Joint Educational Project **321**
Jewish Studies **321**
Jewish American Studies Minor (Jewish Studies) 322
Judaic Studies Minor 322
Latin American and Iberian Cultures **322**
Latin American and Iberian Cultures, Media and Politics 323
Spanish (BA) 324

Latin American Studies Minor . . . 324
Luso-Brazilian Studies Minor . . . 325
Spanish Minor . . . 325
Learner Centered Curricula . . . 325
Linguistics . . . 326
Computational Linguistics (BS) . . . 327
Linguistics (BA) . . . 327
Linguistics and Cognitive Science (BA) . . . 327
Linguistics and East Asian Languages and Cultures (BA) . . . 327
Linguistics and Philosophy (BA) . . . 328
Linguistics Minor . . . 328
Linguistics (MA) . . . 328
Linguistics (PhD) . . . 329
Linguistics (Specialization in East Asian Linguistics) (PhD) . . . 329
Mathematical Finance . . . 330
Mathematical Finance Minor . . . 330
Mathematical Finance (MS) . . . 331
Mathematics . . . 332
Applied and Computational Mathematics (BA) . . . 333
Applied and Computational Mathematics (BS) . . . 334
Mathematics (BA) . . . 335
Mathematics (BS) . . . 335
Mathematics/Economics (BS) . . . 335
Mathematical Data Analytics Minor . . . 336
Mathematics Minor . . . 336
Statistics Minor . . . 336
Applied Mathematics (MA) . . . 337
Applied Mathematics (MS) . . . 337
Mathematics (MA) . . . 338
Statistics (MS) . . . 338
Applied Mathematics (PhD) . . . 339
Mathematics (PhD) . . . 340
Middle East Studies . . . 341
Middle East Studies (BA) . . . 341
Arabic Minor . . . 343
Iranian Studies Minor . . . 343
Middle East Studies Minor . . . 343
Multidisciplinary Activities . . . 344
Neuroscience (Undergraduate) . . . 345
Computational Neuroscience (BS) . . . 345
Neuroscience (BA) . . . 346
Neuroscience (BS) . . . 347
Neuroscience Minor . . . 348
Ocean Sciences . . . 348
Ocean Sciences (MS) . . . 349
Ocean Sciences (PhD) . . . 349
Philosophy . . . 350
Philosophy (BA) . . . 351
Philosophy and Physics (BA) . . . 351
Philosophy, Politics and Economics (BA) . . . 352
Philosophy, Politics and Law (BA) . . . 353
Philosophy Minor . . . 354
Philosophy of Law, Politics and Economics Minor . . . 354
Philosophy (MA) . . . 355
Philosophy and Law (MA) . . . 355
Master of Arts, Philosophy/Juris Doctor (MA/JD) . . . 355
Philosophy (PhD) . . . 355
Physical Education . . . 356
Physics and Astronomy . . . 357
Astronomy (BA) . . . 357
Astronomy (BS) . . . 358

Biophysics (BS) . . . 358
Physical Sciences (BS) . . . 358
Physics (BA) . . . 358
Physics (BS) . . . 359
Physics/Computer Science (BS) . . . 359
Astronomy Minor . . . 359
Physics Minor . . . 359
Physical Biology (MS) . . . 360
Physics (MA) . . . 361
Physics (MS) . . . 361
Physical Biology (PhD) . . . 361
Physics (PhD) . . . 363
Political Science . . . 364
Political Science (BA) . . . 364
Human Rights Minor . . . 365
Law and Society Minor . . . 365
Political Organizing in the Digital Age Minor . . . 366
Political Science Minor . . . 366
Practical Politics Minor . . . 367
Race, Ethnicity and Politics Minor . . . 367
Political Science and International Relations . . . 368
Political Science and International Relations (MA) . . . 370
Doctor of Philosophy in Political Science and International Relations/Juris Doctor (PhD/JD) . . . 370
Political Science and International Relations (PhD) . . . 370
Center for the Political Future . . . 372
Psychology . . . 372
Cognitive Science (BA) . . . 374
Psychology (BA) . . . 375
Social Sciences, with an Emphasis in Psychology (BA) . . . 375
Consumer Behavior Interdisciplinary Minor . . . 375
Psychology and Law Minor . . . 375
Psychology Minor . . . 376
Applied Behavior Analysis (MS) . . . 376
Applied Psychology (MS) . . . 376
Computational Psychology (MS) . . . 376
Psychology (MA) . . . 377
Doctor of Philosophy in Psychology (Clinical) and Master of Public Health (Health Promotion) (PhD/MPH) . . . 377
Psychology (PhD) . . . 377
Quantitative and Computational Biology . . . 378
Quantitative Biology (BS) . . . 379
Computational Biology and Bioinformatics Minor . . . 380
Computational Molecular Biology (MS) . . . 380
Quantitative and Computational Biology (MS) . . . 381
Computational Biology and Bioinformatics (PhD) . . . 381
Religion . . . 382

Religion Minor . . . 386
Jewish Studies Graduate Certificate . . . 387
Religious Studies Certificate . . . 387
Religion (PhD) . . . 387
Slavic Languages and Literatures . . . 389
Central European Studies (BA) . . . 389
Russian (BA) . . . 390
Russian Area Studies Minor . . . 390

Russian Minor . . . 390
Slavic Languages and Literatures (PhD) . . . 390
Sociology . . . 391
Health and Human Sciences (BA) . . . 392
Non-Governmental Organizations and Social Change (BA) . . . 393
Sociology (BA) . . . 394
Forensics and Criminality Minor . . . 395
Managing Human Relations Minor . . . 395
Photography and Social Change Minor . . . 396
Sociology Minor . . . 396
Science and Technology Studies Graduate Certificate . . . 397
Sociology (PhD) . . . 397
Sophomore Seminars . . . 398
Spatial Sciences Institute . . . 398
Geodesign (BS) . . . 400
Global Geodesign (BS) . . . 401
Human Security and Geospatial Intelligence (BS) . . . 401
GIS and Sustainability Science Minor . . . 402
Human Security and Geospatial Intelligence Minor . . . 402
Spatial Studies Minor . . . 402
Geographic Information Science and Technology (MS) . . . 403
Global Security Studies (MA) . . . 404
Human Security and Geospatial Intelligence (MS) . . . 404
Population, Health and Place (MS) . . . 404
Spatial Data Science (MS) . . . 405
Spatial Economics and Data Analysis (MS) . . . 405
Geographic Information Science and Technology Graduate Certificate . . . 406
Geospatial Intelligence Graduate Certificate . . . 406
Geospatial Leadership Graduate Certificate . . . 406
Remote Sensing for Earth Observation Certificate . . . 407
Spatial Analytics Graduate Certificate . . . 407
Population, Health and Place (PhD) . . . 407
Thematic Option . . . 408
Thematic Approaches to Humanities and Society Minor . . . 408
The Writing Program . . . 409

USC Annenberg School for Communication and Journalism . . . 411
School of Communication . . . 411
Communication (BA) . . . 415
Communication Policy and Law Minor . . . 415
Communication Technology Practices and Platforms Minor . . . 416
Cultural Diplomacy Minor . . . 416
Culture, Media and Entertainment Minor . . . 417
Justice, Voice, and Advocacy Minor . . . 417
Media Economics and Entrepreneurship Minor . . . 418
Professional and Managerial Communication Minor . . . 418
Sports Media Studies Minor . . . 418
Communication (MA) . . . 419
Communication Management (MCG) . . . 419
Digital Media Management (MS) . . . 419
Digital Social Media (MS) . . . 420
Global Communication (MA) . . . 420
Public Diplomacy (MPD) . . . 420
Public Diplomacy (Practitioner and Mid-Career Professional) (MPD) . . . 420
Master of Communication Management/Juris Doctor (MCG/JD) . . . 421
Master of Communication Management/Master of Arts, Jewish Nonprofit Management (MCG/MA) . . . 421
Health Communication Management Graduate Certificate . . . 421
International and Intercultural Communication Management Graduate Certificate . . . 421
Marketing Communication Management Graduate Certificate . . . 421
Media and Entertainment Management Graduate Certificate . . . 422
New Communication Technologies Graduate Certificate . . . 422

Strategic Corporate and Organizational Communication Management Graduate Certificate 422
Communication (PhD) 422
School of Journalism 424
Journalism (BA) 427
Public Relations (BA) 428
Advertising Minor 428
News Media and Society Minor 428
Nonprofits, Philanthropy and Volunteerism Interdisciplinary Minor 428
Podcasting Minor 429
Public Relations Minor 429
Sports Media Industries Minor 429
Journalism (MS) 429
Public Relations and Advertising (MA) 430
Specialized Journalism (MA) 431
Specialized Journalism (The Arts) (MA) 434
Journalism Certificate 435
Public Policy Advocacy Graduate Certificate 435
USC Kaufman School of Dance 436
Dance (BFA) 436
Choreography for Stage and Screen Minor 439
Dance in Entertainment Minor 440
Dance Minor 440
Hip Hop, Street and Social Dance Forms Minor 441
Herman Ostrow School of Dentistry of USC 443
Craniofacial and Dental Technology Minor 447
Advanced Orofacial Pain and Oral Medicine (MS) 448
Biomaterials and Digital Dentistry (MS) 448
Biomedical Implants and Tissue Engineering (MS) 449
Community Oral Health (MS) 449
Geriatric Dentistry (MS) 449
Advanced Orthodontics Certificate 450
Community Oral Health Certificate 450
Geriatric Dentistry Graduate Certificate 451
Oral Pathology and Radiology Certificate 451
Orofacial Pain Certificate 451
Dental Surgery (DDS) 451
Advanced Placement Doctoral Dental Degree 455
Advanced Standing Program for International Dentists 455
Craniofacial Biology 457
Craniofacial Biology (MS) 457
Craniofacial Biology Certificate 457
Craniofacial Biology (PhD) 458
Advanced Programs in Dental Education 458
Advanced Periodontology Certificate/Master of Science, Craniofacial Biology 459
General Practice Residency 460
Advanced Endodontics Certificate 461
Advanced Operative and Adhesive Dentistry Certificate 461
Advanced Operative and Adhesive Dentistry Certificate/MS, Craniofacial Biology 462
Advanced Oral and Maxillofacial Surgery 463
Advanced Orofacial Pain Certificate 463
Advanced Pediatric Dentistry Certificate 463
Advanced Periodontology Certificate 464
Advanced Prosthodontics Certificate 465
Integrated MD Degree/Oral and Maxillofacial Surgery Certificate Program 466
USC School of Dramatic Arts 467
Acting for the Stage, Screen and New Media (BFA) 468
Musical Theatre (BFA) 469
Theatre (BA) 470
Theatre, Acting Emphasis (BA) 470
Theatre, Comedy Emphasis (BA) 471

Theatre, Design Emphasis (BA) . . . 472
Theatre, Design Emphasis (BFA) . . . 472
Theatre, Sound Design Emphasis (BFA) . . . 473
Theatre, Stage Management Emphasis (BFA) . . . 474
Theatre, Technical Direction Emphasis (BFA) . . . 475
Visual and Performing Arts Studies (BA) . . . 475
Comedy (Performance) Minor . . . 476
Performing Arts Studies Minor . . . 477
Performing Leadership Minor . . . 477
Performing Social Change Minor . . . 477
Playwriting Minor . . . 477
Theatre Minor . . . 478
Applied Theatre Arts (MA) . . . 478
Theatre (MFA) . . . 478

USC Rossier School of Education . . . 480
Graduate Degrees . . . 481
Credential Programs . . . 481
Special Programs . . . 482
Programs . . . 482
Education and Computing Minor . . . 482
Education and Society Minor . . . 483
Mathematics Education Minor . . . 483
Multilingualism and Multiculturalism Minor . . . 483
Teaching English to Speakers of Other Languages (TESOL) Minor . . . 483
The Dynamics of Early Childhood Minor . . . 483
Alternative Certification Master of Arts in Teaching, Multiple Subject . . . 484
Alternative Certification Master of Arts in Teaching, Single Subject . . . 484
Educational Counseling (MEd) . . . 484
Enrollment Management and Policy (MEd) . . . 484
Learning Design and Technology (MEd) . . . 485
Marriage and Family Therapy (MS) . . . 485
Multiple Subject (MAT) . . . 485
Postsecondary Administration and Student Affairs (MEd) . . . 486
School Counseling (MEd) . . . 486
School Leadership (MEd) . . . 486
Single Subject (MAT) . . . 486
Teaching English to Speakers of Other Languages (World Masters in Language Teaching) (MAT) . . . 487
Teaching, Teaching English to Speakers of Other Languages (MAT) . . . 488
Gifted Education Certificate . . . 488
Learning Design and Technology Graduate Certificate . . . 488
Pupil Personnel Services Certificate . . . 488
Educational Leadership (EdD) . . . 488
Global Executive (EdD) . . . 489
Organizational Change and Leadership (EdD) . . . 490
Urban Education Policy (PhD) . . . 490

USC Viterbi School of Engineering . . . 492
Degrees and Accreditation . . . 492
Undergraduate Degrees and Requirements . . . 493
Graduate Degrees and Requirements . . . 496
Engineering . . . 500
Aerospace and Mechanical Engineering . . . 500
Aerospace Engineering (BS) . . . 501
Mechanical Engineering (BS) . . . 502
Mechanical Engineering, Petroleum Engineering (BS) . . . 503
Aerospace and Mechanical Engineering (Computational Fluid and Solid Mechanics) (MS) . . . 504
Aerospace and Mechanical Engineering (Dynamics and Control) (MS) . . . 504
Aerospace Engineering (MS) . . . 505

Mechanical Engineering (MS) . . . 505
Mechanical Engineering (Nuclear Power) (MS) . . . 505

Mechanical Engineering/Engineering Management (MS) 505
Aerospace Engineering (PhD) 505
Mechanical Engineering (PhD) 505
Astronautical Engineering 506
Astronautical Engineering (BS) 506
Astronautical Engineering Minor 507
Astronautical Engineering (MS) 507
Astronautical Engineering Certificate 508
Astronautical Engineering (PhD) 508
Biomedical Engineering 509
Biomedical Engineering (BS) 510
Biomedical Engineering, Electrical Engineering Emphasis, (BS) 510
Biomedical Engineering, Mechanical Engineering Emphasis, (BS) 511
Biomedical Engineering, Molecular and Cellular Engineering Emphasis, (BS) 511
Biomedical Data Analytics (MS) 512
Biomedical Engineering (Medical Imaging and Imaging Informatics) (MS) 512
Biomedical Engineering (MS) 512
Medical Device and Diagnostic Engineering (MS) 513
Health, Technology and Engineering Graduate Certificate 513
Biomedical Engineering (PhD) 513
Chemical Engineering – Mork Family Department of Chemical Engineering and Materials Science 514
Chemical Engineering (BS) 515
Chemical Engineering, Biochemical Engineering Emphasis (BS) 515
Chemical Engineering, Environmental Engineering Emphasis (BS) 516
Chemical Engineering, Nanotechnology Emphasis (BS) 517
Chemical Engineering, Petroleum Engineering Emphasis (BS) 517
Chemical Engineering, Polymer/Materials Science Emphasis (BS) 518
Chemical Engineering, Sustainable Energy Emphasis (BS) 518
Nanotechnology Minor 519
Chemical Engineering (MS) 520
Chemical Engineering (PhD) 520
Materials Science – Mork Family Department of Chemical Engineering and Materials Science 520
Materials Engineering (Machine Learning) (MS) 521
Materials Engineering (MS) 521
Materials Science (MS) 522
Materials Science (PhD) 522
Petroleum Engineering – Mork Family Department of Chemical Engineering and Materials Science 523
Petroleum Engineering Minor 523
Petroleum Engineering (Digital Oilfield Technologies) (MS) 523
Petroleum Engineering (Geoscience Technologies) (MS) 523
Petroleum Engineering (MS) 524
Master of Science, Petroleum Engineering/Master of Science, Engineering Management (MS/MS) 524
Digital Oilfield Technologies Certificate 524
Unconventional Resources in Petroleum Engineering 524
Petroleum Engineering (PhD) 525
Civil Engineering – Sonny Astani Department of Civil and Environmental Engineering 525
Applied Mechanics (BS) 526
Civil Engineering (BS) 526
Civil Engineering, Building Science Emphasis (BS) 527
Civil Engineering, Construction Engineering and Management Emphasis (BS) 528
Civil Engineering, Environmental Engineering Emphasis (BS) 528
Civil Engineering, Structural Engineering Emphasis (BS) 529
Civil Engineering, Water Resources Engineering Emphasis (BS) 530
Construction Planning and Management Minor 530
Civil Engineering (Advanced Design and Construction Technology) (MS) 531
Civil Engineering (MS) 531
Civil Engineering (Transportation Systems) (MS) 531

Construction Management (MCM) 531
Transportation Systems Management (MS) 532
Transportation Systems Graduate Certificate 532
Civil Engineering (PhD) 533
Environmental Engineering - Sonny Astani Department of Civil and Environmental Engineering 533
Environmental Engineering (BS) 534
Environmental Engineering (MS) 535
Engineering (Environmental Engineering) (PhD) 535
Computer Engineering Program 535
Computer Engineering (MS) 535
Computer Engineering (PhD) 536
Computer Science 537
Computer Engineering and Computer Science (BS) 538
Computer Science (BS) 539
Computer Science Games (BS) 541
Computer Science/Business Administration (BS) 541
Computer Science Minor 542
Computer Science Dual Degree with Tsinghua University School of Information Science and Technology (MS) 543
Computer Science (Artificial Intelligence) (MS) 543
Computer Science (Computer Networks) (MS) 543
Computer Science (Computer Security) (MS) 544
Computer Science (Data Science) (MS) 544
Computer Science (Game Development) (MS) 544
Computer Science (High Performance Computing and Simulations) (MS) 545
Computer Science (Intelligent Robotics) (MS) 545
Computer Science (MS) 546
Computer Science (Multimedia and Creative Technologies) (MS) 546
Computer Science (Scientists and Engineers) (MS) 546
Computer Science (Software Engineering) (MS) 547
Software Architecture Graduate Certificate 547
Computer Science (PhD) 547
Electrical and Computer Engineering – Ming Hsieh Department of Electrical and Computer Engineering 548
Electrical and Computer Engineering (BS) 549
Internet of Things Engineering Minor 550
Applied Physics (MS) 550
Electrical and Computer Engineering (Analog, Mixed-Signal and Radio-frequency Integrated Circuits) (MS) 551
Electrical and Computer Engineering (Machine Learning and Data Science) (MS) 551
Electrical Engineering (Computer Architecture) (MS) 552
Electrical Engineering (Computer Networks) (MS) 552
Electrical Engineering (MS) 552
Electrical Engineering (VLSI Design) (MS) 553
Electrical Engineering (Wireless Health Technology) (MS) 553
Electrical Engineering (Wireless Networks) (MS) 554
Electrical Engineering/Engineering Management (MS) 554
Financial Engineering (MS) 554
Quantum Information Science (MS) 555
Electrical Engineering (PhD) 555
Green Technologies 556
Green Technologies (MS) 556
Industrial and Systems Engineering – Daniel J. Epstein Department of Industrial and Systems Engineering 556
Industrial and Systems Engineering (BS) 557
Engineering Management Minor 558
Analytics (MS) 559
Engineering Management (MS) 559
Health Systems Management Engineering (MS) 560
Industrial and Systems Engineering (MS) 560

Operations Research Engineering (MS) . . . 560
Master of Science, Industrial and Systems Engineering/ Master of Business Administration (MS/MBA) . . . 561
Health Systems Operations Graduate Certificate . . . 561
Industrial and Systems Engineering (PhD) . . . 561
Data Science Program . . . 561
Data Science (BA) . . . 562
Foundations of Data Science Minor . . . 562
Communication Data Science Dual Degree with Tsinghua University School of Journalism and Communication (MS) . . . 563
Applied Data Science (MS) . . . 563
Communication Data Science (MS) . . . 564
Cyber Security Engineering (MS) . . . 564
Environmental Data Science (MS) . . . 565
Healthcare Data Science (MS) . . . 565
Applied Data Science Graduate Certificate . . . 566
Data Science Foundations Graduate Certificate . . . 566
Information Technology Program . . . 567
3D Computer Graphics and Modeling Minor . . . 567
Applied Analytics Minor . . . 567
Applied Computer Security Minor . . . 568
Blockchain Minor . . . 568
Cloud Computing with DevOps Minor . . . 568
Computer and Digital Forensics Minor . . . 568
Computer Programming Minor . . . 568
Connected Devices and Making Minor . . . 569
Enterprise Information Systems Minor . . . 569
Innovation: The Digital Entrepreneur Minor . . . 569
Mobile App Development Minor . . . 570
Technical Game Art Minor . . . 570
Video Game Design and Management Minor . . . 570
Video Game Programming Minor . . . 570
Web Technologies and Applications Minor . . . 571
Manufacturing Engineering . . . 571
Manufacturing Engineering (MS) . . . 571
Product Development Engineering . . . 571
Product Development Engineering (MS) . . . 571
Sustainable Infrastructure Systems . . . 572
Civil Engineering (Water and Waste Management) (MS) . . . 572
Electrical Engineering (Electric Power) (MS) . . . 572
Mechanical Engineering (Energy Conversion) (MS) . . . 573
Systems Architecting and Engineering . . . 573
Systems Architecting and Engineering (MS) . . . 573
Master of Science, Systems Architecting and Engineering/ Master of Business Administration (MS/MBA) . . . 574
Network Centric Systems Graduate Certificate . . . 574
Systems Architecting and Engineering Graduate Certificate . . . 575
USC Leonard Davis School of Gerontology . . . 576
Human Development and Aging (BS) . . . 579
Human Development and Aging, Health Science Track (BS) . . . 580
Human Development and Aging, Honors Programs (BS) . . . 580
Lifespan Health (BS) . . . 581
Individuals, Societies and Aging Minor . . . 581
Science, Health and Aging Minor . . . 581
Advanced Placement Gerontology (MS) . . . 581
Aging Services Management (MA) . . . 582
Applied Technology and Aging (MS) . . . 582
Foodservice Management and Dietetics (MA) . . . 583
Gerontology (MA) . . . 583
Gerontology (MS) . . . 584

Lifespan, Nutrition and Dietetics (MS) . . . 585
Long Term Care Administration (MA) . . . 585
Medical Gerontology (MA) . . . 586
Nutrition, Healthspan and Longevity (MS) . . . 586
Nutritional Science (MS) . . . 587
Senior Living Hospitality (MA) . . . 588
Master of Science, Gerontology/Doctor of Pharmacy (MS/PharmD) . . . 589
Master of Science, Gerontology/Juris Doctor (MS/JD) . . . 589
Master of Science, Gerontology/Master of Business Administration (MS/MBA) . . . 589
Master of Science, Gerontology/Master of Health Administration (MS/MHA) . . . 590
Master of Science, Gerontology/Master of Public Administration (MS/MPA) . . . 590
Master of Science, Gerontology/Master of Social Work (MS/MSW) . . . 591
Doctor of Pharmacy/Graduate Certificate in Gerontology . . . 591
Gerontology Graduate Level Certificate . . . 592
Gerontology Online Graduate Level Certificate . . . 592
Biology of Aging (PhD) . . . 592
Gerontology (PhD) . . . 592

USC Independent Health Professions at the Herman Ostrow School of Dentistry . . . 595
Biokinesiology and Physical Therapy . . . 595
Biokinesiology (MS) . . . 596
Biokinesiology (Sports Science) (MS) . . . 596
Doctor of Physical Therapy/Master of Public Health (DPT/MPH) . . . 597
Biokinesiology (PhD) . . . 597
Professional Entry-Level Doctor of Physical Therapy Program (DPT) . . . 598

Administration

Senior Administration

USC is governed by a Board of Trustees and led by President Carol L. Folt in conjunction with a senior administrative team responsible for managing institutional operations through administrative units and schools. Additionally, the Academic Senate, Undergraduate Student Government, and Graduate and Professional StudentSenate have power to make studies, reports and recommendations to the president in matters pertaining to their constituencies.

Carol L. Folt
President
Charles F. Zukoski
Provost and Senior Vice President for Academic Affairs
Mike Bohn
Director of Athletics
Winston B. Crisp
Vice President for Student Affairs
Amy Diamond
Chief Investment Officer
Samuel Garrison
Senior Vice President, University Relations
Rodney B. Hanners
Interim CEO for Keck Medicine of USC
Kyle Henley
Senior Vice President of Communications
Beong-Soo Kim
Senior Vice President and General Counsel
Christopher Manning
Chief Inclusion and Diversity Officer
Steven D. Shapiro
Senior Vice President for Health Affairs
James M. Staten
Senior Vice President, Finance, and Chief Financial Officer
Tracey L. Vranich
Interim Senior Vice President for University Advancement
Felicia A. Washington
Senior Vice President of Human Resources
David W. Wright
Senior Vice President, Administration
Rene Pak
Chief of Staff

Board of Trustees

Miriam Adelson
Founder and Chairperson, Adelson Clinic for Drug Abuse Treatment and Research
Stephanie A. Argyros
Real Estate Principal, Arnel Development
Marc R. Benioff
Chair and CEO, Salesforce.com
Corii D. Berg
Executive Vice President and General Counsel, Lionsgate Entertainment, Inc.
David C. Bohnett
Chair, David Bohnett Foundation
Joseph M. Boskovich Sr.
Chairman, Chief Investment Officer, and Founder, Old West Investment Management, LLC
Robert A. Bradway
Chairman and CEO, Amgen
Rick J. Caruso (Chair)
Founder and CEO, Caruso
David H. Dornsife
Chairman of the Board, The Herrick Corporation
Suzanne Dworak-Peck
Ambassador, International Federation of Social Workers
Michele Dedeaux Engemann
Community Leader
Michael A. Felix
Senior Vice President (Retired), Capital Group Companies
Carol L. Folt
President, University of Southern California
Stanley P. Gold
Chairman, Shamrock Holdings, Inc.
Ming Hsieh
Chairman and CEO, Fulgent Therapeutics
Stephen M. Keck
Managing Director, TCW / Co-President, W. M. Keck Foundation
Kenneth R. Klein
Technology Company Executive
Jaime L. Lee
CEO, Jamison Realty, Inc.
Kathy Leventhal
Community Leader
William J. McMorrow
Chairman and CEO, Kennedy Wilson
John Mork
Chief Executive Officer, EnerG-ID Solutions Corporation
Oscar Munoz
Executive Chairman, United Airlines Holdings, Inc.
Rod Y. Nakamoto
Co-founder, theUgroup at Merrill Lynch

Carmen Nava
Senior Vice President – Premium Care and Customer Loyalty (Retired), AT&T's Entertainment Group
Shelly L. Nemirovsky
Community Leader
Dominic Ng
Chairman and CEO, East West Bank
Suzanne Nora Johnson
Vice Chairman (Retired), The Goldman Sachs Group, Inc.
J. Kristoffer Popovich
Chairman, Hoffman Associates
Blake Quinn
Chairman and CEO, Quinn Group, Inc.
Amy A. Ross
Biotechnology Executive (Retired)
Frederick J. Ryan Jr.
Publisher and CEO, The Washington Post
Leonard D. Schaeffer
Founding Chairman and CEO, WellPoint
William E. B. Siart
Chairman, ExED
Jeffrey H. Smulyan
Chairman of the Board, Emmis Communications
Heliane M. Steden
Managing Director (Retired), Merrill Lynch
Ronald D. Sugar
Chairman Emeritus, Northrop Grumman Corporation
Tracy M. Sykes
Community Leader
Daniel M. Tsai
Chairman, Fubon Group
Wenxue Wang
Founder and Chairman, China Fortune Land Development

Life Trustees

Wallis Annenberg
Chair, President, and CEO, Annenberg Foundation
Wanda M. Austin
President and CEO (Retired), The Aerospace Corporation
Charles G. Cale
Managing Member, Griffin Opportunities, LLC
Ronnie C. Chan
Chairman, Hang Lung Group Limited and
Hang Lung Properties Limited
Chris Cox
President, Morgan Lewis Consulting LLC;
Partner, Morgan, Lewis & Bockius LLP
Frank H. Cruz
President, Cruz & Associates
Daniel J. Epstein
Executive Chairman and Founder, ConAm Management
Gavin S. Herbert
Founder (Retired), Allergan Inc.
B. Wayne Hughes Sr.
Co-founder and Chairman Emeritus, Public Storage, Inc.
Tamara Hughes Gustavson
Chairman and Trustee, American Homes 4 Rent
Ray R. Irani
Chairman and CEO, Ray Investments, LLC
Glorya Kaufman
Founder, The Glorya Kaufman Dance Foundation
Lydia H. Kennard
Chief Executive Officer, KDG Construction Consulting
John F. King
President and CEO (Retired), Weingart Center Association
John Kusmiersky
CEO, The Brickstone Companies
Daniel D. Lane
Chairman and CEO, Lane/Kuhn Pacific, Inc.
Claude Mann
Philanthropist
Kathleen L. McCarthy
Chairperson, Thomas and Dorothy Leavey Foundation
Jerry W. Neely
Chairman and CEO (Retired), Smith International, Inc.
C. L. Max Nikias
President Emeritus, University of Southern California
Joan A. Payden
President and CEO, Payden & Rygel
Frank Price
Chairman and CEO, Price Entertainment, Inc.
Bruce M. Ramer
Partner, Gang, Tyre, Ramer, Brown & Passman, Inc.
Lorna Y. Reed
Community Leader
Edward P. Roski Jr.
President and Chairman of the Board, Majestic Realty Co.
William J. Schoen
Chairman, The Schoen Charitable Foundation
Robert H. Smith
Robert H. Smith Investments and Consulting
Steven Spielberg
Chairman, Amblin Partners
Richard J. Stegemeier
Chairman Emeritus, Unocal Corporation
Mark A. Stevens
Managing Partner, S-Cubed Capital; Special Limited Partner and Former Managing Partner, Sequoia Capital
Ratan N. Tata
Chairman Emeritus, Tata Sons; Chairman, Tata Trusts
Ronald N. Tutor
Chairman and CEO, Tutor Perini Corporation
Peter V. Ueberroth
Co-owner, Pebble Beach Company
Andrew J. Viterbi
President, Viterbi Group, LLC
Willis B. Wood Jr.
Chairman and CEO (Retired), Pacific Enterprises

Honorary Trustees

Charles F. Bolden Jr.
U.S. Marine Corps Major General and NASA Administrator (Retired)
Jeanie M. Buss
Co-owner, CEO, and Governor, Los Angeles Lakers
Helene Galen
Foundation Chair, Barbara Sinatra Center for Abused Children
Jane Harman
Director, President and Chief Executive Officer,
Woodrow Wilson International Center for Scholars
Dallas Price-Van Breda
Philanthropist

Herman Ostrow School of Dentistry of USC
Steven D. Shapiro
Keck School of Medicine of USC
Yannis C. Yortsos
USC Viterbi School of Engineering

Admission and Orientation

Orientation

New Student Orientation

"Welcome Trojans" is what we call USC orientation because it welcomes new students to the Trojan Family and provides events that promote success for all graduate and undergraduate students beginning their studies at USC. Due to the COVID-19 pandemic, variations to orientation programming have been necessary. The university strongly recommends that all students participate in the Welcome Trojans orientation events that are offered to familiarize themselves with the campus services and academic requirements that will assist them in their transition to USC.

During these offerings, students will meet with academic advisers to plan their first-semester schedule. There will be opportunities for guests to participate in information sessions that are designed for their new role as a support team member for their student. Please see the Office of Orientation Programs website at orientation.usc.edu for details.

All international students are required to complete their Passport Verification (PPV). More details can be found on the Orientation website at orientation.usc.edu or by visiting the Office of International Services (OIS) website for the Passport Verification link at ois.usc.edu/new-students/firstweeks/passport-verification-ppv/.

Graduate orientation events are offered through individual departments; a centralized event is offered as well through the Office of Orientation Programs. Instructions on making reservations for the appropriate orientation event will be sent directly to all students. If you have any questions, visit the Orientation website at orientation.usc.edu. Sessions are also available for graduate assistants through the Center for Excellence in Teaching (CET). For information about CET's programs, see Special Study Options or visit cet.usc.edu. Email usccet@usc.edu to subscribe to the *Friends of CET* weekly updates.

All students entering USC for the first time will be assessed a New Student Fee that will appear on the fee bill. This is a one-time fee assessed for all services available on campus, internationally and online. Fee details can be found on the Orientation website at orientation.usc.edu.

Undergraduate Education Admission

Offices of Admission and Financial Aid
(213) 740-1111

Admission to undergraduate programs is granted by the USC Office of Admission. This office receives and processes all applications, evaluates credentials, and sends notifications of acceptance to applicants who qualify for entrance. Admission to the university's degree programs must be granted in all cases by the USC Office of Admission and the appropriate selection committees. Only a letter from the Office of Admission grants official admission.

As a private university, USC seeks a wide geographical distribution among its student body, and evaluates its out-of-state applicants using the same criteria as those used for California residents. Tuition and fees are the same for all students, regardless of state or country of residence.

The University of Southern California admits qualified individuals as students regardless of race, color, religion, gender, national origin, age, handicap, sexual orientation or status as a disabled veteran. After admission, students are accorded equal rights to participate in all university-sponsored programs and activities. The university does not discriminate on the basis of race, color, religion, gender, national origin, age, handicap, sexual orientation or status as a disabled veteran in the administration of its educational policies, scholarship and loan programs, athletics and other student activities.

Applicants with Disabilities

The University of Southern California is committed to full compliance with the Rehabilitation Act (Section 504) and the Americans with Disabilities Act Amendments Act (ADAAA). As part of the implementation of this law, the university will continue to provide reasonable accommodation for academically qualified students with disabilities so that they can participate fully in the university's educational programs and activities. Although USC is not required by law to change the "fundamental nature or essential curricular components of its programs in order to accommodate the needs of students with disabilities," the university will provide reasonable academic accommodation. It is the specific responsibility of the university administration and all faculty serving in a teaching capacity to ensure the university's compliance with this policy.

The general definition of a student with a disability is any person who has "a physical or mental impairment which substantially limits one or more of such person's major life activities," and any person who has "a history of, or is regarded as having, such an impairment." Reasonable accommodations are determined for students based on an interactive review process, incorporating the student's self-report, supporting documentation according to the university's documentation guidelines, requirements of the student's program of study and university policies.

Office of Student Accessibility Services (OSAS) is designated by the university as the unit responsible for ensuring equal access in compliance with state and federal disability law as it relates to students with disabilities. OSAS serves undergraduate, graduate and professional students; on-ground and online students; and students in all credit-granting programs of study.

For information about how to connect with OSAS, as well as information about the university's documentation guidelines, please visit our website: osas.usc.edu.

Retention of Records

Credentials submitted to the Office of Admission become the property of the university and cannot be returned to the student or duplicated for any purpose.

Application Procedures

Students submit applications online through the Common Application at commonapp.org. A nonrefundable fee will be charged with the completed application, although students with financial need may request a fee waiver. For specific application deadlines and requirements, refer to admission.usc.edu or the *Meet USC* brochure.

Credentials for admission must include complete records of all previous high school and college or university work and any required test scores.

The application for admission and complete credentials should be submitted via the Common App by the appropriate deadlines.

Factors given prime consideration for admission to undergraduate study are an applicant's previous academic success and the quality of all records presented. To ensure diversity in the composition of the student body, other considerations may include outstanding talent and abilities, extracurricular activities and letters of recommendation.

Deferring Admission

In specific cases relating to medical issues, religious obligations or required military/national service, admission deferrals may be available. However, deferral requests for other reasons will not generally be granted. New students who have committed to enroll at USC but fail to do so will forfeit their spot in the entering class and will need to reapply (with no guarantee of admission) should they wish to attend the university in a future term.

Students wishing to request an admission deferral should contact their admission counselor.

School and Department Application Requirements

Because of strong competition for admission, several schools and academic departments require supplementary application materials and may employ separate deadlines.

Leventhal School of Accounting Transfer applicants interested in accounting must first apply to business administration. A formal request to transfer to the Leventhal School of Accounting can be made once the resident introductory accounting course(s) are successfully completed. High school students who have demonstrated exceptional scholastic aptitude for the accounting major will be considered for admission as first-year students. For more information, write or call the USC Marshall School of Business, Office of Undergraduate Admission, Los Angeles, CA 90089-0805, (213) 740-8885, email lsoa_undergrad@marshall.usc.edu or ACC100@marshall.usc.edu or visit marshall.usc.edu/departments/leventhal-school-accounting.

School of Architecture (BArch, BS, Architectural Studies) A portfolio is required of all applicants. Transfer students should note that the core curriculum will take five years to complete. For more information, write or call the USC School of Architecture, Los Angeles, CA 90089-0291, (213) 740-2420, email uscarch@usc.edu or visit arch.usc.edu.

Roski School of Art and Design (BFA and BA) Portfolios are required of all applicants to the BFA and BA (Studio Arts and Design) programs. Applicants may contact the USC Roski School of Art and Design, Watt Hall 104, Los Angeles, CA 90089-0292, (213) 740-2787, email roski@usc.edu or visit roski.usc.edu/admissions/undergraduate-admission for questions about applications and required supplementary materials.

Jimmy Iovine and Andre Young Academy for Arts, Technology and the Business of Innovation (BS) To apply, first-year and transfer applicants must submit the Common Application and supplemental portfolio materials by December 1. The portfolio includes a one-minute proposal video and samples of creative work. For more information, please call (213) 821-6140, email iovine-young@usc.edu or visit iovine-young.usc.edu.

Marshall School of Business Students may be admitted as incoming first-year students, as USC undergraduates transferring from another major or as students transferring from another college or university. Transfer students will be considered for admission to the Marshall School of Business once they have completed the prerequisite college writing and business calculus courses. Students should contact the Marshall School for a detailed list of equivalent courses. For further information, write or call the USC Marshall School of Business, Office of Undergraduate Admission, Los Angeles, CA 90089-0805, (213) 740-8885, send email to busadm@marshall.usc.edu or refer to marshall.usc.edu.

School of Cinematic Arts (Animation and Digital Arts, Cinema and Media Studies, Film and Television Production, Interactive Entertainment, Media Arts and Practice, and Writing for Screen and Television) To apply for admission, first-year and non-USC transfer applicants must submit the Common Application, USC Writing Supplement and SlideRoom application. Current USC transfer applicants must submit the SCA Supplemental Application for Admission and SlideRoom application. All application requirements are due by December 1 for freshmen applicants and transfer applicants applying to the Writing for Screen & Television Program and February 1 for all transfer applicants. Transfer applicants to the Writing program should note that the major will take four years to complete. Detailed application procedures may be found at cinema.usc.edu and any questions may be directed to the SCA Office of Admissions at (213) 740-8355 or admissions@cinema.usc.edu.

Annenberg School for Communication and Journalism (Communication, Journalism and Public Relations) Transfer applicants to an Annenberg major must submit a letter of recommendation from a college/university instructor or academic adviser to USC Admission. Also, an Annenberg essay is required as part of the USC Writing Supplement. For more information, contact USC Annenberg School for Communication and Journalism, Admissions Office, Los Angeles, CA 90089-0281, (213) 821-0770, email ascadm@usc.edu or visit annenberg.usc.edu.

Glorya Kaufman School of Dance (BFA) Admission to USC Kaufman is competitive: The school looks to enroll about 24 students. In addition to the Common Application, applicants must submit the USC Kaufman Portfolio via SlideRoom. All required materials must be received by December 1. Finalists will be invited to audition in person. Current USC students and transfer students are welcome to apply but should note that the BFA in Dance is a four-year program. For more information, contact the USC Kaufman School at 849 West 34th Street, Los Angeles, CA 90089-3521, email uscdance@usc.edu or visit kaufman.usc.edu.

Herman Ostrow School of Dentistry (Dental Hygiene) No dental hygiene applications are accepted for 2021-2022. For further information, write or call the Herman Ostrow School of Dentistry, Office of Admissions and Student Affairs, 925 West 34th Street, Room 201, Los Angeles, CA 90089-0641, (213) 740-2841 or visit dentistry.usc.edu.

School of Dramatic Arts (BFA and BA) Applicants must complete both the Common Application and SlideRoom supplemental application in order to be considered for admission. The deadline for all BFA programs, both freshman and transfer, is December 1. The BA deadline is January 15 for freshman and February 1 for transfer applicants. An audition/interview is required for admission to the BFA program. Creative submission videos are required for BA applicants. Applicants will be notified of the dates and locations for auditions and interviews after the departmental application is received. Additional information is available by calling (213) 740-1286 or visiting dramaticarts.usc.edu.

Viterbi School of Engineering Applicants to engineering and computer science majors must respond to the two additional short-answer questions on the USC Writing Supplement. For first-year applicants to all majors in engineering and computer science, four years of mathematics are required for admission consideration, with calculus in progress or completed by senior year. Three years of natural sciences are also required. Transfer applicants to all majors in engineering and computer science should have completed two or more semesters of college-level calculus and meet USC admission requirements. Transfer students are encouraged to complete additional pre-engineering course work

as available; visit viterbiadmission.usc.edu/transfer for a list of relevant courses. For more information, contact the Viterbi School of Engineering Admission and Student Engagement Office at (213) 740-4530 or viterbi.admission@usc.edu.

Thornton School of Music The deadline for all major programs in music (first-year and transfer) is December 1. All required supplementary materials must be received by this date. An audition (including prescreen material by the December 1 deadline) is required for most majors. Application and audition requirements can be found at music.usc.edu or by contacting the Thornton School of Music Office of Admission, uscmusic@usc.edu, (213) 740-8986.

USC Mrs. T.H. Chan Division of Occupational Science and Occupational Therapy This program accepts applications from first-year students only. For information about admission criteria, program course sequence and application procedures, visit chan.usc.edu. Alternatively, write or call the USC Mrs. T.H. Chan Division of Occupational Science and Occupational Therapy at 1540 Alcazar Street, Los Angeles, CA 90089-9003, (866) 385-4250.

School of Pharmacy The Trojan Admission Pre-Pharmacy (TAP) program is a unique program for entering first-year students: a pre-pharmacy/doctor of pharmacy curriculum that affords students continuity in their professional education. Students admitted to TAP begin their pre-pharmacy course work at USC in the freshman year and are given priority admission status to the USC School of Pharmacy, provided they meet specified criteria. All applicants should contact the School of Pharmacy for instructions at USC School of Pharmacy, 1985 Zonal Avenue, PSC 206A, Los Angeles, CA 90089-9121, (323) 442-1466 or pharmacyschool.usc.edu/programs.

Admission from Secondary Schools

Prospective first-year students are evaluated on the content and rigor of their high school course work, their grades, standardized test scores, activity summary, essay, short answers and counselor/teacher recommendations. There are no absolute "cutoffs" or minimums for grades, rank in class or test scores. We are interested in the interplay of these elements as well as personal accomplishments and potential for success.

Academic Expectations

Outside of mathematics, no specific curriculum is prescribed or required, though students offered admission typically pursue the most rigorous program available to them in English, science, social studies, foreign language and the arts. Students are expected to have earned a grade of C or better in at least three years of high school mathematics, including Advanced Algebra (Algebra II). Transfer applicants may also meet this requirement by completing Intermediate Algebra or a higher-level math class at the college level with a grade of C or better. Careful attention is paid to preparation for the intended major.

Grade Point Average

When assessing grade point average, consideration is also given to class rank and to the strength and frequency of Advanced Placement, International Baccalaureate or A-Level course work in a student's curriculum, if this course work is offered by the student's school. Naturally, we are interested in consistently strong academic performance throughout the four-year high school record. However, we realize that some bright students, for one reason or another, may encounter difficulties in ninth grade. In these cases, special attention is given to steady and substantial improvement throughout the sophomore, junior and senior years.

Standardized Test Requirements

SAT and ACT

USC has adopted a test-optional policy for applicants applying to the 2021-2022 and 2022-2023 academic years. This means that prospective first-year students may apply without submitting SAT or ACT scores, though students may still choose to submit SAT or ACT scores if they wish. Please see admission.usc.edu/apply/test-optional-policy-faq for additional information.

For students who choose to submit test scores, USC will record the highest scores for those who have taken tests more than once. For the SAT, the highest scores for both the Evidence-Based Reading and Writing and the Mathematics sections will be recorded, even if achieved in different sittings. For the ACT, USC will take the highest of each subscore and average them into a new composite.

For more information on the SAT exam, visit collegeboard.org; for the ACT exam, visit act.org.

Other Standardized Exams

Although USC's test optional policy extends to all students, we find it helpful to have externally graded or examined work when evaluating first-year applicants who do not attend a regionally accredited high school (e.g., students who are home-schooled, or who attended some non-accredited parochial or community-based programs).

Therefore, we recommend submitting either SAT/ACT results, SAT subject exam results, AP exam results, or transcripts from college courses or other accredited online schooling programs if possible.

First-year applicants who have taken Advanced Placement (AP), International Baccalaureate (IB) or A-Level examinations are encouraged to provide those results.

English Language Proficiency Exams for International Students

International students (see USC's definition of international students below) applying for undergraduate admission whose native language is not English must demonstrate English proficiency by submitting the results from one of the following tests:

- Test of English as a Foreign Language (TOEFL)
- International English Language Testing System (IELTS)
- PTE Academic test
- Duolingo English Test*

Test scores must be recent, earned within two years of the application date. International first-year applicants with minimum scores of 650 on the SAT Evidence-Based Reading test or a 27 on the ACT English are exempt from having to submit these test scores.

**Please note that although the Duolingo English Test may be submitted to demonstrate English proficiency, it will not waive the International Student English Exam (ISE) requirement.*

Credit by Examination

Students may earn a total of 32 semester units of credit toward their bachelor's degree by examination. Advanced Placement, International Baccalaureate and A-Level credit is granted at USC for exams taken before matriculation at a two-year or four-year college and will be evaluated solely according to USC's standardized exam policies. Refer to the Transfer Credit Services' website at arr.usc.edu/transfercredit for more complete information regarding transfer credit for these standardized exams.

Students who have also earned credit for college courses taken while in high school should refer to the Course Work Taken Elsewhere page.

Advanced Placement Examinations (AP)

USC grants college credit for the Advanced Placement Examinations of the Educational Testing Service. A student may be granted 4 semester units of credit for most AP tests with scores of four or five. Results should be sent directly from the College Board to: University of Southern California, Transfer Credit Services, Los Angeles, CA 90089-0912. For specific AP credit information, call the Office of Admission at (213) 740-1111 or visit arr.usc.edu/transfercredit.

International Baccalaureate (IB)

USC grants either 20 units of credit to students who earn the International Baccalaureate diploma with a score of 30 or higher, or 6 units for each score of 5 or higher on the IB Higher Level exams, for a maximum of four exams, whichever is higher. International Baccalaureate results should be sent directly from the International Baccalaureate Organization to: University of Southern California, Transfer Credit Services, Los Angeles, CA 90089-0912. For more information, visit arr.usc.edu/transfercredit.

Secondary School Exams (A-Level, etc.)

USC typically awards 8 semester units for most A-Level exams with an appropriate score from schools in a British-style educational system. Results must be sent directly from the examining agency, not from the student or the student's former school. Secondary schools in many other countries offer some kind of comprehensive exam similar to the British A-Level. These exams may be eligible for transfer credit. See arr.usc.edu/transfercredit for information about the process of evaluation, which requires a fee paid by the student.

Subject Credit by Special Examination

See the Subject Credit by Special Examination section for further information.

Admission from Colleges and Universities

An applicant may be admitted by transfer from a fully accredited college, university or community college, under the following conditions: (1) if the applicant has completed 30 or more transferable college semester units with an appropriately strong grade point average in an academically rigorous selection of courses; (2) if the applicant is not under the penalty of academic or disciplinary disqualification at any college or university previously attended and is entitled to an honorable dismissal; and (3) if proof of high school graduation on a high school transcript, or the equivalent (such as a GED or finishing certificate), has been provided as part of the application materials. If fewer than 30 transferable semester units have been completed at the time of application, the applicant may choose to submit — in addition to the high school transcript — the results of the SAT or the ACT assessment test. See admission.usc.edu/apply/test-optional-policy-faq for more information.

Students intending to transfer to USC should refer to the *Transferring to USC* brochure for detailed information about the university's transfer, admission and credit policies. Call the USC Office of Admission at (213) 740-1111 or visit admission.usc.edu/transferring.

The amount of advanced standing granted to a student transferring from another institution is determined in each individual case by the Office of Academic Records and Registrar. A minimum of 64 units toward the bachelor's degree must be earned in residence at USC. For a degree in Architecture, a minimum of 80 units must be earned in residence at USC. A maximum of 70 of the transferable units for this program may be earned at two-year colleges. For students in Engineering's "3-2" Program, at least 48 units must be earned in residence at USC. Two-thirds of any transferable course work must be completed at one of USC's four-year partner institutions.

It is the student's responsibility to report all college-level course work completed outside USC to the Office of Admission when completing the application form. Omitting such information constitutes a violation of the applicant's affidavit and may result in the revocation of admission to the university.

Records of all courses including correspondence study, extension or summer session courses taken in other institutions after the student's admission to USC must also be filed with the Office of Academic Records and Registrar immediately following completion of the work.

Admission of International Students

The University of Southern California has an outstanding record of commitment to international education. From a small presence during our early history, our international enrollment grew to an average of 200 students by the 1930s. After declining international enrollments in the years surrounding World War II, USC began rebuilding and in 1951 began providing specialized admission services to international students. By 1964, more than 1,000 international students were enrolled at USC. Today, the Office of Admission serves thousands of prospective students each year by providing both general and specialized information and by maintaining the expertise necessary to evaluate academic records from the various educational systems around the world. The Office of Admission also issues the required eligibility certificates for students who require non-immigrant student visas to study in the United States.

At USC, an international student is an individual of foreign nationality who will be entering or has already entered the United States with a student visa. However, students already residing in the United States and holding other non-immigrant visas (such as E2, H2 or L2) are also international students and may remain on those visas to pursue their studies at USC, if they so choose. International students do not qualify for need-based financial aid. U.S. permanent residents, naturalized U.S. citizens and U.S. citizens residing and attending school outside the United States are not considered international students and are eligible for need-based financial aid.

English Language Requirements

Academic success at USC is strongly dependent upon the ability to communicate in English. Listening, speaking, reading and writing proficiency must be well developed in order to assimilate large amounts of difficult material under limited time conditions with full comprehension. Such proficiency is much greater than that required for ordinary everyday living. Therefore, every effort should be made to acquire English proficiency prior to entering the university.

Admitted international students whose first language is not English are normally required to take the International Student English Examination (ISE Exam) before the beginning of the first term of study. The examination results determine whether students must take additional English for academic purposes course work. The ISE Exam is administered by the American Language Institute (ali.usc.edu).

International students who meet one of the following conditions may be exempt from taking the ISE Exam:

- International students who have completed their entire bachelor's degree at regionally accredited universities located in the United States or in another country in which English is both the language of instruction and the only official language of the country.
- Applicants to master's programs who have attained an Internet Based TOEFL (iBT) score of 90, with no less than 20 on each sub-score; or an IELTS score of 6.5, with no less than 6 on each band score.
- PhD and undergraduate applicants who have achieved an Internet Based TOEFL (iBT) score of 100 with no less than 20 on each sub-score; or an IELTS score of 7, with no less than 6 on each band score.

USC does not accept "superscores" or TOEFL "MyBest scores." Some departments may have higher requirements for English proficiency than what is listed above. USC must receive scores electronically from the testing service for them to be considered official. Photocopies or paper copies of scores are not acceptable. Scores must be received no later than the Friday before classes begin. Students should contact the American Language Institute (ALI) Office before the deadline to confirm that their scores have been received.

American Language Institute

Any student who has not demonstrated adequate English proficiency based on the criteria outlined above will be required to enroll in courses at the American Language Institute (ALI) at USC. The ALI provides courses designed to improve an international student's oral and written communication skills in English. The

extent to which a student may be required to take courses at the ALI is determined by the student's performance on the International Student English Examination (ISE Exam) or, in the case of potential teaching assistants, the ITA Exam.

ALI tuition units are charged at the regular university rate. Entering students who need English language classes should be aware that the ALI course requirements will likely increase the overall cost of their degree program. ALI classes can normally be taken concurrently with a student's other university classes and must be completed at the earliest opportunity.

Graduate and Professional Education Admission

Office of Graduate Admission
(213) 740-1111
gradadm.usc.edu

At the graduate level, admission to graduate and professional programs is granted by the dean of the school conferring the degree. However, only a letter from the university's Office of Graduate Admission constitutes an official offer of admission; correspondence with department chairs, program directors or individual faculty members does not constitute admission.

The University of Southern California admits qualified individuals as students regardless of race, color, religion, gender, national origin, age, handicap, sexual orientation or status as a disabled veteran. After admission, students are accorded equal rights to participate in all university-sponsored programs and activities. The university does not discriminate on the basis of race, color, religion, gender, national origin, age, disability, sexual orientation or status as a disabled veteran in the administration of its educational policies, scholarship and loan programs, athletics and other student activities.

Application

The USC Application for Graduate Admission (usc.liaisoncas.com) should be used by all applicants to all programs except law, medicine, the physician assistant program, and some professional programs in the schools of dentistry and pharmacy, and the divisions of physical therapy, occupational therapy and public health. Applicants should confirm application requirements with their intended school or academic program before application submission.

Online Graduate Programs

Admission to the University of Southern California's online graduate programs is offered to candidates meeting the university's admission standards. USC's online programs are designed to be as rigorous and comprehensive as their traditional on-campus counterparts. Official offers of admission to some of our online programs may come directly from the administering school or college.

Prospective online program students must submit an application for admission, application fee, official academic records and supplemental documents as required by their intended program. Applicants are encouraged to contact the department, program or school to which they are applying for further program information and additional requirements.

Applicants with Disabilities

The University of Southern California is committed to full compliance with the Rehabilitation Act (Section 504) and the Americans with Disabilities Act Amendments Act (ADAAA). As part of the implementation of this law, the university will continue to provide reasonable accommodation for academically qualified students with disabilities so that they can participate fully in the university's educational programs and activities. Although USC is not required by law to change the "fundamental nature or essential curricular components of its programs in order to accommodate the needs of students with disabilities," the university will provide reasonable academic accommodation. It is the specific responsibility of the university administration and all faculty serving in a teaching capacity to ensure the university's compliance with this policy.

The general definition of a student with a disability is any person who has "a physical or mental impairment which substantially limits one or more of such person's major life activities," and any person who has "a history of, or is regarded as having, such an impairment." Reasonable accommodations are determined for students based on an interactive review process, incorporating the student's self-report, supporting documentation according to the university's documentation guidelines, requirements of the student's program of study and university policies.

Office of Student Accessibility Services (OSAS) is designated by the university as the unit responsible for ensuring equal access in compliance with state and federal disability law as it relates to students with disabilities. OSAS serves undergraduate, graduate and professional students; on-ground and on-line students; and students in all credit-granting programs of study.

For information about how to connect with OSAS, as well as information about the university's documentation guidelines, please visit our website: osas.usc.edu.

Retention of Records and All Application Documents

All documents and credentials submitted to the Office of Admission, at the time of application and thereafter, become the property of the university and cannot be returned to the student or duplicated for any purpose.

Continuing Registration Requirement

The minimum standard for graduate admission is a U.S. bachelor's degree or its equivalent (as determined by the USC Office of Admissions), from a regionally accredited institution (for schools located in the United States) or an institution officially recognized by the ministry of education of the country in which it is located. The Graduate School and some professional schools have additional minimum requirements for applicants seeking degrees. Continuing registration requirement status is applied to those students who have not yet met all requirements for admission to full graduate status or who have not filed all relevant documents with the appropriate school or department. Students admitted in this status must satisfy their continuing registration requirements by the end of the first term of enrollment, or within the time period deemed appropriate by the department, program or Office of Degree Progress. Students who fail to satisfy their continuing registration requirement within the allotted time frame will not be allowed to register for classes for future terms.

Students who have continuing registration requirement holds on their records for academic standards must complete a stipulated number of units of graduate-level course work with no grade below a B in each class and must be recommended for regular admission by a faculty committee. Once those academic requirements have been met within the stipulated term period, the department chair or program director can authorize registration for the following semester. If these requirements are not met, the student may be dismissed from the program.

Individual exceptions must be approved by the dean of the degree-conferring unit.

Doctoral Admission with Advanced Standing

Some doctoral programs at USC admit students with Advanced Standing (entry with an appropriate completed graduate degree from an accredited institution).

A minimum of 36 units of course work beyond the first graduate degree, exclusive of 794 Doctoral Dissertation preparation, is required for the doctoral degree if students are admitted with Advanced Standing. Additional course work may be required if deemed necessary by the student's faculty. See the Course Work Taken Elsewhere page.

Admission to Candidacy

Admission to graduate study does not imply admission to candidacy for an advanced degree and gives no right or claim to be so admitted. Candidacy is determined after the student has demonstrated the ability to do graduate work with originality and independence at USC.

University Faculty

Faculty members shall not be candidates for degrees in the same schools in which they have appointments. In addition, assistant professors on the tenure track should not simultaneously be candidates for degrees anywhere at the university. Individual exceptions to either of these policies may be made only with the approval of the provost or of a special committee appointed by the president. Individual exceptions are considered when the individual submits a request for tuition waiver, which is forwarded for approval to the vice provost for faculty affairs. The form should be accompanied by a memo from the dean of the school. For candidacy within the same school, the dean's memo explains how conflict of interest issues will be dealt with; for assistant professors on the tenure-track, the memo explains how pursuit of the degree will advance rather than detract from meeting the criteria for tenure.

The Graduate School

The Graduate School establishes and monitors the standards under which students are admitted for study in all graduate degree programs except the Doctor of Dental Surgery, Juris Doctor and Doctor of Medicine. An alphabetical listing of degree programs by school can be found under Programs, Minors and Certificates. Details of admission standards are provided in the Graduate School section of this catalogue and in the sections of schools and departments providing the curricula for these programs.

Professional Master's and Doctoral Degrees

Details of admission standards to professional degrees available at USC are detailed in appropriate school listings as well as on the Office of Graduate Admission website .

Dual Degree Programs

Applicants wishing to pursue a dual degree program offered by the university must apply separately to each degree program, meet the admission requirements of each school, and be admitted by both academic units. Applicants to a professional degree program should consult the particular school for information on admission requirements and programs of study.

Admission of International Students

The University of Southern California has an outstanding record of commitment to international education. From a small presence during our early history, our international enrollment grew to an average of 200 students by the 1930s. After declining international enrollments in the years surrounding World War II, USC began rebuilding and in 1951 began providing specialized admission services to international students. By 1964, more than 1,000 international students were enrolled at USC. Today, the Office of Graduate Admission serves thousands of prospective students each year by providing both general and specialized information and by maintaining the expertise necessary to evaluate academic records from the various educational systems around the world. The Office of Graduate Admission also issues the required certificates of eligibility (I-20 or DS-2019) to admitted students who certify to attend USC so that they can apply for a student or scholar visa to enter the United States.

At USC, an international student is an individual of foreign nationality who will be entering or has already entered the United States with a non-immigrant student visa. However, students already residing in the United States and holding other non-immigrant visas (such as E2, H1 or L2) are also international students and are eligible to pursue their degrees at USC on these visas, if they so choose. International students do not qualify for need-based financial aid. U.S. permanent residents, naturalized U.S. citizens and U.S. citizens residing abroad and attending school outside the United States are not considered to be international students and are eligible for need-based financial aid.

Admission

International applicants (those who are or will be in the United States on non-immigrant visas) are required to submit the following documents:

1. Application for Admission;
2. Application fee paid by credit card; the fee is non-refundable and cannot be deferred;
3. Official scores on all examinations required for admission (e.g., GRE, GMAT, TOEFL, IELTS, etc.) sent to USC electronically by the testing agency;
4. One official copy of academic records from every postsecondary institution attended, along with certified English translation, where applicable;
5. Documented evidence of financial support with a passport copy (see financial guarantee statement); and
6. Letters of recommendation, as per the guidelines provided by the intended program of study.

Additional information may be required by the academic departments. General admission guidelines are available by country on the USC Graduate Admission website and subject to change without prior notice.

English Language Requirements

Academic success at USC is strongly dependent upon the ability to communicate in English. Listening, speaking, reading and writing proficiency must be well developed in order to assimilate large amounts of difficult material under limited time conditions with full comprehension. Such proficiency is much greater than that required for ordinary everyday living. Therefore, every effort should be made to acquire English proficiency prior to entering the university.

Admitted international students whose first language is not English are normally required to take the International Student English Examination (ISE Exam) before the beginning of the first term of study. The examination results determine whether students must take additional English for academic purposes course work.

International students who meet one of the following conditions may be exempt from taking the ISE Exam:

- International students who have completed their entire bachelor's degree at regionally accredited universities located in the United States or in another country in which English is both the language of instruction and the only official language of the country.
- Applicants to master's programs who have attained an Internet Based TOEFL (iBT) score of 90, with no less than 20 on each sub-score; or an IELTS score of 6.5, with no less than 6 on each band score.
- PhD and undergraduate applicants who have achieved an Internet Based TOEFL (iBT) score of 100 with no less than 20 on each sub-score; or an IELTS score of 7, with no less than 6 on each band score.

USC does not accept "superscores" or TOEFL "MyBest scores." Some departments may have higher requirements for English proficiency than what is listed above. USC must receive scores electronically from the testing service for them to be considered official. Photocopies or paper copies of scores are not acceptable. Scores must be received no later than the Friday before classes begin. Students should contact the American Language Institute (ALI) Office before the deadline to confirm that their scores have been received.

American Language Institute

Any matriculated student who has not demonstrated adequate English proficiency based on the criteria outlined above will be required to enroll in courses at the American Language Institute (ALI) at USC. The ALI provides courses designed to improve an international student's oral and written communication skills in English. The extent to which a student may be required to take

courses at the ALI is determined by his or her performance on the International Student English Examination (ISE Exam) or, in the case of potential teaching assistants, the ITA Exam.

ALI tuition units are charged at the regular university rate. Entering students who need English language classes should be aware that the ALI course requirements will likely increase the overall cost of their degree program. ALI classes can normally be taken concurrently with a student's other university classes and must be completed at the earliest opportunity.

Teaching Assistantships

All new teaching assistants (TAs) for whom English is a second language must demonstrate their competence in spoken English before assuming classroom or laboratory duties. Normally, new international teaching assistants (ITAs) demonstrate their English proficiency by taking the ITA Exam, administered by the American Language Institute (ALI) located on the USC University Park Campus.

The exam must be taken before assuming classroom or laboratory duties and no later than the first day of classes. The ITA exam is graded on a scale of 1 to 7. Those who achieve a score of 6 or higher are cleared for classroom duties and have no English oral skills requirement. Those who score 5 or 5.5 are cleared for classroom duties, but are required to enroll in an English language course through the ALI while performing their ITA responsibilities. Those who score below 5 on the exam are not cleared for classroom duties. These students are normally required to enroll in an English language course offered by ALI until adequate English proficiency is obtained. For more information, call (213) 740-0079 or visit ALI's website at ali.usc.edu.

Those ITAs denied clearance for teaching duties may have their offer of graduate assistantship withdrawn or alternative responsibilities assigned. An ITA who is denied clearance to teach should immediately seek assistance from the chair of the ITA's home department or program director.

Financial Guarantee Statement

The United States government requires all international applicants to provide proof of ability to pay tuition and living expenses before a formal letter of admission or the forms needed for obtaining a visa will be issued. International students are also required to have health and accident insurance. The cost of university-provided insurance will be added to the student's fees unless the student presents proof of adequate coverage.

Each applicant relying on personal or family support must furnish, at the time of application, an official financial-guarantee letter — preferably a bank letter — indicating the sponsor's name and address and verifying the ability to pay the annual cost in education-related expenses for the first academic year. This document must be verified by a bank seal. It is not necessary to show proof of funding in order to be considered for admission to USC. However, it is crucial for students to submit their financial-guarantee letters once they have submitted their applications in order to expedite the issuance of the I-20/DS-2019 in the timeliest manner possible, if they are admitted to the university.

Prospective doctoral students do not need to submit a financial-guarantee letter since most admitted students will be fully funded by the university. Applicants whose financial support will come from their home governments or other official agencies (e.g., AMIDEAST, IIE, etc.) must submit similarly appropriate documents from their sponsors.

International students cannot meet the full amount of their educational expenses by working while in the United States. The U.S. Citizenship and Immigration Services (USCIS) only allows students to work on and off-campus under limited circumstances, and employment opportunities are further limited by legislation that requires holders of student visas to be full-time students.

Additionally, all international students must submit a copy of a valid passport.

Official Document to Enter the United States

The Office of Admission will issue the I-20 (for the F-1 visa) or DS-2019 (for the J-1 visa), whichever is appropriate, for the student to apply for the visa required to enter the United States. Any students entering the United States by means of these documents issued by USC must register for the semester to which they are admitted to USC.

Registration Requirements for International Students

International students must maintain full-time student status as determined by the Office of International Services and the departmental adviser. Such students are not eligible to be considered students without formal registration and are in violation of immigration laws when not properly registered. International students are also restricted in terms of the number of online courses they can apply to full-time enrollment. Any international student having questions about registration requirements should consult the Office of International Services, Royal Street Parking Structure, Suite 101.

Admission Evaluations

Admission evaluations for international students are completed by the Office of Admission. Official transcripts for all previous academic work completed should be directed to the Office of Admission. Evaluations by credential evaluations services/ companies are not accepted.

Tuition and Fees (Estimated), Fall 2021

Tuition is payable in advance unless special arrangements are made for deferred payments as described below. Tuition is the same for resident and nonresident students. Registration is completed when the bill has been settled.

Auditors pay the regular tuition rate. Auditors are not required to participate in class exercises (discussions and examinations); they receive no grades or credit and there is no transcript notation of courses taken for audit. An instructor, dean or university officer may give permission to an individual to attend a class as a guest. Otherwise, attendance in class is limited to enrolled students.

These fees are based upon current information available at the time of publication and are subject to possible later change. The university reserves the right to change without notice any of the terms stated herein.

The number of units for which tuition is charged is indicated by the unit number below the title of each course listed in the Courses of Instruction.

Tuition (semester), (Estimated)

Undergraduate Students	
(12–18 units)	$30,223.00
unit basis	2,035.00
Graduate Students	
(15–18 units)	30,223.00
unit basis	2,035.00
Advanced Dentistry (per trimester)	34,758.00
Dentistry (per trimester)	
Session 006	34,389.00
Dental Hygiene (per trimester)	
Session 007	28,011.00
Special Dental International Students	
(per trimester) Session 008	34,389.00
Engineering Graduate units (500 level and above)	
unit basis	2,199.00
Law Session 002	
flat fee basis (13–17 units)	34,999.00
unit basis	2,707.00
Medicine Session 003	
flat fee basis	33,736.00
Master of Physician Assistant Practice	
flat fee basis	30,223.00
Pharmacy Session 004, 005	
flat fee basis (15–18 units)	30,448.00
unit basis	2,029.00
Graduate Cinema Session 037	
unit basis (no flat fee)	2,164.00
Business Graduate (500-level and above)	
unit basis	2,092.00
Doctor of Physical Therapy	
full year for year 1 and 2 students	73,634.00
partial year for year 3 students	44,487.00
Master of Real Estate Development Session 038	
flat fee basis (16–18 units)	36,112.00
unit basis	2,257.00

Mandatory Fees (Estimated)

Application Fee, undergraduate (not refundable)	85.00
Application Fee, graduate applicants (not refundable)*	90.00
*Please note that professional programs have their own separate fees (e.g. MD, JD, DDS, PharmD)	
Commitment Deposit, undergraduate (not refundable but applicable to tuition and fees)	300.00
Commitment Deposit, graduate and professional (not refundable but applicable to tuition and fees): Students should consult their academic department or school.	
Orientation Fee	
New Student Fee (undergraduate)	450.00
New Student Fee (graduate)	55.00
Student Health Center Fee (for students with a load of 6 units or more)	
Fall 2021	427.00

Student Programming Fee, per semester	
Undergraduate	64.00
Graduate (UPC, HSC and nearby campuses)	40.00
Graduate (All other locations and online)	20.00
Norman H. Topping Student Aid Fund, per semester, all students	8.00

Special Fees (Estimated)

Parking Fees: please visit the Transportation website at usc.edu/parking.	
Deferment Service Charge	
Thirty days deferments are granted for up to $2,000 of the tuition balance. There is a non-refundable service charge of 5 percent of the deferred abount due at the time the deferment is granted, in addition to the remaining billing balance.	
Student Identification Card (USCard)	
Replacement with mag stripe	25.00
Replacement with Prox contactless	25.00
Required of all students. Students must be registered before a card is issued. The fee may be assessed for each replacement of identification card.	
Laboratory Fees	5.00 – 500.00
For certain laboratory courses in architecture, biological sciences, chemistry, engineering, fine arts, geological sciences, physical education and physics. These fees are variable, and students should consult the current Schedule of Classes for amount of individual fees.	
Dissertation Fee	115.00
For USC Libraries and Graduate School processing of doctoral dissertation	
Thesis Fee	105.00
For USC Libraries and Graduate School processing of master's thesis	
Application for re-entry	no charge
Special Subject Examination (one-half per-unit rate regardless of units per course)	1,017.00
Late articulation petition fee	150.00
Articulation of international undergraduate transfer credit	205.00
Diploma reissue fee	125.00
Petition processing fee for registration exceptions	150.00

Late Registration and Late Settlement Fees

First week	100.00
Second week	100.00
Third week	100.00

Registration is not permitted after the third week of classes.

The university currently assesses a monthly finance charge on all past due balances. The current annual rate is 12 percent, subject to change.

A "returned check charge" of $25 is assessed for a check or e-check returned by the bank for any reason. Under California Civil Code #1719, a returned check may create a liability for treble (three times) the amount owed, but not less than $100. Any returned items will void outstanding deferments, making all balances due in full immediately. The university may, at its option, cancel enrollment of any student whose check is returned unpaid by the bank. If the university does not exercise this option, the student will be responsible for all tuition and fees incurred. Students and parents should be aware that non-local checks may be held by the bank for the maximum time allowed by law. Please allow ample time for non-local funds to be made available by the date payment is due.

Obligation for Payment

Request for registration constitutes a legal financial obligation to which students will be held liable if they do not follow the proper procedure to change or cancel their registration through the Office of Academic Records and Registrar. They must receive written confirmation (the Registration Confirmation form) to verify that their requested change has been made.

By registering, students agree to be held responsible for all tuition and fees, including, but not limited to, payments denied by student loan lenders, agencies of the United States government, and agencies of foreign governments.

Tuition and fees for all students, including those whose tuition has been deferred, become an obligation in accordance with the provisions of the Withdrawal Refund Policy as follows: Tuition and fees are due, in full, by the settlement deadline. Failure to make payments of any indebtedness to the university when due, including but not limited to tuition, deferred tuition, housing, student loans, lab fees and USCard, is considered sufficient cause, until the debt is settled with the university to (1) bar the student from classes and examinations; (2) withhold diploma or scholastic certificate; (3) bar the student from university housing; (4) suspend all university services and privileges; (5) suspend the student;

(6) assign the student to a collection agency (students who have been assigned to an outside collection agency may be required to pay in advance for all future registrations and services); and (7) report the student to a credit bureau. This policy will be equally enforced against debts discharged through bankruptcy.

Permission to cancel enrollment does not constitute, nor shall it be construed as, a waiver by the university of a student's financial obligation. Students are still responsible for all outstanding debts and contracts with the university. Furthermore, a student must not have any delinquent financial obligations to USC at the time classes begin or his or her registration may be revoked.

For additional information please contact the Cashier's Office, Student Union 106 (STU 106), (213) 740-7471.

Methods of Payment

You may pay your bill online (sfs.usc.edu/epay), by mail or in person. If you are paying by mail, be sure to mail your payment early enough for the university to receive it by the settlement deadline.

USCe.pay allows you to manage your student account online. You can pay your tuition and fees by transferring funds from your savings or checking account (via ACH) or by wire. As of July 1, 2020, USC will no longer accept credit cards for payment of tuition and fees. You can also print e-receipts and view your billing statements or current account information. In addition, you can set up individual guest user access for parents or anyone else you choose so they can make payments on your account. For more information, visit sfs.usc.edu/epay. To access your USCe.pay account, log in to myUSC (my.usc.edu) and select the USCe.pay link.

In fall and spring semesters, USC offers a monthly payment plan. An application must be made each term after the student has registered for classes but before the settlement deadline.

More detailed information about student accounts, settlement options and procedures is available at sfs.usc.edu.

Financial Aid

Financial aid recipients will have most of their available financial aid (such as scholarships, grants, loans and graduate assistantship tuition awards) applied to their university accounts each semester as direct credits against their total charges. Federal and state aid such as Pell Grants, Supplemental Educational Opportunity Grants, Cal Grants, Direct Loans and Direct PLUS Loans are applied only to tuition, mandatory fees, room and board unless the student has completed a Title IV Charges and Credit Balance Authorization to grant permission to apply these funds to other charges. Federal and state aid will disburse to student accounts no sooner than 10 days before the first day of classes for the term. Students must complete all application steps and meet all disbursement requirements before funds will be applied to their accounts. For details, visit financialaid.usc.edu.

Federal Work-Study awards are not reflected as credits on a student's account. These awards are earned through employment, either on-campus or with an approved off-campus employer. The student is paid by check or direct deposit bi-weekly for hours worked and may earn up to the amount of the Federal Work-Study award under the program.

Billing Information

Monthly billing notifications on all active student accounts are emailed to the student's official USC email address (ends in @usc.edu) and to their designated guest users. USC does not mail printed statements to currently enrolled students.

In accordance with the Family Educational Rights and Privacy Act, university representatives will not disclose any specific information about a student's account to any third party (including family members) without the student's permission. Information about granting permission is available on the Student Financial Services website for parents and sponsors (sfs.usc.edu/epay/).

Although the university will accept payments from a third party, the student is responsible for settling all debts to the university by the appropriate deadlines.

Refund of Tuition

Tuition is refundable entirely at the discretion of the university. Refunds will be computed as of the date on which a student cancels or drops a course through the Registration Department. Request for a refund must be made to the Cashier's Office.

Refunds for the regular/general 12- to 15-week fall or spring session are made through the end of the third week of classes (the refund deadline). No refunds are issued for classes canceled after the deadline.

If you are enrolled in any other fall or spring session, or if you are enrolled in the summer, a different refund deadline may apply. Verify the refund deadline for a specific course on the *USC Schedule of Classes* by clicking the calendar icon that appears next to the course.

If students receive Title IV federal financial aid funds (Pell Grant, SEOG, Federal Direct Loan, Federal Direct PLUS Loan) and withdraw from all classes after the refund deadline, they may be required to return any "unearned" Title IV federal financial aid, even if they are not entitled to a refund of tuition. Refer to Withdrawal Implications for Recipients of Financial Aid for more information.

Tuition Refund Insurance

Elective insurance is available that provides full coverage for tuition and mandatory fees (excluding health insurance) for you if you suffer a serious illness or accident that makes it necessary for you to leave the university before the semester is completed.

What Tuition Refund Insurance Covers

The insurance covers 85 percent of the tuition and mandatory fees (excluding the student health insurance fee) for the semester if a student withdraws from all classes due to injury or sickness. For withdrawals from all classes due to a psychological or emotional condition (as defined in the DSM-IV manual), the coverage is 85 percent provided the student is confined in a hospital for two consecutive days during the term. The plan covers payments made directly by the student, loans, grants or scholarships. USC grants and scholarships are credited back to the university and loans may be credited back to the lender as determined by the Financial Aid Office.

By default, at the time you register, Web Registration will enroll you in Tuition Refund Insurance. This will result in a charge equal to approximately .32 of 1 percent of your tuition and mandatory fees, which will be added to your student account.

If you wish to remove Tuition Refund Insurance after you have registered, you may make the change on Web Registration (my.usc.edu and webreg.usc.edu) by clicking the Tuition Refund Insurance tab and following the prompts. You may decline tuition refund insurance up until the end of week three (session 001) or the 20 percent mark of all other sessions in the fall or spring semester. For all summer sessions, the deadline is the 80 percent mark of session 050, deadline to drop with a mark of W. In summer 2021, the deadline is June 23, 2021.

The Tuition Refund Plan is offered through a private insurance carrier, A.W.G. Dewars, Inc. (collegerefund.com). Further information and application brochures are available from the Cashier's Office and Academic Records and Registrar. Information is also available online at arr.usc.edu/services/registration/tuitionrefund.html.

Exit Loan Counseling

All students who borrowed a Direct Loan or Direct Graduate PLUS Loan must complete exit loan counseling when they graduate, withdraw or are no longer enrolled at least half time. Exit loan counseling is a two-part requirement for borrowers of Direct and/or Direct Graduate PLUS loans. First, a borrower must complete online exit loan counseling at iGrad. This online process takes about 30 minutes. Second, a borrower must also participate in an in-person exit loan counseling information session or an exit loan counseling webinar. Information and schedules for in-person exit loan counseling and webinars is available online at financialaid.usc.edu at the end of each semester.

Students who have borrowed a Health Professions Student Loan, Loans for Disadvantaged Students, Primary Care Loan or any academic loan, must complete an online session at heartlandecsi.com. Diplomas and transcripts will not be released if the student does not complete exit loan counseling.

Tuition Assistance Benefits

The Tuition Assistance Benefits program provides USC tuition payments for eligible faculty and staff and their spouses or registered domestic partners and children. The amount of tuition payment varies based on who is taking the class, the type of class and the maximum number of units eligible for assistance. Tuition assistance is limited to tuition and does not apply to any fees or books. See the Tuition Assistance Benefits Program document available online at benefits.usc.edu for complete information about eligibility and requirements.

Tuition assistance eligibility does not guarantee the student admission to the university. The prospective student must apply for university admission through the USC Admission Office.

Only those USC classes for which a student may register and receive a registration confirmation are eligible for Tuition Assistance Benefits. Special education programs, seminars, certificate programs and other classes not listed in the *USC Catalogue* are not eligible for tuition remission.

An employee must meet all eligibility criteria before the submission of the tuition assistance application. Eligibility criteria is outlined in the official Tuition Assistance plan document, which can be found on the Benefits website. Applications must be submitted to Benefits on or before the start of the applicable semester. Please refer to the Academic Calendar for start and end dates of semesters. A student who receives tuition assistance is responsible for payment of a prorated amount of tuition assistance if certain changes in employment status of the employee or sponsoring employee occur during the semester. The tuition assistance benefit may be considered taxable income in some situations. The official Tuition Assistance plan document contains information about the tax liability for certain types of tuition assistance. Application forms for tuition assistance may be found on the Benefits website at benefits.usc.edu by clicking the icon "Forms" and then "Tuition Assistance Application Forms." For additional information, contact the HR Service Center at (213) 821-8100 or uschr@usc.edu.

Cancellations

Defined as complete withdrawal from the semester or session, cancellation refunds are computed based on the date the application to cancel enrollment is presented to the Registration Department.

Drops

Drops are defined as withdrawal from one class or part of registration. The refund schedule applies as of the date the drop is processed by the Registration Department.

This policy is enforced equally for settled and unsettled registrations.

Financing Alternatives

Prepayment Program (PP)

This option offers individuals the opportunity to stabilize tuition costs by avoiding future tuition increases. Under this plan, the university will accept the prepayment of the student's total USC tuition plus mandatory fees at the current tuition rate for up to the next four or five years. The student must be admitted to the university before establishing a prepayment account. For further information, contact Student Financial Services at (213) 740-4077 or visit our website at sfs.usc.edu.

USC Payment Plan

The USC Payment Plan, administered by Student Financial Services, enables students and parents to pay tuition, fees and university housing and meal plan charges in monthly installments rather than in a single payment at the beginning of each semester. Payments are made over a five-month period for each semester, beginning August 1 for the fall semester and January 1 for the spring semester, and may be made only by electronic transfer. A trimester plan is offered to law, dental, nursing, MBA-PM, MS marketing and Bovard College students. There is a small application fee each semester. The student must be in good financial standing at the university. For further information, contact Student Financial Services, (213) 740-4077 or by email at uscsfs@usc.edu. Application must be made on USCe.pay. For more information, please visit our website at sfs.usc.edu.

Private and Federal Financing

USC participates in a number of long-term financing options that are available to all families regardless of eligibility for scholarships or financial aid. These programs can relieve students' and families' cash-flow restrictions and enable them to meet their expected contributions for the cost of college education. Information about loan programs is available online at financialaid.usc.edu or at the USC Financial Aid Office.

Student Health Insurance

Please visit usc.edu/studenthealth for 2021-2022 student health insurance rates. The university requires that all students have supplemental health insurance to help cover the cost of health care that cannot be obtained at the health center, especially in emergency situations where hospitalization may be required.

All domestic students carrying 6 units or more will be automatically enrolled in the USC student health insurance plan. Some class registration codes, for example Special Tuition programs, do not generate this automatic charge. All students are required to review their fee bill after registering for classes and if the automatic insurance charge does not appear, must contact the insurance office by the add date to enroll in this plan if they wish to continue coverage for the semester. Domestic students carrying less than 6 units or who drop classes before the add date resulting in enrollment in less than 6 units, must enroll themselves in the plan by the add date if they wish to continue coverage for the semester. All international and/or health sciences students are automatically enrolled in the USC student health insurance plan regardless of the number of units in which they are enrolled. Online degree program students studying online or at a satellite campus will also be enrolled in the USC student health insurance plan if they are carrying 6 units or more.

The USC student health insurance plan works in conjunction with the university's student health centers. All students studying on the UPC or HSC campus are assessed the mandatory student health center fee (which is a separate fee from the health insurance) and are required to access their primary care at the student health centers. Referrals are required in order to see providers outside the student health centers for non-emergency situations.

Waiver Requirements

Enrollment in the USC student health plan will only be waived and the premium charge removed from the fee bill if documented proof of health coverage from another plan is presented using the online waiver application by the deadline date. Please visit usc.edu/studenthealth to get the deadline date. In order to receive a waiver of the USC student health insurance, the insurance presented must meet certain criteria. For details about the waiver criteria, please visit usc.edu/studenthealth and see the insurance menu.

Waivers are submitted online at the Aetna Student Health website. Go to aetnastudenthealth.com to complete the waiver process. For more information, call USC Student Health at (213) 740-9355 (WELL).

Graduate Assistants

Graduate assistants with a .25 award or higher and PhD students may be eligible to have USC pay for the USC student insurance plan and the USC Student Health fee. Their assistantship award must show in the student financial detail system. More information is available in the student's award packet through his or her academic department.

Student Health Insurance for Students Studying Overseas

Students participating in USC-sponsored study abroad programs are required to have USC health insurance coverage. These students are automatically enrolled in the USC overseas studies health insurance plan unless they are enrolled in the USC health plan. For more information, please call USC Student Health at (213) 740-9355 (WELL).

Student Dental Plan (Optional)

Dental coverage for students is available for purchase and billed to the student's account. Dental coverage is optional and is not automatic. Coverage is for the entire year and must be purchased by the deadline in the fall. Please see usc.edu/studenthealth for details. Spring enrollment will only be allowed for new incoming students in the spring semester. Plan details are available at usc.edu/studenthealth.

Veterans' Benefits

Veterans must register with the Veterans Certification Office each semester in order to receive VA Education Benefits. Students may expect an educational allowance, through the GI Bill or Vocational Rehabilitation, based only on courses that are a legitimate part of the degree program approved for veterans. The student must notify the Veterans Certification Office immediately upon any change in unit load or change of major. The office is located in the Veterans Resource Center in the Tutor Campus Center, Room 330, (213) 740-4619, FAX: (213) 821-3760. Office hours are 8:30 a.m. to 5 p.m. Monday–Friday. For more information, visit our website at usc.edu/va.

Students may visit gibill.va.gov for more information regarding GI Bill Education and Vocational Rehabilitation Assistance.

Naval Reserve Officer Training Corps (NROTC)

The Department of Naval Science courses are structured primarily for those who are participating in the Naval Reserve Officers Training Corps (NROTC) but are open to all undergraduate students. The NROTC program eventually leads to a commission as an officer in the United States Navy or the United States Marine Corps. Most NROTC midshipmen at USC are the recipients of national scholarships earned through competition while seniors in high school. These scholarships pay full tuition, fees, a book stipend and a $250 to $400 monthly subsistence stipend to help defray living expenses. The university also provides an additional automatic scholarship of $4,000 per year for each NROTC scholarship recipient to help pay for living expenses. Navy/Marine Corps scholarships are also available on a competition basis to students who enroll directly in the NROTC college program at the university. College program students receive no NROTC financial aid until they are selected for a scholarship, qualified medically, and meet naval body composition and fitness standards. College program students who are not selected for a scholarship may apply for advanced standing status during their sophomore year, which enables them to continue in the program and makes them eligible to receive a subsistence stipend beginning in their junior year. Upon completion of the bachelor's degree and NROTC requirements, scholarship and advanced standing students are commissioned as active duty Ensigns in the U.S. Navy or as Second Lieutenants in the U.S. Marine Corps, and proceed to advanced training in the Navy Officer communities of aviation, submarines, surface ships, and naval special warfare or Marine Corps Military Occupational specialties such as aviation, infantry, intelligence, artillery, etc. For specific information, contact the Department of Naval Science at (213) 740-2663 or visit usc.edu/dept/nrotc.

Air Force Reserve Officer Training Corps (AFROTC)

The Department of Aerospace Studies and the Air Force Reserve Officer Training Corps (AFROTC) is open to all students pursuing a degree at USC. The open enrollment classes consist of one hour of academics for AEST 100a, AEST 100b and AEST 200a, AEST 200b, and three hours of academics for AEST 300a, AEST 300b and AEST 400a, AEST 400b. Additionally, the Department of Aerospace Studies offers Leadership Laboratory courses. Prerequisites to enroll in Leadership Laboratory include enrollment in at least one AEST course, and application to become an AFROTC cadet. Students who are dual-enrolled as AFROTC cadets receive competitive opportunities to travel to various leadership symposia and professional development opportunities during the academic year and over the summer. AFROTC offers a variety of scholarships, some of which pay the full cost of tuition, books and fees. AFROTC cadets on scholarship and all juniors and seniors receive a monthly tax-free stipend. The university also provides an additional automatic scholarship of $4,000 per year for each AFROTC scholarship recipient to help pay for living expenses. The USC Price School of Public Policy offers an additional scholarship for one unit in excess of 18 units per semester. Upon successful completion of AFROTC academic classes and leadership laboratories, students will qualify for a commission as a second lieutenant in the United States Air Force or United States Space Force. For more information, you may visit our website at priceschool.usc.edu/programs/afrotc/ or contact the Department of Aerospace Studies (AFROTC) by email at AFROTCDET060@rotc.usc.edu or by phone at (213) 740-2670.

Army Reserve Officer Training Corps (AROTC)

The Army Reserve Officer Training Corps is one of the most demanding and successful leadership programs in the country focused on educating, training, and commissioning leaders of character for the Army. Courses take place both in the classroom and in the field throughout the academic year. Students also have opportunities to attend additional summer programs, such as Airborne or Air Assault School as well as a myriad Army internships. Upon completion, an Army ROTC graduate earns the rank of Second Lieutenant in the U.S. Army. The USC Army ROTC program has a limited number of full-tuition scholarships for full-time undergraduate and graduate students. Scholarships are offered on a competitive basis to all qualified applicants and are not based on financial need. Students (cadets) may compete for either Active or Reserve Component Duty. All scholarship and contracted cadets receive a monthly stipend of $450 and a book stipend per semester. The university also provides an additional $4,000 scholarship per year for each AROTC scholarship recipient to offset living expenses. All enrolled cadets receive uniforms, military science textbooks, and any other required items from the department. The AROTC program runs concurrent with all academic majors offered by the university. Prior to degree completion, students will choose from 17 Army officer career fields. Veterans, Reservists, National Guard members, and AROTC Basic Camp graduates qualify for advanced placement. For further information, visit the Army ROTC office located in the Physical Education Building, Room 110, call (213) 740-1850 or visit the website at uscrotc.com.

Academic Calendar

Fall Semester 2021
69 instructional days

Open Registration	Mon-Fri	August 16-20
Move-In	Sat-Wed	August 14-18
Classes Begin	Mon	August 23
Labor Day	Mon	September 6
Fall Recess	Thu-Fri	October 14-15
Thanksgiving Holiday	Wed-Sun	November 24 – November 28
Classes End	Fri	December 3
Study Days	Sat-Tue	December 4-7
Exams	Wed-Wed	December 8-15
Winter Recess	Thu-Sun	December 16 – January 9

Spring Semester 2022
73 instructional days

Open Registration	Thu-Fri	January 6-7
Classes Begin	Mon	January 10
Martin Luther King's Birthday	Mon	January 17
President's Day	Mon	February 21
Spring Recess	Sun-Sun	March 13-20
Classes End	Fri	April 29
Study Days	Sat-Tue	April 30-May 3
Exams	Wed-Wed	May 4-11
Commencement	Fri	May 13

Summer Session 2022
58 instructional days

Registration	Mon-Tue	May 16-17
Classes Begin	Wed	May 18
Memorial Day	Mon	May 30
Independence Day	Mon	July 4
Classes End	Tue	August 9

Academic and University Policies

Students are expected to be familiar with university policies and to monitor their own academic progress. They should keep all records of official grades earned, degree requirements met, transfer credits accepted and actions taken on requests for substitutions or exceptions to university policies and regulations.

Registration

Registration Procedures and Current Course Offerings

The fall, spring and summer issues of the *Schedule of Classes* contain details describing registration procedures, including the Web registration process, courses offered, course descriptions, faculty listings, time and meeting place of classes, textbook information and course syllabi. The *Schedule of Classes* is available before registration each semester at classes.usc.edu. It is recommended that students register as early as possible using Web registration to save time and avoid inconvenience. Registration appointment times and permit to register information are available to continuing students in October and March at my.usc.edu and on OASIS. New students will receive their permits to register during their orientation sessions. Open registration for all students continues the week prior to the start of the semester.

Enrollment Status

A student is considered to be enrolled full time in a semester when the student has registered for 12 or more units as an undergraduate student, 8 or more units as a master's level student or 6 or more units as a doctoral level student. All graduate assistants are classified as full-time students during the semester(s) of their appointments as long as they are enrolled for the minimum units required for their assistantship. The number of courses for which a student has registered is not a basis for determining full-time enrollment status. Units taken for audit do not apply to enrollment status calculation. Other than units, there are additional circumstances that confer full-time enrollment status. These include enrollment in: 594 Master's Thesis, 794 Doctoral Dissertation, Studies for the Qualifying Examination (GRSC 800a, 800b, 800z) and GRSC 810 Studies for Master's Examination, as well as other courses and programs as determined by the Registrar of Academic Records and Registrar. Verification of student enrollment status is provided by the Office of Academic Records and Registrar (JHH Lobby), arr.usc.edu/services/verification/generalinfo.html. Third-party requests for degree and enrollment information are provided by National Student Clearinghouse, studentclearinghouse.org. Enrolled students can also obtain verification on OASIS by logging in to my.usc.edu, clicking on OASIS and clicking on Record Ordering Services.

Extra Units

A normal academic load is 16 units per semester for undergraduate students and 8 units (500-level) for graduate students. The university recommends that undergraduate students register for no more than 18 units and graduate students for no more than 16 units. Registering for more than 18 units for undergraduate students will result in an additional charge equivalent to the number of units beyond 18 times the per-unit rate published on the Tuition and Fees page. Permission to enroll in more than 20 units requires written approval from the school or home department of the student's major.

Declaration of Major

All undergraduate students must record their primary major by the start of their junior year (on completion of 64 semester units). All major and minor programs of study should be recorded three semesters before the intended graduation date. Undergraduate academic departments can also perform changes of major for their students.

Declaration of Minor

Application for a minor must be made to the department or professional school offering the minor.

Classification and Numbering of Courses

The first digit of the course number indicates the year level of the course: 000 — non-credit preparatory courses, 100 — first undergraduate year, 200 — second undergraduate year, 300 — third and fourth undergraduate years without graduate credit, 400 — third and fourth undergraduate years with graduate credit for graduate students, 500 — first graduate year, 600 — second graduate year, 700 — third graduate year.

Upper-division courses (300- and 400-level courses) are generally more sophisticated and demanding. They may have prerequisites or other limitations on enrollment and are usually intended for students who have some preparation, either in the specific discipline or more generally in academic study. They tend to concentrate more narrowly and intensively in scope than lower-division courses in the same discipline.

The lowercase letters *ab*, *abcd*, etc., indicate the semesters of a course more than one semester in length. In such courses the *a* semester is prerequisite to the *b* semester, and so on. Courses designated *g* are available for general education credit. Courses designated *w* offer general education credit for Global Perspectives in Category G: Citizenship in a Diverse World. Courses designated *p* offer general education credit for Global Perspectives in Category H: Traditions and Historical Foundations. Courses designated *m* for multiculturalism meet the diversity requirement. Capital *L* indicates that all or part of the work is supervised laboratory or other work. Courses designated *x* are restricted in some manner. The course description will specify the restriction. Courses designated with a *z* are for repeated registrations for 0 credit, for which 2 units of tuition are charged.

The following are not available for graduate credit: courses numbered 000–399 and 490, courses designated *g* (general education), Senior Seminar courses, courses designated *x* where the description specifically excludes graduate credit.

Unit Value

The unit value of courses is indicated for each term of the course by a numeral in parentheses after the course title. All courses are on the semester unit basis. It is the student's responsibility to verify with the instructor that the number of units in which he or she has registered in any variable unit course is correct. If the units are incorrect, the student must correct them through Web Registration or in person in the lobby of John Hubbard Hall.

Repeating Courses

Ordinarily, courses may not be repeated for credit. For courses that may be repeated for credit, the maximum amount of credit is indicated after the unit value. Courses that may be repeated for credit reflect instances in which the subject matter is progressive in nature, or where special topics or directed research offerings exist, all reflecting unique course work.

Appropriate Course Enrollment

It is recommended that students register in courses appropriate to their academic standing — lower-division students in courses below 300, upper-division students in courses below 500, graduate students in courses numbered 500 or higher.

Preparatory Courses

Preparatory courses (course numbers below 100) impart the minimum skills required for college-level work. Students completing preparatory course work may receive unit credit toward enrollment status but do not receive degree credit.

Prerequisites

Prerequisites are courses that must be passed and/or specific background that must be demonstrated prior to advancing to the next course in a prescribed sequence of courses. Passage of appropriate examinations or consent of the academic unit offering the course will waive prerequisites. However, a prerequisite course within the same discipline taken after the higher level course has been passed will not be available for unit or grade point credit.

Corequisites

Corequisites are courses that must be taken at the same time as, or passed prior to, the designated course. Passage of the appropriate examinations or consent of the academic unit offering the course will waive corequisites. However, a corequisite course within the same discipline taken after the designated course has been passed will not be available for unit or grade point credit.

Recommended Preparation

Recommended preparation indicates course work or specific background that is advisable but not mandatory in preparing the student for the designated course.

Guaranteeing a Space in a Class

Registration in a class does not by itself guarantee a space in that class. An instructor may replace any student who without prior consent does not attend these class sessions: (a) the first two class sessions of the semester, or (b) the first class session of the semester for once-a-week classes. It is then the student's responsibility to withdraw officially from the course. Any class added, whether by Web Registration or in person, after the first week of classes should receive the approval of the instructor.

Pass/No Pass Enrollment Option

Students may enroll for courses with the Pass/No Pass grade option on Web Registration. USC allows students to decide the grade option for any course up until the 20 percent mark of the session in which the course is offered. For the specific deadline to change the grade option of a course, click the Calendar icon next to the course on the *Schedule of Classes*.

As of fall 2015, students who register for a course on a Pass/No Pass basis may request to change the grade option to letter grade 45 percent into the session in which the course is offered. For the specific deadline to change the grade option of a course, click the Calendar icon next to the course on the *Schedule of Classes*.

Certain undergraduate courses (e.g., courses offered by the WRIT department) must be taken for a letter grade. Graduate students must receive departmental approval to enroll in a graduate course on a Pass/No Pass basis. Refer to the Pass/No Pass Graded Work section in the USC Catalogue for details on degree credit restrictions on courses taken on a Pass/No Pass basis. Students should consult an academic adviser before enrolling in any course on a Pass/No Pass basis.

In cases where a student has registered for a course on a Pass/No Pass (P/NP) basis and an academic integrity violation has occurred, a penalty letter grade may be assigned (i.e., "F"), rather than assigning a mark of Pass or No Pass.

Credit/No Credit Courses

Certain courses have been authorized by the University Committee on Curriculum to be graded Credit/No Credit. Students may not enroll in a course on a Credit/No Credit basis unless the course is listed as being offered as Credit/No Credit.

Courses Numbered 490x and 390

Many academic units offer courses numbered 490x and 390. These courses are offered on a letter-graded basis only and carry certain restrictions that are uniformly applied throughout the university.

490x Directed Research (1-8, max 12)

Courses numbered 490x are open to students who have demonstrated the ability to do independent work in the discipline. The courses require consent of the instructor and a written contract of course requirements signed by both the instructor and department chair. They are not available for graduate credit and are not open to students with less than 2.0 GPA overall or with any academic holds that restrict registration. A student may accumulate a maximum of 12 units of 490x in any one department and 16 units toward the degree.

390 Special Problems (1-4, max 4)

Courses numbered 390 are available only to seniors in their last semester who are made aware of a unit shortage after the enrollment period for that semester has passed. Students notified of a unit shortage prior to the close of the enrollment period are expected to register for regularly scheduled classes. Enrollment in a 390 class is available only by petition to the Committee on Academic Policies and Procedures (CAPP). A 390 is a supervised, individual studies course. The student and instructor must prepare a written contract of course requirements for presentation with the petition to CAPP. The petition must be recommended by the dean of the academic unit in which the student is seeking a degree. Evidence must be provided that the unit shortage was the result of circumstances beyond the student's control. Credit for only one 390 registration is accepted toward the student's baccalaureate degree.

Audited Courses

Students may elect to audit courses during the first three weeks of the semester (or the third week equivalent for any session that is scheduled for less than 15 weeks). Consult the *Schedule of Classes* for the deadline to select the audit grade option for a specific course. A course taken for audit (V) will be assessed at the current tuition rate. A course taken for audit (V) will not receive credit and will not appear on the USC transcript or grade report. A course taken for audit is not included in enrollment for purposes of receiving financial aid.

Limited Status Enrollment

Limited status enrollment allows persons who have not been admitted to the university to take a limited number of courses at USC.

Eligibility for Limited Status Enrollment

Students who have not yet completed a bachelor's degree are not eligible for limited status enrollment if they have been denied admission to USC or if they have been academically disqualified or suspended from any community college, college or university.

At the post-baccalaureate level, limited status enrollment is not available to students who have been denied admission to the department offering the course unless prior approval is granted by the department and the appropriate dean.

International Students

Limited status enrollment does not fulfill requirements for issuing a student visa. Non-immigrant visa holders must have the approval of the Office of International Services (Royal Street Structure, PSD 101) before registering for classes.

Limited Status Enrollment Eligibility for Non-immigrant Visa Holders

1. B-1 and B-2 status holders are not eligible for Limited Status enrollment at USC.
2. F-1 status applicants who are on another institution's I-20 are eligible for Limited Status enrollment if they will concurrently

enroll at the I-20 school and USC. A letter from the international office at the I-20 school verifying enrollment will be required when submitting your Limited Status application. F-1 status applicants who are currently not maintaining immigration status/or will not be enrolled at the I-20 school are not eligible for Limited Status enrollment at USC.

3. Individuals on other visa categories such as A, E, H, J, etc. and TN are eligible for Limited Status enrollment if maintaining status on that visa category. A copy of the passport and I-94 card will be required when submitting the Limited Status application.

Restrictions on Limited Status Enrollment

A pre-baccalaureate limited status student may not register for more than 16 units; a post-baccalaureate limited status student may not register for more than 12 units.

Exceptions to this policy will be considered by the Office of Admission for USC employees and for post-baccalaureate students who submit a disclaimer of intent to pursue a USC degree.

Prior approval of the department offering the course is required for all limited status enrollment. If a limited status student is subsequently admitted to regular standing, no more than the first 16 undergraduate or the first 12 graduate units taken through limited status enrollment can be applied toward a degree. In very rare situations, individual undergraduate exceptions may be approved by the dean of the degree-conferring unit. For graduate students, the rare exception must be approved by the Vice Provost for Academic Programs. International students must show proof of proper visa type and demonstrate English language proficiency prior to enrollment in the Limited Status program.

Dropping and Adding Courses

Courses may be added only during the 20 percent mark of the session. After registering, it is the student's responsibility to officially drop from a course if he or she decides not to continue in a course. All such changes must be processed by Web Registration or through the Registration Department. Failure to withdraw officially will result in the mark of "UW," which is computed in the GPA as zero (0) grade points. A student may drop a course without academic or financial penalty up until the 20 percent mark of the session in which the course is offered. If the course is dropped after the 20 percent mark and before 45 percent of the session, the course does not appear on the academic transcript, but the course tuition and fees will be assessed to the student's account. If the course is dropped after the 45 percent mark, it will be recorded with a mark of "W." No course may be dropped after the 80 percent mark of a session. A student may not withdraw from a course in which he or she committed or was accused of committing an academic integrity violation. Please refer to the *Schedule of Classes* to see session dates.

Registration in Graduate-Level Courses by Undergraduate Students

Exceptional undergraduate students may enroll in a graduate course. In order to do so, students must receive approval of the instructor. Students must have prior approval from the chair of the major department to count the course for undergraduate credit or audit the course. The student's major department will notify the One Stop Center regarding the manner in which the graduate course will be used. In no case will a student be allowed to enroll in and receive credit for a graduate course if the student's cumulative USC GPA is below 2.0

Graduate Credit for 400- and 500-Level Work Taken as an Undergraduate

An undergraduate student who is within 12 semester units of the bachelor's degree and has a cumulative grade point average of at least 3.0 may request to enroll in and reserve for graduate credit a limited amount of work at the 400 and 500 levels during the last semester as a senior, provided that the semester program does not exceed 16 semester units. A written request should be submitted to the Registrar One Stop Center and should bear the endorsements of the chair of the student's major department and of the department in which the reserved work is to be taken. One Stop staff verify that the units being reserved are not needed to fulfill requirements for the bachelor's degree.

USC-UCLA Cross-Registration for Graduate Students

As part of an academic resource-sharing program, USC graduate students have an opportunity to take a portion of their program at UCLA. This cross-registration opportunity is only available for courses or seminars not offered at USC and only to selected students. For further information on requirements, contact the USC Graduate School office (Student Union 301).

Credit (CR) will be granted only for work completed with a grade of B (3.0) or higher. The student's transcript will show that the course was taken at UCLA and also record the name of the course. Units attempted at UCLA are on the quarter system. USC students who complete course work at UCLA will have those units converted to semester units for each unit completed at UCLA. Library privileges will be extended at UCLA but other privileges or services cannot be offered.

Conversion of Non-Degree Option Course Work

A student may file a Request for NDO Course Conversion form with the Registration Department to have USC courses previously taken under a non-degree option (NDO) converted to unit credit and thus appear on the USC transcript. Such a request must include all NDO courses previously attempted; requests for partial conversion will be denied. Conversion for credit requires retroactive registration in the term in which the course was attempted, including payment of the tuition differential between the NDO rate originally paid and the tuition rate in effect at the time of conversion. As in all USC courses taken in Limited Status, converted courses may not be considered for degree credit at USC unless the student is formally admitted to full standing at the university. Upon formal admission, only the first 16 NDO units taken that are available for credit toward the intended degree may be applied for baccalaureate credit, and only the first 12 NDO units taken that are available for credit toward the intended degree may be applied toward a graduate degree. Degree credit for units beyond the first 16 undergraduate or 12 graduate available units will not be allowed. All courses converted will appear on the USC transcript and will be included in the calculation of the USC GPA, regardless of whether they are being applied specifically toward the degree being pursued.

Permission to Register at Another Institution

Students who wish to take course work at another institution while continuing as enrolled students at USC will be required to obtain various levels of permission to do so. For details, see the Course Work Taken Elsewhere section (undergraduate) or (graduate).

University Policies

Academic Integrity at USC

The university as an instrument of learning is predicated on the existence of an environment of integrity. As members of the academic community, faculty, students and administrative staff share the responsibility for maintaining this environment. Faculty have the primary responsibility for establishing and maintaining an atmosphere and attitude of academic integrity such that the enterprise may flourish in an open and honest way. Students share this responsibility for maintaining standards of academic performance and classroom behavior conducive to the learning process. Administrative staff are responsible for the establishment and maintenance of procedures to support and enforce those academic standards. Thus, the entire university community bears the responsibility for maintaining an environment of integrity and for confronting incidents of academic dishonesty.

Guidelines governing academic integrity can be found in Scampus at policy.usc.edu/wp-content/uploads/2021/04/SCampus-Part-B.pdf and on the Student Judicial Affairs and Community Standards website at sjacs.usc.edu.

Family Educational Rights and Privacy Act

The University of Southern California maintains the privacy of student education records and allows students the right to inspect their education records as stated in the university's Student Education Records policy, consistent with the requirements of the Family Educational Rights and Privacy Act of 1974 (FERPA). The entire text of the university's policy is located in the Office of the General Counsel, Office of the Vice President for Student Affairs and the Registrar's Office. Additional information regarding FERPA is also available on the Registrar's website, usc.edu/ferpa.

Faculty and staff who request access to student academic records in order to execute their normal duties must first review the information found on the FERPA Website and complete the tutorial before access will be granted.

Students wishing to review or seeking to amend their education records should submit a written request to the university office in which the record is maintained.

At the discretion of university officials, USC may release certain information classified as directory information unless the student requests that such information not be released. A complete listing of directory information is in the FERPA section of the Registrar's website, usc.edu/ferpa.

Students wishing to restrict release of directory information may do so by submitting a completed Student Request to Restrict Directory Information form to the Registrar's Office. Such requests remain in effect for the academic year. Students wishing only to have their information withheld from the online USC Student Directory should contact the Registrar's Office (lobby of John Hubbard Hall).

Recognizing that many students wish to share information from their educational records with their parents and family members, USC has developed an online system that will accomplish the following:

- allow students to grant their parents access to education records;
- allow parents to view elements of the education records that are available in USC's central student information system.

Students may log in to my.usc.edu and click on OASIS, USC's web-based student information system, and use the "Establish Guest Access" feature to grant others permission to education records. Instructions for logging into OASIS and granting access are provided on the university's FERPA website at usc.edu/ferpa.

Parents who wish to gain access to information from the education records of their son or daughter will not be provided the information unless the student has granted access through OASIS or has completed the appropriate release form authorizing the university to release specific information from their education records to approved individuals.

If students grant access through OASIS, parents and family members may access education records information online through the OASIS for Guests website. For more information regarding FERPA, including forms and instructions to log in to OASIS or OASIS for Guests, parents and students should visit the university's FERPA website at usc.edu/ferpa.

Policy on Accommodations for Students with Disabilities

The University of Southern California is committed to full compliance with the Rehabilitation Act (Section 504) and the Americans with Disabilities Act Amendments Act (ADAAA). As part of the implementation of this law, the university will continue to provide reasonable accommodation for academically qualified students with disabilities so that they can participate fully in the university's educational programs and activities. Although USC is not required by law to change the "fundamental nature or essential curricular components of its programs in order to accommodate the needs of students with disabilities," the university will provide reasonable academic accommodation. It is the specific responsibility of the university administration and all faculty serving in a teaching capacity to ensure the university's compliance with this policy.

The general definition of a student with a disability is any person who has "a physical or mental impairment which substantially limits one or more of such person's major life activities," and any person who has "a history of, or is regarded as having, such an impairment." Reasonable accommodations are determined for students based on an interactive review process, incorporating the student's self-report, supporting documentation according to the university's documentation guidelines, requirements of the student's program of study and university policies.

Procedures for Obtaining Accommodations

Students with disabilities are encouraged to contact the Office of Student Accessibility Services (OSAS) prior to or during the first week of class attendance or as early in the semester as possible. It is the student's responsibility to complete a student application and provide documentation that verifies the student's disability in a timely way. The office will work with the student to determine reasonable accommodations and may also work with the course instructor, the department and/or school and program to facilitate implementation of accommodations.

See osas.usc.edu for documentation guidelines, policies and procedures.

Academic Accommodations

Students who would like to make use of their OSAS-approved accommodations should provide an Accommodation Letter to their instructor as early in the semester as possible. Course instructors should require that a student present the Accommodation Letter from OSAS if academic accommodations are requested. Instructors should be aware that students may register with OSAS at any point during a semester or their academic career. Instructors may not establish a deadline for providing Accommodation Letters or notification of OSAS-registration. However, students are expected to provide *reasonable advanced* notice to instructors regarding use of accommodations within a course. Please consult with OSAS for any questions regarding reasonable timing.

The USC Gould School of Law has a unit-specific policy for handling requests for academic accommodations; however, all students with disabilities should register with OSAS. Refer to the *Law School Student Handbook*.

For assistance in how to provide reasonable accommodations for a particular disability, course instructors are encouraged to

consult with the staff at OSAS. Students requesting academic accommodations must have verification of disability.

Grievance Procedures

The University of Southern California is committed to full compliance with laws protecting individuals with disabilities. Students are encouraged to raise concerns and seek resolution if they believe they have not been properly accommodated or provided auxiliary aids or services. Additionally, students are encouraged to seek support if they believe they have experienced discriminatory behavior based on their disability status. Detailed information about resolving concerns or filing a formal grievance can be found at osas.usc.edu.

University Policies' Websites

USC's Policy website contains all university policies, including links to SCampus student policies.

https://policy.usc.edu/

The Office for Equity, Equal Opportunity, and Title IX website contains the non-discrimination policy.

https://eeotix.usc.edu/notice-of-non-discrimination/

Examinations

Final Examinations Make-up Policy

When a final examination falls at a time that conflicts with a student's observance of a holy day, faculty members must accommodate a request for an alternate examination date at a time that does not violate the student's religious creed.

A student must discuss a final examination conflict with the professor no later than two weeks prior to the scheduled examination date to arrange an acceptable alternate examination date.

Administrative Examinations

The following administrative examinations are given at USC:

Placement Examinations

Placement examinations determine the student's level of ability and appropriate placement in mathematics, chemistry and foreign languages. These exams carry no unit credit but can be used to fulfill a prerequisite for a course or to fulfill a required or elective subject area.

Placement exams for mathematics, chemistry and foreign languages are administered by the Language Center.

Mathematics exams place into MATH 108, MATH 117, MATH 118 and MATH 125. Chemistry exams place into CHEM 050, CHEM 102, CHEM 105a and CHEM 105b.

Foreign language exams place into elementary and intermediate courses. Students may fulfill the foreign language requirement through a placement exam. Transfer courses in foreign languages do not fulfill the prerequisite for the next course in the sequence; students are required to take the USC placement exam to continue in language courses at USC. Transfer students may be advised to repeat, without additional credit, a semester or semesters of instruction to qualify for the next level in the sequence if their skills are judged insufficient at the time of testing.

Placement exams are administered throughout the academic year and during summer on the USC campus.

The International Student English (ISE) Exam is administered by the American Language Institute. For exam information regarding the ISE exam, contact the American Language Institute, Royal Street Structure 106, (213) 740-0079, askali@usc.edu.

All exams require a USC ID and/or proof of USC enrollment.

For additional information concerning chemistry, foreign language or mathematics placement exams, contact the Language Center, THH 309, (213) 740-1188, and language.usc.edu.

University Writing Examination

Due to changes in the University policy regarding SAT and ACT scores for the current academic year, the Writing Program will not require students to take the University Writing Examination before enrolling in WRIT 150. See The Writing Program section.

Equivalency Examinations

Equivalency examinations are given at the discretion of the academic unit to determine whether upper division transferred course work may be applied as subject credit to the major requirements for the degree. Passing the examination does not provide additional unit credit. Contact the appropriate academic unit for specific details.

Subject Credit by Special Examination

Special examinations for subject credit establish subject credit in a subject area in which the student is sufficiently prepared but in which no previous credit has been accepted or attempted toward the USC degree.

Students who would like to request a waiver from the normal course requirements may request that the chair of the department in which the course is offered allow them to take a special examination challenging the course for subject credit only. The fee for the examination is one half of a unit per examination.

With the permission of the dean of the academic unit in which the student is a degree candidate, the student may file a Request for Credit by Special Examination form in the Grade Department (John Hubbard Hall lobby). The following rules apply:

1. Credit by special examination is available to undergraduate students only.
2. No more than one special examination may be taken in a given course.
3. Special examinations will not be allowed in any course for which a student has received an unsatisfactory grade or mark on the transcript (e.g., W, UW, IN, IX, F or D) at USC or elsewhere.
4. A special examination will not be allowed if the course is a prerequisite to or sequentially precedes a course or courses that appear on a college level transcript, unless USC allows similar courses to be taken out of sequence.
5. Credit cannot be earned by special examination for the writing requirement, the first three semesters of any foreign language or MATH 040x.
6. Native speakers of a foreign language may challenge only literature or linguistics courses offered through the respective language department.
7. Results of all special examinations taken for subject credit only will appear on the USC transcript with a grade of "CR" (credit) or "NC" (no credit) and will not reflect unit value.

Academic Standards

Definition of Grades

The following grades are used: A — excellent; B — good; C — fair in undergraduate courses and minimum passing in courses for graduate credit; D — minimum passing in undergraduate courses; F — failed. In addition, plus and minus grades may be used, with the exceptions of A plus, F plus and F minus. The grade of F indicates that the student failed at the end of the semester or was doing failing work and stopped attending the course after the twelfth week of the semester. Minimum passing grades are D- for undergraduate credit and C for graduate credit. Additional grades include: CR — credit (passing grade for non-letter-graded courses equivalent to C- quality or better for undergraduate courses and

B (3.0) quality or better for graduate courses); NC — no credit (less than the equivalent of a C- for an undergraduate and a B for a graduate, non-letter-graded course); P – pass (passing grade equivalent to C- quality or better for undergraduate letter-graded courses and B (3.0) quality or better for graduate courses taken on a Pass/No Pass basis); NP – no pass (less than the equivalent of a C- for an undergraduate and a B (3.0) for a graduate, letter graded course taken on a Pass/No Pass basis).

The following marks are also used: W — withdrawn; IP — interim mark for a course exceeding one semester (failure to complete courses in which marks of IP [in progress] appear will be assigned grades of NC); UW —unofficial withdrawal (assigned to students who stopped attending prior to the drop deadline but failed to withdraw); MG — missing grade (an administrative mark used in cases when the instructor fails to submit a final course grade for a student); IN — incomplete (work not completed because of documented illness or some other emergency occurring after the twelfth week of the semester; arrangements for the IN and its completion should be initiated by the student and agreed to by the instructor prior to the final exam); IX — lapsed incomplete.

Grade Point Average Categories and Class Levels

A system of grade points is used to determine a student's grade point average. Grade points are assigned to grades as follows for each unit in the credit value of a course: A, 4 points; A-, 3.7 points; B+, 3.3 points; B, 3.0 points; B-, 2.7 points; C+, 2.3 points; C, 2 points; C-, 1.7 points; D+, 1.3 points; D, 1 point; D-, 0.7 points; F, 0 points; UW, 0 points; IX, 0 points. Wherever these letter grades appear in this catalogue or other university documents, they represent the numerical equivalents listed above. Marks of CR, NC, P, NP, W, IP, MG and IN do not affect a student's grade point average.

Grade Point Average is calculated and truncated; it is not rounded.

There are four categories of class level: Undergraduate, Graduate, Law and Other. Undergraduate comprises freshman (less than 32 units earned); sophomore (32–63.9 units earned); junior (64–95.9 units earned) and senior (at least 96 units earned). Graduate comprises any course work attempted while pursuing a master's and/or doctoral degree. Law comprises any course work (offered by the USC Gould School of Law) attempted while pursuing a Juris Doctor or Master of Laws degree. Other comprises any course work attempted while not admitted to a degree program or course work not available for degree credit.

Grades of Incomplete (IN)

Conditions for Completing a Grade of Incomplete

If an IN is assigned as the student's grade, the instructor will fill out the Assignment of an Incomplete (IN) and Requirements for Completion form, which will specify to the student and to the department the work remaining to be done, the procedures for its completion, the grade in the course to date and the weight to be assigned to the work remaining to be done when computing the final grade. A student may complete the IN by completing only the portion of required work not finished as a result of documented illness or emergency occurring after the twelfth week of the semester. Previously graded work may not be repeated for credit.

Time Limit for Completion of an Incomplete

One calendar year is allowed to complete an IN. Individual academic units may have more stringent policies regarding these time limits. If the IN is not completed within the designated time, the course is considered "lapsed," the grade is changed to an "IX" and will be calculated into the grade point average as 0 points. Courses offered on a Credit/No Credit basis or taken on a Pass/No Pass basis for which a mark of Incomplete is assigned will be lapsed with a mark of NC or NP and will not be calculated into the grade point average.

Extension of Time for Completion of an Incomplete

Completing the IN within the one-year period should be the student's highest priority. A student may petition the Committee on Academic Policies and Procedures (CAPP) for an extension of time for the completion of an IN. Extensions beyond the specified time limit are rarely approved if the student has enrolled in subsequent semesters.

In all cases, a petition for an extension of time for completion of an IN must have departmental approval and include a statement from the instructor explaining what is needed to complete the course and why the instructor feels the student should be given even further time for completion.

Missing Grades

Marks of MG must be resolved before a degree or certificate will be awarded. If a student wishes to graduate and chooses not to resolve the mark(s) of MG, the mark(s) will be defaulted to mark(s) of UW and will be calculated into the grade point average as 0 grade points.

Time Limit for Resolution of a Missing Grade

One calendar year is allowed to resolve an MG. If an MG is not resolved within one year, the grade is changed to UW and it will be calculated into the grade point average as 0 grade points. Courses offered on a Credit/No Credit basis or taken on a Pass/No Pass basis for which an MG was not resolved within one year will be changed to a mark of NC or NP and will not be calculated into the grade point average.

Courses offered on a Credit/No Credit basis or taken on a Pass/No Pass basis for which an MG was not resolved within one year will be changed to a mark of NC or NP and will not be calculated into the grade point average.

Correction of Grades

A grade once reported to the Office of Academic Records and Registrar may not be changed except by request of the faculty member to the Committee on Academic Policies and Procedures on a Correction of Grade form. Changes should be requested only on the basis of an actual error in assigning the original grade, not on the basis of a request by the student or special consideration for an individual student. Students are not permitted to complete course work after the semester has ended.

Disputing a Grade

The instructor's evaluation of the performance of each individual student is the final basis for assigning grades. Through orderly appeal procedures, students have protection against prejudiced or capricious academic evaluation.

Academic Dishonesty Sanctions

When a student is found responsible for a violation of the USC Student Conduct Code standards pertaining to academic dishonesty, the Vice President for Student Affairs (or designee) will inform the Office of Academic Records and Registrar. In appropriate cases, the Office of Academic Records and Registrar will post the sanction information on the student's academic records. Disciplinary sanctions noted on student records include suspension and expulsion from the university and revocation of admission and degree. Disciplinary grade sanctions (e.g., F in course) are not distinguished on a student's transcript from marks assigned for academic work accomplished. In cases of suspension or expulsion, the student's registration for the current term may be cancelled with marks of "W."

Repeated Course Work at USC

Under certain conditions, a student may repeat a course for grade point credit. In no case will additional unit credit be allowed for repeated courses or duplicated work. No student may repeat a course for grade point credit in which a grade of B- or better

was received. A prerequisite course may not be repeated after a student has completed a course for which it is designated a prerequisite. (See prerequisites in the Registration section of the Catalogue.)

Undergraduate students who want to repeat a course in which a grade of C+, C or C- was received and have the subsequent grade calculated in the grade point average must petition the Committee on Academic Policies and Procedures (CAPP) for permission to do so prior to re-registering in the course. *Post hoc* approval will not be granted.

Graduate students may repeat a course in which a grade of C- or below was received, but both grades will be calculated in the grade point average. Graduate students who want to repeat a course in which a grade of C+ or C was received and have the subsequent grade calculated in the grade point average must petition the Committee on Academic Policies and Procedures (CAPP) for permission to do so prior to re-registering in the course. *Post hoc* approval will not be granted.

A special provision governs the repeat of courses by students who enter USC as first-time freshmen. These students may repeat a maximum of three courses taken during the first two semesters at USC in which grades of D+ or below (including UW and IX) were received, and only the subsequent letter grade, even if lower, will be calculated in the grade point average. The courses must be repeated at USC for a letter grade, and both courses with the grades received will appear on the transcript. The same course may be repeated no more than once for the benefit of substitution of grade. Students who have been assigned a grade as a result of a Student Conduct sanction may not repeat the course under this provision. Students who were admitted for spring and were first-time freshmen elsewhere in the previous fall may repeat a maximum of two courses taken during the first semester at USC in which grades of D+ or below were received with the same set of provisions stated above. Students who were admitted as transfer students for either fall or spring may repeat a maximum of one course taken during the first semester at USC in which a grade of D+ or below was received with the same set of provisions stated above. An exception is the case in which a student earns a grade of C- in a course for which a grade of C or higher is required for application to major or minor requirements. In this case the subsequent grade will be calculated in the grade point average without the requirement of a petition.

Excessive Withdrawals (Marks of W)

An undergraduate student who withdraws (a mark of W) from at least 8 units in one semester or from at least 16 units overall must undergo mandatory academic advisement before the student can enroll in a subsequent semester. A restriction enforces this requirement. A student must have his or her academic adviser remove the restriction. This is a one-time requirement. Students will not be denied registration in future terms once advisement has taken place. This advisement is intended to provide students with information and guidance on the negative consequences that excessive withdrawals have on successful and timely completion of degree programs.

The Dean's List

Any undergraduate student with a declared major who earns a grade point average of 3.5 or higher on 12 units or more of letter-graded course work in any one semester is placed on the Dean's List for that semester. Grades of IN must be removed before eligibility is determined for that semester. Academic transcripts do not carry the Dean's List notation.

Class Rank

The University of Southern California does not calculate or support a class rank for its undergraduate students. While most graduate programs do not rank students, requests for graduate student class rankings should be directed to the dean of the particular school in which the graduate degree was earned.

Student Good Standing

Students are considered to be in good academic standing if they are eligible to register for classes. Disciplinary good standing is determined by the office of Student Judicial Affairs and Community Standards.

Probation and Disqualification of Undergraduate Students

An overall USC grade point average (GPA) of at least C (2.0) on course work taken at USC is required for completion of undergraduate degrees.

Academic Probation

A student whose overall USC GPA falls below 2.0 is placed on academic probation. Continued enrollment requires clearance from a counselor in the Office of Academic Review and Retention. Actions such as Corrections of Grades, Completion of Incompletes, Removal of Missing Grades and Exceptions Requests will not result in academic statuses being retroactively changed.

Mandatory Advisement

A student whose overall GPA falls below 2.0 is required to seek academic advisement prior to course selection each semester. Proof of advisement must be filed with the Office of Academic Review and Retention before any registration request will be processed. The Office of Academic Review and Retention will only accept an official Academic Review Advisement Record form with an authorized school signature as proof of advisement. This form may be obtained in Figueroa Building 107.

Advising

Students on academic probation must meet with a counselor in the Office of Academic Review and Retention at least three times during each semester. Students in the Success Support program must meet with an Academic Review Counselor at least once during each semester.

Academic Disqualification

Students on academic probation who do not raise their overall GPA to 2.0 after two semesters of enrollment, exempting summer enrollment, will be academically disqualified. However, if a student earns a minimum semester GPA of 2.3 in the second or any subsequent probation semester but has not yet reached the overall 2.0 GPA, the student will not be disqualified and will be allowed to enroll for an additional semester.

Readmission after Academic Disqualification

Petitions for readmission after academic disqualification are initiated by the student through the Office of Academic Review and Retention. Completion of approved course work from another institution is a requirement for petitioning for readmission. Disqualified students must meet with a counselor from the Office of Academic Review and Retention before enrolling in courses at another institution. The counselor will provide the Readmission Pre-Approval Form on which both the Office of Academic Review and Retention and the student's academic department must sign approval.

Before petitioning for readmission, a disqualified student must complete a minimum of 12 semester units of preapproved, transferable course work applicable to USC degree requirements with a minimum 3.0 GPA. As readmission to the university is never guaranteed, any indication of strong academic performance beyond the 12 units required would strengthen a readmission petition. All grade issues at USC (IN, MG, etc.) must be resolved prior to submission of a readmission petition.

Students must petition for readmission by September 30 for spring semester, and by January 31 for fall semester. Since a student's readmission petition must be reviewed and approved by the CAPP readmission petition panel before he or she can

register, under no circumstances will a petition be accepted after the deadline. A nonrefundable fee of $150 must accompany the readmission petition.

Academic Warning and Dismissal of Graduate Students

Faculty advisers and departments take factors other than satisfactory grades and adequate GPAs into consideration in determining a student's qualifications for an advanced degree. A student's overall academic performance, specific skills and aptitudes, and faculty evaluations will be considered in departmental decisions regarding a student's continuation in a master's or doctoral degree program.

Satisfactory progress toward an advanced degree as determined by the faculty is required at all times. Students who fail to make satisfactory progress will be informed by their department or committee chair or school dean. The faculty has the right to recommend at any time after written warning that a student be dismissed from a graduate program for academic reasons or that a student be denied readmission. Procedures on disputed academic evaluations are described in SCampus.

Ethics Guidelines for Graduate Study

As participants in an enterprise that depends on academic freedom and integrity, faculty members and graduate students have a special obligation to promote conditions that maintain free inquiry and the highest standards of integrity. USC faculty have developed guidelines to serve as a resource for students finding their way through the often complex academic relationships of a major research university. These guidelines for ethical faculty and graduate student relations are available from the Graduate School.

Research Involving Human Subjects

Graduate student researchers are required to obtain approval from the USC Institutional Review Boards whenever research, whether funded or unfunded, involving human subjects is proposed. The Institutional Review Boards (IRBs) are fully authorized to review all proposals and projects which involve the use of human subjects. "Human subject" means a living individual about whom an investigator conducting research obtains (a) data through intervention or interaction with the individual or (b) identifiable private information. The university IRBs have been established to meet federal regulations. The IRBs are required to assure that: (1) research methods are appropriate to the objectives of the research; (2) research methods are the safest, consistent with sound research design; (3) risks are justified in terms of related benefits to the subjects; (4) subjects' privacy is protected; (5) subjects participate willingly and knowingly to the extent possible; and (6) research projects are "monitored" by the IRBs.

Language of Instruction

English is the language of instruction at USC. All courses are taught in English with the exception of a few advanced language courses.

Exception Procedures

Exceptions to particular university regulations and degree requirements will be considered only if there is no prohibition stated in this catalogue. Where exceptions are specifically prohibited, none will be granted. A student who wants an individual exception must follow the procedure specified in this catalogue for the particular regulation or requirement. If no procedure is specified, it may still be possible to request an exception. Such exceptions, however, are rarely granted.

Requests for exception to established university academic regulations or procedures are generally heard by: (1) the Committee on Academic Policies and Procedures (CAPP); (2) the dean of the academic unit in which the student is seeking a degree; or (3) the dean or director of the office responsible for administering the policy. Requests for credit for courses taken out of sequence are heard by the dean of the academic unit offering the course that was taken out of sequence. Students who wish to request an exception should first consult an academic adviser about the appropriate process to follow.

While the university is sensitive to the educational advantages of a flexible curriculum, it is also conscious of a responsibility to ensure equity for all students. Permission to deviate from published regulations is neither automatic nor *pro forma*; each request is considered on its own merits and in light of the petitioner's complete academic record.

USC Committee on Academic Policies and Procedures

The Committee on Academic Policies and Procedures (CAPP), a representative group of faculty, students and administrators, reviews or delegates the review of most general petitions. CAPP studies the effects of university academic requirements, regulations and policies; recommends improved student academic policies and procedures; and regularizes policies and procedures so that the number of petitions can be reduced. As part of this charge, CAPP has specific responsibility for oversight and review of the University Policy on Accommodations for Students with Disabilities. CAPP also rules through Academic Petitions Committees on requests for exceptions to academic regulations and requirements published in the University Catalogue. In most instances, the Academic Petitions Committee acts as the body with original jurisdiction, but in some cases delegates authority for approvals to another.

The assumptions and procedures that guide Academic Petition Committee actions are the following:

- The student is responsible for complying with deadlines established in the academic calendar.
- All academic work should be accurately reflected in the student's record. The record is to be faithful to the actual experience. Cosmetic corrections or adjustments are not sanctioned.
- Care must be taken not to establish the petition process as an alternative to being held to the adopted academic requirements.
- Decisions should be focused on the academic basis for petition, rather than the consequences (real or imagined) that may face the student.

The Office of the Provost, Office of Academic Records and Registrar, and the Committee on Academic Policies and Procedures (CAPP) reserve the right to review, amend or revoke academic statuses and/or registration at any time.

Registration-related Exceptions

Requests for an exception to published registration procedures and enrollment deadlines are heard by the University Registrar. Detailed information is available at usc.edu/askusc by entering Registration Petition in the search box.

Any request to change the official registration for a semester retroactively must be submitted within 24 months of the end of the semester in question. The 24-month period starts with the last day of final examinations for the semester in question. If appropriate, the time limit can be waived by the dean of the academic unit in which the student is seeking a degree for a period not to exceed a total of five years, if adequate attendance and grading information is available and reasonable cause for the delay exists.

Degree Requirement-related Exceptions

Requests for exception to specific degree requirements are generated in the academic unit. Most requests will be forwarded by the adviser to CAPP for review. For a list of department-initiated petitions presented to CAPP for review see Petition Services. Some exceptions are made by the dean of the academic unit and

are recorded on the Student Academic Record System (STARS) report by the academic department, using the exception process.

The Graduate School

Requests for an exception to the policies and procedures governing Graduate School degree programs will be considered upon submission of a petition to the Graduate School stating the specific request, supported by adequate reasons and information. The signatures and recommendations of the faculty adviser or committee chair and department chair are required.

Graduate and Professional Programs

Requests for exception to the policies and procedures governing graduate degree programs that do not fall under the jurisdiction of the Graduate School should be directed to the dean of the degree-conferring unit.

Undergraduate Education

Financial Aid for Undergraduate Students

Students at USC benefit from federal, state and university need-based financial aid programs administered by the Financial Aid Office and from scholarships administered by the Office of Admission and various academic departments. USC also offers an interest-free monthly payment plan, a tuition pre-payment plan, and participates in long-term student and parent educational loan programs.

Although international students are not eligible for need-based financial aid, they may be eligible for scholarships offered by their schools or departments. International students should contact their departments directly for information about existing opportunities. International students may also be eligible for private educational loans.

The Financial Aid Office may change these policies at any time to ensure continued compliance with changes in federal and state regulations governing student financial aid. As a result, students must refer to the current catalogue regulations. Unlike degree requirements, changes in regulations, policies and procedures are immediate and supersede those in any prior catalogue.

Application Procedures and Eligibility Requirements for Financial Aid

Detailed information, application procedures and deadlines for financial aid are available online at financialaid.usc.edu. To be eligible for federal, state and university need-based financial aid programs, students must be U.S. citizens, permanent residents or other eligible non-citizens; have a valid Social Security number; meet Selective Service registration requirements; have a high school diploma, GED or equivalent; meet Satisfactory Academic Progress (SAP) requirements; and meet all other eligibility requirements. Students must also complete all application requirements by the relevant deadline(s). For most federal and state awards, a minimum of half-time enrollment is required. Full-time enrollment is required for most university awards. Enrollment status will be calculated based only on those courses that are required for, or that can be applied as an eligible elective credit toward, a student's degree or certificate program. Students awarded a California Dream Grant are considered for limited university financial aid.

Scholarships

Scholarships awarded on the basis of academic achievement, leadership, service and talent are available through the Office of Admission, most academic departments at USC, alumni groups, and outside agencies and foundations. Some of these awards require a separate application. In some cases, financial need is also considered. For more information, visit usc.edu/scholarships and usc.scholarshipuniverse.com.

Grants

The Financial Aid Office awards need-based University Grants to eligible students with demonstrated need who meet all financial aid application deadlines.

Federal Pell Grants and Federal Supplemental Educational Opportunity Grants (SEOG) are available for students with exceptional financial need. The SEOG is awarded only to eligible students who meet all application deadlines.

Cal Grants A and B are administered by the California Student Aid Commission. All undergraduate aid applicants who are residents of California are required to apply. Cal Grant A provides funds for partial tuition and fees. Cal Grant B recipients receive a subsistence award the first year and receive a subsistence award and tuition award in subsequent years.

Federal Work-Study

The Federal Work-Study program enables eligible students to earn funds through employment either on campus or with an approved off-campus employer. Only students who meet all application deadlines and federal eligibility requirements are considered for this program.

Federal Student and Parent Loans

Direct Subsidized and Unsubsidized Loans are also available to eligible students. Repayment begins six months after the borrower graduates, withdraws or ceases to be enrolled at least half time.*

Direct Parent PLUS Loans are available to parents of dependent** undergraduate students who meet the credit criteria established by the U.S. Department of Education. Payments may be deferred while the student is enrolled at least half time.*

**Enrollment status will be calculated based only on those courses that are required for, or that can be applied as an eligible elective credit toward, a student's degree or certificate program.*

***Undergraduate students considered dependent for the purpose of receiving federal financial aid*

Private Financing Programs

Private financing programs are available to help students and parents meet the costs of education by providing long-term financing options. Students should exhaust all federal Title IV assistance available, including Federal Pell Grants, the Direct Loan and the Direct Parent PLUS Loan, before considering a private student loan program. The repayment terms of federal programs may be more favorable than the terms of private loan programs. Unlike private loan programs, federal student loans are required by law to provide a range of flexible repayment options, including but not limited to, income-based repayment and income-contingent repayment plans, and loan forgiveness benefits. Direct Loans are available to students regardless of income.

For more information about student loan programs, visit financialaid.usc.edu/loans.

Financial Aid for Double Majors or Dual Degrees

Federal and state regulations governing the Federal Pell Grant, Federal SEOG Grants and the Cal Grant limit these awards to students who have not yet earned a baccalaureate or professional degree. Similarly, the university limits awards of the university need-based grant and Federal Work-Study to students who have not yet earned their first bachelor's degree.

Students who are planning to double major or pursue a dual degree should carefully plan their academic course work with their academic adviser to ensure that they remain eligible for federal, state and university financial aid. The best approach is to make sure you complete the requirements for both degrees or majors simultaneously in the same semester. Once the requirements for one major/degree have been satisfied, a student will only be eligible for limited financial aid (Federal Work-Study and Direct Loans) as a second bachelor's student.

Financial Aid for a Second Bachelor's Degree

Students who are pursuing their second bachelor's degree are eligible for a limited number of financial aid programs, specifically Direct Loans. Parents of dependent* students may also borrow Direct Parent PLUS Loans.

**Undergraduate students considered dependent for the purpose of receiving federal financial aid*

Financial Aid for Enrollment in a Progressive Degree Program

The Financial Aid Office determines aid eligibility based on a student's class level. For information on how specific types of aid may be affected by class level, refer to financialaid.usc.edu/general/special-programs/progressive-degrees.html.

Class Level Determination for Progressive Degree Programs

While classified as undergraduates, students are assessed the undergraduate tuition rate, and their enrollment status and financial aid eligibility are determined by undergraduate standards.

While classified as graduate students, students are assessed the graduate tuition rate, and their enrollment status and financial aid eligibility are determined by graduate standards.

A progressive degree student transitions from undergraduate to graduate class level as soon as any one of the following conditions is met:

1. the bachelor degree is conferred; or
2. the student is awarded a graduate research or teaching assistantship as contracted through the academic department and the Graduate School; or
3. the student earns a total of 144 units.

Bachelor Degree Conferred

The Office of Academic Records and Registrar determines when a student has completed his or her bachelor degree and manages the process of posting degrees to a student's record. Students wishing to change the degree date from that indicated on their STARS Report should request an updated degree term at the Registrar One Stop Center, John Hubbard Hall (JHH 114) or onestop@usc.edu. Students may also update their expected graduation date at my.usc.edu.

Graduate Research/Teaching Assistantship

Research and teaching assistantships are awards contracted through the student's academic department and the Graduate School and are exclusively available to graduate students. A progressive degree student who is awarded a research or teaching assistantship will be reclassified as graduate student beginning the semester the student first receives the award.

The 144-Unit Limit

Assuming one of the other two conditions have not already been met, a progressive degree student is classified as an undergraduate up to and including the semester the student earns a total of 144 units.

All units earned at USC, from both undergraduate- and graduate-level course work, will be counted toward the 144-unit limit. Any and all units earned during summer semesters will be counted, as well as units earned during semesters that were not funded with financial aid.

All transfer units, including units accepted from Advanced Placement and International Baccalaureate exams, will also be counted toward the 144-unit limit. Requirements that were met by transfer courses cannot be substituted by subsequently taken USC courses, and USC will not delete or discount accepted transfer course work from the transcript.

Transfer course work determined not to be applicable toward subject-specific requirements, e.g., General Education and major requirements, nor applicable as "free" electives toward the bachelor degree program's minimum unit requirement, may increase the unit limit above the standard 144. The applicability of transfer units is determined from objective transcript data and is therefore not open to appeal.

Class level is determined dynamically based on currently available data in the student transcript. Any changes, updates or corrections to a student's transcript that alter the total number of units earned will affect progress toward the unit limit and class level transition.

Financial Aid for Limited Status Enrollment

Students not admitted to a degree-seeking program who enroll as limited-status students are not eligible for most types of federal, state or university financial aid. Students who have completed their degree or certificate programs, but continue to enroll, will be considered limited-status students and are thereby ineligible for financial aid.

Financial Aid Consortium Agreements

Students admitted to a degree-seeking program at USC who enroll in course work at another eligible "host" institution, where the course work has been pre-approved as transferable for credit toward their USC degree, may have those courses considered in USC's determination of their eligibility for limited federal financial aid. The student's total USC and/or non-USC enrollment must be at least half-time (the equivalent of at least 6 USC units per semester) and a Financial Aid Consortium Agreement must be completed prior to the semester or semesters the student enrolls at the host institution. **Financial Aid Consortium Agreements are contingent upon the host school agreeing to participate.**

Financial Aid Consortium Agreements are not available for students participating in the Postbaccalaureate Premedical Program. For more information, visit financialaid.usc.edu/general/special-programs/consortium-agreements.html.

Financial Aid for Students Enrolled in Undergraduate Course Work for Admission to Graduate Degree

Students enrolled at least half-time in undergraduate courses required for admission to a graduate degree program may be eligible for limited Direct Loan program funds. At this time, the only such program that USC offers is the Postbaccalaureate Premedical Program. For more information, visit financialaid.usc.edu/general/special-programs/postbaccalaureate-premedical-program.html.

Satisfactory Academic Progress (SAP) Policy

Purpose

To be eligible for federal, state and university aid, students are required by the U.S. Department of Education (34 CFR 668.34) to maintain Satisfactory Academic Progress toward their degree objectives. USC has established this SAP policy to ensure student success and accountability and to promote timely advancement toward degree objectives.

The following guidelines provide academic progress criteria for all undergraduate students receiving financial aid at USC. The guidelines are based on reasonable expectations of academic progress toward a degree and should not be a hindrance to any student in good academic standing.

Table 1
Programs Subject to Financial Aid SAP Policy

Federal and State Programs	USC Programs
Federal Pell Grant	University Grant
Federal Work-Study	
Direct Loans	
Direct Parent PLUS Loans	
California State Cal Grant	

Table 2
Programs Not Subject to Financial Aid SAP Policy

USC and Outside Programs+	
USC Merit Scholarships	USC Alumni Scholarships
USC Topping Scholarships	USC Departmental Awards
USC Assistantships	USC Employee Tuition Assistance Benefits
Sponsored Agency Awards (Including Department of Defense and Veterans Awards)	Outside Agency Scholarships

+Recipients of these awards should contact the awarding agencies/departments for rules regarding award retention.

Definition of Undergraduate SAP

To be eligible for financial aid identified in Table 1, undergraduates must maintain SAP as defined by the following three criteria:

- Grade Point Average (GPA): You must meet a minimum cumulative GPA of 2.0 each enrolled semester.
- Pace of Progression: You must successfully complete a minimum of 67 percent of all cumulative attempted* units each enrolled semester. This Pace of Progression ensures completion of the degree within the Maximum Time-Frame.
- Maximum Time-Frame: You must complete your degree within a specified amount of time. The Maximum Time-Frame is based on the published length and unit requirements for your degree program(s). You will be eligible for the maximum attempted units or the maximum SAP semesters, whichever comes first.

If you do not meet the Pace of Progression or GPA requirements, you will be placed on a one-time, one-semester financial aid SAP Warning Period. If the minimum requirements are not met by the end of the Warning Period, you will no longer be considered to be making SAP and will become ineligible for financial aid without an approved, written SAP Appeal.

If you have reached the Maximum Time-Frame, you will be ineligible for further financial aid without an approved, written SAP Appeal. The Financial Aid Office will never increase the Maximum Time-Frame past 150 percent of the published degree requirements. As soon as a student is mathematically incapable of completing a degree program within 150 percent of the published requirements, the student will be ineligible for financial aid from that point forward.

Grade Point Average (GPA) Requirement

Undergraduate students must meet a minimum cumulative GPA of 2.0. Refer to Tables 3 and 4 below to understand how specific grades and course types affect students' cumulative grade point averages.

Table 3
Impact of Grades on Cumulative GPA Calculation

Grade Earned	Counted in Grade Point Average
A, B, C, D, F (+/-)	Yes
CR — Credit, P — Pass, IP — In Progress	No
NC — No Credit, NP — No Pass	No
IN — Incomplete	No
IX — Expired Incomplete	Yes
W — Withdrawal	No
UW — Unofficial Withdrawal	Yes
V — Audit	No
NS — Not Submitted	No
MG — Missing Grade	No

Table 4
Impact of Course Type on Cumulative GPA Calculation

Course Type	Counted in Grade Point Average
Preparatory course work (course numbers below 100)	No
Repeated course work (previous passing grade)	No
Repeated course work (previous failing grade)	Yes (both grades counted)
Transfer course work (pre- and post-matriculation)	No

Students enrolled in progressive degree programs who are currently classified as undergraduate students (see the Financial Aid for Enrollment in a Progressive Degree Program section above) must also maintain a minimum cumulative undergraduate GPA of 2.0.

For more information about grading policy, please visit the USC Department of Grades on the Registrar's website at usc.edu/grades.

Pace of Progression Requirement

Undergraduate students must successfully complete a minimum of 67 percent of all cumulative attempted units each enrolled semester. This Pace of Progression ensures completion of the degree within the Maximum Time-Frame.

Full-time undergraduate students are encouraged to attempt at least 16 units per semester to ensure that degree objectives can be reached within the Maximum Time-Frame. Students who attempt a lower number of units per semester should work closely with their academic adviser to ensure degree progress.

Pace of Progression is calculated by dividing the cumulative number of units the student has successfully completed by the cumulative number of units the student has attempted.

For purposes of Pace of Progression and Maximum Time-Frame, "attempted units" includes most types of course work in which you are enrolled past the course's deadline to drop and receive a tuition refund. After this deadline, "dropped" course work is considered withdrawn units attempted for the purposes of SAP, even if the withdrawal does not result in a "W" mark on your transcript. To verify your course session's deadline to drop for a tuition refund, please refer to the USC Schedule of Classes at classes.usc.edu.

Courses that are successfully petitioned for deletion through the Office of Academic Records and Registrar will be considered neither attempted nor completed for the purposes of Pace of Progression and Maximum Time-Frame.

Table 5
Impact of Grades on Pace of Progression and Maximum Time-Frame

Grade Earned	Pace of Progression		Counted Toward Maximum Time-Frame
	Units Completed	Units Attempted	
A, B, C, D (+/-)	Yes	Yes	Yes
CR, P	Yes	Yes	Yes
IN, IP, W, NS, MG	No	Yes	Yes
F, IX, NP, NC, UW	No	Yes	Yes
V	No	No	No

Table 6
Impact of Course Types on Pace of Progression and Maximum Time-Frame

Course Type	Pace of Progression		Counted Toward Maximum Time-Frame
	Units Completed	Units Attempted	
Undergraduate and graduate course work (course numbers 100 and above)	Yes	Yes	Yes
Preparatory course work (course numbers below 100)	No	No	No
Repeated course work (previous passing grade)	Yes	Yes	Yes
Repeated course work (previous failing grade)	Yes	Yes	Yes
Transfer course work (pre- and post-matriculation)	Yes	Yes	Yes
Course work dropped after Last Day to Drop and Receive a Refund, but before Last Day to Withdraw without a "W" on Transcript	No	Yes	Yes
Course work successfully petitioned for deletion from the transcript by the Registrar	No	No	No

Maximum Time-Frame Requirement

Students must complete their degree objective within a specified amount of time. The time-frame will depend on the student's enrollment status and educational objective. Students will be eligible for the maximum attempted units or the maximum SAP semesters, whichever comes first.

Maximum Units and Semesters

Undergraduate students in single-degree, four-year programs requiring 128 units are eligible for financial aid for a maximum of 144 total attempted units or a maximum of nine SAP semesters, whichever comes first. The time-frame will be increased as necessary for single-degree programs requiring more than 128 units. For example, students pursuing a five-year, single-degree program, such as the Bachelor of Architecture, will be eligible to receive financial aid for a maximum of 176 attempted units or 11 SAP semesters.

SAP Semesters

Each semester in which a student attempts 12 or more units is counted as a full (1.0) SAP semester. Each semester in which a student attempts 6 to 11 units is counted as a one-half (0.5) SAP semester. Semesters in which a student attempts fewer than 6 units are not counted as SAP semesters.

Additionally, both pre- and post-matriculation transfer units may be counted as SAP semesters. The total number of transfer units is divided by an average of 16 units per semester and rounded down to the nearest half-SAP semester.

Special Financial Aid Considerations for Students Completing Double Majors or Dual Degrees

Students pursuing a double major or dual degree programs are subject to the same Maximum Time-Frame Allowance requirements as students pursuing a single major or degree. Students may appeal for allowance past the Maximum Time-Frame, not to exceed 150 percent of the time-frame to complete one undergraduate degree.

How and When Satisfactory Academic Progress is Monitored

The Financial Aid Office evaluates the three SAP criteria for all undergraduate financial aid applicants at the end of each enrolled semester after grades have been made official by the Office of Academic Records and Registrar.

Potential Delay of Disbursements Due to Monitoring of Satisfactory Academic Progress

Financial aid may not be disbursed to a student's account until SAP has been evaluated. The Financial Aid Office cannot complete the SAP evaluation until prior semester grades have been officially posted by the Office of Academic Records and Registrar. An otherwise eligible student who is in a one-semester SAP Warning Period or on an SAP Contract may experience a delayed financial aid disbursement if grades are not made official before the beginning of the subsequent semester. No exceptions can be made to this process.

Notification of Satisfactory Academic Progress Status

Students who have successfully met SAP requirements will not receive an SAP notification. The Financial Aid Office will notify any student who does not meet SAP requirements via the student's USC email address. Students who are notified that they do not meet the SAP requirements for financial aid should consult their academic advisers.

Failure to Maintain Satisfactory Academic Progress

Exceeding the Maximum Time-Frame

Students who have reached the Maximum Time-Frame are ineligible for further financial aid without an approved, written SAP Appeal. The Financial Aid Office will never increase the Maximum Time-Frame past 150 percent of the published requirements for one undergraduate degree program. As soon as a student is mathematically incapable of completing a degree program within 150 percent of the published requirements, the student will be ineligible for financial aid from that point forward.

Failing GPA and Pace of Progression Requirements

Students who do not meet the Pace of Progression or GPA requirements are placed on a one-time, one-semester financial aid SAP Warning Period.

Financial Aid SAP Warning Period

Students who do not meet the Pace of Progression requirement will be placed on a one-time, one-semester financial aid SAP Warning Period. Students may continue to receive financial aid while in this one-semester Warning Period without a written appeal. Students who are in an SAP Warning Period are encouraged to seek both academic and financial aid advisement. If the minimum requirements are not met by the end of the Warning Period, the student will no longer be considered to be making SAP and will become ineligible for financial aid without an approved, written SAP Appeal.

Failure to Maintain Satisfactory Academic Progress

As stated above, students who have exceeded the Maximum Time-Frame are ineligible to receive financial aid.

Students who do not meet the minimum requirements by the end of the one-semester Warning Period for GPA and Pace of Progression violations will no longer be considered to be making Satisfactory Academic Progress and will become ineligible for financial aid without an approved, written SAP Appeal.

Students in their one-semester SAP Warning Period who receive grades of D, W, UW, IN, F, IX, MG, NC, NP or NS will no longer be considered to be making SAP and will become ineligible for financial aid without an approved, written SAP Appeal.

The one-semester financial aid SAP Warning is only available to students one time throughout their degree program. Students who regain eligibility by meeting SAP standards at the end of the Warning Period, but subsequently fall below the standards again, will be considered ineligible for financial aid without an approved, written SAP Appeal.

Regaining Financial Aid Eligibility

Regaining Financial Aid Eligibility with a Grade Change or Academic Improvement

Students who have been placed on a one-semester Warning Period due to insufficient GPA or Pace of Progression can be reinstated by a grade change or by successfully completing sufficient units or bringing up their GPA to meet the accepted standards by the end of their warning period. The student must notify the Financial Aid Office in writing once the requirements have been met.

Regaining Financial Aid Eligibility with an SAP Appeal for Maximum Time-Frame

Students who need additional time to complete their degrees must meet with their academic adviser to complete a SAP Appeal Form. Students must also update their expected graduation date with the Degree Progress Office. The Financial Aid Office may increase the maximum time-frame for students who have changed majors, are adding a major, or have experienced a one-time extenuating circumstance such as illness or injury that has since been resolved. However, the Financial Aid Office will not approve any appeal when the additional time required for completing the degree objective(s) extends beyond 150 percent of one undergraduate degree.

Regaining Financial Aid Eligibility with an SAP Appeal for GPA and/or Pace of Progression

Students who are not meeting Satisfactory Academic Progress GPA and/or Pace of Progression requirements may appeal to have their financial aid eligibility reinstated on a semester-by-semester basis. Students must meet with their academic adviser to complete an SAP Appeal Form. The following can be considered: extended illness; one-time extenuating circumstances that have since been resolved; and enrollment limitations due to academic advisement.

SAP Appeal Form and Letter

The student and the academic adviser must submit a Satisfactory Academic Progress Appeal form with complete supporting documentation to the Financial Aid Office. The SAP Appeal Form must contain the specific academic plan for the student that the adviser has approved. For the appeal to be approved, the academic plan must lead to graduation within 150 percent of the published time-frame and unit requirements to complete one undergraduate degree program.

The student must also provide a written letter that addresses the reasons for the appeal.

Students requesting an extension past the Maximum Time-Frame should address the following points in their letters of appeal:

(1) What prevented the student from completing his or her degree program(s) within the Maximum Time-Frame?

(2) How does the student intend to ensure completion of the degree program(s) within no more than 150 percent of the published time-frame to complete one undergraduate degree program?

Students appealing due to unsatisfactory GPA and/or Pace of Progress, or failing to meet the terms of an existing SAP contract, should address the following points in their letters of appeal:

(1) What caused the work at USC to fall below acceptable standards? Students should think carefully and provide a specific explanation.

(2) How have those conflicts been resolved?

(3) How will the student maintain good academic standards and progress toward the degree if the appeal is granted?

Limitations on Approvals for SAP Appeals

The Financial Aid Office will never increase the Maximum Time-Frame past 150 percent of the published degree requirements for one undergraduate degree. As soon as a student is mathematically incapable of completing his or her degree objective(s) within 150 percent of the published requirements for one undergraduate degree, the student will be ineligible for financial aid from that point forward.

Notification of SAP Appeal Decisions

SAP Appeals will be evaluated and the Financial Aid Office will notify the student of the decision via email at the student's USC email address.

The Financial Aid SAP Contract

Appeals for insufficient Pace of Progression and/or GPA are approved through the use of a semester-by-semester SAP Contract. Appeals for extensions to the Maximum Time-Frame may also result in an SAP Contract to ensure completion within 150 percent of the time-frame to complete one undergraduate degree. Students must adhere to the academic plan and terms and conditions of the SAP Contract to maintain future financial aid eligibility. The Financial Aid Office will review a student's academic progress each semester to ensure the student has met the specific terms of the student's contract.

The SAP Contract is a written agreement between the student, the academic adviser and the Financial Aid Office in which the student commits to following a specific academic plan that leads to graduation. Reinstated eligibility through a contract may alter the type and amount of financial aid for which a student is eligible. Terms of the SAP Contract may be stricter than the standard SAP regulations cited in this section. Acceptance of the approved SAP Contract supersedes all other SAP regulations. Any deviation by the student from the terms of the contract results in the forfeiture of future financial aid eligibility.

Submitting SAP Appeals after Failing SAP Contract

Students on SAP Contracts as a result of an approved appeal who fail to meet the terms of their accepted SAP Contracts are ineligible for future financial aid but may submit a subsequent SAP Appeal. However, these appeals are granted on an exception basis. Students will be required to document specifically the exceptional circumstances that caused them to fail their SAP Contract and how those problems have been resolved.

Financial Aid Application and SAP Appeal Deadlines

A student appealing his or her Satisfactory Academic Progress status must meet all financial aid application deadlines and other eligibility requirements.

Students should not submit SAP Appeals for GPA or Pace of Progression deficiencies when they are in a Financial Aid SAP Warning period. These preemptive appeals are unnecessary and will be withdrawn. Rather, students should wait until they have been notified by the Financial Aid Office that they are ineligible for financial aid due to an SAP deficiency. SAP Appeals for Maximum Time-Frame Allowance may be submitted at any time, but students should first ensure that the Degree Progress Office has updated their expected graduation term.

An SAP Appeal must be submitted before the end of the semester for which the aid is sought. **Financial aid cannot be reinstated retroactively for a past semester.**

Withdrawal Implications for Recipients of Financial Aid

During the Drop/Add Period

During the university's published drop/add period, students who drop or reduce their enrollment may be eligible for a 100 percent refund of tuition for classes dropped.

Financial aid recipients must immediately notify the Financial Aid Office in writing when a drop from one or more classes during the drop/add period results in an enrollment status different from the enrollment status on which their current financial aid eligibility was based. The same applies if one or more classes are cancelled.

The Financial Aid Office will review the student's new enrollment and, if appropriate, revise the student's eligibility based on the new enrollment status.

If a financial aid recipient drops from *all* classes or drops to less than half-time status during the drop/add period, *all* financial aid awards must be returned to their respective programs. Students who drop from all classes or drop to less than half-time status during the drop/add period are considered never to have established eligibility for financial aid. If the student was given financial aid funds for other expenses, he or she will be expected to return those funds to the university.

After the Drop/Add Period

Students who are recipients of Title IV federal student aid are also covered by federal Return of Title IV Funds (R2T4) regulations. Title IV federal student aid is awarded to a student under the assumption that the student will attend for the entire period for which the assistance is provided and thereby "earn" the award. When a student ceases academic attendance prior to the end of that period, the student may no longer be eligible for the full amount of federal funds that the student was originally scheduled to receive.

If a Title IV recipient withdraws from all classes on or before the session is 60 percent complete, based on their last date of attendance, federal policy requires that any "unearned" Title IV federal student aid be returned to the U.S. Treasury, even if the student is not entitled to a refund of tuition.

A student is required to immediately notify the Registrar when he or she stops attending classes. If the student fails to notify the Registrar's Office, it is possible that the 50 percent point in the term will be used to determine the student's last date of attendance, in accordance with federal regulations. If a student withdraws from all classes*, the Financial Aid Office will determine if that student's period of attendance resulted in the earning of all federal student aid awarded for that term. If it is determined that not all the scheduled federal aid has in fact been earned, then the Financial Aid Office will calculate the amount to be returned to the federal student aid programs. The Financial Aid Office will bill the student via his or her university account for the amount to be returned. It is the student's responsibility to contact the Cashier's Office to settle the bill.

**Note to students in modular programs: In a modular program, one or more of the student's enrolled courses do not span the length of the entire semester. Students in modular courses who withdraw from one or more courses but are still registered for future courses within the term will be required to confirm their future enrollment plans. For students who fail to confirm or fail to re-enroll, the Financial Aid Office will determine whether you have completed module(s) that contain 49 percent or more of the number of days in the payment period. If you have completed 49 percent or more, you are not considered to have withdrawn for R2T4 purposes. If you have completed less than 49 percent, the Financial Aid Office will calculate the portion of your financial aid that has been earned based on your latest date of attendance. Refunds to the U.S. Treasury may be required.*

Additional Responsibilities of Students Who Withdraw

Any time a student withdraws from one or more courses, the student should consider the potential effect on his or her Satisfactory Academic Progress (SAP) status.

Whenever a student's enrollment drops to less than half time or the student withdraws completely, or if a student takes a leave of absence, he or she must notify the lender, holder or servicer of any loans. Student borrowers of federal or university loans must also satisfy exit loan counseling requirements at iGrad.

It is also the student's responsibility upon withdrawal from all classes to notify the Student Financial Services Office, the Housing Services Office, the Transportation Services Office and/or the USCard Office, if the student has charges from these offices on his or her student account. Students who have withdrawn from studies may be entitled to a prorated cancellation of charges from these offices.

Leave of Absence

Financial aid recipients considering a leave of absence should be aware of the financial aid implications. Although obtaining an approved leave of absence from their programs does allow students to re-enroll in the university without formal re-admission, it does not allow them to avoid Return to Title IV calculations or defer their loan repayment. The university reports student enrollment to the National Student Clearinghouse throughout the academic year. Lenders and federal loan service agencies subsequently query this database to determine if a student has maintained continuous half-time or greater enrollment.

Student Loan Repayment

If students are on a leave of absence from the university, their lender or federal loan service agency will move their loan from an "in-school" status to a grace or repayment status as required. While on a leave of absence, students may be able to postpone repayment by obtaining a deferment or forbearance from their loan servicer(s) as a result of unemployment or economic hardship. Students should contact their loan servicer(s) for more information about loan repayment. Students may review their federal loan history and determine their loan service agencies by visiting the Federal Student Aid website at studentaid.gov. Once they re-enroll on a half-time or greater basis, they may be able to request deferment for "in-school" status.

Tuition Refund Insurance Plan

To complement its own refund policy, the university makes available to students Tuition Refund Insurance, an insurance policy designed to protect the investment students and their families make in education. The Financial Aid Office strongly encourages all financial aid recipients to take advantage of this plan. If a student formally withdraws from all classes after the end of the drop/add period and he or she is covered by Tuition Refund Insurance, the student may receive:

- A credit to his or her student account equal to 100 percent of charges for tuition and mandatory fees, if the withdrawal is the result of documented personal illness or accident; or
- A credit to his or her student account equal to 80 percent of the charges for tuition and mandatory fees, if the withdrawal is the result of a documented mental/nervous disorder.

The Tuition Refund Insurance credit will be applied first to any outstanding charges on the student's university account, including any charges resulting from the return of Title IV federal student aid. Recipients of university and/or federal financial aid will then receive a cash refund equal to the amount of cash payments made to the account plus any loan payments still on the account (after all returns of Title IV aid have been made in accordance with federal policies, if applicable). The remainder of the insurance credit will be used to repay university financial aid grant or scholarship programs.

Brochures about Tuition Refund Insurance requirements and claim forms are available in the Cashier's Office and the Registrar's Office. All questions about the insurance plan should be directed to these offices.

Notes on Federal Policy

Title IV Federal Student Aid

Students are considered recipients of Title IV federal student aid if they have received funds from one or more of the following programs to meet educational expenses for the semester in question: Federal Pell Grants, Federal Supplemental Educational Opportunity Grants (SEOG), Direct Loans (Subsidized or Unsubsidized), or Direct Graduate or Parent PLUS Loans.

FAFSA and Verification

The deadline for receipt of a 2021-22 FAFSA by the Department of Education is June 30, 2022. To receive financial aid funds, a complete, valid FAFSA must be received at USC by the last day of the student's 2021-22 enrollment.

Financial aid applicants selected for verification are required to submit documentation before any financial aid funds will be awarded or disbursed. The deadline to submit verification documentation is 120 days after the student's last date of enrollment for 2021-22, or September 17, 2022, whichever is earlier. USC will continue to accept verification documentation until this date.

Applicants are notified of any changes to their financial aid eligibility on their Financial Aid Summary and Tasks (FAST) page. The FAST page also indicates any outstanding documentation or tasks that need to be completed for aid to be processed or disbursed.

Period of Enrollment

At USC, the periods of enrollment are generally measured using the session(s) in which the student enrolled on a semester basis, starting on the first day of classes and ending on the final day of examinations for a given term. For purposes of Title IV federal student aid, any scheduled break of five or more days will not be included in the measurement of the enrollment period. For programs offered in modules (sessions that do not span the entire length of the semester), breaks of more than five days between modules will not be included in the measurement of the enrollment period.

Measurement of Earned Title IV Federal Student Aid

When a student withdraws from all classes or withdraws from one or more classes while attending a modular program, the Financial Aid Office will calculate the percentage of earned Title IV federal student aid using the date of withdrawal. The earnings calculation is based on the number of days of enrollment, up to and including the day of withdrawal, divided by the total number of days in the enrollment period. In most cases, when a total withdrawal is determined to occur on or before the 60 percent point in a semester, some federal aid will need to be returned.

Return of Title IV Federal Student Aid

To satisfy federal regulation, returns to Title IV financial aid programs must be made in the following order:

- Direct Unsubsidized Loans
- Direct Subsidized Loans
- Direct PLUS Loans
- Federal Pell Grants
- Federal Supplemental Educational Opportunity Grants (SEOG)
- Other Title IV federal programs

Financial Aid Policy Regarding Falsification of Financial Aid Information

The types of information covered by this policy include all documents and information submitted to apply for and/or receive need-based financial aid, scholarships and private financing funds. These documents and information include, but are not limited to, the following:

- Free Application for Federal Student Aid (FAFSA)
- Student Aid Report (SAR)
- CSS Financial Aid/Profile Application and CSS Noncustodial Parent Profile Application
- Financial Aid Supplement
- Student and parent federal income tax forms and other income documentation
- Documentation of U.S. citizenship or eligible non-citizen status
- Documentation of housing/living arrangements
- Academic documents relating to high school diploma or college course work
- Loan applications, promissory notes and related documentation
- Specific program applications
- Federal Work-Study time sheets
- Any university financial aid forms and related documentation
- Any written, electronic or verbal statements sent to or made to a university employee regarding the student's financial aid application or other financially related documents

The integrity of the documents and the honesty of the information presented through them are critical to the financial aid process. Students should be aware that they will be held responsible for the integrity of any financial aid information submitted either by them or on their behalf.

If the university determines that a student or parent has provided falsified information, or has submitted forged documents or signatures, the following steps may be taken without prior notification to the student or parent:

1. An incident report will be filed with USC's Office of Student Judicial Affairs and Community Standards, following procedures outlined in the University Student Conduct Code. Pending resolution of the complaint, the Financial Aid Office may restrict the distribution of any further aid to the accused student.
2. If the Financial Aid Office or the student conduct review process finds that a violation has occurred, the consequences may include, but are not limited to, the following:
   - The student will be required to make full restitution of any and all federal, state, private and/or university scholarship, grant, loan or work funds to which he or she was not entitled.
   - Until full restitution is made, all federal, state and university funds will be withheld from the student, including all funds disbursed in past or in current terms.
   - No arrangements will be made with the Cashier's Office or Collections Office on the student's behalf to settle their account. The student will be responsible for all charges incurred on the student's account because of the loss of federal, state or institutional financial aid funds.
   - If the student is determined to be ineligible for financial aid because of a basic eligibility criterion, no further federal, state or university funds will be provided to the student in any future terms of enrollment at the university.
   - The student may be ineligible for future participation in some or all financial aid programs for a minimum of one year or longer. In some cases, the student will not be eligible to receive funds from that program in any future terms of enrollment at the university.
   - The student will not receive funds to replace those lost because he or she is considered ineligible due to dishonesty.
3. In addition to any consequences directly related to the student's financial aid, the student may be assigned disciplinary sanctions as described in the Student Conduct Code (11.80).
4. As required by federal and state law, the USC Financial Aid Office will report any infraction to the appropriate office or agency. These include, but are not limited to, the U.S. Department of Education Office of the Inspector General, state agencies or other entities that may take whatever action is required by federal and state law. In this report, the Financial Aid Office will describe in detail the incident, the response from the Financial Aid Office and any additional actions taken by or pending with the university.

Course Work Taken Elsewhere

Admitted students receive a transfer credit report prepared by Transfer Credit Services showing unit and subject credit granted for college courses and relevant exams, such as AP, IB and A-levels.

Students are required to submit complete, official transcripts of all course work attempted at any postsecondary institution as soon as final grades are posted. All post-secondary transcripts must be submitted regardless of the type of course(s) or the quality of the work. A student's failure to provide transcripts for all course work attempted prior to enrollment at USC or while away from USC may result in denial of transferred course work and a charge of a violation of the university's academic integrity policies.

Accreditation

The University of Southern California affirms the practice of accreditation of American post-secondary academic institutions by the six regional accreditation agencies: the Middle States Association of Colleges and Schools, the Higher Learning Commission, the New England Association of Schools and Colleges, the Northwest Commission on Colleges and Universities, the Southern Association of Colleges and Schools, and the Western Association of Schools and Colleges. Acceptance of course work and/or degrees completed by undergraduate and graduate students applying to the University of Southern California will be based on accreditation by these six agencies. Certain graduate schools, seminaries, conservatories and professional institutions of national renown that are not accredited by a regional

agency may be considered for graduate transfer work by Transfer Credit Services in consultation with the USC department or professional school to which the student is applying.

Acceptance of course work and/or degrees from post-secondary institutions overseas will be based on the recognition and approval of the college or university as a degree-granting institution by the ministry of education within the respective country.

Non-transferable Course Work

USC's transfer policies have been established to enable students to achieve an undergraduate degree that will reflect traditional academic study and research. For that reason, the following types of nontraditional course work will not transfer to USC for undergraduate credit:

- Life experience; portfolio work; continuing education; work experience; formally structured courses offered by civilian non-collegiate sponsors such as businesses, corporations, government agencies and labor unions, even if evaluated by the American Council on Education (ACE).
- Extension courses not accepted toward a degree by the offering institution.
- Equivalency examinations.
- Remedial (e.g., mathematics below college algebra), college preparatory and personal development/life skills courses.
- Independent study, directed study, internships and correspondence courses from two-year schools.
- Areas of study offered by other accredited institutions toward the baccalaureate but not offered by USC, such as agriculture, business office procedures, hotel management, interior design, food services, industrial mechanics, fire science, police academy and similar technical or professional programs.
- Undergraduates will not receive credit for graduate-level transfer courses.

In addition, no more than 4 units of English as a Second Language (toward the maximum of 12 ESL/ALI units that may apply to a degree) will transfer. Also, a maximum of 4 units of physical education activity courses and music ensemble will transfer. A maximum of 8 units of dance, 12 units of physical education theory courses and 16 units of individual instruction in music will transfer.

Course Work Requiring Review

USC will determine on a case-by-case basis whether to grant credit for certain types of courses taken at accredited institutions. Courses that require review by Transfer Credit Services include:

- Independent study, directed study and internships taken at four-year schools.
- Courses in which the traditionally expected number of contact hours may not have occurred, including distance learning, televised, online or correspondence courses, and courses taught in non-traditional time modes such as concentrated "intensive" sessions or special weekend modules.
- Transfer credit from studio courses in fine arts, music and theatre is limited. See articulation agreements or usc.edu/transfercredit.

Articulation Agreements

Articulation agreements with select California community colleges are issued by Transfer Credit Services and indicate courses available for transfer to USC. These agreements can be found at usc.edu/transfercredit. These agreements are revised periodically and are subject to change, depending on course content, availability and changes in USC's academic policies. Articulation agreements are not issued for four-year colleges and universities.

Credit for Military Education

Academic credit will be awarded for course work taken at one of the regionally accredited U.S. military academies upon receipt of official transcripts.

The university will also evaluate course work/experience completed through the armed services and may award credit for such courses if they meet the following criteria:

- Students must provide official Joint Services (JST) or Coast Guard Institute (CGI) transcripts.
- Course work must be evaluated by ACE as upper-division credit.

USC will not grant credit for the following:

- DD-214 or DD-295.
- Course work not offered in an area of study taught at USC.
- Course work/experience not evaluated by ACE.
- Course work from the Community College of the Air Force.
- DSST, CLEP and DLPT exam scores.
- Other Learning Experiences (OLEs).

College Courses Taken During High School Enrollment

All undergraduate students entering USC may receive a combined maximum of 32 elective units for college courses taken before high school graduation and/or examinations (e.g., AP or IB) taken before matriculation at a two-year or four-year college. A maximum of 16 of these 32 units will be allowed for college courses taken before high school graduation. These courses must appear on the college transcript and be part of the regular college curriculum. These courses must also be taught by college faculty in a format open to regularly enrolled postsecondary students at that college. These courses will not receive course equivalence or credit toward writing or foreign language requirements, although they may fulfill general education categories where appropriate. However, departments may use them as a basis to waive prerequisites or specific course requirements on a case-by-case basis. Students who completed more than 16 units of college courses in lieu of examinations may submit an articulation petition to receive up to a maximum of 32 units for these classes.

Students may not receive credit for both an AP exam (or IB or other international exam) and a college course taken before high school graduation covering the same subject matter, nor for an AP and IB exam covering the same subject matter.

Besides earning elective units, some AP tests and international exams fulfill general education requirements. Finally, scores of 4 or 5 on AP tests in modern languages if taken in spring 2007 or later will satisfy the third semester foreign language requirement. Details will be reported on the student's transfer credit report. A list of exams that will satisfy general education requirements is available online at arr.usc.edu/transfercredit under the Exam Credit link.

Students who began full-time college study at four-year institutions before completing their high school diplomas can submit transcripts for special evaluation. These programs, which typically are conducted on a college campus and are taught by regular faculty, will be evaluated on an individual basis. More than 16 units may be granted. Students entering full-time college programs at two-year colleges before graduating from high school are subject to the 16-unit maximum stated above.

Transfer Credit

Transfer Credit Report

A transfer credit report (TCR) is prepared prior to enrollment for every new undergraduate transfer student admitted to regular standing. To ensure complete evaluation of transfer courses, it is the student's responsibility to submit complete, official transcripts from all post-secondary schools in which course work was completed as soon as final grades are posted. All post-secondary transcripts must be submitted regardless of the type of course(s) or the quality of the work. The purpose of the transfer credit report is to acknowledge officially all work transferable toward the USC degree sought by the student. The university expects undergraduate transfer students to assist in completing a final review of all transfer courses by the end of their first semester of study.

Students should review their transfer credit reports for accuracy and report any missing courses or incorrect information to Undergraduate Transfer Credit. To request a change in the way a transfer course has been evaluated, students may initiate an articulation petition at usc.edu/OASIS. All articulation petitions regarding courses taken before entering USC should be initiated as soon as possible after matriculation, and no later than the end of the first semester of study.

Total transferable units attempted and total transferable units applied toward the degree are posted on the transfer credit report. For the purposes of making an admissions decision, all grades (including grades of D and below) are calculated into the grade point average and are used in calculating a total grade point average for graduation. Neither subject nor unit credit will be granted for courses that have been graded with less than a C- (1.7). USC does not honor other colleges' "academic renewal" or "academic forgiveness" programs that permit students to improve a substandard grade. If you repeat a transferable course for which you earned a grade of D+ or lower, both grades will be included in your transfer GPA. If the grade on the first course was a C- or higher, only the first grade is included. Your transfer GPA is different from the GPA earned in courses you take at USC. The transfer GPA and your USC GPA are kept separate until it is time to determine if you are eligible to graduate and earn graduation honors. See the Graduation with University Honors section of this catalogue.

For limitations on use of transfer courses to fulfill general education and writing requirements see the General Education program.

Subject Credit and Degree Credit

Subject credit does not carry unit value toward units required for a degree but may fulfill a required or elective subject area. Degree credit is defined as units that may be applied toward the units required for a USC degree.

Transfer Unit Limitations

A student may earn a maximum of 64 units of credit toward a bachelor's degree from other accredited institutions. The BArch degree and the Engineering "3-2" Program allow a maximum of 80 units of transfer credit, of which no more than 70 units may be from two-year colleges. Students will receive only subject credit for work completed in excess of the unit limitations.

Once a student has attained junior-level standing by completing 64 units applicable to the undergraduate degree (with USC course work alone or in combination with transfer units), transfer credit will be further limited to no more than 8 additional units. In the case of the BArch degree, no more than 8 additional units may be allowed for transfer credit after completion of 84 college-level units.

Transfer Credit for Repeated Course Work

Degree credit will *not* be given for a transferred undergraduate course that a student has previously completed with earned credit at USC.

Subject credit only will be given for a transferred undergraduate course previously taken at USC, under the following conditions: (1) When the student took the course at USC, he or she received a passing grade or mark that failed to meet departmental or university requirements, and (2) the student obtained prior approval from the department offering the USC course on the USC transfer course work pre-approval form at usc.edu/transfercredit.

Subject and unit credit will be given for a transferred undergraduate course previously taken at USC, under the following conditions: (1) When the student took the course at USC, he or she received a failing grade or mark, and (2) the student obtained prior approval from the department offering the USC course on the USC transfer course pre-approval form at usc.edu/transfercredit.

Permission to Register at Another Institution

Undergraduate Transfer Credit Limitations

As defined in the Residence Requirement, once students enroll at USC, only courses taken during a summer semester will be considered for transfer credit. No transfer work may be used to satisfy any Core Literacy requirements or the writing requirement if those courses are taken after a student has enrolled at USC, but transfer work may be used to satisfy Global Perspectives requirements. In addition, transfer courses taken after enrollment at USC cannot be used to fulfill upper-division requirements in the major without prior approval, using the request for exception to residence form available from the student's major adviser or, for undecided and undeclared students, from Academic Counseling Services in the office of the vice provost for undergraduate education. Transfer courses may not fulfill upper-division requirements in the minor under any circumstances.

Students are advised to consult their major department or Academic Exploration Advising (AEA) before taking college course work at another institution. Students should also consult Transfer Credit Services to ensure that the work will transfer.

Procedure

If students wish to take summer course work elsewhere after admission to USC, they must first obtain appropriate pre-approval. Even if there is an articulation agreement, pre-approval is necessary to assure the student's eligibility. Most students can use the online pre-approval process available on OASIS. In some cases, the paper pre-approval form must be used. It is available at usc.edu/transfercredit.

Once the course work has been completed elsewhere, students must request the other institution to send an official transcript to USC so that the course work can be evaluated and transferred.

Students are required to provide transcripts of all course work attempted at any post-secondary institution, regardless of the type of course(s) or the quality of the work. A student's failure to provide transcripts for all course work attempted while away from USC may result in denial of transferred course work and a charge of a violation of the university's academic integrity policies.

Students should request an electronic transcript or a secure PDF transcript be sent to etrans@usc.edu. Confidential paper transcripts can be sent to the USC Registrar One Stop Center, 700 Childs Way, JHH 106, Los Angeles, CA 90089-0912. Paper transcripts must arrive in a sealed envelope directly from the issuing institution.

To avoid a possible delay in graduation, official transcripts from post-secondary institutions should be submitted as soon as the course work is completed and graded by the transfer institution. It is advisable to complete all transfer work prior to the final semester of enrollment at USC. If transcripts for transfer course work are not available during the final USC semester, it will likely delay degree posting and result in a later degree date.

Students who have questions concerning the transfer credit shown on the transfer credit report should inquire at the Registrar One Stop Center in the JHH lobby, or by email at transfercredit@usc.edu. Any questions regarding the applicability of previous course work toward major requirements should be referred to the student's academic adviser.

Leave of Absence

Students may encounter professional, medical, legal, educational or personal reasons that compel them to interrupt their academic program. An undergraduate student in these situations should declare a leave of absence using the resources at loa.usc.edu. If, as a result of the leave, the student exceeds the time limits for completion of degree or general education requirements, the student may not be allowed automatically to continue to follow the original catalogue of enrollment. Students who fail to declare a leave of absence may encounter difficulties with residence requirements and financial aid when returning to USC.

Financial aid recipients considering a leave of absence should be aware of the financial aid implications. For more information, refer to Withdrawal Implications for Recipients of Financial Aid in the Financial Aid for Undergraduate Students section.

A leave of absence does not exempt students from the residence requirement, nor does it automatically grant permission to transfer work from another college or university to USC. Students are discouraged from planning to study at all while on a leave of absence, but if college study is necessary, the student should apply for a Request for Exception to Residence (described under Residence Requirement below).

Consequences for a leave of absence are different for graduate students than for undergraduate students. Consult loa.usc.edu carefully. International students must follow specific steps when taking a leave of absence from the university. Contact the Office of International Services as soon as a leave becomes necessary.

Program Reactivation

Students who have failed to attempt course work for at least one semester within an academic year without filing a Leave of Absence form will have their POST (Program of Study) expired. Returning undergraduates will be required to meet with their department adviser and complete and sign a POST Reactivation form before registration will be permitted. Graduate students who wish to return will be governed by applicable university policies, including the continuous enrollment requirement.

Residence Requirement

A minimum of 64 units toward the bachelor's degree must be earned in residence at USC, with the following exceptions: students earning a bachelor's degree in architecture must earn 80 units in residence; students in engineering's "3-2" program must earn at least 48 units in residence.

Once a student matriculates at USC, all courses taken for subject or unit credit in the fall and spring semesters must be taken in residence. Only transfer work that appears on the transfer institution's transcript for a summer term will be accepted. In addition, all upper-division units required for the major and minor must be earned in residence. However, a student's department may apply upper-division courses taken elsewhere prior to matriculation to major requirements on a case-by-case basis.

In rare circumstances, permission may be granted in advance to take a course out of residence. This permission is documented on the Request for Exception to Residence form. The form, which is available from the student's major adviser, is used to record major department approval to use the course toward the major. Questions about the residence requirement may be addressed to Undergraduate Transfer Credit Services, (213) 740-4628 or transfercredit@usc.edu.

Academically disqualified students must meet with a counselor from the Office of Academic Review and Retention for advisement and forms for departmental preapproval rather than using the Request for Exception to Residence form.

After completion of 64 college-level units applicable to the undergraduate degree, no more than eight additional units may be allowed for transfer credit. In the case of the BArch degree, no more than 8 additional units may be allowed for transfer credit after completion of 84 college-level units.

Units earned in overseas studies programs approved by USC's University Committee on Curriculum and in courses approved by consortial or other institutional agreements are considered to be taken in residence.

Residence Requirement for a Second Bachelor's Degree

For students with their first bachelor's degree from USC, 32 units applicable to the degree beyond the number of units required for the first USC bachelor's degree must be completed in residence. Students who have not exceeded the transfer unit residence restriction for the first USC bachelor's degree may apply the remaining number of units available for transfer to this 32-unit residence requirement.

For students with their first bachelor's degree from another institution, the second bachelor's degree requires 64 units applicable to the degree completed in residence, except for the BArch degree, which when earned concurrently with the MArch degree requires 32 units applicable to the degree completed in residence.

Requirements for Graduation

Catalogue Regulations, Policies and Procedures

In addition to degree requirements outlined below, undergraduate and graduate students are also subject to current catalogue regulations, policies and procedures. Examples include, but are not limited to, the policy on the grade of incomplete and graduation with honors. Unlike degree requirements, changes in regulations, policies and procedures are immediate and supersede those in any prior catalogue.

Graduation Date

A student will be awarded the graduation date for the term in which degree requirements, including submission of supporting documents, have been met. Although course work may have been completed in a prior term, the degree will be awarded only for the term for which all academic and administrative requirements have been fulfilled. Students wishing to change the degree date from that indicated on the STARS Report may do so under Other Services in usc.edu/OASIS. You may only set a term three semesters in advance. If your expected graduation date is more than three semesters away, please email Degree Progress.

Discontinued Degree Programs

Students pursuing major or minor programs that the university discontinues will be allowed to complete them within a specified time limit. The time limit will be specified at the point of discontinuance of a major or minor program and begins at that point. It is determined according to the student's progress toward degree completion and will not exceed five years for any student.

Closed Record

The academic record of a student who has completed the program of study or ceased attendance is considered closed. Once a student's record is closed, no further additions or changes may be made. This includes, but is not limited to, such things as registering in additional course work, resolution of marks of incomplete (IN) and missing grade (MG), declaration of minors, etc.

Degree Requirements

Undergraduate degree requirements consist of grade point averages, residence requirements, general education requirements, the writing requirement, the diversity requirement, pre-major and major requirements, and minor requirements. Undergraduate students may elect to follow (a) the degree requirements in the catalogue current in their first term of enrollment after admission or readmission at USC or (b) degree requirements in a subsequent catalogue as long as they were enrolled in a term in which it was in effect. However, students may not mix catalogues. An exception is that students may follow the requirements for a minor from a different catalogue year than the major; and students pursuing two majors may follow major requirements from different catalogue years.

While there are no specific time limits for completing the bachelor's degree, over the years many departments change their

major requirements in accordance with developments in the field and department. Occasionally, general education requirements are changed or a degree program is discontinued.

Therefore, undergraduate students who do not complete their degrees within six consecutive years from the beginning of the semester of their first completed USC course work will not be allowed automatically to continue following their pre-major, major and minor requirements as specified above. (This time limit includes semesters during which students are not enrolled.) The pertinent department chair will decide what pre-major, major and minor requirements each student must follow and communicate the decision to the student in writing.

Students who do not complete their degrees within 10 consecutive years from the beginning of the semester of their first completed USC course work will not be allowed automatically to continue their general education requirements. (This time limit includes semesters during which students are not enrolled.) The General Education Office will decide what general education requirements each student must follow and communicate the decision to the student in writing.

An appeal of a department's decision may be made to the dean of the appropriate academic unit or the Provost's Office for academic units without departments. An appeal of a general education decision may be made to the Committee on Academic Policies and Procedures (CAPP).

Grade Point Average Requirement

A grade point average of at least C (2.0) on all baccalaureate units attempted at USC, as well as on the combined USC-transfer GPA, is required for undergraduate degrees. A minimum cumulative grade point average of 2.0 in all upper division courses applied toward the major is also required, regardless of the department in which the courses are taken. The university will not deviate from policies governing the calculation of the grade point average through inclusion or exclusion of course work.

Unit Requirement

Students are required to take a minimum of 128 baccalaureate units at the undergraduate level (of which not more than 4 units may be physical education units). A student may earn a maximum of 16 units for individual instruction in music at the 101/201/301 levels and comparable transfer courses. Of the 128 unit minimum at least 32 units must be upper-division course work. Students must also complete all upper-division course work in the major at USC. The university will not deviate from the minimum unit requirements stated above or the additional unit-specific requirements. Some disciplines require more than the minimum requirements. Check individual department listings for specific requirements.

Unit credit indicates the number of semester units earned in the course; these units may or may not be applicable to the degree. Degree credit indicates the units are applicable to the degree.

Pass/No Pass Graded Work

A maximum of 24 units of undergraduate course work taken on a pass/no pass basis may be used toward an undergraduate degree and a maximum of 4 of these 24 units may be applied to the general education requirements. WRIT 130, WRIT 150 and WRIT 340 will not fulfill undergraduate writing requirements if taken on a Pass/No Pass (P/NP) basis.

Use of Pass/No Pass course work to fulfill major requirements must be approved in writing by the academic department. Course work required for a minor may not be taken on a P/NP basis. Individual academic departments may have placed further restrictions on whether a course taken on a Pass/No Pass basis can be used to fulfill specific requirements.

In cases where a student has registered for a course on Pass/No Pass (P/NP) basis, and the student is subsequently found to have committed an academic integrity violation in the course, the instructor may elect to assign a penalty letter grade, rather than assign a mark of Pass or No Pass.

General Education Requirements

General education and writing requirements for all students are provided on the General Education Program page. Additional specific information is included with the information on individual majors.

Gateway Course

A gateway course is a lower division 3–4 unit course that introduces and showcases the minor or major curricula of an academic field of study. It is intended to be a student's first exposure to a field of study.

Upper-division Major Course Work

The university requires that all undergraduate students successfully complete at USC all the upper-division courses that are applied to their major. Substitution of a comparable upper-division course for a required one may be entered in the STARS exception process by the departmental adviser with the support of the department. Substitutions and waivers of USC or transfer courses for upper-division requirements for majors are to be limited to a combination of 25 percent. Substitution of courses with the same departmental prefix are exempted from this limit. Lower-division courses cannot be substituted for upper-division course requirements.

Minor Programs

Application for a minor must be made to the department or professional school and an appropriate endorsement must appear on a change/addition of major or minor degree objectives form. Students who decide not to complete a declared minor must formally drop the minor program. Failure to drop a declared minor may delay the awarding of the student's degree.

The following guidelines apply to minor programs:

1. Minor programs are available to students matriculated in an undergraduate degree program and must be completed simultaneously with the major degree program.
2. Minors constituted of course work from a single department may not be earned by students majoring in that department.
3. Students may take an interdepartmental minor in which their major unit participates as long as at least 16 units required for the minor are not courses offered by the major department.
4. Students must take at least 16 units, which are unique to the minor (i.e., not required to fulfill the student's major or another minor).
5. All upper-division course work required for the minor must be taken at USC.
6. Departments at their discretion may substitute no more than 25 percent of the required units defined in the catalogue for a given minor program. Substitution of courses with the same departmental prefix are exempted from this limit. Lower-division courses cannot be substituted for upper-division course requirements.
7. Departments at their discretion may waive no more than 4 units for minor programs with 17 to 20 units or no more than 8 units for minor programs with more than 20 units for each student. The number of units unique to the minor after any departmental waivers or substitutions must total at least 16 units.
8. No course work required for the minor may be taken on a Pass/No Pass basis.
9. A minimum cumulative 2.0 GPA must be achieved in all courses applied toward the minor. A higher minimum may be required by the sponsoring department or unit.
10. Students whose major degree programs do not include a language requirement need not satisfy that requirement to earn a minor from the USC Dornsife College of Letters, Arts and Sciences or a professional school that has a language requirement unless the minor specifically requires the language.

11. Completion of the minor program will be recorded on the transcript. The student receives a separate minor certificate for each minor program completed.
12. Undergraduate students may elect to follow the minor requirements in (a) the catalogue current in their first term of enrollment after admission or readmission to USC, or (b) a subsequent catalogue year if the minor was newly introduced or revised after their term of admission or readmission. This does not affect the catalogue year they follow for their major.

Honors Programs

Departmental Honors

The following departments have received approval from the university Undergraduate Curriculum Committee for their majors to graduate with departmental honors:

Accounting (BS); American Studies and Ethnicity; Anthropology; Art History; Biochemistry; Biological Sciences (BA and BS); Business (BS); Chemistry (BA and BS); Cinematic Arts (Critical Studies); Classics; Communication; Comparative Literature; Earth Sciences; East Asian Languages and Cultures; Economics; English; French; Gender and Sexuality Studies; Geodesign; Geological Sciences; History; Human Development and Aging (BS); International Relations; Linguistics; Linguistics/Philosophy; Linguistics/Psychology; Mathematics (BA and BS); Media Arts and Practice (Digital Studies minor); Neuroscience; Philosophy; Policy, Planning, and Development; Political Science; Psychology; Public Relations; Religion; Sociology; Spanish; and Spatial Sciences.

The minimal requirements for receiving departmental honors are that the student: (1) satisfactorily completes course work for an honors project and (2) achieves no less than a 3.5 GPA (A = 4.0) in the major at the time of graduation. Each program, department or school will designate what it considers the appropriate course work and honors project.

Departmental honors are noted on academic transcripts but not on the diploma.

