and STD/HIV prevention and control strategies and programs worldwide. Instruction Mode: Lecture Grading Option: Letter

HP 408 Environmental Health in the Community
Units: 4 Survey of occupational and environmental health. Introduction to epidemiology, exposure assessment, toxicology, policy development, risk assessment, and effects of urban development on health. Instruction Mode: Lecture Grading Option: Letter

HP 409 Environmental Impacts on the Brain
Units: 4 An examination of the physical and chemical factors in the environment that contribute to neurodevelopmental disorders, cognitive function and neurodegeneration. Instruction Mode: Lecture Grading Option: Letter

HP 410 Issues in Prevention and Cessation of Drug Abuse
Units: 4 Terms Offered: Sp Examination of factors related to drug abuse behaviors; overview and assessment of drug abuse prevention and cessation programs; relapse prevention programs. *Recommended Preparation:* HP 300. Instruction Mode: Lecture Grading Option: Letter

HP 411 Drug Intervention Program Design and Evaluation
Units: 4 Terms Offered: Sp Strategies for drug abuse prevention and intervention; introduction to techniques and research methods used in designing, conducting, and evaluating drug abuse prevention programs. *Recommended Preparation:* HP 410. Instruction Mode: Lecture Grading Option: Letter

HP 412 Health Promotion and Prevention Policy
Units: 4 Terms Offered: Sp Overview of health promotion and drug prevention policy at local, state, and federal levels; methods for evaluating policy effectiveness and cost effectiveness. Instruction Mode: Lecture Grading Option: Letter

HP 420m Gender and Minority Health Issues
Units: 4 Terms Offered: Fa Examines the nature and roots of health disparities among women, men, and different ethnic and age groups; methods for reducing such disparities; strategies for prevention services. Instruction Mode: Lecture Grading Option: Letter

HP 421 Violence as a Public Health Issue
Units: 4 Terms Offered: Fa Patterns and prevalence of violence; psychosocial, environmental, and biological influences on violent behavior; youth gangs; drugs and violence; family violence; and prevention and intervention strategies. Instruction Mode: Lecture Grading Option: Letter

HP 422 AIDS in Society
Units: 4 Terms Offered: Sp Provides a broad examination of issues in HIV/AIDS, including behavioral, social, biological, clinical and ethical dimensions of the pandemic in the U.S. and elsewhere. Instruction Mode: Lecture Grading Option: Letter

HP 430 Obesity and Health
Units: 4 Terms Offered: Fa Examination of causes and consequences of obesity, with emphasis on health risks of type II diabetes and cardiovascular disease. *Recommended Preparation:* HP 230. Instruction Mode: Lecture Grading Option: Letter

HP 431 Behavior and Education Strategies for Nutrition and Fitness
Units: 4 Terms Offered: Sp Examination of dietary intake and exercise behaviors as they relate to health and illness; methods for measuring diet and exercise. *Recommended Preparation:* HP 430. Instruction Mode: Lecture Grading Option: Letter

HP 432 Clinical Nutrition
Units: 4 Terms Offered: Irregular Metabolism of carbohydrates, fats and protein; introduction to vitamins, minerals and dietary modifications in various pathological conditions. *Prerequisite:* CHEM 105a; *Recommended Preparation:* HP 230. Instruction Mode: Lecture Grading Option: Letter

HP 433 Advanced Topics in Nutrition
Units: 4 Terms Offered: Sp In-depth discussion of vitamins and minerals and their role in human nutrition; introduction to the role of vitamins and minerals in selected pathological conditions. *Prerequisite:* HP 432. Instruction Mode: Lecture Grading Option: Letter

HP 434 Physical Activity and Health
Units: 4 Terms Offered: FaSpSm Examination of the health impacts of physical inactivity; participation rates across subgroups; physical activity determinants; and interventions, programs, and policies to promote physical activity. *Recommended Preparation:* HP 200. Instruction Mode: Lecture Grading Option: Letter

HP 440 Happiness, Well-Being, and Health
Units: 4 Terms Offered: Sp Explores human strengths that promote happiness/well-being and whether they influence physical health; mind-body relationships; and strategies for promoting hope, resilience, and quality of life. *Recommended Preparation:* HP 200, PSYC 100. Instruction Mode: Lecture Grading Option: Letter

HP 441 Health Promotion in the Workplace
Units: 4 Terms Offered: Fa Covers phases of worksite health promotion; research, design, implementation and evaluation; concerns regarding escalating medical costs and the role of health promotion in offering solutions. Instruction Mode: Lecture Grading Option: Letter

HP 442 Chronic Disease Epidemiology
Units: 4 Terms Offered: Sp Overview of causative factors and demographic distributions of the major chronic diseases in the western world; epidemiologic concepts and research designs. *Recommended Preparation:* HP 320. Instruction Mode: Lecture Grading Option: Letter

HP 443 Communicating Better Health: What Works and Why
Units: 4 Terms Offered: Sp (Enroll in COMM 443)

HP 446 Poisons, People, and Politics
Units: 4 Terms Offered: Fa Case studies of toxic exposures and investigation of the role of government, scientists, labor and industry in protecting against health threats caused by toxic exposures. Instruction Mode: Lecture Grading Option: Letter

HP 448 Global Environmental Changes and Health
Units: 4 Terms Offered: FaSpSm Discussion of global environmental changes, including climate change, air pollution, water pollution, radiation, and their impacts on human health. Instruction Mode: Lecture Grading Option: Letter

HP 450 Traditional Eastern Medicine and Modern Health
Units: 4 Terms Offered: Fa Overview of traditional Eastern approaches toward health and disease; relevance to modern health issues, emphasizing a comparison between traditional Chinese and modern Western medicine. *Recommended Preparation:* fundamentals of medicine. Instruction Mode: Lecture Grading Option: Letter

HP 460 Adolescent Health
Units: 4 Terms Offered: Fa Survey of the development of healthy and the prevention of health-risk behaviors during adolescence. Prevention and promotion techniques will be explored emphasizing cultural differences. Instruction Mode: Lecture Grading Option: Letter

HP 465 Health Status of Indigenous Peoples of America
Units: 4 Terms Offered: FaSpSm Survey of indigenous people's health, including health conditions, special cultural and ethical considerations, the Indian health system, and the politics of indigenous health. Instruction Mode: Lecture Grading Option: Letter

HP 470 Case Studies in Global Health
Units: 4 Terms Offered: Sp Case study examination of programs and organizational structure underlying current international efforts addressing problems related to infection disease, chronic disease, global environmental change, emergencies and emerging disease epidemics. *Prerequisite:* HP 270. Instruction Mode: Lecture Grading Option: Letter

HP 480 Internship in Health Promotion and Disease Prevention
Units: 2, 3, 4 Max Units: 4.0 Terms Offered: FaSpSm Field placement in a community agency such as a county health services agency, a not for profit voluntary agency or a health care setting. *Prerequisite:* completion or concurrent registration in required core courses. Instruction Mode: Lecture Grading Option: Credit/No Credit

HP 483 Global Health and Aging
Units: 4 Terms Offered: Fa (Enroll in GERO 483)

HP 485 Global Health: Obesity and Nutrition
Units: 4 Terms Offered: FaSpSm Overview of the epidemiology of obesity and related diseases and the etiology of obesity, including genetic, biological, behavioral, environmental and sociocultural correlations. Instruction Mode: Lecture Grading Option: Letter

HP 490x Directed Research
Units: 1, 2, 3, 4, 5, 6, 7, 8 Max Units: 12.0 Terms Offered: FaSpSm Individual research and readings. *Recommended Preparation:* HP 350. *Corequisite:* HP 340; Instruction Mode: Lecture Grading Option: Letter

HP 499 Special Topics
Units: 2, 3, 4 Max Units: 8.0 Lecture and discussion focused on specific topics within health promotion and disease prevention. Course topic will vary from semester to semester. Instruction Mode: Lecture Grading Option: Letter

Human Resource Management

HRM 500 Human Resource Strategy
Units: 2 Terms Offered: FaSpSm Explores the strategic role that human resources management plays in providing organizations with sustained competitive advantages by unlocking the productive potential of employees' human and social capital. Registration Restriction: Open only to Bovard College Human Resources Management students Instruction Mode: Lecture Grading Option: Letter

HRM 505 Organizational Culture and Employee Outcomes
Units: 2 Terms Offered: FaSpSm Prepares students to create, foster, and manage organizations in which people thrive and perform at their best in order to retain talent and reduce costs in a sustainable way. Registration Restriction: Open only to Bovard College Human Resources Management students Instruction Mode: Lecture Grading Option: Letter

HRM 510 Leadership in Human Resources
Units: 2 Terms Offered: FaSpSm Focuses on developing the critical social intelligence skills needed to lead people and change through increased self-awareness, understanding of interpersonal differences, and greater influence. Registration Restriction: Open only to Bovard College Human Resources Management students Instruction Mode: Lecture Grading Option: Letter

HRM 515 Organization Design
Units: 2 Terms Offered: FaSpSm Equips students with a deeper understanding of how to design and develop organizations to increase performance and effectiveness and includes sections on strategy, work, and management processes. Registration Restriction: Open only to Bovard College Human Resources Management students Instruction Mode: Lecture Grading Option: Letter

HRM 520 Talent Management
Units: 2 Terms Offered: FaSpSm Examines talent management processes that impact employee experience and engagement and explores ways to improve data driven

decision making processes including workforce and succession planning. Registration Restriction: Open only to Bovard College Human Resources Management students Instruction Mode: Lecture Grading Option: Letter

HRM 525 Total Rewards
Units: 2 Terms Offered: FaSpSm Provides a comprehensive look at the employee rewards strategies that human resource practitioners promote and manage including compensation, performance management, benefits, and non-monetary rewards. Registration Restriction: Open only to Bovard College Human Resources Management students Instruction Mode: Lecture Grading Option: Letter

HRM 530 Learning and Development
Units: 2 Terms Offered: FaSpSm Prepares students to identify, design, and implement effective learning and development interventions and strategies that drive results and enhance organizational competitiveness. Registration Restriction: Open only to Bovard College Human Resources Management students Instruction Mode: Lecture Grading Option: Letter

HRM 535 Employee Relations
Units: 2 Terms Offered: FaSpSm Applies practical approaches to building positive employee and labor relations and solving related problems through increased employee motivation, effectiveness, and retention. Registration Restriction: Open only to Bovard College Human Resources Management students Instruction Mode: Lecture Grading Option: Letter

HRM 540 Human Resources Analytics
Units: 2 Terms Offered: FaSpSm Examines and emphasizes strategies and techniques to enable improved organizational and human capital decisions by directing the organizational analytics for more actionable insights. Registration Restriction: Open only to Bovard College Human Resources Management students Instruction Mode: Lecture Grading Option: Letter

HRM 545 Management of Diverse and Global Human Resources
Units: 2 Terms Offered: FaSpSm Analyzes global diversity in today's environment, fostering a broad understanding of diversity and inclusion and the impact of diversity, inclusion, and inclusive behaviors on organizations. Registration Restriction: Open only to Bovard College Human Resources Management students Instruction Mode: Lecture Grading Option: Letter

HRM 550 Change Management and Organization Development
Units: 2 Terms Offered: FaSpSm Identifies the common challenges in organizational change management and explores the limitations and opportunities of different models of organizational change. Registration Restriction: Open only to Bovard College Human Resources Management students Instruction Mode: Lecture Grading Option: Letter

HRM 555 Anticipating the Future of Human Resources
Units: 2 Terms Offered: FaSpSm Explores the forces and emerging trends that are reshaping work, the workforce and workplace – and how to address these transformational changes and be effective as a Human Resources leader. Registration Restriction: Open only to Bovard College Human Resources Management students Instruction Mode: Lecture Grading Option: Letter

Hospitality and Tourism

HT 500 Global Hospitality and Tourism
Units: 2 Terms Offered: FaSpSm History, theories, trends and impacts relevant to global hospitality and tourism. Registration Restriction: Open only to USC Bovard College Hospitality and Tourism students Instruction Mode: Lecture Grading Option: Letter

HT 505 Managing Service Quality in Hospitality and Tourism
Units: 2 Terms Offered: FaSpSm Strategic management of service quality in hospitality and tourism. Registration Restriction: Open only to USC Bovard College Hospitality and Tourism students Instruction Mode: Lecture Grading Option: Letter

HT 510 Marketing Strategies for Hospitality and Tourism
Units: 2 Terms Offered: FaSpSm Principles, strategies and techniques relevant to marketing in hospitality and tourism. Registration Restriction: Open only to USC Bovard College Hospitality and Tourism students Instruction Mode: Lecture Grading Option: Letter

HT 515 Financial Management in Hospitality and Tourism
Units: 2 Terms Offered: FaSpSm Financial analysis methods to support sound, evidence-based decision-making in hospitality and tourism organizations. Registration Restriction: Open only to USC Bovard College Hospitality and Tourism students Instruction Mode: Lecture Grading Option: Letter

HT 520 Revenue Management for Hospitality and Tourism
Units: 2 Terms Offered: FaSpSm Key principles and best practices in revenue management and pricing for hospitality and tourism organizations. Registration Restriction: Open only to USC Bovard College Hospitality and Tourism students Instruction Mode: Lecture Grading Option: Letter

HT 525 Ethics in Hospitality and Tourism
Units: 2 Terms Offered: FaSpSm Ethical theories applied to common and strategic situations in hospitality and tourism. Registration Restriction: Open only to USC Bovard College Hospitality and Tourism students Instruction Mode: Lecture Grading Option: Letter

HT 530 Strategic Human Resources in Hospitality and Tourism
Units: 2 Terms Offered: FaSpSm Broad range of human resource concepts and strategies relevant to hospitality and tourism organizations. Registration Restriction: Open only to USC Bovard College Hospitality and Tourism students Instruction Mode: Lecture Grading Option: Letter

HT 535 Applied Research Methods for Hospitality and Tourism
Units: 2 Terms Offered: FaSpSm Applied research methods relevant to evidence-based decision-making in hospitality and tourism. Registration Restriction: Open only to USC Bovard College Hospitality and Tourism students Instruction Mode: Lecture Grading Option: Letter

HT 540 Hospitality and Tourism Data Analytics
Units: 2 Terms Offered: FaSpSm Analysis, interpretation and presentation of data to support evidence-based decision-making in hospitality and tourism. Registration Restriction: Open only to USC Bovard College Hospitality and Tourism students Instruction Mode: Lecture Grading Option: Letter

HT 545 Tourism Development
Units: 2 Terms Offered: FaSpSm Strategies for planning and evaluating sustainable and responsible tourism development projects. Registration Restriction: Open only to USC Bovard College Hospitality and Tourism students Instruction Mode: Lecture Grading Option: Letter

HT 550 Hospitality and Tourism Events
Units: 2 Terms Offered: FaSpSm Analysis, planning and evaluation of meetings and events in hospitality and tourism settings. Registration Restriction: Open only to USC Bovard College Hospitality and Tourism students Instruction Mode: Lecture Grading Option: Letter

HT 555 Hospitality and Tourism Capstone
Units: 2 Terms Offered: FaSpSm Students synthesize knowledge and skills gained throughout the program in a culminating capstone project. Registration Restriction: Open only to USC Bovard College Hospitality and Tourism students Instruction Mode: Lecture Grading Option: Letter

Integrated Design, Business and Technology

IDSN 428 Overview of Intellectual Property Laws for Creatives and Entrepreneurs
Units: 1 Overview of the intellectual properties and a basic vocabulary for understanding of copyright, trademark, and patents for creatives and entrepreneurs. Registration Restriction: Open only to Iovine and Young Academy students Instruction Mode: Lecture Grading Option: Letter

IDSN 505 Intensive
Units: 0.5, 1, 1.5, 2 Max Units: 06 Terms Offered: FaSpSm Optional short-term, primarily residential, learning experience paired with an event/activity. Intensive experience aligns with and extends the cross-disciplinary nature of the program. *Recommended Preparation:* IDSN 510 and IDSN 540 Registration Restriction: Open only to Integrated Design, Business and Technology majors Instruction Mode: Lecture Grading Option: Letter

IDSN 510 Integrative Practices Residential
Units: 2 Terms Offered: FaSpSm One-week campus residential. Introduction to program themes, content, concepts, theories and processes. Opportunity to build skills and meet cohort, with an emphasis on team building. *Concurrent Enrollment:* IDSN 540 Registration Restriction: Open only to Integrated Design, Business and Technology majors Instruction Mode: Lecture Grading Option: Credit/No Credit

IDSN 515 Professional Practices Residential
Units: 2 Max Units: 04 Terms Offered:

FaSpSm One-week off-campus residential. Applied, intensive workshop format focused on solutions for real-world problems with input from industry experts. *Recommended Preparation:* IDSN 510, IDSN 520, IDSN 525, IDSN 530, IDSN 540 Registration Restriction: Open only to Integrated Design, Business and Technology majors Instruction Mode: Lecture Grading Option: Letter

IDSN 520 Design Essentials
Units: 3 Terms Offered: FaSpSm Overview of design language, process and product. Build fluency in applying core visual principles and design-based problem-solving techniques. Explore historical and contemporary design issues. Registration Restriction: Open only to Integrated Design, Business and Technology majors Instruction Mode: Lecture Grading Option: Letter

IDSN 525 Business Essentials
Units: 3 Terms Offered: FaSpSm Overview of general business and management concepts and techniques that builds theoretical and analytical fluency and identifies and examines leadership and managerial challenges. Registration Restriction: Open only to Integrated Design, Business and Technology majors Instruction Mode: Lecture Grading Option: Letter

IDSN 528 Using Intellectual Property Laws to Protect Your Products and Ideas
Units: 2 The second of a two-course sequence explaining issues of copyrights, trademarks and patents that underly ownership of an idea or product. *Prerequisite:* IDSN 428 Registration Restriction: Open only Integrated Design, Business and Technology students Instruction Mode: Lecture Grading Option: Letter

IDSN 530 Technology Essentials
Units: 3 Terms Offered: FaSpSm Overview of core information technology concepts, methods, and frameworks. Develop aptitude in using tools, applications and systems; learn basic programming languages and methodologies. Registration Restriction: Open only to Integrated Design, Business and Technology majors Instruction Mode: Lecture Grading Option: Letter

IDSN 533 Visual Software Development
Units: 2 Introduction to no-code developer tools; development of a business or creative concept from the initial idea to a functioning minimum viable product. *Recommended Preparation:* IDSN 530 Registration Restriction: Open only to Integrated Design, Business and Technology students Instruction Mode: Lecture Grading Option: Letter

IDSN 536 Designing Networked Objects: From IoT to Smart Environments
Units: 3 Introduces concepts of interaction design through the medium of physical computing. Students learn the technological basics to create innovative, interactive experiences in physical objects. *Recommended Preparation:* IDSN 530 Registration Restriction: Open only to Integrated Design, Business and Technology students Instruction Mode: Lecture Grading Option: Letter

IDSN 540 Processes and Perspectives
Units: 4 Terms Offered: FaSpSm Discipline-specific, cross-disciplinary and shared approaches to products, services, projects, systems, organizational development. Topics include creative and user-focused perspectives, feasibility analytics, lean startup techniques. *Concurrent Enrollment:* IDSN 510 Registration Restriction: Open only to Integrated Design, Business and Technology majors Instruction Mode: Lecture Grading Option: Letter

IDSN 545 Integrative Project
Units: 3 Terms Offered: FaSpSm Faculty-mentored project. Demonstrate individual and simultaneous skills and competency across fields and within cross-functional, cross-disciplinary teams. *Prerequisite:* IDSN 510 and IDSN 540 Registration Restriction: Open only to Integrated Design, Business and Technology students Instruction Mode: Lecture Grading Option: Letter

IDSN 546 Integrative Studio
Units: 2 Max Units: 04 Terms Offered: FaSpSm A project-based course that uses human-centered design research and methodologies to identify and explore a specific problem space or context. *Prerequisite:* IDSN 545 Registration Restriction: Open only to Integrated Design, Business and Technology students Instruction Mode: Lecture Grading Option: Letter

IDSN 550 Opportunity and Uncertainty
Units: 4 Terms Offered: FaSpSm Discipline-specific, cross-disciplinary and shared approaches to recognizing/analyzing opportunities, identifying/framing problems and developing/iterating solutions. Techniques gleaned from entrepreneurship, creative practices, critical thinking methods, ethnography, systems theory. *Prerequisite:* IDSN 510 and IDSN 540 Registration Restriction: Open only to Integrated Design, Business and Technology students Instruction Mode: Lecture Grading Option: Letter

IDSN 560 Narrative and Storytelling
Units: 4 Terms Offered: FaSpSm Discipline-specific, cross-disciplinary and shared approaches to exploring visual, written and spoken storytelling using digital modalities. Topics include communication theory, narrative structures and content creation. *Prerequisite:* IDSN 510 and IDSN 540 Registration Restriction: Open only to Integrated Design, Business and Technology students Instruction Mode: Lecture Grading Option: Letter

IDSN 565 Sound and Story
Units: 2 Sound can augment a story. Students will learn to approach sound for multimedia, product and experiential design with the writer's mindset. *Prerequisite:* IDSN 560 Registration Restriction: Open only to Integrated Design, Business and Technology students Instruction Mode: Lecture Grading Option: Letter

IDSN 570 Decisions and Solutions
Units: 4 Generate portfolio of solutions for a given "problem." Explore solutions and decisions, mechanisms for reducing uncertainty and risk. Includes quantitative and qualitative techniques. *Prerequisite:* IDSN 510 and IDSN 540 Registration Restriction: Open only to Integrated Design, Business and Technology majors Instruction Mode: Lecture Grading Option: Letter

IDSN 575 International Experience
Units: 2 Max Units: 04 Terms Offered: Sp International study experience and trip focusing on a primary subject area of the USC Iovine and Young Academy. Registration Restriction: Open only to IDSN students Instruction Mode: Lecture Grading Option: Letter

IDSN 577 Finance for Entrepreneurs
Units: 3 The life cycle of a new venture from idea to construction of an enterprise to a decision about financial viability. *Recommended Preparation:* IDSN 525 Registration Restriction: Open only to Integrated Design, Business and Technology students Instruction Mode: Lecture Grading Option: Letter

IDSN 585 Capstone
Units: 3 Terms Offered: FaSpSm Faculty-mentored, applied project with individual and team components. Implement a prototype solution to a problem. Deploy relevant tools, methods and processes learned throughout the program. *Prerequisite:* IDSN 545 *Recommended Preparation:* All other required courses (excluding concurrent courses) Registration Restriction: Open only to Integrated Design, Business and Technology majors Instruction Mode: Lecture Grading Option: Letter

IDSN 590 Directed Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Terms Offered: FaSpSm Research leading to the master's degree. Maximum units, which may be applied to the degree, to be determined by the department. Graded CR/NC. Registration Restriction: Open only to IDSN majors Instruction Mode: Lecture Grading Option: Credit/No Credit

IDSN 599 Special Topics
Units: 1, 2, 3, 4, 5, 6, 7, 8 Max Units: 08 Terms Offered: Irregular Selected topics in design, business and technology. Registration Restriction: Open only to Integrated Design, Business and Technology students Instruction Mode: Lecture Grading Option: Letter

Media Arts and Practice

Note: Instructor availability for a particular course or section cannot be guaranteed.

IML 104 Introduction to Digital Studies
Units: 2 Terms Offered: FaSpSm An introduction to the expressive range of screen languages in their cultural, historical, and technological contexts. Instruction Mode: Lecture, Lab Grading Option: Letter

IML 140 Workshop in Multimedia Authoring
Units: 2 Terms Offered: FaSpSm Introduction to the expressive potential of multimedia as a critical and creative tool, supplementing traditional forms of academic work. Instruction Mode: Lecture, Lab Grading Option: Letter

IML 201 The Languages of Digital Media
Units: 4 Terms Offered: FaSpSm An in-depth investigation of the close interrelationships among technology, culture and communication to form a solid foundation for digital authoring. Duplicates Credit in former IML 101. Instruction Mode: Lecture, Lab Grading Option: Letter

IML 202 Media Arts and Practice Studio I
Units: 4 Terms Offered: Fa Intermediate laboratory exploring the foundations of visual culture through a series of critical design prompts. Emphasis on the creative process, project documentation and the development of a personal design methodology. *Prerequisite:* IML

201 Registration Restriction: Open only to Media Arts and Practice students Duplicates Credit in former IML 102 Instruction Mode: Lecture, Lab Grading Option: Letter

IML 203 Media Arts and Practice Studio II
Units: 4 Terms Offered: Sp Intermediate laboratory exploring computational systems through a series of critical design prompts. Emphasis on digital representation, time-based processes, abstract data and the relationship between humans and computers. *Prerequisite:* IML 202 Registration Restriction: Open only to Media Arts and Practice students Duplicates Credit in former IML 103 Instruction Mode: Lecture, Lab Grading Option: Letter

IML 230 Fundamentals of Media Design
Units: 4 Terms Offered: FaSp Introduction to the methods of visual design with respect to digital media authorship. Exploring the creative process through various conceptual workflows and hands-on techniques. Instruction Mode: Lecture, Lab Grading Option: Letter

IML 288 Critical Thinking and Procedural Media
Units: 4 Terms Offered: FaSp Investigation of the potentials of computational media to define new aesthetics, modes of representation and structures of communication. Duplicates Credit in IML 388 Instruction Mode: Lecture, Lab Grading Option: Letter

IML 295Lm Race, Class and Gender in Digital Culture
Units: 4 Terms Offered: FaSp Critical analysis of the categories of race, class and gender within the diverse digital spaces of contemporary culture, from video games to the digital divide. Instruction Mode: Lecture, Lab Required Grading Option: Letter

IML 300 Reading and Writing the Web
Units: 4 Terms Offered: FaSp An introduction to a broad range of technical and theoretical issues surrounding the production of web-based content. Instruction Mode: Lecture, Lab Grading Option: Letter

IML 309 Integrative Design for Mobile Devices
Units: 4 Terms Offered: FaSp Hands-on investigation of opportunities and challenges offered by mobile interaction within both cultural and ideological contexts. Instruction Mode: Lecture, Lab Grading Option: Letter

IML 310 Professionalism for Media Arts
Units: 2 Terms Offered: FaSpSm Development of documentation and archival strategies, with an emphasis on techniques of personal and professional representation. *Prerequisite:* IML 300 Instruction Mode: Lecture, Lab Grading Option: Letter

IML 320 Designing and Writing for Transmedia Narratives
Units: 4 Terms Offered: FaSp Creating a story that uses three or more digital platforms (video, social media, games, comics, et cetera) with strategies drawn from entertainment, art and activism. Instruction Mode: Lecture, Lab Grading Option: Letter

IML 328 Sonic Media Art
Units: 2 Terms Offered: FaSp Survey of audio culture and sound technologies, focusing on developing sonic literacy and creating artwork using sound as a primary modality. Instruction Mode: Lecture, Lab Grading Option: Letter

IML 335 Digital Narrative Design I
Units: 2 Terms Offered: FaSp An introduction to audio and video techniques for digital storytelling across various platforms. Students will create multiple short-form projects using contemporary tools and technologies. Instruction Mode: Lecture, Lab Grading Option: Letter

IML 340 Remixing the Archive
Units: 4 Max Units: 8 Terms Offered: FaSp An intermediate level course which approaches archived material from multiple perspectives, in order to develop new avenues of expression, education, and research. Instruction Mode: Lecture, Lab Grading Option: Letter

IML 346 Methods in Digital Research
Units: 2 Terms Offered: FaSpSm Emphasizing rigorous multimedia research and authorship strategies, this course prepares students to undertake large-scale digital projects. *Prerequisite:* IML 104 or IML 201 Registration Restriction: Open only to juniors and seniors Instruction Mode: Lecture, Lab Grading Option: Letter

IML 354 Introduction to 3-D Modeling
Units: 2 Terms Offered: FaSp An introduction to the history, theory and critical context of 3-D spatial representation, as well as foundational authoring skills in modeling interactive 3-D spaces. Instruction Mode: Lecture, Lab Grading Option: Letter

IML 365 Future Cinema
Units: 4 Terms Offered: FaSp Examination of the history of cinematic experimentation to provide a framework for understanding contemporary virtual reality, augmented reality, interactive installations and large-scale urban screens. Instruction Mode: Lecture Grading Option: Letter

IML 385 Design Fiction and Speculative Futures
Units: 4 Terms Offered: FaSp The history, theory and methods of design fiction, focusing on design videos and physical prototypes as tools for exploring contemporary social, political and ethical life. Instruction Mode: Lecture, Lab Grading Option: Letter

IML 400 Creative Coding for the Web
Units: 4 Terms Offered: FaSp Analysis and development of scholarly media projects using diverse web authoring strategies, technologies and documentation. *Prerequisite:* IML 300. Instruction Mode: Lecture, Lab Grading Option: Letter

IML 404 Tangible and Spatial Computing
Units: 4 Terms Offered: FaSp Exploration of extended human computer interaction, including new forms of haptic, sonic and other sense modalities, through physical computing and spatial interfaces. *Prerequisite:* IML 288 Instruction Mode: Lecture, Lab Grading Option: Letter

IML 419 Emotion in Digital Culture
Units: 4 Terms Offered: FaSp Project-based course examining emotion in relation to technology, digital culture and the human experience. Instruction Mode: Lecture, Lab Grading Option: Letter

IML 420m New Media for Social Change
Units: 4 Max Units: 8.0 Terms Offered: FaSp Creating real social change through multimedia, working in collaboration with a local nonprofit organization. Instruction Mode: Lecture, Lab Grading Option: Letter

IML 422 Information Visualization
Units: 4 Terms Offered: FaSp Visualizing information through diverse media platforms, with a focus on critical analysis and hands-on visualization. Duplicates Credit in the former IML 222 Instruction Mode: Lecture, Lab Grading Option: Letter

IML 428 Exploring and Creating Sonic Environments
Units: 4 Terms Offered: FaSp Exploration of spatial sound practices, focusing on sound installation art, sonic visualization and audio storytelling techniques. *Prerequisite:* IML 328 Instruction Mode: Lecture, Lab Grading Option: Letter

IML 430 Visual Communication and Experience Design
Units: 4 Terms Offered: FaSp Studio course focused on visual design, UX/UI design and the creative process. Emulating design agencies and working with clients and creative briefs. *Prerequisite:* IML 230 Instruction Mode: Lecture, Lab Grading Option: Letter

IML 435 Digital Narrative Design II
Units: 4 Terms Offered: FaSp Exploration of advanced techniques in digital audio and video storytelling. Emphasis on nonlinearity, computer graphics, sound design and networked media. *Prerequisite:* IML 335 Instruction Mode: Lecture, Lab Grading Option: Letter

IML 436 Hypercinemas Studio
Units: 4 Terms Offered: FaSp A hands-on exploration of emerging cinematic technologies, situated within a historical context through both theoretical and practical analysis. *Prerequisite:* IML 335 Instruction Mode: Lecture, Lab Grading Option: Letter

IML 440 Thesis Project
Units: 4 Terms Offered: FaSp Production of a digital thesis project. *Prerequisite:* IML 346 and IML 203 Instruction Mode: Lecture, Lab Grading Option: Letter

IML 441 Thesis Project I
Units: 2 Terms Offered: Fa Exploration of theoretical and practical concerns of advanced digital media authorship. *Prerequisite:* IML 346 and IML 203 Registration Restriction: Open only to Media Arts and Practice majors Instruction Mode: Lecture, Lab Grading Option: Letter

IML 444 Thesis Project II
Units: 2 Terms Offered: Sp Production of a digital thesis project. *Prerequisite:* IML 440 or IML 441 Registration Restriction: Open only to Media Arts and Practice majors Instruction Mode: Lecture, Lab Grading Option: Letter

IML 450 Critical Play and Documentary Games
Units: 4 Terms Offered: FaSp Investigation of the history and theory of games designed to prompt social change, with a hands-on component in the creation of documentary game projects. Instruction Mode: Lecture, Lab Grading Option: Letter

IML 454 Advanced Techniques of Spatial Representation
Units: 4 Terms Offered: FaSp Studio class exploring spatial perception and advanced techniques of 3-D representation, stereoscopy, panorama, projection mapping, modeling for real-time environments, parametric modeling, and 3-D fabrication. *Prerequisite:* IML 354 Instruction Mode: Lecture, Lab Grading Option: Letter

IML 456 Nature, Design and Media
Units: 2 Terms Offered: FaSp Investigation of the impact of natural patterns on digital media design. Explores the relationships among chaos, harmony, beauty, proportion, spirituality, holistic systems and shaped experience. Instruction Mode: Lecture, Lab Grading Option: Letter

IML 458 The Embedded Story: Designing Digital Landscapes and Languages
Units: 2 Terms Offered: FaSp Exploration of the imagined territories where language and landscape originate, converge and are transformed. Students will collaborate to create media in cross-platform environments. Instruction Mode: Lecture, Lab Grading Option: Letter

IML 466 Digital Studies Symposium
Units: 2 Terms Offered: FaSp Lectures, presentations, and readings introducing cutting-edge digital media innovations and applications. Analysis of the critical and creative challenges of contemporary digital media practices. Instruction Mode: Lecture, Lab Grading Option: Letter

IML 475 Media Arts Research Lab
Units: 2, 3, 4 Max Units: 8 Terms Offered: FaSpSm A hands-on mentored research lab experience within the context of media art and in association with a real-world project. Instruction Mode: Lecture, Lab Grading Option: Letter

IML 477 Embodied Storytelling and Immersive Docu-Narratives
Units: 4 Terms Offered: FaSp Examination of art, media, and theatre, to create an immersive, installation-based intervention utilizing the embodied 360-degree docu-narrative form. Instruction Mode: Lecture, Lab Grading Option: Letter

IML 481 Mixed Realities: Histories, Theories and Practices
Units: 4 Terms Offered: FaSp A comprehensive orientation to mixed reality, delving into its theories and histories while grounding students in a hands-on introduction to current tools and techniques. *Recommended Preparation:* IML 288, IML 354, or experience with programming and 3-D design programs Instruction Mode: Lecture, Lab Grading Option: Letter

IML 490x Directed Research
Units: 1, 2, 3, 4, 5, 6, 7, 8 Max Units: 12 Terms Offered: FaSpSm Individual research and readings. *Prerequisite:* IML 104 or IML 201 Instruction Mode: Lecture Grading Option: Letter

IML 499 Special Topics
Units: 2, 3, 4 Max Units: 8.0 Terms Offered: FaSpSm Selected topics in multimedia literacy. Instruction Mode: Lecture, Lab Grading Option: Letter

IML 500 The Praxis of Sonic and Visual Media
Units: 4 Terms Offered: FaSpSm An introduction to digital authorship at the graduate level, with a focus on the potential of multimedia scholarship and networked dissemination. Registration Restriction: Open only to graduate students Instruction Mode: Lecture, Lab Grading Option: Letter

IML 501L Digital Media Authorship and the Archive
Units: 4 Terms Offered: FaSpSm An in-depth examination of emergent technologies in their cultural and historic contexts, with an equal emphasis on production and analysis. Registration Restriction: Open only to graduate students Instruction Mode: Lecture, Lab Required Grading Option: Letter

IML 502 Techniques of Information Visualization
Units: 4 Terms Offered: FaSp Critical and practical analysis of scholarly data visualization using diverse platforms. Open only to graduate students. Registration Restriction: Open only to graduate students. Instruction Mode: Lecture, Lab Grading Option: Letter

IML 520 Non-Fiction Cinematic Practice I
Units: 2 Terms Offered: Fa An introduction to video in academic scholarship. Acquisition and editing of images and sound through a series of short, non-fiction media projects. Instruction Mode: Lecture, Lab Grading Option: Letter

IML 521 Non-Fiction Cinematic Practice II
Units: 2 Terms Offered: Sp Deepening skills in audio/video storytelling methods through a semester-long, non-fiction media project. *Prerequisite:* IML 520 Instruction Mode: Lecture, Lab Grading Option: Letter

IML 535 Tactical Media Strategies
Units: 4 Terms Offered: FaSp Integrating hardware, software and interactivity to explore new forms of expression. Emphasis on critical tactics (culture hacking, creative misuse) aimed at activism and social change. Instruction Mode: Lecture, Lab Grading Option: Letter

IML 543 Transdisciplinary Media Design Practicum
Units: 4 Max Units: 8 Terms Offered: FaSp Collaboration of artists and designers with non-art professionals to develop cross-disciplinary, media-based creative interventions. *Recommended Preparation:* CTIN 503 and CTIN 541. Instruction Mode: Lecture, Lab Grading Option: Letter

IML 555 Digital Pedagogies
Units: 4 Terms Offered: FaSp An exploration of varied pedagogical approaches and strategies informed by critical engagement with digital media and networked technologies. Instruction Mode: Lecture, Lab Grading Option: Letter

IML 575 Graduate Media Arts Research Lab
Units: 2, 3, 4 Max Units: 8 Terms Offered: FaSpSm A hands-on mentored graduate research lab experience within the context of media art and in association with a real-world project. Open only to graduate students. Registration Restriction: Open only to graduate students. Instruction Mode: Lecture, Lab Grading Option: Letter

IML 585 Creative Critical Writing Workshop
Units: 2 Max Units: 4 Terms Offered: FaSpSm A writing workshop to explore innovative forms for critical writing, media-rich writing and video that borrow from creative nonfiction, the lyric essay, poetic/vernacular criticism. Instruction Mode: Lecture Grading Option: Letter

IML 590 Directed Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Terms Offered: FaSpSm Research leading to the master's degree. Maximum units which may be applied to the degree to be determined by the department. Instruction Mode: Lecture, Lab Grading Option: Letter

IML 599 Special Topics
Units: 2, 3, 4 Max Units: 8 Terms Offered: FaSpSm Detailed investigation of new or emergent practices in digital media; special subjects offered by visiting faculty; experimental subjects. Instruction Mode: Lecture Grading Option: Letter

IML 600 Historical Approaches to Media Arts and Culture
Units: 4 Terms Offered: FaSp Introduction to the historical specificities of "old" media (painting, print, photography, film, video, television) and to consequences of the convergences produced by "new" media forms. Duplicates Credit in former CNTV 600. Instruction Mode: Lecture Grading Option: Letter

IML 601 Seminar in Media and Design Studies
Units: 4 Terms Offered: FaSp Creation of a work of digital culture, informed by cultural theory, and planned using current design methods and practices. Duplicates Credit in former CNTV 601. Instruction Mode: Lecture Grading Option: Letter

IML 602 Practice of Media Arts
Units: 4 Max Units: 8 Terms Offered: FaSp Introduction to a range of technologies and media types, while identifying and developing a specialization in one or more areas of practice. Duplicates Credit in former CNTV 602. Instruction Mode: Lecture, Lab Grading Option: Letter

IML 603 Media Arts and Practice Colloquium / Professional Seminar
Units: 1 Max Units: 2 Terms Offered: FaSp Orientation to the profession, opportunities, presentation and analysis of recent developments and applications in Media Arts and Practice. Duplicates Credit in former CNTV 603. Instruction Mode: Lecture Grading Option: Credit/No Credit

IML 604 Theories of Media Arts and Practice
Units: 4 Terms Offered: FaSp Develops an anti-essentialist theory of technology adequate to the digital age that serves as a conceptual and critical framework for developing a contemporary technological imagination. Duplicates Credit in former CNTV 604. Instruction Mode: Lecture Grading Option: Letter

IML 605 Cinema to Post-Cinema and Beyond: History, Theory, Practice
Units: 4 Terms Offered: FaSp Introduction to contemporary media theory, with attention to posthumanism, networks, and the post-cinematic, and a demonstration of these concepts in media art. Instruction Mode: Lecture, Lab Grading Option: Letter

IML 606 Visiting Artist and Scholar Seminar
Units: 2 Max Units: 04 Terms Offered: FaSp Workshops, conversations and critique

sessions conducted by visiting media artists and arts-research scholars. Instruction Mode: Lecture, Lab Grading Option: Credit/No Credit

IML 794a Doctoral Dissertation
Units: 2 Terms Offered: FaSpSm Credit on acceptance of dissertation. Duplicates Credit in CNTV 794a Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

IML 794b Doctoral Dissertation
Units: 2 Terms Offered: FaSpSm Credit on acceptance of dissertation. Duplicates Credit in CNTV 794b Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

IML 794c Doctoral Dissertation
Units: 2 Terms Offered: FaSpSm Credit on acceptance of dissertation. Duplicates Credit in CNTV 794c Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

IML 794d Doctoral Dissertation
Units: 2 Terms Offered: FaSpSm Credit on acceptance of dissertation. Duplicates Credit in CNTV 794d Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

IML 794z Doctoral Dissertation
Units: 0 Terms Offered: FaSpSm Credit on acceptance of dissertation. Duplicates Credit in CNTV 794z Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

Interdisciplinary — Developmental Dentistry

INDD 501 Applied Growth and Development
Units: 1 Clinical relevance of chronological and biological assessment of maturation related primarily to diagnosis and prognosis. Instruction Mode: Lecture Grading Option: Letter

INDD 650a Dental Research Participation
Units: 1, 2, 3, 4, 5, 6 each Assist in research in basic science, biomedical, or clinical dental areas. Experience in research strategy, design and methods using practical scientific problem solving. Instruction Mode: Lecture Grading Option: Letter

INDD 650b Dental Research Participation
Units: 1, 2, 3, 4, 5, 6 each Assist in research in basic science, biomedical, or clinical dental areas. Experience in research strategy, design and methods using practical scientific problem solving. Instruction Mode: Lecture Grading Option: Letter

INDD 650c Dental Research Participation
Units: 1, 2, 3, 4, 5, 6 each Assist in research in basic science, biomedical, or clinical dental areas. Experience in research strategy, design and methods using practical scientific problem solving. Instruction Mode: Lecture Grading Option: Letter

INDD 650d Dental Research Participation
Units: 1, 2, 3, 4, 5, 6 each Assist in research in basic science, biomedical, or clinical dental areas. Experience in research strategy, design and methods using practical scientific problem solving. Instruction Mode: Lecture Grading Option: Letter

INDD 650e Dental Research Participation
Units: 1, 2, 3, 4, 5, 6 each Assist in research in basic science, biomedical, or clinical dental areas. Experience in research strategy, design and methods using practical scientific problem solving. Instruction Mode: Lecture Grading Option: Letter

INDD 650f Dental Research Participation
Units: 1, 2, 3, 4, 5, 6 each Assist in research in basic science, biomedical, or clinical dental areas. Experience in research strategy, design and methods using practical scientific problem solving. Instruction Mode: Lecture Grading Option: Letter

INDD 651a Experience in Dental Teaching
Units: 1, 2, 3, 4, 5, 6 each Practical teaching experience in dental laboratory and clinic settings under faculty supervision. Includes instruction in effective methods. Instruction Mode: Lecture Grading Option: Letter

INDD 651b Experience in Dental Teaching
Units: 1, 2, 3, 4, 5, 6 each Practical teaching experience in dental laboratory and clinic settings under faculty supervision. Includes instruction in effective methods. Instruction Mode: Lecture Grading Option: Letter

INDD 651c Experience in Dental Teaching
Units: 1, 2, 3, 4, 5, 6 each Practical teaching experience in dental laboratory and clinic settings under faculty supervision. Includes instruction in effective methods. Instruction Mode: Lecture Grading Option: Letter

INDD 651d Experience in Dental Teaching
Units: 1, 2, 3, 4, 5, 6 each Practical teaching experience in dental laboratory and clinic settings under faculty supervision. Includes instruction in effective methods. Instruction Mode: Lecture Grading Option: Letter

INDD 652 Externship
Units: 1, 2, 3, 4, 5, 6 Dental experience at an off-site location — not limited to clinical experience. Student participation must be approved by Associate Dean for Student and Academic Life. Instruction Mode: Lab Grading Option: Credit/No Credit

INDD 690a Directed Dental Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 each Dental clinical and/or basic science research under faculty guidance; proposal developed, research conducted, conclusion drawn, paper written. Units determined by extent of research. Instruction Mode: Lecture Grading Option: Credit/No Credit

INDD 690b Directed Dental Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 each Dental clinical and/or basic science research under faculty guidance; proposal developed, research conducted, conclusion drawn, paper written. Units determined by extent of research. Instruction Mode: Lecture Grading Option: Credit/No Credit

INDD 690c Directed Dental Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 each Dental clinical and/or basic science research under faculty guidance; proposal developed, research conducted, conclusion drawn, paper written. Units determined by extent of research. Instruction Mode: Lecture Grading Option: Credit/No Credit

INDD 690d Directed Dental Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 each Dental clinical and/or basic science research under faculty guidance; proposal developed, research conducted, conclusion drawn, paper written. Units determined by extent of research. Instruction Mode: Lecture Grading Option: Credit/No Credit

INDD 690e Directed Dental Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 each Dental clinical and/or basic science research under faculty guidance; proposal developed, research conducted, conclusion drawn, paper written. Units determined by extent of research. Instruction Mode: Lecture Grading Option: Credit/No Credit

INDD 690f Directed Dental Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 each Dental clinical and/or basic science research under faculty guidance; proposal developed, research conducted, conclusion drawn, paper written. Units determined by extent of research. Instruction Mode: Lecture Grading Option: Credit/No Credit

Interdisciplinary Major Program

INDS 100 Topical and Multidisciplinary Seminars
Units: 1, 2, 3, 4 Max Units: 12.0 Terms Offered: FaSp Small group investigation from an interdisciplinary perspective. Instruction Mode: Lecture Grading Option: Letter

INDS 101 Directed Research and Tutorials
Units: 1, 2, 3, 4 Terms Offered: FaSp Research and study with L.A.S. Faculty Associates and other faculty. Instruction Mode: Lecture Grading Option: Letter

INDS 102 Field Study
Units: 1, 2, 3, 4 Terms Offered: FaSp In-service experience in a variety of off-campus institutions under the supervision of an L.A.S. Faculty Associate. Instruction Mode: Lecture Grading Option: Letter

INDS 300 Topical and Multidisciplinary Seminars
Units: 1, 2, 3, 4 Max Units: 12.0 Terms Offered: FaSp See INDS 100 for description. Instruction Mode: Lecture Grading Option: Letter

INDS 301 Directed Research and Tutorials
Units: 1, 2, 3, 4 Terms Offered: FaSp See INDS 101 for description. Instruction Mode: Lecture Grading Option: Letter

INDS 302 Field Study
Units: 1, 2, 3, 4 Terms Offered: FaSp See INDS 102 for description. Instruction Mode: Lecture Grading Option: Letter

INDS 400 Topical and Multidisciplinary Seminars
Units: 1, 2, 3, 4 Max Units: 12.0 Terms Offered: FaSp See INDS 100 for description. Instruction Mode: Lecture Grading Option: Letter

INDS 401 Directed Research and Tutorials
Units: 1, 2, 3, 4 Terms Offered: FaSp See INDS 101 for description. Instruction Mode: Lecture Grading Option: Letter

INDS 402 Field Study
Units: 1, 2, 3, 4 Terms Offered: FaSp See INDS 102 for description. Instruction Mode: Lecture Grading Option: Letter

INDS 494 Senior Thesis
Units: 1, 2, 3, 4, 5, 6, 7, 8 Terms Offered: FaSp Writing the IDM senior thesis under the supervision of a faculty qualifying exam committee. Instruction Mode: Lecture Grading Option: Letter

Interdisciplinary — Basic Science

INTB 504 Human Craniofacial Development and Genetics
Units: 3 Principles of human embryology and genetics; craniofacial developmental biology; molecular genetics, cytogenetics, clinical orofacial genetics, genetic counseling; bioethics. Instruction Mode: Lecture Grading Option: Letter

INTB 521 Basic and Medical Microbiology
Units: 2 Fundamentals of microbial structure, growth and physiology; major bacterial, viral and fungal diseases, symptoms, course, control and treatment; emphasis on diseases related to dental management. Instruction Mode: Lecture Grading Option: Letter

INTB 601 Advances in Oral Biology
Units: 2 Review of basics of scientific methodology; comparison between and indications for scientific studies and case reports; critical review of current dental literature. Instruction Mode: Lecture Grading Option: Letter

INTB 603 Systematic Approach to Scientific Writing
Units: 2 Study of dental research publication and review of writing principles; focus on logical arrangement of information, avoidance of common writing flaws, attainment of syntactical fluency. Instruction Mode: Lecture Grading Option: Letter

INTB 604 Clinics in Craniofacial Malformations
Units: 2 Diagnosis, treatment, and rehabilitation of craniofacial malformations; principles of health care of craniofacial malformation patients. Includes hospital clinical observation. Instruction Mode: Lecture Grading Option: Letter

INTB 650a Dental Research Participation
Units: 1, 2, 3, 4, 5, 6 each Assist in research in basic science, biomedical, or clinical dental areas. Experience in research strategy, design and methods using practical scientific problem solving. Instruction Mode: Lecture Grading Option: Letter

INTB 650b Dental Research Participation
Units: 1, 2, 3, 4, 5, 6 each Assist in research in basic science, biomedical, or clinical dental areas. Experience in research strategy, design and methods using practical scientific problem solving. Instruction Mode: Lecture Grading Option: Letter

INTB 650c Dental Research Participation
Units: 1, 2, 3, 4, 5, 6 each Assist in research in basic science, biomedical, or clinical dental areas. Experience in research strategy, design and methods using practical scientific problem solving. Instruction Mode: Lecture Grading Option: Letter

INTB 650d Dental Research Participation
Units: 1, 2, 3, 4, 5, 6 each Assist in research in basic science, biomedical, or clinical dental areas. Experience in research strategy, design and methods using practical scientific problem solving. Instruction Mode: Lecture Grading Option: Letter

INTB 650e Dental Research Participation
Units: 1, 2, 3, 4, 5, 6 each Assist in research in basic science, biomedical, or clinical dental areas. Experience in research strategy, design and methods using practical scientific problem solving. Instruction Mode: Lecture Grading Option: Letter

INTB 650f Dental Research Participation
Units: 1, 2, 3, 4, 5, 6 each Assist in research in basic science, biomedical, or clinical dental areas. Experience in research strategy, design and methods using practical scientific problem solving. Instruction Mode: Lecture Grading Option: Letter

INTB 651a Experience in Dental Teaching
Units: 1, 2, 3, 4, 5, 6 each Practical teaching experience in dental laboratory and clinic settings under faculty supervision. Includes instruction in effective methods. Instruction Mode: Lecture Grading Option: Letter

INTB 651b Experience in Dental Teaching
Units: 1, 2, 3, 4, 5, 6 each Practical teaching experience in dental laboratory and clinic settings under faculty supervision. Includes instruction in effective methods. Instruction Mode: Lecture Grading Option: Letter

INTB 651c Experience in Dental Teaching
Units: 1, 2, 3, 4, 5, 6 each Practical teaching experience in dental laboratory and clinic settings under faculty supervision. Includes instruction in effective methods. Instruction Mode: Lecture Grading Option: Letter

INTB 651d Experience in Dental Teaching
Units: 1, 2, 3, 4, 5, 6 each Practical teaching experience in dental laboratory and clinic settings under faculty supervision. Includes instruction in effective methods. Instruction Mode: Lecture Grading Option: Letter

INTB 652 Externship
Units: 1, 2, 3, 4, 5, 6 Dental experience at an off-site location — not limited to clinical experience. Student participation must be approved by Associate Dean, Academic Affairs. Instruction Mode: Lab Grading Option: Credit/No Credit

INTB 690a Directed Dental Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 each Dental clinical and/or basic science research under faculty guidance; proposal developed, research conducted, conclusion drawn, paper written. Units determined by extent of research. Instruction Mode: Lecture Grading Option: Credit/No Credit

INTB 690b Directed Dental Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 each Dental clinical and/or basic science research under faculty guidance; proposal developed, research conducted, conclusion drawn, paper written. Units determined by extent of research. Instruction Mode: Lecture Grading Option: Credit/No Credit

INTB 690c Directed Dental Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 each Dental clinical and/or basic science research under faculty guidance; proposal developed, research conducted, conclusion drawn, paper written. Units determined by extent of research. Instruction Mode: Lecture Grading Option: Credit/No Credit

INTB 690d Directed Dental Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 each Dental clinical and/or basic science research under faculty guidance; proposal developed, research conducted, conclusion drawn, paper written. Units determined by extent of research. Instruction Mode: Lecture Grading Option: Credit/No Credit

INTB 690e Directed Dental Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 each Dental clinical and/or basic science research under faculty guidance; proposal developed, research conducted, conclusion drawn, paper written. Units determined by extent of research. Instruction Mode: Lecture Grading Option: Credit/No Credit

INTB 690f Directed Dental Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 each Dental clinical and/or basic science research under faculty guidance; proposal developed, research conducted, conclusion drawn, paper written. Units determined by extent of research. Instruction Mode: Lecture Grading Option: Credit/No Credit

Interdepartmental Medicine

INTD 500 Ethics and Accountability in Biomedical Research
Units: 1 Terms Offered: Sm The purpose of this course is to engage current (and potential) research trainees in discussions about the responsible conduct of science. The course is designed as an option for meeting current federal regulations which require that all predoctoral and postdoctoral fellows paid from federal contracts and grants have a component of ethical training. Instruction Mode: Lecture Grading Option: Credit/No Credit

INTD 501 Recent Advances in Vision Science
Units: 1 Max Units: 4.0 Terms Offered: FaSp Recent advances in the understanding of the ocular surface are reported and discussed; students will learn how to read papers critically, develop speaking skills to explain a research paper and attend a three-day workshop on NIH proposal development and scientific manuscript preparation. Instruction Mode: Lecture Grading Option: Credit/No Credit

INTD 504 Molecular Biology of Cancer
Units: 4, 2 years Terms Offered: Sp Epidemiology, pathobiology, carcinogenesis, tumor biology and heterogeneity; retroviruses, oncogenes, cell cycle control, genetics of cancer, tumor immunology; treatment strategies. Instruction Mode: Lecture Grading Option: Letter Crosslisted as BIOC 504, CBG 504, MICB 504

INTD 522 Infection and Host Responses
Units: 4 Terms Offered: Sp Overview of microbes, their life cycles and the host response they elicit, evade or exploit, including the manipulation and

the malfunction of the immune system. Instruction Mode: Lecture Grading Option: Letter Crosslisted as MICB-522

INTD 531 Cell Biology
Units: 4 Terms Offered: Fa Current perspectives on major research areas in cell biology. Emphasis will be on in-depth examination of cellular structures, regulatory processes, intra-cellular routing and targeting, and cell/environmental interactions. Instruction Mode: Lecture Grading Option: Letter Crosslisted as BIOC-531, CNB-531, MICB-531, MPTX-531, PATH-531, PHBI-531, PSCI-531

INTD 535 Continuing Introduction to Clinical Medicine for MD/PhD Students
Units: 1 Terms Offered: FaSp Course for MD/PhD students in PhD years designed to allow maintenance and improvement of clinical skills prior to re-entry in clinical rotations in the Year III medical curriculum. Instruction Mode: Lecture Grading Option: Credit/No Credit

INTD 537 The Structure of Scientific Revolutions in Molecular Biology
Units: 1 Terms Offered: Irregular A course in how scientists make breakthrough discoveries and whether there are predictable ingredients for significant changes in perception of the living system. *Recommended Preparation:* one year in cell and molecular biology. Registration Restriction: Open only to graduate-level students in any of the biological sciences. Instruction Mode: Lecture Grading Option: Letter

INTD 549 Protein Chemistry — Structure and Function
Units: 4 Terms Offered: Sp Chemistry of peptides and proteins; protein structure and folding; molecular basis of protein action. *Recommended Preparation:* general biochemistry. Registration Restriction: Open only to graduate students. Instruction Mode: Lecture Grading Option: Letter Crosslisted as BIOC-549

INTD 550 Introduction to Pathology
Units: 4 Terms Offered: Fa Normal histology and introduction to basic pathological concepts. Provides a solid and basic understanding of normal structures and how they relate to function. Instruction Mode: Lecture Grading Option: Letter Crosslisted as PATH-550

INTD 551 Pathobiology of Disease
Units: 4 Terms Offered: Sp Relationship between histopathological and clinical manifestations of disease and their underlying molecular mechanisms. Topics include inflammatory, developmental, environmental, degenerative, and neoplastic disease processes. *Prerequisite:* INTD 550. Instruction Mode: Lecture Grading Option: Letter Crosslisted as PATH-551

INTD 555 Biochemical and Molecular Bases of Disease
Units: 4 Biochemical and molecular abnormalities in disease states. *Prerequisite:* general biochemistry. Instruction Mode: Lecture Grading Option: Letter Crosslisted as BIOC-555, PATH-555

INTD 561 Molecular Biology
Units: 4 Terms Offered: Fa Biochemistry and molecular biology of replication, transcription, RNA processing, translation, and regulation of gene expression with emphasis on multicellular eukaryotic organisms and comparisons to prokaryotes. Instruction Mode: Lecture Grading Option: Letter Crosslisted as BIOC-561, CBY-561, CNB-561, MICB-561, MPTX-561, PATH-561, PHBI-561, PSCI-561

INTD 567 Molecular and Cellular Neurobiology
Units: 4 (Enroll in NSCI 531)

INTD 570 Current Topics in Cellular Homeostasis
Units: 2 Max Units: 08 Terms Offered: Sp Weekly research lectures by leading investigators in the field of homeostatic response to injury such as cell death, inflammation, fibrosis and regeneration. Duplicates Credit in former PATH 575 Instruction Mode: Lecture Grading Option: Letter

INTD 571 Biochemistry
Units: 4 Terms Offered: Sp Physical-chemical basis of life processes: protein structure and enzyme function; synthesis and metabolism of carbohydrates, lipids, amino acids, and nucleotides. *Prerequisite:* open to qualified students. Duplicates Credit in former BIOC 441. Instruction Mode: Lecture Grading Option: Letter Crosslisted as BIOC-571, CBY-571, CNB-571, MICB-571, MPTX-571, PATH-571, PHBI-571, PSCI-571

INTD 572 Medical Physiology I
Units: 4 Terms Offered: Fa Mammalian organ systems operation during health, and pathophysiologic analysis of related diseases with focus on muscle, respiratory, cardiovascular and renal systems. Faculty from basic and clinical sciences. Registration Restriction: Open only to graduate students in biomedical science Instruction Mode: Lecture Grading Option: Letter Crosslisted as BISC 572, CNB 572, MICB 572, MPHY 572, MPTX 572, PATH 572, PHBI 572, PM 572

INTD 573 Medical Physiology II
Units: 4 Terms Offered: Sp Mammalian organ systems operation during health, and pathophysiologic analysis of related diseases with focus on neuroscience, immunology, metabolism, endocrine, reproduction, GI and liver. Faculty from basic and clinical sciences. Registration Restriction: Open only to graduate students in biomedical science Instruction Mode: Lecture Grading Option: Letter Crosslisted as BIOC 574, CNB 573, MPHY 573, MPTX 573, PATH 573, PHBI 573, PM 573, MICB 573

INTD 574 Medical Biology Seminar
Units: 1 Max Units: 16 Terms Offered: FaSp Selected topics in systems biology and disease. Registration Restriction: Open only to Systems Biology and Disease PhD students Instruction Mode: Lecture Grading Option: Credit/No Credit

INTD 575 Interdisciplinary Research Presentations
Units: 1 Max Units: 12.0 Terms Offered: FaSp Broad Topics on Biomedical Research, Human Diseases and Career Development. Open only to doctoral students. Registration Restriction: Open only to doctoral students. Instruction Mode: Lecture Grading Option: Letter

INTD 577 Writing in the Biomedical and Biological Sciences
Units: 1 Terms Offered: Sp Writing instruction for graduate students focusing on grant proposals and scientific papers. Includes both writing and providing critiques of classmates' work. Lectures and discussion. Open only to doctoral students in the school of Medicine. Registration Restriction: Open only to doctoral students in the school of Medicine. Instruction Mode: Lecture Grading Option: Letter

INTD 596 Internship for Curricular Practical Training
Units: 1, 2, 3 Max Units: 03 Terms Offered: FaSpSm Part-time or full-time, practical work experience in the student's field of study. The internship must be located at an off-campus facility. Students are individually supervised by faculty. May not be taken until the student has completed at least one semester of enrollment in the graduate program. Registration Restriction: Open only to graduate students in the school of medicine Instruction Mode: Lecture Grading Option: Credit/No Credit

INTD 599 Special Topics
Units: 1, 2, 3, 4, 5, 6, 7, 8 Max Units: 08 Special topics selected to reflect current trends and new developments in interdepartmental medicine. Instruction Mode: Lecture Grading Option: Letter

INTD 600 Student Research Presentation
Units: 1 Max Units: 12.0 Terms Offered: FaSp Students prepare and present their own research to an audience of faculty and peers. Registration Restriction: Open only to graduate students. Instruction Mode: Lecture Grading Option: Credit/No Credit

INTD 620 Medical Students Elective Program
Units: 0 Opportunities for medical students as preceptors in research laboratories or in field medical service under guidance of sponsors approved by faculty committees. Instruction Mode: Lecture Grading Option: Credit/No Credit

INTD 621a Introduction to Clinical Medicine (ICM) for THE
Units: 3 Terms Offered: FaSp A strongly patient centered course in which both PhD engineering and MD students experience how doctors handle communications, basic diagnostic thinking and engineering perspectives. Open only to Health, Technology and Engineering students. Registration Restriction: Open only to Health, Technology and Engineering students. Instruction Mode: Lecture Grading Option: Credit/No Credit

INTD 621b Introduction to Clinical Medicine (ICM) for THE
Units: 3 Terms Offered: FaSp A strongly patient centered course in which both PhD engineering and MD students experience how doctors handle communications, basic diagnostic thinking and engineering perspectives. Open only to Health, Technology and Engineering students. Registration Restriction: Open only to Health, Technology and Engineering students. Instruction Mode: Lecture Grading Option: Credit/No Credit

INTD 622L Pre-clinical System Block for Health, Technology and Engineering
Units: 3, 4, 5, 6, 7, 8, 9 Terms Offered: FaSp A three to- nine week block of lectures

and laboratories focused on particular body system (e.g., cardiovascular, renal, etc.). Open only to Health, Technology and Engineering students. Registration Restriction: Open only to Health, Technology and Engineering students. Instruction Mode: Lecture Grading Option: Credit/No Credit

INTD 630 Viral Oncology
Units: 2 Terms Offered: Fa Broad aspects of RNA and DNA viral oncology from epidemiology to molecular genetics. Duplicates Credit in former PATH 630. Instruction Mode: Lecture Grading Option: Letter Crosslisted as PATH-631

INTD 650 Stem Cell Biology and Medicine
Units: 4 Terms Offered: FaSpSm Basic principles, available embryonic and adult stem cells, principles of organogenesis and regeneration, animal models, delivery of engineered tissues to patients, promise and limitations of stem cells. Open to master's and PhD students on the Health Sciences Campus and to medical and post-doctoral fellow trainees only. Instruction Mode: Lecture Grading Option: Letter Crosslisted as PATH-650

INTD 685 Bioinformatics in Genome Analysis
Units: 4 Terms Offered: Sm Basic programming concepts for computational genomic analysis. Instruction Mode: Lecture Grading Option: Letter

INTD 790 Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Terms Offered: FaSpSm Research leading to the doctorate. Maximum units which may be applied to the degree to be determined by the department. Open only to doctoral students. Registration Restriction: Open only to doctoral students. Instruction Mode: Lecture Grading Option: Credit/No Credit

Interdisciplinary — Practice Dynamics

INTP 501 Behavioral Strategies in Dentistry
Units: 2 Improvement of time and stress management and effectiveness in working with others; establishment of goals in dentistry; effective presentation of ideas. For Advanced Standing Program for International Dentists. Instruction Mode: Lecture Grading Option: Letter

INTP 502a Human Relations in Dental Practice
Units: 2 Introduction to behavioral concepts related to pain, fear, sedation; interviewing, treatment planning; care of geriatric and handicapped patients; patient education; includes principles of clinical application. Instruction Mode: Lecture Grading Option: Letter

INTP 502b Human Relations in Dental Practice
Units: 2 Introduction to behavioral concepts related to pain, fear, sedation; interviewing, treatment planning; care of geriatric and handicapped patients; patient education; includes principles of clinical application. Instruction Mode: Lecture Grading Option: Letter

INTP 503a Evaluation of Scientific Information in Clinical Practice
Units: 0, 1 Practical guidelines for critically appraising scientific information applicable to the clinical practice of dentistry. Seminars will complement lectures with examples. Instruction Mode: Lecture Grading Option: In-progress to Letter Grade

INTP 503b Evaluation of Scientific Information in Clinical Practice
Units: 0, 1 Practical guidelines for critically appraising scientific information applicable to the clinical practice of dentistry. Seminars will complement lectures with examples. Instruction Mode: Lecture Grading Option: Letter

INTP 650 Dental Research Participation
Units: 1, 2, 3, 4, 5, 6 Assist in research in basic science, biomedical, or clinical dental areas. Experience in research strategy, design and methods using practical scientific problem solving. Instruction Mode: Lecture Grading Option: Letter

INTP 651 Experience in Dental Teaching
Units: 1, 2, 3, 4, 5, 6 Practical teaching experience in dental laboratory and clinic settings under faculty supervision. Includes instruction in effective methods. Instruction Mode: Lecture Grading Option: Letter

INTP 652 Externship
Units: 1, 2, 3, 4, 5, 6 Dental experience at an off-site location — not limited to clinical experience. Student participation must be approved by Associate Dean for Student and Academic Life. Instruction Mode: Lecture Grading Option: Credit/No Credit

INTP 690 Directed Dental Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Dental clinical and/or basic science research under faculty guidance; proposal developed, research conducted, conclusion drawn, paper written. Units determined by extent of research. Instruction Mode: Lecture Grading Option: Credit/No Credit

Interdisciplinary — Restorative Dentistry

INTR 503 Preclinical Diagnosis and Treatment Planning
Units: 2 Interdisciplinary course focusing on diagnosis and treatment planning through didactic course work and workshops which will include data collection/ assessment, diagnosis and treatment planning methodologies, and specialty considerations. Instruction Mode: Lecture Grading Option: Letter

INTR 524a Clinical Practice
Units: 0 Terms Offered: FaSpSm The clinical component of existing didactic courses in Practice Management and Human Behavior. Instruction Mode: Lecture Grading Option: In-progress to Letter Grade

INTR 524b Clinical Practice
Units: 0 Terms Offered: FaSpSm The clinical component of existing didactic courses in Practice Management and Human Behavior. Instruction Mode: Lecture Grading Option: In-progress to Letter Grade

INTR 524c Clinical Practice
Units: 0 Terms Offered: FaSpSm The clinical component of existing didactic courses in Practice Management and Human Behavior. Instruction Mode: Lecture Grading Option: In-progress to Letter Grade

INTR 524d Clinical Practice
Units: 0 Terms Offered: FaSpSm The clinical component of existing didactic courses in Practice Management and Human Behavior. Instruction Mode: Lecture Grading Option: In-progress to Letter Grade

INTR 524e Clinical Practice
Units: 0 Terms Offered: FaSpSm The clinical component of existing didactic courses in Practice Management and Human Behavior. Instruction Mode: Lecture Grading Option: In-progress to Letter Grade

INTR 524f Clinical Practice
Units: 3 Terms Offered: FaSpSm The clinical component of existing didactic courses in Practice Management and Human Behavior. Instruction Mode: Lecture Grading Option: Letter

INTR 550a Introduction to Clinical Dentistry
Units: 0, 1 Clinical operatory preparation; asepsis and sterilization; preventive dentistry; introduction to physical evaluation, extra- and intra-oral examinations, treatment sequencing, dental specialty areas; includes clinical assisting. Instruction Mode: Lecture Grading Option: In-progress to Letter Grade

INTR 550b Introduction to Clinical Dentistry
Units: 0, 1 Clinical operatory preparation; asepsis and sterilization; preventive dentistry; introduction to physical evaluation, extra- and intra-oral examinations, treatment sequencing, dental specialty areas; includes clinical assisting. Instruction Mode: Lecture Grading Option: Letter

INTR 551a Clinical Diagnosis and Treatment Planning
Units: 0 Large and small group seminars focusing on diagnosis and treatment planning involving multiple specialty case presentations; integrated therapy, contingency plans and case presentations will be included. Instruction Mode: Lecture Grading Option: In-progress to Letter Grade

INTR 551b Clinical Diagnosis and Treatment Planning
Units: 0 Large and small group seminars focusing on diagnosis and treatment planning involving multiple specialty case presentations; integrated therapy, contingency plans and case presentations will be included. Instruction Mode: Lecture Grading Option: In-progress to Letter Grade

INTR 551c Clinical Diagnosis and Treatment Planning
Units: 0 Large and small group seminars focusing on diagnosis and treatment planning involving multiple specialty case presentations; integrated therapy, contingency plans and case presentations will be included. Instruction Mode: Lecture Grading Option: In-progress to Letter Grade

INTR 551d Clinical Diagnosis and Treatment Planning
Units: 0 Large and small group seminars focusing on diagnosis and treatment planning involving multiple specialty case presentations; integrated therapy, contingency plans and case presentations will be included. Instruction Mode: Lecture Grading Option: In-progress to Letter Grade

INTR 551e Clinical Diagnosis and Treatment Planning
Units: 1 Large and small group seminars focusing on diagnosis and treatment planning involving multiple specialty case presentations; integrated therapy,

contingency plans and case presentations will be included. Instruction Mode: Lecture Grading Option: Letter

INTR 553a Clinic: Diagnosis and Treatment Planning
Units: 0 Clinical experience in diagnostic procedures and treatment planning in care of dental patients. Includes student preparation of documentation of patient care and seminar. Instruction Mode: Lecture Grading Option: In-progress to Letter Grade

INTR 553b Clinic: Diagnosis and Treatment Planning
Units: 0 Clinical experience in diagnostic procedures and treatment planning in care of dental patients. Includes student preparation of documentation of patient care and seminar. Instruction Mode: Lecture Grading Option: In-progress to Letter Grade

INTR 553c Clinic: Diagnosis and Treatment Planning
Units: 0 Clinical experience in diagnostic procedures and treatment planning in care of dental patients. Includes student preparation of documentation of patient care and seminar. Instruction Mode: Lecture Grading Option: In-progress to Letter Grade

INTR 553d Clinic: Diagnosis and Treatment Planning
Units: 0 Clinical experience in diagnostic procedures and treatment planning in care of dental patients. Includes student preparation of documentation of patient care and seminar. Instruction Mode: Lecture Grading Option: In-progress to Letter Grade

INTR 553e Clinic: Diagnosis and Treatment Planning
Units: 0 Clinical experience in diagnostic procedures and treatment planning in care of dental patients. Includes student preparation of documentation of patient care and seminar. Instruction Mode: Lecture Grading Option: In-progress to Letter Grade

INTR 553f Clinic: Diagnosis and Treatment Planning
Units: 2 Clinical experience in diagnostic procedures and treatment planning in care of dental patients. Includes student preparation of documentation of patient care and seminar. Instruction Mode: Lecture Grading Option: Letter

INTR 652 Externship
Units: 1, 2, 3, 4, 5, 6 Dental experience at an off-site location — not limited to clinical experience. Student participation must be approved by Associate Dean for Student and Academic Life. Instruction Mode: Lecture Grading Option: Credit/No Credit

INTR 690a Directed Dental Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 each Dental clinical and/or basic science research under faculty guidance; proposal developed, research conducted, conclusion drawn, paper written. Units determined by extent of research. Instruction Mode: Lecture Grading Option: Credit/No Credit

INTR 690b Directed Dental Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 each Dental clinical and/or basic science research under faculty guidance; proposal developed, research conducted, conclusion drawn, paper written. Units determined by extent of research. Instruction Mode: Lecture Grading Option: Credit/No Credit

INTR 690c Directed Dental Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 each Dental clinical and/or basic science research under faculty guidance; proposal developed, research conducted, conclusion drawn, paper written. Units determined by extent of research. Instruction Mode: Lecture Grading Option: Credit/No Credit

INTR 690d Directed Dental Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 each Dental clinical and/or basic science research under faculty guidance; proposal developed, research conducted, conclusion drawn, paper written. Units determined by extent of research. Instruction Mode: Lecture Grading Option: Credit/No Credit

INTR 690e Directed Dental Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 each Dental clinical and/or basic science research under faculty guidance; proposal developed, research conducted, conclusion drawn, paper written. Units determined by extent of research. Instruction Mode: Lecture Grading Option: Credit/No Credit

INTR 690f Directed Dental Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 each Dental clinical and/or basic science research under faculty guidance; proposal developed, research conducted, conclusion drawn, paper written. Units determined by extent of research. Instruction Mode: Lecture Grading Option: Credit/No Credit

Interdisciplinary — Surgical Sciences

INTS 651a Experience in Dental Teaching
Units: 1, 2, 3 Max Units: 6.0 Practical teaching experience in dental laboratory and clinic settings under faculty supervision. Includes instruction in effective methods. Instruction Mode: Lecture Grading Option: Letter

INTS 651b Experience in Dental Teaching
Units: 1, 2, 3 Max Units: 6.0 Practical teaching experience in dental laboratory and clinic settings under faculty supervision. Includes instruction in effective methods. Instruction Mode: Lecture Grading Option: Letter

INTS 651c Experience in Dental Teaching
Units: 1, 2, 3 Max Units: 6.0 Practical teaching experience in dental laboratory and clinic settings under faculty supervision. Includes instruction in effective methods. Instruction Mode: Lecture Grading Option: Letter

INTS 651d Experience in Dental Teaching
Units: 1, 2, 3 Max Units: 6.0 Practical teaching experience in dental laboratory and clinic settings under faculty supervision. Includes instruction in effective methods. Instruction Mode: Lecture Grading Option: Letter

INTS 652 Externship
Units: 1, 2, 3, 4, 5, 6 Dental experience at an off-site location — not limited to clinical experience. Student participation must be approved by Associate Dean for Student and Academic Life. Instruction Mode: Lab Grading Option: Credit/No Credit

INTS 690a Directed Dental Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 each Dental clinical and/or basic science research under faculty guidance; proposal developed, research conducted, conclusion drawn, paper written. Units determined by extent of research. Instruction Mode: Lecture Grading Option: Credit/No Credit

INTS 690b Directed Dental Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 each Dental clinical and/or basic science research under faculty guidance; proposal developed, research conducted, conclusion drawn, paper written. Units determined by extent of research. Instruction Mode: Lecture Grading Option: Credit/No Credit

INTS 690c Directed Dental Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 each Dental clinical and/or basic science research under faculty guidance; proposal developed, research conducted, conclusion drawn, paper written. Units determined by extent of research. Instruction Mode: Lecture Grading Option: Credit/No Credit

INTS 690d Directed Dental Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 each Dental clinical and/or basic science research under faculty guidance; proposal developed, research conducted, conclusion drawn, paper written. Units determined by extent of research. Instruction Mode: Lecture Grading Option: Credit/No Credit

INTS 690e Directed Dental Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 each Dental clinical and/or basic science research under faculty guidance; proposal developed, research conducted, conclusion drawn, paper written. Units determined by extent of research. Instruction Mode: Lecture Grading Option: Credit/No Credit

INTS 690f Directed Dental Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 each Dental clinical and/or basic science research under faculty guidance; proposal developed, research conducted, conclusion drawn, paper written. Units determined by extent of research. Instruction Mode: Lecture Grading Option: Credit/No Credit

Interdisciplinary — Diagnostic Sciences

INTX 501a Integrated Basic and Applied Science I
Units: 1 Principles of anatomy, histology, physiology, pathology applied to patient evaluation and management. Focuses on cell and connective tissue biology, neuromuscular, blood, endocrine and cardiovascular systems. Instruction Mode: Lecture Grading Option: Letter

INTX 501b Integrated Basic and Applied Science I
Units: 1 Principles of anatomy, histology, physiology, pathology applied to patient evaluation and management. Focuses on cell and connective tissue biology, neuromuscular, blood, endocrine and cardiovascular systems. Instruction Mode: Lecture Grading Option: Letter

INTX 501c Integrated Basic and Applied Science I
Units: 2 Principles of anatomy, histology, physiology, pathology applied to patient evaluation and management. Focuses on cell and connective tissue biology, neuromuscular, blood, endocrine and

cardiovascular systems. Instruction Mode: Lecture Grading Option: Letter

INTX 501d Integrated Basic and Applied Science I
Units: 2 Principles of anatomy, histology, physiology, pathology applied to patient evaluation and management. Focuses on cell and connective tissue biology, neuromuscular, blood, endocrine and cardiovascular systems. Instruction Mode: Lecture Grading Option: Letter

INTX 501e Integrated Basic and Applied Science I
Units: 2 Principles of anatomy, histology, physiology, pathology applied to patient evaluation and management. Focuses on cell and connective tissue biology, neuromuscular, blood, endocrine and cardiovascular systems. Instruction Mode: Lecture Grading Option: Letter

INTX 501f Integrated Basic and Applied Science I
Units: 2 Principles of anatomy, histology, physiology, pathology applied to patient evaluation and management. Focuses on cell and connective tissue biology, neuromuscular, blood, endocrine and cardiovascular systems. Instruction Mode: Lecture Grading Option: Letter

INTX 501h Integrated Basic and Applied Science I
Units: 1 Principles of anatomy, histology, physiology, pathology applied to patient evaluation and management. Focuses on cell and connective tissue biology, neuromuscular, blood, endocrine and cardiovascular systems. Instruction Mode: Lecture Grading Option: Letter

INTX 502a Integrated Basic and Applied Science II
Units: 1 Principles of anatomy, histology, physiology, pathology applied to patient evaluation and management. Focuses on respiratory, genito-urinary, gastrointestinal, hepato-biliary systems, oral biology, nutrition and hospital dentistry. Instruction Mode: Lecture Grading Option: Letter

INTX 502b Integrated Basic and Applied Science II
Units: 1 Principles of anatomy, histology, physiology, pathology applied to patient evaluation and management. Focuses on respiratory, genito-urinary, gastrointestinal, hepato-biliary systems, oral biology, nutrition and hospital dentistry. Instruction Mode: Lecture Grading Option: Letter

INTX 502c Integrated Basic and Applied Science II
Units: 2 Principles of anatomy, histology, physiology, pathology applied to patient evaluation and management. Focuses on respiratory, genito-urinary, gastrointestinal, hepato-biliary systems, oral biology, nutrition and hospital dentistry. Instruction Mode: Lecture Grading Option: Letter

INTX 502d Integrated Basic and Applied Science II
Units: 3 Principles of anatomy, histology, physiology, pathology applied to patient evaluation and management. Focuses on respiratory, genito-urinary, gastrointestinal, hepato-biliary systems, oral biology, nutrition and hospital dentistry. Instruction Mode: Lecture Grading Option: Letter

INTX 502e Integrated Basic and Applied Science II
Units: 1 Principles of anatomy, histology, physiology, pathology applied to patient evaluation and management. Focuses on respiratory, genito-urinary, gastrointestinal, hepato-biliary systems, oral biology, nutrition and hospital dentistry. Instruction Mode: Lecture Grading Option: Letter

INTX 502f Integrated Basic and Applied Science II
Units: 2 Principles of anatomy, histology, physiology, pathology applied to patient evaluation and management. Focuses on respiratory, genito-urinary, gastrointestinal, hepato-biliary systems, oral biology, nutrition and hospital dentistry. Instruction Mode: Lecture Grading Option: Letter

INTX 651a Experience in Dental Teaching
Units: 1, 2, 3, 4, 5, 6 each Practical teaching experience in dental laboratory and clinic settings under faculty supervision. Includes instruction in effective methods. Instruction Mode: Lecture Grading Option: Letter

INTX 651b Experience in Dental Teaching
Units: 1, 2, 3, 4, 5, 6 each Practical teaching experience in dental laboratory and clinic settings under faculty supervision. Includes instruction in effective methods. Instruction Mode: Lecture Grading Option: Letter

INTX 651c Experience in Dental Teaching
Units: 1, 2, 3, 4, 5, 6 each Max Units: 6.0 Practical teaching experience in dental laboratory and clinic settings under faculty supervision. Includes instruction in effective methods. Instruction Mode: Lecture Grading Option: Letter

INTX 651d Experience in Dental Teaching
Units: 1, 2, 3, 4, 5, 6 each Max Units: 6.0 Practical teaching experience in dental laboratory and clinic settings under faculty supervision. Includes instruction in effective methods. Instruction Mode: Lecture Grading Option: Letter

INTX 690a Directed Dental Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 each Dental clinical and/or basic science research under faculty guidance; proposal developed, research conducted, conclusion drawn, paper written. Units determined by extent of research. Instruction Mode: Lecture Grading Option: Credit/No Credit

INTX 690b Directed Dental Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 each Dental clinical and/or basic science research under faculty guidance; proposal developed, research conducted, conclusion drawn, paper written. Units determined by extent of research. Instruction Mode: Lecture Grading Option: Credit/No Credit

INTX 690c Directed Dental Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 each Dental clinical and/or basic science research under faculty guidance; proposal developed, research conducted, conclusion drawn, paper written. Units determined by extent of research. Instruction Mode: Lecture Grading Option: Credit/No Credit

INTX 690d Directed Dental Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 each Dental clinical and/or basic science research under faculty guidance; proposal developed, research conducted, conclusion drawn, paper written. Units determined by extent of research. Instruction Mode: Lecture Grading Option: Credit/No Credit

INTX 690e Directed Dental Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 each Dental clinical and/or basic science research under faculty guidance; proposal developed, research conducted, conclusion drawn, paper written. Units determined by extent of research. Instruction Mode: Lecture Grading Option: Credit/No Credit

INTX 690f Directed Dental Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 each Dental clinical and/or basic science research under faculty guidance; proposal developed, research conducted, conclusion drawn, paper written. Units determined by extent of research. Instruction Mode: Lecture Grading Option: Credit/No Credit

International Relations

IR 100gx The United States and World Affairs
Units: 4 The changing character of contemporary international political issues from the Cold War to the future and U.S. foreign policy options for the future; exploration of competing perspectives. Satisfies Old General Education in Category VI: Social Issues Instruction Mode: Lecture Grading Option: Letter

IR 101gxw International Relations
Units: 4 Basic concepts of world affairs for non-majors. Development of competency to understand and critically evaluate global relations and international events, stressing empirical approaches. Satisfies New General Education in Category C: Social Analysis Satisfies Global Perspective in Category G: Citizenship in a Diverse World Satisfies Old General Education in Category VI: Social Issues Instruction Mode: Lecture, Discussion Grading Option: Letter

IR 210gw International Relations: Introductory Analysis
Units: 4 Terms Offered: FaSp Comprehensive introduction to contending theoretical and analytical approaches; development of critical, evaluative, cognitive, and analytical competencies regarding historical and contemporary issues. Satisfies Global Perspective in Category G: Citizenship in a Diverse World Instruction Mode: Lecture, Discussion Grading Option: Letter

IR 211g International Relations: Approaches to Research
Units: 4 Terms Offered: FaSpSm Introduction to theoretically oriented research approaches and designs; emphasis on the logic of argumentation. Satisfies New General Education in Category F: Quantitative Reasoning Instruction Mode: Lecture, Discussion Grading Option: Letter

IR 212 Historical Approaches to International Relations
Units: 4 Terms Offered: FaSp Introduction to historical research methods, with an emphasis on historical texts and modes of discourse. Instruction Mode: Lecture, Discussion Grading Option: Letter

IR 213 The Global Economy
Units: 4 Terms Offered: FaSp Economic and political concepts necessary to the

understanding of the modern global economy. Topics include international trade, foreign investment and migration. Instruction Mode: Lecture, Discussion Grading Option: Letter

IR 302 International Relations of the Great Powers in the Late 19th and 20th Centuries
Units: 4 Introductory analysis of the interactions of the great powers during the period; initial focus on Europe, with expansion to include global relations. Instruction Mode: Lecture Grading Option: Letter

IR 303 Leadership and Diplomacy
Units: 4 The role of leaders, diplomatic leadership and creativity in statecraft, providing a deep understanding of the theoretical and practical dimensions of diplomacy. Instruction Mode: Lecture Grading Option: Letter

IR 304 National Intelligence and the Shaping of Policy
Units: 4 The focus is intelligence to improve the making of policy, with attention to collection; overt and covert, operations; domestic intelligence; and oversight in democracies. Instruction Mode: Lecture Grading Option: Letter

IR 305w Managing New Global Problems
Units: 4 Examines strategies for managing global issues in the post Cold War period. Explores ways that international institutions, national governments and non-state actors work separately and together to provide order and control over complex international issues areas. Issues that will receive attention could include financial and monetary relations, trade and foreign investment, preservation of the environment, the spread of weapons of mass destruction, population and migration, terrorism and ethnic strife. Satisfies Global Perspective in Category G: Citizenship in a Diverse World Instruction Mode: Lecture Grading Option: Letter

IR 306 International Organizations
Units: 4 The emergence of international organizations as a permanent feature in world politics; role of the United Nations organization as well as regional international organizations. Instruction Mode: Lecture Grading Option: Letter

IR 307 Contemporary International Politics
Units: 4 Max Units: 8.0 Analysis of recent events, forces, and conditions in the international political system. Instruction Mode: Lecture Grading Option: Letter

IR 308w Economic Globalization
Units: 4 Globalization makes national borders and regulations increasingly obsolete. Analyzes the economic foundation of globalization, its consequences and efforts to manage it. Satisfies Global Perspective in Category G: Citizenship in a Diverse World Instruction Mode: Lecture Grading Option: Letter

IR 309 Global Governance
Units: 4 Introduction to global governance structure and institutions. Exploration of the appropriate role for states, international organizations, civil society and individuals within the global governance structure. Instruction Mode: Lecture Grading Option: Letter

IR 310 Peace and Conflict Studies
Units: 4 Interdisciplinary study of the pursuit of peace, including causes of wars, arms races, conflict resolution, peace movements, nonviolent resistance, and peace with justice. Instruction Mode: Lecture Grading Option: Letter

IR 311 Research Design and Methods
Units: 4 Exploration of critical scholarship on research design, including case selection, hypothesis testing, and field research techniques. Instruction Mode: Lecture Grading Option: Letter

IR 312 Introduction to Data Analysis
Units: 4 Introduction to statistical analysis with R, with applications to the study of International Relations: data manipulation, hypothesis testing, regression, causality, text analysis, visualization, and network analysis. *Recommended Preparation:* IR 211g and IR 212 plus a course in research design such as IR 311 Instruction Mode: Lecture Grading Option: Letter

IR 313 Religions and Political Violence
Units: 4 An introduction to debates about the intersection of religion and conflict in politics and international affairs; theoretical, classical, and contemporary issues. Instruction Mode: Lecture Grading Option: Letter

IR 314 Espionage and Intelligence
Units: 4 Examination of selected intelligence communities worldwide, their agencies and operations. Focus on technical aspects of collection, analysis, counterintelligence, covert action, ethics, liaison and oversight. Instruction Mode: Lecture Grading Option: Letter

IR 315 Ethnicity and Nationalism in World Politics
Units: 4 Ethnic identity and nation formation in the global society of states; nation-states; conflict or political accommodation within multinational states; impact of dispersed nations on interstate relations. Instruction Mode: Lecture Grading Option: Letter

IR 316 Gender and Global Issues
Units: 4 An examination of the role women have played in world politics focusing on issues of war and peace, the environment and the global economy. Instruction Mode: Lecture Grading Option: Letter Crosslisted as SWMS-316

IR 317 The Political Economy of Africa
Units: 4 Africa remains the world's poorest region. Why? Since when? Will it remain so? This course discusses tentative answers drawn from a number of disciplines. Instruction Mode: Lecture Grading Option: Letter

IR 318 Violent Conflict
Units: 4 Origins and evolution of violent conflict among humans; modern efforts to end conflict; recent research in archaeology, anthropology, biology, economics, political science and psychology. Instruction Mode: Lecture Grading Option: Letter

IR 319 Human Security and Humanitarian Intervention
Units: 4 Explore causes of human security threats, challenges to state sovereignty, and actions to address failed states, conflicts and protect people through humanitarian intervention. Instruction Mode: Lecture Grading Option: Letter

IR 320 Technology and International Relations
Units: 4 Impact of technological advances to global security and development. Focus on surveillance and cyber conflict; nuclear weaponry, aviation and UAVs missiles and BMD; submarines and ASW. Instruction Mode: Lecture Grading Option: Letter

IR 321 Civil War, Peace Building and International Intervention
Units: 4 Examination of the causes of civil war, the dynamics and consequences of civil war and how peace is or is not built. Instruction Mode: Lecture Grading Option: Letter

IR 322 Financing Development in Mexico
Units: 4 Examines the role of investment in Mexican economic development focusing on both traditional sources of loans, grants and investment as well as less traditional modes of finance. Instruction Mode: Lecture Grading Option: Letter

IR 323 Politics of Global Environment
Units: 4 Examines the politics of managing the global environment. The nature of ecosystems, common problems, population and resource utilization problems along with biodiversity and global governance are emphasized. Instruction Mode: Lecture Grading Option: Letter Crosslisted as ENST-323

IR 324 Multinational Enterprises and World Politics
Units: 4 Political implications of interactions between different types of multinational enterprises and all levels of U.S. government, other industrial nations, and less-developed countries. Instruction Mode: Lecture Grading Option: Letter

IR 325 North-South Relations in the Global Economy
Units: 4 Analysis of inequality in relations between developed and developing states; contending views on the causes and legacies of imperialism; development strategies and aid. Instruction Mode: Lecture Grading Option: Letter

IR 326 U.S. Foreign Economic Policy
Units: 4 The U.S. economy and political-economic institutions in comparative perspective; economic diplomacy and policy; role of trade barriers, exchange rates, foreign aid, energy, foreign investment. Instruction Mode: Lecture Grading Option: Letter

IR 327 International Negotiation
Units: 4 Practicum in negotiation skills. Diagnosis of situations and identification of strategies through case studies and personal exercises. Instruction Mode: Lecture Grading Option: Letter

IR 328 The Evolving Global Economic Architecture-Capital Mobility
Units: 4 Exploration of the evolving global economic architecture of the past seventy years; overview of the possible future contours of economic and political globalization. Recommended preparation: Macro- and Micro-economics. Instruction Mode: Lecture Grading Option: Letter

IR 329 The Global Finance and Monetary Regime
Units: 4 The international financial and monetary regime, its evolution and the problems facing it today. Instruction Mode: Lecture Grading Option: Letter

IR 330 Politics of the World Economy
Units: 4 Exploration of questions and concepts in international economics and politics, especially as they relate to flows of trade, capital, people, and problems across borders. Instruction Mode: Lecture Grading Option: Letter

IR 331 The Global Economy 2040
Units: 4 Terms Offered: Fa Examination of key ideas from economics, demography and technology. Guest lecturers illuminate possible conditions of the Global Economy in 2040. Instruction Mode: Lecture Grading Option: Letter

IR 332 Money, Guns and Oil
Units: 4 Introduction to the relationship between economics, security, and U.S. foreign policy. Topics covered: U.S. grand strategy, China's rise, energy security, resource competition, and the resource curse. Instruction Mode: Lecture Grading Option: Letter

IR 333 China in International Affairs
Units: 4 Economic reform, the open door, and China's changing role in the international system. Relations with the United States, Japan, and other key powers in Asia. Tensions between the interests of American business and the human rights community over China policy. Instruction Mode: Lecture Grading Option: Letter

IR 337 The Impact of Remittances on Development in Mexico
Units: 4 Examines the nature of remittances and their effects. Can remittances promote development? Explores policy making focused on improving the quality of remittance expenditures in Mexico. *Recommended Preparation:* working ability with Spanish. Instruction Mode: Lecture Grading Option: Letter

IR 339 Public Health and International Relations
Units: 4 Examination of threats to global security, state sovereignty and population health posed by infectious diseases, natural disasters, war and civil conflict. Instruction Mode: Lecture Grading Option: Letter

IR 340 The Political Economy of China
Units: 4 Sources, consequences, challenges to China's economic growth, including rural and urban economies, entrepreneurship, central and local governments, inequality, trade, investment, finance, demographics, and the environment. Instruction Mode: Lecture Grading Option: Letter

IR 341 Foreign Policy Analysis
Units: 4 Basic concepts and analytical approaches in the study of decision-making at the international level. This is a case-based class, requiring participation of students in interactive discussions of decision forcing and retrospective foreign policy cases. Instruction Mode: Lecture Grading Option: Letter

IR 342 The Politics and Strategy of Weapons of Mass Destruction
Units: 4 Causes and effects of use and spread of nuclear, biological and chemical weapons; responses to WMD, including deterrence, preventive war, and non-proliferation policies and negotiations. Instruction Mode: Lecture Grading Option: Letter

IR 343 U.S. Foreign Policy since World War II
Units: 4 Analysis of U.S. foreign policy since 1945 as a basis for understanding significant new trends. Explanation of contemporary issues in U.S. relations with other nations. Instruction Mode: Lecture Grading Option: Letter

IR 344 The Global South in World Politics
Units: 4 Origin, concepts, realities and ideals of the non-aligned movement, focusing on the role of the United States in the developing world. Instruction Mode: Lecture Grading Option: Letter

IR 345 Russian and Post-Soviet Foreign Policy
Units: 4 Overview of Tsarist and Soviet experience as background to detailed examination of the political, economic and ideological forces behind contemporary Russian foreign policy. Instruction Mode: Lecture Grading Option: Letter

IR 346 Communism and Post-Communism: Eastern Europe and the Balkans
Units: 4 Analysis of communism and post-communism in East-Central Europe, including economic transitions, nationalism, inter-and intra-state conflict, NATO and EU enlargement. Instruction Mode: Lecture Grading Option: Letter

IR 349 International Law and Politics
Units: 4 Exploration of international law and international politics, including sovereignty, war, international tribunals, the environment, and human rights. Instruction Mode: Lecture Grading Option: Letter

IR 350 Power and Authority in the Middle East
Units: 4 (Enroll in MDES 345)

IR 351 Insurgency and Counterinsurgency
Units: 4 Terms Offered: Sp Theories of insurgency and counterinsurgency emphasizing works of notable guerrilla writers and the Western experience of putting theory into practice. Instruction Mode: Lecture Grading Option: Letter

IR 358 The Asia Pacific in World Affairs
Units: 4 The cultural, political, economic, and social aspects of the Asia Pacific's rise to prominence in world affairs. Reasons for the "successes" of many Asian economies and the environmental and social problems accompanying their rapid transformation. The difficulties of interaction in complex cultural situations illustrated by participation in a computer-assisted simulation. Instruction Mode: Lecture Grading Option: Letter

IR 359 The United States and the Middle East
Units: 4 Terms Offered: FaSp (Enroll in MDES 340)

IR 360 International Relations of the Pacific Rim
Units: 4 Political, economic and security relations among the countries in East Asia and the Pacific with the emphasis on the role of the United States, China and Japan. Instruction Mode: Lecture Grading Option: Letter

IR 361 South and Southeast Asia in International Affairs
Units: 4 The historical, cultural, and political reasons for Asia's dramatic transformation into a powerful engine of world economic growth. The secondary consequences of economic growth for environmental protection, gender relations, ethnicity, and military tension. Instruction Mode: Lecture Grading Option: Letter

IR 362 The International Relations of the Contemporary Middle East
Units: 4 Introduction to problems and issues in the Middle East today: religio-ethnic rivalries, conflicting nationalisms and ideologies, the Arab- Israeli conflict, Middle East oil. Instruction Mode: Lecture Grading Option: Letter Crosslisted as MDES-362

IR 363 Middle East Political Economy
Units: 4 Examination of general economic development issues: population, agriculture, industrialization, trade, oil, etc. Several Mideast case study countries are then explored in depth. Instruction Mode: Lecture Grading Option: Letter Crosslisted as MDES-363

IR 364 The Political Economy of Latin American Development
Units: 4 The main economic development themes and strategies in Latin America over the past century. The interplay between domestic and international variables, and the resulting dynamic changes. Instruction Mode: Lecture Grading Option: Letter

IR 365 Politics and Democracy in Latin America
Units: 4 Examines Latin America's experience with democracy emphasizing events since the 1980s. Analyzes the roles of interest groups, ideology, domestic politics, bureaucratic processes, perceptions and analogical reasoning. Instruction Mode: Lecture Grading Option: Letter

IR 366 Mexico and its Relations with the United States
Units: 4 Analysis of Mexico and U.S.-Mexico relations, both historically and in the present day, to understand better the challenges in this key bilateral relationship. Instruction Mode: Lecture Grading Option: Letter

IR 367 Africa in International Affairs
Units: 4 General overview of main historical, political, and economic issues as they affect Africa, focusing on nationalism, development, and superpower competition in Africa. Instruction Mode: Lecture Grading Option: Letter

IR 368 French Foreign Policy: 1945 to the Present
Units: 4 Terms Offered: FaSpSm Introduction to historical, thematic perspectives of French foreign policy since 1945 including review of external and internal constraints influencing foreign policy. (Paris semester only). Instruction Mode: Lecture Grading Option: Letter Crosslisted as FREN 368

IR 369 Post-War European Relations
Units: 4 European interstate conflict and cooperation since 1945; history of Western European integration during the Cold War; the European Union in post-Cold War Europe. Instruction Mode: Lecture Grading Option: Letter

IR 370 Global Governance and Health: From Global to Local
Units: 4 Terms Offered: Sm Addressing

global health challenges at multiple governance levels ranging from global to national to local. Instruction Mode: Lecture Grading Option: Letter

IR 371 Global Civil Society: Non-State Actors in World Politics
Units: 4 Examination of diplomatic and moral relationships between sovereign states and transnational non-state actors, both benevolent (humanitarian groups and philanthropies) and malevolent (mercenaries, pirates and terrorists). Instruction Mode: Lecture Grading Option: Letter

IR 374 Model Europe: Comparative Public Policy in France and the European Union
Units: 4 Terms Offered: Sm IR Analysis of contemporary challenges to the European Union policy-making in the areas of governance and citizenship, the environment, energy, economics and security. Instruction Mode: Lecture Grading Option: Letter

IR 376 U.S.-Japan Encounters: War, Trade, and Culture
Units: 4 The significance of U.S.-Japan relations is addressed through historical and policy analysis of America, Japan, and the Asia-Pacific region. Instruction Mode: Lecture Grading Option: Letter Crosslisted as HIST-376

IR 379 Cyber Conflict: Problems and Policy Issues
Units: 4 Cyber conflict, where cyber and national security intersect, is about technology and policy; players and prescriptions; crime, hacktivism, espionage, economic espionage, subversion and hybrid war. Instruction Mode: Lecture Grading Option: Letter

IR 380 Conducting Research on Climate Change, Conflict and Natural Resources
Units: 4 Terms Offered: Sp Analyzes and trains students to conduct independent research on the politics of natural resources. Training takes places in the field at a UC Natural Reserve. Instruction Mode: Lecture, Lab Grading Option: Letter

IR 381 Introduction to International Security
Units: 4 Key concepts in international security studies; historical evolution of international warfare and diplomacy; contemporary international security issues. Instruction Mode: Lecture Grading Option: Letter

IR 382w Order and Disorder in Global Affairs
Units: 4 Modern and post-modern perspectives on changes in the inter-state system, relations among cultures and civilizations, the conditions of ecologically sustainable human development. Satisfies Global Perspective in Category G: Citizenship in a Diverse World Instruction Mode: Lecture, Discussion Grading Option: Letter

IR 383 Conflict Mediation & Negotiation
Units: 4 Focuses on the international politics of resolving crises. Application of theories of conflict and negotiation in a UN Security Council Simulation. Instruction Mode: Lecture Grading Option: Letter

IR 384 Asian Security Issues
Units: 4 Introduction to key security trends in the Asia-Pacific region, emphasizing strategic competition between U.S., Russia, and China; regional military capabilities; rise of neutrality politics. Instruction Mode: Lecture Grading Option: Letter

IR 385 European Foreign Policy and Security Issues
Units: 4 In-depth analysis of foreign policy events and cases in Europe in the 20th century; focus on security issues. Instruction Mode: Lecture Grading Option: Letter

IR 386 Terrorism and Counterterrorism
Units: 4 Terms Offered: FaSpSm Examination of terrorism and responses to terrorism, including how societies understand and deal with terrorism; focus on ethical and normative issues. Instruction Mode: Lecture Grading Option: Letter

IR 387 Strategic Studies
Units: 4 Strategic theory and its application to national security and warfare from Western and non-Western perspectives. Topics include strategic culture, political decision-making, cyber operations, and non-state challenges. Instruction Mode: Lecture Grading Option: Letter

IR 388 Immigration in Spain: Issues and Controversies
Units: 4 Terms Offered: Sm Analyzes immigration in Spain within a comparative context of the European Union, focusing on challenges in the areas of economics, demography, politics and citizenship rights. Instruction Mode: Lecture Grading Option: Letter

IR 389 Islam in France
Units: 4 (Paris Semester only) Historical overview of interactions between Muslims and Europeans. Islam: origins, history and circumstances that led to its revival. France's immigration policy. Instruction Mode: Lecture Grading Option: Letter Crosslisted as FREN 389

IR 390 Special Problems
Units: 1, 2, 3, 4 Supervised, individual studies. No more than one registration permitted. Enrollment by petition only. Instruction Mode: Lecture Grading Option: Letter

IR 391 Directed International Relations Field Study
Units: 2, 4 Max Units: 8.0 Intensive internship experience in international relations professional areas with academic research component (may be repeated for credit different semesters). Instruction Mode: Lecture Grading Option: Letter

IR 392 Supervised Undergraduate Research Experience
Units: 2 Max Units: 4 Collaborative research projects under faculty supervision. Regular skills training and professionalization workshops. Instruction Mode: Lecture Grading Option: Letter

IR 393 Policy Writing for National Security Affairs
Units: 4 Intensive policy writing related to national and insecurity issues with emphasis on research and writing in varying formats typical in the policy world. *Prerequisite:* WRIT 340 Instruction Mode: Lecture Grading Option: Letter

IR 394 Social Justice and Community-Based Research
Units: 4 Students will be paired with a non-governmental organization or movement in order to design and implement a research project that aims to promote social change. Instruction Mode: Lecture Grading Option: Letter

IR 401 The United Nations and World Order
Units: 4 The contribution of the United Nations to world order, focusing on its history, principal organs, relationships with global actors, and prospects for reform. Instruction Mode: Lecture Grading Option: Letter

IR 402 Theories of War
Units: 4 Causes of war; means of prevention and consequences of war. Instruction Mode: Lecture Grading Option: Letter

IR 403 Transnational Diplomacy and Global Security
Units: 4 Explores emerging "diplomatic" relations between nation-states and transnational (non-state) entities, such as non-governmental organizations (NGOs), in the development of global peace and security policies. *Recommended Preparation:* IR 303. Instruction Mode: Lecture Grading Option: Letter

IR 404 International Relations Policy Task Force
Units: 4 Addresses unfinished question of public policy. Provides experience in interviewing and field research, oral presentation and collective discussion and deliberation. Open to juniors and seniors only. Instruction Mode: Lecture Grading Option: Letter

IR 405 Cultural Heritage, Religion, and Politics in the Middle East
Units: 4 Terms Offered: Fa (Enroll in REL 402) Instruction Mode: Lecture Grading Option: Letter

IR 406 Ethics and World Politics
Units: 4 Exploration of the relationship between ethics and politics. Special focus on religion, violence and human rights in international relations Instruction Mode: Lecture Grading Option: Letter

IR 407 Chinese Foreign Policy
Units: 4 The domestic and international sources of Chinese foreign policy; political, military, and economic issues in China's relations with its neighbors. Instruction Mode: Lecture Grading Option: Letter

IR 408 Global Democratization
Units: 4 Exploration of the global experience with democracy. Meaning of the term "democracy," explanations of the rise and fall of democracy, its current trends and future challenges. Instruction Mode: Lecture Grading Option: Letter

IR 409 Environment and Politics in the Middle East
Units: 4 Terms Offered: FaSp (Enroll in MDES 401)

IR 410 The History of Modern International Relations
Units: 4 Explores modern international relations history, focusing on the role of the U.S. in the global politics. Provides training in historical research methods. Instruction Mode: Lecture Grading Option: Letter Crosslisted as ENST-422

IR 412 Applied Data Science for International Relations 1
Units: 2 Terms Offered: Fa Introduction to

statistical computing and data visualization in R. Focus on visualization of descriptive statistics; create publication-ready figures for actual faculty research projects. *Prerequisite:* IR 210 and IR 211 Instruction Mode: Lecture Grading Option: Letter

IR 413 Applied Data Science for International Relations 2
Units: 2 Terms Offered: Sp Intermediate statistical computing and data visualization in R. Focus the on graphical presentation of complex statistical relationships. Students create publication-ready figures for actual faculty research projects. *Prerequisite:* IR 210 and IR 211 and (IR 412 or IR 307) Instruction Mode: Lecture Grading Option: Letter

IR 422 Ecological Security and Global Politics
Units: 4 Should environmental issues be treated as threats to security? Survey of recent literature explores global environmental politics using a security framework. *Recommended Preparation:* environmental studies course work. Instruction Mode: Lecture Grading Option: Letter Crosslisted as ENST 422

IR 423 Forced Migration and Conflict
Units: 4 Examines displacement, politics and violent conflict in the international system. Students engage academic debates on forced migration and volunteer with an LA-based organization serving refugees. Instruction Mode: Lecture Grading Option: Letter

IR 424w Citizenship and Migration in International Politics
Units: 4 Changing notions of citizenship in the context of history, and of economic, political and sociological theories of international migration; diaspora and migration case studies. Satisfies Global Perspective in Category G: Citizenship in a Diverse World Instruction Mode: Lecture Grading Option: Letter

IR 425 The New Triangle: China, the U.S. and Latin America
Units: 4 China's rise in the international political economy raises policy research questions, including an analysis of how this trend relates to U.S and Latin American relations. *Recommended Preparation:* micro and macro economics. Instruction Mode: Lecture Grading Option: Letter

IR 426 Trade Politics in the Western Hemisphere
Units: 4 Focus on the dynamic process of trade integration that has occurred since the mid-1980s in the Western Hemisphere. Instruction Mode: Lecture Grading Option: Letter

IR 427 Seminar on Economics and Security
Units: 4 Introduction to important economic issue areas that are understood as security-related in the contemporary world: food, trade, debt, etc. Instruction Mode: Lecture Grading Option: Letter

IR 428 China's Political Economy
Units: 4 Critical issues surrounding China's economic rise and the implications for international relations; the unique strengths and vulnerabilities of China's political-economic model; prospects for change. *Recommended Preparation:* IR 210 and a course from International Relations, Political Science, or History with a strong China component. Instruction Mode: Lecture Grading Option: Letter Crosslisted as ECON-451

IR 429 America and the Future of Geopolitics
Units: 4.0 Possible futures for nations, regions and issues and how to help frame U.S. foreign policy in relation to them. *Prerequisite:* IR 210gw Instruction Mode: Lecture Grading Option: Letter

IR 430 The Politics of International Trade
Units: 4 Economic approaches and political processes are used to explain observed international trade policy choices. Topics covered include globalization, regionalism, labor standards, the environment and sanctions. *Recommended Preparation:* micro and macro economics. Instruction Mode: Lecture Grading Option: Letter Crosslisted as ECON 451

IR 431 Commercial and Financial Globalization-Trends, Challenges
Units: 4 Factors determining the feasibility, desirability and limits of economic globalization; the dynamics triggered by the Global Financial Crisis and the backlash against Globalization. Instruction Mode: Lecture Grading Option: Letter

IR 437 Comparative Genocide
Units: 4 An interdisciplinary treatment of the tragic phenomenon of genocide. Subject matter includes historical cases and analysis of contemporary global efforts toward prevention. Instruction Mode: Lecture Grading Option: Letter

IR 438 Nationalism and Ethnic Conflict after Communism
Units: 4 Explores origins and nature of ethnic strife among post-socialist states (ethnicity and national revival, modern histories of East-Central Europe and Russia, problems and conflict resolution). Instruction Mode: Lecture Grading Option: Letter

IR 439 Political Economy of Russia and Eurasia
Units: 4 Interaction of politics and economics in the former Soviet Union and its component republics; the historical planned economy, the politics of reform and the political economy of former Soviet foreign relations. Instruction Mode: Lecture Grading Option: Letter

IR 440 America's Pacific Century: Dialogues between the U.S. and Asia
Units: 4 Terms Offered: Sp A hands-on analysis of the contemporary U.S. foreign policy towards East Asia through lectures, interviews, and policy paper writing, including an exchange visit to Singapore. Instruction Mode: Lecture Grading Option: Letter

IR 441 Comparative Analysis of Foreign Policy
Units: 4 Comparative analysis of foreign policy determinants and decision-making; empirical emphasis. Instruction Mode: Lecture Grading Option: Letter

IR 442 Japanese Foreign Policy
Units: 4 Economic, political, territorial, and security issues; foreign policy decision-making; relations with major powers and neighboring states. Instruction Mode: Lecture Grading Option: Letter

IR 443 Formulation of U.S. Foreign Policy
Units: 4 Critical discussion of alternative approaches explaining the formulation and implementation of U.S. foreign policy: domestic politics, organizational processes, group dynamics, individual personality and perception. Instruction Mode: Lecture Grading Option: Letter

IR 444w Theories of Global Society
Units: 4 Why the world is organized into sovereign nation-states. The challenges to nation-states in the 21st century from globalization, democratization, revolution, technology, and new forms of cultural identity. Satisfies Global Perspective in Category G: Citizenship in a Diverse World Instruction Mode: Lecture Grading Option: Letter

IR 445 U.S. Defense and Foreign Policy: Nonproliferation and Weapons of Mass Destruction
Units: 4 Policies and programs aimed at stopping the spread of weapons of mass destruction. Presentations by executive/legislative officials involved in formulation and implementation of non-proliferation. Instruction Mode: Lecture Grading Option: Letter

IR 446 The Role of Norms and International Security
Units: 4 The role of ideas, beliefs and norms in understanding state behavior and US foreign policy, from traditional security concepts to modern soft power. Instruction Mode: Lecture Grading Option: Letter

IR 447w Cities of the Middle East
Units: 4 Terms Offered: FaSp (Enroll in MDES 441w)

IR 449 International Courts and the Globalization of Law
Units: 4 Research-based analysis of dramatic development of international courts, exploring causes for their development, autonomy and political relations with states, compliance, effects on international relations. Instruction Mode: Lecture Grading Option: Letter

IR 454 The International Political Economy of Development
Units: 4 Provides a critical introduction to scholarship on international political economy (IPE), the interaction of states and markets in a global context. Instruction Mode: Lecture Grading Option: Letter

IR 455 The Political Economy of Autocracy
Units: 4 Survey of autocracy, the world's most common form of government: its political economy, the role of elections, parties, repression, propaganda and civil resistance. Instruction Mode: Lecture Grading Option: Letter

IR 462 State-Building, Institutions in Middle East and North Africa
Units: 4 The interaction of institutions, preferences and historical legacies in the building of state-institutions in the Middle East and North Africa. Instruction Mode: Lecture Grading Option: Letter

IR 463 Islam and Arab Nationalism
Units: 4 Historical, sociological and political processes that have shaped the emergence of and relationship between Arab nationalism and political Islam since the early 20th century. Instruction Mode:

Lecture Grading Option: Letter Crosslisted as MDES-463

IR 464 US-Middle East Foreign Policy Issues
Units: 4 U.S. and Middle East perspectives on Middle Eastern affairs after the creation of the state of Israel. Instruction Mode: Lecture Grading Option: Letter

IR 465 Contemporary Issues in United States-Latin America Relations
Units: 4 Examines major issues in the relationship between the United States and the countries of Latin America and the Caribbean, including trade and financial questions, security, immigration, the environment, narcotics, etc. Major bilateral relations (especially with Mexico, Brazil, and the Caribbean Basin countries) are emphasized, as are regional and multilateral relationships. Instruction Mode: Lecture Grading Option: Letter

IR 466 Contemporary Issues in Latin American Politics
Units: 4 Focus on current politics in Latin America. Address a range of themes: electoral democracy, citizenship, political inclusion, human rights, corruption, economic inequality. Instruction Mode: Lecture Grading Option: Letter

IR 468 European Integration
Units: 4 Research on the European Union's role in European international relations; internal EU developments since 1985 as an actor in the world economy. Instruction Mode: Lecture Grading Option: Letter

IR 470 Comparative Regionalism
Units: 4 Analysis of the factors that provide different forms of regional arrangements in different parts of the world (e.g, NAFTA, FU, ASEAN). *Prerequisite:* IR 210. Instruction Mode: Lecture Grading Option: Letter

IR 483 War and Diplomacy: The U.S. in World Affairs
Units: 4 Perspective on recent American foreign policy; a case study of conflicting literature on the origins, development and legacy of the Cold War. Instruction Mode: Lecture Grading Option: Letter

IR 484 American Religion, Foreign Policy and the News Media
Units: 4 (Enroll in JOUR 484)

IR 490x Directed Research
Units: 1, 2, 3, 4, 5, 6, 7, 8 Max Units: 12.0 Individual research and readings. Instruction Mode: Lecture Grading Option: Letter

IR 491x Field Study
Units: 1, 2, 3, 4, 5, 6, 7, 8 Max Units: 8.0 Local, national, and international internships. Instruction Mode: Lecture Grading Option: Letter

IR 494 Honors Thesis Seminar
Units: 4 Preparation and oral defense of senior honors thesis before supervising faculty and fellow honors students. *Recommended Preparation:* IR 311. Instruction Mode: Lecture Grading Option: Letter

IR 499 Special Topics
Units: 2, 3, 4 Max Units: 8.0 Selected topics in various special areas within international relations, which may vary from semester to semester or within semesters. Instruction Mode: Lecture Grading Option: Letter

IR 553 Global Internet Governance
Units: 4 Terms Offered: FaSp (Enroll in COMM 553)

Persian

IRAN 120 Persian I
Units: 4 Introduction to contemporary Persian (Farsi). Oral practice, listening and reading comprehension, grammar and vocabulary necessary for simple spoken and written expression. Duplicates Credit in former MDES 120. Instruction Mode: Lecture Grading Option: Letter

IRAN 150 Persian II
Units: 4 Continuation of Persian I. *Prerequisite:* IRAN 120. Instruction Mode: Lecture Grading Option: Letter

IRAN 220 Persian III
Units: 4 Intermediate Persian (Farsi). Building conversational skills, listening and reading comprehension, grammar and vocabulary necessary for intermediate level spoken and written expression. *Prerequisite:* IRAN 150. Duplicates Credit in former MDES 220. Instruction Mode: Lecture Grading Option: Letter

IRAN 250 Persian IV
Units: 4 Continuing Intermediate Persian (Farsi). Building conversational skills, listening and reading comprehension, grammar and vocabulary necessary for intermediate level spoken and written expression. *Prerequisite:* IRAN 220 Duplicates Credit in former MDES 250 Instruction Mode: Lecture Grading Option: Letter

IRAN 320 Advanced Persian I
Units: 4 Terms Offered: FaSp Advanced verbal and written expression in Persian, including deeper understanding of Persian culture. *Prerequisite:* IRAN 250. Duplicates Credit in former MDES 320. Instruction Mode: Lecture Grading Option: Letter

IRAN 325 Business Persian
Units: 4 Terms Offered: FaSp Business Persian is an intermediate level course designed to develop communicative skills, written expression and reading comprehension on intermediate business contents. *Prerequisite:* IRAN 220 Instruction Mode: Lecture Grading Option: Letter

IRAN 350 Advanced Persian II
Units: 4 Terms Offered: FaSp Continuation of Advanced Persian I. *Prerequisite:* IRAN 320. Duplicates Credit in former MDES 350. Instruction Mode: Lecture Grading Option: Letter

Industrial and Systems Engineering

ISE 105 Introduction to Industrial and Systems Engineering
Units: 2 Terms Offered: FaSp A combination of plant tours, laboratory experiences, and lecture are used to introduce the philosophy, subject matter, aims, goals, and techniques of industrial and systems engineering. Instruction Mode: Lecture Grading Option: Letter

ISE 150 Solving Engineering Problems via Computer Programming
Units: 3 Terms Offered: Sp Engineering examples are used as a platform to introduce computer programming skills for problem solving; critical thinking skills. Instruction Mode: Lecture, Lab Grading Option: Letter

ISE 220 Probability Concepts in Engineering
Units: 3 Terms Offered: FaSp Techniques for handling uncertainties in engineering design: discrete and continuous random variables; expectations, probability distributions and transformations of random variables; limit theorems; approximations and applications. *Prerequisite:* MATH 126. Instruction Mode: Lecture Grading Option: Letter

ISE 225 Engineering Statistics I
Units: 3 Terms Offered: Sp Sampling distributions; parameter estimation, hypothesis testing; analysis of variance; regression; nonparametric statistics. *Prerequisite:* ISE 220. Instruction Mode: Lecture Grading Option: Letter

ISE 232L Manufacturing Processes
Units: 3 Terms Offered: Fa Basic manufacturing processes including casting, machining, forming and welding; current trends in manufacturing processes including polymer, ceramic and composite material processing, and electronic device fabrication; introduction to numerical control and computer integrated manufacturing. *Recommended Preparation:* MASC 110L or CHEM 105aLg or CHEM 115aLg Instruction Mode: Lecture, Lab Required Grading Option: Letter Crosslisted as AME 232

ISE 310L Facilities and Logistics
Units: 4 Terms Offered: FaSp Facilities layout and design: material handling and transportation; site selection and sourcing; supply chain management. *Prerequisite:* ISE 330 and ISE 460. Instruction Mode: Lecture, Lab Required Grading Option: Letter

ISE 315L Engineering Project Management
Units: 3 Terms Offered: FaSp Techniques for planning, budgeting, scheduling, obtaining resources, monitoring and control of projects in a corporate environment. Use of software to evaluate performance and assess risks. *Prerequisite:* ISE 225 and ISE 330 Instruction Mode: Lecture, Lab Required Grading Option: Letter

ISE 327 Six Sigma and Lean Operations
Units: 3 Standardized methodology for problem solving, basic and advanced statistical tools for root cause identification and solution confirmation, key principles for quality management and organizational excellence. *Prerequisite:* ISE 225 Instruction Mode: Lecture Grading Option: Letter

ISE 330 Introduction to Operations Research: Deterministic Models
Units: 3 Terms Offered: Fa Introduction to linear programming; transportation and assignment problems; dynamic programming; integer programming; nonlinear programming. *Prerequisite:* MATH 225. Instruction Mode: Lecture Grading Option: Letter

ISE 331 Introduction to Operations Research: Stochastic Models
Units: 3 Terms Offered: Sp Stochastic processes; Markov chains; queueing theory and queueing decision models; probabilistic inventory models. *Prerequisite:* ISE 220; *Recommended Preparation:* ISE 330. Instruction Mode: Lecture Grading Option: Letter

ISE 335L Supply Chain Design
Units: 3 Terms Offered: FaSp Design of Supply Chains. Product, distribution, transportation and site selection. Analysis and optimization of supply chain networks. *Prerequisite:* ISE 330 and ISE 460 Instruction Mode: Lecture, Lab Required Grading Option: Letter

ISE 344 Engineering Team Management
Units: 3 Examine team formation and team dynamics including organizational behavior, group dynamics, psychology, and business management, all in the context of engineering development; decision-making and negotiation. Registration Restriction: Open only to juniors and seniors. Instruction Mode: Lecture Grading Option: Letter

ISE 350 Principles of Systems Engineering
Units: 3 Terms Offered: FaSp Systems as complex collaborative ensembles of interconnected components. Theory and practice of requirements, design, implementation, testing, deployment, operation, and disposal. Case studies from real projects. *Prerequisite:* ISE 225 Instruction Mode: Lecture Grading Option: Letter

ISE 370L Human Factors in Work Design
Units: 4 Terms Offered: Fa Physiological systems and psychological characteristics; ergonomics; anthropometry; effects of the physical environment on humans; occupational safety and health; work methods. Instruction Mode: Lecture, Lab Required Grading Option: Letter

ISE 375L Facilities Design
Units: 3 Terms Offered: FaSp Design of facilities for operations and distribution. Product, process flow, material handling, and facility location techniques that lead to making good decisions for facilities layouts. *Prerequisite:* ISE 331 and ISE 460 Instruction Mode: Lecture, Lab Required Grading Option: Letter

ISE 382 Database Systems: Concepts, Design and Implementation
Units: 4 Terms Offered: FaSp Data models for industry applications. Modeling and designing robust databases. Implementing and querying databases with SQL. Innovations in database applications. Instruction Mode: Lecture, Discussion Grading Option: Letter Crosslisted as ITP 383

ISE 390 Special Problems
Units: 1, 2, 3, 4 Supervised, individual studies. No more than one registration permitted. Enrollment by petition only. Instruction Mode: Lecture Grading Option: Letter

ISE 404 Business and Intellectual Property Law for Engineers
Units: 3 (Enroll in CE 404)

ISE 410 Planning and Scheduling
Units: 3 Terms Offered: FaSp Production planning, forecasting, scheduling, and inventory; computer integrated decision systems in analysis and control of production systems. *Prerequisite:* ISE 330. Instruction Mode: Lecture Grading Option: Letter

ISE 422L Configuring Enterprise Resource Planning Systems
Units: 4 (Enroll in ITP 422)

ISE 426 Statistical Quality Control
Units: 3 Terms Offered: Fa Quantitative aspects of statistical quality control (process control, acceptance sampling by attribute and by variable, rectifying inspection), quality assurance and the management of QC/QA functions. *Prerequisite:* ISE 225. Instruction Mode: Lecture Grading Option: Letter

ISE 435 Discrete Systems Simulation
Units: 3 Terms Offered: FaSp Model design to simulate discrete event systems with basic input and output analysis using high order languages, applied to industrial systems analysis and design problems. *Prerequisite:* CSCI 101 and ISE 225. Instruction Mode: Lecture, Lab Grading Option: Letter

ISE 440 Work, Technology, and Organization
Units: 3 Terms Offered: Sp Impact of technology on work and organizational design; effects of automation; design of improvement programs; information infrastructures; teams; individual behavioral outcomes. Upper division standing. Instruction Mode: Lecture Grading Option: Letter

ISE 460 Engineering Economy
Units: 3 Terms Offered: FaSpSm Utilizing principles of economic analysis for choice of engineering alternatives and engineering systems. Pre-tax and after-tax economy studies. Instruction Mode: Lecture, Discussion Grading Option: Letter

ISE 470 Human/Computer Interface Design
Units: 3 Terms Offered: Sp Essentials of human factors and computer interface for the design, development, implementation, and evaluation of integrated media systems. Instruction Mode: Lecture Grading Option: Letter

ISE 482 Engineering Database Applications
Units: 3 (Enroll in ITP 482)

ISE 487Lx Enterprise Data Analytics
Units: 4 Terms Offered: Fa (Enroll in ITP 487)

ISE 488x Managing Supply Chains with Advanced Planning and Optimization
Units: 3 (Enroll in ITP 488)

ISE 490x Directed Research
Units: 1, 2, 3, 4, 5, 6, 7, 8 Max Units: 12.0 Terms Offered: FaSp Individual research and readings. Instruction Mode: Lecture Grading Option: Letter

ISE 495ax Senior Design Project
Units: 2 Terms Offered: FaSp Preparation and development of the senior project proposal. Open only to industrial and systems engineering majors. *Prerequisite:* ISE 225 and ISE 460 and DSO 435 or ISE 382. Instruction Mode: Lecture Grading Option: In Progress to Letter

ISE 495bx Senior Design Project
Units: 2 Terms Offered: FaSp Group work on an industrial engineering design problem in an organization. Open only to industrial and systems engineering majors. *Prerequisite:* ISE 435 and ISE 370 or ISE 470. Registration Restriction: Open only to Industrial and Systems Engineering majors. Instruction Mode: Lecture Grading Option: Letter

ISE 499 Special Topics
Units: 2, 3, 4 Course content to be selected each semester from recent developments in industrial and systems engineering and related fields. Instruction Mode: Lecture Grading Option: Letter

ISE 500 Statistics for Engineering Managers
Units: 3 Terms Offered: FaSpSm Framing engineering management situations with statistical methods. Experiments, distributions, regression, ANOVA, hypothesis. Registration Restriction: Open only to fifth-year seniors and master's students Instruction Mode: Lecture Grading Option: Letter

ISE 501 Innovative Conceptual Design for New Product Development
Units: 3 Terms Offered: FaSp An introduction to a conceptual design framework with a logic foundation and a systematic process to carry out concept generation and improvement for innovative product developments. *Recommended Preparation:* Bachelor's degree in engineering or physical sciences Instruction Mode: Lecture Grading Option: Letter Crosslisted as AME 501

ISE 502 Construction Accounting, Finance and Strategy
Units: 4 Terms Offered: FaSp (Enroll in CE 502)

ISE 505 Modeling for Health Policy and Medical Decision Making
Units: 3 Terms Offered: Fa Modeling techniques used to inform decisions in public health, disease control, and hospital operations. *Recommended Preparation:* Basic probability; advanced undergraduates are encouraged to take the class and should obtain instructor permission to attend Instruction Mode: Lecture Grading Option: Letter Crosslisted as PPD 505

ISE 506 Lean Operations
Units: 3 Terms Offered: FaSp Study of lean principles and practices as applied to various industries. Duplicates Credit in the former SAE 551 Instruction Mode: Lecture Grading Option: Letter Crosslisted as SAE 551

ISE 507 Six-Sigma Methods and Applications
Units: 3 Terms Offered: FaSpSm Comprehensive study of Six Sigma and Lean metrics, methods, and systems with their applications to manufacturing, services, quality improvement and management. Instruction Mode: Lecture Grading Option: Letter Crosslisted as PPD-507

ISE 508 Health Care Operations Improvement
Units: 3 Terms Offered: Sp Improving operations, patient flow, quality and processes. Students will become familiar with methods for implementing change in health care settings such as hospitals or clinics. Instruction Mode: Lecture Grading Option: Letter Crosslisted as PPD-508

ISE 509 Practicum in Health Care Systems
Units: 3 Terms Offered: FaSp Performance improvement projects within hospitals are undertaken by small teams collaborating with hospital staff. Study of tools to improve and optimize operations. *Recommended Preparation:* Spreadsheet use and general

familiarity with the healthcare industry; engineering statistics at the level of ISE 225 Instruction Mode: Lecture Grading Option: Letter

ISE 510 Advanced Computational Design and Manufacturing
Units: 3 Terms Offered: Sp Study advanced concepts behind computational representations, algorithms, and mathematical foundations, and their applications in computer aided design and manufacturing. Develop hands-on computational skills in team projects. *Recommended Preparation:* bachelor's degree in industrial engineering; programming experience, C++ preferred Registration Restriction: Open only to master students Instruction Mode: Lecture Grading Option: Letter Crosslisted as AME 510

ISE 511L Mechatronic Systems Engineering
Units: 3 Terms Offered: Fa Use of mechanical, electrical, and computer engineering, math, and computer science to design of high performance and sophisticated products and processes and systems involving mechatronic. *Recommended Preparation:* bachelor's degree in engineering or physical sciences, and preliminary knowledge of programming in C Instruction Mode: Lecture Grading Option: Letter Crosslisted as AME 504

ISE 512 Software Management and Economics
Units: 3 Terms Offered: Fa (Enroll in CSCI 510)

ISE 513 Inventory Systems
Units: 3 Terms Offered: Sp Deterministic and stochastic demand systems with static/dynamic models. Practice in inventory management, computerized procedures, materials requirements planning, just-intime production, Kanban systems. Instruction Mode: Lecture Grading Option: Letter

ISE 514 Advanced Production Planning and Scheduling
Units: 3 Terms Offered: FaSm Advanced concepts in production planning and scheduling including resource allocation, lot sizing, flow shop and job shop scheduling, workforce scheduling and assembly line balancing. *Recommended Preparation:* prior knowledge of operations research and probability theory. Instruction Mode: Lecture Grading Option: Letter

ISE 515 Engineering Project Management
Units: 3 Terms Offered: FaSpSm Applying industrial and systems engineering skills to problems drawn from industry, while working in teams of 3–4 students. Teach project management skills and provide direct experience in managing and executing a group project. Instruction Mode: Lecture Grading Option: Letter

ISE 517 Modern Enterprise Systems
Units: 3 Terms Offered: FaSp Managing the process design, interfaces and resources of service and manufacturing systems, based on the state of their processes. Instruction Mode: Lecture Grading Option: Letter

ISE 520 Optimization Theory and Algorithms: Numerical Optimization
Units: 3 Terms Offered: Fa Numerical methods for multidimensional, non-linear optimization algorithms, simple and quadratic programming *Recommended Preparation:* Multivariate Calculus, Linear Algebra, Computer Programming Instruction Mode: Lecture Grading Option: Letter Crosslisted as CSCI 521

ISE 525 Design of Experiments
Units: 3 Terms Offered: FaSp Planning data collection to investigate relationships between product/process design choices (materials, temperatures, etc.) and performance, empirical modeling to predict performance, identification of the best design choices. *Recommended Preparation:* ISE 225. Instruction Mode: Lecture Grading Option: Letter

ISE 527 Quality Management for Engineers
Units: 3 Terms Offered: FaSp Principles of quality management, quality philosophies and frameworks, quality leadership and strategic planning, process management, and performance measurements. Instruction Mode: Lecture Grading Option: Letter

ISE 528 Advanced Statistical Aspects of Engineering Reliability
Units: 3 Advanced statistical methods applied to reliability engineering. Experimental design analysis and interpretation of multifactor reliability problems. Instruction Mode: Lecture Grading Option: Letter

ISE 529 Predictive Analytics
Units: 3 Terms Offered: FaSp Analytics for supervised and unsupervised statistical learning. Generalized linear models, discriminant analysis, support vector machines. Nonparametric classification, trees, ensemble methods, k-nearest neighbors. Principal components, clustering. *Recommended Preparation:* ISE 225 and equivalent working knowledge of a computer language Instruction Mode: Lecture Grading Option: Letter Crosslisted as DSCI 561

ISE 530 Optimization Methods for Analytics
Units: 3 Terms Offered: FaSp Linear Programming, Integer Programming, quadratic and nonlinear programming. *Recommended Preparation:* Calculus III, Linear Algebra and Computer Programming Instruction Mode: Lecture Grading Option: Letter

ISE 532 Network Flows
Units: 3 Terms Offered: Sp Tree, path, flow problems, formulation and solution techniques. Methods for minimal cost flows. Applications. *Prerequisite:* ISE 330 or ISE 536. Instruction Mode: Lecture Grading Option: Letter

ISE 533 Integrative Analytics
Units: 3 Terms Offered: Sp The three pillars of analytics (predictive, prescriptive, and validation) together under one framework. Use of statistics, learning enabled optimization. Based on publicly available data sets. *Prerequisite:* ISE 529 and ISE 530 Registration Restriction: Open only to graduate students Instruction Mode: Lecture Grading Option: Letter

ISE 534 Data Analytics Consulting
Units: 3 Terms Offered: Sp Consulting project concepts, frameworks, analytical tools, and managerial skills with a focus on the use of data analytics, design thinking and insight-driven frameworks. *Prerequisite:* ISE 529 and ISE 530 *Recommended Preparation:* Working knowledge of machine learning techniques as provided by ISE 529. Basic knowledge of statistics and statistical modeling. Instruction Mode: Lecture Grading Option: Letter

ISE 535 Data Mining
Units: 3 Terms Offered: Sp Data preprocessing, data cleaning, data summarization, data visualization, and predictive modeling for classification and regression; modeling dependencies using association rules. *Recommended Preparation:* Knowledge of engineering statistics on the level of ISE 225 and working knowledge of a programming language Instruction Mode: Lecture Grading Option: Letter

ISE 536 Linear Programming and Extensions
Units: 3 Terms Offered: Fa Linear programming models for resource allocation; simplex and revised simplex methods; duality; sensitivity; transportation problems; selected extensions to large scale, multiobjective, and special structured models. *Prerequisite:* MATH 225 or EE 441. Instruction Mode: Lecture Grading Option: Letter Crosslisted as CSCI-536

ISE 537 Financial Analytics
Units: 3 Terms Offered: FaSp Portfolio construction and active portfolio management; investment strategies; machine learning models in quantitative finance; equity factor investing and general risk premia investing. *Recommended Preparation:* Knowledge of Engineering Statistics on the level of ISE 225 and working knowledge of a programming language Instruction Mode: Lecture Grading Option: Letter

ISE 538 Performance Analysis Using Markov Models
Units: 3 Terms Offered: FaSp Random variables, stochastic processes, birth and death processes, continuous- and discrete-time Markov chains with finite and infinite number of states, renewal phenomena and queuing systems. Instruction Mode: Lecture Grading Option: Letter

ISE 539 Stochastic Elements of Simulation
Units: 3 Terms Offered: Sp Simulation techniques combined with probabilistic analysis for solving problems in inventory theory, queuing theory, financial engineering, decision analysis, and other fields having a stochastic element. *Corequisite:* ISE 538. Instruction Mode: Lecture Grading Option: Letter

ISE 540 Text Analytics
Units: 3 Terms Offered: Fa Methods and algorithms for automated text analysis; machine learning; predictive web data analytics; information retrieval; social media data; natural language documents and graphs. *Prerequisite:* ISE 225 *Recommended Preparation:* Working knowledge of a programming language (R or Python is desirable). ISE 529 Predictive Analytics is highly recommended. Instruction Mode: Lecture Grading Option: Letter

ISE 543 Enterprise Business Intelligence and Systems Analytics
Units: 3 Terms Offered: Sp Overview of data management and analytical techniques used in corporate environments and their practical implementation using state-of-the-art Business Intelligence software. *Recommended Preparation:* An undergraduate statistics course on the level of ISE 225. Some programming experience, at the level of ISE 150, would be helpful Instruction Mode: Lecture Grading Option: Letter

ISE 544 Leading and Managing Engineering Teams
Units: 3 Terms Offered: FaSpSm Design and management of engineering teams. Group decision-making, motivation, leadership, infrastructural requirements, performance measurement, team diversity, conflict, and integration. Instruction Mode: Lecture Grading Option: Letter

ISE 545 Technology Development and Implementation
Units: 3 Terms Offered: Fa Principles and practices of technology development and implementation, with application to products and systems in manufacturing and services. Instruction Mode: Lecture Grading Option: Letter

ISE 551 Foundations of Data Management
Units: 3 Terms Offered: FaSp (Enroll in INF 551)

ISE 554 Innovation and the Engineering Enterprise
Units: 3 Examination of innovation in engineering enterprises including human behavior and human resources, organizational development, engineering management, business structures, financing the enterprise and intellectual property. Instruction Mode: Lecture Grading Option: Letter

ISE 556 Stochastic Systems and Reinforcement Learning
Units: 4 Terms Offered: Sp (Enroll in EE 556)

ISE 560 Analysis of Algorithms
Units: 4 (Enroll in CSCI 570)

ISE 561 Economic Analysis of Engineering Projects
Units: 3 Terms Offered: FaSpSm Economic evaluations of engineering systems for both government and private industry; quantitative techniques for evaluating non-monetary consequences; formal treatment of risk and uncertainty. *Prerequisite:* ISE 500; *Recommended Preparation:* an undergraduate course in engineering economy. Instruction Mode: Lecture Grading Option: Letter

ISE 562 Decision Analysis
Units: 3 Terms Offered: FaSp Decision making under risk conditions; utility theory; sufficient statistics; conjugate prior distributions; terminal and pre-posterior analysis; Bayesian statistics versus classical statistics. Instruction Mode: Lecture Grading Option: Letter

ISE 563 Financial Engineering
Units: 3 Terms Offered: Sp Concepts underlying the economic analysis of engineering projects; applications to call and put options; utility theory and mathematical optimizations models; and simulation. *Recommended Preparation:* ISE 220 or an equivalent course in probability. Instruction Mode: Lecture Grading Option: Letter

ISE 564 Performance Analysis
Units: 3 Measurement systems for performance analysis. Determination of performance metrics, analytical models, case studies. Cross-industry comparisons, measures for manufacturing and service systems, information and knowledge workers. Instruction Mode: Lecture Grading Option: Letter

ISE 565 Law and Finance for Engineering Innovation
Units: 3 Students will identify, formulate and resolve legal, financial and ethical issues affecting innovation in engineering organizations including legal structures, financing and intellectual property rights. Open only to graduate students. Registration Restriction: Open only to graduate students. Instruction Mode: Lecture Grading Option: Letter Crosslisted as CE-580

ISE 566 Financial Accounting Analysis for Engineering
Units: 3 Terms Offered: Sp Identification, formulation, and solution of financial accounting problems in engineering enterprises. Legal context of financial decisions, process cost determination and allocation, financial reports, and reporting systems. Open only to graduate students. Registration Restriction: Open only to graduate students. Instruction Mode: Lecture Grading Option: Letter

ISE 567 Collaborative Engineering Principles and Practice
Units: 3 Terms Offered: Sp Scientific principles and industrial practices defining how a team of stakeholders should collaboratively work together to reach agreement on complex engineering tasks. Open only to graduate students in engineering. Registration Restriction: Open only to graduate students in engineering. Instruction Mode: Lecture Grading Option: Letter Crosslisted as AME-567

ISE 568 Machine Learning
Units: 3 Terms Offered: Fa (Enroll in CSCI 567)

ISE 570 Human Factors in Engineering
Units: 3 Terms Offered: Fa Psychological and physiological characteristics of humans; how they limit engineering design of machines and human-machine systems. Instruction Mode: Lecture Grading Option: Letter

ISE 573 Work Physiology
Units: 3 Survey of metabolic processes in the performance of physical work, study of individual and environmental factors affecting these processes.

ISE 574 Probabilistic Reasoning
Units: 3 Terms Offered: Fa (Enroll in CSCI 573)

ISE 576 Industrial Ecology: Technology-Environment Interaction
Units: 3 Concepts and methods to analyze the environmental impacts of industrial systems, including lifecycle assessment, material flow analysis, design for environment and sustainable consumption. Instruction Mode: Lecture Grading Option: Letter

ISE 580 Performance Analysis with Simulation
Units: 3 Terms Offered: FaSp Introduction to modeling and analysis of stochastic systems, with an emphasis on discrete-event simulation of non-Markovian systems. *Recommended Preparation:* Probability and statistics, including hypothesis testing and introductory computer programming Instruction Mode: Lecture Grading Option: Letter

ISE 581 Negotiation For Engineering Management
Units: 3 Terms Offered: Sp Decision making techniques for the engineering manager including negotiation principles, contract negotiation, dispute resolution, auctions, bidding, voting and coalition formation. Instruction Mode: Lecture Grading Option: Letter Crosslisted as CE-581

ISE 582 Web Technology for Industrial Engineering
Units: 3 Terms Offered: Fa A fast-paced, project-based introduction to designing and implementing interactive Web applications. Emphasizes skills for building engineering and market research applications requiring information gathering, analysis, representation. *Prerequisite:* ISE 382. Instruction Mode: Lecture Grading Option: Letter

ISE 583 Enterprise Wide Information Systems
Units: 3 Terms Offered: FaSp The role of enterprise resource planning systems (ERPs) in an organization and the task of implementing and managing the IS function. Instruction Mode: Lecture Grading Option: Letter

ISE 585 Strategic Management of Technology
Units: 3 Terms Offered: FaSp Management skills and tools for technology intensive enterprises. Life cycle analysis of technology from planning through exploitation, obsolescence and renewal. Instruction Mode: Lecture Grading Option: Letter

ISE 587 Risk Analysis
Units: 4 (Enroll in PPD 587)

ISE 589 Port Engineering: Planning and Operational Analysis-
Units: 4 Terms Offered: SpSm (Enroll in CE 589)

ISE 590 Directed Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Research leading to the master's degree; maximum units which may be applied to the degree to be determined by the department. Instruction Mode: Lecture Grading Option: Credit/No Credit

ISE 594a Master's Thesis
Units: 2 Credit on acceptance of thesis. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

ISE 594b Master's Thesis
Units: 2 Credit on acceptance of thesis. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

ISE 594z Master's Thesis
Units: 0 Credit on acceptance of thesis. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

ISE 599 Special Topics
Units: 2, 3, 4 Max Units: 9.0 Terms Offered: Fa Course content will be selected each semester to reflect current trends and developments in the field of industrial and systems engineering. Instruction Mode: Lecture Grading Option: Letter

ISE 610 Advance Design of Experiments and Quality Engineering
Units: 3 Terms Offered: Fa Advanced planning for data collection in order to investigate relationships between product/process design choices and performance; empirical modeling to predict performance; identification of the best design. *Recommended Preparation:* Undergraduate course in Engineering Statistic, including distributions, confidence intervals, ANOVA and Regression. Instruction Mode: Lecture Grading Option: Letter

ISE 620 Foundations of Stochastic Processes
Units: 3 Terms Offered: Sp An introductory PhD course on stochastic processes, covering such topics as conditional expectation, renewal processes, and discrete and continuous time Markov chains. *Recommended Preparation:* A course in probability. Some knowledge of real analysis. Registration Restriction: Open only to doctoral students Instruction Mode: Lecture Grading Option: Letter

ISE 630 Foundations of Optimization
Units: 3 Terms Offered: Sp Convex sets, convex functions, structures of optimization problems, Lagrangian and conjugate duality. First and second order optimality conditions; applications in engineering and management. *Recommended Preparation:* Calculus III and Linear Algebra. Instruction Mode: Lecture Grading Option: Letter

ISE 631 Linear Programming
Units: 3 Terms Offered: Fa Doctoral course in optimization, the foundation for subsequent courses in mathematical programming. For first-year Ph.D. students and M.S. students who intend to pursue a Ph.D. *Recommended Preparation:* One year of calculus and one semester of linear and matrix algebra Instruction Mode: Lecture Grading Option: Letter

ISE 632 Network Flows and Combinatorial Optimization
Units: 3 Terms Offered: Sp Combinatorial optimization, particularly graph problems. Shortest paths, max flow, minimum cost flows, spanning trees, matroids, submodular functions. Bipartite and general matchings, polyhedral combinatorics, total unimodularity. *Prerequisite:* ISE 536; *Recommended Preparation:* familiarity with the theory of linear programming and with mathematical proofs; knowledge of linear algebra. Duplicates Credit in ISE 532. Instruction Mode: Lecture Grading Option: Letter

ISE 633 Large Scale Optimization and Machine Learning
Units: 3 Terms Offered: Fa Large scale optimization algorithms that arise in modern data science and machine learning applications. Stochastic Optimization, Accelerated Methods, Parallelization, Online Optimization, Randomized Linear Algebra *Recommended Preparation:* Linear Algebra and Probability Instruction Mode: Lecture Grading Option: Letter

ISE 637 Equilibrium Programming
Units: 3 Terms Offered: FaSp Built on the methodology of constrained optimization, a graduate level course on equilibrium programming cast in the framework of finite-dimensional variational inequality and complementarity problems. *Prerequisite:* ISE 520 and ISE 536. Instruction Mode: Lecture Grading Option: Letter

ISE 638 Stochastic Optimization
Units: 3 Terms Offered: FaSp Stochastic linear and integer programming, multi-stage stochastic programming, application, models and algorithms. *Recommended Preparation:* A first graduate course in optimization and the ability to program in a high level language are essential. Instruction Mode: Lecture Grading Option: Letter Crosslisted as CE-638

ISE 645 Uncertainty Modeling and Stochastic Optimization
Units: 3 Terms Offered: Sp (Enroll in CE 645)

ISE 651 Seminar in Industrial and Systems Engineering
Units: 1 Max Units: 4.0 Terms Offered: FaSp Current research, guest speakers in the field; review papers; guidance in preparing research proposals and special projects. Open only to fifth-year seniors and master's students. Registration Restriction: Open only to Fifth Year Seniors and Master's Students. Duplicates Credit in the former ISE 650abc. Instruction Mode: Lecture Grading Option: Credit/No Credit

ISE 662 Advanced Decision Theory
Units: 3 Terms Offered: Sp Rational decision making; value and utility functions; distribution theory and copulas; value of information and control; multi-attribute utility; decision and game theory; behavioral research. *Recommended Preparation:* Differential equations; mathematical statistics; some knowledge of measurement theory and functional equations Instruction Mode: Lecture Grading Option: Letter

ISE 670 Advanced Analysis of Algorithms
Units: 3 Terms Offered: Fa (Enroll in CSCI 670)

ISE 671 Randomized Algorithms
Units: 3 Terms Offered: Sp (Enroll in CSCI 671)

ISE 690 Directed Research
Units: 1, 2, 3, 4 Max Units: 8.0 Terms Offered: FaSpSm Laboratory study of specific problems by candidates for the degree Engineer in Industrial and Systems Engineering. Instruction Mode: Lecture Grading Option: Credit/No Credit

ISE 790 Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Terms Offered: FaSpSm Research leading to the doctorate. Maximum units which may be applied to the degree to be determined by the department. Instruction Mode: Lecture Grading Option: Credit/No Credit

ISE 794a Doctoral Dissertation
Units: 2 Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

ISE 794b Doctoral Dissertation
Units: 2 Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

ISE 794c Doctoral Dissertation
Units: 2 Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

ISE 794d Doctoral Dissertation
Units: 2 Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

ISE 794z Doctoral Dissertation
Units: 0 Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

Italian

ITAL 012x Italian 120 Language Practicum
Units: 1 Terms Offered: FaSpSm English grammar as it relates to Italian in order to improve students' Italian language skills; explicit pronunciation and intonation practice. Requires concurrent enrollment in either ITAL 120 Italian I or MPVA 260 Italian Language and Diction. Credit Restriction: Not available for major or degree credit Instruction Mode: Lecture Grading Option: Credit/No Credit

ITAL 015x Italian 150 Language Practicum
Units: 1 Terms Offered: FaSpSm English grammar as it relates to Italian in order to improve students' Italian language skills; explicit pronunciation and intonation practice. *Concurrent Enrollment:* ITAL 150 Credit Restriction: Not available for credit Instruction Mode: Lecture Grading Option: Credit/No Credit

ITAL 020x Course in Reading Italian
Units: 2 For graduate students who wish help in meeting the Italian reading requirement for the PhD degree. Synoptic presentation of Italian grammar. Emphasis on development of reading skills. Instruction Mode: Lecture Grading Option: Credit/No Credit

ITAL 120 Italian I
Units: 4 Terms Offered: FaSpSm Introduction to current Italian. Oral practice, hearing and reading comprehension; grammar necessary for simple spoken and written expression. *Prerequisite:* Italian placement exam. Instruction Mode: Lecture Grading Option: Letter

ITAL 122 Italian Basic Language in a Business Context
Units: 1 Terms Offered: FaSpSm Develops students' first semester language skills with an emphasis on the business context. Introduces students to the Italian economy and select business practices. May be taken in the same semester as ITAL 175. May be taken in the same semester as, or after completing, ITAL 120 or MPVA 260. May not be taken with or after completing ITAL 150. Instruction Mode: Lecture Grading Option: Credit/No Credit

ITAL 150 Italian II
Units: 4 Terms Offered: FaSpSm Continuation of Italian I. *Prerequisite:* ITAL

120 or MPVA 260 Instruction Mode: Lecture Grading Option: Letter

ITAL 152 Italian Basic Language for the Professions
Units: 1 Terms Offered: FaSpSm Develops students' linguistic, cultural and interpersonal competencies in professional contexts. Introduces students to the Italian economy, workplace and business practices, including job searches. May be taken in the same semester as, or after completing, ITAL 150 or ITAL 220. May be taken after completing ITAL 175. May not be taken with or after completing ITAL 224. Instruction Mode: Lecture Grading Option: Credit/No Credit

ITAL 175 Accelerated Italian for Speakers of Spanish and Other Romance Languages
Units: 4 Terms Offered: FaSp Accelerated introduction to written and spoken Italian for students with a high level of proficiency in Spanish or another Romance Language. Students completing this course may enroll in the third semester of the basic language sequence ITAL 220. *Prerequisite:* SPAN 220 or FREN 220 or PORT 220 Duplicates Credit in ITAL 120, ITAL 150 Instruction Mode: Lecture Grading Option: Letter

ITAL 220 Italian III
Units: 4 Terms Offered: FaSpSm Continuation of Italian II. Review of structure of the language, drill in aural and reading comprehension, practice in oral expression. *Prerequisite:* ITAL 150 or ITAL 175 Instruction Mode: Lecture Grading Option: Letter

ITAL 222 Italian Professional Internship: Communication and Culture
Units: 2 Terms Offered: FaSpSm Combined classroom discussion and supervised internship at companies. Practical experience in applying communication and cultural knowledge in a professional employment context. *Prerequisite:* ITAL 220 Instruction Mode: Lecture Grading Option: Credit/No Credit

ITAL 224 Constructing Today's Italy Through the Lens of the Media
Units: 4 Terms Offered: FaSp Investigation of Italy through social networks, advertising, music, television and newspapers. Communicative skills developed through conversations with native speakers, online posts and YouTube. *Prerequisite:* ITAL 220 Instruction Mode: Lecture Grading Option: Letter

ITAL 235x Intermediate Conversational Italian
Units: 2 Terms Offered: FaSp Designed for students interested in maintaining and developing Italian language competency. Builds and reinforces vocabulary, idioms, communication skills and knowledge of Italian cultural aspects through discussion of contemporary topics. *Prerequisite:* ITAL 220. Registration Restriction: Not open to Italian majors Credit Restriction: Not available for Italian major credit Instruction Mode: Lecture Grading Option: Credit/No Credit

ITAL 270gw Black Europe
Units: 4 Terms Offered: FaSp (Enroll in FREN 270gw)

ITAL 320 Critical Writing in Italian
Units: 4 Terms Offered: FaSpSm Advanced composition through critical reading of literary texts; comprehensive analysis of difficult grammatical structures and stylistics. *Prerequisite:* ITAL 224. Instruction Mode: Lecture Grading Option: Letter

ITAL 340g Italian and French Cinema and Society
Units: 4 Terms Offered: Fa Analysis of the global impact of cinema from the silent era to the 1990s; tracing the development of French and Italian cinematography and their effect on different cultures and periods; trends and genres such as commedia all'italiana, horror, spaghetti western, feminism and postcolonialism. Satisfies New General Education in Category A: The Arts Instruction Mode: Lecture, Discussion Grading Option: Letter Crosslisted as FREN 340

ITAL 345 Contemporary Italy
Units: 4 Italian literature and arts in Italy following World War II. Conducted in English. Instruction Mode: Lecture Grading Option: Letter

ITAL 347 Italy Today: Youth, Family and Migration
Units: 4 Terms Offered: FaSp Contemporary social, political and economic issues through readings of recent Italian literature onsite. Conducted in English. Instruction Mode: Lecture Grading Option: Letter

ITAL 350g Gender and Sexuality in Renaissance Italy
Units: 4 Terms Offered: FaSp Interdisciplinary exploration of gender and sexuality in Italian renaissance literature and visual arts by male and female authors and artists from the fourteenth through the sixteenth century. Satisfies New General Education in Category B: Humanistic Inquiry Instruction Mode: Lecture, Discussion Grading Option: Letter Crosslisted as SWMS 350

ITAL 352 The Holocaust in Italian Fiction and Film
Units: 4 Terms Offered: FaSp The transformation of the Italian Jewish community before, during and after World War II, through an examination of modern novels, essays and films. Taught in English. Instruction Mode: Lecture Grading Option: Letter

ITAL 360g Italian Cinema
Units: 4 Terms Offered: FaSp Survey of Italian cinema in its relation to social transformation, from the silent era to the present. Weekly screenings, lectures, and discussions. Conducted in English. Satisfies New General Education in Category A: The Arts Duplicates Credit in former ITAL 446 Instruction Mode: Lecture Grading Option: Letter

ITAL 374gm Women Writers in Europe and America
Units: 4 Terms Offered: Sp (Enroll in COLT 374gm)

ITAL 380 Italian Women Writers
Units: 4 Selected poetry, prose, and drama by outstanding Italian women authors and their role in Italian society from the Middle Ages to 20th century. Taught in Italian. *Recommended Preparation:* ITAL 320. Instruction Mode: Lecture Grading Option: Letter

ITAL 381 Storytelling in the Italian Tradition
Units: 4 Terms Offered: FaSp Reading and close textual scrutiny of major short stories from Boccaccio's Decameron to the present. Conducted in English. Duplicates Credit in former ITAL 462. Instruction Mode: Lecture Grading Option: Letter

ITAL 382g Dante
Units: 4 Terms Offered: FaSp Analysis of the Divina Commedia and other works. Conducted in English. Satisfies New General Education in Category B: Humanistic Inquiry Duplicates Credit in former ITAL 450 Instruction Mode: Lecture Grading Option: Letter Crosslisted as COLT 449

ITAL 390 Special Problems
Units: 1, 2, 3, 4 Supervised, individual studies. No more than one registration permitted. Instruction Mode: Lecture Grading Option: Letter

ITAL 392 Seminar in Literary and Cultural Studies
Units: 4 Terms Offered: FaSp Selected topics in Italian literature and culture. Conducted in English. Instruction Mode: Lecture Grading Option: Letter

ITAL 393 Seminar in Italian Thought
Units: 4 Terms Offered: FaSp Introduction to important trends in recent Italian philosophy, political and social theory, and media studies. Emphasis to be determined by the department. Conducted in English. Instruction Mode: Lecture Grading Option: Letter

ITAL 401 Studies in Early Modernity
Units: 4 Max Units: 8 Terms Offered: FaSp Study and analysis of representative works and major intellectual, cultural, and artistic trends from the early modern period (pre-1800). Taught in Italian. *Prerequisite:* ITAL 320. Instruction Mode: Lecture Grading Option: Letter

ITAL 402 Studies in Modernity
Units: 4 Max Units: 8.0 Terms Offered: FaSp Study and analysis of representative works and major intellectual, cultural, and artistic trends from the modern period (post-1800). Taught in Italian. *Prerequisite:* ITAL 320. Instruction Mode: Lecture Grading Option: Letter

ITAL 403 Studies in Colonialism and Postcolonialism
Units: 4 Max Units: 8.0 Terms Offered: FaSp Study and analysis of colonialism and postcolonialism in Italian contexts. *Prerequisite:* ITAL 320. Instruction Mode: Lecture Grading Option: Letter

ITAL 440 Futurism and Fascism in Italy
Units: 4 Literature, theatre, visual arts, and politics, from the Futurist Avant-Garde through the reign of Mussolini. *Recommended Preparation:* ITAL 320. Instruction Mode: Lecture Grading Option: Letter

ITAL 461 Italian Theatre
Units: 4 Terms Offered: FaSp Italian dramatic literature from the earliest written documents to the present. Reading and close textual scrutiny of plays by major dramatists from the Renaissance to the present. Taught in Italian. *Prerequisite:* ITAL 320. Instruction Mode: Lecture Grading Option: Letter

ITAL 490x Directed Research
Units: 1, 2, 3, 4, 5, 6, 7, 8 Max Units: 12.0 Individual research and readings. Instruction Mode: Lecture Grading Option: Letter

ITAL 499 Special Topics
Units: 2, 3, 4 Max Units: 8.0 Special topics in Italian literature, culture, and society. Conducted in Italian. *Prerequisite:* ITAL 224. Instruction Mode: Lecture Grading Option: Letter

ITAL 590 Directed Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Research leading to the master's degree in cognate fields. Maximum units which may be applied to the degree to be determined by the department. Instruction Mode: Lecture Grading Option: Credit/No Credit

ITAL 592 Practicum in Teaching Italian
Units: 2 Terms Offered: Fa Introduction to the approaches and methods of teaching Italian as a second language. Instruction Mode: Lecture Grading Option: CR/NC

Information Technology Program
All ITP courses are open to non-engineering majors. The "x" designation indicates that engineering students require prior departmental approval to count 100-level and above ITP courses for major credit.

ITP 101 Introduction to Business Information Technologies
Units: 2 Business technologies. Operating systems. Networks. Application software. Instruction Mode: Lecture, Lab Grading Option: Letter

ITP 104L Web Publishing
Units: 2 Terms Offered: FaSp Web publishing using HTML, CSS and other Web technologies. Concepts and theory of Web site creation, page layout and production. Introduction to advanced topics. Instruction Mode: Lecture, Lab Required Grading Option: Letter

ITP 109 Introduction to Java Programming
Units: 2 Terms Offered: FaSp Introduction to object-oriented software design for business problems. Creation of console applications, windowed applications, and interactive Web applets. Instruction Mode: Lecture, Lab Grading Option: Letter

ITP 111 What is the Cloud?: An Introduction to DevOps
Units: 2 Terms Offered: FaSp Survey of Cloud Computing. Compose, secure, administer virtual networks. Cloud deployment models. Service delivery models. Cloud providers overview. Virtualization, containers, cloud infrastructure. Instruction Mode: Lecture, Lab Grading Option: Letter

ITP 115 Programming in Python
Units: 2 Terms Offered: FaSp Introduction to Python; intended for students without prior programming experience. Duplicates Credit in ITP 116 Instruction Mode: Lecture, Lab Grading Option: Letter

ITP 116 Accelerated Programming in Python
Units: 2 Terms Offered: FaSp Accelerated introduction to Python; intended for students with prior programming experience. *Recommended Preparation:* Prior programming experience Duplicates Credit in ITP 115 Instruction Mode: Lecture, Lab Grading Option: Letter

ITP 125L From Hackers to CEOs: Introduction to Information Security
Units: 2 Terms Offered: FaSp Introductory course in computer security. Fundamentals of information security management. Threats to information integrity. Ethical hacking concerns and practice. Policies and Procedures. Instruction Mode: Lecture, Lab Required Grading Option: Letter

ITP 165 Introduction to C++ Programming
Units: 2 Terms Offered: FaSp Introduction to programming using C++, including variables, operators, conditionals, loops, arrays, vectors, strings, functions, files, structs, pointers, dynamic allocation and an introduction to classes. Instruction Mode: Lecture, Lab Grading Option: Letter

ITP 168 Introduction to MATLAB
Units: 2 Terms Offered: FaSp Fundamentals of MATLAB: a high-performance numeric computation and visualization environment. Overview of linear algebra and matrix manipulation; using 2-D and 3-D plotting routines; programming in MATLAB; basic numerical analysis. *Recommended Preparation:* MATH 118 or MATH 125 Instruction Mode: Lecture, Lab Grading Option: Letter

ITP 190 Introduction to Adobe Photoshop
Units: 2 Terms Offered: FaSp Digital tools for image creation, editing, composition, layout, web page development, professional page layout, and printing with color accuracy. Duplicates Credit in former ITP 090 Instruction Mode: Lecture, Lab Grading Option: Letter

ITP 211 Techniques of Visual Persuasion - Still Images
Units: 4 Terms Offered: FaSp Create compelling still images using photos to attract a viewer and motivate change. Use professional software to create real-world projects. Instruction Mode: Lecture, Lab Grading Option: Letter

ITP 215L Introduction to 3D Modeling, Animation, and Visual Effects
Units: 2 Terms Offered: FaSp An applied introduction to the techniques used for modeling, animating, texturing, lighting, rendering, and creating 3D content for games, cinematics, visual effects, animation, and visualizations. *Recommended Preparation:* knowledge of any 2D paint, drawing or CAD program Instruction Mode: Lecture, Lab Required Grading Option: Letter

ITP 216 Applied Python
Units: 2 Terms Offered: FaSp Development of practical Python programming skills through project-based applications; "Pythonic" ways of solving problems in modern computational domains. *Prerequisite:* ITP 115 or ITP 116 Instruction Mode: Lecture, Lab Grading Option: Letter

ITP 222 Linux and Containers
Units: 4 Terms Offered: FaSp Using and maintaining Linux systems; managing users, resources, networks; developer and scripting tools; container creation, configuration, publication; composing services. *Prerequisite:* ITP 111 Instruction Mode: Lecture Grading Option: Letter

ITP 228 Computer-Aided Modeling for 3D Product Design
Units: 2 Think, plan, and create in three-dimensional space using 3D printing technology and 3D modeling techniques for prototyping. Instruction Mode: Lecture, Lab Grading Option: Letter

ITP 230x Video Game Quality Assurance
Units: 4 Terms Offered: FaSp Survey game software development through quality assurance and in-depth analysis of the development cycle with a focus on bug testing systems and methodologies. Instruction Mode: Lecture, Lab Grading Option: Letter

ITP 249 Introduction to Data Analytics
Units: 4 Terms Offered: Fa Introduction to data analytics. Basics of databases, applied statistics, data visualization. Leverage data to make critical business decisions. Duplicates Credit in former ITP 250 and former ITP 251 Instruction Mode: Lecture Grading Option: Letter

ITP 256 Blockchain
Units: 4 Terms Offered: FaSp Explore blockchain technology, a secure and immutable way to record transactions. Learn the workings of cryptocurrencies and explore their impact on financial services, business and contracting. Instruction Mode: Lecture Grading Option: Letter

ITP 265 Object-Oriented Programming
Units: 4 Terms Offered: FaSp Continuation of the fundamentals of programming; problem solving skills within the object-oriented programming paradigm. *Prerequisite:* ITP 115 or ITP 165 Instruction Mode: Lecture Grading Option: Letter

ITP 280 Video Game Production
Units: 4 Terms Offered: FaSp History of video games; overview of game genres; phases of video game development (concept, preproduction, production, post-production); roles of artists, programmers, designers, and producers. Instruction Mode: Lecture, Lab Grading Option: Letter Crosslisted as CSCI-280

ITP 301 Front-End Web Development
Units: 4 Terms Offered: FaSp Concepts and technologies used to create front-end for web applications. Introduction to programming and client-side web development. User-driven website manipulation and animation. *Prerequisite:* ITP 104L or IML 300 Instruction Mode: Lecture Grading Option: Letter

ITP 302 Advanced Web Publishing
Units: 4 Terms Offered: FaSp Advanced topics in Web Publishing including HTML5, CSS3, CSS Pre-processors, CSS frameworks, static site generators and content management systems, responsive web design and web accessibility. *Prerequisite:* ITP 104L or IML 300 Instruction Mode: Lecture Grading Option: Letter

ITP 303 Full-Stack Web Development
Units: 4 Modern web development techniques and technologies used to create web applications from ground up. Topics include front-end, back-end, and web servers. *Prerequisite:* ITP 265 or CSCI 103L Instruction Mode: Lecture, Lab Grading Option: Letter

ITP 304 Back-End Web Development
Units: 4 Terms Offered: FaSp Concepts and technologies used to create database-driven websites. Database design and implementation. Server-side development to connect web applications to databases. *Prerequisite:* ITP 301 Duplicates Credit in former ITP 300 Instruction Mode: Lecture Grading Option: Letter

ITP 305 Intermediate 3D Modeling and Procedural Asset Pipelines
Units: 4 Terms Offered: Sp Intermediate modeling techniques and procedural asset creation workflows for cinematics, games, animation, design, modeling, texturing, visualization and augmented/virtual reality. *Prerequisite:* ITP 215L or ACAD 187 or ACAD 188 or AME 101L or ARCH 207 or CE 107L Instruction Mode: Lecture Grading Option: Letter

ITP 308 Computer-Aided Design for Bio-Mechanical Systems
Units: 3 Concepts of computer-aided design in 2-dimensions and 3-dimensions. Creating advanced parts using extrusions, surfaces, and equation driven sketches. Forming assemblies, and sub-assemblies, for motion analysis *Recommended Preparation:* MATH 245, strength of materials knowledge Instruction Mode: Lecture, Lab Grading Option: Letter Crosslisted as BME 308, ACAD 308

ITP 310 Design for User Experience
Units: 4 Terms Offered: FaSp Fundamental concepts, techniques, practices, workflows, and tools associated with the practice of user experience and interaction design in web and mobile applications. Duplicates Credit in former ITP 140 Instruction Mode: Lecture Grading Option: Letter Crosslisted as ACAD 311

ITP 315x 3D Character Rigging and Animation
Units: 4 Terms Offered: Fa Explore the performance methodologies and advanced rigging processes used to bring life to 3D characters for games, cinematics and performance animation. *Prerequisite:* ITP 215L or ACAD 187 or ACAD 188 or AME 101L or ARCH 207 or CE 107L Credit Restriction: Not available for major credit in Electrical and Computer Engineering Instruction Mode: Lecture Grading Option: Letter

ITP 320 Enterprise Information Systems
Units: 4 Terms Offered: FaSp The role Information Systems play in an organization. Integration of Business Processes by using Enterprise Resource Planning Systems (ERP). Instruction Mode: Lecture Grading Option: Letter

ITP 325 Ethical Hacking and Systems Defense
Units: 3 Terms Offered: FaSp Hacking from a defense perspective. Hacker ethics and laws. Penetration testing. Vulnerability assessment. Securing workstations, servers, and networks. *Prerequisite:* ITP 125 Instruction Mode: Lecture, Lab Grading Option: Letter

ITP 330 Computational Thinking Through Programming
Units: 4 Terms Offered: FaSp Understand computational thinking and explain and teach programming principles to others. Use active learning and peer instruction to address common misconceptions in learning computing. *Corequisite:* ITP 115 or ITP 165 or CSCI 102L Instruction Mode: Lecture, Lab Grading Option: Letter

ITP 333 Digital Infrastructure
Units: 4 Terms Offered: Fa Virtual machines, storage, networks and autoscaling on various Cloud platforms; serverless applications; managing users, security, performance and costs on the Cloud. *Prerequisite:* ITP 222 Instruction Mode: Lecture Grading Option: Letter

ITP 341 Android App Development
Units: 4 Terms Offered: FaSp App development for the Android open-source platform utilizing core mobile device functionalities, third-party API integration, and backend services. *Prerequisite:* ITP 265 or CSCI 103L Instruction Mode: Lecture Grading Option: Letter Crosslisted as ACAD 341

ITP 342 iOS App Development
Units: 4 Terms Offered: FaSp Introduction to the Swift programming language, various frameworks, and design patterns needed to develop applications for iOS mobile devices such as iPhones and iPads. *Prerequisite:* ITP 265 or CSCI 103 Instruction Mode: Lecture Grading Option: Letter Crosslisted as ACAD 342

ITP 343 Mobile Development for Content and Media
Units: 1 Creating media-focused mobile applications. Topics include recording/playback, audio synthesis, stream mixing, and positional audio. *Corequisite:* ITP 342. Instruction Mode: Lecture Grading Option: Letter Crosslisted as ACAD-343

ITP 344 Advanced iOS App Development
Units: 4 Terms Offered: FaSp App development for iOS devices using advanced functionalities including background data processing, network services and push notifications. *Prerequisite:* ITP 342 Instruction Mode: Lecture Grading Option: Letter Crosslisted as ACAD 344

ITP 345 Advanced Android App Development
Units: 4 Terms Offered: FaSp Develop sophisticated applications for the Android open-source platform using advanced functionality including background threading, broadcast receivers, sensors and low-level interaction events. *Prerequisite:* ITP 341 Instruction Mode: Lecture Grading Option: Letter

ITP 348 Making Smart Devices: Introduction to Electronics/Wearables
Units: 4 Terms Offered: FaSp Design of electronic devices that interact with the physical world; electronic interfaces; development of software algorithms; micro-controller implementation. *Prerequisite:* ITP 109 or ITP 115 or ITP 165 *Recommended Preparation:* Students must have completed a course in object-oriented programming Registration Restriction: Not open to Electrical and Computer Engineering majors Duplicates Credit in former ITP 148 Instruction Mode: Lecture, Lab Grading Option: Letter

ITP 351 3D Character Modeling for Games
Units: 4 Terms Offered: FaSp Character design principles, visual communication and planning for games; polygonal construction, use of image guides and edge flows for realistic deformation. *Prerequisite:* ITP 215L or CTAN 452 *Recommended Preparation:* Any experience with polygonal modeling Instruction Mode: Lecture, Lab Grading Option: Letter

ITP 356 Blockchain: Decentralized Applications
Units: 4 Terms Offered: FaSp Blockchain technology; transactions without the need for a trusted third-party; and decentralized applications on public blockchains. *Prerequisite:* ITP 256 Instruction Mode: Lecture Grading Option: Letter

ITP 357 Enterprise Network Design
Units: 3 Network technologies. Strategies for managing thousands of systems. Routers and managed switches. Integrated operating systems (IOS). Windows and Linux networking. Subnets. *Prerequisite:* ITP 125 Instruction Mode: Lecture, Lab Grading Option: Letter

ITP 360 Advanced Visual Effects and Compositing
Units: 4 Terms Offered: Fa Advanced techniques for visual effects creation including node-based digital compositing, multi-pass rendering, match-moving, camera tracking, and seamless coordination of live action and 3D content. *Prerequisite:* ITP 215L or ACAD 187 or ACAD 188 or AME 101L or ARCH 207 or CE 107L Instruction Mode: Lecture Grading Option: Letter

ITP 361 Character Rigging for Games
Units: 4 Terms Offered: FaSp Fundamentals of character rigging for video game production and development; optimization of character design, skeleton and mass properties for effective rigging; virtual rigs. *Prerequisite:* ITP 215L or CTAN 452 *Recommended Preparation:* Any experience with 3D character rigs Instruction Mode: Lecture, Lab Grading Option: Letter

ITP 365 Managing Data in C++
Units: 4 Terms Offered: FaSp Data structures in C++ including vectors, linked lists, stacks, queues, trees, hash tables, graphs, and parallelism. *Prerequisite:* ITP 265 Instruction Mode: Lecture Grading Option: Letter Crosslisted as ACAD 365

ITP 366 Blockchain: Advances and Use Cases
Units: 4 Terms Offered: FaSp Latest advances in blockchain and distributed ledger technologies. Critical analysis of new projects, proposals and protocols. The promise and technical feasibility of use cases. *Prerequisite:* ITP 256 Instruction Mode: Lecture Grading Option: Letter

ITP 368 Programming Graphical User Interfaces
Units: 4 Terms Offered: FaSp Programming applications with dynamic graphical user interfaces. Topics include events, controls, resources, data bindings, styles and user experience. *Prerequisite:* ITP 265 or CSCI 103L Instruction Mode: Lecture Grading Option: Letter Crosslisted as CSCI 368

ITP 370 Information Security Management
Units: 3 Terms Offered: Sp Management techniques for security projects. Security team management. Laws and regulations for information security. Disaster recovery. Security Audits. *Prerequisite:* ITP 125 Instruction Mode: Lecture, Lab Grading Option: Letter

ITP 371 Technical Character Animation for Games
Units: 4 Terms Offered: FaSp 3D character animation with a video game focus; movement clarity versus game reaction speed, LOD visibility and automated export systems. *Prerequisite:* ITP 215L or CTAN 452 *Recommended Preparation:* Any experience with 3D or 2D animation Instruction Mode: Lecture, Lab Grading Option: Letter

ITP 375 Digital Forensics
Units: 3 Terms Offered: Fa Forensic science techniques. Digital evidence preservation and presentation. Processes and methodologies for digital analysis. *Prerequisite:* ITP 125 Instruction Mode: Lecture, Lab Grading Option: Letter

ITP 380 Video Game Programming
Units: 4 Terms Offered: FaSp Underlying concepts and principles required for programming video games (topics include vectors, transformations, 3-D math, geometric primitives, matrices). *Prerequisite:* CSCI 104 or ITP 365. Instruction Mode: Lecture, Lab Grading Option: Letter Crosslisted as CSCI-380

ITP 382 Mobile Game Development
Units: 4 Terms Offered: Sp Application of techniques used to develop games for mobile devices. Sprites, mobile input, mobile graphics and monetization. *Prerequisite:* ITP 265 or CSCI 103L Instruction Mode: Lecture Grading Option: Letter Crosslisted as ACAD 382

ITP 383 Database Systems: Concepts, Design and Implementation
Units: 4 Terms Offered: Sp (Enroll in ISE 382) Instruction Mode: Lecture Grading Option: Letter

ITP 387 Cloud Architecture and Applications
Units: 4 Survey of "Infrastructure as a Service" and online application development. Concepts include online storage, computation, virtualization, messaging, and monetization. *Prerequisite:* CSCI 104 or ITP 365 Instruction Mode: Lecture Grading Option: Letter Crosslisted as ACAD 387

ITP 388 Developing Connected Devices
Units: 4 Terms Offered: FaSp Design and development of production-ready connected devices; PCB design; micro-controller logic; interfacing with the connected world. *Prerequisite:* ITP 348 Registration Restriction: Not open to Electrical Engineering majors Instruction Mode: Lecture Grading Option: Letter

ITP 392 Designing and Producing Video Games
Units: 4 Terms Offered: FaSp Roles of designers and producers in the video game industry. Managing development, facilitating teams, coordinating with stakeholders. Creation of budgets, pitches, and game design documents. *Prerequisite:* ITP 230 or ITP 280 Duplicates Credit in former ITP 391a, former ITP 391b, former ITP 393 Instruction Mode: Lecture Grading Option: Letter

ITP 404 Advanced Front-End Web Development
Units: 4 Terms Offered: Fa The technologies, techniques, conventions and best practices used in contemporary front-end web development. *Prerequisite:* ITP 301 or ITP 303 or ACAD 275 Instruction Mode: Lecture Grading Option: Letter Crosslisted as ACAD 404

ITP 405 Advanced Back-End Web Development
Units: 4 Terms Offered: Sp Topics include Model-View-Controller (MVC) pattern, RESTful APIs, Object Relational Mapping (ORM), testing, and Node.js, an asynchronous server-side alternative using JavaScript. *Prerequisite:* ITP 303 or ITP 304 or ACAD 276 Instruction Mode: Lecture, Lab Grading Option: Letter Crosslisted as ACAD 405

ITP 410 Social Media for Scientists and Engineers
Units: 2 Terms Offered: FaSp (Enroll in ENGR 410)

ITP 411 Techniques of Visual Persuasion - Moving Images
Units: 4 Terms Offered: FaSp Create compelling videos, along with audio and motion graphics, to attract and hold an audience that motivates change. Use professional software to create real-world projects. Instruction Mode: Lecture, Lab Grading Option: Letter

ITP 415 3-D Design and Prototyping
Units: 2 Explore the range of 3-D printing and prototyping technologies, and their application in modern industrial, design, and creative fields. *Prerequisite:* ITP 215L Instruction Mode: Lecture, Lab Grading Option: Letter

ITP 422 Configuring Enterprise Resource Planning Systems
Units: 4 Business process integration is the core advantage of using ERP systems. Analyze, configure, and test business processes for a company from the ground up. *Prerequisite:* ITP 320 Duplicates Credit in former ITP 322 Instruction Mode: Lecture Grading Option: Letter Crosslisted as ISE 422

ITP 425 Web Application Security
Units: 4 Terms Offered: FaSp Examine web applications from an offensive security standpoint. Topics include information gathering, vulnerability discovery and validation, exploitation and privilege escalation techniques. *Prerequisite:* ITP 301 or ITP 325 or ACAD 275 Instruction Mode: Lecture Grading Option: Letter Crosslisted as ACAD 425

ITP 430 Computational Education Capstone
Units: 4 Terms Offered: FaSp Computing Education capstone course; data exploration, algorithmic thinking; topical diversity in computer science education; current research practices; computing education curriculum development. *Prerequisite:* (ITP 115 and ITP 330) and (EDUC 435 or EDUC 436) *Recommended Preparation:* Students should complete at least three of the computing education minor courses before enrolling in ITP 430. Instruction Mode: Lecture Grading Option: Letter

ITP 435 Professional C++
Units: 4 Terms Offered: FaSp Applications of advanced concepts in C++ including lambda expressions, templates, secure coding, parallel programming, writing performant code, CMake and continuous integration. *Prerequisite:* CSCI 104L or ITP 365 Instruction Mode: Lecture Grading Option: Letter Crosslisted as CSCI 435

ITP 439 Compiler Development
Units: 4 Terms Offered: Sp Practical applications of techniques used to develop a programming language compiler. *Prerequisite:* ITP 365 or CSCI 104L Instruction Mode: Lecture Grading Option: Letter Crosslisted as CSCI 439

ITP 442 Mobile App Project
Units: 4 Capstone course for Mobile App Development minor. Work in project teams to develop new mobile app from start to finish. Meet with client, create app design, develop, test, and demonstrate app to client. *Prerequisite:* ITP 341 or ITP 342 Instruction Mode: Lecture, Lab Grading Option: Letter Crosslisted as ACAD 442

ITP 444 Digital Architecture
Units: 4 Terms Offered: Sp Composing provider-agnostic Cloud solutions; availability, performance and cost management; security and compliance. *Prerequisite:* ITP 333 Instruction Mode: Lecture Grading Option: Letter

ITP 445 Macintosh, OSX, and iOS Forensics
Units: 3 Digital forensics. Digital evidence. Apple. Mac. Macintosh. OSX. iOS. iPhone. iPad. *Prerequisite:* ITP 375. Instruction Mode: Lecture Grading Option: Letter

ITP 446 Cyber Breach Investigations
Units: 3 Terms Offered: Fa Cyber breaches. Data theft. Enterprise data analysis. Network forensic analysis. Server forensics. *Prerequisite:* ITP 375. Instruction Mode: Lecture, Lab Grading Option: Letter

ITP 447 Mobile Device Security and Forensics
Units: 3 Terms Offered: Sp Mobile device security. Mobile device forensics. Android. Blackberry. Windows phone. Symbian. *Prerequisite:* ITP 375. Instruction Mode: Lecture, Lab Grading Option: Letter

ITP 448 Cyber Litigation Support
Units: 3 Terms Offered: Sp Civil Litigation. Digital and Electronic Evidence. Electronic Discovery. eDiscovery. Electronically Stored Information. *Prerequisite:* ITP 375 Instruction Mode: Lecture, Lab Grading Option: Letter

ITP 449 Applications of Machine Learning
Units: 4 Hands-on approach to the fundamental modeling techniques and machine learning algorithms that enable students to build robust predictive models of real-world data and test their validity. *Prerequisite:* ITP 115 and ITP 249

Instruction Mode: Lecture Grading Option: Letter Crosslisted as ACAD 449

ITP 454x Enterprise Resource Planning, Design, and Implementation
Units: 3 Process and requirements to implement an Enterprise Resource Planning System (ERP). Set up server, implement ERP system, then transfer and configure database for case company. *Prerequisite:* ITP 320 Instruction Mode: Lecture, Lab Grading Option: Letter

ITP 456 Blockchain: Capstone
Units: 4 Terms Offered: FaSp Use decentralized blockchain technology to propose a use case of trustless peer-to-peer transactions. *Prerequisite:* ITP 356 and ITP 366 Instruction Mode: Lecture Grading Option: Letter

ITP 457 Network Security
Units: 4 Network policy and mechanism, firewalls, malicious code; intrusion detection, prevention, response; cryptographic protocols for privacy; risks of misuse, cost of prevention, and societal issues. *Prerequisite:* ITP 357. Instruction Mode: Lecture, Lab Grading Option: Letter

ITP 460 Web Application Project
Units: 4 Terms Offered: Sp Skills to plan, analyze, build, and launch professional Web sites with actual clients. Includes project management, documentation, technology assessment, security, UI, Q/A, and various methodologies. *Prerequisite:* ITP 303 or ITP 304 or ACAD 276 Instruction Mode: Lecture Grading Option: Letter Crosslisted as ACAD 460

ITP 466 Building the High Tech Startup
Units: 4 Teach students the basic technologies and processes involved in building web and mobile startups. Students will be introduced to the different aspects of building a web startup including online business models, Product management, Agile development processes, technology platforms and operations, customer development and online marketing. Instruction Mode: Lecture Grading Option: Letter

ITP 468 Connected Devices Project
Units: 4 Capstone course for the Minor in Making and Connected Devices. Team-based interacting with real-world clients, designing a hardware system, developing firmware, and manufacturing a product. *Prerequisite:* ITP 348 and ITP 228 Registration Restriction: Not open to Electrical Engineering majors Instruction Mode: Lecture Grading Option: Letter

ITP 470 Information Technology Practicum
Units: 1, 2, 3, 4 Terms Offered: FaSpSm Independent technology project related to specific topics under the direction of a faculty member. *Recommended Preparation:* appropriate 300-level course work to topic of study Registration Restriction: Not open to graduate students. Instruction Mode: Lecture, Lab Grading Option: Letter

ITP 475 Advanced Digital Forensics
Units: 4 Terms Offered: Sp Advanced forensic techniques. Live image analysis. Network level forensic investigation. Server forensic techniques. Deposition and trial. *Prerequisite:* ITP 375 Instruction Mode: Lecture, Lab Grading Option: Letter

ITP 476 Technologies for Interactive Marketing
Units: 4 Technologies, concepts and strategies in the emerging online advertising ecosystem. Strategies and tactics to drive traffic to a website and measure efficacy. Students will work with a real client and budget to craft and execute an online marketing plan. Instruction Mode: Lecture, Lab Grading Option: Letter Crosslisted as ACAD 476

ITP 477 Software Based Engineering Design of Roadways
Units: 3 Orient students to the InRoads software and familiarize them with its capabilities to support engineering design of roadways. Instruction Mode: Lecture, Lab Grading Option: Letter

ITP 479 Cyber Law and Privacy
Units: 3 Cyber legal issues, search and seizure, 4th amendment and digital evidence, private searches, case law relating to search and seizure. Instruction Mode: Lecture, Lab Grading Option: Letter

ITP 480 Information Technology Internship
Units: 1, 2, 3, 4 Max Units: 08 Practical experience in applying information technology skills in real-world settings. Supervised internship at companies and start-ups. Balancing academic rigor with corporate challenges and deadlines. *Recommended Preparation:* knowledge of chosen function area Registration Restriction: Not open to graduate students Instruction Mode: Lecture Grading Option: Credit/No Credit

ITP 481 Game Programming Professional Development
Units: 2 Terms Offered: Fa Application of mathematics, physics, geometry and programming algorithms in the context of video game programming practice. *Prerequisite:* ITP 380 Instruction Mode: Lecture Grading Option: Letter

ITP 482 Engineering Database Applications
Units: 3 Planning and implementation of engineering information systems that interface with a large database. Emphasis is placed on web-based data entry and retrieval. *Prerequisite:* (CE 108 or EE 155L or ITP 115 or ITP 165 or ITP 168 or ISE 150 or CSCI 102L or CSCI 103L) and (DSO 435 or ISE 382) Instruction Mode: Lecture, Lab Grading Option: Letter Crosslisted as ISE 482

ITP 483 Communication for Software Engineers
Units: 2 Terms Offered: Fa User-focused design, problem space vs solution space, data structures, algorithms, live coding challenges, engineering demonstrations and presentations. *Prerequisite:* CSCI 104L or ITP 365 *Recommended Preparation:* Experience with data structures and common algorithms Instruction Mode: Lecture Grading Option: Letter

ITP 484 Multiplayer Game Programming
Units: 3 Techniques for developing networked multiplayer games. Topics include Internet protocols, network topology, data streams, object sharing, client prediction, latency, and back-end databases. *Prerequisite:* ITP 380 Instruction Mode: Lecture, Lab Grading Option: Letter

ITP 485 Programming Game Engines
Units: 4 Terms Offered: FaSp Techniques for building the core components of a game engine; 2-D/3-D graphics, collision detection, artificial intelligence algorithms, shading, programming input devices. *Prerequisite:* ITP 380. Instruction Mode: Lecture, Lab Grading Option: Letter Crosslisted as CSCI-487

ITP 486 Securing and Auditing Enterprise Resource Planning Systems
Units: 3 Management and technical issues related to the security of ERP systems. Students will audit ERP systems and apply appropriate security controls. *Prerequisite:* ITP 320. Instruction Mode: Lecture, Lab Grading Option: Letter Crosslisted as ISE-486

ITP 487 Enterprise Data Analytics
Units: 4 Terms Offered: Fa Methodology to store, organize, cleanse, harmonize and stage enterprise data for analytics. Report, visualize, slice and dice, forecast and predict trends. *Prerequisite:* ITP 249 or ITP 320 or DSCI 351 Instruction Mode: Lecture Grading Option: Letter Crosslisted as ISE 487

ITP 488 Managing Supply Chains with Advanced Planning & Optimization
Units: 3 Drivers and obstacles to the process of coordinating the flow of material/information along the logistics chain. Optimize the supply network, from raw materials to sales. Not available for major credit in engineering except toward undergraduate and graduate programs offered by the Epstein Department of Industrial and Systems Engineering. *Prerequisite:* ITP 320 Instruction Mode: Lecture, Lab Grading Option: Letter Crosslisted as ISE-488

ITP 489 In-Memory Data Modeling and Analytics
Units: 4 Terms Offered: Sp Examines the design, architecture, and capabilities of in-memory databases and their application to real-time analytics. *Prerequisite:* ITP 249 or ITP 320 or DSCI 351 Instruction Mode: Lecture Grading Option: Letter

ITP 491 Level Design and Development for Video Games
Units: 4 Theories and practices of defining, prototyping, testing, and refining a video game level, development of game level documents, and the tools for managing the development process. *Prerequisite:* ITP 230 or ITP 280 Instruction Mode: Lecture, Lab Grading Option: Letter

ITP 496 The Startup Launchpad Lab
Units: 2 A real world, hands-on learning experience on what it's like to actually start a high-tech company. Students will work in teams to design, prototype and implement version 1.0 of a high tech web or mobile startup. *Prerequisite:* BAEP 452 and ITP 466 and ITP 476 *Corequisite:* BAEP 496 Instruction Mode: Lecture, Lab Grading Option: Letter

ITP 499 Special Topics
Units: 1, 1.5, 2, 2.5, 3, 3.5, 4, 4.5, 5, 5.5, 6, 6.5, 7, 7.5, 8 Max Units: max 8 Recent developments in computers and data processing. Instruction Mode: Lecture, Lab Grading Option: Letter

Journalism

JOUR 190 Introduction to Journalism
Units: 2 Survey of all media and outlets including print, broadcasting, public relations and online journalism, plus analysis of what it means to be a professional journalist. Instruction Mode: Lecture Grading Option: Letter

JOUR 200w The Power and Responsibility of the Press
Units: 4 Explores the role of journalism and social media in society - its influence on government, technology, business, national security, sports, science and entertainment. Satisfies Global Perspective in Category G: Citizenship in a Diverse World Instruction Mode: Lecture Grading Option: Letter

JOUR 201 Culture of Journalism: Past, Present and Future
Units: 4 Understanding key moments, debates and ideas that have shaped journalism in the United States from the Revolutionary War period through today. Examination of the social, cultural, political and technological aspects of journalism and its impact on the profession and public service. Instruction Mode: Lecture, Lab Grading Option: Letter

JOUR 205 Journalism Practicum
Units: 1, 2 Max Units: 04 Terms Offered: FaSpSm Field experience in journalism, public relations, or related field. Instruction Mode: Lecture Grading Option: Credit/No Credit

JOUR 206 Reporting and Writing Practicum
Units: 1 Max Units: 02 Report, write and distribute in-depth stories for diverse audiences; enhance understanding of news judgment; develop and maintain sources; engage communities through field reporting. Registration Restriction: Only open to journalism majors Instruction Mode: Lecture Grading Option: Credit/No Credit

JOUR 207 Reporting and Writing I
Units: 3 Provides students with foundational skills to report, write and produce journalism content across multiple platforms, including broadcast, digital and text. *Concurrent Enrollment:* JOUR 206 and JOUR 321 Registration Restriction: Open only to Journalism majors Instruction Mode: Lecture Grading Option: Letter

JOUR 208 Media Law and Ethics
Units: 2 Introduction to the basics of the U.S. legal system and contemporary case law and ethics; impact of the Web on the practice of journalism; understanding essential legal frameworks and the rights and responsibilities of journalists. Instruction Mode: Lecture Grading Option: Letter

JOUR 210x Basics of News Production for Non-Majors
Units: 2 Max Units: 6.0 Terms Offered: FaSp Introduction to television, radio, and/or digital news production. Examination of issues in journalism. Instruction Mode: Lecture Grading Option: Credit/No Credit