Renaissance Scholar Honors

The Steven and Kathryn Sample Renaissance Scholars program recognizes select undergraduate students who have excelled in their studies while completing a major and a minor (or two majors) in widely separated fields of study. In order to be designated a USC Renaissance Scholar candidate, a student must be currently enrolled in an undergraduate degree program and must have his or her fields of study certified to meet the breadth with depth requirement.

To be designated a Renaissance Scholar upon graduation, a student must graduate within five years of matriculation at USC, with a minimum 3.5 overall grade point average, a minimum 3.5 grade point average in each of the major(s) and/or minor(s) course requirements and with university honors. A student with multiple certified program combinations (three or more academic programs) may fulfill the 3.5 major and/or minor grade point average requirement with a minimum of two programs from one of his or her certified pairings of academic programs.

Renaissance Scholar honors are noted on academic transcripts but not on the diploma.

Discovery Scholar Honors

The Discovery Scholars program recognizes undergraduate students who have excelled in their studies while demonstrating the ability to create exceptional new scholarship or artistic works. In order to be designated a USC Discovery Scholar candidate, a student must be currently enrolled in an undergraduate degree program and must meet the criteria established by his or her school for outstanding original research or creative work. The criteria may include submission of a research thesis, an artistic portfolio or some other evidence of original contributions to the discipline. Faculty letters of recommendation may also be required.

To be designated a Discovery Scholar upon graduation, a student must graduate within five years of matriculation at USC with a minimum 3.5 overall grade point average and with university honors.

Discovery Scholar honors are noted on academic transcripts but not on the diploma.

Global Scholar Honors

The Global Scholars program recognizes undergraduate students who have excelled in their studies both at home and abroad. Applicants must have participated in one or more international programs administered by USC or an outside institution for a minimum of 10 weeks. In order to be designated a USC Global Scholar candidate, a student must be currently enrolled in an undergraduate degree program and must submit a capstone paper, project or research paper based on criteria established by his or her school, as well as a reflective essay. Faculty letters of recommendation may also be required.

To be designated a Global Scholar upon graduation, a student must graduate within five years of matriculation at USC with a minimum 3.5 overall grade point average and with university honors.

Global Scholar honors are noted on academic transcripts but not on the diploma.

Distinction in Liberal Arts Honors

See Thematic Option for a full description of this honors program.

Graduation with University Honors

To be eligible for undergraduate honors at graduation, a minimum overall grade point average of 3.5 for *cum laude*, 3.7 for *magna cum laude* and 3.9 for *summa cum laude* is required. Students must meet these averages, both on residence work attempted and on combined transferred and residence work attempted. The honors award is then determined by either the GPA for the residence work or the GPA for the combined transferred and residence work, whichever is lower. USC does not honor other colleges' academic "renewal" or "forgiveness" programs that permit students to improve a substandard grade. If you repeat a transferable course for which you earned a grade of D+ or lower, both grades will be included in your transfer GPA. If the grade on the first course was a C- or higher, only the first grade is included.

The university will not deviate from policies governing the calculation of the grade point averages required for graduation with honors through inclusion or exclusion of course work. University honors are noted on academic transcripts and the diploma.

Graduate Credit for 400- and 500-Level Work Taken as an Undergraduate

An undergraduate student who is within 12 semester units of the bachelor's degree and has a cumulative grade point average of at least 3.0 may request to enroll in and reserve for graduate credit a limited amount of work at the 400 and 500 levels during the last semester as a senior, provided that the semester program does not exceed 16 semester units. A written request should be submitted to the Registrar One Stop Center and should bear the endorsements of the chair of the student's major department and of the department in which the reserved work is to be taken. One Stop staff verify that the units being reserved are not needed to fulfill requirements for the bachelor's degree.

General Education

All students who began college in fall 2015 or later at USC (or who began elsewhere in fall 2015 and then transfer to USC) must satisfy the General Education Program that began in fall 2015, which includes six Core Literacy and two Global Perspectives requirements. Together these provide training in the liberal arts — the critical skills necessary for a free person to function effectively, thoughtfully and productively in a complex world. This General Education program has been designed to nurture habits of thought essential for professional success and personal development, and to establish a background for lifelong learning.

No transfer work may be used to satisfy any Core Literacy requirements if those courses are taken after a student has enrolled at USC, but transfer work may be used to satisfy Global Perspectives requirements. Transfer students and students who begin at USC in spring must complete at least two Core Literacy requirements in Dornsife College on the USC campus. For additional information about General Education policies visit dornsife.usc.edu/2015ge.

General Education Course Requirements

The General Education Program includes two kinds of course requirements — Core Literacies and Global Perspectives. Students can satisfy one Core Literacy with an appropriate General Education Seminar.

Core Literacies

There are six categories of Core Literacies, in which eight courses are required. All students must complete one course in each of the Arts, Life Sciences, Physical Sciences, and Quantitative Reasoning, and two courses in each of Humanistic Inquiry and Social Analysis.

GE-A. The Arts

The goal of general education classes in the Arts is to help students understand the rich history of the creative arts and to enable students to situate themselves within its traditions. Courses in the Arts category raise important questions about creative activity in the visual arts, literature, music, film, theatre or dance. Each course addresses at least four of the five learning objectives for this category, teaching students to engage with, to analyze, and to make creative work; to connect works of art to concurrent political, religious and social conditions; and to appreciate the theoretical and aesthetic contexts in which works of art are created. Courses may be taught from a disciplinary perspective but must be addressed to a non-specialist audience. Course materials and expectations do not presuppose familiarity with the discipline through which the course is offered.

GE-B. Humanistic Inquiry

Courses in humanistic inquiry encourage close engagement with works of the imagination—in words, sights and sounds—understanding what it might mean to live another life. In these courses students explore language as a medium of artistic expression and communication, studying systems of language and thought to understand different cultures (their concepts, values and histories) in relation to one another. Courses in the Humanistic Inquiry category study forms of representation and methods of interpretation, learning broad perspectives that are chronological, disciplinary, and cross-disciplinary. Students immerse themselves in arts and letters to think about their own place in history and contemporary society and to inquire into our shared future. Students learn to read and interpret analytically, to think critically and creatively, and to write and speak persuasively, developing habits of mind that enable them to evaluate ideas from multiple perspectives and to articulate informed opinions on issues of importance in today's complex world.

GE-C. Social Analysis

The social sciences seek to explain the causes and consequences of a range of complex phenomena, including how human action shapes and is shaped by economic organizations, political institutions, and social and cultural settings. These phenomena include the role of gender, sexuality, race, class and other aspects of identity across time in the United States and around the world. Courses in this area introduce students to the methods and analytical approaches of the social sciences and demonstrate how these tools help us understand our world. In the Social Analysis category students learn to apply the methods of at least one social science discipline to the study of human behavior in economic, political, cultural and/or social settings; to understand the nature of empirical evidence and assess the usefulness of qualitative and quantitative evidence in explaining specific social phenomena; and to demonstrate an understanding of the interplay between individual and collective human action, organizations, and institutions in social and cultural settings.

GE-D. Life Sciences

Courses in the Life Sciences explore aspects of biological, evolutionary and/or environmental science with both descriptive and quantitative elements, placed in the context of research and specifically the contributions of USC scientists to our understanding of living systems. These courses train students to understand the basic concepts and theories of science and the scientific method, with a major emphasis on the impact science has on society and the environment. Students learn about the process and methods underlying scientific inquiry and how to obtain accurate experimental results; they are trained in the formulation of empirically testable hypotheses and develop an understanding of the distinction between unsupported assertions and conclusions based on sound scientific reasoning. Students acquire substantive knowledge in science and technology; they understand the processes by which scientists investigate and answer scientific questions and can articulate the basic principles used to explain natural phenomena.

GE-E. Physical Sciences

The physical sciences deal with analysis of natural phenomena through quantitative description and synthesis. Students learn to solve scientific problems and to understand the processes by which scientific knowledge is obtained, evaluated and placed in the context of societal relevance. In the Physical Sciences category students learn to appreciate the difference between scientific laws, theories, hypotheses and speculation; to think critically about historical and contemporary issues in science and technology; to draw conclusions from empirical scientific data and to communicate experimental results and observations to others. All courses in the Physical Sciences require a section of laboratory or field experience in which students collect, analyze and present their data. Students acquire substantive knowledge in science and technology; they understand the processes by which scientists investigate and answer scientific questions and can articulate the basic principles used to explain natural phenomena.

GE-F. Quantitative Reasoning

The Quantitative Reasoning category engages students in the analysis and manipulation of data and information related to quantifiable objects, symbolic elements, or logic in order to help them navigate the complexity and sophistication of the modern world. All Quantitative Reasoning courses, be they formal, abstract or empirical, are designed to increase the capacity of students to evaluate chains of formal reasoning and to assess the validity of mathematical, logical or statistical inferences. Each course in this category aims to develop one or more of three sets of skills: formal reasoning (the use of formal logic or mathematics), abstract representation (the use or construction of symbolic or diagrammatic representations), and empirical analysis (the use of statistical inference).

Global Perspectives

The requirements in Global Perspectives prepare students to act as socially responsible members of the global community, respectful of the values and traditions of diverse cultures, aware

of the structures of power that affect people differently by race, class, gender and other socially constructed categories, sensitive to the interplay between worldwide problems and specific, local challenges. The Global Perspectives requirement includes two courses, one in each area. The first examines the contemporary situation (GE-G), while the second explores some dimensions of the historical context that has given rise to the current global scene (GE-H). While no course can meet all of these objectives, these requirements help students appreciate the dynamics at work in complex global issues and their varying local forms.

Students can count each Global Perspectives course to meet a Core Literacy requirement as well, if the course has been approved to meet both requirements. No other courses can be double-counted to satisfy more than one General Education requirement.

GE-G. Citizenship in a Diverse World

Courses in this category enhance understanding of citizenship and moral agency within the context of today's increasingly global society, exploring differences and similarities across diverse communities and cultures. Courses can cover a diverse range of issues, such as political, legal, ethical or cultural aspects of U.S. society in a global context, or the ways in which other societies and cultures construct what it means to be a citizen and a moral agent. Courses in this category can draw upon various disciplinary perspectives or methods, such as political, social or economic analyses, moral philosophy and social justice, cultural studies, and critical theory. However, all courses must confront questions of social responsibility and citizenship in the context of differing political, social, legal or economic institutions during the present global era.

GE-H. Traditions and Historical Foundations

Courses in this area examine the historical and cultural foundations of contemporary and past societies by studying enduring literary, political, economic, philosophical, legal, ethical or religious traditions. Courses can examine multiple aspects of a single culture (for example, the literary and philosophical heritage of classical Greece or imperial China) or can trace the development of a fundamental idea or tradition across multiple cultures (for example, the attitude toward the natural world or the definition of a warrior). Upon the completion of their Traditions and Historical Foundations course, students should be familiar with the history of a significant tradition, practice, institution or idea; understand the historical transmission of such practices and ideas within a significant cultural tradition; be familiar with writers, artists, practitioners, thinkers, groups, and/or leaders and be able to analyze the significant texts that are part of such a history; and understand the continuity between the past examples of a tradition and their later manifestations.

In addition, all entering freshmen are expected to complete a General Education Seminar during their first year at USC. These seminars satisfy one of the Core Literacy requirements above.

Writing Requirement

In their writing classes, students learn to think critically, to build sound arguments and to express their ideas with clarity. The writing requirement comprises two courses; most students meet this requirement with:

Lower-division requirement:

- WRIT 150 Writing and Critical Reasoning–Thematic Approaches Units: 4

Upper-division requirement:

- WRIT 340 Advanced Writing Units: 3, 4

Note:

Certain groups of students may meet this requirement with other course work. For more information on the writing requirement, see here.

General Education Course Lists

Core Literacies

GE-A: The Arts

- ACAD 309g Dreams & Madness: The Art of Japan's Golden Age of Animation Units: 4
- ACAD 324g The Practice of Design: Ideation to Innovation Units: 4
- AHIS 120gp Foundations of Western Art: Prehistoric to Renaissance Units: 4
- AHIS 121gp Foundations of Western Art: Renaissance to Contemporary Units: 4
- AHIS 125gp Arts of Asia I: Antiquity to 1300 Units: 4
- AHIS 126g Arts of Asia II: 1300 to the Present Units: 4
- AHIS 128gp Arts of Latin America Units: 4
- AHIS 215g Studies in Architecture and Urbanism Units: 4
- AHIS 220g Medieval Visual Culture Units: 4
- AHIS 240g Introduction to American Art Units: 4
- AHIS 250gm Art, Modernity and Difference Units: 4
- AHIS 255g Culture Wars: Art and Social Conflict in the Modern World Units: 4
- AHIS 304gm Art, Power and Identity in Renaissance Italy Units: 4
- AHIS 366g Picturing Democracy: American Art and Visual Culture, 1750-1900 Units: 4
- AHIS 367g Early American Modernism: American Art and Visual Culture, 1876-1939 Units: 4
- AHIS 370g Modern Art III: 1940 to the Present Units: 4

- SWMS 227gp Death and Gender in Urban Contexts Units: 4

Courses for Specific Students

The following courses are approved to meet this requirement for a specific group of students:

- CORE 102gp Culture and Values: Thematic Option Honors Program Units: 4
- DANC 342gp International and Historical Perspectives on Dance Units: 4

General Education Requirements for Students Who Began College Before Fall 2015

For more information about the general education requirements that apply to students who began college prior to fall 2015, see the USC Core/General Education section in the 2014-2015 Catalogue.

Undergraduate Degree Programs

USC is a major university providing diverse academic programs. As such it has evolved into a complex organization. The basic underlying principle in its organization is simple: groups of faculty with similar areas of knowledge and interest are grouped together to form departments or schools. These units work together in determining the courses to be offered, requirements for degrees, and the content and rationale underlying their curricula.

In practice, the organization becomes more complex. Certain areas of study are based on broad areas of knowledge, which need to draw faculty from several departments.

The basic undergraduate degrees are the Bachelor of Arts and the Bachelor of Science. Students may obtain these degrees in a variety of majors that have been formally approved. More specialized degrees, such as a Bachelor of Music, require more undergraduate study devoted to professional training.

Area of Emphasis

An Area of Emphasis is a specific focus within a major. Areas of Emphasis are listed within parentheses following the appropriate majors and do not appear on diplomas but are indicated on transcripts.

Combined Program

A combined program is an organized set of requirements from two academic units in a single undergraduate degree program that combines two majors. Examples are: Linguistics/Philosophy and Physics/Computer Science.

Double Major Within the Dornsife College of Letters, Arts and Sciences

A double major consists of two majors, which allow the student to earn the same degree, either a BA or BS degree, conferred by the Dornsife College of Letters, Arts and Sciences. The Dornsife College of Letters, Arts and Sciences offers two kinds of majors, "departmental" and "interdepartmental" (see USC Dornsife College of Letters, Arts and Sciences). A double major may consist of two departmental majors, two interdepartmental majors, or one departmental and one interdepartmental major. All double majors require a minimum of 12 upper-division courses. Some upper-division courses may count for both majors. For double departmental majors two upper-division courses may count toward both majors. For departmental and interdepartmental majors, three upper-division courses may count toward both majors. The student receives a single diploma.

Other Double Majors

Double majors may be offered in other schools. The two majors must be offered by different departments but lead to the same degree, such as a Bachelor of Science or Bachelor of Music. Double majors consisting of two majors in the same department are not permitted. The student receives a single diploma.

Progressive Degree Programs

The progressive degree plan enables an undergraduate student to begin an integrated program of study joining bachelor's degree and master's degree programs in the same or different departments. This option is available to outstanding USC undergraduates who have completed 64 units of course work at USC, and often results in a more expeditious completion of the master's degree than otherwise would be possible.

Students are admitted to the master's degree at the completion of the sixth semester. Progressive degree students must fulfill all requirements for both the bachelor's degree and the master's degree except for the combined total number of units for the degrees. The bachelor's degree can be awarded first. Further details about progressive degrees can be found in the Requirements for Graduation section.

Second Bachelor's Degree

A second bachelor's degree requires a minimum of 32 units beyond the number required for the first. If the first bachelor's degree was earned at USC, a minimum of 32 units for the second must be completed at USC. If the first bachelor's degree was earned at another institution, a minimum of 64 units toward the second must be completed at USC. (See the policy on residence requirements for a second bachelor's degree, under Course Work Taken Elsewhere.)

For some degrees, more than the 32 units beyond the first bachelor's degree will be required because all requirements for both degrees must be met. The student receives a separate diploma for each degree upon completion.

The first and second bachelor's degrees may be completed at the same time but there is no requirement that they be.

Minor Programs

In addition to the degree programs listed throughout the Catalogue, many academic units offer minor programs. A list of minors appears after the list of undergraduate degrees. The requirements for each minor are listed in the appropriate school section. A separate minor certificate is issued for each minor a student completes. Minors are also recorded on the student's transcript.

International Study Options

International Study Programs

USC's undergraduate international study programs, many of which are administered by the Office of Overseas Studies in USC Dornsife, enable students to learn in a different educational and cultural context for a semester or academic year. Some of the programs require a background in the language of the host country; others are conducted entirely in English. Units earned are considered USC units and affect residency in the same manner. However, overseas semester courses are not offered for general education credit. Students receive regular USC credit and may apply financial aid and scholarships to the semester and year programs described here. The semester and year programs detailed below are offered through the Dornsife Office of Overseas Studies or Annenberg International Programs, unless otherwise indicated. Please visit the Dornsife Office of Overseas Studies located in Taper Hall (THH), Room 341, call (213) 740-3636, email overseas@dornsife.usc.edu or visit dornsife.usc.edu/overseas-studies for more information, or contact the Annenberg School for Communication and Journalism, ASC 140, call (213) 821-1276, email ascintl@usc.edu or visit annenberg.usc.edu/international. USC Dornsife also offers short-term, faculty-led programs outside

the United States. For more information, please visit dornsife.usc.edu/faculty-led-programs. For information on undergraduate international study programs offered by undergraduate schools other than USC Dornsife, please refer to those schools' sections in this catalogue as well as their websites.

Argentina

Semester or Year in Buenos Aires

Students are directly enrolled at the Universidad de San Andrés. The host university's Program in Latin American Studies (PLAS) provides students with the opportunity to take courses with local students in subject areas such as economics, history, international relations, literature and political science specifically related to Latin America. All courses are taught in Spanish. Study abroad students are required to take a Spanish language course in addition to their courses in Latin American studies. Students live in homestays arranged by the program or in self-arranged apartments. A minimum of six semesters of college-level Spanish with a B average or better is required to be eligible for this program.

Australia

Semester or Year in Brisbane

The University of Queensland (UQ) is one of Australia's premier higher education institutions. Brisbane, with more than one million residents, is Australia's third-largest and fastest-growing city. USC undergraduates enroll in regular university courses in a wide variety of subjects. Courses are available in the humanities, social sciences, science and engineering. Students may choose to live on or off campus.

Semester or Year in Canberra

Located in the capital city of Canberra, the Australian National University (ANU) offers USC undergraduates the opportunity to study alongside Australian students for a semester or year. Courses are available in the schools of arts and social sciences, Asian studies, economics and commerce, engineering and computer science, law and science. Fine arts and design majors may pursue studio arts and design courses at the ANU School of Art. The Australian National Internship Program offers a 4-credit internship in Australian Parliament, the Australian Public Service or a nongovernmental organization. Interns attend academic seminars and complete a research project in addition to the intern duties they perform. Students live in university-affiliated residence halls.

Semester or Year in Melbourne

The University of Melbourne is Australia's oldest university and is consistently ranked within the top 30 universities in the world. USC students enroll in regular university courses and study alongside local students in an array of academic disciplines. Courses are available in the humanities, sciences, social sciences, film, engineering and urban planning. Students live in residential colleges or apartments surrounding the main campus.

Semester at the University of New South Wales, Sydney

This spring semester program offers students the chance to live and study in Australia's most exciting city. Students choose from a wide variety of courses offered at the University of New South Wales (UNSW), one of Australia's "Group of Eight" premier universities. UNSW is located near the hub of Sydney's central business district. The program will give students the chance to explore mass media and communication in a challenging environment with a distinct world view, very different from that of the United States. The program is open to all majors, with priority given to communication, journalism and public relations majors. A minimum USC cumulative GPA of 3.0 is required for this program. For further information, contact the Annenberg School for Communication and Journalism, ASC 140, call (213) 821-1276, email ascintl@usc.edu or visit annenberg.usc.edu/international.

Semester in Yungaburra

Through the School for Field Studies, students spend a semester at a field station in a rain forest in far northern Queensland, home to an amazing variety of exotic birds, plants and wildlife. Students enroll in four courses: Rainforest Ecology, Principles of Forest Management, Economic Policy and Socioeconomic Values, and Directed Research. The courses involve a great deal of hands-on fieldwork, and the directed research projects provide invaluable experience for students interested in graduate studies or in work dealing with the environment. Students share four- to eight-person cabins.

Botswana

Semester or Year in Gaborone

USC students may enroll in the Arts and Sciences or Community Public Health tracks offered at the University of Botswana (UB) through the Council on International Educational Exchange (CIEE). Arts and Sciences students directly enroll in UB courses, choosing from a wide array of courses within the faculties of engineering and technology, humanities, natural sciences and social sciences. Students in the Community Public Health track take a combination of specialized CIEE public health courses, a field practicum and direct enrollment courses at UB. All students are required to take Setswana Language and Culture Practicum. As Gaborone is a hub for international development agencies and local NGOs, students are encouraged to commit to regular volunteering assignments, where they engage with the community and gain a greater understanding of contemporary Botswana culture and its role in Southern Africa. Students live in UB residence halls or with a host family in Gaborone.

Brazil

Semester in São Paulo

The CET Brazil program in São Paulo has a special focus on social justice and inequality. In addition to a core course on social movements within Brazil, students take a Portuguese language class and thematic English-taught electives in the social sciences. Students with a higher level of Portuguese can take a CET elective in Portuguese or directly enroll in one or two classes at the Universidade Pontificia de São Paulo. To better engage with the community, students live in apartments with Brazilian roommates who provide an access point into local life, and even travel to Salvador da Bahia to take on learning by experiencing. Students must have completed two semesters of college-level Portuguese, or the equivalent, to be eligible for this program.

Chile

Semester or Year in Santiago

In conjunction with the Council on International Educational Exchange (CIEE), USC provides the opportunity for study at the Universidad de Chile, the Pontificia Universidad Católica de Chile, and/or the Universidad Diego Portales, all located in Santiago, the capital of Chile. All courses are taught in Spanish. Courses are available in such disciplines as art, anthropology, economics, geography, history, international relations, literature, philosophy, political science, psychology, sociology, Spanish and theology. Students live with Chilean host families. Students who have completed six semesters of Spanish, or the equivalent, are eligible to apply.

China

Semester or Year in Beijing

The program at Peking University in Beijing, offered through CIEE, provides students with the opportunity to study at China's most prestigious liberal arts institution and to improve their Mandarin Chinese in a city where the standard dialect is used. The focus of the program is intensive language learning, with

instruction available at many levels of ability. Students may take one English-taught area studies course. Students who have a very advanced level of Chinese and attend the program in the spring semester may take regular Peking University courses alongside Chinese students. Students live in an off-campus international student dorm or in a homestay with a Chinese family. Students must have completed three semesters of Mandarin or the equivalent to be eligible for the program.

Fall or Spring Semester in Hong Kong

The semester program offers students the opportunity to learn about Chinese culture at the Chinese University in Hong Kong, a bilingual institution. The program also gives students the experience of living in Hong Kong, where they can witness the "one country, two systems" experiment. Courses in English are offered in fine arts, literature, history, Japanese studies, intercultural studies, music, philosophy, computer science, anthropology, economics, international relations, as well as journalism and communication. For students interested in Chinese language, courses are offered in Putonghua (Mandarin) or Cantonese. (Please note that these language courses will not count toward the EALC major/minor.) Students take five classes worth 3 units each, for a maximum of 15 USC units. This program allows communication majors to earn up to 12 upper-division units of major credit and journalism and public relations majors to earn up to 9 upper-division units of major credit. Students reside in dormitories with Chinese or international roommates. A minimum USC cumulative GPA of 3.0 is required for this program. The program is open to all majors, with priority given to communication, journalism and public relations majors. For further information, contact the Annenberg School for Communication and Journalism, ASC 140, call (213) 821-1276, email ascintl@usc.edu or visit annenberg.usc.edu/international.

Semester or Year in Hong Kong (Dornsife Majors Only)

Dornsife majors may spend a semester at the Chinese University of Hong Kong (CUHK) taking courses in the faculties of arts, sciences or social sciences. The language of instruction for most CUHK courses is English. Students are encouraged to also take Cantonese, Mandarin or a course directly related to Hong Kong. Students live on campus in student dorms.

Semester or Year in Shanghai

Students may spend a semester or year in Shanghai participating in the CIEE-run China in a Global Context program or Accelerated Chinese Language program. The CIEE Shanghai Study Center is located on the campus of East China Normal University. Students in a Global Context program take 6 units of Mandarin and three 3-unit Chinese studies courses taught in English. The courses offered are in fields such as international relations, political science, political economy, economics, gender studies, global studies, history, cinema and sociology. Students interested in a more intensive language program may join the Accelerated Chinese Language program, in which they take 12 units of Chinese and a 3-unit elective. Students live either with a Chinese host family within easy walking distance of the university or in an on-campus international student residence hall with a Chinese roommate. To be eligible for this program, students must have completed at least two semesters of college-level Mandarin.

England

Semester or Year at the University of Sussex in Brighton

USC students are directly enrolled in University of Sussex courses with British students. Situated near the seaside resort town of Brighton, the university is only an hour by train from London and just a half-hour from Gatwick Airport. Brighton has a very active arts scene and a lively nightlife, and 10 percent of the residents are university students. The University of Sussex is especially strong in American studies, cognitive science, computer science, English, international development studies, international relations, neuroscience, biological sciences, psychology and sociology. Students live in university housing either on or off campus.

Semester or Year at the University of Bristol

The University of Bristol offers a wide range of academically rigorous direct enrollment courses, in which study-abroad students study alongside full-time Bristol students. Bristol is routinely ranked within the top 10 universities in the United Kingdom. In undergraduate studies, the university is particularly strong in health sciences, biological sciences, engineering, sociology, politics and international relations, geography, English, history, film, theater and social policy. Bristol is unique in that it allows study-abroad students to create their own program of study, and select courses from any of the available departments, even if they are not majors in those fields. In southwest England, Bristol is just 90 minutes from London and is a thriving urban center with an active arts scene and its own international airport. Students live in university housing either on or off campus.

Semester or Year at Queen Mary University of London (Cinematic Arts; Engineering; Comparative Literature; English/Creative Writing/Narrative Studies; Gender Studies; History/Law, History and Culture; International Relations/IRGB/IRGE; Political Science and Theatre Majors Only)

Students in the majors listed above directly enroll at Queen Mary in four courses, at least two of which must be for major credit. They may take the remainder of their courses in any department except law and medicine. Students live in on-campus housing at Queen Mary, located in the East End of London.

Year at the London School of Economics and Political Science (LSE)

Juniors and seniors can spend a year at LSE, which has an outstanding international reputation in all of the social sciences, including anthropology, economics, international history, international relations, philosophy, political science and sociology. LSE also offers mathematics. Students spend an academic year at LSE on the general course, where they take four year-long courses alongside British and other international students. More than half of the 6,000 full-time students come from outside the United Kingdom, lending to a very international atmosphere. University housing is located throughout central London. Students must have at least junior standing and a cumulative GPA of 3.3 or higher to be eligible for this program; students in quantitative majors such as economics and mathematics need a 3.5 GPA in major courses.

Semester or Year at King's College, London (Biological Sciences, English, Human Biology, International Relations and Neuroscience Majors Only)

Juniors and seniors in the majors listed above can directly enroll at King's College, one of the top universities in the United Kingdom. King's is strong in biological sciences and offers a special class for pre-med students, which combines classroom study with clinical attachments focusing on different aspects of medical practice. Students interested in security or peace and conflict studies can enroll in the War Studies Department, one of the few university departments in the world devoted to the study of war as a phenomenon. USC students must plan to take at least two courses for major credit to be eligible for this program. University housing is located throughout central London, and students can expect to commute to campus. Students must have a cumulative GPA of 3.3 or higher to be eligible for this program.

Fall or Spring Semester in London (Annenberg Majors Only)

Undergraduate communication, journalism and public relations students may spend a fall or spring semester at a dedicated study center, where they enroll in 12-16 units of upper-division Annenberg major course work. In addition to their studies, students tour publishing and broadcasting companies, meet communication executives and government policy-makers and gain exposure to British media, culture and civilization. A minimum USC cumulative GPA of 3.0 is required for this program. For further information and program requirements (which vary by Annenberg major), contact the Annenberg School for Communication and Journalism, ASC 140, (213) 821-1276, email ascintl@usc.edu, or visit annenberg.usc.edu/international.

Semester at University College London (UCL) (Art History, Earth Sciences, Geology, Neuroscience and Psychology Majors Only)

Juniors and seniors in the majors listed above may spend a semester at UCL, one of the top universities in the United Kingdom. Students will have a home department at UCL and must take two of their four courses in their home department. Remaining courses can be taken in any department except English (unless one is also an English major) and fine arts. USC students are directly enrolled in courses with British students. University housing is located throughout central London, and students can expect to commute to campus. A GPA of 3.3 or higher is required to be eligible for this program.

Semester at the British American Drama Academy (Theatre/Acting)

In conjunction with Sarah Lawrence College and the British American Drama Academy (BADA), USC theatre acting majors and minors spend a semester in London. The London Theatre program is designed to expose American undergraduates to the rigor of professional British training in acting by helping them improve their ability to perform plays from the classical repertoire and develop techniques and approaches to acting that will stand them in good stead in any role. The program is taught by a faculty that includes some of Britain's most distinguished actors and directors. Students will take courses that include scene study workshops in Shakespeare, high comedy, modern drama, acting in performance, voice, movement, stage fighting, theatre history and dramatic criticism. Students attending a one-year program will add classical acting for stage and screen to their academic program for the second semester. Students live in flats with other program participants. Students must audition for the program, and admission is competitive.

Semester at Sotheby's Institute of Art, London

This intensive semester program is designed for those who are interested both in art history and the business practices of the art world. Through lectures, seminars and visits to specialist museums and collections, and many key commercial galleries, students are introduced to the history of art and design and the ways in which art has been made, sold and collected. In the fall semester students focus on modern and contemporary art and in the spring semester students can choose between modern and contemporary art or art from 1600 to 1900. In the business component of the program, students examine established art markets in the developed world and emerging art markets in the developing world, together with legal and management issues related to global art business practice, with a particular emphasis on the international auction house system. Students arrange their own housing.

France

Semester or Year in Paris

USC students can study for a semester or year on the USC Paris program. In addition to French language courses at the Sorbonne, the program offers USC upper-division French courses and English-taught USC courses in art history, economics and international relations. Students at an advanced level of French may take one or two courses alongside French university students at the Institut Catholique, where courses are available in the following areas: art history, economics, history, international relations and sociology. In the fall semester students with a high level of French may participate in an internship. The program also offers weekend trips to regions such as Normandy and Provence, and day trips to sites of cultural importance near Paris. Students live with French host families. Students must have completed at least two semesters of college-level French.

Spring Semester or Year in Paris (Economics, International Relations/IRGB/IRGE and Political Science Majors Only)

Juniors and seniors in the majors listed above may spend the spring semester or academic year studying at the Institut d'Etudes Politiques de Paris (Sciences Po), one of the top-ranked universities in France. Students choose the English track, English/French track or French track for their courses in international relations, political science and economics. All students take a French language course or elective course taught in French each semester regardless of which track they are in. Students live in private accommodation throughout Paris. To be eligible for this program, students need a 3.3 USC GPA, junior standing, and three to five semesters of French (depending on the track selected). Students must make their own housing arrangements.

Germany

Semester or Year in Berlin

In conjunction with the Institute for the International Education of Students (IES), USC offers a program of study at the IES Center and Humboldt University, perfectly situated for exploring the city. Students receive intensive German language instruction during the first three weeks of the program, then enroll for the remainder of the semester at Humboldt University (in the spring semester only) and/or courses offered at the IES Center (in the fall or spring semester). All courses are taught in German and are available in such disciplines as economics, history, politics, art history, business, classics, international relations, political science, psychology, religion and sociology. Students are housed in private German homes and apartments. Students must have completed four semesters of college-level German to be eligible for this program.

Greece

Semester or Year in Athens

Students may spend a semester or year in Athens, Greece, where the ancient world comes alive. A vibrant capital city, Athens is a center of international business and the hub of an efficient and extensive transportation system that makes the beauty of Greece readily accessible. This program is administered by College Year in Athens, and students take courses with other American students. All students are required to enroll in Modern Greek as one of their five courses. The areas of study are art and archaeology, environmental studies, ethnography, history, languages (ancient Greek, Latin and modern Greek), literature, philosophy, political science and international relations, religion, and urban planning and sustainability. Students live in simply furnished apartments with other American students or in homestays with a Greek family.

India

Fall Semester in Bodh Gaya

In the Buddhist Studies in Bodh Gaya program offered by Carleton College, students explore Buddhism in India through interdisciplinary courses and Buddhist meditation traditions and have a unique opportunity to conduct rigorous independent research in the field. Through comparative study, the program examines each of the three major Buddhist traditions and their historical development: Therevada, Mahayana and Vajrayana. The program is based at the Burmese Vihar, or monastery, where students live and learn. For two-and-a-half millennia, Bodh Gaya has been a magnet for pilgrims from all Buddhist cultures who come to venerate this sacred site, each in a fashion unique to his or her own tradition. There is no language requirement, and students may choose to take either Hindi or Tibetan language as an elective. All majors are welcome.

Ireland

Semester or Year in Dublin

USC Dornsife majors may spend the semester or academic year studying at Trinity College Dublin, one of the top-ranked universities in Europe and the premier research university in Ireland. A wide range of courses is offered in the major fields, and students may take a complementary elective course. USC students will live with and study alongside Irish students. To be eligible for this program, students need a 3.3 USC GPA, junior standing, and a minimum of three major courses completed at the time of application.

Spring Semester in Dublin

USC undergraduates may spend a spring semester studying conflict and reconciliation at Trinity College Dublin's Irish School of Ecumenics (ISE) in central Dublin. Students take three courses — Engaging Religious Fundamentalism; Gender, War and Peace; and Religion and International Relations — for a total of 15 USC units. The program includes several field trips and conflict resolution workshops in Ireland and Northern Ireland, as well as a trip to the United Nations in Geneva, Switzerland. This program is well-suited for students interested in negotiation and mediation, and students with majors or minors in political science, international relations, sociology, history, religion and gender studies, as well as students with an interest in Ireland. Students live in apartments with Irish and American flatmates, and are encouraged to join in campus clubs and societies. The program requires a 3.3 GPA and junior standing.

Semester or Year in Galway

Students may spend a semester or year studying at the National University of Ireland, Galway. Located in western Ireland, Galway is the third largest city in the Republic of Ireland and plays a dynamic and pioneering role in theatre, arts and culture. Students may take courses in a wide variety of fields including arts and letters, sciences and engineering. Students are directly enrolled in the university and take courses alongside Irish students. The program requires a 3.0 GPA and junior standing.

Israel

Semester or Year in Jerusalem

USC undergraduates may spend a semester or year at Hebrew University of Jerusalem (HUJ). The program begins with a three-week pre-semester period of intensive Hebrew language study. Study-abroad students are based at HUJ's Rothberg International School (RIS), where the medium of instruction is English. USC students take courses at RIS in fields such as archaeology, art history, environmental studies, history, international relations, Jewish and religious studies, Middle East and Islamic studies, literature, political science, neuroscience and psychology. Students may also take Arabic. Although most regular HUJ courses are taught in Hebrew, there are well over a dozen regular HUJ courses offered in English. All USC students are encouraged to take at least one regular HUJ course taught in English. Students live in campus dormitories. Students must have completed one semester of college-level Hebrew or the equivalent to participate in this program.

Italy

Semester or Year in Florence

USC undergraduates have the opportunity to spend a semester or year in Florence studying Italian language and literature, art history, economics, gender studies, history, international relations, political science and studio arts. Classes are taught mostly in English at Syracuse University's study center in Florence. Students with advanced proficiency in Italian may take courses at the University of Florence. Courses are complemented by field trips to cities such as Assisi, Rome and Venice. Students live in homestays with Italian hosts. Studio arts students may also choose to stay in an apartment with other program students. Students must have completed at least two semesters of college-level Italian to be eligible for this program.

Spring Semester in Rome (Annenberg Majors Only)

Undergraduate communication, journalism and public relations majors may study in Rome for a semester at a dedicated study center where they will enroll in 16 units of ASCJ credit. Students study Italian media, communication style and basic Italian language. In addition to their studies, students tour publishing and broadcasting companies, meet communication executives and government policy-makers and gain exposure to Italian media, culture and civilization. A minimum USC cumulative GPA of 3.0 is required for this program. For further information and program requirements, contact the Annenberg School for Communication and Journalism, ASC 140, (213) 821-1276, email ascintl@usc.edu, or visit annenberg.usc.edu/international.

Semester in Florence at SACI (Animation and Digital Arts; Media Arts and Practice; and Roski School of Art and Design Majors Only)

Undergraduate majors in Animation and Digital Arts, Media Arts and Practice, and the Roski School of Art and Design may spend a semester abroad at Studio Arts Centers International (SACI) in Florence, Italy. Students must have completed a minimum of one semester of college-level Italian (two semesters strongly recommended) as well as the required preparatory foundation classes before attending this program. SACI houses students in apartments near the school in the historic center of Florence. While in Florence students participate in weekly open drawing sessions and field trips to sites throughout Italy, including day trips to Pisa, Siena and Lucca, and weekend trips to Rome, Venice and Naples.

Semester or Year in Milan

Through the Institute for the International Education of Students (IES), undergraduates have the opportunity to spend a semester or year studying in Milan, the commercial and financial center of contemporary Italy. The IES Milan Center is located near the Università Cattolica, IES' main partner institution in Milan. USC students may participate in the Italy Today track. Beginning/intermediate students of Italian enroll in IES area studies taught in English in addition to Italian language courses. IES area studies courses are available in such disciplines as art history, cinema, environmental studies, theatre, history, literature, music, psychology, political science and sociology. Students with advanced Italian select from IES area studies courses taught in Italian and are encouraged to choose one or two courses from among a wide variety of offerings at several universities in Milan. Students are housed in apartments with American and Italian roommates, homestays, or at an international honors dorm.

Students must have completed two semesters of college-level Italian to be eligible for this program.

Semester in Rome (Classics, Archaeology, Art History and History Majors Only)

USC students may study in Rome for a semester at the Intercollegiate Center for Classical Studies (ICCS), a program administered by Duke University. Students study ancient history and archaeology, intermediate and advanced Greek and Latin, basic Italian language, and Renaissance and Baroque art history. Field trips and extended study tours are essential components of the program. Students live and study at the ICCS Center, a three-story building located a few minutes by bus from the center of Rome. Two semesters of Latin, ancient Greek or Italian are prerequisites for this program.

Japan

Semester or Year in Nagoya

A program of study is available at the Center for Japanese Studies at Nanzan University in Nagoya. The program for international students is well known for its strength in Japanese language training. Nagoya is two hours from Tokyo by bullet train and one hour from the ancient capital city of Kyoto. Courses are available in such disciplines as Japanese arts, business, culture, economics, history, international relations, linguistics, literature, religion and political science. Intensive language training is offered at all levels of proficiency. Students live in Japanese homes or dormitories.

Year at Waseda University in Tokyo

Students may study for an academic year at Waseda University, one of Japan's foremost private institutions of higher learning. The university is located in the Shinjuku area of Tokyo. The academic program at Waseda's School of International Liberal Studies combines Japanese language courses and English-taught lecture courses on the history, culture, literature, arts, politics and economics of Japan and East Asia. The intensive Japanese language courses, offered at eight levels of proficiency, assist students in the development of listening, speaking, reading and writing skills. Students live with Japanese families or in the university's international dormitory.

Spring or Year at Sophia University in Tokyo

Students may spend the spring semester or full year at Sophia University in Tokyo through the Council on International Educational Exchange. Students can experience life in Tokyo and take courses alongside Japanese students and other international students. Sophia University is a top-ranked Japanese university and is conveniently located in west-central Tokyo. Students are enrolled in Sophia's Faculty of Liberal Arts, where they take Japanese language courses as well as English-taught courses in Asian Studies (anthropology, art history, comparative literature, economics, history, international relations, linguistics, literature, religion, philosophy, political science and sociology). Students highly proficient in Japanese can take courses in Japanese linguistics. Students live in Japanese homes or privately owned dormitories throughout the Tokyo area.

Semester or Year at Tokyo International University near Tokyo

Founded in 1965, Tokyo International University is located in the city of Kawagoe, about 25 miles from central Tokyo. The university offers a program for international students through the Japanese Studies Program in the International Center. Students enroll in an 8-unit Japanese language course and select the remainder of their courses, taught in English, from anthropology, cinema, culture, economics, history, literature, philosophy and political science. In the spring semester, students with a very advanced level of Japanese may take some courses in Japanese alongside Japanese students. Students live in Japanese homes.

Jordan

Semester or Year in Amman (Arabic and Area Studies Program)

Students may study for a semester or year at the AMIDEAST Study Center in Amman. As Jordan is deeply enmeshed in the international relations of the region, students may find no better place to study pressing Middle Eastern issues and Levantine Arabic. This program provides undergraduates with the opportunity to study Arabic semi-intensively and take courses on the Middle East in a variety of academic disciplines such as anthropology, art history, gender studies, history, international relations, political science and religion, all while immersed in Jordanian culture. Students take Blended Modern Standard Arabic & Colloquial Jordanian Arabic (8 units) and area studies courses taught in English. Students choose to live with a Jordanian host family or in an apartment with other students. Two semesters of college-level Arabic or the equivalent are required to participate in this program.

Semester or Year in Amman (Advanced Arabic Language Program)

This is an intensive Arabic program offered by CIEE in Amman. Students must have completed at least five semesters of Arabic with a 3.3 GPA or better to be eligible for this program. Students take 6 units of advanced Modern Standard Arabic and a 4-unit course called Advanced Topics in Arabic Conversation, which involves the use of colloquial Jordanian Arabic. Students also take Arabic Writing and Research for 3 units and one 3-unit elective taught entirely in Arabic. Electives include business communication, contemporary Arab media, readings in Arabic literature, Arabic poetry and introduction to Islam. Students participate in a mid-semester Arabic-language rural retreat. Students live with a Jordanian host family.

Mexico

Semester in Oaxaca

USC students may participate in the Migration, Borders, and Transnational Communities program run by the School for International Training. The aim of the program is to discover the contemporary realities of international undocumented migration and border enforcement and their immense human impact and political and social tension in the context of Mexico, Central America and the United States. Students will study the effects of large-scale migration on communities and get an understanding of the factors that contribute to undocumented migration. During the seven weeks of the program when students are based in the city of Oaxaca, students live with a host family. Students will also live with host families during extended excursions into rural communities. Students also visit border communities on the U.S. side of the northern border and on the Mexican side of the southern border with Guatemala. Students are introduced to field study methods and spend the last several weeks of the semester completing an independent study project. Four semesters of college-level Spanish, or the equivalent, are required to participate in this program.

Morocco

Semester or Year in Rabat

Students may spend a semester or year with the AMIDEAST Area & Arabic Language Studies program. Students' unique access to Moroccan culture provides them with insights into the country's varied and complex approach to the pressing social, religious and cultural issues of the Middle East and North Africa. In addition to studying both Modern Standard Arabic (MSA) and colloquial Moroccan Arabic, students take two or three area studies courses taught in English from a variety of disciplines including Middle East and North Africa studies, political science, religion, sociology, gender studies and history. Classes are conducted at the AMIDEAST Center in the Agdal district of Rabat

and instruct students from U.S. universities. Students live with a Moroccan host family. A minimum of two semesters of college-level Arabic is required to be eligible for this program.

The Netherlands

Semester or Year in Maastricht

USC Dornsife majors may spend the semester or academic year studying at Maastricht University, the most international and fully bilingual (Dutch and English) university in the Netherlands. Students directly enroll in courses with local and international students and have access to hundreds of courses taught in English. Students will be enrolled in one of five academic clusters focused on Europe: Economics in Europe; European Politics, Law and International Relations; Public Health and Medicine in Europe; Psychology and Neuroscience in Europe; and European History, Culture and Arts. All students take a course in basic Dutch. This program is restricted to Dornsife majors, Price students majoring in Public Policy or Urban Studies, Keck undergraduates majoring in Global Health, and Gerontology majors.

New Zealand

Semester or Year in Auckland

Undergraduates have the opportunity to study for a semester or year at the University of Auckland. Auckland is a modern cosmopolitan city with a population of 1.5 million people, roughly one-third of New Zealand's entire population. The University of Auckland is highly ranked in the Asia-Pacific region. USC students enroll in regular university courses at the city center campus and study alongside local students in a wide variety of subjects. Courses are available in the humanities, social sciences, science, engineering and cinematic arts. Students live in university residence halls.

Spring Semester in Auckland

This spring semester program offers students the opportunity to travel to New Zealand and experience its liveliest city as well as its natural wonders. Students will study at Auckland University of Technology (AUT), located centrally in Auckland, the largest and most cosmopolitan city in New Zealand. Students take a variety of courses while taking in the sights and sounds of indigenous Maori culture and modern New Zealand. This program is open to all majors, with priority given to communication, journalism and public relations majors. A minimum USC cumulative GPA of 3.0 is required for this program. For further information, contact the Annenberg School for Communication and Journalism, ASC 140, (213) 821-1276, email ascintl@usc.edu or visit annenberg.usc.edu/international.

Semester or Year in Dunedin

Founded in 1869, the University of Otago is the oldest established university in New Zealand. It has an international reputation for the quality of its teaching and research. Study-abroad students are able to take a broad range of subjects across the university's four academic divisions: commerce, health sciences, humanities and sciences. Students majoring in anthropology, English, theatre, cognitive science, psychology, and natural and environmental sciences will find strong programs offering a wide variety of courses. The university offers a true campus lifestyle and the city of Dunedin, in which the university is located, offers a rich cultural life as well as proximity to outdoor activities. Students live in university-affiliated apartments.

Poland

Semester in Krakow

Undergraduates may spend a semester or year at the Center for European Studies at Jagiellonian University in Krakow. The program is open to Dornsife majors who take at least one course for major credit. The program is designed to provide Central and Eastern European perspectives on the contemporary as well as historical events and transformations occurring in Europe through in-depth study of European political, economic and social realities. Students take four European Studies courses taught in English and a Polish language course. Students live in university dormitories with Polish and international students.

Russia

Semester or Year in St. Petersburg

USC offers undergraduates a semester or year-long opportunity to study in St. Petersburg through CIEE. Students with two or more semesters of Russian can participate in the Russian Area Studies Program, which is ideal for students of history, international relations and political science. The Russian Language Program is for students with four or more semesters of Russian and focuses on language, literature and Russian culture. Students have their own room with a Russian family in a private apartment. The program includes many day trips to important sites and overnight excursions to locations such as Moscow, Novgorod, the Pskov region and Tallinn (Estonia).

Scotland

Semester or Year in Edinburgh

The University of Edinburgh was founded in 1583 and offers excellence in teaching and research over a wide range of disciplines. USC students are directly enrolled in courses with British students. Courses are available in more than 50 disciplines including archaeology, architecture, biological sciences, classics, computer science, ecology, economics, engineering, international relations, linguistics, mathematics, physics, psychology and religious studies. USC students live in university residence halls, student houses or university flats.

South Africa

Semester or Year in Cape Town

Students may spend a semester or year studying at the University of Cape Town (UCT) through the Council on International Educational Exchange (CIEE). All program participants are required to take at least one course with specific African content. Courses may be taken in all UCT faculties except health sciences and law. Students live with South African or other international students in residence halls, with other American students in apartments close to campus, or with a South African host family. Students must have at least junior standing at the start of the program.

Semester in Durban

USC students may participate in the Community Health and Social Policy program run by the School for International Training (SIT). Durban, in KwaZulu-Natal province, is a hub for health teaching, research and practice in both Western and traditional healing systems. Through extensive field visits, lectures and an independent research project, students examine the historical, political, economic, cultural and geographic forces that shape the history of public health interventions in South Africa. Students are introduced to field study methods and spend the last several weeks of the semester completing an independent study project. Students also enroll in intensive Zulu language study.

South Korea

Semester or Year in Seoul

Students who have completed two semesters of college-level Korean have the opportunity to spend a semester or year at Yonsei University in Seoul. Students enroll in a Korean language course and two or three English-taught Asian studies courses available from the following areas: anthropology, art history, business, economics, history, international relations, literature, philosophy, politics, religion and sociology. Students live in the international student dormitory on campus.

Spain

Semester or Year in Bilbao

USC offers undergraduates the opportunity to study for either a semester or year at the University of Deusto, which was founded by Jesuits in 1886 and is among Spain's top universities. Bilbao is considered the financial and cultural center of the Basque country in northern Spain. Students focus on intensive language study and take additional course work in Spanish, Basque and European studies. Students may choose to live in dormitories or homestays.

Fall Semester in Madrid

USC students who have completed at least SPAN 260 or SPAN 261 may spend the fall semester in the Boston University in Madrid's Spanish & European Studies Program. In this program, located at the International Institute in central Madrid, students take four upper-division courses, all of which are taught in Spanish. The program offers courses in Spanish language and literature, anthropology, art history, cinema, gender studies and politics. Students with a very high level of Spanish may participate in an internship. Students live in a homestay with Spanish hosts.

Spring Semester in Madrid

USC students can spend the spring semester in the USC Madrid program. The program offers SPAN 260, SPAN 261, USC upper-division Spanish courses, and an English-taught art history course at the program base, the International Institute, in central Madrid. Students taking SPAN 260 and SPAN 261 in Madrid take one or more English-taught courses alongside Spanish university students at the Universidad Carlos III de Madrid located in the suburb of Getafe. The program offers several excursions to different regions of Spain and day trips to sites near Madrid in addition to outings to cultural events in Madrid. Students live in a homestay with Spanish hosts.

Tanzania

Semester in Rhotia

Through the School for Field Studies, USC offers undergraduates the opportunity to study for a semester in Tanzania. Students live in close proximity to wildlife and local communities on the African savanna. Through conducting research and fieldwork and attending lectures, students explore human-wildlife conflicts from the perspective of local ranchers, communities and park managers. The field station where students are based is near Lake Manyara National Park.

Non-USC Programs

Students who wish to participate in a non-USC approved semester or year overseas study program and receive credit transferable to USC must initiate a Request for Exception to Residence in their academic department or school.

Graduate and Professional Education

Financial Aid for Graduate Students

Graduate students at USC benefit from federal financial aid programs administered by the Financial Aid Office and from scholarships, fellowships and assistantships administered by the Graduate School, the Office of the Provost, and various academic departments. Several federal agencies and private foundations offer support for students engaged in research in specific fields of study. In addition, many corporations provide fellowships or tuition reimbursements for their employees. USC also offers an interest-free monthly payment plan and participates in long-term loan programs. Students may apply for one or more kinds of aid, depending on eligibility.

Although international students are not eligible for federal financial aid, they may be eligible for scholarships, fellowships and graduate assistantships offered by their schools or departments. International students should contact their departments directly for information about existing opportunities. International students may also be eligible for private educational loans.

The Financial Aid Office may change these policies at any time to ensure continued compliance with changes in federal and state regulations governing student financial aid. As a result, students must refer to the current catalogue regulations. Unlike degree requirements, changes in regulations, policies and procedures are immediate and supersede those in any prior catalogue.

Financial Support Through Graduate Fellowships and Assistantships

Prospective and continuing students seeking financial support will find opportunities to fund their graduate study through individual schools and departments and through the Graduate School. In general, graduate fellowships and assistantships are offered only to students pursuing the PhD degree.

Acceptance of Offers of Financial Assistance

USC subscribes to the following resolution of the Council of Graduate Schools in the United States regarding deadlines and acceptance of offers for graduate scholars, fellows, trainees and assistants:

Acceptance of an offer of financial assistance (such as graduate scholarship, fellowship, traineeship or assistantship) for the next academic year by an actual or prospective graduate student completes an agreement that both the student and the university are expected to honor. In those instances in which the student accepts the offer before April 15, and subsequently desires to withdraw, the student may submit in writing a resignation of the appointment at any time through April 15. An acceptance given or left in force after April 15, however, commits the student to not accept another offer without first obtaining written release from the institution to which a commitment has been made. Similarly, an offer by an institution after April 15 is conditional on presentation by the student of the written release from any previously accepted offer.

Teaching and Research Assistantships, and Graduate Assistant Lectureships

Teaching and research assistantships and graduate assistant lectureships are awarded each year by departments and programs of the university to PhD students on the basis of scholastic accomplishment, academic promise and competence. They fall under the jurisdiction of the Graduate School. Procedures and practices can be found in *The Handbook for Teaching Assistants, Research Assistants, and Graduate Assistant Lecturers* on the Graduate School Website. Only students making good progress to the degree with an overall GPA of at least 3.0 on all units attempted at USC, acceptable TOEFL or IELTS scores, and who are regularly enrolled in USC graduate degree programs are eligible for appointment as teaching and research assistants and graduate assistant lecturers and may be offered a semester-by-semester appointment up to a maximum of one year at a time. All teaching and research assistants and graduate assistant lecturers are under direct and assigned supervision of regular faculty members and report regularly on the conduct and performance of their responsibilities to the supervising faculty. Assistant lecturers may be appointed only with the approval of the dean of the school in which the student is earning the degree. *The Handbook for Teaching Assistants, Research Assistants, and Graduate Assistant Lecturers* can be found at graduateschool.usc.edu/current-students/guidelines-forms-requests/#ga-handbook.

Application Procedures and Eligibility Requirements for Federal Financial Aid

Detailed information, application procedures and deadlines for federal financial aid are available online at financialaid.usc.edu. To be eligible for federal financial aid programs, students must be U.S. citizens, permanent residents or other eligible non-citizens; have a valid Social Security number; meet Selective Service registration requirements; enroll at least half-time; meet Satisfactory Academic Progress requirements; and meet all other eligibility requirements. Enrollment status will be calculated based only on those courses that are required for, or that can be applied as an eligible elective credit toward, a student's degree or certificate program. Students must also complete all application requirements by the relevant deadline(s). With certain exceptions, as noted below, students must be enrolled in a degree-seeking program or eligible certificate program at USC to be eligible for federal financial aid.

Federal Work-Study

The Federal Work-Study program enables eligible students to earn funds through employment either on campus or with an approved off-campus employer. Only full-time (enrolled in 8 or more units), on-campus students with high financial need who meet all application deadlines are considered for this program.

Federal Loans

Direct Unsubsidized Loans are available to eligible students. Interest accrues from the date of disbursement. Repayment begins six months after students graduate, withdraw or drop below half-time status.

Direct Graduate PLUS Loans are available to students who meet the credit criteria established by the U.S. Department of Education. Students who do not meet the credit criteria may apply with an endorser (co-borrower) who does. There is no grace period on the Direct Graduate PLUS Loan. Repayment begins the day after the loan is fully disbursed; however, students can defer repayment while enrolled in school at least half time, and for an additional six months after they graduate or drop below half-time status.*

The Health Professions Student Loan program provides funds to students in pharmacy and dentistry. The federal government pays the interest while students are in school. Repayment begins 12 months after they graduate or drop below half-time status.*

For details about federal loan programs and application requirements, visit financialaid.usc.edu/loans.

**Enrollment status will be calculated based only on those courses that are required for, or that can be applied as an eligible elective credit toward, a student's degree or certificate program.*

Private Financing Programs

Private financing programs are available to help students meet the costs of education by providing long-term financing options. Students should exhaust all federal Title IV assistance available, including the Direct Unsubsidized Loan and the Direct Graduate PLUS Loan, before considering a private student loan program. The repayment terms of federal programs may be more favorable than the terms of private loan programs. Federal student loans are required by law to provide a range of flexible repayment options, including but not limited to, income-based repayment and income-contingent repayment plans, and loan forgiveness benefits, which other student loans are not required to provide. Direct Loans are available to students regardless of income.

Teacher Education Assistance for College and Higher Education (TEACH) Grant

USC does not participate in the TEACH program.

Financial Aid for Enrollment in a Progressive Degree Program

The Financial Aid Office determines aid eligibility based on a student's class level. For information on how specific types of aid may be affected by class level refer to financialaid.usc.edu/general/special-programs/progressive-degrees.html.

Class Level Determination for Progressive Degree Programs

While classified as undergraduates, students are assessed the undergraduate tuition rate, and their enrollment status and financial aid eligibility are determined by undergraduate standards.

While classified as graduate students, students are assessed the graduate tuition rate, and their enrollment status and financial aid eligibility are determined by graduate standards.

A progressive degree student transitions from undergraduate to graduate class level as soon as any one of the following conditions is met:

1. the bachelor is degree conferred; or
2. the student is awarded a graduate research or teaching assistantship as contracted through the academic department and the Graduate School; or
3. the student earns a total of 144 units.

Bachelor Degree Conferred

The Office of Academic Records and Registrar determines when a student has completed their bachelor degree and manages the process of posting degrees to a student's record. Students wishing to change the degree date from that indicated on their STARS Report should request an updated degree term at the Registrar One Stop Center, John Hubbard Hall (JHH 114) or onestop@usc.edu. Students may also update their expected graduation date at my.usc.edu.

Graduate Research/Teaching Assistantship

Research and teaching assistantships are awards contracted through the student's academic department and the Graduate School and are exclusively available to graduate students. A progressive degree student who is awarded a research or teaching assistantship will be reclassified as graduate student beginning the semester they first receive the award.

The 144-Unit Limit

Assuming one of the other two conditions have not already been met, a progressive degree student is classified as an undergraduate up to and including the semester they earn a total of 144 units.

All units earned at USC, from both undergraduate- and graduate-level course work, will be counted toward the 144-unit limit. Any and all units earned during summer semesters will be counted, as well as units earned during semesters that were not funded with financial aid.

All transfer units, including units accepted from Advanced Placement and International Baccalaureate exams, will also be counted toward the 144-unit limit. Requirements that were met by transfer courses cannot be substituted by subsequently taken USC courses, and USC will not delete or discount accepted transfer course work from the transcript.

Transfer course work determined not to be applicable toward subject-specific requirements, e.g., General Education and major requirements, nor applicable as "free" electives toward the bachelor degree program's minimum unit requirement, may increase the unit limit above the standard 144. The applicability of transfer units is determined from objective transcript data and is therefore not open to appeal.

Class level is determined dynamically based on currently available data in the student transcript. Any changes, updates or corrections to a student's transcript that alter the total number of units earned will affect progress toward the unit limit and class level transition.

Financial Aid for Enrollment in a Certificate Program

Students enrolled at least half time in a graduate certificate program may be eligible for the Direct Unsubsidized Loan and Direct Graduate PLUS Loan if the program has been determined to be eligible for federal financial aid. Contact your academic

department or program or the Financial Aid Office for information about whether your program qualifies for financial aid.

Financial Aid for Limited Status Enrollment

Students not admitted to a degree-seeking program or eligible certificate program at USC but enroll as limited-status students are not eligible for federal financial aid, unless they meet the exception noted in the Preparatory Course Work section. Students who have completed their degree or certificate programs, but continue to enroll, will be considered limited-status students and are thereby ineligible for financial aid.

Financial Aid Consortium Agreements

Students admitted to degree-seeking or eligible certificate programs at USC who enroll in course work at another eligible "host" institution, where the course work has been pre-approved as transferable for credit toward their USC degrees or certificates, may have those courses considered in USC's determination of their eligibility for limited federal financial aid. The student's total USC and/or non-USC enrollment must be at least half-time and a Financial Aid Consortium Agreement must be completed prior to the semester or semesters the student enrolls at the host institution. **Financial Aid Consortium Agreements are contingent upon the host school agreeing to participate.**

Financial Aid Consortium Agreements are not available for students participating in the Postbaccalaureate Premedical Program.

For more information, visit financialaid.usc.edu/general/special-programs/consortium-agreements.html.

Financial Aid for Students Enrolled in Undergraduate Course Work for Admission to Graduate Degree

Students enrolled at least half-time in undergraduate courses required for admission to a graduate degree program may be eligible for limited Direct Loan funds. At this time, the only such program that USC offers is the Postbaccalaureate Premedical Program. For more information, visit financialaid.usc.edu/general/special-programs/postbaccalaureate-premedical-program.html.

Withdrawal Implications for Recipients of Financial Aid

During the Drop/Add Period

During the university's published drop/add period, students who drop or reduce their enrollment may be eligible for a 100 percent refund of tuition for classes dropped.

Financial aid recipients must immediately notify the Financial Aid Office in writing when a drop from one or more classes during the drop/add period results in an enrollment status different from the enrollment status on which their current financial aid eligibility was based. The same applies if one or more classes are canceled.

The Financial Aid Office will review the student's new enrollment and, if appropriate, revise the student's eligibility based on the new enrollment status.

If a financial aid recipient drops from all classes or drops to less than half-time status during the drop/add period, all financial aid awards must be returned to their respective programs. Students who drop from all classes or drop to less than half-time status during the drop/add period are considered never to have established eligibility for financial aid. If the student was given financial aid funds for other expenses, he or she will be expected to return those funds to the university.

After the Drop/Add Period

Students who are recipients of Title IV federal student aid are also covered by federal Return of Title IV Funds (R2T4) regulations. Title IV federal student aid is awarded to a student under the assumption that the student will attend for the entire period for which the assistance is provided and thereby "earn" the award. When a student ceases academic attendance prior to the end of that period, the student may no longer be eligible for the full amount of federal funds that the student was originally scheduled to receive.

If a Title IV aid recipient withdraws from all classes on or before the session is 60 percent complete, based on their last date of attendance, federal policy requires that any "unearned" Title IV federal financial aid be returned to the U.S. Treasury, even if the student is not entitled to a refund of tuition.

A student is required to immediately notify the Registrar when he or she stops attending classes. If the student fails to notify the Registrar's Office, it is possible that the 50 percent point in the term will be used to determine the student's last date of attendance, in accordance with federal regulations. If a student withdraws from all classes*, the Financial Aid Office will determine if that student's period of attendance resulted in the earning of all federal financial aid awarded for that term. If it is determined that not all the scheduled federal aid has in fact been earned, then the Financial Aid Office will calculate the amount to be returned to the federal financial aid programs. The Financial Aid Office will bill the student via his or her university account for the amount to be returned. It is the student's responsibility to contact the Cashier's Office to settle the bill.

**Note to students in modular programs: In a modular program, one or more of the student's enrolled courses do not span the length of the entire semester. Students in modular courses who withdraw from one or more courses, but are still registered for future courses within the term, will be required to confirm their future enrollment plans. For students who fail to confirm or fail to re-enroll, the Financial Aid Office will determine whether you have completed module(s) that contain 49 percent or more of the number of days in the payment period. If you have completed 49 percent or more, you are not considered to have withdrawn for R2T4 purposes. If you have completed less than 49 percent, the Financial Aid Office will calculate the portion of your financial aid that has been earned based on your latest date of attendance. Refunds to the U.S. Treasury may be required.*

Additional Responsibilities of Students Who Withdraw

Any time a student withdraws from one or more courses, the student should consider the potential effect on his or her Satisfactory Academic Progress (SAP) status. Please review the SAP section for more information about SAP requirements.

Whenever a student's enrollment drops to less than half time or the student withdraws completely, or if a student takes a leave of absence, he or she must notify the lender, holder or servicer of any loans. Student borrowers of federal or university loans must also satisfy exit loan counseling requirements at studentloans.gov.

It is also the student's responsibility upon withdrawal from all classes to notify the Student Financial Services Office, the Housing Services Office, the Transportation Services Office and/or the USCard Office, if the student has charges from these offices on his or her student account. Students who have withdrawn from studies may be entitled to a prorated cancellation of charges from these offices.

Leave of Absence

Financial aid recipients considering a leave of absence should be aware of the financial aid implications. Although obtaining an approved leave of absence from their programs does allow students to re-enroll in the university without formal re-admission, it does not allow them to avoid Return to Title IV calculations or defer their loan repayment. The university reports student enrollment to the National Student Clearinghouse throughout the academic year. Lenders and federal loan service agencies subsequently query this database to determine if a student has maintained continuous half-time or greater enrollment.

Student Loan Repayment

If students are on a leave of absence from the university, their lender or federal loan service agency will move their loan from an "in-school" status to a grace or repayment status as required. While on a leave of absence, students may be able to postpone

repayment by obtaining a deferment or forbearance from their loan servicer(s) as a result of unemployment or economic hardship. Students should contact their loan servicer(s) for more information about loan repayment. Students may review their federal loan history and determine their loan service agencies by visiting the Federal Student Aid website at studentaid.gov. Once they re-enroll at a half-time or greater basis, they may be able to request deferment for "in-school" status.

Tuition Refund Insurance Plan

To complement its own refund policy, the university makes available to students Tuition Refund Insurance, an insurance policy designed to protect the investment students and their families make in education. The Financial Aid Office strongly encourages all financial aid recipients to take advantage of this plan. If a student formally withdraws from all classes after the end of the drop/add period and he or she is covered by Tuition Refund Insurance, the student may receive:

- A credit to his or her student account equal to 100 percent of charges for tuition and mandatory fees for the term, if the withdrawal is the result of documented personal illness or accident; or
- A credit to his or her student account equal to 80 percent of the charges for tuition and mandatory fees for the term, if the withdrawal is the result of a documented mental/nervous disorder.

The Tuition Refund Insurance credit will be applied first to any outstanding charges on the student's university account, including any charges resulting from the required Return of Title IV Funds (R2T4) to the federal student aid programs for the term. Recipients of university and/or federal financial aid will then receive a cash refund equal to the amount of cash payments made to the account for the term, plus any loan disbursements for the term still on the account (after all returns of Title IV aid have been made in accordance with federal policies, if applicable). The remainder of the insurance credit will be used to repay university financial aid grant or scholarship programs.

Brochures about Tuition Refund Insurance requirements and claim forms are available in the Cashier's Office and the Registrar's Office. All questions about the insurance plan should be directed to these offices.

Notes on Federal Policy

Title IV Federal Student Aid

Students are considered recipients of Title IV federal student aid if they have received funds from one or more of the following programs to meet educational expenses for the semester in question: Federal Pell Grants, Federal Supplemental Educational Opportunity Grants (SEOG), Direct Loans (Subsidized or Unsubsidized), or Direct Graduate or Parent PLUS Loans.

FAFSA and Verification

The deadline for receipt of a 2021-22 FAFSA by the Department of Education is June 30, 2022. To receive financial aid funds a complete valid FAFSA must be received at USC by the last day of the student's 2021-22 enrollment.

Financial aid applicants selected for verification are required to submit documentation before any financial aid funds will be awarded or disbursed. The deadline to submit verification documentation is 20 days after the student's last date of enrollment for 2021-22, or September 17, 2022, whichever is earlier. USC will continue to accept verification documentation until this date.

Applicants are notified of any changes to their financial aid eligibility on their Financial Aid Summary and Tasks (FAST) page. The FAST page also indicates any outstanding documentation or tasks that need to be completed for aid to be processed or disbursed.

Period of Enrollment

At USC, the periods of enrollment are generally measured using the session(s) in which the student enrolled on a semester basis, starting on the first day of classes and ending on the final day of examinations for a given term. For purposes of Title IV federal student aid, any scheduled break of five or more days will not be included in the measurement of the enrollment period. For programs offered in modules (sessions that do not span the entire length of the semester), breaks of more than five days between modules will not be included in the measurement of the enrollment period.

Measurement of Earned Title IV Federal Student Aid

When a student withdraws from all classes, or withdraws from one or more classes while attending a modular program, the Financial Aid Office will calculate the percentage of earned Title IV federal student aid using the date of withdrawal. The earnings calculation is based on the number of days of enrollment, up to and including the day of withdrawal, divided by the total number of days in the enrollment period. In most cases, when a total withdrawal is determined to occur on or before the 60 percent point in a semester, some federal aid will need to be returned.

Return of Title IV Federal Student Aid

To satisfy federal regulation, returns to Title IV financial aid programs must be made in the following order:

- Direct Unsubsidized Loans
- Direct Graduate PLUS Loans
- Other Title IV Federal Programs

Financial Aid Policy Regarding Falsification of Financial Aid Information

The types of information covered by this policy include all documents and information submitted to apply for and/or receive need-based financial aid, scholarships, federal student and parent loans, and private financing funds. These documents and information include, but are not limited to, the following:

- Free Application for Federal Student Aid (FAFSA)
- Student Aid Report (SAR)
- Financial Aid Supplement
- Federal income tax forms and other income documentation
- Documentation of U.S. citizenship or eligible non-citizen status
- Documentation of housing/living arrangements
- Academic documents relating to high school diploma or college course work
- Loan applications, promissory notes and related documentation
- Specific program applications
- Federal Work-Study time sheets
- Any university financial aid forms and related documentation
- Any written, electronic or verbal statements sent to or made to a university employee regarding the student's financial aid application or other financially related documents

The integrity of the documents and the honesty of the information presented through them are critical to the financial aid process. Students should be aware that they will be held responsible for the integrity of any financial aid information submitted either by them or on their behalf.

If the university determines that a student or parent has provided falsified information, or has submitted forged documents or signatures, the following steps may be taken without prior notification to the student or parent:

1. An incident report will be filed with USC's Office of Student Judicial Affairs and Community Standards following procedures outlined in the University Student Conduct Code. Pending resolution of the complaint, the Financial Aid Office may restrict the distribution of any further aid to the accused student.
2. If the Financial Aid Office or the student conduct review process finds that a violation has occurred, the

consequences may include, but are not limited to, the following:

- The student will be required to make full restitution of any and all federal, state, private and/or university scholarship, grant, loan or work funds to which he or she was not entitled.
- Until full restitution is made, all federal, state and university funds will be withheld from the student, including all funds disbursed in past or in current terms.
- No arrangements will be made with the Cashier's Office or Collections Office on the student's behalf to settle their account. The student will be responsible for all charges incurred on the student's account because of the loss of federal, state or institutional financial aid funds.
- If the student is determined to be ineligible for financial aid because of a basic eligibility criterion, no further federal, state or university funds will be provided to the student in any future terms of enrollment at the university.
- The student may be ineligible for future participation in some or all financial aid programs for a minimum of one year or longer. In some cases, the student will not be eligible to receive funds from that program in any future terms of enrollment at the university.
- The student will not receive funds to replace those lost because he or she is considered ineligible due to dishonesty.

3. In addition to any consequences directly related to the student's financial aid, the student may be assigned disciplinary sanctions as described in the Student Conduct Code (11.80).
4. As required by federal and state law, the USC Financial Aid Office will report any infraction to the appropriate office or agency. These include, but are not limited to, the U.S. Department of Education Office of the Inspector General, state agencies or other entities that may take whatever action is required by federal and state law. In this report, the Financial Aid Office will describe in detail the incident, the response from the Financial Aid Office and any additional actions taken by or pending with the university.

Satisfactory Academic Progress (SAP) Policy

Purpose of SAP Regulations

To be eligible for federal financial aid, graduate and professional students are required by the U.S. Department of Education (34 CFR 668.34) to maintain Satisfactory Academic Progress toward their program objectives. USC has established this SAP policy to ensure student success and accountability and to promote timely advancement toward program objectives.

The following guidelines provide academic progress criteria for all graduate and professional students receiving financial aid at USC. These guidelines are based on reasonable expectations of academic progress toward a program objective and should not be a hindrance to any student in good academic standing.

Table 1
Programs Subject to Financial Aid SAP Policy

Federal Programs	
Federal Work-Study	Loans for Disadvantaged Students
Direct Unsubsidized Loans Direct Graduate PLUS Loans	Health Professions Student Loans
Scholarships for Disadvantaged Students	Primary Care Loans

Table 2
Programs Not Subject to Financial Aid SAP Policy

USC and Outside Programs*	
USC Merit Scholarships	USC Alumni Scholarships
USC Topping Scholarships	USC Departmental Awards
USC Assistantships	USC Employee Tuition Assistance Benefits
Sponsored Agency Awards (Including Department of Defense and Veterans Awards)	Outside Agency Scholarships

**Recipients of these awards should contact the awarding agencies/departments for rules governing award retention.*

Definition of Graduate SAP

To be eligible for financial aid as identified above, a graduate student must maintain SAP as defined by all of the following three criteria:

- Grade Point Average (GPA): You must meet a minimum cumulative GPA each enrolled semester
- Pace of Progression: You must successfully complete a minimum of 67 percent of all cumulative attempted* units each enrolled semester. This Pace of Progression ensures completion of the degree within the Maximum Time-Frame.
- Maximum Time-Frame: You must complete your degree within a specified amount of time. The Maximum Time-Frame is based on the published length and unit requirements for your degree program(s). You will be eligible for the maximum attempted units or the maximum SAP semesters, whichever comes first.

If you do not meet the Pace of Progression or GPA requirements, or if you have reached the Maximum Time-Frame, you will be ineligible for further financial aid without an approved, written SAP Appeal.

The Financial Aid Office will never increase the Maximum Time-Frame past 150 percent of the published degree requirements. As soon as a student is mathematically incapable of completing a degree program within 150 percent of the published requirements, the student will be ineligible for financial aid from that point forward.

Grade Point Average (GPA) Requirement

Graduate and professional students must maintain a minimum cumulative GPA of 3.0. In some cases, the University Committee on Curriculum has approved different GPA requirements for professional schools including but not limited to the programs in the following table. To confirm your own program's specific GPA requirements, please inquire with your academic department.

Table 3
Exceptional Grade Point Average Requirements for Graduate/Professional Programs

Program of Study	Program of Study Code	GPA Requirement
Alternative Dispute Resolution (GCRT)	1564	2.6
Alternative Dispute Resolution (LLM)	1636	2.6
Business Administration/Pharmacy (MBAD)	799	2.5
Business Law (On Line) (GCRT)	1573	2.6
Clinical and Experimental Therapeutics (PHD)	1376	2.5
Compliance (On Line) (GCRT)	1670	2.6
Dentistry (DDS)	414	2.0
Dentistry (Dentistry-International) (DDS)	428	2.0
Dispute Resolution (MDR)	1658	2.6
Entertainment Law and Industry (GCRT)	1672	2.6
Financial Analysis and Valuation (GCRT)	1340	3.6
Financial Compliance (GCRT)	1729	2.6
Gerontology (GCRT)	633	2.5
Gerontology/Juris Doctor (MS/JD)	1012	2.9
Human Resources Law and Compliance (GCRT)	1727	2.6
International Business and Economic Law (LLM)	1741	2.6
Juris Doctor/Business Administration (JDMBA)	715	2.9
Juris Doctor/Communication Management (JDCMG)	1326	2.9
Juris Doctor/Communications Management (JDMA)	785	2.9
Juris Doctor/Pharmacy (JDDP)	1154	2.9
Juris Doctor/Public Administration (JDMPA)	1131	2.9
Juris Doctor/Public Policy (JDMPP)	1119	2.9
Law (JD)	379	2.9
Law (LLM)	394	2.6
Law (MCL)	1270	2.6
Law (On Line) (LLM)	1528	2.6
Law/Business Taxation (JDMBT)	723	2.9
Law/Economics (JDMA)	724	2.9
Law/International Relations (JDMA)	783	2.9
Law/Philosophy (JDMA)	952	2.9
Law/Real Estate Development (JDRE)	1140	2.9
Law/Religion (JDMA)	784	2.9
Law/Social Work (JDMSW)	778	2.9
Pharmacy (PHARD)	1312	2.5
Pharmacy and Global Medicine (PDMS)	1479	2.5
Pharmacy/Gerontology (PHRMS)	1220	2.5
Pharmacy/Healthcare Decision Analysis (PHMS)	1548	2.5
Pharmacy/Pharmaceutical Sciences (PHPD)	902	2.5
Pharmacy/Public Health (PHMPH)	1185	2.5
Pharmacy/Regulatory Science (PHMS)	1328	2.5
Physical Therapy (DPT)	979	2.75
Physical Therapy (On Line) (DPT)	1704	2.75
Studies in Law (On Line) (MSLW)	1633	2.6
Studies in Law (On-Campus/Residential) (MSLW)	1722	2.6
Summer Master of Laws (LLM)	1639	2.6
Taxation (LLM)	1379	2.6
Transnational Law and Business (GCRT)	1699	2.6

Students with No Graduate GPA

Students enrolled in progressive degree programs who are currently classified as undergraduate students (see the Financial Aid for Enrollment in a Progressive Degree Program section above) must maintain a minimum cumulative undergraduate GPA of 2.0. Progressive Degree students who are currently classified as graduate students must maintain a minimum cumulative graduate GPA of 3.0, or the exceptional minimum cumulative GPA respective to their graduate program as listed above.

Students who have no GPA because all their course work has been taken as Credit (C)/No Credit (NC) or Pass (P)/No Pass (NP) are considered to have a sufficient GPA as long as they have no grades of NC or NP. A grade of In Progress (IP) is also considered a passing grade.

Refer to Tables 4 and 5 to understand how specific grades and course types affect students' cumulative grade point averages:

Table 4
Impact of Grades on Graduate Cumulative SAP GPA

Grade Earned	Counted in Grade Point Average
A, B, C, D, F (+/-)	Yes
CR — Credit, P — Pass, IP — In Progress	No
NC — No Credit, NP — No Pass	No
IN — Incomplete	No
IX — Expired Incomplete	Yes
W — Withdrawal	No
UW — Unofficial Withdrawal	Yes
V — Audit	No
NS — Not Submitted	No
MG — Missing Grade	No

Table 5
Impact of Course Type on Graduate Cumulative GPA

Course Type	Counted in Grade Point Average
Preparatory course work (including all undergraduate course work regardless of course level)	No
Repeated course work (previous passing grade)	No
Repeated course work (previous failing grade)	Yes (both grades counted)
Transfer course work (pre- and post-matriculation)	No

For more information about grading policy, visit the USC Department of Grades on the Registrar's website at usc.edu/grades.

Pace of Progression Requirement

Graduate and professional students must successfully complete a minimum of 67 percent of all cumulative attempted units each enrolled semester. This Pace of Progression ensures completion of the degree within the Maximum Time-Frame.

Pace of Progression is calculated by dividing the cumulative number of units the student has successfully completed by the cumulative number of units the student has attempted.

For the purposes of Pace of Progression and Maximum Time-Frame, "attempted units" includes most types of course work in which you are enrolled past the course's deadline to drop and receive a tuition refund. After this deadline, "dropped" course work is considered withdrawn units attempted for the purposes of SAP, even if the withdrawal does not result in a "W" mark on your transcript. To verify your course session's deadline to drop for a tuition refund, please refer to the USC Schedule of Classes at classes.usc.edu.

Courses that are successfully petitioned for deletion through the Office of Academic Records and Registrar will be considered neither attempted nor completed for the purposes of Pace of Progression and Maximum Time-Frame.

Review Tables 6 and 7 to understand how grades and course types will affect the Pace of Progression calculation:

Table 6
Impact of Grades on Pace of Progression and Maximum Time-Frame

	Pace of Progression		Counted Toward
Grade Earned	Units Completed	Units Attempted	Maximum Time-Frame
A, B, C, D (+/-)	Yes	Yes	Yes
CR, P	Yes	Yes	Yes
IN, IP, W, NS, MG	No	Yes	Yes
F, IX, NP, NC, UW	No	Yes	Yes
V	No	No	No

Table 7
Impact of Course Type on Pace of Progression and Maximum Time-Frame

Course Type	Pace of Progression		Counted Toward Maximum Time-Frame
	Units Completed	Units Attempted	
Graduate-level course work	Yes	Yes	Yes
Preparatory course work (including all undergraduate course work regardless of course level, taken for credit or no credit)	No	No	No
Repeated course work (previous passing grade)	Yes	Yes	Yes
Repeated course work (previous failing grade)	Yes	Yes	Yes
Transfer course work (pre- and post-matriculation)	Yes	Yes	Yes
Course work dropped after Last Day to Drop and Receive a Refund, but before Last Day to Withdraw without a "W" on Transcript	No	Yes	Yes
Course work successfully petitioned for deletion from the transcript by the Registrar	No	No	No

Maximum Time-Frame Requirement

Students must complete their program objective within a specified amount of time. The time-frame will depend on the student's enrollment status and educational objective. Students will be eligible for the maximum attempted units or the maximum SAP semesters, whichever comes first.

Changing Graduate Programs of Study at USC

Previous course work completed at USC as part of a prior program of study that can also be accepted toward the new program of study will be counted toward the current program's Maximum Time-Frame.

Students enrolled concurrently in multiple eligible graduate degree programs and/or eligible graduate certificate programs may be granted an increase in the unit and semester allowances commensurate with the additional program requirements.

Solely for the purpose of evaluating the SAP Maximum Time-Frame, the Financial Aid Office establishes the following guidelines on SAP semesters.

SAP Semesters for Doctoral Students

Each semester in which a doctoral student attempts 6 or more units, or attempts a full-time exception course as defined below, is counted as a full (1.0) SAP semester. Each semester in which a doctoral student attempts 3 to 5 units is counted as a half (0.5) SAP semester. Semesters in which a doctoral student attempts fewer than 3 units that are not full-time exception courses are not counted as SAP semesters.

SAP Semesters for Master's Degree and Graduate Certificate Students

Each semester in which a master's degree or a graduate certificate student attempts 8 or more units, or attempts a full-time exception course as defined below, is counted as a full (1.0) SAP semester. Each semester in which a master's degree or eligible graduate certificate student attempts 4 to 7.5 units is counted as a half (0.5) SAP semester. Semesters in which a master's degree or a graduate certificate student attempts fewer than 4 units that are not full-time exception courses are not counted as SAP semesters.

Full-Time Exception Courses

Other than the number of units attempted, there are additional circumstances that confer full-time enrollment status. These include enrollment in thesis or dissertation courses, courses with a prefix of 594, 694, 791, 794, 800 or 810 as well as other courses and programs as determined by the Office of Academic Records and Registrar. Any semester in which a student attempts a full-time exception course will be counted as 1.0 SAP semester, regardless of the number of units enrolled or concurrent course work.

Maximum Unit Allowance

Students pursuing graduate and professional degrees and eligible graduate certificates can apply for financial aid for up to the maximum number of units of course work required for the particular program of study, plus the equivalent units for one full-time semester course load (see Table 8). Due to program length, this allowance may not apply to some graduate certificate programs if it causes the Maximum Unit Allowance to exceed 150 percent of the program's published unit requirements.

Table 8
Full-Time Course Load for Determining Maximum SAP Units and Semesters

Program	Full-Time Course Load
Doctoral programs	6 units or exception course
Master's degree programs and graduate certificates	8 units or exception course

Maximum Semester Allowance

To determine the maximum number of full-time semesters of aid available for a graduate or professional program of study, divide the number of units required for the particular program by the full-time semester course load for that program according to Table 8. Due to program length, this allowance may not apply to some graduate certificate programs if it causes the Maximum Semester Allowance to exceed 150 percent of the program's published time-frame.

After rounding up to the nearest whole number, add one additional full-time semester to determine the maximum allowed for the program.

$$\text{Maximum SAP Semesters} = \frac{\text{units required for degree}}{\text{full-time course load}} + 1 \text{ full-time semester}$$

The *USC Catalogue* specifies a maximum time-frame for some doctoral programs. In such cases, maximum SAP semesters will be based on the catalogue rather than the calculation above.

Review the examples to understand how the maximum SAP units and semesters are calculated.

Example 1
Maximum SAP Semester and Unit Calculation for a Doctoral Degree

A doctoral program that requires 60 units for graduation:
Maximum SAP Semesters = 60 units/6 units+ 1 full-time semester
Maximum SAP Semesters = 10 + 1 full-time semester
Maximum SAP Semesters = 11 full-time semesters

Example 2
Maximum SAP Semester and Unit Calculation for a Master's Degree or Graduate Certificate

A master's or graduate certificate program that requires 28 units for graduation:
Maximum SAP Semesters = 28 units/8 units + 1 full-time semester
Maximum SAP Semesters = 4* + 1 full-time semester
Maximum SAP Semesters = 5 full-time semesters
**Rounded up from 3.5*

How and When Satisfactory Academic Progress is Monitored

The Financial Aid Office evaluates the three SAP criteria for graduate and professional financial aid applicants annually. The evaluation will occur after the end of the summer semester when the summer has been considered part of the prior academic year for financial aid purposes. Students who do not enroll in summer courses or whose summer is considered part of the upcoming academic year will be monitored at the end of the spring semester.

When a full-time graduate student can be expected to complete a program of study within one academic year (two semesters or fewer), the Financial Aid Office will evaluate SAP at the end of every enrolled semester. These programs generally include, but are not limited to, graduate certificate programs that can be completed in 16 units. Certain master's degree programs that require more than 16 units, but are designed to be completed within one academic year (two semesters), will also be evaluated after each enrolled semester.

Potential Delay of Disbursements Due to Monitoring of Satisfactory Academic Progress

Financial aid may not be disbursed to a student's account until SAP has been evaluated. The Financial Aid Office cannot complete the SAP evaluation until prior semester grades have been officially posted by the Office of Academic Records and Registrar. An otherwise eligible student may experience a delayed financial aid disbursement if grades are not made official before the beginning of the subsequent semester. No exceptions can be made to this process.

Notification of Satisfactory Academic Progress Status

Students who have successfully met SAP requirements will not receive a SAP notification. The Financial Aid Office will notify any student who does not meet SAP requirements via email at the student's USC email address. Students who are notified that they are SAP ineligible for financial aid should consult their academic advisers.

Failure to Maintain Satisfactory Academic Progress

There are no financial aid SAP Warning Periods for graduate/professional students who are evaluated annually.

Students who fail to meet GPA or Pace of Progression standards or who have reached the Maximum Time-Frame will be ineligible for financial aid without an approved, written SAP Appeal. The Financial Aid Office will never increase the Maximum Time-Frame past 150 percent of the published requirements for one undergraduate degree program. As soon as a student is mathematically incapable of completing a degree program within 150 percent of the published requirements, the student will be ineligible for financial aid from that point forward.

Regaining Financial Aid Eligibility

Regaining Financial Aid Eligibility with a Grade Change

Students who have lost financial aid eligibility as a result of insufficient GPA or Pace of Progression can be reinstated by a grade change if the grade change allows them to complete sufficient units and/or improve their GPA to meet stated requirements. The student must notify the Financial Aid Office in writing that the grade has been changed and requirements have been met.

Regaining Financial Aid Eligibility with an SAP Appeal for Maximum Time-Frame

Students who need additional time to complete their degrees must meet with their academic adviser to complete an SAP Appeal form. Students must also update their expected graduation date with the Office of Degree Progress. The Financial Aid Office may increase the maximum time-frame for students who have changed programs, are adding a program or have experienced a one-time extenuating circumstance such as illness or injury that has since been resolved. However, the Financial Aid Office will not approve any appeal when the additional time required for completing the program objective extends beyond 150 percent of the published requirements.

Regaining Financial Aid Eligibility with an SAP Appeal for GPA and/or Pace of Progression

Students who are not meeting Satisfactory Academic Progress GPA and/or Pace of Progression requirements may appeal to have their financial aid eligibility reinstated on a semester-by-semester basis. Students must meet with their academic adviser to complete an SAP Appeal Form. The following conditions can be considered in your appeal: extended illness, one-time extenuating circumstances that have since been resolved, and enrollment limitations due to academic advisement.

SAP Appeal Form and Letter

The student and adviser must submit a Satisfactory Academic Progress appeal form with complete supporting documentation to the Financial Aid Office. The SAP Appeal form must contain the specific academic plan for the student that the adviser has approved. For the appeal to be approved, the academic plan must lead to graduation within 150 percent of the published time-frame and unit requirements to complete the program objective. The student must also provide a written letter that addresses the reasons for the appeal.

Students requesting an extension past the Maximum Time-Frame should address the following points in their letters of appeal:

(1) What prevented the student from completing the program objective within the Maximum Time-Frame?

(2) How does the student intend to ensure completion of the program objective within no more than 150 percent of the published time-frame to complete the program of study?

Students appealing due to unsatisfactory GPA and/or Pace of Progress, or failing to meet the terms of an existing SAP contract, should address the following points in their letters of appeal:

(1) What caused the work at USC to fall below acceptable standards? Students should think carefully and provide a specific explanation.

(2) How have those conflicts been resolved?

(3) How will the student maintain good academic standards and progress toward the program objective if the appeal is granted?

Limitations on Approvals for SAP Appeals

The Financial Aid Office will never increase the Maximum Time-Frame past 150 percent of the published degree requirements for one graduate/professional degree or eligible graduate certificate. As soon as a student is mathematically incapable of completing the program objective within 150 percent of the published requirements, the student will be ineligible for financial aid from that point forward.

Notification of SAP Appeal Decisions

SAP Appeals will be evaluated and the Financial Aid Office will notify the student of the decision via the student's USC email address.

The Financial Aid SAP Contract

Appeals for insufficient Pace of Progression and GPA are approved through the use of a semester-by-semester SAP Contract. Appeals for extensions to the Maximum Time-Frame may also result in an SAP Contract to ensure completion within 150 percent of the published program time-frame. Students must adhere to the academic plan, and terms and conditions of the SAP Contract to maintain future financial aid eligibility. The Financial Aid Office will review a student's academic progress each semester to ensure they have met the specific terms of their contract.

The SAP Contract is a written agreement between the student, the academic adviser and the Financial Aid Office in which the student commits to following a specific academic plan that leads to graduation. Reinstated eligibility through a contract may alter the type and amount of the financial aid for which a student is eligible. Terms of the SAP Contract may be stricter than the standard SAP regulations cited in this section.

Acceptance of the approved SAP Contract supersedes all other SAP regulations. Any deviation by the student from the terms of the contract will result in the forfeiture of future financial aid eligibility.

Submitting SAP Appeals after Failing SAP Contract

Students on SAP Contracts as a result of an approved appeal who fail to meet the terms of their accepted SAP Contracts are ineligible for future financial aid, but may submit a subsequent SAP Appeal. However, these appeals are granted on an exception basis. Students will be required to document specifically the exceptional circumstances that caused them to fail their SAP Contract and how those problems have been resolved.

Financial Aid Application and SAP Appeal Deadlines

Any student who is appealing his or her Satisfactory Academic Progress status must meet all financial aid application deadlines and other eligibility requirements.

An SAP Appeal must be submitted before the end of the semester for which the aid is sought. **Financial aid cannot be reinstated retroactively for a past semester.**

Course Work Taken Elsewhere

Admitted students receive a transfer credit report showing unit and subject credit granted for graduate courses.

For course work taken at universities within the United States, the Degree Progress Department will prepare the transfer credit report. For course work taken at universities outside the United States, the Graduate Admissions Office will review the academic credentials and the academic department or program will determine subject credit granted.

Accreditation

The University of Southern California affirms the practice of accreditation of American post-secondary academic institutions by the six regional accreditation agencies: the Middle States Association of Colleges and Schools, the Higher Learning Commission, the New England Association of Schools and Colleges, the Northwest Commission on Colleges and Universities, the Southern Association of Colleges and Schools, and the Western Association of Schools and Colleges. Acceptance of course work and/or degrees completed by undergraduate and graduate students applying to the University of Southern California will generally be based on accreditation by these six agencies. Certain graduate schools, seminaries, conservatories and professional institutions of national renown that are not accredited by a regional agency may be considered for graduate transfer work by Transfer Credit Services in consultation with the USC department, program or professional school to which the student is applying.

Acceptance of course work and/or degrees from post-secondary institutions overseas will be based on the recognition and approval of the college or university as a degree-granting institution by the ministry of education within the respective country.

Proof of Prior Degree

Students applying for graduate degrees conferred by the Graduate School must hold a baccalaureate degree or its equivalent from an accredited college or university comparable in standard to that awarded at USC. Students who have earned a master's degree from an accredited U.S. institution with a GPA of 3.0 or higher may have the baccalaureate degree requirement waived after review. Diplomas granted for a preponderance of life experience, portfolio or equivalency examinations are not considered appropriate preparation for acceptance into USC's graduate degree programs and are not the equivalent of USC's undergraduate degrees. Verification of a completed undergraduate degree must be provided before enrollment in a second semester at USC.

Transfer Credit

Transfer of Course Work

The Degree Progress Department in the Office of Academic Records and Registrar determines whether course work taken elsewhere is available for transfer credit. Faculty of the student's degree program determine whether such credit is applicable toward a specific graduate degree, subject to approval by the dean of the degree-conferring unit. The faculty's decision should be made no later than the end of the first year in a master's program or the second year in a doctoral program.

Credit will only be allowed for courses (1) from an accredited graduate school, (2) of a quality of at least 3.0 on a 4.0 grading scale, (3) constituting a fair and reasonable equivalent to current USC course work at the graduate level and (4) logically fitting into the program for the degree. The university also evaluates courses completed through the armed services and may grant credit for such courses as detailed in the subsequent Credit for Military Education section (see below). Transfer course work is applied as credit (CR) toward the degree and is not included in the calculation of a minimum grade point average for graduation.

Graduate transfer credit will not be granted for life experience, credit by examination, extension courses not accepted toward a degree by the offering institution, correspondence courses or thesis supervision. Graduate transfer credit will not be granted for course work taken elsewhere after a student has been admitted and enrolled at USC unless the student receives prior written approval from the department. Students may not take courses elsewhere as a substitute for courses in which they have received grades that fail to meet departmental or university requirements.

Transfer work must have been completed within seven years of admission to a USC master's degree program (or 10 years for a doctoral program) to be applied toward that degree. Departments have the option of reevaluating transfer work when a student is readmitted to a USC graduate degree program. Requests for exceptions should be directed to the dean of the degree program for approval.

The faculty of a degree program may establish limits on the number of transfer credits stricter than those of the university, which follow:

1. Courses used toward a degree completed elsewhere may not be applied toward a master's degree at USC. If courses were not used toward a completed degree, the maximum number of transfer credits that may be applied toward a master's degree, subject to departmental approval, is no more than 25 percent of the minimum units required for the program. Except in formally designated dual degree programs, the same limits apply if a student wishes to apply credits from

any advanced degree previously completed at USC toward a master's degree.
2. A maximum of 30 units of transfer credit may be applied toward a doctoral degree.
3. It is not permitted to apply more than 6 units of transfer credit toward a doctoral degree with Advanced Standing. Admission with Advanced Standing is based upon a completed graduate degree. The only course work available for transfer credit is course work taken after completion of that degree. No exceptions are allowed.
4. A maximum of 4 units of transfer credit may be applied toward an approved dual degree program.

The University Committee on Curriculum (UCOC) must approve policies and procedures for considering individual exceptions within any specific program of study. Program exceptions to the transfer of course work policies require the approval of the UCOC and are listed in the departmental sections of this catalogue. Departments establishing lower maximum limits may waive their own policy (within the university's limits) by approval of the dean of the degree-conferring unit.

Credit for Military Education

Academic credit will be awarded for graduate level course work taken at a regionally accredited U.S. military institute/college upon receipt of official transcripts.

The university will also evaluate course work/experience completed through the armed services and may award credit for such courses if they meet the following criteria:

- Students must provide official Joint Services (JST) or Coast Guard Institute (CGI) transcripts to Degree Progress.
- Course work must be evaluated by ACE as graduate credit.
- Students must submit an articulation petition for each course in which credit is requested. Each petition must include a statement of faculty support.

USC will not grant credit for the following:

- DD-214 or DD-295.
- Course work not offered in an area of study taught at USC.
- Course work/experience not evaluated by ACE.
- DSST and CLEP exam scores.
- Other Learning Experiences (OLE's).

Application of Previous USC Course Work to a Current Degree

USC course work taken prior to matriculation to a current USC degree program must have been completed within seven years of admission or readmission to a master's degree program (or 10 years for a doctoral program) to be applied toward that degree. Exceptions require approval from the Vice Provost for Academic Programs.

Credit Evaluation

The purpose of the evaluation is to verify all previously earned degrees and may list graduate course work completed at other institutions which is available for consideration toward the USC degree. Students who intend to apply transfer course work toward a USC degree program can request a comprehensive credit evaluation through the Degree Progress Department. Only courses with a grade of B (3.0) and above are available for transfer. These courses do not apply toward a specific USC degree unless approved by the student's major department or program and school.

Concurrent Enrollment

If a student in a graduate degree program is simultaneously enrolled elsewhere, he or she may not seek to transfer credits to USC for those studies without advance permission from the dean of the degree program (except for concurrent enrollment at UCLA. See the Academic and University Policies section for details). Failure to secure such permission will result in invalidation of course work taken during periods of unauthorized concurrent enrollment.

Requirements for Graduation

Catalogue Regulations, Policies and Procedures

In addition to degree requirements outlined below, undergraduate and graduate students are also subject to current catalogue regulations, policies and procedures. Examples include, but are not limited to, the policies on the grades of incomplete (IN), missing grade (MG) and continuous enrollment for graduate students. Unlike degree requirements, changes in regulations, policies and procedures are immediate and supersede those in any prior catalogue.

Graduation Date

A student will be awarded the graduation date for the term in which degree requirements, including submission of supporting documents, have been met. Although course work may have been completed in a prior term, the degree will be awarded only for the term for which all academic and administrative requirements have been fulfilled. Application for the degree is a requirement for all graduate degrees. Students wishing to change the degree date from that indicated on the STARS Report may do so under Other Services in usc.edu/OASIS. Degrees are not awarded retroactively.

Discontinued Degree Programs

Students pursuing major programs that the university discontinues will be allowed to complete them within a specified time limit. The time limit will be specified at the point of discontinuance of a major program and begins at that point. It is determined according to the student's progress toward degree completion and will not exceed five years for any student.

Closed Record

The academic record of a student who has completed the program of study or ceased attendance is considered closed. Once a student's record is closed, no further additions or changes may be made. This includes, but is not limited to, such things as registering in additional course work, resolution of marks of incomplete (IN), missing grade (MG), etc.

Degree Requirements

All graduate students must meet both university degree requirements and those degree requirements specific to their program of study to receive an advanced degree. University degree requirements consist of grade point averages, unit, residence and time limit requirements. Degree requirements specific to a student's program of study consist of course, examination and research requirements. University degree requirements and degree requirements specific to the program of study are collectively defined as degree requirements. Graduate students may elect to follow (a) the degree requirements in the catalogue current for the semester of their admission to the degree program or (b) degree requirements in subsequent catalogues as long as they are continuously enrolled (see Continuous Enrollment). However, they may not mix catalogues. Graduate students who discontinue their enrollment without a leave of absence approved by the dean of the degree program (see Leave of Absence) will be subject to the degree requirements in effect for the semester of their readmission to the program. Students requesting exceptions to the catalogue year should petition the dean of the degree program.

Time Limit for Degree Completion

Students must maintain satisfactory progress toward their stated degree objective at all times. Progress is measured from the beginning of the first course at USC applied toward a specified degree, and all requirements for that degree must be completed within a specified time. The maximum time limit allowed for each degree is considerably greater than what is needed to complete all requirements. Departments may set more stringent time limits than those specified in this section.

The time limit for completing the master's degree is five years. The time limit for completing the doctoral degree is eight years. For students who earned an applicable master's degree within five years prior to admission to the doctoral program, the time limit for completing the doctoral degree is six years from the date of admission to the doctoral program. An academic department or program may grant an extension of one semester at a time, up to a maximum of two years. For PhD students all extensions must also have the approval of the dean of the degree program.

In unusual cases, a student's committee and the department chair or program director may petition the Graduate School for further extensions.

Students who have exceeded the time limit for completing their degree program will not be permitted any further registrations. If granted an extension of time, the dean of the degree-conferring unit will permit registration for the specified period of extension. Approved leaves of absence (up to a total of two years or four semesters) are not counted in the time allowed for completion of degree requirements.

The time limits apply unless otherwise designated by the faculty and previously approved by the University Committee on Curriculum for a particular degree program.

Progressive Degree Programs

Applicants for a progressive degree program will have completed at least 64 total units of undergraduate course work, excluding AP, IB or transfer units earned prior to graduation from high school. Applicants may apply in their junior (recommended) or senior year but no later than the semester prior to beginning graduate course work. Applicants do not have to submit GRE scores but are expected to have at least a 3.0 GPA at the time of application.

The Application for Admission to a Progressive Master's Program must be approved by the deans of the bachelor's and the master's degree-granting schools at USC and submitted to the Degree Progress Department. Refer to the Progressive Degree website for information about how to apply.

Progressive degree program students must fulfill all the requirements for both the bachelor's degree and the master's degree. The total number of units for the master's degree, however, may be reduced by a maximum of one-third. A minimum of two-thirds of the units required for the master's degree must be at or above the 500 level. Students will be subject to undergraduate academic progress standards while in undergraduate status and master's academic progress standards while in graduate status. The degrees may be awarded separately, but the master's degree will not be awarded before the undergraduate degree. The time limit for completing a progressive degree program is 12 semesters.

Financial aid eligibility differs for students in progressive degree programs. Please visit Financial Aid for Enrollment in a Progressive Degree Program for more details.

Additional information about specific progressive degree programs is listed in the corresponding school section.

Dual Degree Programs

Dual degree programs offer graduate students the opportunity to concurrently complete requirements for two degrees. Students enrolled in dual degree programs must complete all requirements for the dual degree program and then will be awarded both diplomas at the same time. The academic units that offer these programs frequently adjust the requirements for each degree to take into account the correlations between required course work. Students who have completed all the requirements for one of the degree programs and who decide to withdraw from the dual degree program may receive the appropriate single diploma. Students who have withdrawn from the dual degree program to receive the appropriate single diploma and later decide to complete the second degree must apply for admission, be admitted and then fulfill all requirements for the second degree. Detailed information regarding dual degree programs is listed in the appropriate school section.

Grade Point Average Requirement

At no time should the overall GPA drop below 3.0. A minimum grade of C (2.0) is required in a course to receive graduate credit. Work graded C- or below is not acceptable for subject or unit credit toward any master's or doctoral program. An overall grade point average of at least 3.0 on all units attempted at USC while a graduate student is required for graduation, whether or not all such units are applied toward the degree. In some cases, the University Committee on Curriculum has approved different GPA requirements for professional schools. The university will not deviate from policies governing the calculation of the grade point average through inclusion or exclusion of course work.

Unit Requirement

The course of study for the master's degree must include at least 24 units in required and elective courses. In addition, students in a program requiring a thesis must register for 4 units of 594ab Master's Thesis. The minimum unit requirement for a master's degree is established at the time the program is approved and may not be waived. At least 20 of these units must be completed at USC. The minimum number of units for a doctoral degree is 60, at least 24 of which (exclusive of Doctoral Dissertation 794) must be completed at USC. In addition, at least one-half of the total number of units applied toward a graduate degree must be completed at USC. The minimum number of units for a doctoral degree with Advanced Standing upon entrance is 36. No exceptions are allowed.

A department or school that has a graduate program approved by the university requiring a higher minimum may not waive that requirement. The unit requirement for a dual degree program is established at the time the program is approved by the university and may not be waived.

Regardless of the number of units specified in the university catalogue as required for a graduate degree, at least two-thirds of the units applied toward the degree (including transfer work and not including 594 or 794) must be at the 500 level or higher. Students with Advanced Standing in doctoral programs may not apply additional 400-level course work toward that degree; individual exceptions will not be allowed. Some degree programs, where designated by the faculty and approved by the University Committee on Curriculum, permit a higher maximum number of 400-level units.

Unit credit indicates the number of semester units earned in the course; these units may or may not be applicable to the degree. Degree credit indicates the units are applicable to the degree.

Residence Requirements

A minimum of 20 graduate units of USC course work is required for the master's degree; 24 units for the doctoral degree.

Each degree-conferring unit may establish a school residence policy. School residence requirements as presented in the *USC Catalogue* are approved by the University Committee on Curriculum and are to be interpreted consistent with university policies on continuous enrollment, leaves of absence, transfer of credit and time limits for completion of graduate degrees. Individual exceptions must be approved by the Vice Provost for Academic Programs.

Pass/No Pass Graded Work

Graduate students may elect to enroll in courses on a pass/no pass basis with department or program approval. Course work taken on a pass/no pass basis cannot be applied toward a graduate degree. If a student later requires the course for a degree program (because of a change in degree objective or a decision to obtain an additional degree), the degree-granting unit can decide to allow subject credit for the course and require a substitute course for the unit credit. Individual departments may have placed further restrictions on whether a course taken on a pass/no pass basis can be used to fulfill specific requirements.

All students should consult their academic advisers before enrolling in any course on a pass/no pass basis.

Substitution of Course Requirements

Students admitted to graduate degree programs are expected to complete the degree requirements listed in the USC Catalogue. A maximum of 25 percent of the stated degree course requirements (exclusive of 594 Master's Thesis and 794 Doctoral Dissertation) may be approved for waiver or substitution by other USC course work, directed research or transfer course work. Substitution of courses with the same prefix are exempted from this limit, as are transfer courses in the same discipline and graduate degree programs with three or fewer specified required courses as part of the entire degree program.

Individual academic programs/departments may approve substitutions and waivers within this limit for their programs. In rare instances, the program or department can request approval of additional substitutions from the dean of the degree program. Waivers or substitutions of over 25 percent should be very rare and will be periodically reviewed by the Vice Provost for Academic Programs.

Programs establishing a lower maximum substitution limit may waive their own policy by approval of the dean of the academic school. Waiver or substitution of course requirements does not reduce the minimum number of units required for the degree.

Second Master's Degree

A "second master's degree" is any master's degree pursued after a first master's degree is earned at USC. The maximum number of units that may be applied toward the second master's degree for course work taken from a first master's degree at USC is no more than 25 percent of the minimum units required for the program. Second master's degrees are not allowed in the same program of study for students who earned their first master's degree at USC.

For students who earned their first master's degree at another institution, no course work may be repeated from the first program of study and no unit credit from the first program of study may be counted toward the second master's degree. Subject credit could be awarded if approved through a petition process to the dean of the degree program. Program exceptions require approval of the University Committee on Curriculum and are listed in the departmental sections of this catalogue. No individual exceptions are allowed.

Enrollment Status

To be considered full time, a master's level student must be enrolled in a minimum of 8 units of 400- and 500-level course work, and a doctoral level student must be enrolled in a minimum of 6 units of 500-level and above course work. All graduate assistants are classified as full-time students during the semester(s) of their appointments as long as they are enrolled for the minimum units required for their assistantship. In order to make normal progress toward the timely completion of course work for a graduate degree, most students will be enrolled for 12 units; 16 units will constitute a maximum load. Students wishing to carry more than 16 units must have prior permission from the degree-conferring unit; such permission will be granted only in exceptional circumstances.

A student who has completed all course work for the master's degree will be considered full time when properly enrolled in either 594 Master's Thesis or GRSC 810 Studies for Master's Examination.

A student who has completed all course work for the doctoral degree (except dissertation registration) will be considered full time during the semester in which the student is preparing for the doctoral qualifying examination, provided the Appointment or Change of Qualifying Exam or Dissertation Committee form has been submitted and approved for that semester and the student is enrolled in the course GRSC 800a GRSC 800b GRSC 800z Studies for the Qualifying Examination. Students should not enroll in more than two semesters of GRSC 800a GRSC 800b. Students who need an additional semester — GRSC 800z — will receive a warning letter that includes clear conditions for continuation in the program, including benchmarks and deadlines. If these conditions are not met, the student may be dismissed. Doctoral students who have been advanced to candidacy, that is, who have completed all course work and have passed the qualifying examination, will be considered full time when properly enrolled in 794 Doctoral Dissertation. In addition to GRSC 800a GRSC 800b GRSC 800z /GRSC 810 and 594 Master's Thesis and 794 Doctoral Dissertation, there are several other courses and programs as determined by the Registrar of Academic Records and Registrar for which enrollment confers full-time status. Students should consult their academic unit for this information.

International students on student visas must be enrolled as full-time students or must receive authorization from the Office of International Services to enroll in fewer than the minimum units. Such students are not eligible to be considered students without formal registration and are in violation of immigration laws when not properly enrolled. Any international student having questions about his or her registration should consult the Office for International Services.

Continuous Enrollment

Students are considered to be pursuing advanced degrees only when they are formally enrolled. Students admitted to a graduate degree objective are required to be enrolled at USC for fall and spring semesters each year until all degree requirements have been satisfactorily completed within the time limit. Enrollment in graduate-level course work is necessary to meet this requirement. Graduate students who fail to register are no longer considered to be enrolled in a graduate degree program. After an unauthorized absence, formal readmission is required. Students who have been granted a leave of absence do not need to apply for readmission following the approved leave. Where appropriate to the design of a given academic program, the faculty of the program may obtain the permission of the University Committee on Curriculum for a different definition of continuous enrollment.

A master's candidate who is writing a thesis and has completed all course work for the degree must enroll in the appropriate thesis registration until the thesis has been approved. A doctoral candidate who has passed the qualifying examination must enroll each fall and spring semester in 794 Doctoral Dissertation until the dissertation has been approved. It is expected that students will enroll in no more than eight semesters of 794 Doctoral Dissertation. Please note that some courses with no academic credit require payment of tuition. Most classes with course numbers ending in z (e.g., 594z and 794z) require payment of 2 units of tuition.

Exceptions to continuous enrollment are subject to policies governing leaves of absence and readmission.

Leave of Absence

Interruptions of enrollment can cause problems in the continuity of course work within a student's graduate program and, therefore, leaves of absence are generally discouraged.

A student in good standing and making satisfactory progress toward a degree who must interrupt studies for compelling reasons may petition for a leave for a stated period, usually one semester.

Students with serious medical conditions should consult the Medical Leave policy, which is not the same as a general leave of absence. Students who find it necessary to be excused from registration must request a leave of absence by the last day to drop or add courses. The request should include a plan for academic progress upon return. A leave must be requested before the drop-add deadline and approved by the dean of the degree program, the committee chair and the department chair or program director, if applicable. During the period of leave, a student is not entitled to assistance from the faculty or use of university facilities. If granted, the leave is recorded on the student's transcript and the period of leave is not counted in the time allowed for the completion of degree requirements. Within the degree time limit, a leave of absence may be allowed for one semester at a time, up to a maximum of four semesters. A student who does not return to enrolled status at the end of an approved period of leave is no longer considered to be pursuing an advanced degree. Students who fail to apply for a leave of absence or for whom a leave has been denied (or has expired) are subject to policies governing continuous enrollment and readmission.

Financial aid recipients considering a leave of absence should be aware of the financial aid implications. For more information, refer to the Withdrawal Implications for Recipients of Financial Aid section in Financial Aid for Graduate Students.

Readmission

A student who leaves the university without obtaining a formal leave of absence from graduate study is not automatically readmitted. A student wishing to apply for readmission to a graduate degree program must first get the recommendation of the department chair or program director and submit an Application for Readmission to the dean of the degree program. However, if the cumulative GPA is below 3.0, or if readmission is sought after more than two years of an unapproved absence, the Application for Readmission must be sent to the Graduate School for approval. The readmission approval process must be completed by the first day of classes for the term in which resumption of graduate studies is sought. Approvals are to be based on the academic merits of the student's request and the likelihood of academic success and completion of the degree. If readmitted, the student will be subject to all of the current University Catalogue requirements for the degree in effect at the time of readmission. Individual exceptions to the *Catalogue* year require the approval of the dean of the degree program. Students seeking readmission after an absence of more than 10 years may be required to re-apply to the university.

A student may not be readmitted into a program of study that has been terminated. The student must either be subject to retroactive enrollment or admission to the new program of study with the corresponding catalogue requirements.

Comprehensive and Qualifying Examinations

In graduate degree programs that require a comprehensive examination and for all doctoral qualifying examinations, a student who fails the examination may be permitted, at the discretion of the faculty, to take it a second time. For time limits on retaking the comprehensive examinations, consult The Graduate School section of the Catalogue.

Requests for exception must be approved by the Graduate School.

A student may not take the comprehensive or qualifying examination more than twice and must be appropriately enrolled at USC during the semester in which any such examination is taken or retaken. A student who fails the comprehensive or qualifying examination a second time may not continue in the degree program after the end of the semester in which the second examination was taken. No exceptions are allowed.

Application for Graduate Degrees

Application for the degree is required for all graduate degrees. Application for the master's degree should be made in the student's academic unit in the semester preceding the one in which the student hopes to graduate and prior to enrolling in 594a. Application for the PhD should be made when the student has passed the qualifying exam and been admitted to candidacy. At least one semester prior to expected graduation, the student must contact his or her academic adviser and have the application submitted online. When the application is received by the Degree Progress office, a STARS report will be issued to the student. The degree cannot be conferred if no application has been submitted.

Theses and Dissertations

See the Theses and Dissertation section in The Graduate School section.

International Study

Graduate Study Abroad

The Graduate School provides referral to information sources about nationally competitive fellowships, grants, awards and opportunities for graduate study abroad.

Any non-USC administered overseas study programs or any courses taken abroad by currently enrolled USC students must be reviewed and pre-approved by the student's home program and school, and the Offices of Admission and Degree Progress prior to enrollment.

School Programs

Many schools and departments offer international study opportunities and internships. Refer to the school sections of the *Catalogue* for specific information.

Special Study Options

Center for Excellence in Teaching
Grace Ford Salvatori, Suite 227
(213) 740-9040
FAX: (213) 821-2474
Email: usccet@usc.edu
usc.edu/cet
Director: Ginger Clark, PhD

Mission

The Center for Excellence in Teaching (CET) promotes a vibrant culture of teaching and learning for the university community, for schools and for faculty by:

1. Ensuring that USC's core values and strategic priorities are reflected in the university's teaching mission.
2. Serving as a resource for developing, evaluating and rewarding teaching excellence.
3. Providing best practices in instruction and course design.

Strategy

Ensuring that USC's core values and strategic priorities are reflected in the university's teaching mission

CET serves as a resource for the university community by:

- Consulting on policies that elevate the status of teaching so that pedagogical best practices are a required component of academic achievement.
- Developing culturally responsive and evidence-based training for teaching.

- Supporting the cultivation of inclusive curricula and classroom environments, where diverse perspectives are both respected and challenged.
- Providing guidance on establishing and sustaining interdisciplinary approaches to education that lead to a convergence of knowledge and training.
- Offering support in incorporating civic engagement into curricula, leveraging Los Angeles in particular as a rich training ground for applying course content to real-world challenges.
- Providing guidance on distinguished teaching honors, hosting teaching conferences, administering innovation grants and seeding transformational teaching programs.

Serving as a resource for developing, evaluating and rewarding teaching excellence

CET serves as a resource for schools by:

- Providing assistance in establishing school-based plans for advancing teaching.
- Consulting on school-based teaching development, evaluation and reward infrastructure and resources.
- Training Faculty Fellows who will facilitate teaching development cohorts within their schools.

Providing best practices in instruction and course design

CET serves as a resource for faculty and future faculty by:

- Providing foundational principles of inclusive teaching, learning and best pedagogical practices through training and resource distribution.
- Training and supporting new and future faculty members as they establish their pedagogical practices.
- Offering confidential consultation and training opportunities.

Office of Postdoctoral Affairs
Grace Ford Salvatori, Suite 211
3601 Watt Way
Los Angeles, CA 90089-4019
(213) 740-5485
Email: postdocs@usc.edu
postdocs.usc.edu
Elizabeth Graddy, *Executive Vice Provost*
Robin Romans, *Associate Vice Provost for Academic Affairs*
Dan Carino, *Senior Manager for Postdoctoral Affairs*

A key component of USC's research engine is its postdoctoral workforce. Thus, building a vibrant postdoctoral scholars program is an essential part of the Provost's efforts to expand sponsored research. There are currently about 600 postdoctoral scholars across USC's academic units. From the time they arrive at USC through the end of their postdoctoral appointment, the Office of Postdoctoral Affairs provides support, resources and a suite of Provost Signature Programs that propel these young scholars toward careers as independent researchers, academics, and leaders of their chosen fields.

Supporting our postdoctoral workforce also provides an important opportunity to enhance diversity across the academy. And as we grow our community, we continue our mission and commitment to 1) promote and support the fair and equitable treatment of postdocs through the course of their career development and advanced training, 2) enhance their postdoctoral experience, and 3) cultivate a sense of community across USC.

For more information, visit the website at postdocs.usc.edu.

Graduate Degree Programs

The basic graduate degrees are the Master of Arts, Master of Science, the Doctor of Philosophy and the professional doctoral degree.

The Master of Arts degree is normally given for study in the humanities and social sciences. The Master of Science degree is normally given for study in the natural sciences and engineering. Other master's degrees are granted by USC for proficiency in professional fields. Master's degree programs are subject to the policies of the Graduate School.

All Doctor of Philosophy degrees must meet the standards of scholarship and other regulations established by the Graduate School. With the exception of Doctor of Dental Surgery, Juris Doctor and Doctor of Medicine, all professional doctoral programs are subject to the policies of the Graduate School.

University Certificates

In addition, the university also offers a number of graduate certificate programs. Graduate credit certificate programs must be approved by the University Committee on Curriculum and meet the following requirements: (1) a minimum of 12 units is required; the maximum number of units may vary; (2) for certificate programs of 16 units or fewer, all course work must be at the 500 level or above. For programs of more than 16 units, not more than 25 percent of the total units for the program may be at the 400 level; (3) for completion, a minimum cumulative USC grade point average of 3.0 must be achieved on all course work applied to the certificate; (4) all course work must be earned at USC, except for programs of more than 16 units, in which case not more than 25 percent of the course work may be transfer credit.

Area of Emphasis

An Area of Emphasis is a specific focus within a major that has been formally approved. Areas of Emphasis are listed within parentheses following the appropriate majors and do not appear on diplomas but are indicated on transcripts.

Dual Degree

A dual degree program joins two distinct graduate degree programs under a single, new program and POST (program of study) code. (Applicants to dual degree programs must apply separately to each degree and be admitted to both programs. After admission to both degree programs, the student is assigned the single, dual degree POST code.) Upon completion of the dual degree program, two degrees (and two diplomas) are awarded. Both degrees in a dual degree program must be awarded with the same conferral date.

Progressive Degree Programs

A progressive degree program enables a USC undergraduate to begin work on a master's degree while completing requirements for the bachelor's degree. The degree may be in the same or different departments but should be in a similar field of study. Students in a progressive degree program must fulfill all requirements for both the bachelor's degree and the master's degree except for the combined total number of units for the degrees. The master's degree may be awarded simultaneously with but not before the bachelor's degree is awarded.

Online Programs and Courses

The university does not distinguish online programs and courses from those offered on campus. Requests to provide information about which programs and courses are offered online will be denied.

The Graduate School

Administration

Andrew McConnell Stott, PhD, *Vice Provost for Academic Programs and Dean*
Meredith Drake-Reitan, PhD, *Associate Dean*
Laura Yoneda, *Associate Dean*

History

Graduate studies had their formal beginnings at the University of Southern California in 1910, and 1923 marked the official constitution of the Graduate School of the university.

Mission

The mission of the Graduate School is to promote a distinguished educational experience at the graduate level for an outstanding and diverse student body, to support and celebrate graduate student achievements, and to provide leadership in the establishment and communication of policies, standards, and processes related to graduate education.

The Graduate School awards fellowships to incoming PhD students who show outstanding promise, and provides advanced fellowships on a competitive basis to students who have done outstanding work in their programs at USC. The Graduate School also provides academic professional development activities for students across the university.

The Vice Provost for Academic Programs has academic oversight responsibility for all graduate programs at the university. Excellence in graduate and professional education is critically dependent on the exchange of scholarly ideas across a diverse community of faculty and students. The values that characterize these interactions include dedication to excellence, mutual respect, fairness, collegiality, honesty and integrity.

Graduate School Policies and Requirements

Admission

Admission to degree or certificate programs in the Graduate School is processed through the USC Office of Graduate Admission, which receives all applications, evaluates credentials and issues notification letters. Admission to the university, under the standards of the Graduate School, is decided by the appropriate academic department or program. With the exception of a few professional and online programs, only a letter from the Office of Graduate Admission grants official admission to a graduate degree objective in the university. The Graduate School establishes and monitors the standards under which students are admitted for study in degree programs. The following are the basic requirements: (1) a bachelor's degree or its equivalent from a regionally accredited college or university, comparable in standard to that awarded at USC; (2) for international applicants, a valid score on the Test of English as a Foreign Language (TOEFL), International English Language Testing System (IELTS), or Pearson Test of English (PTE); (3) intellectual promise, including evaluation of grade point averages (GPA) that indicates an ability to do acceptable graduate work; and (4) strong personal qualifications.

Credentials and academic records for admission must include a complete set of records of all previous college or university work. For applicants whose previous studies were conducted in a language other than English, the official original language academic records will likely be required in addition to full word-for-word English-language translations. These translations should be provided by either the originating institution or a certified translation service. Academic records must be registrar-issued and not marked unofficial or student-generated.

Applicants are advised that individual departments and programs may establish additional admission standards, such as requiring the submission of the appropriate GRE Subject Test or the submission of academic letters of recommendation directly to the department or program at USC. The applicant should contact the department or program of interest for information on additional required supplementary documents. See the departmental sections of this catalogue or visit the department or program website.

Graduate Record Examinations (GRE)

Applicants will also be asked to provide satisfactory scores on the Graduate Record Examinations (GRE), unless the program has received an exemption reviewed by the GRE Graduate Task Force and approved by the Vice Provost for Academic Programs.

Test scores on the GRE that are more than five years old at the start of the intended first term at USC are not accepted. Students are advised to repeat the GRE if they have not taken the test within five years.

Some programs may require other standardized test scores, such as the GMAT. They may also accept alternate test scores appropriate to the area of study, such as the MCAT. This will be advertised on the program's admissions requirement page.

English Proficiency

Graduate applicants are expected to demonstrate English proficiency as part of the application process. International graduate applicants must submit scores from the TOEFL (Test of English as a Foreign Language), IELTS (International English Language Testing System) or PTE (Pearson Test of English). USC does not set minimum scores for admission purposes. However, meeting university scoring standards is important for placement purposes, and will determine if an admitted international student is exempt from taking the International Student English (ISE) examination. International applicants are exempt from submitting English proficiency scores under certain circumstances. Please see the Graduate Admission website for more details. Official scores must be received electronically from the testing service, and tests must be taken no earlier than two years (24 months) prior to the start of the student's first term at USC.

Deadlines and Notification

The completed application for admission and all required supporting documents should be submitted to the Office of Graduate Admission based on the published deadline for the program of interest.

Some departments and programs only admit graduate students to begin study in the fall semester. Departmental and program deadlines are listed on the department or program websites as well as on the online application for each program. Unless an academic program advertises a different deadline, priority consideration for PhD student funding will be given to those applicants who submit all application materials by December 1. The university will continue to accept and consider graduate applications submitted after December 1.

The Office of Graduate Admission issues all decisions electronically. With the exception of a few professional and online programs, only a letter from the Office of Graduate Admission grants official admission to a degree objective in the university. Correspondence with department chairpersons, program directors or individual faculty members does not constitute admission.

Acceptance with a Degree Objective

Students will be admitted with a specified degree objective. Admission to a degree objective and permission to enroll does not imply that the student is or will be automatically guaranteed the right to continue in a degree program or to be a candidate for an advanced degree.

Exclusions on the Basis of Conduct Violations

Students previously expelled from the university for any reason are barred from re-applying to USC.

Applicants whose applications are found to include false information, falsified documents, and/or fraudulent test scores (collectively, "Fraudulent Applications") prior to receiving a decision

on their application will be summarily denied admission and barred from re-applying to USC. In the case of applicants who are found to have submitted a Fraudulent Application after receiving an offer of admission but prior to the first day of classes, the offer of admission will be revoked and the applicant will be barred from re-applying to USC, regardless of whether or not the applicant has accepted the offer. If the applicant has already paid an enrollment deposit, the deposit will be refunded. In the case of students who have already attended classes at USC, allegations of admissions violations will be reviewed in accordance with the USC Student Handbook.

Classification of Admission Status

Full Graduate Standing

Students who have been accepted for admission, have met all the basic admission requirements and filed all relevant documents with the Office of Graduate Admission are considered admitted to full graduate standing. Occasionally, applicants for admission may lack one of the qualifications listed above or may have difficulty producing appropriate documentation; such students may be enrolled with continuing registration requirements.

Continuing Registration Requirement

Students admitted with continuing registration requirements have not yet met all requirements for admission to full graduate status or have not filed all relevant documents with the Office of Graduate Admission. See the Graduate and Professional Education section for policies governing enrollment as a student with continuing registration requirements. Full graduate student standing is not granted until all registration requirements have been met within the time limit given.

Limited Status Students

Some students may wish to enroll in graduate-level courses for personal satisfaction or professional enhancement without currently seeking a graduate degree. Students may be permitted to enroll with permission from the department or program. Such students should obtain a special Limited Status form from the Office of Academic Records and Registrar at the time of registration. This will permit them to register in the classification of limited status. See the Academic and University Policies section for policies governing limited status enrollment. Limited status enrollment is not to be construed as admission.

Doctoral Admission with Advanced Standing

Students can be admitted with Advanced Standing (entry with an appropriate completed graduate degree from an accredited institution) to all programs in which the PhD degree is conferred by the Graduate School at USC with approval from the Vice Provost for Academic Programs. See the Transfer of Course Work section under Course Work Taken Elsewhere in Graduate and Professional Education for more information.

Advancement to Candidacy

Admission to graduate study does not imply advancement to candidacy for an advanced degree and gives no right or claim to be so admitted. Candidacy is determined after the student has demonstrated the ability to do graduate work with originality, excellence and independence at USC.

General Requirements for Graduate Degrees

The foundation for a master's or doctoral degree is a baccalaureate degree or its equivalent, comparable in standard to that awarded at USC, from a regionally accredited college or university. Many doctoral students will already have received a master's degree. Select doctoral programs at USC may require students to have a master's degree as an admission criteria.

University policies governing unit, grade point average and time limit requirements are stated in the Academic and University Policies section of this catalogue. Graduate students should also consult this section for policies on transfer of credit, concurrent enrollment, continuous enrollment, leaves of absence, readmission, and waiver and substitution of course requirements.

Unit Requirements

The course of study for the master's degree must include at least 24 units in required and elective courses. In addition, students in a program requiring a thesis must register for 4 units of 594ab Master's Thesis.

A minimum of 60 units of course work beyond the baccalaureate is required for the PhD degree, including research courses and 4 units of 794ab Doctoral Dissertation. No more than 8 units of 794 may be received or applied toward the degree.

A minimum of 36 units of course work beyond the first graduate degree, exclusive of 794 Doctoral Dissertation, is required for doctoral degree students admitted with Advanced Standing. Additional course work may be required if deemed necessary by the student's faculty.

Residence

Residence is a period of intensive study completed at USC. For the master's degree a minimum of 20 units of course work applicable toward the degree must be completed on the University Park and/or Health Sciences Campuses and/or at one of the university's approved off-campus study centers.

For the PhD degree, a minimum of 24 units applicable toward the degree, exclusive of 794 Doctoral Dissertation, must be completed on the University Park and/or Health Sciences Campuses. Internships, fieldwork and other off-campus experiences do not count toward residency.

It is not intended that the PhD degree be conferred as a certificate of residence, however faithful or extended, or as a certificate of the satisfaction of unit requirements, which are to be regarded as largely preliminary. It has been found that the scholastic requirements for the degree cannot be completed in less than the equivalent of three full years of work devoted wholly to graduate study and research with appropriate facilities and under university supervision.

Exception to Graduate School Policy

Exceptions to certain policies and procedures governing Graduate School degree programs will be considered by the Vice Provost for Graduate Programs upon the submission of a specific request supported by adequate reasons, information and documentation, if needed. The signatures and recommendation of the faculty adviser or committee chair, the department chair or program director, and, in some cases, the dean of the degree program, are required. Requests must be initiated and submitted on behalf of the student by the department's or program's staff adviser. After training on the Graduate School's online request system, advisers may access the necessary forms through the Graduate School's website.

Academic Warning and Dismissal

Faculty advisers and departments and programs take factors other than satisfactory grades and adequate GPAs into consideration in determining a student's qualifications for an advanced degree. A student's overall academic performance, specific skills and aptitudes, and faculty evaluations will be considered in departmental or program decisions regarding a student's continuation in a master's or doctoral degree program.

Satisfactory progress toward an advanced degree as determined by the faculty is required at all times. Students who fail to make satisfactory progress, will be informed by their department chair, program director, committee chair or school dean. The faculty has the right to recommend at any time after written warning that a student be dismissed from a graduate program for academic reasons or that a student be denied readmission.

General Requirements for Progressive Degree Programs

A progressive degree program enables a USC undergraduate to begin work on a master's degree while completing requirements for the bachelor's degree. The degree may be in the same or different department or program but should be in a similar field of study. See the Graduate and Professional Education section for detailed information.

Departmental Requirements

The requirements and regulations set forth in this portion of the catalogue are to be construed only as minimal requirements established by the Graduate School. In addition, the student is obligated to meet all the requirements established by the individual department or program as described in the departmental sections.

Advisement and Program of Study

Academic advisement of entering graduate students will be provided by a designated faculty member in the student's home department or program. Ideally, during the first semester of graduate enrollment a formal program of study should be developed and agreed upon in writing. This academic plan should include: (1) the sequence of required and elective courses, with a diversity of faculty instruction and a reasonable balance between course work and directed research appropriate for the degree; (2) evaluation of available transfer credit for application toward the degree; and (3) the schedule and procedures for departmental or program evaluation of the student. The program of study should be on file in the student's department or program and may be modified in keeping with the student's progress toward the degree objective. This should become the responsibility of the student's qualifying exam committee when it has been established.

Foreign Language/Research Tool Requirements

Although the Graduate School does not require a foreign language examination, some departments and programs do have specific language requirements for their graduate programs.

The foreign language requirement is determined by the individual departments, programs or schools, subject to approval by the University Committee on Curriculum. For the PhD student, these requirements should be met well in advance of the qualifying examination.

When proficiency in a foreign language or a research tool is required, the evidence attesting to proficiency may not be more than five years old. This regulation applies regardless of the form of the evidence.

For specific information, see Foreign Language/Research Tool Requirement under the appropriate department and program sections of this catalogue.

General Requirements for the Master's Degree

Course Requirements

The Graduate School confers the master's degree upon the satisfactory completion of a carefully planned curriculum. A comprehensive examination or summative experience may replace a thesis in certain departments and programs. A student must enroll in GRSC 810 during the semester in which the comprehensive examination is to be taken if not otherwise enrolled. Consult the appropriate departmental section of this catalogue for specific course requirements.

For those master's degrees not conferred by the Graduate School, the degree-conferring school determines if a thesis, comprehensive exam or other summative experience is required.

When the summative experience is not a thesis or comprehensive examination, the nature of the summative experience needs to be explicitly defined including the method by which the student's performance will be assessed and how the results of that assessment will be recorded. The summative experience requirement will often be satisfied by passing a course designed specifically for this purpose.

See Transfer of Course Work in the Course Work Taken Elsewhere section for the maximum number of units of transferred course work that may be applied toward a master's degree. Except in formally designated dual degree programs, this same policy regulates the number of credits that may be applied toward a master's degree from an advanced degree previously completed at USC.

Master's Committee

The student's master's committee directs the student's program of study and thesis and/or comprehensive examination. The master's committee consists of at least three and no more than five members. At least two of the members must be full-time faculty in the student's home program, and may be tenured, tenure track or RTPC (research, teaching, practice, clinical). The committee chair must have an appointment in the student's program. All committees must have a majority of members from the student's home program. A member may be another faculty member from the student's home program, an outside member from another program at USC, or an external member who is either faculty at another institution or a significant practitioner in the field. If a member is external to USC, the external member's CV must be uploaded with the appointment of committee form.

Application for the Master's Degree

At least one semester preceding the one in which the student expects to receive the degree and prior to registration in 594a Master's Thesis, the student should ask the academic department or program to request an online degree check from Degree Progress. Application is made online by the academic department or program and then transmitted to the Degree Progress Department following approval of the program of studies by the student's home department. Degree Progress will prepare a Degree Audit Report (STARS Report) reflecting course work and requirements completed and those remaining to be met.

Master's Examinations

A student who fails the master's examination may be permitted, at the discretion of the faculty, to take it a second time. The retaking of a failed master's examination must be completed before the end of the second consecutive semester (excluding summer session) following the first examination. Requests for exception must be approved by the department chair or program director. A student may not take the master's examination more than twice and must be appropriately enrolled at USC during the semester in which such an examination is taken or retaken. A student who fails the master's examination a second time may not continue in the degree program after the end of the semester in which the second examination was taken. No exceptions are allowed.

Master's Thesis

The thesis is supervised throughout its preparation by the student's master's committee. It is desirable for the student to have a conference with each committee member promptly following the approval of the topic. Thereafter, thesis work is normally under the immediate supervision of the committee chair. Final acceptance is based upon the unanimous recommendation of all members of the committee.

A student who is required to write a thesis must submit a satisfactory outline and comprehensive bibliography for the proposed thesis and demonstrate a mastery of the subject satisfactory to the master's committee. The student's thesis or master's committee is responsible for the content, adherence to departmental formatting requirements, and bibliographical consistency of the thesis.

During the five-year time limit allowed for completion of the degree and following the completion of all course work, the student must enroll in 594 Master's Thesis for two consecutive semesters and for each semester thereafter, until the thesis has been approved and the approval of the master's thesis form has been signed by the student's master's committee. Registration for the thesis in two semesters is the minimum requirement entitling the student to thesis supervision by the master's committee. No more than 4 units of credit in 594 may be received regardless of the number of semesters the student may be required to be enrolled. Students may not register for more than 2 units of 594 during a given semester; individual exceptions require the approval of the dean of the degree program.

Leave of Absence

Students who find it necessary to be excused from registration in 594 for a semester must request a leave of absence by petition to the dean of the degree program prior to the beginning of the semester. See Leave of Absence in the Financial Aid for Graduate Students section. Approval of the committee chair, department

chair or program director, and dean of the degree program are required. During a leave of absence students will not be entitled to assistance from the master's committee or to the use of university facilities. Considerations for approving a leave of absence include the student's progress to date in meeting the time schedules for the completion of degree requirements.

Final Approval of the Thesis

If a thesis defense is required: After the thesis defense has been completed and after the committee determines that no further changes are required of the thesis manuscript, each committee member electronically certifies on the Approval to Submit Defended and Final Copy of Master's Thesis form that: (1) the defense was appropriately rigorous; (2) the student's thesis is original and represents advanced scholarly work in keeping with the standards of the given field; and (3) the thesis defense process was fair and in keeping with USC's academic and ethical standards. This includes adherence to departmental formatting requirements. No changes can be made to the manuscript's content after the Approval to Submit form is complete. The Approval to Submit form is electronically available through Thesis Center, the Graduate School's online thesis and dissertation processing system.

Master's Thesis Submission

Master's thesis manuscripts must be submitted to Thesis Center on the Graduate School website. Please refer to the Theses and Dissertations section for information on the submission process.

General Requirements for the Doctor of Philosophy Degree

Qualified students will be received as applicants for candidacy for the Doctor of Philosophy degree with a major in departments and programs that are adequately equipped with staff, library and laboratory facilities to furnish the necessary training and opportunities for original research.

Screening Procedures

A screening examination or other procedure designated by the department or program is to be administered before the student has taken more than 24 units (including research courses). Passing this procedure is prerequisite to continuation in the doctoral program. Students who fail the screening procedure will be advised that they are not recommended to continue in the PhD program and that any additional work may not be counted toward the degree. Failure to undertake the screening procedure before completion of 24 units of course work may jeopardize additional units. Ideally, a faculty member will be appointed to serve as the student's adviser until the student establishes an approved qualifying exam committee.

Course Requirements

The subject or field of concentration is called a major. The major is usually a departmental major, although several interdepartmental majors have been authorized.

Undergraduate prerequisite and graduate course work will be required in accordance with the regulations of the major department or program and the recommendation of the student's qualifying exam committee. Consult the appropriate departmental section of this catalogue for specific course requirements.

Appointment of the Qualifying Exam Committee

The qualifying exam committee is responsible for supervising the student's preparation for the exam and for the fair and timely administration and evaluation of the written and oral parts of the examination. The Appointment or Change of Qualifying Exam or Dissertation Committee form, available on the Graduate School website, is used to establish the qualifying exam committee. The form requires the signature of each member of the committee, the department chair or program director, and the dean or dean's designate. The completed form is filed in the student's home department or program.

Qualifying Exam Committee

The qualifying exam committee is composed of five members. The committee chair and at least two additional members must have an appointment in the student's program.

Because the goal of USC PhD programs is to create scholars who will shape their fields in a wide range of settings, the university encourages PhD students to take advantage of the full array of faculty expertise available at USC. This includes the expertise of tenured, tenure track and RTPC (research, teaching, practice, clinical) faculty. A USC faculty member from outside the student's home program is called an "outside member." The committee may also include a faculty member from an institution other than USC, called an "external member."

Any faculty member – external, outside, or from the student's home program – who serves on PhD dissertation and qualifying exam committees must have a professional profile that demonstrates academic impact on the field in significant, measurable ways. The judgment about these qualifications will be made on the basis of hard evidence: for example, peer-reviewed publications in major journals and presses, grant funding, and exceptionally influential practice in a given field, taking into account the person's total career, current stage of career and any changes in performance in a more recent period.

Faculty who are evaluated on the basis of criteria other than those noted above will not normally be considered appropriate members of PhD and qualifying exam committees, except by explicit permission of the Vice Provost for Academic Programs acting on the advice of the dean of the school.

For faculty within the student's home program and external faculty members, qualification to serve will be judged by the dean of the school that houses the student's PhD program. The CV of the external member must be uploaded along with the Appointment of Committee form to Thesis Center and will become part of the official record.

For outside faculty – faculty outside the student's program but internal to USC – the judgment of qualification to serve will be made by the dean of the school of the outside faculty member's primary appointment.

Some schools and programs require "outside members," and others do not. If an outside or external member is required, this must be specified in the program's or school's section in the Catalogue.

Changes in Qualifying Exam Committees

The Appointment or Change of Qualifying Exam or Dissertation Committee form, available on the Graduate School Website, must be completed whenever a change is made in a qualifying exam committee. All such changes must be made in advance of the qualifying examinations. Informal substitutions for either the written or oral parts of the qualifying examination are not permitted. Changes in a qualifying exam committee are not permitted between the written and oral portions of the examination. The examinations must be scheduled at times when it is possible for all members of the committee, including the outside member, to participate. Changes made without the prior approval of the dean of the degree program are not recognized and may result in the invalidation of the examination.

A student may not change committee members after failing the qualifying examination the first time. The student must be reexamined by the same faculty on the same subject matter. If a faculty member is unable to serve on the committee (for example, due to serious illness, retirement or transfer to another institution), the dean of the degree program must be notified in writing in advance of the rescheduled exam in order to approve the change. The faculty replacement must be approved by the dean of the degree program and the student must file a change of committee form well in advance of the exam.

Qualifying Examination

The examination qualifying a student for candidacy for the PhD degree is designed to test the student's fitness to undertake independent research. It is comprehensive in nature and includes both written and oral parts.

Prior to taking the qualifying examination, the student must have met all of the university's and program's requirements for the PhD degree, except the dissertation and successful qualifying exam.

The student must have a GPA of at least 3.0 on all USC course work available for graduate credit and the approval of his or her qualifying exam committee to proceed to the exam. Students with a master's degree in the same or similar field may be approved to take the qualifying examination after the completion of 12 units and successful passage through the screening process. The GPA and qualifying exam committee approval requirements are the same as for students without a prior master's degree in the field of study. If not otherwise enrolled, a student must enroll in GRSC 800a and GRSC 800b Studies for the Qualifying Examination during the semester in which the qualifying examination is to be taken. Students are allowed to enroll in GRSC 800a and GRSC 800b Studies for the Qualifying Examination a maximum of three times, first in GRSC 800a, followed by GRSC 800b and, only if necessary, GRSC 800z.

Because two semesters of preparation for the qualifying examination should suffice in the vast majority of cases, programs with students enrolling in GRSC 800z will be required to get D-clearance from the Graduate School. In addition, the student's program will be expected to issue a warning letter laying out academic expectations and a path toward timely completion of the PhD.

The oral portion of the examination must be completed within 60 days of the submission of the completed written portion to the qualifying exam committee. If the student's written examination is satisfactory, the student may proceed to the oral portion of the exam. If additional material is to be covered in the oral portion, the student should be notified of the content expectations in advance. The oral examination is also administered on campus. For the PhD Qualifying Examination, a maximum of two committee members may participate remotely. Remote participation of a committee member should be indicated in writing on the Report on Qualifying Examination form. If the oral exam is delayed beyond the 60-day limit, the student may need to retake the written exam unless an exception is approved by the Vice Provost for Academic Programs.

There are three possible results of a qualifying exam:

- Pass, and proceed to candidacy based on a positive vote by members of the committee.
- Fail, with the option to retake either specific sections of the exam or the whole exam, at the discretion of the committee. The student may not be required to repeat parts of the qualifying examination that were passed on the first administration. The retaking of a failed qualifying examination or any portion of a qualifying examination must take place between one and six months from the date of the first examination. If not otherwise enrolled, the student must be enrolled in GRSC 800a and GRSC 800b Studies for the Qualifying Examination in the term in which any portion of the exam is repeated.
- Fail, with the result of dismissal from the program.

If the committee concludes that the written portion of the exam is so weak that the oral portion cannot counterbalance the poor performance, the student does not proceed to the oral and the exam is failed. The committee may provide the option of a retake, but is not required to do so. If the committee decides that a retake is not warranted, the student is dismissed from the program.

A student who fails the qualifying exam a second time is automatically dismissed from the program.

Report on the PhD Qualifying Exam

At the conclusion of the qualifying exam, each member of the committee is asked to certify on the Report on the PhD Qualifying Examination that: (1) the exam was appropriately rigorous; (2) the student's performance on the exam was at the doctoral level; and (3) the entire qualifying examination process was fair and in keeping with USC's academic and ethical standards. The Report on the PhD Qualifying Examination is available to graduate advisers on the Graduate School website in myGradSchool.

Advancement to Candidacy

Graduate students are officially advanced to candidacy for the PhD degree when they have completed the residency requirement and passed the written and oral portions of the PhD qualifying examination upon the favorable recommendation of the qualifying exam committee to the Graduate School.

Application for the PhD

After being advanced to candidacy, students must contact their academic department or program to initiate an online degree check that is transmitted to the Degree Progress Department. Degree Progress counselors prepare a Degree Audit Report (STARS Report) for each student listing any remaining requirements. The requirements will not be checked or the degree conferred if the student has not applied.

Dissertation Committee

The dissertation committee is appointed as soon as possible after the qualifying examination has been passed and a dissertation topic approved. The committee should be appointed at least one month before the dissertation defense. The Appointment or Change of Qualifying Exam or Dissertation Committee form, available on the Graduate School website, is used to establish the dissertation committee. The form requires the signatures of each member of the committee, the department chair or program director, and dean or dean's designate. The completed form is filed in the student's home department or program, and a signed copy provided to the student.

The dissertation committee is composed of at least three and no more than five members. The committee chair must have an appointment in the student's program. All committees must have a majority of members from the student's home program.

Because the goal of USC PhD programs is to create scholars who will shape their fields in a wide range of settings, the university encourages PhD students to take advantage of the full array of faculty expertise available at USC. This includes the expertise of tenured, tenure track and RTPC (research, teaching, practitioner, clinical) faculty. A USC faculty member from outside the student's home program is called an "outside member." The committee may also include a faculty member from an institution other than USC, called an "external member."

Any faculty member – external, outside, or from the student's home program – who serves on PhD dissertation and qualifying exam committees must have a professional profile that demonstrates academic impact on the field in significant, measurable ways. The judgment about these qualifications will be made on the basis of hard evidence: for example, peer-reviewed publications in major journals and presses, grant funding, and exceptionally influential practice in a given field, taking into account the person's total career, current stage of career, and any changes in performance in a more recent period.

Faculty who are evaluated on the basis of criteria other than those noted above will not normally be considered appropriate members of PhD and qualifying exam committees, except by explicit permission of the Vice Provost for Academic Programs acting on the advice of the dean of the school.

For faculty within the student's home program and external faculty members, qualification to serve will be judged by the dean of the school that houses the student's PhD program. The CV of the external member must be uploaded along with the appointment of committee form and will become part of the official record.

For outside faculty – faculty outside the student's program but internal to USC – the judgment of qualification to serve will be made by the dean of the school of the outside faculty member's primary appointment.

Some schools and programs require "outside members," and others do not. If an outside or external member is required, this must be specified in the program's or school's section in the Catalogue.

Final Approval of the Dissertation

After the dissertation defense has been completed, and the committee determines that no further changes are required of the dissertation manuscript, each member of the committee electronically certifies on the Approval to Submit Defended and Final Copy of Doctoral Dissertation that: (1) the defense was

appropriately rigorous; (2) the student's dissertation makes an original and substantial contribution to its field of study; and (3) the defense process was fair and in keeping with USC's academic and ethical standards. This includes adherence to departmental formatting requirements. No changes can be made to the manuscript's content after the Approval to Submit form is complete. The Approval to Submit form is electronically available through Thesis Center, the Graduate School's online thesis and dissertation processing system.

The committee must unanimously agree in order for the student to pass the defense.

Doctoral Dissertation

A dissertation is an original contribution to current knowledge in the field and a demonstration that the PhD candidate has achieved sufficient mastery in the field to pursue independent research and scholarship. A dissertation represents the individual candidate's research and writing. In fields where collaborative research has become the norm, the candidate is the sole author of the dissertation. Candidates must specify their contribution to the research and delineate colleagues' contributions.

Dissertations are expected to be written in English. Exceptions require the approval of the Vice Provost for Academic Programs or his or her designee prior to beginning the work and will be granted only when there is strong scholarly justification.

The student is expected to be enrolled in 794 Doctoral Dissertation each semester, except summer sessions, after admission to candidacy until all degree requirements are completed. Registration for 794 for the two semesters (excluding summer sessions) immediately following admission to candidacy is the minimum requirement entitling the candidate to dissertation supervision by the dissertation committee. Enrollment in 794 prior to admission to candidacy is not permitted and such registration is invalid. If the dissertation is not completed and accepted within two semesters the candidate must continue to register for 794 each semester thereafter until the dissertation has been approved and the approval of the PhD dissertation has been signed by the dissertation committee. Students are expected to complete and defend their dissertation in less than five semesters of 794. Students may enroll in 794 during one summer session but may not register for more than 2 units of 794 during a given semester; individual exceptions require the approval of the dean of the degree program. No more than 8 units of credit in 794 may be received, regardless of the number of semesters in which the candidate enrolls. Department or program approval is required for registration in 794.

Leave of Absence

A candidate who finds it necessary to be excused from registration in 794 for a semester must request a leave of absence by petition to the dean of the program of study prior to the beginning of the semester. See Leave of Absence in the Financial Aid for Graduate Students section. Endorsements from the dissertation committee chair and department chair or program director are required. During a leave of absence the candidate will not be entitled to assistance from the dissertation committee or to the use of university facilities. Considerations for approving a leave of absence include the student's progress to date in meeting the time schedules for the completion of degree requirements.

See the USC Policy website for more information about the Student Health Leave of Absence.

Defense of the Dissertation

After passing all required courses and the qualifying examination, and after meeting all other requirements, the candidate must write and defend the dissertation. The doctoral dissertation must be an original contribution to scholarship or scientific knowledge and must exemplify the high degree of scholarly advancement and power of investigation demanded by the university for final recommendation to the doctorate. The dissertation defense is the culminating activity in the assessment of whether this standard has been met.

While the oral examination is open to the general university community, only the members of the dissertation committee have the authority to recommend acceptance of the dissertation. Their recommendation must be unanimous. For the dissertation defense, one committee member may participate remotely. The committee chair and the student must be present, unless the relevant dean and the Vice Provost for Academic Programs provide express written permission for remote participation. Members who participate remotely will be noted on the dissertation Approval to Submit forms.

If the defense is satisfactory, the committee signs the electronic Approval to Submit Defended and Final Copy of Dissertation form. If additional work is required, the electronic form must be signed only after full completion. Departments and programs differ concerning the time of the defense of the dissertation. The student's dissertation committee is responsible for the content, adherence to departmental formatting requirements, and bibliographical consistency of the dissertation.

Dissertation Submission

Doctoral dissertation manuscripts must be submitted to Thesis Center on the Graduate School website. Refer to the Theses and Dissertations section for more information on the submission process.

Theses and Dissertations

Submission of Theses and Dissertations

Required documentation is electronically submitted to the Graduate School through Thesis Center, the Graduate School's online thesis and dissertation processing system, available on the Graduate School website. All documentation must be submitted by the deadline date and time. Documents are reviewed by the academic services coordinator. When the documentation is determined to be complete, the candidate is cleared to electronically submit the dissertation manuscript.

Required documentation for doctoral students includes: 1) the electronic "Approval to Submit Defended and Final Copy of Doctoral Work" form (also called the "Approval to Submit" form); 2) the "Appointment or Change of Qualifying Exam or Dissertation Committee" form and; 3) the electronic Certificate of Completion of the Survey of Earned Doctorates.

For master's students, required documentation includes: 1) the "Approval to Submit Final Copy of Master's Thesis" form and 2) the "Appointment or Change of Master's Committee" form.

The "Appointment or Change of Qualifying Exam or Dissertation Committee" form, and the electronic Certificate of Completion of the Survey of Earned Doctorates, required for doctoral students, are submitted as PDFs. The "Approval to Submit Defended and Final Copy of Doctoral Work" form is electronically available through Thesis Center.

Thesis/dissertation manuscripts may only be submitted after the required documentation has been submitted and reviewed. Required documentation and thesis/dissertation manuscripts are reviewed in the order received. Students have three months from the date the committee chair signs the "Approval to Submit" form to complete any required formatting corrections to Thesis Center.

Early Submission Option: Students who submit the necessary documentation according to the deadlines on the Thesis Center website will be exempt from the requirement to register for 594 or 794 in that semester. Otherwise, to maintain continuous enrollment, student must register for 594 or 794. International students considering the Early Submission Option should check with the Office of International Services to ensure the lack of course registration will not affect their visa status.

Acceptance by the University

The university must accept all theses and dissertations in an approved, final and electronic form before the degree can be conferred. The student's committee must have approved all documents before submission to the Graduate School. The student remains in contact with the Graduate School during the corrections process. Thesis manuscripts must be submitted to the

Graduate School through Thesis Center on the Graduate School website.

At the time of submission, all manuscripts should be formatted and edited according to the style determined by the student's department or program.

If the formatting of the manuscript requires corrections, the student makes the corrections and uploads a revised PDF of the manuscript for approval by the academic services coordinator. All revised manuscripts are processed in the order received.

After a manuscript has been approved by the academic services coordinator, the student uploads an identical copy of the final PDF of the manuscript to the USC Libraries.

Schedule of Deadlines

The Graduate School provides a schedule of specific dates for completing the thesis or dissertation submission for the student to qualify for graduation in the corresponding semester. These dates are published on the Graduate School website. Regardless of the date of submission, students must submit complete documentation and finish all corrections to the manuscript before the degree can be conferred. Upon completion of all requirements, the official USC transcript will serve as evidence of the degree until the diploma is received.

Publication

All theses and dissertations will be made available via the USC Libraries.

Thesis/Dissertation Fees

The doctoral candidate's fee of $115 covers USC Libraries and Graduate School processing fees. The master's candidate's fee of $105 covers USC Libraries and Graduate School processing fees. The fees are assessed by the academic services coordinator after the required documentation has been submitted, and the charges appear on the student's account.

Programs, Minors and Certificates

The programs marked with an asterisk fall under the jurisdiction of the Dornsife College of Letters, Arts and Sciences.

Bachelor's Degree

- Accounting (BS)
- Acting for the Stage, Screen and New Media (BFA)
- Aerospace Engineering (BS)
- American Popular Culture (BA)
- American Studies and Ethnicity (African American Studies) (BA)
- American Studies and Ethnicity (Asian American Studies) (BA)
- American Studies and Ethnicity (BA)
- American Studies and Ethnicity (Chicano/Latino Studies) (BA)
- Animation and Digital Arts (BA)*
- Animation and Digital Arts (BFA)

- Theatre, Technical Direction Emphasis (BFA)
- Urban Studies and Planning (BS)
- Visual and Performing Arts Studies (BA)*
- Writing for Screen and Television (BFA)

Combined Major

- Economics/Mathematics (BS)
- Linguistics and East Asian Languages and Cultures (BA)
- Linguistics and Philosophy (BA)
- Mathematics/Economics (BS)

Undergraduate Certificate

- Food Industry Management Program

Minor

- 3-D Animation in Cinematic Arts Minor
- 3-Dimensional Design Minor
- 3D Computer Graphics and Modeling Minor
- Accounting Minor
- Addiction Science Minor
- Advertising Minor
- American Popular Culture Minor
- American Studies and Ethnicity Minor
- Animation and Digital Arts Minor
- Applied Analytics Minor
- Applied Computer Security Minor
- Arabic Minor
- Archaeology Minor
- Archaeology of California Minor
- Architecture Minor
- Art History Minor
- Astronautical Engineering Minor
- Astronomy Minor
- Behavioral Economics Minor
- Biology of Human Movement Minor
- Biopharmaceutical Business Minor
- Biotechnology Minor

- Blockchain Minor
- Business Economics Minor
- Business Finance Minor
- Business Law Minor
- Business Minor
- Business Technology Fusion Minor
- Ceramics Minor
- Chemistry Minor
- Chinese for the Professions Minor
- Choreography for Stage and Screen Minor
- Cinema-Television for the Health Professions Minor
- Cinematic Arts Minor
- Classical Greek Minor
- Classical Perspectives Minor
- Classics Minor
- Cloud Computing with DevOps Minor
- Comedy (Performance) Minor
- Comedy Minor
- Communication Design Minor
- Communication Policy and Law Minor
- Communication Technology Practices and Platforms Minor
- Comparative Literature Minor
- Computational Biology and Bioinformatics Minor
- Computer and Digital Forensics Minor
- Computer Programming Minor
- Computer Science Minor
- Connected Devices and Making Minor
- Construction Planning and Management Minor
- Construction Planning and Management Minor (Public Policy)
- Consumer Behavior Interdisciplinary Minor
- Consumer Behavior Minor
- Contemplative Studies Minor
- Craniofacial and Dental Technology Minor
- Critical Approaches to Leadership Minor
- Cultural Anthropology Minor
- Cultural Competence in Medicine Minor
- Cultural Diplomacy Minor
- Cultural Studies Minor
- Culture, Media and Entertainment Minor
- Cultures and Politics of the Pacific Rim Minor
- Customer Analytics Minor
- Dance in Entertainment Minor
- Dance Minor
- Designing for Digital Experiences Minor
- Designing for Live Experiences Minor
- Designing Multimedia Experiences Minor
- Designing Products Minor
- Digital Studies Minor
- Disruptive Innovation Minor
- Documentary Minor
- Drawing Minor
- Dynamics in Workplace Communication Minor
- Early Modern Studies Interdisciplinary Minor
- Earth Sciences Minor: Climate Change, Stewardship and Resiliency
- East Asian Area Studies Minor
- East Asian Languages and Cultures Minor
- Economics Minor
- Education and Computing Minor
- Education and Society Minor
- Education Policy Minor
- Engineering Management Minor
- English Minor
- Enterprise Information Systems Minor
- Entertainment Industry Minor
- Entrepreneurship Minor
- Environmental Chemistry and Sustainability Minor
- Environmental Health Minor
- Environmental Studies Minor
- Folklore and Popular Culture Minor
- Food and Society Minor
- Forensics and Criminality Minor
- Foundation in Regulatory Sciences Minor
- Foundations of Data Science Minor
- French Minor
- Future Cinema Minor
- Game Animation Minor
- Game Audio Minor
- Game Design Minor
- Game Entrepreneurism Minor
- Game Studies Minor
- Game User Research Minor
- Gender and Sexuality Studies Minor
- Gender and Social Justice Minor
- Geobiology Minor
- Geohazards Minor
- German Studies Minor
- GIS and Sustainability Science Minor
- Global Communication Minor
- Global Health Minor
- Health Administration Minor
- Health Care Studies Minor
- Health Communication Minor
- Health Innovation Minor
- Health Policy Minor
- Hip Hop, Street and Social Dance Forms Minor
- History and Culture of Business Minor
- History Minor
- Human Disease Minor
- Human Resource Management Minor
- Human Rights Minor
- Human Security and Geospatial Intelligence Minor
- Immersive Media Minor
- Individuals, Societies and Aging Minor
- Innovation: The Digital Entrepreneur Minor
- Intermedia Arts Minor
- International Health, Development, and Social Justice Interdisciplinary Minor
- International Policy and Management Minor
- International Relations Minor
- Internet of Things Engineering Minor
- Iranian Studies Minor
- Italian Minor
- Jazz Studies Minor
- Jewish American Studies Minor (American Studies)
- Jewish American Studies Minor (Jewish Studies)
- Jewish Studies Minor
- Judaic Studies Minor
- Justice, Voice, and Advocacy Minor
- Korean Studies Minor
- Landscape Architecture Minor
- Latin American Studies Minor
- Latin Minor
- Law and Migration Studies Minor
- Law and Public Policy Minor
- Law and Social Justice Minor
- Law and Society Minor
- Legal Studies Minor
- LGBTQ Studies Minor
- Linguistics Minor
- Luso-Brazilian Studies Minor
- Management Consulting Minor
- Managing Human Relations Minor
- Marine Biology Minor
- Marketing Minor
- Mathematical Data Analytics Minor
- Mathematical Finance Minor
- Mathematics Education Minor
- Mathematics Minor
- Media and Social Change Minor
- Media Economics and Entrepreneurship Minor
- Medical Anthropology Minor

- Middle East Studies Minor
- Mobile App Development Minor
- Modern Art Markets and Ethics Minor
- Multilingualism and Multiculturalism Minor
- Music Industry Minor
- Music Production Minor
- Music Recording Minor
- Musical Studies Minor
- Musical Theatre Minor
- Nanotechnology Minor
- Native American Studies Minor
- Natural Science Minor
- Neuroscience Minor
- News and Information Innovation Minor
- News Media and Society Minor
- Nonprofits, Philanthropy and Volunteerism Interdisciplinary Minor
- Nonprofits, Philanthropy and Volunteerism Minor
- Nutrition and Health Promotion Minor
- Occupational Science Minor
- Operations and Supply Chain Management Minor
- Organizational Leadership and Management Minor
- Painting Minor
- Performance Art Minor
- Performance Science Minor
- Performing Arts Studies Minor
- Performing Leadership Minor
- Performing Social Change Minor
- Petroleum Engineering Minor
- Philosophy Minor
- Philosophy of Law, Politics and Economics Minor
- Photography and Social Change Minor
- Photography Minor
- Physics Minor
- Playwriting Minor
- Podcasting Minor
- Political Organizing in the Digital Age Minor
- Political Science Minor
- Popular Music Studies Minor
- Practical Politics Minor
- Professional and Managerial Communication Minor
- Psychology and Law Minor
- Psychology Minor
- Public Health Minor
- Public Relations Minor
- Race, Ethnicity and Politics Minor
- Real Estate Development Minor
- Real Estate Finance Minor
- Religion Minor
- Resistance to Genocide Interdisciplinary Minor
- Risk Management Minor
- Russian Area Studies Minor
- Russian Minor
- Science and Management of Biomedical Therapeutics Minor
- Science Visualization Minor
- Science, Health and Aging Minor
- Screenwriting Minor
- Sculpture Minor
- Social Entrepreneurship Minor
- Social Work and Juvenile Justice Minor
- Sociology Minor
- Songwriting Minor
- Southeast Asia and its People Minor
- Spanish Minor
- Spatial Studies Minor
- Speech-Language and Hearing Professions Minor
- Sports Business and Management Minor
- Sports Media Industries Minor
- Sports Media Studies Minor
- Statistics Minor
- Substance Abuse Prevention Minor
- Teaching English to Speakers of Other Languages (TESOL) Minor
- Technical Game Art Minor
- Technology Commercialization Minor
- The Dynamics of Early Childhood Minor
- Theatre Minor
- Thematic Approaches to Humanities and Society Minor
- Themed Entertainment Minor
- Two-Dimensional Studies Minor
- Urban Sustainable Planning Minor
- User Experience Minor
- Video Game Design and Management Minor
- Video Game Programming Minor
- Visual Culture Minor
- Visual Narrative Art Minor
- Web Technologies and Applications Minor

Interdisciplinary Minors

- Narrative Structure Interdisciplinary Minor

Joint Degree

- Communication Data Science Dual Degree with Tsinghua University School of Journalism and Communication (MS)
- Computer Science Dual Degree with Tsinghua University School of Information Science and Technology (MS)
- Pharmaceutical Economics and Policy (PhD)

Diploma

- Artist Diploma Program

Master of Business Administration

- Executive MBA Program
- Full-time MBA Program
- International Management Science (STEM) MBA Program
- International MBA Program
- Management Science (STEM) MBA Program
- MBA Program for Professionals and Managers
- Online MBA Program

MBA Dual Degree Programs

- Juris Doctor/Master of Business Administration (JD/MBA)
- Master of Business Administration/Doctor of Medicine (MBA/MD)
- Master of Business Administration/Doctor of Pharmacy (MBA/PharmD)
- Master of Business Administration/Master of Arts in East Asian Area Studies (MBA/MA)
- Master of Business Administration/Master of Arts in Jewish Nonprofit Management (MBA/MA)
- Master of Business Administration/Master of Real Estate Development (MBA/MRED)
- Master of Business Administration/Master of Science in Gerontology (MBA/MS)
- Master of Business Administration/Master of Science in Industrial and Systems Engineering (MBA/MS)
- Master of Business Administration/Master of Science, Systems Architecting and Engineering (MBA/MS)
- Master of Business Administration/Master of Social Work (MBA/MSW)
- Master of Business Administration/Master of Urban Planning (MBA/MUP)

Master's Degree

- Academic Medicine (MACM)
- Accounting (Data and Analytics) (MAcc)
- Accounting (MAcc)
- Advanced Architectural Research Studies (City Design and Housing) (MAARS)
- Advanced Architectural Research Studies (Performative Design and Technology) (MAARS)
- Advanced Architectural Studies (MAAS)
- Advanced Orofacial Pain and Oral Medicine (MS)

- Advanced Placement Gerontology (MS)
- Aerospace and Mechanical Engineering (Computational Fluid and Solid Mechanics) (MS)
- Aerospace and Mechanical Engineering (Dynamics and Control) (MS)
- Aerospace Engineering (MS)
- Aerospace Engineering/Engineering Management (MS)
- Aging Services Management (MA)
- Alternative Certification Master of Arts in Teaching, Multiple Subject
- Alternative Certification Master of Arts in Teaching, Single Subject
- Alternative Dispute Resolution (LLM)
- Analytics (MS)
- Animation and Digital Arts (MFA)
- Anthropology (MA)
- Applied Behavior Analysis (MS)
- Applied Biostatistics/Epidemiology (MS)
- Applied Data Science (MS)
- Applied Economics and Econometrics (MS)
- Applied Mathematics (MA)
- Applied Mathematics (MS)
- Applied Physics (MS)
- Applied Psychology (MS)
- Applied Technology and Aging (MS)
- Applied Theatre Arts (MA)
- Architecture (MArch)
- Art History (MA)
- Arts Leadership (MS)
- Astronautical Engineering (MS)
- Biochemistry and Molecular Medicine (MS)
- Biokinesiology (MS)
- Biokinesiology (Sports Science) (MS)
- Biology (MS)
- Biomaterials and Digital Dentistry (MS)
- Biomedical Data Analytics (MS)
- Biomedical Engineering (Medical Imaging and Imaging Informatics) (MS)
- Biomedical Engineering (MS)
- Biomedical Implants and Tissue Engineering (MS)
- Biomedical Sciences (MS)
- Biopharmaceutical Marketing (MS)
- Biostatistics (MS)
- Building Science (MBS)
- Business Administration (MS)
- Business Analytics (MS)
- Business for Veterans (MBV)
- Business Research (MS)
- Business Taxation (Data and Analytics) (MBT)
- Business Taxation (MBT)
- Business Taxation for Working Professionals (MBT)
- Chemical Engineering (MS)
- Choral Music (MM)
- Cinema and Media Studies (MA)
- Cinematic Arts (Media Arts, Games and Health) (MA)
- Cinematic Arts, Film and Television Production (MFA)
- Civil Engineering (Advanced Design and Construction Technology) (MS)
- Civil Engineering (MS)
- Civil Engineering (Transportation Systems) (MS)
- Civil Engineering (Water and Waste Management) (MS)
- Classics (MA)
- Clinical and Experimental Therapeutics (MS)
- Clinical, Biomedical and Translational Investigations (MS)
- Communication (MA)
- Communication Data Science (MS)
- Communication Management (MCG)
- Community Music (MM)
- Community Oral Health (MS)
- Comparative Law (MCL)
- Comparative Studies in Literature and Culture (Comparative Literature) (MA)
- Comparative Studies in Literature and Culture (Comparative Media and Culture) (MA)
- Comparative Studies in Literature and Culture (French and Francophone Studies) (MA)
- Comparative Studies in Literature and Culture (Spanish and Latin American Studies) (MA)
- Composition (MM)
- Computational Molecular Biology (MS)
- Computational Psychology (MS)
- Computer Engineering (MS)
- Computer Science (Artificial Intelligence) (MS)
- Computer Science (Computer Networks) (MS)
- Computer Science (Computer Security) (MS)
- Computer Science (Data Science) (MS)
- Computer Science (Game Development) (MS)
- Computer Science (High Performance Computing and Simulations) (MS)
- Computer Science (Intelligent Robotics) (MS)
- Computer Science (MS)
- Computer Science (Multimedia and Creative Technologies) (MS)
- Computer Science (Scientists and Engineers) (MS)
- Computer Science (Software Engineering) (MS)
- Conducting (MM)
- Construction Management (MCM)
- Contemporary Teaching Practice (MM)
- Craniofacial Biology (MS)
- Criminal Justice (MS)
- Curatorial Practices and the Public Sphere (MA)
- Cyber Security Engineering (MS)
- Design (MFA)
- Digital Media Management (MS)
- Digital Social Media (MS)
- Dispute Resolution (MDR)
- Dollinger Master of Real Estate Development (MRED)
- Early Music Performance Emphasis (MA)
- East Asian Area Studies (MA)
- East Asian Languages and Cultures (MA)
- Economics (MA)
- Educational Counseling (MEd)
- Electrical and Computer Engineering (Analog, Mixed-Signal and Radio-frequency Integrated Circuits) (MS)
- Electrical and Computer Engineering (Machine Learning and Data Science) (MS)
- Electrical Engineering (Computer Architecture) (MS)
- Electrical Engineering (Computer Networks) (MS)
- Electrical Engineering (Electric Power) (MS)
- Electrical Engineering (MS)
- Electrical Engineering (VLSI Design) (MS)
- Electrical Engineering (Wireless Health Technology) (MS)
- Electrical Engineering (Wireless Networks) (MS)
- Electrical Engineering/Engineering Management (MS)
- Engineering Management (MS)
- English (MA)
- Enrollment Management and Policy (MEd)
- Entrepreneurship and Innovation (MS)
- Environmental Data Science (MS)
- Environmental Engineering (MS)
- Environmental Risk Analysis (MS)
- Environmental Studies (MA)
- Experimental and Molecular Pathology (MS)
- Finance (MS)
- Financial Engineering (MS)
- Fine Arts (MFA)
- Food Industry Leadership (MS)
- Foodservice Management and Dietetics (MA)
- Geographic Information Science and Technology (MS)
- Geological Sciences (MS)

- Geriatric Dentistry (MS)
- Gerontology (MA)
- Gerontology (MS)
- Global Communication (MA)
- Global Medicine (MS)
- Global Security Studies (MA)
- Global Supply Chain Management (On-Campus/Residential) (MS)
- Global Supply Chain Management for Executives (MS) (Online)
- Green Technologies (MS)
- Health Administration (Executive MHA)
- Health Administration (MHA)
- Health Systems Management Engineering (MS)
- Healthcare Data Science (MS)
- Healthcare Decision Analysis (MS)
- Heritage Conservation (MHC)
- History (MA)
- Hospitality and Tourism (MS)
- Human Resource Management (MS)
- Human Security and Geospatial Intelligence (MS)
- Industrial and Systems Engineering (MS)
- Integrated Design, Business and Technology (MS)
- Integrative Anatomical Sciences (MS)
- Interactive Media (Games and Health) (MFA)
- Interactive Media (MFA)
- International Business and Economic Law (LLM)
- International Public Policy and Management (IPPM)
- International Relations (MA)
- International Trade Law and Economics (MITLE)
- Jazz Studies (MM)
- Journalism (MS)
- Landscape Architecture (MLArch)
- Leadership (Executive ML)
- Learning Design and Technology (MEd)
- Library and Information Science (MMLIS)
- Lifespan, Nutrition and Dietetics (MS)
- Linguistics (MA)
- Literary Editing and Publishing (MA)
- Long Term Care Administration (MA)
- Management of Drug Development (MS)
- Management Studies (MMS)
- Manufacturing Engineering (MS)
- Marine and Environmental Biology (MS)
- Marketing (Marketing Analytics) (MS)
- Marketing (MS)
- Marriage and Family Therapy (MS)
- Master of Laws (LLM)
- Master of Public Administration with Seoul National University
- Master of Studies in Law (MSL)
- Materials Engineering (Machine Learning) (MS)
- Materials Engineering (MS)
- Materials Science (MS)
- Mathematical Finance (MS)
- Mathematics (MA)
- Mechanical Engineering (Energy Conversion) (MS)
- Mechanical Engineering (MS)
- Mechanical Engineering (Nuclear Power) (MS)
- Mechanical Engineering/Engineering Management (MS)
- Medical Device and Diagnostic Engineering (MS)
- Medical Gerontology (MA)
- Medical Physiology (MS)
- Medical Product Quality (MS)
- Molecular and Computational Biology (MS)
- Molecular Epidemiology (MS)
- Molecular Genetics and Biochemistry (MS)
- Molecular Microbiology and Immunology (MS)
- Molecular Pharmacology and Toxicology (MS)
- Multiple Subject (MAT)
- Music History and Literature Emphasis (MA)
- Music Industry (MS)
- Narrative Medicine (MS)
- Neuroimaging and Informatics (MS)
- Neuroscience (MS)
- Nonprofit Leadership and Management (MNLM)
- Nursing, Family Nurse Practitioner (MSN-FNP)
- Nutrition, Healthspan and Longevity (MS)
- Nutritional Science (MS)
- Occupational Therapy (MA)
- Ocean Sciences (MS)
- Online MA in Occupational Science and Occupational Therapy
- Operations Research Engineering (MS)
- Pain Medicine (MPM)
- Performance (Classical Guitar) (MM)
- Performance (Flute), (Oboe), (Clarinet), (Bassoon), (Saxophone), (French Horn), (Trumpet), (Trombone), (Tuba) or (Percussion) (MM)
- Performance (Keyboard Collaborative Arts) (MM)
- Performance (Organ) (MM)
- Performance (Piano) (MM)
- Performance (Studio Guitar) (MM)
- Performance (Violin), (Viola), (Violoncello), (Double Bass) or (Harp) (MM)
- Performance (Vocal Arts) (MM)
- Petroleum Engineering (Digital Oilfield Technologies) (MS)
- Petroleum Engineering (Geoscience Technologies) (MS)
- Petroleum Engineering (MS)
- Pharmaceutical Economics and Policy (MS)
- Pharmaceutical Sciences (MS)
- Philosophy (MA)
- Philosophy and Law (MA)
- Physical Biology (MS)
- Physician Assistant Practice (MPAP)
- Physics (MA)
- Physics (MS)
- Planning and Development Studies (MPDS)
- Political Science and International Relations (MA)
- Population, Health and Place (MS)
- Postsecondary Administration and Student Affairs (MEd)
- Privacy Law and Cybersecurity (LLM)
- Producing for Film, Television, and New Media (MFA)
- Product Development Engineering (MS)
- Product Innovation (MS)
- Project Management (MS)
- Psychology (MA)
- Public Administration (MPA)
- Public Diplomacy (MPD)
- Public Diplomacy (Practitioner and Mid-Career Professional) (MPD)
- Public Health (MPH)
- Public Health (MPH) (Online)
- Public Health Data Science (MS)
- Public Policy (MPP)
- Public Policy Data Science (MS)
- Public Relations and Advertising (MA)
- Quantitative and Computational Biology (MS)
- Quantum Information Science (MS)
- Regulatory Management (MS)
- Regulatory Science (MS)
- Sacred Music (MM)
- School Counseling (MEd)
- School Leadership (MEd)
- Screen Scoring (MM)
- Senior Living Hospitality (MA)
- Single Subject (MAT)
- Social Entrepreneurship (MS)
- Social Work (MSW)
- Spatial Data Science (MS)
- Spatial Economics and Data Analysis (MS)
- Specialized Journalism (MA)
- Specialized Journalism (The Arts) (MA)

- Speech-Language Pathology (MS)
- Statistics (MS)
- Stem Cell Biology and Regenerative Medicine (MS)
- Stem Cell Biology and Regenerative Medicine with Research Year (MS)
- Systems Architecting and Engineering (MS)
- Teaching and Learning (MM)
- Teaching English to Speakers of Other Languages (World Masters in Language Teaching) (MAT)
- Teaching, Teaching English to Speakers of Other Languages (MAT)
- Theatre (MFA)
- Translational Biomedical Informatics (MS)
- Translational Biotechnology (MS)
- Transportation Systems Management (MS)
- Urban Planning (Executive MUP Online)
- Urban Planning (MUP)
- Visual Anthropology (MVA)
- Writing for Screen and Television (MFA)

Dual Degree

- Advanced Periodontology Certificate/Master of Science, Craniofacial Biology
- Doctor of Medicine/Master of Business Administration (MD/MBA)
- Doctor of Medicine/Master of Public Health (MD/MPH)
- Doctor of Medicine/Master of Science, Global Medicine
- Doctor of Pharmacy/Doctor of Philosophy (PharmD/PhD)
- Doctor of Pharmacy/Juris Doctor (PharmD/JD)
- Doctor of Pharmacy/Master of Business Administration (PharmD/MBA)
- Doctor of Pharmacy/Master of Public Health (PharmD/MPH)
- Doctor of Pharmacy/Master of Science, Gerontology (PharmD/MS)
- Doctor of Pharmacy/Master of Science, Global Medicine (PharmD/MS)
- Doctor of Pharmacy/Master of Science, Regulatory Science (PharmD/MS)
- Doctor of Philosophy in Political Science and International Relations/Juris Doctor (PhD/JD)
- Doctor of Philosophy in Psychology (Clinical) and Master of Public Health (Health Promotion) (PhD/MPH)
- Doctor of Physical Therapy/Master of Public Health (DPT/MPH)
- Healthcare Decision Analysis (PharmD/MS)
- Juris Doctor/Doctor of Pharmacy (JD/PharmD)
- Juris Doctor/Doctor of Philosophy in Political Science and International Relations (JD/PhD)
- Juris Doctor/Master of Arts, Philosophy (JD/MA)
- Juris Doctor/Master of Business Taxation (JD/MBT)
- Juris Doctor/Master of Communication Management (JD/MCG)
- Juris Doctor/Master of Public Administration (JD/MPA)
- Juris Doctor/Master of Public Policy (JD/MPP)
- Juris Doctor/Master of Real Estate Development (JD/MRED)
- Juris Doctor/Master of Science in Gerontology (JD/MS)
- Juris Doctor/Master of Social Work (JD/MSW)
- Master of Advanced Architectural Studies/Master of Urban Planning (MAAS/MUP)
- Master of Arts, East Asian Area Studies/Master of Business Administration (MA/MBA)
- Master of Arts, Philosophy/Juris Doctor (MA/JD)
- Master of Building Science/Master of Heritage Conservation (MBS/MHC)
- Master of Communication Management/Juris Doctor (MCG/JD)
- Master of Communication Management/Master of Arts, Jewish Nonprofit Management (MCG/MA)
- Master of Health Administration/Master of Science in Gerontology (MHA/MS)
- Master of Heritage Conservation/Master of Landscape Architecture (MHC/MLArch)
- Master of Heritage Conservation/Master of Urban Planning (MHC/MUP)
- Master of Landscape Architecture/Master of Urban Planning (MLArch/MUP)
- Master of Public Administration/Master of Arts, Jewish Nonprofit Management (MPA/MA)
- Master of Public Administration/Master of Science in Gerontology (MPA/MS)
- Master of Public Administration/Master of Social Work (MPA/MSW)
- Master of Public Health/Doctor of Pharmacy (MPH/PharmD)
- Master of Public Health/Master of Science, Social Entrepreneurship (MPH/MS)
- Master of Public Health/Master of Social Work (MPH/MSW)
- Master of Public Health/Master of Urban Planning (MPH/MUP)
- Master of Public Policy/Juris Doctor (MPP/JD)
- Master of Public Policy/Master of Urban Planning (MPP/MUP)
- Master of Real Estate Development/Juris Doctor (MRED/JD)
- Master of Real Estate Development/Master of Business Administration (MRED/MBA)
- Master of Science, Gerontology/Doctor of Pharmacy (MS/PharmD)
- Master of Science, Gerontology/Juris Doctor (MS/JD)
- Master of Science, Gerontology/Master of Business Administration (MS/MBA)
- Master of Science, Gerontology/Master of Health Administration (MS/MHA)
- Master of Science, Gerontology/Master of Public Administration (MS/MPA)
- Master of Science, Gerontology/Master of Social Work (MS/MSW)
- Master of Science, Global Medicine/Doctor of Pharmacy (PharmD/MS)
- Master of Science, Industrial and Systems Engineering/Master of Business Administration (MS/MBA)
- Master of Science, Petroleum Engineering/Master of Science, Engineering Management (MS/MS)
- Master of Science, Social Entrepreneurship/Master of Public Health (MS/MPH)
- Master of Science, Systems Architecting and Engineering/Master of Business Administration (MS/MBA)
- Master of Social Work/Doctor of Philosophy (MSW/PhD)
- Master of Social Work/Juris Doctor, Law (MSW/JD)
- Master of Social Work/Master of Arts, Jewish Nonprofit Management (MSW/MA)
- Master of Social Work/Master of Business Administration (MSW/MBA)
- Master of Social Work/Master of Public Administration (MSW/MPA)
- Master of Social Work/Master of Public Health (MSW/MPH)
- Master of Social Work/Master of Science, Gerontology (MSW/MS)
- Master of Social Work/Master of Urban Planning (MSW/MUP)
- Master of Urban Planning/Master of Arts, Curatorial Practices and the Public Sphere (MUP/MA)
- Master of Urban Planning/Master of Public Administration (MUP/MPA)
- Master of Urban Planning/Master of Real Estate Development (MUP/MRED)
- Master of Urban Planning/Master of Social Work (MUP/MSW)
- Medicine (MD/PhD)
- Urban Education Policy/Public Policy (PhD/MPP)

University Certificate

- General Practice Residency

Graduate Certificate

- Academic Medicine Certificate
- Advanced Endodontics Certificate
- Advanced Operative and Adhesive Dentistry Certificate
- Advanced Operative and Adhesive Dentistry Certificate/MS, Craniofacial Biology
- Advanced Oral and Maxillofacial Surgery
- Advanced Orofacial Pain Certificate
- Advanced Orthodontics Certificate
- Advanced Pediatric Dentistry Certificate
- Advanced Periodontology Certificate
- Advanced Pharmacy Practice Graduate Certificate
- Advanced Prosthodontics Certificate
- Alternative Dispute Resolution Certificate
- Applied Data Science Graduate Certificate
- Architecture Certificate
- Arts Leadership Graduate Certificate
- Astronautical Engineering Certificate
- Building Science Certificate
- Business Analytics Graduate Certificate
- Business Fundamentals Graduate Certificate
- Business Law Certificate (On-Campus)
- Business Law Certificate (Online)
- Business of Entertainment Graduate Certificate
- Certificate in U.S. Legal Studies
- Cinematic Arts Archiving and Preservation Graduate Certificate
- City/County Management Certificate
- Clinical Research Design and Management Certificate
- Clinical, Biomedical and Translational Investigations Certificate
- Community Oral Health Certificate
- Compliance Certificate
- Craniofacial Biology Certificate
- Data Science Foundations Graduate Certificate
- Digital Media and Culture Graduate Certificate
- Digital Oilfield Technologies Certificate
- Doctor of Pharmacy/Graduate Certificate in Gerontology
- East Asian Area Studies Graduate Certificate
- Entertainment Law and Industry Certificate
- Financial Analysis and Valuation Graduate Certificate
- Financial Compliance Certificate
- Food Safety Certificate
- Gender Studies Graduate Certificate
- Geographic Information Science and Technology Graduate Certificate
- Geospatial Intelligence Graduate Certificate
- Geospatial Leadership Graduate Certificate
- Geriatric Dentistry Graduate Certificate
- Gerontology Graduate Level Certificate
- Gerontology Online Graduate Level Certificate
- Gifted Education Certificate
- Global Health Innovation and Entrepreneurship Graduate Certificate
- Global Medicine Graduate Certificate
- Health Care Compliance Certificate
- Health Communication Management Graduate Certificate
- Health Management and Policy Programs Certificate
- Health Systems Operations Graduate Certificate
- Health, Technology and Engineering Graduate Certificate
- Healthcare Decision Analysis Certificate
- Heritage Conservation Certificate
- History of Collecting and Display Certificate
- Homeland Security and Public Policy Certificate
- Human Resources Law and Compliance Certificate
- Integrated MD Degree/Oral and Maxillofacial Surgery Certificate Program
- International and Intercultural Communication Management Graduate Certificate
- International Policy and Planning Certificate
- Jewish Studies Graduate Certificate
- Journalism Certificate
- Landscape Architecture Certificate
- Latinx and Latin American Studies Graduate Certificate
- Learning Design and Technology Graduate Certificate
- Library and Information Management Graduate Certificate
- Lifestyle Redesign® Graduate Certificate (online)
- Management Studies Graduate Certificate
- Marketing Communication Management Graduate Certificate
- Marketing Graduate Certificate
- Media and Entertainment Law Certificate
- Media and Entertainment Management Graduate Certificate
- Medical Product Quality Graduate Certificate
- Network Centric Systems Graduate Certificate
- New Communication Technologies Graduate Certificate
- Nonprofit Management and Policy Certificate
- Optimization and Supply Chain Management Graduate Certificate
- Oral Pathology and Radiology Certificate
- Orofacial Pain Certificate
- Pain Medicine Certificate
- Pain Science Certificate
- Patient and Product Safety Certificate
- Performance Graduate Certificate
- Performance Studies Graduate Certificate
- Political Management Certificate
- Preclinical Drug Development Certificate
- Privacy Law and Cybersecurity Certificate
- Public Financial Management Certificate
- Public Interest Certificate
- Public Management Certificate
- Public Policy Advocacy Graduate Certificate
- Public Policy Certificate
- Pupil Personnel Services Certificate
- Real Estate Development Certificate
- Regulatory and Clinical Affairs Certificate
- Religious Studies Certificate
- Remote Sensing for Earth Observation Certificate
- Science and Technology Studies Graduate Certificate
- Social Innovation Certificate
- Social Justice Certificate
- Software Architecture Graduate Certificate
- Spatial Analytics Graduate Certificate
- Stem Cell Biology and Regenerative Medicine Certificate
- Strategic Corporate and Organizational Communication Management Graduate Certificate
- Strategy and Management Consulting Graduate Certificate
- Sustainability and Business Graduate Certificate
- Sustainable Design Graduate Certificate
- Sustainable Policy and Planning Certificate
- Systems Architecting and Engineering Graduate Certificate
- Technology and Entrepreneurship Law Certificate
- Technology Commercialization Graduate Certificate
- The Business of Product Innovation Certificate
- The Foundations of Product Innovation Certificate
- Translation and Entrepreneurship in Biomedical Sciences Certificate
- Translation Studies Certificate
- Translational Biotechnology Certificate
- Transnational Law and Business Certificate
- Transportation Planning Certificate
- Transportation Systems Graduate Certificate
- Unconventional Resources in Petroleum Engineering
- Visual Anthropology Certificate
- Visual Studies Graduate Certificate
- Writing for Screen and Television Certificate

Doctoral Degree

- Aerospace Engineering (PhD)
- American Studies and Ethnicity (PhD)
- Anthropology (PhD)

- Applied Mathematics (PhD)
- Architecture (PhD)
- Art History (PhD)
- Astronautical Engineering (PhD)
- Biokinesiology (PhD)
- Biology of Aging (PhD)
- Biomedical Engineering (PhD)
- Biostatistics (PhD)
- Business Administration (PhD)
- Cancer Biology and Genomics (PhD)
- Chemical Engineering (PhD)
- Chemistry (Chemical Physics) (PhD)
- Chemistry (PhD)
- Choral Music (DMA)
- Cinema and Media Studies (PhD)
- Cinematic Arts (Critical Studies) (PhD)
- Cinematic Arts (Media Arts and Practice) (PhD)
- Civil Engineering (PhD)
- Classics (PhD)
- Clinical and Experimental Therapeutics (PhD)
- Communication (PhD)
- Comparative Studies in Literature and Culture (Comparative Literature) (PhD)
- Comparative Studies in Literature and Culture (Comparative Media and Culture) (PhD)
- Comparative Studies in Literature and Culture (French and Francophone Studies) (PhD)
- Comparative Studies in Literature and Culture (Spanish and Latin American Studies) (PhD)
- Composition (DMA)
- Computational Biology and Bioinformatics (PhD)
- Computer Engineering (PhD)
- Computer Science (PhD)
- Craniofacial Biology (PhD)
- Dental Surgery (DDS)
- Development, Stem Cells, and Regenerative Medicine (PhD)
- Doctor of Nurse Anesthesia Practice
- East Asian Languages and Cultures (PhD)
- Economics (PhD)
- Educational Leadership (EdD)
- Electrical Engineering (PhD)
- Engineering (Environmental Engineering) (PhD)
- English and American Literature (PhD)
- Epidemiology (PhD)
- Geological Sciences (PhD)
- Gerontology (PhD)
- Global Executive (EdD)
- Health Economics (PhD)
- History (PhD)
- Industrial and Systems Engineering (PhD)
- Infectious Diseases, Immunology and Pathogenesis (PhD)
- Integrative and Evolutionary Biology (PhD)
- Jazz Studies (DMA)
- Law (JD)
- Linguistics (PhD)
- Linguistics (Specialization in East Asian Linguistics) (PhD)
- Literature and Creative Writing (PhD)
- Longevity Arts and Sciences (DLAS)
- Marine Biology and Biological Oceanography (PhD)
- Materials Science (PhD)
- Mathematics (PhD)
- Mechanical Engineering (PhD)
- Medical Biophysics (PhD)
- Medicine (MD)
- Molecular Biology (PhD)
- Molecular Pharmacology and Toxicology (PhD)
- Music, Historical Musicology Emphasis, (PhD)
- Neuroscience (PhD)
- Occupational Science (PhD)
- Occupational Therapy (OTD)
- Ocean Sciences (PhD)
- Organizational Change and Leadership (EdD)
- Performance - Organ, Percussion or Winds (DMA)

- USC International Academy
- Neuroscience Graduate Program

English Language Requirements

Academic success at USC is strongly dependent upon the ability to communicate in English. Listening, speaking, reading and writing proficiency must be well developed in order to assimilate large amounts of difficult material under limited time conditions with full comprehension. Such proficiency is much greater than that required for ordinary everyday living. Therefore, every effort should be made to acquire English proficiency prior to entering the university.

Admitted international students whose first language is not English are normally required to take the International Student English Examination (ISE Exam) at the beginning of the first term of study. The examination results determine whether students must take additional English for academic purposes course work.