JOUR 255 Advancing Journalism with Human-Centered Design
Units: 4 (Enroll in ACAD 255)

JOUR 256 Designing for News and Information
Units: 4 (Enroll in ACAD 256)

JOUR 300 Journalism and Society
Units: 4 Examination of media and society by applying concepts on power, ideology, discourse and representation to specific case studies from the field and practice of journalism. Instruction Mode: Lecture Grading Option: Letter

JOUR 307 Reporting and Writing II
Units: 3 Report, write, produce and distribute in-depth stories produced off beats on multiple platforms for diverse audiences; enhance understanding of news judgment; develop and maintain sources; engage communities through field reporting and emerging digital tools. *Prerequisite:* JOUR 207 and JOUR 321 *Concurrent Enrollment:* JOUR 206 and JOUR 320 Registration Restriction: Open only to Journalism majors Instruction Mode: Lecture Grading Option: Letter

JOUR 310 Investigative Reporting
Units: 4 Reportorial and analytical skills and techniques required for portraying and evaluating contemporary newsworthy events; lectures, discussions. *Prerequisite:* JOUR 307 Instruction Mode: Lecture Grading Option: Letter

JOUR 311 Multiplatform Editing
Units: 4 Copyediting, headline writing, Search Engine Optimization and other production skills for preparation of content across platforms. Social responsibility and ethical framework also components of this course. *Prerequisite:* JOUR 307 and JOUR 320 Instruction Mode: Lecture Grading Option: Letter

JOUR 320 Introduction to Coding for Storytelling
Units: 2 Introduction to basic web technologies; conceive, design, code and produce an advanced multimedia story package. *Prerequisite:* JOUR 207 and JOUR 321 *Concurrent Enrollment:* JOUR 307 Registration Restriction: Open only to Journalism majors Instruction Mode: Lecture Grading Option: Letter

JOUR 321 Visual Journalism
Units: 2 Video for digital platforms, principles of photography, design for web and mobile platforms. Introduction to principles of digital news design, interactivity and presentation in interactive storytelling. *Concurrent Enrollment:* JOUR 207 Registration Restriction: Open only to Journalism majors Instruction Mode: Lecture Grading Option: Letter

JOUR 322 Introduction to Investigative and Data Journalism
Units: 2 Reportorial and analytical skills and techniques required for portraying and evaluating contemporary newsworthy events using basic data journalism techniques and tools for statistical analysis. *Prerequisite:* JOUR 307 and JOUR 320 Instruction Mode: Lecture Grading Option: Letter

JOUR 323 Journalism and the Audience
Units: 2 Build a personal website that features a culmination of your previous undergraduate journalism work; craft a professional digital profile using various social media platforms; understand the economics of the news business; prepare to enter the industry. Instruction Mode: Lecture Grading Option: Letter

JOUR 330 Photojournalism
Units: 4 Terms Offered: FaSp Emphasis on fundamental skills necessary for photojournalism including camera techniques, story ideas and digital darkroom. Instruction Mode: Lecture Grading Option: Letter

JOUR 340 Rewriting History: Reporting Rome
Units: 4 Develop reporting skills by studying historical unsolved Italian crimes. Visit crime scenes, examine evidence, interview sources, analyze media reports and write articles for each crime. Instruction Mode: Lecture Grading Option: Letter

JOUR 350 Introduction to Sports Media
Units: 4 Highlight norms, routines of content, including print, broadcast, video. Focus on opportunities, constraints posed by roles of reporters, fans, players, publicists, agents, leagues, teams. Instruction Mode: Lecture Grading Option: Letter

JOUR 371 Media Censorship and the Law
Units: 4 Terms Offered: FaSp (Enroll in COMM 371)

JOUR 372 Engaging Diverse Communities
Units: 2 Explores how to engage diverse local communities through participatory journalism and communication strategies. Focuses on using digital tools to increase engagement with communities via field reporting and mobile platforms to produce stories across platforms. *Prerequisite:* JOUR 307 and JOUR 320 Registration Restriction: Open only to Journalism majors Duplicates Credit in former ASCJ 440 Instruction Mode: Lecture Grading Option: Letter

JOUR 373 Journalism Ethics Goes to the Movies
Units: 4 Ethical issues facing journalists in the complex world of legacy media, social media and the Internet as dramatized in the movies and in the newsroom. Instruction Mode: Lecture Grading Option: Letter

JOUR 375 The Image of the Journalist in Popular Culture
Units: 4 The impact of conflicting images of reporters in movies and television on the American public's perception of newsgatherers in the 20th century. A decade-by-decade evaluation. Instruction Mode: Lecture Grading Option: Letter Crosslisted as COMM 372

JOUR 380 Sports, Business and Media in Today's Society
Units: 4 An inside look at the important stories, topical issues, trends and historical developments related to the growing influence of business and media on college and professional sports; identifying the key components and meeting the influencers in class that help shape the business side of sports, while recognizing the role the media plays in providing daily coverage across multiple platforms. Instruction Mode: Lecture Grading Option: Letter Crosslisted as COMM 382

JOUR 381 Entertainment, Business and Media in Today's Society
Units: 4 Terms Offered: FaSp An examination of the symbiotic relationship of the entertainment business and the media; press coverage of the entertainment industry; Hollywood's relationship with news

media. Instruction Mode: Lecture Grading Option: Letter

JOUR 390 Special Problems
Units: 1, 2, 3, 4 Terms Offered: Irregular Supervised, individual studies. No more than one registration permitted. Enrollment by petition only. Instruction Mode: Lecture Grading Option: Letter

JOUR 400 Interpretive Writing
Units: 4 Weekly assignments in the shorter forms of newspaper and magazine writing: essays, reviews, editorials, opinion-page articles, profiles; analyses of major 20th century journalists. *Prerequisite:* JOUR 307 Instruction Mode: Lecture Grading Option: Letter

JOUR 401 Multiplatform Editing for Digital Audiences
Units: 6 Breaking news and real-time editing for digital audiences across platforms, including homepage, social media and mobile. Introduction to analytics for website and social media. Instruction Mode: Lecture, Lab Grading Option: Letter

JOUR 402 Advanced Video Reporting
Units: 6 Role of the broadcast journalism reporter; similarities and differences between print and electronic media; application of audio-video equipment; analysis and practical experience. *Prerequisite:* JOUR 307 Instruction Mode: Lecture, Lab Grading Option: Letter

JOUR 403 Television News and Sports Production
Units: 6 Production of television news and sports programs while developing video, writing and communication skills and managing content in collaboration with others under deadline pressure. *Prerequisite:* JOUR 307 Instruction Mode: Lecture, Lab Grading Option: Letter

JOUR 404 Produce and Host Sports Content in Studio A
Units: 2 Interview, present and design sports segments for television/video in Studio A. Instruction Mode: Lecture Grading Option: Letter

JOUR 405 Non-Fiction Television
Units: 4 Presentation and selection in non-fiction television programs including documentaries, electronic magazines and news series; ethical problems, field research, reporting, interviewing, pre-production. *Prerequisite:* JOUR 307 and JOUR 320 Instruction Mode: Lecture Grading Option: Letter

JOUR 406 Social Media Storytelling for Latinx Audiences
Units: 2 Create native journalistic content for current social media and emerging platforms with an emphasis on engaging content for Latinx audiences and underrepresented communities. Instruction Mode: Lecture Grading Option: Letter Crosslisted as AMST 406

JOUR 407 The World of Podcasting
Units: 4 Concentrates on practical, hands-on skills for the production and distribution of a non-fiction podcast. Instruction Mode: Lecture Grading Option: Letter

JOUR 408 Advanced Media Law
Units: 2 Advanced examination of the rights of journalists in the American legal system; understanding the First Amendment and seminal case law to provide a framework for the practice of journalism; recognizing ethical dilemmas confronting members of the media. *Prerequisite:* JOUR 208 and JOUR 307 and JOUR 320 Instruction Mode: Lecture Grading Option: Letter

JOUR 409 Radio Storytelling and Podcasts
Units: 4 Techniques for audio journalism, including effective use of sound, art of the interview, writing for the ear and crafting stories to engage listeners. *Prerequisite:* JOUR 307 Instruction Mode: Lecture Grading Option: Letter

JOUR 410 Radio Documentary
Units: 4 In-depth reporting for public radio news: writing, editing, advanced vocal delivery. Production of long-form radio features and short documentaries. *Prerequisite:* JOUR 409. Instruction Mode: Lecture Grading Option: Letter

Units: 4 Learn strategies for how content creates value in a shifting media landscape. Work with a real client to create a sustainable media business model. Instruction Mode: Lecture Grading Option: Letter

JOUR 474 Interviewing and Profile Writing
Units: 2 Techniques of, and intensive application in researching and writing interviews and profiles for newspapers and magazines. *Prerequisite:* JOUR 307 Instruction Mode: Lecture Grading Option: Letter

JOUR 475 Print and Digital Design for 21st Century Storytelling
Units: 4 Art, typography, and other graphic elements in publication design; traditional, contemporary, and advanced production methods, processes, and equipment; representative examples; practice in design. Instruction Mode: Lecture Grading Option: Letter

JOUR 476 Reporting Urban Affairs
Units: 4 Examination of U.S. urban issues with an eye toward history for context; study of emerging 21st century solutions for urban communities. Instruction Mode: Lecture Grading Option: Letter

JOUR 477 Web Analytics for News and Nonprofit Organizations
Units: 2 Introduction to using Web traffic and other audience behavior data to manage Websites and social media for news and nonprofit organizations. Instruction Mode: Lecture Grading Option: Letter

JOUR 478 Politics of Sports Writing
Units: 4 Critical examination of different styles of sports writing. Focus on the social context of sports writing and the relationship between sports and politics. Instruction Mode: Lecture Grading Option: Letter

JOUR 479 Storytelling for Action Sports
Units: 4 Learn how to cover action sports with cutting-edge technology. In-class lectures and industry guest speakers focus on topics such as gender, race and history. Instruction Mode: Lecture Grading Option: Letter

JOUR 480 Sports and Media Technology
Units: 4 Examine and analyze the ever-changing technology sector of the sports business and sports media world. Identify emerging technologies being developed in the sports industry and how they are being utilized to enhance the fan experience. Instruction Mode: Lecture Grading Option: Letter

JOUR 481 The Athlete, Sports Media and Popular Culture
Units: 4 Analysis of the images of the athlete and sports media helps us understand how sports dramatically affects such social issues as race, class and gender. Instruction Mode: Lecture Grading Option: Letter

JOUR 482 Comparative Media in Europe
Units: 4 Terms Offered: Sm Examines print, broadcast and public relations media and their interactive roles in multi-national and supra-national settings at sites in both Western and Eastern Europe. Instruction Mode: Lecture Grading Option: Letter Crosslisted as COMM 482 and PR 482

JOUR 483 Negotiating and Reporting Global Change
Units: 4 In-depth multimedia reporting on social, economic and political processes of global impact; combining intense fieldwork and specialized background knowledge. Instruction Mode: Lecture Grading Option: Letter

JOUR 484 American Religion, Foreign Policy and the News Media
Units: 4 Exploration of the influence of American religion on foreign policy from Colonial Era to present; how the news media, reporting on international stories, shapes public opinion. Instruction Mode: Lecture Grading Option: Letter Crosslisted as IR 484, REL 484

JOUR 485 Sports Investigative Reporting
Units: 4 Produce compelling investigative sports stories culminating in an original and publishable final project. Instruction Mode: Lecture Grading Option: Letter

JOUR 488 Data-Driven Storytelling About Los Angeles
Units: 4 Students work with a decade's worth of data about Los Angeles to develop probing news narratives about the city around us. *Prerequisite:* JOUR 207 Instruction Mode: Lecture Grading Option: Letter

JOUR 489 Hands-on Disruption: Experimenting with Emerging Technology
Units: 2 Exploration and experimentation of emerging technologies through the lens of journalism and hands-on prototyping Instruction Mode: Lecture Grading Option: Letter

JOUR 490x Directed Research
Units: 1, 2, 3, 4, 5, 6, 7, 8 Max Units: 12.0 Terms Offered: FaSpSm Individual research and readings. Not available for graduate credit. Instruction Mode: Lecture Grading Option: Letter

JOUR 492 Advanced Coding for Storytelling
Units: 2 Focuses on advanced coding techniques for the creation of dynamic, interactive, multimedia and data-driven news stories on the web. *Prerequisite:* JOUR 320 Instruction Mode: Lecture Grading Option: Letter

JOUR 493 Comics and Graphic Storytelling
Units: 4 Focus on comics as a medium to tell a broad range of stories and speak to diverse kinds of audiences. Develop a core vocabulary for thinking about comics as a medium and analyze how artists have drawn on that vocabulary in a range of contexts. Instruction Mode: Lecture Grading Option: Letter Crosslisted as COMM 493

JOUR 494 Python Coding for Data Journalism
Units: 2 Python coding language to gather, parse and analyze data for investigative news reporting. Instruction Mode: Lecture Grading Option: Letter

JOUR 495 Journalism for Mobile and Emerging Platforms
Units: 2 Create video, audio and graphic news and information using mobile and emerging technology, such as phones, tablets and laptops, for non-broadcast platforms; understand ethical and legal issues related to journalists working on mobile and emerging platforms. Instruction Mode: Lecture Grading Option: Letter

JOUR 496 Interactive Media Design for Publishing
Units: 4 Design, test and distribute engaging news and publishing apps. Learn concepts of interactive design, color, type, UX, and more for digital mobile/tablet platforms. Instruction Mode: Lecture Grading Option: Letter

JOUR 497 Data Visualization and Interactive Tools
Units: 2 Present your data in tables, charts, graphs, maps, and complex multimedia pieces using readily available interactive tools. Instruction Mode: Lecture Grading Option: Letter

JOUR 498 Honors Seminar
Units: 2 Terms Offered: Sp Intensive study of a subject of contemporary relevance or of professional importance to journalists and public relations practitioners. Registration Restriction: Admission to Honors Program Instruction Mode: Lecture Grading Option: Letter

JOUR 499 Special Topics
Units: 2, 3, 4 Max Units: 8.0 Terms Offered: FaSpSm Selected topics in journalism. Instruction Mode: Lecture Grading Option: Letter

JOUR 500 Introduction to Newswriting and English-Language Reporting
Units: 2 Provides students whose first language is not English fundamental skills to report and write journalism content, enhancing ability to succeed in rigorous graduate journalism program. Instruction Mode: Lecture Grading Option: Letter

JOUR 503 Visual Literacy and Introduction to Documentary Storytelling
Units: 1 Terms Offered: Sm An introduction to visual literacy and documentary storytelling. Explore the choices behind visual storytelling that can be applied to long form video journalism. Instruction Mode: Lecture Grading Option: Letter

JOUR 504 Introduction to Emerging Technology
Units: 1 Terms Offered: Sm Introduction to software to produce augmented reality and virtual reality experiences using wearable devices (watches and glasses), sensors and drones. Instruction Mode: Lecture Grading Option: Letter

JOUR 505 The Practice: Journalism's Evolution as a Profession
Units: 1 Terms Offered: Sm Analyzes the history, ethics and evolution of journalism; Students will be introduced to key innovations and innovators in journalism history as well as multimedia platforms. Instruction Mode: Lecture Grading Option: Credit/No Credit

JOUR 508 Introduction to Video Reporting
Units: 1 Terms Offered: Sm Write, shoot and edit video under deadline; produce high quality work in the Media Center. Instruction Mode: Lecture Grading Option: Letter

JOUR 510 Special Assignment Reporting
Units: 2 Beat reporting with a deep dive into research, source development, and writing/reporting skills. Focus on current trends, history, major actors and key issues. Instruction Mode: Lecture Grading Option: Letter

JOUR 511 Introduction to Narrative Non-Fiction
Units: 1 Terms Offered: Sm Summer intensive focusing on long-form, narrative non-fiction; read and critique exemplary long-form pieces; write short exercises that prepare for longer ones. Instruction Mode: Lecture Grading Option: Letter

JOUR 512 Advanced Interpretive Writing
Units: 2 Terms Offered: Fa Analysis and writing of editorials, essays, Op-Ed page articles, profiles, and other shorter forms of journalism, combined with study of historic practitioners of those forms. Instruction Mode: Lecture Grading Option: Letter

JOUR 515 Introduction to Audio Storytelling
Units: 1 Terms Offered: Sm Introduction to audio reporting and production skills: recording, interviewing, writing and editing for audio, and vocal delivery. Skills applicable for broadcast, podcasting or Web. Instruction Mode: Lecture Grading Option: Letter

JOUR 517 Advanced Investigative Reporting
Units: 4 Terms Offered: Sp Advanced reportorial and analytical skills and techniques required for evaluating newsworthy events. Group research and publication of stories on important current topics. *Prerequisite:* JOUR 539 Instruction Mode: Lecture Grading Option: Letter

JOUR 519 Advanced Writing and Reporting for Magazine and the Web
Units: 4 Focus on reporting and writing for magazine and the web, learning fundamental production skills, and pitching stories in the freelance market Instruction Mode: Lecture Grading Option: Letter

JOUR 521 Documentary Pre-Production
Units: 2 Terms Offered: Sm Pre-production of video documentary including selection of topic, diversity, ethical and legal problems, research and reporting techniques, interviewing, writing, balanced presentation, visual and audio literacy. Instruction Mode: Lecture Grading Option: Letter

JOUR 522 Video Documentary Production
Units: 4 Terms Offered: Sp Production of video documentary including research and reporting techniques, writing, interviewing, field work, editing, legal issues, economics, aesthetics, balanced presentation, ethics, diversity and production problems. Instruction Mode: Lecture Grading Option: Letter

JOUR 523 Public Radio Reporting
Units: 2 Terms Offered: Fa Reporting for public radio-style news: writing, newsgathering, editing, vocal delivery. Techniques applicable for broadcast or Web audio stories. Instruction Mode: Lecture Grading Option: Letter

JOUR 524 Advanced Broadcast Reporting
Units: 4 Terms Offered: Sp Reporting, production and writing for broadcast and other video platforms; practical experience; role of the video broadcast journalist; similarities and differences between media. *Prerequisite:* JOUR 528 *Recommended Preparation:* JOUR 552 Instruction Mode: Lecture Grading Option: Letter

JOUR 525 This California Life: Storytelling for Radio and Podcasting
Units: 4 Terms Offered: Sp Advanced production techniques for public radio-style reports: writing, sound, editing, narrative voice. Techniques applicable for broadcast features or Web audio documentaries. Instruction Mode: Lecture Grading Option: Letter

JOUR 526 Advanced Broadcast News Production
Units: 3 Terms Offered: Fa Production of television news programs; preparation and treatment of form and content; procedures, problems and practice in planning and producing broadcast news materials. Instruction Mode: Lecture Grading Option: Letter

JOUR 527 Advanced Disruption: Innovation with Emerging Technology
Units: 2 Terms Offered: Sp Apply emerging technologies to tell innovative stories based on a production trip during spring break. Instruction Mode: Lecture Grading Option: Letter

JOUR 528 Summer Digital Journalism Immersion
Units: 3 Terms Offered: Sm A journalism immersion experience that orients and familiarizes students with the best practices and standards of cutting-edge multimedia, multi-platform fact gathering, reporting and storytelling. Instruction Mode: Lecture Grading Option: Letter

JOUR 531 Fall Digital Journalism Immersion
Units: 3 Terms Offered: Fa Students write, report, produce, code, promote (through social media) and publish/air cross-platform stories in a converged news environment. *Prerequisite:* JOUR 528 *Concurrent Enrollment:* JOUR 532 Instruction Mode: Lecture Grading Option: Letter

JOUR 532 Fall Digital Journalism Immersion Practicum
Units: 1 Terms Offered: Fa Report, write and distribute in-depth stories for diverse audiences; enhance understanding of news judgment; develop and maintain sources; engage communities through field reporting. *Prerequisite:* JOUR 528 *Concurrent Enrollment:* JOUR 531 Instruction Mode: Lecture Grading Option: Letter

JOUR 533 Web Journalism and Editorial Site Management
Units: 2 Report, edit, and manage a major news Website while operating its content management system; understand best standards and practices in online site management. Instruction Mode: Lecture Grading Option: Letter

JOUR 539 Introduction to Investigative Reporting
Units: 2 Terms Offered: Fa Focus on basic investigative reporting; understand its history, how to access records, identify

sources, use computer assisted reporting, report in a fair and ethical manner. Instruction Mode: Lecture Grading Option: Letter

JOUR 540 International Journalism Seminar I
Units: 3 Historical perspective of foreign correspondence; examination of the working conditions, problems and consequences of reporting from abroad. Instruction Mode: Lecture Grading Option: Letter Crosslisted as PR 540

JOUR 542 Foreign Affairs Reporting
Units: 3 News stories analyzed, researched, and critiqued for validity and background; projects to include editorials, news stories, magazine articles or broadcast reports. Instruction Mode: Lecture Grading Option: Letter

JOUR 545 International Internships in the Media
Units: 1 Terms Offered: Sm Intensive field experience at international news media and public relations organizations. Instruction Mode: Lecture Grading Option: Credit/No Credit Crosslisted as PR 545

JOUR 546 News, Numbers and Introduction to Data Journalism
Units: 2 Terms Offered: Sm An overview of the basic quantitative analysis tools and techniques essential to give perspective to a journalistic story or to put it in context. Instruction Mode: Lecture Grading Option: Letter

JOUR 547 Navigating the Media Marketplace
Units: 1 Terms Offered: Fa Explores the economics of the news industry and prepares students to navigate the journalism job market through practical exercises, practice interviews and cover letter-writing. Instruction Mode: Lecture Grading Option: Letter

JOUR 552 Television Reporting and Production
Units: 2 Terms Offered: Fa Writing, reporting and producing content for video and digital platforms; similarities and differences between media; application of audio-visual and digital equipment. *Prerequisite:* JOUR 528 Instruction Mode: Lecture Grading Option: Letter

JOUR 553 Coding and Programming for Storytelling
Units: 2 Terms Offered: Fa Sketch, design and code a website from scratch, using HTML, CSS and jQuery plug-ins to tell a rich multimedia story. Open only to journalism majors. Registration Restriction: Open only to Journalism majors. Instruction Mode: Lecture Grading Option: Letter

JOUR 554 Reporting with Data
Units: 2 Focuses on intermediate quantitative journalism techniques including database and mapping analysis along with data visualization to execute stories and graphics. Instruction Mode: Lecture Grading Option: Letter

JOUR 555 Advanced Coding for Creative Storytelling
Units: 2 Focuses on advanced coding techniques for the creation of dynamic, interactive, multimedia and data-driven news stories on the web. *Prerequisite:* JOUR 553 Instruction Mode: Lecture Grading Option: Letter

JOUR 560 Seminar in Mass Communication Law
Units: 2 Terms Offered: Sm Analysis of major elements of mass communication law, legal issues in contemporary mass communication, and the impact of legal trends on professional journalists. Instruction Mode: Lecture Grading Option: Letter

JOUR 561 Fundamentals of Data Journalism Reporting
Units: 2 Execute data-driven projects and add context to news stories with advanced quantitative analysis tools and techniques. Instruction Mode: Lecture Grading Option: Letter

JOUR 567 The Power of Narrative
Units: 2 Explores outstanding narrative journalism across wide range of platforms, subjects. Through readings, discussions, guest lecture "salons," students learn reporting, writing skills necessary for in-depth storytelling. Instruction Mode: Lecture Grading Option: Letter

JOUR 568 The Art of (Micro) Food Journalism: Los Angeles and California
Units: 3 Food is a powerful lens for thinking about cities, community, climate, technology, culture - even our relationship to other species. Focus is on Los Angeles and California. Instruction Mode: Lecture Grading Option: Letter

JOUR 569 The Art of (Macro) Food Journalism: A Global View
Units: 3 Food is a powerful lens for thinking about cities, community, climate, technology, culture - even our relationship to other species. Focus is on the global. Instruction Mode: Lecture Grading Option: Letter

JOUR 570 Journalism Ethics Goes to the Movies Seminar
Units: 2 Understand ethical issues facing journalists as dramatized in the movies. Develop an ethical structure to use as journalists and consumers of news in the complex world of social media and the Internet. Instruction Mode: Lecture Grading Option: Credit/No Credit

JOUR 571 21st Century Sports Storytelling
Units: 3 Seminar in how to report and write sports: news, previews, profiles, features, columns. Instruction Mode: Lecture Grading Option: Letter

JOUR 572 Reporting on Entertainment and Popular Culture
Units: 3 Terms Offered: Fa Reporting about entertainment, popular culture and their impact on American society; survey of past media coverage and current practices. Instruction Mode: Lecture Grading Option: Letter

JOUR 574 Sports and Society
Units: 3 Develop and refine print and multimedia skills to work as a sports journalist. Gain perspective, context and background in how sports intersect with society. Instruction Mode: Lecture Grading Option: Letter

JOUR 575 Converged Media Center
Units: 2, 4 Terms Offered: Sp Advanced multimedia news production; preparation and treatment of form and content; procedures, problems, ethics, and practice in operating a daily, 24-7 news outlet. Instruction Mode: Lecture Grading Option: Letter

JOUR 576 The Image of the Journalist in Popular Culture Seminar
Units: 2 Study and analysis of the conflicting images of the journalist in popular culture and its impact on the public's perception of the media and news gatherers. Instruction Mode: Lecture Grading Option: Letter

Registration Restriction: Open only to Law students Instruction Mode: Lecture Grading Option: Numeric

LAW 891 Post-Conviction Justice Project I
Units: 1, 2, 3, 4, 5 Terms Offered: FaSpSm A year-long clinical program where second and third year students provide legal representation to men and women serving life terms in California prisons. Under faculty supervision students represent clients on a variety of post-conviction matters, including parole hearings, state and federal habeas petitions, clemency applications and resentencing hearings and appeals. Experiential units. Registration Restriction: Open only to USC Gould School of Law students Instruction Mode: Lecture Grading Option: Numeric

LAW 892 Post-Conviction Justice Project II
Units: 1, 2, 3, 4, 5 Terms Offered: Sp Continuation of LAW 891. Experiential units. *Prerequisite:* LAW 891 Registration Restriction: Open only to USC Gould School of Law students Duplicates Credit in LAW 895 Instruction Mode: Lecture Grading Option: Numeric

LAW 893 Advanced Clinical Training
Units: 1, 2, 3, 4, 5 Max Units: 10.0 Terms Offered: FaSp For third-year students who wish to continue their clinical training. Instruction Mode: Lecture Grading Option: Numeric

LAW 894 Advanced Mediation Clinic
Units: 1, 2, 3, 4 Max Units: 08 Students learn mediation skills, conduct live mediations and help to run the regular Mediation Clinic. Registration Restriction: Open only to USC Gould School of Law students Instruction Mode: Lecture Grading Option: Numeric

LAW 895 Post-Conviction Justice Project II (Writing)
Units: 1,2,3,4,5 Terms Offered: Sp Alternate continuation of LAW 891, fulfilling the Writing requirement. *Prerequisite:* LAW 891 Registration Restriction: Open only to USC Gould School of Law students Duplicates Credit in LAW 892 Instruction Mode: Lecture Grading Option: Numeric

Library and Information Management

LIM 500 Fundamentals of Library and Information Science
Units: 3 Terms Offered: FaSpSm An overview of the history of recorded knowledge from ancient times to the digital age informed by the cultural implications of those eras. Open only to MMLIS students. Registration Restriction: Open only to Library and Information Science majors. Instruction Mode: Lecture Grading Option: Letter

LIM 501 Fundamentals of Library Leadership and Management
Units: 3 Terms Offered: FaSpSm Fundamentals of library leadership and management from past, present and future perspectives, including selected case studies. Registration Restriction: Open only to Library and Information Science majors. Instruction Mode: Lecture Grading Option: Letter

LIM 502 Collection Development and Management
Units: 3 Terms Offered: FaSpSm The development of library collections in all formats emphasizing clientele interest, usage patterns, bibliographical and Website sources. Open only to MMLIS students. Instruction Mode: Lecture Grading Option: Letter

LIM 503 Information Description, Organization, and Retrieval
Units: 3 Terms Offered: FaSpSm An overview and critical analysis of current practices of information organization, cataloguing, access and reference services, including a conceptual understanding of these skills. Registration Restriction: Open only to Library and Information Science students Instruction Mode: Lecture Grading Option: Letter

LIM 504 Research Methods in Library and Information Management
Units: 3 An overview of research methods in information management including the conceptualization of research problems, literature reviews, research design, sampling, measurement, data collection and data analysis. Open only to MMLIS students. Registration Restriction: Open only to Library and Information Science students. Instruction Mode: Lecture Grading Option: Letter

LIM 510 Academic Librarianship
Units: 3 An examination of current research and future trends in academic librarianship, emphasizing the necessary partnership among information culture and technology, academic research and instruction. *Prerequisite:* GSBA 502, LIM 500, LIM 501, LIM 502, LIM 503, LIM 504. Registration Restriction: Open only to Library and Information Science students. Instruction Mode: Lecture Grading Option: Letter

LIM 511 Instructional Strategies for Information Professionals
Units: 3 Terms Offered: FaSpSm An overview of research in learning emphasizing the role of academic librarians as instructors and facilitators of information navigation. *Prerequisite:* GSBA 502 and GSBA 509 and GSBA 510 and LIM 500 and LIM 502 and LIM 503 and LIM 504 Registration Restriction: Open only to Library and Information Management/ Science students Instruction Mode: Lecture Grading Option: Letter

LIM 512 Instructional Technologies for Educators
Units: 3 An overview and critical analysis of past and current instructional technologies used primarily in academic libraries. *Prerequisite:* GSBA 502, LIM 500, LIM 501, LIM 502, LIM 503, LIM 504. Instruction Mode: Lecture Grading Option: Letter

LIM 513 Multicultural Information Perspectives
Units: 3 An examination of critical issues, theories and research in educating and serving diverse populations with an emphasis on social, cultural and linguistic imperatives. *Prerequisite:* GSBA 502, LIM 500, LIM 501, LIM 502, LIM 503, LIM 504. Instruction Mode: Lecture Grading Option: Letter

LIM 520 Library Information Systems Analysis and Design
Units: 3 The analysis and design of information systems from the perspectives of information theory, technology, retrievability, storage and shelf life, copyright, privacy and related issues. *Prerequisite:* GSBA 502, LIM 500, LIM 501, LIM 502, LIM 503, LIM 504. Instruction Mode: Lecture Grading Option: Letter

LIM 521 Database Management Systems for Information Professionals
Units: 3 An overview of and instruction in the skills required to build library and archival relational databases including data integrity, security, maintenance and extraction. *Prerequisite:* GSBA 502, LIM 500, LIM 501, LIM 502, LIM 503, LIM 504. Instruction Mode: Lecture Grading Option: Letter

LIM 522 Metadata and Taxonomies
Units: 3 Terms Offered: FaSpSm An overview of developing and assessing metadata for digital resources including the different types of metadata schema, data dictionaries, taxonomies and emerging metadata standards. *Prerequisite:* GSBA 502 and GSBA 509 and GSBA 510 and LIM 500 and LIM 502 and LIM 503 and LIM 504 Registration Restriction: Open only to library and information management/ science majors Instruction Mode: Lecture Grading Option: Letter

LIM 523 Information Delivery in the Digital Environment
Units: 3 An inventory and description of digital competencies, assessments and techniques followed by instruction, practice and testing of these competencies in simulated situations. *Prerequisite:* GSBA 502, LIM 500, LIM 501, LIM 502, LIM 503, LIM 504. Instruction Mode: Lecture Grading Option: Letter

LIM 530 Library Resource Management
Units: 3 An overview and assessment of planning, design, allocation and implementation of library finance and resource distribution in a variety of settings. *Prerequisite:* GSBA 502, LIM 500, LIM 501, LIM 502, LIM 503, LIM 504. Instruction Mode: Lecture Grading Option: Letter

LIM 531 Global Perspectives in Librarianship
Units: 3 An investigation of the theory and practice of librarianship in the context of international approaches to knowledge creation, research, learning, information discovery and presentation. *Prerequisite:* GSBA 502, LIM 500, LIM 501, LIM 502, LIM 503, LIM 504. Instruction Mode: Lecture Grading Option: Letter

LIM 532 The Social Context of Information
Units: 3 An examination of information in the context of social networks, media, and other cultural structures that inform teaching, learning and research. *Prerequisite:* GSBA 502, LIM 500, LIM 501, LIM 502, LIM 503, LIM 504. Instruction Mode: Lecture Grading Option: Letter

LIM 533 Operations Research in Libraries
Units: 3 Overview of theory and best practices in operations research and how it can be applied in a broad range of library and other information-focused settings. *Prerequisite:* GSBA 502, LIM 500, LIM 501, LIM 502, LIM 503, LIM 504. Instruction Mode: Lecture Grading Option: Letter

LIM 534 Library Fundraising and Development
Units: 3 Terms Offered: FaSpSm An overview of fundraising and development including the internal organization of the fundraising and development enterprise, the cultivation of donors and related issues. *Prerequisite:* GSBA 502 and GSBA 509 and GSBA 510 and LIM 500 and LIM 502 and LIM 503 and LIM 504 Registration Restriction: Open only to library and information management/science majors Instruction Mode: Lecture Grading Option: Letter

LIM 535 Library Information Sources and Services
Units: 2 Terms Offered: FaSpSm Overview of concepts, components and developments in reference and user services. Learn to think critically about information and become better information seekers and users. Registration Restriction: Open only to library and information management/science students Instruction Mode: Lecture Grading Option: Letter

LIM 536 Library Project Management
Units: 2 Terms Offered: FaSpSm Working in teams and delivering effective presentations is reinforced through an introduction to project management. A project management plan, research paper and presentation are required. *Prerequisite:* LIM 535 Registration Restriction: Open only to library and information management/science students Instruction Mode: Lecture Grading Option: Letter

LIM 537 Legal, Ethical and Strategic Fundamentals for Library Managers
Units: 2 Terms Offered: FaSpSm Evidence-based decision making, assessment, legal and ethical frameworks and scenario planning applied to leadership and management competencies in library environments. *Prerequisite:* LIM 536 Registration Restriction: Open only to library and information management/science students Instruction Mode: Lecture Grading Option: Letter

LIM 550 Information Behaviors, Ethics and Policy
Units: 3 Terms Offered: FaSpSm A study of information behaviors, policies and ethics including social networks, the interactive effects of information on users, users on information. *Prerequisite:* GSBA 502 and GSBA 509 and GSBA 510 and LIM 500 and LIM 502 and LIM 503 and LIM 504 Registration Restriction: Open only to library and information management/science majors Instruction Mode: Lecture Grading Option: Letter

LIM 551 Advanced Research Methods in Library and Information Management
Units: 3 Building on LIM 504, this course provides advanced research methods and analytical techniques and the application of these skills to complex library issues. *Prerequisite:* GSBA 502, LIM 500, LIM 501, LIM 502, LIM 503, LIM 504. Instruction Mode: Lecture Grading Option: Letter

LIM 552 Strategic Information and Competitive Analysis
Units: 3 Terms Offered: FaSpSm Searching sophisticated for-fee and free sources of information unique to particular industry client groups, synthesizing and translating information ethically to critical intelligence. *Prerequisite:* GSBA 502 and GSBA 509 and GSBA 510 and LIM 500 and LIM 502 and LIM 503 and LIM 504 Registration Restriction: Open only to MMLIS and GCRT-LIM students Instruction Mode: Lecture Grading Option: Letter

LIM 553 Corporate and Business Librarianship
Units: 3 An examination and critical analysis of resources, research and literature in corporate librarianship, including collection development and management, access, reference and service patterns. *Prerequisite:* GSBA 502, LIM 500, LIM 501, LIM 502, LIM 503, LIM 504. Instruction Mode: Lecture Grading Option: Letter

LIM 554 Science Librarianship
Units: 3 An examination and critical analysis of resources, research and literature in science librarianship, including collection development and management, access, reference and service patterns. *Prerequisite:* GSBA 502, LIM 500, LIM 501, LIM 502, LIM 503, LIM 504. Instruction Mode: Lecture Grading Option: Letter

LIM 555 Social Science Librarianship
Units: 3 An examination and critical analysis of resources, research and literature in social science librarianship, including collection development and management, access, reference and service patterns. *Prerequisite:* GSBA 502, LIM 500, LIM 501, LIM 502, LIM 503, LIM 504. Instruction Mode: Lecture Grading Option: Letter

LIM 556 Health Sciences Librarianship
Units: 3 An examination and critical analysis of resources, research and literature in health sciences librarianship, including collection development and management, access, reference and service patterns. *Prerequisite:* GSBA 502, LIM 500, LIM 501, LIM 502, LIM 503, LIM 504. Instruction Mode: Lecture Grading Option: Letter

LIM 557 Cinematic Arts Librarianship
Units: 3 An examination and critical analysis of resources, research and literature in cinematic arts librarianship, including collection development and management, access, reference and service patterns. *Prerequisite:* GSBA 502, LIM 500, LIM 501, LIM 502, LIM 503, LIM 504. Instruction Mode: Lecture Grading Option: Letter

LIM 558 Art and Museum Librarianship
Units: 3 An examination and critical analysis of resources, research and literature in art and museum librarianship including collection development and management, access, reference and service patterns. *Prerequisite:* GSBA 502, LIM 500, LIM 501, LIM 502, LIM 503, LIM 504. Instruction Mode: Lecture Grading Option: Letter

LIM 559 Marketing and Communications Strategies for Libraries
Units: 3 An introduction to essential marketing concepts such as brand platform, value proposition and message development and their application in a library environment. *Prerequisite:* GSBA 502, LIM 500, LIM 501, LIM 502, LIM 503, LIM 504. Instruction Mode: Lecture Grading Option: Letter

LIM 560 Rare Books and Manuscripts
Units: 3 An overview of the organization, management, public and technical service operations and outreach involved in the development and operation of rare and special collections. *Prerequisite:* GSBA 502, LIM 500, LIM 501, LIM 502, LIM 503, LIM 504. Instruction Mode: Lecture Grading Option: Letter

LIM 561 Library Program Development and Evaluation
Units: 3 An overview of library program development and evaluation with an emphasis upon linking student learning outcomes to library programs. Qualitative and quantitative methods are covered. *Prerequisite:* GSBA 502, LIM 500, LIM 501, LIM 502, LIM 503, LIM 504. Instruction Mode: Lecture Grading Option: Letter

LIM 562 Library and Information Technology Management
Units: 3 Terms Offered: FaSpSm Overview of management of library information technologies including computer networks, design, architecture, cloud technologies, data management and technology planning as well as emerging technologies. *Prerequisite:* GSBA 502 and GSBA 509 and GSBA 510 and LIM 500 and LIM 502 and LIM 503 and LIM 504 Registration Restriction: Open only to MMLIS and GCRT-LIM students Instruction Mode: Lecture Grading Option: Letter

LIM 563 Partnerships and Collaborations in Libraries
Units: 3 Terms Offered: FaSpSm How information professionals collaborate with nonprofit, for-profit (private) and governmental organizations. Theory and practice emphasizing critical analysis of policies, services, and trends. *Prerequisite:* GSBA 502 and GSBA 509 and GSBA 510 and LIM 500 and LIM 502 and LIM 503 and LIM 504 Registration Restriction: Open only to library and information management/science students Instruction Mode: Lecture Grading Option: Letter

LIM 591 Research and Professional Applications
Units: 2 Max Units: 10.0 Terms Offered: FaSpSm Apply concepts learned during the MMLIS program and investigate research questions and professional problems of concern to employers, their institutions and the profession at large. Open only to Library and Information Science majors. Registration Restriction: Open only to: Library and Information Science majors. Instruction Mode: Lecture Grading Option: Credit/No Credit

LIM 593 Independent Research in Library and Information Management
Units: 2 Max Units: 04 Terms Offered: FaSpSm Opportunity to pursue

independent research in an area of interest above and beyond normal course offerings. Proposal, research and written report/paper required. *Prerequisite:* LIM 535 and LIM 536 and LIM 537 Registration Restriction: Open only to library and information management/science students Instruction Mode: Lecture Grading Option: Credit/No Credit

LIM 595 Internship in Library and Information Management
Units: 2 Terms Offered: FaSpSm Supplements the academic learning experience with temporary employment (paid or unpaid) in the information professions. Supervised by host organization and overseen by MMLIS faculty member. *Prerequisite:* LIM 535 and LIM 536 and LIM 537 Registration Restriction: Open only to library and information management/science students Instruction Mode: Lecture Grading Option: Credit/No Credit

LIM 598 Capstone in Library and Information Management
Units: 3 Terms Offered: FaSpSm Student-driven research or project-based experience that integrates the knowledge from course work and applies it to current issues in the field. *Prerequisite:* GSBA 502 and GSBA 509 and GSBA 510 and LIM 500 and LIM 502 and LIM 503 and LIM 504 Registration Restriction: Open only to library and information management/science students Instruction Mode: Lecture Grading Option: Credit/No Credit

LIM 599 Special Topics in Library and Information Management
Units: 1, 1.5, 2, 3 Max Units: 09 Terms Offered: FaSpSm Selected topics reflecting current trends and recent developments in library and information management. *Prerequisite:* GSBA 502 and GSBA 509 and GSBA 510 and LIM 500 and LIM 502 and LIM 503 and LIM 504 Registration Restriction: Open only to library and information management/science majors Instruction Mode: Lecture Grading Option: Letter

Linguistics

LING 110Lg In a Word
Units: 4 Terms Offered: FaSp Words as a gateway to the human mind. How words are stored, comprehended and retrieved. How words are constructed. Words and concepts. Words and social constructs. The processing and the acquisition of words in normal and atypical children and adults. Satisfies New General Education in Category D: Life Sciences Satisfies Old General Education in Category IV: Science and Its Significance Instruction Mode: Lecture, Lab Grading Option: Letter

LING 115gw Language and Society
Units: 4 Terms Offered: FaSp Discourse patterns among diverse social groups in institutional and interpersonal settings; interrelationships among language practices and gender, socioeconomic status, ethnicity; social structures and cultural values as reflected in language policies and practices. Satisfies New General Education in Category C: Social Analysis Satisfies Global Perspective in Category G: Citizenship in a Diverse World Satisfies Old General Education in Category VI: Social Issues Instruction Mode: Lecture, Discussion Grading Option: Letter

LING 125 Hindi I
Units: 4 Terms Offered: Fa Introduction to current Hindi. Oral practice, listening and reading comprehension; grammar necessary for simple spoken and written expression. Instruction Mode: Lecture Grading Option: Letter

LING 155 Hindi II
Units: 4 Terms Offered: Sp Continuation of LING 125. Reading of simple Hindi prose, practice in pronunciation, the grammar essential for reading comprehension and writing. *Prerequisite:* LING 125. Instruction Mode: Lecture Grading Option: Letter

LING 210g Introduction to Linguistics
Units: 4 Empirical study of the sounds and structures of human language; syntax and semantics; language change; linguistic universals. Satisfies New General Education in Category F: Quantitative Reasoning Instruction Mode: Lecture, Discussion Grading Option: Letter

LING 255 Hindi III
Units: 4 Terms Offered: Fa Continuation of LING 155; intensive work in listening comprehension, oral communication, reading and writing short essays; introduction of readings and periodicals related to Hindi culture and civilization. *Prerequisite:* LING 155. Instruction Mode: Lecture Grading Option: Letter

LING 265x Hindi IV
Units: 4 Terms Offered: Sp Reading of modern Hindi authors, review of grammar, composition, oral conversation, and collateral reading. *Prerequisite:* LING 255. Instruction Mode: Lecture Grading Option: Letter

LING 275Lg Language and Mind
Units: 4 Terms Offered: FaSp Language within cognitive science: speech physiology and acoustics, language acquisition, reading, language disorders, perception and mental representation of words, linguistic diversity and computer analysis of speech. Satisfies New General Education in Category D: Life Sciences Satisfies Old General Education in Category IV: Science and Its Significance Instruction Mode: Lecture, Lab Required Grading Option: Letter Crosslisted as PSYC-275

LING 285Lg Human Language and Technology
Units: 4 Terms Offered: FaSp Study of human linguistic competence and technologies that simulate it. Phonetics, vibration and signal processing, speech recognition, neural networks. Satisfies New General Education in Category E: Physical Sciences Satisfies Old General Education in Category IV: Science and Its Significance Instruction Mode: Lecture, Lab Required Grading Option: Letter

LING 295g The Ancient Near East: Culture, Archaeology, Texts
Units: 4 An investigation of the peoples of the ancient Near East, focusing upon the writings which they produced, their languages and scripts, and their archaeological remains. *Concurrent Enrollment:* Concurrent enrollment: MDA 140. Satisfies Old General Education in Category II: Global Cultures and Traditions Instruction Mode: Lecture Grading Option: Letter

LING 301 Introduction to Phonetics and Phonology
Units: 4 Terms Offered: Fa A survey of topics in phonetics and phonology. *Prerequisite:* LING 210. Duplicates Credit in former LING 401a. Instruction Mode: Lecture Grading Option: Letter

LING 302 Introduction to Syntax
Units: 4 Terms Offered: Fa A survey of topics in syntax. *Prerequisite:* LING 210g Duplicates Credit in former LING 402a Instruction Mode: Lecture Grading Option: Letter

LING 303 Introduction to Semantics and Pragmatics
Units: 4 Terms Offered: FaSp Introduction to meaning in natural language and the methods from logic applied to its study. *Prerequisite:* LING 210g Instruction Mode: Lecture Grading Option: Letter

LING 307 Introduction to Speech-Language Pathology
Units: 4 Terms Offered: FaSp Introduces the breadth of possible communication disorders with a particular focus on the duties of the professionals who assist people with these disorders. Explores both the diagnostic criteria and common interventions for disorders such as Language Impairment, stuttering, swallowing, and dementia. *Recommended Preparation:* LING 210 Instruction Mode: Lecture Grading Option: Letter

LING 322g Language Contact and Language Acquisition
Units: 4 Terms Offered: Sp The emergence of new languages, spoken and signed, in socio-historical situations, where linguistic input is degraded and insufficient to support the ordinary language acquisition process. Satisfies New General Education in Category B: Humanistic Inquiry Instruction Mode: Lecture Grading Option: Letter

LING 325g Language and Number
Units: 4 Terms Offered: FaSp Analysis of the formal properties of linguistic expressions of number with the goal of understanding the structures that underlie language and numerical reasoning. Satisfies New General Education in Category F: Quantitative Reasoning Instruction Mode: Lecture, Discussion Grading Option: Letter

LING 374 Language and Society in East Asia
Units: 4 (Enroll in EALC 374)

LING 375 Sociolinguistics
Units: 4 Linguistic and cultural pluralism in the U.S.; distributional and structural characteristics of selected urban and minority dialects; the relationship between dialects and "media standard." *Prerequisite:* LING 210. Instruction Mode: Lecture Grading Option: Letter

LING 380 Languages of the World
Units: 4 Introduction to the world's linguistic diversity; number of languages spoken and where; grammatical structure and social function of selected languages. Instruction Mode: Lecture Grading Option: Letter

LING 385Lg Human Language as Computation
Units: 4 Terms Offered: Fa Study of language as a complex natural system that requires elaborate mental computation. Satisfies New General Education in

Category F: Quantitative Reasoning
Instruction Mode: Lecture, Lab Required
Grading Option: Letter

LING 390 Special Problems
Units: 1, 2, 3, 4 Supervised, individual studies. No more than one registration permitted. Enrollment by petition only. Instruction Mode: Lecture Grading Option: Letter

LING 401 Advanced Phonology
Units: 4 Advanced study of topics in phonology. *Prerequisite:* LING 301. Duplicates Credit in former LING 401b. Instruction Mode: Lecture Grading Option: Letter

LING 402 Advanced Syntax
Units: 4 Terms Offered: Sp Advanced study of topics in syntax. *Prerequisite:* LING 210, LING 302. Duplicates Credit in former LING 402b. Instruction Mode: Lecture Grading Option: Letter

LING 403 Advanced Semantics
Units: 4 Topics in the theory of meaning in natural language. *Prerequisite:* LING 303 Duplicates Credit in former LING 201 Instruction Mode: Lecture Grading Option: Letter

LING 405 Child Language Acquisition
Units: 4 Universal characteristics of child language; stages of acquisition of phonology, syntax, semantics; processes and dimensions of development; psychological mechanisms; communicative styles. Duplicates Credit in former LING 395. Instruction Mode: Lecture Grading Option: Letter Crosslisted as PSYC-405

LING 406 Psycholinguistics
Units: 4 Experimental and theoretical aspects of how spoken and written language is produced and understood, learned during childhood, and affected by brain damage. *Prerequisite:* LING 210 or PSYC 100. Instruction Mode: Lecture Grading Option: Letter Crosslisted as PSYC-406

LING 407 Atypical Language
Units: 4 Analysis of atypical language and language pathologies throughout the lifespan and their relevance to current linguistic and cognitive science theory. *Prerequisite:* LING 210 or PSYC 100. Instruction Mode: Lecture Grading Option: Letter Crosslisted as PSYC-407

LING 409 Linguistic Structure of English
Units: 3 An overview of the syntactic, semantic, pragmatic structures of English as they relate to the theoretical literature on language acquisition. Instruction Mode: Lecture Grading Option: Letter

LING 410 Second Language Acquisition
Units: 4 Theories of second language acquisition in children and adults; comparison of first and second language acquisition including psychological, social, and individual factors. *Prerequisite:* LING 210. Duplicates Credit in former LING 396. Instruction Mode: Lecture Grading Option: Letter

LING 411x Linguistics and Education
Units: 4 Practical classroom approaches to children's language; relationships between writing, reading, and speaking; social and regional dialects; traditional, structural, and generative-transformational grammars. Instruction Mode: Lecture Grading Option: Letter

LING 412 Language and Law
Units: 4 Terms Offered: Sp Linguistic principles which bear on the interpretation of government statutes and the litigation of legal disputes. Speech act theory; ambiguity; courtroom discourse; contracts and advertisements; jury instructions; the Plain Language Movement. Instruction Mode: Lecture Grading Option: Letter

LING 415 Phonetics
Units: 4 Familiarization with the articulation and transcription of speech sounds. Also vocal tract anatomy, acoustics, speech technology, non-English sounds, perception. Includes laboratory exercises. Instruction Mode: Lecture Grading Option: Letter

LING 433 Children's Learning and Cognitive Development
Units: 4 (Enroll in PSYC 433)

LING 450 New Horizons in Forensic Speaker Identification
Units: 4 Overview of methods used to identify voices on the basis of their characteristic speech patterns. Instruction Mode: Lecture Grading Option: Letter

LING 465 Philosophy of Language
Units: 4 (Enroll in PHIL 465)

LING 466 Word and Phrase Origins
Units: 4 Introduction to historical-comparative word study; history of ideas concerning language relationships; types of semantic change; hidden metaphors in English word-stock. Instruction Mode: Lecture Grading Option: Letter

LING 480 Linguistic Structures
Units: 4 Analysis of grammatical structures of an individual language. Instruction Mode: Lecture, Discussion Grading Option: Letter

LING 485 Field Methodology
Units: 4 Elicitation techniques and methodological principles; recording and analysis of phonological, syntactic, and semantic structures; practical approaches to procedures used in urban, rural, and "primitive" settings. Instruction Mode: Lecture Grading Option: Letter

LING 486 Natural Language Processing
Units: 4 Introduction to modern neural network approaches to natural language processing, based on Deep Learning. Recursive and recurrent neural networks; backpropagation; Ngram models. *Prerequisite:* LING 385Lg Instruction Mode: Lecture Grading Option: Letter

LING 487 Speech Synthesis and Recognition
Units: 4 Introduction to speech synthesis and speech recognition technologies from both a phonetics point of view and a computational point of view. *Prerequisite:* LING 285Lg Instruction Mode: Lecture Grading Option: Letter

LING 490x Directed Research
Units: 1, 2, 3, 4, 5, 6, 7, 8 Max Units: 12.0 Terms Offered: FaSpSm Individual research and readings. Instruction Mode: Lecture Grading Option: Letter

LING 497 Honors Thesis
Units: 4 Terms Offered: FaSp Writing of the honors thesis. Registration is restricted to honors students. Instruction Mode: Lecture Grading Option: Letter

LING 499 Special Topics
Units: 2, 3, 4 Max Units: 8.0 Investigation of selected topics in linguistics. Instruction Mode: Lecture Grading Option: Letter

LING 501a Experimental Methods in Linguistics
Units: 3 Univariate and bivariate statistical methods with applications to linguistic research; introduction to statistical computer packages. *Prerequisite:* LING 501a. Duplicates Credit in former LING 601. Instruction Mode: Lecture Grading Option: Letter

LING 501b Experimental Methods in Linguistics
Units: 3 The application of advanced multivariate statistical methods to linguistic research. *Prerequisite:* LING 501a. Duplicates Credit in former LING 601. Instruction Mode: Lecture Grading Option: Letter

LING 505a Seminar in Linguistics
Units: 1 Exploration of the professional world of linguistics for first semester graduate students. Instruction Mode: Lecture Grading Option: Credit/No Credit

LING 505b Seminar in Linguistics
Units: 1 Preparation and presentation of M.A./Ph.D. screening papers; discussion of student research. Instruction Mode: Lecture Grading Option: Credit/No Credit

LING 505c Seminar in Linguistics
Units: 1 Colloquium for presentation and discussion of student research paper. Instruction Mode: Lecture Grading Option: Credit/No Credit

LING 512 Linguistic Variation and Language Changes
Units: 3 Terms Offered: Fa Linguistic relationships among various correlates of variation: social, psychological, and chronological. Focus on dialectical, registral, and historical variation; the constraints of production and perception in different modes and situations. Instruction Mode: Lecture Grading Option: Letter

LING 513 Spanish Morphology and Phonology
Units: 3 Terms Offered: FaSp (Enroll in SPAN 513)

LING 514 Spanish Syntax
Units: 3 Terms Offered: FaSp (Enroll in SPAN 514)

LING 515 Spanish Grammar in Discourse
Units: 3 Terms Offered: FaSp (Enroll in SPAN 515)

LING 527 Second Language Acquisition
Units: 3 Terms Offered: Sp Concepts and issues in theoretical approaches to the study of non-primary language acquisition; e.g., linguistic and processing universals, language transfer, language learnability, fossilization. Instruction Mode: Lecture Grading Option: Letter

LING 530 Generative Syntax
Units: 3 Introduction to syntax; transformational-generative syntax. Instruction Mode: Lecture Grading Option: Letter

LING 531a Phonology
Units: 3 Terms Offered: Fa Traditional views of phonology; generative phonology; current developments in phonological research and theory. Instruction Mode: Lecture Grading Option: Letter

LING 531b Phonology
Units: 3 Terms Offered: Sp Traditional

views of phonology; generative phonology; current developments in phonological research and theory. Instruction Mode: Lecture Grading Option: Letter

LING 532 Current Issues in Syntactic Theory
Units: 3 Original literature, focusing whenever possible on issues in comparative syntax and their implications for universal grammar. Course complements LING 530. Instruction Mode: Lecture Grading Option: Letter

LING 533 Language Universals and Typology
Units: 3 Introduction to language universals and typology. Instruction Mode: Lecture Grading Option: Letter

LING 534 Semantics
Units: 3 Current linguistic approaches to the semantics of natural language; analysis of concepts of meaning and reference. Instruction Mode: Lecture Grading Option: Letter

LING 535 Syntax and Grammatical Theory
Units: 3 Terms Offered: Sp Principles and comparison of modern theories of grammar with special reference to syntax. Instruction Mode: Lecture Grading Option: Letter

LING 536 Advanced Semantics
Units: 3 Terms Offered: Sp Intensive work in semantic theory, in preparation for a research specialization in the area. Instruction Mode: Lecture Grading Option: Letter

LING 537 Advanced Syntax
Units: 3 Max Units: 9.0 Topics in advanced formal syntax; current literature leading to open questions in research; survey of important and controversial issues of current theoretical relevance. Instruction Mode: Lecture Grading Option: Letter

LING 538 Selected Topics in Romance Syntax
Units: 3 Max Units: 9.0 Terms Offered: Sp Overview of selected topics in Romance Syntax within a comparative perspective and their contribution towards the understanding of a general theory of grammar. Instruction Mode: Lecture Grading Option: Letter

LING 539 Japanese/Korean Syntax and Theoretical Implications
Units: 3 Max Units: 9.0 Critical discussion of selected papers and dissertations on Japanese/Korean syntax and consideration of their theoretical implications. Instruction Mode: Lecture Grading Option: Letter

LING 540 Field Methods in Linguistics
Units: 3 Max Units: 6.0 Terms Offered: Sp Recording and analysis of a living language as employed by a native speaker of that language. Instruction Mode: Lecture Grading Option: Letter

LING 541 Field Methods in Second Language Acquisition
Units: 3 Research design and methodology; data collection, coding, and analysis; ethical considerations. Instruction Mode: Lecture Grading Option: Letter

LING 542 Historical Linguistics
Units: 3, 2 years Terms Offered: Sp Principles of language change; the comparative method; structural and social factors in language change. Instruction Mode: Lecture Grading Option: Letter

LING 546 Comparative Indo-European Linguistics
Units: 3 Analysis of the phonological, morphological, and syntactic structures of Proto-Indo-European, and its development in the various branches of Indo-European. Instruction Mode: Lecture Grading Option: Letter

LING 547 Morphology
Units: 3 Max Units: 12.0 Terms Offered: FaSpSm Introduction to morphology: words versus sentences, the grammar of words, the various notions of "lexicon," the architecture of the phonological component. This course is in preparation for advanced work in linguistic theory. Instruction Mode: Lecture Grading Option: Letter

LING 548 Lexical Semantics
Units: 3 Terms Offered: Sp Languages group meaning elements together in different ways to form words. Consideration of how to identify these elements and how speakers map them into lexico-syntactic units. Instruction Mode: Lecture Grading Option: Letter

LING 550 Advanced English Linguistics
Units: 3 The analysis of problems in the grammatical description and history of English. Instruction Mode: Lecture Grading Option: Letter

LING 555 Comparative Germanic Linguistics
Units: 3 Nature and relationship of changes that led to the differentiation of the individual Germanic languages. Instruction Mode: Lecture Grading Option: Letter

LING 557 Structure of the Chinese Language
Units: 4 (Enroll in EALC 557)

LING 561 Topics and Issues in East Asian Linguistics
Units: 4 Max Units: max 12 (Enroll in EALC 561)

LING 573 Sociolinguistics
Units: 3 Theoretical approaches to language in social context; discourse analysis, ethnography of communication, variation theory. Instruction Mode: Lecture Grading Option: Letter

LING 574 Advanced Sociolinguistics
Units: 3 Max Units: 9.0 Current issues in sociolinguistic theory. Instruction Mode: Lecture Grading Option: Letter

LING 576 Psycholinguistics
Units: 3 Theories of acquisition; sentence and discourse processing; language and thought. Instruction Mode: Lecture Grading Option: Letter Crosslisted as PSYC-576

LING 579 Child Language Development
Units: 3 Terms Offered: Sp Acquisition of grammatical, discourse, and conversational competence; strategies and structures. Instruction Mode: Lecture Grading Option: Letter

LING 580 General Phonetics
Units: 3 Terms Offered: Sp Familiarization with articulation, transcription, production, and acoustic analysis of the speech sounds found in the world's languages. Also speech technology, perception, and disorders. Includes laboratory exercises. Instruction Mode: Lecture Grading Option: Letter

LING 581 Topics in Advanced Phonology
Units: 3 Max Units: 9.0 Topics in advanced formal phonology; theoretical issues in the interface of phonology with other areas of linguistics; literature study on themes of current theoretical relevance. *Recommended Preparation:* LING 531a, LING 531b. Instruction Mode: Lecture Grading Option: Letter

LING 582 Experimental Phonetics
Units: 3 Terms Offered: FaSp Source-filter theory, acoustic correlates of speech sounds, vocal tract and auditory physiology, coarticulation and motor coordination, speech technology including synthesis and recognition, experimental design and statistics, and speech perception. *Prerequisite:* LING 580. Instruction Mode: Lecture Grading Option: Letter

LING 585 Computational Linguistics
Units: 3 Using hands-on and research techniques, study of the role of linguistic knowledge and the procedures that implement it in computational systems that process natural language. Instruction Mode: Lecture Grading Option: Letter

LING 586 Advanced Psycholinguistics
Units: 3 Max Units: 9.0 Current issues in psycholinguistic theory. Instruction Mode: Lecture Grading Option: Letter Crosslisted as PSYC-586

LING 590 Directed Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Terms Offered: FaSpSm Research leading to the master's degree. Maximum units which may be applied to the degree to be determined by the department. Instruction Mode: Lecture Grading Option: Credit/No Credit

LING 593x Practicum in Teaching the Liberal Arts: Linguistics
Units: 2 Terms Offered: FaSp Practical principles for the long-term development of effective teaching within college disciplines. Registration Restriction: Open only to doctoral students. Instruction Mode: Lecture Grading Option: Credit/No Credit

LING 595 Directed Readings
Units: 1, 2, 3, 4 Terms Offered: FaSpSm Maximum units which may be applied to the degree to be determined by the department. Instruction Mode: Lecture Grading Option: Letter

LING 599 Special Topics
Units: 2, 3, 4 Max Units: 8.0 Terms Offered: FaSpSm Research trends as reflected primarily in the current periodical literature. Instruction Mode: Lecture Grading Option: Letter

LING 602 Seminar in Experimental Methods in Linguistics
Units: 3 Topics in quantitative methods in linguistics research, e.g., covariance structure analysis, multi-dimensional scaling, log linear model, meta analysis. Instruction Mode: Lecture Grading Option: Letter

LING 610 Seminar in Linguistic Theory
Units: 3 Max Units: 12.0 Terms Offered: Sp Instruction Mode: Lecture Grading Option: Letter

LING 615 Seminar in Linguistics Structures
Units: 3 Max Units: 12.0 Terms Offered: Fa Analysis of the synchronic or diachronic phonology, morphology, and syntax of individual languages. Instruction Mode: Lecture Grading Option: Letter

LING 627 Seminar in Second Language Acquisition
Units: 3 Max Units: 12.0 Terms Offered: FaSp Readings in second language acquisition as the framework for a discussion and research-oriented seminar. Instruction Mode: Lecture Grading Option: Letter

LING 631 Seminar in Phonological Theory
Units: 3 Max Units: 12.0 Terms Offered: Fa Instruction Mode: Lecture Grading Option: Letter

LING 632 Seminar in Phonetics
Units: 3 Max Units: 12.0 Terms Offered: FaSp Readings in phonetic theory and current research as the framework for a discussion-oriented class. *Prerequisite:* LING 580. Instruction Mode: Lecture Grading Option: Letter

LING 635 Seminar in Syntax
Units: 3 Max Units: 12.0 Terms Offered: FaSp Instruction Mode: Lecture Grading Option: Letter

LING 636 Seminar in Semantics
Units: 3 Max Units: 12.0 Terms Offered: Fa Instruction Mode: Lecture Grading Option: Letter Crosslisted as PHIL-636

LING 645 Seminar in Language Change
Units: 3 Max Units: 12.0 Terms Offered: Sp Instruction Mode: Lecture Grading Option: Letter

LING 675 Seminar in Sociolinguistics
Units: 3 Max Units: 12.0 Terms Offered: Sp Instruction Mode: Lecture Grading Option: Letter

LING 676 Seminar in Psycholinguistics
Units: 3 Max Units: 12.0 Terms Offered: Sp Instruction Mode: Lecture Grading Option: Letter Crosslisted as PSYC-676

LING 790 Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Terms Offered: FaSpSm Research leading to the doctorate. Maximum units which may be applied to the degree to be determined by the department. Instruction Mode: Lecture Grading Option: Credit/No Credit

LING 794a Doctoral Dissertation
Units: 2 Terms Offered: FaSpSm Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

LING 794b Doctoral Dissertation
Units: 2 Terms Offered: FaSpSm Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

LING 794c Doctoral Dissertation
Units: 2 Terms Offered: FaSpSm Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

LING 794d Doctoral Dissertation
Units: 2 Terms Offered: FaSpSm Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

LING 794z Doctoral Dissertation
Units: 0 Terms Offered: FaSpSm Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

Materials Science

MASC 110L Materials Science
Units: 4 Terms Offered: FaSp Chemical bonding and structure in crystalline, amorphous, and molecular solids; tendency and mechanisms for chemical change; homogeneous and heterogeneous equilibria. *Prerequisite:* high school chemistry. Instruction Mode: Lecture, Lab Required Grading Option: Letter

MASC 310 Materials Behavior and Processing
Units: 4 Terms Offered: FaSp Principles of mechanical behavior and processing of materials. Relationships between mechanical properties, microstructure and processing methods. Composites and nonmetallics included. Instruction Mode: Lecture Grading Option: Letter Crosslisted as ACAD 312

MASC 334L Mechanical Behavior of Materials
Units: 4 Terms Offered: Fa (Enroll in CE 334L)

MASC 350L Nanostructured Materials: Design, Synthesis and Processing
Units: 4 Terms Offered: Fa Structure, properties, synthesis, processing and design of metallic, ceramic, polymeric, electronic, photonic, composite, nanophase and biomaterials; nanostructures, microfabrication and smart materials. *Prerequisite:* (CHEM 105aLg or CHEM 115aLg or MASC 110L) and PHYS 152L Instruction Mode: Lecture, Lab Required Grading Option: Letter

MASC 439 Principles of Semiconductor Processing
Units: 3 Principles relevant to semiconductor processing are covered. Topics include bulk and epitaxial crystal growth, photolithography, evaporation, sputtering, etching, oxidation, alloying, and ion implantation. *Prerequisite:* MASC 110, EE 338. Instruction Mode: Lecture Grading Option: Letter Crosslisted as EE 439

MASC 440 Materials and the Environment
Units: 3 Terms Offered: Sp Interactions of metals, alloys and composite materials with liquid and gaseous corrosive environments; corrosion protection by alloying and application of inhibitors and metallic or organic coatings. Instruction Mode: Lecture Grading Option: Letter

MASC 455 Computational Materials I: Introduction to Atomistic Simulation
Units: 4 Terms Offered: FaSp Introduction to materials modeling using molecular dynamics simulation methods that include interatomic potentials, and hands-on materials simulation projects on high-performance computing cluster at USC. *Recommended Preparation:* Introductory differential and integral calculus. Instruction Mode: Lecture Grading Option: Letter

MASC 456 Computational Materials II: Properties and Processing Simulations
Units: 4 Terms Offered: FaSp Computational modeling and simulations of materials and processes using MD simulations, three simulation projects that include structural, thermodynamic, mechanical behavior, and data analysis *Prerequisite:* MASC 455 *Recommended Preparation:* Introductory calculus and basic knowledge of metals, ceramics and polymers Instruction Mode: Lecture Grading Option: Letter

MASC 471 Applied Quantum Mechanics for Engineers
Units: 4 (Enroll in EE 471)

MASC 472 Polymer Science and Engineering
Units: 4 Terms Offered: Fa (Enroll in CHE 472)

MASC 475 Physical Properties of Polymers
Units: 4 Terms Offered: Sp (Enroll in CHE 475)

MASC 476 Chemical Engineering Materials
Units: 4 Terms Offered: Fa (Enroll in CHE 476)

MASC 483 Introduction to Machine Learning for Materials
Units: 4 Terms Offered: Fa Introduction to machine learning (ML) for materials applications; basic concepts of machine learning, statistics and probability. *Recommended Preparation:* Basic Python programming and basic calculus Instruction Mode: Lecture Grading Option: Letter

MASC 499 Special Topics
Units: 2, 3, 4 Max Units: 8.0 Course content will be selected each semester to reflect current trends and developments in the field of materials science. Instruction Mode: Lecture Grading Option: Letter

MASC 501 Solid State
Units: 4 Terms Offered: Sp Atomic electronic states, molecular bonding, crystal structures, diffraction, reciprocal lattice, Brillouin zones, crystal binding, lattice vibrations, specific heat, anharmonic effects, energy bands, metals, conductivity. *Prerequisite:* EE 471 or EE 539 *Recommended Preparation:* Graduate level mathematical methods (such as vector analysis, linear algebra, complex variables, transforms, ordinary and partial second order differential equations, etc.) for engineers Instruction Mode: Lecture Grading Option: Letter Crosslisted as EE 501

MASC 502 Advanced Solid State
Units: 3 Terms Offered: Fa Semiconductors, dielectrics and metals, thermoelectric effects, magnetism, magnetic resonance and superconductivity. *Prerequisite:* MASC 501. Instruction Mode: Lecture Grading Option: Letter Crosslisted as EE-502

MASC 503 Thermodynamics of Materials
Units: 4 Terms Offered: Fa Classical thermodynamics, chemical potential, pure phases and mixtures; interphase relationships; binary and ternary solutions; free energy and activity; galvanic cell, electrochemical potential and Pourbaix diagram. Instruction Mode: Lecture Grading Option: Letter

MASC 504 Diffusion and Phase Equilibria
Units: 4 Terms Offered: Sp Phase equilibria, phase diagrams, diffusion, planar defects, nucleation and growth, spinodal decomposition, phase transformation. *Prerequisite:* MASC 503 Instruction Mode: Lecture Grading Option: Letter

MASC 505 Crystals and Anisotropy
Units: 4 Terms Offered: Fa Stereographic

projection; Laue back reflection method; crystal orientation; line and planar crystalline defects; tensors; susceptibility; permeability and permittivity; stress and strain; piezoelectricity; elasticity. *Recommended Preparation:* course work in matrix algebra and tensors on the level of AME 509 or AME 525 Instruction Mode: Lecture Grading Option: Letter

MASC 506 Semiconductor Physics
Units: 4 Terms Offered: FaSp (Enroll in EE 506)

MASC 507 Micro- and Nano-Fabrication Technology
Units: 4 Terms Offered: Sp (Enroll in EE 507)

MASC 511 Materials Preparation
Units: 3 Principles and techniques of materials preparation; purification, crystal growth from liquid and vapor phases, sintering. *Prerequisite:* MASC 504. Instruction Mode: Lecture Grading Option: Letter

MASC 512 Thin Film Science and Technology
Units: 4 Terms Offered: Fa Application of thin film science and technology; vapor phase growth of thin films, their characterization, properties and applications. *Recommended Preparation:* Upper-division or graduate-level preparation in thermodynamics and quantum mechanics or solid-state physics. Registration Restriction: Open only to graduate students Instruction Mode: Lecture Grading Option: Letter

MASC 514L Processing of Advanced Semiconductor Devices
Units: 3 Terms Offered: Fa Statistical design of experiments, vapor deposition of thin film dielectrics, plasma etching, advanced lithography, in-situ sensors, process monitoring, quality control, assurance/ reliability. *Prerequisite:* EE 504. Instruction Mode: Lecture, Lab Required Grading Option: Letter

MASC 515 Basics of Machine Learning for Materials
Units: 4 Terms Offered: Sp Introduction to machine learning, basics of python programming and data science tools; hands-on projects of materials and process modeling based on machine learning methods. *Recommended Preparation:* Basic Python programming, Calculus, Linear Algebra, and Probability. Basic knowledge of atomistic simulations (MASC 575 and MASC 576) Instruction Mode: Lecture Grading Option: Letter

MASC 520 Mathematical Methods for Deep Learning
Units: 4 Terms Offered: Sp Understanding deep learning: for PhD students in engineering, physical and life sciences and computer science with mathematical background. Instruction Mode: Lecture Grading Option: Letter Crosslisted as CHE 520, PTE 520

MASC 523 Principles of Electrochemical Engineering
Units: 3 Electrochemical techniques; mass, charge, and heat transfer; electrochemical thermodynamics and electrode kinetics; electrochemical reactors; optimization; materials and corrosion; experimental modeling of industrial processes. Instruction Mode: Lecture Grading Option: Letter Crosslisted as CHE-523

MASC 524 Techniques and Mechanisms in Electrochemistry
Units: 3 Modern electrochemistry; in-situ techniques; in-situ probes of the near-electrode region; ex-situ emersion techniques; cyclic voltammetry, electroxidation, electrochemical reduction, reactive film formation, enzyme electrochemistry. Instruction Mode: Lecture Grading Option: Letter

MASC 534 Materials Characterization
Units: 4 Terms Offered: Fa Characterization of solid structure by X-ray diffraction, electron microscopy, atomic force and tunneling microscopy and elemental analysis by photoemission, X-ray fluorescence, Auger, energy loss spectroscopies. *Recommended Preparation:* Undergraduate physics, chemistry, mathematics; graduate level preparation in quantum mechanics or solid-state physics Instruction Mode: Lecture Grading Option: Letter Crosslisted as EE 534

MASC 535L Transmission Electron Microscopy
Units: 4 Transmission electron microscopy and techniques. Specimen-electron beam interaction, electron diffraction and image formation. X-ray microanalysis. Laboratory involves hands-on training on the transmission electron microscope. *Recommended Preparation:* MASC 505. Duplicates Credit in former MASC 536L. Instruction Mode: Lecture, Lab Required Grading Option: Letter

MASC 539 Engineering Quantum Mechanics
Units: 3 (Enroll in EE 539)

MASC 551 Mechanical Behavior of Engineering Materials
Units: 4 Terms Offered: FaSp Mechanical properties of materials; macroscopic mechanical behavior related to structure and microstructure of the material; elementary dislocation theory related to basic strengthening mechanisms; fatigue and fracture; nanomaterials. *Recommended Preparation:* Undergraduate introduction to chemistry and the equivalent of MASC 310 Instruction Mode: Lecture Grading Option: Letter Crosslisted as AME 551

MASC 559 Creep
Units: 3 Terms Offered: Sp Behavior of engineering materials at elevated temperatures; thermal stresses; creep mechanisms; interpretation of creep data; methods of predicting long-term strains. Duplicates Credit in former AME 559 Instruction Mode: Lecture Grading Option: Letter Crosslisted as AME 559

MASC 560 Fatigue and Fracture
Units: 3 Terms Offered: Sp Behavior of materials under cyclic and static fatigue; plastic instability; life-time predictions; brittle and ductile fracture; crack propagation and plastic blunting. Duplicates Credit in former AME 560 Instruction Mode: Lecture Grading Option: Letter Crosslisted as AME 560

MASC 561 Dislocation Theory and Applications
Units: 4 Terms Offered: Sp Elasticity theory; types, sources, motion, interaction of dislocations; stress fields and strain energies; partial dislocations and stacking faults; principles of work-hardening. *Recommended Preparation:* The equivalent of MASC 310, MASC 505 and MASC 551 Instruction Mode: Lecture Grading Option: Letter Crosslisted as AME 561

MASC 562 Failure Analysis
Units: 3 Terms Offered: Sp Apply fundamental Materials Science concepts to "real-world" material/product failures. Identify causes of material failures using analytical methodology/tools. Develop practical solutions to prevent future failures. *Recommended Preparation:* Undergraduate materials or materials selection courses Instruction Mode: Lecture Grading Option: Letter

MASC 564 Composites Processing
Units: 4 Terms Offered: Sp The science and technology underlying processes used to manufacture composite parts/structures from the perspectives of process selection, materials and process efficiency, and sustainability. *Recommended Preparation:* MASC 310 or equivalent; Read 4 issues of Composites World (free on-line publication) Registration Restriction: Open only to graduate students Instruction Mode: Lecture Grading Option: Letter

MASC 570 Introduction to Photovoltaic Solar Energy Conversion
Units: 3 Introduction to the physical principles, implementation materials, devices, and manufacturing costs of solar cells and panels for photovoltaic conversion of solar radiation to electricity. Instruction Mode: Lecture Grading Option: Letter

MASC 575 Basics of Atomistic Simulation of Materials
Units: 4 Terms Offered: FaSp Introduction to atomistic modeling and simulations of materials using Molecular Dynamics and Monte Carlo methods, basic concepts and how to characterize materials properties. Instruction Mode: Lecture Grading Option: Letter

MASC 576 Molecular Dynamics Simulations of Materials and Processes
Units: 4 Terms Offered: Sp Modeling of materials and processes such as mechanical, thermodynamical, and transport properties using Molecular Dynamics simulation, interatomic potentials including long-range coulomb interactions and quantum corrections. *Prerequisite:* MASC 575 *Recommended Preparation:* Basics of Molecular Dynamics Instruction Mode: Lecture Grading Option: Letter

MASC 583 Materials Selection
Units: 4 Terms Offered: Fa Materials selection in relationship to design and fabrication, economic considerations, methodology of selection, performance parameters; case studies. *Recommended Preparation:* Undergraduate level course in materials (equivalent to MASC 310) Duplicates Credit in former AME 588 Instruction Mode: Lecture Grading Option: Letter Crosslisted as AME 588

MASC 584 Fracture Mechanics and Mechanisms
Units: 3 Terms Offered: Fa Failure modes, stress concentrations, complex stress analysis, linear elastic fracture mechanics, yielding fracture mechanics, experimental methods, environmental assisted fracture

and fatigue. *Prerequisite:* AME 403 Duplicates Credit in former AME 584 Instruction Mode: Lecture Grading Option: Letter Crosslisted as AME 584

MASC 590 Directed Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Research leading to the master's degree. Maximum units which may be applied to the degree to be determined by the department. Instruction Mode: Lecture Grading Option: Credit/No Credit

MASC 594a Master's Thesis
Units: 2 For the master's degree. Credit on acceptance of thesis. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

MASC 594b Master's Thesis
Units: 2 For the master's degree. Credit on acceptance of thesis. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

MASC 594z Master's Thesis
Units: 0 For the master's degree. Credit on acceptance of thesis. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

MASC 598 Materials Science Seminar
Units: 1 Max Units: 02 Seminar in Materials Science research. Instruction Mode: Lecture Grading Option: Credit/No Credit

MASC 599 Special Topics
Units: 2, 3, 4 Max Units: 9.0 Instruction Mode: Lecture Grading Option: Letter

MASC 601 Advanced Semiconductor Device Physics
Units: 4 Terms Offered: Sp (Enroll in EE 601)

MASC 610 Molecular Beam Epitaxy
Units: 3 Basic principles, ultra high vacuum, machine considerations, source purity and calibrations temperature measurements, surface morphology and chemistry, growth procedures, III-V, II-VI and silicon MBE. *Prerequisite:* MASC 501, MASC 503. Instruction Mode: Lecture Grading Option: Letter

MASC 690 Directed Research
Units: 1, 2, 3, 4 Max Units: 8.0 Laboratory study of specific problems by candidates for the degree Engineer in Materials Science. Instruction Mode: Lecture Grading Option: Credit/No Credit

MASC 790 Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Research leading to the doctorate. Maximum units which may be applied to the degree to be determined by the department. Instruction Mode: Lecture Grading Option: Credit/No Credit

MASC 794a Doctoral Dissertation
Units: 2 Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

MASC 794b Doctoral Dissertation
Units: 2 Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

MASC 794c Doctoral Dissertation
Units: 2 Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

MASC 794d Doctoral Dissertation
Units: 2 Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

MASC 794z Doctoral Dissertation
Units: 0 Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

Mathematics

MATH 040x Basic Mathematical Skills
Units: 4 Terms Offered: FaSp Review of Algebra. Real numbers, linear equations and inequalities, functions, graphs, systems of equations, exponents, polynomials, factoring, rational expressions, radicals, quadratic equations and solutions. Instruction Mode: Lecture Grading Option: Credit/No Credit

MATH 108g Contemporary Precalculus
Units: 4 Terms Offered: FaSp Equations and inequalities; functions; graphs; polynomial and rational functions; exponential, logarithmic, and trigonometric function; analytic geometry. *Prerequisite:* MATH 040 or passing of placement exam. Satisfies New General Education in Category F: Quantitative Reasoning Instruction Mode: Lecture, Discussion Grading Option: Letter

MATH 114gx Foundations of Statistics
Units: 4 Terms Offered: FaSpSm An introduction to the basic tools of statistics. Descriptive statistics; probability; expected value; normal approximation sampling; chance models; tests of significance. *Recommended Preparation:* MATH 040 or math placement exam. Satisfies New General Education in F Quantitative Reasoning Instruction Mode: Lecture, Discussion Grading Option: Letter

MATH 117g Introduction to Mathematics for Business and Economics
Units: 4 Terms Offered: FaSp Functions, graphs, polynomial and rational functions, exponential and logarithmic functions, matrices, systems of linear equations. *Prerequisite:* MATH 040 or math placement exam. Satisfies New General Education in Category F: Quantitative Reasoning Instruction Mode: Lecture, Discussion Grading Option: Letter

MATH 118gx Fundamental Principles of Calculus
Units: 4 Terms Offered: FaSp Derivatives; extrema. Definite integral; fundamental theorem of calculus. Extrema and definite integrals for functions of several variables. *Prerequisite:* MATH 108 or MATH 117 or placement exam in MATH. Satisfies New General Education in Category F: Quantitative Reasoning Instruction Mode: Lecture, Discussion Grading Option: Letter

MATH 125g Calculus I
Units: 4 Terms Offered: FaSpSm Limits; continuity, derivatives and applications; antiderivatives; the fundamental theorem of calculus; exponential and logarithmic functions. *Prerequisite:* MATH 108 or math placement exam. Satisfies New General Education in Category F: Quantitative Reasoning Instruction Mode: Lecture, Discussion Grading Option: Letter

MATH 126g Calculus II
Units: 4 Terms Offered: FaSpSm A continuation of MATH 125g: trigonometric functions; applications of integration; techniques of integration; indeterminate forms; infinite series; Taylor series; polar coordinates. *Prerequisite:* MATH 125g Satisfies New General Education in Category F: Quantitative Reasoning Instruction Mode: Lecture, Discussion Grading Option: Letter

MATH 127 Enhanced Calculus II
Units: 4 Terms Offered: FaSp Applications of integration, review of techniques of integration, infinite sequences and series, some beginning linear algebra, ordinary differential equations. Designed for students who earn a score of 4 or 5 on the Advanced Placement Calculus AB Examination, or a score of 3 or 4 on the BC Examination. Admission to course by departmental approval. Duplicates Credit in MATH 126g and MATH 129 Instruction Mode: Lecture, Discussion Grading Option: Letter

MATH 129 Calculus II for Engineers and Scientists
Units: 4 Terms Offered: FaSpSm Trigonometric functions; applications of integration; techniques of integration; indeterminate forms; infinite series; Taylor series; polar coordinates. Engineering and physics applications. *Prerequisite:* MATH 125 Duplicates Credit in MATH 126 and MATH 127 Instruction Mode: Lecture, Discussion Grading Option: Letter

MATH 200 Elementary Mathematics from an Advanced Standpoint
Units: 4 Terms Offered: FaSp An explication of arithmetic and geometry, including the algebraic operations, number bases, plane and solid figures; and coordinate geometry. *Prerequisite:* MATH 040 or math placement exam. Instruction Mode: Lecture Grading Option: Letter

MATH 208x Elementary Probability and Statistics
Units: 4 Terms Offered: FaSp Descriptive statistics, probability, discrete and continuous random variables, expectation and variance, sampling, Central Limit Theorem, estimation, hypothesis testing, correlation and regression. Emphasis on health science. *Prerequisite:* MATH 118 or MATH 125. Instruction Mode: Lecture Grading Option: Letter

MATH 225 Linear Algebra and Linear Differential Equations
Units: 4 Terms Offered: FaSp Matrices, systems of linear equations, vector spaces, linear transformations, eigenvalues, systems of linear differential equations. *Prerequisite:* MATH 126g or MATH 127 or MATH 129 Instruction Mode: Lecture, Discussion Grading Option: Letter

MATH 226g Calculus III
Units: 4 Terms Offered: FaSp Vectors, vector valued functions; differential and integral calculus of functions of several variables; Green's theorem, Divergence theorem, Stoke's theorem. *Prerequisite:* MATH 126g or MATH 127 or MATH 129 Satisfies New General Education in Category F: Quantitative Reasoning Instruction Mode: Lecture, Discussion Grading Option: Letter

MATH 227 Enhanced Calculus III
Units: 4 Terms Offered: FaSp A continuation of MATH 127; vectors and vector spaces functions of several variables, partial

differential equations, optimization theory, multiple integration; Green's Stokes', divergence theorems. *Prerequisite:* MATH 127 or MATH 225. Duplicates Credit in MATH 226. Instruction Mode: Lecture, Discussion Grading Option: Letter

MATH 229 Calculus III for Engineers and Scientists
Units: 4 Terms Offered: FaSpSm A continuation of MATH 129; vectors, vector valued functions; differential and integral calculus of functions of several variables; Green's theorem. Engineering and physics applications. *Prerequisite:* MATH 126, or MATH 127, or MATH 129 . Duplicates Credit in MATH 226 and MATH 227. Instruction Mode: Lecture, Discussion Grading Option: Letter

MATH 235 Linear Algebra and Applications
Units: 4 Terms Offered: FaSp Matrices, systems of linear equations, vector spaces, linear transformations, eigenvalues, linear differential equations, singular value decomposition, image compression, graphs, networks and linear programming. *Prerequisite:* MATH 126g or MATH 127 or MATH 129 Duplicates Credit in MATH 225 Instruction Mode: Lecture, Discussion Grading Option: Letter

MATH 245 Mathematics of Physics and Engineering I
Units: 4 Terms Offered: FaSp First-order differential equations; second-order linear differential equations; determinants and matrices; systems of linear differential equations; Laplace transforms. *Prerequisite:* MATH 226g or MATH 227 or MATH 229 Instruction Mode: Lecture, Discussion Grading Option: Letter

MATH 265 Mathematical and Computational Methods for Neuroscience
Units: 4 Terms Offered: Irregular Differential calculus of multivariable functions, optimization, elementary linear algebra and matrix theory, principal component analysis, elementary differential equations, systems, qualitative theory, numerical methods, scientific computation. *Prerequisite:* MATH 125g *Recommended Preparation:* MATH 126g or MATH 127 or MATH 129 or equivalent or AP credit for Calculus BC Instruction Mode: Lecture, Discussion Grading Option: Letter

MATH 290 Mathematical Reasoning and Problem Solving
Units: 4 Terms Offered: FaSp Preparation for reading and writing proofs with applications from major branches of mathematics, focusing on axiomatic structures and transformations that preserve structure. *Prerequisite:* MATH 126g or MATH 127 or MATH 129 Instruction Mode: Lecture, Discussion Grading Option: Letter

MATH 307 Statistical Inference and Data Analysis I
Units: 4 Terms Offered: Fa Probability, counting, independence, distributions, random variables, simulation, expectation, variance, covariance, transformations, law of large numbers, Central limit theorem, estimation, efficiency, maximum likelihood, Cramer-Rao bound, bootstrap. *Prerequisite:* MATH 118gx or MATH 125g or MATH 126g or MATH 127 or MATH 129 Instruction Mode: Lecture, Discussion Grading Option: Letter

MATH 308 Statistical Inference and Data Analysis II
Units: 4 Terms Offered: Sp Confidence intervals, hypothesis testing, pvalues, likelihood ratio, nonparametrics, descriptive statistics, regression, multiple linear regression, experimental design, analysis of variance, categorical data, chi-squared tests, Bayesian statistics. *Prerequisite:* MATH 307. Instruction Mode: Lecture, Discussion Grading Option: Letter

MATH 370 Applied Algebra
Units: 4 Terms Offered: Irregular Induction, Euclidean algorithm, factorization, congruence classes, Rings, RSA algorithm, Chinese remainder theorem, codes, polynomials, fundamental theorem of algebra, polynomial multiplication, Fourier transform, and other topics. *Prerequisite:* (MATH 226g or MATH 227 or MATH 229) and (MATH 225 or MATH 245) Instruction Mode: Lecture Grading Option: Letter

MATH 390 Special Problems
Units: 1, 2, 3, 4 Supervised, individual studies. No more than one registration permitted. Enrollment by petition only. Instruction Mode: Lecture Grading Option: Letter

MATH 395 Seminar in Problem Solving
Units: 2 Max Units: 08 Terms Offered: FaSp Systematic approach to solving non-standard and competition level math problems on inequalities, infinite sums and products, combinatorics, number theory and games. *Recommended Preparation:* MATH 126g or MATH 127 or MATH 129 Instruction Mode: Lecture Grading Option: Letter

MATH 400 Foundations of Discrete Mathematics
Units: 4 Terms Offered: Irregular Methods of proof, predicate calculus, set theory, order and equivalence relations, partitions, lattices, functions, cardinality, elementary number theory and combinatories. *Prerequisite:* MATH 225 or MATH 226g or MATH 227 or MATH 229 Instruction Mode: Lecture, Discussion Grading Option: Letter

MATH 407 Probability Theory
Units: 4 Terms Offered: FaSp Probability spaces, discrete and continuous distributions, moments, characteristic functions, sequences of random variables, laws of large numbers, central limit theorem, special probability laws. *Prerequisite:* MATH 226g or MATH 227 or MATH 229 Instruction Mode: Lecture, Discussion Grading Option: Letter

MATH 408 Mathematical Statistics
Units: 4 Terms Offered: Sp Principles for testing hypotheses and estimation, confidence intervals, methods of moments, maximum likelihood, information inequality, likelihood ratio tests, goodness of fit and nonparametric methods. *Prerequisite:* MATH 407 Instruction Mode: Lecture, Discussion Grading Option: Letter

MATH 410 Fundamental Concepts of Modern Algebra
Units: 4 Terms Offered: FaSp Sets; relations; groups; homomorphisms; symmetric groups; Abelian groups; Sylow's theorems; introduction to rings and fields. *Prerequisite:* MATH 225; *Recommended Preparation:* One 400-level Mathematics course, excluding MATH 450. Instruction Mode: Lecture, Discussion Grading Option: Letter

MATH 425a Fundamental Concepts of Analysis
Units: 4 Terms Offered: FaSp The real number system, metric spaces, limits, continuity, derivatives and integrals, infinite series. *Prerequisite:* MATH 226g or MATH 227 or MATH 229 *Recommended Preparation:* one 400-level Mathematics course, excluding MATH 450 Instruction Mode: Lecture, Discussion Grading Option: Letter

MATH 425b Fundamental Concepts of Analysis
Units: 4 Terms Offered: Sp Implicit function theorems, Jacobians, transformations, multiple integrals, line integrals. *Prerequisite:* MATH 425a *Recommended Preparation:* one 400-level Mathematics course, excluding MATH 450 Instruction Mode: Lecture Grading Option: Letter

MATH 430 Theory of Numbers
Units: 4 Terms Offered: Fa Introduction to the theory of numbers, including prime factorization, congruences, primitive roots, N-th power residues, number theoretic functions and certain diophantine equations. *Prerequisite:* MATH 126g or MATH 127 or MATH 129 Instruction Mode: Lecture Grading Option: Letter

MATH 432 Applied Combinatorics
Units: 4 Terms Offered: Sp Mathematical induction, counting principles, arrangements, selections, binomial coefficients, generating functions, recurrence relations, inclusion-exclusion, symmetric groups, graphs, Euler and Hamiltonian circuits, trees, graph algorithms; applications. *Prerequisite:* MATH 225 or MATH 226g or MATH 227 or MATH 229 Instruction Mode: Lecture Grading Option: Letter

MATH 434 Geometry and Transformations
Units: 4 Terms Offered: Fa The Euclidean plane and its isometries. Models for the hyperbolic metric, isometries, linear fractional maps, geodesics. Gluing constructions. Knot theory and invariants. *Prerequisite:* MATH 226g or MATH 227 or MATH 229 Instruction Mode: Lecture Grading Option: Letter

MATH 435 Vector Analysis and Introduction to Differential Geometry
Units: 4 Terms Offered: Sp Vectors, elements of vector analysis, applications to curves and surfaces, standard material of differential geometry. Prerequisites may be waived for qualified students with consent of instructor. *Prerequisite:* (MATH 226g or MATH 227 or MATH 229) and (MATH 225 or MATH 245) Instruction Mode: Lecture Grading Option: Letter

MATH 440 Topology
Units: 4 Terms Offered: Fa Cardinals, topologies, separation axioms. Compactness, metrizability, function spaces; completeness; Jordan curve theorem. *Recommended Preparation:* upper-division MATH course. Instruction Mode: Lecture Grading Option: Letter

MATH 445 Mathematics of Physics and Engineering II
Units: 4 Terms Offered: FaSp Vector field theory; theorems of Gauss, Green,

and Stokes; Fourier series and integrals; complex variables; linear partial differential equations; series solutions of ordinary differential equations. *Prerequisite:* MATH 245 or (MATH 225 and MATH 226g) or (MATH 225 and MATH 227) or (MATH 225 and MATH 229) Instruction Mode: Lecture, Discussion Grading Option: Letter

MATH 446 Machine Learning through Python
Units: 4 Terms Offered: Fa Probabilistic model building, linear predictors, neural networks, classification, unsupervised learning, principal components, clustering, model validation, Machine Learning pipelines, programmatic data wrangling. *Prerequisite:* MATH 226g and (MATH 225 or MATH 245) and MATH 407 *Recommended Preparation:* ITP 115 or equivalent Instruction Mode: Lecture, Discussion Grading Option: Letter

MATH 447 Mathematics of Machine Learning
Units: 4 Terms Offered: FaSp Mathematical aspects of Machine Learning. PAC Learning, VC-dimension and complexity. Linear predictors (regression, perceptron, SVM). Convex learning and gradient descent. Neural networks and backpropagation. *Prerequisite:* (MATH 226g or MATH 227 or MATH 229) and (MATH 208x or MATH 407) and (MATH 225 or MATH 245) Instruction Mode: Lecture Grading Option: Letter

MATH 450 History of Mathematics
Units: 4 Terms Offered: Sp Evolution of mathematical ideas and techniques as seen through a study of the contributions of eminent mathematicians to the formulation and solution of celebrated problems. *Prerequisite:* MATH 225 or MATH 245; *Recommended Preparation:* upper-division MATH course. Instruction Mode: Lecture Grading Option: Letter

MATH 458 Numerical Methods
Units: 4 Terms Offered: Fa Rounding errors in digital computation; solution of linear algebraic systems; Newton's method for nonlinear systems; matrix eigenvalues; polynomial approximation; numerical integration; numerical solution of ordinary differential equations. *Prerequisite:* MATH 225 or MATH 245. Instruction Mode: Lecture, Discussion Grading Option: Letter Crosslisted as CSCI-458

MATH 465 Nonlinear Dynamics in Science and Engineering
Units: 4 Terms Offered: Sp Nonlinear models, bifurcations, discrete and continuous dynamics, stability, dissipative and reversible systems, Poincare maps, Lyapunov exponents, fractal dimension. Applications stressed: Economics, Engineering, Biology, Physics. *Prerequisite:* MATH 225 or MATH 245. Instruction Mode: Lecture Grading Option: Letter

MATH 466 Dynamic Modeling
Units: 4 Terms Offered: Fa Formulation and study of models arising in population dynamics, growth of plankton, pollution in rivers, highway traffic, morphogenesis and tidal dynamics: stability, oscillations, bifurcations, chaos. The lab will consist of computer simulation of models using commercially available software. *Prerequisite:* MATH 225 or MATH 245. Instruction Mode: Lecture, Discussion Grading Option: Letter

MATH 467 Theory and Computational Methods for Optimization
Units: 4 Terms Offered: Fa Methods for static, dynamic, unconstrained, constrained optimization. Gradient, conjugate gradient, penalty methods. Lagrange multipliers, least squares, linear, nonlinear dynamic programming. Application to control and estimation. *Prerequisite:* (MATH 226g or MATH 227 or MATH 229) and (MATH 225 or MATH 245) Instruction Mode: Lecture, Discussion Grading Option: Letter

MATH 471 Topics in Linear Algebra
Units: 4 Terms Offered: Sp Polynomial rings, vector spaces, linear transformations, canonical forms, inner product spaces. *Prerequisite:* MATH 225; *Recommended Preparation:* MATH 410. Instruction Mode: Lecture Grading Option: Letter

MATH 475 Introduction to Theory of Complex Variables
Units: 4 Terms Offered: Sp Complex numbers and functions. Power series, analytic functions, harmonic functions. Complex integration, Cauchy's theorem, Cauchy's formula. Conformal mapping. Applications in physics and engineering. *Prerequisite:* MATH 226g or MATH 227 or MATH 229 Instruction Mode: Lecture Grading Option: Letter

MATH 490x Directed Research
Units: 1, 2, 3, 4, 5, 6, 7, 8 Max Units: 12.0 Terms Offered: FaSpSm Individual research and readings. Instruction Mode: Lecture Grading Option: Letter

MATH 499 Special Topics
Units: 2, 3, 4 Max Units: 8.0 Lectures on advanced material not covered in regularly scheduled courses. No more than two registrations allowed. Instruction Mode: Lecture Grading Option: Letter

MATH 500 Graduate Colloquium
Units: 2 Lectures directed to mathematics graduate students by faculty of the department and by outside speakers. Problem solving workshops. Instruction Mode: Lecture Grading Option: Credit/No Credit

MATH 501 Numerical Analysis and Computation
Units: 3 Terms Offered: Sp Linear equations and matrices, Gauss elimination, error estimates, iteration techniques; contractive mappings, Newton's method; matrix eigenvalue problems; least-squares approximation, Newton-Cotes and Gaussian quadratures; finite difference methods. *Prerequisite:* linear algebra and calculus. Instruction Mode: Lecture Grading Option: Letter Crosslisted as CSCI-501

MATH 502a Numerical Analysis
Units: 3 Terms Offered: Fa Computational linear algebra; solution of general nonlinear systems of equations; approximation theory using functional analysis; numerical solution of ordinary and partial differential equations. *Prerequisite:* MATH 425a and MATH 471. Instruction Mode: Lecture Grading Option: Letter Crosslisted as CSCI-502A

MATH 502b Numerical Analysis
Units: 3 Terms Offered: Sp Computational linear algebra; solution of general nonlinear systems of equations; approximation theory using functional analysis; numerical solution of ordinary and partial differential equations. *Prerequisite:* MATH 425a and MATH 471. Instruction Mode: Lecture Grading Option: Letter Crosslisted as CSCI-502B

MATH 504a Numerical Solution of Ordinary and Partial Differential Equations
Units: 3 Terms Offered: Sp Initial value problems; multistep methods, stability, convergence and error estimation, automatic stepsize control, higher order methods, systems of equations, stiff problems; boundary value problems; eigen-problems. *Prerequisite:* MATH 501 or MATH 502a. Instruction Mode: Lecture Grading Option: Letter Crosslisted as CSCI-504A

MATH 504b Numerical Solution of Ordinary and Partial Differential Equations
Units: 3 Terms Offered: Fa Computationally efficient schemes for solving PDE numerically; stability and convergence of difference schemes, method of lines; fast direct and iterative methods for elliptic equations. *Prerequisite:* MATH 501 or MATH 502a. Instruction Mode: Lecture Grading Option: Letter Crosslisted as CSCI-504B

MATH 505a Applied Probability
Units: 3 Terms Offered: Fa Populations, permutations, combinations, random variables, distribution and density functions conditional probability and expectation, binomial, Poisson, and normal distributions; laws of large numbers, central limit theorem. Instruction Mode: Lecture Grading Option: Letter Crosslisted as CSCI-505A

MATH 505b Applied Probability
Units: 3 Terms Offered: Sp Markov processes in discrete or continuous time; renewal processes; martingales; Brownian motion and diffusion theory; random walks, inventory models, population growth, queuing models, shot noise. Instruction Mode: Lecture Grading Option: Letter Crosslisted as CSCI-505B

MATH 507a Theory of Probability
Units: 3 Terms Offered: Fa Probability spaces; distributions and characteristic functions; laws of large numbers, central limit problems; stable and infinitely divisible laws; conditional distributions. *Prerequisite:* MATH 525a or MATH 570. Instruction Mode: Lecture Grading Option: Letter

MATH 507b Theory of Probability
Units: 3 Terms Offered: Sp Dependence, martingales, ergodic theorems, second-order random functions, harmonic analysis, Markov processes. Instruction Mode: Lecture Grading Option: Letter

MATH 508 Filtering Theory
Units: 3 Theory of random differential equations and stochastic stability; optimum linear and nonlinear filtering, with discussion of asymptotic behavior of filter. *Prerequisite:* MATH 507a. Instruction Mode: Lecture Grading Option: Letter

MATH 509 Stochastic Differential Equations
Units: 3 Brownian motion, stochastic integrals, the Ito formula, stochastic differential equations, analysis of diffusion processes, Girsanov transformation, Feynmann-Kac formula, applications. *Prerequisite:* MATH 505a, MATH 505b or

MATH 507a, MATH 507b. Instruction Mode: Lecture Grading Option: Letter

MATH 510a Algebra
Units: 3 Terms Offered: Fa Group Theory: Isomorphism theorems, group actions, Sylow's theorems, simple and solvable groups; Field Theory: Galois correspondence, radical extensions, algebraic and transcendental extensions, finite fields. *Prerequisite:* MATH 410, MATH 471. Instruction Mode: Lecture Grading Option: Letter

MATH 510b Algebra
Units: 3 Terms Offered: Sp Commutative Algebra: Integrality, Hilbert Basis theorem, Hilbert Nullstellensatz; Modules: modules over PIDs, chain conditions, tensor products; Noncommutative Rings: Jacobson radical, Artin-Wedderburn theorem, Maschke's theorem. *Prerequisite:* MATH 410, MATH 471. Instruction Mode: Lecture Grading Option: Letter

MATH 511aL Data Analysis
Units: 4 (Enroll in PM 511a) Instruction Mode: Lecture, 3 hours; laboratory, 1 hour.

MATH 511bL Data Analysis
Units: 4 (Enroll in PM 511b)

MATH 512 Financial Informatics and Simulation (Computer Labs and Practitioner Seminar)
Units: 3 Terms Offered: FaSp Experimental laboratory trading for financial markets using double auctions: handling statistical packages for data analysis. Practical training in virtual market environments, using financial trading system software. Instruction Mode: Lecture, Discussion Grading Option: Letter

MATH 520 Complex Analysis
Units: 3 Terms Offered: Sp Theory of analytic functions — power series and integral representations, calculus of residues, harmonic functions, normal families, approximation theorems, conformal mapping, analytical continuation. *Prerequisite:* MATH 425a, MATH 425b. Instruction Mode: Lecture Grading Option: Letter

MATH 525a Real Analysis
Units: 3 Terms Offered: Fa Measure and integration over abstract measure spaces, Radon-Nikodym theorem, Fubini's theorem, convergence theorems, differentiation. *Prerequisite:* MATH 425a, MATH 425b. Instruction Mode: Lecture Grading Option: Letter

MATH 525b Real Analysis
Units: 3 Terms Offered: Sp Metric spaces, contraction principle, category, Banach spaces, Riesz representation theorem, properties of Lp Hilbert spaces, orthogonal expansions, Fourier series and transforms, convolutions. *Prerequisite:* MATH 525a. Instruction Mode: Lecture Grading Option: Letter

MATH 530a Stochastic Calculus and Mathematical Finance
Units: 3 Stochastic processes revisited, Brownian motion, Martingale theory, stochastic differential equations, Feynman-Kac formula, binomial models, basic concepts in arbitrage pricing theory, equivalent Martingale measure. *Recommended Preparation:* MATH 225, MATH 407. Duplicates Credit in the former MATH 503. Instruction Mode: Lecture Grading Option: Letter

MATH 530b Stochastic Calculus and Mathematical Finance
Units: 3 Terms Offered: Sp Advanced topics in stochastic analysis, asset pricing in continuous time, stochastic control, Hamilton-Jacobi-Bellman equations, incomplete markets, American options, exotic options, term structure of interest rates. Duplicates Credit in the former MATH 506. Instruction Mode: Lecture Grading Option: Letter

MATH 532 Combinatorial Analysis
Units: 3 Terms Offered: Fa Inversion formulas, generating functions and recursions, partitions, Stirling numbers, distinct representatives, Ramsey's theorem, graph theory, block designs, difference sets, finite geometrics, Latin squares, Hadamard matrices. Instruction Mode: Lecture Grading Option: Letter

MATH 533 Algebraic Combinatorics
Units: 3 Terms Offered: Irregular Walks in graphs, random walks, group actions on boolean algebras, Young diagrams and tableaux, the Matrix-Tree Theorem. Instruction Mode: Lecture Grading Option: Letter Crosslisted as CSCI 533

MATH 535a Differential Geometry
Units: 3 Terms Offered: Fa Elementary theory of manifolds, Lie groups, homogeneous spaces, fiber bundles and connections. Riemannian manifolds, curvature and conjugate points, second fundamental form, other topics. *Prerequisite:* MATH 440. Instruction Mode: Lecture Grading Option: Letter

MATH 535b Differential Geometry
Units: 3 Terms Offered: Sp Elementary theory of manifolds, Lie groups, homogeneous spaces, fiber bundles and connections. Riemannian manifolds, curvature and conjugate points, second fundamental form, other topics. *Prerequisite:* MATH 440. Instruction Mode: Lecture Grading Option: Letter

MATH 540 Topology
Units: 3 Terms Offered: Sp Initial and final topologies, function spaces, algebras in C(Y), homotopy, fundamental group, fiber spaces and bundles, smashes, loop spaces, groups of homotopy classes, cw-complexes. *Prerequisite:* MATH 440. Instruction Mode: Lecture Grading Option: Letter

MATH 541a Introduction to Mathematical Statistics
Units: 3 Terms Offered: Sp Parametric families of distributions, sufficiency. Estimation: methods of moments, maximum likelihood, unbiased estimation. Comparison of estimators, optimality, information inequality, asymptotic efficiency. EM algorithm, jackknife and bootstrap. *Prerequisite:* MATH 505a or MATH 407 or MATH 408. Instruction Mode: Lecture Grading Option: Letter

MATH 541b Introduction to Mathematical Statistics
Units: 3 Terms Offered: Fa Hypothesis testing, Neyman-Pearson lemma, generalized likelihood ratio procedures, confidence intervals, consistency, power, jackknife and bootstrap. Monte Carlo Markov chain methods, hidden Markov models. *Prerequisite:* MATH 541a. Instruction Mode: Lecture Grading Option: Letter

MATH 542 Analysis of Variance and Design
Units: 3 Terms Offered: Sp Least squares estimation in the linear model, analysis of variance and covariance, F-test, multiple comparisons, multiple regression, selection of variables; introduction to experimental design. *Recommended Preparation:* Linear algebra, multivariable calculus, statistics Instruction Mode: Lecture Grading Option: Letter

MATH 543 Nonparametric Statistics
Units: 3 Terms Offered: Irregular Distribution-free methods for comparisons of two or more samples, tests of randomness, independence, goodness of fit; classification, regression. Comparison with parametric techniques. *Recommended Preparation:* Multivariable calculus, statistics Instruction Mode: Lecture Grading Option: Letter Crosslisted as PM 543

MATH 544L Multivariate Analysis
Units: 3 Terms Offered: SpSm (Enroll in PM 544L)

MATH 545 Introduction to Time Series
Units: 3 Terms Offered: Fa Transfer function models; stationary, nonstationary processes; moving average, autoregressive models; spectral analysis; estimation of mean, autocorrelation, spectrum; seasonal time series. *Recommended Preparation:* Linear algebra, multivariable calculus, statistics Instruction Mode: Lecture Grading Option: Letter Crosslisted as PM 545

MATH 547 Mathematical Foundations of Statistical Learning Theory
Units: 3 Terms Offered: Fa Binary classification, empirical risk minimization, support vector machines, voting algorithms and AdaBoost, Vapnik-Chervonenkis combinatorics, concentration-of-measure inequalities, sparse recovery problems, high-dimensional convex geometry. *Prerequisite:* MATH 407 or MATH 408 Instruction Mode: Lecture Grading Option: Letter

MATH 548 Sequential Analysis
Units: 3 Sequential decision procedures: sequential probability-ratio tests, operating characteristic, expected sample size, two-stage procedures, optimal stopping, martingales, Markov processes; applications to gambling, industrial inspection. *Prerequisite:* MATH 407 or MATH 408. Instruction Mode: Lecture Grading Option: Letter

MATH 550 Statistical Consulting and Data Analysis
Units: 3 Terms Offered: Fa Coverage of modern statistical methods as applied to practical consulting and data analysis, and the use of the R statistical language. *Recommended Preparation:* Familiarity with basic statistics and probability is desirable Duplicates Credit in former MATH 650 Instruction Mode: Lecture Grading Option: Letter

MATH 555a Partial Differential Equations
Units: 3 Terms Offered: Fa Second-order partial differential equations of elliptic, parabolic, and hyperbolic type; in particular, potential and wave equations. *Prerequisite:* MATH 425a, MATH 425b. Instruction Mode: Lecture Grading Option: Letter

MATH 555b Partial Differential Equations
Units: 3 Terms Offered: Sp Second-order partial differential equations of elliptic, parabolic, and hyperbolic type; in particular, potential and wave equations. *Prerequisite:* MATH 425a, MATH 425b. Instruction Mode: Lecture Grading Option: Letter

MATH 565a Ordinary Differential Equations
Units: 3 Terms Offered: Fa Existence, uniqueness and continuation of solutions, differential inequalities, linear systems, Sturm-Liouville theory, boundary value problems, Poincare-Bendixson theory, periodic solutions, perturbations, stability, fixed point techniques. *Prerequisite:* MATH 425ab. Instruction Mode: Lecture Grading Option: Letter

MATH 565b Ordinary Differential Equations
Units: 3 Terms Offered: Sp Existence, uniqueness and continuation of solutions, differential inequalities, linear systems, Sturm-Liouville theory, boundary value problems, Poincare-Bendixson theory, periodic solutions, perturbations, stability, fixed point techniques. *Prerequisite:* MATH 425a, MATH 425b. Instruction Mode: Lecture Grading Option: Letter

MATH 570a Methods of Applied Mathematics
Units: 3 Terms Offered: Fa Metric spaces, compactness, completion, fixed-point theorems, abstract spaces, linear operators, functionals, duality, conjugates, Lp spaces, Fourier transform. Applications from Engineering, Natural and Social sciences. *Recommended Preparation:* Linear Algebra and Calculus. Instruction Mode: Lecture Grading Option: Letter

MATH 570b Methods of Applied Mathematics
Units: 3 Terms Offered: Sp Measure theory, convergence, Lebesgue spaces, Riesz's theorem, Integration theorems, compact and self-adjoint operators, spectral theory, resolution of the identity, differential operators, quantum mechanics. Instruction Mode: Lecture Grading Option: Letter

MATH 572 Applied Algebraic Structures
Units: 3 Terms Offered: Fa Elementary predicate logic, model theory, axiomatic set theory; relations, functions, equivalences; algebraic and relational structures; graph theory; applications of lattices, Boolean algebras; groups, rings, field. Instruction Mode: Lecture Grading Option: Letter

MATH 574 Applied Matrix Analysis
Units: 3 Terms Offered: Fa Equivalence of matrices; Jordon canonical form; functions of matrices; diagonalization; singular value decomposition; applications to linear differential equations, stability theory, and Markov processes. Instruction Mode: Lecture Grading Option: Letter

MATH 576 Applied Complex Analysis and Integral Transforms
Units: 3 Terms Offered: Fa
Review of basic complex analysis; integral transforms of Laplace, Fourier, Mellin, and Hankel; applications to solutions of ordinary and partial differential equations; Wiener-Hopf technique. *Prerequisite:* MATH 475 or MATH 520. Instruction Mode: Lecture Grading Option: Letter

MATH 577a Computational Molecular Biology Laboratory
Units: 2 Terms Offered: Sp (Enroll in BISC 577a, BISC 577b)

MATH 577b Computational Molecular Biology Laboratory
Units: 2 Terms Offered: Fa (Enroll in BISC 577a, BISC 577b)

MATH 578a Computational Molecular Biology
Units: 3 Terms Offered: FaSp Applications of the mathematical, statistical and computational sciences to data from molecular biology. Algorithms for genomic sequence data: sequence and map assembly and alignment, RNA secondary structure, protein structure, gene-finding, and tree construction. *Prerequisite:* CSCI 570. *Recommended Preparation:* familiarity with the concepts of basic molecular biology as covered in BISC 320. Instruction Mode: Lecture Grading Option: Letter

MATH 578b Computational Molecular Biology
Units: 3 Terms Offered: FaSp Applications of the mathematical, statistical and computational sciences to data from molecular biology. Statistics for genomic sequence data: DNA sequence assembly, significance of alignment scores, hidden Markov models, genetic mapping, models of sequence evolution, and microarray analysis. *Prerequisite:* MATH 505a, MATH 541a. *Recommended Preparation:* familiarity with the concepts of basic molecular biology as covered in BISC 320. Instruction Mode: Lecture Grading Option: Letter

MATH 580 Introduction to Functional Analysis
Units: 3 Basic functional analysis in Banach and Hilbert spaces. Weak topologies, linear operators, spectral theory, calculus of vector-valued functions. Banach algebras. *Prerequisite:* MATH 525a, MATH 525b. Instruction Mode: Lecture Grading Option: Letter

MATH 585 Mathematical Theory of Optimal Control
Units: 3 Terms Offered: Fa Deterministic control: calculus of variations; optimal control; Pontryagin principle; multiplier rules and abstract nonlinear programming; existence and continuity of controls; problem of Mayer; dynamic programming. *Prerequisite:* MATH 570 and MATH 525a. Instruction Mode: Lecture Grading Option: Letter

MATH 590 Directed Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Terms Offered: FaSpSm Research leading to the master's degree. Maximum units which may be applied to the degree to be determined by the department. Instruction Mode: Lecture Grading Option: Credit/No Credit

MATH 592 Computational Molecular Biology Internship
Units: 3 Industrial or genome-centered internship for students in the Computational Molecular Biology master's program. Real-world experience in applications. Instruction Mode: Lecture Grading Option: Letter

MATH 594a Master's Thesis
Units: 2 Terms Offered: FaSpSm Credit on acceptance of thesis. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

MATH 594b Master's Thesis
Units: 2 Terms Offered: FaSpSm Credit on acceptance of thesis. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

MATH 594z Master's Thesis
Units: 0 Terms Offered: FaSpSm Credit on acceptance of thesis. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

MATH 595 Practicum in Teaching the Liberal Arts: Mathematics
Units: 2 Terms Offered: FaSp Practical principles for the long-term development of effective teaching within college disciplines. Intended for teaching assistants in Dornsife College. Instruction Mode: Lecture Grading Option: Credit/No Credit

MATH 596 Internship for Curricular Practical Training
Units: 1, 2, 3 Max Units: 03 Terms Offered: FaSpSm Part-time or full-time, practical work experience in the student's field of study. The internship must be located at an off-campus facility. Students are individually supervised by faculty. May not be taken until the student has completed at least one semester of enrollment in the graduate program with a cumulative 3.0 GPA. Registration Restriction: Open only to graduate students Instruction Mode: Lecture Grading Option: Credit/No Credit

MATH 599 Special Topics
Units: 2, 3, 4 Max Units: 8.0 Terms Offered: FaSpSm Course content will be selected each semester to reflect current trends and developments in the field of mathematics. Instruction Mode: Lecture Grading Option: Letter

MATH 600 Topics in Numerical Analysis
Units: 3 Max Units: 12.0 Instruction Mode: Lecture Grading Option: Letter

MATH 601 Optimization Theory and Techniques
Units: 3 Terms Offered: SpSm Necessary and sufficient conditions for existence of extrema with equality constraints; gradient methods; Ritz methods; eigenvalue problems; optimum control problems; inequality constraints; mathematical programming. *Prerequisite:* MATH 502a, MATH 502b. Instruction Mode: Lecture Grading Option: Letter

MATH 602 Galerkin Approximation Methods in Partial Differential Equations
Units: 3 Galerkin methods of approximating solutions of elliptic boundary value problems in one and several dimensions; includes the use of spline functions and triangularizations. Instruction Mode: Lecture Grading Option: Letter

MATH 605 Topics in Probability
Units: 3 Max Units: 12.0 Instruction Mode: Lecture Grading Option: Letter

MATH 606 Topics in Stochastic Processes
Units: 3 Max Units: 12.0 Terms Offered: FaSpSm Theoretic and applied topics of current interest in discrete and continuous time stochastic processes and in stochastic differential equations. *Recommended Preparation:* graduate level course in probability theory or stochastic processes.

Instruction Mode: Lecture Grading Option: Letter

MATH 610 Topics in Algebra
Units: 3 Max Units: 12.0 Instruction Mode: Lecture Grading Option: Letter

MATH 612 Topics in Commutative Ring Theory
Units: 3 Max Units: 12.0 Localization, structure of Noetherian rings, integral extensions, valuation theory, graded rings, characteristic functions, local algebra, dimension theory. *Prerequisite:* MATH 510a, MATH 510b. Instruction Mode: Lecture Grading Option: Letter

MATH 613 Topics in Representation Theory
Units: 3 Max Units: 12 Terms Offered: Irregular Structure and representation theory of various algebraic structures, such as groups, Lie algebras, Hopf algebras, algebraic groups, or group schemes. *Prerequisite:* MATH 510a and MATH 510b Instruction Mode: Lecture Grading Option: Letter

MATH 614 Topics in Algebraic Geometry
Units: 3 Max Units: 12 Terms Offered: Irregular Introduction to both classical and modern aspects of algebraic geometry. Topics include aspects of commutative algebra, algebraic curves, algebraic varieties and schemes, and sheaf cohomology. *Prerequisite:* (MATH 510a and MATH 510b) or (MATH 535a and MATH 540) *Recommended Preparation:* Familiarity with some ideas of commutative algebra and algebraic geometry Instruction Mode: Lecture Grading Option: Letter

MATH 620 Topics in Complex Analysis
Units: 3 Max Units: 12.0 Instruction Mode: Lecture Grading Option: Letter

MATH 625 Topics in Real Analysis
Units: 3 Max Units: 12.0 Instruction Mode: Lecture Grading Option: Letter

MATH 630 Topics in Number Theory
Units: 3 Max Units: 12.0 Instruction Mode: Lecture Grading Option: Letter

MATH 635 Topics in Differential Geometry
Units: 3 Max Units: 12.0 Topics to be chosen from the following: geometry of complex manifolds, relations between topology and curvature, homogeneous spaces, symmetric spaces, geometry of submanifolds. *Prerequisite:* MATH 535a, MATH 535b. Instruction Mode: Lecture Grading Option: Letter

MATH 641 Topics in Topology
Units: 3 Max Units: 12.0 Instruction Mode: Lecture Grading Option: Letter

MATH 647 Topics in Statistics
Units: 3 Max Units: 12 Terms Offered: Irregular Current methods, techniques, and results in statistics, data science and machine learning. Instruction Mode: Lecture Grading Option: Letter

MATH 655 Topics in Partial Differential Equations
Units: 3 Max Units: 12.0 Terms Offered: FaSpSm Topics to be chosen from the following: Elliptic, Parabolic, Hyperbolic, and Dispersive PDEs, Conservation Laws, Mathematical Fluid Dynamics and Variational Methods. *Prerequisite:* MATH 525a; *Recommended Preparation:* MATH 555a. Instruction Mode: Lecture Grading Option: Letter

MATH 665 Topics in Ordinary Differential Equations
Units: 3 Max Units: 12.0 Instruction Mode: Lecture Grading Option: Letter

MATH 680 Nonlinear Functional Analysis
Units: 3 Calculus in Banach spaces, degree theory, fixed point theorems. Study of compact, monotone, accretive and nonexpansive operators. *Prerequisite:* MATH 580. Instruction Mode: Lecture Grading Option: Letter

MATH 681 Selected Topics in Functional Analysis
Units: 3 Max Units: 12.0 Course content will vary with professor and academic year offered. It will include topics of current interest in both linear and nonlinear functional analysis and their applications. Instruction Mode: Lecture Grading Option: Letter

MATH 685 Topics in Mathematical Control Theory
Units: 3 Max Units: 12.0 Instruction Mode: Lecture Grading Option: Letter

MATH 689 Topics in Mathematical Physics
Units: 3 Max Units: 12.0 Instruction Mode: Lecture Grading Option: Letter

MATH 700 Seminar in Numerical Analysis
Units: 3 Instruction Mode: Lecture Grading Option: Letter

MATH 705 Seminar in Probability
Units: 3 Instruction Mode: Lecture Grading Option: Letter

MATH 710 Seminar in Algebra
Units: 3 Instruction Mode: Lecture Grading Option: Letter

MATH 725 Seminar in Analysis
Units: 3 Instruction Mode: Lecture Grading Option: Letter

MATH 730 Seminar in Number Theory
Units: 3 Instruction Mode: Lecture Grading Option: Letter

MATH 735 Seminar in Differential Geometry
Units: 3 Instruction Mode: Lecture Grading Option: Letter

MATH 740 Seminar in Topology
Units: 3 Instruction Mode: Lecture Grading Option: Letter

MATH 761 Seminar in Programming and Computability
Units: 3 Instruction Mode: Lecture Grading Option: Letter

MATH 765 Seminar in Ordinary Differential Equations
Units: 3 Instruction Mode: Lecture Grading Option: Letter

MATH 780 Seminar in Functional Analysis
Units: 3 Instruction Mode: Lecture Grading Option: Letter

MATH 790 Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Terms Offered: FaSpSm Research leading to the doctorate. Maximum units which may be applied to the degree to be determined by the department. Instruction Mode: Lecture Grading Option: Credit/No Credit

MATH 794a Doctoral Dissertation
Units: 2 Terms Offered: FaSpSm Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

MATH 794b Doctoral Dissertation
Units: 2 Terms Offered: FaSpSm Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

MATH 794c Doctoral Dissertation
Units: 2 Terms Offered: FaSpSm Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

MATH 794d Doctoral Dissertation
Units: 2 Terms Offered: FaSpSm Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

MATH 794z Doctoral Dissertation
Units: 0 Terms Offered: FaSpSm Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

Microbiology and Immunology

MBIO 310 Principles of Microbiology and Immunology
Units: 2 Fundamental concepts of microbiology and immunology. Bacterial, viral and fungal diseases are correlated with host responses; oral manifestations of infectious disease. Emphasis on sanitation and sterilization. Instruction Mode: Lecture Grading Option: Letter

MBIO 501 Immunology
Units: 2 Fundamentals of immunology; basic immunopathology, especially concerning the oral cavity, including immunogenetics; hypersensitivities and inflammation; auto-immune diseases. Instruction Mode: Lecture Grading Option: Letter

Medical Biophysics

MBPH 550 Seminar in Medical Biophysics
Units: 1 Max Units: 4 Terms Offered: FaSp Seminar course in which students make oral and written presentations based on original research, published journal articles, or research proposals. Instruction Mode: Lecture Grading Option: Letter

MBPH 590 Directed Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Terms Offered: FaSpSm Research leading to the master's degree. Maximum units which may be applied to the degree to be determined by the department. Instruction Mode: Lecture Grading Option: Credit/No Credit

MBPH 594a Master's Thesis
Units: 2 Terms Offered: FaSpSm Credit on acceptance of Thesis. Graded IP/CR/NC. Registration Restriction: Open only to Master Students Instruction Mode: Lecture Grading Option: In Progress/Credit/No Credit

MBPH 594b Master's Thesis
Units: 2 Terms Offered: FaSpSm Credit on acceptance of Thesis. Graded IP/CR/NC. *Prerequisite:* MBPH 594a Registration Restriction: Open only to Master Students

Instruction Mode: Lecture Grading Option: In Progress/Credit/No Credit

MBPH 594z Master's Thesis
Units: 0 Terms Offered: FaSpSm Credit on acceptance of Thesis. Graded IP/CR/NC. *Prerequisite:* MBPH 594b Registration Restriction: Open only to Master Students Instruction Mode: Lecture Grading Option: In Progress/Credit/No Credit

MBPH 596 Internship for Curricular Practical Training
Units: 1, 2, 3 Max Units: 03 Terms Offered: FaSpSm Part-time or full-time, practical work experience in the student's field of study. The internship must be located at an off-campus facility. Students are individually supervised by faculty. May not be taken until the student has completed at least one semester of enrollment in the graduate program. Instruction Mode: Lecture Grading Option: Credit/No Credit

MBPH 790 Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Max Units: 12 Terms Offered: FaSpSm Research leading to the doctorate. Maximum units which may be applied to the degree to be determined by the department. Registration Restriction: Open only to doctoral students Instruction Mode: Lecture Grading Option: Credit/No Credit

MBPH 794a Doctoral Dissertation
Units: 2 Terms Offered: FaSpSm Credit on acceptance of dissertation. Registration Restriction: Open only to doctoral students Instruction Mode: Lecture Grading Option: In Progress/Credit/No Credit

MBPH 794b Doctoral Dissertation
Units: 2 Terms Offered: FaSpSm Credit on acceptance of dissertation. *Prerequisite:* MBPH 794a Registration Restriction: Open only to doctoral students Instruction Mode: Lecture Grading Option: In Progress/Credit/No Credit

MBPH 794c Doctoral Disseration
Units: 2 Terms Offered: FaSpSm Credit on acceptance of dissertation. *Prerequisite:* MBPH 794b Registration Restriction: Open only to doctoral students Instruction Mode: Lecture Grading Option: In Progress/Credit/No Credit

MBPH 794d Doctoral Dissertation
Units: 2 Terms Offered: FaSpSm Credit on acceptance of dissertation. Registration Restriction: Open only to doctoral students Instruction Mode: Lecture Grading Option: In Progress/Credit/No Credit

MBPH 794z Doctoral Dissertation
Units: 0 Terms Offered: FaSpSm Credit on acceptance of dissertation. *Prerequisite:* MBPH 794d Registration Restriction: Open only to doctoral students Instruction Mode: Lecture Grading Option: In Progress/Credit/No Credit

Multidisciplinary Activities

MDA 020 American Popular Culture
Units: 0 Terms Offered: Sm Introduction to the popular culture of the United States, including basic history, geography, literature and the arts, as understood by generally well-educated young Americans. Instruction Mode: Lecture Grading Option: Credit/No Credit

MDA 100a Introduction to the Health Professions
Units: 1 Terms Offered: FaSp An introduction to the health professions, through lectures, discussions, clinical experiences, and visits to health care delivery sites; relationships with other clinicians and the community. Departmental approval required. Instruction Mode: Lecture Grading Option: Credit/No Credit

MDA 100b Introduction to the Health Professions
Units: 1 Terms Offered: FaSp An introduction to the health professions, through lectures, discussions, clinical experiences, and visits to health care delivery sites; relationships with other clinicians and the community. Departmental approval required. Instruction Mode: Lecture Grading Option: Credit/No Credit

MDA 100c Introduction to the Health Professions
Units: 1 Terms Offered: FaSp An introduction to the health professions, through lectures, discussions, clinical experiences, and visits to health care delivery sites; relationships with other clinicians and the community. Departmental approval required. Instruction Mode: Lecture Grading Option: Credit/No Credit

MDA 100d Introduction to the Health Professions
Units: 1 Terms Offered: FaSp An introduction to the health professions, through lectures, discussions, clinical experiences, and visits to health care delivery sites; relationships with other clinicians and the community. Departmental approval required. Instruction Mode: Lecture Grading Option: Credit/No Credit

MDA 101x Health Professions: Prospects and Preparation
Units: 1 Terms Offered: Sp Presentations by health professionals, introduced by faculty members from relevant academic units and followed by discussion with the speakers. *Recommended Preparation:* BISC 120 or BISC 220; CHEM 150aL. Instruction Mode: Lecture Grading Option: Credit/No Credit

MDA 105g Cultural Forms and Values I
Units: 4 Terms Offered: FaSp Norms and patterns of civilizations associated with the Greco-Roman and European traditions and the legacy of those traditions in North America. Satisfies Old General Education in Category I: Western Cultures and Traditions Instruction Mode: Lecture Grading Option: Letter

MDA 120 American Popular Culture
Units: 3 Terms Offered: Sm Introduction to the popular culture of the United States, including basic history, geography, literature and the arts, as understood by generally well-educated young Americans. Instruction Mode: Lecture Grading Option: Credit/No Credit

MDA 125Lg Scientific Principles
Units: 4 Terms Offered: FaSp Fundamental principles underlying a body of scientific knowledge and their evolution; the nature of scientific inquiry; how scientific knowledge is obtained and evaluated. A field experience or practical component required. Satisfies Old General Education in Category III: Scientific Inquiry Instruction Mode: Lecture, Lab Required Grading Option: Letter

MDA 140 Practicum in Multimedia Authorship
Units: 2 Terms Offered: FaSp Introduction to the expressive potential of multimedia as a critical and creative tool, supplementing traditional forms of academic work. Instruction Mode: Lecture Grading Option: Credit/No Credit

MDA 155g Cultural Forms and Values II
Units: 4 Terms Offered: FaSp Cultural norms and patterns of civilizations associated with Africa, Asia, Latin America, the Middle East, Native America, and elsewhere, alternative to those of the Greco-Roman and European traditions. Satisfies Old General Education in Category II: Global Cultures and Traditions Instruction Mode: Lecture Grading Option: Letter

MDA 165g Social Inquiry
Units: 4 Terms Offered: FaSp Analyses of compelling local, national, and/or international issues; analytical tools examined systematically in a broad range of social phenomena. Satisfies Old General Education in Category VI: Social Issues Instruction Mode: Lecture, Discussion, Lab Grading Option: Letter

MDA 167g Marginal Groups in America
Units: 4 Terms Offered: Fa Sociological and historical analysis of marginal populations in American society, including racial and ethnic minorities, teenage mothers, drug abusers, criminals, and the mentally ill. Satisfies Old General Education in Category VI: Social Issues Instruction Mode: Lecture, Discussion Grading Option: Letter

MDA 170g La Frontera: The U.S.-Mexico Borderlands
Units: 4 Provides student with a multidisciplinary understanding of the U.S./Mexico border region. Topics to be covered include: space and place, internationalization, physical environment, gender relations and culture. Satisfies Old General Education in Category VI: Social Issues Instruction Mode: Lecture, Discussion Grading Option: Letter

MDA 175Lg Science and Technology
Units: 4 Terms Offered: FaSp The nature of science and technology, based on a focused study of a single area of research; scientific principles, their technological applications, and social significance. Satisfies Old General Education in Category IV: Science and Its Significance Instruction Mode: Lecture, Lab Required Grading Option: Letter

MDA 200Lg The Cutting Edge: From Basic Science to the Marketplace
Units: 4 Terms Offered: Sp An introduction to the basic sciences of physics, chemistry, biology, and geology, examining the fundamental concepts, experimental approaches, and technological applications. Course will show the interrelationships among the fields and societal ramifications of these cutting edge technologies. Satisfies Old General Education in Category IV: Science and Its Significance Duplicates Credit in MDA 125. Instruction Mode: Lecture, Lab Required Grading Option: Letter

MDA 205g Cities and Civilization
Units: 4 Terms Offered: FaSp Origins of cities, patterns of migration and resettlement, civic identities and the invention of public culture, from ancient Rome to contemporary Los Angeles.

Satisfies Old General Education in Category I: Western Cultures and Traditions Instruction Mode: Lecture Grading Option: Letter

MDA 210 Contemporary Issues and Cases in Health Care
Units: 2 Terms Offered: FaSp An introduction to the major areas of health care; the provider's relationship to choices in professional practice; ethics and historical context. *Corequisite:* BISC 220Lg Duplicates Credit in MDA 100a, MDA 100b, MDA 100c, MDA 100d and former MDA 110 Instruction Mode: Lecture Grading Option: Credit/No Credit

MDA 250 Internship for Liberal Arts: Work and Career — Theory and Practice
Units: 1, 2 Max Units: 4.0 Terms Offered: FaSpSm Students explore different understandings of work and career in American society while testing theories in an actual work setting. Instruction Mode: Lecture Grading Option: Letter

MDA 260 Opportunities in the Global Marketplace
Units: 2, 3, 4 Max Units: 4.0 Terms Offered: FaSp Professional opportunities in a changing global system, preparing the successor generation for participation in the public, private, and citizen sectors of our global society. Instruction Mode: Lecture Grading Option: Credit/No Credit

MDA 300 The Dornsife Toolkit
Units: 2 Max Units: 08 Terms Offered: FaSpSm An opportunity to acquire an intellectual skill in a small group setting. Registration Restriction: Open to all undergraduates, though Dornsife majors and minors will have priority during the registration period Credit Restriction: Not for major credit Instruction Mode: Lecture Grading Option: Credit/No Credit

MDA 305 Translation Principles and Skills
Units: 2 Max Units: 04 Terms Offered: FaSpSm Introduces students to basic principles and skills professional translators utilize to inform their decisions; familiarizes students with the translation industry, software and jobs. Five semesters of foreign language study or equivalent are required for enrollment. *Recommended Preparation:* Five semesters of foreign language study or equivalent Instruction Mode: Lecture Grading Option: Letter

MDA 320 Global Ethics: Poverty, Health and the Human Condition
Units: 4 Terms Offered: FaSp Ethical challenges and moral obligations of the public and private sectors in global development, access to healthcare, and promotion of civil, political, and economic rights. Instruction Mode: Lecture, Discussion Grading Option: Letter

MDA 325 Case Studies in Modern Leadership
Units: 2 or 4 Max Units: 6.0 Terms Offered: FaSp Study of a single leader or small set of leaders, including the strengths and weaknesses that distinguish them and the cultural forces that nurture them. Instruction Mode: Lecture Grading Option: Letter Crosslisted as POSC-326

MDA 330 The Armenian Heritage: History, Arts, and Culture
Units: 4 Terms Offered: FaSp A multidisciplinary exploration of the Armenian cultural heritage through the ages — folklore, traditions, religious practices, literature, architecture, painting, sculpture, music, theatre, film and dance. Instruction Mode: Lecture Grading Option: Letter

MDA 333 Colloquium in Armenian Studies: Social and Cultural Issues
Units: 2 Max Units: 4.0 Terms Offered: FaSpSm Analysis of political, social, and cultural issues by the instructor and visiting lecturers with expertise in specific areas of the Armenian Republic and Diaspora community. Instruction Mode: Lecture Grading Option: Letter

MDA 365 The Art and Adventure of Leadership
Units: 4 Terms Offered: Sp Areas of knowledge and kinds of competencies that are fundamental to the study and practice of leadership in a variety of settings. Instruction Mode: Lecture Grading Option: Letter

MDA 399a Team Research Communities
Units: 4 Terms Offered: FaSp Cross-disciplinary inquiry in the liberal arts. Research methodologies. Instruction Mode: Lecture Grading Option: Letter

MDA 399b Team Research Communities
Units: 4 Terms Offered: FaSp Cross-disciplinary inquiry in the liberal arts. Individual student and group projects contributing to the team's collaborative report. Instruction Mode: Lecture Grading Option: Letter

MDA 423 User Experience
Units: 4 Terms Offered: FaSp Introduction to the field of user experience (UX), with a specific focus on theoretical foundations, research methodology and principles of design. Instruction Mode: Lecture Grading Option: Letter Crosslisted as PSYC 423

MDA 450 Individual Program of Study
Units: 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18 Max Units: 18.0 Terms Offered: FaSpSm An individual educational project approved by a faculty committee, combining directed research with internships, service learning, artistic or literary production, and/or other relevant educational activities. Registration Restriction: Open only to sophomore, junior or senior standing. Instruction Mode: Lecture Grading Option: Letter

MDA 460 Collaborative Learning Project
Units: 4, 5, 6, 7, 8 Max Units: 8.0 Terms Offered: FaSpSm A project approved by a faculty committee, requiring students to collaborate on research or an original work in the literary, plastic, or performing arts. Registration Restriction: Open only to sophomore, junior or senior standing. Instruction Mode: Lecture Grading Option: Credit/No Credit

MDA 475 The Future of California
Units: 4 Challenges facing California; options for governmental and constitutional reform; opportunities for economic growth; demographic and cultural changes; education, environment, and other policy issues. *Recommended Preparation:* junior or senior standing. Instruction Mode: Lecture Grading Option: Letter Crosslisted as POSC-475, PPD-475

MDA 476 Policy Research on California
Units: 4 Terms Offered: Sp Research and proposed solutions concerning problems, policies, structural and constitutional challenges facing California. Open only to upper-division and master's students. *Prerequisite:* MDA 475. Registration Restriction: Open only to upper division and masters students. Instruction Mode: Lecture, Discussion Grading Option: Letter

MDA 490x Directed Research
Units: 1, 2, 3, 4, 5, 6, 7, 8 Max Units: 8.0 Terms Offered: FaSpSm Individual research, reading, writing and project development. Instruction Mode: Lecture Grading Option: Letter

MDA 494 Directed Creative Project
Units: 2, 3, 4 Max Units: 4.0 Terms Offered: FaSpSm Individual research, reading, writing and project development, guided by a faculty member with expertise in the area, who may be tenure-track or nontenure-track. Instruction Mode: Lecture Grading Option: Letter

MDA 495 Interdisciplinary Honors Seminar
Units: 2, 3, 4 Max Units: 4.0 Terms Offered: Fa The first part of an eight-unit sequence intended to award academic honors in a thematic area comparable to departmental honors in a single discipline. Instruction Mode: Lecture Grading Option: Letter

MDA 496 Interdisciplinary Honors Thesis
Units: 4 Terms Offered: Sp The second part of an eight-unit sequence intended to award academic honors in a thematic area comparable to departmental honors in a single discipline. *Prerequisite:* MDA 495. Instruction Mode: Lecture Grading Option: Letter

MDA 499 Special Topics
Units: 1, 2, 3, 4, 5, 6, 7, 8 Max Units: 8.0 Selected topics in Multidisciplinary Activities. Instruction Mode: Lecture Grading Option: Letter

MDA 501 Introduction to Visual Studies: Methods and Debates
Units: 4 A critical introduction to the field of visual studies focusing on interdisciplinary approaches to images, objects, and visual technologies as well as key texts and interpretive debates. Students must be enrolled in a PhD program at USC. Instruction Mode: Lecture Grading Option: Letter

MDA 593 Practicum in Teaching the Liberal Arts
Units: 2 Terms Offered: FaSp Practical principles for the long-term development of effective teaching within college disciplines. Intended for teaching assistants in Dornsife College. Instruction Mode: Lecture Grading Option: Credit/No Credit

MDA 599 Special Topics
Units: 2, 3, 4 Max Units: 8.0 Terms Offered: Fa The multidisciplinary, team-taught seminar addresses issues at the intersection of literary, visual, and material culture. The faculty team and specific topics studied will change each time the course is offered. Instruction Mode: Lecture Grading Option: Letter

Medical Education

MDED 501 Narrative Medicine I: Witnessing, Listening, Reflecting
Units: 4 Terms Offered: Fa Introduction to Narrative Medicine and history of

health humanities; examine theories of narrative, trauma, witnessing, identity as related to health care and the clinical encounter. Registration Restriction: Open only to graduate and professional students Instruction Mode: Lecture Grading Option: Letter

MDED 502 Narrative Medicine II: Methods and Pedagogy
Units: 6 Terms Offered: Sp Advanced study in Narrative Medicine; study current methods and best practices for designing and evaluating narrative medicine workshops; includes teacher training, practicum and advisement. *Prerequisite:* MDED 501 Registration Restriction: Open only to graduate and professional students Instruction Mode: Lecture Grading Option: Letter

MDED 503 Creative Writing and Its Applications in Narrative Medicine
Units: 4 Terms Offered: FaSp Introduction to creative writing in the clinical setting; study of nonfiction/journalism, memoir, fiction and poetry; work toward a creative project that incorporates narrative medicine methods. Registration Restriction: Open only to graduate and professional students Instruction Mode: Lecture Grading Option: Letter

MDED 504 Research Methods in Narrative Medicine
Units: 4 Terms Offered: FaSp Explore philosophical underpinnings of qualitative research and its use in health research; develop specific methodologies for data collection and assessment in Narrative Medicine. Registration Restriction: Open only to graduate and professional students Instruction Mode: Lecture Grading Option: Letter

MDED 505 Intersubjectivity: Lived Bodies/Relational Selves
Units: 4 Terms Offered: FaSp Introduction to philosophical, anthropological and sociological considerations of intersubjectivity and experience; narrative approaches to intersubjectivity and relational self-making focusing, especially on clinical encounters. Registration Restriction: Open only to graduate and professional students Instruction Mode: Lecture Grading Option: Letter

MDED 510 Narrative Ethics: Illness, Disability, Equity and Community
Units: 4 Terms Offered: FaSp Examine the relationship between illness and disability narratives and their familial, social and institutional contexts; develop skills in interviewing, close reading and writing toward publication. Registration Restriction: Open only to graduate and professional students Instruction Mode: Lecture Grading Option: Letter

MDED 511 Immigrants, Illness and Narrative Medicine
Units: 4 Terms Offered: FaSp Apply narrative medicine methods to the study of fictional and non-fictional illness narratives from the immigrant perspective in the United States. *Recommended Preparation:* MDED 501 or MDED 510 Registration Restriction: Open only to graduate and professional students Instruction Mode: Lecture Grading Option: Letter

MDED 512 Health Justice
Units: 4 Terms Offered: FaSp Use historical and social scientific data and analysis to examine the conjuncture between race and racism in medicine as an institution, clinical practice, body of knowledge and stakeholder in efforts for equitable healthcare practices, policies and professional formation. Registration Restriction: Open only to seniors and graduate students Instruction Mode: Lecture Grading Option: Letter

MDED 590 Directed Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Terms Offered: Sp Research leading to the master's degree. Maximum units which may be applied to the degree to be determined by the department. Graded CR/NC. Registration Restriction: Open only to master students in Narrative Medicine Instruction Mode: Lecture Grading Option: Credit/No Credit

MDED 593 Narrative Medicine Capstone
Units: 2 Terms Offered: Sp A summative experience such as a thesis, a clinical practicum or a capstone project; regular meetings with an adviser and a final presentation are required for successful completion. Registration Restriction: Open only to Keck master students in Narrative Medicine Instruction Mode: Lecture Grading Option: Letter

Middle East Studies

MDES 180g The Middle East
Units: 4 Terms Offered: FaSpSm (Enroll in HIST 180)

MDES 201w The Middle East: Global and Environmental Perspectives
Units: 4 Terms Offered: FaSp Introduction to the natural and cultural diversity of the Middle East through the prism of globalization and sustainability. Satisfies Global Perspective in Category G: Citizenship in a Diverse World Instruction Mode: Lecture Grading Option: Letter

MDES 301g The Global Middle East
Units: 4 Terms Offered: FaSp Explores the modern Middle East by focusing on the process of globalization. Satisfies New General Education in Category C: Social Analysis Instruction Mode: Lecture Grading Option: Letter

MDES 312 Medieval Iran: Society and Culture
Units: 4 Terms Offered: FaSp Political and dynastic history of Iran from the Arab conquest in the 7th to the 18th century. Instruction Mode: Lecture Grading Option: Letter Crosslisted as HIST 310

MDES 313 Modern Iran
Units: 4 Terms Offered: FaSp History and culture of modern Iran from the nineteenth century to present through historical and ethnographic approaches to Iran today, richly contextualizing events and people. Instruction Mode: Lecture Grading Option: Letter Crosslisted as HIST 389

MDES 314p Political Thought in the Middle East
Units: 4 Terms Offered: FaSp Major strands of Islamic political thought from early Islam through the classical Islamic period to contemporary developments and transformations. Satisfies Global Perspective in Category H: Traditions and Historical Foundations Instruction Mode: Lecture Grading Option: Letter

MDES 316p The Great Muslim Empires of the Near East and India
Units: 4 Explores the social, political, and religious forces that helped shape the Ottoman, Safavid, and the Mughal empires, their intellectual trends, and cultural dynamism. Satisfies Global Perspective in Category H: Traditions and Historical Foundations Instruction Mode: Lecture Grading Option: Letter Crosslisted as HIST 394

MDES 324 Classical Persian Literature in Translation
Units: 4 Terms Offered: FaSp Introduction to literary culture of premodern Persia, from about 800–1800 AD. Emphasis on poetry, the most extensive, prestigious, and influential medium of Persian literature. Instruction Mode: Lecture Grading Option: Letter

MDES 325g Politics of Film and Literature in Modern Iran
Units: 4 Terms Offered: FaSp Explores contemporary Iranian society through the study of social tensions created by poverty-wealth, tradition-modernity, masculinity-femininity, and notions of religio-political authority as reflected in the literature and films of the country. Satisfies New General Education in Category B: Humanistic Inquiry Instruction Mode: Lecture Grading Option: Letter

MDES 335 Nation and State in Modern Turkey
Units: 4 Terms Offered: FaSp An examination of nation-state building in modern Turkey through a juxtaposition of academic works from history, anthropology, sociology, political science, and literary criticism. Instruction Mode: Lecture Grading Option: Letter

MDES 340 The United States and the Middle East
Units: 4 Terms Offered: FaSp Critical perspectives on U.S. relations with the Middle East, including the discourses surrounding democracy and globalization. Instruction Mode: Lecture Grading Option: Letter Crosslisted as IR 359

MDES 342g Arab Intellectuals in Question
Units: 4 Terms Offered: FaSp Surveys prominent debates in the Arab world, examining how media and intellectual production reflect, shape, and/or contest prevailing ideas and practices in the public sphere. Satisfies New General Education in Category C: Social Analysis Instruction Mode: Lecture Grading Option: Letter

MDES 343g Modern Arab Culture and Literature
Units: 4 Examines contemporary Arab state-society relations using literature to illustrate how people construct meanings and portray issues of national, social, and cultural significance. Satisfies New General Education in Category B: Humanistic Inquiry Instruction Mode: Lecture Grading Option: Letter Crosslisted as COLT 347

MDES 345p Power and Authority in the Middle East
Units: 4 Terms Offered: FaSp A comparative examination of social relations of power and institutions with a special focus on intellectual traditions, the law, and social movements. Satisfies Global Perspective in Category H: Traditions and Historical

Foundations Instruction Mode: Lecture Grading Option: Letter Crosslisted as IR 350

MDES 349gp Ancient Empires
Units: 4 Terms Offered: FaSpSm (Enroll in CLAS 349gp)

MDES 362 The International Relations of the Contemporary Middle East
Units: 4 Terms Offered: Fa (Enroll in IR 362)

MDES 363 Middle East Political Economy
Units: 4 Terms Offered: Sp (Enroll in IR 363)

MDES 375 Politics and Society in the Contemporary Middle East
Units: 4 Terms Offered: FaSp Examination of a relevant and timely issue in Middle East Studies. Instruction Mode: Lecture Grading Option: Letter

MDES 378 Ptolemaic Egypt
Units: 4 Terms Offered: FaSp (Enroll in CLAS 378)

MDES 382 The Middle East, 500–1500
Units: 4 (Enroll in HIST 382)

MDES 383 The Modern Middle East
Units: 4 Terms Offered: Sp (Enroll in HIST 383)

MDES 384 Popular Culture in the Middle East
Units: 4 Terms Offered: FaSpSm (Enroll in HIST 384)

MDES 394 Archaeology of Egypt and the Near East
Units: 4 (Enroll in REL 394)

MDES 401 Environment and Politics in the Middle East
Units: 4 Terms Offered: FaSp Introduction to key environmental and political challenges facing the contemporary Middle East and North Africa (MENA). Instruction Mode: Lecture Grading Option: Letter Crosslisted as IR 409, ANTH 401

MDES 402 Cultural Heritage, Religion, and Politics in the Middle East
Units: 4 Terms Offered: Fa (Enroll in REL 402)

MDES 403 Technology, Development and Power in the Middle East
Units: 4 Terms Offered: FaSp Sheds light on the technical and social practices through which infrastructures are constructed, used and maintained in the Middle East. Instruction Mode: Lecture Grading Option: Letter

MDES 437 Arabic Autobiography: Writing and Interpreting the Self
Units: 4 Terms Offered: FaSpSm (Enroll in COLT 437)

MDES 441w Cities of the Middle East
Units: 4 Terms Offered: FaSp An examination of the economic, political and cultural forces operating in a number of Middle Eastern cities. Satisfies Global Perspective in Category G: Citizenship in a Diverse World Instruction Mode: Lecture Grading Option: Letter Crosslisted as ANTH 441, IR 447

MDES 447 Traveling Genres: Politics/ Poetics of Modern Arabic Prose
Units: 4 Terms Offered: FaSpSm (Enroll in COLT 447)

MDES 448m France and Islam
Units: 4 Terms Offered: FaSp (Enroll in FREN 448)

MDES 454 Classical Arabic
Units: 4 Max Units: 20 Terms Offered: FaSp Introduction to reading and interpretation of pre-modern, classical Arabic, including literature from the 6th to 19th centuries. *Prerequisite:* ARAB 252 or MDES 252 Instruction Mode: Lecture Grading Option: Letter

MDES 463 Islam and Arab Nationalism
Units: 4 (Enroll in IR 463)

MDES 475 Seminar in Middle East Studies
Units: 4 Terms Offered: FaSp Major theoretical and methodological currents and approaches to the study of the Middle East through a close reading of important recent contributions. Instruction Mode: Lecture Grading Option: Letter

MDES 480 Seminar in Middle East History
Units: 4 Max Units: max 8 (Enroll in HIST 480)

MDES 490x Directed Research
Units: 1, 2, 3, 4, 5, 6, 7, 8 Max Units: 12.0 Terms Offered: FaSpSm Individual research and readings. Instruction Mode: Lecture Grading Option: Letter

MDES 492 Honors Thesis
Units: 4 Writing of the honors thesis; for students in the Middle East Studies Honors Program. Instruction Mode: Lecture Grading Option: Letter

MDES 499 Special Topics
Units: 2, 3, 4 Max Units: 8.0 Terms Offered: FaSpSm Selected topics in Middle East studies. Instruction Mode: Lecture Grading Option: Letter

Medical Biology

MEDB 790 Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Terms Offered: FaSpSm Research leading to the doctorate. Maximum units which may be applied to the degree to be determined by the department. Registration Restriction: Open only to doctoral students. Instruction Mode: Lecture Grading Option: Credit/No Credit

MEDB 794a Doctoral Dissertation
Units: 2 Terms Offered: FaSpSm Credit on acceptance of dissertation. Registration Restriction: Open only to doctoral students. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

MEDB 794b Doctoral Dissertation
Units: 2 Terms Offered: FaSpSm Credit on acceptance of dissertation. Registration Restriction: Open only to doctoral students. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

MEDB 794c Doctoral Dissertation
Units: 2 Terms Offered: FaSpSm Credit on acceptance of dissertation. Registration Restriction: Open only to doctoral students. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

MEDB 794d Doctoral Dissertation
Units: 2 Terms Offered: FaSpSm Credit on acceptance of dissertation. Registration Restriction: Open only to doctoral students. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

MEDB 794z Doctoral Dissertation
Units: 0 Terms Offered: FaSpSm Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

Medical Sciences (200–400)

MEDS 220 Healthcare Foundations: Core Concepts and Terminology
Units: 2 Terms Offered: FaSpSm Introduction to and discussion on clinically relevant topics such as social determinants of health, medical ethics and legal and regulatory aspects, in preparation for experience in the clinical setting. Instruction Mode: Lecture Grading Option: Letter

MEDS 225 Introduction to Professionalism and the Practice of Medicine
Units: 2 Terms Offered: FaSp An introduction to professionalism and skills required in the practice of medicine and careers in health care. Instruction Mode: Lecture Grading Option: Letter

MEDS 250 Introduction to Healthcare Innovation
Units: 4 Terms Offered: FaSp (Enroll in ACAD 260)

MEDS 260 Challenges in the Forefront of Biomedical Ethics
Units: 2 Terms Offered: Sp Examination of fundamental ethical concepts and principles in clinical health care and biomedical research. Use of film, case studies and discussion. *Recommended Preparation:* MDA 110 or MEDS 220. Instruction Mode: Lecture Grading Option: Letter

MEDS 261 Human Health and Technology
Units: 4 Max Units: FaSp (Enroll in ACAD 261)

MEDS 280 The History of Medicine: a Doctor's Perspective
Units: 2 Terms Offered: Fa Explores the role of medicine/surgery in society, whose ideas about health and disease have undergone enormous changes from antiquity to the present day. Instruction Mode: Lecture Grading Option: Letter

MEDS 300g Statistical Methods for Biomedical Research
Units: 4 Terms Offered: Fa Fundamental basis for various statistical tests, underlying assumptions, and statistical analyses used in biomedical and clinical research. Satisfies New General Education in Category F: Quantitative Reasoning Instruction Mode: Lecture Grading Option: Letter

MEDS 315 Human Anatomy, Physiology, and the Technology of Medicine
Units: 2 Introduction to human anatomy and physiology in relation to common disease processes, and an examination of how technology has transformed western medicine throughout history. *Prerequisite:* BISC 220Lg or BISC 221Lg Instruction Mode: Lecture Grading Option: Letter

MEDS 320 Human Cadaveric Anatomy
Units: 4 Terms Offered: FaSp Anatomical structure and function of the major regions of the human body as related to health and disease, using clinical cases, lectures and cadaveric demonstrations. *Prerequisite:* BISC 220 or BISC 221. Instruction Mode: Lecture Grading Option: Letter

MEDS 330 Bionics: Solutions to Enable the Disabled
Units: 2 Terms Offered: FaSp Focused

examination of medical bionics with emphasis on solutions that enable the disabled and detailed discussions and evaluations of the social and technological aspects of bionic medical devices. Instruction Mode: Lecture Grading Option: Letter

MEDS 335 Human Development: From Stem to Sternum
Units: 2 Terms Offered: Fa An introduction to transformation of a single cell into a mature organism. *Prerequisite:* BISC 220 or BISC 221. *Recommended Preparation:* BISC 320. Instruction Mode: Lecture Grading Option: Letter

MEDS 340 The Brain in Health and Disease
Units: 4 Terms Offered: FaSp Study of the human brain through the lens of disease using illustrative case studies, current imaging techniques and potential future treatment for neurological conditions such as Alzheimer's disease. *Prerequisite:* (BISC 220Lg or BISC 221Lg) and CHEM 103Lgx or CHEM 105aLg or CHEM 115aLg Instruction Mode: Lecture Grading Option: Letter

MEDS 350 Neurochemistry of Addiction: Drugs, Brain, and Behavior
Units: 2 Terms Offered: FaSp The neurochemistry of psychiatric illness and addiction, introduction to brain and nervous system biochemistry, anatomy and disease states. Covers prescribed medications and drugs of abuse. *Prerequisite:* (BISC 220Lg or BISC 221Lg) and (CHEM 103Lgx or CHEM 105aLg or CHEM 115aLg) *Recommended Preparation:* BISC 320L or BISC 330L and MEDS 330 Instruction Mode: Lecture Grading Option: Letter

MEDS 355 Skeletal Biology and Pathology: No Bones About It
Units: 2 Terms Offered: FaSp Overview of the cellular make-up of the human skeleton, the functions of bones, clinical application of this knowledge towards bone-related diseases, and introduction to technological advances in orthopedic surgery. *Prerequisite:* BISC 220Lg or BISC 221Lg Instruction Mode: Lecture Grading Option: Letter

MEDS 360 Bench to Bedside: Application of the Basic Sciences
Units: 2 Terms Offered: Fa A theoretical basis of laboratory approaches that help the biomedical or physician scientist in understanding the etiology of disease and targeting disease processes. *Prerequisite:* (BISC 220Lg or BISC 221Lg) and (CHEM 103Lgx or CHEM 105aLg or CHEM 115aLg) Instruction Mode: Lecture Grading Option: Letter

MEDS 362 Analytics for Health Innovators
Units: 4 Terms Offered: FaSp (Enroll in ACAD 362)

MEDS 370 Organ Failure: Non-Communicable Chronic Disease
Units: 2 Terms Offered: FaSp An examination of frequently treated diseases with the greatest impact on society. Involvement of medical specialists as guests. *Prerequisite:* BISC 220Lg or BISC 221Lg Instruction Mode: Lecture Grading Option: Letter

MEDS 380 Stem Cells: Fact and Fiction
Units: 2 Terms Offered: Sp Exploring how stem cells and regenerative medicine are portrayed in culture, the scientific underpinnings of what is currently possible, and visions into the future. *Prerequisite:* BISC 220 or BISC 221. Instruction Mode: Lecture Grading Option: Letter

MEDS 390 Special Problems
Units: 1, 1.5, 2, 2.5, 3, 3.5, 4 Max Units: 4 Supervised, individual studies. No more than one registration permitted. Enrollment by petition only. Instruction Mode: Lecture Grading Option: Letter

MEDS 405 Health Care Systems: A Doctor's Perspective
Units: 2 Terms Offered: FaSp An examination of the health care system of the United States, from the perspective of the physician and other health professions. Particularly covers health care systems as a workplace and how medical professionals fit into and operate within it. *Recommended Preparation:* MEDS 280 Instruction Mode: Lecture Grading Option: Letter

MEDS 420 Clinical Pediatrics
Units: 2 Terms Offered: Sp Explores enduring and fascinating topics in Pediatrics through a modern lens, incorporating first hand patient-care experiences in clinics and hospitals, and didactic case-based discussions. *Prerequisite:* BISC 220Lg or BISC BISC 221Lg and MEDS 220Lg Instruction Mode: Lecture Grading Option: Letter

MEDS 425 Medical Examiner-Coroner: Investigating Death
Units: 2 Terms Offered: Fa Emphasizes the team-based approach used by forensic scientists, medical examiners and coroners to investigate the circumstances and determine the cause/manner of death. *Prerequisite:* BISC 220 or BISC 221; and MEDS 220 Registration Restriction: Open only to sophomores, juniors, and seniors Instruction Mode: Lecture Grading Option: Letter

MEDS 440 Introduction to Surgical Principles
Units: 2 Terms Offered: Sp Introduction to the spectrum of surgical care, taught by surgeons, with the goal of developing an appreciation of the role that surgery plays in society. *Prerequisite:* BISC 220 or BISC 221; and CHEM 103 or CHEM 105a or CHEM 115a; and MEDS 220. Registration Restriction: Open only to juniors and seniors. Instruction Mode: Lecture Grading Option: Letter

MEDS 445 Cancer: Introduction to Oncology in the Modern Era
Units: 2 Terms Offered: Fa Introduction to the spectrum of clinical and scientific issues surrounding contemporary cancer care; molecular diagnostics, genomic medicine, modern therapeutics and community/patient engagement. *Prerequisite:* (BISC 220Lg or BISC 221Lg) and MEDS 220 Instruction Mode: Lecture Grading Option: Letter

MEDS 450 OB/GYN: The Medicine and Surgery of Reproduction
Units: 2 Terms Offered: Fa An introduction to the practical realities of modern obstetric and gynecology practice from the point of view of practicing surgeon scientists at USC. *Prerequisite:* BISC 220 or BISC 221; and MEDS 220. Instruction Mode: Lecture Grading Option: Letter

MEDS 455 Integrative Health Care
Units: 2 Terms Offered: FaSp Introduction to integrative health care; a holistic approach to medicine combining conventional medical therapies with evidence-informed complementary alternative medicine. *Recommended Preparation:* HP 450, MEDS 220 Instruction Mode: Lecture Grading Option: Letter

MEDS 460 Emergency Health Care
Units: 2 Terms Offered: FaSp Principles of emergency medical services, ranging from prehospital care and advanced life-saving, to minor injuries and illnesses. Interactive experience with ER physicians/emergency health care providers. *Prerequisite:* BISC 220 or BISC 221; and MEDS 220. *Recommended Preparation:* MEDS 260. Instruction Mode: Lecture Grading Option: Letter

MEDS 463 Evidence Based Medicine for Health Innovators
Units: 2 Terms Offered: FaSp (Enroll in ACAD 463)

MEDS 464 Mining Health Data Through Machine Learning
Units: 4 Terms Offered: FaSp (Enroll in ACAD 464)

MEDS 465 Wilderness and Survival Medicine
Units: 4 Terms Offered: Sp Medical physiology principles of people under "extreme" wilderness conditions, factors affecting remote medical care, and basic survival strategies, led by Emergency Medicine physicians. *Prerequisite:* BISC 220 or BISC 221; and MEDS 220. Instruction Mode: Lecture Grading Option: Letter

MEDS 490x Directed Research in Biomedical Science
Units: 2, 3, 4, 5, 6, 7, 8 Max Units: 12.0 Terms Offered: FaSpSm Individual research and readings. *Prerequisite:* BISC 220 or BISC 221 and CHEM 103 or CHEM 105a or CHEM 115a; *Recommended Preparation:* MEDS 300, MEDS 360. Instruction Mode: Lecture Grading Option: Letter

MEDS 499 Special Topics
Units: 1, 2, 3, 4, 5, 6, 7, 8 Max Units: 08 Selected topics in health care studies. Instruction Mode: Lecture Grading Option: Letter

Medical Sciences (500)

MEDS 500 Basic Concepts in Global Health
Units: 4 Terms Offered: FaSpSm Exploration of global health issues facing resource-poor societies; emphasizes contributing factors including behavioral and physiological bases, economic, social, and political context. Instruction Mode: Lecture Grading Option: Letter

MEDS 501 Critical Issues in Global Health
Units: 4 Terms Offered: FaSpSm Evaluation of government and non-government organizations' new global health responses, and critical issues affecting global health including: environment, workforce conditions, obesity, nutrition, drugs, poverty. Instruction Mode: Lecture Grading Option: Letter

MEDS 503L Core Principles System I
Units: 4 Terms Offered: FaSpSm Introduction to basic medical concepts and biological system functions; examination of core principles of science and medical treatment. Instruction Mode: Lecture, Lab Required Grading Option: Letter

MEDS 504L Core Principles System II
Units: 4 Terms Offered: Fa Continuation of concepts from MEDS 503. Basic medical concepts and biological system functions; examination of core principles of science and medical treatment. *Prerequisite:* MEDS 503. Instruction Mode: Lecture, Lab Required Grading Option: Letter

MEDS 510 Global Health Modules, Malaria
Units: 2 Terms Offered: FaSpSm Critical issues in international control and treatment of malaria. Exploration of biological and epidemiological fundamentals of human-parasite interaction, including dynamics of transmission among populations. Instruction Mode: Lecture Grading Option: Letter

MEDS 511 Global Health Modules, Tuberculosis
Units: 2 Terms Offered: FaSpSm Exploration of biological and epidemiological fundamentals of tuberculosis including dynamics of transmission among populations. Overview of clinical manifestations, diagnosis, and treatment of infections. Instruction Mode: Lecture Grading Option: Letter

MEDS 512 Global Health Modules, Maternal and Child Health I
Units: 2 Terms Offered: FaSpSm Biopsychosocial, cultural and economic aspects of women's health: pregnancy, childbirth, marriage. Examination of health promotion and policy efforts to improve women's health globally. Instruction Mode: Lecture Grading Option: Letter

MEDS 514 Global Health Modules, Tropical Disease
Units: 2 Terms Offered: FaSpSm Examination of prevalent tropical diseases: epidemiology, clinical manifestations, treatment, impact on economies of tropical countries. Key issues related to these diseases; World Health Organization responses. Instruction Mode: Lecture Grading Option: Letter

MEDS 515 Global Health Modules, HIV/AIDS
Units: 2 Terms Offered: FaSpSm HIV epidemiology, basic biology of transmission and pathophysiology, associated opportunistic infections, and challenges to providing care in the developing world, including government responses. Instruction Mode: Lecture Grading Option: Letter

MEDS 516 Cultural Humility in Health and Medicine
Units: 2 Terms Offered: FaSpSm Practical approach to the development of professional skills for providing culturally sensitive clinical health services to ethnically and linguistically diverse patients. Duplicates Credit in former GM 516 Instruction Mode: Lecture Grading Option: Letter

MEDS 517 Health and Human Rights
Units: 2 Terms Offered: FaSpSm The relationship between health and human rights, and the study of human rights issues relevant to health care professionals. Instruction Mode: Lecture Grading Option: Letter

MEDS 518 Children in Emergency Situations: Global Policies and Programs
Units: 2 Terms Offered: Sp Focuses on children in emergency situations, including natural and man-made disasters, such as floods, earthquakes, conflicts, or war, with an emphasis on the poorest and most vulnerable children. Registration Restriction: Open only to Global Medicine majors. Instruction Mode: Lecture Grading Option: Letter

MEDS 519 Global Oral Health
Units: 2 Terms Offered: FaSpSm Better understand the key issues impacting global oral health, how better care can help reduce the disease prevalence, and ways to prepare the next generation of global health leaders to address the key issues. Registration Restriction: Open only to Global Medicine majors. Instruction Mode: Lecture Grading Option: Letter

MEDS 520 Medical Spanish for the Health Professions
Units: 2 Terms Offered: FaSpSm Spanish language course for students planning to enter the health professions. Registration Restriction: Open only to digital social media majors. Instruction Mode: Lecture Grading Option: Credit/No Credit

MEDS 521 Emerging and Re-emerging Infectious Diseases
Units: 2 Terms Offered: FaSpSm Exploration of the threat of major worldwide epidemics and diseases with a focus on the recent emergence of new plagues. Instruction Mode: Lecture Grading Option: Letter

MEDS 523 Global Toxicity and Carcinogenesis
Units: 2 Terms Offered: FaSpSm Covers the occurrences of toxic substances and the toxicity/diseases they cause, and chemical carcinogens and the types of cancer they cause worldwide. Instruction Mode: Lecture Grading Option: Letter

MEDS 524 Grantwriting for Non-Government Organizations
Units: 2 Terms Offered: FaSpSm Instruction on the process and methods of writing effective grants from identifying appropriate funders to implementing project upon receipt of funding award. Instruction Mode: Lecture Grading Option: Letter

MEDS 525 Global Mental Health
Units: 2 Terms Offered: FaSpSm Examines the major mental health diagnoses from clinically relevant perspectives and their prevalence in specific geographical regions around the world. Instruction Mode: Lecture Grading Option: Letter

MEDS 527 Zoonotic Infectious Diseases
Units: 2 Terms Offered: SpSm Background information on a group of infections that are transmitted via animal contact. Understanding of the epidemiology, clinical manifestations, treatment, and impact of the diseases on the economies of the countries in which they are found. *Recommended Preparation:* MEDS 500. Registration Restriction: Open only to graduate students. Instruction Mode: Lecture Grading Option: Letter

MEDS 528 Global Health Modules, Sexually Transmitted Infections
Units: 2 Terms Offered: SpSm Examines clinically relevant perspectives from distinguished international authors on STI issues and the devastating effect on particular geographical regions around the world. Instruction Mode: Lecture Grading Option: Letter

MEDS 529 Refugee Health Care
Units: 2 Introduction to refugee health care and life events which impact health. Discuss medical needs of long-term displaced populations with specific case studies. Registration Restriction: Open only to graduate students. Instruction Mode: Lecture Grading Option: Letter

MEDS 530a Foundation of Medicine: Anatomy, Physiology, and Pathology
Units: 4 Terms Offered: FaSpSm Fundamentals of physiology, chemistry, anatomy, biochemistry and microbiology, as well as pharmacological issues, mathematical basis of lab instruments or techniques, and computational modeling. Instruction Mode: Lecture Grading Option: Letter

MEDS 530b Foundation of Medicine: Anatomy, Physiology, and Pathology
Units: 4 Terms Offered: FaSpSm The basics of human anatomy (gross anatomy, histology, radiographic anatomy), physiology (cellular physiology, organ system areas) and pathology (general, systemic, cellular pathology). Instruction Mode: Lecture Grading Option: Letter

MEDS 530c Foundation of Medicine: Anatomy, Physiology, and Pathology
Units: 4 Terms Offered: FaSpSm Continues material from MEDS 530a and MEDS 530b, covering human anatomy (gross anatomy, histology, radiographic anatomy), physiology (cellular physiology, organ systems) and pathology (general, systemic, cellular pathology). Instruction Mode: Lecture Grading Option: Letter

MEDS 531 The Politics of Global Health
Units: 2 Terms Offered: FaSpSm Examines the impact of politics on global health progress and declines. Registration Restriction: Open only to Global Medicine majors. Instruction Mode: Lecture Grading Option: Letter

MEDS 532 Non-communicable Diseases
Units: 2 Terms Offered: FaSpSm A conceptual framework for understanding global challenges faced in the management of non-communicable diseases, including heart disease, diabetes, chronic lung disease, and cancer. Instruction Mode: Lecture Grading Option: Letter

MEDS 535 Culture, Lifestyle, and Health
Units: 2 Terms Offered: FaSpSm Overview of national and international variations in health status indicators in regard to cultural and lifestyle differences. Instruction Mode: Lecture Grading Option: Letter

MEDS 550 Clinical Medicine and Health Care Reform in Taiwan
Units: 2 Terms Offered: Sm Two-week in-depth study abroad in Taipei, Taiwan, focused on understanding Taiwan's health care system, health priorities, and needs. Instruction Mode: Lecture Grading Option: Letter

MEDS 551 Clinical Medicine and Socioeconomic Factors in Uganda
Units: 2 Terms Offered: Sm Two-week course that provides students with hands-on experience in clinical medicine/ public health and exposure to the various socioeconomic factors impacting health in the developing world. Instruction Mode: Lecture Grading Option: Letter

MEDS 553 Clinical Medicine and Health Care Challenges in India
Units: 2 Terms Offered: Sm Two-week study abroad course that explores the health dynamics and health care settings of India. Instruction Mode: Lecture Grading Option: Letter

MEDS 554 Clinical Medicine and Healthcare Delivery in Panama
Units: 2 Terms Offered: SpSm A two-week course providing students with hands-on experience in the practice of rural medicine as they gain exposure to the various socio-economic factors present in Bocas del Toro, Panama. *Recommended Preparation:* MEDS 500, MEDS 501, MEDS 510, MEDS 511, MEDS 514, MEDS 515. Registration Restriction: Open only to Global Medicine majors. Instruction Mode: Lecture Grading Option: Letter

MEDS 556 Global Health Field Study, New York
Units: 2 Terms Offered: Sp Two-week course providing students with a solid understanding of the United Nations' major agencies influential in global health, their mandate, their strengths and challenges. Includes field visit to selected UN organizations all located in NYC. Registration Restriction: Open only to Global Medicine majors. Instruction Mode: Lecture Grading Option: Letter

MEDS 557 Clinical Medicine and Healthcare Dynamics in Denmark
Units: 2 Terms Offered: SpSm Two-week course that provides a venue for careful examination and assessment of the economic, social, political, and specific health issues currently faced by countries in the European Region. Registration Restriction: Open only to Global Medicine majors. Instruction Mode: Lecture Grading Option: Letter

MEDS 559 Clinical Medicine and Healthcare Determinants in China
Units: 2 Terms Offered: SpSm A two-week intensive course abroad in Shanghai, China, focused on understanding clinical realities of Chinese medicine, health determinants and healthcare delivery. *Recommended Preparation:* MEDS 500, MEDS 501, MEDS 515, MEDS 535. Registration Restriction: Open only to Global Medicine majors. Instruction Mode: Lecture Grading Option: Letter

MEDS 560 Innovating in Healthcare in Malaysia
Units: 2 Terms Offered: Sm Two-week study abroad course in Malaysia that examines the capacity of local communities to address health needs and to address health priorities with innovation. Instruction Mode: Lecture Grading Option: Letter

MEDS 561 Global Healthcare Development and Practices in Nepal
Units: 2 Terms Offered: Sm Provides a multi-faceted understanding of the delivery of essential services to underserved populations, particularly women and children, in the challenging Nepalese healthcare landscape. *Recommended Preparation:* MEDS 500, MEDS 501, MEDS 518 Registration Restriction: Open only to Global Medicine majors Instruction Mode: Lecture Grading Option: Letter

MEDS 567 Global Nutrition
Units: 2 A systematic survey of basic and clinical nutrition that provides an overview of critical public health-nutrition issues in both the developing world and industrial society. *Recommended Preparation:* general chemistry, biological chemistry, and/or physiology Instruction Mode: Lecture Grading Option: Letter

MEDS 568 Global Issues: Aging
Units: 2 Terms Offered: FaSpSm Examination of medical issues in aging through a nation-specific survey of how various countries treat the elderly in health policy and healthcare. Instruction Mode: Lecture Grading Option: Letter

MEDS 570 Introduction to Narrative Medicine
Units: 2 Terms Offered: FaSpSm Introduction to the field of narrative medicine. Examination of theoretical and literary texts and the practice of narrative and reflective writing to enhance narrative competency and gain an understanding of the role of narrative in people's experiences with illness. Instruction Mode: Lecture Grading Option: Letter

MEDS 573 Global Health Entrepreneurship - Ideas into Innovations
Units: 2 Terms Offered: Sm Fundamentals of entrepreneurship applied to global health issues and programming including: idea conception, marketing, global health ethics, and other components related to business start-ups. Instruction Mode: Lecture Grading Option: Letter

MEDS 574 Rural Health in South Africa
Units: 2 Terms Offered: FaSpSm Two-week study abroad course exploring the complexities of the delivery of health care in rural South Africa. Instruction Mode: Lecture Grading Option: Letter

MEDS 575 Introduction to Healthcare in Resource-Limited Settings
Units: 2 Terms Offered: FaSpSm Introduction to tactics, tools, and directives commonly used in global health crises and resource-poor settings with an emphasis on strategic thinking and planning to enable situation-specific solutions to be implemented. *Recommended Preparation:* MEDS 500 or MEDS 501 Instruction Mode: Lecture Grading Option: Letter

MEDS 576 Maternal and Child Health in South Africa
Units: 2 Terms Offered: FaSpSm Examination of country-specific factors affecting pregnancy, pre-natal care, and childbirth in South Africa, with analysis of factors contributing to health inequality and methods to mitigate healthcare challenges. Instruction Mode: Lecture Grading Option: Letter

MEDS 577 Global Palliative Care
Units: 2 Terms Offered: FaSpSm Exploration of the provision of palliative care and analysis of factors affecting the increased burden of palliative care provision facing developing regions of the world. Instruction Mode: Lecture Grading Option: Letter

MEDS 578 International Travel and Illness Prevention
Units: 2 Terms Offered: FaSpSm Instruction in the prevention, identification, and treatment of common illnesses encountered in international travel. Includes instruction in basic health screening procedures and screening tool usage. Instruction Mode: Lecture Grading Option: Letter

MEDS 579 Healthcare Challenges and Dynamics in Japan
Units: 2 Terms Offered: FaSpSm Two-week study abroad course exploring the health care system and accompanying care provision in Japan. Instruction Mode: Lecture Grading Option: Letter

MEDS 580 Interprofessional Team Dynamics in Healthcare
Units: 4 Terms Offered: FaSpSm Examination of typical composition and function of interprofessional healthcare teams. Exploration of roles of team members and purview of care issues and common challenges, including medication management, inpatient/outpatient decision making, and care plan implementation. Instruction Mode: Lecture Grading Option: Letter

MEDS 581 Case Studies in Interprofessional Healthcare
Units: 4 Terms Offered: FaSpSm Survey of the specific roles each member of an interprofessional health team plays in the provision of care, based on their professional training. Application of diverse health professional expertise to case studies in healthcare. Instruction Mode: Lecture Grading Option: Letter

MEDS 582 Biology of Pandemics: from the Black Plague to SARS-CoV-2
Units: 2 Terms Offered: FaSpSm Medical and historical exploration of infectious diseases classified as pandemics, including SARS-CoV-2, with accompanying examination of their clinical manifestations and treatments and aspects of basic virology, immunology and epidemiology. Instruction Mode: Lecture Grading Option: Letter

MEDS 590 Directed Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Max Units: 12.0 Terms Offered: FaSpSm Research leading to the master's degree. Maximum units which may be applied to the degree to be determined by the department. Instruction Mode: Lecture Grading Option: Credit/No Credit

MEDS 597a Health Technology Internship
Units: 1 Terms Offered: FaSpSm Internship course on the use of new technology based on sensors and wireless communications to the healthcare industry. Registration Restriction: Open only to MS Electrical Engineering (Wireless Health Technology) students Instruction Mode: Lecture Grading Option: Credit/No Credit

MEDS 597b Health Technology Internship
Units: 1 Terms Offered: FaSpSm Internship course on the use of new technology based on sensors and wireless communications to the healthcare industry. Continues material

from GM 597a. Registration Restriction: Only open to M.S., Electrical Engineering (Wireless Health Technology) students. Instruction Mode: Lecture Grading Option: Credit/No Credit

MEDS 599 Special Topics
Units: 2, 3, 4 Max Units: 8.0 Terms Offered: FaSpSm Lecture and discussion focused on specific topics within global medicine. Course topic will vary from semester to semester. Instruction Mode: Lecture Grading Option: Letter

Molecular Microbiology and Immunology

MICB 500L Introductory Medical Microbiology
Units: 4 Terms Offered: Irregular A survey of microorganisms which cause human infectious diseases including mechanisms of pathogenesis, principles of antibiotic usage, pertinent microbial genetics; lectures, laboratories and demonstrations. *Prerequisite:* one year general biology, one semester biochemistry. Instruction Mode: Lecture, Lab Required Grading Option: Letter

MICB 501 Introduction to Immunology
Units: 1 Terms Offered: Irregular Basic introduction into molecular, cellular, and clinical immunology for second year medical students and graduate students in Microbiology. Duplicates Credit in BISC 450. Instruction Mode: Lecture Grading Option: Letter

MICB 502 Molecular and Cellular Immunology
Units: 2 Max Units: 8.0 Terms Offered: Fa Specific topics to be scheduled on a yearly and rotating basis. *Prerequisite:* MICB 501. Instruction Mode: Lecture Grading Option: Letter

MICB 503 Current Topics in Immunology
Units: 1 Max Units: 8.0 Terms Offered: Irregular Discussion forum on the diverse areas of research which constitute modern immunology. *Prerequisite:* MICB 501. Instruction Mode: Lecture Grading Option: Letter

MICB 504 Molecular Biology of Cancer
Units: 4 Terms Offered: Sp (Enroll in INTD 504)

MICB 522 Infection and Host Responses
Units: 4 Terms Offered: Sp (Enroll in INTD 522)

MICB 531 Cell Biology
Units: 4 (Enroll in INTD 531)

MICB 542 Animal Virology
Units: 2 Max Units: 6.0 Terms Offered: Irregular Virus structure and chemistry; virus-cell interactions; aspects of virus genetics; molecular biology; pathogenesis, immunology, and evolution of viral infections. Instruction Mode: Lecture Grading Option: Letter

MICB 549 Student Seminar Series
Units: 1 Max Units: 8.0 Terms Offered: FaSp Microbiology students will present research seminars describing their thesis progress. Instruction Mode: Lecture Grading Option: Letter

MICB 550 Microbial Pathogenesis
Units: 2 Terms Offered: Irregular Critical discussion of recent developments in pathogenesis of select microbial, viral and parasitic agents with particular emphasis on molecular factors and their synergistic (antagonistic) actions. Instruction Mode: Lecture Grading Option: Letter

MICB 551 Prokaryotic Molecular Genetics
Units: 4 Terms Offered: Sp Macromolecular processes and their regulation in prokaryotes; DNA replication, transcription, and post-transcriptional events in general and as related to operons, phage biology, and eukaryotic organelles. Instruction Mode: Lecture Grading Option: Letter Crosslisted as BIOC-551

MICB 560 Recent Advances in Microbiology
Units: 1 Max Units: 6.0 Terms Offered: Irregular Intensive examination of selected topics in microbiology. Student presentations and critiques. Required for all graduate students. Instruction Mode: Lecture Grading Option: Letter

MICB 561 Molecular Biology
Units: 4 Terms Offered: Fa (Enroll in INTD 561)

MICB 570 Microbiology Research Seminar
Units: 1 Max Units: 10.0 Terms Offered: FaSpSm Critical discussion of current research topics. Students present published and unpublished research results for discussion and critique. *Prerequisite:* current enrollment in Microbiology PhD program. Instruction Mode: Lecture Grading Option: Letter

MICB 571 Biochemistry
Units: 4 Terms Offered: Fa (Enroll in INTD 571)

MICB 572 Medical Physiology I
Units: 4 Terms Offered: Fa (Enroll in INTD 572)

MICB 573 Systems Physiology and Disease II
Units: 4 Terms Offered: Sp (Enroll in INTD 573)

MICB 590 Directed Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Terms Offered: FaSpSm Research leading to the master's degree. Maximum units which may be applied to the degree to be determined by the department. Instruction Mode: Lecture Grading Option: Credit/No Credit

MICB 594a Master's Thesis
Units: 2 Terms Offered: FaSpSm Credit on acceptance of thesis. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

MICB 594b Master's Thesis
Units: 2 Terms Offered: FaSpSm Credit on acceptance of thesis. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

MICB 594z Master's Thesis
Units: 0 Terms Offered: FaSpSm Credit on acceptance of thesis. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

MICB 596 Internship for Curricular Practical Training
Units: 1, 2, 3 Max Units: 03 Part-time or full-time, practical work experience in the student's field of study. The internship must be located at an off-campus facility. Students are individually supervised by faculty. May not be taken until the student has completed at least one semester of enrollment in the graduate program with a cumulative 3.0 GPA. Registration Restriction: Open only to graduate students Instruction Mode: Lecture Grading Option: Credit/No Credit

MICB 790 Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Terms Offered: FaSpSm Research leading to the doctorate. Maximum units which may be applied to the degree to be determined by the department. Instruction Mode: Lecture Grading Option: Credit/No Credit

MICB 794a Doctoral Dissertation
Units: 2 Terms Offered: FaSpSm Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

MICB 794b Doctoral Dissertation
Units: 2 Terms Offered: FaSpSm Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

MICB 794c Doctoral Dissertation
Units: 2 Terms Offered: FaSpSm Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

MICB 794d Doctoral Dissertation
Units: 2 Terms Offered: FaSpSm Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

MICB 794z Doctoral Dissertation
Units: 0 Terms Offered: FaSpSm Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

Marketing

MKT 385x Marketing of Creative Disruption and Innovation
Units: 4 Terms Offered: Fa Learn to use fundamental principles of marketing, branding, and consumer behavior to successfully market disruptively innovative products including goods, services, and ideas. Duplicates Credit in BUAD 307. Instruction Mode: Lecture Grading Option: Letter Crosslisted as ACAD-385

MKT 402 Introduction to Marketing Analytics
Units: 4 Terms Offered: FaSp Apply marketing research techniques and frameworks to collect data, conduct statistical analysis, and develop actionable insights to support marketing decisions. Duplicates Credit in former MKT 470 Instruction Mode: Lecture Grading Option: Letter

MKT 404 Happiness and Wellbeing in the Marketplace
Units: 4 Terms Offered: FaSp Examines happiness and wellbeing in consumer culture. Integrates insights from various fields (e.g., psychology, sociology, policy) into discussions about business, individual wellbeing and societal welfare. Instruction Mode: Lecture Grading Option: Letter

MKT 405 Advertising and Promotion Management
Units: 4 Terms Offered: FaSpSm Role of advertising in the marketing mix: determining objectives, strategies, and plans from situation analysis through

research and creative processes, media selection, and sales promotion. *Prerequisite:* BUAD 307 or COMM 200 or COMM 302 or MKT 385x or PR 340 Instruction Mode: Lecture Grading Option: Letter

MKT 406 Practicum in Advertising and Promotion Design
Units: 4.0 Terms Offered: Sp Provides real-life marketing experience as a member of a student managed marketing/ advertising/promotions agency. Work with a client organization on the design of an advertising/promotions campaign. Requires market research, creative design, implementation planning, and client presentation. *Prerequisite:* MKT 405 Instruction Mode: Lecture Grading Option: Letter

MKT 410 Professional Selling
Units: 4 Terms Offered: FaSp Learn the principles of business to business selling and its function in marketing strategy and the marketing mix; explore professional selling as a career option. *Prerequisite:* BUAD 307 or MKT 385. Registration Restriction: Open only to sophomores, juniors and seniors. Instruction Mode: Lecture Grading Option: Letter

MKT 415 Sales Force Management
Units: 4 Terms Offered: FaSp Studies the role of managing the selling function as part of the marketing mix; planning, implementing, and controlling sales force operations; critical issues in selecting, training, compensating and supervising salespeople. Instruction Mode: Lecture Grading Option: Letter

MKT 425 Marketing in a Digital World
Units: 4 Terms Offered: FaSp An introduction to the changing world of a connected consumer. Understanding consumer online, social media and mobile behavior using marketing analytics and strategic tools. *Prerequisite:* BUAD 307 or MKT 385x Registration Restriction: Open only to sophomore, junior and senior students Instruction Mode: Lecture Grading Option: Letter

MKT 430 Retail Management
Units: 4 Terms Offered: Fa Introduction to the functions of retail management including location, buying, merchandise management, layout, pricing, and promotion; application of concepts to various retail institutions. Instruction Mode: Lecture Grading Option: Letter

MKT 440 Marketing Analysis and Strategy
Units: 4 Terms Offered: FaSp Synthesis of concepts and applications relating to the analysis of market opportunities and the development of product, promotion, distribution, pricing strategies. Recommended during student's final semesters. *Prerequisite:* BUAD 307 or MKT 385. Instruction Mode: Lecture Grading Option: Letter

MKT 445 New Product Development and Branding
Units: 4 Terms Offered: FaSp This class examines how new product ideas are developed, test marketed, and, ultimately, brought to the marketplace. Issues about why new products fail and how brand images are managed in the marketplace are discussed. Legal aspects of brand management such as trademark protection and infringement are also addressed. *Prerequisite:* BUAD 307 or MKT 385. Instruction Mode: Lecture Grading Option: Letter

MKT 446L Practicum in New Product Development
Units: 4 Terms Offered: Sp Provides experience in a student managed product team. Work with R&D organization to design a new product or technology. Involves market research and implementation planning. *Prerequisite:* MKT 445. Registration Restriction: Open only to juniors and seniors. Instruction Mode: Lecture, Lab Required Grading Option: Letter

MKT 450 Consumer Behavior and Marketing
Units: 4 Terms Offered: FaSp Examines the relationship of consumer behavior to acquisition, usage, and disposition of products and the psychological, social and cultural influences that affect these decisions. Instruction Mode: Lecture Grading Option: Letter

MKT 461 Marketing Blockbuster Entertainment
Units: 4 Terms Offered: FaSp Examines the business of creating, marketing and managing massive entertainment franchises in movies and television with reference to video games and toys. Instruction Mode: Lecture Grading Option: Letter

MKT 463 Pricing Strategies
Units: 4 Examination of role of pricing decisions; innovative pricing theories; Internet and technology impact on pricing, price negotiations, customized pricing, price image and reference prices. *Prerequisite:* BUAD 307 or MKT 385. Instruction Mode: Lecture Grading Option: Letter

MKT 465 Global Marketing Management
Units: 4 Terms Offered: FaSp Product and service mix in multinational business; promotional alternatives; channel of distribution systems; pricing policies and legal barriers; multinational marketing opportunities; problems and information sources. Instruction Mode: Lecture Grading Option: Letter

MKT 499 Special Topics
Units: 2, 3, 4 Max Units: 8.0 Terms Offered: FaSpSm Current developments in the field of Marketing; topics to be selected each semester. *Prerequisite:* BUAD 307 or MKT 385. Instruction Mode: Lecture Grading Option: Letter

MKT 512 Customer Insights and Analysis
Units: 3 Terms Offered: FaSp Use of marketing research techniques and technologies such as databases and statistical tools to collect, analyze and act upon customer information. Registration Restriction: Online registration open only to graduate business and accounting students Instruction Mode: Lecture Grading Option: Letter

MKT 525 Consumer Behavior
Units: 3 Terms Offered: FaSpSm Theories and applications of consumer behavior in marketing; psychological, social, cultural and ethnic factors influencing consumer behavior. *Prerequisite:* GSBA 509 or GSBA 528 Instruction Mode: Lecture Grading Option: Letter

MKT 526 Advertising and Social Media: Strategy and Analytics
Units: 3 Terms Offered: FaSp Effective advertising in an era of social media including strategy and analytics for crafting ad messages, testing ads, budgeting and media scheduling. Registration Restriction: Online registration open only to graduate business and accounting students Instruction Mode: Lecture Grading Option: Letter