International students who meet one of the following conditions may be exempt from taking the ISE Exam:

- International students who have completed their entire bachelor's degree at regionally accredited universities located in the United States or in another country in which English is both the language of instruction and the only official language of the country.
- Applicants to master's degree programs who have attained an Internet Based TOEFL (iBT) score of 90, with no less than 20 on each sub-score; or an IELTS score of 6.5, with no less than 6 on each band score.
- PhD and undergraduate applicants who have achieved an Internet Based TOEFL (iBT) score of 100 with no less than 20 on each sub-score; or an IELTS score of 7, with no less than 6 on each band score.

USC does not accept "superscores" or TOEFL "MyBest scores." Some departments may have higher requirements for English proficiency than what is listed above. USC must receive scores electronically from the testing service for them to be considered official. Photocopies or paper copies of scores are not acceptable. Scores must be received no later than the Friday before classes begin. Students should contact the American Language Institute (ALI) Office before the deadline to confirm that their scores have been received.

American Language Institute

Any student not demonstrating adequate English proficiency will be required to enroll in courses at the American Language Institute (ALI) at USC. The ALI provides courses designed to improve an international student's oral and written communication skills in English. The extent to which a student may be required to take courses at the ALI is determined by his or her performance on the International Student English Examination (ISE Exam) or, in the case of potential teaching assistants, the ITA Exam.

ALI tuition units are charged at the regular university rate. Entering students who need English language classes should be aware that the ALI course requirements will likely increase the overall cost of their degree program. ALI classes can normally be taken concurrently with a student's other university classes and must be completed at the earliest opportunity. See here or the ALI website for more information.

Teaching Assistantships

All new teaching assistants (TAs) for whom English is a second language must demonstrate their competence in spoken English before assuming classroom or laboratory duties. Normally, new international teaching assistants (ITAs) demonstrate their English proficiency by taking the ITA Exam, administered by the American Language Institute (ALI) located on the USC University Park Campus.

The exam must be taken before assuming classroom or laboratory duties and no later than the first day of classes. The ITA exam is graded on a scale of 1 to 7. Those who achieve a score of 6 or higher are cleared for classroom duties and have no English oral skills requirement. Those who score 5 or 5.5 are cleared for classroom duties, but are required to enroll in an English language course through the ALI while performing their ITA responsibilities. Those who score below 5 on the exam are not cleared for classroom duties. These students are normally required to enroll in an English language course offered by ALI until adequate English proficiency is obtained. For more information, call (213) 740-0079 or visit ALI's website at ali.usc.edu.

Those ITAs denied clearance for teaching duties may have their offer of graduate assistantship withdrawn or alternative responsibilities assigned. An ITA who is denied clearance to teach should immediately seek assistance from the chair of his or her home department or program director.

American Language Institute
PSD 106
(213) 740-0079
FAX: (213) 740-8549
Email: aliusc@usc.edu
ali.usc.edu

Director: James Valentine, PhD
Associate Professor (Teaching): James Polk, PhD
Assistant Professors (Teaching): Lucienne Aarsen, MA; Reka Clausen, MA; Tracy Levin, PhD
Master Lecturers: Kimberley Briesch-Sumner, MA; Barry Griner, MA; Nina Kang, EdD, MLS; Eric H. Roth, MA; Anastassia Tzoytzoyrakos, MA
Senior Lecturers: Juli Ann Kirkpatrick, MA; Mary Ann Murphy, MA
Lecturer: Olivia Martinez, MA

Purpose of the Program

The American Language Institute provides instruction in English as a Second Language for international students who need or desire to improve their English language skills in order to participate successfully in their degree programs. Before beginning studies with ALI, all students must be admitted to the university in a degree program. The institute also provides student advisement.

Placement in the Program

Most international students entering USC must take the International Student English Examination (ISE Exam). The examination is offered immediately prior to the beginning of classes each semester. The purpose of this examination is to evaluate the level of a student's proficiency in English and to determine how well prepared the student is to undertake his or her degree studies in English. On the basis of the scores achieved, students are placed at the appropriate levels of instruction or are exempted from having to receive English language instruction.

Elective Credit

Undergraduates may earn up to 12 units of credit toward their degree for ALI courses numbered 100 or above. Some departmental restrictions may apply.

Limitation on Enrollment

International students placed into ALI classes must commence their ALI course work in their first semester at USC and must register in ALI courses each fall and spring semester until their ALI

requirements are satisfied. Students must successfully complete their ALI required courses within four semesters in order to remain academically eligible to pursue a degree program. Students who receive a final grade of "No Credit" more than once in any of their ALI required classes will not be allowed to continue to complete their ALI requirement.

Students not meeting the ALI requirement will not be allowed to continue at USC. The Committee on Academic Policies and Procedures will consider appeals if submitted within 10 working days of being dropped from ALI. Contact the Academic Review Department at acadrev@usc.edu for additional details.

USC International Academy

The USC International Academy offers three avenues of study to prepare international students for admission to USC and other U.S. universities through intensive English instruction, test preparation, and maximum academic support. Qualified students may also apply for admission with continuing registration requirements to select USC master's programs through the academy's Pre-Master's Program. For further information about admissions, courses and program dates, visit the USC International Academy's website at international.usc.edu or email info-international@usc.edu.

Neuroscience – Graduate Program

ngp.usc.edu
Director: Jason Zevin, PhD

Application deadline: December 1

Breadth of interests and training are major features of the graduate program in neuroscience. Wide and varied skills in many research areas characterize the faculty of the program. Close contact between faculty and students is considered of major importance in this highly interdisciplinary field.

Training is given in several areas of specialization: behavioral and systems neuroscience, cellular and molecular neurobiology, cognitive neuroscience, computational neuroscience, neuroengineering, brain diseases, and neuroscience of aging and development.

Applicants should normally have defined an interest in one or two specializations. A final choice of the specialization will be made during the first year through laboratory rotations.

Admission Requirements

A baccalaureate degree in a field relevant to the student's graduate goals is required.

Appropriate fields would include neuroscience, biology, chemistry, computer science, linguistics, psychology and many areas of engineering. Undergraduate study should provide evidence of substantive research experience, and proficiency in mathematics, including statistics. Students planning to enter the specialization in computational and mathematical neuroscience should have taken course work in calculus and, where possible, linear algebra and computer programming. Applicants who are accepted with minor deficiencies are expected to correct these during the first year.

Master's Degree

Neuroscience (MS)

Director: Jason Zevin, PhD

The MS degree program in Neuroscience is a terminal degree for students admitted into the Neuroscience PhD program who cannot complete the PhD program for personal or medical reasons. Enrollment of graduate students as master's degree candidates is not encouraged and is reserved for special circumstances that must be approved by the Executive Committee of the Neuroscience Graduate Program. The master's curriculum includes all course work required of PhD students for a minimum of 24 units and successful completion of both the written and oral portions of the qualifying examination. Students may opt for a thesis or non-thesis master's degree. The thesis master's degree requires presentation of a written thesis based on original research to a Neuroscience thesis committee and submission of the thesis to the Graduate School for publication. The non-thesis master's degree requires a formal research paper that is approved by three members of the Neuroscience Graduate Program faculty. The qualifying examination will serve as the comprehensive master's examination for non-thesis master's degrees. Students must also satisfy residency and other requirements of the Graduate School.

Doctoral Degree

Neuroscience (PhD)

Director: Jason Zevin, PhD

Application deadline: December 1

Breadth of interests and training are major features of the graduate program in neuroscience. Wide and varied skills in many research areas characterize the faculty of the program. Close contact between faculty and students is considered of major importance in this highly interdisciplinary field.

Training is given in several areas of specialization: behavioral and systems neuroscience, cellular and molecular neurobiology, cognitive neuroscience, computational neuroscience, neuroengineering and neuroscience of aging and development.

Applicants should normally have defined an interest in one or two specializations. A final choice of the specialization will be made during the first year.

Admission Requirements

A baccalaureate degree in a field relevant to the student's graduate goals is required.

Appropriate fields would include neuroscience, biology, chemistry, computer science, linguistics, psychology and many areas of engineering. Undergraduate study should provide evidence of proficiency in mathematics, including statistics. Students planning to enter the specialization in computational and mathematical neuroscience should have taken course work in calculus and, where possible, linear algebra and computer programming. Applicants who are accepted with minor deficiencies are expected to correct these during the first year.

Degree Requirements

These degrees are awarded under the jurisdiction of the Graduate School. Refer to the Requirements for Graduation section and The Graduate School section of this catalogue for general regulations. All courses applied toward the degrees must be courses accepted by the Graduate School.

Advisory Committee

The student will be advised during the first year by the Graduate Advisement Committee. As soon as the student has selected a specialization, an Advisory Committee of appropriate faculty will be appointed. This committee will be chaired by the thesis adviser, when chosen. The purpose of the Advisory Committee is to help the student in the selection of courses and research; to monitor the student's progress; to ensure preparation for the qualifying examination; and to administer that examination.

Course Requirements

A minimum of 60 units is required, consisting of formal courses, seminars and research credits. At least 24 of the 60 units are to be

formal graduate course work (lecture or seminar courses). During the first year the student is expected to complete the core courses in neuroscience (NSCI 524 and NSCI 525), one key course, INTD 500 Responsible Conduct of Research, and two semesters of NSCI 539. Other courses in the area of specialization may also be taken in the first year and will be taken in subsequent years.

Core Courses: NSCI 524 and NSCI 525 Advanced Overview of Neuroscience (8 units), will be taken by all students in the fall and spring of their first year to provide an integrated multilevel view of neuroscience. To take the core course, students should have mastered the material currently taught in BISC 421. (Students will be expected to review a detailed syllabus and reading list for BISC 421 to identify their level of knowledge prior to their arrival at USC and will receive advice at Orientation on whether to take BISC 421 or read recommended material to remedy their deficiencies.)

Key Courses: All students will be required to complement their thesis-directed studies with a "breadth with depth" requirement by taking two key courses, one each from two different tracks listed below. Each key course will be for 3 or 4 units. (At least one of these courses will serve to advance thesis-related study as well.)

- Cellular, Molecular and Developmental Neuroscience Track
- Cognitive Neuroscience Track
- Computational Neuroscience and Neuroengineering Track
- Systems and Behavioral Neuroscience Track

All students are required to take INTD 500 Responsible Conduct of Research (1 unit), as well as a 4-unit approved statistics course (PM 510, PSYC 501 or equivalent).

Students may request permission to have non-NSCI advanced courses satisfy the track requirements.

It is required that all neuroscience PhD students demonstrate competence in statistics in fulfillment of their PhD requirements.

Qualifying Examination

The qualifying examination concentrates on the student's ability to demonstrate a grasp of the major area of interest chosen and its relation to other areas of training offered in the program. The examination is partly written and partly oral and is designed to test the student's ability to meet the demands of the profession.

Dissertation

An acceptable dissertation based on completion of an original investigation is required. The candidate must defend an approved draft of the dissertation in an oral examination.

USC Iovine and Young Academy

With a visionary gift from entrepreneurs Jimmy Iovine and Andre "Dr. Dre" Young, the University of Southern California established an academy to nurture unbridled creativity at the intersection of four essential areas: the arts and design; engineering and computer science; business and venture management; and communication.

Conceived as a collaborative environment that brings multidisciplinary students, instructors and professional mentors together, the USC Jimmy Iovine and Andre Young Academy for Arts, Technology and the Business of Innovation has become a transformational presence on one of the nation's most dynamic university campuses.

The focus of the program's course of study is on creativity and critical thinking, as empowered by the languages and methodologies of the arts, technology and business. It draws on the talents and influence of faculty and leaders from multiple disciplines and industries to empower the next generation of disruptors and professional thought leaders who will apply their skills in a global arena. USC's strategic location in Los Angeles, widely viewed as the creative and media capital of the world, provides an unrivaled opportunity for students to learn in a living laboratory in which media, technology and the arts are deeply intertwined. In addition, the university's proximity to the city's burgeoning "Silicon Beach" and its vibrant downtown Arts District, as well as Northern California's Silicon Valley, provides access to the world's premiere creative and technology companies and institutions from which students can learn and draw inspiration.

Students who complete the undergraduate course of study in the Academy will graduate with a Bachelor of Science in Arts, Technology and the Business of Innovation, and possess an unprecedented combination of knowledge and skill. Crafted via a unique and groundbreaking integration of its core disciplines, the degree facilitates each individual's ability to engage differently and successfully with a dramatically changing, tech-driven global marketplace, and to address some of the world's most intractable problems.

Academy majors and minors fine-tune their ideas and complete working models, systems or prototypes in Iovine and Young Hall, which officially opened in 2019. The facility offers approximately 10,000 square feet of makerspace and cutting-edge technologies, workshops, and flexible studios to nurture collaboration to engender innovation and support the development of creative ideas, inventions and startups.

Students work both individually and in self-directed teams, and are guided by faculty and industry mentors who include artists, designers, technologists, founders, venture capitalists, public policy leaders, philanthropists, global entrepreneurs and more.

The Academy offers two graduate degree programs – the online Master of Science in Integrated Design, Business and Technology (MSIDBT) and the Master of Science in Product Innovation (MSPRIN). The online MSIDBT graduate degree program provides a first-of-its-kind interdisciplinary education at the intersection of the educational and professional disciplines central to our changing world. The program creates leaders with diverse and creative ways of thinking and doing – professionals trained to recognize and cultivate innovation, catalyze change and leverage new opportunities to not only support, but also help shape and build our rapidly evolving economy.

In 2020, the Academy launched the Master of Science in Product Innovation – a revolutionary new degree for advanced students wishing to pursue product design for the 21st century. Reimagining the traditional concept of a product to encompass not just physical objects but also virtual, multi-dimensional and cross-platform devices, environments and experiences, this program provides students with an expertise in the development and launch of products that address the needs of a technology-enhanced global society. In addition to the traditional two-year course of study for applicants holding a qualified bachelor's degree, MSPRIN offers a progressive option for select USC undergraduates who wish to begin work on the master's degree while simultaneously completing their USC bachelor's degree.

Douglas Thomas, PhD, *Associate Professor of Communication (USC Annenberg School for Communication and Journalism)*
Davina Wolter, BFA, BA, *Assistant Professor, Design*

General Information

Degrees Offered

The Iovine and Young Academy offers a Bachelor of Science in Arts, Technology and the Business of Innovation; a Master of Science in Integrated Design, Business and Technology; and a Master of Science in Product Innovation and graduate certificates in the Business of Product Innovation and the Foundations of Product Innovation.

Minimum Grade Requirement

Iovine and Young Academy undergraduate majors must receive a minimum final grade of B- (2.7) in all required courses offered by the Iovine and Young Academy. Failure to meet this requirement will result in the following:

For final grades of C+, C or C- in a required Academy course, the student must enroll in an approved 1-unit Academy Independent Study designed to ensure the student has obtained sufficient skill and knowledge in the subject area. The student must enroll in the Independent Study in the semester immediately following the term in which the insufficient grade was received (excluding summer session) and must receive a minimum final grade of B- in the Independent Study. Failure to receive a minimum final grade of B- in the Independent Study will result in a determination of unsatisfactory academic progress, and ineligibility to continue in the major. Substitutions for the Independent Study may occur at the discretion of the director, based on an evaluation of the academic needs of the student, and/or course or instructor availability.

For final grades of D+, D, D-, F or NC in a required Academy course, the student must repeat the course in order to ensure sufficient skill and knowledge in the subject area. The student must repeat the course in the semester immediately following the term in which the insufficient grade was received (or at the earliest opportunity, i.e., in the next semester it is offered), and must receive a minimum final grade of B- in the repeated course. Failure to receive a minimum final grade of B- in the repeated course will result in a determination of unsatisfactory academic progress, and ineligibility to continue in the major. Students may repeat a maximum of two required Academy courses. Receipt of a D+, D, D-, F or NC in a third required Academy course will result in ineligibility to continue in the major.

Note: If a student's grade results in the need to seek remediation as described above, students are advised that, due to prerequisites and other program elements, such remediation may affect the student's ability to register for subsequent course work and could result in a delay of the anticipated graduation date.

Minor Programs

The Iovine and Young Academy offers minors as supplements to major fields of specialization in other departments and schools. The minors offered in the Academy include: Designing Products, Disruptive Innovation, Designing for Digital Experiences, Designing for Live Experiences, Designing Multimedia Experiences, Designing Products, Health Innovation, and News and Information Innovation. There is a separate application for Academy minors available at *iovine-young.usc.edu*. Candidates for the minors in the Iovine and Young Academy will be counseled by an academic adviser in the school.

Responsive Learning Modules

Developed to complement Academy course work, RLM sessions augment students' classroom education and meet their individualized needs by providing them with critical learning opportunities, but without the full infrastructure of a semester-long course. As a result, RLM sessions are diverse enough to respond to a wide variety of student interests, and flexible enough to deliver each subject in the most useful and relevant way. Participation in RLM sessions is expected for all undergraduate Academy students and open to graduate students. Most sessions take place on Fridays from 10 a.m.-12 p.m. Additional alternate times may be scheduled on a case-by-case basis.

Undergraduate Admission

Admission to the Iovine and Young Academy is granted through the USC Office of Admission. The incoming freshmen and external transfer application deadline for Fall 2022 is December 1, 2021. Specific requirements and additional information are available at *iovine-young.usc.edu/admissions/index.html*.

Entrance Requirements for Current USC Students as Internal Transfers

The Academy will consider entrance into the major for current USC students. While completed USC course work will be taken into account, there is no guarantee it will be credited toward Academy requirements. For example, a sophomore may not be able to transfer to the Academy with sophomore standing. Credit and standing will be considered on a case-by-case basis. Admission to the Academy is limited to fall semester only. The application deadline for Fall 2022 is January 1, 2022. Specific requirements and additional information are available at *iovine-young.usc.edu/admissions/index.html.*

Entrance Requirements for External Transfers

The Academy will consider entrance into the major for current students at other two-year and four-year higher education institutions. While completed course work will be taken into account, there is no guarantee it will be credited toward Academy requirements. For example, a sophomore may not be able to transfer to the Academy with sophomore standing. Credit and standing will be considered on a case-by-case basis. Admission to the Academy is limited to fall semester only. The application deadline for Fall 2022 is December 1, 2021. Specific requirements and additional information are available at *iovine-young.usc.edu/admissions/index.html.*

Graduate Admission

Admission to the Academy's Master of Science in Integrated Design, Business and Technology program is offered for fall, spring and summer semesters. Specific requirements and additional information are available at *online-iovine-young.usc.edu/admissions.*

Admission to the Master of Science in Product Innovation is offered once a year. Specific requirements and additional information are available at *iovine-young.usc.edu/program/ms-product-innovation.html*.

Advisement

Academic advisement is provided to Academy major and minor students. The staff advisers provide information regarding academic life at the university, program requirements, policies and procedures to assist students with their degree completion. Undergraduate majors are required to meet with the adviser before registering each semester. Appointments may be scheduled at most times during the academic year.

Waiver of Course Requirements

Under special circumstances course waivers and substitutions may be granted. All course waivers and course substitutions must be approved by the dean of the Academy or her designee.

Tuition and Fees

Undergraduate and graduate programs are assessed the university-wide tuition rate. The university reserves the right to assess new fees or charges. The rates listed are subject to change without notice by action of the Board of Trustees.

Bachelor's Degree

Arts, Technology and the Business of Innovation (BS)

This unique Bachelor of Science degree offers a highly select group of students an integrated, four-year course of study that provides in-depth learning in four core areas deemed *new literacies for the 21st century*: art and design; engineering and computer science; business and venture management; and communication. Through the Academy's Core, students learn applied skills and gain understanding of the theories, concepts and "language" common to each area, and the innovative potential where they intersect. Academy electives serve to customize each student's experience to their individual strengths or desired focus. Courses such as Design Strategy and Industry Practicum place students inside powerful professionalizing experiences with industry collaborators, providing unparalleled preparation for careers or graduate study. The fourth-year "Garage Experience" provides an advanced workshop environment for student teams to develop original ideas and take them from concept to prototype, leading to new products, systems and services. Throughout the program students are taught to think seamlessly across multiple disciplines, and to apply a vast array of relevant technologies and techniques toward innovative problem solving.

The degree requires a total of 128 units, including 76 units in the Core and 12 units in major electives. Students must select elective courses from the Academy's current offerings in areas such as product, experience, or multimedia design; design strategy and human-centered design; creativity and innovation; venture management; the business of products; technology; and communication or from specialized electives as they become available, such as branding new ventures, intellectual property and machine learning. In consultation with their academic adviser, students may also petition to create unique degree paths by selecting courses from academic units or disciplines outside of the Academy. In addition to required courses, students may elect to register for other Academy experiences such as summer study abroad, Impact and Industry Labs (see CurriculumPlus for complete details) and internships.

Required Core Courses

Lower Division (48 units)

- ACAD 174 Innovators Forum Units: 2 (needs to be taken twice)
- ACAD 176 Rapid Visualization Units: 4
- ACAD 177 Digital Toolbox: Design Units: 2
- ACAD 178 Digital Toolbox: Motion Graphics Units: 2
- ACAD 180 Digital Toolbox: Sound and Audio Units: 2
- ACAD 187 Digital Toolbox: 3D Design Units: 2
- ACAD 181g Disruptive Innovation Units: 4
- ACAD 182 Case Studies in Innovation Units: 4
- ACAD 207 Designing Narrative Media Units: 4
- ACAD 240 Materials: Denim to Nanotubes Units: 4
- ACAD 275 Dev I Units: 4
- ACAD 276 Dev II Units: 4

Choose one from the following:

- ACAD 280 Designing Digital Experiences Units: 4
- ACAD 281 Designing Live Experiences Units: 4

Choose one from the following:

- ACAD 217 Designing Immersive Media Units: 4
- ACAD 245 Designing Products I Units: 4
- ACAD 277 Dev III: Designing Applications for Emerging Platforms Units: 4

Upper Division (28 units)

- ACAD 302 The Hacker Imagination: from Ancient Greece to Cupertino Units: 4
- ACAD 324g The Practice of Design: Ideation to Innovation Units: 4
- ACAD 360 Design Strategy: Problem Solving for Organizations Units: 4
- ACAD 376 Industry Practicum I: Designing and Implementing Real-World Solutions Units: 4
- ACAD 475a The Garage Experience Units: 4
- ACAD 475b The Garage Experience Units: 4

Choose one 4-unit course or two 2-unit courses from the following:

- ACAD 377 Industry Practicum II: Designing and Implementing Real-World Solutions Units: 4
- ACAD 450 Industry Lab Units: 2
- IDSN 515 Professional Practices Residential Units: 2
- PRIN 550 Industry Lab Units: 2

Major Electives

Complete 12 units from the following. ACAD 217 and ACAD 450 may not double-count as a core course and an elective course. A course in more than one elective area may not be double-counted.

Design

- ACAD 188 Digital Toolbox: Modeling Products I Units: 2
- ACAD 189 Digital Toolbox: Modeling Products II Units: 2
- ACAD 200 Advanced Sound and Audio Units: 4
- ACAD 217 Designing Immersive Media Units: 4
- ACAD 317 Designing Media Studio Units: 4
- ACAD 345 Designing Products II Units: 4
- ACAD 445 Designing Products III Units: 4
- ACAD 499 Special Topics Units: 2, 3, 4 (select offerings)
- By advisement, select offerings in the Academy's IDSN and PRIN graduate programs

Technology

- ACAD 344 Advanced iOS App Development Units: 4
- ACAD 365 Managing Data in C++ Units: 4
- ACAD 382 Mobile Game Development Units: 4
- ACAD 404 Advanced Front-End Web Development Units: 4
- ACAD 405 Advanced Back-End Web Development Units: 4
- ACAD 425 Web Application Security Units: 4
- ACAD 442 Mobile App Project Units: 4
- ACAD 449 Data Mining: Descriptive and Predictive Units: 4
- ACAD 460 Web Application Project Units: 4
- ACAD 476 Technologies for Interactive Marketing Units: 4
- ACAD 499 Special Topics Units: 2, 3, 4 (select offerings)
- ITP 388 Developing Connected Devices Units: 4
- ITP 468 Connected Devices Project Units: 4
- By advisement, select offerings in the Academy's IDSN and PRIN graduate programs

Venture Management

- ACAD 315x Basics of Project and Operations Management for Non-Majors Units: 2
- ACCT 380x Introduction to Enterprise Risk Management Units: 4
- ACCT 387 Risk Management in Entertainment, Sports and the Arts Units: 4
- FBE 403 Introduction to the Legal Environment of Business Units: 4
- FBE 458 Law of Forming, Financing and Managing Businesses Units: 4
- MOR 431 Interpersonal Competence and Development Units: 4
- MOR 461 Design of Effective Organizations Units: 4

Communication

- ACAD 206 Communication and Culture Units: 4
- ACAD 217 Designing Immersive Media Units: 4

- ACAD 255 Advancing Journalism with Human-Centered Design Units: 4
- ACAD 256 Designing for News and Information Units: 4
- ACAD 317 Designing Media Studio Units: 4
- ACAD 375 Business and Professional Communication Units: 4
- JOUR 200w The Power and Responsibility of the Press Units: 4
- JOUR 210x Basics of News Production for Non-Majors Units: 2
- JOUR 472 Strategies for Monetizing New Media Units: 4

Mechanics and Materials

- ACAD 203 Statics Units: 3
- ACAD 204 Strength of Materials Units: 3
- ACAD 308 Computer-Aided Design for Bio-Mechanical Systems Units: 3
- ACAD 312 Materials Behavior and Processing Units: 4
- AME 231L Mechanical Behavior of Materials Units: 3
- AME 301 Dynamics Units: 3

Health Innovation

- ACAD 260 Introduction to Healthcare Innovation Units: 4
- ACAD 261 Human Health and Technology Units: 4
- ACAD 362 Analytics for Health Innovators Units: 4
- ACAD 463 Evidence Based Medicine for Health Innovators Units: 2
- ACAD 464 Mining Health Data Through Machine Learning Units: 4

Other

- ACAD 301 Understanding Play Units: 4
- ACAD 350 International Experience Units: 2
- ACAD 450 Industry Lab Units: 2
- ACAD 490 Directed Research Units: 1, 2, 3, 4, 5, 6, 7, 8
- ACAD 499 Special Topics Units: 2, 3, 4 (select offerings)
- By advisement, other ACAD offerings as they may arise
- By advisement, select offerings in the Academy's IDSN and PRIN graduate programs

General Education Requirements

The university's general education program provides a coherent, integrated introduction to the breadth of knowledge you will need to consider yourself (and to be considered by other people) a generally well-educated person. This program is effective for all students entering USC in fall 2015 or later, or transfer students beginning college elsewhere at that time and subsequently transferring to USC. It requires eight courses in six Core Literacies, plus two courses in Global Perspectives (which may double-count with courses in the Core Literacies) and two courses in writing. For more information about USC's general education requirements, see the General Education Program for more information.

Sample Four-Year Program

Year 1 - Fall

- ACAD 174 Innovators Forum Units: 2
- ACAD 176 Rapid Visualization Units: 4
- ACAD 177 Digital Toolbox: Design Units: 2
- ACAD 180 Digital Toolbox: Sound and Audio Units: 2
- ACAD 181g Disruptive Innovation Units: 4
- General Education Seminar Units: 4

Total units: 18

Year 1 - Spring

- ACAD 174 Innovators Forum Units: 2
- ACAD 178 Digital Toolbox: Motion Graphics Units: 2
- ACAD 187 Digital Toolbox: 3D Design Units: 2
- ACAD 182 Case Studies in Innovation Units: 4
- ACAD 275 Dev I Units: 4
- WRIT 150 Writing and Critical Reasoning–Thematic Approaches Units: 4

Total units: 18

Year 2 - Fall

- ACAD 207 Designing Narrative Media Units: 4
- ACAD 240 Materials: Denim to Nanotubes Units: 4
- ACAD 276 Dev II Units: 4
- ACAD 324g The Practice of Design: Ideation to Innovation Units: 4

Total units: 16

Year 2 - Spring

- ACAD 360 Design Strategy: Problem Solving for Organizations Units: 4
- General Education Units: 4

Choose one from the following:

- ACAD 280 Designing Digital Experiences Units: 4
- ACAD 281 Designing Live Experiences Units: 4

Choose one from the following:

- ACAD 217 Designing Immersive Media Units: 4
- ACAD 245 Designing Products I Units: 4
- ACAD 277 Dev III: Designing Applications for Emerging Platforms Units: 4

Total units: 16

Year 3 - Fall

- ACAD 302 The Hacker Imagination: from Ancient Greece to Cupertino Units: 4
- WRIT 340 Advanced Writing Units: 3, 4
- ACAD 376 Industry Practicum I: Designing and Implementing Real-World Solutions Units: 4
- General Education Units: 4

Total units: 16

Year 3 - Spring

Choose one 4-unit course or two 2-unit courses from the following:

- ACAD 377 Industry Practicum II: Designing and Implementing Real-World Solutions Units: 4
- ACAD 450 Industry Lab Units: 2
- PRIN 550 Industry Lab Units: 2
- IDSN 515 Professional Practices Residential Units: 2
- Major Elective Units: 4
- General Education Units: 8

Total units: 16

Year 4 - Fall

- ACAD 475a The Garage Experience Units: 4
- Major Elective Units: 4
- General Education Units: 8

Total units: 16

Year 4 - Spring

- ACAD 475b The Garage Experience Units: 4
- Major Elective Units: 4
- General Education Units: 4

Total units: 12

Minor

Designing for Digital Experiences Minor

The Designing for Digital Experiences minor provides students in all fields of study an opportunity to gain essential knowledge and skills in interaction design. Courses focus on the tools required to implement powerful interactive visual and touch experiences, as well as the conceptual and theoretical knowledge necessary to apply universal standards for human-centered design. The minor is of particular interest to students wishing to further develop highly sought-after specializations such as interaction design, data visualization, app design, social media marketing and digital art direction.

Additional electives, including in other schools at USC, will be considered through student advisement.

Information on how to apply for the minor can be found at: **iovine-young.usc.edu**

Required Courses (16 units)

Students must complete the following 16 units:

- ACAD 177 Digital Toolbox: Design Units: 2
- ACAD 178 Digital Toolbox: Motion Graphics Units: 2
- ACAD 275 Dev I Units: 4
- ACAD 280 Designing Digital Experiences Units: 4
- ACAD 324g The Practice of Design: Ideation to Innovation Units: 4

Electives (8 units)

Students must complete 8 units from the following:

- ACAD 180 Digital Toolbox: Sound and Audio Units: 2
- ACAD 207 Designing Narrative Media Units: 4
- ACAD 276 Dev II Units: 4
- ACAD 277 Dev III: Designing Applications for Emerging Platforms Units: 4
- ACAD 307 Multimedia for Designers and Entrepreneurs II Units: 4
- ACAD 407 Multimedia for Designers and Entrepreneurs III Units: 4
- ACAD 490 Directed Research Units: 1, 2, 3, 4, 5, 6, 7, 8
- ACAD 491 Individual Instruction Units: 1, 2, 3, 4
- DSCI 454 Data Visualization and User Interface Design Units: 4

Designing for Live Experiences Minor

The Designing for Live Experiences minor provides USC students, in all fields of study, the opportunity to gain essential knowledge and skills as related to human-centered interactivity and learning in and with our physical environments. Courses focus on the practical tools needed to assess, interpret, ideate, and solve for successful interactions and memory making. Benefits of considered physical experience design solutions lead to a repeat customer base, meaningful community engagement, and relevance in the competitive landscape of service and education design. This minor is of particular interest to students wishing to expand their understanding of user interactions with spatial design and how to capture prolonged, and repeat engagement.

Additional electives, including in other schools at USC, will be considered through student advisement.

Information on how to apply for the minor can be found at: **iovine-young.usc.edu**

Required Courses (16 units)

Students must complete the following 16 units:

- ACAD 176 Rapid Visualization Units: 4
- ACAD 177 Digital Toolbox: Design Units: 2
- ACAD 187 Digital Toolbox: 3D Design Units: 2
- ACAD 281 Designing Live Experiences Units: 4
- ACAD 324g The Practice of Design: Ideation to Innovation Units: 4

Electives (8 units)

Students must complete 8 units from the following:

- ACAD 178 Digital Toolbox: Motion Graphics Units: 2
- ACAD 207 Designing Narrative Media Units: 4
- ACAD 240 Materials: Denim to Nanotubes Units: 4
- ACAD 307 Multimedia for Designers and Entrepreneurs II Units: 4
- ACAD 490 Directed Research Units: 1, 2, 3, 4, 5, 6, 7, 8
- ACAD 491 Individual Instruction Units: 1, 2, 3, 4
- ARCH 106x Workshop in Architecture Units: 2
- ARCH 465 The Landscape Imaginary Units: 4
- THTR 330 Scene Design I Units: 4
- THTR 332 Lighting Design I Units: 4

Designing Multimedia Experiences Minor

Entrepreneurs, content creators and experience designers in today's tech- and visuals-rich market environments must understand how multimedia platforms interconnect. Facility with state-of-the-art 2D, 3D and immersive visual and audio tools, and the ability to combine and integrate them successfully to create compelling and persuasive experiences, is essential. The learning approach in this minor combines design-driven, user-focused theory with hands-on, practical tools and production skills that include photo, video, audio, graphics, motion graphics, motion capture and more. Within a studio critique model, technology and visual design fundamentals are combined with entrepreneurial and design thinking perspectives. These skills and techniques will augment and enhance the knowledge students learn in their USC majors, allowing them to excel in virtually any future field of endeavor.

Additional electives, including in other schools at USC, will be considered through student advisement.

Information on how to apply to the minor can be found at: *iovine-young.usc.edu*

Required Courses (20 units)

Students must complete the following 20 units:

- ACAD 177 Digital Toolbox: Design Units: 2
- ACAD 178 Digital Toolbox: Motion Graphics Units: 2
- ACAD 180 Digital Toolbox: Sound and Audio Units: 2
- ACAD 187 Digital Toolbox: 3D Design Units: 2
- ACAD 207 Designing Narrative Media Units: 4
- ACAD 217 Designing Immersive Media Units: 4
- ACAD 317 Designing Media Studio Units: 4

Electives (4 units)

Students must complete 4 units from the following:

- ACAD 176 Rapid Visualization Units: 4
- ACAD 200 Advanced Sound and Audio Units: 4
- ACAD 275 Dev I Units: 4
- ACAD 280 Designing Digital Experiences Units: 4
- ACAD 324g The Practice of Design: Ideation to Innovation Units: 4
- ACAD 491 Individual Instruction Units: 1, 2, 3, 4
- ACAD 490 Directed Research Units: 1, 2, 3, 4, 5, 6, 7, 8

Designing Products Minor

The minor in Designing Products provides a deeper understanding of the design process leading to the creation of consumer products and services, including the fundamentals of design strategy and human-centered design as they relate to successful ideation and launch of new ideas. Students will learn the methods by which professional product design decisions are made through an intense studio-based curriculum, and will be guided through hands-on application of acquired knowledge and skills in the areas of user research, market opportunity, consumer insights, competitive analysis, ideation, 3D form development, production methodologies, branding, packaging, marketing and distribution.

Utilizing state-of-the-art physical and digital production facilities in Iovine and Young Hall, the Designing Products minor course of study focuses not just on the process of refining a product's function and aesthetic qualities, but also on determining its relevance to society, and its desirability, feasibility and viability as a potential solution to problems facing for- or non-profit market environments.

Information on how to apply for the minor can be found at: *iovine-young.usc.edu*.

Required Courses (24 units)

Students must complete the following 24 units:

- ACAD 176 Rapid Visualization Units: 4
- ACAD 188 Digital Toolbox: Modeling Products I Units: 2
- ACAD 189 Digital Toolbox: Modeling Products II Units: 2
- ACAD 240 Materials: Denim to Nanotubes Units: 4
- ACAD 245 Designing Products I Units: 4
- ACAD 345 Designing Products II Units: 4
- ACAD 445 Designing Products III Units: 4

Disruptive Innovation Minor

Disruptive innovation results from a discovery that radically changes an existing economic or social system. Successful entrepreneurs understand that disruption is only the beginning, and lasting innovation requires both creativity in generating fresh,

bold new ideas, and an understanding of the constant interplay of economic, technological, cultural and social forces that drive the use and consumption of products, goods and services. Innovators who maintain success and momentum over long periods have learned to anticipate and adapt to trends by focusing on the needs and opportunities presented by society itself, and by utilizing the techniques of human-centered design to identify and solve problems that matter. This minor offering from USC's revolutionary Iovine and Young Academy offers a uniquely interdisciplinary, hands-on approach to provide students with the knowledge and skills to understand, nurture and drive innovation. The course work in this minor delivers a range of fundamental theories, frameworks and experiences to augment and enhance the knowledge students are gaining in their majors with an understanding of the techniques, methods and methodologies of the world's greatest innovators.

Additional electives, including in other schools at USC, will be considered through student advisement.

Information on how to apply for the minor can be found at: **iovine-young.usc.edu**

Required Courses (20 units)

Students must complete the following 20 units:

- ACAD 176 Rapid Visualization Units: 4
- ACAD 181g Disruptive Innovation Units: 4
- ACAD 182 Case Studies in Innovation Units: 4
- ACAD 324g The Practice of Design: Ideation to Innovation Units: 4
- ACAD 360 Design Strategy: Problem Solving for Organizations Units: 4

Electives (4 units)

Students must complete 4 units from the following:

- ACAD 207 Designing Narrative Media Units: 4
- ACAD 245 Designing Products I Units: 4
- ACAD 260 Introduction to Healthcare Innovation Units: 4
- ACAD 275 Dev I Units: 4
- ACAD 302 The Hacker Imagination: from Ancient Greece to Cupertino Units: 4
- ACAD 490 Directed Research Units: 1, 2, 3, 4, 5, 6, 7, 8
- ACAD 491 Individual Instruction Units: 1, 2, 3, 4
- ITP 479 Cyber Law and Privacy Units: 3

Health Innovation Minor

The potential for innovation at the intersection of health, medicine, design and technology is exploding. In order to take full advantage of the entrepreneurial and research opportunities in this space, a new style of undergraduate education is necessary for a new generation of learners – agile and adaptive thinkers who cross easily from discipline to discipline, steadily advancing the role that technology plays in our present and our future. Because of their strong interdisciplinary foundations, the USC Iovine and Young Academy and the USC Keck MESH Academy are uniquely poised to take the lead in the design and implementation of such a curriculum, one that will provide the knowledge and skills necessary to succeed in the emerging field of health innovation.

Information on how to apply for the minor can be found at: *iovine-young.usc.edu*.

Required Courses (22 units)

Students must complete the following 22 units:

- ACAD 174 Innovators Forum Units: 2
- ACAD 176 Rapid Visualization Units: 4
- ACAD 181g Disruptive Innovation Units: 4
- ACAD 260 Introduction to Healthcare Innovation Units: 4
- ACAD 362 Analytics for Health Innovators Units: 4
- PPD 330 Introduction to Health Care Systems Units: 4

Electives (6 units)

Students must complete 6 units from the following:

- ACAD 245 Designing Products I Units: 4
- ACAD 261 Human Health and Technology Units: 4
- ACAD 360 Design Strategy: Problem Solving for Organizations Units: 4
- ACAD 463 Evidence Based Medicine for Health Innovators Units: 2
- ACAD 464 Mining Health Data Through Machine Learning Units: 4
- MEDS 260 Challenges in the Forefront of Biomedical Ethics Units: 2
- PM 501 Foundations in Health Education and Promotion Units: 4
- PPD 325 Fundamentals of Health Policy and Management Units: 4

News and Information Innovation Minor

Technology has disrupted the news and information sphere at a frenetic pace. Almost anyone with a message now has the means to distribute it widely, but competition is fierce, attention spans are short and trust is low. The surge of information has weakened traditional journalistic gatekeepers and emboldened actors unconcerned with the public good. Solving the most important challenges of our time, including climate change, rising levels of inequality and global instability, will require citizens armed with accurate and reliable news and information. The News and Information Innovation minor combines Annenberg's journalistic expertise with the collaborative team- and design-based strategies fostered at the Iovine and Young Academy to give students from across the university the mindset and skills needed to be thought leaders and change agents in the information ecosystem. Through this minor, students have the opportunity to think differently about how journalism functions in order to innovate the practice through human-centered-design, product innovation, entrepreneurialism, and service design.

Additional electives, including in other schools at USC, will be considered through student advisement.

Information on how to apply for the minor can be found at: *iovine-young.usc.edu.*

Required Courses (16 units)

Students must complete the following 16 units:

- ACAD 174 Innovators Forum Units: 2
- ACAD 207 Designing Narrative Media Units: 4
- ACAD 255 Advancing Journalism with Human-Centered Design Units: 4
- JOUR 200w The Power and Responsibility of the Press Units: 4
- JOUR 210x Basics of News Production for Non-Majors Units: 2

Electives (8 units)

Students must complete 8 units from the following:

- ACAD 176 Rapid Visualization Units: 4
- ACAD 181g Disruptive Innovation Units: 4
- ACAD 187 Digital Toolbox: 3D Design Units: 2
- ACAD 206 Communication and Culture Units: 4
- ACAD 217 Designing Immersive Media Units: 4
- ACAD 256 Designing for News and Information Units: 4
- ACAD 275 Dev I Units: 4
- ACAD 280 Designing Digital Experiences Units: 4
- ACAD 302 The Hacker Imagination: from Ancient Greece to Cupertino Units: 4
- ACAD 324g The Practice of Design: Ideation to Innovation Units: 4
- JOUR 460 Social Responsibility of the News Media Units: 4
- JOUR 472 Strategies for Monetizing New Media Units: 4
- JOUR 489 Hands-on Disruption: Experimenting with Emerging Technology Units: 2
- JOUR 495 Journalism for Mobile and Emerging Platforms Units: 2
- PR 488 Multimedia PR Content: Visual Communication of Information Units: 2

Master's Degree

Integrated Design, Business and Technology (MS)

The Master of Science in Integrated Design, Business and Technology is an online graduate degree program that provides a first-of-its-kind interdisciplinary education at the intersection of the educational and professional disciplines central to our changing world. The program creates leaders with diverse and creative ways of thinking and doing – trained to recognize and cultivate innovation, catalyze change, and leverage new opportunities to not only support, but also help shape and build our rapidly evolving economy.

This program brings together faculty and experts from across the USC campus. Instructors work in cross-disciplinary teams, covering subjects that include conceiving and developing solutions to complex design, business and technological challenges; using data and research to create a portfolio of problem-solving approaches, and how to manage and adapt to uncertainty.

The Master of Integrated Design, Business and Technology is a master of science degree offered predominantly online and is composed of both asynchronous and synchronous sessions. Students also participate in two, intensive residential experiences – the first to be held on the University of Southern California's campus in Los Angeles and the second at locations across the United States.

For admission requirements, refer to *design.usc.edu/admissions/admissions-requirements*.

Program Requirements

At least 38 units are required for the Master of Science in Integrated Design, Business and Technology. The course of study can be completed in five terms, and must include:

Required Residential Courses

- IDSN 510 Integrative Practices Residential Units: 2
- IDSN 515 Professional Practices Residential Units: 2

Required Core Courses

- IDSN 540 Processes and Perspectives Units: 4
- IDSN 545 Integrative Project Units: 3
- IDSN 550 Opportunity and Uncertainty Units: 4
- IDSN 560 Narrative and Storytelling Units: 4
- IDSN 585 Capstone Units: 3

Select 6 Units from the Following Courses

- IDSN 520 Design Essentials Units: 3
- IDSN 525 Business Essentials Units: 3
- IDSN 530 Technology Essentials Units: 3

Select 10 Units from the Following Electives

- IDSN 428 Overview of Intellectual Property Laws for Creatives and Entrepreneurs Units: 1
- IDSN 505 Intensive Units: 0.5, 1, 1.5, 2 (1-6 units)
- IDSN 515 Professional Practices Residential Units: 2
- IDSN 520 Design Essentials Units: 3
- IDSN 525 Business Essentials Units: 3
- IDSN 528 Using Intellectual Property Laws to Protect Your Products and Ideas Units: 2
- IDSN 530 Technology Essentials Units: 3
- IDSN 533 Visual Software Development Units: 2
- IDSN 536 Designing Networked Objects: From IoT to Smart Environments Units: 3
- IDSN 546 Integrative Studio Units: 2 (2-4 units)
- IDSN 565 Sound and Story Units: 2
- IDSN 570 Decisions and Solutions Units: 4
- IDSN 577 Finance for Entrepreneurs Units: 3
- IDSN 590 Directed Research Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 (1-4 units)
- IDSN 599 Special Topics Units: 1, 2, 3, 4, 5, 6, 7, 8 (1-8 units)

Product Innovation (MS)

The Master of Science in Product Innovation addresses the 21st century need for advanced, cross-disciplinary knowledge and skills across the product development landscape. Building on a foundation that explores new paradigms for physical, virtual and hybrid product design, students are able to tailor the program to develop design specializations that range from physical objects, to digital and interactive systems and experiences, to unique offerings that require knowledge and experience across multiple realms. Applied techniques and methodologies are augmented at each level of the program with specially crafted courses that provide essential theoretical and cultural context for advanced work, and by modules and courses covering critical elements of product venture development, including strategies for launch, management and growth. Utilizing the Academy's network of leading industry partners, a strong emphasis is placed on collaborations between student teams and select companies and institutions, as well as other opportunities that provide real-world challenges for enhanced learning.

Applicants should hold an undergraduate degree in a design-related field, including: all areas of design, such as graphic, industrial, product (including fashion), and UI/UX or interaction design (including games); select areas of engineering; and architecture. Applicants who possess equivalent professional experience or who hold degrees in other fields, including business, are welcome to apply and will be considered on a case-by-case basis.

Applicants who cannot demonstrate sufficient design-based skills may be required to complete additional course work before registering for degree requirements or electives.

Program Requirements:

At least 64 units, including 52 units in the core and 12 units of electives.

Core Courses (52 units):

- PRIN 501 The Creator's Mindset Units: 4
- PRIN 502 History and Theory of Product Innovation Units: 2
- PRIN 503 Principles of Human-Centered Design Units: 2
- PRIN 504 Aesthetics of Form I Units: 4
- PRIN 505 Aesthetics of Form II Units: 4
- PRIN 510 Foundation Studio Units: 4 *
- PRIN 515 Maker Foundation I Units: 2 *
- PRIN 516 Maker Foundation II Units: 2 *
- PRIN 520 Creators Studio Units: 4
- PRIN 525 Physical Maker Lab Units: 2
- PRIN 526 Virtual Maker Lab Units: 2
- PRIN 530 Business Essentials for Product Innovators Units: 4
- PRIN 531 Product Venture Design and Foresight Units: 4
- PRIN 532 Leading Product Enterprises Units: 4
- PRIN 535 Entrepreneur Lab Units: 2
- PRIN 550 Industry Lab Units: 2
- PRIN 575a The Garage Experience Units: 2
- PRIN 575b The Garage Experience Units: 2

Electives (take an additional 12 units from the following):

- PRIN 525 Physical Maker Lab Units: 2 **
- PRIN 526 Virtual Maker Lab Units: 2 **
- PRIN 535 Entrepreneur Lab Units: 2 **
- PRIN 550 Industry Lab Units: 2
- PRIN 590 Directed Research Units: 1,2,3,4,5,6,7,8,9,10,11,12 ***

Note:

**Topics and titles for sections PRIN 525, 526, and 535 rotate on a regular basis. Sections bearing the same title or content may not be repeated for credit towards the degree.

***PRIN 590 may be applied as an elective for up to eight units.

Additional courses within the Iovine and Young Academy or other departments and schools at USC are eligible for elective credit in the MS-PRIN degree based on advisement and approval by the Associate Dean for Admission and Student Affairs.

Sample Schedule Semester 1

16 units

- PRIN 501 The Creator's Mindset Units: 4
- PRIN 502 History and Theory of Product Innovation Units: 2
- PRIN 503 Principles of Human-Centered Design Units: 2
- PRIN 510 Foundation Studio Units: 4
- PRIN 515 Maker Foundation I Units: 2
- PRIN 516 Maker Foundation II Units: 2

Sample Schedule Semester 2

16 units

- PRIN 504 Aesthetics of Form I Units: 4
- PRIN 520 Creators Studio Units: 4
- PRIN 525 Physical Maker Lab Units: 2
- PRIN 526 Virtual Maker Lab Units: 2
- PRIN 530 Business Essentials for Product Innovators Units: 4

Sample Schedule Semester 3

16 units

- PRIN 505 Aesthetics of Form II Units: 4
- PRIN 531 Product Venture Design and Foresight Units: 4
- PRIN 535 Entrepreneur Lab Units: 2
- PRIN 550 Industry Lab Units: 2
- PRIN 575a The Garage Experience Units: 2
- Elective Units: 2

Sample Schedule Semester 4

16 units

- PRIN 532 Leading Product Enterprises Units: 4
- PRIN 575b The Garage Experience Units: 2
- Elective Units: 10

Graduate Certificate

The Business of Product Innovation Certificate

The Certificate in The Business of Innovation will provide students with a strong foundation in areas of entrepreneurship specific to developing and launching consumer products and product-based companies. Students will gain knowledge in critical areas including: historical milestones of product design and product innovation and how these products opened up new business opportunities to disrupt the status quo; developing and launching products, from product roadmapping, to value chain, to brand and marketing strategy; identifying and activating groundbreaking opportunities in new product development; and launching product-based ventures and enterprises.

Information on how to apply to the certificate can be found at: **iovine-young.usc.edu**

Required Courses (16 units)

- PRIN 502 History and Theory of Product Innovation Units: 2
- PRIN 530 Business Essentials for Product Innovators Units: 4
- PRIN 531 Product Venture Design and Foresight Units: 4
- PRIN 532 Leading Product Enterprises Units: 4
- PRIN 535 Entrepreneur Lab Units: 2

The Foundations of Product Innovation Certificate

The Certificate in The Foundation of Product Innovation provides students with a strong foundation in the theory and practice of consumer product design and development. Students will gain knowledge in critical areas including: the mindsets, personalities and social, cultural and political factors that led to the world's greatest breakthroughs; the process of bringing a product from concept to market, including theory and applied techniques for both physical and virtual products; advanced visualization concepts, techniques and tools used to communicate ideas, solve problems and enhance collaboration for product design and development; and explorations of digital design tools, including industry standard software.

Students will then apply what they have learned through product design studios and labs utilizing the Academy's state of the art maker facilities. In addition to the methods and practices of traditional product design, the course sequence explores new paradigms for physical, virtual, and hybrid products, ranging from objects and built environments, to digital, immersive and interactive experiences.

Information on how to apply to the certificate can be found at: **iovine-young.usc.edu**

Required Courses (16 units)

- PRIN 501 The Creator's Mindset Units: 4
- PRIN 502 History and Theory of Product Innovation Units: 2
- PRIN 503 Principles of Human-Centered Design Units: 2
- PRIN 510 Foundation Studio Units: 4
- PRIN 515 Maker Foundation I Units: 2
- PRIN 516 Maker Foundation II Units: 2

USC Leventhal School of Accounting

The USC Leventhal School of Accounting is dedicated to maintaining a leadership position in accounting education and research. We are committed to educational programs that seek to establish in each graduate the potential for career development into the highest executive levels of public accounting, controllership, financial management and management of accounting information systems. The accounting curriculum explores not only the state of the art but also seeks to explore the accounting discipline's future structures and directions. Relevant concepts and techniques from other academic disciplines are drawn upon and integrated into all accounting programs.

Accounting education has been an integral part of USC since 1920, when the Department of Accounting offered a Bachelor of Science degree in business administration with an emphasis in accounting. The Leventhal School of Accounting was established in 1979 in recognition of the growing importance of accounting to our economy and broader society. It continues to rank as one of the premier AACSB-accredited accounting programs in the nation.

Currently the Leventhal School of Accounting undergraduate program offers a Bachelor of Science accounting degree. Honors students may be eligible for early admission to the graduate program, an efficient way to complete both undergraduate and graduate degrees. An accounting minor is also offered to students outside the USC Marshall School of Business. The school also offers a minor in risk management. Graduate programs include Master of Accounting; Master of Accounting with an emphasis in Data and Analytics; Master of Business Taxation; a Master of Business Taxation (Data and Analytics); a Master of Business Taxation for working professionals; and a Juris Doctor/Master of Business Taxation in conjunction with the USC Gould School of Law. A PhD degree with an accounting major is offered through the doctoral program in the Marshall School of Business.

**Recipient of university-wide or school teaching award.*

Degree Programs

Undergraduate Degree

Bachelor of Science, Accounting

The USC Leventhal School of Accounting offers the Bachelor of Science, Accounting (BS) degree designed to provide students with a broad foundation in accounting and business to prepare them for entry into the professional program leading to a Master of Accounting or Master of Business Taxation degree. The undergraduate curriculum also provides the background necessary for direct entry into the accounting profession.

Graduate Degrees

Master of Accounting

The Master of Accounting (MAcc) program provides an integrated curriculum designed to prepare graduates for careers in professional accounting, public accounting, industry and government. Students have the opportunity to study accounting in greater depth and in more areas of specialization than in undergraduate accounting programs or MBA programs with concentrations in accounting. Students have flexibility in elective choices to reflect their career goals.

Master of Accounting (Data and Analytics)

The Master of Accounting, Data and Analytics emphasis (MAcc D+A) delivers a firm foundation in accounting, audit and financial reporting with a focus on data and analytics and the enabling of IT capabilities. The exclusive career focus for the D+A emphasis is on the role of an auditor.

Master of Business Taxation

The Master of Business Taxation (MBT) degree is offered to both full-time and part-time students. The program is designed for accountants, attorneys and business professionals who wish to learn or improve skills and knowledge through participation in advanced tax study. Students have flexibility in elective choices to reflect their career focus and goals. The part-time program is referred to as the MBT for Working Professionals (MBTWP).

Master of Business Taxation (Data and Analytics)

The Master of Business Taxation with an emphasis in data and analytics (MBT D&A) delivers a firm foundation in taxation with a focus on data and analytics and the enabling of IT capabilities. This program provides a rigorous approach and will require students to develop strong analytical skills while focusing on such

areas as tax research, corporate taxation, accounting methods and multijurisdictional taxation. Tax instruction is further enhanced by incorporating data analysis into the tax curriculum with the goal of providing students with an understanding of how to capture data, analyze it, draw conclusions and present those conclusions to disparate audiences.

Juris Doctor/Master of Business Taxation

The USC Gould School of Law and the Leventhal School of Accounting offer this dual degree program. Admission to the JD program offered by the Law School is required before applying to the MBT program offered by the Leventhal School of Accounting.

Doctor of Philosophy

The Marshall School of Business offers the Doctor of Philosophy (PhD) degree in conjunction with the Graduate School. A student electing to major in accounting may design a research program that emphasizes auditing, financial accounting, information systems, management accounting or taxation. More information on the doctoral program is available in the USC Marshall School of Business section of this catalogue, or contact the doctoral office at (213) 740-0674 or the director of doctoral studies in accounting at (213) 740-4838.

Admission to Master's Programs

The Leventhal School of Accounting seeks individuals who have the potential for outstanding achievement in accounting or taxation. The Admissions Committee uses the holistic review model. Candidates are reviewed on the merits of their application and the merits of the applicant pool for the year in which they seek admission.

Applicants to the full-time programs are not required to have previous work experience. Applicants to the part-time MBT program (MBTWP) are required to have a minimum of one year full-time professional experience related to taxation after receiving an undergraduate degree.

Application to the Programs

An admission decision requires the following: (1) a completed USC Leventhal School of Accounting online graduate application (available at gradadm.usc.edu/); (2) a non-refundable application fee; (3) one official transcript from the registrar of each college or university attended (undergraduate and/or postgraduate); (4) two letters of recommendation; (5) a professional résumé; (6) an official Graduate Management Admission Test (GMAT) score report or, for JD/MBT applicants or attorneys, an official Law School Admission Test (LSAT) score report; and (7) an essay. Finalists must also complete an interview.

Applicants for the JD/MBT dual degree program should apply to the Leventhal School of Accounting for admission to the MBT program in the second semester of their first year in the USC Gould School of Law. In addition, current Law School transcripts and a "letter in good standing" from the registrar of the Law School must be submitted as part of the application. The same Leventhal School of Accounting admission criteria apply to the MBT portion of the JD/MBT program.

International Students

In addition to the application requirements noted above, all international students must submit TOEFL or IELTS scores. A letter of financial support is also required.

MAcc/MBT for Current USC Students

The Leventhal School of Accounting offers the opportunity to earn both a bachelor's degree and a master's degree in five years or less. This simplified, early admission process is for current USC students who have demonstrated exceptional academic success in undergraduate studies and who have completed a minimum of 70 units of course work. Strong SAT scores may be substituted for GMAT scores for continuing USC students only.

Please see a Leventhal School of Accounting academic adviser for further information and to develop a course plan proposal.

Application Deadlines

Full-time MAcc and MBT – Applicants are urged to file a completed application as early as possible. For applications to the full-time programs that begin in summer or fall, the online application system is generally open beginning early October. For more information regarding application deadlines go to our website marshall.usc.edu/programs/graduate-accounting-programs.

MBT for Working Professionals – For more information regarding application deadlines go to our website marshall.usc.edu/programs/graduate-accounting-programs.

Residence Requirements

Subject to approval of the Leventhal School of Accounting, the maximum number of transfer credits that may be applied toward the master's degree is 3 units. To be applied to the degree, transfer work must have been completed within five years of admission to the master's program. Graduate transfer credit will not be granted for course work taken elsewhere after a student has been admitted and enrolled at USC. Credit will only be allowed for courses (1) from an AACSB-accredited graduate school, (2) of a quality of at least 3.0 on a 4.0 grading scale, (3) constituting a fair and reasonable equivalent to current USC course work at the graduate level, and (4) fitting into the logical program for the degree. Transfer course work is applied as credit (CR) toward the degree and is not included in the calculation of a minimum grade point average for graduation.

Waivers

With the written approval of the Leventhal School of Accounting, waiver of required courses may be granted to students based upon prior academic work. All waived courses must be replaced with approved electives. Students should carefully read their program evaluation form to know what electives must be taken if they are granted subject waivers.

Bachelor's Degree

Accounting (BS)

The USC Leventhal School of Accounting Bachelor of Science, Accounting (BS) degree is designed to provide students with a broad foundation in accounting and business to prepare them for entry into the professional program leading to a Master of Accounting or Master of Business Taxation degree. The undergraduate curriculum also provides the background necessary for direct entry into the accounting profession. The BS, Accounting degree is a 128-unit program.

Admission

Students may be admitted to the program as incoming freshmen, as USC undergraduates transferring from another major or as students transferring from another college or university. Admission to Leventhal is dependent on admission to the university and on academic performance, particularly in quantitative areas. USC students who have not been admitted to the major or the minor in the Marshall School of Business and/or the Leventhal School of Accounting may complete a maximum of 12 units from the Marshall School of Business and/or the Leventhal School of Accounting. No further course work may be taken unless a student is admitted.

Leventhal/Marshall Honors

Leventhal/Marshall Honors is available upon graduation to majors in accounting or business administration and results in a special designation of departmental honors on a student's transcript. Acceptance to the program requires completion of at least 64 units of course work (including transfer units), a GPA of 3.5 or higher in course work to be applied to the major, an application, and a successful interview with the director of the program. Achievement of Leventhal/Marshall Honors requires completion of ACCT 493 Honors Research Seminar prior to the senior year, a thesis (research project and paper) conducted under the guidance of a Leventhal or Marshall faculty member during the senior year, and minimum GPA of 3.5 in upper-division

Leventhal School of Accounting and Marshall School of Business courses applied to the major. For additional information, contact the Leventhal School of Accounting Undergraduate Program Office in ACC 101, (213) 740-4838.

Advisement

Academic advisement is provided through the Leventhal School of Accounting Undergraduate Program Office in Accounting 101, (213) 740-4838. Students are required to meet with an academic adviser before registering and this requirement remains in effect until 24 USC units are completed. However, all students are encouraged to see an academic adviser on a regular basis. A record of each student is kept on file. Appointments for advisement may be scheduled at most times during the academic year. However, during busy times such as the preregistration, registration and drop/add periods, advisers may be available on a walk-in basis only.

The Leventhal Undergraduate Program Office and Marshall Undergraduate Student Services offer students assistance in networking, finding internships, resume writing, interviewing techniques and other career-related issues.

Transferring College Credit

College Courses

USC has established articulation agreements with most community colleges throughout California. Most academic courses are acceptable for transfer credit from a two-year school, but students may not receive credit for specialized, technical or remedial courses.

Courses that do not appear on the articulation agreement are not transferable. A maximum of 64 semester units may be transferred. Check with the Degree Progress Department (JHH 010) for questions about transferable courses or see a counselor in Accounting 101.

Official transcripts of college work taken elsewhere must be submitted, at the time of application, to the USC Office of Admission. A credit evaluation will be completed, which will list transfer courses accepted for credit. All business courses completed at a two-year college, if transferable, will be considered elective credit.

There is one exception to this policy. Students may transfer two semesters of introductory accounting and receive credit equivalent to one semester of introductory accounting at USC. Then students can register for BUAD 305 Abridged Core Concepts of Accounting Information and complete their accounting course requirement in one semester at USC. In this case, students would not be required to take BUAD 280 or BUAD 281.

Four Year Colleges

Most courses are acceptable for unit credit from all fully accredited four-year institutions. If the courses do not satisfy specific subject requirements at USC, they will be accepted for elective course credit.

Students are urged to complete all their required business administration courses at USC. All business courses from four-year institutions, if transferable, will be considered elective credit unless a challenge examination is passed. Only core classes, with the exception of BUAD 497, may be challenged. Students should consult with an academic adviser in Bridge Hall 104 to initiate the challenge examination process.

Grade Point Average Prerequisites for Transfer Students

Transfer students are required to meet the following grade requirements to be admitted to the Leventhal School of Accounting. An average grade of B in the two transferred accounting courses and BUAD 305 (with no grade lower than B-). Grades in accounting courses taken at other institutions will only be considered in meeting the admission requirement for the Leventhal School of Accounting. Once a transfer student completes a minimum of two accounting courses at USC, the student's accounting grades at the prior institution will no longer be considered in determining whether the student meets the 2.7 grade point average standard (see Grade Point Average Prerequisites following).

In the computation of grade point averages for accounting courses taken at other colleges or universities, the courses will be weighted in terms of the number of units provided for the equivalent USC accounting courses.

Grade Point Average Prerequisites

The following are grade point average prerequisites for any undergraduate student enrolled in any accounting course. Individual instructors may not waive these standards: (1) an average grade of B or better in BUAD 280 and BUAD 281 with no grade lower than a B-; and (2) a minimum 2.7 grade point average (A = 4.0) for all accounting courses taken previously.

In meeting the B average required in BUAD 280 and BUAD 281, only one of the courses may be repeated. If the repeated course grade is higher, that grade will be considered in determining whether the student meets the B average, and the original course grade will be disregarded by the Leventhal School of Accounting in the administration of its grade point average requirements. See Repeated Course Work at USC for further restrictions on including grades in repeated courses in the overall university grade point average computation.

In computing grade point average prerequisites, BUAD 280, BUAD 281 or BUAD 305 will be considered accounting courses.

Probation

When a student's cumulative accounting grade point average falls below 2.7, the student is placed on probation. If a student on probation does not regain a minimum accounting cumulative GPA of 2.7 after completing the next 12 semester hours in all courses (including accounting units) attempted within the university, that student will not be permitted to continue as an accounting major in the Leventhal School of Accounting. Exceptions to this policy may be granted only in unusual circumstances by the Academic Standards Committee of the Leventhal School of Accounting. Decisions of the Academic Standards Committee are final.

To be removed from probationary status, a student may elect to take another accounting course or courses for which prerequisites are met or to repeat an accounting course or courses in an attempt to earn a higher grade. Regardless of the course of action taken, all courses completed will be counted in computing the cumulative accounting grade point average.

A grade of "W" in an accounting course taken while on probation will not extend probation. The probation period ends at the end of that semester during which the student completes a cumulative total of 12 semester hours of courses in any subject(s) at the university. Under no conditions will the student be permitted more than two successive semesters, including the summer semester, to complete the 12 semester hours of courses.

Graduation Standard

Students must attain a minimum 2.7 cumulative accounting grade point average (A = 4.0) to graduate with a Bachelor of Science, Accounting degree.

USC Core Requirements

The university's general education program provides a coherent, integrated introduction to the breadth of knowledge you will need to consider yourself (and to be considered by other people) a generally well-educated person. This program is effective for all students entering USC in fall 2015 or later, or transfer students beginning college elsewhere at that time and subsequently transferring to USC. It requires eight courses in six Core Literacies, plus two courses in Global Perspectives (which may double-count with courses in the Core Literacies) and two courses in writing. See the General Education for more information.

Business Foundation Requirements

All students in the Leventhal School accounting undergraduate degree program take business foundation courses that focus on necessary analytic skills and theoretical knowledge in math, statistics, accounting and economics. Fundamental knowledge of the functional business disciplines and the strategic interplay among them completes the business core.

Accounting/Business Foundation Courses

- BUAD 280 Introduction to Financial Accounting Units: 3
- BUAD 281 Introduction to Managerial Accounting Units: 3
- BUAD 302 Communication Strategy in Business Units: 4
- BUAD 304 Organizational Behavior and Leadership Units: 4
- BUAD 306 Business Finance Units: 4
- BUAD 307 Marketing Fundamentals Units: 4
- BUAD 310g Applied Business Statistics Units: 4 or
- BUAD 312g Statistics and Data Science for Business Units: 4
- BUAD 311 Operations Management Units: 4
- BUAD 351 Economic Analysis for Business Decisions Units: 4 or
- ECON 351x Microeconomics for Business Units: 4
- BUAD 352 Macroeconomic Analysis for Business Decisions Units: 4 or
- ECON 352x Macroeconomics for Business Units: 4
- BUAD 497 Strategic Management Units: 4
- MATH 118gx Fundamental Principles of Calculus Units: 4 * or
- MATH 125g Calculus I Units: 4

Note:

**Placement into MATH 118 is contingent on successful completion of MATH 117 or obtaining an acceptable score on the math placement exam or AP calculus or IB mathematics exam.*

All prerequisites for business and all accounting and business courses must be taken for a letter grade.

A maximum of 24 units of undergraduate course work taken on a pass/no pass basis may be used toward the BS, Accounting degree. No more than four units of credit (or one course) counting toward the general education categories may be taken on a pass/no pass basis. The writing course cannot be taken on a pass/no pass basis.

The Bachelor of Science, Accounting degree includes the following required accounting courses in addition to the accounting/business foundation courses listed above.

Required Accounting Courses

- ACCT 370 External Financial Reporting Issues Units: 4
- ACCT 371 Introduction to Accounting Systems Units: 4
- ACCT 372 Internal Reporting Issues Units: 2
- ACCT 373 Introduction to Auditing and Assurance Services Units: 2
- ACCT 374 Introduction to Tax Issues Units: 2
- ACCT 377 Valuation for Financial Statement Purposes Units: 2
- ACCT 430 Accounting Ethics Units: 4
- ACCT 470 Advanced External Financial Reporting Issues Units: 4
- ACCT 473 Financial Statement Auditing Units: 2 or
- ACCT 474 Tax Issues for Business Units: 2

Elective Courses

Choose one of the following courses:

- ACCT 416 Financial Reporting and Analysis Units: 2
- ACCT 462 Detecting Fraudulent Financial Reporting Units: 2
- ACCT 463 Internal Audit Units: 2
- ACCT 471 Accounting Information Systems Units: 2
- ACCT 472 Managerial Accounting Units: 2
- ACCT 473 Financial Statement Auditing Units: 2 *
- ACCT 474 Tax Issues for Business Units: 2 *
- ACCT 475 Systems Security and Audit Units: 2
- ACCT 476 Performance Measurement Issues Units: 2
- ACCT 477 Intermediate Fair Value Issues in Accounting Units: 2
- ACCT 478 Accounting Systems Design Units: 4
- ACCT 479 Accounting Systems Development Units: 4
- ACCT 493 Leventhal Honors Research Seminar Units: 2

Note:

**If not already completed as a required course*

Minor

Accounting Minor

A minor in accounting is available to students in all schools and departments except the Marshall School of Business. The minor provides the opportunity for non-business majors to gain an understanding, from the perspective of the user of accounting information, of how accounting is used in the business world.

To be approved for the accounting minor, students must have completed a minimum of 32 units of college-level courses and attained a minimum GPA of 2.75.

Successful completion of the minor requires at least 16-18 units with a minimum GPA of 2.0 in the courses applied to the minor:

Minor Course Requirements

Choose one of the following four options: (2-8 units) *

- BUAD 200x Economic Foundations for Business Units: 2 or
- ECON 203g Principles of Microeconomics Units: 4 and
- ECON 205g Principles of Macroeconomics Units: 4 or
- ECON 303 Intermediate Microeconomic Theory Units: 4 ** and
- ECON 305 Intermediate Macroeconomic Theory Units: 4 ** or
- BUAD 351 Economic Analysis for Business Decisions Units: 4 ** or
- ECON 351x Microeconomics for Business Units: 4 ** and
- BUAD 352 Macroeconomic Analysis for Business Decisions Units: 4 ** or
- ECON 352x Macroeconomics for Business Units: 4 **

Required Courses (12 units)

- ACCT 410x Foundations of Accounting Units: 4 or
- BUAD 305 Abridged Core Concepts of Accounting Information Units: 4 or
- BUAD 280 Introduction to Financial Accounting Units: 3 and
- BUAD 281 Introduction to Managerial Accounting Units: 3
- BUAD 215x Foundations of Business Finance Units: 4 ** or
- BUAD 306 Business Finance Units: 4 **
- ACCT 415x Intermediate Financial Accounting for Non-Accounting Majors Units: 4

Electives: Choose two of the following courses (4 units)

- ACCT 372 Internal Reporting Issues Units: 2 **
- ACCT 374 Introduction to Tax Issues Units: 2 **
- ACCT 416 Financial Reporting and Analysis Units: 2 **
- ACCT 462 Detecting Fraudulent Financial Reporting Units: 2 **

Notes:

**Students who have earned scores of 4 or 5 on both the AP Microeconomics and the AP Macroeconomics exams will be waived out of the first requirement.*

***Prerequisites and/or Corequisite required. Plan carefully.*

Risk Management Minor

The minor in Risk Management provides students with the fundamental knowledge of risk management - a crucial component of contemporary management, corporate governance and decision making under uncertain conditions.

The required courses provide the foundation of the risk

management framework and present alternative business models of insurance, the most common form of risk transfer. The electives provide opportunities to more deeply understand facets of risk and the environments in which they arise as well as specific methodologies of mitigation.

Industries currently seeking risk management professionals include entertainment, tech, aviation, hospitality, healthcare, manufacturing, insurance and many others.

A student declaring the minor in Risk Management also has the opportunity to participate in the Risk Management Mentorship Program and be paired with a mentor from the risk management industry for the academic year.

The minor is available to students in all schools and departments except for students pursuing the Business Administration (Risk Management) (BS) emphasis.

To declare this minor, students must have completed a minimum of 32 units of college-level course work and have a minimum overall GPA of 2.75.

Successful completion of the Risk Management Minor requires 16 units with a minimum GPA of 2.0 in the following courses:

Required Courses

- ACCT 380x Introduction to Enterprise Risk Management Units: 4

  Choose one of the following:
- ACCT 385x Introduction to Risk Management and Insurance Units: 4
- ECON 361 Understanding Financial Crises Units: 4 *
- PHIL 258g Probability and Rational Choice Units: 4
- PPD 407 Financial Management of Public and Nonprofit Organizations Units: 4

Electives

Complete at least 8 units from the following:

- ACCT 385x Introduction to Risk Management and Insurance Units: 4 ***
- ACCT 387 Risk Management in Entertainment, Sports and the Arts Units: 4
- BUAD 315x Basics of Project and Operations Management for Non-Majors Units: 2
- COMM 309 Communication and Technology Units: 4
- COMM 422 Legal Issues and New Media Units: 4
- DSO 427 Designing Spreadsheet-Based Business Models Units: 4
- DSO 455 Project Management Units: 4
- ECON 340 Economics of Less Developed Countries Units: 4 *
- ECON 361 Understanding Financial Crises Units: 4 * ***
- FBE 437 Entrepreneurial Finance: Financial Management for Developing Firms Units: 4
- FBE 443 Introduction to Forecasting and Risk Analysis Units: 4 *
- FBE 458 Law of Forming, Financing and Managing Businesses Units: 4
- FBE 459 Financial Derivatives Units: 4 *
- ITP 125L From Hackers to CEOs: Introduction to Information Security Units: 2
- ITP 325 Ethical Hacking and Systems Defense Units: 3 *
- ITP 370 Information Security Management Units: 3
- ITP 375 Digital Forensics Units: 3 *
- ITP 479 Cyber Law and Privacy Units: 3
- PHIL 258g Probability and Rational Choice Units: 4 ***
- PPD 357 Government and Business Units: 4 **
- PPD 358 Urban and Regional Economics Units: 4
- PPD 407 Financial Management of Public and Nonprofit Organizations Units: 4 ***

  ** Prerequisite required that is not part of this minor.*

  *** PPD will waive the prerequisite.*

  **** If not applied to the minor as a required course.*

Master's Degree

Accounting (Data and Analytics) (MAcc)

The Master of Accounting program with an emphasis in data and analytics combines course work from the Leventhal School of Accounting and Marshall's Data Sciences and Operations department. Advances in computing technology are fundamentally changing the way audits are conducted. The data and analytics emphasis of the MAcc is designed to train auditors for the data age.

The program employs a rigorous case analysis approach that requires students to exercise their analytical abilities and develop both teamwork and professional communication skills.

Integrated into the data and analytics emphasis is an audit internship during the spring semester encompassing both audit and data and analytics in an integrated fashion. This required element of the program builds a critical bridge for the student between his or her academic and work lives, ultimately enriching both.

Application

The data and analytics emphasis of the MAcc is open only to individuals who have earned the equivalent of a four-year bachelor of accounting degree from an accredited program. Applicants also must have an offer letter for a spring internship at a "big four" or major national public accounting firm or equivalent. Spring internships must run from January through April and integrate both audit and data analytics.

Program Requirements

The Master of Accounting, Data and Analytics emphasis requires up to 31.5 units including fundamentals, core requirements and electives. Students with prior study in statistics who pass the challenge exam for Data Driven Decision Making receive a waiver reducing the units required to earn the degree to 30.

Fundamentals (1.5 Units)

- GSBA 545 Data Driven Decision Making Units: 1.5

Core (27 Units)

- ACCT 527 Financial Statement Analysis - Audit Perspective Units: 1.5 *
- ACCT 540 Technological Innovations in Accounting and Auditing Units: 3
- ACCT 541L Auditing in the Enhanced Data Age Units: 3 **
- ACCT 542 Fraud Analytics in the Audit Units: 1.5 *
- ACCT 548L IT Audit and Data Applications Units: 3 **
- ACCT 549 Advanced Enterprise Systems and Technologies Units: 3
- ACCT 585 Professional Responsibilities in Accounting Units: 3
- ACCT 595 Internship in Accounting Units: .5, 1, 1.5, 2, 3 ***
- DSO 528 Data Warehousing, Business Intelligence, and Data Mining Units: 1.5, 3 ***
- DSO 545 Statistical Computing and Data Visualization Units: 1.5, 3

Note:

* Prerequisites required
** Corequisites
*** 3-unit version required

Electives (3 Units)

Working with an adviser, students select a minimum of 3 units from the following.

- ACCT 559 Strategy and Operations Through CFO Lens Units: 3
- DSO 510 Business Analytics Units: 1.5, 3
- DSO 522 Applied Time Series Analysis for Forecasting Units: 1.5, 3
- DSO 530 Applied Modern Statistical Learning Methods Units: 3
- DSO 547 Designing Spreadsheet-Based Business Models Units: 3

- DSO 552 SQL Databases for Business Analysts Units: 1.5
- DSO 570 The Analytics Edge: Data, Models, and Effective Decisions Units: 3

Accounting (MAcc)

The Master of Accounting program (MAcc) prepares graduates for careers in public accounting, industry and government. The program offers students technical and conceptual knowledge, professional development, research and lifelong learning, ethical and professional standards and globalization and diversity. For details on these student learning outcomes, see the program Website at *marshall.usc.edu/macc*.

The program employs a rigorous case analysis approach that requires students to exercise their analytical abilities and develop both teamwork and professional communication skills.

Application

An undergraduate accounting or business major is not necessary, nor is work experience a requirement. The program enrolls students in the summer or fall based on their academic backgrounds. For application information visit *marshall.usc.edu/macc/admissions*.

Program Requirements

The Master of Accounting degree requires 48 units, including fundamentals, core requirements and electives.

The Leventhal School of Accounting Master's Program Office evaluates the academic background of each admitted student to determine the courses required to complete the program.

Students admitted for summer term start with ACCT 525 Intensive Accounting Principles and Practices — an eight-week, 40 hours-per-week course for students who have not completed undergraduate degrees or other extensive course work in accounting. This course must be completed successfully prior to beginning the core in the fall.

Students admitted for fall term generally hold a bachelor's degree in Accounting and are waived from the 15-unit ACCT 525 class reducing the number of units required to earn the degree to 33.

USC BS in Accounting students may qualify for waiver of an additional 6 units reducing the number of units required to earn the degree to 27. (USC BS in Accounting students should meet with a graduate adviser during their junior year to determine if they qualify.)

Any of the groups listed above who have taken an equivalent of GSBA 548 Corporate Finance may petition to waive out of the requirement, reducing the number of units required to complete the degree by 3 units.

Degree Requirements

Fundamentals (18 units)

- ACCT 525x Intensive Accounting Principles and Practices Units: 15
- GSBA 548 Corporate Finance Units: 2, 3

Core Program (16.5 Units)

- ACCT 528 Fair Value Accounting: GAAP, IFRS and Emerging Issues Units: 1.5
- ACCT 530L Ethics for Professional Accountants Units: 3
- ACCT 585 Professional Responsibilities in Accounting Units: 3

At least one from the following (to be determined by previous course work)

- ACCT 546 Auditing and Assurance Services Units: 3
- ACCT 557 Advanced Financial Statement Auditing Topics Units: 3

At least one from the following (to be determined by previous course work)

- ACCT 547 Enterprise Information Systems Units: 3
- ACCT 549 Advanced Enterprise Systems and Technologies Units: 3

At least one from the following (to be determined by previous course work)

- BUCO 504T Writing for Accounting and Tax Professionals Units: 3 or
- GSBA 523T Communication for Accounting and Tax Professionals Units: 3 or
- BUCO 503 Advanced Managerial Communication Units: 1.5, 3

Elective Course Work (13.5 Units)

- Select a minimum of 10.5 units of ACCT 5xx electives
- Select a maximum of 6 units of Marshall (BAEP, BUCO, DSO, FBE, GSBA, MKT, MOR) 500-level electives.

Business Taxation (Data and Analytics) (MBT)

Understanding taxation is critical to every business decision and many personal decisions as well. Whether you are preparing for a career as a tax professional in public accounting, industry, government or the investment arena or are starting your own business, tax planning must be done. Because of the complexity of the tax law and its pervasive influence, people facing tax decisions routinely call on tax professionals for advice in planning and structuring their affairs in order to comply with the law and to ensure economic good sense.

The practice of tax is becoming increasingly analytic and data driven. The environment demands great thinking about business, financial and taxation issues. It includes sophisticated IT systems and demands leading edge processes to understand and interact with those systems.

The Master of Business Taxation with an emphasis in data and analytics (MBT D&A) delivers a firm foundation in taxation with a focus on data and analytics and the enabling of IT capabilities. This program provides a rigorous approach and will require students to develop strong analytical skills while focusing on such areas as tax research, corporate taxation, accounting methods, and multijurisdictional taxation. Tax instruction is further enhanced by incorporating data analysis into the tax curriculum with the goal of providing students with an understanding of how to capture data, analyze it, draw conclusions and present those conclusions to disparate audiences.

Admission requirements can be reviewed by visiting marshall.usc.edu/programs/graduate-accounting-programs/master-business-taxation/admissions.

Application

The MBT with data and analytics is open to individuals who have earned the equivalent of a four-year bachelor's degree from an accredited program. An undergraduate degree in accounting or business is not necessary, nor is work experience a requirement. The program enrolls students in the summer or fall based on their academic background. For application information visit marshall.usc.edu/mbt/admissions.

Program Requirements

The Master of Business Taxation with an emphasis in data and analytics (MBT D&A) degree requires 46.5 units, including fundamentals, core requirements and electives.

Academic Background Review and Waivers

The Leventhal School of Accounting Master's Program Office evaluates the academic background of each admitted student to determine the courses required to complete the program.

Students admitted for summer term start with ACCT 525x Intensive Accounting Principles and Practices -- an eight-week, 40 hours-per-week course for students who have not completed undergraduate degrees or other extensive course work in accounting. This course must be completed successfully prior to beginning the core in the fall.

Students admitted for fall term holding a bachelor's degree in Accounting are waived from the 15-unit ACCT 525x course, reducing the number of units required to earn the degree to 31.5.

Fundamentals (15 units)

- ACCT 525x Intensive Accounting Principles and Practices Units: 15

Core Program (22.5 units)

- ACCT 529 Tax Data Analytics Units: 3
- ACCT 531T Taxation of Cross-Border Transactions Using Data Analytics Units: 3
- ACCT 551T Taxation of Partnerships and S-Corps Units: 3
- ACCT 554T Research, Theory and Ethics in Taxation Units: 3
- ACCT 561T Income Tax of Corporations and Their Shareholders Units: 3
- ACCT 580T Tax Accounting Methods Units: 3
- DSO 528 Data Warehousing, Business Intelligence, and Data Mining Units: 1.5, 3
  (3-unit version required)
- DSO 545 Statistical Computing and Data Visualization Units: 1.5, 3
  (1.5-unit version required)

Electives (9 Units)

- Complete at least 6 units of ACCT and/or DSO 500-level electives.
- Complete up to 3 units of FBE, GSBA, and/or MOR 500-level electives.
- All courses taken must be approved by the Leventhal MBT academic adviser.

Total Units Required: 46.5

Business Taxation (MBT)

Understanding taxation is critical to every business decision and many personal decisions as well. Whether you are preparing for a career as a tax professional in public accounting, industry, government or the investment arena or are starting your own business, tax planning must be done. Because of the complexity of the tax law and its pervasive influence, people facing tax decisions routinely call on tax professionals for advice in planning and structuring their affairs in order to comply with the law and to ensure economic good sense.

The Master of Business Taxation (MBT) program is designed to develop the skills and expertise professionals need to assist individuals and firms trying to cope with myriad tax legislation and regulation at both the federal and local levels. The program offers students: 1) technical and conceptual knowledge; 2) professional development; 3) research and lifelong learning; 4) ethical and professional standards; and 5) globalization and diversity. For details on these student learning outcomes, see the program Website at *marshall.usc.edu/mbt/academics*.

Application

An undergraduate accounting or business major is not necessary, nor is work experience a requirement. The program enrolls students in the summer or fall based on their academic backgrounds. For application information visit *marshall.usc.edu/mbt/admissions*.

Program Requirements

The Master of Business Taxation degree requires 48 units, including fundamentals, core requirements and electives.

Academic Background Review and Waivers

The Leventhal School of Accounting Master's Program Office evaluates the academic background of each admitted student to determine the courses required to complete the program.

Students admitted for summer term start with ACCT 525x Intensive Accounting Principles and Practices -- an eight-week, 40 hours-per-week course for students who have not completed undergraduate degrees or other extensive course work in accounting. This course must be completed successfully prior to beginning the core in the fall.

Students admitted for fall term generally hold a bachelor's degree in Accounting and are waived from the 15 unit ACCT 525x class reducing the number of units required to earn the degree to 33.

USC BS in Accounting students may qualify for waiver of an additional 6 units reducing the number of units required to earn the degree to 27. (USC BS in Accounting students should meet with a graduate adviser during their junior year to determine if they qualify.)

Any of the groups listed above who have taken an equivalent of GSBA 548 Corporate Finance may petition to waive out of the requirement, reducing the number of units required to complete the degree by 3 units.

Degree Requirements

Fundamentals (18 units)

- ACCT 525x Intensive Accounting Principles and Practices Units: 15
- GSBA 548 Corporate Finance Units: 2, 3

Core Program (18 Units)

- ACCT 530L Ethics for Professional Accountants Units: 3
- ACCT 550T Tax Research and Professional Responsibilities Units: 3
- ACCT 551T Taxation of Partnerships and S-Corps Units: 3
- ACCT 560T Tax Theory and Ethics Units: 3
- ACCT 561T Income Tax of Corporations and Their Shareholders Units: 3

At least one from the following (to be determined by previous course work)

- BUCO 504T Writing for Accounting and Tax Professionals Units: 3 or
- GSBA 523T Communication for Accounting and Tax Professionals Units: 3 or
- BUCO 503 Advanced Managerial Communication Units: 1.5, 3

Elective Course Work (12 Units)

Select at least 9 units from the following list. Three additional units may be selected from this list or any 500-level elective from ACCT, BAEP, BUCO, DSO, FBE, GSBA, MKT or MOR.

- ACCT 533 Mergers and Acquisitions: Tax Planning and Strategy Units: 1.5
- ACCT 563T Federal Estate and Gift Taxes Units: 3
- ACCT 567T Taxation of Transactions in Property Units: 3
- ACCT 568T International Taxation Units: 3
- ACCT 569T Advanced Partnership Taxation Units: 3
- ACCT 570T State and Local Tax Concepts Units: 3
- ACCT 571T Taxation of Business Owners and High Net-Worth Individuals Units: 3
- ACCT 573T Federal Tax Procedure Units: 3
- ACCT 576T Tax Consolidations Units: 3
- ACCT 578T Advanced Corporate Taxation Units: 3
- ACCT 580T Tax Accounting Methods Units: 3
- ACCT 583 Income Tax Accounting and Auditing Units: 3
- ACCT 584 Family Wealth Preservation Units: 3

Business Taxation for Working Professionals (MBT)

The Master of Business Taxation — Working Professionals (MBT.WP) program is designed for students who wish to remain fully employed while pursuing their graduate studies. The program is very flexible, allowing students to complete classes either on ground at the University Park Campus or online. Entering students must have a minimum of one year of experience in tax.

The Master of Business Taxation (MBT.WP) program offers students: 1) technical and conceptual knowledge; 2) professional development; 3) research and lifelong learning; 4) ethical and professional standards; and 5) globalization and diversity. For details on these student learning outcomes, see the program Website at *marshall.usc.edu/mbt/academics*.

Application

An undergraduate accounting or business major is not necessary though one year of work experience in tax is required.

The program enrolls students in the summer or fall. For application information visit *marshall.usc.edu/mbtwp/admissions*.

Program Requirements

The program requires completion of 30 units. Degree requirements consist of five core courses and five elective courses. Applicants who hold a master's degree from an AACSB accredited institution may be able to waive out of the communication requirement and complete the MBT.WP in 27 units.

Degree Requirements

Core Program (12 Units)

- ACCT 550T Tax Research and Professional Responsibilities Units: 3
- ACCT 551T Taxation of Partnerships and S-Corps Units: 3
- ACCT 560T Tax Theory and Ethics Units: 3
- ACCT 561T Income Tax of Corporations and Their Shareholders Units: 3

At least one from the following

(to be determined by previous course work)

- GSBA 523T Communication for Accounting and Tax Professionals Units: 3 or
- BUCO 503 Advanced Managerial Communication Units: 1.5, 3 or
- BUCO 533 Managing Communication in Organizations Units: 1.5, 3

Elective Course Work (15 Units)

Select at least 9 units from the following list. Six additional units may be selected from this list or any 500-level elective from ACCT, BAEP, BUCO, DSO, FBE, GSBA, MKT or MOR.

- ACCT 533 Mergers and Acquisitions: Tax Planning and Strategy Units: 1.5
- ACCT 563T Federal Estate and Gift Taxes Units: 3
- ACCT 567T Taxation of Transactions in Property Units: 3
- ACCT 568T International Taxation Units: 3
- ACCT 569T Advanced Partnership Taxation Units: 3
- ACCT 570T State and Local Tax Concepts Units: 3
- ACCT 571T Taxation of Business Owners and High Net-Worth Individuals Units: 3
- ACCT 573T Federal Tax Procedure Units: 3
- ACCT 576T Tax Consolidations Units: 3
- ACCT 578T Advanced Corporate Taxation Units: 3
- ACCT 580T Tax Accounting Methods Units: 3
- ACCT 583 Income Tax Accounting and Auditing Units: 3
- ACCT 584 Family Wealth Preservation Units: 3

Dual Degree

Juris Doctor/Master of Business Taxation (JD/MBT)

Dual Degree Program

The Leventhal School of Accounting, in conjunction with the USC Gould School of Law, offers a dual degree program leading to the degrees of Juris Doctor and Master of Business Taxation (JD/MBT). This program permits a student to pursue a specialized program in taxation through courses in the Marshall School of Business, the Leventhal School of Accounting and the USC Gould School of Law.

The MBT portion of the program requires 42 units, including 9 units of law school courses that are recognized by the Leventhal School of Accounting toward the MBT degree. JD/MBT Students must complete 76 law units to satisfy the JD portion of the dual degree.

Unit Requirements

The total number of units required for the MBT portion of the JD/MBT program will vary, depending on the educational background of the individual student. Units are divided into four categories and students are required to maintain an overall graduate grade point average of 3.0.

The Leventhal School of Accounting Master's Program Office evaluates the academic background of each admitted student to determine if any of the 12 units of course work in Group I can be waived.

The courses in Groups II, III and IV are required of all JD/MBT students and total 30 units, including no more than 9 units of Law School courses.

First Year

Required USC Gould School of Law courses

Second, Third and Fourth Years

Law courses, including the law courses listed below, and 21-33 units of Marshall School of Business and Leventhal School of Accounting courses as follows:

Group I Courses (Up to 12 Units)

- ACCT 572 Corporate Accounting and Reporting Units: 3
- GSBA 510 Accounting Concepts and Financial Reporting Units: 1.5, 2, 3
- GSBA 511 Microeconomics for Management Units: 1.5, 3
- GSBA 548 Corporate Finance Units: 2, 3

Group II Courses* (A Minimum of 9 Units)

- ACCT 550T Tax Research and Professional Responsibilities Units: 3
- ACCT 561T Income Tax of Corporations and Their Shareholders Units: 3
- LAW 600 Taxation Units: 3 or 4

Group III Courses* (A Minimum of 6 Units)

- LAW 603 Business Organizations Units: 3, 4, 5
- LAW 607 Gifts, Wills, and Trusts Units: 3 or 4
- LAW 717 Estate Planning Units: 3
- LAW 842 Partnership Taxation Units: 2, 3, 4

Note:

**Students should seek counseling at the Law School regarding all LAW courses.*

Group IV Courses (A Minimum of 15 Units)

Select at least 15 units from the following list. Three additional units may be selected from this list or any Marshall (ACCT, BAEP, BUCO, DSO, FBE, GSBA, MKT or MOR) 500-level elective.

- ACCT 533 Mergers and Acquisitions: Tax Planning and Strategy Units: 1.5
- ACCT 551T Taxation of Partnerships and S-Corps Units: 3
- ACCT 563T Federal Estate and Gift Taxes Units: 3
- ACCT 567T Taxation of Transactions in Property Units: 3
- ACCT 568T International Taxation Units: 3
- ACCT 569T Advanced Partnership Taxation Units: 3
- ACCT 570T State and Local Tax Concepts Units: 3
- ACCT 571T Taxation of Business Owners and High Net-Worth Individuals Units: 3
- ACCT 573T Federal Tax Procedure Units: 3
- ACCT 576T Tax Consolidations Units: 3
- ACCT 578T Advanced Corporate Taxation Units: 3
- ACCT 580T Tax Accounting Methods Units: 3
- ACCT 583 Income Tax Accounting and Auditing Units: 3
- ACCT 584 Family Wealth Preservation Units: 3

USC School of Architecture

The USC School of Architecture offers undergraduate, graduate and doctoral education in architecture and architectural studies, landscape architecture, heritage conservation and building science. Its faculty is active in professional practice, design research and in extended professional education.

Work in the school is conducted in an intellectual climate, which promotes inquiry, introduces principles and values, and teaches the disciplines necessary to work in collaboration with other professionals to develop design and research excellence.

The school is located in the center of Los Angeles, the second largest urban region in the country, which offers a unique understanding of 21st century growth and change. In such an environment the possibilities for teaching and learning are extraordinary.

The school is highly selective in its admissions and enjoys the strong support of alumni and the professions it serves. The opportunity exists for students to have close contact with faculty, other students and practicing architects.

An architecture curriculum was initiated at USC in 1914. In 1919, a Department of Architecture was created and a separate School of Architecture was organized in 1925. The school shares Watt and Harris Halls with the USC Roski School of Art and Design and the Fisher Museum of Art.

Kyle Konis, PhD, *Director, Chase L. Leavitt Graduate Program of Building Science*
Trudi Sandmeier, MA, *Director, Heritage Conservation Programs*
Alison Hirsch, PhD, *Director, Landscape Architecture and Urbanism Programs*
Alvin Huang, MArch, *Director, Graduate & Post-Professional Architecture Programs*
Doris Sung, MArch, *Director, Undergraduate Architecture Programs*

Faculty

Della and Harry MacDonald Dean's Chair in Architecture: Milton S. F. Curry, MArch
Judge Widney Professor of Architecture: Frank O. Gehry, FAIA, MArch
Professors: Diane Ghirardo, PhD; John V. Mutlow, MArch (UD); Victor Regnier, MArch*; Marc Schiler, MS, ArchSci; John Wilson, PhD
Associate Professors: Kenneth Breisch, PhD; Joon-Ho Choi, PhD; Vittoria Di Palma, PhD; Alison Hirsch, PhD; Alvin Huang, MArch; Kyle Konis, PhD; Charles Lagreco, MFA (Arch); Amy Murphy, PhD; Douglas E. Noble, PhD; Alexander Robinson, MLArch; Doris Sung, MArch
Assistant Professors: Sascha Delz, DSc; Aroussiak Gabrielian, PhD; Faiza Moatasim, PhD; Ginger Nolan, PhD; Bhavna Sharma, PhD
Professors of the Practice of Architecture: Wesley Jones, MArch; Karen M. Kensek, MArch; Gary Paige, BArch; Hadrian Predock, MArch
Associate Professors of the Practice of Architecture: Valery Augustin, MArch; Yo-ichiro Hakomori, PhD; Esther Margulies, MLArch; Lauren Matchison, MArch; Scott Mitchell, MArch; Lee Olvera, MArch; Trudi Sandmeier, MA; Selwyn Ting, MArch; Olivier Touraine, Dipl Ing (Arch)
Assistant Professor of the Practice of Architecture: Geoffrey von Oeyen, MArch
Adjunct Professors: Michael Arden, MA; T. Jeff Guh, PhD; Eric Haas, MArch; Peyton Hall, MED; Mia Lehrer, MLArch; Rob Ley, MArch; David C. Martin, MArch; Lorcan O'Herlihy, MArch; Lawrence Scarpa, MArch; Jennifer Siegal, MArch; Warren Techentin, MArch; Patrick Tighe, MArch; Roland Wahlroos-Ritter, Dipl Ing
Adjunct Associate Professors: Tigran Ayrapetyan, MS; Vinayak Bharne, MArch; Mina Mei-Szu Chow, MArch; Mario Cipresso, MArch; Victoria Coaloa, MArch; John Dutton, MArch; Miller Fong, BAArch; John Frane, MArch; Sophia Gruzdys, MArch; Jerry Hastings, BS; Michael Hricak, MArch; Andy Ku, MArch; Lisa Little, MArch; Aaron Neubert, MArch; Scott Uriu, BArch
Adjunct Assistant Professors: Iman Ansari, PhD; Rob Berry, MArch; Mary Casper, MArch; Lauren Dandridge Gaines, BS; Janek Dombrowa, BS (Arch); Kathryn Horak, MHP; Erin Kasimow, MArch; Eric Nulman, MArch; Jay Platt, MS; Susanna Seierup, MArch; Takako Tajima, MLArch; Brian Tichenor, MLArch
Lecturers: Myrna Ayoub, MArch; Victoria Turkel Behner, PhD; Isaac Brown, PhD; Yujuan Chen, PhD; Jerome Chou, MLArch/MUP; Erin Cuevas, MArch; Meredith Drake Reitan, PhD; Katy Foley, MLArch; David Gerber, DDes; Richard Gooding, MS; Katherine Harvey, MLA; Jessica Henson, MLArch; Christof Janzten, MArch; Alfie Koetter, MArch; Andrew Kovacs; John Lesak, MArch; Alexander Maymind, MArch; Emily Mohr, MArch; Michael Patterson, PhD; Farnoosh Rafaie, MArch; Mary Ringhoff, MA; Juan Salazar, MArch; Marcos Sánchez, MArch; Kris Sandheinrich, MFA; Lee Schneider; Daví Schoen, MLArch/MUP; Santosh Shahi, PhD; Melissa Shin, MArch; John Southern, MArch; Hyunch Sung, MLArch; Jennifer Toy, MLArch/MUP; Elizabeth Valmont, PhD; Yaohua Wang, MArch; Sandra Yum, MArch
Emeritus Professors: James Ambrose, MS; Frank Dimster, MArch; Robert S. Harris, MFA (Arch); Ralph Knowles, MArch*; Graeme M. Morland, DiplArch; Goetz Schierle, PhD; Roger Sherwood, MSArch, MCRP; James Steele, PhD
**Recipient of university-wide or school teaching award.*

Degree Programs

The School of Architecture offers curricula leading to the following degrees.

Bachelor of Architecture: a five-year undergraduate accredited professional degree program.

Bachelor of Science in Architectural Studies: a four-year undergraduate non-professional architectural studies degree program providing specialization in related fields and an alternative path to graduate studies in architecture and other design fields.

Minor in Architecture: provides the flexibility of complementing a student's major with an area of specialization. Not available for architecture majors.

Minor in Landscape Architecture: provides students with the ability to integrate the natural and cultural profession of landscape architecture into their course of study. Not available for architecture majors.

Master of Advanced Architectural Studies: a 48-unit, three-semester program for students who hold a first professional degree from an accredited school of architecture.

Master of Advanced Architectural Research Studies, City Design and Housing Emphasis: a 42-unit, three-semester program for students who hold a first professional degree from an accredited school of architecture.

Master of Advanced Architectural Research Studies, Performative Design and Technology Emphasis: a 42-unit, three-semester program for students who hold a first professional degree from an accredited school of architecture.

Master of Architecture: a 102-unit, three-year accredited degree for students who have completed a bachelor's degree with a major other than one of the design professions; a 64-unit,

two-year accredited degree for students holding a pre-professional degree with a major in architecture.

Master of Heritage Conservation: a 48-unit program designed to prepare individuals for work in heritage conservation and its allied disciplines, including architecture, urban planning, cultural resource management, real estate development, construction and materials conservation.

Master of Landscape Architecture: a 96-unit, six-semester curriculum for students with no prior degree in architecture, landscape architecture or environmental design; a 64-unit, four-semester curriculum for students who hold a first non-accredited degree in architecture, landscape architecture or environmental design.

Master of Building Science: a 48-unit, two-year program for applicants who hold an architecture, engineering or science-related degree (e.g., Bachelor of Architecture, Bachelor of Architectural Engineering, Bachelor of Science in Engineering, Environmental Studies, Physics or Mathematics). Students with five-year professional degrees in architecture and a minimum of five years of experience may be given advanced standing.

Dual Degree in Advanced Architectural Studies and Urban Planning: a 72-unit program leading to the post-professional Master of Architecture and the Master of Urban Planning degrees. Admission to both degree programs is required.

Dual Degree in Building Science and Heritage Conservation: a 72-unit program leading to the Master of Building Science and Master of Heritage Conservation degrees. Admission to both degree programs is required.

Dual Degree in Heritage Conservation and Urban Planning: a 60-unit program leading to the Master of Heritage Conservation and Master of Urban Planning degrees. Admission to both degree programs is required.

Dual Degree in Heritage Conservation and Landscape Architecture: a 87- or 111-unit program leading to the Master of Heritage Conservation and Master of Landscape Architecture degrees. Admission to both degree programs is required.

Dual Degree in Landscape Architecture and Urban Planning: a 84- or 110-unit program leading to the Master of Landscape Architecture and Master of Urban Planning degrees. Admission to both degree programs is required.

Doctor of Philosophy in Architecture: This program is designed to prepare individuals for university level teaching and professional research and for leadership positions in industry and professional architectural practice.

Certificate in Architecture: The focus of this program is on understanding the broad and complex role of architecture within the urban and cultural context. Studies focus on cities and architecture throughout the world where conditions of increasing density, environmental challenges and cultural complexity require design initiatives that support amenity, sustainability and cultural meaning. The certificate is open to graduate students not pursuing a Master of Architecture degree.

Certificate in Building Science: This program is intended as a supplementary credential for students enrolled in graduate course work in architecture, landscape architecture, historic preservation, urban planning or related disciplines, and also for practicing design and planning professionals with undergraduate or graduate degrees and related experience.

Certificate in Heritage Conservation: This program is for those who wish to augment their current work in heritage conservation, and for graduate students who wish to obtain a complementary specialization in conjunction with their degree.

Certificate in Landscape Architecture: This program provides an opportunity for professionals and graduate students to develop understandings and skills related to the basic subjects inherent in the field of landscape architecture.

Certificate in Sustainable Design: This certificate provides students with the tools necessary to understand and quantify sources of energy use in buildings and landscapes and to use design of natural and man-made systems to reduce their energy use. Environmental, economic and socially responsible solutions will be explored through the course work.

National Architecture Accrediting Board Statement

In the United States, most registration boards require a degree from an accredited professional degree program as a prerequisite for licensure. The National Architectural Accrediting Board (NAAB), which is the sole agency authorized to accredit professional degree programs in architecture offered by institutions with U.S. regional accreditation, recognizes three types of degrees: the Bachelor of Architecture, the Master of Architecture and the Doctor of Architecture. A program may be granted an eight-year, three-year or two-year term of accreditation, depending on the extent of its conformance with established educational standards.

Doctor of Architecture and Master of Architecture degree programs may require a pre-professional undergraduate degree in architecture for admission. However, the pre-professional degree is not, by itself, recognized as an accredited degree.

The University of Southern California School of Architecture offers the following NAAB-accredited degree programs:

Bachelor of Architecture (160 undergraduate credits)

Master of Architecture (pre-professional degree + 64 graduate credits)

Master of Architecture (non-professional degree + 102 graduate credits)

Next accreditation visit for all programs: 2023

Integrated Path to Architectural Licensure Initiative

The USC School of Architecture is one of the initial 14 accredited architecture schools in the United States accepted to participate in the National Council of Architectural Registration Board's (NCARB) Integrated Path to Architectural Licensure Initiative (IPAL). IPAL monitors and provides support for obtaining architectural registration in designated professional accredited programs with an integrated approach to Architectural Experience Programs (AXP) and Architectural Registration Exam requirements required for licensure.

Participation in the IPAL program does not change any of the existing professional degree requirements. With guidance and support, both BArch and MArch students at the USC School of Architecture will be encouraged to take advantage of the increased access to state and national licensure examinations concurrent with enrollment in their degree studies. The programs will provide support and encourage architectural experience in the professional community, which will allow the opportunity to significantly reduce the amount of time necessary to become a licensed architect while increasing the awareness and interaction between professional and academic experiences.

National Landscape Architecture Accreditation Board Statement

The USC Master of Landscape Architecture first professional curricula (three-year and two-year curricula) are accredited by the American Society of Landscape Architects Landscape Architecture Accreditation Board (LAAB). The LAAB conditions of accreditation (including the student performance criteria) are posted on the ASLA website, asla.org/AccreditationLAAB.aspx. The last review in November 2017 was completed successfully and we were granted the maximum renewal until December 2022.

Other Programs

Exploration of Architecture Summer Program for High School Students

The School of Architecture offers two- and four-week programs for high school students (must have completed ninth grade by the start of the program) who have no previous experience but are interested in architecture. The program, which began in 1983, is particularly rewarding for students who are contemplating a career in architecture. However, all students find the exposure to the unique problem-solving methodologies of architecture a benefit regardless of their final career choice. Living on campus in a USC

residence hall, high school students experience what it is like to be a university student. They participate in studio classes with professional critics and present their ideas in reviews attended by parents and friends.

The program also exposes them, through case studies, sketching exercises and field trips, to some of the most dramatic and impressive historical and modern architecture of Los Angeles. International students have especially appreciated the opportunity to pursue this summer program of study that is not highly dependent on English language skills.

Obtain program details by visiting the School of Architecture website or by calling (800) 281-8616.

The Building Science Program in Civil Engineering

The Sonny Astani Department of Civil Engineering offers an undergraduate program leading to the degree of Bachelor of Science in Civil Engineering, with an emphasis in building science. The curriculum includes most of the work that is required for the major in structures, plus 30 units in architectural studies offered by the School of Architecture. See the USC Viterbi School of Engineering, Civil Engineering section of this catalogue for further information.

Undergraduate Programs

Bachelor of Architecture

The NAAB-accredited professional undergraduate program is designed to provide an exceptional university education. Students study architecture as well as other basic disciplines throughout the five-year program. We encourage students to pursue minors or elective courses to combine their interest in architecture with fields such as entrepreneurship, construction management, real estate development or animation and digital arts.

Beginning in the first semester, students will be immersed in both architectural and general university studies. The first six semesters provides a foundation in understanding architecture through studies in design, technology, and history, concluding with integrative studies that help develop a deeper understanding of becoming an architect. The remaining four semesters provide the opportunity to explore many aspects of architecture and to develop individual strengths and interests. One of these semesters will include domestic or international off-campus instruction. Studies will conclude with a comprehensive project with a component of directed research defined by the student based on choice and initiative.

Bachelor of Science in Architectural Studies

This four-year, non-professional architectural studies degree program provides specialization in related fields and an alternative path to graduate studies in architecture or fields. Students accepted into the professional Bachelor of Architecture program are eligible to elect this degree option at the end of the second year of study.

The curriculum includes a core program in the first two years identical to the Bachelor of Architecture professional degree program. In the second two years, students explore many aspects of architecture and related fields and develop individual strengths and interests. Students take a specialization course in the second year, which introduces them to related fields and alternative degree options. Students who do not wish to pursue the five-year Bachelor of Architecture, can elect to move into the four-year, non-professional Bachelor of Science in Architectural Studies (BS in A.S.) program with a degree plan identifying electives that fulfill an area of concentration. The four-year program concludes with a capstone seminar, which allows all degree candidates to work collaboratively on areas of common interest.

Off-Campus Programs and Other Enrichment Opportunities

Each year, a set of different off-campus programs are offered to our fourth-year undergraduate students during their topic studio semesters. These may consist of semester-long programs with recent studies in Italy, Spain and Asia. Each of these semester-long offerings consists of a coordinated 17-unit, full semester program that includes a studio course in design and required seminars in history and theory; technology; and cultural studies. Students must be in good academic standing to be considered and to participate. Students may also participate in off-campus programs that require substantial travel outside of Los Angeles to a regional location within the continental United States.

Some examples of recent programs include:

Spring Program in Italy: Milan-Como

For many years, selected students have been able to participate in the Anthony A. Marnell II Italian Architecture Studies Program, located in Milan, a city at the forefront of Italian modern architecture and the center of Italian design. Students are housed and have classroom and studio space in Como, a small and pleasant lakeside town about 30 miles from Milan. The Milan-Como Program is one of only two U.S. school of architecture programs in this part of Italy. Strong relationships are fostered with the place, its people and its culture. Visits are planned within Italy and throughout Europe to expose the students to the full range of historical and contemporary architecture.

Fall Program in Spain: Barcelona

The School of Architecture's study abroad program in Barcelona provides a place for fourth year architecture students in a course of study in urbanism and architecture of the city. The goal is to provide a broad overview of that city's major urban and architectural sites, topography and systems of urban organization. Students will be immersed in the issues of urban design and architecture that have shaped the city, and will develop critical thinking and methodologies of analysis by designing in the urban context. The course of study will examine this fascinating culture that is committed to design and architectural practices that engage and challenge European traditional and modernist orthodoxies.

Barcelona is both a modern and historical site, beginning as a small Roman colony from the time of Augustus, and surviving Visigothic, Moorish and Frankish invasions. Its political and economic history has shaped the city, with the most forceful expression of its national aspiration occurring in the 19th century, the time most associated with the architect Antonio Gaudí. It is city committed to a culture of visual design that has realized many ambitious urban plans, growing from its commitment to representing national pride. It is a dynamic site for the study of ancient and contemporary urbanism as it has achieved word-class status among cities as a locus for new world architecture. The program will combine field work, precedent analysis and discussions with the broader design community in Barcelona.

Examples of public space and architecture from antiquity to the 21st century will be studied as part of the context of a city that has successfully projected its future without neglecting its past and present. Visits are planned within Spain and throughout Europe to expose students to the full range of historical and contemporary architecture.

Fall Program in Asia: Architecture and Landscape Urbanism

The Asian Architecture and Landscape Urbanism program provides participating students the opportunity to engage and comprehend the full depth and global ramifications of the rapid changes that are taking place in countries such as Japan, South Korea, China, Singapore, Malaysia and Hong Kong. The complex and multiple factors that inform urbanism and define the built environment will be explored and analyzed both in terms of historical cultural source and contemporary manifestation. Participants in these academic engagements will include regional as well as international professionals, academics, historians, economists and local inhabitants through direct engagements required of the course curriculum. Students will bring this knowledge and point of view back to the school after their

semester away to expand the discussion of urbanism to the larger community of students and faculty at the School of Architecture.

Exhibits of Student Work

Throughout the year, selected students are given the opportunity to show work in organized exhibitions, as well as to be included in our ongoing student work publication *INDEX*. The school seeks multiple formats and opportunities to have student work shown in the community at large and at cultural institutions throughout the city and the world, with recent exhibits in Shanghai, France, Italy and Washington, DC.

Field Trips

Field trips to locations in the larger California region as well as through the United States are organized each year in support of various aspects of the academic program. In addition, students regularly visit the many sites of significance in the local Los Angeles area on an almost weekly basis for their general course work and personal interest.

Lectures and Exhibitions

The school provides significant service to the community and profession through public programs, and the participation of faculty members in community and professional activities. With the support and cooperation of the Architectural Guild, the school generates a vigorous program of lectures, exhibitions and tours.

Some of the world's most distinguished and emerging architects, landscape architects and designers have lectured at USC. These include Frank Gehry, Zaha Hadid, Mario Botta, Yona Friedman, Peter Cook,Yung Ho Chang, Thom Mayne, Michael Maltzan, Hitoshi Abe, Mia Lehrer, Fumihiko Maki, Jean Nouvel, Will Bruder, Francois Roche, Enrique Norten, Adriaan Geuze, Kazuyo Sejima, Ai Wei Wei, Rem Koolhaas, Shigeru Ban, Hans Hollein, Charles Waldhem, Nader Tehrani, Cesar Pelli, Javier Sanchez, Laurie Olin, Eric Owen Moss and Pei Zhu.

The school also provides the Helen Lindhurst Architecture Gallery and the Verle Annis Gallery for major architectural exhibitions by visiting guests, USC faculty, students and alumni.

Graduate Programs

The school offers interrelated graduate programs in architecture, landscape architecture, building science and heritage conservation as well as three dual degree programs with the USC Price School of Public Policy.

Admission to Graduate Programs

Credentials for admission must include a complete record of all previous college or university work. The applicant must request the registrar of each college or university attended to forward official transcripts of record directly to the Office of Admission.

Following are the basic requirements for admission to the graduate programs: (1) the appropriate degree from an accredited college or university; (2) satisfactory scores on the verbal, analytical and quantitative portions of the aptitude test of the Graduate Record Examinations; (3) intellectual promise and clear study intentions that indicate an ability to do acceptable graduate work; (4) a portfolio of design work*; and (5) strong personal qualifications.

All students must speak and write English. Foreign students must demonstrate such ability by taking the TOEFL or IELTS test before leaving their home countries, and, if necessary, by further tests upon arrival on campus.

International students may be required to enroll in American Language Institute (ALI) English courses, based on scores on the English Placement Tests. The cost of these additional courses is the responsibility of the student. In addition, international students should be aware that they may have to defer enrollment in some major courses because of the ALI courses, extending the number of semesters required to complete the program and increasing the overall tuition expense. International students are urged to read with care all information sent to them about English requirements and to take as many English language courses as possible prior to coming to the United States.

**The Master of Building Science and Master of Heritage Conservation programs accept computer programs, papers and other work as portfolio work.*

Correspondence with the dean or individual faculty members does not constitute admission to the Graduate School or to the School of Architecture. Only a letter from the Director of Admissions grants official admission.

Graduate Program Policies

Graduate students are expected to complete between 12 and 16 units per semester, spring and fall, depending on the program in which they are enrolled.

A minimum grade of C (2.0) is required in a course to receive graduate credit. A grade point average of at least B (3.0) on all units attempted at USC toward a graduate degree is required for graduation. A total grade point average of at least a B (3.0) in all courses applied toward completion of a certificate is required prior to being awarded a particular certificate. Course work taken on a pass/no pass basis cannot be applied toward a graduate degree or a certificate. If a student does not meet these minimum grades the faculty member should meet with the student to provide timely advisory reviews.

Failure to complete program course work on schedule will result in the loss of financial awards from the School of Architecture and/or may result in suspension from the program upon recommendation from the program director and approval by the Dean of the School of Architecture and the Vice Provost for Academic Programs. Additional semesters may be taken to complete the thesis or directed design research when appropriate.

All appeals will be reviewed initially by the director(s) of the appropriate graduate program and then by a committee consisting of all graduate program directors (with the exception that design courses will be reviewed by the design review committee). Their recommendation(s) will be forwarded to the dean for consideration and action, and then forwarded to the Vice Provost for Academic Programs. All communications must be in writing.

Thesis Committees

In the School of Architecture's master's programs, thesis committees must include a minimum of three members. The chair will be a full-time faculty member in the student's discipline in architecture. The second member must be a full- or part-time USC faculty member, not necessarily from the School of Architecture. The third member may be either a USC faculty member or a practitioner with a special expertise in the field; she or he may be full-time or part-time, tenure track, non-tenure track, or a non-academic practitioner. Thesis committees are ultimately subject to approval by the school dean.

Summer Graduate Studies Abroad

The School of Architecture offers programs for summer graduate study abroad. The purpose of the programs is to offer graduate architecture students the opportunity to study the built fabric of another culture firsthand and engage in a focused urban studies problem in that culture. The programs also strive to expand appreciation of the importance of development in the current world market and show practitioners USC graduates' ability to engage in and contribute to international development.

Exhibits of Student Work

Throughout the year, selected students are given the opportunity to show work in organized exhibitions, as well as to be included in our ongoing student work publication *INDEX*. The school seeks multiple formats and opportunities to have student work shown in the community at large and at cultural institutions throughout the city and the world, with recent exhibits in Shanghai, France, Italy and Washington, DC.

Field Trips

Field trips to locations in the larger California region as well as through the United States are organized each year in support of

various aspects of the academic program. In addition, students regularly visit the many sites of significance in the local Los Angeles area on an almost weekly basis for their general course work and personal interest.

Lectures and Exhibitions

The school provides significant service to the community and profession through public programs, and the participation of faculty members in community and professional activities. With the support and cooperation of the Architectural Guild, the school generates a vigorous program of lectures, exhibitions and tours.

Some of the world's most distinguished and emerging architects, landscape architects and designers have lectured at USC. These include Frank Gehry, Zaha Hadid, Mario Botta, Yona Friedman, Peter Cook, Yung Ho Chang, Thom Mayne, Michael Maltzan, Hitoshi Abe, Mia Lehrer, Fumihiko Maki, Jean Nouvel, Will Bruder, Francois Roche, Enrique Norten, Adriaan Geuze, Kazuyo Sejima, Ai Wei Wei, Rem Koolhaas, Shigeru Ban, Hans Hollein, Charles Waldhem, Nader Tehrani, Cesar Pelli, Javier Sanchez, Laurie Olin, Eric Owen Moss and Pei Zhu.

The school also provides the Helen Lindhurst Architecture Gallery and the Verle Annis Gallery for major architectural exhibitions by visiting guests, USC faculty, students and alumni.

Summer Program in Heritage Conservation

This program offers three weeks of classes with noted experts from Southern California and the United States. Taken together the courses act as a general introduction to the field of heritage conservation. In addition to examining the history and philosophy of the conservation movement as it has evolved during the past century, lectures and field trips to historic sites throughout the Los Angeles area will introduce students to a broad range of legal, economic, aesthetic and technical issues associated with the documentation, conservation and interpretation of historic structures, landscapes and communities.

For more information, call (213) 821-2168.

Bachelor's Degree

Architectural Studies (BS)

Bachelor of Science, Architectural Studies

The Bachelor of Science in Architectural Studies program begins intensively with architectural studies in the first two years and provides a mix of architectural and general university studies throughout the program. The curriculum includes a core program in the first two years identical to the Bachelor of Architecture professional degree program. The last two years provide the opportunity to explore many aspects of architecture and related fields and to develop individual strengths and interests. Students take an introductory course in specialization in the second year, which provides an introduction to related fields and alternative degree options. Students can elect to move into the four-year non-professional BS in Architectural Studies program with a degree plan identifying electives fulfilling an area of concentration. The program is concluded with a seminar with all degree candidates, allowing for collaborative work on areas of common interest.

Admission as a First-year Student

All applicants to the School of Architecture must complete the Common Application and submit it to the USC Office of Admission along with Scholastic Aptitude Test (SAT) or other test scores. All applicants, including international students, must submit a portfolio.

Admission with Advanced Placement

It is possible, in selected instances, that a transfer student from an accredited community college or other university may be eligible for advanced placement at the second-year level if previous work includes a minimum of 32 semester units of acceptable academic credit in a pre-architecture program. The academic credit must include at least 8 semester units in architectural design or environmental design. Students accepted for advanced placement must still comply with all requirements for the degree.

Advanced placement applicants are required to submit a design portfolio to the School of Architecture at the time of application.

Summer Transfer Courses

A summer design studio allows highly qualified students transferring from community college or other university programs to be evaluated for advanced placement in the fall semester. Applicants must submit a university application and portfolio by February 1 for consideration. During the summer studio, transfer students must demonstrate significant design and drawing skill to justify advanced placement. Transfer students who are admitted with fewer than 32 units of college level work and who have only limited drawing or design skills may be considered for placement in the first year of the four-year program. Previous academic work may in part be applied toward required and elective courses for the four-year BS in Architectural Studies program. For more information about this program, contact the school at (213) 740-2420.

Advisement

The School of Architecture maintains student advisers for the benefit of all students in the school. All incoming students will participate in new student orientation and receive information about course requirements and planning. An individual appointment with an adviser may be scheduled at any time during the academic year to review course work in progress or to plan for future semesters.

Design Studio Grade Point Average Requirement

Less than average work in design studio is not considered sufficient for a continuation in the design studio sequence. Students must receive a grade of C (2.0) or above in each semester of design in order to continue in the design sequence. Students in the first two years of the program are required to repeat the course until such a grade is achieved.

Pass/No Pass Courses

Architecture students are permitted to take a maximum of 24 units of non-architecture electives, exclusive of the writing requirements, MATH 108 and the PHYS 125 requirement, on a pass/no pass option. No more than 4 units of pass/no pass courses may be applied to general education requirements; no more than 4 units may be taken in one semester. Students who have taken non-architecture courses pass/no pass in the past (i.e., before admission to architecture) may count such pass/no pass courses toward, but not in addition to, the maximum of 24 units.

Time Limits

While there are no specific time limits for completing the BS in Architectural Studies degree (except in the case of discontinued programs) the School of Architecture may require additional course work of students who remain in the degree program beyond six years.

Four-Year Curriculum for the Bachelor of Science in Architectural Studies Degree

First Year, First Semester

- ARCH 102a Architectural Design I Units: 4
- ARCH 105L Fundamentals of Design Communication Units: 2
- ARCH 114 Architecture: Culture and Community Units: 2
- General Education Seminar Units: 4
- MATH 108g Contemporary Precalculus Units: 4 or General Education Units: 4

Total units: 16

First Year, Second Semester

- ARCH 102bL Architectural Design I Units: 4
- ARCH 214ag World History of Architecture Units: 3 *
- PHYS 125Lg Physics for Architects Units: 4 **

- WRIT 150 Writing and Critical Reasoning–Thematic Approaches Units: 4

Total units: 15

Second Year, First Semester

- ARCH 202aL Architectural Design II Units: 6
- ARCH 213a Building Structures and Seismic Design Units: 3 ***
- ARCH 214bg World History of Architecture Units: 3 *
- General Education Units: 4

Total units: 16

Second Year, Second Semester

- ARCH 202bL Architectural Design II Units: 6
- ARCH 211 Materials and Methods of Building Construction Units: 3
- ARCH 213b Building Structures and Seismic Design Units: 3 ***
- General Education

Total units: 16

Third Year, First Semester

- ARCH 215 Design for the Thermal and Atmospheric Environment Units: 3
- ARCH 313 Design of Building Structures Units: 3
- ARCH 314 History of Architecture: Contemporary Issues Units: 3
- ARCH 370 Architectural Studies — Expanding the Field Units: 2
- WRIT 340 Advanced Writing Units: 3, 4

Total units: 15

Third Year, Second Semester

- ARCH 315 Design for the Luminous and Sonic Environment Units: 3
- ARCH 411 Architectural Technology Units: 3
- ARCH 525 Professional Practice: Pre-Design, Project and Office Administration Units: 3
- General Education Units: 4
- Professional Architecture Electives Units: 3

Total units: 16

Fourth Year, First Semester

- ARCH 470a Architectural Studies Capstone Units: 1
- Professional Architecture Electives Units: 13
- General Education Units: 4

Total units: 18

Fourth Year, Second Semester

- ARCH 470b Architectural Studies Capstone Units: 3
- Electives Units: 8
- Professional Architecture Electives Units: 5

Total units: 16

Total minimum units required: 128

*ARCH 214a, ARCH 214b fulfill the General Education requirement in Category A: The Arts.
**PHYS 125 fulfills the General Education requirement in Category E: Physical Sciences. The PHYS 125 requirement may also be fulfilled by PHYS 135a, PHYS 135b; 4 units will be applied toward the BArch and 4 will count as electives.
***ARCH 213a ARCH 213b fulfills the General Education requirement in Category F: Quantitative Reasoning.

Requirements for BS in Architectural Studies Degree

A total of 25 units of professional electives, including ARCH 470 Capstone Seminar, are required in an area of specialization, which must be selected from the accepted professional elective offerings in the School of Architecture or with consultation and approval of the program adviser. This is in addition to the core, elective and general education requirements of the Bachelor of Architecture degree, which are identical for the first two years of the Bachelor of Science in Architectural Studies.

In the third and fourth year of the program, the requirements for the Bachelor of Architecture design studios, ARCH 302a, ARCH 302b and ARCH 402a, ARCH 402b — 24 units — are changed to the professional electives requirement. The full degree requirements are described above.

Core Requirements

Students MUST complete the following core courses as a prelude to the upper-division professional electives and degree requirements: ARCH 102a, ARCH 102b, ARCH 105, ARCH 114, ARCH 202a, ARCH 202b, ARCH 211, ARCH 213a, ARCH 213b, ARCH 214a, ARCH 214b, ARCH 314, ARCH 370, MATH 108, PHYS 125 and WRIT 150.

General Education Requirements

All students who begin college in fall 2015 or later at USC (or who begin elsewhere in fall 2015 and then transfer to USC) must satisfy the 2015 General Education Program, which includes six Core Literacy and two Global Perspectives requirements. Together these provide training in the liberal arts — the critical skills necessary for a free person to function effectively, thoughtfully and productively in a complex world. This General Education program has been designed to nurture habits of thought essential for professional success and personal development, and to establish a background for lifelong learning.

Core Literacies

GE-A: The Arts (one course)
GE-B: Humanistic Inquiry (two courses)
GE-C: Social Analysis (two courses)
GE-D: Life Sciences (one course)
GE-E: Physical Sciences (one course)
GE-F: Quantitative Reasoning (one course)

Global Perspectives

GE-G: Citizenship in a Global Era (one course)
GE-H: Traditions and Historical Foundations (one course)

In addition, all entering freshmen are expected to complete a General Education Seminar during their first year at USC. These seminars satisfy one of the Core Literacy requirements above.

To fulfill a minimum 128 units for the Bachelor of Science in Architectural Studies, courses in the Global Perspectives categories should be used to satisfy requirements in the Core Literacies as well. A single course can satisfy one Global Perspective and one Core Literacy requirement.

For more information about the general education requirements, see https://dornsife.usc.edu/2015ge/2015ge-requirements/.

Architecture (BArch)

Bachelor of Architecture

The bachelor's degree program begins intensively with architectural studies in the first year and provides for a mix of architectural and general university studies throughout the program. The curriculum includes two cycles of development. The first cycle of six semesters provides a foundation in understanding architecture, concluding with integrative studies after two years of introductory work. The second cycle, four semesters, provides the opportunity to explore many aspects of architecture and to develop individual strengths and interests. One of these semesters must include participation in our Off-Campus Program as a requirement towards graduation. During this period, a comprehensive design studio project is undertaken in the fall of the fifth year. The spring of the fifth (and final) year culminates in the development of that comprehensive building project in the context of a professional practice course, coupled with a research design studio taken along the lines of the students' own interests.

Admission as a First Year Student

All applicants to the School of Architecture must complete the Common Application and submit it to the USC Office of Admission along with Scholastic Aptitude Test (SAT) or other test scores. All applicants, including international students, must submit a portfolio.

Admission with Advanced Placement

It is possible, in selected instances, that a transfer student from an accredited community college or other university may be eligible for advanced placement at the second-year level if previous work includes a minimum of 32 semester units of acceptable academic credit in a pre-architecture program. The academic credit must include at least 8 semester units in architectural design or environmental design. Students accepted for advanced placement must still comply with all requirements for the degree.

Advanced placement applicants are required to submit a design portfolio to the School of Architecture at the time of application.

Summer Transfer Courses

A summer design studio and drawing course allows highly qualified students transferring from community college or other university programs to be evaluated for advanced placement in the fall semester. Applicants must submit a university application and portfolio by February 1 for consideration. During the summer transfer courses, students must demonstrate significant design and drawing skills to justify advanced placement. Successfully completing these summer transfer courses allows students to reduce the required 10-semester design sequence by two semesters, reducing USC residency to four years. This either provides for advanced placement into the second year or gives credit for ARCH 102a, ARCH 102b and ARCH 105 if these courses are passed with grades of B or above. For more information, contact the school at (213) 740-2420.

Transfer students who are admitted with fewer than 32 units of college-level work and who have only limited drawing or design skills may be considered for placement in the first year of the five-year design sequence. Previous academic work may in part be applied toward required and elective courses for the five-year Bachelor of Architecture program.

Advisement

The School of Architecture maintains academic advisers for the benefit of all students in the school. All incoming students will participate in new student orientation and receive information about course requirements and planning. An individual appointment with an adviser may be scheduled at any time during the academic year to review coursework in progress or to plan for future semesters.

Degree Requirements

Accredited degree programs awarding the BArch degree must require a minimum of 150 semester credit hours or the quarter-hour equivalent, in academic course work in general studies, professional studies and electives. The curriculum leading to the architecture degree must include at least 45 credit hours, or the quarter-hour equivalent, outside of architectural studies either as general studies or as electives with content other than architectural.

Design Studio and Degree Seminar Grade Point Average Requirement

Less than average work in design and design research is not considered sufficient for a professional degree. Students must receive a grade of C (2.0) or above in each semester of design and design research (ARCH 102a, ARCH 102b, ARCH 202a, ARCH 202b, ARCH 302a, ARCH 302b, ARCH 402a, ARCH 402b, ARCH 500a, ARCH 501, ARCH 502a) in order to continue in the design sequence and to graduate. Students will be required to repeat the course until such a grade is achieved.

Transfer Limit for Design Studio Credit

School of Architecture majors enrolling for a semester of study off campus are limited to the transfer of only one design studio course within the ARCH 402a, ARCH 402b sequence. Approval of transfer credit will be dependent upon portfolio review by an appointed faculty review committee.

Pass/No Pass Courses

Architecture students are permitted to take a maximum of 24 units of non-architecture electives, exclusive of the writing requirements, MATH 108 and the PHYS 125L requirement, on a pass/no pass basis. No more than 4 units of pass/no pass courses may be applied to general education requirements; no more than 4 units may be taken in one semester. Students who have taken non-architecture courses pass/no pass in the past (i.e., before admission to architecture) may count such pass/no pass courses toward, but not in addition to, the maximum of 24 units.

Schedule Choices

Students in upper division (ARCH 402a, ARCH 402b) may substitute any fall or spring semester by completing degree requirements, including design studio, by enrolling during summer session. This substitution does not provide for acceleration of the degree but does allow for make up so that students may get back on schedule for the five-year degree.

Time Limits

While there are no specific time limits for completing the bachelor's degree (except in the case of discontinued programs) the School of Architecture may require additional course work of students who remain in the degree program beyond six years.

Five-Year Curriculum for the Bachelor of Architecture Degree

First Year, First Semester

- ARCH 102a Architectural Design I Units: 4
- ARCH 105L Fundamentals of Design Communication Units: 2
- ARCH 114 Architecture: Culture and Community Units: 2
- General Education Seminar Units: 4
- MATH 108g Contemporary Precalculus Units: 4 or General Education Units: 4

Total units: 16

First Year, Second Semester

- ARCH 102bL Architectural Design I Units: 4
- ARCH 214ag World History of Architecture Units: 3 *
- PHYS 125Lg Physics for Architects Units: 4 **
- WRIT 150 Writing and Critical Reasoning–Thematic Approaches Units: 4

Total units: 15

Second Year, First Semester

- ARCH 202aL Architectural Design II Units: 6
- ARCH 213a Building Structures and Seismic Design Units: 3 ***
- ARCH 214bg World History of Architecture Units: 3 *

Total units: 16

Fifth Year, Second Semester

- ARCH 502aL Architectural Design V Units: 6
- ARCH 526 Professional Practice: Legal and Economic Context, Project Documentation Units: 3
- Electives Units: 7

Total units: 16

Total minimum units required: 160

ARCH 214a, ARCH 214b *fulfill the General Education requirement in Category A: The Arts.*
***PHYS 125 *fulfills the General Education requirement in Category E: Physical Sciences. The* PHYS 125 *requirement may also be fulfilled by* PHYS 135a, PHYS 135b*; 4 units will be applied toward the BArch and 4 will count as electives.*
***ARCH 213a, ARCH 213b *fulfills the General Education requirement in Category F: Quantitative Reasoning.*

Core Requirements

In order to take advantage of elective opportunities at the upper division level, students MUST complete the following courses before the end of the integrative semester (third year, second semester): ARCH 102a, ARCH 102b, ARCH 105, ARCH 114, ARCH 202a, ARCH 202b, ARCH 211, ARCH 213a, ARCH 213b, ARCH 214a, ARCH 214b, ARCH 215, ARCH 314, MATH 108, PHYS 125 and WRIT 150.

Additional Requirements

Allocation of Elective Units

Professional Architecture Electives

A minimum of 12 units in architecture is required.

Architecture History Elective

A minimum of 2 units in architecture history is required.

Free Electives

A minimum of 8 units in any area of liberal arts or sciences excluding MATH 108, PHYS 125 or PHYS 135a, PHYS 135b).

General Education Requirements

All students who begin college in fall 2015 or later at USC (or who begin elsewhere in fall 2015 and then transfer to USC) must satisfy the 2015 General Education Program, which includes six Core Literacy and two Global Perspectives requirements. Together these provide training in the liberal arts — the critical skills necessary for a free person to function effectively, thoughtfully and productively in a complex world. This General Education program has been designed to nurture habits of thought essential for professional success and personal development, and to establish a background for lifelong learning.

Core Literacies

GE-A: The Arts (one course)
GE-B: Humanistic Inquiry (two courses)
GE-C: Social Analysis (two courses)
GE-D: Life Sciences (one course)
GE-E: Physical Sciences (one course)
GE-F: Quantitative Reasoning (one course)

Global Perspectives

GE-G: Citizenship in a Global Era (one course)
GE-H: Traditions and Historical Foundations (one course)

In addition, all entering freshmen are expected to complete a General Education Seminar during their first year at USC. These seminars satisfy one of the Core Literacy requirements above.

To fulfill a minimum 160 units for the Bachelor of Architecture degree, courses in the Global Perspectives categories should be used to satisfy requirements in the Core Literacies as well. A single course can satisfy one Global Perspective and one Core Literacy requirement.

For more information about the general education requirements, see https://dornsife.usc.edu/2015ge/2015ge-requirements/.

Minor

Architecture Minor

The minor in architecture provides the flexibility of complementing a student's major with an area of specialization. Taking a minor in architecture is a unique opportunity for a student to stimulate his or her imagination and learn creative approaches to problem solving.

Admission Requirements

Students in good academic standing who have completed the freshman year are eligible.

Course Requirements

The requirements for the minor include three required courses (8 units) and a minimum of 12 units of upper division courses.

Required Courses

- ARCH 106x Workshop in Architecture Units: 2
- ARCH 114 Architecture: Culture and Community Units: 2
- ARCH 304x Intensive Survey: Prehistory to the Present Units: 4

Note:

Students may elect to take the upper division courses in an area of specialization, such as architectural history and theory, historic preservation, computers and design, visual communication, landscape architecture, public places — urban spaces, housing or practice management. This minor is not available to architecture majors.

Landscape Architecture Minor

The minor provides students with the ability to integrate the ecological and cultural dimensions of landscape architecture into their course of study. Studies are about repairing and sustaining natural systems in cities, about the history of human settlements, places, and gardens in urban landscapes, and about the cultural and aesthetic meanings of landscape architecture design. This is an excellent emphasis for students in environmental studies, civil engineering, planning and anthropology. This minor is not available to architecture majors.

Admission Requirements

Students in good academic standing who have completed the freshman year are eligible.

Course Requirements

The minor in landscape architecture consists of three required courses (10 units) and a minimum of 10 units of upper-division courses.

Required Courses

- ARCH 203 Visualizing and Experiencing the Built Environment Units: 4
- ARCH 531 Urban Ecology Units: 4
- ARCH 565 Global History of Designed Landscapes Units: 3

Upper Division Courses (10 Units)

- ARCH 303 Principles of Spatial Design I Units: 4
- ARCH 432 People, Places and Culture: Architecture of the Public Realm Units: 4
- ARCH 531 Urban Ecology Units: 4
- ARCH 536 The Landscape Planning Process Units: 3
- ARCH 544 Landscape as Urbanism: Case Studies Units: 3
- ARCH 545 Contemporary Theories of Landscape Architecture Units: 3
- ARCH 547 Advanced Topics in Urban Ecology Units: 3
- ARCH 566 Cross Cultural Topics in Landscape Architecture History Units: 3 (max 6)

Note:

Non-architecture students must obtain written approval from their academic unit in order to take a 500-level course. For more information, contact an architecture adviser, archadvs@usc.edu.

Master's Degree

Advanced Architectural Research Studies (City Design and Housing) (MAARS)

The Master of Advanced Architectural Research Studies, City Design and Housing empahsis is a 42-unit multi-disciplinary graduate degree program at the USC School of Architecture that prepares participants to study, analyze and design within complex urban systems. Focusing on the 21st-century city the program will address specific urban challenges through a combination of explorative design studio and advanced topical research. Working across disciplines and at multiple scales, this degree concentration moves between real-world issues and innovative architectural approaches to explore ideas for radically re-thinking the ways in which we can design, build and inhabit our cities in more inclusive and equitable ways.

The program will leverage Los Angeles as a laboratory to examine the forces that shape local and global cities. Addressing a diverse set of factors that are linked to city design and housing – such as urban development and housing policies, real estate and housing finance, history and theory, technology and infrastructure, and ecology and climate change – the program will introduce students to broad methodological tools for critically analyzing contemporary challenges of urban systems and housing and will strengthen their skills to employ research and design to create more equitable, sustainable and resilient urban environments and housing schemes.

The CD+H program's design and research efforts will be framed by three topical trajectories: a) urban housing (low-cost, collective, affordable, informal, densification, etc.); b) urban inequalities (racial segregation, economic disparities, gentrification, homelessness, digital divide, migration, etc.); and c) urban infrastructures (street design, public transportation, walkability, public space, programmatic and zoning issues, etc.). In addition, the one-year course will switch between the local context of Los Angeles and a selected global city (Latin America, Asia, Africa). In order to more thoroughly study the international context – and potentially establish more sound collaborations with institutions and stakeholders abroad – the same international context will be part of the program in a two or three-year cycle.

Finally, to connect students with real-world contexts, challenges and experiences, the CD+H program seeks to include various travel components throughout the year, which could potentially be linked to the PD+T and SP+SJ cohorts. Semester 1 will incorporate field trips in the Los Angeles and Southern California region. In Semester 2, the program's focus on an international context will be supplemented by a week-long trip to the respective city. For semester 3, the program intends to provide students the option of an immersive trip in a foreign or domestic location for their final project. The USC School of Architecture is developing the Latin Americas Cities Initiative and Asia Cities Initiative, which will be expected to interface with the MAARS CD+H, PD+T and SP+SJ programs.

Completion of the degree requires 42 units, including 8 units of Architecture Directed Design Research.

Core Requirements (28 units)

This degree is intended for qualified students who have completed a professional degree in architecture (BArch/MArch) with interest in advanced non-professional graduate study pursuing careers in urban design, urban planning, community development, as well as adequate and affordable housing design.

- ARCH 519 Sustainability in the Environment: Infrastructures, Urban Landscapes, and Buildings Units: 3
- ARCH 529 Urban Housing: Programs, Precedents, and Recent Case Studies Units: 2
- ARCH 543 Research Methods Units: 1
- ARCH 561 Urbanism Themes and Case Studies Units: 2
- ARCH 702L Advanced Graduate Architecture Design – Themes Units: 6
- ARCH 705L Advanced Graduate Architecture Design – Topics Units: 6
- ARCH 793aL Architecture Directed Design Research Option I Units: 2
- ARCH 793bL Architecture Directed Design Research Option I Units: 6

Electives (14 units)

The curriculum is designed to be flexible to allow students to customize elective courses to a specific topic of interest within the thematic framework of the degree program. A list of electives currently offered for all themes is summarized below. Additional electives outside of the School of Architecture are possible upon approval.

Architecture and Housing

- ARCH 414 Perspectives in History and Theory in Architecture Units: 2
- ARCH 527 Case Studies: The Development of Urban Housing Units: 2
- ARCH 528 Urban Housing: Types and Typologies Units: 2
- ARCH 562 Architecture Themes and Case Studies Units: 2

Sustainability and Systems

- ARCH 447 Ecological Factors in Design Units: 3
- ARCH 515L Seminar: Advanced Environmental Systems Units: 4 or
- PPDE 640 Environmental Planning and Analysis Units: 4
- ARCH 531 Urban Ecology Units: 4

Urbanism and Landscape

- ARCH 544 Landscape as Urbanism: Case Studies Units: 3
- ARCH 553 History of American Architecture and Urbanism Units: 3
- ARCH 565 Global History of Designed Landscapes Units: 3 or
- ARCH 566 Cross Cultural Topics in Landscape Architecture History Units: 3 or
- PPDE 636 Urban Spatial Ethnography and Critical Cartography Units: 4

Advanced Architectural Research Studies (Performative Design and Technology) (MAARS)

The Master of Advanced Architectural Research Studies, Performative Design And Technology Emphasis is a 42-unit graduate design program at the USC School of Architecture that focuses on the integration of architectural design, building performance and technology, within the context of digital design and fabrication. As a design-centric approach to building science concepts in the spirit of Ralph Knowles and the legacy of the Natural Forces Laboratory at the USC School of Architecture,

issues of sustainability, structure, daylighting and thermal comfort will be explored in the context of architectural design. In this program, students will explore digital and analog techniques for discovering form through variable material and geometric organizations and force simulations, while simultaneously considering the design opportunities being afforded by advances in computation and fabrication technologies. The proposed curriculum will respond to emerging shifts in the architecture, engineering and construction (AEC) industry towards integrated technologies, increased efficiency, and productivity, and a digital workforce driven by digital, sensing and intelligent technologies. An integrated design curriculum that incorporates these concepts will support students in developing the skill necessary to foster innovation in practice with a focus on: data, technology, integration, performance, ecology and sustainability.

A travel component will be included in Semester 1 through field trips in the Los Angeles and Southern California region to connect students with the real-world context and challenges faced in urban cities. In Semester 2, a week-long trip to a foreign or domestic location will provide students with a global context and interface and connect with the CD+H program. Students will have an option in Semester 3 to participate in an extended and immersive trip in a foreign or domestic location that will support completion of the final project. The USC School of Architecture is developing the Latin Americas Cities Initiative and Asia Cities Initiative, which will be expected to interface with the MAARS CD+H and PD+T programs.

Completion of the degree requires 42 units, including 8 units of Architecture Directed Design Research.

Core Requirements (28 units)

This degree is intended for qualified students who have completed a professional degree in architecture (BArch/MArch) with interest in advanced non-professional graduate study who are pursuing careers in architectural design, structural design, parametric design, design optimization, environmental design and performative architecture.

- ARCH 519 Sustainability in the Environment: Infrastructures, Urban Landscapes, and Buildings Units: 3
- ARCH 543 Research Methods Units: 1
- ARCH 607 Advanced Computation Units: 2
- ARCH 609 Advanced Fabrication Units: 2
- ARCH 702L Advanced Graduate Architecture Design – Themes Units: 6
- ARCH 705L Advanced Graduate Architecture Design – Topics Units: 6
- ARCH 793aL Architecture Directed Design Research Option I Units: 2
- ARCH 793bL Architecture Directed Design Research Option I Units: 6

Electives (14 units)

The curriculum is designed to be flexible to allow students to customize elective courses to a specific topic of interest within the thematic framework of the degree program. A list of electives currently offered for all themes is summarized below. Additional electives outside of the School of Architecture are possible upon approval.

Design

- ARCH 581 Techniques in Digital Fabrication Units: 3

Integration

- ARCH 418 Designing with Natural Forces Units: 3
- ARCH 513L Seminar: Advanced Structures Units: 4
- ARCH 518 Advanced Surface Tectonics: Methods in Material and Enclosure Units: 2
- ARCH 611 Advanced Building Systems Integration Units: 4

Materials

- ARCH 511L Building Systems: Materials and Construction Units: 4
- ARCH 512 Material + Process: Material Systems Units: 2

Systems

- ARCH 447 Ecological Factors in Design Units: 3
- ARCH 515L Seminar: Advanced Environmental Systems Units: 4
- ARCH 576 Sustainable Design for Healthy Indoor Environments Units: 3
- ARCH 588 Physical Computing: Linking Architectural Computing with the Physical World Units: 3

Advanced Architectural Studies (MAAS)

This program is dedicated to cutting edge research and experimentation, and seeks to explore in a highly innovative fashion the cultural and technological landscapes of Los Angeles. Through its range of experimental 'Labs', the program is structured under three distinct veins of inquiry [1] architectural urban studies using Los Angeles as a laboratory to engage global issues; [2] advanced computation/fabrication technologies and material processes; and [3] performative architecture with an emphasis on sustainable systems. These specific design and research directions are diversely initiated by our faculty and fully supported by additional resources from the University of Southern California and the city of Los Angeles.

The Master of Advanced Architectural Studies is a three-semester advanced degree program. Consisting of two option-based topic studios followed by an in-depth Directed Design Research project [DDR], and coordinated seminar courses each for the first two semesters, the degree is focused on advanced and emerging topics in architecture. The design and research directions are diversely initiated by our faculty and fully supported by additional resources from the University at-large and the city of Los Angeles.

Candidates for admission must have a five-year Bachelor of Architecture degree or its equivalent. Completion of the degree requires 48 units, including 28 units of required studio and seminar courses, [including 8 units Directed Design Research or Thesis], and 20 units of approved electives, over three semesters of residency.

Required Courses

- ARCH 606 Advanced Architectural Theory Units: 2
- ARCH 607 Advanced Computation Units: 2
- ARCH 608 Urban Theory: Los Angeles Case Study Units: 2
- ARCH 609 Advanced Fabrication Units: 2
- ARCH 702L Advanced Graduate Architecture Design – Themes Units: 6
- ARCH 705L Advanced Graduate Architecture Design – Topics Units: 6
- ARCH 793aL Architecture Directed Design Research Option I Units: 2
- ARCH 793bL Architecture Directed Design Research Option I Units: 6

  or
- ARCH 795aL Architecture Thesis Option II Units: 2
- ARCH 795bL Architecture Thesis Option II Units: 6

48-Unit Sample Curriculum – Master of Advanced Architectural Studies (MAAS) Post-Professional Degree

First Semester

- ARCH 606 Advanced Architectural Theory Units: 2 *
- ARCH 607 Advanced Computation Units: 2 *
- ARCH 608 Urban Theory: Los Angeles Case Study Units: 2 *
- ARCH 609 Advanced Fabrication Units: 2 *
- ARCH 702L Advanced Graduate Architecture Design – Themes Units: 6

Total units: 14

Second Semester

- ARCH 705L Advanced Graduate Architecture Design – Topics Units: 6 (max 12)
- ARCH 793aL Architecture Directed Design Research Option I Units: 2 or

- ARCH 795aL Architecture Thesis Option II Units: 2
- Elective Units: 8

Total units: 16

Third Semester

- ARCH 793bL Architecture Directed Design Research Option I Units: 6 or
- ARCH 795bL Architecture Thesis Option II Units: 6
- Electives Units: 12

Total units: 18

Note:

**ARCH 606 and ARCH 607 will be taken the first half of the semester and ARCH 608 and ARCH 609 in the latter half of the semester.*

Architecture (MArch)

Programs

The USC School of Architecture offers two distinct master's programs related to the study of architecture: the Master of Architecture professional degree (MArch) and the Master of Advanced Architectural Studies postprofessional degree (MAAS) for students who already hold a professional degree in architecture or its equivalent.

Master of Architecture (MArch), Professional Degree

The school's Master of Architecture is a NAAB accredited professional degree program in the area of architectural design. It is intended for individuals who have completed a bachelor's degree with a major other than one of the design professions, (typically requiring three years of residency); or, with advanced standing, for those individuals with a pre-professional undergraduate degree in architectural studies (typically requiring two years of residency).

This degree fully prepares graduates for the present and future professional activities in the ever-evolving field of architecture. As an accredited professional degree, it provides a solid intellectual base of knowledge in history, technology, professional practice and theory. Particular emphasis is put on each of the six-semester design studio sequences, where students learn to synthesize the social, environmental and tectonic thinking through informed design practice. The studios culminate in an option-based studio and directed design research sequence, pursuing exploration of advanced and emerging topics. Exploring the many elective opportunities within the school, students are encouraged to develop a tailored curriculum, and if possible, to complete one of the several graduate certificates offered by the school or within the university.

Degree Requirements

A minimum one-semester college-level course in physics or calculus is required.

In order for the MArch degree to be conferred, students must complete 102 credit units of both required professional and elective course work during three years of residency, or for students admitted with advanced standing, a minimum of 64 units of both required professional and elective course work during two years of residency. Students must also continually meet the established standards for graduate study at USC.

To meet NAAB accreditation requirements, all students must complete (before graduation) a combined total of 168 credit hours of study at the undergraduate and graduate level, of which at least 30 semester credit hours must be at the graduate level as well as a minimum of 45 units of non-architectural content.

Advanced Standing

Students seeking advanced standing must have a four-year architectural studies degree from: a U.S. school with an accredited professional architecture program; a U.S. school that is accredited by a regional accrediting body, without an accredited professional architecture program; or an international program that is deemed equivalent.

All students who meet the pre-professional undergraduate degree requirement and wish to be considered for advanced standing must undergo a course-by-course review. Students must provide significant evidence from the course work completed at the undergraduate level in order for waivers to be considered or granted for USC MArch required Basic Studies courses. This review is conducted after admission to the program, during the summer prior to starting course work.

Basic Studies courses include: ARCH 511L Building Systems: Materials and Construction, ARCH 514a Global History of Architecture, ARCH 514b Global History of Architecture, ARCH 523aL Structural Design and Analysis, ARCH 523bL Structural Design and Analysis, ARCH 575a Systems, ARCH 575b Systems, ARCH 611 Advanced Building Systems Integration.

MArch students with advanced standing are required to complete a minimum two year residency, or 4 semester units of study at USC.

Summer Semester

A robust curriculum is available during the summer semester between the fourth and fifth semesters [of the full sequence; between the second and third of the advanced standing]. A combination of internationally based studios, field studies and the full first semester sequence of the MAAS is available to provide students diverse and advanced opportunities that can expand their degree offerings.

Admission with No Previous Professional Education (+3)

Students admitted with no previous professional education must complete 102 units, including 74 units of specified courses, 20 units of electives and 8 units of Directed Design Research or Thesis. Electives must be part of a curricular plan approved by the program director.

Required Courses for the 102 unit M.Arch +3 Curriculum

- ARCH 409L Design Foundation Units: 2
- ARCH 410 Computer Transformations Units: 2
- ARCH 505aL Graduate Architecture Design I Units: 6
- ARCH 505bL Graduate Architecture Design I Units: 6
- ARCH 511L Building Systems: Materials and Construction Units: 4
- ARCH 514a Global History of Architecture Units: 3
- ARCH 514b Global History of Architecture Units: 3
- ARCH 523aL Structural Design and Analysis Units: 3
- ARCH 523bL Structural Design and Analysis Units: 3
- ARCH 525 Professional Practice: Pre-Design, Project and Office Administration Units: 3
- ARCH 526 Professional Practice: Legal and Economic Context, Project Documentation Units: 3
- ARCH 561 Urbanism Themes and Case Studies Units: 2
- ARCH 562 Architecture Themes and Case Studies Units: 2
- ARCH 563 Contemporary Architectural Theory Units: 2
- ARCH 564 Descriptive and Computational Architectural Geometry Units: 2
- ARCH 575a Systems Units: 3
- ARCH 575b Systems Units: 3
- ARCH 605aL Graduate Architecture Design II Units: 6
- ARCH 605bL Graduate Architecture Design II Units: 6
- ARCH 611 Advanced Building Systems Integration Units: 4
- ARCH 705L Advanced Graduate Architecture Design – Topics Units: 6
- ARCH 793aL Architecture Directed Design Research Option I Units: 2
- ARCH 793bL Architecture Directed Design Research Option I Units: 6
  or
- ARCH 795aL Architecture Thesis Option II Units: 2
- ARCH 795bL Architecture Thesis Option II Units: 6

102-unit Sample Curriculum – M.Arch. Professional Degree

First Semester

- ARCH 409L Design Foundation Units: 2 *
- ARCH 410 Computer Transformations Units: 2 *
- ARCH 505aL Graduate Architecture Design I Units: 6
- ARCH 511L Building Systems: Materials and Construction Units: 4
- ARCH 514a Global History of Architecture Units: 3

Total units: 17

Second Semester

- ARCH 505bL Graduate Architecture Design I Units: 6
- ARCH 514b Global History of Architecture Units: 3
- ARCH 523aL Structural Design and Analysis Units: 3
- ARCH 525 Professional Practice: Pre-Design, Project and Office Administration Units: 3
- ARCH 575a Systems Units: 3

Total units: 18

Third Semester

- ARCH 523bL Structural Design and Analysis Units: 3
- ARCH 561 Urbanism Themes and Case Studies Units: 2
- ARCH 562 Architecture Themes and Case Studies Units: 2
- ARCH 605aL Graduate Architecture Design II Units: 6
- ARCH 611 Advanced Building Systems Integration Units: 4

Total units: 17

Fourth Semester

- ARCH 563 Contemporary Architectural Theory Units: 2
- ARCH 564 Descriptive and Computational Architectural Geometry Units: 2
- ARCH 575b Systems Units: 3
- ARCH 605bL Graduate Architecture Design II Units: 6
- Electives Units: 4

Total units: 17

Fifth Semester

- ARCH 526 Professional Practice: Legal and Economic Context, Project Documentation Units: 3
- ARCH 705L Advanced Graduate Architecture Design – Topics Units: 6
- ARCH 793aL Architecture Directed Design Research Option I Units: 2 or
- ARCH 795aL Architecture Thesis Option II Units: 2
- Electives Units: 6

Total units: 17

Sixth Semester

- ARCH 793bL Architecture Directed Design Research Option I Units: 6 or
- ARCH 795bL Architecture Thesis Option II Units: 6
- Electives Units: 10

Total units: 16

Note:

**ARCH 409 and ARCH 410 will be taken as a fall semester special session prior to the first day of classes.*

Admission with Advanced Standing (+2)

Advanced standing students must complete 64 units, including 34 units of specified courses, 22 units of electives or basic studies requirements and 8 units of Directed Design Research or Thesis. Electives and basic studies courses must be part of a curricular plan approved by the program director.

Required Courses for the 64-unit +2 Curriculum

- ARCH 410 Computer Transformations Units: 2
- ARCH 525 Professional Practice: Pre-Design, Project and Office Administration Units: 3
- ARCH 526 Professional Practice: Legal and Economic Context, Project Documentation Units: 3
- ARCH 561 Urbanism Themes and Case Studies Units: 2
- ARCH 562 Architecture Themes and Case Studies Units: 2
- ARCH 563 Contemporary Architectural Theory Units: 2
- ARCH 564 Descriptive and Computational Architectural Geometry Units: 2
- ARCH 605aL Graduate Architecture Design II Units: 6
- ARCH 605bL Graduate Architecture Design II Units: 6
- ARCH 705L Advanced Graduate Architecture Design – Topics Units: 6
- ARCH 793aL Architecture Directed Design Research Option I Units: 2
- ARCH 793bL Architecture Directed Design Research Option I Units: 6 or
- ARCH 795aL Architecture Thesis Option II Units: 2
- ARCH 795bL Architecture Thesis Option II Units: 6

64-unit Sample Curriculum

Year One, Semester One

- ARCH 410 Computer Transformations Units: 2
- ARCH 561 Urbanism Themes and Case Studies Units: 2
- ARCH 562 Architecture Themes and Case Studies Units: 2
- ARCH 605aL Graduate Architecture Design II Units: 6
- Elective or Basic Studies Units: 4

Total units: 16

Year One, Semester Two

- ARCH 525 Professional Practice: Pre-Design, Project and Office Administration Units: 3
- ARCH 563 Contemporary Architectural Theory Units: 2

- ARCH 795aL Architecture Thesis Option II Units: 2
- Elective or Basic Studies Units: 5

Total units: 16

Year Two, Semester Two

- ARCH 793bL Architecture Directed Design Research Option I Units: 6 or
- ARCH 795bL Architecture Thesis Option II Units: 6
  Elective or Basic Studies Units: 9

Total units: 15

Building Science (MBS)

The Chase L. Leavitt Graduate Building Science program in the USC School of Architecture is a global leader in architectural technology education - the intricacies of structure, environmental controls, sustainability, materials and methods, and computing, with a special strength in façade research. The Master of Building Science curriculum encourages "breadth with depth," providing students with a solid platform of core knowledge that they can then amplify through their individual research projects. Electives allow students to stretch in a variety of directions, both within the field and beyond into the related disciplines of heritage conservation, landscape architecture, and architecture.

Graduate building science degree programs at USC are a half-century old, although the pedagogy has been an integral part of the School of Architecture for more than a century. Some of the great innovators of our field are either graduates or faculty associated with our program. The confluence of an outstanding faculty, dedicated students, an exceptional curricular structure, good facilities and a long history of collaborative scholarly achievement creates an unparalleled academic home for those interested in cutting-edge research and technological innovation.

Degree Requirements

The **Thesis Track** consists of 18 units of specified courses to include three core seminars and one research seminar; 17 units of elective courses; and 13 units of thesis and thesis preparation. Completion of this track requires 48 units.

The **Non-Thesis Track** consists of 18 units of specified courses to include three core seminars and one research seminar, 1 unit of thesis preparation, 17 units of electives and 12 units from a specified list of courses. Students are required to declare their intention for the Non-Thesis Track by the end of their first year of studies and must receive admission approval from the Director of the Master of Building Science program. Completion of this degree requires 48 units.

Core seminars are:

- ARCH 511L Building Systems: Materials and Construction Units: 4 or
- ARCH 611 Advanced Building Systems Integration Units: 4
- ARCH 513L Seminar: Advanced Structures Units: 4
- ARCH 515L Seminar: Advanced Environmental Systems Units: 4

Research seminars are:

- ARCH 613L Seminar: Structures Research Units: 4 or
- ARCH 615L Seminar: Environmental Systems Research Units: 4

48-Unit Sample Curriculum For Thesis Track

First Year, First Semester

- Core seminar(s) and/or research seminar(s) Units: 12
- ARCH 596 Building Science Thesis Preparation Units: 1

Total units: 13

First Year, Second Semester

- Core seminar and/or research seminar Units: 4
- Electives Units: 7

Total units: 11

Second Year, First Semester

- ARCH 692aL Building Science Thesis Units: 6
  Electives

Total units: 12

Second Year, Second Semester

- ARCH 692bL Building Science Thesis Units: 6
- ARCH 694 Research Publication Methods for Building Science Units: 2
  Electives

Total units: 12

48-Unit Sample Curriculum for Non-Thesis Track

Non-Thesis Track Building Science Elective Options (must choose 12 units)

- ARCH 418 Designing with Natural Forces
- ARCH 419 Architectural Sustainability Tools and Methods
- ARCH 507 Theories of Computer Technology
- ARCH 512 Material + Process: Material Systems
- ARCH 513L Seminar: Advanced Structures
- ARCH 515L Seminar: Advanced Environmental Systems
- ARCH 517 Current Topics in Building Science
- ARCH 518 Advanced Surface Tectonics: Methods in Material and Enclosure
- ARCH 519 Sustainability in the Environment: Infrastructures, Urban Landscapes, and Buildings
- ARCH 543 Research Methods
- ARCH 551 Conservation Methods and Materials
- ARCH 557 Sustainable Conservation of the Historic Built Environment
- ARCH 564 Descriptive and Computational Architectural Geometry
- ARCH 573 Seismic Design
- ARCH 574 Parametric Design
- ARCH 576 Sustainable Design for Healthy Indoor Environments
- ARCH 577L Lighting Design
- ARCH 579 Sustainable Building and Environment using LEED Metrics
- ARCH 581 Techniques in Digital Fabrication
- ARCH 609 Advanced Fabrication
- ARCH 611 Advanced Building Systems Integration
- ARCH 613L Seminar: Structures Research
- ARCH 615L Seminar: Environmental Systems Research

(*Note: Students may obtain credit for* either *ARCH 613L or ARCH 615L in the non-thesis option, but not both. They must select one of these two courses as part of their regular core).*

First Year, First Semester

- Core seminar(s) and/or research seminar(s) Units: 12
- ARCH 596 Building Science Thesis Preparation Units: 1

Total units: 13

First Year, Second Semester

- Core seminar and/or research seminar Units: 4
- Electives Units: 7

Total units: 11

Second Year, First Semester

- Elective Units: 10
- Select 2 units of Building Science elective course work from above list

Total units: 12

Second Year, Second Semester

- Select 10 units of Building Science elective course work from above list
- ARCH 694 Research Publication Methods for Building Science Units: 2

Total units: 12

Advanced Standing for Students with a Five-Year Professional Degree in Architecture

Applicants who have completed a five-year Bachelor of Architecture degree and at least five years of teaching or practice (may be combined), may be qualified for advanced standing. Each student will be considered individually. In such cases, the degree requirements are 36 units, including 16 units of specified courses, 13 units of thesis and thesis preparation and 7 units of electives. Students with advanced standing will typically be able to complete the degree program in three regular semesters. Admission with advanced standing is determined at the time of review for admission to the program.

36-Unit Advanced Standing Sample Curriculum

First Year, First Semester

- ARCH 511L Building Systems: Materials and Construction Units: 4 or
- ARCH 611 Advanced Building Systems Integration Units: 4
- ARCH 513L Seminar: Advanced Structures Units: 4
- ARCH 515L Seminar: Advanced Environmental Systems Units: 4
- ARCH 596 Building Science Thesis Preparation Units: 1

Total units: 13

First Year, Second Semester

- ARCH 613L Seminar: Structures Research Units: 4 or
- ARCH 615L Seminar: Environmental Systems Research Units: 4
- ARCH 692aL Building Science Thesis Units: 6
  Electives

Total units: 12

Second Year, First Semester

  Electives

Total units: 11

Heritage Conservation (MHC)

Completion of this degree requires 48 units and includes 26 units of specified courses, 5 units of thesis preparation and thesis, and 17 units of elective courses as approved by the program director.

Master of Heritage Conservation

Los Angeles provides a unique laboratory in which to learn and challenge conservation issues. As a relatively young and diverse global city, it is the ideal place to explore a relatively young and diverse global discipline. Our wealth of recent past resources raise a new set of research challenges and the city's richly diverse communities woven throughout the tapestry of the built environment push us to acknowledge the many layers of history and meaning revealed in the city. It is also a place forever seeking the new, providing opportunities to protect the best of the past while embracing the landmarks of the future.

Embedded in the School of Architecture at USC, heritage conservation students are instantly part of a multidisciplinary environment, linking landscape architecture, building science, architecture, and conservation. As such, the program curriculum is designed to expose students to a broad range of topics including materials conservation, policy and planning, conservation theory, global conservation efforts, architectural and landscape history, best-practices in resource documentation and evaluation, sustainability, and historic site management. Students are also encouraged to take advantage of the many academic resources in the broader university, including taking courses in real estate, regional history, urban planning, and spatial sciences. Program faculty are leaders in the field, a blend of academics and practitioners that grapple with conservation in real time, seeking creative solutions that balance the integrity of the past with a sustainable future. Through this broad exposure, students begin to formulate their professional path within the discipline.

Required Courses

- ARCH 404 Topics in Modern Architecture in Southern California Units: 3
- ARCH 549 Fundamentals of Heritage Conservation Units: 3
- ARCH 550 Heritage Conservation Policy and Planning Units: 3
- ARCH 551 Conservation Methods and Materials Units: 3
- ARCH 552 Introduction to Historic Site Documentation Units: 2
- ARCH 553 History of American Architecture and Urbanism Units: 3
- ARCH 554 Heritage Conservation Practicum — Advanced Documentation Units: 3
- ARCH 555 Global Perspectives in Heritage Conservation Units: 2
- ARCH 556 Readings in Heritage Conservation Theory Units: 2
- ARCH 558 Fundamentals of Place-Making Units: 2
- ARCH 691a Heritage Conservation Thesis Preparation and Thesis Units: 1
- ARCH 691b Heritage Conservation Thesis Preparation and Thesis Units: 4
- ARCH 691z Heritage Conservation Thesis Preparation and Thesis Units: 0

48-Unit Sample Curriculum

First Year, First Semester

- ARCH 549 Fundamentals of Heritage Conservation Units: 3
- ARCH 552 Introduction to Historic Site Documentation Units: 2

Total units: 12

Requirements for Advanced Standing

Students must have one of the following: an accredited graduate certificate in historic preservation or heritage conservation; professional degree or professional registration in architecture or engineering; graduate degree in a related field, such as architectural history, planning or history; and at least five years of teaching or practice (may be combined). Each student will be considered individually. Qualified students will be admitted to a three-semester program at the time of review of admission. Students with advanced standing must complete 36 units.

Required Courses

- ARCH 404 Topics in Modern Architecture in Southern California Units: 3
- ARCH 549 Fundamentals of Heritage Conservation Units: 3
- ARCH 550 Heritage Conservation Policy and Planning Units: 3
- ARCH 551 Conservation Methods and Materials Units: 3
- ARCH 552 Introduction to Historic Site Documentation Units: 2
- ARCH 553 History of American Architecture and Urbanism Units: 3
- ARCH 554 Heritage Conservation Practicum — Advanced Documentation Units: 3
- ARCH 555 Global Perspectives in Heritage Conservation Units: 2
- ARCH 556 Readings in Heritage Conservation Theory Units: 2
- ARCH 558 Fundamentals of Place-Making Units: 2
- ARCH 691a Heritage Conservation Thesis Preparation and Thesis Units: 1
- ARCH 691b Heritage Conservation Thesis Preparation and Thesis Units: 4
- ARCH 691z Heritage Conservation Thesis Preparation and Thesis Units: 0

36-Unit Sample Curriculum

First Year, First Semester

- ARCH 549 Fundamentals of Heritage Conservation Units: 3
- ARCH 552 Introduction to Historic Site Documentation Units: 2
- ARCH 553 History of American Architecture and Urbanism Units: 3
- ARCH 558 Fundamentals of Place-Making Units: 2
- Electives Units: 2

Total units: 12

First Year, Second Semester

- ARCH 404 Topics in Modern Architecture in Southern California Units: 3
- ARCH 550 Heritage Conservation Policy and Planning Units: 3
- ARCH 551 Conservation Methods and Materials Units: 3
- ARCH 555 Global Perspectives in Heritage Conservation Units: 2
- ARCH 691a Heritage Conservation Thesis Preparation and Thesis Units: 1

Total units: 12

Second Year, First Semester

- ARCH 554 Heritage Conservation Practicum — Advanced Documentation Units: 3
- ARCH 556 Readings in Heritage Conservation Theory Units: 2
- ARCH 691b Heritage Conservation Thesis Preparation and Thesis Units: 4
- Electives Units: 3

Total units: 12

Landscape Architecture (MLArch)

Landscapes are the dynamic synthesis of natural systems, sociocultural forces and the physical material of the constructed world. The Graduate Program of Landscape Architecture + Urbanism uses the complex regional geography of Southern California as its primary laboratory to generate and test responses to the planet's most pressing environmental challenges, including resounding impacts of climate change, rapid urbanization, social and environmental injustice, and the interface of nature and technology. Looking regionally and globally, we conduct rigorous design-research to develop multi-scalar innovations in performative regional infrastructures, equitable urban frameworks and public spaces, and healthful biophysical systems. We focus on pressures of urbanization and how to utilize landscape strategies to shape those systems, spaces, cities and infrastructures to imagine more resilient futures – socially and ecologically.

We are fortunate to inhabit one of the most culturally and environmentally diverse geographies in the world - within an hour's drive from the Pacific Ocean, the San Gabriel Mountains and the western edge of the Sonoran Desert. Clearly Southern California offers a wide range of landscape challenges to which we apply design exploration, strategic thinking, technical resolution and creative expression. Those challenges include increasing water scarcity impacting urban and agricultural territories, warming temperatures, rising sea levels, reduced biodiversity, wildfire-flood-debris flow cycles, as well as deeply institutionalized practices of discrimination that have marginalized and burdened communities of color, and rapid urban development that is leaving many populations behind or displaced. More optimistically, there is an increasing investment in public space, urban nature and environmental resilience in our region, which is characteristically experimental and creative.

Our program curriculum is focused on a balanced core of design studios, media and fabrication, history and theory, performance technologies, plant materials and ecology, construction and practice, and urbanism. It is field-based and hands-on. The studio sequence begins with local urban sites where intensive field work is critical to site understanding and builds up to territorial-scale design-research studios. Students synthesize their courses in media, history, plant materials, ecology, construction and urbanism with their studio work. Second-year studios provide opportunities to investigate design responses to urban development, as well as climate change causes and impacts, and have options both to travel outside the region and to collaborate with architecture students in an integrated setting. Elective courses in our curriculum come from a wide range of offerings in the School of Architecture and other courses including those in urban planning, spatial sciences, art and cinema. We have a number of international opportunities to study other geographies – both during the summer global studies programs and studios within the curriculum.

Our curriculum is increasingly focused on opportunities for applied research that has real impact on the ground or in shaping policy. The aim of the program is to develop critical thinkers and design leaders unafraid to tackle some of the most contested landscapes and environmental questions of our day.

Master of Landscape Architecture

Individuals who have completed a four-year Bachelor of Arts or Bachelor of Science degree, or its equivalent, with no prior accredited degree in landscape architecture, are eligible for admission to the program. Preference for admission is given to those who have completed a balanced undergraduate education that includes study in the arts, sciences and humanities. Applicants must document successful completion of a college-level course in the natural sciences. Preparation in the visual arts is strongly encouraged. Courses in the humanities, ecology, history of art, landscape architecture and architecture are strongly encouraged, although not required.

96-Unit Curriculum

Students admitted with no previous professional education must complete 96 units (during three years of residency), including 77 units of specified courses, 10 units of electives, and 9 units of Advanced Design Research. Electives must be part of a curricular plan approved by the program director.

96-Unit Sample Curriculum

Year One, Semester One

- ARCH 439 Landscape Architecture Foundations Workshop Units: 2
- ARCH 531 Urban Ecology Units: 4
- ARCH 539L Media for Landscape Architecture Units: 3
- ARCH 541aL Landscape Architecture Design Units: 6
- ARCH 565 Global History of Designed Landscapes Units: 3

Total units: 18

Year One, Semester Two

- ARCH 534 Landscape Construction: Topographic Design Units: 3
- ARCH 537 Plant Ecology + Identification Units: 2
- ARCH 541bL Landscape Architecture Design Units: 6
- ARCH 545 Contemporary Theories of Landscape Architecture Units: 3
- ARCH 548 Media for Landscape Architecture: 3D Design Units: 3

Total units: 17

Year Two, Semester One

- ARCH 542aL Landscape Architecture Design Units: 6
- ARCH 538L Planting Design Units: 2
- ARCH 544 Landscape as Urbanism: Case Studies Units: 3
- ARCH 639 Media for Landscape Architecture: Dynamic Systems Units: 3
- SSCI 572 GIS and Landscape Architecture Units: 2

Total units: 16

Year Two, Semester Two

- ARCH 542bL Landscape Architecture Design Units: 6
- ARCH 535 Landscape Construction: Performance Approaches Units: 3
- ARCH 547 Advanced Topics in Urban Ecology Units: 3
- ARCH 635 Landscape Construction: Assembly and Documentation Units: 3

Total units: 15

Year Three, Semester One

- ARCH 571 Community-Based Design, Conservation and Planning Units: 2
- ARCH 642L Landscape Architecture Design Units: 6

- ARCH 698aL Advanced Design-Research Units: 3
- Elective Units: 4

Total units: 15

Year Three, Semester Two

- ARCH 530 Landscape Architecture Practice Units: 3
- ARCH 698bL Advanced Design-Research Units: 6
- Elective Units: 6

Total units: 15

Requirements for Advanced Placement

Applicants who have completed a LAAB (Landscape Architectural Accreditation Board), or equivalent, degree in landscape architecture may be granted advanced placement of two semesters, subject to the review of the admission committee. Applicants granted advanced placement may be able to waive certain course requirements for the MLA program by demonstrating equivalencies in any of the required courses. The program director and faculty in charge of the specific curriculum areas will determine the studio and professional course requirements for each MLA student admitted with advanced placement. The following courses are prerequisites to be completed prior to matriculation or, on specific notice, in the first year of the program: history of landscape architecture (ARCH 565 or equivalent), landscape architecture construction (ARCH 534, ARCH 635 or equivalent), plant materials (ARCH 537, ARCH 538 or equivalent), media (ARCH 539 or equivalent), GIS and landscape architecture (SSCI 572 or equivalent).

64-Unit Sample Curriculum

Advanced placement students must complete 64 units, including 50 units of specified courses, 5 units of electives, and 9 units of Advanced Design Research. Electives must be part of a curricular plan approved by the program director.

Year One, Semester One

- ARCH 439 Landscape Architecture Foundations Workshop Units: 2
- ARCH 531 Urban Ecology Units: 4
- ARCH 542aL Landscape Architecture Design Units: 6
- ARCH 565 Global History of Designed Landscapes Units: 3
- SSCI 572 GIS and Landscape Architecture Units: 2

Total units: 17

Year One, Semester Two

- ARCH 535 Landscape Construction: Performance Approaches Units: 3
- ARCH 542bL Landscape Architecture Design Units: 6
- ARCH 545 Contemporary Theories of Landscape Architecture Units: 3
- ARCH 548 Media for Landscape Architecture: 3D Design Units: 3
- Elective Units: 2

Total units: 17

Year Two, Semester One

- ARCH 544 Landscape as Urbanism: Case Studies Units: 3
- ARCH 571 Community-Based Design, Conservation and Planning Units: 2
- ARCH 639 Media for Landscape Architecture: Dynamic Systems Units: 3
- ARCH 642L Landscape Architecture Design Units: 6
- ARCH 698aL Advanced Design-Research Units: 3

Total units: 17

Year Two, Semester Two

- ARCH 530 Landscape Architecture Practice Units: 3
- ARCH 547 Advanced Topics in Urban Ecology Units: 3
- ARCH 698bL Advanced Design-Research Units: 6
- Elective Units: 3

Total units: 15

Requirement for Advanced Placement with a B.Arch

This curricular track would be for students with the Bachelor of Architecture (B.Arch) to receive advanced standing to the Master of Landscape Architecture degree. Incoming students will start the 3-year track requirements and then accelerate in the second year with compressed requirements from those three years while reducing the number of studio requirements (from 6 to 4). This curriculum ensures that students receive appropriate training in design, ecology, plants, media, history and construction required of this accredited degree as well as professional expectations. Due to the compressed timeframe for this advanced standing track, electives units are not required.

NOTE: Acceptance into this accelerated curriculum is at the discretion of the Admissions Committee and the MLA+U Program Director.

66-Unit Sample Curriculum

Advanced placement students must complete 66 units, including 57 units of specified courses and 9 units of Advanced Design Research.

Year One, Semester One

- ARCH 531 Urban Ecology Units: 4
- ARCH 539L Media for Landscape Architecture Units: 3
- ARCH 541aL Landscape Architecture Design Units: 6
- ARCH 565 Global History of Designed Landscapes Units: 3
- SSCI 572 GIS and Landscape Architecture Units: 2

Total units: 18

Year One, Semester Two

- ARCH 534 Landscape Construction: Topographic Design Units: 3
- ARCH 537 Plant Ecology + Identification Units: 2
- ARCH 541bL Landscape Architecture Design Units: 6
- ARCH 545 Contemporary Theories of Landscape Architecture Units: 3
- ARCH 548 Media for Landscape Architecture: 3D Design Units: 3

Total units: 17

Year Two, Semester One

- ARCH 538L Planting Design Units: 2
- ARCH 542aL Landscape Architecture Design Units: 6
- ARCH 544 Landscape as Urbanism: Case Studies Units: 3
- ARCH 571 Community-Based Design, Conservation and Planning Units: 2
- ARCH 639 Media for Landscape Architecture: Dynamic Systems Units: 3
- ARCH 698aL Advanced Design-Research Units: 3

Total units: 19

Year Two, Semester Two

- ARCH 535 Landscape Construction: Performance Approaches Units: 3
- ARCH 547 Advanced Topics in Urban Ecology Units: 3
- ARCH 698bL Advanced Design-Research Units: 6

Total units: 12

Electives

- ARCH 404 Topics in Modern Architecture in Southern California Units: 3
- ARCH 407 Advanced Computer Applications Units: 4
- ARCH 440m Literature and the Urban Experience Units: 4
- ARCH 447 Ecological Factors in Design Units: 3
- ARCH 507 Theories of Computer Technology Units: 3
- ARCH 519 Sustainability in the Environment: Infrastructures, Urban Landscapes, and Buildings Units: 3
- ARCH 524 Professional Practicum Units: 1 (max 2)
- ARCH 536 The Landscape Planning Process Units: 3
- ARCH 540 Topics in Media for Landscape Architecture Units: 2 (max 6)

- ARCH 546 Topics in Landscape Architecture: Issues and Practices Units: 2
- ARCH 549 Fundamentals of Heritage Conservation Units: 3
- ARCH 550 Heritage Conservation Policy and Planning Units: 3
- ARCH 552 Introduction to Historic Site Documentation Units: 2
- ARCH 553 History of American Architecture and Urbanism Units: 3
- ARCH 566 Cross Cultural Topics in Landscape Architecture History Units: 3 (max 6)
- ARCH 606 Advanced Architectural Theory Units: 2
- ARCH 608 Urban Theory: Los Angeles Case Study Units: 2
- ARCH 635 Landscape Construction: Assembly and Documentation Units: 3
- PPD 527 The Social Context of Planning Units: 2
- PPD 530 Historical Analysis of Urban Form and Planning Practice Units: 2
- PPD 533 Planning History and Urban Form Units: 2
- PPDE 632 Sustainable Cities Units: 4
- SSCI 581 Concepts for Spatial Thinking Units: 4
- SSCI 583 Spatial Analysis and Modeling Units: 4

Dual Degree

Master of Advanced Architectural Studies/ Master of Urban Planning (MAAS/MUP)

The Master of Urban Planning/Master of Advanced Architectural Studies dual degree program facilitates highly related cross-disciplinary studies in architecture and in planning at the master's level. This program offers students interested in developing a career in urban design an opportunity to make more substantial commitments in both disciplines and to achieve a more coherent and extensive knowledge in the design of built environments and public policy. This dual degree program normally requires five semesters in residence.

Qualified students who are admitted to the graduate programs in both the School of Architecture and the USC Price School of Public Policy may complete both degrees in a highly integrated five-semester program. Such students must already possess a five-year professional degree in architecture.

Requirements

Requirements for completion of the dual degree program are 72 units, including 36 units in architecture and 36 units in urban planning, as follows:

Architecture

- ARCH 606 Advanced Architectural Theory Units: 2
- ARCH 607 Advanced Computation Units: 2
- ARCH 608 Urban Theory: Los Angeles Case Study Units: 2
- ARCH 609 Advanced Fabrication Units: 2
- ARCH 702L Advanced Graduate Architecture Design – Themes Units: 6
- ARCH 705L Advanced Graduate Architecture Design – Topics Units: 6
- ARCH 793aL Architecture Directed Design Research Option I Units: 2 and
- ARCH 793bL Architecture Directed Design Research Option I Units: 6 or
- ARCH 795aL Architecture Thesis Option II Units: 2 and
- ARCH 795bL Architecture Thesis Option II Units: 6
- Elective* Units: 8

Note:

**5 units of electives taken within the School of Architecture.*

Urban Planning

- PPD 522 Planning Theory and History for a Just Society Units: 4
- PPD 523 Urban and International Development Units: 4
- PPD 529 Planning Law and Legal Frameworks of Planning Units: 2
- PPD 531L Planning Studio Units: 4, 8, 12 (4 units required)
- PPD 534 Data, Evidence, and Communication of the Public Good Units: 4
- PPD 629 Capstone in Urban Planning Units: 4

Concentrations

There are six concentrations available in the Master of Urban Planning program: Arts and Culture, Design of the Built Environment, Environmental Planning and Analysis, Housing and Real Estate Development, Economic Development, and Mobility and Transportation Planning. Students must select a concentration gateway and methodology course (4 units each, 8 units total). Please see the Master of Urban Planning section of the catalogue for the concentration descriptions and course lists.

Electives

Students select 6 units of electives in urban planning.

Note:

Students in this dual degree will be waived out of PPD 528 in the MUP core as the design skills will be covered in the ARCH design classes.

Master of Building Science/Master of Heritage Conservation (MBS/MHC)

The Master of Heritage Conservation/Master of Building Science dual degree program facilitates highly related cross-disciplinary studies in heritage conservationand in building science at the master's level. The primary objective of the dual degree curriculum is to impart to students a basic familiarity with the origins anddevelopment of the philosophies, theories, and practices of building science and heritage conservation. This curriculum has been developed so that students willgraduate from this program with a broad practical knowledge of the techniques and strategies for conserving the existing built environment through the lens ofscience and technology. Students will be expected to understand the critical methodological tools necessary for a professional engaged in the investigation, interpretation, and evaluation of the urban built environment.

Requirements

Requirements for completion of the dual degree program are 72 units, including 36 units in Heritage Conservation and 36 units of Building Science. As a full-time program of study, students are expected to take 18 units each semester during two years of residency.

Thesis

The thesis topic chosen must be relevant to both degrees. There must be one thesis committee member from each degree program; the third committee membershould be selected relative to the topic selected.

Heritage Conservation Requirements

The Heritage Conservation requirements of the dual degree are 36 units, including 28 required units and 8 units of general electives from the School of Architecture.

- ARCH 404 Topics in Modern Architecture in Southern California Units: 3
- ARCH 549 Fundamentals of Heritage Conservation Units: 3
- ARCH 550 Heritage Conservation Policy and Planning Units: 3
- ARCH 551 Conservation Methods and Materials Units: 3
- ARCH 552 Introduction to Historic Site Documentation Units: 2
- ARCH 553 History of American Architecture and Urbanism Units: 3
- ARCH 554 Heritage Conservation Practicum — Advanced Documentation Units: 3
- ARCH 555 Global Perspectives in Heritage Conservation Units: 2
- ARCH 556 Readings in Heritage Conservation Theory Units: 2
- ARCH 557 Sustainable Conservation of the Historic Built Environment Units: 2
- ARCH 558 Fundamentals of Place-Making Units: 2

Building Science Requirements

The Building Science requirements of the dual degree are 36 units, including 19 required units, 12 units of Building Science Thesis and 5 units of electives from a specific list.

- ARCH 511L Building Systems: Materials and Construction Units: 4
- ARCH 513L Seminar: Advanced Structures Units: 4
- ARCH 515L Seminar: Advanced Environmental Systems Units: 4
- ARCH 596 Building Science Thesis Preparation Units: 1
- ARCH 613L Seminar: Structures Research Units: 4 or
- ARCH 615L Seminar: Environmental Systems Research Units: 4
- ARCH 692aL Building Science Thesis Units: 6
- ARCH 692bL Building Science Thesis Units: 6
- ARCH 694 Research Publication Methods for Building Science Units: 2

Building Science Electives

Select a minimum of 5 units from this list or with approval by the Director of the Graduate Building Science program.

- ARCH 418 Designing with Natural Forces Units: 3
- ARCH 419 Architectural Sustainability Tools and Methods Units: 3
- ARCH 472 Building Skins: Materials and Methods for Facades and Enclosures Units: 2
- ARCH 507 Theories of Computer Technology Units: 3
- ARCH 512 Material + Process: Material Systems Units: 2
- ARCH 518 Advanced Surface Tectonics: Methods in Material and Enclosure Units: 2
- ARCH 519 Sustainability in the Environment: Infrastructures, Urban Landscapes, and Buildings Units: 3
- ARCH 572 Advanced Building Skins: Designing High-Performance Facade Systems Units: 3
- ARCH 573 Seismic Design Units: 2
- ARCH 574 Parametric Design Units: 3
- ARCH 576 Sustainable Design for Healthy Indoor Environments Units: 3
- ARCH 577L Lighting Design Units: 4
- ARCH 579 Sustainable Building and Environment using LEED Metrics Units: 3
- ARCH 588 Physical Computing: Linking Architectural Computing with the Physical World Units: 3
- ARCH 611 Advanced Building Systems Integration Units: 4
- ARCH 613L Seminar: Structures Research Units: 4
- ARCH 615L Seminar: Environmental Systems Research Units: 4
- ARCH 672 Future Building Skins: Advanced Applications in Architecture Units: 3

Master of Heritage Conservation/Master of Landscape Architecture (MHC/MLArch)

The Master of Heritage Conservation/Master of Landscape Architecture + Urbanism dual degree program facilitates highly related cross-disciplinary studies in heritage conservation and in landscape architecture at the master's level. The primary objective of the dual degree curriculum is to impart to students a basic familiarity with the origins and development of the philosophies, theories, and practices of landscape architecture and heritage conservation. This curriculum has been developed so that students will graduate from this program with a broad practical knowledge of the techniques and strategies for conserving the existing built environment through the lens of cultural landscape studies and landscape architecture. Students will be expected to understand the critical methodological tools necessary for a professional engaged in the investigation, interpretation, and evaluation of the cultural landscapes that surround us.

Qualified students who are admitted to the Master of Heritage Conservation and the Master of Landscape Architecture + Urbanism program in the School of Architecture may complete both degrees in a highly integrated five- to seven-semester program.

Completion of the dual degree requires 37 units of courses in heritage conservation (including 5 units of thesis) and either 50 units of landscape architecture (for those students admitted with advanced placement); or 74 units of landscape architecture (for those students admitted to the three-year curriculum).

Master of Heritage Conservation/Master of Landscape Architecture (Advanced Placement)

Qualified students who have completed a pre-professional undergraduate degree in landscape architecture or environmental design, or a professional degree in architecture and are admitted to the graduate landscape architecture + urbanism program in the School of Architecture with advanced placement may complete both degrees in a highly integrated five-semester program.

Completion of the dual degree with MLArch advanced placement requires 87 units, including 37 units of courses in heritage conservation (including 5 units of thesis) and 50 units of courses in landscape architecture + urbanism.

Heritage Conservation

- ARCH 404 Topics in Modern Architecture in Southern California Units: 3
- ARCH 549 Fundamentals of Heritage Conservation Units: 3
- ARCH 550 Heritage Conservation Policy and Planning Units: 3
- ARCH 551 Conservation Methods and Materials Units: 3
- ARCH 552 Introduction to Historic Site Documentation Units: 2
- ARCH 553 History of American Architecture and Urbanism Units: 3
- ARCH 555 Global Perspectives in Heritage Conservation Units: 2
- ARCH 556 Readings in Heritage Conservation Theory Units: 2
- ARCH 557 Sustainable Conservation of the Historic Built Environment Units: 2
- ARCH 559 Cultural Resource Management Units: 3
- ARCH 566 Cross Cultural Topics in Landscape Architecture History Units: 3
- ARCH 570 Cultural Landscape Practicum Units: 3

Thesis:

Thesis requirements:

- The topic chosen must be relevant to both degrees.
- There must be one committee member from each degree program – the third committee member should be selected relative to the topic selected.
- ARCH 691a Heritage Conservation Thesis Preparation and Thesis Units: 1
- ARCH 691b Heritage Conservation Thesis Preparation and Thesis Units: 4

Total units for MHC: 37

Landscape Architecture

- ARCH 530 Landscape Architecture Practice Units: 3
- ARCH 531 Urban Ecology Units: 4
- ARCH 535 Landscape Construction: Performance Approaches Units: 3

Total units for dual degree: 111

Master of Heritage Conservation/Master of Urban Planning (MHC/MUP)

The Master of Heritage Conservation/Master of Urban Planning dual degree program facilitates highly related cross-disciplinary studies in heritage conservation and in urban planning at the master's level. The primary objective of the dual degree curriculum is to impart to students a basic familiarity with the origins and development of the philosophies, theories, and practices of planning and heritage conservation. This curriculum has been developed so that students will graduate from this program with a broad practical knowledge of the laws, regulations, and policies that apply to planning and conservation practice in the United States and internationally. This expertise will include knowledge of urban design, public policy, and architectural and planning history and theory. Students will be expected to understand the critical methodological tools necessary for a professional engaged in the investigation, interpretation, and evaluation of the urban built environment.

Qualified students who are admitted to the graduate programs in both the School of Architecture and the USC Price School of Public Policy may complete both degrees in a highly integrated five-semester program.