MKT 528 Sales Management: The Art and Science of Sales
Units: 3 Terms Offered: FaSp Emphasis on creating a sales strategy, planning and delivery of sales presentations, and techniques to persuade people to change their opinions in face-to-face meetings. *Prerequisite:* GSBA 509 or GSBA 528 Instruction Mode: Lecture Grading Option: Letter

MKT 530 New Product Development
Units: 3 Terms Offered: FaSpSm Systematic approach to product development and management; processes, techniques, and concepts firms use to develop, test, and introduce products and to manage products over their lifecycle. *Prerequisite:* GSBA 509 or GSBA 528 Instruction Mode: Lecture Grading Option: Letter

MKT 531 Services Marketing Strategy
Units: 3 Analysis and development of sound marketing strategies and an integrated service management plan for service organizations. Examination of best practices among leading service providers. *Prerequisite:* GSBA 509 or GSBA 528 Instruction Mode: Lecture Grading Option: Letter

MKT 533 Branding Strategy
Units: 1.5, 3 Terms Offered: FaSpSm Comprehensive treatment of the behavioral foundations of brands and brand development. Exploration of alternative branding strategies and marketing tools for brand development. *Prerequisite:* GSBA 509 or GSBA 528 Instruction Mode: Lecture Grading Option: Letter

MKT 534 Retail Strategy
Units: 3 Terms Offered: FaSp Frameworks for analysis of retail strategy and functions of a retail firm, including buying, merchandise management, pricing, promotion, and visual merchandising; application of concepts through case studies and student projects. *Prerequisite:* GSBA 509 or GSBA 528 Instruction Mode: Lecture Grading Option: Letter

MKT 535 Business-to-Business Marketing Management
Units: 1.5, 3 Terms Offered: FaSp Business-to-business marketing strategies (as opposed to consumer targeted marketing) including product management, pricing, market sizing, and other issues of importance for professional marketers. *Prerequisite:* GSBA 509 or GSBA 528 Instruction Mode: Lecture Grading Option: Letter

MKT 536 Pricing Strategies
Units: 3 Terms Offered: Fa Introduction to the fundamentals of pricing and pricing strategy. Develop a conceptual framework

and a set of analytical tools used to make sound pricing decisions. Registration Restriction: Online registration open only to graduate business and accounting students Instruction Mode: Lecture Grading Option: Letter

MKT 543 Market Demand and Sales Forecasting
Units: 3 Terms Offered: FaSp New product concept testing and life cycle forecasting, pricing and advertising response forecasting, consumer purchase intentions, judgmental marketing decision models, time series and regression analysis, computer methods. *Prerequisite:* GSBA 509 or GSBA 528 Instruction Mode: Lecture Grading Option: Letter

MKT 546 Digital Marketing
Units: 1 Terms Offered: Sp Marketing of products or services using digital technologies, mainly on the Internet, but also including mobile phones, display advertising, and any other digital media. *Prerequisite:* GSBA 509 or GSBA 528 or GSBA 546 Registration Restriction: Open only to master students Duplicates Credit in MKT 556 Instruction Mode: Lecture Grading Option: Letter

MKT 555 Marketing Channels
Units: 1.5, 3 Terms Offered: Sp Examination of strategic decision making in marketing channels. Intensity of distribution, vertical integration, how roles are formulated, types of intermediaries, and multiple channels of distribution. *Prerequisite:* GSBA 509 or GSBA 528 Instruction Mode: Lecture Grading Option: Letter

MKT 556 Internet Marketing
Units: 3 Terms Offered: FaSp All aspects of Internet marketing. Internet as a tool for marketing communication, sales and distribution, customer management. Role of paid advertising, search engines, Website design. *Prerequisite:* GSBA 509 or GSBA 528 Instruction Mode: Lecture Grading Option: Letter

MKT 560 Marketing Strategy
Units: 3 Terms Offered: FaSpSm Design and implementation of marketing strategies applied to domestic and global business challenges that span multiple industries complimented by a consumer packaged goods marketing strategic plan project. *Prerequisite:* GSBA 509 or GSBA 528 and the former GSBA 509a Instruction Mode: Lecture Grading Option: Letter

MKT 565 Global Marketing
Units: 3 Terms Offered: FaSp Variations in markets and trade patterns around the globe; product development and adaptation, pricing, promotion, and distribution issues across national cultures and international markets. *Prerequisite:* GSBA 509 or GSBA 509a or GSBA 528 Instruction Mode: Lecture Grading Option: Letter

MKT 566 Marketing Analytics
Units: 3 Terms Offered: FaSp Applications and models of marketing-related data analyses to the development of data-driven marketing strategies and making data-driven marketing decisions. Registration Restriction: Online registration open only to graduate accounting and business students Duplicates Credit in former DSO 566 Instruction Mode: Lecture Grading Option: Letter Crosslisted as DSO 566

MKT 567 Marketing Metrics for Business Decisions
Units: 3 Terms Offered: Sp Application, development, interpretation and implementation (in Excel and Tableau) of marketing metrics using case studies, data, and practitioner talks. Registration Restriction: Online registration open to only graduate business and accounting students Instruction Mode: Lecture Grading Option: Letter

MKT 580 Fostering Creativity
Units: 1.5, 3 Terms Offered: Sp An exploration of skills and practices (e.g., getting out of one's comfort zone, discovering one's inner-critic) necessary to develop and cultivate one's personal creativity. Registration Restriction: Online registration open only to graduate business and accounting students Instruction Mode: Lecture Grading Option: Letter

MKT 585 Marketing Radical Innovation
Units: 3 Terms Offered: Fa Study and application of new technology to create new business models, products, and services in world economies. Group projects focused on practical applications of concepts. *Prerequisite:* GSBA 509 or GSBA 528 Instruction Mode: Lecture Grading Option: Letter

MKT 586 Fashion, Luxury and Lifestyle Marketing
Units: 3.0 Terms Offered: FaSp Examination of marketing issues and challenges within a variety of business settings in the fashion, luxury goods and lifestyle sectors in the global marketplace. *Prerequisite:* GSBA 509 or GSBA 528 or the former GSBA 509a Registration Restriction: Open only to graduate students Instruction Mode: Lecture Grading Option: Letter

MKT 589 CMO on Shareholder Value
Units: 1.5 Terms Offered: Fa Provide an understanding of the role of the Chief Marketing Officer (CMO) in a variety of industries and how he or she influences shareholder value. *Prerequisite:* GSBA 509 or GSBA 509A or GSBA 528 Instruction Mode: Lecture Grading Option: Letter

MKT 590 Directed Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Terms Offered: FaSpSm Research leading to the master's degree. Maximum units which may be applied to the degree to be determined by the department. Instruction Mode: Lecture Grading Option: Credit/No Credit

MKT 592 Field Research in Marketing
Units: 0.5, 1, 1.5, 2, 2.5, 3.0, 3.5, 4 Max Units: 12 Terms Offered: FaSpSm Individual or team projects studying the marketing practices of an industry, company, government agency, country, geographic region, etc. Proposal, data collection, analyses, and written report. Graded CR/NC. *Recommended Preparation:* completion of required MBA, MAcc, MBT or MSMKT course work Registration Restriction: Open only to graduate students Instruction Mode: Lecture Grading Option: Credit/No Credit

MKT 593 Independent Research in Marketing
Units: 0.5, 1, 1.5, 2, 2.5, 3.0, 3.5, 4 Max Units: 12.0 Terms Offered: FaSpSm Independent research beyond normal course offerings. Proposal, research and written report/paper required. Registration Restriction: Open only to master students Instruction Mode: Lecture Grading Option: Credit/No Credit

MKT 595 Internship in Marketing
Units: 0.5, 1, 1.5, 2 Max Units: 09 Terms Offered: FaSpSm Supervised on-the-job business experience in the field of marketing. (Curricular Practical Training.) Graded CR/NC. *Recommended Preparation:* completion of required MBA, MAcc, MBT or MSMKT course work Registration Restriction: Open only to master accounting and business students Instruction Mode: Lecture Grading Option: Credit/No Credit

MKT 596 Research Practicum in Marketing
Units: 0.5, 1, 1.5, 2 Max Units: 8.0 Terms Offered: FaSpSm Hands-on practical experience working with a Marshall faculty member in the Marketing Department on an ongoing research project. Registration Restriction: Open only to master and doctoral students Instruction Mode: Lecture Grading Option: Credit/No Credit

MKT 597 Consulting Project in Marketing
Units: 0.5, 1, 1.5, 2, 2.5, 3, 3.5, 4, 4.5, 5 Max Units: 12 Terms Offered: FaSpSm Individual or team project solving real business problems for an existing business entity, domestic and/or international. Proposal, field research, analyses and oral and written presentations. Graded CR/NC *Recommended Preparation:* completion of required MBA, MAcc, MBT or MSMKT course work Registration Restriction: Open only to graduate students Instruction Mode: Lecture Grading Option: Credit/No Credit

MKT 598 Special Topics
Units: 1, 1.5, 2, 3 Max Units: 09 Terms Offered: FaSpSm Current trends, recent developments, and emerging topics in marketing. Graded CR/NC. *Prerequisite:* GSBA 509 or GSBA 528 Registration Restriction: Open only to graduate students Instruction Mode: Lecture Grading Option: Credit/No Credit

MKT 599 Special Topics
Units: 1, 1.5, 2, 3 Max Units: 9 Terms Offered: FaSpSm Examination of current literature and emerging and timely topics in marketing, social marketing, consumerism, macromarketing, marketing of individuals, organizations, and ideas. *Prerequisite:* GSBA 509 or GSBA 528 Instruction Mode: Lecture Grading Option: Letter

MKT 613 Marketing Models in Consumer and Business-to-Business Markets
Units: 3 Terms Offered: Fa Modeling research on marketing with a focus on channel structure, franchising and sales force compensation, innovation and diffusion, inter-store composition, sales promotions, and market segmentation. Duplicates Credit in former MKT 605 and former MKT 613a. Instruction Mode: Lecture Grading Option: Letter

MKT 614 Advanced Research Methods in Marketing
Units: 3 Terms Offered: Sp Applications of advanced research techniques and designs to marketing problems; review and critique of current literature; development and defense of student's own research proposal. Duplicates Credit in former MKT

661. Instruction Mode: Lecture Grading Option: Letter

MKT 615 Strategic and Marketing Mix Models
Units: 3 Terms Offered: Sp Modeling research on marketing with a focus on discrete choice models, consideration set models, purchase timing models, accounting for consumer heterogeneity, Bayesian models, dynamic models of consumer choice, market entry effects, product quality, advertising and carry over effects, price, and promotion. Duplicates Credit in former MKT 605 and former MKT 613b. Instruction Mode: Lecture Grading Option: Letter

MKT 616 Consumer Behavior Theory and Research
Units: 3 Terms Offered: FaSp Behavioral research and theory on consumer behavior with a focus on emotions, categorization, knowledge, inferences, attitudes, social influences and environmental influences on buying and consumption. Registration Restriction: Open only to doctoral students Duplicates Credit in former MKT 602 and former MKT 612a Instruction Mode: Lecture Grading Option: Letter

MKT 618 Consumer Behavior and Decision Making
Units: 3 A foundation in judgment, decision-making, and choice aspects of consumer behavior and business. Topics include heuristics and biases, information acquisition, time perception, and inter-temporal choice. Instruction Mode: Lecture Grading Option: Letter

MKT 620 Advanced Quantitative Models in Marketing
Units: 3 Terms Offered: FaSp Techniques for building and analyzing advanced quantitative analytical models. Develop and estimate various state-of-the-art models of consumer choice and firm decisions. Registration Restriction: Open only to Doctoral students. Instruction Mode: Lecture Grading Option: Letter

MKT 621 Research Forum
Units: 1 Max Units: 4.0 Terms Offered: FaSp Seminar. Review and discuss current research in Marketing. Presentations by faculty, visiting researchers, and advanced students. Instruction Mode: Lecture Grading Option: Credit/No Credit

MKT 699 Special Topics
Units: 1, 1.5, 2, 3 Max Units: 08 Terms Offered: FaSpSm Exploration of emerging topics, literature and research techniques in contemporary marketing. Registration Restriction: Open only to doctoral students Instruction Mode: Lecture Grading Option: Letter

Management and Organization

MOR 252 The Art of Case Analysis and Presentation
Units: 2 Terms Offered: FaSp (Enroll in BUCO 252)

MOR 331x Influence and Collaboration
Units: 2 Terms Offered: FaSp Issues involved in establishing working relationships, directing the work of others, delegating, enrolling others in one's vision and direction. Collaborative and team behavior. Conflict management. Duplicates Credit in MOR 431. Not for credit toward business majors or minors. Instruction Mode: Lecture Grading Option: Letter Crosslisted as ACAD-331

MOR 385gm Business, Government and Society
Units: 4 Terms Offered: Sp Explores business-government-society interaction. Examines how diverse interests and identities (social class, race, nationality and gender) affect the conduct and organization of business. Satisfies New General Education in Category C: Social Analysis Instruction Mode: Lecture Grading Option: Letter

MOR 421 Social and Ethical Issues in Business
Units: 4 Terms Offered: FaSp Explores ethical issues in business from diverse perspectives including the roles and responsibilities of institutional actors, corporate social responsibility and balancing stakeholder interest. *Prerequisite:* BUAD 304 Instruction Mode: Lecture Grading Option: Letter

MOR 431 Interpersonal Competence and Development
Units: 4 Terms Offered: Sp An exploration of the nature of relationships at work; focus on analytical skills and self-assertion necessary to have effective, rewarding relationships. Duplicates Credit in MOR 331x Instruction Mode: Lecture Grading Option: Letter

MOR 451 Mastering Decision Making
Units: 4 Terms Offered: Fa Understand the nature, causes, and consequences of deviations from rational choice. Develop frameworks for controlling biases, improving your decision-making, and influencing other people's decisions. Instruction Mode: Lecture Grading Option: Letter

MOR 461 Design of Effective Organizations
Units: 4 Terms Offered: Fa Designing management systems and practices that lead to organizational excellence; techniques for organizational change. Instruction Mode: Lecture Grading Option: Letter

MOR 462 Management Consulting
Units: 4 Terms Offered: FaSp Role of professional consultants; data gathering methods; consulting approaches from strategy, finance, operations, information systems, marketing, and human resources; action planning; ethical and career issues. *Recommended Preparation:* BUAD 304. Instruction Mode: Lecture Grading Option: Letter

MOR 463 Organization Change and Development
Units: 4 Terms Offered: Sp Theories and methods of introducing change in organizations. Techniques for analyzing organizations, developing change programs, and implementing changes. Ethical and career issues of change management. *Recommended Preparation:* BUAD 304. Instruction Mode: Lecture Grading Option: Letter

MOR 465 Dynamic Strategies for the Business Lifecycle
Units: 4 Terms Offered: Sp Theories and methods for analyzing and developing strategy. Fundamental tools for strategic planning. Advanced methods for analyzing industries and competitors, and determining the scope of the firm. Instruction Mode: Lecture Grading Option: Letter

MOR 466 Business and Environmental Sustainability
Units: 4 Terms Offered: Sp Focuses on how businesses both contribute to and can help address environmental sustainability challenges and the role of the broader political-economy in shaping that interaction. Instruction Mode: Lecture Grading Option: Letter Crosslisted as ENST 466

MOR 467 Strategic Management of Innovation
Units: 4 Terms Offered: Sp How firms in different industries manage strategic innovation for competitive advantage. Analysis of industry dynamics. Crafting and implementing innovation strategy. Registration Restriction: Open only sophomores, juniors and seniors Instruction Mode: Lecture Grading Option: Letter Crosslisted as ACAD 467

MOR 468 Cross-Cultural Negotiations: Communication and Strategy
Units: 4 (Enroll in COMM 468)

MOR 469 Negotiation and Persuasion
Units: 4 Terms Offered: FaSp Theories, strategies, and ethics underlying negotiation and persuasion in contemporary organizations and societies. Emphasizes the knowledge and skills needed for effective negotiation and persuasion. Instruction Mode: Lecture Grading Option: Letter

MOR 470 Global Leadership
Units: 4 Terms Offered: Fa Major theories and practices of leading people in multinational firms. Skills for facilitating cooperation, communication, and motivation among people from different cultures. *Recommended Preparation:* BUAD 304. Instruction Mode: Lecture Grading Option: Letter

MOR 471 Managing and Developing People
Units: 4 Terms Offered: Fa Management of the human resource function for organizational performance. *Recommended Preparation:* BUAD 304. Instruction Mode: Lecture Grading Option: Letter

MOR 472 Power, Politics and Influence
Units: 4 Terms Offered: FaSp Theories and practices about how power, politics and influence affect organizational life. Knowledge and skills for diagnosing and managing these features of an organization. Instruction Mode: Lecture Grading Option: Letter

MOR 473 Designing and Leading Teams
Units: 4 Terms Offered: Sp Theories and practices for developing and leading teams. Skills for creating team structures and facilitating team processes. Knowledge for diagnosing team problems and devising solutions. *Recommended Preparation:* BUAD 304. Instruction Mode: Lecture Grading Option: Letter

MOR 475 The Art of Leadership - Self Discovery
Units: 1 Terms Offered: FaSp Introductory leadership. Self-examination of personal leadership styles using survey tools, comparative models and in-class exercises. Registration Restriction: Open only to students in the USC Warren Bennis

Scholars Program Duplicates Credit in former MOR 476a Instruction Mode: Lecture Grading Option: Credit/No Credit

MOR 476 The Art of Leadership - Leading on a Global Stage
Units: 1 Terms Offered: Sp Study of leaders and applied theory to gain an understanding of what is involved in taking public leadership roles on a global level. Open only to students in the USC Warren Bennis Scholars Program. *Prerequisite:* MOR 475 or MOR 476a Registration Restriction: Open only to students in the USC Warren Bennis Scholars Program Duplicates Credit in former MOR 476b Instruction Mode: Lecture Grading Option: Credit/No Credit

MOR 477 The Art of Leadership - Change Leadership
Units: 1 Terms Offered: Fa Examination of practical challenges facing every leader through a series of in-class discussions and field trips to meet recognized leaders in the social impact sphere. Open only to students in the USC Warren Bennis Scholars Program. *Prerequisite:* MOR 475 or MOR 476a Registration Restriction: Open only to students in the USC Warren Bennis Scholars Program Duplicates Credit in former MOR 476c Instruction Mode: Lecture Grading Option: Credit/No Credit

MOR 478 The Art of Leadership - Practical Leadership
Units: 1 Terms Offered: Sp Application of leadership skills using goal-setting, self-knowledge and execution opportunities. Open only to students in the USC Warren Bennis Scholars program. *Prerequisite:* MOR 475 or MOR 476a Registration Restriction: Open only to students in the USC Warren Bennis Scholars Program Duplicates Credit in former MOR 476d Instruction Mode: Lecture Grading Option: Credit/No Credit

MOR 479 The Business of Sports
Units: 4 Terms Offered: Sp Addresses the business side of the sports industry; examines professional sports franchises, amateur athletics, and collegiate sports and how they relate to corporate America, the media, and the public sector. *Recommended Preparation:* BUAD 304. Instruction Mode: Lecture Grading Option: Letter

MOR 492 Global Strategy
Units: 4 Terms Offered: FaSp Examination of corporate strategy practices in an international context. Effects of cultures, political systems, markets, and economic systems on developing effective global strategies. Instruction Mode: Lecture Grading Option: Letter

MOR 495 International Management and Internship
Units: 2, 3, 4 International internship. Develop general/cross-cultural knowledge and management skills, gain an understanding of cross-cultural issues, and develop insights working in international businesses. *Recommended Preparation:* BUAD 304. Instruction Mode: Lecture Grading Option: Letter

MOR 498 Special Topics
Units: 1, 2, 3, 4 Max Units: 08 Terms Offered: Irregular Selected topics reflecting current trends and recent developments in organizational behavior, business strategy and organizational theory. (Graded CR/NC) Instruction Mode: Lecture Grading Option: Credit/No Credit

MOR 499 Special Topics
Units: 2, 3, 4 Max Units: 8.0 Selected topics reflecting current trends and recent developments in organizational behavior, business strategy and organizational theory. Instruction Mode: Lecture Grading Option: Letter

MOR 542 Strategic Issues for Global Business
Units: 3 Terms Offered: Fa Globalization strategies from entry to maturity; alternative approaches from going alone to alliances; strategy implementation issues in different cultures and political systems. Cases, videos and speakers. Registration Restriction: Online registration open to only graduate business and accounting students. Instruction Mode: Lecture Grading Option: Letter

MOR 543 Leading with Mindfulness and Compassion
Units: 1.5 Terms Offered: Sp Explores mindfulness (non-judgmental awareness), compassion and their relationship to leadership. Focus is on clarity in productivity using evidence-based cases and direct practice. Graded CR/NC. Instruction Mode: Lecture Grading Option: Credit/No Credit

MOR 545 Corporate Governance and Board Leadership
Units: 1.5, 3 Terms Offered: Fa Corporate Governance is the system by which corporations are directed and controlled. Includes rights and responsibilities of stakeholders; rules and procedures for decision-making. Registration Restriction: Online registration open to only graduate accounting and business students. Instruction Mode: Lecture Grading Option: Letter

MOR 547 Mergers and Acquisitions: Integration and Organization
Units: 1.5 Terms Offered: Sp Organize successful mergers and acquisitions with focus on managing and synthesizing the integration process and impact on people and organizations across functions. Registration Restriction: Online registration open only to graduate business and accounting students Instruction Mode: Lecture Grading Option: Letter

MOR 548 Competitive Advantage Through People
Units: 3 Terms Offered: Sp How firms develop employee talent as a source of competitive advantage. Strategic implications of contemporary practices in recruitment, work systems, training, compensation, and employee relations. Speakers and cases. Registration Restriction: Online registration open to only graduate business and accounting students. Instruction Mode: Lecture Grading Option: Letter

MOR 551 Human Capital Performance and Motivation
Units: 3 Terms Offered: Sp Frameworks for enhancing human capital performance motivation at work, including pay/incentive systems, job design, employee involvement, leadership behavior and self-managed teams. Cases, project and speakers. Registration Restriction: Online registration open only to graduate business and accounting students Instruction Mode: Lecture Grading Option: Letter

MOR 554 Leading Innovation and Change
Units: 3 Terms Offered: FaSm Practical knowledge on helping organizations develop innovations and lead change to leverage them. Exploration of innovation and change in different organizations and competitive environments. Registration Restriction: Online registration open only to graduate business and accounting students Instruction Mode: Lecture Grading Option: Letter

MOR 555 Designing High Performance Organizations
Units: 3 Terms Offered: Sp Theory and practice of organization design. How to maximize organization performance by aligning structure, rewards, staffing, processes, and culture with strategy and environment. Registration Restriction: Online registration open only to graduate business and accounting students Instruction Mode: Lecture Grading Option: Letter

MOR 557 Strategy and Organization Consulting
Units: 3 Terms Offered: FaSp How consultants assist clients to formulate strategic plans and realign organizations; approaches used by major consulting firms; information about consulting industry, fee-setting and proposals. Consultant speakers and project. Registration Restriction: Online registration open only to graduate business and accounting students Instruction Mode: Lecture Grading Option: Letter

MOR 559 Strategic Renewal and Transformation
Units: 3 Terms Offered: Fa Dynamic strategic planning; how businesses re-invent themselves; why change is difficult; politics of change process; leadership steps for implementing successful strategic changes. Cases and readings. Registration Restriction: Online registration open only to graduate business and accounting students Instruction Mode: Lecture Grading Option: Letter

MOR 560 Managerial Judgment and Decision-Making
Units: 3 Terms Offered: Sm Development of skills and insight into making effective strategic, financial, and management decisions including awareness of hazards of decisions, issues of rationality, and risk taking. Registration Restriction: Online registration open to only graduate business and accounting students Instruction Mode: Lecture Grading Option: Letter

MOR 561 Strategies in High-Tech Businesses
Units: 3 Terms Offered: Fa How high-tech companies achieve competitive advantage through leveraging technical, management and financial resources. Technology trends and industry evolution. Focus on electronics and bio-technology. Cases and speakers. Registration Restriction: Online registration open only to graduate business and accounting students Instruction Mode: Lecture Grading Option: Letter

MOR 562 Strategic Choice and Valuation Analysis
Units: 3 Terms Offered: Fa Advanced

strategic planning using tools of scenario development and activity valuation for assessing market entry, expansion and business portfolio configuration. Exercises, cases and project. Registration Restriction: Online registration open only to graduate business and accounting students Instruction Mode: Lecture Grading Option: Letter

MOR 563 Advanced Strategy: Competing in Dynamic Environments
Units: 3 Terms Offered: Fa Dynamics of competition, dealing with industry transformations, managing alliances and acquisitions and a variety of other strategic situations. Registration Restriction: Online registration open only to graduate accounting and business students Duplicates Credit in MOR 565 Instruction Mode: Lecture Grading Option: Letter

MOR 564 Strategic Innovation: Creating New Markets
Units: 3 Terms Offered: Sp How firms in rapidly changing global environments innovate to develop new markets, products and services, delivery systems and organizational processes and competencies. Registration Restriction: Online registration open only to graduate accounting and business students Instruction Mode: Lecture Grading Option: Letter

MOR 565 Alliances and Cooperative Strategy
Units: 3 Terms Offered: Fa Essential issues and problems of cooperative strategy. Recognize and evaluate collaborative opportunities to develop and assess an overall cooperative strategy. Readings, cases and group project. Registration Restriction: Online registration open only to graduate business and accounting students Duplicates Credit in MOR 563 Instruction Mode: Lecture Grading Option: Letter

MOR 566 Environmental Sustainability and Competitive Advantage
Units: 1.5, 3 Terms Offered: Sp How business is changing in order to respond to environmental sustainability challenges — adapting strategy, product design, operations, marketing, and accounting. Cases and speakers. Registration Restriction: Online registration open to only graduate accounting and business students. Instruction Mode: Lecture Grading Option: Letter

MOR 567 Interpersonal Influence and Power
Units: 3 Terms Offered: Fa Legitimate and effective use of power to resolve conflicts and mobilize action through understanding the talent and self-interest of people involved in decision-making. Readings, cases. Registration Restriction: Online registration open only to graduate accounting and business majors Instruction Mode: Lecture Grading Option: Letter

MOR 569 Negotiation and Deal-Making
Units: 3 Terms Offered: FaSpSm Strategies and dynamics of deal-making; practical skills necessary to win in a range of business transactions conducted in domestic and international settings. Cases, role-playing, films and simulations. Registration Restriction: Online registration open only to graduate business and accounting students Instruction Mode: Lecture Grading Option: Letter

MOR 570 Leading Effective Teams
Units: 3 Terms Offered: Sm Analytical and behavioral tools that will enable students to effectively diagnose complex work group dynamics and take action to improve group performance. Registration Restriction: Online registration open only to graduate accounting and business students Instruction Mode: Lecture Grading Option: Letter

MOR 571 Leadership and Executive Development
Units: 3 Terms Offered: FaSp Contemporary approaches to leadership, including corporate practices to develop leaders; examples of successful and derailed executives. Students self-assess personal leadership and draft development plans. Readings, speakers, cases. Registration Restriction: Online registration open only to graduate accounting and business students Instruction Mode: Lecture Grading Option: Letter

MOR 572 Leadership and Self-Management
Units: 3 Terms Offered: Fa Successful leaders are effective at self-managing their thoughts, emotions and actions. Concepts and methods for developing essential self-management skills. Registration Restriction: Online registration open to only graduate accounting and business students Instruction Mode: Lecture Grading Option: Letter

MOR 574a Leading and Coaching: Foundations and Practicum
Units: 1.5 Terms Offered: Sp Marshall MBA Leadership Fellows Program (MLFP). Learn, practice and teach leadership. Engage in critical thinking and problem solving. (a) Foundations. (b) Practicum. Application required. Registration Restriction: Open only to full-time MBA students Instruction Mode: Lecture Grading Option: Credit/No Credit

MOR 574b Leading and Coaching: Foundations and Practicum
Units: 1.5 Terms Offered: Fa Marshall MBA Leadership Fellows Program (MLFP). Learn, practice and teach leadership. Engage in critical thinking and problem solving. (a) Foundations. (b) Practicum. Application required. *Prerequisite:* MOR 574a Registration Restriction: Open only to full-time MBA students Instruction Mode: Lecture Grading Option: Credit/No Credit

MOR 579 The Business of Sports Entertainment
Units: 3 Terms Offered: FaSp Business practices and issues in different sports markets including growth opportunities and innovative marketing strategies for attracting and retaining fans and corporate sponsors. Industry speakers. Registration Restriction: Online registration open only to graduate accounting and business students Instruction Mode: Lecture Grading Option: Letter

MOR 588 Corporate Strategy and Competitive Dynamics
Units: 1.5, 3 Terms Offered: Sp Central challenges facing executives in multi-business firms; toolkit for analyzing and executing strategic and operational aspects of corporate advantage, M&As and competitive dynamics. Registration Restriction: Online registration open only to graduate accounting and business students Instruction Mode: Lecture Grading Option: Letter

MOR 590 Directed Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Terms Offered: FaSpSm Research leading to the master's degree. Maximum units which may be applied to the degree to be determined by the department. Instruction Mode: Lecture Grading Option: Credit/No Credit

MOR 592 Field Research in Management and Organization
Units: 0.5, 1, 1.5, 2, 2.5, 3.0, 3.5, 4 Max Units: 12.0 Terms Offered: FaSpSm Individual or team projects studying the management practices of an industry, company, government agency, country, geographic region, etc. Proposal, data collection, analyses, and written report. *Recommended Preparation:* completion of required MBA, MAcc, or MBT course work. Registration Restriction: Open only to master and doctoral students Instruction Mode: Lecture Grading Option: Credit/No Credit

MOR 593 Independent Research in Management and Organization
Units: 0.5, 1, 1.5, 2, 2.5, 3, 3.5, 4 Max Units: 12.0 Terms Offered: FaSpSm Independent research beyond normal course offerings. Proposal, research and written report/paper required. Registration Restriction: Open only to master students Instruction Mode: Lecture Grading Option: Credit/No Credit

MOR 595 Internship in Management and Organization
Units: 0.5, 1, 1.5, 2 Max Units: 09 Terms Offered: FaSpSm Supervised on-the-job business experience in the student's area of interest. (Curricular Practical Training.) *Recommended Preparation:* completion of required MBA, MAcc, or MBT course work Registration Restriction: Open only to master students in Accounting and Business Instruction Mode: Lecture Grading Option: Credit/No Credit

MOR 596 Research Practicum in Management and Organization
Units: 0.5, 1, 1.5, 2 Max Units: 8.0 Terms Offered: FaSpSm Hands-on practical experience working with a Marshall faculty member in the Management and Organization Department on an ongoing research project. Registration Restriction: Open only to master and doctoral students Instruction Mode: Lecture Grading Option: Credit/No Credit

MOR 597 Consulting Project in Management and Organization
Units: 0.5, 1, 1.5, 2, 2.5, 3, 3.5, 4, 4.5, 5 Max Units: 12.0 Terms Offered: FaSpSm Individual or team project solving real business problems for an existing business entity, domestic and/or international. Proposal, field research, analyses and oral and written presentations. Registration Restriction: Open only to master and doctoral students Instruction Mode: Lecture Grading Option: Credit/No Credit

MOR 598 Special Topics
Units: 1, 1.5, 2, 3 Max Units: 09 Terms Offered: FaSpSm Selected topics reflecting current trends and recent developments in management and policy sciences.

Registration Restriction: Online registration open only to graduate accounting and business students Instruction Mode: Lecture Grading Option: Credit/No Credit

MOR 599 Special Topics
Units: 1, 1.5, 2, 3 Max Units: 09 Terms Offered: FaSpSm Selected topics reflecting current trends and recent developments in management and policy sciences. Registration Restriction: Online registration open only to graduate accounting and business students Instruction Mode: Lecture Grading Option: Letter

MOR 601 Seminar in Organizational Behavior
Units: 3 Terms Offered: Fa In-depth review of the theories and empirical research in the discipline of organizational behavior. Topics include: personality, motivation, job design, leadership, and others. Instruction Mode: Lecture Grading Option: Letter

MOR 602 Seminar in Organization Theory
Units: 3 Terms Offered: Fa Survey of organization theory with focus on the history and development of research on organizations. Registration Restriction: Open only to Business Administration and Public Policy and Management doctoral students. Instruction Mode: Lecture Grading Option: Letter

MOR 603 Seminar in Strategic Management
Units: 3 Terms Offered: Sp Survey of strategic management. Topics include historical overview of strategic management, research methods used, current theory, and empirical research on the developing of paradigms. Registration Restriction: Open only to Business Administration doctoral students. Instruction Mode: Lecture Grading Option: Letter

MOR 604 Research Methods in Strategy and Organization
Units: 3 Terms Offered: Irregular Survey of research methods with focus on designing and implementing empirical research projects and critical issues faced by researchers. Instruction Mode: Lecture Grading Option: Letter

MOR 605 Research Methods in Organizational Behavior
Units: 3 Terms Offered: Irregular Design and analysis of behavioral research; methods may include experiments, survey research, qualitative research, statistical analysis, special topics. Emphasis on rigor, validity and statistical power. Instruction Mode: Lecture Grading Option: Letter

MOR 621 Research Forum
Units: 1 Max Units: 4.0 Terms Offered: FaSp Seminar. Review and discuss current research in Organizational Theory, Organizational Behavior and Strategy. Presentations by faculty, visiting researchers, and advanced students. Instruction Mode: Lecture Grading Option: Credit/No Credit

MOR 699 Special Topics
Units: 1.0, 1.5, 2.0, 3.0 Max Units: 08 Terms Offered: FaSpSm Exploration of emerging topics, literature and research techniques in contemporary management, strategy, organizational behavior, organization design, and leadership. Registration Restriction: Open only to doctoral students Instruction Mode: Lecture Grading Option: Letter

MOR 790 Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Terms Offered: FaSpSm Research leading to the doctorate. Registration Restriction: Open only to Marshall Ph.D. students specializing in Management and Organization. Instruction Mode: Lecture Grading Option: Credit/No Credit

Performance (Early Music)

MPEM 201 Individual Instruction
Units: 1 or 2 Max Units: 8.0 Terms Offered: FaSpSm Secondary instrument for lower division students. Instruction Mode: Lecture Grading Option: Letter

MPEM 301 Individual Instruction
Units: 1, 2 Max Units: 16 Intermediate and advanced instruction on secondary instrument for music majors, on principal instrument for music minors and B.A. music majors. Open only to music majors and minors. Registration Restriction: Open only to music majors and minors Instruction Mode: Lecture Grading Option: Letter

MPEM 390 Special Problems
Units: 1, 2, 3, 4 Terms Offered: Irregular Supervised, individual studies. No more than one registration permitted. Enrollment by petition only. Instruction Mode: Lecture Grading Option: Letter

MPEM 450 Collegium Workshop
Units: 1 Max Units: 8.0 Terms Offered: FaSp Study and rehearsal of music of the Middle Ages, Renaissance, and Baroque; technique, interpretation, improvisation, and ornamentation. Instruction Mode: Lecture Grading Option: Letter

MPEM 490x Directed Research
Units: 1, 2, 3, 4, 5, 6, 7, 8 Max Units: 12.0 Terms Offered: FaSpSm Individual research and readings. Instruction Mode: Lecture Grading Option: Letter

MPEM 499 Special Topics
Units: 2, 3, 4 Max Units: 8.0 Selected topics of current interest. Instruction Mode: Lecture Grading Option: Letter

MPEM 501 Individual Instruction
Units: 1 or 2 Max Units: 8.0 Terms Offered: FaSpSm Secondary instruction for graduate music majors or instruction for graduate non-music majors. Instruction Mode: Lecture Grading Option: Letter

MPEM 553 Individual Instruction
Units: 1 or 2 Max Units: 8.0 Terms Offered: FaSpSm Instruction Mode: Lecture Grading Option: Letter

MPEM 554 Graduate Certificate Performance
Units: 4 Max Units: 16.0 Terms Offered: FaSpSm Individual instruction and related lab participation for Graduate Certificate students. Instruction Mode: Lecture Grading Option: Letter

MPEM 590 Directed Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Terms Offered: FaSpSm Research leading to the master's degree. Maximum units which may be applied to the degree to be determined by the department. Instruction Mode: Lecture Grading Option: Credit/No Credit

MPEM 599 Special Topics
Units: 2, 3, 4 Max Units: 8.0 Selected topics of current interest. Instruction Mode: Lecture Grading Option: Letter

MPEM 650 Collegium Directing
Units: 2 Max Units: 4.0 Practical training in the direction of a Collegium Musicum or other early music ensemble; program planning, repertory search and preparation, historical instrumentation and arranging, rehearsal procedure, improvisational techniques, and maintenance of instruments. Instruction Mode: Lecture Grading Option: Letter

MPEM 653 Performance
Units: 1 or 2 Max Units: 12.0 Terms Offered: FaSpSm Individual or master class instruction for DMA Performance majors. Instruction Mode: Lecture Grading Option: Letter

MPEM 754 Artist Diploma Performance
Units: 4 Max Units: 16.0 Terms Offered: FaSpSm Individual instruction and related lab participation for Artist Diploma students. Instruction Mode: Lecture Grading Option: Letter

MPEM 790 Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Research leading to the doctorate. Maximum units which may be applied to the degree to be determined by the department. Instruction Mode: Lecture Grading Option: Credit/No Credit

Performance (Guitar)

MPGU 101x Non-Major Beginning Individual Instruction
Units: 1, 2 Max Units: 2.0 Terms Offered: FaSpSm Individual instruction at the beginning level designed for non-music majors with no previous experience. Instruction Mode: Lecture Grading Option: Letter

MPGU 120a Beginning Pop/Rock Guitar
Units: 2 Terms Offered: FaSpSm Introduction to the performance technique of pop/rock guitar as well as music theory fundamentals, exploring repertoire by artists such as The Beatles and Dave Matthews. Instruction Mode: Lecture Grading Option: Letter

MPGU 120b Beginning Pop/Rock Guitar
Units: 2 Terms Offered: FaSpSm Introduction to the performance technique of pop/rock guitar as well as music theory fundamentals, exploring repertoire by artists such as The Beatles and Dave Matthews. Instruction Mode: Lecture Grading Option: Letter

MPGU 120c Beginning Pop/Rock Guitar
Units: 2 Terms Offered: FaSpSm Introduction to the performance technique of pop/rock guitar as well as music theory fundamentals, exploring repertoire by artists such as The Beatles and Dave Matthews. Instruction Mode: Lecture Grading Option: Letter

MPGU 120d Beginning Pop/Rock Guitar
Units: 2 Terms Offered: FaSpSm Introduction to the performance technique of pop/rock guitar as well as music theory fundamentals, exploring repertoire by artists such as The Beatles and Dave Matthews. Instruction Mode: Lecture Grading Option: Letter

MPGU 121 Intensive Beginning Pop/Rock Guitar
Units: 4 Terms Offered: FaSp Introduction

to the performance technique of pop/rock guitar as well as music theory fundamentals, exploring repertoire by artists such as The Beatles and Dave Matthews. Instruction Mode: Lecture Grading Option: Letter

MPGU 125 Beginning Fingerstyle/Chord Guitar
Units: 2 Terms Offered: FaSp Basic fingerstyle guitar, learned through the study of such pieces as "Greensleeves," "Malaguena," and "Minuet" (Bach); song accompaniment patterns and music notation for the beginner. Instruction Mode: Lecture Grading Option: Letter

MPGU 126 Easy Fingerstyle Beatles
Units: 2 Terms Offered: FaSp Techniques of classical guitar applied to the study of five to eight Beatles songs, from "Hey Jude" to "Blackbird." No guitar or music background required. Instruction Mode: Lecture Grading Option: Letter

MPGU 145 Guitar Proficiency for the Pop Guitarist
Units: 2 Study of theory, technique and fingerboard organization of melodic and harmonic topics as applied to guitar for the beginner popular music student. Open to all music majors. Instruction Mode: Lecture Grading Option: Letter

MPGU 150 Functional Skills for the Popular Guitarist
Units: 2 Study of theory, technique and fingerboard organization of melodic and harmonic topics as applied to guitar. Instruction Mode: Lecture Grading Option: Letter

MPGU 153 Individual Instruction
Units: 1 or 2 Max Units: 8.0 Terms Offered: FaSpSm Instruction Mode: Lecture Grading Option: Letter

MPGU 158 Guitarists in the U.S.
Units: 2 Study of the lives and music of influential guitarists; analysis of musical and technical details. Instruction Mode: Lecture Grading Option: Letter

MPGU 159 Functional Skills for Studio Guitarists I
Units: 2 Study of technique, theory and aural skills as applied to guitar; fingerboard organization of melodic and chordal topics; sight reading. Instruction Mode: Lecture Grading Option: Letter

MPGU 160a Functional Skills for the Jazz Guitarist
Units: 2 Study of theory, technique, and fingerboard organization of melodic and harmonic topics as applied to guitar. Instruction Mode: Lecture Grading Option: Letter

MPGU 160b Functional Skills for the Jazz Guitarist
Units: 2 Study of theory, technique, and fingerboard organization of melodic and harmonic topics as applied to guitar. *Prerequisite:* MPGU 160a Instruction Mode: Lecture Grading Option: Letter

MPGU 253 Individual Instruction
Units: 1 or 2 Max Units: 8.0 Terms Offered: FaSpSm Instruction Mode: Lecture Grading Option: Letter

MPGU 257 Classical Guitar Performance Class
Units: 2 Max Units: 8.0 Terms Offered: FaSp Technical problems; solo and ensemble literature; interpretation; professional preparation. Required of first and second year Classical Guitar majors each semester in residence. Instruction Mode: Lecture Grading Option: Letter

MPGU 258 Functional Skills for Studio Guitarists I
Units: 2 Max Units: 4.0 Terms Offered: FaSp Melodic and chordal topics applied to the total fingerboard; successful completion required for junior standing. *Prerequisite:* MPGU 159. Instruction Mode: Lecture Grading Option: Letter

MPGU 259 Functional Skills for Classical Guitarists I
Units: 2 Terms Offered: Fa Fundamentals of music theory experienced through the medium of the classical guitar. Topics include analysis of important guitar works, basso continuo realization, arranging, and improvisation. *Recommended Preparation:* MUCO 232a. Instruction Mode: Lecture Grading Option: Letter

MPGU 260 Improvising and Arranging for Jazz Guitar
Units: 2 Study and application of principles of improvisation and arranging for Jazz Guitar. Instruction Mode: Lecture Grading Option: Letter

MPGU 300x Non-Major Individual Instruction
Units: 1, 2 Max Units: 16.0 Terms Offered: FaSpSm Intermediate and advanced instruction designed for non-music majors. Not available for credit to music majors. *Recommended Preparation:* MPGU 101. Duplicates Credit in former MPGU 201 and MPGU 401. Instruction Mode: Lecture Grading Option: Letter

MPGU 301 Individual Instruction
Units: 1, 2 Max Units: 16.0 Terms Offered: FaSpSm Intermediate and advanced instruction on secondary instrument for music majors, on principal instrument for music minors and BA music majors. Registration Restriction: Open only to music majors and minors. Duplicates Credit in former MPGU 201 and MPGU 401. Instruction Mode: Lecture Grading Option: Letter

MPGU 335 Jazz Guitar Master Class
Units: 1 Terms Offered: FaSp Explore the music of Joe Diorio, Wes Montgomery and John Coltrane in a master class setting. Instruction Mode: Lecture Grading Option: Letter

MPGU 353 Individual Instruction
Units: 1 or 2 Max Units: 8.0 Terms Offered: FaSpSm Instruction Mode: Lecture Grading Option: Letter

MPGU 357 Advanced Classical Guitar Techniques
Units: 2 Terms Offered: Sp An in-depth exploration of the most advanced facets of classical guitar technique. *Recommended Preparation:* MPGU 257. Instruction Mode: Lecture Grading Option: Letter

MPGU 358 Performance Practices for Studio Guitarists
Units: 2 Max Units: 4.0 Rehearsal procedures; stage deportment; interpretation of solo and ensemble literature; preparation for recitals and professional performance. *Prerequisite:* MPGU 258. Instruction Mode: Lecture Grading Option: Letter

MPGU 390 Special Problems
Units: 1, 2, 3, 4 Terms Offered: Irregular Supervised, individual studies. No more than one registration permitted. Enrollment by petition only. Instruction Mode: Lecture Grading Option: Letter

MPGU 415 Studio Guitar Pedagogy
Units: 2 Teaching techniques and literature; function of the hands; acoustical properties of instruments. Instruction Mode: Lecture Grading Option: Letter

MPGU 416 Evolution of the Guitar in the United States
Units: 3 Historical survey of styles, literature and performance practice; emphasis on playing technique and interpretation. A time-line study relating guitar to popular music and historical events. Duplicates Credit in former MUHL 416. Instruction Mode: Lecture Grading Option: Letter

MPGU 417 Classical Guitar Pedagogy
Units: 2 Teaching techniques and literature; function of the hands; acoustical properties of instruments. Instruction Mode: Lecture Grading Option: Letter

MPGU 420 Guitar Styles
Units: 2 Max Units: 12 Detailed exploration of a specific style or genre of guitar playing through study of repertoire, history and practice, and exploration of techniques. Instruction Mode: Lecture Grading Option: Letter

MPGU 426 Classical Guitar History and Literature
Units: 2 Survey of the history and literature of the guitar and its relatives, primarily the lute and vihuela, from 1500 to 1850. Instruction Mode: Lecture Grading Option: Letter

MPGU 427 Advanced Topics in Classical Guitar History and Literature
Units: 2 Study of the literature of the modern classical guitar and its antecedents and relatives with an emphasis on 20th and 21st century works. *Recommended Preparation:* MPGU 426 Instruction Mode: Lecture Grading Option: Letter

MPGU 428a Improvisation and Arranging for Guitarists
Units: 3 Principles of improvisation and impromptu arranging; comparison and application of techniques and musical styles of the various kinds of guitars and related fretted instruments. Instruction Mode: Lecture Grading Option: Letter

MPGU 428b Improvisation and Arranging for Guitarists
Units: 3 Principles of improvisation and impromptu arranging; comparison and application of techniques and musical styles of the various kinds of guitars and related fretted instruments. Instruction Mode: Lecture Grading Option: Letter

MPGU 453 Individual Instruction
Units: 1 or 2 Max Units: 8.0 Terms Offered: FaSpSm Instruction Mode: Lecture Grading Option: Letter

MPGU 457 Classical Guitar Performance Class
Units: 2 Max Units: 8.0 Terms Offered: FaSp Technical problems; solo and ensemble literature. Required of all third and fourth year classical guitar majors each semester in residence. Instruction Mode: Lecture Grading Option: Letter

MPGU 458 Current Electric Guitar Styles
Units: 2 Analysis and performance of music and techniques currently in use in the recording, TV and motion picture studios; includes study of recordings, videos and guitar equipment. Instruction Mode: Lecture Grading Option: Letter

MPGU 459 Functional Skills for Classical Guitarists II
Units: 2 Terms Offered: Sp Advanced theory and composition on the guitar. Weekly analysis exercises, arranging projects and studies in improvisation and ornamentation are directed toward creating an original solo or chamber work for guitar. *Recommended Preparation:* MUCO 232b, MUCO 233b. Instruction Mode: Lecture Grading Option: Letter

MPGU 460 Advanced Improvising and Arranging for Jazz Guitar
Units: 2 Max Units: 08 Advanced study and application of principles of improvisation and arranging for Jazz Guitar. Instruction Mode: Lecture Grading Option: Letter

MPGU 462 Recording and Producing Techniques for the Guitarist
Units: 2 Detailed exploration of arranging, recording and producing techniques for contemporary guitarists. Instruction Mode: Lecture Grading Option: Letter

MPGU 490x Directed Research
Units: 1, 2, 3, 4, 5, 6, 7, 8 Max Units: 12.0 Terms Offered: FaSpSm Individual research and readings. Instruction Mode: Lecture Grading Option: Letter

MPGU 499 Special Topics
Units: 2, 3, 4 Selected topics of current interest. Instruction Mode: Lecture Grading Option: Letter

MPGU 501 Individual Instruction
Units: 1 or 2 Max Units: 8.0 Terms Offered: FaSpSm Secondary instruction for graduate music majors or instruction for graduate non-music majors. Instruction Mode: Lecture Grading Option: Letter

MPGU 553 Individual Instruction
Units: 1 or 2 Max Units: 8.0 Terms Offered: FaSpSm Instruction Mode: Lecture Grading Option: Letter

MPGU 554 Graduate Certificate Performance
Units: 4 Max Units: 16.0 Terms Offered: FaSpSm Individual instruction and related lab participation for Graduate Certificate students. Instruction Mode: Lecture Grading Option: Letter

MPGU 557 Advanced Classical Guitar Performance Class
Units: 1 Max Units: 4.0 Study of advanced classical guitar solo and ensemble literature; interpretation; professional preparation and other topics appropriate for group study. *Prerequisite:* bachelor's degree with music major; principal instrument, classical guitar. Instruction Mode: Lecture Grading Option: Letter

MPGU 558 Advanced Studio Guitar Performance Class
Units: 1 Max Units: 4.0 Study of advanced studio guitar and ensemble literature; interpretation; professional preparation and other topics appropriate for group study. *Prerequisite:* bachelor's degree with music major; principal instrument, studio guitar. Instruction Mode: Lecture Grading Option: Letter

MPGU 590 Directed Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Terms Offered: FaSpSm Research leading to the master's degree. Maximum units which may be applied to the degree to be determined by the department. Instruction Mode: Lecture Grading Option: Credit/No Credit

MPGU 599 Special Topics
Units: 2, 3, 4 Max Units: 8.0 Selected topics of current interest. Instruction Mode: Lecture Grading Option: Letter

MPGU 653 Performance
Units: 1 or 2 Max Units: 12.0 Terms Offered: FaSpSm Individual or master class instruction for DMA Performance majors. Instruction Mode: Lecture Grading Option: Letter

MPGU 754 Artist Diploma Performance
Units: 4 Max Units: 16.0 Terms Offered: FaSpSm Individual instruction and related lab participation for Artist Diploma students. Instruction Mode: Lecture Grading Option: Letter

MPGU 790 Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Research leading to the doctorate. Maximum units which may be applied to the degree to be determined by the department. Instruction Mode: Lecture Grading Option: Credit/No Credit

Medical Physiology

MPHY 572 Medical Physiology I
Units: 4 Terms Offered: Fa (Enroll in INTD 572)

MPHY 573 Medical Physiology II
Units: 4 Terms Offered: Sp (Enroll in INTD 573)

MPHY 590 Directed Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Terms Offered: FaSpSm Research leading to the master's degree. Maximum units which may be applied to the degree to be determined by the department. Registration Restriction: Open only to master students. Duplicates Credit in former PHBI 590. Instruction Mode: Lecture Grading Option: Credit/No Credit

MPHY 594a Master's Thesis
Units: 2 Terms Offered: FaSpSm Credit upon acceptance of thesis. Duplicates Credit in former PHBI 594a. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

MPHY 594b Master's Thesis
Units: 2 Terms Offered: FaSpSm Credit upon acceptance of thesis. Duplicates Credit in former PHBI 594a. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

MPHY 594z Master's Thesis
Units: 2 Terms Offered: FaSpSm Credit upon acceptance of thesis. Duplicates Credit in former PHBI 594a. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

MPHY 596 Internship for Curricular Practical Training
Units: 1, 2, 3 Max Units: 03 Terms Offered: FaSpSm Part-time or full-time, practical work experience in the student's field of study. The internship must be located at an off-campus facility. Students are individually supervised by faculty. May not be taken until the student has completed at least one semester of enrollment in the graduate program. Registration Restriction: Open only to graduate students Instruction Mode: Lecture Grading Option: Credit/No Credit

Performance (Keyboard Studies)

MPKS 150a Beginning Piano
Units: 2 Terms Offered: FaSp Techniques of performance, note reading, and basic musicianship. Instruction Mode: Lecture Grading Option: Letter

MPKS 150b Beginning Piano
Units: 2 Terms Offered: FaSp Techniques of performance, note reading, and basic musicianship. Instruction Mode: Lecture Grading Option: Letter

MPKS 150c Beginning Piano
Units: 2 Terms Offered: FaSp Techniques of performance, note reading, and basic musicianship. Instruction Mode: Lecture Grading Option: Letter

MPKS 150d Beginning Piano
Units: 2 Terms Offered: FaSp Techniques of performance, note reading, and basic musicianship. Instruction Mode: Lecture Grading Option: Letter

MPKS 153 Individual Instruction
Units: 1 or 2 Max Units: 8.0 Terms Offered: FaSpSm Instruction Mode: Lecture Grading Option: Letter

MPKS 160a Functional Skills for Keyboard Majors I
Units: 2 Terms Offered: FaSp Sight-reading and principles of style as related to intermediate literature; c-clef and open score reading; improvisation and functional harmony. Introduction to standard reference works, periodicals. Required of all keyboard majors. Instruction Mode: Lecture Grading Option: Letter

MPKS 160b Functional Skills for Keyboard Majors I
Units: 2 Terms Offered: FaSp Sight-reading and principles of style as related to intermediate literature; c-clef and open score reading; improvisation and functional harmony. Introduction to standard reference works, periodicals. Required of all keyboard majors. Instruction Mode: Lecture Grading Option: Letter

MPKS 170a Introduction to Piano Repertoire and Performance
Units: 1 Terms Offered: FaSp Survey of basic piano repertoire and styles through lecture, discussion, and performance. a: Late Baroque through Beethoven; b: Schubert to the present. *Prerequisite:* piano performance major status. Instruction Mode: Lecture Grading Option: Letter

MPKS 170b Introduction to Piano Repertoire and Performance
Units: 1 Terms Offered: FaSp Survey of basic piano repertoire and styles through lecture, discussion, and performance. a: Late Baroque through Beethoven; b: Schubert to the present. *Prerequisite:* piano performance major status. Instruction Mode: Lecture Grading Option: Letter

MPKS 228 Four-Hand Keyboard Repertoire
Units: 1 Max Units: 4.0 Terms Offered: FaSp Preparation and performance of literature for piano duets and duo-piano. Duplicates Credit in former MUEN 228. Instruction Mode: Lecture Grading Option: Letter

MPKS 250a Keyboard Instruction I
Units: 2 Terms Offered: FaSp Beginning and elementary instruction; emphasis on reading skills, harmonization, transposition, score reading, improvisation; group instruction in a keyboard laboratory facility. Instruction Mode: Lecture Grading Option: Letter

MPKS 250b Keyboard Instruction I
Units: 2 Terms Offered: FaSp Beginning and elementary instruction; emphasis on reading skills, harmonization, transposition, score reading, improvisation; group instruction in a keyboard laboratory facility. Instruction Mode: Lecture Grading Option: Letter

MPKS 253 Individual Instruction
Units: 1 or 2 Max Units: 8.0 Terms Offered: FaSpSm Instruction Mode: Lecture Grading Option: Letter

MPKS 260a Functional Skills for Keyboard Majors II
Units: 2 Terms Offered: FaSp Sight-reading and principles of style as related to lower advanced literature; extended score reading; improvisation and functional harmony. Mini survey; basic keyboard literature. *Prerequisite:* MPKS 160b. Instruction Mode: Lecture Grading Option: Letter

MPKS 260b Functional Skills for Keyboard Majors II
Units: 2 Terms Offered: FaSp Sight-reading and principles of style as related to lower advanced literature; extended score reading; improvisation and functional harmony. Mini survey; basic keyboard literature. *Prerequisite:* MPKS 160b. Instruction Mode: Lecture Grading Option: Letter

MPKS 300x Non-Major Individual Instruction
Units: 1, 2 Max Units: 16.0 Terms Offered: FaSpSm Intermediate and advanced instruction designed for non-music majors. Duplicates Credit in former MPKS 201 and MPKS 401. Instruction Mode: Lecture Grading Option: Letter

MPKS 301 Individual Instruction
Units: 1, 2 Max Units: 16.0 Terms Offered: FaSpSm Intermediate and advanced instruction on secondary instrument for music majors, on principal instrument for music minors and BA music majors. Registration Restriction: Open only to music majors and minors. Duplicates Credit in former MPKS 201 and MPKS 401. Instruction Mode: Lecture Grading Option: Letter

MPKS 350a Keyboard Instruction II
Units: 2 Terms Offered: FaSp Intermediate and advanced instruction; development of reading, performance and improvisation skills necessary for proficiency examinations. Group and individualized instruction in a keyboard laboratory facility. *Prerequisite:* MPKS 250b. Instruction Mode: Lecture Grading Option: Letter

MPKS 350b Keyboard Instruction II
Units: 2 Terms Offered: FaSp Intermediate and advanced instruction; development of reading, performance and improvisation skills necessary for proficiency examinations. Group and individualized instruction in a keyboard laboratory facility. *Prerequisite:* MPKS 250b. Instruction Mode: Lecture Grading Option: Letter

MPKS 353 Individual Instruction
Units: 1 or 2 Max Units: 8.0 Terms Offered: FaSpSm Instruction Mode: Lecture Grading Option: Letter

MPKS 360a Accompanying
Units: 2 Terms Offered: FaSp Techniques of vocal and instrumental accompanying. Instruction Mode: Lecture Grading Option: Letter

MPKS 360b Accompanying
Units: 2 Terms Offered: FaSp Techniques of vocal and instrumental accompanying. Instruction Mode: Lecture Grading Option: Letter

MPKS 390 Special Problems
Units: 1, 2, 3, 4 Terms Offered: Irregular Supervised, individual studies. No more than one registration permitted. Enrollment by petition only. Instruction Mode: Lecture Grading Option: Letter

MPKS 431a Piano Pedagogy: Introduction and Practicum
Units: 2 Terms Offered: FaSp The learning process at the keyboard; pedagogy and methodology of beginning methods. Studio/group instruction: children/adults. Survey and observation. *Prerequisite:* MPKS 253, MPKS 260b. Instruction Mode: Lecture Grading Option: Letter

MPKS 431b Piano Pedagogy: Introduction and Practicum
Units: 2 Terms Offered: FaSp The learning process at the keyboard; pedagogy and methodology of beginning methods. Studio/group instruction: children/adults. Practice teaching: beginners. *Prerequisite:* MPKS 253, MPKS 260b. Instruction Mode: Lecture Grading Option: Letter

MPKS 435 Technology of the Pianoforte and Harpsichord
Units: 2 Terms Offered: Irregular Analysis of technical innovations and maintenance of the pianoforte and harpsichord as related to musical performance. Instruction Mode: Lecture Grading Option: Letter

MPKS 450a Piano Pedagogy: Intermediate Literature and Functional Skills
Units: 2 Terms Offered: FaSp Methods, study of college curriculum keyboard classes. Studio/group instruction. Business practices; audition, interview techniques. Survey and observation. Instruction Mode: Lecture Grading Option: Letter

MPKS 450b Piano Pedagogy: Intermediate Literature and Functional Skills
Units: 2 Terms Offered: FaSp Methods, study of college curriculum keyboard classes. Studio/group instruction. Business practices; audition, interview techniques. Practice teaching; secondary piano classes. Instruction Mode: Lecture Grading Option: Letter

MPKS 453 Individual Instruction
Units: 1 or 2 Max Units: 8.0 Terms Offered: FaSpSm Instruction Mode: Lecture Grading Option: Letter

MPKS 472a Piano History and Literature
Units: 2 Terms Offered: FaSp Solo piano literature; emphasis on composers' influences, performance practices and the development of the pianoforte. Late Baroque through Beethoven. *Prerequisite:* MUHL 331 and MUHL 332. Instruction Mode: Lecture Grading Option: Letter

MPKS 472b Piano History and Literature
Units: 2 Terms Offered: FaSp Solo piano literature; emphasis on composers' influences, performance practices and the development of the pianoforte. Schubert to the present. *Prerequisite:* MPKS 472a. Instruction Mode: Lecture Grading Option: Letter

MPKS 481 Interpretation of Baroque Music
Units: 2 Max Units: 6.0 Terms Offered: FaSp Repertoire and performance practice in music of the period: style, phrasing, embellishments, dynamics, improvisation, tempi. Performance in class of solo and ensemble works, instrumental and vocal. Instruction Mode: Lecture Grading Option: Letter

MPKS 482 Interpretation of Music of the Classical Period
Units: 2 Max Units: 06 Rigorous analysis of issues of Classical period performance practice and interpretation; Intensive coaching and in-class performances of solo and chamber repertoire. Instruction Mode: Lecture Grading Option: Letter

MPKS 490x Directed Research
Units: 1, 2, 3, 4, 5, 6, 7, 8 Max Units: 12.0 Terms Offered: FaSpSm Individual research and readings. Instruction Mode: Lecture Grading Option: Letter

MPKS 499 Special Topics
Units: 2, 3, 4 Max Units: 8.0 Selected topics of current interest. Instruction Mode: Lecture Grading Option: Letter

MPKS 501 Individual Instruction
Units: 1 or 2 Max Units: 8.0 Terms Offered: FaSpSm Secondary instruction for graduate music majors or instruction for graduate non-music majors. Instruction Mode: Lecture Grading Option: Letter

MPKS 520 Special Studies in Solo Repertoire for Piano
Units: 2 Max Units: 12.0 Terms Offered: FaSp Historical, stylistic and pedagogical aspects of solo repertoire. Special emphasis to be determined by the department. Instruction Mode: Lecture Grading Option: Letter

MPKS 553 Individual Instruction
Units: 1 or 2 Max Units: 8.0 Terms Offered: FaSpSm Instruction Mode: Lecture Grading Option: Letter

MPKS 554 Graduate Certificate Performance
Units: 4 Max Units: 16.0 Terms Offered: FaSpSm Individual instruction and related lab participation for Graduate Certificate students. Instruction Mode: Lecture Grading Option: Letter

MPKS 560 Song Interpretation Master Class
Units: 2 Max Units: 12.0 Terms Offered: FaSp For advanced singers and pianists. Instruction Mode: Lecture Grading Option: Letter

MPKS 561 Chamber Music Interpretation Master Class
Units: 2 Max Units: 12.0 Terms Offered: FaSp For advanced pianists and instrumentalists. Instruction Mode: Lecture Grading Option: Letter

MPKS 590 Directed Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Terms Offered: FaSpSm Research leading to the master's degree. Maximum units which may be applied to the degree to be determined by the department. Instruction Mode: Lecture Grading Option: Credit/No Credit

MPKS 599 Special Topics
Units: 2, 3, 4 Max Units: 8.0 Selected topics of current interest. Instruction Mode: Lecture Grading Option: Letter

MPKS 653 Performance
Units: 1 or 2 Max Units: 12.0 Terms Offered: FaSpSm Individual or master class instruction for DMA Performance majors. Instruction Mode: Lecture Grading Option: Letter

MPKS 754 Artist Diploma Performance
Units: 4 Max Units: 16.0 Terms Offered: FaSpSm Individual instruction and related lab participation for Artist Diploma students. Instruction Mode: Lecture Grading Option: Letter

MPKS 790 Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Research leading to the doctorate. Maximum units which may be applied to the degree to be determined by the department. Instruction Mode: Lecture Grading Option: Credit/No Credit

Performance (Popular Music)

MPPM 100 Popular Music Forum
Units: 1 Max Units: 4.0 Terms Offered: FaSp A weekly lecture series addressing a wide range of special topics and issues confronting the popular musician. Instruction Mode: Lecture Grading Option: Credit/No Credit

MPPM 120 Popular Music Performance I
Units: 2 Max Units: 8.0 Terms Offered: FaSp Study of musical elements appropriate to the performance of popular music in a collaborative, interactive environment. Instruction Mode: Lecture Grading Option: Letter

MPPM 153 Individual Instruction
Units: 1, 2 Max Units: 8.0 Terms Offered: FaSp Weekly individual instruction. Instruction Mode: Lecture Grading Option: Letter

MPPM 170 Vocal Training for the Singer-Songwriter
Units: 2 Technique, tone production, vocal hygiene, and problem solving strategies for Singer-Songwriters. Training in technical skills that enhance vocal power, confidence and increased emotive capacity. Instruction Mode: Lecture Grading Option: Letter

MPPM 240 Drumming Proficiency for the Popular Musician
Units: 2 Terms Offered: FaSp Beginning and elementary instruction in drum set techniques. Instruction Mode: Lecture Grading Option: Letter

MPPM 250 Keyboard Proficiency for the Popular Musician
Units: 2 Terms Offered: FaSp Development of practical keyboard skills, including reading and realizing chord symbols, basics of voice leading, study of various harmonic and rhythmic styles. Instruction Mode: Lecture Grading Option: Letter

MPPM 253 Individual Instruction
Units: 1, 2 Max Units: 8.0 Terms Offered: FaSp Weekly individual instruction. Instruction Mode: Lecture Grading Option: Letter

MPPM 300x Non-Major Individual Instruction
Units: 1, 2 Max Units: 16 Intermediate and advanced instruction designed for non-music majors. Not available for credit to music majors. Credit Restriction: Not available for credit to music majors Instruction Mode: Lecture Grading Option: Letter

MPPM 301 Individual Instruction
Units: 1, 2 Max Units: 16.0 Terms Offered: FaSpSm Intermediate and advanced instruction on secondary instrument for all majors and minors except MPPM. Instruction Mode: Lecture Grading Option: Letter

MPPM 320 Popular Music Performance II
Units: 2 Max Units: 8.0 Terms Offered: FaSp Development of ensemble and communication skills through the performance and interpretation of American popular music in concert and studio settings. Development of original compositions. *Prerequisite:* MPPM 120. Instruction Mode: Lecture Grading Option: Letter

MPPM 325a Arranging in Popular Music
Units: 2 Principles and techniques of arranging for voice and rhythm section in the popular music idiom. Instruction Mode: Lecture Grading Option: Letter

MPPM 325b Arranging in Popular Music
Units: 2 Writing and arranging for small groups of brass, wind, and/or string instruments with rhythm section in the popular music idiom. *Prerequisite:* MPPM 325a Instruction Mode: Lecture Grading Option: Letter

MPPM 340 Intermediate Drum Set Proficiency
Units: 2 Terms Offered: FaSp Intermediate level instruction in drum set performance including accompaniment techniques, fills, beat and brush patterns in jazz, Afro-Caribbean and Brazilian styles, interpreting drum charts. *Recommended Preparation:* MPPM 240. Instruction Mode: Lecture Grading Option: Letter

MPPM 350g A History of Popular Music
Units: 4 The history of popular music particularly as developed in America in the 20th and early 21st centuries. *Recommended Preparation:* MUHL 250g Satisfies New General Education in Category A: The Arts Instruction Mode: Lecture Grading Option: Letter

MPPM 353 Individual Instruction
Units: 1, 2 Max Units: 8.0 Weekly individual instruction in primary major instrument. Instruction Mode: Lecture Grading Option: Letter

MPPM 370 The Vocal Edge: Contemporary Vocal Performance Techniques
Units: 2 Max Units: 4 A study of the practical aspects of vocal performance and skills necessary to increase one's opportunities within the music industry. Instruction Mode: Lecture Grading Option: Letter

MPPM 420 Popular Music Performance Styles and Genres
Units: 2 Max Units: 8.0 Terms Offered: FaSp The detailed exploration of a specific style or genre in Popular Music through study of repertoire, history and practice with particular emphasis on performance. *Recommended Preparation:* MPPM 120 and MPPM 320. Instruction Mode: Lecture Grading Option: Letter

MPPM 450a Final Project
Units: 1 Terms Offered: FaSp Major collaborative performance project in popular music. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

MPPM 450b Final Project
Units: 1 Terms Offered: FaSp Major collaborative performance project in popular music. Instruction Mode: Lecture Grading Option: Credit/No Credit

MPPM 453 Individual Instruction
Units: 1, 2 Max Units: 8.0 Weekly individual instruction in primary major instrument. Instruction Mode: Lecture Grading Option: Letter

MPPM 490x Directed Research
Units: 1, 2, 3, 4, 5, 6, 7, 8 Max Units: 12.0 Individual research and readings. Registration Restriction: Open only to juniors and seniors. Instruction Mode: Lecture Grading Option: Letter

MPPM 499 Special Topics
Units: 2, 3, 4 Max Units: 8.0 Selected topics of current interest. Instruction Mode: Lecture Grading Option: Letter

MPPM 501 Individual Instruction
Units: 1, 2 Max Units: 8.0 Secondary instruction for graduate music majors or instruction for graduate non-music majors. Instruction Mode: Lecture Grading Option: Letter

MPPM 590 Directed Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Research leading to the Master's Degree. Maximum units which may be applied to the degree to be determined by the department. Instruction Mode: Lecture Grading Option: Credit/No Credit

MPPM 599 Special Topics
Units: 2, 3, 4 Max Units: 8.0 Selected topics of current interest Instruction Mode: Lecture Grading Option: Letter

MPPM 790 Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Research leading to the doctorate. Maximum units which may be applied to the degree to be determined by the department. Instruction Mode: Lecture Grading Option: Credit/No Credit

Performance (Strings)

MPST 101x Non-Major Beginning Individual Instruction
Units: 1, 2 Max Units: 2.0 Terms Offered: FaSpSm Individual instruction at the beginning level designed for non-music majors with no previous experience. Instruction Mode: Lecture Grading Option: Letter

MPST 153 Individual Instruction
Units: 1 or 2 Max Units: 8.0 Terms Offered: FaSpSm Instruction Mode: Lecture Grading Option: Letter

MPST 163 Class Harp
Units: 2 Max Units: 04 Basic instruction in the fundamentals of solo harp playing, note reading, and basic musicianship. Instruction Mode: Lecture, Lab Grading Option: Letter

MPST 253 Individual Instruction
Units: 1 or 2 Max Units: 8.0 Terms Offered: FaSpSm Instruction Mode: Lecture Grading Option: Letter

MPST 262 Double Bass Performance Class
Units: 1 Max Units: 4.0 Terms Offered: FaSp Study of solo and orchestra repertoire, professional preparation, and teaching techniques. Required of all first and second year double bass majors each semester in residence. *Prerequisite:* music major. Instruction Mode: Lecture Grading Option: Letter

MPST 263 Harp Performance Class
Units: 1 Max Units: 4.0 Terms Offered: FaSp Study of solo and orchestra repertoire, professional preparation, and teaching technique. Required of all first and second year harp majors each semester in residence. *Prerequisite:* music major. Instruction Mode: Lecture Grading Option: Letter

MPST 300x Non-Major Individual Instruction
Units: 1, 2 Max Units: 16.0 Terms Offered: FaSpSm Intermediate and advanced instruction designed for non-music majors. *Recommended Preparation:* MPST 101. Duplicates Credit in former MPST 201 and MPST 401. Instruction Mode: Lecture Grading Option: Letter

MPST 301 Individual Instruction
Units: 1, 2 Max Units: 16.0 Terms Offered: FaSpSm Intermediate and advanced instruction on secondary instrument for music majors, on principal instrument for music minors and BA music majors. Registration Restriction: Open only to music majors and minors. Duplicates Credit in former MPST 201 and MPST 401. Instruction Mode: Lecture Grading Option: Letter

MPST 353 Individual Instruction
Units: 1 or 2 Max Units: 8.0 Terms Offered: FaSpSm Instruction Mode: Lecture Grading Option: Letter

MPST 390 Special Problems
Units: 1, 2, 3, 4 Terms Offered: Irregular Supervised, individual studies. No more than one registration permitted. Enrollment by petition only. Instruction Mode: Lecture Grading Option: Letter

MPST 453 Individual Instruction
Units: 1 or 2 Max Units: 8.0 Terms Offered: FaSpSm Instruction Mode: Lecture Grading Option: Letter

MPST 462 Double Bass Performance Class
Units: 1 Max Units: 8.0 Terms Offered: FaSp Continuation of MPST 262. Required of all third and fourth year double bass majors each semester in residence. *Prerequisite:* music major. Instruction Mode: Lecture Grading Option: Letter

MPST 463 Harp Performance Class
Units: 1 Max Units: 8.0 Terms Offered: FaSp Continuation of MPST 263. Required of all third and fourth year harp majors each semester in residence. *Prerequisite:* music major. Instruction Mode: Lecture Grading Option: Letter

MPST 471a String Pedagogy
Units: 2 Terms Offered: FaSp Survey of teaching literature; techniques of teaching beginning, intermediate, and advanced students. Instruction Mode: Lecture Grading Option: Letter

MPST 471b String Pedagogy
Units: 2 Terms Offered: FaSp Survey of teaching literature; techniques of teaching beginning, intermediate, and advanced students. Instruction Mode: Lecture Grading Option: Letter

MPST 472 Orchestra Repertoire--Strings
Units: 2 Max Units: 08 Orchestral literature for string players, covering a broad spectrum of the repertoire; emphasis on preparation for auditions. Instruction Mode: Lecture Grading Option: Letter

MPST 490x Directed Research
Units: 1, 2, 3, 4, 5, 6, 7, 8 Max Units: 12.0 Terms Offered: FaSpSm Individual research and readings. Instruction Mode: Lecture Grading Option: Letter

MPST 499 Special Topics
Units: 2, 3, 4 Max Units: 8.0 Selected topics of current interest. Instruction Mode: Lecture Grading Option: Letter

MPST 501 Individual Instruction
Units: 1 or 2 Max Units: 8.0 Terms Offered: FaSpSm Secondary instruction for graduate music majors or instruction for graduate non-music majors. Instruction Mode: Lecture Grading Option: Letter

MPST 553 Individual Instruction
Units: 1 or 2 Max Units: 8.0 Terms Offered: FaSpSm Instruction Mode: Lecture Grading Option: Letter

MPST 554 Graduate Certificate Performance
Units: 4 Max Units: 16.0 Terms Offered: FaSpSm Individual instruction and related lab participation for Graduate Certificate students. Instruction Mode: Lecture Grading Option: Letter

MPST 590 Directed Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Terms Offered: FaSpSm Research leading to the master's degree. Maximum units which may be applied to the degree to be determined by the department. Instruction Mode: Lecture Grading Option: Credit/No Credit

MPST 599 Special Topics
Units: 2, 3, 4 Max Units: 8.0 Selected topics of current interest. Instruction Mode: Lecture Grading Option: Letter

MPST 653 Performance
Units: 1 or 2 Max Units: 12.0 Terms Offered: FaSpSm Individual or master class instruction for DMA Performance majors. Instruction Mode: Lecture Grading Option: Letter

MPST 754 Artist Diploma Performance
Units: 4 Max Units: 16.0 Terms Offered: FaSpSm Individual instruction and related lab participation for Artist Diploma students. Instruction Mode: Lecture Grading Option: Letter

MPST 790 Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Research leading to the doctorate. Maximum units which may be applied to the degree to be determined by the department. Instruction Mode: Lecture Grading Option: Credit/No Credit

Molecular Pharmacology and Toxicology

MPTX 500 Molecular Pharmacology and Toxicology I
Units: 4 Terms Offered: Fa This is the first part of a two-semester introductory and survey course for the molecular pharmacology and toxicology degree program. *Prerequisite:* knowledge of biochemistry. Instruction Mode: Lecture Grading Option: Letter

MPTX 501 Molecular Pharmacology and Toxicology II
Units: 4 Terms Offered: Sp The second part of the two-semester course covers the general aspects of molecular pharmacology and toxicology on the basis of biochemical, molecular, biological and environmental approaches. *Prerequisite:* MPTX 500. Instruction Mode: Lecture Grading Option: Letter

MPTX 502 Pharmacology
Units: 4 Terms Offered: Fa Fundamentals of pharmacology in the context of the rapidly developing knowledge of related disciplines. Instruction Mode: Lecture Grading Option: Letter

MPTX 510 Topics in Pharmacology: the Other Side of Drugs
Units: 2, 3 Terms Offered: Fa Nexus of pharmacology and toxicology; therapeutic use and toxicology of common drugs; and prescribing these drugs in clinical practice. Instruction Mode: Lecture Grading Option: Letter Crosslisted as PHRD 678

MPTX 511 Introduction to Medical Product Regulation
Units: 3 Terms Offered: Sm Introduction to regulatory environments surrounding medical product development, manufacturing and marketing; operation of federal, state and international regulatory bodies. *Recommended Preparation:* undergraduate degree in pharmacy, medicine or independent health sciences, engineering or equivalent mix of post-secondary training and industry experience. Instruction Mode: Lecture Grading Option: Letter

MPTX 512 Regulation of Pharmaceutical and Biological Products
Units: 3 Terms Offered: Sm Ensuring safety and effectiveness of new drugs and biologics; marketing and monitoring approved pharmaceutical/biological products; management of genetically engineered products. *Recommended Preparation:* undergraduate degree in pharmacy, medicine or independent health sciences, engineering or equivalent mix of post-secondary training and industry experience. Instruction Mode: Lecture Grading Option: Letter

MPTX 513 Regulation of Medical Devices and Diagnostics
Units: 3 Terms Offered: Sm Development and testing of new medical products according to U.S. and international regulatory requirements. *Recommended Preparation:* undergraduate degree in pharmacy, medicine or independent health sciences, engineering or equivalent mix of post-secondary training and industry experience. Instruction Mode: Lecture Grading Option: Letter

MPTX 514 Regulation of Food and Dietary Supplements
Units: 3 Terms Offered: Sm Regulation and testing of foods, food additives and dietary supplements in the U.S. and abroad. *Recommended Preparation:* undergraduate degree in pharmacy, medicine or independent health sciences, engineering or equivalent mix of post-secondary training and industry experience. Instruction Mode: Lecture Grading Option: Letter

MPTX 515 Quality Systems and Standards
Units: 3 Terms Offered: Sm Principles of quality assurance and quality control for medical-product development and manufacture. *Recommended Preparation:* undergraduate degree in pharmacy, medicine or independent health sciences, engineering or equivalent mix of post-secondary training and industry experience. Instruction Mode: Lecture Grading Option: Letter

MPTX 516 Medical Products and the Law
Units: 3 Terms Offered: Fa Legal issues affecting intellectual property, medical product development, marketing and safety, taught through case studies and lectures. *Recommended Preparation:* undergraduate degree in pharmacy, medicine or independent health sciences, engineering or equivalent mix of post-secondary training and industry experience. Instruction Mode: Lecture Grading Option: Letter

MPTX 517 Structure and Management of Clinical Trials
Units: 4 Terms Offered: FaSpSm Development and execution of clinical trials: bioethical principles, good clinical practices, project management and documentation. Instruction Mode: Lecture Grading Option: Letter

MPTX 518 Writing Regulatory Drug Submissions
Units: 3 Terms Offered: Sp Developing form and content for investigational drug applications, new drug applications, biologic licensing applications to FDA; common technical documents; considerations of writing style. Instruction Mode: Lecture Grading Option: Letter

MPTX 519 Global Regulation of Medical Products
Units: 3 Terms Offered: Fa Regulatory requirements governing medical products in European Union, Asia and other global markets. Instruction Mode: Lecture Grading Option: Letter

MPTX 520 Toxicology and the Media
Units: 2, 3 Terms Offered: Sp Increase knowledge of toxicology relevance in everyday life through the reading, critical analysis and discussion of articles about current toxicological issues in the media. Instruction Mode: Lecture Grading Option: Letter Crosslisted as PHRD 679

MPTX 522 Introduction to Clinical Trial Design and Statistics
Units: 3 Clinical designs and statistics commonly used to test medical products in general populations and special patient groups. Instruction Mode: Lecture Grading Option: Letter

MPTX 524 Introduction to Food Science and Technology
Units: 3 Terms Offered: Sm Discusses the basic and applied concepts of food science and food safety, and demonstrates the principles of food chemistry, sensory evaluation, and product development. *Recommended Preparation:* undergraduate degree in biological sciences or related disciplines. Instruction Mode: Lecture Grading Option: Letter

MPTX 526 Chemistry Manufacturing and Controls
Units: 3 Terms Offered: Fa Provides a firm foundation in the domestic and international CMC process, from concept to commercialization of new active pharmaceutical ingredients and products. *Recommended Preparation:* undergraduate degree in pharmacy, medicine or independent health science, engineering or equivalent. Instruction Mode: Lecture Grading Option: Letter

MPTX 531 Cell Biology
Units: 4 (Enroll in INTD 531)

MPTX 561 Molecular Biology
Units: 4 Terms Offered: Fa (Enroll in INTD 561)

MPTX 571 Biochemistry
Units: 4 Terms Offered: Sp (Enroll in INTD 571)

MPTX 572 Medical Physiology I
Units: 4 Terms Offered: Fa (Enroll in INTD 572)

MPTX 573 Medical Physiology II
Units: 4 Terms Offered: Sp (Enroll in INTD 573)

MPTX 590 Directed Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Terms Offered: FaSpSm Research leading to the master's degree. Maximum units which may be applied to the degree to be determined by the department. Instruction Mode: Lecture Grading Option: Credit/No Credit

MPTX 594a Master's Thesis
Units: 2 Terms Offered: FaSpSm Credit on acceptance of thesis. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

MPTX 594b Master's Thesis
Units: 2 Terms Offered: FaSpSm Credit on acceptance of thesis. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

MPTX 594z Master's Thesis
Units: 0 Terms Offered: FaSpSm Credit on acceptance of thesis. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

MPTX 596 Internship for Curricular Practical Training
Units: 1, 2, 3 Max Units: 03 Terms Offered: FaSpSm Part-time or full-time, practical work experience in the student's field of study. The internship must be located at an off-campus facility. Students are individually supervised by faculty. May not be taken until the student has completed at least one semester of enrollment in the graduate program with a cumulative 3.0 GPA. Registration Restriction: Open only to graduate students Instruction Mode: Lecture Grading Option: Credit/No Credit

MPTX 599 Special Topics
Units: 2, 3, 4 Max Units: 8.0 Special topics in Molecular Pharmacology and Toxicology. Instruction Mode: Lecture Grading Option: Letter

MPTX 602 Science, Research and Ethics
Units: 2 Terms Offered: Fa A discussion of the unique technological and philosophical issues that challenge modern scientists and a discernment of ethical responses to those challenges. Instruction Mode: Lecture Grading Option: Letter

MPTX 630 Directed Field-Research Project
Units: 6 Terms Offered: FaSpSm Research/ policy analysis conducted under preceptor supervision in an industrial or governmental setting. Instruction Mode: Lecture Grading Option: Credit/No Credit

MPTX 700 Seminar in Molecular Pharmacology and Toxicology
Units: 1 Max Units: 8.0 Terms Offered: FaSp Contemporary advances in molecular pharmacology and toxicology research. Registration required during each year of residency. Instruction Mode: Lecture Grading Option: Letter

MPTX 790 Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Terms Offered: FaSpSm Research leading to the doctorate. Maximum units which may be applied to the degree to be determined by the department. Instruction Mode: Lecture Grading Option: Credit/No Credit

MPTX 794a Doctoral Dissertation
Units: 2 Terms Offered: FaSpSm Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

MPTX 794b Doctoral Dissertation
Units: 2 Terms Offered: FaSpSm Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

MPTX 794c Doctoral Dissertation
Units: 2 Terms Offered: FaSpSm Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

MPTX 794d Doctoral Dissertation
Units: 2 Terms Offered: FaSpSm Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

MPTX 794z Doctoral Dissertation
Units: 0 Terms Offered: FaSpSm Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

Performance (Vocal Arts)

MPVA 101x Non-Major Beginning Individual Instruction
Units: 1, 2 Max Units: 2.0 Terms Offered: FaSpSm Individual instruction at the beginning level designed for non-music majors with no previous experience. Instruction Mode: Lecture Grading Option: Letter

MPVA 140 Vocal Production for Musical Theatre
Units: 2 Exploration of the physiology and acoustics of the human singing voice in a group setting, with an emphasis on musical theatre repertoire. Instruction Mode: Lecture Grading Option: Letter

MPVA 141 Class Voice
Units: 2 Max Units: 4.0 Terms Offered:

FaSp Introduction to the fundamental principles of singing: breath control, tone production, diction, and the use of appropriate song material. Instruction Mode: Lecture Grading Option: Letter

MPVA 150 Musical Theatre Song Interpretation: Tin Pan Alley Era
Units: 2 Study and performance of the music and lyrics that created contemporary Broadway: the Tin Pan Alley era 1855-1940. Instruction Mode: Lecture Grading Option: Letter

MPVA 153 Individual Instruction
Units: 1 or 2 Max Units: 8.0 Terms Offered: FaSpSm Weekly individual instruction and vocal performance forum. Instruction Mode: Lecture Grading Option: Letter

MPVA 203a Acting for Singers I
Units: 2 Terms Offered: FaSp Use of dramatic techniques in the interpretation and performance of music; basic acting techniques for the operatic and recital stages; sensory exercises, movement, improvisation, relaxation and make-up. *Recommended Preparation:* MPVA 153. Duplicates Credit in former MPVA 303. Instruction Mode: Lecture Grading Option: Letter

MPVA 203b Acting for Singers I
Units: 2 Terms Offered: FaSp Use of dramatic techniques in the interpretation and performance of music; basic acting techniques for the operatic and recital stages; sensory exercises, movement, improvisation, relaxation and make-up. *Recommended Preparation:* MPVA 153. Duplicates Credit in former MPVA 303. Instruction Mode: Lecture Grading Option: Letter

MPVA 241 Intermediate Class Voice
Units: 2 Max Units: 4.0 Terms Offered: FaSp Continued development of the fundamentals of singing, diction, and repertoire building. *Prerequisite:* MPVA 141. Instruction Mode: Lecture Grading Option: Letter

MPVA 253 Individual Instruction
Units: 1 or 2 Max Units: 8.0 Terms Offered: FaSpSm Weekly individual instruction and vocal performance forum. Instruction Mode: Lecture Grading Option: Letter

MPVA 260 Italian Language and Diction
Units: 4 Developing competence in listening, vocal pronunciation, speaking, singing, International Phonetic Alphabet (IPA), reading and writing Italian. Emphasizes musical texts including Italian song and operatic arias. Duplicates Credit in ITAL 120 Instruction Mode: Lecture Grading Option: Letter

MPVA 261 French Language and Diction
Units: 4 Developing competence in listening, vocal pronunciation, speaking, singing, International Phonetic Alphabet (IPA), reading and writing French. Emphasizes musical texts including French song and operatic arias. Duplicates Credit in FREN 120 Instruction Mode: Lecture Grading Option: Letter

MPVA 262 German Language and Diction
Units: 4 Developing competence in listening, vocal pronunciation, speaking, singing, International Phonetic Alphabet (IPA), reading, and writing German. Emphasizes musical texts including German song and operatic arias. Instruction Mode: Lecture Grading Option: Letter

MPVA 300x Non-Major Individual Instruction
Units: 1, 2 Max Units: 16 Intermediate and advanced instruction designed for non-music majors. Credit Restriction: Not available for credit to music majors Duplicates Credit in former MPVA 201 and former MPVA 401 Instruction Mode: Lecture Grading Option: Letter

MPVA 301 Individual Instruction
Units: 1, 2 Max Units: 16.0 Terms Offered: FaSpSm Intermediate and advanced instruction: secondary emphasis for music majors, principal emphasis for music minors and all BA music majors. Duplicates Credit in former MPVA 201 and MPVA 401. Instruction Mode: Lecture Grading Option: Letter

MPVA 353 Individual Instruction
Units: 1 or 2 Max Units: 8.0 Terms Offered: FaSpSm Weekly individual instruction and vocal performance forum. Instruction Mode: Lecture Grading Option: Letter

MPVA 390 Special Problems
Units: 1, 2, 3, 4 Terms Offered: Irregular Supervised, individual studies. No more than one registration permitted. Enrollment by petition only. Instruction Mode: Lecture Grading Option: Letter

MPVA 402 Musical Theatre Workshop I
Units: 3 Study of the acting, musical and movement elements involved in the performance of the Broadway musical repertoire. Instruction Mode: Lecture Grading Option: Letter

MPVA 403 Acting for Singers II
Units: 2 Max Units: 8.0 Terms Offered: FaSp Continuation of MPVA 203a, MPVA 203b. Acting of operatic roles in different periods and styles; specific recital and audition techniques. *Recommended Preparation:* MPVA 203a, MPVA 203b. Instruction Mode: Lecture Grading Option: Letter

MPVA 404 Word and Music in Opera
Units: 2 Max Units: 8.0 Terms Offered: Irregular Performance class for singers and pianists; analysis of recitatives, arias, and ensembles of various operatic styles; study of the technique of effective musical delivery. By audition only. *Recommended Preparation:* MPVA 203a, MPVA 203b. Instruction Mode: Lecture Grading Option: Letter

MPVA 405 USC Opera
Units: 2 Max Units: 12.0 Terms Offered: FaSp Preparation, rehearsal, and performance of operatic works and excerpts; study of different operatic styles; public appearances. By audition only. Instruction Mode: Lecture Grading Option: Letter

MPVA 406 Opera Coaching Techniques
Units: 2 Max Units: 8.0 Terms Offered: Irregular Score study for pianists, coaches, and conductors; role analysis; transcription techniques for one or two pianos of an orchestral score. Instruction Mode: Lecture Grading Option: Letter

MPVA 407 Directing for the Operatic Stage
Units: 2 Max Units: 8.0 Terms Offered: FaSp Various approaches to operatic style; basic blocking; stage management. Student direction of scenes produced in USC Opera. Instruction Mode: Lecture Grading Option: Letter

MPVA 412 Musical Theatre Workshop II
Units: 3 Max Units: 06 Stylistic and technical features of dramatic and musical elements involved in performance of the Broadway musical and standard operetta repertory; staging of scenes. *Prerequisite:* MPVA 402 Instruction Mode: Lecture Grading Option: Letter

MPVA 422 Musical Theatre Vocal Book Preparation
Units: 2 Curation and preparation of a professional vocal book for musical theatre auditions. Instruction Mode: Lecture Grading Option: Letter

MPVA 438 Foundations of Vocology
Units: 2 Voice physiology, voice hygiene, voice acoustics, and the cognitive substrates of Motor Learning. Instruction Mode: Lecture Grading Option: Letter

MPVA 440 Italian and French Diction
Units: 2 Principles of pronunciation and enunciation; use of international phonetic alphabet. Duplicates Credit in former MPVA 442a. Instruction Mode: Lecture Grading Option: Letter

MPVA 441 English and German Diction
Units: 2 Principles of pronunciation and enunciation; use of international phonetic alphabet. Instruction Mode: Lecture Grading Option: Letter

MPVA 442 Introduction to the International Phonetic Alphabet
Units: 2 Terms Offered: Fa Principles of pronunciation and enunciation; basic application of the International Phonetic Alphabet symbols and sounds to English, German, Italian, French and Latin. Instruction Mode: Lecture Grading Option: Letter

MPVA 443 Cantata and Oratorio
Units: 2, 2 years Terms Offered: Fa Historical survey of literature, style and performance practice; emphasis on performing solo and small ensemble sections of larger works. Instruction Mode: Lecture Grading Option: Letter

MPVA 453 Individual Instruction
Units: 1 or 2 Max Units: 8.0 Terms Offered: FaSpSm Weekly individual instruction and vocal performance forum. Instruction Mode: Lecture Grading Option: Letter

MPVA 479 Song Literature
Units: 2 Max Units: 04 Song literature of Italy, France, Germany, Russia, Norway, Sweden, England, America; comparative analysis of various composers and their influence on song literature. Duplicates Credit in former MUHL 479 Instruction Mode: Lecture Grading Option: Letter

MPVA 490x Directed Research
Units: 1, 2, 3, 4, 5, 6, 7, 8 Max Units: 12.0 Terms Offered: FaSpSm Individual research and readings. Instruction Mode: Lecture Grading Option: Letter

MPVA 499 Special Topics
Units: 2, 3, 4 Max Units: 8.0 Selected topics of current interest. Instruction Mode: Lecture Grading Option: Letter

MPVA 501 Individual Instruction
Units: 1 or 2 Max Units: 8.0 Terms Offered: FaSpSm Secondary instruction for graduate music majors or instruction for graduate

non-music majors. Instruction Mode: Lecture Grading Option: Letter

MPVA 540 Special Studies in Vocal Literature
Units: 2 Max Units: 6.0 Terms Offered: Sp Art song, concert and operatic repertoire. Emphasis to be determined by the department. Instruction Mode: Lecture Grading Option: Letter

MPVA 541 Advanced Vocology
Units: 2 Voice physiology, both classical and non-classical vocal techniques, voice hygiene, advanced voice acoustics, survey of literature from expertise studies, and the cognitive substrates of motor learning. Instruction Mode: Lecture Grading Option: Letter

MPVA 542 Vocal Pedagogy Teaching Practicum
Units: 2 Applying principles learned in vocology and/or pedagogy through practice voice teaching in both classical and non-classical singing styles. *Prerequisite:* MPVA 438 or MPVA 541 Instruction Mode: Lecture Grading Option: Letter

MPVA 553 Individual Instruction
Units: 1 or 2 Max Units: 8.0 Terms Offered: FaSpSm Weekly individual instruction and vocal performance forum. Instruction Mode: Lecture Grading Option: Letter

MPVA 554 Graduate Certificate Performance
Units: 4 Max Units: 16.0 Terms Offered: FaSpSm Individual instruction and related lab participation for Graduate Certificate students. Instruction Mode: Lecture Grading Option: Letter

MPVA 560 Graduate Italian Diction
Units: 2 A review of the rules of pronunciation, International Phonetic Alphabet (IPA) and grammatical structure of the Italian language through the texts of select repertoire in both Italian song and operatic arias. Instruction Mode: Lecture Grading Option: Letter

MPVA 561 Graduate French Diction
Units: 2 A review of French rules of pronunciation, International Phonetic Alphabet (IPA) and grammatical structure through the in-depth study of song and aria texts. Instruction Mode: Lecture Grading Option: Letter

MPVA 562 Graduate German Diction
Units: 2 A review of German rules of pronunciation, International Phonetic Alphabet (IPA) and grammatical structure through the in-depth study of song and aria texts. *Recommended Preparation:* An undergraduate course in Diction Instruction Mode: Lecture Grading Option: Letter

MPVA 590 Directed Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Terms Offered: FaSpSm Research leading to the master's degree. Maximum units which may be applied to the degree to be determined by the department. Instruction Mode: Lecture Grading Option: Credit/No Credit

MPVA 599 Special Topics
Units: 2, 3, 4 Max Units: 8.0 Selected topics of current interest. Instruction Mode: Lecture Grading Option: Letter

MPVA 653 Individual Instruction
Units: 1 or 2 Max Units: 12.0 Terms Offered: FaSpSm Weekly individual instruction and vocal performance forum. Instruction Mode: Lecture Grading Option: Letter

MPVA 754 Artist Diploma Performance
Units: 4 Max Units: 16.0 Terms Offered: FaSpSm Individual instruction and related lab participation for Artist Diploma students. Instruction Mode: Lecture Grading Option: Letter

MPVA 790 Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Research leading to the doctorate. Maximum units which may be applied to the degree to be determined by the department. Instruction Mode: Lecture Grading Option: Credit/No Credit

Performance (Wind and Percussion)

MPWP 101x Non-Major Beginning Individual Instruction
Units: 1, 2 Max Units: 2.0 Terms Offered: FaSpSm Individual instruction at the beginning level designed for non-music majors with no previous experience. Instruction Mode: Lecture Grading Option: Letter

MPWP 153 Individual Instruction
Units: 1 or 2 Max Units: 8.0 Terms Offered: FaSpSm Instruction Mode: Lecture Grading Option: Letter

MPWP 252 Individual Instrument Performance Class I
Units: 1 Max Units: 4.0 Terms Offered: FaSp Solo and orchestra repertoire, professional preparation, reed making, and other matters appropriate to group study. Required of all first and second year wind and percussion majors each semester in residence. Instruction Mode: Lecture Grading Option: Letter

MPWP 253 Individual Instruction
Units: 1 or 2 Max Units: 8.0 Terms Offered: FaSpSm Instruction Mode: Lecture Grading Option: Letter

MPWP 300x Non-Major Individual Instruction
Units: 1, 2 Max Units: 16.0 Terms Offered: FaSpSm Intermediate and advanced instruction designed for non-music majors. *Recommended Preparation:* MPWP 101. Duplicates Credit in former MPWP 201 and MPWP 401. Instruction Mode: Lecture Grading Option: Letter

MPWP 301 Individual Instruction
Units: 1, 2 Max Units: 16.0 Terms Offered: FaSpSm Intermediate and advanced instruction on secondary instrument for music majors, on principal instrument for music minors and BA music majors. Registration Restriction: Open only to music majors and minors. Duplicates Credit in former MPWP 201 and MPWP 401. Instruction Mode: Lecture Grading Option: Letter

MPWP 353 Individual Instruction
Units: 1 or 2 Max Units: 8.0 Terms Offered: FaSpSm Instruction Mode: Lecture Grading Option: Letter

MPWP 390 Special Problems
Units: 1, 2, 3, 4 Max Units: 4.0 Terms Offered: Irregular Supervised, individual studies. No more than one registration permitted. Enrollment by petition only. Instruction Mode: Lecture Grading Option: Letter

MPWP 440 Drum Set for Classical Percussionists
Units: 1 Max Units: 2.0 Terms Offered: Fa A progressive course for Classical Percussion majors as it pertains to drum set in the symphony orchestra and other classical settings. Registration Restriction: Open only to percussion, and performance (wind instrument or percussion). Instruction Mode: Lecture Grading Option: Letter

MPWP 452 Individual Instrument Performance Class II
Units: 1 Max Units: 4.0 Terms Offered: FaSp Solo and orchestra repertoire, professional preparation, reed making, and other matters appropriate to group study. Required of all third and fourth year wind and percussion majors each semester in residence. Instruction Mode: Lecture Grading Option: Letter

MPWP 453 Individual Instruction
Units: 1 or 2 Max Units: 8.0 Terms Offered: FaSpSm Instruction Mode: Lecture Grading Option: Letter

MPWP 480 Brass Pedagogy Practicum
Units: 2 Teaching and learning of respiration, articulation and phrasing, studio teaching preparation, examination of historically important brass pedagogues and practical training. Instruction Mode: Lecture Grading Option: Letter

MPWP 481 Interpretation of Baroque Music
Units: 2 Max Units: 6.0 Terms Offered: FaSp Repertoire and performance practice in music of the period: style, phrasing, embellishments, dynamics, tempi. Performance in class of solo and ensemble works, instrumental and vocal. Instruction Mode: Lecture Grading Option: Letter

MPWP 482 Interpretation of Classic, Romantic, and 20th Century Wind and Percussion Music
Units: 2 Analysis and performance of 18th, 19th, and 20th century ensemble music, octet through symphonic band; historical perspectives of instruments including technical developments. Instruction Mode: Lecture Grading Option: Letter

MPWP 490x Directed Research
Units: 1, 2, 3, 4, 5, 6, 7, 8 Max Units: 12.0 Terms Offered: FaSpSm Individual research and readings. Instruction Mode: Lecture Grading Option: Letter

MPWP 499 Special Topics
Units: 2, 3, 4 Max Units: 8.0 Selected topics of current interest. Instruction Mode: Lecture Grading Option: Letter

MPWP 501 Individual Instruction
Units: 1 or 2 Max Units: 8.0 Terms Offered: FaSpSm Secondary instruction for graduate music majors or instruction for graduate non-music majors. Instruction Mode: Lecture Grading Option: Letter

MPWP 551 Individual Instrument Performance Class III
Units: 1 Max Units: 2.0 Terms Offered: FaSp Solo and orchestra repertoire, professional preparation, reed making, and other matters appropriate to group study. Intended for MM wind and percussion majors. Instruction Mode: Lecture Grading Option: Letter

MPWP 553 Individual Instruction
Units: 1 or 2 Max Units: 8.0 Terms Offered:

FaSpSm Instruction Mode: Lecture Grading Option: Letter

MPWP 554 Graduate Certificate Performance
Units: 4 Max Units: 16.0 Terms Offered: FaSpSm Individual instruction and related lab participation for Graduate Certificate students. Instruction Mode: Lecture Grading Option: Letter

MPWP 590 Directed Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Terms Offered: FaSpSm Research leading to the master's degree. Maximum units which may be applied to the degree to be determined by the department. Instruction Mode: Lecture Grading Option: Credit/No Credit

MPWP 599 Special Topics
Units: 2, 3, 4 Max Units: 8.0 Selected topics of current interest. Instruction Mode: Lecture Grading Option: Letter

MPWP 653 Performance
Units: 1 or 2 Max Units: 12.0 Terms Offered: FaSpSm Individual or master class instruction for DMA Performance majors. Instruction Mode: Lecture Grading Option: Letter

MPWP 754 Artist Diploma Performance
Units: 4 Max Units: 16.0 Terms Offered: FaSpSm Individual instruction and related lab participation for Artist Diploma students. Instruction Mode: Lecture Grading Option: Letter

MPWP 790 Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Research leading to the doctorate. Maximum units which may be applied to the degree to be determined by the department. Instruction Mode: Lecture Grading Option: Credit/No Credit

Military Science

MS 101 Foundations of Officership
Units: 1 Terms Offered: Fa Introduces students to issues and competencies that are central to a commissioned officer's responsibilities. Establish framework for understanding officership, leadership, and Army values followed and "life skills" such as physical fitness and time management. Duplicates Credit in former MS 100. Instruction Mode: Lecture Grading Option: Letter

MS 102 Basic Leadership
Units: 1 Terms Offered: Sp Establishes foundation of basic leadership fundamentals such as problem solving, communications, briefings and effective writing, goal setting, techniques for improving listening and speaking skills and an introduction to counseling. Duplicates Credit in former MS 110. Instruction Mode: Lecture, Lab Grading Option: Letter

MS 201 Individual Leadership Studies
Units: 2 Terms Offered: Sp Students identify successful leadership characteristics through observation of others and self through experimental learning exercises. Students record observed traits (good and bad) in a dimensional leadership journal and discuss observations in small group settings. Duplicates Credit in former MS 200. Instruction Mode: Lecture Grading Option: Letter

MS 202 Leadership and Teamwork
Units: 2 Terms Offered: Sp Study examines how to build successful teams, various methods for influencing action, effective communication in setting and achieving goals, the importance of timing the decision, creativity in the problem solving process, and obtaining team buy-in through immediate feedback. Duplicates Credit in former MS 210. Instruction Mode: Lecture Grading Option: Letter

MS 301 Leadership and Problem Solving
Units: 3 Terms Offered: Fa Students conduct self-assessment of leadership style, develop personal fitness regimen, and learn to plan and conduct individual/small unit tactical training while testing reasoning and problem-solving techniques. Students receive direct feedback on leadership abilities. Duplicates Credit in former MS 300. Instruction Mode: Lecture, Lab Grading Option: Letter

MS 302 Leadership and Ethics
Units: 3 Terms Offered: Sp Examines the role communications, values, and ethics play in effective leadership. Topics include ethical decision-making, consideration of others, spirituality in the military, and survey Army leadership doctrine. Emphasis on improving oral and written communication abilities. Duplicates Credit in former MS 310. Instruction Mode: Lecture Grading Option: Letter

MS 401 Leadership and Management I
Units: 3 Terms Offered: Fa Develops student proficiency in planning and executing complex operations, functioning as a member of a staff, and mentoring subordinates. Students explore training management, methods of effective staff collaboration, and developmental counseling techniques. Duplicates Credit in former MS 400. Instruction Mode: Lecture Grading Option: Letter

MS 402 Leadership and Management II
Units: 3 Terms Offered: Sp Study includes case study analysis of military law and practical exercises on establishing an ethical command climate. Students must complete a semester long Senior Leadership Project that requires them to plan, organize, collaborate, analyze, and demonstrate their leadership skills. Duplicates Credit in former MS 410. Instruction Mode: Lecture, Lab Grading Option: Letter

MS 499 Special Topics
Units: 2, 3, 4 Max Units: 8.0 Terms Offered: FaSpSm Selected topics in military science. Instruction Mode: Lecture Grading Option: Letter

Sacred Music

MSCR 390 Special Problems
Units: 4 Supervised, individual studies. No more than one registration permitted. Enrollment by petition only. Duplicates Credit in former MUCH 390. Instruction Mode: Lecture Grading Option: Letter

MSCR 473 Hymnology
Units: 2 Study of hymns and hymn tunes, and their functions, from the formation of the Christian Church to the present; historical survey of the literature. Duplicates Credit in former MUCH 473. Instruction Mode: Lecture Grading Option: Letter

MSCR 474 The Organ in Worship and Congregational Life
Units: 2 Accompanying; hymn playing, transposition, improvisation, vocal score reading; conducting from the console; service repertoire. Basic knowledge of the organ as an instrument and planning for and purchase of an organ. Duplicates Credit in former MUCH 474. Instruction Mode: Lecture Grading Option: Letter

MSCR 475 Introduction to Jewish Music
Units: 2 Development of Jewish music from biblical times to the present, with emphasis on liturgical practices, traditions of itinerant musicians and the adaptability of community song. Instruction Mode: Lecture Grading Option: Letter

MSCR 490x Directed Research
Units: 1, 2, 3, 4, 5, 6, 7, 8 Max Units: 12.0 Individual research and readings. Registration Restriction: Open only to juniors and seniors. Duplicates Credit in former MUCH 490. Instruction Mode: Lecture Grading Option: Letter

MSCR 499 Special Topics
Units: 2, 3, 4 Max Units: 8.0 Selected topics of current interest. Instruction Mode: Lecture Grading Option: Letter

MSCR 570 Foundations of Sacred Music
Units: 2 An introduction to the history of sacred music, liturgical practices and worship traditions from antiquity to present day. Duplicates Credit in former MUCH 570. Instruction Mode: Lecture Grading Option: Letter

MSCR 571 Music of the Great Liturgies
Units: 2 Comparison of the Jewish, Eastern Orthodox, Roman Catholic, Lutheran, and Anglican liturgies and their music; relation to music in the nonliturgical service; the church year. Duplicates Credit in former MUCH 571. Instruction Mode: Lecture Grading Option: Letter

MSCR 572 Sacred Music Administration
Units: 2 Terms Offered: FaSpSm Developing, maintaining and administering the music program of the church or other religious institutions. Programming, staffing, developing budgets, techniques and repertoire for the graded choir program, handbell choir and other ensembles. Duplicates Credit in former MUCH 572. Instruction Mode: Lecture Grading Option: Letter

MSCR 590 Directed Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Research leading to the master's degree. Maximum units which may be applied to the degree to be determined by the department. Duplicates Credit in former MUCH 590. Instruction Mode: Lecture Grading Option: Credit/No Credit

MSCR 599 Special Topics
Units: 2, 3, 4 Max Units: 8.0 Selected topics of current interest. Instruction Mode: Lecture Grading Option: Letter

MSCR 790 Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Research leading to the doctorate. Maximum units which may be applied to the degree to be determined by the department. Duplicates Credit in former MUCH 790. Instruction Mode: Lecture Grading Option: Credit/No Credit

MSCR 794a Doctoral Dissertation
Units: 2 Credit on acceptance of dissertation. Registration Restriction: Open only to doctoral students. Duplicates Credit in former MUCH 794abcdz. Instruction

Mode: Lecture Grading Option: In-progress to Credit/No Credit

MSCR 794b Doctoral Dissertation
Units: 2 Credit on acceptance of dissertation. Duplicates Credit in former MUCH 794abcdz. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

MSCR 794c Doctoral Dissertation
Units: 2 Credit on acceptance of dissertation. Duplicates Credit in former MUCH 794abcdz. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

MSCR 794d Doctoral Dissertation
Units: 2 Credit on acceptance of dissertation. Duplicates Credit in former MUCH 794abcdz. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

MSCR 794z Doctoral Dissertation
Units: 0 Credit on acceptance of dissertation. Duplicates Credit in former MUCH 794abcdz. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

Molecular Structure and Signaling

MSS 574 Molecular Structure and Signaling Seminar Series
Units: 1 Max Units: 12.0 Terms Offered: FaSp Selected topics in Molecular Structure and Signaling. Registration Restriction: Open only to doctoral students. Instruction Mode: Lecture Grading Option: Letter

MSS 790 Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Terms Offered: FaSpSm Research leading to the doctorate. Maximum units which may be applied to the degree to be determined by the department. Registration Restriction: Open only to doctoral students. Instruction Mode: Lecture Grading Option: Credit/No Credit

MSS 794a Doctoral Dissertation
Units: 2 Terms Offered: FaSpSm Credit on acceptance of dissertation. Registration Restriction: Open only to doctoral students. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

MSS 794b Doctoral Dissertation
Units: 2 Terms Offered: FaSpSm Credit on acceptance of dissertation. Registration Restriction: Open only to doctoral students. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

MSS 794c Doctoral Dissertation
Units: 2 Terms Offered: FaSpSm Credit on acceptance of dissertation. Registration Restriction: Open only to doctoral students. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

MSS 794d Doctoral Dissertation
Units: 2 Terms Offered: FaSpSm Credit on acceptance of dissertation. Registration Restriction: Open only to doctoral students. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

MSS 794z Doctoral Dissertation
Units: 0 Terms Offered: FaSpSm Credit on acceptance of dissertation. Registration Restriction: Open only to doctoral students. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

Music Technology

MTEC 137a Music Production I
Units: 2 Introduction to computer-based audio recording systems and audio recording, editing and mixing procedures and techniques. Instruction Mode: Lecture Grading Option: Letter

MTEC 137b Music Production I
Units: 2 Introduction to studio recording systems, headphone cues and recording session procedures and techniques. *Prerequisite:* MTEC 137a Instruction Mode: Lecture Grading Option: Letter

MTEC 175 Fundamentals of Audio Recording
Units: 2 Introduction to the principles and techniques of audio recording. Students will gain a basic understanding of signal flow, gain structure, microphones, monitoring systems, signal processing, mixing. Duplicates Credit in former MTEC 275a. Instruction Mode: Lecture Grading Option: Letter

MTEC 176 Critical Listening
Units: 2 Introductory course where students will develop an understanding of audio quality, the musical aspects of audio production and the vocabulary necessary to offer audio critique. *Recommended Preparation:* MTEC 175. Duplicates Credit in former MTEC 275a. Instruction Mode: Lecture Grading Option: Letter

MTEC 237a Music Production II
Units: 2 Study of small ensemble (rhythm section, vocal, background vocals) music production in a variety of popular music styles. *Prerequisite:* MTEC 137b Instruction Mode: Lecture Grading Option: Letter

MTEC 237b Music Production II
Units: 2 Study of large ensemble (rhythm section, vocal, background vocal with horn section and or strings) music production in a variety of popular music styles. *Prerequisite:* MTEC 237a Instruction Mode: Lecture Grading Option: Letter

MTEC 245 Introduction to MIDI Sequencing
Units: 1 Terms Offered: FaSp Introductory course where students will learn to use professional MIDI sequencing software to sequence, edit, and realize music compositions. Instruction Mode: Lecture Grading Option: Letter

MTEC 246 Introduction to Audio Recording and Editing
Units: 1 Terms Offered: FaSp Introduction to the techniques and applications of recording, editing and mixing sound on personal computers. Instruction Mode: Lecture Grading Option: Letter

MTEC 248 Introduction to Music Notation
Units: 1 Terms Offered: FaSp Introduction to the skills and techniques required to prepare musical scores and parts using industry standard music notation software. Instruction Mode: Lecture Grading Option: Letter

MTEC 249 Introduction to Web Design for Musicians
Units: 1 Terms Offered: FaSp Introductory course where students will learn to use professional web languages, tools, and techniques to create musical artist and band websites. Instruction Mode: Lecture Grading Option: Letter

MTEC 275 Fundamentals of Audio Engineering
Units: 4 Fundamentals of Audio Engineering is an intermediate course in the principles and techniques of professional audio production as related to music. *Recommended Preparation:* MTEC 175 and MTEC 176. Duplicates Credit in former MTEC 275b. Instruction Mode: Lecture, Lab Grading Option: Letter

MTEC 277x Introduction to Music Technology
Units: 4 Terms Offered: FaSpSm A survey of the technology used to create, prepare, perform, and distribute music, with an emphasis on recording, MIDI, music production, mastering and Internet technologies. Duplicates Credit in former MUIN 277. Instruction Mode: Lecture Grading Option: Letter

MTEC 301 Individual Instruction
Units: 1, 2 Max Units: 16.0 Terms Offered: FaSp Intermediate and advanced instruction in the applications of technology to the creation and performance of music. *Recommended Preparation:* experience with audio recording and synthesizers. Instruction Mode: Lecture Grading Option: Letter

MTEC 337a Music Production III
Units: 2 Small group instruction to develop the student's arranging, production and project management skills as related to small budget music and multimedia projects. *Prerequisite:* MTEC 237b Instruction Mode: Lecture Grading Option: Letter

MTEC 337b Music Production III
Units: 2 Small group instruction to develop the student's arranging, production and project management skills as related to medium budget music and multimedia projects. *Prerequisite:* MTEC 337a Instruction Mode: Lecture Grading Option: Letter

MTEC 378 Introduction to Mixing and Mastering
Units: 2 Fundamental principles and techniques used to fuse multiple audio elements into clear, comprehensive final products. *Prerequisite:* MTEC 446a Instruction Mode: Lecture Grading Option: Letter

MTEC 379a Recording Studio Theory
Units: 2 Basic electronic concepts needed to understand operational parameters of a state-of-the-art recording studio; schematics, interface, capacitance, resistance and problem solving. *Prerequisite:* MTEC 275. Duplicates Credit in former MUIN 379ab. Instruction Mode: Lecture Grading Option: Letter

MTEC 379b Recording Studio Theory
Units: 2 Basic electronic concepts needed to understand operational parameters of a state-of-the-art recording studio; schematics, interface, capacitance, resistance and problem solving. *Prerequisite:* MTEC 275. Duplicates Credit in former MUIN 379ab. Instruction Mode: Lecture Grading Option: Letter

MTEC 389 Digital Equipment and Recording
Units: 2 Digital equipment including computers, sequencers, digital signal synthesis, MIDI, and rotary and stationary digital recording. *Prerequisite:* MTEC 275.

Duplicates Credit in former MUIN 389. Instruction Mode: Lecture Grading Option: Letter

MTEC 390 Special Problems
Units: 1, 2, 3, 4 Terms Offered: FaSpSm Supervised, individual studies. No more than one registration permitted. Enrollment by petition only. Duplicates Credit in former MUEA 390. Instruction Mode: Lecture Grading Option: Letter

MTEC 392a Acoustics and Speaker Design
Units: 2 Principles of acoustics relating to studio construction, wall treatment, and furnishings; natural reverberation, speaker materials, passive and active crossovers and time alignment. *Prerequisite:* MTEC 275. Duplicates Credit in former MUIN 392ab. Instruction Mode: Lecture Grading Option: Letter

MTEC 392b Acoustics and Speaker Design
Units: 2 Principles of acoustics relating to studio construction, wall treatment, and furnishings; natural reverberation, speaker materials, passive and active crossovers and time alignment. *Prerequisite:* MTEC 275. Duplicates Credit in former MUIN 392ab. Instruction Mode: Lecture Grading Option: Letter

MTEC 430 Advanced Instrumental Recording
Units: 2 An in-depth study of the standard practices and techniques used in contemporary multi-track recording. *Prerequisite:* (MTEC 175 and MTEC 176) or MTEC 277 or MTEC 575 Instruction Mode: Lecture Grading Option: Letter

MTEC 437 Advanced Music Production for Non-Majors
Units: 2 Max Units: 4 The study of small music production in a variety of popular music styles with the goal of developing the students' arranging, production and project management skills. *Recommended Preparation:* MTEC 275, MTEC 443 or MTEC 444, MTEC 446ab, MUSC 255, MUSC 355 Instruction Mode: Lecture Grading Option: Letter

MTEC 442 Operation of the Radio Studio
Units: 2 Terms Offered: FaSpSm An in-depth study of radio studio technical operations. Topics include consoles, microphones, transmission considerations, networks, satellites, and digital and analog production situations. *Prerequisite:* MTEC 275. Duplicates Credit in former MUIN 442. Instruction Mode: Lecture Grading Option: Letter

MTEC 443 Desktop Music Production
Units: 2 Intermediate course where students will learn to use professional MIDI sequencing and digital audio software to compose, edit, and mix songs and other music compositions. *Recommended Preparation:* MTEC 245. Duplicates Credit in in former MUIN 305. Instruction Mode: Lecture Grading Option: Letter

MTEC 444 Non-Linear MIDI Sequencing
Units: 2 Terms Offered: FaSp An in-depth course focusing on the principles and techniques of sequencing and performing musical compositions using a non-linear sequencer. *Recommended Preparation:* MTEC 245. Instruction Mode: Lecture Grading Option: Letter

MTEC 445 Advanced Desktop Music Production
Units: 2 Students will learn to apply their musical and technical skills to create professional quality computer-based arrangements in a variety of musical styles. *Recommended Preparation:* MTEC 443 or MTEC 444 and MTEC 474a. Instruction Mode: Lecture Grading Option: Letter

MTEC 446a Computer Assisted Recording and Editing
Units: 2 Terms Offered: FaSpSm Techniques and applications of recording and editing sound on personal computers. Hardware, software, editing for song, sound effects and dialog for film. Duplicates Credit in former MUIN 446ab. Instruction Mode: Lecture Grading Option: Letter

MTEC 446b Computer Assisted Recording and Editing
Units: 2 Terms Offered: FaSpSm Techniques and applications of recording and editing sound on personal computers. Hardware, software, editing for song, sound effects and dialog for film. Duplicates Credit in former MUIN 446ab. Instruction Mode: Lecture Grading Option: Letter

MTEC 448 Computer Music Notation and Preparation
Units: 2 Techniques and principles of computer music notation including conventions of music notation, idiomatic practices, preparation of significant score types, and MIDI basics. Duplicates Credit in former MUIN 448. Instruction Mode: Lecture Grading Option: Letter

MTEC 451 Performance Technology
Units: 2 Max Units: 04 In-depth course focusing on the concepts, principles and techniques of performing music using audio and MIDI technology. *Recommended Preparation:* MTEC 444 Instruction Mode: Lecture Grading Option: Letter

MTEC 474a Electronic Synthesizer Techniques
Units: 2, 3, 4 Terms Offered: FaSpSm Electronic music procedures in a multi-track studio. Duplicates Credit in former MUEA 474abx. Instruction Mode: Lecture Grading Option: Letter

MTEC 474b Electronic Synthesizer Techniques
Units: 2, 3, 4 Terms Offered: FaSpSm Electronic music procedures in a multi-track studio. Computer applications. Duplicates Credit in former MUEA 474abx. Instruction Mode: Lecture Grading Option: Letter

MTEC 477 Remote Recording Techniques
Units: 2 Special problems of location recording; specialized equipment; microphone design and operation. *Prerequisite:* MTEC 275. Duplicates Credit in former MUIN 477. Instruction Mode: Lecture Grading Option: Letter

MTEC 478 Advanced Multichannel Remix
Units: 2 Special problems of multi-channel re-mixing with simultaneous audio re-processing. Album, film, television and multimedia formats will be covered. *Prerequisite:* MTEC 446a. Duplicates Credit in former MUIN 478. Instruction Mode: Lecture Grading Option: Letter

MTEC 479 Audio Mastering
Units: 2 A survey of the final creative steps of an audio CD. Concepts of acoustics, mastering suite design, critical listening, frequency, dynamics and sequencing. *Prerequisite:* MTEC 275; *Recommended Preparation:* MTEC 446a. Duplicates Credit in former MUIN 479. Instruction Mode: Lecture Grading Option: Letter

MTEC 486 Computer-Assisted Music Editing for Picture
Units: 2 Terms Offered: FaSpSm Techniques and applications of recording, editing and synchronizing music and sounds to film, video or games, using time code and personal computers. *Prerequisite:* MTEC 446b. Duplicates Credit in former MUIN 486. Instruction Mode: Lecture Grading Option: Letter

MTEC 488a Recording Studio Maintenance
Units: 2 Fundamentals needed to perform maintenance on professional audio equipment including trouble-shooting, interface, and alignment procedures. *Prerequisite:* MTEC 275. Duplicates Credit in former MUIN 488ab. Instruction Mode: Lecture Grading Option: Letter

MTEC 488b Recording Studio Maintenance
Units: 2 Fundamentals needed to perform maintenance on professional audio equipment including trouble-shooting, interface, and alignment procedures. *Prerequisite:* MTEC 275. Duplicates Credit in former MUIN 488ab. Instruction Mode: Lecture Grading Option: Letter

MTEC 490x Directed Research
Units: 1, 2, 3, 4, 5, 6, 7, 8 Max Units: 12.0 Terms Offered: FaSpSm Individual research and readings. Duplicates Credit in former MUEA 490x. Instruction Mode: Lecture Grading Option: Letter

MTEC 491 The Recording Console
Units: 4 Introduction to professional analog audio consoles and their use in recording and mixing music for records, video and film. *Prerequisite:* MTEC 275 and MTEC 446a. Duplicates Credit in former MTEC 291. Instruction Mode: Lecture Grading Option: Letter

MTEC 493 Audio Signal Processing Equipment
Units: 2 Principles and design characteristics of digital and analog signal processing equipment including plate reverb, digital reverbs, synchronizers, digital editing systems and mastering systems. *Prerequisite:* MTEC 275. Duplicates Credit in former MUIN 493. Instruction Mode: Lecture Grading Option: Letter

MTEC 494 Classical Music Recording
Units: 4 Principles of classical music recording with emphasis on history, equipment, techniques, and locations. Differences in orchestral, choral, opera, and small ensemble recording. Duplicates Credit in former MUIN 494. Instruction Mode: Lecture Grading Option: Letter

MTEC 498a Senior Project
Units: 1 Culmination of the four-year course of study intended to afford students the opportunity to pursue a mentored project to advance their future careers. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

MTEC 498b Senior Project
Units: 1 Culmination of the four-year course of study intended to afford students the

opportunity to pursue a mentored project to advance their future careers. Instruction Mode: Lecture Grading Option: Credit/No Credit

MTEC 499 Special Topics
Units: 2, 3, 4 Max Units: 8.0 Terms Offered: FaSpSm Selected topics of current interest. Duplicates Credit in former MUEA 499. Instruction Mode: Lecture Grading Option: Letter

MTEC 501 Individual Instruction
Units: 1, 2 Max Units: 8.0 Terms Offered: FaSp Intermediate and advanced instruction in the applications of technology to the creation and performance of music. *Recommended Preparation:* experience with audio recording and synthesizers. Instruction Mode: Lecture Grading Option: Letter

MTEC 550 Technology and the Collegiate Music Curriculum
Units: 2 Prepares the college-level music instructor for assuming a technological leadership role within a music department. Examines traditional, experimental, and pedagogical aspects of technology. *Recommended Preparation:* computer, Internet, and basic music software literacy. Instruction Mode: Lecture Grading Option: Letter

MTEC 575 Music Technology and Production
Units: 4 Terms Offered: FaSpSm Fundamentals of audio recording. Focuses on the principles and applications of sound and hearing, recording systems and their components, and production techniques. Duplicates Credit in former MUIN 575. Instruction Mode: Lecture Grading Option: Letter

MTEC 590 Directed Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Terms Offered: FaSpSm Research leading to the master's degree. Maximum units which may be applied to the degree to be determined by the department. Duplicates Credit in former MUEA 590. Instruction Mode: Lecture Grading Option: Credit/No Credit

MTEC 599 Special Topics
Units: 2, 3, 4 Max Units: 8.0 Selected topics of current interest. Instruction Mode: Lecture Grading Option: Letter

MTEC 790 Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Terms Offered: FaSpSm Research leading to the doctorate. Maximum units which may be applied to the degree to be determined by the department. Duplicates Credit in former MUEA 790. Instruction Mode: Lecture Grading Option: Credit/No Credit

Cell and Neurobiology

CNB 501a Human Gross Anatomy
Units: 3, 4 Terms Offered: FaSpSm A complete dissection of the adult human body. Supplementary lectures and demonstrations. Emphasis on correlating development, structure and function. *a.* focuses on the following anatomical regions: Abdomen, Pelvis, and Head and Neck. *b.* focuses on the following anatomical regions: Axial Skeleton, Upper and Lower Limbs, and Thoracic Cavity. Instruction Mode: Lecture, Lab Required Grading Option: Letter

CNB 501b Human Gross Anatomy
Units: 4 Terms Offered: SpSm A complete dissection of the adult human body. Supplementary lectures and demonstrations. Emphasis on correlating development, structure and function. *a.* focuses on the following anatomical regions: Abdomen, Pelvis, and Head and Neck. *b.* focuses on the following anatomical regions: Axial Skeleton, Upper and Lower Limbs, and Thoracic Cavity. *Prerequisite:* CNB 501a Instruction Mode: Lecture, Lab Required Grading Option: Letter

CNB 502L Advanced Regional Anatomy I
Units: 2 Terms Offered: Fa In-depth dissection of one or more regions of the human body, supplemented with literature research, and teaching practicum. May also enable the student to pursue a minor research investigation in some anatomical region of choice. Focuses on the following anatomical regions: Axial Skeleton, Upper and Lower Limbs, and Thoracic Cavity. *Prerequisite:* CNB 501b *Recommended Preparation:* Courses in general biology, organismal biology, and/or human anatomy Registration Restriction: Open only to senior (fifth year), graduate and professional students Instruction Mode: Lecture, Lab Required Grading Option: Letter

CNB 503L Advanced Regional Anatomy II
Units: 2 Terms Offered: Sp In-depth dissection of one or more regions of the human body, supplemented with literature research, and teaching practicum. May also enable the student to pursue a minor research investigation in some anatomical field of choice. Focuses on the following anatomical regions: Abdomen, Pelvis, and Head and Neck. *Prerequisite:* CNB 501b *Recommended Preparation:* Courses in general biology, organismal biology, and/or human anatomy Registration Restriction: Open only to senior (fifth year), graduate and professional students Instruction Mode: Lecture, Lab Required Grading Option: Letter

CNB 504L Human Skeletal Anatomy
Units: 3 Terms Offered: FaSp An intensive introduction to the human skeleton and the fundamentals of bone and dental biology. Covers a variety of topics including: skeletal development; functional interpretation of bone and bony processes; osteological and dental pathology; human anatomical variation; laboratory analyses and imaging techniques; methods for estimating age, sex, and stature; and comparative osteology. *Prerequisite:* CNB 501a and CNB 501b *Recommended Preparation:* Equivalent dissection-based human anatomy course. Courses in general biology, organismal biology, and/or biological anthropology. Registration Restriction: Open only to freshmen and sophomores Instruction Mode: Lecture, Lab Required Grading Option: Letter

CNB 511aL Microscopic Anatomy
Units: 3 Terms Offered: FaSp Lectures and laboratory in microscopic anatomy emphasizing embryonic origin of the basic body plan, cells, tissues, and organs; ultrastructural and functional correlations.

CNB 511bL Microscopic Anatomy
Units: 3 Terms Offered: FaSp Lectures and laboratory in microscopic anatomy emphasizing embryonic origin of the basic body plan, cells, tissues, and organs; ultrastructural and functional correlations.

CNB 512L Pharmacology I
Units: 5 Terms Offered: Fa Actions, chemical properties, bodily distribution, and toxicology of drugs. Duplicates Credit in former PHNU 510L. Instruction Mode: Laboratory.

CNB 513 Pharmacology II
Units: 3 Terms Offered: Sp Continuation of 512L. *Prerequisite:* CNB 512L. Duplicates Credit in former PHNU 511.

CNB 521 Neuroanatomy
Units: 3 Terms Offered: Sp Structure and function of the human nervous system with emphasis on central conduction pathways, especially those of clinical significance.

CNB 525 Neural Development
Units: 3 Terms Offered: Fa Cellular, molecular, and physiological features of development and plasticity in the nervous system. Lecture and student presentations and discussion of classic and current research literature. *Prerequisite:* BISC 524; *Recommended Preparation:* background in neurosciences.

CNB 530 Anatomy for the Artist
Units: 1, 2 Terms Offered: Irregular This course includes lectures and demonstrations of human anatomy specifically for the artist, and art instruction on drawing the human figure.

CNB 531 Cell Biology
Units: 4 Terms Offered: Fa (Enroll in INTD 531)

CNB 534 Molecular Aspects of Neuropharmacology
Units: 2 Terms Offered: FaSp Current advances in selected areas of molecular neuropharmacology, e.g., mechanisms by which drugs affect neurotransmitter systems, neural plasticity, treatment of neurological and psychiatric diseases.

CNB 550 Cell and Neurobiology Seminar
Units: 1 Max Units: max 6 Terms Offered: FaSp Reports and discussion on recent advances in anatomy. Duplicates Credit in former ANCB 550. Grading Option: Graded CR/NC.

CNB 561 Molecular Biology
Units: 4 Terms Offered: Fa (Enroll in INTD 561)

CNB 571 Biochemistry
Units: 4 Terms Offered: Fa (Enroll in INTD 571)

CNB 572 Medical Physiology I
Units: 4 Terms Offered: Fa (Enroll in INTD 572)

CNB 573 Medical Physiology II
Units: 4 Terms Offered: Sp (Enroll in INTD 573)

CNB 580 Teaching in the Anatomical Sciences
Units: 1 Terms Offered: Fa Introduces pedagogical principles of learning and assessment, effective content delivery, and instructional design for anatomical teaching. *Prerequisite:* CNB 501b *Recommended Preparation:* Courses in general biology, organismal biology, human anatomy and/or physiology Registration Restriction: Open only to senior (fifth year), graduate and professional students Instruction Mode: Lecture Grading Option: Letter

CNB 581 Teaching in the Anatomical Sciences: Practicum
Units: 3 Terms Offered: FaSp Obtain a deeper understanding of clinical anatomy, develop pedagogical skills in small-group anatomical demonstration, and learn to prepare practical exams. *Recommended Preparation:* College level coursework in general biology and human physiology, successful completion of CNB 501a and CNB 501b *Corequisite:* CNB 580 Registration Restriction: Open only to senior (fifth year), graduate and professional students Instruction Mode: Lecture, Lab Required Grading Option: Letter

CNB 590 Directed Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Terms Offered: FaSpSm Research leading to the master's degree. Maximum units which may be applied to the degree to be determined by the department. Grading Option: Graded CR/NC.

CNB 594a Master's Thesis
Units: 2 Terms Offered: FaSpSm Credit on acceptance of thesis. Grading Option: Graded IP/CR/NC.

CNB 594b Master's Thesis
Units: 2 Terms Offered: FaSpSm Credit on acceptance of thesis. Grading Option: Graded IP/CR/NC.

CNB 594z Master's Thesis
Units: 0 Terms Offered: FaSpSm Credit on acceptance of thesis. Grading Option: Graded IP/CR/NC.

CNB 598 Introductory Laboratory Rotations
Units: 1, 2, 3 Terms Offered: FaSp Introductory laboratory rotations wherein students are directed in individualized research, reading and discussion to provide perspective and supplemental background in areas of faculty research interests.

CNB 599 Special Topics
Units: 2, 3, 4 Max Units: max 8 Terms Offered: FaSp Special topics provides background for instruction and research in the Department of Cell and Neurobiology through lectures, discussions, assigned readings, and student presentations. Duplicates Credit in former ANCB 599 and PHNU 599.

CNB 600 Literature Tutorial
Units: 1 Max Units: max 3 Terms Offered: FaSp Individualized readings and discussions culminating in a literature-review paper; to promote the acquisition of critical thinking skills in the evaluation of scientific problems. *Recommended Preparation:* background in biological sciences.

CNB 603 Current Topics in Vision Research
Units: 2 Terms Offered: Sp Basic science (e.g., anatomy, cell biology, electrophysiology) and clinical aspects of the eye: cornea, lens, retina, and optic nerve. USC faculty and authorities from other institutions will lecture.

CNB 604 Current Topics in Animal Development
Units: 2, 2 years Terms Offered: Sp Current research in selected aspects of mammalian and nonmammalian developmental biology, including the molecular genetics and molecular biology of organogenesis, morphogenesis, lineage specification, and differentiation. *Prerequisite:* INTD 561 and CNB 542.

CNB 631 Morphogenesis and Regeneration
Units: 2, 2 years Terms Offered: Sp Analysis of developing and regenerating systems: historical and recent interpretations of morphogenetic movements, tissue interactions, fields, gradients, differentiation, and determination.

CNB 641 Brain-Endocrine Interactions in Reproduction
Units: 2 Terms Offered: Fa Past and current experimental approaches to morphology and endocrinology at hypothalamic, pituitary, and gonadal levels in both males and females. *Prerequisite:* CNB 511aL, CNB 511bL, or a general endocrinology course.

Conducting

MUCD 301 Individual Instruction
Units: 1, 2 Max Units: 16.0 Terms Offered: FaSpSm Intermediate and advanced instruction secondary emphasis for music majors and minors. Registration Restriction: Open only to music majors and minors. Duplicates Credit in former MUCD 401. Instruction Mode: Lecture Grading Option: Letter

MUCD 340 Choral Conducting I
Units: 2 Terms Offered: FaSpSm Basic conducting techniques; score analysis; conducting patterns; problems of tempo, dynamics, articulation and text. Instruction Mode: Lecture Grading Option: Letter

MUCD 343 Instrumental Conducting I
Units: 2 Terms Offered: FaSp Communicating musical ideas to instrumental ensembles; reading and conducting from full score of orchestral compositions. *Prerequisite:* ability to read a music score. Instruction Mode: Lecture Grading Option: Letter

MUCD 348 Instrumental Conducting and Orchestration
Units: 2 Reading and conducting from scores, communicating musical ideas to instrumental ensembles, arranging for small and large ensembles, notation, playing techniques, timbre, rhythm and intonation. Instruction Mode: Lecture Grading Option: Letter

MUCD 390 Special Problems
Units: 1, 2, 3, 4 Supervised, individual studies. No more than one registration permitted. Enrollment by petition only. Instruction Mode: Lecture Grading Option: Letter

MUCD 441 Choral Conducting II
Units: 2 Refinement of techniques developed in MUCD 340; study of styles and interpretations of choral music from the Renaissance to the present. *Prerequisite:* MUCD 340 Instruction Mode: Lecture Grading Option: Letter

MUCD 443 Instrumental Conducting II
Units: 2 Terms Offered: FaSpSm Principal composers and representative instrumental works since the 18th century; studies of styles and interpretations based on scores and the performance of works in class. Instruction Mode: Lecture Grading Option: Letter

MUCD 490x Directed Research
Units: 1, 2, 3, 4, 5, 6, 7, 8 Max Units: 12.0 Individual research and readings. Instruction Mode: Lecture Grading Option: Letter

MUCD 499 Special Topics
Units: 2, 3, 4 Max Units: 8.0 Selected topics of current interest. Instruction Mode: Lecture Grading Option: Letter

MUCD 501 Individual Instruction
Units: 1 or 2 Max Units: 8.0 Terms Offered: FaSpSm Secondary instruction for graduate music majors or instruction for graduate non-music majors. Instruction Mode: Lecture Grading Option: Letter

MUCD 541 Choral Conducting III
Units: 2 Max Units: 6.0 Problems of preparing and conducting contemporary choral music and major choral-orchestral works from full score; special projects according to student's development and interests. *Prerequisite:* MUCD 441. Instruction Mode: Lecture Grading Option: Letter

MUCD 543 Instrumental Conducting III
Units: 2 Max Units: 4.0 Terms Offered: FaSp Problems in advanced conducting. *Prerequisite:* MUCD 443. Instruction Mode: Lecture Grading Option: Letter

MUCD 550 Orchestral Conducting Seminar
Units: 2 Max Units: 8.0 Terms Offered: FaSp Advanced instrumental conducting techniques. Literature drawn from music of all periods. *Prerequisite:* MUCD 441, MUCD 443, and admission as candidate for MM degree in conducting. Instruction Mode: Lecture Grading Option: Letter

MUCD 553 Individual Instruction
Units: 1 or 2 Max Units: 8.0 Terms Offered: FaSpSm Instruction Mode: Lecture Grading Option: Letter

MUCD 590 Directed Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Research leading to the master's degree. Maximum units which may be applied to the degree to be determined by the department. Instruction Mode: Lecture Grading Option: Credit/No Credit

MUCD 599 Special Topics
Units: 2, 3, 4 Max Units: 8.0 Selected topics of current interest. Instruction Mode: Lecture Grading Option: Letter

MUCD 641 Choral Conducting IV
Units: 2 Max Units: 8.0 Continuation of MUCD 541, including choral conducting pedagogy. *Prerequisite:* MUCD 541. Instruction Mode: Lecture Grading Option: Letter

MUCD 653 Performance
Units: 1 or 2 Max Units: 12.0 Terms Offered: FaSpSm Individual or master class instruction for DMA Performance majors. Duplicates Credit in former MUPF 653. Instruction Mode: Lecture Grading Option: Letter

MUCD 790 Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Research leading to the doctorate. Maximum units which may be applied to the degree to be determined by the department. Instruction Mode: Lecture Grading Option: Credit/No Credit

Choral Music

MUCM 320 Introduction to Choral Music
Units: 2 An introduction to the many facets of choral music. Grounding in the intellectual and practical issues of choirs, singing, and choral literature. *Recommended Preparation:* ability to read music. Instruction Mode: Lecture Grading Option: Letter

MUCM 390 Special Problems
Units: 1, 2, 3, 4 Supervised, individual studies. No more than one registration is permitted. Enrollment by petition only. Instruction Mode: Lecture Grading Option: Letter

MUCM 440 Choral Development
Units: 2 Problems of achieving proper balance, blend, intonation, diction, precision, etc., in choral groups; criteria for selection of repertoire for particular groups. Instruction Mode: Lecture Grading Option: Letter

MUCM 490x Directed Research
Units: 1, 2, 3, 4, 5, 6, 7, 8 Max Units: 12.0 Individual research and readings. Instruction Mode: Lecture Grading Option: Letter

MUCM 499 Special Topics
Units: 2, 3, 4 Max Units: 8.0 Selected topics of current interest. Instruction Mode: Lecture Grading Option: Letter

MUCM 541 Choral Literature I
Units: 2 Choral composition from c. 1500 to 1800. Performance and analysis of representative works. Instruction Mode: Lecture Grading Option: Letter

MUCM 542 Choral Literature II
Units: 2 19th and 20th century choral works; criteria for program building. Instruction Mode: Lecture Grading Option: Letter

MUCM 543 Seminar in Choral Music
Units: 2 Max Units: 4.0 Advanced choral techniques; historical, analytical and performance problems. *Prerequisite:* MUCM 641. Instruction Mode: Lecture Grading Option: Letter

MUCM 590 Directed Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Supervised research in preparation for the Master's recital. Instruction Mode: Lecture Grading Option: Credit/No Credit

MUCM 599 Special Topics
Units: 2, 3, 4 Max Units: 8.0 Selected topics of current interest. Instruction Mode: Lecture Grading Option: Letter

MUCM 641 Choral Literature III
Units: 2 Detailed study of selected major choral works; historical context, score analysis, performance practices. *Prerequisite:* MUCM 541, MUCM 542. Instruction Mode: Lecture Grading Option: Letter

MUCM 643 Seminar in Choral Music II
Units: 2 Max Units: 4.0 Terms Offered: Sp Continuation of MUCM 543, with concentration on the conducting problems in major choral-orchestral works. Instruction Mode: Lecture Grading Option: Letter

MUCM 790 Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Research leading to the doctorate. Maximum units which may be applied to the degree to be determined by the department. Instruction Mode: Lecture Grading Option: Credit/No Credit

MUCM 794a Doctoral Dissertation
Units: 2 Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

MUCM 794b Doctoral Dissertation
Units: 2 Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

MUCM 794c Doctoral Dissertation
Units: 2 Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress & Credit/No Credit

MUCM 794d Doctoral Dissertation
Units: 2 Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress & Credit/No Credit

MUCM 794z Doctoral Dissertation
Units: 0 Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress & Credit/No Credit

Composition

MUCO 095x Music Fundamentals Immersion
Units: 1 Immersive course for selected students in MUCO 132a/MUCO 133a. Emphasis on providing a foundation in understanding pitches, intervals, scales, keys, key signatures, chords, rhythms, and meters. *Concurrent Enrollment:* MUCO 132a and MUCO 133a Credit Restriction: Not available for major credit for music majors Instruction Mode: Lecture Grading Option: Credit/No Credit

MUCO 101x Fundamentals of Music Theory
Units: 2 Terms Offered: FaSp An introductory course in music theory required for those majors in need of remedial training, and available to the general student who wishes to develop music writing skills. *Recommended Preparation:* ability to read music. Instruction Mode: Lecture Grading Option: Letter

MUCO 130ax Basics of Music Theory
Units: 3 Terms Offered: FaSp Introduction to music theory; scales, intervals, principles of common practice and popular music harmony; melodic, harmonic, and structural analysis; 20th century developments. Instruction Mode: Lecture Grading Option: Letter

MUCO 130bx Basics of Music Theory
Units: 3 Terms Offered: FaSp Introduction to music theory; scales, intervals, principles of common practice and popular music harmony; melodic, harmonic, and structural analysis; 20th century developments. Instruction Mode: Lecture Grading Option: Letter

MUCO 131a Harmony in Popular Music
Units: 2 Terms Offered: FaSpSm Study of harmony used in the popular music idiom, as well as diminished chord patterns, modulation techniques, basic modal theory, and principles of melodic construction. *Prerequisite:* MUCO 133b. Instruction Mode: Lecture Grading Option: Letter

MUCO 131b Harmony in Popular Music
Units: 2 Terms Offered: FaSpSm Study of harmony used in the popular music idiom, as well as diminished chord patterns, modulation techniques, basic modal theory, and principles of melodic construction. *Prerequisite:* MUCO 131a. Instruction Mode: Lecture Grading Option: Letter

MUCO 132a Aural Skills I
Units: 2 Terms Offered: FaSp Sight-singing, dictation, related keyboard application. Instruction Mode: Lecture, Lab Grading Option: Letter

MUCO 132b Aural Skills I
Units: 2 Terms Offered: FaSp Sight-singing, dictation, related keyboard application. Instruction Mode: Lecture, Lab Grading Option: Letter

MUCO 133a Theory I
Units: 3 Terms Offered: FaSp Notation, scales, intervals; introduction to counterpoint; harmonic principles of the common practice period; analysis, written work. *Concurrent Enrollment:* Concurrent registration in Aural Skills required. Instruction Mode: Lecture Grading Option: Letter

MUCO 133b Theory I
Units: 3 Terms Offered: FaSp Continuation of MUCO 133a; elements of form; application of analysis to performance. *Concurrent Enrollment:* Concurrent registration in Aural Skills required. Instruction Mode: Lecture Grading Option: Letter

MUCO 135 Counterpoint I
Units: 2 Terms Offered: FaSpSm The study of the techniques of modal counterpoint; exercises in two-, three- and four-part writing in 16th century style. *Corequisite:* MUCO 137a. Instruction Mode: Lecture Grading Option: Letter

MUCO 137a Composition I
Units: 4 Beginning exercises in composing, initial composition projects, study, lectures and class discussions of selected compositions from the repertory. Instruction Mode: Lecture, Lab Grading Option: Letter

MUCO 137b Composition I
Units: 4 Beginning exercises in composing, initial composition projects, study, lectures and class discussions of selected compositions from the repertory. *Prerequisite:* MUCO 137a Instruction Mode: Lecture, Lab Grading Option: Letter

MUCO 140 Music for Dancers
Units: 2 Practical understanding and perception of music coupled with the ability to follow a score and understand the work in relation to dance. Instruction Mode: Lecture Grading Option: Letter

MUCO 142 Aural Skills and Musicianship for Musical Theatre I
Units: 2 Introduction to sight-singing, dictation, and related musicianship skills, foundational music theory, form and application of analysis to performance. Instruction Mode: Lecture Grading Option: Letter

MUCO 143 Aural Skills and Musicianship for Musical Theatre II
Units: 2 Development of sight-singing, dictation, and related musicianship skills, music theory, form and application of analysis to performance for Musical Theatre. *Prerequisite:* MUCO 142

Instruction Mode: Lecture Grading Option: Letter

MUCO 221ax Composition for Non-Majors
Units: 2 Terms Offered: FaSp Introduction to the composition of concert music. Includes set exercises, free composition, study of selected compositions. Intended for interested, qualified students not majoring in composition. *Prerequisite:* MUCO 221a; *Recommended Preparation:* MUCO 130b, MUCO 133b. Instruction Mode: Lecture Grading Option: Letter

MUCO 221bx Composition for Non-Majors
Units: 2 Terms Offered: FaSp Introduction to the composition of concert music. Includes set exercises, free composition, study of selected compositions. Intended for interested, qualified students not majoring in composition. *Prerequisite:* MUCO 221a; *Recommended Preparation:* MUCO 130b, MUCO 133b. Instruction Mode: Lecture Grading Option: Letter

MUCO 232a Aural Skills II
Units: 2 Terms Offered: FaSp Continuation of MUCO 132a, MUCO 132b. Instruction Mode: Lecture, Lab Grading Option: Letter

MUCO 232b Aural Skills II
Units: 2 Terms Offered: FaSp Continuation of MUCO 132a, MUCO 132b. Instruction Mode: Lecture, Lab Grading Option: Letter

MUCO 233a Theory II
Units: 3 Terms Offered: Fa Analysis of representative pieces from the classic and romantic periods; exercises in composition. *Prerequisite:* MUCO 133b. Instruction Mode: Lecture Grading Option: Letter

MUCO 233b Theory II
Units: 3 Terms Offered: Sp Survey of 20th century developments; composition utilizing 20th century techniques. *Prerequisite:* MUCO 133b. Instruction Mode: Lecture Grading Option: Letter

MUCO 235 Counterpoint II
Units: 2 Terms Offered: Sp Studies in tonal counterpoint; two-, three- and four-part counterpoint in 18th century style; polyphonic variations; inventions. *Prerequisite:* MUCO 137b. Instruction Mode: Lecture Grading Option: Letter

MUCO 236 Orchestration I
Units: 2 Terms Offered: Fa Introduction to the principles of instrumentation; ranges techniques, timbres; transpositions of orchestral instruments; beginning exercises in orchestration. *Prerequisite:* MUCO 137b. Instruction Mode: Lecture Grading Option: Letter

MUCO 237a Composition II
Units: 4 Composition in shorter forms, continuation of score analysis and listening assignments. *Prerequisite:* MUCO 137b Instruction Mode: Lecture, Lab Grading Option: Letter

MUCO 237b Composition II
Units: 4 Composition in shorter forms, continuation of score analysis and listening assignments. *Prerequisite:* MUCO 237a Instruction Mode: Lecture, Lab Grading Option: Letter

MUCO 300 Theory Review
Units: 1 Terms Offered: FaSpSm Review of materials covered in Theory I and II. For students whose entrance examination in music theory indicates the need for further study. Instruction Mode: Lecture Grading Option: Letter

MUCO 321x Composition for Non-Majors II
Units: 1, 2 Max Units: 8.0 Terms Offered: FaSpSm Individual instruction in composition for non-composition majors. Continuation of MUCO 221a, MUCO 221b. *Prerequisite:* MUCO 221b. Instruction Mode: Lecture Grading Option: Letter

MUCO 333 Aural Skills Review
Units: 1 Terms Offered: FaSp Review of the materials covered in Aural Skills I, II, and III. For students whose entrance examination in aural skills indicates the need for further study. Instruction Mode: Lecture Grading Option: Letter

MUCO 336a Orchestration II
Units: 2 Terms Offered: FaSp Intermediate exercises in orchestration, including scoring for chamber ensembles and orchestra; study of the history of orchestration. *Prerequisite:* MUCO 236. Instruction Mode: Lecture Grading Option: Letter

MUCO 336b Orchestration II
Units: 2 Terms Offered: FaSp Intermediate exercises in orchestration, including scoring for chamber ensembles and orchestra; study of the history of orchestration. *Prerequisite:* MUCO 236. Instruction Mode: Lecture Grading Option: Letter

MUCO 337a Composition III
Units: 2 Individual instruction in composition; preparation for the senior recital. *Prerequisite:* MUCO 237b Instruction Mode: Lecture, Lab Grading Option: Letter

MUCO 337b Composition III
Units: 2 Individual instruction in composition; preparation for the senior recital. *Prerequisite:* MUCO 337a Instruction Mode: Lecture, Lab Grading Option: Letter

MUCO 338x Elementary Orchestration
Units: 2 Terms Offered: Fa Range, techniques, timbre, transposition of orchestral instruments; exercises in orchestration. *Recommended Preparation:* MUCO 233b. Instruction Mode: Lecture Grading Option: Letter

MUCO 339 Orchestration Review
Units: 1 Terms Offered: FaSm Review of materials covered in elementary orchestration; for students whose entrance examination in orchestration indicates a need for further study. Instruction Mode: Lecture Grading Option: Letter

MUCO 341 Counterpoint Review
Units: 1 Terms Offered: SpSm Review of materials covered in tonal counterpoint. For students whose entrance examination in counterpoint indicates the need for further study. For graduate students only. Instruction Mode: Lecture Grading Option: Letter

MUCO 360 Music Notation and Copying
Units: 1 Development of skills in music calligraphy. Instruction Mode: Lecture Grading Option: Letter

MUCO 370a Arranging for the Recording Media
Units: 2 Arranging and composing for studio recording ensembles. Instruction Mode: Lecture Grading Option: Letter

MUCO 370b Arranging for the Recording Media
Units: 2 Arranging and composing for studio recording ensembles. Instruction Mode: Lecture Grading Option: Letter

MUCO 390 Special Problems
Units: 1, 2, 3, 4 Supervised, individual studies. No more than one registration permitted. Enrollment by petition only. Instruction Mode: Lecture Grading Option: Letter

MUCO 406a Contemporary Notation
Units: 2 Notating new music; study and comparison of representative scores. Instruction Mode: Lecture Grading Option: Letter

MUCO 406b Contemporary Notation
Units: 2 Notating new music; study and comparison of representative scores. Instruction Mode: Lecture Grading Option: Letter

MUCO 422 Composers and Interdisciplinary Art Studies
Units: 2 Max Units: 6.0 A structured collaboration between composers and artists outside of music to explore an interdisciplinary area in an environment of practical collaborative creation. *Prerequisite:* MUCO 133b. Instruction Mode: Lecture Grading Option: Letter

MUCO 425 Instrumental Music of Debussy and Ravel
Units: 2 Critical examination of the piano, chamber, and orchestral scores; comparison of styles, techniques and aesthetics of these "Impressionist" composers. *Prerequisite:* MUCO 336a or MUCO 338; MUHL 331; MUHL 332. Instruction Mode: Lecture Grading Option: Letter

MUCO 432a Advanced Theory
Units: 1 or 2 Special problems in music theory. Instruction Mode: Lecture Grading Option: Letter

MUCO 432b Advanced Theory
Units: 1 or 2 Special problems in music theory. Instruction Mode: Lecture Grading Option: Letter

MUCO 434 Analytical Techniques
Units: 2 Selected analytical topics. *Prerequisite:* MUCO 232b, MUCO 233b. Instruction Mode: Lecture Grading Option: Letter

MUCO 435 Counterpoint III
Units: 2 Terms Offered: Fa Canon and fugue; 19th and 20th century developments. *Prerequisite:* MUCO 235. Instruction Mode: Lecture Grading Option: Letter

MUCO 436 Orchestration III
Units: 2 Terms Offered: Sp Continuation of Orchestration II. *Prerequisite:* MUCO 336a, MUCO 336b. Instruction Mode: Lecture Grading Option: Letter

MUCO 437a Composition IV
Units: 2 Individual instruction in composition; preparation for the senior recital. *Prerequisite:* MUCO 337b Instruction Mode: Lecture, Lab Grading Option: Letter

MUCO 437b Composition IV
Units: 2 Individual instruction in composition; preparation for the senior recital. *Prerequisite:* MUCO 437a Instruction Mode: Lecture, Lab Grading Option: Letter

MUCO 438 Arranging for Marching Band
Units: 2 Fundamental concepts; instrumental capabilities; notation; color and scoring; modulation; percussion writing. *Prerequisite:* MUCO 336b or MUCO 338. Instruction Mode: Lecture Grading Option: Letter

MUCO 439 Band Arranging
Units: 2 Max Units: 4.0 Characteristics and use of individual instruments; writing for separate choirs; chamber and solo writing; scoring piano, organ, and orchestral music for band. *Prerequisite:* MUCO 237b, MUCO 336b or MUCO 338. Instruction Mode: Lecture Grading Option: Letter

MUCO 441 Choral Arranging
Units: 1, 2 Max Units: 4.0 Terms Offered: FaSpSm Arranging and composing for chorus. *Prerequisite:* MUCO 233b. Instruction Mode: Lecture Grading Option: Letter

MUCO 470 Electroacoustic Composition
Units: 2 Electronic music for the composer: history of means and styles, aesthetic issues and practical problems, computer usages, bibliography and repertoire. *Recommended Preparation:* MTEC 474a. Instruction Mode: Lecture Grading Option: Letter

MUCO 490x Directed Research
Units: 1, 2, 3, 4, 5, 6, 7, 8 Max Units: 12.0 Individual research and readings. Instruction Mode: Lecture Grading Option: Letter

MUCO 499 Special Topics
Units: 2, 3, 4 Max Units: 8.0 Selected topics of current interest. Instruction Mode: Lecture Grading Option: Letter

MUCO 501 Introduction to the Analysis of Tonal Music
Units: 2 Terms Offered: FaSp Survey of common practice period (1650–1900) approaches to phrase design, tonal organization and type-forms (binary, ternary, rondo, sonata). Instruction Mode: Lecture Grading Option: Letter

MUCO 502 Introduction to the Analysis of Post-Tonal Music
Units: 2 Terms Offered: FaSp Introductory survey of 20th/21st century approaches to the organization of pitch (serial, modal, extended tonal, etc.), rhythm, texture and form. Instruction Mode: Lecture Grading Option: Letter

MUCO 521x Composition for Non-Majors III
Units: 1, 2 Max Units: 8.0 Terms Offered: FaSpSm Individual instruction in composition. *Prerequisite:* submission of portfolio of musical compositions. Instruction Mode: Lecture Grading Option: Letter

MUCO 531 Advanced Analysis of Tonal Music: Reduction
Units: 2 Consideration of recent developments in music theory and their application to the analysis of tonal music, focusing on techniques of musical reduction. *Prerequisite:* MUCO 501 Instruction Mode: Lecture Grading Option: Letter

MUCO 532 Advanced Analysis of Tonal Music: Form
Units: 2 Consideration of recent developments in music theory and their application to Classical Common Practice repertoire, focusing on contemporary analytical approaches to the sonata idea. *Prerequisite:* MUCO 501 Instruction Mode: Lecture Grading Option: Letter

MUCO 533a Analytical Approaches to Tonal Music
Units: 2 Terms Offered: FaSp Introducing to essential structural and prolongational aspects of Schenkerian theory. *Prerequisite:* MUCO 501. Instruction Mode: Lecture Grading Option: Letter

MUCO 533b Analytical Approaches to Tonal Music
Units: 2 Terms Offered: FaSp Application of the Schenkerian methods to individual movements and short pieces. *Prerequisite:* MUCO 501. Instruction Mode: Lecture Grading Option: Letter

MUCO 534 Advanced Analysis of Post-Tonal Music: Pitch
Units: 2 Introduction, application and critiques of canonical pitch-based analytical techniques applied to post-tonal music. *Prerequisite:* MUCO 502 Instruction Mode: Lecture Grading Option: Letter

MUCO 535 Advanced Analysis of Post-Tonal Music: Beyond Pitch
Units: 2 Compositional departures from conventional notions of pitch and harmony; application and critiques of non-pitch-based analytical techniques for post-tonal music. *Prerequisite:* MUCO 502 Instruction Mode: Lecture Grading Option: Letter

MUCO 536 Advanced Orchestration I
Units: 1, 2, 3, 4 Max Units: 4.0
Terms Offered: FaSp Continuation of Orchestration III with emphasis on contemporary techniques. Instruction Mode: Lecture Grading Option: Letter

MUCO 537 Advanced Composition I
Units: 1 or 2 Max Units: 8.0 For graduates with evidence of preparation for advanced work. Instruction Mode: Lecture Grading Option: Letter

MUCO 538a Analytical Approaches to Post-Tonal Music from 1908–1950
Units: 2 Terms Offered: FaSp The breakdown of tonality, rise of atonal/pantonal pitch organization, new and extended approaches to tonality, modality. *Prerequisite:* MUCO 502. Instruction Mode: Lecture Grading Option: Letter

MUCO 538b Analytical Approaches to Post-Tonal Music from 1908–1950
Units: 2 Terms Offered: FaSp Continuation of MUCO 538a; twelve-tone methods, just tuning systems, new approaches to rhythm, texture, timbre. *Prerequisite:* MUCO 502. Instruction Mode: Lecture Grading Option: Letter

MUCO 539a Theoretical and Aesthetic Issues in Music from 1950 to the Present
Units: 2 Terms Offered: FaSp Anti-rationality and indeterminancy, ultra-rationality and integral serialism, new performance procedures, electronic music and new technologies, minimalism. *Prerequisite:* MUCO 502. Instruction Mode: Lecture Grading Option: Letter

MUCO 539b Theoretical and Aesthetic Issues in Music from 1950 to the Present
Units: 2 Terms Offered: FaSp Post-modernism of reaction, post-modernism of resistance, mannerist minimalism, anti-modernism. *Prerequisite:* MUCO 502. Instruction Mode: Lecture Grading Option: Letter

MUCO 548 Writer and Composer
Units: 2 Structured collaboration among composers and poets. Activities include fundamentals of poetry, comparative analysis, creative projects. Registration Restriction: Open to Literature and Creative Writing and Composition majors only; students with other majors require departmental approval Instruction Mode: Lecture Grading Option: Letter

MUCO 550 Teaching Music Theory
Units: 2 Comparative study of curricula, text materials, and teaching strategies in music theory. Instruction Mode: Lecture Grading Option: Letter

MUCO 571 Comparative Analytical Studies: Traditional Forms
Units: 2 Max Units: 6.0 Terms Offered: FaSpSm Analytical survey of the development of a specific form or genre. Specific emphasis to be determined by the department. *Recommended Preparation:* MUCO 501. Instruction Mode: Lecture Grading Option: Letter

MUCO 572 Comparative Analytical Studies: 20th/21st Century and Non-Traditional Forms
Units: 2 Max Units: 6.0 Terms Offered: FaSpSm In-depth analysis of characteristic forms and genres of 20th century music or of other forms and genres that do not figure largely in the "common practice" tradition. Specific emphasis to be determined by the department. *Recommended Preparation:* MUCO 501. Instruction Mode: Lecture Grading Option: Letter

MUCO 573 Special Studies in Contrapuntal Music
Units: 2 Max Units: 6.0 Terms Offered: FaSpSm In-depth analytical and historical study of contrapuntal techniques and styles. Emphasis to be determined by the department. *Recommended Preparation:* MUCO 501. Instruction Mode: Lecture Grading Option: Letter

MUCO 574 Special Studies in Tonal Analysis
Units: 2 Max Units: 6.0 Terms Offered: FaSpSm Analytical study of major composers and/or problems in tonal music. Emphasis to be determined by the department. *Recommended Preparation:* MUCO 501. Instruction Mode: Lecture Grading Option: Letter

MUCO 575 Special Studies in Post-Tonal Analysis
Units: 2 Max Units: 6.0 Terms Offered: FaSpSm Analytical study of major composers and/or problems in post-tonal music. Emphasis to be determined by the department. *Recommended Preparation:* MUCO 502. Instruction Mode: Lecture Grading Option: Letter

MUCO 576 Special Studies in Musical Aesthetics
Units: 2 Max Units: 6.0 Terms Offered: FaSpSm An investigation of aesthetics in general and the application of aesthetic theories to music; readings will be selected from pre-modern, modern, and post-modern texts. *Recommended Preparation:* MUCO 501 and MUCO 502. Instruction Mode: Lecture Grading Option: Letter

MUCO 590 Directed Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Research leading to the master's degree. Maximum units which may be applied to the degree to be determined by the department. Instruction Mode: Lecture Grading Option: Credit/No Credit

MUCO 592 Selected Topics in Graduate Composition
Units: 2 Max Units: 8.0 Terms Offered: Irregular Seminar for graduate students in composition that addresses aesthetic, technical and analytical issues from a composer's perspective. Registration Restriction: Open only to theory and composition majors. Instruction Mode: Lecture Grading Option: Letter

MUCO 594a Master's Thesis
Units: 2 Credit on acceptance of thesis. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

MUCO 594b Master's Thesis
Units: 2 Credit on acceptance of thesis. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

MUCO 594z Master's Thesis
Units: 0 Credit on acceptance of thesis. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

MUCO 599 Special Topics
Units: 2, 3, 4 Max Units: 8.0 Seminars in selected areas of study. Instruction Mode: Lecture Grading Option: Letter

MUCO 631 Writing about Analysis
Units: 2 Seminar on analytical writing through examination of varied analyses of single works, interrogation of method, style and effectiveness; mentored writing. Instruction Mode: Lecture Grading Option: Letter

MUCO 633a Advanced Analysis of Tonal Music
Units: 2 Application of Schenkerian techniques to large works. *Prerequisite:* MUCO 533b. Instruction Mode: Lecture Grading Option: Letter

MUCO 633b Advanced Analysis of Tonal Music
Units: 2 Criticisms and extensions of Schenker, semiotic approaches, theories of rhythmic structure. *Prerequisite:* MUCO 533b. Instruction Mode: Lecture Grading Option: Letter

MUCO 636 Advanced Orchestration II
Units: 1 or 2 Max Units: 4.0 Terms Offered: FaSp Continuation of Advanced Orchestration I with emphasis on historical survey of orchestral compositions and advanced orchestration projects. *Prerequisite:* MUCO 536. Instruction Mode: Lecture Grading Option: Letter

MUCO 637 Advanced Composition II
Units: 1, 2 Max Units: 4.0 Continuation of MUCO 537. For students holding the MM degree in composition. *Prerequisite:* MUCO 536, MUCO 637. Instruction Mode: Lecture Grading Option: Letter

MUCO 737 Advanced Composition III
Units: 1 or 2 Max Units: 8.0 Continuation of MUCO 637. *Prerequisite:* MUCO 536, MUCO 637. Instruction Mode: Lecture Grading Option: Letter

MUCO 790 Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Research leading to the doctorate. Maximum units which may be applied to the degree to be determined by the department. Instruction Mode: Lecture Grading Option: Credit/No Credit

MUCO 794a Doctoral Dissertation
Units: 2 Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

MUCO 794b Doctoral Dissertation
Units: 2 Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

MUCO 794c Doctoral Dissertation
Units: 2 Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

MUCO 794d Doctoral Dissertation
Units: 2 Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

MUCO 794z Doctoral Dissertation
Units: 0 Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

Music Teaching and Learning

MTAL 330 Fundamentals of Music
Units: 4 Introduction to the content of music through an investigation of its melodic, rhythmic, and harmonic structure. Duplicates Credit in former MUED 330x Instruction Mode: Lecture Grading Option: Letter

MTAL 440a Music and Movement: The Orff Approach
Units: 2 Orff Schulwerk techniques in rhythmic and melodic training through speech, singing, body percussion, playing Orff instruments, improvisation, and elemental movement. Certification available. Duplicates Credit in former MUED 440a Instruction Mode: Lecture Grading Option: Letter

MTAL 440b Music and Movement: The Orff Approach
Units: 2 Orff Schulwerk techniques in rhythmic and melodic training through speech, singing, body percussion, playing Orff instruments, improvisation, and elemental movement. Certification available. *Prerequisite:* MTAL 440a Duplicates Credit in former MUED 440b Instruction Mode: Lecture Grading Option: Letter

MTAL 443 Teaching Vocal Jazz
Units: 2 Strategies for teaching the principles of vocal jazz; historical perspective, repertoire, recordings, improvisation, scat, accompaniment, amplification, rehearsing, teaching sequences. No prior jazz experience necessary. Duplicates Credit in former MUED 443 Instruction Mode: Lecture Grading Option: Letter

MTAL 449 Teaching Marching Band
Units: 2 Modern school marching band techniques; precision drill; administration; rehearsal techniques. Duplicates Credit in former MUED 449 Instruction Mode: Lecture Grading Option: Letter

MTAL 470 Improvisation and Composition for Teaching and Learning
Units: 2 An introduction to the craft of musical improvisation and composition, developing personal and idiomatic vocabulary in a variety of traditional and contemporary musical styles. Instruction Mode: Lecture Grading Option: Letter

MTAL 475 Teaching and Learning: Children
Units: 2 Applied study of developmental, contextual, pedagogical and philosophical issues that underlie children's music learning experiences. Instruction Mode: Lecture Grading Option: Letter

MTAL 476 Teaching and Learning: Youth
Units: 2 Applied study of developmental, contextual, pedagogical and philosophical issues that underlie musical experiences of adolescents and young adults. Instruction Mode: Lecture Grading Option: Letter

MTAL 477 Cultural Diversity in Music Teaching and Learning
Units: 1 Study of cultural issues in music teaching and learning. Instruction Mode: Lecture Grading Option: Letter

MTAL 480 Contemporary Pedagogy, Small Instrumental Ensembles
Units: 3 Designed to cover traditional approaches to small group teaching in schools with contemporary techniques. Percussion, guitar, keyboard, informal instruments are featured. Also features a fieldwork component. Instruction Mode: Lecture, Lab Grading Option: Letter

MTAL 481 Contemporary Pedagogy, Larger Instrumental Ensembles
Units: 3 Traditional approaches to large group teaching in schools with contemporary techniques. Brass, woodwind and string instruments are featured. Features a fieldwork component. Instruction Mode: Lecture, Lab Grading Option: Letter

MTAL 482 Contemporary Pedagogy, Vocal and General Music
Units: 2 Designed to cover traditional approaches to vocal/general music group teaching in schools with contemporary techniques. Vocal and general music techniques are featured. Also features a fieldwork component. Instruction Mode: Lecture, Lab Grading Option: Letter

MTAL 490x Directed Research
Units: 1, 2, 3, 4, 5, 6, 7, 8 Max Units: 12 Individual research and readings. Registration Restriction: Open only to juniors and seniors Duplicates Credit in former MUED 490x Instruction Mode: Lecture Grading Option: Letter

MTAL 499 Special Topics
Units: 2, 3, 4 Max Units: 8 Selected topics of current interest reflective of changing trends in music education. Duplicates Credit in former MUED 499 Instruction Mode: Lecture Grading Option: Letter

MTAL 500 Research Foundations in Music Teaching and Learning
Units: 3 Introductory exploration of types of research linked to research literature in music teaching and learning; interpreting research reports; organizing and writing research proposals and reports. Duplicates Credit in former MUED 500 Instruction Mode: Lecture Grading Option: Letter

MTAL 501 Historical Foundations of Music Education
Units: 3 A contextual exploration of the historical development of American music education. Duplicates Credit in former MUED 501 Instruction Mode: Lecture Grading Option: Letter

MTAL 502 Sociological Foundations of Music Teaching and Learning
Units: 3 Study of interdependent relationship between society, music and music education. Duplicates Credit in former MUED 502 Instruction Mode: Lecture Grading Option: Letter

MTAL 503 Philosophical and Advocacy Issues in Music Teaching and Learning
Units: 3 Exploration of philosophical thinking in the field of music with emphasis on philosophical foundations for teaching and learning. Duplicates Credit in former MUED 503 Instruction Mode: Lecture Grading Option: Letter

MTAL 504 Psychological Foundations of Music
Units: 3 Exploration of theories, research and practice in psychological foundations of music teaching and learning. Duplicates Credit in former MUED 504 Instruction Mode: Lecture Grading Option: Letter

MTAL 505 Teaching and Learning Music
Units: 2 Studies of the latest resources concerning the teaching and learning of music so that musicians can function more effectively as both teachers and performers. Duplicates Credit in former MUED 505 Instruction Mode: Lecture Grading Option: Letter

MTAL 510 Leading a Music Program in a Public School Setting
Units: 2 The philosophy and purposes of music programs combined with early field experiences, varied teaching strategies, and music learning assessment. Duplicates Credit in former MUED 510 Instruction Mode: Lecture Grading Option: Letter

MTAL 535 Community Engagement Through Music
Units: 2 Explores the essential role of community and arts partnerships in music education with implications for the expanding entrepreneurial role of musician/educators. Instruction Mode: Lecture Grading Option: Letter

MTAL 537 Community Engagement Models and Frameworks in Music
Units: 1 Explores frameworks of partnerships and community organizations to inform innovative design, negotiate complexity and problem-solve in community music organizations. Instruction Mode: Lecture Grading Option: Letter

MTAL 538 Music in the Community, Program Development and Evaluation
Units: 2 Explores the design and development of community music programs, including community needs assessment, program delivery and strategies and applications for program evaluation. Instruction Mode: Lecture Grading Option: Letter

MTAL 550 Teaching Music Fundamentals and Appreciation Courses
Units: 2 Purpose and objectives of music in general education. Survey of current approaches and materials. Duplicates Credit in former MUED 550 Instruction Mode: Lecture Grading Option: Letter

MTAL 552 Music Education Courseware Development
Units: 2 Development of music education courseware using current technology. Two lecture hours per week. Duplicates Credit in former MUED 552 Instruction Mode: Lecture Grading Option: Letter

MTAL 576 Using Technology in the Classroom
Units: 2 Study of the tools and knowledge necessary to the music educator to facilitate the application of computers and electronic music in music education. Duplicates Credit in former MUED 515 Instruction Mode: Lecture Grading Option: Letter

MTAL 584 Early Childhood Music
Units: 2 An overview of significant developmental issues, current research, and appropriate practices for children from birth to age eight. Professor-guided practicum teaching. Duplicates Credit in former MUED 520 Instruction Mode: Lecture Grading Option: Letter

MTAL 585 Research and Practice in Orff Schulwerk
Units: 2 Exploring research on the philosophical and historical bases of the Orff Schulwerk approach and acquiring skills in pedagogical applications in early childhood through collegiate settings. Duplicates Credit in former MUED 640 Instruction Mode: Lecture Grading Option: Letter

MTAL 588 Guided Practice
Units: 3 Student teachers observe and teach under the guidance of a university supervisor (USC professor) and a master teacher. Instruction Mode: Lecture, Lab Grading Option: Letter

MTAL 589 Community Music Practicum
Units: 2 Max Units: 04 Provides structure and support as students design, develop and execute a community music project as part of an existing organization or a new endeavor. Instruction Mode: Lecture Grading Option: Letter

MTAL 590 Directed Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Research leading to the master's degree. Maximum units which may be applied to the degree to be determined by the department. Duplicates Credit in former MUED 590 Instruction Mode: Lecture Grading Option: Credit/No Credit

MTAL 592 Final Project
Units: 2 Required for the Master of Music, Teaching and Learning degree. Credit upon acceptance. *Prerequisite:* MTAL 500 Duplicates Credit in former MUED 592 Instruction Mode: Lecture Grading Option: Credit/No Credit

MTAL 594a Master's Thesis
Units: 2 Credit on acceptance of thesis. Registration Restriction: Open only to master students Duplicates Credit in former MUED 594a Instruction Mode: Lecture Grading Option: In Progress/Credit/No Credit

MTAL 594b Master's Thesis
Units: 2 Credit on acceptance of thesis. *Prerequisite:* MTAL 594a Registration Restriction: Open only to master students Duplicates Credit in former MUED 594b Instruction Mode: Lecture Grading Option: In Progress/Credit/No Credit

MTAL 594z Master's Thesis
Units: 0 Credit on acceptance of thesis. *Prerequisite:* MTAL 594b Registration Restriction: Open only to master students Duplicates Credit in former MUED 594z Instruction Mode: Lecture Grading Option: In Progress/Credit/No Credit

MTAL 599 Special Topics
Units: 2, 3, 4 Max Units: 8 Selected topics of current interest reflective of changing trends in music education. Duplicates Credit in former MUED 599 Instruction Mode: Lecture Grading Option: Letter

MTAL 605 College Teaching in Music Education
Units: 2 Exploration of music education faculty duties at the collegiate level, such as teaching general/secondary methods, working with student teachers, leading professional organizations, and conducting research. Duplicates Credit in former MUED 605 Instruction Mode: Lecture Grading Option: Letter

MTAL 606 Internship in Collegiate Music Education
Units: 3 Students intern with USC professors in training music teachers in traditional and alternative music education practices. Duplicates Credit in former MUED 606 Instruction Mode: Lecture Grading Option: Letter

MTAL 607 Alternative Models in Music Teaching and Learning
Units: 2 Exploration of community music programs in the U.S. and beyond with emphasis on philosophical, sociological, structural and cultural bases for the diverse programs. Duplicates Credit in former MUED 607 Instruction Mode: Lecture Grading Option: Letter

MTAL 608 Creative Thinking in Music
Units: 3 Review of important developments in research and practice for the encouragement of creative thinking in music for music teaching and learning. Instruction Mode: Lecture Grading Option: Letter

MTAL 615 Assessment and Reflective Practice
Units: 2 Examination of major aspects of measurement and evaluation that comprise the art of assessment of music teaching and learning. *Recommended Preparation:* MTAL 500 Instruction Mode: Lecture Grading Option: Letter

MTAL 650 Pedagogy for Collegiate Music Appreciation and Fundamentals
Units: 2 Design and teaching strategies for collegiate music appreciation and fundamentals classes developed for the adult, non music major student. Duplicates Credit in former MUED 650 Instruction Mode: Lecture Grading Option: Letter

MTAL 652 Pedagogy for Collegiate Teaching
Units: 2 A preparation for teaching in the modern university environment, examining the role of the professor, and focusing on the development of innovative collegiate teaching skills. Duplicates Credit in former MUED 610 Instruction Mode: Lecture Grading Option: Letter

MTAL 720 Quantitative Research in Music Teaching and Learning
Units: 3 Survey of theories, concepts and

procedures for designing, conducting and evaluating quantitative research studies in music teaching and learning. *Prerequisite:* Duplicates Credit in former MUED 792 Instruction Mode: Lecture Grading Option: Letter

MTAL 721 Qualitative Research in Music Teaching and Learning
Units: 3 Survey of theories, concepts and tools for designing, conducting and evaluating qualitative studies in music teaching and learning. *Prerequisite:* Duplicates Credit in former MUED 793 Instruction Mode: Lecture Grading Option: Letter

MTAL 790 Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Research leading to the doctorate. Maximum units which may be applied to the degree to be determined by the department. Duplicates Credit in former MUED 790 Instruction Mode: Lecture Grading Option: Credit/No Credit

MTAL 791 Pedagogical Writing and Media in Music Education
Units: 3 Development of skills in pedagogical writing for professional journals, text books, and multimedia publications, and knowledge of publishing procedures for compositions and arrangements. Duplicates Credit in former MUED 791 Instruction Mode: Lecture Grading Option: Letter

MTAL 794a Doctoral Dissertation
Units: 2 Credit on acceptance of dissertation. Duplicates Credit in former MUED 794a Instruction Mode: Lecture Grading Option: In Progress/Credit/No Credit

MTAL 794b Doctoral Dissertation
Units: 2 Credit on acceptance of dissertation. *Prerequisite:* MTAL 794a Registration Restriction: Open only to doctoral students Duplicates Credit in former MUED 794b Instruction Mode: Lecture Grading Option: In Progress/Credit/No Credit

MTAL 794c Doctoral Dissertation
Units: 2 Credit on acceptance of dissertation. *Prerequisite:* MTAL 794b Registration Restriction: Open only to doctoral students Duplicates Credit in former MUED 794c Instruction Mode: Lecture Grading Option: In Progress/Credit/No Credit

MTAL 794d Doctoral Dissertation
Units: 2 Credit on acceptance of dissertation. *Prerequisite:* MTAL 794c Registration Restriction: Open only to doctoral students Duplicates Credit in former MUED 794d Instruction Mode: Lecture Grading Option: In Progress/Credit/No Credit

MTAL 794z Doctoral Dissertation
Units: 0 Credit on acceptance of dissertation. *Prerequisite:* MTAL 794d Registration Restriction: Open only to doctoral students Duplicates Credit in former MUED 794z Instruction Mode: Lecture Grading Option: In Progress/Credit/No Credit

Music Ensemble

Large ensemble requirements in undergraduate curricula must be fulfilled by the following ensembles: University Chorus (MUEN 307); Apollo Chorus (MUEN 308); Oriana Choir (MUEN 311); University Concert Choir (MUEN 310); Chamber Singers (MUEN 312); USC Symphony (MUEN 320); USC Concert Orchestra (MUEN 321); University Wind Ensemble (MUEN 323); or University Band (MUEN 324).
Exceptions to the above policies include: Contemporary Music Ensemble and Early Music Ensemble may fulfill the large ensemble requirement for instrumental majors, with the approval of the conductor of University Symphony or Wind Ensemble and the chair of the student's major department.
Music Education majors with an instrumental emphasis must take one semester of a choral ensemble.
Composition majors must register for at least 2 units in a choral ensemble.
Students majoring in Strings, Vocal Arts, or Wind and Percussion may not count USC Concert Orchestra toward their large ensemble requirement.
Vocal Arts majors must register for University Concert Choir, USC Chamber Singers or USC Oriana Choir to fulfill their large ensemble requirement.
Further exceptions may be made subject to departmental approval and approval of the conductor of the appropriate large ensemble.

MUEN 222 Trojan Marching Band
Units: 1 Rehearsal and participation in performances for athletic and other university functions. Instruction Mode: Lecture Grading Option: Credit/No Credit

MUEN 305 Vocal Jazz Ensemble
Units: 1 Terms Offered: FaSp Study and performance of vocal ensemble literature from the Jazz idiom, with emphasis on improvisational techniques. Instruction Mode: Lecture Grading Option: Credit/No Credit

MUEN 307 University Chorus
Units: 1 Max Units: 8.0 Terms Offered: FaSp Rehearsal and performance of choral literature from all periods of music history. Instruction Mode: Lecture Grading Option: Credit/No Credit

MUEN 308 USC Apollo Chorus
Units: 1 Max Units: 08 The USC Apollo Chorus, a choir open to all students, faculty, and staff of any gender, performs tenor/bass repertoire. Instruction Mode: Lecture Grading Option: Credit/No Credit

MUEN 310 University Concert Choir
Units: 1 Max Units: 8.0 Terms Offered: FaSp Performance of choral works of all styles and periods. Instruction Mode: Lecture Grading Option: Credit/No Credit

MUEN 311 USC Oriana Choir
Units: 1 Max Units: 08 The USC Oriana Choir, a choir open to all students, faculty, and staff of any gender, performs treble repertoire. Instruction Mode: Lecture Grading Option: Credit/No Credit

MUEN 312 Chamber Singers
Units: 1 Max Units: 08 Performance of choral music and choral masterworks from the 16th century to the present. Instruction Mode: Lecture Grading Option: Credit/No Credit

MUEN 314 Opera Chorus
Units: 1 Max Units: 8.0 Terms Offered: FaSp Study and performance of operatic choruses and extended ensembles of all styles and periods. Duplicates Credit in former MUEN 214 and MUEN 414. Instruction Mode: Lecture Grading Option: Credit/No Credit

MUEN 320 USC Symphony
Units: 1 Max Units: 8.0 Terms Offered: FaSp Rehearsal and performance of orchestra repertoire. Duplicates Credit in former MUEN 220 and MUEN 420. Instruction Mode: Lecture Grading Option: Credit/No Credit

MUEN 321 USC Concert Orchestra
Units: 1 Max Units: 8.0 Terms Offered: FaSp Rehearsal and performance of orchestra repertoire. Instruction Mode: Lecture Grading Option: Credit/No Credit

MUEN 322 Trojan Marching Band
Units: 1 Max Units: 4.0 Continuation of MUEN 222. Instruction Mode: Lecture Grading Option: Credit/No Credit

MUEN 323 University Wind Ensemble
Units: 1 Max Units: 8.0 Terms Offered: FaSp Rehearsal and participation in concert programs. Duplicates Credit in former MUEN 223 and MUEN 423. Instruction Mode: Lecture Grading Option: Credit/No Credit

MUEN 324 University Band
Units: 1 Max Units: 8.0 Terms Offered: FaSp Rehearsal and performance of standard repertoire. Instruction Mode: Lecture Grading Option: Credit/No Credit

MUEN 325 Wind and Percussion Chamber Music
Units: 1 Max Units: 8.0 Terms Offered: FaSp Performance of chamber music for wind and percussion instruments. Duplicates Credit in former MUEN 225 and MUEN 425. Instruction Mode: Lecture Grading Option: Credit/No Credit

MUEN 326 Guitar Ensemble
Units: 1 Max Units: 8.0 Terms Offered: FaSp Rehearsal and performance of literature composed, transcribed and arranged for small ensembles, including literature for small ensembles of guitar and other instruments, as well as voice. Duplicates Credit in former MUEN 226 and MUEN 426. Instruction Mode: Lecture Grading Option: Credit/No Credit

MUEN 327 String Chamber Music
Units: 1 Max Units: 8.0 Terms Offered: FaSp Preparation and performance of small ensemble literature for strings. Duplicates Credit in former MUEN 227 and MUEN 427. Instruction Mode: Lecture Grading Option: Credit/No Credit

MUEN 328 Keyboard Collaboration
Units: 1 Max Units: 4.0 Terms Offered: FaSp Preparation and performance of literature for piano with voice and string, woodwind, brass and percussion instruments. Duplicates Credit in former MUEN 428. Instruction Mode: Lecture Grading Option: Credit/No Credit

MUEN 329 Jazz Ensemble
Units: 1 Max Units: 08 Rehearsal and performance of literature written for large jazz ensemble. Duplicates Credit in former MUEN 229 and MUEN 429 Instruction Mode: Lecture Grading Option: Credit/No Credit

MUEN 330 Contemporary Music Ensemble
Units: 1 Max Units: 8.0 Terms Offered: FaSp Performance of 20th-century music; readings of student and faculty compositions; experimental music; guest conductors, composers, performers; annual concert series. Duplicates Credit in former MUEN 230 and MUEN 430. Instruction Mode: Lecture Grading Option: Credit/No Credit

MUEN 331 Guitar Big Band
Units: 1 Max Units: 8.0 Terms Offered: FaSp Rehearsal and preparation of big band literature adapted for large guitar ensemble. Guitarists perform in place of the traditional trumpet, trombone and sax sections. Instruction Mode: Lecture Grading Option: Credit/No Credit

MUEN 332 Jazz Chamber Music
Units: 1 Max Units: 8.0 Terms Offered: FaSp Preparation and performance of literature for jazz chamber groups. Duplicates Credit in former MUEN 232 and MUEN 432. Instruction Mode: Lecture Grading Option: Credit/No Credit

MUEN 335 University Brass Band
Units: 1 Max Units: 8.0 Terms Offered: FaSp The study, rehearsal and performance of standard brass choir and brass band literature. Duplicates Credit in former MUEN 235 and MUEN 435. Instruction Mode: Lecture Grading Option: Credit/No Credit

MUEN 344 Vocal Chamber Music
Units: 1 Max Units: 8.0 Terms Offered: Fa Study of solo ensemble vocal literature such as duets, trios, quartets, madrigals, etc. Duplicates Credit in former MUEN 244 and MUEN 444. Instruction Mode: Lecture Grading Option: Credit/No Credit

MUEN 350 Early Music Ensemble
Units: 1 Max Units: 8.0 Terms Offered: FaSp Rehearsal and performance of vocal and instrumental ensemble music of the Renaissance and Baroque, with emphasis on chamber music for solo voices and bowed and plucked strings. Instrumentalists are required to perform on either their own or the school's historical instruments. Duplicates Credit in former MUEN 250 and MUEN 450. Instruction Mode: Lecture Grading Option: Credit/No Credit

MUEN 505 Vocal Jazz Ensemble
Units: 1 Max Units: 04 Terms Offered: FaSp Study and performance of vocal ensemble literature from the Jazz idiom, with emphasis on improvisational techniques. Instruction Mode: Lecture Grading Option: Letter

MUEN 507 University Chorus
Units: 1 Max Units: 08 Terms Offered: FaSp Rehearsal and performance of choral literature from all periods of music history. Instruction Mode: Lecture Grading Option: Letter

MUEN 508 USC Apollo Chorus
Units: 1 Max Units: 04 The USC Apollo Chorus, a choir open to all students, faculty, and staff of any gender, performs tenor/bass repertoire. Instruction Mode: Lecture Grading Option: Letter

MUEN 510 University Concert Choir
Units: 1 Max Units: 4.0 Terms Offered: FaSp Performance of choral works of all styles and periods. Instruction Mode: Lecture Grading Option: Letter

MUEN 511 USC Oriana Choir
Units: 1 Max Units: 04 The USC Oriana Choir, a choir open to all students, faculty, and staff of any gender, performs treble repertoire. Instruction Mode: Lecture Grading Option: Letter

MUEN 512 Chamber Singers
Units: 1 Max Units: 04 Performance of Choral Music and choral masterworks from the 16th century to the present. Instruction Mode: Lecture Grading Option: Letter

MUEN 514 Opera Chorus
Units: 1 Max Units: 4.0 Terms Offered: FaSp Study and performance of operatic choruses and extended ensembles of all styles and periods. Duplicates Credit in former MUEN 414. Instruction Mode: Lecture Grading Option: Letter

MUEN 520 USC Symphony
Units: 1 Max Units: 4.0 Terms Offered: FaSp Rehearsal and performance of orchestra repertoire Duplicates Credit in former MUEN 420. Instruction Mode: Lecture Grading Option: Letter

MUEN 521 USC Concert Orchestra
Units: 1 Max Units: 4.0 Terms Offered: FaSp Rehearsal and performance of orchestra repertoire. Instruction Mode: Lecture Grading Option: Letter

MUEN 523 University Wind Ensemble
Units: 1 Max Units: 4.0 Terms Offered: FaSp Rehearsal and participation in concert programs. Duplicates Credit in former MUEN 423. Instruction Mode: Lecture Grading Option: Letter

MUEN 525 Wind and Percussion Chamber Music
Units: 1 Max Units: 4.0 Terms Offered: FaSp Performance of chamber music for wind and percussion instruments. Duplicates Credit in former MUEN 425. Instruction Mode: Lecture Grading Option: Letter

MUEN 526 Guitar Ensemble
Units: 1 Max Units: 4.0 Terms Offered: FaSp Rehearsal and performance of literature composed, transcribed and arranged for small ensembles, including literature for small ensembles of guitar and other instruments, as well as voice. Duplicates Credit in former MUEN 426. Instruction Mode: Lecture Grading Option: Letter

MUEN 527 String Chamber Music
Units: 1 Max Units: 4.0 Terms Offered: FaSp Preparation and performance of small ensemble literature for strings. Duplicates Credit in former MUEN 427. Instruction Mode: Lecture Grading Option: Letter

MUEN 528 Keyboard Collaboration
Units: 1 Max Units: 4.0 Terms Offered: FaSp Continuation of MUEN 328. Instruction Mode: Lecture Grading Option: Letter

MUEN 529 Jazz Ensemble
Units: 1 Max Units: 04 Rehearsal and performance of literature written for large jazz ensemble. Registration Restriction: Open only to Master and Doctoral students Duplicates Credit in former MUEN 429 Instruction Mode: Lecture Grading Option: Letter

MUEN 530 Contemporary Music Ensemble
Units: 1 Max Units: 4.0 Terms Offered: FaSp Performance of 20th-century music; readings of student and faculty compositions; experimental music; guest conductors, composers, performers; annual concert series. Duplicates Credit in former MUEN 430. Instruction Mode: Lecture Grading Option: Letter

MUEN 531 Guitar Big Band
Units: 1 Max Units: 4.0 Terms Offered: FaSp Rehearsal and preparation of big band literature adapted for large guitar ensemble. Guitarists perform in place of the traditional trumpet, trombone and sax sections. Instruction Mode: Lecture Grading Option: Letter

MUEN 532 Jazz Chamber Music
Units: 1 Max Units: 4.0 Terms Offered: FaSp Preparation and performance of advanced literature for jazz chamber groups. Instruction Mode: Lecture Grading Option: Letter

MUEN 535 University Brass Band
Units: 1 Max Units: 4.0 The study, rehearsal and performance of standard brass choir and brass band literature. Duplicates Credit in former MUEN 435. Instruction Mode: Lecture Grading Option: Letter

MUEN 544 Vocal Chamber Music
Units: 1 Max Units: 4.0 Terms Offered: Fa Study of solo ensemble vocal literature such as duets, trios, quartets, madrigals, etc. Duplicates Credit in former MUEN 444. Instruction Mode: Lecture Grading Option: Letter

MUEN 550 Early Music Ensemble
Units: 1 Max Units: 4.0 Terms Offered: FaSp Rehearsal and performance of vocal and instrumental ensemble music of the Renaissance and Baroque, with emphasis on chamber music for solo voices and bowed or plucked strings. Instrumentalists are required to perform on either their own or the school's historical instruments. Duplicates Credit in former MUEN 450. Instruction Mode: Lecture Grading Option: Letter

MUEN 626 Guitar Ensemble
Units: 1 Max Units: 04 Rehearsal and performance of literature composed, transcribed and arranged for small ensembles, including literature for small ensembles of guitar and other instruments, as well as voice. Instruction Mode: Lecture Grading Option: Letter

MUEN 628 Keyboard Collaboration
Units: 1 Max Units: 4.0 Terms Offered: FaSp Continuation of MUEN 328. Instruction Mode: Lecture Grading Option: Letter

MUEN 650 Early Music Ensemble
Units: 1 Max Units: 8.0 Terms Offered: FaSp Rehearsal and public performance of vocal and instrumental music of the Renaissance and Baroque era; emphasis is on large- and small-scale chamber works. Instrumentalists are required to perform on historical instruments. Instruction Mode: Lecture Grading Option: Letter

Music History and Literature

MUHL 231 Music History
Units: 3 Terms Offered: Fa A study of the musical styles and genres from antiquity

to c. 1680 within their historical context. Detailed analysis of selected works. *Prerequisite:* MUCO 132b, MUCO 133b , MUHL 385a Duplicates Credit in MUHL 385a. Instruction Mode: Lecture Grading Option: Letter

MUHL 232 Music History II
Units: 3 Terms Offered: Sp A study of the musical styles and genres from c. 1680 to c. 1850 within their historical context. Detailed analysis of selected works. *Prerequisite:* MUCO 132b, MUCO 133b. Duplicates Credit in MUHL 385b. Instruction Mode: Lecture Grading Option: Letter

MUHL 250g Music and Ideas
Units: 4 A topical study of critical issues and cultural relationships found in music from antiquity to the present and across musical genres and styles. Satisfies New General Education in Category B: Humanistic Inquiry Instruction Mode: Lecture, Discussion Grading Option: Letter

MUHL 331 Music History III
Units: 3 A study of the musical styles and genres from c. 1850 to the present within their historical context. Detailed analysis of selected works. *Prerequisite:* MUCO 132b, MUCO 133b; *Recommended Preparation:* MUCO 232b, MUCO 233b. Duplicates Credit in former MUHL 280a. Instruction Mode: Lecture Grading Option: Letter

MUHL 332 Studies in Musical Culture
Units: 3 Special musical repertoires, issues, and critical problems; emphasis determined by the department. *Recommended Preparation:* MUHL 231, MUHL 232, MUEN 331, MUCO 232b, MUCO 233b. Duplicates Credit in former MUHL 280b. Instruction Mode: Lecture Grading Option: Letter

MUHL 333 Music History Review
Units: 1, 2 Terms Offered: FaSpSm Supervised review of the materials covered in undergraduate music history courses for students whose music history examinations indicate the need for further study. Instruction Mode: Lecture Grading Option: Letter

MUHL 350g Western Art Music History I
Units: 4 A study of the musical styles and genres from antiquity through early modern periods within their historical context. Detailed analysis of selected works. *Recommended Preparation:* MUHL 250g Satisfies New General Education in Category A: The Arts Instruction Mode: Lecture Grading Option: Letter

MUHL 351 Western Art Music History II
Units: 4 A study of the musical styles and genres in the late modern and contemporary eras within their historical context. Detailed analysis of selected works. *Recommended Preparation:* MUHL 250g and MUHL 350 Instruction Mode: Lecture Grading Option: Letter

MUHL 390 Special Problems
Units: 1, 2, 3, 4 Supervised, individual studies. No more than one registration permitted. Enrollment by petition only. Instruction Mode: Lecture Grading Option: Letter

MUHL 403 Armenian Musical Culture
Units: 2 Study of the four branches of Armenian music within the context of past and present Armenian culture. Instruction Mode: Lecture Grading Option: Letter

MUHL 476 Music Criticism
Units: 2 Procedure and practice in forming critical judgments of music and in writing music criticism; practical journalism; professional and community ethics. Instruction Mode: Lecture Grading Option: Letter

MUHL 490x Directed Research
Units: 1, 2, 3, 4, 5, 6, 7, 8 Max Units: 12.0 Terms Offered: FaSpSm Individual research and readings. Instruction Mode: Lecture Grading Option: Letter

MUHL 499 Special Topics
Units: 2, 3, 4 Max Units: 8.0 Terms Offered: FaSpSm Selected topics of current interest. Instruction Mode: Lecture Grading Option: Letter

MUHL 550 Music and the Holocaust
Units: 2 Study of the creation and performance of Holocaust-related music from 1933 to the present, including interaction with other arts. *Prerequisite:* MUHL 570 Instruction Mode: Lecture Grading Option: Letter

MUHL 560 Studies in World Music I
Units: 2 Terms Offered: Fa The indigenous and syncretic musics of Africa, India, Indonesia, and the Balkan countries. *Prerequisite:* MUHL 570. Instruction Mode: Lecture Grading Option: Letter

MUHL 561 Studies in World Music II
Units: 2 Terms Offered: Sp The indigenous and syncretic musics of the post-Soviet political landscape, the Far East, the Middle East, and Latin America. *Prerequisite:* MUHL 570. Instruction Mode: Lecture Grading Option: Letter

MUHL 570 Research Materials and Techniques
Units: 2 Terms Offered: FaSpSm Introduction to music research, information science and technical writing. Required of all graduate students majoring in music. Instruction Mode: Lecture Grading Option: Letter

MUHL 572 Seminar in Historical Musical Notation
Units: 2 Terms Offered: Fa Performing, reading, and editing historical notation from original sources. *Prerequisite:* MUHL 570. Instruction Mode: Lecture Grading Option: Letter

MUHL 573 Music of the Middle Ages
Units: 2, 2 years Terms Offered: SpSm Chief musical developments in Western Europe from the beginning of the Christian era to the middle of the 14th century. *Prerequisite:* MUHL 570. Instruction Mode: Lecture Grading Option: Letter

MUHL 574 Music of the Renaissance
Units: 2 Terms Offered: SpSm Chief musical developments in Western Europe from the middle of the 14th century to the end of the 16th. *Prerequisite:* MUHL 570. Instruction Mode: Lecture Grading Option: Letter

MUHL 575 Music of the Baroque Era
Units: 2 Terms Offered: FaSm Styles, forms, composers, and compositions of the Baroque era. *Prerequisite:* MUHL 570. Instruction Mode: Lecture Grading Option: Letter

MUHL 576 Music of the Classical Period
Units: 2, 2 years Terms Offered: SpSm Development of classical style in symphonic music, opera, and chamber music. *Prerequisite:* MUHL 570. Instruction Mode: Lecture Grading Option: Letter

MUHL 577 Music of the 19th Century
Units: 2, 2 years Terms Offered: FaSm Vocal and instrumental music of the Romantic era from late Beethoven through Brahms. *Prerequisite:* MUHL 570. Instruction Mode: Lecture Grading Option: Letter

MUHL 578 Music since 1900
Units: 2 Terms Offered: FaSpSm Musical developments in Europe and the Americas from 1900 to the present. *Prerequisite:* MUHL 570. Instruction Mode: Lecture Grading Option: Letter

MUHL 579 Studies in Music History
Units: 4 Max Units: 16.0 Terms Offered: FaSp Intensive study of major problems, issues, and interpretations in the history of music. *Prerequisite:* MUHL 570. Instruction Mode: Lecture Grading Option: Letter

MUHL 580 Historical Perspectives in Jazz
Units: 2 Chief musical developments in the principal styles of Jazz from their inception to the present. *Prerequisite:* graduate standing or departmental approval. Instruction Mode: Lecture Grading Option: Letter

MUHL 583 Special Studies in Medieval Music
Units: 2 Max Units: 4.0 Terms Offered: Irregular Music problems and composers of the period. Specific emphasis to be determined by the department. *Prerequisite:* MUHL 570. Instruction Mode: Lecture Grading Option: Letter

MUHL 584 Special Studies in Renaissance Music
Units: 2 Max Units: 4.0 Terms Offered: Irregular Music problems and composers of the period. Specific emphasis to be determined by the department. *Prerequisite:* MUHL 570. Instruction Mode: Lecture Grading Option: Letter

MUHL 585 Special Studies in Baroque Music
Units: 2 Max Units: 6.0 Terms Offered: Irregular Music problems and composers of the period. Specific emphasis to be determined by the department. *Prerequisite:* MUHL 570. Instruction Mode: Lecture Grading Option: Letter

MUHL 586 Special Studies in the Music of the Classical Period, 1730–1800
Units: 2 Max Units: 6.0 Terms Offered: Irregular Music problems and composers of the period. Specific emphasis to be determined by the department. *Prerequisite:* MUHL 570. Instruction Mode: Lecture Grading Option: Letter

MUHL 587 Special Studies in the Music of the 19th Century
Units: 2 Max Units: 6.0 Terms Offered: Irregular Music problems and composers of the period. Specific emphasis to be determined by the department. *Prerequisite:* MUHL 570. Instruction Mode: Lecture Grading Option: Letter

MUHL 588 Special Studies in Music since 1900
Units: 2 Max Units: 6.0 Music problems and composers of the period. Specific emphasis to be determined by the department.

Prerequisite: MUHL 570. Instruction Mode: Lecture Grading Option: Letter

MUHL 589 Seminar in Renaissance Repertories and Performance Practice
Units: 2 Terms Offered: Sp Study and discussion of Renaissance music sources and performance practice treatises. *Corequisite:* MUHL 570. Instruction Mode: Lecture Grading Option: Letter

MUHL 590 Directed Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Terms Offered: FaSpSm Research leading to the master's degree. Maximum units which may be applied to the degree to be determined by the department. *Prerequisite:* MUHL 570. Instruction Mode: Lecture Grading Option: Credit/No Credit

MUHL 591 Seminar in Baroque Repertories and Performance Practice
Units: 2 Study and discussion of Baroque music sources and performance practice treatises. *Corequisite:* MUHL 570. Instruction Mode: Lecture Grading Option: Letter

MUHL 594a Master's Thesis
Units: 2 Credit on acceptance of thesis. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

MUHL 594b Master's Thesis
Units: 2 Credit on acceptance of thesis. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

MUHL 594z Master's Thesis
Units: 0 Credit on acceptance of thesis. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

MUHL 595 Seminar in Performance Practices
Units: 2 Max Units: 4.0 Scholarly preparation and authentic performance of music written before c. 1770. Ornamentation and improvisation, tunings and temperaments, early language pronunciation, historical instruments, etc. *Prerequisite:* MUHL 570. Instruction Mode: Lecture Grading Option: Letter

MUHL 599 Special Topics
Units: 2, 3, 4 Max Units: 8.0 Terms Offered: Irregular Selected topics of current interest. Instruction Mode: Lecture Grading Option: Letter

MUHL 681 Studies in Musicology
Units: 4 Max Units: 16.0 Terms Offered: FaSp Close study of musical repertories and issues (particularly ones transcending period divisions), with emphasis on recent scholarship and methodologies. *Prerequisite:* MUHL 570. Instruction Mode: Lecture Grading Option: Letter

MUHL 683 Seminar in Medieval Music
Units: 2, 3 Max Units: 6.0 Terms Offered: Irregular Problems and composers of the period; specific emphasis determined by the department. *Prerequisite:* MUHL 570. Instruction Mode: Lecture Grading Option: Letter

MUHL 684 Seminar in Renaissance Music
Units: 2, 3 Max Units: 6.0 Terms Offered: Irregular Problems and composers of the period; specific emphasis determined by the department. *Prerequisite:* MUHL 570. Instruction Mode: Lecture Grading Option: Letter

MUHL 685 Seminar in Baroque Music
Units: 2, 3 Max Units: 6.0 Terms Offered: Irregular Problems and composers of the period; specific emphasis determined by the department. *Prerequisite:* MUHL 570. Instruction Mode: Lecture Grading Option: Letter

MUHL 686 Seminar in Classical Music
Units: 2, 3 Max Units: 6.0 Terms Offered: Irregular Problems and composers of the period; specific emphasis determined by the department. *Prerequisite:* MUHL 570. Instruction Mode: Lecture Grading Option: Letter

MUHL 687 Seminar in Romantic Music
Units: 2, 3 Max Units: 6.0 Terms Offered: Irregular Problems and composers of the period; specific emphasis determined by the department. *Prerequisite:* MUHL 570. Instruction Mode: Lecture Grading Option: Letter

MUHL 688 Seminar in Music since 1900
Units: 2, 3 Max Units: 6.0 Terms Offered: Irregular Problems and composers of the period; specific emphasis determined by the department. *Prerequisite:* MUHL 570. Instruction Mode: Lecture Grading Option: Letter

MUHL 790 Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Terms Offered: FaSpSm Research leading to the doctorate. Maximum units which may be applied to the degree to be determined by the department. *Prerequisite:* MUHL 570. Instruction Mode: Lecture Grading Option: Credit/No Credit

MUHL 794a Doctoral Dissertation
Units: 2 Terms Offered: FaSpSm Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

MUHL 794b Doctoral Dissertation
Units: 2 Terms Offered: FaSpSm Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

MUHL 794c Doctoral Dissertation
Units: 2 Terms Offered: FaSpSm Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

MUHL 794d Doctoral Dissertation
Units: 2 Terms Offered: FaSpSm Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

MUHL 794z Doctoral Dissertation
Units: 0 Terms Offered: FaSpSm Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

Music Industry

MUIN 270 Introduction to the Music Industry
Units: 4 Terms Offered: FaSp A survey of the music business with emphasis on distribution of recorded music, music publishing, performance rights societies, record companies, agents, personal managers and contracts. Instruction Mode: Lecture Grading Option: Letter

MUIN 272x Basics of the Music Industry
Units: 4 Terms Offered: FaSp Introductory survey of the music business. Topics include: copyright, record companies, contracts, music publishing, performance rights societies, managers, agents, and other artist team/income considerations. Duplicates Credit in former MUIN 372ax. Instruction Mode: Lecture Grading Option: Letter

MUIN 280 Communications in the Music Industry
Units: 4 A comprehensive course on communications specific to the music industry with a focus on press and publicity for artists. *Prerequisite:* MUIN 270 or MUIN 272x Instruction Mode: Lecture Grading Option: Letter

MUIN 286 Record Production Management
Units: 2 Terms Offered: FaSp Function of the record producer, studio procedures, music business law, union relations, artist management, copyright and publishing agreements, record company structure. Instruction Mode: Lecture Grading Option: Letter

MUIN 287 The Business and Economics of the Recording Industry
Units: 2 Terms Offered: Fa Economic considerations of home, studio and location recording. Equipment, labor, facilities, media, legal and tax considerations will be explored. Instruction Mode: Lecture Grading Option: Letter

MUIN 320 Critical Listening, Acoustics and Audio Perception
Units: 4 Development of perceptual skills for detailed analysis and awareness of the timbral, dynamic, temporal and spatial attributes of sound as they relate to audio production. Instruction Mode: Lecture, Lab Grading Option: Letter

MUIN 340 Introduction to Sound Reinforcement
Units: 4 Terms Offered: FaSpSm An introduction to the practical application of large scale sound reinforcement for concerts, sporting events, church services and convention situations. Instruction Mode: Lecture Grading Option: Letter

MUIN 360 Introduction to Music Law
Units: 4 Terms Offered: FaSp A study of entertainment law with a focus on the music industry. Areas of study include contracts, domestic practices, international practices, copyright protection, trademarks. *Prerequisite:* MUIN 270. Instruction Mode: Lecture Grading Option: Letter

MUIN 370 Music Publishing and Licensing
Units: 2 Terms Offered: Sp A contemporary survey of the methods used to monetize music through licensing/media placement, covering music publishing, songwriter agreements, performance rights and licenses for traditional/new media. *Prerequisite:* MUIN 270 or MUIN 272. Instruction Mode: Lecture Grading Option: Letter

MUIN 372 Business and Legal Aspects of the Music Industry
Units: 4 An intermediate/advanced-level survey of music copyright law, artist contract analysis, infringement case studies as they affect modern/emerging business models and global music licensing. *Prerequisite:* MUIN 270 or MUIN 272x Duplicates Credit in former MUIN 372b Instruction Mode: Lecture Grading Option: Letter

MUIN 385 Radio in the Music Industry
Units: 4 Terms Offered: Fa A survey of radio; its operation and effect on the music industry. Topics include advertising, playlists, program direction, FCC, networks, news, promotion, payola and format development. Instruction Mode: Lecture, Discussion Grading Option: Letter

MUIN 410 Marketing, Branding and Strategic Alliances in Music
Units: 2 Terms Offered: FaSp An in-depth study of music marketing, non-traditional revenue streams for artists, musicians, and labels including artist endorsements, artist tour sponsorships, digital music programs, music licensing, merchandise, and a primary focus on brand partnership deals in the music space. *Prerequisite:* MUIN 270 or MUIN 272. Instruction Mode: Lecture Grading Option: Letter

MUIN 420 DIY Music Marketing
Units: 2 Terms Offered: FaSp An exploration of the most current and effective marketing strategies and online branding tools for promoting, monetizing, and sustaining the career of the independent creative artist. *Prerequisite:* MUIN 270 or MUIN 272. Instruction Mode: Lecture Grading Option: Letter

MUIN 425 Live Music Production and Promotion
Units: 4 A survey of the presentation of the live musical experience. Both classical and popular concert presentation will be examined including venue selection, promotion and security. Instruction Mode: Lecture Grading Option: Letter

MUIN 430 Artist Management and Development
Units: 4 A study of issues relating to the personal management of music artists including negotiating contracts, image, career development, agents, touring, merchandising, fees and duties. Instruction Mode: Lecture, Discussion Grading Option: Letter

MUIN 435 Manufacture and Distribution of Musical Products
Units: 4 Terms Offered: Sp An in-depth study of musical instrument manufacture and distribution in the United States. Topics covered include sheet music, instrument rentals, lessons and band operations. Instruction Mode: Lecture Grading Option: Letter

MUIN 440 Arts Management
Units: 4 Terms Offered: Fa A survey of the management of non-profit and for-profit arts organizations with emphasis on funding, donor development tax status and promotion. Instruction Mode: Lecture Grading Option: Letter

MUIN 443 The Business of Music for Visual Media
Units: 4 Terms Offered: FaSpSm Introduction to music designed for synchronization to picture including history of music in cinema, music editing, supervision, performance rights licensing, production, and music scoring procedures. *Prerequisite:* MUIN 360 or MUIN 372. Instruction Mode: Lecture Grading Option: Letter

MUIN 444 Music Supervision
Units: 4 An advanced focus on the music supervisor's role, working with directors, producers, licensing representatives and executives to select, budget and clear songs for broadcast/new media. *Prerequisite:* MUIN 360 or MUIN 372 Instruction Mode: Lecture Grading Option: Letter

MUIN 445 International Music Industry
Units: 4 Terms Offered: Sp A survey of international operations of music distribution, publishing, touring, law, promotion, customs and practices. *Prerequisite:* MUIN 360. Instruction Mode: Lecture Grading Option: Letter

MUIN 450 Practicum in Music Industry Issues (Internship)
Units: 2, 3, 4 Max Units: 8.0 Terms Offered: FaSpSm Field application of music industry theories and practices; part-time employment. Project jointly defined by student, employer and professor. *Prerequisite:* MUIN 360 or MUIN 372. Instruction Mode: Lecture Grading Option: Credit/No Credit

MUIN 460 Streaming Economy in the Music Industry
Units: 2 Focus on identifying the economic impact current music streaming models have on artists, record labels, publishing and consumers. *Prerequisite:* MUIN 270 or MUIN 272x Instruction Mode: Lecture Grading Option: Letter

MUIN 461 Music Festival Design and Management
Units: 2 Focus on planning, booking, marketing, promoting, ticketing and operating a festival in an ever-changing marketplace. *Prerequisite:* MUIN 270 or MUIN 272x Instruction Mode: Lecture Grading Option: Letter

MUIN 462 Technology, Big Data and Marketing in the Music Industry
Units: 2 Analyzing technology's relationship to the music industry. Use of data and analytics to develop successful strategies for new and existing artists. *Prerequisite:* MUIN 270 or MUIN 272x Instruction Mode: Lecture Grading Option: Letter

MUIN 464 Public Assembly Venue Management
Units: 2 Review and examination of the principles and practices associated with managing theaters, arenas, stadiums and all other public assembly venue types. Instruction Mode: Lecture Grading Option: Letter

MUIN 475 Advanced Concert Management
Units: 4 Terms Offered: Sp Application of theories, technologies, and practices of the live music industry. Focus on the business, management, marketing, promotion, and production of professional concert events. *Prerequisite:* MUIN 425. Instruction Mode: Lecture Grading Option: Letter

MUIN 476a Advanced Sound Reinforcement
Units: 2 Terms Offered: FaSp Special problems of multimedia mixing with simultaneous audio re-processing for live performance situations including rigging, house mix, monitor mix, venues and power distribution. Instruction Mode: Lecture Grading Option: Letter

MUIN 476b Advanced Sound Reinforcement
Units: 2 Terms Offered: FaSp Special problems of multimedia mixing with simultaneous audio re-processing for live performance situations including rigging, house mix, monitor mix, venues and power distribution. Instruction Mode: Lecture Grading Option: Letter

MUIN 490x Directed Research
Units: 1, 2, 3, 4, 5, 6, 7, 8 Max Units: 12.0 Individual research and readings. Instruction Mode: Lecture Grading Option: Letter

MUIN 495 Web Design for the Music Industry
Units: 4 Terms Offered: FaSp A hands-on experience in which students work in teams to create web sites specifically designed to promote, market, and sell musical artists' products online. Instruction Mode: Lecture Grading Option: Letter

MUIN 496 Music Media Solutions
Units: 4 Terms Offered: FaSp Group study of one current music media issue, focusing on possible solutions with practical applications. Stress on leadership, critical thinking, and professional practices. Instruction Mode: Lecture Grading Option: Letter

MUIN 497 Current Topics, Case Studies, and Analysis
Units: 2 Max Units: 6.0 Terms Offered: FaSp Exploration of emerging topics and trends in business and technology in the music and entertainment industries. *Prerequisite:* MUIN 270 or MUIN 272. Instruction Mode: Lecture Grading Option: Letter

MUIN 498a Final Capstone Project
Units: 1 Terms Offered: FaSp Culmination of the four-year course of study. Affords students the opportunity to experience guided work to meet the professional demands of the industry. *Prerequisite:* MUIN 270 or MUIN 272. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

MUIN 498b Final Capstone Project
Units: 1 Terms Offered: FaSp Culmination of the four-year course of study. Affords students the opportunity to experience guided work to meet the professional demands of the industry. *Prerequisite:* MUIN 270 or MUIN 272. Instruction Mode: Lecture Grading Option: Credit/No Credit

MUIN 499 Special Topics
Units: 2, 3, 4 Max Units: 8.0 Selected topics of current interest. Instruction Mode: Lecture Grading Option: Letter

MUIN 510 The Music Industry: Careers, Rights and Income Streams
Units: 4 History, procedures, economics and evolving technologies involved with careers, rights and income connected with artists, songwriters, producers, labels, music publishing, performance rights and visual media. Instruction Mode: Lecture Grading Option: Letter

MUIN 511 Music Industry History: Entrepreneurs, Moguls and Catalogs
Units: 2 Focus on recorded music's sounds and innovators. Includes in-depth research, discussion, presentations and memorization for greater cultural context. Instruction Mode: Lecture Grading Option: Letter

MUIN 512 The Management of Live Performances
Units: 2 Focus on the Artist, Promoter

and Venue, and the roles they play in the Live Performance space, applying theory, technology, and practice. Instruction Mode: Lecture Grading Option: Letter

MUIN 515 Live Touring Strategy
Units: 2 Part of an emphasis track that focuses on advanced live touring strategies, methods and practices. Projects will apply theory and practice in a directed team oriented approach. Instruction Mode: Lecture Grading Option: Letter

MUIN 520 Artist Management: Campaign Planning, Pitching, Partnerships
Units: 2 Lecture and experiential learning focused on the role of an artist's personal manager including developing their story, assets and strategy for various product release campaigns. *Prerequisite:* MUIN 510 Instruction Mode: Lecture Grading Option: Letter

MUIN 521 Music Industry/Producers Forum
Units: 1 Student-driven discussion, networking and Q&A with guest industry leaders and role models, including producers, artists, music supervisors, concert promoters, agents, label executives, managers and attorneys. Instruction Mode: Lecture Grading Option: Credit/No Credit

MUIN 522 Music Marketing, Branding and Campaigns
Units: 3 An overview of music specific concepts and opportunities spanning various roles, tools, forms of music consumption, and campaign stages as it pertains to music marketing. Instruction Mode: Lecture Grading Option: Letter

MUIN 523 Survey/Analysis of Music Agreements
Units: 4 Focus on demystifying "legalese" and music industry standards by assessing actual contract examples for context, including recording, songwriter, producer, media licensing, sponsorship and band partnerships. *Prerequisite:* MUIN 510 Instruction Mode: Lecture Grading Option: Letter

MUIN 525 Concert Promotion, Venue Management and Event Planning
Units: 3 Overview of the three areas that comprise most of the live performance spaces, and focuses on the artist, promoter and venue ("Circle of Live") and the roles they play in the performance. Instruction Mode: Lecture Grading Option: Letter

MUIN 526 Music Supervision, Production and Creative Licensing
Units: 3 A comprehensive look at contemporary music supervision for all visual media. Students will creatively apply guided lessons using real world example cases and projects. *Prerequisite:* MUIN 510 and MUIN 511 Instruction Mode: Lecture Grading Option: Letter

MUIN 530 Mentorship
Units: 1 A semester bridge for students working on job preparation, career skills, and continued efforts before launching their final campaign projects and graduation portfolio. *Prerequisite:* MUIN 520 Instruction Mode: Lecture Grading Option: Credit/No Credit

MUIN 540 Artist Management: Campaign Execution and Hindsight Analysis
Units: 2 Lecture and experiential learning focused on the role of an artist's personal manager including executing various release campaigns and hindsight assessment to inform future endeavors. *Prerequisite:* MUIN 520 Instruction Mode: Lecture Grading Option: Letter

MUIN 541 Data Analytics: Music Marketing Decisions and Presentations
Units: 2 The when, why and how data analysis tools are used to assist music professionals and better support marketing decisions, beyond the realm of intuition and aesthetic appeal. *Prerequisite:* MUIN 522 Instruction Mode: Lecture Grading Option: Letter

MUIN 542 Developing Copyright Laws and Business Models
Units: 3 Study of advanced copyright law, conflicts and entrepreneurial opportunities to gain insight into what is evolving for the globalized digital music industry. *Prerequisite:* MUIN 510 Instruction Mode: Lecture Grading Option: Letter

MUIN 570 The Music Industry
Units: 4 Terms Offered: FaSpSm A graduate level survey of the music business with emphasis on distribution of recorded music, music publishing, performance rights societies, musical products and live music. Instruction Mode: Lecture Grading Option: Letter

MUIN 590 Directed Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Research leading to the master's degree. Maximum units which may be applied to the degree to be determined by the department. Instruction Mode: Lecture Grading Option: Credit/No Credit

MUIN 598 Internship
Units: 1 Max Units: 04 Students gain insight, experience and networking opportunities within the industry areas they wish to consider as a career. *Prerequisite:* MUIN 510 Instruction Mode: Lecture Grading Option: Credit/No Credit

MUIN 599 Special Topics
Units: 2, 3, 4 Max Units: 8.0 Selected topics of current interest. Instruction Mode: Lecture Grading Option: Letter

MUIN 790 Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Research leading to the doctorate. Maximum units which may be applied to the degree to be determined by the department. Instruction Mode: Lecture Grading Option: Credit/No Credit

Jazz Studies

MUJZ 100mx Jazz: America's Music
Units: 4 Music of the jazz greats. Experience through live performances, field trips, readings, recordings, videos and guest lectures. Instruction Mode: Lecture Grading Option: Letter

MUJZ 101x Non-Major Beginning Individual Instruction
Units: 1, 2 Max Units: 2.0 Terms Offered: FaSpSm Individual instruction at the beginning level designed for non-music majors with no previous experience. Instruction Mode: Lecture Grading Option: Letter

MUJZ 105a Jazz Theory
Units: 2 Terms Offered: FaSp Study of basic and advanced concepts of jazz melody, harmony and form. Includes functional chord idioms and relationships, compositional and improvisational devices, and song forms. Instruction Mode: Lecture Grading Option: Letter

MUJZ 105b Jazz Theory
Units: 2 Terms Offered: FaSp Study of basic and advanced concepts of jazz melody, harmony and form. Includes functional chord idioms and relationships, compositional and improvisational devices, and song forms. Instruction Mode: Lecture Grading Option: Letter

MUJZ 141a Basic Keyboard Skills for the Improviser
Units: 2 Terms Offered: FaSp Reading skills related to jazz accompanying, including the ability to identify and play chords on the piano utilizing different voicings. Instruction Mode: Lecture Grading Option: Letter

MUJZ 141b Basic Keyboard Skills for the Improviser
Units: 2 Terms Offered: FaSp Reading skills related to jazz accompanying, including the ability to identify and play chords on the piano utilizing different voicings. Instruction Mode: Lecture Grading Option: Letter

MUJZ 142a Jazz Ear Training
Units: 2 Terms Offered: FaSp Sight-singing and melodic/rhythmic reading and dictation applied to jazz repertoire. Includes vocalization of scales and chord patterns and study of rhythmic reading and jazz articulation. Instruction Mode: Lecture Grading Option: Letter

MUJZ 142b Jazz Ear Training
Units: 2 Terms Offered: FaSp Sight-singing and melodic/rhythmic reading and dictation applied to jazz repertoire. Includes vocalization of scales and chord patterns and study of rhythmic reading and jazz articulation. Instruction Mode: Lecture Grading Option: Letter

MUJZ 150 Beginning Jazz Improvisation
Units: 2 Max Units: 4.0 Terms Offered: FaSp Development of beginning improvisational skills including underlying principles of theory, harmony, jazz ear training, and jazz style. Instruction Mode: Lecture Grading Option: Letter

MUJZ 153 Individual Instruction
Units: 1, 2 Max Units: 8.0 Terms Offered: FaSpSm Weekly individual instruction and performance forum. Registration Restriction: Open only to jazz studies majors. Instruction Mode: Lecture Grading Option: Letter

MUJZ 180 Techniques of Jazz Improvisation
Units: 2 Max Units: 4.0 Development of improvisational skills through instrumental performance. Instruction Mode: Lecture Grading Option: Letter

MUJZ 195L Jazz Elements I
Units: 2 Max Units: 8.0 Terms Offered: FaSp Study of compositional, improvisational, performance, and arranging elements found in jazz. Students will model influential groups and jazz artists. Instruction Mode: Lecture, Lab Grading Option: Letter

MUJZ 196 Jazz Combo I
Units: 2 Max Units: 8.0 Terms Offered: FaSp Rehearsal and performance of literature for jazz chamber groups. Duplicates Credit in MUEN 332. Instruction

Mode: Lecture Grading Option: Credit/No Credit

MUJZ 197a Vocal Jazz Elements I
Units: 2 Study of stylistic, musical, improvisational, rhythmic, historical, performance, and arranging elements found in the vocal jazz genre. Students will explore concepts through the study of influential jazz vocal artists as well as their own performances. Instruction Mode: Lecture Grading Option: Letter

MUJZ 197b Vocal Jazz Elements I
Units: 2 Study of stylistic, musical, improvisational, rhythmic, historical, performance, and arranging elements found in the vocal jazz genre. Students will explore concepts through the study of influential jazz vocal artists as well as their own performances. *Prerequisite:* MUJZ 197a Instruction Mode: Lecture Grading Option: Letter

MUJZ 200a Jazz Styles Analysis
Units: 2 Theoretical skills and analytical techniques related to jazz styles from Dixieland to the present. Styles through Progressive Swing. Duplicates Credit in former MUCO 200ab. Instruction Mode: Lecture Grading Option: Letter

MUJZ 200b Jazz Styles Analysis
Units: 2 Theoretical skills and analytical techniques related to jazz styles from Dixieland to the present. Bebop to the present. Duplicates Credit in former MUCO 200ab. Instruction Mode: Lecture Grading Option: Letter

MUJZ 218a Afro-Latin Percussion Instruments
Units: 2 Instruction in the performance of percussion instruments associated with African, South American, and Caribbean music traditions, with special emphasis on adaptation to jazz music. Instruction Mode: Lecture Grading Option: Letter

MUJZ 218b Afro-Latin Percussion Instruments
Units: 2 Instruction in the performance of percussion instruments associated with African, South American, and Caribbean music traditions, with special emphasis on adaptation to jazz music. Instruction Mode: Lecture Grading Option: Letter

MUJZ 252 Individual Instrument Performance Class I
Units: 1 Max Units: 4.0 Terms Offered: FaSp Solo and orchestra repertoire, professional preparation, reed making, and other matters appropriate to group study. Required of all first and second year wind and percussion majors each semester in residence. Instruction Mode: Lecture Grading Option: Letter

MUJZ 253 Individual Instruction
Units: 1, 2 Max Units: 8.0 Terms Offered: FaSpSm Weekly individual instruction and performance forum. Registration Restriction: Open only to jazz studies majors. Instruction Mode: Lecture Grading Option: Letter

MUJZ 286a The History of Jazz
Units: 3 Terms Offered: FaSpSm A study of the evolution of American jazz music from its roots in Africa to the present day. Includes an introduction to world music elements. *Prerequisite:* MUCO 132b and MUCO 133b. Instruction Mode: Lecture Grading Option: Letter

MUJZ 286b The History of Jazz
Units: 3 Terms Offered: FaSpSm A study of the evolution of American jazz music from its roots in Africa to the present day. Includes an introduction to world music elements. *Prerequisite:* MUCO 132b and MUCO 133b. Instruction Mode: Lecture Grading Option: Letter

MUJZ 300x Non-Major Individual Instruction
Units: 1, 2 Max Units: 16.0 Terms Offered: FaSpSm Intermediate and advanced instruction designed for non-music majors. Duplicates Credit in former MUJZ 201 and MUJZ 401. Instruction Mode: Lecture Grading Option: Letter

MUJZ 301 Individual Instruction
Units: 1, 2 Max Units: 16.0 Terms Offered: FaSpSm Intermediate and advanced instruction: secondary emphasis for music majors, principal emphasis for music minors and BA music majors. Registration Restriction: Open only to music majors and minors. Duplicates Credit in former MUJZ 201 and MUJZ 401. Instruction Mode: Lecture Grading Option: Letter

MUJZ 305a Advanced Jazz Theory
Units: 2 Terms Offered: FaSpSm Analysis and transcription of jazz performances and scores, encompassing questions of style, form, harmonic and melodic language, and considerations of rhythm. *Prerequisite:* MUCO 133b. Instruction Mode: Lecture Grading Option: Letter

MUJZ 305b Advanced Jazz Theory
Units: 2 Terms Offered: FaSpSm Analysis and transcription of jazz performances and scores, encompassing questions of style, form, harmonic and melodic language, and considerations of rhythm. *Prerequisite:* MUCO 133b. Instruction Mode: Lecture Grading Option: Letter

MUJZ 311 Vocal Jazz Techniques
Units: 2 Max Units: 04 Development of skills needed for the professional vocal jazz musician. Study of the standard jazz repertoire, vocal improvisation, lead sheet writing, and working with rhythm sections. *Recommended Preparation:* MUJZ 195L or MUJZ 197b Instruction Mode: Lecture Grading Option: Letter

MUJZ 341 Keyboard Skills for Improvisers
Units: 2 Reading skills related to jazz accompanying; "fake" books, chord progressions commonly used in jazz. *Prerequisite:* MPKS 250a, MPKS 250b. Instruction Mode: Lecture Grading Option: Letter

MUJZ 342a Aural Skills for Improvisers
Units: 1 Terms Offered: FaSp Sight-singing and dictation applied to jazz repertoire. Vocalization of modal and synthetic jazz scales and chordal qualities. *Prerequisite:* MUCO 132b. Duplicates Credit in former MUCO 342ab. Instruction Mode: Lecture Grading Option: Letter

MUJZ 342b Aural Skills for Improvisers
Units: 1 Terms Offered: FaSp Sight-singing and dictation applied to jazz repertoire. Vocalization of modal and synthetic jazz scales and chordal qualities. *Prerequisite:* MUCO 132b. Duplicates Credit in former MUCO 342ab. Instruction Mode: Lecture Grading Option: Letter

MUJZ 347 Jazz Composition
Units: 2 Max Units: 4.0 Composing in the jazz medium. Duplicates Credit in former MUCO 347. Instruction Mode: Lecture Grading Option: Letter

MUJZ 350g A History of Jazz Music
Units: 4 A history of jazz music and the styles of music considered antecedents to jazz. *Recommended Preparation:* MUHL 250 Satisfies New General Education in Category A: The Arts Instruction Mode: Lecture Grading Option: Letter

MUJZ 353 Individual Instruction
Units: 1, 2 Max Units: 8.0 Terms Offered: FaSpSm Weekly individual instruction and performance forum. Registration Restriction: Open only to jazz studies majors. Duplicates Credit in former PLDV 410. Instruction Mode: Lecture Grading Option: Letter

MUJZ 390 Special Problems
Units: 1, 2, 3, 4 Terms Offered: Irregular Supervised, individual studies. No more than one registration permitted. Enrollment by petition only. Instruction Mode: Lecture Grading Option: Letter

MUJZ 395 Jazz Elements II
Units: 2 Max Units: 08 Advanced study of compositional, improvisational, performance, conducting, and arranging elements found in the jazz repertory. Students will be encouraged to forge individual musical expressions. *Prerequisite:* MUJZ 195L or MUJZ 197b Registration Restriction: Open only to juniors and seniors Instruction Mode: Lecture, Lab Grading Option: Letter

MUJZ 396 Jazz Combo II
Units: 2 Max Units: 8.0 Terms Offered: FaSp Preparation and performance of literature for jazz combos. *Prerequisite:* MUJZ 195. Instruction Mode: Lecture Grading Option: Credit/No Credit

MUJZ 400 Arranging for Jazz Ensemble
Units: 2 Scoring for jazz ensemble with emphasis on writing for sections of like and mixed instruments as well as full ensemble. Duplicates Credit in former MUCO 400. Instruction Mode: Lecture Grading Option: Letter

MUJZ 403 Studio Singing Techniques
Units: 2 Terms Offered: FaSp Study of technique, theory and aural skills as applied to studio singing; critical listening; study of various styles; ear training and sight singing as these apply to working in a studio. *Recommended Preparation:* jazz background; can read music and sing well. Instruction Mode: Lecture Grading Option: Letter

MUJZ 419m The Jazz Experience: Myths and Culture
Units: 4 Terms Offered: FaSp An examination of the music, culture, and mythology of jazz revealed through the study of jazz fiction, film, poetry, and recorded examples. Instruction Mode: Lecture Grading Option: Letter

MUJZ 443 Jazz Pedagogy
Units: 2 Terms Offered: Sp Concepts, methods, and resources; examination and comparison of textbooks, recordings, tapes, and materials related to the study and teaching of jazz. Duplicates Credit in former MUED 443. Instruction Mode: Lecture Grading Option: Letter

MUJZ 450 Intermediate Jazz Improvisation
Units: 2 Max Units: 4.0 Terms Offered: FaSp Development of intermediate improvisational skills including underlying principles of theory, harmony, jazz ear training, and jazz style. *Recommended Preparation:* MUJZ 150. Instruction Mode: Lecture Grading Option: Letter

MUJZ 451 Advanced Jazz Improvisation
Units: 2 Max Units: 4.0 Terms Offered: Sp Development of advanced improvisational skills, including Lydian-chromatic and bi-modal techniques, through instrumental performance. Instruction Mode: Lecture Grading Option: Letter

MUJZ 452 Individual Instrument Performance Class II
Units: 1 Max Units: 4.0 Terms Offered: FaSp Solo and orchestra repertoire, professional preparation, reed making, and other matters appropriate to group study. Required of all third and fourth year wind and percussion majors each semester in residence. Instruction Mode: Lecture Grading Option: Letter

MUJZ 453 Individual Instruction
Units: 1, 2 Max Units: 8.0 Terms Offered: FaSpSm Weekly individual instruction and performance forum. Registration Restriction: Open only to jazz studies majors. Instruction Mode: Lecture Grading Option: Letter

MUJZ 486 Jazz Masters from World War II to the Present
Units: 2 Examination of major jazz artists from World War II to the present with emphasis on the innovators of each period. Detailed analysis of selected repertoire. *Recommended Preparation:* MUJZ 419. Duplicates Credit in former MUHL 486. Instruction Mode: Lecture Grading Option: Letter

MUJZ 490x Directed Research
Units: 1, 2, 3, 4, 5, 6, 7, 8 Max Units: 12.0 Terms Offered: FaSpSm Individual research and readings. Instruction Mode: Lecture Grading Option: Letter

MUJZ 499 Special Topics
Units: 2, 3, 4 Max Units: 8.0 Selected topics of current interest. Instruction Mode: Lecture Grading Option: Letter

MUJZ 501 Individual Instruction
Units: 1 or 2 Max Units: 8.0 Terms Offered: FaSpSm Secondary instruction for graduate music majors or instruction for graduate non-music majors. Instruction Mode: Lecture Grading Option: Letter

MUJZ 545 Jazz Ensemble Development
Units: 2, 2 years Terms Offered: Sp Techniques, approaches, teaching materials, and music useful in developing jazz ensembles in educational settings, from junior high school through college. Duplicates Credit in former MUED 547. Instruction Mode: Lecture Grading Option: Letter

MUJZ 547 Jazz Composition
Units: 2 Max Units: 4.0 Terms Offered: Fa Application of theoretical and compositional techniques used in jazz to written music. Analysis and performance of historical and contemporary examples will be included. Duplicates Credit in former MUCO 547. Instruction Mode: Lecture Grading Option: Letter

MUJZ 551 Graduate Jazz Improvisation
Units: 2 Terms Offered: Sp Development of proficiency in improvising to advanced jazz concepts, including transposition, substitute harmony, superimposed harmony, atypical harmonic schemes and contemporary chord and scale types. *Prerequisite:* MUJZ 451. Instruction Mode: Lecture Grading Option: Letter

MUJZ 553 Individual Instruction
Units: 1 or 2 Max Units: 8.0 Terms Offered: FaSpSm Instruction Mode: Lecture Grading Option: Letter

MUJZ 554 Graduate Certificate Performance
Units: 4 Max Units: 16.0 Terms Offered: FaSpSm Individual instruction and related lab participation for Graduate Certificate students. Instruction Mode: Lecture Grading Option: Letter

MUJZ 588 Special Studies in Jazz Performance
Units: 2 Max Units: 6.0 Performance problems, composers and/or stylistic analysis of music from the jazz idiom. Specific emphasis to be determined by the Jazz Studies department. Instruction Mode: Lecture Grading Option: Letter

MUJZ 590 Directed Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Terms Offered: FaSpSm Research leading to the master's degree. Maximum units which may be applied to the degree to be determined by the department. Instruction Mode: Lecture Grading Option: Credit/No Credit

MUJZ 599 Special Topics
Units: 2, 3, 4 Max Units: 8.0 Selected topics of current interest. Instruction Mode: Lecture Grading Option: Letter

MUJZ 653 Performance
Units: 1 or 2 Max Units: 12.0 Terms Offered: FaSpSm Individual or master class instruction for DMA Performance majors. Instruction Mode: Lecture Grading Option: Letter

MUJZ 688 Special Topics in Jazz Performance
Units: 2 Max Units: 4.0 Terms Offered: Fa Examination and analysis of solo and compositional repertory of the jazz idiom through transcription and comparative research. Specific emphasis to be determined by the Jazz Studies department. Instruction Mode: Lecture Grading Option: Letter

MUJZ 790 Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Research leading to the doctorate. Maximum units which may be applied to the degree to be determined by the department. Instruction Mode: Lecture Grading Option: Credit/No Credit

School of Music

MUSC 102gw World Music
Units: 4 Exploration of music and cultures of the world. Engagement with international musicians, global issues, field work and musical diasporas in Los Angeles. Satisfies New General Education in Category A: The Arts Satisfies Global Perspective in Category G: Citizenship in a Diverse World Duplicates Credit in former MUHL 302 Instruction Mode: Lecture Grading Option: Letter

MUSC 110 Freshman Forum
Units: 1 Terms Offered: FaSp Introduction to issues and skills relevant to the professional musical world of today. Instruction Mode: Lecture Grading Option: Credit/No Credit

MUSC 115gp Western Music as Sounding History
Units: 4 An introduction to Western art music and culture from the Medieval, Renaissance, Baroque, Classical, Romantic and Modern eras through reading, listening, analyzing and writing about music. Satisfies New General Education in Category A: The Arts Satisfies Global Perspective in Category H: Traditions and Historical Foundations Duplicates Credit in former MUHL 315 Instruction Mode: Lecture Grading Option: Letter

MUSC 170gp Classics of Music and Literature: from Ancient Greece Through Contemporary LA
Units: 4 Terms Offered: FaSp (Enroll in CLAS 170gp)

MUSC 200gmw The Broadway Musical: Reflections of American Diversity
Units: 4 A uniquely American genre, the Broadway musical serves as a catalyst for inquiry into human diversity, cross-culturalism, and significant social and political issues. Satisfies New General Education in Category A: The Arts Satisfies Global Perspective in Category G: Citizenship in a Diverse World Duplicates Credit in former MUSC 400 Instruction Mode: Lecture Grading Option: Letter

MUSC 210g Electronic Music and Dance Culture
Units: 4 The origins and development of EDM and its relatives such as disco, house, techno, rave and electronica, focusing on cultural and technological influences. Satisfies New General Education in Category A: The Arts Duplicates Credit in former MUSC 410 Instruction Mode: Lecture Grading Option: Letter

MUSC 215 Music, Mind and the Brain
Units: 4 Terms Offered: Irregular (Enroll in PSYC 215Lg)

MUSC 250gmw The Music of Black Americans
Units: 4 A chronicle of the musical contribution of Africans and African Americans to American society and to the foundations of musical genres and styles throughout the world. Satisfies New General Education in Category A: The Arts Satisfies Global Perspective in Category G: Citizenship in a Diverse World Duplicates Credit in former MUSC 450 Instruction Mode: Lecture Grading Option: Letter

MUSC 255 Songwriting I
Units: 2 Terms Offered: FaSp Development of musical and lyrical skills, composing, listening, analysis, and critiques of popular original music. Instruction Mode: Lecture Grading Option: Letter

MUSC 320gmw Hip-hop Music and Culture
Units: 4 A history of hip-hop music from its inception to the present: its musical processes and styles, as well as attendant social, political and cultural issues. Satisfies New General Education in Category A: The Arts Satisfies Global Perspective in Category G: Citizenship in a Diverse World

Duplicates Credit in former MUSC 420 Instruction Mode: Lecture Grading Option: Letter

MUSC 355 Songwriting II
Units: 2 Terms Offered: FaSp Continuation of Songwriting I; particular emphasis on the analysis of the techniques of important popular songwriters and the application of these techniques to original songs. *Prerequisite:* MUSC 255. Duplicates Credit in former MUCO 252. Instruction Mode: Lecture Grading Option: Letter

MUSC 371g Musical Genre Bending
Units: 4 The aesthetic and ethical issues of genre-bending music in 20th and 21st century rock, classical, jazz, and folk music. Satisfies New General Education in Category A: The Arts Instruction Mode: Lecture Grading Option: Letter

MUSC 372g Music, Turmoil and Nationalism
Units: 4 An exploration of musical practices and styles which reflect and shape national identities and which focus on those created in response to political turmoil in many forms. Satisfies New General Education in Category A: The Arts Instruction Mode: Lecture Grading Option: Letter

MUSC 373g Writing About Popular Music
Units: 4 Immerses students in criticism, scholarship, and creative writing dealing with popular music. Students participate in that discourse through developing their own authorial voices. Satisfies New General Education in Category A: The Arts Instruction Mode: Lecture Grading Option: Letter

MUSC 422 The Beatles: Their Music and Their Times
Units: 4 Music, lyrics, recordings, production techniques, career strategy, social ramifications, and especially the technological impact of the musical group known as The Beatles. Instruction Mode: Lecture Grading Option: Letter

MUSC 423 Classic Rock: Popular Music of the Sixties and Seventies
Units: 2 Critical examination of the lyrics, structure, associated mythology, technology, and evolving styles of popular music reflecting the turbulent societal changes during the Sixties and Seventies. Instruction Mode: Lecture Grading Option: Letter

MUSC 424 Iconic Figures of Popular Music
Units: 2 Max Units: 8.0 Terms Offered: FaSp Music, life, recordings, and attendant musical, cultural and political influences of a seminal musician or group in 20th or 21st century popular music. Instruction Mode: Lecture Grading Option: Letter

MUSC 430m Music and the Holocaust
Units: 4 Terms Offered: FaSp Study of the creation and performance of Holocaust related music from 1933 to the present, including interaction with other arts. Instruction Mode: Lecture Grading Option: Letter

MUSC 444 American Roots Music: History and Culture
Units: 4 Terms Offered: Irregular The history, genre, styles, songs, lyrics, and influences of American vernacular music in the 20th century, including the background that spawned these musical genres. Instruction Mode: Lecture Grading Option: Letter

MUSC 455 Songwriting III: The Performing Songwriter
Units: 2 Continuation of Songwriting I and II with emphasis on the development of performance skills of original popular music in preparation for songwriting showcases. *Prerequisite:* MUSC 355. Duplicates Credit in former MUCO 254. Instruction Mode: Lecture Grading Option: Letter

MUSC 460 Film Music: History and Function from 1930 to the Present
Units: 4 Terms Offered: Fa A survey of the art and craft of film music as practiced by outstanding composers in motion pictures. Instruction Mode: Lecture Grading Option: Letter

MUSC 465 Music, Television and American Culture
Units: 4 Terms Offered: Sp An exploration of the social and cultural impact of music written for, popularized by, or exploited by American television from the 1950s through today. Instruction Mode: Lecture Grading Option: Letter

MUSC 470 Contemporary Popular Music: A Global Perspective
Units: 2 Terms Offered: Sm Contemporary popular music in global culture; includes performance and collaboration opportunities with local musicians. Instruction Mode: Lecture Grading Option: Letter

MUSC 475 Musician's Health and Wellness
Units: 2 Interactive exploration of injury prevention, body awareness disciplines, effective practice strategies, warm-ups and stretches, performance anxiety, hearing protection, and other pertinent wellness topics for musicians. *Recommended Preparation:* Music background Instruction Mode: Lecture Grading Option: Letter

MUSC 480 Young Artist Project I
Units: 2 Ideation and development of plans for unique individualized, mentored projects related to students' diversified and often hybrid work as classical musicians. Instruction Mode: Lecture Grading Option: Letter

MUSC 481 Young Artist Project II
Units: 2 Refinement, execution and reflection on unique individualized, mentored projects related to students' diversified and often hybrid work as classical musicians. *Prerequisite:* MUSC 480 Instruction Mode: Lecture Grading Option: Letter

MUSC 496 Careers in Music
Units: 2 Terms Offered: Sp A study of the practical aspects of the music business, including the history, procedures, standard practices, economics and technologies employed by the music industry. Instruction Mode: Lecture Grading Option: Letter

MUSC 498x Internship in Music
Units: 1, 2, 3, 4 Max Units: 8.0 Terms Offered: FaSpSm Practical work experience in the student's field of study, at an off-campus location. Students are individually supervised by faculty. Registration Restriction: Open only to Bachelor of Music and Bachelor of Arts, Music majors only. Instruction Mode: Lecture Grading Option: Credit/No Credit

MUSC 499 Special Topics
Units: 2, 3, 4 Max Units: 8.0 Terms Offered: FaSpSm Selected topics of current interest. Instruction Mode: Lecture Grading Option: Letter

MUSC 598 Internship in Music
Units: 1, 2, 3, 4 Max Units: 4.0 Terms Offered: FaSpSm Practical work experience in the student's field of study, at an off-campus location. Students are individually supervised by faculty. Instruction Mode: Lecture Grading Option: Credit/No Credit

MUSC 599 Special Topics
Units: 2, 3, 4 Max Units: 8.0 Selected topics of current interest. Instruction Mode: Lecture Grading Option: Letter

MUSC 798 Internship in Music
Units: 1, 2, 3, 4 Max Units: 4.0 Terms Offered: FaSpSm Practical work experience in the student's field of study, at an off-campus location. Students are individually supervised by faculty. Registration Restriction: Open only to doctoral students in music. Instruction Mode: Lecture Grading Option: Credit/No Credit

MUSC 800 Studies for the Qualifying Examination in Music
Units: 0 Terms Offered: FaSpSm Studies for the qualifying examination. Duplicates Credit in the former GRSC 800 Instruction Mode: Lecture Grading Option: Credit/No Credit

Nautical Science

NAUT 301a Seamanship and Navigation
Units: 2 Terms Offered: FaSp An experiential approach to sailing and seafaring, introducing offshore sailing theory and techniques, navigation, and basic oceanography as relevant to seamanship, leadership and communication skills. Duplicates Credit in former NAUT 001a Instruction Mode: Lecture Grading Option: Letter

NAUT 301b Seamanship and Navigation
Units: 2 Terms Offered: FaSp An experiential approach to sailing and seafaring, introducing offshore sailing theory and techniques, navigation, and basic oceanography as relevant to seamanship, leadership and communication skills. *Prerequisite:* NAUT 301a or NAUT 001ax Duplicates Credit in former NAUT 001b Instruction Mode: Lecture Grading Option: Letter

NAUT 302ax Advanced Seamanship and Navigation
Units: 2 Terms Offered: FaSp Responsibilities and operations commanding an offshore sailing vessel including sailing theory and advanced techniques, advanced navigation, ships engineering and oceanography relevant to seamanship. *Prerequisite:* NAUT 301b or NAUT 001bx Duplicates Credit in former NAUT 002a Instruction Mode: Lecture Grading Option: Letter

NAUT 302bx Advanced Seamanship and Navigation
Units: 2 Terms Offered: FaSp Responsibilities and operations commanding an offshore sailing vessel including sailing theory and advanced techniques, advanced navigation, ships engineering and oceanography relevant to seamanship. *Prerequisite:* NAUT 302ax or NAUT 002ax Duplicates Credit in former

NAUT 002b Instruction Mode: Lecture Grading Option: Letter

Neuroscience (Undergraduate)

NEUR 199 Neuroscience Colloquium
Units: 1 Terms Offered: Sp (Enroll in BISC 199)

NEUR 390 Special Problems
Units: 1, 2, 3, 4 Supervised, individual studies. No more than one registration permitted. Enrollment by petition only. Instruction Mode: Lecture Grading Option: Letter

NEUR 407 Cellular and Molecular Neuroscience
Units: 4 Terms Offered: FaSp (Enroll in BISC 407)

NEUR 408 Systems Neuroscience: From Synapses to Perception
Units: 4 Terms Offered: Sp (Enroll in BISC 408)

NEUR 421 Neurobiology
Units: 4 Terms Offered: Fa (Enroll in BISC 421)

NEUR 422 Neuropsychology
Units: 4 Terms Offered: Irregular (Enroll in PSYC 424)

NEUR 423 Epilepsy to Ecstasy: Biological Basis of Neurological Disord
Units: 4 Terms Offered: Sp (Enroll in BISC 423)

NEUR 424 Brain Architecture
Units: 4 Terms Offered: Sp (Enroll in BISC 424)

NEUR 426 Principles of Neural Development
Units: 4 Terms Offered: Sp (Enroll in BISC 426)

NEUR 427 Neuropsychopharmacology
Units: 4 Terms Offered: Fa (Enroll in PSYC 427)

NEUR 440 Foundations of Cognitive Neuroscience
Units: 4 Terms Offered: FaSp (Enroll in PSYC 440)

NEUR 490x Directed Research
Units: 1, 2, 3, 4, 5, 6, 7, 8 Max Units: 12.0 Terms Offered: FaSpSm Individual research and readings. Instruction Mode: Lecture Grading Option: Letter

NEUR 493x Neuroscience Honors Seminar
Units: 1 Max Units: 4.0 Terms Offered: FaSp Students attend lectures of distinguished neuroscientists visiting USC and give short, chalk-talk presentations summarizing the lecture. The presentations are critiqued by the students. *Prerequisite:* BISC 220 or BISC 221; *Recommended Preparation:* BISC 421. Instruction Mode: Lecture Grading Option: Letter

NEUR 494x Honors Thesis
Units: 2 Terms Offered: FaSp Instruction Mode: Lecture Grading Option: Letter

NEUR 534L Computational Neuroengineering
Units: 3 (Enroll in BME 575)

NEUR 535 Brain Theory and Artificial Intelligence
Units: 3 (Enroll in CSCI 564)

NEUR 542 Hearing and Communication Neuroscience
Units: 4 Terms Offered: Sp (Enroll in BISC 521)

Neuroimaging and Informatics

NIIN 500 Neuroimaging and Systems Neuroscience
Units: 3 Terms Offered: Fa Detailed overview of neuroanatomy, neurophysiology, and neural systems with an emphasis on human neuroanatomy and imaging. Examples from clinical cases and their consequences will be explored. Registration Restriction: Open only to NIIN students or with permission of the instructor and director of education Instruction Mode: Lecture Grading Option: Letter

NIIN 510 Fundamentals of Human Neuroimaging
Units: 3 Terms Offered: Fa Survey of anatomical and functional neuroimaging approaches and their use to explore the healthy as well as diseased human brain. Registration Restriction: Open only to Neuroimaging and Informatics majors. Instruction Mode: Lecture Grading Option: Letter

NIIN 520 Experimental Design for Neuroimaging
Units: 3 Terms Offered: Sp Examine experimental design approaches for experimental and clinical neuroimaging investigation. Topics on how to develop rigorous experiments to test theories of cognitive and clinical neuroscience. Registration Restriction: Open only to Neuroimaging and Informatics majors Instruction Mode: Lecture Grading Option: Letter

NIIN 530 Neuroimaging Data Acquisition w/ Magnetic Resonance Imaging
Units: 3 Terms Offered: Fa Introduces the various approaches used to image the living brain using MR-based techniques. Covers neuroimaging scanning technologies, pulse sequence design, and sources of image artifact. *Recommended Preparation:* familiarity with Matlab. Registration Restriction: Open only to Neuroimaging and Informatics majors. Instruction Mode: Lecture Grading Option: Letter

NIIN 540 Neuroimaging Data Processing Methods
Units: 3 Terms Offered: Fa Comprehensive investigation of data processing methods, software strategies, and workflow design and execution methodologies. Registration Restriction: Open only to Neuroimaging and Informatics majors Instruction Mode: Lecture Grading Option: Letter

NIIN 550 Computational Modeling in Neuroimaging
Units: 3 Terms Offered: Sp Addresses the current neuroinformatics approaches to large-scale data representations, mining, and visualization in brain imaging. Registration Restriction: Open only to Neuroimaging and Informatics majors. Instruction Mode: Lecture Grading Option: Letter

NIIN 560 Brain Architecture and Neuroanatomic Exploratory Techniques in Animal Models
Units: 3 Terms Offered: Sp Introduction to basic theories and methodological approaches to neuroanatomy in animal models including histology, microscopy, behavioral investigations, and neuroinformatics. Registration Restriction: Open only to Neuroimaging and Informatics majors Instruction Mode: Lecture, Lab Grading Option: Letter

NIIN 570 Neuroimaging Genetics
Units: 3 Terms Offered: Sp Lectures on human genetics and epigenetics. Discuss how applying these concepts to brain imaging advances our understanding of healthy development and neurological disease. Emphasis on critical thinking applied both to designing neuroimaging genetics studies and to constructively assessing peer work and existing neuroimaging genetics literature. Registration Restriction: Open only to Neuroimaging and Informatics majors. Instruction Mode: Lecture Grading Option: Letter

NIIN 580 Introduction to Data Science in Neuroimaging
Units: 3 Terms Offered: Sp Basics of data science as applied to neuroimaging data. Topics include neuroimaging data preparation and quality control, basics of programming and statistical models and machine learning techniques appropriate for the analyses of neuroimaging data. *Recommended Preparation:* NIIN 510, NIIN 540 Registration Restriction: Open only to NIIN majors or with the permission of the instructor and NIIN Director of Education Instruction Mode: Lecture Grading Option: Letter

NIIN 597 Current Topics in Neuroimaging Informatics
Units: 1 Terms Offered: Fa Leading researchers in the areas of basic and clinical brain imaging, computational methods, and informatics formally discuss their work for which students provide written critical review and comment. Registration Restriction: Open only to Neuroimaging and Informatics majors. Instruction Mode: Lecture Grading Option: Letter

NIIN 600 Science Communications
Units: 1 Terms Offered: Sp Learn writing and communication elements critical for success in science-related fields, including clear writing, effective presentations and career development skills. Registration Restriction: Open only to NIIN majors or with the permission of the instructor and NIIN Director of Education Instruction Mode: Lecture Grading Option: Letter

Naval Science

NSC 135 Introduction to Naval Science
Units: 2 Terms Offered: Fa Introduction to the structure, principles, and practices, lines of command and control, and functions of the various components of the naval service. Instruction Mode: Lecture, Lab Grading Option: Letter

NSC 137 Seapower and Maritime Affairs
Units: 3 Terms Offered: Sp Analysis of U.S. Navy development and campaigns; evolution of strategic, tactical, and maritime doctrines; interaction of naval affairs with national security and domestic policies. Instruction Mode: Lecture, Lab Grading Option: Letter

NSC 251 Seamanship and Ship Operations
Units: 3 Terms Offered: Fa Vector solutions of relative motion, tactical problems; tactical communications, instructions; fleet communications, organizations; rules of the Nautical Road; aviation and maritime

meteorology; operation plans and orders. Instruction Mode: Lecture, Lab Grading Option: Letter

NSC 283 Naval Ships Systems I (Engineering)
Units: 3 Terms Offered: Sp Types, structure, and purpose of Naval ships, compartmentation, propulsion systems, auxiliary power systems, interior communications, ship control; ship design and stability. Instruction Mode: Lecture, Lab Grading Option: Letter

NSC 335 Navigation
Units: 3 Terms Offered: Fa Purposes, methods, and instruments of navigation; terrestrial and celestial navigation and nautical astronomy; time diagrams; lines of position by observation of celestial bodies. Instruction Mode: Lecture, Lab Grading Option: Letter

NSC 337 Naval Ships Systems II (Weapons)
Units: 3 Terms Offered: Sp Systems approach to naval weapons; linear analysis of ballistics; weapons control systems configurations and dynamics. Field trips. Instruction Mode: Lecture, Lab Grading Option: Letter

NSC 343 Evolution of Warfare
Units: 3 Terms Offered: Fa Causes and practice of warfare from ancient times; impact of changes in strategy, tactics, and technology; modern revolutionary warfare, global conflict, and politico-military relationships. Instruction Mode: Lecture, Lab Grading Option: Letter

NSC 392 Amphibious Warfare
Units: 3 Terms Offered: Fa Concepts of seaborne military operations; relationship of factors involved; characteristic operations of World War II; amphibious operation planning. Instruction Mode: Lecture, Lab Grading Option: Letter

NSC 393 Fundamentals of Maneuver Warfare
Units: 3 Characteristics, requirements and problems of maneuver warfare; modern tactical principles and current military developments; other aspects of warfare and impact on maneuver warfare doctrine; historical perspectives for present and future decision-making. Instruction Mode: Lecture, Lab Grading Option: Letter

NSC 453 Leadership and Management I
Units: 3 Terms Offered: Fa Principles of human relationships; principles of decision making and management at the junior officer level; theory and techniques of leadership. Instruction Mode: Lecture, Lab Grading Option: Letter

NSC 454 Leadership and Management II
Units: 3 Terms Offered: Sp Introduction to primary duties of junior naval officers; counseling and interviewing techniques; review of basic administrative responsibilities at the division officer level. Instruction Mode: Lecture, Lab Grading Option: Letter

Neuroscience (Graduate)

NSCI 521 Hearing and Communication Neuroscience
Units: 4 Terms Offered: Sp (Enroll in BISC 521)

NSCI 524 Advanced Overview of Neurosciences
Units: 4 Terms Offered: Fa Study of the nervous system at multiple levels through the analysis of four themes: motor control; emotion, motivation, and decision-making; memory and learning; and vision. *Prerequisite:* BISC 421. Registration Restriction: Open only to master and doctoral students. Duplicates Credit in former NEUR 524. Instruction Mode: Lecture Grading Option: Letter Crosslisted as PHBI 524

NSCI 525 Advanced Overview of Neurosciences II
Units: 4 Terms Offered: Sp Sensory and motor systems, cognitive neuroscience, behavioral systems, computational neuroscience. *Prerequisite:* BISC 421. Registration Restriction: Open only to master and doctoral students. Duplicates Credit in former NEUR 525. Instruction Mode: Lecture Grading Option: Letter

NSCI 531 Molecular and Cellular Neurobiology
Units: 4 Terms Offered: FaSpSm Introduces fundamental principles of advanced molecular and cellular neurobiology including proteins and nucleic acids, cell biology of neurons and glia, synaptic transmission and neuronal signaling. Registration Restriction: Open only to master and doctoral students. Duplicates Credit in former NEUR 531. Instruction Mode: Lecture Grading Option: Letter Crosslisted as INTD-567

NSCI 532 Systems and Behavioral Neurobiology
Units: 3 Terms Offered: Fa Systems and behavioral neurobiology: hierarchical mechanisms controlling behavior, experimental techniques; perceptual (visual, auditory, somatosensory) systems; sensorimotor systems; motivated behavior; learning, memory and adaptation. Registration Restriction: Open only to master and doctoral students. Instruction Mode: Lecture Grading Option: Letter

NSCI 533 Cognitive Neuroscience
Units: 4 Terms Offered: Sp (Enroll in PSYC 540)

NSCI 539 Seminar in Neurobiology
Units: 1 Max Units: 4 Terms Offered: FaSp Seminar in Neurobiology. Registration Restriction: Open only to master and doctoral students. Duplicates Credit in former NEUR 539. Instruction Mode: Lecture Grading Option: Letter

NSCI 540 Advanced Seminars in Neuroscience
Units: 1 Max Units: 8.0 Terms Offered: FaSpSm Advanced topic based seminar style courses in the diverse areas of Neuroscience. *Recommended Preparation:* NSCI 524. Registration Restriction: Open only graduate students. Instruction Mode: Lecture Grading Option: Letter

NSCI 541 Advanced Seminars in Neuroscience
Units: 2 Max Units: 12 Terms Offered: FaSpSm Advanced topic-based, seminar-style courses in the diverse areas of Neuroscience. *Prerequisite:* NSCI 524. Registration Restriction: Open only to master and doctoral students. Duplicates Credit in former NEUR 541. Instruction Mode: Lecture Grading Option: Letter

NSCI 596 Internship for Curricular Practical Training
Units: 1, 2, 3 Max Units: 03 Terms Offered: FaSpSm Part-time or full-time, practical work experience in the student's field of study. The internship must be located at an off-campus facility. Students are individually supervised by faculty. May not be taken until the student has completed at least one semester of enrollment in the graduate program with a cumulative 3.0 GPA. Registration Restriction: Open only to graduate students Instruction Mode: Lecture Grading Option: Credit/No Credit

NSCI 599 Special Topics
Units: 2, 3, 4 Max Units: 8.0 Special topics providing background for instruction and research in neuroscience through lectures, discussions, assigned readings and student presentations. Instruction Mode: Lecture Grading Option: Letter

NSCI 790 Research
Units: 1, 2, 3, 4, 5, 6 Terms Offered: FaSpSm Research leading to the doctorate. Maximum units which may be applied to the degree to be determined by the department. Registration Restriction: Open only to doctoral students in Neuroscience Graduate and Neuroscience majors. Duplicates Credit in former NEUR 790. Instruction Mode: Lecture Grading Option: Credit/No Credit

NSCI 794a Doctoral Dissertation
Units: 2 Credit on acceptance of dissertation. Registration Restriction: Open only to doctoral students in Neuroscience Graduate and Neuroscience majors. Duplicates Credit in former NEUR 794abcdz. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

NSCI 794b Doctoral Dissertation
Units: 2 Credit on acceptance of dissertation. Registration Restriction: Open only to doctoral students in Neuroscience Graduate and Neuroscience majors. Duplicates Credit in former NEUR 794abcdz. Instruction Mode: Lecture Grading Option: In-progress & Credit/No Credit

NSCI 794c Doctoral Dissertation
Units: 2 Credit on acceptance of dissertation. Registration Restriction: Open only to doctoral students in Neuroscience Graduate and Neuroscience majors. Duplicates Credit in former NEUR 794abcdz. Instruction Mode: Lecture Grading Option: In-progress & Credit/No Credit

NSCI 794d Doctoral Dissertation
Units: 2 Credit on acceptance of dissertation. Registration Restriction: Open only to doctoral students in Neuroscience Graduate and Neuroscience majors. Duplicates Credit in former NEUR 794abcdz. Instruction Mode: Lecture Grading Option: In-progress & Credit/No Credit

NSCI 794z Doctoral Dissertation
Units: 0 Credit on acceptance of dissertation. Registration Restriction: Open only to doctoral students in Neuroscience Graduate and Neuroscience majors. Duplicates Credit in former NEUR 794abcdz. Instruction Mode: Lecture Grading Option: In-progress & Credit/No Credit

Nursing

NURS 500 Bridge Course
Units: 2 Key concepts from chemistry, biochemistry, genetics, cell biology, metabolism, microbiology, and immunology in an 8-week format. Successful completion of this unique preparatory course is expected to position students for success in the graduate level pathophysiology and pharmacology courses. Registration Restriction: Open only to master students in Nursing Instruction Mode: Lecture Grading Option: Credit/No Credit

NURS 501 Pathophysiology for Advanced Nursing Practice
Units: 4 Advanced physiology/ pathophysiology including general principles that apply across the lifespan. *Recommended Preparation:* Recent (within five years), satisfactory completion of undergraduate courses that include Organic Chemistry, Nutrition, Anatomy and Physiology. It is expected that enrolled students have reviewed their undergraduate course work in human anatomy and physiology, and possess a working knowledge of cell biology, biochemistry, nutrition, and human genetics at the undergraduate level. Registration Restriction: Open only to master students in Nursing Instruction Mode: Lecture Grading Option: Letter

NURS 502 Advanced Health Assessment Across the Life Span
Units: 3 Development of advanced critical thinking and clinical judgement skills through comprehensive health assessment. Health promotion and health maintenance content is utilized to assess health status and evaluate health risk among individuals and groups. Registration Restriction: Open only to master students in Nursing Instruction Mode: Lecture Grading Option: Credit/No Credit

NURS 503 Theory: Clinical Management of Adult Patients
Units: 3 The scope of practice and responsibilities of the family nurse practitioner in prevention of disease, health maintenance, and the diagnosis and management of patients with common illnesses are explored. Registration Restriction: Open only to master students in Nursing Instruction Mode: Lecture Grading Option: Letter

NURS 504 Pharmacology for Advanced Practice Nursing
Units: 3 Advanced pharmacology including pharmacodynamics, pharmacokinetics, and pharmacotherapeutics of all broad categories of agents. Registration Restriction: Open only to master students in Nursing Instruction Mode: Lecture Grading Option: Letter

NURS 505 Clinical Practicum: Management of Adult Patients
Units: 3 Primary health care to patients throughout the life cycle with a focus on the prevention of disease, health maintenance, and the diagnosis and management of patients with common illnesses. *Prerequisite:* NURS 503 Registration Restriction: Open only to master students in Nursing Instruction Mode: Lecture Grading Option: Credit/No Credit

NURS 507 Theory: Clinical Management of the Childbearing/Childrearing Family
Units: 3 Diagnosing and managing childbearing women from preconception through uncomplicated pregnancy and postpartum periods and providing primary care to children and their families from newborn through adolescence periods. *Prerequisite:* NURS 503 Registration Restriction: Open only to master students in Nursing Instruction Mode: Lecture Grading Option: Letter

NURS 600 Theory: Clinical Management of Adult Patients with Complex Medical Issues
Units: 3 The scope of practice and responsibilities of the family nurse practitioner in the diagnosis and management of patients with acute, complex and chronic illnesses are explored. *Prerequisite:* NURS 503 and NURS 507 Registration Restriction: Open only to master students in Nursing Instruction Mode: Lecture Grading Option: Letter

NURS 601 Clinical Practicum: Management of the Childbearing/ Childrearing Family
Units: 3 Clinical practicum is intended to prepare FNP students to provide primary health care to childbearing/ childrearing families from preconception through adolescent phase of the life cycle. *Prerequisite:* NURS 507 Registration Restriction: Open only to master students in Nursing Instruction Mode: Lecture Grading Option: Credit/No Credit

NURS 602 Research/Analytical Methods
Units: 3 Understanding and applying commonly used research methodologies and data analysis techniques in healthcare research. *Recommended Preparation:* statistics Registration Restriction: Open only to master students in Nursing Instruction Mode: Lecture Grading Option: Letter

NURS 603 Transforming Research Evidence into Practice
Units: 3 Preparing the advanced practice nursing student to critically evaluate knowledge, research and evidence for implementation of best practices in healthcare in order to deliver safe, ethical, culturally sensitive evidence based care for patients in diverse settings. *Prerequisite:* NURS 602 Registration Restriction: Open only to master students in Nursing Instruction Mode: Lecture Grading Option: Letter

NURS 604 Clinical Practicum: Management of Adult Patients with Complex Medical Issues
Units: 3 Application of theoretical concepts studied in NURS 600. Comprehensive assessments, formulation of differential diagnoses, and the development of plans of care to manage acute and chronic complex in a variety of practice settings. *Prerequisite:* NURS 600 Registration Restriction: Open only to master students in Nursing Instruction Mode: Lecture Grading Option: Credit/No Credit

NURS 605 Professional Issues in Advanced Practice Nursing
Units: 2 The professional role and legal responsibilities of the nurse practitioner at entry to clinical practice and throughout a career are explored. Registration Restriction: Open only to master students in Nursing Instruction Mode: Lecture Grading Option: Letter

NURS 606 Health Policy Principles in Changing Health Care Contexts
Units: 2 Foundation for leadership in interprofessional collaborative endeavors to address health policy that prepares learners to analyze and influence health policy and explores the role of nurse practitioners in the creation and modification of health policy. Registration Restriction: Open only to master students in Nursing Instruction Mode: Lecture Grading Option: Letter

NURS 607 Theory: Family Primary Care
Units: 2 Capstone course draws on material and concepts learning throughout the FNP program and explores additional complex issues including management of pain, caregiver burden, palliative care, and end of life. *Prerequisite:* NURS 503 and NURS 507 and NURS 600 and NURS 602 and NURS 603 Registration Restriction: Open only to master students in Nursing Instruction Mode: Lecture Grading Option: Letter

NURS 608 Clinical Practicum: Family Primary Care
Units: 3 Prepares the family nurse practitioner student for entry into practice in the diagnosis and management of patients with acute, complex, and chronic illnesses in the primary care setting. *Corequisite:* NURS 607 Registration Restriction: Open only to master students in Nursing Instruction Mode: Lecture Grading Option: Credit/No Credit

Occlusion

OCCL 310 Fundamentals of Dental Morphology
Units: 1 Fundamentals of tooth form; carving of the permanent teeth. Instruction Mode: Lecture Grading Option: Letter

OCCL 502 Occlusion
Units: 1 Principles of occlusion as related to clinical application of techniques and procedures to diagnose and treatment plan malfunctions of the stomatognathic system. Instruction Mode: Lecture Grading Option: Letter

OCCL 521a Dental Morphology and Function
Units: 3 Fundamentals of tooth form; principles of occlusion. Instruction Mode: Lecture Grading Option: Letter

OCCL 521b Dental Morphology and Function
Units: 2 Fundamentals of tooth form; principles of occlusion. Instruction Mode: Lecture Grading Option: Letter

OCCL 522 Occlusion Laboratory
Units: 1 Laboratory experience in functional analysis and correction of occlusal disharmonies. Instruction Mode: Lecture Grading Option: Letter

OCCL 601 Advanced Concepts of Occlusion
Units: 1 Historical perspective of occlusion; occlusal equilibration, effect of occlusal adjustment, instrumentation useful in occlusal therapy. Includes clinic and laboratory experience. Instruction Mode: Lecture Grading Option: Letter

Otolaryngology, Head and Neck Surgery

OHNS 200 Communication Development and Disorders Across the Life Span
Units: 4 Terms Offered: Sp Introduction to speech, language and hearing issues across the lifespan; examination of how issues of communication relate to social, medical and educational services needed. Instruction Mode: Lecture Grading Option: Letter

OHNS 301 The Practice of Educational Speech-Language Pathology
Units: 4 Terms Offered: Fa Examination of the interprofessional practice of educational speech-language pathologists and the multiple professionals working in the pediatric arena to serve children in schools. Instruction Mode: Lecture Grading Option: Letter

OHNS 302 Hearing Science and Technology
Units: 4 Terms Offered: Fa Examination of emerging trends in the protection of hearing and treatment of hearing loss, explored across disciplines, including biology, biomedical engineering, electrical engineering, arts, neuroscience and psychology. Instruction Mode: Lecture Grading Option: Letter

OHNS 401 The Practice of Medical Speech-Language Pathology
Units: 4 Terms Offered: Sp Introduction to the practice of medical speech language pathology; examination of the role of the speech language pathologist as a member of the medical speech pathology team. Instruction Mode: Lecture Grading Option: Letter

OHNS 402 The Dynamic Profession of Audiology
Units: 4 Terms Offered: Sp Exploration of how our understanding of hearing and balance disorders continues to evolve with advances in science and technology, with opportunities for interprofessional practice and collaboration. Instruction Mode: Lecture Grading Option: Letter

OHNS 500 Neuroanatomy and Neurophysiology for Speech, Language and Hearing
Units: 3 Terms Offered: Fa Neuroanatomy and neurophysiology with a concentration on basic human communication and swallowing processes, specifically pertaining to disorders and differences in speech, language and hearing. Registration Restriction: Open only to master students in the Speech-Language Pathology program Instruction Mode: Lecture Grading Option: Letter

OHNS 501 Speech Sound Disorders
Units: 3 Terms Offered: Fa Focus on speech-sound production, assessment and treatment of childhood articulation and phonological disorders, emphasizing the study of efficient and effective procedures and service delivery models. Registration Restriction: Open only to master students in the Speech-Language Pathology program Instruction Mode: Lecture Grading Option: Letter

OHNS 502 Language and Literacy Disorders
Units: 3 Terms Offered: Fa Focus on language and literacy disorders in children from birth through adolescence. Special emphasis on assessment, prevention and intervention methods across populations and multi-cultural backgrounds. Registration Restriction: Open only to master students in the Speech-Language Pathology program Instruction Mode: Lecture Grading Option: Letter

OHNS 503 Research Methods in Communication Sciences and Disorders
Units: 3 Terms Offered: Fa Basic and applied research procedures in communication sciences and disorders, including research design, data collection and analysis and application to evidence-based practice for clinical practice. Registration Restriction: Open only to master students in the Speech-Language Pathology program Instruction Mode: Lecture Grading Option: Letter

OHNS 504 Speech-Language Pathology Methods and Evidence-Based Practice
Units: 3 Terms Offered: Fa Overview of the clinical process for the prevention and remediation of communication disorders with emphasis on clinical methodology. Registration Restriction: Open only to master students in the Speech-Language Pathology program Instruction Mode: Lecture Grading Option: Letter

OHNS 505 Audiology for Speech-Language Pathologists
Units: 2 Terms Offered: Sp Introduction to the discipline and practice of audiology, including the nature of hearing and balance, how these systems are clinically assessed and impacts of altered function. Registration Restriction: Open only to master students in the Speech-Language Pathology program Instruction Mode: Lecture Grading Option: Letter

OHNS 506 Autism Spectrum Disorder, AAC and Cognitive Communication Disorders in Children
Units: 3 Terms Offered: Sp Assessment and treatment of Autism Spectrum Disorders and other cognitive disabilities including language, social skills, behavior, consideration for assistive technology and augmentative and alternative communication. Registration Restriction: Open only to master students in the Speech-Language Pathology program Instruction Mode: Lecture Grading Option: Letter

OHNS 507 Voice and Resonance Disorders
Units: 3 Terms Offered: Fa Nature of normal voice production and the assessment and treatment of physiological and other disorders of pitch, loudness, voice quality, including resonance and alaryngeal voice. Registration Restriction: Open only to master students in the Speech-Language Pathology program Instruction Mode: Lecture Grading Option: Letter

OHNS 508 Assessment of Communication Disorders
Units: 3 Terms Offered: Sp Principles, methods and materials to assess communication disorders. Models of assessment and testing, techniques, administration, scoring and interpretation, report writing and related issues. Registration Restriction: Open only to master students in the Speech-Language Pathology program Instruction Mode: Lecture Grading Option: Letter

OHNS 509 Dysphagia
Units: 3 Terms Offered: Sp Anatomy and physiology of the normal swallow and neurological/oncologic disorders which affect the swallowing process. Current practice for clinical and instrumentation analysis, evaluation and treatment. Registration Restriction: Open only to master students in the Speech-Language Pathology program Instruction Mode: Lecture Grading Option: Letter

OHNS 510 Clinical Practicum in Speech-Language Pathology
Units: 2 Terms Offered: Sp Supervised clinical hours in assessment and treatment of individuals with varying communication disorders at a variety of age levels in educational or medical settings. Registration Restriction: Open only to master students in the Speech-Language Pathology program Instruction Mode: Lecture Grading Option: Letter

OHNS 511 Aural (Re)Habilitation
Units: 3 Terms Offered: Sm Introduction to the theories, concepts and components that underlie aural habilitation and rehabilitation to individuals with hearing loss, and concomitant services to their family members. Registration Restriction: Open only to master students in the Speech-Language Pathology program Instruction Mode: Lecture Grading Option: Letter

OHNS 512 Communication Disorders in Early Childhood
Units: 3 Terms Offered: Sm Normal and atypical development relating to prevention, evaluation, treatment planning and remediating communication disorders in early childhood. Involvement of family, interdisciplinary teaming and legal requirements. Registration Restriction: Open only to master students in the Speech-Language Pathology program Instruction Mode: Lecture Grading Option: Letter

OHNS 513 Adult Neurogenic and Related Cognitive Communication Disorders
Units: 3 Terms Offered: Sm Acquired communication disorders including aphasia, right hemisphere disorder, traumatic brain injury, dementia, concussion. Assessment and treatment of these disorders including executive functioning and work/life/family/social implications. Registration Restriction: Open only to master students in the Speech-Language Pathology program Instruction Mode: Lecture Grading Option: Letter

OHNS 514 Clinical Rotations in Speech-Language Pathology
Units: 3 Max Units: 06 Terms Offered: Sm Supervised clinical hours in assessment and treatment of individuals with varying communication disorders at two specialty rotations for six weeks each. Registration Restriction: Open only to master students in the Speech-Language Pathology program Instruction Mode: Lecture Grading Option: Letter

OHNS 515 School-Based Issues in Speech-Language Programs
Units: 3 Terms Offered: Fa Legislative foundations for speech-language programs in schools, including due process, prevention, referral and assessment,

Individualized Education Program (IEP) processes and procedures, service delivery and accountability. Registration Restriction: Open only to master students in the Speech-Language Pathology program Instruction Mode: Lecture Grading Option: Letter

OHNS 516 Motor Speech Disorders/ Craniofacial Disorders
Units: 3 Terms Offered: Fa Motor speech disorders including the dysarthrias and apraxia of speech, as well as craniofacial disorders. Neurological bases, characteristics, differential diagnosis, assessment, treatment and interprofessional collaboration. Registration Restriction: Open only to master students in the Speech-Language Pathology program Instruction Mode: Lecture Grading Option: Letter

OHNS 517 Multicultural Issues in Speech-Language Pathology
Units: 2 Terms Offered: Fa Assessment and intervention considerations and methods for individuals with communication disorders from diverse population; focus on cultural sensitivity and commitment to inclusiveness, equity and diversity. Registration Restriction: Open only to master students in the Speech-Language Pathology program Instruction Mode: Lecture Grading Option: Letter

OHNS 518 Research/Capstone in Communication Sciences and Disorders
Units: 1 Max Units: 02 Terms Offered: FaSp Capstone Research Project addressing a problem in the field of communication sciences and disorders. Students will work with a PhD-level faculty member and will culminate in a submission for presentation in a poster session at a professional conference. Registration Restriction: Open only to master students in the Speech-Language Pathology program Instruction Mode: Lecture Grading Option: Letter

OHNS 519 Externship in Speech-Language Pathology
Units: 3 Max Units: 06 Terms Offered: FaSp Speech-language pathology clinical experience in a supervised school-based, medically-based or private practice setting. Registration Restriction: Open only to master students in the Speech-Language Pathology program Instruction Mode: Lecture Grading Option: Letter

OHNS 520 Professional Issues in Speech-Language Pathology
Units: 1 Terms Offered: Sp Professional issues that affect speech-language pathology in different work settings. Practice issues, licensing and certification, ethics, reimbursement and funding, national and state practice guidelines. Registration Restriction: Open only to master students in the Speech-Language Pathology program Instruction Mode: Lecture Grading Option: Letter

OHNS 521 Fluency Disorders
Units: 2 Terms Offered: Sp Topics related to assessment and treatment of fluency disorders. Theories, characteristics and behavioral and psychological and psycho-social impact. Clinical focus, counseling and transitional planning. Registration Restriction: Open only to master students in the Speech-Language Pathology program Instruction Mode: Lecture Grading Option: Letter

OHNS 522 Telepractice and Technological Applications in Speech-Language Pathology
Units: 2 Terms Offered: Sm Examination of technological applications and service delivery via telepractice. Problem solving and empirical evidence related to assessment, intervention, data collection, licensure, regulations and potential barriers. Registration Restriction: Open only to master students in the Speech-Language Pathology program Instruction Mode: Lecture Grading Option: Letter

OHNS 523 Counseling in Speech-Language Pathology
Units: 2 Terms Offered: Sm The role of the speech-language pathologist in providing communication counseling to address the broader impact of communication and swallowing disorders. Registration Restriction: Open only to master students in the Speech-Language Pathology program Instruction Mode: Lecture Grading Option: Letter

Orofacial Pain Oral Medicine

OFPM 701 CPR, Blood and Airborne Infections and Common Emergencies for Dental Residents
Units: 1 Terms Offered: Sm CPR training, review of common dental emergencies, and blood and airborne pathogens in dental patients. Instruction Mode: Lecture Grading Option: Letter

OFPM 702a Soft Tissue Disease for Dental Residents
Units: 1 Terms Offered: Sm Seminars on the various mucosal, cutaneous, gingival and salivary diseases and lesions in the oral and maxillofacial region. Instruction Mode: Lecture Grading Option: Letter

OFPM 702b Soft Tissue Disease for Dental Residents
Units: 2 Terms Offered: Fa Seminars on the various mucosal, cutaneous, gingival and salivary diseases and lesions in the oral and maxillofacial region. Instruction Mode: Lecture Grading Option: Letter

OFPM 703 Local Anesthesia, Minor Surgery and Biopsy Procedures for Dental Residents
Units: 1 Terms Offered: Sm Seminars on local anesthesia methods and minor surgical procedures appropriate for the oral and maxillofacial region. Instruction Mode: Lecture Grading Option: Letter

OFPM 704 Bony Pathology, Radiology and Advanced Imaging for Dental Residents
Units: 1 Terms Offered: Sm Review of the oral and maxillofacial region osseous and odontogenic pathologies and the various imaging methods used to examine this anatomic region. Instruction Mode: Lecture Grading Option: Letter

OFPM 705 Neurogenic Based Oral and Facial Pains for Dental Residents
Units: 2 Terms Offered: Sp Seminars on the diagnostic and therapeutic procedures appropriate for chronic neurogenic based pain disorders that occur in the orofacial region. Instruction Mode: Lecture Grading Option: Letter

OFPM 706 TMD, Orthopedics, Rheumatology and Physical Therapy for Dental Residents
Units: 2 Terms Offered: Fa Seminars on various topics relating to the diagnosis and management of Temporomandibular disorders. Instruction Mode: Lecture Grading Option: Letter

OFPM 707 Pharmacology Series for Dental Residents
Units: 2 Terms Offered: FaSpSm Seminars on common medications used in the practice of oral medicine and chronic orofacial pain. Registration Restriction: Open only to dentistry students Instruction Mode: Lecture Grading Option: Letter

OFPM 709 Headaches for Dental Residents
Units: 1 Terms Offered: Sp Seminars on the diagnosis, prevention and management (including pathophysiologic mechanisms) of episodic and chronic headache disorders. Instruction Mode: Lecture Grading Option: Credit/No Credit

OFPM 710a Knowledge Assessment for OFPOM Residents
Units: 1 Terms Offered: Sm Includes several intensive calibration/training sessions, with multiple practical demonstrations of methods and techniques. Skill development includes TM joint injection, myofascial palpation, oral cancer screening, biopsy, trigger-point injections and salivary gland cannulation, with mock and virtual patients. Registration Restriction: Open only to Dentistry students Instruction Mode: Lecture, Discussion Grading Option: Letter

OFPM 710b Knowledge Assessment for OFPOM Residents
Units: 1 Terms Offered: Sm Several intensive calibration/training/ sessions based on content that the resident is expected to have mastered by the end of the program, specifically in the field of Oral Medicine. *Prerequisite:* OFPM 710a Registration Restriction: Open only to Dentistry students Instruction Mode: Lecture, Discussion Grading Option: Letter

OFPM 721 Neurosciences for Dental Residents
Units: 2 Terms Offered: Fa Seminars on the neurophysiologic and neuroanatomic bases of chronic orofacial pain disorders. Instruction Mode: Lecture Grading Option: Letter

OFPM 722 Internal Medicine and Systemic Disease for Dental Residents
Units: 2 Terms Offered: Sp Seminars on common systemic diseases and the potential interactions with oral disease and treatment. Instruction Mode: Lecture Grading Option: Letter Crosslisted as GDEN-722

OFPM 723 Systems Physiology, Motor Disorders and Sleep Apnea for Dental Residents
Units: 2 Terms Offered: Fa Seminars on various topics relating to oral motor disorders and sleep disordered breathing (as it relates to the mandible and tongue.) Instruction Mode: Lecture Grading Option: Letter

OFPM 724 Psychological and Psychometric Assessment for Dental Residents
Units: 2 Terms Offered: Sm Seminars on various topics relating to biobehavioral

diagnosis and, where appropriate, psychological management of patients with chronic illness in the orofacial region. Instruction Mode: Lecture Grading Option: Letter

OFPM 725 Epidemiology, Nutrition and Aging for Dental Residents
Units: 2 Terms Offered: Sm Seminar on the epidemiology of oral disease and nutritional topics as related to the aging patient. Instruction Mode: Lecture Grading Option: Letter Crosslisted as GDEN-725

OFPM 726 Immunology and Immunosuppression for Dental Residents
Units: 2 Terms Offered: FaSpSm Seminar course on immunology and immunosuppression as it relates to diseases in the oral and maxillofacial region. Instruction Mode: Lecture Grading Option: Letter

OFPM 727 Infectious Disease, Oral Microbiology and Virology for Dental Residents
Units: 2 Terms Offered: Sm Seminar organized around infectious diseases in the oral, pharyngeal and nasal region. Instruction Mode: Lecture Grading Option: Letter

OFPM 728 Case Presentations by OFP-OM Residents
Units: 2 Terms Offered: Sp Case presentations by Orofacial Pain/Oral Medicine residents in which each resident presents and defends the diagnostic and treatment methods selected for a particular case. Instruction Mode: Lecture Grading Option: Letter

OFPM 729a Capstone Project for OFPOM Residents
Units: 0.5 Terms Offered: Sp Residents complete their capstone research project in a topic in the area of their chosen focus/specialization. Registration Restriction: Open only to Herman Ostrow School of Dentistry students Instruction Mode: Lecture Grading Option: Letter

OFPM 729b Capstone Project for OFPOM Residents
Units: 0.5 Terms Offered: Fa Residents complete their capstone research project in a topic in the area of their chosen focus/specialization. *Prerequisite:* OFPM 729a Registration Restriction: Open only to Dentistry students Instruction Mode: Lecture Grading Option: Letter

OFPM 729c Capstone Project for OFPOM Residents
Units: 0.5 Terms Offered: Sp Residents complete their capstone research project in a topic in the area of their chosen focus/specialization. *Prerequisite:* OFPM 729b Registration Restriction: Open only to Herman Ostrow School of Dentistry students Instruction Mode: Lecture Grading Option: Letter

OFPM 729d Capstone Project for OFPOM Residents
Units: 0.5 Terms Offered: Fa Residents complete their capstone research project in a topic in the area of their chosen focus/specialization. *Prerequisite:* OFPM 729c Registration Restriction: Open only to Herman Ostrow School of Dentistry students Instruction Mode: Lecture, Discussion Grading Option: Letter

OFPM 730a Case Portfolio Preparation by Online OFPOM Residents
Units: .5 Terms Offered: FaSpSm Multiple elements including weekly online conferences, presentations and discussions of de-identified patient cases; learning need assignments; preparation and defense of case-based e-Portfolio. Registration Restriction: Open only to Dentistry students Instruction Mode: Lecture Grading Option: Letter

OFPM 730b Case Portfolio Preparation by Online OFPOM Residents
Units: .5 Terms Offered: FaSpSm Multiple elements including weekly online conferences, presentations and discussions of de-identified patient cases; learning need assignments; preparation and defense of case-based e-Portfolio. *Prerequisite:* OFPM 730a Registration Restriction: Open only to Dentistry students Instruction Mode: Lecture Grading Option: Letter

OFPM 730c Case Portfolio Preparation by Online OFPOM Residents
Units: .5 Terms Offered: FaSpSm Multiple elements including weekly online conferences, presentations and discussions of de-identified patient cases; learning need assignments; preparation and defense of case-based e-Portfolio. *Prerequisite:* OFPM 730b Registration Restriction: Open only to Dentistry students Instruction Mode: Lecture Grading Option: Letter

OFPM 730d Case Portfolio Preparation by Online OFPOM Residents
Units: .5 Terms Offered: FaSpSm Multiple elements including weekly online conferences, presentations and discussions of de-identified patient cases; learning need assignments; preparation and defense of case-based e-Portfolio. *Prerequisite:* OFPM 730c Registration Restriction: Open only to Dentistry students Instruction Mode: Lecture Grading Option: Letter

OFPM 730e Case Portfolio Preparation by Online OFPOM Residents
Units: .5 Terms Offered: FaSpSm Multiple elements including weekly online conferences, presentations and discussions of de-identified patient cases; learning need assignments; preparation and defense of case-based e-Portfolio. *Prerequisite:* OFPM 730d Registration Restriction: Open only to Dentistry students Instruction Mode: Lecture Grading Option: Letter

OFPM 731 Case Portfolio Review and Defense
Units: 0.5 Terms Offered: Sm Residents must complete their capstone research project in a topic in the area of their chosen focus/specialization. *Prerequisite:* OFPM 730b Instruction Mode: Lecture, Discussion Grading Option: Letter

Orofacial Pain

OFP 705 Neurogenic Based Oral and Facial Pains
Units: 2 Terms Offered: FaSpSm Covers the prevalence, differential diagnosis, prevention and management for the various neurogenic orofacial and headache disorders occurring in the oral regions. Registration Restriction: Open only to the Herman Ostrow School of Dentistry Duplicates Credit in OFPM 705 Instruction Mode: Lecture Grading Option: Letter

OFP 706 TMD, Orthopedics, Rheumatology, and Physical Therapy
Units: 2 Terms Offered: FaSpSm Prevalence, differential diagnosis, prevention and management for the common and uncommon temporomandibular, arthrogenous, motor, mobility and growth disorders occurring in the oral region. Registration Restriction: Open only to the Herman Ostrow School of Dentistry Duplicates Credit in OFPM 706 Instruction Mode: Lecture Grading Option: Letter

OFP 707 Pharmacology Series
Units: 2 Terms Offered: FaSpSm Educate dental graduate students about the general pharmacologic principles and appropriate use of specific pharmaco-therapeutic classes of drugs. Registration Restriction: Open only to the Herman Ostrow School of Dentistry Duplicates Credit in OFPM 707 Instruction Mode: Lecture Grading Option: Letter

OFP 710 Knowledge Assessment
Units: 1 Terms Offered: FaSpSm Students attend USC campus to validate skills and perform in-person evaluations. Registration Restriction: Open only to the Herman Ostrow School of Dentistry Duplicates Credit in OFPM 710a Instruction Mode: Lecture Grading Option: Letter

OFP 723 Systems Physiology, Motor Disorders, and Sleep Apnea
Units: 2 Terms Offered: FaSpSm Presentation, diagnosis, mechanism and management of oral motor disorders and sleep disordered breathing providing knowledge about general issues of physiology associated with the masticatory system. Registration Restriction: Open only to the Herman Ostrow School of Dentistry Duplicates Credit in OFPM 723 Instruction Mode: Lecture Grading Option: Letter

OFP 724 Psychological and Psychometric Assessment
Units: 2 Terms Offered: FaSpSm Practical aspects of psychological issues (diagnosis and treatment) and psychometrics as they impact patients in an orofacial pain and oral medicine specialty clinic. Registration Restriction: Open only to the Herman Ostrow School of Dentistry Duplicates Credit in OFPM 724 Instruction Mode: Lecture Grading Option: Letter

OFP 730a Case Portfolio Preparation
Units: .5 Terms Offered: FaSpSm Case portfolio preparation with weekly online presentations and discussions of de-identified patient cases. Registration Restriction: Open only to the Herman Ostrow School of Dentistry Duplicates Credit in OFPM 730a Instruction Mode: Lecture Grading Option: Letter

OFP 730b Case Portfolio Preparation
Units: .5 Terms Offered: FaSpSm Case portfolio preparation with weekly online presentations and discussions of de-identified patient cases. *Prerequisite:* OFP 730a Registration Restriction: Open only to the Herman Ostrow School of Dentistry Duplicates Credit in OFPM 730b Instruction Mode: Lecture Grading Option: Letter

OFP 730c Case Portfolio Preparation
Units: .5 Terms Offered: FaSpSm Case portfolio preparation with weekly online presentations and discussions of de-identified patient cases. *Prerequisite:*

OFP 730b Registration Restriction: Open only to the Herman Ostrow School of Dentistry Duplicates Credit in OFPM 730c Instruction Mode: Lecture Grading Option: Letter

Oral Medicine Oral Diagnosis

OMOD 501 Emergency Dental Treatment
Units: 1 Dental emergencies in a general dental practice; emphasis on diagnosis of pain, trauma, infections, abscesses, myofacial problems, pulpal considerations, restorative goals; interrelationship of these areas. Instruction Mode: Lecture Grading Option: Letter

OMOD 502 Chronic Orofacial Pain
Units: 2 Current concepts of pain mechanisms; application to differential diagnosis, treatment, and management of chronic head, neck, and dental pain. Instruction Mode: Lecture Grading Option: Letter

OMOD 505 Oral Medicine
Units: 2 Detection, recognition, assessment, management and treatment modification of medical conditions presented by dental patients. Instruction Mode: Lecture Grading Option: Letter

OMOD 506 Infection Control
Units: 1 Infection control and clinical asepsis in the dental office; ethical and legal aspects; specific agents of disease; epidemiology. Instruction Mode: Lecture Grading Option: Letter

OMOD 551a Clinic: Physical Evaluation
Units: 0 Obtaining medical history, performing modified physical exams and clinical laboratory tests, establishing physical status. Understanding rationale and indications for modifying dental therapy; clinic and seminar. Instruction Mode: Lecture Grading Option: In-progress to Letter Grade

OMOD 551b Clinic: Physical Evaluation
Units: 0 Obtaining medical history, performing modified physical exams and clinical laboratory tests, establishing physical status. Understanding rationale and indications for modifying dental therapy; clinic and seminar. Instruction Mode: Lecture Grading Option: In-progress to Letter Grade

OMOD 551c Clinic: Physical Evaluation
Units: 0 Obtaining medical history, performing modified physical exams and clinical laboratory tests, establishing physical status. Understanding rationale and indications for modifying dental therapy; clinic and seminar. Instruction Mode: Lecture Grading Option: In-progress to Letter Grade

OMOD 551d Clinic: Physical Evaluation
Units: 1 Obtaining medical history, performing modified physical exams and clinical laboratory tests, establishing physical status. Understanding rationale and indications for modifying dental therapy; clinic and seminar. Instruction Mode: Lecture Grading Option: Letter

OMOD 562a Clinic: Hospital Dentistry
Units: 0 Clinical experience in dentistry for the medically compromised and physically handicapped patient in a hospital environment. Instruction Mode: Lecture Grading Option: In-progress to Letter Grade

OMOD 562b Clinic: Hospital Dentistry
Units: 0 Clinical experience in dentistry for the medically compromised and physically handicapped patient in a hospital environment. Instruction Mode: Lecture Grading Option: In-progress to Letter Grade

OMOD 562c Clinic: Hospital Dentistry
Units: 0 Clinical experience in dentistry for the medically compromised and physically handicapped patient in a hospital environment. Instruction Mode: Lecture Grading Option: In-progress to Letter Grade

OMOD 562d Clinic: Hospital Dentistry
Units: 1 Clinical experience in dentistry for the medically compromised and physically handicapped patient in a hospital environment. Instruction Mode: Lecture Grading Option: Letter

OMOD 563a Clinic: Emergency Dental Treatment
Units: 0 Experience in management and treatment of emergency dental problems, including diagnosis of the pain cause, provision of appropriate therapy, and post operative instructions to the patient. Instruction Mode: Lecture Grading Option: In-progress to Letter Grade

OMOD 563b Clinic: Emergency Dental Treatment
Units: 0 Experience in management and treatment of emergency dental problems, including diagnosis of the pain cause, provision of appropriate therapy, and post operative instructions to the patient. Instruction Mode: Lecture Grading Option: In-progress to Letter Grade

OMOD 563c Clinic: Emergency Dental Treatment
Units: 0 Experience in management and treatment of emergency dental problems, including diagnosis of the pain cause, provision of appropriate therapy, and post operative instructions to the patient. Instruction Mode: Lecture Grading Option: In-progress to Letter Grade

OMOD 563d Clinic: Emergency Dental Treatment
Units: 0 Experience in management and treatment of emergency dental problems, including diagnosis of the pain cause, provision of appropriate therapy, and post operative instructions to the patient. Instruction Mode: Lecture Grading Option: In-progress to Letter Grade

OMOD 563e Clinic: Emergency Dental Treatment
Units: 0 Experience in management and treatment of emergency dental problems, including diagnosis of the pain cause, provision of appropriate therapy, and post operative instructions to the patient. Instruction Mode: Lecture Grading Option: In-progress to Letter Grade

OMOD 563f Clinic: Emergency Dental Treatment
Units: 1 Experience in management and treatment of emergency dental problems, including diagnosis of the pain cause, provision of appropriate therapy, and post operative instructions to the patient. Instruction Mode: Lecture Grading Option: Letter

Operative Dentistry

OPER 520 Preclinical Operative Dentistry (ISP)
Units: 3 Preparation for clinical work through study of fundamentals of cavity design and restoration of cavity preparations on extracted teeth mounted in a manikin. Instruction Mode: Lecture Grading Option: Letter

OPER 521a Preclinical Operative Dentistry I
Units: 1, 2, 3 Introduction to terminology, materials, and instruments used in operative dentistry; fundamentals of amalgam restoration; principles of cavity preparation; amalgam manipulation, condensation, and carving using extracted teeth. Instruction Mode: Lecture Grading Option: Letter

OPER 521b Preclinical Operative Dentistry I
Units: 1, 2, 3 Introduction to terminology, materials, and instruments used in operative dentistry; fundamentals of amalgam restoration; principles of cavity preparation; amalgam manipulation, condensation, and carving using extracted teeth. Instruction Mode: Lecture Grading Option: Letter

OPER 522 Preclinical Operative Dentistry II
Units: 3 Fundamentals of cavity design; restoration of cavity preparations on extracted teeth mounted in the manikin. Instruction Mode: Lecture Grading Option: Letter

OPER 561a Clinic: Operative Dentistry I
Units: 0 Clinical experience treating patients using all modalities of operative dentistry. Instruction Mode: Lecture Grading Option: In-progress to Letter Grade

OPER 561b Clinic: Operative Dentistry I
Units: 0 Clinical experience treating patients using all modalities of operative dentistry. Instruction Mode: Lecture Grading Option: In-progress to Letter Grade

OPER 561c Clinic: Operative Dentistry I
Units: 0 Clinical experience treating patients using all modalities of operative dentistry. Instruction Mode: Lecture Grading Option: In-progress to Letter Grade

OPER 561d Clinic: Operative Dentistry I
Units: 6 Clinical experience treating patients using all modalities of operative dentistry. Instruction Mode: Lecture Grading Option: Letter

OPER 562a Clinic: Operative Dentistry II
Units: 0, 1, 2, 3, 4, 5, 6 Clinical experience treating patients using all modalities of operative dentistry. Instruction Mode: Lecture Grading Option: In-progress to Letter Grade

OPER 562b Clinic: Operative Dentistry II
Units: 0, 1, 2, 3, 4, 5, 6 Clinical experience treating patients using all modalities of operative dentistry. Instruction Mode: Lecture Grading Option: Letter

OPER 620 Conservative Cast Gold Restorations
Units: 2 Principles of cavity preparation, fabrication technique and finishing for conservative cast gold restorations; includes lab and clinic. Instruction Mode: Lecture Grading Option: Letter

OPER 701a Seminar: Advanced Operative Dentistry I
Units: 2 Terms Offered: Fa In-depth study of the biomechanics applied to cavity preparation according to material selection, bonding procedures, and protection of

the pulpdentin. Open only to Advanced Operative Dentistry Certificate students. Instruction Mode: Lecture, Discussion Grading Option: In-progress to Credit/No Credit

OPER 701b Seminar: Advanced Operative Dentistry I
Units: 2 Terms Offered: Fa In-depth study of the biomechanics applied to cavity preparation according to material selection, bonding procedures, and protection of the pulpdentin. Open only to Advanced Operative Dentistry Certificate students. Instruction Mode: Lecture, Discussion Grading Option: Credit/No Credit

OPER 702aL Advanced Dental Morphology for Esthetic Restorations
Units: 3 Terms Offered: Sm In-depth study of the dental morphology, dental optical properties, and laboratorial procedures for restorative replication of esthetical and morphological aspects found in the natural tooth. Open only to Advanced Operative Dentistry Certificate students. Instruction Mode: Lecture, Lab Required Grading Option: Credit/No Credit

OPER 702bL Advanced Dental Morphology for Esthetic Restorations
Units: 3 Terms Offered: Fa In-depth study of the dental morphology, dental optical properties, and laboratorial procedures for restorative replication of esthetical and morphological aspects found in the natural tooth. Open only to Advanced Operative Dentistry Certificate students. Instruction Mode: Lecture, Lab Required Grading Option: Credit/No Credit

OPER 704a Operative Dentistry and Biomaterials Literature Review
Units: 1 Terms Offered: FaSpSm Weekly seminar devoted to review of the historic, classic, and current literature in advanced operative dentistry and dental biomaterials. Registration Restriction: Open only to the Herman Ostrow School of Dentistry Instruction Mode: Lecture Grading Option: Letter

OPER 704b Operative Dentistry and Biomaterials Literature Review
Units: 1 Terms Offered: FaSpSm Weekly seminar devoted to review of the historic, classic, and current literature in advanced operative dentistry and dental biomaterials. *Prerequisite:* OPER 704a Registration Restriction: Open only to the Herman Ostrow School of Dentistry Instruction Mode: Lecture Grading Option: Letter

OPER 704c Operative Dentistry and Biomaterials Literature Review
Units: 1 Terms Offered: FaSpSm Weekly seminar devoted to review of the historic, classic, and current literature in advanced operative dentistry and dental biomaterials. *Prerequisite:* OPER 704b Registration Restriction: Open only to the Herman Ostrow School of Dentistry Instruction Mode: Lecture Grading Option: Letter

OPER 704d Operative Dentistry and Biomaterials Literature Review
Units: 1 Terms Offered: FaSpSm Weekly seminar devoted to review of the historic, classic, and current literature in advanced operative dentistry and dental biomaterials. *Prerequisite:* OPER 704c Registration Restriction: Open only to the Herman Ostrow School of Dentistry Instruction Mode: Lecture Grading Option: Letter

OPER 704e Operative Dentistry and Biomaterials Literature Review
Units: 1 Terms Offered: FaSpSm Weekly seminar devoted to review of the historic, classic, and current literature in advanced operative dentistry and dental biomaterials. *Prerequisite:* OPER 704d Registration Restriction: Open only to the Herman Ostrow School of Dentistry Instruction Mode: Lecture Grading Option: Letter

OPER 704f Operative Dentistry and Biomaterials Literature Review
Units: 1 Terms Offered: FaSpSm Weekly seminar devoted to review of the historic, classic, and current literature in advanced operative dentistry and dental biomaterials. *Prerequisite:* OPER 704e Registration Restriction: Open only to the Herman Ostrow School of Dentistry Instruction Mode: Lecture Grading Option: Letter

OPER 705L Dental Photography
Units: 1 Terms Offered: FaSpSm Basic principles of dental photography and its use in clinical dentistry for shade selection, replication of dental esthetic components, and clinical case documentation. Registration Restriction: Open only to the Herman Ostrow School of Dentistry Instruction Mode: Lecture, Lab Required Grading Option: Letter

OPER 706 Operative Implant Dentistry
Units: 1 Terms Offered: Sp Basic principles of implants applied to operative and adhesive dentistry. Registration Restriction: Open only to Advanced Operative and Adhesive Dentistry majors Instruction Mode: Lecture Grading Option: Credit/No Credit

OPER 710a Seminar: Advanced Operative Dentistry II
Units: 1 Terms Offered: FaSpSm Advanced knowledge and scientific background of the principles of adhesion to dental structures and analysis of bonding effectiveness of different adhesive methods and bonding degradation. Open only to Advanced Operative Dentistry Certificate students. Instruction Mode: Lecture, Discussion Grading Option: Credit/No Credit

OPER 710b Seminar: Advanced Operative Dentistry II
Units: 1 Terms Offered: FaSpSm Advanced knowledge and scientific background of the principles of adhesion to dental structures and analysis of bonding effectiveness of different adhesive methods and bonding degradation. Open only to Advanced Operative Dentistry Certificate students. Instruction Mode: Lecture, Discussion Grading Option: Credit/No Credit

OPER 710c Seminar: Advanced Operative Dentistry II
Units: 1 Terms Offered: FaSpSm Advanced knowledge and scientific background of the principles of adhesion to dental structures and analysis of bonding effectiveness of different adhesive methods and bonding degradation. Open only to Advanced Operative Dentistry Certificate students. Instruction Mode: Lecture, Discussion Grading Option: Credit/No Credit

OPER 710d Seminar: Advanced Operative Dentistry II
Units: 1 Terms Offered: FaSpSm Advanced knowledge and scientific background of the principles of adhesion to dental structures and analysis of bonding effectiveness of different adhesive methods and bonding degradation. Open only to Advanced Operative Dentistry Certificate students. Instruction Mode: Lecture, Discussion Grading Option: Credit/No Credit

OPER 710e Seminar: Advanced Operative Dentistry II
Units: 1 Terms Offered: FaSpSm Advanced knowledge and scientific background of the principles of adhesion to dental structures and analysis of bonding effectiveness of different adhesive methods and bonding degradation. Open only to Advanced Operative Dentistry Certificate students. Instruction Mode: Lecture, Discussion Grading Option: Credit/No Credit

OPER 710f Seminar: Advanced Operative Dentistry II
Units: 1 Terms Offered: FaSpSm Advanced knowledge and scientific background of the principles of adhesion to dental structures and analysis of bonding effectiveness of different adhesive methods and bonding degradation. Open only to Advanced Operative Dentistry Certificate students. Instruction Mode: Lecture, Discussion Grading Option: Credit/No Credit

OPER 710h Seminar: Advanced Operative Dentistry II
Units: 1 Terms Offered: FaSpSm Advanced knowledge and scientific background of the principles of adhesion to dental structures and analysis of bonding effectiveness of different adhesive methods and bonding degradation. Open only to Advanced Operative Dentistry Certificate students. Instruction Mode: Lecture, Discussion Grading Option: Credit/No Credit

OPER 715aL Applied Adhesion Sciences
Units: 2 Terms Offered: FaSpSm Advanced adhesive procedures for esthetic dental rehabilitation. Registration Restriction: Open only to Advanced and Adhesive Dentistry majors Instruction Mode: Lecture Grading Option: Credit/No Credit

OPER 715bL Applied Adhesion Sciences
Units: 2 Terms Offered: FaSpSm Advanced adhesive procedures for esthetic dental rehabilitation. *Prerequisite:* OPER 715a Registration Restriction: Open only to Advanced and Adhesive Dentistry majors Instruction Mode: Lecture Grading Option: Credit/No Credit

OPER 715cL Applied Adhesion Sciences
Units: 2 Terms Offered: FaSpSm Advanced adhesive procedures for aesthetic dental rehabilitation. *Prerequisite:* OPER 715b Registration Restriction: Open only to Advanced and Adhesive Dentistry majors Instruction Mode: Lecture Grading Option: Credit/No Credit

OPER 720a Seminar: Advanced Operative Dentistry III
Units: 1 Terms Offered: FaSpSm Advanced studies, technical, and scientific background of esthetic bonded direct restorations with in-depth analysis of mechanical, physical, and optical properties of resin composite restorations. Open only to Advanced Operative Dentistry Certificate students. Instruction Mode: Lecture, Discussion Grading Option: Credit/No Credit

OPER 720b Seminar: Advanced Operative Dentistry III
Units: 1 Terms Offered: FaSpSm Advanced studies, technical, and scientific background

of esthetic bonded direct restorations with in-depth analysis of mechanical, physical, and optical properties of resin composite restorations. Open only to Advanced Operative Dentistry Certificate students. Instruction Mode: Lecture, Discussion Grading Option: Credit/No Credit

OPER 720c Seminar: Advanced Operative Dentistry III
Units: 1 Terms Offered: FaSpSm Advanced studies, technical, and scientific background of esthetic bonded direct restorations with in-depth analysis of mechanical, physical, and optical properties of resin composite restorations. Open only to Advanced Operative Dentistry Certificate students. Instruction Mode: Lecture, Discussion Grading Option: Credit/No Credit

OPER 720d Seminar: Advanced Operative Dentistry III
Units: 1 Terms Offered: FaSpSm Advanced studies, technical, and scientific background of esthetic bonded direct restorations with in-depth analysis of mechanical, physical, and optical properties of resin composite restorations. Open only to Advanced Operative Dentistry Certificate students. Instruction Mode: Lecture, Discussion Grading Option: Credit/No Credit

OPER 720e Seminar: Advanced Operative Dentistry III
Units: 1 Terms Offered: FaSpSm Advanced studies, technical, and scientific background of esthetic bonded direct restorations with in-depth analysis of mechanical, physical, and optical properties of resin composite restorations. Open only to Advanced Operative Dentistry Certificate students. Instruction Mode: Lecture, Discussion Grading Option: Credit/No Credit

OPER 720f Seminar: Advanced Operative Dentistry III
Units: 1 Terms Offered: FaSpSm Advanced studies, technical, and scientific background of esthetic bonded direct restorations with in-depth analysis of mechanical, physical, and optical properties of resin composite restorations. Open only to Advanced Operative Dentistry Certificate students. Instruction Mode: Lecture, Discussion Grading Option: Credit/No Credit

OPER 720h Seminar: Advanced Operative Dentistry III
Units: 1 Terms Offered: FaSpSm Advanced studies, technical, and scientific background of esthetic bonded direct restorations with in-depth analysis of mechanical, physical, and optical properties of resin composite restorations. Open only to Advanced Operative Dentistry Certificate students. Instruction Mode: Lecture, Discussion Grading Option: Credit/No Credit

OPER 725a Cariology
Units: 1 Terms Offered: FaSm Cariology and proficiency of dental caries management using preventive methods and minimally invasive restorative techniques. Registration Restriction: Open only to Advanced Operative and Adhesive Dentistry majors Instruction Mode: Lecture Grading Option: Credit/No Credit

OPER 725b Cariology
Units: 1 Terms Offered: FaSm Cariology and proficiency of dental caries management using preventive methods and minimally invasive restorative techniques. *Prerequisite:* OPER 725a Registration Restriction: Open only to Advanced Operative and Adhesive Dentistry majors Instruction Mode: Lecture Grading Option: Credit/No Credit

OPER 730a Seminar: Advanced Operative Dentistry IV
Units: 1 Terms Offered: FaSpSm In-depth study, analysis, and treatment involved in the management of discolored and developmental defects of the teeth. Open only to Advanced Operative Dentistry Certificate students. Instruction Mode: Lecture, Discussion Grading Option: Credit/No Credit

OPER 730b Seminar: Advanced Operative Dentistry IV
Units: 1 Terms Offered: FaSpSm In-depth study, analysis, and treatment involved in the management of discolored and developmental defects of the teeth. Open only to Advanced Operative Dentistry Certificate students. Instruction Mode: Lecture, Discussion Grading Option: Credit/No Credit

OPER 730c Seminar: Advanced Operative Dentistry IV
Units: 1 Terms Offered: FaSpSm In-depth study, analysis, and treatment involved in the management of discolored and developmental defects of the teeth. Open only to Advanced Operative Dentistry Certificate students. Instruction Mode: Lecture, Discussion Grading Option: Credit/No Credit

OPER 730d Seminar: Advanced Operative Dentistry IV
Units: 1 Terms Offered: FaSpSm In-depth study, analysis, and treatment involved in the management of discolored and developmental defects of the teeth. Open only to Advanced Operative Dentistry Certificate students. Instruction Mode: Lecture, Discussion Grading Option: Credit/No Credit

OPER 735aL Research Methodology
Units: 2 Terms Offered: FaSpSm Study of research methodologies for scientific investigation on dental biomaterials. Registration Restriction: Open only to the Herman Ostrow School of Dentistry Instruction Mode: Lecture, Lab Required Grading Option: Letter

OPER 735bL Research Methodology
Units: 2 Terms Offered: FaSpSm Study of research methodologies for scientific investigation on dental biomaterials. *Prerequisite:* OPER 735aL Registration Restriction: Open only to the Herman Ostrow School of Dentistry Instruction Mode: Lecture, Lab Required Grading Option: Letter

OPER 740a Seminar: Advanced Operative Dentistry V
Units: 2 Terms Offered: FaSpSm Cariology and proficiency of dental caries management using preventive methods and minimally invasive restorative techniques. Open only to Advanced Operative Dentistry Certificate students. Instruction Mode: Lecture, Discussion Grading Option: Credit/No Credit

OPER 740b Seminar: Advanced Operative Dentistry V
Units: 2 Terms Offered: FaSpSm Cariology and proficiency of dental caries management using preventive methods and minimally invasive restorative techniques. Instruction Mode: Lecture, Discussion Grading Option: Credit/No Credit

OPER 740c Seminar: Advanced Operative Dentistry V
Units: 2 Terms Offered: FaSpSm Cariology and proficiency of dental caries management using preventive methods and minimally invasive restorative techniques. Instruction Mode: Lecture, Discussion Grading Option: Credit/No Credit

OPER 750a Seminar: Advanced Operative Dentistry VI
Units: 2 Terms Offered: FaSpSm Advanced studies of restorative techniques of severely damaged teeth, selection and use of different post systems, core build-up, and bonding to the root canal. Instruction Mode: Lecture, Discussion Grading Option: Credit/No Credit

OPER 750b Seminar: Advanced Operative Dentistry VI
Units: 2 Terms Offered: FaSpSm Advanced studies of restorative techniques of severely damaged teeth, selection and use of different post systems, core build-up, and bonding to the root canal. Open only to Advanced Operative Dentistry Certificate students. Instruction Mode: Lecture, Discussion Grading Option: Credit/No Credit

OPER 750c Seminar: Advanced Operative Dentistry VI
Units: 2 Terms Offered: FaSpSm Advanced studies of restorative techniques of severely damaged teeth, selection and use of different post systems, core build-up, and bonding to the root canal. Open only to Advanced Operative Dentistry Certificate students. Instruction Mode: Lecture, Discussion Grading Option: Credit/No Credit

OPER 760a Seminar: Advanced Operative Dentistry VII
Units: 1 Terms Offered: FaSpSm Proficiency in advanced esthetic indirect restorations for anterior and posterior teeth, including preparation designs, material selection, cementation and bonding procedures, and alternative resin-bonded fixed-partial dentures. Open only to Advanced Operative Dentistry Certificate students. Instruction Mode: Lecture, Discussion Grading Option: Credit/No Credit

OPER 760b Seminar: Advanced Operative Dentistry VII
Units: 1 Terms Offered: FaSpSm Proficiency in advanced esthetic indirect restorations for anterior and posterior teeth, including preparation designs, material selection, cementation and bonding procedures, and alternative resin-bonded fixed-partial dentures. Open only to Advanced Operative Dentistry Certificate students. Instruction Mode: Lecture, Discussion Grading Option: Credit/No Credit

OPER 760c Seminar: Advanced Operative Dentistry VII
Units: 1 Terms Offered: FaSpSm Proficiency in advanced esthetic indirect restorations for anterior and posterior teeth, including preparation designs, material selection, cementation and bonding procedures, and alternative resin-bonded fixed-partial dentures. Open only to

Advanced Operative Dentistry Certificate students. Instruction Mode: Lecture, Discussion Grading Option: Credit/No Credit

OPER 760d Seminar: Advanced Operative Dentistry VII
Units: 1 Terms Offered: FaSpSm Proficiency in advanced esthetic indirect restorations for anterior and posterior teeth, including preparation designs, material selection, cementation and bonding procedures, and alternative resin-bonded fixed-partial dentures. Open only to Advanced Operative Dentistry Certificate students. Instruction Mode: Lecture, Discussion Grading Option: Credit/No Credit

OPER 760e Seminar: Advanced Operative Dentistry VII
Units: 1 Terms Offered: FaSpSm Proficiency in advanced esthetic indirect restorations for anterior and posterior teeth, including preparation designs, material selection, cementation and bonding procedures, and alternative resin-bonded fixed-partial dentures. Open only to Advanced Operative Dentistry Certificate students. Instruction Mode: Lecture, Discussion Grading Option: Credit/No Credit

OPER 760f Seminar: Advanced Operative Dentistry VII
Units: 1 Terms Offered: FaSpSm Proficiency in advanced esthetic indirect restorations for anterior and posterior teeth, including preparation designs, material selection, cementation and bonding procedures, and alternative resin-bonded fixed-partial dentures. Open only to Advanced Operative Dentistry Certificate students. Instruction Mode: Lecture, Discussion Grading Option: Credit/No Credit

OPER 760h Seminar: Advanced Operative Dentistry VII
Units: 1 Terms Offered: FaSpSm Proficiency in advanced esthetic indirect restorations for anterior and posterior teeth, including preparation designs, material selection, cementation and bonding procedures, and alternative resin-bonded fixed-partial dentures. Open only to Advanced Operative Dentistry Certificate students. Instruction Mode: Lecture, Discussion Grading Option: Credit/No Credit

OPER 765a Seminar: Advanced Operative Dentistry VIII
Units: 1 Terms Offered: FaSpSm Advanced studies of computer-generated restorations (CAD/CAM) and digital imaging in dentistry for anterior and posterior teeth. Instruction Mode: Lecture, Discussion Grading Option: Credit/No Credit

OPER 765b Seminar: Advanced Operative Dentistry VIII
Units: 1 Terms Offered: FaSpSm Advanced studies of computer-generated restorations (CAD/CAM) and digital imaging in dentistry for anterior and posterior teeth. Open only to Advanced Operative Dentistry Certificate students. Instruction Mode: Lecture, Discussion Grading Option: Credit/No Credit

OPER 765c Seminar: Advanced Operative Dentistry VIII
Units: 1 Terms Offered: FaSpSm Advanced studies of computer-generated restorations (CAD/CAM) and digital imaging in dentistry for anterior and posterior teeth. Open only to Advanced Operative Dentistry Certificate students. Instruction Mode: Lecture, Discussion Grading Option: Credit/No Credit

OPER 765d Seminar: Advanced Operative Dentistry VIII
Units: 1 Terms Offered: FaSpSm Advanced studies of computer-generated restorations (CAD/CAM) and digital imaging in dentistry for anterior and posterior teeth. Open only to Advanced Operative Dentistry Certificate students. Instruction Mode: Lecture, Discussion Grading Option: Credit/No Credit

OPER 770aL Scientific Investigation in Operative Dentistry
Units: 1, 2, 3 Max Units: 14.0 Terms Offered: FaSpSm Enhancement of critical research thinking by development and experimentation of different scientific methodologies in operative dentistry, journal article writing and submission for publication. Open only to Advanced Operative Dentistry Certificate students. Instruction Mode: Lecture, Lab Required Grading Option: Credit/No Credit

OPER 770bL Scientific Investigation in Operative Dentistry
Units: 1, 2, 3 Max Units: 14.0 Terms Offered: FaSpSm Enhancement of critical research thinking by development and experimentation of different scientific methodologies in operative dentistry, journal article writing and submission for publication. Open only to Advanced Operative Dentistry Certificate students. Instruction Mode: Lecture, Lab Required Grading Option: Credit/No Credit

OPER 770cL Scientific Investigation in Operative Dentistry
Units: 1, 2, 3 Max Units: 14.0 Terms Offered: FaSpSm Enhancement of critical research thinking by development and experimentation of different scientific methodologies in operative dentistry, journal article writing and submission for publication. Open only to Advanced Operative Dentistry Certificate students. Instruction Mode: Lecture, Lab Required Grading Option: Credit/No Credit

OPER 770dL Scientific Investigation in Operative Dentistry
Units: 1, 2, 3 Max Units: 14.0 Terms Offered: FaSpSm Enhancement of critical research thinking by development and experimentation of different scientific methodologies in operative dentistry, journal article writing and submission for publication. Open only to Advanced Operative Dentistry Certificate students. Instruction Mode: Lecture, Lab Required Grading Option: Credit/No Credit

OPER 770eL Scientific Investigation in Operative Dentistry
Units: 1, 2, 3 Max Units: 14.0 Terms Offered: FaSpSm Enhancement of critical research thinking by development and experimentation of different scientific methodologies in operative dentistry, journal article writing and submission for publication. Open only to Advanced Operative Dentistry Certificate students. Instruction Mode: Lecture, Lab Required Grading Option: Credit/No Credit

OPER 770fL Scientific Investigation in Operative Dentistry
Units: 1, 2, 3 Max Units: 14.0 Terms Offered: FaSpSm Enhancement of critical research thinking by development and experimentation of different scientific methodologies in operative dentistry, journal article writing and submission for publication. Open only to Advanced Operative Dentistry Certificate students. Instruction Mode: Lecture, Lab Required Grading Option: Credit/No Credit

OPER 770hL Scientific Investigation in Operative Dentistry
Units: 1, 2, 3 Max Units: 14.0 Terms Offered: FaSpSm Enhancement of critical research thinking by development and experimentation of different scientific methodologies in operative dentistry, journal article writing and submission for publication. Open only to Advanced Operative Dentistry Certificate students. Instruction Mode: Lecture, Lab Required Grading Option: Credit/No Credit

OPER 780a Treatment Planning in Operative Dentistry
Units: 2 Terms Offered: FaSpSm Seminars led by students and invited guests to discuss, analyze and propose a treatment sequence for esthetic challenge clinical cases involving complex multidisciplinary treatment. Open only to Advanced Operative Dentistry Certificate students. Instruction Mode: Lecture, Discussion Grading Option: In-progress to Credit/No Credit

OPER 780b Treatment Planning in Operative Dentistry
Units: 2 Terms Offered: FaSpSm Seminars led by students and invited guests to discuss, analyze and propose a treatment sequence for esthetic challenge clinical cases involving complex multidisciplinary treatment. Open only to Advanced Operative Dentistry Certificate students. Instruction Mode: Lecture, Discussion Grading Option: Credit/No Credit

OPER 780c Treatment Planning in Operative Dentistry
Units: 2 Terms Offered: FaSpSm Seminars led by students and invited guests to discuss, analyze and propose a treatment sequence for esthetic challenge clinical cases involving complex multidisciplinary treatment. Open only to Advanced Operative Dentistry Certificate students. Instruction Mode: Lecture, Discussion Grading Option: Credit/No Credit

OPER 780d Treatment Planning in Operative Dentistry
Units: 2 Terms Offered: FaSpSm Seminars led by students and invited guests to discuss, analyze and propose a treatment sequence for esthetic challenge clinical cases involving complex multidisciplinary treatment. Open only to Advanced Operative Dentistry Certificate students. Instruction Mode: Lecture, Discussion Grading Option: Credit/No Credit

OPER 780e Treatment Planning in Operative Dentistry
Units: 2 Terms Offered: FaSpSm Seminars led by students and invited guests to discuss, analyze and propose a treatment sequence for esthetic challenge clinical cases involving complex multidisciplinary treatment. Open only to Advanced

Operative Dentistry Certificate students. Instruction Mode: Lecture, Discussion Grading Option: Credit/No Credit

OPER 780f Treatment Planning in Operative Dentistry
Units: 2 Terms Offered: FaSpSm Seminars led by students and invited guests to discuss, analyze and propose a treatment sequence for esthetic challenge clinical cases involving complex multidisciplinary treatment. Open only to Advanced Operative Dentistry Certificate students. Instruction Mode: Lecture, Discussion Grading Option: Credit/No Credit

OPER 780h Treatment Planning in Operative Dentistry
Units: 2 Terms Offered: FaSpSm Seminars led by students and invited guests to discuss, analyse and propose a treatment sequence for esthetic challenge clinical cases involving complex multidisciplinary treatment. *Prerequisite:* OPER 780f Registration Restriction: Open only to master and professional students in Advanced Operative and Adhesive Dentistry, and Advanced Operative Dentistry majors Instruction Mode: Lecture, Discussion Grading Option: Credit/No Credit

OPER 795a Clinic: Advanced Operative Dentistry
Units: 1, 2, 3 Max Units: 14.0 Terms Offered: FaSpSm Advanced clinical and laboratorial treatment of patients in need of complex multidisciplinary treatment, with special emphasis on esthetic and bonded restorations. Open only to Advanced Operative Dentistry Certificate students. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

OPER 795b Clinic: Advanced Operative Dentistry
Units: 1, 2, 3 Max Units: 14.0 Terms Offered: FaSpSm Advanced clinical and laboratorial treatment of patients in need of complex multidisciplinary treatment, with special emphasis on esthetic and bonded restorations. Open only to Advanced Operative Dentistry Certificate students. Instruction Mode: Lecture Grading Option: Credit/No Credit

OPER 795c Clinic: Advanced Operative Dentistry
Units: 1, 2, 3 Max Units: 14.0 Terms Offered: FaSpSm Advanced clinical and laboratorial treatment of patients in need of complex multidisciplinary treatment, with special emphasis on esthetic and bonded restorations. Open only to Advanced Operative Dentistry Certificate students. Instruction Mode: Lecture Grading Option: Credit/No Credit

OPER 795d Clinic: Advanced Operative Dentistry
Units: 1, 2, 3 Max Units: 14.0 Terms Offered: FaSpSm Advanced clinical and laboratorial treatment of patients in need of complex multidisciplinary treatment, with special emphasis on esthetic and bonded restorations. Open only to Advanced Operative Dentistry Certificate students. Instruction Mode: Lecture Grading Option: Credit/No Credit

OPER 795e Clinic: Advanced Operative Dentistry
Units: 1, 2, 3 Max Units: 10.0 Terms Offered: FaSpSm Advanced clinical and laboratorial treatment of patients in need of complex multidisciplinary treatment, with special emphasis on esthetic and bonded restorations. Open only to Advanced Operative Dentistry Certificate students. Instruction Mode: Lecture Grading Option: Credit/No Credit

OPER 795f Clinic: Advanced Operative Dentistry
Units: 1, 2, 3 Max Units: 14.0 Terms Offered: FaSpSm Advanced clinical and laboratorial treatment of patients in need of complex multidisciplinary treatment, with special emphasis on esthetic and bonded restorations. Open only to Advanced Operative Dentistry Certificate students. Instruction Mode: Lecture Grading Option: Credit/No Credit

OPER 795h Clinic: Advanced Operative Dentistry
Units: 1, 2, 3 Max Units: 14.0 Terms Offered: FaSpSm Advanced clinical and laboratorial treatment of patients in need of complex multidisciplinary treatment, with special emphasis on esthetic and bonded restorations. Open only to Advanced Operative Dentistry Certificate students. Instruction Mode: Lecture Grading Option: Credit/No Credit

OPER 795i Clinic: Advanced Operative Dentistry
Units: 1, 2, 3 Max Units: 14.0 Terms Offered: FaSpSm Advanced clinical and laboratorial treatment of patients in need of complex multidisciplinary treatment, with special emphasis on esthetic and bonded restorations. Instruction Mode: Lecture Grading Option: Credit/No Credit

OPER 795j Clinic: Advanced Operative Dentistry
Units: 1, 2, 3 Max Units: 14.0 Terms Offered: FaSpSm Advanced clinical and laboratorial treatment of patients in need of complex multidisciplinary treatment, with special emphasis on esthetic and bonded restorations. Open only to Advanced Operative Dentistry Certificate students. Instruction Mode: Lecture Grading Option: Credit/No Credit

Oral Pathology and Radiology

OPR 701 Bone Pathology and Oral and Maxillofacial Radiology
Units: 1 Terms Offered: FaSpSm Focus on the interpretation of hard tissue imaging studies, including conventional dental imaging in the diagnosis along with the basics of medical radiographic modalities. Registration Restriction: Open only to dentistry students Instruction Mode: Lecture Grading Option: Letter

OPR 702 Principles and Practice of Oral Medicine
Units: 1 Terms Offered: FaSpSm An overview of patients with primary oral conditions and oral diseases related to systemic pathology. Practice management issues discussed. Registration Restriction: Open only to dentistry students Instruction Mode: Lecture Grading Option: Letter

OPR 703 General and Systemic Human Pathology
Units: 1 Terms Offered: FaSpSm Disease mechanisms and principles of the pathological entities associated with each organ system. Registration Restriction: Open only to dentistry students Instruction Mode: Lecture Grading Option: Letter

OPR 704 Oral Pathology and Maxillofacial Medicine
Units: 2 Terms Offered: FaSpSm Review of oral diseases affecting the oral cavity which includes developmental conditions, pigmented lesions, Immune-Mediated and Allergic Conditions, mucosal and connective tissue abnormalities. Registration Restriction: Open only to dentistry students Instruction Mode: Lecture Grading Option: Letter

OPR 705 Oral Histopathology and Surgical Pathology
Units: 2 Terms Offered: Sp Various diagnostic modalities, interventional diagnostic procedures, and the description of microscopic features of oral developmental, reactive, and neoplastic conditions relevant to surgical pathology. Registration Restriction: Open only to dentistry students Instruction Mode: Lecture Grading Option: Letter

OPR 706 Evidence-Based Practice and Literature Review
Units: 1 Terms Offered: Sp Focus on discussion of patient-centered approaches to clinical treatment and decision-making. Registration Restriction: Open only to dentistry students Instruction Mode: Lecture Grading Option: Letter

OPR 708 Diagnostic Radiology
Units: 2 Terms Offered: FaSpSm Case-based radiology course reviewing head and neck cases; interpretation using conventional and advance imaging such as MRI, CBCT and CT Scan. Registration Restriction: Open only to Herman Ostrow School of Dentistry Oral Pathology and Radiology students Instruction Mode: Lecture Grading Option: Letter

OPR 730 Clinical Cases in Oral Pathology and Radiology
Units: 2 Terms Offered: FaSpSm E-portfolio of Oral Pathology or Radiology cases, demonstrating the ability to apply the knowledge to different cases and scenarios. Registration Restriction: Open only to Herman Ostrow School of Dentistry Oral Pathology and Radiology students Instruction Mode: Lecture Grading Option: Letter

OPR 730a Case Portfolio Preparation
Units: 0.5 Terms Offered: Fa Weekly online conferences and discussions, and the documentation of six cases or scenarios, to demonstrate understanding of the knowledge and application to real situations. Registration Restriction: Open only to dentistry students Instruction Mode: Lecture Grading Option: Letter

OPR 730b Case Portfolio Preparation
Units: 0.5 Terms Offered: Sm Weekly online conferences and discussions, and the documentation of six cases or scenarios, to demonstrate understanding of the knowledge and application to real situations. *Prerequisite:* OPR 730a Registration Restriction: Open only to dentistry students Instruction Mode: Lecture Grading Option: Letter

OPR 732 Knowledge Assessment
Units: 1 Terms Offered: FaSpSm Residents attend the USC campus, with several intensive calibration/training/seminar

sessions provided by faculty. Registration Restriction: Open only to dentistry students Instruction Mode: Lecture Grading Option: Letter

Orthodontics

ORTH 501a Seminar: Orthodontics
Units: 0, 1 Clinical use of cephalometrics and orthodontic prediction; removable orthodontic appliances and their design; case analysis; mixed dentition cases; adult tooth positioning; orthodontic banding; molar uprighting. Instruction Mode: Lecture Grading Option: In-progress to Letter Grade

ORTH 501b Seminar: Orthodontics
Units: 0, 1 Clinical use of cephalometrics and orthodontic prediction; removable orthodontic appliances and their design; case analysis; mixed dentition cases; adult tooth positioning; orthodontic banding; molar uprighting. Instruction Mode: Lecture Grading Option: Letter

ORTH 521 Preclinical Orthodontics
Units: 2 Evaluation, prevention, and treatment of dento-facial malformations. Construction of basic appliances to treat orthodontic problems encountered by the general practitioner. Instruction Mode: Lecture Grading Option: Letter

ORTH 561a Clinic: Orthodontic Therapy
Units: 0 Diagnosis and limited treatment of orthodontic problems encountered in general practice. Diagnosis of complex orthodontic problems requiring treatment by a specialist. *Prerequisite:* ORTH 521. Instruction Mode: Lecture Grading Option: In-progress to Letter Grade

ORTH 561b Clinic: Orthodontic Therapy
Units: 0 Diagnosis and limited treatment of orthodontic problems encountered in general practice. Diagnosis of complex orthodontic problems requiring treatment by a specialist. *Prerequisite:* ORTH 561a. Instruction Mode: Lecture Grading Option: In-progress to Letter Grade

ORTH 561c Clinic: Orthodontic Therapy
Units: 0 Diagnosis and limited treatment of orthodontic problems encountered in general practice. Diagnosis of complex orthodontic problems requiring treatment by a specialist. *Prerequisite:* ORTH 561b. Instruction Mode: Lecture Grading Option: In-progress to Letter Grade

ORTH 561d Clinic: Orthodontic Therapy
Units: 0 Diagnosis and limited treatment of orthodontic problems encountered in general practice. Diagnosis of complex orthodontic problems requiring treatment by a specialist. *Prerequisite:* ORTH 561c. Instruction Mode: Lecture Grading Option: In-progress to Letter Grade

ORTH 561e Clinic: Orthodontic Therapy
Units: 0 Diagnosis and limited treatment of orthodontic problems encountered in general practice. Diagnosis of complex orthodontic problems requiring treatment by a specialist. *Prerequisite:* ORTH 561d. Instruction Mode: Lecture Grading Option: In-progress to Letter Grade

ORTH 561f Clinic: Orthodontic Therapy
Units: 2 Diagnosis and limited treatment of orthodontic problems encountered in general practice. Diagnosis of complex orthodontic problems requiring treatment by a specialist. *Prerequisite:* ORTH 561e. Instruction Mode: Lecture Grading Option: Letter

ORTH 674 Clinical and Molecular Bone Biology
Units: 2 Terms Offered: Sp Explore the impact of the application of new molecular techniques to bone biology research on our understanding of osteoporosis, osteosarcoma, hypercalcemis, etc. Open to advanced program students in dentistry only. Instruction Mode: Lecture Grading Option: Credit/No Credit

ORTH 701a Cephalometrics: Growth and Development
Units: 2, 3, 4 Principles and mechanics; measurement techniques; developmental morphology; analysis and diagnosis; treatment rationales; gross radiological anatomy and osteology; facial growth. Hours vary. Instruction Mode: Lecture Grading Option: Letter

ORTH 701b Cephalometrics: Growth and Development
Units: 2, 3, 4 Principles and mechanics; measurement techniques; developmental morphology; analysis and diagnosis; treatment rationales; gross radiological anatomy and osteology; facial growth. Hours vary. Instruction Mode: Lecture Grading Option: Letter

ORTH 702 Seminar: Review of the Orthodontic Literature
Units: 5 Two trimester Course Review of current orthodontic literature. Instruction Mode: Lecture Grading Option: Letter

ORTH 703a Seminar: Advanced Orthodontics
Units: 2, 3, 4, 5, 6, 7, 8 each Terms Offered: FaSpSm Advanced diagnosis and treatment of complex orthodontic cases. Asymmetrical treatment. Hours vary. Instruction Mode: Lecture Grading Option: Letter

ORTH 703b Seminar: Advanced Orthodontics
Units: 2, 3, 4, 5, 6, 7, 8 each Terms Offered: FaSpSm Advanced diagnosis and treatment of complex orthodontic cases. Asymmetrical treatment. Hours vary. Instruction Mode: Lecture Grading Option: Letter

ORTH 703c Seminar: Advanced Orthodontics
Units: 2, 3, 4, 5, 6, 7, 8 each Terms Offered: FaSpSm Advanced diagnosis and treatment of complex orthodontic cases. Asymmetrical treatment. Hours vary. Instruction Mode: Lecture Grading Option: Letter

ORTH 703d Seminar: Advanced Orthodontics
Units: 2, 3, 4, 5, 6, 7, 8 each Terms Offered: FaSpSm Advanced diagnosis and treatment of complex orthodontic cases. Asymmetrical treatment. Hours vary. Instruction Mode: Lecture Grading Option: Letter

ORTH 703e Seminar: Advanced Orthodontics
Units: 2, 3, 4, 5, 6, 7, 8 each Terms Offered: FaSpSm Advanced diagnosis and treatment of complex orthodontic cases. Asymmetrical treatment. Hours vary. Instruction Mode: Lecture Grading Option: Letter

ORTH 703f Seminar: Advanced Orthodontics
Units: 2, 3, 4, 5, 6, 7, 8 each Terms Offered: FaSpSm Advanced diagnosis and treatment of complex orthodontic cases. Asymmetrical treatment. Hours vary. Instruction Mode: Lecture Grading Option: Letter

ORTH 703h Seminar: Advanced Orthodontics
Units: 2, 3, 4, 5, 6, 7, 8 each Terms Offered: FaSpSm Advanced diagnosis and treatment of complex orthodontic cases. Asymmetrical treatment. Hours vary. Instruction Mode: Lecture Grading Option: Letter

ORTH 703i Seminar: Advanced Orthodontics
Units: 2, 3, 4, 5, 6, 7, 8 each Terms Offered: FaSpSm Advanced diagnosis and treatment of complex orthodontic cases. Asymmetrical treatment. Hours vary. Instruction Mode: Lecture Grading Option: Letter

ORTH 704a Seminar: Orthodontics in Theory and Practice
Units: 2 Review of various approaches to orthodontic treatment; includes presentation of cases. Instruction Mode: Lecture Grading Option: Credit/No Credit

ORTH 704b Seminar: Orthodontics in Theory and Practice
Units: 2 Review of various approaches to orthodontic treatment; includes presentation of cases. Instruction Mode: Lecture Grading Option: Credit/No Credit

ORTH 704c Seminar: Orthodontics in Theory and Practice
Units: 2 Review of various approaches to orthodontic treatment; includes presentation of cases. Instruction Mode: Lecture Grading Option: Credit/No Credit

ORTH 705a Orthodontic Practice Management
Units: 2 Terms Offered: FaSpSm Office management and patient relations in orthodontic practice. Instruction Mode: Lecture Grading Option: Letter

ORTH 705b Orthodontic Practice Management
Units: 2 Terms Offered: FaSpSm Office management and patient relations in orthodontic practice. Instruction Mode: Lecture Grading Option: Letter

ORTH 705c Orthodontic Practice Management
Units: 2 Terms Offered: FaSpSm Office management and patient relations in orthodontic practice. Instruction Mode: Lecture Grading Option: Letter

ORTH 706 Surgical Orthodontics
Units: 2 Diagnosis, treatment, prognosis, and management of orthognathic problems. Instruction Mode: Lecture Grading Option: Letter

ORTH 707 Interdisciplinary Aesthetic Treatment
Units: 2 Terms Offered: Sp Commonly encountered interdisciplinary aesthetic problems. Communication and teamwork between orthodontists and general dentists, as well as other specialists will be emphasized. Instruction Mode: Lecture Grading Option: Letter

ORTH 708 Information Technology in Orthodontic Practice
Units: 2 Terms Offered: Fa Practical applications of information technology in contemporary orthodontics. Topics include office management systems, videocaphalometrics, and video imaging in orthodontic practice. Instruction Mode: Lecture Grading Option: Letter

ORTH 709 Advanced Information Technology in Orthodontic Practice
Units: 2 Terms Offered: Sm Follows

ORTH 708 and is designed to provide background and up-to-date information on advanced technologies in orthodontic practice. Instruction Mode: Lecture Grading Option: Letter

ORTH 721 Biomechanics and Orthodontic Technic
Units: 8 Primary orthodontic techniques and basic diagnostic procedures. Typodont treatment of malocclusion, record taking, retention appliances, and beginning biomechanics. Instruction Mode: Lecture Grading Option: Letter

ORTH 744 Statistical Methods and Research Design in Orthodontics
Units: 2 Terms Offered: FaSpSm Experimental design and analysis as applied to orthodontic basic sciences and clinical research; descriptive and inferential statistics, bioethics, writing a research proposal, and evaluation of literature. *Recommended Preparation:* high school algebra Registration Restriction: Open only to the Herman Ostrow School of Dentristry Instruction Mode: Lecture Grading Option: Credit/No Credit

ORTH 751a Clinic: Advanced Orthodontics
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10 each Terms Offered: FaSpSm Clinical orthodontics; clinical techniques, diagnostic procedures, and applied clinical therapy to selected cases of malocclusion with emphasis on therapy and supervised treatment. Instruction Mode: Lecture Grading Option: Letter

ORTH 751b Clinic: Advanced Orthodontics
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10 each Terms Offered: FaSpSm Clinical orthodontics; clinical techniques, diagnostic procedures, and applied clinical therapy to selected cases of malocclusion with emphasis on therapy and supervised treatment. Instruction Mode: Lecture Grading Option: Letter

ORTH 751c Clinic: Advanced Orthodontics
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10 each Terms Offered: FaSpSm Clinical orthodontics; clinical techniques, diagnostic procedures, and applied clinical therapy to selected cases of malocclusion with emphasis on therapy and supervised treatment. Instruction Mode: Lecture Grading Option: Letter

ORTH 751d Clinic: Advanced Orthodontics
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10 each Terms Offered: FaSpSm Clinical orthodontics; clinical techniques, diagnostic procedures, and applied clinical therapy to selected cases of malocclusion with emphasis on therapy and supervised treatment. Instruction Mode: Lecture Grading Option: Letter

ORTH 751e Clinic: Advanced Orthodontics
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10 each Terms Offered: FaSpSm Clinical orthodontics; clinical techniques, diagnostic procedures, and applied clinical therapy to selected cases of malocclusion with emphasis on therapy and supervised treatment. Instruction Mode: Lecture Grading Option: Letter

ORTH 751f Clinic: Advanced Orthodontics
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10 each Terms Offered: FaSpSm Clinical orthodontics; clinical techniques, diagnostic procedures, and applied clinical therapy to selected cases of malocclusion with emphasis on therapy and supervised treatment. Instruction Mode: Lecture Grading Option: Letter

ORTH 751h Clinic: Advanced Orthodontics
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10 each Terms Offered: FaSpSm Clinical orthodontics; clinical techniques, diagnostic procedures, and applied clinical therapy to selected cases of malocclusion with emphasis on therapy and supervised treatment. Instruction Mode: Lecture Grading Option: Letter

ORTH 751i Clinic: Advanced Orthodontics
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10 each Terms Offered: FaSpSm Clinical orthodontics; clinical techniques, diagnostic procedures, and applied clinical therapy to selected cases of malocclusion with emphasis on therapy and supervised treatment. Instruction Mode: Lecture Grading Option: Letter

ORTH 791 Library Research
Units: 1, 2, 3, 4, 5, 6 Organized literature searching and compiling of published data for purposes of developing writing and investigative skills. Instruction Mode: Lecture Grading Option: Letter

Ocean Sciences

OS 512 Introduction to Chemical and Physical Oceanography
Units: 4 Terms Offered: Fa Principles of physical, chemical, and geological oceanography including discussions of air-sea interaction, biogeochemical cycling and the role of the ocean in modulating climate and atmospheric composition; discussion section will cover formulation of basic calculations that illustrate these principles. *Prerequisite:* CHEM 105b and MATH 126 Instruction Mode: Lecture, Discussion Grading Option: Letter Crosslisted as GEOL 512

OS 545 Modeling and Numerical Techniques for Marine Scientists
Units: 4 Terms Offered: Sp (Enroll in BISC 545)

OS 582 Advanced Biological Oceanography
Units: 4 Terms Offered: Fa (Enroll in BISC 582)

OS 590 Directed Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Terms Offered: FaSpSm Research leading to the master's degree. Maximum units which may be applied to the degree to be determined by the department. Instruction Mode: Lecture Grading Option: Credit/No Credit

OS 594a Master's Thesis
Units: 2 Terms Offered: FaSpSm Credit on acceptance of thesis. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

OS 594b Master's Thesis
Units: 2 Terms Offered: FaSpSm Credit on acceptance of thesis. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

OS 594z Master's Thesis
Units: 0 Terms Offered: FaSpSm Credit on acceptance of thesis. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

OS 599 Special Topics
Units: 2, 3, 4 Max Units: 8.0 Terms Offered: Irregular Course contents each semester will be selected to reflect current trends and new developments in the field of Ocean Sciences. Instruction Mode: Lecture Grading Option: Letter

OS 790 Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Terms Offered: FaSpSm Research leading to the doctorate. Maximum units which may be applied to the degree to be determined by the department. Instruction Mode: Lecture Grading Option: Credit/No Credit

OS 794a Doctoral Dissertation
Units: 2 Terms Offered: FaSpSm Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

OS 794b Doctoral Dissertation
Units: 2 Terms Offered: FaSpSm Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

OS 794c Doctoral Dissertation
Units: 2 Terms Offered: FaSpSm Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

OS 794d Doctoral Dissertation
Units: 2 Terms Offered: FaSpSm Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

OS 794z Doctoral Dissertation
Units: 0 Terms Offered: FaSpSm Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

Occupational Science and Occupational Therapy

OT 100 THRIVE: Foundations of Well-Being
Units: 1 Terms Offered: FaSp Exploration of themes of thriving including well-being, self-care, and connection. Application to university life, building community, developing identity and integrating learned topics into everyday life. Instruction Mode: Lecture, Discussion Grading Option: Credit/No Credit

OT 101x Caring For Your Self: Engaging in Healthy Habits and Routines
Units: 2 Terms Offered: FaSp Application of occupational science evidence and occupational therapy principles of lifestyle and self-care behavior change to support self-analysis and integration of healthy habits and routines. Credit Restriction: Not available for major credit for Occupational Therapy students Instruction Mode: Lecture, Discussion Grading Option: Credit/No Credit

OT 105g Culture, Medicine and Politics
Units: 4 (Enroll in ANTH 105)

OT 200 Medical Terminology for Health Professions
Units: 1 Foundation of medical terminology and hospital abbreviations useful for practice in health care. Instruction Mode: Lecture, Lab Required Grading Option: Letter

OT 220 Lifestyle Design: Introduction to Occupational Therapy
Units: 2 Terms Offered: FaSp Introduction to theoretical concepts concerning the relationship of engagement in activities (occupations) to health and well being. Application of these perspectives to students' own lives. Instruction Mode: Lecture Grading Option: Letter

OT 250 Introduction to Occupational Science and Occupational Therapy
Units: 4 Introduction to concept of occupation and overview of human drive for meaningful activity; impact of occupations on health and wellbeing; analysis of personal occupational patterns; selected therapeutic applications. Instruction Mode: Lecture Grading Option: Letter

OT 251x Across the Lifespan: Occupations, Health and Disability
Units: 4 Terms Offered: FaSp Exploration of the transformative power of occupation throughout the lifespan for all individuals. Instruction Mode: Lecture Grading Option: Letter

OT 260 Human Functional Anatomy for Allied Health Professions
Units: 3 Terms Offered: FaSpSm Lecture and cadaver lab-based, human anatomy course focused on the interaction of anatomical systems relative to functional activity, health and wellness. *Recommended Preparation:* introductory undergraduate course in biology Instruction Mode: Lecture, Lab Grading Option: Letter

OT 261 Human Physiology for Allied Health Professions
Units: 3 Terms Offered: FaSpSm Overview of human physiology emphasizing systems that sustain homeostasis and motion with a focus on biological foundations for a healthy lifestyle. Relevant pathophysiologic issues discussed. *Recommended Preparation:* undergraduate biology course Instruction Mode: Lecture, Lab Grading Option: Letter

OT 280 Essential Occupations of Emerging Adulthood
Units: 2 Terms Offered: FaSp Examination of challenges associated with the emerging adulthood stage of development through an occupational science lens; strategies to promote health and well-being for this population. Instruction Mode: Lecture Grading Option: Letter

OT 299 Special Topics
Units: 1, 2, 3, 4, 5, 6, 7, 8 Max Units: 08 Terms Offered: FaSp Recent developments in occupational therapy and occupational science for undergraduate students. Instruction Mode: Lecture Grading Option: Letter

OT 300 Occupational Expressions of Diverse Identities and Lifestyles
Units: 4 Exploration of the diverse ways occupational practices become central to identity, reify standard social ideologies, and are manipulated to redress conventional standards. Instruction Mode: Lecture Grading Option: Letter

OT 310 Creativity Workshop
Units: 2 Terms Offered: FaSpSm Theories and practice of the creative process in varied media, genres and occupations. Explores creativity in the arts, sciences, professions, evolution, daily life, and culture. Instruction Mode: Lecture Grading Option: Letter

OT 312 Creating a Sustainable Lifestyle
Units: 2 Scientists and policymakers advocate lifestyle changes as crucial to solving the environmental crisis. Investigation into the development of habits that promote environmental sustainability and personal wellbeing. Instruction Mode: Lecture Grading Option: Letter

OT 320 The Nature of Human Occupation: Form, Function, and Meaning
Units: 4 The complex nature of human occupation is covered from an interdisciplinary perspective. Emphasis is on how occupation contributes to human experience in a lived world. Instruction Mode: Lecture Grading Option: Letter

OT 325 The Brain: Mind, Body, and Self
Units: 4 Terms Offered: FaSpSm Exploration of neuroscience as it impacts everyday living, from the fundamentals of neurons and synapses, to the neural basis of language, empathy, and social interaction. Instruction Mode: Lecture Grading Option: Letter

OT 330 Perspectives on the Daily Life of Families
Units: 4 Examines family structures and processes, the occupational dimensions of families, and the meanings embedded in the acts of daily life of contemporary families. Instruction Mode: Lecture Grading Option: Letter

OT 333 Sports Ethics
Units: 4 Terms Offered: FaSp Critically examines ethical issues central to the world of sports that range from matters of fair play and cheating to performance-enhancing drugs and gene-doping. Instruction Mode: Lecture Grading Option: Letter

OT 340 Occupational Foundations of Human-Animal Interaction
Units: 4 Terms Offered: Sp Explores how interactions with companion animals expand human capacity for action and contribute to human health, well-being and participation, in different cultural contexts, across the life-span. Instruction Mode: Lecture Grading Option: Letter

OT 350 Disability, Occupations, and the Health Care System
Units: 4 Exploration of the ways in which able bodyism, sexism, racism, classism and homophobia contribute to occupational opportunities or barriers and weave their way into health care. Instruction Mode: Lecture Grading Option: Letter

OT 355 Doing Social Justice
Units: 2 Terms Offered: FaSp Exploration of solutions to social problems through collective occupations. Introduces theories and practices of social justice, human rights, occupational justice and occupational reconstructions. Instruction Mode: Lecture Grading Option: Letter

OT 360 Creating the Self through Narrative: Acts of Life Story Production
Units: 4 Analysis of life stories, life histories, and testimonies in social interactions, texts, and films. Life stories are an occupation to re-create the "Self" in response to conflict and change. Instruction Mode: Lecture Grading Option: Letter

OT 370 Understanding Autism: Participation Across the Lifespan
Units: 4 Terms Offered: FaSp Introduction to Autism Spectrum Disorder (ASD) from a neurodevelopmental perspective, with a focus on the daily living experience and occupational participation for individuals with ASD. Instruction Mode: Lecture Grading Option: Letter

OT 375 The Narrative Structure of Social Action: Narrative, Healing and Occupation
Units: 4 Narrative as guide and structure of practical action. Special emphasis on chronic illness and disability and narrative structure of clinical interactions. Instruction Mode: Lecture Grading Option: Letter

OT 390 Special Problems
Units: 1, 2, 3, 4 Supervised, individual studies. No more than one registration permitted. Enrollment by petition only. Instruction Mode: Lecture Grading Option: Letter

OT 405 Foundations: Occupation
Units: 2 Terms Offered: FaSm Introduction to basic tenets of occupational therapy history and practice, the profession's language, and foundations of occupational science; incorporates experience and self-analysis of occupation. Registration Restriction: Open only to upper division and Masters level Occupational Therapy majors. Instruction Mode: Lecture, Discussion Grading Option: Letter

OT 406L Foundations: Creativity, Craft and Activity Analysis
Units: 2 Terms Offered: FaSm Exploration of craftsmanship in both historical and contemporary contexts; engagement in the craft experience to encourage creativity and to develop proficiency in analysis of performance. Registration Restriction: Open only to upper division, Master and Professional OT majors. Instruction Mode: Lecture, Lab Required Grading Option: Letter

OT 440L Foundations: Kinesiology
Units: 2 Terms Offered: FaSpSm Review of joint and muscle structure and function; application of basic biomechanical, neuromuscular and musculoskeletal principles to the analysis of everyday activities and therapeutic interventions. Registration Restriction: Open only to upper division and master's Occupational Therapy majors. Instruction Mode: Lecture, Lab Required Grading Option: Letter

OT 441L Foundations: Neuroscience
Units: 2 Terms Offered: FaSpSm Application of basic neural function to the analysis of daily living tasks and activities; review of pathological conditions that interfere with performance in occupation. Registration Restriction: Open only to upper division and Master's occupational Therapy majors. Instruction Mode: Lecture, Lab Required Grading Option: Letter

OT 490x Directed Research
Units: 1, 2, 3, 4, 5, 6, 7, 8 Max Units: 12.0 Terms Offered: FaSp Individual research and readings. Instruction Mode: Lecture Grading Option: Letter

OT 499 Special Topics
Units: 2, 3, 4 Max Units: 8.0 Terms Offered: FaSpSm Course content to be selected in occupational therapy and occupational science. Instruction Mode: Lecture Grading Option: Letter

OT 500a Clinical Problems in Occupational Therapy
Units: 2, 3, 4 Terms Offered: FaSpSm Specific applications of occupational therapy practice in varied clinical/health settings. Seminar to integrate theory with application of intervention principles for various populations. Instruction Mode: Lecture Grading Option: Credit/No Credit

OT 500b Clinical Problems in Occupational Therapy
Units: 2, 3, 4 Terms Offered: FaSpSm Specific applications of occupational therapy practice in varied clinical/health settings. Seminar to integrate theory with application of intervention principles for various populations. Instruction Mode: Lecture Grading Option: Credit/No Credit

OT 500c Clinical Problems in Occupational Therapy
Units: 2, 3, 4 Terms Offered: FaSpSm Specific applications of occupational therapy practice in varied clinical/health settings. Seminar to integrate theory with application of intervention principles for various populations. Instruction Mode: Lecture Grading Option: Credit/No Credit

OT 501L Practice Immersion: Adult Physical Rehabilitation
Units: 8 Terms Offered: FaSp Scientific and theoretical underpinnings and knowledge and skills necessary for occupational therapy evaluation and intervention in adult rehabilitation and geriatrics; incorporates related Level I Fieldwork. Registration Restriction: Open only to Occupational Therapy majors. Duplicates Credit in former OT 401. Instruction Mode: Lecture, Lab Required Grading Option: Letter

OT 502L Practice Immersion: Mental Health
Units: 8 Terms Offered: FaSp Scientific and theoretical underpinnings and knowledge and skills necessary for occupational therapy evaluation and intervention in mental health practice; incorporates related Level I Fieldwork. Registration Restriction: Open only to Occupational Therapy majors. Duplicates Credit in former OT 402. Instruction Mode: Lecture, Lab Required Grading Option: Letter

OT 503L Practice Immersion: Pediatrics
Units: 8 Terms Offered: FaSp Scientific and theoretical underpinnings and knowledge and skills necessary for occupational therapy evaluation and intervention in pediatrics; incorporates related Level I Fieldwork. Registration Restriction: Open only to Occupational Therapy majors. Duplicates Credit in former OT 403. Instruction Mode: Lecture, Lab Required Grading Option: Letter

OT 511 Therapeutic Use of Self
Units: 2 Terms Offered: Fa Exploration of efficacy, therapeutic use of self, empathy and mindfulness; development of self-awareness to support the art, craft and skill of effective therapeutic relationships. Registration Restriction: Open only to Occupational Therapy majors. Duplicates Credit in former OT 410. Instruction Mode: Lecture Grading Option: Letter

OT 515 Neuroscience of Behavior
Units: 4 Terms Offered: Fa Foundation for understanding neural functions involved in typical/atypical behaviors; review of neural circuitry, experimental methods, basic behavioral systems, higher order cognitive functions and associated disorders. Registration Restriction: Open only to Occupational Therapy majors. Duplicates Credit in former OT 451. Instruction Mode: Lecture Grading Option: Letter

OT 518 Quantitative Research for Evidence-Based Practice
Units: 4 Terms Offered: Fa Traditions and methods of quantitative research; emphasis on formulation of clear clinical questions; finding, evaluating, and applying evidence to a clinical problem; includes journal club. Registration Restriction: Open only to Occupational Therapy majors. Duplicates Credit in former OT 480. Instruction Mode: Lecture Grading Option: Letter

OT 521 Clinical Reasoning
Units: 3 Terms Offered: Sp Dynamic look at creation and application of professional knowledge and expertise; examines interrelationship between theory and practice; incorporates narrative and illness experiences in clinical reasoning. Registration Restriction: Open only to Occupational Therapy majors. Duplicates Credit in former OT 411. Instruction Mode: Lecture Grading Option: Letter

OT 523 Communication Skills for Effective Practice
Units: 3 Terms Offered: Fa Principles of written, verbal and non-verbal communication with professionals, clients and families, from a personal and professional perspective; group interventions; interview skills; advocacy as communication. Registration Restriction: Open only to Occupational Therapy majors. Duplicates Credit in former OT 430. Instruction Mode: Lecture Grading Option: Letter

OT 525 Qualitative Research for Evidence-Based Practice
Units: 4 Terms Offered: Sp Traditions and methods of qualitative research; development of skills for research design, implementation and dissemination; critique of qualitative research for evidence-based practice and occupational science. Registration Restriction: Open only to Occupational Therapy majors. Duplicates Credit in former OT 470. Instruction Mode: Lecture Grading Option: Letter

OT 534 Health Promotion and Wellness
Units: 2 Terms Offered: Fa Examination of relationship of occupation to health, wellbeing, participation; critical thinking about lifestyle factors influencing occupational engagement; occupational science and wellness in occupational therapy practice. Registration Restriction: Open only to Occupational Therapy majors. Duplicates Credit in former OT 504. Instruction Mode: Lecture Grading Option: Letter

OT 537 Occupation-Centered Programs for the Community
Units: 4 Terms Offered: Fa Development of a proposal for new or extended services; includes trends analysis, needs assessment, literature review, marketing plan, mock funding request, program evaluation and presentation. Registration Restriction: Open only to Occupational Therapy majors. Duplicates Credit in former OT 570. Instruction Mode: Lecture Grading Option: Letter

OT 538 Current Issues in Practice: Adulthood and Aging
Units: 2 Terms Offered: Fa Exploration of adulthood, aging and occupation; current topics related to aging population and occupational therapy to promote health and participation throughout the lifespan. Registration Restriction: Open only to Occupational Therapy majors. Duplicates Credit in former OT 508. Instruction Mode: Lecture Grading Option: Letter

OT 540 Leadership Capstone
Units: 2 Terms Offered: Sp Professional capstone in leadership, advocacy, ethical reasoning, professional behavior, and public policy as it impacts the practice of occupational therapy; independent professional externship. Registration Restriction: Open only to Occupational Therapy majors. Duplicates Credit in former OT 580. Instruction Mode: Lecture Grading Option: Letter

OT 545 Advanced Seminar in Occupational Science
Units: 2 Terms Offered: FaSp Advanced analysis of occupational science concepts including dimensions of occupation and the impact of occupation on health and wellbeing; factors associated with participation in occupation at the individual, community and global levels. Registration Restriction: Open only to Occupational Therapy majors. Duplicates Credit in former OT 585. Instruction Mode: Lecture Grading Option: Letter

OT 560 Contemporary Issues in School-Based Practice
Units: 4 Terms Offered: FaSp Current issues in school-based occupational therapy evaluation, ongoing assessment and intervention. Topics include successful collaboration in inclusive classrooms and on IFSP and IEP teams. Registration Restriction: Open only to OT majors. Instruction Mode: Lecture Grading Option: Credit/No Credit

OT 561 Occupational Therapy in Acute Care
Units: 4 Terms Offered: Sp Knowledge and skills for occupational therapy practice in acute care settings using a systems-based approach; includes an experiential learning component at Keck Hospital of USC. Registration Restriction: Open only to Occupational Science and Occupational Therapy students. Instruction Mode: Lecture Grading Option: Credit/No Credit

OT 562 Advanced Hand Rehabilitation and Certification (PAMs)
Units: 4 Terms Offered: Sp Evidence-based and occupation-based practice for hand and upper extremity conditions; application of PAMs as preparatory for occupation. Applicable toward California educational requirements for advanced practice. *Corequisite:* OT 573. Registration Restriction: Open only to Occupational Science and Occupational Therapy students. Instruction Mode: Lecture Grading Option: Credit/No Credit

OT 563 Occupational Therapy in Primary Health Care Environments
Units: 2 Terms Offered: FaSp Examines the emerging role of occupational therapy in primary care, including the need occupational therapy can address in primary care. Registration Restriction: Open only to Occupational Science and Occupational Therapy majors. Instruction Mode: Lecture Grading Option: Credit/No Credit

OT 564 Sensory Processing and Sensory Integration
Units: 4 Terms Offered: FaSp Comprehensive overview of the basic neurobehavioral principles underlying sensory processing and sensory integration, patterns of dysfunction, and their relationship to everyday occupations and intervention. Registration Restriction: Open only to OT majors Instruction Mode: Lecture Grading Option: Credit/No Credit

OT 565 Sensory Integration Interventions
Units: 4 Terms Offered: Sp Foundations and application of sensory integration principles in clinical practice, schools and community. Includes critique and integration of evidence, effective communication with parents, and documentation. *Corequisite:* OT 564 Registration Restriction: Open only to Occupational Science and Occupational Therapy students Instruction Mode: Lecture Grading Option: Credit/No Credit

OT 566 Healthcare Communication with Spanish-Speaking Clients
Units: 2 Terms Offered: Sp Development of communicative proficiency and accuracy in Spanish within a therapeutic context. Introduction to Spanish language, adaptive communication strategies, and ethics in language-discordant communication. Registration Restriction: Open only to Occupational Science and Occupational Therapy students Instruction Mode: Lecture Grading Option: Credit/No Credit

OT 567 Contemporary Issues: Occupational Therapy in Early Intervention
Units: 4 Terms Offered: Sp Exploration of occupational therapy in early intervention settings including; relevant legislation, family-centered care, cultural context, documentation, ethics, and neuroscientific foundations of infant mental health. Registration Restriction: Open only to Occupational Science and Occupational Therapy students Instruction Mode: Lecture Grading Option: Credit/No Credit

OT 568 Sensory Processing and Sensory Integration: Special Topics
Units: 4 Terms Offered: FaSp Applications of sensory integration theory and intervention principles in diverse therapeutic contexts, including school-based settings, early intervention, autism spectrum disorders, and feeding and eating. Registration Restriction: Open only to OT students Instruction Mode: Lecture Grading Option: Credit/No Credit

OT 571 Assistive Technology
Units: 4 Terms Offered: Sp Principles of assessment, selection, training, and follow-up with clients in the use of assistive technologies to enable and enhance participation in a meaningful occupation. Registration Restriction: Open only to OT majors. Instruction Mode: Lecture Grading Option: Credit/No Credit

OT 572 Ergonomics
Units: 4 Terms Offered: Sp Focus on the effects of physical design in the workplace on users' injury rate, behavior, performance and stress levels. Intervention for repetitive motion included. Registration Restriction: Open only to OT majors. Instruction Mode: Lecture Grading Option: Credit/No Credit

OT 573 Hand Rehabilitation
Units: 4 Terms Offered: Fa Occupation-based evaluation and intervention for individuals with acute and chronic hand disorders. Topics include scar management, splinting, peripheral nerve injury, wound healing and physical agent modalities. Registration Restriction: Open only to OT majors. Instruction Mode: Lecture Grading Option: Credit/No Credit

OT 574 Enhancing Motor Control for Occupation
Units: 4 Terms Offered: FaSp Laboratory examining approaches to assessment and remediation of motor control following upper motor neuron lesions. An occupation-based approach to Neurodevelopmental Treatment (NDT) will be emphasized. Registration Restriction: Open only to OT majors. Instruction Mode: Lecture Grading Option: Credit/No Credit

OT 575 Dysphagia Across the Lifespan: Pediatrics through Geriatrics
Units: 2 Terms Offered: Sp A comprehensive investigation of the anatomy and physiology of normal and abnormal swallowing. Didactic and hands-on study of assessment and treatment interventions will be addressed. Instruction Mode: Lecture Grading Option: Credit/No Credit

OT 576 Universal Design
Units: 4 Terms Offered: Fa Examination of the concepts and principles of universal design and the benefits of the approach for people with disabilities and for all individuals. Instruction Mode: Lecture Grading Option: Credit/No Credit

OT 577 Seminar in Occupational Therapy
Units: 2 Terms Offered: Sp Occupational therapy and the health care system. Registration Restriction: Open only to Occupational Therapy majors. Duplicates Credit in former OT 505. Instruction Mode: Lecture Grading Option: Credit/No Credit

OT 578 Therapeutic Communication: Facilitating Change in Clients
Units: 4 Terms Offered: FaSpSm Exploration of selected therapeutic communication styles intended to facilitate change including motivational interviewing, mindfulness practices, and cognitive approaches to therapeutic intervention. Registration Restriction: Open only to graduate students in Occupational Science and Occupational Therapy Instruction Mode: Lecture, Discussion Grading Option: Credit/No Credit

OT 579 Occupational Therapy in Adult-Neurorehabilitation
Units: 4 Terms Offered: Sp Comprehensive overview of occupational therapy evaluation and intervention in adult neurorehabilitation addressing motor, visual, cognitive, emotion, and language systems. Emphasizes evidence-based interventions with hands-on application. Registration Restriction: Open only to graduate and professional students in Occupational Therapy Instruction Mode: Lecture, Lab Grading Option: Credit/No Credit

OT 581 Quantitative Research for the Practicing Clinician
Units: 4 Terms Offered: FaSp Traditions and methods of quantitative research for practicing clinicians; emphasis on formulation of clear clinical questions; finding, evaluating, and applying evidence to a clinical problem. Registration Restriction: Open only to Occupational Therapy majors. Instruction Mode: Lecture Grading Option: Letter

OT 582 Occupational Science Foundations of Lifestyle Redesign
Units: 4 Terms Offered: FaSpSm Overview of the foundations and philosophy of Lifestyle Redesign®. Includes theoretical underpinnings, therapeutic methods , and examination of how occupational science informs Lifestyle Redesign® interventions. Registration Restriction: Open only to graduate students in Occupational Science and Occupational Therapy Instruction Mode: Lecture, Discussion Grading Option: Credit/No Credit

OT 583 Current Applications of Lifestyle Redesign
Units: 4 Terms Offered: FaSpSm Interactive practicum exploring the Lifestyle Redesign® approach to preventing and managing chronic health conditions. Topics include therapeutic process, lifestyle module design and service delivery models. Registration Restriction: Open only to graduate students in Occupational Science and Occupational Therapy Instruction Mode: Lecture, Discussion Grading Option: Credit/No Credit

OT 584 Clinical Applications of Telehealth Technologies in OT
Units: 2 Terms Offered: Sp Interactive course exploring the history of telehealth technologies; includes definitions, care models, remote services, applications, activity monitoring devices, technology enabled therapy, legislation, reimbursement. Registration Restriction: Open only to Occupational Science and Occupational Therapy graduate students. Instruction Mode: Lecture Grading Option: Credit/No Credit

OT 585 Advanced Seminar in Occupational Science
Units: 2 Terms Offered: FaSp Advanced analysis of occupational science concepts including dimensions of occupation and the impact of occupation on health and wellbeing; factors associated with participation in occupation at the individual, community and global levels.

OT 586 Fieldwork with Seminar
Units: 1, 2 Max Units: 06 Terms Offered: FaSpSm Fieldwork is mandatory to qualify for professional certification/licensure. Seminar facilitates reflective discussion and integration of class concepts to clinical practice. Registration Restriction: Open only to Occupational Therapy majors Duplicates Credit in former OT 486 Instruction Mode: Lecture Grading Option: Credit/No Credit

OT 590 Directed Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Terms Offered: FaSpSm Research leading

to the master's degree. Maximum units which may be applied to the degree to be determined by the department. Instruction Mode: Lecture Grading Option: Credit/No Credit

OT 594a Master's Thesis
Units: 2 Terms Offered: FaSp Credit on acceptance of thesis. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

OT 594b Master's Thesis
Units: 2 Terms Offered: FaSp Credit on acceptance of thesis. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

OT 594z Master's Thesis
Units: 0 Terms Offered: FaSp Credit on acceptance of thesis. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

OT 596 Internship for Curricular Practical Training
Units: 1, 2, 3 Max Units: 03 Terms Offered: FaSpSm Part-time or full-time, practical work experience in the student's field of study. The internship must be located at an off-campus facility. Students are individually supervised by faculty. May not be taken until the student has completed at least one semester of enrollment in the graduate program with a cumulative 3.0 GPA. Registration Restriction: Open only to graduate students Instruction Mode: Lecture Grading Option: Credit/No Credit

OT 599 Special Topics
Units: 1, 2, 3, 4, 5, 6, 7, 8 Max Units: 8.0 Terms Offered: FaSpSm Recent developments in occupational therapy and occupational science. Instruction Mode: Lecture Grading Option: Letter

OT 610 Sensory Integrative Dysfunction
Units: 4 Terms Offered: FaSpSm Differential evaluation of sensory integrative dysfunction; theory and procedure for enhancing the processing of sensory data by children with learning and behavior disorders. *Prerequisite:* admission by advance application and instructor's approval only; must be certified as an occupational or physical therapist. Instruction Mode: Lecture Grading Option: Letter

OT 612 Information Processing and Occupation
Units: 4 Phylogenesis and ontogenesis of human information processing capacity enabling engagement in occupation; components and contributions to adaptation and coping. Instruction Mode: Lecture Grading Option: Letter

OT 620 Current Issues in Occupational Science and Occupational Therapy
Units: 4 Terms Offered: Fa Review of current occupational science research as it is applied to practice; examination of leadership opportunities; development of proposal focusing on chosen area of study. Registration Restriction: Open only to Occupational Therapy doctoral students Instruction Mode: Lecture Grading Option: Letter

OT 621 Occupational Therapy Leadership: Contemporary Issues
Units: 4 Examination of themes in occupational therapy related to power, confidence, and identity; development of leadership skills; analysis of the impact of policy and advocacy on occupational therapy. Instruction Mode: Lecture Grading Option: Letter

OT 640 Conceptual Foundations of Occupational Science
Units: 4 Terms Offered: FaSp Analysis of the conceptual foundations and methodological orientations for occupational science, understandings of disciplinary perspectives, formulation of theoretical arguments, and the interpretation of research data. Instruction Mode: Lecture Grading Option: Letter

OT 641 The Nature of Occupation
Units: 4 Terms Offered: FaSp Theoretical and historical foundations for the study of occupation, engagement in living and learning in everyday life. Instruction Mode: Lecture Grading Option: Letter

OT 642 Therapeutic Uses of Self: Psychodynamic Perspectives
Units: 4 Terms Offered: FaSp Survey of the diversity of analytic conceptions of subjectivity and intersubjectivity. Emphasis on the way these ideas influence the notion of therapeutic efficacy within Occupational Science. Instruction Mode: Lecture Grading Option: Letter

OT 643 Meaningful Engagement in Everyday Life
Units: 4 Exploration of the subjective experience of meaningful engagement in work, play, and the occupational pursuits of everyday life, drawing on contributions from the social sciences. Instruction Mode: Lecture Grading Option: Letter

OT 644 Foundations of Research on Activity and Health
Units: 4 Terms Offered: FaSp Examination of effectiveness and efficacy research, study design and methodology, dimensions of adaptation and research methods through the lens of two division-based research programs. Instruction Mode: Lecture Grading Option: Letter

OT 645 Narrative, Healing and the Culture of Biomedicine
Units: 4 Terms Offered: FaSp Introduction to narrative as analytic framework for considering chronic illness, disability, occupation, and the moral and cultural influences on the clinical reasoning of health professionals. Instruction Mode: Lecture Grading Option: Letter

OT 646 Intersections of Occupational Science and Human Development
Units: 4 Terms Offered: FaSp Analysis of occupational science perspectives related to human development and participation in sociocultural practices and examination of developmental theories and their relationship to occupational science. Instruction Mode: Lecture Grading Option: Letter

OT 647 Producing New Knowledge in Occupational Science
Units: 4 Terms Offered: Sp Problems, theory, methods and contexts of research in occupational science, as a discipline that seeks to understand, explain, and promote human flourishing. *Prerequisite:* OT 640; *Recommended Preparation:* at least one advanced course in qualitative, quantitative, or mixed methods for research. Registration Restriction: Open only to doctoral students. Instruction Mode: Lecture Grading Option: Letter

OT 648 Researching Occupation: Engagement, Meaning, and Society
Units: 4 Terms Offered: FaSp *Recommended Preparation:* OT 640 and OT 660 Instruction Mode: Lecture Grading Option: Letter

OT 649 Researching Occupation: Function, Participation, and Health
Units: 4 Terms Offered: FaSp Approaches to studying health and wellbeing in everyday living from biological to population levels, including prevention, wellness, chronic illness, disability, and rehabilitation, emphasizing quantitative methods. *Recommended Preparation:* OT 641 and OT 660 Instruction Mode: Lecture Grading Option: Letter

OT 650 Development of Adaptive Skills
Units: 4 Terms Offered: Fa Critical analysis of occupation as means and product of human adaptation. Adaptive skill development from traditional and occupational science approaches. Research methods and results. Instruction Mode: Lecture Grading Option: Letter

OT 655 Work and Leisure
Units: 4 Terms Offered: Sp Ontogenesis and phylogenesis of work and leisure. Systems view of person/environmental interactions affecting competence and satisfaction with activity. Occupation and the need for mastery. Instruction Mode: Lecture Grading Option: Letter

OT 660 Research Practicum
Units: 2 Experiential learning through immersion in one or more externally funded research groups in the Division, enabling intense participation in multi-skilled research groups. Instruction Mode: Lecture Grading Option: Credit/No Credit

OT 661 Grant Writing for Occupational Science
Units: 2 Terms Offered: SpSm Integration of theory, research design, and methods to develop competitive grant applications for the study of occupation, with a focus on federal granting agencies. *Prerequisite:* OT 640 and OT 641 and OT 648 and OT 649 and OT 660 *Recommended Preparation:* At least one advanced course in qualitative, quantitative, or mixed-methods research design or statistical analysis is strongly recommended. Instruction Mode: Lecture Grading Option: Credit/No Credit

OT 686 Residency
Units: 6 or 12 Max Units: 24 Terms Offered: FaSpSm Residency involving development, administration, evaluation, or policy formulation for occupation-centered programs in clinical or community settings. Development of portfolio for professional doctorate. Graded CR/NC. Registration Restriction: Open only to OT majors Instruction Mode: Lecture Grading Option: Credit/No Credit

OT 699 Special Topics
Units: 1, 2, 3, 4, 5, 6, 7, 8 Max Units: 08 Terms Offered: FaSpSm Selected topics in occupational therapy and occupational sciences. Registration Restriction: Open only to doctoral students Instruction Mode: Lecture Grading Option: Letter

OT 790 Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12

Research leading to the doctorate. Maximum units which may be applied to the degree to be determined by the department. Instruction Mode: Lecture Grading Option: Credit/No Credit

OT 794a Doctoral Dissertation
Units: 2 Terms Offered: FaSp Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

OT 794b Doctoral Dissertation
Units: 2 Terms Offered: FaSp Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

OT 794c Doctoral Dissertation
Units: 2 Terms Offered: FaSp Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

OT 794d Doctoral Dissertation
Units: 2 Terms Offered: FaSp Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

OT 794z Doctoral Dissertation
Units: 0 Terms Offered: FaSp Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

Pain Medicine

PAIN 701 Pharmacotherapeutics for Pain
Units: 2 Terms Offered: Fa Introduction into the complex area of treatment with opioids and other pharmacological options. Instruction Mode: Lecture Grading Option: Letter

PAIN 702 Pain Classification and Diagnosis - Part 1
Units: 2 Terms Offered: Fa Introduction of pain classification and diagnosis to familiarize the student with a standardized approach to painful conditions. Instruction Mode: Lecture Grading Option: Letter

PAIN 703 Psychological Aspects of the Pain Experience: Individual and
Units: 2 Terms Offered: Fa Explore the psychological and social perspectives that influence chronic pain, reinforcing the need to look beyond the initial physical diagnosis. Instruction Mode: Lecture Grading Option: Letter

PAIN 704 Pain and Society: Epidemiology and Cultural issues
Units: 1 Terms Offered: Sp Explores the societal issues related to pain, including the role of culture, ethnicity, caregiving, social and psychological factors related to pain and pain management. Instruction Mode: Lecture Grading Option: Letter

PAIN 705 Pain Assessment: History and Physical Examination
Units: 1 Terms Offered: Sp Evaluation of patients suffering from pain, distinguishing between types of pain that may be acute or chronic. Instruction Mode: Lecture Grading Option: Letter

PAIN 706 Musculoskeletal Anatomy and Pathology
Units: 2 Terms Offered: Sp Anatomical survey of the human musculoskeletal system, focused on common pathologies that generate pain. Instruction Mode: Lecture Grading Option: Letter

PAIN 707 Pain Neuroscience
Units: 2 Terms Offered: Sp Anatomy of peripheral and central nociceptors, molecular mechanisms that underlie primary responses, neural networks, and neural mechanisms involved in hyperalgesia and allodynia. Instruction Mode: Lecture Grading Option: Letter

PAIN 708 Opioids
Units: 1 Terms Offered: Fa Explores opioid therapeutics including proper use, dosing, side effects and its management, use in special populations, and legal/ethical considerations for prescribers and dispensers. Instruction Mode: Lecture Grading Option: Letter

PAIN 709 Pain Classification and Diagnosis - Part 2
Units: 2 Terms Offered: Fa Knowledge and ability to recognize fine differences in various common pain conditions. Instruction Mode: Lecture Grading Option: Letter

PAIN 710 Advanced Pain Physiology and Neuroscience
Units: 1 Terms Offered: Fa Advanced neurophysiology of pain including immunology and epigenetics, neuropathic pain, inflammation, with a series of lectures and sessions to analyze clinical cases. Instruction Mode: Lecture Grading Option: Letter

PAIN 711 Research Methodology
Units: 2 Terms Offered: Fa Conduct a systematic review, research question, searching the literature, summarizing the evidence and interpreting the findings. Instruction Mode: Lecture Grading Option: Letter

PAIN 712a Pain Medicine Capstone
Units: 0.5 Terms Offered: Fa Collaborative research project or supervised internship (practicum) incorporating a service learning approach. Instruction Mode: Lecture Grading Option: Letter

PAIN 712b Pain Medicine Capstone
Units: 0.5 Terms Offered: Sp Collaborative research project or supervised internship (practicum) incorporating a service learning approach. Instruction Mode: Lecture Grading Option: Letter

PAIN 712c Pain Medicine Capstone
Units: 0.5 Terms Offered: Fa Collaborative research project or supervised internship (practicum) incorporating a service learning approach. Instruction Mode: Lecture Grading Option: Letter

PAIN 712d Pain Medicine Capstone
Units: 0.5 Terms Offered: Sp Collaborative research project or supervised internship (practicum) incorporating a service learning approach. Instruction Mode: Lecture Grading Option: Letter

PAIN 713a Case Studies
Units: 0.5 Terms Offered: Fa Multiple elements including weekly online discussions of cases; learning need assignments; defense of an 18 cases or scenarios e-Portfolio. Instruction Mode: Lecture Grading Option: Letter

PAIN 713b Case Studies
Units: 0.5 Terms Offered: Sp Multiple elements including weekly online discussions of cases; learning need assignments; defense of an 18 cases or scenarios e-Portfolio. *Prerequisite:* PAIN 713a Instruction Mode: Lecture Grading Option: Letter

PAIN 713c Case Studies
Units: 0.5 Terms Offered: Fa Multiple elements including weekly online discussions of cases; learning need assignments; defense of an 18 cases or scenarios e-Portfolio. Instruction Mode: Lecture Grading Option: Letter

PAIN 713d Case Studies
Units: 0.5 Terms Offered: Sp Multiple elements including weekly online discussions of cases; learning need assignments; defense of an 18 cases or scenarios e-Portfolio. *Prerequisite:* PAIN 713c Instruction Mode: Lecture Grading Option: Letter

PAIN 714 Public Policy and Legal issues
Units: 1 Terms Offered: Sp Public Policy and Legal Issues in Pain Medicine including the California Medical Board Guidelines for Pain Medication, CURES, and legislation related with the discipline. Instruction Mode: Lecture Grading Option: Letter

PAIN 715 History of Pain: Theory and Treatment
Units: 1 Terms Offered: Fa Trace through history our collective understanding of pain by examining the people, theories, and technologies which have brought us to our modern understanding. Instruction Mode: Lecture Grading Option: Letter

PAIN 716 Neuropathic Pain
Units: 1 Terms Offered: Sp Focus on pain caused by nervous system dysfunction; assessment, physiology, diagnoses and treatment. Instruction Mode: Lecture Grading Option: Letter

PAIN 717 Psychological Treatments for Chronic Pain
Units: 2 Terms Offered: Sp Information and demonstration on specific psychological treatments to decrease pain levels and manage pain flares. Instruction Mode: Lecture Grading Option: Letter

PAIN 718 Complementary Approaches
Units: 2 Terms Offered: Fa Treatment options in pain management; framework for integrative models of care. Instruction Mode: Lecture Grading Option: Letter

PAIN 719 Building a Practice: Institutional or Private
Units: 1 Building and managing a Pain Practice. Topics include the scope of practice, stratification of care, and marketing. Instruction Mode: Lecture Grading Option: Letter

PAIN 720 Physical and Occupational Therapies
Units: 1 Terms Offered: Sp Physical and Occupational Therapy techniques to assess and treat chronic pain. Instruction Mode: Lecture Grading Option: Letter

PAIN 721 Advanced Therapeutics
Units: 2 Terms Offered: Sp Patients who suffer from chronic pain often fail to respond to basic treatments. Therefore it is crucial for clinicians to be familiar with different treatment options. Instruction Mode: Lecture Grading Option: Letter

PAIN 722 Palliative Care in End of Life
Units: 1 Terms Offered: Fa Key concepts in palliative medicine and hospice care, ranging from management of common symptoms, to best practices in

communication with patients and their families. Instruction Mode: Lecture Grading Option: Letter

PAIN 723 Orofacial Pain and Headache
Units: 2 Terms Offered: Sp Foundational knowledge of orofacial neurogenic pain and headache disorders; prevalence, differential diagnosis, prevention and management. Instruction Mode: Lecture Grading Option: Letter

Pathology (Herman Ostrow School of Dentistry)

PTHL 312a Medicine and Pathology
Units: 1 Terms Offered: FaSpSm An integrated approach to clinical, gross and microscopic study of basic disease processes, systemic pathology, oral pathology, internal medicine, pathophysiology, physical evaluation and emergency medicine for significant organ systems. Clinical-pathologic correlation stressed. Evaluation, classification, and differential diagnosis of oral lesions; disease recognition and dental treatment modification. Instruction Mode: Lecture Grading Option: Letter

PTHL 312b Medicine and Pathology
Units: 3 Terms Offered: FaSpSm An integrated approach to clinical, gross and microscopic study of basic disease processes, systemic pathology, oral pathology, internal medicine, pathophysiology, physical evaluation and emergency medicine for significant organ systems. Clinical-pathologic correlation stressed. Evaluation, classification, and differential diagnosis of oral lesions; disease recognition and dental treatment modification. Instruction Mode: Lecture Grading Option: Letter

PTHL 312c Medicine and Pathology
Units: 2 Terms Offered: FaSpSm An integrated approach to clinical, gross and microscopic study of basic disease processes, systemic pathology, oral pathology, internal medicine, pathophysiology, physical evaluation and emergency medicine for significant organ systems. Clinical-pathologic correlation stressed. Evaluation, classification, and differential diagnosis of oral lesions; disease recognition and dental treatment modification. Instruction Mode: Lecture Grading Option: Letter

PTHL 501 Oral Pathology
Units: 4 Terms Offered: Sm Clinical radiographic, gross and microscopic characteristics of mucosal, skin, fibroseous and salivary gland diseases; odontogenic tumors and cysts; benign and malignant neoplasms and iatrogenic conditions. Instruction Mode: Lecture Grading Option: Letter

PTHL 504a Seminar: Oral Pathology
Units: 0 Clinico-pathologic discussion of oral pathosis cases. A variety of "unknown" cases representing diagnostic problems are analyzed. Etiology, pathogenesis, clinical/radiographic features, therapy and prognosis are stressed. Instruction Mode: Lecture Grading Option: In-progress to Letter Grade

PTHL 504b Seminar: Oral Pathology
Units: 0 Clinico-pathologic discussion of oral pathosis cases. A variety of "unknown" cases representing diagnostic problems are analyzed. Etiology, pathogenesis, clinical/radiographic features, therapy and prognosis are stressed. Instruction Mode: Lecture Grading Option: Letter

PTHL 601 Advanced Oral Pathology Seminar
Units: 2 Detailed discussion and analysis of many cases representing a wide variety of oral pathologic conditions stressing differential diagnosis and clinical-pathologic correlations. Instruction Mode: Lecture Grading Option: Letter

PTHL 701 Clinicopathologic Conference
Units: 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13 Clinicopathologic correlation of diseases of the head and neck. Presented at LAC+USC Medical Center. Instruction Mode: Lecture Grading Option: Letter

Pathology (Keck School of Medicine)

PATH 500a Basic and Applied Systemic Pathology
Units: 3 Terms Offered: Irregular Clinical, gross, and microscopic study of basic disease processes. Pathophysiology of major organ systems; etiology, pathogenesis and histopathology of important diseases; oral manifestations, clinical recognition.