Requirements

Requirements for completion of the dual degree program are 60 units, including 30 units in heritage conservation and 30 units in urban planning, as follows:

Architecture

- ARCH 549 Fundamentals of Heritage Conservation Units: 3
- ARCH 550 Heritage Conservation Policy and Planning Units: 3
- ARCH 551 Conservation Methods and Materials Units: 3
- ARCH 552 Introduction to Historic Site Documentation Units: 2
- ARCH 553 History of American Architecture and Urbanism Units: 3
- ARCH 554 Heritage Conservation Practicum — Advanced Documentation Units: 3

- ARCH 555 Global Perspectives in Heritage Conservation Units: 2
- ARCH 556 Readings in Heritage Conservation Theory Units: 2
- ARCH 558 Fundamentals of Place-Making Units: 2
- ARCH 691a Heritage Conservation Thesis Preparation and Thesis Units: 1
- ARCH 691b Heritage Conservation Thesis Preparation and Thesis Units: 4
- ARCH 691z Heritage Conservation Thesis Preparation and Thesis Units: 0
- ARCH Electives Units: 2

Total units: 30

Urban Planning

- PPD 522 Planning Theory and History for a Just Society Units: 4
- PPD 523 Urban and International Development Units: 4
- PPD 529 Planning Law and Legal Frameworks of Planning Units: 2
- PPD 531L Planning Studio Units: 4, 8, 12 (4 units required)
- PPD 534 Data, Evidence, and Communication of the Public Good Units: 4
- PPD 629 Capstone in Urban Planning Units: 4

Concentrations

There are six concentrations available in the Master of Urban Planning program: Arts and Culture, Design of the Built Environment, Environmental Planning and Analysis, Housing and Real Estate Development, Economic Development, and Mobility and Transportation Planning. Students must select a concentration gateway and methodology course (4 units each, 8 units total). Please see the Master of Urban Planning section of the catalogue for the concentration descriptions and course lists.

Note:

Students in this dual degree will be waived out of PPD 528 in the MUP core as they take ARCH 558 Fundamentals of Place-Making.

Total units: 30

Master of Landscape Architecture/Master of Urban Planning (MLArch/MUP)

Qualified students who are admitted to the Master of Landscape Architecture program in the School of Architecture and to the graduate program in the USC Price School of Public Policy may complete both degrees in a highly integrated five-seven semester program.

Completion of the dual degree requires 26 units of courses in urban planning, 9 units of Advanced Design Research and either 49 units of landscape architecture (for those students admitted with advanced placement); or 71 units of landscape architecture (for those students admitted to the three-year curriculum).

Master of Landscape Architecture (Advanced Placement)/Master of Urban Planning

Qualified students who have completed a pre-professional undergraduate degree in landscape architecture or environmental design, or a professional degree in architecture and are admitted to the graduate program in the School of Architecture with advanced placement and to the USC Price School of Public Policy may complete both degrees in a highly integrated six-semester program.

Completion of the dual degree requires 84 units, including 49 units of courses in landscape architecture, 26 units of courses in urban planning, and 9 units of Advanced Design Research.

Landscape Architecture

- ARCH 439 Landscape Architecture Foundations Workshop Units: 2
- ARCH 531 Urban Ecology Units: 4
- ARCH 535 Landscape Construction: Performance Approaches Units: 3
- ARCH 544 Landscape as Urbanism: Case Studies Units: 3
- ARCH 545 Contemporary Theories of Landscape Architecture Units: 3
- ARCH 547 Advanced Topics in Urban Ecology Units: 3
- ARCH 548 Media for Landscape Architecture: 3D Design Units: 3
- ARCH 565 Global History of Designed Landscapes Units: 3
- ARCH 571 Community-Based Design, Conservation and Planning Units: 2
- SSCI 572 GIS and Landscape Architecture Units: 2
- ARCH 698aL Advanced Design-Research Units: 3
- ARCH 698bL Advanced Design-Research Units: 6
- ARCH 698zL Advanced Design-Research Units: 0

Electives:

3 units of elective courses taken in the School of Architecture.
**Electives must be 400-level and above.*

Note:

Students in this dual degree will be waived out of ARCH 530 in the MLA core as professional practice is obtained in the PPD courses. Students in this dual degree will also be waived out of ARCH 639 as parametric design is not a required skill for planning-oriented landscape architects.

Studios

- ARCH 542aL Landscape Architecture Design Units: 6
- ARCH 542bL Landscape Architecture Design Units: 6
- ARCH 642L Landscape Architecture Design Units: 6

Total units for MLArch: 58

Urban Planning

- PPD 522 Planning Theory and History for a Just Society Units: 4
- PPD 523 Urban and International Development Units: 4
- PPD 529 Planning Law and Legal Frameworks of Planning Units: 2
- PPD 534 Data, Evidence, and Communication of the Public Good Units: 4
- PPD 629 Capstone in Urban Planning Units: 4

Concentrations

There are six concentrations available in the Master of Urban Planning program. They are as follows: Arts and Culture, Design of the Built Environment, Environmental Planning and Analysis, Housing and Real Estate Development, Economic Development, and Mobility and Transportation Planning. Students must select a concentration gateway and methodology course (4 units each, 8 units total). Dual degree students do not need to take concentration electives as they will complete elective units in Economics. Please see the Master of Urban Planning section of the catalogue for the concentration descriptions and course lists.

Note:

Students in this dual degree will be waived out of PPD 528 in the MUP core as design knowledge is obtained in the ARCH urban landscape courses. Students in this dual degree will also be waived out of the planning studio requirement in the MUP as students take 12 units of ARCH studios in Landscape Architecture.

Total units for MUP: 26

Dual degree students, like all other MUP students, must fulfill the internship requirement.

Total units for dual degree: 84

Master of Landscape Architecture (Three-Year Curriculum)/Master of Urban Planning

Qualified students admitted to the Master of Landscape Architecture three-year curriculum in the School of Architecture and to the USC Price School of Public Policy may complete both degrees in a highly integrated seven-semester program.

Completion of the dual degree requires 106 units, including 71 units of courses in landscape architecture, 26 units of courses in urban planning, and 9 units of Advanced Design Research.

Landscape Architecture

- ARCH 439 Landscape Architecture Foundations Workshop Units: 2
- ARCH 531 Urban Ecology Units: 4
- ARCH 534 Landscape Construction: Topographic Design Units: 3
- ARCH 535 Landscape Construction: Performance Approaches Units: 3
- ARCH 537 Plant Ecology + Identification Units: 2
- ARCH 538L Planting Design Units: 2
- ARCH 539L Media for Landscape Architecture Units: 3
- ARCH 544 Landscape as Urbanism: Case Studies Units: 3
- ARCH 545 Contemporary Theories of Landscape Architecture Units: 3
- ARCH 547 Advanced Topics in Urban Ecology Units: 3
- ARCH 548 Media for Landscape Architecture: 3D Design Units: 3
- ARCH 565 Global History of Designed Landscapes Units: 3

- ARCH 698aL Advanced Design-Research Units: 3
- ARCH 698bL Advanced Design-Research Units: 6
- ARCH 698zL Advanced Design-Research Units: 0

Studios

- ARCH 541aL Landscape Architecture Design Units: 6
- ARCH 541bL Landscape Architecture Design Units: 6
- ARCH 542aL Landscape Architecture Design Units: 6
- ARCH 542bL Landscape Architecture Design Units: 6
- ARCH 642L Landscape Architecture Design Units: 6

Note:

Students in this dual degree will be waived out of ARCH 530 in the MLA core as professional practice is obtained in the PPD courses. Students in this dual degree will also be waived out of ARCH 639 as parametric design is not a required skill for planning-oriented landscape architects

Total units for MLArch: 80

Urban Planning

- PPD 522 Planning Theory and History for a Just Society Units: 4
- PPD 523 Urban and International Development Units: 4
- PPD 529 Planning Law and Legal Frameworks of Planning Units: 2
- PPD 534 Data, Evidence, and Communication of the Public Good Units: 4
- PPD 629 Capstone in Urban Planning Units: 4

Concentrations

There are six concentrations available in the Master of Urban Planning program: Arts and Culture, Design of the Built Environment, Environmental Planning and Analysis, Housing and Real Estate Development, Economic Development, and Mobility and Transportation Planning. Students must select a concentration gateway and methodology course (4 units each, 8 units total). Dual degree students do not need to take concentration electives as they will complete elective units in Economics. Please see the Master of Urban Planning section of the catalogue for the concentration descriptions and course lists.

Note:

Students in this dual degree will be waived out of PPD 528 in the MUP core as design knowledge is obtained in the ARCH urban landscape courses. Students in this dual degree will also be waived out of the planning studio requirement in the MUP as students take 12 units of ARCH studios in Landscape Architecture.

Total units for MUP: 26

Dual degree students, like all other MUP students, must fulfill the internship requirement.

Total units for dual degree: 106

Graduate Certificate

Architecture Certificate

The focus of this program is on understanding the broad and complex role of architecture within the urban context. Studies focus on cities throughout the world where conditions of increasing density, environmental challenges and cultural complexity require design initiatives that support amenity, sustainability and cultural meaning. The certificate is open to graduate students not pursuing a Master of Architecture or Master of Advanced Architectural Studies degree.

Course Requirements

Completion of the certificate program requires a minimum of 14 units.

Core Courses

- ARCH 514a Global History of Architecture Units: 3
- ARCH 514b Global History of Architecture Units: 3
- ARCH 558 Fundamentals of Place-Making Units: 2 *
- ARCH 562 Architecture Themes and Case Studies Units: 2
- ARCH 563 Contemporary Architectural Theory Units: 2
- Electives Units: 2

Sample Electives

(or as approved by the program faculty adviser or director)

- ARCH 511L Building Systems: Materials and Construction Units: 4
- ARCH 515L Seminar: Advanced Environmental Systems Units: 4
- ARCH 519 Sustainability in the Environment: Infrastructures, Urban Landscapes, and Buildings Units: 3
- ARCH 550 Heritage Conservation Policy and Planning Units: 3
- ARCH 553 History of American Architecture and Urbanism Units: 3
- ARCH 561 Urbanism Themes and Case Studies Units: 2
- ARCH 564 Descriptive and Computational Architectural Geometry Units: 2
- ARCH 606 Advanced Architectural Theory Units: 2
- ARCH 607 Advanced Computation Units: 2
- ARCH 608 Urban Theory: Los Angeles Case Study Units: 2
- ARCH 609 Advanced Fabrication Units: 2
- ARCH 614 Contemporary Issues in Architecture: A Critical Dialectic Units: 3

Note:

**Students in the Master of Heritage Conservation Program should substitute core class ARCH 558 with another elective. Students with a previous design based degree (or are currently enrolled in one), may be able to substitute ARCH 558 for an elective.*

Building Science Certificate

Building science at USC recognizes that exemplary architecture requires a creative response to natural forces, based on informed good judgment in the areas of architectural technology. The Certificate in Building Science is intended as a supplement for students enrolled in graduate course work in architecture, landscape architecture, historic preservation, urban planning or related disciplines.

Course Requirements

Completion of the certificate requires a minimum of 14 units. Students must take three core courses. Electives in building science may be taken to complete the program requirements.

Required Courses

Choose three of the following six courses:

- ARCH 511L Building Systems: Materials and Construction Units: 4 or
- ARCH 611 Advanced Building Systems Integration Units: 4
- ARCH 513L Seminar: Advanced Structures Units: 4 or
- ARCH 613L Seminar: Structures Research Units: 4

- ARCH 515L Seminar: Advanced Environmental Systems Units: 4 or
- ARCH 615L Seminar: Environmental Systems Research Units: 4
- Elective(s) in Buliding Science Units: 2

Sample Electives

(or as approved by the program faculty adviser or director)

- ARCH 507 Theories of Computer Technology Units: 3
- ARCH 517 Current Topics in Building Science Units: 1 (max 6)
- ARCH 518 Advanced Surface Tectonics: Methods in Material and Enclosure Units: 2
- ARCH 519 Sustainability in the Environment: Infrastructures, Urban Landscapes, and Buildings Units: 3
- ARCH 573 Seismic Design Units: 2
- ARCH 577L Lighting Design Units: 4
- One from the list of required courses that was not yet selected Units: 4

Note:

Courses for this certificate cannot also be required courses in the student's major in the School of Architecture.

Heritage Conservation Certificate

This program is directed at professionals who wish to augment their academic credential for their involvement in heritage conservation projects and at graduate students who wish to complement a degree in architecture, landscape architecture, planning, public art administration, geography, anthropology, or other related disciplines.

Required Courses

- ARCH 549 Fundamentals of Heritage Conservation Units: 3
- ARCH 550 Heritage Conservation Policy and Planning Units: 3
- ARCH 551 Conservation Methods and Materials Units: 3
- ARCH 553 History of American Architecture and Urbanism Units: 3
- Electives Units: 2

Sample Electives

(or as approved by the program faculty adviser or director)

- ARCH 554 Heritage Conservation Practicum — Advanced Documentation Units: 3
- ARCH 555 Global Perspectives in Heritage Conservation Units: 2
- ARCH 556 Readings in Heritage Conservation Theory Units: 2
- ARCH 557 Sustainable Conservation of the Historic Built Environment Units: 2
- ARCH 558 Fundamentals of Place-Making Units: 2

Landscape Architecture Certificate

This program is intended to introduce at the graduate level the basic subjects inherent to the field of landscape architecture: plant materials suitable to urban conditions; urban utility and transportation systems in relation to topography, natural drainage and pathways; plant and wildlife communities; as well as inquiries about landscape infrastructure and ecology, and the history of human settlement in the evolution of urban landscapes. Southern California and Los Angeles provide an exceptionally valuable natural and socio-cultural laboratory for landscape architecture studies.

Course Requirements

Completion of the certificate program requires a minimum of 12 units.

Required Courses

- ARCH 531 Urban Ecology Units: 4
- ARCH 537 Plant Ecology + Identification Units: 2
- ARCH 565 Global History of Designed Landscapes Units: 3
- ARCH 566 Cross Cultural Topics in Landscape Architecture History Units: 3

Sustainable Design Graduate Certificate

The Sustainable Design Graduate Certificate is a multidisciplinary program open to USC students pursuing graduate degrees in many disciplines that may be interested in the sustainability of the built environment.

Sustainability is an imperative for our planet as climate change, population growth and dwindling oil supplies are all reminders that our resources are finite and we need a new paradigm to adjust to these global changes. The built environment represents the majority of our energy use and design can help reduce both the embodied and operational energy of our buildings and urban landscape.

This certificate provides students with the tools necessary to understand and quantify sources of energy use in buildings and landscapes and to use design of natural and man-made systems to reduce their energy use. This certificate will give students the background to help them make sustainable design choices through informed decision-making that considers the performance of the built environment related to the energy required to make it, the energy it absorbs or releases, the energy required to maintain it, and the energy required to replace it. Environmental, economic and socially responsible solutions will be explored through the course work.

Applicants for the Certificate in Sustainable Design who are currently enrolled in a program at USC and are in good standing with a 3.0 GPA only need to submit the appropriate paperwork for adding the certificate program, which may be obtained from the student services adviser.

Applicants for the Certificate in Sustainable Design who are not matriculated in a master's-level program at USC must submit a formal application for admission to the certificate program, provide transcripts of all college work, a resume and one letter of recommendation.

Course Requirements

Completion of the certificate program requires a minimum of 14 units.

Core Courses

- ARCH 515L Seminar: Advanced Environmental Systems Units: 4 or
- ARCH 615L Seminar: Environmental Systems Research Units: 4
- ARCH 519 Sustainability in the Environment: Infrastructures, Urban Landscapes, and Buildings Units: 3
- ARCH 579 Sustainable Building and Environment using LEED Metrics Units: 3
- Electives Units: 4 *

Sample Electives **

(or as approved by the program faculty adviser or director)

- ARCH 515L Seminar: Advanced Environmental Systems Units: 4 or
- ARCH 615L Seminar: Environmental Systems Research Units: 4 (whichever one not used above)
- ARCH 517 Current Topics in Building Science Units: 1 ***
- ARCH 531 Urban Ecology Units: 4
- ARCH 537 Plant Ecology + Identification Units: 2
- ARCH 557 Sustainable Conservation of the Historic Built Environment Units: 2
- ARCH 511L Building Systems: Materials and Construction Units: 4 or
- ARCH 611 Advanced Building Systems Integration Units: 4
- ARCH 599 Special Topics Units: 2, 3, 4 ***
- ENE 505 Energy and the Environment Units: 4
- PPD 644 Shaping the Built Environment Units: 4
- PPDE 632 Sustainable Cities Units: 4

Notes:

*** Electives for the certificate may not include courses required by the student's other degree programs.*

**** When approved by the director of the Chase L. Leavitt Graduate Program of Building Science*

For current USC students enrolled in the Master of Building Science program

Core Courses

- ARCH 511L Building Systems: Materials and Construction Units: 4 * or
- ARCH 611 Advanced Building Systems Integration Units: 4 * or
- ARCH 615L Seminar: Environmental Systems Research Units: 4 *
- ARCH 519 Sustainability in the Environment: Infrastructures, Urban Landscapes, and Buildings Units: 3
- ARCH 579 Sustainable Building and Environment using LEED Metrics Units: 3
- Electives Units: 4

Sample Electives

(or as approved by the program faculty adviser or director)

- ARCH 511L Building Systems: Materials and Construction Units: 4 ** or
- ARCH 611 Advanced Building Systems Integration Units: 4 ** or
- ARCH 615L Seminar: Environmental Systems Research Units: 4 **
- ARCH 517 Current Topics in Building Science Units: 1 ***
- ARCH 531 Urban Ecology Units: 4
- ARCH 537 Plant Ecology + Identification Units: 2
- ARCH 557 Sustainable Conservation of the Historic Built Environment Units: 2
- ARCH 599 Special Topics Units: 2, 3, 4 ***
- ENE 505 Energy and the Environment Units: 4
- PPD 644 Shaping the Built Environment Units: 4
- PPDE 632 Sustainable Cities Units: 4

Notes:

**If not used as a required course for MBS degree*
***If not used as a required course for MBS degree and not used as a core course above*
**** When approved by the director of the Chase L. Leavitt Graduate Program of Building Science*
Each academic unit, department or program will determine the number of units completed that may be applied to the student's master or doctoral degree.

Doctoral Degree

Architecture (PhD)

The School of Architecture offers the PhD in Architecture, designed to prepare individuals for university level teaching and professional research and for leadership positions in industry and professional architectural practice. Doctoral students must consult the Graduate School section for regulations and requirements pertaining to its degrees. Students should also consult the Academic Policies section for additional information.

Completion of degree requirements is assumed to take a minimum of three years of approved graduate study and research beyond the bachelor's degree in a related field or a bachelor's degree and related practical experience. For the PhD student without Advanced Standing, a minimum of 48 graduate units completed in residence on the University Park Campus in Los Angeles is required. Full-time study is represented by enrollment in six units during the semester. Usually, the school and the student's qualifying exam committee insist on a clear and mutually understood commitment of time and energy by the student to ensure significant involvement in the doctoral learning experience.

Application and Admission

Admission to the PhD is granted by the Dean of the School of Architecture. However, only a letter from the Office of Graduate Admission constitutes an official offer of admission; correspondence with department chairs or individual faculty members does not constitute admission.

Priority consideration for PhD student funding will be given to those applicants who submit all application materials by December 1. The university will continue to accept and consider applications submitted after December 1. Those who wish to submit applications after the deadline should check with the School of Architecture. Applications for admission to the PhD program are made once each year for fall semester admission.

The admission decision is made using criteria which include verification that the applicant has a bachelor's degree from an accredited college or university, has maintained a high grade point average in the last 60 units of undergraduate work and has earned a competitive score on the verbal and quantitative portions of the Graduate Record Examinations (GRE). Other elements of the applicant's educational and experiential background are also evaluated, including performance in other advanced degrees.

Each applicant should submit the following: (1) one copy of official transcripts of all previous college and university work (be sure that these official transcripts show an awarded degree where appropriate); (2) one copy of GRE scores; (3) copy of TOEFL or IELTS scores for international students whose first language is not English; (4) a 1000-word essay discussing the applicant's background; reasons for wanting to pursue a doctoral degree; and identifying his or her personal, educational and professional goals; (5) an up-to-date resume, including academic and professional accomplishments; (6) three letters of recommendation, at least two from previous instructors, others from instructors or from professional supervisors or colleagues (the letters should indicate the applicant's academic and professional accomplishments and potential); (7) a completed USC Graduate Admission Application, along with the nonrefundable application fee; and (8) samples of work such as a portfolio, publications, software programs, etc. The program is intended for people with considerable intellectual interests. Additional requirements for international students are listed under Admission of International Students.

Upon admission to the program, each student will be assigned a faculty adviser who will oversee his or her program.

Doctoral Admission with Advanced Standing

Students entering with a Master of Architecture degree or Master of Building Science degree (or their equivalent) from USC or another university may be admitted with Advanced Standing. A minimum of 36 units of course work beyond the first graduate degree, exclusive of 794 Doctoral Dissertation preparation, is required for doctoral degree students with a USC Master of Building Science degree admitted with Advanced Standing. For those students entering with a Master of Architecture degree or Master of Building Science degree (or their equivalent) from another university and admitted with Advanced Standing, a minimum of 40 units of course work beyond the first graduate degree is required. Additional course work may be required if deemed necessary by the student's faculty. See Doctoral Admission with Advanced Standing in the The Graduate School section.

Transfer Credits

The application of any available transfer credits toward a graduate degree at USC will be determined by the School of Architecture, based on the semester units available for transfer as shown in the Transfer Credit Statement. Work experience in architecture or closely related activities should be of benefit to the students involved, but will not be considered equivalent to academic education. A maximum of 6 units of transfer credit may be applied toward a doctoral degree for those admitted with Advanced Standing. Admission with Advanced Standing is based upon a completed master's degree. The only course work available for transfer credit is course work taken after completion of that degree. No exceptions are allowed.

Students entering the doctoral program with a master's degree or graduate course work in a field other than architecture work may receive up to 12 units of transfer credit toward the PhD

Deferral of Enrollment

Admission to the university is granted for a specified semester, and it is expected that students will begin their programs during that semester. The school will normally allow students to defer their enrollment up to one year from the admission semester. Students who wish to defer enrollment should notify the school in writing no more than 60 days before the beginning of the semester of admission or they may be required to reapply for admission. Please note that more stringent regulations apply to international students. See the Graduate Admission section for further information.

Admission to Candidacy

Acceptance to graduate standing does not in itself imply that the student is admitted or will be admitted to candidacy for an advanced degree. Application for admission as a candidate for an advanced degree is a separate and subsequent step. See the The Graduate School section for further information.

General Requirements for the PhD Degree

Screening Procedures

PhD students are required to pass a screening procedure before the student has taken more than 24 units (including research courses). Passing this procedure is prerequisite to continuation in the doctoral program. This is designed to ensure that only those students who have demonstrated intellectual and scholarly potential continue in the program. Students who fail the screening procedure will be advised that they have not been recommended to continue in the PhD program and that any additional work may not be counted toward the degree.

Prior to screening, each student prepares a résumé and a preliminary statement describing the fields of specialization. After passing the written screening examination, the student meets with the committee to discuss the proposal for course work, fields of specialization and research interests. The committee chair serves as the student's principal adviser in preparing for the qualifying examination.

Qualifying Exam Committee

Each student selects a qualifying exam committee, which officially oversees the student's academic program through the qualifying examination. The qualifying exam committee should be established at least one semester prior to taking the qualifying examination. This should be accomplished by the beginning of the second year, following successful screening. An appointment of committee form, which can be obtained from the Graduate School Website, should be used to establish the qualifying exam committee. Students initiate the paperwork and submit the signed form to the dean's office.

Five committee members are designated to provide guidance in the field developed by the student. A minimum of three members, including at least one tenured member, must be from among the faculty participating in the PhD in Architecture degree program, and at least one member must be from outside the School of Architecture. This committee bears responsibility for recommending the student for admission to candidacy. After approval of the student's program and time schedule, the program is submitted in writing to the doctoral director. Students will formalize their relationship with their committees through the development of a study plan which specifies all courses completed, date of screening decision, the area of concentration, and which courses will be taken and when, in order to prepare for the qualifying examination. This study plan will be signed by the student, the members of the qualifying exam committee and the faculty doctoral director. It will be filed in the doctoral office.

Qualifying Examination

Students must complete at least 24 units of course work in the doctoral program with a GPA of at least 3.0 before attempting the qualifying exam.

The qualifying exam committee prepares a comprehensive written examination covering the field of study. The exact format for the written portion is determined by each committee in advance. Answers to the questions in the written portion are graded by all committee members. Following completion of the written portion, the entire committee conducts an oral examination of the student, focusing on material both complementary and supplementary to the written examination but relevant to the field and overall program selected by the student. Upon passing both portions of the qualifying examination, the student becomes a candidate for the PhD degree.

The objective of the qualifying examination is to evaluate the student's knowledge and to serve as an instrument to demonstrate competence in the student's chosen field of concentration in preparation for candidacy. Qualifying examinations are scheduled once each year during August. The oral phase of the examination must be completed within 60 days following the written segment. Both parts of the examination must be passed in order to qualify. Failure on one of the two parts of the examination does not require retaking both parts. Only the part failed must be redone.

The examination will be collaboratively designed by the instructors of the core courses and oriented toward testing students' ability to integrate material from these courses. A portion of this examination will focus on methodological issues. The written portion of the examination will be administered during a full-day session.

The process of grading examinations will be accomplished in two ways. For the written examination, the grading will be done by a committee comprising the core course instructors and the doctoral director. For the oral examination, grading will stay with the qualifying exam committee. Upon passing both the core and oral portions of the examination, the student will be expected to reduce the qualifying exam committee to a dissertation committee. See General Requirements for the Doctor of Philosophy degree.

Dissertation Committee

Once students pass the qualifying examination, the qualifying exam committee recommends the student for candidacy and a dissertation topic is approved, a dissertation committee must be formed as soon as possible. The size may range from three to five members, one member of which must be from outside the school.

Dissertation Proposal

After the successful completion of the qualifying examination, the doctoral student will be required to present a complete research proposal for the dissertation. The proposal will be circulated for review and evaluation by the dissertation committee. This proposal should include the methodology, research design, literature review and instrumentation (if applicable). After this step has been completed, further work leading to the completion of the dissertation is authorized.

Defense of the Dissertation

Oral defense of the dissertation before the dissertation committee is usually made on a preliminary draft. After the dissertation committee has approved the dissertation in substance, the candidate must defend it before the committee and other interested doctoral program faculty and colleagues. Successful completion of the oral defense marks the ultimate step for the candidate within the School of Architecture. The candidate must be certain that the dissertation also meets specific university requirements before acceptance by the Graduate School. See the The Graduate School section for further information.

All theses and dissertations submitted in fulfillment of requirements for graduate degrees must conform to university regulations with regard to format and method of preparation.

Unit Requirement and Time Limit

The PhD degree in Architecture requires a minimum of 72 units (including a minimum of 4 units of ARCH 794a, ARCH 794b, or ARCH 794z) of graduate level course work, and has a minimum residency requirement of three years. Students must maintain a 3.0 average GPA and complete all required course work within five years. The maximum time for the completion of all requirements for the doctoral degree is eight years.

A leave of absence can be granted upon approval of the guidance or dissertation committees. There is no automatic readmission if the student fails to maintain continuous registration or fails to meet academic standards.

Core Curriculum

Year 1: Basic and professional studies

Acquire at a minimum the knowledge that is characteristic of the master's degree students or equivalent and define the research program.

Year 2: Advanced studies

Year 3: Research and dissertation

While a Master of Architecture or related degree is not a prerequisite for admission, those students entering the doctoral program without a master's degree in architecture or related field will be required to complete a core curriculum.

Required Courses

- ARCH 419 Architectural Sustainability Tools and Methods Units: 3
- ARCH 513L Seminar: Advanced Structures Units: 4
- ARCH 515L Seminar: Advanced Environmental Systems Units: 4
- ARCH 519 Sustainability in the Environment: Infrastructures, Urban Landscapes, and Buildings Units: 3
- ARCH 611 Advanced Building Systems Integration Units: 4
- ARCH 613L Seminar: Structures Research Units: 4
- ARCH 615L Seminar: Environmental Systems Research Units: 4
- ARCH 790 Doctoral Research Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12
- ARCH 791 Proposal for Doctoral Dissertation Units: 1

A minimum of 4 units of:

- ARCH 794a Doctoral Dissertation Units: 2
- ARCH 794b Doctoral Dissertation Units: 2
- ARCH 794z Doctoral Dissertation Units: 0
- GRSC 850a The Professoriate: Preparing for the Future Units: 2
- GRSC 850b The Professoriate: Preparing for the Future Units: 2
- Electives Units: 17

USC Roski School of Art and Design

With a faculty of international distinction, the USC Gayle Garner Roski School of Art and Design offers emerging artists, designers, curators and critics a creative and intellectual atmosphere in which to study. Located at one of the world's leading research institutions, Roski encourages interdisciplinary exploration throughout USC's 19 professional schools — including six devoted to the arts. And by studying in Los Angeles, students can enhance their education with access to numerous museums as well as an extensive number of galleries, design firms, artist studios and music and film industries, providing a wealth of internship and employment opportunities for a successful future.

Roski's BA program is a liberal arts degree, ideal for students who want to combine art with a study in a related field — or a completely different one. Though the emphasis remains on a studio practice, the flexibility of the BA allows students to pursue electives, a minor or a second major to develop a diverse academic career. For a more intensive undergraduate arts degree, the BFA in Fine Arts program allows students to immerse themselves fully in the creative process, spending the vast majority of their class time in studio courses developing high levels of proficiency. A distinguished and dedicated faculty mentors art students in painting, drawing, printmaking, sculpture, ceramics, photography, digital media and critical studies. And the BFA in Design is a four-year, pre-professional degree leading to a variety of careers in advertising, publication, fashion, sports, entertainment and film design, among others.

At the graduate level, the MFA in Fine Arts program is recognized nationally for its breadth and intensity, as well as for a faculty of renowned practicing artists. The two-year, studio-based program offers a multi-disciplinary platform for diverse and experimental practices. The MFA in Design is a five-term, studio-based program that encourages a unique and relevant contemporary design practice for a rapidly changing world. The third graduate degree offered at USC Roski is the MA in Curatorial Practices and the Public Sphere, a platform for scholarship in contemporary art. The program aims to bring students to a high level of understanding of the history and theory of curatorial practices, with attention paid to questions of how curating activates art in relation to a range of audiences and interacts with diverse communities.

The Master of Urban Planning/Master of Arts, Curatorial Practices and the Public Sphere (MUP/MA) dual-degree program, offered by the USC Roski School and the USC Price School of Public Policy, provides an opportunity for students to become successful professionals in the arena of organizing art projects in urban public space, planning and community development.

The Graduate Certificate in Performance Studies provides deep training in the hybrid disciplinary areas of performance, live art, time-based media, and performance theory and history for USC students studying related disciplines.

All Roski graduate programs are housed in the new, state-of-the-art, Roski Graduate Building in the heart of the Los Angeles Arts District. The new facility includes individual work spaces/studios, a well-equipped Makerspace, conference rooms and the 2,000-square-foot Graduate Gallery.

USC Roski encourages students to expand their horizons through a diverse community, global initiatives and interdisciplinary opportunities. These goals better prepare them to forge entirely new paths for an arts education, utilizing every advantage of a great university to drive change, challenge others and create a better future for themselves and for the world.

Dean: Haven Lin-Kirk, MFA

Faculty

Professors: Nao Bustamante, MFA; Patty Chang, MFA; Jud Fine, MFA; Amelia Jones, PhD; Mary Kelly, MFA; Suzanne Lacy, PhD; Keith Mayerson, MFA; Ruth Weisberg, MA*
Professor of Teaching, Critical Studies: Karen Moss, PhD
Associate Professors of Art: Bob Alderette, MFA; Edgar Arceneaux, MFA
Associate Professors of Practice, Art: David Kelley, MFA; Ruben Ochoa, MFA; Jennifer West, MFA
Associate Professor of Practice, Design: Sherin Guirguis, MFA
Associate Professors of Teaching, Art: Caroline Clerc, MFA; Thomas Mueller, MFA; Julia Paull, MFA
Assistant Professors of Practice, Design: Alice Fung, MArch; Ewa Wojciak, MFA
Assistant Professor of Critical Studies: Andrew Campbell, PhD; Jenny Lin, PhD
Assistant Professors of Teaching, Art: Karen Leibowitz, MFA; Marisa Mandler, MFA
Assistant Professors of Teaching, Design: China Adams, MFA; Jason Ellenburg; Brian O'Connell, MFA; Osvaldo Trujillo, MFA; Alexis Zoto, MFA
Visiting Professor of Design: April Greiman
Visiting Associate Professor of Critical Studies: Jenny Lin
Part-time Lecturers: Eugene Ahn, MA; Ariel Brice, MFA; Arden de Brun, MFA; Laurie Burruss, MFA; Penny Collins; Paul Donald, MFA; Charla Elizabeth, MSc; Xavier Fumat, MFA; Julia Haft-Candell, MFA; Peter Holzhauer, MFA; Samuel Jernigan, MFA; Eric Junker, MFA; Shoshi Kanokohata, MFA; Helen Kim, MFA; Andrew Kutchera, Ceci Moss,PhD; MFA; Brian Olson, BA; Domenic Piturro, MA; Helene Reiner, BFA; Peter Robbins, MFA; Jean Robison, MFA; Stephanie Sabo, MFA; Jovi Schnell, MFA; Betsy Seder, MFA; Anastasia Triviza, MFA; Anuradha Vikram, MA; Angie Wang, MFA; Christina Webb, MFA
MFA Fellows: Gina Fulton; José Guadalupe Sánchez III
Emeritus Professors: Robbert Flick, MFA;Ron Rizk, MFA; Jay Willis, MA; Margaret Lazzari, MFA*
Emeritus Associate Professors: Karen Koblitz, MFA; Ann Page, BFA
**Recipient of university-wide or school teaching award.*

General Information

Degrees Offered

At the undergraduate level, the school offers the Bachelor of Fine Arts in Art and the Bachelor of Fine Arts in Design. The Bachelor of Arts in Art is offered in conjunction with the Dornsife College of Letters, Arts and Sciences. The Roski School of Art and Design also offers 11 minor programs in studio arts and design including a Communication Design minor in conjunction with the Marshall School of Business and the Annenberg School for Communication and Journalism and a Visual Narrative Art minor in conjunction with the USC School of Cinematic Arts.

Degrees offered at the graduate level are: Master of Fine Arts in Fine Arts, Master of Fine Arts in Design, and Master of Arts in Curatorial Practices and the Public Sphere. A dual degree is also available: Master of Urban Planning/Master of Arts, Curatorial Practices and the Public Sphere (MUP/MA) plus a graduate certificate in Performance Studies.

Minimum Grade Point Average Requirements

A minimum grade of C (2.0) or higher is required in all studio and art history courses for all undergraduate majors and minors in the Roski School of Art and Design. A grade of C- or lower will not satisfy a major or minor requirement. A minimum grade point average of 3.0 must be maintained by all candidates for the Master

of Fine Arts in Art, Master of Fine Arts in Design and Master of Arts.

Undergraduate Admission

Admission to the Roski School of Art and Design at the undergraduate level is granted through the USC Office of Admission. Freshman applicants applying by December 1 for the fall semester will receive priority consideration for admission to the university and for merit scholarship. January 15 is the deadline for general consideration. The deadline for transfer applicants for the fall semester is February 1.

Undergraduate applicants must upload a portfolio of images and an artist statement at the school's website. Specific requirements and additional information are available at roski.usc.edu/undergrad or email roski@usc.edu.

Students who have not been admitted to the Roski School of Art and Design may complete a maximum of 20 units of Roski course work at USC. No further course work may be taken until admitted. Students who are interested in becoming Roski majors or minors should meet with the Roski School's advisers as soon as possible, preferably during their first semester taking art classes. Advisers can be contacted through the school's Advisement Office, Watt Hall 104, (213) 821-1290, for assistance.

Graduate Admission

Applications for admission to the graduate programs are evaluated by the USC Office of Graduate Admission before being forwarded to the school. Students must be admitted by both the USC Graduate School and the Roski School of Art and Design. The Graduate School's general admission requirements include official transcripts of all previous college and university work, and three letters of recommendation from instructors or persons able to comment on the applicant's creative work and/or scholarly potential.

Applicants to the MFA degrees must upload a portfolio of images and an artist statement at the school's website. Specific requirements and additional information are available at roski.usc.edu/academic/mfa.

Advisement

Academic advisement is provided to fine arts majors, minors and graduate students through the Advisement Office in Watt Hall 104, (213) 821-1290. All students who are interested in taking art courses are welcomed and encouraged to make an appointment for advisement as well. The staff advisers provide information regarding academic life at the university, program requirements, policies and procedures to assist students with their degree completion. Majors are required to meet with advisers before registering each semester. Appointments may be scheduled at most times during the academic year. For more information, see roski.usc.edu/resources/student.

International Study Options

Roski majors may take advantage of art courses offered through study abroad programs. For more information, see Roski's study abroad page at roski.usc.edu/academic/study-abroad.

Please contact the USC Overseas Studies Office in CAS 104, (213) 740-3636, or dornsife.usc.edu/overseas-studies/ for complete information, program requirements and applications.

Minor Programs

The Roski School of Art and Design offers minors in art and design as supplements to major fields of specialization in other departments and schools for students whose academic programs do not permit the opportunity to pursue one of the school's regular degree options. There are eight intensive studio minors — in painting, drawing, photography, ceramics, sculpture, two-dimensional studies, intermedia arts and 3-D design — and three interdisciplinary minors in communication design, performance art and visual narrative art. There is a separate application for Roski minors available at roski.usc.edu/academic/minors.

Candidates for the minors in the Roski School of Art and Design will be counseled by an academic adviser in the school.

Bachelor's Degree

Art (BA)*

The Bachelor of Arts program offers a more flexible and broad academic education than the Bachelor of Fine Arts (BFA) degree while still providing a meaningful experience in the studio area and preparation for many design and art-related careers. The degree provides the student with the opportunity to double major or to combine an art major with a minor in various fields. Some possibilities for minors include communication, multimedia, education, business, film, animation and many other options.

Curriculum Requirements

The Bachelor of Arts (BA) requires a total of 128 units including 68 units of major requirements (52 units in Art courses and 16 units in Critical Studies courses, some of which overlap with the university's required GE courses). In addition to the required courses, BA students have a minimum of 24 non-specific elective units that can be selected from a variety of university courses, based on their personal and professional goals and in consultation with their academic adviser. Electives are typically clustered in a particular field as in a minor, but may be spread across different areas.

Required Courses

Three 4-unit foundation courses are required for students admitted to the BA, Art:

- ART 105 Art and Design Studio I Units: 4
- ART 106 Art and Design Studio II Units: 4
- ART 110 Drawing for Art and Design Units: 4

Two 2-unit Studio Critique courses are required in the second and third year:

- ART 280 Studio Critique I Units: 2
- ART 380 Studio Critique II Units: 2

In the senior year, the following 4-unit course is required.

- ART 485 Studio Capstone Units: 4

The following Critical Studies courses are required:

- CRIT 150gp Histories of Art, Design and Visual Culture Units: 4
- CRIT 160g Critical Theory in Art, Design and Visual Culture Units: 4
- CRIT 350gw Global Art, Design and Visual Culture since 1960 Units: 4
  and
- One 400-level Critical Studies seminar Units: 4

Art Electives

Select 12 additional units from any lower-division ART or DES courses, and 20 additional units from any upper-division ART or DES courses.

General Education Requirements

The university's general education program provides a coherent, integrated introduction to the breadth of knowledge you will need to consider yourself (and to be considered by other people) a generally well-educated person. See the General Education for more information.

Design (BFA)

The **Bachelor of Fine Arts (BFA) in Design** requires a total of 128 units, including 74 units of DES and CRIT requirements.

In addition to the required courses, BFA Design students are encouraged to explore in greater depth an area of design in which they have an interest. Students should select electives based on their personal and professional goals and in consultation with academic advisers. Electives are typically clustered in a particular field, but may be spread across different areas

Required Lower-Division Courses

28 units of lower-division Roski DES courses are required as follows:

- ART 105 Art and Design Studio I Units: 4
- ART 106 Art and Design Studio II Units: 4
- ART 110 Drawing for Art and Design Units: 4
- DES 102 Design Fundamentals Units: 4
- DES 202 Design II Units: 4
- DES 203 Digital Tools for Design Units: 2
- DES 213 Digital Tools in 3D Design Units: 2
- DES 230 3D Design: Materials and Tools Units: 4

Required Upper-Division Courses

34 units of upper-division Roski DES courses are required as follows:

- DES 302 Design III Units: 4
- DES 303 Web Design Units: 2
- DES 322 Publication Design Units: 4
- DES 323g Design Theory Units: 4
- DES 332a Typography Units: 2
- DES 332b Typography Units: 2
- DES 402 Advanced Design Projects Units: 4
- DES 413 Professional Practice in Design Units: 4
- DES 419 Professional Internship in the Arts Units: 2
- DES 432 Special Projects in Design Units: 2
- DES 494a Senior Thesis Units: 2
- DES 494b Senior Thesis Units: 2

Required Critical Studies Courses

The following Critical Studies courses are required for the BFA major that also satisfy up to five categories of General Education requirements:

- CRIT 150gp Histories of Art, Design and Visual Culture Units: 4
- CRIT 160g Critical Theory in Art, Design and Visual Culture Units: 4
- CRIT 350gw Global Art, Design and Visual Culture since 1960 Units: 4

Electives

26 units of electives are required, to be chosen from either Roski courses or non-Roski courses from across the university, allowing for a minor to complement the design course work.

General Education Requirements

The university's general education program provides a coherent, integrated introduction to the breadth of knowledge you will need to consider yourself (and to be considered by other people) a generally well-educated person. See the General Education page for more information.

Fine Arts (BFA)

The BFA is a four-year studio intensive program in preparation for a career in the fine arts, design and/or related fields or pursuit of a master of fine arts degree. With few required courses or electives and a wide variety of media from which to choose, the BFA provides ample opportunity to explore and develop a strong personal vision in art.

Introductory courses focus on technique and conceptual context while building a solid grounding in critical theory. Advanced students work on self-generated independent projects under the guidance and mentoring of individual faculty members. Emphasis in the last year is on the production of a major body of work and professional quality portfolio.

Curriculum Requirements

The Bachelor of Fine Arts (BFA) requires a total of 128 units, including 78 units of major requirements (66 units in Art courses and 12 units in Critical Studies courses, some of which overlap with the university's required GE courses). In addition to the required courses, BFA students have a minimum of 22 non-specific elective units that can be selected from a variety of university courses, based on their personal and professional goals and in consultation with their academic adviser. Electives are typically clustered in a particular field as in a minor, but may be spread across different areas.

Required Courses

Three 4-unit foundation courses are required for students admitted to the BFA, Fine Arts

- ART 105 Art and Design Studio I Units: 4
- ART 106 Art and Design Studio II Units: 4
- ART 110 Drawing for Art and Design Units: 4

Two 2-unit Studio Critique courses are required in the second and third year:

- ART 280 Studio Critique I Units: 2
- ART 380 Studio Critique II Units: 2

In the senior year, a 4-unit capstone and one 2-unit thesis courses are required:

- ART 485 Studio Capstone Units: 4
- ART 494a Senior Thesis Units: 2

The following 4-unit Critical Studies courses are required:

- CRIT 150gp Histories of Art, Design and Visual Culture Units: 4
- CRIT 160g Critical Theory in Art, Design and Visual Culture Units: 4
- CRIT 350gw Global Art, Design and Visual Culture since 1960 Units: 4

Fine Arts Electives

Select 16 additional units from any 100–299 ART courses, and 28 additional units from any 300–499 ART courses. Up to 4 units of DES courses may be counted toward the required 16 additional units from any 100-299 ART courses. Up to 12 units of DES courses may be counted toward the required 28 additional units from any 300-499 ART courses.

General Education Requirements

The university's general education program provides a coherent, integrated introduction to the breadth of knowledge you will need to consider yourself (and to be considered by other people) a generally well-educated person. See General Education for more information.

Minor

3-Dimensional Design Minor

A minor in 3-Dimensional Design offers USC students in all fields of studies the opportunity to gain knowledge and skills in 3-D thinking, imaging and production. Course work will focus on the process behind creating well-designed, expressive functional objects and spaces (both actual and virtual). The minor would be of particular interest to students wishing to further develop specializations such as package design, product design, and environmental design (way-finding, signage, display).

Required lower division courses (10 units)

- DES 102 Design Fundamentals Units: 4
- DES 213 Digital Tools in 3D Design Units: 2
- DES 230 3D Design: Materials and Tools Units: 4

Upper-Division Courses (12 units) chosen from the following:

- ART 444 Modeling and Mold Making Units: 2
- DES 302 Design III Units: 4
- DES 303 Web Design Units: 2
- DES 313 Graphic Design in Fashion Units: 4
- DES 323g Design Theory Units: 4
- DES 332a Typography Units: 2
- DES 332b Typography Units: 2
- DES 402 Advanced Design Projects Units: 4
- ITP 415 3-D Design and Prototyping Units: 2
- MKT 385x Marketing of Creative Disruption and Innovation Units: 4

Total Minimum Units: 22

Optional lower division course(s) chosen from the following:

- ART 140 Sculpture I Units: 4
- DES 202 Design II Units: 4
- DES 203 Digital Tools for Design Units: 2
- ITP 215L Introduction to 3D Modeling, Animation, and Visual Effects Units: 2

Ceramics Minor

Students enrolled in this minor will be introduced to the rich traditions of ceramic practice — from wheel throwing to 3-D modeling — while encouraging the use of materials and methods as vehicles for individual expression in contemporary art. They will be exposed to lectures and readings in the history of clay and critical writings on the subject. A variety of classes is offered including beginning and advanced ceramics, wheel throwing, clay and glaze formulation, art and technology, modeling and mold making, sculpture, visual literacy and theory and criticism. As students advance in the level of their studies, they can choose to follow a traditional approach to clay and/or pursue exploration and experimentation with the medium including freedom to create mixed-media pieces or to bring technology in to their work. The goal is to create a strong foundation in clay significant to the career path of their choosing. The total number of units is required for this minor is 20.

Required lower-division course (4 units)

- ART 130 Ceramics I Units: 4

Three required upper-division courses (10 units)

- ART 330 Ceramics II Units: 4
- ART 331 Clay and Glazes Units: 2
- ART 430 Topics in Advanced Ceramics Units: 4 max 12

Upper-division electives (6 units)

- ART 441 Installation Art Units: 4
- ART 442 Art and Technology Units: 4
- ART 443 Woodworking Units: 2
- ART 444 Modeling and Mold Making Units: 2
- ART 445 Metal Units: 2

Communication Design Minor

The core of this minor is communication design. In addition to courses in design, visual literacy and digital imaging, this minor includes optional courses in business, communication, public relations and marketing, allowing students to translate their design foundation in ways that are directly relevant to their career paths. The total number of units required for the minor is 24.

Required Course (4 units)

- DES 102 Design Fundamentals Units: 4

One lower-division course (4 units), chosen from the following:

- ART 150 Introduction to Photography: Process and Concept Units: 4
- ART 260 Introduction to Video: Projection and Virtual Worlds in Art Units: 4
- CRIT 150gp Histories of Art, Design and Visual Culture Units: 4
- DES 202 Design II Units: 4 (corequisite: DES 203 or former FADN 203)

Four upper-division courses (16 units), chosen from the following:

- ACCT 410x Foundations of Accounting Units: 4
- ART 360 Video Installation and Moving Image Environments Units: 4
- ART 361 Post-Internet Art and Aesthetics Units: 4
- ART 362 Ideas in Intermedia Units: 4
- BAEP 423 Management of Small Businesses Units: 4
- BAEP 451 The Management of New Enterprises Units: 4
- BAEP 452 Feasibility Analysis Units: 4
- COMM 321 Communication and Social Media Units: 4
- COMM 339 Communication Technology and Culture Units: 4
- COMM 340 The Cultures of New Media Units: 4
- COMM 375 Business and Professional Communication Units: 4
- DES 302 Design III Units: 4
- DES 303 Web Design Units: 2
- DES 313 Graphic Design in Fashion Units: 4
- DES 323g Design Theory Units: 4
- DES 332a Typography Units: 2
- DES 332b Typography Units: 2
- DES 333 New York Design Study Tour Units: 2
- DES 402 Advanced Design Projects Units: 4 max 12
- DES 432 Special Projects in Design Units: 2
- DES 433 International Design Study Tour Units: 2
- MKT 385x Marketing of Creative Disruption and Innovation Units: 4
  or
- BUAD 307 Marketing Fundamentals Units: 4
- MKT 405 Advertising and Promotion Management Units: 4
- MKT 406 Practicum in Advertising and Promotion Design Units: 4.0
- MKT 450 Consumer Behavior and Marketing Units: 4
- PR 340 Introduction to Advertising Units: 4
- PR 342 Advertising Media and Analysis Units: 4

Drawing Minor

Students enrolled in the minor in drawing will develop their creativity and technical drawing skills, as well as deepen their understanding of contemporary art. Foundation courses provide the fundamentals of spatial rendering, composition, figure drawing and visual expression. Advanced courses require more ambitious projects, personal direction, research and sustained focus. The minor is available to all USC students who wish to develop their abilities to communicate through visual means, or who wish to develop skills for conceptualization and problem solving. The minor in drawing can assist the students in art-related work, as well as creative pursuits such as printed works with images, games and animation. A total of 20 units are required for this minor.

Required Lower-Division Courses (8 Units)

- ART 110 Drawing for Art and Design Units: 4
- ART 120 Painting I Units: 4

Three Upper-Division Courses (12 units) chosen from the following:

- ART 310 Drawing II Units: 4
- ART 311 Anatomical Drawing from Life Units: 2
- ART 312 Comics Project Units: 4
- ART 370 Printmaking Units: 4
- ART 410 Topics in Advanced Drawing Units: 4 (max 12)
- ART 415 Studies in Drawing and Painting Units: 4
- ART 470 Topics in Advanced Printmaking Units: 4 (max 12)
- CRIT 350gw Global Art, Design and Visual Culture since 1960 Units: 4

Intermedia Arts Minor

This minor deals with technology in art making including digital photography, digital video and the Internet. Course work includes choice of classes in history of photography, digital media, visual literacy and computer imaging. The professional aspects of this minor assist students in developing careers in fine arts, communication, design, engineering, film, journalism and in any area where there is a need for flexible and creative imaging using digital media. The total number of units required for the minor is 20.

Required Lower-Division Courses (8 Units)

- ART 150 Introduction to Photography: Process and Concept Units: 4

- ART 260 Introduction to Video: Projection and Virtual Worlds in Art Units: 4

Three Upper-Division Courses (12 units)

Choose from the following courses:

- ART 350 Intermediate Photography: Studio, Field, Independent Projects Units: 4
- ART 360 Video Installation and Moving Image Environments Units: 4
- ART 361 Post-Internet Art and Aesthetics Units: 4
- ART 362 Ideas in Intermedia Units: 4 max 8
- ART 460 Post-Material Studio Units: 4 max 8
- ART 484 Contemporary Issues in Art Units: 4
- CRIT 350gw Global Art, Design and Visual Culture since 1960 Units: 4

Painting Minor

Within both western and non-western traditions, painting has a long history as a site for aesthetic experience and cultural questioning. This minor allows students to immerse themselves in painting, as well as developing a grasp of the critical issues surrounding it. Foundation courses provide the fundamentals of color, composition, medium and drawing. Advanced courses require more ambitious projects, personal direction, research and sustained focus. Students majoring in many areas of the humanities may pursue this minor to augment their understanding of one of the key media in the arts. The minor is available to all USC students who wish to develop their painting skills. A total of 20 units are required for this minor.

Required lower-division courses (8 units):

- ART 110 Drawing for Art and Design Units: 4
- ART 120 Painting I Units: 4

Three upper-division courses (12 units) chosen from the following:

- ART 312 Comics Project Units: 4 max 8
- ART 320 Painting II Units: 4
- ART 370 Printmaking Units: 4
- ART 415 Studies in Drawing and Painting Units: 4
- ART 420 Topics in Advanced Painting Units: 4 (max 12)
- ART 470 Topics in Advanced Printmaking Units: 4 (max 12)
- CRIT 350gw Global Art, Design and Visual Culture since 1960 Units: 4

Performance Art Minor

This interdisciplinary minor is designed for students who wish to engage in the experimental discipline of performance art, a mode of creative expression in which live or mediated bodies perform in theatrical or virtual settings for an audience. The minor offers two required courses, one in video and media installation and one in performance art, along with a broad range of electives from Roski* and partner schools in Kaufman School of Dance, the School of Dramatic Arts, Thornton School of Music, the School of Cinematic Arts and Dornsife College. It is open to any USC student regardless of prior experience, especially those interested in creating new stories, actions or personas or those who want to explore the kind of disciplinary boundary-breaking and individual expressivity that is characteristic of the field. Practitioners in performance art come from a variety of backgrounds and crossovers between performance art with studies in popular culture, social media, community activism, theater and dance are common. Performance art also highlights intersections among postcolonial and decolonial, ethnic and sexuality/gender studies, making it an effective medium to explore and express identity and its politics. Total number of units required is 20**.

**Roski majors are required to include at least 16 units of electives that are unique to this minor (i.e., not included in their major and outside of Roski). Please consult with your academic adviser before adding this minor.*

***It is highly recommended to take at least one Critical Studies elective course*.

Required Courses (8 units)

- ART 260 Introduction to Video: Projection and Virtual Worlds in Art Units: 4
- ART 462 Performance Art Workshop Units: 4

Upper Division Electives* (12 units)

*At least one Critical Studies (CRIT) course highly recommended

- ART 361 Post-Internet Art and Aesthetics Units: 4
- ART 362 Ideas in Intermedia Units: 4
- ART 460 Post-Material Studio Units: 4
- ART 461 Techniques in After Effects Units: 2
- ART 463 Performance Art and the Frame Units: 2
- ART 484 Contemporary Issues in Art Units: 4
- CRIT 415 Performance: Event, Action, Situation Units: 4
- CRIT 425 Identity and Visual Representation Units: 4
- CTAN 452 Introduction to 3-D Computer Animation Units: 2
- CTAN 453 3-D Animation for Motion Graphics Units: 2
- CTAN 466 Projection Mapping Design and Production Units: 2
- CTAN 495 Visual Music Units: 2
- CTCS 412 Gender, Sexuality and Media Units: 4
- CTPR 457 Creating Poetic Cinema Units: 2
- DANC 302g Hip Hop Don't Stop: Black Social Dance Culture and Media Units: 4
- DANC 333gw Origins of Jazz Dance Units: 4
- DANC 312gw African American Dance Units: 4
- DANC 363g Dancing on the Screen Units: 4
- DANC 342gp International and Historical Perspectives on Dance Units: 4
- IML 328 Sonic Media Art Units: 2
- IML 365 Future Cinema Units: 4
- IML 477 Embodied Storytelling and Immersive Docu-Narratives Units: 4
- MUSC 320gmw Hip-hop Music and Culture Units: 4
- MUSC 372g Music, Turmoil and Nationalism Units: 4
- THTR 312 LGBTQ Theatre Units: 4
- THTR 395m Drama as Human Relations Units: 4
- THTR 405m Performing Identities Units: 4
- THTR 406 Theatre on the Edge Units: 4
- THTR 456 Latinx Theatre Units: 4
- THTR 460 Asian and Asian American Theatre: Identity and Aesthetics Units: 4
- THTR 476mw African American Theatre, Dance, and Performance Units: 4
- THTR 488mw Theatre in the Community Units: 4

Photography Minor

The photography minor provides an in-depth experience in all aspects of photography. The well-equipped darkrooms allow individual hands-on exploration of black and white and color processes, camera types, historical and traditional printing methods, lighting and film processing as well as digital technologies and issues. It also includes a foundation in photo theory and criticism. This minor is appropriate for students interested in an intense experiential exploration of the medium of photography. The total number of units required for the minor is 20.

Two lower-division courses (8 units):

- ART 150 Introduction to Photography: Process and Concept Units: 4
- ART 255 Black and White Film and Darkroom Photography Units: 4

Required upper-division course (8 units):

- ART 350 Intermediate Photography: Studio, Field, Independent Projects Units: 4
- ART 450 Topics in Advanced Photography Units: 4

One upper-division course (4 units) chosen from the following:

- AHIS 373g History and Theory of Photography Units: 4
- AHIS 469 Critical Approaches to Photography Units: 4

- ART 362 Ideas in Intermedia Units: 4
- ART 450 Topics in Advanced Photography Units: 4 max 12
- ART 460 Post-Material Studio Units: 4
- CRIT 350gw Global Art, Design and Visual Culture since 1960 Units: 4

Sculpture Minor

This minor focuses on making, organizing and manipulating objects and their spatial relationships in a range of materials such as wood, fiberglass, clay, plaster, latex and metal. Course work includes choice of classes in sculpture, ceramics, visual literacy, public art, moldmaking, metal and casting. The three-dimensional skills taught in this minor intersect with many other disciplines including architecture, cinematic arts, special effects, engineering design, urban planning and any other areas where skills in maquette and model building are relevant. The total number of units required for the minor is 20.

Required Lower-Division Course (4 Units)

- ART 140 Sculpture I Units: 4

Required Upper-Division Courses (8 units)

- ART 340 Sculpture II Units: 4
- ART 440 Topics in Advanced Sculpture Units: 4

Upper-Division Electives (8 units)

- ART 441 Installation Art Units: 4
- ART 442 Art and Technology Units: 4
- ART 443 Woodworking Units: 2
- ART 444 Modeling and Mold Making Units: 2
- ART 445 Metal Units: 2

Two-Dimensional Studies Minor

This minor is designed for students who wish to augment their understanding of art in general in two-dimensional areas, rather than complete a minor that focuses on one medium. This minor provides a broad scope of courses in 2-D media and studies. This minor is open to any USC student, especially those interested in animation to sharpen their drawing, color and compositional skills. Students interested in the vast varieties of digital visual communication can develop better color and compositional skills. Total number of units required is 24.

Required Courses (24 Units)

Three lower-division courses (12 units) chosen from the following:

- ART 110 Drawing for Art and Design Units: 4
- ART 120 Painting I Units: 4
- ART 150 Introduction to Photography: Process and Concept Units: 4
- DES 102 Design Fundamentals Units: 4

Three upper-division courses (12 units) chosen from the following:

- ART 310 Drawing II Units: 4
- ART 311 Anatomical Drawing from Life Units: 2
- ART 312 Comics Project Units: 4 max 8
- ART 320 Painting II Units: 4
- ART 350 Intermediate Photography: Studio, Field, Independent Projects Units: 4
- ART 370 Printmaking Units: 4
- ART 410 Topics in Advanced Drawing Units: 4 max 12
- ART 415 Studies in Drawing and Painting Units: 4
- ART 420 Topics in Advanced Painting Units: 4 max 12
- ART 470 Topics in Advanced Printmaking Units: 4 max 12

Visual Narrative Art Minor

This interdisciplinary minor is designed for students who wish to concentrate on Visual Narrative Art (which could be any genre or platform of art, including fine art, illustration and cartooning and more). This minor provides a broad scope of courses in 2-D media, rendering and narrative art studies. This minor is open to any USC student ** especially those interested in telling stories through pictures -- fine art, illustration, comics, journalism, narrative studies, cinema and media studies, animation and digital arts, film and television production, interactive media and game design and more. Students will create works that have a narrative intent, telling stories and creating worlds through the language of images and words. Students interested in the vast varieties of visual communication and media can develop better rendering (in all genres), composition, and word/image storytelling skills. Total number of units required is 20.

***Roski majors are required to include at least 16 units of electives that are unique to this minor (i.e., not included in their major and outside of Roski). Please consult with your academic adviser before adding this minor.*

Required Courses (8 units)

- ART 110 Drawing for Art and Design Units: 4
- ART 314 Illustration for Art and Design Units: 2
- DES 203 Digital Tools for Design Units: 2

Upper Division Electives (12 units)

- ART 310 Drawing II Units: 4
- ART 312 Comics Project Units: 4
- ART 320 Painting II Units: 4
- ART 410 Topics in Advanced Drawing Units: 4
- ART 420 Topics in Advanced Painting Units: 4
- CTAN 420 Concept Design for Animation Units: 2
- CTAN 435 Story Art Development Units: 2
- CTAN 436 Writing for Animation Units: 2
- CTAN 443L Character Development for 3-D Animation and Games Units: 2
- CTAN 452 Introduction to 3-D Computer Animation Units: 2
- CTAN 460 Character Design Workshop Units: 2
- CTAN 485L Pipeline and Character Modeling for Animation Units: 2
- CTIN 491L Advanced Game Project I Units: 4
- CTPR 448 World Building Design Studio Units: 2
- CTPR 455 Survey of Production Design Units: 2
- CTPR 456 Introduction to Art Direction Units: 2
- ENGL 343m Images of Women in Contemporary Culture Units: 4
- ENGL 372 Literature and Related Arts Units: 4
- ENGL 376g Comics and Graphic Novels Units: 4
- ENGL 392 Visual and Popular Culture Units: 4
- THTR 331 Costume Design I Units: 4
- THTR 407a Drawing and Rendering for the Theatre Units: 2
- THTR 407b Drawing and Rendering for the Theatre Units: 2
- THTR 433a Costume Design II Units: 3
- THTR 433b Costume Design II Units: 3

Master's Degree

Curatorial Practices and the Public Sphere (MA)

The MA Curatorial Practices and the Public Sphere is an intensive master's-level program in the practice and history of curating studied through the lens of critical theory and the history of art. With a focus on the research and exhibition of contemporary art, as well as attending to art historical curating and broader conceptions of curating such as performance art programming, instructors with international careers lead students in asking social questions about the exhibition of art (broadly construed) in relation to its publics. Over two years of full-time academic study, students explore modes of curatorial practice in a curriculum combining seminars and professional training. Courses are led by USC Roski's internationally acclaimed faculty, which includes renowned artists, scholars, critics and curators.

The MA features courses that focus on the history of art, exhibitions and aesthetics, with a focus on contemporary art and theory. Other courses emphasize direct practical experience leading toward the realization of art exhibitions, but also performance art programming and other hybrid modes of arts curating.

Admission Requirements

Requirements for admission: (1) a Bachelor of Arts or Bachelor of Fine Arts degree, or equivalent, from an accredited school; (2) a minimum 3.0 overall GPA; (3) three letters of recommendation; (4) two writing samples (one academic paper and the admission essay). The GRE General Test is required. International applicants are required to take the Test of English as a Foreign Language (TOEFL) or the International English Language Testing System (IELTS).

Thesis Requirements

The thesis committee is established and contingent upon satisfactory completion of the second semester's course work. Advancement to candidacy is determined by the director of the program, in consultation with other faculty.

Roski MA thesis committees will comprise three faculty members. Two members will be Roski faculty, defined as any faculty currently teaching in either the MA or the MFA program with either full-time, part-time or adjunct appointments, tenure track or non-tenure track. The third member can be any full-time tenure track or non-tenure track USC faculty member, either within the Roski School or from outside Roski. Thesis committees are ultimately subject to approval by the school dean.

Curatorial Practicum Requirement

All students participate in the group curatorial practicum course for three consecutive terms (which complements the thesis requirement).

Program Requirements

A minimum of 39 units is required, taken during a consecutive two-year period, distributed as follows:

Required Courses

- ART 515 Visiting Artist and Scholar Seminar Units: 2 – must be taken twice for a total of 4 units
- CRIT 510 History and Theory of Art and Exhibitions Units: 4
- CRIT 512 Art and Curatorial Visits Units: 2
- CRIT 525 Making and Curating Art: Pedagogy and Praxis Units: 4
- CRIT 555 Methods of Curating: Introduction to Curatorial Practicum Units: 4
- CRIT 556 Curatorial Practicum: Individual/Group Projects Units: 4
- CRIT 557 Curatorial Practicum: Group Project Summation Units: 4
- CRIT 591 Field Internship Experience Units: 1
- CRIT 594a Master's Thesis Units: 2
- CRIT 594b Master's Thesis Units: 2
- CRIT 594z Master's Thesis Units: 0

Electives (4 units of which must be Roski electives)

Units: 39

Elective Requirement

Candidates for the Master of Arts, Curatorial Practices and the Public Sphere must complete a minimum of 8 units of 400- or 500-level electives, 4 units of which must be from the Roski School and 4 units of which can be from another relevant area in the university (with departmental approval).

Design (MFA)

A five-term program administered in collaboration with the Graduate School, the Master of Fine Arts in Design is a professional degree in the practice of design. A progressive degree option is available on a competitive basis to current Roski undergraduate students. With a faculty of influential design professionals and an expansive, retrofitted building in the downtown arts district, the MFA Design program seeks to be an ambitious and far-reaching addition to educational design community in Southern California.

In addition to mentored relationships with the design faculty, students participate in regular seminars, discussions and studio visits with leading visiting designers, writers and theorists from around the world. The Roski School's partnership and affiliation with the contemporary design community in Los Angeles, such as American Institute of Graphic Arts (AIGA), is a critical component of the MFA Design program.

The opportunity to gain experience as a teaching assistant is available on a competitive basis. All incoming students, regardless of country of citizenship, are considered for departmental funding and teaching assistantships.

THESIS AND COMPLETION

The Roski MFA Design thesis committee will comprise three faculty members. Two members will be Roski faculty, defined as currently teaching in the Roski graduate program with either full-time, part-time or adjunct appointments, tenure-track or non-tenure track. A third member can be any full-time tenure track or non-tenure track USC faculty member, either within the Roski School or from outside Roski. Thesis committees are ultimately subject to approval by the school dean.

Master of Fine Arts Design students are evaluated by faculty during reviews held near the end of each semester.

Before a student is recommended for the Master of Fine Arts, a comprehensive review of past work and professional goals is held. A written thesis, documented with visual material, and a practice-based component, such as an exhibition of work, a public presentation, community project or a course syllabus at the end of the course of study, complete the Master of Fine Arts program. A minimum grade point average (GPA) of 3.0 on all graduate work is required for the Master of Fine Arts degree.

ADMISSION

Admission is competitive and based on an application and portfolio submission at Slideroom.com.

An undergraduate degree in Design or its equivalent with a GPA of at least 3.0 is required. Applications are accepted in the spring for the fall. Preference will be given to full-time students, although part-time study can be accommodated with the director's approval.

Application materials include the following:

1. USC Graduate Application
2. Transcripts (waived for Progressive Degree applicants)
3. Three letters of recommendation
4. Personal statement and CV
5. A portfolio of 20 images, submitted at slideroom.com
6. Results of the TOEFL or IELTS (international students only)

See the Roski website *roski.usc.edu* for additional information about the MFA Design program.

Program Requirements

At least 56 units are required for the Master of Fine Arts in Design, to be distributed as follows:

Required Courses (30 units)

- DES 503 Contemporary Issues in Design Units: 4
- DES 513 Visiting Designers Forum Units: 2 (4 units required)
- DES 514 Designers in Residence Forum Units: 2 (4 units required)
- DES 520 Individual Studies Units: 2 (8 units required)
- DES 523 Design Theory Units: 4
- DES 550 Advancement Units: 2
- DES 594a Master's Thesis Units: 2
- DES 594b Master's Thesis Units: 2
- DES 594z Master's thesis Units: 0

Elective Courses (26 units)

- 18 units of 400-level or higher course work within Roski School of Art and Design, 10 of which must be at the 500-level or higher
- 8 units of 400-level or higher course work outside Roski School of Art and Design

Suggested Roski courses include:

- DES 433 International Design Study Tour Units: 2
- DES 530 Design Studio Co-Lab Units: 2
- DES 540 Design Pedagogy Units: 4
- DES 543 Design Study Tour Units: 2

- DES 590 Directed Research Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12
- DES 591 Field Internship Experience Units: 2

Note: All elective courses (Roski and non-Roski) must be approved by the Director of the MFA Design program.

Fine Arts (MFA)

A two-year program administered in collaboration with the Graduate School, the Master of Fine Arts is a professional degree in the practice of art preparing students to pursue careers as professional artists. With an influential and innovative faculty and expansive facilities, the MFA program is one of the most ambitious, energetic and forward-thinking MFA programs in the United States. In addition to close, constant interaction with the faculty artists, students participate in regular seminars, lectures, discussions, and studio visits with leading visiting artists, critics, curators and theorists from around the world. The school's immersion in the contemporary art community is a critical component of the MFA program.

The opportunity to gain experience as a teaching assistant is available on a competitive basis. All incoming students, regardless of country of citizenship, are considered for departmental funding and teaching assistantships.

Program Requirements

At least 48 units are required for the Master of Fine Arts, to be distributed as follows:

- ART 515 Visiting Artist and Scholar Seminar Units: 2 (4 units required)
- ART 520 Individual Studies Units: 2 (8 units required)
- ART 525 Making and Curating Art: Pedagogy and Praxis Units: 4 (Enroll in CRIT 525)
- ART 535 Group Critique Units: 2 (6 units required)
- ART 594a Master's Thesis Units: 2
- ART 594b Master's Thesis Units: 2
- ART 594z Master's Thesis Units: 0
- CRIT 510 History and Theory of Art and Exhibitions Units: 4

and 18 units of 400- or 500-level electives:

- 8 units outside of the Roski School and
- 8 units of departmental electives within the Roski School
- 2 units either outside the Roski School or within the Roski School

Note:

Roski MFA thesis committees will comprise three faculty members. Two members will be Roski faculty, defined as any faculty currently teaching in either the MA or the MFA program with either full-time, part-time or adjunct appointments, tenure track or non-tenure track. The third member can be any full-time tenure track or non-tenure track USC faculty member, either within the Roski School or from outside Roski. Thesis committees are ultimately subject to approval by the school dean.

Master of Fine Arts students are evaluated by faculty during reviews held near the end of each semester. Before a student is recommended for the Master of Fine Arts, a comprehensive review of past work and professional goals is held. An exhibition of work at the end of the course of study and a written thesis, documented with visual material, complete the Master of Fine Arts program. A minimum grade point average of 3.0 on all graduate work is required for the Master of Fine Arts degree.

Performance Studies Graduate Certificate

This 16-unit graduate certificate program is meant to complement PhD and MA studies in related areas such as English, Comparative Literature, Art History, Cinema Studies, etc., by affording students interested in live and time-based art media, courses and a specialization based on studying these modes of creative work.

With a focus on the deep history of discourse and media relating to performance, screen imagery, embodied and visual art work, the program intersects with ethnic studies, gender/sexuality studies, cinema studies, drama, dance and broad concerns addressing how bodies in performance or in visual images construct or resist identifications.

Application for the certificate is open to all USC graduate students in fall and spring semesters, and must be submitted by the end of the first year of a graduate program. The minimum GPA requirement is 3.0.

Required Courses (8 units)

The required core courses are intended to supply both a horizontal and a vertical understanding of performance studies. Emphasis will be placed on the student putting her or his practice (whether artistic or scholarly) in the context of both an overview of the field and deep examples of performance practices, approached either through a scholarly framework or via hands on and practice-based strategies.

CRIT 500 provides a broad historical chronology and an understanding of the histories of theory and practice; CRIT 560 and CRIT 570 provide deep analysis and hands-on research skills.

Note: If desired a student may take both CRIT 560 and CRIT 570 with the second counting as a Roski elective.

- CRIT 500 Theory and History of Performance Studies Units: 4
  and
- CRIT 560 Visual Theory/Performance Theory Units: 4 or
- CRIT 570 Performance Theory and Praxis Units: 4

Electives (8 units)

Electives include courses in Roski and those ratified courses by affiliate faculty beyond Roski, or courses approved by the Graduate Program Director. Participating programs currently include Cinema Studies, Architecture, Dramatic Arts, Dance, Music, American Studies and Ethnicity, Sexuality and Women's Studies, Communication, East Asian Languages and Cultures, Art History, English and Philosophy. All these courses are 4 units unless otherwise noted. In all cases students must get approval from the Graduate Program Director based on current content of the class.

Some suggested elective courses include the following:

- AHIS 505 Seminar in Feminist Theory and Visual Culture Units: 4
- AMST 552 Archives and Subcultures Units: 4
- ARCH 535 Landscape Construction: Performance Approaches Units: 3
- COMM 563 Black Popular Culture: Theory and Central Debates Units: 4
- CTCS 518 Seminar: Avant-Garde Film/Video Units: 4
- THTR 578 Theatre of the Oppressed: Theory, Games, and Techniques Units: 4

USC Marshall School of Business

Consistently ranked among the nation's premier schools, the USC Marshall School of Business offers impressive international and experiential opportunities backed by path-breaking research, close industry engagement, and the uniquely powerful Trojan family. USC Marshall draws on the region's cultural diversity, entrepreneurial mindset and economic power to produce leaders who are immediately ready to impact the future of business.

USC Marshall integrates its foundational core curriculum with a range of dynamic, experiential learning opportunities, giving students the ability to practice and apply what they learn to real-world situations. That curriculum spans a range of disciplines including Business Communication, Data Sciences and Operations, Entrepreneurship, Finance and Business Economics, Accounting, Management and Organization, and Marketing. The Leventhal School of Accounting, one of the nation's top ranked accounting schools and housed within Marshall, educates the next generation of leaders in that field. Hands-on learning opportunities are of paramount importance and are embedded throughout the educational experience. The Experiential Learning Center and the USC Marshall Student Investment Program are just two examples of many that offer students invaluable experiential opportunities.

Combining a world-class faculty, international student body and strategic location at the gateway to the Pacific Rim, USC Marshall is a pioneer in global business education. International experience is a required component of all residential MBA degree programs. Undergraduates have access to numerous overseas programs including study abroad and international internships in addition to week-long global learning experiences and the one-of-a-kind World Bachelor in Business.

With cross-disciplinary excellence spanning the performing arts to the data sciences, USC and Marshall provide students with the power to combine multi-faceted fields of study and to build the skills that today's transforming economy demands. Many Marshall undergraduates choose complimentary minors, while graduate students have the option to earn dual degrees or certificates of specialization. Whether through one of five MBA offerings or 11 specialized master's programs, Marshall offers flexibility for graduate students looking to propel their careers. The Lloyd Greif Center for Entrepreneurial Studies, consistently ranked as one of the best, is an exceptional resource for all students interested developing a more sophisticated entrepreneurial mindset.

Marshall's resourcefulness and resiliency continue to set us apart. The school prepares leaders who are visionary and adaptable; ready for today's jobs and future careers not yet imagined and that the Marshall community will help shape. Recognizing its outsized role to play in the evolution of business toward a more sustainable, equitable and engaged future, USC Marshall is powering that change through groundbreaking ideas translated to real-world outcomes.

Leadership of the USC Marshall School of Business

Geoffrey Garrett, PhD, *Dean, Robert R. Dockson Dean's Chair in Business Administration*
Gareth M. James, PhD, *Deputy Dean; E. Morgan Stanley Chair in Business Administration; Professor of Data Sciences and Operations*

Dean's Cabinet

Sara Bamossy, BA, *Chief Marketing Officer, Associate Dean, Marketing and Communications*
Janet Horan, MPA, *Chief Financial Officer, Senior Associate Dean, Finance and Administration*
Suh-Pyng Ku, PhD, *Vice Dean, Graduate Programs; Professor of Clinical Finance and Business Economics*
Patricia Mills, JD, LLM, *Vice Dean for Teaching and Innovation; Professor of Clinical Accounting*
Rachel Morrell, MPA, *Chief Development Officer, Associate Dean, External Relations*
Daniel E. O'Leary, PhD, CPA, CMA, CISA, *Chair of the Faculty Council; Professor of Accounting*
Ramandeep Randhawa, PhD, *Vice Dean for Undergraduate Programs; Professor of Data Sciences and Operations*
Violina Rindova, PhD, *Interim Vice Dean, Diversity, Equity, and Inclusion; Captain Henry W. Simonsen Chair in Strategic Entrepreneurship; Professor of Management and Organization*
Sha Yang, PhD, *Vice Dean for Faculty and Academic Affairs; Ernest Hahn Professor of Marketing*

Undergraduate Programs Administration

Tiffiani Frye, *Director, Undergraduate Admissions and Outreach*
Onma Lwin, MS, *Director, Undergraduate Career Services*
Maureen McHale, PhD, *Assistant Dean and Director, Undergraduate Advising and Student Affairs*

Julie Phaneuf, BS, *Associate Director, PhD Program*

Office of Executive Education

The USC Marshall Office of Executive Education offers a variety of non-degree and certificate programs for individual contributors seeking to enhance their business-related skill set, as well as for aspiring and current managers, leaders and executives in both fully customized and open enrollment programs.

Areas of expertise include strategy, leadership, innovation, digital transformation, entrepreneurship and business acumen.

In addition to a variety of individual courses within our areas of expertise, Executive Education offers non-degree certificate programs in online, face-to-face, and blended formats. Certificate programs include:

- Data-Driven Decision-Making
- Disruptive Innovation
- Management Consulting
- Digital Transformation
- Humanistic Leadership

USC Marshall Executive Education also offers programs customized specifically for corporations and organizations with a focus on high impact performance journeys including classroom and/or virtual instruction, simulations, personalized leadership assessments, coaching, and real-world practice and applications.

In addition to a Certificate of Completion, Executive Education participants receive digital "badges" that highlight their skill development and learning accomplishments.

To learn more about our programs and upcoming offerings, please visit our Executive Education Programs website. For further information, contact the Office of Executive Education by phone at (213) 740-8990 or by email at execeducation@marshall.usc.edu.

Tim Blakesly, BS, *Assistant Dean, Executive Education*

Marshall Undergraduate Degrees

Bachelor of Science

The business administration major combines a strong grounding in business fundamentals and expertise in select functional areas with extensive exposure to the liberal arts. The curriculum is designed with significant flexibility so that students can complement their studies in business with a minor in a field outside business.

Marshall School programs lead to a Bachelor of Science degree with a major in Business Administration. Marshall students may major in Accounting through the USC Leventhal School of Accounting (part of the Marshall School). See the USC Leventhal School of Accounting pages for a complete listing of information regarding courses, programs and requirements. See Accounting (BS) for specific degree requirements.

The Marshall School offers ten emphasis programs including Business Analytics, Communication, Entrepreneurship and Innovation, Finance, Leadership and Innovation, Marketing, Real Estate Finance, and Risk Management. Students in the BS in Business Administration (World) program earn bachelor's degrees from USC, Hong Kong University of Science and Technology (HKUST) and Bocconi University (Milan, Italy). The program with the School of Cinematic Arts leads to a BS in Business Administration with an emphasis in Cinematic Arts; and the program with the School of International Relations leads to a BS in Business Administration with an emphasis in International Relations. The Marshall School and USC Viterbi School of Engineering offer a combined degree program leading to a bachelor's degree in Computer Science/Business Administration (BS) administered by the Viterbi School of Engineering.

The Marshall School also offers a variety of minors for non-business majors.

Educational Objectives

The undergraduate programs in business administration have three main goals: (1) graduates will have a grounding in skills and concepts that are fundamental to business; (2) graduates will have deep expertise in one or more specific areas of business, selected according to the student's personal and professional goals and objectives; and (3) graduates will have extensive exposure to the liberal arts, usually with a formal minor in a field outside business.

Degree Requirements

General Education Requirements

The university's general education program provides a coherent, integrated introduction to the breadth of knowledge students will need to consider themselves (and to be considered by other people) a generally well-educated person. It requires eight courses in six Core Literacies, plus two courses in Global Perspectives (which may double-count with courses in the Core Literacies) and two courses in writing. The current GE program is effective for all students entering USC in fall 2015 or later and for transfer students who began college elsewhere in fall 2015 or later and subsequently transferred to USC. For more information about USC's general education requirements, see the General Education page for more information.

Marshall Majors

The major requirements for each degree are found on the catalogue page for each major:

- Business Administration (BS)
- Business Administration (Business Analytics) (BS)
- Business Administration (Cinematic Arts) (BS)
- Business Administration (Communication) (BS)
- Business Administration (Entrepreneurship and Innovation) (BS)
- Business Administration (Finance) (BS)
- Business Administration (International Relations) (BS)
- Business Administration (Leadership and Innovation) (BS)
- Business Administration (Marketing) (BS)
- Business Administration (Real Estate Finance) (BS)
- Business Administration (Risk Management) (BS)
- Business Administration (World Program) (BS)

Certificate Program

Marshall offers an undergraduate certificate in Food Industry Management for individuals currently employed in the food industry. For more information see the Food Industry Management Program page.

Marshall Minors

Marshall offers minors in a range of business disciplines. Please see the catalogue page for each minor for a complete description and degree requirements.

- Business Minor
- Business Economics Minor
- Business Finance Minor
- Business Law Minor
- Business Technology Fusion Minor
- Consumer Behavior Minor
- Customer Analytics Minor
- Dynamics in Workplace Communication Minor
- Entrepreneurship Minor
- Human Resource Management Minor
- Management Consulting Minor
- Marketing Minor
- Operations and Supply Chain Management Minor
- Organizational Leadership and Management Minor
- Performance Science Minor
- Real Estate Finance Minor
- Risk Management Minor
- Social Entrepreneurship Minor
- Sports Business and Management Minor
- Technology Commercialization Minor

The Leventhal School of Accounting offers the Accounting Minor to students in all schools and departments except the Marshall School of Business. Leventhal also oversees the Risk Management Minor, which is open to students in all schools and departments except Accounting.

Marshall participates with other USC academic units that administer a number of interdisciplinary minors:

- Advertising Minor
- Applied Analytics Minor
- Biotechnology Minor
- Communication Design Minor
- Game Entrepreneurism Minor
- Innovation: The Digital Entrepreneur Minor
- Managing Human Relations Minor
- Mathematical Finance Minor
- Media Economics and Entrepreneurship Minor
- Risk Management Minor

Admission

Students may be admitted as incoming freshmen, as students transferring from another college or university, or as USC undergraduates transferring from another major. Admission to the Marshall School requires admission to the university and depends on academic performance, particularly in quantitative areas. USC students who have not been admitted to the major or a minor in the Marshall School may register for a maximum of 12 units from the Marshall School and/or the Leventhal School. Information and guidelines for students applying to USC Marshall as freshmen and those transferring to USC from another university are available at the USC Undergraduate Admission and USC Marshall Undergraduate Admissions Websites. Admission to the Computer Science/Business Administration program requires admission to USC and the Viterbi School of Engineering. Information and guidelines for USC undergraduates who wish to transfer to Marshall from another major at USC can be found on the Marshall Undergraduate Programs Website for current students or contact Marshall Undergraduate Advising and Student Affairs.

Transferring College Credit

Community College Courses

USC has established articulation agreements with most community colleges in California. Most academic courses are acceptable for transfer credit from a two-year school, but students will not receive credit for remedial course work. A maximum of 64 semester units may be transferred. There are university restrictions that apply to transferring course work from other institutions that may affect the above rule.

Official transcripts of college work taken elsewhere must be submitted at the time of application to the USC Office of Admission. ECON 351x and ECON 352x must be taken in residence at USC, and all business courses completed at a two-year college, if transferable, will be considered elective credit. There is one exception to this policy: Students may transfer two semesters of introductory accounting and receive credit equivalent to one semester of introductory accounting at USC. Then students can register for BUAD 305 Abridged Core Concepts of Accounting Information.

Four-Year Colleges

Most courses of an academic nature are acceptable for unit credit from all fully accredited four year institutions. If they do not satisfy specific subject requirements at USC, they will usually be accepted for elective course credit.

Students are urged to complete all their required business courses at USC. ECON 351x and ECON 352x must be completed at USC. All business courses from four year institutions, if transferable, will be considered elective credit unless a challenge examination is passed. All upper-division core classes, with the exception of BUAD 497 Strategic Management and BUAD 425 Data Analysis for Decision Making, may be challenged. Students should consult with an academic adviser to initiate the challenge examination process.

Registration

Students register for Marshall courses using the Web Registration system, according to their scheduled appointment times. Appointment times are based on number of units completed. For example, seniors have the first opportunity to register. It is important to register as soon as one's appointment allows or priority standing will be lost. There are no waiting lists for Marshall undergraduate courses. USC students who have not been admitted to the Marshall School may register for a maximum of 12 units in the Marshall School and/or the Leventhal School.

Global Opportunities

The Marshall School offers students a variety of opportunities to cultivate a global perspective. Classes such as international trade and commercial policy, financial management of multinational corporations, international finance, multinational marketing, and international management practices and negotiation broaden students' understanding of managing a global business. Opportunities to travel and study outside the United States allow students to develop skills for functioning in different cultures, societies and economic environments, and to understand a wide variety of international business practices. Contact Marshall Undergraduate International Programs or Undergraduate Advising and Student Affairs for information about international study opportunities at Marshall, including:

GLP/LInC/TIE

Students are encouraged to take advantage of one of Marshall's international experiential learning programs. Each includes a nine-day faculty-led trip to a city outside the United States, where students meet with business, political and civic leaders. The Learning about International Commerce (LInC) Program is a 2-unit class open to freshman students who apply. The Global Leadership Program (GLP) is a two-course sequence open by invitation to select first-year students in the incoming freshman class. GLP invitations are extended by the USC Marshall Undergraduate Admissions Office. The Transfer International Experience (TIE) Program consists of two 1-unit classes or one 2-unit class, open to transfer students who apply.

International Exchange Program

The International Exchange Program is a one-semester exchange program with a host institution in Asia, Australia, South America or Europe during either the fall or spring semester. Exposure to international cultures and practices in business and non-business settings provides another level of understanding of international business. Students complete between four to eight

courses at the host institution (15-18 USC units). All instruction is in English, so foreign language proficiency is not required. Courses completed at the host school are graded credit/no credit on the student's USC transcript. The courses are selected from a list approved by the Marshall School of Business and satisfy the business elective requirement.

International Summer Program

The Marshall School offers unpaid international internship programs in London, Madrid, Berlin, Dublin, Prague, Hong Kong, Milan and Singapore during the summer session. The program provides students with theoretical and practical experiences working and navigating within the international business environment. The program consists of an eight- to ten-week internship abroad. Funded internships in Bangkok and Jakarta are also offered.

Research Opportunities

BUAD 490 Directed Research provides an opportunity to pursue research above and beyond the normal course offerings. This course is open to juniors and seniors with a 3.0 or better grade point average who have obtained approval from a faculty sponsor and associated department chair prior to registration. Units are assigned on a variable basis with a maximum of 12 units toward an undergraduate degree, 4 units per semester. Students may also work with faculty as research assistants. For additional information, contact Marshall Undergraduate Advising and Student Affairs.

Marshall Honors Program

Marshall Honors, available upon graduation to majors in business administration or accounting, provides a special designation of departmental honors on a student's transcript. Acceptance to the program requires completion of at least 64 units of course work (including transfer units), an overall GPA of at least 3.3, a GPA of 3.5 or higher in course work to be applied to the major, and a successful application. Achievement of Marshall Honors requires completion of BUAD 493 Marshall Honors Research Seminar prior to the senior year, completion of BUAD 494 Marshall Honors Research and Thesis during the senior year, and a minimum GPA of at least 3.5 in upper-division Marshall School and Leventhal School courses applied to the major. For additional information, contact Marshall Undergraduate Advising and Student Affairs.

Honor Societies

Beta Gamma Sigma is the national honor society for business students. The Marshall School of Business chapter has been active since 1923. Juniors in the top 10 percent of the class and seniors in the top 10 percent of the class are invited to join.

Marshall Undergraduate Advising and Student Affairs

Academic advisement is provided through the Marshall Office of Undergraduate Advising and Student Affairs, which supports the education and development of undergraduate students by providing a broad array of co-curricular and academic support programs and services. Incoming freshman and new transfer students are required to meet with an academic adviser before registering, and this requirement is in effect until 24 USC units are completed. All students are encouraged to see an academic adviser on a regular basis, and continuing students may schedule appointments throughout the year.

The Marshall First-Year Experience (Marshall FYE) includes a wide variety of programs to support and engage new freshman and transfer students throughout their first year at USC. Marshall FYE is designed to help students navigate academic and career resources, become involved in student life, and foster a sense of belonging within the Marshall community.

The Transfer Success Program provides selected incoming transfer students with the opportunity to build a community among other transfer students and maximize their experience at USC Marshall.

The Marshall Academic Resources (MARs) Program provides free group tutoring through its Core Review Sessions for select Marshall core courses. Core Review Sessions, led by Peer Academic Leaders, are a supplement to classroom instruction and designed to assist students at all academic levels. Participating in Core Review Sessions early and regularly supports student success and learning.

Marshall Recognized Student Organizations serve as a vehicle for Marshall students to develop and practice their leadership and networking skills through participation in various professional, academic, and social organizations. The Marshall School has more than 40 student organizations including Marshall Business Student Government.

The Marshall School offers a number of scholarships available to continuing students. Awards recognize academic excellence and/or outstanding service at Marshall, and provide funding applied toward tuition for one academic year.

Marshall Undergraduate Career Services

The Marshall School recognizes the importance of integrating education with experience. Marshall Undergraduate Career Services seeks to enhance the Marshall undergraduate student experience by engaging students in services designed to help them cultivate, refine, and plan for their professional development.

In cooperation with the USC Career Center, we provide a variety of workshops, recruiting events, networking opportunities, and individual advising appointments to educate and empower students in their pursuit of internship and full-time opportunities. Students also have access to weekly newsletters, industry specific opt-in email announcements, and alumni mentorship programs.

Those who actively participate in these events while establishing and achieving meaningful career goals, will maximize their opportunities for employment after graduation.

Marshall Graduate Programs

The Marshall School of Business prepares men and women to become leaders at every level of management. Today's successful businesses demand flexibility, innovation, creativity, teamwork and leadership from their employees. The Marshall School's goal is to help students meet those demands through a rigorous grounding in all functional areas of business and the honing of analytical and interpersonal skills required to address real business problems.

The more than 240 faculty members at the school include authorities recognized around the world for their contributions to business theory and practice. They are also distinguished by their dedication to teaching excellence.

The Marshall School of Business offers six graduate degrees: The Doctor of Philosophy (PhD); the Master of Business Administration (MBA); the Master of Science (MS) in Business Administration, Business Analytics, Business Research, Entrepreneurship and Innovation, Finance, Food Industry Leadership, Global Supply Chain Management, Marketing, and Social Entrepreneurship; the Master of Business for Veterans (MBV); the Master of Management in Library and Information Science (MMLIS); and the Master of Management Studies (MMS). The Marshall School jointly sponsors a Master of Arts in Long Term Care Administration.

Graduate certificates are also offered in business analytics, business fundamentals, financial analysis and valuation, library and information management, management studies, marketing, optimization and supply chain management, strategy and management consulting, sustainability and business, and technology commercialization.

Admission Requirements

A bachelor's degree equivalent to a four-year U.S. undergraduate degree from an accredited institution (regardless of field or major) is required for admission to any graduate degree program at the Marshall School of Business.

All applicants are required to submit the following documents: (1) completed application form; (2) a nonrefundable application fee; (3) responses to required essay questions; (4) history of full- and part-time work experience or résumé; (5) one official transcript from the registrar of each college or university attended (undergraduate and postgraduate, if applicable) whether the degree was completed or not. If all college or postgraduate work has not been completed, transcripts must be sent again when work in progress is completed and the degree posted. Transcripts written in languages other than English must be accompanied by a certified English translation. Degrees earned in non-anglophile countries must be verified through IERF.

Some programs require (6) letters of recommendation and (7) Graduate Management Admission Test (GMAT) or Graduate Record Examinations (GRE) scores.

All international students who did not earn a four-year bachelor's degree from a college or university in the United States, Canada, the United Kingdom, Ireland, Australia or New Zealand must submit (8) recent scores from the Test of English as a Foreign Language (TOEFL), the International English Language Testing System (IELTS) or the Pearson Test of English Academic (PTE). (9) Proof of financial support is required of admitted international applicants.

To ensure a place in a program and adequate time to receive an admission decision, it is important to send completed application materials well in advance of the semester for which the applicant wishes to register. For the non-traditional student, if work is still in progress to complete a bachelor's degree, the applicant must state specifically what courses are in progress, what must be done to finish and the estimated date of completion. Admission is contingent upon official verification of a bachelor's degree.

Additional program-specific admission criteria are available on each program's Website. Links are available at marshall.usc.edu/programs.

Doctor of Philosophy (PhD)

The Doctor of Philosophy program in business administration is designed to produce research-oriented graduates who, from positions in academia, can advance business practice and enhance the contributions that businesses make to the larger community. These goals can be advanced through research contributions in theory, concepts, methods and practices, and education of the next generation of business leaders. For more information see Business Administration (PhD) and marshall.usc.edu/phd.

Master of Business Administration (MBA)

MBA students gain an understanding of the forces confronting business around the world and are encouraged to take an active role in making a difference — to seek out opportunities for personal and professional growth and to empower others in the pursuit of shared goals. The Master of Business Administration is offered through five distinct programs.

While the five programs are designed to meet the needs of different types of students, all programs have the same goals (albeit different weight): providing students with the personal skills and development necessary to become effective leaders; developing a thorough understanding of business fundamentals such as economics, accounting, finance, marketing, and data analytics as well as being motivated and able to build and work in high-performing teams. Each student is challenged to develop self-understanding, an appreciation for the complexities of business organizations, and the ability to offer creative solutions to business problems.

Full-Time MBA Program

The Marshall MBA program is designed for individuals who can leave the world of work and immerse themselves "full time" in two years of graduate education. It provides a foundation for success that balances analytical and critical thinking with real-world application.

During the first year, our approach to leadership and business education combines case analysis, management simulations, consulting projects for real business problems, executive seminars and international travel with traditional methods for establishing a conceptual understanding of the general management role in a global context. Career Insight Seminars improve students' functional and industry awareness and as a result enhance decision-making in the areas critical to career development, satisfaction and success. Elective options in the second semester allow students to complement the core curriculum with informed choice and individualized interests. Summer internships help students apply their knowledge in practice and prepare for the job market.

In year two, students continue to chart their own course of study. A wide array of elective courses offers students immersion in specific functional areas, disciplines and industries. The selection allows students to gain an in-depth understanding of a particular subject or to continue to pursue a broad-based management education. For more information see the Full-time MBA Program page and ftmba.marshall.usc.edu.

Part-Time MBA Program for Professionals and Managers

The MBA Program for Professionals and Managers (MBA.PM) allows fully employed individuals to pursue an MBA degree while continuing their career. Students can pursue the first year of study at the University Park Campus or at the USC Orange County Center in Irvine. Elective course work is completed mainly on the University Park Campus. The curriculum, offered in the evening, is similar to the curriculum offered to full-time MBA students but is structured to allow completion of the program in 33 months or less. For more information see the MBA Program for Professionals and Managers program page and marshall.usc.edu/mbapm.

International MBA Program (IBEAR MBA) and the International Management Science (STEM) MBA Program

The IBEAR MBA is a mid-career international MBA emphasizing trade and investment in and between the Americas and Asia in particular. Participants complete the equivalent of two years of intensive MBA study and return to their careers in 12 months.

The Management Science specialization of the Master of Business Administration recognizes the efforts of individuals who choose to focus their MBA studies on quantitative business-related fields such as statistics, mathematical techniques, analytics, data warehousing, data mining, operations and supply chain optimization, finance, forecasting, digital marketing and modeling.

In addition to an internationalized set of core courses, the program includes elective course offerings on international management, international financial management, global e-business, global marketing strategy, international trade, politics for global management and global strategy.

The program features a two-term international business consulting project, a cross-cultural team-building retreat, a visiting international expert speaker series and participation in Marshall's annual Asia/Pacific Business Outlook Conference.

IBEAR MBA graduates join a network of well-placed alumni in more than 50 nations. For more information see the International MBA Program and the International Management Science (STEM) MBA Program pages and visit marshall.usc.edu/ibear.

Online MBA Program

The Online MBA (OMBA) program enables students to develop expertise in business administration, management and leadership through a rigorous course of study, most of which is delivered using flexible online technologies. The program content covers business fundamentals including accounting, economics, finance, data sciences, marketing, management, operations and entrepreneurship; communication and analytics training

are interwoven with the entire program. The program takes advantage of distinctive educational opportunities offered by online technologies, both in terms of teaching methods and content and helps students to increase their effectiveness as business leaders, corporate managers and entrepreneurs.

The program is structured so that it can be completed in as little as 21 months. Students can work through much of the material on a flexible schedule customized to their own needs, making the program especially convenient to students who are currently employed and wish to remain at their jobs while enrolled. Content is delivered by faculty members with strong backgrounds in practice and research from different disciplines teaching in a team format to integrate understanding of business fundamentals, internal and external operations, business environments and leadership. For more information see the Online MBA Program and marshall.usc.edu/online-mba.

Executive MBA Program

The Executive MBA program provides those with significant work experience, particularly mid- to senior-level professionals who have high potential as business and industry leaders, a chance to complete an MBA on Fridays and Saturdays over a two-year period without interrupting their careers. The program is offered on the University Park Campus in downtown Los Angeles.

This program uses a non-traditional, interdisciplinary approach to executive and management education through "themes" that integrate various functional areas and address classic, yet dynamic business issues.

Through the integrated curriculum, participants develop a complete understanding of decision-making, a focus on the future and the international context of business as well as strong interpersonal, leadership and analytical skills. More specifically, participants achieve advanced skills in corporate and international finance, marketing, environmental and strategic analysis, information technology, organizational leadership, managerial communication and corporate relations. Core faculty include the school's most senior, experienced members as well as nationally renowned academic and business specialists. The program includes three residential off-site experiences — two domestic and one international. For more information see the Executive MBA Program and marshall.usc.edu/EMBA.

Dual MBA Degree Programs

Dual degree programs offer graduate students the opportunity to complete concurrently the requirements for two separate degrees with modified degree requirements.

Admission criteria for applicants to dual degree programs co-sponsored by the Marshall School of Business are the same as Master of Business Administration program admission criteria.

Dual degree programs may be completed in conjunction with the Marshall MBA, MBA.PM or IBEAR MBA programs. Students interested in completing a dual degree program should apply to the specific MBA program suited to the individual's needs.

The Marshall School offers the MBA in conjunction with a number of other programs at USC:

- Master of Business Administration/Master of Arts in East Asian Area Studies (MBA/MA)
- Master of Business Administration/Master of Science in Gerontology (MBA/MS)
- Master of Business Administration/Master of Science in Industrial and Systems Engineering (MBA/MS)
- Master of Business Administration/Master of Arts in Jewish Nonprofit Management (MBA/MA)
- Juris Doctor/Master of Business Administration (JD/MBA)
- Master of Business Administration/Doctor of Medicine (MBA/MD)
- Master of Business Administration/Doctor of Pharmacy (MBA/PharmD)
- Master of Business Administration/Master of Real Estate Development (MBA/MRED)
- Master of Business Administration/Master of Social Work (MBA/MSW)
- Master of Business Administration/Master of Science, Systems Architecting and Engineering (MBA/MS)
- Master of Business Administration/Master of Urban Planning (MBA/MUP)

Specialized Master's Degrees

Master of Accounting and Master of Accounting (Data and Analytics)

The Master of Accounting (MAcc) program provides an integrated curriculum designed to prepare graduates for careers in professional accounting, public accounting, industry and government. For more information, visit Accounting (MAcc).

The Master of Accounting program with an emphasis in data and analytics combines course work from the Leventhal School of Accounting and Marshall's Data Sciences and Operations department. The data and analytics emphasis of the MAcc is designed to train auditors for the data age. For more information visit Accounting (Data and Analytics) (MAcc).

Master of Science in Business Analytics

The Master of Science in Business Analytics is designed for managers who want to develop their analytical skills and recent college graduates with strong analytical skills who are interested in pursuing a career in business analytics. The program provides students with tools, ideas and frameworks that will aid them in making business decisions in a scientific manner, based on actual data, to improve the performance of their organization. For more information see Business Analytics (MS) and visit marshall.usc.edu/MSAnalytics.

Master of Business Taxation and Master of Business Taxation (Data and Analytics)

The Master of Business Taxation (MBT) program is designed for accountants, attorneys and business professionals who wish to learn or improve skills and knowledge through participation in advanced tax study. For more information see Business Taxation (MBT) and Business Taxation for Working Professionals (MBT).

The Master of Business Taxation with an emphasis in data and analytics (MBT D&A) delivers a firm foundation in taxation with a focus on data and analytics and the enabling of IT capabilities. For more information see Business Taxation (Data and Analytics) (MBT).

Master of Science in Entrepreneurship and Innovation (MS)

The Master of Science in Entrepreneurship and Innovation is designed to develop the entrepreneurial knowledge, skill sets, and decision-making frameworks required to recognize and evaluate business opportunities and to create and guide a new entrepreneurial entity either individually or within a larger organization. The program is intended for students seeking to pursue careers in entrepreneurship, corporate venturing and innovation, or technology commercialization. The degree can be completed on either a full-time basis in one year or on a part-time basis over two years, and classes are offered primarily at night to accommodate the needs of working professionals. For more information see Entrepreneurship and Innovation (MS) and visit marshall.usc.edu/msei.

Master of Science in Finance (MS)

The Master of Science in Finance is designed to provide individuals with the necessary skills and knowledge to become experts in finance and thus advance their careers in business. The program is exceptionally well suited to individuals completing a bachelor's degree who are seeking an opportunity to continue their studies at USC for one year and earn a master's degree in finance before entering the work force. It is also well suited to those who have earned or soon will earn a master's degree and wish to earn a second master's degree. For more information see Finance (MS) and visit marshall.usc.edu/msf.

Master of Science in Food Industry Leadership (MS)

The Master of Science in Food Industry Leadership provides tools, concepts, frameworks and practical hands-on projects in areas such as new/current technologies, strategic planning and managing change as a senior leader. This unique curriculum integrates the functional areas of business with cutting-edge theory and practical application to help students understand how all of the pieces of an entire organization fit together and work dynamically to support the success of local and global businesses. For more information see Food Industry Leadership (MS) and visit marshall.usc.edu/fil.

Master of Science in Global Supply Chain Management (MS) for Executives (Online)

The Marshall School of Business offers individuals across the U.S. and around the world an opportunity to expand their knowledge of management of the ever-changing world of global supply chains. The program provides managers with tools, ideas and frameworks that will aid them in improving the performance of the global supply chains that they manage. Courses are broadcast via distance learning technologies so that, with the exception of two international travel experiences, the degree can be completed through the Internet. Additional in-person instructional activities are provided at partner institutions. Two international travel experiences to global distribution hubs are included in the program. In-person midterms and final exams may be required for some courses, in which case they will be administered in cities near student population concentrations. For more information see Global Supply Chain Management for Executives (MS) (Online) and visit marshall.usc.edu/MSGSCM.

Master of Science in Global Supply Chain Management (MS) (On-Campus)

The Marshall School of Business, jointly with the Viterbi School of Engineering, offers individuals an opportunity to expand their knowledge of the management of global supply chains. The program focuses on teaching the necessary knowledge and skills in areas like inventory management; sustainable supply chains; strategic procurement; outsourcing; logistics and distribution; information technology and its role in managing global supply chains; and supply chain optimization. This 27-unit on-campus program can be completed on a full-time basis in one calendar year. For more information see Global Supply Chain Management (OnCampus/Residential) (MS) and visit marshall.usc.edu/MSGSCM.

Master of Management in Library and Information Science (MMLIS)

The Master of Management in Library and Information Science program is designed to educate professional librarians for leadership from every level of the organization in academic, urban and corporate environments. Graduates will identify and analyze critical issues and leverage resources and expertise to build community assets. The program is taught entirely online. For more information see Library and Information Science (MMLIS) and visit librarysciencedegree.usc.edu.

Master of Arts in Long Term Care Administration

This program is designed to prepare competent individuals to administer the long term needs of America's elderly population. It is jointly offered by the USC Leonard Davis School of Gerontology, the Marshall School of Business, and the USC Price School of Public Policy. For more information, see the USC Leonard Davis School of Gerontology.

Master of Science in Marketing (MS) and Master of Science in Marketing (Marketing Analytics) (MS)

The Master of Science in Marketing is designed to develop an in-depth knowledge of relevant and innovative marketing skills and techniques for prospective students interested in pursuing a career in marketing or enhancing their existing marketing career. The degree can be completed on full-time basis in one calendar year or part-time. Classes are available during both daytime and evening hours. For more information see Marketing (MS) and visit marshall.usc.edu/MSMKT.

The Master of Science in Marketing (Marketing Analytics) provides students with tools, concepts, frameworks and critical thinking and innovative skills needed to position themselves as leaders in quantitative marketing methods, gaining exposure to in-demand programming languages such as R and Python for marketers, as well as strategies and techniques for predictive modeling, consumer analysis, customer segmentation and micro-targeting. For more information see Marketing (Marketing Analytics) (MS) and visit marshall.usc.edu/MSMKT.

Master of Science in Social Entrepreneurship (MS)

The Master of Science in Social Entrepreneurship gives students the opportunity to learn business and entrepreneurship skills within a framework of combining both financial and social missions. The program can be completed in one year (full-time students) or two or more years (part-time students). Courses are offered on the University Park Campus in downtown Los Angeles in the evenings and on weekends. For more information see Social Entrepreneurship (MS) and visit marshall.usc.edu/MSSE.

Master of Science in Social Entrepreneurship/Master of Public Health (MSSE/MPH) Dual Degree Program

The Marshall School of Business and the Keck School of Medicine leverage resources and expertise with this program designed for students who want to gain the skills to make sustainable change in the field of public health. By combining fundamental business and entrepreneurship skills with the expertise gained through the Master of Public Health, graduates will be uniquely equipped to address global health challenges. For more information see Master of Science, Social Entrepreneurship/Master of Public Health (MS/MPH).

Master of Business for Veterans (MBV)

This program is designed for veterans who wish to gain formal business knowledge and develop critical thinking skills to manage or grow a business. Significant project and course work is completed during the two-semester program. Class sessions meet over 16 full-day sessions each semester, offered on the University Park Campus in downtown Los Angeles. For more information see Business for Veterans (MBV) and visit marshall.usc.edu/MBV.

Master of Management Studies (MMS)

The Master of Management Studies is designed to provide students who have completed graduate business course work equivalent to the first year of a traditional two-year MBA program with an opportunity to pursue further studies at the USC Marshall School of Business. The program is especially valuable for those who have completed the first year of a traditional MBA at another institution and those who completed one-year MBA programs and wish to enhance their knowledge in specialized areas of business. The degree can be completed on either a full- or part-time basis, and classes are available during both daytime and evening hours. For more information see Management Studies (MMS) and visit marshall.usc.edu/MMS.

Master of Science in Business Administration (MS)

The Master of Science in Business Administration is designed to provide students with an opportunity to pursue an area of specialization subsequent to successfully completing the Master of Business Administration (MBA). The program is especially valuable for those who wish to enhance their knowledge base in a specialized area of business. In cooperation with a faculty

member, the student in this program designs a course of study to meet his or her individual needs. The degree can be completed on either a full- or part-time basis, and classes are available during both daytime and evening hours. For more information see Business Administration (MS) and visit marshall.usc.edu/ms-busad.

Master of Science in Business Research (MS)

The Master of Science in Business Research is designed to provide an alternative for Marshall PhD students. Marshall does not accept applications for admission to this program. See Business Research (MS).

Graduate Certificate Programs

Graduate Certificate in Business Analytics

The Graduate Certificate in Business Analytics is designed for individuals who want to develop the analytical skills needed to work with today's complex data sets in the support of business decision-making. The certificate can be completed on either a full- or part-time basis, and classes are available during both daytime and evening hours. For more information see Business Analytics Graduate Certificate and visit marshall.usc.edu/GCRTAnalytics.

Graduate Certificate in Financial Analysis and Valuation

The Graduate Certificate in Financial Analysis and Valuation is designed to offer students the intensive instruction and training needed to successfully compete in rapidly developing global financial markets. Course work in the fundamental theories and practice of financial accounting, financial analysis, valuation, credit analysis, and financial instruments and markets expands analytical capacities to better understand and develop strategic financial decisions. For more information see Financial Analysis and Valuation Graduate Certificate and visit marshall.usc.edu/FAV.

Graduate Certificate in Library and Information Management

The online Graduate Certificate in Library and Information Management is uniquely designed to serve both those who are looking to explore library and information management without committing to an entire degree and those who currently hold the equivalent MLIS degree looking to specialize in a specific aspect of the field. For more information see Library and Information Management Graduate Certificate.

Graduate Certificate in Management Studies

The Graduate Certificate in Management Studies is designed to provide students who have completed graduate business course work equivalent to the first year of a traditional two-year MBA program with an opportunity to pursue further studies at the USC Marshall School of Business. The program is especially valuable for those who have completed the first year of a traditional MBA at another institution and those who completed a one-year MBA program and wish to enhance their knowledge in specialized areas of business. The certificate can be completed on either a full- or part-time basis, and classes are available during both daytime and evening hours. For more information see Management Studies Graduate Certificate and visit marshall.usc.edu/gcms.

Graduate Certificate in Marketing

The Graduate Certificate in Marketing is designed for individuals who want to develop the analytical and technical skills needed to work with today's complex marketing issues in the support of effective business decision-making. The certificate can be completed on either a full- or part-time basis, and classes are available during both daytime and evening hours. For more information see Marketing Graduate Certificate and visit marshall.usc.edu/GCRTMarketing.

Graduate Certificate in Optimization and Supply Chain Management

The Optimization and Supply Chain Management Program is offered by the Marshall School of Business in partnership with the Viterbi School of Engineering. The program offers individuals opportunities to expand their knowledge of the rapidly expanding uses of technology in the management of global supply chains. The certificate may be completed on either a full- or part-time basis. Most classes applicable to the program are offered during both daytime and evening hours. Many of the ISE courses included in the curricula are available online. For more information see Optimization and Supply Chain Management Graduate Certificate and visit marshall.usc.edu/oscm.

Graduate Certificate in Strategy and Management Consulting

The Graduate Certificate in Strategy and Management consulting is designed for individuals who want to develop the analytical skills needed to consult on complex strategic and organizational issues in support of effective business renewal. The certificate can be completed on either a full- or part-time basis, and classes are available during both daytime and evening hours. For more information see Strategy and Management Consulting Graduate Certificate and visit marshall.usc.edu/GCRTSMC.

Graduate Certificate in Sustainability and Business

The Graduate Certificate in Sustainability and Business is designed to offer individuals the instruction and training they need to help shape solutions to social and environmental sustainability challenges, both from within and from outside the business sector. Course work includes sustainability strategies and practices, business law and ethics, and sourcing management. The program is suited to students coming from a broad range of backgrounds. Applicants do not need to be matriculated USC students to undertake the program. Anyone who holds a four-year bachelor's degree is welcome to apply. For more information see Sustainability and Business Graduate Certificate and visit marshall.usc.edu/SUSB.

Graduate Certificate in Technology Commercialization

The Graduate Certificate in Technology Commercialization, offered through the Lloyd Greif Center for Entrepreneurial Studies, provides technology commercialization skills in an academic/real world environment that combines theory and practice. Through a living laboratory academic program, students experience the entire spectrum of the commercialization process: invention, product development, technical and market feasibility analysis, intellectual property acquisition, business development and venture funding. Working with USC scientists and engineers, students have the potential to become stakeholders in a new technology venture. They are also eligible to apply for summer internships sponsored by industry partners to give them additional experience in taking a new technology to market. The program is particularly well suited to those in science, engineering and business. For more information see Technology Commercialization Graduate Certificate and visit marshall.usc.edu/tccm.

Marshall Master's Programs Academic Policies

Academic Policies — Master's Programs

Waivers

Subject waiver of required courses may be granted to students based on prior academic work subject to university policy limitations, program structure, and in some cases by examination.

In most cases waived courses must be replaced with electives of equal unit value.

Further information regarding the waiver policy in the Marshall School of Business may be obtained from the program adviser for the applicable degree program following admission.

Change of Degree Program

Students who are currently enrolled in one degree program who wish to change their degree status to another program must formally apply for admission to that program through USC Admissions. Details concerning individual student requirements in other degree programs may be obtained by contacting the applicable program office.

Continuous Enrollment/Leave of Absence/ Withdrawal/Reinstatement

Once admitted to a graduate degree program, the student must enroll at USC each fall and spring semester each year until she or he has satisfactorily completed all degree requirements. MBA.PM students must enroll at USC each fall, spring and summer term until they have satisfactorily completed all degree requirements.

If for military, medical, religious or job-related reasons a student must skip a semester, the student must petition for a leave of absence. The petition should be submitted to the student's program adviser no later than the first day of class for the semester of the leave.

If granted, the period of leave is not counted in the time allowed for the completion of degree requirements, and the student is allowed to complete the degree requirements in effect when he or she was originally admitted.

Once a leave is approved, it is the student's responsibility to withdraw from any classes for which the student has already enrolled. An approved leave may not exceed one academic year. If one academic year is insufficient, the student may petition for up to two more semesters (a second year) of leave. A student whose leave exceeds two academic years or who fails to maintain continuous enrollment without obtaining an approved leave must, when ready to return to school, apply for readmission to the program. Contact the program adviser for the applicable program.

Students who must completely withdraw from a program must notify their program office of their withdrawal from the program. Students should contact their program office for more information or assistance.

Marshall School of Business Second Master's Degree Policy

A "second master's degree" is any master's degree pursued after a first master's degree is earned at USC. The maximum number of units that may be applied from a master's degree previously completed at USC toward a subsequent Marshall master's degree is 3 units. This policy also applies when two master's degrees are being completed simultaneously. No more than 3 business-related units can be applied from the other master's degree. (This Marshall unit maximum supersedes any USC unit calculations related to second master's degrees.) Second master's degrees are not allowed in the same program of study for students who earned their first master's degree at USC.

For students who earned their first master's degree at another institution, no course work may be repeated from the first program of study and no unit credit from the first program of study may be counted toward the second master's degree. No individual exceptions are allowed.

Course Work at Another Institution

Once matriculated into a Marshall School of Business program, a student must receive prior permission by petition from the appropriate Marshall program office to take course work (a maximum of 6 units) at another institution. Only course work from an AACSB accredited business school can be accepted. A grade of B or better must be earned. Permission is granted only in exceptional circumstances.

Limited Status

The Marshall School of Business does not allow students to take graduate (500-level) electives on any conditional or special status basis prior to application and an official admission decision except under the following condition: students completing a Master of Business Administration program at another accredited university outside of the Los Angeles area may take up to 12 units in the Marshall School of Business to complete their degrees, provided that a letter from the associate dean or program director at the student's university verifies that the student is in good academic standing and identifies the courses that will be accepted for credit by the university granting the degree.

Marshall master's degree alumni are welcome to return as Limited Status students subject to satisfaction of prerequisites and space available.

Auditing

Auditing of Marshall graduate courses (ACCT, BAEP, BUCO, DSO, FBE, GSBA, MKT, MOR courses numbered 500 and above) is not allowed.

Grade Point Average Requirements

Master's students must maintain a grade point average of 3.0 (A = 4.0) or better to stay in good academic standing. Students who are not in good academic standing are subject to dismissal.

Grades

Grades below C (2.0) in all master's degree courses are not acceptable. If a lower grade is earned in a required course, the course must be repeated at USC and a grade of C or above must be earned. Degree credit will not be given for courses with grades of C- and below, but the grades are computed into the grade point average. Such courses should be repeated in the next semester in which the course in question is offered and must be repeated within one calendar year. Satisfactory completion of all required courses must occur prior to or concurrently with the beginning of advanced course work.

Academic Warning

Master's students who, in a term, do not earn or maintain a 3.0 (A = 4.0) grade point average are placed on academic probation. Continued enrollment in the program requires the permission of the academic director of the program. Students who fail to achieve a 3.0 upon completion of the required number of units for any degree may, with the prior endorsement from the academic director of the program and approval by the Marshall Vice Dean for Graduate Programs, be allowed to take a maximum of 12 additional units at USC to obtain the required GPA. Petitions to take additional units should be submitted to the student's program adviser well in advance of the term in which additional units will be attempted.

Dismissal

A student may be dismissed from a master's program whenever, in the judgment of the program's academic director; it is unlikely that the student will successfully complete his or her program.

Department of Business Communication

The Department of Business Communication offers core and elective classes in a variety of topics relating to interpersonal, internal and external communication in organizations, business writing and oral communication and presentations, group and team communication processes, persuasion, networking and leadership. Courses also focus on critical thinking and decision-making processes, cross-cultural business communication, media-mediated communication, and ethics.

The importance of effective communication to the success of individuals and organizations and their stakeholders has increased exponentially in the age of globalization and the Internet. New media technologies are changing communication at the workplace and influencing how business is conducted. Understanding communication theory, concepts, practice and skills will help students advance themselves and their organizations regardless of their positions or industries. The ability to communicate strategically in times of calm or crisis is essential for career success.

Undergraduate Minor

- Dynamics in Workplace Communication Minor

Undergraduate Major

- Business Administration (Communication) (BS)

Faculty

Professors of Clinical Business Communication: Jolanta Aritz, PhD; Stephen Byars, PhD; Pete Cardon, PhD*; Ellen-Linnea Dipprey, MPW*; Jerry Giaquinta, PhD, JD; Lucy Lee, PhD*; Sharoni Little, PhD*; Greg Patton, PhD*; Marion Philadelphia, EdD*; Kirk Snyder, EdD*
Associate Professors of Clinical Business Communication: Lee Cerling, PhD; Stacy Geck, MA*; Stephen J. Lind, PhD; James Owens, EdD; Naomi Warren, PhD*
Assistant Professors of Clinical Business Communication: Lindsey Bier, PhD; Yijia (Veronica) Guo, PhD; Andrew Ogilvie, PhD
Senior Lecturers: Clark C. Hansen, MA; Janna Wong-Healy, MPW
Lecturer: Maria Colman, MBA
Emeritus Professors: J. Douglas Andrews, PhD; Sandra Chrystal, PhD*; Paul Frommer, PhD; James Gosline, MPW
**Recipient of university-wide or school teaching award.*

Department of Data Sciences and Operations

The Data Sciences and Operations (DSO) department equips students with the skills to excel in today's firms operating in the age of digital products, data-driven decision making, sustainability, platforms, and supply chain ecosystems.

The department offers courses that stem from three different disciplines - information systems, operations management and statistics.

- The information systems group offers courses, many with field-based projects, that expose students to emerging technologies, digital transformation, and digital business models, highlighting new ways to transform data into value for the firm and consumer.
- Operations management coursework, including hands-on projects with industrial partners, shows students how to design businesses that are flexible enough to capitalize on data-driven insights and robust enough to survive the unexpected.
- Statistics courses teach students to transform "big data" from e-commerce and smart devices into usable insights, competitive analyses, and forecasts.

Across all courses, the emphasis is not only on rigorous core knowledge, but on developing practical, real-world skills (e.g., by learning project management, statistical software such as R, or coding languages such as Python).

Career opportunities include both traditional roles in analytics, data science, consulting, product development, and supply-chain management as well as a variety of emerging roles leveraging new technologies such as artificial intelligence (AI), machine learning (ML), blockchain, the internet of things (IoT), and new economic business models including cryptocurrency, API economy, data monetization, and mesh economic structures.

Undergraduate Minors

- Business Technology Fusion Minor
- Operations and Supply Chain Management Minor

Undergraduate Major

- Business Administration (Business Analytics) (BS)

Graduate Programs

Master of Science in Business Analytics (MSBA)

The Master of Science in Business Analytics (MS) is designed to empower managers and recent college graduates with necessary skills (computing, modeling and strategy) to leverage big data for making effective business decisions, and improving organizational performance.

Master of Science in Global Supply Chain Management (MSGSCM)

The Master of Science in Global Supply Chain Management focuses on a world-class academic foundation in Supply Chain Management with real-world applications in the form of live projects for leading companies as well as international and domestic site visits. We uniquely prepare our students for an increasingly global, complex and ever-evolving world.

- Global Supply Chain Management (OnCampus/Residential) (MS)
- Global Supply Chain Management for Executives (MS) (Online)

Graduate Certificates

- Business Analytics Graduate Certificate (GCRT-BUAN)
- Optimization and Supply Chain Management Graduate Certificate (GCRT-OSCM)

Lloyd Greif Center for Entrepreneurial Studies

The Greif Center offers a wide range of courses in entrepreneurship designed for students who want to start or own a high-growth business, join an emerging business or participate in an entrepreneurial venture in an established corporation (intrapreneurship). Students can develop an entrepreneurial mindset, learn about the entrepreneurial process and enhance their conceptual and practical skills to pursue new business opportunities. Wide exposure is given to all types of entrepreneurs and industries. The highly experiential courses span the entrepreneurial process from opportunity discovery to venture initiation, growth and exit, and are designed to teach relevant frameworks and theory as well as to develop an entrepreneurial mindset and skills through hands-on application. The Greif Center also offers co-curricular programs such as venture competitions, speaker events, and a new venture incubator, and it maintains an active alumni network.

Programs

Greif Center Undergraduate Minors:
- Entrepreneurship Minor
- Social Entrepreneurship Minor

Interdisciplinary Minors:
- Game Entrepreneurism Minor (with the School of Cinematic Arts)
- Innovation: The Digital Entrepreneur Minor (with the Viterbi School of Engineering)
- Media Economics and Entrepreneurship Minor (with the Annenberg School for Communication and Journalism)
- Performance Science Minor (with the Dornsife College of Letters, Arts and Sciences)
- Technology Commercialization Minor (with the Viterbi School of Engineering)

Undergraduate Major:
- Business Administration (Entrepreneurship and Innovation) (BS)

Master's Degrees:
- Entrepreneurship and Innovation (MS)
- Social Entrepreneurship (MS)

Dual Degree Program:
- Master of Science, Social Entrepreneurship/Master of Public Health (MS/MPH)

Graduate Certificate:
- Technology Commercialization Graduate Certificate

Department of Library and Information Science

Offered through the USC Marshall School of Business in partnership with USC Libraries, the Master of Management in Library and Information Science (MMLIS) uniquely combines strength in LIS-based course work with management, communication and business fundamentals.

Aligned with the 14 major competencies laid out by the American Library Association, the MMLIS program provides a robust leadership, management, and library and information sciences focus for students. Each course is taught through real-world, experience-based learning and teamwork, with faculty support and guidance. This approach encourages critical and creative thinking and the development of the skills necessary for high-level careers in the library and information science fields.

MMLIS program faculty include Marshall School of Business faculty, USC Libraries faculty, faculty from other USC schools, and accomplished practitioners from the field. The program is offered entirely online and can be completed in as few as 20 months.

For in-career professionals already holding a master's in library science, the Graduate Certificate in Library and Information Management online program is offered to help develop advanced leadership and management skills.

Department of Management and Organization

The department of Management and Organization (MOR) offers courses in human resources, negotiations, organizational behavior, organization theory and management strategy. The management function is concerned with setting corporate strategy to gain competitive advantage in a dynamic, global environment; designing the organization to implement the strategy; and leading organizational members to achieve strategic objectives. In carrying out their responsibilities, managers must balance the demands of the competitive environment with the resources and capabilities inside the organization. The department's classes help students learn how to be effective managers by developing skills in team building, decision-making, strategy formulation, organizational design, motivating employees and human resource development.

Department of Marketing

Marketing is the process of planning and executing the conception, pricing, promotion and distribution of ideas, goods and services to create exchanges that satisfy individual and organizational objectives. Modern marketing stresses research and analysis to understand consumer behavior and to identify customer needs, new product research and development, competitive pricing, coordinated promotional or sales programs, and efficient logistics and distribution. Students interested in careers in marketing management, logistics management, retailing or wholesaling, sales program administration, advertising or marketing research will find courses in marketing valuable.

Bachelor's Degree

Business Administration (BS)

The business administration major combines a strong grounding in business fundamentals and expertise in select functional areas with extensive exposure to the liberal arts. The curriculum is designed with significant flexibility so that students can complement their studies in business with a minor in a field outside business.

Business Core Requirements

Business Administration majors must complete the business core. The business core contains foundational courses that provide analytical skills and theoretical knowledge in math, statistics, accounting and business economics as well as communication skills pertinent to the business field; functional courses in business

disciplines such as finance, marketing, organizational behavior and operations; and integrative courses in strategy and data analysis.

- BUAD 280 Introduction to Financial Accounting Units: 3
- BUAD 281 Introduction to Managerial Accounting Units: 3
- BUAD 302 Communication Strategy in Business Units: 4
- BUAD 304 Organizational Behavior and Leadership Units: 4
- BUAD 306 Business Finance Units: 4
- BUAD 307 Marketing Fundamentals Units: 4
- BUAD 310g Applied Business Statistics Units: 4
  or
- BUAD 312g Statistics and Data Science for Business Units: 4
- BUAD 311 Operations Management Units: 4
- BUAD 425 Data Analysis for Decision Making Units: 2
- BUAD 497 Strategic Management Units: 4
- ECON 351x Microeconomics for Business Units: 4
- ECON 352x Macroeconomics for Business Units: 4
- MATH 118gx Fundamental Principles of Calculus Units: 4 *
  or
- MATH 125g Calculus I Units: 4 **

Note:

**Placement into MATH 118gx is contingent on successful completion of MATH 117g or obtaining an acceptable score on the math placement exam. The MATH 118gx requirement may be waived with an AP Calculus AB or BC score of 4 or higher or an IB math score of 5 or higher.*

***A-level mathematics examination scores of A or B may receive subject credit for MATH 125g. Eligible students should speak with their academic advisers for additional information.*

Business Electives Requirement

In addition to business core courses, students are required to gain a deeper understanding of a specific aspect of business in which they have an interest. Business administration majors must complete 12 units of upper-division elective courses (typically three 4-unit courses) offered by the Marshall School, specifically 300- or 400-level courses with a prefix ACCT, BAEP, BUCO, DSO, FBE, FIM, MKT or MOR. Students can also satisfy the business electives requirement through participation in a Marshall School sponsored international exchange program. FIM courses are open only to students in the non-degree FIM certificate program.

Electives should be selected based on a student's personal and professional goals and in consultation with an academic adviser. The Marshall School's academic departments and centers can also help students select courses that are particularly useful for careers in fields covered by the department or center. Electives are normally clustered in a particular field, but may be spread across different fields.

Non-Business Course Work

Sixty units of non-business course work are required for any of the undergraduate degrees conferred by the Marshall School of Business.

MATH 118, WRIT 150, WRIT 340, ECON 351, ECON 352 and all courses required for the major must be taken for a letter grade. ECON 351 and ECON 352 must be taken in residence at USC.

In addition to meeting university GPA requirements, a minimum overall/cumulative grade point average of 2.0 (A = 4.0) in upper-division business courses is required for graduation.

Free Electives

The business curriculum allows for 32 units of free electives. Students are strongly encouraged to pursue a minor, study a language and/or take advantage of the university's many opportunities to study abroad.

Minors

USC offers more than 150 minors, spanning a wide variety of fields. The business curriculum is designed to allow every student enough flexibility to pursue a minor outside of business, in the belief that a strong undergraduate education must be well-rounded and incorporate the liberal arts as well as business classes. Minors allow students to gain substantial expertise in a field outside of business by taking classes in another of USC's top-ranked departments and schools. Students with an officially declared minor may apply for the honor of being named a Renaissance Scholar if they meet the other program conditions.

Because some classes required for particular minors may have limited availability, students are encouraged to work closely with their academic advisers to develop plans for their minors. The Marshall Office of Undergraduate Advising can help plan for minors and provide information on the various minors offered throughout the university and how they complement different business tracks.

Business Administration (Business Analytics) (BS)

The Bachelor of Science in Business Administration with an emphasis in Business Analytics provides specialized skill sets for students who plan a career in today's business world, where analytics is at the forefront. The degree signals to potential employers that the graduate is ready to utilize the tools and techniques that aim to turn data into meaningful business insights. Students will obtain the necessary skills for defining business analytics for data-driven decision making along with the hands-on experience using analytics to solve real-world problems.

Requirements for Admission

This program is available only to current Marshall and Leventhal undergraduates who have satisfied the following three conditions: (1) have attained sophomore standing, (2) have completed at least one semester in residence at USC, and (3) have earned credit for the course BUAD 311 Operations Management. Students who wish to transfer to this program should visit the Office of Undergraduate Advising and Student Affairs in the Marshall School of Business.

Students may earn only one emphasis within the BS in Business Administration degree.

Requirements for Completion

To complete the program, students must satisfy all requirements for the Bachelor of Science degree in business administration including 12 upper division-units in the emphasis.

Business Core Requirements

Business Administration majors must complete the business core. The business core contains foundational courses that provide analytical skills and theoretical knowledge in math, statistics, accounting and business economics as well as communication skills pertinent to the business field; functional courses in business disciplines such as finance, marketing, organizational behavior and operations; and integrative courses in strategy and data analysis.

- BUAD 280 Introduction to Financial Accounting Units: 3
- BUAD 281 Introduction to Managerial Accounting Units: 3
- BUAD 302 Communication Strategy in Business Units: 4
- BUAD 304 Organizational Behavior and Leadership Units: 4
- BUAD 306 Business Finance Units: 4
- BUAD 307 Marketing Fundamentals Units: 4
- BUAD 310g Applied Business Statistics Units: 4
  or
- BUAD 312g Statistics and Data Science for Business Units: 4
- BUAD 311 Operations Management Units: 4
- BUAD 425 Data Analysis for Decision Making Units: 2
- BUAD 497 Strategic Management Units: 4
- ECON 351x Microeconomics for Business Units: 4
- ECON 352x Macroeconomics for Business Units: 4
- MATH 118gx Fundamental Principles of Calculus Units: 4 *
  or
- MATH 125g Calculus I Units: 4 **

Note:

**Placement into MATH 118gx is contingent on successful completion of MATH 117g or obtaining an acceptable score on the math placement exam. The MATH 118gx requirement may be waived with an AP Calculus AB or BC score of 4 or higher or an IB math score of 5 or higher.*

***A-level mathematics examination scores of A or B may receive*

subject credit for MATH 125g. Eligible students should speak with their academic advisers for additional information.

Emphasis Requirements

Complete 12 units of upper-division elective courses (typically three 4-unit courses) offered by the Data Sciences and Operations department in the Marshall School, specifically 300- or 400-level courses with a prefix DSO that are available for credit toward the major.

Business Administration (Cinematic Arts) (BS)

This program consists of courses offered by both the Marshall School and the School of Cinematic Arts. Students completing the program receive a Bachelor of Science in Business Administration with an emphasis in Cinematic Arts. The program is available to entering freshmen only.

Requirements for Completion

To complete the program, students must satisfy all requirements for the Bachelor of Science degree in business as well as an additional 24 units in cinematic arts, which specifically address the business side of the industry.

Business Requirements

- BUAD 280 Introduction to Financial Accounting Units: 3
- BUAD 281 Introduction to Managerial Accounting Units: 3
- BUAD 302 Communication Strategy in Business Units: 4
- BUAD 304 Organizational Behavior and Leadership Units: 4
- BUAD 306 Business Finance Units: 4
- BUAD 307 Marketing Fundamentals Units: 4
- BUAD 310g Applied Business Statistics Units: 4 or
- BUAD 312g Statistics and Data Science for Business Units: 4
- BUAD 311 Operations Management Units: 4
- BUAD 425 Data Analysis for Decision Making Units: 2
- BUAD 497 Strategic Management Units: 4
- ECON 351x Microeconomics for Business Units: 4
- ECON 352x Macroeconomics for Business Units: 4
- MATH 118gx Fundamental Principles of Calculus Units: 4 or *
- MATH 125g Calculus I Units: 4 **
- Electives-Business 300- or 400-level ACCT, BAEP, non-core BUAD, BUCO, DSO, FBE, MKT or MOR Units: 12

Total business units: 60

Note:

*Placement into MATH 118 is contingent on successful completion of MATH 117 or obtaining an acceptable score on the math placement exam or AP calculus or IB mathematics exam. The MATH 118 requirement may be waived with an AP Calculus AB or BC score of 4 or higher, or an IB math score of 5 or higher.

**A-level mathematics examination scores of A or B may receive subject credit for MATH 125. Eligible students should speak with their academic adviser for additional information.

Cinematic Arts Requirements

- CNTV 441 Business and Cinematic Arts Entertainment Practicum Units: 2
- CNTV 463 Television: Integrating Creative and Business Objectives Units: 2
- CNTV 467 The Future of Digital Media and the Entertainment Industry Units: 2
- CTCS 190g Introduction to Cinema Units: 4
- CTCS 191 Introduction to Television and Video Units: 4
- CTIN 458 Business and Management of Games Units: 2
- CTPR 385 Colloquium: Motion Picture Production Techniques Units: 4
- CTPR 410 The Movie Business: From Story Concept to Exhibition Units: 2
- CNTV 458 Producing and Marketing Feature Length Films Units: 2

Total cinematic arts units: 24

Total program units: 84

Business Administration (Communication) (BS)

The Bachelor of Science in Business Administration with an emphasis in Communication provides specialized skill sets for students that they will apply to succeed in the workplace, regardless of their chosen profession. Students will learn to apply emotionally intelligent and strategic communication, and utilize rapidly evolving communication technologies, to facilitate effective workplace processes among organizational stakeholders. The degree signals to potential employers that the graduate is ready to lead and motivate teams in-person and virtually and facilitate complex communication situations among diverse groups and individuals across cultures to support the success of the organization.

Requirements for Admission

This program is available only to current Marshall and Leventhal undergraduates who satisfy the following three conditions: (1) have attained sophomore standing, (2) have completed at least one semester in residence at USC, and (3) have earned credit for the course BUAD 302 Communication Strategy in Business. Students who wish to transfer to this program should visit the Marshall Undergraduate Advising Office.

Students may earn only one emphasis within the B.S. in Business Administration degree.

Requirements for Completion

To complete the program, students must satisfy all requirements for the Bachelor of Science degree in business administration including at least 12 upper-division units in the area of emphasis.

Business Core Requirements

Business Administration majors must complete the business core. The business core contains foundational courses that provide analytical skills and theoretical knowledge in math, statistics, accounting and business economics as well as communication skills pertinent to the business field; functional courses in business disciplines such as finance, marketing, organizational behavior and operations; and integrative courses in strategy and data analysis.

- BUAD 280 Introduction to Financial Accounting Units: 3
- BUAD 281 Introduction to Managerial Accounting Units: 3
- BUAD 302 Communication Strategy in Business Units: 4
- BUAD 304 Organizational Behavior and Leadership Units: 4
- BUAD 306 Business Finance Units: 4
- BUAD 307 Marketing Fundamentals Units: 4
- BUAD 310g Applied Business Statistics Units: 4
  or
- BUAD 312g Statistics and Data Science for Business Units: 4
- BUAD 311 Operations Management Units: 4
- BUAD 425 Data Analysis for Decision Making Units: 2
- BUAD 497 Strategic Management Units: 4
- ECON 351x Microeconomics for Business Units: 4
- ECON 352x Macroeconomics for Business Units: 4
- MATH 118gx Fundamental Principles of Calculus Units: 4 *
  or
- MATH 125g Calculus I Units: 4 **

Note:

**Placement into MATH 118gx is contingent on successful completion of MATH 117g or obtaining an acceptable score on the math placement exam. The MATH 118gx requirement may be waived with an AP Calculus AB or BC score of 4 or higher or an IB math score of 5 or higher.*

***A-level mathematics examination scores of A or B may receive subject credit for MATH 125g. Eligible students should speak with their academic advisers for additional information.*

Emphasis Requirements

Complete 12 units of upper-division elective courses (typically three 4-unit courses) offered by the Business Communication department in the Marshall School, specifically 300- or 400-level courses with a prefix BUCO that are available for credit toward the major.

Business Administration (Entrepreneurship and Innovation) (BS)

The Bachelor of Science in Business Administration with an emphasis in Entrepreneurship and Innovation provides specialized skills and tools for students wishing to found new ventures, work as a part of a founding team, work within an early stage venture, or develop the mindset for innovating within existing organizations. The degree signals to potential employers that the graduate is a capable problem-solver who understands how to build, launch, and grow new initiatives.

The degree focuses not solely on founders and founding processes, but on developing the entrepreneurial mindset more generally – on adaptable thinking as an essential organizational skill; on assessing and managing risk in dynamic, uncertain environments; and on recognizing, evaluating, and implementing new business opportunities.

Requirements for Admission

This program is available only to current Marshall and Leventhal undergraduates who satisfy the following three conditions: (1) have attained sophomore standing, (2) have completed at least one semester in residence at USC, and (3) have earned credit for one of the following courses: BAEP 423, BAEP 450, or BAEP 451. Students who wish to transfer to this program should visit the Office of Undergraduate Advising and Student Affairs in the Marshall School of Business.

Students may earn only one emphasis within the BS in Business Administration degree.

Requirements for Completion

To complete the program, students must satisfy all requirements for the Bachelor of Science degree in business administration including at least 12 upper-division units in the area of emphasis.

Business Core Requirements

- BUAD 280 Introduction to Financial Accounting Units: 3
- BUAD 281 Introduction to Managerial Accounting Units: 3
- BUAD 302 Communication Strategy in Business Units: 4
- BUAD 304 Organizational Behavior and Leadership Units: 4
- BUAD 306 Business Finance Units: 4
- BUAD 307 Marketing Fundamentals Units: 4
- BUAD 310g Applied Business Statistics Units: 4
  or
- BUAD 312g Statistics and Data Science for Business Units: 4
- BUAD 311 Operations Management Units: 4
- BUAD 425 Data Analysis for Decision Making Units: 2
- BUAD 497 Strategic Management Units: 4
- ECON 351x Microeconomics for Business Units: 4
- ECON 352x Macroeconomics for Business Units: 4
- MATH 118gx Fundamental Principles of Calculus Units: 4 *
  or
- MATH 125g Calculus I Units: 4 **

Note:

**Placement into MATH 118gx is contingent on successful completion of MATH 117g or obtaining an acceptable score on the math placement exam. The MATH 118gx requirement may be waived with an AP Calculus AB or BC score of 4 or higher or an IB math score of 5 or higher.*

***A-level mathematics examination scores of A or B may receive subject credit for MATH 125g. Eligible students should speak with their academic advisers for additional information.*

Emphasis Requirements

Required Course

Complete one of the following courses:

- BAEP 423 Management of Small Businesses Units: 4
- BAEP 450 Fundamentals of Entrepreneurship Units: 4
- BAEP 451 The Management of New Enterprises Units: 4

Electives

Complete 8 units of upper-division elective courses (typically two 4-unit courses) offered by the Lloyd Greif Center for Entrepreneurial Studies in the Marshall School, specifically 300- or 400-level courses with a prefix BAEP that are available for credit toward the major.

Please note that the required courses listed above (BAEP 423, BAEP 450 and BAEP 451) duplicate credit and cannot be used to satisfy the elective requirement of this emphasis.

Business Administration (Finance) (BS)

The Bachelor of Science in Business Administration with an emphasis in Finance provides specialized skill sets for students wishing to work in finance industry. The degree signals to potential employers that the graduate is ready to perform complex tasks involving finance, economics and state-of-the-art computer modelling.

Requirements for Admission

This program is available only to current Marshall and Leventhal undergraduates who satisfy the following three conditions: (1) have attained sophomore standing, (2) have completed at least one semester in residence at USC, and (3) have earned credit for the course BUAD 306 Business Finance. Students who wish to transfer to this program should visit the Office of Undergraduate Advising and Student Affairs in the Marshall School of Business.

Students may earn only one emphasis within the BS in Business Administration degree.

Requirements for Completion

To complete the program, students must satisfy all requirements for the Bachelor of Science degree in business administration including at least 12 upper-division units in the area of emphasis.

Business Core Courses

- BUAD 280 Introduction to Financial Accounting Units: 3
- BUAD 281 Introduction to Managerial Accounting Units: 3
- BUAD 302 Communication Strategy in Business Units: 4
- BUAD 304 Organizational Behavior and Leadership Units: 4
- BUAD 306 Business Finance Units: 4
- BUAD 307 Marketing Fundamentals Units: 4
- BUAD 310g Applied Business Statistics Units: 4
  or
- BUAD 312g Statistics and Data Science for Business Units: 4
- BUAD 311 Operations Management Units: 4
- BUAD 425 Data Analysis for Decision Making Units: 2
- BUAD 497 Strategic Management Units: 4
- ECON 351x Microeconomics for Business Units: 4
- ECON 352x Macroeconomics for Business Units: 4
- MATH 118gx Fundamental Principles of Calculus Units: 4 *
  or
- MATH 125g Calculus I Units: 4 **

Note:

**Placement into MATH 118 gx is contingent on successful completion of MATH 117g or obtaining an acceptable score on the math placement exam. The MATH 118gx requirement may be waived with an AP Calculus AB or BC score of 4 or higher or an IB math score of 5 or higher.*

***A-level mathematics examination scores of A or B may receive subject credit for MATH 125g. Eligible students should speak with their academic advisers for additional information.*

Emphasis Requirements

Complete 12 units of upper-division elective courses (typically three 4-unit courses) offered by the Finance and Business Economics department in the Marshall School, specifically 300- or 400-level courses with a prefix FBE that are available for credit toward the major.

Business Administration (International Relations) (BS)

This program consists of courses offered by both the Marshall School of Business and the School of International Relations. Students completing the program receive a Bachelor of Science in Business Administration with an emphasis in International Relations.

Requirements for Completion

To complete the program, students must satisfy all requirements for the Bachelor of Science degree in business as well as an additional 24 units in international relations from the courses listed below.

Business Requirements

- BUAD 280 Introduction to Financial Accounting Units: 3
- BUAD 281 Introduction to Managerial Accounting Units: 3
- BUAD 302 Communication Strategy in Business Units: 4
- BUAD 304 Organizational Behavior and Leadership Units: 4
- BUAD 306 Business Finance Units: 4
- BUAD 307 Marketing Fundamentals Units: 4
- BUAD 310g Applied Business Statistics Units: 4 or
- BUAD 312g Statistics and Data Science for Business Units: 4
- BUAD 311 Operations Management Units: 4
- BUAD 425 Data Analysis for Decision Making Units: 2
- BUAD 497 Strategic Management Units: 4
- ECON 351x Microeconomics for Business Units: 4
- ECON 352x Macroeconomics for Business Units: 4
- MATH 118gx Fundamental Principles of Calculus Units: 4 * or
- MATH 125g Calculus I Units: 4 **
- Electives: 300- or 400-level ACCT, BAEP, non-core BUAD, BUCO, FBE, DSO, MKT or MOR Units: 12

Total business units: 60

Note:

**Placement into MATH 118 is contingent on successful completion of MATH 117 or obtaining an acceptable score on the math placement exam. The MATH 118 requirement may be waived with an AP Calculus AB or BC score of 4 or higher, or an IB math score of 5 or higher.*

***A-level mathematics examination scores of A or B may receive subject credit for MATH 125. Eligible students should speak with their academic adviser for additional information.*

International Relations Requirements

- IR 210gw International Relations: Introductory Analysis Units: 4

International Political Economy Courses (4 units)

- IR 324 Multinational Enterprises and World Politics Units: 4
- IR 325 North-South Relations in the Global Economy Units: 4
- IR 326 U.S. Foreign Economic Policy Units: 4

Total international relations units: 24

Total program units: 84

Business Administration (Leadership and Innovation) (BS)

The Bachelor of Science in Business Administration with an emphasis in Leadership and Innovation prepares students for leadership roles in a variety of organizations in a world of increasing global, technological and regulatory change. The program aims to train inspirational leaders who bring together diverse groups to achieve transformational innovation for sustained competitive advantage.

With this degree, students will learn how to create an inspiring vision and strategy for innovation in their organization, effectively lead high performing innovation teams, create a culture of agility and innovation, and effectively identify and solve critical problems in order to build sustainable competitive advantage and satisfy a diverse set of stakeholders.

Requirements for Admission

This program is available only to current Marshall and Leventhal undergraduates who satisfy the following three conditions: (1) have attained sophomore standing, (2) have completed at least one semester in residence at USC, and (3) have earned credit for the course BUAD 304 Organizational Behavior and Leadership. Students who wish to transfer to this program should visit the Office of Undergraduate Advising and Student Affairs in the Marshall School of Business.

Students may earn only one emphasis within the BS in Business Administration degree.

Requirements for Completion

To complete the program, students must satisfy all requirements for the Bachelor of Science degree in business administration including at least 12 upper-division units in the area of emphasis.

Business Core Courses

Business Administration majors must complete the business core. The business core contains foundational courses that provide analytical skills and theoretical knowledge in math, statistics, accounting and business economics as well as communication skills pertinent to the business field; functional courses in business disciplines such as finance, marketing, organizational behavior and operations; and integrative courses in strategy and data analysis.

- BUAD 280 Introduction to Financial Accounting Units: 3
- BUAD 281 Introduction to Managerial Accounting Units: 3
- BUAD 302 Communication Strategy in Business Units: 4

- ECON 351x Microeconomics for Business Units: 4
- ECON 352x Macroeconomics for Business Units: 4
- MATH 118gx Fundamental Principles of Calculus Units: 4 *
  or
- MATH 125g Calculus I Units: 4 **

Note:

**Placement into MATH 118gx is contingent on successful completion of MATH 117g or obtaining an acceptable score on the math placement exam. The MATH 118gx requirement may be waived with an AP Calculus AB or BC score of 4 or higher or an IB math score of 5 or higher.*
***A-level mathematics examination scores of A or B may receive subject credit for MATH 125g. Eligible students should speak with their academic advisers for additional information.*

Emphasis Requirements

Complete 12 units of upper-division elective courses (typically three 4-unit courses) offered by the Management and Organization department in the Marshall School, specifically 300- or 400-level courses with a prefix MOR that are available for credit toward the major.

Business Administration (Marketing) (BS)

The Bachelor of Science in Business Administration with an emphasis in Marketing provides students with specialized training in marketing strategy, execution, and evaluation. With this degree, students will deepen their understanding of various aspects of marketing such as product development, communication and promotion, consumer insights, ethics and regulation, customer analytics, and data-driven marketing.

Requirements for Admission

This program is available only to current Marshall and Leventhal undergraduates who satisfy the following three conditions: (1) have attained sophomore standing, (2) have completed at least one semester in residence at USC, and (3) have earned credit for the course BUAD 307 Marketing Fundamentals. Students who wish to transfer to this program should visit the Office of Undergraduate Advising and Student Affairs in the Marshall School of Business.

Students may earn only one emphasis within the BS in Business Administration degree.

Requirements for Completion

To complete the program, students must satisfy all requirements for the Bachelor of Science degree in business administration including at least 12 upper-division units in the area of emphasis.

Business Core Courses

- BUAD 280 Introduction to Financial Accounting Units: 3
- BUAD 281 Introduction to Managerial Accounting Units: 3
- BUAD 302 Communication Strategy in Business Units: 4
- BUAD 304 Organizational Behavior and Leadership Units: 4
- BUAD 306 Business Finance Units: 4
- BUAD 307 Marketing Fundamentals Units: 4
- BUAD 310g Applied Business Statistics Units: 4
  or
- BUAD 312g Statistics and Data Science for Business Units: 4
- BUAD 311 Operations Management Units: 4
- BUAD 425 Data Analysis for Decision Making Units: 2
- BUAD 497 Strategic Management Units: 4
- ECON 351x Microeconomics for Business Units: 4
- ECON 352x Macroeconomics for Business Units: 4
- MATH 118gx Fundamental Principles of Calculus Units: 4 *
  or
- MATH 125g Calculus I Units: 4 **

Note:

**Placement into MATH 118gx is contingent on successful completion of MATH 117g or obtaining an acceptable score on the math placement exam. The MATH 118gx requirement may be waived with an AP Calculus AB or BC score of 4 or higher or an IB math score of 5 or higher.*
***A-level mathematics examination scores of A or B may receive subject credit for MATH 125g. Eligible students should speak with their academic advisers for additional information.*

Emphasis Requirements

Complete 12 units of upper-division elective courses (typically three 4-unit courses) offered by the Marketing department in the Marshall School, specifically 300- or 400-level courses with a prefix MKT that are available for credit toward the major.

Business Administration (Real Estate Finance) (BS)

The Bachelor of Science in Business Administration with an emphasis in Real Estate Finance provides specialized skill sets for students wishing to work in real estate finance and development. The degree signals to potential employers that the graduate is ready to perform complex tasks involving real estate finance, economics and state-of-the-art computer modelling.

Requirements for Admission

This program is available only to current Marshall and Leventhal undergraduates who have attained sophomore standing and have completed at least one semester in residence at USC. Students who wish to transfer to this program should visit the Marshall Undergraduate Advising office (see marshall.usc.edu/current-students/academic-advising).

Students who wish to pursue the Bachelor of Science in Business Administration (Real Estate Finance) as a second bachelor's degree must satisfy all university requirements for a second bachelor's and complete 32 units unique to the Business Administration (Real Estate Finance) major.

Requirements for Completion

To complete the program, students must satisfy all requirements for the Bachelor of Science degree in business administration and 16 upper division units in the emphasis.

Business Core Courses

- BUAD 280 Introduction to Financial Accounting Units: 3
- BUAD 281 Introduction to Managerial Accounting Units: 3
- BUAD 302 Communication Strategy in Business Units: 4
- BUAD 304 Organizational Behavior and Leadership Units: 4
- BUAD 306 Business Finance Units: 4
- BUAD 307 Marketing Fundamentals Units: 4
- BUAD 310g Applied Business Statistics Units: 4
  or
- BUAD 312g Statistics and Data Science for Business Units: 4
- BUAD 311 Operations Management Units: 4
- BUAD 425 Data Analysis for Decision Making Units: 2
- BUAD 497 Strategic Management Units: 4
- ECON 351x Microeconomics for Business Units: 4
- ECON 352x Macroeconomics for Business Units: 4
- MATH 118gx Fundamental Principles of Calculus Units: 4 *
  or
- MATH 125g Calculus I Units: 4 **

Note:

**Placement into MATH 118 is contingent on successful completion of MATH 117 or obtaining an acceptable score on the math placement exam. The MATH 118 requirement may be waived with an AP Calculus AB or BC score of 4 or higher or an IB math score of 5 or higher.*
***A-level mathematics examination scores of A or B may receive subject credit for MATH 125. Eligible students should speak with their academic advisers for additional information.*

Real Estate Finance Emphasis Requirements

Required Course (4 units)

- FBE 391 Real Estate Finance and Investment Units: 4

Electives (12 units)

A minimum of 8 units must come from the Real Estate Finance Electives list. The sum of units from Real Estate Finance Electives and Non-Real Estate Electives must total at least 12.)

Real Estate Finance Electives: 8-12 units

- FBE 427 Real Estate Law Units: 4 ***
- FBE 465 Real Estate Analysis and Computer Modeling Units: 2 ***
- FBE 466 Management of Real Estate Development: Feasibility Studies Units: 4 ***

- FBE 470 Advanced Real Estate Analysis Units: 4 ***
- FBE 489 Real Estate Capital Markets Units: 4 ***
- FBE 491 Real Estate Finance Colloquium Units: 2 ***

Non-Real Estate Electives: 0-4 units

- BAEP 423 Management of Small Businesses Units: 4
- DSO 455 Project Management Units: 4
- FBE 421 Financial Analysis and Valuation Units: 4 ***
- FBE 423 Introduction to Venture Capital and Private Equity Units: 4 ***
- FBE 435 Applied Finance in Fixed Income Securities Units: 4 ***
- FBE 437 Entrepreneurial Finance: Financial Management for Developing Firms Units: 4 ***
- FBE 441 Investments Units: 4 ***
- FBE 459 Financial Derivatives Units: 4 ***
- MOR 469 Negotiation and Persuasion Units: 4

****Prerequisites required. Plan carefully.*

Business Administration (Risk Management) (BS)

The Bachelor of Science in Business Administration with an emphasis in Risk Management provides students with an understanding of the processes and tools necessary for effective risk management across a variety of industries, including financial services, technology, real estate, healthcare, pharmaceuticals, entertainment, sports, and insurance, to name a few. The degree signals to potential employers that the graduate has acquired skills that are useful in facing the challenges of an increasingly complex and interconnected business environment.

Requirements for Admission

This program is available only to current Marshall and Leventhal undergraduates who satisfy the following three conditions: (1) have attained sophomore standing, (2) have completed at least one semester in residence at USC, and (3) have earned credit for the course ACCT 380x Introduction to Enterprise Risk Management. Students who wish to transfer to this program should visit the Office of Undergraduate Advising and Student Affairs in the Marshall School of Business.

Students may earn only one emphasis within the BS in Business Administration degree. Students pursuing this emphasis are not eligible to earn the Risk Management Minor.

Requirements for Completion

To complete the program, students must satisfy all requirements for the Bachelor of Science degree in business administration including at least 16 upper-division units in the area of emphasis.

Business Core Requirements

Business Administration majors must complete the business core. The business core contains foundational courses that provide analytical skills and theoretical knowledge in math, statistics, accounting and business economics as well as communication skills pertinent to the business field; functional courses in business disciplines such as finance, marketing, organizational behavior and operations; and integrative courses in strategy and data analysis.

**Placement into MATH 118gx is contingent on successful completion of MATH 117g or obtaining an acceptable score on the math placement exam. The MATH 118gx requirement may be waived with an AP Calculus AB or BC score of 4 or higher or an IB math score of 5 or higher.*

***A-level mathematics examination scores of A or B may receive subject credit for MATH 125g. Eligible students should speak with their academic advisers for additional information.*

Emphasis Requirements

Required Course

- ACCT 380x Introduction to Enterprise Risk Management Units: 4

Electives

Complete at least 12 units of electives.

Complete 4-8 units from the following courses:

- ACCT 385x Introduction to Risk Management and Insurance Units: 4
- ACCT 387 Risk Management in Entertainment, Sports and the Arts Units: 4

Complete additional units from the following courses:

- ACCT 463 Internal Audit Units: 2 *
- DSO 427 Designing Spreadsheet-Based Business Models Units: 4
- DSO 455 Project Management Units: 4
- FBE 437 Entrepreneurial Finance: Financial Management for Developing Firms Units: 4
- FBE 443 Introduction to Forecasting and Risk Analysis Units: 4
- FBE 458 Law of Forming, Financing and Managing Businesses Units: 4
- FBE 459 Financial Derivatives Units: 4

** Prerequisite required that is not part of this major.*

Business Administration (World Program) (BS)

The World Bachelor in Business (WBB) Program offers students the opportunity for immersive study at three highly regarded business schools, one in each of the major economic/cultural zones of the world: the Americas, Asia and Europe. The program is designed and offered in cooperation with the Hong Kong University of Science and Technology (HKUST) and Bocconi University. Students spend at least one year at each campus and receive a degree from each university. The program is available to entering freshmen only. Prospective students should consult with the USC Marshall Undergraduate Admissions office for program and admissions information.

Requirements for Completion

To complete the program and receive a degree from each university, students must satisfy the degree requirements of each institution, which include language requirements. The USC degree requirements are those of the USC Marshall Bachelor of Science in Business Administration program, with the exception that WBB students do not need to complete 60 units of non-business course work. Students should consult with the WBB program academic adviser at each university. Specific courses completed at each university are used to fulfill specific requirements at the other universities.

Students should note the following USC degree requirements for the WBB program:

- A minimum of 32 units must be taken in residence at USC. The units applied toward this requirement must be taken for a letter grade and cannot be taken on a P/NP or CR/NC basis.
- In addition to meeting university GPA requirements, a minimum grade of C- must be earned on all upper-division course work taken at USC and required for the major.
- A minimum grade of C- for course work completed at HKUST and Bocconi University must be earned for the course credits to transfer to USC.

- USC GPA calculations will be based on course work completed at USC.

Sample Program

WBB students spend the first year taking classes in Los Angeles at USC, the second year taking classes in Hong Kong at HKUST and the third year taking classes in Milan at Bocconi University. In the final year, students choose their location of study in consultation with the program directors. Each year includes at least one cohort class designed specifically for the WBB program.

The following sample program is typical for most WBB students. It is not the only possible program of study, but it does serve as a representative guideline. Students will meet with a WBB program academic adviser at each location to ensure that each student's program of study will fulfill WBB program requirements.

Year One - USC

- BUAD 111 World Bachelor in Business Program Freshman Academy Units: 2
- BUAD 114 Global Social Impact Units: 2
- BUAD 307 Marketing Fundamentals Units: 4
- ECON 351x Microeconomics for Business Units: 4
- GE-D Life Sciences Units: 4
- GE-E Physical Sciences Units: 4

- GESM 120g Seminar in Humanistic Inquiry Units: 4 * or
- GESM 121g Seminar in Humanistic Inquiry Units: 4 *

- MATH 118gx Fundamental Principles of Calculus Units: 4 **
- WRIT 150 Writing and Critical Reasoning–Thematic Approaches Units: 4
- WRIT 340 Advanced Writing Units: 3, 4

Total units: 36

** Satisfies GE-B requirement.*
*** Satisfies GE-F requirement.*

Year Two - HKUST

- ACCT 2010-Principles of Accounting I Units: 3
- C-Comm Chinese Communications Units: 3
- Common Core Arts (select courses) Units: 3*
- Common Core Humanities (select courses) Units: 3**
- ECON 2123 Macroeconomics Units: 3
- ISOM 2010 Intro to Information Systems Units: 3
- ISOM 2500 Business Statistics Units: 3
- ISOM 2700 Operations Management Units: 3
- MGMT 2110 Organizational Behavior Units: 3
- WBBA 2010 Understanding Business in Asia Units: 2
- WBBA 2020 Seminars in Asia's Business Units: 1

Total units: 30

**Satisfies USC GE-A The Arts requirement.*
***Satisfies USC GE-B Humanistic Inquiry requirement.*

Year Three - Bocconi

- 30056 European Economic Policy Units: 3*
- 30361 Doing Business in Europe Units: 1
- 30364 Accounting Module II (Managerial Accounting) Units: 3
- 30367 Finance Module I (Financial Markets and Institutions) Units: 3
- 30366 Finance Module II (Corporate Finance) Units: 3
- 30372 Global History Units: 3**
- 30375 Mathematics — Module II (Applied) Units: 3
- 30430 Law Module I (Public Law) Units: 3
- 30431 Law Module II (Private Law) Units: 3
- 30444 Public Management (Business Government Relations) Units: 3
- 303xx Second Language Units: 3

Total units: 31

** Satisfies USC GE-C Social Analysis and GE-G Citizenship in a Diverse World requirements.*
*** Satisfies USC GE-C Social Analysis and GE-H Traditions and Historical Foundations requirements.*

Year Four, Option One - USC

- BUAD 302 Communication Strategy in Business Units: 4
- BUAD 425 Data Analysis for Decision Making Units: 2
- BUAD 490x Directed Research Units: 1, 2, 3, 4, 5, 6, 7, 8
- BUAD 497 Strategic Management Units: 4

- FBE 403 Introduction to the Legal Environment of Business Units: 4 or
- FBE 429 International Business Law Units: 4

- MOR 421 Social and Ethical Issues in Business Units: 4 or
- BUCO 425 Ethics and Professional Communication Units: 4
  Free electives Units: 8-12

Total units: 32-36

Year Four, Option Two - HKUST

- ACCT 3610 Function of Law in Society and Business Units: 3
- LABU 2060 Effective Communication in Business Units: 3
- MGMT 2130 Business Ethics and Social Responsibility Units: 2
- MGMT 4210 Corporate Strategy Units: 3
- WBBA 4010 Capstone Project Units: 4
- Electives Units: 15-18

Total units: 30-33

Year Four, Option Three - Bocconi

- 30012 Business Strategy Units: 4
- 30058 Comparative Business and European Law Units: 3
- 30223 Marketing Communication Units: 3
- 30296 Global Sustainability Strategy Units: 3
- Final Paper Units: 2
- Electives Units: 15-18

Total units: 30-33

Undergraduate Certificate

Food Industry Management Program

Certificate Program

The Food Industry Management Program offers courses emphasizing leadership and management aspects of the food industry. Completion of the program is acknowledged by a Food Industry Management Certificate awarded by the University.

To qualify for admission and a scholarship grant for the food industry management program, students must be currently employed in a management position in the food retailing, wholesaling or manufacturing industry and recommended by their employer. Also, they must have completed at least 64 undergraduate units (or have completed a bachelor's degree) with an academic standing adequate for admission to USC.

To earn a certificate students must complete 18 required units during this one-semester program.

Spring Semester

- FIM 410 Leadership in the Food Industry Units: 2
- FIM 481 Marketing Management in the Food Industry Units: 4
- FIM 482 Communication Management in the Food Industry Units: 4
- FIM 485 Financial Analysis and Valuation in the Food Industry Units: 4
- FIM 497 Strategic Management in the Food Industry Units: 4

Total units: 18

Minor

Business Economics Minor

This minor is available to students of all majors except business, accounting and economics. This minor teaches students to think strategically about business. It integrates economic ideas with practical applications in the real world. Students who minor in business economics learn to think like leaders in business firms. This minor approaches problems conceptually, proceeding from

the general economic theories to specific real world applications. This gives students a higher level of understanding of business opportunities and problems.

Many students in disciplines other than business need economic skills that focus on business. This minor teaches a combination of the ideas, skill sets and methodological approaches used in business economics. Students develop economic reasoning skills related to real-world problems and opportunities.

To enroll, students must have completed a minimum of 32 units of college-level course work and have a minimum overall GPA of at least 2.75. Completion of this minor requires a minimum GPA of 2.0 for the 20 units applied to the minor.

Required Courses (12 Units)

- MATH 118gx Fundamental Principles of Calculus Units: 4
- BUAD 351 Economic Analysis for Business Decisions Units: 4
  or
- ECON 351x Microeconomics for Business Units: 4
- BUAD 352 Macroeconomic Analysis for Business Decisions Units: 4
  or
- ECON 352x Macroeconomics for Business Units: 4

Electives (8 units)

Choose two from the list below:

- FBE 402 Government and Business Units: 4
- FBE 416 Managerial Economics Units: 4 *
- FBE 424 Financial Institutions and Capital Markets Units: 4 *
- FBE 443 Introduction to Forecasting and Risk Analysis Units: 4 *
- FBE 462 International Trade, Finance and Commercial Policy Units: 4 *

Note:

**Prerequisite required*

Business Finance Minor

The minor in business finance offers non-business/non-accounting majors an opportunity to expand their career opportunities by gaining a background in financial concepts, valuation and financial strategy. It provides students with the necessary tools to measure benefits and related costs that will enable them to make better business decisions. Problem-solving and quantitative skills that are widely used in business will enable students to work on special projects or management teams — opportunities that might not have been available had it not been for this minor. Eighteen units are required.

To enroll students must have completed a minimum of 32 units of college-level course work and have a minimum overall GPA of at least 2.75. Completion of this minor requires a minimum of 18 units.

Required Courses

Economics *

Choose one of the following five options (units 2-8):

- BUAD 200x Economic Foundations for Business Units: 2
  or
- BUAD 201x Introduction to Business for Non-Majors Units: 4
  or

- BUAD 351 Economic Analysis for Business Decisions Units: 4 ** or
- ECON 351x Microeconomics for Business Units: 4 **
  and
- BUAD 352 Macroeconomic Analysis for Business Decisions Units: 4 ** or
- ECON 352x Macroeconomics for Business Units: 4 **
  or

- ECON 203g Principles of Microeconomics Units: 4 and
- ECON 205g Principles of Macroeconomics Units: 4
  or

- ECON 303 Intermediate Microeconomic Theory Units: 4 **
  and
- ECON 305 Intermediate Macroeconomic Theory Units: 4 **

Accounting

- ACCT 410x Foundations of Accounting Units: 4 **

Finance

- BUAD 215x Foundations of Business Finance Units: 4 **

Electives **

Choose two from the list below:

- FBE 421 Financial Analysis and Valuation Units: 4
- FBE 423 Introduction to Venture Capital and Private Equity Units: 4
- FBE 431 Financial Policies and Corporate Governance Units: 4
- FBE 432 Corporate Financial Strategy Units: 4
- FBE 433 Corporate Governance and CEO Pay Units: 4
- FBE 435 Applied Finance in Fixed Income Securities Units: 4
- FBE 436 Financial Management of Multinational Corporations Units: 4
- FBE 437 Entrepreneurial Finance: Financial Management for Developing Firms Units: 4
- FBE 440 Trading and Exchanges Units: 4
- FBE 441 Investments Units: 4
- FBE 458 Law of Forming, Financing and Managing Businesses Units: 4
- FBE 459 Financial Derivatives Units: 4
- FBE 460 Mergers, Acquisitions and Restructuring Units: 4
- FBE 462 International Trade, Finance and Commercial Policy Units: 4 **

Notes:

**Students who have earned scores of 4 or 5 on both the AP Microeconomics and the AP Macroeconomics exams will be waived out of the first (Economics) requirement (BUAD 200, BUAD 201, 351/352 or ECON).*

***Prerequisite or corequisite required*

Business Law Minor

A minor in business law is available to students in all schools and departments except business majors.

The minor in business law will provide students with practical legal knowledge of substantive business law topics and current legal issues. The minor provides skill sets to identify and manage issues encountered within personal and business contexts including litigation, contract law, employment and human resources, real and personal property law. This minor exposes students to such topics as: commercial transactions, constitutional law, Internet and online commerce; intellectual property and entertainment law; bankruptcy and securities law; law of business and non-profit organizations; and international law.

It also prepares students for career opportunities in management, technology and politics. The minor is an excellent preparation for further legal education.

To enroll, students must have completed a minimum of 32 units of college-level course work and have a minimum overall GPA of at least 2.75.

A minimum of 16 units is required to complete the minor.

Required Courses

- FBE 403 Introduction to the Legal Environment of Business Units: 4
- FBE 458 Law of Forming, Financing and Managing Businesses Units: 4

Electives

Choose two of the following:

- FBE 427 Real Estate Law Units: 4
- FBE 428 Introduction to Employment Law Units: 4
- FBE 429 International Business Law Units: 4
- LAW 350 Law and Entrepreneurship Units: 4

Business Minor

The minor in business is available to students in all schools and departments except the Marshall School of Business and the Leventhal School of Accounting. The minor provides the opportunity for students to gain understanding of key concepts and tools of business.

To enroll in the business minor, students must have completed a minimum of 32 units of college-level courses and attained a minimum overall GPA of 2.75.

Successful completion of the business minor requires a minimum cumulative GPA of 2.0 in the courses applied to the minor.

Minor Course Requirements

Choose one of the following five options: (units 2-8)

- BUAD 200x Economic Foundations for Business Units: 2 *
  or
- BUAD 201x Introduction to Business for Non-Majors Units: 4
  or

- BUAD 351 Economic Analysis for Business Decisions Units: 4 or
- ECON 351x Microeconomics for Business Units: 4
  and
- BUAD 352 Macroeconomic Analysis for Business Decisions Units: 4 or
- ECON 352x Macroeconomics for Business Units: 4
  or

- ECON 203g Principles of Microeconomics Units: 4 and
- ECON 205g Principles of Macroeconomics Units: 4
  or

- ECON 303 Intermediate Microeconomic Theory Units: 4 and
- ECON 305 Intermediate Macroeconomic Theory Units: 4

Additional Required Course Work:

- ACCT 410x Foundations of Accounting Units: 4 or
- BUAD 280 Introduction to Financial Accounting Units: 3 or
- BUAD 305 Abridged Core Concepts of Accounting Information Units: 4

- BUAD 215x Foundations of Business Finance Units: 4 ** or
- BUAD 306 Business Finance Units: 4

- BUAD 302 Communication Strategy in Business Units: 4

- BUAD 304 Organizational Behavior and Leadership Units: 4

- BUAD 307 Marketing Fundamentals Units: 4 or
- MKT 385x Marketing of Creative Disruption and Innovation Units: 4

- BUAD 315x Basics of Project and Operations Management for Non-Majors Units: 2 or
- BUAD 311 Operations Management Units: 4

Notes:

**Students who have earned scores of 4 or 5 on both the AP Microeconomics and the AP Macroeconomics exams will be waived out of the first requirement (BUAD 200, BUAD 201, 351/352 or ECON).*

***ACCT 410 or BUAD 280 or BUAD 285a or BUAD 305 must be taken before BUAD 215.*

Business Technology Fusion Minor

The minor in business technology fusion is available to students in all schools and departments except business majors. This minor requires 20 units to complete. To enroll, students must have completed a minimum of 32 units of college-level course work and have a minimum overall GPA of at least 2.75.

Course Requirements

- DSO 431 Digital Innovation as Competitive Advantage Units: 4
- DSO 433 Designing Digital Processes and User Experiences Units: 4
- DSO 435 Enterprise Data Architecture Units: 4

Electives

Choose from the following to achieve a total of at least 8 units:

- DSO 401 Business Information Systems – Spreadsheet Applications Units: 2
- DSO 402 Business Information Systems – Database Applications Units: 2
- DSO 443 Current Trends in Digital Business Models Units: 4
- DSO 455 Project Management Units: 4
- DSO 462 Managing a Small Business on the Internet Units: 2

Consumer Behavior Minor

Consumer behavior studies inform decision makers in the business, government and non-profit sectors on how consumer decisions, preferences, activities and other behaviors are influenced by factors such as culture, subculture, demographics, sensation, thinking, conscious and unconscious information processing, knowledge organization, beliefs, interpersonal communication, learning from experience and values. This is an interdisciplinary field, drawing on such disciplines as marketing, psychology, sociology, anthropology, economics, linguistics, ethnic studies, gender studies, geography, history, cognitive science and communications to understand the experiences of contemporary consumers across the world.

To enroll in this minor, students must have completed a minimum of 32 units of college-level courses and have a minimum overall GPA of 2.75.

This minor requires 18-20 units.

Required Courses

- MKT 450 Consumer Behavior and Marketing Units: 4
- PSYC 100Lg Introduction to Psychology Units: 4

Electives

Complete at least 10 units consisting of at least three courses from the list below subject to the following constraints:

- A minimum of 18 units (including MKT 450 and PSYC 100Lg) must be unique to the minor (i.e., not be countable toward requirements for the major). This does not include any prerequisites for courses listed.
- At least 16 units of all courses taken for the minor are not offered by the student's major department. For Business Administration and Accounting majors, courses with prefixes of BUAD, DSO and MKT are considered to be offered by the student's major department.
- No more than two of the courses chosen from the list below may be offered by the same department.
- At least one of the courses chosen below has a prefix other than COMM, MKT and BUAD.
- *Courses taken at institutions other than USC (i.e., International Exchange programs and transfer credits) cannot substitute for any of the minor requirements.*

American Studies

- AMST 274gmw Exploring Ethnicity through Film Units: 4
- AMST 380 American Popular Culture Units: 4

Anthropology

- ANTH 355 Urban Anthropology Units: 4 **
- ANTH 370 Sex, Love, and Marriage: An Introduction to Kinship Units: 4
- ANTH 375 Anthropology for Consulting and Design Units: 4
- ANTH 445 African American Anthropology Units: 4

- SOCI 210g Science, Technology, and Social Conflict Units: 4
- SOCI 242g Sociology, Demography and Health Units: 4 *
- SOCI 305m Sociology of Childhood Units: 4 **

Notes:
** Prerequisites required*
*** Courses not offered regularly*
(Prerequisites will not be waived for upper-division courses; students must complete the prerequisite courses needed in addition to the courses for this minor.)

Total requirements: at least five courses: 18-20 units

Customer Analytics Minor

At the heart of most modern organizations, such as Google, Amazon, Netflix and Facebook, lies a strong Customer Analytics function. Customer Analytics uses vast amounts of data to generate insights that help firms and policy makers to make data driven decisions about customers. Insights into customer behavior, attitudes, demographics and pyschographics can prove to be a sustainable advantage for firms.

This minor draws on empirical methods and applications from fields such as marketing, economics, entrepreneurship, information sciences, international relations, political sciences and sociology to better understand its multidimensional prime constituent - the customer.

This minor is available to students in all schools and departments outside of the Marshall School of Business and Leventhal School of Accounting. To enroll in this minor, students must have completed a minimum of 32 units of college-level courses and have a minimum overall GPA of 2.75.

This minor requires 20 units.

Required Courses
- BUAD 307 Marketing Fundamentals Units: 4
- MKT 402 Introduction to Marketing Analytics Units: 4

Electives
Complete at least 12 units from the lists below subject to the following constraints:
- A minimum of 16 units (including BUAD 307 and MKT 402) must be unique to the minor (i.e., cannot be countable toward requirements for the student's major).
- At least 16 units of all courses taken for the minor are not offered by the student's major department.
- A minimum of 4 units must be taken from each of the two groups listed below.

Marketing Applications and Consumer Decision Making
Complete at least 4 units from the following group:
- BAEP 450 Fundamentals of Entrepreneurship Units: 4 or
- BAEP 451 The Management of New Enterprises Units: 4
- DSO 431 Digital Innovation as Competitive Advantage Units: 4
- ECON 203g Principles of Microeconomics Units: 4 or
- ECON 351x Microeconomics for Business Units: 4
- MKT 405 Advertising and Promotion Management Units: 4 *
- MKT 425 Marketing in a Digital World Units: 4 *
- MKT 440 Marketing Analysis and Strategy Units: 4 *
- MKT 445 New Product Development and Branding Units: 4 *
- MKT 450 Consumer Behavior and Marketing Units: 4
- MKT 465 Global Marketing Management Units: 4

** Prerequisite required.*

Research Techniques
Complete at least 4 units from the following group:
- BUAD 310g Applied Business Statistics Units: 4 or
- BUAD 312g Statistics and Data Science for Business Units: 4 or
- PSYC 274Lg Statistics Units: 4
- COMM 301Lg Empirical Research in Communication Units: 4
- DSO 401 Business Information Systems – Spreadsheet Applications Units: 2
- DSO 427 Designing Spreadsheet-Based Business Models Units: 4
- DSO 428 Essentials and Digital Frontiers of Big Data Units: 4
- ITP 249 Introduction to Data Analytics Units: 4
- JOUR 494 Python Coding for Data Journalism Units: 2

Total units required: 20

Dynamics in Workplace Communication Minor

Whether navigating the culture of a start-up, a Fortune 100 company, or in any domestic or international workplace situation, strategic and emotionally intelligent communication is essential. This minor has a high emphasis on application practice to prepare students to succeed in their work environment. Courses feature experiential components and/or offer opportunities to connect with professionals and outside constituencies to learn hands-on

about communication challenges and how to develop effective communication strategy.

This minor is available to students in all schools and departments except the Marshall School of Business and the Leventhal School of Accounting. To declare this minor, students must have a declared major and must have completed 32 units of college level courses with a cumulative USC GPA of at least 2.75.

Students taking this minor should, if possible, enroll in the business version of the upper division USC writing requirement: WRIT 340 Advanced Writing.

Successful completion of the minor requires a minimum cumulative GPA of 2.0 in the courses applied to the minor.

Required Courses (8 units)

- BUAD 302 Communication Strategy in Business Units: 4

Complete one of the following:

- BUCO 333mw Communication in the Working World - Managing Diversity Units: 4
- BUCO 460 International Business Communication Units: 4

Electives (8 units)

Business Communication (4-8 units)

Complete at least one of the following BUCO courses:

- BUCO 333mw Communication in the Working World - Managing Diversity Units: 4 *
- BUCO 425 Ethics and Professional Communication Units: 4
- BUCO 445 Communicating to Lead and Persuade Units: 4
- BUCO 458 Managing Communication and New Media Units: 4
- BUCO 460 International Business Communication Units: 4 *
- BUCO 485 Business Communication Management for Nonprofits Units: 4

* May be completed as an elective if not applied as a required course.

Free Electives (0-4 units)

Complete any of the following as needed to total 16 units:

- BAEP 470 The Entrepreneurial Mindset — Taking the Leap Units: 2
- BAEP 472 The Science of Peak Performance Units: 2
- BAEP 475 Entertainment Entrepreneurship Units: 2
- BAEP 491 Introduction to Social Entrepreneurship Units: 4
- BUCO 450 Communication for Organizations: Exploring Creativity Units: 2
- MOR 469 Negotiation and Persuasion Units: 4
- MOR 471 Managing and Developing People Units: 4

Entrepreneurship Minor

The minor in entrepreneurship is available to students in all schools and departments except business majors. It provides an understanding of entrepreneurship and the entrepreneurial mindset. To enroll in this minor, students must have completed a minimum of 32 units of college-level course work and have a minimum overall GPA of 2.75.

The minor requires a minimum of 17 units to complete.

Core Requirements

- BAEP 423 Management of Small Businesses Units: 4
  or
- BAEP 450 Fundamentals of Entrepreneurship Units: 4
  or
- BAEP 451 The Management of New Enterprises Units: 4
  or
- BUAD 301 Technology Entrepreneurship Units: 3

- BAEP 452 Feasibility Analysis Units: 4

- BAEP 453 Venture Management Units: 4
  or
- BAEP 454 Venture Initiation: Launching and Scaling Your Startup Units: 4

Electives

Choose from the following to achieve a total of at least 17 units for the minor:

- BAEP 455 Founder's Dilemmas Units: 4
- BAEP 460 Seminar in Entrepreneurship Units: 2
- BAEP 465 Digital Playbook for Entrepreneurs: Creating a Tech Startup Units: 2
- BAEP 469 Growth Hacking: Scaling Startups Units: 2
- BAEP 470 The Entrepreneurial Mindset — Taking the Leap Units: 2
- BAEP 474 The Entrepreneur's Guide to Intellectual Property Units: 2
- BAEP 475 Entertainment Entrepreneurship Units: 2
- BAEP 491 Introduction to Social Entrepreneurship Units: 4
- BAEP 495 Practicum in Business Issues (Internship) Units: 1
- BAEP 499 Special Topics Units: 2, 3, 4
- BUAD 302 Communication Strategy in Business Units: 4
- BUAD 304 Organizational Behavior and Leadership Units: 4

- BUAD 307 Marketing Fundamentals Units: 4 or
- MKT 385x Marketing of Creative Disruption and Innovation Units: 4

- BUAD 315x Basics of Project and Operations Management for Non-Majors Units: 2
- FBE 400x Introduction to Real Estate Finance and Development Units: 4
- FBE 403 Introduction to the Legal Environment of Business Units: 4
- FBE 437 Entrepreneurial Finance: Financial Management for Developing Firms Units: 4

Human Resource Management Minor

The minor in human resource management is available to students in all schools and departments except business majors. It is appropriate for students pursuing careers in human resource management, as well as for students pursuing management positions where they will be interfacing with or relying on the human resource function for support. To enroll in this minor, students must have completed a minimum of 32 units of collegelevel courses and have a minimum overall GPA of 2.75. Completion of the human resource management minor requires a minimum GPA of 2.0 in the following business minor courses:

Minor Course Requirements

- BUAD 304 Organizational Behavior and Leadership Units: 4
- MOR 471 Managing and Developing People Units: 4

Electives

Choose three courses from the following (12 units):

- FBE 428 Introduction to Employment Law Units: 4
- FBE 433 Corporate Governance and CEO Pay Units: 4 *
- MOR 421 Social and Ethical Issues in Business Units: 4
- MOR 431 Interpersonal Competence and Development Units: 4
- MOR 461 Design of Effective Organizations Units: 4
- MOR 463 Organization Change and Development Units: 4
- MOR 469 Negotiation and Persuasion Units: 4
- MOR 472 Power, Politics and Influence Units: 4
- MOR 473 Designing and Leading Teams Units: 4

Note: **Prerequisite that is not part of this minor required*

Management Consulting Minor

The minor in management consulting is available to students in all schools and departments except business majors. The minor develops skills used by professional consultants to assist organizations and businesses in identifying and addressing their issues and problems.

To enroll, students must have completed a minimum of 32 units of college-level courses and have a minimum overall GPA of 2.75. Completion of this minor requires a minimum GPA of 2.0 in the following courses:

Course Requirements

- BUAD 304 Organizational Behavior and Leadership Units: 4
- MOR 462 Management Consulting Units: 4

Electives

Choose three courses from the following (12 units):

- DSO 455 Project Management Units: 4
- MOR 421 Social and Ethical Issues in Business Units: 4
- MOR 451 Mastering Decision Making Units: 4
- MOR 461 Design of Effective Organizations Units: 4
- MOR 463 Organization Change and Development Units: 4
- MOR 465 Dynamic Strategies for the Business Lifecycle Units: 4
- MOR 467 Strategic Management of Innovation Units: 4
- MOR 469 Negotiation and Persuasion Units: 4
- MOR 473 Designing and Leading Teams Units: 4
- MOR 492 Global Strategy Units: 4

Marketing Minor

Minor in Marketing

The minor in marketing is available to students in all schools and departments except business majors. Marketing studies processes that organizations use to identify and serve the needs of customers.

The marketing minor provides a business-related education that will supplement many undergraduate majors, and enhance the career prospects for students whose majors could incorporate a marketing dimension or application. This minor should appeal to any student interested in an early marketing career, which includes, but is not limited to, professional sales, retailing, marketing research, product management and advertising.

Eligible students must have completed a minimum of 32 units of college-level course work and have a minimum GPA of 2.75. Either BUAD 307 Marketing Fundamentals or MKT 385 Marketing of Creative Disruption and Innovation must be completed as a required prerequisite. Students must successfully complete 16 units of MKT electives to satisfy this minor.

Operations and Supply Chain Management Minor

The minor in operations and supply chain management is available to students in all schools and departments except business majors. This minor requires 20 units to complete. To enroll, students must have completed a minimum of 32 units of college-level course work and have a minimum overall GPA of at least 2.75.

Minor Course Requirements

- BUAD 311 Operations Management Units: 4
- DSO 482 Supply Chain Management Units: 4

One of the following

- DSO 427 Designing Spreadsheet-Based Business Models Units: 4 or
- DSO 455 Project Management Units: 4 or
- DSO 483 Operations Consulting Units: 4

Electives

Choose from the following to achieve a total of at least 8 units:

- DSO 401 Business Information Systems – Spreadsheet Applications Units: 2
- DSO 424 Business Forecasting Units: 4
- DSO 427 Designing Spreadsheet-Based Business Models Units: 4 *
- DSO 433 Designing Digital Processes and User Experiences Units: 4
- DSO 455 Project Management Units: 4 *
- DSO 462 Managing a Small Business on the Internet Units: 2
- DSO 483 Operations Consulting Units: 4 *
- DSO 499 Special Topics Units: 2, 3, 4 **

* If not applied to the minor as a required course.
** Subject to approval by the program director prior to registration.

Organizational Leadership and Management Minor

The minor in organizational leadership and management is available to students in all schools and departments except business majors. Students in the minor learn about personal and organizational leadership, ethics of the workplace, leading in a global context and organizing and planning for effective personal and organizational performance. To enroll, students must have completed a minimum of 32 units of college-level courses and have a minimum overall GPA of 2.75. Completion of this minor requires a minimum GPA of 2.0 in the following courses:

Course Requirements

Complete both of the following courses.

- BUAD 304 Organizational Behavior and Leadership Units: 4
- MOR 470 Global Leadership Units: 4

Electives

Choose three courses from the following (12 units):

- MDA 365 The Art and Adventure of Leadership Units: 4
- MOR 421 Social and Ethical Issues in Business Units: 4
- MOR 431 Interpersonal Competence and Development Units: 4
- MOR 451 Mastering Decision Making Units: 4
- MOR 462 Management Consulting Units: 4
- MOR 469 Negotiation and Persuasion Units: 4
- MOR 471 Managing and Developing People Units: 4
- MOR 472 Power, Politics and Influence Units: 4
- MOR 473 Designing and Leading Teams Units: 4
- MOR 492 Global Strategy Units: 4

Performance Science Minor

The minor in Performance Science teaches the science, best practices and applied processes to instill a high-performance mindset though a multi-disciplinary curriculum spanning business, psychology, biology, philosophy and athletics. This interdisciplinary minor will enable students to understand brain and body function, human behavior, psychology, emotion and leadership, all with the goals of optimizing individual mindsets, maximizing performance and creating a culture of high performance within their organizations.

To enroll in this Performance Science minor, students must have completed 32 units of college-level courses and attain a minimum overall GPA of 2.75.

Completion of the minor requires 20 units.

Core Requirement

- BAEP 470 The Entrepreneurial Mindset — Taking the Leap Units: 2
- BAEP 472 The Science of Peak Performance Units: 2

Complete at least 4 units from each of the following categories: Mind, Business, Body.

MIND:

- GERO 315g A Journey into the Mind Units: 4
- OT 325 The Brain: Mind, Body, and Self Units: 4
- PSYC 440 Foundations of Cognitive Neuroscience Units: 4 *

BUSINESS:

- BAEP 455 Founder's Dilemmas Units: 4
- BUCO 333mw Communication in the Working World - Managing Diversity Units: 4
- MOR 451 Mastering Decision Making Units: 4

BODY:

- BISC 230Lgx The Biology of the Brain Units: 4
- HP 440 Happiness, Well-Being, and Health Units: 4
- PSYC 367g Stress, Health, and the Mind-Body Connection Units: 4 *

**Prerequisite required.*

Total Core: 16 units

Electives

Complete at least 4 units from the list of courses below or the courses listed above that are not applied as a "required course."

MIND:

- PHIL 258g Probability and Rational Choice Units: 4
- PSYC 301L Cognitive Processes Units: 4 *

BUSINESS:

- BAEP 450 Fundamentals of Entrepreneurship Units: 4
  or
- BAEP 451 The Management of New Enterprises Units: 4
- MOR 431 Interpersonal Competence and Development Units: 4
- MOR 461 Design of Effective Organizations Units: 4
- MOR 469 Negotiation and Persuasion Units: 4
- MOR 471 Managing and Developing People Units: 4

BODY:

- HBIO 202Lg Nutrition for Life Units: 4
- HBIO 205Lgx The Science of Sport Units: 4
- PHED 106a Physical Conditioning Units: 1
- PHED 160 Stress Management for Healthy Living Units: 2

**Prerequisite required.*

Total Units Required: 20

Real Estate Finance Minor

The minor in real estate finance is available to all students except business administration, accounting, and real estate development majors. It provides students with training in the areas of business, finance, real estate law, design, and urban economics. It provides an opportunity for students to gain thorough exposure to the topics of real estate investing, finance and development. Upon successful completion of this minor, students will have achieved a basic understanding of the interplay of the various disciplines involved in contemporary real estate ownership and investment and how they impact the areas of the student's specific interests and expertise.

Those completing this minor will master techniques in valuing income-producing properties, analyze financial instruments such as mortgages and loans, understand the roles of debt and equity, gain insights into the processes of design and construction, as well as understand the dynamics of how real estate markets affect the underlying values of real property assets, as well as the role real estate markets play in the overall economy.

To enroll, students must have completed a minimum of 32 units of college-level course work and attained a minimum overall GPA of at least 2.75. Successful completion of this minor requires 24-26 units including a minimum of 16 upper-division units in the minor and a cumulative GPA of 2.0 for the 24-26 units.

Required Courses (12-14 Units)

Accounting: 4 or 6 units

Choose one option from the following: Units: 4-6

ACCT 410x Foundations of Accounting Units: 4 or

- BUAD 280 Introduction to Financial Accounting Units: 3 and
- BUAD 281 Introduction to Managerial Accounting Units: 3

Business Finance: 4 units

- BUAD 215x Foundations of Business Finance Units: 4 *

Real Estate Finance: 4 units

- FBE 391 Real Estate Finance and Investment Units: 4 ** or
- FBE 400x Introduction to Real Estate Finance and Development Units: 4

Electives (12 Units with no more than 4 units of Non Real Estate electives)

Real Estate Electives: 8 - 12 units

Choose 8 - 12 units from the following. (The number of units of Real Estate Electives plus Non-Real Estate Electives will total 12.)

- FBE 427 Real Estate Law Units: 4
- FBE 465 Real Estate Analysis and Computer Modeling Units: 2 **
- FBE 466 Management of Real Estate Development: Feasibility Studies Units: 4 **
- FBE 470 Advanced Real Estate Analysis Units: 4 **
- FBE 489 Real Estate Capital Markets Units: 4 **
- FBE 491 Real Estate Finance Colloquium Units: 2 **

Non-Real Estate Electives: 0 - 4 units

Choose 0 - 4 units from the following:

- BAEP 423 Management of Small Businesses Units: 4
- DSO 455 Project Management Units: 4
- FBE 421 Financial Analysis and Valuation Units: 4 **
- FBE 423 Introduction to Venture Capital and Private Equity Units: 4 **
- FBE 435 Applied Finance in Fixed Income Securities Units: 4 **
- FBE 437 Entrepreneurial Finance: Financial Management for Developing Firms Units: 4 **
- FBE 441 Investments Units: 4 **
- FBE 459 Financial Derivatives Units: 4 **
- MOR 469 Negotiation and Persuasion Units: 4

Notes:

**ACCT 410 or BUAD 280 and BUAD 281 must be taken before BUAD 215.*

***Prerequisites required. Plan carefully.*

Social Entrepreneurship Minor

The minor in social entrepreneurship provides students from all undergraduate majors with a foundation in the context and practice of social entrepreneurship, nationally and internationally. The minor provides an understanding of social entrepreneurship and its relationship to government and public policy as well as an understanding of management skills specific to starting and maintaining a social enterprise. The curriculum includes options allowing the student to tailor course work to his or her individual academic interests and professional aspirations.

To enroll in this minor, students must have completed 48 units of college level courses with a cumulative USC GPA of at least 2.75.

Course Requirements (14 Units)

- BAEP 451 The Management of New Enterprises Units: 4
- BAEP 491 Introduction to Social Entrepreneurship Units: 4

- BAEP 460 Seminar in Entrepreneurship Units: 2 or
- BAEP 470 The Entrepreneurial Mindset — Taking the Leap Units: 2 or
- BAEP 497 Field Project in Entrepreneurship Units: 2

- PPD 371 The Nonprofit Sector and the Public Interest Units: 4

Electives

Complete at least 7 units from the following:

- BAEP 452 Feasibility Analysis Units: 4 *
- BAEP 471 Social Innovation Design Lab Units: 4
- BUCO 485 Business Communication Management for Nonprofits Units: 4
- CE 469 Sustainable Design and Construction Units: 2
- COMM 402 Public Communication Campaigns Units: 4
- IR 305w Managing New Global Problems Units: 4
- IR 308w Economic Globalization Units: 4
- PPD 478 Social Innovation Units: 4
- PSYC 456 Conservation Psychology Units: 4 **
- SOCI 360m Social Inequality: Class, Status and Power Units: 4

Notes:

**Prerequisite: BAEP 310 or BAEP 423 or BAEP 450 or BAEP 451 or BUAD 301*

***Prerequisite: PSYC 100*

Sports Business and Management Minor

The worldwide and national sports industry is large and growing, with a significant presence in Southern California. The sports industry has significant ties to entertainment, real estate, games and special events, as well as media, journalism and other industries. The sports industry provides a unique business context, with specific needs in marketing, finance, economics, data analytics, risk management, communication, human resources, law and other business disciplines. The Sports Business and Management minor provides students the opportunity to combine courses in core management disciplines with complementary courses specific to sports business.

The Sports Business and Management minor is available to students in all schools and departments outside of the Marshall School of Business and Leventhal School of Accounting. To enroll in this minor, students must have completed 32 units of college-level courses and have a minimum overall GPA of 2.75.

Successful completion of the Sports Business and Management minor requires a minimum of 20 units and a minimum cumulative GPA of 2.0 in the courses applied to the minor.

Required Courses (8 units)

- BUAD 201x Introduction to Business for Non-Majors Units: 4
- MOR 479 The Business of Sports Units: 4

Elective Courses (12 units)

General Business and Management

Select at least 4 units from the following:

- ACCT 410x Foundations of Accounting Units: 4
- BAEP 450 Fundamentals of Entrepreneurship Units: 4 or
- BAEP 451 The Management of New Enterprises Units: 4
- BUAD 302 Communication Strategy in Business Units: 4
- BUAD 304 Organizational Behavior and Leadership Units: 4
- BUAD 307 Marketing Fundamentals Units: 4
- BUAD 315x Basics of Project and Operations Management for Non-Majors Units: 2
- BUCO 333mw Communication in the Working World - Managing Diversity Units: 4
- DSO 428 Essentials and Digital Frontiers of Big Data Units: 4
- DSO 443 Current Trends in Digital Business Models Units: 4
- FBE 400x Introduction to Real Estate Finance and Development Units: 4
- FBE 403 Introduction to the Legal Environment of Business Units: 4
- MOR 469 Negotiation and Persuasion Units: 4

Sports Business

Select at least 4 units from the following:

- ACCT 387 Risk Management in Entertainment, Sports and the Arts Units: 4
- BAEP 465 Digital Playbook for Entrepreneurs: Creating a Tech Startup Units: 2
- BAEP 470 The Entrepreneurial Mindset — Taking the Leap Units: 2
- BAEP 472 The Science of Peak Performance Units: 2
- MOR 499 Special Topics Units: 2, 3, 4
  Sports Business Innovation - Impacts on Decision Making Units: 4

Technology Commercialization Minor

This interdisciplinary minor includes courses from both the business and engineering schools and provides education in the economic, technological and entrepreneurial aspects of commercializing new technologies. The minor is designed for students from a range of backgrounds (e.g., majors in engineering, life sciences or business) who are interested in starting their own technology-based ventures, working for technology-based start-up companies or pursuing corporate careers that may involve the commercialization of new technologies. In the minor, students learn about conceptualizing, developing and managing new, technology-based ventures and projects.

To enroll, students must have completed a minimum of 32 units of college-level course work and have a minimum overall GPA of 2.75. To complete the minor, students are required to complete the two required courses (7 units) and enough elective courses to achieve a total of 16 units outside of their major. Business majors thus require 23 total units and other majors 16 total units to complete the minor.

Required Courses

- BAEP 452 Feasibility Analysis Units: 4
- BUAD 301 Technology Entrepreneurship Units: 3 *

Note:

**BUAD 301 is a prerequisite to BAEP 452 and must be taken first.*

Electives

- ACCT 410x Foundations of Accounting Units: 4
- BAEP 454 Venture Initiation: Launching and Scaling Your Startup Units: 4
- BAEP 455 Founder's Dilemmas Units: 4
- BAEP 460 Seminar in Entrepreneurship Units: 2
- BAEP 469 Growth Hacking: Scaling Startups Units: 2
- BAEP 470 The Entrepreneurial Mindset — Taking the Leap Units: 2
- BAEP 474 The Entrepreneur's Guide to Intellectual Property Units: 2
- BME 416L Development and Regulation of Medical Products Units: 4

- BUAD 307 Marketing Fundamentals Units: 4 or
- MKT 385x Marketing of Creative Disruption and Innovation Units: 4

- CE 473 Engineering Law, Finance and Ethics Units: 3 or
- ENGR 509 Patent Law for Scientists and Engineers Units: 3

- ENGR 493 Dean's Seminar in Entrepreneurship: Disruptive Technologies with an Entrepreneurial Mindset Units: 2
- ISE 344 Engineering Team Management Units: 3
- ISE 440 Work, Technology, and Organization Units: 3
- ISE 460 Engineering Economy Units: 3
- ITP 310 Design for User Experience Units: 4
- ITP 466 Building the High Tech Startup Units: 4
- ITP 476 Technologies for Interactive Marketing Units: 4
- MKT 445 New Product Development and Branding Units: 4

Master of Business Administration

Executive MBA Program

The Executive MBA program is structured for mid-career to upper-career professionals who are fully employed. Rather than a program of traditional course disciplines (e.g., accounting, marketing, finance) the EMBA program offers a more thematic approach — integrating the material and often delivering it with faculty from different disciplines teaching in a team format. Core faculty include the school's most senior, experienced members as well as nationally renowned academic and business specialists. This program is delivered on Fridays and Saturdays (full days) for a two-year period at either the USC campus in downtown Los Angeles or in San Diego. As with the other USC Marshall MBA programs, an extensive international trip is integrated into the program.

Application

Application to the EMBA program does not require GMAT or GRE scores. In addition to the other general admission requirements, applicants should have 10 years of work experience that includes substantial managerial responsibilities. The Executive MBA Admissions office may be contacted at (213) 740-7846; Fax (213) 749-8520; or email: uscemba@marshall.usc.edu. Apply online at *gradadm.usc.edu*.

Program Structure

This program uses a non-traditional interdisciplinary approach to executive and managerial education though "themes" that

integrate various functional areas and address classic, yet dynamic, business issues.

The program begins with a six-day domestic residential session. Thereafter, the 21-month MBA program meets Fridays and Saturdays throughout the year with a short summer break. An eight-day international trip is scheduled during the first theme of the program's second year.

Year 1

Theme I

- GSBA 560 The Perspective of Top Management Units: 2

Theme II

- GSBA 561 Evaluating Market Performance Units: 9

Theme III

- GSBA 562 Management of Operations Units: 11 or

- GSBA 562a Management of Operations Units: 1
- GSBA 562b Management of Operations Units: 10

Theme IV

- GSBA 563 Technology and Information Systems Management Units: 6 or

- GSBA 563a Technology and Information Systems Management Units: 2
- GSBA 563b Technology and Information Systems Management Units: 4

Theme V

- GSBA 564 Functional Strategies and Implementation Units: 2

Year 2

Theme VI

- GSBA 570 The Role of the Senior Executive Units: 2

Theme VII

- GSBA 571 Environmental Analysis: Establishing Competitive Advantage Units: 9

Theme VIII

- GSBA 572 Strategic Planning for Growth Units: 11 or

- GSBA 572a Strategic Planning for Growth Units: 3
- GSBA 572b Strategic Planning for Growth Units: 8

Theme IX

- GSBA 573 Managing Strategic Change and Implementation Units: 6 or

- GSBA 573a Managing Strategic Change and Implementation Units: 5
- GSBA 573b Managing Strategic Change and Implementation Units: 1

Theme X

- GSBA 574 The Executive of the Future Units: 2

Total units required for degree: 60

Full-time MBA Program

The Marshall full-time MBA curriculum is a comprehensive two-year (63-unit) learning experience develop outstanding leaders who act with positive impact and character in a rapidly changing economic, social and political world.

A core of essential courses is designed to build the foundation of skills required of all leading executives, develop collaborative talent, cultivate innovation and expand the student's vision with a global perspective. An individualized program of study, which begins in the second semester of the first year, allows students to acquire knowledge and skills in specialized functions within specific industries.

Recognizing that success in business requires more than a thorough knowledge of the vernacular of business, the full-time MBA curriculum is both broad and deep, offering students an opportunity to learn about business from varying perspectives. Full-time MBA students develop:

- a strategic perspective that understands the global dynamics of worldwide industries and new markets;
- an ability to integrate decisions and solutions across disciplines in complex decision-making environments;
- a world view that understands and appreciates different cultures and economies;
- a clear framework for ethical and values-based, decision-making supported by unyielding personal integrity and the confidence to act accordingly; and
- a professional presence and the ability to articulate a vision needed to motivate others and lead diverse teams of people.

Full-time MBA graduates are collaborative by nature, innovative in spirit and global in perspective.

The Faculty

Instructors in the full-time MBA program are an inspired group of teachers who are passionate about nurturing the development of their students and are committed to the program and to innovative implementation. Scholars bring their latest thinking into the classroom and convey it so that students embrace ideas and learning with excitement and a willingness to demonstrate that learning and enthusiasm in their careers.

Recognized experts, academic specialists and industry leaders are actively involved in the program. Faculty known for their work in Marshall research centers offer industry collaboration. Many faculty connect with other schools in the university, tap into the strengths of innovative Southern California industries and engage our alumni across industries and globally. The valuable contributions of experience and expertise from individuals and organizations outside Marshall weave theory with practice.

An Advanced Learning Environment

The educational approach of the full-time MBA is a careful balance of case learning along with course work, lectures, experiential exercises and field studies. Students are members of supportive and challenging learning communities. The experience is hands-on and teamwork based, with extensive opportunities to work with real companies and managers on real projects.

Classes are taught in state-of-the-art case rooms. The Experiential Learning Center offers students opportunities for experimentation, video practice, simulation exercises and group preparation.

The full-time program is rigorous, intellectually demanding and time-intensive. Students typically spend 60–80 hours per week on course work and projects.

Application

The program enrolls students one time per year in the fall. To obtain information regarding application criteria, class profiles, deadlines and notification dates or to apply, visit marshall.usc.edu or contact the Marshall MBA Admission Office in Popovich Hall (JKP) 308 - phone (213) 740-7846, fax (213) 749-8520 or email marshallmba@marshall.usc.edu.

Summer Preparation

The average full-time MBA student is returning to school after completing five years of full-time employment. To help students prepare for their return to academia and refresh their knowledge of business fundamentals, Marshall provides non-credit tutorials and workshops via online/distance formats. Students complete the summer preparation materials and master the information before arriving on campus.

Orientation programs take place during the latter half of July.

Early Start to First Year

The academic program begins the first week of August with a three-week intensive term that includes graded course work in communication for management, strategy, microeconomics and professional values. The fall semester academic program continues with classes, workshops and study sessions meeting Monday through Friday.

Focus on Collaboration

The ability to work in and manage teams is becoming increasingly important in business practice. Building these skills during the program is a key part of each student's leadership growth.

Students are assigned to small teams for the first semester of study. These teams are composed of students with diverse backgrounds and experiences to enhance the overall learning experience for each team member. Teamwork is crucial to success in a variety of settings including group projects, study groups and competitive assignments. A greater understanding of teams is bolstered through formal discussions and presentations throughout the year.

In addition to formal team projects, a strong community of mutual support develops from the important role informal study groups play in the school's academic culture.

The Core: An Integrated Program of Study

Although the curriculum lists a series of required courses to be taken during the first year of the full-time MBA program, students are, in many ways, pursuing one nine-month course because the individual courses and materials covered are highly integrated.

The first-year teaching team develops and evaluates selected assignments jointly, linking concepts across courses, and occasionally team teaching, examining complex business programs from multiple perspectives.

Communication for Management

Communication for Management is a business communication course comprising class sessions, tailored workshops and ongoing individual and group coaching. First-year students are immersed in developing their presentation skills, interpersonal communication skills and emotional intelligence — the ability to understand and respond to the human side of business — all skills required of successful leaders.

Career Insight Seminars

Identifying and exploring potentially satisfying career paths is the starting point for effective lifelong career management success and the key to personal and professional growth and satisfaction. To support students in this process, all candidates attend a series of "Career Insight" seminars during the first semester of the program. These seminars improve students' functional and industry awareness, provide a deeper understanding into the future of business and industry, and as a result enhance decision-making in the areas critical to career development, satisfaction and success.

PRIME

The global vision generated during the first year of the MBA culminates with PRIME. The final component of the Global Context of Business course, PRIME takes on-campus classroom study abroad for nine days. Integrating the classroom and international travel components of the course, students conduct research on industry- and company-specific business issues and report their findings in major presentations. Recent PRIME locations include Bangkok, Beijing, Hong Kong, Seoul, Shanghai and Tokyo.

Internships

Practical experience is critical to success in business. Marshall has developed an extensive network of prospective employers who offer internships during the summer between their first and second year. Successful internships often lead to job offers.

International Exchange Program

The Marshall School offers a range of international semester-long exchange programs in cooperation with leading business schools around the world. Since many of the programs are taught in English, language proficiency is not a requirement for all countries. Students must complete the MBA core courses and maintain a 3.0 GPA in order to participate in the exchange program. This program is open to full-time MBA and MBAPM students.

Program Structure

A total of 63 units is required. The following outlines the typical full-time student's schedule:

First Year "Core" Required Courses - First Semester

- GSBA 509 Marketing Management Units: 1.5
- GSBA 510 Accounting Concepts and Financial Reporting Units: 1.5, 2, 3 (3 units)
- GSBA 511 Microeconomics for Management Units: 1.5, 3 (1.5 units)
- GSBA 524 Data Science for Business Units: 2, 3 (3 units)
- GSBA 527 Structured Analysis for Unstructured Problems Units: 1, 1.5
  (1.5 units)
- GSBA 540 Contemporary Issues in Competitive Strategy Units: 1.5
- GSBA 541 Foundations of Your Professional Value Units: .5
- GSBA 542 Communication for Management Units: 1.5
- GSBA 548 Corporate Finance Units: 2, 3 (3 units)

Total units: 17

Second Semester

- GSBA 503 Contemporary Issues in Competitive Global Strategy Units: 1.5
- GSBA 504a Operations Management Units: 1.5
- GSBA 533 Organizational Behavior and Leadership Units: 1.5
- GSBA 552 Problem Solving and Decision Making: An Integrative Approach Units: 2
- GSBA 580 The Global Context of Business - PRIME Units: 2
- Graduate business electives Units: 7.5 (500-level ACCT, BAEP, BUCO, DSO, FBE, GSBA, MKT or MOR)

Total units: 16

Summer

- GSBA 595 Internship in Business Units: 0.5, 1, 1.5, 2
  (maximum 1.5 units applicable to this degree)

Second Year

Additional graduate business elective courses (500-level ACCT, BAEP, BUCO, DSO, FBE, GSBA, MKT or MOR) sufficient to bring the total to at least 63 units required to complete the degree.

Total units required for degree: 63

Note: USC reserves the right to change, add or delete its course offerings and programs without notice.

International Management Science (STEM) MBA Program

The IBEAR MBA program is an accelerated global MBA for experienced managers and professionals. The curriculum contains internationalized core courses in its first three terms and selected international business electives thereafter. It concludes with a challenging consulting project in terms four and five.

The value of a business education focusing on quantitative and scientific methods has long been recognized. The Management Science specialization of the Master of Business Administration recognizes the efforts of individuals who choose to focus their MBA studies on quantitative business-related fields such as statistics, mathematical techniques, analytics, data warehousing, data mining, operations and supply chain optimization, finance, forecasting, digital marketing and modeling.

A core of essential courses is designed to build the foundation of skills required of all leading executives, develop collaborative talent, cultivate innovation, build analytical skills, and expand the student's vision and ethical framework with a global perspective. An individualized program of study allows students to acquire knowledge and skills in their preferred STEM-related disciplines.

Application

In addition to the general admission requirements, applicants should have a minimum of six years work and/or graduate study experience. Current participants average 11 years of experience and are 34 years of age. Scholarships are available to domestic and international students.

The Management Science specialization of the IBEAR MBA is open only to individuals who have been admitted to the Marshall IBEAR MBA program.

IBEAR MBA students who wish to transition to the STEM IBEAR MBA submit a petition to the academic director of the IBEAR MBA program during the first term of the program. The petition must include a brief essay explaining why the student would benefit academically and succeed in the STEM MBA program.

For more information, contact the IBEAR MBA Program; (213) 740-7140; Email ibearmba@marshall.usc.edu; Web: *marshall.usc.edu*. Apply online at *gradadm.usc.edu*.

Program Structure

This intensive full-time program begins in late June and ends in late June each year. It begins with a one-week orientation/transition program to assist international and domestic participants in adjusting to graduate school and life in Los Angeles.

"Core" Required Courses

Successfully complete all of the required (core) courses in the USC Marshall IBEAR MBA program.

- GSBA 510 Accounting Concepts and Financial Reporting Units: 1.5, 2, 3
- GSBA 511 Microeconomics for Management Units: 1.5, 3
- GSBA 523 Communication for Management Units: 2, 3
- GSBA 524 Data Science for Business Units: 2, 3
- GSBA 528 Marketing Management Units: 3
- GSBA 529 Strategic Formulation for Competitive Advantage Units: 3
- GSBA 534 Operations Management Units: 2, 3
- GSBA 543 Managerial Perspectives Units: 3
- GSBA 548 Corporate Finance Units: 2, 3
- GSBA 549 The Firm in the National and International Economy Units: 3
- GSBA 583 The Global Context of Business (IELP) Units: 2
- GSBA 584a International Business Consulting Project Units: 2
- GSBA 584b International Business Consulting Project Units: 1

Total "Core" Required Units: 35

Management Science Electives

Successfully complete at least 18 units selected from the list below.

- ACCT 581 Financial Statement Analysis Units: 3
- DSO 506 Sourcing and Supplier Management Units: 1.5
- DSO 510 Business Analytics Units: 1.5, 3
- DSO 516 Probability and Data Modeling Units: 1.5
- DSO 520 Logistics Management Units: 3
- DSO 522 Applied Time Series Analysis for Forecasting Units: 1.5, 3
- DSO 528 Data Warehousing, Business Intelligence, and Data Mining Units: 1.5, 3
- DSO 529 Advanced Regression Analysis Units: 3
- DSO 530 Applied Modern Statistical Learning Methods Units: 3
- DSO 536 Monte Carlo Simulation and Decision Models Units: 1.5
- DSO 545 Statistical Computing and Data Visualization Units: 1.5, 3
- DSO 547 Designing Spreadsheet-Based Business Models Units: 3
- DSO 549 Application of Lean Six Sigma Units: 3
- DSO 552 SQL Databases for Business Analysts Units: 1.5
- DSO 562 Fraud Analytics Units: 3
- DSO 570 The Analytics Edge: Data, Models, and Effective Decisions Units: 3
- DSO 574 Using Big Data: Challenges and Opportunities Units: 3
- DSO 580 Project Management Units: 3
- DSO 581 Supply Chain Management Units: 3
- DSO 582 Service Management: Economics and Operations Units: 3
- DSO 583 Operations Consulting Units: 3
- DSO 586 Global Healthcare Operations Management Units: 3
- DSO 599 Special Topics Units: 1, 1.5, 2, 3 *
- FBE 535 Applied Finance in Fixed Income Securities Units: 1.5, 3
- FBE 543 Forecasting and Risk Analysis Units: 3
- FBE 550 High Yield Bond Investing - Managing Credit Risk Units: 1.5
- FBE 555 Investment Analysis and Portfolio Management Units: 3
- FBE 559 Management of Financial Risk Units: 3
- MKT 512 Customer Insights and Analysis Units: 3
- MKT 536 Pricing Strategies Units: 3
- MKT 543 Market Demand and Sales Forecasting Units: 3
- MKT 566 Marketing Analytics Units: 3

  * Selected offerings of DSO 599 may be applicable to this program, subject to approval by the academic director. Students must petition prior to registration.

General Business Electives

Complete a selection of graduate business electives (500-level ACCT, BAEP, BUCO, DSO, FBE, GSBA, MKT or MOR) sufficient to bring the total units completed to at least 56.

Total units required for degree: 56

Note: USC reserves the right to change, add or delete its course offerings and programs without notice.

International MBA Program

The IBEAR MBA program is an accelerated global MBA for experienced managers and professionals. The curriculum contains internationalized core courses in its first three terms and selected international business electives thereafter. It concludes with a challenging consulting project in terms four and five.

A core of essential courses is designed to build the foundation of skills required of all leading executives, develop collaborative talent, cultivate innovation, build analytical skills, and expand the student's vision and ethical framework with a global perspective. An individualized program of electives allows students to acquire knowledge and skills in their preferred disciplines.

Application

In addition to the general admission requirements, applicants should have a minimum of six years of work and/or graduate study experience. Current participants average 11 years of experience and are 34 years of age. Scholarships are available to domestic and international students.

For more information, visit *marshall.usc.edu/ibear* or contact the IBEAR MBA Program: phone (213) 740-7140 or email ibearmba@marshall.usc.edu.

Program Structure

This intensive full-time program begins in late June and ends in late June each year. It begins with a three-week transition program to assist international and domestic participants in adjusting to graduate school and life in Los Angeles.

Required Courses

- GSBA 510 Accounting Concepts and Financial Reporting Units: 1.5, 2, 3
- GSBA 511 Microeconomics for Management Units: 1.5, 3
- GSBA 523 Communication for Management Units: 2, 3
- GSBA 524 Data Science for Business Units: 2, 3
- GSBA 528 Marketing Management Units: 3
- GSBA 529 Strategic Formulation for Competitive Advantage Units: 3
- GSBA 534 Operations Management Units: 2, 3
- GSBA 543 Managerial Perspectives Units: 3
- GSBA 548 Corporate Finance Units: 2, 3
- GSBA 549 The Firm in the National and International Economy Units: 3

- GSBA 583 The Global Context of Business (IELP) Units: 2
- GSBA 584a International Business Consulting Project Units: 2
- GSBA 584b International Business Consulting Project Units: 1
- GSBA 595 Internship in Business Units: 0.5, 1, 1.5, 2 *(maximum 1.5 units applicable to this degree)*

Electives

Complete a selection of graduate business elective courses (500-level ACCT, BAEP, BUCO, DSO, FBE, GSBA, MKT or MOR courses) sufficient to bring the total units completed to at least 56.

Total units required for degree: 56

Management Science (STEM) MBA Program

The value of a business education focusing on quantitative and scientific methods has long been recognized. The Management Science specialization of the Master of Business Administration recognizes the efforts of individuals who choose to focus their MBA studies on quantitative business-related fields such as statistics, mathematical techniques, analytics, data warehousing, data mining, data visualization, operations and supply chain optimization, finance, forecasting, digital marketing and modeling.

A core of essential courses is designed to build the foundation of skills required of all leading executives, develop collaborative talent, cultivate innovation, build analytical skills, and expand the student's vision and ethical framework with a global perspective. An individualized program of study allows students to acquire knowledge and skills in their preferred STEM-related disciplines.

Application

The Management Science specialization of the MBA is open only to individuals who have been admitted to the Marshall Full-Time MBA program and have successfully completed the majority of the “core” required courses in their MBA program. Students in the Full-time MBA program apply for admission to this program after completion of their first semester.

MBA students who wish to transition to the STEM MBA submit a petition to the academic director of their MBA program. The petition must include a brief essay explaining why the student would benefit academically and succeed in the STEM MBA program.

To qualify for admission to the Management Science MBA the student must have earned a Marshall MBA degree GPA of at least 3.0 and a cumulative graduate GPA at USC of at least 3.0.

Program Requirements

The Management Science specialization of the MBA requires 63 units including MBA core, management science electives, and general business electives.

"Core" Required Courses

Successfully complete all of the required (core) courses in the USC Marshall Full-Time MBA program.

Management Science Electives

Successfully complete at least 18 units selected from the list below.

- ACCT 581 Financial Statement Analysis Units: 3
- DSO 506 Sourcing and Supplier Management Units: 1.5
- DSO 510 Business Analytics Units: 1.5, 3
- DSO 516 Probability and Data Modeling Units: 1.5
- DSO 520 Logistics Management Units: 3
- DSO 522 Applied Time Series Analysis for Forecasting Units: 1.5, 3
- DSO 528 Data Warehousing, Business Intelligence, and Data Mining Units: 1.5, 3
- DSO 529 Advanced Regression Analysis Units: 3
- DSO 530 Applied Modern Statistical Learning Methods Units: 3
- DSO 536 Monte Carlo Simulation and Decision Models Units: 1.5
- DSO 545 Statistical Computing and Data Visualization Units: 1.5, 3
- DSO 547 Designing Spreadsheet-Based Business Models Units: 3
- DSO 549 Application of Lean Six Sigma Units: 3
- DSO 552 SQL Databases for Business Analysts Units: 1.5
- DSO 562 Fraud Analytics Units: 3
- DSO 570 The Analytics Edge: Data, Models, and Effective Decisions Units: 3
- DSO 574 Using Big Data: Challenges and Opportunities Units: 3
- DSO 580 Project Management Units: 3
- DSO 581 Supply Chain Management Units: 3
- DSO 582 Service Management: Economics and Operations Units: 3
- DSO 583 Operations Consulting Units: 3
- DSO 586 Global Healthcare Operations Management Units: 3
- DSO 599 Special Topics Units: 1, 1.5, 2, 3 *
- FBE 535 Applied Finance in Fixed Income Securities Units: 1.5, 3
- FBE 543 Forecasting and Risk Analysis Units: 3
- FBE 550 High Yield Bond Investing - Managing Credit Risk Units: 1.5
- FBE 553a Applied Portfolio Management Units: 3
- FBE 553b Applied Portfolio Management Units: 3
- FBE 555 Investment Analysis and Portfolio Management Units: 3
- FBE 559 Management of Financial Risk Units: 3
- GSBA 504b Operations Management Units: 1.5
- MKT 512 Customer Insights and Analysis Units: 3
- MKT 536 Pricing Strategies Units: 3
- MKT 543 Market Demand and Sales Forecasting Units: 3
- MKT 566 Marketing Analytics Units: 3

  * Selected offerings of DSO 599 may be applicable to this program, subject to approval by the academic director. Students must petition prior to registration.

General Business Electives

Complete a selection of graduate business electives (500-level ACCT, BAEP, BUCO, DSO, FBE, GSBA, MKT or MOR) sufficient to bring the total units completed to at least 63.

Total units required for degree: 63

Note: USC reserves the right to change, add or delete its course offerings and programs without notice.

MBA Program for Professionals and Managers

The MBA Program for Professionals and Managers (MBA.PM) is a part-time, comprehensive MBA program that allows fully employed individuals to pursue their MBA degree. The program offers flexibility and a rich array of elective courses. Students in the MBA.PM program complete the degree in 33 months attending classes in fall and spring semesters and summer sessions. The degree can be completed in as little as two years for students who accelerate or up to five years for students who prefer a slower pace.

The MBA.PM offers the following advantages:

- the scheduling design allows students to complete the degree in a timely way, while continuing to work full time;
- program flexibility allows students to tailor their selection of elective courses to their individual interests;
- PM.GLOBE, a course which includes an international trip, gives all MBA.PM students first-hand exposure to international markets;
- a cohesive group of student colleagues proceeds through the core together, providing opportunities for building relationships with other talented and ambitious individuals;
- special academic and social activities enhance the richness of the MBA experience; and
- interaction between faculty and students enhances the overall learning experience.

The first year of the MBA.PM program is also offered at the Orange County Center in Irvine. All students take most of their elective courses at the University Park Campus in Los Angeles.

Students attend core classes either two nights per week or on weekends (Saturdays plus an occasional Sunday) for 12 months. Students must complete the core courses in the prescribed sequence and within the prescribed time frame. Elective courses are offered on a semester basis during the remaining portion of the program, including summer session.

During the elective portion of the program, MBA students are encouraged to pursue a course of study that meets their professional goals. Students design their course of study by taking electives offered in the Marshall School and by sometimes taking courses in other areas of the university. Up to 9 units of graduate-level electives may be taken at USC outside the Marshall School of Business for elective credit provided the student shows sufficient reason why a selected course is relevant to the Marshall School of Business program. Permission to take courses outside the Marshall School must be requested via petition to the MBA.PM Program Office in Popovich Hall 106.

International Exchange Program

The Marshall School offers a range of international semester-long and summer exchange programs in cooperation with leading business schools around the world. Since many of the exchange programs are taught in English, language proficiency is not a requirement for all countries. Students must complete the MBA core courses and maintain a 3.0 GPA in order to participate in the exchange program. This program is open to fulltime MBA and MBA.PM students.

Application

The program enrolls students one time per year in the fall. To obtain information regarding application criteria, class profiles, deadlines, and notification dates or to apply, visit *marshall.usc.edu/mbapm* or contact the Marshall MBA Admission Office in Popovich Hall (JKP) 308 - phone (213) 740-7846, fax (213) 749-8520, email *marshallmba@marshall.usc.edu*.

Sample Program

A total of 63 units is required for the program. The following outlines the typical MBA.PM student's schedule:

First Year "Core" Required Courses - Fall Term

- GSBA 525 Introduction to Management and Strategy Units: 1 (Pre-Fall)
- GSBA 510 Accounting Concepts and Financial Reporting Units: 1.5, 2, 3 (3-unit version required)
- GSBA 511 Microeconomics for Management Units: 1.5, 3 (1.5-unit version required)
- GSBA 523 Communication for Management Units: 2, 3 (2-unit version required)
  (begins during Pre-Fall)
- GSBA 527 Structured Analysis for Unstructured Problems Units: 1, 1.5

Total units: 8.5

Winter Term A&B

- GSBA 506a Applied Managerial Statistics Units: 1.5
- GSBA 506b Applied Managerial Statistics Units: 1.5
- GSBA 522a Managerial Perspectives Units: 1.5
- GSBA 522b Managerial Perspectives Units: 1.5
- GSBA 541 Foundations of Your Professional Value Units: .5
- GSBA 550a Entrepreneurship Units: .5
- GSBA 550b Entrepreneurship Units: 1

Total units: 8

Spring Term

- GSBA 519a Strategic Formulation for Competitive Advantage Units: 1.5
- GSBA 528 Marketing Management Units: 3
- GSBA 548 Corporate Finance Units: 2, 3 (3-unit version required)

Total units: 7.5

Summer Session

- GSBA 519b Strategic Formulation for Competitive Advantage Units: 1.5
- GSBA 534 Operations Management Units: 2, 3 (3-unit version required)
- GSBA 581 Technology Innovation and Management Units: 1.5

Total units: 6

Second Year - Fall Semester

- GSBA 544 The Firm in the Global Economy Units: 1.5
- Graduate business electives Units: 6 (500-level ACCT, BAEP, BUCO, DSO, FBE, GSBA, MKT or MOR)

Total units: 7.5

Spring Semester

- GSBA 582 The Global Context and International Business Units: 1.5
- Graduate business elective(s) Units: 4.5 (500-level ACCT, BAEP, BUCO, DSO, FBE, GSBA, MKT or MOR)

Total units: 6

Summer Session

- Graduate business electives Units: 6
  (500-level ACCT, BAEP, BUCO, DSO, FBE, GSBA, MKT or MOR)

Third Year - Fall Semester

- Graduate business electives Units: 7.5
  (500-level ACCT, BAEP, BUCO, DSO, FBE, GSBA, MKT or MOR)

Spring Semester

- Graduate business electives Units: 6
  (500-level ACCT, BAEP, BUCO, DSO, FBE, GSBA, MKT or MOR)

Total units required for degree: 63

Note: USC reserves the right to change, add or delete its course offerings and programs without notice.

Online MBA Program

The Online MBA (OMBA) program is structured for students who are currently employed and wish to remain within the labor force while earning a degree. The OMBA Program offers an integrative approach to core business disciplines including accounting, finance, data sciences, marketing, management, operations and entrepreneurship. The program is delivered by full-time faculty from different disciplines teaching in a team format to integrate understanding of business fundamentals, internal and external operations, business environments and leadership. The program capitalizes on the unique opportunities inherent in online delivery to maximize student engagement through critical thinking, analytics and communication.

Application

The program accepts applicants for fall and spring semesters. Applications are submitted online through the Marshall School of Business application Website at *app.applyyourself.com/?id=usc-mba*. International applicants are advised to see the instructions for international students published in the *USC Graduate Admissions Website*.

Program Structure

The OMBA program uses an interdisciplinary approach to business education that enables students to develop an expertise in business administration in order to perform more effectively as business leaders, corporate managers and entrepreneurs.

The program begins with a five-day domestic residential session, after which the 21-month MBA Program meets online. The program requires 51 units. First semester courses include GSBA 501 and GSBA 505, which are prerequisites for the remaining courses. GSBA 535, GSBA 537, GSBA 538 and GSBA 539 may be taken in any order.

Required Courses - Residential Intensive

- GSBA 501 The Role of the Manager Units: 3

First Semester

- GSBA 505 Fundamentals of Business Units: 10

Remaining Required Courses

- GSBA 535 Opportunity Recognition and Implementation Units: 9.5
- GSBA 537 Managing Inside the Firm Units: 9.5
- GSBA 538 Managing Outside the Firm Units: 9.5
- GSBA 539 Business Environment and Leadership Units: 9.5

Total units: 51

For more information, visit http://onlinemba.marshall.usc.edu or email OMBA@marshall.usc.edu.

Note: USC reserves the right to change, add or delete its course offerings and programs without notice.

MBA Dual Degree Programs

Juris Doctor/Master of Business Administration (JD/MBA)

The Marshall School of Business in conjunction with the USC Gould School of Law offers a program leading to the degrees of Juris Doctor/Master of Business Administration.

Application

Applicants to this program must apply to both schools individually and take both the Graduate Management Admission Test (GMAT) or the Graduate Record Examinations (GRE) and the Law School Admission Test (LSAT). Applicants should apply either simultaneously to both programs or during the first year in the USC Gould School of Law. Certification for eligibility for the dual degree program must be provided by the Law School prior to admission to the dual degree program by the Marshall School of Business.

Program Requirements

The total number of units required for the MBA portion of the program is 48. Dual degree program students may not count courses taken outside the Marshall School of Business toward the 48 units.

The total number of Law units required for the JD portion of the program is 76. Further requirements are detailed in the *JD Student Handbook*. Dual degree program students may not count courses taken outside the Gould School of Law toward the 76 units.

First Year: Required Law School courses.

Second Year: Required MBA courses and graduate business electives.

Third and Fourth Years: Law courses sufficient to bring the total units completed in the Gould School of Law to at least 76 and graduate business electives sufficient to bring the total units completed in the Marshall School of Business to at least 48.

The JD and MBA degrees are awarded simultaneously upon completion of all program requirements.

Master of Business Administration/Doctor of Medicine (MBA/MD)

In response to the ongoing reorganization of health care delivery systems and the growing awareness of the impact of business decisions on health care, the Keck School of Medicine of USC and the Marshall School of Business jointly offer an innovative program for individuals seeking knowledge in both medicine and business administration. The program is designed to prepare its graduates to assume leadership in the design and management of health care systems.

Completion of the MBA/MD program spans five years. Interested students apply during their second or third year of medical school and begin required MBA courses following successful completion of the first two or three years of medical school. The remaining time is devoted to the clinical clerkships of the Keck School of Medicine and completion of elective courses in the Marshall School.

Application

MBA/MD students should apply during their second or third year of medical school in the Keck School of Medicine. Application to the MBA/MD does not require GMAT or GRE scores. All other requirements for admission to the Marshall MBA program must be fulfilled by the medical student for admission to the Marshall School. Only students who have successfully completed at least two years in the Keck School of Medicine will be considered for admission to the Marshall School of Business.

Program Requirements

At the conclusion of the program, students will have completed 48 units in the Marshall School of Business, including required and elective courses, and four years of courses in the Keck School of Medicine.

First and Second Years: Required medicine courses.

Third or Fourth Year: Required MBA courses and graduate business electives.

Remaining Years: Keck School of Medicine core, selective and elective clerkships, and graduate business elective courses sufficient to bring the total units completed in the Marshall School of Business to at least 48. Dual degree program students may not count courses taken outside the Marshall School of Business toward the 48 units.

The MD and the MBA degrees are awarded simultaneously upon completion of all program requirements.

Master of Business Administration/Doctor of Pharmacy (MBA/PharmD)

Responding to the growing demand on pharmacists to be knowledgeable in both science and business administration, the USC School of Pharmacy and the Marshall School of Business joined forces in 1988 to offer the MBA/PharmD dual degree program.

MBA Admission Requirements

Applicants to this program must have earned a baccalaureate degree equivalent to a four-year U.S. bachelor's degree from an accredited college or university. PharmD students should apply for admission to the MBA program during the first year of pharmacy studies. Only students who successfully complete the first year in the School of Pharmacy will be allowed to enroll in the MBA program.

Program Requirements

The program involves completion of the first year in the School of Pharmacy, the second year in the Marshall School of Business, and the balance of the dual degree program during the third through fifth years.

A total of 48 units of business course work is required. Dual degree program students may not count courses taken outside the Marshall School of Business toward the 48 units. See the USC School of Pharmacy for PharmD requirements.

First Year: Required Pharmacy School courses.

Second Year: Required MBA courses and graduate business electives.

Third to Fifth Years: Remaining Pharmacy courses and graduate business electives sufficient to bring the total units completed in the Marshall School of Business to at least 48.

The MBA and PharmD degrees are awarded simultaneously upon completion of both the Marshall School of Business and the School of Pharmacy requirements.

Master of Business Administration/Master of Arts in East Asian Area Studies (MBA/MA)

The Marshall School of Business in conjunction with the East Asian Studies Center (USC Dornsife College of Letters, Arts and Sciences) offers a joint MBA/MA degree program that combines graduate business education with training in the cultures and societies of East Asia. Students may complete the degree on a full- or part-time basis.

Application

Students must apply to both the Marshall School of Business and the USC Dornsife College of Letters, Arts and Sciences. GRE scores are not required for admission to the dual degree program, but may be submitted in lieu of GMAT scores.

Program Requirements

Students enrolled in the program are required to complete a minimum of 72 units. All students must complete 48 units in the Marshall School of Business. In East Asian Area Studies (EASC), students have the option of taking five courses and writing a thesis (for a total of 24 units) or taking six courses and passing a comprehensive examination (for a total of 24 units).

Required courses that must be taken in the Marshall School of Business include: all required courses in an MBA program and graduate business electives sufficient to bring the total units completed in the Marshall School of Business to at least 48. Dual degree program students may not count courses taken outside the Marshall School of Business toward the 48 units.

See East Asian Area Studies in the USC Dornsife College of Letters, Arts and Sciences for East Asian Area Studies course requirements and the foreign language requirement.

The MBA and MA degrees are awarded simultaneously upon completion of all program requirements.

Master of Business Administration/Master of Arts in Jewish Nonprofit Management (MBA/MA)

In cooperation with Hebrew Union College-Jewish Institute of Religion's Zelikow School of Jewish Nonprofit Management, the Marshall School of Business offers the dual degree program Master of Business Administration/Master of Arts in Jewish Nonprofit Management. This degree program prepares students to apply business and management concepts to the nonprofit sector.

Application

Applicants to the MBA/Master of Arts in Jewish Nonprofit Management program should apply to the Marshall School of Business and to the Zelikow School of Jewish Nonprofit Management at the Hebrew Union College-Jewish Institute of Religion concurrently.

Degree Requirements

For the Marshall School portion of the dual degree program: all courses required in an MBA program and graduate business electives sufficient to bring the total units completed in the Marshall School of Business to at least 48. Dual degree program students may not count courses taken outside the Marshall School of Business toward the 48 units.

Students must also complete a minimum of 34 units in the Zelikow School of Jewish Nonprofit Management at Hebrew Union College - Jewish Institute of Religion to complete the MA in Jewish Nonprofit Management.

Sample Student Program

Summer I: Hebrew Union College required courses

Fall I, Spring I: MBA required courses and one Hebrew Union College elective

Summer II: MBA and Hebrew Union College required courses

Fall II: Hebrew Union College required courses and MBA electives

Spring II: Hebrew Union College required courses, MBA GLOBE, and MBA elective courses

Fall, Spring III (optional): MBA electives

The MBA and the MA degrees are awarded simultaneously upon completion of their respective degree requirements.

Master of Business Administration/Master of Real Estate Development (MBA/MRED)

The Master of Business Administration/Master of Real Estate Development dual degree program enables students to expand their skills in planning, land development, marketing, decision sciences, accounting, management, finance and economics. A more sophisticated real estate market makes this diversity of training essential for many students pursuing careers in real estate finance and development.

Completion of the MRED portion of the program requires that students have use of an approved laptop computer and demonstrate calculator and spreadsheet skills; a calculator and/or spreadsheet class is offered online.

Application

Students must apply to both the Marshall School of Business and the USC Price School of Public Policy. Please consult the Admission section of each school for specific requirements.

Program Requirements

A total of 82 units is required. Required courses include:

- all "required" courses in a Marshall MBA program (Full-Time, MBA Program for Professionals and Managers, International MBA, Executive MBA, Online MBA, Management Science MBA, International Management Science, MBA)
- FBE 565 Economics of Urban Land Use: Feasibility Studies Units: 3
- FBE 588 Advanced Real Estate Law Units: 3
- additional graduate business electives sufficient to bring the total units completed in the Marshall School of Business to at least 48
- policy, planning, and development courses (34 units)

Additional Information

Dual degree program students may not count courses taken outside the Marshall School of Business toward the 48 units.

Comprehensive Examination: Students are required to complete a comprehensive examination administered by faculty members from both the Marshall School of Business and the USC Price School of Public Policy.

See Master of Real Estate Development/Master of Business Administration (MRED/MBA) for MRED course requirements.

The MBA and the MRED degrees are awarded simultaneously upon completion of all program requirements.

Master of Business Administration/Master of Science in Gerontology (MBA/MS)

The MBA/MS dual degree program combines knowledge of the older population with the skills of business management. The program prepares graduates for a number of roles in both public and private sector organizations including the marketing of products or services to seniors, human resource development with older workers and retirement benefits.

Application

Applicants to the MBA/MS in Gerontology should apply to both schools simultaneously.

Gerontology Requirements

The Master of Science in Gerontology requires 30 units of course and fieldwork, which cover the core content of the MS program. See the USC Leonard Davis School of Gerontology page for course requirements.

Business Administration Requirements

The Master of Business Administration component requires 48 units of credit. Required courses include:

- all required courses in an MBA program;
- MOR 548 Competitive Advantage Through People;
- one of the following marketing electives: MKT 512 Consumer Insights and Analysis, MKT 525 Consumer Behavior, MKT 560 Marketing Strategy;
- additional graduate business electives sufficient to bring the total units completed in the Marshall School of Business to at least 48.

Dual degree candidates may not count courses taken outside the Marshall School of Business for the 48 units.

The MBA and MS degrees are awarded simultaneously upon completion of all program requirements.

Master of Business Administration/Master of Science in Industrial and Systems Engineering (MBA/MS)

The Marshall School of Business in conjunction with the Daniel J. Epstein Department of Industrial and Systems Engineering offers a program leading to the degrees of Master of Business Administration/Master of Science in Industrial and Systems Engineering.

Application

Applicants to the MBA/MS, Industrial and Systems Engineering program should apply to both schools simultaneously.

Program Requirements

This alternative requires 66 units for graduates of industrial and systems engineering undergraduate curricula and leads to both a Master of Science in Industrial and Systems Engineering and the Master of Business Administration.

The total number of units required for the MBA portion of the program is 48.

Required business courses include all required courses in an MBA program and graduate business electives sufficient to bring the total units completed in the Marshall School of Business to at least 48.

Dual degree program students may not count courses taken outside the USC Marshall School of Business toward the 48 units.

See Master of Science, Industrial and Systems Engineering/ Master of Business Administration (MS/MBA) for industrial and systems engineering course requirements.

The MBA and the MS degrees are awarded simultaneously upon completion of all program requirements.

Master of Business Administration/Master of Science, Systems Architecting and Engineering (MBA/MS)

The Marshall School of Business in conjunction with the Viterbi School of Engineering offers a dual degree program leading to the degrees of Master of Business Administration and Master of Science in Systems Architecting and Engineering.

Application

Applicants to the MBA/MS, Systems Architecting and Engineering program should apply to both schools simultaneously. Applicants must satisfy the admission requirements of both the MBA program selected and the MSSAE program. For this program GRE scores are preferred.

Program Requirements

This alternative requires at least 72 units and leads to both a Master of Business Administration and a Master of Science in Systems Architecting and Engineering.

The total number of units required for the MBA portion of the program is at least 48.

Required business courses include all required courses in an MBA program and graduate business electives sufficient to bring the total units completed in the Marshall School of Business to at least 48.

Dual degree program students may not apply courses taken outside the USC Marshall School of Business to the MBA requirements.

See Master of Science, Systems Architecting and Engineering/ Master of Business Administration (MS/MBA) for systems architecting and engineering course requirements.

The MBA and the MS degrees are awarded simultaneously upon completion of all program requirements.

Master of Business Administration/Master of Social Work (MBA/MSW)

The Master of Business Administration/Master of Social Work dual degree program develops knowledge and skills in working with individuals, families and groups, as well as organizational dynamics, marketing, decision sciences, accounting and human relations. Students interested in working in the management of human services and not-for-profit organizations will develop knowledge of human resources, philanthropic and corporate social responsibility, organizational development and information management.

Application

Prospective students must apply to both the Marshall School of Business and the USC Suzanne Dworak-Peck School of Social Work.

Program Requirements

The MBA/MSW degree program requires completion of a total of 96 units (48 in the Marshall School of Business and 48 in the Suzanne Dworak-Peck School of Social Work).

Course requirements in the Marshall School of Business include all courses required for an MBA program and graduate business electives sufficient to bring the total units completed in the Marshall School of Business to at least 48. Dual degree program students may not count courses taken outside the Marshall School of Business toward the 48 units. See the Suzanne Dworak-Peck School of Social Work section for Social Work (MSW) course requirements.

The MBA and the MSW degrees are awarded simultaneously upon completion of all program requirements.

Master of Business Administration/Master of Urban Planning (MBA/MUP)

The Marshall School of Business in conjunction with the USC Price School of Public Policy offers a program leading to the degrees of Master of Business Administration and Master of Urban Planning.

The Master of Business Administration/Master of Urban Planning dual degree program enables students to understand the conduct and requirements of business, accounting, corporate and strategic planning, real estate marketing and finance. Students also gain expertise in public policy, city planning and the interpretation of government regulations. Exposure to both fields becomes an educational as well as professional asset for careers in either public service or private enterprise.

Application

Applicants to this program should apply to both schools simultaneously.

Program Requirements

A total of 84 units is required for the dual degree: 48 units of work in the Marshall School of Business and 36 units from the USC Price School of Public Policy. Students can complete the program on either a full- or part-time basis. The program normally requires five semesters of full-time study in residence.

Required courses that must be taken in the Marshall School of Business include: all required courses in an MBA program and graduate business electives sufficient to bring the total units completed in the Marshall School of Business to at least 48. Dual degree program students may not count courses taken outside the Marshall School of Business toward the 48 units.

See the USC Price School of Public Policy for Master of Urban Planning course requirements.

The MBA and MUP degrees are awarded simultaneously upon completion of all program requirements.

Master's Degree

Business Administration (MS)

The Master of Science in Business Administration (MS) is designed to provide those who have already completed an MBA with an opportunity to pursue further study in an area of specialization currently available to Marshall MBA students. The degree is available only to those holding MBA degrees from institutions accredited by the Association to Advance Collegiate Schools of Business (AACSB). It may be completed on either a full- or part-time basis. Classes applicable to the degree are offered during both daytime and evening hours.

Prospective applicants are encouraged to visit the MS in Business Administration Website at *marshall.usc.edu/ms-busad* for more information about this very flexible curriculum.

Admission Requirements

Applicants may apply for admission to begin the program in the summer term or the fall or spring semesters. Application deadlines vary by semester, citizenship and registration goals. Details are available under the Calendar tab at *marshall.usc.edu/ms-busad*.

Successful applicants should have earned a GPA of 3.3 or greater in their MBA course work, scored at least as well as an average Marshall MBA student on the GMAT or the GRE and have significant full-time work experience.

Application Procedure

Submit an online application to the MS program through the USC Graduate Admissions Website (*gradadm.usc.edu/*). International applicants are advised to see the instructions for international students published in the USC Graduate Admissions Website (*gradadm.usc.edu/apply/international-students/*).

- Current USC students and USC MBA alumni are not required to submit an application fee, new test scores or transcripts to verify degrees earned prior to their attendance at USC.
- Applicants who completed the MBA at an institution other than USC must submit all application documentation identified in the online application instructions including the application fee, official GMAT or GRE scores and transcripts.

For additional information, visit *marshall.usc.edu/msba*.

Program Structure and Unit Requirements

MS in Business Administration applicants are invited to consider areas of specialization available to Marshall MBA students. While the student identifies an area of interest as part of the application process, final determination of course work requirements is made under the guidance of and subject to approval by a faculty adviser. The academic department reviewing the application recommends a faculty adviser for the new student, but applicants may request a specific faculty adviser from among the faculty of the Marshall School of Business.

Together the student and the faculty adviser determine which courses the student must complete. An evaluation of work previously completed determines if prior work needs updating to prepare for new course work. If it is determined that preliminary courses are needed, the number of units needed to complete the Master of Science degree will increase. The student's program is then documented on an official program of study and filed with the MS program adviser.

Completion of the Master of Science degree requires a minimum of 24 graduate units for all candidates.

None of the GSBA prefixed classes required for completion of a Marshall MBA program may be applied toward the Master of Science in Business Administration unless they are required to update prior work and are added to the 24-unit total.

No courses numbered lower than 500 may be included in this program. No more than two courses or 8 units may be taken in graduate course work outside the Marshall School of Business.

Business Analytics (MS)

The Master of Science in Business Analytics provides students with the skill and knowledge to become experts in business analytics and to advance their careers in the area of data analytics. Students in the program acquire the statistical and optimization tools necessary to analyze large and unstructured data sets and make optimal decisions to improve the performance of their organization. In addition, students develop the ability to effectively present complex data to high-level decision-makers. This program concentrates on business applications across different industries and functions including marketing, finance, operations management, retail, manufacturing, banking and health care.

Admission Requirements

Applicants must satisfy most of the admission requirements for all Marshall master's degree programs. A few years of work experience is preferred, but not required. GMAT or GRE scores are required. For international applicants TOEFL, IELTS or PTE scores required.

Application Procedure

Prospective students may apply to begin the program in the fall semester only. Applications are submitted online through the USC graduate admissions website at *gradadm.usc.edu*. International applicants are advised to see the instructions for international students published in the USC Graduate Admissions website (*gradadm.usc.edu/apply/international-students/*).

A complete application includes the online application form, an application fee, test scores, responses to several short-answer questions, and transcripts from all institutions attended since the applicant last applied to USC.

- Current USC students and USC alumni are not required to submit an application fee, new test scores (if previously submitted) or transcripts to verify degrees earned prior to their attendance at USC.
- All other applicants must submit all documentation identified in the online application instructions.

For additional information, visit *marshall.usc.edu/msba* or write to msba@marshall.usc.edu.

Degree Requirements

The Master of Science in Business Analytics degree requires 33 units. The program may be completed full-time (3-5 courses per semester) or part-time.

Students who have taken one or more of the required courses elsewhere may petition to replace these courses with courses from the electives list and/or appropriately related courses offered by the Marshall School of Business or the Viterbi School of Engineering. Such a replacement must be approved by the program director prior to registration for the course.

Required Courses

- DSO 510 Business Analytics Units: 1.5, 3
  (normally 3 units)
- DSO 530 Applied Modern Statistical Learning Methods Units: 3
- DSO 545 Statistical Computing and Data Visualization Units: 1.5, 3
- DSO 552 SQL Databases for Business Analysts Units: 1.5
- DSO 553 NoSQL Databases in Big Data Units: 1.5
- DSO 570 The Analytics Edge: Data, Models, and Effective Decisions Units: 3
- DSO 595 Internship in Data Sciences or Operations Units: 0.5, 1, 1.5, 2
  (Curricular Practical Training) (maximum 1.5 units)
- GSBA 542 Communication for Management Units: 1.5
- GSBA 545 Data Driven Decision Making Units: 1.5

At least one from the following:

- DSO 556 Business Models for Digital Platforms Units: 3
- DSO 573 Data Analytics Driven Dynamic Strategy and Execution Units: 3
- DSO 574 Using Big Data: Challenges and Opportunities Units: 3

Electives

Complete courses from the following list sufficient to total the 33 units required to complete the program.

- Any 500-level DSO course not completed as a requirement (above)
- DSCI 553 Foundations and Applications of Data Mining Units: 4
- DSCI 556 User Experience Design and Strategy Units: 4
- FBE 551 Quantitative Investing Units: 3
- MKT 512 Customer Insights and Analysis Units: 3
- MKT 536 Pricing Strategies Units: 3
- MKT 566 Marketing Analytics Units: 3
- MKT 567 Marketing Metrics for Business Decisions Units: 3

Business for Veterans (MBV)

This program is offered in an intensive format for veterans who wish to gain formal business knowledge and develop critical thinking skills to manage or grow a business. Significant project and course work is completed primarily through residential sessions with supplemental content delivered via distance learning. Class sessions meet over 20 full-day sessions each semester for two semesters with minimal interruption to the careers of working veterans. The program is offered on the University Park Campus in downtown Los Angeles.

Applications are due by May 20 for a program start date in mid-July. Application information is available online at marshall.usc.edu/MBV. For additional information, contact the Master of Business for Veterans office at (213) 740-5719 or by email at *mbv@marshall.usc.edu*.

This program requires 25 units that will be taken in lockstep fashion. These courses are thematic semesters that are interdisciplinary in nature.

Fall

- BAEP 553 Cases in New Venture Management Units: 1.5, 3
- GSBA 561 Evaluating Market Performance Units: 9

Spring

- BAEP 549 The Entrepreneurial Journey Units: 2
- GSBA 572 Strategic Planning for Growth Units: 11

Total units: 25

Business Research (MS)

The Master of Science in Business Research is an alternative available to only Marshall PhD students.

Admission

Marshall does not accept applications for admission to this program. A student admitted to the Marshall PhD program may later request conversion or be invited by the faculty to complete the master's degree in lieu of the PhD. Requests for conversion are subject to approval by the Marshall vice dean who oversees the PhD program.

For more information, contact the PhD program office for a referral to the MSBR adviser.

Program Requirements

The degree requires a minimum of 30 graduate units for all candidates.

Upon admission to the PhD program, the student works with a faculty adviser who oversees the selection of course work, taking into account the student's prior academic preparation. The curriculum requires completion of PhD program core courses focusing on research methods and theory in an area of specialization. Additional courses are drawn from the Marshall School of Business and other participating departments at USC including economics, psychology, mathematics, sociology, engineering, communication and others.

No courses numbered lower than 500 may be applied in this program. All courses applied to the degree must be letter-graded and completed in residence at USC. No transfer units or graduate units from a degree previously completed at USC can be applied to the MS in Business Research.

Entrepreneurship and Innovation (MS)

The Master of Science in Entrepreneurship and Innovation is designed to develop the entrepreneurial knowledge, skill sets and decision-making frameworks required to recognize and evaluate business opportunities and to create and guide a new entrepreneurial entity either individually or within a larger organization. The curriculum focuses on topics such as entrepreneurial decision-making, business model formulation, feasibility analysis, leading innovation and change, and how to access and deploy capital and other resources for the successful launch of a new venture. The degree can be completed on either a full- or part-time basis, and classes are offered primarily at night to accommodate the needs of working professionals.

Admission Requirements

To qualify for admission to the MSEI program, prospective students must hold a four-year bachelor's degree, or equivalent. Applicants in the process of finishing an undergraduate degree may apply, with acceptance contingent on finishing the undergraduate degree. Admission decisions are based on consideration of the applicant's previous academic record, résumé, letters of recommendation and responses to several essay questions. Full-time work experience is encouraged but not required. International applicants are required to submit TOEFL, IELTS or PTE scores. This requirement is waived for students who have completed their entire bachelor's degree program at a regionally accredited university located in the United States or officially recognized university in another country where English is both the language of instruction and the only officially recognized language of the country. Proof of financial support is required of admitted international applicants.

Application Procedure

Applications are accepted for fall semester enrollment only. Submit an online application to the program through the USC admissions website here.

A complete application includes the online application form, test scores for international applicants, responses to several questions, an application fee, two letters of recommendation and copies of transcripts from all institutions attended.

- Current USC students and USC alumni are not required to submit an application fee or transcripts to verify degrees earned prior to their attendance at USC.
- All other applicants must submit all documentation identified in the online application instructions.

For additional detailed information visit *marshall.usc.edu/MSEI* or write to MS.EI@marshall.usc.edu or call (213) 821-0877.

Degree Requirements

The Master of Science in Entrepreneurship and Innovation requires 27 units.

Required Courses

- BAEP 549 The Entrepreneurial Journey Units: 2
  or
- BAEP 551 Introduction to New Ventures Units: 3
- BAEP 552 Venture Feasibility Units: 3
- BAEP 554 Venture Initiation Units: 3
- BAEP 555 Founder's Dilemmas: Anticipate and Avoid Startup Pitfalls Units: 3
- BAEP 558 The Entrepreneurial Advisor: Problem Solving for Early-Stage Companies Units: 1.5, 3
  (3 units required)

Elective Courses

Select 12-13 units from the following to total 27 units.

- BAEP 553 Cases in New Venture Management Units: 1.5, 3
- BAEP 557 Technology Commercialization Units: 3
- BAEP 559 Investing in New Ventures Units: 3
- BAEP 560 Acquiring Your Own Business or Opportunity Units: 3
- BAEP 561 Entrepreneurship in Innovative Industries: Life Sciences Units: 1.5
- BAEP 562 Entrepreneurship in eCommerce Units: 1.5
- BAEP 563 Corporate Entrepreneurship Units: 3
- BAEP 565 Venture Lab Units: 3
- BAEP 575 Entrepreneurship in the Media and Entertainment Industry Units: 1.5
- BAEP 585 Seminar: The Entrepreneurial Mindset Units: 1.5
- BAEP 591 Social Entrepreneurship Units: 2, 3
- BAEP 599 Special Topics Units: 1.5, 2, 2.5, 3
- BUCO 503 Advanced Managerial Communication Units: 1.5, 3
- CE 576 Invention and Technology Development Units: 3

- DSO 547 Designing Spreadsheet-Based Business Models Units: 3
- FBE 527 Entrepreneurial Finance: Financial Management for Developing Firms Units: 3
- ISE 545 Technology Development and Implementation Units: 3
- MKT 528 Sales Management: The Art and Science of Sales Units: 3
- MKT 530 New Product Development Units: 3
- MKT 533 Branding Strategy Units: 1.5, 3
- MKT 556 Internet Marketing Units: 3
- MOR 554 Leading Innovation and Change Units: 3
- MOR 567 Interpersonal Influence and Power Units: 3
- MOR 569 Negotiation and Deal-Making Units: 3
- MOR 570 Leading Effective Teams Units: 3
- MOR 579 The Business of Sports Entertainment Units: 3

Total units: 27

Finance (MS)

The Master of Science in Finance (MS) is designed to provide individuals with the necessary skills and knowledge to become experts in finance and thus advance their careers. The program provides individuals with tools, ideas and frameworks that will aid them in applying finance principles to businesses.

The program lays the groundwork with core courses in accounting, economics, finance and statistics. The foundation is supplemented with courses on the role of finance in corporations, investment analysis and portfolio theory, and forecasting and risk. In addition, students personalize their degree with a choice of elective courses covering topics like real estate, mergers and acquisitions, and hedge funds.

Admission Requirements

Applicants must satisfy most, but not all of the general admission requirements for Marshall graduate programs. GMAT or GRE scores are required. Full-time work experience is not required for admission to the MS, Finance.

Admission decisions are based on consideration of the applicant's previous academic record, resume, test scores (if provided), letter of recommendation and responses to several questions included in the application. Individuals who are admitted must have completed the equivalent of a four-year U.S. bachelor's degree prior to the start of classes.

Application Procedure

Applications are submitted online through the USC Graduate Admissions website at *gradadm.usc.edu/*. International applicants are advised to see the instructions for international students published in the USC Graduate Admissions website (*gradadm.usc.edu/apply/international-students/*).

A complete application includes the online application form, an application fee, responses to several questions, test scores (if applicable), one letter of recommendation, and transcripts from all institutions attended since the applicant last applied to USC. (Current USC students and USC alumni are not required to submit an application fee or transcripts from institutions attended prior to USC. Applicants who have never applied for admission to USC must submit official transcripts from all institutions of higher education attended.) For additional information, including application deadlines, visit *marshall.usc.edu/MSF*.

Degree Requirements

The Master of Science in Finance degree requires 36 units.

Students who have taken (at USC or elsewhere) one or more of the required "core" courses (at the graduate/post-baccalaureate level) may petition to waive out of the duplicate courses. It is expected that individuals holding accredited graduate degrees in related fields may be able to waive out of some or all four core courses, reducing the total number of units required to earn the degree to as few as 24. Waivers must be requested in an attachment to the application for admission and approved by the academic director prior to the start of the program.

A cumulative GPA of at least 3.0 for all course work applied to the degree and an overall graduate GPA at USC of at least 3.0 are required for graduation.

Required "Core" Courses

- FBE 506 Quantitative Methods in Finance Units: 3
- GSBA 510 Accounting Concepts and Financial Reporting Units: 1.5, 2, 3
  (3 units for this program)
- GSBA 511 Microeconomics for Management Units: 1.5, 3
  (3 units for this program)
- GSBA 548 Corporate Finance Units: 2, 3
  (3 units for this program)

Additional Required Courses

- FBE 524 Money and Capital Markets Units: 3
- FBE 529 Financial Analysis and Valuation Units: 3
- FBE 531 Corporate Financial Policy and Corporate Governance Units: 1.5, 3
  (3 units for this program)
- FBE 543 Forecasting and Risk Analysis Units: 3
- FBE 555 Investment Analysis and Portfolio Management Units: 3
- FBE 595 Internship in Finance or Business Economics Units: 0.5, 1, 1.5, 2
  (maximum 1.5 units for this program)

Electives

Complete courses from the list below sufficient to total the units required to complete the program.

- FBE ELECTIVES: Any 500-level FBE course not completed as a requirement (above)
- ACCT 532 Financial Accounting for Mergers and Acquisitions Units: 1.5
- ACCT 533 Mergers and Acquisitions: Tax Planning and Strategy Units: 1.5
- ACCT 559 Strategy and Operations Through CFO Lens Units: 3
- ACCT 572 Corporate Accounting and Reporting Units: 3
- ACCT 581 Financial Statement Analysis Units: 3
- DSO 510 Business Analytics Units: 1.5, 3
- DSO 528 Data Warehousing, Business Intelligence, and Data Mining Units: 1.5, 3
- DSO 545 Statistical Computing and Data Visualization Units: 1.5, 3
- DSO 570 The Analytics Edge: Data, Models, and Effective Decisions Units: 3
- MOR 542 Strategic Issues for Global Business Units: 3
- MOR 559 Strategic Renewal and Transformation Units: 3
- MOR 562 Strategic Choice and Valuation Analysis Units: 3
- MOR 569 Negotiation and Deal-Making Units: 3
- MOR 588 Corporate Strategy and Competitive Dynamics Units: 1.5, 3

Total Units: 36

Food Industry Leadership (MS)

The food industry is rapidly changing, and future executives will need new tools and innovative solutions for how to be both proactive and reactive to new food trends, new consumer demands and new paradigms for how food is developed, sourced, acquired and consumed.

The Master of Science in Food Industry Leadership provides tools, concepts, frameworks and practical hands-on projects in areas such as new/current technologies, strategic planning and managing change as a senior leader. This unique curriculum integrates the functional areas of business with cutting-edge theory and practical application to help students understand how all of the pieces of an entire organization fit together and work dynamically to support the success of local and global businesses.

The Food Industry Leadership program builds a cohort-based learning environment and includes both on-campus and online components.

Admission Requirements

In addition to the general USC admission requirements, applicants should have 10-15 years of work experience in the food industry and specific expertise in retail, consumer manufactured goods, wholesale, broker and/or other food distribution verticals. Alternatively, candidates may have management/leadership experience and have recently switched careers to join the industry. Candidates must demonstrate meaningful and progressive administrative or management responsibilities from employment, committees, or volunteer activities.

GMAT or GRE test scores are not required. International applicants who did not spend four years completing a bachelor's degree at an American, British, Canadian or Australian college or university must submit TOEFL, IELTS or PTE scores. For USC's admissions policy related to English language competency, see https://gradadm.usc.edu/lightboxes/international-students-english-proficiency/. Successful applicants will submit TOEFL scores no lower than 100 or IELTS scores no lower than 7.0.

Application Procedure

Applications are submitted online through the USC Graduate Admissions Website (*http://gradadm.usc.edu/*). International applicants are advised to see the instructions for international students published in the USC Graduate Admissions Website (*http://gradadm.usc.edu/apply/international-students/*).

A complete application includes the online application form, an essay, an application fee, two letters of recommendation, and official copies of transcripts from all institutions attended since high school.

For additional information, visit marshall.usc.edu/fil, email fil@marshall.usc.edu, or call 213-740-8948.

Degree Requirements

The online Master of Science in Food Industry Leadership degree requires 30 units.

- BUCO 534 Unconscious Bias, Diversity and Inclusion Units: 1
- FIM 529 Financial Analysis and Valuation in the Food Industry Units: 2
- FIM 550 Perspectives on the Food Industry Units: 1
- FIM 554 Leading Change in the Food Industry Units: 1
- FIM 560 Decision Making in the Food Industry Units: 1
- FIM 564 Innovation in the Food Industry Units: 1
- FIM 567 Influence and Power in the Food Industry Units: 1
- FIM 569 Negotiation in the Food Industry Units: 1
- FIM 571 Leadership in the Food Industry Units: 1
- FIM 574 Food Industry for the Future Units: 1
- FIM 591 Food Industry Leadership Capstone Project Units: 3
- GSBA 507 Organizational Behavior Units: 2
- GSBA 513 Interpersonal and Team Communication Units: 1
- GSBA 514 Leadership Communication Styles and Strategies Units: 1
- GSBA 515 Communicating Professional Presence Units: 1
- GSBA 529 Strategic Formulation for Competitive Advantage Units: 3
- GSBA 536 Accounting for Management Decision Making Units: 2
- GSBA 546 Strategic Marketing Management Units: 2
- MKT 546 Digital Marketing Units: 1
- MOR 563 Advanced Strategy: Competing in Dynamic Environments Units: 3

Total Units: 30

Global Supply Chain Management (OnCampus/Residential) (MS)

The residential Master of Science in Global Supply Chain Management provides individuals with the necessary skills and knowledge to become experts in the area of supply chain management and thus advance their careers. The program focuses on topics like strategic procurement, outsourcing, logistics and distribution, the role of information technology in managing global supply chains and how these impact the process of developing new products. The aim is to provide the students with a framework that integrates different topics and an understanding of the trade-offs and relationships between these topics. Two experiential courses provide natural settings to study, understand and appreciate the complex nature of this field.

Admission Requirements

Applicants to this program are required to satisfy the general Marshall admission requirements. Admission decisions are based on consideration of the applicant's previous academic record, résumé, letters of recommendation, responses to several essay questions and an interview video presentation. A few years of work experience is preferred, but not required. GMAT or GRE scores are required. For international applicants TOEFL, IELTS or PTE scores are required.

Application Procedure

Prospective students may apply to begin the program in the fall semester only. Applications are submitted online through the USC Graduate Admissions website at *gradadm.usc.edu/*. International applicants are advised to also consult the instructions for international students published in the USC Graduate Admissions Application website (*gradadm.usc.edu/apply/international-students/*).

A complete application includes the online application form, an application fee, test scores, responses to several short-answer questions, two letters of recommendation and transcripts from all institutions of higher education attended.

- Current USC students and USC alumni are not required to submit an application fee, new test scores (if previously submitted) or transcripts to verify degrees earned prior to their attendance at USC.
- Individuals who have applied for admission to a USC graduate program before but were not admitted may not have to submit new test scores or original transcripts.
- All other applicants must submit all documentation identified in the online application instructions.

For additional information, email MS.GSCM@marshall.usc.edu.

Degree Requirements

The Master of Science in Global Supply Chain Management degree requires 30 units including at least 20 units of required course work plus up to 10 units of course work chosen from a list of electives.

Individuals who have taken (at USC or elsewhere) one or more of the required courses may petition to replace these courses with selections from the list of electives or appropriately related courses offered by the Marshall School of Business or the Viterbi School of Engineering. Such a replacement must be approved by the program director prior to registration for the alternate course.

Required Courses

- DSO 547 Designing Spreadsheet-Based Business Models Units: 3
- DSO 549 Application of Lean Six Sigma Units: 3
- DSO 557a Global Supply Chain Management in International Settings Units: 1.5
- DSO 557b Global Supply Chain Management in International Settings Units: 1.5
- DSO 581 Supply Chain Management Units: 3
- DSO 595 Internship in Data Sciences or Operations Units: 0.5, 1, 1.5, 2
  (maximum 1.5 units applicable to this degree)
- GSBA 534 Operations Management Units: 2, 3 *
- GSBA 542 Communication for Management Units: 1.5
- ISE 583 Enterprise Wide Information Systems Units: 3
  **Must be completed in the first semester (3 units).*

Electives

Select courses from the following list to total the 30 units required to complete the program.

- Any 500-level DSO course not completed as a requirement (above)

- CE 589 Port Engineering: Planning and Operational Analysis Units: 4
- ISE 506 Lean Operations Units: 3
- ISE 513 Inventory Systems Units: 3
- ISE 514 Advanced Production Planning and Scheduling Units: 3
- ISE 527 Quality Management for Engineers Units: 3
- ISE 544 Leading and Managing Engineering Teams Units: 3
- ISE 585 Strategic Management of Technology Units: 3
- MOR 569 Negotiation and Deal-Making Units: 3
- MOR 557 Strategy and Organization Consulting Units: 3

Total units: 30

Global Supply Chain Management for Executives (MS) (Online)

The online Master of Science in Global Supply Chain Management program is designed to facilitate the needs of professionals and executives in the United States and around the world who wish to expand their knowledge of the rapidly changing world of global supply chain management.

Courses are transmitted from studio classrooms via an extensive Internet-delivery system to enable the students to access their classes from anywhere. Lectures are made accessible for the entire semester, allowing students to review a complex lesson or prepare for exams. All classes are taught in English. Using the Internet, students are required to work in teams and are encouraged to interact with the instructors and their classmates.

Two international travel experiences to global distribution hubs are included in the program. Participation in both trips is required for graduation. Some courses may require in-person midterm and final examinations. These exams will be administered in cities near student population concentrations, requiring that students travel to reach these locations.

Admission Requirements

In addition to the general Marshall admission requirements, applicants should have at least three years of full-time work experience. Admission decisions are based on consideration of the applicant's previous academic record, résumé, letters of recommendation, responses to several essay questions and an interview video presentation. TOEFL, IELTS or PTE scores and GMAT or GRE test scores are not required for this program.

Application Procedure

Submit an online application to the program through the USC graduate admissions website at *gradadm.usc.edu*. International applicants are advised to view the information for international students published at *gradadm.usc.edu/apply/international-students/*.

Deadlines and other application details can be found at marshall.usc.edu/msgscm/admissions.

- Current USC students and USC alumni are not required to submit an application fee or transcripts to verify degrees earned prior to their attendance at USC.
- Individuals who have applied for admission to a USC graduate program before but were not admitted may not have to submit new test scores or original transcripts.
- All other applicants must submit all documentation identified in the online application instructions including the application fee and copies of transcripts.

For additional information, visit *marshall.usc.edu/msgscm or* email MS.GSCM@marshall.usc.edu .

Degree Requirements

The online Master of Science in Global Supply Chain Management degree requires 30 units.

Individuals who have taken (at USC or elsewhere) one or more of the required courses may petition to replace these courses with selections from the list of electives or appropriately related courses offered by the Marshall School of Business or the Viterbi School of Engineering. Such a replacement must be approved by the program director prior to registration for the alternate course.

Required Courses

- DSO 520 Logistics Management Units: 3
- DSO 549 Application of Lean Six Sigma Units: 3
- DSO 557a Global Supply Chain Management in International Settings Units: 1.5
- DSO 557b Global Supply Chain Management in International Settings Units: 1.5
- DSO 580 Project Management Units: 3
- DSO 581 Supply Chain Management Units: 3
- GSBA 534 Operations Management Units: 2, 3 *
- GSBA 542 Communication for Management Units: 1.5

- ISE 585 Strategic Management of Technology Units: 3

Total units: 30

Library and Information Science (MMLIS)

The Master of Management in Library and Information Science is designed to educate professional librarians for leadership from every level of the enterprise in academic, public and corporate environments. Graduates will identify and analyze critical issues and leverage resources and expertise to build community and organizational assets.

The program provides a solid foundation of course work followed by elective options culminating in the capstone project. Each semester students enroll in a two-unit course in which they investigate critical issues, connect with leaders, undertake research with faculty and otherwise extend their learning and understanding.

The capstone project provides an opportunity for students to demonstrate their learning during the MMLIS experience and achievement of the core competencies for the program.

Courses are offered entirely online each fall and spring semester and during the summer. The program is offered through small cohorts.

Application

To qualify for admission to the MMLIS program, prospective students must hold a bachelor's degree from an accredited institution and have earned an undergraduate GPA of at least 3.0. (Neither the GMAT nor the GRE is required for application/admission to this program.) International applicants are required to submit a TOEFL score and must have earned a score of at least 100, with at least 20 in each section. (Students who have completed their entire bachelor's degree program at regionally accredited universities located in the United States or in another country in which English is both the language of instruction and the official language of the country are exempt.) Proof of financial support is required of admitted international applicants.

Applicants will also submit a professional résumé, a statement of purpose, three letters of recommendation and transcripts from each institution of higher education attended.

For more information write to MMLIS.Program@marshall.usc.edu or contact the program administrator at (213) 640-4034.

Curriculum

The MMLIS degree requires 40 semester units — 28 units of foundation and other required courses, 9 units of electives, and 3 units of Capstone.

Required Foundation Courses (18 units)

Must be completed prior to taking electives.

- GSBA 502 Management Communication for Leaders Units: 3
- GSBA 509 Marketing Management Units: 1.5
- GSBA 510 Accounting Concepts and Financial Reporting Units: 1.5, 2, 3
  (1.5 units)
- LIM 500 Fundamentals of Library and Information Science Units: 3
- LIM 502 Collection Development and Management Units: 3
- LIM 503 Information Description, Organization, and Retrieval Units: 3
- LIM 504 Research Methods in Library and Information Management Units: 3

Other Required Courses (10 units)

- LIM 535 Library Information Sources and Services Units: 2
- LIM 536 Library Project Management Units: 2
- LIM 537 Legal, Ethical and Strategic Fundamentals for Library Managers Units: 2
- LIM 593 Independent Research in Library and Information Management Units: 2
- LIM 595 Internship in Library and Information Management Units: 2
  Students may repeat LIM 593 for 2 units in lieu of completing an internship.

Electives (9 units)

Elective offerings vary from semester to semester.

Capstone (3 units)

- LIM 598 Capstone in Library and Information Management Units: 3

Total units required for the degree: 40

Management Studies (MMS)

The Master of Management Studies (MMS) is designed to provide those who have already completed the equivalent of the first year of an accredited traditional two-year MBA with an opportunity to pursue further study in an area of specialization currently available to Marshall graduate students.

Completion of the Master of Management Studies degree requires a minimum of 26 graduate units for all candidates.

Courses applicable to the degree are offered during both daytime and evening hours. The degree may be completed on either a full- or part-time basis. International students should expect to complete the program within two semesters.

Prospective applicants are encouraged to review the full list of specialized master's programs offered by the Marshall School of Business (*marshall.usc.edu/masters*) before applying for admission to this program. Also, visit the Master of Management Studies website at *marshall.usc.edu/mms* for more information about this very flexible curriculum. Information about the areas of concentration offered to Marshall graduate students is available at *marshall.usc.edu/ecg*.

Admission Requirements

Applicants may apply for admission to begin the program in the summer term or the fall or spring semesters. Application deadlines vary by semester, citizenship and registration goals. Details are available under the Dates and Deadlines tab at *marshall.usc.edu/mms*.

The equivalent of a four-year bachelor's degree is required for admission. Additionally, applicants must have completed the equivalent of the first year of a traditional two-year MBA accredited by the AACSB, EQUIS, ACBSP, AOCTE, IACBE or AMBA. Successful applicants should have earned a GPA of 3.3 or greater in their graduate business course work and scored in at least the 80th percentile on the GMAT or the GRE.

Application Procedure

Submit an online application to the MMS program through the USC Graduate Admissions Website (*http://gradadm.usc.edu/*). International applicants are advised to see the instructions for international students published in the USC Graduate Admissions Application *(http://gradadm.usc.edu/apply/international-students/)*.

For additional information, visit *marshall.usc.edu/mms*.

Program Structure and Unit Requirements

Master of Management Studies applicants are urged to consider areas of specialization available to Marshall graduate students published at marshall.usc.edu/ecg. The applicant is asked to identify areas of interest as part of the application process, but is free to choose course work from the full range of graduate electives offered by Marshall.

An evaluation of work previously completed determines if specific content areas are missing. If it is determined that preliminary courses are needed, the number of units needed to complete the Master of Management Studies degree will increase.

Completion of the Master of Management Studies degree requires a minimum of 26 graduate units.

None of the GSBA-prefixed classes required for completion of a Marshall MBA program may be applied toward the Master of Management Studies unless they are required to update prior work and are added to the 26-unit total.

No courses numbered lower than 500 may be included in this program. No more than two courses or eight units may be taken in graduate course work outside the Marshall School of Business.

Successful completion of the program is documented on the student's USC transcript and acknowledged by a diploma awarded by the university.

Marketing (Marketing Analytics) (MS)

The Master of Science in Marketing (Marketing Analytics) provides students with tools, concepts, frameworks and critical thinking and innovative skills needed for more effective development, enhancement and refinement of marketing techniques critical to the success of local and global businesses.

Students will develop skills to position themselves as leaders in quantitative marketing methods, gaining exposure to in-demand programming languages such as R and Python for marketers, as well as strategies and techniques for predictive modeling, consumer analysis, customer segmentation and micro-targeting. Practical hand-on projects in areas such as technology, biotechnology, healthcare, entertainment, sports entertainment and marketing start-ups provide students with opportunities to apply the classroom experience to the real world.

Admission Requirements

Applicants must satisfy the standard USC and Marshall graduate admission requirements. At least two years of full-time work experience is preferred. GMAT or GRE scores are required. The GMAT is preferred. International applicants who did not spend four years completing a bachelor's degree at an American, British, Canadian or Australian college or university must submit TOEFL, IELTS or PTE scores.

Individuals applying for admission to the Graduate Certificate in Marketing should not apply for admission to this program also.

Application Procedure

Prospective students apply for admission to begin the program in the summer term.

Applications are submitted online through the USC Graduate Admissions application Website at gradadm.usc.edu. International applicants are advised to see the instructions for international students published in the USC Graduate Admissions Website.

A complete application includes the online application form, official test scores, essays, an application fee, two letters of recommendation and official transcripts from all institutions of higher education attended. Current USC students and USC alumni are not required to submit an application fee, new test scores (if previously submitted) or transcripts to verify degrees earned prior to their attendance at USC.

For additional information, visit marshall.usc.edu/MSMkt.

Degree Requirements

The Master of Science in Marketing requires 30 units including 21 units of required course work and at least 9 units of electives with a GPA of at least 3.0 for all units applied to the degree. The program may be completed on a full-time or part-time basis.

Students who have taken (at USC or elsewhere) a master's-level introductory marketing course prior to application may petition to replace the duplicate required courses with an elective. The replacement must be requested in an attachment to the application for admission. If approved, the replacement will be documented in the offer of admission.

Required Courses (21 Units)

- DSO 510 Business Analytics Units: 1.5, 3 *
  (3-unit version required)
- GSBA 528 Marketing Management Units: 3 *
- GSBA 542 Communication for Management Units: 1.5 *
- GSBA 545 Data Driven Decision Making Units: 1.5
- MKT 556 Internet Marketing Units: 3
- MKT 560 Marketing Strategy Units: 3
  * *Must be taken in the first term/semester or prior to admission.*

At least two from the following:

- MKT 512 Customer Insights and Analysis Units: 3
- MKT 543 Market Demand and Sales Forecasting Units: 3
- MKT 566 Marketing Analytics Units: 3

Elective Courses (9 units)

Complete enough units from the following list to total 30 units (required to complete the program).

- DSO 528 Data Warehousing, Business Intelligence, and Data Mining Units: 1.5, 3
- DSO 545 Statistical Computing and Data Visualization Units: 1.5, 3
- DSO 570 The Analytics Edge: Data, Models, and Effective Decisions Units: 3
- DSO 574 Using Big Data: Challenges and Opportunities Units: 3
- MKT 512 Customer Insights and Analysis Units: 3 **
- MKT 526 Advertising and Social Media: Strategy and Analytics Units: 3
- MKT 530 New Product Development Units: 3
- MKT 536 Pricing Strategies Units: 3
- MKT 543 Market Demand and Sales Forecasting Units: 3 **
- MKT 566 Marketing Analytics Units: 3 **
- MKT 567 Marketing Metrics for Business Decisions Units: 3
  ** *If not completed as a required course.*

Total Units Required: 30

Marketing (MS)

The Master of Science in Marketing provides students with tools, concepts, frameworks and critical thinking and innovation skills needed for more effective development, enhancement and refinement of marketing techniques critical to the success of local and global businesses.

The degree focuses on theories and applications of consumer behavior in marketing, as well as psychological, social, cultural and ethnic factors influencing consumer behavior. Practical hand-on projects in areas such as technology, biotechnology, healthcare, entertainment, sports and marketing start-ups provide students with opportunities to apply the classroom experience to the real world.

Admission Requirements

Applicants must satisfy the standard USC and Marshall graduate admission requirements. At least two years of full-time work experience is preferred. GMAT or GRE scores are required. The GMAT is preferred. International applicants who did not spend four years completing a bachelor's degree at an American, British, Canadian or Australian college or university must submit TOEFL, IELTS or PTE scores.

Individuals who are specifically interested in statistical evaluation and marketing analytics should consider applying to the Master of Science in Marketing (Marketing Analytics) program. Individuals applying for admission to the Graduate Certificate in Marketing should not apply for admission to this program also.

Application Procedure

Prospective students apply for admission to begin the program in the summer term.

Applications are submitted online through the Marshall School of Business application website at gradadm.usc.edu. International applicants are advised to see the instructions for international students published in the USC Graduate Admissions Website.

A complete application includes the online application form, official test scores, an essay, an application fee, two letters of recommendation and official transcripts from all institutions of higher education attended. Current USC students and USC alumni are not required to submit an application fee, new test scores (if previously submitted) or transcripts to verify degrees earned prior to their attendance at USC.

For additional information, visit *marshall.usc.edu/MSMkt*.

Degree Requirements

The Master of Science in Marketing requires 30 units including 19.5 units of required course work and 10.5 units of electives with a GPA of at least 3.0 for all units applied to the degree. The program may be completed on a full-time or part-time basis.

Students who have taken (at USC or elsewhere) a master's-level introductory marketing course prior to application may petition to replace the duplicate required course with an elective. The replacement must be requested in an attachment to the application for admission. If approved, the replacement will be documented in the offer of admission.

Required Courses (19.5 Units)

- GSBA 528 Marketing Management Units: 3 *
- GSBA 542 Communication for Management Units: 1.5 *
- MKT 525 Consumer Behavior Units: 3
- MKT 543 Market Demand and Sales Forecasting Units: 3
  or
- DSO 510 Business Analytics Units: 1.5, 3
- MKT 556 Internet Marketing Units: 3
- MKT 566 Marketing Analytics Units: 3
- MKT 560 Marketing Strategy Units: 3

Note: * *Must be taken in the first term/semester or prior to admission.*

Elective Courses (10.5 units)

Complete at least 10.5 units of 500-level ACCT, BAEP, BUCO, DSO, FBE, GSBA, MKT or MOR course work to reach the total number of units required to complete the program. (Enrollment in electives is subject to satisfaction of any prerequisite requirements in addition to the units required for the degree.) Students may petition to apply to the program marketing-related courses offered by other USC Schools. For a list of pre-approved courses, visit the program web page here.

Total Units Required: 30

Social Entrepreneurship (MS)

The Master of Science in Social Entrepreneurship offers students a unique combination of business entrepreneurship skills delivered within the context of achieving both social and financial missions.

The courses focus entirely on the business aspects of social entrepreneurship including feasibility, planning, marketing, management, finance and execution. Social, environmental and health issues are integrated into the readings, cases, teaching, guest lectures, exercises and assignments. The program also includes a for-credit practical capstone project in which students have the option to develop a business plan for a new social enterprise.

This program requires 30 units and can be completed in one year (full time) or two years (part time). Courses are offered in

the evenings and on weekends on the University Park Campus in downtown Los Angeles.

Admission Requirements

Applicants apply online and must fulfill the general Marshall/USC admission requirements for graduate programs. Admission decisions into the MSSE program will be based on an applicant's previous academic record, résumé, a letter of recommendation and a response to an essay question. TOEFL, IELTS or PTE scores will be required for international applicants who have not completed the equivalent of a four-year bachelor's degree (all four years) at an institution in a country where English is the primary official language. GMAT or GRE scores are recommended, but will not be required for this program.

Application Procedure

Submit an online application to the program through the USC Graduate Admissions website (*gradadm.usc.edu/*). International applicants are advised to view the information for international students at *gradadm.usc.edu/apply/international-students/*.

A complete application includes the online application form, an application fee, a response to the essay question, one letter of recommendation and copies of transcripts from all institutions attended since the applicant last applied to USC.

For more information about the program and detailed information about the application requirements and procedures, please visit *marshall.usc.edu/MSSE*, write to SocialEntrepreneur@marshall.usc.edu, or call (213) 740-7587.

Degree Requirements

The Master of Science in Social Entrepreneurship requires 30 units.

Required Courses

- BAEP 564 Investing in Impact Ventures Units: 3
- BAEP 566 Cases in Feasibility Analysis for Social Ventures Units: 3
- BAEP 567 Social Entrepreneurship: Design, Develop, and Deliver Units: 3
- BAEP 571 Social Innovation Design Units: 3
- BAEP 589 Social Entrepreneurship Units: 2
- GSBA 510 Accounting Concepts and Financial Reporting Units: 1.5, 2, 3
  (normally 2 units)
- GSBA 528 Marketing Management Units: 3
- GSBA 529 Strategic Formulation for Competitive Advantage Units: 3
- GSBA 548 Corporate Finance Units: 2, 3
  (normally 2 units)

Elective Courses

Complete at least 6 units of 500-level ACCT, BAEP, BUCO, DSO, FBE, GSBA, MKT or MOR course work to reach 30 units. (Enrollment in electives is subject to satisfaction of any prerequisite requirements in addition to the 30 units required for the degree.)

Total units: 30

Dual Degree

Master of Science, Social Entrepreneurship/ Master of Public Health (MS/MPH)

The Master of Public Health/Master of Science in Social Entrepreneurship (MPH/MSSE) dual degree program is designed for individuals who wish to create sustainable solutions to public health challenges through the creation of innovative enterprises and organizations. This program combines the business aspects of social entrepreneurship with the knowledge and understanding of public health challenges and how to improve the health of individuals, communities, and populations, locally and globally. It will enable graduates to become agents of change by equipping them with the tools to build innovative enterprises that balance financial sustainability with public health impact, preparing them uniquely to become leaders in the field.

Application and Admission

Applicants to the MSSE/MPH should apply for admission to both schools simultaneously.

Information about the application process and admission requirements for the MSSE degree is available on the MSSE Website at *marshall.usc.edu/msse/admission*.

Information about the application process and admission requirements for the MPH degree is available on the MPH Website at *preventivemedicine.usc.edu*.

Degree Requirements

The total unit requirement for the MPH/MSSE dual degree is 62 units: 24 units for the MSSE degree and 38 units for the MPH degree.

Students are required to complete 24 units, including all "Required Courses," in the Master of Science in Social Entrepreneurship curriculum. Dual degree program students may not count courses taken outside the USC Marshall School of Business toward the MSSE degree. Visit the Social Entrepreneurship (MS) section of this Catalogue for MSSE degree requirements.

Students are required to complete 38 units of MPH specific course work, including 18 units of MPH core course work and 20 units of concentration specific course work. Students may choose from any concentration within the MPH program.

Students must have a cumulative GPA of 3.0 in the MSSE curriculum and a 3.0 in the MPH curriculum, in addition to having a minimum 3.0 cumulative overall GPA in all graduate coursework taken at USC in order to meet graduation requirements.

The MSSE and the MPH degrees are awarded simultaneously upon completion of all program requirements.

Graduate Certificate

Business Analytics Graduate Certificate

The Graduate Certificate in Business Analytics provides students with the tools, ideas and frameworks that will aid them in making business decisions in a scientific manner, based on actual data, to improve the performance of their organization. Students in the program acquire the statistical and optimization tools necessary to analyze large and unstructured data sets and make optimal decisions to improve the performance of their organization.

Admission Requirements

Applicants must satisfy the standard Marshall graduate admission requirements. A few years of work experience is preferred, but not required. GMAT or GRE scores are required. International applicants who did not spend four years completing a bachelor's degree at an American, British, Canadian or Australian college or university must submit TOEFL, IELTS or PTE scores.

Individuals applying for admission to the Master of Science in Business Analytics should not apply for admission to this program also.

Application Procedure

Prospective students who have not previously taken graduate-level (post-baccalaureate) business statistics must apply to begin the program in the fall semester. Prospective applicants who have taken a graduate-level business statistics course may apply to begin the program in the fall, spring or summer.

Applications are submitted online through the USC Graduate Admissions website (*gradadm.usc.edu/*). International applicants are advised to see the instructions for international students published in the USC Graduate Admissions website (*gradadm.usc.edu/apply/international-students/*).

- Current USC students and USC alumni are not required to submit an application fee, new test scores (if previously submitted), transcripts to verify degrees earned prior to their attendance at USC, or letters of recommendation.
- All other applicants must submit all documentation identified in the online application instructions.

Degree Requirements

The Graduate Certificate in Business Analytics requires 15 units including required course work and electives. The program may be completed on a full-time or part-time basis.

Students who have taken master's-level managerial statistics at another institution or as part of another program at USC prior to application may petition to replace the managerial statistics requirement with elective units. Such a replacement must be requested as an attachment to the application for admission and, if approved, will be included in the offer of admission.

Required Courses

- GSBA 506a Applied Managerial Statistics Units: 1.5 and
- GSBA 506b Applied Managerial Statistics Units: 1.5
  or
- GSBA 545 Data Driven Decision Making Units: 1.5
  or
- GSBA 524 Data Science for Business Units: 2, 3
- DSO 510 Business Analytics Units: 1.5, 3

Electives - Select from the following to total 15 units.

- DSO 516 Probability and Data Modeling Units: 1.5
- DSO 522 Applied Time Series Analysis for Forecasting Units: 1.5, 3
- DSO 528 Data Warehousing, Business Intelligence, and Data Mining Units: 1.5, 3
- DSO 529 Advanced Regression Analysis Units: 3
- DSO 530 Applied Modern Statistical Learning Methods Units: 3
- DSO 534 Discrete-Event Simulation for Process Management Units: 1.5
- DSO 536 Monte Carlo Simulation and Decision Models Units: 1.5
- DSO 545 Statistical Computing and Data Visualization Units: 1.5, 3
- DSO 547 Designing Spreadsheet-Based Business Models Units: 3
- DSO 548 Emerging Technologies in Supply Chain Management Units: 3
- DSO 552 SQL Databases for Business Analysts Units: 1.5
- DSO 562 Fraud Analytics Units: 3
- DSO 565 Supply Chain Analytics Units: 3
- DSO 570 The Analytics Edge: Data, Models, and Effective Decisions Units: 3
- DSO 572 Strategies for Digital Analytics Units: 1.5
- DSO 573 Data Analytics Driven Dynamic Strategy and Execution Units: 3
- MKT 566 Marketing Analytics Units: 3
  Additional Electives: Up to 6 units may be selected from the following:
- DSO 531 Digital Foundations for Business Innovation Units: 1.5
- DSO 543 Global Business Issues in the Networked Digital Industry Units: 3
- DSO 551 Digital Transformation in the Global Enterprise Units: 3
- DSO 554 Digital Strategies for Sustainability in Global Markets Units: 3
- DSO 556 Business Models for Digital Platforms Units: 3
- DSO 574 Using Big Data: Challenges and Opportunities Units: 3
- DSO 580 Project Management Units: 3

Note:

For current USC graduate students, courses credited to the Graduate Certificate in Business Analytics may be completed in conjunction with course work required for the program in which the student is already enrolled. Applicability of these courses to the student's primary degree program is determined by the student's home department. Current MBA students may apply all 15 units of the graduate certificate program to their MBA degree.

For USC alumni, courses completed in conjunction with the individual's prior degree may not be credited toward the certificate. Appropriate substitutions for required courses will be determined and documented by the program director.

Successful completion of the program is documented on the student's transcript and acknowledged with a certificate (diploma) awarded by the university.

For additional information, visit *marshall.usc.edu/GCRTAnalytics*.

Business Fundamentals Graduate Certificate

The Graduate Certificate in Business Fundamentals is designed to provide students for whom an MBA is not a viable option with a basic graduate-level introduction to successful business policies and practices.

Admission

All certificate students must meet the same admission requirements as degree seeking students.

In addition to the general admission requirements, applicants should have earned an undergraduate GPA of at least 3.4 or a GPA in graduate course work of at least 3.2. GRE or GMAT scores are generally required. A completed graduate degree may be accepted in lieu of test scores at the discretion of the admissions committee.

Prospective students should apply to begin the program and take GSBA 520 in the fall or spring term. Individuals applying for admission while or after completing GSBA 520 may apply for admission in the fall, spring or summer. Applications are submitted online through the USC Graduate Admissions Website at gradadm.usc.edu. A complete application includes the online application form, test scores, responses to essay questions, and official transcripts from all colleges and universities attended, whether a degree was completed or not. Current USC students and alumni need to submit transcripts from only those institutions attended since the applicant last applied to USC. The application fee is not required of current USC students or USC alumni.

For more information, visit marshall.usc.edu/BFNBP.

Program Requirements

The program requires successful completion of the following 16-unit program with a minimum cumulative GPA of at least 3.0 for all course work applied to the certificate and an overall graduate GPA at USC of at least 3.0.

Required (13 Units)

- ACCT 509 Concepts of Financial and Management Accounting Units: 4
- GSBA 520 Business Fundamentals for Non-Business Professionals Units: 3, 4
- GSBA 528 Marketing Management Units: 3
  or 3 units of MKT courses selected from a list of electives published on the program Website
- GSBA 543 Managerial Perspectives Units: 3 or 3 units of MOR courses selected from a list of electives published on the program Website

Elective (3 Units)

Select one additional course from those identified above or from a list of elective options published on the program Website and available from the program adviser. The elective selected may not duplicate prior graduate course work and must be approved by the program director. Enrollment in some courses may require additional preparatory course work to satisfy prerequisites, subject to approval of the instructor.

Note:

For current USC graduate students, courses credited to the Graduate Certificate in Business Fundamentals for Non-Business Professionals may be completed in conjunction with course work required for a program in which the student is already enrolled. Applicability of these courses to the student's primary degree program is determined by the student's home department.

For USC alumni, courses completed in conjunction with an individual's prior degree may not be credited toward the certificate.

Appropriate substitutions for required courses will be determined and documented by the program director.

Successful completion of the program is acknowledged by a certificate awarded by the university.

Financial Analysis and Valuation Graduate Certificate

The Graduate Certificate in Financial Analysis and Valuation program is designed to enhance the individual's graduate education through a concentrated curriculum in financial accounting, financial analysis, valuation, credit analysis, and financial instruments and markets.

Admission

To qualify for admission to the program, individuals must have completed basic graduate-level (post-baccalaureate) courses in microeconomics, macroeconomics, and corporate finance comparable to the first-year MBA curriculum while earning a minimum graduate GPA for those courses (combined) of 3.5.

Prospective students may apply to begin the programs in the fall, spring or summer term. Applications are submitted online at *http://gradadm.usc.edu/*. A complete application includes the online application form, responses to several essay and additional information questions, letters of recommendation and transcripts from any institutions attended since the applicant last applied to USC. (The application fee is not required of current USC students and USC alumni. Letters of recommendation are not required of current USC MBA students and USC MBA alumni.)

For more information, visit *marshall.usc.edu/fav*.

Program Requirements

The program requires successful completion of 15 units. Students select one of the following options. Some courses are offered for either 1.5 units or 3 units in a given semester. Individuals who elect to take a 1.5-unit class must make up the other 1.5 units with a course selection from the same option. Earning the certificate requires a combined GPA of at least 3.6 for all courses applied to the certificate.

Corporate Finance Option

Required

- ACCT 572 Corporate Accounting and Reporting Units: 3
- FBE 529 Financial Analysis and Valuation Units: 3

At least two of the following:

- ACCT 581 Financial Statement Analysis Units: 3
- FBE 531 Corporate Financial Policy and Corporate Governance Units: 1.5, 3
- FBE 532 Corporate Financial Strategy Units: 3

At least one of the following:

- ACCT 581 Financial Statement Analysis Units: 3
- FBE 523 Venture Capital and Private Equity Units: 3
- FBE 527 Entrepreneurial Finance: Financial Management for Developing Firms Units: 3
- FBE 531 Corporate Financial Policy and Corporate Governance Units: 1.5, 3
- FBE 532 Corporate Financial Strategy Units: 3
- FBE 558 Law for Structuring, Financing, and Managing Businesses Units: 3
- FBE 559 Management of Financial Risk Units: 3
- FBE 560 Mergers and Acquisitions Units: 3

Investment Management Option

Required

- FBE 529 Financial Analysis and Valuation Units: 3
- FBE 555 Investment Analysis and Portfolio Management Units: 3

At least one of the following:

- ACCT 572 Corporate Accounting and Reporting Units: 3
- ACCT 581 Financial Statement Analysis Units: 3

At least two of the following:

- ACCT 572 Corporate Accounting and Reporting Units: 3
- ACCT 581 Financial Statement Analysis Units: 3
- FBE 535 Applied Finance in Fixed Income Securities Units: 1.5, 3
- FBE 540 Hedge Funds Units: 3
- FBE 543 Forecasting and Risk Analysis Units: 3
- FBE 554 Trading and Exchanges Units: 3
- FBE 559 Management of Financial Risk Units: 3
- FBE 589 Mortgages and Mortgage-Backed Securities and Markets Units: 3

Student Investment Fund Program

Under the auspices of the Center for Investment Studies is the Student Investment Fund (SIF) program. During this year-long seminar in applied portfolio management, a select group of students learn the theory and practice of investment management by managing actual USC endowment funds.

Students who are selected to participate in the Marshall Student Investment Fund (SIF) program are required to complete the following:

Required

- FBE 529 Financial Analysis and Valuation Units: 3
- FBE 553a Applied Portfolio Management Units: 3 *
- FBE 553b Applied Portfolio Management Units: 3 *
- FBE 535 Applied Finance in Fixed Income Securities Units: 1.5, 3

At least one of the following:

- ACCT 572 Corporate Accounting and Reporting Units: 3
- ACCT 581 Financial Statement Analysis Units: 3

Notes:

**Prerequisite required.*
If a course in the SIF option is taken for 1.5 units, the remaining units may be completed with a course selected from the Investment Management option above to reach the 15 units required to complete the program.

Note

For current USC graduate students, courses credited to the Graduate Certificate in Financial Analysis and Valuation may be completed in conjunction with course work required for the program in which the student is already enrolled. Applicability of these courses to the student's primary degree program is determined by the student's home department. Current MBA students may apply all 15 units of the graduate certificate program to their MBA degree. For USC alumni, courses completed in conjunction with the individual's prior degree may not be credited toward the certificate. Appropriate substitutions for required courses will be determined and documented by the program director.

Successful completion of the program is acknowledged by a certificate awarded by the university.

Library and Information Management Graduate Certificate

The Graduate Certificate in Library and Information Management is designed to provide specialized knowledge in library management and leadership for information professionals who are current holders of the equivalent MLIS degree looking for career advancement. The certificate is offered entirely online.

Admission

To qualify for admission to the Graduate Certificate program, prospective students must hold a bachelor's degree from a regionally accredited institution and have earned an undergraduate GPA of at least 3.0. Prospective students must also hold a master's degree from an American Library Association accredited program.

Neither the GMAT nor the GRE is required for application/admission to this program. International applicants are required to submit a TOEFL score and must have earned a score of at least 100, with at least 20 in each section. Students who have completed their entire bachelor's degree program at regionally

accredited universities located in the United States or in another country in which English is both the language of instruction and the official language of the country are exempt. Proof of financial support is required of admitted international applicants.

Applicants will also submit a professional resume, a statement of purpose, three letters of recommendation and transcripts from each institution of higher education attended.

For more information write to mmlis.program@marshall.usc.edu or contact the program administrator at 213-640-4034.

Program Requirements

The Graduate Certificate in Library and Information Management requires 16 units. Each student will develop an individual academic plan and course of study under a faculty member's guidance, subject to the program director's approval.

LIM electives Units: 12

- LIM 536 Library Project Management Units: 2
- LIM 593 Independent Research in Library and Information Management Units: 2

Notes:

For current USC graduate students, courses credited to the Graduate Certificate in Library and Information Management may be completed in conjunction with course work required for a program in which the student is already enrolled. Applicability of these courses to the student's primary degree program is determined by the student's home department.

Successful completion of the program is acknowledged by a certificate awarded by the university.

Management Studies Graduate Certificate

The Graduate Certificate in Management Studies is designed to provide those who have already completed the equivalent of the first year of a traditional two-year MBA with an opportunity to pursue further study in an area of specialization currently available to Marshall graduate students.

Completion of the Graduate Certificate in Management Studies requires a minimum of 12 graduate units for all candidates — usually four, 3-unit courses.

The certificate may be completed on either a full- or part-time basis. Classes applicable to the certificate are offered during both daytime and evening hours.

Prospective applicants are encouraged to visit the Graduate Certificate in Management Studies Website at *marshall.usc.edu/gcms* for more information about this very flexible curriculum. Applicants interested in accounting or taxation should consider applying for admission to the Master of Accounting or the Master of Business Taxation program offered by the USC Leventhal School of Accounting. Information about the areas of concentration offered to Marshall graduate students is available at *marshall.usc.edu/ecg*.

Admission Requirements

Applicants may apply for admission to begin the program in the summer term or the fall or spring semesters. Application deadlines vary by semester, citizenship and registration goals. Details are available under the Calendar tab at *marshall.usc.edu/gcms*.

The equivalent of a four-year bachelor's degree is required for admission. Additionally, applicants must have completed the equivalent of the first year of a traditional two-year MBA accredited by the AACSB, EQUIS, ACBSP, AOCTE. IACBE or AMBA. Successful applicants should have earned a GPA of 3.3 or greater in their graduate business course work and scored at least as well as an average Marshall MBA student on the GMAT.

Application Procedure

Submit an online application through the USC Graduate Admissions Website (*http://gradadm.usc.edu/*). International applicants are advised to see the instructions for international students published in the USC Graduate Admissions Website (*http://gradadm.usc.edu/apply/international-students/*).

For additional information, visit *marshall.usc.edu/gcms*.

Program Structure and Unit Requirements

Applicants are urged to consider areas of specialization available to Marshall graduate students published at *marshall.usc.edu/ecg*. The applicant is asked to identify areas of interest as part of the application process, but is free to choose course work from the full range of graduate electives offered by Marshall.

An evaluation of work previously completed determines if specific content areas are missing. If it is determined that preliminary courses are needed, the number of units needed to complete the Graduate Certificate in Management Studies certificate will increase.

Completion of the Graduate Certificate in Management Studies certificate requires a minimum of 12 graduate units for all candidates.

None of the GSBA-prefixed classes required for completion of a Marshall MBA program may be applied toward the certificate unless they are required to update prior work and are added to the 12-unit total.

No courses numbered lower than 500 may be included in this program. All courses applied toward the certificate must be taken within the Marshall School of Business. Acceptable course prefixes include ACCT, BAEP, BUCO, FBE, GSBA, IOM or DSO, MKT and MOR.

Successful completion of the program is acknowledged by a certificate awarded by the university.

Marketing Graduate Certificate

The Graduate Certificate in Marketing provides students with the tools, ideas and frameworks that will aid them in making business decisions in an application-based manner, based on actual case studies and relevant projects, to improve the performance of their organization. Students in the program acquire the marketing principles, techniques and tools necessary to analyze marketing situations and develop effective integrated strategic marketing plans to improve the performance of their organization.

Admission Requirements

Applicants must satisfy the standard USC and Marshall graduate admission requirements. Two years of fulltime work experience is preferred. GMAT or GRE scores are required. International applicants who did not spend four years completing a bachelor's degree at an American, British, Canadian or Australian college or university must submit TOEFL, IELTS or PTE scores.

Individuals applying for admission to the Master of Science in Marketing should not apply for admission to this program also.

Application Procedure

Prospective students who have not previously taken a master's/graduate-level (post-baccalaureate) introductory marketing course must apply to begin the program in the summer term. Prospective applicants who have taken a master's/graduate-level marketing course may apply to begin the program in the fall, spring or summer.

Applications are submitted online through the USC Graduate Admissions Website at *http://gradadm.usc.edu/*. International applicants are advised to see the instructions for international students at *http://gradadm.usc.edu/apply/international-students/*.

A complete application includes the online application form, test scores, an essay, an application fee, two letters of recommendation and official transcripts from all institutions attended since the applicant last applied to USC.

- Current USC students and USC alumni are not required to submit an application fee, new test scores (if previously submitted), transcripts to verify degrees earned prior to their attendance at USC, or letters of recommendation.
- All other applicants must submit all documentation identified in the online application instructions.

Degree Requirements

The Graduate Certificate in Marketing requires 15 units including one required course and 500-level MKT electives

with a GPA of at least 3.0 for all units applied to the certificate. The program may be completed on a full-time (3-5 courses per semester) or part-time basis.

Students who have taken a master's-level introductory marketing course at another institution prior to application may petition to replace Marketing Management with an elective. Such a replacement must be requested as an attachment to the application for admission and, if approved, will be included in the offer of admission.

Required Courses

- GSBA 509 Marketing Management Units: 1.5
  or
- GSBA 528 Marketing Management Units: 3

Electives: Complete successfully sufficient units of 500-level MKT course work to total 15 units.

No more than 3 units of CR/NC course work can be applied to the certificate.

Note:

For current USC graduate students, courses credited to the Graduate Certificate in Marketing may be completed in conjunction with course work required for the program in which the student is already enrolled. Applicability of these courses to the student's primary degree program is determined by the student's home department. Current USC MBA students may apply all 15 units of the graduate certificate program to their MBA degree.

For USC alumni, courses completed in conjunction with the individual's prior degree may not be credited toward the certificate. An appropriate substitution for the required course will be determined and documented by the program director.

Successful completion of the program is documented on the student's transcript and acknowledged with a certificate (diploma) awarded by the university.

For additional information, visit marshall.usc.edu/GCRTMarketing.

Optimization and Supply Chain Management Graduate Certificate

The Graduate Certificate in Optimization and Supply Chain Management is offered by the Marshall School of Business in partnership with the Viterbi School of Engineering. The program offers individuals opportunities to expand their knowledge of the rapidly expanding uses of technology in the management of global supply chains.

The certificate may be completed on either a full- or part-time basis. Most classes applicable to the program are offered during both daytime and evening hours. Many of the courses included in the curriculum are available online.

Admission

Applicants should have a foundational knowledge (academic or experiential) of statistics and operations management.

Prospective students may apply to begin the programs in the fall, spring or summer term. Applications are submitted online at *gradadm.usc.edu*. A complete application may include the online application form, responses to several essay and additional information questions, test scores, transcripts from all institutions attended since high school, and an application fee. For more information, visit *marshall.usc.edu/oscm*.

The graduate certificate requires successful completion of 15 units with a minimum GPA of at least 3.0 for all units (combined) applied to the certificate.

Required Courses

- DSO 565 Supply Chain Analytics Units: 3
  or
- DSO 581 Supply Chain Management Units: 3
  or
- DSO 505 Sustainable Supply Chains Units: 1.5 and
- DSO 506 Sourcing and Supplier Management Units: 1.5
- DSO 547 Designing Spreadsheet-Based Business Models Units: 3
  or
- DSO 570 The Analytics Edge: Data, Models, and Effective Decisions Units: 3
  or
- ISE 530 Optimization Methods for Analytics Units: 3

Electives

Complete 9 units from the list below (if not completed as a required course).

- CE 589 Port Engineering: Planning and Operational Analysis Units: 4
- DSO 505 Sustainable Supply Chains Units: 1.5 *
- DSO 506 Sourcing and Supplier Management Units: 1.5 *
- DSO 520 Logistics Management Units: 3
- DSO 522 Applied Time Series Analysis for Forecasting Units: 1.5, 3
- DSO 547 Designing Spreadsheet-Based Business Models Units: 3 *
- DSO 548 Emerging Technologies in Supply Chain Management Units: 3 Units: 3
- DSO 549 Application of Lean Six Sigma Units: 3
- DSO 565 Supply Chain Analytics Units: 3 Units: 3 *
- DSO 570 The Analytics Edge: Data, Models, and Effective Decisions Units: 3 *
- DSO 580 Project Management Units: 3 or
- ISE 515 Engineering Project Management Units: 3
- DSO 581 Supply Chain Management Units: 3
- DSO 582 Service Management: Economics and Operations Units: 3
- DSO 583 Operations Consulting Units: 3
- GSBA 504a Operations Management Units: 1.5 and
- GSBA 504b Operations Management Units: 1.5
  or
- GSBA 534 Operations Management Units: 2, 3
- ISE 506 Lean Operations Units: 3
- ISE 513 Inventory Systems Units: 3
- ISE 514 Advanced Production Planning and Scheduling Units: 3
- ISE 530 Optimization Methods for Analytics Units: 3 *
- ISE 580 Performance Analysis with Simulation Units: 3
- ISE 583 Enterprise Wide Information Systems Units: 3

* If not applied as a required course.

Note:

For current USC graduate students, courses credited to graduate certificate programs may be completed in conjunction with course work required for a graduate degree program in which the student is already enrolled. Applicability of courses to the student's primary degree program is determined by the student's home department. For USC alumni, courses applied to the individual's previously completed degree may not be credited toward a certificate.

Successful completion of a graduate certificate program is acknowledged by a certificate awarded by the university.

Strategy and Management Consulting Graduate Certificate

The Strategy and Management Consulting graduate certificate provides students with the tools, concepts and frameworks that will aid them in leading the process of strategy development and management consulting to improve business performance. Evidence-based frameworks and hands-on projects will enhance students' skill sets in diagnosing strategic issues in complex settings. Different types of intervention strategies and contingency frameworks will provide students with an extensive and robust toolkit that can be applied in multiple industry settings.

Admission Requirements

Applicants must satisfy the standard Marshall graduate admission requirements. A few years of work experience is preferred, but not required. GMAT or GRE scores are required. International applicants who did not spend four years completing a bachelor's degree at an American, British, Canadian or Australian college or university must submit TOEFL, IELTS or PTE scores.

Application Procedure

Applications are submitted online through the USC Graduate Admissions Website at *gradadm.usc.edu/*. International applicants are advised to see the instructions for international students at *gradadm.usc.edu/apply/international-students/*.

A complete application includes the online application form, an application fee, test scores, an essay and official transcripts from all institutions attended since the applicant last applied to USC.

- Current USC students and USC alumni are not required to submit an application fee, new test scores (if previously submitted), or transcripts to verify degrees earned prior to their attendance at USC.
- All other applicants must submit all documentation identified in the online application instructions.

Degree Requirements

The graduate certificate in Strategy and Management Consulting requires 15 units. The program may be completed on a full-time (8-15 units per semester, depending on course availability) or part-time basis.

Required Course

- MOR 557 Strategy and Organization Consulting Units: 3

Electives

Complete 12 units from the following:

- DSO 583 Operations Consulting Units: 3
- MOR 542 Strategic Issues for Global Business Units: 3
- MOR 554 Leading Innovation and Change Units: 3
- MOR 555 Designing High Performance Organizations Units: 3
- MOR 559 Strategic Renewal and Transformation Units: 3
- MOR 560 Managerial Judgment and Decision-Making Units: 3
- MOR 561 Strategies in High-Tech Businesses Units: 3
- MOR 562 Strategic Choice and Valuation Analysis Units: 3
- MOR 564 Strategic Innovation: Creating New Markets Units: 3
- MOR 565 Alliances and Cooperative Strategy Units: 3
- MOR 566 Environmental Sustainability and Competitive Advantage Units: 1.5, 3
- MOR 570 Leading Effective Teams Units: 3
- MOR 588 Corporate Strategy and Competitive Dynamics Units: 1.5, 3

Note

For current USC graduate students, courses credited to the graduate certificate in Strategy and Management Consulting may be completed in conjunction with course work required for the program in which the student is already enrolled. The student's home department determines applicability of these courses to the student's primary degree program. Current Marshall MBA students may apply all 15 units of the graduate certificate program to their MBA degree.

Courses completed in conjunction with a previously completed/awarded degree may not be credited toward the certificate. Appropriate substitutions for required courses will be determined and documented by the program director.

Successful completion of the program is documented on the student's transcript and acknowledged with a certificate (diploma) awarded by the university.

For additional information, visit marshall.usc.edu/GCRTSMC or write to GCRT.SMC@marshall.usc.edu.

Sustainability and Business Graduate Certificate

Business is increasingly involved in social and environmental issues. On the one hand, government and civil society are exerting increasing pressure on the business sector to help address the world's pressing social and environmental sustainability challenges. On the other hand, a growing number of businesses are seeking to respond proactively to these challenges. The Sustainability and Business Graduate Certificate prepares students to help shape solutions to social and environmental sustainability challenges, both from within and from outside the business sector.

The program was designed with several audiences in mind: current Marshall graduate students already strong on the business side, current graduate students outside Marshall who may have strength on the sustainability side but want more strength on the business side, and individuals not yet enrolled but eager to deepen their understanding of the field.

Admission

Applicants must meet the same Marshall School of Business admissions requirements as degree seeking students. Some exceptions are made for current USC students and USC alumni. Visit *marshall.usc.edu/SUSB* for details.

Applicants may apply for admission to begin the program in the fall or spring semesters as well as in the summer, depending on course availability. Applications are submitted online through the USC Graduate Admissions Website at *gradadm.usc.edu/*. International applicants are advised to see the instructions for international students published at *gradadm.usc.edu/apply/international-students/*.

Program Requirements

The program requires completion of 15 units.

Core: Complete at least 6 units from the following:

- BAEP 589 Social Entrepreneurship Units: 2 or
- BAEP 591 Social Entrepreneurship Units: 2, 3
- BAEP 564 Investing in Impact Ventures Units: 3
- DSO 505 Sustainable Supply Chains Units: 1.5
- DSO 506 Sourcing and Supplier Management Units: 1.5
- DSO 554 Digital Strategies for Sustainability in Global Markets Units: 3
- FBE 557 Business Law and Ethics Units: 3
- MOR 566 Environmental Sustainability and Competitive Advantage Units: 1.5, 3

Electives: Complete 0-9 units from the following to total 15 units:

- ARCH 519 Sustainability in the Environment: Infrastructures, Urban Landscapes, and Buildings Units: 3
- ARCH 576 Sustainable Design for Healthy Indoor Environments Units: 3
- ARCH 579 Sustainable Building and Environment using LEED Metrics Units: 3
- CHEM 581 Current Topics in Sustainable Energy Generation and Storage Units: 2
- CMGT 577 Communicating Corporate Social Responsibility Units: 4
- DSO 586 Global Healthcare Operations Management Units: 3
- ENE 502 Environmental and Regulatory Compliance Units: 4
- ENE 505 Energy and the Environment Units: 4
- ENST 520 Environmental Law and Policy Units: 4 or
- LAW 655 Environmental Law Units: 2, 3, 4
- ENST 530 Environmental Risk Analysis Units: 4 or
- PPD 587 Risk Analysis Units: 4
- GEOL 525 The Science of Climate Change Units: 4
- ISE 576 Industrial Ecology: Technology-Environment Interaction Units: 3
- PM 555 Environmental Health, Policy and Practice Units: 4
- PM 557 Global Environmental Health Units: 4

- PPD 568 Environmental Governance and Sustainability Units: 2
- PPD 621 Environmental Impacts Units: 4
- PPD 644 Shaping the Built Environment Units: 4
- PPD 688 Business and Public Policy Units: 4
- PPD 689 The Nonprofit Sector and Philanthropy Units: 4
- PPD 692 Transportation and the Environment Units: 4
- PPDE 632 Sustainable Cities Units: 4
- PPDE 634 Methodology, Methods and Tools for Urban Sustainability Units: 2, 3, 4
- PPDE 644 Land Use and Transportation Planning Units: 4
- PPDE 660 Environmental Policy Design and Analysis Units: 4
- PPDE 662 China from a US Policy Perspective Units: 4
- PSYC 456 Conservation Psychology Units: 4
- SAE 515 Sustainable Infrastructure Systems Units: 4
- SOWK 684 Community Practice for Social Innovation Units: 3

Note:

Given the growing number of courses relevant to this certificate at USC, students may petition the director to include courses not listed here. Petitions must be received and approved prior to registration for the course to be applied to the certificate.

Students may also earn credit toward the certificate electives with up to 4 units of Independent Study (e.g., Marshall 592 or 593) or Directed Research (590 in non-Marshall departments) subject to approval by the faculty directors.

For current USC graduate students, courses credited to the Graduate Certificate in Sustainability and Business may be completed in conjunction with course work required for the program in which the student is already enrolled. Applicability of these courses to the student's primary degree program is determined by the student's home department. For USC alumni, courses completed in conjunction with a previously conferred degree may not be credited toward the certificate.

Successful completion of the program is acknowledged by a certificate (diploma) awarded by the university.

For more information, please visit *marshall.usc.edu/SUSB*.

Technology Commercialization Graduate Certificate

The Graduate Certificate in Technology Commercialization is designed to let students experience the entire spectrum of the commercialization process — invention, product development, technical and market feasibility analysis, intellectual property acquisition, business planning and venture funding.

This program is particularly well suited to master's and PhD candidates in science, engineering and business, but we encourage students from other disciplines who are interested in technology businesses to apply. Also, you do not need to be a matriculated student at USC to undertake the program. Any individual who holds an undergraduate degree equivalent to a four-year U.S. bachelor's degree is welcome to apply.

Prospective students may apply to begin the program in the fall, spring or summer term. Applications are submitted online via *gradadm.usc.edu/apply/*. For details, visit *marshall.usc.edu/tccm*.

Two required courses and 6 units of electives (for a total of 12 units) must be completed to earn the certificate.

Required Courses

- BAEP 556 Technology Feasibility Units: 3
- BAEP 557 Technology Commercialization Units: 3

Electives - Select a minimum of 6 units from the following.

- BAEP 553 Cases in New Venture Management Units: 1.5, 3
- BAEP 554 Venture Initiation Units: 3
- BAEP 555 Founder's Dilemmas: Anticipate and Avoid Startup Pitfalls Units: 3
- BAEP 559 Investing in New Ventures Units: 3
- BAEP 561 Entrepreneurship in Innovative Industries: Life Sciences Units: 1.5
- BAEP 562 Entrepreneurship in eCommerce Units: 1.5
- BAEP 563 Corporate Entrepreneurship Units: 3
- BAEP 565 Venture Lab Units: 3
- BAEP 575 Entrepreneurship in the Media and Entertainment Industry Units: 1.5
- CE 576 Invention and Technology Development Units: 3
- ISE 515 Engineering Project Management Units: 3
- ISE 585 Strategic Management of Technology Units: 3
- MOR 564 Strategic Innovation: Creating New Markets Units: 3

Notes:

For current USC graduate students, courses credited to the Graduate Certificate in Technology Commercialization may be completed in conjunction with course work required for the program in which the student is already enrolled. Applicability of these courses to the student's primary degree program is determined by the student's home department. For USC alumni, courses completed in conjunction with the individual's prior degree may not be credited toward the certificate.

Successful completion of the program is acknowledged by a certificate awarded by the university.

Doctoral Degree

Business Administration (PhD)

The Doctor of Philosophy program in business administration is designed to produce research-oriented graduates who, from positions in academia, can advance the state-of-the-art of business practice and enhance the contributions that business can make to the larger community. These goals can be advanced through research contributions in theory, concepts, methods and practices, and contributions to the education of the next generation of business leaders. USC Marshall offers the PhD in Business Administration in the following five departments: Accounting, Finance and Business Economics, Data Sciences and Operations, Management and Organization, and Marketing.

All students admitted to the Marshall PhD degree program are supported by graduate assistantships or fellowships that require a full-time commitment to the program. No part-time or evening programs are available. PhD students begin their program in early August and are expected to be in residence 12 months each year throughout the program. Until the time the student is granted permission to take the qualifying examination, successful completion of at least six units per consecutive semester is required.

This degree is awarded under the jurisdiction of the Graduate School. Students should also refer to The Graduate School section of this catalogue. All courses applied toward the degree must be accepted by the Graduate School and relevant to the student's program of study. In most cases, the PhD degree takes five years to complete.

Admission

The PhD program in Business Administration welcomes applications from students with high intellectual aptitude who plan to pursue academic careers in research and teaching. Students with strong backgrounds in mathematics, psychology, the social sciences, engineering, computer science and the other sciences are encouraged to apply for admission. A master's degree or MBA is not a requirement for entry into the PhD program; students may enter with only a bachelor's degree. Prior academic research experience is desirable.

Students who wish to apply for admission to the PhD program should visit *marshall.usc.edu/phd* to obtain additional information about the PhD program and an online application. Only online applications are accepted. Students with additional questions that are not covered on the Website may contact the Marshall School PhD Program office at (213) 740-0676 or phd@marshall.usc.edu.

Applicants should secure three letters of recommendation. The PhD committee prefers that all recommendations be written by academics who are familiar with the applicant's scholastic and research capabilities. An applicant who has been away from

an academic environment for a significant period of time may substitute one academic reference with a non-academic reference. Applicants also provide transcripts, GRE or GMAT scores, TOEFL or IELTS scores (if appropriate) and a statement of purpose. Applicants are encouraged to send a statement of research experience and a research writing sample, if available.

Consideration is given to the rigor of the undergraduate and master's curricula, academic performance, scores on the GRE or GMAT, the quality of the statement of purpose, fit with the department, the applicant's oral and written communication skills and letters of recommendation.

Campus interviews for top applicants may be initiated by the departments. In cases where in-person interviews cannot be arranged, alternative arrangements will be made.

Funding

All admitted students receive a fellowship or graduate assistantship, full tuition, health and dental insurance and payment of mandatory student health center fee for a minimum of five years dependent on continued satisfactory academic progress. This progress is assessed by the PhD program based on students maintaining at least the minimum enrollment, a GPA of at least 3.0, and satisfactory performance in graduate assistant assignments. Teaching and teaching assistant assignments are made only after a student has passed the qualifying examination. For research assistant assignments, students are engaged with a faculty member in a businessrelated, applied-learning, scholarly activity to learn the skills necessary to conduct independent research.

Degree Requirements

The Doctor of Philosophy in business administration is based on a program of study and research culminating in the completion of a dissertation in the major field of study. A minimum of 60 units of course work beyond the baccalaureate is required for the PhD degree, including research courses and a minimum of 4 units and a maximum of 8 units of GSBA 794a Doctoral Dissertation, GSBA 794b Doctoral Dissertation, GSBA 794c Doctoral Dissertation, GSBA 794d Doctoral Dissertation and GSBA 794z Doctoral Dissertation. For students who already possess an advanced graduate degree, a minimum of 40 semester units of course work beyond that degree is required, of which a maximum of 4 units may be GSBA 794a Doctoral Dissertation, GSBA 794b Doctoral Dissertation, GSBA 794c Doctoral Dissertation, GSBA 794d Doctoral Dissertation and GSBA 794z Doctoral Dissertation. Doctoral students are subject to disqualification at any time that the Marshall School of Business determines that they are deficient in academic achievement. All students must maintain a 3.0 GPA at all times.

Screening Procedure

In addition to the papers and examinations assigned in first-year courses, a screening process will occur in May. This process will include a review of each student's grades, an analysis of competence in written communications and reports from faculty members who have had in-class or other responsibility for the student. In most departments, a screening exam is required. The nature of the exam varies by department. Generally, a screening examination or other procedure designated by the department (Accounting, Finance and Business Economics, Data Sciences and Operations, Management and Organization, and Marketing) is to be administered before the student has taken more than 24 units (including research courses). However, the Accounting and Finance and Business Economics departments require their students to take the departmental course requirements until the end of the second year; students must take up to 36 units before the departmental screening procedure is administered. Based upon this review, the PhD committee will determine whether the student should continue in the PhD program. Students who have not performed satisfactorily will be dropped from the program. The review shall normally be completed and results communicated to students by July 1. In some cases a first-year summer project may be taken into account in determining whether a student should continue in the program.

Qualifying Exam Committee and Dissertation Committee

Students are responsible for finding a qualifying exam committee chair among the student's home department faculty by the fall semester of the second year. The qualifying exam committee should be established within the student's home department at least two semesters prior to taking the qualifying examination and after the student has passed the screening procedure. The qualifying exam committee comprises a minimum of five tenured, tenure-track and non-tenure track USC faculty, three of whom must be from the student's home department. At least one faculty member from the home department must be tenured. One member must be from outside the student's home department (within or outside of Marshall). The qualifying exam committee advises the student on courses during the first two years and oversees and grades the qualifying examination.

Within 90 days of passing the qualifying exam, the dissertation committee chair must be identified. The dissertation committee must be appointed within six months after the qualifying examination has been passed and a dissertation topic approved. The committee should be appointed at least one month before the dissertation defense. The appointment of dissertation committee form, available on the Graduate School Website, is used to establish the dissertation committee. The dissertation committee is normally composed of three members, although additional members may be included at the student's and committee chair's discretion. The committee chair and at least one additional member must be affiliated with the student's home department. Faculty eligible to serve as committee members include tenured and tenure-track faculty, and nontenure track faculty of outstanding stature who have a documented record of exceptional expertise and superior achievement in a field relevant to the dissertation. At least two members of the committee should be tenured or tenure-track, including the committee chair.

The Marshall School of Business PhD program requires an outside member for both the qualifying exam committee and dissertation committee. The outside member may be a faculty member from another department within Marshall or from another school within USC. Students may also include a person from a different university as an additional member with the permission of the associate dean; however, this person cannot substitute for the required outside member.

Course Requirements

Each student must successfully complete one course in microeconomics or behavioral sciences, one course in statistics and one course in research design plus the core courses in his or her field of specialization. Advanced course work is specified by the student's guidance committee in preparation for the qualifying examinations in the area of specialization. The areas are: accounting, data sciences and operations, finance and business economics, management and organization, and marketing.

Qualifying Examination

The examination qualifying a student for candidacy may be comprehensive in nature. It is designed to determine the student's competence in the area of specialization.

The qualifying examination consists of two sections: written and oral. The written section must be passed before the oral section; if a student does not pass the written examination, the oral examination need not be administered.

In preparing for the qualifying examination, students form a qualifying exam committee. This committee helps the student prepare for the exam and also administers the written and oral section of the examination. See also The Graduate School section of this catalogue.

Dissertation

The final phase of the program is the completion of a dissertation. The dissertation must be based on an original investigation that makes a substantive contribution to knowledge and demonstrates the student's capacity for independent, scholarly research. The quality of the dissertation should meet the standards for publication in leading academic journals in the field.

Typically, research in business administration involves studies that advance the body of knowledge concerned with issues and solution of problems confronting managers and administrators. As a result, a dissertation will (1) develop or extend theories, techniques or models relevant to managerial problems; (2) demonstrate original applications or adaptations of existing theories, techniques or models to managerial problems in a specific area; (3) develop innovative formulations and analyses of complex managerial problems and propose creative approaches to their solution; and/or (4) employ scientific research methodology to test empirically the validity of existing theories, techniques or models and their application to specific types of managerial problems.

A dissertation committee chair shall be requested by the student and appointed by the dean of the PhD program within 90 days after the student has passed the qualifying examination. The remaining faculty on the dissertation committee shall be appointed within six months after the student has passed the qualifying exam.

The dissertation committee must consist of at least three tenured or tenure-track faculty, two of whom must be from the student's home department. At least one faculty member from the home department must be tenured.

One member must be from outside the student's department and the Marshall School of Business. Students may add additional faculty to the committee, especially those who might provide valuable expertise that improves the dissertation. It is important that the student select faculty members who are committed and interested in serving on the committee, since a quality dissertation requires extensive interaction with and a sizable time commitment from individual faculty members. See also the Qualifying Exam Committee and Dissertation Committee section above for further details.

Defense of the Dissertation

When the dissertation committee agrees that the candidate has essentially completed the research and a satisfactory draft of the dissertation has been written, a final oral examination is held. This examination is open to all members of the faculty of the school and the university. Final judgment of the dissertation and the oral defense is rendered by the members of the dissertation committee. The dissertation must be accepted unanimously by the dissertation committee. Further information on procedures is contained in The Graduate School section of this catalogue.

USC School of Cinematic Arts

The USC School of Cinematic Arts (SCA) is one of the nation's preeminent centers for the creation, study, research and development of film, television and interactive media. With nearly 200,000 square feet of facilities, the school confers degrees ranging from the bachelor's to the doctorate. SCA is composed of seven divisions: the John C. Hench Division of Animation + Digital Arts; the Division of Cinema and Media Studies; Film and Television Production; Interactive Media and Games; Peter Stark Producing Program; the John Wells Division of Writing for Screen and Television; and Media Arts + Practice. The school also has two organized research units — the Institute for Multimedia Literacy and the Entertainment Technology Center.

Since its founding in 1929 as the first course of study in film at any college or university in the United States, USC's cinema program has consistently set academic and professional standards for excellence. In addition, the school has a record-breaking number of endowed chairs in the discipline; production facilities that rival industry counterparts and extraordinary faculty and staff.

Thanks to SCA's location in Los Angeles, students have access to the country's leading film, television, animation and video game producers; world-class literary and talent agencies; libraries and archives brimming with research materials; and alumni that support the school and the men and women in its academic body. The school is also home to USC's Trojan Vision television station.

The USC School of Cinematic Arts recognizes that a student can only truly excel in his or her chosen area of expertise after exposure to all elements of the art form. Consequently, there is an emphasis on cross-disciplinary course work that ensures writers get behind the camera; cinema and media studies scholars edit footage; and production majors examine the canon from a rigorous academic perspective.

Faculty
Steven J. Ross/Time Warner Endowed Dean's Chair in Cinema-Television: Elizabeth M. Daley, PhD
Dana and Albert "Cubby" Broccoli Endowed Chair in Producing: John Watson, MA
The Mark Burnett Summer Program Endowed Chair: David Weitzner, BA
The Joseph Campbell Endowed Chair in Cinematic Ethics: Theodore Braun, MFA
The Sergei Eisenstein Endowed Chair in Cinematic Design: Bruce A. Block, MFA
Electronic Arts Endowed Chair in Interactive Entertainment: Tracy Fullerton, MFA
Hugh M. Hefner Endowed Chair for the Study of American Film: Tara McPherson, PhD
The John C. Hench Endowed Division Chair: Teresa Cheng, BA
The Michael Kahn Endowed Chair in Editing: Nancy Forner, BA
The Mona and Bernard Kantor Endowed Chair in Production: Mark J. Harris, BA
The George Méliès Endowed Chair in Visual Effects: Michael Fink, MFA
William Cameron Menzies Endowed Chair in Production Design: Alex McDowell, BFA
John H. Mitchell Endowed Chair in the Business of Entertainment: Bonnie Chi, BA
Stephen K. Nenno Endowed Chair in Television Studies: Ellen Seiter, PhD
Jack Oakie Chair in Comedy: Jack Epps Jr., BA
Mary Pickford Endowed Chair: Gail Katz, MBA
The Katherine and Frank Price Endowed Chair for the Study of Race and Popular Culture: Todd Boyd, PhD
Kay Rose Endowed Chair in the Art of Sound and Dialogue Editing: Midge Costin, MA
Charles S. Swartz Endowed Chair in Entertainment Technology: Richard Weinberg, PhD
The T.C. Wang Family Endowed Chair in Cinematic Arts: Akira Mizuta Lippit, PhD
The Haskell Wexler Endowed Chair in Documentary: Michael Renov, PhD
The Robin Williams Endowed Chair in Comedy: Barnet Kellman, PhD
Dino and Martha De Laurentiis Endowed Professorship: Mary Sweeney, MA
Presidential Professor of Cinematic Arts: George Lucas, BA
Judge Widney Professor: Robert Zemeckis, BFA
Provost Professor of Communication, Journalism, and Cinematic Arts: Henry Jenkins, PhD
Distinguished Professor: Mark J. Harris, BA
Professors: Tom Abrams, MFA; Danny Bilson, BA; Bruce Block, MFA; Don Bohlinger, MFA; Mark Bolas, MS; Todd Boyd, PhD; Ted Braun, MFA; Teresa Cheng, BA; Midge Costin, MA; Elizabeth M. Daley, PhD; Jack Epps Jr., BA; Michael Fink, MFA; Scott S. Fisher, MS; Tracy Fullerton, MFA; Mark J. Harris, BA; David Howard,

MFA; Aniko Imre, PhD; David Isaacs, BA; Priya Jaikumar, PhD; Henry Jenkins, PhD; Jeremy Kagan, MFA; Gail Katz, MBA; Barnet Kellman, PhD; Scott Kroopf, BA; Lisa Leeman, BA; Akira Mizuta Lippit, PhD; David Macmillan; Tara McPherson, PhD; Christine Panushka, MFA; Amanda Pope, BA; Jason Reisig, BFA; Michael Renov, PhD; Howard A. Rodman, BA; Ellen Seiter, PhD; Tom Sito, BFA; Kathy Smith, BA; Sheila M. Sofian, MFA; Mary Sweeney, MA; Michael Taylor, BA; Robert Townsend, DFA: John Watson, MA; Holly Willis, PhD

Associate Professors: Linda Brown, MFA; J. D. Connor, PhD; Pamela Douglas, MA; Lan Duong, PhD; Nitin Govil, PhD; Helaine Head, BA; Georgia Jeffries, BA; Andreas Kratky, PhD; Richard Lemarchand, BA; Everett Lewis, MFA; Andrew Nealen, PhD; Laura Isabel Serna, PhD; Peter Sollett, BFA; Stephanie Spray, PhD

Assistant Professor: Giancarlo Cornejo, PhD

Professors of Practice: David Balkan, BA; Irving Belateche, MA; Gordon Bellamy, BA; Peter Brinson, MFA; Vicki Callahan, PhD; Christopher Chomyn, MFA; Stephen Flick, BA; Nancy Forner, BA; Pablo Frasconi, BFA; Brenda Goodman, BS; Eric Hanson, BA; James Huntley, MS; Virginia Kuhn, PhD; Elisabeth Mann, MFA; Alexander McDowell, BFA; Thomas Miller, MD, MFA; Barbara Nance, BA; Maks Naporowski, BA; Michael Patterson, BFA; Candace Reckinger, MFA; John Rosenberg, MFA; Mark Shepherd, MFA; Sonja Warfield, BA; David Weber, MFA; William Yahraus, MA

Associate Professors of Practice: Steve Albrezzi, BA; Susan Arnold; Kiki Benzon, PhD; Michael Bodie, MFA;Richard Burton, BA; Reine-Claire Dousarkissian, MA; Dianne Farrington, MA; Marientina Gotsis; MFA; DJ Johnson, MFA; Suhail Kafity; Angelo Pacifici, BArch; Michael Provart, MFA; Elizabeth Ramsey, PhD; Michael Uno, MFA; Jesse Vigil, MFA; Jennifer Warren, BA; Shelly Wattenbarger, MFA; Tristan Whitman, MFA

Assistant Professors of Practice: George Carstocea, PhD; Jeremy Deneau, BA; Evan Hughes, MA; Margaret Moser, MFA

Research Adjunct Associate Professor: Perry Hoberman

Part-time Faculty: Bayo Akinfemi; Albert Albaladejo; Jesse Albert; Ioan Allen; Kate Amend; Yvette Amirian; Kari Antholis; Jordan Ariel; Andrew Balis; David Baron; Deborah Baron; Craig Barron; Maurice Bastian; Janet Batchler; Catherine Bell; Diego Berdakin; Sandra Berg; Alan Berger; Fred Bernstein; Dick Block; Mitch Block; Skye Borgman; John Bowman; Elizabeth Brauer; John Brennan; Paul Bricault; Musa Brooker; Michael Broukhim; Robert Brown; Bonnie Bruckheimer; Ed Callahan; Trey Callaway; John Carpenter; Will Carter; Susan Cartsonis; Phil Casnoff; Michael Cassutt; Julian Cautherly; Ramiro Cazaux; Bonnie Chi; Peter Chung; Jacque Cofer-Edmonds; Simon Coke; Michael Connors; Akela Cooper; Ken Cosby; Sean Covel; Tim Curnen; Martin Daniel; Kristen W. Davis; Johanna Demetrakas; Dariush Derakhshani; Annie DeSalvo; Heather Desurvire; Vincent Diamante; Jon Dudkowski; James Egan; David Fain; Siavash Farahani; Ben Fast; Ron Fernandez; Bruce Finn; Paul Foley; Eric Freiser; Bonnie Garvin; Paul Gerard; Jeffrey Glaser; Karl Gnass; David Goetsch; Eric Goldberg; Jane Goldenring; Jarrett Golding; Richard Goldsmith; Margie Goodspeed; Ian Goodwin; Janet Graham-Borba; Mimi Gramatky Stradling; Amanda Green; Sharon Greene; Jordan Halsey; Jeffrey Hammer; Suzanne Hargrove; Martin Havran; Pete Hawkes; Chevon Hicks; John Hight; Liz Hinlein; Joe Hoffman; Todd Hoffman; Alan Holzman; Sean Hood; Caroline Hu; Joan Hyler; Jason Inouye; Alex Jablonski; Brandon Jeffords; Jeanne Jo; Toni Ann Johnson; Juli Juteau; Aaron Kaplan; Roeban Katz; Thomas Kemper; Liz Keyishian; Tim Kirkman; Randal Kleiser; Michael Kontopoulos; Jeffrey Korchek; Paul Kowalski; Stu Krieger; Jon Kroll; Mark Kulakoff; Lucas Kuzma; Morgan Land; Sheldon Larry; Clifford Latimer; Ken LaZebnik; Domin Lee; Elizabeth Lee; Robert Levin; Andrew Licht; Dan Lupovitz; John Mahoney; Laird Malamed; Leonard Maltin; Carolyn Manetti; David Maquiling; Peter Marx; Frank McAdams; Jim McGinn; Rebekah McKendry; Mary McNamara; Bill Mechanic; Dagen Merrill; Chris Morocco; Tatiana Mulry; Robert Nashak; Rob Nederhorst; Sahand Nikoukar; Fredrik Nilsson; Joseph Nussbaum; Dave O'Brien; Jim O'Keeffe; Sev Ohanian; Joseph Olin; Bob Osher; Joel Parker; Rick Parks; Joe Peracchio; Rod Perth; Brian Peterson; Paul Petschek; Wendy Phillips; Mary Posatko; Anne Postman; Kate Powers; Wayne Powers; Bill Prady; Ross Putman; Robert Ramsey; Phil Ramuno; Gary Randall; Amy Reed; Sandy Reisenbach; Silvia Rigon; Vincent Robert; Peter Robinson; Jason Rosenfield; Roland Rosenkranz; Torrie Rosenzweig; Jeremy Royce; Kendra Ryan; Nina Sadowsky; Leander Sales; Mike Saltzman; Jimena Sarno; James Savoca; Julie Sayres; Nevin Schreiner; Phil Schwartz; Matthew Scott; Debby Seibel; Joselito Seldera; Bita Shafipour; Rick Shaine; Toi Juan Shannon; Bobby Smith, Jr.; Jim Staahl; Josh Staub; Katherine Steinbach; Noah Stern; Sean Stewart; Scott Sturgeon; Danny Sussman; Neely Swanson; Beth Sweeney; Ella Taylor; Aaron Thomas; John Underkoffler; Marcel Valcarce; Pam Veasey; Ligiah Villalobos; Jeffrey Vlaming; Gary Wagner; Dahvi Waller; Gene Warren III; Miles Watkins; Jordan Weisman; David Weitzner; Nicole West; William Whittington; Tyger Williams; Chase Winton; Russ Woody; Frank Wuliger; Chris Wyatt; Qianqian Ye; Maureen Yeager; Ashley York; Gil Zimmerman

University Professor Emerita: Marsha Kinder, PhD

Professor Emerita: Doe Mayer, MA

Professors Emeriti: Drew Casper, PhD; Ron Curfman, MFA; Trevor Greenwood, MA; Richard Harber, MA; David E. James, PhD; Richard Jewell, PhD; Edward Kaufman, PhD; Woody Omens, MA; Morton Zarcoff, MA

Associate Professors Emeriti: Robert Miller, PhD; Dennis Wixon, PhD

Research Professor Emeritus: Richard Weinberg, PhD

Professor Emeritus of the Practice of Cinematic Arts: Jason Squire, MFA

Degree Programs

The USC School of Cinematic Arts offers professional and academic degree programs at the bachelor's, master's and doctoral levels.

Bachelor of Arts — Animation and Digital Arts

This program combines a broad liberal arts background with specialization in a profession. The degree is granted through the USC Dornsife College of Letters, Arts and Sciences in conjunction with the School of Cinematic Arts. The degree requires 128 units. For more information, see full program description.

Bachelor of Fine Arts — Animation and Digital Arts

This is a program designed for students who wish to receive intensive training in all aspects of pre-production and production to ideate, design and create animated works. The BFA in Animation and Digital Arts is granted through the School of Cinematic Arts. The degree requires 128 units. For more information, see full program description.

Bachelor of Arts, Cinema and Media Studies

This degree is granted through the USC Dornsife College of Letters, Arts and Sciences in conjunction with the School of Cinematic Arts and requires 128 units. For more information, see full program description.

Bachelor of Arts, Cinematic Arts, Film and Television Production

This degree is a two-year program for transfer students. The BA is granted through the USC Dornsife College of Letters, Arts and Sciences in conjunction with the School of Cinematic Arts and requires 128 units. For more information, see full program description.

Bachelor of Fine Arts, Cinematic Arts, Film and Television Production

This degree is a four-year program only available to incoming freshmen. The BFA in Cinematic Arts, Film and Television Production is granted through the School of Cinematic Arts and requires 128 units. For more information, see full program description.

Bachelor of Fine Arts — Game Art

Dedicated to creating beautiful art assets for interactive media and technologies, this program focuses on Games with concentrations that might include character animation, environmental design, visual effects, 3-D pipelines and interactive animation. Students study within the framework that combines a broad liberal arts background with specialization in a profession. The Bachelor of Fine Arts in Game Art is granted through the the School of Cinematic Arts. The degree requires 128 units. For more information, see full program description.

Bachelor of Arts — Interactive Entertainment

Dedicated to immersive experience design and emerging technologies, this program is for students who are driven to innovate at the intersection of traditional media, games, and whatever happens next. The Bachelor of Arts in Interactive Entertainment is granted through the USC Dornsife College of Letters, Arts and Sciences in conjunction with the School of Cinematic Arts. The degree requires 128 units. For more information, see full program description.

Bachelor of Arts — Media Arts and Practice

This program is for students who want to harness the power of digital storytelling and media design to communicate across diverse fields beyond the entertainment industry. This degree is granted through the USC Dornsife College of Letters, Arts and Sciences in conjunction with the School of Cinematic Arts. The degree requires 128 units. For more information, see full program description.

Bachelor of Fine Arts — Writing for Screen and Television

This is a unique program designed for students who wish to receive intensive training for non-fiction and fiction writing for screen and television. The BFA in Writing for Screen and Television is granted through the School of Cinematic Arts. The degree requires 128 units. For more information, see full program description.

Bachelor of Science in Business Administration (Cinematic Arts)

This program offers a unique coupling of the USC Marshall School of Business and the School of Cinematic Arts in a four-year interdisciplinary degree. In addition to the Marshall School of Business core classes, the students will also take a total of 24 units from the School of Cinematic Arts. This competitive program is offered to freshmen admitted to the Marshall School of Business as Business Scholars. Upon completion of all requirements, students will receive a Bachelor of Science in Business Administration (Cinematic Arts). See the Marshall School of Business for course requirements.

Master of Arts, Cinema and Media Studies

This degree is granted by the USC Graduate School in conjunction with the School of Cinematic Arts. This program requires 36 units. For more information, see full program description.

Master of Arts, Cinematic Arts (Media Arts, Games and Health)

This program requires 36 units. For more information, see full program description.

Master of Fine Arts, Cinematic Arts, Film and Television Production

This professional degree requires 52 units. For more information, see full program description.

Master of Fine Arts, Writing for Screen and Television

This program requires 44 units. For more information, see full program description.

Master of Fine Arts, Animation and Digital Arts

This program requires 50 units. For more information, see full program description.

Master of Fine Arts, Interactive Media

This program requires 50 units. For more information, see full program description.

Master of Fine Arts, Interactive Media (Games and Health)

This program requires 50 units. For more information, see full program description.

Master of Fine Arts, Producing for Film, Television, and New Media

The Peter Stark Producing Program requires 44 units. For more information, see full program description.

Doctor of Philosophy, Cinema and Media Studies

The PhD is based on a program of study and research culminating in the completion of a dissertation in the major field of study. A minimum of 68 semester units (exclusive of dissertation registration) beyond the baccalaureate is required. Applicants who have completed a Bachelor of Arts or Master of Arts degree in Cinematic Arts, or a closely related field, may apply to the PhD program. The doctoral degree is granted by the Graduate School in conjunction with the School of Cinematic Arts. For more information, see full program description.

Doctor of Philosophy, Cinematic Arts (Media Arts and Practice)

The PhD in Media Arts and Practice program offers a rigorous and creative environment for scholarly innovation as students explore the intersection of design, media and critical thinking while defining new modes of research and scholarship for the 21st century. Core to the program is its transdisciplinary ethos; after completing foundational course work, students design their own curricula, drawing on expertise across all divisions and research labs within the School of Cinematic Arts. The doctoral degree is granted by the Graduate School in conjunction with the School of Cinematic Arts. For more information, see full program description.

Writing for Screen and Television Certificate

The Writing for Screen and Television Certificate provides an established writer, domestic or international, with a one-year program of study. It is meant to accommodate a writer who has already attained significant recognition and would like to learn the craft of screenwriting. Sixteen units are required. For more information, see full program description.

Graduate Certificate in the Business of Entertainment

This certificate program provides graduate-level education in various aspects of the business of film, television and new media. It requires 16 units. For more information, see full program description.

Graduate Certificate in Cinematic Arts Archiving and Preservation

This certificate program is designed specifically for students and practitioners who want to use their education and skills for advancing the knowledge of film, television and interactive media through the preservation and dissemination of the historical artifacts that form the underpinnings of scholarship in

the performing arts. Through this program, students will gain the knowledge, tools and skills necessary to preserve the materials that make up the history of entertainment and to lead scholars through the research maze to the completion of books or media in their fields of study. This certificate requires 12 units. For more information, see full program description.

Graduate Certificate in Digital Media and Culture

This certificate program is for graduate students from across the USC campus who want to explore the shifting nature of scholarly expression, pedagogical practice and research in the 21st century. It combines seminars with hands-on, lab-based workshops devoted to basic image manipulation, video editing, social media and Web design to facilitate sophisticated critical thinking and practice in and through multimedia. The program requires 12 units. For more information, see full program description.

General Requirements

Acceptance of Transfer Units

The School of Cinematic Arts does not accept courses taken in film and/or television production at other institutions to fulfill degree and minor requirements. Basic film or television history courses can sometimes be accepted for transfer credit.

No transfer credit will be accepted in lieu of CTPR 290, CTPR 294, CTPR 295, CTPR 310, CTPR 507 and CTPR 508 and any advanced production courses.

No transfer credits are accepted for the Peter Stark producing track, the graduate programs in animation and digital arts, screenwriting and interactive media.

Transfer policy for the PhD requires advisement and approval of the division chair.

Waiver of Course Requirements

Under special circumstances waivers and substitutions are granted; check with the Cinematic Arts Office of Student Affairs. All course waivers and substitutions are reviewed by committee and must be approved by the associate dean of academic affairs.

The following courses cannot be waived for students majoring in Film and Television Production: CTIN 584a, CTIN 584b, CTIN 584c, CTIN 584z, CTPR 290, CTPR 294, CTPR 295, CTPR 310, CTPR 480, CTPR 507, CTPR 508, CTPR 546L, CTPR 547L, CTPR 581a, CTPR 581b, CTPR 581c, CTPR 581z, CTPR 582a, CTPR 582b, CTPR 582z, CTPR 583, CTPR 587a, CTPR 587b, CTPR 587c, CTPR 587z.

Student Advisement

Each program has its own advisement system. Check with the program administrator or with the Cinematic Arts Office of Student Affairs. Cinematic Arts student affairs counselors are available to answer questions about degree programs, grades, advisement and other matters.

Grade Point Average Requirements

A minimum grade of C, 2.0 (A = 4.0), must be earned in all required and prerequisite courses in order to progress to the next course level. Students may attempt to improve a grade lower than a C (2.0) only one time by registering and retaking the specific course. Departmental approval is required in order to retake a School of Cinematic Arts course.

In addition, a minimum grade point average must be achieved to earn all cinematic arts degrees (see the individual program descriptions). For example, undergraduates and graduates must earn a minimum grade of C (2.0) in all required cinematic arts courses. However, graduate students must also achieve a B (3.0) average in all courses required for the degree.

Undergraduate students in the film and television production program who achieve a grade lower than a C (2.0) in CTPR 290 (BFA only), CTPR 294, CTPR 295 or CTPR 310, and graduate students in the production program who earn a grade lower than a C (2.0) in CTPR 507 or CTPR 508 may petition to retake the required sequence only once. Permission to retake any prerequisite or core production courses requires prior departmental committee approval.

Students who do not satisfy the degree requirement after repeating a class will be disqualified from the program.

Tuition and Fees (Estimated)

Students in the School of Cinematic Arts' graduate programs pay differential tuition (see the Tuition and Fees section for current tuition rates). Undergraduate programs are assessed the university-wide tuition rate. In addition, some classes are charged lab fees, as noted in the *Schedule of Classes*, and insurance fees. The university reserves the right to assess new fees or charges. The rates listed are subject to change without notice by action of the Board of Trustees.

Attendance Policy

The School of Cinematic Arts curriculum relies heavily on in-class participation and interaction between faculty and students. Many of our courses are taught in a collaborative workshop environment and our theoretical lectures are driven through in-depth classroom discussion and analysis. We hold collaboration and constructive criticism as foundational to all of our learning environments and essential to the methodologies of our instruction. Student attendance is not only fundamental, but mandatory for the structure and success of our program for both the individual student and the educational experiences of other students within our community.

Minors, International Programs and Summer Program

Minor in Animation and Digital Arts

The minor in animation offers students an introduction to the theory and practice of animation, including its relationship to the history of art and cinema, creative writing, and basic film production. It provides students with an opportunity to create both personal and collaborative work in a wide range of genres, from traditional character to contemporary experimental and computer animation. The program requires 24 units. For more information, see full program description.

Minor in Cinematic Arts

A minor in cinematic arts is available to USC undergraduate students in all schools and departments. The minor provides the opportunity for students to become familiar with various aspects of media study. The program requires 20 units. For more information, see full program description.

Minor in Comedy

The minor in comedy is designed to train students in the creation of comedic entertainment in film, television and new media. The program utilizes both analysis courses and creative workshops to train students in comedic theory and practice. Through elective choices students may focus their studies on a number of cinematic disciplines as they pertain to the creation of comedic content, including writing sit-coms, directing comedic actors and producing sketch comedy. The program requires 16 units. For more information, see full program description.

Minor in Digital Studies

The minor in digital studies explores the rich potential of digital media for critical analysis and creative discovery. Learning the exciting and dynamic potential of a broad array of tools and technologies, students create innovative projects, from photo essays to web-based documentaries, from interactive videos to sophisticated Websites, and from typography in motion to 3-D visualizations. The program requires 20 units. For more information, see full program description. Minor students may also choose to earn an Honors designation by completing 6 additional units of course work, culminating in a capstone thesis during the student's final year.

Minor in Documentary

The minor in documentary is designed to train students in the preparation and production of documentary media. Courses are designed to give students insight into the history of documentary as well as experience with both the traditional and emerging forms of the genre. For more information, see full program description.

Minor in Entertainment Industry

The minor in entertainment industry provides students interested in media content creation with a focused curriculum that will give them insight into the economic factors and professional practices that influence the creative process, and how they interact with social, historical, technical and aesthetic elements. For more information, see full program description.

Minor in Future Cinema

The minor in Future Cinema explores the frontier of audiovisual storytelling building on the cutting edge research within the School of Cinematic Arts. Students will explore the creative and technological transformations of an industry in transition as cinema becomes live, playable, immersive, mobile, virtual, crowdsourced and more. The program requires 20 units. For more information see full program description.

Minor in Game Animation

The skills of the modern animator, visual effects artist, motion capture professional and many others are of great value in the games industry when paired with an understanding of how these assets can be used in games and systems. The game animation minor provides an educational path that teaches both systems thinking and the skills and creativity of an animator. The program requires 24 units. For more information, see full program description.

Minor in Game Audio

Game audio professionals must not only be competent in one area (e.g., expressly in music composing or in audio recording), but also in other areas of audio and in theories of procedurality and interaction. This minor provides a grounding in game design and systems thinking, while providing a theoretical backing and skills in audio design and composition to prepare students to design successful audio for the games industry. The program requires 24 units. For more information, see full program description.

Minor in Game Design

Design for games is a young, exciting field applicable to media artists working all over the world, in different aspects of the industry and with many different tools. The game design minor teaches basic iterative design and prototyping skills while providing students the opportunity to explore design for new technologies and the skills of user assessment and usability testing. The program requires 24 units. For more information, see full program description.

Minor in Game Entrepreneurism

The modern media, technology and entertainment fields are built on the backs of new businesses and new ideas. To start a successful business, you need skills and knowledge of the processes for setting up a business, finding investment and turning your creative project from prototype to finished project. The game entrepreneurism minor provides an educational path that teaches hard business thinking for creative entrepreneurs. The program requires 24 units. For more information, see full program description.

Minor in Game Studies

Games are a major cultural form, with game sales now exceeding box office revenue in the United States. Attention to games and interactive media is growing, and it has become necessary to understand them as meaningful systems, reflect on their cultural influence, and to help guide their evolution with insightful criticism. The game studies minor prepares students with fundamental underpinnings in media criticism and games. For more information, see full program description.

Minor in Game User Research

Game and interaction design are deeply dependent upon human-computer interaction and the ability to use research methods to improve player experience. This minor is designed to give students an underpinning in game design, interface design and research methods, while teaching a full set of skills for playtesting and usability practice. The program requires 24 units. For more information, see full program description.

Minor in Immersive Media

The minor in immersive media is designed to train students to create projects in virtual reality, augmented reality, and other immersive media formats. The core program requirements provide the solid fundamentals needed to understand, conceive of, and create immersive work. Through elective choices students may focus their studies on theory, on specific fields of immersive, on creative expression, or on building technology. The program requires 24 units. For more information, see full program description.

Minor in Media and Social Change

The minor in media and social change provides the opportunity for students who are interested in media content creation and research to take classes in a focused curriculum on the various aspects of media for change. Students will gain insight into the professional practices of creating media content, analyzing existing content, and learning how they can influence the future by integrating social issues into the work they are doing in related fields. The program requires 20 units. For more information, see full program description.

Minor in Science Visualization

The minor in science visualization offers an introduction to science visualization methodology and practice focused in an area of relevant research. The minor is structured to provide the skills and knowledge needed in science visualization, and will culminate in a capstone project under the close supervision of faculty in both animation and science. The program requires 16 units. For more information, see full program description.

Minor in Screenwriting

The minor in screenwriting provides thorough training in the craft of writing for screen and television. Students learn the fundamentals of character, conflict and scene structure and build on their skills through each course as they write feature and television scripts in all genres and explore areas of their interest. Students may apply in the spring or fall semester. The program requires 16 units. For more information, see full program description.

Minor in Themed Entertainment

From cruise ships to casinos to immersive educational retreats, themed entertainment design involves submerging a real, live human being into a story in a truly robust, physical way. As new tools for entertainment and education develop, they continually push toward enabling players to completely become the heroes and heroines of their own stories. The themed entertainment minor focuses on history, theory and skills of themed entertainment design. The program requires 24 units. For more information, see full program description.

Minor in 3-D Animation in Cinematic Arts

The minor in 3-D animation in cinematic arts offers an introduction to basic animation principles and history, as well as creative and skill-based instruction in 3-D computer animation. Through elective choices students may focus their studies on their specific area of interest, including visual effects, motion capture, virtual reality, modeling, or character animation. The program requires 16 units. For more information, see full program description.

Minor in Cinema-Television for the Health Professions

This 24-unit minor is designed for students who plan to enter careers or professional programs in medicine after graduation and are interested in working with film and television producers to disseminate accurate health information to the public. See the Keck School of Medicine of USC for course requirements.

Minor in Video Game Design and Management

The video game design minor integrates theoretical concepts and practical skills to prepare students for a career in interactive entertainment, specifically the video game industry. Through integration of two major disciplines (cinematic arts and information technology), students will be exposed to a variety of design concepts related to creating video games. See the Information Technology Program for course requirements. For specific information on admission and application procedures, contact the School of Cinematic Arts at (213) 821-2515 or the Information Technology Program at (213) 740-4542.

Minor in Performing Arts Studies

The minor in Performing Arts provides an interdisciplinary inquiry into the nature and aesthetics of the performing arts. It combines the disciplines of cinematic arts, dance, music and theatre. The minor is a unique course of study that looks at how the performing arts contribute to a culturally literate society. See USC School of Dramatic Arts for requirements.

International Programs

Global Exchange Workshop

"The Global Exchange Workshop" is an intensive, seven-week workshop in documentary filming that pairs graduate students from the USC School of Cinematic Arts and the Communication University of China (CUC) to make short documentaries on Los Angeles and/or Beijing as global cities. Participating students enroll in CTPR 515 Global Exchange Workshop (2 units).

With faculty guidance from both universities, the students must negotiate cultural differences both in front of and behind the camera. In the process, both students and faculty directly experience the other culture and learn how it defines globalism in general, sees its own city in global terms, combines theory and practice, and processes a new set of perceptions and lived experience.

Interested students should contact Professor Pablo Frasconi of the division of Film and Video Production at pfrasconi@cinema.usc.edu.

Summer Program

The USC School of Cinematic Arts Summer Program is a six-week program that offers classes from different facets of the entertainment industry, all for college credit. Participants from around the world have an opportunity to attend intensive, creatively demanding and satisfying filmmaking courses. Please note: the SCA Summer Program consists of collegiate-level courses and is not a continuing education or certificate earning program.

Minor

3-D Animation in Cinematic Arts Minor

The minor in 3-D animation in cinematic arts offers an introduction to basic animation principles and history, as well as creative and skill-based instruction in 3-D computer animation. Through elective choices students may focus their studies on their specific area of interest, including visual effects, motion capture, virtual reality, modeling or character animation. The program requires 16 units.

To be eligible for the 3-D animation in cinematic arts minor, a student must be in good academic standing and have a declared major. To declare the minor a student must submit a Change of Major/Minor form to the John C. Hench Division of Animation and Digital Arts in SCB 210.

Core Requirements (6 units)

- CTAN 330 Animation Fundamentals Units: 2
- CTAN 451 History of Animation Units: 2
- CTAN 452 Introduction to 3-D Computer Animation Units: 2

Electives (10 Additional Units)

- CTAN 420 Concept Design for Animation Units: 2
- CTAN 432 The World of Visual Effects Units: 2
- CTAN 443L Character Development for 3-D Animation and Games Units: 2
- CTAN 455L Organic Modeling for Animation Units: 2
- CTAN 460 Character Design Workshop Units: 2
- CTAN 462 Visual Effects Units: 2
- CTAN 463L Creative Workflow in Visual Effects Units: 2
- CTAN 464L Digital Lighting and Rendering Units: 2
- CTAN 465L Digital Effects Animation Units: 2
- CTAN 485L Pipeline and Character Modeling for Animation Units: 2
- CTAN 497L Procedural Animation Units: 2
- CTAN 502L Experiments in Immersive Design Units: 2
- CTAN 504L Creative Production in Virtual Reality Units: 2
- CTAN 508L Live Action Integration with Visual Effects Units: 2
- CTAN 563 Advanced Character Animation Performance Units: 2
- CTAN 564L Motion Capture Fundamentals Units: 2
- CTAN 565L Motion Capture Performance Units: 2

Enrollment in 500-level courses requires special permission.

Grade Point Averages

A minimum grade of C (2.0) in each course is required. A grade of C- (1.7) or lower does not fulfill a minor requirement.

Animation and Digital Arts Minor

The minor in animation offers students an introduction to the theory and practice of animation, including its relationship to the history of art and cinema, creative writing and basic film production. It provides students with an opportunity to create both personal and collaborative work in a wide range of genres, from traditional character to contemporary experimental and computer animation. This includes painting, cel, stop motion, collage, mixed media, 2- and 3-D computer animation software and interactive digital media. Successful completion of a final project is required.

Most students will enter the minor in animation program in their sophomore year at USC.

A student enrolled on the undergraduate level at USC may apply to minor in animation if he or she is maintaining normal degree progress.

Animation minor applications are reviewed by a panel of faculty members, with admissions made for the fall semester only. A maximum of 12 students will be admitted per year.

Application Procedures

To be considered for admission to the minor in animation, the applicant is required to submit the following materials: (1) Cinematic Arts departmental application, (2) academic records including current USC transcripts, (3) personal statement, (4) two letters of recommendation, and (5) portfolio (prints, slides, CD, DVD, film and/or video). Applications and admission information can be obtained from the USC School of Cinematic Arts, Animation and Digital Arts Program Office, (213) 740-3986 or online at cinema.usc.edu.

Grade Point Average Requirement

A minimum grade of C (2.0) in each course is required. A grade of C- (1.7) or lower does not fulfill a minor requirement.

Course Requirements

The following courses are to be taken in a prescribed sequential order. Twenty-four units are required.

In addition, CTAN 450c is a capstone production class. It is a very time intensive class that will require a very large amount of work. The film project undertaken under CTAN 450c must be completed by the end of the semester enrolled in CTAN 450c in order to pass the class and receive the minor. It is recommended that you do not take a heavy course load during the semester that you enroll in CTAN 450c.

Please note that by the time you enroll in CTAN 450c, you must have completed all of the other minor requirements before requesting access to CTAN 450c.

Courses

Year One

- CTCS 190g Introduction to Cinema Units: 4
- CTAN 448 Introduction to Film Graphics — Animation Units: 4
- CTAN 451 History of Animation Units: 2

Year Two

- CTPR 385 Colloquium: Motion Picture Production Techniques Units: 4
- CTAN 436 Writing for Animation Units: 2
- CTAN 450a Animation Theory and Techniques Units: 2
- CTAN 452 Introduction to 3-D Computer Animation Units: 2 max 4

Year Three

- CTAN 450b Animation Theory and Techniques Units: 2
- CTAN 450c Animation Theory and Techniques Units: 2

Cinematic Arts Minor

The minor in cinematic arts combines an introduction to this exciting and influential field with a diversified set of classes in critical studies, production, screenwriting, the entertainment industry, animation and interactive media. The curriculum is purposely flexible; students may choose to sample different areas in their upper-division courses or emphasize a single primary interest, such as production.

To be eligible for the cinematic arts minor, a student must be in good academic standing and have a declared major. To declare the cinematic arts minor a student must submit a Change of Major/Minor form to Cinematic Arts Office of Student Services, SCB 105.

Course Requirements for the Minor

A total of 20 units is required for the minor in cinematic arts, one 4-unit lower-division course and 16 upper-division units.

Lower-division Requirement

- CTCS 190g Introduction to Cinema Units: 4 * or
- CTCS 191 Introduction to Television and Video Units: 4

Note:

**Gateway course*

Upper-division Requirement

8 units from the following:

- CTAN 432 The World of Visual Effects Units: 2
- CTAN 450a Animation Theory and Techniques Units: 2
- CTAN 450b Animation Theory and Techniques Units: 2
- CTAN 450c Animation Theory and Techniques Units: 2
- CTAN 451 History of Animation Units: 2
- CTAN 462 Visual Effects Units: 2
- CTCS 303 Japanese Anime Units: 2
- CTCS 400 Non-Fiction Film and Television Units: 4
- CTCS 407 African American Cinema Units: 4
- CTCS 411 Film, Television and Cultural Studies Units: 4
- CTCS 412 Gender, Sexuality and Media Units: 4
- CTCS 414 Latina/o Screen Cultures Units: 4
- CTCS 464 Film and/or Television Genres Units: 4
- CTCS 466 Theatrical Film Symposium Units: 4
- CTCS 467 Television Symposium Units: 4
- CTCS 469 Film and/or Television Style Analysis Units: 4
- CTIN 482 Designing Social Games Units: 2
- CTPR 327 Motion Picture Cinematography Units: 3
- CTPR 335 Motion Picture Editing Units: 3
- CTPR 385 Colloquium: Motion Picture Production Techniques Units: 4
- CTPR 409 Practicum in Television Production Units: 1, 2, 4
- CTPR 460 Film Business Procedures and Distribution Units: 2 or 4
- CTPR 461 Managing Television Stations and Internet Media Units: 2
- CTPR 484 Advanced Multi-Camera Television Workshop Units: 4
- CTWR 409 Fundamentals of Screenwriting: Character, Conflict and Story Units: 4
- CTWR 411 Television Script Analysis Units: 2
- CTWR 416 Motion Picture Script Analysis Units: 2
- CTWR 431 Screenwriters and Their Work Units: 2
- CTWR 432 Television Writers and Their Work Units: 2

Plus 8 additional upper-division units of Cinematic Arts electives

Additional Requirements

Grade Point Average Requirement

A minimum grade of C (2.0) in each course is required. A grade of C- (1.7) or lower does not fulfill a minor requirement.

Comedy Minor

The minor in comedy is designed to train students in the creation of comedic entertainment in film, television and new media.

Application Procedures

To apply to the minor in comedy, a student must be in good academic standing, have a declared major, and be currently enrolled in or have completed with a passing grade CTWR 404 Foundations of Comedy.

Applicants are required to submit the following materials: (1) Cinematic Arts departmental application, (2) curriculum vitae highlighting comedy experience, and (3) a personal statement of 250 words or less. Applications and admission information can be obtained from the USC School of Cinematic Arts, Writing for Screen and Television division, (213) 740-3303.

Course Requirements for the Minor

A total of 16 units is required to complete the comedy minor.

Required Course (2 Units)

- CTWR 404 Foundations of Comedy Units: 2

Elective Courses (14 Units from the Following)

- CTWR 324 Introduction to Half-Hour Television Writing Units: 2 *
- CTWR 403 Writing the Narrative Podcast Series Units: 2
- CTWR 407 Creating the Comedic Character Units: 2
- CTWR 409 Fundamentals of Screenwriting: Character, Conflict and Story Units: 4
- CTWR 430 Comedy Writers and Their Work Units: 2 max 6
- CTWR 431 Screenwriters and Their Work Units: 2 max 6
- CTWR 432 Television Writers and Their Work Units: 2 max 6
- CTWR 434 Writing the Half-Hour Comedy Series Units: 2 max 6*
- CTWR 437 Writing the Original Situation Comedy Pilot Units: 4 max 8*
- CTWR 438 Linked Narrative Storytelling for the Web Units: 2, 4 max 8
- CTWR 477 Staff Writing the Sketch Comedy Show Units: 2 max 6*
- CTWR 487 Staff Writing the Multi-Camera Television Series Units: 4 max 8*
- CTWR 497 Staff Writing the Single-Camera Half-Hour Series Units: 4 *
- CTPR 371 Directing for Television Units: 4

- CTPR 464 Directing the Television Sketch Comedy Show Units: 2 max 4
- CTPR 476 Directing The Comedic Scene Units: 2
- CTPR 484 Advanced Multi-Camera Television Workshop Units: 4 max 8
  *Prerequisite required

Note:

**Prerequisite required.*

Grade Point Averages

A minimum grade of C (2.0) in each course is required. A grade of C- (1.7) or lower does not fulfill a minor requirement.

Digital Studies Minor

The minor in digital studies explores the rich potential of digital media for critical analysis and creative discovery. Learning the exciting and dynamic potential of a broad array of tools and technologies, students create innovative projects, from photo essays to Web-based documentaries, from interactive videos to sophisticated Websites, and from typography in motion to 3-D visualizations. Elective courses explore media for social change, tangible computing, transmedia expression and more, allowing students to use media in pursuit of their own interests and to enhance their major.

All digital studies courses combine theory and practice in lab-based seminars featuring hands-on tutorials to support students in producing sophisticated media-rich work. Participants in this minor gain powerful skills useful in future endeavors within or beyond academia, where the ability to work effectively with media is a crucial job skill.

Information about courses and other program offerings can be obtained by emailing the Media Arts and Practice program at map@cinema.usc.edu.

Program Requirements

A minimum of 20 units is required to complete the minor. All courses must be taken for a letter grade.

Introductory Courses

- IML 104 Introduction to Digital Studies Units: 2 and
- IML 140 Workshop in Multimedia Authoring Units: 2 or
- IML 201 The Languages of Digital Media Units: 4

Media Arts Platform Courses

Choose 12 units from the following courses:

- IML 230 Fundamentals of Media Design Units: 4
- IML 288 Critical Thinking and Procedural Media Units: 4
- IML 300 Reading and Writing the Web Units: 4
- IML 328 Sonic Media Art Units: 2
- IML 335 Digital Narrative Design I Units: 2
- IML 354 Introduction to 3-D Modeling Units: 2
- IML 400 Creative Coding for the Web Units: 4 *
- IML 404 Tangible and Spatial Computing Units: 4 *
- IML 428 Exploring and Creating Sonic Environments Units: 4 *
- IML 430 Visual Communication and Experience Design Units: 4 *
- IML 435 Digital Narrative Design II Units: 4 *
- IML 436 Hypercinemas Studio Units: 4 *
- IML 454 Advanced Techniques of Spatial Representation Units: 4 *
- IML 481 Mixed Realities: Histories, Theories and Practices Units: 4
  *Prerequisite required.

Media Arts Electives

Choose 4 units from the following courses:

- IML 309 Integrative Design for Mobile Devices Units: 4
- IML 310 Professionalism for Media Arts Units: 2 *
- IML 320 Designing and Writing for Transmedia Narratives Units: 4
- IML 340 Remixing the Archive Units: 4
- IML 365 Future Cinema Units: 4
- IML 385 Design Fiction and Speculative Futures Units: 4
- IML 419 Emotion in Digital Culture Units: 4
- IML 420m New Media for Social Change Units: 4
- IML 422 Information Visualization Units: 4
- IML 450 Critical Play and Documentary Games Units: 4
- IML 456 Nature, Design and Media Units: 2
- IML 458 The Embedded Story: Designing Digital Landscapes and Languages Units: 2 *
- IML 466 Digital Studies Symposium Units: 2
- IML 475 Media Arts Research Lab Units: 2, 3, 4
- IML 477 Embodied Storytelling and Immersive Docu-Narratives Units: 4
- IML 499 Special Topics Units: 2, 3, 4
  *Prerequisite required.

Honors Thesis Track

Students who wish to pursue the honors track must submit an application to their minor adviser. If approved, students will complete a capstone thesis project during their senior year in order to earn an honors designation. Students must enroll in the following thesis courses:

- IML 346 Methods in Digital Research Units: 2 *
- IML 440 Thesis Project Units: 4 *
  *Prerequisite required.

Documentary Minor

The minor in documentary is designed to train students in the preparation and production of documentary media. Courses are designed to give students insight into both the history of documentary as well as access to new and emerging forms of the media.

To be eligible for the documentary minor, a student must be in good academic standing and have a declared major. To declare the cinematic arts minor a student must submit a Change of Major/Minor form to Cinematic Arts Office of Student Services, SCB 105.

Core Requirement

- CTCS 400 Non-Fiction Film and Television Units: 4

Electives

Take 12 units from the following courses:

- CTAN 470 Documentary Animation Production Units: 2
- CTIN 479 Documentary and Activist Games Units: 2
- CTPR 431 Developing the Documentary Production Units: 2
- CTPR 474 Documentary Production Units: 4
- IML 340 Remixing the Archive Units: 4
- IML 450 Critical Play and Documentary Games Units: 4
- IML 477 Embodied Storytelling and Immersive Docu-Narratives Units: 4
- IML 520 Non-Fiction Cinematic Practice I Units: 2 *
- IML 521 Non-Fiction Cinematic Practice II Units: 2 * +

Note:

* Taking graduate-level courses requires special permission.
\+ Prerequisite required.

Entertainment Industry Minor

The minor in the entertainment industry provides students interested in media content creation with a focused curriculum that will give them insight into the economic factors and professional practices that influence the creative process, and how they interact with social, historical, technical and aesthetic elements. To be eligible for the entertainment industry minor, a student must be in good academic standing, have a declared major, and have completed CTCS 190g Introduction to Cinema or CTCS 191 Introduction to Television and Video with a C or better. To declare the minor, a student must submit a Change of Major/Minor form to Cinematic Arts Student Services, SCB 105.

Course Requirements for the Minor

A total of 18 upper-division units is required for the minor in the Entertainment Industry.

Courses

- CNTV 375 Breaking Into the Entertainment Industry Units: 2
- CNTV 440 The Business of the Entertainment Industry: Motion Pictures, Television, Animation, Video Games, and Interactive Entertainment Units: 2
- CNTV 495 Internship in Cinematic Arts Units: 1, 2, 4 (2 units)
- CTPR 458 Organizing Creativity: Entertainment Industry Decision Making Units: 2

One of the following:

- CTCS 466 Theatrical Film Symposium Units: 4
- CTCS 467 Television Symposium Units: 4
- CTIN 463 Anatomy of a Game Units: 4
- CTPR 386 Art and Industry of the Theatrical Film Units: 4

One of the following:

- CTWR 411 Television Script Analysis Units: 2
- CTWR 416 Motion Picture Script Analysis Units: 2

Four units from:

- CNTV 457 The Entertainment Entrepreneur: Getting Your First Project Made Units: 2
- CNTV 474 Digital DNA: Media Redefined Units: 2
- CTAN 432 The World of Visual Effects Units: 2
- CTAN 451 History of Animation Units: 2
- CTIN 458 Business and Management of Games Units: 2
- CTPR 410 The Movie Business: From Story Concept to Exhibition Units: 2
- CTPR 425 Production Planning Units: 2
- CTPR 438 Practicum in Producing Units: 2 *
- CTPR 460 Film Business Procedures and Distribution Units: 2 or 4
- CTPR 461 Managing Television Stations and Internet Media Units: 2
- CTPR 496 The Film Industry: Career Challenges and Choices for Women Units: 2
- CTWR 417 Script Coverage and Story Analysis Units: 2
- CTWR 431 Screenwriters and Their Work Units: 2
- CTWR 432 Television Writers and Their Work Units: 2
- IML 466 Digital Studies Symposium Units: 2

Note:

* Prerequisite required.

Grade Point Average Requirement

A minimum grade of C (2.0) in each course is required. A grade of C- (1.7) or lower does not fulfill a minor requirement.

Future Cinema Minor

The minor in future cinema explores the frontier of audiovisual storytelling, building on the cutting edge research within the School of Cinematic Arts. Students will explore the creative and technological transformations of an industry in transition as cinema becomes live, playable, immersive, mobile, virtual, crowdsourced and more.

Combining history, theory and practice, the minor prepares students to engage with new forms of cinematic expression with an awareness of critical context and a methodology for understanding the changing roles of storytelling in the 21st century.

Information about declaring the minor, courses and other program offerings can be obtained by emailing the Media Arts and Practice program at map@cinema.usc.edu.

Program Requirements

A total of 20 units is required to complete the minor. All courses must be taken for a letter grade.

Introductory Courses

Choose 8 units from the following courses:

- IML 365 Future Cinema Units: 4
- IML 475 Media Arts Research Lab Units: 2, 3, 4
- IML 575 Graduate Media Arts Research Lab Units: 2, 3, 4 +

Electives

Choose 12 units from the following courses:

- CNTV 474 Digital DNA: Media Redefined Units: 2
- CTAN 452 Introduction to 3-D Computer Animation Units: 2
- CTAN 502L Experiments in Immersive Design Units: 2 +
- CTAN 504L Creative Production in Virtual Reality Units: 2 * +
- CTAN 564L Motion Capture Fundamentals Units: 2 * +
- CTCS 482 Transmedia Entertainment Units: 4
- CTWR 405 Storytelling for Virtual and Augmented Reality Units: 2 *
- CTWR 438 Linked Narrative Storytelling for the Web Units: 2, 4 *
- IML 309 Integrative Design for Mobile Devices Units: 4
- IML 320 Designing and Writing for Transmedia Narratives Units: 4
- IML 335 Digital Narrative Design I Units: 2
- IML 354 Introduction to 3-D Modeling Units: 2
- IML 385 Design Fiction and Speculative Futures Units: 4
- IML 404 Tangible and Spatial Computing Units: 4 *
- IML 436 Hypercinemas Studio Units: 4 *
- IML 454 Advanced Techniques of Spatial Representation Units: 4 *
- IML 456 Nature, Design and Media Units: 2
- IML 458 The Embedded Story: Designing Digital Landscapes and Languages Units: 2 *
- IML 477 Embodied Storytelling and Immersive Docu-Narratives Units: 4
- IML 481 Mixed Realities: Histories, Theories and Practices Units: 4
- IML 490x Directed Research Units: 1, 2, 3, 4, 5, 6, 7, 8 *

** Prerequisite required.*
+ Enrollment in graduate course work requires special permission.

Game Animation Minor

To create animations for a game requires an understanding that visual art forms one part of a game system or algorithm, and even animation poses and rigging must often be thought of in terms of programming-like logic. The skills of the modern animator, visual effects artist, motion capture professional and many others are of great value in the games industry, but very few of these professionals have both training in visual artistry and the systemic thinking necessary for game design. This minor provides an educational path that teaches both systems thinking and the skills and creativity of an animator.

To be eligible for the game animation minor, a student must be in good academic standing and have a declared major. To declare the game animation minor a student must get permission from the Interactive Media Division (SCA 222) and submit a Change of Major/Minor form to Cinematic Arts Student Services (SCB 105).

Course Requirements for the Minor

A total of 16 units is required for the game animation minor, including a minimum of 14 upper-division units.

Core Requirements (10 units)

- CTAN 443L Character Development for 3-D Animation and Games Units: 2 *
- CTAN 452 Introduction to 3-D Computer Animation Units: 2
- CTAN 464L Digital Lighting and Rendering Units: 2 *
- CTIN 291 Advanced Games Crew Units: 2
- CTIN 401L Interface Design for Games Units: 2

Electives (6 Additional Units)

- CTAN 330 Animation Fundamentals Units: 2
- CTAN 420 Concept Design for Animation Units: 2
- CTAN 432 The World of Visual Effects Units: 2
- CTAN 451 History of Animation Units: 2
- CTAN 460 Character Design Workshop Units: 2
- CTAN 462 Visual Effects Units: 2
- CTAN 465L Digital Effects Animation Units: 2 *
- CTAN 564L Motion Capture Fundamentals Units: 2 * +

- CTAN 565L Motion Capture Performance Units: 2 * +
- CTIN 485 Advanced Game Development Units: 2 *

Note:

**Prerequisite required.*
+Enrollment in CTAN 564 and CTAN 565 requires special permission.

Grade Point Average Requirement

A minimum grade of C (2.0) in each course is required. A grade of C- (1.7) or lower does not fulfill a minor requirement.

Game Audio Minor

To implement audio into a game requires an understanding that audio forms one part of a game system or algorithm, and even composition must often be thought of in terms of programming-like logic. Game audio professionals must not only be competent in one area (e.g., expressly in music composing, or in audio recording), but in other areas of audio as well. This minor provides a grounding in game design and systems thinking, while providing a theoretical backing and skills in audio design and composition to prepare students to design successful audio for the games industry.

To be eligible for the Game Audio minor, a student must be in good academic standing and have a declared major. To declare the Game Audio minor a student must get permission from the Interactive Media Division (SCA 222) and submit a Change of Major/Minor form to Cinematic Arts Student Services (SCB 105).

Course Requirements for the Minor

A minimum of 24 units is required for the Game Audio minor, 6 lower-division units and a minimum of 16 upper-division units.

Lower-division Core Units (6 Units)

- CTIN 101 Fundamentals of Procedural Media Units: 2
- MTEC 277x Introduction to Music Technology Units: 4

Upper-division Core Units (12 Units)

- CTIN 406L Sound Design for Games Units: 2
- CTIN 444 Audio Expression Units: 2
- CTIN 488 Game Design Workshop Units: 4
- CTIN 491L Advanced Game Project I Units: 4

Electives (Minimum 6 Additional Units, At Least 4 Upper-division)

- CTIN 483 Introduction to Game Development Units: 4
- CTIN 484L Intermediate Game Development Units: 2 *
- CTIN 486 Alternative Control Workshop Units: 2
- CTIN 489 Intermediate Game Design Workshop Units: 2 *
- CTIN 492L Experimental Game Topics Units: 4
- CTIN 493L Advanced Game Project II Units: 2 **
- CTPR 473 Spotting Music for Cinema Units: 2
- MTEC 245 Introduction to MIDI Sequencing Units: 1
- MTEC 246 Introduction to Audio Recording and Editing Units: 1
- MTEC 446a Computer Assisted Recording and Editing Units: 2
- MTEC 474a Electronic Synthesizer Techniques Units: 2, 3, 4
- MTEC 478 Advanced Multichannel Remix Units: 2 **
- MUCO 221ax Composition for Non-Majors Units: 2
- THTR 336 Introduction to Sound Design Units: 3

Note:

**CTIN 484 and CTIN 489 must be taken concurrently, and require CTIN 483 and CTIN 488 as prerequisites.*
***Prerequisite required.*

Grade Point Average Requirement

A minimum grade of C (2.0) in each course is required. A grade of C- (1.7) or lower does not fulfill a minor requirement.

Game Design Minor

Game design is the next great design field, and individuals of many professions and skill sets will benefit from understanding how to design for interactivity and new technology. The game design minor teaches basic iterative design and prototyping skills while providing students the opportunity to explore design for new technologies and the skills of user assessment and usability testing.

To be eligible for the game design minor, a student must be in good academic standing and have a declared major. To declare the game design minor a student must get permission from the Interactive Media Division (SCA 222) and submit a Change of Major/Minor form to Cinematic Arts Student Services (SCB 105).

Course Requirements for the Minor

A total of 24 units is required for the game design minor, 6 lower-division units and 18 upper-division units.

Lower-division Core (6 Units)

- CTIN 101 Fundamentals of Procedural Media Units: 2
- CTIN 190 Introduction to Interactive Entertainment Units: 4

Upper-division Core (12 Units)

- CTIN 483 Introduction to Game Development Units: 4
- CTIN 484L Intermediate Game Development Units: 2 *
- CTIN 488 Game Design Workshop Units: 4
- CTIN 489 Intermediate Game Design Workshop Units: 2 *

Electives (6 Additional Units)

- CTIN 401L Interface Design for Games Units: 2
- CTIN 404L User Research for Games Units: 2
- CTIN 405L Design and Technology for Mobile Experiences Units: 2
- CTIN 458 Business and Management of Games Units: 2
- CTIN 464 Game Studies Seminar Units: 2
- CTIN 482 Designing Social Games Units: 2
- CTIN 486 Alternative Control Workshop Units: 2
- CTIN 491L Advanced Game Project I Units: 4
- CTIN 492L Experimental Game Topics Units: 4
- CTIN 493L Advanced Game Project II Units: 2 **

Note:

**CTIN 484 and CTIN 489 must be taken concurrently and require CTIN 483 and CTIN 488 as prerequisites.*
***Prerequisite required.*

Grade Point Average Requirement

A minimum grade of C (2.0) in each course is required. A grade of C- (1.7) or lower does not fulfill a minor requirement.

Game Entrepreneurism Minor

A minor for students interested in building a business in the games and digital media industry. Building on the business, production and management courses in the Interactive Media Division, this minor culminates in our advanced game project course and provides students with hands-on mentorship in starting actual companies based on the work they are doing in these concurrent classes. The minor provides a basis in theories of design and production for games, as well as a strong grounding in the business knowledge necessary to become an entrepreneur.

To be eligible for the game entrepreneurism minor, a student must be in good academic standing and have a declared major. To declare the game entrepreneurism minor a student must get permission from the Interactive Media Division (SCA 222), and submit a change of major/minor form to Cinematic Arts Student Services (SCB 105).

Course Requirements for the Minor

A minimum of 16 units is required for the game entrepreneurism minor.

Upper-division Core (10 Units)

- BAEP 450 Fundamentals of Entrepreneurship Units: 4 or
- BAEP 451 The Management of New Enterprises Units: 4
- BAEP 452 Feasibility Analysis Units: 4 *
- CTIN 458 Business and Management of Games Units: 2

Electives (6 Additional Units)

- BAEP 454 Venture Initiation: Launching and Scaling Your Startup Units: 4 *
- BAEP 460 Seminar in Entrepreneurship Units: 2
- BAEP 465 Digital Playbook for Entrepreneurs: Creating a Tech Startup Units: 2
- BAEP 475 Entertainment Entrepreneurship Units: 2
- CTIN 432 Polishing and Publishing Interactive Media Units: 2
- CTIN 459L Game Industry Workshop Units: 4 *
- CTIN 463 Anatomy of a Game Units: 4
- CTIN 482 Designing Social Games Units: 2
- CTIN 488 Game Design Workshop Units: 4
- CTIN 497 Interactive Media Startup Units: 1

Note:

**Prerequisite required.*

Grade Point Average Requirement

A minimum grade of C (2.0) in each course is required. A grade of C- (1.7) or lower does not fulfill a minor requirement.