PATH 500b Basic and Applied Systemic Pathology
Units: 2 Terms Offered: Irregular Clinical, gross, and microscopic study of basic disease processes. Pathophysiology of major organ systems; etiology, pathogenesis and histopathology of important diseases; oral manifestations, clinical recognition.

PATH 531 Cell Biology
Units: 4 (Enroll in INTD 531)

PATH 550 Introduction to Pathology
Units: 4 Terms Offered: Fa (Enroll in INTD 550)

PATH 551 Pathobiology of Disease
Units: 4 (Enroll in INTD 551)

PATH 553 Methods in Cellular and Clinical Pathology
Units: 3 Terms Offered: Fa Includes advanced techniques in cell biology, protein and immunochemistry. A practical approach to acquaint new graduate students with current methodologies and applications used in biomedical research. Duplicates Credit in former PATH 552a. Instruction Mode: Lecture Grading Option: Letter

PATH 554 Methods in Molecular Pathology
Units: 2 Terms Offered: Sp Theory and practice methods useful in experimental pathology; experimental design; statistical analysis; literature analysis; laboratory and radiation safety. Duplicates Credit in former PATH 552b. Instruction Mode: Lecture Grading Option: Letter

PATH 555 Biochemical and Molecular Bases of Disease
Units: 4 Terms Offered: Sp (Enroll in INTD 555)

PATH 561 Molecular Biology
Units: 4 Terms Offered: Fa (Enroll in INTD 561)

PATH 570a Seminar in Pathology
Units: 1 Terms Offered: FaSp Recent advances in the understanding of diseased cells and tissues are reported and discussed using standard seminars, as well as autopsy organ reviews. Instruction Mode: Lecture Grading Option: Letter

PATH 570b Seminar in Pathology
Units: 1 Terms Offered: FaSp Recent advances in the understanding of diseased cells and tissues are reported and discussed using standard seminars, as well as autopsy organ reviews. Instruction Mode: Lecture Grading Option: Letter

PATH 570c Seminar in Pathology
Units: 1 Terms Offered: FaSp Recent advances in the understanding of diseased cells and tissues are reported and discussed using standard seminars, as well as autopsy organ reviews. Instruction Mode: Lecture Grading Option: Letter

PATH 570d Seminar in Pathology
Units: 1 Terms Offered: FaSp Recent advances in the understanding of diseased cells and tissues are reported and discussed using standard seminars, as well as autopsy organ reviews. Instruction Mode: Lecture Grading Option: Letter

PATH 571 Biochemistry
Units: 4 Terms Offered: Fa (Enroll in INTD 571)

PATH 572 Medical Physiology I
Units: 4 Terms Offered: Fa (Enroll in INTD 572)

PATH 573 Medical Physiology II
Units: 4 Terms Offered: Sp (Enroll in INTD 573)

PATH 581 Essentials of Animal Experimentation
Units: 1 Terms Offered: Fa A course providing basic information on the issues and responsibilities of investigators using animals in biomedical research. *Recommended Preparation:* graduate standing.

PATH 590 Directed Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Terms Offered: FaSpSm Research leading to the master's degree. Maximum units which may be applied to the degree to be determined by the department. Instruction Mode: Lecture Grading Option: Credit/No Credit

PATH 594a Master's Thesis
Units: 2 Terms Offered: FaSpSm Credit on acceptance of thesis. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

PATH 594b Master's Thesis
Units: 2 Terms Offered: FaSpSm Credit on acceptance of thesis. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

PATH 594z Master's Thesis
Units: 0 Terms Offered: FaSpSm Credit on acceptance of thesis. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

PATH 599 Special Topics
Units: 2, 3, 4 Max Units: 8.0 Terms Offered: FaSp Instruction Mode: Lecture Grading Option: Letter

PATH 631 Viral Oncology
Units: 2 Terms Offered: Fa (Enroll in INTD 630)

PATH 650 Stem Cell Biology and Medicine
Units: 4 Terms Offered: Sp (Enroll in INTD 650)

PATH 790 Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Terms Offered: FaSpSm Research leading to the doctorate. Maximum units which may be applied to the degree to be determined by the department. Instruction Mode: Lecture Grading Option: Credit/No Credit

PATH 794a Doctoral Dissertation
Units: 2 Terms Offered: FaSpSm Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

PATH 794b Doctoral Dissertation
Units: 2 Terms Offered: FaSpSm Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

PATH 794c Doctoral Dissertation
Units: 2 Terms Offered: FaSpSm Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

PATH 794d Doctoral Dissertation
Units: 2 Terms Offered: FaSpSm Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

PATH 794z Doctoral Dissertation
Units: 0 Terms Offered: FaSpSm Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

Primary Care Physician Assistant

PCPA 503 Behavioral Sciences I
Units: 4 Terms Offered: Fa First of three-semester sequence in current topics in behavioral medicine, psychological and cultural factors in health and illness, interpersonal and sociological aspects of patient care, and competencies for PA practice. Instruction Mode: Lecture Grading Option: Letter

PCPA 506 Behavioral Sciences II
Units: 4 Terms Offered: Sp Second of three-semester sequence in current topics in behavioral medicine, psychological and cultural factors in health and illness, interpersonal and sociological aspects of patient care, and competencies for PA practice. *Prerequisite:* PCPA 503. Instruction Mode: Lecture Grading Option: Letter

PCPA 509 Behavioral Sciences III
Units: 4 Terms Offered: Fa Last of three-semester sequence in current topics in behavioral medicine, psychological and cultural factors in health and illness, interpersonal and sociological aspects of patient care, and competencies for PA practice. *Prerequisite:* PCPA 506. Instruction Mode: Lecture Grading Option: Letter

PCPA 523 Clinical Skills I
Units: 4 Terms Offered: Fa Laboratory experiences with basic clinical skills essential to medical practice. First of four courses. Instruction Mode: Lecture Grading Option: Letter

PCPA 526 Clinical Skills II
Units: 4 Terms Offered: Sp Designed to prepare the physician assistant to conduct a complete physical examination. *Prerequisite:* PCPA 523 Registration Restriction: Open only to students in the Physician Assistant program Instruction Mode: Lecture Grading Option: Letter

PCPA 529 Clinical Skills III
Units: 4, 6 Terms Offered: Fa Designed to prepare the physician assistant to complete a series of medical procedures. *Prerequisite:* PCPA 526 Registration Restriction: Open only to students in the Physician Assistant program Instruction Mode: Lecture Grading Option: Letter

PCPA 530 Basic Medical Sciences I
Units: 3 Terms Offered: Fa Focuses on clinical anatomy, physiology, pathophysiology, and pathology, essential to understanding disease mechanisms commonly encountered in medicine. Registration Restriction: Open only to students in the Physician Assistant program Instruction Mode: Lecture Grading Option: Letter

PCPA 532 Clinical Skills IV
Units: 3 Terms Offered: Sp Laboratory experiences with basic clinical skills essential to medical practice. Last of four courses. *Prerequisite:* PCPA 529. Instruction Mode: Lecture Grading Option: Letter

PCPA 536 PA Critical Thinking Course I
Units: 1 Terms Offered: Fa Team-based learning to prepare the physician assistant to learn and practice, applying critical thinking in clinically relevant scenarios. Registration Restriction: Open only to students in the Physician Assistant program Instruction Mode: Lecture Grading Option: Letter

PCPA 537 PA Critical Thinking Course II
Units: 1 Terms Offered: Sp Builds upon PCPA 536; team-based learning to prepare the physician assistant to learn and practice applying critical thinking in clinically relevant scenarios. *Prerequisite:* PCPA 536 Registration Restriction: Open only to students in the Physician Assistant program Instruction Mode: Lecture Grading Option: Letter

PCPA 538 PA Critical Thinking Course III
Units: 1 Terms Offered: Fa Builds upon PCPA 537; team-based learning to prepare the physician assistant learn and practice applying critical thinking in clinically relevant scenarios. *Prerequisite:* PCPA 537 Registration Restriction: Open only to students in the Physician Assistant program Instruction Mode: Lecture Grading Option: Letter

PCPA 540 Basic Medical Sciences II
Units: 3 Terms Offered: Sp Builds upon PCPA 530; focuses on clinical anatomy, physiology, pathophysiology and pathology, essential to understanding disease mechanisms commonly encountered in medicine. *Prerequisite:* PCPA 530 Registration Restriction: Open only to students in the Physician Assistant Program Instruction Mode: Lecture Grading Option: Letter

PCPA 543 Topics in Medicine I
Units: 6 Terms Offered: Fa Designed to prepare the physician assistant learn the requisite medical and pharmacologic knowledge to diagnose and treat patients. Registration Restriction: Open only to students in the Physician Assistant program Instruction Mode: Lecture Grading Option: Letter

PCPA 546 Topics in Medicine II
Units: 6 Terms Offered: Sp Basic instruction in normal/abnormal states of organ systems in the study of human disease. The second of three courses that includes instruction in pathophysiology, pharmacology, diagnostic studies, and medicine. *Prerequisite:* PCPA 543. Instruction Mode: Lecture Grading Option: Letter

PCPA 549 Topics in Medicine III
Units: 6 Terms Offered: Fa Basic instruction in normal/abnormal states of organ systems in the study of human disease. The third of three courses that includes instruction in pathophysiology, pharmacology, diagnostic studies, and medicine. *Prerequisite:* PCPA 546. Instruction Mode: Lecture Grading Option: Letter

PCPA 550 Basic Medical Sciences III
Units: 3 Terms Offered: Fa Builds upon PCPA 540; focuses on clinical anatomy, physiology, pathophysiology and pathology, essential to understanding disease mechanisms commonly encountered in medicine. *Prerequisite:* PCPA 540 Registration Restriction: Open only to students in the Physician Assistant program Instruction Mode: Lecture Grading Option: Letter

PCPA 561 Clinical Assignment I
Units: 3.5 Terms Offered: FaSpSm One discrete consecutive five-day-a-week intensive field placement under a program-approved supervising preceptor in a program-approved clinical setting. Instruction Mode: Lecture Grading Option: Credit/No Credit

PCPA 562 Clinical Assignment II
Units: 3.5 Terms Offered: FaSpSm One discrete consecutive five-day-a-week intensive field placement under a program-approved supervising preceptor in a program-approved clinical setting. Instruction Mode: Lecture Grading Option: Credit/No Credit

PCPA 563 Clinical Assignment III
Units: 3.5 Terms Offered: FaSpSm One discrete consecutive five-day-a-week intensive field placement under a program-approved supervising preceptor in a program-approved clinical setting. Instruction Mode: Lecture Grading Option: Credit/No Credit

PCPA 564a Clinical Assignment IV
Units: 3.5 Terms Offered: FaSpSm One discrete consecutive five-day-a-week intensive field placement under a program-approved supervising preceptor in a program-approved clinical setting. Instruction Mode: Lecture Grading Option: Credit/No Credit

PCPA 564b Clinical Assignment IV
Units: 0 Terms Offered: FaSpSm One discrete consecutive five-day-a-week intensive field placement under a program-approved supervising preceptor in a program-approved clinical setting. Instruction Mode: Lecture Grading Option: Credit/No Credit

PCPA 565a Clinical Assignment V
Units: 3.5 Terms Offered: FaSpSm One discrete consecutive five-day-a-week intensive field placement under a

program-approved supervising preceptor in a program-approved clinical setting. Instruction Mode: Lecture Grading Option: Credit/No Credit

PCPA 565b Clinical Assignment V
Units: 0 Terms Offered: FaSpSm One discrete consecutive five-day-a-week intensive field placement under a program-approved supervising preceptor in a program-approved clinical setting. Instruction Mode: Lecture Grading Option: Credit/No Credit

PCPA 566 Clinical Assignment VI
Units: 3.5 Terms Offered: FaSpSm One discrete consecutive five-day-a-week intensive field placement under a program-approved supervising preceptor in a program-approved clinical setting. Instruction Mode: Lecture Grading Option: Credit/No Credit

PCPA 567 Clinical Assignment VII
Units: 3.5 Terms Offered: FaSpSm One discrete consecutive five-day-a-week intensive field placement under a program-approved supervising preceptor in a program-approved clinical setting. Instruction Mode: Lecture Grading Option: Credit/No Credit

PCPA 568 Clinical Assignment VIII
Units: 3.5 Terms Offered: FaSpSm One discrete consecutive five-day-a-week intensive field placement under a program-approved supervising preceptor in a program-approved clinical setting. Instruction Mode: Lecture Grading Option: Credit/No Credit

PCPA 583 Advanced Topics in PA Studies: Education
Units: 4 Terms Offered: Sp Seminar format: students explore educational theories and methods used by PAs in a variety of settings, including clinical practice, classroom and community. Instruction Mode: Lecture Grading Option: Letter

PCPA 586 Advanced Topics in PA Studies: Research
Units: 4 Terms Offered: Sp Seminar format: students receive an integrated experience in research methods including methodology, data collection, analysis and evaluation. Instruction Mode: Lecture Grading Option: Letter

PCPA 589 Advanced Topics in PA Studies: Medical Care Organization
Units: 4 Terms Offered: Sp Seminar format: students will explore current topics in medical care organization and physician assistant practice including administration, financing, changing organizational settings, and workforce issues. Instruction Mode: Lecture Grading Option: Letter

Pediatric Dentistry

PEDO 310 Principles of Dentistry for Children
Units: 1 Role of the dental hygienist in dental care for the child patient. Principles of pediatric dentistry as related to education of the child patient and the parent. Instruction Mode: Lecture Grading Option: Letter

PEDO 501 Clinical Pediatric Dentistry
Units: 1 Scientific principles underlying contemporary pediatric dentistry, including prevention of disease; dental anomalies; habits and other problems in occlusal development; behavior management; child abuse. Instruction Mode: Lecture Grading Option: Letter

PEDO 521 Preclinical Pediatric Dentistry
Units: 2 Principles and techniques of cavity preparations in primary teeth; pulpal therapy; stainless steel crowns; space maintenance; diagnosis, treatment planning. Instruction Mode: Lecture Grading Option: Letter

PEDO 551a Clinic: Dentistry for Children I
Units: 0 Structured clinical experience in caring for the dental needs of the child patient. Includes special case seminars. Instruction Mode: Lecture Grading Option: In-progress to Letter Grade

PEDO 551b Clinic: Dentistry for Children I
Units: 0 Structured clinical experience in caring for the dental needs of the child patient. Includes special case seminars. Instruction Mode: Lecture Grading Option: In-progress to Letter Grade

PEDO 551c Clinic: Dentistry for Children I
Units: 2 Structured clinical experience in caring for the dental needs of the child patient. Includes special case seminars. Instruction Mode: Lecture Grading Option: Letter

PEDO 561a Clinic: Dentistry for Children II
Units: 0 Dental treatment of the child patient; preventive and restorative dentistry; space maintenance and interceptive orthodontic procedures. Instruction Mode: Lecture Grading Option: In-progress to Letter Grade

PEDO 561b Clinic: Dentistry for Children II
Units: 0 Dental treatment of the child patient; preventive and restorative dentistry; space maintenance and interceptive orthodontic procedures. Instruction Mode: Lecture Grading Option: In-progress to Letter Grade

PEDO 561c Clinic: Dentistry for Children II
Units: 1 Dental treatment of the child patient; preventive and restorative dentistry; space maintenance and interceptive orthodontic procedures. Instruction Mode: Lecture Grading Option: Letter

PEDO 701a Seminar: Advanced Pediatric Dentistry
Units: 8, 9, 10, 11, 12, 13, 14, 15 each Terms Offered: FaSpSm Discussions of literature related to pediatric dentistry. Biologic considerations in operative dentistry, odontogenesis, dental trauma, physiology of occlusion, pulpal biology. Instruction Mode: Lecture Grading Option: Credit/No Credit

PEDO 701b Seminar: Advanced Pediatric Dentistry
Units: 8, 9, 10, 11, 12, 13, 14, 15 each Terms Offered: FaSpSm Discussions of literature related to pediatric dentistry. Biologic considerations in operative dentistry, odontogenesis, dental trauma, physiology of occlusion, pulpal biology. Instruction Mode: Lecture Grading Option: Credit/No Credit

PEDO 702a Comprehensive Review of Pediatric Dentistry
Units: 5, 6, 7 each Terms Offered: FaSpSm Critical analysis of current pediatric dentistry literature and case conferences related to the application of contemporary issues in dentistry for the complex child patient. Instruction Mode: Lecture Grading Option: Letter

PEDO 702b Comprehensive Review of Pediatric Dentistry
Units: 5, 6, 7 each Terms Offered: FaSpSm Critical analysis of current pediatric dentistry literature and case conferences related to the application of contemporary issues in dentistry for the complex child patient. Instruction Mode: Lecture Grading Option: Letter

PEDO 703a Interceptive Orthodontics
Units: 2, 3, 4, 5 each Recognition, evaluation, and treatment of developing orthodontic problems appropriate to the pediatric dentist; emphasis on diagnosis; laboratory experience included. Instruction Mode: Lecture, Lab Grading Option: Letter

PEDO 703b Interceptive Orthodontics
Units: 2, 3, 4, 5 each Recognition, evaluation, and treatment of developing orthodontic problems appropriate to the pediatric dentist; emphasis on diagnosis; laboratory experience included. Instruction Mode: Lecture, Lab Grading Option: Letter

PEDO 703c Interceptive Orthodontics
Units: 2, 3, 4, 5 each Recognition, evaluation, and treatment of developing orthodontic problems appropriate to the pediatric dentist; emphasis on diagnosis; laboratory experience included. Instruction Mode: Lecture, Lab Grading Option: Letter

PEDO 703d Interceptive Orthodontics
Units: 2, 3, 4, 5 each Recognition, evaluation, and treatment of developing orthodontic problems appropriate to the pediatric dentist; emphasis on diagnosis; laboratory experience included. Instruction Mode: Lecture, Lab Grading Option: Letter

PEDO 703e Interceptive Orthodontics
Units: 2, 3, 4, 5 each Recognition, evaluation, and treatment of developing orthodontic problems appropriate to the pediatric dentist; emphasis on diagnosis; laboratory experience included. Instruction Mode: Lecture, Lab Grading Option: Letter

PEDO 704a Prevention in Pediatric Dentistry
Units: 2 Discussions and readings pertaining to the analysis and incorporation of the many components of prevention into the contemporary pediatric dentistry practice. Instruction Mode: Lecture Grading Option: Credit/No Credit

PEDO 704b Prevention in Pediatric Dentistry
Units: 2 Discussions and readings pertaining to the analysis and incorporation of the many components of prevention into the contemporary pediatric dentistry practice. Instruction Mode: Lecture Grading Option: Credit/No Credit

PEDO 705 Pediatric Diseases
Units: 2 Discussion of medical conditions seen by the pediatric dentist in the hospital environment. Conditions include childhood cancer, HIV, heart disease, diabetes mellitus and blood dyscrasias. Instruction

Mode: Lecture Grading Option: Credit/No Credit

PEDO 706 Dental Care for Pediatric Patients with Disabilities
Units: 2 Medical, dental, psychological, and social problems of children with developmental disabilities; effect of problems on delivery of pediatric dentistry. Instruction Mode: Lecture Grading Option: Credit/No Credit

PEDO 707 Seminar: Cleft Palate Rehabilitation
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9 Three trimester course discussions and case conferences related to treatment of patients with oral and facial anomalies: includes interceptive and corrective orthodontics, preventive and restorative treatment, and selected oral surgery-prosthetic rehabilitative procedures. Instruction Mode: Lecture Grading Option: Letter

PEDO 708 Practice Management
Units: 1 Terms Offered: FaSpSm Discussion of issues related to the contemporary practice of pediatric dentistry (seminars and office visitations). Topics include: purchasing a practice, associateships, hospital affiliations, practice administration and marketing, computers, jurisprudence and auxiliary utilization. Instruction Mode: Lecture Grading Option: Credit/No Credit

PEDO 709 Conscious Sedation in Pediatric Dentistry
Units: 1 Terms Offered: Sm Seminar topics include: review of pharmacology and effectiveness of commonly used oral agents, methods of administration, regulatory guidelines, patient monitoring, management of sedation related emergencies. Instruction Mode: Lecture Grading Option: Credit/No Credit

PEDO 721 Pediatric Physical Evaluation
Units: 2 Assessment of patient health status; evaluation and management of acute and chronic disease states which may be observed in the pediatric dental practice. Instruction Mode: Lecture Grading Option: Letter

PEDO 761a Clinic: Advanced Pediatric Dentistry
Units: 2, 3, 4, 5, 6, 7, 8, 9, 10 each Terms Offered: FaSpSm Clinical application of advanced pediatric dentistry techniques in routine and special problem cases in the outpatient environment. Hours vary. Instruction Mode: Lecture Grading Option: Credit/No Credit

PEDO 761b Clinic: Advanced Pediatric Dentistry
Units: 2, 3, 4, 5, 6, 7, 8, 9, 10 each Terms Offered: FaSpSm Clinical application of advanced pediatric dentistry techniques in routine and special problem cases in the outpatient environment. Hours vary. Instruction Mode: Lecture Grading Option: Credit/No Credit

PEDO 761c Clinic: Advanced Pediatric Dentistry
Units: 2, 3, 4, 5, 6, 7, 8, 9, 10 each Terms Offered: FaSpSm Clinical application of advanced pediatric dentistry techniques in routine and special problem cases in the outpatient environment. Hours vary. Instruction Mode: Lecture Grading Option: Credit/No Credit

PEDO 761d Clinic: Advanced Pediatric Dentistry
Units: 2, 3, 4, 5, 6, 7, 8, 9, 10 each Terms Offered: FaSpSm Clinical application of advanced pediatric dentistry techniques in routine and special problem cases in the outpatient environment. Hours vary. Instruction Mode: Lecture Grading Option: Credit/No Credit

PEDO 761e Clinic: Advanced Pediatric Dentistry
Units: 2, 3, 4, 5, 6, 7, 8, 9, 10 each Terms Offered: FaSpSm Clinical application of advanced pediatric dentistry techniques in routine and special problem cases in the outpatient environment. Hours vary. Instruction Mode: Lecture Grading Option: Credit/No Credit

PEDO 771a Clinic: Hospital Pediatric Dentistry
Units: 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15 each Terms Offered: FaSpSm Treatment of the child patient in the hospital environment. Emphasis placed on treatment and management with physical, mental, or emotional disabilities. Instruction Mode: Lecture Grading Option: Letter

PEDO 771b Clinic: Hospital Pediatric Dentistry
Units: 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15 each Terms Offered: FaSpSm Treatment of the child patient in the hospital environment. Emphasis placed on treatment and management with physical, mental, or emotional disabilities. Instruction Mode: Lecture Grading Option: Letter

PEDO 771c Clinic: Hospital Pediatric Dentistry
Units: 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15 each Terms Offered: FaSpSm Treatment of the child patient in the hospital environment. Emphasis placed on treatment and management with physical, mental, or emotional disabilities. Instruction Mode: Lecture Grading Option: Letter

PEDO 771d Clinic: Hospital Pediatric Dentistry
Units: 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15 each Terms Offered: FaSpSm Treatment of the child patient in the hospital environment. Emphasis placed on treatment and management with physical, mental, or emotional disabilities. Instruction Mode: Lecture Grading Option: Letter

PEDO 771e Clinic: Hospital Pediatric Dentistry
Units: 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15 each Terms Offered: FaSpSm Treatment of the child patient in the hospital environment. Emphasis placed on treatment and management with physical, mental, or emotional disabilities. Instruction Mode: Lecture Grading Option: Letter

PEDO 771f Clinic: Hospital Pediatric Dentistry
Units: 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15 each Terms Offered: FaSpSm Treatment of the child patient in the hospital environment. Emphasis placed on treatment and management with physical, mental, or emotional disabilities. Instruction Mode: Lecture Grading Option: Letter

PEDO 772a Clinic: Interceptive Orthodontics
Units: 1, 2, 3 each Clinical application and treatment procedures for tooth guidance, preventative and interceptive orthodontics. Instruction Mode: Lecture Grading Option: Letter

PEDO 772b Clinic: Interceptive Orthodontics
Units: 1, 2, 3 each Clinical application and treatment procedures for tooth guidance, preventative and interceptive orthodontics. Instruction Mode: Lecture Grading Option: Letter

PEDO 772c Clinic: Interceptive Orthodontics
Units: 1, 2, 3 each Clinical application and treatment procedures for tooth guidance, preventative and interceptive orthodontics. Instruction Mode: Lecture Grading Option: Letter

PEDO 772d Clinic: Interceptive Orthodontics
Units: 1, 2, 3 each Clinical application and treatment procedures for tooth guidance, preventative and interceptive orthodontics. Instruction Mode: Lecture Grading Option: Letter

PEDO 772e Clinic: Interceptive Orthodontics
Units: 1, 2, 3 each Clinical application and treatment procedures for tooth guidance, preventative and interceptive orthodontics. Instruction Mode: Lecture Grading Option: Letter

PEDO 773 Hospital Pediatric Clinics
Units: 2, 3, 4 Observation and participation in affiliated hospital clinics: anesthesiology, hematology, and genetic clinics; grand pediatric rounds and other conferences. Instruction Mode: Lecture Grading Option: Letter

PEDO 774 Clinical Genetics in Pediatric Dentistry
Units: 9 Genetic principles of oral, facial and cranial malformations; technique and theory of clinical genetics, differential diagnosis and treatment of disorders of the craniofacial complex. Instruction Mode: Lecture, Discussion, Lab Grading Option: Letter

PEDO 790a Directed Research: Pediatric Dentistry
Units: 1, 2, 3, 4, 5, 6 each An examination and analysis of clinical and laboratory problems in dentistry for children leading to completion of an original research project. Instruction Mode: Lecture Grading Option: Credit/No Credit

PEDO 790b Directed Research: Pediatric Dentistry
Units: 1, 2, 3, 4, 5, 6 each An examination and analysis of clinical and laboratory problems in dentistry for children leading to completion of an original research project. Instruction Mode: Lecture Grading Option: Credit/No Credit

Periodontics

PERI 310a Introduction to Periodontal Diseases
Units: 1 Terms Offered: FaSp Introduction to periodontal disease; emphasis on identification of normal periodontium, distinguishing of gingival and periodontal diseases; includes data collection and classification of gingival and periodontal diseases. Instruction Mode: Lecture Grading Option: Letter

PERI 310b Introduction to Periodontal Diseases
Units: 1 Terms Offered: FaSp Introduction to periodontal disease; emphasis on identification of normal periodontium, distinguishing of gingival and periodontal diseases; includes data collection and classification of gingival and periodontal diseases. Instruction Mode: Lecture Grading Option: Letter

PERI 415 Basic Periodontal Therapy
Units: 1 Basic therapeutic modalities of periodontal treatment; general principles and methods of surgical periodontal treatment. Instruction Mode: Lecture Grading Option: Letter

PERI 502 Periodontal Diseases and Elements of Therapeutic Judgment
Units: 2 Periodontal pathologic processes; pathogenesis, classification and clinical features of gingivitis; periodontitis; other related diseases of periodontium including diagnosis and initial phases of treatment. Instruction Mode: Lecture Grading Option: Letter

PERI 504 Advanced Periodontics
Units: 1 Periodontics as related to endodontics, orthodontics, and restorative dentistry; bone induction, osseous grafting, splinting, management of furcation lesions; maintenance, recall, and referral. Instruction Mode: Lecture Grading Option: Letter

PERI 521 Periodontal Surgery
Units: 2 General principles and methods of surgical periodontal treatment; includes laboratory exercises. Instruction Mode: Lecture Grading Option: Letter

PERI 550a Clinic: Introductory Periodontal Therapy
Units: 1 Laboratory and clinical development of periodontal therapy procedures; basic instrumentation principles. Instruction Mode: Lecture Grading Option: Letter

PERI 550b Clinic: Introductory Periodontal Therapy
Units: 1 Laboratory and clinical development of periodontal therapy procedures; basic instrumentation principles. Instruction Mode: Lecture Grading Option: Letter

PERI 561a Clinic: Periodontal Therapy I
Units: 0 Supervised treatment of periodontal disease at all levels of complexity. Instruction Mode: Lecture Grading Option: In-progress to Letter Grade

PERI 561b Clinic: Periodontal Therapy I
Units: 0 Supervised treatment of periodontal disease at all levels of complexity. Instruction Mode: Lecture Grading Option: In-progress to Letter Grade

PERI 561c Clinic: Periodontal Therapy I
Units: 0 Supervised treatment of periodontal disease at all levels of complexity. Instruction Mode: Lecture Grading Option: In-progress to Letter Grade

PERI 561d Clinic: Periodontal Therapy I
Units: 1 Supervised treatment of periodontal disease at all levels of complexity. Instruction Mode: Lecture Grading Option: Letter

PERI 562a Clinic: Periodontal Therapy II
Units: 0, 1, 2 Supervised treatment of periodontal disease at all levels of complexity. Instruction Mode: Lecture Grading Option: In-progress to Letter Grade

PERI 562b Clinic: Periodontal Therapy II
Units: 0, 1, 2 Supervised treatment of periodontal disease at all levels of complexity. Instruction Mode: Lecture Grading Option: Letter

PERI 602 Current Controversies in Periodontology
Units: 2 Examination of the major controversies in the field of periodontology; emphasis on the efficacy of current treatment modalities and future trends. Instruction Mode: Lecture Grading Option: Letter

PERI 701a Seminar: Review of Current Periodontal Literature
Units: 2, 3 Review and critical evaluation of the current periodontal literature. Instruction Mode: Lecture Grading Option: Letter

PERI 701b Seminar: Review of Current Periodontal Literature
Units: 2, 3 Review and critical evaluation of the current periodontal literature. Instruction Mode: Lecture Grading Option: Letter

PERI 702a Seminar: Periodontal Treatment Procedures
Units: 2 Presentation of various techniques in current periodontal treatment. Instruction Mode: Lecture Grading Option: Letter

PERI 702b Seminar: Periodontal Treatment Procedures
Units: 2 Presentation of various techniques in current periodontal treatment. Instruction Mode: Lecture Grading Option: Letter

PERI 703a Seminar: Periodontal Case Presentation
Units: 1, 2 Formalized presentation and discussion of clinical cases treated by advanced students. Instruction Mode: Lecture Grading Option: Letter

PERI 703b Seminar: Periodontal Case Presentation
Units: 1, 2 Formalized presentation and discussion of clinical cases treated by advanced students. Instruction Mode: Lecture Grading Option: Letter

PERI 704a Seminar: Periodontal Therapy
Units: 2 each Presentation and discussion of treatment of clinical cases involving soft tissue and osseous management; rationale for the therapy; surgical wound healing; dental implant surgery. Instruction Mode: Lecture Grading Option: Credit/No Credit

PERI 704b Seminar: Periodontal Therapy
Units: 2 each Presentation and discussion of treatment of clinical cases involving soft tissue and osseous management; rationale for the therapy; surgical wound healing; dental implant surgery. Instruction Mode: Lecture Grading Option: Credit/No Credit

PERI 704c Seminar: Periodontal Therapy
Units: 2 each Presentation and discussion of treatment of clinical cases involving soft tissue and osseous management; rationale for the therapy; surgical wound healing; dental implant surgery. Instruction Mode: Lecture Grading Option: Credit/No Credit

PERI 704d Seminar: Periodontal Therapy
Units: 2 each Presentation and discussion of treatment of clinical cases involving soft tissue and osseous management; rationale for the therapy; surgical wound healing; dental implant surgery. Instruction Mode: Lecture Grading Option: Credit/No Credit

PERI 704e Seminar: Periodontal Therapy
Units: 2 each Presentation and discussion of treatment of clinical cases involving soft tissue and osseous management; rationale for the therapy; surgical wound healing; dental implant surgery. Instruction Mode: Lecture Grading Option: Credit/No Credit

PERI 704f Seminar: Periodontal Therapy
Units: 2 each Presentation and discussion of treatment of clinical cases involving soft tissue and osseous management; rationale for the therapy; surgical wound healing; dental implant surgery. Instruction Mode: Lecture Grading Option: Credit/No Credit

PERI 704h Seminar: Periodontal Therapy
Units: 2 each Presentation and discussion of treatment of clinical cases involving soft tissue and osseous management; rationale for the therapy; surgical wound healing; dental implant surgery. Instruction Mode: Lecture Grading Option: Credit/No Credit

PERI 704i Seminar: Periodontal Therapy
Units: 2 each Presentation and discussion of treatment of clinical cases involving soft tissue and osseous management; rationale for the therapy; surgical wound healing; dental implant surgery. Instruction Mode: Lecture Grading Option: Credit/No Credit

PERI 704j Seminar: Periodontal Therapy
Units: 2 each Presentation and discussion of treatment of clinical cases involving soft tissue and osseous management; rationale for the therapy; surgical wound healing; dental implant surgery. Instruction Mode: Lecture Grading Option: Credit/No Credit

PERI 708 Seminar: Clinical Basis of Periodontics
Units: 4 Evaluation of the literature dealing with various types of therapy including the objectives of treatment. Instruction Mode: Lecture Grading Option: Letter

PERI 710 Clinical Periodontal Photography
Units: 1 Demonstration of techniques used in intraoral photography for periodontal purposes, emphasis on proper clinical case documentation in seminar presentation and Specialty Board Certification. Instruction Mode: Lecture Grading Option: Letter

PERI 711 Occlusal Therapy in Periodontics
Units: 2 Anatomy of the TMJ mandibular movements; occlusal anatomy and their interrelationships; methods of occlusal correction using anatomy and mandibular movements as a guide. Instruction Mode: Lecture Grading Option: Letter

PERI 713a Treatment Planning in Periodontics
Units: 2 each Presentation of clinical findings, diagnoses, and plan of treatment of clinical cases by advanced students. Instruction Mode: Lecture Grading Option: Credit/No Credit

PERI 713b Treatment Planning in Periodontics
Units: 2 each Presentation of clinical findings, diagnoses, and plan of treatment of clinical cases by advanced students. Instruction Mode: Lecture Grading Option: Credit/No Credit

PERI 713c Treatment Planning in Periodontics
Units: 2 each Presentation of clinical findings, diagnoses, and plan of treatment of clinical cases by advanced students.

Instruction Mode: Lecture Grading Option: Credit/No Credit

PERI 713d Treatment Planning in Periodontics
Units: 2 each Presentation of clinical findings, diagnoses, and plan of treatment of clinical cases by advanced students. Instruction Mode: Lecture Grading Option: Credit/No Credit

PERI 713e Treatment Planning in Periodontics
Units: 2 each Presentation of clinical findings, diagnoses, and plan of treatment of clinical cases by advanced students. Instruction Mode: Lecture Grading Option: Credit/No Credit

PERI 713f Treatment Planning in Periodontics
Units: 2 each Presentation of clinical findings, diagnoses, and plan of treatment of clinical cases by advanced students. Instruction Mode: Lecture Grading Option: Credit/No Credit

PERI 713h Treatment Planning in Periodontics
Units: 2 each Presentation of clinical findings, diagnoses, and plan of treatment of clinical cases by advanced students. Instruction Mode: Lecture Grading Option: Credit/No Credit

PERI 713i Treatment Planning in Periodontics
Units: 2 each Presentation of clinical findings, diagnoses, and plan of treatment of clinical cases by advanced students. Instruction Mode: Lecture Grading Option: Credit/No Credit

PERI 713j Treatment Planning in Periodontics
Units: 2 each Presentation of clinical findings, diagnoses, and plan of treatment of clinical cases by advanced students. Instruction Mode: Lecture Grading Option: Credit/No Credit

PERI 715 Treatment of Special Care Patients
Units: 3 Periodontal care and treatment of older population groups, handicapped patients, and other types of special patients, settings, and situations. Instruction Mode: Lecture Grading Option: Letter

PERI 716a Seminar: Special Topics in Periodontal Disease
Units: 3 Discussion of topics of immediate importance and controversy. Experts in the field are invited to participate as guest speakers. Instruction Mode: Lecture Grading Option: Letter

PERI 716b Seminar: Special Topics in Periodontal Disease
Units: 3 Discussion of topics of immediate importance and controversy. Experts in the field are invited to participate as guest speakers. Instruction Mode: Lecture Grading Option: Letter

PERI 750 Advanced Periodontal Instrumentation
Units: 3 Advanced root preparation techniques including design and manufacturing characteristics of various instruments, sharpening techniques, and root morphology as it relates to advanced instrumentation principles. Instruction Mode: Lecture Grading Option: Letter

PERI 752 Interdisciplinary Treatment: An Orthodontic Perspective
Units: 2 Effective recognition, evaluation and understanding of the orthodontic treatment phase required in interdisciplinary treatment plans; includes laboratory and clinical experience; applicable to orthodontics, periodontology, prosthodontics. Instruction Mode: Lecture Grading Option: Letter

PERI 761a Clinic: Advanced Periodontics
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10 each Clinical experience in the treatment of patients with all types and degrees of involvement of periodontal disease. Includes placement of dental implants. Instruction Mode: Lecture Grading Option: Credit/No Credit

PERI 761b Clinic: Advanced Periodontics
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10 each Clinical experience in the treatment of patients with all types and degrees of involvement of periodontal disease. Includes placement of dental implants. Instruction Mode: Lecture Grading Option: Credit/No Credit

PERI 761c Clinic: Advanced Periodontics
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10 each Clinical experience in the treatment of patients with all types and degrees of involvement of periodontal disease. Includes placement of dental implants. Instruction Mode: Lecture Grading Option: Credit/No Credit

PERI 761d Clinic: Advanced Periodontics
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10 each Clinical experience in the treatment of patients with all types and degrees of involvement of periodontal disease. Includes placement of dental implants. Instruction Mode: Lecture Grading Option: Credit/No Credit

PERI 761e Clinic: Advanced Periodontics
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10 each Clinical experience in the treatment of patients with all types and degrees of involvement of periodontal disease. Includes placement of dental implants. Instruction Mode: Lecture Grading Option: Credit/No Credit

PERI 761f Clinic: Advanced Periodontics
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10 each Clinical experience in the treatment of patients with all types and degrees of involvement of periodontal disease. Includes placement of dental implants. Instruction Mode: Lecture Grading Option: Credit/No Credit

PERI 761h Clinic: Advanced Periodontics
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10 each Clinical experience in the treatment of patients with all types and degrees of involvement of periodontal disease. Includes placement of dental implants. Instruction Mode: Lecture Grading Option: Credit/No Credit

PERI 761i Clinic: Advanced Periodontics
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10 each Clinical experience in the treatment of patients with all types and degrees of involvement of periodontal disease. Includes placement of dental implants. Instruction Mode: Lecture Grading Option: Credit/No Credit

PERI 761j Clinic: Advanced Periodontics
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10 each Clinical experience in the treatment of patients with all types and degrees of involvement of periodontal disease. Includes placement of dental implants. Instruction Mode: Lecture Grading Option: Credit/No Credit

PERI 771a Periodontal Therapy in the Hospital
Units: 1 Role of the periodontist in hospital therapy. Treatment of complex cases in the hospital environment. Instruction Mode: Lecture Grading Option: Letter

PERI 771b Periodontal Therapy in the Hospital
Units: 1 Role of the periodontist in hospital therapy. Treatment of complex cases in the hospital environment. Instruction Mode: Lecture Grading Option: Letter

PERI 790a Directed Research: Periodontics
Units: 1, 2, 3, 4, 5, 6 each Research in clinical and experimental periodontology. Instruction Mode: Lecture Grading Option: Credit/No Credit

PERI 790b Directed Research: Periodontics
Units: 1, 2, 3, 4, 5, 6 each Research in clinical and experimental periodontology. Instruction Mode: Lecture Grading Option: Credit/No Credit

Physiology and Biophysics

PHBI 524 Advanced Overview of Neurosciences
Units: 4 Terms Offered: Fa (Enroll in NSCI 524)

PHBI 531 Cell Biology
Units: 4 (Enroll in INTD 531)

PHBI 550 Seminar in Advanced Cellular, Molecular and Systemic Physiology
Units: 1 Max Units: 12.0 Terms Offered: FaSp Lectures and student presentations on advanced topics in molecular, cellular and systemic physiology. Instruction Mode: Lecture Grading Option: Credit/No Credit

PHBI 561 Molecular Biology
Units: 4 Terms Offered: Fa (Enroll in INTD 561)

PHBI 571 Biochemistry
Units: 4 Terms Offered: Fa (Enroll in INTD 571)

PHBI 572 Medical Physiology I
Units: 4 (Enroll in INTD 572)

PHBI 573 Medical Physiology II
Units: 4 (Enroll in INTD 573)

PHBI 594a Master's Thesis
Units: 2 Terms Offered: FaSpSm Credit upon acceptance of thesis. Grading Option: Graded IP/CR/NC.

PHBI 594b Master's Thesis
Units: 2 Terms Offered: FaSpSm Credit upon acceptance of thesis. Grading Option: Graded IP/CR/NC.

PHBI 594z Master's Thesis
Units: 0 Terms Offered: FaSpSm Credit upon acceptance of thesis. Grading Option: Graded IP/CR/NC.

PHBI 650 Mechanisms of Ion and Solute Transport Across Cell Membranes
Units: 2 Terms Offered: Sp Biophysical examination of the mechanisms of ion and solute transport across cell membranes;

emphasis on the structures of transport proteins and kinetic models of transport. *Recommended Preparation:* graduate level course in biochemistry, physical biochemistry, or cell biology Instruction Mode: Lecture Grading Option: Letter

PHBI 651 Molecular Modeling and Kinetic Simulations in Membrane Transport
Units: 2 Terms Offered: Sp Introduction to the principles of mathematical modeling of biological systems and molecular dynamics simulations, with emphasis on membrane transport. *Recommended Preparation:* graduate level courses in biochemistry or physical biochemistry, and cell biology Instruction Mode: Lecture Grading Option: Letter

PHBI 660 Understanding Diseases of Ion Transport
Units: 2 Terms Offered: Fa Examination of the genetics, biochemical mechanisms, and physiological characteristics of diseases caused by inherited mutations in ion channels and ion transport proteins. Instruction Mode: Lecture Grading Option: Letter

Physical Education

PHED 102a Weight Training
Units: 1 Terms Offered: FaSp Improvement of body shape, muscle endurance, and muscle strength; understanding of weight training and nutrition principles that can be utilized for future weight training development. Instruction Mode: Lecture Grading Option: Letter

PHED 102b Weight Training
Units: 1 Terms Offered: FaSp Training techniques and application of advanced weight training principles through weekly workouts; personal trainer certification exam preparation. Instruction Mode: Lecture Grading Option: Letter

PHED 104a Self-Defense
Units: 1 Terms Offered: FaSp Basic instruction of self-defense for beginners; strategies for standing and ground fighting situations with and without weapons. Instruction Mode: Lecture Grading Option: Letter

PHED 104b Self-Defense
Units: 1 Terms Offered: FaSp Intermediate instruction involving more advanced fighting strategies and techniques. Instruction Mode: Lecture Grading Option: Letter

PHED 105 Principles of Self Defense and Personal Safety
Units: 2 Terms Offered: FaSpSm Application of learned skills and strategies for identifying physical threats; increased situational awareness; understanding of when physical force may be required. Instruction Mode: Lecture Grading Option: Letter

PHED 106a Physical Conditioning
Units: 1 Terms Offered: FaSp Improvement in cardiorespiratory endurance, body composition, muscle endurance and flexibility; running, circuit training, resistance exercises; fitness principles and nutrition to develop individualized program. Instruction Mode: Lecture Grading Option: Letter

PHED 106b Physical Conditioning
Units: 1 Terms Offered: FaSp Advanced training methods focusing on continuing gains in fitness level. Instruction Mode: Lecture Grading Option: Letter

PHED 108 High Stress Physical Conditioning
Units: 1 Rigorous physical conditioning with emphasis on distance running and development of cardiovascular and upper body strength. A challenging regimen to enhance stamina and endurance. *Prerequisite:* PHED 106b or permission of instructor. Instruction Mode: Lecture Grading Option: Letter

PHED 110a Swimming
Units: 1 Terms Offered: FaSp Instruction and practice in basic strokes for beginners and intermediate swimmers; elementary springboard diving; water safety techniques; endurance training as a fitness program. Instruction Mode: Lecture Grading Option: Letter

PHED 110b Swimming
Units: 1 Terms Offered: FaSp Advanced instruction and practice of strokes; advanced endurance training. Instruction Mode: Lecture Grading Option: Letter

PHED 114 Lifesaving
Units: 1 American Red Cross Senior Lifesaving. *Prerequisite:* PHED 110a, PHED 110b or ability to pass Skills Test II. Instruction Mode: Lecture Grading Option: Credit/No Credit

PHED 115 Surfing
Units: 1 Terms Offered: FaSpSm Fundamental instruction of surfing skills; water safety and wave etiquette; wave recognition and forecast interpretation; surf culture; board selection; surf related strengthening and conditioning. *Recommended Preparation:* Students will need to pass a swim test BEFORE being allowed to participate in the course. Swim test includes the following: continuous 150 yard swim in under 3 minutes; treading water for 10 minutes; surface dive with brick retrieval; and a 25 yard under water swim. Instruction Mode: Lecture Grading Option: Letter

PHED 118 Sleep for Peak Performance
Units: 2 Terms Offered: FaSpSm Introduction to sleep as it relates to physical and mental performance; breathing and meditation modalities to support healthy sleep; study of sleep systems, disorders, strategies. Instruction Mode: Lecture Grading Option: Letter

PHED 119 Introduction to Mindfulness
Units: 2 Terms Offered: FaSpSm Introduction to the principles of mindfulness; application of learned techniques to enhance mind body awareness; cultivate strategies to improve physical and mental health. Instruction Mode: Lecture Grading Option: Letter

PHED 120a Yoga
Units: 1 Terms Offered: FaSp Introduction to meditation, breathing techniques and postures as a means towards relaxation; increase muscle flexibility; understanding of basic anatomy and nutritional guidelines. Duplicates Credit in former PHED 120. Instruction Mode: Lecture Grading Option: Letter

PHED 120b Yoga
Units: 1 Terms Offered: FaSp A continuing study of intermediate and advanced yoga postures, breathing techniques and meditation as a means toward relaxation and stress-reduction. Instruction Mode: Lecture Grading Option: Letter

PHED 120c Yoga
Units: 1 Terms Offered: FaSpSm In-depth study of hatha yoga and its history; includes advanced asanas and meditation as a means toward overall health and wellness. *Prerequisite:* PHED 120b Instruction Mode: Lecture Grading Option: Letter

PHED 121 Yoga for Athletic Performance
Units: 1 Terms Offered: FaSpSm Skills and strategies for injury prevention and recovery from athletic training; application of yoga principles to improve posture, strength, flexibility, core stability and concentration. Instruction Mode: Lecture Grading Option: Letter

PHED 122 Kundalini Yoga and Meditation
Units: 1 Terms Offered: FaSp Ancient yoga practice combining postures, meditation, breathing, mantras and focus techniques; designed to improve mind body awareness, balance, strength, flexibility, techniques and nervous system function. Instruction Mode: Lecture Grading Option: Letter

PHED 123 Yoga Therapy
Units: 2 Terms Offered: FaSpSm Holistic discipline combining traditional yoga techniques with a modern medicine approach to treating a variety of health conditions; includes physical, mental and breathing practice. Instruction Mode: Lecture Grading Option: Letter

PHED 124 Walking for Fitness
Units: 1 Terms Offered: FaSp Develop a strong fitness foundation through walking; fitness assessment and individualized programs; gait biomechanics and power walking; injury prevention; strategies for special populations. Instruction Mode: Lecture Grading Option: Letter

PHED 125 Restorative Yoga
Units: 1 Terms Offered: FaSpSm Introduction to yoga principles for relaxation and rejuvenation of the body and mind; application of specific yoga poses, breathing methods and restorative techniques. Instruction Mode: Lecture Grading Option: Letter

PHED 126 AcroYoga
Units: 1 Terms Offered: FaSpSm Teamwork building fitness course combining mindfulness and yoga with the dynamic movement of acrobatics; strength, balance and mind body awareness; stretching, spotting and counter balancing. Instruction Mode: Lecture Grading Option: Letter

PHED 127 Principles of Traditional Yoga Through Community Outreach
Units: 2 Terms Offered: FaSpSm Introduction and reinforcement of yoga postures, breathing techniques and meditation; sharing yoga principles and benefits with grade schools; teaching and community service opportunity. Instruction Mode: Lecture Grading Option: Letter

PHED 129a Cardio Group Fitness
Units: 1 Terms Offered: FaSpSm Group fitness instruction incorporating a variety of training methods such as cycling, HITT (high intensity interval training), step, circuits; nutritional guidelines. Instruction Mode: Lecture Grading Option: Letter

PHED 129b Cardio Group Fitness
Units: 1 Terms Offered: FaSpSm Group exercise teaching techniques and application of fitness principles through weekly workouts; group fitness certification exam preparation. *Prerequisite:* PHED 129a Instruction Mode: Lecture Grading Option: Letter

PHED 131 Step Aerobics
Units: 1 Terms Offered: FaSp Development of physical fitness components through step aerobics; total body workout utilizing step movements and body sculpting exercises. Instruction Mode: Lecture Grading Option: Letter

PHED 133 Rock Climbing
Units: 1 Terms Offered: FaSp Acquisition of basic rock climbing skills, muscle strength, endurance and balance, climbing safety, ethics and environmental considerations; understanding equipment, problem solving. Instruction Mode: Lecture Grading Option: Letter

PHED 134 Hiking
Units: 1 Terms Offered: FaSpSm Introduction to hiking; specific conditioning to develop muscle strength and endurance; equipment; various terrain, weather conditions, safety; environmental impact and trail etiquette. Instruction Mode: Lecture Grading Option: Letter

PHED 135 Backpacking
Units: 1 Terms Offered: FaSpSm Acquisition of backpacking knowledge and skills; conditioning plan; nutrition and equipment selection; ethics and environmental considerations; navigation, safety and wilderness first aid; trip planning. *Recommended Preparation:* Students must be able to carry a weighted backpack through varied terrain for extended periods of time. Students must pass a fitness test given on the first day to be eligible Instruction Mode: Lecture Grading Option: Letter

PHED 138 Beach Volleyball
Units: 1 Terms Offered: FaSpSm Fundamental instruction of skills and tactics specific to sand volleyball and related physical conditioning; rules and strategies; history and culture. Instruction Mode: Lecture Grading Option: Letter

PHED 139a Volleyball
Units: 1 Terms Offered: FaSp Introduction to beginning and intermediate volleyball skills, rules, game tactics, and strategies. Emphasis on the development of: passing, setting, hitting, serving, blocking, and digging. Instruction Mode: Lecture Grading Option: Letter

PHED 139b Volleyball
Units: 1 Terms Offered: FaSp Advanced techniques; focus on offenses and defenses used in game situations. Instruction Mode: Lecture Grading Option: Letter

PHED 140a Tennis
Units: 1 Terms Offered: FaSp Fundamental instruction of basic strokes for beginners and intermediate players; rules, scoring, court etiquette, strategies; singles and doubles; practice and match play. Instruction Mode: Lecture Grading Option: Letter

PHED 140b Tennis
Units: 1 Terms Offered: FaSp Reinforcement of basic strokes and instruction of advanced strokes; advanced strategies; singles and doubles; practice and match play. Instruction Mode: Lecture Grading Option: Letter

PHED 140c Tennis
Units: 1 Terms Offered: FaSp Development of strokes and strategies for advanced tournament players; drills and matches. Instruction Mode: Lecture Grading Option: Letter

PHED 143a Racquetball
Units: 1 Terms Offered: FaSp Instruction of basic stroke technique for beginners and intermediate players; rules, scoring, game tactics; practice of strokes and competition. Instruction Mode: Lecture Grading Option: Letter

PHED 143b Racquetball
Units: 1 Terms Offered: FaSp Development of advanced skills and strategies; singles and doubles practice and competition. Instruction Mode: Lecture Grading Option: Letter

PHED 145 Team Handball
Units: 1 Terms Offered: FaSpSm Instruction and practice of serving, ceiling shots, lobs, three wall shots and passing; rules, offensive and defensive strategies; sport specific conditioning; fundamental drills and games. Instruction Mode: Lecture Grading Option: Letter

PHED 148a Archery
Units: 1 Terms Offered: FaSpSm Fundamental instruction of archery technique for beginners and intermediates; historical origins; form; the shot cycle; mindfulness; scoring; equipment; sport specific training. Duplicates Credit in former PHED 148a Instruction Mode: Lecture Grading Option: Letter

PHED 148b Archery
Units: 1 Terms Offered: FaSpSm Continuing study of archery fundamentals focusing on the bio mechanics and mindfulness of the shot process; training methods and competition; setup and tuning. *Prerequisite:* PHED 148a Duplicates Credit in former PHED 148 Instruction Mode: Lecture Grading Option: Letter

PHED 150a Table Tennis
Units: 1 Terms Offered: FaSpSm Fundamental instruction of basic strokes for beginning and intermediate players; rules, scoring strategies; singles and doubles; practices and match play. Duplicates Credit in former PHED 150 Instruction Mode: Lecture Grading Option: Letter

PHED 150b Table Tennis
Units: 1 Terms Offered: FaSpSm Reinforcement of basic strokes for experienced players; development of advanced strokes including serves, use of spin, counter hits, footwork; drills and match play. *Prerequisite:* PHED 150a Duplicates Credit in former PHED 150 Instruction Mode: Lecture Grading Option: Letter

PHED 151a Badminton
Units: 1 Terms Offered: FaSpSm Fundamental instruction of basic strokes for beginners and intermediate players; rules, scoring, strategies; footwork and court positioning; practical drills and games. Instruction Mode: Lecture Grading Option: Letter

PHED 151b Badminton
Units: 1 Terms Offered: FaSpSm Fundamental instruction of basic strokes for beginners and intermediate players; rules, scoring, strategies; footwork and court positioning; practical drills and games. *Prerequisite:* PHED 151a Instruction Mode: Lecture Grading Option: Letter

PHED 152 Beach Soccer
Units: 1 Terms Offered: FaSpSm Fundamental instruction of skills and team tactics specific to beach soccer; sport specific conditioning, drills and games; rules and strategies; history and culture. Instruction Mode: Lecture Grading Option: Letter

PHED 153 Futsal
Units: 1 Terms Offered: FaSpSm Fundamental instruction of skills and tactics specific to Futsal; rules; strategies; elements of play that differ from soccer; conditioning, drills, and games. Instruction Mode: Lecture Grading Option: Letter

PHED 154a Soccer
Units: 1 Terms Offered: FaSp Development of basic skills for beginners, intermediate and advanced players; rules, positioning elements of play, small group and team tactics; full field scrimmages. Instruction Mode: Lecture Grading Option: Letter

PHED 154b Soccer
Units: 1 Terms Offered: FaSp Advanced development of skills, positioning, tactics and conditioning. Instruction Mode: Lecture Grading Option: Letter

PHED 155a Golf
Units: 1 Terms Offered: FaSpSm Basic skills development and knowledge in stance, grip and swing mechanics; course strategy; use of woods, irons and putting; history rules and etiquette. Duplicates Credit in PHED 155 Instruction Mode: Lecture Grading Option: Letter

PHED 155b Golf
Units: 1 Terms Offered: FaSpSm Development and reinforcement of swing mechanics, shot selection, etiquette and rules; application of course strategies on golf course and driving range. *Prerequisite:* PHED 155a Instruction Mode: Lecture Grading Option: Letter

PHED 156a Basketball
Units: 1 Terms Offered: FaSp Basic skill development in dribbling, passing, shooting, rebounding and defense; rules, history, and etiquette; drills and full court games. Instruction Mode: Lecture Grading Option: Letter

PHED 156b Basketball
Units: 1 Terms Offered: FaSp Development of advanced skills; team strategy; offenses and zone defenses; drills and full court games. Instruction Mode: Lecture Grading Option: Letter

PHED 160 Stress Management for Healthy Living
Units: 2 Terms Offered: FaSp Instruction on the effects of stress as it relates to work, sport and academics; coping strategies are discussed and applied through physical conditioning interventions. Instruction Mode: Lecture Grading Option: Letter

PHED 161 First Aid
Units: 1 First Aid safety education and infant, child, and adult CPR; demonstrated proficiency and successful completion of exam prepares students for Red Cross certification. Duplicates Credit in former

PHED 171. Instruction Mode: Lecture Grading Option: Letter

PHED 162 Principles of Athletic Coaching
Units: 2 Terms Offered: FaSpSm Introduction to coaching strategies; team management; philosophy; ethics; leadership. Methodologies in sport specific training; skill progression; conditioning; athlete motivation; budgeting; fundraising. Instruction Mode: Lecture Grading Option: Letter

PHED 163 Health Coaching
Units: 3 Terms Offered: FaSpSm Skills and strategies of coaching principles promoting healthy lifestyle change. Motivational communication techniques; goal setting; designing safe, effective exercise program; health coach certification exam preparation. Instruction Mode: Lecture Grading Option: Letter

PHED 165 Varsity Athletics
Units: 1 Max Units: 4.0 Participation in the university's inter-collegiate programs as sanctioned and governed by the PAC-10 Conference and/or the NCAA. Instruction Mode: Lecture Grading Option: Credit/No Credit

PHED 499 Special Topics
Units: 1, 2, 3, 4, 5, 6, 7, 8 Max Units: 08 Terms Offered: Sp Selected topics in Physical Education, including mindfulness and stress management, offered in a variety of settings. Instruction Mode: Lecture Grading Option: Letter

Philosophy

PHIL 100g Central Problems of Philosophy
Units: 4 Explores questions about human beings and their place in nature, including questions about knowledge, mind and body, freedom and determinism, and the existence of God. Satisfies New General Education in Category B: Humanistic Inquiry Instruction Mode: Lecture, discussion Grading Option: Letter

PHIL 101 Free People, Free Thought and Free Markets
Units: 4 Terms Offered: FaSpSm The philosophical foundations of modern political and economic thought, including economic rationality, neoclassical economics, free-market vs. socialist economies and behavioral economics. Instruction Mode: Lecture, Discussion Grading Option: Letter Crosslisted as ECON 101

PHIL 102gp Historical Introduction to Philosophy
Units: 4 Introduction to the central philosophical works that have shaped western thought. Includes ancient, early modern and contemporary writings. Satisfies New General Education in Category B: Humanistic Inquiry Satisfies Global Perspective in Category H: Traditions and Historical Foundations Instruction Mode: Lecture, Discussion Grading Option: Letter

PHIL 103g Philosophy, Politics and Economics in Europe, from Renaissance to Enlightenment
Units: 4 Introduction to the central ideas of philosophy, science, politics and economics in western European history between 1450 and 1800. Satisfies New General Education in Category B: Humanistic Inquiry Instruction Mode: Lecture, Discussion Grading Option: Letter

PHIL 104g Ancient Foundations of Western Thought
Units: 4 Explores writings of ancient philosophers who first raised, and continue to influence our thinking about, fundamental questions concerning nature, knowledge, justice, happiness, and death. Satisfies New General Education in Category B: Humanistic Inquiry Duplicates Credit in PHIL 115. Instruction Mode: Lecture, Discussion Grading Option: Letter

PHIL 110g Modern Foundations of Western Thought
Units: 4 Explores the writings of philosophers, from Descartes to Kant, who responded to, and helped to shape, the scientific and political upheavals of the modern period. Satisfies New General Education in Category B: Humanistic Inquiry Satisfies Old General Education in Category I: Western Cultures and Traditions Duplicates Credit in former PHIL 101 Instruction Mode: Lecture, Discussion Grading Option: Letter

PHIL 115g Ancient Greek Culture and Society
Units: 4 Focus on the literary achievement from the beginning of Greek literature to the fourth century with a special emphasis on the philosophers. Satisfies Old General Education in Category I: Western Cultures and Traditions Instruction Mode: Lecture, Discussion Grading Option: Letter

PHIL 120g Introduction to Formal Logic
Units: 4 Introduces formal tools for distinguishing between good and bad arguments or inferences. Covers both propositional logic and predicate logic. Satisfies New General Education in F Quantitative Reasoning Duplicates Credit in former PHIL 250ab Instruction Mode: Lecture, Discussion Grading Option: Letter

PHIL 122a Reasoning and Argument
Units: 2 Terms Offered: FaSp Techniques for constructing good arguments and for assessing and criticizing the arguments of others. Duplicates Credit in former PHIL 250ab. Instruction Mode: Lecture Grading Option: Letter

PHIL 122b Reasoning and Argument
Units: 2 Terms Offered: FaSp Techniques for constructing good arguments and for assessing and criticizing the arguments of others. Duplicates Credit in former PHIL 250ab. Instruction Mode: Lecture Grading Option: Letter

PHIL 130g The Physical World and Our Place In It
Units: 4 Exploration of basic questions about the nature of reality. Topics may include personal identity, freedom and determinism, causation and laws of nature. Satisfies New General Education in Category B: Humanistic Inquiry Instruction Mode: Lecture, Discussion Grading Option: Letter

PHIL 138g Introduction to the Philosophy of Religion
Units: 4 Explores arguments for and against the existence of God, as well as questions about the nature and rationality of faith. Satisfies New General Education in Category B: Humanistic Inquiry Instruction Mode: Lecture, Discussion Grading Option: Letter

PHIL 141gp The Professions and the Public Interest in American Life
Units: 4 The study of the nature and role of professionals in life and society, forces that shape and direct them, foundations and applications of professional ethics. Satisfies New General Education in Category B: Humanistic Inquiry Satisfies Global Perspective in Category H: Traditions and Historical Foundations Satisfies Old General Education in Category VI: Social Issues Instruction Mode: Lecture Grading Option: Letter

PHIL 166gw Current Moral and Social Issues
Units: 4 Terms Offered: FaSp Critical study of controversial social issues such as abortion, euthanasia, the death penalty, war and terrorism, sexual morality, affirmative action and economic justice. Satisfies New General Education in Category B: Humanistic Inquiry Satisfies Global Perspective in Category G: Citizenship in a Diverse World Satisfies Old General Education in Category V: Arts and Letters Duplicates Credit in former PHIL 140g Instruction Mode: Lecture, Discussion Grading Option: Letter

PHIL 168g The Meaning of Life
Units: 4 Explores philosophical treatments of the problem of the meaning or purpose of human life. Satisfies New General Education in B Humanistic Inquiry Duplicates Credit in former PHIL 155 Instruction Mode: Lecture, Discussion Grading Option: Letter

PHIL 172gmw Social Ethics for Earthlings and Others
Units: 4 Terms Offered: FaSp A systematic study of contemporary issues in social and political philosophy engaging multimedia works of science fiction to illuminate classic Western moral and political theories. Satisfies New General Education in Category B: Humanistic Inquiry Satisfies Global Perspective in Category G: Citizenship in a Diverse World Satisfies Old General Education in Category VI: Social Issues Duplicates Credit in former PHIL 137 Instruction Mode: Lecture, Discussion Grading Option: Letter

PHIL 174gw Freedom, Equality, and Social Justice
Units: 4 Terms Offered: FaSp Explores the nature of justice, and how apparently conflicting ideals, such as freedom and equality, are to be balanced within a just society. Satisfies New General Education in Category B: Humanistic Inquiry Satisfies Global Perspective in Category G: Citizenship in a Diverse World Satisfies Old General Education in Category V: Arts and Letters Instruction Mode: Lecture, Discussion Grading Option: Letter

PHIL 178gw Moral Dilemmas in the Legal Domain
Units: 4 Philosophical theories of law and applications to controversies of importance to society and our legal system, such as free speech, civil disobedience, and self defense. Satisfies New General Education in Category B: Humanistic Inquiry Satisfies Global Perspective in Category G: Citizenship in a Diverse World Satisfies Old General Education in Category VI: Social

Issues Duplicates Credit in former PHIL 135g. Instruction Mode: Lecture, Discussion Grading Option: Letter

PHIL 222g Logic and Language
Units: 4 Introduces symbolic logic and explores its application to the philosophy of language, plus meta-logical and philosophical results about its scope and limits. Satisfies New General Education in Category F: Quantitative Reasoning Duplicates Credit in PHIL 350 Instruction Mode: Lecture, Discussion Grading Option: Letter

PHIL 236g Issues in Space and Time
Units: 4 What is time? What is the difference between past, present and future? Is time-travel possible? And what paradoxes might it give rise to? Satisfies New General Education in Category B: Humanistic Inquiry Duplicates Credit in PHIL 286Lg Instruction Mode: Lecture, Discussion Grading Option: Letter

PHIL 240g Mind, Self, and Consciousness
Units: 4 Explores philosophical questions about the human mind and consciousness, and how they relate to the brain and to the physical world more generally. Satisfies New General Education in Category B: Humanistic Inquiry Duplicates Credit in PHIL 262g Instruction Mode: Lecture, Discussion Grading Option: Letter

PHIL 242 Theories of Art
Units: 4 An introduction to general theories of art and to issues concerning particular arts such as literature and drama, photography and film, painting, architecture and music. Instruction Mode: Lecture Grading Option: Letter

PHIL 246Lg Foundations of Cognitive Science
Units: 4 Terms Offered: FaSp Introduction to research in interdisciplinary cognitive science, highlighting ideas and methods from philosophy, psychology, linguistics, neuroscience, and computer science. Satisfies New General Education in Category D: Life Sciences Instruction Mode: Lecture, Lab Required Grading Option: Letter

PHIL 252g The Ways of Paradox
Units: 4 Terms Offered: FaSp Focusing on selected paradoxes in science and philosophy calling into question common views of infinity, space and time, causation and rational belief and action. Satisfies New General Education in Category F: Quantitative Reasoning Instruction Mode: Lecture, Discussion Grading Option: Letter

PHIL 254gp Science, Knowledge and Objectivity
Units: 4 Max Units: max 4 How does science differ from pseudo-science? When is it rational to accept a scientific theory? And do such theories provide genuine knowledge of reality? Satisfies New General Education in Category B: Humanistic Inquiry Satisfies Global Perspective in Category H: Traditions and Historical Foundations Instruction Mode: Lecture, Discussion Grading Option: Letter

PHIL 255gp Existentialism in Philosophy, Literature and Film
Units: 4 A study of existentialist philosophy and its influence in 19th and 20th century culture, including both literature and film. Focus on works by Kierkegaard, Nietzsche, Camus, Sartre, Beauvoir, Dostoevsky, Godard, and others. Satisfies New General Education in Category B: Humanistic Inquiry Satisfies Global Perspective in Category H: Traditions and Historical Foundations Instruction Mode: Lecture Grading Option: Letter

PHIL 256g Science, Religion, and the Making of the Modern Mind
Units: 4 Terms Offered: FaSp Exploration of the philosophical and religious implications of major scientific revolutions, such as those of Copernicus, Galileo, and Darwin. Satisfies New General Education in Category B: Humanistic Inquiry Satisfies Old General Education in Category V: Arts and Letters Duplicates Credit in former PHIL 220g. Instruction Mode: Lecture, Discussion Grading Option: Letter

PHIL 258g Probability and Rational Choice
Units: 4 Explores formal tools for thinking about uncertainty. In an uncertain world, how is it rational to form our beliefs, make decisions, and interact with others? Satisfies New General Education in Category F: Quantitative Reasoning Instruction Mode: Lecture, Discussion Grading Option: Letter

PHIL 260gw Ethical Theory and Practice
Units: 4 Terms Offered: FaSp Explores various conceptions of morality and what makes actions right or wrong, together with the implications of these views for concrete ethical issues. Satisfies New General Education in Category B: Humanistic Inquiry Satisfies Global Perspective in Category G: Citizenship in a Diverse World Satisfies Old General Education in Category V: Arts and Letters Instruction Mode: Lecture, Discussion Grading Option: Letter

PHIL 262g Mind and Self: Modern Conceptions
Units: 4 Philosophical problems about the nature of mind associated with the rise of modern science; topics include the mind/body relation, personal identity, rationality and freedom. Satisfies Old General Education in Category I: Western Cultures and Traditions Instruction Mode: Lecture, Discussion Grading Option: Letter

PHIL 265g Ethics, Technology and Value
Units: 4 Terms Offered: FaSp Introduces and explores philosophical and ethical questions and theories related to technology, including biomedical technologies, internet applications and artificial intelligence. Satisfies New General Education in Category B: Humanistic Inquiry Instruction Mode: Lecture, Discussion Grading Option: Letter Crosslisted as ENGR 265

PHIL 270g Conceptual Foundations of Conflict
Units: 4 Terms Offered: FaSp Explore the nature of interpersonal conflict: war, polarization, abuse, silencing, public reason, democracy, cancel culture and resistance. Satisfies New General Education in Category B: Humanistic Inquiry Instruction Mode: Lecture, Discussion Grading Option: Letter

PHIL 284gp Ideas on Trial
Units: 4 The trials of Socrates, Joan of Arc, the Salem witches, Galileo, Scopes and the Nuremberg and Eichmann trials; their social and cultural consequences. Satisfies New General Education in Category B: Humanistic Inquiry Satisfies Global Perspective in Category H: Traditions and Historical Foundations Instruction Mode: Lecture, Discussion Grading Option: Letter

PHIL 285Lg Knowledge, Explanation, and the Cosmos
Units: 4 Terms Offered: FaSpSm The nature and limits of knowledge and explanation, and challenges in understanding the origin of the universe and the place of intelligent life within it. Satisfies Old General Education in Category IV: Science and Its Significance Instruction Mode: Lecture, Lab Required Grading Option: Letter

PHIL 286Lg Issues in Space and Time
Units: 4 Examining the nature of space and time, how they relate, and how material objects relate to them. Some included topics: substantivalism, temporal directionality, persistence, hyperspace. Satisfies Old General Education in Category IV: Science and Its Significance Instruction Mode: Lecture, Lab Required Grading Option: Letter

PHIL 288gp Love and its Representation in Western Literature, Film, and Philosophy
Units: 4 Key works that have shaped the European and American cultural inheritance, with a special focus on the nature of love. Satisfies New General Education in Category B: Humanistic Inquiry Satisfies Global Perspective in Category H: Traditions and Historical Foundations Satisfies Old General Education in Category I: Western Cultures and Traditions Duplicates Credit in the former PHIL 225 Instruction Mode: Lecture, Discussion Grading Option: Letter

PHIL 311 The Quest for the Individual in Early Modern Europe
Units: 4 The legal, religious, economic and philosophical bases of the rise of individualism from its roots in ancient times through its development in Europe from the 15th through the 18th centuries. Instruction Mode: Lecture Grading Option: Letter Crosslisted as HIST 319

PHIL 314 Origins of Free Market Thought in Early Modern Europe
Units: 4 The varied history of ideas of a free market from Cicero, through the Middle Ages and Renaissance, to the Enlightenment, Adam Smith, Colbert and beyond. Instruction Mode: Lecture Grading Option: Letter Crosslisted as HIST 315

PHIL 315 History of Western Philosophy: Ancient Period
Units: 4 Major figures in the history of Western philosophical thought from the pre-Socratics to the Hellenistic period; emphasis on Plato and Aristotle. Instruction Mode: Lecture Grading Option: Letter

PHIL 317 History of Western Philosophy: Medieval Period
Units: 4 Central themes in Jewish, Christian and Islamic philosophy from late antiquity through the scholastic period. Instruction Mode: Lecture Grading Option: Letter

PHIL 320 History of Western Philosophy: Modern Period
Units: 4 The development of philosophy from the 16th to the 19th centuries;

emphasis on Continental Rationalism, British Empiricism, and the philosophy of Kant. Instruction Mode: Lecture Grading Option: Letter

PHIL 336 Philosophy of Mind and Language
Units: 4 Explores how language shapes thought, how social norms impact meaning and communication, the nature of speech acts, with applications to hate speech and pornography. Instruction Mode: Lecture Grading Option: Letter

PHIL 337 Political Philosophy
Units: 4 Analysis of some of the main political philosophies of the modern era; emphasis on the ethical and metaphysical foundations of political philosophy. Instruction Mode: Lecture Grading Option: Letter

PHIL 339 Philosophy of Economics
Units: 4 Central topics in the philosophy of economics, including models of economic rationality, the aggregation of preferences and the conditions in which markets yield undesirable outcomes. Instruction Mode: Lecture Grading Option: Letter Crosslisted as ECON 339

PHIL 340 Ethics
Units: 4 Terms Offered: FaSpSm Study of major philosophical theories of moral right and wrong, such as utilitarianism, Kantianism, egoism, virtue ethics, and theological ethics. Instruction Mode: Lecture Grading Option: Letter

PHIL 347 Philosophy in Literature
Units: 4 Philosophical content in representative European and American literature; philosophical problems about literature such as the nature of truth and meaning in fiction. Instruction Mode: Lecture Grading Option: Letter

PHIL 350 Symbolic Logic
Units: 4 Introduction to basic techniques of propositional and quantificational logic, and elements of probability. Especially useful to philosophy, mathematics, science, and engineering majors. Instruction Mode: Lecture Grading Option: Letter

PHIL 351 Reasoning and Logic
Units: 4 Study of reasoning as a strategy for arriving at knowledge in dependence upon logical theory. Logical theories are developed alongside historically influential strategies of reasoning. Not open to freshmen. Instruction Mode: Lecture Grading Option: Letter

PHIL 352 Logic and Language
Units: 4 Introduction to modern symbolic logic, with applications to the philosophy of language, plus meta-logical and philosophical results about its scope and limits. Instruction Mode: Lecture Grading Option: Letter

PHIL 355 Existentialism
Units: 4 A critical survey of major 19th and 20th century existentialist writers, including Kierkegaard, Dostoevsky, Tolstoy, Kafka, Nietzsche, Camus, and Sartre. Instruction Mode: Lecture Grading Option: Letter

PHIL 360 Epistemology and Metaphysics
Units: 4 Examination of problems in metaphysics and/or epistemology. Conducted at the intermediate level. Instruction Mode: Lecture Grading Option: Letter

PHIL 361 Philosophy of Religion
Units: 4 The existence of God; mysticism, miracles and the possibility of disembodied existence; the problem of evil; religion and morality; the meaning of religious language. Instruction Mode: Lecture Grading Option: Letter

PHIL 362 Possible Worlds
Units: 4 Introduction to possible worlds as a tool for asking and answering questions about what might be, what must be, and what can never be. Instruction Mode: Lecture Grading Option: Letter

PHIL 363 Philosophy of Perception
Units: 4 Philosophical investigation of sense perception as it relates to issues in epistemology, metaphysics, the philosophy of mind, and the philosophy of science. Instruction Mode: Lecture Grading Option: Letter

PHIL 385 Science and Rationality
Units: 4 Examination of the rationality of the scientific enterprise, and of the relation between science and human values. Instruction Mode: Lecture Grading Option: Letter

PHIL 390 Special Problems
Units: 1, 2, 3, 4 Supervised, individual studies. No more than one registration permitted. Enrollment by petition only. Instruction Mode: Lecture Grading Option: Letter

PHIL 410 Early Greek Thought
Units: 4 A study of the Greek thinkers from Homer to the age of Socrates; emphasis on the pre-Socratic philosophers. Instruction Mode: Lecture Grading Option: Letter

PHIL 411 Plato
Units: 4 Detailed study of the evolution of Plato's thought as revealed in selected dialogues. Instruction Mode: Lecture Grading Option: Letter

PHIL 415 Aristotle
Units: 4 Intensive study of selected topics taken from Aristotle's writings in natural philosophy, in metaphysics, and in other areas of philosophy. Instruction Mode: Lecture Grading Option: Letter

PHIL 416 The Ancient Stoics
Units: 4 Terms Offered: FaSp A study of Stoicism, the ancient Greek and Roman Stoics' theories about the cosmos, psychology, knowledge, ethics, fate and philosophy as "medicine for the soul." Instruction Mode: Lecture Grading Option: Letter

PHIL 421 Continental Rationalism
Units: 4 Development of philosophy on the continent from the 17th to the 19th centuries; emphasis on the philosophical works of Descartes, Leibniz, and Spinoza. Instruction Mode: Lecture Grading Option: Letter

PHIL 422 British Empiricism
Units: 4 Development of philosophy in Great Britain from the 17th to the 19th centuries; emphasis on Locke, Berkeley, and Hume. Instruction Mode: Lecture Grading Option: Letter

PHIL 423 The Critical Philosophy of Kant
Units: 4 Intensive study of the philosophical works of Kant. Instruction Mode: Lecture Grading Option: Letter

PHIL 424 19th Century Philosophy
Units: 4 Leading figures and movements in 19th century philosophy; works of such philosophers as Hegel, Schopenhauer, Mill, Nietzsche, and Bradley. Instruction Mode: Lecture Grading Option: Letter

PHIL 427 Twentieth Century Anglo-American Philosophy
Units: 4 The rise of analytic philosophy; major ethical, metaphysical, epistemological, views; Frege, Moore, Russell, early and late Wittgenstein and Quine. Instruction Mode: Lecture Grading Option: Letter

PHIL 428 Anglo-American Philosophy Since 1950
Units: 4 The maturing of the analytic tradition from the later Wittgenstein through Ryle, Strawson, Hare, Austin, Grice, Quine, Davidson, Kripke, and beyond. Instruction Mode: Lecture Grading Option: Letter

PHIL 430 Philosophy of Law
Units: 4 Philosophical theories about the nature of law, relations between law and morality, and analysis of normative concepts central to law, such as responsibility, punishment, negligence. Instruction Mode: Lecture Grading Option: Letter

PHIL 431 Law, Society, and Politics
Units: 4 Terms Offered: Fa A systematic presentation of the main philosophical perspectives on the interactions between law and the social-political aspects of our lives. Instruction Mode: Lecture Grading Option: Letter

PHIL 437 Social and Political Philosophy
Units: 4 The nature of man and society, the nature and justification of state and government, political rights and political obligation, justice and equality. Instruction Mode: Lecture Grading Option: Letter

PHIL 440 Contemporary Ethical Theory
Units: 4 Ethical theories in the 20th century; contemporary theories of value and obligation; metaethical theories; intuitionism, naturalism, and non-cognitivism; concepts of justice, human rights, and freedom. Instruction Mode: Lecture Grading Option: Letter

PHIL 442 History of Ethics to 1900
Units: 4 An historical and critical study of the great moral philosophers, including Plato, Aristotle, Aquinas, Kant, and the British moralists. Instruction Mode: Lecture Grading Option: Letter

PHIL 443 Value Theory
Units: 4 The evaluation of individual and social ends; consideration of such topics as values and rational choice, the good of a person, hedonism, welfare, ideals, and utopias.

PHIL 445 Philosophy of the Arts
Units: 4 Principal theories of the nature of, and response to, art; examination of form and content in various arts; consideration of the role of criticism. Instruction Mode: Lecture Grading Option: Letter

PHIL 446 Aesthetics and the Film
Units: 4 Problems in the philosophy of art raised by film, such as the notion of "cinematic"; the nature of interpretation of films; criteria for evaluating films. Instruction Mode: Lecture Grading Option: Letter

PHIL 450 The Limits of Logic
Units: 4 Systematic study of the formal limits on what can be counted, expressed

in language, systematically computed or rigorously proved, including Goedel's Incompleteness Theorems. *Prerequisite:* PHIL 350 Instruction Mode: Lecture Grading Option: Letter

PHIL 452 Modal Logic
Units: 4 Elements of propositional and quantified modal logic and the logic of counterfactual conditionals with an eye to some of their applications in contemporary philosophy. *Prerequisite:* PHIL 350, or PHIL 351, or PHIL 352. Instruction Mode: Lecture Grading Option: Letter

PHIL 455 Phenomenology and Existentialism
Units: 4 Terms Offered: Irregular Close study of major writings of Husserl, Heidegger, and Sartre. Instruction Mode: Lecture Grading Option: Letter

PHIL 460 Metaphysics
Units: 4 Systematic introduction to basic concepts, including identity, difference, existence, individuals, substance, quality, and relation; emphasis on idealism, materialism, and the ontology of intentionality. Instruction Mode: Lecture Grading Option: Letter

PHIL 462 Philosophy of Mind
Units: 4 Examination of contemporary theories of mind and its place in the natural world. Instruction Mode: Lecture Grading Option: Letter

PHIL 463 Theories of Action
Units: 4 Systematic investigation of action, the mental states involved in action, the reasoning processes that lead to action, and related concepts including intentionality and free will. Instruction Mode: Lecture Grading Option: Letter

PHIL 465 Philosophy of Language
Units: 4 The nature of communication, meaning, reference, truth, necessity, speech acts, convention, and language. Instruction Mode: Lecture Grading Option: Letter Crosslisted as LING-465

PHIL 467 Language, Linguistics and Mind
Units: 4 Terms Offered: FaSp Topics of current interest at the crossroads of philosophy of language, philosophy of mind and linguistics. Instruction Mode: Lecture Grading Option: Letter

PHIL 470 Theory of Knowledge
Units: 4 Examination of contemporary accounts of the nature, scope, sources — and value — of human knowledge and justified belief. Instruction Mode: Lecture Grading Option: Letter

PHIL 471 Metaphysics and Epistemology
Units: 4 Classic issues in epistemology and the philosophy of language, leading up to the application of context-sensitivity in language to the problem of skepticism. *Prerequisite:* PHIL 350 or PHIL 351 or PHIL 352 *Recommended Preparation:* at least one 400-level PHIL course. Registration Restriction: Open to Philosophy majors. Instruction Mode: Lecture Grading Option: Letter

PHIL 472 Moral Philosophy
Units: 4 In-depth study of some important work from the last few decades concerning the nature and status of moral reasons, moral obligations, and moral discourse. *Prerequisite:* PHIL 350 or PHIL 351 or PHIL 352 *Recommended Preparation:* at least one 400-level PHIL class. Registration Restriction: Open to Philosophy majors. Instruction Mode: Lecture Grading Option: Letter

PHIL 473 Wittgenstein
Units: 4 A detailed study of the philosophical works of Ludwig Wittgenstein. Instruction Mode: Lecture Grading Option: Letter

PHIL 475 Topics in Philosophy, Politics and Economics
Units: 4 The analysis of public policy debates combining the different tools and perspectives of philosophy, political science and economic theory. Registration Restriction: Open only to Philosophy, Politics and Economics majors Instruction Mode: Lecture Grading Option: Letter

PHIL 480 Philosophy of Mathematics
Units: 4 The nature of mathematical truth and the nature of mathematical entities. Instruction Mode: Lecture Grading Option: Letter

PHIL 484 Philosophy of Physics
Units: 4 Max Units: 12 A comprehensive introduction to two of the central areas of modern philosophy of physics: the philosophy of spacetime, and the philosophy of quantum mechanics. *Recommended Preparation:* PHYS 304, PHYS 408a, or PHYS 438a Instruction Mode: Lecture Grading Option: Letter

PHIL 485 Development of Physical Science
Units: 4 Concepts central in the advance of physical science such as the concepts of space, time, mass, force; philosophical problems concerning quantum mechanics. Instruction Mode: Lecture Grading Option: Letter

PHIL 486 Methodologies of the Sciences
Units: 4 Comparison of the methodologies of the natural, social, and/or behavioral sciences; consideration of such topics as the concept of scientific law, prediction, explanation, confirmation. Instruction Mode: Lecture Grading Option: Letter

PHIL 490x Directed Research
Units: 1, 2, 3, 4, 5, 6, 7, 8 Max Units: 12.0 Individual research and readings. Instruction Mode: Lecture Grading Option: Letter

PHIL 494 Senior Thesis
Units: 4 Independent studies for philosophy majors, and guidance in the preparation of the senior thesis for students who wish to graduate with honors in philosophy. Instruction Mode: Lecture Grading Option: Letter

PHIL 495 Honors Capstone
Units: 4 Terms Offered: FaSp In-depth study synthesizing important recent developments in one or more central areas of philosophy pursued at a beginning graduate level. *Recommended Preparation:* Two 400-level courses in Philosophy Registration Restriction: Open only to senior philosophy majors Instruction Mode: Lecture Grading Option: Letter

PHIL 499 Special Topics
Units: 2, 3, 4 Max Units: 8.0 Selected topics in various specialty areas within philosophy. Instruction Mode: Lecture Grading Option: Letter

PHIL 500 Introduction to Contemporary Philosophical Literature
Units: 4 Terms Offered: Fa Analysis of selected philosophical problems and theses of current interest; explication of major contemporary papers and/or books is emphasized. Instruction Mode: Lecture Grading Option: Letter

PHIL 501 Seminar in Recent Philosophy
Units: 4 Max Units: 16.0 Terms Offered: Sp Contemporary philosophical issues and literature. Instruction Mode: Lecture Grading Option: Letter

PHIL 503 Introduction to Contemporary Philosophical Literature on Value
Units: 4 Terms Offered: Sp Analysis of selected philosophical problems and theses of current interest; explication of major contemporary papers and/or books is emphasized. Instruction Mode: Lecture Grading Option: Letter

PHIL 505 Pro-Seminar in Central Topics in Contemporary Philosophy
Units: 4 Terms Offered: Irregular Key developments in central areas of philosophy are used to provide training in philosophical analysis, criticism, and the writing of precise philosophical prose. Instruction Mode: Lecture Grading Option: Letter

PHIL 510 Philosophical Logic
Units: 4 Terms Offered: Sp Applications of logical theory to contemporary philosophical research. Elements of model theory, recursion theory; Goedel's Incompleteness results; modal logic and its interpretations. *Recommended Preparation:* PHIL 350. Instruction Mode: Lecture Grading Option: Letter

PHIL 515 Studies in Ancient and Medieval Philosophy
Units: 4 Max Units: 16.0 Problems in research in selected portions of ancient and medieval philosophy. Instruction Mode: Lecture Grading Option: Letter

PHIL 520 Studies in Modern Philosophy
Units: 4 Max Units: 16.0 Problems in research in selected portions of modern philosophy. Instruction Mode: Lecture Grading Option: Letter

PHIL 525 Seminar in Phenomenology
Units: 4 The origin, principles, and development of the phenomenological movement from Brentano to Merleau-Ponty. Instruction Mode: Lecture Grading Option: Letter

PHIL 530 Seminar in Philosophy of Law
Units: 4 Max Units: 12.0 Theories of the nature of law; emphasis on recent writing; legal concepts such as rights, powers, liability, legal responsibility, law, and morality. Instruction Mode: Lecture Grading Option: Letter

PHIL 537 Seminar in Social and Political Philosophy
Units: 4 Max Units: 16.0 Advanced literature on selected topics in social and political philosophy, including the nature of law, man, and society; ideals such as justice and freedom. Instruction Mode: Lecture Grading Option: Letter

PHIL 540 Seminar in Ethics
Units: 4 Max Units: 16.0 Advanced topics and literature in ethical theory. Instruction Mode: Lecture Grading Option: Letter

PHIL 545 Seminar in Aesthetics
Units: 4 Advanced topics in the philosophy of the arts. Contemporary views on such problems as the nature of art and the role of

criticism. Instruction Mode: Lecture Grading Option: Letter

PHIL 550 Advanced Topics in Formal Logic
Units: 4 Consistency and completeness of the predicate calculus; truth and validity; rudiments of model logic. *Prerequisite:* PHIL 450. Instruction Mode: Lecture Grading Option: Letter

PHIL 551 Seminar in the Philosophy of Logic
Units: 4 Advanced topics in logic and/or philosophy of logic. Instruction Mode: Lecture Grading Option: Letter

PHIL 560 Seminar in Metaphysics
Units: 4 Max Units: 16.0 Terms Offered: Fa Advanced topics in metaphysics. Instruction Mode: Lecture Grading Option: Letter

PHIL 562 Philosophy of Mind
Units: 4 Max Units: 12.0 Contemporary approaches to a variety of questions about the nature of mental states and our knowledge of them. Instruction Mode: Lecture Grading Option: Letter

PHIL 565 Philosophy of Language
Units: 4 Max Units: 12.0 Terms Offered: FaSp Philosophical issues in the empirical study of language concerning the relationship between linguistic meaning and the use of sentences to assert and convey information. Instruction Mode: Lecture Grading Option: Letter

PHIL 570 Seminar in Epistemology
Units: 4 Max Units: 16.0 Advanced topics in epistemology. Instruction Mode: Lecture Grading Option: Letter

PHIL 584 Seminar in the Philosophy of Physics
Units: 4 Max Units: 12 Selected topics in various specialty areas within the philosophy of physics. *Recommended Preparation:* PHYS 304, PHYS 408a, or PHYS 438a Instruction Mode: Lecture Grading Option: Letter

PHIL 585 Seminar in Philosophy of Science
Units: 4 Max Units: 16.0 Advanced topics in the philosophy of science. Instruction Mode: Lecture Grading Option: Letter

PHIL 589 Writing for Publication in Philosophy
Units: 4 Max Units: 8.0 Terms Offered: Sp Intensive writing seminar in which students read cutting-edge philosophy and take supervised steps towards crafting critical essays for publication. *Prerequisite:* PHIL 500, PHIL 505. Instruction Mode: Lecture Grading Option: Letter

PHIL 590 Directed Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Research leading to the master's degree. Maximum units which may be applied to the degree to be determined by the department. Instruction Mode: Lecture Grading Option: Credit/No Credit

PHIL 593x Teaching Philosophy
Units: 2 Terms Offered: Fa Basic principles of philosophical pedagogy, with emphasis on practical applications and the importance of career-long skill development. Required for first-semester teaching assistants in philosophy. Instruction Mode: Lecture Grading Option: Credit/No Credit

PHIL 594a Master's Thesis
Units: 2 Credit on acceptance of thesis. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

PHIL 594b Master's Thesis
Units: 2 Credit on acceptance of thesis. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

PHIL 594z Master's Thesis
Units: 0 Credit on acceptance of thesis. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

PHIL 599 Special Topics
Units: 2, 3, 4 Max Units: 8.0 Major trends of current thought; specific topics to be announced. Instruction Mode: Lecture Grading Option: Letter

PHIL 636 Seminar in Semantics
Units: 3 Max Units: max 12 (Enroll in LING 636)

PHIL 700x Dissertation Seminar
Units: 2 Max Units: 12.0 A focused environment in which to present and evaluate dissertation work-in-progress. Focus on peer and faculty feedback, developing professional presentation skills, improving critical communication skills. Registration Restriction: Open only to Philosophy doctoral students. Instruction Mode: Lecture Grading Option: Credit/No Credit

PHIL 790 Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Research leading to the doctorate. Maximum units which may be applied to the degree to be determined by the department. Instruction Mode: Lecture Grading Option: Credit/No Credit

PHIL 794a Doctoral Dissertation
Units: 2 Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

PHIL 794b Doctoral Dissertation
Units: 2 Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

PHIL 794c Doctoral Dissertation
Units: 2 Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

PHIL 794d Doctoral Dissertation
Units: 2 Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

PHIL 794z Doctoral Dissertation
Units: 0 Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

Pharmacy

PHRD 501 Pharmaceutics I
Units: 3 Terms Offered: Fa Introduction to physicochemical principles of dosage forms; properties of molecules in dosage forms, stability of pharmaceuticals, absorption, and metabolism. Registration Restriction: Open only to Doctor of Pharmacy students Instruction Mode: Lecture Grading Option: Letter

PHRD 502 Pharmaceutics II
Units: 2 Principles involved in molecules movement across biological barriers. Properties, characteristics, application of homogeneous and heterogeneous dosage forms, liquid, semi-solid and solid. Registration Restriction: Open only to Doctor of Pharmacy students. Instruction Mode: Lecture Grading Option: Letter

PHRD 503 Biological Systems I
Units: 4 Integration and application to pharmacy of anatomy, histology, physiology and pathophysiology using an organ-based approach. Registration Restriction: Open only to Doctor of Pharmacy students Instruction Mode: Lecture Grading Option: Letter

PHRD 504 Biological Systems II
Units: 4 Integration and application to pharmacy of anatomy, histology, physiology and pathophysiology using an organ-based approach. Registration Restriction: Open only to Doctor of Pharmacy students Instruction Mode: Lecture Grading Option: Letter

PHRD 507 Health Care Delivery Systems
Units: 2 Terms Offered: Fa Introduction to understanding the structure of the health care system. Includes health care financing and the role of pharmacy and the pharmacist in health systems. Instruction Mode: Lecture Grading Option: Letter

PHRD 508 Pharmacy Literature Analysis and Drug Information
Units: 3 Terms Offered: FaSp Literature evaluation and biostatistics of clinical and health services research, and drug information services. Emphasis on drug therapy, patient outcomes, and formulary development. Instruction Mode: Lecture Grading Option: Letter

PHRD 511 Pharmacy Practice and Professionalism 1
Units: 5 A seminar series covering leadership, professionalism and professional development for pharmacy practice. Includes practical experience placements (IPPE). Registration Restriction: Open only to Doctor of Pharmacy students Duplicates Credit in former PHRD 519 Instruction Mode: Lecture Grading Option: Letter

PHRD 512 Pharmacy Practice and Professionalism 2
Units: 2 The second of a two-course series exploring the profession and practice of pharmacy. Includes didactic instruction and Introductory Pharmacy Practice Experiences (IPPEs) in the community and hospital settings. *Corequisite:* PHRD 514 and PHRD 516 and PHRD 520 Registration Restriction: Open only to Doctor of Pharmacy students Instruction Mode: Lecture Grading Option: Letter

PHRD 514 Calculations and Compounding
Units: 2 Knowledge and experience in pharmacy calculations, compounding, and sterile IV compounding. Registration Restriction: Open only to Doctor of Pharmacy students Instruction Mode: Lecture Grading Option: Letter

PHRD 515 Metabolism and Cell Biology
Units: 2 Basic principles of drug action and receptor actions. Includes their application to the understanding and treatment of disease. Provides the scientific basis of pharmaceutical action. Registration Restriction: Open only to Doctor of

Pharmacy students Duplicates Credit in former PHRD 555 Instruction Mode: Lecture Grading Option: Letter

PHRD 516 Non-Prescription Therapies
Units: 3 Introduction to self-care health. Includes OTC products, dosages, pharmacology, efficacy, cost, side effects, adverse reactions, contraindications, and drug interactions. Duplicates Credit in the former PHRD 506. Instruction Mode: Lecture Grading Option: Letter

PHRD 517 Pharmacogenetics
Units: 2 Principles of gene expression and the influence of genetics on the effectiveness of drug therapy. Registration Restriction: Open only to Doctor of Pharmacy students. Duplicates Credit in the former PHRD 505. Instruction Mode: Lecture Grading Option: Letter

PHRD 520 Introduction to Therapeutics
Units: 2 Terms Offered: Sp Provide students with the foundational skills necessary to care for patients, both from a population health perspective as well as individualized patient care, using the Pharmacists' Patient Care Process (PPCP). *Prerequisite:* PHRD 511 *Recommended Preparation:* Students will be expected to use and apply knowledge previously learned in other P1 courses (fall and spring) during the pre-case conference cases *Corequisite:* PHRD 512 and PHRD 514 and PHRD 516 Instruction Mode: Lecture Grading Option: Credit/No Credit

PHRD 521 Medicinal Chemistry
Units: 2 Principles of medicinal chemistry for common drugs. Mechanism of action, interactions with protein targets, structure-activity relationships, effects of chirality, and physicochemical properties. Credit Restriction: Open only to Doctor of Pharmacy students Duplicates Credit in former PHRD 557 Instruction Mode: Lecture Grading Option: Letter

PHRD 551 Immunology
Units: 3 Terms Offered: Fa Basic principles of immunology and their application to the understanding and treatment of immunologically-mediated diseases. Provides the scientific basis of immunotherapy and immunodiagnosis. Instruction Mode: Lecture Grading Option: Letter

PHRD 552 Pharmaceutics III
Units: 3 Terms Offered: Sp Principles and applications of controlled, targeted, and self-regulating drug delivery. Methods to deliver therapeutic peptides, proteins and genetic materials. Instruction Mode: Lecture Grading Option: Letter

PHRD 553 Management within Health Care Organizations
Units: 2 Terms Offered: Fa Management of the professional practice of pharmacy in organized health care systems. Introduction to formulary development and outcome analysis. Instruction Mode: Lecture Grading Option: Letter

PHRD 555 Pharmacy Education 1
Units: 2 Terms Offered: Fa Understanding and application of learning theory and teaching methodology, small group teaching, active learning, student motivation, basic assessment methods, and general online teaching tools. Registration Restriction: Open only to Doctor of Pharmacy students Instruction Mode: Lecture Grading Option: Letter

PHRD 556 Pharmacy Education 2
Units: 1 Terms Offered: Sp Continuation of Pharmacy Education 1. Registration Restriction: Open only to Doctor of Pharmacy students Instruction Mode: Lecture Grading Option: Letter

PHRD 559 Therapeutics: Pharmacokinetics
Units: 3 Integrated teaching of basic and clinical pharmacokinetic/pharmacodynamic concepts. Registration Restriction: Open only to Doctor of Pharmacy students. Instruction Mode: Lecture Grading Option: Letter

PHRD 560 Therapeutics III
Units: 6 Terms Offered: Sp Integrated teaching of biomedicinal chemistry, pharmacology, clinical pharmacokinetics, and therapeutics of drugs, with emphasis on pharmaceuticals treating diseases associated with the central nervous system. Instruction Mode: Lecture Grading Option: Letter

PHRD 561 Pharmacy Practice and Experience III
Units: 3 Terms Offered: FaSp Introductory Pharmacy Practice Experiences (IPPEs) in hospital and community settings. Includes; didactic instruction, laboratory practicums, IV training and practical experience hours. Registration Restriction: Open only to Pharmacy majors. Instruction Mode: Lecture, Lab Grading Option: Letter

PHRD 562 Therapeutics IV
Units: 4 Terms Offered: Sp Integrated teaching of biomedicinal chemistry, pharmacology, clinical pharmacokinetics, and therapeutics of drugs with an emphasis on treating diseases of the renal, GI and pulmonary systems. Instruction Mode: Lecture Grading Option: Letter

PHRD 563 Case Conference 1
Units: 2 Case conferences and seminars focusing on contemporary pharmacy practice. Registration Restriction: Open only to Doctor of Pharmacy students Instruction Mode: Lecture Grading Option: Credit/No Credit

PHRD 564 Case Conference 2
Units: 2 Case conferences and seminars focusing on contemporary pharmacy practice. Registration Restriction: Open only to Doctor of Pharmacy students Instruction Mode: Lecture Grading Option: Credit/No Credit

PHRD 565 Pharmacy Practice and Professionalism 3
Units: 2 A seminar series covering leadership, professionalism and professional development for pharmacy practice. Includes practical experience placements (IPPE). Registration Restriction: Open only to Doctor of Pharmacy students Instruction Mode: Lecture Grading Option: Letter

PHRD 566 Pharmacy Practice and Professionalism 4
Units: 2 A seminar series covering leadership, professionalism and professional development for pharmacy practice. Includes practical experience placements (IPPE). Registration Restriction: Open only to Doctor of Pharmacy students Instruction Mode: Lecture Grading Option: Letter

PHRD 567 Pharmacy Law
Units: 2 Provide an introduction to the legal and ethical issues in pharmacy practice. Includes state and federal statutes, regulations, and pharmacy-related cases. Registration Restriction: Open only to Doctor of Pharmacy students. Duplicates Credit in PHRD 616. Instruction Mode: Lecture Grading Option: Letter

PHRD 568 Principles and Leadership in Community Health 1
Units: 2 Terms Offered: Fa Introduction to public health and the development of community health programs. Topics include health education, health communication, and behavioral determinants of health and disease. Registration Restriction: Open only to Pharmacy majors Instruction Mode: Lecture Grading Option: Letter

PHRD 569 Principles and Leadership in Community Health 2
Units: 1 Terms Offered: Sp Builds upon students' knowledge of the field of public health and community health programs to evaluate the efficacy of community-based interventions. *Prerequisite:* PHRD 568 Registration Restriction: Open only to Pharmacy majors Instruction Mode: Lecture Grading Option: Letter

PHRD 570 Therapeutics: Central Nervous System
Units: 5 Integration of biomedicinal chemistry, pharmacology, pharmacokinetics, and therapeutics with emphasis on the central nervous system. Registration Restriction: Open only to Doctor of Pharmacy students. Duplicates Credit in PHRD 560. Instruction Mode: Lecture Grading Option: Letter

PHRD 572 Therapeutics: General Medicine
Units: 5 Integrated course that combines the pathophysiology, pharmacology, and clinical use of drugs in the management of common renal, liver, pulmonary, gastrointestinal, joint and integumentary system related disorders. Registration Restriction: Open only to Doctor of Pharmacy students Duplicates Credit in PHRD 562 Instruction Mode: Lecture Grading Option: Letter

PHRD 599 Special Topics
Units: 1, 1.5, 2, 2.5, 3, 3.5, 4, 4.5, 5.5, 6, 6.5, 7, 7.5, 8 Max Units: 8 Terms Offered: FaSp Comprehensive exploration of special and emerging topics in the practice of pharmacy. Registration Restriction: Open only to graduate students in the School of Pharmacy Instruction Mode: Lecture Grading Option: Letter

PHRD 601 Therapeutics V
Units: 6 Terms Offered: Fa Integrated teaching of biomedicinal chemistry, pharmacology, clinical pharmacokinetics, and therapeutics of drugs, with emphasis on pharmaceuticals affecting cardiovascular and circulatory diseases. CPR certification. Instruction Mode: Lecture Grading Option: Letter

PHRD 603 Therapeutics: Endocrine System
Units: 5 Integration of biomedicinal chemistry, pharmacology, pharmacokinetics, and therapeutics

with emphasis on the endocrine and reproductive system. Registration Restriction: Open only to Doctor of Pharmacy students Instruction Mode: Lecture Grading Option: Letter

PHRD 605 Therapeutics VII
Units: 4 Terms Offered: Fa Integrated teaching of the biomedicinal chemistry, pharmacology, clinical pharmacokinetics, and therapeutics of drugs; with emphasis on chemotherapy of infectious disease: bacterial, microbial, viral, parasitic, and fungal. Instruction Mode: Lecture Grading Option: Letter

PHRD 606 Therapeutics VIII
Units: 2 Terms Offered: Sp Advanced topics and clinical therapeutics of drugs, with emphasis on the treatment of infectious disease: bacterial, microbial, viral, parasitic and fungal. Instruction Mode: Lecture Grading Option: Letter

PHRD 607 Nutrition
Units: 2 Terms Offered: Fa Biomedical knowledge is correlated with assessments of clinical case management problems to understand the interrelationship between nutrition and health in both hospitalized and healthy patients. Instruction Mode: Lecture Grading Option: Letter

PHRD 608 Therapeutics: Oncology and Immune Disorders
Units: 5 Terms Offered: Sp Integrated teaching of key cells and components that comprise the innate and adaptive immune systems with emphasis on pharmaceuticals for managing oncological diseases. Registration Restriction: Open only to Pharmacy students Instruction Mode: Lecture Grading Option: Letter

PHRD 611 Therapeutics: Infectious Diseases
Units: 5 Integration of biomedicinal chemistry, pharmacology, pharmacokinetics, and therapeutics, with emphasis on the therapy of infectious diseases caused by bacterial, viral, parasitic, and fungal organisms. Registration Restriction: Open only to Doctor of Pharmacy students. Duplicates Credit in PHRD 605 and PHRD 606. Instruction Mode: Lecture Grading Option: Letter

PHRD 612 Therapeutics XI
Units: 2 Terms Offered: Sp Updates students on recent advances in clinical areas, prepares students for advanced practice experiences and assessment of clinical readiness via a final examination. Instruction Mode: Lecture Grading Option: Credit/No Credit

PHRD 614 Pharmaceutical Economics and Outcome Studies
Units: 3 Terms Offered: Sp Economic analysis of the U.S. health care system, the pharmaceutical industry, and the profession; economic assessment of drug therapy costs and health care outcomes applying pharmacoeconomic research methodologies. Instruction Mode: Lecture Grading Option: Letter

PHRD 616 Pharmacy, Law and Ethics
Units: 3 Terms Offered: Sp To provide students with an understanding of ethical issues that arise in pharmacy practice along with state and federal statutes, regulations, and pharmacy-related cases. Instruction Mode: Lecture Grading Option: Letter

PHRD 619 Therapeutics: Cardiovascular System
Units: 5 Integration of biomedicinal chemistry, pharmacology, pharmacokinetics, and therapeutics with emphasis on pharmaceuticals affecting cardiovascular and circulatory diseases. Registration Restriction: Open only to Doctor of Pharmacy students. Duplicates Credit in PHRD 601 . Instruction Mode: Lecture Grading Option: Letter

PHRD 620 Pharmacy Practice and Professionalism 5
Units: 2 A seminar series covering leadership, professionalism and professional development for pharmacy practice. Includes practical experience placements (IPPE). Registration Restriction: Open only to Doctor of Pharmacy students Instruction Mode: Lecture Grading Option: Letter

PHRD 621 Pharmacy Practice and Professionalism 6
Units: 1 Terms Offered: Sp A seminar series covering leadership, professionalism and professional development for pharmacy practice. Includes practical experience placements (IPPE). Registration Restriction: Open only to Doctor of Pharmacy students Instruction Mode: Lecture Grading Option: Letter

PHRD 622 Case Conference 3
Units: 2 Case conferences and seminars focusing on contemporary pharmacy practice. Instruction Mode: Lecture Grading Option: Credit/No Credit

PHRD 623 Case Conference 4
Units: 1 Case conferences and seminars focusing on contemporary pharmacy practice. Instruction Mode: Lecture Grading Option: Credit/No Credit

PHRD 624 Community Pharmacy Practice
Units: 2 Exploration of the various roles pharmacist play in the community-based pharmacy practice setting. Includes emphasis on fundamentals and ongoing changes in community practice, advance pharmacy practices, and patient care services, including (but not limited to) international travel health. Registration Restriction: Open only to Doctor of Pharmacy students Instruction Mode: Lecture Grading Option: Letter

PHRD 625 Hospital Pharmacy Practice
Units: 1 Exploration of the pharmacy profession and the practice of hospital/institutional pharmacy. Registration Restriction: Only open to Doctor of Pharmacy students Instruction Mode: Lecture Grading Option: Letter

PHRD 626 Elective Pharmacy Practice
Units: 2 Exploration of the pharmacy profession and the practice of pharmacy. Includes an elective Introductory Pharmacy Practice Experience (IPPE) in Community, Hospital, or other pharmacy practice settings. Registration Restriction: Open only to Doctor of Pharmacy students Instruction Mode: Lecture Grading Option: Letter

PHRD 627 Elective Pharmacy Practice Experience
Units: 2 Exploration of the pharmacy profession and the practice of pharmacy. Includes an elective Introductory Pharmacy Practice Experience (IPPE) in Community, Hospital, or other pharmacy practice settings. Duplicates Credit in PHRD 626 Instruction Mode: Lecture Grading Option: Credit/No Credit

PHRD 627a Longitudinal Elective Pharmacy Practice
Units: 2 For Year 2 pharmacy (P2) and Year 3 pharmacy (P3) students who are assigned to an Elective Introductory Pharmacy Practice Experience (IPPE). The P2 and P3 Elective IPPE provides the student with 80 hours of experiential learning to develop skills related to various aspects of the pharmacy profession in a variety of settings. Instruction Mode: Lecture Grading Option: In Progress to Credit/No Credit

PHRD 627b Longitudinal Elective Pharmacy Practice
Units: 0 For Year 2 pharmacy (P2) and Year 3 pharmacy (P3) students who are assigned to an Elective Introductory Pharmacy Practice Experience (IPPE) after registering for PHRD 627a. The P2 and P3 Elective IPPE provides the student with 80 hours of experiential learning to develop skills related to various aspects of the pharmacy profession in a variety of settings. *Prerequisite:* PHRD 627a Instruction Mode: Lecture Grading Option: In Progress to Credit/No Credit

PHRD 628 Interprofessional Collaboration for Patient Care/ Population Health - Part I
Units: 1, 2, 3 Terms Offered: FaSp Provides future pharmacists with the specialized knowledge, skills, and experiences for individual patient and population health care through interprofessional collaboration (IPC). Fulfills requirements in the Health Systems and Comprehensive Medication Management and High-Risk Populations areas of concentration. Instruction Mode: Lecture Grading Option: Letter

PHRD 628a Longitudinal Interprofessional Collaboration Experience
Units: 0 The interprofessional collaboration (IPC) experience will provide student pharmacists with the specialized knowledge, skills and experiences to provide individual patient care and population health through IPC. As a member of an interprofessional team, the pharmacist lends expertise in the area of appropriate utilization of pharmaceuticals anchored in evidence-based medicine. The longitudinal IPC experience is designed to prepare students for optimizing patient care and population health through IPC. Instruction Mode: Lecture Grading Option: In Progress to Letter

PHRD 628b Longitudinal Interprofessional Collaboration Experience
Units: 0 The interprofessional collaboration (IPC) experience will provide student pharmacists with the specialized knowledge, skills and experiences to provide individual patient care and population health through IPC. As a member of an interprofessional team, the pharmacist lends expertise in the area of appropriate utilization of pharmaceuticals anchored in evidence-based medicine. The

longitudinal IPC experience is designed to prepare students for optimizing patient care and population health through IPC. *Prerequisite:* PHRD 628a Instruction Mode: Lecture Grading Option: In Progress to Letter

PHRD 628c Longitudinal Interprofessional Collaboration Experience
Units: 1, 2, 3 The IPC experience will provide student pharmacists with the specialized knowledge, skills, and experiences to provide individual patient care and population health through interprofessional collaboration (IPC). As a member of an interprofessional team, the pharmacist lends expertise in the area of appropriate utilization of pharmaceuticals anchored in evidence-based medicine. The longitudinal IPC experience is designed to prepare students for optimizing patient care and population health through IPC. *Prerequisite:* PHRD 628b Instruction Mode: Lecture Grading Option: In Progress to Letter

PHRD 629a Longitudinal Community Pharmacy Practice
Units: 2 For Year 2 pharmacy (P2) and Year 3 pharmacy (P3) students who are assigned to a Community Introductory Pharmacy Practice Experience (IPPE). The P2 and P3 Community IPPE provides the student with 80 hours of experiential learning to develop skills related to aspects of the pharmacy profession in the Community pharmacy setting. Instruction Mode: Lecture Grading Option: In Progress to Credit/No Credit

PHRD 629b Longitudinal Community Pharmacy Practice
Units: 0 For Year 2 pharmacy (P2) and Year 3 pharmacy (P3) students who are assigned to a Community Introductory Pharmacy Practice Experience (IPPE) after registering for PHRD 629a. The P2 and P3 Community IPPE provides the student with 80 hours of experiential learning to develop skills related to aspects of the pharmacy profession in the Community pharmacy setting. *Prerequisite:* PHRD 629a Instruction Mode: Lecture Grading Option: In Progress to Credit/No Credit

PHRD 631a Longitudinal Institutional Pharmacy Practice
Units: 1, 2, 3 Taken by Year 2 pharmacy (P2) and Year 3 pharmacy (P3) students who are assigned to an Institutional Introductory Pharmacy Practice Experience (IPPE). The P2 and P3 Institutional IPPE provides the student with 80 hours of experiential learning to develop skills related to aspects of the pharmacy profession in the institutional pharmacy setting. Instruction Mode: Lecture Grading Option: In Progress to Credit/No Credit

PHRD 631b Longitudinal Institutional Pharmacy Practice
Units: 0 This course is for Year 2 pharmacy (P2) and Year 3 pharmacy (P3) students who are assigned to an Institutional Introductory Pharmacy Practice Experience (IPPE) after registering for PHRD 631a. The P2 and P3 Institutional IPPE provides the student with 80 hours of experiential learning to develop skills related to aspects of the pharmacy profession in the institutional pharmacy setting. *Prerequisite:* PHRD 631a Instruction Mode: Lecture Grading Option: In Progress to Credit/No Credit

PHRD 633 Pharmacy Management and Economics
Units: 2 Management principles for pharmacy practice, understanding of health care systems and pharmacoecomincs. Introduction to formulary management and outcome analysis. Registration Restriction: Open only to Doctor of Pharmacy students Instruction Mode: Lecture Grading Option: Letter

PHRD 634 Scholarly Project 1
Units: 1 Terms Offered: Fa Collection and analysis of results in the Pharm.D. Scholarly Project and oral presentation and discussion of these results. Registration Restriction: Open only to Pharmacy students Instruction Mode: Lecture Grading Option: Credit/No Credit

PHRD 635 Scholarly Project 2
Units: 1 Terms Offered: Sp Oral and poster presentation of the results of the Pharm.D. Scholarly Project. Registration Restriction: Open only to Pharmacy students Instruction Mode: Lecture Grading Option: Credit/No Credit

PHRD 636 Scholarly Project 3
Units: 1 Guides students through the completion of original research with instruction on data analysis, abstract preparation and poster presentation. Instruction Mode: Lecture Grading Option: Credit/No Credit

PHRD 639 Pharmacy Review
Units: 1,2,3 Max Units: 03 Terms Offered: Sm Supervised, individual studies. No more than one registration permitted. Enrollment by petition only. Registration Restriction: Open only to Pharmacy students Instruction Mode: Lecture Grading Option: Letter

PHRD 650 APPE Gateway
Units: 2 Terms Offered: Sp Competency-based course to prepare and assess students for readiness to enter Advanced Pharmacy Practice Experience (APPE). Registration Restriction: Open only to Doctor of Pharmacy students Instruction Mode: Lecture Grading Option: Letter

PHRD 651 Community Pharmacy and Business Management I
Units: 3 Terms Offered: Fa Development of specialized knowledge and skills in community pharmacy practice involving location analysis, pharmacy management principles, and introduction to business law concepts. Registration Restriction: Open only to Doctor of Pharmacy students Instruction Mode: Lecture Grading Option: Letter

PHRD 652 Community Pharmacy and Business Management II
Units: 3 Terms Offered: Sp A continuation of PHRD 651 highlighting the subspecialties available in independent pharmacy including but not limited to specialty pharmacy, 340B pharmacy, DME, compounding, LTC and infusion. *Prerequisite:* PHRD 651 Registration Restriction: Open only to Doctor of Pharmacy students Instruction Mode: Lecture Grading Option: Letter

PHRD 653 Principles of Managed Care
Units: 3 Terms Offered: Fa Understanding formal and informal organizations in institutions, managed care, disease management, health care policy and financing, patients' chart organization, and clinical monitoring parameters. Instruction Mode: Lecture Grading Option: Letter

PHRD 654 Acute Care II
Units: 3 Terms Offered: Sp Recognizing resources available for drug information, familiarity with institutional formularies, medication counseling, writing chart notes, and clinical activities at an off-campus health care institution. Instruction Mode: Lecture Grading Option: Letter

PHRD 655 Geriatric Pharmacy I
Units: 3 Terms Offered: Fa Specialized knowledge and skills in geriatric pharmacy, pharmacology of aging, and unique functions of health care team providing care to the elderly patient. Instruction Mode: Lecture Grading Option: Letter

PHRD 656 Geriatric Pharmacy II
Units: 3 Terms Offered: Sp Specialized knowledge and skills in gerontology and geriatric pharmacy including the pathophysiology of selected cardiovascular, endocrine, genitourinary gastrointestinal disorders, osteoarthritis, and osteoporosis. *Prerequisite:* PHRD 559. Instruction Mode: Lecture Grading Option: Letter

PHRD 657 Basic Research Design
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Max Units: 12 Terms Offered: FaSp Laboratory, clinical, health economics or regulatory science research experience for pharmacy students. Projects performed working directly with faculty advisers. Registration Restriction: Open only to Doctor of Pharmacy students Instruction Mode: Lecture Grading Option: Letter

PHRD 658 Sleep and the Pharmacologic Management of Its Disorders
Units: 3 Terms Offered: FaSp Overview of normal sleep manifestations, and treatment of common sleep disorders, and the pharmacist's role in assessment, treatment, and referral. Instruction Mode: Lecture Grading Option: Letter

PHRD 659 Molecular Therapeutics: Signal Transduction
Units: 3 Terms Offered: FaSp Principles of molecular therapeutics against signaling pathways; emphasis on biological mechanisms underlying hormone, growth factor, and neurotransmitter-mediated gene regulation, proliferation, and cell death. Instruction Mode: Lecture Grading Option: Letter

PHRD 660 Disease State Management I
Units: 3 Terms Offered: FaSp The processes required to develop disease state management protocols based on data drawn from the medical research literature. Instruction Mode: Lecture Grading Option: Letter

PHRD 661 Pharmacy Practice in Women's Health
Units: 3 Terms Offered: FaSp The pharmaceutical care of women patients is emphasized. Therapeutic, psychosocial factors and current research in women's health. Instruction Mode: Lecture Grading Option: Letter

PHRD 662 Psychiatric Pharmacy Practice
Units: 3 Terms Offered: Sp Specialized knowledge and skills in psychiatric pharmacy practice including child, adult, and geriatric psychopharmacology applied to inpatient and outpatient treatment. Instruction Mode: Lecture Grading Option: Letter

PHRD 663 Pharmaceutical Development
Units: 3 Terms Offered: FaSp Examination of pharmaceutical product development process including discovery, preclinical/clinical studies, regulatory-legal issues, and marketing. Instruction Mode: Lecture Grading Option: Letter

PHRD 665 Complementary/Alternative Therapeutics
Units: 3 Terms Offered: FaSp Examines the therapeutic use of complementary/alternative medicines, such as herbal medicines, homeopathic drugs, vitamins and other nutritional supplements. Instruction Mode: Lecture Grading Option: Letter

PHRD 666 Therapeutic Drug Monitoring
Units: 3 Terms Offered: FaSp Application of pharmacokinetic and pharmacodynamic principles to individualize patient drug regimens. Instruction Mode: Lecture Grading Option: Letter

PHRD 667 Drugs of Abuse
Units: 3 Terms Offered: FaSp Specialized knowledge and skills in specific substance abuse-related areas. Each area will include addiction, wellness, and prevention components. Instruction Mode: Lecture Grading Option: Letter

PHRD 668 Computing Application
Units: 3 Terms Offered: FaSp Specialized knowledge and skills using computers in professional practice: telecommunication protocols, typical patient databases in hospital and community pharmacies, drug interactions, insurance billing, inventory control. Instruction Mode: Lecture Grading Option: Letter

PHRD 669 Health Care Needs of Special Populations
Units: 3 Terms Offered: FaSp Health care needs of the poor will be examined through participation in a multidisciplinary community clinic setting focusing on medication counseling and compliance. Instruction Mode: Lecture Grading Option: Letter

PHRD 670 Marketing and Development in the Pharmaceutical Industry
Units: 3 Terms Offered: FaSp Basic and advanced strategies for marketing and development of new compounds or indication in the pharmaceutical industry. *Prerequisite:* PHRD 653 *Recommended Preparation:* PHRD 663 Instruction Mode: Lecture Grading Option: Letter

PHRD 671 Pharmacy Education Seminar
Units: 3 Terms Offered: FaSp A seminar course with a focus on educational methods and teaching skills providing career development for students interested in academia. Instruction Mode: Lecture Grading Option: Letter

PHRD 672 Introduction to Critical Care
Units: 3 Terms Offered: Sp Coupling evidence-based management with a case-based approach; reinforces the clinical thought processes to optimize pharmaceutical care in various critical care settings. Registration Restriction: Open only to Pharmacy majors Instruction Mode: Lecture Grading Option: Letter

PHRD 673 Spanish for Pharmacists
Units: 3 Practical Spanish for pharmacists, including basic conversation of commonly prescribed drugs. Registration Restriction: Open only to Doctor of Pharmacy students Instruction Mode: Lecture Grading Option: Letter

PHRD 674 Acute Care I
Units: 3 Terms Offered: Fa Development of specialized knowledge and skills in evidence-based drug-therapy management in the acute care arena. Duplicates Credit in PHRD 653 Instruction Mode: Lecture Grading Option: Letter

PHRD 677 Risk Assessment and Management in Pharmacy Practice
Units: 3 Terms Offered: FaSp Specific risk management issues, legal and professional expectations of pharmacists, and assessing and avoiding risk. Instruction Mode: Lecture Grading Option: Letter

PHRD 678 Topics in Pharmacology: the Other Side of Drugs
Units: 2, 3 Terms Offered: Fa (Enroll in MPTX 510)

PHRD 679 Toxicology and the Media
Units: 2, 3 Terms Offered: Sp (Enroll in MPTX 520)

PHRD 680 Cannabis User Safety
Units: 2 Focus on cannabis user safety. Provide a holistic perspective of cannabis to help pharmacy and pharmaceutical science experts participate in both the wise use and study of cannabis. Instruction Mode: Lecture Grading Option: Letter

PHRD 688 Global Pharmacy
Units: 3 Opportunity to work with pharmacists, student pharmacists, and other healthcare professionals to experience pharmacy education and practice outside of the United States. Registration Restriction: Open only to Pharmacy majors Instruction Mode: Lecture Grading Option: Letter

PHRD 701 Acute Care Clinical APPE
Units: 6 Terms Offered: FaSpSm Application of pharmaceutical care principles to the adult patient population in an acute care environment. Pharmacology, pharmacokinetics, and disease state management will be emphasized. Registration Restriction: Open to Doctor of Pharmacy students only. Instruction Mode: Lecture Grading Option: Credit/No Credit

PHRD 704 Primary Care APPE
Units: 6 Disease state management and a primary care setting. Modification and design of drug therapy regimens and primary patient care using a team based approach. Registration Restriction: Open to Doctor of Pharmacy students only. Instruction Mode: Lecture Grading Option: Credit/No Credit

PHRD 705 Community Pharmacy APPE
Units: 6 Terms Offered: FaSpSm Pharmaceutical care principles applied to the community pharmacy environment. Participating in the development, implementation and outcome evaluation of patient care services in the community. Registration Restriction: Open to Doctor of Pharmacy students only. Instruction Mode: Lecture Grading Option: Credit/No Credit

PHRD 714 Nuclear Pharmacy APPE
Units: 6 Terms Offered: FaSpSm Provides practical and theoretical aspects of radiopharmacy services delivery. Registration Restriction: Open only to Doctor of Pharmacy students Instruction Mode: Lecture Grading Option: Letter

PHRD 718 Hospital Pharmacy Practice APPE
Units: 6 Terms Offered: FaSpSm Practical experience in the practice of hospital pharmacy. Administrative, practice-based and therapeutic competencies emphasized. Registration Restriction: Open only to Doctor of Pharmacy students Instruction Mode: Lecture Grading Option: Letter

PHRD 725 International Pharmacy Practice Experience
Units: 3, 6 Terms Offered: FaSpSm Practical experience in the practice of pharmacy in the international setting. Students will visit an international pharmacy practice setting and complete a project. Registration Restriction: Open only to Doctor of Pharmacy students Instruction Mode: Lecture Grading Option: Letter

PHRD 731 Advanced Geriatrics APPE
Units: 6 Terms Offered: FaSpSm Directed projects/practical experience in geriatric drug therapy. Registration Restriction: Open only to Doctor of Pharmacy students Instruction Mode: Lecture Grading Option: Letter

PHRD 738 Pharmaceutical Industry APPE
Units: 6 Max Units: 12 Terms Offered: FaSpSm Practical experience within a pharmaceutical company may include: clinical affairs, drug development, research and/or marketing process. Instruction Mode: Lecture Grading Option: Credit/No Credit

PHRD 750 Advanced Pharmacy Practice Elective (APPE)
Units: 6 Max Units: 12 Terms Offered: FaSpSm Pharmacy practice experience (internship) course in a health care setting. Registration Restriction: Open only to Doctor of Pharmacy students Instruction Mode: Lecture Grading Option: Letter

PHRD 751 Non-traditional Advanced Pharmacy Elective (APPE)
Units: 6 Max Units: 12 Terms Offered: FaSpSm Pharmacy practice experience (internship) course in a non-traditional or emerging setting. Registration Restriction: Open only to Doctor of Pharmacy students Instruction Mode: Lecture Grading Option: Letter

PHRD 752 Special Project APPE
Units: 6 The Special Projects advanced pharmacy practice experiences course

gives students the opportunity to demonstrate competency in a variety of pharmacy practice settings. Registration Restriction: Open only to doctor of Pharmacy students Instruction Mode: Lecture Grading Option: Letter

PHRD 790 Directed Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Max Units: 12.0 Research leading to doctorate in Clinical and Experimental Therapeutics. Instruction Mode: Lecture Grading Option: Credit/No Credit

PHRD 794a Doctoral Dissertation
Units: 2 Dissertation research required for completion of Doctor of Philosophy in Clinical and Experimental Therapeutics. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

PHRD 794b Doctoral Dissertation
Units: 2 Dissertation research required for completion of Doctor of Philosophy in Clinical and Experimental Therapeutics. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

PHRD 794c Doctoral Dissertation
Units: 2 Dissertation research required for completion of Doctor of Philosophy in Clinical and Experimental Therapeutics. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

PHRD 794d Doctoral Dissertation
Units: 2 Dissertation research required for completion of Doctor of Philosophy in Clinical and Experimental Therapeutics. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

PHRD 794z Doctoral Dissertation
Units: 0 Dissertation research required for completion of Doctor of Philosophy in Clinical and Experimental Therapeutics. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

PHRD 796a Doctor of Pharmacy Capstone
Units: 0 Terms Offered: FaSpSm Capstone course required for completion of Doctor of Pharmacy degree. Registration Restriction: Open only to Doctor of Pharmacy students. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

PHRD 796b Doctor of Pharmacy Capstone
Units: 0, 3 Terms Offered: Sp Capstone course required for completion of Doctor of Pharmacy degree. Registration Restriction: Open only to Doctor of Pharmacy students. Instruction Mode: Lecture Grading Option: Credit/No Credit

Pharmaceutical and Translational Sciences

PHTS 654 Computation in Drug Discovery and Development
Units: 2 Terms Offered: Fa Focuses on computational prediction of molecular association and ADME (absorption, distribution, metabolism, excretion) properties in drug discovery and development. *Recommended Preparation:* Review basic computer skills Instruction Mode: Lecture, Lab, Discussion Grading Option: Credit/No Credit

PHTS 790 Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Max Units: 12 Terms Offered: FaSpSm Research leading to the doctorate. Maximum units which may be applied to the degree to be determined by the department. Registration Restriction: Open only to students enrolled in the PHTS umbrella PhD program during their first year Instruction Mode: Lecture Grading Option: Credit/No Credit

Physics

PHYS 051x Problem Solving in Mechanics and Thermodynamics
Units: 1 Intensive practice in solving elementary problems within a student-centered learning environment. *Concurrent Enrollment:* Concurrent enrollment: PHYS 151. Instruction Mode: Lecture Grading Option: Credit/No Credit

PHYS 100Lgx The Physical World
Units: 4 Terms Offered: FaSp The fundamentals of physics presented with emphasis on the structure and beauty of physical laws. Practical component will relate these laws to commonly encountered events. Satisfies New General Education in Category E: Physical Sciences Satisfies Old General Education in Category III: Scientific Inquiry Instruction Mode: Lecture, Lab Required Grading Option: Letter

PHYS 110Lgx The Physical World and the Universe
Units: 4 Fundamentals of physics and astronomy with emphasis on the tools and evidence leading to our current understanding of the physical Universe. Students who are interested in this course are encouraged to check out PHYS 111gx Representations of Physics and Astronomy in the Arts. Satisfies New General Education in Category E: Physical Sciences Credit Restriction: Not for major credit in Physics and Astronomy majors Instruction Mode: Lecture, Lab Required Grading Option: Letter

PHYS 111gx Representations of Physics and Astronomy in the Arts
Units: 4 Focus on how knowledge of the physical Universe is acquired and the expression of that knowledge through creative representation. Students who are interested in this course are encouraged to check out PHYS 110Lgx The Physical World and the Universe. Satisfies New General Education in Category A: The Arts Credit Restriction: Not for major credit in Physics and Astronomy majors Instruction Mode: Lecture, Discussion Grading Option: Letter

PHYS 125Lg Physics for Architects
Units: 4 Terms Offered: Sp Fundamental laws and principles of physics with emphasis on the application of physical principles to the problems of architecture. *Prerequisite:* MATH 108. Satisfies New General Education in Category E: Physical Sciences Satisfies Old General Education in Category III: Scientific Inquiry Duplicates Credit in PHYS 135a, PHYS 135b. Instruction Mode: Lecture, Lab Required Grading Option: Letter

PHYS 135ag Physics for the Life Sciences
Units: 4 Terms Offered: FaSpSm Fundamental laws and principles of physics emphasizing areas related to life sciences; prerequisite for biological sciences, medicine, dentistry, and pharmacy. *Prerequisite:* Passing of Math Placement Exam or MATH 108 or MATH 125 or MATH 126 or MATH 226. Satisfies New General Education in Category E: Physical Sciences Duplicates Credit in PHYS 125. Instruction Mode: Lecture, Lab Required, Quiz Grading Option: Letter

PHYS 135bL Physics for the Life Sciences
Units: 4 Terms Offered: FaSpSm Fundamental laws and principles of physics emphasizing areas related to life sciences; prerequisite for biological sciences, medicine, dentistry, and pharmacy. *Prerequisite:* Passing of Math Placement Exam or MATH 108 or MATH 125 or MATH 126 or MATH 226. Duplicates Credit in PHYS 125. Instruction Mode: Lecture, Lab Required, Quiz Grading Option: Letter

PHYS 141L Special Laboratory I
Units: 1 Terms Offered: FaSpSm Laboratory component for PHYS 151 for transfer students with equivalent lecture credit from another institution. For transfer students immediately after matriculation. Instruction Mode: Lecture, Lab Required Grading Option: Credit/No Credit

PHYS 142L Special Laboratory II
Units: 1 Terms Offered: FaSpSm Laboratory component for PHYS 152 for transfer students with equivalent lecture credit from another institution. For transfer students immediately after matriculation. Instruction Mode: Lecture, Lab Required Grading Option: Credit/No Credit

PHYS 143L Special Laboratory III
Units: 1 Terms Offered: FaSpSm Laboratory component for PHYS 153 for transfer students with equivalent lecture credit from another institution. For transfer students immediately after matriculation. Instruction Mode: Lecture, Lab Required Grading Option: Credit/No Credit

PHYS 151Lg Fundamentals of Physics I: Mechanics and Thermodynamics
Units: 4 Terms Offered: FaSpSm Gateway to the majors and minors in Physics and Astronomy. Statics and dynamics of particles and rigid bodies, conservation principles, gravitation, simple harmonic oscillators, thermodynamics, heat engines, entropy. *Prerequisite:* MATH 125g or MATH 126g or MATH 226 or MATH 129 or MATH 229 Satisfies New General Education in Category E: Physical Sciences Satisfies Old General Education in Category III: Scientific Inquiry Instruction Mode: Lecture, Lab Required, Quiz Grading Option: Letter

PHYS 152L Fundamentals of Physics II: Electricity and Magnetism
Units: 4 Terms Offered: FaSpSm Electrostatics, magnetostatics, electrical circuits, wave motion, sound waves, electromagnetic waves. *Prerequisite:* (PHYS 151Lg or PHYS 161Lg or PHYS 171Lg) and (MATH 126g or MATH 129) *Corequisite:* MATH 226g or MATH 229 Instruction Mode: Lecture, Lab Required, Quiz Grading Option: Letter

PHYS 153L Fundamentals of Physics III: Optics and Modern Physics
Units: 4 Terms Offered: FaSpSm Geometrical optics, interference, diffraction, special relativity, quantum mechanics, atomic physics, solid state physics. *Prerequisite:* PHYS 152L or PHYS 162L or PHYS 172L Instruction Mode: Lecture, Lab Required, Quiz Grading Option: Letter

PHYS 161Lg Advanced Principles of Physics I
Units: 4 Terms Offered: Sp Gateway to the majors and minors in Physics and Astronomy. Introductory treatment intended for well-qualified students. Dynamics of particles and rigid bodies, conservation laws, wave motion, thermodynamics, heat engines, entropy. *Prerequisite:* MATH 126g or MATH 129 *Corequisite:* MATH 226g or MATH 229 Satisfies New General Education in Category E: Physical Sciences Satisfies Old General Education in Category III: Scientific Inquiry Instruction Mode: Lecture, Lab Required Grading Option: Letter

PHYS 162L Advanced Principles of Physics II
Units: 4 Terms Offered: Fa Electrostatics, magnetostatics, electrical circuits, electric and magnetic properties of matter, Maxwell's equations, electromagnetic waves, propagation of light. *Prerequisite:* MATH 226g or MATH 229 *Recommended Preparation:* PHYS 161Lg Instruction Mode: Lecture, Lab Required Grading Option: Letter

PHYS 163L Advanced Principles of Physics III
Units: 4 Terms Offered: Sp Interference and diffraction of waves, special relativity, quantum mechanics, atomic physics, nuclear physics, condensed matter physics, elementary particles. *Prerequisite:* PHYS 162 Instruction Mode: Lecture, Lab Required Grading Option: Letter

PHYS 171Lg Applied Physics I: Mechanics
Units: 4 Mechanics, mechanical vibrations and waves, special relativity. Emphasizes applications in the areas of applied physics and engineering. *Prerequisite:* MATH 125g or MATH 126g or MATH 129 or MATH 226g or MATH 229 Satisfies New General Education in Category E: Physical Sciences Instruction Mode: Lecture, Discussion, Lab Required Grading Option: Letter

PHYS 172L Applied Physics II: Electricity, Magnetism and Optics
Units: 4 Electric and magnetic fields; electromagnetic waves; optics. Emphasizes applications in the areas of applied physics and engineering. *Prerequisite:* (PHYS 151Lg or PHYS 161Lg or PHYS 171Lg) and (MATH 126g or MATH 129 or MATH 226g or MATH 229) Instruction Mode: Lecture, Discussion, Lab Required Grading Option: Letter

PHYS 173L Applied Physics III: Topics in Modern Physics
Units: 4 Quantum mechanics, statistical mechanics, solid-state physics. Emphasizes applications in the areas of applied physics and engineering. *Prerequisite:* PHYS 152L or PHYS 162L or PHYS 172L Instruction Mode: Lecture, Discussion, Lab Required Grading Option: Letter

PHYS 190 Physics Discovery Series
Units: 1 Terms Offered: Fa Introduction to current research activities of the faculty of the department; topics of current and popular interest among the wider community of physicists. Instruction Mode: Lecture Grading Option: Credit/No Credit

PHYS 200Lgx The Physics and Technology of Energy
Units: 4 Terms Offered: FaSp Investigation of energy technologies, including development and implementation issues. Topics include the industrial revolution, electromagnetic induction, power transmission, combustion engines, fission and fusion. Satisfies New General Education in Category E: Physical Sciences Satisfies Old General Education in Category IV: Science and Its Significance Instruction Mode: Lecture, Lab Required Grading Option: Letter

PHYS 304 Mechanics
Units: 4 Terms Offered: Fa Dynamics of particles, kinematics of rotations, rigid body motion, Lagrangian and Hamiltonian formalism, theory of small vibrations. *Prerequisite:* PHYS 151 or PHYS 161, MATH 245. Instruction Mode: Lecture Grading Option: Letter

PHYS 316 Thermodynamics and Statistical Mechanics
Units: 4 Terms Offered: Sp First, second, and third thermodynamic laws; thermodynamic potentials, applications; distribution laws, kinetic theory, transport phenomena, specific heats. *Prerequisite:* PHYS 152 or PHYS 161, MATH 226. Instruction Mode: Lecture Grading Option: Letter

PHYS 390 Special Problems
Units: 1, 2, 3, 4 Supervised, individual studies. No more than one registration permitted. Enrollment by petition only. Instruction Mode: Lecture Grading Option: Letter

PHYS 408a Electricity and Magnetism
Units: 4 Terms Offered: Fa Electrostatics; thermal, chemical, magnetic effects of steady currents; DC circuits. *Prerequisite:* PHYS 152 or PHYS 162; *Corequisite:* MATH 245. Instruction Mode: Lecture Grading Option: Letter

PHYS 408b Electricity and Magnetism
Units: 4 Terms Offered: Sp Electromagnetic induction; AC circuits; Maxwell's equations. *Prerequisite:* PHYS 152 or PHYS 162; *Corequisite:* MATH 445. Instruction Mode: Lecture Grading Option: Letter

PHYS 430 General Relativity and Gravitation
Units: 4 Terms Offered: Sp Geometry of the Universe, special relativity, curved metrics, black holes, equivalence principle, cosmology, Friedman-Robertson-Walker geometry, Einstein's equations. *Prerequisite:* PHYS 304; Instruction Mode: Lecture Grading Option: Letter

PHYS 438a Introduction to Quantum Mechanics and its Applications
Units: 4 Terms Offered: Sp Concepts and techniques of quantum mechanics; free and bound states, the hydrogen atom. *Prerequisite:* PHYS 304; *Corequisite:* MATH 445. Instruction Mode: Lecture Grading Option: Letter

PHYS 438b Introduction to Quantum Mechanics and its Applications
Units: 4 Terms Offered: Fa Relativity, atomic spectra, quantum statistics, nuclear models, nuclear reactions, elementary particles. *Prerequisite:* PHYS 304; *Corequisite:* MATH 445. Instruction Mode: Lecture Grading Option: Letter

PHYS 440 Introduction to Condensed Matter Physics
Units: 4 Terms Offered: Irregular, Sp Crystal structures, x-ray diffraction, thermal properties of solids, diamagnetism and paramagnetism, free-electron model of metals, semiconductors, ferromagnetism, super-conductivity, imperfections in crystals. *Corequisite:* PHYS 438a. Instruction Mode: Lecture Grading Option: Letter Crosslisted as EE-436

PHYS 444 Physical Biology: From Molecules to Cells
Units: 4 Terms Offered: Fa Length, time, and energy scales of life; statistical mechanics of biomolecules and cellular processes; physics of cell shape; biological fluid dynamics; electron transfer and metabolism. *Prerequisite:* PHYS 152 or PHYS 162; *Recommended Preparation:* BISC 220. Instruction Mode: Lecture Grading Option: Letter

PHYS 472 Introduction to Lasers and Laser Systems
Units: 3 Terms Offered: Fa (Enroll in EE 472)

PHYS 473L Lasers and Optics Laboratory
Units: 3 Terms Offered: Sp (Enroll in EE 473)

PHYS 490x Directed Research
Units: 1, 2, 3, 4, 5, 6, 7, 8 Max Units: 12.0 Individual research and readings. Instruction Mode: Lecture Grading Option: Letter

PHYS 492L Senior Lab
Units: 4 Terms Offered: Fa Projects will include experiments in mechanics, thermodynamics, electricity and magnetism. Emphasis on laboratory work with discussion of theoretical background. *Prerequisite:* PHYS 152. Instruction Mode: Lecture, Lab Required Grading Option: Letter

PHYS 493L Advanced Experimental Techniques
Units: 4 Terms Offered: Sp Development of modern experimental techniques, including computer interface with data acquisition hardware and data analysis by software, applied specifically to experiments in modern physics. Emphasis on laboratory work with discussion of theoretical background. *Prerequisite:* PHYS 492L Instruction Mode: Lecture, Lab Required Grading Option: Letter

PHYS 495 Senior Project
Units: 2 An original project will be constructed applying computer technology (in either hardware or software) to produce a result useful in the physics classroom or laboratory. Instruction Mode: Lecture Grading Option: Letter Crosslisted as CSCI-495

PHYS 499 Special Topics
Units: 2, 3, 4 Max Units: 8.0 Lectures and discussions on specialized topics in physics. Instruction Mode: Lecture Grading Option: Letter

PHYS 500 Graduate Colloquium
Units: 1 Max Units: 4.0 Terms Offered: FaSp Topics of current research interest in physics and astronomy. Lectures directed to physics graduate students by faculty of the department and by outside speakers. Instruction Mode: Lecture Grading Option: Credit/No Credit

PHYS 502 Advanced Optics
Units: 3 Terms Offered: Irregular Interaction

of light and matter; laser oscillation condition; optical resonators; spectroscopy; pumping mechanisms; characteristics of dielectric, semiconductor, gas, and liquid lasers; topics in nonlinear optics. Instruction Mode: Lecture Grading Option: Letter

PHYS 504 Advanced Mechanics
Units: 3 Terms Offered: Fa Newtonian formulation of dynamics; Hamilton's principle; Lagrangian formulation; rigid body motion; Hamiltonian formulation; Hamilton-Jacobi theory; vibrations. Instruction Mode: Lecture Grading Option: Letter

PHYS 508a Advanced Electricity and Magnetism
Units: 3 Terms Offered: Sp Electrostatics, boundary value problems, multipole expansions, microscopic models of matter, magnetostatics. Instruction Mode: Lecture Grading Option: Letter

PHYS 508b Advanced Electricity and Magnetism
Units: 3 Terms Offered: Fa Maxwell's equations, potentials and gauge transformations; electromagnetic waves; wave guides; electromagnetic radiation; special relativity. Instruction Mode: Lecture Grading Option: Letter

PHYS 510 Methods of Theoretical Physics
Units: 3 Terms Offered: Fa Vector analysis; infinite, asymptotic Fourier series; complete sets; Dirac delta function; Fourier, Laplace transforms; Legendre functions; spherical harmonics; Sturm-Liouville theory; orthogonal polynomials; gamma-factorial function; complex variables. Instruction Mode: Lecture, Lab Grading Option: Letter

PHYS 513 Applications of Quantum Computing
Units: 4 Terms Offered: Sp Training on available quantum computing hardware and the respective functional principles, available software, and algorithms; the opportunity to program quantum computers and run sample problems; hands-on tutorials. *Corequisite:* EE 520 Instruction Mode: Lecture Grading Option: Letter

PHYS 514 Methods of Experimental Physics
Units: 3 Terms Offered: Irregular Techniques of general utility in contemporary physics research, with emphasis on the use of commercially available instrumentation. Instruction Mode: Lecture Grading Option: Letter

PHYS 516 Methods of Computational Physics
Units: 3 Terms Offered: Sp Introduction to algorithm development. Integration of ordinary differential equations; chaotic systems; molecular dynamics; Monte Carlo integration and simulations; cellular automata and other complex systems. *Recommended Preparation:* ability to program in C or C++. Instruction Mode: Lecture Grading Option: Letter

PHYS 518 Thermodynamics and Statistical Mechanics
Units: 3 Terms Offered: Fa Principles of, and relations between, thermodynamics and statistical mechanics; ensembles, partition function formalism; quantum statistics of noninteracting particles; fluctuations. Instruction Mode: Lecture Grading Option: Letter

PHYS 520 Methods for Complex Systems
Units: 3 Terms Offered: Fa Probabilities, random walks, generalized central limit theorems, probabilities in thermodynamics, critical phenomena, self organized criticality, phenomenology of catastrophes, dynamical systems and examples from outside physics. Instruction Mode: Lecture Grading Option: Letter

PHYS 530 Relativity
Units: 3 Terms Offered: Irregular Fundamentals of the special theory and applications to classical and quantum physics; the principle of equivalence; tensor analysis and Einstein's theory of gravitation; relativistic cosmology. *Recommended Preparation:* PHYS 504, PHYS 508a. Instruction Mode: Lecture Grading Option: Letter

PHYS 540 Solid State Physics
Units: 3 Terms Offered: Fa Fundamental concepts and techniques in solid state physics; electron gas at metallic densities; semiclassical transport; crystallography; band structure; phonons; screening; superconductivity; magnetic ordering. *Recommended Preparation:* PHYS 518, PHYS 558a. Instruction Mode: Lecture Grading Option: Letter

PHYS 550 Theory of Open Quantum Systems
Units: 4 Terms Offered: Sp The theory of open quantum systems (i.e., systems coupled to an environment) with applications to chemistry, physics and quantum information processing. *Recommended Preparation:* Knowledge of basic linear algebra and undergraduate-level quantum mechanics in Chemistry or Physics; graduate-level quantum mechanics Instruction Mode: Lecture Grading Option: Letter Crosslisted as CHEM 551

PHYS 558a Quantum Mechanics
Units: 3 Terms Offered: Sp General formulation of quantum mechanics with applications; theory of measurement; exactly solvable problems; angular momentum formalism. Instruction Mode: Lecture Grading Option: Letter

PHYS 558b Quantum Mechanics
Units: 3 Terms Offered: Fa Approximation schemes and applications to atomic and molecular physics and scattering theory; identical particles; electromagnetic properties of atoms. Instruction Mode: Lecture Grading Option: Letter

PHYS 559 Quantum Devices
Units: 4 Terms Offered: Fa Idealized and real-world descriptions of quantum hardware; design principles, methods of operation and possible improvements; applications, advantages and limitations of different technologies. *Recommended Preparation:* PHYS 438B or equivalent Instruction Mode: Lecture Grading Option: Letter

PHYS 590 Directed Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Research leading to the master's degree. Maximum units which may be applied to the degree to be determined by the department. Instruction Mode: Lecture, Lab Grading Option: Credit/No Credit

PHYS 593 Practicum in Teaching Physics and Astronomy
Units: 2 Terms Offered: Fa Practical principles for the long-term development of effective teaching within the physical sciences. Intended for teaching assistants in Dornsife College. Instruction Mode: Lecture Grading Option: Credit/No Credit

PHYS 594a Master's Thesis
Units: 2 Credit on acceptance of thesis. Instruction Mode: Lecture, Lab Grading Option: In-progress to Credit/No Credit

PHYS 594b Master's Thesis
Units: 2 Credit on acceptance of thesis. Instruction Mode: Lecture, Lab Grading Option: In-progress to Credit/No Credit

PHYS 594z Master's Thesis
Units: 0 Credit on acceptance of thesis. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

PHYS 596 Internship for Curricular Practical Training
Units: 1, 2, 3 Max Units: 03 Terms Offered: FaSpSm Part-time or full-time, practical work experience in the student's field of study. The internship must be located at an off-campus facility. Students are individually supervised by faculty. May not be taken until the student has completed at least one semester of enrollment in the graduate program with a cumulative 3.0 GPA. Registration Restriction: Open only to Physics graduate students Instruction Mode: Lecture Grading Option: Credit/No Credit

PHYS 630 Science of Nanoscale Materials
Units: 3 Terms Offered: Fa Fundamental physics of low dimensional systems, with an emphasis on nanoscale materials (e.g. nanodot, nanowire, graphene) and state-of-the-art research topics, including characterization of nanostructure materials and device concepts that take the advantage of low dimensionality. Instruction Mode: Lecture Grading Option: Letter

PHYS 640 Advanced Condensed Matter Physics
Units: 3 Terms Offered: Sp Magnetism, magnons; superconductivity; transport phenomena; many-body effects; interacting electron gas; Hartree-Fock theory; neutron and X-ray scattering; and other selected topics. *Recommended Preparation:* PHYS 540, PHYS 558b. Instruction Mode: Lecture Grading Option: Letter

PHYS 650 Topics in Current Research
Units: 2 Terms Offered: Fa Course content will vary each year. It will include topics of current interest in research conducted in academia and industry. Instruction Mode: Lecture Grading Option: Letter

PHYS 660 Quantum Information Science and Many-Body Physics
Units: 3 Terms Offered: Sp Introduction to advanced techniques in theoretical many-body physics based on quantum information theory. *Prerequisite:* PHYS 510 and PHYS 558b Instruction Mode: Lecture Grading Option: Letter

PHYS 668 Advanced Quantum Mechanics
Units: 3 Terms Offered: Sp Relativistic wave equations; second quantization of Klein-Gordon, Dirac and Maxwell fields; applications in quantum electrodynamics

and condensed matter physics. *Recommended Preparation:* PHYS 558b. Instruction Mode: Lecture Grading Option: Letter

PHYS 669a Group Theory and Symmetries in Physics
Units: 3 Terms Offered: Irregular Abstract group theory; representation theory; point groups; selection rules; crystal tensors; molecular vibrations; rotation group; SU(2); Wigner-Eckart theorem; crystal-field splitting; time-reversal symmetry; gauge invariance; SU(3) and quarks. *Recommended Preparation:* PHYS 558b. Instruction Mode: Lecture Grading Option: Letter

PHYS 669b Group Theory and Symmetries in Physics
Units: 3 Terms Offered: Irregular Application of group theory in field theory and particle physics: Lie groups and representations, Young tableaux, Dynkin diagrams, Poincare group, classical groups and supergroups, gauge theories. *Recommended Preparation:* PHYS 558b. Instruction Mode: Lecture Grading Option: Letter

PHYS 670 High Energy Physics
Units: 3 Terms Offered: Irregular Elementary particles and the fundamental forces acting on them. Quarks, leptons, symmetries, gauge invariance, spontaneously broken symmetry, electroweak theory, quantum chromodynamics grand unified theory, strings. *Recommended Preparation:* PHYS 668. Instruction Mode: Lecture Grading Option: Letter

PHYS 678 Relativistic Quantum Field Theory
Units: 3 Terms Offered: Irregular Computational methods in relativistic quantum field theory: Feynman path integral, covariant perturbation theory, regularization, renormalization group, and non-perturbative techniques. *Recommended Preparation:* PHYS 668. Instruction Mode: Lecture Grading Option: Letter

PHYS 680 Advanced Quantum Field Theory
Units: 3 Terms Offered: Irregular Renormalization, quantization of gauge theories, non-Abelian gauge theories, quantum chromodynamics, spontaneous symmetry breaking, the standard model, anomalies. *Recommended Preparation:* PHYS 678. Instruction Mode: Lecture Grading Option: Letter

PHYS 682 Supersymmetric Field Theory
Units: 3 Terms Offered: Fa Supersymmetry algebra, Coleman-Mandula theorem, N=1 and N=2 Yang-Mills theory, Seiberg duality, holomorphy, introduction to Seiberg-Witten theory, electromagnetic duality, BPS states. *Recommended Preparation:* PHYS 678, PHYS 680. Instruction Mode: Lecture Grading Option: Letter

PHYS 684 Advanced String Theory
Units: 3 Terms Offered: Sp Advanced string theory. Strong coupling and nonperturbative techniques. D-branes, black holes, duality, AdS/CFT. Applications in particle, nuclear and condensed matter physics, and quantum gravity. *Recommended Preparation:* PHYS 530, PHYS 678, PHYS 680. Instruction Mode: Lecture Grading Option: Letter

PHYS 690 Introduction to Physical Biology
Units: 3 Terms Offered: Sp Introduces students to the role of physics in biology. Considers both experimental and more fundamental points of view. Explores a few current research directions. *Recommended Preparation:* good knowledge of basic statistical mechanics and thermodynamics. Instruction Mode: Lecture Grading Option: Letter

PHYS 692 Internship
Units: 3 or 6 Max Units: 6.0 Terms Offered: FaSpSm Field application of physics in a business or industry setting; part-time employment. Project to be jointly defined by student, employer and professor. Instruction Mode: Lecture Grading Option: Letter

PHYS 710 Selected Topics in Experimental Physics
Units: 3 Max Units: 6.0 Course content will vary yearly with current interest. Topics covered may include superconducting quantum interference devices, scanning tunneling microscopy, and laser cooling and trapping of single atoms. Instruction Mode: Lecture Grading Option: Letter

PHYS 720 Selected Topics in Theoretical Physics
Units: 3 Max Units: 6.0 Course content will vary yearly with current interest. Topics covered may include field theory, many body theory, Green's functions, dispersion theory, and group theory. Instruction Mode: Lecture Grading Option: Letter

PHYS 730 Selected Topics in Particle Physics
Units: 3 Max Units: 6.0 Various advanced phases of particle physics. Content will vary yearly; emphasis on superstring theories, advanced topics in quantum gravity, and field theory. *Recommended Preparation:* PHYS 678. Instruction Mode: Lecture Grading Option: Letter

PHYS 740 Selected Topics in Condensed Matter Physics
Units: 3 Max Units: 6.0 Course content will vary yearly with current interest. Topics covered may include theory of superconductivity, high temperature superconductivity, Green's functions in condensed matter physics, magnetism and transport in disordered metals. Instruction Mode: Lecture Grading Option: Letter

PHYS 750o Off Campus Studies
Units: 3 Max Units: 9.0 Course work taken on campus at Caltech as part of the Caltech- USC cross-registration program. Instruction Mode: Lecture Grading Option: Credit/No Credit

PHYS 760 Selected Topics in Computational Physics
Units: 3 Terms Offered: Sp Course content will vary yearly with current interest. Topics covered may include artificial intelligence techniques, Monte Carlo simulations, numerical renormalization group and tensor networks. *Recommended Preparation:* Basic linear algebra and familiarity with one programing language. Prior knowledge of machine learning is not necessary. Instruction Mode: Lecture Grading Option: Letter

PHYS 790 Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Research leading to the doctorate. Maximum units which may be applied to the degree to be determined by the department. Instruction Mode: Lecture, Lab Grading Option: Credit/No Credit

PHYS 794a Doctoral Dissertation
Units: 2 Credit on acceptance of dissertation. Instruction Mode: Lecture, Lab Grading Option: In-progress to Credit/No Credit

PHYS 794b Doctoral Dissertation
Units: 2 Credit on acceptance of dissertation. Instruction Mode: Lecture, Lab Grading Option: In-progress to Credit/No Credit

PHYS 794c Doctoral Dissertation
Units: 2 Credit on acceptance of dissertation. Instruction Mode: Lecture, Lab Grading Option: In-progress to Credit/No Credit

PHYS 794d Doctoral Dissertation
Units: 2 Credit on acceptance of dissertation. Instruction Mode: Lecture, Lab Grading Option: In-progress to Credit/No Credit

PHYS 794z Doctoral Dissertation
Units: 0 Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

Project Management

PJMT 500 Principles of Project Management
Units: 2 Terms Offered: FaSpSm Concepts including delivering project scope within cost, schedule, and resource constraints and the exploration of the traditional or waterfall project management methodology will be explored. Registration Restriction: Open only to Bovard College Project Management students Instruction Mode: Lecture Grading Option: Letter

PJMT 505 Requirements Elicitation and Business Analysis
Units: 2 Terms Offered: FaSpSm Tasks, techniques, and perspectives on how to approach business analysis along with methods for developing requirement process tools and techniques and best practices. Registration Restriction: Open only to Bovard College Project Management students Instruction Mode: Lecture Grading Option: Letter

PJMT 510 Schedule Management
Units: 2 Terms Offered: FaSpSm Structured approach to project schedule management, demonstrating how to be proactive and in control of projects by implementing effective schedule management. Registration Restriction: Open only to Bovard College Project Management students Instruction Mode: Lecture Grading Option: Letter

PJMT 515 Cost Estimation and Forecasting
Units: 2 Terms Offered: FaSpSm Approaches to project cost estimation and the tools and methodologies best suited for estimates and forecasts that need to be prepared. Registration Restriction: Open only to Bovard College Project Management students Instruction Mode: Lecture Grading Option: Letter

PJMT 520 Risk Management
Units: 2 Terms Offered: FaSpSm Coursework will enable students to prepare a comprehensive risk management plan

and discover different approaches to identify, assess, and quantify risks and their impacts. Registration Restriction: Open only to Bovard College Project Management students Instruction Mode: Lecture Grading Option: Letter

PJMT 525 Agile Project Management Methodologies
Units: 2 Terms Offered: FaSpSm Agile project management concepts and a set of frameworks that covers the people, products, and techniques required to successfully implement projects. Registration Restriction: Open only to Bovard College Project Management students Instruction Mode: Lecture Grading Option: Letter

PJMT 530 Quality and Process Improvement
Units: 2 Terms Offered: FaSpSm Quality and performance improvement projects and methodologies used to implement them with a focus on Six Sigma, Lean, and Total Quality Management. Registration Restriction: Open only to Bovard College Project Management students Instruction Mode: Lecture Grading Option: Letter

PJMT 535 Specialized Project Management
Units: 2 Terms Offered: FaSpSm Explores several industries and entities and their developed project management methodologies to meet industry-specific needs through traditional approaches and partnerships in various sectors. Registration Restriction: Open only to Bovard College Project Management students Instruction Mode: Lecture Grading Option: Letter

PJMT 540 Organizational Change Management and Business Relationships
Units: 2 Terms Offered: FaSpSm Students learn to cultivate the necessary components for stakeholder management on nearly any change within an organization through change management and business relationship management. Registration Restriction: Open only to Bovard College Project Management students Instruction Mode: Lecture Grading Option: Letter

PJMT 545 Program Management
Units: 2 Terms Offered: FaSpSm Managing and coordinating multiple organizational projects with a focus on project alignment, organizational goals, performance maximization, risk minimization, and program success. Registration Restriction: Open only to Bovard College Project Management students Instruction Mode: Lecture Grading Option: Letter

PJMT 550 Portfolio Management
Units: 2 Terms Offered: FaSpSm Structured approach to design, build, and manage a project portfolio, focusing on strategic implementation and operational initiatives to create sustainable value. Registration Restriction: Open only to Bovard College Project Management students Instruction Mode: Lecture Grading Option: Letter

PJMT 555 Project Management Capstone
Units: 2 Terms Offered: FaSpSm Utilize skills gained throughout the program to demonstrate the ability to plan and implement a project from conception to conclusion. Registration Restriction: Open only to Bovard College Project Management students Instruction Mode: Lecture Grading Option: Letter

Urban and Regional Planning

PLUS 600 Environmental Goods in Planning and Development
Units: 4 Terms Offered: Irregular Production, distribution, and valuation of environmental goods with attention to amenity concepts, externalities, public goods, consumer behavior; as characterized in economics, political science, sociology, psychology. Instruction Mode: Lecture Grading Option: Letter

PLUS 601 Advanced Planning Theory I
Units: 4 Terms Offered: Fa Value hierarchies, means-ends continuums, and the nature of social action; problems of prediction and choice under conditions of uncertainty; alternative planning strategies. Instruction Mode: Lecture Grading Option: Letter

PLUS 603 Planning and Development Paradigms
Units: 4 Terms Offered: Sp Introduction to historic, prevalent, and alternative paradigms of professional planning and development practice; seminar format and case studies. Instruction Mode: Lecture Grading Option: Letter

PLUS 612 Analysis of Quantitative Data for Planning and Development
Units: 4 Terms Offered: Fa Planning and development case study approach to identifying data needs, acquisition, evaluation, manipulation, analysis, and multimedia presentation. *Prerequisite:* PPD 525. Instruction Mode: Lecture Grading Option: Letter

PLUS 615 Behavioral Issues in Environmental Design
Units: 4 Terms Offered: Irregular Planning and design of the physical environment for human activities, e.g., user preferences, privacy, territoriality, stress and adaptation, cognitive mapping, lifestyles. Instruction Mode: Lecture Grading Option: Letter

PLUS 623 Politics of Planning and the Urban Environment
Units: 4 Terms Offered: Sp Historic roots of property rights and obligations related to public policy, focus on current issues and discourse. Instruction Mode: Lecture Grading Option: Letter

PLUS 626 Information Systems for Planning and Development
Units: 4, 2 years Terms Offered: Sp Structure, content, and applications of formal information systems in planning and policy making emphasizing social accounts and indicators, censuses, social reporting, and "futures" research. Instruction Mode: Lecture Grading Option: Letter

PLUS 631 Seminar in Physical Planning and Design in Developing Countries
Units: 4 Terms Offered: Irregular Issues in comparative urbanism; planning and design in developing countries: slums and squatters, housing and infrastructure, new towns, land policy, conservation and redevelopment, city design. Instruction Mode: Lecture Grading Option: Letter

PLUS 632 National Urban Policy in Developing Countries
Units: 4 Terms Offered: Irregular The problems of the primate city, the role of intermediate cities, and the implicit spatial impacts of macro and sectoral policies. Instruction Mode: Lecture Grading Option: Letter

PLUS 633 Seminar in Comparative Housing Policy and Urban Planning Programs
Units: 4 Terms Offered: Irregular Comparative examination of urbanization experience in selected areas and cities throughout the world; housing policies, urban planning approaches, financial, administrative, legal, and other techniques. Instruction Mode: Lecture Grading Option: Letter

PLUS 635 Urban Finance
Units: 4 Terms Offered: Irregular The theory of fiscal federalism and municipal finance, with examples from the USA and other countries, public/private partnerships in urban development, and government decentralization. Instruction Mode: Lecture Grading Option: Letter

PLUS 640 International Urban Development
Units: 4 Terms Offered: Irregular Study of urbanization in developing countries; special attention to urban growth, migration, city size, land use, and urban management. Comparative case studies. Instruction Mode: Lecture Grading Option: Letter

PLUS 650 Public Policy and Globalization
Units: 4 Terms Offered: Fa Challenges of public policymaking and administration; conceptual foundations of public policy as well as the practical and political constraints on government action; theories, models, and analytical frameworks both domestic and abroad.

PLUS 651 Applied Research Design and Inquiry
Units: 4 Provide foundation in applied research skills required for advanced practice in policy, management, planning and development; design and use of applied research; development of research designs; constraints on application of research; translation of findings. *Prerequisite:* PPD 502

PLUS 652 Place, Institutions, and Governance
Units: 4 Concept of place; investigation of the problems and issues confronting metropolitan communities; how the actions of public, private and nonprofit sectors can effect various areas including economics, health, civic life, and the environment; contemporary issues in policy, planning and development; theoretical frameworks for solutions.

PLUS 653 Leading Change and Innovation in Urban Communities
Units: 4 Terms Offered: Fa In-depth study of the role of public, private, and non-profit leaders in effecting change in public policy and planning practice, with special attention to the goals and processes of social innovation in urban communities.

PLUS 660 Economics of a Productive Development - A Public/Private Perspective
Units: 3 Terms Offered: Fa Introduction to the economic and financial aspects of real estate development; tools and methods of financial analysis; public and private

perspectives. Registration Restriction: Open only to online Master of Urban Planning (executive) students Instruction Mode: Lecture Grading Option: Letter

PLUS 661 Politics and Process of Urban Development
Units: 2 Terms Offered: Fa Introduction of concepts of formal and informal political institutions with a focus on planning and urban issues at the local, state and national levels; theories and methods to understand contemporary planning conflicts. Registration Restriction: Open only to online Master of Urban Planning (executive) students Instruction Mode: Lecture Grading Option: Letter

PLUS 662 Planning and Development Case Study
Units: 1 Terms Offered: Fa Case study project; students analyze a project and develop recommendations for financing and regulatory issues. Registration Restriction: Open only to online Master of Urban Planning (executive) degree students Instruction Mode: Lecture Grading Option: Credit/No Credit

PLUS 663 Designing Livable Environments I
Units: 1 Terms Offered: Fa Studio setting; students will go through a design charrette, site visit and develop an understanding of design principles. Registration Restriction: Open only to online master or urban planning (executive) degree students Instruction Mode: Lecture Grading Option: Credit/No Credit

PLUS 664 Urban Political Economy and Urban Development
Units: 2 Planning and development within a complex political landscape; budgetary and fiscal politics, metropolitan fragmentation and sub urbanization, immigration, and race, gender, and ethnicity in urban politics; implications for planning and development. *Prerequisite:* PLUS 661 Registration Restriction: Open only to online Master of Urban Planning (executive) students Instruction Mode: Lecture Grading Option: Letter

PLUS 665 Economics for a Productive City
Units: 3 Terms Offered: Sp Basic concepts of urban and land economics with an emphasis on how planning and development are shaped by the metropolitan economic context; how key theoretical elements inform planning and development questions. Registration Restriction: Open only to online Master of Urban Planning (executive) students Instruction Mode: Lecture Grading Option: Letter

PLUS 667 Effective Engagement with Stakeholders
Units: 3 Approaches and challenges to community engagement; different conceptualizations of citizen; micro-scale forum and macro-scale methods; use of media for participation in communities. Registration Restriction: Open only to online Master of Urban Planning (executive) students Instruction Mode: Lecture Grading Option: Letter

PLUS 668 Big Data for Planning and Development
Units: 2 Introduction to data and visualization trends in relation to urban planning and development; train leaders to manage teams and leverage data and information technology resources. Registration Restriction: Open only to online Master of Urban Planning (executive) students Instruction Mode: Lecture Grading Option: Letter

PLUS 669 Designing Livable Environments II
Units: 1 Studio setting; students will go through a design charrette, site visit and develop an understanding of design principles. *Prerequisite:* PLUS 663 Registration Restriction: Open only to online Master of Urban Planning (executive) students Instruction Mode: Lecture Grading Option: Credit/No Credit

PLUS 670 Communicating Data for Planning and Development
Units: 1 Methods and techniques for data visualization; application to planning and development contexts; critical assessment of data presentation approaches and methods. Registration Restriction: Open only to online Master of Urban Planning (executive) students Instruction Mode: Lecture Grading Option: Credit/No Credit

PLUS 671 Leading a Collaborative City
Units: 4 Leadership skills for planning and development; cross-sectoral collaboration, negotiation, and theories of organizational leadership; metrics for performance assessment, project management, and team building in organizations. Registration Restriction: Open only to online Master of Urban Planning (executive) students Instruction Mode: Lecture Grading Option: Letter

PLUS 672 Integrating Concepts for Action
Units: 1 Research a planning and development topic; capstone project. Registration Restriction: Open only to online Master of Urban Planning (executive) students Instruction Mode: Lecture Grading Option: Letter

PLUS 680 Advanced Urban and Regional Transportation Planning
Units: 4, 2 years Terms Offered: Fa Social and environmental impacts; incentive structures; alternate travel; investment guidelines; technological change. Instruction Mode: Lecture Grading Option: Letter

PLUS 692 Conspectus Preparation
Units: 4 Terms Offered: FaSpSm Preparation of a case study of a specific planning and/or development project that defines the student's field of study. Instruction Mode: Lecture Grading Option: Letter

PLUS 694a Planning, Design and Development Professional Dissertation
Units: 2 Credit on acceptance of planning, design and development professional dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

PLUS 694b Planning, Design and Development Professional Dissertation
Units: 2 Credit on acceptance of planning, design and development professional dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

PLUS 694c Planning, Design and Development Professional Dissertation
Units: 2 Credit on acceptance of planning, design and development professional dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

PLUS 694d Planning, Design and Development Professional Dissertation
Units: 2 Credit on acceptance of planning, design and development professional dissertation. Instruction Mode: Lecture Grading Option: In-progress and Credit/No Credit

PLUS 694z Planning, Design and Development Professional Dissertation
Units: 0 Credit on acceptance of planning, design and development professional dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

Preventive Medicine

PM 498 Summer Institute in Biostatistics
Units: 2 Terms Offered: Sm Provides undergraduate students in the mathematical or biological sciences with training in fundamental concepts in biostatistics and an introduction to various specialized topics in biostatistics, with a focus on research in heart and lung disease. Instruction Mode: Lecture Grading Option: Letter

PM 499 Special Topics
Units: 1, 2, 3, 4, 5, 6, 7, 8 Max Units: 08 Selected topics in Preventive Medicine. Instruction Mode: Lecture Grading Option: Letter

PM 500 Foundations of Health Behavior
Units: 4 Terms Offered: Fa Overview of behavioral theory and research in disease prevention and health promotion and in adaptation of chronic disease, including an introduction to measures of outcomes. *Prerequisite:* admission to PhD in Preventive Medicine. Instruction Mode: Lecture Grading Option: Letter

PM 501 Foundations in Health Education and Promotion
Units: 4 Terms Offered: FaSpSm Overview and application of behavioral theories to the field of health education and promotion. Examines the determinants of health behavior and strategies for change at the individual, group and community level. Instruction Mode: Lecture Grading Option: Letter

PM 502 Foundations of Public Health
Units: 4 Terms Offered: FaSp Overview of public health concepts and issues, including population health; ethics; health disparities, determinants, and systems of care; global health; policy; health promotion; environmental health. Instruction Mode: Lecture Grading Option: Letter

PM 503 Practice of Public Health
Units: 4 Terms Offered: FaSp Introduction to the application of strategies and tools for practice in public health, including policy advocacy, leadership and management, program planning and evaluation, health communication. *Recommended Preparation:* PM 502 Instruction Mode: Lecture Grading Option: Letter

PM 504 Quality in Health Care
Units: 4 Terms Offered: Sp Examines quality assessment at different levels of the

health care system including health plans, physicians, hospital and integrated system performance. *Recommended Preparation:* PM 502 or PM 508 Instruction Mode: Lecture Grading Option: Letter

PM 505 Training and Curriculum Design in Public Health
Units: 4 Terms Offered: Sm Curriculum writing and training skills applied to public health needs and settings. Covers adult learning theories, assessment of learning needs, curriculum design, training design, conduct and evaluation. *Recommended Preparation:* PM 500. Instruction Mode: Lecture Grading Option: Letter

PM 506 Overcoming Real World Challenges in Global Health
Units: 4 Terms Offered: Fa Overview of program implementation challenges in global health contexts, including best practices for establishing effective cross-cultural collaborations, working with key leaders, and operationalizing complex interventions. Instruction Mode: Lecture Grading Option: Letter

PM 507 Public Health Services Research Methods
Units: 4 Terms Offered: FaSp A practical examination of methods and data sources used to evaluate public health services and conduct policy research and evaluation within health care delivery systems. *Prerequisite:* PM 510L and PM 512 *Recommended Preparation:* PM 502 or PM 508 Instruction Mode: Lecture Grading Option: Letter

PM 508 Health Service Delivery in the U.S.
Units: 4 Terms Offered: FaSpSm Historical development of the American health care system; determinants of health care utilization; role of health care providers; health policy; public health services; and health care finance. *Recommended Preparation:* PM 502 Instruction Mode: Lecture Grading Option: Letter

PM 509 Comparative Health Care Systems
Units: 4 Terms Offered: Sp Macro-level analysis of the structure and delivery of health care services around the world, including an examination and comparison of health system performance. Instruction Mode: Lecture Grading Option: Letter

PM 510L Principles of Biostatistics
Units: 4 Terms Offered: FaSpSm Concepts of biostatistics; appropriate uses and common misuses of health statistics; practice in the application of statistical procedures; introduction to statistical software including EXCEL, SPSS, nQuery. Instruction Mode: Lecture, Lab Required Grading Option: Letter

PM 511aL Data Analysis
Units: 4 Terms Offered: SpSm Major parametric and nonparametric statistical tools used in biomedical research, computer packages including SAS. Includes laboratory. *Prerequisite:* PM 510. Instruction Mode: Lecture, Lab Required Grading Option: Letter Crosslisted as MATH-511A

PM 511bL Data Analysis
Units: 4 Terms Offered: SpSm Statistical methods for analysis of categorical data including dichotomous, ordinal, multinomial and count data, using Stata package. Includes laboratory. *Prerequisite:* PM 511a Instruction Mode: Lecture, Lab Required Grading Option: Letter Crosslisted as MATH 511b

PM 511cL Data Analysis
Units: 4 Terms Offered: FaSpSm Methods and applications for modeling longitudinal, time-to event and multi-level data. Includes laboratory using R package. Instruction Mode: Lecture, Lab Required Grading Option: Letter

PM 512 Principles of Epidemiology
Units: 4 Terms Offered: FaSpSm Terminology/uses of epidemiology and demography; sources/uses of population data; types of epidemiologic studies; risk assessment; common sources of bias in population studies; principles of screening. *Recommended Preparation:* algebra. Instruction Mode: Lecture Grading Option: Letter

PM 513 Experimental Designs
Units: 3 Terms Offered: Sp Statistical methods for analysis of various experimental designs. Parametric analysis of variance (ANOVA), repeated measures methods, crossover designs, non-parametric ANOVA. *Prerequisite:* PM 510L *Recommended Preparation:* PM 511aL Instruction Mode: Lecture Grading Option: Letter

PM 514 Sexually Transmitted Infections: a Systems Approach
Units: 4 Terms Offered: Sm Exploration of the interplay between systems, policy, advocacy, programs, and research with sexually transmitted infections. Issues such as health literacy, access to care, and evidence-based interventions designed to avert disparities in health, especially sexual health, will be evaluated. *Recommended Preparation:* PM 501 and PM 512 Instruction Mode: Lecture Grading Option: Letter

PM 515 Multivariate Statistics in Health Behavior Research
Units: 4 Terms Offered: Sp Advanced training in multivariate statistical techniques involving general linear modeling, mixed modeling and basic latent variables analysis in health behavior research *Prerequisite:* PM 511aL and PM 511bL Instruction Mode: Lecture Grading Option: Letter

PM 516a Statistical Problem Solving
Units: 1 Terms Offered: FaSpSm An overview of the tools used by statisticians for solving statistical problems. *Prerequisite:* PM 510L. Instruction Mode: Lecture, Lab Grading Option: Credit/No Credit

PM 516b Statistical Problem Solving
Units: 1 Terms Offered: FaSpSm An overview of the tools used by statisticians for solving statistical problems. *Prerequisite:* PM 510L. Instruction Mode: Lecture, Lab Grading Option: Credit/No Credit

PM 517a Research Methods in Epidemiology
Units: 4 Terms Offered: FaSp Study design, ascertainment of study objects, questionnaire development, various methodological issues in study design and interpretation including bias, measurement error, confounding and effect modification. *Prerequisite:* PM 510L and PM 511aL and PM 512 *Recommended Preparation:* PM 518a Instruction Mode: Lecture Grading Option: Letter

PM 517b Research Methods in Epidemiology
Units: 3 Terms Offered: FaSp Overview of epidemiologic research in cancer. Selected cancer sites will be covered to highlight study design and conduct, exposure assessment, data analysis and interpretation. *Prerequisite:* PM 517a Instruction Mode: Lecture Grading Option: Letter

PM 518a Statistical Methods for Epidemiological Studies I, II
Units: 3 Terms Offered: Sp Principles and methods used in epidemiology for comparing disease frequencies between groups. Restricted to the analysis of binary outcome variables. *Recommended Preparation:* PM 512 Instruction Mode: Lecture Grading Option: Letter

PM 518b Statistical Methods for Epidemiological Studies I, II
Units: 3 Terms Offered: Sp Statistical methods for binary outcomes by introducing techniques for cross classified risks and rates and regression models for individual data. *Prerequisite:* PM 518a. Instruction Mode: Lecture, Discussion Grading Option: Letter

PM 519 Moving Toward Health Equity in the United States
Units: 4 Terms Offered: FaSpSm A thoughtful perspective on U.S. health services delivery while introducing students to social inequalities in health. Instruction Mode: Lecture Grading Option: Letter

PM 520L Advanced Statistical Computing
Units: 3 Terms Offered: SpSm Techniques for the solution of statistical problems through intensive computing; iterative techniques, randomization tests, the bootstrap, Monte Carlo methods.. Instruction Mode: Lecture, Lab Required Grading Option: Letter

PM 521 Pre-Departure Training to Optimize Global Health Experiences
Units: 1 Terms Offered: Fa A comprehensive pre-departure training course intended to enhance the learning experience for all KSOM learners participating in global health (STEGHs). Registration Restriction: Open only to Keck students School of Medicine students, although clearance can be provided to students from other USC schools upon request Instruction Mode: Lecture Grading Option: Credit/No Credit

PM 522a Introduction to the Theory of Statistics
Units: 3 Terms Offered: FaSp Density distribution and hazard functions; normal, chi-square, student's t and F distributions; and sampling procedures for single factor and multiple factor designs, distributions. *Recommended Preparation:* working knowledge of multivariable calculus and familiarity with linear algebra. Instruction Mode: Lecture Grading Option: Letter

PM 522b Introduction to the Theory of Statistics
Units: 3 Terms Offered: FaSp Theory of estimation and testing, inference, analysis of variance, theory of regression. *Recommended Preparation:* college-level

calculus and linear algebra. Instruction Mode: Lecture Grading Option: Letter

PM 523 Design of Clinical Studies
Units: 3 Terms Offered: Sp Design, conduct, and interpretation of results of clinical trials; emphasis on principles affecting structure, size, duration of a trial, and the impact of ethical and practical considerations. *Recommended Preparation:* PM 511aL Instruction Mode: Lecture Grading Option: Letter

PM 524a Practicum in Health Behavior
Units: 2 Terms Offered: FaSpSm Practical experience in a variety of field settings to gain a certain type of skill such as curriculum development, media production, and patient education. Practicum in prevention. *Recommended Preparation:* PM 500. Instruction Mode: Lecture Grading Option: Letter

PM 524b Practicum in Health Behavior
Units: 2 Terms Offered: FaSpSm Practical experience in a variety of field settings to gain a certain type of skill such as curriculum development, media production, and patient education. Practicum in compliance. *Recommended Preparation:* PM 500. Instruction Mode: Lecture Grading Option: Letter

PM 524c Practicum in Health Behavior
Units: 2 Terms Offered: FaSpSm Practical experience in a variety of field settings to gain a certain type of skill such as curriculum development, media production, and patient education. Practicum in health behavior topics. *Recommended Preparation:* PM 500. Instruction Mode: Lecture Grading Option: Letter

PM 525 Culture and Health: Global Perspectives
Units: 4 Terms Offered: Sp International variations in health status with a focus on the impact of socioeconomic status, politics, environment, education and gender in etiology of illness, access to health care, progression of disease, and recovery. Instruction Mode: Lecture Grading Option: Letter

PM 526 Communications in Public Health
Units: 4 Terms Offered: Sp Application of communication theories and methods to community health problems. Includes background assessment, program design, evaluation, social marketing, media advocacy, review of major health campaigns. *Recommended Preparation:* PM 501 Instruction Mode: Lecture Grading Option: Letter

PM 527 Epidemiology of Infectious Disease
Units: 4 Terms Offered: Sp Survey of natural history of infectious disease, methods of disease control and outbreak investigation, and an overview of the epidemiology of injury. *Prerequisite:* PM 512. Instruction Mode: Lecture Grading Option: Letter

PM 528 Program Design and Evaluation
Units: 4 Terms Offered: Sm Core concepts, methods and values of public health program planning and evaluation, including community needs assessment, writing objectives, designing health promotion programs, process and outcome evaluation. *Recommended Preparation:* PM 501 Instruction Mode: Lecture Grading Option: Letter

PM 529 Environmental Health: An Epidemiological Approach
Units: 4 Terms Offered: Fa An overview of environmental health, identifying issues in assessing effects of exposure on health and potential interventions for reducing adverse health risks. *Prerequisite:* PM 512. Instruction Mode: Lecture Grading Option: Letter

PM 530 Biological Basis of Disease
Units: 4, 2 years Terms Offered: Sp With a physiological overview, differentiates genetic and environmental disease; emphasis on the relationships between lifestyle, behavior, and health. *Prerequisite:* admission to PhD in Preventive Medicine, Health Behavior Research or basic biology. Instruction Mode: Lecture Grading Option: Letter

PM 532 Genetics in Public Health and Preventive Medicine
Units: 4 Terms Offered: Sm History and philosophy of public health genetics and mechanisms of genetic diseases. Epidemiologic methods used to identify genetic diseases in individuals, families, and populations. Emphasis on prevention and relevant ethical issues. *Recommended Preparation:* PM 512. Instruction Mode: Lecture Grading Option: Letter

PM 533 Genetic and Molecular Epidemiology
Units: 3 Terms Offered: FaSpSm Genetic principles; design and analysis of family studies; introduction to likelihood estimation; segregation and linkage analysis; biomarkers of exposure, susceptibility, and disease; laboratory methods; susceptibility genes; association and linkage disequilibrium. *Recommended Preparation:* PM 510L, PM 511bL, PM 512, PM 518a, BIOC 543 Instruction Mode: Lecture Grading Option: Letter

PM 534 Statistical Genetics
Units: 3 Terms Offered: Sp Familial aggregation, segregation analysis, linkage analysis, association, regressive models, gene-environment interactions, genetic heterogeneity and linkage disequilibrium. *Recommended Preparation:* PM 518a, PM 522a Instruction Mode: Lecture Grading Option: Letter

PM 536 Program Evaluation and Research
Units: 4 Terms Offered: Fa Overview of concepts, tools, data collection, analysis methods and designs used to evaluate health promotion programs. Examples from substance abuse prevention, family planning and reproductive health programs. Instruction Mode: Lecture Grading Option: Letter

PM 537 Chronic Disease Epidemiology
Units: 4 Terms Offered: Sm Overview of causative factors and demographic distribution of major chronic diseases in the western world. Epidemiologic concepts, methods and research design as applied to chronic disease prevention will be emphasized. *Prerequisite:* PM 512. Instruction Mode: Lecture Grading Option: Letter

PM 538 Introduction to Biomedical Informatics
Units: 3 Terms Offered: Sm Overview of current topics, enabling technologies, research initiatives, and practical considerations in biomedical informatics. Instruction Mode: Lecture Grading Option: Letter

PM 539 Nutrient-Drug Interactions
Units: 2 Terms Offered: Sm Examines the various ways foods, and the nutrients contained in them, interact with medications used to treat chronic health conditions. Instruction Mode: Lecture Grading Option: Letter

PM 540 Maternal and Child Nutrition: Practice and Policy
Units: 4 Physiological basis for good nutrition during pregnancy and childhood through adolescence. Design, implementation and evaluation of public health nutrition programs and policies serving women and children. *Recommended Preparation:* PM 530. Instruction Mode: Lecture Grading Option: Letter

PM 541 Obesity, Metabolism and Health
Units: 4 Terms Offered: Fa Overview of the epidemiology of obesity, related health conditions and mechanisms related to energy balance, food intake and genetics. Discussion of prevention and treatment strategies. *Recommended Preparation:* PM 530. Instruction Mode: Lecture Grading Option: Letter

PM 542 Social Network Analysis
Units: 4 Terms Offered: Sp Theory, methods and procedures of network analysis with emphasis on applications to public health programs. Instruction Mode: Lecture Grading Option: Letter

PM 543L Nonparametric Statistics
Units: 3 Terms Offered: Irregular (Enroll in MATH 543) Instruction Mode: Includes laboratory.

PM 544L Multivariate Analysis
Units: 3 Terms Offered: SpSm Exploratory and inferential techniques for multivariate data, Hotelling's T2, multivariate analysis of variance, classification analysis, principle components, cluster analysis, factor analysis. Involves computer use. *Recommended Preparation:* PM 510L, PM 522a Instruction Mode: Lecture, Lab Required Grading Option: Letter Crosslisted as MATH 544L

PM 545L Introduction to Time Series
Units: 3 Terms Offered: Fa (Enroll in MATH 545) Instruction Mode: Includes laboratory.

PM 546 Biological Threats and Terrorism
Units: 4 Terms Offered: Fa History of biowarfare and bioterrorism; proper surveillance techniques, capacity building for public health and medical communities, and the importance of effective communications. Methods of preparedness, prevention and response are examined. *Recommended Preparation:* PM 512. Instruction Mode: Lecture Grading Option: Letter

PM 547 Public Health Policy and Politics
Units: 4 Terms Offered: Sm Examination of major policy issues in the U.S. health care delivery system to understand policy options in reforming health care and reducing health care disparities.