Game Studies Minor

Games are a major cultural form, with game sales now exceeding box office revenue in the United States. Attention to games and interactive media is growing, and it has become necessary to understand them as meaningful systems, reflect on their cultural influence, and to help guide their evolution with insightful criticism. The game studies minor prepares a student with fundamental underpinnings in media criticism and games.

To be eligible for the game design minor, a student must be in good academic standing and have a declared major. To declare the game design minor a student must get permission from the Interactive Media and Games Division (SCI 201) and submit a Change of Major/Minor form to Cinematic Arts Student Affairs (SCB 105).

Course Requirements for the Minor:

A total of 24 units is required for the game design minor, 6 lower-division units and 18 upper-division units.

Lower-division Core Units (6 Units)

- CTIN 101 Fundamentals of Procedural Media Units: 2
- CTIN 190 Introduction to Interactive Entertainment Units: 4

Upper-division Core Units (10 Units)

- CTIN 462 Critical Theory and Analysis of Games Units: 4
- CTIN 464 Game Studies Seminar Units: 2
- CTIN 488 Game Design Workshop Units: 4

Electives (8 Additional Units)

- AHIS 363m Contemporary Art and the Culture Wars Units: 4
- AHIS 429 Studies in Art, Science, and Technology Units: 4
- ANTH 333gm Forms of Folklore Units: 4
- ANTH 475 Ethnographic Film Analysis Units: 4
- COMM 340 The Cultures of New Media Units: 4
- COMM 350 Video Games: Content, Industry, and Policy Units: 4
- CTCS 367 Global Media Units: 4
- CTCS 412 Gender, Sexuality and Media Units: 4
- CTCS 469 Film and/or Television Style Analysis Units: 4
- CTCS 478 Culture, Technology and Communications Units: 4
- CTCS 482 Transmedia Entertainment Units: 4
- CTIN 463 Anatomy of a Game Units: 4
- CTIN 483 Introduction to Game Development Units: 4
- CTIN 492L Experimental Game Topics Units: 4
- CTWR 410L Character Development and Storytelling for Games Units: 4
- HIST 380 American Popular Culture Units: 4
- IML 466 Digital Studies Symposium Units: 2
- JOUR 381 Entertainment, Business and Media in Today's Society Units: 4
- THTR 395m Drama as Human Relations Units: 4
- THTR 403 The Performing Arts Units: 4
- THTR 405m Performing Identities Units: 4
- THTR 406 Theatre on the Edge Units: 4
- THTR 488mw Theatre in the Community Units: 4

Additional Requirements

Grade Point Average Requirement

A minimum grade of C (2.0) in each course is required. A grade of C- (1.7) or lower does not fulfill a minor requirement.

Game User Research Minor

Game and interaction design are deeply dependent upon human-computer interaction and the ability to use research methods to improve player experience. Game user research is a critical aspect of game design and development that involves management of playtests and usability tests of the software, technology and rules. Along with the ability to analyze and design for optimal player experience, this field combines the ability to analyze large batches of data, and an understanding of how to build applications that mine data from users; these skills form the backbone of an incredibly valuable team member for digital entertainment products. The Interactive Media and Games Division at the School of Cinematic Arts is a leading facility in the teaching of usability, research, and playtesting practices in this field, and the game user research minor is designed to give students an underpinning in game design, interface design and research methods, while teaching a full set of skills for playtesting and usability practice.

To be eligible for the game user research minor, a student must be in good academic standing and have a declared major. To declare the game design minor a student must get permission from the Interactive Media and Games Division (SCI 201) and submit a Change of Major/Minor form to Cinematic Arts Student Affairs (SCB 105).

Course Requirements for the Minor

A total of 16 units is required for the game user research minor, 2 lower-division units and a minimum of 12 upper-division units.

Lower-division Core Units (2 Units)

- CTIN 291 Advanced Games Crew Units: 2

Upper-division Core Units (8 Units)

- COMM 301Lg Empirical Research in Communication Units: 4
- CTIN 401L Interface Design for Games Units: 2
- CTIN 404L User Research for Games Units: 2

Electives (6 Additional Units)

- CTIN 110 Statistical Analysis for Games: Storytelling with Numbers Units: 4
- CTIN 432 Polishing and Publishing Interactive Media Units: 2
- CTIN 458 Business and Management of Games Units: 2
- CTIN 463 Anatomy of a Game Units: 4
- CTIN 482 Designing Social Games Units: 2
- CTIN 488 Game Design Workshop Units: 4
- CTIN 490x Directed Research Units: 1, 2, 3, 4, 5, 6, 7, 8
- CTIN 491L Advanced Game Project I Units: 4 *
- CTIN 493L Advanced Game Project II Units: 2 *
- CTIN 510 Research Methods for Innovation, Engagement and Assessment Units: 2 +
- PSYC 301L Cognitive Processes Units: 4 *

Note:

**Prerequisite required.*
+Enrollment in CTIN 510 requires special permission.

Grade Point Average Requirement

A minimum grade of C (2.0) in each course is required. A grade of C- (1.7) or lower does not fulfill a minor requirement.

Immersive Media Minor

A minor in immersive media is open to all undergraduate students at USC. This interdisciplinary minor provides the opportunity for technically minded students, business and

entrepreneurially driven students, and/or creatively driven students to gain knowledge about the virtual reality industry and how to create content effectively. Students can add depth within a specific area by selecting elective courses within the same area or can add breadth by choosing elective courses from two separate areas.

To be eligible for the immersive media minor, a student must be in good academic standing and have a declared major. To declare the immersive media minor a student must get permission from the Interactive Media Division (SCI 201), and submit a change of major/minor form to Cinematic Arts Student Services (SCB 105).

Lower Division Requirements

- CTIN 290 Digital Media Workshop Units: 4
- ITP 165 Introduction to C++ Programming Units: 2

Upper Division Requirements

- CTAN 452 Introduction to 3-D Computer Animation Units: 2
- CTIN 483 Introduction to Game Development Units: 4

Capstone Units

- CTAN 502L Experiments in Immersive Design Units: 2 +
- CTAN 504L Creative Production in Virtual Reality Units: 2 * +
- CTIN 492L Experimental Game Topics Units: 4
- IML 436 Hypercinemas Studio Units: 4 *

Electives

- CSCI 420 Computer Graphics Units: 4 *
- CTAN 410 Audio Design for Animation and Immersive Media Units: 2
- CTAN 443L Character Development for 3-D Animation and Games Units: 2 *
- CTAN 462 Visual Effects Units: 2
- CTAN 464L Digital Lighting and Rendering Units: 2 *
- CTAN 465L Digital Effects Animation Units: 2 *
- CTAN 485L Pipeline and Character Modeling for Animation Units: 2
- CTAN 495 Visual Music Units: 2
- CTAN 497L Procedural Animation Units: 2 *
- CTAN 508L Live Action Integration with Visual Effects Units: 2 * +
- CTAN 564L Motion Capture Fundamentals Units: 2 * +
- CTIN 404L User Research for Games Units: 2
- CTIN 444 Audio Expression Units: 2
- CTIN 479 Documentary and Activist Games Units: 2
- CTIN 484L Intermediate Game Development Units: 2 *
- CTIN 486 Alternative Control Workshop Units: 2
- CTIN 489 Intermediate Game Design Workshop Units: 2 *
- CTIN 490x Directed Research Units: 1, 2, 3, 4, 5, 6, 7, 8
- CTIN 492L Experimental Game Topics Units: 4
- CTIN 503 Interactive Entertainment, Science, and Healthcare Units: 2 +
- CTWR 405 Storytelling for Virtual and Augmented Reality Units: 2 *
- IML 335 Digital Narrative Design I Units: 2
- IML 354 Introduction to 3-D Modeling Units: 2
- IML 385 Design Fiction and Speculative Futures Units: 4
- IML 475 Media Arts Research Lab Units: 2, 3, 4
- IML 490x Directed Research Units: 1, 2, 3, 4, 5, 6, 7, 8
- IML 543 Transdisciplinary Media Design Practicum Units: 4 * +
- IML 575 Graduate Media Arts Research Lab Units: 2, 3, 4 +
- ITP 380 Video Game Programming Units: 4 *

Note:

*Prerequisite Required.
+Enrollment in graduate-level courses requires special permission.

Media and Social Change Minor

The minor in Media and Social Change provides the opportunity for students who are interested in media content creation and research to take classes in a focused curriculum on the various aspects of media for change. Students will gain insight into the professional practices of creating media content, analyzing existing content, and learning how they can influence the future by integrating social issues into the work they are doing in related fields.

Information about declaring the minor, courses and other program offerings can be obtained by emailing the Media Arts and Practice program at map@cinema.usc.edu.

Program Requirements

A total of 20 units is required to complete the minor. All courses must be taken for a letter grade.

Introductory Courses

Choose 4 units from the following courses:

- CTCS 192gm Race, Class, and Gender in American Film Units: 4
- CTWR 211g The Television Writer: An Agent of Change Units: 4
- IML 295Lm Race, Class and Gender in Digital Culture Units: 4

Electives, Group I

Choose 12 units from the following courses:

- CTAN 470 Documentary Animation Production Units: 2
- CTIN 479 Documentary and Activist Games Units: 2
- CTPR 474 Documentary Production Units: 4
- IML 320 Designing and Writing for Transmedia Narratives Units: 4
- IML 340 Remixing the Archive Units: 4
- IML 385 Design Fiction and Speculative Futures Units: 4
- IML 419 Emotion in Digital Culture Units: 4
- IML 420m New Media for Social Change Units: 4
- IML 477 Embodied Storytelling and Immersive Docu-Narratives Units: 4

Electives, Group II

Choose 4 units from the following courses:

- CTCS 400 Non-Fiction Film and Television Units: 4
- CTCS 403 Studies in National and Regional Media Units: 4
- CTCS 407 African American Cinema Units: 4
- CTCS 408 Contemporary Political Film and Digital Media Units: 4
- CTCS 412 Gender, Sexuality and Media Units: 4
- CTCS 414 Latina/o Screen Cultures Units: 4

Science Visualization Minor

The minor in science visualization offers an introduction to science visualization methodology and practice focused in an area of relevant research. The minor is structured to provide the skills and knowledge needed in science visualization, and will culminate in a capstone project under the close supervision of faculty in both animation and science. The program requires 16 units.

Most students will enter the minor in science visualization program in their sophomore year at USC.

Application Procedures

To be eligible for the science visualization minor, a student must be in good academic standing, maintaining normal degree progress, and have a declared major. To declare the minor a student must submit the USC Change of Major/Minor form to the John C. Hench Division of Animation and Digital Arts in SCB 210, (213) 740-3986.

Grade Point Average Requirement

A minimum grade of C (2.0) in each course is required. A grade of C- (1.7) or lower does not fulfill a minor requirement.

Course Requirements

The following courses are to be taken in the prescribed sequential order, starting with CTAN 330 and finishing with CTAN 423, the capstone class. Sixteen units of course work are required.

Courses

- CTAN 330 Animation Fundamentals Units: 2
- CTAN 452 Introduction to 3-D Computer Animation Units: 2
- CTAN 497L Procedural Animation Units: 2

Four units from the following list:*

- CTAN 432 The World of Visual Effects Units: 2
- CTAN 443L Character Development for 3-D Animation and Games Units: 2 **
- CTAN 450a Animation Theory and Techniques Units: 2
- CTAN 455L Organic Modeling for Animation Units: 2
- CTAN 462 Visual Effects Units: 2
- CTAN 464L Digital Lighting and Rendering Units: 2 **
- CTAN 465L Digital Effects Animation Units: 2 **
- CTAN 470 Documentary Animation Production Units: 2
- IML 400 Creative Coding for the Web Units: 4
- IML 456 Nature, Design and Media Units: 2

Note:

**Juniors or seniors with a 3.0 GPA in good standing may elect to take graduate courses CTAN 502L (2), CTAN 504L (2), CTAN 508L (2), CTAN 564L (2) and CTAN 565L (2). **Prerequisite required.*

Four units from the following list:

- AHIS 373g History and Theory of Photography Units: 4
- AHIS 425 Interdisciplinary Studies in Classical Art and Archaeology: Research and Methodology Units: 4
- AHIS 429 Studies in Art, Science, and Technology Units: 4
- AHIS 477 Studies in Visual and Material Culture Units: 4
- ANTH 472 Visual Techniques in Anthropology: Stills Units: 4
- BISC 307L General Physiology Units: 4 **
- BISC 419L Microbiology for a Sustainable Future Units: 4 **
- BISC 427 The Global Environment Units: 4 **
- BISC 483 Geobiology and Astrobiology Units: 4 **
- ENGL 375 Science Fiction Units: 4
- GEOL 425L Data Analysis in the Earth and Environmental Sciences Units: 4
- GEOL 450L Geosystems Units: 4 **
- HBIO 300 Evolution, Ecology, and Culture Units: 4
- HBIO 406 Theory and Method in Human Evolutionary Biology Units: 4
- PSYC 420 Animal Behavior Units: 4 **

Two-unit capstone course:

- CTAN 423L Principles of Digital Animation: Visualizing Science Units: 2

Note:

***Prerequisite required.*

Screenwriting Minor

The minor in screenwriting is designed to train students in the creatively challenging field of writing for screen and television. Students learn the fundamentals of writing for film and television with the opportunity to specialize in writing feature length screenplays, teleplays in both drama and comedy, or analysis of the craft of screenwriting.

Application Procedures

To apply to the minor in screenwriting, a student must be in good academic standing, have a declared major, and have previously completed with a passing grade CTWR 409 Fundamentals of Screenwriting: Character, Conflict, and Story.

Applications and information can be obtained at the Writing Division office, SCA 336, (213) 740-3303 and online at cinema.usc.edu.

Course Requirements for the Minor

The minor in screenwriting is a specialized course of study for students who desire a solid foundation in the craft of screenwriting. A total of 16 units is required to complete the screenwriting minor, 10 units from fundamental courses and 6 units of electives.

Fundamentals And Feature Development (10 Units)

- CTWR 409 Fundamentals of Screenwriting: Character, Conflict and Story Units: 4
- CTWR 321 Introduction to Hour-Long Television Writing Units: 2 * or
- CTWR 324 Introduction to Half-Hour Television Writing Units: 2 *
- CTWR 415a Advanced Writing Units: 2 *
- CTWR 416 Motion Picture Script Analysis Units: 2

*Prerequisite Required.

Total units: 10

Additional Electives (6 Units)

- CTWR 402 Writing and Social Change Units: 2
- CTWR 403 Writing the Narrative Podcast Series Units: 2
- CTWR 404 Foundations of Comedy Units: 2
- CTWR 407 Creating the Comedic Character Units: 2
- CTWR 410L Character Development and Storytelling for Games Units: 4
- CTWR 411 Television Script Analysis Units: 2
- CTWR 415b Advanced Writing Units: 2 *
- CTWR 417 Script Coverage and Story Analysis Units: 2
- CTWR 421 Writing the Hour-Long Dramatic Series Units: 2 max 4 *
- CTWR 422 Creating the Dramatic Television Series Units: 2 max 4
- CTWR 430 Comedy Writers and Their Work Units: 2
- CTWR 431 Screenwriters and Their Work Units: 2 max 6
- CTWR 432 Television Writers and Their Work Units: 2
- CTWR 433 Adaptations: Transferring Existing Work to the Screen Units: 2
- CTWR 434 Writing the Half-Hour Comedy Series Units: 2 max 6 *
- CTWR 435 Writing for Film and Television Genres Units: 2, 3, 4 max 8 *
- CTWR 437 Writing the Original Situation Comedy Pilot Units: 4 max 8 *
- CTWR 438 Linked Narrative Storytelling for the Web Units: 2, 4 max 8
- CTWR 439 Writing the Original Dramatic Series Pilot Units: 4 max 8 *
- CTWR 441 Writing Workshop in Creativity and Imagination Units: 2
- CTWR 449 Rewriting the Original Dramatic Series Pilot Units: 4 max 8*
- CTWR 453 Advanced Feature Rewriting Units: 4 max 8 *
- CTWR 468 Screenwriting in Collaboration Units: 4 max 8 *
- CTWR 477 Staff Writing the Sketch Comedy Show Units: 2 max 6*
- CTWR 487 Staff Writing the Multi-Camera Television Series Units: 4 max 8*
- CTWR 499 Special Topics Units: 2, 3, 4 max 8

*Prerequisite Required

Additional Requirements

Grade Point Averages

A minimum grade of C (2.0) in each course is required. A grade of C- (1.7) or lower does not fulfill a minor requirement.

Graduate Courses

Students may not apply more than 16 units of graduate level course work toward their university degree.

Themed Entertainment Minor

Who designs theme parks, museums, fireworks shows, water fountain spectaculars and parades? Themed entertainment designers do. From cruise ships to casinos to immersive educational retreats, they design almost anything that involves submerging a real, live human being into a story in a truly robust, physical way. As new tools for entertainment and education develop, they continually push toward one, common goal: a single place where movies, games, theme parks and museums converge. It is a non-dystopian kind of Westworld where we truly and completely become the heroes and heroines of our own

stories. And it is the ultimate adventure because there is nothing (at least nothing that we notice) between our full, physical selves and the stories we want to live.

To be eligible for the themed entertainment minor, a student must be in good academic standing and have a declared major. To declare the themed entertainment minor a student must get permission from the Interactive Media and Games Division (SCI 201) and submit a Change of Major/Minor form to Cinematic Arts Student Services (SCB 105).

Course Requirements for the Minor:

A total of 24 units is required for the themed entertainment minor: 4 lower-division units and 20 upper-division units.

Lower-Division Core Units (4 Units)

- CTIN 191 Survey of Themed Entertainment Units: 4

Upper-Division Core Units (14 Units)

- CTIN 452L Themed Entertainment Design Units: 4
- CTIN 488 Game Design Workshop Units: 4
- CTPR 456 Introduction to Art Direction Units: 2
- CTWR 410L Character Development and Storytelling for Games Units: 4

Electives (6 Additional Units)

- COMM 306 Innovation, Entertainment, and the Arts Units: 4
- COMM 430 Global Entertainment Units: 4
- CTAN 420 Concept Design for Animation Units: 2
- CTAN 460 Character Design Workshop Units: 2
- CTCS 482 Transmedia Entertainment Units: 4
- CTIN 404L User Research for Games Units: 2
- CTIN 406L Sound Design for Games Units: 2
- CTIN 444 Audio Expression Units: 2
- CTIN 486 Alternative Control Workshop Units: 2
- CTIN 492L Experimental Game Topics Units: 4
- CTPR 423 Introduction to Special Effects in Cinema Units: 2
- CTPR 458 Organizing Creativity: Entertainment Industry Decision Making Units: 2
- THTR 330 Scene Design I Units: 4
- THTR 331 Costume Design I Units: 4
- THTR 332 Lighting Design I Units: 4
- THTR 407a Drawing and Rendering for the Theatre Units: 2
- THTR 407b Drawing and Rendering for the Theatre Units: 2

Grade Point Average Requirement

A minimum grade of C (2.0) in each course is required. A grade of C- (1.7) or lower does not fulfill a minor requirement.

Business of Entertainment Graduate Certificate

The graduate certificate in the business of entertainment program provides graduate-level education in various aspects of the business of film, television and new media.

Select 16 units from the following:

Courses (16 Units)

- CNTV 521 The World of the Producer Units: 4
- CNTV 522 The Television Industry: Networks, Cable and the Internet Units: 4
- CNTV 523 Feature Film Financing and the Studio System Units: 4
- CNTV 524 Digital Technologies and the Entertainment Industry Units: 4
- CNTV 525 Entertainment Marketing in Today's Digital Environment Units: 4
- CNTV 561 Publicity for Cinema and Television Units: 4
- CNTV 562 Seminar in Motion Picture Business Units: 4
- CNTV 563 The Business of Representation Units: 4
- CNTV 589 Graduate Film Seminar Units: 2 or 4 (max 8)

Note:

Successful completion of a graduate certificate program is acknowledged by a certificate awarded by the university.

Admission to the graduate certificate in the business of entertainment program is only open to current USC graduate students. Courses credited to graduate certificate programs may be completed in conjunction with course work required for a graduate degree program in which the student is already enrolled. Applicability of courses to the student's primary degree program is determined by the student's home department.

Applicants must have earned an undergraduate degree with at least a 3.0 GPA. For further information contact the School of Cinematic Arts Office of Industry Relations, SCA 235, bset@cinema.usc.edu.

The John C. Hench Division of Animation + Digital Arts

Inspired by one of the most inventive and prolific Disney artists and Imagineers, the John C. Hench Division of Animation + Digital Arts embraces diversity of genre, topics, culture and animation approaches. The program focuses on creative collaboration and critical thinking and attracts top students from around the world who aspire to be the next generation of filmmakers and storytellers.

Bachelor's Degree

Animation and Digital Arts (BA)*

The Bachelor of Arts in Animation and Digital Arts is a unique four-year program granted through the USC Dornsife College of Letters, Arts and Sciences in conjunction with the School of Cinematic Arts. Students study within the framework that combines a broad liberal arts background with specialization in a profession. Areas of concentration might include character animation, experimental animation, visual effects, 3-D computer animation, science visualization and interactive animation.

Undergraduate students take their pre-professional courses in the USC Dornsife College of Letters, Arts and Sciences, including the general education requirements. Major courses are selected from the curriculum of the School of Cinematic Arts. The degree requires 128 units, including a minimum of 16 lower-division units and a minimum of 26 upper-division units in Cinematic Arts.

General Education Requirements

The university's general education program provides a coherent, integrated introduction to the breadth of knowledge you will need to consider yourself (and to be considered by other people) a generally well-educated person. This program is effective for all students entering USC in fall 2015 or later, or transfer students beginning college elsewhere at that time and subsequently transferring to USC. It requires eight courses in six Core Literacies, plus two courses in Global Perspectives (which may double-count with courses in the Core Literacies) and two courses in writing. See the General Education Program for more information.

Required Courses

- ART 110 Drawing for Art and Design Units: 4
- CNTV 101 Reality Starts Here Units: 2
- CTAN 101L Introduction to the Art of Animation Units: 2
- CTAN 102L Introduction to the Art of Movement Units: 2
- CTAN 201L Intermediate Animation Production Units: 3
- CTAN 202L Introduction to 3-D Character Animation Units: 3
- CTAN 301L 3-D Character Performance Animation Units: 3
- CTAN 302L Expanded Concepts in 2-D/3-D Animation Units: 3
- CTAN 305 Professionalism of Animation Units: 2
- CTAN 336 Ideation and Pre-Production Units: 2
- CTAN 401a Senior Project Units: 4

- CTAN 401b Senior Project Units: 4
- CTAN 432 The World of Visual Effects Units: 2
- CTAN 436 Writing for Animation Units: 2
- CTAN 451 History of Animation Units: 2

- CTCS 190g Introduction to Cinema Units: 4 or
- CTCS 201 History of the International Cinema II Units: 4

One course must be taken from the following list:

- CTAN 496 Directed Studies Units: 2
- CNTV 495 Internship in Cinematic Arts Units: 1, 2, 4
- CTIN 490x Directed Research Units: 1, 2, 3, 4, 5, 6, 7, 8

Two units must be selected from the following list:

USC Dornsife College of Letters, Arts and Sciences — Physical Education

- PHED 104a Self-Defense Units: 1
- PHED 104b Self-Defense Units: 1
- PHED 120a Yoga Units: 1
- PHED 120b Yoga Units: 1

USC Kaufman School of Dance

- DANC 181a Contemporary Dance Units: 2
- DANC 181b Contemporary Dance Units: 2
- DANC 184a Jazz Dance Units: 2
- DANC 184b Jazz Dance Units: 2
- DANC 184c Jazz Dance Units: 2
- DANC 188a International Style Ballroom Dance Units: 2
- DANC 188b International Style Ballroom Dance Units: 2
- DANC 189a Tap Dance Units: 2
- DANC 189b Tap Dance Units: 2

USC School of Dramatic Arts

- THTR 122 Improvisation and Theatre Games Units: 2
- THTR 216 Movement for Actors Units: 2

One course must be taken from the following list:

- CTCS 192gm Race, Class, and Gender in American Film Units: 4
- CTCS 392 History of the American Film, 1925–1950 Units: 4
- CTCS 393 Postwar Hollywood, 1946-1962 Units: 4
- CTCS 400 Non-Fiction Film and Television Units: 4
- CTCS 403 Studies in National and Regional Media Units: 4
- CTCS 407 African American Cinema Units: 4
- CTCS 409 Censorship in Cinema Units: 4
- CTCS 464 Film and/or Television Genres Units: 4
- CTCS 469 Film and/or Television Style Analysis Units: 4
- CTCS 482 Transmedia Entertainment Units: 4

Total units: 52

Additional Requirements

Areas of Concentration

Areas of concentration might include character animation, experimental animation, 3-D computer animation, visualizing science, interactive animation and visual effects. Students work in consultation with the undergraduate coordinator and faculty to help them decide their course of study while at USC.

Senior Project

In the spring semester of their third year students develop their senior project through CTAN 336 Ideation and Pre-Production under the guidance of the lecturer. This project will focus on an area of concentration studied throughout the BA by the student. At the end of this class, students present their senior project concepts for review to the Division of Animation and Digital Arts faculty. Progression into CTAN 401a, CTAN 401b is contingent upon faculty committee approval.

In the final year, students concentrate on their senior projects, completing production and post-production. The student's project will be presented to the committee upon completion.

Completion is defined as a fully rendered, animated piece with a completed sound track. In the case of installation work, the piece must be mounted in a suitable space with all sound and animated components completed and functional.

In the case of an interactive work, the piece must be fully functional with completed animation, sound and interactivity.

In addition to completion of the senior project, the student must provide the faculty committee with written and visual documentation of the research. This can be documented as a publishable paper (2,000 words), Website or interactive DVD.

Grade Point Average Requirements

A minimum grade of C, 2.0 (A = 4.0), must be earned in all required and prerequisite courses. A grade of C- (1.7) or lower will not fulfill a major requirement.

Students who do not earn the minimum grade of C (2.0) in CTAN 101, CTAN 102, CTAN 201, CTAN 202, CTAN 301, CTAN 302 or CTAN 401a, CTAN 401b after repeating these requirements will be disqualified from the program.

Limitations on Enrollment

Registration in graduate level courses (numbered 500) for undergraduate credit requires prior approval from the School of Cinematic Arts.

Curriculum Review

Cinematic arts majors are expected to meet with an adviser every semester to review their progress. Contact the Cinematic Arts Animation and Digital Arts Division Office, University Park, Los Angeles, CA 90089-2211, (213) 740-3986, or online at *anim.usc.edu*.

International Program

John C. Hench Animation and Digital Arts offers a fall semester abroad at Studio Art Centers International (SACI) in Florence, Italy. BA students will be required to take equivalent classes in animation and digital media while also benefiting from the wide range of liberal arts courses offered at SACI.

Animation and Digital Arts (BFA)

The Bachelor of Fine Arts in Animation and Digital Arts is a unique four-year program, offered by the School of Cinematic Arts that combines a liberal arts background with the practice of animation to prepare students for a professional career in this field. Areas of concentration might include character animation, experimental animation, visual effects, 3-D computer animation, motion graphics, immersive media, interactive animation, documentary animation and science visualization.

Each fall, a class of 16 undergraduate animation and digital arts students is selected to begin the program. A total of 128 units is required for the completion of the Bachelor of Fine Arts degree; 61 of these units taken in a prescribed sequential order. There are no spring admissions.

Applicants must submit a supplemental application and materials to the Undergraduate Animation and Digital Arts Program in Slideroom via the Common Application. For specific instructions, contact the Cinematic Arts Office of Admission, University Park, Los Angeles, CA 90089-2211, (213) 740-8358 or online at *cinema.usc.edu*.

General Education Requirements

The university's general education program provides a coherent, integrated introduction to the breadth of knowledge you will need to consider yourself (and to be considered by other people) a generally well-educated person. This program is effective for all students entering USC in fall 2015 or later, or transfer students beginning college elsewhere at that time and subsequently transferring to USC. It requires eight courses in six Core Literacies, plus two courses in Global Perspectives (which may double-count with courses in the Core Literacies) and two courses in writing. For more information about USC's general education requirements, see General Education.

Four-Year Major Requirements (61 units)

Year One, First Semester

- CNTV 101 Reality Starts Here Units: 2
- CTAN 101L Introduction to the Art of Animation Units: 2

- CTAN 451 History of Animation Units: 2
  Take two units of movement classes from the PHED/DANC/THTR courses listed below
  Total units: 8

Year One, Second Semester

- CTAN 102L Introduction to the Art of Movement Units: 2
- CTAN 110 Design Fundamentals for Animation I Units: 2
- CTAN 452 Introduction to 3-D Computer Animation Units: 2
- CTCS 150gw Visions of Diversity in the Cinematic Arts Units: 4
  Total units: 10

Year Two, First Semester

- CTAN 210 Design Fundamentals for Animation II Units: 2
- CTAN 220 Introduction to Storyboarding Units: 2
- CTAN 436 Writing for Animation Units: 2
  Total units: 6

Year Two, Second Semester

- CTAN 201L Intermediate Animation Production Units: 3
- CTAN 202L Introduction to 3-D Character Animation Units: 3
- ART 110 Drawing for Art and Design Units: 4
- CTCS 190g Introduction to Cinema Units: 4
  or
- CTCS 201 History of the International Cinema II Units: 4
  Total units: 14

Year Three, First Semester

- CTAN 301L 3-D Character Performance Animation Units: 3
- CTAN 320 Cinematography for Animators Units: 2
  Total units: 5

Year Three, Second Semester

- CTAN 305 Professionalism of Animation Units: 2
- CTAN 336 Ideation and Pre-Production Units: 2
  Take one CTCS course from the list below
  Total units: 8

Year Four, First Semester

- CTAN 401a Senior Project Units: 4

  Take two units from the following:
- CNTV 495 Internship in Cinematic Arts Units: 1, 2, 4
- CTAN 496 Directed Studies Units: 2
- CTIN 490x Directed Research Units: 1, 2, 3, 4, 5, 6, 7, 8
  Total units: 6

Year Four, Second Semester

- CTAN 401b Senior Project Units: 4
  Total units: 4

Two units must be selected from the following:

USC Dornsife College of Letters, Arts, and Sciences -- Physical Education

- PHED 104a Self-Defense Units: 1
- PHED 104b Self-Defense Units: 1
- PHED 120a Yoga Units: 1
- PHED 120b Yoga Units: 1

USC Kaufman School of Dance

- DANC 181a Contemporary Dance Units: 2
- DANC 181b Contemporary Dance Units: 2
- DANC 184a Jazz Dance Units: 2
- DANC 184b Jazz Dance Units: 2
- DANC 184c Jazz Dance Units: 2
- DANC 188a International Style Ballroom Dance Units: 2
- DANC 188b International Style Ballroom Dance Units: 2
- DANC 189a Tap Dance Units: 2
- DANC 189b Tap Dance Units: 2

USC School of Dramatic Arts

- THTR 122 Improvisation and Theatre Games Units: 2
- THTR 216 Movement for Actors Units: 2

One course must be taken from the following list:

- CTCS 192gm Race, Class, and Gender in American Film Units: 4
- CTCS 392 History of the American Film, 1925–1950 Units: 4
- CTCS 393 Postwar Hollywood, 1946-1962 Units: 4
- CTCS 400 Non-Fiction Film and Television Units: 4
- CTCS 403 Studies in National and Regional Media Units: 4
- CTCS 407 African American Cinema Units: 4
- CTCS 409 Censorship in Cinema Units: 4
- CTCS 411 Film, Television and Cultural Studies Units: 4
- CTCS 412 Gender, Sexuality and Media Units: 4
- CTCS 464 Film and/or Television Genres Units: 4
- CTCS 469 Film and/or Television Style Analysis Units: 4
- CTCS 482 Transmedia Entertainment Units: 4

Additional Requirements

Areas of Concentration

Areas of concentration might include character animation, experimental animation, 3-D computer animation, visualizing science, interactive animation and visual effects. Students work in consultation with the undergraduate coordinator and faculty to help them decide their course of study while at USC.

Senior Project

In the spring semester of their third year students develop their senior project through CTAN 336 Ideation and Pre-Production under the guidance of the lecturer. This project will focus on an area of concentration studied throughout the BFA by the student. At the end of this class, students present their senior project concepts for review to the Division of Animation and Digital Arts faculty. Progression into CTAN 401a, CTAN 401b is contingent upon faculty committee approval.

In the final year, students concentrate on their senior projects, completing production and post-production. The student's project will be presented to the committee upon completion.

Completion is defined as a fully rendered, animated piece with a completed sound track. In the case of installation work, the piece must be mounted in a suitable space with all sound and animated components completed and functional.

In the case of an interactive work, the piece must be fully functional with completed animation, sound and interactivity.

In addition to completion of the senior project, the student must provide the faculty committee with written and visual documentation of the research. This can be documented as a publishable paper (2,000 words), Website or interactive DVD.

Grade Point Average Requirements

A minimum grade of C, 2.0 (A = 4.0), must be earned in all required and prerequisite courses. A grade of C- (1.7) or lower will not fulfill a major requirement.

Students who do not earn the minimum grade of C (2.0) in CTAN 101, CTAN 102, CTAN 201, CTAN 202, CTAN 301, or CTAN 401a, CTAN 401b after repeating these requirements will be disqualified from the program.

Limitations on Enrollment

Registration in graduate level courses (numbered 500) for undergraduate credit requires prior approval from the School of Cinematic Arts.

Curriculum Review

Cinematic arts majors are expected to meet with an adviser every semester to review their progress. Contact the Cinematic Arts Animation and Digital Arts Division Office, University Park, Los Angeles, CA 90089-2211, (213) 740-3986, or online at cinema.usc.edu.

Master's Degree

Animation and Digital Arts (MFA)

The Master of Fine Arts degree in Animation and Digital Arts is a three-year (six semester) graduate program designed for students who have clearly identified animation and digital art as their

primary interest in cinema. The program focuses on animation production, including a wide range of techniques and aesthetic approaches, from hand-drawn character animation to state-of-the-art interactive digital animation. While embracing traditional forms, the program strongly encourages innovation and experimentation, and emphasizes imagination, creativity and critical thinking. Students should graduate with a comprehensive knowledge of animation from conception through realization; an understanding of the history of the medium and its aesthetics; in-depth knowledge of computer animation software and the most important elements of digital and interactive media.

The program requires a minimum of 50 units: 32 units are in prescribed, sequential courses in the School of Cinematic Arts. The other 18 units are cinematic arts electives, 4 of which must be taken in the Division of Cinema and Media Studies. A thesis is required for the MFA degree. Ongoing workshops in new technologies, traditional and digital media provide additional educational opportunities for students.

Admission is granted once a year in the fall; there are no spring admissions. Approximately 14 students will be enrolled in each incoming class. In addition to practical production, the program also provides opportunities for fieldwork experience and internships to facilitate the student's transition into the profession. Prior knowledge of fundamental digital animation concepts and techniques is recommended.

Applicants for the MFA in Animation and Digital Arts must apply online. For specific instructions, including deadline information, please visit *cinema.usc.edu*.

The Graduate School Two-Thirds Rule

The school requires 50 units minimum to graduate from the MFA in Animation and Digital Arts program, and two-thirds must be at the 500 level, not including 4 units of CTAN 594a Master's Thesis CTAN 594b Master's Thesis.

Requirements for the MFA in Animation and Digital Arts

Year One, First Semester

- CTAN 451 History of Animation Units: 2
- CTAN 522 Animation Department Seminar Units: 1
- CTAN 544 Introduction to the Art of Animation Units: 3
- CTAN 577a Fundamentals of Animation Units: 2
- CTAN 579 Expanded Animation Units: 2

Year One, Second Semester

- CNTV 530 Cinematic Ethics Units: 1
- CTAN 536 Storytelling for Animation Units: 2 or
- CTWR 510 Fundamentals of Storytelling for Animation Units: 2
- CTAN 547 Animation Production I Units: 3
- CTAN 577b Fundamentals of Animation Units: 2
- Electives*

Year Two, First Semester

- CTAN 522 Animation Department Seminar Units: 1
- CTAN 555 Animation Design and Production Units: 4
- Electives*

Year Two, Second Semester

- CTAN 505 The Business of Animation Units: 2
- CTAN 522 Animation Department Seminar Units: 1
- CTAN 591 Animation Pre-Thesis Seminar Units: 2
- Electives*

Year Three, First Semester

- CTAN 594a Master's Thesis Units: 2

Year Three, Second Semester

- CTAN 594b Master's Thesis Units: 2

Total required units: 32

**A minimum total of 18 elective units must be taken.*

Cinematic Arts Electives

To complete the 50 units required for the MFA in Animation and Digital Arts, students are required to take a minimum of 18 School of Cinematic Arts elective units. Four of those units must be taken from the following Cinema and Media Studies courses:

Electives

- CTCS 501 World Cinema Before 1945 Units: 2
- CTCS 502 World Cinema After 1945 Units: 2
- CTCS 503 Survey History of the United States Sound Film Units: 2
- CTCS 504 Survey of Television History Units: 2
- CTCS 505 Survey of Interactive Media Units: 2
- CTCS 510 Case Studies in National Media and/or Regional Media Units: 4 max 12
- CTCS 511 Seminar: Non-Fiction Film/Video Units: 4
- CTCS 517 Introductory Concepts in Cultural Studies Units: 4
- CTCS 518 Seminar: Avant-Garde Film/Video Units: 4
- CTCS 564 Seminar in Film and Television Genres Units: 4
- CTCS 569 Seminar in Film and Television Authors Units: 4
- CTCS 585 Seminar in Film/Television Critical Theory and Production Units: 4
- CTCS 587 Seminar in Television Theory Units: 4
- CTCS 673 Topics in Theory Units: 4
- CTCS 678 Seminar in Film Theory and Medium Specificity Units: 4 max 8
- CTCS 679 Seminar in Genre and/or Narrative Theory Units: 4

Additional Requirements

Thesis Project

In order to begin work on the thesis project, students must first successfully propose their project to a committee of MFA animation and digital arts program faculty. Their proposal is prepared during the spring semester of their second year as part of their pre-thesis class CTAN 591.

In order to pass the pre-thesis class, the thesis proposal must be presented and approved by the thesis committee at the end of the fourth semester. Students cannot change their approved thesis project after the completion of CTAN 591. Throughout the pre-thesis and thesis years of study, students will meet regularly with an MFA animation and digital arts faculty adviser(s) and thesis committee to develop and refine the proposal and discuss the progress of their work. The adviser(s) will be a member of the thesis committee.

The proposal itself will include a written treatment of the project with a discussion of similar work in the field and its relationship to the proposed project. It will describe aesthetic issues to be explored and specific techniques to be employed in its realization. It will also include a storyboard or visualization, budget and schedule, in addition to supporting materials created by the student demonstrating his/her ability to pursue the project. The thesis committee will make comments and decide whether the student may go forward with his/her project. Upon acceptance, the student will begin work on the project, otherwise revising the proposal and meeting again with the committee.

A mid-residency review of the thesis project will take place in the first semester of the final year of study. The student must show that deadlines set in the proposal have been met and that progress consistent with the proposal has been made. The committee may, if necessary, suggest modifications to the project, which the student is then obligated to implement.

In the final year, students concentrate on their thesis projects, completing production and post-production. The student's thesis will be presented to the committee upon completion.

Completion is defined as a fully rendered, animated piece with a completed sound track (guide mix acceptable). In the case of live action and visual effects projects, at least 70 percent of the final film must be animated. In the case of installation work, the piece must be mounted in a suitable space with all sound and animated components completed and functional. In the case of an interactive work the piece must be fully functional with completed animation, sound and interactivity.

In addition to completion of the thesis project, the student must provide the thesis committee with written and visual documentation of the research. This will be documented as a Website or interactive DVD. The documentation comprises the following and should include a publishable research paper: synopsis; artist's statement and research paper; learning objectives — focus of research; type of project — animation, installation, interactive, etc.; research presentation in the format/medium in which the project is to be seen; script and storyboard or conceptual drawings if applicable; style approach, including source references for image shot structure, etc.; sound design and references; collaborators — if any; audience — who it is intended for and who will benefit from the research; budget; marketing and distribution plan.

Criteria for successful completion include: 40 percent originality, 40 percent quality of execution and 20 percent quality of research documentation.

Grade Point Average Requirements

A grade point average of at least 3.0 (A = 4.0) must be maintained in all USC course work toward the master's degree. Courses in which a grade of C- (1.7) or lower is earned will not apply toward a graduate degree. Courses below a C must be repeated.

Time Limit

Students must maintain satisfactory progress toward their master's degrees at all times. The time limit to complete all requirements is three years from the first course at USC applied toward the Master of Fine Arts degree. Course work more than seven years old is invalidated and will not be applied toward the degree.

The Division of Cinema and Media Studies

The Division of Cinema and Media Studies of the School of Cinematic Arts offers programs leading to the Bachelor of Arts, Master of Arts and Doctor of Philosophy degrees. This comprehensive curriculum includes courses that analyze the power and responsibility of American and international film and television and new media technologies from formal/aesthetic, historical, economic and ideological perspectives.

The division is committed to understanding media texts and practices in relation to the world they represent; it studies not only the meanings of these texts but also the processes by which these meanings are constructed.

Please note: the Cinematic Arts Archiving and Preservation graduate certificate program is currently on hold.

Applicants for the BA or MA or PhD degrees must submit the supplemental application and materials to the Cinema and Media Studies Program. For specific instructions, contact the Cinematic Arts Office of Admission, University Park, Los Angeles, CA 90089-2211, (213) 740-8358, or online at cinema.usc.edu.

Bachelor's Degree

Cinema and Media Studies (BA)*

The Bachelor of Arts degree in Cinema and Media Studies is granted by the USC Dornsife College of Letters, Arts and Sciences in conjunction with the School of Cinematic Arts. Undergraduate students take their preprofessional courses in the USC Dornsife College of Letters, Arts and Sciences, including the general education requirements. Major courses are selected from the curriculum of the School of Cinematic Arts. The degree requires 128 units, including 32 lower-division and 24 upper-division units in cinematic arts. A maximum of 40 School of Cinematic Arts upper-division units will apply to the BA degree. Before graduating, cinema and media studies majors are encouraged to take at least one small non-lecture class that emphasizes student critical writing or research papers. This category may include (but is not limited to): CTCS 402, CTCS 411, CTCS 412, CTCS 414, sections of CTCS 464 or CTCS 469 that require a D clearance, CTCS 494, and CTCS 495.

Required Production Course

Undergraduates admitted to the Cinema and Media Studies Program are required to take CTPR 290 Cinematic Communication. CTPR 290 introduces the interrelationship of visuals, sound and editing in cinematic communication. Students participate in directing and producing workshops as well as individual and group projects. Approximately $1,000 should be budgeted for miscellaneous expenses and insurance fees.

Required Courses

- CNTV 101 Reality Starts Here Units: 2
- CTCS 150gw Visions of Diversity in the Cinematic Arts Units: 4
- CTCS 190g Introduction to Cinema Units: 4
- CTCS 191 Introduction to Television and Video Units: 4
- CTCS 192gm Race, Class, and Gender in American Film Units: 4
- CTCS 200g History of the International Cinema I Units: 4
- CTCS 201 History of the International Cinema II Units: 4
- CTCS 473 Film and Media Theory Units: 4
- CTPR 290 Cinematic Communication Units: 4, 6

One course from the following:

- CTCS 392 History of the American Film, 1925–1950 Units: 4
- CTCS 393 Postwar Hollywood, 1946-1962 Units: 4
- CTCS 394 History of the American Film, 1977–present Units: 4

Four courses from the following:

- CTCS 367 Global Media Units: 4
- CTCS 400 Non-Fiction Film and Television Units: 4
- CTCS 402 Practicum in Film/Television Criticism Units: 4
- CTCS 403 Studies in National and Regional Media Units: 4
- CTCS 404 Television Criticism and Theory Units: 4
- CTCS 406 History of American Television Units: 4
- CTCS 407 African American Cinema Units: 4
- CTCS 409 Censorship in Cinema Units: 4
- CTCS 411 Film, Television and Cultural Studies Units: 4
- CTCS 412 Gender, Sexuality and Media Units: 4
- CTCS 414 Latina/o Screen Cultures Units: 4
- CTCS 417 African American Television Units: 4
- CTCS 464 Film and/or Television Genres Units: 4
- CTCS 469 Film and/or Television Style Analysis Units: 4
- CTCS 478 Culture, Technology and Communications Units: 4
- CTCS 482 Transmedia Entertainment Units: 4
- CTCS 494 Advanced Cinema and Media Studies Seminar Units: 4
- CTCS 495 Honors Seminar Units: 4 *

**Honors students only*.

Additional Requirements

Grade Point Average Requirements

A minimum grade of C (2.0) must be earned in all required and prerequisite courses. A grade of C- (1.7) or lower will not satisfy a major requirement.

Honors Program

Cinema and Media Studies offers an honors track for advanced students. Admission to the honors track is made at the end of the junior year and requires a 3.5 overall GPA. Completion of the honors track is dependent upon successful completion of a designated honors section of CTCS 495 during the senior year. In this course, students will work with faculty in a seminar environment and produce an advanced term paper based on original research and analysis.

Limitations on Enrollment

No more than 40 upper-division units can be taken within the major without prior approval of the Dean, USC Dornsife College of Letters, Arts and Sciences.

Registration in graduate level courses (numbered 500) for undergraduate credit requires prior approval from the School of Cinematic Arts.

Curriculum Review

Cinematic arts majors are expected to meet with an academic adviser every semester to review their progress. Contact the Cinematic Arts Student Services Office, SCB 105, (213) 740-8358, for an appointment.

Master's Degree

Cinema and Media Studies (MA)

The Master of Arts degree in Cinema and Media Studies is administered through the Graduate School. Candidates for the degree are subject to the general requirements of the Graduate School (see The Graduate School section). Thirty-six units are required at the 400 level or higher, including a comprehensive examination. At least two-thirds of these units must be at the 500 level or higher.

Media Production and Practice Courses

Each graduate student must pass one of the following 4-unit media production and practice classes with a grade of C or better. These courses provide a basic primer in media production and practice considered necessary for graduate studies in the program, so students can have a working knowledge of techniques and methods.

- CTIN 534L Experiments in Interactivity I Units: 4
- CTPR 507 Production I Units: 4
- IML 501L Digital Media Authorship and the Archive Units: 4
- IML 502 Techniques of Information Visualization Units: 4
- IML 575 Graduate Media Arts Research Lab Units: 2, 3, 4 (4 units only)

Required Courses

- CTCS 500 Seminar in Film Theory Units: 4
- CTCS 506 Critical Studies Colloquium/Professional Seminar Units: 2
- CTCS 587 Seminar in Television Theory Units: 4

Three of the following:

- CTCS 501 World Cinema Before 1945 Units: 2
- CTCS 502 World Cinema After 1945 Units: 2
- CTCS 503 Survey History of the United States Sound Film Units: 2
- CTCS 504 Survey of Television History Units: 2
- CTCS 505 Survey of Interactive Media Units: 2

Two of the following:

- CTCS 510 Case Studies in National Media and/or Regional Media Units: 4
- CTCS 511 Seminar: Non-Fiction Film/Video Units: 4
- CTCS 517 Introductory Concepts in Cultural Studies Units: 4
- CTCS 518 Seminar: Avant-Garde Film/Video Units: 4
- CTCS 564 Seminar in Film and Television Genres Units: 4
- CTCS 567 Seminar in Film/Television and a Related Art Units: 4
- CTCS 569 Seminar in Film and Television Authors Units: 4
- CTCS 585 Seminar in Film/Television Critical Theory and Production Units: 4

Note:

In addition, 8 units of cinematic arts electives are required.

Additional Requirements

Comprehensive Examination

As the final requirement for the MA degree, the comprehensive examination will be taken in the final spring semester of course work. There is no thesis option. The examination will consist of written responses to three questions selected from a list of fields, the appropriate fields chosen with the guidance of a faculty adviser.

If the student has completed all course work and is only taking the comprehensive examination, he or she must register in GRSC 810 Studies for Master's Examination.

Grade Point Average Requirements

A grade point average of 3.0 must be maintained in all graduate-level course work. Courses in which a grade of C- (1.7) or lower is earned will not apply toward a graduate degree.

Policies

The following policies apply to each student admitted to the MA program:

Students must maintain full-time enrollment except in a case of emergency in which the student can petition the department to enroll in fewer units.

Students who do not earn the minimum grade of B (3.0) in CTCS 500 or satisfy the degree requirements after repeating a required course will be disqualified from the program.

Time Limit

Although students are normally expected to complete the degree in two years, the degree must be completed within five years of the beginning of graduate work at USC.

Curriculum Review

At the beginning of their matriculation, and each semester thereafter, each MA candidate will confer with a designated faculty adviser who will monitor the student's progress.

Graduate Certificate

Cinematic Arts Archiving and Preservation Graduate Certificate

The graduate certificate in Cinematic Arts Archiving and Preservation is open to all USC graduate students interested in the history and preservation of film, television and digital media. The certificate is designed specifically for students and practitioners who want to use their education and skills for advancing the knowledge of media through the preservation and dissemination of the historical artifacts that form the underpinnings of scholarship in the performing arts. Through this certificate, students will gain the knowledge, tools and skills necessary to preserve the materials that make up the history of entertainment and to lead scholars through the research process to the completion of books or media in their fields of study.

The Cinema and Media Studies Archiving and Preservation Graduate Certificate consists of 12 units, two 4-unit classes and two 2-unit internships. For more information please contact the Division of Cinema and Media Studies SCA 320, 213-740-3334.

Certificate Requirements

- CTCS 520 Film History Through the Archives and Special Collections Units: 4
- CTCS 521 Media Archiving: History and Practice Units: 4
- CNTV 595 Professional Practicum Units: 1, 2, 4 *

  * CNTV 595 Must be taken twice for 2 units each.

Doctoral Degree

Cinema and Media Studies (PhD)

The degree of Doctor of Philosophy in Cinema and Media Studies is administered through the Graduate School. The PhD program is tailored to the individual student's particular needs and interests. The overall course of study will be designed by the student, the student's designated adviser and, following the screening procedure, the student's qualifying exam committee chair (see Screening Procedure under Media Production and Practice Courses).

Degree Requirements

Each PhD candidate must complete 68 units beyond the bachelor's degree, 43 of which must be at the 500 level or higher. (Up to 30 units may be transferred from graduate work completed

at other institutions.) Dissertation units are not counted toward the 68-unit total. The required units will include seven to 12 courses in cinematic arts and 8 to 16 units in the minor area. The minor will be chosen by the student in close consultation with the adviser and will be in an academic field that supports the student's dissertation topic. Each student must complete the following course work toward the 68-unit total.

These courses should be taken before the screening procedure.

- CTCS 500 Seminar in Film Theory Units: 4
- CTCS 506 Critical Studies Colloquium/Professional Seminar Units: 2
- CTCS 510 Case Studies in National Media and/or Regional Media Units: 4
- CTCS 587 Seminar in Television Theory Units: 4

Media Production and Practice Courses

Each candidate for the PhD must complete one of the following 4-unit courses with a grade of C or better. If the student enters the program with a master's degree in cinematic arts and possesses production experience, the student may request a waiver of this requirement. The waiver requires passing a written examination and submission of films/videos to the production faculty for review. This course should be taken before the screening procedure.

- CTIN 534L Experiments in Interactivity I Units: 4
- CTPR 507 Production I Units: 4
- IML 501L Digital Media Authorship and the Archive Units: 4
- IML 502 Techniques of Information Visualization Units: 4
- IML 575 Graduate Media Arts Research Lab Units: 2, 3, 4 (4 units only)

Two of the following:

- CTCS 673 Topics in Theory Units: 4
- CTCS 677 Cultural Theory Units: 4
- CTCS 678 Seminar in Film Theory and Medium Specificity Units: 4
- CTCS 679 Seminar in Genre and/or Narrative Theory Units: 4
- CTCS 688 Moving Image Histories: Methods and Approaches Units: 4

Screening Procedure

The Graduate School requires that programs administer an examination or other procedure at a predetermined point in the student's studies as a prerequisite to continuation in the doctoral program. This procedure is designed to review the student's suitability for continuing in the chosen PhD program. The School of Cinematic Arts has determined that this procedure will occur no later than the end of the student's third semester of graduate course work at USC beyond the master's degree. The screening procedure process will include the following steps:

1. If the faculty has determined during the admissions process that a comprehensive examination will be required as part of the screening procedure, an examination will be administered as appropriate. If the examination is passed to the faculty's satisfaction, the student may proceed to the next step in the screening procedure process. If the student fails to pass the examination, the faculty will determine if the student will be allowed to retake the examination the following semester before proceeding to the next step in the screening procedure process.
2. The student will be interviewed and his or her progress in the program will be reviewed by the faculty to determine if the student will be approved for additional course work. If approved to continue, a qualifying exam committee chair will be selected by the student, with the approval of the faculty, who will serve as the student's adviser. It is strongly recommended that full-time study be pursued following the successful completion of the screening procedure.

Qualifying Exam Committee

Following a successful screening procedure, the student, in consultation with the qualifying exam committee chair and the Cinema and Media Studies faculty, will formally establish a five-member qualifying exam committee. The composition of the qualifying exam committee will be as specified by the Graduate School. For the PhD in Cinema and Media Studies, the committee is ordinarily composed of four Cinema and Media Studies faculty members and an outside member from the candidate's minor area.

Foreign Language Requirement

The Cinema and Media Studies faculty will advise each student as to whether or not a foreign language is required. This requirement is determined by the student's dissertation topic. The requirement must be met at least 60 days before the qualifying examination.

Dissertation Proposal Presentation

Working closely with the qualifying exam committee chair, the student will prepare to present his or her dissertation proposal to the full faculty. This will be a formal written proposal that will include a statement of the proposed topic, four fields for examination derived from the general dissertation topic area (including a field from the minor area), a detailed bibliography, and an appropriate and comprehensive screening list of film/television titles. Formal presentation of the dissertation proposal will occur no later than the end of the semester prior to taking the qualifying examinations. The qualifying exam committee must approve the dissertation topic. Once the dissertation topic has been approved, the student will complete the Request to Take the PhD Qualifying Examination form available from the program coordinator.

Qualifying Examinations

Written and oral examinations for the PhD are given twice a year, in November and April. Questions for the written portion of the examination will be drafted by members of the qualifying exam committee who will also grade the examination. The qualifying examination comprises four examinations administered one each day for four days during a five-day period.

The oral examination will be scheduled within 30 days after the written examination. All qualifying exam committee members must be present for the oral portion of the qualifying examination.

Admission to Candidacy

A student is eligible for admission to candidacy for the PhD degree after: (1) passing the screening procedure; (2) presenting the dissertation proposal and having it approved; (3) satisfying the language requirement, if applicable; (4) completing at least 24 units in residence; and (5) passing the written and oral portions of the qualifying examination. Admission to candidacy is by action of the Graduate School.

Dissertation Committee

The dissertation committee is composed as specified by regulations of the Graduate School. A dissertation based on original investigation and showing technical mastery of a special field, capacity for research and scholarly ability must be submitted.

CTCS 794

Registration for dissertation units, CTCS 794a and CTCS 794b, in the two semesters following admission to candidacy is the minimum requirement. These units cannot be applied toward the required 68 unit total. The student must register for CTCS 794a, CTCS 794b, CTCS 794c, CTCS 794d, CTCS 794z each semester after admission to candidacy until the degree requirements are completed. No more than 8 units of credit can be earned in CTCS 794a, CTCS 794b, CTCS 794c, CTCS 794d, CTCS 794z.

Defense of Dissertation

An oral defense of the dissertation is required of each PhD candidate. The dissertation committee will decide whether the examination is to take place after completion of the preliminary draft or the final draft of the dissertation. The oral defense must be passed at least one week before graduation.

Policies

The following policies apply to each student admitted to the PhD program.

Residency Requirements

At least one year of full-time graduate study (24 units excluding registration for CTCS 794a, CTCS 794b, CTCS 794c, CTCS 794d, CTCS 794z) must be completed in residence on the main USC campus. The residency requirement may not be interrupted by study elsewhere. Residency must be completed prior to the qualifying examination.

Grade Point Average

An overall GPA of 3.0 is required for all graduate work. Courses in which a grade of C- (1.7) or lower is earned will not apply toward a graduate degree.

Leaves of Absence

A leave of absence may be granted under exceptional circumstances by petitioning the semester before the leave is to be taken. Refer to "Leave of Absence" in the Graduate and Professional Education section.

Changes of Committee

Changes in either the qualifying exam or dissertation committee must be requested on a form available from the Graduate School Website.

Completion of All Requirements

Everything involved in approving the dissertation must be completed at least one week before graduation. Approval by the dissertation committee, the Office of Academic Records and Registrar, and the thesis editor must be reported and submitted to the Graduate School by the date of graduation.

Time Limits

The maximum time limit for completing all requirements for the PhD degree is eight years from the first course at USC applied toward the degree. Students who have completed an applicable master's degree at USC or elsewhere within five years from the proposed enrollment in a PhD program must complete the PhD in six years. Extension of these time limits will be made only for compelling reasons upon petition by the student. When petitions are granted, students will be required to make additional CTCS 794a, CTCS 794b, CTCS 794c, CTCS 794d, CTCS 794z registrations. Course work more than 10 years old is automatically invalidated and cannot be applied toward the degree.

Cinematic Arts (Critical Studies) (PhD)

The degree of Doctor of Philosophy with an emphasis in Critical Studies is administered through the Graduate School. The PhD program is tailored to the individual student's particular needs and interests. The overall course of study will be designed by the student, the student's designated adviser and, following the screening procedure, the student's qualifying exam committee chair (see Screening Procedure under Graduate Preparation Production Courses).

Admission

A bachelor's or master's degree in cinematic arts, or a closely related field, is required for admission to the PhD program. Applicants with only a bachelor's degree must successfully fulfill all of the USC Critical Studies MA degree requirements as part of the degree program (see Screening Procedure).

Course Requirements

Each PhD candidate must complete 68 units beyond the bachelor's degree, 43 of which must be at the 500 level or higher. (Up to 30 units may be transferred from graduate work completed at other institutions.) Dissertation units are not counted toward the 68-unit total. The required units will include seven to 12 courses in cinematic arts and 8 to 16 units in the minor area. The minor will be chosen by the student in close consultation with the adviser and will be in an academic field which supports the student's dissertation topic. Each student must complete the following course work toward the 68 unit total:

1. *CTCS 500*, *CTCS 506*, *CTCS 510*, *CTCS 587*, *CTPR 507*. These courses should be taken before the screening procedure.
2. *Two of the following: CTCS 673*, *CTCS 677*, *CTCS 678*, *CTCS 679*, *CTCS 688*. These courses should be taken before the qualifying examination.

Graduate Preparation Production Course

Each candidate for the PhD must complete CTPR 507 Production I 4 with a grade of C or better. If the student enters the program with a master's degree in cinematic arts and possesses production experience, the student may request a waiver of this requirement. The waiver requires passing a written examination and submission of films/videos to the production faculty for review.

CTPR 507 Production I 4 is designed to introduce the fundamental principles of motion picture production. The course also introduces students to visual and auditory communication and individual filmmaking. Each student makes several non-dialogue personal projects, serving as writer, producer, director, cinematographer, sound designer and editor and takes a crew role on a collaborative project. Projects are shot on digital cameras and edited on non-linear systems. Approximately $1,200 should be budgeted for miscellaneous expenses, lab and insurance fees. This course should be taken before the beginning of the screening procedure.

Screening Procedure

The Graduate School requires that programs administer an examination or other procedure at a predetermined point in the student's studies as a prerequisite to continuation in the doctoral program. This procedure is designed to review the student's suitability for continuing in the chosen PhD program. The School of Cinematic Arts has determined that this procedure will occur no later than the end of the student's third semester of graduate course work at USC beyond the master's degree. The screening procedure process will include the following steps:

1. If the faculty has determined during the admissions process that a comprehensive examination will be required as part of the screening procedure, an examination will be administered as appropriate. If the examination is passed to the faculty's satisfaction, the student may proceed to the next step in the screening procedure process. If the student fails to pass the examination, the faculty will determine if the student will be allowed to retake the examination the following semester before proceeding to the next step in the screening procedure process.
2. The student will be interviewed and his or her progress in the program will be reviewed by the faculty to determine if the student will be approved for additional course work. If approved to continue, a qualifying exam committee chair will be selected by the student, with the approval of the faculty, who will serve as the student's adviser. It is strongly recommended that full-time study be pursued following the successful completion of the screening procedure.

Qualifying Exam Committee

Following a successful screening procedure, the student, in consultation with the qualifying exam committee chair and the Critical Studies faculty, will formally establish a five-member qualifying exam committee. The composition of the qualifying exam committee will be as specified by the Graduate School. For the PhD in Cinematic Arts (Critical Studies), the committee is ordinarily composed of four Critical Studies faculty members and an outside member from the candidate's minor area.

Foreign Language Requirement

The Critical Studies faculty will advise each student as to whether or not a foreign language is required. This requirement is determined by the student's dissertation topic. The requirement must be met at least 60 days before the qualifying examination.

Dissertation Proposal Presentation

Working closely with the qualifying exam committee chair, the student will prepare to present his or her dissertation proposal to the full faculty. This will be a formal written proposal which will include a statement of the proposed topic, four fields for examination derived from the general dissertation topic area (including a field from the minor area), a detailed bibliography, and an appropriate and comprehensive screening list of film/television titles. Formal presentation of the dissertation proposal will occur no later than the end of the semester prior to taking the qualifying examinations. The qualifying exam committee must approve the dissertation topic. Once the dissertation topic has been approved, the student will complete the Request to Take the PhD Qualifying Examination form available from the program coordinator.

Qualifying Examinations

Written and oral examinations for the PhD are given twice a year, in November and April. Questions for the written portion of the examination will be drafted by members of the qualifying exam committee who will also grade the examination. The qualifying examination comprises four examinations administered one each day for four days during a five-day period.

The oral examination will be scheduled within 30 days after the written examination. All qualifying exam committee members must be present for the oral portion of the qualifying examination.

Admission to Candidacy

A student is eligible for admission to candidacy for the PhD degree after: (1) passing the screening procedure; (2) presenting the dissertation proposal and having it approved; (3) satisfying the language requirement, if applicable; (4) completing at least 24 units in residence; and (5) passing the written and oral portions of the qualifying examination. Admission to candidacy is by action of the Graduate School.

Dissertation Committee

The dissertation committee is composed as specified by regulations of the Graduate School. A dissertation based on original investigation and showing technical mastery of a special field, capacity for research and scholarly ability must be submitted.

CTCS 794

Registration for dissertation units, CTCS 794a and CTCS 794b , in the two semesters following admission to candidacy is the minimum requirement. These units cannot be applied toward the required 68 unit total. The student must register for CTCS 794a, CTCS 794b, CTCS 794c, CTCS 794d, CTCS 794z each semester after admission to candidacy until the degree requirements are completed. No more than 8 units of credit can be earned in CTCS 794a, CTCS 794b, CTCS 794c, CTCS 794d, CTCS 794z.

Defense of Dissertation

An oral defense of the dissertation is required of each PhD candidate. The dissertation committee will decide whether the examination is to take place after completion of the preliminary draft or the final draft of the dissertation. The oral defense must be passed at least one week before graduation.

Policies

The following policies apply to each student admitted to the PhD program.

Residency Requirements

At least one year of full-time graduate study (24 units excluding registration for CTCS 794a, CTCS 794b, CTCS 794c, CTCS 794d, CTCS 794z) must be completed in residence on the main USC campus. The residency requirement may not be interrupted by study elsewhere. Residency must be completed prior to the qualifying examination.

Grade Point Average

An overall GPA of 3.0 is required for all graduate work. Courses in which a grade of C- (1.7) or lower is earned will not apply toward a graduate degree.

Leaves of Absence

A leave of absence may be granted under exceptional circumstances by petitioning the semester before the leave is to be taken. Refer to "Leave of Absence" in the Graduate and Professional Education section.

Changes of Committee

Changes in either the qualifying exam or dissertation committee must be requested on a form available from the Graduate School Website.

Completion of All Requirements

Everything involved in approving the dissertation must be completed at least one week before graduation. Approval by the dissertation committee, the Office of Academic Records and Registrar, and the thesis editor must be reported and submitted to the Graduate School by the date of graduation.

Time Limits

The maximum time limit for completing all requirements for the PhD degree is eight years from the first course at USC applied toward the degree. Students who have completed an applicable master's degree at USC or elsewhere within five years from the proposed enrollment in a PhD program must complete the PhD in six years. Extension of these time limits will be made only for compelling reasons upon petition by the student. When petitions are granted, students will be required to make additional CTCS 794a, CTCS 794b, CTCS 794c, CTCS 794d, CTCS 794z registrations. Course work more than 10 years old is automatically invalidated and cannot be applied toward the degree.

Film and Television Production

The Division of Film and Television Production of the School of Cinematic Arts offers programs leading to the Bachelor of Arts, the Bachelor of Fine Arts and the Master of Fine Arts degrees.

The primary goals of the degree programs in film and television production are to develop the student's ability to express original ideas on film or video and to instill a thorough understanding of the technical and aesthetic aspects of motion pictures and television. Courses in production provide individual and group filmmaking experiences and the opportunity to learn all aspects of filmmaking in a collaborative environment.

Bachelor's Degree

Cinematic Arts, Film and Television Production (BA)*

The Bachelor of Arts in Cinematic Arts, Film and Television Production is granted through the USC Dornsife College of Letters, Arts and Sciences in conjunction with the School of Cinematic Arts. Students study within a framework that combines a broad liberal arts background with specialization in a profession. Bachelor of Arts students are enrolled in the USC Dornsife College of Letters, Arts and Sciences, where they take their preprofessional courses, including the general education requirements. Major courses are selected from the curriculum of the School of Cinematic Arts. The degree requires 128 units, including 16 lower-division units and 26 upper-division units in Cinematic Arts. A maximum of 40 School of Cinematic Arts upper-division units will apply to the BA degree.

Applicants must submit a supplemental application and materials to the Undergraduate Production Program. For specific instructions, contact the Cinematic Arts Office of Admission, University Park, Los Angeles, CA 90089-2211, (213) 740-8358 or online at *cinema.usc.edu*.

General Education Requirements

The university's general education program provides a coherent, integrated introduction to the breadth of knowledge you will need to consider yourself (and to be considered by other people) a generally well-educated person. This program is effective for all students entering USC in fall 2015 or later, or transfer students beginning college elsewhere at that time and subsequently transferring to USC. It requires eight courses in six Core Literacies, plus two courses in Global Perspectives (which may double-count with courses in the Core Literacies) and two courses in writing. For more information, see General Education.

Production Sequence

Candidates for the Bachelor of Arts degree in Cinematic Arts, Film and Television Production are required to take CTPR 294 Directing in Documentary, Fiction and New Media and CTPR 295L Cinematic Arts Laboratory the first semester they are enrolled in the program. These courses are taken in preparation for the next phase of the production sequence, CTPR 310 Intermediate Production.

In CTPR 294, students explore the basic concepts of directing in television, documentary and dramatic narrative by working with actors, documentary production and the creation of short television projects.

In CTPR 295, students study the aesthetics and tools of the major disciplines of cinematic arts: producing, cinematography, sound and editing.

CTPR 310 Intermediate Production is the second phase of the production sequence. In this workshop, students work in small crews, learning to collaborate and explore the expressive principles of visual and audio communication; idea development and realization using image, movement, pace, the spoken word and other sounds. Most equipment and materials are provided by the school; however, approximately $2,000 should be budgeted for miscellaneous expenses and insurance fees.

To qualify for enrollment in CTPR 310, students must fulfill all requirements outlined in the guidelines distributed in CTPR 294.

Following CTPR 310, students must take CTPR 450 The Production and Post-Production Assistant, and refine their areas of interest by taking advanced-level practicum courses within the major disciplines of production: directing, editing, cinematography, sound, producing and production design. Thereafter students complete the final phase of the production sequence by taking one of the following courses: CTPR 480, CTPR 484, CTPR 486 or CTPR 547.

In CTPR 480 Advanced Production Workshop, production students form crews in which directors, producers, cinematographers, editors and sound designers collaborate to produce, shoot, edit and deliver a fictional narrative, documentary or experimental project in one semester.

Equipment and facilities are provided by the school. There are extra personal expenses associated with all production workshops.

To qualify for enrollment in CTPR 480, students must fulfill all requirements outlined in the CTPR 480 guidelines distributed in CTPR 450.

CTPR 484 Advanced Multi-Camera Television Workshop is a class in which students will produce a half-hour situation comedy pilot in one semester.

CTPR 486 Single Camera Television Dramatic Series is an intensive group workshop experience in the collaborative process of producing an episodic television drama.

CTPR 547 is an intensive workshop where students shoot and finish documentary projects up to about 25 minutes in length.

CTPR 310, CTPR 480, CTPR 484, CTPR 486 and CTPR 547L cannot be waived or substituted with another course or transfer credit under any circumstances.

Course Requirements

- CTCS 190g Introduction to Cinema Units: 4
- CTCS 200g History of the International Cinema I Units: 4 or
- CTCS 201 History of the International Cinema II Units: 4
- CTPR 294 Directing in Documentary, Fiction and New Media Units: 4
- CTPR 295L Cinematic Arts Laboratory Units: 4
- CTPR 310 Intermediate Production Units: 4, 6
- CTPR 450 The Production and Post-Production Assistant Units: 2
- CTWR 413 Writing the Short Script I Units: 2

and a choice of:

- CTPR 431 Developing the Documentary Production Units: 2
- CTWR 411 Television Script Analysis Units: 2
- CTWR 414 The Screenplay Units: 2
- CTWR 416 Motion Picture Script Analysis Units: 2

One of the following cinema and media studies courses:

- CTCS 367 Global Media Units: 4
- CTCS 392 History of the American Film, 1925–1950 Units: 4
- CTCS 393 Postwar Hollywood, 1946-1962 Units: 4
- CTCS 394 History of the American Film, 1977–present Units: 4
- CTCS 400 Non-Fiction Film and Television Units: 4
- CTCS 402 Practicum in Film/Television Criticism Units: 4
- CTCS 403 Studies in National and Regional Media Units: 4
- CTCS 404 Television Criticism and Theory Units: 4
- CTCS 406 History of American Television Units: 4
- CTCS 407 African American Cinema Units: 4
- CTCS 409 Censorship in Cinema Units: 4
- CTCS 411 Film, Television and Cultural Studies Units: 4
- CTCS 412 Gender, Sexuality and Media Units: 4
- CTCS 414 Latina/o Screen Cultures Units: 4
- CTCS 417 African American Television Units: 4
- CTCS 464 Film and/or Television Genres Units: 4
- CTCS 469 Film and/or Television Style Analysis Units: 4
- CTCS 478 Culture, Technology and Communications Units: 4
- CTCS 482 Transmedia Entertainment Units: 4

Three of the following production practicum courses:

- CTPR 421 Practicum in Editing Units: 2
- CTPR 424 Practicum in Cinematography Units: 2
- CTPR 438 Practicum in Producing Units: 2
- CTPR 440 Practicum in Sound Units: 2 max 4
- CTPR 465 Practicum in Production Design Units: 2
- CTPR 478 Practicum in Directing Units: 2

One of the following courses:

- CTPR 480 Advanced Production Workshop Units: 4 max 12
- CTPR 484 Advanced Multi-Camera Television Workshop Units: 4
- CTPR 486 Straight to Series: Production of Episodic TV Drama Units: 4
- CTPR 547L Production III, Documentary Units: 6 *

Note:

*Enrollment in CTPR 547 requires special permission.

Additional Requirements

Grade Point Average Requirements

A minimum grade of C, 2.0 (A = 4.0), must be earned in all required and prerequisite courses. A grade of C- (1.7) or lower will not fulfill a major requirement.

Students who do not earn the minimum grade of C (2.0) in CTPR 294, CTPR 295 and CTPR 310 after repeating these requirements will be disqualified from the program.

Limitations on Enrollment

No more than 40 upper-division units can be taken in the major without approval of the dean, USC Dornsife College of Letters, Arts and Sciences.

Registration in graduate level courses (numbered 500) for undergraduate credit requires prior approval of the School of Cinematic Arts.

Curriculum Review

Cinematic arts majors are expected to meet with an adviser every semester to review their progress. Contact the Cinematic

Arts Student Services Office (SCB 105), (213) 740-8358, for an appointment.

Cinematic Arts, Film and Television Production (BFA)

The Bachelor of Fine Arts in Cinematic Arts, Film and Television Production is a unique four-year program, offered by the School of Cinematic Arts, that combines a liberal arts background with comprehensive specialization in a profession. Students are provided an intensive production experience combined with requirements and electives from other School of Cinematic Arts programs including Cinema and Media Studies, Writing, Animation and Interactive Media. The degree requires 128 units, including 68 units in Cinematic Arts, many of which are taken in a sequential order.

Applicants must submit a supplemental application and materials to the Undergraduate Production Program. For specific instructions, contact the Cinematic Arts Office of Admission, University Park, Los Angeles, CA 90089-2211, (213) 740-8358 or online at *cinema.usc.edu*.

General Education Requirements

The university's general education program provides a coherent, integrated introduction to the breadth of knowledge you will need to consider yourself (and to be considered by other people) a generally well-educated person. This program is effective for all students entering USC in fall 2015 or later, or transfer students beginning college elsewhere at that time and subsequently transferring to USC. It requires eight courses in six Core Literacies, plus two courses in Global Perspectives (which may double-count with courses in the Core Literacies) and two courses in writing.

Production Sequence

Candidates for the Bachelor of Fine Arts degree in Film and Television Production are required to take CTPR 285 Lateral Thinking for Filmmaking Practice, CTPR 290 Cinematic Communication, CTPR 294 Directing in Documentary, Fiction and New Media and CTPR 295L Cinematic Arts Laboratory. These courses are taken in the first two years of the program in preparation for the next phase of the production sequence, CTPR 310 Intermediate Production.

CTPR 285 introduces contemporary concepts of production, emphasizing the variety of contemporary media and significant related concepts. Students will create mini-projects using laptops, phones and networks.

CTPR 290 introduces the interrelationship of visuals, sound and editing in cinematic communication. Students participate in directing and producing workshops as well as individual and group projects. Approximately $1,000 should be budgeted for miscellaneous expenses and insurance fees.

In CTPR 294, students explore the basic concepts of directing in television, documentary and dramatic narrative by working with actors, documentary production and the creation of short television projects.

In CTPR 295, students study the aesthetics and tools of the major disciplines of cinematic arts: producing, cinematography, sound and editing.

CTPR 310 Intermediate Production is the second phase of the production sequence. In this workshop students work in small crews, learning to collaborate and explore the expressive principles of visual and audio communication; idea development and realization using image, movement, pace, the spoken word and other sounds. Most equipment and materials are provided by the school; however, approximately $2,000 should be budgeted for miscellaneous expenses and insurance fees.

To qualify for enrollment in CTPR 310, students must fulfill all requirements outlined in the CTPR 310 guidelines distributed in CTPR 294.

Following CTPR 310, students must take CTPR 450 The Production and Post-Production Assistant, and refine their areas of interest by taking advanced-level practicum courses within the major disciplines of production: directing, editing, cinematography, sound, producing and production design. Thereafter students complete the final phase of the production sequence by taking one of the following courses: CTPR 480, CTPR 484, CTPR 486 or CTPR 547L.

In CTPR 480 Advanced Production Workshop, production students form crews in which directors, producers, cinematographers, editors and sound designers collaborate to produce, shoot, edit and deliver a fictional narrative, documentary or experimental project in one semester.

Equipment and facilities are provided by the school. There are extra personal expenses associated with all production workshops.

To qualify for enrollment in CTPR 480, students must fulfill all requirements outlined in the CTPR 480 guidelines distributed in CTPR 450.

CTPR 484 Advanced Multi-Camera Television Workshop is a class in which students will produce a half-hour situation comedy pilot in one semester.

CTPR 486 Single Camera Television Dramatic Series is an intensive group workshop experience in the collaborative process of producing an episodic television drama.

CTPR 547L is an intensive workshop where students shoot and finish documentary projects up to about 25 minutes in length.

CTPR 285, CTPR 290, CTPR 294, CTPR 295, CTPR 310, CTPR 480, CTPR 484, CTPR 486 and CTPR 547L cannot be waived or substituted with another course or transfer credit under any circumstances.

Course Requirements

- CNTV 101 Reality Starts Here Units: 2
- CTCS 150gw Visions of Diversity in the Cinematic Arts Units: 4
- CTCS 190g Introduction to Cinema Units: 4
- CTCS 200g History of the International Cinema I Units: 4
- CTCS 201 History of the International Cinema II Units: 4
- CTPR 285 Lateral Thinking for Filmmaking Practice Units: 2
- CTPR 290 Cinematic Communication Units: 4, 6
- CTPR 294 Directing in Documentary, Fiction and New Media Units: 4
- CTPR 295L Cinematic Arts Laboratory Units: 4
- CTPR 310 Intermediate Production Units: 4, 6
- CTPR 450 The Production and Post-Production Assistant Units: 2
- CTWR 413 Writing the Short Script I Units: 2

One course from the following:

- CTWR 414 The Screenplay Units: 2
- CTPR 431 Developing the Documentary Production Units: 2

and a choice of:

- CTWR 411 Television Script Analysis Units: 2
- CTWR 416 Motion Picture Script Analysis Units: 2

One of the following cinema and media studies courses:

- CTCS 367 Global Media Units: 4
- CTCS 392 History of the American Film, 1925–1950 Units: 4
- CTCS 393 Postwar Hollywood, 1946-1962 Units: 4
- CTCS 394 History of the American Film, 1977–present Units: 4
- CTCS 400 Non-Fiction Film and Television Units: 4
- CTCS 402 Practicum in Film/Television Criticism Units: 4
- CTCS 403 Studies in National and Regional Media Units: 4
- CTCS 404 Television Criticism and Theory Units: 4
- CTCS 406 History of American Television Units: 4
- CTCS 407 African American Cinema Units: 4
- CTCS 409 Censorship in Cinema Units: 4
- CTCS 411 Film, Television and Cultural Studies Units: 4
- CTCS 412 Gender, Sexuality and Media Units: 4
- CTCS 414 Latina/o Screen Cultures Units: 4
- CTCS 417 African American Television Units: 4
- CTCS 464 Film and/or Television Genres Units: 4
- CTCS 469 Film and/or Television Style Analysis Units: 4
- CTCS 478 Culture, Technology and Communications Units: 4
- CTCS 482 Transmedia Entertainment Units: 4

Three of the following production practicum courses:

- CTPR 421 Practicum in Editing Units: 2
- CTPR 424 Practicum in Cinematography Units: 2
- CTPR 438 Practicum in Producing Units: 2
- CTPR 440 Practicum in Sound Units: 2
- CTPR 465 Practicum in Production Design Units: 2
- CTPR 478 Practicum in Directing Units: 2

One of the following production courses:

- CTPR 480 Advanced Production Workshop Units: 4
- CTPR 484 Advanced Multi-Camera Television Workshop Units: 4
- CTPR 486 Straight to Series: Production of Episodic TV Drama Units: 4
- CTPR 547L Production III, Documentary Units: 6 * *enrollment in CTPR 547 requires special permission

One course from the following:

- CTPR 458 Organizing Creativity: Entertainment Industry Decision Making Units: 2
- CTPR 466 The Art of the Pitch Units: 2
- CNTV 495 Internship in Cinematic Arts Units: 1, 2, 4
- CTPR 496 The Film Industry: Career Challenges and Choices for Women Units: 2

Four units from the following:

- CTAN 436 Writing for Animation Units: 2
- CTAN 448 Introduction to Film Graphics — Animation Units: 4
- CTAN 452 Introduction to 3-D Computer Animation Units: 2 max 4
- CTAN 462 Visual Effects Units: 2
- CTAN 495 Visual Music Units: 2
- CTIN 401L Interface Design for Games Units: 2
- CTIN 463 Anatomy of a Game Units: 4
- CTIN 464 Game Studies Seminar Units: 2 max 4
- CTIN 482 Designing Social Games Units: 2
- CTIN 483 Introduction to Game Development Units: 4
- IML 340 Remixing the Archive Units: 4 max 8
- IML 400 Creative Coding for the Web Units: 4
- IML 420m New Media for Social Change Units: 4
- IML 466 Digital Studies Symposium Units: 2

Additional Requirements

Grade Point Average Requirements

A minimum grade of C, 2.0 (A = 4.0), must be earned in all required and prerequisite courses. A grade of C- (1.7) or lower will not fulfill a major requirement.

Students who do not earn the minimum grade of C (2.0) in CTPR 285, CTPR 290, CTPR 294, CTPR 295 and CTPR 310 after repeating these requirements will be disqualified from the program.

Limitations on Enrollment

Registration in graduate-level courses (numbered 500) for undergraduate credit requires prior approval from the School of Cinematic Arts.

Curriculum Review

Cinematic Arts majors are expected to meet with an adviser every semester to review their progress. Contact the Cinematic Arts Student Services Office (SCB 105), (213) 740-8358, for an appointment.

Master's Degree

Cinematic Arts, Film and Television Production (MFA)

The Master of Fine Arts, Cinematic Arts, Film and Television Production, requires a minimum of 52 units in cinematic arts at the 400 or 500 level. At least two-thirds (35) of the units must be at the 500 level. A thesis is not required for the MFA degree.

Applications for the graduate production program are accepted for both fall and spring semesters. See a current Graduate Study Application for deadlines. Applicants must submit supplemental applications and materials to the Graduate Production Program. For specific instructions, contact the Cinematic Arts Office of Admission, University Park, Los Angeles, CA 90089-2211, (213) 740-8358 or online at *cinema.usc.edu*.

Graduate First Year Production Courses

CTPR 507, which brings together students from other School of Cinematic Arts divisions, introduces the fundamental principles of motion picture production, emphasizing visual and auditory communication. Projects are shot using digital cameras and edited on non-linear systems. Approximately $1,200 should be budgeted for miscellaneous expenses, lab and insurance fees. Production students must take CTPR 507 concurrently with CNTV 530 and CTWR 505 in the first semester.

In CTPR 508, students produce short films in small crews. The primary goal is to communicate effectively through sound/image relationships. Most equipment and materials are provided by the school, but approximately $2,000 should be budgeted for miscellaneous expenses, lab and insurance fees.

Students who earn a grade of C- (1.7) or less in either CTPR 507 or CTPR 508 will be disqualified, and will not be able to continue in the MFA program. In any other required Production course, students earning lower than a C (2.0) may repeat the requirement on a one-time-only basis upon approval of the division chair. Students earning a C- (1.7) or less after being allowed to repeat a required production course will be disqualified from the program, and will not be allowed to continue.

Our program is distinguished by the understanding and hands-on practice our graduates achieve in all mediamaking disciplines; at the same time, each student pursues specialized interests in years two and three. To qualify for the MFA, each must demonstrate mastery of at least one of six disciplines: writing, producing, directing, cinematography, editing or sound. In the discipline chosen, the candidate must register for and complete an advanced project, as well as the defined prerequisites.

CNTV 530, CTPR 502, CTPR 507, CTPR 508, CTPR 546 and CTPR 547 cannot be waived or substituted with transfer credit under any circumstances.

Three-Year Requirements for the MFA in Production

Year One, First Semester

- CTPR 507 Production I Units: 4
- CTWR 505 Creating the Short Film Units: 2
- CNTV 530 Cinematic Ethics Units: 1
- CTPR 502 Collaboration and Creativity Units: 1

Total units: 8

Year One, Second Semester

- CTPR 508 Production II Units: 6
- CTWR 516 Advanced Motion Picture Script Analysis Units: 2

Total units: 8

Year Two, First and Second Semesters

- CTPR 506 Visual Expression Units: 2

At least 6 units from the following cinema and media studies courses:

- CTCS 464 Film and/or Television Genres Units: 4
- CTCS 469 Film and/or Television Style Analysis Units: 4
- CTCS 501 World Cinema Before 1945 Units: 2
- CTCS 502 World Cinema After 1945 Units: 2
- CTCS 503 Survey History of the United States Sound Film Units: 2
- CTCS 504 Survey of Television History Units: 2
- CTCS 505 Survey of Interactive Media Units: 2
- CTCS 510 Case Studies in National Media and/or Regional Media Units: 4 max 12
- CTCS 511 Seminar: Non-Fiction Film/Video Units: 4
- CTCS 518 Seminar: Avant-Garde Film/Video Units: 4
- CTCS 564 Seminar in Film and Television Genres Units: 4
- CTCS 567 Seminar in Film/Television and a Related Art Units: 4

- CTCS 569 Seminar in Film and Television Authors Units: 4
- CTCS 585 Seminar in Film/Television Critical Theory and Production Units: 4
- CTCS 587 Seminar in Television Theory Units: 4

Year Three, First and Second Semesters

Advanced Project Requirement

A minimum of 4 units is required. Students must complete the prerequisites and follow the guidelines for the course(s) chosen:

- CTPR 484 Advanced Multi-Camera Television Workshop Units: 4
- CTPR 486 Straight to Series: Production of Episodic TV Drama Units: 4
- CTPR 546L Production III, Fiction Units: 6
- CTPR 547L Production III, Documentary Units: 6

Elective Units

Of the 52 minimum unit requirement for the degree, students can take up to 24 elective units, 16 of which must be CTPR courses.

Additional Requirements

Grade Point Average Requirements

A grade point average of at least 3.0 (A = 4.0) must be maintained in all USC course work toward the master's degree. Courses in which a grade of C- (1.7) or lower is earned will not apply toward a graduate degree.

Graduate Level Course Requirement

At least two-thirds of the 52 units required for the MFA degree must be 500 level. Students are, therefore, allowed to take a maximum of 17 units at the 400 level.

Time Limit

Students must maintain satisfactory progress toward their master's degree at all times. The time limit to complete all requirements is three years from the first course at USC applied toward the Master of Fine Arts degree. Course work more than seven years old is invalidated and will not be applied toward the degree. Students are expected to meet with a faculty adviser every semester.

Graduate Review

One year prior to graduation, students must see their academic adviser for a curriculum and graduation degree check. Contact the Production Faculty Office for forms (213) 740-3317.

Academic Warning and Dismissal of Graduate Students

Faculty advisers and departments take factors other than satisfactory grades and adequate GPAs into consideration in determining a student's qualifications for an advanced degree. A student's overall academic performance, specific skills and aptitudes, and faculty evaluations will be considered in departmental decisions regarding a student's continuation in a master's or doctoral degree program.

Satisfactory progress toward an advanced degree as determined by the faculty is required at all times. Students who fail to make satisfactory progress will be informed by their department or committee chair or school dean. The faculty has the right to recommend at any time after written warning that a student be dismissed from a graduate program for academic reasons or that a student be denied readmission. Procedures on disputed academic evaluations are described in SCampus.

Interactive Media and Games Division

The Interactive Media and Games Division offers a Bachelor of Fine Arts in Game Art, Bachelor of Arts in Interactive Entertainment, a Master of Arts in Cinematic Arts (Media Arts, Games and Health) and two Master of Fine Arts in Interactive Media as well as a number of courses in computer-based entertainment for non-majors. The fundamental philosophy of the division is coherent with that of the school's program, stressing creativity of expression, experimentation and excellence in execution.

Bachelor's Degree

Game Art (BFA)

The Bachelor of Fine Arts in Game Art is a unique four-year program offered by the School of Cinematic Arts. Students study within the framework that combines a broad liberal arts background with specialization in a profession. Areas of concentration might include character animation, environmental design, visual effects, 3-D pipelines and interactive animation.

Undergraduate students take their pre-professional courses in the USC Dornsife College of Letters, Arts and Sciences, including the general education requirements. Major courses are selected from the curriculum of the School of Cinematic Arts. The degree requires 128 units, including 52 units in the major.

Applicants must submit a supplemental application and materials to the Interactive Media and Games Division in Slideroom via the Common Application. For specific instructions, contact the Cinematic Arts Office of Admission, University Park, Los Angeles, CA 90089-2211, (213) 740-8358 or online at *cinema.usc.edu*.

The Bachelor of Fine Arts in Game Art requires a minimum of 128 units.

Required Courses

- ART 207a Two-Dimensional Art Workshop Units: 2
- ART 207b Two-Dimensional Art Workshop Units: 2
- CNTV 101 Reality Starts Here Units: 2
- CTAN 452 Introduction to 3-D Computer Animation Units: 2 *
  or
- ITP 215L Introduction to 3D Modeling, Animation, and Visual Effects Units: 2
- CTCS 150gw Visions of Diversity in the Cinematic Arts Units: 4
- CTAN 280 Intermediate Character Animation for Games Units: 4
- CTAN 443L Character Development for 3-D Animation and Games Units: 2
- CTAN 480 Advanced Character Animation for Games Units: 2
- CTIN 290 Digital Media Workshop Units: 4
- CTIN 488 Game Design Workshop Units: 4
- CTIN 484L Intermediate Game Development Units: 2
- CTIN 489 Intermediate Game Design Workshop Units: 2
- ITP 351 3D Character Modeling for Games Units: 4
- CTIN 491L Advanced Game Project I Units: 4

  *Students choosing CTAN 452 will need to select CTIN 483 as one of their degree electives in order to qualify for CTIN 484L, a required course.

Electives

At least 6 units must be taken from the following list:

- CSCI 281 Pipelines for Games and Interactives Units: 4
- CSCI 420 Computer Graphics Units: 4 *
- CTAN 420 Concept Design for Animation Units: 2
- CTAN 455L Organic Modeling for Animation Units: 2 *
- CTAN 460 Character Design Workshop Units: 2
- CTAN 464L Digital Lighting and Rendering Units: 2 *
- CTAN 465L Digital Effects Animation Units: 2 *
- CTAN 485L Pipeline and Character Modeling for Animation Units: 2
- CTAN 497L Procedural Animation Units: 2 *
- CTAN 564L Motion Capture Fundamentals Units: 2 **
- CTAN 565L Motion Capture Performance Units: 2 **
- CTIN 401L Interface Design for Games Units: 2

- CTIN 483 Introduction to Game Development Units: 4 *
- CTIN 493L Advanced Game Project II Units: 2
- CTWR 410L Character Development and Storytelling for Games Units: 4
- ITP 115 Programming in Python Units: 2
- ITP 361 Character Rigging for Games Units: 4
- ITP 371 Technical Character Animation for Games Units: 4

*Prerequisite required.
**Prerequisite required. Enrollment in graduate courses requires special permission.

Movement

At least 2 units must be taken from the following list:

- DANC 175 Choreography for the Screen Units: 2
- DANC 181a Contemporary Dance Units: 2
- THTR 122 Improvisation and Theatre Games Units: 2
- THTR 216 Movement for Actors Units: 2

Theory

At least 4 units must be taken from the following list:

- CTCS 412 Gender, Sexuality and Media Units: 4
- CTCS 482 Transmedia Entertainment Units: 4
- CTIN 190 Introduction to Interactive Entertainment Units: 4
- CTIN 191 Survey of Themed Entertainment Units: 4

Interactive Entertainment (BA)*

The Bachelor of Arts in Interactive Entertainment is granted through the USC Dornsife College of Letters, Arts and Sciences in conjunction with the School of Cinematic Arts. Students study within a framework, which combines a broad liberal arts background with specialization in a profession. Undergraduate students take their pre-professional courses in the USC Dornsife College of Letters, Arts and Sciences, including the general education requirements. Major courses are selected from the curriculum of the School of Cinematic Arts. The degree requires 128 units, including a minimum of 48 units in the major.

General Education Requirements

The university's general education program provides a coherent, integrated introduction to the breadth of knowledge you will need to consider yourself (and to be considered by other people) a generally well-educated person. This program is effective for all students entering USC in fall 2015 or later, or transfer students beginning college elsewhere at that time and subsequently transferring to USC. It requires eight courses in six Core Literacies, plus two courses in Global Perspectives (which may double-count with courses in the Core Literacies) and two courses in writing. See General Education Program for more information.

Required Production Courses

Undergraduates admitted to the Interactive Entertainment Program are required to take CTIN 290 Digital Media Workshop or CTPR 290 Cinematic Communication a filmmaking course.

CTIN 290 and CTPR 290 introduce the interrelationship of visuals, sound and editing in cinematic communication. Students participate in directing and producing workshops as well as individual and group projects. Approximately $1,000 should be budgeted for miscellaneous expenses and insurance fees.

Required Courses

- CNTV 101 Reality Starts Here Units: 2
- ITP 115 Programming in Python Units: 2 or
- CTIN 101 Fundamentals of Procedural Media Units: 2
- CTCS 150gw Visions of Diversity in the Cinematic Arts Units: 4
- CTCS 190g Introduction to Cinema Units: 4
- CTIN 190 Introduction to Interactive Entertainment Units: 4
- CTIN 483 Introduction to Game Development Units: 4
- CTIN 484L Intermediate Game Development Units: 2 *
- CTIN 488 Game Design Workshop Units: 4
- CTIN 489 Intermediate Game Design Workshop Units: 2 *
- CTIN 290 Digital Media Workshop Units: 4 or
- CTPR 290 Cinematic Communication Units: 4, 6

Note:

**Enrollment in CTIN 484 and CTIN 489 is concurrent*

At least 6 units of the following are required:

- CSCI 380 Video Game Programming Units: 4 *
- CSCI 426 Game Prototyping Units: 4 *
- CTAN 443L Character Development for 3-D Animation and Games Units: 2
- CTAN 452 Introduction to 3-D Computer Animation Units: 2
- CTIN 291 Advanced Games Crew Units: 2
- CTIN 401L Interface Design for Games Units: 2
- CTIN 404L User Research for Games Units: 2
- CTIN 406L Sound Design for Games Units: 2
- CTIN 409 Producing Interactive Projects Units: 2
- CTIN 420 Tabletop Roleplaying Games Units: 2
- CTIN 432 Polishing and Publishing Interactive Media Units: 2
- CTIN 452L Themed Entertainment Design Units: 4 *
- CTIN 458 Business and Management of Games Units: 2
- CTIN 464 Game Studies Seminar Units: 2
- CTIN 480 Directing for Games and Interactive Media Units: 2
- CTIN 482 Designing Social Games Units: 2
- CTIN 485 Advanced Game Development Units: 2 *
- CTIN 486 Alternative Control Workshop Units: 2
- CTIN 493L Advanced Game Project II Units: 2 *

Note:

**Prerequisite required*

At least one of the following is required:

- CTCS 482 Transmedia Entertainment Units: 4
- CTIN 191 Survey of Themed Entertainment Units: 4
- CTIN 462 Critical Theory and Analysis of Games Units: 4
- CTWR 410L Character Development and Storytelling for Games Units: 4
- IML 420m New Media for Social Change Units: 4 *
- GESM 161g Seminar in Quantitative Reasoning Units: 4

Note:

**Prerequisite required*

At least one of the following is required:

- CTIN 459L Game Industry Workshop Units: 4
- CTIN 491L Advanced Game Project I Units: 4
- CTIN 492L Experimental Game Topics Units: 4

Note:

Two additional upper-division units of Cinematic Arts electives

Additional Requirements

Grade Point Average Requirements

A minimum grade of C, 2.0 (A = 4.0), must be earned in all required and prerequisite courses. A grade of C- (1.7) or lower will not fulfill a major requirement.

Students who do not earn the minimum grade of C (2.0) in CTIN 190, CTIN 483, CTIN 484, CTIN 488 or CTIN 489 after repeating these requirements will be disqualified from the program.

Limitations on Enrollment

Registration in graduate-level courses (numbered 500) for undergraduate credit requires prior approval of the School of Cinematic Arts.

Curriculum Review

Cinematic arts majors are expected to meet with an adviser every semester to review their progress. Contact the Interactive Media Program Office, SCA 223, (213) 821-4472, for an appointment.

Master's Degree

Cinematic Arts (Media Arts, Games and Health) (MA)

The Master of Arts in Cinematic Arts with an emphasis in Media Arts, Games and Health is administered by the Graduate School in conjunction with the Creative Media & Behavioral Health Center. The curriculum is based on center crosscutting

initiatives that represent the broadest descriptions of our vision and mission. Students benefit from emerging research, tools and methodologies that converge at the center, as well as the wide range of backgrounds represented by faculty, students and visiting scholars. Research is prioritized based on a combination of factors, including potential impact and benefit to society and overall alignment with center priorities. Some center initiatives include:

- **Sports and Exercise for Wellness:** investigation of novel assessment and treatment techniques using entertainment and technology for improvement of health outcomes related to obesity, nutrition and physical activity;
- **Healthy Brain Architecture:** production and dissemination of innovative storytelling products toward promotion of healthy behavior for brain development and affect regulation during the entire human lifespan;
- **Social and Sensorimotor Play:** investigation of novel assessment and treatment techniques using interactive play for improving social skills, visuospatial navigation and motor coordination in physical space;
- **Games for Health:** promotion, development and assessment of innovative games with behavioral health applications;
- **Storytelling for mHealth** (mobile health): mobile interactive entertainment with general health and wellness applications, or a specific chronic illness focus;
- **The Future of Health Care:** re-imagining the patient/user/player experience within and beyond health care settings.

The goal of the curriculum is to provide integrative research and practice-based training to enable students to combine prior/concurrent education and experience toward design, development and evaluation of health- and wellness-related interventions that incorporate entertainment media experiences (film, games, virtual reality, mobile media, public interactives, transmedia and emerging genres).

Candidates for the degree are subject to the general requirements of the Graduate School (see the Graduate School section). Thirty-six units are required at the 400 level or higher, including an integrative project. At least two-thirds of these units must be at the 500 level or higher.

Required Courses

- IML 543 Transdisciplinary Media Design Practicum Units: 4
- CTIN 503 Interactive Entertainment, Science, and Healthcare Units: 2
- CTIN 510 Research Methods for Innovation, Engagement and Assessment Units: 2
- CTIN 541 Design for Interactive Media Units: 4
- CTIN 590 Directed Research Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12
- CTIN 593 Integrative Project: Media-based Interventions in Healthcare Units: 2, 4

  Electives (8 units minimum from Cinematic Arts) Units: 16

Units: 36

Sample Schedule (Two Years, Full-time Study)

Year One, First Semester

- CTIN 541 Design for Interactive Media Units: 4
- CTIN 590 Directed Research Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12

  Electives

Units: 10

Year One, Second Semester

- CTIN 503 Interactive Entertainment, Science, and Healthcare Units: 2
- CTIN 510 Research Methods for Innovation, Engagement and Assessment Units: 2
- CTIN 590 Directed Research Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12

  Electives

Units: 8

Year Two, First Semester

- IML 543 Transdisciplinary Media Design Practicum Units: 4

  Electives

Units: 10

Year Two, Second Semester

- CTIN 593 Integrative Project: Media-based Interventions in Healthcare Units: 2, 4

  Electives

Units: 8

Note:

In addition, 18 units of electives related to the student's area of study will be recommended by the student's adviser; at least 8 of these units should be from Cinematic Arts.

Electives**

At least 8 units from the following:

- CTAN 443L Character Development for 3-D Animation and Games Units: 2 *
- CTAN 451 History of Animation Units: 2
- CTAN 452 Introduction to 3-D Computer Animation Units: 2 *
- CTAN 462 Visual Effects Units: 2
- CTAN 470 Documentary Animation Production Units: 2
- CTAN 495 Visual Music Units: 2
- CTAN 501 Experiments in 2-D Digital Animation Units: 2
- CTAN 502L Experiments in Immersive Design Units: 2
- CTAN 525 Gesture Movement for Animation Units: 2
- CTIN 401L Interface Design for Games Units: 2 *
- CTIN 405L Design and Technology for Mobile Experiences Units: 2 *
- CTIN 406L Sound Design for Games Units: 2
- CTIN 452L Themed Entertainment Design Units: 4 *
- CTIN 458 Business and Management of Games Units: 2
- CTIN 480 Directing for Games and Interactive Media Units: 2
- CTIN 483 Introduction to Game Development Units: 4
- CTIN 484L Intermediate Game Development Units: 2 *
- CTIN 485 Advanced Game Development Units: 2 *
- CTIN 486 Alternative Control Workshop Units: 2
- CTIN 488 Game Design Workshop Units: 4
- CTIN 489 Intermediate Game Design Workshop Units: 2 *
- CTIN 499 Special Topics Units: 2, 3, 4
- CTIN 501 Interactive Cinema Units: 2
- CTIN 506 Procedural Expression Units: 2
- CTIN 534L Experiments in Interactivity I Units: 4
- CTIN 544 Experiments in Interactivity II Units: 2 *
- CTPR 455 Survey of Production Design Units: 2
- CTPR 507 Production I Units: 4
- CTWR 518 Introduction to Interactive Writing Units: 2
- IML 501L Digital Media Authorship and the Archive Units: 4
- IML 502 Techniques of Information Visualization Units: 4
- IML 535 Tactical Media Strategies Units: 4
- IML 575 Graduate Media Arts Research Lab Units: 2, 3, 4

Note:

**Prerequisite required.*

***Courses not listed may satisfy this requirement with approval of the program chair.*

CTIN 593 Integrative Project

All students are required to complete a project that showcases their integrative mastery of prior and newly acquired knowledge, skills and interests in CTIN 593. It is recommended that preparatory work for this project begins with a directed research proposal in CTIN 590, but the student can begin work sooner. Students are permitted to complete collaborative integrative projects if they can successfully articulate a clear timeline, feasibility, individual contributions and an alternate plan for completion if the collaboration becomes unsustainable. Building upon prior art and research (e.g., MFA thesis projects, sponsored research) is highly recommended because the project will be graded on the merit and impact of the intervention as a whole (vs.

the aesthetic qualities or innovation of a standalone interactive artifact). Students need to form a committee of at least three members (USC faculty member, scientist or health professional, stakeholder). The criteria for successful completion will be set by the program director and the project committee advisers.

The following are examples of integrative projects:

(a) Design/development of an original creative intervention based on rigorous formative research, or

(b) Design adaptation of an existing intervention based on rigorous formative research, or

(c) Deployment and evaluation of an original or adapted intervention.

Grade Point Average Requirement

An overall GPA of at least 3.0 (A = 4.0) must be maintained in all USC course work toward the master's degree. A minimum grade of B (3.0) must be earned in all required courses. Students who do not achieve a grade of B (3.0) in the required courses after repeating these requirements will be disqualified from the program. The core courses as well as CTIN 593 cannot be waived or substituted with transfer credits under any circumstances.

Time Limit

Students must maintain satisfactory progress toward their master's degrees at all times. The degree must be completed five years from the first course at USC applied toward the Master of Arts degree. Course work more than seven years old is invalidated and will not be applied toward the degree. The degree director will review progress toward degree completion on an annual basis. Students who are not making satisfactory progress will be provided a remediation plan with required action deadlines.

Peer Mentoring Requirement

Students are required to provide six hours of peer and/or team mentoring per month to other students via advising, critique or skills workshops. Requests for mentoring will be submitted ad-hoc by students and faculty with a sign-up sheet.

Interactive Media (Games and Health) (MFA)

The Master of Fine Arts in Interactive Media with an emphasis in Games and Health is administered in conjunction with the Creative Media & Behavioral Health Center. The curriculum is based on center crosscutting initiatives that represent the broadest descriptions of our vision and mission. Students benefit from emerging research, tools and methodologies that converge at the center, as well as the wide range of backgrounds represented by faculty, students and visiting scholars. Research is prioritized based on a combination of factors, including potential impact and benefit to society, and overall alignment with center priorities. Some center initiatives include:

- **Sports and Exercise for Wellness:** investigation of novel assessment and treatment techniques using entertainment and technology for improvement of health outcomes related to obesity, nutrition and physical activity
- **Healthy Brain Architecture:** production and dissemination of innovative storytelling products toward promotion of healthy behavior for brain development and affect regulation during the entire human lifespan
- **Social and Sensorimotor Play:** investigation of novel assessment and treatment techniques using interactive play for improving social skills, visuospatial navigation and motor coordination in physical space
- **Games for Health:** promotion, development and assessment of innovative games with behavioral health applications
- **Storytelling for Mobile Health (mHealth):** mobile interactive entertainment with general health and wellness applications, or a specific chronic illness focus
- **The Future of Health Care:** re-imagining the patient/user/player experience within and beyond healthcare settings

This emphasis aims to provide specialized training and hands-on experience to enrolled MFA students toward design, development and evaluation of interactive entertainment for health and happiness. Students will obtain a broad perspective on theory, methods and practice through an intensive overview of core concepts of science with a lifespan perspective on brain development, lifelong resilience, wellness and illness. On a practical level, students will learn how to: (a) perform transdisciplinary formative research (e.g., literature reviews, prior art analyses) in order to establish background data and rationale for design and evaluation; (b) tailor intervention design and program design requirements to target population using transdisciplinary methodologies (e.g., ethnography, surveys, observation studies); (c) iteratively develop and/or adapt existing interventions focused on health and wellness in transdisciplinary team environments; (d) design and administer small studies for ecologically valid assessment of interventions (e.g., feasibility pilots, experimental designs, pilot clinical studies).

The degree requires 50 units.

Requirements for the MFA in Interactive Media (Games and Health)

Year One, First Semester

- CTIN 503 Interactive Entertainment, Science, and Healthcare Units: 2
- CTIN 534L Experiments in Interactivity I Units: 4
- CTIN 541 Design for Interactive Media Units: 4
- Technical Skill or Electives: 0 - 2 units

Total units: 8 - 12

Year One, Second Semester

- CTCS 505 Survey of Interactive Media Units: 2
- CTIN 510 Research Methods for Innovation, Engagement and Assessment Units: 2
- CTIN 544 Experiments in Interactivity II Units: 2
- CTIN 590 Directed Research Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 or
- IML 575 Graduate Media Arts Research Lab Units: 2, 3, 4
- CTWR 518 Introduction to Interactive Writing Units: 2

Total units: 10

Year Two, First Semester

- CTIN 532L Interactive Design and Production I Units: 4
- CTPR 506 Visual Expression Units: 2
- IML 543 Transdisciplinary Media Design Practicum Units: 4

Total units: 10

Year Two, Second Semester

- CTIN 542 Interactive Design and Production II Units: 2
- CTIN 548 Preparing the Interactive Project Units: 2
- CTIN 590 Directed Research Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 or
- IML 575 Graduate Media Arts Research Lab Units: 2, 3, 4

Technical Skill or Electives: 0 - 2 units

Total units: 8 - 10

Year Three, First Semester

- CTIN 594a Master's Thesis Units: 2

Electives: 2 - 4 units

Total units: 4 - 6

Year Three, Second Semester

- CTIN 594b Master's Thesis Units: 2

Electives: 2 - 4 units.

Total units: 4 - 6

Technical Skill

At least 2 units from the following:

- CTAN 443L Character Development for 3-D Animation and Games Units: 2
- CTIN 406L Sound Design for Games Units: 2
- CTIN 485 Advanced Game Development Units: 2
- CTIN 404L User Research for Games Units: 2
- CTIN 583 Game Development for Designers Units: 2

Electives*

At least 4 units from the following:

- CNTV 595 Professional Practicum Units: 1, 2, 4
- CTAN 452 Introduction to 3-D Computer Animation Units: 2 max 4
- CTAN 495 Visual Music Units: 2
- CTAN 525 Gesture Movement for Animation Units: 2
- CTIN 401L Interface Design for Games Units: 2
- CTIN 411 Tabletop Game Mechanics Seminar Units: 2
- CTIN 452L Themed Entertainment Design Units: 4 **
- CTIN 458 Business and Management of Games Units: 2
- CTIN 480 Directing for Games and Interactive Media Units: 2
- CTIN 482 Designing Social Games Units: 2
- CTIN 485 Advanced Game Development Units: 2 **
- CTIN 486 Alternative Control Workshop Units: 2
- CTIN 497 Interactive Media Startup Units: 1 max 2
- CTIN 499 Special Topics Units: 2, 3, 4
- CTIN 506 Procedural Expression Units: 2
- IML 500 The Praxis of Sonic and Visual Media Units: 4
- IML 501L Digital Media Authorship and the Archive Units: 4
- IML 502 Techniques of Information Visualization Units: 4
- IML 535 Tactical Media Strategies Units: 4

Notes:

**Courses not listed may satisfy this requirement with approval of the program chair.*

***Prerequisite required.*

Additional Requirements

Grade Point Average Requirement

An overall GPA of at least 3.0 (A = 4.0) must be maintained in all USC course work toward the master's degree.

A minimum grade of C (2.0) must be earned in all required courses. Students who do not achieve a grade of C (2.0) in the core courses CTIN 532, CTIN 534, CTIN 542 and CTIN 544 after repeating these requirements will be disqualified from the program. The core courses as well as CTIN 594a, CTIN 594b cannot be waived or substituted with transfer credits under any circumstances.

Time Limit

Students must maintain satisfactory progress toward their master's degrees at all times. The degree must be completed three years from the first course at USC applied toward the Master of Fine Arts degree. Course work more than seven years old is invalidated and will not be applied toward the degree.

Graduate Review

One year prior to graduation, students are required to file MFA forms for a curriculum and graduation review. Contact the Interactive Media Program Office for forms.

Interactive Media (MFA)

The Interactive Media Division offers a Master of Fine Arts in Interactive Media as well as a number of courses in computer-based entertainment for non-majors. The fundamental philosophy of the division is coherent with that of the programs of the school, stressing creativity of expression, experimentation and excellence in execution.

The MFA in Interactive Media is a three-year intensive program that requires 50 units of which 26 are requirements and 24 are electives chosen from a number of core area groupings. Students must take at least 6 units of expression studios, studying a breadth of skills involved in creating Interactive Media, at least 2 units of professionalization electives, 2 units of electives building technical skills and another 6 units of electives crafting a specialization in the field. Eight units of electives are totally open for exploration across the university. Two-thirds of the total units applied to the degree must be taken at the 500-level, so at least 12 500-level elective units must be taken. Students are expected to engage in an internship or professional work environment during the summer following their second semester. Students are required to complete an advanced interactive project which they design and produce in CTIN 594a and CTIN 594b Master's Thesis.

Computer and digital production facilities for the program are provided by the school. However, students should budget additional funds for incidental expenses for intermediate and advanced projects. Cost will vary depending on the scope of a student's project. For the first-year production course, approximately $1,000 will be needed for miscellaneous costs, lab and insurance fees.

The program is intended to prepare students for creative careers in the emerging field of interactive entertainment. While the program does not require advanced computer capabilities, familiarity and comfort with computer-based authoring and production/post-production tools is recommended.

The creation of interactive media requires a combination of skills from the traditional media of film and television as well as a deep understanding of the effects of interactivity upon the quality of experience. Therefore, we emphasize and encourage collaboration with students in other Cinematic Arts programs.

Approximately 15 students are admitted in the fall semester (there are no spring admissions).

Applicants for the MFA in Interactive Media must submit a supplemental application and materials to the Interactive Media Program. For specific instructions contact the Cinematic Arts Office of Admission, University Park, Los Angeles, CA 90089-2211, (213) 740-2911 or online at *cinema.usc.edu.*

Requirements for the MFA in Interactive Media

Year One, First Semester

- CTIN 534L Experiments in Interactivity I Units: 4
- CTIN 541 Design for Interactive Media Units: 4

Expression Studio - 2 units
Electives - 2 units

Total units: 12

Year One, Second Semester

- CNTV 530 Cinematic Ethics Units: 1
- CTCS 505 Survey of Interactive Media Units: 2
- CTIN 544 Experiments in Interactivity II Units: 2

Expression Studio - 2 units
Technical Skill - 2 units
Electives - 0 to 2 units

Total units: 10 - 12

Year Two, First Semester

- CTIN 532L Interactive Design and Production I Units: 4

Expression Studio - 2 units
Electives - 4 to 6 units

Total Units: 10 - 12

Year Two, Second Semester

- CTIN 542 Interactive Design and Production II Units: 2
- CTIN 548 Preparing the Interactive Project Units: 2

Professionalization/Specialization/Electives - 4 to 6 units

Total units: 8 -10

Year Three, First Semester

- CTIN 594a Master's Thesis Units: 2

Specialization - 2 to 4 units

Total units: 4 - 6

Year Three, Second Semester

- CTIN 594b Master's Thesis Units: 2

Specialization - 2 to 4 units

Total units: 4 - 6

Expression Studio

At least 6 units from the following list:

- CTAN 443L Character Development for 3-D Animation and Games Units: 2 *
- CTIN 444 Audio Expression Units: 2
- CTIN 503 Interactive Entertainment, Science, and Healthcare Units: 2

- CTIN 506 Procedural Expression Units: 2
- CTPR 506 Visual Expression Units: 2 *
- CTWR 518 Introduction to Interactive Writing Units: 2

Note:

*Prerequisite required.

Specialization

At least 6 units from the following list:

- CMGT 537 The Industry, Science and Culture of Video Games Units: 4
- CSCI 426 Game Prototyping Units: 4
- CSCI 561 Foundations of Artificial Intelligence Units: 4
- CTAN 564L Motion Capture Fundamentals Units: 2 *
- CTCS 482 Transmedia Entertainment Units: 4
- CTIN 480 Directing for Games and Interactive Media Units: 2
- CTIN 481 Augmenting Reality: Worldbuilding for Games and Spaces Units: 2 2
- CTIN 482 Designing Social Games Units: 2
- CTIN 492L Experimental Game Topics Units: 4
- CTWR 410L Character Development and Storytelling for Games Units: 4
- CTWR 526 Advanced Storytelling for Interactive Media Units: 2 *
- SCOR 405 Introduction to Scoring Video Games Units: 2

Note:

*Prerequisite required.

**Course requires an undergraduate prerequisite, which may be waived for students with appropriate experience.

Technical Skill

At least 2 units from the following list:

- CTIN 401L Interface Design for Games Units: 2
- CTIN 404L User Research for Games Units: 2
- CTIN 406L Sound Design for Games Units: 2
- CTIN 485 Advanced Game Development Units: 2
- CTIN 583 Game Development for Designers Units: 2
- ITP 415 3-D Design and Prototyping Units: 2

Note:

*Prerequisite required.

Professionalization

At least 2 units from the following list:

- CNTV 595 Professional Practicum Units: 1, 2, 4
- CTIN 458 Business and Management of Games Units: 2
- CTIN 497 Interactive Media Startup Units: 1
- CTIN 510 Research Methods for Innovation, Engagement and Assessment Units: 2
- CTIN 411 Tabletop Game Mechanics Seminar Units: 2

Additional Requirements

Thesis Project

In order to begin work on the thesis/advanced project, students must first successfully propose their project to a committee of MFA interactive media program faculty. The proposal is prepared during the second year of study in CTIN 548 Preparing the Interactive Project and is submitted at the end of the second year. The proposal itself will include a written treatment of the project with a discussion of similar work in the field and its relationship to the proposed project. It will describe aesthetic issues to be explored and specific techniques to be employed in its realization. It will also include a project visualization, design macro, risk assessment and a polished piece of the experience, equivalent to the milestones associated with the end of the pre production period. The faculty committee will make comments and decide whether the student may go forward with his or her project. Upon acceptance, the student will begin production work on the project, otherwise revising the proposal and meeting again with the committee.

In the third and final year, students concentrate on their thesis projects in CTIN 594a and CTIN 594b Master's Thesis, completing production and post-production. A final review will take place in the second semester of the third year. The committee will meet and the student must show and defend the work. The student does not need to submit a thesis paper in conjunction with this project, though students interested in doing so may take CTIN 510 and prepare a paper for academic publication.

Criteria for successful completion include: 50 percent originality and 50 percent quality of execution.

Internship

Though the Internship class is not required, the division requires all MFA students to do work at an internship or in a professional context while enrolled in the program. The graduate adviser will work with each student to find an appropriate work environment and certify the student's completion thereof.

Grade Point Average Requirement

An overall GPA of at least 3.0 (A = 4.0) must be maintained in all USC course work toward the master's degree.

A minimum grade of C (2.0) must be earned in all required courses. Students who do not achieve a grade of C (2.0) in the core courses CTIN 532L, CTIN 534L, CTIN 542 and CTIN 544 after repeating these requirements will be disqualified from the program. Two-thirds of the non thesis units applied to the degree must be taken at the 500 level or above. The core courses as well as CTIN 594a and CTIN 594b cannot be waived or substituted with transfer credits under any circumstances.

Time Limit

Students must maintain satisfactory progress toward their master's degrees at all times. The degree must be completed three years from the first course at USC applied toward the Master of Fine Arts degree. Course work more than seven years old is invalidated and will not be applied toward the degree.

Graduate Review

One year prior to graduation, students are required to file MFA forms for a curriculum and graduation review. Contact the Interactive Media Program Office for forms.

Media Arts + Practice

Media Arts + Practice (MA+P) is an interdisciplinary digital storytelling and media design program combining the study of contemporary digital media with hands-on production and research. The program offers a rigorous and creative environment for scholarly innovation as students explore the intersections of cinema, art, design, emerging media and critical thinking while defining new forms of cinematic experience for the 21st century.

Bachelor's Degree

Media Arts and Practice (BA)*

The Bachelor of Arts in Media Arts and Practice offers a robust curriculum centered on the history, theory and practice of digital media in creative and scholarly contexts. Students will study the evolution of media in concert with new cinematic technologies, from the work of early innovators such as Laszlo Moholy-Nagy, through the pioneering experiments in information theory embodied by thinkers such as Claude Shannon, Norbert Wiener and Vannevar Bush, and on to the experiments of artists and designers working with interactivity, immersion, stereoscopy and performance for over a century. Students will also learn how to understand the relationship among media forms, emerging technologies and culture, and how to author in diverse media platforms for both critical and creative practice. The media arts and practice major is ideal for students who are interested in the expanded array of cinematic technologies that can be used for the creative and critical expression of ideas, as well as those who want to develop skills in visual communication for use in diverse fields.

Information about courses and other program offerings can be obtained by emailing the Media Arts and Practice program at map@cinema.usc.edu.

General Education Requirements

The university's general education program provides a coherent, integrated introduction to the breadth of knowledge you will need to consider yourself (and to be considered by other people) a generally well-educated person. This program is effective for all students entering USC in fall 2015 or later, or transfer students beginning college elsewhere at that time and subsequently transferring to USC. It requires eight courses in six Core Literacies, plus two courses in Global Perspectives (which may double-count with courses in the Core Literacies) and two courses in writing. See the General Education Program for more information.

Program Requirements

A total of 66 units is required to complete the major. All courses must be taken for a letter grade.

Core Studio Courses

- CNTV 101 Reality Starts Here Units: 2
- CTCS 150gw Visions of Diversity in the Cinematic Arts Units: 4
- IML 201 The Languages of Digital Media Units: 4
- IML 202 Media Arts and Practice Studio I Units: 4
- IML 203 Media Arts and Practice Studio II Units: 4
- IML 295Lm Race, Class and Gender in Digital Culture Units: 4
- IML 310 Professionalism for Media Arts Units: 2
- IML 346 Methods in Digital Research Units: 2
- IML 440 Thesis Project Units: 4
- IML 466 Digital Studies Symposium Units: 2

Platform-Specific Courses

- IML 230 Fundamentals of Media Design Units: 4
- IML 288 Critical Thinking and Procedural Media Units: 4
- IML 300 Reading and Writing the Web Units: 4
- IML 328 Sonic Media Art Units: 2
- IML 335 Digital Narrative Design I Units: 2
- IML 354 Introduction to 3-D Modeling Units: 2

Choose 8 units from the following courses:

- IML 400 Creative Coding for the Web Units: 4
- IML 404 Tangible and Spatial Computing Units: 4
- IML 428 Exploring and Creating Sonic Environments Units: 4
- IML 430 Visual Communication and Experience Design Units: 4
- IML 435 Digital Narrative Design II Units: 4
- IML 436 Hypercinemas Studio Units: 4
- IML 454 Advanced Techniques of Spatial Representation Units: 4
- IML 481 Mixed Realities: Histories, Theories and Practices Units: 4

Media Arts Electives

This requirement allows students to expand their inquiry into media arts as a discipline. Choose 8 units from the following courses:

- IML 309 Integrative Design for Mobile Devices Units: 4
- IML 320 Designing and Writing for Transmedia Narratives Units: 4
- IML 340 Remixing the Archive Units: 4
- IML 365 Future Cinema Units: 4
- IML 385 Design Fiction and Speculative Futures Units: 4
- IML 419 Emotion in Digital Culture Units: 4
- IML 420m New Media for Social Change Units: 4
- IML 422 Information Visualization Units: 4
- IML 450 Critical Play and Documentary Games Units: 4
- IML 456 Nature, Design and Media Units: 2
- IML 458 The Embedded Story: Designing Digital Landscapes and Languages Units: 2
- IML 475 Media Arts Research Lab Units: 2, 3, 4
- IML 477 Embodied Storytelling and Immersive Docu-Narratives Units: 4
- IML 499 Special Topics Units: 2, 3, 4

Additional Requirements

Thesis Sequence

The media arts and practice major culminates in a digital thesis project that students research, develop and construct during their senior year. These projects will engage a key issue faced by contemporary media arts practitioners and will represent the convergence of conceptual excellence and digital innovation.

Grade Point Average Requirements

A minimum grade of C (2.0) must be earned in all required and prerequisite courses. A grade of C- (1.7) or lower will not satisfy a major requirement.

Curriculum Review

Media arts and practice majors are expected to meet with an academic adviser every semester to review their progress. Contact the Media Arts and Practice program at map@cinema.usc.edu for an appointment.

Graduate Certificate

Digital Media and Culture Graduate Certificate

Contemporary scholarship is undergoing profound shifts as new technologies alter how scholars interact, conduct research, author and visualize their work, as well as how they teach. The certificate program in digital media and culture explores the shifting nature of scholarly expression, pedagogical practice and research in the 21st century, combining seminars with hands-on, lab-based workshops in order to facilitate sophisticated critical thinking and practice in and through multimedia.

Open to graduate students interested in emerging modes of creative, networked and media-rich scholarship, the program seeks to provide participants with a sophisticated conceptual framework for considering the emerging landscape of scholarship in the digital age, as well as a broad overview of contemporary scholarly multimedia as it intersects with media art, information design, interactive media and communication studies.

Program Requirements

A total of 12 units is required to complete the graduate certificate.

Introductory Courses

Choose one of the following courses:

- IML 500 The Praxis of Sonic and Visual Media Units: 4
- IML 501L Digital Media Authorship and the Archive Units: 4

Elective Courses

Choose 8 units from the following courses:

- IML 502 Techniques of Information Visualization Units: 4
- IML 520 Non-Fiction Cinematic Practice I Units: 2
- IML 521 Non-Fiction Cinematic Practice II Units: 2
- IML 535 Tactical Media Strategies Units: 4
- IML 543 Transdisciplinary Media Design Practicum Units: 4
- IML 555 Digital Pedagogies Units: 4
- IML 575 Graduate Media Arts Research Lab Units: 2, 3, 4
- IML 585 Creative Critical Writing Workshop Units: 2
- IML 590 Directed Research Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12
- IML 599 Special Topics Units: 2, 3, 4
- IML 605 Cinema to Post-Cinema and Beyond: History, Theory, Practice Units: 4

Doctoral Degree

Cinematic Arts (Media Arts and Practice) (PhD)

The PhD in Media Arts and Practice program offers a rigorous and creative environment for scholarly innovation as students explore the intersection of design, media and critical thinking while defining new modes of research and scholarship for the 21st century. Core to the program is its transdisciplinary ethos; after completing foundational course work, students design their own curricula, drawing on expertise across all divisions and research labs within the School of Cinematic Arts.

Admission

A bachelor's or master's degree in media arts, or a closely related field, is required for admission to the PhD program. In addition to submitting an application to USC Graduate Admissions, applicants for the PhD must submit the supplemental application and materials to the Media Arts and Practice Division. For specific instructions, contact the School of Cinematic Arts Office of Admission, University Park, Los Angeles, CA 90089-2211, (213) 840-8358, or online at cinema.usc.edu/imap.

Course Requirements

Each PhD candidate must complete 64 units beyond the bachelor's degree, exclusive of IML 794a, IML 794b, IML 794c, IML 794d, IML 794z. (Up to 28 units may be transferred from graduate work completed at other institutions.) At least two-thirds of the units applied towards the degree (including transfer work and not including IML 794a, IML 794b, IML 794c, IML 794d, IML 794z) must be at the 500 level or higher. The required units will include 8 to 16 units in a minor area. The minor will be chosen by the student in close consultation with the adviser and will be in an academic field that supports the student's dissertation topic and project. Each student must complete the following course work:

1. IML 600 4, IML 601 4, IML 602 4, IML 603 1, IML 604 4, IML 605 4. These courses should be taken before the screening procedure.
2. At least 8 units in theory based course work within Cinematic Arts.
3. At least 14 units in practice-based course work within Cinematic Arts. Courses outside of Cinematic Arts will be considered for approval by the student's adviser. The above courses should be taken before the qualifying exam.
4. At least 4, but no more than 8 units of IML 794a 2, IML 794b 2, IML 794c 2, IML 794d 2, IML 794z 0.

Screening Procedure

The Graduate School requires that programs administer an examination or other procedure at a predetermined point in the student's studies as a prerequisite to continuation in the doctoral program. The screening procedure in the School of Cinematic Arts is designed to review the student's suitability for continuing in the chosen PhD program. Two separate screening procedures will measure a student's progress at two points in their work toward the degree. The first screening will occur no later than the end of the student's third semester of graduate course work beyond the master's degree or after 46 units of graduate work beyond the bachelor's degree. The second screening will occur no earlier than one-half of a semester following the first screening. The screening procedure process will include the following steps:

1. **First screening.** Prior to the first screening, the student will select a faculty adviser and formulate a provisional course of study. At the first screening, the student will be interviewed and his or her progress in the program will be reviewed by the faculty to determine if the student will be approved for additional course work. Following a successful first screening, the student, in consultation with the faculty adviser, will formally establish a five-member qualifying exam committee. The composition of the qualifying exam committee will be as specified by the Graduate School. For the PhD in Cinematic Arts (Media Arts and Practice), the committee is ordinarily composed of five faculty members with familiarity with the Media Arts and Practice program.
2. **Second screening.** Working closely with the faculty adviser, the student will prepare to present his or her qualifying exam fields and associated bibliographies and mediographies as well as a dissertation project proposal, to a subcommittee of Media Arts and Practice faculty. This will be a formal written proposal detailing the proposed topic, three fields for examination derived from the general dissertation topic area. Formal presentation of the dissertation project proposal will occur no later than the end of the semester prior to taking the qualifying examinations. The qualifying exam committee must approve the dissertation topic.

Qualifying Exam Committee

Following a successful screening procedure, the student, in consultation with the qualifying exam committee chair and the Media Arts and Practice faculty, will formally establish a five-member qualifying exam committee. The composition of the qualifying exam committee will be as specified by the Graduate School. For the PhD in Cinematic Arts (Media Arts and Practice), the committee is ordinarily composed of four cinematic arts faculty members and an outside member from the candidate's minor area.

Foreign Language Requirement

The Cinematic Arts faculty will advise each student as to whether or not a foreign language is required. This requirement is determined by the student's dissertation topic. The requirement must be met at least 60 days before the qualifying examination.

Qualifying Examinations

Written and oral examinations for the PhD are given twice a year, generally in November and April. Questions for the written portion of the examination will be drafted by members of the qualifying exam committee who will also assess the examination. The qualifying examination comprises three examinations administered one day each for three days over a five-day period. The oral examination will be scheduled within 30 days after the written examination. All qualifying exam committee members must be present for the oral portion of the qualifying examination.

Admission to Candidacy

A student is eligible for admission to candidacy for a PhD degree after: (1) passing the second screening procedure; (2) presenting the dissertation proposal and having it approved; (3) satisfying the language requirement, if applicable, (4) completing at least 24 units in residence; and (5) passing the written and oral portions of the qualifying examination. Admission to candidacy is by action of the Associate Vice Provost for Graduate Programs.

Dissertation Committee

The dissertation committee is composed as specified by regulations of the Graduate School. A dissertation project based on original investigation and showing technical mastery of a special field, capacity of research and scholarly ability must be submitted.

IML 794

Registration for dissertation units, IML 794a IML 794b, in the two semesters following admission to candidacy is the minimum requirement. These units cannot be applied towards the required 64 unit total. The student must register for IML 794a, IML 794b, IML 794c, IML 794d, IML 794z each semester after admission to candidacy until the degree requirements are completed. No more than 8 units of credit can be earned in IML 794a, IML 794b, IML 794c, IML 794d, IML 794z.

Defense of Dissertation

An oral defense of the dissertation is required of each PhD candidate. The dissertation committee will decide whether the examination is to take place after completion of the preliminary draft or the final draft of the dissertation. The oral defense must be passed at least one week before graduation.

Policies

The following policies apply to each student admitted to the PhD program.

Residency Requirements

At least one year of full-time graduate study (24 units excluding registration for IML 794a, IML 794b, IML 794c, IML 794d, IML 794z) must be completed in residence on the main USC campus. The residency requirement may not be interrupted by study elsewhere. Residency must be completed prior to the qualifying examination.

Grade Point Average

An overall GPA of 3.0 is required for all graduate work. Courses in which a grade of C- (1.7) or lower is earned will not apply toward a graduate degree.

Leave of Absence

A leave of absence may be granted under exceptional circumstances by petitioning the Graduate School the semester before the leave is to be taken.

Change of Committee

Changes to either the qualifying exam or dissertation committee must be requested on a form available from the Graduate School.

Completion of All Requirements

Everything involved in approving the dissertation must be completed at least one week before graduation. Approval by the dissertation committee, the Office of Academic Records and Registrar, and the thesis editor must be reported on the triple card and submitted to the Graduate School by the date of graduation.

Time Limits

The maximum time limit for completing all requirements for the PhD degree is eight years from the first course at USC applied toward the degree. Students who have completed an applicable master's degree at USC or elsewhere within five years from the proposed enrollment in a PhD program must complete the PhD in six years. Extension of these time limits will be made only for compelling reasons upon petition by the student.

When petitions are granted, students will be required to make additional IML 794a IML 794b IML 794c IML 794d IML 794z registrations. Course work more than 10 years old is automatically invalidated and cannot be applied toward the degree.

The Peter Stark Producing Program

Master's Degree

Producing for Film, Television, and New Media (MFA)

The Peter Stark Producing Program is a two-year (four semester) full-time graduate program.

Approximately 24 Peter Stark Program students are enrolled each fall (there are no spring admissions). The curriculum places equal emphasis on the creative and the managerial, to enhance and develop artistic skills and judgment while providing a sound background in business essentials. Each course is continually updated to ensure that the Stark program remains responsive to the needs of our students and the ever-changing film, television and new media landscape, and prepare students for careers as creative decision-makers in those fields.

A minimum of 44 units of 500-level courses is required for the Peter Stark Producing Program leading to the MFA degree. There are no electives; all Stark students take the same classes at the same time in a mandated sequence. In CMPP 541a and CMPP 541b, first-year students get hands-on filmmaking experience, working on collaborative projects in different roles. Projects are shot and edited digitally. Equipment is provided by the school.

The thesis completion requirement is a detailed plan for a film, documentary, television or webseries project comprising a developed script and notes for improvement, a schedule, budget assumptions and a marketing/distribution plan.

Industry experience is an essential component of the Peter Stark Program academic experience; it enhances both their course work and thesis research project. To facilitate as much industry experience as possible, the program endeavors to leave two free days in the students' first year course schedule, and holds all second-year classes in the evening. The Peter Stark Program requires 2,800 hours of entertainment industry internships or work experience over the two-year program, including in the summer semester between the first and second year. Students look for internships, per their own interests. In addition, though the Stark Program cannot guarantee it can procure internships, it does ongoing semester-by-semester internship advocacy for the students at many companies including studios, networks, production companies, and agencies. The Stark Program grants exceptions to the internship/work experience requirement on a case-by-case basis for other equivalent forms of industry experience that may better fit a student's individual career goals – producing projects for film, television or new media, writing or developing screenplays – as long as the student completes at least one internship. At all times, students must attend all classes and maintain a minimum 3.0 GPA.

During the second year, Peter Stark Producing Program students have an opportunity to initiate and produce a 20-minute short film financed by the program. Projects are selected on a competitive basis. Films must be produced by a Stark student or team of two Stark students. Each team has a professional adviser available as needed.

Inquiries regarding the program should be addressed to: The Peter Stark Program, USC School of Cinematic Arts, University Park, Los Angeles, CA 90089-2211. Telephone (213) 740-3304 or email *pstark@cinema.usc.edu*.

Two-Year Requirements for the MFA in Producing for Film, Television, and New Media

Year One, First Semester

- CMPP 541a Producing Workshop Units: 4
- CMPP 548 Introduction to Producing for Television Units: 2
- CMPP 550 Script Analysis for the Producer Units: 2
- CMPP 563 Producing Symposium Units: 1
- CMPP 589a Graduate Film Business Seminar Units: 3

Total units: 12

Year One, Second Semester

- CMPP 541b Producing Workshop Units: 4
- CMPP 560 Script Development Units: 2
- CMPP 568 Producing for Television Units: 2
- CMPP 589b Graduate Film Business Seminar Units: 4

Total units: 12

Year Two, First Semester

- CMPP 561 Motion Picture and Television Marketing Units: 2
- CMPP 565 Scheduling and Budgeting Units: 4
- CMPP 566 Finance Units: 2
- CMPP 571 Producing the Screenplay Units: 2

Total units: 10

Year Two, Second Semester

- CMPP 564 Digital Media and Entertainment Units: 2
- CMPP 569 Seminar on Non-Mainstream Producing Units: 2
- CMPP 570 Advanced Television Units: 2
- CMPP 592 Individual Project Seminar Units: 4

Total units: 10

Grade Point Average Requirement

An overall GPA of 3.0 (A = 4.0) is required for graduation. Courses in which a grade of C- (1.7) or lower is earned will not apply toward a graduate course. A grade of C-, D or F in any course may be cause for termination.

Time Limit

Students must maintain satisfactory progress toward their master's degrees at all times. The degree must be completed three years after the beginning of graduate work at USC.

The John Wells Division of Writing for Screen and Television

Bachelor's Degree

Writing for Screen and Television (BFA)

The Bachelor of Fine Arts in Writing for Screen and Television is a unique, four-year program for students who seek intensive professional preparation for a career in screen and television writing. This rigorous program emphasizes small, workshop-style classes, and attracts students from all over the world. Students attend a variety of guest speaker presentations, take high-level industry internships, are provided with mentors and taught by world-class professors.

Each fall, a class of 30 undergraduate writing students is selected to begin the program. A total of 128 units is required for completion of the Bachelor of Fine Arts degree; 70 of these units are taken in a prescribed sequential order. There are no spring admissions.

Applicants must submit supplemental application and materials to the program office. For specific instructions, contact The John Wells Division of Writing for Screen and Television, University Park, Los Angeles, CA 90089-2211 or telephone (213) 740-3303, or online at cinema.usc.edu.

General Education Requirements

The university's general education program provides a coherent, integrated introduction to the breadth of knowledge you will need to consider yourself (and to be considered by other people) a generally well-educated person. This program is effective for all students entering USC in fall 2015 or later, or transfer students beginning college elsewhere at that time and subsequently transferring to USC. It requires eight courses in six Core Literacies, plus two courses in Global Perspectives (which may double-count with courses in the Core Literacies) and two courses in writing. For more information about USC's general education requirements, see General Education.

Required Production Courses

Undergraduate writing students are required to take CTPR 290 Cinematic Communication. This introductory production course is taken during the sophomore year.

CTPR 290 introduces the interrelationship of visuals, sound and editing in cinematic communication. Students participate in directing and producing workshops as well as individual and group projects. Approximately $1,000 should be budgeted for miscellaneous expenses, lab and insurance fees.

Four-Year Major Requirements (70 units)

Year One, First Semester

- CNTV 101 Reality Starts Here Units: 2
- CTCS 190g Introduction to Cinema Units: 4
- CTPR 409 Practicum in Television Production Units: 1, 2, 4
- CTWR 100g Story: Character, Conflict, and Catharsis Units: 4

Total units: 12

Year One, Second Semester

- CTCS 150gw Visions of Diversity in the Cinematic Arts Units: 4
- CTCS 191 Introduction to Television and Video Units: 4 or
- CTCS 192gm Race, Class, and Gender in American Film Units: 4 or
- CTCS 201 History of the International Cinema II Units: 4
- CTWR 250 Breaking the Story Units: 2
- CTWR 321 Introduction to Hour-Long Television Writing Units: 2

Total units: 12

Year Two, First Semester

- CTPR 290 Cinematic Communication Units: 4, 6 (6 units only)
- CTWR 206a Writing the Screenplay Units: 4
- CTWR 416 Motion Picture Script Analysis Units: 2

Total units: 12

Year Two, Second Semester

- CTWR 206b Writing the Screenplay Units: 4
- CTWR 411 Television Script Analysis Units: 2
- CTWR 421 Writing the Hour-Long Dramatic Series Units: 2 or
- CTWR 434 Writing the Half-Hour Comedy Series Units: 2

Total units: 8

Year Three, First Semester

- CTWR 305 Advanced Screenwriting: The Relationship Screenplay Units: 4
- CTWR 437 Writing the Original Situation Comedy Pilot Units: 4 or
- CTWR 439 Writing the Original Dramatic Series Pilot Units: 4

Total units: 8

Year Three, Second Semester

- CTWR 449 Rewriting the Original Dramatic Series Pilot Units: 4
  or
- CTWR 453 Advanced Feature Rewriting Units: 4
- CTCS 403 Studies in National and Regional Media Units: 4
  or
- CTCS 407 African American Cinema Units: 4 or
- CTCS 411 Film, Television and Cultural Studies Units: 4 or
- CTCS 412 Gender, Sexuality and Media Units: 4 or
- CTCS 414 Latina/o Screen Cultures Units: 4 or
- CTCS 417 African American Television Units: 4 or
- CTCS 464 Film and/or Television Genres Units: 4 or
- CTCS 469 Film and/or Television Style Analysis Units: 4

Total units: 8

Year Four, First Semester

- CTWR 418a Senior Thesis Units: 4 or
- CTWR 419a Senior Thesis in Dramatic Television Units: 4 or
- CTWR 420a Senior Thesis in Half-Hour Television Comedy Units: 4

Total units: 4

Year Four, Second Semester

- CTWR 418b Senior Thesis Units: 4 or
- CTWR 419b Senior Thesis in Dramatic Television Units: 4 or
- CTWR 420b Senior Thesis in Half-Hour Television Comedy Units: 4
- CTWR 459a Entertainment Industry Seminar Units: 2

Total units: 6

Electives

Suggested electives in Cinematic Arts include:

- CTWR 404 Foundations of Comedy Units: 2
- CTWR 407 Creating the Comedic Character Units: 2
- CTWR 410L Character Development and Storytelling for Games Units: 4
- CTWR 417 Script Coverage and Story Analysis Units: 2
- CTWR 422 Creating the Dramatic Television Series Units: 2
- CTWR 430 Comedy Writers and Their Work Units: 2
- CTWR 431 Screenwriters and Their Work Units: 2 max 6
- CTWR 432 Television Writers and Their Work Units: 2 max 6
- CTWR 433 Adaptations: Transferring Existing Work to the Screen Units: 2
- CTWR 435 Writing for Film and Television Genres Units: 2, 3, 4 max 8
- CTWR 437 Writing the Original Situation Comedy Pilot Units: 4 max 8
- CTWR 438 Linked Narrative Storytelling for the Web Units: 2, 4

- CTWR 439 Writing the Original Dramatic Series Pilot Units: 4 max 8
- CTWR 449 Rewriting the Original Dramatic Series Pilot Units: 4 max 8
- CTWR 468 Screenwriting in Collaboration Units: 4 max 8
- CTWR 477 Staff Writing the Sketch Comedy Show Units: 2 max 6
- CTWR 487 Staff Writing the Multi-Camera Television Series Units: 4 max 8
- CTWR 497 Staff Writing the Single-Camera Half-Hour Series Units: 4 max 8
- CTWR 499 Special Topics Units: 2, 3, 4 max 8

Grade Point Average Requirements

A minimum grade of C (2.0) must be earned in all required and prerequisite courses (a grade of C- (1.7) or lower will not fulfill a major requirement).

Master's Degree

Writing for Screen and Television (MFA)

The Master of Fine Arts degree in Writing for Screen and Television, is an intensive two-year degree program that concentrates on writing for narrative film and television. During the course of their studies, students benefit from a wide array of internship and mentorship opportunities available as a result of the university's close links to the Los Angeles film industry's top screenwriters, directors, production companies and studios.

Course work includes practical instruction in everything a working writer needs to learn about the filmmaker's art and craft. Writing is taught in small workshop-style classes. The approach focuses on the visual tools of storytelling, developing stories from characters and then on an Aristotelian three act structure. Fractured narratives, ensemble stories, experiments with time and points of view, as well as other idiosyncratic styles of storytelling, are also addressed. The curriculum covers other professional concerns, including legal issues, agents and the Writer's Guild, as well as the history and analysis of cinema and television. Classes are taught by working writers with a wide variety of skills, experience and approaches.

Each fall 32 students are selected to begin the Graduate Writing for Screen and Television Program; there are no spring admissions. Applicants must submit a supplemental application and materials to the Graduate Writing for Screen and Television Program. For specific instructions, contact the Cinematic Arts Office of Admission, University Park, Los Angeles, CA 90089-2211, (213) 740-8358 or online at *cinema.usc.edu*.

A total of 44 units is required. A minimum of 30 units must be 500-level or above.

Required Courses (34 units)

Year One, First Semester

- CTWR 502 Graduate Writing Symposium Units: 1
- CTWR 513 Writing the Short Script Units: 2
- CTWR 514a Basic Dramatic Screenwriting Units: 2
- CTWR 521 Advanced Hour-Long Television Drama Units: 2 or
- CTWR 534 Advanced Half-Hour Television Comedy Units: 2
- CTWR 572 Practicum in Directing Actors for Film Units: 2 or 4

Total units: 9

Year One, Second Semester

- CTWR 514b Basic Dramatic Screenwriting Units: 2
- CTWR 516 Advanced Motion Picture Script Analysis Units: 2
- CTWR 537 Advanced Half-Hour Comedy Series Pilot Units: 4 or
- CTWR 539 Advanced Hour-Long Drama Series Pilot Units: 4
- CNTV 530 Cinematic Ethics Units: 1

Total units: 9

Year Two, First Semester

- CTWR 515a Practicum in Screenwriting Units: 4 or
- CTWR 517a Thesis in Half-Hour Television Comedy Units: 4 or
- CTWR 519a Thesis in Television Drama Units: 4
- CTWR 559 The Business of Writing for Screen and Television Units: 2

Total units: 6

Year Two, Second Semester

- CTWR 515b Practicum in Screenwriting Units: 4 or
- CTWR 517b Thesis in Half-Hour Television Comedy Units: 4 or
- CTWR 519b Thesis in Television Drama Units: 4

Total units: 4

Note:

A minimum of 2 units of course work with a production component is required.

Courses with a Production Component (2 Units)

- CTWR 438 Linked Narrative Storytelling for the Web Units: 2, 4
- CTWR 477 Staff Writing the Sketch Comedy Show Units: 2
- CTWR 487 Staff Writing the Multi-Camera Television Series Units: 4
- CTWR 497 Staff Writing the Single-Camera Half-Hour Series Units: 4
- CTAN 448 Introduction to Film Graphics — Animation Units: 4
- CTIN 501 Interactive Cinema Units: 2
- CTPR 476 Directing The Comedic Scene Units: 2
- CTPR 479 Straight to Series: Development of Episodic TV Drama Units: 2
- CTPR 484 Advanced Multi-Camera Television Workshop Units: 4
- CTPR 504 Fundamentals of Production Units: 4
- CTPR 507 Production I Units: 4

Note:

A minimum of 4 units of cinema and media studies course work is required.

CTCS Courses (4 Units)

- CTCS 417 African American Television Units: 4
- CTCS 464 Film and/or Television Genres Units: 4
- CTCS 469 Film and/or Television Style Analysis Units: 4
- CTCS 501 World Cinema Before 1945 Units: 2
- CTCS 502 World Cinema After 1945 Units: 2
- CTCS 503 Survey History of the United States Sound Film Units: 2
- CTCS 504 Survey of Television History Units: 2
- CTCS 505 Survey of Interactive Media Units: 2
- CTCS 510 Case Studies in National Media and/or Regional Media Units: 4 max 12
- CTCS 511 Seminar: Non-Fiction Film/Video Units: 4
- CTCS 518 Seminar: Avant-Garde Film/Video Units: 4
- CTCS 564 Seminar in Film and Television Genres Units: 4
- CTCS 569 Seminar in Film and Television Authors Units: 4
- CTCS 587 Seminar in Television Theory Units: 4

Electives (10 units)

Students may choose from the following electives to complete their degree. Additional courses beyond the required 4 units of CTCS course work, from the cinema and media studies list of courses, may be taken as electives, as can additional courses from the list of courses with a production component. Electives outside of cinematic arts are available with departmental approval.

Electives

- CTWR 404 Foundations of Comedy Units: 2
- CTWR 407 Creating the Comedic Character Units: 2
- CTWR 411 Television Script Analysis Units: 2
- CTWR 417 Script Coverage and Story Analysis Units: 2

- CTWR 430 Comedy Writers and Their Work Units: 2
- CTWR 431 Screenwriters and Their Work Units: 2 max 6
- CTWR 432 Television Writers and Their Work Units: 2 max 6
- CTWR 499 Special Topics Units: 2, 3, 4 max 8
- CTWR 518 Introduction to Interactive Writing Units: 2
- CTWR 526 Advanced Storytelling for Interactive Media Units: 2
- CTWR 541 Dreams, the Brain, and Storytelling Units: 2
- CTWR 555 Pitching for Film and Television Units: 2
- CTWR 557 Seminar in the Business of Writing and Producing Television Units: 2
- CTWR 560 Advanced Business Practices for Writers Units: 2
- CTWR 599 Special Topics Units: 2, 3, 4 max 8
- CNTV 595 Professional Practicum Units: 1, 2, 4 max 8
- CTAN 436 Writing for Animation Units: 2
- CTIN 458 Business and Management of Games Units: 2
- CTIN 483 Introduction to Game Development Units: 4
- CTIN 488 Game Design Workshop Units: 4
- CTIN 558 Business of Interactive Media Units: 2
- CTPR 486 Straight to Series: Production of Episodic TV Drama Units: 4
- CTPR 506 Visual Expression Units: 2

Writing Intensive Electives

- CTWR 410L Character Development and Storytelling for Games Units: 4
- CTWR 433 Adaptations: Transferring Existing Work to the Screen Units: 2
- CTWR 435 Writing for Film and Television Genres Units: 2, 3, 4 max 8
- CTWR 468 Screenwriting in Collaboration Units: 4 max 8
- CTWR 520 Advanced Scene Writing Workshop Units: 2
- CTWR 522 Advanced Hour-Long Television Development Units: 2
- CTWR 549 Advanced Rewriting Workshop in Hour-Long Drama Units: 4
- CTWR 550 Advanced Story Development Units: 2
- CTWR 553 Advanced Rewriting Workshop Units: 4
- CTWR 585 Advanced Genre Writing Units: 2 or 4 max 8

Note:

Courses listed as writing intensive electives are considered heavy writing classes; students may take a maximum of three courses and 10 units of writing intensive courses per semester, required and/or elective.

Additional Requirements

Grade Point Average Requirement

An overall grade point average of 3.0 (A = 4.0) must be maintained in all courses. In addition, an overall grade point average of 3.0 in all units attempted is required to qualify for registration in CTWR 515a, CTWR 515b, CTWR 517a, CTWR 517b or CTWR 519a, CTWR 519b. Courses in which a grade of C- (1.7) or lower is earned will not apply toward a graduate degree.

In lieu of a thesis the student is required to either complete a full-length screenplay, which will be developed in CTWR 515a, CTWR 515b; or a pilot script and a series bible for a half-hour television comedy, which will be developed in CTWR 517a, CTWR 517b; or an original one-hour drama television pilot, mid-season episode and series bible, which will be developed in CTWR 519a, CTWR 519b; this final work must be accepted by the Division of Writing Graduation Committee.

Time Limit

Students must maintain satisfactory progress toward their master's degrees at all times. The time limit to complete all requirements is three years from the first course at USC applied toward the Master of Fine Arts degree. Course work more than seven years old is automatically invalidated and may not be applied toward the degree.

Graduate Certificate

Writing for Screen and Television Certificate

The Writing for Screen and Television Certificate is awarded for one year of study.

Applicants must be recognized writers outside of the field of screenwriting.

The course of study is no less than 16 units total, over two semesters. Writers, both U.S. and international, should appeal directly to the chair for admission in the fall semester.

Admission is granted to only one or two scholars a year, and is of the highest selectivity. Applicants must have earned an undergraduate degree with at least a 3.0 GPA. Additionally, candidates must show compelling reason for not applying to a formal degree program.

The general course of study is as follows:

First Semester

- CTWR 513 Writing the Short Script Units: 2
- CTWR 514a Basic Dramatic Screenwriting Units: 2

  or
- CTWR 515a Practicum in Screenwriting Units: 4
- CTWR 516 Advanced Motion Picture Script Analysis Units: 2
- CTWR 572 Practicum in Directing Actors for Film Units: 2 or 4

Total units: 8

Second Semester

- CTPR 536 Editing for Scriptwriters Units: 2
- CTWR 514b Basic Dramatic Screenwriting Units: 2

  or
- CTWR 515b Practicum in Screenwriting Units: 4

  CTWR Electives

Total units: 8

USC Bovard College

USC Bovard College graduate programs are designed to provide professionals with specialized knowledge and skills to advance their careers in a student-centered and supportive learning environment. Our graduate programs include an MS in Criminal Justice, an MS in Hospitality and Tourism, an MS in Human Resource Management, and an MS in Project Management, which were designed by some of the most influential minds in their respective professions.

Founded in 2015, the USC Bovard College is proudly named after Emma Bovard, one of the first students to enroll at USC in 1880 and an early advocate for equal access to quality educational opportunities. In addition to providing rigorous graduate programs for professionals in flexible, convenient formats, USC Bovard College supports individuals during key academic and career transitions through programs such as USC Summer Programs and USC Bovard Scholars.

USC Bovard College

Master's Programs

Admissions Overview

USC Bovard College completes a comprehensive review of all applications. We do not use a formula. Successful applicants will have demonstrated academic and professional success.

Applicants must have:

- A bachelor's degree from a regionally accredited college or university, or foreign equivalent.
- For international applicants, a valid score on the Test of English as a Foreign Language (TOEFL), International English Language Testing System (IELTS) or Pearson Test of English (PTE).

Application Materials

Complete and submit your Graduate Admissions Application online. Within the application, you will need to provide the following application materials:

- **Résumé**: Up-to-date professional résumé or curriculum vitae
- **Letters of Recommendation**: 2-3 letters of recommendation
- **Statement of Purpose**: 1-2 page essay addressing why you are pursuing this degree, how this program will help you in your career, and why the program at USC is a good fit for you
- **Transcripts**: Open, scan and upload official transcripts from each undergraduate institution you have attended directly to the application portal. Additional information on transcript submission can be found at https://bovardcollege.usc.edu/submitting-transcripts-what-you-need-to-know/.

Submit your application with a $90 application fee. Fee waiver eligibility information is located at https://gradadm.usc.edu/lightboxes/us-students-fee-waivers/.

Master's Degree

Criminal Justice (MS)

The Master of Science in Criminal Justice program is designed to prepare professionals to advance in their careers in the field of criminal justice. The program emphasizes the skills and evidence-based principles that shape effective criminal justice leaders.

In addition to foundational theories of criminology and criminal justice, students will explore policy design and implementation and emerging trends in the field. Students will learn to evaluate research and use statistical data to assess the efficacy of policies and practices in criminal justice. Students will also analyze emerging evidence-based practices in criminal investigations, corrections and community supervision, including the use of technology, restorative justice and multinational crime. Vulnerable populations, implicit bias, ethics and diversity are themes woven throughout the program. Courses in leadership development and organizational change will help students develop leadership skills within the context of criminal justice organizations. The program will enable students to develop the critical knowledge, skills and abilities needed to become ethical and skilled decision-makers in the various branches of criminal justice.

Required Courses

- CJ 500 Criminology Units: 2
- CJ 505 Analysis of Criminal Justice Systems Units: 2
- CJ 510 Criminal Justice Leadership Units: 2
- CJ 515 Applied Research Methods for Criminal Justice Units: 2
- CJ 520 Applied Statistics and Data Analysis in Criminal Justice Units: 2
- CJ 525 Ethical Decision-Making in Criminal Justice Units: 2
- CJ 530 Organizational Change in Criminal Justice Units: 2
- CJ 535 Youthful Offenders Units: 2
- CJ 540 Criminal Justice Policy and Program Development Units: 2
- CJ 545 Criminal Investigations Units: 2
- CJ 550 Corrections and Community Supervision Units: 2
- CJ 555 Making a Difference in Criminal Justice Units: 2

Hospitality and Tourism (MS)

The Master of Science in Hospitality and Tourism program will prepare students to advance their careers in the hospitality and tourism industry. Students will gain knowledge and skills related to service quality management, marketing, revenue management, human resource management, events and tourism development in the hospitality and tourism industry. Courses throughout the program address topics such as globalization, diversity and innovations in a variety of hospitality and tourism sectors. Sustainability and ethical practices are core themes explored throughout the program.

Our program also equips students with skills and knowledge to lead and innovate through disruption. Students will be prepared to take on industry changes as they progress through their career.

Additionally, students will learn how to make evidence-based decisions and plans for improvement through courses in financial management, data analytics, and applied research methods specific to the hospitality and tourism industry. The program culminates in a capstone course in which students directly apply the knowledge and skills they gained throughout the program to address an opportunity for innovation within a hospitality and tourism business or organizational unit.

Required Courses

- HT 500 Global Hospitality and Tourism Units: 2
- HT 505 Managing Service Quality in Hospitality and Tourism Units: 2
- HT 510 Marketing Strategies for Hospitality and Tourism Units: 2
- HT 515 Financial Management in Hospitality and Tourism Units: 2
- HT 520 Revenue Management for Hospitality and Tourism Units: 2
- HT 525 Ethics in Hospitality and Tourism Units: 2
- HT 530 Strategic Human Resources in Hospitality and Tourism Units: 2
- HT 535 Applied Research Methods for Hospitality and Tourism Units: 2
- HT 540 Hospitality and Tourism Data Analytics Units: 2
- HT 545 Tourism Development Units: 2
- HT 550 Hospitality and Tourism Events Units: 2
- HT 555 Hospitality and Tourism Capstone Units: 2

Human Resource Management (MS)

The Master of Science in Human Resource Management program is designed to prepare professionals to advance their careers in the field of human resources (HR). The program emphasizes the strategic role that human resources plays in the performance of global organizations, providing students with the knowledge and skills needed to be effective partners.

In addition to core HR principles, students examine the full spectrum of human capital management concepts, including talent acquisition and retention, employee motivation, change management, and organizational culture. Students will learn about key HR processes, including talent management, total rewards, performance management, learning and development, employee relations, and HR analytics. Finally, students will explore key topics that are increasingly important to HR, including managing in a global context, diversity and inclusion, principled leadership, HR technology, and corporate social responsibility.

Required Courses

- HRM 500 Human Resource Strategy Units: 2
- HRM 505 Organizational Culture and Employee Outcomes Units: 2
- HRM 510 Leadership in Human Resources Units: 2
- HRM 515 Organization Design Units: 2
- HRM 520 Talent Management Units: 2
- HRM 525 Total Rewards Units: 2
- HRM 530 Learning and Development Units: 2
- HRM 535 Employee Relations Units: 2
- HRM 540 Human Resources Analytics Units: 2
- HRM 545 Management of Diverse and Global Human Resources Units: 2
- HRM 550 Change Management and Organization Development Units: 2
- HRM 555 Anticipating the Future of Human Resources Units: 2

Project Management (MS)

The Master of Science in Project Management program is designed to prepare professionals to advance their careers in the field of project management (PM). This program emphasizes the strategic role that project management plays in the performance of global organizations, providing students with the knowledge and skills needed to be effective leaders.

In addition to core PM principles, students explore the full spectrum of project management concepts and methodologies, including portfolio and program management, technical project delivery, Agile and change management. Students will learn about business relationship elements, including effective communication, negotiation, organizational culture and conflict resolution. Essential management processes such as performance, quality, risk, cost and budget are also examined and applied to real-world projects. The program encourages immediate application of key concepts learned to address workplace challenges and opportunities.

Required Courses

- PJMT 500 Principles of Project Management Units: 2
- PJMT 505 Requirements Elicitation and Business Analysis Units: 2
- PJMT 510 Schedule Management Units: 2
- PJMT 515 Cost Estimation and Forecasting Units: 2
- PJMT 520 Risk Management Units: 2
- PJMT 525 Agile Project Management Methodologies Units: 2
- PJMT 530 Quality and Process Improvement Units: 2
- PJMT 535 Specialized Project Management Units: 2
- PJMT 540 Organizational Change Management and Business Relationships Units: 2
- PJMT 545 Program Management Units: 2
- PJMT 550 Portfolio Management Units: 2
- PJMT 555 Project Management Capstone Units: 2

USC Dornsife College of Letters, Arts and Sciences

The USC Dornsife College of Letters, Arts and Sciences is the academic heart of the University of Southern California. The oldest, largest and most diverse of USC's academic divisions, USC Dornsife comprises more than 8,000 undergraduate and graduate students and nearly 900 faculty. The breadth and depth of USC Dornsife is vast with more than 40 academic departments and programs across the humanities, social sciences and natural sciences, and dozens of research centers and institutes.

USC Dornsife fosters the liberal arts ethos of small classes and close working relationships between students and faculty within the context of a premier research university, where internationally recognized scholars continuously pursue new ventures. Undergraduates select from more than 150 courses of study and explore opportunities such as overseas studies, service-learning and internships. With approximately 50 doctoral degree and master's programs administered through the USC Graduate School, USC Dornsife not only trains the next generation of scholars, but also ensures that America's research enterprise remains competitive.

By immersing its students in deep scholarship and discovery-based learning opportunities, USC Dornsife prepares its graduates to become tomorrow's leaders, prepared to succeed in any field or advanced degree program.

Tammara Anderson, *Associate Dean for Experiential and Applied Learning*

Graduate Studies in Letters, Arts and Sciences

Graduate studies leading to the master's and PhD degrees are available within most departments of USC Dornsife. Candidates for graduate degrees must complete both the departmental requirements listed for each degree and the general requirements set by The Graduate School. In addition to the composition of committees outlined by The Graduate School, USC Dornsife requires that all PhD qualifying exam and dissertation committees contain an outside member. An outside member is considered to be faculty outside the student's program but internal to USC.

Undergraduate Programs

USC Dornsife College of Letters, Arts and Sciences awards the Bachelor of Arts (BA) and the Bachelor of Science (BS) in a number of disciplines. Each degree requires a minimum of 128 units.

Majors

USC Dornsife students may major in a single discipline or combine several interests in an interdisciplinary program.

Selecting a Major

A major may be chosen because the student is especially interested in a subject, because of particular abilities in certain areas or because it is an especially fitting preparation for a profession. The choice of a major may thus become part of planning for a career. But a choice at USC Dornsife does not limit the student to a single career or line of work. Liberal arts majors are unusually adaptable, and the skills learned prepare students for any career they choose.

A student may declare a major at any time but is expected to record his or her major in the Office of Academic Records and Registrar at or before the beginning of the junior year or completion of 64 units. This allows sufficient time to fulfill the course requirements of the major in the student's third and fourth years. For some majors, however, and especially for a major in one of the natural sciences aiming for the BS degree, it is better to declare the major sooner, so the program can be spaced over the full four years.

Changing a Major

If, after a major has been declared, the student wishes to change to a different field (or add another field of study to the existing one), a Change of Major form must be filed. The form may be obtained in the USC Dornsife Advising Office or the Office of Academic Records and Registrar in John Hubbard Hall. The form must be completed and returned to the Office of Academic Records and Registrar. When a major is changed, the new department adviser must sign the form.

Types of Majors and Major Requirements

Departmental Major (BA or BS Degree)

A departmental major for the BA degree consists of specified lower-division courses and, generally, not less than 24 or more than 32 upper-division units in a single department or discipline. A greater concentration of units in a single discipline is usually required in majors for the BS degree than in majors for the BA degree.

The specific requirements for each department major will be found in the departmental sections of this catalogue.

Double Major (BA/BA or BS/BS)

A double major consists of two majors that allow the student to earn the same degree, either a BA or BS degree, at USC Dornsife. The student must complete the requirements for both majors and whatever other course work is needed to complete 128 units. Combinations of interdepartmental and department majors are also possible. See the Undergraduate Degree Programs page for rules governing the overlap of courses allowed for a double major.

Interdepartmental Majors

Humanities or Social Sciences Major (BA Degree)

A humanities or social sciences major consists of not less than 32 upper-division units within departments in the humanities or departments in the social sciences. Of the 32 required upper-division units for the interdepartmental major, 20 are typically taken in one department, and the additional 12 units are taken from applicable courses in the area in which the department of concentration is housed. See the departmental listing for more specific requirements for the interdepartmental major, including lower-division requirements.

Physical Sciences Major (BS Degree)

The departments of Chemistry, Earth Sciences, and Physics and Astronomy offer a physical sciences major in the natural sciences and mathematics. The major requires specific lower-division courses in chemistry, Earth sciences, mathematics and physics. In addition, students must take 28 upper-division units that apply to the major from one of the four departments. Of the 28 required upper-division units, at least 4 units must be taken in each of the four cooperating departments.

Program Major (BA or BS Degree)

USC Dornsife has a number of special programs, many of which offer majors. A program major consists of designated courses, which include not less than 24 upper-division units chosen from the list of courses that make up the program.

Programs are often organized either around the study of a region or a topic that is not specific to any single discipline, or around two or more disciplines that have joined together to deal with a common problem or issue. Program majors are interdisciplinary and offer unusual range to students who have topical interests. Specific requirements for all program majors are listed under the program titles.

Dual Degree

A dual degree is one that includes course work from two schools or two different degree programs within the same school that have been organized into a single program. Listings of graduate dual degrees can be found under Programs, Minors and Certificates. The student receives two diplomas.

Progressive Degree Program

A progressive degree program enables a USC Dornsife undergraduate to begin work on a master's degree while completing requirements for the bachelor's degree. The progressive degree may be in the same or different departments but should be in a closely related field of study. Students in a progressive degree program must fulfill all requirements for both the bachelor's degree and the master's degree, except for the requirement of a specific number of units for the two separate degrees. The master's degree may be awarded at the same time as, but not prior to, the bachelor's degree. The student receives two diplomas. Further details about progressive degrees can be found in the Progressive Degrees section in Undergraduate Degree Programs .

Second Bachelor's Degree

A second bachelor's degree requires a minimum of 32 units beyond the number required for the first bachelor's degree. If the first bachelor's degree was earned at USC, a minimum of 32 units for the second degree must be completed at USC. If the first bachelor's degree was earned at another institution, a minimum of 64 units toward the second degree must be completed at USC. (See the policy on residence requirement for a second bachelor's degree section in Course Work Taken Elsewhere.)

For some degrees, more than the 32 units beyond the first bachelor's degree will be required because all requirements for both degrees must be met. The student receives a separate diploma for each degree upon completion.

The first and second bachelor's degrees may be completed at the same time, but it is not required.

Substitution for Major Requirements

If a student wishes to make an adjustment to the major requirements in his or her department or program, the department adviser may, with the support of the department, substitute a comparable upper-division course for a required one. Substitutions and waivers of USC or transfer courses for upper-division requirements are to be limited to 25 percent. Lower-division courses cannot be substituted for upper-division requirements.

Unit Limitation

No more than 40 upper-division units in the major may be applied to any degree under the jurisdiction of the USC Dornsife College of Letters, Arts and Sciences. A student wishing to exceed this limit must obtain the approval of the major department and the dean of undergraduate programs.

Minors

USC Dornsife offers a wide array of minors that can provide unique breadth and complement or enhance the major field of study. Many of the college minors themselves are interdisciplinary and combine classes in two or more USC Dornsife departments. They may also combine with internships or classes in one of USC's professional schools.

Basic Requirement for a Degree from the USC Dornsife College of Letters, Arts and Sciences

For those undergraduate students earning a degree at USC Dornsife, a minimum of 104 units applicable to the degree must be earned in USC Dornsife academic departments. For students graduating with a minor or a second bachelor's degree, this minimum is reduced to 96 units. For students who are earning a degree in USC Dornsife and also a degree conferred by Dornsife but administered by a professional school, this minimum is reduced to 70 units. Other exceptions will be considered by the dean of undergraduate programs at USC Dornsife.

This policy also applies to transferable courses (see Course Work Taken Elsewhere).

Units Required Each Semester

The student is expected to complete about 16 units each semester; 18 units are generally considered to be the maximum number in a manageable program. If the student wants to enroll in more than 18 units, he or she may do so but first should consult with his or her academic adviser.

Grade Point Average Requirement

A grade point average of at least C (2.0) on all units attempted at USC is required for undergraduate degrees. The college requires a minimum 2.0 grade point average in upper-division courses applied toward the major. Some departments require grades of C or higher in specified courses. A grade point average of at least B (3.0) on all units attempted at USC is required for master's degrees. A grade point average of at least B (3.0) on all units attempted at USC is required for doctoral degrees.

USC Dornsife Advising Office provides a wide range of advising services and programs that integrate students, faculty, staff, academic disciplines and curricula into a meaningful educational experience. Academic advisers work closely with students to help them integrate into the academic life of USC Dornsife and provide curricular guidance so students can graduate in a timely manner.

Academic advising is mandatory for all students entering USC Dornsife until they have completed 32 units. All students in USC Dornsife are strongly encouraged to seek individual academic advisement at least once each semester until graduation. Guidance regarding academic requirements, policies and program planning is available by appointment or on a walk-in basis.

The services of a college ombudsman are available to students who have academic concerns that cannot be adequately addressed by the usual mechanisms of consulting instructors, department chairs or other university offices. The ombudsman can be particularly helpful in the case of grade appeals that are complex in nature. The ombudsman functions as an intermediary between the student, the faculty and other offices on campus.

Advising for Pre-law Programs

Students who are interested in going to law school consult one-on-one with academic advisers in the USC Dornsife College Advising Office who specialize in this area. Pre-law students are supported in all aspects of the law school application process, including writing an effective personal statement and requesting appropriate letters of recommendation.

Pre-law advisers also help students target appropriate law schools and inform students about pre-law and law-related events and student organizations. Pre-law students are also invited to subscribe to an email listserv sponsored by the USC Dornsife College Advising Office to stay connected with pre-law resources and information.

Advising for Graduate School Programs

The pre-graduate school advisers assist USC undergraduates and alumni interested in applying to all graduate programs other than law and medicine. The advisers help students determine when and if they should apply to graduate school and guide students in the process of researching and choosing appropriate schools and programs. Students receive support in navigating the admission process, writing statements of purpose, requesting letters of recommendation, exploring test preparation resources, and identifying and pursuing sources of funding.

USC Dornsife Career Pathways

Grace Ford Salvatori Hall 315
(213) 821-4728
Email: careerpathways@dornsife.usc.edu
dornsife.usc.edu/careerpathways/

USC Dornsife Career Pathways parallels the central mission of the University of Southern California to cultivate and develop the human mind and spirit. Career Pathways works to align students' academic interests with individual career and professional pathways through self-reflection and assessment and engagement in curricular and co-curricular opportunities. Moreover, the underlying mission is to engage students in critical discussion about careers and introduce a system of career management tools and practices students can utilize achieve career and educational goals. Career Advisement is available to all USC Dornsife students across academic disciplines and majors. Advisement areas include:

- The connection of field of study and educational experience to career
- Career exploration and the development of a plan to career
- Internship and career opportunities
- Résumé and cover letter review
- Mock interviews

Office of Experiential and Applied Learning

USC Dornsife Off-Campus Short-Term Programs
(213) 740-8085
Email: exl@dornsife.usc.edu
dornsife.usc.edu/off-campus-programs

USC Dornsife offers short-term academic programs in several different formats in the United States and abroad. Unique programmatic opportunities; "Spring Break," "Maymester," "Problems Without Passports" and "Departmental Summer Away" courses, extend undergraduate learning outside the walls of the university to just about anywhere in the world. Students gain research experience, participate in problem-based learning courses, study in a foreign country, and are able to add a unique boost to future résumés.

Office of Overseas Studies
Mark Taper Hall of Humanities 341
(213) 740-3636
FAX: (213) 740-2265
Email: overseas@usc.edu
dornsife.usc.edu/overseas

The Office of Overseas Studies provides opportunities for students to study abroad for a semester or a year. Eligible students can choose among 55 academic programs in 29 countries. The six-week summer Pembroke-King's Programme at Cambridge University is also offered through this office. Financial aid and scholarships may be applied to the cost of semester and year programs.

Washington D.C. Semester Program
Email: dornsifedc@usc.edu
dornsife.usc.edu/dornsife-dc/

The Washington, D.C., Semester Program provides a unique, semester-long opportunity for USC Dornsife students to study and work in the nation's capital. The immersive program capitalizes on the D.C. experience. Courses are drawn from areas with direct policy relevance such as foreign policy, politics and the political process and economics. All students complete an internship with one of Washington's many policy-focused organizations, including government agencies, nongovernmental organizations, advocacy groups, think tanks, consulting firms and congressional offices. The USC Dornsife D.C. program is open to students from all majors while maintaining a focus on practical policy, both domestic and international.

The Joint Educational Project (JEP)
The JEP House
(213) 740-1837
FAX: (213) 740-2265
Email: jephouse@usc.edu
dornsife.usc.edu/jep

Established in 1972, the USC Joint Educational Project (a.k.a. "J-E-P") is one of the oldest and largest service-learning programs in the United States. Each year 2,000+ USC students enroll in JEP's service-learning, work-study and volunteer programs. JEP offers a wide range of service and service-learning opportunities in nearby schools, community-based organizations, healthcare facilities and legal clinics. All of JEP's programs combine hands-on experience with reflective practice, enabling students to learn first

hand about the critical issues facing the communities surrounding USC.

The Levan Institute for Humanities and Ethics
Mark Taper Hall of Humanities 348
(213) 740-0009
Email: usclevan@dornsife.usc.edu
dornsife.usc.edu/levan-institute

The Levan Institute for Humanities and Ethics is a center of student and faculty engagement in critical inquiry into the timeless values at the core of our humanity. The institute facilitates multidisciplinary programs, events, forums and student organizations to promote moral reflection on the crucial issues of our time. Levan students are encouraged to make a positive impact across society and around the world.

Department of Physical Education
Physical Education Building, PED 107
(213) 740-2488
Email: aaharris@usc.edu
dornsife.usc.edu/phed/

The Physical Education program at USC Dornsife has a variety of opportunities for students to improve their general health and strength through fitness related and recreational activities classes. Courses are designed to introduce students to various aspects of health and physical education principles through experiential learning. Students experience a hands-on learning environment by connecting theory and fundamental skill instruction with application of those skills. With this exposure, knowledge and skill, students are engaged intellectually and physically and are better equipped to make choices regarding a healthy and active lifestyle.

Office of Pre-Health Advisement
Hedco Neurosciences Building 120
(213) 740-4844
FAX: (213) 740-5653
Email: prehealth@dornsife.usc.edu
dornsife.usc.edu/pre-health

The Office of Pre-Health Advisement serves current USC students, alumni and post-baccalaureate students who are interested in pursuing a career within the health professions (e.g., medicine, dentistry, pharmacy, etc.). Pre-health advisers provide an array of student-centered advisement services and support tools tailored to meet the individual needs, interests and goals of pre-health students. The program promotes a sense of community, meaningful relationships with students, staff and faculty, academic excellence, leadership, wellness, and learning through community service, clinical exposure, laboratory research and campus organizations.

Pre-health students are supported in all aspects of the health professional school application process, including writing an effective personal statement and requesting appropriate letters of recommendation. The office also offers pre-health curriculum planning, assistance with major and minor selection, and workshops, events and opportunities for clinical, research and volunteer activities. The office encourages involvement in the campus community and pre-health student organizations.

Director: Richard Fliegel, PhD

General Education Requirements

The university's general education program provides a coherent, integrated introduction to the breadth of knowledge you will need to consider yourself (and to be considered by other people) a generally well-educated person. This program is required of all students entering USC in fall 2015 or later, or transfer students beginning college elsewhere at that time and subsequently transferring to USC. It comprises eight courses in six Core Literacies, plus two courses in Global Perspectives (which may double-count with course work taken in the Core Literacies). For more information about USC's general education requirements, see the General Education program description .

Course Listing

For a complete list of general education courses, see the general education section.

Other Requirements

All students at USC must also complete a two-course writing requirement. All students in the USC Dornsife College of Letters,

Arts and Sciences and in some USC professional schools (see listing for each school's requirements) must also satisfy the foreign language requirement.

Writing Requirement

In their writing classes students learn to think critically, to build sound arguments and to express their ideas with clarity. The USC writing requirement comprises two courses (which cannot be taken on a pass/no pass basis).

Lower-division Writing Requirement

Most undergraduates take WRIT 150 Writing and Critical Reasoning–Thematic Approaches as their first writing course. Students enroll in this writing course either in the fall or spring of their freshman year.

Students in the Thematic Option program satisfy this requirement with CORE 111.

Some students are better served by taking a preparatory course before they enroll in WRIT 150. Entering freshmen who score below a specified level on the verbal portion of the SAT take the University Writing Examination. Based on the result of this examination, certain students enroll in WRIT 120 Introduction to College Writing or WRIT 121 Introduction to College Writing in a Second Language during their first semester at USC. Clearance to register for these preparatory courses may be obtained at the Writing Program Office.

International students take the University Writing Examination after having completed any course work required by the American Language Institute.

Upper-division Writing Requirement

A writing course, WRIT 340 Advanced Writing, is taken in a student's junior or senior year, geared toward the student's areas of special interest, such as the arts and humanities, science, law, engineering or business. In this course, students learn to integrate more complex information and construct more sophisticated arguments.

Foreign Language Requirement

Students may satisfy the foreign language requirement only by (1) earning a passing grade in Course III of a foreign language sequence at USC or its equivalent elsewhere or (2) scoring on the placement examination at a level considered by the department as equivalent to the completion of Course III or (3) scoring on a national or statewide examination at a level set by the department and approved by the USC Dornsife College of Letters, Arts and Sciences. Students who can supply proof of at least two years of full-time secondary schooling beyond the age of 14 taught in a foreign language may request exemption from the foreign language requirement. The USC Language Center has established a procedure for students who have demonstrated chronic difficulties with foreign language acquisition. Students may in some cases be approved to complete the requirement using an alternative set of courses. For additional information contact the USC Language Center, THH 309, (213) 740-1188, language.usc.edu.

All students earning degrees granted by or under the jurisdiction of the USC Dornsife College of Letters, Arts and Sciences or earning degrees in programs of other schools that require three semesters of foreign language who do not meet the criteria of (1), above, must take a placement examination to determine their level of language proficiency. Placement in elementary and intermediate foreign language courses is made by the appropriate placement examination. Transfer courses, which meet foreign language level I and level II subject requirements will not meet the prerequisite for the next course in a sequence. Students may be advised to repeat, without additional credit, a semester or semesters of instruction if their skills are judged insufficient at the time of testing.

All students who as freshmen enrolled in degree programs that have a foreign language requirement are expected to fulfill that requirement by the time they have completed 64 units at USC. Students who do not satisfy the foreign language requirement before the completion of 48 units at USC will have a "mandatory advisement requirement" warning them of the need to complete the foreign language requirement. Students who do not satisfy the requirement before the completion of 64 units at USC will be required to seek approval to register.

Students admitted as transfers for whom foreign language is a requirement should fulfill it before they have completed 48 units at USC. Students who do not satisfy the foreign language requirement before the completion of 32 units at USC will have a "mandatory advisement requirement" warning them of the need to complete the foreign language requirement. Students who do not satisfy the requirement before the completion of 48 units at USC will be required to seek approval to register.

Students admitted into programs without a foreign language requirement who subsequently make a change of major into a program with a foreign language requirement must satisfy the requirement before completion of 48 units at USC after switching into the major.

International students whose native language is not English are exempt from the foreign language requirement. Students with advanced skills in languages other than those taught at USC may request exemption from the foreign language requirement if (1) they can supply proof of at least two years of full-time secondary schooling taught in a foreign language beyond the age of 14, or (2) if they can pass a competency exam testing for advanced language skills and administered at USC subject to the availability of suitable academic examiners; the competency exam will test proficiency in speaking, reading and writing skills. Students with documented learning disabilities or physical impairments inhibiting language acquisition may petition for substitution.

American Studies and Ethnicity

American Studies and Ethnicity integrates humanistic and social scientific perspectives, and brings them to bear on an examination of the United States with a particular emphasis on comparative study of the peoples, cultures, history and social issues of the Western United States. The department offers five separate majors in American Studies and Ethnicity, American Popular Culture, African American Studies, Asian American Studies, and Chicano/Latino Studies; and minors in American Studies and Ethnicity, American Popular Culture, Native American Studies and Jewish American Studies. The graduate program offers a graduate certificate in Latinx and Latin American Studies and a PhD for students interested in broad interdisciplinary training at an advanced level to study the peoples, cultures and institutions of the United States in courses that integrate modes of inquiry from the humanities and the social sciences. Drawing upon the cultural resources of a cosmopolitan city on the Pacific Rim and upon the strength and diversity of its professional schools as well as departments in USC Dornsife, these degree programs provide a richly interdisciplinary curriculum that is unique for its constitution of American Studies and Ethnic Studies as comparative and interethnic program that takes as its focus a region — Los Angeles, California and the West — marked by challenging social and cultural changes.

American Studies and Ethnicity offers challenging and diverse opportunities to study the peoples, cultures and institutions of the United States in interdisciplinary courses. Combining the study of history with literature, the arts and the social sciences, American Studies and Ethnicity seeks to bring together these various disciplines and modes of inquiry in a common project: the effort to understand the diverse peoples and cultures that have composed the United States and to provide critical perspectives on the words, deeds, myths and material practices that have shaped this country

in its full regional, ethnic, class and gender diversity. An education in American Studies and Ethnicity will be particularly appropriate for students interested in pursuing careers in law, journalism, government, foreign service, social work, international business, public administration and education.

Undergraduate Degrees

Honors Program

The program offers a two-semester honors program for qualified students, first identified in AMST 350 or by the program adviser. Students spend their first semester in the program in an honors senior seminar, AMST 492, focused on developing their research and methods for the honors thesis. During the second semester, all honors students are required to take AMST 493 in which each completes a thesis project on a topic of his or her own choosing under faculty direction. Contact the program adviser for further information. To graduate with honors, program majors must successfully complete an honors thesis and have a minimum GPA of 3.5 in their major course work.

Minor in Critical Approaches to Leadership

See the Department of Interdisciplinary Studies.

Minor in Race, Ethnicity and Politics

See the Department of Political Science.

Graduate Degrees

The Department of American Studies and Ethnicity's (ASE) mission is to educate in the comprehensive analysis of race and ethnicity and engage students and the public to understand diversity, the consequences of disparity and inequity, and the enactment of community and citizenship at multiple scales in Los Angeles, California, the United States and the world. As an innovative and multidisciplinary PhD program, ASE offers mixed methods of scholarly inquiry and interpretation that address the creative potential of diasporic, ethnic, religious, sexual and political communities and the multi-directional influence they exercise upon the immediate California region, the United States and ricocheting across the Americas, Pacific and Atlantic. The program's most significant areas of specialization are: (1) the theoretical study of race and ethnicity, particularly as it is constructed through gender, class, sexuality and the state; (2) an emphasis on the study of cultural production with particular attention on the theoretical directions and methodological innovations in the interdisciplinary study of American culture.

Admission Requirements

Requirements for admission include: scores satisfactory to the program in the verbal, quantitative and analytical General Test of the Graduate Record Examinations; evidence of competence in writing English and analytical abilities; a satisfactory written statement by the applicant of aims and interests in pursuing interdisciplinary graduate work; letters of recommendation from at least three college instructors; and grades satisfactory to the department earned by the applicant at other institutions.

All applicants are required to take the GRE and submit their complete undergraduate record; at least three letters of recommendation and a statement of purpose should be sent to the director of the program. Applicants are urged to submit written materials as supportive evidence.

Degree Requirements

These degrees are under the jurisdiction of the USC Graduate School. Refer to The Graduate School section of this catalogue for general regulations. All courses applied toward the degrees must be courses accepted by the Graduate School.

Bachelor's Degree

American Popular Culture (BA)

The interdisciplinary major in American Popular Culture helps students to assess from a variety of perspectives the icons and ideas they encounter every day, to think critically about the images and assertions of the mass media and commercial culture, and to see the experience of popular culture as it interacts with questions of gender and ethnicity in the American context. Students choose five classes, including one upper-division elective, from a curriculum organized to explore: critical approaches to popular culture; gender and ethnicity in American popular culture; and popular culture in the arts. Thirty six units are required, 4 at the lower-division and 32 at the upper-division level.

Lower-Division Requirements

Choose one course (4 units).

- AMST 205g Introduction to American Popular Culture Units: 4
- AMST 206gm The Politics and Culture of the 1960s Units: 4
- AMST 285gm African American Popular Culture Units: 4

Upper-Division Requirements

Choose four courses (16 units), at least one from each of the groups below.

Critical Approaches to Popular Culture

- AMST 301gp America, the Frontier, and the New West Units: 4
- COLT 365 Literature and Popular Culture Units: 4
- COMM 384 Interpreting Popular Culture Units: 4
- ENGL 392 Visual and Popular Culture Units: 4
- HIST 380 American Popular Culture Units: 4

Gender and Ethnicity in American Popular Culture

- AMST 357m Latino Social Movements Units: 4
- AMST 365 Leadership in the Community — Internship Units: 4

- AMST 385 African American Culture and Society Units: 4
- AMST 395m African American Humor and Culture Units: 4
- AMST 448m Chicano and Latino Literature Units: 4
- AMST 449m Asian American Literature Units: 4
- ENGL 343m Images of Women in Contemporary Culture Units: 4

Popular Culture in the Arts

- AHIS 363m Contemporary Art and the Culture Wars Units: 4
- AHIS 370g Modern Art III: 1940 to the Present Units: 4
- CTCS 392 History of the American Film, 1925–1950 Units: 4
- CTCS 393 Postwar Hollywood, 1946-1962 Units: 4
- CTCS 394 History of the American Film, 1977–present Units: 4
- ENGL 371g Literary Genres and Film Units: 4
- ENGL 375 Science Fiction Units: 4
- ENGL 381 Narrative Forms in Literature and Film Units: 4
- HIST 481 Producing Film Histories Units: 4
- MUJZ 419m The Jazz Experience: Myths and Culture Units: 4
- MUSC 422 The Beatles: Their Music and Their Times Units: 4

Electives

Choose four additional courses (16 units) from the lists above or below. One must be an upper-division course in a department you have not already chosen for the major.

- AHIS 100g Introduction to Visual Culture Units: 4
- AHIS 250gm Art, Modernity and Difference Units: 4
- AHIS 255g Culture Wars: Art and Social Conflict in the Modern World Units: 4
- AHIS 270 L.A. Now: Contemporary Art in Los Angeles Units: 4
- AHIS 364 Myths, Arts, Realities: Visual Culture in California, 1849 to the Present Units: 4
- AHIS 365m African American Art Units: 4
- AHIS 370g Modern Art III: 1940 to the Present Units: 4
- ANTH 240gm Representing 9/11 and Hurricane Katrina Units: 4
- ANTH 263g Exploring Culture through Film Units: 4
- ANTH 380 Sex and Gender in Anthropological Perspective Units: 4
- ANTH 470 Multidisciplinary Seminar in Visual Anthropology Units: 4
- COMM 206 Communication and Culture Units: 4
- COMM 307 Sound Clash: Popular Music and American Culture Units: 4
- COMM 310 Media and Society Units: 4
- COMM 312 The Business and Culture of Celebrity Units: 4
- COMM 360 Los Angeles: Communication and Culture Units: 4
- COMM 366 Designing Media for Social Change Units: 4
- COMM 371 Media Censorship and the Law Units: 4
- COMM 384 Interpreting Popular Culture Units: 4
- COMM 396g Fashion, Media and Culture Units: 4
- COMM 413 Propaganda, Ideology and Public Controversy Units: 4

- THTR 488mw Theatre in the Community Units: 4
- THTR 295 Theatre in Los Angeles Units: 2 (4 units required)

American Studies and Ethnicity (African American Studies) (BA)

African American Studies is a multidisciplinary program designed to provide students with a critical understanding of the historical, cultural, social and political experience of African Americans, with a particular emphasis on the development and culture of the African American communities in California and the West as well as on both historical and contemporary effects of global issues on African American communities. By drawing upon courses in American Studies and Ethnicity and by emphasizing comparative as well as interdisciplinary study, this program offers training in the analytic tools and methods of interpretation appropriate for studying the African American experience in its particularity and ethnic and cultural study in general. The program is particularly appropriate for students interested in integrating studies in the humanities and social sciences and for students preparing to work and interact with diverse communities and cultures in the United States and abroad in such fields as education, human services, business, journalism and public administration.

African American Studies is administered by an executive committee comprising the chair, directors of the four majors and other faculty members. In addition to the college academic adviser, the directors of the majors serve as advisers to majors and minors, providing, in conjunction with the sequence of courses, the opportunity for students to undertake an interdisciplinary concentration under close faculty supervision. It is recommended that students meet with the appropriate major director to plan a coherent set of courses to fulfill the major or minor requirements.

Program Major Requirements

Ten courses in African American Studies, or courses certified for African American Studies credit, are required. The 10 courses must be distributed as follows: the three core requirement courses of AMST 200 (or AMST 230), AMST 350 and AMST 498; one course from each of the following three lists: History, Literature and Culture, and Social and Political Issues; and additional elective courses for a total of 16 units chosen from the courses certified in African American Studies at the 300 level or above.

Core Requirements

- AMST 200gm Introduction to American Studies and Ethnicity Units: 4
  or
- AMST 230g Introduction to African American Studies Units: 4
- AMST 350 Junior Seminar in American Studies and Ethnicity: Theories and Methods Units: 4

- AMST 498 Senior Seminar in American Studies and Ethnicity Units: 4 *

Note:

**Honors students will substitute AMST 492 Research Methods in American Studies and Ethnicity.*

Required Courses

One course from each of the following categories:

History

- AMST 250gmw The African Diaspora Units: 4
- AMST 252gmw Black Social Movements in the U.S. Units: 4
- AMST 332m Post-Civil Rights Black America Units: 4
- HIST 355 The African-American Experience Units: 4
- HIST 453 The Age of Emancipation Units: 4
- HIST 455 Advanced Topics in African-American History Units: 4
- HIST 456 Race, Slavery, and the Making of the Atlantic World Units: 4

Literature and Culture

- AHIS 365m African American Art Units: 4
- AHIS 475m Blackness in American Visual Culture Units: 4
- AMST 285gm African American Popular Culture Units: 4
- AMST 385 African American Culture and Society Units: 4
- CTCS 407 African American Cinema Units: 4
- ENGL 446 African-American Poetry and Drama Units: 4
- ENGL 447m African-American Narrative Units: 4
- GESM 120g Seminar in Humanistic Inquiry Units: 4
- MUSC 320gmw Hip-hop Music and Culture Units: 4

Social and Political Issues

- AMST 101gmw Race and Class in Los Angeles Units: 4
- AMST 206gm The Politics and Culture of the 1960s Units: 4
- AMST 274gmw Exploring Ethnicity through Film Units: 4
- AMST 330m Black Music and the Political Imagination Units: 4
- AMST 337m Islam in Black America: From Slavery to Hip Hop Units: 4
- AMST 342m Law and Identities Units: 4
- AMST 344m Islamic Law and American Society Units: 4
- AMST 348m Race and Environmentalism Units: 4
- AMST 365 Leadership in the Community — Internship Units: 4
- AMST 389m Carceral Geographies Units: 4
- AMST 395m African American Humor and Culture Units: 4
- AMST 466m The Psychology of African Americans Units: 4
- ANTH 240gm Representing 9/11 and Hurricane Katrina Units: 4
- ANTH 445 African American Anthropology Units: 4
- GESM 130g Seminar in Social Analysis Units: 4
- HIST 265gw Racism, Sexism, and the Law Units: 4
- POSC 421 Ethnic Politics Units: 4
- POSC 427 Black Politics in the American Political System Units: 4
- PSYC 462m Culture and Mental Health Units: 4
- REL 469 Black Religion in America Units: 4

Upper-division Elective Courses

Additional courses for a total of 16 units from the lists above or below, or other American Studies and Ethnicity courses with the approval of the African American Studies director, 300 level or higher. No more than two total courses in the major may be taken outside the college.

- AMST 301gp America, the Frontier, and the New West Units: 4
- AMST 320 Social Construction of Race and Citizenship Units: 4
- AMST 353m Race and Racism in the Americas Units: 4
- AMST 490x Directed Research Units: 1, 2, 3, 4, 5, 6, 7, 8 max 12
- AMST 493 Senior Honors Thesis in American Studies and Ethnicity Units: 4
- AMST 499 Special Topics Units: 2, 3, 4 max 8
- COMM 458m Race and Ethnicity in Entertainment and the Arts Units: 4
- POSC 424m Political Participation and American Diversity Units: 4
- SOCI 432m Racial and Ethnic Relations in a Global Society Units: 4

American Studies and Ethnicity (Asian American Studies) (BA)

Asian American Studies is a multidisciplinary program designed to provide students with a critical understanding of the historical, cultural, social and political experience of Asian Pacific Americans, with a particular emphasis on the development and culture of the Asian American communities in California and the West as well as on both historical and contemporary effects of global issues on Asian American communities. By drawing upon courses in American Studies and Ethnicity and by emphasizing comparative as well as interdisciplinary study, this program offers training in the analytic tools and methods of interpretation appropriate for studying the Asian American experience in its particularity and ethnic and cultural study in general. The program is particularly appropriate for students interested in integrating studies in the humanities and social sciences and for students preparing to work and interact with diverse communities and cultures in the United States and abroad in such fields as education, human services, business, journalism and public administration.

Asian American Studies is administered by an executive committee comprising the chair, directors of the four majors and other faculty members. In addition to the college academic adviser, the directors of the majors serve as advisers to majors and minors, providing, in conjunction with the sequence of courses, an opportunity for students to undertake an interdisciplinary concentration under close faculty supervision. It is recommended that students meet with the appropriate major director to plan a coherent set of courses to fulfill the major or minor requirements.

Program Major Requirements

Ten courses in Asian American Studies, or courses certified for Asian American Studies credit, are required. The 10 courses must be distributed as follows: the three core requirement courses of AMST 200, AMST 350 and AMST 498; one course from each of the following three lists: *History, Literature and Culture, and Social and Political Issues*; and additional elective courses for a total of 16 units chosen from the courses certified in Asian American Studies at the 300 level or above.

Core Requirements

- AMST 200gm Introduction to American Studies and Ethnicity Units: 4
- AMST 350 Junior Seminar in American Studies and Ethnicity: Theories and Methods Units: 4
- AMST 498 Senior Seminar in American Studies and Ethnicity Units: 4 *

Note:

**Honors students will substitute AMST 492 Research Methods in American Studies and Ethnicity.*

Required Courses

One course from each of the following categories:

History

- AMST 378m Introduction to Asian American History Units: 4

Literature and Culture

- AMST 150gw The American War in Viet Nam Units: 4
- AMST 449m Asian American Literature Units: 4
- REL 336w Re-Viewing Religion in Asian America Units: 4

Social and Political Issues

- AMST 220gmw The Making of Asian America Units: 4
- AMST 365 Leadership in the Community — Internship Units: 4

- AMST 389m Carceral Geographies Units: 4
- POSC 328 Asian American Politics Units: 4
- SOCI 376m Contemporary Issues in Asian American Communities Units: 4

Upper-Division Elective Courses

Additional courses for a total of 16 units from the lists above or below, or other American Studies and Ethnicity courses with the approval of the Asian American Studies director, 300 level or higher. No more than two total courses in the major may be taken outside the college.

- AMST 301gp America, the Frontier, and the New West Units: 4
- AMST 320 Social Construction of Race and Citizenship Units: 4
- AMST 348m Race and Environmentalism Units: 4
- AMST 353m Race and Racism in the Americas Units: 4
- AMST 490x Directed Research Units: 1, 2, 3, 4, 5, 6, 7, 8 max 12
- AMST 493 Senior Honors Thesis in American Studies and Ethnicity Units: 4
- AMST 499 Special Topics Units: 2, 3, 4 max 8
- COMM 458m Race and Ethnicity in Entertainment and the Arts Units: 4
- POSC 424m Political Participation and American Diversity Units: 4
- SOCI 432m Racial and Ethnic Relations in a Global Society Units: 4

American Studies and Ethnicity (BA)

Program Major Requirements

Ten courses in American Studies and Ethnicity or courses certified for American Studies and Ethnicity credit are required. The 10 courses must be distributed as follows: the three core requirement courses of AMST 200, AMST 350 and AMST 498; one course from each of the following three lists: *History, Literature and Culture, and Social and Political Issues*; and additional elective courses for a total of 16 units chosen from the courses certified in American Studies and Ethnicity at the 300 level or above.

Core Requirements

- AMST 200gm Introduction to American Studies and Ethnicity Units: 4
- AMST 350 Junior Seminar in American Studies and Ethnicity: Theories and Methods Units: 4
- AMST 498 Senior Seminar in American Studies and Ethnicity Units: 4 *

Note:

**Honors students will substitute AMST 492 Research Methods in American Studies and Ethnicity.*

100/200/300/400-Level Required Courses

One course from each of the following categories:

History

- AMST 250gmw The African Diaspora Units: 4
- AMST 285gm African American Popular Culture Units: 4
- AMST 373m History of the Mexican American Units: 4
- AMST 378m Introduction to Asian American History Units: 4
- AMST 379 Arabs in America Units: 4
- HIST 100gm The American Experience Units: 4
- HIST 354 Mexican Migration to the United States Units: 4, 2 years
- HIST 355 The African-American Experience Units: 4
- HIST 380 American Popular Culture Units: 4
- HIST 457 The American West Units: 4
- HIST 458 History of California Units: 4

Literature and Culture

- AHIS 365m African American Art Units: 4

- POSC 424m Political Participation and American Diversity Units: 4
- SOCI 432m Racial and Ethnic Relations in a Global Society Units: 4

Minor

American Popular Culture Minor

The interdisciplinary minor in American Popular Culture helps students to assess from a variety of perspectives the icons and ideas they encounter every day, to think critically about the images and assertions of the mass media and commercial culture, and to see the experience of popular culture as it interacts with questions of gender and ethnicity in the American context. Students choose five classes, including one upper-division elective, from a curriculum organized to explore: critical approaches to popular culture; gender and ethnicity in American popular culture; and popular culture in the arts. Twenty units are required, four at the lower-division and 16 at the upper-division level.

Lower-Division Requirements

Choose one course (4 units)

- AMST 150gw The American War in Viet Nam Units: 4
- AMST 205g Introduction to American Popular Culture Units: 4
- AMST 206gm The Politics and Culture of the 1960s Units: 4
- AMST 274gmw Exploring Ethnicity through Film Units: 4
- AMST 285gm African American Popular Culture Units: 4

Upper-Division Requirements

Choose four courses (16 units), at least one from each of the groups below.

Critical Approaches to Popular Culture: choose one (4 units)

- AMST 301gp America, the Frontier, and the New West Units: 4
- COLT 365 Literature and Popular Culture Units: 4
- COMM 384 Interpreting Popular Culture Units: 4
- ENGL 392 Visual and Popular Culture Units: 4
- GESM 120g Seminar in Humanistic Inquiry Units: 4
- HIST 380 American Popular Culture Units: 4

Gender and Ethnicity in American Popular Culture: choose one (4 units)

- AMST 357m Latino Social Movements Units: 4
- AMST 365 Leadership in the Community — Internship Units: 4
- AMST 385 African American Culture and Society Units: 4
- AMST 395m African American Humor and Culture Units: 4
- AMST 448m Chicano and Latino Literature Units: 4
- AMST 449m Asian American Literature Units: 4
- ANTH 445 African American Anthropology Units: 4
- GESM 130g Seminar in Social Analysis Units: 4

Popular Culture in the Arts: choose one (4 units)

- AHIS 363m Contemporary Art and the Culture Wars Units: 4
- AHIS 370g Modern Art III: 1940 to the Present Units: 4
- AMST 305 Art and Performance in the Americas Units: 4
- CTCS 392 History of the American Film, 1925–1950 Units: 4
- CTCS 393 Postwar Hollywood, 1946-1962 Units: 4
- CTCS 394 History of the American Film, 1977–present Units: 4
- ENGL 375 Science Fiction Units: 4
- HIST 481 Producing Film Histories Units: 4
- MUSC 320gmw Hip-hop Music and Culture Units: 4
- MUSC 373g Writing About Popular Music Units: 4
- MUSC 422 The Beatles: Their Music and Their Times Units: 4
- MUSC 460 Film Music: History and Function from 1930 to the Present Units: 4
- MUSC 465 Music, Television and American Culture Units: 4

Electives (4 units)

Choose one additional upper-division course from the lists above, in a department you have not already chosen for the minor.

American Studies and Ethnicity Minor

Course Requirements

For the minor in American Studies and Ethnicity, five courses in American Studies and Ethnicity, or courses certified for American Studies and Ethnicity credit, are required. The five courses must be distributed as follows: two core requirement courses and three additional elective courses chosen from the courses certified in American Studies and Ethnicity at the 300 level or above.

Core Requirements

- AMST 200gm Introduction to American Studies and Ethnicity Units: 4
- AMST 350 Junior Seminar in American Studies and Ethnicity: Theories and Methods Units: 4

Upper-Division Elective Courses

Three courses from the American Studies and Ethnicity major lists, or other American Studies and Ethnicity courses with the approval of the American Studies and Ethnicity director, at the 300 level or higher. No more than one course in the minor may be taken outside the college.

Jewish American Studies Minor (American Studies)

Jewish American Studies is a multidisciplinary program designed to provide students with a critical understanding of the historical, cultural, social, political and religious experience of Jewish Americans, with a particular emphasis on the development and culture of Jewish communities in California and the West as well as on both historical and contemporary effects of global issues on American Jewish communities. By drawing upon courses in American Studies and by emphasizing comparative as well as interdisciplinary study, this program offers training in the analytical tools and methods of interpretation appropriate for studying the American Jewish experience in its particularity and ethnic and cultural study in general. The program is particularly appropriate for students interested in integrating studies in the humanities and social sciences and for students preparing to work and interact with diverse communities and cultures in the United States and abroad in such fields as education, human services, business, journalism and public administration.

Successful completion of 20 units in American Studies and Judaic Studies are required to qualify for the minor.

Core Requirements

- AMST 202m Interethnic Diversity in the West Units: 4
- JS 300 American Jewish History Units: 4

Three courses from the following:

- AMST 301gp America, the Frontier, and the New West Units: 4
- AMST 350 Junior Seminar in American Studies and Ethnicity: Theories and Methods Units: 4
- JS 330 Jewish Power, Powerlessness, and Politics in the Modern Era Units: 4
- JS 381 The Jew in American Society Units: 4
- JS 382 Judaism as an American Religion Units: 4
- JS 383 Jews in American Popular Culture Units: 4
- JS 415 The American Jewish Experience in Film Units: 4

Native American Studies Minor

This minor is an overview of Native American studies. We will study Indigenous intellectualism and resistance through Indigenous language revitalization, art, decolonization and political resistance.

Minimum Required Units: 20

Students choose five classes in American Studies and Ethnicity, or courses certified for American Studies and Ethnicity credit. The five courses are distributed as follows: two core requirement courses and three additional elective courses chosen from the courses listed below.

Core Requirements - 8 Units

- AMST 204g Introduction to Native Studies Units: 4
  and
- AMST 200gm Introduction to American Studies and Ethnicity Units: 4
  or
- AMST 350 Junior Seminar in American Studies and Ethnicity: Theories and Methods Units: 4

Elective Courses - 12 Units

- AMST 140gw Borderlands in a Global Context Units: 4
- AMST 320 Social Construction of Race and Citizenship Units: 4
- AMST 342m Law and Identities Units: 4
- AMST 345 Law and American Indian Studies Units: 4
- AMST 365 Leadership in the Community — Internship Units: 4
- ENGL 444m Native American Literature Units: 4
- HIST 271g Telling Native American Stories Units: 4

Graduate Certificate

Latinx and Latin American Studies Graduate Certificate

The graduate certificate in Latinx and Latin American Studies is part of a larger initiative to bring faculty, students and community partners together to engage in interdisciplinary research and public-facing scholarship that focuses on Latinx communities within the United States and in Latin America. Together, we will work to celebrate the diversity of Latinx and Latin American communities while engaging in scholarship that addresses important social and economic issues. Our hemispheric approach will necessitate a mode of research that crosses as many borders – cultural, political and disciplinary – as do the people of the Americas.

The graduate certificate is open to PhD students in any USC program. It requires doctoral students to complete 16 units. In addition, students may take electives approved for their particular program of research by the program faculty. One of these courses may be a research workshop course geared toward doctoral prospectus development. Directed research may not be counted toward the award of the certificate.

In addition to the completion of these course requirements, students must demonstrate a focus on Latinx and American Studies as a meaningful component of their doctoral dissertation. This will include working with faculty with expertise in Latinx and Latin American Studies on the doctoral committee (as a primary adviser or minor member). A Graduate Advisory Committee made up of members of the Faculty Advisory Board of the Latinx and Latin American Studies Center will be responsible for judging the adequacy of the Latinx and Latin American Studies component in the student's dissertation.

Pre-Approved Courses:

Complete at least 16 units.

- AMST 510 Readings in Chicano/Latino Studies Units: 4
- AMST 554 Readings in Chicano/Latino History Units: 4
- AMST 610 Interdisciplinary Research Seminar in Chicano/Latino Studies Units: 4
- COLT 555 Studies in Literatures of the Americas Units: 4
- HIST 554 Readings in Chicano/Latino History Units: 4
- HIST 561 Historiography of Colonial Mexico Units: 4
- POIR 556 Latin America and U.S. Foreign Policy Units: 4
- POIR 632 Latin American Politics Units: 4
- SPAN 545 20th and 21st Century Latin American Literature and Culture Units: 4
- SPAN 602 Seminar in Spanish and Latin American Critical Theory Units: 4
- SPAN 603 Seminar in the Cultural History of Spain and Latin America Units: 4
- SPAN 604 Seminar in Gender and Sexuality in Spain and Latin America Units: 4

Doctoral Degree

American Studies and Ethnicity (PhD)

Master of Arts

The department does not accept applicants for a Master of Arts degree. All graduate work in American Studies and Ethnicity at USC is taken as part of a PhD program, and the MA in American Studies and Ethnicity is intended only as a transitional degree in the process of completing requirements for the PhD, although in some cases students may be invited to attempt a terminal MA

After completing at least 30 units, taking AMST 500 and at least one research seminar, maintaining a GPA of at least 3.0, making successful academic progress and taking the qualifying exam, students will either be granted a transitional master's degree and continue on towards the PhD or be granted a terminal master's degree.

Doctor of Philosophy in American Studies and Ethnicity

Application deadline: December 1

Students may earn the PhD in American Studies and Ethnicity by successfully completing the following requirements.

Total Units Required

The student's course work must total at least 64 units. No more than 8 units of 794 Doctoral Dissertation and no more than 4 units of 790 Research may count toward the 64 units.

Course Requirements

AMST 500 Introduction to American Studies and Ethnicity is required of all doctoral students, and it is highly recommended that students complete this course in the first year of residence. Two 600-level graduate seminars are required for the degree, with at least one of these being an interdisciplinary seminar offered by American Studies and Ethnicity. The second 600-level course must be approved by the director of graduate studies.

Foreign Language Requirement

PhD students are required to demonstrate proficiency in one foreign language. This requirement must be met before a student is eligible to take the qualifying examination. Competency may be demonstrated by completing a course in the literature of that language at the 400 or 500 level (with a grade of B [3.0] or better), or by passing a foreign language exam that tests proficiency in reading comprehension and translation.

Methods Requirement

Students are required to show competency in two theoretical methodologies from a list approved by the American Studies and Ethnicity department. In most cases, competency is established by successfully completing one course concentrating in a specific method offered by a department or school, although more advanced courses in that method may be suggested by a qualifying exam committee. The following methodologies fulfill the methods requirement: literary/textual analysis; historical/archival analysis; ethnography; cultural/visual analysis; spatial practices and analysis; and, quantitative analysis.

Disciplinary Requirement

The department of American Studies and Ethnicity believes that the strongest interdisciplinary research is conducted alongside a strong background in at least one disciplinary field by successfully completing at least four graduate courses in one discipline. These four courses must include at least one methodology course, one 600-level or above advanced seminar and two graduate reading courses at the 500- or 600-level. Each of these courses can also fulfill other requirements in the PhD program, particularly the methods requirement and the course requirements listed above.

Screening Procedures

The performance of every first-year doctoral student is formally assessed by the director of the program and the student's assigned adviser at the end of the spring semester and before a student has completed 24 units toward the degree. Unsatisfactory progress toward the degree requires either remedy of the deficiencies or termination of the student's graduate program. After successfully passing the assessment procedures, each student will be encouraged to establish a qualifying exam committee.

At the end of the second year, student progress will be evaluated and each student will formally establish the members of his or her interdisciplinary examination committee from faculty he or she has worked with during the first two years. A meeting of the director of the program, qualifying exam committee members and potential members of this examination committee will take place directly after the second year to identify remaining deficiencies in a student's training and identify solutions before the qualifying examination process begins.

Qualifying Examination

Following completion of course work, the student must sit for a qualifying examination at a time mutually agreed upon by the student and the qualifying exam committee. Students seeking the PhD will select four fields for examination. Every student must be examined by faculty from at least two different disciplines, as well as having one outside member on his or her examination committee.

This five-person examination committee will direct the student toward his or her qualifying examination, which will consist of both written and oral parts, in the third year. Examinations are graded honors, pass, low-pass or fail. The qualifying examination has two phases: written examinations in each field followed by a single oral examination on all four fields. Students with one fail, a low-pass in their dissertation field or more than two low-pass grades will not be permitted to enter the oral phase of the examination process. The qualifying exam committee determines whether the candidate may retake any exam graded low-pass or fail.

Dissertation

After the qualifying examination has been passed, an interdisciplinary dissertation committee of at least three faculty members from the examination committee must approve a dissertation prospectus before full-time research commences. Only at this point is a student admitted to candidacy for the PhD degree and will thereafter concentrate on the dissertation. After students become candidates for the PhD degree, they must register for 794 Doctoral Dissertation each semester thereafter until the dissertation is completed.

The final state of the program is the submission of a dissertation that makes an original and substantial contribution to its field of study. The final copy of the dissertation must conform to the regulations of the Graduate School.

Advisement

Upon entering the program, each student will be assigned an academic adviser from among the faculty closest to the student's own academic interests. Students should seek advice on their program of studies from this academic adviser, the director of the program and the director of graduate and professional studies.

Once a student formally establishes an interdisciplinary examination committee, the chair of this committee becomes the student's main academic adviser, along with other members of this qualifying exam committee. The committee must be in place and approved by the Graduate School at the time the student schedules a qualifying examination.

The dissertation committee becomes the student's main advising unit after the qualifying examination, with the chair having the principal responsibility of advisement. At all stages of the student's progress through the program, the director of the program and the director of graduate and professional studies will be available for advisement and counsel as well.

Transfer of Credit

A transfer of credit statement is prepared by the Degree Progress Department for students admitted to full graduate standing. The application of any available transfer credit is contingent on successful completion of the screening exam and is determined by the director of the program no later than the end of the second year according to the following guidelines: credit will only be allowed for courses (1) from accredited graduate schools; (2) of grade B (3.0 on a four-point scale); (3) constituting a fair and reasonable equivalent to current USC course work at the graduate level and fitting into the program for the degree; and (4) approved by the Graduate School. Graduate transfer credit will not be granted for life experience, credit by examination, noncredit extension courses, correspondence courses, thesis course supervision or creative writing courses.

The maximum number of transfer credits which may be applied toward the MA degree is four units, and a maximum of 24 units of transfer credits may be applied toward the PhD degree. The Graduate School stipulates that transfer units must have been completed within 10 years of admission for the doctoral program to be applied toward the degree.

Anthropology

The Department of Anthropology offers a BA in Anthropology with tracks in cultural anthropology and medical anthropology; a BA in Anthropology with a concentration in visual anthropology; a BA in Global Studies; minor programs in cultural anthropology, medical anthropology, folklore and popular culture, food and society, and Southeast Asia and its people; an MA in Anthropology; an MA in Visual Anthropology; a progressive master's degree in visual anthropology, a certificate in visual anthropology, which accompanies the PhD, and a PhD in Anthropology. The Department of Anthropology encourages students to become involved in ethnographic research and fieldwork while gaining a firm theoretical foundation in the discipline. Special areas of emphasis in the department are provided by visual anthropology, experimental ethnography, medical anthropology, folklore and a global studies major that examines linkages of the global with the local. All of these topical interests are unified by a methodological approach that emphasizes ethnographic fieldwork and a comparative approach to human history.

Graduate Programs

The Center for Visual Anthropology

The primary goals of the Center for Visual Anthropology (CVA) are: to promote the incorporation of visual modes of expression into the academic discipline of anthropology; to promote mutual understanding and collaboration between professionals in the visual media and in anthropology; to create an awareness of the anthropological perspective in documentaries produced for mass audiences; to improve the materials and techniques available for using film in teaching anthropology; to encourage the collection, archiving and analysis of visual documentation for anthropological research.

Policy on Films and Videos Produced by Students

All films and videos produced with school equipment, funding or facilities are the property of USC. Any income from distribution of student-produced films and videos will be used for the benefit of CVA students through production budgets, equipment purchases or scholarships.

Bachelor's Degree

Anthropology (BA)

The BA, Anthropology has three tracks: sociocultural anthropology and archaeology, medical anthropology and biological anthropology. Each track has at least five core courses and five additional required courses depending on the track. The total number of units for each program is 40-44.

In addition to the general education requirements, the following courses are required.

Sociocultural Anthropology and Archaeology Track Requirements

Required Courses, Lower-Division

- ANTH 201g Introduction to Sociocultural Anthropology Units: 4 or
- ANTH 263g Exploring Culture through Film Units: 4
- ANTH 202g Archaeology: Our Human Past Units: 4
- HBIO 200Lg The Human Animal Units: 4

Required Courses, Upper-Division

- ANTH 410 Ethnographic Research Methods Units: 4
- ANTH 411 Thesis Seminar in Ethnographic Analysis Units: 4
- ANTH 440 History of Anthropological Theory Units: 4

Five additional courses are required (20 units)

Five additional courses are required, of which at least two must be topical and at least one must represent an area of world ethnography.

The following Anthropology courses are considered topical:

- ANTH 302 Humans and Ancient Environments Units: 4
- ANTH 305 Childhood, Birth and Reproduction Units: 4
- ANTH 306 Biology of the Non-Human Primates Units: 4
- ANTH 309L Virtual and Digital Culture, Heritage and Archaeology Units: 2, 4
- ANTH 333gm Forms of Folklore Units: 4
- ANTH 338g Food in Culture and Society Units: 4
- ANTH 344g Living with the Past: Encountering History through Ritual, Experience and Practice Units: 4
- ANTH 345 Politics, Social Organization, and Law Units: 4
- ANTH 355 Urban Anthropology Units: 4
- ANTH 360 Symbolic Anthropology Units: 4
- ANTH 365 Life History in Anthropological Perspective Units: 4
- ANTH 370 Sex, Love, and Marriage: An Introduction to Kinship Units: 4
- ANTH 371gm Cross-Cultural Research on Urban Gangs Units: 4
- ANTH 372 Interpretation of Myth and Narrative Units: 4
- ANTH 373 Magic, Witchcraft and Healing Units: 4
- ANTH 375 Anthropology for Consulting and Design Units: 4
- ANTH 393 Directed Internship Units: 2, 3, 4, 5, 6, 7, 8
- ANTH 460 Economic Anthropology Units: 4
- ANTH 470 Multidisciplinary Seminar in Visual Anthropology Units: 4
- ANTH 472 Visual Techniques in Anthropology: Stills Units: 4
- ANTH 476 Ethnographic Film Theory from an Historical Perspective Units: 4
- ANTH 481L GIS for Investigating the Past Units: 4
- HBIO 300 Evolution, Ecology, and Culture Units: 4
- HBIO 405 Evolutionary Medicine Units: 4

The following courses are cross-listed with Anthropology and are also considered topical:

- AMST 395m African American Humor and Culture Units: 4
- SWMS 336 Health, Gender and Ethnicity Units: 4
- SWMS 385m Men and Masculinity Units: 4

The following Anthropology courses are considered to represent an area of world ethnography:

- ANTH 310 Archaeology of the Americas Units: 4
- ANTH 311 Old World Archaeology Units: 4
- ANTH 314g The Nature of Maya Civilization Units: 4
- ANTH 315gw Native North Americans Units: 4
- ANTH 316gmp Native Americans in American Public Life Units: 4
- ANTH 320 Male and Female in Pacific Society Units: 4
- ANTH 322 Anthropology of Bali Units: 4
- ANTH 323 Southeast Asian Cultures Today: Globalization and Multiple Modernities Units: 4
- ANTH 324gw Contemporary China: Cultural Politics and Social Realities Units: 4
- ANTH 326 European Cultures and Societies Units: 4
- ANTH 330m Culture, Gender and Politics in South Asia Units: 4
- ANTH 435 Ethnic Identity and Minority Politics in China Units: 4

Medical Anthropology Track Requirements

Required Courses, Lower-Division

- ANTH 201g Introduction to Sociocultural Anthropology Units: 4 or
- ANTH 263g Exploring Culture through Film Units: 4
- HBIO 200Lg The Human Animal Units: 4

Required Courses, Upper-Division

- ANTH 440 History of Anthropological Theory Units: 4
- ANTH 410 Ethnographic Research Methods Units: 4
- ANTH 411 Thesis Seminar in Ethnographic Analysis Units: 4

Five additional Anthropology courses are required (20 units)

Five additional Anthropology courses are required, which should include at least three courses from the following list, one of which may be lower-division:

- ANTH 101g Body, Mind and Healing: Introduction to Medical Anthropology Units: 4
- ANTH 105g Culture, Medicine and Politics Units: 4
- ANTH 305 Childhood, Birth and Reproduction Units: 4
- ANTH 338g Food in Culture and Society Units: 4
- ANTH 360 Symbolic Anthropology Units: 4
- ANTH 365 Life History in Anthropological Perspective Units: 4
- ANTH 370 Sex, Love, and Marriage: An Introduction to Kinship Units: 4
- ANTH 373 Magic, Witchcraft and Healing Units: 4
- ANTH 380 Sex and Gender in Anthropological Perspective Units: 4
- HBIO 405 Evolutionary Medicine Units: 4
- SWMS 336 Health, Gender and Ethnicity Units: 4
- ANTH 393 Directed Internship Units: 2, 3, 4, 5, 6, 7, 8

Biological Anthropology Track Requirements

Required Courses, Lower-Division

- ANTH 201g Introduction to Sociocultural Anthropology Units: 4 or
- ANTH 263g Exploring Culture through Film Units: 4
- HBIO 200Lg The Human Animal Units: 4

Required Courses, Upper-Division

- ANTH 440 History of Anthropological Theory Units: 4
- ANTH 490x Directed Research Units: 1, 2, 3, 4, 5, 6, 7, 8 or
- ANTH 491 Directed Research for Honors Units: 4
- HBIO 406 Theory and Method in Human Evolutionary Biology Units: 4

Five additional upper-division Anthropology courses are required,

Five additional upper-division Anthropology courses are required, which should include at least three from the following:

- ANTH 305 Childhood, Birth and Reproduction Units: 4
- ANTH 375 Anthropology for Consulting and Design Units: 4
- HBIO 306 Biology of the Non-Human Primates Units: 4
- HBIO 308 Origins and Evolution of Human Behavior Units: 4

Anthropology (Visual Anthropology) (BA)

In addition to the general education requirements, the following courses are required.

Required Courses, Lower-Division (4 units)

- ANTH 263g Exploring Culture through Film Units: 4

Required Courses, Upper-Division (20 units)

- ANTH 410 Ethnographic Research Methods Units: 4
- ANTH 411 Thesis Seminar in Ethnographic Analysis Units: 4
- ANTH 440 History of Anthropological Theory Units: 4
- ANTH 475 Ethnographic Film Analysis Units: 4
- ANTH 476 Ethnographic Film Theory from an Historical Perspective Units: 4

One Visual Anthropology Topical Seminar (4 units)

- ANTH 470 Multidisciplinary Seminar in Visual Anthropology Units: 4
  Or
- ANTH 472 Visual Techniques in Anthropology: Stills Units: 4

Electives in Anthropology (12 units)

12 elective units in Anthropology are required to complete the major.

The following are recommended electives:

- ANTH 312 Documenting Latinx Los Angeles Food Cultures Units: 4
- ANTH 393 Directed Internship Units: 2, 3, 4, 5, 6, 7, 8

Global Studies (BA)

The Global Studies major offers an interdisciplinary perspective on global issues and problems, while also providing opportunities for cross-cultural engagement and real-world learning.

Based in the Department of Anthropology, the Global Studies major prepares students for careers that require cross-cultural proficiency and grounded social analysis, such as international aid and advocacy, policy, law, media and journalism, business, global health, design, or engineering. Along with the required core and collateral courses, the elective units allow sufficient flexibility to complete course prerequisites for regional and area studies programs, law school, and business school.

Experiential Learning

In addition to specific course work, students in the Global Studies major are expected to engage in curricular experiential learning, such as by completing a minimum of one intensive internship (such as 4 credits or more of ANTH 393), one semester of study abroad, or equivalent.

Ideally, a student will spend one summer and one semester engaged in experiential learning prior to the senior year. Approved experiential learning courses include ANTH 325 and ANTH 393, as well as Problems Without Passports and many Maymester courses. Your academic adviser can provide more information on approved experiential learning options.

Language Requirement

Language proficiency is an important foundation for cross-cultural learning. For this reason, Global Studies majors are required to have or acquire at least intermediate conversational proficiency in a language not already familiar to them. The language requirement can be fulfilled in several ways: by completing a study abroad language immersion program at least eight weeks in length, by completing an oral examination administered by a qualified language instructor, or by completing an additional 8 units of language courses (in addition to the 8 units required of all USC Dornsife students).

Capstone Project and Seminar

The capstone project is the final requirement for the Global Studies major. It is a cumulative project that draws upon the experiential learning and coursework completed for the major. Students complete the capstone project while enrolled in an approved 4-unit capstone seminar. See the Global Studies program webpage for more information on the capstone.

Honors Program in Global Studies

Global Studies majors who have maintained a minimum GPA of 3.5 are strongly encouraged to explore the Honors Program in Global Studies, which entails writing an honors thesis and earning a grade of A- or higher in ANTH 485. We encourage students who meet the qualifications to consider the program as early as their fourth or fifth semesters. The full requirements for the Honors Program can be found on the Global Studies webpage.

Required Core Courses (16 units)

Global Studies majors are required to complete a total of 36 units, including 16 units of required course work in Anthropology, and at least 20 units of elective course work chosen within the student's thematic or regional focus.

Lower-Division (4 Units)

- ANTH 205g Introduction to Global Studies and Cross-cultural Research Units: 4

Upper-Division (4 Units)

- ANTH 415 Global Issues Seminar Units: 4

Research Methods (4 units)

One 4-unit research methods course.

- ANTH 325 Global Studies Research Methods Units: 4
  Or
- ANTH 375 Anthropology for Consulting and Design Units: 4
  Or
- ANTH 410 Ethnographic Research Methods Units: 4

Capstone Seminar (4 units)

4-unit capstone seminar. The following are approved capstone seminar courses for the Global Studies Major:

Offered each Spring semester:

- ANTH 485 Global Studies Capstone Seminar Units: 4

Offered irregularly or with prior departmental approval:

- ANTH 411 Thesis Seminar in Ethnographic Analysis Units: 4
- ANTH 393 Directed Internship Units: 2, 3, 4, 5, 6, 7, 8
- ANTH 470 Multidisciplinary Seminar in Visual Anthropology Units: 4
- ANTH 490x Directed Research Units: 1, 2, 3, 4, 5, 6, 7, 8
- ANTH 491 Directed Research for Honors Units: 4

Elective Courses (16 Units)

At least 16 units of elective course work in the humanities and social sciences, chosen within the student's thematic or regional focus. The academic adviser can assist with selecting appropriate electives.

Approved Humanities Electives:

- AMST 250gmw The African Diaspora Units: 4
- COLT 102g On Location: The Place of Literature in Global Cultures Units: 4

- COLT 250g Cultures of Latin America Units: 4
- COLT 264gp Asian Aesthetic and Literary Traditions Units: 4
- COLT 303 Globalization: Culture, Change, Resistance Units: 4
- COLT 379 Nationalism and Postcolonialism in Southeast Asian Cinema Units: 4
- COLT 382gw Zen and Daoism in Asian Literature Units: 4
- COLT 445 Europe and the Writing of Others Units: 4
- FREN 347g Race, Gender and Power in Francophone Literature Units: 4
- HIST 180gw The Middle East Units: 4
- HIST 333 Korea: The Modern Transformation Units: 4
- HIST 369 History of the Indigenous Peoples in the Americas Units: 4
- HIST 372 Modern Latin America Units: 4
- HIST 384 Popular Culture in the Middle East Units: 4
- HIST 413 The Age of Revolutions Units: 4
- HIST 456 Race, Slavery, and the Making of the Atlantic World Units: 4
- HIST 470 The Spanish Inquisition in the Early Modern Hispanic World Units: 4, 2 years
- IR 376 U.S.-Japan Encounters: War, Trade, and Culture Units: 4
- REL 315 Thought and Life of Islam Units: 4
- REL 316 Women and the Islamic Tradition Units: 4
- REL 330 Introduction to the Religions of India Units: 4
- REL 331 Religions of East Asia Units: 4
- REL 332 Religions of Japan Units: 4
- REL 334g Religion and Colonial Encounter Units: 4
- REL 415 Seminar in Buddhism Units: 4
- REL 417 Seminar in South Asian Religions Units: 4

Approved Social Science Electives:

- ANTH 235g The Changing Pacific: History, Culture, Politics Units: 4
- ANTH 250g Race and Sexual Politics in Southeast Asia Units: 4
- ANTH 273g Shamans, Spirits and Ancestors: Non-Western Religious Traditions Units: 4
- ANTH 301g The Global Performance of Healing Units: 4
- ANTH 314g The Nature of Maya Civilization Units: 4
- ANTH 324gw Contemporary China: Cultural Politics and Social Realities Units: 4
- ANTH 330m Culture, Gender and Politics in South Asia Units: 4
- ANTH 333gm Forms of Folklore Units: 4
- ANTH 345 Politics, Social Organization, and Law Units: 4
- ANTH 337 Anthropology of Warfare Units: 4
- ANTH 338g Food in Culture and Society Units: 4
- ANTH 344g Living with the Past: Encountering History through Ritual, Experience and Practice Units: 4
- ANTH 355 Urban Anthropology Units: 4
- ANTH 357g Cultures of Genocide, Cultures of Care Units: 4
- ANTH 460 Economic Anthropology Units: 4
- ANTH 373 Magic, Witchcraft and Healing Units: 4
- ANTH 435 Ethnic Identity and Minority Politics in China Units: 4
- ANTH 445 African American Anthropology Units: 4
- AMST 250gmw The African Diaspora Units: 4
- IR 210gw International Relations: Introductory Analysis Units: 4
- IR 305w Managing New Global Problems Units: 4
- IR 308w Economic Globalization Units: 4
- IR 309 Global Governance Units: 4
- IR 310 Peace and Conflict Studies Units: 4
- IR 323 Politics of Global Environment Units: 4
- IR 358 The Asia Pacific in World Affairs Units: 4
- IR 361 South and Southeast Asia in International Affairs Units: 4
- IR 362 The International Relations of the Contemporary Middle East Units: 4
- IR 364 The Political Economy of Latin American Development Units: 4
- IR 367 Africa in International Affairs Units: 4
- IR 371 Global Civil Society: Non-State Actors in World Politics Units: 4
- IR 439 Political Economy of Russia and Eurasia Units: 4
- IR 463 Islam and Arab Nationalism Units: 4
- POSC 120 Comparative Politics Units: 4
- POSC 248gw Human Rights Units: 4
- POSC 250 Critical Issues in Comparative Politics Units: 4
- POSC 255g Cultures, Civilizations and Ethnicities in World Politics Units: 4
- POSC 260 Global Ethnic Politics Units: 4
- POSC 351 Middle East Politics Units: 4
- POSC 352 Politics of Southeast Asia Units: 4
- POSC 355 Politics of East Asia Units: 4
- POSC 358 Politics of Sub-Sahara Africa Units: 4
- POSC 363 Cities and Regions in World Politics Units: 4
- POSC 365 World Political Leadership Units: 4
- POSC 366 Terrorism and Genocide Units: 4
- POSC 377 Asian Political Thought Units: 4
- POSC 453 Political Change in Asia Units: 4
- SWMS 336 Health, Gender and Ethnicity Units: 4

Minor

Cultural Anthropology Minor

Required Courses, Lower-Division

- ANTH 201g Introduction to Sociocultural Anthropology Units: 4 or
- ANTH 263g Exploring Culture through Film Units: 4

Required Course, Upper-Division

- ANTH 440 History of Anthropological Theory Units: 4

Two Courses To Be Selected From:

- ANTH 345 Politics, Social Organization, and Law Units: 4
- ANTH 360 Symbolic Anthropology Units: 4
- ANTH 370 Sex, Love, and Marriage: An Introduction to Kinship Units: 4
- ANTH 460 Economic Anthropology Units: 4
- One world area specialization course Units: 4

Folklore and Popular Culture Minor

The minor in folklore and popular culture provides an academic foundation for students interested in the many genres in the field including folktales, myths, legends, proverbs, jokes, games, folk medicine, and folk and indigenous musical traditions, from around the world. Through interdisciplinary course work, students will learn techniques of collecting, analyzing and interpreting the traditional expressive culture of diverse groups. Students will analyze the interrelationships of folklore and national, regional and ethnic identities. After becoming acquainted with methods of interpreting different forms of folklore, students will see how value systems are reflected in the data, so that students understand the ideological underpinnings of group formation, group identity, conflict and strategies for resolution. By focusing on the individual, informal culture, and the tension between the individual and myriad groups to which they belong, folklore provides yet another window into understanding how individuals function in complex societies. Since the field is historically grounded and culturally comparative, folklore provides important perspectives on the human condition.

Course Requirements

For the minor in folklore and popular culture, students must complete five courses, as distributed below.

Core Requirement

- ANTH 333gm Forms of Folklore Units: 4

Lower-Division Courses (Choose One)

- AMST 285gm African American Popular Culture Units: 4
- ANTH 101g Body, Mind and Healing: Introduction to Medical Anthropology Units: 4

- ANTH 140g Mesoamerican Cosmovision and Culture Units: 4
- ANTH 240gm Representing 9/11 and Hurricane Katrina Units: 4
- ANTH 263g Exploring Culture through Film Units: 4
- ANTH 273g Shamans, Spirits and Ancestors: Non-Western Religious Traditions Units: 4
- CLAS 280gp Classical Mythology in Art and Literature Units: 4
- COMM 206 Communication and Culture Units: 4
- HIST 271g Telling Native American Stories Units: 4
- MUSC 102gw World Music Units: 4

Upper-Division Courses (Choose Three)

- AMST 330m Black Music and the Political Imagination Units: 4
- AMST 395m African American Humor and Culture Units: 4
- ANTH 301g The Global Performance of Healing Units: 4
- ANTH 332g Anthropology and Narrative Medicine Units: 4
- ANTH 360 Symbolic Anthropology Units: 4
- ANTH 370 Sex, Love, and Marriage: An Introduction to Kinship Units: 4
- ANTH 372 Interpretation of Myth and Narrative Units: 4
- ANTH 373 Magic, Witchcraft and Healing Units: 4
- ANTH 409 Indigenous Languages in the Contemporary World Units: 4
- ANTH 445 African American Anthropology Units: 4
- ANTH 490x Directed Research Units: 1, 2, 3, 4, 5, 6, 7, 8
- CLAS 325 Ancient Epic Units: 4
- CLAS 380 Approaches to Myth Units: 4
- COLT 311 Epic Units: 4
- COLT 312 Heroes, Myths and Legends in Literature and the Arts Units: 4
- COLT 365 Literature and Popular Culture Units: 4
- COMM 384 Interpreting Popular Culture Units: 4
- COMM 440 Music as Communication Units: 4
- DANC 302g Hip Hop Don't Stop: Black Social Dance Culture and Media Units: 4
- GERM 346 German Folklore and Popular Culture Units: 4
- JS 378 Jewish Magic in the Ancient World Units: 4
- MDA 330 The Armenian Heritage: History, Arts, and Culture Units: 4
- MUSC 444 American Roots Music: History and Culture Units: 4
- POSC 441m Cultural Diversity and the Law Units: 4
- SPAN 385 The Culture of Food in Hispanic Los Angeles Units: 4

Food and Society Minor

The interdisciplinary minor in Food and Society at USC explores food as a complex social phenomenon, shaped by human knowledges, practices, and ecologies. Grounded in Anthropology, the minor in Food and Society examines the diversity that characterizes human relationships to food, and learn to apply the tools of social analysis to gain critical insight into the complex social forces that shape food systems.

Required:

- ANTH 338g Food in Culture and Society Units: 4

One elective from the following list of lower-division courses:

- ANTH 101g Body, Mind and Healing: Introduction to Medical Anthropology Units: 4
- ANTH 201g Introduction to Sociocultural Anthropology Units: 4
- ANTH 205g Introduction to Global Studies and Cross-cultural Research Units: 4
- ANTH 263g Exploring Culture through Film Units: 4
- BISC 102Lgx Humans and Their Environment Units: 4
- BISC 115Lxg The Biology of Food Units: 4
- HP 230 Nutrition and Health Units: 4
- JS 258gp Food, Faith and Conflict Units: 4
- REL 136g Sense and Sensuality in Indian Religions and Culture Units: 4

Three electives from the following list of upper-division courses:

- AMST 343 Food, Health and Culture in Los Angeles Units: 4
- ANTH 301g The Global Performance of Healing Units: 4
- ANTH 302 Humans and Ancient Environments Units: 4
- ANTH 333gm Forms of Folklore Units: 4
- ANTH 338g Food in Culture and Society Units: 4
- ANTH 360 Symbolic Anthropology Units: 4
- ANTH 393 Directed Internship Units: 2, 3, 4, 5, 6, 7, 8
- ANTH 460 Economic Anthropology Units: 4
- HBIO 300 Evolution, Ecology, and Culture Units: 4
- JOUR 458 Media, Food and Culture Units: 4
- PPD 416 Food Policy and Planning Units: 2
- REL 303g Exploring Ancient Ways of Living: Experimental Archaeology Units: 4
- REL 475 Religion, Material Culture and the Senses Units: 4
- SPAN 316x Spanish for the Professions Units: 4
- SPAN 385 The Culture of Food in Hispanic Los Angeles Units: 4
- SWMS 389 Gender, Sexuality and Food Cultures in the U.S. Units: 4

Electives by petition

Students may also identify elective courses that fit within the following four categories and petition for their approval toward the minor. Contact your academic or program adviser for information.

Culture and History

Courses that offer a cultural, historical, or humanistic perspective on specific communities, foodways or practices. Exemplary courses:

- CORE 301 Modes of Inquiry Units: 4
  (Section: *We are What we Eat: Food & Class in Los Angeles*. The course explores class issues embedded in LA's international food scene.)
- GESM 130g Seminar in Social Analysis Units: 4
  (Sections: *Food -- Then and Now*; *Food and Charity*)
- GESM 131g Seminar in Social Analysis Units: 4
  (Section: *Food, Society and Health*)

Nature and human life

Courses that examine the relationship between humans and nature; it pertains to food or nutrition, including topics in biology, ecology, sustainability, environmental studies, agriculture and civil engineering, etc. Exemplary courses:

- BISC 115Lxg The Biology of Food Units: 4
- CE 451 Water Resources and Coastal Engineering Units: 4

Politics and policy

Courses that provide insight into the relationship between food politics and policy including issues in economic development, trade and food security, food deserts, poverty and public health, etc. Exemplary courses:

- ECON 344 Economic Development of Sub-Saharan Africa Units: 4
- PPD 416 Food Policy and Planning Units: 2

Art, craft and practice

Courses that provide a perspective on food as art, craft or creative practice, including documenting or representing food in social experience. Exemplary courses:

- COMM 400 Seminar in Communication Units: 4
- REL 303g Exploring Ancient Ways of Living: Experimental Archaeology Units: 4

Medical Anthropology Minor

Medical anthropology examines the body, illness and healing from a cultural perspective, including comparative studies of folk healing systems, curing rituals and Western biomedical practices.

Required Course (4 units)

- ANTH 101g Body, Mind and Healing: Introduction to Medical Anthropology Units: 4
- HBIO 200Lg The Human Animal Units: 4

One Course (4 Units) To Be Selected From:

- ANTH 105g Culture, Medicine and Politics Units: 4
- ANTH 125g Social Issues in Human Sexuality and Reproduction Units: 4
- ANTH 201g Introduction to Sociocultural Anthropology Units: 4
- ANTH 273g Shamans, Spirits and Ancestors: Non-Western Religious Traditions Units: 4

Upper-Division Courses: Four Of The Following (16 Units):

- ANTH 305 Childhood, Birth and Reproduction Units: 4
- ANTH 360 Symbolic Anthropology Units: 4
- ANTH 373 Magic, Witchcraft and Healing Units: 4
- ANTH 375 Anthropology for Consulting and Design Units: 4
- ANTH 380 Sex and Gender in Anthropological Perspective Units: 4
- ANTH 440 History of Anthropological Theory Units: 4
- ANTH 445 African American Anthropology Units: 4
- HBIO 405 Evolutionary Medicine Units: 4
- OT 375 The Narrative Structure of Social Action: Narrative, Healing and Occupation Units: 4
- SWMS 336 Health, Gender and Ethnicity Units: 4

Southeast Asia and its People Minor

This minor allows students to supplement more narrowly defined departmental majors with a multidisciplinary focus on an area of great importance both to global developments and to cultural heritage issues in California and the United States. There is no language requirement and no required courses, but students must take one lower and four upper-division courses dealing with Southeast Asian cultures and people of Southeast Asian heritage in the United States. The focus of this new minor is on transnational connections and the new area of global culture.

Lower Division

Choose one class (4 units)

- AMST 220gmw The Making of Asian America Units: 4
- ANTH 250g Race and Sexual Politics in Southeast Asia Units: 4
- ANTH 273g Shamans, Spirits and Ancestors: Non-Western Religious Traditions Units: 4
- POSC 120 Comparative Politics Units: 4
- HIST 265gw Racism, Sexism, and the Law Units: 4

Upper Division

Choose four classes (16 units), including at least one class from each list.

Southeast Asia

- ANTH 322 Anthropology of Bali Units: 4
- ANTH 373 Magic, Witchcraft and Healing Units: 4
- COLT 379 Nationalism and Postcolonialism in Southeast Asian Cinema Units: 4
- IR 315 Ethnicity and Nationalism in World Politics Units: 4
- POSC 352 Politics of Southeast Asia Units: 4
- POSC 377 Asian Political Thought Units: 4
- REL 330 Introduction to the Religions of India Units: 4
- REL 334g Religion and Colonial Encounter Units: 4

Southeast Asia and the United States

- HIST 344 The Vietnam War, 1945–1975 Units: 4
- IR 424w Citizenship and Migration in International Politics Units: 4
- POSC 328 Asian American Politics Units: 4
- REL 336w Re-Viewing Religion in Asian America Units: 4

Note:

Courses have no prerequisites.

Master's Degree

Anthropology (MA)

Degree Requirements

Students are not accepted for the MA in Anthropology alone, but the MA in Anthropology can be granted after two years of course work and satisfactory completion of the screening exams.

Required Courses

- ANTH 501 History and Foundations of Anthropology Units: 4
- ANTH 502 Contemporary Theory in Anthropology Units: 4
- ANTH 503 Problematizing Locality: Comparative Ethnographies Units: 4
- ANTH 562 The Practice of Ethnography Units: 4 (or another methods course approved by the supervisor for primatologists)
- Four 4-unit graduate-level courses in anthropology Units: 16

Total units: 32

Visual Anthropology (MVA)

Students in the Masters of Visual Anthropology (MVA) program at USC pursue an academically rigorous course of study, focusing on Anthropology's applications to the production of visual media and documentary. MVA students learn qualitative research methods, contemporary anthropological theory, and ethnographic film history and theory, while gaining hands-on experience in anthropological media production and non-fiction cinematic practice.

The MVA is designed as an intensive, full-time program that spans a calendar year, including the summer after coursework, during which students complete a 20- to 30-minute thesis film based on original ethnographic research. There is also the option to complete the MVA degree over two years of study, providing students who have work or other obligations more flexibility in undertaking the course work and field research required for the degree.

Required Courses

- ANTH 502 Contemporary Theory in Anthropology Units: 4
- ANTH 562 The Practice of Ethnography Units: 4
- ANTH 575 Seminar in Ethnographic Film Units: 4
- ANTH 576L Anthropological Media Seminar Units: 4
- ANTH 577L Advanced Anthropological Media Seminar Units: 4
- ANTH 595 Ethnographic Postproduction Units: 4
- IML 520 Non-Fiction Cinematic Practice I Units: 2
- IML 521 Non-Fiction Cinematic Practice II Units: 2

One graduate course in Anthropology or Visual Studies (4 units)

All elective courses must be approved by the Anthropology Graduate Studies Adviser. Recommended courses:

- ANTH 501 History and Foundations of Anthropology Units: 4
- ANTH 503 Problematizing Locality: Comparative Ethnographies Units: 4
- ANTH 509 Key Topics in Linguistic Anthropology Units: 4
- ANTH 510 Urban Anthropology Units: 4
- ANTH 601 Feminist Issues in Anthropology Units: 4
- ANTH 602 The Anthropology of Popular Culture Units: 4
- ANTH 603 Experiments in Ethnography Units: 4
- ANTH 604 Bodies and Practices Units: 4
- ANTH 605 Race: Performance, Politics, Cultural Production Units: 4
- ANTH 606 Seminar on Nationalism and Ethnicity Units: 4
- MDA 501 Introduction to Visual Studies: Methods and Debates Units: 4
- MDA 599 Special Topics Units: 2, 3, 4

Total units: 32

Note:

The final documentary project must be submitted in rough cut

format by the end of August following the completion of all course work in May.

Graduate Certificate

Visual Anthropology Certificate

Students can be admitted to the certificate program in visual anthropology after they have completed their PhD qualifying examinations. The certificate is an interdisciplinary program, with training in digital video production provided by the USC School of Cinematic Arts. Professional skills in video production are designed to help students present their research results to a wider audience and to use visual media effectively in communicating ideas about anthropology. After completing fieldwork, students take a year-long editing sequence and practicum (ANTH 576 and ANTH 577) to finish a visual project, which will complement the written dissertation.) A total of 16 units is required.

Required Courses

- ANTH 562 The Practice of Ethnography Units: 4
- ANTH 575 Seminar in Ethnographic Film Units: 4
- ANTH 576L Anthropological Media Seminar Units: 4
- ANTH 577L Advanced Anthropological Media Seminar Units: 4

Note:

Students may begin to take course work required for the certificate in their first year, but they cannot complete their project until they have satisfied other requirements for doctoral candidacy. The Certificate in Visual Anthropology is received at the same time as the PhD.

Doctoral Degree

Anthropology (PhD)

The Anthropology Department's PhD program offers students a strong foundation in the history, theory and practice of anthropology, while enabling them to develop formally innovative dissertations.

Before being admitted to PhD candidacy, the student must fulfill the language requirement, present a portfolio and pass the qualifying examination. Having completed this work, the student will conduct fieldwork and write the doctoral dissertation.

Language Requirement

Students are required to demonstrate competence in one or more foreign languages, to be selected in consultation with the faculty committee.

Required Course Work

The student's course work must total at least 60 units. No more than 8 units of 794 Doctoral Dissertation may count toward the 60 units.

Additional Requirements

In addition to specific course work, PhD students are expected to engage in relevant practical training, ideally by completing 2 or more units of ANTH 596 Internship for Curricular Practical Training or equivalent.

Additional information about the PhD can be found on the Anthropology program website.

Degree Requirements

The student's coursework must total at least 60 units. No more than 8 units of 794 Doctoral Dissertation may count toward the 60 units.

Required Courses

- ANTH 501 History and Foundations of Anthropology Units: 4
- ANTH 502 Contemporary Theory in Anthropology Units: 4
- ANTH 562 The Practice of Ethnography Units: 4
- ANTH 593 Practicum for Teaching in Anthropology Units: 2
- ANTH 603 Experiments in Ethnography Units: 4 , or equivalent
- At least 6 additional graduate courses, to be selected in consultation with the committee (24 units)

Research

Minimum 8 units required.

- ANTH 790 Research Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12

Dissertation

8 units required.

- ANTH 794a Doctoral Dissertation Units: 2
- ANTH 794b Doctoral Dissertation Units: 2

Art History

Art history combines the study of art with the study of culture more broadly. The undergraduate major receives sound training in the history of art and visual culture and also gains a basis in other humanistic disciplines. The curriculum is designed to guarantee students a general knowledge of art – western, eastern, and global – and to offer a variety of upper-division courses in specialized areas. Majors are exposed to a diversity of theoretical approaches and encouraged to sharpen their powers of visual analysis, their critical and conceptual thinking, and their writing and speaking skills. This foundation has enabled many art history graduates to pursue advanced degrees in nationally recognized programs, to enter diverse fields, including law or business, and to pursue careers in the arts. A special feature of the undergraduate program is the apprenticeship, which affords upper-division students the opportunity to work in the professional art world in return for elective credit. Students gain valuable job skills in local museums, galleries, auction houses and art foundations. The department is firmly committed to equity and diversity, both in practice, and when it comes to our objects of study.

Undergraduate Degree

Art History Honors Program

Candidates for the BA in the Department of Art History can earn a designation on their transcripts of departmental honors. Admission to the Honors Program is required.

Prerequisites: 3.5 overall GPA, 3.5 major GPA or better, completion of at least three upper-division art history courses at

the time of admission, submission of an application form to the undergraduate faculty adviser.

Required for departmental honors: maintain GPA requirements stated above and complete AHIS 495a and AHIS 495b Undergraduate Honors Thesis.

Interdisciplinary Minor in Early Modern Studies

This minor brings together the resources of the departments of English, History and Art History to study the literatures and cultures of Europe and the Americas from the late medieval period to 1800. For complete listing of requirements, see the Department of English.

Graduate Degrees

Graduate students in art history pursue a wide range of subject matter, using a variety of methodologies and techniques. Graduates may also pursue parallel interests by taking courses in outside departments such as history, classics, East Asian languages and cultures, Slavic languages and literatures, French, German, Italian and others. Graduate students are encouraged to participate in annual conferences and symposia. Travel grants are available through the department. In addition to image databases, electronic access to university library catalogues, courtesy privileges and cross-registration of course work at UCLA, our graduate students have access to numerous research opportunities in and around Southern California at institutions such as the Los Angeles County Museum of Art, the Huntington Library, Art Collections and Botanical Gardens, the Archives of American Art, the Institute for Modern Russian Culture, the J. Paul Getty Museum and the Getty Research Institute, the Museum of Contemporary Art, Los Angeles, and the USC Pacific Asia Museum.

Admission

Admission to all programs is granted through the Graduate School in conjunction with the Department of Art History; all applicants must meet the requirements of both. Interviews are strongly encouraged.

All applicants must complete the department's supplemental application form.

Complete details for all graduate programs can be found in the *Guidelines for Graduate Studies in Art History*, obtainable upon admission.

Areas of Concentration

Greek and Roman Art and Archaeology, Roman/Late Roman and Early Byzantine Art and Architecture, Medieval Art and Archaeology, Renaissance Art, Baroque Art, 18th and 19th Century European Art, 19th and 20th Century British and Transatlantic Studies, American Art and Visual Culture, Modern and Contemporary Art, Modern European and American Architecture, Design and Material Culture, Art and Architecture of China and Central Asia, Japanese Art, Latin American Art, Art of the Ancient Americas, Modern Visual Culture, and History of Photography.

Bachelor's Degree

Art History (BA)

In art history, undergraduates are provided with a sound, broad foundation in art from a variety of offerings. On this basis, exploration of the art of many eras and cultures proceeds in a program designed to develop an awareness of the integral role played by art as an expression of the human condition and society throughout history. A grade of C or higher is required in departmental courses for all undergraduate majors.

Curriculum Requirements

The Bachelor of Arts in Art History requires 128 units.

General Education and Diversity Requirements

Candidates for the Bachelor of Arts in Art History must complete the general education and diversity requirements of the USC Dornsife College of Letters, Arts and Sciences.

Major Requirements

The major requires 40 units as follows.

Lower-Division Requirements (8 Units)

- AHIS 120gp Foundations of Western Art: Prehistoric to Renaissance Units: 4 or
- AHIS 121gp Foundations of Western Art: Renaissance to Contemporary Units: 4

Choose one course from:

- AHIS 125gp Arts of Asia I: Antiquity to 1300 Units: 4
- AHIS 126g Arts of Asia II: 1300 to the Present Units: 4
- AHIS 127g Arts of the Ancient Americas Units: 4
- AHIS 128gp Arts of Latin America Units: 4

Total units: 8

Additional Requirements (32 units)

- AHIS 494 Undergraduate Proseminar in Art History Units: 4 is required

Seven additional courses

Seven additional courses to include five courses with a minimum of one in each of four out of the following five areas of study, only one of which may be at the 200 level.

Greek and Roman art and archaeology

- AHIS 201g Digging into the Past Units: 4
- AHIS 321 Greek Art and Archaeology Units: 4
- AHIS 322 Roman Art and Archaeology Units: 4

Medieval art

- AHIS 220g Medieval Visual Culture Units: 4
- AHIS 330 Medieval Art Units: 4

Renaissance and Baroque art

- AHIS 230 Art and Culture in Early Modern Europe Units: 4
- AHIS 304gm Art, Power and Identity in Renaissance Italy Units: 4
- AHIS 343 Renaissance Art Units: 4
- AHIS 344 Baroque Art Units: 4

Modern and contemporary art

- AHIS 250gm Art, Modernity and Difference Units: 4
- AHIS 255g Culture Wars: Art and Social Conflict in the Modern World Units: 4
- AHIS 270 L.A. Now: Contemporary Art in Los Angeles Units: 4
- AHIS 361 British Modernism, 1780-1918 Units: 4
- AHIS 363m Contemporary Art and the Culture Wars Units: 4
- AHIS 364 Myths, Arts, Realities: Visual Culture in California, 1849 to the Present Units: 4
- AHIS 365m African American Art Units: 4
- AHIS 366g Picturing Democracy: American Art and Visual Culture, 1750-1900 Units: 4
- AHIS 367g Early American Modernism: American Art and Visual Culture, 1876-1939 Units: 4
- AHIS 368 Modern Art I: 1700–1850 Units: 4
- AHIS 369 Modern Art II: 1851–1940 Units: 4
- AHIS 370g Modern Art III: 1940 to the Present Units: 4
- AHIS 373g History and Theory of Photography Units: 4

Non-European traditions

- AHIS 282 Korean Art Units: 4
- AHIS 319 Mesoamerican Art and Culture Units: 4
- AHIS 376 Introduction to African Art Units: 4
- AHIS 381g Visual Cultures of Asia Units: 4
- AHIS 384 Early Chinese Art Units: 4
- AHIS 385 Later Chinese Art Units: 4
- AHIS 386 Early Japanese Art Units: 4
- AHIS 387 Later Japanese Art Units: 4

and two that must be at the 400-level

- AHIS 400x Undergraduate Apprenticeship Units: 2 counts for elective credit only and may not be applied to the major.

- AHIS 494 Undergraduate Proseminar in Art History Units: 4 (the capstone course) may be taken in either the junior or senior year.

Note:
The following courses require written permission of the chair of the Art History Department: AHIS 495a Undergraduate Honors Thesis (2-2), AHIS 495b Undergraduate Honors Thesis (2-2) and AHIS 499 Special Topics (2–4, max 8).

Minor

Art History Minor

Art history combines the study of art with the study of culture broadly conceived. The art history minor offers a concentrated course of study that includes a variety of objects from different historical periods and cultures in relation to their makers, patrons, viewers and critics. Students in the minor are trained to analyze visual images and information through a process of intensive looking, reading, research and writing.

Lower-division Curriculum (8 units)

Choose Two Lower-Division Courses; Only One May Be At The 200 Level

- AHIS 120gp Foundations of Western Art: Prehistoric to Renaissance Units: 4
- AHIS 121gp Foundations of Western Art: Renaissance to Contemporary Units: 4
- AHIS 125gp Arts of Asia I: Antiquity to 1300 Units: 4
- AHIS 126g Arts of Asia II: 1300 to the Present Units: 4
- AHIS 127g Arts of the Ancient Americas Units: 4
- AHIS 128gp Arts of Latin America Units: 4
- AHIS 201g Digging into the Past Units: 4
- AHIS 220g Medieval Visual Culture Units: 4
- AHIS 230 Art and Culture in Early Modern Europe Units: 4
- AHIS 250gm Art, Modernity and Difference Units: 4
- AHIS 255g Culture Wars: Art and Social Conflict in the Modern World Units: 4
- AHIS 270 L.A. Now: Contemporary Art in Los Angeles Units: 4
- AHIS 282 Korean Art Units: 4

Upper-division Requirement (16 units)

Choose from 300- and 400-level AHIS courses. At least one course must be at the 400 level.

Modern Art Markets and Ethics Minor

The Modern Art Markets and Ethics minor is designed for students, including Art History majors, who are drawn to an interdisciplinary study of modern art markets. The minor allows students to consider the intersection of law, ethics, and cultural studies. It offers students an interdisciplinary education in art institutions, and ethical discourses that surround the production, display, circulation, and consumption of art, both past and present. The minor will help students develop the critical skills of reading, writing and analysis crucial to a liberal education. Students will gain theoretical and analytical perspectives on ethical, political, and social issues relevant to art as they explore how the market informs and shapes our encounter with artistic objects.

Requirements

Lower-Division Requirement (4 units)

Choose one. The lower division course provides students with a broad knowledge of art. Students may take the general introductory to art history (including surveys of Western, Asian, Latin American art), or they may choose a course that focuses on issues of art, institutions, and identity in the modern period (AHIS 250gm and AHIS 255g).

- AHIS 120gp Foundations of Western Art: Prehistoric to Renaissance Units: 4
- AHIS 121gp Foundations of Western Art: Renaissance to Contemporary Units: 4
- AHIS 125gp Arts of Asia I: Antiquity to 1300 Units: 4
- AHIS 126g Arts of Asia II: 1300 to the Present Units: 4
- AHIS 127g Arts of the Ancient Americas Units: 4
- AHIS 128gp Arts of Latin America Units: 4
- AHIS 250gm Art, Modernity and Difference Units: 4
- AHIS 255g Culture Wars: Art and Social Conflict in the Modern World Units: 4

Upper-Division Courses on Modern Art (8 units)

Choose two. These courses will introduce students to the development of art and its relationship to modern markets in two distinct time periods. This requirement can be satisfied either at USC or through the Sotheby's Institute of Art, London - United Kingdom. Students interested in this option should consult with an Art History adviser.

- AHIS 368 Modern Art I: 1700–1850 Units: 4
- AHIS 369 Modern Art II: 1851–1940 Units: 4
- AHIS 370g Modern Art III: 1940 to the Present Units: 4

Critical Electives (8 units)

Choose two.

- AHIS 470 Studies in Contemporary Art Units: 4
- AHIS 488 Topics in Art Conservation Units: 4
- AMST 342m Law and Identities Units: 4
- AMST 446 Cultural Circuits in the Americas Units: 4
- BUAD 304 Organizational Behavior and Leadership Units: 4
- COMM 454 Media, Money, and Society Units: 4
- ECON 434 Economic Analysis of Law Units: 4
- ECON 450 International Trade Units: 4
- FBE 458 Law of Forming, Financing and Managing Businesses Units: 4
- IR 308w Economic Globalization Units: 4
- IR 309 Global Governance Units: 4
- IR 324 Multinational Enterprises and World Politics Units: 4
- MOR 385gm Business, Government and Society Units: 4
- MOR 421 Social and Ethical Issues in Business Units: 4
- POSC 444 Civil and Political Rights and Liberties Units: 4
- REL 304 Ethics and Global Heritage Units: 4
- REL 365 Global Ethics Units: 4

Capstone Course (4 units)

- AHIS 301 Guardians of the Past? Art Preservation, Ethics, and the Law Units: 4

Total Units: 24

Requirements for Art History Majors

Lower-Division Requirement (4 units)

- ECON 238xg Political Economy and Social Issues Units: 4

Upper-Division Electives: Ethics and Modern Institutions (8 units)

Choose two.

- AHIS 488 Topics in Art Conservation Units: 4 *
- AMST 342m Law and Identities Units: 4
- BUAD 304 Organizational Behavior and Leadership Units: 4
- ECON 450 International Trade Units: 4
- FBE 458 Law of Forming, Financing and Managing Businesses Units: 4
- IR 309 Global Governance Units: 4
- IR 324 Multinational Enterprises and World Politics Units: 4
- MOR 385gm Business, Government and Society Units: 4
- POSC 444 Civil and Political Rights and Liberties Units: 4
- REL 304 Ethics and Global Heritage Units: 4
- REL 365 Global Ethics Units: 4

Upper-Division Electives: Markets and Social Relations (8 units)

Choose two.

- AHIS 470 Studies in Contemporary Art Units: 4 *
- AMST 446 Cultural Circuits in the Americas Units: 4
- COMM 454 Media, Money, and Society Units: 4
- ECON 434 Economic Analysis of Law Units: 4
- IR 308w Economic Globalization Units: 4
- MOR 421 Social and Ethical Issues in Business Units: 4

Note:

*Art History majors may choose a maximum of one elective in Art History.

Capstone Course (4 units)

- AHIS 301 Guardians of the Past? Art Preservation, Ethics, and the Law Units: 4

Total Units: 24

Visual Culture Minor

More than ever, students of today need the critical skills and intellectual breadth required to describe, analyze, and evaluate visual culture, which encompasses a broad range of visual material, artifacts, and media. Courses within the minor are organized around two foundational questions: how do we understand the production, dissemination, and consumption of visual media?; what do the objects of visual culture tell us about the experience and expression of cultural and social diversity?

The minor is open to all undergraduate majors and is especially relevant for those whose fields employ visual images to convey ideas as well as information. The minor will complement pre-professional majors (such as those in film) as well as in the humanities and social sciences.

Foundational Requirements (8 units):

- AHIS 100g Introduction to Visual Culture Units: 4

Select one of the following:

- AHIS 201g Digging into the Past Units: 4
- AHIS 215g Studies in Architecture and Urbanism Units: 4
- AHIS 220g Medieval Visual Culture Units: 4
- AHIS 230 Art and Culture in Early Modern Europe Units: 4
- AHIS 240g Introduction to American Art Units: 4
- AHIS 250gm Art, Modernity and Difference Units: 4
- AHIS 255g Culture Wars: Art and Social Conflict in the Modern World Units: 4
- AHIS 270 L.A. Now: Contemporary Art in Los Angeles Units: 4
- AHIS 282 Korean Art Units: 4

Additional Requirements (16 units)

Four courses to be selected. A maximum of two critical electives (8 units) from outside of the Art History Department may be used to satisfy thsese additional requirements.

- AHIS 304gm Art, Power and Identity in Renaissance Italy Units: 4
- AHIS 319 Mesoamerican Art and Culture Units: 4
- AHIS 320 Aegean Archaeology Units:
- AHIS 321 Greek Art and Archaeology Units: 4
- AHIS 322 Roman Art and Archaeology Units: 4
- AHIS 324 Late Antique Art and Archaeology Units: 4
- AHIS 325 Roman Archaeological Excavation: Methods and Practice Units: 4
- AHIS 363m Contemporary Art and the Culture Wars Units: 4
- AHIS 364 Myths, Arts, Realities: Visual Culture in California, 1849 to the Present Units: 4
- AHIS 365m African American Art Units: 4
- AHIS 366g Picturing Democracy: American Art and Visual Culture, 1750-1900 Units: 4
- AHIS 367g Early American Modernism: American Art and Visual Culture, 1876-1939 Units: 4
- AHIS 370g Modern Art III: 1940 to the Present Units: 4
- AHIS 376 Introduction to African Art Units: 4
- AHIS 378 Modern Russian Art Units: 4
- AHIS 381g Visual Cultures of Asia Units: 4
- AHIS 382 Art and Cultural Heritage in East Asia Units: 4
- AHIS 415 Object-Worlds: Histories and Theories of Things Units: 4
- AHIS 425 Interdisciplinary Studies in Classical Art and Archaeology: Research and Methodology Units: 4
- AHIS 427 Archaeological Theories, Methods, and Practice Units: 4
- AHIS 429 Studies in Art, Science, and Technology Units: 4
- AHIS 449 History of Prints and Drawings Units: 4
- AHIS 465 Studies in American Art Units: 4
- AHIS 466 Studies in the Decorative Arts and Design Units: 4
- AHIS 469 Critical Approaches to Photography Units: 4
- AHIS 470 Studies in Contemporary Art Units: 4
- AHIS 475m Blackness in American Visual Culture Units: 4
- AHIS 477 Studies in Visual and Material Culture Units: 4
- AHIS 482 Japanese Photography Units: 4
- AHIS 486 Introduction to Museums: Past, Present, and Future Units: 4
- AHIS 488 Topics in Art Conservation Units: 4
- AHIS 498 The Gods and Goddesses of the Renaissance Units: 4
- ANTH 263g Exploring Culture through Film Units: 4
- ARCH 442m Women's Spaces in History: "Hussies," "Harems" and "Housewives" Units: 4
- COLT 365 Literature and Popular Culture Units: 4
- COLT 480 Dada and Surrealism Units: 4
- COMM 384 Interpreting Popular Culture Units: 4
- COMM 395m Gender, Media and Communication Units: 4

- HIST 245mgp How Sex Changed: US History, 1870-the Present Units: 4
- HIST 380 American Popular Culture Units: 4
- HIST 381 Cinema and History Units: 4
- HIST 481 Producing Film Histories Units: 4
- PHIL 446 Aesthetics and the Film Units: 4

Total units required: 24

Master's Degree

Art History (MA)

The department does not accept applicants for the Master of Arts in art history. Although the MA is not offered as a terminal degree, but only en route to the PhD, a student may be eligible for the MA on leaving the program after two years. A minimum of 32 units is required for the degree, and the student must pass the second year review which includes the departmental equivalent of a thesis: a revised seminar paper demonstrating original thought, research skills and writing proficiency. The opportunity to gain experience as a teaching assistant is available on a competitive basis. Transfer work applicable to the MA program must have been completed within seven years of the date of application.

Degree Requirements

A minimum of 32 units, usually taken during a two-year period, is required for the Master of Arts in Art History, to be distributed as follows:

Required Courses

- AHIS 500 Methods and Theory of Art History Units: 4
- Additional 500-level courses Units: 28

Total units: 32

Additional Requirements

Course Distribution

Courses will be at the 500 level; 400-level courses may be accepted with approval of the graduate adviser. No more than two seminars with the same course number can be taken for credit toward the master of arts. AHIS 500 normally must be taken in the first semester of study.

Foreign Language Requirement

All candidates must pass a reading proficiency examination in one language, normally French or German. Substitutions may be made upon faculty recommendation and approval of the chair of art history when it is deemed appropriate to the student's course of study (i.e., Italian, Chinese, Japanese, Greek, etc.). The language requirement should be completed by the end of the first year.

Graduate Certificate

History of Collecting and Display Certificate

This program, open to University of Southern California PhD students of art history as well as qualified students from other USC departments with written permission from their home department and the Department of Art History, is devoted to the study of the history of collecting and display of works of art and related materials across a broad chronological and geographical spectrum.

The program provides a means of advancing knowledge about the presentation, circulation and consumption of works of art, as distinct from the more traditional art historical investigation of the conditions surrounding their production. Additionally, this program is designed to remedy a widely perceived disjunction between the ways art history is practiced in the museum and the academy. Each academic department will determine the number of units completed which may be applied to the student's graduate degree in that department.

Required Courses

- AHIS 501 Problems in the History and Theory of Collecting and Display Units: 4
- AHIS 504 Museum Research Assistantship Units: 1

Two of the following courses:

- AHIS 502 Markets, Value and the Institutions of Art Units: 4
- AHIS 503 Categories and Collections Units: 4
- AHIS 550 Art, Business and the Law Units: 4

Total units: 13

Visual Studies Graduate Certificate

The field of visual studies encompasses a diverse range of images and artifacts as well as the history, processes and technologies of vision itself. This certificate will provide graduate students with the tools necessary to think critically about visual objects and experience and to apply that thinking to their ongoing scholarly work. Students will combine the sustained analysis of specific representations with attention to broader philosophical frameworks and historical conditions. Graduate students intending to concentrate in visual studies must be admitted to a PhD program at USC or get approval from the Program Director to enroll in the VSGC. To receive this certificate, students must take VISS 501 Introduction to Visual Studies: Methods and Debates, a team-taught VISS 599 Special Topics course, and two other graduate seminars from an approved list of relevant courses, 500 level and above, for a total of at least 16 units. A credit/no credit option will be possible with approval by the director. Directed research may not be taken toward certificate requirements.

In addition to the completion of these course requirements, students enrolled in PhD programs must demonstrate a focus on visual studies as part of their doctoral dissertation. Alternatively, PhD students may and all other enrolled students will take an oral examination based on three research papers they have written within the context of their visual studies course work. The oral exam will be administered by faculty members affiliated with the Visual Studies Graduate Certificate. Faculty will be responsible for judging the adequacy of the visual studies component in the student's dissertation or oral examination. Students not enrolled in a PhD program will additionally be required to prepare a substantial paper (25 pages) with a deadline to be determined on enrollment in the certificate.

Certificate Requirements (8 Units)

- VISS 501 Introduction to Visual Studies: Methods and Debates Units: 4
- VISS 599 Special Topics Units: 1, 2, 3, 4, 5, 6, 7, 8 max 8

Approved Certificate Courses (8 Units)

- AHIS 501 Problems in the History and Theory of Collecting and Display Units: 4
- AHIS 505 Seminar in Feminist Theory and Visual Culture Units: 4
- AHIS 515 Seminar in Contemporary Art Units: 4 max 16
- AHIS 520 Seminar in Modern Art Units: 4
- AHIS 529 Seminar in Art, Science, and Technology Units: 4
- AMST 519 Indigenous, Decolonial and Transhemispheric American Studies Units: 4
- ANTH 502 Contemporary Theory in Anthropology Units: 4
- ANTH 576L Anthropological Media Seminar Units: 4
- ANTH 577L Advanced Anthropological Media Seminar Units: 4
- ANTH 602 The Anthropology of Popular Culture Units: 4
- COMM 516x Feminist Theory and Communication Units: 4
- COMM 654 Art, Artists and Society Units: 4
- CSLC 501 Introduction to Comparative Media Studies Units: 4
- CSLC 640 Seminar in Film and Visual Studies Units: 4
- CTCS 511 Seminar: Non-Fiction Film/Video Units: 4
- CTCS 517 Introductory Concepts in Cultural Studies Units: 4
- CTCS 518 Seminar: Avant-Garde Film/Video Units: 4
- CTCS 564 Seminar in Film and Television Genres Units: 4
- CTCS 567 Seminar in Film/Television and a Related Art Units: 4
- CTCS 677 Cultural Theory Units: 4
- CTCS 678 Seminar in Film Theory and Medium Specificity Units: 4
- CTCS 688 Moving Image Histories: Methods and Approaches Units: 4
- EALC 509 Transnational Korean Cinema Units: 4
- EALC 510 Contemporary Japanese Cinema Units: 4
- EALC 512 Japanese Literature and Film Units: 4
- EALC 535 Proseminar in Chinese Visual Culture Units: 4
- ENGL 502 Contemporary Literary and Cultural Theory Units: 4
- ENGL 592 Contemporary British and American Literatures and Cultures Units: 4
- HIST 520 Modernity and Its Visual Cultures Units: 4
- HIST 620 Research Seminar on Modern Visual Culture Units: 4
- IML 501L Digital Media Authorship and the Archive Units: 4
- SLL 665 Seminar in Russian Culture and the Arts Units: 3 max 9
- THTR 525 Seminar in Contemporary Theatre Units: 4
- THTR 535 Seminar in Aesthetics of the Theatre Units: 4

Doctoral Degree

Art History (PhD)

Application deadline: December 1.

The doctor of philosophy in the Art History program normally requires at least three years of course work and two years of dissertation research. Applicants may be admitted directly into the program after receiving the BA Other applicants may already hold an MA in art history or the equivalent from USC or another accredited school.

Every student will be subject to departmental screening procedures, which involve periodic review by the art history graduate committee. The committee may recommend at any time,

after a written warning, based on a student's grades, evaluation of instructors or rate of progress toward the degree, that a student be dropped from the program. Such recommendations will become effective at the end of the semester during which the recommendation is made.

Course Requirements

Master of Arts and Doctor of Philosophy units total 60. Up to 32 master of arts units from USC or 16 from other institutions may be transferred with approval of the faculty. Transfer work applicable to the PhD program must have been completed within 10 years of the date of application. AHIS 500, or equivalent, is required of all graduate students. Four units are for work on the dissertation. (Two units of dissertation credit each semester — including summer — for a minimum registration period of two semesters.)

Foreign Language Requirements

All candidates must pass reading proficiency examinations in a minimum of two languages, normally French and German or the requisite languages in Asian art. Substitutions and/or additions may be made with faculty recommendation and approval of the chair of the Art History Department when appropriate to the student's program. Additional foreign language beyond the minimum may be required depending on the student's program of study. All language requirements must be completed prior to taking the qualifying exam.

Screening Examinations

Passing the following procedures are prerequisite to continuation in the doctoral program, as stated in the departmental graduate guidelines. Before the student has completed 24 units, the first-year examination must be passed. Before the student has completed 48 units, the second-year review must be passed.

Qualifying Examination

At the end of the second year, the student will nominate a five-member qualifying exam committee for the qualifying examination that includes one member from outside the Department of Art History. The student is expected to pass the qualifying examination in a major field and satisfy the requirements for the minor and outside fields by the end of the third year. Forms for permission to take the qualifying examination must be submitted at least 60 days before the date of the scheduled examination. The written portion of the examination will be followed by an oral examination. The oral examination will be given to discuss in greater depth the student's knowledge of the dissertation proposal; the oral lasts approximately two hours. After passing the qualifying examination, the student will be admitted to candidacy for the PhD.

Dissertation

Following the completion of the qualifying exam, the qualifying exam committee will be reduced to three members, including one member from outside the department, who will guide and finally approve the dissertation.

Biological Sciences

The Department of Biological Sciences has research faculty with specialties in four disciplines: human and evolutionary biology, marine and environmental biology, molecular and computational biology, and neurobiology. A diversity of upper-division undergraduate and graduate courses permits biology majors to choose an emphasis in any of these four disciplines. Our students will gain a deep appreciation of organisms, from their smallest molecular mechanisms to their largest interactions within ecosystems. We help students refine skills in critical thinking, communication, and collaboration, as well as understand how biology can contribute to solving society's problems. We also offer students the opportunity to participate in the discovery of new knowledge by working alongside our faculty members in their laboratories. Students who complete our degree programs will be well prepared for professional careers in the health sciences, as well as for careers in research and education in the basic biological and biomedical fields, and many other professions.

The department offers BA and BS degrees in Biological Sciences, and BA and BS degrees in Human Biology. See the HEB section of the Dornsife website for more information about Human Biology undergraduate programs of study. The BS in Biochemistry is offered as a joint program with the Department of Chemistry. See the Neuroscience section of the Dornsife website for descriptions of the undergraduate degrees in Neuroscience and Computational Neuroscience. Undergraduates in Biological Sciences have the opportunity to become involved in laboratory or field research and may enroll in the research courses BISC 290 or BISC 490x for some of their elective units. Minors are offered in Biology of Human Movement, Biotechnology, Craniofacial and Dental Technology (with the Herman Ostrow School of Dentistry), Human Disease, Marine Biology, and Natural Science.

At the graduate level, the department offers challenging degree programs that lead to a PhD in Integrative and Evolutionary Biology, Marine Biology and Biological Oceanography, and Molecular Biology. See the Neuroscience section of the Dornsife website for a description of the graduate degree in Neuroscience. The department also offers progressive MS degrees in Marine and Environmental Biology and Molecular Genetics and Biochemistry.

Lecturer: Shirin Birjandi, PhD
Emeritus: Robert Baker, PhD; John Callaghan, PhD; Richard Deonier, PhD; Dennis Hedgecock, PhD; William O. McClure, PhD*; Michael Quick, PhD*; Cornelius Sullivan, PhD; Russel Zimmer, PhD
**Recipient of university-wide or college teaching award.*

Undergraduate Degrees

Director of Undergraduate Studies, Biological Sciences: Christa Bancroft, PhD

The BISC degree programs are designed for students passionate about biology and the natural sciences. Rigorous training in scientific methods paired with a broad liberal arts education prepares BISC majors for careers in diverse fields such as business, education, law, health and technology. Many students choose the BISC major because most of the course requirements overlap with the pre-health curriculum or prepare students for a career in academia or industry.

The department offers specially planned courses within the biological sciences to prepare students for admission to professional schools (medicine, dentistry, veterinary science, occupational therapy, physical therapy, pharmacy, optometry, public health), paramedical sciences (medical technology, physician's assistant, clinical and public health microbiology, clinical biochemistry), naturalist and environmental positions in the public and private sectors, jobs in industry (biotechnology), and graduate study (basic biological and biomedical fields). With the proper selection of courses under the guidance of the Department of Biological Sciences and the USC Rossier School of Education, the BS degree satisfies the California requirements for secondary school teaching in the life sciences.

Advisement

Advisement in the Department of Biological Sciences is required each semester. First semester freshman and transfer advisement takes place during orientation. Advisement in all remaining semesters takes place during the pre-registration period. The USC Dornsife Office of Advising sends advisement appointment information each semester to all students in the Biological Sciences and Human Biology majors.

Honors Program in Biological Sciences

The department offers an Honors Program to outstanding students already pursuing studies for the BA or BS degree in Biological Sciences or Human Biology. This program offers students an opportunity to participate in undergraduate research, experience in writing an honors thesis summarizing the completed research, and experience in an honors seminar. Honors students are required to take two semesters of BISC 493x Honors Seminar (1 unit/semester) and one semester of BISC 494x Honors Thesis (2 units) in addition to fulfilling all requirements of the BA or BS degree. Honors students must also choose BISC 490x Directed Research as one of their upper-division electives. This program leads to the designation on the transcript of Bachelor of Arts or Bachelor of Science in Biological Sciences or Human Biology with Honors.

Honors Admission Requirements

Students may apply to the department for admission to the Honors Program after having completed at least one year of work at USC with a minimum GPA of 3.5 in all science and math courses required for the major. Applications for the Honors Program are available in Allan Hancock Foundation (AHF), Room 105A or on the Biological Sciences website (dornsife.usc.edu/bisc).

Honors Scholarship Requirements

For continuation in the Honors Program, students must maintain a minimum GPA of 3.5 in the sciences and mathematics courses required for the major.

Honor Society

The Department of Biological Sciences offers membership in Phi Sigma, a national honor society, to selected biology majors (Alpha Alpha Chapter at USC.) Phi Sigma is devoted to the promotion of research and academic excellence in the biological sciences. Students with a GPA above 3.0 who have interest in research and have completed core requirements for the first two years in biological sciences are eligible. Major activities range from presentation of papers by members and lectures by

outside speakers to field trips, laboratory demonstrations and joint research projects.

Bachelor of Arts in Biological Sciences

This 56-unit degree program provides a solid foundation in the basic sciences: biology, biochemistry, molecular biology, genetics, chemistry, organic chemistry, calculus and physics. In addition, students complete 8 units of upper-division BISC elective courses. This degree program allows for more flexibility to pursue additional majors or minors, study abroad or graduate early.

Bachelor of Science in Biological Sciences

This 72-unit degree program includes the foundational science courses as the BA degree, but adds a statistics course requirement. Students in this degree program complete 20 units of upper-division elective courses. This degree program is excellent for students interested in research or graduate education in the natural sciences, and provides greater depth of study and opportunities to specialize.

Maymester Courses

Maymester courses are 4-week intensives that provide opportunities for students to engage in experiential learning off-campus. Maymester courses are held from mid-May to mid-June so that students can register in three courses during the traditional spring semester and one course in the Maymester. Maymester courses are part of the spring semester load, so tuition is charged as spring tuition.

Catalina Island

The Biological Sciences Department in conjunction with the USC Wrigley Institute for Environmental Studies (WIES) sponsors 4-week Maymester programs at the USC Wrigley Marine Sciences Center (WMSC), on Santa Catalina Island. The Maymester courses focus on conservation biology, animal physiology, aquatic microbiology and field techniques in marine biology, and biological oceanography. These courses are open to all Biological Science majors as well as students in other departments and other institutions with a strong biology background. Students are primarily in their junior or senior years and may participate in any of the courses offered.

All the courses are taught by USC faculty and supported by USC graduate student teaching assistants. The classes are specialized to take advantage of the unique facilities and setting of Santa Catalina Island.

Students live on Catalina Island for the entire length of the course. Rates for room and board at the USC Wrigley Marine Science Center are comparable to those on campus. For those wishing to return to the mainland on the weekend — free transportation is provided each Friday to leave and each Monday to return.

For more information, students should contact the instructor(s) for the course of interest. Additional information can also be found at dornsife.usc.edu/wrigley/education/.

Natural History Museum of Los Angeles County

The Biological Sciences Department in conjunction with the Los Angeles County Museum of Natural History, sponsors a 4-week Maymester course BISC 445L.

This course focuses on the biology and evolution of the major vertebrate groups including fish, amphibians, birds, and mammals. All the major groups of vertebrates will be described and demonstrated in lab, and a special focus will be put on important stages leading up to the evolution of mammals, and finally modern humans. This course will present vertebrate evolution in detail, and also describe the methods used to study the relationships of biological taxa. Tours will be given by museum curators of fish, amphibians, birds, and mammals, and some information will also be given on the preparation of fossils.

In addition, this course will discuss how animals are adapted to their environment, for example, the marine vertebrates will be observed during the whale watching trip. The methods studied in this course are an excellent fit for students interested in comparative anatomy, biodiversity, evolutionary biology and human evolution.

For more information, students should contact the instructor of the course.

Fallmester Courses - Problems Without Passports

Fallmester courses are similar to Maymester courses, except they occur in the month prior to the fall semester. Fallmester courses are 4-week intensives that provide opportunities for students to engage in experiential learning off-campus. Fallmester courses are held from mid-July to mid-August so that students can register in three courses during the traditional fall semester and one course in the Fallmester. Fallmester courses are part of the fall semester load, so tuition is charged as fall tuition. If you are interested in enrolling in a Fallmester course, please consult with Financial Aid to be sure that your award is available in time for the beginning of the Fallmester session.

Oxford, England

The Biological Sciences Department in conjunction with University of Oxford, Oxfordshire, England, sponsors a 4-week Fallmester course BISC 428. This course studies illness and disease burdens that affects millions of people across the world. In addition, this course addresses: challenges in global health; health policy and public health; infectious diseases and chronic diseases; and international development and health.

Students will have the opportunity to learn in depth about health issues from practitioners in the field, who, throughout the course of their careers, have worked in various countries of Africa, South America, India, and South East Asia. Students will also hear from researchers and clinicians active in vaccine development, disease burden abatement, chronic disease prevention, and international research trials. Together, the class will learn about the nuances and complexities that are woven into disease prevention and healthcare delivery around the world. A component of this course has students develop ideas for a sustainable solution to a current international health issue/problem.

For more information, students should contact the instructor of the course.

Minor in Biotechnology

The Marshall School of Business and the departments of Biological Sciences and Chemistry in the USC Dornsife College of Letters, Arts and Sciences jointly offer the minor in Biotechnology. This minor brings essential knowledge in the basic sciences together with the corporate skills needed in a rapidly growing industry. The minor is especially well suited for the business, biology, chemistry, or engineering student seeking a career in business and/or the biomedical and biotechnical sciences. See Biotechnology Minor for a list of required courses.

Minor in Craniofacial and Dental Technology

For a description and complete listing of course requirements, see Craniofacial and Dental Technology Minor in the Herman Ostrow School of Dentistry of USC section of the catalogue.

Minor in Marine Biology

This minor combines courses related specifically to marine science from several Dornsife College departments or programs. USC's location along the Pacific Ocean and the unique facilities at the USC Wrigley Marine Science Center (WMSC) on Santa Catalina Island provide superb access for students to learn outside of traditional classroom venues. Students will learn about the biology, evolution, and ecology of organisms that inhabit marine environments and the ecological and physical processes linking them. This program is an appropriate start for students who are seeking a focus in marine science or who are interested in broadening their base of knowledge about marine biology, earth sciences or environmental science.

Minor in Natural Science

The minor in natural science will first provide students with a foundation in the basic sciences of physics, chemistry and biology. Each student will then build on this foundation by selecting

a variety of electives to meet individual scientific interests and academic goals. This minor is well-suited for pre-medical students who are non-science majors, or for students interested in developing a better understanding of the basic sciences.

This minor is not available to majors in the natural sciences or engineering.

Graduate Degrees

Progressive Master's Degree Programs

Master of Science in Marine and Environmental Biology

The Master of Science degree in Marine and Environmental Biology (MEB) is designed to provide admitted students with a rigorous, quantitative and focused introduction to the burgeoning fields and breadth of topics in marine environmental biology/chemistry, geobiology, oceanography, conservation biology and population dynamics (depending upon the concentration selected). The MEB degree program provides students with independent research experiences that satisfy their own specific interests. The program is intended to position and stimulate students for possible advanced study leading to a PhD in one of the areas stated above, and/or provide a unique facet to the background of a prospective medical student. The program will also provide fundamental tools and expertise for entry into a master's level position in academic, government, or private sector research laboratories. It will prepare students interested in governmental and non-government (NGO) environmental regulatory science and forge career pathways into private sector positions in environmental consulting and business. Details are available at dornsife.usc.edu/bisc/progressive-masters-in-marine-and-environmental/.

Master of Science in Molecular Genetics and Biochemistry

This degree option is available for a limited number of highly qualified students who want to take an extra year for an intensive graduate-level research experience with Molecular Biology faculty. Students apply at the end of their junior year, generally after at least one semester of research in their proposed mentor's laboratory. Application consists of a two-page research proposal, letter of support from the mentor, and transcript, which will be reviewed by the master's committee for admission. Admission is not guaranteed. Students who are accepted will take the graduate core course in Molecular Biology (502a/b) as well as a literature seminar and relevant electives, but a substantial part of the credit will be graduate-level research. Students will be reviewed during their senior year to ensure progress. All MS students must complete a summative paper at the end of their master's year to be approved by their mentor and one member of the master's committee.

Doctoral Degree Programs in Biological Sciences

The graduate programs in biology provide education and training of biologists interested in living systems ranging from cellular to ecosystem levels of organization, investigated by laboratory or fieldwork. Courses and faculty research interests allow a multidisciplinary approach. A number of additional research areas are provided by adjunct faculty from other institutions, including the Los Angeles County Museum of Natural History and Children's Hospital Los Angeles. Students develop the ability to formulate and test hypotheses, integrating information and concepts in the completion of a dissertation (PhD). A qualifying exam committee is formed for each student during the first year to develop a particular program of course work and research, and to evaluate the student's progress. Specific information about the options in biological sciences can be obtained by requesting information brochures or online at dornsife.usc.edu/bisc.

Doctor of Philosophy in Integrative and Evolutionary Biology

This program of study provides each student with a broad, fundamental background in integrative and evolutionary biology (IEB) with in-depth specialization in one (or more) research areas. Broad research areas include, but are not limited to evolutionary biology, metabolism and nutrition, neuroscience, endocrinology, glycemic control, energy balance, biomechanics, biological anthropology, skeletal muscle physiology, kinesiology, and conservation. The curriculum and learning experiences for each student are tailored to their line of research. Students take a written and oral screening exam in the first year, and a written and oral qualifying exam no later than the end of the fifth semester of study.

This degree is awarded under the jurisdiction of the Graduate School. Refer to the Requirements for Graduation section and The Graduate School section of this catalogue for general regulations. All courses applied toward the degree must be courses accepted by the Graduate School.

Admission Requirements

Applicants must have a bachelor's degree from an accredited four-year college or university, preferably in an area relevant to the research interests in IEB (e.g. biology, bioanthropology, biomedical engineering, psychology, etc.). Applicants are evaluated by their transcripts and GPA, three letters of recommendation, a statement of purpose and relevant research experience. A faculty member must serve as the sponsor of admission to the IEB program and adviser throughout the student's course of study. We encourage applicants to reach out to potential faculty members in advance of submitting their application materials.

Financial Support

The program supports each student we admit in the form of teaching assistantships, research assistantships and fellowships. All awards include full tuition remission, a monthly stipend for living expenses, payment of student health/dental insurance and other university-wide benefits.

For any questions, please contact the IEB student services adviser.

Doctor of Philosophy in Marine Biology and Biological Oceanography

In the marine biology and biological oceanography (MBBO) program, each student receives a general background in marine sciences and obtains in-depth specialization in a research area of his or her choosing. Each student's curriculum is fitted to the particular needs and demands of the chosen research field. Broad research areas include, but are not limited to: organismal biology; evolution and population genetics; genomics; microbial biology, genetics and systems; aquatic, terrestrial and ocean ecology; environmental biology; and chemical biology. Typically, students take classes in the first two years. A written and oral qualifying exam to become a PhD candidate will be taken no later than the end of the fourth semester of study.

This degree is awarded under the jurisdiction of the Graduate School. Refer to the Requirements for Graduation section and The Graduate School section of this catalogue for general regulations. All courses applied toward the degrees must be courses accepted by the Graduate School.

Admission Requirements

Applicants must have a bachelor's degree in a natural science (preferably biology) from an accredited four-year college or university. Undergraduate course work should include basic courses in biology, general physics, chemistry, organic chemistry, biochemistry and calculus. Applicants are evaluated by their transcripts and GPA, three letters of recommendation, and a statement of interest. A faculty member must serve as initial sponsor and adviser for admission to the MBBO program, so applicants are encouraged to contact potential advisers before applying. Applicants who are accepted into the program but judged to have minor deficiencies are expected to correct them within the first year.

Financial Support

The program supports each student we admit in the form of teaching assistantships, research assistantships and fellowships.

All awards include full tuition remission, a monthly stipend for living expenses, payment of student health/dental insurance and other university-wide benefits.

For any questions, please contact the MBBO student services adviser.

Doctor of Philosophy in Molecular Biology

This program is designed to train the participants intensively in the concepts and experimental methodologies of molecular biology and biochemistry. The subject matter is organized in an integrated fashion (lectures, seminars and laboratory) to present fundamental information on the biochemistry, biophysics, genetics and development of cells from a variety of different organisms. Primary emphasis is on the relationship between structure and function at different integrative and functional levels. Molecular biology (MOL) students are required to complete at least three laboratory rotations in their first year.

This degree is awarded under the jurisdiction of the Graduate School. Refer to the Requirements for Graduation section and The Graduate School section of this catalogue for general regulations. All courses applied toward the degrees must be courses accepted by the Graduate School.

Admission Requirements

Application for admission may be accessed online at dornsife.usc.edu/mcb/phdhome/. Applicants are expected to have a bachelor's degree or equivalent in a cognate area such as biology, chemistry, physics, engineering, bacteriology, computer science or bioinformatics. Undergraduate work should include a basic course in biology, basic physics, physical chemistry, organic chemistry, biochemistry and calculus from an accredited four-year college or university. Students who are deficient in any of these subjects may be required to correct the deficiency during the first two years of graduate study. Courses taken to correct these deficiencies may not be credited toward the degree. Applicants are evaluated holistically, through a combination of their transcripts, three letters of recommendation, and a statement of research interest. The letters of recommendation should be written by faculty members who can evaluate the promise of the student for graduate work and independent research.

Financial Support

The program supports each student we admit in the form of teaching assistantships, research assistantships and fellowships. All awards include full tuition remission, a monthly stipend for living expenses, payment of student health/dental insurance and other university-wide benefits.

For any questions, please contact the MOL student services adviser.

Bachelor's Degree

Biological Sciences (BA)

The general education, writing, language and diversity requirements for a USC Dornsife College of Letters, Arts and Sciences degree are applicable.

Major Core Courses, Lower-Division

- BISC 120Lg General Biology: Organismal Biology and Evolution Units: 4 or
- BISC 121Lg Advanced General Biology: Organismal Biology and Evolution Units: 4

- BISC 220Lg General Biology: Cell Biology and Physiology Units: 4 or
- BISC 221Lg Advanced General Biology: Cell Biology and Physiology Units: 4

Major Core Courses, Upper-Division

- BISC 320Lg Molecular Biology Units: 4
- BISC 325 Genetics Units: 4
- BISC 330L Biochemistry Units: 4

Collateral Sciences Core Courses, Lower-Division

- CHEM 105aLg General Chemistry Units: 4
- CHEM 105bL General Chemistry Units: 4 or

- CHEM 115aLg Advanced General Chemistry Units: 4
- CHEM 115bL Advanced General Chemistry Units: 4

- MATH 125g Calculus I Units: 4

- PHYS 135ag Physics for the Life Sciences Units: 4
- PHYS 135bL Physics for the Life Sciences Units: 4 or

- PHYS 151Lg Fundamentals of Physics I: Mechanics and Thermodynamics Units: 4
- PHYS 152L Fundamentals of Physics II: Electricity and Magnetism Units: 4

Collateral Sciences Core Courses, Upper-Division

- CHEM 322aL Organic Chemistry Units: 4
- CHEM 322bL Organic Chemistry Units: 4 or

- CHEM 325aL Organic Chemistry Units: 4
- CHEM 325bL Organic Chemistry Units: 4

Upper-division Major Courses

Eight units of upper-division BISC course work available for major credit are required. No more than 4 units of BISC 490x may be used to fulfill the upper-division elective requirement. In addition, no more than two seminars (BISC 460 to BISC 462), totaling 4 units, may be applied to the upper-division elective requirement.

It is expected that students will take 100-level BISC core courses during the first year, two 300-level BISC core courses during the second year, and the remaining core courses and the 300- or 400-level BISC major elective courses during the third and fourth years.

Total required units: 128

Free elective units: 24

Scholarship in Major Subject

The department requires that students receive a grade no lower than C- in their five core courses. They must maintain a 2.0 GPA in the upper-division biology and chemistry courses required for the major, as well as an overall 2.0 GPA. All major core courses must be taken on a letter grade basis.

Honors Program in Biological Sciences

The department offers an honors program to outstanding students already pursuing studies for the BA or BS degree in Biological Sciences. This program offers students an opportunity to participate in undergraduate research, experience in writing an honors thesis summarizing the completed research, and experience in an honors seminar. Honors students are required to take two semesters of BISC 493x Honors Seminar (1 unit/ - semester) and one semester of BISC 494x Honors Thesis (2 units) in addition to fulfilling all requirements of the BA or BS degree. Honors students must also choose BISC 490x as one of their upper division electives. This program leads to the designation on the transcript of Bachelor of Arts or Bachelor of Science in Biological Sciences with Honors.

Honors Admission Requirements

Students may apply to the department for admission to the honors program after having completed at least one year of work at USC with a minimum GPA of 3.5 in all science and math courses required for the major.

Honors Scholarship Requirements

For continuation in the honors programs, students must

maintain a minimum GPA of 3.5 in the sciences and mathematics courses required for the major.

Biological Sciences (BS)

The general education, writing, language and diversity requirements for a USC Dornsife College of Letters, Arts and Sciences degree are applicable.

Major Core Courses, Lower-Division

- BISC 120Lg General Biology: Organismal Biology and Evolution Units: 4 or
- BISC 121Lg Advanced General Biology: Organismal Biology and Evolution Units: 4

- BISC 220Lg General Biology: Cell Biology and Physiology Units: 4 or
- BISC 221Lg Advanced General Biology: Cell Biology and Physiology Units: 4

Major Core Courses, Upper-Division

- BISC 320Lg Molecular Biology Units: 4
- BISC 325 Genetics Units: 4
- BISC 330L Biochemistry Units: 4

Collateral Sciences Core Courses

- CHEM 105aLg General Chemistry Units: 4
- CHEM 105bL General Chemistry Units: 4 or

- CHEM 115aLg Advanced General Chemistry Units: 4
- CHEM 115bL Advanced General Chemistry Units: 4

- CHEM 322aL Organic Chemistry Units: 4
- CHEM 322bL Organic Chemistry Units: 4 or

- CHEM 325aL Organic Chemistry Units: 4
- CHEM 325bL Organic Chemistry Units: 4

- MATH 125g Calculus I Units: 4

- MATH 208x Elementary Probability and Statistics Units: 4 or
- BISC 305g Statistics for Biological Sciences Units: 4

- PHYS 135ag Physics for the Life Sciences Units: 4
- PHYS 135bL Physics for the Life Sciences Units: 4 or

- PHYS 151Lg Fundamentals of Physics I: Mechanics and Thermodynamics Units: 4
- PHYS 152L Fundamentals of Physics II: Electricity and Magnetism Units: 4

Upper-division Major Requirements

Twenty units of upper-division BISC course work available for major credit are required. At least two courses in the upper-division electives must carry a lab ("L") or be 490. No more than 4 units of BISC 490x may be used to fulfill the upper-division elective requirement. In addition, no more than two seminars (BISC 460 to BISC 462), totaling 4 units, may be applied to the upper-division elective requirement.

Total required units: 128

Free elective units: 12–16

Scholarship in Major Subject

The department requires that students receive a grade no lower than C- in their five core courses. They must maintain a 2.0 GPA in the upper-division biology and chemistry courses required for the major, as well as an overall 2.0 GPA. All major core courses must be taken on a letter grade basis.

Honors Scholarship Requirements

For continuation in the honors programs, students must maintain a minimum GPA of 3.5 in the sciences and mathematics courses required for the major.

Human Biology (BA)

The section of Human and Evolutionary Biology within the Department of Biological Sciences oversees the Human Biology BA at USC. This degree is designed for students seeking a course of study in human applied physiology and metabolism, performance, and/or human evolution. The Human Biology BA is an excellent option for students pursuing pre-professional education in the fields of physical therapy, nutrition, pharmacology, sports training, kinesiology, biomechanics, human evolution, primatology, evolutionary biology, etc.

Summary of Requirements

Students must complete the general core consisting of 20 units. In addition, they must select 16 units from one of the three track modules below, as well as 8 additional units from the restricted elective list or any other track in the major. No more than one course may be lower division (100- or 200-level) from the major track and electives combined. Total requirements: 44 units including at least 24 upper-division.

General Core (20 Units)

- BISC 120Lg General Biology: Organismal Biology and Evolution Units: 4 or
- BISC 121Lg Advanced General Biology: Organismal Biology and Evolution Units: 4 or
- HBIO 200Lg The Human Animal Units: 4
- BISC 220Lg General Biology: Cell Biology and Physiology Units: 4 or
- BISC 221Lg Advanced General Biology: Cell Biology and Physiology Units: 4
- HBIO 202Lg Nutrition for Life Units: 4
- HBIO 301L Human Anatomy Units: 4
- MATH 108g Contemporary Precalculus Units: 4
  or
- MATH 125g Calculus I Units: 4
  or
- MATH 126g Calculus II Units: 4

Major Track (16 Units)

Choose 16 units from one of the track modules below.

Human Physiology and Metabolism (16 units)

The Human Physiology and Metabolism track explores human movement through the study of body form and function, using general principles of physiology, and biomechanics. Courses in this track further examine physiology and nutrition with an emphasis on human health and disease.

- HBIO 302L Nutrition and Metabolism Units: 4 *
- HBIO 370 Genetics and Disease Units: 4 *
- HBIO 360L Nutrition and Disease Units: 4 *
- HBIO 407L Endocrinology and Metabolism Units: 4 *
- HBIO 408L Biomechanics Units: 4 *
- HBIO 420L Applied Human Physiology Units: 4 *

Human Evolutionary Biology (16 units)

The Human Evolution track examines how and why humans evolved using evolutionary mechanisms and hypotheses. The track courses explore paleo-human ancestors, primates (prosimians, monkeys and apes), and the impact of society and culture on evolution.

- HBIO 300 Evolution, Ecology, and Culture Units: 4
- HBIO 306 Biology of the Non-Human Primates Units: 4
- HBIO 308 Origins and Evolution of Human Behavior Units: 4
- HBIO 403L Forensic Science of the Bones Units: 4 *
- HBIO 405 Evolutionary Medicine Units: 4 *
- HBIO 406 Theory and Method in Human Evolutionary Biology Units: 4 *

Human Performance (16 units)

The Human Performance track examines the scientific link between nutrition, athletic performance and the physiological response to exercise. The track further provides students with knowledge of prevention, treatment and rehabilitation of athletic injuries.

- HBIO 250g The Pharmacology of Performance Enhancing Drugs Units: 4
- HBIO 320 Muscle Physiology Units: 4 *
- HBIO 400L Motor Control and Learning Units: 4 *
- HBIO 401L Physiology of Movement Units: 4 *
- HBIO 441L Prevention of Athletic Injuries Units: 4 *

Restricted Electives (8 Units)

A minimum of 8 units is required. Courses can be selected from the elective list below or from any other track in the major.

- BISC 300L Introduction to Microbiology Units: 4 *
- BISC 305g Statistics for Biological Sciences Units: 4
- BISC 307L General Physiology Units: 4 *
- BISC 312x Molecular Biochemistry Units: 4 *
- BISC 313L Evolution and Population Genetics Units: 4 *
- BISC 320Lg Molecular Biology Units: 4 *
- BISC 325 Genetics Units: 4 *
- BISC 421 Neurobiology Units: 4 *
- BISC 423 Epilepsy to Ecstasy: Biological Basis of Neurological Disorders Units: 4 *
- BISC 490x Directed Research Units: 1, 2, 3, 4, 5, 6, 7, 8 (4 Units Required) *
- CHEM 322aL Organic Chemistry Units: 4 *
- CHEM 322bL Organic Chemistry Units: 4 *
- HBIO 409 Metabolic Diseases Units: 4 *
- HBIO 435 Neurobiology of Feeding Behavior and Obesity Units: 4 *
- HBIO 439L Human Performance and Bioenergetics Units: 2 or 4 (4 Units Required) *
- HBIO 442L Evaluation and Rehabilitation of Athletic Injuries Units: 4 *
- HBIO 491L Laboratory Experience in Kinesiology Units: 2, 4 *
- MATH 114gx Foundations of Statistics Units: 4 or
- MATH 208x Elementary Probability and Statistics Units: 4 or
- PSYC 274Lg Statistics Units: 4 *
- PSYC 339Lg Origins of the Mind Units: 4 *
- PSYC 360 Abnormal Psychology Units: 4 *

Note:

**Prerequisite required*

Human Biology (BS)

The section of Human and Evolutionary Biology within the Department of Biological Sciences oversees the Human Biology BS at USC. This degree is designed for students seeking a focused course of study in human applied physiology, biomedicine, nutrition and metabolism, and/or human evolution. The Human Biology BS is an excellent option for students pursuing pre-professional education in the fields of medicine, physical therapy, dentistry, physician assistant, nursing, nutrition, kinesiology, biomechanics, human evolution, primatology, evolutionary biology, etc.

Summary of Requirements

Students must complete the general core consisting of 24 units. In addition, they must complete all courses listed in the major track of their choice (one thematic module of 20 units), as well as 16 additional units from the restricted elective list or any other track in the major. No more than two courses may be lower division (100- or 200-level) from the major track and electives combined. Total requirements: 60 units.

General Core (24 Units)

- BISC 120Lg General Biology: Organismal Biology and Evolution Units: 4 or
- BISC 121Lg Advanced General Biology: Organismal Biology and Evolution Units: 4
- BISC 220Lg General Biology: Cell Biology and Physiology Units: 4 or
- BISC 221Lg Advanced General Biology: Cell Biology and Physiology Units: 4
- CHEM 105aLg General Chemistry Units: 4
- CHEM 105bL General Chemistry Units: 4
  or
- CHEM 115aLg Advanced General Chemistry Units: 4
- CHEM 115bL Advanced General Chemistry Units: 4
- MATH 108g Contemporary Precalculus Units: 4 or
- MATH 125g Calculus I Units: 4 or
- MATH 126g Calculus II Units: 4
- PHYS 135ag Physics for the Life Sciences Units: 4 *

Major Track (20 Units)

Choose one complete track module from below:

Applied Physiology

The Applied Physiology track explores human movement through the study of body form and function, using general principles of physiology, biomechanics and motor learning.

- HBIO 301L Human Anatomy Units: 4 *
- HBIO 320 Muscle Physiology Units: 4 *
- HBIO 400L Motor Control and Learning Units: 4 *
- HBIO 408L Biomechanics Units: 4 *
- HBIO 420L Applied Human Physiology Units: 4 *

Biomedical Science

The Biomedical Science track applies the knowledge of molecular biology to understand human physiology on macro- and microcellular levels of the body.

- HBIO 301L Human Anatomy Units: 4 *
- HBIO 302L Nutrition and Metabolism Units: 4 *
- HBIO 407L Endocrinology and Metabolism Units: 4 *
- HBIO 420L Applied Human Physiology Units: 4 * or
- BISC 307L General Physiology Units: 4 *
- BISC 421 Neurobiology Units: 4 *

Health and Disease

The Health and Disease track explores physiology and nutrition with an emphasis on human health and disease. Common diseases of major organ systems are studied with a focus on diseases related to obesity and metabolic dysfunction.

- HBIO 302L Nutrition and Metabolism Units: 4 *
- HBIO 360L Nutrition and Disease Units: 4 *
- HBIO 370 Genetics and Disease Units: 4 *
- HBIO 409 Metabolic Diseases Units: 4 *
- HBIO 435 Neurobiology of Feeding Behavior and Obesity Units: 4 *

Human Evolutionary Biology

The Human Evolution track examines how and why humans evolved using evolutionary mechanisms and hypotheses. The track courses explore paleo-human ancestors, primates (prosimians, monkeys and apes), and the impact of society and culture on evolution.

- HBIO 200Lg The Human Animal Units: 4
- HBIO 300 Evolution, Ecology, and Culture Units: 4
- HBIO 306 Biology of the Non-Human Primates Units: 4
- HBIO 308 Origins and Evolution of Human Behavior Units: 4

- HBIO 406 Theory and Method in Human Evolutionary Biology Units: 4 *

Restricted Electives (16 Units)

A minimum of 16 units is required. Courses can be selected from the elective list below or from any other track in the major.

- BISC 300L Introduction to Microbiology Units: 4 *
- BISC 305g Statistics for Biological Sciences Units: 4
- BISC 312x Molecular Biochemistry Units: 4 *
- BISC 313L Evolution and Population Genetics Units: 4 *
- BISC 325 Genetics Units: 4 *
- BISC 330L Biochemistry Units: 4 *
- BISC 406L Biotechnology Units: 4 *
- BISC 423 Epilepsy to Ecstasy: Biological Basis of Neurological Disorders Units: 4 *
- BISC 435 Advanced Biochemistry Units: 4 *
- BISC 450L Principles of Immunology Units: 4 *
- BISC 490x Directed Research Units: 1, 2, 3, 4, 5, 6, 7, 8 (4 Units Required) *
- CHEM 322aL Organic Chemistry Units: 4 *
- CHEM 322bL Organic Chemistry Units: 4 *
- CHEM 325aL Organic Chemistry Units: 4 *
- CHEM 325bL Organic Chemistry Units: 4 *
- HBIO 308 Origins and Evolution of Human Behavior Units: 4
- HBIO 405 Evolutionary Medicine Units: 4 *
- HBIO 439L Human Performance and Bioenergetics Units: 2 or 4 (4 Units Required) *
- HBIO 441L Prevention of Athletic Injuries Units: 4 *
- HBIO 442L Evaluation and Rehabilitation of Athletic Injuries Units: 4 *
- HBIO 491L Laboratory Experience in Kinesiology Units: 2, 4 *
- GERO 310 Physiology of Aging Units: 4 *
- GERO 440 Biodemography of Aging Units: 4 *
- MATH 114gx Foundations of Statistics Units: 4 or
- MATH 208x Elementary Probability and Statistics Units: 4 * or
- PSYC 274Lg Statistics Units: 4 *
- PHYS 135bL Physics for the Life Sciences Units: 4 *
- PSYC 360 Abnormal Psychology Units: 4 *
- PSYC 425 Functional Imaging of the Human Brain Units: 4 *

Note:

**Prerequisite required*

Minor

Biology of Human Movement Minor

This minor provides students with an interdisciplinary perspective that integrates elements of anatomy, biomechanics, motor control as well as evolution and applies them to the assessment and improvement of human performance during the activities of daily living. This minor is ideal for students interested in fields such as bioengineering, biokinesiology, health promotion, athletics and dance.

Prerequisite Courses

- BISC 220Lg General Biology: Cell Biology and Physiology Units: 4 or
- BISC 221Lg Advanced General Biology: Cell Biology and Physiology Units: 4
- MATH 108g Contemporary Precalculus Units: 4 or
- MATH 125g Calculus I Units: 4
- PHYS 135ag Physics for the Life Sciences Units: 4 or
- PHYS 151Lg Fundamentals of Physics I: Mechanics and Thermodynamics Units: 4

Core Courses

Four courses for a total 16 units from the following options are required:

- HBIO 301L Human Anatomy Units: 4
- HBIO 401L Physiology of Movement Units: 4 or
- HBIO 408L Biomechanics Units: 4
- HBIO 309 The Human Machine Units: 4 or
- HBIO 400L Motor Control and Learning Units: 4
- HBIO 439L Human Performance and Bioenergetics Units: 2 or 4 or
- HBIO 442L Evaluation and Rehabilitation of Athletic Injuries Units: 4

Minimum Upper-Division Core Units Required: 16

Biotechnology Minor

The USC Dornsife College of Letters, Arts and Sciences Departments of Biological Sciences and Chemistry and the Marshall School of Business jointly offer the cross-departmental minor in biotechnology. This minor brings essential knowledge in the basic sciences together with the corporate skills needed in a rapidly growing industry. The minor is especially well suited for the business, biological sciences, chemistry or engineering student seeking a career in business and/or the biomedical/bio-technical sciences.

This minor requires a varying number of units beyond major requirements depending upon the student's major program of study: biological sciences (BA or BS), 16–18 additional units; business (BS), 28 additional units; chemistry (BA or BS), 32–34 additional units.

Students in other majors may be required to complete up to 46 units for the minor depending on whether their major includes any of the minor requirements and their prerequisites.

Please see a biological sciences or business adviser for specific program requirements.

Required Courses

Biological Sciences (16 units)

- BISC 220Lg General Biology: Cell Biology and Physiology Units: 4 or
- BISC 221Lg Advanced General Biology: Cell Biology and Physiology Units: 4

- BISC 320Lg Molecular Biology Units: 4
- BISC 330L Biochemistry Units: 4
- BISC 406L Biotechnology Units: 4

Recommended:

- BISC 300L Introduction to Microbiology Units: 4
- BISC 403 Advanced Molecular Biology Units: 4
- BISC 450L Principles of Immunology Units: 4

Chemistry (12 units)

- CHEM 105aLg General Chemistry Units: 4
- CHEM 105bL General Chemistry Units: 4
- CHEM 322aL Organic Chemistry Units: 4

Recommended:

- CHEM 322bL Organic Chemistry Units: 4
- CHE 489 Biochemical Engineering Units: 4

Finance, Business, and Accounting (16-18 units)

Students pursuing a business degree must enroll in BUAD 280, BUAD 281 *and* BUAD 306.

- ACCT 410x Foundations of Accounting Units: 4
  or
- BUAD 280 Introduction to Financial Accounting Units: 3 and
- BUAD 281 Introduction to Managerial Accounting Units: 3
  or
- BUAD 305 Abridged Core Concepts of Accounting Information Units: 4

- BUAD 215x Foundations of Business Finance Units: 4
  or
- BUAD 306 Business Finance Units: 4

- BUAD 304 Organizational Behavior and Leadership Units: 4
  or
- BUAD 307 Marketing Fundamentals Units: 4

- FBE 403 Introduction to the Legal Environment of Business Units: 4

Recommended:

- MATH 118gx Fundamental Principles of Calculus Units: 4 or
- MATH 125g Calculus I Units: 4

- MATH 208x Elementary Probability and Statistics Units: 4 or
- MATH 218 Probability for Business Units: 4

Human Disease Minor

The minor in Human Disease is an interdisciplinary program focused on the biological and psychological factors that determine wellness and disease. It is an ideal minor for students interested in various disciples such medicine, nursing, pharmacy, dentistry, public health, global health, health policy and health promotion.

The minor includes two lower-division pre-requisites, two upper-division courses to be chosen from a list of HBIO courses and two upper-division courses to be chosen from a list of PSYC courses for a total of four upper-division courses (16 units).

Pre-requisite Courses

- PSYC 100Lg Introduction to Psychology Units: 4
- BISC 220Lg General Biology: Cell Biology and Physiology Units: 4 or
- BISC 221Lg Advanced General Biology: Cell Biology and Physiology Units: 4

Human Biology

Choose two from the following:

- HBIO 301L Human Anatomy Units: 4
- HBIO 360L Nutrition and Disease Units: 4
- HBIO 370 Genetics and Disease Units: 4
- HBIO 405 Evolutionary Medicine Units: 4
- HBIO 435 Neurobiology of Feeding Behavior and Obesity Units: 4

Psychology

Choose two from the following:

- PSYC 360 Abnormal Psychology Units: 4
- PSYC 424 Neuropsychology Units: 4
- PSYC 426 Motivated Behaviors and Addiction Units: 4
- PSYC 462m Culture and Mental Health Units: 4

Minimum Upper-Division Units Required: 16

Marine Biology Minor

Studies of the marine environment are relevant to many contemporary environmental issues and problems central to understanding earth-system evolution, dynamics, climate and sustainability. The minor in Marine Biology combines courses related specifically to marine science from several Dornsife College departments or programs. USC's location along the Pacific Ocean and the unique facilities at the USC Wrigley Marine Science Center on Catalina Island provide superb access for students to learn outside of traditional classroom venues. Students will learn about the biology, evolution and ecology of organisms that inhabit marine environments and the ecological and physical processes linking them. This program is an appropriate start for students who are seeking a focus in marine science or who are interested in broadening their base of knowledge about marine biology, earth sciences or environmental science.

The minor consists of 24 units of course work. At least 16 must be upper-division and unique to the minor. Courses required by the student's major or general education (GE) requirements may not be applied toward the minor. Students must earn a letter grade of C- or better in all course work used for the minor. Prior to declaring the minor, students must have completed the requirement for BISC 120Lg or BISC 121Lg or BISC 103Lgx. Basic chemistry, such as CHEM 103Lgx or CHEM 105aLg and CHEM 105bL, is strongly recommended. Students are encouraged enroll in at least one field-based course. Courses may be substituted with approval of the minor in Marine Biology program director, and this approval must be filed with the Office of Academic Records and Registrar.

Required Courses (8 units)

- BISC 469L Marine Biology Units: 4 *
- BISC 473L Biological Oceanography Units: 4 *

Field Courses and Other Electives (12 units)

Note: No more than one lower-division course may count toward the minor.

Field-based Courses

- BISC 431L Aquatic Microbiology Units: 4 *
- BISC 457L Methods in Marine Biology and Biological Oceanography Units: 4 *
- ENST 298aL Introduction to Scientific Diving Units: 2
- ENST 483 Tropical Coastal Zone Sustainability Units: 4

Non-field-based Courses

- BISC 140g Our Blue Planet in a Changing Climate Units: 4
- BISC 313L Evolution and Population Genetics Units: 4 *
- BISC 315L Introduction to Ecology Units: 4 *
- BISC 419L Microbiology for a Sustainable Future Units: 4
- BISC 427 The Global Environment Units: 4 *
- BISC 483 Geobiology and Astrobiology Units: 4 *
- BISC 485 Advanced Seminar in Bacterial Survival and Evolution Units: 4 *
- BISC 490x Directed Research Units: 1, 2, 3, 4, 5, 6, 7, 8 **
- ENST 310 Sustainable Fisheries Management Units: 4 *
- ENST 370 Marine and Coastal Environmental Policy Units: 4
- ENST 490x Directed Research Units: 1, 2, 3, 4, 5, 6, 7, 8 **
- GEOL 107Lg Oceanography Units: 4
- GEOL 412 Oceans, Climate, and the Environment Units: 4 *
- GEOL 490x Directed Research Units: 1, 2, 3, 4, 5, 6, 7, 8 **
- SSCI 265Lg The Water Planet Units: 4

* *Course requires prerequisite/corequisite*

** *Research or special topic must be related to the marine environment. With permission from minor adviser.*

Natural Science Minor

The minor in natural science will first provide students with a foundation in the basic sciences of physics, chemistry and biology. Each student will then build on these foundation courses by selecting a variety of electives to meet individual scientific interests and academic goals. Eighteen units toward the natural science minor must be completed at USC. This minor is not available to majors in the natural sciences.

Required Courses (22 Units)

Any five courses from among:

- BISC 120Lg General Biology: Organismal Biology and Evolution Units: 4 or
- BISC 121Lg Advanced General Biology: Organismal Biology and Evolution Units: 4

- BISC 220Lg General Biology: Cell Biology and Physiology Units: 4 or
- BISC 221Lg Advanced General Biology: Cell Biology and Physiology Units: 4

- CHEM 105aLg General Chemistry Units: 4 or
- CHEM 115aLg Advanced General Chemistry Units: 4

- CHEM 105bL General Chemistry Units: 4 or
- CHEM 115bL Advanced General Chemistry Units: 4

- PHYS 135ag Physics for the Life Sciences Units: 4
- PHYS 135bL Physics for the Life Sciences Units: 4

And a capstone course:

- BISC 321 Multidisciplinary Seminar: Science, Technology and Society Units: 2

Elective Course Requirement (8 units)

Any two courses chosen from among those offered for major credit by the departments of chemistry, physics, biological sciences and earth sciences.

Master's Degree

Biology (MS)

The MS degree program in biology is a terminal degree for students admitted into the marine biology and biological oceanography (MBBO), neurobiology (BNRO), or integrative and evolutionary biology (IEB) PhD programs who cannot complete the PhD degree program for personal or medical reasons.

The MS degree program is a non-thesis program but a paper, based on the student's original research investigation of a selected program in biology, constitutes one of the requirements. Each student must take 7–8 units of biology graduate core courses (BISC 582, BISC 584 and BISC 585) or neurobiology courses (NSCI 524 and either NSCI 531 or NSCI 532), two seminars and additional graduate courses or research units for a minimum of 24 units. Students also must satisfy the residency and other requirements of the Graduate School. Further details of these requirements are contained within each graduate program's particular requirements and policies.

Each student must take 7–8 units of:

Biology Graduate Core Courses

- BISC 582 Advanced Biological Oceanography Units: 4
- BISC 584 Faculty Lecture Series Units: 2
- BISC 585 Scientific Writing and Reviewing Units: 2

or

Neurobiology Courses

- NSCI 524 Advanced Overview of Neurosciences Units: 4
- NSCI 531 Molecular and Cellular Neurobiology Units: 4 or
- NSCI 532 Systems and Behavioral Neurobiology Units: 3

Additional Requirements

Two seminars and additional graduate courses or research units for a minimum of 24 units. Students also must satisfy the residency and other requirements of the Graduate School. Further details of these requirements are contained within each graduate program's particular requirements and policies.

Marine and Environmental Biology (MS)

The Master of Science degree in Marine and Environmental Biology (MEB) is designed to provide admitted students with a rigorous, quantitative and focused introduction to the burgeoning fields and breadth of topics in marine environmental biology/chemistry, geobiology, oceanography, conservation biology and population dynamics (depending upon the concentration selected). MEB provides students with independent research experiences that satisfy their own specific interests. The program is intended to position and stimulate students for possible advanced study leading to a PhD in one of the areas stated above, and/or provide a unique facet to the background of a prospective medical student. The program will also provide fundamental tools and expertise for entry into a master's level position in academic, government or private sector research laboratories. It will prepare students interested in governmental and non-government (NGO) environmental regulatory science and forge career pathways into private sector positions in environmental consulting and business.

Applicants must possess a cumulative and science GPA of 3.0 or higher and have the following courses completed prior to admission: one year of introductory biology, one semester of molecular biology, one semester of biochemistry, one year of general chemistry, and one year of organic chemistry. All of the above must carry labs and be available for major credit in the natural sciences at a four-year college or university.

Applicants interested in using course work completed while an undergraduate may apply for the progressive master's degree as early as their junior year.

Core Courses

- BISC 582 Advanced Biological Oceanography Units: 4
- BISC 585 Scientific Writing and Reviewing Units: 2
- BISC 590 Directed Research Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 (4 Units Required)

Completion of two semesters of:

- BISC 529 Seminar in Marine Biology Units: 1

Core Seminar Elective

Completion of one advanced seminar from among:

- BISC 530 Advanced Seminar in Plankton Biology Units: 2
- BISC 531 Advanced Seminar on the Physiology of Marine Organisms Units: 2
- BISC 532 Advanced Seminar in Molecular and Microbial Ecology Units: 2
- BISC 533 Advanced Seminar in Remote Sensing and Modeling Units: 2
- BISC 534 Advanced Seminar in Population Genetics of Marine Organisms Units: 2
- BISC 535 Seminar in Physiology Units: 2
- BISC 536 Advanced Seminar in Marine Biogeochemistry Units: 2

Graduate Elective Requirement

Eighteen units chosen from the following list, of which 8 units must be within the Department of Biological Sciences (BISC), and no more than 8 units can be at the 400-level.

- BISC 403 Advanced Molecular Biology Units: 4
- BISC 419L Microbiology for a Sustainable Future Units: 4
- BISC 431L Aquatic Microbiology Units: 4
- BISC 435 Advanced Biochemistry Units: 4
- BISC 437L Comparative Physiology of Animals Units: 4
- BISC 445L Fundamentals of Vertebrate Biology Units: 4
- BISC 447L Island Biogeography and Field Ecology Units: 4
- BISC 450L Principles of Immunology Units: 4
- BISC 455L Molecular Approaches to Microbial Diversity — Catalina Semester Units: 4
- BISC 457L Methods in Marine Biology and Biological Oceanography Units: 4
- BISC 460 Seminar in Marine and Environmental Biology Units: 2 , max 4
- BISC 469L Marine Biology Units: 4
- BISC 473L Biological Oceanography Units: 4
- BISC 474L Ecosystem Function and Earth Systems Units: 4
- BISC 483 Geobiology and Astrobiology Units: 4
- BISC 502a Molecular Genetics and Biochemistry Units: 4
- BISC 502b Molecular Genetics and Biochemistry Units: 4
- BISC 511 Integrative Biology Units: 4
- BISC 512 Evolutionary Biology Units: 4
- BISC 530 Advanced Seminar in Plankton Biology Units: 2
- BISC 531 Advanced Seminar on the Physiology of Marine Organisms Units: 2
- BISC 532 Advanced Seminar in Molecular and Microbial Ecology Units: 2
- BISC 533 Advanced Seminar in Remote Sensing and Modeling Units: 2
- BISC 534 Advanced Seminar in Population Genetics of Marine Organisms Units: 2
- BISC 536 Advanced Seminar in Marine Biogeochemistry Units: 2
- BISC 584 Faculty Lecture Series Units: 2
- BISC 588 Introduction to Bioinformatics Units: 2
- CE 443 Environmental Chemistry Units: 3
- CE 503 Microbiology for Environmental Engineers Units: 3
- ENE 562 Aquatic Chemistry Units: 4
- GEOL 412 Oceans, Climate, and the Environment Units: 4
- GEOL 460L Geochemistry Units: 4
- GEOL 500 Paleoecology Units: 3
- GEOL 501 Paleobiology Units: 3
- GEOL 514 Marine Geology Units: 3
- GEOL 555 Paleoceanography Units: 3
- GEOL 560 Marine Geochemistry Units: 3, 2 years
- GEOL 564 Isotope Geochemistry Units: 3, 2 years
- GEOL 567 Stable Isotope Geochemistry Units: 3

- GEOL 577L Micropaleontology Units: 3, 2 years
- OS 512 Introduction to Chemical and Physical Oceanography Units: 4
- PPD 694 Coastal Policy and Planning Units: 4

Total required units: 32

Molecular and Computational Biology (MS)

The MS degree program in molecular and computational biology (MCB) is a terminal degree for students admitted into the MCB PhD program who cannot complete the PhD degree program for personal or medical reasons. The study of molecular biology places so many demands upon the student that it is difficult to attain any satisfactory level of competence in the time generally taken for a master's degree. Therefore, enrollment of graduate students as master's degree applicants is not encouraged and is reserved for special circumstances. The curriculum of the master's student is patterned after that of the doctorate up to and including the qualifying examination, but not including thesis research. The qualifying examination will serve as the comprehensive master's examination.

Molecular Genetics and Biochemistry (MS)

The Master of Science in Molecular Genetics and Biochemistry is designed to provide outstanding students in life science majors with a rigorous, quantitative experimental experience in molecular genetics, genomics, evolutionary biology, cell and molecular biology, biochemistry (depending upon the research area selected). The program is intended to position and stimulate students for possible advanced study leading to a PhD in one of the areas stated above, and/or provide an important research experience to the background of a prospective medical student. The program will also provide fundamental tools and expertise for entry into master's level positions in academic, government or private sector research laboratories, including biotech, pharmaceuticals or diagnostics. This is a terminal degree. Students who wish to pursue their doctorate at USC should apply directly to the PhD program.

Applicants must be undergraduate majors in the life sciences, who possess a cumulative and science GPA of 3.0 or higher and have the following courses completed or in progress at the time of admission: one year of introductory biology (BISC 120Lg/BISC 220Lg or BISC 121Lg/BISC 221Lg, or equivalent), one semester of molecular biology (BISC 320Lg or equivalent), one year of general chemistry (CHEM 105aLg/CHEM 105bL or CHEM 115aLg/CHEM 115bL, or equivalent), and one year of organic chemistry (CHEM 322aL/CHEM 322bL or CHEM 325aL/CHEM 325bL or equivalent). All of the above must carry labs and be available for major credit in the natural sciences at a four-year college or university.

Because this degree is based on research, students must identify a faculty adviser prior to enrollment and submit a research proposal approved by that adviser to the master's degree committee. It is recommended that students have performed the equivalent of independent study or a research internship (equivalent to BISC 490x) in their laboratory of choice prior to admission. Students are expected to perform 6 units of research in both fall and spring semesters; alternatively, with the adviser's approval upon enrollment, they may choose to perform the research component in variable increments in summer, fall and spring semesters to equal 12 units. This may be the preferred schedule if students wish to take additional electives during the academic year.

This program requires 32 units, of which 24 must be at the graduate level.

Core Courses

- BISC 502a Molecular Genetics and Biochemistry Units: 4
- BISC 544 Advanced Reading in Molecular Biology Units: 1, 2 (two semesters)
- BISC 590 Directed Research Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 (2–3 semesters) (12 Units Required)

One from the following:

- BISC 502b Molecular Genetics and Biochemistry Units: 4
- BISC 505 Genomics and Molecular Genetics Units: 4

Elective Requirements

Eight units from the following list:

- BISC 403 Advanced Molecular Biology Units: 4
- BISC 406L Biotechnology Units: 4
- BISC 411 Advanced Cell Biology Units: 4
- BISC 414 Biology of Cancer Units: 4
- BISC 419L Microbiology for a Sustainable Future Units: 4
- BISC 425 Genetics through the Scientific Literature Units: 4
- BISC 426 Principles of Neural Development Units: 4
- BISC 435 Advanced Biochemistry Units: 4
- BISC 450L Principles of Immunology Units: 4
- BISC 478 Computational Genome Analysis Units: 4
- BISC 480L Developmental Biology Units: 4
- BISC 481 Structural Bioinformatics: From Atoms to Cells Units: 4
- BISC 485 Advanced Seminar in Bacterial Survival and Evolution Units: 4
- BISC 502b Molecular Genetics and Biochemistry Units: 4 (if core requirement fulfilled with BISC 505)
- BISC 505 Genomics and Molecular Genetics Units: 4 (if core requirement fulfilled with BISC 502b)
- BISC 515 Evolution and Human Biology Units: 4

Additional Requirements

Students will complete a summative research paper that is written in publication format. The student will submit a proposed outline to the faculty mentor and one other molecular biology faculty member by January 15 for initial approval. The final paper is due on April 15. In the rare event that the final paper is not acceptable to the faculty, students may enroll for one more summer semester to perform revisions. If the paper is still not acceptable, the MS component of the degree will not be granted.

Doctoral Degree

Integrative and Evolutionary Biology (PhD)

Application deadline: December 15

This program of study is designed to provide each student with a broad, fundamental background in integrative and evolutionary biology (IEB) coupled with detailed knowledge and expertise in the chosen area of concentration. The core of the course work in integrative and evolutionary biology consists of four courses — BISC 515 (4), seminar BISC 549 (2-2) and a 4-unit course to be decided upon by the student's adviser — that are taken by all first-year graduate students. Various faculty members also teach a variety of advanced courses and seminars on specialized research topics each semester. In addition, a range of courses in areas relating to IEB are available in various departments on the University Park and Health Sciences Campuses.

Course Requirements

Each student's curriculum is tailored to the particular interests of the individual and the needs and demands of the chosen research field. A minimum total of 60 units is required, consisting of formal courses, seminars and research credit. The 24 units of formal course work must include 12 units of specified course work in integrative and evolutionary biology, BISC 515, adviser-specified course, seminar BISC 549 (minimum 4 units), and 12 units of advanced electives chosen in consultation with the student's adviser.

Screening Examination

After completion of the core integrative biology and evolutionary biology course work (BISC 515 , adviserspecified, BISC 549) during the first year, the student's degree progress is discussed and evaluated by a screening committee composed of members of the IEB faculty as well as the student's principal adviser. The purpose of this written and oral evaluation is to determine

competence to continue graduate study and identify areas to be strengthened prior to the qualifying examination.

Student Teaching

Since most graduates in biological sciences will spend some part of their careers in academic work, teaching experience is considered an important part of graduate training. Each graduate student in the program is therefore required to assist in the teaching program for two semesters as a teaching assistant.

Qualifying Examination

By the end of the third semester, students should choose a qualifying exam committee consistent with the requirements of the graduate school composed of IEB faculty and one outside member. This committee will conduct the qualifying exam and provide guidance during dissertation research. The chair of the committee will serve as the principal adviser. Students should consult extensively with each committee member regarding subjects to be covered in the exam.

The qualifying exam consists of written and oral parts. Both parts must be finished before the end of the fifth semester. For the written exam, the adviser will consult with each of the members of the qualifying exam committee. The written part will incorporate evaluation and synthesis of existing knowledge related to topic areas, design of experiment to test a relevant hypothesis, and interpretation of anticipated results. The oral exam consists of an oral defense of the written part and will be conducted within a month of the written part of the qualifying exam.

Doctoral Dissertation

The dissertation is based on original, publishable and significant research conducted independently by the student under the guidance of the dissertation committee.

Defense of the Dissertation

The defense of the dissertation is either a defense oral or a final oral. In most cases a defense oral will suffice if approved by the dissertation committee.

Marine Biology and Biological Oceanography (PhD)

Application deadline: January 15

Course Requirements

In marine biology and biological oceanography, each student receives a general background in marine sciences and obtains in-depth specialization in a research area of his or her choosing. Each student's curriculum is fitted to the particular needs and demands of the chosen research field. The 24 units of formal course work must include the following: BISC 529 (4), BISC 582 (4), BISC 583 (4), BISC 584 (2), BISC 585 (2); four advanced graduate seminars (8); and a statistics course approved by the student's adviser.

For Admission Requirements, refer to the admissions section of Biological Sciences.

Core Courses (14 units)

- BISC 582 Advanced Biological Oceanography Units: 4
- BISC 583 Evolution and Adaptation of Marine Organisms Units: 4
- BISC 584 Faculty Lecture Series Units: 2
- BISC 585 Scientific Writing and Reviewing Units: 2

Two semesters of student seminar (2 units)

- BISC 529 Seminar in Marine Biology Units: 1

Core Seminar Electives (8 units)

Completion of four advanced seminars from among the following:

- BISC 530 Advanced Seminar in Plankton Biology Units: 2
- BISC 531 Advanced Seminar on the Physiology of Marine Organisms Units: 2
- BISC 532 Advanced Seminar in Molecular and Microbial Ecology Units: 2
- BISC 533 Advanced Seminar in Remote Sensing and Modeling Units: 2
- BISC 534 Advanced Seminar in Population Genetics of Marine Organisms Units: 2
- BISC 535 Seminar in Physiology Units: 2
- BISC 536 Advanced Seminar in Marine Biogeochemistry Units: 2
- BISC 538 Metals and Biology in Oceanic Regimes Units: 2
- BISC 586 Biological Oceanographic Instrumentation Units: 2
- BISC 587 Communicating Ocean Science Units: 4

Additional Requirements

A minimum total of 60 units is required, consisting of formal courses, seminars and research credit. At least 24 of the minimum 60 total units required are to be formal graduate course work (lecture and seminar courses).

Screening Examination

Candidates must also pass a screening examination to determine competence and point out deficiencies, fulfill a research tool requirement (computer skills, biostatistics, quantitative chemistry), and meet the residency and other requirements of the Graduate School. This exam is completed before completion of 24 units in the program.

Student Teaching

Since most graduates in biological sciences will spend some part of their careers in academic work, teaching experience is considered an important part of graduate training. Each graduate student in the program is therefore required to serve at least two semesters as a teaching assistant in the Department of Biological Sciences. Students must enroll in BISC 593 either before or concurrent with their first semester as a Teaching Assistant.

Qualifying Examination

Before the end of the fourth semester, each student must pass a written and oral qualifying examination given by the student's qualifying exam committee. The written part involves answering a number of questions at length. The oral part is in the area of the student's intended research, based on a project selected and developed by the student into a written proposition. After passing the qualifying examination, the student completes the research investigation and any other requirements under the guidance of the research adviser who also chairs the dissertation committee.

Doctoral Dissertation

The dissertation is based on original, publishable and significant research conducted independently by the student under the guidance of the dissertation committee.

Defense of the Dissertation

The dissertation defense includes a formal public seminar, followed by a detailed defense meeting with the full Dissertation Committee.

Molecular Biology (PhD)

Application deadline: December 15

During the first year, students rotate through three laboratories before determining their permanent research adviser. Thereafter, students determine their programs of study and dissertations through discussion with their advisers, as well as their qualifying exam and dissertation committees.

Screening Procedure

Screening is done through BISC 502a and BISC 502b. To advance beyond the second year, students must obtain at least a "B" (3.0) average in these two courses.

Course Requirements

A minimum of 24 of the 60 units required for the PhD degree must be in course work, exclusive of dissertation research. These units must include the core courses, BISC 502a (4 units) and BISC 502b (4 units) and BISC 544 (2 units), to be completed within the first year with no less than a "B" (3.0) in each class. Students are

also required to take BISC 576 or BISC 444 in their second year. Participation in the research seminar series (BISC 542) is required for three semesters and encouraged for the student's entire graduate career. At some point during their degree, students take an additional 4- unit, 400- or 500-level course in consultation with their adviser.

Language Requirement

Students in the graduate program in molecular biology are not required to pass a foreign language examination.

Student Teaching

Since most graduates in biological sciences will spend some part of their careers in academic work, teaching experience is considered an important part of graduate training. Each graduate student in the program is therefore required to serve at least one semester as a teaching assistant in the Department of Biological Sciences.

Qualifying Examination

The examinations qualifying the student for candidacy for the PhD in molecular biology must be completed by the fifth semester. The first part of the exam is a written proposal based on the student's work. The second part is an oral examination. This exam consists of general questions and the presentation and defense of a proposition outlining the student's proposed research program.

Doctoral Dissertation

The dissertation is based on original, publishable and significant research conducted independently by the student under the guidance of the dissertation committee.

Defense of the Dissertation

Prior to graduating, students are required to orally defend their dissertation in a public seminar.

Required core courses (16 units)

Enroll in the four courses below and an additional 4-unit 400- or 500- level course, selected in consultation with an adviser.

- BISC 502a Molecular Genetics and Biochemistry Units: 4
- BISC 502b Molecular Genetics and Biochemistry Units: 4
- BISC 544 Advanced Reading in Molecular Biology Units: 1, 2
- BISC 444 Practical Analysis of Biological Data in R Units: 2

or

- BISC 576 Practical Statistics and Bioinformatics Units: 2

Seminar course (3 units)

Enroll in BISC 542 for a minimum of 3 semesters.

- BISC 542 Seminar in Molecular Biology Units: 1

Lab Rotation Requirement (6 units)

Enroll in BISC 504 in the fall and spring semesters of the first year.

- BISC 504L Laboratory Techniques in Cellular and Molecular Biology Units: 1, 2, 3, 4

Chemistry

The Department of Chemistry offers degree programs that provide undergraduate and graduate students with core instruction and excellent research opportunities. Undergraduate programs leading to the BS and BA degrees are offered as well as a BS in biochemistry. The BS degree is intended for students preparing for careers in chemistry and related fields, and satisfies the guidelines for a chemistry degree recommended by the American Chemical Society. The BA degree is designed for students who wish a concentration of course work in chemistry, but who have career plans in the health sciences, business or law or other specialty areas. In addition, a chemistry minor is available for students who want a broader exposure to the chemical sciences. A minor program in biotechnology is offered by the Departments of Biological Sciences and Chemistry and the Marshall School of Business and a minor program in environmental chemistry and sustainability is also offered jointly with the Environmental Studies program. Graduate programs are offered leading to the Master of Arts, Master of Science and Doctor of Philosophy in Chemistry.

Chair: G.K. Surya Prakash, PhD

Faculty

Distinguished Professor of Chemistry, Biological Sciences, Biochemistry and Chemical Engineering and Materials Science and Dana and David Dornsife Chair in Chemistry: Arieh Warshel, PhD

Lloyd Armstrong, Jr. Chair for Science and Engineering and Professor of Chemistry: Hanna Reisler, PhD

Robert D. Beyer ('81) Early Career Chair in Natural Sciences and Associate Professor of Physics, Biological Sciences, and Chemistry: Moh El-Naggar, PhD* *(Physics and Astronomy)*

Paul A. Miller Chair in Letters, Arts and Sciences and Professor of Chemistry and Biochemistry: Curt Wittig, PhD

Harold and Lillian Moulton Chair in Organic/Polymer Chemistry and Professor of Chemistry: Nicos Petasis, PhD

George A. and Judith A. Olah Nobel Laureate Chair in Hydrocarbon Chemistry and Professor of Chemistry: G.K. Surya Prakash, PhD

Ray Irani Chair in Chemical Engineering and Materials Science and Professor of Chemical Engineering and Materials Science, Biomedical Engineering, Electrical Engineering-Electrophysics and Chemistry: Andrea Armani, PhD *(Chemical Engineering and Materials Science)*

Ray R. Irani, Chairman of Occidental Petroleum Corporation, Chair in Chemistry and Professor of Chemistry and Chemical Engineering and Materials Science: Mark E. Thompson, PhD

Provost Professor of Biological Sciences and Chemistry: Raymond C. Stevens, PhD *(Biological Sciences)*

Viterbi Professorship in Engineering and Professor of Electrical and Computer Engineering, Chemistry, and Physics and Astronomy: Daniel A. Lidar, PhD *(Electrical and Computer Engineering)*

Judge Widney Professor of Chemical Engineering and Chemistry: Ray R. Irani, PhD

Gabilan Assistant Professor of Chemistry: Megan Fieser, PhD

Professors: Stephen E. Bradforth, PhD; Richard L. Brutchey, PhD; Lin Chen, PhD *(Biological Sciences)*; Xiaojiang Chen, PhD *(Biological Sciences)*; Vadim Cherezov, PhD; Stephen B. Cronin, PhD *(Electrical Enginnering)*; Valery Fokin, PhD; Myron F. Goodman, PhD *(Biological Sciences)*; Malancha Gupta, PhD *(Chemical Engineering);* Anna Krylov, PhD; Chi H. Mak, PhD*; Noah Malmstadt, PhD *(Chemical Engineering);* Charles E. McKenna, PhD*; Sri Narayan, PhD; Matthew Pratt, PhD; Oleg Prezhdo, PhD; Peter Z. Qin, PhD; Richard W. Roberts, PhD; Remo Rohs, PhD *(Quantitative and Computational Biology)*; Barry C. Thompson, PhD; Andrey Vilesov, PhD; Clay C. C. Wang, PhD *(Pharmacology and Pharmaceutical Sciences);* Travis J. Williams, PhD

Associate Professors: Alexander Benderskii, PhD; Jahan Dawlaty, PhD; Kyung Woon Jung, PhD; Smaranda Marinescu, PhD; Brent Melot, PhD; Susumu Takahashi, PhD; Chao Zhang, PhD

Assistant Professors: Michael Inkpen, PhD; Vsevolod Katritch, PhD *(Quantitative and Computational Biology)*; Shaama Mallikarjun Sharada, PhD *(Chemical Engineering)*; Yong Zhang, PhD *(Pharmacology and Pharmaceutical Sciences)*

Professor (Research): Karl O. Christe, PhD

Associate Professors (Teaching): Rebecca Broyer, PhD; Jasmine Bryant, PhD; Jessica Parr, PhD

Assistant Professor (Teaching): Thomas M. Bertolini, PhD

Assistant Professors (Research): Peter Djurovich, PhD; Terry Takahashi, PhD
Emeritus: Robert A. Beaudet, PhD; David A. Dows, PhD; Thomas C. Flood, PhD; Thieo Hogen-Esch, PhD; Gerald A. Segal, PhD; Kenneth L. Servis, PhD; Lawrence A. Singer, PhD; William P. Weber, PhD*
**Recipient of university-wide or college teaching award.*

Undergraduate Degrees

Bachelor of Science in Chemistry

The BS degree in Chemistry offers comprehensive preparation in all the core areas of the chemical and molecular sciences. Combining rigorous course work, hands-on training with the latest chemical instrumentations as well as a rich independent research experience, the BS degree in Chemistry prepares our graduates to pursue professional careers in the field of chemical and molecular sciences, or to continue their studies toward advanced degrees, usually the PhD, in chemistry or a related field in the molecular sciences. An option of a BA degree is also available.

Bachelor of Science in Chemistry with an Emphasis in Chemical Research: Information

The BS program in Chemistry with an emphasis in research is one of the first undergraduate programs in the country that offers a research-focus undergraduate degree in chemistry. The BS degree in Chemical Research provides a rich research experience for those students whose goal is to pursue research careers in various fields of the chemical and molecular sciences. The program leverages the strength of USC's Chemistry Department to offer a curriculum in which research is integrated into the degree program under a purposeful structure:

1. immersing students in a genuine research culture from day one;
2. giving them first-hand experience in the research laboratory;
3. training them in the latest chemical research techniques and instrumentation; and
4. providing them with practical experience with how problems are formulated, investigated and solved in the process of scientific discoveries.

Research majors may choose from more than 30 active research groups in the Chemistry Department with which to complete their research requirement.

Bachelor of Science in Chemistry with an Emphasis in Chemical Biology: Information

Chemical Biology is the study of small molecules as targets to effect, manipulate or interrogate biological processes. With the rapidly expanding importance of chemical biology as a key discipline in the chemical and molecular sciences, the Chemistry Department offers a BS degree in Chemistry with an emphasis in Chemical Biology. Building on solid groundings in general, organic, analytical and physical chemistry, the BS in Chemical Biology integrates core knowledge contents from the interface between chemistry and biology, combined with practical laboratory experience and access to the latest chemical instrumentations. Chemical Biology majors will receive thorough training and in-depth preparation to enable them to pursue careers in the field of chemical and molecular biology, biochemistry or any related field in the molecular sciences.

Bachelor of Science in Chemistry with an Emphasis in Chemical Nanoscience: Information

The field of chemical nanoscience focuses on the synthesis of nanoscale materials as well as the understanding of their chemical, structure and physical properties. When the dimension of bulk materials is systematically reduced novel properties emerge on the nanoscopic scale. Nanoscale materials are substantially smaller than bulk, yet they are not small enough to be molecular, and they often exhibit properties that are surprisingly different from most molecular-size systems. This new paradigm in the chemical and molecular sciences offers exciting possibilities, both in its potential for discovering new phenomena particular to the nanoscale and as a vehicle to producing new and useful devices.

The BS degree in Chemistry with an emphasis in Chemical Nanoscience prepares students for a career in the rapidly growing field of nanoscience. The degree program enable students to understand the core chemical principles behind nanoscience and related technologies, focusing on: (1) the syntheses of nanomaterials, (2) their bonding and structural characteristics, and (3) their physical (electrical, optical and magnetic) properties. The BS degree in Chemical Nanoscience helps students build a solid foundation in chemistry and master the comprehensive core knowledge that is required for formulating and solving open problems in the field of nanoscience. The BS in Chemical Nanoscience combines rigorous course work with hands-on laboratory experience in the latest experimental techniques and instrumentation and offers a capstone research experience in the area of nanoscience.

Bachelor of Science in Biochemistry

The BS degree in Biochemistry is offered jointly with the Department of Biological Sciences. The Biochemistry degree combines core foundational backgrounds from chemical, biological and molecular sciences to offer an integrated program focusing on the chemistry and molecular mechanisms of biology, with rigorous course work and hands-on laboratory experiences. A BS degree in Biochemistry prepares students to pursue professional careers in chemistry and/or biology or for advanced studies in the field of biochemistry and molecular biology.

Chemistry Minor

A chemistry minor is available for students who wish to broaden their exposure to the chemical sciences. In addition to a core of five chemistry courses (year-long sequences in general chemistry and organic chemistry and a one semester course in analytical chemistry), students must take one upper-division chemistry elective in either advanced organic or advanced inorganic chemistry.

Environmental Chemistry and Sustainability Minor

The environmental chemistry and sustainability minor is designed for students majoring in business, engineering, law, communications and other professional fields to give them the knowledge of chemistry needed to understand, formulate and manage scientific issues related to natural environmental processes as well as technologies involving the environment.

Grade Point Average in Major Subject

A grade of C- or higher is required in each chemistry course specifically listed as a degree requirement. The GPA for all chemistry courses required for a department major or a physical sciences major must be C (2.0) or higher. The GPA for all upper-division chemistry courses must also be C (2.0) or higher.

Honors Programs in Chemistry

A degree with honors in chemistry is available for eligible Chemistry BA, Chemistry BS, Chemistry BS — Research Emphasis, Chemistry BS — Chemical Nanoscience Emphasis, and Chemistry BS — Chemical Biology Emphasis students. To meet program requirements students must submit an application to the Department of Chemistry and satisfy the objectives of the program.

Students seeking admission must have at least junior standing (64 units) with an overall USC GPA of 3.5 or better in at least 16 units of chemistry courses. Students must complete 8 units of research (CHEM 490 or CHEM 494, which may also satisfy major requirements*) under the supervision of chemistry faculty with the research results described in an undergraduate thesis reviewed

and approved by a faculty committee. To graduate with honors students must earn a GPA of 3.5 in all chemistry courses required for the major and have an overall USC GPA of 3.5.

Upon graduation, transcripts will be noted "Bachelor of Arts with Departmental Honors" for Chemistry BA students, or "Bachelor of Science with Departmental Honors" for students who pursued the various Chemistry BS majors.

**For Chemistry BS, Chemistry BS — Chemical Nanoscience Emphasis, and Chemistry BS — Chemical Biology Emphasis, 4 units CHEM 490 are required for the major; for Chemistry BS — Research Emphasis, 4 units CHEM 490 and 4 units CHEM 494 are required for the major; and for Chemistry BA, 1–8 units of CHEM 490x are required for the major.*

Honors Program in Biochemistry

A BS degree with honors in biochemistry is available for eligible students. In meeting program requirements students must submit an application and satisfy the objectives of one of the program options noted below.

Option One: Biochemistry Honors with Chemistry Research

Students seeking admission into option one must have at least junior standing (64 units) with an overall USC GPA of 3.5 or better in at least 32 units at USC, and have a 3.5 or better in at least 16 units in biological sciences and chemistry. Students in this option must complete 8 units of research (CHEM 490x) under the supervision of chemistry faculty with the results of research being described in an undergraduate thesis reviewed and approved by a faculty committee. To graduate with honors under this option students must earn a GPA of 3.5 in all biological sciences and chemistry courses required for the major.

Option Two: Biochemistry Honors with Biology Research

Students seeking admission into option two must have at least sophomore standing (32 units) with an overall USC GPA of 3.5 or better both cumulatively and in 16 units in biological sciences and chemistry. Students in this option must complete 4 units of research (BISC 490x) under faculty in biological sciences or under faculty in any other department approved by biological sciences. In addition, students must complete two semesters of Honors Seminar (BISC 493x), 1 unit each, and one semester of Honors Thesis (BISC 494x), 2 units. To graduate with honors under this option students must earn a GPA of 3.5 in all sciences and mathematics courses required for the major.

Upon graduation, transcripts of students following either option will be noted, "Bachelor of Science with Departmental Honors."

Graduate Degrees

The Chemistry department offers Doctor of Philosophy, Master of Arts, and Master of Science degrees in Chemistry, and a Doctor of Philosophy degree in Chemical Physics. Close contact between students and faculty is a seminal feature of the chemistry graduate programs. The emphasis is on individualized programs aiming at in-depth understanding and development of scientific maturity. Attention is given to career aims, including research and development; secondary, college and university teaching; and the wide variety of industrial testing, operation and management areas.

Admission Requirements

A baccalaureate degree, equivalent to the BA with a major in chemistry at USC, is prerequisite to admission to the graduate program in chemistry. A baccalaureate degree in an appropriate physical science, engineering or mathematics is prerequisite to admission to the doctoral program in chemical physics.

Application must be made to the department on a special form, which includes application for fellowship and teaching assistant appointment and is available from the department Website. Materials describing the faculty, research areas and facilities will be sent to each applicant.

The department does not accept applicants for a Master of Arts or Master of Science degree in chemistry. The MA and MS degrees are intended only as transitional degrees in the process of completing requirements for the PhD in chemistry.

Degree Requirements

These degrees are under the jurisdiction of the Graduate School. Refer to the Requirements for Graduation section and The Graduate School section of this catalogue for general regulations. All courses applied toward the degrees must be courses accepted by the Graduate School.

Teaching Experience

Teaching experience is required for the advanced degrees in chemistry.

Bachelor's Degree

Biochemistry (BS)

This degree is offered jointly by the Departments of Biological Sciences and Chemistry.

The general education, writing, foreign language and diversity requirements for a degree in the USC Dornsife College of Letters, Arts and Sciences are applicable.

Students must complete each required course in the Departments of Biological Sciences and Chemistry with a grade of C- or better, and maintain an overall GPA of 2.0 or better in all attempted courses in the two departments in the regular degree program.

Required Courses

- BISC 120Lg General Biology: Organismal Biology and Evolution Units: 4 or
- BISC 121Lg Advanced General Biology: Organismal Biology and Evolution Units: 4

- BISC 220Lg General Biology: Cell Biology and Physiology Units: 4 or
- BISC 221Lg Advanced General Biology: Cell Biology and Physiology Units: 4

- BISC 320Lg Molecular Biology Units: 4
- BISC 330L Biochemistry Units: 4
- BISC 403 Advanced Molecular Biology Units: 4
- BISC 435 Advanced Biochemistry Units: 4

- CHEM 105aLg General Chemistry Units: 4
- CHEM 105bL General Chemistry Units: 4 or
- CHEM 107Lg General Chemistry for Chemistry Majors Units: 4
- CHEM 108L General Chemistry for Chemistry Majors: Kinetics and Equilibrium Units: 4 or

- CHEM 115aLg Advanced General Chemistry Units: 4
- CHEM 115bL Advanced General Chemistry Units: 4

- CHEM 300L Analytical Chemistry Units: 4

- CHEM 322aL Organic Chemistry Units: 4
- CHEM 322bL Organic Chemistry Units: 4 or

- CHEM 325aL Organic Chemistry Units: 4
- CHEM 325bL Organic Chemistry Units: 4

- CHEM 430 Physical Chemistry: Thermodynamics and Kinetics Units: 4 or
- CHEM 432 Physical Chemistry for the Life Sciences Units: 4

- MATH 125g Calculus I Units: 4
- MATH 126g Calculus II Units: 4

- BISC 305g Statistics for Biological Sciences Units: 4 or
- MATH 208x Elementary Probability and Statistics Units: 4 or
- MATH 226g Calculus III Units: 4

- PHYS 135ag Physics for the Life Sciences Units: 4
- PHYS 135bL Physics for the Life Sciences Units: 4 or

- PHYS 151Lg Fundamentals of Physics I: Mechanics and Thermodynamics Units: 4
- PHYS 152L Fundamentals of Physics II: Electricity and Magnetism Units: 4

Additional Requirements

Eight units of upper-division, non-core course work available for major credit in biological sciences or chemistry are required. Students enrolled in BISC 490 are limited to 4 units, while students enrolled in CHEM 490 may complete up to 8 units. No more than two seminars (BISC 460 to BISC 462), totaling 4 units, may be applied to the upper-division elective requirement.

Honors Program in Biochemistry

A BS degree with honors in biochemistry is available for eligible students. In meeting program requirements students must submit an application and satisfy the objectives of one of the program options noted below.

Option One: Biochemistry Honors with Chemistry Research

Students seeking admission into option one must have at least junior standing (64 units) with an overall USC GPA of 3.5 or better in at least 32 units at USC, and have a 3.5 or better in at least 16 units in biological sciences and chemistry. Students in this option must complete 8 units of research (CHEM 490) under the supervision of chemistry faculty with the results of research being described in an undergraduate thesis reviewed and approved by a faculty committee. To graduate with honors under this option students must earn a GPA of 3.5 in all biological sciences and chemistry courses required for the major.

Option Two: Biochemistry Honors with Biology Research

Students seeking admission into option two must have at least sophomore standing (32 units) with an overall USC GPA of 3.5 or better both cumulatively and in 16 units in biological sciences and chemistry. Students in this option must complete 4 units of research (BISC 490) under faculty in biological sciences or under faculty in any other department approved by biological sciences. In addition, students must complete two semesters of Honors Seminar (BISC 493), 1 unit each, and one semester of Honors Thesis (BISC 494), 2 units. To graduate with honors under this option students must earn a GPA of 3.5 in all sciences and mathematics courses required for the major.

Upon graduation, transcripts of students following either option will be noted, "Bachelor of Science with Departmental Honors."

Chemistry (BA)

In addition to the general education, writing, foreign language and diversity requirements for a degree in the USC Dornsife College of Letters, Arts and Sciences, the following courses are required.

Required Courses, Lower-Division

- CHEM 105aLg General Chemistry Units: 4
- CHEM 105bL General Chemistry Units: 4 or
- CHEM 107Lg General Chemistry for Chemistry Majors Units: 4
- CHEM 108L General Chemistry for Chemistry Majors: Kinetics and Equilibrium Units: 4
  or
- CHEM 115aLg Advanced General Chemistry Units: 4
- CHEM 115bL Advanced General Chemistry Units: 4

- MATH 125g Calculus I Units: 4
- MATH 126g Calculus II Units: 4

- MATH 225 Linear Algebra and Linear Differential Equations Units: 4 or
- MATH 226g Calculus III Units: 4

- PHYS 151Lg Fundamentals of Physics I: Mechanics and Thermodynamics Units: 4
- PHYS 152L Fundamentals of Physics II: Electricity and Magnetism Units: 4
- PHYS 153L Fundamentals of Physics III: Optics and Modern Physics Units: 4

Required Courses, Upper-Division

- CHEM 300L Analytical Chemistry Units: 4
- CHEM 325aL Organic Chemistry Units: 4
- CHEM 325bL Organic Chemistry Units: 4
- CHEM 430 Physical Chemistry: Thermodynamics and Kinetics Units: 4
- CHEM 431 Physical Chemistry: Quantum Mechanics Units: 4

One course from among:

- CHEM 332L Physical Chemical Measurements Units: 4
- CHEM 423L Advanced Laboratory Techniques in Organic and Inorganic Chemistry Units: 4
- CHEM 453 Advanced Inorganic Chemistry Units: 4
- CHEM 490x Directed Research Units: 1, 2, 3, 4, 5, 6, 7, 8

One additional upper-division science elective

Chemistry (BS)

In addition to the general education, writing, foreign language and diversity requirements for a degree in the USC Dornsife College of Letters, Arts and Sciences, the following courses are required.

Required Courses, Lower-Division

- CHEM 105aLg General Chemistry Units: 4
- CHEM 105bL General Chemistry Units: 4 or
- CHEM 107Lg General Chemistry for Chemistry Majors Units: 4
- CHEM 108L General Chemistry for Chemistry Majors: Kinetics and Equilibrium Units: 4
  or
- CHEM 115aLg Advanced General Chemistry Units: 4
- CHEM 115bL Advanced General Chemistry Units: 4

- MATH 125g Calculus I Units: 4
- MATH 126g Calculus II Units: 4

- MATH 225 Linear Algebra and Linear Differential Equations Units: 4 or
- MATH 226g Calculus III Units: 4

- PHYS 151Lg Fundamentals of Physics I: Mechanics and Thermodynamics Units: 4
- PHYS 152L Fundamentals of Physics II: Electricity and Magnetism Units: 4
- PHYS 153L Fundamentals of Physics III: Optics and Modern Physics Units: 4

Required Courses, Upper-Division

- CHEM 300L Analytical Chemistry Units: 4
- CHEM 325aL Organic Chemistry Units: 4
- CHEM 325bL Organic Chemistry Units: 4
- CHEM 332L Physical Chemical Measurements Units: 4

- CHEM 423L Advanced Laboratory Techniques in Organic and Inorganic Chemistry Units: 4
  or
- CHEM 463L Chemical Nanotechnology Laboratory Units: 2
  or
- CHEM 465L Chemical Instrumentation Units: 4

or
- CHEM 467L Advanced Chemical Biology Laboratory Units: 2 (A total of 4 Units)
- CHEM 426 Advanced Organic Chemistry Units: 4
- CHEM 430 Physical Chemistry: Thermodynamics and Kinetics Units: 4
- CHEM 431 Physical Chemistry: Quantum Mechanics Units: 4
- CHEM 453 Advanced Inorganic Chemistry Units: 4
- CHEM 490x Directed Research Units: 1, 2, 3, 4, 5, 6, 7, 8 (4 Units Required)

Chemistry (Chemical Biology) (BS)

In addition to the general education, writing, foreign language and diversity requirements for a degree in the USC Dornsife College of Letters, Arts and Sciences, the following courses are required.

Required Core Courses, Lower-Division

- BISC 220Lg General Biology: Cell Biology and Physiology Units: 4 or
- BISC 221Lg Advanced General Biology: Cell Biology and Physiology Units: 4

- CHEM 105aLg General Chemistry Units: 4
- CHEM 105bL General Chemistry Units: 4
  or
- CHEM 107Lg General Chemistry for Chemistry Majors Units: 4
- CHEM 108L General Chemistry for Chemistry Majors: Kinetics and Equilibrium Units: 4
  or
- CHEM 115aLg Advanced General Chemistry Units: 4
- CHEM 115bL Advanced General Chemistry Units: 4

- MATH 125g Calculus I Units: 4
- MATH 126g Calculus II Units: 4

- MATH 225 Linear Algebra and Linear Differential Equations Units: 4 or
- MATH 226g Calculus III Units: 4

- PHYS 151Lg Fundamentals of Physics I: Mechanics and Thermodynamics Units: 4
- PHYS 152L Fundamentals of Physics II: Electricity and Magnetism Units: 4

Required Core Courses, Upper-Division

- BISC 320Lg Molecular Biology Units: 4
- CHEM 300L Analytical Chemistry Units: 4
- CHEM 325aL Organic Chemistry Units: 4
- CHEM 325bL Organic Chemistry Units: 4

- CHEM 430 Physical Chemistry: Thermodynamics and Kinetics Units: 4 or
- CHEM 432 Physical Chemistry for the Life Sciences Units: 4

- CHEM 431 Physical Chemistry: Quantum Mechanics Units: 4
- CHEM 463L Chemical Nanotechnology Laboratory Units: 2
- CHEM 467L Advanced Chemical Biology Laboratory Units: 2
- CHEM 490x Directed Research Units: 1, 2, 3, 4, 5, 6, 7, 8 (4 Units Required)

Advanced Laboratory Elective, Four Units From Among:

- CHEM 332L Physical Chemical Measurements Units: 4
- CHEM 423L Advanced Laboratory Techniques in Organic and Inorganic Chemistry Units: 4
- CHEM 465L Chemical Instrumentation Units: 4

Advanced Chemistry Elective, Two Courses From Among:

- CHEM 426 Advanced Organic Chemistry Units: 4
- CHEM 453 Advanced Inorganic Chemistry Units: 4
- CHEM 519 Biochemistry and Molecular Biology: An Introduction for Chemists Units: 4

Chemistry (Chemical Nanoscience) (BS)

In addition to the general education, writing and foreign language requirements for a degree in the USC Dornsife College of Letters, Arts and Sciences, the following courses are required.

Required Core Courses, Lower-Division

- CHEM 105aLg General Chemistry Units: 4
- CHEM 105bL General Chemistry Units: 4
  or
- CHEM 107Lg General Chemistry for Chemistry Majors Units: 4
- CHEM 108L General Chemistry for Chemistry Majors: Kinetics and Equilibrium Units: 4
  or
- CHEM 115aLg Advanced General Chemistry Units: 4
- CHEM 115bL Advanced General Chemistry Units: 4

- MATH 125g Calculus I Units: 4
- MATH 126g Calculus II Units: 4

- MATH 225 Linear Algebra and Linear Differential Equations Units: 4 or
- MATH 226g Calculus III Units: 4

- PHYS 151Lg Fundamentals of Physics I: Mechanics and Thermodynamics Units: 4
- PHYS 152L Fundamentals of Physics II: Electricity and Magnetism Units: 4
- PHYS 153L Fundamentals of Physics III: Optics and Modern Physics Units: 4

Required Core Courses, Upper-Division

- CHEM 300L Analytical Chemistry Units: 4
- CHEM 325aL Organic Chemistry Units: 4
- CHEM 325bL Organic Chemistry Units: 4
- CHEM 332L Physical Chemical Measurements Units: 4
- CHEM 430 Physical Chemistry: Thermodynamics and Kinetics Units: 4
- CHEM 431 Physical Chemistry: Quantum Mechanics Units: 4
- CHEM 453 Advanced Inorganic Chemistry Units: 4
- CHEM 455 Chemical Nanotechnology Units: 4
- CHEM 463L Chemical Nanotechnology Laboratory Units: 2
- CHEM 490x Directed Research Units: 1, 2, 3, 4, 5, 6, 7, 8 (4 Units Required)

Chemical Nanoscience Elective, Two Courses (5 or 6 Units) From Among:

- CHE 487 Nanotechnology and Nanoscale Engineering through Chemical Processes Units: 4
- CHEM 499 Special Topics Units: 2, 3, 4 (2 Units Required)
- CHEM 488 Introduction to Theory and Practice of X-ray Crystallography Units: 4
  or
- CHEM 588 Advanced Practical X-ray Structure Determination of Small Molecules Units: 2
- CHEM 561 Polymer Synthesis Units: 4

Chemistry (Research) (BS)

In addition to the general education, writing, foreign language and diversity requirements for a degree in the USC Dornsife College of Letters, Arts and Sciences, the following courses are required.

Required Core Courses, Lower-Division

- CHEM 107Lg General Chemistry for Chemistry Majors Units: 4
- CHEM 108L General Chemistry for Chemistry Majors: Kinetics and Equilibrium Units: 4
  or
- CHEM 115aLg Advanced General Chemistry Units: 4
- CHEM 115bL Advanced General Chemistry Units: 4

- MATH 125g Calculus I Units: 4
- MATH 126g Calculus II Units: 4

- MATH 225 Linear Algebra and Linear Differential Equations Units: 4 or
- MATH 226g Calculus III Units: 4

- PHYS 151Lg Fundamentals of Physics I: Mechanics and Thermodynamics Units: 4
- PHYS 152L Fundamentals of Physics II: Electricity and Magnetism Units: 4
- PHYS 153L Fundamentals of Physics III: Optics and Modern Physics Units: 4

Required Core Courses, Upper-Division

- CHEM 300L Analytical Chemistry Units: 4
- CHEM 325aL Organic Chemistry Units: 4
- CHEM 325bL Organic Chemistry Units: 4
- CHEM 426 Advanced Organic Chemistry Units: 4
- CHEM 430 Physical Chemistry: Thermodynamics and Kinetics Units: 4
- CHEM 431 Physical Chemistry: Quantum Mechanics Units: 4
- CHEM 453 Advanced Inorganic Chemistry Units: 4

Advanced Laboratory Elective, 4 Units From Among:

- CHEM 332L Physical Chemical Measurements Units: 4
- CHEM 423L Advanced Laboratory Techniques in Organic and Inorganic Chemistry Units: 4
- CHEM 463L Chemical Nanotechnology Laboratory Units: 2
- CHEM 465L Chemical Instrumentation Units: 4
- CHEM 467L Advanced Chemical Biology Laboratory Units: 2

Required Research Courses

- CHEM 292 Supervised Research Units: 2
- CHEM 294 Undergraduate Research Seminar Units: 1
- CHEM 490x Directed Research Units: 1, 2, 3, 4, 5, 6, 7, 8 (4 Units Required)
- CHEM 494x Advanced Research Experience Units: 2, 4 (4 Units Required)

Minor

Chemistry Minor

A chemistry minor is available for students who wish to broaden their exposure to the chemical sciences. In addition to a core of five chemistry courses (year-long sequences in general chemistry and organic chemistry and a one semester course in analytical chemistry), students must take one upper-division chemistry elective in either advanced organic or advanced inorganic chemistry.

Biology majors must take CHEM 300L, CHEM 426 and CHEM 453.

Required Courses, Lower-Division

- CHEM 105aLg General Chemistry Units: 4
- CHEM 105bL General Chemistry Units: 4 or

- CHEM 115aLg Advanced General Chemistry Units: 4
- CHEM 115bL Advanced General Chemistry Units: 4

Required Courses, Upper-Division

- CHEM 300L Analytical Chemistry Units: 4

- CHEM 322aL Organic Chemistry Units: 4
- CHEM 322bL Organic Chemistry Units: 4 or

- CHEM 325aL Organic Chemistry Units: 4
- CHEM 325bL Organic Chemistry Units: 4

- CHEM 426 Advanced Organic Chemistry Units: 4 or
- CHEM 453 Advanced Inorganic Chemistry Units: 4

Environmental Chemistry and Sustainability Minor

The environmental chemistry and sustainability minor is designed for students majoring in business, engineering, law, communications and other professional fields to give them the knowledge of chemistry needed to understand, formulate and manage scientific issues related to natural environmental processes as well as technologies involving the environment.

Required Courses, Lower-Division

- CHEM 105aLg General Chemistry Units: 4
- CHEM 105bL General Chemistry Units: 4 or

- CHEM 115aLg Advanced General Chemistry Units: 4
- CHEM 115bL Advanced General Chemistry Units: 4

Required Courses, Upper-Division

- CHEM 300L Analytical Chemistry Units: 4
- ENST 320a Water and Soil Sustainability; Energy and Air Sustainability Units: 4
- ENST 320b Water and Soil Sustainability; Energy and Air Sustainability Units: 4

One Elective Course Chosen From:

- CHEM 322aL Organic Chemistry Units: 4
- BISC 315L Introduction to Ecology Units: 4 *
- BISC 419L Microbiology for a Sustainable Future Units: 4 *
- BISC 427 The Global Environment Units: 4 *
- GEOL 412 Oceans, Climate, and the Environment Units: 4 **

Note:

**Prerequisite required*
***Corequisite required*

Doctoral Degree

Chemistry (Chemical Physics) (PhD)

Course Requirements

Completion (with no course grade lower than B-) of 24 units of courses selected from chemistry, physics, mathematics, and engineering, with an overall grade point average not lower than B. These courses must be selected with the advisement and approval of first, the research adviser, and then the thesis chair. All other requirements and procedures are the same as for the PhD in Chemistry.

Chemistry (PhD)

Qualifying Exam Committee

The qualifying exam committee is composed of the research adviser, three other members of the Chemistry Department, and one member from outside the Chemistry Department. The committee is appointed prior to the screening procedure.

Course Requirements

The student must pass a series of graduate courses totaling at least 24 units. The qualifying exam committee may require more than 24 units of graduate course work. Sixty units of registration, including CHEM 790 and CHEM 794a CHEM 794b CHEM 794c CHEM 794d CHEM 794z, are required for the PhD Registration for CHEM 790 and CHEM 794a CHEM 794b CHEM 794c CHEM 794d CHEM 794z should be done with the approval of the staff graduate adviser.

Screening Procedure

The screening requirements designated by the department for continuation in the doctoral program are: an overall grade point average of B or better in at least 24 units by the end of the fourth semester of course work with no grade lower than B-; and a successful research seminar presented by the student to the qualifying exam committee. Only students who have passed the screening requirements are allowed to take the qualifying examination.

Qualifying Examination

The qualifying examination requires the presentation of two original research proposals, or one original research proposal and one critical review of a scientific article, and oral defense of all of these. The qualifying examination is administered by the qualifying exam committee, which should not be chaired by the research adviser.

Dissertation

An acceptable dissertation based on completion of an original research project is required. The candidate must defend an approved penultimate draft of the dissertation in an advertised oral thesis defense lecture, which is open to the scientific community. The dissertation committee consists of three members of the qualifying exam committee including the research adviser and the outside member.

Foreign Language Requirement

The department has no foreign language requirement.

Classics

Classics is a broadly interdisciplinary field. The curriculum of the Classics Department is designed to transmit knowledge and foster appreciation of the cultures of Greece and Rome in all their complexity — from study of their languages and literatures, myths and historical traditions, art and architecture, science and religion, philosophies and political thought — and aims as well to encourage reflection on the ways in which later ages have responded to the classical heritage.

The undergraduate classics major gives students an understanding of the cultures, languages and literatures of ancient Greece, Rome and the Mediterranean world. Most courses focus on ancient Greece and Rome, but students in the department also study the interactions among various ancient cultures, from the prehistoric Near East to the late antique Mediterranean, and the impact of classical cultures on later societies. Students choose one of three tracks in the major: Classical Languages and Literatures, Classical Humanities, and Ancient Civilizations. The department also offers four minors in areas of the discipline: Classics, Classical Greek, Latin and Classical Perspectives.

The graduate program in classics at USC aims to train students to become scholars, teachers and interpreters of ancient Mediterranean civilizations, of the Greek and Latin languages and literatures, and of the traditions that have developed from them. In order to prepare students to work in a variety of intellectual contexts, the department seeks to provide both a traditional, substantive training in classical philology and the intellectual flexibility that will enable them to make the world of the past available to audiences of the present.

USC is a member of the American Academy in Rome, the Intercollegiate Center for Classical Studies in Rome, the College Year in Athens program, and the American School of Classical Studies in Athens. In addition to pursuing study-abroad opportunities in Italy or Greece, Classics students also encouraged to explore courses in allied fields such as ancient philosophy, history, comparative literature, religion, art history and archaeology.

Chair: Ann Marie Yasin, PhD

Faculty

Professors: Anthony J. Boyle, MA; Vincent Farenga, PhD*; Susan Lape, PhD

Associate Professors: Christelle Fischer-Bovet, PhD; Stefano Rebaggiani, PhD; Daniel Richter, PhD*; Ann Marie Yasin, PhD *(Art History)*

Assistant Professors: Afroditi Angelopoulou, PhD; Brandon Bourgeois, PhD; Frederic Clark, PhD; Alexandre Roberts, PhD

Assistant Professor (Teaching): Lucas Herchenroeder, PhD

Emeritus: Jane Cody, PhD; William G. Thalmann, PhD*

**Recipient of university-wide or college teaching award.*

Undergraduate Degrees Honors Program

Departmental honors will be awarded to students in all tracks of the classics major for work of exceptional academic merit in completing requirements for the capstone project (CLAS 410a and CLAS 410b). Candidates will be nominated by their faculty advisers for the project in CLAS 410b and confirmed in a review of nominees by the Undergraduate Studies Committee.

Special distinction also is conferred upon students able to demonstrate exceptional proficiency in knowledge of the classical languages. The award will be given to students who pass a sight translation exam in either Greek or Latin set by the Undergraduate Studies Committee. The exam will be offered each year at the end of the spring semester and will consist of passages drawn from authors and works read in upper-division Latin and Greek courses during the previous six semesters. The use of a dictionary is permitted for the exam.

Students Anticipating Graduate Study in Classics

Students interested in attending graduate school in classics are advised to take as many courses in Greek and/or Latin as possible.

Graduate Degrees

The graduate program in classics at USC aims to train students to become scholars, teachers and interpreters of ancient Mediterranean civilizations, of the Greek and Latin languages and literatures, and of the traditions that have developed from them. In order to prepare students to work in a variety of intellectual contexts, the department seeks to provide both a traditional substantive training in classical philology and the intellectual flexibility that will enable them to make the accomplishments of the past available to audiences of the present.

The department offers the PhD in Classics (Greek and Latin) and the MA in Greek, Latin and Classics. Collateral offerings are available in related departments, such as comparative literature, history, philosophy, art history, English and anthropology.

The graduate program offers mastery of traditional philological and linguistic skills as a basis for the study of ancient cultures, with emphasis on literature, other discursive practices and material culture. Students are encouraged to explore interdisciplinary approaches to classical studies and the relations between classics and other fields. Courses in related departments are recommended and degree requirements permit students to develop individual interests.

Admission Requirements

An applicant for admission will normally have an undergraduate major in classics, but programs may be arranged for promising students who do not. The student should have an undergraduate record satisfactory to the department. At least three letters of recommendation from the student's undergraduate teachers are required. All applicants are required to take the verbal and quantitative general tests of the Graduate Record Examinations. See the department website for detailed application instructions.

Degree Requirements

These degrees are under the jurisdiction of the Graduate School. Refer to the Requirements for Graduation section and The Graduate School section of this catalogue for general regulations. All courses applied toward the degrees must be courses accepted by the Graduate School.

Interdisciplinary Program

Minor in Critical Approaches to Leadership

See the Department of Interdisciplinary Studies for course requirements.

Bachelor's Degree

Classics (BA)

The major in classics has three tracks, with distinct but overlapping emphases. In the Classical Languages and Literatures track, students acquire advanced reading knowledge of one or both classical languages (Greek and Latin) and study the literature of Greece and Rome in historical and cultural context. In the Classical Humanities track, students study Greek and Roman intellectual, literary and aesthetic achievements and their impact on later traditions, while also acquiring basic reading knowledge of one classical language. The Ancient Civilizations track emphasizes study of society, politics and history of Greece, Rome and other civilizations of the ancient Mediterranean world in comparative perspective.

All three tracks emphasize critical thinking as well as practice in written and oral presentation as hallmarks of a liberal arts education.

Requirements for tracks are as follows:

Track I. Classical Languages and Literatures

Recommended Preparation – any of the following:

- CLAS 150gp The Greeks and their Legacies Units: 4
- CLAS 151gp The Legacy of Rome Units: 4
- CLAS 280gp Classical Mythology in Art and Literature Units: 4
- COLT 101gp Masterpieces and Masterminds: Literature and Thought Units: 4
- CORE 102gp Culture and Values: Thematic Option Honors Program Units: 4
- HIST 101gp State and Society in the Ancient World Units: 4

Lower-Division Language Courses (20 units)*

Students must take three courses in one language of their choosing and two in the other language.

Greek (Choose 2-3 from the following):

- GR 120 Greek I Units: 4
- GR 150 Greek II Units: 4
- GR 220 Greek III Units: 4

Latin (Choose 2-3 from the following):

- LAT 120 Latin I Units: 4
- LAT 150 Latin II Units: 4
- LAT 222 Latin III Units: 4

Note:

**Or equivalent via placement*

Upper-Division Language and Literature Courses (16 units)

Four semesters of 300- or 400-level language courses in Greek or Latin

Additional upper-division requirements Units: 8

Two additional semesters of upper-division Greek, Latin, or Classics courses.

Capstone Units: 4

Analytical paper, oral presentation, sight reading exam in either Greek or Latin

CLAS 410a Research in Classical Studies Units: 2

CLAS 410b Research in Classical Studies Units: 2

Track II. Classical Humanities

Breadth Requirement–any one of the following

- CLAS 150gp The Greeks and their Legacies Units: 4
- CLAS 151gp The Legacy of Rome Units: 4
- CLAS 280gp Classical Mythology in Art and Literature Units: 4
- COLT 101gp Masterpieces and Masterminds: Literature and Thought Units: 4
- CORE 102gp Culture and Values: Thematic Option Honors Program Units: 4
- HIST 101gp State and Society in the Ancient World Units: 4

Additional Requirements

Language Requirement

Completion of at least one Greek or Latin course numbered 200 or above.

Upper-Division Requirements

Minimum seven courses, of which at least four must be from Greek, Latin, or Classics; two from Greek, Latin or Classics or from the approved list of outside electives maintained by the major adviser; one capstone.

Capstone: (enroll in Classics CLAS 410a CLAS 410b)

Analytical or research paper; oral presentation; oral examination.

Track III. Ancient Civilizations

- CLAS 101g The Ancient World Units: 4
- CLAS 150gp The Greeks and their Legacies Units: 4
- CLAS 151gp The Legacy of Rome Units: 4

Upper-Division Requirements

Minimum nine courses of which at least five must be upper-division courses in classics, Greek or Latin; three either upper-division courses in classics or from the approved list of outside electives maintained by the major adviser; and one capstone. One of the upper-division courses must include study of a classical civilization other than Greece and Rome.

Capstone: (enroll in Classics CLAS 410a CLAS 410b)

Research paper, oral presentation.

- CLAS 410a Research in Classical Studies Units: 2
- CLAS 410b Research in Classical Studies Units: 2

Minor

Classical Greek Minor

Four courses in Classical Greek, of which one may be GR 220 and at least three must be at the upper-division level.

One additional upper-division course: either Classical Greek or Classics (CLAS).

TOTAL: five courses

Classical Perspectives Minor

The interdisciplinary minor in Classical Perspectives provides immersion in foundational ideas, texts and histories of the Greco-Roman tradition that speak to more contemporary topics and areas of study. How did the Greeks and Romans view love and sexuality, justice and mercy, wisdom and honor, war and peace, glory and shame? What insights might classical perspectives provide into artistic and political choices, professional practices, ethical controversies and social issues in other ages; or, into the study of psychology, sex, gender and sexuality, international relations, race relations, cinema, the sciences, business, theatre or popular culture?

The interdisciplinary 20-unit minor is meant to be easily adapted to any student's program of study and allows students to double-count General Education and Thematic Option Honors courses. Students choose 20 units from the list below in consultation with a Classics faculty member or staff adviser. No more than 12 units may be taken in any one USC Dornsife department or USC school.

Foundational Courses

Choose one course from the following list (4 units)

- AHIS 120gp Foundations of Western Art: Prehistoric to Renaissance Units: 4
- AHIS 201g Digging into the Past Units: 4
- CLAS 150gp The Greeks and their Legacies Units: 4
- CLAS 151gp The Legacy of Rome Units: 4
- CLAS 160gp Ancient Lives Units: 4
- CLAS 170gp Classics of Music and Literature: from Ancient Greece Through Contemporary LA Units: 4
- CLAS 180g Classic Mythology and the Mythic Imagination Units: 4

- CLAS 190g History of Science: Antiquity to the Scientific Revolution Units: 4
- CLAS 280gp Classical Mythology in Art and Literature Units: 4
- CORE 102gp Culture and Values: Thematic Option Honors Program Units: 4
- HIST 101gp State and Society in the Ancient World Units: 4
- GE seminars on appropriate topics (consult an adviser)
- PHIL 115g Ancient Greek Culture and Society Units: 4
- REL 112g Religions of Ancient Egypt and the Near East Units: 4
- REL 114g The Mediterranean: A Religious History Units: 4
- REL 121g The World of the New Testament Units: 4

Core Courses

Choose at least one course from the following list (4-12 units)

- CLAS 310 Pagans and Christians Units: 4
- CLAS 320gmp Diversity and the Classical Western Tradition Units: 4
- CLAS 330 Ancients VS. Moderns Units: 4
- CLAS 339 Ancient Science Units: 4
- CLAS 340 Ethics and Politics in Ancient Rome Units: 4
- CLAS 370 Leaders and Communities: Classical Models Units: 4
- CLAS 380 Approaches to Myth Units: 4
- CLAS 415 Object-Worlds: Histories and Theories of Things Units: 4
- CLAS 420 Science and Empire from Baghdad to Byzantium Units: 4
- CLAS 470 Democracies Ancient and Modern Units: 4

Electives

Choose at least one course from the following list (4-12 units)

- AHIS 301 Guardians of the Past? Art Preservation, Ethics, and the Law Units: 4
- AHIS 304gm Art, Power and Identity in Renaissance Italy Units: 4
- AHIS 321 Greek Art and Archaeology Units: 4
- AHIS 322 Roman Art and Archaeology Units: 4
- AHIS 325 Roman Archaeological Excavation: Methods and Practice Units: 4
- AHIS 420 Studies in Ancient Art Units: 4
- AHIS 425 Interdisciplinary Studies in Classical Art and Archaeology: Research and Methodology Units: 4
- ANTH 372 Interpretation of Myth and Narrative Units: 4
- ARCG 323p Roman Archaeology: History, Methods and Field Work Units: 4
- CLAS 300 Women in Antiquity Units: 4
- CLAS 305 Roman Law Units: 4
- CLAS 307 Law and Society in Classical Greece Units: 4
- CLAS 310 Pagans and Christians Units: 4

Classics Minor

The classics department minor requires one lower-division Classics course or one third-semester Latin or Greek course, and four upper-division Classics, Latin or Greek courses.

One course from either A or B:

Lower-division course

A.

Lower division Classics courses

- CLAS 101g The Ancient World Units: 4
- CLAS 150gp The Greeks and their Legacies Units: 4
- CLAS 151gp The Legacy of Rome Units: 4
- CLAS 160gp Ancient Lives Units: 4
- CLAS 280gp Classical Mythology in Art and Literature Units: 4

B.

Third semester Latin or Greek courses:

- GR 220 Greek III Units: 4
- LAT 222 Latin III Units: 4

Additional Requirements

Four upper-division courses (16 units) drawn from classics course offerings in Classics, Latin or Greek

Total: 5 courses

Latin Minor

Four courses in Latin, of which one may be LAT 222 and at least three must be at the upper-division level.

One additional upper-division course: either Latin (LAT) or Classics (CLAS).