Recommended Preparation: PM 502 or PM 508 Instruction Mode: Lecture, Discussion Grading Option: Letter

PM 548 Prevention and Public Policy
Units: 2 Terms Offered: FaSp Introduction to prevention policy framework; examination of how the application of epidemiology and behavioral aspects of diseases shapes the development of public health policy. *Prerequisite:* PM 512 *Recommended Preparation:* PM 502 or PM 508 Instruction Mode: Lecture, Discussion Grading Option: Letter

PM 549 Human Molecular Genetics and Genomics
Units: 4 Terms Offered: FaSpSm Principles of genetics and genomics as they apply to the study of the molecular basis of human diseases. *Recommended Preparation:* Introductory (undergraduate) genetics class and INTD 561 (Molecular Genetics) Duplicates Credit in former BIOC 543 Instruction Mode: Lecture Grading Option: Letter

PM 550 Sample Surveys
Units: 3 (Enroll in MATH 550)

PM 551 Statistical Methods in Genome-Wide Association Studies
Units: 3 Terms Offered: FaSpSm Provides epidemiologists with an overview of current statistical problems and approaches in the design and analysis of genome-wide association studies. *Prerequisite:* PM 511a, PM 512; *Corequisite:* PM 522a. Instruction Mode: Lecture Grading Option: Letter

PM 552 Statistical Methods in Clinical Trials
Units: 3 Terms Offered: Sp Stochastic failure process; parametric models for survival data; sample size estimation procedures for clinical trials; multivariate regression models for binary outcome and censored survival data; computer programs; multiple failure modes and competing risks. *Recommended Preparation:* PM 518a, MATH 408 Instruction Mode: Lecture Grading Option: Letter

PM 553 Human Exposure Assessment for Public Health
Units: 4 Terms Offered: FaSpSm Examination of important routes of exposure to toxic materials; how to measure exposure; strengths and weaknesses of different measurement techniques; design of exposure assessment studies. *Recommended Preparation:* PM 510 or one semester of statistics and background in science or engineering for graduate students not in MPH. Instruction Mode: Lecture Grading Option: Letter

PM 554 Health Effects of Environmental Contaminants
Units: 4 Terms Offered: FaSp Examines the interrelationships among biology, the environment and health, including the fundamental principles of basic toxicology and biology underlying environmental health effects. *Recommended Preparation:* PM 529 Instruction Mode: Lecture Grading Option: Letter

PM 555 Environmental Health, Policy and Practice
Units: 4 Terms Offered: FaSp Examination of environmental public health policies/ regulations, the role of science in assessment and policy initiatives, barriers to change, and competing interests that influence policy adoption. *Recommended Preparation:* PM 529. Instruction Mode: Lecture Grading Option: Letter

PM 556 Environment and the Brain
Units: 4 Terms Offered: FaSpSm An examination of the effects of environmental exposures on the brain, addressing both human health and neurobiologic correlates throughout the lifespan. Instruction Mode: Lecture Grading Option: Letter

PM 557 Global Environmental Health
Units: 4 Terms Offered: Sp Examination of the health effects of global environmental changes, including climate change, globalization, food safety, air pollution, water pollution, and radiation. Instruction Mode: Lecture Grading Option: Letter

PM 558 Environmental Epidemiology: Concepts, Methods, and Practice
Units: 4 Terms Offered: FaSp Examine epidemiologic methods, concepts, and statistical approaches; case-study seminars with structured critiques of current literature on human-environment interactions affecting public health. *Recommended Preparation:* PM 510 and PM 512. Instruction Mode: Lecture Grading Option: Letter

PM 559 Cancer Epidemiology
Units: 4 Terms Offered: FaSpSm Explores the fundamental concepts of cancer epidemiology, including the molecular basis, descriptive epidemiology, and historical and groundbreaking studies that have impacted the field. *Recommended Preparation:* PM 512 or equivalent Instruction Mode: Lecture Grading Option: Letter

PM 560 Statistical Programming With R
Units: 2 Terms Offered: Sm The contents include: R objects, control structure, data input and output, subsetting objects, data manipulation and aggregations, character manipulation, graphics, and writing user-defined functions. *Recommended Preparation:* Knowledge of one programming language other than R or a half-year experience programming in R. Instruction Mode: Lecture Grading Option: Letter

PM 561 Health and Sustainable Development in Costa Rica
Units: 4 Terms Offered: Sm Experiential learning in Costa Rica with daily site visits and lectures on migration, climate change, structural violence in indigenous communities and human rights. Instruction Mode: Lecture Grading Option: Letter

PM 562 Intervention Approaches for Health Promotion and Disease Prevention
Units: 4 Terms Offered: Sp Approaches for modifying health behavior in various settings and within diverse populations. Emphasis on practical considerations necessary to design and implement interventions with demonstrated effectiveness. Instruction Mode: Lecture Grading Option: Letter

PM 563 Organizing and Mobilizing Communities for Public Health
Units: 4 Terms Offered: Sm Survey of effective community organizing and mobilization efforts in the U.S. and abroad, using participatory, organizational, community empowerment and public-private partnership models. Instruction Mode: Lecture Grading Option: Letter

PM 564 Public Health Leadership and Management
Units: 4 Terms Offered: Fa Introduction to leadership and management concepts, tools, and practices in the context of domestic and global public health and healthcare delivery settings. Instruction Mode: Lecture Grading Option: Letter

PM 565 Introduction to Global Health
Units: 4 Terms Offered: FaSp Current public health issues and research topics relating to 21st century challenges and threats. Lessons learned and best practices to strengthen public health systems and enhance public health readiness and preparedness. Instruction Mode: Lecture Grading Option: Letter

PM 566 Introduction to Health Data Science
Units: 4 Terms Offered: Fa An introduction to the toolsets needed to create workable and reproducible datasets, conduct exploratory analysis and visualizations, learn from data, summarize and communicate analytic results. Instruction Mode: Lecture Grading Option: Letter

PM 567 Public Health Disaster Management and Response
Units: 4 Terms Offered: FaSpSm Definition and chronology of natural and man-made disasters and their effects on the global community. Structure and organization of disaster management systems and the role of humanitarian organizations. *Recommended Preparation:* PM 501, PM 512 Instruction Mode: Lecture Grading Option: Letter

PM 568 Ethical Issues in Public Health
Units: 4 Terms Offered: Fa Ethical principles in the distribution of health resources, conduct of global public health research, and implementation of public health initiatives across different nations, cultures, religions. *Recommended Preparation:* PM 501 Instruction Mode: Lecture Grading Option: Letter

PM 569 Spatial Statistics
Units: 3 Terms Offered: FaSpSm An introduction to statistical methods for analyzing and interpreting spatially referenced data topics include: geostatistics, areal data, point pattern data and visualization. *Recommended Preparation:* PM 511aL and familiarity with R Instruction Mode: Lecture Grading Option: Letter

PM 570 Statistical Methods in Human Genetics
Units: 4 Terms Offered: Sp An introductory course in the statistical methods used in the analysis of human genetic data. *Recommended Preparation:* PM 533 Instruction Mode: Lecture Grading Option: Letter

PM 571 Applied Logistic Regression
Units: 3 Terms Offered: Sm An introduction to the logistic regression model, emphasizing practical data analysis techniques. *Prerequisite:* PM 510; PM 512; and PM 511a or PM 518a. Instruction Mode: Lecture Grading Option: Letter

PM 572 Medical Physiology I
Units: 4 Terms Offered: Fa (Enroll in INTD 572)

PM 573 Medical Physiology II
Units: 4 Terms Offered: Sp (Enroll in INTD 573)

PM 574 Programming In Modern Statistical Software
Units: 2 Terms Offered: FaSpSm Programming using SAS Software, including branching, sub-setting, PDV, looping, by-group processing, array, combining data functions, ODS, and macros. Instruction Mode: Lecture Grading Option: Letter

PM 575 Statistical Methods in Environmental Epidemiology
Units: 3 Terms Offered: FaSpSm Study designs, exposure time response, longitudinal, spatial, ecologic correlation and mechanistic models, measurement error interactions, measurement error, public policy implications. *Recommended Preparation:* PM 511aL and PM 511bL and PM 518a Instruction Mode: Lecture Grading Option: Letter

PM 576 Global Health Research and Programs
Units: 4 Terms Offered: Sm Introduction to the core concepts and methods of planning and implementing health-related programs and research in resource-constrained settings. Instruction Mode: Lecture Grading Option: Letter

PM 577 Global Health, Law and Human Rights: Concepts and Methods
Units: 1, 2, 3, 4 Terms Offered: Sm Highlights the complex interactions between global health, law and human rights, emphasizing the use of human rights in public health thinking and practice. *Recommended Preparation:* MPH core course work Duplicates Credit in LAW 707 Instruction Mode: Lecture Grading Option: Letter

PM 578 Global Health Governance and Diplomacy
Units: 4 Terms Offered: FaSp Investigates the way health is organized and administered at the global level, emphasizing the role of international diplomacy and law in governing health. Instruction Mode: Lecture Grading Option: Letter

PM 579 Statistical Analysis of High-Dimensional Data
Units: 4 Terms Offered: FaSpSm Overview of statistical issues and solutions to high dimensional data analysis. Use of Bioconductor and R, with applications in molecular biology. *Recommended Preparation:* PM 511a. Instruction Mode: Lecture Grading Option: Letter

PM 580 Foundations of Child Health
Units: 4 Terms Offered: Sp Overview of issues related to infant, child and adolescent health, including special health considerations at different points in the developmental cycle, health care systems and policies and health disparities. Instruction Mode: Lecture Grading Option: Letter

PM 581 Quality and Inequality in Health Care: Examination of Health Services
Units: 4 Terms Offered: Fa Social inequalities, including racial/ethnic disparities and income related inequalities are examined in the context of access and delivery of health care in the U.S. Instruction Mode: Lecture Grading Option: Letter

PM 582 Epidemiology and Prevention of Pediatric Injuries
Units: 4 Terms Offered: Fa Examines the incidence and causes of injuries to children from birth to adolescence, risk factor distributions and approaches to prevention. Instruction Mode: Lecture Grading Option: Letter

PM 583 Foundations of Early Childhood Mental Health
Units: 4 Terms Offered: Fa Overview of major infant and early childhood mental health issues, relating to the status of child mental health and the importance of comprehensive systems of care for children that support resilience and respond to biological and psychosocial mental health risks. Instruction Mode: Lecture Grading Option: Letter

PM 584 Systems of Care for Children with Special Needs
Units: 4 Terms Offered: Sm Examines and evaluates principles, policies, programs and practices (systems) that have evolved to identify, assess and meet the special needs of children and families. Includes both historical and current perspectives. Instruction Mode: Lecture Grading Option: Letter

PM 585 Child Health Policy
Units: 4 Terms Offered: Sp History of child health and social welfare programs during the past century. Issues examining health status and health service delivery, the role of health care financing and health policy. Instruction Mode: Lecture Grading Option: Letter

PM 586 Reproductive and Perinatal Epidemiology
Units: 4 Terms Offered: FaSpSm Introduction to reproductive health, from preconception to the neonatal and early period of human development. Heavy emphasis on the methods and public health implications. *Prerequisite:* PM 510L and PM 512 Instruction Mode: Lecture Grading Option: Letter

PM 587 Qualitative Research Methods in Public Health
Units: 4 Introduction to common uses of qualitative research methods in public health research and application. Methods include ethnography, participant observation, open-ended interviewing, and focus groups. Instruction Mode: Lecture Grading Option: Letter

PM 588 The Practice of Epidemiology
Units: 4 Terms Offered: FaSpSm Provides students with hands on experience of the common methods used in conducting epidemiological studies, and designing and obtaining funding for research projects. *Prerequisite:* PM 512; *Recommended Preparation:* PM 527. Instruction Mode: Lecture, Lab Grading Option: Letter

PM 589 Global Health Policy in Action: Geneva Course
Units: 4 Terms Offered: Sm Investigates the way health is organized and administered at the global level by integrating students directly into the World Health Assembly (WHA), the decision-making body of the World Health Organization. *Recommended Preparation:* PM 577 Instruction Mode: Lecture Grading Option: Letter

PM 590 Directed Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Terms Offered: FaSpSm Research leading to the master's degree. Maximum units which may be applied to the degree to be determined by the department. Instruction Mode: Lecture Grading Option: Credit/No Credit

PM 591 Machine Learning for the Health Sciences
Units: 4 Terms Offered: FaSpSm Introduces Masters and Ph.D. students in the Health Sciences to Machine Learning methods and their Biomedical applications. *Recommended Preparation:* PM 511aL Instruction Mode: Lecture, Lab Grading Option: Letter

PM 592 Regression Analysis for Health Data Science
Units: 4 Terms Offered: FaSpSm Provides a rigorous introduction to statistical methods for analyzing data with a focus on regression modeling for continuous and binary outcomes. *Recommended Preparation:* Undergraduate course in statistics, or PM 510L in the summer prior to program admission Instruction Mode: Lecture Grading Option: Letter

PM 594a Master's Thesis
Units: 2 Terms Offered: FaSpSm Credit on acceptance of thesis. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

PM 594b Master's Thesis
Units: 2 Terms Offered: FaSpSm Credit on acceptance of thesis. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

PM 594z Master's Thesis
Units: 0 Terms Offered: FaSpSm Credit on acceptance of thesis. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

PM 595 Internship for Curricular Practical Training
Units: 1, 2, 3 Max Units: 03 Terms Offered: FaSpSm Part-time or full-time, practical work experience in the student's field of study. The internship must be located at an off-campus facility. Students are individually supervised by faculty. Registration Restriction: Open only to graduate students Instruction Mode: Lecture Grading Option: Credit/No Credit

PM 596 Practicum in Public Health
Units: 1 Terms Offered: FaSpSm Applied practical experience through field placement in federal, state, and/or local public health agencies/organizations, including community-based organizations; research and school-based settings. *Recommended Preparation:* PM 502, PM 503 and at least one MPH concentration core course Instruction Mode: Lecture Grading Option: Credit/No Credit

PM 597 Capstone in Public Health
Units: 1 Terms Offered: FaSpSm Provides the culminating, integrative learning experience for students enrolled in the Master of Public Health program. *Recommended Preparation:* completion of all MPH course work Instruction Mode: Lecture Grading Option: Letter

PM 599 Special Topics
Units: 2, 3, 4 Max Units: 8.0 Terms Offered: Irregular Special topics relevant to the study of selected issues and areas of health behavior research or other aspects of preventive medicine. Instruction Mode: Lecture Grading Option: Letter

PM 601 Basic Theory and Strategies in Prevention
Units: 4, 2 years Terms Offered: Fa Psychosocial basis of health hazardous lifestyle behaviors and preventive strategies. *Recommended Preparation:* PM 500, PM 515. Instruction Mode: Lecture Grading Option: Letter

PM 602 Basic Theory and Strategies for Compliance/Adaptation
Units: 4, 2 years Terms Offered: Fa Behavioral and psychosocial demands of acute and chronic diseases. Comparison of theoretical models of compliance and adaptation with intervention methods to improve compliance and adaptation. *Recommended Preparation:* PM 500, PM 515. Instruction Mode: Lecture Grading Option: Letter

PM 603 Structural Equation Modeling
Units: 4, 2 years Terms Offered: Fa Factor analytic and structural equation modeling approaches to health behavior research — conceptual, practical and mathematical. *Prerequisite:* PM 511b. Instruction Mode: Lecture Grading Option: Letter

PM 604 Health Behavior Research Methods
Units: 4 Terms Offered: Sp Health research/evaluation philosophies, approaches, and development of skills for development and critique of health behavior research projects/studies. *Recommended Preparation:* PM 511a, PM 511b, PM 511c. Instruction Mode: Lecture Grading Option: Letter

PM 605 Systematic Review and Meta-Analysis
Units: 4 Terms Offered: FaSpSm Theoretical basis and practical approaches for identifying, summarizing and interpreting current bodies of scholarly information addressing a defined research question. *Prerequisite:* PM 510 and PM 512 Instruction Mode: Lecture Grading Option: Letter

PM 606 Health Data Science Practicum
Units: 3 Terms Offered: FaSpSm Analysis of an external medical research or healthcare industry dataset; project/presentation based. Instruction Mode: Lecture Grading Option: Letter

PM 607 Nutrition and Health: Myths, Controversies and Science
Units: 4 Terms Offered: Sp Introduces students to methods in Nutrition Epidemiology in order to develop skills needed to design, analyze and critically evaluate nutrition related health research. *Recommended Preparation:* PM 510L and PM 512 Instruction Mode: Lecture Grading Option: Letter

PM 608 Environmental and Genetic/Epigenetic Epidemiology
Units: 2 Terms Offered: FaSpSm A forum in which students develop speaking and presentation skills while critically evaluating epidemiological methods in epidemiology research. *Recommended Preparation:* Graduate students take this course after their first year of coursework Instruction Mode: Lecture Grading Option: Letter

PM 610 Seminar in Biostatistics and Epidemiology
Units: 1 Max Units: 4.0 Terms Offered: FaSpSm Special topics of current interest to provide background for research in biostatistics and epidemiology. Based largely on student dissertation research. *Prerequisite:* PhD level. Instruction Mode: Lecture Grading Option: Credit/No Credit

PM 611 Advanced Topics in Epidemiology
Units: 3 Terms Offered: Irregular Review of current epidemiologic research contained in recent medical literature; emphasis on critique of studies and interpretation of findings. Instruction Mode: Discussion Grading Option: Letter

PM 612a Clinical Translational Research (CTR)
Units: 4 Terms Offered: Fa First of three courses in CTR, a discipline that fosters multidirectional integration of basic, patient-oriented and population-based research with the long-term goal of improving public health. *Recommended Preparation:* PM 510. Instruction Mode: Lecture Grading Option: Letter

PM 612b Clinical Translational Research (CTR)
Units: 4 Terms Offered: Sp Analysis and interpretation of data to test clinical translational hypotheses. *Recommended Preparation:* PM 510. Instruction Mode: Lecture Grading Option: Letter

PM 612c Clinical Translational Research (CTR)
Units: 4 Terms Offered: Sm Multidisciplinary approach to clinical and translational research. *Recommended Preparation:* PM 510. Instruction Mode: Lecture Grading Option: Letter

PM 615 Intervention Research Grant Proposal Development
Units: 4 Terms Offered: FaSp Process of applying for research grants in health behavior research, including dissertation grants. Covers the structure of NIH and other grantmaking agencies, the grant review process, tailoring ideas to the grantmaker's priorities, research design, development of training and mentoring plans, and budgeting. *Prerequisite:* PM 500 Instruction Mode: Lecture Grading Option: Letter

PM 690a Directed Research in Health Behavior
Units: 2 Terms Offered: FaSpSm Independent research at an advanced level on a problem in the field of Health Behavior. *Recommended Preparation:* PM 604. Instruction Mode: Lecture Grading Option: Credit/No Credit

PM 690b Directed Research in Health Behavior
Units: 2 Terms Offered: FaSpSm Independent research at an advanced level on a problem in the field of Health Behavior. *Recommended Preparation:* PM 604. Instruction Mode: Lecture Grading Option: Credit/No Credit

PM 690c Directed Research in Health Behavior
Units: 2 Terms Offered: FaSpSm Independent research at an advanced level on a problem in the field of Health Behavior. *Recommended Preparation:* PM 604. Instruction Mode: Lecture Grading Option: Credit/No Credit

PM 690d Directed Research in Health Behavior
Units: 2 Terms Offered: FaSpSm Independent research at an advanced level on a problem in the field of Health Behavior. *Recommended Preparation:* PM 604. Instruction Mode: Lecture Grading Option: Credit/No Credit

PM 690z Directed Research in Health Behavior
Units: 0 Terms Offered: FaSpSm Independent research at an advanced level on a problem in the field of Health Behavior. *Recommended Preparation:* PM 604. Instruction Mode: Lecture Grading Option: Credit/No Credit

PM 756 Research Seminar in Health Behavior
Units: 1 Max Units: 6.0 Terms Offered: FaSp Short seminar presentations and discussions on issues accompanying the development of the field of health behavior and implementation of research in this field. Instruction Mode: Lecture Grading Option: Credit/No Credit

PM 790 Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Terms Offered: FaSpSm Research applicable to the doctorate. Maximum units which may be applied to the degree to be determined by the department. Instruction Mode: Lecture Grading Option: Credit/No Credit

PM 794a Doctoral Dissertation
Units: 2 Terms Offered: FaSpSm Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

PM 794b Doctoral Dissertation
Units: 2 Terms Offered: FaSpSm Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

PM 794c Doctoral Dissertation
Units: 2 Terms Offered: FaSpSm Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

PM 794d Doctoral Dissertation
Units: 2 Terms Offered: FaSpSm Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

PM 794z Doctoral Dissertation
Units: 0 Terms Offered: FaSpSm Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

Pharmaceutical Economics and Policy

PMEP 509 Research Design
Units: 4 Terms Offered: Fa Introduction to the concept of research design and examples of the variant research methods utilized in the field. Both the conceptual and practical issues of research including development of the research question, selection of appropriate methods, data sources and analytic approaches to address the research question will be

addressed. Instruction Mode: Lecture Grading Option: Letter

PMEP 525 Pharmacoeconomics I
Units: 4 Terms Offered: Sp Introduction to pharmacoeconomics with special emphasis on the role of pharmaceuticals and the pharmaceutical industry, insurance, managed care, regulation and pricing. *Recommended Preparation:* Excel for Windows or Mac Registration Restriction: Except through discussion with the instructor Duplicates Credit in former PMEP 538 Instruction Mode: Lecture Grading Option: Letter

PMEP 526 Pharmacoeconomics II
Units: 2 Terms Offered: Sm Continued development of the use of the economic evaluation model, and application of the methods and techniques of economic assessment of pharmaceuticals and other medical technology. *Prerequisite:* PMEP 525 Registration Restriction: Open only to graduate students in Pharmaceuticals Economics and Policy Instruction Mode: Lecture Grading Option: Letter

PMEP 527 Pharmacoeconomics III
Units: 4 Terms Offered: Fa Advanced methods in economic health intervention assessment and pharmacoeconomics with special emphasis on microeconomic modeling and methods for assessing patient and health state preferences. *Prerequisite:* PMEP 525 and PMEP 526 *Recommended Preparation:* Excel for Windows Registration Restriction: Open only to graduate students in Pharmacy and Pharmaceutical Economics and Policy Instruction Mode: Lecture Grading Option: Letter

PMEP 534 Health Economics I
Units: 4 Terms Offered: Fa (Enroll in ECON 636)

PMEP 535 Behavioral Science and Policy in Healthcare
Units: 4 Terms Offered: Sp Use of acquired skills to develop and assess uses of behavioral science to affect health policy. *Recommended Preparation:* PMEP 509 Registration Restriction: Open only to graduate students Duplicates Credit in former PMEP 519 and PMEP 529 Instruction Mode: Lecture Grading Option: Letter

PMEP 539 Economic Assessment of Medical Care
Units: 4 Terms Offered: Fa Principles of cost-benefit analysis and medical cost-effectiveness analysis with applications in medical care and the pharmaceutical field. *Prerequisite:* ECON 500 and ECON 581. Instruction Mode: Lecture Grading Option: Letter

PMEP 544 Health Economics II
Units: 4 Terms Offered: Sp Second of part series in techniques of microeconometric analysis to inform health policy. Topics include: patents and innovation, pharmaceutical regulation, hospital competition, physician practice. *Recommended Preparation:* ECON 601, ECON 611 and ECON 636. Instruction Mode: Lecture Grading Option: Letter

PMEP 547 Programming Methods for Empirical Analysis of Health Data
Units: 4 Terms Offered: Fa Introduction to methods for analysis of large health data sets, including data selection, SAS/Stata programming under Linux, and review of claims and survey data. Instruction Mode: Lecture Grading Option: Letter

PMEP 551 Introduction to Health Econometrics
Units: 4 Terms Offered: Sp Introduction to statistical analysis and regression modeling for health economics and policy research. Topics include: statistical inference, principles of probability and statistics, regression models, and causal inference. Registration Restriction: Open only to PMEP students or instructor permission Instruction Mode: Lecture, Discussion Grading Option: Letter

PMEP 552 Advanced Health Econometrics I
Units: 4 Terms Offered: Fa The expansion of students' knowledge of econometric methods emphasizing, but not limited to, applications to health economics. Serves as a prelude to the advanced study of microeconomics. *Prerequisite:* PMEP 551 or PPD 558 Registration Restriction: Open only to graduate students in Pharmaceutical Economics and Policy; Economics Instruction Mode: Lecture Grading Option: Letter

PMEP 553 Advanced Health Econometrics II
Units: 4 Terms Offered: Sp Covers the transition to independent producers of high-quality empirical research on health and health care. Peer-reviewed research will serve as case studies for class discussion and may address empirical methods. *Prerequisite:* PMEP 552 Registration Restriction: Open only to graduate students in Pharmaceutical Economics and Policy Duplicates Credit in PMEP 549 Instruction Mode: Lecture Grading Option: Letter

PMEP 590 Directed Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Terms Offered: FaSpSm Research leading to the master's degree. Maximum units which may be applied to the degree to be determined by the department. Instruction Mode: Lecture Grading Option: Credit/No Credit

PMEP 596 Internship for Curricular Practical Training
Units: 1, 2, 3 Max Units: 03 Terms Offered: FaSpSm Part-time or full-time, practical work experience in the student's field of study. The internship must be located at an off-campus facility. Students are individually supervised by faculty. May not be taken until the student has completed at least one semester of enrollment in the graduate program with a cumulative 3.0 GPA. Registration Restriction: Open only to graduate students Instruction Mode: Lecture Grading Option: Credit/No Credit

PMEP 698 Seminar in Pharmaceutical Economics and Policy
Units: 1 Max Units: 4.0 Terms Offered: FaSp Current research in pharmaceutical economics and policy presented by outside scholars, faculty and students. Instruction Mode: Lecture Grading Option: Credit/No Credit

PMEP 790 Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Research leading to the doctorate. Maximum units which may be applied to the degree to be determined by the department. Instruction Mode: Lecture Grading Option: Credit/No Credit

PMEP 794a Doctoral Dissertation
Units: 2 Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

PMEP 794b Doctoral Dissertation
Units: 2 Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

PMEP 794c Doctoral Dissertation
Units: 2 Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

PMEP 794d Doctoral Dissertation
Units: 2 Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

PMEP 794z Doctoral Dissertation
Units: 0 Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

Political Science and International Relations

POIR 507 Gender and International Relations
Units: 4 An examination of gender and culture in world society. Feminist perspectives on and critiques of various approaches to international relations theories. MA and other students outside of POIR must obtain faculty permission to register for the course. Registration Restriction: Open only to doctoral students Duplicates Credit in former IR 507 Instruction Mode: Lecture Grading Option: Letter

POIR 509 Culture, Gender and Global Society
Units: 4 Cultural and gendered responses to economic globalization; topics include culture and security, identity politics, clashes of and accommodations among civilizations, modernity, post-modernity and world society. MA and other students outside of POIR must obtain faculty permission to register in the course. Registration Restriction: Open only to doctoral students Duplicates Credit in former IR 509 Instruction Mode: Lecture Grading Option: Letter

POIR 510 Gender, War and Peace
Units: 2 Examination of the extent to which conflict and its resolution have depended on stereotypically gendered associations of men with war and women with peace. MA and other students outside of POIR must obtain faculty permission to register for the course. Registration Restriction: Open only to doctoral students. Duplicates Credit in former IR 510 Instruction Mode: Lecture Grading Option: Letter

POIR 516 Advanced Research Methods: Text, Talk and Context
Units: 4 Text and discourse analysis methods and strategies. Themes include the roles of ideas, identities, policies and interests in various institutional contexts. MA and other students outside of POIR must obtain faculty permission to register

for the course. Registration Restriction: Open only to doctoral students Duplicates Credit in former IR 516 Instruction Mode: Lecture Grading Option: Letter

POIR 517 International Policy Analysis
Units: 4 Game theory and other methodologies applied to the study of international relations. Topics include global and regional public goods, collective action, externalities, treaty information, market failures. MA and other students outside of POIR must obtain faculty permission to register for the course. Registration Restriction: Open only to doctoral students Duplicates Credit in former IR 517 Instruction Mode: Lecture Grading Option: Letter

POIR 518 Historical Memory and Public Diplomacy
Units: 4 Analyzes national identity formation and justification of foreign policy goals, particularly its impact on international relations. MA and other students outside of POIR must obtain faculty permission to register for the course. Registration Restriction: Open only to doctoral students Duplicates Credit in former IR 518 Instruction Mode: Lecture Grading Option: Letter

POIR 519 Field Research Methods in Political Science and International Relations
Units: 4 Methods of social science field research in political science and international relations. MA and other students outside of POIR must obtain faculty permission to register for the course. Registration Restriction: Open only to doctoral students Duplicates Credit in former IR 519 Instruction Mode: Lecture Grading Option: Letter

POIR 520 Formulating US Foreign Policy: How Washington Works
Units: 4 Analyzes U.S. foreign policy, with emphasis on numerous inputs to the decision-making process, from media to conceptions of the national interest to organizational processes. MA and other students outside of POIR must obtain faculty permission to register for the course. Registration Restriction: Open only to doctoral students Duplicates Credit in former IR 520 Instruction Mode: Lecture Grading Option: Letter

POIR 521 Foreign Policy Analysis
Units: 4 Survey of principal theoretical and empirical approaches to foreign policy analysis; such as bureaucratic politics, game theory, formal theory, rational choice theory, and other topics. MA and other students outside of POIR must obtain faculty permission to register for the course. Registration Restriction: Open only to doctoral students Duplicates Credit in former IR 521 Instruction Mode: Lecture Grading Option: Letter

POIR 525 State and Society in International Relations
Units: 4 Assesses the challenges to nation-states and world order presented by trans-border cultural flows, new technologies, and changing patterns of political participation. MA and other students outside of POIR must obtain faculty permission to register for the course. Registration Restriction: Open only to doctoral students Duplicates Credit in former IR 525 Instruction Mode: Lecture Grading Option: Letter

POIR 526 Migration and Diaspora in International Politics
Units: 4 Examines issues of migration, the relationship between citizen and state, economic factors triggering emigration/immigration, transnationalism, and explores the phenomenon of diasporas. MA and other students outside of POIR must obtain faculty permission to register for the course. Registration Restriction: Open only to doctoral students Duplicates Credit in former IR 526 Instruction Mode: Lecture Grading Option: Letter

POIR 531 Strategy and Arms Control
Units: 4 Impact of nuclear weapons on U.S. and U.S.S.R. postwar military policies and strategies; evolution of postwar deterrence postures; development of superpower arms control since 1945. MA and other students outside of POIR must obtain faculty permission to register for the course. Registration Restriction: Open only to doctoral students Duplicates Credit in former IR 531 Instruction Mode: Lecture Grading Option: Letter

POIR 534 East Asian Security Issues
Units: 4 Security politics of China, Japan, ASEAN states, and Southwest Pacific nations; their strategic relations with the superpowers; regional security initiatives: nuclear-free zone politics, ZOPFAN, and indigenous military capacities. MA and other students outside of POIR must obtain faculty permission to register for the course. Registration Restriction: Open only to doctoral students Duplicates Credit in former IR 534 Instruction Mode: Lecture Grading Option: Letter

POIR 535 North African and Middle Eastern Politics
Units: 4 The politics of the Middle East and North Africa (MENA) including nation-building; mobilization of human and natural resources; political recruitment, integration, socialization, and conflict. MA and other students outside of POIR must obtain faculty permission to register for the course. Registration Restriction: Open only to doctoral students Duplicates Credit in former POSC 535 Instruction Mode: Lecture Grading Option: Letter

POIR 539 Conflict Processes
Units: 4 Seminar in international conflict, crisis and war. General perspectives on factors that bring about war or peace. Focus on ethnopolitics and conflict processes. MA and other students outside of POIR must obtain faculty permission to register for the course. Registration Restriction: Open only to doctoral students Duplicates Credit in former IR 539 Instruction Mode: Lecture Grading Option: Letter

POIR 540 Law and Public Policy
Units: 4 The study of law in political science; law and politics in organized societies; law as a policy science; legal and political institutions; administration of justice; political forces influencing legal change. MA and other students outside of POIR must obtain faculty permission to register for the course. Registration Restriction: Open only to doctoral students Duplicates Credit in former POSC 540 Instruction Mode: Lecture Grading Option: Letter

POIR 541 Politics of the World Economy
Units: 4 Survey of approaches to international political economy. Intellectual roots; the management of collective goods; North-South relations are examined. MA and other students outside of POIR must obtain faculty permission to register for the course. Registration Restriction: Open only to doctoral students Duplicates Credit in former IR 541 Instruction Mode: Lecture Grading Option: Letter

POIR 542 Foreign Economic Policies of Industrial Capitalist States
Units: 4 Seminar comparing the political economy and economic policies of countries; evaluation of alternative research methods and theories. Registration Restriction: Open only to doctoral students Duplicates Credit in former IR 542 Instruction Mode: Lecture Grading Option: Letter

POIR 543 Politics of International Monetary and Trade Relations
Units: 4 Political analysis of international monetary and trade relations; emphasis on interactions among industrialized nations. Registration Restriction: Open only to doctoral students Duplicates Credit in former IR 543 Instruction Mode: Lecture Grading Option: Letter

POIR 544 Religion, Politics, and Conflict
Units: 4 How religion has emerged as a powerful force in politics. Conflict resolution, fundamentalism, terrorism, war, American foreign policy and global civil society. MA and other students outside of POIR must obtain faculty permission to register for the course. Registration Restriction: Open only to doctoral students Duplicates Credit in former IR 540 Instruction Mode: Lecture Grading Option: Letter

POIR 545 Critical Issues in Politics and Policy
Units: 4 Selected topics in political science and policy; focus on current issues shaping the U.S. and the world. MA and other students outside of POIR must obtain faculty permission to register for the course. Registration Restriction: Open only to doctoral students Duplicates Credit in former POSC 545 Instruction Mode: Lecture Grading Option: Letter

POIR 546 Environmental Policy
Units: 4 Issues and theories involved in the formulation, implementation, and effectiveness of different environmental policies. MA and other students outside of POIR must obtain faculty permission to register for the course. Registration Restriction: Open only to doctoral students Duplicates Credit in former POSC 546 Instruction Mode: Lecture Grading Option: Letter

POIR 547 Political Economy of Global Space and Environment
Units: 4 Regimes in an anarchic world will be examined, particularly global spaces and resources in political economy. MA and other students outside of POIR must obtain faculty permission to register for the course. Registration Restriction: Open only to doctoral students Duplicates Credit in former IR 547 Instruction Mode: Lecture Grading Option: Letter

POIR 548 The International Political Economy of Development
Units: 4 The political aspects of economic growth, efficiency and distribution are explored for underdeveloped nations in a political science and international relations context. MA and other students outside of POIR must obtain faculty permission to register for the course. Registration Restriction: Open only to doctoral students Duplicates Credit in former IR 545 Instruction Mode: Lecture Grading Option: Letter

POIR 550 Economic Bargaining Theory and Practice
Units: 4 Development of analytical skills and strategies for negotiations over economic and political problems, through study of recent cases, bilateral bargaining, and multilateral bargaining. MA and other students outside of POIR must obtain faculty permission to register for the course. Registration Restriction: Open only to doctoral students Duplicates Credit in former IR 550 Instruction Mode: Lecture Grading Option: Letter

POIR 551 International Political Economy of the Pacific Rim
Units: 4 Terms Offered: Sp Political economy of the Pacific Rim; trade, investment and development strategies. The role of Japan's increasing economic power and that of the changing U.S.–Japan relations and their implications to the rest of the Pacific Rim region. MA and other students outside of POIR must obtain faculty permission to register for the course. Registration Restriction: Open only to doctoral students Duplicates Credit in former IR 551 Instruction Mode: Lecture Grading Option: Letter

POIR 554 Women in Global Perspective
Units: 4 (Enroll in SWMS 554)

POIR 555 Democracy and Democratization in Comparative Perspective
Units: 4 Seminar generates and tests theories of democratization. Readings will focus on Europe, Latin America, Soviet Eurasia emphasizing core theoretical and methodological aspects. MA and other students outside of POIR must obtain faculty permission to register for the course. Registration Restriction: Open only to doctoral students Duplicates Credit in former IR 555 Instruction Mode: Lecture Grading Option: Letter

POIR 556 Latin America and U.S. Foreign Policy
Units: 4 Latin American challenges to U.S. policymakers; U.S. success in achieving its goals; alternative explanations of U.S. behavior. MA and other students outside of POIR must obtain faculty permission to register for the course. Registration Restriction: Open only to doctoral students Duplicates Credit in former IR 556 Instruction Mode: Lecture Grading Option: Letter

POIR 557 Africa and U.S. Foreign Policy
Units: 4 Research problems on international issues arising from the emergence of Africa. MA and other students outside of POIR must obtain faculty permission to register for the course. Registration Restriction: Open only to doctoral students Duplicates Credit in former IR 557 Instruction Mode: Lecture Grading Option: Letter

POIR 560 Feminist Theory
Units: 4 Terms Offered: FaSpSm (Enroll in SWMS 560)

POIR 561 Japanese Foreign Policy and International Relations of East and Southeast Asia
Units: 4 Research problems in political, economic, and security issues in East and Southeast Asia, with special emphasis on the role of Japan. MA and other students outside of POIR must obtain faculty permission to register for the course. Registration Restriction: Open only to doctoral students Duplicates Credit in former IR 561 Instruction Mode: Lecture Grading Option: Letter

POIR 563 Chinese Foreign Policy
Units: 4 Research problems in political, economic, military, and ideological issues. MA and other students outside of POIR must obtain faculty permission to register for the course. Registration Restriction: Open only to doctoral students Duplicates Credit in former IR 563 Instruction Mode: Lecture Grading Option: Letter

POIR 581 International Relations of the Middle East
Units: 4 Examination of salient issues in regional politics such as colonialism, nationalism, identity, religion, development and war. MA and other students outside of POIR must obtain faculty permission to register for the course. Registration Restriction: Open only to doctoral students Duplicates Credit in former IR 581 Instruction Mode: Lecture Grading Option: Letter

POIR 590 Directed Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Research leading to the master's degree. Maximum units which may be applied to the degree to be determined by the department. Grading Option: Graded CR/NC.

POIR 593 Practicum in Teaching Politics and International Relations
Units: 2 Terms Offered: Fa Practical principles for the long-term development of effective teaching within political science and international relations disciplines. Intended for teaching assistants in Dornsife College. Registration Restriction: Open only to doctoral students. Grading Option: Graded CR/NC.

POIR 596 Internship for Curricular Practical Training
Units: 1, 2, 3 Max Units: 03 Terms Offered: FaSpSm Part-time or full-time practical work experience in the student's field of study. The internship must be located at an off-campus facility. Students are individually supervised by faculty. May not be taken until the student has completed at least one semester of enrollment in the graduate program. Registration Restriction: Open only to doctoral students in POIR Instruction Mode: Lecture Grading Option: Credit/No Credit

POIR 599 Special Topics
Units: 2, 3, 4, 5, 6, 7, 8 Max Units: max 8 Subjects in one or more fields in political science.

POIR 600 Political Theory
Units: 4 Survey of literature; examination of approaches, concepts, and issues in the field of political theory. Registration Restriction: Open only to doctoral students. Duplicates Credit in former POSC 530.

POIR 610 Research Design
Units: 4 The course will cover the design of experimental and observational research. We will examine both quantitative and qualitative approaches to social science research. Registration Restriction: Open only to doctoral students.

POIR 611 Introduction to Regression Analysis
Units: 4 The course will introduce students to regression analysis and its application to social science research. Registration Restriction: Open only to doctoral students.

POIR 612 Qualitative Research Design
Units: 4 Terms Offered: FaSp
Design multiple research approaches using qualitative evidence to evaluate the observable implications of theory. Learn deductive, construct, internal, external, and conclusion validity. *Recommended Preparation:* POIR 610 and POIR 611 Registration Restriction: Open only to doctoral students. Instruction Mode: Lecture Grading Option: Letter

POIR 613 Topics in Quantitative Analysis
Units: 4 Introduces statistical models beyond the standard linear regression model. Topics include maximum likelihood estimation, generalized linear models, and advanced methods. Registration Restriction: Open only to doctoral students.

POIR 614 Experimental Political Science
Units: 4 Terms Offered: FaSpSm
Introduction to experimental techniques and applications of experiments in political science. Addresses both the advantages and disadvantages of experiments in political science research. Registration Restriction: Open only to doctoral students.

POIR 615 Formal Models of Politics
Units: 4 Terms Offered: FaSp Introduces basics of game theory and surveys foundational models of American, comparative, and international politics. *Recommended Preparation:* POIR 610 and POIR 611 Registration Restriction: Open only to doctoral students Instruction Mode: Lecture Grading Option: Letter

POIR 616 Advanced Quantitative Methods
Units: 4 Terms Offered: FaSp Bayesian inference in the social sciences and causal inference literature, including experiments, matching, difference-in-difference and regression discontinuity. *Prerequisite:* POIR 617 Registration Restriction: Open only to graduate students Instruction Mode: Lecture Grading Option: Letter

POIR 617 Maximum Likelihood Estimation
Units: 4 Maximum likelihood estimation of binary choice models, duration models, count models, and other models in political science, international relations, and social sciences. MA and other students outside of POIR must obtain faculty permission to register for the course. Registration Restriction: Open only to doctoral students Duplicates Credit in former POSC 600 Instruction Mode: Lecture Grading Option: Letter

POIR 618 Problems of American Politics
Units: 4 Theoretical and methodological

problems in American politics with emphasis on emerging research paradigms. MA and other students outside of POIR must obtain faculty permission to register for the course. Registration Restriction: Open only to doctoral students Duplicates Credit in former POSC 618 Instruction Mode: Lecture Grading Option: Letter

POIR 619 Supreme Court Politics
Units: 4 Role of the Supreme Court in American political institutions. Influences on judicial decision making; appointment and decision making processes; scope of judicial power. MA and other students outside of POIR must obtain faculty permission to register for the course. Registration Restriction: Open only to doctoral students Duplicates Credit in former POSC 619 Instruction Mode: Lecture Grading Option: Letter

POIR 620 American Politics and Policy Processes
Units: 4 Survey of literature; examination of approaches, concepts, and issues in the field of American politics and policy processes. Registration Restriction: Open only to doctoral students. Duplicates Credit in former POSC 510.

POIR 621 American Politics Field Seminar Part II
Units: 4 Terms Offered: FaSp A theoretical and empirical overview of the American politics field. Theoretical topics include behavioralism, rational choice, political psychology; empirical topics include causality. Registration Restriction: Open only to doctoral students.

POIR 622 Political Attitudes and Behavior
Units: 4 Determinants, nature, and consequences of political attitudes and behavior exploring psychological-sociological models, political socialization and learning, and factors affecting trends in attitudes and behavior. MA and other students outside of POIR must obtain faculty permission to register for the course. Registration Restriction: Open only to doctoral students Duplicates Credit in former POSC 622 Instruction Mode: Lecture Grading Option: Letter

POIR 623 Public Law
Units: 4 Problems and research in American constitutional and administrative law and in modern jurisprudence. MA and other students outside of POIR must obtain faculty permission to register for the course. Registration Restriction: Open only to doctoral students Duplicates Credit in former POSC 621 Instruction Mode: Lecture Grading Option: Letter

POIR 624 American Constitutional Law and Theory
Units: 4 Contemporary debates and research on the nature of constitutional interpretation, separation of powers, federalism, civil and political rights and liberties. MA and other students outside of POIR must obtain faculty permission to register for the course. Registration Restriction: Open only to doctoral students Duplicates Credit in former POSC 624 Instruction Mode: Lecture Grading Option: Letter

POIR 625 Political Parties
Units: 4 Parties and organizations in the political system; formal and informal organization and roles; party systems; partisanship; and electoral rules. MA and other students outside of POIR must obtain faculty permission to register for the course. Registration Restriction: Open only to doctoral students Duplicates Credit in former POSC 610 Instruction Mode: Lecture Grading Option: Letter

POIR 626 Executive and Legislative Institutions
Units: 4 Theory and empirical analysis as it relates to the study of political institutions. Legislative politics, executive branch politics, and legislative-executive relations and bargaining. MA and other students outside of POIR must obtain faculty permission to register for the course. Registration Restriction: Open only to doctoral students Duplicates Credit in former POSC 611 Instruction Mode: Lecture Grading Option: Letter

POIR 627 Urban Politics
Units: 4 Problems of government and politics in urban, county, and metropolitan areas. Local and community politics. MA and other students outside of POIR must obtain faculty permission to register for the course. Registration Restriction: Open only to doctoral students Duplicates Credit in former POSC 612 Instruction Mode: Lecture Grading Option: Letter

POIR 630 European Politics
Units: 4 Selected research topics in comparative European politics; political behavior, parties, legislative and executive institutions and processes. MA and other students outside of POIR must obtain faculty permission to register for the course. Registration Restriction: Open only to doctoral students Duplicates Credit in former POSC 630 Instruction Mode: Lecture Grading Option: Letter

POIR 632 Latin American Politics
Units: 4 Comparative analysis of the political structure and institutions of Latin America; participation and alienation; democracies and dictatorships; political science and comparative politics. MA and other students outside of POIR must obtain faculty permission to register for the course. Registration Restriction: Open only to doctoral students Duplicates Credit in former POSC 632 Instruction Mode: Lecture Grading Option: Letter

POIR 633 East Asian Politics
Units: 4 Comparative politics of East Asia; modernization; the roots of political thought and behavior; peripheral area relationships; modern political processes and institutions. MA and other students outside of POIR must obtain faculty permission to register for the course. Registration Restriction: Open only to doctoral students Duplicates Credit in former POSC 633 Instruction Mode: Lecture Grading Option: Letter

POIR 636 Seminar in African Politics
Units: 4 Comparative and international politics of Africa. Analysis of ideologies, political behavior, and institutions in African nations. MA and other students outside of POIR must obtain faculty permission to register for the course. Registration Restriction: Open only to doctoral students Duplicates Credit in former POSC 636 Instruction Mode: Lecture Grading Option: Letter

POIR 637 Chinese Politics
Units: 4 Governmental process in the People's Republic of China including leadership, ideology, political institutions, behavior, and participation. MA and other students outside of POIR must obtain faculty permission to register for the course. Registration Restriction: Open only to doctoral students Duplicates Credit in former POSC 637 Instruction Mode: Lecture Grading Option: Letter

POIR 640 Comparative Politics
Units: 4 Survey of literature; examination of approaches, concepts, and issues in the field of comparative politics. Registration Restriction: Open only to doctoral students. Duplicates Credit in former POSC 520.

POIR 641 Comparative Politics II
Units: 4 Terms Offered: Sp Seminar covering literature and methods in the study of political economy, authoritarianism, redistribution, and political conflict. Builds directly on POIR 640. *Prerequisite:* POIR 640 Registration Restriction: Open only to doctoral students Duplicates Credit in former POSC 641 Instruction Mode: Lecture Grading Option: Letter

POIR 642 Institutions in Comparative and International Politics
Units: 4 Terms Offered: Fa Explores major strands of institutional theory and assesses scholars' views on design of institutions, institutional change, and effects of institutions on behavior and outcomes. Registration Restriction: Open only to doctoral students in POIR.

Units: 4 Terms Offered: FaSp Development of global state of affairs including foundations of political order and economic growth, formation of states in global perspective, survival of non-democracies and adopting inclusive institutions. Registration Restriction: Open only to doctoral students Instruction Mode: Lecture Grading Option: Letter

POIR 648 International Human Rights Law and Policy
Units: 4 Historical and contemporary consideration of human rights issues in world politics. Examination of philosophical foundations of human rights and institutions that enforce international standards. MA and other students outside of POIR must obtain faculty permission to register for the course. Registration Restriction: Open only to doctoral students Duplicates Credit in former POSC 648 Instruction Mode: Lecture Grading Option: Letter

POIR 649 International Law
Units: 4 Topics and cases illustrating general principles and problems in international law. MA and other students outside of POIR must obtain faculty permission to register for the course. Registration Restriction: Open only to doctoral students Duplicates Credit in former POSC 670 Instruction Mode: Lecture Grading Option: Letter

POIR 650 Comparative Politics of East and Southeast Asia
Units: 4 Terms Offered: FaSp Comparison of significant political phenomena between the countries in the East and Southeast Asia region and the long-term consequences of such comparisons.

Registration Restriction: Open only to doctoral students.

POIR 660 Introduction to International Relations Theory
Units: 4 The primary objective of this course is to introduce PhD students to theoretical and empirical issues related to the study of international relations. Registration Restriction: Open only to doctoral students.

POIR 661 International Relations Theory: Advanced
Units: 4 Examines the specialized nomenclature of international relations and the varied interpretations of basic concepts of international theory; conceptual analysis and criticism. Registration Restriction: Open only to doctoral students. Duplicates Credit in former IR 501.

POIR 662 Governance in International Relations
Units: 4 Rules and rule structures in international relations; major theoretical perspectives and empirical research. Registration Restriction: Open only to doctoral students.

POIR 670 International Political Economy
Units: 4 Survey of approaches to international political economy. Intellectual roots; the management of collective goods; North-South relations are examined. Registration Restriction: Open only to doctoral students.

POIR 671 Political Psychology
Units: 4 Terms Offered: FaSp Integrates findings of psychology into the study of international relations and political science. Covers foreign policy decision-making, public opinion, ideology, emotion and common heuristics and biases among other topics. Registration Restriction: Open only to doctoral students Instruction Mode: Lecture Grading Option: Letter

POIR 680 International Security and Foreign Policy
Units: 4 Examination of the interconnected fields of international security and foreign policy, including decision making and patterns of interaction regarding international conflict. Registration Restriction: Open only to doctoral students.

POIR 790 Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Research leading to the doctorate. Maximum units which may be applied to the degree to be determined by the department. Grading Option: Graded CR/NC.

POIR 794a Doctoral Dissertation
Units: 2 Credit on acceptance of dissertation. Grading Option: Graded CR/NC.

POIR 794b Doctoral Dissertation
Units: 2 Credit on acceptance of dissertation. Grading Option: Graded CR/NC.

POIR 794c Doctoral Dissertation
Units: 2 Credit on acceptance of dissertation. Grading Option: Graded CR/NC.

POIR 794d Doctoral Dissertation
Units: 2 Credit on acceptance of dissertation. Grading Option: Graded CR/NC.

POIR 794z Doctoral Dissertation
Units: 0 Credit on acceptance of dissertation. Grading Option: Graded CR/NC.

Portuguese

PORT 120 Portuguese I
Units: 4 Terms Offered: FaSp For students with no proficiency in Portuguese. Practice in listening comprehension, oral communication, elementary reading and writing. Instruction Mode: Lecture Grading Option: Letter

PORT 150 Portuguese II
Units: 4 Terms Offered: FaSp For students with some language proficiency in Portuguese; increased emphasis on listening, comprehension, oral communication, reading, and writing. Students will be required to take a Portuguese placement exam in the Spanish and Portuguese Department. *Prerequisite:* PORT 120. Instruction Mode: Lecture Grading Option: Letter

PORT 175 Accelerated Portuguese I
Units: 4 Terms Offered: FaSp Encourages rapid acquisition through intensive exposure to Portuguese while following a proficiency-oriented approach. Recommended for students with a background in Spanish or another Romance language. *Recommended Preparation:* at least two years or equivalent of formal study of either Spanish or another Romance language, and/or fluent or native speakers of Spanish or a Romance language, including heritage speakers of Portuguese Instruction Mode: Lecture Grading Option: Letter

PORT 220 Portuguese III
Units: 4 Terms Offered: FaSp Intensive work in listening comprehension, oral communication, reading and writing, with emphasis on free expression; readings related to Portuguese culture and civilization. *Prerequisite:* PORT 150. Instruction Mode: Lecture Grading Option: Letter

PORT 225 Accelerated Portuguese II
Units: 4 Terms Offered: FaSp Continuation of rapid acquisition of Portuguese language. Course follows a proficiency-oriented approach. Recommended for students with a background in Spanish or another Romance language. *Recommended Preparation:* PORT 175 or equivalent. Recommended for students with at least two years or equivalent of formal study of either Spanish or another Romance language. Recommended for fluent or native speakers of Spanish or a Romance language, including heritage speakers of Portuguese. Instruction Mode: Lecture Grading Option: Letter

PORT 240 Portuguese IV
Units: 4 Four-skills course with review of grammar. Writing and reading intensive. Authentic materials related to Lusobrazilian culture and civilization. *Prerequisite:* PORT 220. Instruction Mode: Lecture Grading Option: Letter

PORT 250g Visions of Brazil
Units: 4 Terms Offered: FaSp Comparative study of Brazil in the context of the Lusophone (Portuguese-speaking) world, especially Portugal's former colonies in Africa. Materials drawn from literature, visual culture, music and cultural theory. Satisfies New General Education in Category B: Humanistic Inquiry Satisfies Old General Education in Category II: Global Cultures and Traditions Instruction Mode: Lecture Grading Option: Letter

PORT 300 Introduction to Social and Literary Studies
Units: 4 Terms Offered: FaSp A third year Portuguese course aimed at advanced-level students in Portuguese. Examines and reviews the more complex Portuguese grammatical points, usage, and provide the students further opportunity to perfect their reading, writing and speaking abilities. *Prerequisite:* PORT 120 and PORT 150 and PORT 220 and PORT 240 Instruction Mode: Lecture Grading Option: Letter

Units: 4 Choice of models in nation-building; party and other means of mass mobilization; elite recruitment and differentiation; peculiarities of cultures and subcultures; integration of ethnic and other minorities; political socialization and secularization; legitimization. Instruction Mode: Lecture Grading Option: Letter

POSC 451 Politics of Resources and Development
Units: 4 Comparison of relationships between rich and poor countries involving political and economic resources and prospects for development; impact on industrialized states; interdependence; new international economic order. Instruction Mode: Lecture Grading Option: Letter

POSC 452 Critical Issues in Law and Public Policy
Units: 4 Max Units: 12.0 Terms Offered: FaSpSm Intensive examination of special topics in the field of law and public policy. Instruction Mode: Lecture Grading Option: Letter

POSC 453 Political Change in Asia
Units: 4 Modernization and political development in China and Japan; Asia's economic "miracles" (Taiwan, Japan, Korea, etc.); nationalism and communist movements in East and Southeast Asia. Instruction Mode: Lecture Grading Option: Letter

POSC 456 Women in International Development
Units: 4 How various developmental theories analyze the role of women as producers and how Third World women are increasing their role in development. Instruction Mode: Lecture Grading Option: Letter Crosslisted as SWMS-456

POSC 463 European Politics
Units: 4 Institutions, cultures and politics of western Europe, eastern Europe and Russia; internationalization; historical and contemporary political, economic, and social change. Instruction Mode: Lecture Grading Option: Letter

POSC 464 Politics of Russia and Eastern Europe
Units: 4 Culture, society, and politics in Russia and in Eastern Europe. Contemporary political institutions and processes. Instruction Mode: Lecture Grading Option: Letter

POSC 469 Critical Issues in Comparative Politics
Units: 4 Max Units: 12.0 Terms Offered: FaSpSm Intensive examination of critical issues of particular interest in the field of comparative politics. Instruction Mode: Lecture Grading Option: Letter

POSC 475 The Future of California
Units: 4 (Enroll in MDA 475)

POSC 476 Contemporary Political Thought
Units: 4 20th century political philosophy dealing with major movements in psychological, existential, socialist, and nationalist thought as they bear upon the crisis of political authority in our time. Instruction Mode: Lecture Grading Option: Letter

POSC 479 Critical Issues in Political Thought
Units: 4 Max Units: 12.0 Terms Offered: FaSpSm Intensive examination of critical issues of particular interest in the field of political thought. Instruction Mode: Lecture Grading Option: Letter

POSC 490x Directed Research
Units: 1, 2, 3, 4, 5, 6, 7, 8 Max Units: 12.0 Individual research and readings. Instruction Mode: Lecture Grading Option: Letter

POSC 499 Special Topics
Units: 2, 3, 4 Max Units: 8.0 Instruction Mode: Lecture Grading Option: Letter

Policy, Planning, and Development

PPD 100m Los Angeles, The Enduring Pueblo
Units: 4 Terms Offered: FaSp Gateway to the minor in Planning and Development. Ethnic history of Los Angeles, emphasis placed on architecture, planning, and development. Multiplicity of cross-connections shaped by race, ethnicity, religion, gender, and sexual orientation. Duplicates Credit in former PLDV 100. Instruction Mode: Lecture Grading Option: Letter

PPD 203 Economic Analysis for Public Policy
Units: 4 Economic foundations for public policy analysis; concepts of efficiency and equity, analysis of market failure and policy interventions; challenges in policy-making. *Corequisite:* MATH 117 Instruction Mode: Lecture Grading Option: Letter

PPD 225 Public Policy and Management
Units: 4 Terms Offered: FaSp Institutions, legal context, and processes of public policy and management. Contemporary theories of public policy formulation, implementation, and evaluation. Public managerial challenges and reforms. Instruction Mode: Lecture Grading Option: Letter

PPD 227 Urban Planning and Development
Units: 4 Terms Offered: FaSp Gateway to BS, Public Policy, Management and Planning and minor in Planning and Development. City building and development process; who plans, politics of planning and development; major topics include land use, fiscal policy, transportation, sustainability, and economic development. Instruction Mode: Lecture Grading Option: Letter

PPD 240g Citizenship and Public Ethics
Units: 4 Terms Offered: Fa, Sp Review of legal and ethical traditions of citizenship with emphasis on the latter; consideration of implications for current practice of public policy-making and management. Satisfies New General Education in Category C: Social Analysis Duplicates Credit in former PPMT 240. Instruction Mode: Lecture Grading Option: Letter

PPD 245g The Urban Context
Units: 4 Terms Offered: Fa The urban context for planning and policy decisions. Socioeconomic, physical and spatial structure of cities; and the underlying demographic, economic and social processes that drive their ongoing transformation. Satisfies New General Education in Category C: Social Analysis Instruction Mode: Lecture Grading Option: Letter

PPD 250m Cities in the Developing World
Units: 4 Terms Offered: FaSp The transition from traditional to modern cities in the developing world. Primacy and dualism; comparative urbanism as an expression of cultural variation; contrast in Western cities. Instruction Mode: Lecture Grading Option: Letter

PPD 300 Social Justice Issues in Public Policy and Urban Planning
Units: 4 Terms Offered: FaSp Social justice issues through the lens of public policy and urban planning with main focus on Los Angeles; critical thinking skills about the fields and their relevance to social justice Registration Restriction: Open only to BS, Public Policy and BS, Urban Studies and Planning students Instruction Mode: Lecture Grading Option: Letter

PPD 301 PPD Practices: Internship Seminar
Units: 2 Terms Offered: FaSpSm Policy, planning, and development skills for practice; internship seminar; leadership, group dynamics and presentation skills; application of management; organizational diversity; reflection on experiences. Duplicates Credit in RED 201 and RED 301 Instruction Mode: Lecture Grading Option: Credit/No Credit

PPD 303 Statistics for Policy, Planning, and Development
Units: 4 Terms Offered: FaSpSm Statistical applications applied to the real world; techniques including probability, sampling; hypothesis formation and testing; correlation, and linear regression. *Prerequisite:* MATH 117g Duplicates Credit in PPD 404 Instruction Mode: Lecture Grading Option: Letter

PPD 306 Visual Methods in Policy, Management, Planning and Development
Units: 4 Terms Offered: FaSp Introduction to graphic design, photodocumentation, and geographic information systems as employed in planning, policy, and development. Visual explanations. Computer and by-hand applications. Duplicates Credit in former PLDV 410. Instruction Mode: Lecture Grading Option: Letter

PPD 313 Finance of the Public Sector
Units: 4 Terms Offered: FaSp Justifications for and effects of government policies; tax and spending sides of government budgets; public goods; externalities; social insurance; redistribution and welfare; tax policy. *Prerequisite:* ECON 203. Duplicates Credit in former PPMT 313. Instruction Mode: Lecture Grading Option: Letter

PPD 314 Public Policy and Law
Units: 4 Terms Offered: Fa Institutional foundations and analysis of public policy issues; policy formulation and implementation; application of theories; case analyses. Instruction Mode: Lecture Grading Option: Letter

PPD 315 Analytic Foundations for Public Policy
Units: 4 Terms Offered: Sp Qualitative methods of analysis; ethical and political implications of policy choices; issue diagnosis and policy design skills; critical reasoning and ethics; policy leadership. Instruction Mode: Lecture Grading Option: Letter

PPD 316 Human Resource Management for Public Organizations
Units: 4 Terms Offered: FaSp Human resource development and management; values and processes in civil service career systems; training practices; human relations in supervision; personnel theory. Duplicates Credit in former PPMT 316. Instruction Mode: Lecture Grading Option: Letter

PPD 318 Financial Accounting in Public and Nonprofit Organizations
Units: 4 Terms Offered: FaSp Basic accounting principles and concepts necessary for the preparation and understanding of financial statements; accounting for service organizations in the public/nonprofit sector; fund accounting. Duplicates Credit in former PPMT 351. Instruction Mode: Lecture Grading Option: Letter

PPD 320 Organizational Behavior in Public Administration
Units: 4 Terms Offered: FaSp Understanding human behavior in public organization: motivation, roles, communication; group behavior and decision-making in public context; managing conflict; leadership and change in public complex organizational systems. Duplicates Credit in former PPMT 485. Instruction Mode: Lecture Grading Option: Letter

PPD 325 Fundamentals of Health Policy and Management
Units: 4 Terms Offered: FaSp Learning the institutions of health care delivery and financing; evaluating key health policy issues; understanding and using economic, statistical and mathematical tools as ways to inform health policy issues. Duplicates Credit in former PPD 230 Instruction Mode: Lecture Grading Option: Letter

PPD 330 Introduction to Health Care Systems
Units: 4 Terms Offered: Sp Concepts and determinants of health and illness; health care delivery organizations and programs; the role of the administrator; issues in health care financing and access; quality

evaluation; future trends. Duplicates Credit in former PPMT 330. Instruction Mode: Lecture Grading Option: Letter

PPD 340 The American System of Justice
Units: 4 Terms Offered: Irregular Introduction to the system of justice administration: components — police services, judiciary, corrections; interrelationships and issues; management strategies for change. Duplicates Credit in former PPMT 340. Instruction Mode: Lecture Grading Option: Letter

PPD 342 Crime and Public Policy
Units: 4 Terms Offered: Fa Public policy agenda-setting, alternatives formulation, and implementation for crime and criminal justice; analysis of specific issues including crime control, death penalty and gun control. Duplicates Credit in former PPMT 342. Instruction Mode: Lecture Grading Option: Letter

PPD 343 Terrorism, Homeland Security, and Public Policy
Units: 4 Terms Offered: Fa Overview of terrorism, government policies and practices, issues of civil liberties, challenges to public sector management. Instruction Mode: Lecture Grading Option: Letter

PPD 344 Environmental Policy and Sustainable Development
Units: 4 Introduction to critical issues of environmental policy in looking toward a more sustainable future; the science and policy of climate change; equity and justice; the greening of industry, governing for sustainable development; policy tools in addressing issues of environmental protection and sustainability. Instruction Mode: Lecture Grading Option: Letter

PPD 353 Philanthropy and Social Change
Units: 4 Terms Offered: Fa History, theories, philosophies, and practices of philanthropy; relationship between philanthropy and nonprofit world; grant-making procedures and relation to social innovation. Instruction Mode: Lecture Grading Option: Letter

PPD 357 Government and Business
Units: 4 Terms Offered: FaSp Interrelated roles of business and public institutions; effects of public policies and laws on business sector; incorporates public and business perspectives. *Prerequisite:* ECON 203. Duplicates Credit in former PPMT 357. Instruction Mode: Lecture Grading Option: Letter

PPD 358 Urban and Regional Economics
Units: 4 Terms Offered: Fa Basic concepts of urban and regional economies; how planners intervene in the urban market; housing, transportation, public goods; land use politics; fiscal issues; cost-benefit analysis. Duplicates Credit in former PLDV 402. Instruction Mode: Lecture Grading Option: Letter

PPD 360 Urban Transportation Planning and Policy
Units: 4 Terms Offered: Sp Current transportation planning and policy critiques. Transportation planning; the relationship to urban structure; conventional and para-transit modes; analysis of local plans. Duplicates Credit in former PLDV 480. Instruction Mode: Lecture Grading Option: Letter

PPD 361 Sustainable Communities, Policy and Planning
Units: 4 Terms Offered: FaSp Policy and planning as shaped by sustainability theories; sustainability indicators; topics include water resources, air quality, land use regulations, environmental design, carrying capacity, ecological footprint analysis. Duplicates Credit in former PPD 461 Instruction Mode: Lecture Grading Option: Letter

PPD 364 Technology and the City
Units: 4 Terms Offered: Sp Smart cities; connectivity and technological innovation; effects of technology on infrastructure management and efficiency; how public policy has responded to technological change and identify best practices; case studies on the impact of technology on cities. Instruction Mode: Lecture Grading Option: Letter

PPD 371 The Nonprofit Sector and the Public Interest
Units: 4 Terms Offered: Fa Theories of the voluntary nonprofit sector in society and its relationship to government and business; public policies toward the sector. Duplicates Credit in former PPMT 371. Instruction Mode: Lecture Grading Option: Letter

PPD 372m Public Service in an Urban Setting
Units: 4 Terms Offered: Sp Voluntary service in an urban, multicultural context: diverse meanings and practices, history, motivations, relationship to charity and change, dilemmas, public policies; service learning project required. Duplicates Credit in former PPMT 372. Instruction Mode: Lecture Grading Option: Letter

PPD 373 Public Policy and Planning Analysis
Units: 4 Terms Offered: FaSp Applied analytic modeling and data manipulation; visual presentation; interpretation of data; needs assessment and market failure analysis; indexing; extrapolation and simple forecasting; simple risk analysis; benefit-cost analysis. *Prerequisite:* ECON 203, PPD 225, PPD 303. Duplicates Credit in the former PPD 473. Instruction Mode: Lecture Grading Option: Letter

PPD 380a International Perspectives on Urban Problem Solving
Units: 4 Terms Offered: Irregular Research on comparative urban public policy and administration utilizing case study approach; field research includes study in various foreign cities. Duplicates Credit in former PPMT 412ab. Instruction Mode: Lecture Grading Option: Letter

PPD 380b International Perspectives on Urban Problem Solving
Units: 4 Terms Offered: Irregular Research on comparative urban public policy and administration utilizing case study approach; field research includes study in various foreign cities. Duplicates Credit in former PPMT 412ab. Instruction Mode: Lecture Grading Option: Letter

PPD 382 International Development
Units: 4 Terms Offered: FaSp Definitions and measurements of development; impact of globalization; concept and practice of international and development administration and planning at local, national, and global governance levels. Duplicates Credit in former PLDV 405. Instruction Mode: Lecture Grading Option: Letter

PPD 390 Special Problems
Units: 1, 2, 3, 4 Supervised, individual studies. No more than one registration permitted. Enrollment by petition only. Duplicates Credit in former PLDV 390 and PPMT 390. Instruction Mode: Lecture Grading Option: Letter

PPD 400 Topics in Public Policy and Urban Studies
Units: 4 Terms Offered: FaSp Seminar in cross cutting topics in public policy and urban studies that engages students with faculty and scholars in interdisciplinary research and analysis of key problems and issues in the fields Registration Restriction: Open only to BS, Public Policy and BS, Urban Studies and Planning majors Instruction Mode: Lecture Grading Option: Letter

PPD 402 Management of Public and Nonprofit Organizations
Units: 4 Terms Offered: Fa Contemporary management theory; the nature of complex organizations; organizational and intergovernmental arrangements; roles and responsibilities of managers; managerial and organizational effectiveness; organizational structure and dynamics. Instruction Mode: Lecture Grading Option: Letter

PPD 403 Management Analysis I
Units: 4 Terms Offered: Sp Introduction to organizational and systems analysis; historical perspective; systems theory; information systems, procedure analysis; management planning; introduction to models. Duplicates Credit in former PPMT 403. Instruction Mode: Lecture Grading Option: Letter

PPD 404 Empirical Methods for Public Policy
Units: 4 Terms Offered: FaSp Introduction to multivariate regression analysis for policy analysis; course begins with Ordinary Least Squares (OLS) estimation and covers some advanced topics such as panel data and experimental methods; application of these tools in a variety of policy contexts such as education, labor, and health. *Prerequisite:* PPD 303 Instruction Mode: Lecture Grading Option: Letter

PPD 405 Fundraising for Policy and Planning
Units: 2 Terms Offered: Sp Fundraising in the nonprofit sector; role and structure of philanthropy; strategic issues in the solicitation of private funds for the public good; effect of fundraising on behavior of institutions. Instruction Mode: Lecture Grading Option: Letter

PPD 407 Financial Management of Public and Nonprofit Organizations
Units: 4 Terms Offered: Sp Time value of money, risk, government bonds and tax-exempt financing, cost of capital, budgeting, financial statement analysis, and working capital management. Instruction Mode: Lecture Grading Option: Letter

PPD 410 Comparative Urban Development
Units: 4 Terms Offered: Sp Urbanization and urban development and growth through an international scope; globalizing cities. Instruction Mode: Lecture Grading Option: Letter

PPD 411a Sacramento Semester
Units: 4 Terms Offered: Irregular Exploration of political, economic, and administrative climate of the state government; basic processes and functions considered through seminars, research projects, visitations, group discussions, and internships. Duplicates Credit in former PPMT 411abcd. Instruction Mode: Lecture Grading Option: Letter

PPD 411b Sacramento Semester
Units: 4 Terms Offered: Irregular Exploration of political, economic, and administrative climate of the state government; basic processes and functions considered through seminars, research projects, visitations, group discussions, and internships. Duplicates Credit in former PPMT 411abcd. Instruction Mode: Lecture Grading Option: Letter

PPD 411c Sacramento Semester
Units: 4 Terms Offered: Irregular Exploration of political, economic, and administrative climate of the state government; basic processes and functions considered through seminars, research projects, visitations, group discussions, and internships. Duplicates Credit in former PPMT 411abcd. Instruction Mode: Lecture Grading Option: Letter

PPD 411d Sacramento Semester
Units: 4 Terms Offered: Irregular Exploration of political, economic, and administrative climate of the state government; basic processes and functions considered through seminars, research projects, visitations, group discussions, and internships. Duplicates Credit in former PPMT 411abcd. Instruction Mode: Lecture Grading Option: Letter

PPD 412L GeoDesign Practicum
Units: 4 Terms Offered: FaSp (Enroll in SSCI 412)

PPD 413 Administration of Health Care Organizations
Units: 4 Terms Offered: Sp Theory and practice; role of governing bodies, medical staffs and quality review committees; current trends; community responsibility; regulatory and oversight agencies. Duplicates Credit in former PPMT 439. Instruction Mode: Lecture Grading Option: Letter

PPD 414 Community Health Policy and Planning
Units: 4 Terms Offered: Sp Historical perspectives on and the contemporary practice of community health planning; impact of culture, socioeconomics, and environment; policy dimensions; urban planning's role in enhancing and sustaining health. Instruction Mode: Lecture Grading Option: Letter

PPD 415 Health Policy
Units: 4 Terms Offered: Sp Health policy analysis and challenges; price of health; structure of major sectors in health care; role of insurance in policy debates; trade-offs with policy decisions. *Prerequisite:* PPD 325. Instruction Mode: Lecture Grading Option: Letter

PPD 416 Food Policy and Planning
Units: 2 Terms Offered: Sp Key issues related to the practice of food system planning; practice of creating and implementing food policies; understanding of food systems; issues around community food governance. Instruction Mode: Lecture Grading Option: Letter

PPD 420 Environmental Impact Assessment
Units: 4 Terms Offered: Sp Exploration of the role of the National Environmental Policy Act and the California Environmental Policy Act; study of environmental impact assessments including the regulatory aspects, stakeholder and participatory processes, and legal framework. Instruction Mode: Lecture Grading Option: Letter

PPD 421 Land Use, Environment, and Housing in Developing Countries
Units: 4 Comparative analysis of issues in the built environment in the US and abroad; development, land use, and the supply of housing; housing affordability; land tenure. Instruction Mode: Lecture Grading Option: Letter

PPD 422 Transportation and Technology and the Future of Mobility
Units: 4 Introduction of the role that technology will play in facilitating shared mobility, disrupting transportation markets, and reshaping multi-modal urban transportation systems; analyses of governance issues; the interaction between private markets and regulators; changes in the nature of infrastructure and urban planning that will be required to accommodate the wired future of transportation. Instruction Mode: Lecture Grading Option: Letter

PPD 427L Geographic Information Systems and Planning Applications
Units: 4 Terms Offered: Fa Basic GIS concepts, ArcView and other GIS software, planning applications and databases, basic cartography; students select, research and prepare a planning GIS analysis project. Instruction Mode: Lecture, Lab Required Grading Option: Letter

PPD 429 Urban Design Practicum
Units: 4 Terms Offered: Irregular Application of design concepts and graphic skills to a local design problem sponsored by a local public or private client in a studio setting; site visits, community contact, presentations. *Prerequisite:* PPD 306, PPD 425 . Duplicates Credit in former PLDV 414. Instruction Mode: Lecture Grading Option: Letter

PPD 430 Urban Informatics
Units: 4 Terms Offered: Sp Introduction to urban informatics including the fundamentals of coding, urban data analysis and statistics, visualization, mapping, smart cities/technology and telling stories with data. Instruction Mode: Lecture Grading Option: Letter

PPD 431 Undergraduate Policy, Planning, and Development Studio
Units: 4 Terms Offered: FaSp Application of methods in the exploration of a specific project, policy, or organization from the multiple perspectives of the five tracks in the undergraduate program. Registration Restriction: Open only to Price School of Public Policy juniors and seniors Instruction Mode: Lecture Grading Option: Letter

PPD 438 Local Economic Development
Units: 4 Terms Offered: Fa Economic development in a capitalist system, historic review, sectoral review, funding, strategizing, partnerships, evaluation; class project. Duplicates Credit in former PLDV 447. Instruction Mode: Lecture Grading Option: Letter

PPD 439 Housing and Community Development
Units: 4 Terms Offered: Fa Evolution of government housing and community development programs; present practices, e.g., housing elements, economic development, neighborhood rehabilitation; housing needs and market analysis; housing and health. Duplicates Credit in former PLDV 440. Instruction Mode: Lecture Grading Option: Letter

PPD 466 Urban Government and Management
Units: 4 Terms Offered: Irregular Preparation and discussion of cases dealing with selected policy areas including transportation, housing, poverty, and environmental quality. Duplicates Credit in former PPMT 427. Instruction Mode: Lecture Grading Option: Letter

PPD 468 Cross-Cultural Negotiations: Communication and Strategy
Units: 4 (Enroll in COMM 468)

PPD 475 The Future of California
Units: 4 (Enroll in MDA 475)

PPD 476 Politics and Administration
Units: 4 Terms Offered: Sp Administrative relationships to the policy processes; influence of political and economic pressures on administrative policy determination; political behavior by administrators; case analysis. Duplicates Credit in former PPMT 486. Instruction Mode: Lecture Grading Option: Letter

PPD 478 Social Innovation
Units: 4 Terms Offered: Fa Strategies and processes of social innovation and change; examination of social change in the market, government, and within the nonprofit sector; dynamics; civic action and activism. Instruction Mode: Lecture Grading Option: Letter

PPD 482 Comparative Public Administration
Units: 4 Terms Offered: Sp Methodology, theories, and models of comparison; functional processes of administration in developing and developed nations compared; role of bureaucracy in development and nation-building; ecology of administration. Duplicates Credit in former PPMT 482. Instruction Mode: Lecture Grading Option: Letter

PPD 485m U.S. Immigration Policy
Units: 4 Terms Offered: Fa Examination of the historical and contemporary components of U.S. immigration policy with emphasis on policies addressing legal permanent immigrants, refugees, asylees, the undocumented. Instruction Mode: Lecture Grading Option: Letter

PPD 490x Directed Research
Units: 1, 2, 3, 4, 5, 6, 7, 8 Max Units: 12.0 Terms Offered: FaSpSm Individual research and readings. Duplicates Credit in former PLDV 490x and PPMT 490x. Instruction Mode: Lecture Grading Option: Letter

PPD 497a Senior Thesis
Units: 2 Terms Offered: FaSp Writing of the honors capstone project in an area of interest related to the track of study; research and writing skills. Instruction Mode: Lecture Grading Option: Letter

PPD 497b Senior Thesis
Units: 2 Terms Offered: FaSp Writing of the honors capstone project in an area of interest related to the track of study; research and writing skills. Instruction Mode: Lecture Grading Option: Letter

PPD 498 Senior Honors Seminar
Units: 4 Terms Offered: FaSpSm Concepts, theories, and methods of analysis of a selected topic within the fields of public policy, management and planning. Students must have a 3.5 GPA in PPD courses; 3.0 GPA overall. Instruction Mode: Lecture Grading Option: Letter

PPD 499 Special Topics
Units: 2, 3, 4 Max Units: 8.0 Terms Offered: FaSpSm Selected topics in Policy, Management and Planning. Duplicates Credit in former PLDV 499 and PPMT 499. Instruction Mode: Lecture Grading Option: Letter

PPD 500 Intersectoral Leadership
Units: 2 Roles of public, private, nonprofit, and civil society sectors in policy, planning, and development. Leadership skills in negotiation, conflict resolution, institutional design, problem solving. Instruction Mode: Lecture Grading Option: Letter

PPD 501a Economics for Policy, Planning and Development
Units: 2 Microeconomic theory as applied to policy, planning, and development; concepts of efficiency; macroeconomic issues. Instruction Mode: Lecture Grading Option: Letter

PPD 501b Economics for Policy, Planning and Development
Units: 2 Microeconomic analysis and modeling to incorporate Market failure and issues of uncertainty and information failure; organization models; policy instruments; policy and planning applications. Instruction Mode: Lecture Grading Option: Letter

PPD 502x Statistical Foundations for Public Management and Policy
Units: 2 Terms Offered: FaSp Statistical analysis concepts and reasoning; sampling and data sources; focus on basic statistical applications in public management and policy analysis. Credit Restriction: Not for graduate credit for MHA, MPA, MPP and affiliated degrees. Instruction Mode: Lecture Grading Option: Letter

PPD 503 Economics for Public Policy
Units: 4 Terms Offered: Sp Economic theory as applied to public policy. Concepts of efficiency and equity, analysis of market failure and policy interventions. Duplicates Credit in PPD 501a, PPD 501b Instruction Mode: Lecture Grading Option: Letter

PPD 504 Essential Statistics for Public Management
Units: 2 Terms Offered: FaSpSm Essential statistics for public managers and administrators; application of statistical methods in addressing public policy and management questions. Instruction Mode: Lecture Grading Option: Letter

PPD 505 Modeling for Health Policy and Medical Decision Making
Units: 3 Terms Offered: Fa (Enroll in ISE 505)

PPD 506 Introduction to Microeconomics: Applications in Health
Units: 2 Terms Offered: Fa Key microeconomic concepts and economic fundamentals for health policy and management professionals. Ties economic principles to real-world applications in health and healthcare. Instruction Mode: Lecture Grading Option: Letter

PPD 507 Six-Sigma Methods and Applications
Units: 3 Terms Offered: FaSpSm (Enroll in ISE 507)

PPD 508 Health Care Operations Improvement
Units: 3 Terms Offered: Sp (Enroll in ISE 508)

PPD 509 Problems and Issues in the Health Field
Units: 4 Terms Offered: FaSp Introduction to concepts and facts regarding the healthcare system, healthcare policy, epidemiology and disease trends, prevention, healthcare organizations, personnel, diversity, evidence, delivery systems, population health, financing and reimbursement. Registration Restriction: Open only to graduate students Duplicates Credit in former PUAD 530 Instruction Mode: Lecture Grading Option: Letter

PPD 510a Financial Management of Health Services
Units: 4 Terms Offered: FaSp Accounting principles, financial reports, managerial finance, financial planning, capital investments, working capital analysis; elements of budgeting and reimbursement; performance standards; reporting; developing a management system. *Prerequisite:* PPD 516 *Recommended Preparation:* PPD 504 or competence in statistics Instruction Mode: Lecture Grading Option: Letter

PPD 510b Financial Management of Health Services
Units: 2 Terms Offered: FaSp Changing practices, emerging issues, strategies and innovations in financial planning, management, and regulation; federal and state policies and requirements. *Prerequisite:* PPD 510a and PPD 516 *Recommended Preparation:* PPD 504 or competence in statistics Instruction Mode: Lecture Grading Option: Letter

PPD 511 Health Information Systems
Units: 2 Terms Offered: FaSm Conceptual framework for data base development; relational data management; use of health statistics; health indicators; confidentiality, security, privacy. *Recommended Preparation:* PPD 504 or competence in statistics and PPD 516 or competence in accounting Instruction Mode: Lecture Grading Option: Letter

PPD 512 Health Administration Residency Seminar
Units: 2 Supervised study of health care administration, governance, professional staff relations, internal operations and controls, legal and regulatory requirements, management policy and strategy. *Prerequisite:* PPD 509 Instruction Mode: Lecture Grading Option: Letter

PPD 513 Legal Issues in Health Care Delivery
Units: 2 Terms Offered: FaSp Rights of consumers; health-related powers of governments; rights and responsibilities of health care providers; interrelationships of rights, powers, and responsibilities. *Recommended Preparation:* PPD 509 or substantial prior work experience in health care organizations. Registration Restriction: Open only to graduate students. Instruction Mode: Lecture Grading Option: Letter

PPD 514 Economic Concepts Applied to Health
Units: 4 Terms Offered: FaSpSm Relationships between economic characteristics and health status; impact of economy on health services industry; demand and resources for health services; utilization, prices, costs, health insurance. *Prerequisite:* PPD 506 Instruction Mode: Lecture Grading Option: Letter

PPD 515 Strategic Management of Health Organizations
Units: 4 Terms Offered: FaSpSm Application of principles of health administration in several practice settings. Decision-making; strategic management; organizational performance; communication; provider comparisons. *Prerequisite:* (PPD 506 or HMGT 565) and (PPD 545 or HMGT 520) *Recommended Preparation:* PPD 509, PPD 511, PPD 513, PPD 514, PPD 558 Instruction Mode: Lecture Grading Option: Letter

PPD 516 Financial Accounting for Health Care Organizations
Units: 4 Accounting as a management tool; accounting systems; basic accounting concepts and procedures; budgets; financial statements. Registration Restriction: Open only to graduate students. Instruction Mode: Lecture Grading Option: Letter

PPD 517 Concepts and Practices in Managing Health Care Organizations
Units: 2 Terms Offered: FaSm Application of principles of health administration. Role of managers; managing people and programs; human resource management concepts and applications; working with professionals; governance; public relations. Instruction Mode: Lecture Grading Option: Letter

PPD 518 Quality of Care Concepts
Units: 2 Terms Offered: Sp Quality issues and complexities affecting health care; fundamentals of quality improvement programs; examination of quality issues and improvement programs in various health care venues; strategies. Instruction Mode: Lecture Grading Option: Letter

PPD 519 Methods and Applications of Health Services Research
Units: 2 Terms Offered: Fa Examination of policy and management issues for empirical research; indicators and measurement of outcomes; impact on policy and management decisions; methodology; analysis of quantitative and qualitative data. *Prerequisite:* PPD 514. Instruction Mode: Lecture Grading Option: Letter

PPD 520 Economic Approaches to Health Policy Analysis
Units: 2 Terms Offered: Sp Evaluation of current major health policy challenges and issues; economic analysis of behavioral responses to change in health care policy; new legislation; policy trade-offs. *Prerequisite:* PPD 514. Instruction Mode: Lecture Grading Option: Letter

PPD 521a Information Technology Management Systems in Health Care
Units: 2 Terms Offered: Sm Principles and methods of systems analysis; assessment; strategic planning, design consideration; e-health and e-commerce system trends; health care information systems application areas; regulatory requirements. *Prerequisite:* PPD 511. Instruction Mode: Lecture Grading Option: Letter

PPD 521b Information Technology Management Systems in Health Care
Units: 2 Terms Offered: Sm Principles and methods of systems analysis; assessment; strategic planning, design consideration; e-health and e-commerce system trends; health care information systems application areas; regulatory requirements. Analytic methods used to develop data-driven solutions; specific problems in health care organizations; integrating data; communicating data; interpretation; exploration of new approaches for improvement. *Prerequisite:* PPD 511. Instruction Mode: Lecture Grading Option: Letter

PPD 522 Planning Theory and History for a Just Society
Units: 4 Terms Offered: Fa Explores the history and theories underlying professional planning practice; evolving theoretical frameworks that will shape the planning field. Focuses on theoretical/historical perspectives on social justice, inclusion, and diversity. Instruction Mode: Lecture Grading Option: Letter

PPD 523 Urban and International Development
Units: 4 Terms Offered: Fa Fundamentals of urban development including role of land markets, externalities, economic analysis of market failures; regulations and stakeholders. Applications to U.S. and international contexts. Instruction Mode: Lecture Grading Option: Letter

PPD 524 Planning Theory
Units: 2 Terms Offered: Fa Development of a critical perspective by becoming more aware of the intellectual roots of the planning profession, with a focus on practical outcomes of actions. Duplicates Credit in former PLUS 501. Instruction Mode: Lecture Grading Option: Letter

PPD 525 Statistics and Arguing from Data
Units: 2 Terms Offered: FaSp Fundamentals of probability and statistics, planning analysis techniques, computing standards, and understanding of the rhetoric related to statistical analysis. Duplicates Credit in former PLUS 502. Instruction Mode: Lecture Grading Option: Letter

PPD 526 Comparative International Development
Units: 2 Terms Offered: Fa Introduction to comparative international development with a focus on regional growth and urban development. Duplicates Credit in former PLUS 505. Instruction Mode: Lecture Grading Option: Letter

PPD 527 The Social Context of Planning
Units: 2 Terms Offered: Sp Examination of the formation of the modern urban environment with its consumer culture, social classes, and racial and ethnic diversity. Duplicates Credit in former PLUS 506. Instruction Mode: Lecture Grading Option: Letter

PPD 528 Physical Planning: Urban and Community Design
Units: 2 Terms Offered: Sp Exploration of the theories and concepts of livable communities and good city form. Introductory basics of design and city form. Case studies of historical and current best practices. Instruction Mode: Lecture Grading Option: Letter

PPD 529 Planning Law and Legal Frameworks of Planning
Units: 2 Terms Offered: Sp Understanding of the legal system and its processes and laws applicable to land use and development and the legal nature of powers of public and private entities. Instruction Mode: Lecture Grading Option: Letter

PPD 530 Historical Analysis of Urban Form and Planning Practice
Units: 2 Terms Offered: Sp Awareness, analysis, understanding, and influencing the city building process locally and regionally; isolate and exercise tools and methods of visual literacy. Duplicates Credit in former PLUS 510. Instruction Mode: Lecture Grading Option: Letter

PPD 531L Planning Studio
Units: 4, 8, 12 Max Units: 12.0 Terms Offered: FaSp Application of methods in planning, programming, research, and evaluation in a professional context; data collection and analysis; case studies; practical applications. Duplicates Credit in former PLUS 576L and PLUS 676L. Instruction Mode: Lecture, Lab Required Grading Option: Letter

PPD 532L International Planning and Development Laboratory Workshop
Units: 4, 5, 6, 7, 8 Terms Offered: Sm Application of planning principles and methods to specific urban planning problems abroad; involves preparation in the spring semester and an overseas field visit and a collaborative practicum. Duplicates Credit in former PLUS 575L. Instruction Mode: Lecture, Lab Required Grading Option: Letter

PPD 533 Planning History and Urban Form
Units: 2 History of urban planning with an emphasis on the evolution of how planning shaped the physical environment in response to political, economic, and social issues. Instruction Mode: Lecture Grading Option: Letter

PPD 534 Data, Evidence, and Communication of the Public Good
Units: 4 Terms Offered: Sp Introduction to data analysis for planning practice. Includes quantitative and qualitative methods. Traditional methods such as regression and emerging methods including social media, visual/spatial analysis, programming. Instruction Mode: Lecture Grading Option: Letter

PPD 540 Fundamentals of Public Administration
Units: 4 Terms Offered: FaSpSm Administrative concepts, institutions, legal systems, and practices; values; facilitation of responsibilities and rights; professional applications for personal, private sector and public achievement. Registration Restriction: Open only to graduate students Duplicates Credit in former PUAD 500 Instruction Mode: Lecture Grading Option: Letter

PPD 541 Public Financial Management and Budgeting
Units: 4 Terms Offered: Fa Financial management applied to public and nonprofit organizations; financial valuation, financial markets, budgeting, tax administration, debt financing, cost-benefit analysis and financial analysis. Duplicates Credit in PPDE 645. Instruction Mode: Lecture Grading Option: Letter

PPD 542 Policy and Program Evaluation
Units: 4 Terms Offered: Sm Methods and models for policy and program evaluation; methods of collecting and analyzing evaluation data; processes for linking evaluation to policy formulation and program management. *Prerequisite:* PPD 502. Duplicates Credit in former PUAD 525 and former PUAD 529. Instruction Mode: Lecture Grading Option: Letter

PPD 543 Internship Seminar
Units: 1 Terms Offered: FaSp Supervised study of management, analytical, or other professional activities in government; integration of theory, practice and relevant literature. Duplicates Credit in former PUAD 544. Instruction Mode: Lecture Grading Option: Letter

PPD 545 Public and Nonprofit Organizational Behavior
Units: 4 Terms Offered: FaSpSm Behavior in organizations; focus on personal, interpersonal, and group level factors that influence such behavior. Registration Restriction: Open only to graduate students Duplicates Credit in former PUAD 585 Instruction Mode: Lecture Grading Option: Letter

PPD 546 Capstone in Public Administration
Units: 4 Constitutionally accountable and ethical practice, individually and organizationally; applications of core competencies; practical inquiry, analysis, systems; comparative frameworks; citizenship and public service. *Prerequisite:* PPD 540 and PPD 545 and PPD 542 or PPD 557. Registration Restriction: Open only to master and doctoral students. Instruction Mode: Lecture Grading Option: Letter

PPD 552 Managing and Financing Public Engineering Works
Units: 3 Terms Offered: FaSpSm (Enroll in CE 552)

PPD 554 Foundations of Policy Analysis
Units: 4 Terms Offered: Fa Introduction to public policy analysis; issue diagnosis and policy design; analytic reasoning and argumentation; the role of the public policy professional; ethical issues in policy analysis. Instruction Mode: Lecture Grading Option: Letter

PPD 555 Public Policy Formulation and Implementation
Units: 4 Terms Offered: FaSpSm Political and organizational perspectives on policy making process; agenda setting, policy design, adoption, implementation, evaluation, modification or termination. Policy leadership skills: negotiation and strategic mapping. *Prerequisite:* PPD 554 Instruction Mode: Lecture Grading Option: Letter

PPD 557 Modeling and Operations Research
Units: 4 Terms Offered: FaSpSm Management science methods that support decision making in policy, management, and planning settings. Includes linear programming, queuing theory, decision analysis, and forecasting. *Prerequisite:* PPD 502 or PPD 525. Instruction Mode: Lecture Grading Option: Letter

PPD 558 Multivariate Statistical Analysis
Units: 4 Terms Offered: FaSp Applied multivariate statistics in support of policy, management, and planning problem solving. Includes regression analysis, logit models, and an introduction to time-series models and multi-equation estimation. *Prerequisite:* PPD 504 or PPD 570 Instruction Mode: Lecture Grading Option: Letter

PPD 559 Policy Implementation and Evaluation
Units: 4 Terms Offered: FaSp Theoretical approaches, critical issues, and research methods in public policy implementation. Field-based research project. Duplicates Credit in former PUAD 570. Instruction Mode: Lecture Grading Option: Letter

PPD 560 Methods for Policy Analysis
Units: 4 Terms Offered: Sp Examination of methods used in the analysis of policy methods, including cost benefit analysis, decision and risk analysis, and applied social science methods. *Prerequisite:* PPD 503 and PPD 504 and PPD 554 Instruction Mode: Lecture Grading Option: Letter

PPD 561a Policy Analysis Practicum
Units: 1 Terms Offered: FaSp Application and integration of the knowledge and techniques of analytic, quantitative, managerial, political and ethical analyses to specific public policy problems. *Prerequisite:* PPD 503 and PPD 554 and PPD 555 and PPD 560 and PPD 558 Registration Restriction: Open only to graduate students Instruction Mode: Lecture Grading Option: Letter

PPD 561b Policy Analysis Practicum
Units: 3 Terms Offered: FaSp Application and integration of the knowledge and techniques of analytic, quantitative, managerial, political and ethical analyses to specific public policy problems. Duplicates Credit in former PUAD 589. Instruction Mode: Lecture Grading Option: Letter

PPD 568 Environmental Governance and Sustainability
Units: 2 Terms Offered: Fa Introduction to leading issues of environmental governance and policy in looking toward a more sustainable future; normatively important concerns and the social, cultural, and political dimensions; thematic look from values to action. Instruction Mode: Lecture Grading Option: Letter

PPD 569 Applied International Policy Analysis and Management Project
Units: 4 Terms Offered: Sp Enables students to integrate theory, research and practice into an applied project of their own choosing. The output of this course is a professional report in a selected public policy or management area. Duplicates Credit in former PUAD 507. Instruction Mode: Lecture Grading Option: Letter

PPD 570 Applied Statistics for Planning, Policy and Management
Units: 4 Terms Offered: Sm Use of statistical reasoning to answer questions related to public policy and management. Students will review and understand selected statistical techniques for analyzing data and for addressing public policy and management questions of interest using applied data analysis. Duplicates Credit in former PUAD 523. Instruction Mode: Lecture Grading Option: Letter

PPD 571 International Public Policy and Management Seminar
Units: 4 Terms Offered: Fa An introduction to the concepts and methods of public policy analysis and management. Highlights some of the constraints of the policy process. Includes examples from the United States but also presents comparative views of the contours of public policy in both developed and developing nations. The course applies public policy and management frameworks to selected areas of social policy. Duplicates Credit in former PUAD 524. Instruction Mode: Lecture Grading Option: Letter

PPD 572 Special Issues in International Public Policy
Units: 1, 2, 3, 4 Max Units: 12.0 Terms Offered: FaSpSm Current international public policy on issues such as governmental reform, regulation, social welfare, poverty alleviation and international aid. Policy framework and in-depth analysis of specific topics of relevance to governmental agencies and international organizations. Instruction Mode: Lecture Grading Option: Letter

PPD 582 Transportation System Security and Emergency Management
Units: 4 Terms Offered: FaSp (Enroll in CE 582)

PPD 587 Risk Analysis
Units: 4 Concepts of risk analysis, risk in engineered systems, environmental risk, security risks; fault trees, event trees, risk simulations; risks and decision-making. Instruction Mode: Lecture Grading Option: Letter Crosslisted as ISE 587

PPD 588 Introduction to Transportation Planning Law
Units: 2 Terms Offered: FaSm (Enroll in CE 579)

PPD 589 Port Engineering: Planning and Operational Analysis
Units: 4 Terms Offered: SpSm (Enroll in CE 589)

PPD 590 Directed Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Terms Offered: FaSpSm Research leading to the master's degree. Maximum units which may be applied to the degree to be determined by the department. Instruction Mode: Lecture Grading Option: Credit/No Credit

PPD 594a Master's Thesis
Units: 2 Terms Offered: FaSp Credit on acceptance of thesis. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

PPD 594b Master's Thesis
Units: 2 Terms Offered: FaSp Credit on acceptance of thesis. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

PPD 594z Master's Thesis
Units: 0 Terms Offered: FaSp Credit on acceptance of thesis. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

PPD 596 Internship for Curricular Practical Training
Units: 1, 2, 3 Max Units: 03 Terms Offered: FaSpSm Part-time or full-time, practical work experience in the student's field of study. The internship must be located at an off-campus facility. Students are individually supervised by faculty. May not be taken until the student has completed at least one semester of enrollment in the graduate program with a cumulative 3.0 GPA. Registration Restriction: Open only to graduate students in the Sol Price School of Public Policy Instruction Mode: Lecture Grading Option: Credit/No Credit

PPD 599 Special Topics
Units: 2, 3, 4 Max Units: 8.0 Terms Offered: FaSpSm Selected topics in public policy, management and planning. Instruction Mode: Lecture Grading Option: Letter

PPD 600 Management of Managed Care Organizations
Units: 2 Terms Offered: FaSpSm Managed care arrangements, interorganizational relations, management practices and controls, medical staff relations, strategic planning, marketing, utilization review, quality assurance, outcomes measures. *Prerequisite:* PPD 545 or HMGT 520; *Recommended Preparation:* PPD 516, PPD 510a or HMGT 565. Instruction Mode: Lecture Grading Option: Letter

PPD 601 Management of Long-Term Care Organizations
Units: 4 Terms Offered: Fa History, development, trends; major policy issues; organization of systems; principles and techniques of administration; management of institutional and community based programs. Registration Restriction: Open only to graduate students. Instruction Mode: Lecture Grading Option: Letter

PPD 602 Strategic and Operational Planning for Health Services
Units: 4, 2 years Terms Offered: Fa Strategic, institutional, and program planning theory and methods; governmental and legal requirements, certificate of need processes, reimbursement controls; financing and marketing considerations, practices, and methods. Duplicates Credit in former PUAD 535. Instruction Mode: Lecture Grading Option: Letter

PPD 603 Marketing of Health Services
Units: 4 Terms Offered: Sm Assessing community needs and organizational service capabilities; evaluating competition; qualitative and quantitative market research methods; market communications and advertising; developing marketing plans. *Recommended Preparation:* PPD 502 or competence in statistics. Instruction Mode: Lecture Grading Option: Letter

PPD 604 Seminar in Hospital Administration
Units: 4 Terms Offered: Sm Hospital systems and functions; managerial processes, theory, and practice; governance structures; legal, regulatory, administrative, and professional requirements; medical and professional

staff; multi-institutional arrangements; controls. *Prerequisite:* PPD 545 or HMGT 520; *Recommended Preparation:* PPD 516. Instruction Mode: Lecture Grading Option: Letter

PPD 605 Frontline Issues in Health Services Administration and Policy
Units: 2 Max Units: 6.0 Terms Offered: FaSpSm Emphasis on current or emergent issues in the health care industry. Focus on impact of recent health legislation and/or health care system responsiveness. Instruction Mode: Lecture Grading Option: Letter

PPD 606 Urban Health Policy
Units: 4 Terms Offered: Fa Addresses current U.S. health policy issues and the critical processes that shape them, with an emphasis on urban populations; institutional, economic, social, ethical, and political factors. Instruction Mode: Lecture Grading Option: Letter

PPD 607 Introduction to Public Health Policy
Units: 4 Terms Offered: Sp Public health policy and analysis methods; evaluation of the public health system and safety net programs. Instruction Mode: Lecture Grading Option: Letter

PPD 608 Leadership Symposium in Health Management and Policy
Units: 1 Max Units: 3.0 Terms Offered: FaSpSm A forum for leading executives and policymakers to address ways they or their organizations improve healthcare financing, delivery and management, in the U.S. and internationally. Instruction Mode: Lecture Grading Option: Letter

PPD 609 Physician Practice Management
Units: 2 Terms Offered: Sp Overview of medical practice management issues, structures, systems and strategies for effective clinical and financial performance of physician organizations. *Recommended Preparation:* PPD 509. Instruction Mode: Lecture Grading Option: Letter

PPD 610 Managed Care Contracting
Units: 2 Terms Offered: Fa Provides practical and strategic decision-making skills in managed care contracting, including contract types, terms and conditions; financial assessment; proposal development and analysis; and negotiation. *Prerequisite:* PPD 600; *Recommended Preparation:* PPD 510a or HMGT 565, PPD 514. Instruction Mode: Lecture Grading Option: Letter

PPD 611 Policy Issues in Planning and Development
Units: 4 Terms Offered: Fa Overview of policy issues in planning and development professions in the U.S. and abroad. Special attention to collective decision making, role of institutions, and ethics. Duplicates Credit in former PLUS 503. Instruction Mode: Lecture Grading Option: Letter

PPD 612 Research and Analytical Techniques
Units: 4 Terms Offered: Sp Professional practice-oriented analytic skill; fundamentals of data manipulation; spreadsheet applications and forecasting; and communication of results. Duplicates Credit in former PLUS 504. Instruction Mode: Lecture Grading Option: Letter

PPD 613a Policy, Planning, and Development International Laboratory
Units: 1 Max Units: 0.0 Terms Offered: SpSm Research methods for intensive practical field research and evaluation; policy, management and planning practice in intercultural contexts; preparation for professional-level consulting abroad. Instruction Mode: Lecture Grading Option: Letter

PPD 613b Policy, Planning, and Development International Laboratory
Units: 3 Max Units: 6.0 Terms Offered: SpSm Research methods for intensive practical field research and evaluation; policy, management and planning practice in intercultural contexts; preparation for professional-level consulting abroad. Instruction Mode: Lecture Grading Option: Letter

PPD 614 Management in Planning Practice
Units: 2 or 4, 2 years Terms Offered: Sp Administrative, management, political, and other problems faced by the practicing professional planner. Duplicates Credit in former PLUS 521. Instruction Mode: Lecture Grading Option: Letter

PPD 615 Comparative Urbanization, Development, and Inequality
Units: 4 Terms Offered: Irregular Theories of inequality, dependency and dualism in relation to urbanization, growth, and poverty in developing countries; development and underdevelopment; core-periphery linkages. Duplicates Credit in former PLUS 534. Instruction Mode: Lecture Grading Option: Letter

PPD 616 Participatory Methods in Planning and Policy
Units: 4 Approaches to community participation, introducing students to the theories behind participatory methods as well as to the skills to implement them. Instruction Mode: Lecture Grading Option: Letter

PPD 617 Urban Demography and Growth
Units: 4 Terms Offered: Fa Theory and policy regarding population change in urban areas; housing; cohort analysis; immigration; ethnicity; employment; education. Methods of graphic representation; census data manipulation, interpretation, forecasting. Duplicates Credit in former PLUS 539. Instruction Mode: Lecture Grading Option: Letter

PPD 618 Housing Facilities and Community Development
Units: 4 Terms Offered: Irregular Structure of the building industry and technology. Housing markets and programs; environmental standards. Community development and redevelopment. Planning, program development, finance, and coordination of public facilities and services. Duplicates Credit in former PLUS 540. Instruction Mode: Lecture Grading Option: Letter

PPD 619 Smart Growth and Urban Sprawl: Policy Debates and Planning Solutions
Units: 4 Terms Offered: Irregular Determinants and analytical models of land use; interaction of land uses with environmental quality and natural resources, land use policy instruments; regulation, taxation, public services. Duplicates Credit in former PLUS 562. Instruction Mode: Lecture Grading Option: Letter

PPD 620 General Plans
Units: 4 Terms Offered: Fa Assessment of a recently adopted general plan, analysis of the general plan process, and detailed review of each major element and issue. Duplicates Credit in former PLUS 563. Instruction Mode: Lecture Grading Option: Letter

PPD 621 Environmental Impacts
Units: 4 Terms Offered: Sp Legal, political/institutional, and technical aspects of environmental impact reports for urban planning. Duplicates Credit in former PLUS 561. Instruction Mode: Lecture Grading Option: Letter

PPD 622 Seminar in Urban Development
Units: 4 Terms Offered: Irregular Central city housing and renewal problems and policies. Site selection, organization; land valuation, acquisition, disposition; relocation and management; reuse; site planning and development; politics; financing. Duplicates Credit in former PLUS 541. Instruction Mode: Lecture Grading Option: Letter

PPD 623 Community Development and Site Planning
Units: 4 Terms Offered: Sp Urban form and emerging community design practices; design project development; evaluation and assessment of site planning in cities and local communities. Instruction Mode: Lecture Grading Option: Letter

PPD 624 Local Economic Development: Theory and Finance
Units: 4 Terms Offered: Sp Socioeconomic change, economic development theory, assessment techniques, and economic indicators in the context of planning and development policies and programs. Duplicates Credit in former PLUS 547. Instruction Mode: Lecture Grading Option: Letter

PPD 625 Planning and Economic Development Finance
Units: 4 Terms Offered: Fa Fundamentals for economic development professionals and policy makers including feasibility analysis and the financing of facilities, social services, and community-based enterprises. Duplicates Credit in former PLUS 546. Instruction Mode: Lecture Grading Option: Letter

PPD 626 Public/Private and Mixed Enterprises Planning
Units: 2, 4 Terms Offered: SpFa Case studies of planning and public/private and mixed enterprises; public production of private goods; privatization of public services; public/private partnerships; mixed enterprises. Instruction Mode: Lecture Grading Option: Letter

PPD 627 Design Skills for Urban Planners
Units: 4 Terms Offered: Fa Develop observation, description, analysis, and conceptualization skills related to urban spatial conditions; advance professional communication proficiencies. Duplicates Credit in former PLUS 573. Instruction Mode: Lecture Grading Option: Letter

PPD 628 Urban Planning and Social Policy
Units: 4 Terms Offered: Irregular Urban

planning and social work: theory, values, techniques of inquiry, and problem-solving methods appropriate to urban planning and social work. Duplicates Credit in former PLUS 552. Instruction Mode: Lecture Grading Option: Letter

PPD 629 Capstone in Urban Planning
Units: 4 Terms Offered: Sp Successful completion of a comprehensive written and oral project-oriented assessment; analysis, interpretation, and solution of a real-world planning problem. Instruction Mode: Lecture Grading Option: Letter

PPD 630 Urban Economic Analysis
Units: 4 Terms Offered: Sp Economic models of cities and city development and structure; housing and land markets; transportation systems; problems of congestion and pollution; evaluation of urban policies. Duplicates Credit in former PLUS 566. Instruction Mode: Lecture Grading Option: Letter

PPD 631 Geographic Information Systems for Policy, Planning, and Development
Units: 2 Introduction to GIS systems and usage in the public sector; spatial data; understanding software and the application of technology; analysis of data using GIS. Instruction Mode: Lecture Grading Option: Letter

PPD 632 Planning Analysis and Evaluation
Units: 4 Terms Offered: Sp Methods of policy, program, and plan evaluation: economic principles and theoretical concepts introduced, followed by case studies. Duplicates Credit in former PLUS 574. Instruction Mode: Lecture Grading Option: Letter

PPD 633 Methods and Modeling Tools for Transportation Planning
Units: 4 Terms Offered: Fa Background applications of established urban travel forecasting procedures; land use; trip-generation, trip-distribution, modal-choice, trip-assignment; evaluation; criticisms. Instruction Mode: Lecture Grading Option: Letter Crosslisted as CE 633

PPD 634 Institutional and Policy Issues in Transportation
Units: 4 Terms Offered: Sp Analysis of policies relating to transportation alternatives; institutional environment and background; federal, state, regional, and local agency responsibilities and interactions. Duplicates Credit in former PLUS 581. Instruction Mode: Lecture Grading Option: Letter Crosslisted as CE-634

PPD 635 Principles of Transportation Systems Analysis
Units: 4 Terms Offered: Fa Planning, design, modeling, and operation of inter- and intra-urban transportation networks. Analysis of contemporary engineering-economic issues relevant to transport, especially questions pertaining to infrastructure. Duplicates Credit in former PLUS 582. Instruction Mode: Lecture Grading Option: Letter

PPD 636 Infrastructure and Modern Society
Units: 2 Terms Offered: Sp Survey of infrastructure issues that relates principles from multiple disciplines to the provision of vital services and encourages critical thinking within a systems context. Instruction Mode: Lecture Grading Option: Letter

PPD 637 Forecasting and Urban Planning: A Survey of Theory and Methods
Units: 4 Terms Offered: Sp Overview of forecasting methods and applications in urban planning processes used to determine urban futures; includes theoretical and institutional factors as well as quantitative methods. Instruction Mode: Lecture Grading Option: Letter

PPD 638 Integrative Seminar
Units: 4 Terms Offered: FaSpSm Individual research and preparation of an integrated comprehensive study coordinated with a sponsor such as a government agency or development firm. *Prerequisite:* PPD 611, PPD 612. Duplicates Credit in former PLUS 591. Instruction Mode: Lecture Grading Option: Letter

PPD 639 Introduction to Community and Economic Development
Units: 4 Terms Offered: FaSp Theories of community and economic development and a contextual understanding of the forces that change the development and community life of urban areas. Instruction Mode: Lecture Grading Option: Letter

PPD 640 Leadership Foundations: Competencies and Core Values
Units: 4 Terms Offered: Sm An intensive introduction to leading through core values. Focuses on developing leadership skills at the personal level to build a foundation for leadership at all levels. Registration Restriction: Open only to Executive Master in Leadership students. Instruction Mode: Lecture Grading Option: Letter

PPD 641 Leading Individuals, Groups and Teams
Units: 4 Terms Offered: Fa Leadership styles in various settings; team demographics, and dynamics; problem-solving; decision-making; diversity and critical thinking skills; effect of culture on small group communication; managing conflict. *Prerequisite:* PPD 640. Registration Restriction: Open only to Executive Master in Leadership students. Instruction Mode: Lecture Grading Option: Letter

PPD 642 Strategic Leadership of Organizations
Units: 4 Terms Offered: Sp Strategic analysis; strategic planning; leadership; performance measurement and management; control systems; organizational structure and networks; organizational culture; organizational learning and change. *Prerequisite:* PPD 641. Registration Restriction: Open only to Executive Master in Leadership students. Instruction Mode: Lecture Grading Option: Letter

PPD 643 Leading Transformations Across Sectors: Integrative Seminar
Units: 4 Terms Offered: Sm Application and practice of leadership skills working across the public, private and nonprofit sectors. Skills include negotiation, collaboration, communication, political management and ethical responsibilities. *Prerequisite:* PPD 642. Registration Restriction: Open only to Executive Master in Leadership students. Instruction Mode: Lecture Grading Option: Letter

PPD 644 Shaping the Built Environment
Units: 4 Introduction to the theories and concepts and good city form. Explores the options for designing more livable and sustainable urban communities. Instruction Mode: Lecture Grading Option: Letter

PPD 645 Professional Development
Units: 1, 2, 3, 4 Max Units: 8.0 Terms Offered: Irregular Selected topics in the practical application of administrative concepts. Duplicates Credit in former PUAD 502. Instruction Mode: Lecture Grading Option: Credit/No Credit

PPD 646 Fieldwork
Units: 1, 2, 3, 4 Max Units: 8.0 Terms Offered: Sp Supervised study of management activities in governmental agencies. Duplicates Credit in former PUAD 503. Instruction Mode: Lecture Grading Option: Credit/No Credit

PPD 647 Finance of the Public Sector
Units: 4 Terms Offered: Sp Sources of government revenue, intergovernmental financial relations, budgeting, public goods theory. Theoretical and applied skills in analysis of equity and efficiency issues. *Prerequisite:* PPD 501b. Duplicates Credit in former PUAD 513. Instruction Mode: Lecture Grading Option: Letter

PPD 648 Concepts and Practices of Public Budgeting
Units: 4 Terms Offered: Irregular Budget planning, budget formulation, tools for budget analysis and budget implementation. Duplicates Credit in former PUAD 515. Instruction Mode: Lecture Grading Option: Letter

PPD 649 Concepts and Practices in Public Personnel Administration
Units: 4 Terms Offered: FaSm Concepts of man and of work; workforce; government personnel systems, including merit concepts, classification, and compensation; collective bargaining; organizational justice; training and development. Duplicates Credit in former PUAD 516. Instruction Mode: Lecture Grading Option: Letter

PPD 650 Organization Development in Public Administration
Units: 4 Terms Offered: FaSp Overview of concepts and methodologies of organization development; diagnosing organizational needs; developing change strategies; selecting appropriate interventions. Duplicates Credit in former PUAD 517. Instruction Mode: Lecture Grading Option: Letter

PPD 651 Seminar in the Administration of Local Government
Units: 4 Terms Offered: Irregular Intensive consideration of the functions of the municipal executive and his environment. Research preparation and discussion of cases. Duplicates Credit in former PUAD 520. Instruction Mode: Lecture Grading Option: Letter

PPD 652 Financial Administration in Local Government
Units: 4 Terms Offered: Irregular Revenue sources, fees and charges, benefit assessments; financing economic development and redevelopment, issuing and managing debt, current asset management, and state-local relations.

Duplicates Credit in former PUAD 521. Instruction Mode: Lecture Grading Option: Letter

PPD 653 Training in the Public Sector
Units: 4 Terms Offered: Fa Emergence of public service training; learning theories; program development process — assessing needs, design, delivery, and evaluation; role of media; individual, group, organization development; managing training. Duplicates Credit in former PUAD 522. Instruction Mode: Lecture Grading Option: Letter

PPD 654 Information Technology Management in the Public Sector
Units: 4 Terms Offered: FaSpSm Application of computer and information technology in government; e-government; information technology architecture; systems project management. Duplicates Credit in former PPD 518. Instruction Mode: Lecture Grading Option: Letter

PPD 655 Administrative Law and Public Management
Units: 4 Terms Offered: FaSpSm Administrative perspectives on legal principles of agency rule-making and adjudication; distinctions between the two; informal administrative actions; decision-making; judicial review; public control of administrative decisions. Instruction Mode: Lecture Grading Option: Letter

PPD 656 Political Management: Theory and Applied Techniques
Units: 4 Terms Offered: Sm Political management theories; strategy formation; research and data collection approaches; computer applications; electronic databases; issue management; problem-solving techniques; ethical considerations. Duplicates Credit in former PUAD 545. Instruction Mode: Lecture Grading Option: Letter

PPD 657 Political Leadership in Public Organizations
Units: 4 Terms Offered: Sp Concepts and skills for public executives and senior managers; understanding the dynamics of governmental institutions and policy processes; organizational and personal assessment skills. Duplicates Credit in former PUAD 546. Instruction Mode: Lecture Grading Option: Letter

PPD 658 Advocacy in Public Administration
Units: 4 Terms Offered: Fa Perspectives on advocacy in the policy process; practice of advocacy; accessing the policy process; simulation of the advocacy process; ethical considerations. Duplicates Credit in former PUAD 547. Instruction Mode: Lecture Grading Option: Letter

PPD 659 National Security Administration and the Domestic and International Environment
Units: 4 Terms Offered: Irregular Interplay of domestic and international environments; resultant constraints upon national security program administration; administrative and organizational implications for future scenarios. Duplicates Credit in former PUAD 549. Instruction Mode: Lecture Grading Option: Letter

PPD 660 Local Agency Debt and Cash Administration
Units: 4 Terms Offered: Irregular Overview of methods of debt and cash administration including official statement analysis; mechanics of different types of issues; and cash management principles. Duplicates Credit in former PUAD 550. Instruction Mode: Lecture Grading Option: Letter

PPD 661 Intergovernmental Management: Local Perspective
Units: 4 Terms Offered: Fa Role of city, special district, and metropolitan governments in intergovernmental relations; intergovernmental impacts on local policy process and service delivery; management problems and alternatives. Duplicates Credit in former PUAD 552. Instruction Mode: Lecture Grading Option: Letter

PPD 662 Intergovernmental Management: State Perspective
Units: 4 Terms Offered: FaSp Role of state government in intergovernmental relations, emphasis on California experience; financial aspects of intergovernmental system. Duplicates Credit in former PUAD 553. Instruction Mode: Lecture Grading Option: Letter

PPD 663 Intergovernmental Management: Federal Perspective
Units: 4 Terms Offered: Irregular Role of national government in intergovernmental process; impact of federal legislative, executive, and judicial actions on state and local government; intergovernmental policy-making process. Duplicates Credit in former PUAD 554. Instruction Mode: Lecture Grading Option: Letter

PPD 664 Contract Management
Units: 2 Terms Offered: Sp Contract management techniques in the public and private sectors; micro and macro management; compliance and negotiation; conflicts of interest and ethical issues. Instruction Mode: Lecture Grading Option: Letter

PPD 665 Contemporary Issues in Philanthropy
Units: 4 Motivations and strategies of philanthropists; philanthropic foundations and emerging institutions for philanthropy; issues of philanthropic stewardship, public policy and public accountability. Instruction Mode: Lecture Grading Option: Letter

PPD 666 Administrative Research and Analysis
Units: 4 Terms Offered: Irregular Theory and methods for study of administrative effectiveness: problem solving, performance measurement, administrative and organizational research, quality improvement, and change implementation. *Prerequisite:* PPD 502. Duplicates Credit in former PUAD 506. Instruction Mode: Lecture Grading Option: Letter

PPD 667 Public Ethics
Units: 4 Terms Offered: Sp Following an introduction to the study of ethics, relationships among administrative, political and policy ethics are examined, emphasizing the ethics of the administrative role. Duplicates Credit in former PUAD 560. Instruction Mode: Lecture Grading Option: Letter

PPD 668 Entrepreneurship in the Public Sector
Units: 4 Terms Offered: Irregular Providing public services through the private and nonprofit sectors; public-private partnerships; political and organizational skills required for public entrepreneurship. Duplicates Credit in former PUAD 561. Instruction Mode: Lecture Grading Option: Letter

PPD 669 Federal Management Systems
Units: 4 Terms Offered: FaSp Principal institutions and processes in federal government for overhead leadership and control; examines Office of Management and Budget, Office of Personnel Management, Merit Systems Protection Board, General Services Administration, and General Accounting Office. Duplicates Credit in former PUAD 564. Instruction Mode: Lecture Grading Option: Letter

PPD 670 Management of Intergovernmental Programs
Units: 4 Terms Offered: Sp Analysis of relationships among governmental units in delivery of governmental programs; historical development of intergovernmental relations; present status and future implications. Duplicates Credit in former PUAD 566. Instruction Mode: Lecture Grading Option: Letter

PPD 671 Decision-Making in Regulatory Agencies
Units: 4 Terms Offered: Irregular Risk assessment, management, and communication concepts and practices; comparisons of regulatory decision making in regulatory agencies; emerging benefit assessment, cost-effectiveness, and communication issues. Duplicates Credit in former PUAD 567. Instruction Mode: Lecture Grading Option: Letter

PPD 672 Collaborative Governance
Units: 4 Terms Offered: SpSm Theory and practice of collaborative policy and planning processes involving stakeholders from public, private, and nonprofit sectors. Leadership skills in the design and facilitation of multi-party negotiations and consensus-building. Instruction Mode: Lecture Grading Option: Letter

PPD 673 Strategic Planning in the Public Sector
Units: 4 Terms Offered: Sp Analysis/field application of action research models for strategic planning in public agencies; design of effective public systems; citizens/administrators' roles in strategic decision-making. Duplicates Credit in former PUAD 574. Instruction Mode: Lecture Grading Option: Letter

PPD 674 Science, Technology, and Government
Units: 4 Terms Offered: Irregular Impact of science/technology on governmental policy, processes, institutions; critical policy areas in science/technology; machinery for formulating science policy; governmental impact on science/technology. Duplicates Credit in former PUAD 575. Instruction Mode: Lecture Grading Option: Letter

PPD 675 Nonprofit Management and Leadership
Units: 4 Terms Offered: FaSpSm Issues in nonprofit management and leadership including: the role of boards; strategic planning; marketing and fund-raising; financial management; and volunteer and human resource management. *Recommended Preparation:* PPD 689. Instruction Mode: Lecture Grading Option: Letter

PPD 676 Comparative Public Administration
Units: 4 Terms Offered: Irregular

Methodologies, theories and models of comparison; administrative systems; role and functions of the public sector; administrative cultures. Duplicates Credit in former PUAD 579. Instruction Mode: Lecture Grading Option: Letter

PPD 677 International Development Administration
Units: 4 Terms Offered: Sp Development of theories; role of international institutions in resource exchanges; foreign investment and trade policies; national planning and allocation systems; development and modernization strategies and implementation. Duplicates Credit in former PUAD 581. Instruction Mode: Lecture Grading Option: Letter

PPD 678 Processes of Change in Developing Societies
Units: 4 Terms Offered: Irregular Nature of traditional and transitional societies; theories and practice of developmental change; role of bureaucracy in development; institution building; public enterprise; technology assessment and transfer. Duplicates Credit in former PUAD 582. Instruction Mode: Lecture Grading Option: Letter

PPD 679 Financial Administration in Developing Countries
Units: 4 Terms Offered: Sm Public sector finance; tax policy and administration; budgeting and auditing; debt management; public enterprise and development banks; planning; techniques; project assessment. Duplicates Credit in former PUAD 583. Instruction Mode: Lecture Grading Option: Letter

PPD 680 Development of Effective Groups and Organizations
Units: 4 Terms Offered: Fa Theories and techniques of assessing and improving interpersonal relationships and group dynamics in an organizational context; action research-based approaches to implementing organizational change. Duplicates Credit in former PUAD 586. Instruction Mode: Lecture Grading Option: Letter

PPD 681 Public Organization and Management Theory
Units: 4 Terms Offered: FaSp Nature and management of public organizations; examination of organizational characteristics, forms, and processes, including the relationship with the broader environment. Duplicates Credit in former PUAD 595. Instruction Mode: Lecture Grading Option: Letter

PPD 682 Justice Administration: A Management Perspective
Units: 4, 2 years Terms Offered: Fa Justice administration as an interactive system: law, etiology of crime, police, the judiciary and corrections. Interface of offenders with community and political force fields. Duplicates Credit in former PUAD 540. Instruction Mode: Lecture Grading Option: Letter

PPD 683 Homeland Security and Public Policy
Units: 4 Terms Offered: FaSp Definition and history of terrorism, counterterrorism, domestic policy and public sector management; intelligence/information sharing and analysis; emergency preparedness planning, response and recovery. Instruction Mode: Lecture Grading Option: Letter

PPD 684 Leadership Development in the Public and Nonprofit Sectors
Units: 2 Terms Offered: Fa An overview of leadership concepts, frameworks and skills; application of leadership in complex or inter-sectoral settings. Instruction Mode: Lecture Grading Option: Letter

PPD 685 Human Resources Management in Public and Non-Profit Sectors
Units: 2 Terms Offered: Fa Merit principles, position classification, recruitment and selection, compensation, organizational development, labor relations; challenges and strategies for managing a diverse workforce. Instruction Mode: Lecture Grading Option: Letter

PPD 686 U.S. Immigration Policy
Units: 4 Terms Offered: Sp Overall understanding of contemporary U.S. immigration policy. Instruction Mode: Lecture Grading Option: Letter

PPD 687 Strategic Management in the Nonprofit Sector
Units: 4 Terms Offered: Sp Strategic management of nonprofit organizations, social entrepreneurship, and management practice. *Prerequisite:* PPD 675 and PPD 689. Instruction Mode: Lecture Grading Option: Letter

PPD 688 Business and Public Policy
Units: 4 Terms Offered: Irregular The business-government relationship; effects of selected public policies (antitrust, economic, and social regulation, industrial policies, legal policy) on firm and industry behavior. *Prerequisite:* PPD 503 Instruction Mode: Lecture Grading Option: Letter

PPD 689 The Nonprofit Sector and Philanthropy
Units: 4 Terms Offered: FaSp Nonprofit organizations and their relation to government and business; the role of philanthropy, social enterprise and public support; and implications for policy, strategy and management. Instruction Mode: Lecture Grading Option: Letter

PPD 690 Alternative Dispute Resolution
Units: 4 Terms Offered: Fa Theory and methods of conflict analysis, negotiation, facilitation and mediation in the public sector. Duplicates Credit in former PUAD 519. Instruction Mode: Lecture Grading Option: Letter

PPD 692 Transportation and the Environment
Units: 4 Terms Offered: Sp Analysis of the benefits and costs of urban transportation; concepts of social costs; benefits and externalities; environmental costs; social justice issues; policy and planning alternatives for sustainable transportation. Duplicates Credit in former PPD 584 Instruction Mode: Lecture Grading Option: Letter Crosslisted as CE 692

PPD 693 Communicating Public Policy
Units: 4 Exploring the complex relationships that exist among policies, policymakers, and the media; analyzing the role of journalists and policy analysts in the public policy process. Instruction Mode: Lecture Grading Option: Letter

PPD 694 Coastal Policy and Planning
Units: 4 Terms Offered: Sp Coastal management issues in the context of public and private users competing for land resources, the costs and benefits of seaports, compare coastal development models. Instruction Mode: Lecture Grading Option: Letter

PPD 695 Clinical Issues for Managers
Units: 1 Terms Offered: Fa Introduces key information and concepts for managers of clinical services. Examines problems and issues facing health care managers and clinician relations. Instruction Mode: Lecture Grading Option: Letter

PPD 696 Health Care Venture Development
Units: 2 Terms Offered: SpSm Focuses on developing the resourcefulness, know-how and decision support skills needed to identify, assess and develop new health ventures. Includes business planning, financing, strategy, entrepreneurship. *Recommended Preparation:* PPD 510a or HMGT 565. Instruction Mode: Lecture Grading Option: Letter

PPD 697 Cultural Proficiency in Health Management and Policy
Units: 2 Terms Offered: Sp Provides an understanding of what social factors contribute to racial/ethnic, socioeconomic, and gender disparities in health and the culturally proficient provision of health care. Instruction Mode: Lecture Grading Option: Letter

PPD 698 Strategic Management and Change
Units: 4 Theory and applied skills in management of social sector organizations with applications in international settings. Strategic management and planning; communication strategies, marketing and promotion; leadership skills; organizational development and change. Instruction Mode: Lecture Grading Option: Letter

PPD 699 Special Topics
Units: 2, 3, 4 Max Units: 08 Terms Offered: FaSpSm Selected topics in public policy, management and planning. Registration Restriction: Open only to doctoral students Instruction Mode: Lecture Grading Option: Letter

PPD 700 Teaching Seminar
Units: 2 Pedagogy: learning objectives, curriculum design, teaching methods, evaluation. Duplicates Credit in former PPD 700ab. Instruction Mode: Lecture Grading Option: Credit/No Credit

PPD 706 Paradigms of Research and the Design of Inquiry
Units: 4 Terms Offered: FaSp Philosophy of social science; applied social research; research design; sampling and validity; overview of qualitative and quantitative methods. Instruction Mode: Lecture Grading Option: Letter

PPD 707 Survey Research Methods
Units: 4 Terms Offered: Sp Collection and use of survey data: basic orientation, mechanics of using SAS, and interpretation of survey tabulations. *Prerequisite:* PPD 525. Duplicates Credit in former PLUS 608. Instruction Mode: Lecture Grading Option: Letter

PPD 708 Qualitative Methods
Units: 4 Terms Offered: Sp Reflective and critical approach that questions data collection techniques, positions relative to those being studied, and explanatory

methods. *Recommended Preparation:* PPD 525 or PPD 612. Duplicates Credit in former PLUS 609. Instruction Mode: Lecture Grading Option: Letter

PPD 709 Applications in the Advanced Quantitative Methods
Units: 4 Terms Offered: Sp Statistical and econometric modeling in real estate finance, urban economics, public policy, and planning research. Building, estimating and adjusting models for real-world. *Prerequisite:* PPD 525. Instruction Mode: Lecture Grading Option: Letter

PPD 710a Research Seminar
Units: 2 Terms Offered: FaSp Research fields and design; literature reviews; critical reading and critiquing; project development. *Prerequisite:* PPD 706. Instruction Mode: Lecture Grading Option: Credit/No Credit

PPD 710b Research Seminar
Units: 2 Terms Offered: FaSp Research fields and design; literature reviews; critical reading and critiquing; project development. *Prerequisite:* PPD 706. Instruction Mode: Lecture Grading Option: Credit/No Credit

PPD 711 Theoretical Foundation of Public Management
Units: 4 Terms Offered: Fa Theories of the role, structure, and growth of the public sector; political economy of public bureaucracies; the voluntary nonprofit sector. *Prerequisite:* PPD 501b. Instruction Mode: Lecture Grading Option: Letter

PPD 712 Seminar in Public Policy
Units: 4 Terms Offered: Fa Critical analysis of the policy field; theoretical foundations; integration of quantitative, organizational, and political considerations; policy research. *Prerequisite:* PPD 501b, PPD 554. Duplicates Credit in former PUAD 626. Instruction Mode: Lecture Grading Option: Letter

PPD 713 Advanced Planning Theory
Units: 4 Terms Offered: Fa Positive and normative attitudes of public plans, policies, programs, organizational and institutional settings; policy analysis; modeling of social choices; evaluation; applied welfare analysis; performance assessment. Duplicates Credit in former PLUS 605. Instruction Mode: Lecture Grading Option: Letter

PPD 714 Advanced Urban Development
Units: 4 Terms Offered: Fa Urbanization, urban economics, land use, the politics of growth, governance, regulation, and the state, immigration, and place promotion. Instruction Mode: Lecture Grading Option: Letter

PPD 715 Political Economy and Institutional Analysis
Units: 4 Institutional dimension of political economy; analytic approaches in institutional analysis and their relevance for understanding the interactions between political and economic factors in public-sector issues. Instruction Mode: Lecture Grading Option: Letter

PPD 716 Econometrics for Policy, Planning and Management I
Units: 4 Implementation of microeconometric techniques and assessment of studies; empirical strategies for research questions and data preparation and analytic tasks in Stata. *Prerequisite:* PPDE 668 Instruction Mode: Lecture Grading Option: Letter

PPD 717 Econometrics for Policy, Planning and Management II
Units: 4 Identification of a significant and innovative empirical research question; production of a dissertation chapter or draft manuscript for publication in policy, planning or management. *Prerequisite:* PPD 716 Instruction Mode: Lecture Grading Option: Letter

PPD 790 Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Max Units: 18.0 Terms Offered: FaSpSm Research leading to the doctorate. Maximum units which may be applied to the degree to be determined by the department. Duplicates Credit in former PLUS 790 and PUAD 790. Instruction Mode: Lecture Grading Option: Credit/No Credit

PPD 794a Doctoral Dissertation
Units: 2 Terms Offered: FaSpSm Credit on acceptance of dissertation. Duplicates Credit in former PLUS 794abcdz and PUAD 794abcdz. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

PPD 794b Doctoral Dissertation
Units: 2 Terms Offered: FaSpSm Credit on acceptance of dissertation. Duplicates Credit in former PLUS 794abcdz and PUAD 794abcdz. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

PPD 794c Doctoral Dissertation
Units: 2 Terms Offered: FaSpSm Credit on acceptance of dissertation. Duplicates Credit in former PLUS 794abcdz and PUAD 794abcdz. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

PPD 794d Doctoral Dissertation
Units: 2 Terms Offered: FaSpSm Credit on acceptance of dissertation. Duplicates Credit in former PLUS 794abcdz and PUAD 794abcdz. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

PPD 794z Doctoral Dissertation
Units: 0 Terms Offered: FaSpSm Credit on acceptance of dissertation. Duplicates Credit in former PLUS 794abcdz and PUAD 794abcdz. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

Policy, Planning, and Development — Expanded

PPDE 505 Professional Workshop in Public Administration
Units: 2 Evidence-based argumentation, written reporting and communication in public administration; research skills for effective stakeholder engagement. Instruction Mode: Lecture Grading Option: Letter

PPDE 506 Professional Residency in Public Administration
Units: 1 Skills in written reporting, professional briefings and social media for public administrators; effective engagement for stakeholders and constituencies; research, analysis and reporting on current policy or management cases Instruction Mode: Lecture Grading Option: Letter

PPDE 507 Capstone Residency in Public Administration
Units: 1 Development of enhanced skills in issue framing and options analysis in public administration for internal and external audiences. Instruction Mode: Lecture Grading Option: Letter

PPDE 580 Social Innovation
Units: 4 Strategies and processes of social innovation in the context of economics, institutional, and innovation theory. How social innovation materializes across all sectors, including the government, nonprofit, and for-profit spheres. Critical thinking and practical application development to solve social problems. Instruction Mode: Lecture Grading Option: Letter

PPDE 589 Public Policy and Administration in the European Union, Germany, and the United States
Units: 6 Terms Offered: Sm Governance issues from a comparative perspective with a special focus on the US, Germany and the European Union. Instruction Mode: Lecture Grading Option: Letter

PPDE 610 Population Health Management
Units: 2 Terms Offered: Sm Principles and concepts of population health management; application of key principles that drive health and well being of populations; development and evaluation of strategies in management of disease and prevention of illness. Instruction Mode: Lecture Grading Option: Letter

PPDE 611 Digital Health
Units: 2 Terms Offered: Fa Origins and impact of Digital health on the healthcare industry; acquire knowledge on how to identify and implement strategies on incorporating digital health in the workplace. Instruction Mode: Lecture Grading Option: Letter

PPDE 612 Consulting in Healthcare Organizations
Units: 2 The application of decision analysis principles necessary for determining priorities for uses of strategic human, facility and financial resources in healthcare organizations; analytic and consulting skills; case studies. Instruction Mode: Lecture Grading Option: Letter

PPDE 628 Introduction to Lean Health Care
Units: 2 Performance improvement methods and principles in health care; how Lean, Six-Sigma, and Human Centered Design (HCD) methodologies are applied to health care organizations to improve quality and efficiency. Instruction Mode: Lecture Grading Option: Letter

PPDE 629 Transitional Care and Hospital Readmission Prevention
Units: 2 Alternatives within the healthcare delivery system beyond the acute hospital; how social, medical and financial determinants provide alternatives to acute care and impact a patient's disposition; Hospital Readmission Penalty Program; effect of the Affordable Care Act of 2010 on patient care. Instruction Mode: Lecture Grading Option: Letter

PPDE 630 Community Health Planning
Units: 4 Terms Offered: Sp The role of planning in sustaining community health;

examines relationship between health and environment; historical development, conceptualization and practice of community health planning. Instruction Mode: Lecture Grading Option: Letter

PPDE 631 Public Space: Theory, Policy, and Design
Units: 4 Examination of contemporary issues and practices in the design, production, and uses of public space in a comparative perspective; implications for future design and public policy. Instruction Mode: Lecture Grading Option: Letter

PPDE 632 Sustainable Cities
Units: 4 Terms Offered: FaSp Exploration of environmental problems linked to urbanization, drawing on historical analysis, social theory, scientific research, and city planning/design practice. Alternative policy options for urban sustainability. Duplicates Credit in the former GEOG 601. Instruction Mode: Lecture Grading Option: Letter

PPDE 633 Communicating City Design: Positions and Representations
Units: 2 Communicating the processes, products, and concepts of city design; merging theoretical and skill-based exercises for effective communication; verbal and graphic communication; physical components of urban landscape and dimensional attributes. Instruction Mode: Lecture Grading Option: Letter

PPDE 634 Methodology, Methods and Tools for Urban Sustainability
Units: 2, 3, 4 Terms Offered: FaSp Methodology, assessment and planning methods for urban sustainability and land use planning; how the choice and use of theory and methods impact the planning process; systems and spatial analysis. Instruction Mode: Lecture Grading Option: Letter

PPDE 635 Housing and Land Use in Rapidly Urbanizing Regions
Units: 4 Terms Offered: Fa Interdisciplinary approach to conceptualize urban land and property rights; property rights strategies; design and policy interventions; the struggle for rights to space in the city. Instruction Mode: Lecture Grading Option: Letter

PPDE 636 Urban Spatial Ethnography and Critical Cartography
Units: 4 Theories and methods of how to develop original data about, analyze, and produce visualizations of urban space; conventional conceptualization and representations of cities and urban spatial data. *Recommended Preparation:* PPD 631 or other GIS course work Instruction Mode: Lecture Grading Option: Letter

PPDE 637 Urban Mass Transit
Units: 4 Terms Offered: Fa Fundamentals of urban mass transit planning. Topics include the fiscal context of mass transit planning, fares and farebox recovery, ridership forecasts, land development near transit, and transit operations, scheduling, and network design. Instruction Mode: Lecture Grading Option: Letter Crosslisted as CE 637

PPDE 638 Race, Arts, and Placemaking
Units: 4 Exploration of the inter-relationships between race, arts, and urban space through an inter-disciplinary inquiry of art practice, history, and policy, and urban economic and community development, and cultural geography fields. Instruction Mode: Lecture Grading Option: Letter

PPDE 639 Housing Dynamics for Policy and Planning
Units: 4 Comprehensive introduction to the dynamics of the housing sector, problems, programs, and policies. Attention to both publicly assisted and market rate housing, recent trends and current debates. Instruction Mode: Lecture Grading Option: Letter

PPDE 640 Environmental Planning and Analysis
Units: 4 Fundamentals of environmental planning and policy from an urban planning perspective; role of markets and market failures; environmental risks; policy approaches; modeling tools for environmental impact assessment and forecasts. Instruction Mode: Lecture Grading Option: Letter

PPDE 641 Art and the City
Units: 4 Role of art in modern society with a particular emphasis on the urban context including public spaces, the process of gentrification, and redevelopment; theoretical and research approaches. Duplicates Credit in former PPD 424 Instruction Mode: Lecture Grading Option: Letter

PPDE 644 Land Use and Transportation Planning
Units: 4 Key theories of land use — transportation interactions; understanding of land markets and derived-demand approach; use of evidence for information; travel data collection methods; application of land use. Instruction Mode: Lecture Grading Option: Letter

PPDE 645 Financial Management of Nonprofit Organizations
Units: 4 Accounting and financial management principles and practices in nonprofit organizations: budgeting financial analysis, internal controls, financial policies, grant making and financial reporting. Duplicates Credit in PPD 541. Instruction Mode: Lecture Grading Option: Letter

PPDE 646 Grant Writing Practicum
Units: 2 Grant making process and proposal development; philanthropic foundations; strategies for funding; budgeting, logic models, and evaluation; peer review. Instruction Mode: Lecture Grading Option: Letter

PPDE 647 Civic Engagement in Governance
Units: 4 Terms Offered: Sp Roles of citizens, civic associations, nonprofit organizations, government and business in democratic governance; civil society as the interface among these entities; techniques, purposes and contexts of civic engagement. Instruction Mode: Lecture Grading Option: Letter

PPDE 648 Performance Management
Units: 4 Concept and practice of performance management; examination of performance measurement; analysis and reporting practices for organizational accountability and improvements; performance design, indicators, utilization of information. Instruction Mode: Lecture Grading Option: Letter

PPDE 649 International Development NGOs: Theory, Policy and Management Issues
Units: 4 Critical issues involved in International Development NGO management; theoretical work and analytical framework to understand organizational features; NGO management, issues and challenges. Instruction Mode: Lecture Grading Option: Letter

PPDE 650 Social and Nonprofit Marketing
Units: 4 Terms Offered: Sm Marketing techniques in nonprofits and philanthropies, government agencies, health systems, application of marketing for social purposes; outreach strategies and efforts in nonprofits. Instruction Mode: Lecture Grading Option: Letter

PPDE 660 Environmental Policy Design and Analysis
Units: 4 Terms Offered: Sp Analytical foundation for design of institutions and policies; environmental policy; welfare economics and market failure; policy evaluation; economic policy instruments; climate change policy issues; other policy issues. *Prerequisite:* PPD 503 Instruction Mode: Lecture Grading Option: Letter

PPDE 661 Methods for Equity Analysis
Units: 4 Techniques to measure inequality and segregation. Policy evaluation using techniques for casual inference. *Prerequisite:* PPD 558. Instruction Mode: Lecture Grading Option: Letter

PPDE 662 China from a US Policy Perspective
Units: 4 Examination of China through the lens of the US federal government; trade issues; economic coordination and stability; environment and sustainability; defense and security; human development. Instruction Mode: Lecture Grading Option: Letter

PPDE 663 Media for Policy Change
Units: 4 Terms Offered: Sp The use of media as an implement of social policy and change at the state and federal level; analysis of social problems and the effect policy practitioners influence on change. Instruction Mode: Lecture Grading Option: Letter

PPDE 664 Seminar in Social Justice and Public Policy
Units: 4 Major theories of social justice in the US and globally; how theories of social justice influence policy, urban planning, and public administration; how to bridge theories about justice for professional practice. Instruction Mode: Lecture Grading Option: Letter

PPDE 665 Economic Models and Applications for Impact Analysis
Units: 4 Terms Offered: Sp Economic models for understanding and measuring impacts of man-made and natural disasters; analysis of public policy initiatives to mitigate environmental threats; model construction and software. *Prerequisite:* PPD 503 Instruction Mode: Lecture Grading Option: Letter

PPDE 668 Applied Econometrics for Program Evaluation
Units: 4 Terms Offered: FaSp Application of econometric methods for causal inference. Production and evaluation of

empirical estimates of causal relationships to inform evidence-based policy decisions. *Prerequisite:* PPD 558 Instruction Mode: Lecture Grading Option: Letter

PPDE 669 U.S. Education Policy
Units: 4 The role of public policy in education; application of theoretical frameworks to analyze policy design, implementation and impact; key concepts of policy analysis and key issues in education policy. Instruction Mode: Lecture Grading Option: Letter

PPDE 670 American Contemporary Homegrown Violent Extremism
Units: 4 Terms Offered: Sp Examination of the past half-century in America in understanding how public organizations and supporting legislation may deal with the threat of various forms of homegrown violent extremism. Instruction Mode: Lecture Grading Option: Letter

PPDE 671 Economic Analysis of Education Policy
Units: 4 Terms Offered: Sp Exploration of key educational policy issues and the relation of economic theories and principles; using economic theory to predict how policy affects education outcomes. Instruction Mode: Lecture Grading Option: Letter

PPDE 672 An Exploration of the Intelligence Community - from Policy to Cyber Espionage
Units: 4 Terms Offered: Sp Introduction to the intelligence community with an emphasis on public policy and open source intelligence (OSINT); analysis of US and foreign intelligence communities and sources, collection methods and analysis techniques; policy considerations. *Recommended Preparation:* PPD 683 Instruction Mode: Lecture Grading Option: Letter

PPDE 680 Board Governance and Leadership
Units: 2 Governance of nonprofit organizations; responsibilities and expectations of boards; board effectiveness; and changes in governance as a result of recent federal and state legislation. Instruction Mode: Lecture Grading Option: Letter

PPDE 681 Fund Development for Nonprofit Organizations
Units: 4 Key aspects of the fundraising process for nonprofit organizations; theoretical foundations and general fundraising principles; techniques sources of donations; key aspects of managing the process. Instruction Mode: Lecture Grading Option: Letter

PPDE 682 Capstone in Nonprofit Leadership and Management
Units: 4 Mission-mandated accountable and ethical practice, individually and organizationally; applications of core competencies; practical inquiry, analysis, systems; comparative frameworks; strategic leadership and management of public value production. *Prerequisite:* PPD 542 and PPD 675 and PPD 689 Instruction Mode: Lecture Grading Option: Letter

PPDE 683 Social Finance and Development
Units: 4 Critical analysis on the innovations, merits and challenges of wealth creation and poverty reduction based on the microfinance model. Instruction Mode: Lecture Grading Option: Letter

Public Relations

PR 209 Effective Writing for Strategic Public Relations
Units: 4 Terms Offered: FaSp Focus on the unique writing requirements of social, online, broadcast, print and other media in public relations/strategic communication; emphasis on judgment, context and audience understanding. Duplicates Credit in the former JOUR 209 Instruction Mode: Lecture Grading Option: Letter

PR 250 Strategic Public Relations: An Introduction
Units: 4 Terms Offered: FaSp Strategies/ practices in the growing field of public relations, including landmark cases, campaign planning; special emphasis on historical roots, current and future practice. Duplicates Credit in former JOUR 250 and former JOUR 350 Instruction Mode: Lecture Grading Option: Letter

PR 340 Introduction to Advertising
Units: 4 Terms Offered: FaSp History and development of advertising; basic advertising campaigns showing relationships of marketing, creative, print and electronic media. Duplicates Credit in former JOUR 340 Instruction Mode: Lecture Grading Option: Letter

PR 341 Advertising Copywriting
Units: 4 Terms Offered: Fa Writing and editing for advertising and commercial copy for all media. *Prerequisite:* PR 340 Duplicates Credit in former JOUR 341 Instruction Mode: Lecture Grading Option: Letter

Units: 4 Understanding of the dynamic, changing world of U.S. healthcare; knowledge of healthcare audiences and how to reach them; creating effective strategic communications initiatives. Duplicates Credit in former JOUR 481 Instruction Mode: Lecture Grading Option: Letter

PR 482 Comparative Media in Europe
Units: 4 Terms Offered: Sm (Enroll in JOUR 482)

PR 485 Multimedia PR Content: Digital/Social Media Lab
Units: 2 Hands-on lab; Web and new social distribution platforms; development and management of online content and personal brands; social media trends and applications. Duplicates Credit in former JOUR 485 Instruction Mode: Lecture Grading Option: Letter

PR 486 Multimedia PR Content: Introduction to Digital Design Tools
Units: 2 Hands-on lab; producing multimedia content; basic principles of design; tools and techniques to create digital images and layouts. Duplicates Credit in former JOUR 486 Instruction Mode: Lecture Grading Option: Letter

PR 487 Multimedia PR Content: Introduction to Audio/Video Tools
Units: 2 Hands-on lab; audio/video tools for conceiving, shooting, editing, delivering and archiving compelling stories for online audiences; personal brand building; digital storytelling trends and applications. Duplicates Credit in former JOUR 487 Instruction Mode: Lecture Grading Option: Letter

PR 488 Multimedia PR Content: Visual Communication of Information
Units: 2 Overview of tools and techniques available to convey messages and experiences; exploration into graphic design, visual branding, design methods and processes. Duplicates Credit in former JOUR 488 Instruction Mode: Lecture Grading Option: Letter

PR 490 Directed Research
Units: 1, 2, 3, 4, 5, 6, 7, 8 Terms Offered: FaSpSm Individual research and readings. Not available for graduate credit. Instruction Mode: Lecture Grading Option: Letter

PR 491 Fan Relations
Units: 4 Examines fan relationships and explores fan activation strategies across sports, television, motion pictures, music, comic books, theme parks, social media and more. Registration Restriction: Open only to juniors, seniors and graduate students Duplicates Credit in former JOUR 491 Instruction Mode: Lecture Grading Option: Letter

PR 492 Personal Branding
Units: 4 Learn to build, promote and manage a personal brand through critical analysis, case study, interactive interpretation and creative problem solving. Duplicates Credit in former JOUR 492

Instruction Mode: Lecture Grading Option: Letter

PR 498 Public Relations Honors Seminar
Units: 2 Terms Offered: Sp Leadership workshop inspires students to be braver and more creative; encourages them to discover their leadership potential/ explore new challenges inside and outside of classroom. Registration Restriction: Admission to Honors Program Instruction Mode: Lecture Grading Option: Letter

PR 499 Special Topics
Units: 1, 2, 3, 4, 5, 6, 7, 8 Max Units: max 8 Terms Offered: FaSpSm Selected topics in public relations. Instruction Mode: Lecture Grading Option: Letter

PR 501 Advocacy Communications
Units: 4 Study and evaluation of communications campaigns by civil society actors to influence public policy with a focus on messaging and efforts to shape news coverage. Duplicates Credit in former JOUR 501 Instruction Mode: Lecture Grading Option: Letter

PR 504 Strategic Public Relations Research, Evaluation and Insights
Units: 3 Terms Offered: Fa Covers use of primary and secondary research methods, analysis, web monitoring and analytics, pre- and post-campaign testing, and other techniques in program planning and evaluation. *Prerequisite:* PR 508 Duplicates Credit in former JOUR 504 Instruction Mode: Lecture Grading Option: Letter

PR 508 Public Relations and Advertising Fundamentals and Strategy
Units: 3 Explores the practice of public relations and advertising in a broader strategic communication and digital context; emphasizing strategy, critical thinking and problem solving. Duplicates Credit in former JOUR 508 Instruction Mode: Lecture Grading Option: Letter

PR 510 Legal, Ethical and Social Foundations of Strategic Public Relations
Units: 3 Terms Offered: Sp Explores the origins, effects of, and processes for adhering to the complex network of legal, ethical and social responsibilities of the contemporary PR practitioner. Duplicates Credit in former JOUR 510 Instruction Mode: Lecture Grading Option: Letter

PR 522 Storytelling with Data Intelligence
Units: 3 Provides the foundations of quantitative research methods, the basics of storytelling with data and critical thinking skills in public relations, advertising and related fields. Instruction Mode: Lecture Grading Option: Letter

PR 523 Advanced Audience Insight Mining
Units: 3 Provides student training with cutting-edge digital research methods and applied data analytic skills relevant to current and future public relations and advertising practices. Instruction Mode: Lecture Grading Option: Letter

PR 524 Multimedia Content Creation for Brand Storytelling I
Units: 3 Covers the conceptualization and creation of strategy-based, engaging, primarily web-based multimedia content for use by organizations of all types. Instruction Mode: Lecture Grading Option: Letter

PR 525 Multimedia Content Creation for Brand Storytelling II
Units: 3 Conceptualization and creation of strategic, research-based, primarily image and video multimedia content for use by organizations of all types. *Prerequisite:* PR 524 Instruction Mode: Lecture Grading Option: Letter

PR 526 Understanding Transmedia Audiences
Units: 3 Understanding contemporary media audiences through theoretical concepts and developing applied business insights from research using interviews, ethnography, netnography, content analysis, data interpretation and visualization. Instruction Mode: Lecture Grading Option: Letter

PR 527 Multimedia Content Creation for Strategic Public Relations
Units: 3 Terms Offered: Sp Covers the conceptualization and creation of strategy-based, engaging, primarily web-based multimedia content for use by organizations of all types. *Prerequisite:* PR 508 and PR 535 Duplicates Credit in former JOUR 527 Instruction Mode: Lecture Grading Option: Letter

PR 529 Business and Economic Foundations for Communicators
Units: 3 Speaking the language of the board room; understanding business goals and objectives; economic literacy; financial/investor relations; understanding organizational disciplines and how they relate to corporate communication; PR/ communication business processes and management. Instruction Mode: Lecture Grading Option: Letter

PR 530 Strategic Public Relations Management
Units: 3 An analytical, case study-based approach to strategic campaign planning, management and execution, with heavy emphasis on problem solving and the role of research. Duplicates Credit in former JOUR 530 Instruction Mode: Lecture Grading Option: Letter

PR 532 International Public Relations
Units: 3 Public information policies and practices of national and supranational government units and national and multinational corporations involved in international relations. Duplicates Credit in former JOUR 532 Instruction Mode: Lecture Grading Option: Letter

PR 534 Case Studies in Public Relations
Units: 3 Analysis of landmark and contemporary public relations cases; evaluation of current literature, programs, and professional personnel; identification of emerging issues. Duplicates Credit in former JOUR 534 Instruction Mode: Lecture Grading Option: Letter

PR 535 Persuasive Writing
Units: 3 Teaches persuasive writing for practitioners in public relations, advertising, influencer relations and brand activation through in-class writing drills with and without deadline pressure. Duplicates Credit in former JOUR 535 Instruction Mode: Lecture Grading Option: Letter

PR 536 Digital, Social and Mass Media Public Relations Strategies
Units: 3 Analysis of shifting media environment; development and execution of multi-platform campaigns based on organizational goals and audience characteristics. Duplicates Credit in former JOUR 536 Instruction Mode: Lecture Grading Option: Letter

PR 537 Public Relations and Branding
Units: 3 Concept of branding, including brand definition, brand engagement, brand management and the role of public relations in creating brand value. Duplicates Credit in former JOUR 537 Instruction Mode: Lecture Grading Option: Letter

PR 538 Image Management in Entertainment
Units: 3 In-depth study of the creation and protection of reputations for entertainment properties of all types and the characteristics that distinguish it from other disciplines. Duplicates Credit in former JOUR 538 Instruction Mode: Lecture Grading Option: Letter

PR 539 Lifestyle Public Relations Audience Engagement
Units: 3 Terms Offered: Sm Examines engagement/activation as well as the nuances of lifestyle practitioner. Dissects segments such as towns and neighborhoods; race/ethnicity by cultural practices/nuances. *Recommended Preparation:* PR 444 Instruction Mode: Lecture Grading Option: Letter

PR 540 International Journalism Seminar I
Units: 3 (Enroll in JOUR 540)

PR 561 Principles of Public Relations
Units: 4 Terms Offered: Other Practical and theoretical survey of the public relations profession as it is currently practiced, providing a social/contextual backdrop for further study of the field. Duplicates Credit in former JOUR 561 Instruction Mode: Lecture Grading Option: Letter Crosslisted as CMGT 561

PR 562 Foundations of Effective PR Writing
Units: 4 Terms Offered: Other Specialized writing for persuasive and strategic communication contexts. Intensive focus on public relations writing for print, online, broadcast, and social media. Instruction Mode: Lecture Grading Option: Letter Crosslisted as CMGT 562

PR 563 Promotional and Product Public Relations
Units: 3 Planning, managing and evaluating integrated communications campaigns utilizing public relations strategies in concert with advertising and other marketing disciplines; emphasis on research, case studies and campaign development. Duplicates Credit in former JOUR 563 Instruction Mode: Lecture Grading Option: Letter

PR 565 Corporate Public Relations and Reputation
Units: 3 Learn all aspects of corporate communications and reputation management through real-time news analysis, cases and senior guest speakers from the world's largest, most admired companies. Duplicates Credit in former JOUR 565 Instruction Mode: Lecture Grading Option: Letter

PR 566 Public Relations for Multicultural and Niche Audiences
Units: 2 Developing, managing and

evaluating campaigns designed to reach audiences segmented by culture, lifestyle and other factors. Duplicates Credit in former JOUR 566 Instruction Mode: Lecture Grading Option: Letter

PR 568 Crisis Management in Strategic Public Relations
Units: 3 Focuses on theories, concepts and practices in risk assessment, issues monitoring, and crisis anticipation/ management in a wide variety of organizational contexts, and from multiple perspectives. Duplicates Credit in former JOUR 568 Instruction Mode: Lecture Grading Option: Letter

PR 569 Ethics in Public Relations
Units: 3 Application of public relations principles to ethical conduct in a business, government agency, non-profit organization or consulting entity; emphasis on applicable cases and dialogue. Duplicates Credit in former JOUR 569 Instruction Mode: Lecture Grading Option: Letter

PR 583 Managing Communication in the Entertainment Industry
Units: 4 (Enroll in CMGT 543)

PR 590 Directed Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Terms Offered: FaSpSm Research leading to the master's degree. Maximum units which may be applied to the degree to be determined by the department. Instruction Mode: Lecture Grading Option: Credit/No Credit

PR 594a Master's Thesis
Units: 2 Terms Offered: FaSpSm Credit on acceptance of thesis. Instruction Mode: Lecture Grading Option: In Progress/Credit/ No Credit

PR 594b Master's Thesis
Units: 2 Terms Offered: FaSpSm Credit on acceptance of thesis. Instruction Mode: Lecture Grading Option: In Progress to Credit/No Credit

PR 594z Master's Thesis
Units: 0 Terms Offered: FaSpSm Credit on acceptance of thesis. Instruction Mode: Lecture Grading Option: Credit/No Credit

PR 597 Financial and Investor Communications
Units: 3 Provides a practical, working understanding of financial communications, concerned primarily with articulating a company's value. This applies to matters of corporate image and financial/ investment environment. *Prerequisite:* PR 508 Registration Restriction: Open only to Public Relations and Strategic Public Relations majors Duplicates Credit in former JOUR 597 Instruction Mode: Lecture Grading Option: Letter

PR 598 Improvisational Leadership
Units: 3 Leadership workshop inspires stepping outside of comfort zones to be braver and more creative. Encourages discovery of leadership potential by exploring new ideas and challenges. Instruction Mode: Lecture Grading Option: Letter

PR 599 Special Topics
Units: 1, 2, 3, 4, 5, 6, 7, 8 Max Units: max 8 Terms Offered: FaSpSm Seminar in selected topics in journalism. Instruction Mode: Lecture Grading Option: Letter

Product Innovation

PRIN 501 The Creator's Mindset
Units: 4 In-depth exploration of the mindsets, personalities and social, cultural and political factors that led to the world's greatest breakthroughs. Instruction Mode: Lecture Grading Option: Letter

PRIN 502 History and Theory of Product Innovation
Units: 2 Covers milestones of product design, including game-changing concepts and processes that led to disruptive innovations and new enterprise opportunities. Instruction Mode: Lecture Grading Option: Letter

PRIN 503 Principles of Human-Centered Design
Units: 2 Advanced methods and techniques for applying human-centered design to the development and launch of products and enterprises. Includes workshop design and facilitation, co-creation and synthesis. Instruction Mode: Lecture Grading Option: Letter

PRIN 504 Aesthetics of Form I
Units: 4 In-depth look at what shapes our aesthetic values. Students gain facility in critical dialog, recognition and practice of aesthetic decisions across physical and virtual product platforms. Instruction Mode: Lecture, Lab Grading Option: Letter

PRIN 505 Aesthetics of Form II
Units: 4 Through case studies and applied learning students gain advanced knowledge in consumer desirability and the functional aspects of virtual and physical form and aesthetic design. Instruction Mode: Lecture, Lab Grading Option: Letter

PRIN 510 Foundation Studio
Units: 4 An intensive look at the process of bringing a product from concept to market. Includes theory and applied techniques for both physical and virtual products. Instruction Mode: Lecture Grading Option: Letter

PRIN 515 Maker Foundation I
Units: 2 Advanced visualization concepts, techniques and tools used to communicate ideas, solve problems and enhance collaboration for product design and development. *Corequisite:* PRIN 516 Instruction Mode: Lecture Grading Option: Letter

PRIN 516 Maker Foundation II
Units: 2 Advanced explorations of digital design tools, including industry standard software. *Corequisite:* PRIN 515 Instruction Mode: Lecture Grading Option: Letter

PRIN 520 Creators Studio
Units: 4 Max Units: 12 Research, ideation, design, development and fabrication of products; applied principles of human centered design, blue ocean strategies and product desirability, feasibility and viability. *Recommended Preparation:* PRIN 510 Instruction Mode: Lecture, Lab Grading Option: Letter

PRIN 525 Physical Maker Lab
Units: 2 Max Units: 12 Fabrication of physical products; includes explorations of soft goods, hard goods and products suitable for hybrid or unique applications. Instruction Mode: Lecture, Lab Grading Option: Letter

PRIN 526 Virtual Maker Lab
Units: 2 Max Units: 12 Making and execution of virtual products; includes explorations of digital and interactive systems and experiences, and products suitable for hybrid or unique applications. Instruction Mode: Lecture, Lab Grading Option: Letter

PRIN 530 Business Essentials for Product Innovators
Units: 4 Foundational concepts, methodologies and techniques for developing and launching products and enterprises; product road-mapping, supply chain, market research and user/consumer insight. Instruction Mode: Lecture, Lab Grading Option: Letter

PRIN 531 Product Venture Design and Foresight
Units: 4 What if doing business was re-framed as a medium for design? Students uncover their ability to see and activate groundbreaking opportunities in new product development. *Prerequisite:* PRIN 530 Instruction Mode: Lecture, Lab Grading Option: Letter

PRIN 532 Leading Product Enterprises
Units: 4 Advanced concepts, methodologies and techniques for developing and launching products and enterprises; organizational structure and culture, finance and sustainable growth. *Prerequisite:* PRIN 531 Instruction Mode: Lecture, Lab Grading Option: Letter

PRIN 535 Entrepreneur Lab
Units: 2 Max Units: 12 Selected topics covering development of products for new enterprises; product viability, enterprise models, talent acquisition and management and legal considerations. Instruction Mode: Lecture, Lab Grading Option: Letter

PRIN 550 Industry Lab
Units: 2 Max Units: 12 Practicum through which student teams serve as design strategists for industry collaborators, and learn advanced methods and processes to solve problems in collaborative, field-specific environments. Instruction Mode: Lecture, Lab Grading Option: Letter

PRIN 575a The Garage Experience
Units: 2 Product Innovation capstone leading to innovative outcomes, including advanced research artifacts, operational prototypes and breakthrough enterprises across multiple fields and industries. Instruction Mode: Lecture, Lab Grading Option: Letter

PRIN 575b The Garage Experience
Units: 2 Max Units: 6 Continuation of PRIN 575a . Students refine and perfect outcomes, leading to a pitch/presentation to faculty and industry experts for funding or validation and critical networking. *Prerequisite:* PRIN 575a Instruction Mode: Lecture, Lab Grading Option: Letter

PRIN 590 Directed Research
Units: 1,2,3,4,5,6,7,8,9,10,11,12 Research leading to the master's degree. Maximum units which may be applied to the degree to be determined by the department. Graded CR/NC. Instruction Mode: Lecture Grading Option: Credit/No Credit

PRIN 591 Individual Instruction
Units: 1,2,3,4 Max Units: 8 Weekly, individual instruction with an Academy professor for deep exploration and study

within a Product Innovation core discipline. Instruction Mode: Lecture Grading Option: Letter

PRIN 599 Special Topics
Units: 1,2,3,4,5,6,7,8 Max Units: 8 Comprehensive exploration of particular aspects of product innovation. Selected topics. Instruction Mode: Lecture Grading Option: Letter

Pharmaceutical Sciences

PSCI 501 Drugs: Principles of ADME and Bioavailability
Units: 4 Terms Offered: Fa Principles of drug formulation, delivery, metabolism and transport; influence of physicochemical properties, physiology, and pharmacogenetics on these properties; drug-drug interactions; and pharmacokinetics. Instruction Mode: Lecture Grading Option: Letter

PSCI 502 Principles of Therapeutic Mechanisms
Units: 4 Terms Offered: Fa Principles of mechanisms of actions of common drug classes, medicinal chemistry, pharmacology, drug interactions with protein targets, biologics, drug targeting and nanotechnology. Instruction Mode: Lecture Grading Option: Letter

PSCI 503 Principles of Research Methodology
Units: 4 Terms Offered: Sp Covers various topics focused on the analysis of biological molecules and samples. Techniques in detection, separation and quantitative analysis of biological molecules will be presented and discussed. Instruction Mode: Lecture Grading Option: Letter

PSCI 511 Drugs: Solubility, Dissolution and Absorption
Units: 2 Terms Offered: Fa Drug formulation based on physicochemical properties, ionization, solubility, rate of solution, partitioning; methods to improve these properties to enhance absorption. Instruction Mode: Lecture Grading Option: Letter

PSCI 512 Drugs: Metabolism and Transporters
Units: 2 Terms Offered: Sp Drug metabolism and transport, mechanism of CYP P450 enzymes, chemistry of metabolic pathways, prediction of metabolism, mechanism of drug uptake and efflux, drug-drug interactions. Instruction Mode: Lecture Grading Option: Letter

PSCI 513 Drugs: Biologics and Specialty Pharmaceuticals
Units: 2 Terms Offered: Sp Formulation and delivery of biologics, mechanism of action and use of biologics in major disease states, and value of specialty pharmaceuticals. Instruction Mode: Lecture Grading Option: Letter

PSCI 515 Drugs: Genetics and Pharmacogenetics
Units: 2 Terms Offered: Sp Drug-related genetics principles; pharmacogenetics influencing drug action, including individual responses to drugs based on SNPs; and genetic engineering and gene therapy. Instruction Mode: Lecture Grading Option: Letter

PSCI 516 Free Radical Biology in Health and Disease
Units: 2 Terms Offered: Fa Principles of free radical biochemistry and its effects on pathophysiology; redox regulation of cell signaling and transcriptional pathways. *Recommended Preparation:* Undergraduate course in Biochemistry or Molecular Biology or Cell Biology Instruction Mode: Lecture Grading Option: Letter

PSCI 517 Protein Engineering and Drug Discovery
Units: 2 Terms Offered: Sp Highlight the principles and applications of protein chemistry, structure and engineering with a major focus on subjects and topics directly relevant to biological therapeutics and drug design and discovery. Instruction Mode: Lecture Grading Option: Letter

PSCI 531 Cell Biology
Units: 4 (Enroll in INTD 531)

PSCI 556 Principal Research Approaches and Scientific Writing
Units: 4 Terms Offered: Fa Familiarizes new graduate students with basic approaches used in biomedical research, with a focus on approaches in pharmaceutical, pharmacological and translational sciences. Provides an understanding of what to expect in the coming years as a graduate student doing biomedical research and in scientific writing. Instruction Mode: Lecture Grading Option: Letter

PSCI 557 Introduction to Tools and Techniques for Chemical Biology
Units: 2 Terms Offered: Sp Multidisciplinary science where the knowledge of chemistry is utilized to solve problems in biology, and biological systems are evolved to gain new functions. This course aims to establish a great opportunity for graduate students at the interface of biology and chemistry. *Recommended Preparation:* formal course work in chemistry and biochemistry. Instruction Mode: Lecture, Discussion Grading Option: Letter

PSCI 561 Molecular Biology
Units: 4 Terms Offered: Fa (Enroll in INTD 561)

PSCI 571 Biochemistry
Units: 4 Terms Offered: Fa (Enroll in INTD 571)

PSCI 590 Directed Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Terms Offered: FaSpSm Research leading to the master's degree. Maximum units which may be applied to the degree to be determined by the department. Instruction Mode: Lecture Grading Option: Credit/No Credit

PSCI 594a Master's Thesis
Units: 2 Terms Offered: FaSp Credit on acceptance of thesis. *Prerequisite:* completion of all required course work for the MS degree. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

PSCI 594b Master's Thesis
Units: 2 Terms Offered: FaSp Credit on acceptance of thesis. *Prerequisite:* completion of all required course work for the MS degree. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

PSCI 594z Master's Thesis
Units: 0 Terms Offered: FaSp Credit on acceptance of thesis. *Prerequisite:* completion of all required course work for the MS degree. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

PSCI 596 Internship for Curricular Practical Training
Units: 1, 2, 3 Max Units: 03 Terms Offered: FaSpSm Part-time or full-time, practical work experience in the student's field of study. The internship must be located at an off-campus facility. Students are individually supervised by faculty. May not be taken until the student has completed at least one semester of enrollment in the graduate program with a cumulative 3.0 GPA. Registration Restriction: Open only to graduate students Instruction Mode: Lecture Grading Option: Credit/No Credit

PSCI 599 Special Topics
Units: 2, 3, 4 Max Units: 8.0 Terms Offered: FaSp Topics in advanced pharmaceutical sciences. Instruction Mode: Lecture Grading Option: Letter

PSCI 633 Free Radical Chemistry, Biology, and Medicine
Units: 4 Terms Offered: Fa (Enroll in GERO 666)

PSCI 655 Immunopharmaceutics
Units: 2, 2 years Terms Offered: Fa Lectures and discussion sessions on pharmaceutics related immunology, including drugs affecting the immune system, antibodies and cytokines as drugs, and new developments in immunobiotechnology. Instruction Mode: Lecture Grading Option: Letter

PSCI 662 Advanced Pharmacokinetics/ Pharmacodynamics
Units: 2 Max Units: 4.0 Terms Offered: FaSp Principles of advanced pharmacokinetics/pharmacodynamics. Mathematical description of drug disposition processes. Design and evaluation of pharmacokinetic/pharmacodynamic studies. Advanced approaches to parameter estimates. Instruction Mode: Lecture Grading Option: Letter

PSCI 664 Drug Discovery and Design
Units: 4 Terms Offered: FaSpSm Principles of drug discovery, design and characterization. Mechanisms of action of major classes of drugs. *Recommended Preparation:* college level chemistry and biology. Instruction Mode: Lecture Grading Option: Letter

PSCI 665 Drug Transport and Delivery
Units: 4 Terms Offered: Fa Principles of cellular drug transport, in vivo drug transport, and modern drug delivery, including drug targeting. *Recommended Preparation:* college level chemistry and biology. Instruction Mode: Lecture Grading Option: Letter

PSCI 667 Intracellular Drug Delivery and Targeting
Units: 2, 2 years Terms Offered: Sp Mechanisms of membrane trafficking and intracellular transport and the utilization of these mechanisms in drug delivery and targeting. *Recommended Preparation:* college level chemistry and biology, INTD 531. Instruction Mode: Lecture Grading Option: Letter

PSCI 756a Seminar in Pharmaceutical Sciences
Units: 1 Terms Offered: FaSpSm Review of current pharmaceutical and related

research topics. Instruction Mode: Lecture Grading Option: Letter

PSCI 756b Seminar in Pharmaceutical Sciences
Units: 1 Terms Offered: FaSpSm Review of current pharmaceutical and related research topics. Instruction Mode: Lecture Grading Option: Letter

PSCI 790 Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Terms Offered: FaSpSm Research leading to the doctorate. Maximum units which may be applied to the degree to be determined by the department. Instruction Mode: Lecture Grading Option: Credit/No Credit

PSCI 791L Research
Units: 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Max Units: no max Directed research for the MS thesis or PhD dissertation.