TOTAL: five courses

Master's Degree

Classics (MA)

The department does not accept applicants for a Master of Arts degree in classics. The MA degree is intended only as a transitional degree in the process of completing requirements for the PhD in classics.

Work toward the MA consists of six 4-unit courses (24 units) and a thesis and oral defense, or the MA comprehensive examination. Two of the core seminars (i.e. CLAS 540, CLAS 550, CLAS 560, CLAS 570) are required and five of the six courses must be taken in the Department of Classics. Under the guidance of a faculty committee, the student elects those courses appropriate to individual areas of special interest and previous academic preparation.

Doctoral Degree

Classics (PhD)

Application deadline: January 1

Course Requirements

All students must complete CLAS 540, CLAS 550, CLAS 560 and CLAS 570, plus at least five from CLAS 510, CLAS 515, CLAS 520, CLAS 525, CLAS 545, CLAS 555, CLAS 565, CLAS 575, as well as three electives to be decided on in consultation with the graduate adviser. This arrangement is designed to assure competency in core areas of classical studies while allowing for the development of individual research interests and, where appropriate, course work in related fields. In addition, all students are required to enroll in the 2-unit teaching practicum (CLAS 593x) concurrent with their first semester as a department teaching assistant.

Exams

Students are expected to complete written exams in the translation of Greek and Latin literature; in Greek and Roman history; and modern language competency exams. In addition, students take written and oral exams in major and minor fields and an oral exam on the dissertation prospectus. The field exams, prospectus, and exam on the prospectus together constitute the qualifying exam and are evaluated by a five-member committee. Students may not present themselves for the qualifying exam until all required courses and preliminary exams have been completed successfully.

Dissertation

Following the completion of the qualifying exam, the guidance committee will be reduced to three members, including one member from outside the department, who will guide and approve the dissertation.

Juries

All students make formal presentations on their research before a jury drawn from internal and external faculty twice during their graduate careers — once before taking the field exams and once while working on the dissertation.

Timetable

Required course work, written and oral exams are to be completed by the end of the third year of enrollment in the program, with the dissertation to be submitted and defended by the end of the fifth year.

Comparative Literature

Comparative Literature seeks out and encourages transnational and transcultural experiences and perspectives. Our students are trained to ask broader and better questions about the many forms of cultural production surrounding them. Comparatists study the nature of literature and other media across and between different languages and cultures. They gain a broad knowledge of different cultural traditions representing writers and artists of diverse origins and from many historical periods. In addition to cross-linguistic and cross-cultural literary studies, the undergraduate program explores literature in social, political, intellectual, and historical context and the relationship of literature to other arts, philosophy, and media, including digital media. The Department of Comparative Literature offers both a major and minor in comparative studies.

Students in Comparative Literature work with emergent and established scholars at the cutting edge of their various fields and disciplines. Our undergraduates are encouraged to adopt comparative study and literary theory not only as integral elements of interdisciplinary academic work but as crucial tools of democratic citizenship in global contexts. The department has strengths in critical theory and in both Western and non-Western literary and cultural traditions, including U.S., Latin American and Caribbean, Western European, Middle Eastern, East Asian and South Asian. The broad scope of scholarly expertise represented in the department enables students to reflect critically, across their course of studies, on the ways in which globalization affects the creation, dissemination, and consumption of culture and to analyze literature, arts, and media as sites of resistance to and rethinking of this globalization.

Our undergraduate program is more broadly conceived than at many other universities. While we offer traditional comparative literature courses that cross the boundaries of national literatures and study literary periods, movements, and genres, our courses also allow students to explore literature in its interaction with philosophy, to discover the relation of literature to other arts and media, and to reflect on practices of translation as themselves modes of transcultural exchange and production. The strong non-Western component in the undergraduate program encourages our students to think with nuance and complexity about the place of literature in wider social and political contexts.

**Recipient of university-wide or college teaching award.*

Graduate Degrees

The MA and PhD in comparative literature are offered through the Comparative Studies in Literature and Culture program.

Bachelor's Degree

Comparative Literature (BA)

Students may earn the BA in Comparative Literature by satisfying the requirements for either of two tracks.

The Literature/Media/Critical Thought Track allows students to focus their study in one of three concentrations while also taking courses in the other two. Together, these three concentrations represent the broad range of interests in the discipline: (1) literature considered comparatively and transnationally; (2) the media of other arts and modes of communication (photography, film, music, painting and digital media); (3) modes of critical thought that inform and shape theoretical reflection on the arts and society.

This track offers the opportunity to pursue a major that is broadly based in the liberal arts. Students on this track might consider extending their concentration with a double major or minor. For example, the literature concentration could be extended with a second major or minor in a national literature (French, Spanish, Italian, Russian, English, classics or an East Asian literature); the media concentration by another major or minor in cinematic arts, art history or communication; and the critical thought concentration by a second major or minor in philosophy, religion, history, sociology or anthropology.

The Foreign Language Track incorporates the study of at least one literature in a foreign language into the comparative perspective of the comparative literature major.

Students who intend to pursue a graduate degree in either comparative literature or a foreign literature are strongly advised to choose this track, as are students who already possess advanced skills in a language other than English. Majors in comparative literature with foreign language emphasis might consider a double major or a minor in a department of foreign language or in a non-literary field such as international relations or journalism.

The requirements for both tracks of the major accommodate very well semesters of study abroad. Students are helped and encouraged to plan their programs in advance to allow for that experience.

Requirements for the Major

Literature/Media/Critical Thought Track

Students earn a BA in Comparative Literature and are required to complete at least 40 units (10 courses) as follows:

Requirements

(1)

- COLT 302 Introduction to Literary Theory Units: 4
- COLT 303 Globalization: Culture, Change, Resistance Units: 4

(2)

At least four additional COLT courses in one of the three concentrations.

Literature Concentration:

- COLT 101gp Masterpieces and Masterminds: Literature and Thought Units: 4
- COLT 102g On Location: The Place of Literature in Global Cultures Units: 4
- COLT 250g Cultures of Latin America Units: 4
- COLT 251g Modern Literature and Thought of the West Since 1800 Units: 4
- COLT 264gp Asian Aesthetic and Literary Traditions Units: 4
- COLT 311 Epic Units: 4
- COLT 312 Heroes, Myths and Legends in Literature and the Arts Units: 4
- COLT 324 Women in Medieval and Renaissance Europe Units: 4
- COLT 335 Decadence and Modernity Units: 4
- COLT 345 Realist Fiction Units: 4
- COLT 346 Fictions of the First Person Units: 4
- COLT 348 Modernist Fiction Units: 4
- COLT 374gm Women Writers in Europe and America Units: 4
- COLT 382gw Zen and Daoism in Asian Literature Units: 4
- COLT 420 The Fantastic Units: 4
- COLT 426 Utopias Units: 4
- COLT 445 Europe and the Writing of Others Units: 4
- COLT 448 Multilingual Encounters Units: 4
- COLT 472 Los Angeles Crime Fiction Units: 4
- COLT 475 Politics and the Novel Units: 4
- COLT 476 Narrative and the Law Units: 4
- COLT 485 The Shoah (Holocaust) in Literature and the Arts Units: 4
- EALC 454 Bildungsroman in Modern East Asia Units: 4
- EALC 460 Love, Self and Gender in Japanese Literature Units: 4

Media Concentration:

- COLT 354 Revolutions in Theater Units: 4
- COLT 357 The Avant-Garde Units: 4
- COLT 365 Literature and Popular Culture Units: 4
- COLT 373 Literature and Film Units: 4
- COLT 379 Nationalism and Postcolonialism in Southeast Asian Cinema Units: 4
- COLT 451 Opera and Cultural Theory Units: 4
- COLT 462 Soundtracks of Our Lives Units: 4
- COLT 470 Literature and Media in Latin America Units: 4
- COLT 480 Dada and Surrealism Units: 4

Critical Thought Concentration:

- CLAS 370 Leaders and Communities: Classical Models Units: 4
- COLT 375 Latin American Cultural and Literary Theory Units: 4
- COLT 377 Gender and Sexuality in Literary Theory Units: 4
- COLT 381 Psychoanalysis and the Arts Units: 4
- COLT 385 Literature and Justice Units: 4
- COLT 391 Literary Criticism from Plato to Postmodernism Units: 4
- COLT 454 Aesthetic Philosophy and Theory Units: 4
- COLT 471 Literature, Theory, History Units: 4
- COLT 474 Desire, Literature, Technology Units: 4
- COLT 476 Narrative and the Law Units: 4
- COLT 478 Family in Theory and Literature Units: 4
- COLT 486 Deconstructive Thought Units: 4
- COLT 487 Critical Image Units: 4

(3)
At least four additional COLT courses. No more than two of the 10 courses required for the major may be at the 100 or 200 level.

Foreign Language Track

Students earn a BA in Comparative Literature and are required to complete 40 units (10 courses) as follows:

Requirements

(1)

- COLT 302 Introduction to Literary Theory Units: 4
- COLT 303 Globalization: Culture, Change, Resistance Units: 4

(2)
At least five additional COLT courses, of which no more than two may be at the 100 or 200 level.

(3)
At least three upper-division courses in the literature or culture of one or more foreign languages (other than English), with all readings in that language.

Honors Program

Students who satisfy the following requirements of the honors program receive the BA in Comparative Literature with Honors. To be admissible to the honors program, an overall GPA of at least 3.0 and at least 3.5 in courses counted for major credit is required. The decision to enter the Honors Program should be made and discussed with the departmental undergraduate adviser at least one year (two semesters) before graduation.

To be awarded honors, majors in comparative literature on the literature/media/ critical thought track must complete 4 units of COLT 490x Directed Research and 4 units of COLT 495 Senior Honors Thesis. These courses replace two of the COLT courses required beyond the four-course concentration. Majors in comparative literature on the foreign language track must complete, in place of two of the five required COLT courses, an additional upper-division course in the literature or culture of a language other than English and COLT 495 Senior Honors Thesis.

The director of the senior honors thesis must be a member of the comparative literature faculty. The second reader may be any regular USC faculty. To qualify for the award of honors, the director and second reader must both approve the thesis.

Minor

Comparative Literature Minor

Students can minor in one of three tracks: the literature/media/ critical thought track, the foreign language track or the global cultures track.

Literature/Media/Critical Thought Track

Students are required to complete at least 24 units (six courses) as follows:

1. COLT 302 and COLT 303
2. At least three additional COLT courses in one of the three concentrations.
3. At least one additional COLT course in any of the three concentrations.

No more than one of the six courses required for the minor may be at the 100 or 200 level.

Foreign Language Track

Students are required to complete at least 24 units (six courses) as follows:

1. COLT 302 and COLT 303
2. At least three additional COLT courses, of which no more than one may be at the 100 or 200 level.
3. At least one upper-division course in the literature or culture of a foreign language (other than English), with all readings in that language.

Global Cultures Track

Students are required to complete at least 24 units (six courses) as follows:

1. COLT 302 and COLT 303
2. At least two additional COLT courses, of which no more than one may be at the 100 or 200 level, to be chosen from the following list: COLT 101, COLT 102, COLT 250, COLT 264, COLT 374, COLT 375, COLT 379, COLT 385, COLT 445, COLT 448, COLT 470, COLT 474
3. At least two other courses in a relevant USC College department to be decided in conjunction with the adviser according to the following guidelines:
   1. Students may choose a region of the world and take two upper-division courses related to that region in relevant departments.
   2. Students may choose a national/ linguistic tradition and take two upper-division courses related to that tradition in relevant departments.

Graduate Certificate

Translation Studies Certificate

Graduate students intending to complete a certificate in Translation Studies must be admitted to a USC graduate or professional program. While undertaking course work for an MA, PhD or other graduate degree, students may earn a certificate in Translation Studies, which confirms advanced competence in inter-linguistic and cross-cultural communication.

To earn the certificate, students must take four courses (minimum of 12 units). Of these, two are required: the theory and philosophy of translation (COLT 510), and the workshop in literary translation that will serve as the capstone experience (COLT 519). In addition, students will choose two elective courses under the rubric of linguistic, literary and cultural traditions. Electives must focus fully or partially on translation and may be taken in any department, including comparative literature. Possible electives include COLT 511, COLT 512, or any graduate course from any departments or programs. Electives need to be approved by the director of the certificate.

Requirements

Foundation

- COLT 510 Introduction to Translation Studies Units: 4

Electives in Linguistic, Literary and Cultural Traditions

Two elective courses are required for certificate completion and may be taken in any department. The courses listed below are approved to count toward the certificate. Courses outside of those listed are subject to review and approval by the certificate program director prior to the application toward the certificate.

- COLT 511 Translating Race Units: 4
- COLT 512 Literary and Cinematic Translingualism and Translation Units: 4

Capstone

- COLT 519 Translation in Theory and Practice Units: 4

Comparative Studies in Literature and Culture

The Comparative Studies in Literature and Culture Department offers the MA and PhD in three tracks: Comparative Media and Culture; Comparative Literature; and National Literatures and Cultures (French and Francophone Studies or Spanish and Latin American Studies).

Graduate Degrees

Comparative Studies in Literature and Culture Doctoral Program

Application deadline: January 3

Through the Comparative Studies in Literature and Culture doctoral program (CSLC), students pursue master's and doctoral degrees in one of three tracks: Comparative Media and Culture; Comparative Literature; National Literatures and Cultures (French and Francophone Studies or Spanish and Latin American Studies). The three tracks share a required core curriculum.

General Admission and Application Requirements

Applications are made to CSLC for the PhD in one of the three tracks.

Successful applicants will have: a BA in a relevant discipline; satisfactory scores in both the verbal and quantitative general test of the Graduate Record Examinations; satisfactory grades on undergraduate or previous MA course work in a related field and, if appropriate, a satisfactory score on the TOEFL or IELTS examination; and advanced competence in relevant languages. Applications must also include a written statement indicating the applicant's interests in the field and proposed areas of study; a sample of scholarly or critical writing on a relevant subject; and three letters of recommendation.

Although candidates are not admitted who wish to pursue solely the MA, the degree may be awarded either as a terminal degree or as a transitional degree in the course of PhD study.

General Degree Requirements

These degrees are under the jurisdiction of the Graduate School. Refer to the Requirements for Graduation section and The Graduate School section of this catalogue for general regulations. To be applied toward the degrees, courses must be accepted by the Graduate School.

Students may transfer up to 4 units toward the MA and 30 units toward the PhD.

For specific degree requirements in each track, see below.

Certificate in Foreign Language Teaching

This credential provides certification in the theory and practice of second or foreign language teaching for student language teachers concurrently enrolled in graduate degree programs in foreign languages or related graduate programs at USC; for graduates of such programs who are teaching languages; for external candidates concurrently enrolled in similar programs at accredited colleges or universities; or for graduates of such programs who are teaching languages. The certificate is meant to supplement graduate study in the literature or linguistics of foreign languages. It is also meant to supplement classroom teaching. Refer to the Department of Latin and Iberian Cultures for course work requirements.

Master's Degree

Comparative Studies in Literature and Culture (Comparative Literature) (MA)

Track II: Comparative Literature

The primary goal of graduate study in the comparative literature track is to prepare students to engage in original research and teaching after acquiring: a broadly based knowledge of literature's formal or generic development extending across linguistic boundaries; an understanding of literature's historical development within a number of specific cultural or ideological contexts; and a knowledge of the principles of literary criticism and theory essential to the analysis, interpretation and evaluation of individual works. The core of the discipline of comparative literature is advanced competence in several languages allowing research in their literary traditions.

Course Requirements

Completion of at least eight courses (29–32 units) distributed as follows: CSLC 501, CSLC 502 and CSLC 503; three courses in a first literary tradition; two courses in a second literary tradition. No more than one of these eight courses may be in directed research (590).

First-year Review

The program conducts a thorough review of all first-year students at the end of the second semester. To be permitted to continue doctoral work, students must receive a satisfactory evaluation in this review.

Track II Field Examination

A written exam based on a reading list must be successfully passed by all students in the track. It is normally taken at the end of the semester in which MA course work is completed.

Comparative Studies in Literature and Culture (Comparative Media and Culture) (MA)

Track I: Comparative Media and Culture

The primary goal of the track in comparative media and culture is to prepare students to engage in original research and teaching after acquiring: a broadly based knowledge of the formal specificity and possibilities of different print, visual, sound and digital media; an understanding of the development of different media within their specific cultural and linguistic contexts; and a knowledge of the principles of criticism and theory essential to the analysis, interpretation and evaluation of individual works.

Course Requirements

Completion of at least eight courses (29–32 units) distributed as follows: CSLC 501, CSLC 502and CSLC 503; one course in a non-Anglophone literary or cultural tradition (CLAS, EALC, FREN, SLL or SPAN); four additional courses in fields relating to the student's program, of which at least two are in CSLC. No more than one of these eight courses may be in directed research (CSLC 590).

First-Year Review

The program conducts a thorough review of all first-year students at the end of the second semester. To be permitted to continue doctoral work, students must receive a satisfactory evaluation in this review.

Track I Field Examination

A written exam based on a reading list must be successfully passed by all students in the track. It is normally taken at the end of the semester in which MA course work is completed.

Comparative Studies in Literature and Culture (French and Francophone Studies) (MA)

The Comparative Studies in Literature and Culture Department offers the MA and PhD in three tracks: Comparative Media and Culture; Comparative Literature; and National Literatures and Cultures (French and Francophone Studies or Spanish and Latin American Studies).

Track III: National Literatures and Cultures

French and Francophone Studies

The majority of students pursue the doctorate in Comparative Studies in Literature and Culture (French and Francophone

Studies) in preparation for a career of teaching and research at the college or university level in the field of French and Francophone literature and cultural studies. Students preparing for these careers must obtain a broad knowledge of major French and Francophone literary texts and traditions from the Middle Ages to the present, which is achieved through a combination of course work and exams. They should also develop the intellectual depth that allows them to produce an original dissertation in a timely manner.

Course Requirements

Completion of at least 8 courses (29–32 units) distributed as follows: (1) CSLC 501, CSLC 502 and CSLC 503; three core courses, FREN 500, FREN 501 and FREN 503; (3) two additional courses in French or, with permission, in a related field. No more than two of the eight courses may be at the 400 level and no more than one course may be in directed research (590).

First-year Review

The program conducts a thorough review of all first-year students at the end of the second semester. To be permitted to continue doctoral work, students must receive a satisfactory evaluation in this review.

Comparative Field Exercise

The exam consists of the oral defense of a paper developed in consultation with a faculty adviser. The paper must be submitted no later than the third semester.

Field Examination

A written exam based on a reading list, followed by an oral defense, must be successfully passed by all students in the track. It is normally taken at the end of the semester in which MA course work is completed.

Comparative Studies in Literature and Culture (Spanish and Latin American Studies) (MA)

Spanish and Latin American Studies

The Spanish and Latin American Studies track in Comparative Studies in Literature and Culture provides an optimal academic environment for students interested in advanced studies and research in Spanish and Latin American literature and culture studies. Students pursue a course of study designed to develop a broad knowledge of the subject matter within the framework of comparative studies as well as current developments in the field and are encouraged to devise individualized programs of specialization in keeping with the highest standards of scholarship.

Course Requirements

Students are required to complete at least eight courses (32 units), distributed as follows: CSLC 501, CSLC 502 and CSLC 503; SPAN 501; four additional Spanish courses or, with permission, courses in a related field. Students specializing in the medieval and early modern periods are encouraged to take a course in the history of the Spanish language. No more than one of the eight courses may be in directed research (590).

First-year Review

The program conducts a thorough review of all first-year students at the end of the second semester. Students must receive a satisfactory evaluation to be permitted to continue to doctoral work.

Language Requirement

Reading knowledge of a language other than Spanish and English must be demonstrated either by successfully completing a course at the 400-level or above taught in that language or by passing a reading examination in the language. Students confer with the graduate adviser to decide which option is most appropriate.

Track III Field Examination (Spanish)

A written exam based on a reading list must be successfully passed by all students in the track. It is normally taken at the end of the semester in which MA course work is completed.

Doctoral Degree

Comparative Studies in Literature and Culture (Comparative Literature) (PhD)

Track II: Comparative Literature

The primary goal of graduate study in the comparative literature track is to prepare students to engage in original research and teaching after acquiring: a broadly based knowledge of literature's formal or generic development extending across linguistic boundaries; an understanding of literature's historical development within a number of specific cultural or ideological contexts; and a knowledge of the principles of literary criticism and theory essential to the analysis, interpretation and evaluation of individual works. The core of the discipline of comparative literature is advanced competence in several languages allowing research in their literary traditions.

Course Requirements

In addition to the MA course requirements listed above, six additional 4-unit courses are required, distributed as follows: COLT 602 and two other courses in CSLC, COLT or comparative fields relating to the student's program; two additional courses in the first literary tradition; one course in a third literary tradition. Students will also complete the professional development sequence, CSLC 600 and CSLC 700, which are 2-unit courses and offered only as credit/no credit. No more than two of the total required courses may be in directed research (590 or 790).

Track II Field Examination

See the requirement in the MA section.

Foreign Language Requirements

Students must successfully complete at least three advanced courses (400-level or higher) in the original languages of two literary traditions other than Anglophone (two courses in one language and one in the other). Students will also complete a literary analysis exercise in their strongest non-native language outside their major literary tradition. This exercise is normally done in conjunction with the field examination.

Comparative Field Exercise

A 30–40 page paper with bibliography in a comparative field related but not central to the major literary tradition in which the student plans to write his or her dissertation is required.

Qualifying Examination

To be admitted to candidacy for the PhD, students must pass this examination after all course work has been completed.

Dissertation Defense

An oral defense of the dissertation must be satisfactorily completed before the dissertation can be filed with the Graduate School.

Awarding of Degree

The degree of PhD in Comparative Studies in Literature and Culture (Comparative Literature) is conferred when all of the degree requirements have been completed satisfactorily.

Comparative Studies in Literature and Culture (Comparative Media and Culture) (PhD)

Track I: Comparative Media and Culture

The primary goal of the track in comparative media and culture is to prepare students to engage in original research and teaching after acquiring: a broadly based knowledge of the formal specificity and possibilities of different print, visual, sound and digital media; an understanding of the development of different media within their specific cultural and linguistic contexts; and a knowledge of the principles of criticism and theory essential to the analysis, interpretation and evaluation of individual works.

Course Requirements

In addition to the MA course requirements listed above, six additional 4-unit courses are required, distributed as follows: one of the following: COLT 602, CSLC 601 or CSLC 603; two courses in non-Anglophone literary or cultural traditions; three additional courses in CSLC or in fields related to the study of media and culture. Students will also complete the professional development sequence, CSLC 600 and CSLC 700, which are 2-unit courses and offered only as credit/no credit. No more than two of the total required courses may be in directed research (590 or 790).

Foreign Language Requirements

Students must successfully complete at least three advanced courses (400-level or higher) in the original language of a tradition other than Anglophone.

Track I Field Examination

See the requirement in the MA section.

Qualifying Examination

To be admitted to candidacy for the PhD, students must pass this examination after all course work has been completed.

Dissertation Defense

An oral defense of the dissertation must be satisfactorily completed before the dissertation can be filed with the Graduate School.

Awarding of Degree

The degree of PhD in Comparative Studies in Literature and Culture (Comparative Media and Culture) is conferred when all of the degree requirements have been completed satisfactorily.

Comparative Studies in Literature and Culture (French and Francophone Studies) (PhD)

The Comparative Studies in Literature and Culture Department offers the MA and PhD in three tracks: Comparative Media and Culture; Comparative Literature; and National Literatures and Cultures (French and Francophone Studies or Spanish and Latin American Studies).

Track III: National Literatures and Cultures

French and Francophone Studies

The majority of students pursue the doctorate in Comparative Studies in Literature and Culture (French and Francophone Studies) in preparation for a career of teaching and research at the college or university level in the field of French and Francophone literature and cultural studies. Students preparing for these careers must obtain a broad knowledge of major French and Francophone literary texts and traditions from the Middle Ages to the present, which is achieved through a combination of course work and exams. They should also develop the intellectual depth that allows them to produce an original dissertation in a timely manner.

Course Requirements

In addition to the MA course requirements, at least five additional 4-unit courses are required distributed as follows: (1) CSLC 603; (2) four additional courses in French or, with permission, in a related field. Students will also complete the professional development sequence, CSLC 600 and CSLC 700, which are 2-unit courses and offered only as credit/no credit. No more than two of the total required courses may be in directed research (590 or 790). The total unit requirement for the PhD is 60 units.

Language Requirement

The language requirement may be fulfilled either by successfully completing a course at the 400-level or above taught in a language other than French or English or by passing a reading examination in the relevant language. Students confer with the graduate adviser to decide which option is most appropriate. This requirement must be fulfilled at least 60 days before the qualifying examination.

Qualifying Examination

To be admitted to candidacy for the PhD, students must pass this examination after all course work has been completed.

Dissertation Defense

An oral defense of the dissertation must be satisfactorily completed before the dissertation can be filed with the Graduate School.

Awarding of Degree

The degree of PhD in Comparative Studies in Literature and Culture (French and Francophone Studies) is conferred when all of the degree requirements have been completed satisfactorily.

Comparative Studies in Literature and Culture (Spanish and Latin American Studies) (PhD)

Spanish and Latin American Studies

The Spanish and Latin American Studies track in Comparative Studies in Literature and Culture provides an optimal academic environment for students interested in advanced studies and research in Spanish and Latin American literature and culture studies. Students pursue a course of study designed to develop a broad knowledge of the subject matter within the framework of comparative studies as well as current developments in the field and are encouraged to devise individualized programs of specialization in keeping with the highest standards of scholarship.

Course Requirements

In addition to the MA course requirements listed above, six additional 4-unit courses are required distributed as follows: one of the following: COLT 602, CSLC 601 or CSLC 603; five additional courses in Spanish or, with permission, courses in a related field. Students will also complete the professional development sequence, CSLC 600 and CSLC 700, which are 2-unit courses and offered only as credit/no credit. No more than two of the total required courses may be in directed research (590 or 790).

Language Requirement

Reading knowledge of two languages in addition to Spanish and English must be demonstrated either by successfully completing a course at the 400-level or above taught in the languages or by passing a reading examination in the languages. Students confer with the graduate adviser to decide which option is most appropriate. This requirement must be fulfilled at least 60 days before the qualifying examination.

Qualifying Examination

To be admitted to candidacy for the PhD, students must pass this examination after all course work has been completed.

Dissertation Defense

An oral defense of the dissertation must be satisfactorily completed before the dissertation can be filed with the Graduate School.

Awarding of Degree

The degree of PhD in Comparative Studies in Literature and Culture (Spanish and Latin American Studies) is conferred when all of the degree requirements have been completed satisfactorily.

Earth Sciences

The Department of Earth Sciences includes a spectrum of disciplines united by curiosity about the Earth and its natural environment, from microbial to planetary scales, and from human to geologic time periods. Teaching and research in the department focus on integrative understanding of Earth's systems and the processes that influence the environmental "state" of the planet, on using this understanding to read the record of Earth's history written in rocks and sediments, and on developing models that can be used to understand mechanisms at work in the past and to predict future changes due to natural phenomena and recent perturbations caused by humans. Earth Sciences involves many issues of societal concern including: seismic risk and other natural hazards; climate change; sustainability of natural resources including petroleum and natural gas as well as water and air; origins and limits of life and survival/adaptation strategies; and environmental contamination. Subdisciplines housed in the department include geophysics, geochemistry, geobiology, hydrology, structural geology, petrology, marine geology, sedimentology, physical and chemical oceanography, climate science, paleoceanography and paleontology.

The department is committed to emphasizing both educational and research programs and views these efforts as complementary. Instruction is offered on several levels and includes an emphasis on hands-on learning through lab and field experiences. Courses include introductory classes for non-science majors, undergraduate courses that are appropriate for those majoring in Earth Sciences or other science and engineering disciplines, and graduate classes appropriate for advanced degrees. A close working relationship exists between students and faculty members. Classes beyond the introductory level are usually small, permitting personalized instruction. Field trips are an important part of the instructional program. Two major research centers are led by faculty within the department: the Southern California Earthquake Center and the Center for Dark Energy Biosphere Interactions. The department also hosts one of NASA's Astrobiology Institutes. The graduate program is closely linked to faculty research efforts, and both graduate and undergraduate students participate in research projects and workshops that include oral and poster presentations. Collaboration in both research and teaching has led to close ties with other programs, including the Department of Biological Sciences (Marine Biology), the Environmental Studies program, the graduate program in Ocean Sciences and several other departments in Dornsife and in other schools (Viterbi School of Engineering, Price School of Public Policy, Annenberg School for Communication and Journalism).

For students interested in pursuing careers in the Earth and environmental sciences, the department offers BA, BS, MS and PhD degrees. The undergraduate majors offer student-focused, experiential training, with capstone experiences including a unifying course on Earth systems and field training in locations including Catalina Island, Spain, Morocco and South America. Many graduates now hold positions in academia as faculty and researchers, in industry as environmental consultants or geologists, in government and private industry as managers or researchers, and as teachers. The BA degree is recommended for students interested in the Earth Sciences but who intend to pursue careers in other fields, such as business, law, medicine or education.

Three minors are available. The Geohazards minor is recommended for those who wish to broaden their background in natural hazards, global change, or environmental problems. It is accessible to both non-science and science majors. The Geobiology minor is recommended for those interested in interdisciplinary work in Earth and biological sciences. The Earth Sciences minor in Climate Change, Stewardship, and Resiliency is recommended for those interested in international relations, public policy, economics, business, management and/or politics. In addition, the department works closely with the Dornsife Environmental Studies program, offering science-focused course work for students in this program and facilitating joint degrees (double-major or major/minor combinations) for students seeking further scientific grounding in their study of the natural environment.

The Los Angeles and Southern California regions provide diverse and spectacular geological settings, enabling students easy access to varied field sites. The department conducts field trips to study Southern California geology, has access to oceanographic vessels for marine research, and regularly conducts workshops and research at the Wrigley Marine Lab on Catalina Island. Many state-of-the-art laboratory instruments are available for use in research and instruction, and both undergraduate and graduate students are involved significantly in most research groups.

Proof of health insurance is mandatory when participation in field trips is required for credit in any Earth Sciences class.

Undergraduate Degrees

Honor Society

The Department of Earth Sciences has one honor society: the Omega Chapter of Sigma Gamma Epsilon, the national honorary earth sciences fraternity. "Sig Gam" is an undergraduate organization that sponsors undergraduate activities within the department.

Undergraduate Honors Program

The department offers an honors program for students pursuing either a BS or a BA in Earth Sciences. Students wishing to participate in this program must complete GEOL 494x Senior Thesis. Honors will be awarded upon successful completion of the thesis and attainment of an overall GPA of 3.0 and a GPA of 3.5 in courses in the major.

Grade Point Average in Major Subject

A grade of C or higher is required in each course in the earth sciences courses used to complete the department or physical sciences major.

Progressive Degree Program in Geological Sciences

This program permits exceptional students to receive both a BS and MS in geological sciences in not more than 10 semesters. It is intended for students with extraordinary geological sciences preparation and performance who demonstrate a superior level of overall scholarship, including a GPA of 3.5 or better. Students may apply on completion of 64 units of course work but not later than the end of the junior year (or the completion of 96 units). The application for admission to a progressive degree program must be accompanied by an approved course plan proposal and letters of recommendation from two USC faculty members in the Department of Earth Sciences. The requirements for both the BS and MS degrees must be satisfied. Further details about progressive degree programs can be found here.

Graduate Degrees

The department prepares professional Earth Scientists for careers in academia, government and industry. A wide range of specializations is offered in the department including climate science, sedimentary geology, paleobiology, paleoclimatology, paleoecology, micro paleontology, paleoceanography, geochemistry, geobiology, geophysics, geodesy, geomorphology, seismology, engineering geology and properties of Earth materials, igneous and metamorphic petrology, structural geology and tectonics, and interdisciplinary options. Degrees in ocean sciences (through the Graduate Program in Ocean Sciences) are available.

Admission Requirements

Prerequisites

An applicant for admission should have the equivalent of the courses in Earth sciences, chemistry, mathematics, and physics required for the BS degree in geological sciences. Applicants with an undergraduate degree in science or engineering who lack required Earth sciences courses will also be given consideration. Other degrees may be acceptable on a case-by-case basis.

Criteria

The Department of Earth Sciences requires the following evidence for admission to its doctoral program: strong undergraduate background and a superior academic record as documented by GPAs in undergraduate and any completed graduate work, Graduate Record Examinations scores no more than five years old in the verbal and quantitative General Test, and at least three letters of recommendation from undergraduate and, if applicable, graduate advisers and professors. The number of students accepted in any one year depends on available space in the department and acceptance for advisement by one or more professors.

Funding is offered for MS degrees only when completed en route to the pursuit of a PhD degree.

Procedure

The online USC graduate admissions application will refer applicants to a required supplemental departmental application. The department admits students for both the fall and spring semesters; however, applicants for assistantships and fellowships are encouraged to apply for the fall semester.

Degree Requirements

These degrees are under the jurisdiction of the Graduate School. Refer to the Requirements for Graduation section and The Graduate School section of this catalogue for general regulations. All courses applied toward the degrees must be courses accepted by the Graduate School.

Interdisciplinary Programs

Interdisciplinary programs can be arranged for students also interested in astronomy, bioscience, chemistry, engineering, oceanography and physics. The Department of Earth Sciences maintains laboratories for micro-paleontologic, paleobiologic, mineralogic, petrologic, geophysical, geochemical and oceanographic research, and collections are available for comparative work in invertebrate paleontology. Students interested in systematic studies will find a wealth of material, available for comparative purposes, in the adjacent Los Angeles County Museum. Facilities for research in sedimentation, oceanography and marine geology are provided in the department and by the university's research fleet.

Bachelor's Degree

Earth Sciences (BA)

Required Courses

Introduction:

Any GEOL 100- or 200-level course (4 units):

Required:

- GEOL 315L Minerals and Earth Systems Units: 4

Electives:

28 additional units must be selected from MATH 225, MATH 226, or any upper-division course listed or cross-listed as GEOL (28 units):

Required courses in other departments (8 units):

- CHEM 105aLg General Chemistry Units: 4
- MATH 118gx Fundamental Principles of Calculus Units: 4 or
- MATH 125g Calculus I Units: 4

Choose any one of the following (4 units):

- BISC 120Lg General Biology: Organismal Biology and Evolution Units: 4
- CHEM 105bL General Chemistry Units: 4
- PHYS 135ag Physics for the Life Sciences Units: 4

Total units: 48

Geological Sciences (BS)

Required Courses

Introduction:

(4 units):

Any GEOL 100- or 200-level course (4 units):

- GEOL 105Lg Planet Earth Units: 4
- GEOL 107Lg Oceanography Units: 4
- GEOL 108Lg Crises of a Planet Units: 4
- GEOL 125Lg Earth History: A Planet and Its Evolution Units: 4
- GEOL 130Lg The Nature of Scientific Inquiry Units: 4
- GEOL 150Lg Climate Change Units: 4
- GEOL 240Lg Earthquakes Units: 4

Required courses from other departments (24 units)

- CHEM 105aLg General Chemistry Units: 4 and
- CHEM 105bL General Chemistry Units: 4 or
- CHEM 115aLg Advanced General Chemistry Units: 4 and
- CHEM 115bL Advanced General Chemistry Units: 4
- MATH 125g Calculus I Units: 4
- MATH 126g Calculus II Units: 4
- PHYS 135ag Physics for the Life Sciences Units: 4 and
- PHYS 135bL Physics for the Life Sciences Units: 4 or
- PHYS 151Lg Fundamentals of Physics I: Mechanics and Thermodynamics Units: 4 and
- PHYS 152L Fundamentals of Physics II: Electricity and Magnetism Units: 4 or
- BISC 120Lg General Biology: Organismal Biology and Evolution Units: 4 and
- BISC 220Lg General Biology: Cell Biology and Physiology Units: 4 or
- BISC 121Lg Advanced General Biology: Organismal Biology and Evolution Units: 4 and
- BISC 221Lg Advanced General Biology: Cell Biology and Physiology Units: 4

Required upper-division courses (12 units):

- GEOL 315L Minerals and Earth Systems Units: 4
- GEOL 387ag Undergraduate Team Research Units: 2

- GEOL 465L Field Geology Units: 4 or
- GEOL 490x Directed Research Units: 1, 2, 3, 4, 5, 6, 7, 8 (4 Units Required)

- GEOL 494x Senior Thesis Units: 2

Electives (28 units):

28 additional units must be selected from MATH 225, MATH 226 or any upper-division course listed or cross-listed as GEOL.*

Note:

**Up to two upper-division courses from other science departments may be substituted for any two in this group, on approval of the departmental undergraduate adviser.*

Total units: 68

Physical Sciences (BS)

Required Courses

Lower division:

- CHEM 105aLg General Chemistry Units: 4
- CHEM 105bL General Chemistry Units: 4 or

- CHEM 115aLg Advanced General Chemistry Units: 4
- CHEM 115bL Advanced General Chemistry Units: 4

- GEOL 105Lg Planet Earth Units: 4
- PHYS 151Lg Fundamentals of Physics I: Mechanics and Thermodynamics Units: 4
- PHYS 152L Fundamentals of Physics II: Electricity and Magnetism Units: 4
- PHYS 153L Fundamentals of Physics III: Optics and Modern Physics Units: 4

Upper division:

- Astronomy elective Units: 4 *
- Chemistry elective Units: 4 *
- Earth Sciences elective Units: 4 *
- Physics elective Units: 4 *
- Three additional electives from these fields Units: 12 *

Other courses:

- MATH 125g Calculus I Units: 4
- MATH 126g Calculus II Units: 4
- MATH 226g Calculus III Units: 4

Total units: 64

**Upper-division courses must be applicable to majors in their respective departments.*

Minor

Earth Sciences Minor: Climate Change, Stewardship and Resiliency

This minor is intended to provide background for students who plan careers in business with companies who recognize the necessity to respond to environmental change as scientists understand it. Students who complete the minor will gain insight that will facilitate discussions with both scientists in the field and professionals in the public, private and non-profit sectors.

COURSE REQUIREMENTS

Prerequisites (8 units)

- MATH 125g Calculus I Units: 4 and
- CHEM 103Lgx General Chemistry for the Environment and Life Units: 4
  or
- CHEM 105aLg General Chemistry Units: 4
  or
- CHEM 115aLg Advanced General Chemistry Units: 4

Lower-division Requirement

Choose one course from the following three (4 units):

- GEOL 150Lg Climate Change Units: 4
- GEOL 160Lg Introduction to Geosystems Units: 4
- GEOL 241Lg Energy Systems Units: 4

Upper-division Requirements

Core Course (4 units)

- GEOL 351L Climate Systems Units: 4 *

Science Electives

Choose two courses among the following (8 units):

- GEOL 412 Oceans, Climate, and the Environment Units: 4 **
- GEOL 425L Data Analysis in the Earth and Environmental Sciences Units: 4
- GEOL 427 The Global Environment Units: 4 ***
- GEOL 450L Geosystems Units: 4 ****
- GEOL 470L Environmental Hydrogeology Units: 4

Applications of Climate Change

Choose one course among the following (4 units):

- ECON 487 Resource and Environmental Economics Units: 4 *****
- IR 305w Managing New Global Problems Units: 4
- IR 323 Politics of Global Environment Units: 4
- POSC 347 Environmental Law Units: 4
- POSC 436 Environmental Politics Units: 4
- COMM 475 Environmental Communication Units: 4

Note:

Minor requires 28 units, including 16 upper division units that are unique to the minor.
** Prerequisite: MATH 125*
*** Co-requisites: MATH 126 and CHEM 105b*
**** Prerequisites: BISC 120Lg or BISC 121Lg and CHEM 105b or CHEM 115bL*
**** Prerequisite: MATH 125*
****** Prerequisite: ECON 303*

Geobiology Minor

The minor in geobiology is designed to allow students majoring in biology to incorporate interdisciplinary courses in earth sciences into their program or to allow students majoring in geology to incorporate interdisciplinary courses in biology into their program. This field represents the intersection of what have been traditional disciplines and is valuable for understanding evolution, environmental contaminant behavior and ocean sciences. Students with majors offered by biological or earth or geological sciences will be able to complete this minor with 16 to 24 units of course work beyond their major requirements. Other students may need to complete up to 48 units of course work beyond their major requirements. For example, students majoring in biological sciences might take an introductory GEOL course; GEOL 315L; GEOL 433L or BISC 483; and two additional upper-division elective courses from the list below. Students majoring in earth or geological sciences must take BISC 120Lg and BISC 220Lg; GEOL 433L or BISC 483; and three additional elective courses. Courses selected must include at least 16 units unique to the minor and at least 16 units in a department outside the major.

Required Courses

- BISC 120Lg General Biology: Organismal Biology and Evolution Units: 4
- BISC 220Lg General Biology: Cell Biology and Physiology Units: 4
- CHEM 105aLg General Chemistry Units: 4
- CHEM 105bL General Chemistry Units: 4
- GEOL 315L Minerals and Earth Systems Units: 4

Elective Courses

- BISC 483 Geobiology and Astrobiology Units: 4 * or
- GEOL 433L Paleontology and Evolution in Deep Time Units: 4

- Three upper-division BISC courses ** Units: 12

One introductory GEOL course:

- GEOL 105Lg Planet Earth Units: 4
- GEOL 107Lg Oceanography Units: 4

- GEOL 108Lg Crises of a Planet Units: 4
- GEOL 125Lg Earth History: A Planet and Its Evolution Units: 4
- GEOL 130Lg The Nature of Scientific Inquiry Units: 4
- GEOL 150Lg Climate Change Units: 4
- GEOL 240Lg Earthquakes Units: 4

Two courses from the following (8 units):

- BISC 474L Ecosystem Function and Earth Systems Units: 4 *
- BISC 483 Geobiology and Astrobiology Units: 4 *
- GEOL 320L Surficial Processes and Stratigraphic Systems Units: 4
- GEOL 412 Oceans, Climate, and the Environment Units: 4
- GEOL 433L Paleontology and Evolution in Deep Time Units: 4
- GEOL 450L Geosystems Units: 4
- GEOL 460L Geochemistry Units: 4
- GEOL 470L Environmental Hydrogeology Units: 4

Note:

**Indicates BISC course that is also cross-listed under GEOL*
***Must carry credit for a biology major*

Geohazards Minor

The geohazards minor allows students who are not geology majors to pursue a course of study that will lead to greater understanding of geohazards such as climate change, earthquakes, volcanic eruptions, floods, environmental contamination and availability of natural resources. These issues are examined in a number of upper-division geology courses, and each student can select from the list below depending on the particular area of interest and whether previous course work has been completed to meet prerequisites for some of the choices. The minor requires an introductory class, an upper-division course in either formation of minerals or geosystem behavior and three elective courses from the list below. The minimum number of units to complete the minor is 24, including the introductory course CHEM 105aLg (a corequisite for GEOL 315L) or MATH 125 (prerequisite for GEOL 450L) and three of the group: BISC 427, GEOL 305L, GEOL 315L, GEOL 316L, GEOL 320L, GEOL 321L, GEOL 433L and GEOL 450L. The remaining courses listed have additional prerequisites.

Required Courses (8 Units)

- CHEM 105aLg General Chemistry Units: 4
- GEOL 315L Minerals and Earth Systems Units: 4 or

- MATH 125g Calculus I Units: 4
- GEOL 450L Geosystems Units: 4

Elective Courses

One introductory GEOL course:

- GEOL 105Lg Planet Earth Units: 4
- GEOL 107Lg Oceanography Units: 4
- GEOL 108Lg Crises of a Planet Units: 4
- GEOL 125Lg Earth History: A Planet and Its Evolution Units: 4
- GEOL 130Lg The Nature of Scientific Inquiry Units: 4
- GEOL 150Lg Climate Change Units: 4
- GEOL 240Lg Earthquakes Units: 4

Three of the following (12 units):

- BISC 427 The Global Environment Units: 4
- GEOL 305L Introduction to Engineering Geology Units: 4
- GEOL 315L Minerals and Earth Systems Units: 4
- GEOL 316L Petrologic Systems Units: 4
- GEOL 320L Surficial Processes and Stratigraphic Systems Units: 4
- GEOL 321L Structural Geology and Tectonics Units: 4
- GEOL 412 Oceans, Climate, and the Environment Units: 4
- GEOL 433L Paleontology and Evolution in Deep Time Units: 4
- GEOL 440L Geophysics and Geoengineering Units: 4
- GEOL 450L Geosystems Units: 4
- GEOL 460L Geochemistry Units: 4
- GEOL 470L Environmental Hydrogeology Units: 4

Master's Degree

Geological Sciences (MS)

Foreign Language/Research Tool Requirements

There is no language or research tool requirement for the master's degree.

Course Requirements

The MS degree in geological sciences requires 24 units of course work plus at least four thesis units. These restrictions apply: at least 16 units must be 500 level or higher; no more than eight units can be 590 Directed Research; and a maximum of four units, with superior grades, can be transferred from an accredited graduate school. Students are required to have an overall GPA of at least 3.0 (A = 4.0) in all graduate work. Students are also required to attend a series of departmental seminars.

Thesis

Students should arrange for the appointment of a thesis adviser and committee after the first semester, or, at the latest, after the first year of graduate work. The thesis committee should consist of the adviser plus two other faculty members, all of whom are generally selected from the department faculty. Once the committee is arranged, the student may make formal application to the Graduate School for the MS degree.

Doctoral Degree

Geological Sciences (PhD)

Application deadline: January 1

Course Requirements

For students who have earned a master's degree, the minimum number of course credits required for the PhD is 40 units. No more than four of these units may be earned in 794 Doctoral Dissertation. For students who have not earned a master's degree, the minimum number of course credits required is 60 units, including a maximum of eight units of 794 Doctoral Dissertation. The qualifying exam committee may require additional course work to insure a sufficient background in the student's area of specialization. At least two-thirds of the number of units presented for the degree must be 500 level or higher. Although the official minimum GPA for all graduate work attempted at USC is 3.0, the department does not consider a doctoral candidate in good standing unless the graduate GPA is considerably higher than the minimum (approximately 3.25 or above in graduate courses taken within the department).

Screening Procedure

Students in the PhD program must pass the screening procedure before their 25th unit of graduate credit. Screening consists of a review of the student's progress and is usually done by the chair following a written recommendation by the student's adviser(s).

Qualifying Exam Committee

The doctoral qualifying exam committee is formed after the student has passed the screening procedure. The committee is appointed by the department with the advice of the student's research adviser. The five-member committee consists of the adviser, a minimum of three other members from the Department of Earth Sciences, and one from outside the department. The committee consults with the student, recommends an appropriate program of study and administers the written and oral qualifying examinations.

Qualifying Examination

This examination consists of two parts, one written and the other oral. The written exam, which precedes the oral, includes

questions submitted by committee members on current geological problems and theory. The oral portion of the exam consists of the defense of two propositions written by the candidate prior to the oral exam. In addition, general questions are posed to test the student's breadth of scientific and earth science background. The student's performance is evaluated by the qualifying exam committee, with a pass based on not more than one negative vote or abstention. Those who intend to take the exam must meet all the conditions specified in the section on general requirements for the PhD.

Defense of the Dissertation

When the candidate has passed the qualifying examination, a dissertation committee replaces the qualifying exam committee. The latter is appointed by the adviser and qualifying exam committee in conjunction with the student. The dissertation committee administers the final defense of the dissertation.

The defense takes place after the dissertation is substantially complete, and upon unanimous approval by the dissertation committee. It is conducted in the form of an open departmental seminar, but is evaluated by the dissertation committee alone.

East Asian Area Studies

The East Asian Studies Center supports the interdisciplinary study of China, Japan and Korea. It offers an undergraduate major in East Asian Area Studies (with an optional honors track), minors in East Asian Area Studies and Korean Studies, and a progressive degree program for students interested in graduate education.

The center offers the Master of Arts in East Asian Area Studies and the Master of Arts/Master of Business Administration dual degree programs. It also offers a graduate certificate in East Asian Area Studies for continuing graduate students who want to pursue special area competence beyond discipline requirements.

The East Asian Studies Center faculty are professors from departments throughout the college and professional schools who teach and engage in research on East Asia. The center's interdisciplinary approach allows students the flexibility to acquire country-specific expertise as well as a transnational understanding of the region from nearly any discipline. The center promotes and coordinates teaching, research and development of academic programs concerning East Asia, regardless of discipline or school, on a university-wide basis. Scholars from outside the university conduct research at USC and contribute toward the center's goals as EASC visiting scholars and postdoctoral fellows.

The center also promotes and coordinates academic exchange with other institutions with which USC maintains cooperative relations in the United States and abroad. Undergraduate students can conduct research in East Asia through the EASC Global East Asia program or participate in semester -or year-long study abroad programs through the Office of Overseas Studies. Graduate students with special interests in East Asia are eligible to receive summer funding through the East Asian Studies Center for research or related professional development.

Bachelor's Degree

East Asian Area Studies (BA)

Requirements for the lower division are: EALC 110 and EASC 150 or the equivalent; a minimum of four courses in one East Asian language (or the proficiency equivalent); and seven upper-division courses approved for the major in addition to the language courses used to meet the requirements. One lower-division course other than EALC 110 and EASC 150 may be substituted for one of the seven upper-division courses. Upper-division courses must include those from at least three departments, one of which must be History. At least one course must be taken on two of the following: China, Japan or Korea.

Minor

East Asian Area Studies Minor

The minor in East Asian Area Studies gives students the opportunity to supplement more narrowly defined departmental majors with a multidisciplinary focus on an area of increasingly great importance to our nation in general and our region in particular. There is no language requirement.

Twenty-four units are required from among the more than 120 courses offered on East Asia at the university. Students are required to take EALC 110 and EASC 150; and at least four upper-division four-unit courses (16 units). At least one of these courses must be from the History Department and one from the humanities area. At least one course must be taken on two of the following: China, Japan or Korea.

Korean Studies Minor

The minor in Korean studies offers an interdisciplinary approach to studying a dynamic and crucial region. Drawing on courses from departments across the social sciences, humanities and professional schools, the minor challenges and stimulates students who wish to learn about the political, economic, social and cultural changes of the area.

Twenty units (five courses) are required. All students must take EASC 150gp East Asian Societies or HIST 105g The Korean Past as a gateway course, as well as four upper-division four-unit courses from the list below. There is no language requirement for the minor.

Required Courses

- EASC 150gp East Asian Societies Units: 4 or
- HIST 105g The Korean Past Units: 4

Four 4-unit courses from the following:

- CTCS 403 Studies in National and Regional Media Units: 4 max 8 **
- CTCS 494 Advanced Cinema and Media Studies Seminar Units: 4 max 8 **
- EALC 315 Advanced Korean I Units: 4 *
- EALC 317 Advanced Korean II Units: 4
- EALC 332 Modern Korean Literature in Translation Units: 4
- EALC 344gp Korean Culture from Ancient to Modern Times Units: 4
- EALC 415 Advanced Korean III Units: 4
- EALC 417 Advanced Korean IV Units: 4
- EALC 418 Korean Writing in Mixed Script Units: 4 *
- EALC 419 Newspaper and Documentary Korean Units: 4 *
- EALC 429 Gender in Korean Film and Literature Units: 4
- EALC 499 Special Topics Units: 2, 3, 4 max 8 **
- HIST 333 Korea: The Modern Transformation Units: 4
- HIST 404 Seminar in Korean History Units: 4
- HIST 498 Seminar on Selected Historical Topics Units: 4 max 8 **
- IR 499 Special Topics Units: 2, 3, 4 max 8 **

Note:

**Prerequisite:* EALC 217

***For these repeatable courses, only classes with Korean-based foci will count.*

Master's Degree

East Asian Area Studies (MA)

The East Asian Studies Center offers an interdisciplinary master's degree in East Asian Area Studies. The program provides a wide range of language, cultural, social, historical, political and economic courses and faculty expertise; individual courses of study may be designed to meet both continuing academic and professional objectives. Students may concentrate primarily on one country (China, Japan, Korea) or develop region-wide expertise through a combination of course work and the thesis project.

Admission Requirements

Prerequisites

While an applicant for admission will normally have significant experience in East Asian language(s) and area studies as demonstrated through course work completed for the undergraduate degree, programs may be arranged for promising students without prior experience in East Asian studies. *There is no formal language requirement for admission.*

Criteria

Please refer to the EASC website for a detailed explanation of application requirements: dornsife.usc.edu/eascenter/masters.

Degree Requirements

This degree is under the jurisdiction of the Graduate School. Refer to the Requirements for Graduation section and the Graduate School section of this catalogue for general regulations. All courses applied toward the degree must be courses acceptable to the Graduate School.

Foreign Language Requirement

Students must be able to demonstrate oral and written proficiency in Chinese, Korean or Japanese through the third year level (equivalent to six semesters) before the MA program is completed.

Course and Thesis Requirements

Six courses (24 units), four of which must be at the 500 level or above, plus the thesis (4 units) are required. All students must complete: (1) EASC 592; (2) EALC 531, EALC 532 or EALC 533; and (3) one other course from a Dornsife College of Letters, Arts and Sciences department. The three additional courses (12 units) may be taken from college departments or professional schools. All courses must be approved by the center director or adviser. A maximum of two courses at the 400 level may be counted toward the degree. All students must register for EASC 594a Master's Thesis EASC 594b Master's Thesis for the thesis project.

Dual Degree

Master of Arts, East Asian Area Studies/Master of Business Administration (MA/MBA)

The Marshall School of Business in conjunction with the East Asian Studies Center offers a joint MA/MBA degree that combines graduate business education with training in the cultures and societies of East Asia. Students enrolled in the joint degree program are required to complete a minimum of 72 units. All students must complete 48 units in the Marshall School of Business. Dual degree students may not count courses taken outside the Marshall School of Business toward the 48 units. In East Asian Area Studies, students have the option of taking five courses and writing a thesis (for a total of 24 units) or taking six courses and passing a comprehensive examination (for a total of 24 units).

Applicants for the joint MA/MBA are required to follow the admission procedures for the full-time MBA program. GRE scores are not required for admission into the joint program.

Required Courses

Required MBA courses: all required courses in an MBA program.

Required EASC Courses

- EASC 592 Proseminar on Issues and Trends in Contemporary East Asia Units: 4, 2 years

and one course from the following list:

Cultural/Historical Foundations of East Asia

- AHIS 518 Seminar in Chinese Art Units: 4 max 16
- AHIS 519 Seminar in Japanese Art Units: 4 max 16
- EALC 501 History of Chinese Literature Units: 4
- EALC 506 Selections from Classical Chinese Literature Units: 4
- EALC 515 Classical Japanese Poetics Units: 4
- EALC 531 Proseminar in Chinese Cultural History Units: 4
- EALC 532 Proseminar in Korean Cultural History Units: 4
- EALC 533 Proseminar in Japanese Cultural History Units: 4
- EALC 541 Seminar: Japan Units: 4
- EALC 543 Seminar: Japanese Literature Units: 4
- EALC 551 Seminar: China Units: 4
- EALC 553 Seminar: Chinese Literature Units: 4
- EALC 610 Seminar: Buddhism and the Literary Arts in Japan Units: 4
- HIST 535 Studies in Japanese History Units: 4
- HIST 536 Studies in Chinese History Units: 2 or 4
- HIST 540 Studies in Modern East Asian History Units: 4 max 8
- HIST 630 Seminar in Japanese History Units: 2 or 4
- HIST 635 Seminar in Chinese History Units: 2 or 4

Additional Requirements

Elective Courses (Thesis Option)

During the second and third years of the program students must complete enough graduate units to bring the total number of units completed in the Marshall School of Business to 48, complete 12 units of East Asian Area Studies elective courses (three courses), and complete a four-unit thesis under the guidance of a faculty committee of three members. The subject will concern East Asia and may focus on business/finance.

Elective Courses (Comprehensive Examination Option)

During the second and third years of the program students must complete enough graduate units to bring the total number of units completed in the Marshall School of Business to 48, complete 16 units of East Asian Area Studies elective courses (four courses) and must pass a comprehensive examination in East Asian Area Studies.

Foreign Language Requirement

Students must be able to demonstrate oral and written proficiency in Chinese, Japanese or Korean language through the third year level (equivalent to six semesters) before the joint MA/MBA program is completed. Language course work taken to meet this requirement will not count toward the minimum unit or course requirements for completion of the degree program. Therefore, students without sufficient under graduate language course work, native speaker capability or other prior training, are advised that additional units and course work beyond the minimum 72 units may be required in order to satisfy the foreign language requirement. USC offers beginning, intermediate and advanced Chinese, Japanese and Korean language courses during the academic year (fall/spring).

Graduate Certificate

East Asian Area Studies Graduate Certificate

Students interested in pursuing the East Asian Area Studies Graduate Certificate must be enrolled in an advanced degree program in the Graduate School or in a professional school at the university. While preparing for an MA, PhD or other graduate degree, they may earn a certificate in East Asian Studies, which certifies special area competence beyond discipline requirements.

To fulfill the certificate requirements, the student must take four graduate-credit courses in East Asian studies in any department. The student will also be given an oral examination on three research papers and on relevant graduate course work.

Basic East Asian history and at least two years of study or the equivalent of an East Asian language are required. The student makes the basic decisions on the program to be followed in consultation with a three-member interdisciplinary committee approved by the director of the East Asian Studies Center.

For further information, interested students can email the East Asian Studies Center at easc@usc.edu.

East Asian Languages and Cultures

East Asian Languages and Cultures offers undergraduate and doctoral programs in Chinese, Japanese and Korean studies. The department fosters original approaches in East Asian studies. With an emphasis on interdisciplinary and innovative research, the program provides students with systematic training in East Asian languages, literatures and cultures. The faculty is committed to intra-regional and interdisciplinary studies of East Asia, which includes critical interaction among the cultures of China, Japan and Korea across historical times and through diverse media. The department engages the arts, languages, literatures, theatre and performance, histories, media, religions, visual and material cultures of East Asia.

Adjunct Associate Professor (Teaching): Miya Elise Desjardins, PhD

Undergraduate Degree

The core requirements for the EALC major allow students flexibility in designing their own courses of study. Majors typically select one language and cultural area (Chinese, Japanese or Korean) in which they do most of their course work. Majors are

encouraged to explore beyond their individual language focus by enrolling in the full range of EALC courses available in literature, film, history, media and other aspects of East Asian cultures.

All EALC majors and minors are required to take at least one course in each of the following two categories. Cross-Cultural Survey courses, to be taken within the first two years, offer students a broad, interregional introduction to East Asian philosophy, literature, film and culture. Cultural Studies courses, also to be completed before advancing to more theme-specific courses, provide students with an in-depth introduction to a cultural tradition within its regional context. For specific courses in these categories as well as upper-division electives (four for majors and two for minors), please refer to the course list on the department's website and the Schedule of Classes.

Study Abroad Programs

East Asian Languages and Cultures majors and minors are encouraged to take advantage of the numerous semester and year-long study abroad opportunities sponsored by the Office of Overseas Studies. Currently, the office offers programs in China (Beijing and Nanjing), Taiwan (Taipei), Korea (Seoul), and Japan (Tokyo, Nagoya). Each of the programs is affiliated with a world-class institution, such as Waseda University in Tokyo, National Chengchi University in Taipei or Yonsei University in Seoul. Contact the Office of Overseas Studies at (213) 740-3636 for further details or visit online at dornsife.usc.edu/overseas.

The majority of course work offered by these programs may be counted toward the EALC major or minor requirements. Students who receive major credit from any of these programs must still take at least eight units of non-language courses within EALC at the upper-division level while at USC (specifically an EALC civilization and an EALC literature course). Students interested in attending one of these programs must meet with an EALC academic adviser to ensure that the courses enrolled in overseas will meet EALC major or minor requirements.

Chinese Summer Programs in Beijing and Taipei

The Department of East Asian Languages and Cultures offers its Chinese language summer courses in Beijing and Taipei. Participants can transition seamlessly to the next level courses upon returning to campus. Cultural visits and excursions are included in the tuition fee. All courses count toward a major and minor in East Asian Languages and Cultures.

Graduate Degrees

EALC offers graduate students advanced training in the languages, literatures, and cultures of China, Japan and Korea. Our students have combined approaches from cultural studies, literature, film and media studies, theater and other disciplines to broaden more traditional paradigms and provide a different perspective on the reading of the texts in their fields. By allowing a greater degree of flexibility, our interdisciplinary approach enhances students' research skills and enables them to become well-rounded scholars. Appropriate cross-registration with other departments allows students to enhance their theoretical and methodological training.

Bachelor's Degree

East Asian Languages and Cultures (BA)

The core requirements for the EALC major allow students flexibility in designing their own course of study. Majors typically select one language and cultural area (Chinese, Japanese, or Korean) in which they do most of their course work. For this reason, one frequently hears students on campus speaking about "majoring" in Japanese, Chinese, or Korean, though strictly speaking all these students are actually majoring in EALC. Majors are encouraged to explore beyond their individual language focus by enrolling in the full range of EALC courses available in literature, film, history, media, and other aspects of East Asian cultures.

Core requirements for EALC majors consist of a cross-cultural survey course, a cultural studies course, and a language requirement that may be waived by placement test. Students then also take four upper-division elective courses (16 units), one of which can be replaced by a fourth-year language course. In addition, one upper-division course on East Asia from another department may be used to count toward the 16 units, if approved by the adviser.

Cross-Cultural Survey Course (Choose One)

Cross-Cultural Survey courses offer students a broad, interregional introduction to East Asian philosophy, literature, film, and culture. All EALC majors are required to take at least one of these courses within the first two years of their study.

- EALC 110gp East Asian Humanities: The Great Tradition Units: 4
- EALC 125g Introduction to Contemporary East Asian Cinema and Culture Units: 4
- EALC 130gp Introduction to East Asian Ethical Thought Units: 4

Cultural Studies Course (Choose One)

Cultural Studies courses provide students with an in-depth introduction to a cultural tradition within its regional context. Students are required to take one of these gateway courses preferably before advancing to more specialized, theme-specific courses.

- EALC 150gw Global Chinese Cinema and Cultural Studies Units: 4
- EALC 333g Introduction to Korean Film Units: 4
- EALC 340gp Japanese Civilization Units: 4
- EALC 342gp Japanese Literature and Culture Units: 4
- EALC 344gp Korean Culture from Ancient to Modern Times Units: 4
- EALC 350gp Chinese Civilization Units: 4

Language Requirement

This requirement may be waived by placement test.

- EALC 306 Advanced Modern Chinese II Units: 4
  or
- EALC 317 Advanced Korean II Units: 4
  or
- EALC 322 Advanced Japanese II Units: 4

Upper-Division Electives (Choose Four)

Our faculty teach new courses every year. Please check the department's Schedule of Classes to see the full range of courses. One fourth-year language or professionalization course can be used to count for one elective. In addition, one upper-division course on East Asia from another department may likewise be used to count toward the 16 units with adviser's approval.

- EALC 332 Modern Korean Literature in Translation Units: 4
- EALC 346g Hallyu, the Korean Wave Units: 4
- EALC 358g Transnational Chinese Literature and Culture Units: 4
- EALC 360g Performing Japan: Bodies, Media, and Textuality Units: 4
- EALC 374 Language and Society in East Asia Units: 4
- EALC 375 Women and Gender in China: Past and Present Units: 4
- EALC 387 Early Japanese Art Units: 4
- EALC 426 Classical Japanese Units: 4
- EALC 428 Nature and the Ecological Imagination in Japanese Literature Units: 4
- EALC 430 Gender and Sexuality in Korean Literature and Culture Units: 4
- EALC 450 Contemporary Japanese Literature and Global Modernity Units: 4
- EALC 455 Japanese Fiction Units: 4
- EALC 460 Love, Self and Gender in Japanese Literature Units: 4
- EALC 465 Topics in Korean Visual and Cultural Studies Units: 4
- EALC 470 Introduction to East Asian Linguistics Units: 4
- EALC 499 Special Topics Units: 2, 3, 4

Language Courses

Fourth-year courses and a professionalization course can be used to count towards the upper-division elective requirement.

- EALC 366 Chinese Professional Internship: Communication and Culture Units: 2
- EALC 404 Advanced Modern Chinese III Units: 4
- EALC 406 Advanced Modern Chinese IV Units: 4
- EALC 407 News and Web Chinese Units: 4
- EALC 412a Business Chinese Units: 4
- EALC 412b Business Chinese Units: 4
- EALC 413 Business Japanese Units: 4
- EALC 418 Korean Writing in Mixed Script Units: 4
- EALC 419 Newspaper and Documentary Korean Units: 4
- EALC 422 Advanced Japanese III Units: 4
- EALC 424 Advanced Japanese IV Units: 4

Minor

Chinese for the Professions Minor

The Department of East Asian Languages and Cultures offers a minor for undergraduate students who wish to pursue a future career in the greater China region or communities requiring advanced Chinese linguistic and cultural competence. The minor provides opportunities for students to gain real world experiences in work environments and explore career opportunities from various perspectives. The language prerequisite for admission to the program is the completion of EALC 206 at USC or its equivalent.

Four EALC upper-division courses (16 units) and 4 units of EALC 366 are required to complete the minor. The four upper-division courses must include at least two from EALC 404, EALC 406, EALC 407, EALC 412a, EALC 412b, or the equivalent. Course selections must be approved by the faculty adviser for the minor.

Required Courses (12 Units)

Internship (4 units)

- EALC 366 Chinese Professional Internship: Communication and Culture Units: 2

Choose two of the following (8 units)

- EALC 404 Advanced Modern Chinese III Units: 4
- EALC 406 Advanced Modern Chinese IV Units: 4
- EALC 407 News and Web Chinese Units: 4
- EALC 412a Business Chinese Units: 4
- EALC 412b Business Chinese Units: 4

Electives (8 units)

Choose two of the following:

- EALC 304 Advanced Modern Chinese I Units: 4
- EALC 306 Advanced Modern Chinese II Units: 4
- EALC 334 Chinese Language Through Films and Television Units: 4
- EALC 336 Chinese Language through Films and Television II Units: 4
- EALC 350gp Chinese Civilization Units: 4
- EALC 355 Studies in Chinese Thought Units: 4
- EALC 374 Language and Society in East Asia Units: 4
- EALC 470 Introduction to East Asian Linguistics Units: 4

Cultures and Politics of the Pacific Rim Minor

This interdisciplinary minor introduces students to the cultural heritage and political contexts of the United States' most important trading partners on the Pacific Rim. Students study East Asia and Latin America, and the cultural, economic and political dimensions of international trade. It is intended for students who are interested in or considering diplomatic or commercial careers that require knowledge about the people and cultures of the Pacific Rim.

As with all minors, students must choose at least four classes dedicated to this minor and four classes outside their major department, which may be the same four courses.

Requirements (Five Courses, 20 Units)

International Trade

(choose one course from the list below)

- ECON 450 International Trade Units: 4 (prerequisite: ECON 303 or BUAD 351)
- IR 325 North-South Relations in the Global Economy Units: 4
- IR 330 Politics of the World Economy Units: 4
- IR 470 Comparative Regionalism Units: 4 (prerequisite: IR 210)
- POSC 345 International Law Units: 4
- POSC 451 Politics of Resources and Development Units: 4

Area Studies

(choose two courses, each from a different list below)

Latin America:

- AHIS 319 Mesoamerican Art and Culture Units: 4
- ANTH 314g The Nature of Maya Civilization Units: 4
- ANTH 425 Peoples and Cultures of Latin America Units: 4
- HIST 374 History of Mexico Units: 4
- HIST 451 The Mexican Revolution Units: 4
- HIST 473 Colonial Latin America Seminar Units: 4
- IR 364 The Political Economy of Latin American Development Units: 4
- IR 365 Politics and Democracy in Latin America Units: 4
- POSC 350 Politics of Latin America Units: 4
- SPAN 320 Politics, Thought, Society Units: 4 (in Spanish)
- SPAN 321 Sounds, Images, Objects Units: 4 (in Spanish)
- SPAN 372 Modern and Contemporary Latin American Fiction Units: 4 (in Spanish)
- SPAN 380g Literature of Mexico Units: 4 (in Spanish)

East Asia:

- ANTH 323 Southeast Asian Cultures Today: Globalization and Multiple Modernities Units: 4
- ECON 343 Economic Development of East Asia Units: 4 (prerequisite: ECON 203 or ECON 205)
- IR 358 The Asia Pacific in World Affairs Units: 4
- IR 360 International Relations of the Pacific Rim Units: 4
- IR 361 South and Southeast Asia in International Affairs Units: 4
- IR 384 Asian Security Issues Units: 4
- POSC 352 Politics of Southeast Asia Units: 4
- POSC 355 Politics of East Asia Units: 4
- POSC 377 Asian Political Thought Units: 4
- POSC 453 Political Change in Asia Units: 4
- REL 331 Religions of East Asia Units: 4

Country Study

(choose two courses from the lists below)

China:

- AHIS 384 Early Chinese Art Units: 4
- AHIS 385 Later Chinese Art Units: 4
- ANTH 324gw Contemporary China: Cultural Politics and Social Realities Units: 4
- EALC 350gp Chinese Civilization Units: 4
- EALC 352g Chinese Literature and Culture Units: 4
- EALC 354g Modern Chinese Literature in Translation Units: 4
- EALC 355 Studies in Chinese Thought Units: 4
- EALC 375 Women and Gender in China: Past and Present Units: 4
- HIST 338 China to 960 A.D. Units: 4
- HIST 339 China, 960–1800 A.D. Units: 4
- HIST 340 History of China since 1800 Units: 4
- IR 333 China in International Affairs Units: 4
- POSC 356 Politics in the People's Republic of China Units: 4

Japan:

- AHIS 386 Early Japanese Art Units: 4
- AHIS 387 Later Japanese Art Units: 4
- EALC 340gp Japanese Civilization Units: 4
- EALC 342gp Japanese Literature and Culture Units: 4
- EALC 365 Studies in Japanese Thought Units: 4

- EALC 428 Nature and the Ecological Imagination in Japanese Literature Units: 4
- EALC 460 Love, Self and Gender in Japanese Literature Units: 4
- HIST 335 History of Japan to 1550 Units: 4
- HIST 336 History of Japan, 1550–1945 Units: 4
- HIST 337 Japan since 1945 Units: 4
- HIST 438 Seminar in Pre-Modern Japanese History Units: 4
- HIST 464 Culture, Money, and Power: Japanese-American Relations since 1853 Units: 4
- IR 442 Japanese Foreign Policy Units: 4
- POSC 354 Japanese Politics Units: 4

Korea:

- EALC 332 Modern Korean Literature in Translation Units: 4
- EALC 335m Korean American Literature Units: 4
- EALC 345 Korean Civilization Units: 4
- HIST 333 Korea: The Modern Transformation Units: 4

East Asian Languages and Cultures Minor

The core requirements for the EALC minor allow students flexibility in designing their own course of study. Students typically select one language and cultural area (Chinese, Japanese or Korean) in which they do most of their course work. For this reason, one frequently hears students on campus speaking about "minoring" in Japanese, Chinese or Korean, though strictly speaking all these students are actually "minoring" in EALC. Minors are encouraged to explore beyond their individual language focus by enrolling in the full range of EALC courses available in literature, film, history, media and other aspects of East Asian cultures.

Core requirements for EALC minors consist of a cross-cultural survey course, a cultural studies course, and a language requirement that may be waived by diagnostic exam. Students then also take two upper-division elective courses (8 units). One upper-division course on East Asia from another department may be used to count toward the 8 units, if approved by the adviser.

Cross-Cultural Survey Course (Choose One)

Cross-Cultural Survey courses offer students a broad, interregional introduction to East Asian philosophy, literature, film, and culture. All EALC minors are required to take at least one of these courses within the first two years of their study.

- EALC 110gp East Asian Humanities: The Great Tradition Units: 4
- EALC 125g Introduction to Contemporary East Asian Cinema and Culture Units: 4
- EALC 130gp Introduction to East Asian Ethical Thought Units: 4

Cultural Studies Course (Choose One)

Cultural Studies courses provide students with an in-depth introduction to a cultural tradition within its regional context. Students are required to take one of these gateway courses preferably before advancing to more specialized, theme-specific courses.

- EALC 150gw Global Chinese Cinema and Cultural Studies Units: 4
- EALC 333g Introduction to Korean Film Units: 4
- EALC 340gp Japanese Civilization Units: 4
- EALC 342gp Japanese Literature and Culture Units: 4
- EALC 344gp Korean Culture from Ancient to Modern Times Units: 4
- EALC 350gp Chinese Civilization Units: 4

Language Requirement

This requirement may be waived by placement test.

- EALC 206 Chinese IV Units: 4
  or
- EALC 217 Korean IV Units: 4
  or
- EALC 222 Japanese IV Units: 4

Upper Division Electives (Choose Two)

Our faculty teach new courses every year. Please check the department's Schedule of Classes to see the full range of courses. One upper-division course on East Asia from another department may likewise be used to count toward the 8 units with adviser's approval.

- EALC 304 Advanced Modern Chinese I Units: 4
- EALC 306 Advanced Modern Chinese II Units: 4
- EALC 315 Advanced Korean I Units: 4
- EALC 317 Advanced Korean II Units: 4
- EALC 320 Advanced Japanese I Units: 4
- EALC 322 Advanced Japanese II Units: 4
- EALC 332 Modern Korean Literature in Translation Units: 4
- EALC 346g Hallyu, the Korean Wave Units: 4
- EALC 358g Transnational Chinese Literature and Culture Units: 4
- EALC 360g Performing Japan: Bodies, Media, and Textuality Units: 4
- EALC 374 Language and Society in East Asia Units: 4
- EALC 375 Women and Gender in China: Past and Present Units: 4
- EALC 387 Early Japanese Art Units: 4
- EALC 426 Classical Japanese Units: 4
- EALC 428 Nature and the Ecological Imagination in Japanese Literature Units: 4
- EALC 430 Gender and Sexuality in Korean Literature and Culture Units: 4
- EALC 450 Contemporary Japanese Literature and Global Modernity Units: 4
- EALC 455 Japanese Fiction Units: 4
- EALC 460 Love, Self and Gender in Japanese Literature Units: 4
- EALC 465 Topics in Korean Visual and Cultural Studies Units: 4
- EALC 470 Introduction to East Asian Linguistics Units: 4
- EALC 499 Special Topics Units: 2, 3, 4
  (4 units required)

Master's Degree

East Asian Languages and Cultures (MA)

The Department of East Asian Languages and Cultures offers instruction in the languages, literatures and cultures of East Asia. The graduate program offers the master's degree with specialties in Chinese, Japanese and Korean. Programs of study may emphasize foreign language teaching, applied linguistics, literature, thought, religions or area studies.

Admission Requirements — Prerequisites

An applicant for admission will normally have the equivalent of an undergraduate major in East Asian languages and cultures at USC, but programs may be arranged for promising students who do not have the prerequisites. Such students may be required to make up the deficiencies.

Criteria

All applicants are required to take the Graduate Record Examinations verbal and quantitative General Test and submit their complete undergraduate record: at least three letters of recommendation and a statement of purpose should be sent to the chair of the department. Applicants are urged to submit written materials as supporting evidence.

Degree Requirements

These degrees are under the jurisdiction of the Graduate School. Refer to the Requirements for Graduation section and the Graduate School section of this catalogue for general regulations. All courses applied toward the degrees must be courses accepted by the Graduate School.

Foreign Language Requirement

Competence is required in Chinese, Japanese or Korean.

Course Requirements

Six courses, four of which must be at the 500-level or above, are required. Those students whose concentration is in language and literature should take a fourth year of language.

Final Research Paper

The research paper must demonstrate the student's ability to use source materials in the East Asian language of his or her area.

Doctoral Degree

East Asian Languages and Cultures (PhD)

Course Requirements

A student's total graduate course work must be at least 60 units including 4 units of doctoral dissertation (794ab) and the following courses:

Core Courses

- COLT-603 Professional Development II: Publication Units: 2
- EALC 505 Introduction to East Asian Languages and Cultures Units: 4

Additional Requirements

A theory and methodology course in EALC or an equivalent course in a related program.

Four courses on East Asian languages and literatures.

Four courses on East Asian cultures and civilizations.

Three additional courses in a target discipline or field.

No more than four courses at the 400-level may be applied to the total requirement of 60 units. The fulfillment of the course requirements is determined by the Graduate Studies Committee in EALC.

Screening Procedure

A screening procedure will be conducted before the student completes 24 units of course work, which typically means by the end of the first year. The Graduate Studies Committee will review the student's performance comprehensively and meet the student after a statement describing his/her research ideas is submitted.

Qualifying Exam Committee

Upon successful completion of the screening procedure, the student is encouraged to begin forming a five-member qualifying exam committee, whose purpose is to help the student prepare for the qualifying examination. The committee must be approved by the Graduate School at the time the student applies to schedule a qualifying examination.

Qualifying Procedure

A student takes examinations in three different fields approved by the qualifying exam committee. An oral - examination based on the written exams will follow. After successful completion of the examinations, the student will submit a dissertation prospectus, which must be approved by the qualifying exam committee and the Graduate Studies Committee in EALC.

Foreign Language Requirement

A student must have at least four years of course work or its equivalent in the language of his/her specialization. In addition, the student should acquire or demonstrate competence in a second East Asian language. This requirement may be met by two years' worth of course work. Whether the second East Asian language should be classical or modern will be determined by the Graduate Studies Committee in consultation with a student's academic adviser.

Dissertation

Defense and presentation of the dissertation will follow regulations defined by the Graduate School.

Economics

The economics curriculum is oriented toward a general, liberal education. The study of economics requires adequate preparation in mathematics and statistics. The department offers a BA degree in Economics, a BA degree in Political Economy, a BA degree in Social Sciences with an emphasis in Economics, a BS in Economics and Data Science, BS in Economics/Mathematics and minors in Economics and Behavioral Economics. The BA degrees require a total of 32 upper-division units for the major. The department offers a Master of Arts in Economics, a Master of Science in Applied Economics and Econometrics, a Master of Science in Mathematical Finance, a Master of Science in Spatial Economics and Data Analysis (with the Spatial Sciences Institute) and a Doctor of Philosophy in Economics.

Undergraduate Degrees

Advisement

Upon declaring a major or minor in Economics, students should consult with the department's undergraduate adviser. Students can check their academic progress on the USCweb under OASIS.

Progressive Degree Program in Economics

The Economics department offers students who have demonstrated exceptional academic success the opportunity to earn both bachelor's and master's degrees in a progressive degree program. This program allows students to earn both the Bachelor of Arts and the Master of Arts degrees in five years. Students may also pursue the Bachelor of Science in Economics/Mathematics and the Master of Science in Mathematical Finance.

Admission

Admission is available after the completion of 64 units of course work toward the undergraduate degree. Students must apply for admission to the progressive degree program after completing 64 units of applicable course work to their undergraduate program, but prior to the completion of 96 units of course work. The application for admission to the progressive degree program must be accompanied by a course proposal plan and two letters of recommendation from USC Economics faculty.

Awarding of Degrees

The bachelor's and master's degrees may be awarded separately upon completion of all degree requirements, but the master's degree will not be awarded before the bachelor's degree. Students who elect not to complete the master's must complete 128 units to earn the bachelor's degree.

Undergraduate Honors Program

The department offers an honors program. First and second semester seniors can enroll in ECON 495 Honors Thesis. Honors will be awarded upon completion of the thesis, an overall GPA of 3.0 or higher and a major GPA of 3.5.

Department Policy Regarding Transfer Credits

Students who have taken courses equivalent to ECON 303, ECON 305 or ECON 317 from an economics department at another four-year college or from a program deemed comparable by the director of undergraduate studies, can earn transfer credits provided they received a B (3.0) or better in the courses.

Graduate Degrees

The graduate program in Economics is designed to prepare students for careers in teaching, research, industry and government. The department emphasizes economic theory and econometrics; applied economic analysis, including microeconomics, macroeconomics, international and development economics, urban and regional economics; and political economy.

Admission Requirements

Prerequisites

The typical applicant for admission will normally have completed an undergraduate major in economics. Minimal prerequisites for admission to a master's degree program include courses in intermediate microeconomic and macroeconomic theory, a year of calculus, and a semester of statistics. Applicants for the PhD program are normally expected to have completed more than the minimum, particularly in the areas of mathematics and statistics.

Procedure

The application deadline for master's degrees is April 1. Completed doctoral applications are due by December 1.

Placement Examinations

Students whose native language is other than English may be required to take an English placement examination. Course work in English may be required.

Degree Requirements

These degrees are under the jurisdiction of the Graduate School. Refer to the Requirements for Graduation section and The Graduate School section of this catalogue for general regulations. All courses applied toward the degrees must be courses accepted by the Graduate School.

Foreign Language/Research Tool Requirements

There is no foreign language requirement. However, competence in the use of one computer programming language is required for all graduate degrees offered through the Department of Economics.

Doctor of Philosophy in Pharmaceutical Economics and Policy

Application deadline: December 1

The Department of Economics and the Department of Pharmaceutical Economics and Policy (USC School of Pharmacy) jointly offer a program of study leading to the PhD degree and to the MA degree in the process of work toward the PhD degree.

Required courses include both core requirements and area requirements. Core requirements include courses in economic theory, econometrics and research methods. Area requirements include courses in health economics, pharmaceutical economics, welfare theory and applied econometrics.

For a detailed description of this program, see the USC School of Pharmacy section of this catalogue.

Bachelor's Degree

Economics (BA)

Students are required to take ECON 203, ECON 205, ECON 303, ECON 305, ECON 317, ECON 318 and four economics elective courses. Of the four elective courses (300 level or above) a minimum of two must be economics courses at the 400 level or higher. The remaining two economics courses must be approved by the department's director of undergraduate studies. A grade of C (2.0) or better is required for each of the core courses ECON 303, ECON 305, ECON 317 and ECON 318. MATH 118gx or MATH 125 is required for the major; students are advised to meet the requirement by their sophomore year. Majors are also required to take at least one two-unit course on computing chosen from ITP 101 or CSCI 101L.

Economics and Data Science (BS)

This 60-unit major blends core economics instruction with course work in data science, computer science and mathematics to train students to apply advanced data science techniques to the analysis and formulation of economic problems.

Admission

Students can apply to the EDS major during the spring semester of their sophomore year. Prerequisites include ECON 203g, ECON 205g, MATH 125g, MATH 126g and ITP 115, with a minimum grade of B in each and a minimum overall GPA of 3.0.

Transfer students can apply spring of sophomore year or fall of junior year. The same prerequisites apply, except that for fall applicants ITP 115 would be a corequisite rather than a prerequisite and DSCI 250 would be added as a corequisite (to allow completion of the degree within four years).

Economics (28 units)

- ECON 203g Principles of Microeconomics Units: 4
- ECON 205g Principles of Macroeconomics Units: 4
- ECON 303 Intermediate Microeconomic Theory Units: 4
- ECON 305 Intermediate Macroeconomic Theory Units: 4
- ECON 317 Introduction to Statistics for Economists Units: 4 *
- ECON 318 Introduction to Econometrics Units: 4
- ECON 460 Economic Applications of Machine Learning Units: 4

Note:

*The sequence MATH 307/MATH 308 or the sequence MATH 407/MATH 408 may be substituted for ECON 317.

Mathematics (12 units)

- MATH 125g Calculus I Units: 4
- MATH 126g Calculus II Units: 4

- MATH 225 Linear Algebra and Linear Differential Equations Units: 4

Computer Science (6 units)

- CSCI 102L Fundamentals of Computation Units: 2
- CSCI 103L Introduction to Programming Units: 4

Information Technology Program and Data Science (10 units)

- DSCI 250 Introduction to Data Science Units: 4
- DSCI 351 Foundations of Data Management Units: 4
- ITP 115 Programming in Python Units: 2

Elective (4 units)

- DSCI 352 Applied Machine Learning and Data Mining Units: 4
- DSCI 454 Data Visualization and User Interface Design Units: 4
- ECON 419 Advanced Econometrics Units: 4
- MATH 226g Calculus III Units: 4

Political Economy (BA)

The Bachelor of Arts in Political Economy explores the intersection of economics with politics in domestic and international contexts. It prepares students for engagement with global and regional questions that require analysis of economic and political causes and consequences and provides a useful background for a wide variety of entry positions in the public and private sectors.

Lower-Division Courses (16 Units)

Complete two ECON and one MATH course (12 units):

- ECON 203g Principles of Microeconomics Units: 4
- ECON 205g Principles of Macroeconomics Units: 4

- MATH 118gx Fundamental Principles of Calculus Units: 4 or
- MATH 125g Calculus I Units: 4

Choose one (4 units):

- IR 210gw International Relations: Introductory Analysis Units: 4
- POSC 120 Comparative Politics Units: 4
- POSC 130g Law, Politics and Public Policy Units: 4

Upper-Division Requirements (32 Units)

- ECON 303 Intermediate Microeconomic Theory Units: 4

Choose three, at least two from ECON (12 units):

- ECON 305 Intermediate Macroeconomic Theory Units: 4 or
- ECON 330 The Political Economy of Institutions Units: 4

- ECON 332 Contracts, Organizations and Institutions Units: 4
- ECON 340 Economics of Less Developed Countries Units: 4
- ECON 360 Public Finance Units: 4
- ECON 366 Urban Economics Units: 4
- ECON 395 Economic Policy Issues Units: 4
- POSC 335 Political Parties, Campaigns, and Elections Units: 4

Choose one (4 units):

- FBE 402 Government and Business Units: 4
- IR 305w Managing New Global Problems Units: 4
- IR 308w Economic Globalization Units: 4
- IR 323 Politics of Global Environment Units: 4
- IR 324 Multinational Enterprises and World Politics Units: 4
- IR 325 North-South Relations in the Global Economy Units: 4
- IR 326 U.S. Foreign Economic Policy Units: 4
- IR 330 Politics of the World Economy Units: 4
- IR 333 China in International Affairs Units: 4
- IR 358 The Asia Pacific in World Affairs Units: 4
- IR 360 International Relations of the Pacific Rim Units: 4
- IR 362 The International Relations of the Contemporary Middle East Units: 4
- IR 364 The Political Economy of Latin American Development Units: 4
- IR 371 Global Civil Society: Non-State Actors in World Politics Units: 4
- POSC 320 Urban Politics Units: 4
- POSC 321 Urban Political Problems Units: 4
- POSC 325 State Politics Units: 4
- POSC 334 Interest Groups and Elite Behavior Units: 4
- POSC 347 Environmental Law Units: 4
- POSC 363 Cities and Regions in World Politics Units: 4
- POSC 380 Political Theories and Social Reform Units: 2, 4
- PPD 357 Government and Business Units: 4

Choose two, at least one from ECON (8 units):

- ECON 450 International Trade Units: 4
- ECON 487 Resource and Environmental Economics Units: 4
- IR 430 The Politics of International Trade Units: 4
- POSC 425 Legislative Process Units: 4
- POSC 437 Mass Media and Politics Units: 4

Choose one (4 units):

- IR 430 The Politics of International Trade Units: 4
- IR 439 Political Economy of Russia and Eurasia Units: 4
- IR 454 The International Political Economy of Development Units: 4
- POSC 430 Political Economy of Mexico Units: 4
- POSC 451 Politics of Resources and Development Units: 4
- POSC 453 Political Change in Asia Units: 4
- POSC 456 Women in International Development Units: 4
- POSC 463 European Politics Units: 4

Total: 48 units required for the major

Social Sciences, with an Emphasis in Economics (BA)

Students are required to take ECON 203, ECON 205, ECON 303, ECON 305 and three economics elective courses numbered 300 or 400. A grade of C (2.0) or better is required for each of the core courses ECON 303 and ECON 305. MATH 118gx or MATH 125 is required and an additional 12 units of upper-division courses from departments in the social sciences (anthropology, geography, international relations, history, political science, psychology, sociology).

Combined Major

Economics/Mathematics (BS)

Students are required to take seven courses in economics, seven courses in mathematics and two courses in information technology. Pre-major requirement: MATH 125 or equivalent.

In Economics: ECON 203, ECON 205, ECON 303, ECON 305, ECON 318 and at least two other ECON courses at the 400 level or above.

In Mathematics: MATH 126 or MATH 127; MATH 225 or MATH 245; MATH 226 or MATH 227; and either sequence one: MATH 407, MATH 408 or sequence two: MATH 307, MATH 308; and at least two other MATH courses at the 400 level or above (for both sequences).

In Information Technology: Two courses required. At least one course from ITP 109, ITP 115, or ITP 165; and ITP 249.

Electives must be approved by the program advisers.

Minor

Behavioral Economics Minor

This minor offers a series of classes that offer a broad perspective of recent research on economic decision-making. Theoretical classes will review traditional theories of decision-making based on the economic rational paradigm as well as new behavioral theories designed to better capture actual decision-making. Experimental classes will cover standard and novel experimental methods used to study economic decision-making and game theoretical paradigms.

Required Lower-Division Courses (12 units)

- ECON 203g Principles of Microeconomics Units: 4
- ECON 205g Principles of Macroeconomics Units: 4
- MATH 118gx Fundamental Principles of Calculus Units: 4 or
- MATH 125g Calculus I Units: 4

Required Upper-Division Course (4 units)

- ECON 303 Intermediate Microeconomic Theory Units: 4

Required Upper-Division Electives (16 units)

Choose any four of the following courses:

- ECON 404 Games and Economics Units: 4
- ECON 405 Neuroeconomics Units: 4
- ECON 415 Behavioral Economics Units: 4
- ECON 420 Experimental Economics Units: 4
- ECON 432 Economics of Happiness Units: 4

Economics Minor

Students from all disciplines will benefit from an economics minor. The economics minor is offered in three tracks. Each track is designed to help the student explore a coherent area of economic thought and methodology. Students minoring in economics must maintain at least a 2.0 GPA (cumulative) in courses taken for the minor.

The minor includes the core courses ECON 203, ECON 205, ECON 303 or ECON 305, MATH 118gx or MATH 125 plus three courses chosen from one of the following tracks:

Law and Political Economy

This track introduces students to the economic theory that underlies the economic choices made by individuals and the ways in which law and policy combine to regulate such behavior. Economic models of individual choice, contracts, and law are analyzed in courses in this track. Choose three courses from: ECON 317, ECON 330, ECON 332, ECON 434.

Finance and Money

This track guides students through the economic thought and theory that underlie the importance of money. Courses cover topics that shed light on the ways in which institutions, individual preferences and financial markets affect the allocation and investment of money. Choose three courses from: ECON 317, ECON 350, ECON 357, ECON 360, ECON 450, ECON 452, ECON 457.

International Economics

This track concentrates on the foundations, complexities and importance of the global economy as well as the role of economics and political economy in societies outside of the United States. Choose three courses from: ECON 317, ECON 330, ECON 340, ECON 342, ECON 343, ECON 346, ECON 350.

Master's Degree

Applied Economics and Econometrics (MS)

This program is designed to provide advanced training in the basic tools of economics and their application to practical problems. The curriculum incorporates a systematic study of mathematical and statistical analysis of economic phenomena and problems. This includes instruction in cost/benefit analysis, price theory, economic modeling, as well as economic forecasting and evaluation.

Core Courses: 12 units

Students are required to take ECON 500, ECON 501, and ECON 513. Successful completion of these three courses will satisfy 12 units of the program's 32-unit requirement.
Students must earn a "B" grade or higher in ECON 500 and in ECON 501.

- ECON 500 Microeconomic Analysis and Policy Units: 4
- ECON 501 Macroeconomic Analysis and Policy Units: 4
- ECON 513 Practice of Econometrics Units: 4

Additional Econometrics Course: 4 units

Students are required to take at least one of these two econometrics courses: ECON 570 or ECON 584. Successful completion of one of these courses will satisfy 4 units of the program's 32-unit requirement.

- ECON 570 Big Data Econometrics Units: 4 or
- ECON 584 Economic Consulting and Applied Econometrics Units: 4

Electives: 16 units

Students are encouraged to explore the diverse collection of courses offered by the Department of Economics and USC. Stipulations concerning elective courses are as follows:

- Only 400-level, 500-level and 600-level coursework can be applied toward degree requirements.
- At least 8 of these 16 units must be ECON courses.
- At least 8 of these 16 units must be in courses that are 500-level or higher.
- No more than 4 units of ECON 590 may be applied to the degree.

All elective courses (ECON and non-ECON) must be approved by the Master's Programs Adviser. It is important that students receive approval prior to enrolling in elective courses.

Economics (MA)

The Department of Economics will not admit outside applicants to its MA in Economics program. Enrollment in this degree program is reserved for students currently in the department's PhD in Economics program.

If a student enrolled in the doctoral program does not already have a master's degree, the department strongly recommends that such a student work toward satisfying the degree requirements for the MA in Economics. This involves a minimum of 32 units of course work, which a student can meet while working to complete their doctorate.

Required Courses: 16 Units

Students are required to take ECON 601, ECON 602, ECON 609 and ECON 611. Successful completion of these four courses will satisfy 16 units of the program's 32-unit requirement.

- ECON 601 Microeconomic Theory I Units: 4
- ECON 602 Macroeconomic Theory I Units: 4
- ECON 609 Econometric Methods Units: 4
- ECON 611 Probability and Statistics for Economists Units: 4

Electives: 16 Units

Students are encouraged to explore the diverse collection of courses offered by the Department of Economics and USC. Stipulations concerning elective courses are as follows:

- Only 400-level, 500-level and 600-level course work can be applied toward degree requirements.
- At least 8 of these 16 units must be ECON courses.
- At least 8 of these 16 units must be in courses that are 500-level or higher.
- No more than 4 units of ECON 590 may be applied to the degree.

All elective courses (ECON and non-ECON) must be approved by an academic adviser. It is important that students receive approval prior to enrolling in elective courses.

Doctoral Degree

Economics (PhD)

The PhD in Economics program requires students to complete a total of 60 units of graduate-level course work. The 60 units include ECON 794a and ECON 794b. Those interested in applying to the PhD program should review information concerning admission procedures and requirements within the following Websites:

- USC Department of Economics
- USC Office of Graduate Admission

In addition to the course requirements listed below, students

within the PhD in Economics program must also satisfy these requirements:

Core Theory Examination

Before beginning the third semester of graduate study, each student must pass a written examination in general economic theory including applications. A maximum of two attempts is allowed. Not taking the examination at a given due time is considered as failing the examination once. The core theory examination is offered twice every year during the summer session. Any exceptions are subject to approval of the Director of Graduate Studies (DGS).

Second-Year Paper

During the summer after the fourth semester of study, each student must submit an empirical paper using quantitative methods to the examination committee. The paper may use field, experimental or simulated data. In this paper, each student should demonstrate competence in using a computer programming language and software.

Third-Year Paper and Presentation

During the summer after the sixth semester of study, each student must submit and present a research paper to a committee of faculty. The paper must be of publishable quality.

Qualifying Examination

Upon successful completion of course requirements, the second- and third-year paper requirements, and the core theory examination, each student stands for a qualifying examination that focuses on the presentation and defense of the written dissertation proposal. After passing the qualifying examination, a student is admitted to candidacy for the PhD degree. This examination must be taken no later than the end of the eighth semester of study.

Doctoral Dissertation

Following passage of the core theory examination and approval of a dissertation topic by the qualifying exam committee, each student accelerates their dissertation-focused research under the supervision of the dissertation committee. The primary requirement of the PhD is a quality dissertation that is based on a substantial amount of original research conducted.

It is also each student's responsibility to carefully follow Graduate School procedures and requirements pertaining to formal submission of their dissertation.

Master of Arts in Economics (optional)

PhD students may earn an MA degree as they progress through their doctoral studies.

ECON 601, ECON 602, ECON 609 and ECON 611 may be substituted for ECON 500, ECON 501 and ECON 513 requirements of the MA in Economics degree. The remaining elective units may be selected from graduate-level ECON courses that the Department has approved.

First-Year Courses (24 units)

Each student must complete the following courses during their first year in the PhD program:

- ECON 601 Microeconomic Theory I Units: 4
- ECON 602 Macroeconomic Theory I Units: 4
- ECON 603 Microeconomic Theory II Units: 4
- ECON 605 Macroeconomic Theory II Units: 4
- ECON 609 Econometric Methods Units: 4
- ECON 611 Probability and Statistics for Economists Units: 4

Seminar Courses (6 Units)

All seminar courses are repeatable. Each student must complete six units from amongst the following courses:

- ECON 690 Seminar in Economic Theory Units: 2
- ECON 691 Seminar in Econometrics Units: 2
- ECON 692 Seminar in Economic Development Units: 2
- ECON 693 Seminar in Applied Economics and Public Policy Units: 2
- ECON 694 Seminar in Dynamic Economics Units: 2
- ECON 696 Empirical Microeconomics Seminar Units: 2

Frontier Research (8 Units)

Each semester, the Department offers multiple sections of ECON 700 with each section focusing on a distinct field. Each student must complete this repeatable course four times:

- ECON 700 Research on Frontier Economics Units: 2

Elective Courses (18 Units)

The Director of Graduate Studies (DGS) must approve all elective courses. ECON and non-ECON courses may count toward the elective requirement. Each student must complete eighteen units of elective coursework.

Dissertation Courses (4 Units)

Each student must complete at least these two dissertation courses:

- ECON 794a Doctoral Dissertation Units: 2
- ECON 794b Doctoral Dissertation Units: 2

English

The Department of English offers a broad range of courses in English, American and Anglophone literature of all periods and genres, and in related areas such as creative and expository writing, literature and visual arts, ethnic literature and cultural studies, history of the English language and of literary criticism, and literary and cultural theory. Instructors assign extensive reading and writing in order to help students become perceptive readers, critical thinkers and strong writers. Class sizes are kept at 19 to enable full discussion in literature classes and at 12 in creative writing workshops.

Undergraduate Degrees

Advisement

During the mandatory advisement period, all students must meet with a faculty mentors before registering for courses each semester. With the support of faculty, undergraduate studies coordinators help students shape their majors according to their evolving interests, the requirements of the majors, and the requirements of the university. Students should consult the undergraduate studies coordinators about departmental clearances and course substitutions.

Double Majors

The department strongly encourages majoring in both English and in another department in the USC Dornsife College of Letters, Arts and Sciences or in another school of the university.

English Honors Program

Candidates for the BA in English can receive a designation on their transcripts of departmental honors by successfully completing a senior honors thesis while enrolled in ENGL 496, and having a 3.5 final GPA. ENGL 491 Senior Seminar in Literary Studies is a prerequisite for ENGL 496. Students with a minimum GPA of 3.0 overall and 3.5 in English courses can apply for ENGL 496; application is due at the start of fall semester of senior year. For additional information, contact a departmental adviser or the director of undergraduate studies.

Graduate Degrees

Admission Requirements

Requirements for admission to study in the department of English include: GRE scores that are satisfactory to the department on the General Test of the Graduate Record Examinations; evidence of competence in writing English and interpreting English literature, as demonstrated by two samples of written work by the applicant on literary subjects; a satisfactory written statement by the applicant of aims and interests in graduate work; letters of recommendation from at least three college instructors (English instructors preferred); and grades satisfactory to the department earned by the applicant at other institutions.

Degree Requirements

These degrees are under the jurisdiction of the Graduate School. Refer to The Graduate School section of this catalogue for general regulations. All courses applied toward the degrees must be courses accepted by the Graduate School.

Common Requirements

Transfer of Credit

A Transfer Credit Statement is prepared by the Degree Progress Department for students admitted to full graduate standing. The application of any available transfer credit is contingent on successful completion of the screening procedure and is determined by the director of graduate studies no later than the end of the second year according to the following guidelines: credit will only be allowed for courses (1) from accredited graduate schools; (2) of grade B (3.0 on a four-point scale) or better; (3) constituting a fair and reasonable equivalent to current USC course work at the graduate level and fitting into the program for the degree; and (4) approved by the Graduate School. Graduate transfer credit will not be granted for life experience, credit by examination, non-credit extension courses, correspondence courses or thesis course supervision.

The maximum number of transfer credits that may be applied toward the Master of Arts degree is 4 units. The maximum number of transfer credits that may be applied toward the PhD degree is 12 units. The Graduate School stipulates that transfer units must have been completed within 10 years of admission for the doctoral program to be applied toward the degree.

Experience in Teaching

This requirement may be fulfilled by one or more years' service as an assistant lecturer in the Writing Program or equivalent experience as determined by the director of the Graduate Studies Program.

Graduate Activity and Support

The English Department is committed to the development of its graduate students as professionals. To this end, the department provides a number of opportunities for professional activity. In addition, the Association of English Graduate Students (AEGS) hosts a variety of lectures, discussions and forums throughout the year. To support the student's professional activities outside of USC, the department also provides some funding for travel to conferences and professional meetings, along with a full range of placement, advising and support activities. Graduate creative writing students will host lectures, discussions and forums in poetry and fiction studies.

Bachelor's Degree

English (BA)

Undergraduate majors in English are required to take 40 units (usually 10 courses) for a BA in English with an emphasis in either literature or creative writing.

All majors must take three introductory courses:

- ENGL 261g English Literature to 1800 Units: 4
- ENGL 262g English Literature since 1800 Units: 4
- ENGL 263g American Literature Units: 4

Additional Requirements

Students should take at least two introductory courses before enrolling in upper-division literature courses or creative writing workshops.

Majors emphasizing English literature must take seven upper-division courses, including two courses in literature written before 1800, one course in 19th-century literature, one course in American literature, and two electives.

Majors emphasizing creative writing must take seven upper-division courses, including two introductory creative writing workshops in poetry and prose, and a third workshop at the 400-level. The remaining upperdivision courses must include one course in literature written before 1900, one course in literature written after 1900 and one elective.

All major students must complete ENGL 491 Senior Seminar in Literary Studies.

Narrative Studies (BA)

Narrative Studies prepares students for the development and evaluation of original content for novels, films, theatre and other narrative platforms, but recognizes that the range of professional opportunities in literature and the performing arts is much wider than the roles of author, screenwriter or playwright. To recognize a good story, to critique, help shape, realize and transform it, requires a background in the history of narrative, crosscultural and contemporary models, and an understanding of the broader context of popular culture.

Narrative Studies assumes that an effective narrative will be adapted from the medium in which it first appears as new media become available. To prepare students for a future in which the platform is likely to change, the Bachelor of Arts in Narrative Studies allows students to study across the current platforms while concentrating on the techniques of effective construction common to them all.

In so doing, it draws upon course work from several schools of art but finds its home in the humanities. To help develop the flexibility necessary to understand how stories change across platforms, students are expected to complete at least three courses in literary and three courses in performance-based media. The remaining three courses may be chosen to reflect the student's personal preference and initial career aspirations.

MDA 490x Directed Research or MDA 494 Directed Creative Project are capstone experiences: Students work under the guidance of a faculty member in a relevant discipline or professional field, which may include fulltime faculty from the college or the participating schools of the arts. Projects intended for the stage should be done under the direction of School of Dramatic Arts faculty.

Requirements

The Narrative Studies major requires 36 units distributed across six required categories, two upper-division electives, and a senior capstone project. Of the 36 units, only 12 units can be from schools outside of Dornsife (i.e. Cinematic Arts, Thornton, Roski, Dramatic Arts, etc.) and only 8 units can be lower-division (100-200 level).

Introduction to Narrative Media (choose one course):

- COLT 101gp Masterpieces and Masterminds: Literature and Thought Units: 4
- CTCS 190g Introduction to Cinema Units: 4
- CTCS 191 Introduction to Television and Video Units: 4
- CTIN 190 Introduction to Interactive Entertainment Units: 4
- ENGL 261g English Literature to 1800 Units: 4
- ENGL 262g English Literature since 1800 Units: 4
- ENGL 263g American Literature Units: 4
- ENGL 371g Literary Genres and Film Units: 4
- ENGL 381 Narrative Forms in Literature and Film Units: 4
- PHIL 446 Aesthetics and the Film Units: 4
- THTR 125 Text Studies for Production Units: 4
- THTR 403 The Performing Arts Units: 4

  Or other appropriate course work as determined by the department.

Writing and Narrative Forms (choose one or two courses, totaling 4 units):

- CTWR 412 Introduction to Screenwriting Units: 2
- CTWR 415a Advanced Writing Units: 2
- ENGL 105x Creative Writing for Non-Majors Units: 4 , max 8
- ENGL 302 Writing Narrative Units: 4
- ENGL 402 Narrative Composition Units: 4 , max 8 *
- THTR 365 Playwriting I Units: 4
- THTR 366 Playwriting II Units: 4 *

  Or other appropriate course work as determined by the department.

Popular Culture and Ethnicity (choose one course):

- AMST 200gm Introduction to American Studies and Ethnicity Units: 4
- AMST 274gmw Exploring Ethnicity through Film Units: 4
- AMST 285gm African American Popular Culture Units: 4
- AMST 333 Religion in the Borderlands Units: 4
- ANTH 333gm Forms of Folklore Units: 4
- COLT 365 Literature and Popular Culture Units: 4
- CTCS 192gm Race, Class, and Gender in American Film Units: 4
- CTCS 392 History of the American Film, 1925–1950 Units: 4
- CTCS 393 Postwar Hollywood, 1946-1962 Units: 4
- CTCS 394 History of the American Film, 1977–present Units: 4
- CTCS 407 African American Cinema Units: 4
- CTCS 414 Latina/o Screen Cultures Units: 4
- ENGL 392 Visual and Popular Culture Units: 4
- HIST 380 American Popular Culture Units: 4
- MUSC 200gmw The Broadway Musical: Reflections of American Diversity Units: 4
- MUSC 320gmw Hip-hop Music and Culture Units: 4
- MUSC 460 Film Music: History and Function from 1930 to the Present Units: 4
- THTR 395m Drama as Human Relations Units: 4
- THTR 405m Performing Identities Units: 4

  Or other appropriate course work as determined by the department.

Narrative in Cross-cultural Perspective (choose one course):

- ANTH 372 Interpretation of Myth and Narrative Units: 4
- COLT 264gp Asian Aesthetic and Literary Traditions Units: 4
- CTCS 200g History of the International Cinema I Units: 4
- CTCS 201 History of the International Cinema II Units: 4
- EALC 125g Introduction to Contemporary East Asian Cinema and Culture Units: 4
- EALC 332 Modern Korean Literature in Translation Units: 4
- EALC 342gp Japanese Literature and Culture Units: 4
- EALC 452 Chinese Fiction Units: 4
- EALC 455 Japanese Fiction Units: 4
- ENGL 444m Native American Literature Units: 4
- ENGL 445m The Literatures of America: Cross-Cultural Perspectives Units: 4
- FREN 320g The French New Wave and its Legacy Units: 4
- GERM 360g 20th Century German Prose: Texts and Films Units: 4
- ITAL 360g Italian Cinema Units: 4

  Or other appropriate course work as determined by the department.

Western Narrative in Historical Perspective (choose one course):

- CLAS 325 Ancient Epic Units: 4
- CLAS 337gp Ancient Drama Units: 4
- CLAS 380 Approaches to Myth Units: 4
- COLT 312 Heroes, Myths and Legends in Literature and the Arts Units: 4
- ENGL 423 English Literature of the 18th Century (1660–1780) Units: 4 *
- ENGL 424 English Literature of the Romantic Age (1780–1832) Units: 4 *
- ENGL 425 English Literature of the Victorian Age (1832–1890) Units: 4 *
- ENGL 426 Modern English Literature (1890–1945) Units: 4 *
- ENGL 430 Shakespeare Units: 4
- ENGL 440 American Literature to 1865 Units: 4 **
- ENGL 441 American Literature, 1865 to 1920 Units: 4 **
- GERM 340 German Prose Fiction from Goethe to Thomas Mann Units: 4
- GERM 372g Literature and Culture in Berlin in the 1920s Units: 4
- SLL 302g Modern Russian Literature Units: 4
- SLL 344g Tolstoy: Writer and Moralist Units: 4
- SLL 345g Literature and Philosophy: Dostoevsky Units: 4

- SLL 346 Russian Drama and the Western Tradition Units: 4
- SPAN 304 The Art of Fiction Units: 4 (taught in Spanish)
- THTR 301 Greek and Roman Theatre Units: 4 ***
- THTR 302 Shakespeare in His World Units: 4 ***

Or other appropriate course work as determined by the department.

Contemporary Fiction and Drama (choose one course):

- AMST 448m Chicano and Latino Literature Units: 4
- AMST 449m Asian American Literature Units: 4
- COLT 345 Realist Fiction Units: 4
- COLT 348 Modernist Fiction Units: 4
- COLT 420 The Fantastic Units: 4
- COLT 472 Los Angeles Crime Fiction Units: 4
- COLT 475 Politics and the Novel Units: 4
- EALC 354g Modern Chinese Literature in Translation Units: 4
- ENGL 361g Contemporary Prose Units: 4
- ENGL 363g Contemporary Drama Units: 4
- ENGL 375 Science Fiction Units: 4
- ENGL 442 American Literature, 1920 to the Present Units: 4 **
- ENGL 447m African-American Narrative Units: 4
- FREN 347g Race, Gender and Power in Francophone Literature Units: 4
- SLL 303 Contemporary Russian Literature Units: 4
- SLL 348g The Novels of Vladimir Nabokov Units: 4
- THTR 314 Advanced Topics in Modern Drama Units: 4 ***

Or other appropriate course work as determined by the department.

Two additional courses

(three if CTWR 412/CTWR 414 are chosen) (8 units) at the upper-division 300 or 400 level, from different departments, chosen from the lists above.

Capstone Enrollment:

- ENGL 492 Narrative Studies Capstone Seminar Units: 4

or

- MDA 490x Directed Research Units: 1, 2, 3, 4, 5, 6, 7, 8 (4 Units Required)

or

- MDA 494 Directed Creative Project Units: 2, 3, 4 (4 Units Required)

Or other appropriate course work as determined by the department.

Total: 36 units

Nine or 10 courses, including at least seven at the upper-division level, for a total of 36 units.

**Prerequisite required*
***Corequisite required*
****Recommend preparation suggested*

Minor

Cultural Studies Minor

Cultural studies is an interdisciplinary field of study that examines a broad array of issues of culture, including popular culture, identity, subcultures, nationalism, global culture and ethnography. This minor is designed for students majoring in the humanities or in the professional schools who wish to complement their majors with courses that investigate the politics of culture and cultural negotiation. Students are required to have a minimum 3.0 GPA and the completion of 32 units for admission to the minor.

Required Courses

- COMM 384 Interpreting Popular Culture Units: 4

- CTCS 407 African American Cinema Units: 4 or
- CTCS 411 Film, Television and Cultural Studies Units: 4

- ENGL 392 Visual and Popular Culture Units: 4 or

Elective Courses

Choose three courses from the following. Students must take two electives outside the department of their major. Students may not take any more than two electives from any one department or school.

- AHIS 363m Contemporary Art and the Culture Wars Units: 4
- AHIS 469 Critical Approaches to Photography Units: 4
- ANTH 263g Exploring Culture through Film Units: 4
- COLT 365 Literature and Popular Culture Units: 4
- COMM 339 Communication Technology and Culture Units: 4
- COMM 340 The Cultures of New Media Units: 4
- COMM 360 Los Angeles: Communication and Culture Units: 4
- COMM 395m Gender, Media and Communication Units: 4
- CTCS 406 History of American Television Units: 4
- CTCS 407 African American Cinema Units: 4
- CTCS 478 Culture, Technology and Communications Units: 4
- FREN 320g The French New Wave and its Legacy Units: 4
- HIST 225g Film, Power, and American History Units: 4
- SOCI 342m Race Relations Units: 4

Total Units: 24

For more information or to apply to this minor, contact the Department of English, USC Dornsife College of Letters, Arts and Sciences.

Early Modern Studies Interdisciplinary Minor

This minor brings together the resources of the departments of English, History and Art History to study the literatures and cultures of Europe and the Americas from the late medieval period to 1800. It draws upon courses from the departments of French and Italian, Spanish and Portuguese, Philosophy, American Studies and Ethnicity, the USC Thornton School of Music, and the USC School of Dramatic Arts.

The minor focuses on the interplay of literary and historical methodologies while promoting an area study in a wide context. Majors in any participating department can complement the strengths in their home department with courses in other participating departments; students with majors in most other areas should have room for the 20 units necessary to complete the minor.

The minor includes a capstone course, a senior seminar based on the resources of the Early Modern Studies Institute (a consortium between USC and the Huntington Library), which enables students to learn about current issues in this cross-disciplinary field and about research techniques employed to deal with those emergent issues.

Through its Early Modern Studies Institute, USC has recognized that the study of the literatures and cultures of Europe and the Americas prior to 1800 reaches beyond disciplinary boundaries. English studies are also historical, continental, multinational and multilingual. Historical studies are also literary and sociological. Both studies are enmeshed in art history and music. This cross-disciplinary understanding of early modern studies provides a model for research in many areas of the humanities and social sciences. Students who complete this minor will be able to use both literary and historical analyses to investigate other questions in which they are interested.

The minor requires 20 units. As with all minors, students must include at least four upper-division courses and four courses dedicated exclusively to this minor (not used for credit toward a major, another minor or general education requirements). Students must select four courses outside their major department.

Requirements, Lower-Division

Choose one, 4 units:

- AHIS 230 Art and Culture in Early Modern Europe Units: 4
- ENGL 261g English Literature to 1800 Units: 4
- HIST 103g The Emergence of Modern Europe Units: 4

Requirements, Upper-Division

Choose at least one course from each of the following four categories:

Literary Studies (4 units):

- ENGL 420 English Literature of the Middle Ages (1100–1500) Units: 4
- ENGL 421 English Literature of the 16th Century Units: 4
- ENGL 422 English Literature of the 17th Century Units: 4
- ENGL 423 English Literature of the 18th Century (1660–1780) Units: 4
- FREN 401 Studies in Early Modernity Units: 4
- ITAL 350g Gender and Sexuality in Renaissance Italy Units: 4
- SPAN 350 Cultural Cross-Currents of the Iberian Middle Ages Units: 4
- SPAN 352 The Transatlantic Golden Age: New Worlds Real and Imagined Units: 4

Historical Analysis (4 units):

- AHIS 304gm Art, Power and Identity in Renaissance Italy Units: 4
- AHIS 343 Renaissance Art Units: 4
- AHIS 344 Baroque Art Units: 4
- AMST 446 Cultural Circuits in the Americas Units: 4
- HIST 309 Britain and Ireland, 1100–1500 C.E. Units: 4
- HIST 312 The Age of the French Revolution and Napoleon Units: 4
- HIST 316 The Renaissance Units: 4
- HIST 325 Early Modern Britain Units: 4
- HIST 331 The British Empire: 1588–1834 Units: 4
- HIST 410 The Age of Humanism and Reformation Units: 4
- PHIL 320 History of Western Philosophy: Modern Period Units: 4

Case Studies in Early Modern Discourse and History (4 units):

- AHIS 430 Studies in Renaissance Art Units: 4
- AHIS 433 Studies in Medieval Art Units: 4
- AHIS 453 Studies in Baroque Art Units: 4
- AMST 373m History of the Mexican American Units: 4
- ENGL 430 Shakespeare Units: 4
- ENGL 444m Native American Literature Units: 4
- ENGL 461 English Drama to 1800 Units: 4
- ENGL 465 The English Novel to 1800 Units: 4
- HIST 307 The High Middle Ages: 1100-1400 Units: 4
- HIST 349 Colonial North America 1600–1760 Units: 4
- HIST 351 The American Revolution Units: 4
- HIST 370 Spanish America, 1492–1821 Units: 4
- HIST 470 The Spanish Inquisition in the Early Modern Hispanic World Units: 4, 2 years
- HIST 473 Colonial Latin America Seminar Units: 4
- MPEM 450 Collegium Workshop Units: 1
- PHIL 421 Continental Rationalism Units: 4
- PHIL 422 British Empiricism Units: 4
- PHIL 423 The Critical Philosophy of Kant Units: 4
- SPAN 455 Picaresque Itineraries: Empire and Its Discontents Units: 4
- SPAN 460 Don Quijote: Text and Film Units: 4
- THTR 302 Shakespeare in His World Units: 4
- THTR 313 Comedy of Manners Units: 4
- THTR 354 Acting Shakespeare Units: 2

Senior Seminar in Early Modern Studies (capstone):

- ENGL 497 Senior Seminar in Early Modern Studies Units: 4

English Minor

The minor in English requires 20 units, or five courses, including at least two introductory courses (from among ENGL 261, ENGL 262 and ENGL 263) and at least three upper-division courses including one in literature written before 1800 and one in American literature. An English minor may enroll in no more than one creative writing workshop.

Interdisciplinary Minors

Narrative Structure Interdisciplinary Minor

This interdisciplinary minor is intended for students with an interest in story-telling who are majoring in programs and disciplines other than narrative studies. The minor, based in the humanities, provides opportunities for undergraduates to study story structure from the perspective of several disciplines. As with all minors, students must choose at least four courses (16 units) outside their major department and four courses (16 units) that are not being used to satisfy any other subject requirement.

Course Requirements: five courses (20 units)

Lower-Division Requirement

Choose one course (4 units) from the following list.

- COLT 101gp Masterpieces and Masterminds: Literature and Thought Units: 4
- COLT 264gp Asian Aesthetic and Literary Traditions Units: 4
- CTCS 190g Introduction to Cinema Units: 4
- CTCS 200g History of the International Cinema I Units: 4
- CTCS 201 History of the International Cinema II Units: 4
- CTIN 190 Introduction to Interactive Entertainment Units: 4
- EALC 125g Introduction to Contemporary East Asian Cinema and Culture Units: 4
- ENGL 105x Creative Writing for Non-Majors Units: 4
- ENGL 262g English Literature since 1800 Units: 4
- ENGL 263g American Literature Units: 4

Upper-Division Requirements

Choose four courses (16 units) from the lists below, one from each list.

Core Course

- ENGL 302 Writing Narrative Units: 4

European and American Literary Narratives

- CLAS 325 Ancient Epic Units: 4
- COLT 312 Heroes, Myths and Legends in Literature and the Arts Units: 4
- COLT 345 Realist Fiction Units: 4
- COLT 472 Los Angeles Crime Fiction Units: 4
- ENGL 361g Contemporary Prose Units: 4
- ENGL 375 Science Fiction Units: 4
- ENGL 425 English Literature of the Victorian Age (1832–1890) Units: 4 *
- ENGL 426 Modern English Literature (1890–1945) Units: 4 *
- ENGL 440 American Literature to 1865 Units: 4 **
- ENGL 441 American Literature, 1865 to 1920 Units: 4 **
- ENGL 442 American Literature, 1920 to the Present Units: 4
- ENGL 447m African-American Narrative Units: 4
- FREN 383 French Women Writers Units: 4 (taught in French) **
- FREN 404 Studies in an Author Units: 4 (taught in French)
- GERM 340 German Prose Fiction from Goethe to Thomas Mann Units: 4
- GERM 372g Literature and Culture in Berlin in the 1920s Units: 4
- SLL 302g Modern Russian Literature Units: 4
- SLL 303 Contemporary Russian Literature Units: 4
- SLL 344g Tolstoy: Writer and Moralist Units: 4
- SLL 345g Literature and Philosophy: Dostoevsky Units: 4
- SLL 348g The Novels of Vladimir Nabokov Units: 4
- SPAN 304 The Art of Fiction Units: 4 (taught in Spanish)

Note:

**Prerequisite required*
***Corequisite required*

Global Narrative Traditions

- ANTH 372 Interpretation of Myth and Narrative Units: 4
- EALC 332 Modern Korean Literature in Translation Units: 4
- EALC 342gp Japanese Literature and Culture Units: 4
- EALC 354g Modern Chinese Literature in Translation Units: 4
- EALC 428 Nature and the Ecological Imagination in Japanese Literature Units: 4

- EALC 452 Chinese Fiction Units: 4
- EALC 455 Japanese Fiction Units: 4
- ENGL 444m Native American Literature Units: 4
- ENGL 445m The Literatures of America: Cross-Cultural Perspectives Units: 4

Narratives in Visual Media

- CLAS 337gp Ancient Drama Units: 4
- CTCS 367 Global Media Units: 4
- CTCS 392 History of the American Film, 1925–1950 Units: 4
- CTCS 393 Postwar Hollywood, 1946-1962 Units: 4
- CTCS 394 History of the American Film, 1977–present Units: 4
- CTCS 407 African American Cinema Units: 4
- ENGL 363g Contemporary Drama Units: 4
- ENGL 371g Literary Genres and Film Units: 4
- ENGL 381 Narrative Forms in Literature and Film Units: 4
- ENGL 430 Shakespeare Units: 4
- FREN 320g The French New Wave and its Legacy Units: 4
- GERM 360g 20th Century German Prose: Texts and Films Units: 4
- ITAL 360g Italian Cinema Units: 4
- SLL 346 Russian Drama and the Western Tradition Units: 4
- SPAN 302 Screen Cultures: From Film to the Internet Units: 4 (taught in Spanish)
- SPAN 306 Performance from Street to Stage Units: 4 (taught in Spanish)

Master's Degree

English (MA)

The department does not accept applicants for a Master of Arts degree. All graduate work in English at USC is taken as part of a PhD program, and the MA in English is intended only as a transitional degree in the process of completing requirements for the PhD

A student admitted to the graduate program may choose later to earn a terminal MA degree, or may be invited by the department to attempt a terminal degree. The terminal MA in English may be earned by completing 30 units (normally eight courses) of graduate study in English or in other departments at USC (as approved by the graduate director) with an accumulated GPA of at least 3.0, and by passing the screening procedure. A maximum of 4 units of 590 Directed Research and 4 transfer units may count toward the 30 units minimum required for the MA degree.

Literary Editing and Publishing (MA)

The master's degree in Literary Editing and Publishing is intended for students with strong backgrounds in English literature, creative writing and narrative studies to explore the roles of the professional editor and publisher, with an emphasis in literary nonfiction.

Exceptional USC undergraduate students accepted to this degree program may combine their baccalaureate and masters studies during their senior (fourth) year, in accordance with USC policy on Progressive Degree Programs. Applicants without appropriate preparatory course work in literature and creative writing may be required to complete more course work. All applicants must have completed ENGL 300 or ENGL 310 with a grade of A- or better. The master's degree in Literary Editing and Publishing requires a year of supervised external professional internship in lieu of a thesis.

Advisement

Students interested in applying to the Progressive Degree Program in Literary Editing and Publishing will propose a plan of study in consultation with an academic adviser. Advisers will work with students throughout the final years of undergraduate study and the master's program to help students select courses based on remaining undergraduate degree requirements, recommended preparation for the master's degree, and the core requirements for the master's degree in Literary Editing and Publishing. Students in the English department are required to meet with an adviser before registering for courses each semester.

Degree Requirements

The master's degree in Literary Editing and Publishing is under the jurisdiction of the Graduate School. Refer to the Requirements for Graduation section and the Graduate School section of this catalogue for general regulations. All courses applied toward the degree must be courses accepted by the Graduate School.

Required Courses

A minimum of 28 units of graduate-level course work is required. All courses are 4 units unless otherwise noted.

- ENGL 601 Introduction to Literary Editing and Publishing Units: 4
- ENGL 602 Writers in the World: Text and Context Units: 4
- ENGL 603 The Editorial Experience: The Craft of Publication Units: 4
- ENGL 604 The Nonfiction Experience: A Literary-Editorial Focus Units: 4
- ENGL 607 Digital Publishing and Literary Writing for New Media Units: 4
- ENGL 608 Publishing on Both Sides of the Transom Units: 4
- ENGL 609a Internship in Editing and Publishing: Eloquence and Ethics Units: 2
- ENGL 609b Internship in Editing and Publishing: Eloquence and Ethics Units: 2

Recommended Course

- ENGL 600 Publication in Humanities Journals Units: 4

Doctoral Degree

English and American Literature (PhD)

Students may earn the PhD in English by successfully completing requirements in the English and American literature track.

Application deadline: December 1

This program prepares students for research and teaching in all areas of English and American literary studies. The program offers the study of texts in their historical and cultural contexts as well as theoretical, interdisciplinary and cross-cultural approaches to literature.

Graduate Curriculum and Unit Requirements

The graduate curriculum is divided into 500-level foundation courses and 600-level advanced courses. The 500-level courses offer fundamental work in theory and in the history of British and American literatures and cultures. The 600-level courses feature advanced studies in theory, core requirements in film and literature, interdisciplinary studies, transhistorical studies in genres and sub-genres, individual writers, gender studies, multi-cultural literatures and societies, and special topics. Although students will normally take 500-level courses leading up to the screening procedure (see Screening Procedure) and 600-level courses thereafter, students, after consultation with their advisers, may be permitted to take 600-level courses in the first semesters of their graduate training.

Occasionally students who lack adequate undergraduate training in any given area may be required by the graduate director to enroll in appropriate 400-level courses.

The student's course work must total at least 64 units. No more than 8 units of 794 Doctoral Dissertation and no more than four units of 790 Research may count toward the 64 units. A maximum of 12 transfer units, approved by the graduate director, is allowed toward the 64 units minimum required by the PhD (See Transfer of Credit.)

Advisement

The student will be assigned a faculty mentor in his or her first semester in the graduate program and will be encouraged in subsequent semesters to begin putting together an informal qualifying exam committee. The makeup of the qualifying exam

committee may change as the interests of the student change. The faculty mentor and informal qualifying exam committee will assist the student in planning a program of study appropriate to the student's interests leading to the screening procedure.

Screening Procedure

In the semester immediately following the completion of 20 units of courses, the students will be screened. Passing this procedure is prerequisite to continuation in the doctoral program. The faculty mentor will write a report summarizing the student's course work, grades and instructor comments. The graduate studies committee will consider the student's record and determine if he or she is qualified to go on to the PhD. On successful completion of screening, the student may apply for the transfer of graduate credit from other institutions, up to a maximum of 12 units.

Qualifying Exam Committee

Immediately following successful completion of the screening procedure, the student will nominate formally a five-member qualifying exam committee, including a chair and three other members from the English Department who are in the student's areas of interest and an outside member from another PhD-granting department. The committee must be in place and approved by the Graduate School at the time the student chooses a dissertation topic, writes the dissertation prospectus and schedules a qualifying examination.

Field Examinations

In the semester following the completion of courses, and before submission of the dissertation prospectus, the student must take the field examinations. These are take-home essays in three broad fields preparatory to the dissertation. The fields are chosen and the questions developed by the student in consultation with a committee of three examiners chosen by the student. The field examinations may be repeated once in the semester immediately following an unsuccessful attempt. The committee may ask the student to retake one, two or all three fields.

Qualifying Examination

Following completion of course work and the field examinations, the student must sit for a qualifying examination, at a time mutually agreed upon by the student and the qualifying exam committee. This is an examination given in the subject of the student's proposed dissertation research. No less than one month before the qualifying examination, the student will submit to the qualifying exam committee a dissertation prospectus. The prospectus, it is understood, will not be a polished dissertation proposal, but at a minimum it should display a strong knowledge of the subject, much of the relevant secondary material and other contexts crucial to the writing of the dissertation, and should present a workable plan of attack as well as a reasonably sophisticated understanding of the theoretical assumptions involved in the subject.

The qualifying examination will consist of both written and oral portions. It will focus on the dissertation area and its contexts with the specific format and content of the examination being negotiated among the student and all members of the examination committee. Upon successful completion of the qualifying examination, the student proceeds to the writing of the doctoral dissertation.

Dissertation

The final stage of the program is the submission of a dissertation that makes an original and substantial contribution to its field of study. Dissertations being written in the department are now richly varied, and this diversity is encouraged.

Foreign Language

PhD students are required to demonstrate proficiency in at least one foreign language. This may be demonstrated by completing a course in the literature of that language at the 400 or 500 level (with a grade of B [3.0] or better), or by passing a foreign language exam that tests proficiency in reading comprehension and translation. PhD students may also be required to demonstrate proficiency in additional languages, as determined by the qualifying exam committee in view of the student's proposed field of research.

Literature and Creative Writing (PhD)

Application deadline: December 1

The program provides dual emphasis in literature and creative writing, culminating in the dissertation, which combines critical analysis with creative originality. Roughly half of the dissertation is based on original research, that is to say, research contributing to knowledge which enriches or changes the field. Doctoral candidates not only read and write texts as finished products of scholarship in researching their creative work's literary and historical milieu, but also consider the text as writers create it, then compose texts as writers, a process that goes to the source of the study of literature and of literature itself. This integration of literature and creative writing is reflected in the structure of the dissertation, which introduces the creative work within a context of critical inquiry, bringing together the examination and embodiment of the literary act, a new model of scholarship and creative innovation.

PhD candidates in literature and creative writing must pass the same departmental screening examination taken by PhD candidates in Literature who are not working in the area of creative writing. The exam tests students in various areas of emphasis (British literature, American literature, poetry, prose, etc.) and literature and historical periods as a measure of their preparedness to undertake independent research.

The literature and creative writing student takes 64 units in all, 32 in literature, 24 in creative writing workshops and seminars and 8 units of dissertation studies credits.

Admission Requirements

Requirements for admission to study in the department of English include: scores satisfactory to the department in both the verbal and quantitative General Test and the literature Subject Test of the Graduate Record Examinations; evidence of experience and ability in creative writing, as demonstrated by a creative writing sample; evidence of competence in writing English and interpreting English literature, as demonstrated by a sample of written work by the applicant on literary subjects; a satisfactory written statement by the applicant of aims and interests in graduate work; letters of recommendation from at least three college instructors; and grades satisfactory to the department earned by the applicant at other institutions. This program will accept applicants with BA degrees or transfer students with an MA or MFA in creative writing.

Degree Requirements

These degrees are under the jurisdiction of the Graduate School. Refer to the Graduate School section of this catalogue for general regulations. All courses applied toward the degrees must be courses accepted by the Graduate School.

Graduate Curriculum and Unit Requirements

The graduate curriculum is divided into 500-level foundation courses and 600-level advanced courses. The 500-level courses offer fundamental work in theory and in the history of British and American literatures and cultures. The 600-level courses feature advanced studies in theory, creative writing seminars and workshops and special topics. Although students will normally take 500-level courses leading up to the screening procedure (see Screening Procedure) and 600-level courses thereafter, students after consultation with their advisers may be permitted to take 600-level courses in the first semester of their graduate training.

The student's course work must total at least 64 units. No more than eight units of 794 Doctoral Dissertation and no more than four units of 790 Research may count toward the 64 units. A maximum of 12 transfer units, approved by the graduate director, is allowed toward the 64 units minimum required by the PhD (See Transfer of Course Work.)

Advisement

The student will be assigned a faculty mentor in his or her first semester in the graduate program and will be encouraged in subsequent semesters to begin putting together an informal qualifying exam committee. The makeup of the qualifying exam committee may change as the interests of the student change. The faculty mentor and informal qualifying exam committee will assist the student in planning a program of study appropriate to the student's interests leading to the screening procedure.

Screening Procedure

At the end of the student's fourth semester (second semester for students who enter with an MA or MFA degree or near equivalent), the student will sit for a departmental examination, which is part of a comprehensive screening procedure. Rarely, and only with the approval of the graduate director and the graduate committee, will a student be allowed to postpone the departmental examination and the screening procedure, and then only for one year. Prior to the screening procedure, the student will be allowed to take a maximum of four units of independent study (ENGL 590), and that independent study will normally be used to prepare for the departmental examination; all other units must be in the 500- or 600-level seminar.

Qualifying Exam Committee

Immediately following successful completion of the screening procedure, the student will nominate formally a five-member qualifying exam committee, including a chair and three other members from the English Department who are in the student's areas of interest and an outside member from another PhD-granting department. The committee must be in place and approved by the Graduate School at the time the student chooses a dissertation topic, writes the dissertation prospectus and schedules a qualifying examination.

Qualifying Examination

Following completion of course work, the student must sit for a qualifying examination, at a time mutually agreed upon by the student and the qualifying exam committee.

This is a field examination given in the subject of the student's proposed dissertation research. No less than one month before the qualifying examination, the student will submit to the qualifying exam committee a dissertation prospectus. The prospectus, it is understood, will not be a polished dissertation proposal, but at a minimum it should display a strong knowledge of the subject, much of the relevant secondary material and other contexts crucial to the writing of the dissertation, and should present a workable plan of attack as well as a reasonably sophisticated understanding of the theoretical assumptions involved in the subject.

The qualifying examination will consist of both written and oral portions with special emphasis areas in creative writing. It will focus on the dissertation area and its contexts with the specific format and content of the examination being negotiated among the student and all members of the examination committee. Upon successful completion of the qualifying examination the student proceeds to the writing of the doctoral dissertation.

Dissertation

The final stage of the program is the submission of a creative dissertation that makes an original, substantial and publishable contribution to creative literature: a book of poems, a novel, a collection of short stories.

Foreign Language

PhD students are required to demonstrate proficiency in at least one foreign language. This may be demonstrated by completing a course in the literature of that language at the 400 or 500 level (with a grade of B [3.0] or better) or by passing a foreign language exam that tests proficiency in reading comprehension and translation. PhD students may also be required to demonstrate proficiency in additional languages, as determined by the qualifying exam committee in view of the student's proposed field of research.

Environmental Studies

The Environmental Studies Program offers two undergraduate majors, Environmental Studies (ENVS) and Environmental Science and Health (ENSH). Each of these majors leads to either the BA or BS degree. Each of the Environmental Studies degrees are built on specialized natural science and social science courses and a set of interdisciplinary courses focusing on sustainability. The social science core courses focus on environmental problems from political, legal, economic and international perspectives. Specially designed one-semester surveys of biology, earth science and chemistry provide the natural science competency for subsequent policy or science advanced course work in environmental studies. Two concentrations are available in the Environmental Studies BA degree: Science and Management; and Policy and Management. Four concentrations are available in the Environmental Studies BS degree: Sustainability and Society; Oceans and People; Climate and Environment; and Environmental Policy. Both the Environmental Studies BA and BS culminate in the capstone experience of a senior seminar focusing on environmental problem-solving by interdisciplinary teams. A single 24-unit environmental studies minor is derived from the core major curriculum.

The Environmental Science and Health degrees combine the interdisciplinary courses on sustainability described above and some of the environmental social science content with traditional biology and chemistry content to provide options for students preparing for one of the health professions with an undergraduate emphasis on environmental sustainability. The Environmental Science and Health BS degree incorporates recommended preparation for medical schools. The Environmental Science and Health BA degree may be appropriate for students preparing for other graduate or professional training as well as students pursuing double majors. The Environmental Studies courses common to both majors emphasize the interdisciplinary nature of environmental problems. A number of opportunities are provided for field studies from the urban Los Angeles environment to marine protected areas on the coasts of the California Channel Islands. More intensive field study opportunities include "Problems Without Passports" courses with international components. Note that some of the field studies opportunities require travel to remote, rural locations and study under sometimes physically and mentally demanding conditions. These trips require a willingness to conform to the announced guidelines for conduct and safety.

Emeritus: Thomas Flood, PhD *(Chemistry)*

Undergraduate Programs

Catalina Sustainability Semester

The Environmental Studies Program in collaboration with the Department of Biological Sciences and the Wrigley Marine Science Center offers a Catalina sustainability semester focusing on California marine, coastal and island sustainability. This semester-long program is offered during the Spring. The 16 units of course work in this program is taught in a block format (sequential) and are designed to take advantage of the unique facilities and settings of Catalina Island. Enrolled students are provided with food and lodging at the Wrigley Marine Science Center at rates comparable to the services offered to students on the University Park Campus.

Suggested preparation for the Catalina sustainability semester includes completion of either ENST 100, BISC 120Lg or comparable experience. Prospective applicants are urged to contact the Environmental Studies Office in CAS 116 early in the fall semester prior to enrollment and no later than October 15 for consideration.

Graduate Programs

The Master of Arts degree program in Environmental Studies is interdisciplinary and focuses on environmental science, planning and public policy. Those who graduate with an MA in Environmental Studies are well prepared to pursue careers in policy, planning or management in the public, private or nonprofit sector in either this country or abroad. In addition, the curriculum provides students with a foundation for acquiring a PhD in Environmental Studies or a related field, or a professional degree such as a JD. Upon completion of the graduate program, students will possess extensive knowledge of environmental science, environmental statistics and economics, law and regulation, policy and planning, development and economic growth, and global issues and problems.

The Master of Science degree program in Environmental Data Science is a joint program between the Environmental Studies Program and the Viterbi School of Engineering. Students will learn core environmental science principles and receive training in data science skills. The curriculum is designed to prepare individuals to develop and use sophisticated analytical and computer-based methods to assess and protect the Earth's natural resources and is designed to be accessible to students with any background.

The Master of Science degree in Environmental Risk Analysis focuses on providing advanced professional training for students with a BS degree in natural sciences or engineering. Students will pursue a core program encompassing science, engineering and finance supplemented with important skills courses in risk assessment, statistics and computer modeling and simulations. Those who graduate with the MS degree will be well prepared to pursue professional careers in business and industry, which build on their degrees in the natural sciences. This degree will produce individuals with the analytical and problem-solving skills of natural scientists combined with the necessary training in finance and management needed in the business world.

Progressive Degree Program in Environmental Studies

This progressive degree program allows advanced USC undergraduates completing a bachelor's degree in a related natural science or environmental policy area to also complete a master's degree in environmental studies in as little as five years. An overall GPA of 3.2 or higher in all courses taken at USC is preferred. A 3.2 GPA does not guarantee acceptance.

Bachelor's Degree

Environmental Science and Health (BA)

Required Courses

- BISC 120Lg General Biology: Organismal Biology and Evolution Units: 4
- BISC 220Lg General Biology: Cell Biology and Physiology Units: 4 or

- BISC 121Lg Advanced General Biology: Organismal Biology and Evolution Units: 4
- BISC 221Lg Advanced General Biology: Cell Biology and Physiology Units: 4

- CHEM 105aLg General Chemistry Units: 4

Environmental Studies (BA)

Common Courses (40 units)

Math Requirement:

- MATH 118gx Fundamental Principles of Calculus Units: 4 or
- MATH 125g Calculus I Units: 4

Choose one:

- BISC 305g Statistics for Biological Sciences Units: 4
- HP 340Lg Health Behavior Statistical Methods Units: 4
- MATH 114gx Foundations of Statistics Units: 4
- PSYC 274Lg Statistics Units: 4
- SOCI 314Lg Analyzing Social Statistics Units: 4

Natural Science Core Experiences:

Choose two.

- BISC 103Lgx General Biology for the Environment and Life Units: 4
- CHEM 103Lgx General Chemistry for the Environment and Life Units: 4
- GEOL 160Lg Introduction to Geosystems Units: 4

Environmental Studies Core Experiences:

- ENST 100g Introduction to Environmental Studies Units: 4
- ENST 320a Water and Soil Sustainability; Energy and Air Sustainability Units: 4
- ENST 320b Water and Soil Sustainability; Energy and Air Sustainability Units: 4
- ENST 387 Economics for Natural Resources and the Environment Units: 4
- ENST 495 Senior Seminar in Environmental Studies Units: 4

Social Science Core Experience:

Choose one.

- IR 323 Politics of Global Environment Units: 4
- POSC 270 Introduction to Environmental Law and Politics Units: 4

Concentrations (16 Units)

Choose 16 units from one concentration.

Science and Management

Four of the following (a minimum of two classes must have the ENST prefix):

- ENST 310 Sustainable Fisheries Management Units: 4
- ENST 335 Science, Health and the Environment Units: 4
- ENST 370 Marine and Coastal Environmental Policy Units: 4
- BISC 412 Oceans, Climate, and the Environment Units: 4 or
- ENST 445 Earth Climate: Past, Present, and Future Units: 4
- ENST 480 Integrated Ecosystem Management in Micronesia Units: 4
- GEOL 470L Environmental Hydrogeology Units: 4

- ENST 490x Directed Research Units: 1, 2, 3, 4, 5, 6, 7, 8 or
- ENST 492 Directed Environmental Policy and Science Internship Units: 2, 4
- BISC 315L Introduction to Ecology Units: 4 or
- BISC 469L Marine Biology Units: 4 or
- BISC 473L Biological Oceanography Units: 4
- GEOL 351L Climate Systems Units: 4
- HP 408 Environmental Health in the Community Units: 4 or
- HP 448 Global Environmental Changes and Health Units: 4
- PPD 427L Geographic Information Systems and Planning Applications Units: 4 or
- SSCI 301L Maps and Spatial Reasoning Units: 4

Policy and Management

Four of the following (a minimum of two classes must have the ENST prefix):

- ECON 203g Principles of Microeconomics Units: 4
- ECON 317 Introduction to Statistics for Economists Units: 4
- ENST 344 Environmental Ethics Units: 4
- ENST 370 Marine and Coastal Environmental Policy Units: 4
- ENST 432 Environment and Governance: International and National Policy Units: 4
- ENST 442 Global Climate Change: Policy and Society Units: 4

- ENST 490x Directed Research Units: 1, 2, 3, 4, 5, 6, 7, 8 (4 units) or
- ENST 492 Directed Environmental Policy and Science Internship Units: 2, 4 (4 units)
- IR 323 Politics of Global Environment Units: 4 or
- POSC 270 Introduction to Environmental Law and Politics Units: 4
- HP 446 Poisons, People, and Politics Units: 4
- MOR 466 Business and Environmental Sustainability Units: 4
- POSC 418 Environmental Sustainability and Public Participation Units: 4
- POSC 436 Environmental Politics Units: 4
- PPD 410 Comparative Urban Development Units: 4
- PPD 427L Geographic Information Systems and Planning Applications Units: 4 or
- SSCI 301L Maps and Spatial Reasoning Units: 4

Minimum Units Required (56)

Environmental Studies (BS)

The Environmental Studies Program offers two undergraduate majors, Environmental Studies (ENVS) and Environmental Science and Health (ENSH). Each of these majors leads to either a BA or BS degree. The environmental studies degrees are built on specialized natural science and social science courses and a set of interdisciplinary courses focusing on sustainability. The social science core courses focus on environmental problems from political, legal, economic and international perspectives. Specially designed one-semester surveys of biology, earth science and chemistry provide the natural science competency for subsequent policy or science advanced course work in environmental studies. Two concentrations are available in the BA in Environmental Studies degree: science and management and policy and management. Four concentrations are available in the BS in Environmental Studies degree: sustainability and society; oceans and people; climate and environment; and environmental policy. Both the Environmental Studies BA and BS culminate in the capstone experience of a senior seminar focusing on environmental problem-solving by interdisciplinary teams. A single 24-unit environmental studies minor is derived from the core major curriculum.

The environmental science and health degrees combine the interdisciplinary courses on sustainability described above

and some of the environmental social science content with traditional biology and chemistry content to provide options for students preparing for one of the health professions with an undergraduate emphasis on environmental sustainability. The BS in Environmental Science and Health incorporates recommended preparation for medical schools. The BA in Environmental Science and Health may be appropriate for students preparing for other graduate or professional training as well as students pursuing double majors. The environmental studies courses common to both majors emphasize the interdisciplinary nature of environmental problems. A number of opportunities are provided for field studies from the urban Los Angeles environment to marine protected areas on the coasts of the California Channel Islands. More intensive field study opportunities include "Problems Without Passports" courses with international components. Note that some of the field studies opportunities require travel to remote, rural locations and study under sometimes physically and mentally demanding conditions. These trips require a willingness to conform to the announced guidelines for conduct and safety.

Common Courses (48 Units)

Math Requirement

- MATH 118gx Fundamental Principles of Calculus Units: 4 or
- MATH 125g Calculus I Units: 4

Choose one:

- BISC 305g Statistics for Biological Sciences Units: 4
- HP 340Lg Health Behavior Statistical Methods Units: 4
- MATH 114gx Foundations of Statistics Units: 4
- PSYC 274Lg Statistics Units: 4

Note

MATH 125g has a prerequisite of either the math placement exam or MATH 108g. MATH 118gx is not available as an alternative to MATH 125g for the BS ENVS with a concentration in Climate, Earth and Environment since this concentration requires MATH 125g and MATH 126g.

Natural Science Core Experiences:

- BISC 103Lgx General Biology for the Environment and Life Units: 4
- CHEM 103Lgx General Chemistry for the Environment and Life Units: 4
- GEOL 160Lg Introduction to Geosystems Units: 4

Environmental Studies Core Experiences:

- ENST 100g Introduction to Environmental Studies Units: 4
- ENST 320a Water and Soil Sustainability; Energy and Air Sustainability Units: 4
- ENST 320b Water and Soil Sustainability; Energy and Air Sustainability Units: 4
- ENST 387 Economics for Natural Resources and the Environment Units: 4
- ENST 495 Senior Seminar in Environmental Studies Units: 4

Social Science Core Experience:

- IR 323 Politics of Global Environment Units: 4
- POSC 270 Introduction to Environmental Law and Politics Units: 4

Concentrations (23-24 units)

Concentration in Climate and Environment

- MATH 126g Calculus II Units: 4
- PHYS 151Lg Fundamentals of Physics I: Mechanics and Thermodynamics Units: 4

Electives

Four of the following (a minimum of two classes must have the ENST prefix):

- ENST 335 Science, Health and the Environment Units: 4
- ENST 344 Environmental Ethics Units: 4
- ENST 442 Global Climate Change: Policy and Society Units: 4
- ENST 445 Earth Climate: Past, Present, and Future Units: 4 or
- GEOL 412 Oceans, Climate, and the Environment Units: 4
- ENST 483 Tropical Coastal Zone Sustainability Units: 4
- ENST 490x Directed Research Units: 1, 2, 3, 4, 5, 6, 7, 8 or
- ENST 492 Directed Environmental Policy and Science Internship Units: 2, 4
- GEOL 470L Environmental Hydrogeology Units: 4
- GEOL 425L Data Analysis in the Earth and Environmental Sciences Units: 4
- GEOL 450L Geosystems Units: 4
- HP 448 Global Environmental Changes and Health Units: 4
- PPD 427L Geographic Information Systems and Planning Applications Units: 4 or
- SSCI 301L Maps and Spatial Reasoning Units: 4

Concentration in Environmental Policy

Four of the following (a minimum of three classes must have the ENST prefix):

- ECON 203g Principles of Microeconomics Units: 4 or
- ECON 205g Principles of Macroeconomics Units: 4
- ENST 344 Environmental Ethics Units: 4
- ENST 370 Marine and Coastal Environmental Policy Units: 4
- ENST 432 Environment and Governance: International and National Policy Units: 4
- ENST 442 Global Climate Change: Policy and Society Units: 4
- ENST 490x Directed Research Units: 1, 2, 3, 4, 5, 6, 7, 8 or
- ENST 492 Directed Environmental Policy and Science Internship Units: 2, 4
- HP 446 Poisons, People, and Politics Units: 4
- MATH 208x Elementary Probability and Statistics Units: 4 or
- PHIL 258g Probability and Rational Choice Units: 4
- MDES 401 Environment and Politics in the Middle East Units: 4
- POSC 418 Environmental Sustainability and Public Participation Units: 4
- POSC 436 Environmental Politics Units: 4
- PPD 315 Analytic Foundations for Public Policy Units: 4
- PPD 410 Comparative Urban Development Units: 4
- PPD 420 Environmental Impact Assessment Units: 4
- PPD 427L Geographic Information Systems and Planning Applications Units: 4 or
- SSCI 301L Maps and Spatial Reasoning Units: 4

Concentration in Oceans and People

Six of the following (a minimum of three classes must have the ENST prefix):

- BISC 315L Introduction to Ecology Units: 4
- BISC 431L Aquatic Microbiology Units: 4 or
- BISC 457L Methods in Marine Biology and Biological Oceanography Units: 4
- BISC 469L Marine Biology Units: 4 or
- BISC 473L Biological Oceanography Units: 4
- ENST 310 Sustainable Fisheries Management Units: 4
- ENST 370 Marine and Coastal Environmental Policy Units: 4
- ENST 483 Tropical Coastal Zone Sustainability Units: 4
- ENST 490x Directed Research Units: 1, 2, 3, 4, 5, 6, 7, 8 or
- ENST 492 Directed Environmental Policy and Science Internship Units: 2, 4
- GEOL 412 Oceans, Climate, and the Environment Units: 4
- GEOL 450L Geosystems Units: 4
- GEOL 470L Environmental Hydrogeology Units: 4
- PPD 427L Geographic Information Systems and Planning Applications Units: 4 or
- SSCI 301L Maps and Spatial Reasoning Units: 4

Concentration in Sustainability and Society

Six of the following (a minimum of three classes must have the ENST prefix):

- ANTH 302 Humans and Ancient Environments Units: 4
- ARCH 447 Ecological Factors in Design Units: 3
- ENST 310 Sustainable Fisheries Management Units: 4
- ENST 344 Environmental Ethics Units: 4
- ENST 432 Environment and Governance: International and National Policy Units: 4

- ENST 445 Earth Climate: Past, Present, and Future Units: 4
- ENST 490x Directed Research Units: 1, 2, 3, 4, 5, 6, 7, 8 or
- ENST 492 Directed Environmental Policy and Science Internship Units: 2, 4
- GEOL 425L Data Analysis in the Earth and Environmental Sciences Units: 4
- MDES 401 Environment and Politics in the Middle East Units: 4

- PPD 427L Geographic Information Systems and Planning Applications Units: 4 or
- SSCI 301L Maps and Spatial Reasoning Units: 4

Minimum of 71 units required

Minor

Environmental Studies Minor

Required Core Courses

- ENST 100g Introduction to Environmental Studies Units: 4
- ENST 320a Water and Soil Sustainability; Energy and Air Sustainability Units: 4
- ENST 320b Water and Soil Sustainability; Energy and Air Sustainability Units: 4

Two Elective Social Sciences Courses Chosen From:

- ENST 370 Marine and Coastal Environmental Policy Units: 4
- ENST 387 Economics for Natural Resources and the Environment Units: 4
- IR 323 Politics of Global Environment Units: 4
- MOR 466 Business and Environmental Sustainability Units: 4

One Elective Course Chosen From:

- BISC 103Lgx General Biology for the Environment and Life Units: 4
- CHEM 103Lgx General Chemistry for the Environment and Life Units: 4
- GEOL 160Lg Introduction to Geosystems Units: 4 *

Total units: 24

*ENST 100 *is a corequisite for* GEOL 160Lg.

Master's Degree

Environmental Risk Analysis (MS)

The focus of the MS, Environmental Risk Analysis degree is on advanced training for students with an existing science background. Students will enter the MS program with a BS degree in a core natural science field or in engineering, environmental science and certain fields of geography. Students take a core curriculum in science, engineering and finance, which is supplemented by important tools courses in risk assessment, statistics and computer modeling. Students learn about the basics of environmental science in a two-semester combination of courses and seminars (ENST 501, ENST 502, ENST 503, ENST 504). An advanced environmental science seminar (ENST 505a, ENST 505b) is offered in a two-semester sequence and ties together science, technology and finance with risk assessment and policy. The first semester of the course is devoted to analyzing case studies taken from business, industry and government. During the second semester students work on a project that employs the tools they have acquired in linking science, policy, technology and finance.

A master's thesis is not required for the MS degree. The MS degree in environmental risk analysis will give students the quantitative skills needed to understand and assess environmental risks and to use that information in business, industry, government and society.

Required Courses

A minimum of 48 units is required.

Environmental Risk Analysis

- ENST 530 Environmental Risk Analysis Units: 4

Environmental Science

- ENST 501 Environmental Science I Units: 2 *
- ENST 502 Environmental Science Seminar I Units: 1
- ENST 503 Environmental Science II Units: 2
- ENST 504 Environmental Science Seminar II Units: 1
- ENST 505a Advanced Environmental Science Seminar Units: 2
- ENST 505b Advanced Environmental Science Seminar Units: 2

Note:

*ENST 502 *and* ENST 504 *are corequisites for* ENST 501 *and* ENST 503*, respectively, and* ENST 501 *is a prerequisite for* ENST 503.

Natural Science

One graduate-level science course from outside undergraduate major and two graduate-level science courses

Finance

- GSBA 510 Accounting Concepts and Financial Reporting Units: 1.5, 2, 3

- GSBA 543 Managerial Perspectives Units: 3 or
- MOR 569 Negotiation and Deal-Making Units: 3

- GSBA 548 Corporate Finance Units: 2, 3

Technical Skills

- ENST 510 Statistics for Environmental Analysis Units: 4
- One modeling course
- Two technology/engineering courses

Additional Requirements

Admission Requirements

Students who wish to enter the Master of Science program in environmental risk analysis are expected to have a GPA of at least 3.0 (A = 4.0). Students with a baccalaureate degree in the natural sciences, mathematics, environmental science, geography and engineering will be admitted into the program. It is recommended that students have completed an introductory human environment, social ecology or environmental studies course in the social sciences as well as a course in economics and/or environmental policy. The director of the Environmental Studies Program will consider relevant course work and work experience as a possible substitute for the required and recommended course work.

Selection Criteria

Selection for graduate study is based on letters of reference, the student's previous academic record, the Graduate Record Examinations and a statement of purpose of graduate study.

Application Procedure

Applicants should contact the Environmental Studies Program office for an admission package. All applicants should return their applications by March 1 for full consideration. The following components of the application are required: (1) a completed USC Application for Admission to Graduate Studies; (2) official transcripts of all undergraduate and graduate course work taken to date; (3) the results of the General Test of the GRE or notification of when it will be taken and that a request has been made to send the results to USC; and (4) at least three letters of recommendation from persons directly familiar with the student's academic work and potential for successful graduate study.

Advisement

Advisement for the graduate program in environmental studies is viewed as an ongoing process. Before entering graduate

school and during the first months of graduate school, each student should work with the director of the Environmental Studies Program on devising a plan for completing his or her course work.

Degree Requirements

The master's degree in environmental risk analysis is under the jurisdiction of the Graduate School. Refer to the Requirements for Graduation section and the Graduate School section of this catalogue for general regulations. All courses applied toward the degree must be courses accepted by the Graduate School.

Environmental Studies (MA)

The MA in Environmental Studies program's mission is to provide an interdisciplinary perspective on environmental issues and problem solving. Students have access to faculty expertise in the natural sciences, engineering, social and behavioral sciences, business and economics. The program is designed to provide advanced training and skills important for professionals in the environmental science and policy fields.

Core Courses (16 Units):

- ENST 500 Interdisciplinary Approaches to Environmental Studies Units: 4
- ENST 520 Environmental Law and Policy Units: 4
- ENST 530 Environmental Risk Analysis Units: 4
- ENST 540 California Coastal Zone Science and Policy Units: 4

Skills and Methods Courses (8 units):

Choose one methods course from below:

- ENST 510 Statistics for Environmental Analysis Units: 4
- GEOL 425L Data Analysis in the Earth and Environmental Sciences Units: 4
- PPD 558 Multivariate Statistical Analysis Units: 4
- ANTH 562 The Practice of Ethnography Units: 4

Choose one skills course from below:

- DSCI 510 Principles of Programming for Data Science Units: 4
- PPD 534 Data, Evidence, and Communication of the Public Good Units: 4
- SSCI 581 Concepts for Spatial Thinking Units: 4
- SSCI 576 Remote Sensing Applications and Emerging Technologies Units: 4
- SSCI 588 Remote Sensing for GIS Units: 4

Electives (6-8 units):

Advanced 500-level courses selected in consultation with an adviser.

French and Italian

The Department of French and Italian offers majors and minors in French and in Italian. The study of French or Italian involves the mastery of the languages and their literary and cultural expressions in fiction and non-fiction, dramatic, cinematic and poetic texts, as well as the study of social and political institutions in their relationship to cultural production.

The department offers a variety of classes in French and Italian, as well as some courses with readings and discussion in English to satisfy diverse needs, and courses that count toward GE credit, including GE-A, B and G. Topics range broadly from the study of a single author or literary genre to examining current event issues such as immigration, racism and human rights through cinema and new media, gender and postcolonial studies, and literary criticism. New curricular offerings emphasize specialties in business, law, the environment, urban affairs, and medical and health issues.

Courses are kept small to allow for maximum interaction between students and professors. Students in both French and Italian work closely with their academic advisers as well as with the director of Undergraduate Studies to develop an appropriate course of study. This often involves study abroad. The department offers a number of programs to this end: Spring Maymesters in Rome as well as a number of Francophone countries, summer programs in Dijon, France and Rome, Italy, and semester- or year-long programs in Paris, Milan, Florence or Rome.

Undergraduate Degrees

Advisement

All French and Italian department majors should consult with the department student adviser and with our faculty adviser for French and Italian. Students should seek an appointment early in each semester so that an advisement file may be established for each student.

Sequence

A placement test is required of all students with prior knowledge of French or Italian.

Honors Program - French

The BA in French with Honors is available to students who have an overall GPA of 3.0 and a GPA of at least 3.5 in courses counted for major credit. To complete the honors program the student must complete three 400-level courses and write an honors thesis of 25–30 pages in French in one of the 400-level courses. The topic of the thesis must be agreed upon with the instructor.

French Honors Society: Pi Delta Phi

Qualifications

Undergraduate students must have completed one semester of upper-division French with a minimum GPA of 3.0 in French and overall. Graduate students must be candidates for advanced degrees in French.

Honors Program - Italian

The BA in Italian with Honors is available to students who have an overall GPA of 3.0 and a GPA of at least 3.5 in courses counted for major credit. To complete the honors program the student must complete three 400-level courses and write an honors thesis of

25–30 pages in Italian in one of the 400-level courses. The topic of the thesis must be agreed upon with the instructor.

Italian Honors Society: Gamma Kappa Alpha

Qualifications

Undergraduate students must have completed one semester of upper-division Italian with a minimum GPA of 3.0 in Italian and overall.

Graduate Programs

The MA and PhD degrees in Comparative Studies in Literature and Culture (French and Francophone Studies) are offered through the Comparative Studies in Literature and Culture program.

Bachelor's Degree

French (BA)

For the lower division, FREN 250 French IV is required. The upper-division requirements include two core courses plus an additional five courses to be selected in consultation with the department adviser (no more than two of which may be in English). Of the additional five courses, at least two must be at the 400 level.

Lower Division

- FREN 250 French IV Units: 4

Upper Division (7 Courses)

Required core courses:

- FREN 300 French Grammar and Composition Units: 4
- FREN 330 Critical Writing in French Units: 4

Suggested courses to fulfill requirement of five upper-division French courses, two of which must be 400-level courses:

- FREN 305 Global Women's Narratives Units: 2
- FREN 307g Public Memory and the Ghosts of History Units: 4
- FREN 309 Voices of Change: Writers, Filmmakers and Artists of Contemporary Senegal Units: 4
- FREN 310 Media French Units: 4
- FREN 315 Inside the Courts: the French Legal Language and Culture Units: 4
- FREN 318 Global Cyphers: Hip Hop Circles Around the World Units: 4
- FREN 320g The French New Wave and its Legacy Units: 4
- FREN 340g Italian and French Cinema and Society Units: 4
- FREN 347g Race, Gender and Power in Francophone Literature Units: 4
- FREN 351 Introduction to Research in French and Francophone Cultures Units: 4
- FREN 357 Popular Music in France - Culture, Politics, Protest Units: 4
- FREN 360 Business and Technical French Units: 4
- FREN 370gm Equality and Difference around the Enlightenment Units: 4
- FREN 373g Remembering Loss, Writing Memory Units: 4
- FREN 375gmw Global Narratives of Illness and Disability Units: 4
- FREN 382 Paris Avant-Gardes Units: 4 (Paris semester only)
- FREN 383 French Women Writers Units: 4
- FREN 392 Seminar in Literary and Cultural Studies Units: 4, max 8
- FREN 393 Seminar in French Thought and Theory Units: 4
- FREN 401 Studies in Early Modernity Units: 4 , max 8
- FREN 402 Studies in Modernity Units: 4 , max 8
- FREN 403 Studies in Colonialism and Postcolonialism Units: 4 , max 8
- FREN 404 Studies in an Author Units: 4
- FREN 410 Actualités Françaises Units: 4 (Paris semester only)
- FREN 432 French Theatre Units: 4 (Paris semester only)
- FREN 445 Studies in Gender, Feminism and Sexuality Units: 4
- FREN 446 Contemporary French Thought Units: 4 , max 8
- FREN 448m France and Islam Units: 4
- FREN 449 Studies in French Civilization Units: 4 (Paris semester only)
- FREN 464 Colloquium: French Civilization Units: 4 , max 8
- FREN 490x Directed Research Units: 1, 2, 3, 4, 5, 6, 7, 8 , max 12
- FREN 499 Special Topics Units: 2, 3, 4, 5, 6, 7, 8 , max 8

Honors Program

The BA in French with Honors is available to students who have an overall GPA of 3.0 and a GPA of at least 3.5 in courses counted for major credit. To complete the honors program the student must complete three 400-level courses and write an honors thesis of 25–30 pages in French in one of the 400-level courses. The topic of the thesis must be agreed upon with the instructor.

Italian (BA)

The upper-division requirements include one core course plus an additional five courses to be selected in consultation with the department adviser (no more than three of which may be in English). Of the additional five courses, at least two must be at the 400 level.

Required Courses — Lower Division

Some or all of these courses may be waived by examination.

- ITAL 120 Italian I Units: 4
- ITAL 150 Italian II Units: 4
- ITAL 220 Italian III Units: 4
- ITAL 224 Constructing Today's Italy Through the Lens of the Media Units: 4

Upper Division (6 Courses)

No more than *three* courses conducted in English may be counted toward the major.

Core course:

- ITAL 320 Critical Writing in Italian Units: 4

Five upper-division Italian courses to be chosen from the following:

- ITAL 340g Italian and French Cinema and Society Units: 4
- ITAL 345 Contemporary Italy Units: 4 (in English)
- ITAL 350g Gender and Sexuality in Renaissance Italy Units: 4 (in English)
- ITAL 352 The Holocaust in Italian Fiction and Film Units: 4
- ITAL 360g Italian Cinema Units: 4
- ITAL 380 Italian Women Writers Units: 4
- ITAL 381 Storytelling in the Italian Tradition Units: 4
- ITAL 382g Dante Units: 4
- ITAL 392 Seminar in Literary and Cultural Studies Units: 4
- ITAL 393 Seminar in Italian Thought Units: 4
- ITAL 401 Studies in Early Modernity Units: 4
- ITAL 402 Studies in Modernity Units: 4
- ITAL 403 Studies in Colonialism and Postcolonialism Units: 4
- ITAL 440 Futurism and Fascism in Italy Units: 4
- ITAL 461 Italian Theatre Units: 4
- ITAL 490x Directed Research Units: 1, 2, 3, 4, 5, 6, 7, 8
- ITAL 499 Special Topics Units: 2, 3, 4 , max 8

Honors Program

The BA in Italian with Honors is available to students who have an overall GPA of 3.0 and a GPA of at least 3.5 in courses counted for major credit. To complete the honors program the student must complete three 400-level courses and write an honors thesis of 25–30 pages in Italian in one of the 400-level courses. The topic of the thesis must be agreed upon with the instructor.

Minor

French Minor

For the lower division, FREN 250 French IV is required. The upper-division requirements include two core courses plus an

additional three courses to be selected in consultation with the department adviser (no more than one of which may be in English). FREN 310 and FREN 360 may not both be taken for credit toward the minor in French.

Lower Division

- FREN 250 French IV Units: 4

Upper Division (5 Courses)

Required core courses:

- FREN 300 French Grammar and Composition Units: 4
- FREN 330 Critical Writing in French Units: 4

Suggested courses to fulfill the requirement of three upper-division French courses:

- FREN 305 Global Women's Narratives Units: 2
- FREN 307g Public Memory and the Ghosts of History Units: 4
- FREN 309 Voices of Change: Writers, Filmmakers and Artists of Contemporary Senegal Units: 4
- FREN 310 Media French Units: 4
- FREN 315 Inside the Courts: the French Legal Language and Culture Units: 4
- FREN 318 Global Cyphers: Hip Hop Circles Around the World Units: 4
- FREN 320g The French New Wave and its Legacy Units: 4
- FREN 340g Italian and French Cinema and Society Units: 4
- FREN 347g Race, Gender and Power in Francophone Literature Units: 4
- FREN 351 Introduction to Research in French and Francophone Cultures Units: 4
- FREN 357 Popular Music in France - Culture, Politics, Protest Units: 4
- FREN 360 Business and Technical French Units: 4
- FREN 370gm Equality and Difference around the Enlightenment Units: 4
- FREN 373g Remembering Loss, Writing Memory Units: 4
- FREN 375gmw Global Narratives of Illness and Disability Units: 4
- FREN 382 Paris Avant-Gardes Units: 4 (Paris semester only)
- FREN 383 French Women Writers Units: 4
- FREN 392 Seminar in Literary and Cultural Studies Units: 4, max 8
- FREN 393 Seminar in French Thought and Theory Units: 4
- FREN 401 Studies in Early Modernity Units: 4 , max 8
- FREN 402 Studies in Modernity Units: 4 , max 8
- FREN 403 Studies in Colonialism and Postcolonialism Units: 4 , max 8
- FREN 404 Studies in an Author Units: 4
- FREN 410 Actualités Françaises Units: 4 (Paris semester only)
- FREN 432 French Theatre Units: 4 (Paris semester only)
- FREN 445 Studies in Gender, Feminism and Sexuality Units: 4
- FREN 446 Contemporary French Thought Units: 4
- FREN 448m France and Islam Units: 4
- FREN 449 Studies in French Civilization Units: 4 (Paris semester only)
- FREN 464 Colloquium: French Civilization Units: 4 , max 8
- FREN 490x Directed Research Units: 1, 2, 3, 4, 5, 6, 7, 8 , max 12
- FREN 499 Special Topics Units: 2, 3, 4, 5, 6, 7, 8 , max 8

Note:

*FREN 310 *and* FREN 360 *cannot both be taken for credit toward the minor in French.*

Italian Minor

The upper-division requirements include one core course plus an additional three courses to be selected in consultation with the department adviser (no more than two of which may be in English). Of the additional four courses, at least one must be at the 400 level.

Lower Division

Some or all of these classes may be waived by examination.

- ITAL 120 Italian I Units: 4
- ITAL 150 Italian II Units: 4
- ITAL 220 Italian III Units: 4
- ITAL 224 Constructing Today's Italy Through the Lens of the Media Units: 4

Upper Division (4 Courses)

Required core course:

- ITAL 320 Critical Writing in Italian Units: 4

Three upper-division Italian courses to be chosen from the following and to include at least one 400-level course:

No more than two courses conducted in English may be counted toward the minor.

- ITAL 340g Italian and French Cinema and Society Units: 4
- ITAL 345 Contemporary Italy Units: 4 (in English)
- ITAL 350g Gender and Sexuality in Renaissance Italy Units: 4 (in English)
- ITAL 352 The Holocaust in Italian Fiction and Film Units: 4
- ITAL 360g Italian Cinema Units: 4
- ITAL 380 Italian Women Writers Units: 4
- ITAL 381 Storytelling in the Italian Tradition Units: 4
- ITAL 382g Dante Units: 4
- ITAL 392 Seminar in Literary and Cultural Studies Units: 4
- ITAL 393 Seminar in Italian Thought Units: 4
- ITAL 402 Studies in Modernity Units: 4
- ITAL 403 Studies in Colonialism and Postcolonialism Units: 4
- ITAL 440 Futurism and Fascism in Italy Units: 4
- ITAL 461 Italian Theatre Units: 4
- ITAL 490x Directed Research Units: 1, 2, 3, 4, 5, 6, 7, 8
- ITAL 499 Special Topics Units: 2, 3, 4 , max 8

Freshman Seminars

Grace Ford Salvatori Hall, Suite 320
(213) 740-2961
dornsife.usc.edu/fsem
Director: Richard Fliegel, PhD

Freshman Seminars introduce freshmen to the larger academic world they are now entering. These small group seminars address topics of current interest in contemporary research and scholarship.

Freshmen earn 2 units of baccalaureate credit through participation in these weekly seminars. Active exploration of the life of the mind is emphasized through a variety of classroom activities and assignments.

To encourage the relaxed interchange of information and ideas, most seminars are graded credit/no credit. Each seminar is limited in enrollment to 18 freshmen.

Freshman Seminars encourage the natural development of the mentoring relationship between faculty and students. An early start on building these connections enhances the opportunities for intellectual growth throughout the student's years at USC.

Freshman Seminars are offered for the fall and spring semesters in a variety of subjects. Individual topics are indicated by parenthetical titles in the *Schedule of Classes* (usc.edu/soc) under the FSEM designation or on the department's website (usc.edu/fsem).

For further information, please contact Richard Fliegel, PhD, (213) 740-2961, email: fliegel@usc.edu, or Marsha Chavarria-Winbush, (213) 740-2961, email: chavarri@usc.edu, or Maria Valasquez, (213)-740-2961, email: mvelasqu@usc.edu.

Gender and Sexuality Studies

The Gender and Sexuality Studies major is designed for students drawn to the interdisciplinary study of gender and sexuality. In exploring how gender and sexuality have operated across time and cultures, students will engage with the approaches and methodologies of established disciplines: sociology, literature, history, political theory, religion; as well as interdisciplinary fields like queer studies and ethnic studies. Our curriculum analyzes how gender and sexuality operate in politics, popular culture, the workplace, health, science, sports, intimate life and the very production of knowledge itself. Our classes emphasize that gender and sexuality are not stand-alone categories but rather take shape through their intersection with outer relations of power, including race and ethnicity, religion, class and nationality. Majoring in Gender and Sexuality Studies prepares students for graduate school in the social sciences and the humanities as well as in law, business and education. In addition, the major and each of our several minors prepare students for work in governmental and non-governmental organizations, communications and the media, arts and public service.

Undergraduate Degrees

Internship

A special feature of the undergraduate program is the internship, a required class for majors in which students gain valuable job skills and professional connections. Students have chosen internships related to gender and sexuality at health clinic, Hollywood studios, law offices, and the ONE Archives, the world's largest LGBTQ archive. The major also includes a capstone class, which offers students the opportunity to study intensively with a professor in her or his current area of research. Students should consult with the student services adviser in Gender and Sexuality Studies the semester before taking the internship class for assistance with placement. There is also a minor in gender and sexuality studies.

Minor in Gender and Social Justice

The minor in Gender and Social Justice is tailored for students interested in careers in the area of social policy. The minor is unique in its focus on the ways in which large-scale social and economic processes such as neoliberalism, globalization and economic precarity are connected and gendered. Topics include gender and violence; human trafficking; migration; reproductive rights; global human rights in relation to sexual orientation and gender identity; the prison state; prostitution and sex work. Students will examine the complexities of translating feminist theorizing into social policy.

Minor in LGBTQ Studies

The interdisciplinary minor in LGBTQ Studies establishes sexuality as a critical category of analysis for humanists and social scientists. The minor enables students to explore the shifting social organization and cultural meanings of same-sex sexuality and gender identification.

Graduate Degrees

Gender and Sexuality Studies also offers a graduate certificate, a credential that is increasingly necessary for tenure-track positions in gender and sexuality departments and in disciplines searching in the area of gender and sexuality. We encourage graduate students to participate in conferences and to organize campus lectures.

Bachelor's Degree

Gender and Sexuality Studies (BA)

The Department of Gender and Sexuality Studies offers students the opportunity to examine the forces behind the cultural and historical production of gender, including their relationship to other factors including race, class, ability, nationalism and colonialism. The department aims for its students to develop competencies in critical thinking; research skills; community-engaged creativity and collaboration; feminist knowledge production; intersectionality; queer and transgender theory; justice, equality, and power; transnationalism; and decoloniality. The Gender and Sexuality Studies curriculum analyzes how gender and sexuality operate in politics, popular culture, the professional sphere, intimate life, health, technology, science, sports and the very production of knowledge itself. With this rigorous understanding of the shifting terrain of contemporary power relations, graduates will be able to identify, resist and transform oppressive systems in their personal and professional lives. The interdisciplinary major in Gender and Sexuality Studies will prepare students to enter graduate programs in the humanities and social sciences and in professional schools including law, business, education, and health care. In addition, the curriculum equips students for careers in industry, including the media, arts, communication, governmental and non-governmental organizations and public service.

The major in Gender and Sexuality Studies requires completion of 40 undergraduate units (usually ten 4-unit courses).

Lower Division

For the lower division, two of the following courses may be selected as the requirement:

- SWMS 210gmw Social Analysis of Gender Units: 4
- SWMS 212gp Introduction to Gender and Sexuality: American Perspectives Units: 4
- SWMS 215gw Introduction to Gender and Sexuality: International Perspectives Units: 4
- SWMS 219gp Introduction to Feminist Theory Units: 4 or
- SWMS 221g Introduction to Queer Theory Units: 4

Upper Division

Thirty-two units of upper-division SWMS courses are required. Of these, students are required to complete SWMS 308, SWMS 311, SWMS 392 and SWMS 410.

- SWMS 308 Advanced Gender Theory Units: 4
- SWMS 311 Gender and Sexuality Studies: Internship Units: 2, 4, 8
  (4 units required)
- SWMS 392 Junior Seminar in Gender and Sexuality Studies Units: 4
- SWMS 410 Senior Seminar in Gender and Sexuality Studies Units: 4

Honors Program Requirements

The Department of Gender and Sexuality Studies offers a two-semester honors program, in which qualified students spend their first semester in an honors track in an upper-division seminar, SWMS 410 Senior Seminar in Gender and Sexuality Studies. During the second semester, all honors students are required to take SWMS 492 Gender and Sexuality Studies: Honors Thesis, in which each completes a thesis project on a topic of his or her choosing under faculty direction. Contact the departmental honors director for further information. To graduate with honors, department majors must have a minimum GPA of 3.5 in their major course work.

Minor

Gender and Sexuality Studies Minor

The Department of Gender and Sexuality Studies offers a minor for students specializing in other disciplines who would like a substantive introduction to the way gender shapes individuals and institutions, as well as to the research methods and topics specific to the field. Twenty units of course work are required for completion of the minor in Gender and Sexuality Studies, including one of the following lower-division courses: SWMS 210gmw, SWMS 212gp, SWMS 215gw, SWMS 219gp, or SWMS 221g. Four additional upper-division courses are needed, including the following two required courses: SWMS 392 and SWMS 410. The remaining two upper-division courses may be taken from a list of department-approved SWMS courses, which includes many courses that are cross-listed.

Lower Division (4 units)

- SWMS 210gmw Social Analysis of Gender Units: 4
- SWMS 212gp Introduction to Gender and Sexuality: American Perspectives Units: 4
- SWMS 215gw Introduction to Gender and Sexuality: International Perspectives Units: 4
- SWMS 219gp Introduction to Feminist Theory Units: 4
- SWMS 221g Introduction to Queer Theory Units: 4

Upper Division (16 units)

Four additional upper-division courses are needed, including the following two required courses: SWMS 392 and SWMS 410. The remaining two upper-division courses may be taken from a list of department-approved SWMS courses, which includes many courses that are cross-listed.

- SWMS 392 Junior Seminar in Gender and Sexuality Studies Units: 4
- SWMS 410 Senior Seminar in Gender and Sexuality Studies Units: 4

Gender and Social Justice Minor

The minor in gender and social justice provides students with the intellectual foundation and practical skills necessary to tackle inequality and injustice as they relate to gender and sexuality in today's increasingly global world. This minor prepares students for employment in nonprofit organizations, politics, government agencies, cultural reporting and socially conscious niches within the entertainment industry.

Twenty units of course work are required to complete the minor in gender and social justice:

Required Course - Lower Division (4 Units)

Choose one:

- SWMS 210gmw Social Analysis of Gender Units: 4
- SWMS 212gp Introduction to Gender and Sexuality: American Perspectives Units: 4
- SWMS 215gw Introduction to Gender and Sexuality: International Perspectives Units: 4
- SWMS 219gp Introduction to Feminist Theory Units: 4
- SWMS 221g Introduction to Queer Theory Units: 4

Required Course - Upper Division (4 Units)

- SWMS 310 Gender and Social Justice Units: 4

Electives - Upper Division (12 Units)

Choose three:

- IR 316 Gender and Global Issues Units: 4
- POSC 381 Sex, Power, and Politics Units: 4
- SOCI 402 Human Trafficking Units: 4
- SWMS 308 Advanced Gender Theory Units: 4
- SWMS 311 Gender and Sexuality Studies: Internship Units: 2, 4, 8
- SWMS 336 Health, Gender and Ethnicity Units: 4
- SWMS 349 Women and the Law Units: 4
- SWMS 385m Men and Masculinity Units: 4

LGBTQ Studies Minor

The LGBTQ Studies minor focuses on how sexuality and sexual orientation shape gender identities, roles and status in societies past and present. Twenty units of course work are required for completion of the LGBTQ Studies minor: one course selected from SWMS 210gmw, SWMS 212gp, SWMS 215gw, SWMS 221g; required SWMS 306; and 12 units of upper-division electives.

Required Course – Lower Division (4 Units)

Choose one:

- SWMS 210gmw Social Analysis of Gender Units: 4
- SWMS 212gp Introduction to Gender and Sexuality: American Perspectives Units: 4
- SWMS 215gw Introduction to Gender and Sexuality: International Perspectives Units: 4
- SWMS 221g Introduction to Queer Theory Units: 4

Required Course – Upper Division (4 Units)

- SWMS 306 Contemporary Issues in LGBTQ Studies Units: 4

Upper-Division Electives (12 Units)

Choose three:

- ENGL 344gm Sexual/Textual Diversity Units: 4
- ITAL 350g Gender and Sexuality in Renaissance Italy Units: 4
- SWMS 308 Advanced Gender Theory Units: 4
- SWMS 310 Gender and Social Justice Units: 4
- SWMS 311 Gender and Sexuality Studies: Internship Units: 2, 4, 8
- SWMS 355 Transgender Studies Units: 4
- SWMS 358 U.S. Gay and Lesbian History Units: 4
- SWMS 385m Men and Masculinity Units: 4
- SWMS 425 Queer Los Angeles Units: 4

Graduate Certificate

Gender Studies Graduate Certificate

Graduate students intending to concentrate in gender studies must be admitted to a USC graduate or professional program. While meeting the requirements for a departmental graduate degree, they may earn a certificate of competency in gender studies. To earn a certificate, students must take SWMS 560 and other courses from the SWMS list of graduate level courses, 500 and above, to a total of at least 12 units. No more than four units of directed research may be taken and those units must be taken as SWMS 590. Each academic department will determine the number of units completed which may be applied to the student's graduate degree in that department.

In addition to the completion of course requirements, students must include a focus on gender as part of their major department master's thesis, doctoral dissertation or law review note. Or they may take an oral examination on three research papers they have written within the areas of gender studies and on relevant graduate work pertaining to the field of gender studies. The oral exam will be administered by members of the Gender Studies faculty. A Gender Studies faculty member will be assigned as an adviser for each student. Gender Studies faculty will be responsible for judging the adequacy of the gender studies analysis in the student's thesis, dissertation or oral examination.

Faculty

Associate Professor (Teaching): Britta Bothe, PhD
Assistant Professors (Teaching): John W. Arensmeyer, Jr., PhD; Eve Lee, PhD
Emeritus Professor: Gerhard Clausing, PhD

The USC Dornsife College of Letters, Arts and Sciences offers a variety of courses from basic and advanced language classes to literature classes and general and cultural topics.

Minor

German Studies Minor

Required Courses, Lower-Division

- GERM 101 German I Units: 4
- GERM 102 German II Units: 4
- GERM 201 German III, Conversation and Composition Units: 4
- GERM 221 Conversational German IV Units: 4 , or the equivalent by test

Required Courses, Upper-Division

Four courses — 16 units in the two areas of concentration.

One course from the following:

- GERM 310 Business German I Units: 4 *
- GERM 311 Business German II Units: 4 *
- GERM 470 Advanced Composition and Stylistics Units: 4

Note:

**Prerequisite:* GERM 201 *or the equivalent by test.*

Three elective courses from the following:

(only one course each from HIST and IR may be counted toward the minor):

- GERM 320 Composition and Conversation on Contemporary Affairs Units: 4
- GERM 325 Composition and Conversation in Cultural History Units: 4
- GERM 330 Introduction to Literary Studies Units: 4
- GERM 346 German Folklore and Popular Culture Units: 4
- GERM 352 Colloquium on Poetry Units: 4
- GERM 353 Colloquium on Prose Units: 4
- GERM 360g 20th Century German Prose: Texts and Films Units: 4
- GERM 410 Profile of German Literature I Units: 4
- GERM 420 Profile of German Literature II Units: 4
- HIST 323 The Holocaust in 20th Century Europe Units: 4
- HIST 414 Contemporary Europe Units: 4
- HIST 427 The German Question: Nation and Identity in Modern Central Europe Units: 4
- HIST 428 Life and Death in Nazi Germany Units: 4
- IR 369 Post-War European Relations Units: 4
- IR 385 European Foreign Policy and Security Issues Units: 4
- IR 468 European Integration Units: 4
- POSC 463 European Politics Units: 4

Health and Humanity

Health and Humanity is for students interested in fields that inform the health professions and in related questions about health and human experience.

Bachelor's Degree

Health and Humanity (BA)

The Bachelor of Arts in Health and Humanity is a liberal arts degree. It is intended for students interested in fields that inform the health professions and in related questions about health and human experience. Courses in this interdisciplinary major meet many of the requirements for admission to the professional programs in medicine, nursing and other fields, but do not meet all of those entrance requirements. Some electives in this major have prerequisites in mathematics and physics that cannot be counted toward the 36-unit requirement in major electives. Students should consult their academic advisers for precise information on prerequisites and admission requirements for specific health fields.

Summary of Requirements

Core: 24 units; experiential learning: 1–4 units; major electives: one thematic module 16–20 units, other electives 16–20 units; total requirements: 61–64 units including at least 36 upper-division units plus prerequisites for certain electives.

Core (16 Lower-Division, 8 Upper-Division)

- BISC 120Lg General Biology: Organismal Biology and Evolution Units: 4 or
- BISC 121Lg Advanced General Biology: Organismal Biology and Evolution Units: 4
- BISC 220Lg General Biology: Cell Biology and Physiology Units: 4 or
- BISC 221Lg Advanced General Biology: Cell Biology and Physiology Units: 4
- BISC 320Lg Molecular Biology Units: 4
- CHEM 105aLg General Chemistry Units: 4
- CHEM 105bL General Chemistry Units: 4 or
- CHEM 115aLg Advanced General Chemistry Units: 4
- CHEM 115bL Advanced General Chemistry Units: 4
- HBIO 300 Evolution, Ecology, and Culture Units: 4

Experiential Learning (1–4 Units)

Choose one course. A health-related internship is required:

- AMST 365 Leadership in the Community — Internship Units: 4
- GERO 495 Practicum in Geriatric Care Units: 4
- MDA 250 Internship for Liberal Arts: Work and Career — Theory and Practice Units: 1, 2 , max 4
- POSC 395 Directed Governmental and Political Leadership Internship Units: 2, 3, 4, 5, 6, 7, 8 (4 Units Required)
- SWMS 311 Gender and Sexuality Studies: Internship Units: 2, 4, 8

Major Electives

Choose one complete thematic module from the list below (16–20 units). Then choose additional electives from the list of modules to equal nine courses (36 units) in all. No more than two courses may be lower-division (100- or 200-level). At least two courses must come from Group A and two courses from Group B.

Group A

Bioethics Module (16 units)

- ANTH 305 Childhood, Birth and Reproduction Units: 4 or
- POSC 333 Stigma and Society: Physical Disability in America Units: 4 or
- SOCI 475 Medical Sociology Units: 4 or
- GERO 475 Ethical Issues in Geriatric Health Care Units: 4 or
- OT 375 The Narrative Structure of Social Action: Narrative, Healing and Occupation Units: 4

- REL 319 Religious and Ethical Issues in Death and Dying Units: 4 or
- REL 341 Technology, Culture, and Ethics Units: 4 or
- REL 360 Ethical Issues in the New Medical Revolution Units: 4
- REL 460 Senior Seminar: Medical Ethics Units: 4

Health, Gender and Ethnicity Module (16 units)

- ANTH 125g Social Issues in Human Sexuality and Reproduction Units: 4
- ANTH 305 Childhood, Birth and Reproduction Units: 4 or
- HBIO 405 Evolutionary Medicine Units: 4
- PSYC 462m Culture and Mental Health Units: 4
- SWMS 336 Health, Gender and Ethnicity Units: 4

Health and Aging Module (16 units)

- GERO 320g Psychology of Adult Development Units: 4 (Recommended preparation: PSYC 100), or
- GERO 330 Society and Adult Development Units: 4
- GERO 340 Policy, Values, and Power in an Aging Society Units: 4 or
- GERO 437 Social and Psychological Aspects of Death and Dying Units: 2 or 4
- GERO 380m Diversity in Aging Units: 4 or
- GERO 435m Women and Aging: Psychological, Social and Political Implications Units: 4
- GERO 416 Health Issues in Adulthood Units: 4

Health and the Mind Module (20 units)

- PSYC 100Lg Introduction to Psychology Units: 4
- PSYC 320 Principles of Psychobiology Units: 4 or
- PSYC 326 Behavioral Neuroscience Units: 4
- PSYC 336L Developmental Psychology Units: 4
- PSYC 360 Abnormal Psychology Units: 4 or
- PSYC 404L Psychophysiology of Emotion Units: 4
- PSYC 361 Introduction to Clinical Psychology Units: 4 or
- PSYC 462m Culture and Mental Health Units: 4

Global Health Module (20 Units)

- ANTH 101g Body, Mind and Healing: Introduction to Medical Anthropology Units: 4 or
- ANTH 105g Culture, Medicine and Politics Units: 4
- ANTH 305 Childhood, Birth and Reproduction Units: 4 or
- HBIO 405 Evolutionary Medicine Units: 4
- IR 305w Managing New Global Problems Units: 4 or
- IR 382w Order and Disorder in Global Affairs Units: 4
- IR 306 International Organizations Units: 4 or
- IR 371 Global Civil Society: Non-State Actors in World Politics Units: 4
- IR 344 The Global South in World Politics Units: 4

Group B

Biological Sciences Module (20 units)

- BISC 290 Introduction to Biological Research Units: 2, 4 (4 Units Required) (lab assignment required) or
- BISC 490x Directed Research Units: 1, 2, 3, 4, 5, 6, 7, 8 (4 Units Required) (lab assignment required)
- BISC 325 Genetics Units: 4 or
- BISC 330L Biochemistry Units: 4
- CHEM 322aL Organic Chemistry Units: 4
- CHEM 322bL Organic Chemistry Units: 4 or
- CHEM 325aL Organic Chemistry Units: 4
- CHEM 325bL Organic Chemistry Units: 4
- MATH 208x Elementary Probability and Statistics Units: 4

Biochemistry Module (20 units)

- BISC 330L Biochemistry Units: 4
- CHEM 300L Analytical Chemistry Units: 4
- CHEM 322aL Organic Chemistry Units: 4
- CHEM 322bL Organic Chemistry Units: 4 or
- CHEM 325aL Organic Chemistry Units: 4
- CHEM 325bL Organic Chemistry Units: 4
- CHEM 432 Physical Chemistry for the Life Sciences Units: 4 or
- BISC 403 Advanced Molecular Biology Units: 4 or
- BISC 435 Advanced Biochemistry Units: 4

Biotechnology Module (20 units)

- BISC 325 Genetics Units: 4
- BISC 330L Biochemistry Units: 4
- BISC 406L Biotechnology Units: 4
- CHEM 322aL Organic Chemistry Units: 4
- CHEM 322bL Organic Chemistry Units: 4 or
- CHEM 325aL Organic Chemistry Units: 4
- CHEM 325bL Organic Chemistry Units: 4

History

The Department of History offers courses in ancient, medieval and modern European history; in both North and Latin American history; in the history of Asia and in world history. Some of the department's courses are chronological, some national or regional and some are thematic, with special strengths in gender, race and ethnicity, popular culture, medicine, and urban history. The faculty is committed to continuous review and revision of the department's curriculum, as student needs and professional emphases shift. Many departmental courses meet general education requirements and various programs for majors and non-majors are available. The department offers an honors program for qualified seniors. Honors programs are individually arranged through consultation with the honors director. Completion of an honors thesis is required. The Department of History offers the BA and PhD in History; the BA in Law, History, and Culture; the BA in History and Social Science Education; the BA in Contemporary Latino and Latin American Studies, the minor in History, the minor in Resistance to Genocide and the minor in the History and Culture of Business.