PSCI 794a Doctoral Dissertation
Units: 2 Terms Offered: FaSpSm Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

PSCI 794b Doctoral Dissertation
Units: 2 Terms Offered: FaSpSm Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

PSCI 794c Doctoral Dissertation
Units: 2 Terms Offered: FaSpSm Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

PSCI 794d Doctoral Dissertation
Units: 2 Terms Offered: FaSpSm Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

PSCI 794z Doctoral Dissertation
Units: 0 Terms Offered: FaSpSm Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

Psychology

PSYC 100Lg Introduction to Psychology
Units: 4 Terms Offered: FaSpSm Introduction to psychological science, including historical and contemporary approaches. Behavior examined from biological, cognitive, social, developmental, and personality perspectives. Disorders and treatments. Satisfies New General Education in Category D: Life Sciences Instruction Mode: Lecture, Lab Required Grading Option: Letter

PSYC 165Lg Drugs, Behavior and Society
Units: 4 Terms Offered: Irregular An integrative systems perspective of drugs; including their historical, economic, and cultural importance, psychopharmacology, addiction, relationship to crime, and therapeutic use in treating psychological disorders. Satisfies New General Education in Category D: Life Sciences Satisfies Old General Education in Category IV: Science and Its Significance Instruction Mode: Lecture, Lab Required Grading Option: Letter

PSYC 201Lg The Science of Happiness
Units: 4 Evaluates scientific research on human happiness. Integrates research from psychology, economics, and neuroscience in the evaluation of personal and public policy choices. Satisfies Old General Education in Category IV: Science and Its Significance Instruction Mode: Lecture, Lab Required Grading Option: Letter

PSYC 210gmw Social Analysis of Gender
Units: 4 Terms Offered: FaSp (Enroll in SWMS 210) Satisfies Global Perspective in Category G: Citizenship in a Diverse World

PSYC 215Lg Music, Mind and the Brain
Units: 4 Terms Offered: Irregular An interdisciplinary approach to music, mind and brain. Explores music as an object with its own properties and as a form of human behavior. Satisfies New General Education in Category D: Life Sciences Instruction Mode: Lecture, Lab Required Grading Option: Letter Crosslisted as MUSC 215

PSYC 240gx Scientific Inquiry and Reasoning in Health Care
Units: 4 Critical analysis and reasoning skills required to solve scientific problems in human behavior, including presentation of data, logic of research design, statistics, and research ethics. Satisfies New General Education in Category F: Quantitative Reasoning Credit Restriction: Not for major credit for Psychology majors Instruction Mode: Lecture Grading Option: Letter

PSYC 274Lg Statistics
Units: 4 Terms Offered: FaSpSm Introduction to the use of statistics in psychology: basic ideas in measurement; frequency distributions; descriptive statistics; concepts and procedures in statistical inference. *Recommended Preparation:* PSYC 100. Satisfies New General Education in Category F: Quantitative Reasoning Instruction Mode: Lecture, Lab Required Grading Option: Letter

PSYC 275Lg Language and Mind
Units: 4 Terms Offered: FaSp (Enroll in LING 275)

PSYC 290x Supervised Research in Psychology
Units: 2 or 4 Max Units: 8.0 Terms Offered: FaSpSm Supervised Research with department faculty. *Prerequisite:* PSYC 100. Instruction Mode: Lecture Grading Option: Letter

PSYC 301L Cognitive Processes
Units: 4 Terms Offered: Irregular Experimental and theoretical aspects of human memory, perception, thinking, and language. *Prerequisite:* PSYC 100. Instruction Mode: Lecture, Lab Required Grading Option: Letter

PSYC 304L Sensation and Perception
Units: 4 Terms Offered: Irregular Receptor processes and stimulus organization; traditional topics in the perception of objects, space, time. *Prerequisite:* PSYC 100. Instruction Mode: Lecture, Lab Required Grading Option: Letter

PSYC 305 Learning and Memory
Units: 4 Terms Offered: Irregular Principles involved in classical and operant conditioning. Concentration on basic causes of behavior; consideration of the relevance of simple behavioral laws to complicated human behavior. *Prerequisite:* PSYC 100. Instruction Mode: Lecture Grading Option: Letter

PSYC 314L Experimental Research Methods
Units: 4 Terms Offered: FaSpSm Experimental research methods in psychology; nature and concepts of scientific method. *Prerequisite:* PSYC 100 and PSYC 274. Instruction Mode: Lecture, Lab Required Grading Option: Letter

PSYC 316L Non-Experimental Research Methods
Units: 4 Terms Offered: FaSpSm Non-experimental research methods in psychology. Observational, survey and data analysis exercises. *Prerequisite:* PSYC 100 and PSYC 314. Instruction Mode: Lecture, Lab Required Grading Option: Letter

PSYC 320 Principles of Psychobiology
Units: 4 Terms Offered: Irregular The integrative study of bio-behavioral systems. Evolutionary, developmental, ecological, social, ethological, and physiological factors mediating representative behavioral and psychological phenomenon are examined in detail. *Prerequisite:* PSYC 100Lg Instruction Mode: Lecture Grading Option: Letter

PSYC 326 Behavioral Neuroscience
Units: 4 Terms Offered: FaSp Neural bases of behavior. Concentration on sensory and motor processes and the interaction of neural, chemical, and hormonal systems. *Prerequisite:* PSYC 100. Instruction Mode: Lecture Grading Option: Letter

PSYC 336L Developmental Psychology
Units: 4 Terms Offered: FaSp Child and adolescent behavior and associated theories; exploration of the continuity between child and adult behavior. *Prerequisite:* PSYC 100. Instruction Mode: Lecture, Lab Required Grading Option: Letter

PSYC 337L Adult Development and Aging
Units: 4 Genetic, physical, and social influences during adult years on perception, learning and memory, intelligence, personality, social roles, and normal and deviant behavioral patterns. *Prerequisite:* PSYC 100. Instruction Mode: Lecture, Lab Required Grading Option: Letter

PSYC 339Lg Origins of the Mind
Units: 4 Terms Offered: Sp Exploration of ancient philosophical questions concerning the origins of human knowledge through empirical studies of infants, animals, and adults from diverse cultures. Satisfies New General Education in Category D: Life Sciences Satisfies Old General Education in Category IV: Science and Its Significance Instruction Mode: Lecture, Lab Required Grading Option: Letter

PSYC 353g Close Relationships
Units: 4 Terms Offered: FaSp Scientific perspective of close relationships: intimate relationships, friendships and others, evolutionary and biological bases of attraction and love, historical, social, cultural influences. *Prerequisite:* PSYC 100 Satisfies New General Education in Category C: Social Analysis Instruction Mode: Lecture Grading Option: Letter

PSYC 355 Social Psychology
Units: 4 Terms Offered: FaSp Theoretical and experimental analysis of human behavior. Social processes involved in attitudes, conformity, compliance,

interpersonal perception, liking, affiliation, aggression, altruism, and group dynamics. *Prerequisite:* PSYC 100. Instruction Mode: Lecture Grading Option: Letter

PSYC 360 Abnormal Psychology
Units: 4 Terms Offered: FaSp The commonly diagnosed behavior pathologies; biological, social, cultural, and developmental antecedents of abnormal behavior; principles of learning, perception, and motivation, as they relate to psychopathology. *Prerequisite:* PSYC 100. Instruction Mode: Lecture Grading Option: Letter

PSYC 361 Introduction to Clinical Psychology
Units: 4 Terms Offered: Irregular Introduction to the scientist-practitioner model of clinical psychology, including research methods, psychological assessment and diagnosis, psychotherapeutic interventions, and treatment of special populations. *Prerequisite:* PSYC 100. Instruction Mode: Lecture Grading Option: Letter

PSYC 363 Criminal Behavior
Units: 4 Genetic, biological, psychological, and sociological characteristics of those who evidence criminal behavior; theoretical formulations to be reviewed and appraised. *Prerequisite:* PSYC 100. Duplicates Credit in the former PSYC 463. Instruction Mode: Lecture Grading Option: Letter

PSYC 365 Introduction to Forensic Psychology
Units: 4 Terms Offered: FaSpSm Survey of current topics, technologies and techniques. Students acquire a basic understanding of how forensic psychologists contribute their unique expertise to the American legal system. *Prerequisite:* PSYC 100. Duplicates Credit in the former PSYC 465. Instruction Mode: Lecture Grading Option: Letter

PSYC 367g Stress, Health, and the Mind-Body Connection
Units: 4 Terms Offered: Sp Introduction to psychological, biological and behavioral processes affecting physical health, including stress, coping with disease, health behaviors and socioeconomic and cultural influences on health. *Prerequisite:* PSYC 100Lg Satisfies New General Education in Category C: Social Analysis Registration Restriction: Open only to Health and Human Sciences, Psychology, Social Sciences (Psychology) majors Instruction Mode: Lecture Grading Option: Letter

PSYC 372 Human Sexuality
Units: 4 Psychological and physiological base of sexuality; gender identity, childbearing, birth control, venereal diseases; dysfunctions and treatments. Instruction Mode: Lecture Grading Option: Letter Crosslisted as SWMS-372

PSYC 380 Junior Honors Seminar
Units: 2, 3, 4 Max Units: 8.0 Terms Offered: Sp Advanced study of scientific inquiry in psychology with in-depth analysis of current research by faculty in the Psychology Department. Preparation for senior honors thesis research. *Corequisite:* PSYC 314. Instruction Mode: Lecture Grading Option: Letter

PSYC 390 Special Problems
Units: 1, 2, 3, 4 Supervised, individual studies. No more than one registration permitted. Enrollment by petition only. Instruction Mode: Lecture Grading Option: Letter

PSYC 391 Directed Field Experience in Psychology
Units: 1, 2, 3, 4 Max Units: 4.0 Terms Offered: FaSpSm Individual field experience and independent study supervised by an on-site professional and USC faculty sponsor. *Prerequisite:* PSYC 100; *Recommended Preparation:* minimum of three courses completed in psychology. Instruction Mode: Lecture Grading Option: Letter

PSYC 404L Psychophysiology of Emotion
Units: 4 Terms Offered: Irregular Introduction to the scientific study of emotional behavior. Emphasizes research into relations between physiological and psychological variables underlying emotional experience. *Prerequisite:* PSYC 100, PSYC 274, and PSYC 314. Instruction Mode: Lecture, Lab Required Grading Option: Letter

PSYC 405 Child Language Acquisition
Units: 4 (Enroll in LING 405)

PSYC 406 Psycholinguistics
Units: 4 (Enroll in LING 406)

PSYC 407 Atypical Language
Units: 4 (Enroll in LING 407)

PSYC 412 Current Topics In Social Psychology
Units: 4 Terms Offered: Sp Extensive examination of select current research in social psychology, based on original research papers. Specific topics change by semester. *Prerequisite:* PSYC 274Lg and PSYC 314L Instruction Mode: Lecture Grading Option: Letter

PSYC 415L Psychological Measurement
Units: 4 Classical and modern approaches to psychological measurement; scaling; test construction; true score reliability model; generalizability theory; validity; decision theoretic selection; item analysis; item response theory. *Prerequisite:* PSYC 314. Instruction Mode: Lecture, Lab Required Grading Option: Letter

PSYC 418 Experimental Exploration into the Origins of Cognition
Units: 4 Exploration of the origins of cognition via the basics of experimental design, 3D computer modeling, data analysis, and scientific presentation. *Recommended Preparation:* PSYC 314 or background in experimental research. Instruction Mode: Lecture Grading Option: Letter

PSYC 420 Animal Behavior
Units: 4 Exploration of human nature through studies of nonhuman animals, including topics of navigation, culture, object representation, social cognition, music, and morality. *Prerequisite:* PSYC 100. Instruction Mode: Lecture Grading Option: Letter

PSYC 421L Data Analysis for Psychological Research
Units: 4 Multivariate analysis emphasizing model estimation and testing; topics vary, e.g., multiple regression, logistic regression, factor analysis, multilevel linear modeling, structural equation modeling, multiway frequency analysis. *Prerequisite:* PSYC 314. Instruction Mode: Lecture, Lab Required Grading Option: Letter

PSYC 422 Human Judgment and Decision Making
Units: 4 Descriptive and normative models of decision making; topics include probability judgments, inference, correlation, emotion, mental accounting, decision analysis, lens model, equity, social dilemmas, time, risk. *Prerequisite:* PSYC 314. Instruction Mode: Lecture Grading Option: Letter

PSYC 423 User Experience
Units: 4 Terms Offered: FaSp (Enroll in MDA 423)

PSYC 424 Neuropsychology
Units: 4 Terms Offered: Irregular Effects of brain damage on human behavior and abilities, particularly language, memory, and emotion. *Prerequisite:* PSYC 100Lg Instruction Mode: Lecture Grading Option: Letter Crosslisted as NEUR 422

PSYC 425 Functional Imaging of the Human Brain
Units: 4 Terms Offered: Irregular Introduction to the physical and physiological bases of Magnetic Resonance Imaging (MRI), and principles of functional MRI, safety, design and analysis of experiments, and operation. *Prerequisite:* PSYC 100Lg and PSYC 274Lg Instruction Mode: Lecture Grading Option: Letter

PSYC 426 Motivated Behaviors and Addiction
Units: 4 Terms Offered: Other Social, environmental, and physiological influences on behaviors associated with aggression, eating, reproduction, and sleep. Will focus on behavioral disorders such as addiction. *Prerequisite:* PSYC 100 *Recommended Preparation:* Junior or Senior Standing Instruction Mode: Lecture Grading Option: Letter

PSYC 427 Neuropsychopharmacology
Units: 4 Terms Offered: Fa Pharmo-chemical nature of the brain; diseases of the brain and drug treatments. *Prerequisite:* PSYC 100Lg Instruction Mode: Lecture Grading Option: Letter Crosslisted as NEUR 427

PSYC 428 Advanced Psychobiology Seminar
Units: 4 Terms Offered: FaSp Topics in psychobiology, including brain mechanisms that provide for perception, motivation, and memory. Student led mini-lectures and discussion in seminar format. *Prerequisite:* PSYC 304L or PSYC 326 Instruction Mode: Lecture Grading Option: Letter

PSYC 430 Social Development of Infants, Children and Adolescents
Units: 4 An analysis of selected topics and issues in child social development. *Prerequisite:* PSYC 100; *Recommended Preparation:* PSYC 274, PSYC 314, PSYC 336. Instruction Mode: Lecture Grading Option: Letter

PSYC 433 Children's Learning and Cognitive Development
Units: 4 Principles of cognitive development, learning, and motivation applied to the development of literacy; includes tutoring a child two hours per week. *Prerequisite:* PSYC 336. Instruction Mode: Lecture Grading Option: Letter Crosslisted as LING-433

PSYC 434 Intelligence, Problem Solving and Creativity
Units: 4 Psychometric and experimental approaches to the study of intelligence, problem solving, reasoning and creativity, including analysis of mental test construction and validity. *Prerequisite:* PSYC 100 and PSYC 274. Instruction Mode: Lecture Grading Option: Letter

PSYC 437 Adolescent Development
Units: 4 Terms Offered: FaSp The adolescent years from both an applied and a research-oriented perspective. Topics include physical, cognitive, and moral development; socialization; and sexual and sex-role development. *Prerequisite:* PSYC 100. Instruction Mode: Lecture Grading Option: Letter

PSYC 438 Behavioral Genetics
Units: 4 Terms Offered: Irregular Inheritance and evolution of behavioral characteristics in man and other species. *Prerequisite:* PSYC 274. Instruction Mode: Lecture Grading Option: Letter

PSYC 440 Foundations of Cognitive Neuroscience
Units: 4 Terms Offered: FaSp Introduction to the major components of cognition (perception, memory, intelligence) in terms of the neural coding characteristic of the relevant brain areas. *Prerequisite:* PSYC 100Lg *Recommended Preparation:* PSYC 301L Instruction Mode: Lecture Grading Option: Letter Crosslisted as NEUR 440

PSYC 450 Neural Network Models of Social and Cognitive Processes
Units: 4 Terms Offered: Irregular Introduction to using neural network or connectionist models to simulate cognitive, social, emotional and motivational processes; basic concepts and tools in computational neuroscience. *Prerequisite:* PSYC 100Lg *Recommended Preparation:* Basic knowledge of programming is helpful, but not required Instruction Mode: Lecture Grading Option: Letter

PSYC 451 Formation and Change of Attitudes
Units: 4 Terms Offered: Irregular Effects of socialization, personal influence, propaganda and social structure on private attitudes and public opinion. *Prerequisite:* PSYC 100 and PSYC 355. Instruction Mode: Lecture Grading Option: Letter

PSYC 452 Social Neuroscience
Units: 4 Terms Offered: Irregular Overview of principles and research in social neuroscience, which uses neuroscience approaches to inform social processes including empathy, inter-group relations, emotion, morality and social decision-making. *Prerequisite:* PSYC 100Lg *Recommended Preparation:* PSYC 355 Instruction Mode: Lecture Grading Option: Letter

PSYC 453 Intergroup Relations
Units: 4 Examination of the nature of relations between human groups and the psychological mechanisms relating to intergroup conflict, war, genocide, stereotyping, prejudice, and discrimination. *Prerequisite:* PSYC 355. Instruction Mode: Lecture Grading Option: Letter

PSYC 454 Social Cognition
Units: 4 Terms Offered: Irregular Theory and research on cognitive processes in social behavior, to include social inference, cognition and emotion, the Self, social categorization, person memory, and attribution processes. *Prerequisite:* PSYC 100; PSYC 355 recommended. Instruction Mode: Lecture Grading Option: Letter

PSYC 456 Conservation Psychology
Units: 4 Terms Offered: Fa Examination of theories, research, interventions regarding psychology of environmental sustainability including cognition, emotion, behavior, attitudes, persuasion, values, social identity, consumerism, and science of happiness. *Recommended Preparation:* PSYC 100Lg Instruction Mode: Lecture Grading Option: Letter

PSYC 459 Industrial/Organizational Psychology
Units: 4 I/O Psychologists develop and apply scientifically supported solutions to the workplace. "Industrial" deals with human resource functions, and "Organizational" with psychological aspects of the organization. *Prerequisite:* PSYC 100 *Recommended Preparation:* PSYC 316 Instruction Mode: Lecture Grading Option: Letter

PSYC 462m Culture and Mental Health
Units: 4 Terms Offered: Irregular The influence of culture, ethnicity, race and gender on human behavior. Mental health issues relevant to ethnic minorities in the U.S. *Recommended Preparation:* sophomore standing or higher; PSYC 100. Instruction Mode: Lecture Grading Option: Letter

PSYC 464 Psychology of Marriage and the Family
Units: 4 Theories and research on family relationships across the life span, including research methods, cultural and developmental perspectives, communication, conflict, attachment, individual psychopathology and family violence. *Prerequisite:* PSYC 100. Instruction Mode: Lecture Grading Option: Letter

PSYC 467 Introduction to Autism Spectrum Disorder
Units: 4 Terms Offered: Sp A comprehensive overview of the assessment, diagnosis and treatment of individuals diagnosed with autism spectrum disorder. Instruction Mode: Lecture Grading Option: Letter

PSYC 469 Schizophrenia Research
Units: 4 Terms Offered: Irregular Current research on possible causes of schizophrenia. Topics: history, diagnosis, genetics, neural development, obstetrics, psychosocial factors, brain imaging, psychopharmacology, premorbid signs and aging. *Prerequisite:* PSYC 100; *Recommended Preparation:* read current professional journals related to schizophrenia. Instruction Mode: Lecture Grading Option: Letter

PSYC 480x Senior Honors Seminar
Units: 2, 3, 4 Max Units: 8.0 Terms Offered: Sp Advanced study of empirical approaches in psychology. Progress presentations and evaluations of Senior Honors Thesis research. In-depth exploration of issues in science. *Prerequisite:* senior standing in Psychology Undergraduates Honors Program. Instruction Mode: Lecture Grading Option: Letter

PSYC 490x Directed Research
Units: 1, 2, 3, 4, 5, 6, 7, 8 Max Units: 12.0 Terms Offered: FaSpSm Individual research and readings. Instruction Mode: Lecture Grading Option: Letter

PSYC 499 Special Topics
Units: 2, 3, 4 Max Units: 8.0 Terms Offered: FaSp Selected topics in the various specialty areas within psychology. Topic will vary from semester to semester. *Prerequisite:* PSYC 100. Instruction Mode: Lecture Grading Option: Letter

PSYC 500L An Overview of Quantitative Methods in Psychology
Units: 4 Team taught introduction to analysis of variance, regression analysis, multivariate measurement, and significance testing. Computer laboratory linked to class material using SAS, SPSS, and R. Instruction Mode: Lecture, Lab Required Grading Option: Letter

PSYC 501L Classic and Modern Statistical Methods I
Units: 4 Terms Offered: Fa An introduction to classic statistical techniques as well as modern robust methods for dealing violations of standard assumptions. Instruction Mode: Lecture, Lab Required Grading Option: Letter

PSYC 502 Classic and Modern Statistical Methods II
Units: 4 Terms Offered: Sp Classic and modern ANOVA, ANCOVA methods, multiple comparison procedures, basic multivariate methods, robust regression methods and basic methods for analyzing categorical data. *Prerequisite:* PSYC 501L Instruction Mode: Lecture, Lab Grading Option: Letter

PSYC 503L Regression and the General Linear Model
Units: 4 Terms Offered: Fa Multiple regression as a tool in experimental and non-experimental data; analysis of variance and covariance as regression on coded variables. Computer applications Laboratory exercises. *Prerequisite:* PSYC 501. Instruction Mode: Lecture, Lab Required Grading Option: Letter

PSYC 504 Research Design
Units: 4 Terms Offered: Sp Intensive review of research methods in the behavioral sciences. Problem analysis, formulation of research propositions, and procedures for research inference. Instruction Mode: Lecture Grading Option: Letter

PSYC 505 Research Methods in Applied Social Psychology
Units: 4 Terms Offered: FaSpSm Various research techniques that are useful in a variety of different real world settings, such as business, governmental agencies and charities. Registration Restriction: Open only to M.S., Applied Psychology students. Instruction Mode: Lecture Grading Option: Letter

PSYC 506 Learning and Cognition
Units: 4 Terms Offered: Irregular Survey of learning theory and research, including conditioning and information-processing approaches with human and animal subjects. Instruction Mode: Lecture Grading Option: Letter

PSYC 508 Historical Foundations of Psychology
Units: 4 Terms Offered: Irregular History

of psychology: clinical, cognitive, developmental, experimental, quantitative, and social; epistemology and philosophy of science as applied to psychology. Instruction Mode: Lecture Grading Option: Letter

PSYC 512 Seminar in Social Psychology
Units: 4 Terms Offered: Fa Problems and theories of the person in the social context. Person perception, interpersonal relations, attitude dynamics, social systems. Instruction Mode: Lecture Grading Option: Letter Crosslisted as EDUC-601

PSYC 513 Attitudes and Social Influence
Units: 4 Terms Offered: FaSpSm Current theories of attitudes and behavior, measurement, attitudes as predictors of behaviors, effects on changing attitudes and behavior. Registration Restriction: Open only to M.S., Applied Psychology students. Instruction Mode: Lecture Grading Option: Letter

PSYC 514 Psychopathology
Units: 4 Terms Offered: Fa Study of psychopathology: in-depth survey of theory and research concerning psychological disorders; introduction of diagnosis. (One of three clinical psychology core courses: PSYC 514, PSYC 515, PSYC 619.) Instruction Mode: Lecture Grading Option: Letter

PSYC 515 Clinical Assessment
Units: 4 Terms Offered: Fa Study of clinical assessment: test construction, measurement and prediction of behavior, major cognitive and personality assessment instruments. (One of three clinical psychology core courses: PSYC 514 , PSYC 515, PSYC 619.) Instruction Mode: Lecture Grading Option: Letter

PSYC 517 Group Dynamics and Leadership
Units: 4 Terms Offered: FaSpSm Theory and research on effective teams and characteristics of strong leaders. Negotiation, morale-building, managing expectancies, utilization of cultural diversity as a strength. Registration Restriction: Open only to M.S., Applied Psychology students. Instruction Mode: Lecture Grading Option: Letter

PSYC 518 Cognitive Modeling
Units: 4 Terms Offered: Sp History, philosophy and goals of cognitive modeling; basic issues in model construction and evaluation. *Recommended Preparation:* PSYC 625 or a similar machine learning course Instruction Mode: Lecture Grading Option: Letter

PSYC 520 Fundamentals of Psychological Measurement
Units: 4 Factor analysis; latent variable; scaling; test construction; classical true score reliability model; generalizability theory; validity; decision theoretic approaches to selection; item analysis; item response theory. Instruction Mode: Lecture Grading Option: Letter

PSYC 521 Cross Cultural Psychology in Applied Settings
Units: 4 Terms Offered: FaSpSm Examination of major theoretical frameworks mapping worldwide cultures and values with a focus on applying that knowledge in organizations. Registration Restriction: Open only to students in Applied Psychology. Instruction Mode: Lecture Grading Option: Letter

PSYC 523 User Experience (UX) Research
Units: 4 Terms Offered: FaSpSm Provides a broad introduction to the social science methods UX researchers most commonly use, including qualitative approaches, and quantitative approaches. Registration Restriction: Open only to master students Instruction Mode: Lecture Grading Option: Letter

PSYC 524 Research Design in Developmental Psychology
Units: 4 Terms Offered: Irregular Review and practice in the analysis and design of experimental and quasiexperimental paradigms for research on ontogenetic age changes and generational differences in behavior. Instruction Mode: Lecture Grading Option: Letter

PSYC 530 Concepts and Principles of Behavior Analysis
Units: 3 Terms Offered: Fa Provides intensive training in behavioral principles and laws of learning and motivation. Focuses on broad application of principles, from basic research with nonhumans, to application across human clinical populations. Instruction Mode: Lecture Grading Option: Letter

PSYC 531 Behavioral Assessment
Units: 3 Terms Offered: Fa Studies theory and application of behavioral methods for skill assessment, functional assessment of destructive behavior, and learner motivation. Discusses relative strengths and limitations of direct versus indirect methods. Instruction Mode: Lecture Grading Option: Letter

PSYC 532 Ethics for Behavior Analysts
Units: 3 Terms Offered: Fa Provides training in legal and ethical issues as they pertain to the professional practice of behavior analysis. Reviews the Guidelines for Responsible Conduct for Behavior Analysts, as well as the American Psychological Association's Ethical Principles of Psychologists and Code of Conduct. Instruction Mode: Lecture Grading Option: Letter

PSYC 533 Cognitive Development in Children
Units: 4 Terms Offered: Sp Review of theories of cognitive development. Analysis of research on brain functioning, perception, memory, language, reasoning and academic skills from birth to adolescence. Instruction Mode: Lecture Grading Option: Letter

PSYC 534 Social and Emotional Development in Children
Units: 4 Terms Offered: Fa Theories of social and emotional development, including sociocultural perspectives. Analysis of research on temperament, social relationships, individuation and moral development from birth to adolescence. Instruction Mode: Lecture Grading Option: Letter

PSYC 535 Research Methods in Behavior Analysis
Units: 3 Terms Offered: Sp Survey of methods for measuring behavior. Examines theoretical background for single subject research methods, practical application of research methods to treatment evaluation, and analyzes strengths and limitations of single subject research methods. Instruction Mode: Lecture Grading Option: Letter

PSYC 536 Behavioral Interventions
Units: 3 Terms Offered: Sp Examines empirically supported behavioral interventions across a range of socially relevant behavioral excesses, skill deficits, disorders, and age ranges. Focuses on least-intrusive, person-centered approaches. Instruction Mode: Lecture Grading Option: Letter

PSYC 537 Behavioral Supervision
Units: 2 Terms Offered: Fa Analyzes evidence-based approaches to designing behavior change systems at the individual, family, group, and organizational levels. Examines family and systems variables that affect the likelihood of initial and continued success of interventions. *Prerequisite:* PSYC 530 and PSYC 536 Instruction Mode: Lecture Grading Option: Letter

PSYC 538 Origins of Human Nature
Units: 4 Exploration of the evolutionary and developmental origins of human nature. Topics include navigation, object and number cognition, culture, sexual behavior, cooperation, language, and morality. Instruction Mode: Lecture Grading Option: Letter

PSYC 539 Behavioral Approaches to Skill Acquisition
Units: 2 Terms Offered: Fa Examines contemporary research on behavioral procedures for teaching complex skills to individuals of a variety ages and populations, including language, social, cognitive, vocational, and independent living skills. Instruction Mode: Lecture Grading Option: Letter

PSYC 540 Cognitive Neuroscience
Units: 4 Terms Offered: Sp An examination of the major components of cognition (e.g., perception, memory, intelligence) in terms of the neural coding characteristic of the relevant brain areas. Instruction Mode: Lecture Grading Option: Letter Crosslisted as NSCI 533

PSYC 544 Psychophysiology
Units: 4 Max Units: 8.0 Terms Offered: Irregular Recent research on relations between basic psychological states (e.g., cognition, learning, emotion) and physiological response processes (e.g., autonomic responses, covert muscle activity). Instruction Mode: Lecture Grading Option: Letter

PSYC 545 Neuropsychology
Units: 4 Terms Offered: Irregular Brain mechanisms underlying perceptual and cognitive functioning: brain damage, loss of function, and clinical assessment. Instruction Mode: Lecture Grading Option: Letter

PSYC 547 Functional Neuroanatomy
Units: 4 Terms Offered: Irregular Regional organization and systems of the mammalian nervous system and their functions. Instruction Mode: Lecture Grading Option: Letter

PSYC 550a Proseminar in Human Behavior
Units: 4 Terms Offered: FaSpSm The nature of the human mind, social interactions, conflicts, cooperative behavior, mutual

influence and effectiveness. Application of psychological principles to the dynamics of commercial entities. Registration Restriction: Open only to M.S., Applied Psychology students. Instruction Mode: Lecture Grading Option: Letter

PSYC 550b Proseminar in Human Behavior
Units: 4 Terms Offered: FaSpSm The nature of the human mind, social interactions, conflicts, cooperative behavior, mutual influence and effectiveness. Application of psychological principles to the dynamics of commercial entities. Registration Restriction: Open only to M.S., Applied Psychology students. Instruction Mode: Lecture Grading Option: Letter

PSYC 551 Decision Neuroscience
Units: 4 Neuroscientific studies attempting to understand the neural basis of judgment and decision-making, social behavior, and market economies. *Recommended Preparation:* PSYC 547. Instruction Mode: Lecture Grading Option: Letter

PSYC 552 Principles of Consumer Psychology
Units: 4 Examination of the attitudes and decisions of consumers, and how to effectively reach consumers by using persuasion and proper positioning in the marketplace. Registration Restriction: Open only to M.S., Applied Psychology students. Instruction Mode: Lecture Grading Option: Letter

PSYC 555 Introduction to Functional Magnetic Resonance Imaging
Units: 4 Terms Offered: FaSp The physical and physiological bases of MRI and fMRI. Design and analysis of fMRI experiments. Operation of a magnetic resonance imaging system. Instruction Mode: Lecture Grading Option: Letter

PSYC 556 Psychology of Interactive Media
Units: 4 Examination of the diverse methods of communicating with a target audience with a special emphasis on the newest computer-based tools for providing information and influence. Registration Restriction: Open only to Applied Psychology (MS) students Instruction Mode: Lecture Grading Option: Letter

PSYC 565x Organizational Psychology
Units: 4 Terms Offered: FaSpSm Examination of the psychological factors that impact employee motivation, job satisfaction, teamwork, leadership, and organizational development. Registration Restriction: Open only to Master of Applied Psychology students. Instruction Mode: Lecture Grading Option: Letter

PSYC 566 The Psychology of Employee Selection and Assessment
Units: 4 Terms Offered: FaSpSm Develop an understanding of recruitment and selection practices, processes, and approaches into the strategic role that recruitment and selection plays in organizational success. *Prerequisite:* PSYC 565x Registration Restriction: Open only to graduate Applied Psychology students Instruction Mode: Lecture Grading Option: Letter

PSYC 571 Foundations of Statistical and Data Analytic Methods in Psychology
Units: 4 Terms Offered: Fa Model comparison approach to analyzing experimental and non-experimental data; including moderated, mediated and nonlinear models as well as models with a categorical outcome. Instruction Mode: Lecture Grading Option: Letter

PSYC 573 Bayesian Data Analysis
Units: 4 Terms Offered: Fa Topics and techniques in Bayesian data analysis, including the philosophical foundations, Markov Chain Monte Carlo estimation, and applications to linear and generalized linear models. Instruction Mode: Lecture, Lab Grading Option: Letter

PSYC 575L Multilevel Modeling
Units: 4 Terms Offered: Irregular Topics in multilevel modeling including two- and three-level hierarchical linear models (HLM), random intercepts and slopes, longitudinal models and growth curve models, non-nested models as well as some recent development. *Recommended Preparation:* PSYC 503 Instruction Mode: Lecture, Lab Required Grading Option: Letter

PSYC 576 Psycholinguistics
Units: 3 Terms Offered: Fa (Enroll in LING 576)

PSYC 577 Analysis of Covariance Structures
Units: 4 Terms Offered: Irregular Multivariate analysis of non-experimental data, including structural equation modeling, path analysis, and confirmatory factor analysis. Computer applications using variety of optimization routines and purpose-written software. *Prerequisite:* PSYC 503. Instruction Mode: Lecture Grading Option: Letter

PSYC 578 Workshop in Quantitative Methods
Units: 4 Max Units: 8.0 Practical, hands-on experience in the application of selected quantitative methods to empirical data. Includes training in use of relevant computer software. *Prerequisite:* PSYC 501 and either PSYC 502 or PSYC 503. Instruction Mode: Lecture Grading Option: Letter

PSYC 586 Advanced Psycholinguistics
Units: 3 Max Units: max 9 (Enroll in LING 586)

PSYC 587 Practicum in Applied Behavior Analysis
Units: 2 Max Units: 10 Terms Offered: FaSpSm Provides supervised practical experience in implementing behavior analytic assessment and treatment services. Meets supervision requirements for the Board Certified Behavior Analyst exam. Students meet with course instructor to present and discuss cases for two hours per week every semester, including one summer session. Practicum hours in the field vary from 18-20 hours per week during the academic year to 30 hours per week during the summer. Instruction Mode: Lecture Grading Option: Letter

PSYC 590 Directed Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Terms Offered: FaSp Research leading to the master's degree. Maximum units which may be applied to the degree to be determined by the department. Instruction Mode: Lecture Grading Option: Credit/No Credit

PSYC 591 Applied Psychology Internship
Units: 2, 3, 4, 5, 6, 7, 8 Max Units: 8.0 Terms Offered: FaSpSm Internship in a non-university setting, such as business, governmental agency, or NGO. Registration Restriction: Open only to M.S., Applied Psychology students. Instruction Mode: Lecture Grading Option: Credit/No Credit

PSYC 592 Applied Psychology Treatise
Units: 2 Terms Offered: FaSpSm Requires a research paper of substantial length and high quality that integrates the Internship experience with concepts and principles of human behavior. Registration Restriction: Open only to M.S., Applied Psychology students. Instruction Mode: Lecture Grading Option: Credit/No Credit

PSYC 594a Master's Thesis
Units: 2 Terms Offered: FaSp Credit on acceptance of thesis. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

PSYC 594b Master's Thesis
Units: 2 Terms Offered: FaSp Credit on acceptance of thesis. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

PSYC 594z Master's Thesis
Units: 0 Terms Offered: FaSp Credit on acceptance of thesis. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

PSYC 595 Practicum in Clinical Psychology
Units: 1, 2, 3, 4 Max Units: 12.0 Terms Offered: FaSp Supervised experience in interviewing skills and assessment, including psychological test administration and the preparation of reports. Instruction Mode: Lecture Grading Option: Credit/No Credit

PSYC 596 Advanced Behavioral Theory
Units: 3 Terms Offered: Sp Examines advanced topics in behavioral theory and philosophy, including a comprehensive behavioral approach to language and cognition. Discusses the nature of productive relations between behavior analysis and other psychological theories. *Prerequisite:* PSYC 530 Instruction Mode: Lecture Grading Option: Letter

PSYC 597 Internship for Curricular Practical Training
Units: 1, 2, 3 Max Units: 03 Terms Offered: FaSpSm Part-time or full-time, practical work experience in the student's field of study. The internship must be located at an off-campus facility. Students are individually supervised by faculty. May not be taken until the student has completed at least two semesters of enrollment in the graduate program. Registration Restriction: Open only to Psychology graduate students Instruction Mode: Lecture Grading Option: Credit/No Credit

PSYC 597a Capstone Project in Behavior Analysis
Units: 2 Terms Offered: FaSp Supervision for completing independent project, consisting of practical treatment evaluation, program development, or literature review. Instruction Mode: Lecture Grading Option: Letter

PSYC 597b Capstone Project in Behavior Analysis
Units: 2 Terms Offered: FaSp Supervision for completing independent project, consisting of practical treatment evaluation, program development, or literature review. Instruction Mode: Lecture Grading Option: Letter

PSYC 599 Special Topics
Units: 2, 3, 4 Max Units: 8.0 Selected topics in the various specialty areas within psychology at the graduate level. Topic will vary from semester to semester. Instruction Mode: Lecture Grading Option: Letter

PSYC 602 Self-concept and Motivation
Units: 4 Graduate-level depth-and-breadth course using a social psychological perspective on self-concept. Instruction Mode: Lecture Grading Option: Letter Crosslisted as EDUC-602

PSYC 612 Seminar in Advanced Social Psychology
Units: 4 Max Units: 16.0 Terms Offered: Irregular An intensive consideration of selected concepts, theories, and research problems in social psychology. Instruction Mode: Lecture Grading Option: Letter

PSYC 616 Research Techniques for Non-Experimental Social Science
Units: 4 Terms Offered: Irregular Quasiexperimental designs; causal inference from correlational research, techniques for evaluating measures of attitude, personality, and social motives: observational methods; content analysis; sampling and survey techniques. Instruction Mode: Lecture Grading Option: Letter

PSYC 619 Psychological Intervention
Units: 4 Terms Offered: Sp Study of clinical psychological treatment: research and theory about major psychological approaches to intervention. (One of three clinical psychology core courses: PSYC 514, PSYC 515, PSYC 619.) Instruction Mode: Lecture Grading Option: Letter

PSYC 621 Seminar in Quantitative Psychology
Units: 4 Max Units: 12.0 Terms Offered: Irregular Selected topics in mathematical psychology. Instruction Mode: Lecture Grading Option: Letter

PSYC 622 Decision Analysis and Behavioral Decision Theory
Units: 4 Terms Offered: Irregular Normative and descriptive theories and research on human decision-making, with special emphasis on applications to real social decision problems. Instruction Mode: Lecture Grading Option: Letter

PSYC 625 Applied Machine Learning
Units: 4 Terms Offered: Fa Machine learning techniques, including Bayesian and Neural Networks, for analyzing different types of human-generated data. *Recommended Preparation:* PSYC 501L Instruction Mode: Lecture Grading Option: Letter

PSYC 626 Computational Social Sciences
Units: 4 Discussion of advances in computational social sciences, including automated text and network analysis. *Recommended Preparation:* PSYC 625. Instruction Mode: Lecture Grading Option: Letter Crosslisted as CSCI-626

PSYC 660 Seminar in Clinical Psychology
Units: 4 Max Units: 8.0 Terms Offered: Irregular Selected topics in clinical psychology. Instruction Mode: Lecture Grading Option: Letter

PSYC 676 Seminar in Psycholinguistics
Units: 3 Max Units: max 12 (Enroll in LING 676)

PSYC 691a Internship in Clinical Psychology
Units: 0 Terms Offered: FaSp Supervised clinical work in an approved mental health setting. *Prerequisite:* good standing in clinical program and departmental approval. Instruction Mode: Lecture Grading Option: Credit/No Credit

PSYC 691b Internship in Clinical Psychology
Units: 0 Terms Offered: FaSp Supervised clinical work in an approved mental health setting. *Prerequisite:* good standing in clinical program and departmental approval. Instruction Mode: Lecture Grading Option: Credit/No Credit

PSYC 695 Advanced Practicum in Clinical Psychology
Units: 1, 2, 3, 4 Max Units: 12.0 Terms Offered: FaSp Didactic practicum combining theory and research on psychological intervention with clinical practice in assessment and treatment, focused on particular client groups or disorders. Instruction Mode: Lecture Grading Option: Credit/No Credit

PSYC 790 Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Terms Offered: FaSp Research leading to the doctorate. Maximum units which may be applied to the degree to be determined by the department. Instruction Mode: Lecture Grading Option: Credit/No Credit

PSYC 794a Doctoral Dissertation
Units: 2 Terms Offered: FaSpSm Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

PSYC 794b Doctoral Dissertation
Units: 2 Terms Offered: FaSpSm Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

PSYC 794c Doctoral Dissertation
Units: 2 Terms Offered: FaSpSm Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

PSYC 794d Doctoral Dissertation
Units: 2 Terms Offered: FaSpSm Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

PSYC 794z Doctoral Dissertation
Units: 0 Terms Offered: FaSpSm Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

Physical Therapy

PT 509 Cellular and Systems Physiology
Units: 3 Terms Offered: Fa Selected subjects in cellular and systems physiology. Emphasis on molecular and cellular aspects of neuromuscular function; also renal and endocrine physiology. Instruction Mode: Lecture Grading Option: Letter

PT 514L Musculoskeletal Anatomy
Units: 4 Terms Offered: Fa Musculoskeletal anatomy, innervation, blood supply, and function: intensive study of the head, neck, trunk, and limbs. Lecture, dissection laboratory. Instruction Mode: Lecture, Lab Required Grading Option: Letter

PT 516 Principles of Disease
Units: 1 Terms Offered: Sm Principles and mechanisms of genetics, immunology, infection, wound healing and oncology. *Prerequisite:* PT 509 Instruction Mode: Lecture Grading Option: Letter

PT 521L Basics of Patient Management
Units: 4 Terms Offered: Fa Development of basic decision-making skills, professional behaviors and impairment assessment in patients with musculoskeletal neurologic and/or cardiopulmonary dysfunction. Instruction Mode: Lecture, Lab Required Grading Option: Letter

PT 529 Life Span Motor Control
Units: 2 Terms Offered: Sm Introduction to sensorimotor systems, overview of current perspectives in motor control from fetus through late adulthood, and clinical tests of motor proficiency. *Corequisite:* PT 546 and PT 581L Instruction Mode: Lecture Grading Option: Letter

PT 530a Therapeutic Exercise
Units: 2 Terms Offered: Sp Theoretical and practical principles for evaluation of exercise need and prescription of exercise programs. Emphasis on approaches for patients with musculoskeletal deficits. *Prerequisite:* PT 509 and PT 514L and PT 521L Duplicates Credit in former PT 530 Instruction Mode: Lecture Grading Option: Letter

PT 530b Therapeutic Exercise
Units: 2 Terms Offered: Sm Examination of needs analysis and prescription of exercise programs for special patient populations and assessment of current community trends in exercise and wellness. *Prerequisite:* PT 530a and PT 554L and PT 574 and PT 621L Duplicates Credit in former PT 530 Instruction Mode: Lecture Grading Option: Letter

PT 534L Neuroanatomy
Units: 3 Terms Offered: Fa Organized approach to structures in the brain, spinal cord and peripheral nervous systems that subserve motor, sensory, and integrative functions, memory, cognitive and special senses. Instruction Mode: Lecture, Lab Required Grading Option: Letter

PT 536 Pathology of Cardiopulmonary Disease and General Medical Conditions
Units: 3 Terms Offered: Fa Pathology and pathophysiological mechanisms in disease of the cardiac, pulmonary and circulatory systems; examination of diabetes, burns and other disabling medical disorders. *Prerequisite:* PT 509 and PT 516 Instruction Mode: Lecture Grading Option: Letter

PT 539 Clinical Pharmacology
Units: 1 Terms Offered: Fa Effects of commonly used drugs in patients with physical disability; side effects that alter physical performance or responses to exercise. Instruction Mode: Lecture Grading Option: Letter

PT 546 Neuropathology
Units: 3 Terms Offered: Sp Pathology in the central and peripheral nervous systems

that alter motor and sensory performance. Emphasis on loss of motion, excessive and involuntary movement disorders. *Prerequisite:* PT 516 and PT 509 and PT 566 and PT 534L *Corequisite:* PT 529 and PT 569 and PT 581L Instruction Mode: Lecture Grading Option: Letter

PT 549L Clinical Exercise Physiology
Units: 4 Terms Offered: Fa Adaptation of the human body to exercise and the use of exercise to modify human function. *Prerequisite:* PT 530b and PT 509 Instruction Mode: Lecture, Lab Required Grading Option: Letter

PT 551L Therapeutic Application of Physical Agents
Units: 3 Terms Offered: Sm Physiologic responses to the application of thermal, mechanical, electromagnetic and hydrodynamic therapeutic procedures. Evaluation procedures and intervention planning. *Prerequisite:* PT 509 and PT 530a and PT 554L and PT 566 and PT 621L Instruction Mode: Lecture, Lab Required Grading Option: Letter

PT 554L Analytical Anatomy
Units: 3 Terms Offered: Sp Detailed kinesiologic analysis of axial, spine, head, neck, face and bulbar muscles. *Prerequisite:* PT 514. Instruction Mode: Lecture, Lab Required Grading Option: Letter

PT 561a Evidence for Physical Therapist Practice
Units: 2 Introduction to a patient-centered Evidence Based Practice model with emphasis on professional communication skills, ethics, professional guidelines, laws and regulations. Instruction Mode: Lecture Grading Option: Letter

PT 561b Evidence for Physical Therapist Practice
Units: 2 Introduction to acquiring, appraising and integrating research evidence. Instruction Mode: Lecture Grading Option: Letter

PT 561c Evidence for Physical Therapist Practice
Units: 2 Advanced critical analysis and application of research of evidence. Instruction Mode: Lecture Grading Option: Letter

PT 561d Evidence for Physical Therapist Practice
Units: 2 Advanced integration of patient values as influenced by culture, ethnicity, lifestyles, gender, and age into patient-centered clinical decision making. Instruction Mode: Lecture Grading Option: Letter

PT 561e Evidence for Physical Therapist Practice
Units: 2 Analysis of the integration of physical therapist practice into the national health care system; administration, budgeting and reimbursement for physical therapist services. Instruction Mode: Lecture Grading Option: Letter

PT 566 Disorders of the Musculoskeletal System
Units: 3 Terms Offered: Sp Regional description of pathology and pathophysiological mechanisms of disorders of bone, connective tissue, and joints. Lecture, demonstration. Instruction Mode: Lecture Grading Option: Letter

PT 569 Fundamentals of Neuroscience
Units: 4 Terms Offered: Sp Detailed analysis of neurophysiologic mechanisms underlying normal and abnormal motor and sensory function. *Corequisite:* PT 546 and PT 581L Instruction Mode: Lecture Grading Option: Letter

PT 571L Clinical Management of Cardiopulmonary Dysfunction
Units: 4 Terms Offered: Fa Physical therapy evaluation and intervention in the care of patients with circulatory, cardiac or pulmonary dysfunction. Lecture, case presentations, laboratory. *Prerequisite:* PT 621L and PT 530b and PT 516 Instruction Mode: Lecture, Lab Required Grading Option: Letter

PT 574 Clinical Biomechanics
Units: 3 Terms Offered: Sp Introduction to the principles of biomechanics (statics, dynamics) as they apply to physical therapy practice. Emphasis on tissue mechanics, joint function and gait. *Prerequisite:* PT 582 Instruction Mode: Lecture Grading Option: Letter

PT 581L Clinical Management of the Patient with Neurological Dysfunction
Units: 5 Terms Offered: Sp Physical therapy theory and methods for intervention in neurological dysfunction. *Prerequisite:* PT 534L and PT 571L and PT 574 *Corequisite:* PT 529 and PT 546 and PT 569 Instruction Mode: Lecture, Lab Required Grading Option: Letter

PT 582 Mechanics of Human Gait
Units: 2 Terms Offered: Fa Introduction to both normal and pathological gait. Emphasis on the basic components of abnormal ambulation including temporal-spatial factors, joint motion, kinetics, kinematics, and muscle activity. Instruction Mode: Lecture Grading Option: Letter

PT 583L Clinical Electrophysiology
Units: 1 Terms Offered: Sp Use of electrical currents to evaluate and treat musculoskeletal, neurological and wound disorders. Theory and practice. *Prerequisite:* PT 530b and PT 534L and PT 551L Instruction Mode: Lecture, Lab Required Grading Option: Letter

PT 599 Special Topics
Units: 1, 2, 3, 4, 5, 6, 7, 8 Max Units: 08 Terms Offered: FaSpSm Selected topics in Physical Therapy. Instruction Mode: Lecture Grading Option: Letter

PT 600a Clinical Experience
Units: 1 Terms Offered: FaSpSm Practical experience in two- or six-week physical therapy manual skills, decision making and professional behaviors. Instruction Mode: Lecture Grading Option: Credit/No Credit

PT 600b Clinical Experience
Units: 3 Terms Offered: FaSpSm Practical experience in six-week physical therapy manual skills, decision making, and professional behaviors. *Prerequisite:* PT 600a Instruction Mode: Lecture Grading Option: Credit/No Credit

PT 600c Clinical Experience
Units: 1 Terms Offered: FaSpSm Practical experience in two-week physical therapy psychomotor skills, decision making and professional behaviors. *Prerequisite:* PT 600b Instruction Mode: Lecture Grading Option: Credit/No Credit

PT 600d Clinical Clerkship
Units: 4 Terms Offered: FaSpSm Practical experience in eight week physical therapy psychomotor skills, decision making and professional behaviors. *Prerequisite:* PT 600c Instruction Mode: Lecture Grading Option: Credit/No Credit

PT 600z Clinical Clerkship
Units: 0 Terms Offered: FaSpSm Instruction Mode: Lecture Grading Option: Credit/No Credit

PT 606 Clinical Imaging
Units: 2 Terms Offered: Sp Elements of reading roentgenographs, CAT and MRI scans for the physical therapist. Lecture, demonstration, practical experience. Instruction Mode: Lecture Grading Option: Letter

PT 621L Clinical Management of the Patient with Musculoskeletal Dysfunction
Units: 5 Terms Offered: Sp Physical therapy theory and methods of evaluation and treatment of orthopedic dysfunction. *Prerequisite:* PT 514, PT 521. Instruction Mode: Lecture, Lab Required Grading Option: Letter

PT 625 Emerging Topics in Physical Therapy
Units: 3 Terms Offered: FaSpSm Familiarize the developing PT with emerging research, technology and skills that show promise in preparation for advances in patient management. *Corequisite:* PT 561e and PT 650 Instruction Mode: Lecture Grading Option: Letter

PT 630 Integrated Patient Management Clinical Skills
Units: 6 Terms Offered: FaSp Advanced evaluation and management of patients with movement dysfunction spanning all diagnoses seen by physical therapists. *Corequisite:* PT 632 Duplicates Credit in former PT 631 Instruction Mode: Lecture Grading Option: Letter

PT 632 Integrated Patient Management Seminar
Units: 5 Terms Offered: FaSp Integration of physical therapy management of complicated patients with concurrent musculoskeletal, cardiopulmonary and/or neurologic disorders. *Prerequisite:* PT 571, PT 581, PT 621. Instruction Mode: Lecture Grading Option: Letter

PT 640a Hybrid Integrated Patient Management Clinical Skills
Units: 3 Terms Offered: FaSp Advanced evaluation and management of patients with movement dysfunction spanning all diagnoses seen by physical therapists (musculoskeletal conditions focus on upper quarter body regions). Duplicates Credit in PT 630 Instruction Mode: Lecture Grading Option: In Progress to Letter

PT 640b Hybrid Integrated Patient Management Clinical Skills
Units: 3 Terms Offered: FaSp Advanced evaluation and management of patients with movement dysfunction spanning all diagnoses seen by physical therapists (musculoskeletal conditions focus on lower quarter body regions). *Prerequisite:* PT 640a Duplicates Credit in PT 630 Instruction Mode: Lecture Grading Option: In Progress to Letter

PT 642a Hybrid Integrated Patient Management Seminar
Units: 2.5 Terms Offered: FaSp Integration of physical therapy management of complicated patients with concurrent musculoskeletal (concentrating on upper quarter body regions), cardiopulmonary and/or neurologic disorders. Duplicates Credit in PT 632 Instruction Mode: Lecture Grading Option: In Progress to Letter

PT 642b Hybrid Integrated Patient Management Seminar
Units: 2.5 Terms Offered: FaSp Integration of physical therapy management of complicated patients with concurrent musculoskeletal (concentrating on lower quarter body regions), cardiopulmonary and/or neurologic disorders. *Prerequisite:* PT 642a Duplicates Credit in PT 632 Instruction Mode: Lecture Grading Option: In Progress to Letter

PT 650 Differential Diagnosis in Physical Therapy
Units: 2 Terms Offered: Sm Consideration of principle of differential diagnosis with emphasis on mastering this skill. *Prerequisite:* PT 536 and PT 546 and PT 581L *Recommended Preparation:* completion of years 1 and 2 *Concurrent Enrollment:* PT 625 Instruction Mode: Lecture Grading Option: Letter

PT 660 Advanced Clinical Experience with Academic Integration
Units: 5 Terms Offered: FaSp A 16-week clerkship consisting of a minimum of 24 hours per week in a part-time setting. Emphasis on the care of orthopedic, neurologic, pediatric or complicated medical conditions. Instruction Mode: Lecture Grading Option: Credit/No Credit

PT 665 Advanced Clinical Experience
Units: 8 Terms Offered: FaSp A 16-week clerkship consisting of a minimum of 36 hours per week in a full-time setting. Emphasis on care of orthopedic, neurologic, pediatric or complicated medical conditions. Instruction Mode: Lecture Grading Option: Credit/No Credit

PT 670a Hybrid Advanced Clinical Experience with Academic Integration
Units: 6.5 Terms Offered: FaSp A 13-week clerkship consisting of a minimum of 36 hours per week in a part-time setting. Emphasis on the care of orthopedic, neurologic, pediatric or complicated medical conditions. Duplicates Credit in PT 660 Instruction Mode: Lecture Grading Option: In Progress to Credit/No Credit

PT 670b Hybrid Advanced Clinical Experience with Academic Integration
Units: 6.5 Terms Offered: FaSp A 13-week clerkship consisting of a minimum of 36 hours per week in a full-time setting. Emphasis on care of orthopedic, neurologic, pediatric or complicated medical conditions. *Prerequisite:* PT 670a Duplicates Credit in PT 660 Instruction Mode: Lecture Grading Option: In Progress to Credit/No Credit

Petroleum Engineering

PTE 202x Energy and Society
Units: 4 Terms Offered: Irregular Study of the impact of the development, production, and global distribution of energy on societal, political, and economic behavior. Not available for major credit to engineering majors. *Prerequisite:* pass Math Skill Level. Instruction Mode: Lecture Grading Option: Letter

PTE 390 Special Problems
Units: 1, 2, 3, 4 Supervised, individual studies. No more than one registration permitted. Enrollment by petition only. Instruction Mode: Lecture Grading Option: Letter

PTE 411 Introduction to Transport Processes in Porous Media
Units: 3 Terms Offered: Fa Properties of porous rocks; capillarity effect, single-phase and multiphase fluid flow through porous media; diffusion and dispersion, miscible displacement heat transfer. Lecture, 3 hours. Not available for credit to Petroleum Engineering majors. *Prerequisite:* (CHEM 105aLg or CHEM 115aLg) and (CE 309 and MATH 245 and PHYS 151Lg) Instruction Mode: Lecture Grading Option: Letter

PTE 412x Petroleum Reservoir Engineering
Units: 3 Terms Offered: Fa Properties of reservoir fluids, volumetric and material balances for gas and oil reservoirs; reservoir modeling concepts. Instruction Mode: Lecture Grading Option: Letter

PTE 461 Formation Data Sensing with Well Logs
Units: 4 Terms Offered: Fa Measurement theory and petroleum/geothermal applications of electrical, radioactive, acoustic, and production logging tools. Estimation of rock porosity, water saturation, permeability, shale content, gas flow rate. *Recommended Preparation:* Mechanics of materials, fundamentals of physics on the level of PHYS 152L and PHYS 408b Instruction Mode: Lecture Grading Option: Letter Crosslisted as CHE 461, AME 461

PTE 462 Economic, Risk and Formation Productivity Analysis
Units: 4 Terms Offered: Sp Principle of economic evaluation, risk analysis, reserves estimation, decline curves, energy prices, and well transients for flow prediction. *Prerequisite:* PTE 461. Instruction Mode: Lecture Grading Option: Letter Crosslisted as CHE-462, ME-462, AME-462

PTE 463L Introduction to Transport Processes in Porous Media
Units: 4 Terms Offered: Fa Fundamentals of flow and transport in porous materials including: Properties of porous rocks, capillarity effect, single- and multiphase flow, diffusion and dispersion in miscible displacements. *Prerequisite:* MATH 245 and PHYS 151Lg and (CHEM 105aLg or CHEM 115aLg) Instruction Mode: Lecture, Lab Required Grading Option: Letter Crosslisted as CHE 463, AME 463

PTE 464L Modeling and Simulation of Subsurface Flow Systems
Units: 4 Terms Offered: Sp Properties of reservoir fluids, volumetric and material balances for gas and oil reservoirs; reservoir modeling concepts. *Prerequisite:* PTE 463L Instruction Mode: Lecture, Lab Required Grading Option: Letter Crosslisted as CHE 464, AME 464

PTE 465L Drilling Technology and Subsurface Methods
Units: 3 Terms Offered: Fa Theory and practice in drilling technology; mechanical properties of reservoir rocks; well completion; acidizing and fracturing, oil production technology. *Prerequisite:* PTE 464. Instruction Mode: Lecture, Lab Required Grading Option: Letter Crosslisted as AME-465, CHE-465

PTE 466 Petroleum Geology
Units: 3 Terms Offered: Sm Introductory topics of physical and historical geology will be focused on the components that relate to the formation of oil and gas accumulations. Instruction Mode: Lecture Grading Option: Letter

PTE 490x Directed Research
Units: 1, 2, 3, 4, 5, 6, 7, 8 Max Units: 12.0 Individual research and readings. Not available for graduate credit. Instruction Mode: Lecture Grading Option: Letter

PTE 499 Special Topics
Units: 2, 3, 4 Max Units: 8.0 Course content to be selected each semester from recent developments in petroleum engineering and related fields. Instruction Mode: Lecture Grading Option: Letter

PTE 500 Computational Reservoir Modeling
Units: 3 Terms Offered: Fa Introduction to mathematical and computational methods in characterizing, modeling, and describing the subsurface flow and transport phenomena. *Recommended Preparation:* Familiarity with basic calculus, differential equation, and MATLAB programming. Registration Restriction: Open only to Engineering students. Instruction Mode: Lecture Grading Option: Letter

PTE 502 Advanced Reservoir Characterization
Units: 3 Terms Offered: Irregular Sources of data for reservoir characterization; cross-disciplinary integration; geologic models; sequence stratigraphic, lithologic, well test and geophysical models; 4-D seismic; compartmentalized and fractured reservoirs; error and risk analysis. *Prerequisite:* PTE 411, PTE 461. Instruction Mode: Lecture Grading Option: Letter

PTE 503 Technology of Unconventional Oil and Gas Resources Development
Units: 3 Terms Offered: Fa Geology of unconventional resources, exploration, development, laboratory testing, drilling, formation evaluation, design and monitoring of hydraulic fracturing, forecasting, technology of oil sand and environmental issues. *Recommended Preparation:* PTE 507, graduate standing in petroleum engineering. Instruction Mode: Lecture Grading Option: Letter

PTE 504 Geophysics for Petroleum Engineers
Units: 3 Terms Offered: Sm Geosciences concepts and technologies with applications in petroleum engineering: 2D-3D-4D seismic, borehole geophysics, passive seismic, controlled source electromagnetics, geophysical and geological modeling and inversion. *Recommended Preparation:* familiarity with Matlab. Instruction Mode: Lecture Grading Option: Letter

PTE 505 Inverse Modeling for Dynamic Data Integration
Units: 3 Terms Offered: Sp Introduction to fundamentals of deterministic and stochastic inverse modeling, integration

of dynamic data into predictive reservoir models, reservoir parameterization, derivation of adjoint models. *Recommended Preparation:* PTE 508, basic knowledge of calculus, linear algebra and probability/ statistics. Instruction Mode: Lecture Grading Option: Letter

PTE 506 Geothermal Reservoirs
Units: 3 Terms Offered: Fa Geothermal reservoirs, heat and mass flow in fracture network, enhanced geothermal systems (EGS), exploration methods, exploitation of hydrothermal and EGS fields, stimulation, forecasting, power generation. *Recommended Preparation:* familiarity with Matlab. Registration Restriction: Open only to Engineering and Geological Sciences students. Instruction Mode: Lecture Grading Option: Letter

PTE 507 Engineering and Economic Evaluation of Subsurface Reservoirs
Units: 3 Terms Offered: Fa Studies, data and methods for estimating size of underground fluid deposits for predicting physical and economic behavior of designed flow schemes, and for quantifying uncertainty. *Prerequisite:* PTE 464. Instruction Mode: Lecture Grading Option: Letter

PTE 508 Numerical Simulation of Subsurface Flow and Transport Processes
Units: 3 Terms Offered: Sp Formulation and solution of the equations describing the underground flow of fluids through porous media. Includes mass (contaminant) transport in single and multiphase flow. *Recommended Preparation:* PTE 507. Instruction Mode: Lecture Grading Option: Letter

PTE 509 High-Resolution Simulations of Porous Media Flows
Units: 4 Terms Offered: Sp High-order finite difference, finite volume and spectral methods to simulate contaminant transport, CO2 sequestration and viscous fingering problems in high resolution using Matlab/ Python. *Recommended Preparation:* Concepts covered in MATH 225 and MATH 245. Introductory knowledge of MATLAB or Python programming language Instruction Mode: Lecture Grading Option: Letter

PTE 511 Advanced Phase Behavior of Petroleum Reservoir Fluids
Units: 3 Terms Offered: Irregular From classical thermodynamics to engineering application; equations of state based calculations; PVT experiments; reservoir fluid characterization; PT-flash calculations and stability analysis; compositional grading; transport properties. *Recommended Preparation:* CHE 330, MATH 226. Instruction Mode: Lecture Grading Option: Letter

PTE 512 Gas Injection Processes — Analytical Solutions and Analysis
Units: 3 Terms Offered: Fa Gas injection and enhanced oil/gas recovery; conservation equations; flow and phase behavior; displacement efficiency; dispersion; method of characteristics; development of multicontact miscibility in multicomponent systems. *Recommended Preparation:* CHE 330, MATH 226 and MATH 245 (or similar). Instruction Mode: Lecture Grading Option: Letter

PTE 514 Drilling Engineering
Units: 3 Terms Offered: Sp Graduate level course on drilling engineering with an emphasis on field design and applications. Topics covered include well planning; rock mechanics; rotary drilling processes; drilling rig components; drill string and bottom hole assemblies; well hydraulics and drilling muds; casing design and cementing; directional drilling; offshore drilling and drilling economics. Registration Restriction: Open only to Engineering graduate students Instruction Mode: Lecture Grading Option: Letter

PTE 515 Natural Gas Engineering
Units: 3 Terms Offered: Sp Characterization, development and prediction of natural gas reservoirs, including natural gas surface production equipment and systems, forecasting natural gas well and reservoir performance and current LNG developments *Prerequisite:* PTE 411 and PTE 412x *Recommended Preparation:* Good handle of Excel, running VBA apps, programming macros and Matlab programming; concurrent enrollment in a computer programming class would be helpful Registration Restriction: Open only to graduate students Instruction Mode: Lecture Grading Option: Letter

PTE 517 Testing of Wells and Aquifers
Units: 3 Terms Offered: Sp Principles of well testing; down hole device; Aquifer tests; slug tests; DST; pressure transient modeling in homogeneous and heterogeneous systems; parameter estimation; computer aided techniques. *Prerequisite:* PTE 464. Instruction Mode: Lecture Grading Option: Letter

PTE 519 Integrated Physical and Cyber Security for Oil and Gas Operations
Units: 3 Terms Offered: Fa Infrastructure Security, Resilience and Management of Digital Oil Fields, Process Control Networks in exploration and production, refining and chemical plants, Asset Integrity principles, case histories. Registration Restriction: Open only to graduate students. Instruction Mode: Lecture Grading Option: Letter

PTE 520 Mathematical Methods for Deep Learning
Units: 4 Terms Offered: Sp (Enroll in MASC 520)

PTE 531 Enhanced Oil and Gas Recovery
Units: 4 Terms Offered: Sm Enhanced recovery from conventional and unconventional hydrocarbon resources including: Water, surfactant and polymer processes, miscible gas and WAG displacements, and thermal recovery processes. *Prerequisite:* PTE 500 and PTE 582 Registration Restriction: Open only to graduate students Instruction Mode: Lecture, Discussion Grading Option: Letter

PTE 542 Carbonate Rocks
Units: 3 Terms Offered: Fa Classification; porosity development; source rocks; wettability; capillary pressure curves; compressibility; surface areas; relative permeabilities; various petrophysical properties; formation evaluation; overpressures; thin section analysis. *Recommended Preparation:* Basic familiarity with linear algebra and general reservoir engineering Registration Restriction: Open only to graduate Engineering students Instruction Mode: Lecture Grading Option: Letter

PTE 545 Corrosion Control in Petroleum Production
Units: 3 Terms Offered: Sp Types of corrosion encountered in petroleum production; methods for practical control including use of inhibitors, coatings, and cathodic protection. *Prerequisite:* CHEM 430 or CHEM 430a Registration Restriction: Open only to graduate students in Engineering Instruction Mode: Lecture Grading Option: Letter

PTE 555 Well Completion, Stimulation, and Damage Control
Units: 3 Terms Offered: Sm This course reviews current practices related to well completion methods, wellbore stimulation, and damage control. Formation damage prevention and stimulation methods are emphasized. *Prerequisite:* graduate standing. Instruction Mode: Lecture Grading Option: Letter

PTE 572L Applied Geostatistical Modeling for Subsurface Characterization
Units: 4 Terms Offered: Sp Introduction to conventional and modern geostatistical estimation and simulation techniques, combining theory with hands-on computer application of geostatistical methods in modeling the spatial phenomena. *Recommended Preparation:* Basic knowledge and familiarity with general calculus, linear algebra, and probability Registration Restriction: Open only to graduate students Instruction Mode: Lecture, Lab Required Grading Option: Letter

PTE 574 Optimization Methods for Subsurface Energy Systems
Units: 4 Terms Offered: Sp Optimization algorithms for oilfield development, including well control optimization, well placement, open-loop and closed-loop model predictive control, and robust optimization. *Prerequisite:* PTE 500 *Recommended Preparation:* Basic familiarity with linear algebra, vector calculus, and general calculus for engineers and scientists at the level of MATH 229 or PTE 500 Registration Restriction: Open only to graduate students of USC Viterbi School of Engineering Instruction Mode: Lecture Grading Option: Letter

PTE 578 Advanced Production Engineering
Units: 3 Terms Offered: Sp Principles of onshore and offshore oil well & gas well production; design of artificial lift systems and surface operations; field problems of enhanced oil recovery operations. Registration Restriction: Open only to graduate students in the School of Engineering. Instruction Mode: Lecture Grading Option: Letter

PTE 581 Environmental Technology in the Petroleum Industry
Units: 3 Terms Offered: Irregular This course examines engineering and scientific principles necessary for understanding, assessing, and remediating environmental problems in the petroleum industry including drilling, production, transportation and refining operations. Graduate standing. Instruction Mode: Lecture Grading Option: Letter

PTE 582 Fluid Flow and Transport Processes in Porous Media
Units: 3, 2 years Terms Offered: Fa Principles of single and multiphase flow through porous media; mechanisms of immiscible and miscible displacement; momentum, heat and mass transport in porous media. Instruction Mode: Lecture Grading Option: Letter

PTE 586 Artificial Intelligence and Machine Learning in Oilfield Operations
Units: 3 Terms Offered: Fa Soft computing methods such as neural networks, fuzzy logic, problematic reasoning in reservoir characterization, dynamic reservoir modeling, oilfield data integration and analysis of uncertainty in prediction. *Recommended Preparation:* Basic Python programming on the level of DSCI 510; familiarity with platforms for running Python programs, such as online via Google Colab or JupyterLab, or the downloadable Anaconda Registration Restriction: Open only to graduate students Instruction Mode: Lecture Grading Option: Letter

PTE 587 Smart Completions, Oilfield Sensors and Sensor Technology
Units: 3 Terms Offered: Sp Intelligent Wellbore completion, technology of subsurface and surface sensors, deployment and data acquisition, telemonitoring and feedback, reliability of sensors, data transmission, systems networks. *Recommended Preparation:* prerequisites for non-majors. Instruction Mode: Lecture Grading Option: Letter

PTE 588 Smart Oilfield Data Mining
Units: 3 Terms Offered: Fa Methods for oilfield data mining, data preparation mining images, prediction and knowledge discovery, subset selection, pattern recognition. Limited to students with graduate standing. *Recommended Preparation:* prerequisites for non-majors. Instruction Mode: Lecture Grading Option: Letter

PTE 589 Advanced Oilfield Operations with Remote Immersive Visualization and Control
Units: 3 Terms Offered: Sp Immersive subsurface and surface environments, web based monitoring and feedback, visualizing risk, unattended operation. Limited to students with graduate standing. *Recommended Preparation:* prerequisites for non-majors. Instruction Mode: Lecture Grading Option: Letter

PTE 590 Directed Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Research leading to the master's degree. Maximum units which may be applied to the degree to be determined by the department. Instruction Mode: Lecture Grading Option: Credit/No Credit

PTE 591 Petroleum Geochemistry
Units: 3 Terms Offered: Fa Application of chemical principles to the study of the origin, migration, accumulation, and alteration of petroleum. Registration Restriction: Open only to graduate students Instruction Mode: Lecture Grading Option: Letter

PTE 592 Geomechanics for Energy and Environment
Units: 4 Terms Offered: FaSp Physical, mathematical and simulation aspects of coupled flow and geomechanics in petroleum/geothermal reservoirs. Coupled flow-geomechanics simulator development using finite element and finite volume methods. *Recommended Preparation:* Familiarity with concepts covered in PTE 500, PTE 508, AME 535a, AME 404, AME 507, CE 529a Registration Restriction: Open only to graduate students Instruction Mode: Lecture Grading Option: Letter

PTE 594 Formation Damage in Petroleum Reservoirs
Units: 3 Terms Offered: Fa Overview of background and techniques required for understanding, assessing, and mitigating formation damage in petroleum and subsurface reservoirs. *Recommended Preparation:* Reservoir engineering, thermodynamics, petroleum reservoir fluids, fluid mechanics, Excel worksheets Registration Restriction: Open only to graduate students Instruction Mode: Lecture Grading Option: Letter

PTE 594a Master's Thesis
Units: 2 For the master's degree. Credit on acceptance of thesis. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

PTE 594b Master's Thesis
Units: 2 For the master's degree. Credit on acceptance of thesis. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

PTE 594z Master's Thesis
Units: 0 For the master's degree. Credit on acceptance of thesis. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

PTE 599 Special Topics
Units: 2, 3, 4 Max Units: 9.0 Course content will be selected each semester to reflect current trends and developments in the field of petroleum engineering. Instruction Mode: Lecture Grading Option: Letter

PTE 611 Stochastic Modeling and Simulation
Units: 3 (Enroll in CE 611)

PTE 690 Directed Research
Units: 1, 2, 3, 4 Max Units: 8.0 Terms Offered: FaSpSm Laboratory study of specific problems for candidates for the degree engineer in petroleum engineering. Instruction Mode: Lecture Grading Option: Credit/No Credit

PTE 790 Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Research leading to the doctorate. Maximum units which may be applied to the degree to be determined by the department. Instruction Mode: Lecture Grading Option: Credit/No Credit

PTE 794a Doctoral Dissertation
Units: 2 Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

PTE 794b Doctoral Dissertation
Units: 2 Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

PTE 794c Doctoral Dissertation
Units: 2 Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

PTE 794d Doctoral Dissertation
Units: 2 Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

PTE 794z Doctoral Dissertation
Units: 0 Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

Public Administration

Frequency of course offerings varies from campus to campus. Check with individual campuses regarding availability.

PUAD 613 Seminar in Financial Policy
Units: 4 Terms Offered: Irregular Historical development and trends in public revenues and expenditures. Political, economic, and administrative significance of decisions in the field of financial management. *Prerequisite:* PPD 647. Instruction Mode: Lecture Grading Option: Letter

PUAD 617 Seminar on Behavioral Aspects of Training and Development
Units: 4 Terms Offered: Irregular Theoretical concepts governing the administration of socio-technical systems, organization development, action training and research, and other development and change processes utilized in public service. Instruction Mode: Lecture Grading Option: Letter

PUAD 675 Institutional Context of the Public Sector
Units: 4 Terms Offered: Sp Theories of the role, structure and growth of the public sector; public choice processes; political economy of public bureaucracies; the voluntary nonprofit sector. *Prerequisite:* PPD 501b. Instruction Mode: Lecture Grading Option: Letter

PUAD 685 Seminar on Organizational Behavior in Public Systems
Units: 4 Terms Offered: FaSp Organizing processes; decision-making; communication; leadership; behavioral models; political and social behavior in organizations. *Prerequisite:* PPD 545. Instruction Mode: Lecture Grading Option: Letter

PUAD 692 Multivariate Statistical Analysis
Units: 4 Terms Offered: Fa Multivariate analysis of qualitative and quantitative variables including multiple linear regression, multiple contingency table analysis, log-linear and logit models, and path analysis. *Prerequisite:* PPD 502. Instruction Mode: Lecture Grading Option: Letter

PUAD 695 Seminar in Administrative Theory
Units: 4 Terms Offered: FaSp Assessment of current normative and descriptive theories of public administration; variety of conceptual systems; operationalism; levels of organizational analysis. *Prerequisite:* PPD 540. Instruction Mode: Lecture Grading Option: Letter

PUAD 697 Seminar in Public Management
Units: 4 Terms Offered: Irregular Public management research and theory; differences between private and public organizations: contextual influences on public management; contemporary

empirical studies; bibliographic research. *Prerequisite:* admission to the DPA program. Instruction Mode: Lecture Grading Option: Letter

PUAD 791a Public Administration Research Seminar
Units: 1 Terms Offered: FaSp Presentation and discussion of research histories and current research projects of members of the faculty and distinguished guest scholars. Registration Restriction: Open only to Ph.D. and D.P.A. students. Instruction Mode: Lecture Grading Option: Credit/No Credit

PUAD 791b Public Administration Research Seminar
Units: 1 Terms Offered: FaSp Presentation and discussion of research histories and current research projects of members of the faculty and distinguished guest scholars. Registration Restriction: Open only to Ph.D. and D.P.A. students. Instruction Mode: Lecture Grading Option: Credit/No Credit

Public Diplomacy

PUBD 369w Public Diplomacy and Global Citizenship
Units: 4 Introduces public diplomacy as a central feature of contemporary international relations and challenges students to locate themselves as both its target and practitioners. Satisfies Global Perspective in Category G: Citizenship in a Diverse World Instruction Mode: Lecture Grading Option: Letter Crosslisted as COMM 369

PUBD 417 Global Engagement: Designing Public Diplomacy Strategies
Units: 4 Examines issues on the global political agenda and the tools and approaches that the Public Diplomacy practitioner might profitably employ to address them. Instruction Mode: Lecture Grading Option: Letter Crosslisted as COMM 417

PUBD 418 International Exchanges and Public Diplomacy
Units: 4 Examines international exchanges, their role in the foreign policy process, and their challenges in a world marked by rapid change and innovation in communication technologies. Instruction Mode: Lecture Grading Option: Letter Crosslisted as COMM 418

PUBD 419 Public Diplomacy in Los Angeles
Units: 4 Examines how the City of Los Angeles and other local actors use public diplomacy tools to strengthen ties between themselves and foreign audiences. Instruction Mode: Lecture Grading Option: Letter Crosslisted as COMM 419

PUBD 420 Regional Studies in Public Diplomacy
Units: 4 Max Units: 08 Analyzes the role and effectiveness of public diplomacy in different countries, examining a region's influence on global affairs and the development of diplomatic strategies. Instruction Mode: Lecture Grading Option: Letter Crosslisted as COMM 420

PUBD 500 Introduction to the Advanced Study of Public Diplomacy
Units: 4 Introduction to the advanced academic study of public diplomacy from multidisciplinary perspectives: including media and communication, international relations and history. Instruction Mode: Lecture Grading Option: Letter

PUBD 502 Historical and Comparative Approaches to Public Diplomacy
Units: 4 Examines historical and comparative approaches to public diplomacy. Explores public diplomacy operations in public and private settings, by individuals and institutions. Reviews traditional, critical, war, and peace perspectives. Instruction Mode: Lecture Grading Option: Letter

PUBD 504 Global Issues and Public Diplomacy
Units: 4 Focuses on critical global issues/challenges that require some form of intervention from the international community. Taught with active leading strategies: case studies and "problem-based learning." Instruction Mode: Lecture Grading Option: Letter

PUBD 508 The Rhetoric of War and Peace
Units: 4 Special exercise in "Think Tank" procedure that explores rhetorics of war and peace from a 21st century perspective. Instruction Mode: Lecture Grading Option: Letter

PUBD 509 Advocacy in Public Diplomacy: Argumentation and Debate
Units: 4 Skills and theory based approach to the criticism and development of public diplomacy campaigns. Emphasizes the instruction of advocacy skills to assess the utility of specific campaigns. Instruction Mode: Lecture Grading Option: Letter

PUBD 510 Technologies and Public Diplomacy
Units: 4 Explores relationship between diplomacy and technological change. Emphasis on question of how new media may force us to rethink traditional frameworks of public diplomacy. Instruction Mode: Lecture Grading Option: Letter

PUBD 512 Cultural Diplomacy
Units: 4 Provides overview of formal cultural diplomacy and concentrates on ways in which non-governmental entities communicate across international boundaries and the effects of those interchanges. Instruction Mode: Lecture Grading Option: Letter

PUBD 514 Corporate Diplomacy
Units: 4 Provides basic public diplomacy and public relations tools for global organizations and their foreign publics. Instruction Mode: Lecture Grading Option: Letter

PUBD 515 Transnational Diplomacy and Global Security
Units: 4 Examination of the historical and theoretical basis of diplomatic relationships between states, international organizations, and transnational nonstate actors in developing global peace and security policies. Instruction Mode: Lecture Grading Option: Letter

PUBD 516 International Broadcasting
Units: 4 History, context and practice of global international broadcasting strategies; technological and financial parameters that shape future international broadcasting strategies; use of radio, television, and Internet. Instruction Mode: Lecture Grading Option: Letter

PUBD 518 International Exchanges and Public Diplomacy
Units: 4 Examination of educational and cultural exchanges; variety and experience of participants, flagship exchange programs, economic and social implications of the programs, and measurement of outcomes. Instruction Mode: Lecture Grading Option: Letter

PUBD 519 News Media and the Foreign Policy Process
Units: 4 Analysis of news media's role in contemporary diplomacy; historical context; consideration of the professional practices of journalists and those who devise and implement foreign policy. Instruction Mode: Lecture Grading Option: Letter

PUBD 520 Regional Studies in Public Diplomacy
Units: 4 Max Units: 16.0 In-depth examination of historical, political, economic, cultural factors that influence public diplomacy efforts within specific geographic regions. Instruction Mode: Lecture Grading Option: Letter

PUBD 522 Hard Power, Soft Power and Smart Power
Units: 4 Institutional and cultural perspectives on instruments of state power: military, intelligence, trade, and traditional diplomacy; strategic analyses for determining proper use; desirability of combining resources. Instruction Mode: Lecture Grading Option: Letter

PUBD 524 The Public Diplomacy of Trade
Units: 4 Public diplomacy's role in shaping ideas about trade and development and in creating trade agreements, and the use of trade agreements as public diplomacy. Instruction Mode: Lecture Grading Option: Letter

PUBD 526 Public Diplomacy Evaluation
Units: 4 Critical examination of challenges and benefits of measuring public diplomacy's impact; terminology and mechanics of evaluation, the measurement community, and varying approaches for evaluation. Instruction Mode: Lecture Grading Option: Letter

PUBD 590 Directed Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Research leading to the master's degree. Maximum units which may be applied to the degree to be determined by the school. Instruction Mode: Lecture Grading Option: Credit/No Credit

PUBD 596 Practicum in Public Diplomacy Research
Units: 4 Development and production of original research-based project in the area of public diplomacy. Instruction Mode: Lecture Grading Option: Credit/No Credit

PUBD 599 Special Topics
Units: 2, 3, 4 Max Units: 8.0 Special topics in the area of public diplomacy. Instruction Mode: Lecture Grading Option: Letter

Quantitative Biology

QBIO 105 Introduction to Quantitative Biology Seminar
Units: 2 Terms Offered: FaSp Introduction to quantitative biology including a definition of its role within the Biological Sciences and relationship with Chemistry, Computer Science, Engineering, Mathematics, Medicine and Physics. Registration

Restriction: Open to QBIO majors or by permission of the department Instruction Mode: Lecture Grading Option: Letter

QBIO 310 Statistical Thinking for Quantitative Biology
Units: 4 Terms Offered: Sp Introduction to general statistical theory with higher-level mathematics for biological data analysis. Basic programming in R. Discussion of techniques to describe, visualize and model different types of data. Instruction Mode: Lecture, Discussion Grading Option: Letter Crosslisted as BISC 310

QBIO 401 Introduction to Computational Analysis of Biological Data
Units: 4 Terms Offered: FaSp A project-based course integrating biology, computer science, and statistics through the analysis of genomic datasets available publicly or collected and sequenced during the semester. Instruction Mode: Lecture, Discussion Grading Option: Letter Crosslisted as BISC 401

QBIO 430 Principles and Applications of Systems Biology
Units: 4 Terms Offered: Fa (Enroll in BME 430)

QBIO 475 Statistical and Evolutionary Genetics
Units: 4 Terms Offered: Sp Introduction to the mathematical modeling and statistical analysis of genetic variation, including genetic drift, natural selection, mutation, migration, population structure, family studies and GWAS. *Prerequisite:* QBIO 310 or MATH 307 or MATH 407 Instruction Mode: Lecture, Discussion Grading Option: Letter

QBIO 479L Computational Genome Analysis Laboratory
Units: 4 Terms Offered: Sp Applied bioinformatic analysis of sequence data. Analysis of genome structure, genetic variation, gene expression, functional DNA and genetic association. *Recommended Preparation:* BISC 478 Instruction Mode: Lecture, Lab Required Grading Option: Letter Crosslisted as BISC 479

QBIO 481 Structural Bioinformatics: From Atoms to Cells
Units: 4 Terms Offered: Fa (Enroll in BISC 481)

QBIO 482 Systems Biology: From Cells to Oceans
Units: 4 Terms Offered: Sp Foundational skill-building in statistics, modeling and computational analyses. Hands-on instruction in MATLAB for developing and coding models of dynamic systems in biological/quantitative biology research. Instruction Mode: Lecture Grading Option: Letter Crosslisted as BISC 482

QBIO 490x Directed Research
Units: 1, 2, 3, 4, 5, 6, 7, 8 Max Units: 12 Terms Offered: FaSpSm Individual research and readings. Project approval by QBIO committee or faculty adviser required. Registration Restriction: Open only to QBIO undergraduates Credit Restriction: Not available for graduate credit Instruction Mode: Lecture Grading Option: Letter

QBIO 493 Quantitative Biology Honors Seminar
Units: 2 Max Units: 04 Terms Offered: FaSp Student-led discussions of recent research in quantitative biology and presentation of their own research. *Prerequisite:* QBIO 105 Registration Restriction: Open only to Quantitative Biology undergraduates Instruction Mode: Lecture Grading Option: Letter

QBIO 494x Quantitative Biology Honors Thesis
Units: 2 Terms Offered: FaSp Experience in conducting research and writing a thesis under supervision of a faculty adviser. *Prerequisite:* QBIO 493 Registration Restriction: Open only to Quantitative Biology undergraduates Credit Restriction: Not available for graduate credit Instruction Mode: Lecture Grading Option: Letter

QBIO 499 Special Topics
Units: 1, 2, 3, 4, 5, 6, 7, 8 Max Units: 08 Terms Offered: FaSpSm Topics in specialized areas of the quantitative biological sciences. Registration Restriction: Registration open to QBIO majors only. Other majors require permission from the instructor. Instruction Mode: Lecture, Discussion Grading Option: Letter

QBIO 502 Molecular Biology for Quantitative Scientists
Units: 4 Terms Offered: FaSp In-depth study of molecular biology techniques and experiments with an emphasis on those that are able to generate "big data." Intended for quantitative science students. Instruction Mode: Lecture Grading Option: Letter

QBIO 542 Seminar in Computational Biology
Units: 1 Max Units: 06 Terms Offered: FaSp Experience and training in giving science research presentations. Students will discuss recent research in computational biology and bioinformatics. Registration Restriction: Open only to Computational Biology and Bioinformatics, and to Quantitative and Computational Biology majors Instruction Mode: Lecture Grading Option: Credit/No Credit

QBIO 547 Ethics and Professional Conduct in Computational Biology
Units: 1 Terms Offered: Fa Discussion-based ethics course for graduate students, with topics including authorship, peer review, publication, research misconduct, discrimination in science, data privacy and algorithmic bias. Registration Restriction: Open only to Computational Biology and Bioinformatics, and to Quantitative and Computational Biology majors Instruction Mode: Lecture Grading Option: Credit/No Credit

QBIO 590 Directed Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Terms Offered: FaSpSm Research leading to the graduate degree. Maximum units which may be applied to the degree to be determined by the department. Registration Restriction: Open only to Quantitative and Computational Biology students Instruction Mode: Lecture Grading Option: Credit/No Credit

QBIO 596 Internship for Curricular Practical Training
Units: 1, 2, 3 Max Units: 03 Terms Offered: FaSpSm Part-time or full-time, practical work experience in the student's field of study. The internship must be located at an off-campus facility. Students are individually supervised by faculty. May not be taken until the student has completed at least one semester of enrollment in the graduate program with a cumulative 3.0 GPA. Registration Restriction: Open only to graduate students in Quantitative and Computational Biology Instruction Mode: Lecture Grading Option: Credit/No Credit

QBIO 790 Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Terms Offered: FaSpSm Research leading to the doctorate. Maximum units which may be applied to the degree to be determined by the department. Registration Restriction: Open only to graduate students in Quantitative and Computational Biology Instruction Mode: Lecture Grading Option: Credit/No Credit

QBIO 794a Doctoral Dissertation
Units: 2 Terms Offered: FaSpSm For doctoral students who have passed the qualifying exam. Credit on acceptance of dissertation. *Prerequisite:* QBIO 790 Registration Restriction: Open only to doctoral students in Quantitative and Computational Biology Instruction Mode: Lecture Grading Option: In Progress to Credit/No Credit

QBIO 794b Doctoral Dissertation
Units: 2 Terms Offered: FaSpSm For doctoral students who have passed the qualifying exam. Credit on acceptance of dissertation. *Prerequisite:* QBIO 794a Registration Restriction: Open only to doctoral students in Quantitative and Computational Biology Instruction Mode: Lecture Grading Option: In Progress to Credit/No Credit

QBIO 794c Doctoral Dissertation
Units: 2 Terms Offered: FaSpSm For doctoral students who have passed the qualifying exam. Credit on acceptance of dissertation. *Prerequisite:* QBIO 794b Registration Restriction: Open only to doctoral students in Quantitative and Computational Biology Instruction Mode: Lecture Grading Option: In Progress to Credit/No Credit

QBIO 794d Doctoral Dissertation
Units: 2 Terms Offered: FaSpSm For doctoral students who have passed the qualifying exam. Credit on acceptance of dissertation. *Prerequisite:* QBIO 794c Registration Restriction: Open only to doctoral students in Quantitative and Computational Biology Instruction Mode: Lecture Grading Option: In Progress to Credit/No Credit

QBIO 794z Doctoral Dissertation
Units: 0 Terms Offered: FaSpSm For doctoral students who have passed the qualifying exam. Credit on acceptance of dissertation. *Prerequisite:* QBIO 794d Registration Restriction: Open only to doctoral students in Quantitative and Computational Biology Instruction Mode: Lecture Grading Option: In Progress to Credit/No Credit

Real Estate Development

RED 200 Introduction to Real Estate
Units: 4 Terms Offered: FaSp Basic understanding of the real estate industry, the process of real estate development and investment, and the key players involved. Instruction Mode: Lecture Grading Option: Letter

RED 201 Real Estate Career Seminar
Units: 2 Terms Offered: FaSp Career assessment and preparation; real

estate industry overview; reflection on experiences. Duplicates Credit in PPD 301 Instruction Mode: Lecture Grading Option: Credit/No Credit

RED 301 Real Estate Internship Seminar
Units: 1 Terms Offered: FaSpSm Real estate development skills for practice; internship seminar; leadership, group dynamics and presentation skills; application of management; organizational diversity; reflection on experiences. *Prerequisite:* RED 201 Duplicates Credit in PPD 301 Instruction Mode: Lecture Grading Option: Credit/No Credit

RED 325 Introduction to Finance in Cities
Units: 4 Terms Offered: FaSp Basic understanding of public finance, public debt, public-private joint ventures, time value of money, present value, risk and return, discounted cash flows, leverage and taxes. *Prerequisite:* ACCT 410x and 1 from (MATH 108g or MATH 117g or MATH 118gx or MATH 125g) Instruction Mode: Lecture Grading Option: Letter

RED 351 Land Use Regulation
Units: 4 Terms Offered: Sp Land use planning and zoning; community and government relations; environmental regulation. *Recommended Preparation:* RED 362 Instruction Mode: Lecture Grading Option: Letter

RED 362 Real Estate Development Fundamentals
Units: 4 Real estate overview; evolution of cities and neighborhoods; product types; introduction to valuation. *Prerequisite:* (PPD 227 or PPD 245g) and (MATH 108g or MATH 117g or MATH 118gx or MATH 125g) *Recommended Preparation:* ECON 203g Instruction Mode: Lecture Grading Option: Letter

RED 375 Real Estate Development Analysis
Units: 4 Terms Offered: FaSp Real estate development feasibility and analysis; underwriting local fundamentals including neighborhood and city change, real estate capital flows. *Prerequisite:* (BUAD 215x or BUAD 306 or RED 325) and (ECON 203g and RED 362) Duplicates Credit in former PPD 375 Instruction Mode: Lecture Grading Option: Letter

RED 398 Shaping Cities Through Real Estate
Units: 2, 3, 4 Max Units: 08 Terms Offered: FaSpSm Cities and urban form created through various real estate product types. Case studies and site visits. *Recommended Preparation:* RED 362 Instruction Mode: Lecture Grading Option: Letter

RED 417 History of Planning and Development
Units: 4 Terms Offered: FaSp Historical evolution of planning and development. How changing modes of planning and development have shaped the built landscape throughout the century. *Prerequisite:* PPD 227 or PPD 245g Duplicates Credit in the former PPD 417 Instruction Mode: Lecture Grading Option: Letter

RED 425 Designing Livable Communities
Units: 4 Terms Offered: FaSp Theories and concepts of livable communities and good city form; case studies of historical and current best practices; field visits; collaborative design project. *Prerequisite:* PPD 227 or PPD 245g Duplicates Credit in the former PPD 425. Instruction Mode: Lecture Grading Option: Letter

RED 435 Analyzing Real Estate Markets
Units: 4 Terms Offered: FaSp Macro and micro-analysis of urban property markets; demographics; location choice; regulation *Prerequisite:* PPD 303 and RED 375 Duplicates Credit in the former PPD 435 Instruction Mode: Lecture Grading Option: Letter

RED 437 Advanced Finance and Investment for Real Estate Development
Units: 4 Terms Offered: FaSpSm Advanced real estate principles. Underwriting property valuation and deal structure including risk and return. Debt and equity markets; difference between development and existing assets. *Prerequisite:* RED 435 Duplicates Credit in the former PPD 437 Instruction Mode: Lecture Grading Option: Letter

RED 469 Mixed Use Development Process
Units: 4 Terms Offered: Sp Design, financial, legal and management challenges of mixed use real estate development; field project. *Prerequisite:* FBE 391 or RED 375 or ARCH 302bL Instruction Mode: Lecture Grading Option: Letter Crosslisted as FBE 469, ARCH 469

RED 490x Directed Research
Units: 1, 2, 3, 4, 5, 6, 7, 8 Max Units: 12 Terms Offered: FaSpSm Individual research and readings. Instruction Mode: Lecture Grading Option: Letter

RED 499 Special Topics
Units: 2, 3, 4 Max Units: 8 Terms Offered: FaSpSm Selected topics in real estate development. Instruction Mode: Lecture Grading Option: Letter

RED 500 Real Estate Development and the Economy
Units: 2 Terms Offered: Sm Linkages between national and regional economies and the performance of the real estate sector. Anticipating development trends. Public policy applications. Instruction Mode: Lecture Grading Option: Letter

RED 509 Market Analysis for Real Estate
Units: 4 Terms Offered: Fa Explores macro and micro aspects of residential, retail, office, and industrial markets and examines methodologies for analyzing such markets for real estate development/ investment purposes. *Prerequisite:* RED 542. Instruction Mode: Lecture Grading Option: Letter

RED 510 Real Estate Practice and Principles
Units: 4 Terms Offered: FaSp Fundamental principles of real estate analysis; economics; capital markets; development decision-making; relationships between real estate markets and federal, state and local government policies; property value. Instruction Mode: Lecture Grading Option: Letter

RED 511 Foundations of Real Estate Analysis
Units: 4 Terms Offered: FaSp Principles of real estate analysis; capital markets; importance of uncertainty and metrics of risk; investments; valuation techniques; use of debt and equity, leases, taxes. *Prerequisite:* RED 510. Instruction Mode: Lecture Grading Option: Letter

RED 512 Real Estate Project Analysis
Units: 4 Terms Offered: FaSp Fundamental economic theories; analytical techniques; practical applications for market analysis of various forms of real estate. *Prerequisite:* RED 511. Instruction Mode: Lecture Grading Option: Letter

RED 541 Finance Fundamentals for Real Estate Development
Units: 2 Terms Offered: Sm Introduction to the general principles of finance with application to real estate development, including capital markets, financial institutions, valuation and risk management. Instruction Mode: Lecture Grading Option: Letter

RED 542 Finance of Real Estate Development
Units: 3 Terms Offered: FaSm Theory and methods of real estate finance and investment. Real estate investment analysis, real estate entities, taxation; introduction to securization of real estate equities, debt. *Prerequisite:* RED 541. Instruction Mode: Lecture Grading Option: Letter

RED 544 Real Estate Capital Markets
Units: 2 Terms Offered: Fa Explore structure, instruments and institutions of real estate capital markets. Consider linkages between real estate and capital markets. Assess role of Real Estate Investment Trusts. *Prerequisite:* RED 542 Instruction Mode: Lecture Grading Option: Letter

RED 545 Advanced Real Estate and Financial Modeling
Units: 2 Terms Offered: Sp Quantitative problem solving using computerized modeling. Complex debt financing, including lender participation, subordination, joint venture structuring, systematic treatment of real estate portfolios. *Prerequisite:* RED 542. Instruction Mode: Lecture Grading Option: Letter

RED 546 Applications of Real Estate Finance to Problems of Development
Units: 3 Terms Offered: Sp Advanced topics in finance applied to cases and problems of real estate development; emphasis on structuring, finance and evaluation of various types of development projects. *Prerequisite:* RED 542. Instruction Mode: Lecture Grading Option: Letter

RED 547 Project Management and Construction
Units: 2 Terms Offered: Sm Managing the building phase of development. Architectural and engineering aspects of construction management for the real estate developer. Instruction Mode: Lecture Grading Option: Letter

RED 551 The Approval Process
Units: 4 Terms Offered: FaSpSm Approval process for real estate development including land use entitlement, site selection, zoning, environmental review, community and government relations, infrastructure financing, ethical issues, negotiation skills. Instruction Mode: Lecture Grading Option: Letter

RED 562 Legal Issues in Real Estate Development
Units: 4 Terms Offered: FaSp Ownership and transfer of real estate; formation and enforcement of contracts; business associations; environmental regulation; taxation of property transfers; acquiring, financing, leasing of commercial property. Duplicates Credit in former RED 662. Instruction Mode: Lecture Grading Option: Letter

RED 563 Introduction to the Asset Management of Real Estate
Units: 2 Terms Offered: Fa Overview of institutional asset management: creating and implementing investment and portfolio strategies through the development, acquisition, underwriting, and operational stages of the investment, asset disposition. Instruction Mode: Lecture Grading Option: Letter

RED 564 Issues in Asset Management of Real Estate
Units: 2 Terms Offered: Sp Advanced issues in institutional asset management. How value is created during investment process with focus on tactical, operational, and strategic goals of asset and owner. *Prerequisite:* RED 563. Instruction Mode: Lecture Grading Option: Letter

RED 571 Introduction to Appraisal Principles, Procedures, and Standards
Units: 4 Terms Offered: Fa Valuation concepts. Theory and problem solving. Cost, sales comparison, and income approaches. Instruction Mode: Lecture Grading Option: Letter

RED 572 Advanced Appraisal Approaches and Applications
Units: 2 Terms Offered: Sp Highest and best use. Advanced income capitalization. Advanced cost and sales comparison approaches. Advanced applications. *Recommended Preparation:* RED 571. Instruction Mode: Lecture Grading Option: Letter

RED 573 Design History and Criticism
Units: 2 Terms Offered: Sm The concepts, language and metaphors of design-related disciplines are examined in relation to design and construction values and choices in real estate development. Duplicates Credit in former RED 673. Instruction Mode: Lecture Grading Option: Letter

RED 574 Building Typologies
Units: 2 Terms Offered: Fa The exploration of categories of building types, including retail, industrial, residential, office and institutional, using key examples or case studies from each. Duplicates Credit in former RED 674. Instruction Mode: Lecture Grading Option: Letter

RED 575L Community Design and Site Planning
Units: 2, 3, 4 Max Units: 8.0 Terms Offered: Sp Physical implementation of development projects. Students will develop concept plan, preliminary design and marketing plan for selected domestic and/or international development sites. Duplicates Credit in former RED 675L. Instruction Mode: Lecture, Lab Required Grading Option: Letter

RED 583 International Development Opportunities
Units: 2 Terms Offered: Sp A survey of various markets prominent in the global real estate community. Protocols for analyzing international development opportunities and cultural, political, and socioeconomic considerations. Instruction Mode: Lecture Grading Option: Letter

RED 585 Comparative International Development Workshop
Units: 2, 3, 4 Terms Offered: Sm Comparative study tour focused on understanding international real estate development practices and markets, site visits and meeting with principals. Instruction Mode: Lecture Grading Option: Letter

RED 590 Directed Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Terms Offered: FaSpSm Research leading to the master's degree. Maximum units which may be applied to the degree to be determined by the department. Instruction Mode: Lecture Grading Option: Credit/No Credit

RED 598 Real Estate Product Development
Units: 2, 3, 4 Max Units: 12.0 Terms Offered: FaSpSm An evaluation of various real estate development types. Case studies and site visits. Instruction Mode: Lecture Grading Option: Letter

RED 599 Special Topics
Units: 2, 3, 4 Max Units: 8.0 Current issues, trends, and developments in real estate development. Instruction Mode: Lecture Grading Option: Letter

Religion

REL 111g The World of the Hebrew Bible
Units: 4 The Hebrew Bible in the cultural setting of the Ancient Near East; the formation of theological and ethical concepts which have shaped Western culture. Satisfies New General Education in Category B: Humanistic Inquiry Satisfies Old General Education in Category I: Western Cultures and Traditions Instruction Mode: Lecture, Discussion Grading Option: Letter

REL 112g Religions of Ancient Egypt and the Near East
Units: 4 Religions, cultures, and values of ancient Egypt and Near East (Iran, Iraq, Israel, Syria, Lebanon, Arabia, Turkey) and their legacies in contemporary society. Satisfies New General Education in Category B: Humanistic Inquiry Satisfies Old General Education in Category II: Global Cultures and Traditions Instruction Mode: Lecture, Discussion Grading Option: Letter

REL 114g The Mediterranean: A Religious History
Units: 4 Explores multiple religious traditions of the Mediterranean as networks that emerge within and among the landscapes, cultures, and politics of this highly interconnected geographic space. Satisfies New General Education in Category B: Humanistic Inquiry Satisfies Old General Education in Category V: Arts and Letters Instruction Mode: Lecture, Discussion Grading Option: Letter

REL 115g Jerusalem, City of Three Faiths
Units: 4 History of Jerusalem as a window onto the nature of the three Abrahamic faiths. Satisfies New General Education in Category B: Humanistic Inquiry Instruction Mode: Lecture, Discussion Grading Option: Letter

REL 121g The World of the New Testament
Units: 4 Historical investigation of New Testament characters, events, ethics and theology in relation to its social, intellectual, and religious contexts in the Jewish and GrecoRoman world. Satisfies New General Education in Category B: Humanistic Inquiry Satisfies Old General Education in Category I: Western Cultures and Traditions Instruction Mode: Lecture, Discussion Grading Option: Letter

REL 125gp Introduction to Christianity: Antiquity to 1500
Units: 4 Survey of the changing beliefs and practices of the Christian religion from its origins through early modernity (100 CE - 1500 CE), with special attention to different varieties of Christian literature. Satisfies New General Education in Category B: Humanistic Inquiry Satisfies Global Perspective in Category H: Traditions and Historical Foundations Satisfies Old General Education in Category I: Western Cultures and Traditions Instruction Mode: Lecture, Discussion Grading Option: Letter

REL 132g Origins of Western Religions
Units: 4 Examination of Judaism, Christianity, and Islam in their origins and their development in relation to Western civilization. Satisfies New General Education in Category B: Humanistic Inquiry Satisfies Old General Education in Category I: Western Cultures and Traditions Instruction Mode: Lecture, Discussion Grading Option: Letter

REL 134g Introduction to Buddhism
Units: 4 Focus primarily on works of Buddhist literature written in a variety of genres. Introduction of basic teachings that link Buddhist traditions across time and space. Satisfies New General Education in Category B: Humanistic Inquiry Satisfies Old General Education in Category II: Global Cultures and Traditions Instruction Mode: Lecture, Discussion Grading Option: Letter

REL 135g Chinese Religions and Culture
Units: 4 Historical and thematic survey of Chinese religious history from earliest times to the present. Satisfies New General Education in Category B: Humanistic Inquiry Satisfies Old General Education in Category II: Global Cultures and Traditions Instruction Mode: Lecture, Discussion Grading Option: Letter

REL 136g Sense and Sensuality in Indian Religions and Culture
Units: 4 Exploration of the senses and the technologies of pleasure in India, relating this material to some fascinating examples of Hindu, Jain, and Buddhist literature. Satisfies New General Education in Category B: Humanistic Inquiry Satisfies Old General Education in Category II: Global Cultures and Traditions Instruction Mode: Lecture, Discussion Grading Option: Letter

REL 137g Introduction to Islam
Units: 4 Introduction to Islam, emphasizing its historical and cultural development since the seventh century C.E., and the basic teachings of Islam. Satisfies New General Education in Category B: Humanistic

Inquiry Satisfies Old General Education in Category II: Global Cultures and Traditions Instruction Mode: Lecture Grading Option: Letter

REL 138g Japanese Religions and Culture
Units: 4 Major religious traditions of Japan (such as Buddhism, Shinto, Christianity, Confucianism) and their broader social and cultural contexts. Satisfies New General Education in Category B: Humanistic Inquiry Instruction Mode: Lecture Grading Option: Letter

REL 141g Global Religions in Los Angeles
Units: 4 Congregational and individual expressions of religion in Los Angeles. Satisfies New General Education in Category B: Humanistic Inquiry Instruction Mode: Lecture, Discussion Grading Option: Letter

REL 146gp Spirituality in America
Units: 4 Examination of the historical continuities and disjunctions between "spiritual but not religious" Americans; the relationship between spirituality, politics and social change, and the role of media. Satisfies Global Perspective in Category H: Traditions and Historical Foundations Satisfies Old General Education in Category VI: Social Issues Instruction Mode: Lecture, Discussion Grading Option: Letter

REL 147g Religion, Media and Popular Culture
Units: 4 Exploration of the manner in which the media frame discussions and understandings of ethical issues, moral dilemmas, spirituality and religious imagination. Satisfies New General Education in Category B: Humanistic Inquiry Instruction Mode: Lecture Grading Option: Letter, Discussion

REL 301 Introduction to the Study of Religion
Units: 4 Terms Offered: Fa Survey of academic approaches to the study of religion. When possible this course will be taken during the first year of the major or minor. Instruction Mode: Lecture Grading Option: Letter

REL 302 Religions of Ancient Egypt and the Near East
Units: 4 Religious experience and values of ancient Egypt and Near East through material culture, literature, art, and cultic practices; and their legacies in contemporary society. Instruction Mode: Lecture Grading Option: Letter Crosslisted as HIST-301

REL 303g Exploring Ancient Ways of Living: Experimental Archaeology
Units: 4 Active learning course enables students to acquire and experience survival skills devised in pre-modern times and to apply this knowledge in an experimental context. Satisfies New General Education in Category C: Social Analysis Instruction Mode: Lecture Grading Option: Letter Crosslisted as ANTH 303

REL 304 Ethics and Global Heritage
Units: 4 Archaeology and global heritage debates, laws, ethical conundrums, and stakeholder perspectives reveal goals and guiding values of society's exploration of the past. *Recommended Preparation:* REL 301 or ANTH 202g Instruction Mode: Lecture, Discussion Grading Option: Letter Crosslisted as ARCG 304, ANTH 318

REL 305L Virtual and Digital Culture, Heritage and Archaeology
Units: 2, 4 Max Units: 04 Terms Offered: FaSpSm (Enroll in ARCG 305L)

REL 310 Anti-Semitism, Racism and Other Hatreds
Units: 4 Terms Offered: FaSp (Enroll in JS 315g)

REL 311g The Bible in Western Literature
Units: 4 Comparative analysis of biblical works and how they were employed by various writers in major works of Western literature. Instruction Mode: Lecture Grading Option: Letter

REL 312 Biblical Wisdom Literature
Units: 4 Survey of and inquiry into the biblical wisdom literature; emphasis on the Book of Job. Satisfies New General Education in B Humanistic Inquiry Instruction Mode: Lecture Grading Option: Letter

REL 314 Introduction to Shiism
Units: 4 Examination of the major branches of Shiism, the second largest articulation of Islam, both historically and in the world today. Instruction Mode: Lecture Grading Option: Letter

REL 315 Thought and Life of Islam
Units: 4 History, thought, institutions, and religious practices of Islam. Instruction Mode: Lecture Grading Option: Letter

REL 316 Women and the Islamic Tradition
Units: 4 Terms Offered: Fa Overview of social and legal status of women in Islamic society, past and present. Examination of social roles established both for and by Muslim women. Instruction Mode: Lecture Grading Option: Letter

REL 317g The Bible in Its Ancient Context
Units: 4 A close consideration of ancient Near Eastern myths — especially those from Mesopotamia and Canaan — with special attention to their influence on the Bible. Satisfies New General Education in Category B: Humanistic Inquiry Instruction Mode: Lecture Grading Option: Letter

REL 319 Religious and Ethical Issues in Death and Dying
Units: 4 Analysis of religious and ethical approaches to death and dying, including refusal of treatment for competent and incompetent patients, voluntary and involuntary euthanasia, and resuscitation. Satisfies New General Education in B Humanistic Inquiry Instruction Mode: Lecture Grading Option: Letter

REL 323 Aegean Archaeology
Units: 4 (Enroll in CLAS 323) Instruction Mode: Lecture Grading Option: Letter

REL 324g Sex and the Bible: Gender, Sexuality, and Scripture
Units: 4 Role the Bible has played in debates about sex, gender, and sexuality in Western history. Satisfies New General Education in Category B: Humanistic Inquiry Satisfies Old General Education in Category V: Arts and Letters Instruction Mode: Lecture Grading Option: Letter

REL 325g Religious Experience in the Greco-Roman World
Units: 4 Terms Offered: FaSpSm Varieties of religious experience as reflected in the literature, art, and cultic practices of the Hellenistic world. Satisfies New General Education in Category B: Humanistic Inquiry Instruction Mode: Lecture Grading Option: Letter

REL 326gp Historical Jesus
Units: 4 Examination of the question of how ancient and modern Christians and scholars have reconstructed the life of Jesus of Nazareth, founding figure of Christianity. Satisfies New General Education in Category B: Humanistic Inquiry Satisfies Global Perspective in Category H: Traditions and Historical Foundations Satisfies Old General Education in Category V: Arts and Letters Instruction Mode: Lecture, Discussion Grading Option: Letter

REL 327g Heretics, Martyrs, and Miracles
Units: 4 Examines Christianity in the second century including theology, ethics and identity. Satisfies New General Education in Category B: Humanistic Inquiry Instruction Mode: Lecture Grading Option: Letter

REL 328 Archaeology of Religion in the Greco-Roman World
Units: 4 (Enroll in CLAS 328)

REL 329 Themes in the Religions of China
Units: 4 A study of selected themes in the history of Chinese religions and culture. Compares cases and materials from several historical periods and religious traditions. Instruction Mode: Lecture Grading Option: Letter

REL 330 Introduction to the Religions of India
Units: 4 Terms Offered: FaSpSm History, teaching, and practice of Hinduism, Buddhism, and other religious traditions of India. Instruction Mode: Lecture Grading Option: Letter

REL 331 Religions of East Asia
Units: 4 History, teaching, and practice of the religions of China, Tibet, and Japan. Instruction Mode: Lecture Grading Option: Letter

REL 332 Religions of Japan
Units: 4 The development of religious thought and practice in the Japanese islands, with Buddhism and Shinto being the most prominent. Instruction Mode: Lecture Grading Option: Letter

REL 333 Religion in the Borderlands
Units: 4 Survey of religious history of U.S./Mexico borderlands. Emphasis is given to definitions of place and transformations in culture and forms of belief. Instruction Mode: Lecture Grading Option: Letter Crosslisted as AMST-333

REL 334g Religion and Colonial Encounter
Units: 4 Terms Offered: FaSpSm Survey of religious responses to colonial encounter in the Americas. Emphasis given to study of religious innovations of Amerindians, Africans and Europeans. Satisfies New General Education in Category B: Humanistic Inquiry Instruction Mode: Lecture Grading Option: Letter

REL 335 Gender, Religion, and Sexuality
Units: 4 The construction of gender and sexuality in Western religious traditions; its continued impact on contemporary intellectual, cultural, and social life. Instruction Mode: Lecture Grading Option: Letter Crosslisted as SWMS 335

REL 336w Re-Viewing Religion in Asian America
Units: 4 Interdisciplinary analysis of the religions traditions, institutions, and experiences of Asians and Pacific Islanders in the U.S. Satisfies Global Perspective in Category G: Citizenship in a Diverse World Instruction Mode: Lecture Grading Option: Letter Crosslisted as AMST 336

REL 337 Islam in Black America: From Slavery to Hip Hop
Units: 4 (Enroll in AMST 337)

REL 338 Mysticism and Religious Desire
Units: 4 How human appetites for sex, food, community or immortality are articulated as mystical desires in different religions, either within institutional structures or working against them. Instruction Mode: Lecture Grading Option: Letter

REL 339 Studies in the History of Christianity
Units: 4 In-depth exploration of one of the pivotal moments in the history of Christianity and Western society. Instruction Mode: Lecture Grading Option: Letter

REL 340 Introduction to Indian Philosophy
Units: 4 An introduction to Indian philosophy, including major schools of thought in Hindu, Buddhist, and Jain philosophies. No previous knowledge of Indian religions or philosophy required. Instruction Mode: Lecture Grading Option: Letter

REL 341 Technology, Culture, and Ethics
Units: 4 Examination of value questions arising from the impact of technology on individuals, social institutions, and culture. Instruction Mode: Lecture Grading Option: Letter

REL 342g Buddhist Modernism
Units: 4 Examines various topics in the process of rapid modernization and globalization in Buddhism including environmentalism, gender, nationalism, social activism, and war and peace. Satisfies New General Education in Category B: Humanistic Inquiry Instruction Mode: Lecture Grading Option: Letter

REL 344 Islamic Law and American Society
Units: 4 (Enroll in AMST 344)

REL 345p Islamic Mysticism: Sufism
Units: 4 Examination of the origins, development, and basic concepts and practices of Sufism, as well as its relationship to other areas of Islamic life. Satisfies Global Perspective in Category H: Traditions and Historical Foundations Instruction Mode: Lecture Grading Option: Letter

REL 350 Drugs, Alcohol, Visions and Altered States in Religion
Units: 4 Examines the history and meaning of drugs, alcohol and altered states of mind in world religions across history. Instruction Mode: Lecture Grading Option: Letter

REL 359g Culture in Diaspora: The Jews of Spain
Units: 4 Course traces the Jewish diaspora from Spain and Portugal with particular attention to how Sephardic Jews maintained ties of culture, commerce, language, and identity. Satisfies New General Education in Category B: Humanistic Inquiry Satisfies Old General Education in Category V: Arts and Letters Instruction Mode: Lecture, Discussion Grading Option: Letter Crosslisted as HIST-371

REL 360 Ethical Issues in the New Medical Revolution
Units: 4 Multimedia-oriented analysis of issues; definition of life and death; research on human subjects, health care delivery, euthanasia, abortion, genetic counseling, behavior control. Instruction Mode: Lecture Grading Option: Letter

REL 361 Law and Religion
Units: 4 Explores the intersection between law and religion including ways in which religious traditions conceive of, create, order, and contest law. Instruction Mode: Lecture Grading Option: Letter

REL 364 Religion and Ethics
Units: 4 Traces the development of how religious ideas have informed ethics, or accounts of the good life, including notions of justice, righteousness, virtue, duty, charity and happiness. Instruction Mode: Lecture Grading Option: Letter

REL 365 Global Ethics
Units: 4 Provide an overview of debates concerning moral, cultural ethics in a globalizing world. Encourage critical reflection on global justice, ethical systems, role of religion. Instruction Mode: Lecture Grading Option: Letter

REL 366 Religion and Social Change
Units: 4 Empirical and theoretical analysis of social change and its effect on religious institutions as well as the impact of religious movements on society. Instruction Mode: Lecture Grading Option: Letter

REL 370 Religion and Visuality
Units: 4 Examination of the deep connections between visuality and religions, including visions, controversies over religious images, and other connections between religion and visual art. Instruction Mode: Lecture Grading Option: Letter

REL 371 Religion and the Supernatural
Units: 4 Methods of religious studies, history, anthropology, and psychology used to analyze religious beliefs in and responses to the supernatural. Instruction Mode: Lecture Grading Option: Letter

REL 376g Religion and Human Rights
Units: 4 Close examination and discussion of a variety of religious views regarding human rights. Forges useful frameworks for interpreting the complexity of competing ideas. Satisfies New General Education in Category C: Social Analysis Instruction Mode: Lecture Grading Option: Letter

REL 382gw Zen and Daoism in Asian Literature
Units: 4 (Enroll in COLT 382gw)

REL 390 Special Problems
Units: 1, 2, 3, 4 Supervised, individual studies. No more than one registration permitted. Enrollment by petition only. Instruction Mode: Lecture Grading Option: Letter

REL 394 Archaeology of Egypt and the Near East
Units: 4 Study of archaeology and excavated artifacts from Egypt and the Near East. Instruction Mode: Lecture Grading Option: Letter Crosslisted as HIST-304, MDES-394

REL 401 Seminar in Religious Studies
Units: 4 Terms Offered: Sp Survey of methods and selected issues in the field of religious studies; required of all majors during their junior or senior year. *Recommended Preparation:* REL 301. Duplicates Credit in former REL 399. Instruction Mode: Lecture Grading Option: Letter

REL 402 Cultural Heritage, Religion, and Politics in the Middle East
Units: 4 Terms Offered: Fa In-depth exploration of archaeology and heritage issues in the Middle East and their implications for politics and practice in modern Islam, Judaism and Christianity. Instruction Mode: Lecture Grading Option: Letter Crosslisted as HIST-402, IR-405, MDES-402

REL 414 History of Islamic Law
Units: 4 Terms Offered: Sp Examines legal methods and religious sources used in Islamic law. Emphasis is placed on the way cultural developments affect legal thought and the administration of justice. Instruction Mode: Lecture Grading Option: Letter

REL 415 Seminar in Buddhism
Units: 4 Seminar on selected aspects of the Buddhist tradition. Instruction Mode: Lecture Grading Option: Letter

REL 417 Seminar in South Asian Religions
Units: 4 Exploration of particular themes and/or traditions in South Asian religions. Instruction Mode: Lecture Grading Option: Letter

REL 425 Communicating Religion
Units: 4 (Enroll in COMM 425)

REL 426 Religion, Media and Hollywood: Faith in TV
Units: 4 (Enroll in COMM 426)

REL 431 The Taoist Tradition
Units: 4 (Enroll in EALC 431)

REL 435 Religious Thought After the Enlightenment
Units: 4 Changes in religious thought between the late 18th and early 20th centuries in the wake of the emergence of modernity in the West. Instruction Mode: Lecture Grading Option: Letter

REL 440 Christian Thought in the 20th Century
Units: 4 Examination of dynamic new directions taken by Christian understandings of self, God, and salvation in response to the novel conditions of modern culture, politics and philosophy. Instruction Mode: Lecture Grading Option: Letter

REL 441 Origins of Modern Theology
Units: 4 19th century liberal, rationalist, and historical theology. Instruction Mode: Lecture Grading Option: Letter

REL 442 Religion and Science
Units: 4 Explores whether religion and science offer competing or complementary

models for understanding the world and the human place within it. Instruction Mode: Lecture Grading Option: Letter

REL 448m France and Islam
Units: 4 Terms Offered: FaSp (Enroll in FREN 448)

REL 455 Philosophy of Religion: Bases of Belief and Disbelief
Units: 4 Rational and empirical foundations for religious faith and for skepticism. Instruction Mode: Lecture Grading Option: Letter

REL 460 Senior Seminar: Medical Ethics
Units: 4 Analysis of ethical problems related to new developments in medical science. Instruction Mode: Lecture Grading Option: Credit/No Credit

REL 462 Religion and Violence
Units: 4 Religious and moral perspectives on war, pacifism, violent and nonviolent protest, and religion-based terrorism and militia. Instruction Mode: Lecture Grading Option: Letter

REL 465 Archaeology and Society
Units: 4 Terms Offered: FaSpSm (Enroll in CLAS 465)

REL 468 Sociology of Religion
Units: 4 The role of religion in modern society from the standpoint of sociological theory and research. Instruction Mode: Lecture Grading Option: Letter Crosslisted as SOCI-468

REL 469 Black Religion in America
Units: 4 Historical, sociological, and theological analysis of the nature and role of black religion in the American setting. Instruction Mode: Lecture Grading Option: Letter Crosslisted as ETST-469

REL 471 Jesus
Units: 4 A study of major interpretations of the figure of Jesus, with focus on the interaction between religious traditions and culture. Instruction Mode: Lecture Grading Option: Letter

REL 473 Advanced Hebrew Bible Studies
Units: 4 Consideration of specific topics in Old Testament studies; particular topics determined each semester. Instruction Mode: Lecture Grading Option: Letter

REL 474 Advanced New Testament Studies
Units: 4 Consideration of specific topics in New Testament studies. Particular topics determined each semester. Instruction Mode: Lecture Grading Option: Letter

REL 475 Religion, Material Culture and the Senses
Units: 4 A comparative study of the role of material culture and the senses in religions based on a number of case studies and problem sets. Instruction Mode: Lecture Grading Option: Letter

REL 479 Seminar in Christian Thought
Units: 4 Studies a theme, period, or problem from the history of Christian thought within its intellectual and social context. Instruction Mode: Lecture Grading Option: Letter

REL 481 History of Religion in America
Units: 4 Intellectual, institutional, and social history of religion in America from colonial times to the present. Instruction Mode: Lecture Grading Option: Letter

REL 483 Religion and Popular Culture in the United States
Units: 4 Terms Offered: Sp Critical analysis of the relationship between religion, mass media, and popular cultural forms in the U.S. *Recommended Preparation:* REL 301. Instruction Mode: Lecture Grading Option: Letter Crosslisted as AMST-483

REL 484 American Religion, Foreign Policy and the News Media
Units: 4 (Enroll in JOUR 484)

REL 485 Transnational Religion
Units: 4 Explores the role of transnational religion in relation to both the formation of new diasporic communities and problems of conflict and peace building. Instruction Mode: Lecture Grading Option: Letter

REL 490x Directed Research
Units: 1, 2, 3, 4, 5, 6, 7, 8 Max Units: 12.0 Individual research and readings. Instruction Mode: Lecture Grading Option: Letter

REL 491x Undergraduate Honors Research
Units: 4 Individual research for honors in the major leading to a substantial project. Instruction Mode: Lecture Grading Option: Letter

REL 493 Art and Archaeology of Religion
Units: 4 Terms Offered: FaSp The history of religion through its material expression: art, architecture and artifact. Exploration of different themes and time periods. Instruction Mode: Lecture Grading Option: Letter

REL 494 Lab Methods and Theories in Archaeology
Units: 4 Archaeological research design, data recovery, artifact analysis, interpretation and analogy, publication and ethics. *Recommended Preparation:* ANTH 202g Instruction Mode: Lecture Grading Option: Letter Crosslisted as ARCG 494

REL 495 Field Methods and Theories in Archaeology
Units: 4 Max Units: 12.0 Terms Offered: FaSpSm Archaeological field study emphasizing current paradigms of data collection and evaluation; social scientific study of material culture and its relationship to religious expression. Instruction Mode: Lecture Grading Option: Letter

REL 499 Special Topics in Religion
Units: 2, 3, 4 Max Units: 8.0 Selected topics in religious studies. Instruction Mode: Lecture Grading Option: Letter

REL 500 Methods and Theories in the Study of Religion
Units: 4 Introduction to the major topics, trends, and theoretical approaches in the study of religion. Instruction Mode: Lecture Grading Option: Letter

REL 502 Themes in the Study of Religion
Units: 4 Max Units: 8.0 Thematic approaches to the study of religion and religions transcending particular traditions, time periods and geographic regions. Course topic varies by semester according to faculty. Instruction Mode: Lecture Grading Option: Letter

REL 525 Colloquium in Global Islam
Units: 4 Introduces major issues that have defined Islamic Studies in premodern and modern periods. Generally taken in the first year. Instruction Mode: Lecture Grading Option: Letter

REL 535 Colloquium in Christian Studies
Units: 4 Research methods and recent scholarship in Christian Studies. Registration Restriction: Open only to graduate students Instruction Mode: Lecture Grading Option: Letter

REL 545 Colloquium in Asia Pacific Religions
Units: 4 Research methods, tools and current scholarship in the study of Asian Pacific Religions. Instruction Mode: Lecture Grading Option: Letter

REL 560 Colloquium in Jewish Studies
Units: 4 Foundation for and exposure to a number of sub-fields in Jewish Studies. Instruction Mode: Lecture Grading Option: Letter

REL 590 Directed Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Research leading to the master's degree. Maximum units which may be applied to the degree to be determined by the department. Instruction Mode: Lecture Grading Option: Credit/No Credit

REL 592 Professionalization Proseminar in Religious Studies
Units: 2 Offers students a structured environment in which to consider issues in professional development and to discuss their dissertation proposals. Instruction Mode: Lecture Grading Option: Credit/No Credit

REL 593 Practicum in Teaching the Liberal Arts
Units: 2 Practical principles for the long-term development of effective teaching within liberal arts disciplines. Instruction Mode: Lecture Grading Option: Credit/No Credit

REL 599 Special Topics
Units: 2, 3, 4 Max Units: 8.0 Instruction Mode: Lecture Grading Option: Letter

REL 625 Advanced Graduate Seminar in Global Islam
Units: 4 Exploration of themes and traditions of Islam as they appear globally in a variety of specific country contexts Instruction Mode: Lecture Grading Option: Letter

REL 635 Advanced Graduate Seminar in Christian Studies
Units: 4 Comparative and transhistorical methods for understanding the most prominent developments in premodern or modern globalized Christianity. Registration Restriction: Open only to graduate students Instruction Mode: Lecture Grading Option: Letter

REL 645 Advanced Graduate Seminar in Asia Pacific Religions
Units: 4 Application of comparative and transhistorical methods for understanding the most prominent themes in Asian Pacific Religions. Instruction Mode: Lecture Grading Option: Letter

REL 650 Readings in Islamic Texts
Units: 4 Max Units: 12 Study of Islamic religious texts in multiple genres, primarily in Arabic, though other languages may be offered. *Recommended Preparation:* Advanced Arabic language ability. Instruction Mode: Lecture Grading Option: Letter

REL 651 Readings in Christian Texts
Units: 4 Max Units: 12 Survey of the different genres of texts in the history of Christian spirituality from ancient Christianity to the present. Instruction Mode: Lecture Grading Option: Letter

REL 652 Readings in Buddhist Texts
Units: 4 Max Units: 12 Study of varied Asian Buddhist texts in translation and in original languages. Exploration of the major secondary literature on Buddhist texts. Instruction Mode: Lecture Grading Option: Letter

REL 653 Readings in Indic Religious Texts
Units: 4 Max Units: 12 Study of varied Hindu, Buddhist, and Jain texts, primarily in Sanskrit. The class covers multiple genres from Puranas to Tantra. *Recommended Preparation:* Two years of previous study of Sanskrit Instruction Mode: Lecture Grading Option: Letter

REL 654 Readings in Chinese Religious Texts
Units: 4 Max Units: 12 Study of Chinese religious texts primarily in literary Chinese. Covers multiple genres of texts from Buddhist sutras to Daoist texts. *Recommended Preparation:* Advanced Chinese language and at least one year of training in classical Chinese. Instruction Mode: Lecture Grading Option: Letter

REL 655 Readings in Japanese Religious Texts
Units: 4 Max Units: 12 Study of Japanese Buddhist texts in classical or modern Japanese and/or kambun. Covers multiple genres from sutras to vernacular text. *Recommended Preparation:* Advanced Japanese language ability; REL 652 Instruction Mode: Lecture Grading Option: Letter

REL 701 Research Seminar in Religious Studies
Units: 2 Max Units: 08 Terms Offered: FaSp Skills for academic professionalization, presentation of research in progress and formal responses to academic writing. Registration Restriction: Open only to graduate students Instruction Mode: Lecture Grading Option: Letter

REL 790 Directed Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Research leading to the doctorate. Maximum units which may be applied to the degree to be determined by the department. Instruction Mode: Lecture Grading Option: Credit/No Credit

REL 794a Doctoral Dissertation
Units: 2 Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

REL 794b Doctoral Dissertation
Units: 2 Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

REL 794c Doctoral Dissertation
Units: 2 Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

REL 794d Doctoral Dissertation
Units: 2 Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

REL 794z Doctoral Dissertation
Units: 0 Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

Restorative Dentistry

REST 314 Physiology of Occlusion for Hygienists
Units: 1 Biology and function of the gnathostomatic system. Role of the hygienist in diagnosis and treatment of occlusal dysfunctions. Instruction Mode: Lecture Grading Option: Letter

REST 501 Preclinical Operative and Fixed Prosthodontics (Conjoint)
Units: 2 Fundamental concepts of restoring an individual tooth with a cast restoration; principles of cavity preparation; casting fabrication and cementation. Instruction Mode: Lecture Grading Option: Letter

REST 503a Clinical Restorative Dentistry
Units: 1 Application of pre-clinical procedures in operative dentistry, fixed prosthodontics, removable prosthodontics, and dental materials. Instruction Mode: Lecture Grading Option: Letter

REST 503b Clinical Restorative Dentistry
Units: 1 Application of pre-clinical procedures in operative dentistry, fixed prosthodontics, removable prosthodontics, and dental materials. Instruction Mode: Lecture Grading Option: Letter

REST 504 Diagnosis and Treatment Planning
Units: 1 Utilizing a restorative approach, enhance students' knowledge and ability to choose treatment best suited for existing dental conditions, patients' requests and their financial ability. Instruction Mode: Lecture Grading Option: Letter

REST 521 Preclinical Operative/Fixed Prosthodontics Laboratory
Units: 3 Experience in cavity preparation; casting fabrication and cementation on extracted teeth and plastic dentiforms. Instruction Mode: Lecture Grading Option: Letter

REST 522 Aesthetics in Dentistry
Units: 1 Definition and relationship of elements of aesthetics; application in patient motivation and care. Instruction Mode: Lecture Grading Option: Letter

REST 602a Participation in Advanced Dental Care
Units: 0, 1, 2, 3 Participation in advanced dental treatment in Faculty Private Practice Clinic, techniques of difficult case presentation and efficiency in practice. Clinic and seminar. Instruction Mode: Lecture Grading Option: In-progress to Letter Grade

REST 602b Participation in Advanced Dental Care
Units: 0, 1, 2, 3 Participation in advanced dental treatment in Faculty Private Practice Clinic, techniques of difficult case presentation and efficiency in practice. Clinic and seminar. Instruction Mode: Lecture Grading Option: Letter

REST 701 Orientation to Advanced Prosthodontics
Units: 5 Preclinical overview of materials, techniques, instrumentation, and treatment procedures necessary for providing advanced prosthodontic care in the clinical environment. Instruction Mode: Lecture Grading Option: Letter

REST 702a Seminar: Treatment Planning
Units: 2 each Seminars led by students with case presentations of complex multidisciplinary treatment plans, completed therapy and staff conferences. Instruction Mode: Lecture Grading Option: Letter

REST 702b Seminar: Treatment Planning
Units: 2 each Seminars led by students with case presentations of complex multidisciplinary treatment plans, completed therapy and staff conferences. Instruction Mode: Lecture Grading Option: Letter

REST 702c Seminar: Treatment Planning
Units: 2 each Seminars led by students with case presentations of complex multidisciplinary treatment plans, completed therapy and staff conferences. Instruction Mode: Lecture Grading Option: Letter

REST 702d Seminar: Treatment Planning
Units: 2 each Seminars led by students with case presentations of complex multidisciplinary treatment plans, completed therapy and staff conferences. Instruction Mode: Lecture Grading Option: Letter

REST 702e Seminar: Treatment Planning
Units: 2 each Seminars led by students with case presentations of complex multidisciplinary treatment plans, completed therapy and staff conferences. Instruction Mode: Lecture Grading Option: Letter

REST 702f Seminar: Treatment Planning
Units: 2 each Seminars led by students with case presentations of complex multidisciplinary treatment plans, completed therapy and staff conferences. Instruction Mode: Lecture Grading Option: Letter

REST 702h Seminar: Treatment Planning
Units: 2 each Seminars led by students with case presentations of complex multidisciplinary treatment plans, completed therapy and staff conferences. Instruction Mode: Lecture Grading Option: Letter

REST 702i Seminar: Treatment Planning
Units: 2 each Seminars led by students with case presentations of complex multidisciplinary treatment plans, completed therapy and staff conferences. Instruction Mode: Lecture Grading Option: Letter

REST 703a Seminar: Review of the Prosthodontic Literature — Fixed
Units: 1 each Weekly two hour seminars devoted to review of the historic, classic, and current literature in fixed prosthodontics. Instruction Mode: Lecture Grading Option: Letter

REST 703b Seminar: Review of the Prosthodontic Literature — Fixed
Units: 1 each Weekly two hour seminars devoted to review of the historic, classic, and current literature in fixed prosthodontics. Instruction Mode: Lecture Grading Option: Letter

REST 703c Seminar: Review of the Prosthodontic Literature — Fixed
Units: 1 each Weekly two hour seminars devoted to review of the historic, classic, and current literature in fixed prosthodontics. Instruction Mode: Lecture Grading Option: Letter

REST 703d Seminar: Review of the Prosthodontic Literature — Fixed
Units: 1 each Weekly two hour seminars devoted to review of the historic, classic, and current literature in fixed prosthodontics. Instruction Mode: Lecture Grading Option: Letter

REST 703e Seminar: Review of the Prosthodontic Literature — Fixed
Units: 1 each Weekly two hour seminars devoted to review of the historic, classic, and current literature in fixed prosthodontics. Instruction Mode: Lecture Grading Option: Letter

REST 703f Seminar: Review of the Prosthodontic Literature — Fixed
Units: 1 each Weekly two hour seminars devoted to review of the historic, classic, and current literature in fixed prosthodontics. Instruction Mode: Lecture Grading Option: Letter

REST 703h Seminar: Review of the Prosthodontic Literature — Fixed
Units: 1 each Weekly two hour seminars devoted to review of the historic, classic, and current literature in fixed prosthodontics. Instruction Mode: Lecture Grading Option: Letter

REST 704a Seminar: Review of the Prosthodontic Literature — Removable
Units: 1 each Weekly two hour seminars devoted to review of the historic, classic, and current literature in removable prosthodontics. Instruction Mode: Lecture Grading Option: Letter

REST 704b Seminar: Review of the Prosthodontic Literature — Removable
Units: 1 each Weekly two hour seminars devoted to review of the historic, classic, and current literature in removable prosthodontics. Instruction Mode: Lecture Grading Option: Letter

REST 704c Seminar: Review of the Prosthodontic Literature — Removable
Units: 1 each Weekly two hour seminars devoted to review of the historic, classic, and current literature in removable prosthodontics. Instruction Mode: Lecture Grading Option: Letter

REST 704d Seminar: Review of the Prosthodontic Literature — Removable
Units: 1 each Weekly two hour seminars devoted to review of the historic, classic, and current literature in removable prosthodontics. Instruction Mode: Lecture Grading Option: Letter

REST 704e Seminar: Review of the Prosthodontic Literature — Removable
Units: 1 each Weekly two hour seminars devoted to review of the historic, classic, and current literature in removable prosthodontics. Instruction Mode: Lecture Grading Option: Letter

REST 704f Seminar: Review of the Prosthodontic Literature — Removable
Units: 1 each Weekly two hour seminars devoted to review of the historic, classic, and current literature in removable prosthodontics. Instruction Mode: Lecture Grading Option: Letter

REST 704h Seminar: Review of the Prosthodontic Literature — Removable
Units: 1 each Weekly two hour seminars devoted to review of the historic, classic, and current literature in removable prosthodontics. Instruction Mode: Lecture Grading Option: Letter

REST 705 Advanced Fixed Prosthodontics Techniques
Units: 1 Tooth preparation and advanced laboratory techniques necessary to implement full mouth rehabilitation. Instruction Mode: Lecture Grading Option: Letter

REST 706 Advanced Complete Denture Techniques
Units: 1 Advanced laboratory and clinical skills for a specialty prosthodontic practice. Instruction Mode: Lecture Grading Option: Letter

REST 708a Dental Ceramics, Color, and Aesthetics
Units: 2 Theory of color and dental aesthetics; history and development of dental ceramics; design and techniques in fabrication of ceramo-metal restorations. Instruction Mode: Lecture Grading Option: Letter

REST 708b Dental Ceramics, Color, and Aesthetics
Units: 2 Theory of color and dental aesthetics; history and development of dental ceramics; design and techniques in fabrication of ceramo-metal restorations. Instruction Mode: Lecture Grading Option: Letter

REST 709a Seminar: Removable Partial Dentures
Units: 1, 2 Diagnosis, treatment planning, and design of removable partial dentures using extracoronal and intracoronal retainers. Instruction Mode: Lecture Grading Option: Letter

REST 709b Seminar: Removable Partial Dentures
Units: 1, 2 Diagnosis, treatment planning, and design of removable partial dentures using extracoronal and intracoronal retainers. Instruction Mode: Lecture Grading Option: Letter

REST 710a Implant Dentistry
Units: 1 Implant modalities and types; basis for selection; techniques of placement and of supervision of prosthodontic restoration. Includes a review of classic implant literature. Instruction Mode: Lecture Grading Option: Credit/No Credit

REST 710b Implant Dentistry
Units: 1 Implant modalities and types; basis for selection; techniques of placement and of supervision of prosthodontic restoration. Includes a review of classic implant literature. Instruction Mode: Lecture Grading Option: Credit/No Credit

REST 710c Implant Dentistry
Units: 1 Implant modalities and types; basis for selection; techniques of placement and of supervision of prosthodontic restoration. Includes a review of classic implant literature. Instruction Mode: Lecture Grading Option: Credit/No Credit

REST 710d Implant Dentistry
Units: 1 Implant modalities and types; basis for selection; techniques of placement and of supervision of prosthodontic restoration. Includes a review of classic implant literature. Instruction Mode: Lecture Grading Option: Credit/No Credit

REST 712 Maxillofacial Prosthodontics
Units: 2 Theory and techniques for fabrication of prostheses to correct maxillofacial deformities including cleft palate. Instruction Mode: Lecture Grading Option: Letter

REST 721a Principles of Occlusion
Units: 2 Application of current occlusal concepts in removable prosthodontics. Techniques of occlusal adjustment and additive waxing for development of occlusal morphology. Instruction Mode: Lecture Grading Option: Letter

REST 721b Principles of Occlusion
Units: 2 Application of current occlusal concepts in removable prosthodontics. Techniques of occlusal adjustment and additive waxing for development of occlusal morphology. Instruction Mode: Lecture Grading Option: Letter

REST 761a Clinic: Advanced Prosthodontics
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10 each Students treat patients with complex interdisciplinary problems. A minimum of five full mouth reconstructions and 10 sets of complete dentures will be completed. Instruction Mode: Lecture Grading Option: Letter

REST 761b Clinic: Advanced Prosthodontics
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10 each Students treat patients with complex interdisciplinary problems. A minimum of five full mouth reconstructions and 10 sets of complete dentures will be completed. Instruction Mode: Lecture Grading Option: Letter

REST 761c Clinic: Advanced Prosthodontics
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10 each Students treat patients with complex interdisciplinary problems. A minimum of five full mouth reconstructions and 10 sets of complete dentures will be completed. Instruction Mode: Lecture Grading Option: Letter

REST 761d Clinic: Advanced Prosthodontics
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10 each Students treat patients with complex interdisciplinary problems. A minimum of five full mouth reconstructions and 10 sets of complete dentures will be completed. Instruction Mode: Lecture Grading Option: Letter

REST 761e Clinic: Advanced Prosthodontics
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10 each Students treat patients with complex interdisciplinary problems. A minimum of five full mouth reconstructions and 10 sets of complete dentures will be completed. Instruction Mode: Lecture Grading Option: Letter

REST 761f Clinic: Advanced Prosthodontics
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10 each Students treat patients with complex interdisciplinary problems. A minimum of five full mouth reconstructions and 10 sets of complete dentures will be completed. Instruction Mode: Lecture Grading Option: Letter

REST 761h Clinic: Advanced Prosthodontics
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10 each Students treat patients with complex

interdisciplinary problems. A minimum of five full mouth reconstructions and 10 sets of complete dentures will be completed. Instruction Mode: Lecture Grading Option: Letter

REST 761i Clinic: Advanced Prosthodontics
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10 each Students treat patients with complex interdisciplinary problems. A minimum of five full mouth reconstructions and 10 sets of complete dentures will be completed. Instruction Mode: Lecture Grading Option: Letter

REST 761j Clinic: Advanced Prosthodontics
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10 each Students treat patients with complex interdisciplinary problems. A minimum of five full mouth reconstructions and 10 sets of complete dentures will be completed. Instruction Mode: Lecture Grading Option: Letter

REST 781 Clinic: Maxillofacial Prosthetics
Units: 1, 2, 3, 4, 5, 6, 7, 8 Clinical experience in fabrication of prostheses to correct maxillofacial deformities. Instruction Mode: Lecture Grading Option: Letter

REST 782a Clinic: Implant Prosthodontics
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10 each Clinical procedures in implants for prosthodontic rehabilitation. Instruction Mode: Lecture Grading Option: Credit/No Credit

REST 782b Clinic: Implant Prosthodontics
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10 each Clinical procedures in implants for prosthodontic rehabilitation. Instruction Mode: Lecture Grading Option: Credit/No Credit

REST 782c Clinic: Implant Prosthodontics
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10 each Clinical procedures in implants for prosthodontic rehabilitation. Instruction Mode: Lecture Grading Option: Credit/No Credit

REST 782d Clinic: Implant Prosthodontics
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10 each Clinical procedures in implants for prosthodontic rehabilitation. Instruction Mode: Lecture Grading Option: Credit/No Credit

REST 782e Clinic: Implant Prosthodontics
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10 each Clinical procedures in implants for prosthodontic rehabilitation. Instruction Mode: Lecture Grading Option: Credit/No Credit

REST 790 Directed Research: Prosthodontics
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Opportunities for research in clinical and experimental prosthodontics. Instruction Mode: Lecture Grading Option: Credit/No Credit

Robotics

ROBO 601L Fundamentals of Robotics I
Units: 4 Terms Offered: Fa Fundamental knowledge of robotics principles, including state estimation in theory and practice for mobile and manipulator robots. *Recommended Preparation:* Knowledge of linear algebra at the level of MATH 225 is strongly encouraged; knowledge of probability theory at the level of MATH 407 or EE 465 Registration Restriction: Not open to undergraduate students Instruction Mode: Lecture, Lab Required Grading Option: Letter

ROBO 602L Fundamentals of Robotics II
Units: 4 Terms Offered: Sp Fundamental knowledge of robotics principles, including planning and control in theory and practice for mobile and manipulator robots. *Prerequisite:* ROBO 601L *Recommended Preparation:* Knowledge of linear algebra at the level of MATH 225 is strongly encouraged; knowledge of probability theory at the level of MATH 407 or EE 465 Registration Restriction: Not open to undergraduate students Instruction Mode: Lecture, Lab Required Grading Option: Letter

Removable Prosthodontics

RPRO 501 Preclinical Removable Complete Prosthodontics
Units: 1 Fundamental theory for the fabrication of removable complete dentures. Instruction Mode: Lecture Grading Option: Letter

RPRO 502 Removable Complete Prosthodontics
Units: 1 Complete denture treatment: phases, clinical procedures, philosophy, concept, rationale, and need. Instruction Mode: Lecture Grading Option: Letter

RPRO 503a Preclinical Removable Prosthodontics and Implants
Units: 2 Introduction to disciplines of removable complete and partial dentures and implants, including classification and progress of edentulism, support sources and principles, design, fabrication and evaluation. Instruction Mode: Lecture Grading Option: Letter

RPRO 503b Preclinical Removable Prosthodontics and Implants
Units: 1 Introduction to disciplines of removable complete and partial dentures and implants, including classification and progress of edentulism, support sources and principles, design, fabrication and evaluation. Instruction Mode: Lecture Grading Option: Letter

RPRO 510 Implant Dentistry
Units: 1 Principles and use of implants in dentistry: includes history, biological basis, types, diagnosis and treatment planning, surgical and restorative procedures, and limitations. Instruction Mode: Lecture Grading Option: Letter

RPRO 511 Preclinical Removable Partial Prosthodontics I
Units: 1 Partial denture diagnosis and treatment planning; basic principles of partial denture design, fabrication, and function. Instruction Mode: Lecture Grading Option: Letter

RPRO 512 Preclinical Removable Partial Prosthodontics II
Units: 1 Partial denture design, fabrication, and function; repair; patient education. Instruction Mode: Lecture Grading Option: Letter

RPRO 513 Removable Partial Prosthodontics
Units: 1 Clinical removable partial prosthodontic treatment including diagnosis, treatment planning and clinical techniques. Instruction Mode: Lecture Grading Option: Letter

RPRO 521 Preclinical Removable Complete Prosthodontics Laboratory
Units: 1 Fundamental theory for the fabrication of removable complete dentures. Instruction Mode: Lecture Grading Option: Letter

RPRO 523a Preclinical Removable Prosthodontics and Implants Laboratory
Units: 1 Laboratory experience in the fabrication of removable complete and partial dentures and implants. Instruction Mode: Lecture Grading Option: Letter

RPRO 523b Preclinical Removable Prosthodontics and Implants Laboratory
Units: 1 Laboratory experience in the fabrication of removable complete and partial dentures and implants. Instruction Mode: Lecture Grading Option: Letter

RPRO 532 Preclinical Removable Partial Prosthodontics Laboratory II
Units: 1 Laboratory experience in fabrication of removable partial dentures. Instruction Mode: Lecture Grading Option: Letter

RPRO 550 Removable Complete Prosthodontics Clinic I
Units: 1 Clinical demonstration with supervised clinic experience in construction, repair, and evaluation of the removable complete denture. Instruction Mode: Lecture Grading Option: Letter

RPRO 561a Clinic: Removable Complete Prosthodontics I
Units: 0 Diagnosis, treatment planning, and care of edentulous patients. Complex cases involving temporo-mandibular joint dysfunction, surgical and congenital defects; seminars on clinical treatment. Instruction Mode: Lecture Grading Option: In-progress to Letter Grade

RPRO 561b Clinic: Removable Complete Prosthodontics I
Units: 0 Diagnosis, treatment planning, and care of edentulous patients. Complex cases involving temporo-mandibular joint dysfunction, surgical and congenital defects; seminars on clinical treatment. Instruction Mode: Lecture Grading Option: In-progress to Letter Grade

RPRO 561c Clinic: Removable Complete Prosthodontics I
Units: 0 Diagnosis, treatment planning, and care of edentulous patients. Complex cases involving temporo-mandibular joint dysfunction, surgical and congenital defects; seminars on clinical treatment. Instruction Mode: Lecture Grading Option: In-progress to Letter Grade

RPRO 561d Clinic: Removable Complete Prosthodontics I
Units: 2 Diagnosis, treatment planning, and care of edentulous patients. Complex cases involving temporo-mandibular joint dysfunction, surgical and congenital defects; seminars on clinical treatment. Instruction Mode: Lecture Grading Option: Letter

RPRO 562a Clinic: Removable Complete Prosthodontics II
Units: 0, 1, 2, 3 Diagnosis, treatment planning, and care of edentulous patients. Complex cases involving temporomandibular joint dysfunction, surgical and congenital defects; seminars on clinical treatment. Instruction Mode: Lecture Grading Option: In-progress to Letter Grade

RPRO 562b Clinic: Removable Complete Prosthodontics II
Units: 0, 1, 2, 3 Diagnosis, treatment planning, and care of edentulous patients. Complex cases involving temporomandibular joint dysfunction, surgical and congenital defects; seminars on clinical treatment. Instruction Mode: Lecture Grading Option: Letter

RPRO 571a Clinic: Removable Partial Prosthodontics
Units: 0 Clinical experience in diagnosis, treatment planning, and laboratory procedures necessary for the treatment of the partially edentulous patient. Includes seminars related to clinical treatment. Instruction Mode: Lecture Grading Option: In-progress to Letter Grade

RPRO 571b Clinic: Removable Partial Prosthodontics
Units: 0 Clinical experience in diagnosis, treatment planning, and laboratory procedures necessary for the treatment of the partially edentulous patient. Includes seminars related to clinical treatment. Instruction Mode: Lecture Grading Option: In-progress to Letter Grade

RPRO 571c Clinic: Removable Partial Prosthodontics
Units: 0 Clinical experience in diagnosis, treatment planning, and laboratory procedures necessary for the treatment of the partially edentulous patient. Includes seminars related to clinical treatment. Instruction Mode: Lecture Grading Option: In-progress to Letter Grade

RPRO 571d Clinic: Removable Partial Prosthodontics
Units: 0 Clinical experience in diagnosis, treatment planning, and laboratory procedures necessary for the treatment of the partially edentulous patient. Includes seminars related to clinical treatment. Instruction Mode: Lecture Grading Option: In-progress to Letter Grade

RPRO 571e Clinic: Removable Partial Prosthodontics
Units: 0 Clinical experience in diagnosis, treatment planning, and laboratory procedures necessary for the treatment of the partially edentulous patient. Includes seminars related to clinical treatment. Instruction Mode: Lecture Grading Option: In-progress to Letter Grade

RPRO 571f Clinic: Removable Partial Prosthodontics
Units: 2 Clinical experience in diagnosis, treatment planning, and laboratory procedures necessary for the treatment of the partially edentulous patient. Includes seminars related to clinical treatment. Instruction Mode: Lecture Grading Option: Letter

RPRO 602 Advanced Removable Prosthodontics
Units: 4 Critical review and evaluation of the removable prosthodontic literature; guided experience in the laboratory and clinical phases of removable prosthodontic therapy. Duplicates Credit in RPRO 604a, RPRO 604b, RPRO 604c. Instruction Mode: Lecture Grading Option: Letter

RPRO 603 The Edentulous Patient — Conventional or Implant Prosthesis
Units: 1 Effective management of the edentulous patient who is unable to adapt to a prosthesis; includes a review of implant dentistry with a hands-on session. Instruction Mode: Lecture Grading Option: Letter

RPRO 604a Advanced Removable Prosthodontics
Units: 0 Critical review and evaluation of the removable prosthodontic literature; guided experience in the laboratory and clinical phases of removable prosthodontic therapy. Duplicates Credit in RPRO 602. Instruction Mode: Lecture Grading Option: In-progress to Letter Grade

RPRO 604b Advanced Removable Prosthodontics
Units: 0 Critical review and evaluation of the removable prosthodontic literature; guided experience in the laboratory and clinical phases of removable prosthodontic therapy. Duplicates Credit in RPRO 602. Instruction Mode: Lecture Grading Option: In-progress to Letter Grade

RPRO 604c Advanced Removable Prosthodontics
Units: 4 Critical review and evaluation of the removable prosthodontic literature; guided experience in the laboratory and clinical phases of removable prosthodontic therapy. Duplicates Credit in RPRO 602. Instruction Mode: Lecture Grading Option: Letter

RPRO 605 Prosthodontic Seminar: Removable Partial Prosthodontics
Units: 1 Provides fourth year dental students with an advanced didactic foundation for treating the partially edentulous patient with a removable partial. Instruction Mode: Lecture Grading Option: Letter

Regulatory Science

RSCI 504 Good Laboratory Practices (GLP)
Units: 2 Introduction to Good Laboratory Practices (GLP), including the design, implementation and monitoring of non-clinical GLP studies, and GLP studies in an academic environment. Instruction Mode: Lecture Grading Option: Letter

RSCI 506 Auditing Principles
Units: 3 Audit requirements mandated by the FDA and other international regulatory agencies including internal, external, regulatory agency, third party, GMP, GLP, ISO 13485/QSR and supplier audits. Instruction Mode: Lecture Grading Option: Letter

RSCI 507 Quality Systems and Statistical Process Control
Units: 2 Fundamentals and applications of Statistical Process Control (SPC) in development and monitoring of manufacturing processes; includes SPC in root cause analysis and CAPA. Instruction Mode: Lecture Grading Option: Letter

RSCI 508 Quality Assurance for Drugs and Biologics
Units: 3 Design and implementation of a quality system to assure quality and safety of pharmaceuticals and biologics, according to relevant FDA and international regulations and guidance documents. Instruction Mode: Lecture Grading Option: Letter

RSCI 509 Quality Assurance, Medical Devices and Combination Products
Units: 3 Design of systems according to FDA and international regulations and guidelines to ensure the quality and safety of medical devices and combination products. Instruction Mode: Lecture Grading Option: Letter

RSCI 520 Introduction to Risk Management for Health Care Products
Units: 2 Historical development, formal language and theoretical approaches to risk management in health care and medical product environment; policies, regulations, standards; liability prevention and loss control. *Recommended Preparation:* undergraduate degree in pharmacy, medical or independent health sciences, engineering or equivalent mix of post-secondary training and industry experience. Duplicates Credit in former MPTX 520. Instruction Mode: Lecture Grading Option: Letter

RSCI 521 Seminars in Regulatory Science
Units: 1 Max Units: 6.0 Terms Offered: FaSpSm Current problems in regulatory affairs, legal management, preclinical and clinical testing, scientific evaluation and quality assurance. *Recommended Preparation:* undergraduate degree in pharmacy, medical or independent health sciences, engineering or equivalent mix of post secondary training and industry experience; enrollment in MS, Regulatory Science program. Duplicates Credit in former MPTX 521. Instruction Mode: Lecture Grading Option: Credit/No Credit

RSCI 523 Advanced Concepts in Risk Management for Medical Products
Units: 3 Managing risk in demanding health-care and medical-product situations: clinical trials, emerging technologies, counterfeit prevention, hard-to-reach populations. *Recommended Preparation:* undergraduate or professional degree in pharmacy, medicine or independent health sciences, engineering or equivalent mix of post-secondary training and industry experience; enrollment in M.S. (Regulatory Science), Certificate in Patient and Product Safety, or permission of instructor. Instruction Mode: Lecture Grading Option: Letter

RSCI 525 Introduction to Drug and Food Toxicology
Units: 3 Factors affecting toxic responses to foods and drugs: dose-response relationships, absorption, distribution, biotransformation, elimination of toxicants; target organ toxicity, teratogenesis, mutagenesis, carcinogenesis, food allergies, risk assessment. *Recommended Preparation:* undergraduate degree in pharmacy, medical or independent health sciences, engineering or equivalent mix of post-secondary training and industry experience. Instruction Mode: Lecture Grading Option: Letter

RSCI 527 Medical Product Safety
Units: 3 Management of medical product safety by manufacturers/suppliers including: safe manufacturing, labeling, packaging;

pharmacovigilance, field observations, complaint handling; record-keeping, safety issues documentation; crisis management/ recalls. *Recommended Preparation:* undergraduate degree in pharmacy, medical or independent health sciences, engineering or equivalent mix of post-secondary training and industry experience. Instruction Mode: Lecture Grading Option: Letter

RSCI 529 Application of Risk Management Tools and Techniques
Units: 2 Use of risk management tools in the medical products arena: functional analysis, fault-tree analysis, failure modes and effects analysis, HACCP and six sigma methods. *Recommended Preparation:* undergraduate degree in pharmacy, medical or independent health sciences, engineering or equivalent mix of post-secondary training and industry experience. Instruction Mode: Lecture Grading Option: Letter

RSCI 531 Industrial Approaches to Drug Discovery
Units: 4 Terms Offered: FaSpSm Examines the process of drug discovery from selection of disease and therapeutic target to characterization and validation of lead drug candidates. *Recommended Preparation:* undergraduate degree in pharmacy, medical or independent health sciences, engineering or equivalent mix of post-secondary training and industry experience; enrollment in MS, Regulatory Science, Certificate in Preclinical Drug Development and MS, Management of Drug Development. Instruction Mode: Lecture Grading Option: Letter

RSCI 532 Early Stage Drug Development
Units: 3 Terms Offered: FaSpSm Explores the activities involved in transforming an early drug or biological candidate to a drug approved for marketing by regulatory authorities. *Recommended Preparation:* undergraduate degree in pharmacy, medical or independent health sciences, engineering or equivalent mix of post-secondary training and industry experience; enrollment in MS, Regulatory Science, Certificate in Preclinical Drug Development and MS, Management of Drug Development. Instruction Mode: Lecture Grading Option: Letter

RSCI 533 Safety Evaluation during Drug Development
Units: 3 Safety pharmacology/toxicology requirements mandated by FDA and other regulatory agencies to move a new chemical entity from discovery stage to market approval. Instruction Mode: Lecture Grading Option: Letter

RSCI 534 Drug Development in CNS Disorders
Units: 4 Successes and challenges related to central nervous system therapeutics. Major brain disorders, current and future therapeutic targets and clinical trial designs. Instruction Mode: Lecture Grading Option: Letter

RSCI 535 Methods Development and Validation
Units: 3 Foundation in the process of developing and validating analytical methodology for purposes of pharmaceutical, biological and medical device development. Instruction Mode: Lecture Grading Option: Letter

RSCI 540 Analysis of Food and Dietary Supplement Regulations
Units: 3 Changes and interpretation of regulations affecting food supply and dietary supplements impacting global markets. Product development, health-claim positioning, advertising, media messaging, consumer choices, personal health outcomes. Instruction Mode: Lecture Grading Option: Letter

RSCI 541 Drug Development, Reimbursement, and Marketing
Units: 3 Survey of drug development strategies; health economics and outcomes researches and reimbursements; emphasis on coverage determination process and FDA and CMS parallel review process. Instruction Mode: Lecture Grading Option: Letter

RSCI 590 Directed Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Max Units: 12.0 Terms Offered: FaSpSm Research leading to the master's degree. Maximum units which may be applied to the degree to be determined by the department. Instruction Mode: Lecture Grading Option: Credit/No Credit

RSCI 596 Internship for Curricular Practical Training in Regulatory Science
Units: 1 Max Units: 4.0 Terms Offered: FaSpSm Part-time or full-time practical work experience in Regulatory Science. The internship must be located at an off-campus facility. Students are individually supervised by faculty. *Recommended Preparation:* Undergraduate or professional degree in pharmacy, medicine or independent health sciences, engineering or equivalent mix of post-secondary training and industry experience; enrollment in MS (Regulatory Science). Instruction Mode: Lecture Grading Option: Credit/No Credit

RSCI 601 Biomedical Commerce
Units: 4 Introduction to business principles appropriate to medical products, including: supply and demand, product entry-exit strategies, financing, reimbursement, marketing and pricing in global marketplace. *Recommended Preparation:* undergraduate degree in pharmacy, medical or independent health sciences, engineering or equivalent mix of post-secondary training and industry experience; enrollment in MS, Regulatory Science. Instruction Mode: Lecture Grading Option: Letter

RSCI 603 Managing Complex Projects
Units: 3 Theory and methods to manage complex projects in medical products sectors; timelines, intellectual property, security, contracts, budgets, review activities, reports, electronic tools, cross-cultural communication. *Recommended Preparation:* undergraduate or professional degree in pharmacy, medical or independent health sciences, engineering or equivalent mix of post-secondary training and industry experience. Instruction Mode: Lecture Grading Option: Letter

RSCI 604 Regulatory Strategy in Asia
Units: 4 Terms Offered: FaSpSm Regulatory policy, standards and practices in different Asian markets: product licensing, import/export management, materials sourcing, quality systems compliance, reimbursement, prescribing practices. Travel may be required. *Recommended Preparation:* undergraduate or professional degree in pharmacy, medical or independent health sciences, engineering or equivalent mix of postsecondary training and industry experience. Instruction Mode: Lecture Grading Option: Letter

RSCI 605 Managing Organizations and Human Resources
Units: 3 Theory and practice of personnel management, organizational structure and industrial relations in small, growing enterprises and large global companies typical of pharmaceutical and medical device sectors. *Recommended Preparation:* undergraduate or professional degree in pharmacy, medical or independent health sciences, engineering or equivalent mix of postsecondary training and industry experience. Instruction Mode: Lecture Grading Option: Letter

RSCI 606 Regulation of Emerging Technologies and Biological Products
Units: 3 Policies, testing and regulatory requirements affecting commercialization of biologics and novel medical technologies. Focus on biologics, blood and tissue products, radiopharmaceuticals and nanotechnology. Instruction Mode: Lecture Grading Option: Letter

RSCI 607 Theory, Methods and Practice of Medical Products Research
Units: 4 Terms Offered: FaSpSm Statistical and research design methods, data analysis, survey and interview techniques laying the foundation for the dissertation. Instruction Mode: Lecture Grading Option: Letter

RSCI 608 Regulatory Strategy in Europe and the Americas
Units: 4 Regulatory strategy in EU, Canada, Mexico and South America; culture, health-care practices, reimbursement, product registration, quality systems, trade restrictions, import/export requirements. Travel may be required. *Recommended Preparation:* undergraduate or professional degree in pharmacy, medical or independent health sciences, engineering or equivalent mix of post-secondary training and industry experience. Instruction Mode: Lecture Grading Option: Letter

RSCI 790 Directed Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Max Units: 12.0 Terms Offered: FaSpSm Research leading to the doctorate. Maximum units which may be applied towards the degree to be determined by the department. Instruction Mode: Lecture Grading Option: Credit/No Credit

RSCI 794a Doctoral Dissertation
Units: 2 Dissertation research required for completion of doctoral degree in regulatory science. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

RSCI 794b Doctoral Dissertation
Units: 2 Dissertation research required for completion of doctoral degree in regulatory science. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

RSCI 794c Doctoral Dissertation
Units: 2 Dissertation research required for completion of doctoral degree in regulatory

science. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

RSCI 794d Doctoral Dissertation
Units: 2 Dissertation research required for completion of doctoral degree in regulatory science. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

RSCI 794z Doctoral Dissertation
Units: 0 Dissertation research required for completion of doctoral degree in regulatory science. Instruction Mode: Lecture Grading Option: In-progress & Credit/No Credit

RSCI 800 Studies for the Qualifying Exam
Units: 0 Terms Offered: FaSpSm Preparation for the qualifying exam. Instruction Mode: Lecture Grading Option: Credit/No Credit

Russian

RUSS 120 Beginning Russian I
Units: 4 Terms Offered: FaSpSm Introduction to the Russian language with emphasis on basic conversational skills, major points of grammar and reading. Duplicates Credit in former SLL 120 Instruction Mode: Lecture Grading Option: Letter

RUSS 150 Beginning Russian II
Units: 4 Terms Offered: FaSpSm Continuation of RUSS 120. *Prerequisite:* RUSS 120 Duplicates Credit in former SLL 150 Instruction Mode: Lecture Grading Option: Letter

RUSS 220 Intermediate Russian I
Units: 4 Terms Offered: FaSpSm Development of thematic conversational skills with emphasis on extended dialogue. Review of basic morphology with special attention to verbs of motion. Reading of authentic material is emphasized. *Prerequisite:* RUSS 150 Duplicates Credit in former SLL 220 Instruction Mode: Lecture Grading Option: Letter

RUSS 250 Intermediate Russian II
Units: 4 Terms Offered: FaSpSm Continuation of RUSS 220. Development of proficiency in conversation skills, reading and writing. *Prerequisite:* RUSS 220 Duplicates Credit in former SLL 250 Instruction Mode: Lecture Grading Option: Letter

RUSS 260x The Trans-Siberian Experience
Units: 2 Max Units: 04 Terms Offered: Sp Introduction to Russian language and culture by means of a study-tour on the Trans-Siberian Railway. Credit Restriction: Not available for major credit for students in Russian and Central European Studies majors Duplicates Credit in former SLL 260 Instruction Mode: Lecture Grading Option: Letter

RUSS 310 Advanced Russian in Popular Culture
Units: 4 Terms Offered: FaSpSm Advanced conversation, reading, grammar and topical analysis of Russian press, films and other popular sources. Conducted in Russian. *Prerequisite:* RUSS 250 Duplicates Credit in former SLL 310 Instruction Mode: Lecture Grading Option: Letter

Pharmaceutical and Regulatory Science

RXRS 200 Approaches to Pharmacology and Drug Development
Units: 4 Pharmacology and Drug Development explored through the lens of Clinical Pharmacy, Translational and Bench Research, Regulatory Science and Global Policy and Economics. Instruction Mode: Lecture Grading Option: Letter

RXRS 201p The History and Geography of Drugs
Units: 4 Global perspectives; discovery and use of drugs (legal/illegal); poisons. How they helped shape, modify or change history as described in classical literature through present day. Satisfies Global Perspective in Category H: Traditions and Historical Foundations Instruction Mode: Lecture Grading Option: Letter

RXRS 302 Introduction to Pharmacology and Therapeutics
Units: 4 Drug/Receptor interactions, pharmacodynamics, pharmacokinetics. Safe and effective drug administration; differences in pediatric and geriatric populations. Current therapies, adverse effects and drug interactions. Instruction Mode: Lecture Grading Option: Letter

RXRS 304 Mysterious Deaths: From Poisons in Literature and History to Forensic Toxicology
Units: 4 The story of poisons and their deliberate use told through the prism of history and literature, as a fun way to discover forensic toxicology. Instruction Mode: Lecture Grading Option: Letter

RXRS 402 Human Pharmacology: Challenge of Therapeutics in Society
Units: 4 Principles of human pharmacology/toxicology related to prescription, over the counter medications; nutraceuticals; drug-drug interactions; polypharmacy; hot topics related to recently approved drugs. *Recommended Preparation:* Students should have at completed at least one year of undergraduate biology and/or chemistry Instruction Mode: Lecture Grading Option: Letter

RXRS 403 Neuropharmacology in Health and Disease
Units: 4 Neuropharmacological treatments of brain disorders including neurodegenerative disorders, injury, and disease; influence of environment and experiences on neuroplasticity and brain development; drug discovery. *Recommended Preparation:* one year of biology Instruction Mode: Lecture Grading Option: Letter

RXRS 405 Breaking Brains: The Pharmacology of Addiction
Units: 4 Neurological basis of addiction to drugs of abuse including alcohol, marijuana, opioids and sugar, focusing on neuropharmacology and challenges of current and future therapies. Instruction Mode: Lecture Grading Option: Letter

RXRS 406 Clinical Pharmacology and Medication Management
Units: 4 Comprehensive Medication Management Applications in Pharmacotherapy; evidence-based, pharmacist driven medication selection; improved and/or optimized medication therapy; patient compliance; better and safer health outcomes. *Recommended Preparation:* clinical pharmacology course Instruction Mode: Lecture Grading Option: Letter

RXRS 407 The Discovery, Development and Marketing of Medicines
Units: 4 Principles, concepts, challenges and short comings of modern day drug discovery and development of medicines. Inter-relationships with regulatory, ethical and societal sectors presented. Instruction Mode: Lecture Grading Option: Letter

RXRS 408 Arming the Immune System for Novel Therapies
Units: 4 Principles of human immunological responses to maintain wellness and perturbation in disease. Focus on discovery, development and use of therapeutic strategies targeting immune mechanisms. *Recommended Preparation:* One year of biology and chemistry Instruction Mode: Lecture Grading Option: Letter

RXRS 410 Cancer Biology and Pharmacotherapy
Units: 4 Cancer and the complex molecular basis leading to tumor oncogenesis, invasion and metastasis; current therapeutic strategies and strategies on the horizon. *Prerequisite:* BISC 120Lg and BISC 220Lg) or (CHEM 105aLg and CHEM 105bL) Instruction Mode: Lecture Grading Option: Letter

RXRS 411 Innovations in Medical Product Development
Units: 4 Developing new medical technologies; political, regulatory, financing and reimbursement issues that may be associated; case studies looking at the newest medical technologies. Instruction Mode: Lecture Grading Option: Letter

RXRS 412 Ethics, Drugs and Society
Units: 4 Ethical and moral issues have arisen from responsibilities within different fields of pharmaceutical practice. Exploration of the broad solutions those responsibilities have presented. Instruction Mode: Lecture Grading Option: Letter

RXRS 413w Globalization of the Biomedical Industry
Units: 4 Globalization; pharmaceuticals, biologics, medical devices, and combination products in advanced, emerging, and developing markets; regional and national regulations, global and regional harmonization efforts, ethical considerations. Satisfies Global Perspective in Category G: Citizenship in a Diverse World Instruction Mode: Lecture Grading Option: Letter

RXRS 414 Buzzed: Modern Substances of Abuse and Addiction
Units: 4 Modern perspectives; discovery and use of legal and illicit drugs including alcohol and opioids. How drugs have helped, shaped, modified or changed individuals and society. Instruction Mode: Lecture Grading Option: Letter

RXRS 416 Medical Products: From Idea to Market
Units: 4 Progress of medical product development through intellectual property, animal and clinical trials and commercialization. Emphasis on safety, quality systems and efficacy. Instruction Mode: Lecture Grading Option: Letter

RXRS 417 Food Safety: The Good, The Bad and The Deadly
Units: 4 Critical thinking, science translation, effective communications, personal health, and public policy development are at the interface of food safety, nutrition intervention and health controversies. Instruction Mode: Lecture Grading Option: Letter

RXRS 418 Plant Medicines in Modern Medicine
Units: 4 Plant medicines; how discovered; activity; pharmacology, toxicity and human benefit; emphasis on the US, Europe and China. Instruction Mode: Lecture Grading Option: Letter

RXRS 421 Management and Operation of Clinical Trials
Units: 4 Clinical Trials management and operations are vital aspects in the design, planning, conduct and reporting of successful research projects and portfolios. Instruction Mode: Lecture Grading Option: Letter

RXRS 490x Directed Research
Units: 1, 2, 3, 4, 5, 6, 7, 8 Max Units: 12 Individual research, reading, writing and project development. Instruction Mode: Lecture Grading Option: Letter

RXRS 493x Senior Honors Seminar I
Units: 2 Exciting and challenging opportunity to marshal and deploy research, analysis, interpretation and writing skills students learned in their major. Registration Restriction: Open to Pharmacology and Drug Development majors at the junior and senior level Credit Restriction: Not available for graduate credit Instruction Mode: Lecture Grading Option: Letter

RXRS 494x Senior Honors Seminar II
Units: 2 An independent study course for students undertaking the research and writing of an Honors thesis. *Prerequisite:* RXRS 493x Registration Restriction: Open only to Pharmacology and Drug Development majors at the junior and senior levels Credit Restriction: Not available for graduate credit Instruction Mode: Lecture Grading Option: Letter

Systems Architecting and Engineering

SAE 496 Systems Engineering Through Motorsports
Units: 3 Terms Offered: Irregular Applied systems architecting, engineering and management to motorsports from design to validation and verification; venues include drag racing, grand prix Formula SAE racing, DARPA Challenges. Instruction Mode: Lecture Grading Option: Letter

SAE 499 Special Topics
Units: 2, 3, 4 Max Units: 8.0 Terms Offered: FaSpSm Course content to be selected each semester from recent developments in Systems Architecting and Engineering and related fields. Instruction Mode: Lecture Grading Option: Letter

SAE 515 Sustainable Infrastructure Systems
Units: 4 Terms Offered: Fa Explores broad issues and mitigation measures involved in the analysis and design of complex, uncertain, interacting infrastructure systems needing to be resilient and sustainable. Instruction Mode: Lecture, Discussion Grading Option: Letter

SAE 541 Systems Engineering Theory and Practice
Units: 3 Terms Offered: FaSpSm Integration of engineering problem solving methodologies based on systems concepts. Application to complex, large scale technical systems and problems faced by engineering managers. Case studies. Duplicates Credit in former ISE 541. Instruction Mode: Lecture Grading Option: Letter

SAE 542 Advanced Topics in Systems Engineering
Units: 3 Terms Offered: FaSpSm Probability theory in systems engineering: test design and performance, reliability and maintainability, quantitative decision models. Constraint theory to manage and de-conflict complex requirements. Complexity theory. *Prerequisite:* SAE 541 *Recommended Preparation:* Calculus, linear algebra and multivariate probability Duplicates Credit in former ISE 542 Instruction Mode: Lecture Grading Option: Letter

SAE 543 Case Studies in Systems Engineering and Management
Units: 3 Terms Offered: FaSp Real-world case studies in DoD, NASA, and commercial arenas, employing new methodologies to cover the fundamental positive and negative development learning principles of systems engineering. Instruction Mode: Lecture Grading Option: Letter

SAE 546 Engineered Resilient Systems and System-of-Systems
Units: 3 Terms Offered: Sp Formal methods for the design and analysis of resilient systems and system-of-systems (SoS); Disruption risks as a function of system scale and complexity, management, and architectures. *Recommended Preparation:* SAE 549 Instruction Mode: Lecture Grading Option: Letter

SAE 547 Model-Based Systems Architecting and Engineering
Units: 3 Approaches for modeling systems using software such as SysML; modeling system, requirements, structure, behavior, and parametrics; mapping to hardware description language and behavioral code generation. *Recommended Preparation:* Modeling and simulation courses. Instruction Mode: Lecture Grading Option: Letter

SAE 548 Systems/System-of-Systems Integration and Communication
Units: 3 Terms Offered: FaSp Essentials of systems and system-of-systems integration from the perspectives of business, programs, and technology. Process, legacy, and systems-of-systems integration. Verification and validation methods. Case studies. *Recommended Preparation:* bachelor's degree in engineering or physical sciences. Instruction Mode: Lecture Grading Option: Letter

SAE 549 Systems Architecting
Units: 3 Terms Offered: FaSp Introduction to systems architecture in aerospace, electrical, computer, and manufacturing systems emphasizing the conceptual and acceptance phases and using heuristics. *Prerequisite:* BS degree in a related field of engineering. Instruction Mode: Lecture Grading Option: Letter Crosslisted as AME-549

SAE 550 Systems Architecting and the Political Process
Units: 3 Analysis of risks inherent in managing high-tech / high-cost government-funded engineering programs; tools and techniques for coping with the impacts of politically-driven budgets on the engineering design process. *Recommended Preparation:* two years of work experience. Duplicates Credit in former ISE 550. Instruction Mode: Lecture Grading Option: Letter

SAE 551 Lean Operations
Units: 3 Terms Offered: FaSp (Enroll in ISE 506)

SAE 560 Economic Considerations for Systems Engineering
Units: 3 Terms Offered: Sp Impact of economic factors for systems architects and engineers, tools for understanding these factors, fundamental quantitative analysis of cash flow, life-cost estimating for systems and software engineering. Instruction Mode: Lecture Grading Option: Letter

SAE 574 Net-Centric Systems Architecting and Engineering
Units: 3 Terms Offered: FaSp In-depth examination of the technical design approaches, tools, and processes to enable the benefits of net-centric operations in a networked systems-of-systems. Instruction Mode: Lecture Grading Option: Letter

SAE 576 Invention and Technology Development
Units: 3 (Enroll in CE 576)

SAE 590 Directed Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Terms Offered: FaSpSm Research leading to the master's degree. Maximum units which may be applied to the degree to be determined by the department. Instruction Mode: Lecture Grading Option: Credit/No Credit

SAE 594a Master's Thesis
Units: 2 Terms Offered: FaSpSm Credit on acceptance of thesis. Instruction Mode: Lecture Grading Option: In-progress & Credit/No Credit

SAE 594b Master's Thesis
Units: 2 Terms Offered: FaSpSm Credit on acceptance of thesis. Instruction Mode: Lecture Grading Option: In-progress & Credit/No Credit

SAE 594z Master's Thesis
Units: 0 Terms Offered: FaSpSm Credit on acceptance of thesis. Instruction Mode: Lecture Grading Option: In-progress & Credit/No Credit

SAE 599 Special Topics
Units: 2, 3, 4 Max Units: 8.0 Terms Offered: FaSpSm Course content will be selected each semester to reflect current trends and developments in the field of systems architecting and engineering. Instruction Mode: Lecture Grading Option: Letter

Dornsife in DC

SCDC 499 Special Topics
Units: 1, 2, 3, 4, 5, 6, 7, 8 Max Units: 08 Selected topics offered within the USC Dornsife Washington, D.C. Program. Instruction Mode: Lecture Grading Option: Letter

Screen Scoring

SCOR 403 Introduction to Scoring Movies and Television
Units: 2 Practical composition course covering the unique art, craft, and technology involved in writing and integrating music for animated and live-action visual media. *Prerequisite:* MUCO 133b *Recommended Preparation:* Composition background, MTEC 443 or MTEC 445 Instruction Mode: Lecture Grading Option: Letter

SCOR 405 Introduction to Scoring Video Games
Units: 2 Practical composition course covering the unique art, craft, and technology involved in composing and integrating video-game music. *Prerequisite:* MUCO 133b *Recommended Preparation:* Composition background, MTEC 443 or MTEC 445 Duplicates Credit in former MUCO 445 Instruction Mode: Lecture Grading Option: Letter

SCOR 490x Directed Research
Units: 1, 2, 3, 4, 5, 6, 7, 8 Max Units: max 12 Individual research and readings. Not available for graduate credit. Registration Restriction: Open only to juniors and seniors Instruction Mode: Lecture Grading Option: Letter

SCOR 499 Special Topics
Units: 2, 3, 4 Max Units: 8 Selected topics of current interest. Instruction Mode: Lecture Grading Option: Letter

SCOR 501 Individual Instruction
Units: 1, 2 Max Units: 08 Secondary instruction for graduate music majors or instruction for graduate non-music majors. Instruction Mode: Lecture Grading Option: Letter

SCOR 502 Individual Instruction in Advanced Screen Scoring
Units: 1, 2 Max Units: 4 Individual instruction and review of students' work. Selected composers, orchestrators, filmmakers, and other important industry collaborators offer their insights on scoring and career building. Duplicates Credit in former MUCO 520 and MUCO 545 Instruction Mode: Lecture, Lab Grading Option: Letter

SCOR 503a Advanced Scoring for Motion Pictures and Television
Units: 2 Scoring principles involved in designing, timing, and composing scores for video projects, including documentaries, animated, and live-action projects. Will also include composing for live recording sessions. Duplicates Credit in former MUCO 440a Instruction Mode: Lecture Grading Option: Letter

SCOR 503b Advanced Scoring for Motion Pictures and Television
Units: 2 Scoring principles involved in designing, timing, and composing scores for video projects, including documentaries, animated, and live-action projects. Will also include composing for live recording sessions. *Prerequisite:* SCOR 503a Duplicates Credit in former MUCO 440b Instruction Mode: Lecture Grading Option: Letter

SCOR 504a Orchestral Scoring
Units: 2 Explores the sounds of and notations for the major orchestral instruments; provides instruction on implementation of those instruments in scoring and orchestrating for the screen. Duplicates Credit in former MUCO 443a Instruction Mode: Lecture Grading Option: Letter

SCOR 504b Orchestral Scoring
Units: 2 Explores the sounds of and notations for the major orchestral instruments; provides instruction on implementation of those instruments in scoring and orchestrating for the screen. *Prerequisite:* SCOR 504a Duplicates Credit in former MUCO 443b Instruction Mode: Lecture Grading Option: Letter

SCOR 505a Advanced Game Scoring and Integration
Units: 2 Explores more sophisticated principles and techniques involved in the unique aspects of composing and integrating music for video games. Duplicates Credit in former MUCO 540a Instruction Mode: Lecture Grading Option: Letter

SCOR 505b Advanced Game Scoring and Integration
Units: 2 Explores more sophisticated principles and techniques involved in the unique aspects of composing and integrating music for video games. *Prerequisite:* SCOR 505a Duplicates Credit in former MUCO 540b Instruction Mode: Lecture Grading Option: Letter

SCOR 506 Applied Techniques in Contemporary Scoring
Units: 2 Explores the most recent artistic and technological innovations in film/television scoring, and includes creating cues from adapted themes. Duplicates Credit in former MUCO 522b Instruction Mode: Lecture Grading Option: Letter

SCOR 507 Studio Conducting and Contemporary Score Analysis
Units: 2 Study of two distinct areas: 1) The methods and protocols involved in conducting scoring sessions; and 2) Analysis of innovative scores from current television- and feature- films. Instruction Mode: Lecture Grading Option: Letter

SCOR 511a History of Film Scoring
Units: 2 Examines the evolution of movie music from 1920s to present. Includes recorded interviews with the most significant film composers and film clips of their work. Duplicates Credit in former MUCO 442a Instruction Mode: Lecture Grading Option: Letter

SCOR 511b History of Film Scoring
Units: 2 Examines the evolution of movie music from 1920s to present. Includes recorded interviews with the most significant film composers and film clips of their work. *Prerequisite:* SCOR 511a Duplicates Credit in former MUCO 442b Instruction Mode: Lecture Grading Option: Letter

SCOR 512 Entrepreneurialism for the Screen Composer
Units: 2 Addresses challenges facing emerging screen composers, including negotiating deals; establishing a studio, production budgets, and a publishing business; tracking royalties; licensing music; and engaging representation. Instruction Mode: Lecture Grading Option: Letter

SCOR 521a Recording, Mixing and Editing for the Screen Composer
Units: 2 Addresses the need for modern-day screen composers to produce and digitally record, sweeten, mix, and edit much of their own music. Duplicates Credit in former MUCO 560a Instruction Mode: Lecture Grading Option: Letter

SCOR 521b Recording, Mixing and Editing for the Screen Composer
Units: 2 Addresses the need for modern-day screen composers to produce and digitally record, sweeten, mix, and edit much of their own music. *Prerequisite:* SCOR 521a Duplicates Credit in former MUCO 560b Instruction Mode: Lecture Grading Option: Letter

SCOR 523a Advanced Screen Scoring Technology
Units: 2 Explores sophisticated principles and applications of technologies for screen scoring, including the use of synthesizers, samplers, and sequencers. Duplicates Credit in former MUCO 523a Instruction Mode: Lecture Grading Option: Letter

SCOR 523b Advanced Screen Scoring Technology
Units: 2 Explores sophisticated principles and applications of technologies for screen scoring, including the use of synthesizers, samplers, and sequencers. *Prerequisite:* SCOR 523a Duplicates Credit in former MUCO 523b Instruction Mode: Lecture Grading Option: Letter

SCOR 590 Directed Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Research leading to the Master's Degree. Maximum units which may be applied to the degree to be determined by the department. Graded CR/NC. Instruction Mode: Lecture Grading Option: Credit/No Credit

SCOR 599 Special Topics
Units: 2, 3, 4 Max Units: max 8 Selected topics of current interest. Instruction Mode: Lecture Grading Option: Letter

SCOR 790 Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Research leading to the doctorate. Maximum units which may be applied to the degree to be determined by the department. Instruction Mode: Lecture Grading Option: Credit/No Credit

Stem Cell Biology and Regenerative Medicine

SCRM 511 Developmental Biology and Human Embryology
Units: 4 Terms Offered: Fa Survey of anatomical, cellular and molecular processes that underlie human development and congenital malformations, with discussion of other species for comparison. Registration Restriction: Open only to Stem Cell Biology and Regenerative Medicine majors. Instruction Mode: Lecture Grading Option: Letter

SCRM 513 Stem Cells and Regenerative Medicine
Units: 4 Terms Offered: Fa

A comprehensive investigation of embryonic, fetal and adult stem cells and the application of stem cell biology to treat disease. Registration Restriction: Open only to Stem Cell Biology and Regenerative Medicine majors. Instruction Mode: Lecture Grading Option: Letter

SCRM 515 Bringing Stem Cells to the Clinic
Units: 4 Terms Offered: Sp Lectures addressing the business, legal, ethical, manufacturing and regulatory aspects involved in moving stem cells or related product into clinical practice. *Recommended Preparation:* SCRM 513 Registration Restriction: Open only to Stem Cell Biology and Regenerative Medicine majors. Instruction Mode: Lecture Grading Option: Letter

SCRM 517 Historical and Contemporary Stem Cell Research
Units: 2 Terms Offered: Sp Historical and contemporary stem cell research using hematopoietic stem cells as a model system. *Prerequisite:* SCRM 513 Registration Restriction: Open only to master and doctoral students Instruction Mode: Lecture Grading Option: Letter

SCRM 519 Historical and Contemporary Research: Neural Stem Cells
Units: 2 Terms Offered: Sp Focuses on historic achievements in stem cell research and how contemporarily, research and its related technological advances have fostered breakthroughs the understanding of NSCs. *Recommended Preparation:* SCRM 513 Registration Restriction: Open only to graduate students Instruction Mode: Lecture Grading Option: Letter

SCRM 521 Historical and Contemporary Research: Tissue Development Engineering
Units: 2 Terms Offered: Sp Focuses on the components of cell, molecular biology, and basic tissue development to comprehend its uses within the realm of synthetic biology and cellular/tissue engineering. *Recommended Preparation:* SCRM 513 Registration Restriction: Open only to graduate students Instruction Mode: Lecture Grading Option: Letter

SCRM 522L Biological Imaging in Stem Cell Research
Units: 2 Terms Offered: Sp Theory and practice of using microscopy and flow cytometry in stem cell biology, including sample preparation, digital processing and data analysis. *Concurrent Enrollment:* SCRM 524L Registration Restriction: Open only to Stem Cell Biology and Regenerative Medicine majors Instruction Mode: Lecture, Lab Required Grading Option: Letter

SCRM 524L Culture and Differentiation of Human Pluripotent Stem Cells
Units: 2 Terms Offered: Sp Classroom and laboratory experience in the techniques for deriving, culturing and differentiating human pluripotent stem cells (hPSCs) and related cell types. *Concurrent Enrollment:* Concurrent enrollment: SCRM 522 Registration Restriction: Open only to Stem Cell Biology and Regenerative Medicine majors. Instruction Mode: Lecture, Lab Required Grading Option: Letter

SCRM 525 Tools and Techniques in Stem Cell Biology
Units: 2 Max Units: 10 Terms Offered: Fa Introduces students to classical and cutting-edge techniques used to assess stem cells and regenerating systems. Registration Restriction: Open only to Stem Cell Biology and Regenerative Medicine master students Instruction Mode: Lecture Grading Option: Letter

SCRM 555 Writing About Stem Cell Biology and Regenerative Medicine
Units: 1 Terms Offered: Fa Instruction in writing for various audiences on topics related to stem cell biology and regenerative medicine. Registration Restriction: Open only to Stem Cell Biology and Regenerative Medicine majors Instruction Mode: Lecture Grading Option: Letter

SCRM 574 Stem Cell and Developmental Biology Seminar Series
Units: 1 Terms Offered: FaSp (Enroll in DSR 574)

SCRM 580 SCRM External Speaker Seminar Series
Units: 2 Max Units: 8.0 Terms Offered: FaSp Reading and discussion of recent papers by the SCRM speaker of the week, and attendance at the speaker's seminar. Registration Restriction: Open only to Stem Cell Biology and Regenerative Medicine majors. Instruction Mode: Lecture, Discussion Grading Option: Letter

SCRM 590 Independent Research
Units: 1, 2, 3, 4 Max Units: 16.0 Independent research conducted under the guidance of faculty in the Department of Stem Cell Biology and Regenerative Medicine. *Prerequisite:* SCRM 511, SCRM 513, SCRM 515, SCRM 522, SCRM 524, SCRM 555, SCRM 580. Registration Restriction: Open only to Stem Cell Biology and Regenerative Medicine majors. Instruction Mode: Lecture, Lab Grading Option: Credit/No Credit

SCRM 594a Master's Thesis
Units: 2 Terms Offered: FaSpSm Credit on acceptance of Thesis. Graded IP/CR/NC. *Recommended Preparation:* Completion of at least 14 of the required credits for the M.S. degree in Stem Cell Biology and Regenerative Medicine; enrollment in SCRM 590 either concurrent or prior to this course Registration Restriction: Open only to master students in Stem Cell Biology and Regenerative Medicine Instruction Mode: Lecture Grading Option: In Progress to Credit/No Credit

SCRM 594b Master's Thesis
Units: 2 Terms Offered: FaSpSm Credit on acceptance of Thesis. Graded IP/CR/NC. *Prerequisite:* SCRM 594a *Recommended Preparation:* Completion of at least 14 of the required credits for the M.S. degree in Stem Cell Biology and Regenerative Medicine; enrollment in SCRM 590 either concurrent or prior to this course Registration Restriction: Open only to master students in Stem Cell Biology and Regenerative Medicine Instruction Mode: Lecture Grading Option: In Progress to Credit/No Credit

SCRM 594z Master's Thesis
Units: 0 Terms Offered: FaSpSm Credit on acceptance of Thesis. Graded IP/CR/NC. *Prerequisite:* SCRM 594b *Recommended Preparation:* Completion of at least 14 of the required credits for the M.S. degree in Stem Cell Biology and Regenerative Medicine; Enrollment in SCRM 590 either concurrent or prior to this course Registration Restriction: Open only to master students in Stem Cell Biology and Regenerative Medicine Instruction Mode: Lecture Grading Option: In Progress to Credit/No Credit

SCRM 599 Special Topics
Units: 1, 2, 3, 4, 5, 6, 7, 8 Max Units: 08 Selected topics in Stem Cell Biology and Regenerative Medicine. Instruction Mode: Lecture Grading Option: Letter

SCRM 610 Current Topics in Regenerative Medicine
Units: 1 Terms Offered: Sp (Enroll in DSR 610)

SCRM 620 Current Topics in Stem Cell Biology and Organogenesis
Units: 1 Terms Offered: Fa (Enroll in DSR 620)

Slavic Languages and Literatures

SLL 020 Course in Reading Russian
Units: 2 For graduate students wishing to use Russian as a scholarly tool. Emphasis on basic grammar and reading skills. Instruction Mode: Lecture Grading Option: Credit/No Credit

SLL 025 Course in Reading Russian
Units: 2 Continuation of SLL 020. Reading of authentic materials from Russian press and students' areas of interest. *Prerequisite:* SLL 020. Instruction Mode: Lecture Grading Option: Credit/No Credit

SLL 110g Russia in the Modern Era
Units: 4 Terms Offered: FaSp Key moments in the development of Russian culture since its westernization in the early eighteenth century to the present day. Focus on works of literature, art and other products of the culture that have significantly influenced Russian self-understanding as well as the ways in which Russians perceive the rest of the world. Satisfies New General Education in Category B: Humanistic Inquiry Instruction Mode: Lecture, Discussion Grading Option: Letter

SLL 122 Elementary Polish I
Units: 4 Structure of the language, pronunciation, basic communication, and reading in modern Polish. Instruction Mode: Lecture Grading Option: Letter

SLL 130a Elementary Czech
Units: 4 Structure of the language, basic grammar, pronunciation, and oral communication. Readings in Czech; discussion of Czech history and culture. Instruction Mode: Lecture Grading Option: Letter

SLL 130b Elementary Czech
Units: 4 Continuation of SLL 130a. *Prerequisite:* SLL 130a. Instruction Mode: Lecture Grading Option: Letter

SLL 152 Elementary Polish II
Units: 4 Continuation of SLL 122. *Prerequisite:* SLL 122. Instruction Mode: Lecture Grading Option: Letter

SLL 199 Chess and Critical Thinking
Units: 2 Analysis of significant chess games, reflecting societal attitudes toward science, competition, art, gender, psychology, politics, and technology. Instruction Mode: Lecture Grading Option: Credit/No Credit

SLL 210 Masterpieces of the Russian Short Story
Units: 4 Critical reading of selected masterpieces of the Russian short story; works by Gogol, Turgenev, Dostoevsky, Tolstoy, Babel, Pasternak, Solzhenitsyn, and others. In English. Instruction Mode: Lecture Grading Option: Letter

SLL 222 Readings in Polish Literature I
Units: 4 Continuation of elementary Polish and introduction to outstanding works in Polish literature. *Prerequisite:* SLL 122 and SLL 152. Instruction Mode: Lecture Grading Option: Letter

SLL 252 Readings in Polish Literature II
Units: 4 Continuation of SLL 222. *Prerequisite:* SLL 222. Instruction Mode: Lecture Grading Option: Letter

SLL 255 Business Russian
Units: 4 Language and culture course for intermediate Russian level students interested in business. Prepares students to communicate in Russian-speaking business settings in a linguistically sensitive manner. *Prerequisite:* SLL 220 . Instruction Mode: Lecture Grading Option: Letter

SLL 270a Russian for Native Speakers
Units: 4 For native Russian speakers who cannot read or write Russian. Emphasis on essentials of grammar, vocabulary, and orthography, and the reading and writing of simple texts in Russian. Instruction Mode: Lecture Grading Option: Letter

SLL 270b Russian for Native Speakers
Units: 4 Continuation of SLL 270a. Instruction Mode: Lecture Grading Option: Letter

SLL 299 Chess — Advanced Thinking Techniques
Units: 2 Development of advanced understanding of the game of chess. Critical analysis of games and of the problem-solving techniques applicable in various game situations. *Prerequisite:* SLL 199. Instruction Mode: Lecture Grading Option: Credit/No Credit

SLL 300 The Russian Novel
Units: 4 The rise of the novel as the dominant form in Russian literature of the 19th century. Major works by Gogol, Turgenev, Dostoevsky, Tolstoy, and others. In English. Instruction Mode: Lecture Grading Option: Letter

SLL 301 Russian Literary Avant-Garde
Units: 4 Russian modernism and the avant-garde: development of modern sensibility in literature and the arts from 1880 to 1930. Readings in Chekhov, Sologub, Bely, Mayakovsky, and others. Conducted in English. Instruction Mode: Lecture Grading Option: Letter

SLL 302g Modern Russian Literature
Units: 4 Survey of the major developments in Russian literature during the 20th century, from modernism to the post-Soviet era. Readings in English. Satisfies New General Education in Category B: Humanistic Inquiry Instruction Mode: Lecture Grading Option: Letter

SLL 303 Contemporary Russian Literature
Units: 4 Developments in Russian Literature from the 1960s to the present. Literature of moral resistance directed against official cultural models. In English. Instruction Mode: Lecture Grading Option: Letter

SLL 321 Russian Culture
Units: 4 Survey of Russian civilization from the beginnings to the Soviet period focusing on major cultural and artistic trends. *Prerequisite:* four semesters of Russian. Instruction Mode: Lecture Grading Option: Letter

SLL 330gp Russian Thought and Civilization
Units: 4 Russian cultural identity from its beginnings until today. The Eastern Orthodox tradition, its traumatic confrontation with Western culture, and their continuous interaction. *Concurrent Enrollment:* Concurrent enrollment: MDA 140. Satisfies New General Education in Category B: Humanistic Inquiry Satisfies Global Perspective in Category H: Traditions and Historical Foundations Satisfies Old General Education in Category II: Global Cultures and Traditions Instruction Mode: Lecture Grading Option: Letter, Discussion

SLL 340 Intercultural Communication in Russian
Units: 4 Advanced language training focusing on specific issues of communication with Russians. Analysis and translation of literary texts. Advanced syntax. Conducted in Russian. *Prerequisite:* SLL 250 ; *Recommended Preparation:* SLL 120 , SLL 150 , SLL 220 . Instruction Mode: Lecture Grading Option: Letter

SLL 344g Tolstoy: Writer and Moralist
Units: 4 Tolstoy's major works in the context of his ethical views. Readings and lectures in English. Satisfies New General Education in Category B: Humanistic Inquiry Satisfies Old General Education in Category V: Arts and Letters Instruction Mode: Lecture Grading Option: Letter

SLL 345g Literature and Philosophy: Dostoevsky
Units: 4 Dostoevsky's novels as psychological and philosophical analyses of modern alienated man. Readings in Dostoevsky and selections from Gide, Kafka, Camus, and Sartre. Conducted in English. Satisfies New General Education in Category B: Humanistic Inquiry Satisfies Old General Education in Category V: Arts and Letters Instruction Mode: Lecture Grading Option: Letter

SLL 346 Russian Drama and the Western Tradition
Units: 4 Representative plays from the 18th century to the present. Development of the Russian theater in the European context. Conducted in English. Instruction Mode: Lecture Grading Option: Letter

SLL 348g The Novels of Vladimir Nabokov
Units: 4 Survey of Vladimir Nabokov's novels written in Europe and America from the 1920s–1960s. Primary focus on the structure of the novels and their themes of art and emigration. Readings in English. Satisfies New General Education in Category B: Humanistic Inquiry Instruction Mode: Lecture Grading Option: Letter

SLL 370 Advanced Russian for Native Speakers
Units: 4 For students with basic oral proficiency in Russian who need to develop native fluency in an array of genres and situations. Emphasis on advanced grammar, reading (literary and scholarly texts), written expression (scholarly, administrative, and business genres), spelling, and punctuation. Instruction Mode: Lecture Grading Option: Letter

SLL 378 Modern Russian Art
Units: 4 Changing concepts of aesthetic value as expressed in the development of 19th and 20th century Russian art (painting and architecture). Instruction Mode: Lecture Grading Option: Letter Crosslisted as AHIS-378

SLL 390 Special Problems
Units: 1, 2, 3, 4 Supervised, individual studies. No more than one registration permitted. Enrollment by petition only. Instruction Mode: Lecture Grading Option: Letter

SLL 397 Literature and Film in Eastern European Historical Experience
Units: 4 Exploration of key moments in the recent historical experience of Eastern Europe through close readings of literature and film. Taught in English. Instruction Mode: Lecture Grading Option: Letter

SLL 465 Seminar in Russian Studies
Units: 4 Max Units: 12.0 Readings and discussion in Russian of current topics in Russian culture, politics and society. Content varies each time offered. *Prerequisite:* SLL 250 . Instruction Mode: Lecture Grading Option: Letter

SLL 490x Directed Research
Units: 1, 2, 3, 4, 5, 6, 7, 8 Max Units: 12.0 Individual research and readings. Instruction Mode: Lecture Grading Option: Letter

SLL 499 Special Topics
Units: 2, 3, 4 Max Units: 8.0 Instruction Mode: Lecture Grading Option: Letter

SLL 500 Topics in Advanced Russian
Units: 2 Max Units: 8.0 Study of Russian required for graduate work and professional activities. *Prerequisite:* four years of college Russian. Instruction Mode: Lecture Grading Option: Letter

SLL 501 Proseminar in Russian Literature
Units: 3 Introduction to graduate study of Russian literature: research methods, bibliography, transliteration, development of critical writing skills. Instruction Mode: Lecture Grading Option: Letter

SLL 510 Old Church Slavonic
Units: 3 Study of the earliest recorded Slavic language; linguistic interpretation of original texts; knowledge of a Slavic language or general linguistics will be helpful. Instruction Mode: Lecture Grading Option: Letter

SLL 512 History of the Russian Language
Units: 3 Phonetic, morphological, syntactical changes from common Slavic to the present. Russian literary language; influence of 19th century Russian authors and old church Slavic on contemporary Russian. Instruction Mode: Lecture Grading Option: Letter

SLL 514 Structure of Modern Russian: Phonology
Units: 3 Articulatory phonetics, phonemics, morphophonemics, and intonational patterns of modern Russia. *Prerequisite:* three years of college Russian. Instruction Mode: Lecture Grading Option: Letter

SLL 515 Russian Linguistics
Units: 3 Terms Offered: FaSp Overview of contemporary linguistic theory with focus on the Russian language. Instruction Mode: Lecture Grading Option: Letter

SLL 516 Structure of Modern Russian: Morphology
Units: 3 Essential issues in current linguistic description of the syntax and morphology of modern Russian. Considers word order, negation, verbal aspect. Instruction Mode: Lecture Grading Option: Letter

SLL 523x Methods of Teaching Russian as a Foreign Language
Units: 2 Terms Offered: FaSp Introduces future Assistant Lecturers to the communicative method of teaching Russian and focuses on theories and methods of teaching the language, as well as key concepts of second language acquisition. Registration Restriction: Open only to doctoral students in Slavic Languages and Literatures Credit Restriction: Not available for degree credit Instruction Mode: Lecture Grading Option: Credit/No Credit

SLL 530 Early Russian Literature and Culture (11th–17th Centuries)
Units: 3 Major monuments of medieval Russian literature examined in their cultural, literary, and theological context, with special emphasis on issues of genre. Focus on problems of Russian cultural identity and Russia's complex relationship to Byzantine and Western traditions. *Prerequisite:* SLL 510 and SLL 514. Instruction Mode: Lecture Grading Option: Letter

SLL 532 18th Century Russian Literature
Units: 3 Major works and genres of the 18th century. The development of a "modern" literary tradition, focusing on problems of Russia's indigenization of Western literary movements (classicism and sentimentalism). Instruction Mode: Lecture Grading Option: Letter

SLL 542 Symbolism
Units: 3 Russian symbolist literature; cultural and philosophical background of this late 19th and early 20th century movement. *Prerequisite:* three years of college Russian. Instruction Mode: Lecture Grading Option: Letter

SLL 544 Russian Short Story
Units: 3 Pushkin, Gogol, Dostoevsky, Turgenev, Tolstoy, Chekhov. *Prerequisite:* three years of college Russian. Instruction Mode: Lecture Grading Option: Letter

SLL 545 19th Century Russian Poetry
Units: 3 Analysis of major works of 19th century Russian poetry in the context of developing aesthetic principles and cultural history. *Prerequisite:* SLL 501. Instruction Mode: Lecture Grading Option: Letter

SLL 546 The Russian Novel
Units: 3 Genre of the novel as exemplified in the works of one or more Russian authors. Readings from Gogol, Turgenev, Tolstoy, Dostoevsky, and others. *Prerequisite:* three years of college Russian. Instruction Mode: Lecture Grading Option: Letter

SLL 548 History of Russian Literary Criticism
Units: 3 History and principles of literary criticism in Russia with attention to major periods and movements from the early 19th century through the Formalists. Instruction Mode: Lecture Grading Option: Letter

SLL 550 Russian Modernism
Units: 3 "Russian Modernism" subsumes theoretical ideas, practical achievements, and stylistic movements which contributed to Russia's cultural renaissance between ca. 1890 and ca. 1925. *Prerequisite:* SLL 340. Instruction Mode: Lecture Grading Option: Letter

SLL 555 Soviet Literature I (1917–1953)
Units: 3 The course surveys the major writers and literary schools of Soviet literature in the crucial period from the Revolution to the death of Stalin. Instruction Mode: Lecture Grading Option: Letter

SLL 557 Soviet Literature II (1953–present)
Units: 3 De-Stalinization of Soviet culture, the reappropriation of Russia's literary past, and new directions in contemporary literature. Instruction Mode: Lecture Grading Option: Letter

SLL 575 Socialist Realism
Units: 3 The course examines the origins, doctrine, and ideology of socialist realism, the predominant, and officially prescribed, aesthetic of Soviet literature. Instruction Mode: Lecture Grading Option: Letter

SLL 584 Russian Fiction and the West
Units: 3 A survey of major Russian fiction in the context of Western European literary movements from the late 18th through late 19th centuries. The course presumes the students' basic acquaintance with the major monuments. Instruction Mode: Lecture Grading Option: Letter

SLL 585 20th Century Russian Literary Criticism
Units: 3 Relationship between practical and theoretical literary criticism: Formalism and Structuralism, Sociological school, and Bakhtin; theoretical approaches applied to specific literary texts. Instruction Mode: Lecture Grading Option: Letter

SLL 590 Directed Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Research leading to the master's degree. Maximum units which may be applied to the degree to be determined by the department. Instruction Mode: Lecture Grading Option: Credit/No Credit

SLL 599 Special Topics
Units: 2, 3, 4 Max Units: 8.0 Instruction Mode: Lecture Grading Option: Letter

SLL 650 Seminar in Russian Literature
Units: 3 Max Units: 9.0 Detailed study of single literary period, movement or genre; two or more selected authors; specific school of literary criticism. May be repeated, with departmental permission, if content of the seminar is different. *Prerequisite:* three years of college Russian; *Recommended Preparation:* one year of graduate study. Instruction Mode: Lecture Grading Option: Letter

SLL 660 Seminar on a Single Author or Work
Units: 3 Max Units: 9.0 Theme varies from year to year. An author or major work will be selected for intensive study; research paper required. May be repeated, with departmental permission, if content of the seminar is different. *Prerequisite:* three years of college Russian; *Recommended Preparation:* one year of graduate study. Instruction Mode: Lecture Grading Option: Letter

SLL 665 Seminar in Russian Culture and the Arts
Units: 3 Max Units: 9.0 Subject varies from year to year. A trend or major figure will be studied in its cultural and artistic contexts. May be repeated, with departmental permission, if content of the seminar is different. *Prerequisite:* three years of college Russian; *Recommended Preparation:* one year of graduate study. Instruction Mode: Lecture Grading Option: Letter

SLL 670 Seminar in Eastern European Cinema
Units: 3 Max Units: 09 Terms Offered: FaSp Topics in Eastern European cinema selected for intensive study. May be repeated with varying content. *Recommended Preparation:* two years of graduate study Registration Restriction: Open only to doctoral students Instruction Mode: Lecture Grading Option: Letter

SLL 790 Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Research leading to the doctorate. Maximum units which may be applied to the degree to be determined by the department. Instruction Mode: Lecture Grading Option: Credit/No Credit

SLL 794a Doctoral Dissertation
Units: 2 Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

SLL 794b Doctoral Dissertation
Units: 2 Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

SLL 794c Doctoral Dissertation
Units: 2 Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

SLL 794d Doctoral Dissertation
Units: 2 Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

SLL 794z Doctoral Dissertation
Units: 0 Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

Sociology

SOCI 100gm Los Angeles and the American Dream
Units: 4 Los Angeles as a metaphor for the American Dream, exploring the city's history and potential futures, including economic opportunity, social justice, spatial organization, and environmental sustainability. Satisfies Old General Education in Category VI: Social Issues Duplicates Credit in the former AMST 100gm and GEOG 100gm. Instruction Mode: Lecture, Discussion Grading Option: Letter

SOCI 142gm Diversity and Racial Conflict
Units: 4 Terms Offered: FaSp Introduction to the causes and effects of contemporary race relations in a diverse U.S. society.

Exploration of racial conflict at the personal and institutional levels. Satisfies New General Education in Category C: Social Analysis Satisfies Old General Education in Category VI: Social Issues Instruction Mode: Lecture, Discussion Grading Option: Letter

SOCI 150gm Social Problems
Units: 4 Terms Offered: Fa Analysis of factors in current American social problems: crime, delinquency, prostitution, family disorganization, race relations, mental illness. Satisfies New General Education in Category C: Social Analysis Satisfies Old General Education in Category VI: Social Issues Instruction Mode: Lecture, Discussion Grading Option: Letter

SOCI 155gm Immigrant America
Units: 4 Terms Offered: FaSp Examination of the immigrant experience in the United States. Comparative analysis of social context of migration, formation of immigrant communities, and social integration of immigrants. Satisfies New General Education in Category C: Social Analysis Satisfies Old General Education in Category VI: Social Issues Instruction Mode: Lecture, Discussion Grading Option: Letter

SOCI 169gm Changing Family Forms
Units: 4 Terms Offered: FaSp The peculiarity of the "modern" Western family system in historical and cross cultural perspective; focus on the "postmodern" family crisis in the United States. Satisfies New General Education in Category C: Social Analysis Satisfies Old General Education in Category VI: Social Issues Instruction Mode: Lecture, Discussion Grading Option: Letter

SOCI 200gm Introduction to Sociology
Units: 4 Basic concepts of sociology with special reference to group life, social institutions, and social processes. Satisfies New General Education in Category C: Social Analysis Instruction Mode: Lecture, Discussion Grading Option: Letter

SOCI 210g Science, Technology, and Social Conflict
Units: 4 Science and technology change society and how we understand ourselves. In turn, social struggles influence science. We will explore the interplay between these forces. Satisfies New General Education in Category C: Social Analysis Satisfies Old General Education in Category VI: Social Issues Instruction Mode: Lecture, Discussion Grading Option: Letter

SOCI 215g Sociology of Wall Street
Units: 4 Terms Offered: FaSp Examines Wall Street as a: market for allocating investment; arbiter of prices; place to work; and a powerful force directing the activities of corporations everywhere. Satisfies New General Education in Category C: Social Analysis Instruction Mode: Lecture, Discussion Grading Option: Letter

SOCI 220gm Questions of Intimacy
Units: 4 Terms Offered: FaSp Analysis of conditions of intimacy and intimate personal relationships as lenses for understanding social inequalities of race, social class, gender, sexuality, and nation. Satisfies New General Education in Category C: Social Analysis Satisfies Old General Education in Category VI: Social Issues Instruction Mode: Lecture, Discussion Grading Option: Letter

SOCI 225gw Sociology of Health and the Body
Units: 4 Terms Offered: FaSp Investigation of health as a social category and the varied ways that social and cultural factors shape bodies and health. Satisfies New General Education in Category C: Social Analysis Satisfies Global Perspective in Category G: Citizenship in a Diverse World Satisfies Old General Education in Category VI: Social Issues Instruction Mode: Lecture, Discussion Grading Option: Letter

SOCI 242g Sociology, Demography and Health
Units: 4 Terms Offered: FaSpSm Sociological and demographic concepts focusing on the causes of disease, health and wellness. Empirical analysis of population composition and its connection to health. *Prerequisite:* BISC 120Lg or BISC 121Lg or BISC 220Lg or BISC 221Lg *Recommended Preparation:* Prepares pre-health students for sociology portion of the MCAT. Registration priority given to pre-health students Satisfies New General Education in Category C: Social Analysis Satisfies Old General Education in Category VI: Social Issues Instruction Mode: Lecture, Discussion Grading Option: Letter

SOCI 250gmw Grassroots Participation in Global Perspective
Units: 4 Theory and history behind the ideal of "the local, grassroots volunteer": a direct link between theory and research using Los Angeles as a case study. Satisfies New General Education in Category C: Social Analysis Satisfies Global Perspective in Category G: Citizenship in a Diverse World Satisfies Old General Education in Category VI: Social Issues Instruction Mode: Lecture, Discussion Grading Option: Letter

SOCI 255g Sociology of Globalization
Units: 4 Terms Offered: FaSp This course examines globalization through social and economic processes and its consequences for social conflict, economic development, human rights, social movements, and national identity. Satisfies New General Education in Category C: Social Analysis Satisfies Old General Education in Category VI: Social Issues Instruction Mode: Lecture, Discussion Grading Option: Letter

SOCI 270g Sociological Theory
Units: 4 Terms Offered: FaSp Historical and contemporary approaches to sociological theory; analysis of conceptual frameworks applied to the study of society and social interaction. *Prerequisite:* SOCI 200gm Satisfies New General Education in Category C: Social Analysis Duplicates Credit in former SOCI 370 Instruction Mode: Lecture Grading Option: Letter

SOCI 275 Sociology of Everyday Life
Units: 4 The social philosophy of understanding everyday life; describing and analyzing forms of interaction, emotions, knowledge, and the social self.

SOCI 305m Sociology of Childhood
Units: 4 Terms Offered: FaSp Social construction of childhood; children's social relations and cultures; issues of childcare, poverty, violence and children's rights; effects of children on adults. *Prerequisite:* SOCI 200gm and SOCI 270g Instruction Mode: Lecture Grading Option: Letter

SOCI 310 Gender and Social Justice
Units: 4 Terms Offered: FaSp (Enroll in SWMS 310)

SOCI 313L Sociological Research Methods
Units: 4 Terms Offered: FaSp Logic of theory construction, research design, elementary data collection and analysis. *Prerequisite:* SOCI 200gm Instruction Mode: Lecture, Lab Required Grading Option: Letter

SOCI 314Lg Analyzing Social Statistics
Units: 4 Terms Offered: FaSpSm Sociological measurement, univariate description, elementary correlation, introduction to statistical inference. *Prerequisite:* SOCI 200gm Satisfies New General Education in Category F: Quantitative Reasoning Instruction Mode: Lecture, Lab Required Grading Option: Letter

SOCI 325 Applied Social Research Methods
Units: 4 Terms Offered: FaSp Use quantitative or qualitative analysis skills to study major social issues using large existing survey data sets or qualitative methods. Become conversant in describing data to a variety of audiences. *Prerequisite:* SOCI 200gm and SOCI 270 and SOCI 313L and SOCI 314Lg Instruction Mode: Lecture Grading Option: Letter

SOCI 335 Society and Population
Units: 4 Terms Offered: FaSp World population trends and their consequences: determinants of fertility, mortality and migration; development of elementary models of population change. *Prerequisite:* SOCI 200gm and SOCI 314Lg Instruction Mode: Lecture Grading Option: Letter

SOCI 336 Health, Gender and Ethnicity
Units: 4 Terms Offered: Sp (Enroll in SWMS 336)

SOCI 340 Organizations: Bureaucracy and Alternatives to Bureaucracy
Units: 4 Importance of organizations in social life; techniques for using and changing organizations; examination of strategies for building and sustaining nonbureaucratic organizations. Instruction Mode: Lecture Grading Option: Letter

SOCI 342m Race Relations
Units: 4 Terms Offered: FaSp Past and present relations between the White majority and minoritized groups; conflict vs. assimilation perspectives. *Prerequisite:* SOCI 200gm and SOCI 270g Instruction Mode: Lecture Grading Option: Letter

SOCI 345 Social Institutions
Units: 4 Cultural and interactional aspects of social institutions as complex social systems; religious, political, industrial, and familial institutions.

SOCI 350 Social Exclusion, Social Power and Deviance
Units: 4 Terms Offered: FaSp Current theories of origin, distribution and control of deviant behavior; examination of processes involved in the career deviance of drug addicts, alcoholics, sexual deviants, gamblers and mentally disordered. *Prerequisite:* SOCI 200gm and SOCI 270g

Instruction Mode: Lecture Grading Option: Letter

SOCI 351 Public Policy and Juvenile Justice
Units: 4 Terms Offered: FaSp Past and current theories of youth crime; gangs and other forms of youth deviance; the changing response of the police, courts and public to these behaviors. *Prerequisite:* SOCI 200gm and SOCI 270g Instruction Mode: Lecture Grading Option: Letter

SOCI 353 Public Policy and Criminal Justice
Units: 4 Terms Offered: FaSp Nature and trends in crime, policing, courts, and correctional agencies in relation to past, current and prospective changes in society. *Prerequisite:* SOCI 200gm and SOCI 270g Instruction Mode: Lecture Grading Option: Letter

SOCI 355m Immigrants in the United States
Units: 4 Social construction of historical and contemporary immigration to the United States, including causes of migration, immigration policies and the socioeconomic integration of immigrants. *Prerequisite:* SOCI 200gm and SOCI 270g Instruction Mode: Lecture Grading Option: Letter

SOCI 356m Mexican Immigrants in Sociological Perspective
Units: 4 Effects of class, global inequality, legal status, gender, racial/ethnic and language differences in distinguishing Mexican immigrant populations from the U.S.-born population; differentiation among Mexican immigrants. *Prerequisite:* SOCI 200gm and SOCI 270g Instruction Mode: Lecture Grading Option: Letter

SOCI 357m Latino Politics
Units: 4 (Enroll in AMST 357)

SOCI 360m Social Inequality: Class, Status and Power
Units: 4 Terms Offered: FaSp Inequalities in wealth, prestige and power in the United States; the American class structure and the extent of upward mobility in that structure. *Prerequisite:* SOCI 200gm and SOCI 270g Instruction Mode: Lecture Grading Option: Letter

SOCI 362 Global and Transnational Sociology
Units: 4 Terms Offered: FaSp Examines key issues in global and transnational sociology. Globalization is the empirical phenomenon where social, economic, and political interconnectedness across countries impacts the world. Instruction Mode: Lecture Grading Option: Letter

SOCI 369 The Family in a Changing Society
Units: 4 Changing family patterns; personality development; family unity, predicting success in marriage; the family in transition; crises such as economic changes, death, divorce; family reorganization. *Prerequisite:* SOCI 200gm and SOCI 270g Instruction Mode: Lecture Grading Option: Letter

SOCI 376m Contemporary Issues in Asian American Communities
Units: 4 Survey of current social and political issues facing Asian American communities with emphasis on Los Angeles region; design and implementation of community-based research projects. Instruction Mode: Lecture Grading Option: Letter Crosslisted as AMST-376

SOCI 379gm Mixing and Matching: Intermarriage in 21st Century
Units: 4 Terms Offered: Sp (Enroll in JS 379)

SOCI 382 Judaism as an American Religion
Units: 4 (Enroll in JS 382)

SOCI 386m Men and Masculinity
Units: 4 (Enroll in SWMS 385)

SOCI 390 Special Problems
Units: 1, 2, 3, 4 Supervised, individual studies. No more than one registration permitted. Enrollment by petition only. Instruction Mode: Lecture Grading Option: Letter

SOCI 402 Human Trafficking
Units: 4 Terms Offered: FaSp Interrogates the social construction of the legal category "human trafficking," examining the ideological foundations, the social contentions and political issues surrounding the issue. *Prerequisite:* SOCI 200gm and SOCI 270g Instruction Mode: Lecture Grading Option: Letter Crosslisted as SWMS 402

SOCI 408 Volunteers, Non-Governmental Organizations, and Everyday Politics
Units: 4 Terms Offered: FaSpSm Theory, practice, and history of civic life. Examines communication, personal obligation, collective imagination, and political representation, in grassroots, state-sponsored, and non-governmental organization-sponsored civic associations around the world. Instruction Mode: Lecture Grading Option: Letter

SOCI 410 The Sociology of Popular Culture
Units: 4 From the entertainment capital of the world, course surveys sociological research on artistic producers and critical theories of the connections between popular culture and society. Instruction Mode: Lecture Grading Option: Letter

SOCI 425 Social Movements: Power, Resistance and Political Dynamics
Units: 4 Terms Offered: FaSp When do groups mobilize to defend or resist power? Explores collective mobilization including student protest, minority rights and labor movements, the alt-right and revolutions. *Prerequisite:* SOCI 200gm and SOCI 270g Instruction Mode: Lecture Grading Option: Letter

SOCI 429 Immigration, Work and Labor
Units: 4 Terms Offered: FaSp Examination of the experiences of racial minorities in the labor market, niche concentration, the effects of globalization on labor migration, entrepreneurship, discrimination, and minorities in white-collar occupations. *Prerequisite:* SOCI 200gm and SOCI 313L and SOCI 314Lg Instruction Mode: Lecture Grading Option: Letter

SOCI 430m Work and the Workplace
Units: 4 Contrasting views of work in contemporary societies; technological change in the workplace; opportunity, inequality, conflict, and alienation in different occupations. Instruction Mode: Lecture Grading Option: Letter

SOCI 431 Cities
Units: 4 Terms Offered: FaSp Organization of urban society, including such topics as segregation, urban decay, local politics, residential change and community conflict. Duplicates Credit in former SOCI 331 Instruction Mode: Lecture Grading Option: Letter

SOCI 432m Racial and Ethnic Relations in a Global Society
Units: 4 Terms Offered: FaSp Examines race/ethnic relations with U.S. and selected countries from a global perspective, causes/social effects of globalization on people's lives, U.S. attitudes and political policies. *Prerequisite:* SOCI 200gm and SOCI 270g Instruction Mode: Lecture Grading Option: Letter Crosslisted as AMST 432

SOCI 435m Women in Society
Units: 4 Terms Offered: FaSp Women today in the labor force, in politics, and in the family. Past and contemporary attempts to expand the position of women in society. *Prerequisite:* SOCI 200gm and SOCI 313L and SOCI 314Lg Instruction Mode: Lecture Grading Option: Letter Crosslisted as SWMS 435

SOCI 445 Political and Social Theory
Units: 4 Max Units: 08 Terms Offered: FaSp Classical and contemporary theories of power, inequality, sociability, symbols and language in market, state, political and civic organizations. *Prerequisite:* SOCI 200gm and SOCI 270g Instruction Mode: Lecture Grading Option: Letter

SOCI 450 Non-Governmental Organizations/Non-profits Field Practicum
Units: 4 Terms Offered: FaSp Internship in a Non-Governmental Organization (NGO). Students will conduct sociological research on issues surrounding NGOs and the work they do. *Prerequisite:* (SOCI 250gmw or SOCI 408 or IR 371 or PPD 371) and (SOCI 313L or SOCI 314Lg) Registration Restriction: Open only to juniors and seniors Instruction Mode: Lecture Grading Option: Letter

SOCI 460 Key Issues in Contemporary International Migration
Units: 4 Terms Offered: FaSp Overview of contemporary patterns of international migration and its implications for receiving and sending countries, with a special emphasis on immigration to the United States. *Prerequisite:* SOCI 200gm and SOCI 313L and SOCI 314Lg Instruction Mode: Lecture Grading Option: Letter

SOCI 464 Sociology of Gender and Work
Units: 4 Terms Offered: FaSp Examination of gender inequality in the U.S. labor market; work-family conflict; employer remedies; comparative social policy. *Prerequisite:* SOCI 200gm and SOCI 270g Instruction Mode: Lecture Grading Option: Letter

SOCI 465 Visual Sociology of the City and Its Residents
Units: 4 Terms Offered: FaSpSm Students examine images of urban America and use the camera to produce visual representation in their analysis of social relations. *Prerequisite:* SOCI 200gm and SOCI 270g *Corequisite:* SOCI 313L Duplicates Credit in former SOCI 365 Instruction Mode: Lecture Grading Option: Letter

SOCI 468 Sociology of Religion
Units: 4 (Enroll in REL 468)

SOCI 470 Social Change in Low-Income Countries
Units: 4 Theories and case studies on social, economic, political, and cultural development and change in the Third World: Latin America, Asia, or Africa. *Prerequisite:* SOCI 200gm and SOCI 313L and SOCI 314Lg Instruction Mode: Lecture Grading Option: Letter

SOCI 472 Health, Disease, Language and Culture: Guatemala
Units: 3 Terms Offered: Sm Studies health, illness, disease, culture, language and social-economic burdens that affect Guatemala. Students will be immersed into day-to-day life, studying from practitioners in the field. Instruction Mode: Lecture Grading Option: Letter

SOCI 475 Medical Sociology
Units: 4 Social and cultural factors in causation of disease, health care utilization and health care delivery. Instruction Mode: Lecture Grading Option: Letter

SOCI 480 The Sociology of Risk and Disaster
Units: 4 Terms Offered: FaSp Is there such a thing as a "natural" disaster? Examination of both natural and technological disasters, and exploration of the centrality of risk in industrialized societies. *Prerequisite:* SOCI 200gm and SOCI 313L and SOCI 314Lg Instruction Mode: Lecture Grading Option: Letter

SOCI 490x Directed Research
Units: 1, 2, 3, 4, 5, 6, 7, 8 Max Units: 12.0 Terms Offered: FaSpSm Individual research and readings. Instruction Mode: Lecture Grading Option: Letter

SOCI 494 Sociology Honors Seminar I
Units: 4 Terms Offered: Fa Advanced seminar involving extensive reading, research and discussions. Selected subjects; offered in fall only and restricted to honors students. Acceptance into the Honors Program. *Prerequisite:* SOCI 200gm and SOCI 313L and SOCI 314Lg Instruction Mode: Lecture Grading Option: Letter

SOCI 495 Sociology Honors Seminar II
Units: 4 Terms Offered: Sp Seminar in workshop form to accompany completion of Senior Honors Thesis under faculty guidance. Acceptance into Honors Program. *Prerequisite:* SOCI 313, SOCI 494. Instruction Mode: Lecture Grading Option: Letter

SOCI 499 Special Topics
Units: 2, 3, 4 Max Units: 8.0 An interdisciplinary examination of selected emerging issues. Instruction Mode: Lecture Grading Option: Letter

SOCI 500 Sociology Professional Seminar
Units: 2 Terms Offered: FaSp Introduces students to the theoretical questions and methodological approaches that comprise the discipline of sociology. Experts in each subfield share their latest research with students. Registration Restriction: Open only to doctoral Sociology majors Instruction Mode: Lecture Grading Option: Letter

SOCI 510 Sociological Theory I
Units: 4 Terms Offered: Fa Developments in sociological theory from the discipline's 19th century origins to World War II. Instruction Mode: Lecture Grading Option: Letter

SOCI 511 Sociological Theory II
Units: 4 Developments in sociological theory from World War II to the present. Duplicates Credit in former SOCI 610. Instruction Mode: Lecture Grading Option: Letter

SOCI 520 Qualitative Research Methods
Units: 4 Terms Offered: Fa Seminar in epistemologies, ethics, and techniques of qualitative research. Critical reading and practice in social observation, interviewing, fieldwork, and research design. Preparation of IRB proposal. Instruction Mode: Lecture Grading Option: Letter

SOCI 521 Quantitative Methods and Statistics
Units: 4 Terms Offered: Fa Introduction to the logic and methods of quantitative analysis in sociology; covers the basic elements of designing and research, summarizing and exploring patterns in data, and making generalizations about populations based on characteristics of samples. Instruction Mode: Lecture, Lab Required Grading Option: Letter

SOCI 525 Sociology Proseminar: Approaches to Sociological Research
Units: 4 Terms Offered: FaSp Graduate students begin their customized literature reviews and develop a paper that will frame the research they pursue in the empirical paper requirement. Instruction Mode: Lecture Grading Option: Letter

SOCI 554 Women in Global Perspective
Units: 4 (Enroll in SWMS 554)

SOCI 560 Feminist Theory
Units: 4 (Enroll in SWMS 560)

SOCI 590 Directed Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Terms Offered: FaSpSm Research leading to the master's degree. Maximum units which may be applied to the degree to be determined by the department. Instruction Mode: Lecture Grading Option: Credit/No Credit

SOCI 593 Practicum in Teaching the Liberal Arts
Units: 2 Terms Offered: Fa Practical principles for the long-term development of effective teaching within college disciplines. Intended for teaching assistants in Dornsife College. Instruction Mode: Lecture Grading Option: Credit/No Credit

SOCI 594a Master's Thesis
Units: 2 Terms Offered: FaSpSm Credit on acceptance of thesis. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

SOCI 594b Master's Thesis
Units: 2 Terms Offered: FaSpSm Credit on acceptance of thesis. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

SOCI 594z Master's Thesis
Units: 0 Terms Offered: FaSpSm Credit on acceptance of thesis. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

SOCI 599 Special Topics
Units: 2, 3, 4 Max Units: 8.0 Terms Offered: FaSp Seminar in selected topics in sociology. Instruction Mode: Lecture Grading Option: Letter

SOCI 620 Advanced Methods – Qualitative Research
Units: 4 Terms Offered: FaSp Seminar and practicum in conducting and interpreting original qualitative research. *Prerequisite:* SOCI 520. Duplicates Credit in former SOCI 524. Instruction Mode: Lecture Grading Option: Letter

SOCI 621L Quantitative Methods and Statistics II
Units: 4 Terms Offered: Sp Casual modeling and the inter-relationships among social phenomena: covers the basic elements of casual inference and generalizability, linear regressions analysis, and categorical data analysis. *Prerequisite:* SOCI 521 Instruction Mode: Lecture, Lab Required Grading Option: Letter

SOCI 622L Advanced Methods – Quantitative Research
Units: 4 Terms Offered: FaSp Advanced research methodology in survey technique, evaluation research, instrument construction, and demographic analysis. Duplicates Credit in former SOCI 523 Instruction Mode: Lecture, Lab Required Grading Option: Letter

SOCI 625 Demographic Methods
Units: 4 Terms Offered: FaSp Procedures and techniques for the collection, evaluation and analysis of demographic data; census and vital registration systems; basic measures of demographic components and the construction of life tables and population projections. *Prerequisite:* SOCI 521 Duplicates Credit in former SOCI 540 Instruction Mode: Lecture Grading Option: Letter Crosslisted as SSCI 625

SOCI 628 Theories of Aging
Units: 4 (Enroll in GERO 628)

SOCI 640 Sociology of Gender and Sexuality
Units: 4 Terms Offered: FaSp Approaches to gender and sexuality within sociology and social theory, highlighting contemporary empirical research on sexualities. Registration Restriction: Open only to master and doctoral students. Duplicates Credit in former SOCI 530. Instruction Mode: Lecture Grading Option: Letter Crosslisted as SWMS-640

SOCI 642 Sex and Gender in Society
Units: 4 Terms Offered: FaSpSm The social organization of gender in the contexts of work, families, intimacy, sexuality, reproduction, violence. Variations by race, ethnicity, social class. Processes of social change. Duplicates Credit in former SOCI 552. Instruction Mode: Lecture Grading Option: Letter Crosslisted as SWMS-642

SOCI 643 Sociology of Labor
Units: 4 Terms Offered: FaSp Viewing labor and labor movements from a macro/meso/micro perspective. Examination in the formation of labor markets, global economy, organization of work, conditions of work, movements. Instruction Mode: Lecture Grading Option: Letter

SOCI 644 Population Trends: Public and Private Policies
Units: 4 Terms Offered: FaSp World and national population trends; causes and implications for economic, health, and social policies. Duplicates Credit in former SOCI 544. Instruction Mode: Lecture Grading Option: Letter

SOCI 645 Seminar in World Population Problems
Units: 4 Terms Offered: FaSp Demographic characteristics of the major regions of the world; social, economic, and political implications of population trends and methods of demographic analysis. *Prerequisite:* 335g. Duplicates Credit in former SOCI 545. Instruction Mode: Lecture Grading Option: Letter

SOCI 646 Economic Sociology
Units: 4 Terms Offered: FaSp Classical/ neoclassical economic models of human action, sociological alternatives, the history of the large corporation, sociological models of production/labor/financial markets... and the role of economic institutions in the larger society. Instruction Mode: Lecture Grading Option: Letter

SOCI 647 Political Sociology: Politics, Symbols and Everyday Life
Units: 4 Terms Offered: FaSp Political power, conflict and apathy; public symbols, debate and discourse; nationalism; relations between politics, provision of social services and economics in comparative and historical perspective. Duplicates Credit in former SOCI 537. Instruction Mode: Lecture Grading Option: Letter

SOCI 648 Fertility Control Policies
Units: 4 Terms Offered: FaSp Fertility control policies, and their consequences, including family planning and other pronatalist and antinatalist programs. Duplicates Credit in former SOCI 548 Instruction Mode: Lecture Grading Option: Letter

SOCI 649 Migration Policies
Units: 4 Terms Offered: FaSp Analysis of migration and population redistribution; policies affecting such migration and redistribution. Duplicates Credit in former SOCI 549. Instruction Mode: Lecture Grading Option: Letter

SOCI 651 Seminar in Social Stratification
Units: 4 Terms Offered: FaSp Critique of research literature and research methods in the area of social class and social stratification; major theories and theoretical implications of current research. Duplicates Credit in former SOCI 551. Instruction Mode: Lecture Grading Option: Letter

SOCI 653 Seminar in Science and Technology Studies
Units: 4 Max Units: 8.0 Terms Offered: FaSp Introduction to key concepts and theories in the interdisciplinary field of Science and Technology Studies. Duplicates Credit in former SOCI 532. Instruction Mode: Lecture Grading Option: Letter

SOCI 654 Social Movements
Units: 4 Terms Offered: FaSp Theories explaining collective action and the outcomes of those struggles. Instruction Mode: Lecture Grading Option: Letter

SOCI 655 Seminar in Race Relations
Units: 4 Terms Offered: FaSp Current racial problems in the United States and other countries; critiques of literature on race relations. Duplicates Credit in former SOCI 555. Instruction Mode: Lecture Grading Option: Letter

SOCI 656 Social Demography
Units: 4 Terms Offered: FaSp Theoretical perspectives of population, historical and contemporary accounts of population trends and statistics, and the latest research on the causes and consequences of demographic processes. *Recommended Preparation:* enrollment in a PhD program Instruction Mode: Lecture Grading Option: Letter Crosslisted as SSCI 656

SOCI 657 Sociology of Culture
Units: 4 Terms Offered: FaSpSm Cultural theories and forms of cultural analysis appropriate for sociological research; critical examination of theory and research on how culture relates to social structure, social inequality, politics, institutions, and everyday interaction. *Recommended Preparation:* SOCI 510 or prior undergraduate or graduate coursework in social science or communication studies. Duplicates Credit in former SOCI 535. Instruction Mode: Lecture Grading Option: Letter

SOCI 658 Sociology of Health and Medicine
Units: 4 Terms Offered: FaSp Analyze social causes of sickness, study medical power, the social constructions of health/ illness, examine medicine as a site of sociological action and struggle. Instruction Mode: Lecture Grading Option: Letter

SOCI 659 Critical Theories of Race and Culture
Units: 4 Terms Offered: FaSp (Enroll in COMM 657)

SOCI 667 Seminar in Social Deviance
Units: 4 Terms Offered: FaSp Deviance and social rules in groups and communities; contemporary social policies involving ethnic, cultural, and social factors. Duplicates Credit in former SOCI 566. Instruction Mode: Lecture Grading Option: Letter

SOCI 669 Seminar in Family Sociology
Units: 4 Terms Offered: FaSp Origins and consequences of historical change and variation between groups in family structures and processes, relationships, well-being and connections with other social institutions. Instruction Mode: Lecture Grading Option: Letter

SOCI 670 Seminar in Organizational Analysis
Units: 4 Terms Offered: FaSp Literature evaluation, theory building, and research in the area of large-scale organizations and other types of institutionalized groups. Duplicates Credit in former SOCI 550. Instruction Mode: Lecture Grading Option: Letter

SOCI 671 Urban Sociology
Units: 4 Terms Offered: FaSp Examination of theories and research on cities in the United States, examining issues such as politics, race, development, and inequality. Registration Restriction: Open only to graduate students. Duplicates Credit in former SOCI 571. Instruction Mode: Lecture Grading Option: Letter

SOCI 675 Seminar in Immigration
Units: 4 Terms Offered: FaSpSm Survey of key theoretical approaches and relevant issues in immigration studies. Themes include: transationalism, globalization, gendered migration, segmented assimilation, immigrant labor markets, social incorporation and citizenship. Duplicates Credit in former SOCI 575. Instruction Mode: Lecture Grading Option: Letter

SOCI 680 Writing for Publication in Sociology
Units: 4 Terms Offered: Sp Prepares graduate students to publish in peer reviewed journals. *Prerequisite:* SOCI 620 or SOCI 622L Instruction Mode: Lecture Grading Option: Credit/No Credit

SOCI 685 Seminar in Aging
Units: 4 Terms Offered: FaSp Research seminar to review identification of problems, issues of theory, and methodology and implications for research designs. Duplicates Credit in former SOCI 580. Instruction Mode: Lecture Grading Option: Letter

SOCI 790 Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Terms Offered: FaSp Research leading to the doctorate. Maximum units which may be applied to the degree to be determined by the department. Instruction Mode: Lecture Grading Option: Credit/No Credit

SOCI 794a Doctoral Dissertation
Units: 2 Terms Offered: FaSpSm Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

SOCI 794b Doctoral Dissertation
Units: 2 Terms Offered: FaSpSm Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

SOCI 794c Doctoral Dissertation
Units: 2 Terms Offered: FaSpSm Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

SOCI 794d Doctoral Dissertation
Units: 2 Terms Offered: FaSpSm Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

SOCI 794z Doctoral Dissertation
Units: 0 Terms Offered: FaSpSm Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

Social Work

SOWK 200xm Institutional Inequality in American Political and Social Policy
Units: 4 Historic and philosophical roots of inequality for minority groups in the United States and implications for public policy. Credit Restriction: Not available for major credit. Instruction Mode: Lecture Grading Option: Letter

SOWK 324 Juvenile Justice in America
Units: 4 Terms Offered: FaSp The historical and current context of America's juvenile justice system and its influence on children, youth and families. Instruction Mode: Lecture Grading Option: Letter

SOWK 350 Adolescent Gang Intervention
Units: 4 The incidence of gangs (particularly in the Los Angeles area), gang interventions, and policies developed to address the growing gang situation. Instruction Mode: Lecture Grading Option: Letter

SOWK 390 Special Problems
Units: 1, 2, 3, 4 Supervised, individual studies. No more than one registration permitted. Enrollment by petition only.

Instruction Mode: Lecture Grading Option: Letter

SOWK 417 Introduction to Substance Use Disorders and Recovery
Units: 4 Terms Offered: FaSp Casual exploration of substance related and behavioral addictive disorders. Evidence-based and practice informed treatment models for vulnerable individuals, groups and families. Instruction Mode: Lecture Grading Option: Letter

SOWK 424 Community Experience in Juvenile Justice Environments
Units: 4 Terms Offered: FaSp Provides in-class and on-site community experiences to increase knowledge and understanding of youth experience in a range of social environments focused on juvenile justice. Instruction Mode: Lecture Grading Option: Letter

SOWK 499 Special Topics
Units: 2, 3, 4 Max Units: 8.0 Selected topics in various specialty areas within social work. Instruction Mode: Lecture Grading Option: Letter

SOWK 506 Human Behavior and the Social Environment
Units: 3 The person-in-environment, bio-psycho-social perspective is the lens through which theories of personality, family, group, organization, community, culture and their interactions are explored. Duplicates Credit in the former SOWK 503 and SOWK 505 . Instruction Mode: Lecture Grading Option: Letter

SOWK 535 Social Welfare
Units: 3 Structure and operation of current American social welfare programs (social policy analysis). *Prerequisite:* the former SOWK 534 . Instruction Mode: Lecture Grading Option: Letter

SOWK 536 Policy and Advocacy in Professional Social Work
Units: 3 A study of the complex and interconnecting systems of policy, programs and communities that directly and indirectly impact Social Workers' clients' lives. Duplicates Credit in the former SOWK 534 . Instruction Mode: Lecture Grading Option: Letter

SOWK 544 Social Work Practice With Individuals, Families, and Groups
Units: 3 Principles underlying generic social work practice with emphasis on working with individuals, families, and groups. Duplicates Credit in SOWK 543 and SOWK 545 . Instruction Mode: Lecture Grading Option: Letter

SOWK 546 Science of Social Work
Units: 3 Introduction to the role of scientific inquiry in advancing social work goals. Inspires students to include science in their social work identity and professional decision-making. Duplicates Credit in SOWK 562 . Instruction Mode: Lecture Grading Option: Letter

SOWK 588 Integrative Learning for Social Work Practice
Units: 2 Integrative learning organized as a small group educational environment that incorporates field experiences, case vignettes, and dialogical inquiry through a Problem Based Learning framework. Duplicates Credit in former SOWK 587a and SOWK 587b. Instruction Mode: Lecture Grading Option: Credit/No Credit

SOWK 589a Applied Learning in Field Education
Units: 3 Supervised field education where students learn and apply evidence-based interventions and clinical skills in practice labs and social work settings. *Concurrent Enrollment:* SOWK 544. Duplicates Credit in SOWK 586a . Instruction Mode: Lecture Grading Option: In Progress/Credit/No Credit

SOWK 589b Applied Learning in Field Education
Units: 3 Supervised field education where students learn to apply coursework concepts while practicing in a field setting that aligns with students' academic department. *Prerequisite:* SOWK 589a . *Concurrent Enrollment:* SOWK 588. Duplicates Credit in SOWK 586b . Instruction Mode: Lecture Grading Option: In Progress/Credit/No Credit

SOWK 590 Directed Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Research leading to the master's degree. Maximum units which may be applied to the degree to be determined by the department. Instruction Mode: Lecture Grading Option: Credit/No Credit

SOWK 599 Special Topics
Units: 1, 2, 3, 4 Max Units: 13.0 Instruction Mode: Lecture Grading Option: Letter

SOWK 601 Advanced Theories and Interventions with Children and Adolescents
Units: 3 Advances students' knowledge and clinical skills working with children and adolescents. Emphasis on problems affecting children, including developmental derailments and disruptions. Registration Restriction: Open only to Master Students in the USC Suzanne Dworak-Peck School of Social Work Instruction Mode: Lecture Grading Option: Letter

SOWK 602 Advanced Theories and Clinical Interventions with Families
Units: 3 Advances students' knowledge and clinical skills working with diverse urban families experiencing various stressors. Exploration and application of a range of family therapy models. *Prerequisite:* (SOWK 505 or SOWK 506) and (SOWK 544 or SOWK 545) Registration Restriction: Open only to master's Social Work students Instruction Mode: Lecture Grading Option: Letter

SOWK 605 Human Development and Mental Health
Units: 3 Understanding problem-producing behaviors and their ramifications on individuals, families and groups that comprise the clientele in mental health settings. Required for students in Mental Health concentration. Registration Restriction: Open only to Master Students in the USC Suzanne Dworak-Peck School of Social Work Instruction Mode: Lecture Grading Option: Letter

SOWK 607 Feminist Theory, Social Action, and Social Work: Philippines
Units: 4 Terms Offered: Sm Understanding and awareness of the political, economic, social, and cultural contexts through a feminist perspective, using the Philippines as a case study. *Prerequisite:* SOWK 505 , SOWK 535. Instruction Mode: Lecture Grading Option: Letter

SOWK 608 Research and Critical Analysis for Social Work with Children and Families
Units: 3 Critical analysis and application of various data, information, and evidence to understand client problems and service needs, identify appropriate interventions, and evaluate practice decisions. *Prerequisite:* SOWK 506 and SOWK 536 and SOWK 544 and SOWK 546. Duplicates Credit in SOWK 603 . Instruction Mode: Lecture Grading Option: Letter

SOWK 609 Introduction to Social Work Practice with Children, Youth and Families
Units: 3 Understanding development of children and families from birth to adolescence and the developmental difficulties from an ecological perspective. Assessment/engagement of families and Interventions are introduced. *Prerequisite:* SOWK 506 and SOWK 536 and SOWK 544 and SOWK 546 Instruction Mode: Lecture Grading Option: Letter

SOWK 610 Social Work Practice with Children and Families Across Settings
Units: 3 Terms Offered: Other Theory and principles underlying social work in host settings and non-specialty sector settings with a primary emphasis on working with Children, Youth, and Families. *Prerequisite:* SOWK 506 and SOWK 536 and SOWK 544 and SOWK 546 Instruction Mode: Lecture Grading Option: Letter

SOWK 611 Leadership and Management in Social Work
Units: 3 Methods and principles of leadership and management applied to social work practice, understood as policy, management and clinical practice in the non-profit sector, health and human service organizations, and non-traditional social work settings. Registration Restriction: Open only to master students in Social Work Instruction Mode: Lecture Grading Option: Letter

SOWK 612 Assessment and Diagnosis of Mental Disorder
Units: 3 Assessment of mental disorders, and the rationale and organization of the system for diagnosis. Emphasis is on developing differential diagnostic skills. Instruction Mode: Lecture Grading Option: Letter

SOWK 613 Social Work Practice with Children and Families in Early and Middle Childhood
Units: 3 Provides understanding of the development of problems in early childhood, and skills for engagement, assessment, intervention, and evaluation of effectiveness for treatment of these problems. *Prerequisite:* SOWK 506 and SOWK 536 and SOWK 544 and SOWK 546 Instruction Mode: Lecture Grading Option: Letter

SOWK 614 Social Work Practice in School Settings
Units: 3 Based on ecosystems perspectives, this course examines policies, theories and principles of social work practice in school settings. Instruction Mode: Lecture Grading Option: Letter

SOWK 615 Brief Therapy and Crisis Intervention
Units: 3 Theory and multimodal approaches for brief therapy and crisis intervention with

diverse clientele in a range of mental health and health settings. Instruction Mode: Lecture Grading Option: Letter

SOWK 616 Clinical Practice with Older Adults
Units: 3 Developmental tasks of adulthood and later life, as well as assessment and intervention for problems and disorders associated with aging. Instruction Mode: Lecture Grading Option: Letter

SOWK 617 Substance Related and Behavioral Addictive Disorders and Recovery
Units: 3 Causal exploration of substance related and behavioral addictive disorders. Evidence-based and practice informed treatment models for vulnerable individuals, groups and families. Instruction Mode: Lecture Grading Option: Letter

SOWK 618 Systems of Recovery from Mental Illness in Adults
Units: 3 Terms Offered: FaSpSm Focus on the multi-level impact of mental illness on adults and families. Evidence-based interventions promoting increased quality of life and stability are emphasized. Instruction Mode: Lecture Grading Option: Letter

SOWK 619 Social Work in Public Child Welfare Settings
Units: 3 This advanced seminar will provide tools to enhance the practitioner's response to the special challenges (substance abuse, HIV/AIDS, domestic violence) in public child welfare. Instruction Mode: Lecture Grading Option: Letter

SOWK 620 Social Work Practice With Transitional Youth
Units: 3 Terms Offered: FaSpSm Students will be introduced to policies affecting transitional youth and use a biopsychosocial perspective to work with them on macro, meso, and micro levels. Duplicates Credit in former SOWK 525. Instruction Mode: Lecture Grading Option: Letter

SOWK 621 Social Work Practice with Adolescents, Young Adults and their Families
Units: 3 Intervention with adolescents, young adults and addressing their developmental problems, challenges and solutions. Engagement and evidence based intervention in working with youth will be covered. *Prerequisite:* SOWK 506 and SOWK 544 and SOWK 608 and SOWK 609 and SOWK 610 Registration Restriction: Open only to Masters students in Social Work Instruction Mode: Lecture Grading Option: Letter

SOWK 622 Threat Assessment and Management
Units: 3 Terms Offered: FaSpSm Provides an overview to students with an interest in violence prevention and crisis response. Instruction Mode: Lecture Grading Option: Letter

SOWK 623 Social Work in Early Care and Education Settings
Units: 3 Provides tools to enhance social work practice skills supporting young children and their families, and preparation for leadership in early care and education settings. Instruction Mode: Lecture Grading Option: Letter

SOWK 624 Social Work in Juvenile Justice Settings
Units: 3 Provides orientation to the context and operations of juvenile justice systems, and advanced skills for social work practitioners working with youth, families and communities. Instruction Mode: Lecture Grading Option: Letter

SOWK 625 Evaluation of Research: Mental Health
Units: 3 Range of research conducted in mental health; evaluation of selected research reports and their application to social work practice. Required for students in Mental Health concentration. Registration Restriction: Open only to Master Students in the USC Suzanne Dworak-Peck School of Social Work Instruction Mode: Lecture Grading Option: Letter

SOWK 626 Social Conflict, Empowerment and Creative Practice in Israel
Units: 4 Terms Offered: Sm The summer global immersion program in Israel focuses on understanding social problems and alleviating them through empowerment approaches and the utilization of expressive practices. Instruction Mode: Lecture Grading Option: Letter

SOWK 627 Policy and Macro Practice in Child, Youth and Family Services
Units: 3 Provides context and preparation for social work practitioners holding policy, management and macro practice roles in communities and organizations serving children, youth and families. *Prerequisite:* SOWK 506 and SOWK 536 and SOWK 544 and SOWK 546 Instruction Mode: Lecture Grading Option: Letter

SOWK 629 Research and Evaluation for Community, Organization and Business Environments
Units: 3 Research/evaluation skills and critical analysis of data information systems to inform decision making to improve effectiveness of social work practice in community, organizations and business. *Prerequisite:* SOWK 506 and SOWK 536 and SOWK 544 and SOWK 546. Instruction Mode: Lecture Grading Option: Letter

SOWK 630 Diversity, Social Justice, and Culturally Competent Social Work Practice
Units: 3 Introduction to diversity and social justice in the context of social work practice. Enhance cultural competence by raising awareness of one's own values/assumptions/biases. *Prerequisite:* SOWK 506 and SOWK 536 and SOWK 544 and SOWK 546 Registration Restriction: Open only to Master Students in the USC Suzanne Dworak-Peck School of Social Work Instruction Mode: Lecture Grading Option: Letter

SOWK 631 Advanced Theories and Clinical Interventions in Health Care
Units: 3 Evaluation of theory, best practices, emerging issues, and skill development in health settings; interaction among cultural, socioeconomic, and organizational factors. *Prerequisite:* (SOWK 505 or SOWK 506) and (SOWK 544 or SOWK 545) Registration Restriction: Open only to master students in the Suzanne Dworak-Peck School of Social Work Instruction Mode: Lecture Grading Option: Letter

SOWK 633 Life in the US Military: Foundations of Practice in Military Social Work
Units: 3 Examines the experience of military service, including challenges and theoretical and empirical foundations of military social work clinical practice. *Prerequisite:* SOWK 506 and SOWK 536 Registration Restriction: Open only to master students in the Suzanne Dworak-Peck School of Social Work Instruction Mode: Lecture Grading Option: Letter

SOWK 634 Violence Against Women: A Transnational Perspective
Units: 3 Terms Offered: FaSpSm Broad understanding of violence against women within a global context, moving beyond the examination of violence as a phenomenon in order to effect social change. *Prerequisite:* SOWK 506 and SOWK 536 Registration Restriction: Open only to Master Students in the USC Suzanne Dworak-Peck School of Social Work Duplicates Credit in former SOWK 522 Instruction Mode: Lecture Grading Option: Letter

SOWK 635 Research and Evaluation for Social Work with Adults and Older Adults
Units: 3 Critical analysis and application of health and mental health research evidence to inform, enhance and strengthen social work practice with adults and aging populations with a focus on evaluating published research, identifying and interpreting available sources of data, appraising practical measures/assessments and selecting appropriate evidence-based interventions. *Prerequisite:* SOWK 506 and SOWK 536 and SOWK 544 and SOWK 546 Registration Restriction: Open only to masters students in Social Work Instruction Mode: Lecture Grading Option: Letter

SOWK 637 Assessing Wellness to Improve Recovery in Integrated Care
Units: 3 Assessing and promoting wellness and recovery, interacting systems of mind, brain, and body. Evidence-based integrated care interventions in a new era of health care reform. *Prerequisite:* SOWK 506 and SOWK 536 and SOWK 544 and SOWK 546 Registration Restriction: Open only to master students in the Suzanne Dworak-Peck School of Social Work Instruction Mode: Lecture Grading Option: Letter

SOWK 638 Policy in Integrated Care
Units: 3 Analysis of policies and health care delivery with focus on implications for social workers and their clients in settings with adults, families, and older adults. *Prerequisite:* SOWK 506 and SOWK 536 and SOWK 544 and SOWK 546. Duplicates Credit in SOWK 636 . Instruction Mode: Lecture Grading Option: Letter

SOWK 639 Policy Advocacy and Social Change
Units: 3 Analysis of efforts to improve local human services organizations and agencies with consideration of political, social, demographic and organization contexts. *Prerequisite:* SOWK 506 and SOWK 536 and SOWK 544 and SOWK 546 Instruction Mode: Lecture Grading Option: Letter

SOWK 640 Clinical Practice with the Military Family
Units: 3 Theoretical and practical

approaches to clinical practice with military families. Overview of common social issues in the military system and demands on the family dynamic. *Prerequisite:* (SOWK 505 or SOWK 506) and (SOWK 535 or SOWK 536) Registration Restriction: Open only to master students in the Suzanne Dworak-Peck School of Social Work Instruction Mode: Lecture Grading Option: Letter

SOWK 641 Clinical Practice with Service Members and Veterans
Units: 3 Needs of service members/ veterans within the context of their families/ communities. Approaches to treatments with goal of advancing knowledge of best practices and current evidence-based models. *Prerequisite:* (SOWK 505 or SOWK 506) and (SOWK 535 or SOWK 536) Registration Restriction: Open only to master students in the Suzanne Dworak-Peck School of Social Work Instruction Mode: Lecture Grading Option: Letter

SOWK 643 Social Work Practice in Integrated Care Settings
Units: 3 Social work processes and skills required for the implementation of short-term interventions in medical, behavioral health and integrated care settings with individuals, families and groups. *Prerequisite:* SOWK 544 and SOWK 637 Registration Restriction: Open only to master students in the Suzanne Dworak-Peck School of Social Work Instruction Mode: Lecture Grading Option: Letter

SOWK 644 Explanatory Theories of Health and Mental Health
Units: 3 Behavioral health theory course that integrates theories of health and mental health and builds on the content from the Human Behavior and Social Environment course. *Prerequisite:* SOWK 506 and SOWK 536 and SOWK 544 and SOWK 546 Instruction Mode: Lecture Grading Option: Letter

SOWK 645 Clinical Interventions: Evidence Based Practice in Health and Mental Health Settings
Units: 3 Social work processes from intake to termination; emphasis on clinical skills required for social work practice in a broad spectrum of health and mental health settings. *Prerequisite:* SOWK 506 and SOWK 536 and SOWK 544 and SOWK 546 Instruction Mode: Lecture Grading Option: Letter

SOWK 647 Advanced Practice with Complex Social Work Cases
Units: 3 Introduction to advanced practice concepts essential to understanding engagement, assessment and diagnosis with complex social work cases from a meta-framework perspective. *Prerequisite:* SOWK 506 and SOWK 536 and SOWK 544 and SOWK 635 and SOWK 637 and SOWK 638 and SOWK 643 and SOWK 644 Registration Restriction: Open only to master students in Social Work Instruction Mode: Lecture Grading Option: Letter

SOWK 648 Management and Organizational Development for Social Workers
Units: 3 Methods and principles of management focusing on health and human service organizations, including strategic management, financial analysis, and innovative project development in social work. *Prerequisite:* SOWK 506 and SOWK 536 and SOWK 544 and SOWK 546 Instruction Mode: Lecture Grading Option: Letter

SOWK 650 Military and Veteran Policy and Program Management
Units: 3 Understanding the development and implementation of military and veteran policy and programs including family advocacy, prevention of sexual assault, suicide, alcohol/substance use and homelessness. *Prerequisite:* SOWK 534 or SOWK 536 Registration Restriction: Open only to Masters students in the Suzanne Dworak-Peck School of Social Work Instruction Mode: Lecture Grading Option: Letter

SOWK 651 Clinical Psychopharmacology for Social Workers
Units: 3 Terms Offered: FaSpSm Understanding major psychoactive drugs used in treatment of psychological and behavioral disorders in behavioral and primary care medical settings. Theoretical/ practical approaches to treatment are examined. *Prerequisite:* SOWK 506 Registration Restriction: Open only to Master Students in the USC Suzanne Dworak-Peck School of Social Work Instruction Mode: Lecture Grading Option: Letter

SOWK 652 Social Work Practice in Workplace Settings
Units: 3 Social Work services designed to improve and/or maintain the productivity and healthy functioning of individuals in the workplace. *Prerequisite:* SOWK 506 and SOWK 536 and SOWK 544 and SOWK 546 Registration Restriction: Open only to Masters Students in Social Work Duplicates Credit in SOWK 671 Instruction Mode: Lecture Grading Option: Letter

SOWK 653 Social Work with Older Adults
Units: 3 Terms Offered: FaSpSm Integrates foundation and advanced knowledge and skill for practice with and in behalf of older adults. Instruction Mode: Lecture Grading Option: Letter

SOWK 654 National Immersion in Washington, DC: Child Development and Social Policy
Units: 3 Terms Offered: Sp A short study in Los Angeles and Washington, DC, addressing the development and change of Federal social policy concerning child development, especially as it pertains to local programs and services for children and their families. Priority enrollment given to currently enrolled MSW students. Instruction Mode: Lecture Grading Option: Letter

SOWK 655 Global Immersion in Military Culture: U.S. Forces Abroad
Units: 4 Terms Offered: Sm This course will enhance students' understanding of the delivery of human services on overseas military installations. Instruction Mode: Lecture Grading Option: Letter

SOWK 656 National Military Immersion in Washington, DC: Military and Veterans Policy and Practice
Units: 3 Terms Offered: Sp A short study at the campus, online, and in Washington, DC addressing policies and programs for military members, veterans, and their families. Priority enrollment given to currently enrolled MSW students. *Prerequisite:* SOWK 536 and SOWK 544 Instruction Mode: Lecture Grading Option: Letter

SOWK 657 Social Work Practice with Native American Children, Families and Communities: National Immersion
Units: 3 Terms Offered: Sp Understanding and applying social work practice with Native American children, families and communities through a community immersion experience on Indian Reservation. *Prerequisite:* SOWK 506 and SOWK 536 and SOWK 544 and SOWK 546 Registration Restriction: Open only to Master Students in the USC Suzanne Dworak-Peck School of Social Work Instruction Mode: Lecture Grading Option: Letter

SOWK 658 Organizational Practice and Development in Business Environments
Units: 3 Prepares students for organizational practice and program development in business environments, emphasizing organizational change initiatives, employee program development and corporate social responsibility initiatives. *Prerequisite:* SOWK 506 and SOWK 536 and SOWK 544 and SOWK 546. Duplicates Credit in SOWK 673 . Instruction Mode: Lecture Grading Option: Letter

SOWK 659 Pathways to Immigration: Global Immersion to Mexico
Units: 3 Terms Offered: Sp Understanding of immigration issues in Southern California via an immersion experience to expose students to the realities that immigrants from Mexico and Central America face. *Prerequisite:* SOWK 506 and SOWK 536 and SOWK 544 and SOWK 546 Registration Restriction: Open only to Master Students in the USC Suzanne Dworak-Peck School of Social Work Instruction Mode: Lecture Grading Option: Letter

SOWK 660 Health Care Delivery Systems: Planning for Health and Social Services
Units: 3 Evaluating health care delivery systems in the U.S. and internationally including community social capital, health disparities, access to care, and policy implications for diverse populations. Instruction Mode: Lecture Grading Option: Letter

SOWK 663 Clinical Practice with Couples
Units: 3 Examination of major models and diverse intervention strategies to ameliorate common presenting problems of couples. *Prerequisite:* SOWK 503 , SOWK 505 , SOWK 534 , SOWK 535. Instruction Mode: Lecture Grading Option: Letter

SOWK 664 Consultation, Coaching and Social Entrepreneurship
Units: 3 Expanding roles that social workers play within both non-profit and for profit corporations. *Prerequisite:* (SOWK 503 or SOWK 506) and (SOWK 505 or SOWK 506) and (SOWK 534 or SOWK 536) and (SOWK 535 and SOWK 536) Registration Restriction: Open only to master students in the Suzanne Dworak-Peck School of Social Work Instruction Mode: Lecture Grading Option: Letter

SOWK 665 Grant Writing and Program Development for Social Workers
Units: 3 Grant writing and program development that are generalized to any settings and relevant to direct and macro social work practice expertise. *Prerequisite:* (SOWK 503 or SOWK 506) and (SOWK 505 or SOWK 506) and (SOWK 534 or SOWK 536) and (SOWK 535 or SOWK 536) Registration Restriction: Open only to master students in Social Work Instruction Mode: Lecture Grading Option: Letter

SOWK 666 Domestic and Intimate Partner Abuse
Units: 3 Recognition of domestic and intimate partner abuse and examination of effective intervention measures and preventive methods. *Prerequisite:* (SOWK 505 or SOWK 506) and (SOWK 534 or SOWK 536) and (SOWK 535 or SOWK 536) Registration Restriction: Open only to master students in the Suzanne Dworak-Peck School of Social Work Instruction Mode: Lecture Grading Option: Letter

SOWK 668 Social Work and Law
Units: 3 Examination of roles, opportunities, and concerns for the practice of social work in the structures and procedures of the law. *Prerequisite:* (SOWK 503 or SOWK 506) and (SOWK 505 or SOWK 506) and (SOWK 534 or SOWK 536) and (SOWK 535 or SOWK 536) Registration Restriction: Open only to master's students in the Suzanne Dworak-Peck School of Social Work Instruction Mode: Lecture Grading Option: Letter

SOWK 669 Managing Change and Organization Development
Units: 3 Conceptual framework and practical skills needed to design, implement and evaluate effective change and organization development programs. *Prerequisite:* SOWK 503 , SOWK 505 , SOWK 534 , SOWK 535. Instruction Mode: Lecture Grading Option: Letter

SOWK 670 Global Dimensions in Social Policy and Social Work Practice
Units: 3 Exploration and critique of how political, economic, cultural, religious and environmental factors impact social welfare policies, social work practice, and social development globally. *Prerequisite:* (SOWK 505 or SOWK 506) and (SOWK 535 or SOWK 536) Registration Restriction: Open to Masters Students in the Suzanne Dworak-Peck School of Social Work. Instruction Mode: Lecture Grading Option: Letter

SOWK 672 Social Work and Business Settings
Units: 3 Terms Offered: FaSpSm Examining the roles social workers play in business, how their skills integrate and support business practice, and how the profession can impact internal/external business environments. *Prerequisite:* SOWK 506 and SOWK 536 and SOWK 544 and SOWK 546. Instruction Mode: Lecture Grading Option: Letter

SOWK 674 Human Sexuality in Clinical Social Work Practice
Units: 3 Explores physiological, psychological, and sociocultural variables associated with sexual identity, sexual orientation, and sexual behavior to increase student understanding and appreciation for human sexual behavior. *Prerequisite:* SOWK 505 , SOWK 535. Instruction Mode: Lecture Grading Option: Letter

SOWK 675 Play Therapy in Social Work with Children and Adolescents
Units: 3 Advances student theoretical knowledge and clinical practice skills in working with children, adolescents, and their families and explores the process of child psychotherapy. *Prerequisite:* (SOWK 503 and SOWK 543 and SOWK 545) or (SOWK 506 and SOWK 544) Registration Restriction: Open only to Master Students in the USC Suzanne Dworak-Peck School of Social Work. Instruction Mode: Lecture Grading Option: Letter

SOWK 676 Psychopharmacology for Therapists and Counselors
Units: 1 Terms Offered: FaSpSm Overview of various classes of basic psychotherapeutic medications. Useful to social workers, counselors, therapists, and other individuals who counsel and treat mentally ill patients. Instruction Mode: Lecture Grading Option: Letter

SOWK 677 Mental Health Practice with Children and Adolescents
Units: 3 The assessment and treatment of children with serious emotional disturbance, including the service delivery models and policies that influence service delivery. *Prerequisite:* (SOWK 505 or SOWK 506) and (SOWK 535 or SOWK 536) Registration Restriction: Open to master's students in the Suzanne Dworak-Peck School of Social Work Instruction Mode: Lecture Grading Option: Letter

SOWK 678 Child Abuse and Neglect: Intervention and Treatment
Units: 3 Terms Offered: FaSpSm Advanced practice course focusing on interventions with and treatment of complex family systems where the effects of child maltreatment are the presenting problems. *Prerequisite:* SOWK 506 and SOWK 536 Registration Restriction: Open only to Master Students in the USC Suzanne Dworak-Peck School of Social Work Instruction Mode: Lecture Grading Option: Letter

SOWK 679 Organizational Group Behaviors and Interventions
Units: 3 Emphasizing group and organizational dynamics, this course provides an understanding of human behavior in work-related environments, and prepares students for mezzo practice in these settings. *Prerequisite:* SOWK 506 and SOWK 536 and SOWK 544 and SOWK 546 . Instruction Mode: Lecture Grading Option: Letter

SOWK 680 Social Work Spanish for Culturally Competent Services
Units: 3 Integration of cross-cultural practice skills with Spanish language development through the class instruction and practice development. *Prerequisite:* SOWK 503 , SOWK 505 , SOWK 534 , SOWK 535. Instruction Mode: Lecture Grading Option: Letter

SOWK 681 Managing Diversity in a Global Context
Units: 3 Interdisciplinary approach to innovative practices that make the workplace more inclusive and productive. *Prerequisite:* (SOWK 503 or SOWK 506) and (SOWK 505 or SOWK 506) and (SOWK 534 or SOWK 536) and (SOWK 535 or SOWK 536) Registration Restriction: Open to master's students in the Suzanne Dworak-Peck School of Social Work Instruction Mode: Lecture Grading Option: Letter

SOWK 682 Spirituality, Religion, and Faith in Clinical Practice
Units: 3 Examination of diverse spiritual and religious traditions. Spiritually-sensitive treatment approaches applied to psychological and spiritual clinical problems of individuals, couples, and families. *Prerequisite:* (SOWK 505 or SOWK 506) and (SOWK 535 or SOWK 536) Registration Restriction: Open to master's students in the Suzanne Dworak-Peck School of Social Work Instruction Mode: Lecture Grading Option: Letter

SOWK 683 Hypnosis Social Work Practice
Units: 3 Examination of major theoretical and practice applications of hypnosis in social work practice and development of a beginning level of competency. *Prerequisite:* SOWK 503 , SOWK 505 , SOWK 534 , SOWK 535. Instruction Mode: Lecture Grading Option: Letter

SOWK 684 Community Practice for Social Innovation
Units: 3 Working effectively within marginalized, underserved populations and diverse community settings on their wicked, consistent, and complex issues by providing innovative and sustainable solutions. *Prerequisite:* (SOWK 503 or SOWK 506) and (SOWK 505 or SOWK 506) and (SOWK 534 or SOWK 536) and (SOWK 535 or SOWK 536) Registration Restriction: Open to master's students in the Suzanne Dworak-Peck School of Social Work Instruction Mode: Lecture Grading Option: Letter

SOWK 685 Working with Adolescents: Practice, Systems and Advocacy
Units: 3 Enhance knowledge and skill in working with adolescents involved in the child welfare, juvenile justice and other systems. *Prerequisite:* (SOWK 505 or SOWK 506) and (SOWK 535 or SOWK 536) Registration Restriction: Open to Masters Students in the Suzanne Dworak-Peck School of Social Work Instruction Mode: Lecture Grading Option: Letter

SOWK 687 Media in Social Work
Units: 3 Creation of short documentaries for social change. Techniques in media production, strategies for media outreach, and development of media literacy skills to deconstruct media messages. *Prerequisite:* (SOWK 505 or SOWK 506) and (SOWK 535 or SOWK 536) Registration Restriction: Open only to MSW students Instruction Mode: Lecture Grading Option: Letter

SOWK 688 School Violence
Units: 3 Examines theoretical, empirical and practice-based literature on school violence including how students' physical well-being, academic functioning, social relations, and emotional and cognitive development are affected. *Prerequisite:* (SOWK 505 or SOWK 506) and (SOWK 535 or SOWK 536) Registration Restriction: Open only to Master students in the Suzanne Dworak-Peck School of Social Work Instruction Mode: Lecture Grading Option: Letter

SOWK 690a Research
Units: 1, 2, 3, 4 Intensive individual study of specific problems. Instruction Mode: Lecture Grading Option: Credit/No Credit

SOWK 690b Research
Units: 1, 2, 3, 4 Intensive individual study of specific problems. Instruction Mode: Lecture Grading Option: Credit/No Credit

SOWK 692 Loss, Grief and Bereavement
Units: 3 Focus on the experiences of loss, death and bereavement as it is viewed by individuals, families and loved ones. *Prerequisite:* (SOWK 505 or SOWK 506) and (SOWK 535 or SOWK 536) Registration Restriction: Open only to Master students in the Suzanne Dworak-Peck School of Social Work Instruction Mode: Lecture Grading Option: Letter

SOWK 694 Group Psychotherapy in Mental Health Settings
Units: 3 Focus on group therapy for clinical social workers as practiced in various mental health settings. The entire process of group development is examined. *Prerequisite:* (SOWK 505 or SOWK 506) and (SOWK 535 or SOWK 536) Registration Restriction: Open only to Master students in the Suzanne Dworak-PecK School of Social Work Instruction Mode: Lecture Grading Option: Letter

SOWK 696 LGBT Psycho/Social/Political Issues
Units: 3 Terms Offered: FaSpSm Overview of clinical, social and political issues with which social workers should be familiar when working with lesbian, gay, bisexual and transgender clients. *Prerequisite:* SOWK 506 and SOWK 536 Registration Restriction: Open only to Master Students in the USC Suzanne Dworak-Peck School of Social Work Instruction Mode: Lecture Grading Option: Letter

SOWK 698a Integrative Learning for Advanced Social Work Practice
Units: 1 Advanced integrative learning that incorporates field experiences, evidenced-based interventions, case vignettes and dialogical inquiry through a Problem Based Learning framework. *Prerequisite:* SOWK 588 and SOWK 589b *Concurrent Enrollment:* SOWK 699a Registration Restriction: Open only to Master students in Suzanne Dworak-Peck School of Social Work Instruction Mode: Lecture Grading Option: In Progress/Credit/No Credit

SOWK 698b Integrative Learning for Advanced Social Work Practice
Units: 1 Advanced integrative learning builds on 698a by incorporating field experiences, case/best practices consultations, and dialogical inquiry on micro, mezzo, and macro practice levels. *Concurrent Enrollment:* SOWK 699b Instruction Mode: Lecture Grading Option: In Progress/Credit/No Credit

SOWK 699a Advanced Applied Learning in Field Education
Units: 4 Advanced supervised field education where students practice social work skills and apply evidence-based interventions, including some that are specific to their academic department. *Prerequisite:* SOWK 588 and SOWK 589a and SOWK 589b. *Concurrent Enrollment:* SOWK 698a. Duplicates Credit in SOWK 686a . Instruction Mode: Lecture Grading Option: Credit/No Credit

SOWK 699b Advanced Applied Learning in Field Education
Units: 4 Advanced supervised field education where students practice social work skills and apply evidence-based interventions, including some that are specific to their academic department. *Prerequisite:* SOWK 699a. *Concurrent Enrollment:* SOWK 698b. Duplicates Credit in SOWK 686b . Instruction Mode: Lecture Grading Option: In Progress/Credit/No Credit

SOWK 702 Theories of Human Behavior in the Contexts of Social Environments
Units: 3 A focus on human behavior in interaction with the social environment; major paradigms including general systems theory, ego psychology, and role theories are examined. Instruction Mode: Lecture Grading Option: Letter

SOWK 703 Explanatory Theories for Larger Social Systems
Units: 3 Theories of organizational and community behavior are examined in relation to their influence on the development of social services. Instruction Mode: Lecture Grading Option: Letter

SOWK 704 Strategic Innovations for the Grand Challenges
Units: 3 Grand Challenge initiatives and interventions from diverse perspectives are explored. Multidisciplinary strategies of innovation are analyzed to effect broad-based opportunities and barriers to change. Registration Restriction: Open only to doctoral students in Social Work Instruction Mode: Lecture Grading Option: Letter

SOWK 705 Leading Public Discourse
Units: 3 Leading public discourse for the purposes of increasing civic engagement and public participation, building broad based public support and enabling competencies. *Prerequisite:* SOWK 704 and SOWK 706 Registration Restriction: Open only to doctoral students in Social Work Instruction Mode: Lecture Grading Option: Letter

SOWK 706 Leading and Managing Large Complex Systems
Units: 3 Examining large scale national, state and local intervention programs as well as modeling potential organizational redesign to improve service delivery strategies. Registration Restriction: Open only to doctoral students in Social Work Instruction Mode: Lecture Grading Option: Letter

SOWK 707 Financial Management for Social Change
Units: 3 Senior financial management and planning in human service organizations, emphasizing fiscal approaches that focus on strategy, including how to maximize revenue, control costs, allocate resources, improve decision-making and support successful social programs and disruptive social change. *Prerequisite:* SOWK 704 and SOWK 706 Registration Restriction: Open only to doctoral students in Social Work Instruction Mode: Lecture Grading Option: Letter

SOWK 710 Preparatory Scholarship for Capstone
Units: 3 Design and develop an innovative, feasible, logical, and defensible Grand Challenge Capstone Project; consider contextual issues, and enhance innovation and communication skills *Prerequisite:* SOWK 704 and SOWK 711 and SOWK 723 Registration Restriction: Open only to doctoral students in Social Work Instruction Mode: Lecture Grading Option: Letter

SOWK 711 Design Laboratory for Social Innovation I
Units: 3 Integrates design thinking with a norms-driven approach for social innovation. Students will diagnose social norms and apply design-thinking techniques to develop design criteria. *Corequisite:* SOWK 704 Registration Restriction: Open only to doctoral students in USC School of Social Work Instruction Mode: Lecture Grading Option: Letter

SOWK 712 Residency I
Units: 3 Terms Offered: Sm Five-day campus based residency in the third semester of the DSW program designed to bring students together for a series of presentations and workshops by 'thought leaders' of the Grand Challenges of Social Work. *Prerequisite:* SOWK 704 and SOWK 711 and SOWK 723 *Corequisite:* SOWK 705 and SOWK 710 Registration Restriction: Open only to doctoral students in Social Work Instruction Mode: Lecture Grading Option: Letter

SOWK 713 The Application of Implementation Science
Units: 3 Introduction to doctoral level research and evaluation, introducing concepts of effectively using literature, formulating a problem for research and effectively identifying a research or evaluative approach. *Prerequisite:* SOWK 704 and SOWK 706 Registration Restriction: Open only to doctoral students in Social Work Instruction Mode: Lecture Grading Option: Letter

SOWK 714 Executive Leadership: Leaders as Maestros
Units: 3 The Leader/Maestro Concept enlarges the student from a virtuoso perspective - individual performance - to include an organizational performance in leading, creating and measuring change. *Prerequisite:* SOWK 704 and SOWK 706 Registration Restriction: Open only to doctoral students in Social Work Instruction Mode: Lecture Grading Option: Letter

SOWK 720 Communication and Influence for Social Good
Units: 3 Explores how communication and new information technology influence decision-makers and the general public to address the Grand Challenges in the interest of the public good. *Prerequisite:* SOWK 704 and SOWK 705 and SOWK 706 Registration Restriction: Open only to doctoral students in Social Work Instruction Mode: Lecture Grading Option: Letter

SOWK 721 Data Driven Decision Making in Social Services
Units: 3 Practical introduction to using quantitative administrative data to identify trends, track performance, evaluate programs and drive decision making. *Prerequisite:* SOWK 704 and SOWK 706 Registration Restriction: Open only to doctoral students in Social Work Instruction Mode: Lecture Grading Option: Letter

SOWK 722 Implementing Your Capstone and Re-envisioning Your Career
Units: 3 Culminates in the completion of a fully implementable Grand Challenge capstone project and a plan that re-envisions career pathways conducive to launching the project. *Prerequisite:* SOWK 705 and SOWK 710 and SOWK 711 and SOWK 723 *Corequisite:* SOWK 724 Registration Restriction: Open only to doctoral students in Social Work Instruction Mode: Lecture Grading Option: Letter

SOWK 723 Design Laboratory for Social Innovation II
Units: 3 Continues the exploration of design thinking and norms-driven innovation. Students will design and test innovative solutions through the creation of prototypes and design labs. *Prerequisite:* SOWK 704 and SOWK 706 and SOWK 711 Registration Restriction: Open only to doctoral students in Social Work Instruction Mode: Lecture Grading Option: Letter

SOWK 724 Residency II
Units: 3 Terms Offered: Sm Campus-based residency in the final semester of the DSW program bringing students together to present their Capstone Projects to different professional audiences. *Prerequisite:* SOWK 704 and SOWK 705 and SOWK 706 and SOWK 707 and SOWK 710 and SOWK 711 and SOWK 712 and SOWK 713 and SOWK 714 and SOWK 721 and SOWK 723 *Corequisite:* SOWK 720 and SOWK 722 Registration Restriction: Open only to doctoral students in Social Work Instruction Mode: Lecture Grading Option: Letter

SOWK 725a Preparatory Scholarship for Capstone
Units: 2 Terms Offered: FaSpSm Design and develop an innovative, feasible, and defensible Capstone Project focusing on a selected Grand Challenge for Social Work. Credit granted on acceptance of capstone project. *Prerequisite:* SOWK 704 and SOWK 705 and SOWK 706 and SOWK 707 and SOWK 711 and SOWK 713 and SOWK 714 and SOWK 720 and SOWK 721 and SOWK 723 Registration Restriction: Open only to doctoral students in Social Work Instruction Mode: Lecture Grading Option: In Progress to Credit/No Credit

SOWK 725b Preparatory Scholarship for Capstone
Units: 2 Terms Offered: FaSpSm Refine a fully implementable, innovatively designed Grand Challenge Capstone Project. Future-focused on garnering support, piloting and launching students' capstone prototype. Credit granted on acceptance of capstone project. *Prerequisite:* SOWK 725a Registration Restriction: Open only to doctoral students in Social Work Instruction Mode: Lecture Grading Option: In Progress to Credit/No Credit

SOWK 725c Preparatory Scholarship for Capstone
Units: 2 Terms Offered: FaSpSm Complete a fully implementable, innovatively designed Grand Challenge Capstone Project. Future-focused on garnering support, piloting and launching students' capstone project. Credit granted on acceptance of capstone project. *Prerequisite:* SOWK 725b Registration Restriction: Open only to doctoral students in Social Work Instruction Mode: Lecture Grading Option: In Progress to Credit/No Credit

SOWK 733 Policy Analysis and Advocacy in a Comparative Social Policy Context
Units: 3 Examination of the evolution of American and other welfare states in selected nations. Analysis of global welfare institutions. Engaging in policy analysis in a comparative context. Instruction Mode: Lecture Grading Option: Letter

SOWK 743 Theories for Practice with Small Systems
Units: 3 Early practice theories and their historical roots are examined. Implications for evolving current practice theories with individuals, families, and groups are discussed. Instruction Mode: Lecture Grading Option: Letter

SOWK 744 Theories for Practice with Large Systems
Units: 3 Examination of the development and utility of theories, models and approaches to social work community and administrative practice. Instruction Mode: Lecture Grading Option: Letter

SOWK 760L Introduction to Social Work Statistics
Units: 3 Foundation course covering univariate and bivariate descriptive and inferential statistics. Required lab covering basic computer skills and utilization of statistical software. Instruction Mode: Lecture, Lab Required Grading Option: Letter

SOWK 761L Multiple Regression for Social Work Research
Units: 3 Multivariate statistical methods including descriptive and inferential statistics, parametric and non-parametric tests of hypotheses; correlation, analysis of variance, multiple regression, and factor analysis; utilization of computer programs for statistical analysis. Instruction Mode: Lecture, Lab Required Grading Option: Letter

SOWK 762 Social Work Research Methods I
Units: 3 Models of research, the nature of inquiry, and the research process including problem formulation, measurement, designs, sampling and data sources. *Prerequisite:* doctoral standing. Instruction Mode: Lecture Grading Option: Letter

SOWK 763 Social Work Research Methods II: Issues in Research for Social Work Practice
Units: 3 Research methods to provide students with advanced methodological knowledge in two areas related to social work practice: psychotherapy outcome research and program research. *Prerequisite:* SOWK 762. Instruction Mode: Lecture Grading Option: Letter

SOWK 764 Advanced Multivariate Statistics
Units: 3 Introduction to single equation statistical modeling using limited dependent variables (categorical and ordered categorical). Methods are drawn from statistics and econometrics. Instruction Mode: Lecture Grading Option: Letter

SOWK 765 Writing Successful Dissertation Research Grants
Units: 3 Terms Offered: FaSp Prepares doctoral students to write and submit applications to obtain extramural funding to support their dissertation research. Students will learn about opportunities and eligibility requirements for federal and foundation supported dissertation research grants, how grants are reviewed and scored once submitted, and how to write successful proposals. Recommended preparation: Completion of a qualitative or mixed methods course is preferred. *Prerequisite:* SOWK 702 and SOWK 703 and SOWK 761 and SOWK 762 and SOWK 763 and SOWK 764 *Recommended Preparation:* Completion of a qualitative or mixed methods course is preferred Instruction Mode: Lecture Grading Option: Letter

SOWK 770 Introduction to Qualitative and Mixed Research Methods
Units: 3 Overview of the use of qualitative and mixed methods in social, clinical and health services research. Instruction Mode: Lecture Grading Option: Letter

SOWK 781 Guided Teaching Experience
Units: 2 Mentorship with a member of the teaching faculty; discussions of curriculum design; observation; preparation and delivery of selected course sessions. Instruction Mode: Lecture Grading Option: Credit/No Credit

SOWK 785 Guided Research Internship
Units: 2 Research practicum designed to provide students with handson practical experience with an ongoing faculty research project. *Prerequisite:* SOWK 763. Instruction Mode: Lecture Grading Option: Credit/No Credit

SOWK 790 Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Research leading to the doctorate. Maximum units which may be applied to the degree to be determined by the department. Instruction Mode: Lecture Grading Option: Credit/No Credit

SOWK 794a Doctoral Dissertation
Units: 2 Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

SOWK 794b Doctoral Dissertation
Units: 2 Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

SOWK 794c Doctoral Dissertation
Units: 2 Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

SOWK 794d Doctoral Dissertation
Units: 2 Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

SOWK 794z Doctoral Dissertation
Units: 0 Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

Spanish

SPAN 020x Spanish for Reading Knowledge
Units: 0 Preparation for the ETS standardized examination, with readings related to the student's major area. Offered

upon sufficient demand. Instruction Mode: Lecture Grading Option: Credit/No Credit

SPAN 120 Spanish I
Units: 4 For students with limited proficiency in Spanish. Practice in listening comprehension, oral communication, elementary reading and writing. *Prerequisite:* Spanish placement exam. Instruction Mode: Lecture Grading Option: Letter

SPAN 150 Spanish II
Units: 4 Continuation of SPAN 120; increased emphasis on listening comprehension, oral communication, reading, and writing. *Prerequisite:* SPAN 120. Instruction Mode: Lecture Grading Option: Letter

SPAN 220 Spanish III
Units: 4 Continuation of SPAN 150; intensive work in listening comprehension, oral communication, reading and writing, with emphasis on free expression; readings related to Hispanic culture and civilization. *Prerequisite:* SPAN 150. Instruction Mode: Lecture Grading Option: Letter

SPAN 231x Business Spanish: Job Search
Units: 2 Terms Offered: FaSp Four-skills language and culture course. Students create culturally appropriate professional dossiers, execute job searches in Spain/Latin America; engage in face-to-face and phone interviews in Spanish. *Prerequisite:* SPAN 220 Registration Restriction: Not open to Spanish majors Duplicates Credit in SPAN 250x Instruction Mode: Lecture Grading Option: Letter

SPAN 232x Business Spanish: Business Culture
Units: 2 Terms Offered: FaSp Four-skills language and culture course. Students engage in research about the culture of business practices in Spain/Latin America; write/present company profiles, including NGOs, in Spanish. *Prerequisite:* SPAN 220 Registration Restriction: Not open to Spanish majors Duplicates Credit in SPAN 250x Instruction Mode: Lecture Grading Option: Letter

SPAN 233x Business Spanish: Case Studies
Units: 2 Terms Offered: FaSp Four-skills language and culture course. Students read/analyze Spanish-language case studies and present their own case studies orally and in writing in Spanish. *Prerequisite:* SPAN 220 Registration Restriction: Not open to Spanish majors Duplicates Credit in SPAN 250x Instruction Mode: Lecture Grading Option: Letter

SPAN 240 Spanish IV
Units: 4 Terms Offered: FaSp Intensive review of Spanish grammar with emphasis on four skills. Audiovisual materials and readings related to Hispanic culture and civilization. *Prerequisite:* SPAN 220. Instruction Mode: Lecture Grading Option: Letter

SPAN 245 Spanish Through Social Issues in Costa Rica
Units: 4 Terms Offered: Sm (Costa Rica Summer Program only). Intensive review of Spanish grammar with emphasis on four skills. Audiovisual materials, guest speakers, and readings related to the history and culture of Costa Rica. *Concurrent Enrollment:* SPAN 220 Instruction Mode: Lecture Grading Option: Letter

SPAN 250x Spanish for Business Communication
Units: 4 Four-skills language and culture course for intermediate-high Spanish students interested in Business/Communications. Prepares students to communicate in the Spanish-speaking commercial market in a linguistically sensitive manner. *Prerequisite:* SPAN 240. Instruction Mode: Lecture Grading Option: Letter

SPAN 260 Advanced Spanish: Arts and Sciences
Units: 4 Terms Offered: FaSpSm Development of students' oral and writing skills using literary and scientific materials; grammar review. *Prerequisite:* SPAN 220. Duplicates Credit in the former SPAN 266. Instruction Mode: Lecture Grading Option: Letter

SPAN 261 Advanced Spanish: Society and the Media
Units: 4 Terms Offered: FaSpSm Analysis of cultural issues in the Spanish-speaking world. Discussions, presentations, writing assignments, and grammar instruction designed to improve students' proficiency in Spanish. *Prerequisite:* SPAN 220. Duplicates Credit in the former SPAN 265. Instruction Mode: Lecture Grading Option: Letter

SPAN 270 Spanish for Heritage Speakers
Units: 4 Terms Offered: FaSp Culture-based course designed for Spanish speakers not formally trained in the language. Review language and grammar and hone presentational skills. *Prerequisite:* SPAN 220 *Recommended Preparation:* Heritage profile Duplicates Credit in SPAN 260 Instruction Mode: Lecture Grading Option: Letter

SPAN 280x Conversational Spanish
Units: 2 Max Units: 4.0 Terms Offered: FaSp Discussions of short films, cultural and literary texts and other activities designed to improve conversational skills. *Prerequisite:* SPAN 220. Instruction Mode: Lecture Grading Option: Letter

SPAN 290gp Introduction to Latin American and Iberian Studies
Units: 4 Introduction to the cultural history of Spain, Portugal and Latin America with a focus on literature and visual works from the early-modern period to the twenty-first century. Satisfies New General Education in Category B: Humanistic Inquiry Satisfies Global Perspective in Category H: Traditions and Historical Foundations Instruction Mode: Lecture, Discussion Grading Option: Letter

SPAN 301 Introduction to Literature and Film
Units: 4 Terms Offered: FaSpSm Introduction to critical reading and interpretation of poetry, narrative fiction, drama, and film from Spain and Latin America. *Prerequisite:* SPAN 260 and SPAN 261 Instruction Mode: Lecture Grading Option: Letter

SPAN 302 Screen Cultures: From Film to the Internet
Units: 4 Terms Offered: FaSp A survey of Spanish and Latin American cinema from the silent film era to the present, acquainting students with various critical and theoretical approaches to cinema studies. Conducted in Spanish. *Prerequisite:* SPAN 260 or SPAN 261 *Recommended Preparation:* SPAN 301 Instruction Mode: Lecture Grading Option: Letter

SPAN 304 The Art of Fiction
Units: 4 Terms Offered: FaSp A survey of Spanish and Latin American fiction from the Middle Ages to the present, acquainting students with various critical and theoretical approaches to narrative. Conducted in Spanish. *Prerequisite:* SPAN 260 or SPAN 261 Instruction Mode: Lecture Grading Option: Letter

SPAN 306 Performance from Street to Stage
Units: 4 Terms Offered: FaSp A survey of Spanish and Latin American plays from the Middle Ages to the present, acquainting students with various critical and theoretical approaches to drama. Conducted in Spanish. *Prerequisite:* SPAN 260 or SPAN 261 Duplicates Credit in former SPAN 305 Instruction Mode: Lecture Grading Option: Letter

SPAN 308 The Art of Poetry
Units: 4 Terms Offered: FaSp A survey of Spanish and Latin American poetry from the Middle Ages to the present, acquainting students with various critical and theoretical approaches to verse. Conducted in Spanish. *Prerequisite:* SPAN 260 or SPAN 261 Instruction Mode: Lecture Grading Option: Letter

SPAN 310 Structure of Spanish
Units: 4 Terms Offered: FaSp A systematic study of the structure of Spanish. Topics include fundamental aspects of the sound system; word classes; sentences and their meaning; linguistic change and variation; standard and colloquial usage. *Prerequisite:* SPAN 260 and SPAN 261. Instruction Mode: Lecture Grading Option: Letter

SPAN 311 Advanced Spanish Through Contemporary Issues: Oral Emphasis
Units: 4 Terms Offered: Sm (Summer sessions abroad.) Advanced Spanish with emphasis on grammar and oral communication. *Recommended Preparation:* SPAN 260 and SPAN 261. Instruction Mode: Lecture Grading Option: Letter

Units: 3 Max Units: 9.0 Terms Offered: FaSp Detailed analysis of topics in modern Spanish syntax and semantics. Instruction Mode: Lecture Grading Option: Letter

SPAN 676 Seminar in Diachronic Aspects of the Hispanic Languages
Units: 3 Max Units: 9.0 Terms Offered: FaSp In-depth analysis of a particular topic in the historical development of the Hispanic languages. Instruction Mode: Lecture Grading Option: Letter

SPAN 677 Seminar in Spanish Applied Linguistics
Units: 3 Terms Offered: FaSp Critical study and analysis of major issues related to the teaching and learning of Spanish as a first or a second language. Instruction Mode: Lecture Grading Option: Letter

SPAN 678 Seminar in Hispanic Sociolinguistics
Units: 3 Max Units: 9.0 Terms Offered: FaSp Selected topics in Hispanic sociolinguistics: social and geographic language varieties, language contact, discourse analysis, synchronic variation and processes of change in Spanish. Instruction Mode: Lecture Grading Option: Letter

SPAN 700 Colloquium in Hispanic Literature and Linguistics
Units: 1 Max Units: 3.0 Discussion and presentation of papers on a variety of topics in the areas of Hispanic language and literature. *Prerequisite:* any 600 level Spanish seminar. Instruction Mode: Lecture Grading Option: Credit/No Credit

SPAN 790 Directed Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Research leading to the doctorate. Maximum units which may be applied to the degree to be determined by the department. Instruction Mode: Lecture Grading Option: Credit/No Credit

SPAN 794a Doctoral Dissertation
Units: 2 Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

SPAN 794b Doctoral Dissertation
Units: 2 Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

SPAN 794c Doctoral Dissertation
Units: 2 Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

SPAN 794d Doctoral Dissertation
Units: 2 Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

SPAN 794z Doctoral Dissertation
Units: 0 Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

Spatial Sciences Institute

SSCI 135g Maps in the Digital World
Units: 4 Terms Offered: FaSp The role of formal reasoning, abstract representation and empirical analysis in building maps for sharing knowledge across the physical, life and social sciences and humanities. Satisfies New General Education in Category F: Quantitative Reasoning Instruction Mode: Lecture Grading Option: Letter

SSCI 165Lgw Sustainability Science in the City
Units: 4 Terms Offered: FaSp The influence of sustainability science on public policy and vice versa in the context of social/ethical theories, analytical methods and solutions. Satisfies New General Education in Category C: Social Analysis Satisfies Global Perspective in Category G: Citizenship in a Diverse World Satisfies Old General Education in Category VI: Social Issues Instruction Mode: Lecture, Lab Required Grading Option: Letter

SSCI 201 Principles of GeoDesign
Units: 4 Terms Offered: FaSp Foundations of geodesign combining place-making, design, collective action, and the science of location-based information to improve human interaction with the functioning of the Earth. Instruction Mode: Lecture Grading Option: Letter

SSCI 214g Human Populations and Natural Hazards
Units: 4 Terms Offered: FaSp Introduction to the complex relationship between human development and natural hazards, which are increasingly causing damage and displacement to human populations throughout the world. Satisfies New General Education in Category C: Social Analysis Instruction Mode: Lecture, Discussion Grading Option: Letter

SSCI 220L Spatial Data Collection Using Drones
Units: 4 Terms Offered: FaSp Develop the requisite knowledge and practical skills to source, analyze, and produce GIS and simulation-based projects with unmanned aerial systems-derived data. Instruction Mode: Lecture, Lab Required Grading Option: Letter

SSCI 265Lg The Water Planet
Units: 4 Terms Offered: FaSpSm An exploration of earth's water, ranging from water properties, chemistry, and pollution, to groundwater dynamics, watershed processes, and oceanic-atmospheric circulation. Implications for past and future societies. Satisfies New General Education in Category E: Physical Sciences Satisfies Old General Education in Category IV: Science and Its Significance Instruction Mode: Lecture, Lab Required Grading Option: Letter

SSCI 301L Maps and Spatial Reasoning
Units: 4 Terms Offered: Fa Role of maps and spatial reasoning in the production and use of geographic information for representing and analyzing human and environmental activities and events. Instruction Mode: Lecture, Lab Required Grading Option: Letter

SSCI 311 Global Geodesign Studio - Europe
Units: 4 Terms Offered: Sm Critical and spatial thinking while engaged in classroom and field settings to propose geodesign strategies that address a societal challenge in an Amsterdam neighborhood. *Prerequisite:* SSCI 201 and SSCI 301L and SSCI 382L Instruction Mode: Lecture Grading Option: Letter

SSCI 312 Global Geodesign Studio - Asia
Units: 4 Terms Offered: Sm Examination of geodesign applications in locations throughout Asia and utilization of these experiences to interrogate applications of geodesign and how they might be applied in the United States. *Prerequisite:* ARCH 203 and ARCH 303 Instruction Mode: Lecture Grading Option: Letter

SSCI 313 Global Geodesign and Stakeholder Engagement
Units: 2 Terms Offered: FaSp Concepts, practices and contexts of public engagement and their importance to the geodesign process. *Recommended Preparation:* SSCI 201 Instruction Mode: Lecture Grading Option: Letter

SSCI 314 Comparative Sustainability Theory and Practice for Geodesign
Units: 2 Terms Offered: FaSp Use of sustainability theory and practice to compare various geodesign practices; application to specific locations around the world to promote a sustainable global environment. *Recommended Preparation:* SSCI 201 Instruction Mode: Lecture Grading Option: Letter

SSCI 340 Community Health Scan
Units: 4 Terms Offered: FaSpSm The social context of health and its determinants; the uses of data analysis; community capacity building, and the impact of policy on community health improvement. Duplicates Credit in former MDA 350 Instruction Mode: Lecture Grading Option: Letter

SSCI 350 International GeoDesign
Units: 4 Max Units: 12.0 Terms Offered: FaSpSm Intensive living-learning research and field experience in Los Angeles and abroad; application of GeoDesign strategies to local societal challenges. Instruction Mode: Lecture Grading Option: Letter

SSCI 381 Statistics for the Spatial Sciences
Units: 4 Terms Offered: FaSp Conceptual foundations and techniques of statistics and how they can be used with geographic data to produce actionable information across spatial science domains. Instruction Mode: Lecture Grading Option: Letter

SSCI 382L Geographic Information Science: Spatial Analytics
Units: 4 Terms Offered: Sp The various ways in which geography can be used to acquire, represent, organize, analyze, model and visualize information. Laboratories are organized around ArcGIS software suite. *Prerequisite:* SSCI 301L Instruction Mode: Lecture, Lab Required Grading Option: Letter

SSCI 383L Geographic Information Science: Geospatial Modeling and Customization
Units: 4 Terms Offered: Sp Fundamentals of spatial modeling and remote sensing and how to use GIS customization and programming to streamline complex spatial analysis and modeling workflows. *Prerequisite:* SSCI 301L and SSCI 382L Instruction Mode: Lecture, Lab Required Grading Option: Letter

SSCI 397 Spatial Sciences Internship
Units: 2, 3, 4 Max Units: 12 Terms Offered: FaSpSm Intensive experience in local public agency, private firm, or nonprofit agency engaged in applied geospatial analysis, modeling and mapping work. Instruction Mode: Lecture Grading Option: Credit/No Credit

SSCI 401L Geospatial Intelligence
Units: 4 Terms Offered: Fa Introduction to basic geospatial intelligence knowledge and related practical applications that assist in informing decision-making in a variety of human security settings. *Recommended Preparation:* IR 381 and SSCI 301L Instruction Mode: Lecture, Lab Required Grading Option: Letter

SSCI 402 Geospatial Technology Management for Sustainability Science
Units: 4 Terms Offered: FaSp Principles and techniques for leveraging geospatial technologies and information in support of sustainability, with emphasis on coupling human and natural systems for global sustainable development. *Prerequisite:* (SSCI 165Lgw or SSCI 265Lg) and SSCI 301L Instruction Mode: Lecture Grading Option: Letter

SSCI 412L GeoDesign Practicum
Units: 4 Terms Offered: FaSp Application of design concepts, planning protocols and spatial analysis skills to a complex planning or design problem sponsored by a local public, private or not-for-profit client in a studio setting. *Prerequisite:* ARCH 403, PPD 425, SOCI 314, SSCI 483 . Instruction Mode: Lecture, Lab Required Grading Option: Letter Crosslisted as ARCH-412, PPD-412

SSCI 420 Human Security and Geospatial Intelligence Practicum
Units: 4 Terms Offered: FaSp Create conceptual solutions for a real-world human security and geospatial intelligence issue by developing a problem set and recommended solution to the same. *Prerequisite:* SSCI 401L *Recommended Preparation:* SSCI 301L Instruction Mode: Lecture Grading Option: Letter

SSCI 490x Directed Research
Units: 1, 2, 3, 4, 5, 6, 7, 8 Max Units: 12.0 Terms Offered: FaSpSm Individual research and readings. Registration Restriction: Open only to juniors and seniors. Instruction Mode: Lecture Grading Option: Letter

SSCI 499 Special Topics
Units: 2, 3, 4 Max Units: 8.0 Intensive study of selected topics or regions. Instruction Mode: Lecture Grading Option: Letter

SSCI 572 GIS and Landscape Architecture
Units: 2 Terms Offered: Fa The use of GIS, spatial analysis, modeling, and 2- and 3-D mapping to support landscape architecture projects that span multiple spatiotemporal scales. Instruction Mode: Lecture Grading Option: Letter

SSCI 574 Spatial Econometrics
Units: 4 Terms Offered: FaSpSm Introduction to the theoretical foundations, methods, and software systems for spatial econometrics using a variety of use cases. *Recommended Preparation:* SSCI 583 Instruction Mode: Lecture Grading Option: Letter

SSCI 575 Spatial Data Science
Units: 4 Terms Offered: FaSp Introduce the spatial data scientific approach to issues and present a holistic generalizable analysis pipeline. *Prerequisite:* SSCI 581 Instruction Mode: Lecture Grading Option: Letter

SSCI 576 Remote Sensing Applications and Emerging Technologies
Units: 4 Terms Offered: FaSpSm Explore ways remote sensing systems provide geospatial information that is relevant, accurate, timely, accessible, appropriately formatted and cost-effective. *Recommended Preparation:* SSCI 581 Instruction Mode: Lecture Grading Option: Letter

SSCI 577 Human Security and Disaster Management
Units: 4 Terms Offered: FaSpSm The relationship between human security (population growth, urbanization, conflict) and disasters, both man-made and natural, where complex emergencies are impactful to human populations. Instruction Mode: Lecture Grading Option: Letter

SSCI 578 The Practice of Geospatial Leadership
Units: 4 Terms Offered: Sm The geospatial value proposition and the qualities and skills leaders will need to help their geospatial information management groups and organizations achieve success. *Recommended Preparation:* SSCI 581. Instruction Mode: Lecture Grading Option: Letter

SSCI 579 Geospatial Intelligence Tradecraft
Units: 4 Terms Offered: FaSpSm Typical geospatial intelligence tasks and their use in military operations, national and homeland security, international relief work and disaster management. *Recommended Preparation:* SSCI 581. Instruction Mode: Lecture Grading Option: Letter

SSCI 581 Concepts for Spatial Thinking
Units: 4 Terms Offered: Sp The unique characteristics and importance of spatial information as they relate to the evolving science, technology, and applications of Geographic Information Systems. Duplicates Credit in the former GEOG 581. Instruction Mode: Lecture Grading Option: Letter

SSCI 582 Spatial Databases
Units: 4 Terms Offered: FaSpSm Design, implementation, and interrogation of relational, object-oriented and other types of geospatial databases. *Recommended Preparation:* SSCI 581. Duplicates Credit in the former GEOG 582. Instruction Mode: Lecture Grading Option: Letter

SSCI 583 Spatial Analysis and Modeling
Units: 4 Terms Offered: Sm Provides the knowledge and skills necessary to investigate the spatial patterns which result from social and physical processes operating at or near the Earth's surface. *Recommended Preparation:* SSCI 581 Duplicates Credit in former GEOG 583 Instruction Mode: Lecture Grading Option: Letter

SSCI 585 Geospatial Technology Project Management
Units: 4 Terms Offered: FaSm Concepts, principles, and use of project management tools and the people issues encountered running GIS projects. *Recommended Preparation:* SSCI 581. Duplicates Credit in the former GEOG 585. Instruction Mode: Lecture Grading Option: Letter

SSCI 586 GIS Programming and Customization
Units: 4 Terms Offered: FaSp Design, coding, and implementation of GIS-based software and models using the Python programming language. *Recommended Preparation:* SSCI 582. Duplicates Credit in former GEOG 586. Instruction Mode: Lecture Grading Option: Letter

SSCI 587 Spatial Data Acquisition
Units: 4 Terms Offered: FaSpSm Role of global positioning systems, maps, geocoding, and other kinds of sensors as geospatial data sources. Includes field data acquisition excursion on Catalina Island. *Recommended Preparation:* SSCI 581. Duplicates Credit in former GEOG 587. Instruction Mode: Lecture Grading Option: Letter

SSCI 588 Remote Sensing for GIS
Units: 4 Terms Offered: SpSm Principles of remote sensing, satellite systems, and role of remote sensing data in GIS applications. *Recommended Preparation:* SSCI 581. Duplicates Credit in the former GEOG 588. Instruction Mode: Lecture Grading Option: Letter

SSCI 589 Cartography and Visualization
Units: 4 Terms Offered: Sp Principles of visual perception, spatial cognition and cartographic design and their contributions to the maps, animations, virtual reality and multimedia displays produced with modern GIS. *Recommended Preparation:* SSCI 581. Duplicates Credit in the former GEOG 589. Instruction Mode: Lecture Grading Option: Letter

SSCI 590 Directed Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Terms Offered: FaSpSm Research leading to the master's degree in cognate fields. Maximum units which may be applied to the degree to be determined by the department. Instruction Mode: Lecture Grading Option: Credit/No Credit

SSCI 591 Web and Mobile GIS
Units: 4 Terms Offered: Sm Design and implementation of locally served and cloud-based geospatial web applications. Construction of web maps, mashups and Volunteered Geographic Information interfaces. *Recommended Preparation:* SSCI 581 Duplicates Credit in former GEOG 591 Instruction Mode: Lecture Grading Option: Letter

SSCI 594a Master's Thesis
Units: 2 Terms Offered: FaSpSm Credit on acceptance of thesis. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

SSCI 594b Master's Thesis
Units: 2 Terms Offered: FaSpSm Credit on acceptance of thesis. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

SSCI 594z Master's Thesis
Units: 0 Terms Offered: FaSpSm Credit on acceptance of thesis. Instruction Mode: Lecture Grading Option: In-progress & Credit/No Credit

SSCI 595 Applied Geospatial Intelligence Problem Solving
Units: 2 Terms Offered: FaSpSm Provides hands-on problem solving opportunity that requires knowledge and GEOINT skills to provide an informed recommendation involving a variety of human security settings. *Prerequisite:* SSCI 577 and SSCI 588 and SSCI 579 and SSCI 581 *Corequisite:* SSCI 585 Instruction Mode: Lecture Grading Option: Letter

SSCI 596 Internship in Spatial Sciences
Units: 1, 2, 3, 4 Max Units: 08 Terms Offered: FaSpSm Part-time or full-time practical work experience in the student's field of study at an off-campus facility under faculty direction. Instruction Mode: Lecture Grading Option: Credit/No Credit

SSCI 599 Special Topics
Units: 2, 3, 4 Max Units: 8.0 Seminar in selected topics in the spatial sciences. Instruction Mode: Lecture Grading Option: Letter

SSCI 600 The Geography of Life and Death
Units: 4 Terms Offered: Fa Meaning and significance of place and role of social, natural, and built environments in disease occurrence in different places and populations. Registration Restriction: Open only to doctoral students. Instruction Mode: Lecture Grading Option: Letter

SSCI 601a Population, Health and Place Research Practicum
Units: 2 Max Units: 4 Terms Offered: Sm The use of population science, public health, and spatial science theory and practice to advance our understanding of one or more aspects of human well-being. *Prerequisite:* SSCI 600 Registration Restriction: Open only to doctoral students Instruction Mode: Lecture Grading Option: Letter

SSCI 601b Population, Health and Place Research Practicum
Units: 2 Max Units: 4 Terms Offered: Sm The use of population science, public health, and spatial science theory and practice to advance our understanding of one or more aspects of human well-being. *Prerequisite:* SSCI 601a Registration Restriction: Open only to doctoral students Instruction Mode: Lecture Grading Option: Letter

SSCI 625 Demographic Methods
Units: 4 Terms Offered: FaSp (Enroll in SOCI 625)

SSCI 656 Social Demography
Units: 4 Terms Offered: FaSp (Enroll in SOCI 656)

SSCI 680 Advanced Spatial Computing
Units: 4 Terms Offered: FaSpSm The role of spatial computing in understanding the world, in knowing and communicating our relationships to specific places, and for navigating through those places. Instruction Mode: Lecture Grading Option: Letter

SSCI 681 Advanced Quantitative Methods for Population, Health and Place
Units: 4 Terms Offered: FaSp Fundamentals of temporal and spatiotemporal data analysis; modern methods for evaluating, managing, and visualizing spatiotemporal data; hands-on use cases. Registration Restriction: Open only to doctoral students Instruction Mode: Lecture Grading Option: Letter

SSCI 683 Principles of Spatial Data Analysis
Units: 4 Terms Offered: Sp The theoretical foundations and techniques of spatial analysis and the ways in which they have been used to identify spatial processes and patterns. *Recommended Preparation:* Enrollment in a USC PhD Program. Instruction Mode: Lecture Grading Option: Letter

SSCI 684 Spatial Modeling with GIS
Units: 4 Terms Offered: Sp An introduction to spatial models identifying the key issues influencing the success of these models in simulating key social and environmental processes and health exposures. Instruction Mode: Lecture Grading Option: Letter

SSCI 693 Practicum in Teaching the Liberal Arts
Units: 2 Terms Offered: Fa Principles of pedagogy for teaching the liberal arts, focusing on issues and technologies for spatial thinking. Required for first-semester teaching assistants in spatial sciences. Registration Restriction: Open only to doctoral students Instruction Mode: Lecture Grading Option: Credit/No Credit

SSCI 790 Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Max Units: 12 Terms Offered: FaSpSm Research leading to the doctoral degree. Maximum units which may be applied to the degree to be determined by the department. Registration Restriction: Open only to doctoral students Instruction Mode: Lecture Grading Option: Credit/No Credit

SSCI 794a Doctoral Dissertation
Units: 2 Terms Offered: FaSpSm Credit on acceptance of Dissertation. Registration Restriction: Open only to doctoral students in Population, Health, and Place major. Instruction Mode: Lecture Grading Option: In Progress/Credit/No Credit

SSCI 794b Doctoral Dissertation
Units: 2 Terms Offered: FaSpSm Credit on acceptance of Dissertation. Registration Restriction: Open only to doctoral students in Population, Health, and Place major. Instruction Mode: Lecture Grading Option: In Progress/Credit/No Credit

SSCI 794c Doctoral Dissertation
Units: 2 Terms Offered: FaSpSm Credit on acceptance of Dissertation. Registration Restriction: Open only to doctoral students in Population, Health, and Place major. Instruction Mode: Lecture Grading Option: In Progress/Credit/No Credit

SSCI 794d Doctoral Dissertation
Units: 2 Terms Offered: FaSpSm Credit on acceptance of Dissertation. Registration Restriction: Open only to doctoral students in Population, Health, and Place major. Instruction Mode: Lecture Grading Option: In Progress/Credit/No Credit

SSCI 794z Doctoral Dissertation
Units: 0 Terms Offered: FaSpSm Credit on acceptance of Dissertation. Registration Restriction: Open only to doctoral students in Population, Health, and Place major. Instruction Mode: Lecture Grading Option: In Progress/Credit/No Credit

Sophomore Seminars

SSEM 200 Sophomore Seminar
Units: 1, 2 Terms Offered: FaSp and Special Sessions Special seminar courses for sophomores; limited to 18 students; topics will vary; Instruction Mode: Lecture Grading Option: Credit/No Credit

Oral Surgery

SURG 501 Oral Surgery
Units: 2 Introduction to surgical dentistry, armamentarium and procedures; exodontics; infection; post operative care; repair of bone and soft tissue; acute injury; cysts, sinuses, nerve injury, biopsy. Instruction Mode: Lecture Grading Option: Letter

SURG 562a Clinic: Oral Surgery I
Units: 0 Supervised clinical experience in health history, surgical evaluation, extraction of teeth, and minor oral surgery procedures. Includes special case seminars. Instruction Mode: Lecture Grading Option: In-progress to Letter Grade

SURG 562b Clinic: Oral Surgery I
Units: 0 Supervised clinical experience in health history, surgical evaluation, extraction of teeth, and minor oral surgery procedures. Includes special case seminars. Instruction Mode: Lecture Grading Option: In-progress to Letter Grade

SURG 562c Clinic: Oral Surgery I
Units: 1 Supervised clinical experience in health history, surgical evaluation,

extraction of teeth, and minor oral surgery procedures. Includes special case seminars. Instruction Mode: Lecture Grading Option: Letter

SURG 563a Clinic: Oral Surgery II
Units: 0 Supervised clinical experience in health history, surgical evaluation, extraction of teeth, and minor oral surgery procedures. Includes special case seminars. Instruction Mode: Lecture Grading Option: In-progress to Letter Grade

SURG 563b Clinic: Oral Surgery II
Units: 0 Supervised clinical experience in health history, surgical evaluation, extraction of teeth, and minor oral surgery procedures. Includes special case seminars. Instruction Mode: Lecture Grading Option: In-progress to Letter Grade

SURG 563c Clinic: Oral Surgery II
Units: 1 Supervised clinical experience in health history, surgical evaluation, extraction of teeth, and minor oral surgery procedures. Includes special case seminars. Instruction Mode: Lecture Grading Option: Letter

SURG 564a Clinic: Hospital Oral Surgery
Units: 0 Observation of inpatient and outpatient oral and maxillofacial surgery, participation in clinic care of patients with dento-alveolar pathology, introduction to management of medically compromised patient. Instruction Mode: Lecture Grading Option: In-progress to Letter Grade

SURG 564b Clinic: Hospital Oral Surgery
Units: 0 Observation of inpatient and outpatient oral and maxillofacial surgery, participation in clinic care of patients with dento-alveolar pathology, introduction to management of medically compromised patient. Instruction Mode: Lecture Grading Option: In-progress to Letter Grade

SURG 564c Clinic: Hospital Oral Surgery
Units: 0 Observation of inpatient and outpatient oral and maxillofacial surgery, participation in clinic care of patients with dento-alveolar pathology, introduction to management of medically compromised patient. Instruction Mode: Lecture Grading Option: In-progress to Letter Grade

SURG 564d Clinic: Hospital Oral Surgery
Units: 1 Observation of inpatient and outpatient oral and maxillofacial surgery, participation in clinic care of patients with dento-alveolar pathology, introduction to management of medically compromised patient. Instruction Mode: Lecture Grading Option: Letter

SURG 611a Oral and Maxillofacial Surgery
Units: 0 More advanced instruction in oral and maxillofacial surgery and related diseases as appropriate to the practice of general dentistry; extensive clinical experience. Instruction Mode: Lecture Grading Option: In-progress to Letter Grade

SURG 611b Oral and Maxillofacial Surgery
Units: 0 More advanced instruction in oral and maxillofacial surgery and related diseases as appropriate to the practice of general dentistry; extensive clinical experience. Instruction Mode: Lecture Grading Option: In-progress to Letter Grade

SURG 611c Oral and Maxillofacial Surgery
Units: 4 More advanced instruction in oral and maxillofacial surgery and related diseases as appropriate to the practice of general dentistry; extensive clinical experience. Instruction Mode: Lecture Grading Option: Letter

SURG 701a Seminar: Advanced Oral Surgery
Units: 2 Problems in advanced oral surgery and hospital oral surgery including student presentations and critique of clinical cases. Instruction Mode: Lecture Grading Option: Letter

SURG 701b Seminar: Advanced Oral Surgery
Units: 2 Problems in advanced oral surgery and hospital oral surgery including student presentations and critique of clinical cases. Instruction Mode: Lecture Grading Option: Letter

SURG 702a Seminar: Review of the Oral Surgery Literature
Units: 2 Critical analysis of recent oral surgery and other related literature. Instruction Mode: Lecture Grading Option: Letter

SURG 702b Seminar: Review of the Oral Surgery Literature
Units: 2 Critical analysis of recent oral surgery and other related literature. Instruction Mode: Lecture Grading Option: Letter

SURG 708a Orthognathic Surgery
Units: 2 Terms Offered: Fa Surgical planning and treatment of patients with skeletal deformities. Instruction Mode: Lecture Grading Option: Letter

SURG 708b Orthognathic Surgery
Units: 2 Terms Offered: Sp Surgical planning and treatment of patients with skeletal deformities. Instruction Mode: Lecture Grading Option: Letter

SURG 721 Surgical Anatomy
Units: 2 Intensive review of anatomy relevant to the practice of oral surgery. Includes dissections and animal surgery. Instruction Mode: Lecture Grading Option: Letter

SURG 761a Clinic: Advanced Oral Surgery
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10 each Clinical evaluation and surgical treatment of dento-alveolar disease in out-patient clinic. Instruction Mode: Lecture Grading Option: Letter

SURG 761b Clinic: Advanced Oral Surgery
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10 each Clinical evaluation and surgical treatment of dento-alveolar disease in out-patient clinic. Instruction Mode: Lecture Grading Option: Letter

SURG 761c Clinic: Advanced Oral Surgery
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10 each Clinical evaluation and surgical treatment of dento-alveolar disease in out-patient clinic. Instruction Mode: Lecture Grading Option: Letter

SURG 761d Clinic: Advanced Oral Surgery
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10 each Clinical evaluation and surgical treatment of dento-alveolar disease in out-patient clinic. Instruction Mode: Lecture Grading Option: Letter

SURG 763a Clinic: Advanced Hospital Oral Surgery and Anesthesia
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10 each Surgical treatment of patients and service in medical anesthesia at the LAC+USC Medical Center. Instruction Mode: Lecture Grading Option: Letter

SURG 763b Clinic: Advanced Hospital Oral Surgery and Anesthesia
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10 each Surgical treatment of patients and service in medical anesthesia at the LAC+USC Medical Center. Instruction Mode: Lecture Grading Option: Letter

SURG 763c Clinic: Advanced Hospital Oral Surgery and Anesthesia
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10 each Surgical treatment of patients and service in medical anesthesia at the LAC+USC Medical Center. Instruction Mode: Lecture Grading Option: Letter

SURG 763d Clinic: Advanced Hospital Oral Surgery and Anesthesia
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10 each Surgical treatment of patients and service in medical anesthesia at the LAC+USC Medical Center. Instruction Mode: Lecture Grading Option: Letter

Gender and Sexuality Studies

SWMS 105g Identity Development of the Contemporary Female
Units: 4 Terms Offered: Fa Exploration of identity development in terms of social, political, and cultural constructs; examination of collegiate athletics and the contributions of women of color. Satisfies New General Education in Category C: Social Analysis Instruction Mode: Lecture Grading Option: Letter

SWMS 106g Identity Development of the Contemporary Male
Units: 4 Terms Offered: Sp Exploration of identity development in terms of social, political and cultural constructs; examination of collegiate athletics and the contributions of men of color. Satisfies New General Education in Category C: Social Analysis Instruction Mode: Lecture Grading Option: Letter

SWMS 210gmw Social Analysis of Gender
Units: 4 Terms Offered: FaSp Multidisciplinary survey of gender assumptions in relation to sexuality, mental health, social and political relations, and artistic expression. Satisfies New General Education in Category C: Social Analysis Satisfies Global Perspective in Category G: Citizenship in a Diverse World Satisfies Old General Education in Category VI: Social Issues Instruction Mode: Lecture, Discussion Grading Option: Letter Crosslisted as POSC 210, PSYC 210

SWMS 212gp Introduction to Gender and Sexuality: American Perspectives
Units: 4 Terms Offered: Sp Examination of how gender and sexuality have been constructed, experienced and legislated. Satisfies New General Education in Category B: Humanistic Inquiry Satisfies Global Perspective in Category H: Traditions and Historical Foundations Instruction Mode: Lecture, Discussion Grading Option: Letter

SWMS 215gw Introduction to Gender and Sexuality: International Perspectives
Units: 4 Terms Offered: Fa History and theory of global feminist movements; case studies in bodily autonomy; labor rights; gender justice. Satisfies New General Education in Category B: Humanistic Inquiry Satisfies Global Perspective in Category G: Citizenship in a Diverse World Satisfies Old General Education in Category VI: Social Issues Instruction Mode: Lecture, Discussion Grading Option: Letter

SWMS 219gp Introduction to Feminist Theory
Units: 4 Terms Offered: Fa Emergence of feminist thought from the Enlightenment to the present; historical development of female subjectivity; advancement of women's rights; feminisms from alternative ideological perspectives. Satisfies New General Education in Category B: Humanistic Inquiry Satisfies Global Perspective in Category H: Traditions and Historical Foundations Duplicates Credit in former SWMS 301 Instruction Mode: Lecture Grading Option: Letter

SWMS 221g Introduction to Queer Theory
Units: 4 Terms Offered: Sp Genealogies of queer theory, from psychoanalytic theories to feminism and post-structuralism; evolving concepts of gender; relation to social justice, resistance and power. Satisfies New General Education in Category B: Humanistic Inquiry Instruction Mode: Lecture, Discussion Grading Option: Letter

SWMS 227gp Death and Gender in Urban Contexts
Units: 4 Terms Offered: Sp Experiential course examining how beliefs about mortality are produced by history, gender, culture, and context; how the handling of death shapes urban society. Satisfies New General Education in Category B: Humanistic Inquiry Satisfies Global Perspective in Category H: Traditions and Historical Foundations Instruction Mode: Lecture Grading Option: Letter

SWMS 300 Women in Antiquity
Units: 4 (Enroll in CLAS 300)

SWMS 305 Childhood, Birth and Reproduction
Units: 4 (Enroll in ANTH 305)

SWMS 306 Contemporary Issues in LGBTQ Studies
Units: 4 Terms Offered: FaSp Interdisciplinary analysis of LGBTQ issues; examination of the intersections of gender and sexuality with social class, race, religion and nationality. *Prerequisite:* SWMS 210gmw or SWMS 212gp or SWMS 215gw or SWMS 221g Instruction Mode: Lecture Grading Option: Letter

SWMS 308 Advanced Gender Theory
Units: 4 Terms Offered: FaSp Contemporary debates and research in three areas: health bodies, science technologies; feminist/queer analytics in media and representation; critical approaches to race, culture and power. *Prerequisite:* (SWMS 210gmw or SWMS 212gp or SWMS 215gw) and (SWMS 219gp or SWMS 221g) Instruction Mode: Lecture Grading Option: Letter

SWMS 310 Gender and Social Justice
Units: 4 Terms Offered: FaSp Exploration of the ways in which developments and policies, including neoliberalism, the carceral state, and economic precarity, are connected and gendered. *Prerequisite:* SWMS 210gmw or SWMS 212gp or SWMS 215gw or SWMS 219gp or SWMS 221g Instruction Mode: Lecture Grading Option: Letter Crosslisted as SOCI 310

SWMS 311 Gender and Sexuality Studies: Internship
Units: 2, 4, 8 Max Units: 08 Terms Offered: FaSpSm Intensive experience with gender-focused community organizations; analysis of relationships between organizations and feminist and queer theory. Registration Restriction: Open only to Dornsife College students Instruction Mode: Lecture Grading Option: Letter

SWMS 316 Gender and Global Issues
Units: 4 (Enroll in IR 316)

SWMS 321 Gender and Judaism
Units: 4 (Enroll in JS 321)

SWMS 324 Women in Medieval and Renaissance Europe
Units: 4 (Enroll in COLT 324)

SWMS 325 The Science of Sex Differences: A Gender and Sexuality Studies Approach
Units: 4 Terms Offered: Fa Critical examination of sex and gender in science using a multidisciplinary gender and sexuality studies approach. *Prerequisite:* SWMS 210gmw or SWMS 212gp or SWMS 215gw or SWMS 219gp or SWMS 221g Duplicates Credit in former SWMS 225 Instruction Mode: Lecture Grading Option: Letter

SWMS 330m Culture, Gender and Politics in South Asia
Units: 4 (Enroll in ANTH 330)

SWMS 335 Gender, Religion, and Sexuality
Units: 4 (Enroll in REL 335)

SWMS 336 Health, Gender and Ethnicity
Units: 4 Terms Offered: Sp Cross-cultural notions of the body, health, and healing; historic and cultural variability of ideas of reproduction, birth, sexuality, mental illness and disability. *Prerequisite:* SWMS 210gmw or SWMS 219gp or SWMS 221g Instruction Mode: Lecture Grading Option: Letter Crosslisted as ANTH 336, SOCI 336

SWMS 337 The LGBTQ Revolution and the Media
Units: 4 Terms Offered: Irregular (Enroll in COMM 337)

SWMS 344m Sexual/Textual Diversity
Units: 4 Terms Offered: FaSp (Enroll in ENGL 344m)

SWMS 349 Women and the Law
Units: 4 Terms Offered: Fa Discussion of the relationship between women and the law in light of feminist jurisprudence, U.S. Supreme Court decisions and cross-cultural perspectives. *Prerequisite:* SWMS 210gmw or SWMS 212gp or SWMS 215gw or SWMS 219gp or SWMS 221g Instruction Mode: Lecture Grading Option: Letter Crosslisted as POSC 349

SWMS 350g Gender and Sexuality in Renaissance Italy
Units: 4 Terms Offered: FaSp (Enroll in ITAL 350g)

SWMS 355 Transgender Studies
Units: 4 Terms Offered: Sp Analysis of transgender behaviors, from androgyny and transvestism to transexuality. Discussion of changing laws, representations, medical standards, and social attitudes towards transgender and intersex people. *Prerequisite:* SWMS 210gmw or SWMS 212gp or SWMS 215gw or SWMS 219gp or SWMS 221g Instruction Mode: Lecture Grading Option: Letter

SWMS 358 U.S. Gay and Lesbian History
Units: 4 Terms Offered: Sp Exploration of shifting social organization and cultural meanings of same-sex desire and cross-gender behaviors in the U.S., primarily during the 20th century. *Prerequisite:* SWMS 210gmw or SWMS 212gp or SWMS 221g Instruction Mode: Lecture Grading Option: Letter Crosslisted as HIST 358

SWMS 367 Gender and Creative Labor
Units: 4 Terms Offered: Fa Exploration of contemporary labor issues from feminist and gender studies perspectives. *Prerequisite:* SWMS 210gmw or SWMS 212gp or SWMS 215gw or SWMS 219gp or SWMS 221g Instruction Mode: Lecture Grading Option: Letter

SWMS 370 Sex, Love, and Marriage: An Introduction to Kinship
Units: 4 Terms Offered: Sp (Enroll in ANTH 370)

SWMS 372 Human Sexuality
Units: 4 (Enroll in PSYC 372)

SWMS 374gm Women Writers in Europe and America
Units: 4 Terms Offered: Sp (Enroll in COLT 374gm)

SWMS 375 Women and Gender in China: Past and Present
Units: 4 (Enroll in EALC 375)

SWMS 378 Gender and Sexuality in Literary Theory
Units: 4 (Enroll in COLT 377)

SWMS 380 Sex and Gender in Anthropological Perspective
Units: 4 (Enroll in ANTH 380)

SWMS 381 Sex, Power, and Politics
Units: 4 (Enroll in POSC 381)

SWMS 383 French Women Writers
Units: 4 Terms Offered: FaSp (Enroll in FREN 383)

SWMS 385m Men and Masculinity
Units: 4 Interdisciplinary examination of social, personal meanings of masculinity; variety of male experience by social class, race, sexuality and age; emerging masculinities of the future. *Prerequisite:* SWMS 210gmw or SWMS 212gp or SWMS 215gw or SWMS 219gp or SWMS 221g Instruction Mode: Lecture Grading Option: Letter Crosslisted as ANTH 385, SOCI 386

SWMS 389 Gender, Sexuality and Food Cultures in the U.S.
Units: 4 Terms Offered: Sp Exploration of food, eating, production, sustainability, access, and culture from a multidisciplinary perspective. Instruction Mode: Lecture Grading Option: Letter

SWMS 390 Special Problems
Units: 1, 2, 3, 4 Supervised, individual studies. No more than one registration permitted. Enrollment by petition only. Instruction Mode: Lecture Grading Option: Letter

SWMS 392 Junior Seminar in Gender and Sexuality Studies
Units: 4 Terms Offered: Sp Research methods in gender and sexuality studies scholarship; study of feminist, queer and post-colonial epistemologies. *Prerequisite:* SWMS 308 Instruction Mode: Lecture Grading Option: Letter

SWMS 395m Gender, Media and Communication
Units: 4 (Enroll in COMM 395)

SWMS 402 Human Trafficking
Units: 4 Terms Offered: FaSp (Enroll in SOCI 402)

SWMS 410 Senior Seminar in Gender and Sexuality Studies
Units: 4 Terms Offered: Fa Application of gender and sexuality research methods to individual student projects with an emphasis on feminist, queer and post-colonial scholarship. *Prerequisite:* SWMS 392 Instruction Mode: Lecture Grading Option: Letter

SWMS 412 Gender, Sexuality and Media
Units: 4 Max Units: max 8 (Enroll in CTCS 412)

SWMS 425 Queer Los Angeles
Units: 4 Terms Offered: Sp Interdisciplinary study of queer Los Angeles through examination of histories, memoirs, essays, fiction, poetry, documentaries, narrative films and local archives. *Prerequisite:* SWMS 210gmw or SWMS 212gp or SWMS 215gw or SWMS 221g Instruction Mode: Lecture Grading Option: Letter

SWMS 430 Gender and Sexuality in Korean Literature and Culture
Units: 4 (Enroll in EALC 430)

SWMS 434m Women and Aging: Psychological, Social and Political Implications
Units: 4 Terms Offered: FaSpSm (Enroll in GERO 435)

SWMS 435m Women in Society
Units: 4 (Enroll in SOCI 435)

SWMS 442m Women's Spaces in History: "Hussies," "Harems," and "Housewives"
Units: 4 (Enroll in ARCH 442)

SWMS 445 Studies in Gender and Feminism
Units: 4 (Enroll in FREN 445)

SWMS 456 Women in International Development
Units: 4 (Enroll in POSC 456)

SWMS 467 Gender and the News Media
Units: 4 (Enroll in JOUR 467)

SWMS 490x Directed Research
Units: 1, 2, 3, 4, 5, 6, 7, 8 Max Units: 12.0 Terms Offered: FaSpSm Independent research and readings. Instruction Mode: Lecture Grading Option: Letter

SWMS 492 Gender and Sexuality Studies: Honors Thesis
Units: 4 Terms Offered: Sp Writing of the honors thesis; for students in the Gender and Sexuality Studies Honors Program. *Recommended Preparation:* SWMS 410 Registration Restriction: Open only to Gender and Sexuality Studies majors Instruction Mode: Lecture Grading Option: Letter

SWMS 499 Special Topics
Units: 2, 3, 4 Max Units: 8.0 Study of a selected problem, period, or theme through interdisciplinary approaches. Instruction Mode: Lecture Grading Option: Letter

SWMS 504 Theories of Race, Class and Gender
Units: 4 Max Units: 12 Terms Offered: FaSpSm (Enroll in ENGL 504)

SWMS 516 Seminar: Feminist Theory and Communication
Units: 4, 2 years Terms Offered: Sp (Enroll in COMM 516)

SWMS 553 Race, Gender and Sexuality
Units: 4 (Enroll in AMST 553)

SWMS 554 Women in Global Perspective
Units: 4 Women and immigration, employment, and household and family relations in the context of the global economy; women's social and political movements in diverse cultural contexts. Instruction Mode: Lecture Grading Option: Letter Crosslisted as ANTH 554, POIR 554, SOCI 554

SWMS 556 Seminar on Women and the Family in China
Units: 4 (Enroll in EALC 556)

SWMS 560 Feminist Theory
Units: 4 Terms Offered: FaSpSm History of feminist theory and major perspectives of current feminist theory: liberal feminism, socialist/Marxist feminism, radical feminism, psychological feminism, spiritual feminism, and ecological feminism. Instruction Mode: Lecture Grading Option: Letter Crosslisted as EDHP 560, POIR 560, SOCI 560

SWMS 567 Body, Power and Politics
Units: 4 Terms Offered: FaSp (Enroll in AMST 567)

SWMS 588 Seminar in Gay, Lesbian, Bisexual and Transgender Studies
Units: 4 Interdisciplinary cross-cultural, historical, psychological, sociological, and contemporary political perspectives on female and male homosexual eroticism, and the emergence of gay, lesbian, bisexual, and transgender identities. Instruction Mode: Lecture Grading Option: Letter

SWMS 590 Directed Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Terms Offered: FaSpSm Research leading to the master's degree in cognate fields. Maximum units which may be applied to the degree to be determined by the department. Instruction Mode: Lecture Grading Option: Credit/No Credit

SWMS 593 Practicum in Teaching Gender Studies
Units: 2 Terms Offered: Fa Basic principles of gender studies pedagogy, emphasizing practical applications and the importance of career-long skill development. Required for first-semester teaching assistants in gender studies. Registration Restriction: Open only to doctoral students. Instruction Mode: Lecture Grading Option: Credit/No Credit

SWMS 599 Special Topics
Units: 2, 3, 4 Max Units: 8.0 Seminar in selected topics relating to gender and feminism. Instruction Mode: Lecture Grading Option: Letter

SWMS 610 Research and Proposal Writing in Gender and Sexuality Studies
Units: 4 Terms Offered: Sp Foundations of designing a dissertation research project in gender and sexuality studies; guidance with preparation of dissertation research proposal. Registration Restriction: Open only to doctoral students Instruction Mode: Lecture Grading Option: Letter

SWMS 621 Gender Discrimination
Units: 1, 2, 3, 4 Terms Offered: FaSp (Enroll in LAW 621)

SWMS 623 Family Law
Units: 3 or 4 (Enroll in LAW 623)

SWMS 630 Studies in Gender
Units: 4 Max Units: max 12 (Enroll in ENGL 630)

SWMS 640 Sociology of Gender and Sexuality
Units: 4 Terms Offered: FaSp (Enroll in SOCI 640)

SWMS 642 Sex and Gender in Society
Units: 4 (Enroll in SOCI 642)

Dramatic Arts

THTR 101 Introduction to Acting
Units: 4 Terms Offered: FaSp Study of diverse genres and disciplines of acting; fundamental techniques necessary for performance; scene study from contemporary text. Instruction Mode: Lecture Grading Option: Letter

THTR 105 Introduction to Screen Acting
Units: 2 Terms Offered: FaSp Introduction to the theoretical and foundational practices, techniques and strategies specific to screen acting in relation to the basic dynamics of acting for the stage. *Prerequisite:* THTR 252a or THTR 120aL Instruction Mode: Lecture Grading Option: Letter

THTR 115a Movement I
Units: 2 Terms Offered: Fa Basic training for the actor's body for expression and communication. Awareness and control through mind-body techniques. *Corequisite:* THTR 120a and THTR 140a Registration Restriction: Open only to Theatre (Acting) majors Duplicates Credit in former THTR 115 Instruction Mode: Lecture Grading Option: Letter

THTR 115b Movement I
Units: 2 Terms Offered: Sp Basic training for the actor's body for expression and communication. Awareness and control through mind-body techniques. *Prerequisite:* THTR 115a *Concurrent Enrollment:* THTR 120b and THTR 140b Duplicates Credit in former THTR 115 Instruction Mode: Lecture Grading Option: Letter

THTR 120aL Acting I
Units: 2 Terms Offered: Fa Basic principles and techniques of acting through theatre games and improvisation. Introduction to contemporary texts, basic characterization and cold reading techniques. Registration Restriction: Open only to Acting and Musical Theatre majors Instruction Mode: Lecture, Lab Required Grading Option: Letter

THTR 120b Acting I
Units: 2 Terms Offered: Sp Basic principles and techniques of acting through theatre games and improvisation. Introduction to contemporary texts, basic characterization and cold reading techniques. *Prerequisite:* THTR 120aL Instruction Mode: Lecture Grading Option: Letter

THTR 121ax Fundamentals of Acting
Units: 2 Terms Offered: FaSp The elements

of the actor's imaginative skills. Instruction Mode: Lecture Grading Option: Letter

THTR 121bx Fundamentals of Acting
Units: 2 Terms Offered: FaSp Continuation of THTR 121a. Instruction Mode: Lecture Grading Option: Letter

THTR 122 Improvisation and Theatre Games
Units: 2 Max Units: 4.0 Terms Offered: FaSp Individual and group exercise to free the actor physically and emotionally and to stimulate creativity, imagination, and self-expression. Instruction Mode: Lecture Grading Option: Letter

THTR 124ax Character Acting
Units: 2 Terms Offered: FaSp Concentration of imaginative processes which develop the individual characteristics of a dramatic role. Instruction Mode: Lecture Grading Option: Letter

THTR 124bx Character Acting
Units: 2 Terms Offered: FaSp Continuation of THTR 124a. Instruction Mode: Lecture Grading Option: Letter

THTR 125 Text Studies for Production
Units: 4 Terms Offered: Fa Focuses on the questions, artistic choices, methodologies, and approaches of an actor/director/designer in the preparation of a production score prior to rehearsal. Instruction Mode: Lecture Grading Option: Letter

THTR 130 Introduction to Theatrical Production
Units: 2 Terms Offered: FaSp Introduction to the nonperformance areas of theatrical production (administrative, design, and technical fields) through hands-on participation in USC productions. Instruction Mode: Lecture, Lab Grading Option: Letter

THTR 131a Advanced Theatrical Production
Units: 2 Terms Offered: FaSp Advanced understanding of non-performance areas of theatrical production (administrative, design, and technical fields) through hands-on participation in USC productions. Instruction Mode: Lecture, Lab Grading Option: Letter

THTR 131b Advanced Theatrical Production
Units: 2 Terms Offered: FaSp Advanced understanding of non-performance areas of theatrical production (administrative, design, and technical fields) through hands-on participation in USC productions. *Prerequisite:* THTR 131a Instruction Mode: Lecture, Lab Required Grading Option: Letter

THTR 132a Art of Theatrical Design
Units: 2 Terms Offered: FaSp A guided student exploration of the fundamentals of applied design elements and their use as creative tools in the design process. Instruction Mode: Lecture Grading Option: Letter

THTR 132b Art of Theatrical Design
Units: 2 Terms Offered: FaSp Development of the artistic process and theatrical design vocabulary of the individual within the environment of collaborative storytelling. *Prerequisite:* THTR 132a Instruction Mode: Lecture Grading Option: Letter

THTR 140a Voice I
Units: 2 Terms Offered: Fa Physiological mechanism of voice: breath control, phonation, resonance, articulation of language for the stage; expressive use of stress, intonation and rhythm. *Corequisite:* THTR 115a and THTR 120a Instruction Mode: Lecture, Lab Grading Option: Letter

THTR 140b Voice I
Units: 2 Terms Offered: Fa Physiological mechanism of voice: breath control, phonation, resonance, articulation of language for the stage; expressive use of stress, intonation and rhythm. *Corequisite:* THTR 120b. Instruction Mode: Lecture, Lab Grading Option: Letter

THTR 152 Introduction to Scene Study: Contemporary Plays
Units: 2 Terms Offered: FaSp Application and consolidation of the skills, knowledge and techniques acquired in the study of fundamentals of acting encountered in THTR 101. *Prerequisite:* THTR 101 Instruction Mode: Lecture Grading Option: Letter

THTR 195g Theatre on Film
Units: 4 Terms Offered: FaSp Introduction to the theatre and its relationship to society through major plays in film versions. Separate screenings to be arranged. Satisfies New General Education in Category A: The Arts Instruction Mode: Lecture Grading Option: Letter

THTR 196g Shakespeare on Film
Units: 4 Introduction to the formalized plays of William Shakespeare as texts for performance through reading, viewing and analysis of selected plays in textual and film versions. Satisfies New General Education in Category A: The Arts Instruction Mode: Lecture Grading Option: Letter

THTR 197g Comedy and Performance
Units: 4 Comedy and Performance traces the history of comedy in performance from its earliest incarnations to the present day. Satisfies New General Education in Category A: The Arts Instruction Mode: Lecture Grading Option: Letter

THTR 202 The Fundamentals of Comedy
Units: 2 Terms Offered: FaSp Introduction to the fundamental elements of comedy and how to apply those elements to create short, original pieces of comedy in performance and writing. Instruction Mode: Lecture Grading Option: Letter

THTR 213 Corset Construction
Units: 3 Terms Offered: FaSp Design and construct period corsets, along with the materials and terminology needed to sew (machine and hand) corsets. Instruction Mode: Lecture Grading Option: Letter

THTR 215a Movement II
Units: 2 Terms Offered: Fa Training of the actor's body with focus on development of precision and strength. *Prerequisite:* THTR 115 ; *Corequisite:* THTR 220a, THTR 240a. Instruction Mode: Lecture Grading Option: Letter

THTR 215b Movement II
Units: 2 Terms Offered: Sp Training of the actor's body with focus on mask work for the development of precision, strength and expressiveness. *Prerequisite:* THTR 215a; *Corequisite:* THTR 220b, THTR 240b. Instruction Mode: Lecture Grading Option: Letter

THTR 216 Movement for Actors
Units: 2 Terms Offered: FaSp Training and practice in the coordination of the physical apparatus of the actor utilizing various movement techniques through improvisation. Instruction Mode: Lecture Grading Option: Letter

THTR 220a Intermediate Acting I
Units: 2 Terms Offered: FaSp Continuing development of imagination leading to an increased range of dramatic expression through the formalized text of William Shakespeare. *Prerequisite:* THTR 120b. Instruction Mode: Lecture Grading Option: Letter

THTR 220b Intermediate Acting I
Units: 2 Terms Offered: FaSp Continuing development of imagination leading to an increased range of dramatic expression through the formalized text of William Shakespeare. *Prerequisite:* THTR 120b. Instruction Mode: Lecture Grading Option: Letter

THTR 222 Stage Make-up
Units: 2 Terms Offered: FaSp Principles of stage make-up materials and skills allowing the actors to enhance their features and techniques for moderate and extreme aging, injuries, and character roles. Instruction Mode: Lecture Grading Option: Letter

THTR 225g Theatre Across History and Cultures
Units: 4 Terms Offered: FaSp The analysis of a range of plays from different times and cultures with a consideration of the roles of actor, director, dramaturg and designer. *Recommended Preparation:* THTR 125 Satisfies New General Education in Category A: The Arts Instruction Mode: Lecture, Discussion Grading Option: Letter

THTR 230 Communicating Theatrical Design Concepts
Units: 3 Terms Offered: FaSp The visualization and communication of design ideas through free-hand and mechanical drawing, including orthographics, isometrics, perspective, shades and shadows, plans, sections and elevations. Instruction Mode: Lecture Grading Option: Letter

THTR 231 Costume Construction
Units: 3 Terms Offered: FaSp Historical survey, theory and practice in construction of costume. Duplicates Credit in former THTR 231ab Instruction Mode: Lecture Grading Option: Letter

THTR 232 Stage Lighting
Units: 3 Terms Offered: FaSp Theory and practice of theatrical lighting design including electricity, radiant energy, refraction, reflection, absorption, chromatic variation and electronic controls. Instruction Mode: Lecture Grading Option: Letter

THTR 233 Historic Costumes for the Theatre
Units: 3 Terms Offered: FaSp Historical survey, theory and practice of the use of costume in theatrical production; emphasis on period and style. Instruction Mode: Lecture Grading Option: Letter

THTR 236 Stage Sound
Units: 2 Terms Offered: FaSp Basic audio engineering science, how sound is measured, basic transducers and signal flow. Operation of recording and playback equipment used in theatrical sound design/mixing. Instruction Mode: Lecture Grading Option: Letter

THTR 240a Voice II
Units: 2 Terms Offered: FaSp Development of the voice using material which explores the techniques of Shakespeare and his contemporaries. *Prerequisite:* THTR 140b; *Corequisite:* THTR 215a, THTR 220a. Instruction Mode: Lecture Grading Option: Letter

THTR 240b Voice II
Units: 2 Terms Offered: FaSp Development of the voice using material which explores the techniques of Shakespeare and his contemporaries. *Prerequisite:* THTR 140b; *Corequisite:* THTR 215b, THTR 220b. Instruction Mode: Lecture Grading Option: Letter

THTR 241 Methods and Materials
Units: 2 Terms Offered: FaSp Cutting-edge and traditional methods and materials that enhance both the planning stages and realization of the theatrical design. Instruction Mode: Lecture Grading Option: Letter

THTR 250 Camera and Improvisation
Units: 2 Terms Offered: FaSp Understanding on-camera acting and improvisation by creating original material both in front and behind the camera. *Prerequisite:* THTR 220a or THTR 252a Instruction Mode: Lecture Grading Option: Letter

THTR 252a Intermediate Acting I: Drama/Comedy
Units: 2 Terms Offered: FaSp Polishing the actor's skills through analysis and performance applied to the arc of a character. *Prerequisite:* THTR 101 Instruction Mode: Lecture Grading Option: Letter

THTR 252b Intermediate Acting I: Drama/Comedy
Units: 2 Terms Offered: FaSp Polishing the actor's skills through analysis and performance applied to the arc of a character. *Prerequisite:* THTR 252a Instruction Mode: Lecture Grading Option: Letter

THTR 290 Introduction to Medical Clowning
Units: 2 Terms Offered: FaSp Explores the art of clowning in hospitals for the purpose of improving the well-being of those in need. Instruction Mode: Lecture Grading Option: Letter

THTR 295 Theatre in Los Angeles
Units: 2 Terms Offered: FaSp Current state of American theatre, through a study of acting, playwriting, criticism, stage design, lighting, and dramatic styles. Instruction Mode: Lecture Grading Option: Letter

THTR 301 Greek and Roman Theatre
Units: 4 Terms Offered: Fa Examines the function of theatre, production and acting conventions, and the drama of classical Greece and Rome. *Recommended Preparation:* THTR 125, THTR 201 . Duplicates Credit in former THTR 213. Instruction Mode: Lecture Grading Option: Letter

THTR 302 Shakespeare in His World
Units: 4 Terms Offered: Sp The plays and theatre of Shakespeare, the influences on his work and his contemporary world. *Recommended Preparation:* THTR 201 , THTR 210 , THTR 211 . Duplicates Credit in former THTR 214. Instruction Mode: Lecture Grading Option: Letter

THTR 303 Projection Design I
Units: 3 Terms Offered: FaSp Investigation of the projection design process, equipment, multi-media, digital technology concepts and related documentation. Instruction Mode: Lecture, Lab Grading Option: Letter

THTR 304 Advanced Medical Clowning
Units: 2 Terms Offered: FaSp Explores the practice of bringing clowns into places of healing (hospitals, trauma sites, etc.) for the purpose of improving the physical and mental well-being of those in need. *Prerequisite:* THTR 290 Instruction Mode: Lecture Grading Option: Letter

THTR 305a Directing
Units: 4 Terms Offered: FaSp Examination of basic directorial principles. Pre-production analysis and rehearsal procedures; relationship of the director to actor; integration of technical aspects of production. *Recommended Preparation:* THTR 101 Instruction Mode: Lecture Grading Option: Letter

THTR 305b Directing
Units: 4 Terms Offered: FaSp Examination of basic directorial principles. Pre-production analysis and rehearsal procedures; relationship of the director to actor; integration of technical aspects of production. *Prerequisite:* THTR 305a before b. Instruction Mode: Lecture Grading Option: Letter

THTR 306 Audio-Drama
Units: 2.0 Develop a basic understanding of the skills required to effectively develop, create, record, edit and market an audio drama. Instruction Mode: Lecture Grading Option: Letter

THTR 307 Comedy in LA
Units: 2 Terms Offered: FaSp Experiential and discussion-based; examines Los Angeles-based live comedy as it continues to evolve, both through text and performance. *Prerequisite:* THTR 202 Instruction Mode: Lecture Grading Option: Letter

THTR 308 Programming for Lighting
Units: 3 Terms Offered: FaSp Strategies and principles in computerized programming for theatrical lighting, emphasizing its applied use in creating kinetic, responsive environments. Instruction Mode: Lecture Grading Option: Letter

THTR 309 Dramaturgy
Units: 4 Terms Offered: FaSp Introduction to dramaturgy and the many functions it serves in the theatre. Focus on basic dramatic theories behind dramaturgy and its applications. *Prerequisite:* THTR 125 and THTR 225g Instruction Mode: Lecture Grading Option: Letter

THTR 310 Comedy and Diversity
Units: 4 Terms Offered: FaSp Issues of diversity are central to the societal function of comedy. Students will explore the techniques, structures and performance of sitcoms, sketch comedy and stand-up. *Recommended Preparation:* THTR 125 and THTR 225 Instruction Mode: Lecture Grading Option: Letter

THTR 312 LGBTQ Theatre
Units: 4 Terms Offered: FaSp Explores the range and genealogy of LGBTQ theatre and performance across political, historical, and theatrical contexts. *Prerequisite:* THTR 225 Instruction Mode: Lecture Grading Option: Letter

THTR 313 Comedy of Manners
Units: 4 Terms Offered: FaSp Study of the development of Comedy of Manners, with primary focus on Restoration Comedy of Manners. *Prerequisite:* THTR 225g Instruction Mode: Lecture Grading Option: Letter

THTR 314 Advanced Topics in Modern Drama
Units: 4 Terms Offered: FaSp 20th century realism and the avant-garde. *Prerequisite:* THTR 225g Instruction Mode: Lecture Grading Option: Letter

THTR 315a Physical Theatre I
Units: 2 Terms Offered: FaSp Actor training anchored by rigorous physical movements. Activities include comedy, clowning, juggling, and mask work. Instruction Mode: Lecture Grading Option: Letter

THTR 315b Physical Theatre I
Units: 2 Terms Offered: FaSp Actor training anchored by rigorous physical movements. Activities include comedy, clowning, juggling, and mask work. Instruction Mode: Lecture Grading Option: Letter

THTR 316 Advanced Movement for Actors
Units: 2 Terms Offered: FaSp Advanced physical training for the B.A. actor utilizing various movement techniques through improvisation. *Prerequisite:* THTR 216. Instruction Mode: Lecture Grading Option: Letter

THTR 317 Theatre Clown
Units: 2 Terms Offered: FaSp Introduction to techniques of clown performance and key techniques including complicite, play, looks and drops. *Prerequisite:* THTR 101 Instruction Mode: Lecture Grading Option: Letter

THTR 318 Creating the Hit Podcast
Units: 2 Terms Offered: FaSpSm Develops the ability to create a podcast. Focuses on skills to produce, perform, market and monetize a podcast across a variety of genres. Instruction Mode: Lecture Grading Option: Letter

THTR 320a Intermediate Acting II
Units: 2 Terms Offered: FaSp Further development of range and breadth of performance skills with emphasis on texts of heightened language and style. *Corequisite:* THTR 315a, THTR 340a. Instruction Mode: Lecture Grading Option: Letter

THTR 320b Intermediate Acting II
Units: 2 Terms Offered: FaSp Further development of range and breadth of performance skills with emphasis on texts of heightened language and style. *Corequisite:* THTR 315b, THTR 340b. Instruction Mode: Lecture Grading Option: Letter

THTR 322 Improv 2: Advanced Improv
Units: 2 Terms Offered: FaSp An in depth study of improvised comedy scene work. An exploration of the primary tools and structure for creating improvised scenes and developing characters for stage and screen. *Prerequisite:* THTR 101 or

THTR 122 Instruction Mode: Lecture Grading Option: Letter

THTR 330 Scene Design I
Units: 4 Terms Offered: Fa Historical styles, methods, and dramatic analysis for scene design as applied in contemporary practice. *Recommended Preparation:* THTR 130 or THTR 131b Instruction Mode: Lecture Grading Option: Letter

THTR 331 Costume Design I
Units: 4 Terms Offered: Sp Historical styles, methods, and dramatic analysis in costume design as applied in contemporary practice. Execution of costume designs for assigned works. *Recommended Preparation:* THTR 231 Instruction Mode: Lecture, Lab Grading Option: Letter

THTR 332 Lighting Design I
Units: 4 Terms Offered: FaSp Historical styles, methods and dramatic analysis in lighting design as applied in contemporary practice. *Recommended Preparation:* THTR 130 or THTR 131b Instruction Mode: Lecture Grading Option: Letter

THTR 333 Stage Management I
Units: 3 Terms Offered: Fa Basic skills, including assembly of prompt book, blocking notation, and organizational and communication procedures applied in theatre production. Instruction Mode: Lecture Grading Option: Letter

THTR 335 Scenic Construction
Units: 3 Terms Offered: FaSp Technology, organization, and operation of the theatrical scene shop centered around the proper and safe use of tools, the choosing of materials, and methods of construction. Duplicates Credit in former THTR 131. Instruction Mode: Lecture, Lab Grading Option: Letter

THTR 336 Introduction to Sound Design
Units: 3 Terms Offered: FaSp The art and techniques of theatrical sound design. The use of music and ambient sound in theatrical presentations. Design elements as metaphor. Instruction Mode: Lecture Grading Option: Letter

THTR 340a Intermediate Voice
Units: 2 Terms Offered: FaSp Extended development of vocal freedom and range, acquisition of articulate speech. Enhancement of vocal power and resonance, techniques for performing with a dialect. *Concurrent Enrollment: Concurrent enrollment:* THTR 315a, THTR 315b, THTR 320a, THTR 320b. Instruction Mode: Lecture Grading Option: Letter

THTR 340b Intermediate Voice
Units: 2 Terms Offered: FaSp Extended development of vocal freedom and range, acquisition of articulate speech. Enhancement of vocal power and resonance, techniques for performing with a dialect. *Concurrent Enrollment: Concurrent enrollment:* THTR 315a, THTR 315b , THTR 320a, THTR 320b. Instruction Mode: Lecture Grading Option: Letter

THTR 341x Voice for the Non-Theatre Major
Units: 2 Terms Offered: Fa Designed for the non-theatre major focusing on the range, color, texture, and projection of the human voice in a variety of situations. Instruction Mode: Lecture Grading Option: Letter

THTR 342a Basic Voice
Units: 2 Terms Offered: FaSp Examination of the individual voice centering on resonance, tone, flexibility, and support through dramatic selections for transmitting meaning and emotion of character. Instruction Mode: Lecture Grading Option: Letter

THTR 342b Basic Voice
Units: 2 Terms Offered: FaSp Continuation of THTR 342a. Instruction Mode: Lecture Grading Option: Letter

THTR 343 Musical Theatre Audition
Units: 3 Terms Offered: FaSpSm Designed to give students confidence and integrity for auditions in musical theatre. Choosing appropriate material and preparation for the audition and performance. Audition required. Instruction Mode: Lecture Grading Option: Letter

THTR 352a Intermediate Acting II
Units: 2 Terms Offered: FaSp Building and sustaining character with special focus on stylized realism, subtext and heightened language. Multi-cultural text and methodologies. *Prerequisite:* THTR 252b Instruction Mode: Lecture Grading Option: Letter

THTR 352b Intermediate Acting II
Units: 2 Terms Offered: FaSp Building and sustaining character with special focus on stylized realism, subtext and heightened language. Multi-cultural text and methodologies. *Prerequisite:* THTR 352a Instruction Mode: Lecture Grading Option: Letter

THTR 354 Acting Shakespeare
Units: 2 Terms Offered: FaSp Basic approach to the acting and analysis of the highly formalized texts of William Shakespeare. *Prerequisite:* THTR 101 Instruction Mode: Lecture Grading Option: Letter

THTR 355 Acting for Sitcoms
Units: 2 Terms Offered: FaSpSm Provide an understanding as to how to work in half-hour television and streaming media. *Prerequisite:* THTR 252b Instruction Mode: Lecture Grading Option: Letter

THTR 365 Playwriting I
Units: 4 Terms Offered: FaSp Essential elements of playwriting through weekly assignments, students' initiative, occasional productions of scenes, and extensive classroom analysis. Instruction Mode: Lecture Grading Option: Letter

THTR 366 Playwriting II
Units: 4 Terms Offered: FaSp Continuation of the work begun in THTR 365. *Prerequisite:* THTR 365. Instruction Mode: Lecture Grading Option: Letter

THTR 380 Immersive Theatre
Units: 2 Terms Offered: FaSp History, principles and practice of Immersive Theatre, one of the most important contemporary movements in the field. *Prerequisite:* THTR 225g and THTR 252b Instruction Mode: Lecture Grading Option: Letter

THTR 390 Special Problems
Units: 1, 2, 3, 4 Terms Offered: FaSp Supervised, individual studies. No more than one registration permitted. Enrollment by petition only. Instruction Mode: Lecture Grading Option: Letter

THTR 395m Drama as Human Relations
Units: 4 A focus on American ethnic and multicultural diversity from the perspectives of gender, race, and myth as revealed in plays, film, and other performance media. Instruction Mode: Lecture Grading Option: Letter

Units: 2 Terms Offered: FaSp Develop on-camera auditioning skills for actors at a professional level in a variety of film, television and new media venues. *Prerequisite:* THTR 252b or THTR 320b Instruction Mode: Lecture Grading Option: Letter

THTR 430 Stage Management II
Units: 3 Terms Offered: Sp Application of stage management procedures required in the professional theatre. *Prerequisite:* THTR 333. Instruction Mode: Lecture Grading Option: Letter

THTR 431 Seminar in Theatre Design
Units: 2 Terms Offered: FaSp Research into the application of contemporary topics relevant to theatrical design within the diverse cultural environment of the greater Los Angeles area. Instruction Mode: Lecture Grading Option: Letter

THTR 432a Scene Design II
Units: 3 Terms Offered: FaSp Continuation of THTR 330. Evolution of scene design through analysis of script, environmental factors, and styles. *Prerequisite:* THTR 330. Instruction Mode: Lecture Grading Option: Letter

THTR 432b Scene Design II
Units: 3 Terms Offered: FaSp Continuation of THTR 330. Evolution of scene design through analysis of script, environmental factors, and styles. *Prerequisite:* THTR 330. Instruction Mode: Lecture Grading Option: Letter

THTR 433a Costume Design II
Units: 3 Terms Offered: FaSp Evolution of costume design through analysis of script, environmental factors, and styles. *Prerequisite:* THTR 331. Instruction Mode: Lecture Grading Option: Letter

THTR 433b Costume Design II
Units: 3 Terms Offered: FaSp Evolution of costume design through analysis of script, environmental factors, and styles. *Prerequisite:* THTR 331. Instruction Mode: Lecture Grading Option: Letter

THTR 434a Lighting Design II
Units: 3 Terms Offered: FaSp Continuation of THTR 332. Evolution of lighting design through analysis of script, environmental factors and styles. *Prerequisite:* THTR 332 and (THTR 409 or THTR 435) Instruction Mode: Lecture Grading Option: Letter

THTR 434b Lighting Design II
Units: 3 Terms Offered: FaSp Continuation of THTR 332. Evolution of lighting design through analysis of script, environmental factors, and styles. *Prerequisite:* THTR 332. Instruction Mode: Lecture Grading Option: Letter

THTR 435 Advanced Theatrical Drafting
Units: 3 Drafting style and complex graphic communication. Emphasis on creating professional plates, developing an individual style and graphic problem solving. Instruction Mode: Lecture Grading Option: Letter

THTR 436 Sound for Theatre
Units: 3 Terms Offered: Fa Introduction to electronic sound and sound reinforcement, including basic equipment, recording, editing, and show operation. *Prerequisite:* THTR 236 or THTR 336 Instruction Mode: Lecture Grading Option: Letter

THTR 437 Scene Painting
Units: 3 Terms Offered: Sp Techniques, materials, and equipment of the scenic artist, including both historic and modern methods. *Recommended Preparation:* paint and drawing experience. Instruction Mode: Lecture Grading Option: Letter

THTR 438 Technical Theatre
Units: 3 Terms Offered: Sp Theory and practice of technical theatre. Emphasis is on technical problem solving and graphic solutions to technical theatre. *Recommended Preparation:* THTR 335 Instruction Mode: Lecture Grading Option: Letter

THTR 439 Stage Properties
Units: 3 Terms Offered: Sp Organization, management, and construction of properties for the theatre. Instruction Mode: Lecture Grading Option: Letter

THTR 440 Advanced Voice: Voice-Over Acting
Units: 2 Terms Offered: Fa Continuation of exercises related to the individual student for the stage including voice-over acting work. *Prerequisite:* THTR 340b Duplicates Credit in former THTR 440a Instruction Mode: Lecture Grading Option: Letter

THTR 441 Advanced Sound Design
Units: 3 Terms Offered: Sp Advanced exploration of theatrical sound design theory and related technology; creative uses of music, sound effects, and audio equipment in modern theatres. *Prerequisite:* THTR 436. Instruction Mode: Lecture Grading Option: Letter

THTR 442 Voice-over Acting
Units: 2 Terms Offered: FaSp Acting techniques, recording studio technology and editing for the field of voice acting and voice-overs. *Prerequisite:* THTR 252a Instruction Mode: Lecture Grading Option: Letter

THTR 443 Production Management
Units: 4 The context and scope of work done by a Theatrical Production Manager. Students will learn about different types of theatrical organizations and how they are structured. *Prerequisite:* THTR 333; *Recommended Preparation:* two units of THTR 397. Instruction Mode: Lecture Grading Option: Letter

THTR 444 Applied Voice: Speech and Text
Units: 3 Terms Offered: Fa Intensive study of speech and voice regarding text, context, environment, dynamics, range, and accent. *Recommended Preparation:* THTR 342a, THTR 342b. Instruction Mode: Lecture Grading Option: Letter

THTR 445 Developing Your Speaking Voice
Units: 2 Terms Offered: FaSpSm Designed to expand the uniqueness of one's own voice in the areas of pitch, power, clarity, and warmth. Instruction Mode: Lecture Grading Option: Letter

THTR 450 Acting on Camera for Network and Cable TV
Units: 4 Terms Offered: Sp Practical application of acting before a camera working on television scenes, both network and cable, directed by School of Cinematic Arts BFA student directors, supervised by both Cinematic Arts and Dramatic Arts Faculty. *Prerequisite:* THTR 320b or THTR 352a Registration Restriction: Open only to seniors Instruction Mode: Lecture Grading Option: Letter

THTR 452 Advanced Acting
Units: 2 Terms Offered: FaSp Focus on advanced acting, theatrical interdisciplinary storytelling styles explored in epic theatre. *Prerequisite:* THTR 352b Duplicates Credit in former THTR 452a and former THTR 452b Instruction Mode: Lecture Grading Option: Letter

THTR 453 Taking it on the Road and Beyond
Units: 4 Terms Offered: Sp Specific instruction to prepare Stage Managers for the rigors and processes of Touring and Opera productions as well as other non-theatrical team-based collaborations in entertainment. *Prerequisite:* THTR 333 and THTR 430 and THTR 443 *Recommended Preparation:* 2 units of THTR 397 Instruction Mode: Lecture Grading Option: Letter

THTR 454 Acting Shakespeare II
Units: 2 Terms Offered: FaSp A continuation and deeper investigation of the analysis and performance of the highly formalized texts of William Shakespeare. *Prerequisite:* THTR 354. Instruction Mode: Lecture Grading Option: Letter

THTR 455 Devised Theatre
Units: 2 Terms Offered: FaSp Collaboration in the creation of short performance pieces, devised through a process of observation, research, writing, critical thinking and improvisation to engage contemporary innovations. Registration Restriction: Open only to Sophomores, Juniors and Seniors Instruction Mode: Lecture Grading Option: Letter

Units: 3 Terms Offered: Sp Explores the theory and practice of staging community-based popular theatre, including Theatre of the Oppressed, street theatre, witness theatre, agit-prop and festival theatre events. Instruction Mode: Lecture Grading Option: Letter

THTR 506 Advanced Creating Characters
Units: 2 An advanced writing workshop that focuses on continuing development of the crafting of character, centering on depth, breadth, dimensionality, and authenticity. Instruction Mode: Lecture Grading Option: Letter

THTR 507 Casting Director Workshop
Units: 2.0 Terms Offered: FaSp The development and building of auditioning skills for film, television and new media venues. Instruction Mode: Lecture Grading Option: Letter

THTR 510 Writing the Short Drama
Units: 2 Terms Offered: FaSp The art and craft of dramatic writing. In particular exploring its dimensions with regard to character and story development in the ten minute play. Instruction Mode: Lecture Grading Option: Letter

THTR 512 Studies in Dramatic Analysis
Units: 2 Terms Offered: FaSp A skill-based workshop that uses a historical survey of theatre texts to develop critical reading skills along two different tracks: Acting and Dramatic Writing. Instruction Mode: Lecture Grading Option: Letter

THTR 513 Seminar in History of the Theatre
Units: 4 Bibliography, historical evolution, patterns, and techniques of the theatre from primitive to modern times. Instruction Mode: Lecture Grading Option: Letter

THTR 515a Advanced Movement
Units: 2 Terms Offered: FaSp Advanced exercises in movement for the use of the body in relation to the stage. Instruction Mode: Lecture, Lab Grading Option: Letter

THTR 515b Advanced Movement
Units: 2 Terms Offered: FaSp Advanced exercises in movement for the use of the body in relation to the stage. Instruction Mode: Lecture, Lab Grading Option: Letter

THTR 515c Advanced Movement
Units: 2 Terms Offered: FaSp Advanced exercises in movement for the use of the body in relation to the stage. Includes Viewpoints and Clown. *Prerequisite:* THTR 515b Instruction Mode: Lecture, Lab Grading Option: Letter

THTR 515d Advanced Movement
Units: 2 Terms Offered: FaSp Advanced exercises in movement for the use of the body in relation to the stage including a study of Viewpoints and Mask Work. *Prerequisite:* THTR 515c Instruction Mode: Lecture, Lab Grading Option: Letter

THTR 515e Advanced Movement
Units: 2 Terms Offered: FaSp Advanced exercises in movement for the use of the body in relation to the stage. *Corequisite:* THTR 480, THTR 540e, THTR 555, THTR 575. Instruction Mode: Lecture Grading Option: Letter

THTR 515f Advanced Movement
Units: 2 Terms Offered: FaSp Advanced exercises in movement for the use of the body in relation to the stage. *Corequisite:* THTR 520e, THTR 540f, THTR 597. Instruction Mode: Lecture Grading Option: Letter

THTR 516 Filmmaking for Actors
Units: 2 Terms Offered: FaSp The execution and breakdown of a film project from ideation to completion. Registration Restriction: Open only to USC School of Dramatic Arts students Instruction Mode: Lecture Grading Option: Letter

THTR 520a Advanced Acting
Units: 4 Terms Offered: FaSp Advanced training in acting skills; emphasis upon individual needs. Instruction Mode: Lecture Grading Option: Letter

THTR 520b Advanced Acting
Units: 4 Terms Offered: FaSp Advanced training in acting skills including camera work; emphasis upon individual needs. *Prerequisite:* THTR 520a Instruction Mode: Lecture, Lab Grading Option: Letter

THTR 520c Advanced Acting
Units: 2 Terms Offered: FaSp Advanced training in acting skills; emphasis upon individual needs and solo performance. *Prerequisite:* THTR 520b Instruction Mode: Lecture Grading Option: Letter

THTR 520d Advanced Acting
Units: 4 Terms Offered: FaSp Advanced training in acting skills; emphasis upon individual needs. Instruction Mode: Lecture, Lab Grading Option: Letter

THTR 520e Advanced Acting
Units: 2 Terms Offered: FaSp Advanced training in acting skills; includes performing for agents, directors and producers in film, television and theatre. *Prerequisite:* THTR 520d Instruction Mode: Lecture Grading Option: Letter

THTR 521 Engaging Community Narratives
Units: 3 Terms Offered: Fa Provides training for actor/artists who partner with non-actors in community-based theatre projects. Instruction Mode: Lecture Grading Option: Letter

THTR 525 Seminar in Contemporary Theatre
Units: 4 Terms Offered: SpSm Analysis of trends, problems, and the work of major figures in the contemporary theatre. Instruction Mode: Lecture Grading Option: Letter

THTR 526 Seminar in Dramatic Literature
Units: 4 Study and analysis of world drama best representing changes in philosophies, aesthetics, and tastes of audiences. Instruction Mode: Lecture Grading Option: Letter

THTR 527 Writing the Pacific Rim: Global and Western Dramatic Writing
Units: 4 Writing dramatically, utilizing the Pacific Rim and the Western United States as cultural sites of knowledge and as inspirations. Instruction Mode: Lecture Grading Option: Letter

THTR 528 Seminar in Dramatic Analysis
Units: 4 Terms Offered: Fa Drama as a living art; reading, analysis, and discussion of plays which best illustrate principles of effective playwriting. Instruction Mode: Lecture Grading Option: Letter

THTR 529a Textual Studies for Performance
Units: 4 Terms Offered: Fa Close textual reading of dramatic texts as a fundamental tool for rehearsal and performance. Instruction Mode: Lecture Grading Option: Letter

THTR 529b Textual Studies for Performance
Units: 4 Terms Offered: Sp Close textual reading of dramatic texts as a fundamental tool for rehearsal and performance. Instruction Mode: Lecture Grading Option: Letter

THTR 530 Seminar in Dramatic Criticism
Units: 4 Dramatic criticism from the classical Greek period to the modern. Instruction Mode: Lecture Grading Option: Letter

THTR 533 Seminar in the American Theatre
Units: 4, 2 years Terms Offered: SpSm History and literature of the American theatre from its beginning to the present day. Instruction Mode: Lecture Grading Option: Letter

THTR 535 Seminar in Aesthetics of the Theatre
Units: 4 Aesthetic theories which apply to the art of the theatre; emphasis upon acting and play direction. Instruction Mode: Lecture Grading Option: Letter

THTR 540a Advanced Voice Diction
Units: 2 Terms Offered: FaSp Advanced individual vocal development and application to a variety of professional and performance circumstances. Instruction Mode: Lecture Grading Option: Letter

THTR 540b Advanced Voice Diction
Units: 2 Terms Offered: FaSp Advanced individual vocal development and application to a variety of professional and performance circumstances. Instruction Mode: Lecture Grading Option: Letter

THTR 540c Advanced Voice Diction
Units: 2 Terms Offered: FaSp Advanced individual vocal development and application to a variety of professional and performance circumstances. Instruction Mode: Lecture Grading Option: Letter

THTR 540d Advanced Voice Diction
Units: 2 Terms Offered: FaSp Advanced individual vocal development and application to a variety of professional and performance circumstances. Instruction Mode: Lecture Grading Option: Letter

THTR 540e Advanced Voice Diction
Units: 2 Terms Offered: FaSp Advanced individual vocal development and application to a variety of professional and performance circumstances. *Corequisite:* THTR 515e, THTR 575, THTR 480, THTR 555. Instruction Mode: Lecture Grading Option: Letter

THTR 540f Advanced Voice Diction
Units: 2 Terms Offered: FaSp Advanced individual vocal development and application to a variety of professional and performance circumstances including voice-over work. *Prerequisite:* THTR 540e Instruction Mode: Lecture, Lab Grading Option: Letter

THTR 541 Diction and Dialects
Units: 2 Terms Offered: Fa Fundamentals of speech, diction, dialects and accents, including work in the International Phonetic Alphabet. Instruction Mode: Lecture Grading Option: Letter

THTR 542 Singing for Actors
Units: 2 An introduction to the various facets of singing in theatrical performance. Instruction Mode: Lecture Grading Option: Letter

THTR 544 Embodied Poetics
Units: 2 Terms Offered: Fa Explores the relationship between vocal and physical expression and the spontaneity of human impulse within the community-based context. Instruction Mode: Lecture Grading Option: Letter

THTR 545 Visiting Artists Master Seminar
Units: 4 Terms Offered: Sp A workshop taught by a master visiting artist, concentrating on his/her specific expertise in relation to dramatic writing. Course topics determined by the instructor. *Recommended Preparation:* reading or viewing the work of the visiting master artist. Instruction Mode: Lecture Grading Option: Letter

THTR 550a Seminar in Scene Design
Units: 3 Terms Offered: FaSp Theory and practice of scene design; an intensive investigation into the relationship of a script to the visual statement. Instruction Mode: Lecture Grading Option: Letter

THTR 550b Seminar in Scene Design
Units: 3 Terms Offered: FaSp Theory and practice of scene design; an intensive investigation into the relationship of a script to the visual statement. Instruction Mode: Lecture Grading Option: Letter

THTR 552a Seminar in Costume Design
Units: 3 Terms Offered: FaSp Theory and practice of costume design; intensive investigation into the relationship of a script to the visual statement. Instruction Mode: Lecture Grading Option: Letter

THTR 552b Seminar in Costume Design
Units: 3 Terms Offered: FaSp Theory and practice of costume design; intensive investigation into the relationship of a script to the visual statement. Instruction Mode: Lecture Grading Option: Letter

THTR 553a Seminar in Lighting Design
Units: 3 Terms Offered: FaSp Theory and practice of lighting design; intensive investigation into the relationship of a script to the visual statement. Instruction Mode: Lecture Grading Option: Letter

THTR 553b Seminar in Lighting Design
Units: 3 Terms Offered: FaSp Theory and practice of lighting design; intensive investigation into the relationship of a script to the visual statement. Instruction Mode: Lecture Grading Option: Letter

THTR 554 Visual and Spatial Relationship
Units: 2 Terms Offered: FaSp The illustration and understanding of how space can be used to add emotional undertone, contextual information and strong staging ideas to a production. Instruction Mode: Lecture Grading Option: Letter

THTR 555 Directing Fundamentals
Units: 2 To provide the basic foundations for the conceptualization and execution of works for the stage. Instruction Mode: Lecture Grading Option: Letter

THTR 556a Directing
Units: 2 A seminar/workshop in developing and testing directorial skills: text, design, acting, producing, and communication with an audience. *Prerequisite:* THTR 555. Instruction Mode: Lecture Grading Option: Letter

THTR 556b Directing
Units: 2 A seminar/workshop in developing and testing directorial skills: text, design, acting, producing, and communication with an audience. *Prerequisite:* THTR 556a. Instruction Mode: Lecture Grading Option: Letter

THTR 558a Design for Directors
Units: 2 Basic elements of scenic, costume, props, lighting, sound, and make-up design, as they apply to the art of directing. *Prerequisite:* THTR 555.

THTR 558b Design for Directors
Units: 2 Basic elements of scenic, costume, props, lighting, sound, and make-up design, as they apply to the art of directing. *Prerequisite:* THTR 558a.

THTR 566 Dramatic Writing Studio
Units: 4 Max Units: 24 Terms Offered: FaSp Investigates gestalt of the student dramatic writer's professional development from the empty page and writing fundamentals to the first-draft script, business affairs, and dramaturgical advancement. Instruction Mode: Lecture Grading Option: Letter

THTR 567a Studies in Playwriting
Units: 4 Extensive examination of playwriting, dramaturgical development process, and readings of work toward the completion of professionally promising plays. Instruction Mode: Lecture Grading Option: Letter

THTR 567b Studies in Playwriting
Units: 4 Continued extensive examination of playwriting, dramaturgy, development, and readings of work toward the completion of professionally promising plays. Instruction Mode: Lecture Grading Option: Letter

THTR 568 Popular Theatre for Education and Development
Units: 3 Terms Offered: Sp Theory and practice of Theatre in Education and Theatre for Development as resources for conscientization and liberation of communities at the margins of power. Instruction Mode: Lecture Grading Option: Letter

THTR 570 Acting on Camera: The Collaborative Process
Units: 2 Study of acting methods and techniques for the camera, focusing on collaboration with directors in the realization of screenplays. Instruction Mode: Lecture Grading Option: Letter

THTR 571 Professional Seminar
Units: 2 Terms Offered: Sp Introduction to the world of the professional actor. Instruction Mode: Lecture Grading Option: Letter

THTR 572 Global Dramatic Writing
Units: 4 Terms Offered: FaSp "Tour" of non-European and non-European American cultures with regard to their dramatic subject matter and traditions. Instruction Mode: Lecture Grading Option: Letter

THTR 574a Dramatic Writing Across Media for Playwrights
Units: 2 Terms Offered: Fa Intensive overview of career paths for playwrights in a wide array of media as they exist now, and as new opportunities arise. Duplicates Credit in former THTR 574 Instruction Mode: Lecture Grading Option: Letter

THTR 574b Dramatic Writing Across Media for Playwrights
Units: 2 Terms Offered: Sp Intensive overview of career paths for playwrights in a wide array of media as they exist now, and as new opportunities arise. *Prerequisite:* THTR 574a Duplicates Credit in former THTR 574 Instruction Mode: Lecture Grading Option: Letter

THTR 575 Creative Production Projects
Units: 6 Advanced creative projects for production with emphasis on theatre as a synthesis of the performing arts. Instruction Mode: Lecture Grading Option: Letter

THTR 576 Creative Process for Dramatic Writers
Units: 4 Terms Offered: Sp An advanced writing workshop that focuses on critical and deep development of plays that are the centerpieces of student's thesis portfolios. Instruction Mode: Lecture Grading Option: Letter

THTR 577 Theatre and Therapy for Cultural Fieldwork
Units: 3 Terms Offered: Sp Explores the theory and practice of theatre and therapy in the cultural fieldwork and community

development settings. *Recommended Preparation:* THTR 587. Instruction Mode: Lecture Grading Option: Letter

THTR 578 Theatre of the Oppressed: Theory, Games, and Techniques
Units: 4 Terms Offered: FaSpSm Basic theoretical foundations of game playing for populations at the margins of power. *Recommended Preparation:* THTR 521, THTR 544. Instruction Mode: Lecture Grading Option: Letter

THTR 579 Writing Culture
Units: 3 Terms Offered: FaSpSm Borrows from anthropology, popular/community-based theatre, cultural studies, and literature to provide an array of methodologies and approaches to artistic collaboration across cultures and difference. Instruction Mode: Lecture Grading Option: Letter

THTR 580a Performance with Camera
Units: 2 Terms Offered: FaSp Structured to address the dynamics of acting in relation to film/television. Refining the students' understanding of the similarities/differences between acting on stage/film. Instruction Mode: Lecture Grading Option: Letter

THTR 580b Performance with Camera
Units: 2 Terms Offered: FaSp Structured to address the dynamics of acting in relation to film/television. Refining the students' understanding of the similarities/differences between acting on stage/film. *Prerequisite:* THTR 580a Instruction Mode: Lecture Grading Option: Letter

THTR 586a Applied Theatre Arts: Los Angeles Residency
Units: 2 Terms Offered: FaSp Academic and group process context for students' work in their chosen local internships to help students engage with communities as cultural fieldworkers. Instruction Mode: Lecture Grading Option: Letter

THTR 586b Applied Theatre Arts: Los Angeles Residency
Units: 2 Terms Offered: FaSp Supervisory, logistical, and theoretical container for THTR 586a. Engages students in their curricular experiences in the cultural field in partnership with their community-based organizations. Instruction Mode: Lecture Grading Option: Letter

THTR 587 Liberation Arts and Community Engagement — Theory
Units: 4 Terms Offered: Fa Historical foundations of liberatory movements using expressive arts towards community-based goals of reciprocal and collaborative empowerment, civil rights, psychological or political freedom and justice. Instruction Mode: Lecture Grading Option: Letter

THTR 588 Liberation Arts and Community Engagement — Praxis
Units: 3 Terms Offered: Sp Theory and practice of developing liberatory and Theatre of the Oppressed events, from first community contact to staged public event. *Prerequisite:* THTR 587. Instruction Mode: Lecture Grading Option: Letter

THTR 590 Directed Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Terms Offered: FaSpSm Research leading to the master's degree. Maximum units which may be applied to the degree to be determined by the department. Instruction Mode: Lecture Grading Option: Credit/No Credit

THTR 591 Seminar in Producing Theatre
Units: 4 A seminar in the theories and processes of producing theatre (commercial and non-profit).

THTR 592a Participatory Action Research for Community-based Theatre
Units: 2 Terms Offered: FaSp Examination of theories and practices of Participatory Action Research (PAR) to better understand its various forms in community-based contexts using theatre as the research mode. Instruction Mode: Lecture Grading Option: Letter

THTR 592b Participatory Action Research for Community-based Theatre
Units: 2 Terms Offered: Sm Implements the theories and practices of THTR 592a towards the creation of a summative research paper on the local and international applied theatre arts experience. Instruction Mode: Lecture Grading Option: Letter

THTR 593 MFA Project
Units: 2 Max Units: 4.0 Terms Offered: FaSpSm Credit awarded upon completion of project. Instruction Mode: Lecture Grading Option: Credit/No Credit

THTR 594a Master's Thesis
Units: 2 Terms Offered: FaSpSm Credit on acceptance of thesis. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

THTR 594b Master's Thesis
Units: 2 Terms Offered: FaSpSm Credit on acceptance of thesis. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

THTR 594z Master's Thesis
Units: 0 Terms Offered: FaSpSm Credit on acceptance of thesis. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

THTR 595a Graduate Playwrights' Workshop
Units: 4 Development of thesis plays utilizing faculty dramaturgical support and involvement of student actors/directors. Includes readings with/without audiences. Simulates professional development process Instruction Mode: Lecture Grading Option: Letter

THTR 595b Graduate Playwrights' Workshop
Units: 4 Continued development of thesis plays in a simulated professional development workshop process utilizing dramaturgy and involvement of student actors/directors. Culminates in staged readings. Instruction Mode: Lecture Grading Option: Letter

THTR 596 Thesis Development and Attainment
Units: 2 Max Units: 10.0 Designed to guide the MFADW student toward refinement of thesis including vision, development, and execution. Instruction Mode: Lecture Grading Option: Letter

THTR 597 Theatre Practicum
Units: 1, 2, 3, 4 Max Units: 12.0 Terms Offered: FaSpSm Preparation, rehearsal, and performance of dramatic works in main stage repertory. Instruction Mode: Lecture Grading Option: Letter

THTR 598 Applied Theatre Arts: International Externship
Units: 2 Supervisory, logistical and theoretical container for students exploring cultural fieldwork in international settings. *Prerequisite:* THTR 588. Instruction Mode: Lecture Grading Option: Letter

THTR 599 Special Topics
Units: 2, 3, 4 Max Units: 8.0 Studies in selected areas of theatre art. Instruction Mode: Lecture Grading Option: Letter

Dramatic Arts Expanded

THTE 201aL Acting for Musical Theatre
Units: 2 Terms Offered: Fa Analysis and investigation of role interpretation and character development by working on two or more scenes from the same play. Introduction of techniques to unlock objectives based on the text. *Prerequisite:* THTR 120b and THTR 125 Registration Restriction: Open only to Musical Theatre students Instruction Mode: Lecture, Lab Required Grading Option: Letter

THTE 201b Acting for Musical Theatre
Units: 2 Terms Offered: Sp Continuation of analysis and investigation of role interpretation and character development by working on two or more scenes from the same play. Introduction of techniques to unlock objectives for character creation. *Prerequisite:* THTE 201aL Registration Restriction: Open only to Musical Theatre students Instruction Mode: Lecture Grading Option: Letter

THTE 203 Speech
Units: 2 Terms Offered: Sp A guided study of dialect acquisition. Registration Restriction: Open only to Musical Theatre students Instruction Mode: Lecture Grading Option: Letter

THTE 300L Script and Score
Units: 2 Terms Offered: Fa Introduction and development of techniques needed to transition from the script to score. Beginning with an exploration of Broadway's "Golden Age" and the examination of Sondheim and his contemporaries. *Prerequisite:* THTR 120aL and THTR 120b and THTR 125 Instruction Mode: Lecture, Lab Required Grading Option: Letter

THTE 301L Script, Score and Choreography
Units: 2 Terms Offered: Sp Study of the musical comedy and the connection between script, score and choreography. *Prerequisite:* THTR 120aL and THTR 120b and THTR 125 Registration Restriction: Open only to Musical Theatre students Instruction Mode: Lecture, Lab Required Grading Option: Letter

THTE 403L Contemporary Scene Into Song
Units: 2 Terms Offered: Fa Exploration of popular music styles and their direct application to professional musical theatre. Registration Restriction: Open only to Musical Theatre juniors and seniors Instruction Mode: Lecture, Lab Required Grading Option: Letter

THTE 406 New Musical Theatre Workshop
Units: 2 Terms Offered: Fa Exploration of the process of collaboration for musical theatre through a series of structured writing exercises to create new works.

Prerequisite: THTR 125 Registration Restriction: Open only to Musical Theatre students Instruction Mode: Lecture, Lab Grading Option: Letter

THTE 407 Building Your Cabaret
Units: 2 Terms Offered: Sp Development of skills needed to create a solo musical cabaret performance. Registration Restriction: Open only to Musical Theatre students Instruction Mode: Lecture Grading Option: Letter

THTE 408L Movie Musical Development
Units: 2 Terms Offered: Sp Survey and analysis of musical films from the 1960s to the present towards the creation of an original musical project. *Prerequisite:* THTR 480a Registration Restriction: Open only to Musical Theatre seniors Instruction Mode: Lecture, Lab Required Grading Option: Letter

Translational Genomics

TRGN 510 Basic Foundations in Translational Biomedical Informatics
Units: 4 Terms Offered: FaSp Translational biomedical informatics analysis of next-generation sequencing genomic data, fundamentals, foundations, and concepts for applied analysis, human ontology, application molecular tools, basic computing. Instruction Mode: Lecture Grading Option: Letter

TRGN 514 Introduction to Human Genomic Analysis Methods
Units: 4 Terms Offered: FaSp Translational next generation sequencing genomics microarrays, RNA-seq, exome sequencing, annotation, transcriptome, ontology, pipelines, variants, expression, methylation. Instruction Mode: Lecture Grading Option: Letter

TRGN 515 Advanced Human Genomic Analysis Methods
Units: 4 Terms Offered: FaSp Molecular biotechnology, genomics, next-generation sequencing, epigenomics, drug discovery, biomarkers, microrarrays, analytical validation, pipelines, molecular analysis. *Prerequisite:* TRGN 510 and TRGN 514 Instruction Mode: Lecture Grading Option: Letter

TRGN 516 Translational Genomics, Applied Databases and Datastructures
Units: 4 Terms Offered: FaSp Genomics, bioinformatics resources, NCBI, portals, databases, datastructures, NoSQL, SQL, big data. *Prerequisite:* TRGN 510 and TRGN 514 Instruction Mode: Lecture Grading Option: Letter

TRGN 520 Translational Biomedical Informatics Capstone Portfolio
Units: 2, 3, 4 Max Units: 04 Terms Offered: FaSpSm Portfolio, translational biomedical informatics, bioinformatics, genomics, application development, web-based application. Registration Restriction: Open only to master students in Translational Biomedical Informatics Program Instruction Mode: Lecture Grading Option: Credit/No Credit

TRGN 524 Applications of Genomic Technology in Biomedical Research I
Units: 4 Terms Offered: FaSp Molecular biotechnology, genomics, next-generation sequencing, epigenomics, drug discovery, biomarkers, microrarrays, commercialization, microarray analysis, expression, proteomics. Instruction Mode: Lecture Grading Option: Letter

TRGN 525 Applications of Genomic Technology in Biomedical Research II
Units: 4 Terms Offered: FaSp Molecular biotechnology, genomics, next-generation sequencing, epigenomics, drug discovery, biomarkers, microarrays, analytical validation, pipelines, molecular analysis, cloning, stem cells. *Prerequisite:* TRGN 524 Instruction Mode: Lecture Grading Option: Letter

TRGN 526 Clinical Bioinformatics in Genomic Testing
Units: 2 Terms Offered: FaSp Covers basic understandings of clinical bioinformatics methodologies and practices, along with the genomic technologies used for clinical diagnostic purposes. *Recommended Preparation:* Bachelor's degree in biology, healthcare, biochemistry, or related biomedical field Registration Restriction: Open only to master students Instruction Mode: Lecture Grading Option: Letter

TRGN 527 Applied Data Science and Bioinformatics
Units: 4 Terms Offered: FaSp Data science and bioinformatics tools in the study of human health and disease using R and Bioconductor for students from non-quantitative backgrounds. Registration Restriction: Open only to graduate and doctoral students Instruction Mode: Lecture Grading Option: Letter

TRGN 536 Biotechnology Primer
Units: 4 Terms Offered: FaSp Examination of classical and novel techniques used to explore and manipulate gene function and implications for the use of biotechnology in areas of global need. Recommended preparation: two semesters of introductory biology; two semesters of molecular biology and genetics. *Recommended Preparation:* Two semesters of introductory biology; two semesters of molecular biology and genetics Duplicates Credit in former MEDS 536 Instruction Mode: Lecture Grading Option: Letter

TRGN 537 Pathway and Target Discovery
Units: 4 Terms Offered: FaSp Exploration of the process of discovering and developing novel therapeutic treatments. *Recommended Preparation:* Two semesters of Introductory Biology plus two semesters of Molecular Biology, Genetics, or Cell Bio Duplicates Credit in former MEDS 537 Instruction Mode: Lecture Grading Option: Letter

TRGN 538 Seminar in Translational Biotechnology
Units: 2 Terms Offered: FaSp Series of seminars that provide updated views on various sub-specialties in biotechnology. *Recommended Preparation:* Two semesters of Introductory Biology plus two semesters of Molecular Biology, Genetics, or Cell Bio Duplicates Credit in former MEDS 538 Instruction Mode: Lecture Grading Option: Letter

TRGN 539 Translational Biotechnology Practicum
Units: 2, 3, 4 Max Units: 04 Terms Offered: FaSpSm Experiential training based on a project in a biomedical, biotechnology or pharmaceutical setting. *Recommended Preparation:* Students must have completed one core and one elective course of the program prior to enrollment Duplicates Credit in former MEDS 539 Instruction Mode: Lecture Grading Option: Credit/No Credit

TRGN 540 Translational Biotechnology Capstone Preparation
Units: 1 Terms Offered: FaSpSm Preparation for capstone defense course. Duplicates Credit in former MEDS 540 Instruction Mode: Lecture Grading Option: Credit/No Credit

TRGN 541 Translational Biotechnology Capstone Defense
Units: 2 Terms Offered: FaSpSm Finalization and defense of capstone project. *Prerequisite:* TRGN 539 and TRGN 540 Duplicates Credit in former MEDS 541 Instruction Mode: Lecture Grading Option: Credit/No Credit

TRGN 542 Biotechnology-based Therapeutics
Units: 2 Terms Offered: FaSp Covers advanced biotechnology principles and applications. Duplicates Credit in former MEDS 542 Instruction Mode: Lecture Grading Option: Letter

TRGN 543 Biotechnology Entrepreneurship and Commercialization I
Units: 2 Terms Offered: FaSp Global biotechnology industry, idea generation, business plan formulation, intellectual property protection, funding, personnel management including board composition, regulatory body interaction, company exits. Instruction Mode: Lecture Grading Option: Letter

TRGN 544 Biotechnology Entrepreneurship and Commercialization II
Units: 2 Terms Offered: FaSp Advanced discussion: global biotechnology industry, idea generation, business plan formulation, intellectual property protection, funding, personnel management including board composition, regulatory body interaction, company exits. *Prerequisite:* TRGN 543 Instruction Mode: Lecture Grading Option: Letter

TRGN 545 Exploring Chemical and Biological Therapeutic Modalities
Units: 2 Terms Offered: FaSp Turning molecules into drugs and cells into therapeutics. Emphasizing selection, development and optimization of appropriate modalities to target specific key defects in diseases. Instruction Mode: Lecture Grading Option: Letter

TRGN 546 Biotechnology Intellectual Property, Regulatory, and Corporate Law
Units: 2 Terms Offered: FaSp Core concepts in intellectual property law, regulatory law, healthcare law, corporate law, and M&A law to the biopharmaceutical and diagnostic device sectors. Open to students who are pursuing or have already attained graduate degrees (MS, PhD or PharmD) in the bioscience disciplines, or students from professional schools who have college-level bioscience background. Registration Restriction: Open only to graduate and professional students Instruction Mode: Lecture Grading Option: Letter

TRGN 548 Seminar in Translation and Entrepreneurship in Biomedical Sciences
Units: 1 Max Units: 02 Terms Offered: FaSp Series of seminars that provide updated views on various sub-specialties in translation and entrepreneurship in biomedical sciences. Instruction Mode: Lecture Grading Option: Letter

TRGN 549 Translation and Entrepreneurship in Biomedical Science Capstone Project
Units: 2 Terms Offered: FaSpSm Experiential training based on a project in translation and entrepreneurship in biomedical sciences. Registration Restriction: Open only to TEBS majors Instruction Mode: Lecture Grading Option: Credit/No Credit

TRGN 550 Communicating Science: Writing
Units: 1 Terms Offered: FaSp Written communication modalities for accurate and effective transmission of scientific information to a wide audience in biomedical, healthcare, and related industries. Registration Restriction: Open only to graduate and professional students Instruction Mode: Lecture Grading Option: Letter

TRGN 551 Communicating Science: Speaking
Units: 1 Terms Offered: FaSp Verbal communication modalities for accurate and effective transmission of scientific information to a wide audience in biomedical, healthcare, and related industries. Registration Restriction: Open only to graduate and professional students Instruction Mode: Lecture Grading Option: Letter

TRGN 590 Directed Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Max Units: 12 Terms Offered: FaSpSm Research leading to the master's degree. Maximum units which may be applied to the degree to be determined by the department. Registration Restriction: Open only to students enrolled in MS, Translational Biotechnology Instruction Mode: Lecture Grading Option: Credit/No Credit

TRGN 599 Special Topics
Units: 1, 2, 3, 4, 5, 6, 7, 8 Max Units: 08 Selected topics in Translational Genomics. Instruction Mode: Lecture Grading Option: Letter

University of Southern California

USC 101 Honors Research Apprenticeship
Units: 1 Max Units: 2.0 Students work directly with faculty on faculty research projects, gain experience in the process of research and thereby contribute to new scholarship. Instruction Mode: Lecture Grading Option: Credit/No Credit

USC 250 The Academic Culture
Units: 2 Terms Offered: FaSp Study the meaning of culture in society, experience the culture of learning on campus, and examine the relationship between the two. Topics will vary. Instruction Mode: Lecture Grading Option: Credit/No Credit

Visual Studies

VISS 501 Introduction to Visual Studies: Methods and Debates
Units: 4 Terms Offered: Fa A critical introduction to the field of visual studies focusing on interdisciplinary approaches to images, objects, and visual technologies as well as key texts and interpretive debates. Registration Restriction: Open only to doctoral students Duplicates Credit in MDA 501 Instruction Mode: Lecture Grading Option: Letter

VISS 599 Special Topics
Units: 1, 2, 3, 4, 5, 6, 7, 8 Max Units: 08 Terms Offered: FaSp Special Topics in Visual Studies. Registration Restriction: Open only to doctoral students Instruction Mode: Lecture Grading Option: Letter

Writing Program

WRIT 095x Writing Tutorial
Units: 1 Terms Offered: FaSpSm Individualized instruction in writing to support instruction in WRIT 120. *Concurrent Enrollment:* WRIT 120 Credit Restriction: Not available for degree credit Instruction Mode: Lecture Grading Option: Credit/No Credit

WRIT 120 Introduction to College Writing
Units: 4 Terms Offered: FaSpSm Intensive instruction and practice in the writing process. Focuses upon the formal conventions and conceptual expectations of college writing, with emphasis upon the grammatical, stylistic, and rhetorical techniques required in successful writing. Limited to and required of students who score below specified level on the USC Writing Examination. Instruction Mode: Lecture Grading Option: Credit/No Credit

WRIT 121 Introduction to College Writing in a Second Language
Units: 4 Terms Offered: FaSp Intensive instruction and practice in the writing process for non-native speakers of English. Focuses on the formal and conceptual conventions of college writing, with emphasis upon the grammatical, stylistic, and rhetorical techniques required in successful writing. Limited to and required of students who score below specified level on the USC Writing Examination. Instruction Mode: Lecture Grading Option: Credit/No Credit

WRIT 130 Analytical Writing
Units: 4 Terms Offered: Sp Focuses on analytical and argumentative writing skills requisite to academic and professional writing. Emphasizes logical analysis of texts and other data, effective use of evidence, ethical argumentation, and stylistic and grammatical fluency. Enrollment limited to specified groups of students. Students must achieve a satisfactory score on the verbal portion of the SAT, the USC Writing Examination, or credit for WRIT 120 or WRIT 121 before enrolling in WRIT 130. Instruction Mode: Lecture Grading Option: Letter

WRIT 133 College Writing for International Students
Units: 4 College writing for International Students, emphasizing the expectations of academic discourse in U.S. higher education while drawing upon a context informed by cross-cultural perspectives. *Recommended Preparation:* International Academy course work. Instruction Mode: Lecture Grading Option: Letter

WRIT 150 Writing and Critical Reasoning–Thematic Approaches
Units: 4 Terms Offered: FaSpSm Academic writing, emphasizing analysis and argumentation, rhetorical judgment, critical reasoning, creative insight, the careful use of evidence, ethical perspectives, logical organization, stylistic and grammatical fluency. Duplicates Credit in WRIT 130 and former WRIT 140. Instruction Mode: Lecture Grading Option: Letter

WRIT 320 Inside-Out Writing Workshop
Units: 2 Terms Offered: FaSpSm A writing workshop that allows students to deepen their writing skills while working collaboratively with diverse groups, programs, or populations outside of USC. *Prerequisite:* WRIT 150 or WRIT 130 Instruction Mode: Lecture Grading Option: Letter

WRIT 340 Advanced Writing
Units: 3, 4 Terms Offered: FaSpSm Instruction in writing for various audiences on topics related to a student's professional or disciplinary interests, with some emphasis on issues of broad public concern. *Prerequisite:* WRIT 130 or WRIT 150. Instruction Mode: Lecture Grading Option: Letter

WRIT 380 Writing in Global Contexts
Units: 2, 4 Terms Offered: FaSpSm Integrates global travel with experiential learning as a means of helping students to sharpen their writing and critical reasoning skills. *Prerequisite:* WRIT 150 or WRIT 130 *Recommended Preparation:* WRIT 340 Instruction Mode: Lecture Grading Option: Letter

WRIT 385 Writing Fellows Practicum
Units: 2 Terms Offered: FaSpSm WRIT 340 Practical, hands-on instruction in the teaching of writing in different contexts. *Prerequisite:* WRIT 150 *Recommended Preparation:* WRIT 340 Instruction Mode: Lecture Grading Option: Letter

WRIT 440 Writing in Practical Contexts
Units: 4 Terms Offered: FaSpSm Advanced training in analytical and argumentative writing for particular purposes, in professional and practical contexts. *Prerequisite:* CORE 112 or WRIT 340. Instruction Mode: Lecture Grading Option: Letter

WRIT 450 Advanced Research Writing
Units: 4 Terms Offered: FaSpSm Instruction in writing and research techniques in support of a capstone undergraduate research thesis in the humanities, social sciences, or sciences *Prerequisite:* WRIT 150 and WRIT 340 Registration Restriction: Not open to freshman and sophomore students Instruction Mode: Lecture Grading Option: Letter

WRIT 499 Special Topics
Units: 1, 2, 4 Max Units: 08 Selected topics of current interest. Instruction Mode: Lecture Grading Option: Letter

WRIT 501a Theory and Practice in Teaching Expository Writing
Units: 1 Terms Offered: Fa Pedagogical application of rhetorical and linguistic theory to teaching university-level expository writing. Accompanies supervised teaching. Limited to assistant lecturers and teaching assistants. Instruction Mode: Lecture Grading Option: Credit/No Credit

WRIT 501b Theory and Practice in Teaching Expository Writing
Units: 1 Terms Offered: Fa Pedagogical application of rhetorical and linguistic theory to teaching university-level expository writing. Accompanies supervised teaching. Limited to assistant lecturers and teaching assistants. Instruction Mode: Lecture Grading Option: Credit/No Credit

WRIT 540 Writing for Master's Students
Units: 4 Terms Offered: FaSpSm Instruction to prepare Master's students for writing in academic and professional contexts. Registration Restriction: Open only to master students Instruction Mode: Lecture Grading Option: Letter

About the Catalogue

The USC Catalogue is the document of authority for all students. The program requirements listed in the USC Catalogue supersede any information that may be contained in any bulletin of any school or department. The university reserves the right to change its policies, rules, regulations, requirements for graduation, course offerings and any other contents of this catalogue at any time.

University Park Campus
Los Angeles, California 90089
(213) 740-2311

Contact Us

The USC Catalogue is published online annually in June. A print version is no longer offered though the Web pages are easily printable. (Look for the icon in the upper-right corner of each page.) Once the Catalogue is published, changes can only be made to correct inaccuracies. From October through May, the Catalogue Office is in production on the next year's Catalogue, known as the "Production" Catalogue. The Catalogue Office works in conjunction with the Curriculum Coordination Office to update curricular information in the upcoming Catalogue during the production months. For information, contact the Catalogue Office at regpub@usc.edu.

Credits

The *USC Catalogue* is published by the Office of the Registrar, Catalogue Office, regpub@usc.edu. The catalogue publishes online in June 2020 as the document of authority for the following academic year.

Managing Editor: Diane Ver Steeg Anderson

Curriculum Administrator: John DeMartini

Contributing Editors: Julie Wood, Lesley Zanich (The Oak Co)
