The third way to make decisions about taking courses is to classify them according to clusters that emphasize similar issues or themes and then select from each area. For example, a student interested in ideas about family relationships will find them discussed in different contexts in Gifts, Wills, and Trusts; Family Law; and the Children’s Legal Issues Practicum. Trial Advocacy and Pretrial Advocacy are courses that teach practical litigation skills, relating various performance tasks to the underlying skills of legal writing, advocacy, legal counseling, negotiation, and factual analysis. A further example includes courses involving close work with statutes, such as Labor Law, Securities Regulation and Taxation, any of which will provide opportunities to develop important and transferable skills.
Finally, students might think about selection as a way of building a wide substantive expertise in an area of particular interest. For example, the following courses are crucial to one anticipating a substantial wills and estate planning practice: Family Law; Community Property; Taxation; Estate Planning; Real Estate Transactions; and Gifts, Wills and Trusts. This kind of course planning requires some thought and investigation, since a casual examination might omit such courses as Community Property (which may affect one’s legal ability to transfer property by will), and Real Estate Transactions (since various forms of property ownership may dictate a specific will or create planning considerations).

These approaches to course selection describe only some of the ways in which students might make reasoned choices about their academic programs. Formal and informal academic counseling is available from the associate deans and other faculty.
Keck School of Medicine of USC

Departments
• PhD Programs in Biomedical and Biological Sciences (PIBBS)
• Department of Anesthesiology
• Department of Biochemistry and Molecular Medicine
• Caruso Department of Otalaryngology, Head and Neck Surgery
• Department of Integrative Anatomical Sciences
• Department of Family Medicine
• Department of Medical Education
• Department of Molecular Microbiology and Immunology
• USC Mark and Mary Stevens Neuroimaging and Informatics Institute
• Department of Pathology and Laboratory Medicine
• Department of Physiology and Neuroscience
• Department of Population and Public Health Sciences
• Department of Stem Cell Biology and Regenerative Medicine
• Department of Translational Genomics

Founded in 1885, the Keck School of Medicine of USC is part of Keck Medicine of USC, a major center of medical research, education and patient care with more than 1,500 full-time faculty members and a voluntary faculty of more than 2,400. Included on the faculty are national leaders in each of its 26 clinical and basic science departments. Located on the university’s 30.8-acre Health Sciences Campus three miles northeast of downtown Los Angeles, the Keck School is adjacent to the Los Angeles County+USC Medical Center, one of the largest teaching hospitals in the United States.

The Keck School’s faculty, students and residents serve more than one million patients each year through the Los Angeles County+USC Medical Center, the USC Norris Cancer Hospital, the Keck Hospital of USC, Children’s Hospital Los Angeles, USC Verdugo Hills and a network of USC-affiliated hospitals throughout Southern California. More than 1,700 faculty physicians and other clinical providers deliver primary care and care for patients with complex medical needs.

The Eli and Edythe Broad CIRM Center for Regenerative Medicine and Stem Cell Research of USC, the USC Norris Comprehensive Cancer Center, the Zilkha Neurogenetic Institute, the USC Stevens Institute for Neuroimaging and Informatics, the Translational Genomics Institute, the CardioVascular Institute, the Alzheimer’s Therapeutic Research Institute, and the Department of Population and Public Health Science provide state-of-the-art facilities for important scientific discovery. The Clinical and Translational Science Institute provides training and support for physicians and scientists performing clinical, translational and discovery based health and biomedical research. With more than $280 million in total federal research support, the Keck School ranks among the top U.S. medical schools in federal funding.

The Keck School of Medicine of USC is at the forefront of medical education and was among the first medical schools to adopt Introduction to Clinical Medicine courses for first-year students, providing direct experience in patient care from the start.

Administration
Carolyn Metzler, MD, Dean
Thomas A. Buchanan, MD, Vice Dean, Research
Donna D. Elliott, MD, EdD, Vice Dean, Medical Education, Chair Department of Medical Education
Peggy J. Farnham, PhD, Vice Dean for Health and Biomedical Sciences Education
Kathryn Carrico, Vice President for Health Sciences Advancement
Ted Budge, MS, Senior Associate Dean and Chief Operating Officer
Robert Milner, PhD, Senior Associate Dean, Faculty Affairs
Lawrence M. Opas, MD, Senior Associate Dean, Graduate Medical Education

Associate Dean, Admissions: Raquel D. Arias, MD

The Keck School of Medicine of USC Committee on Admissions is responsible for selecting members of the entering class. The committee comprises both faculty and students. The committee reviews candidates whose academic achievement, commitment to service and personal qualities distinguish them from the many thousands of applicants who apply.

The applicant's undergraduate major may be in any subject area from an accredited college or university. Although sound preparation in the basic sciences is essential, a background in the humanities, and depth and breadth of personal experience are also important.

General Admissions Information

The Keck School of Medicine of USC participates in the centralized American Medical College Application Service (AMCAS) and also requires the submission of the Keck School of Medicine supplemental application. Approximately 8,900 applications are received per year and 750 applicants receive interview invitations. Interviews begin in late August and end in early March. Students receive acceptance letters beginning in October.

Requirements

All applicants to the Keck School of Medicine of USC MD degree program must have completed a baccalaureate degree,
or its equivalent, from an accredited college or university prior to matriculation. The school has no specific course requirements. Strong applicants will have distinguished themselves in their chosen field of study and have demonstrated competency in the sciences at the time of their application. The Medical School Admission Requirement (MSAR) guide may be referenced for recommended course work. The Medical College Admissions Test (MCAT) is required, and scores must be from within the previous three years of the date of matriculation.

International applicants must hold a degree considered equivalent to a U.S. bachelor's degree as evaluated by the USC Office of Graduate and International Admissions.

Individuals who have discontinued studies in medical school for academic reasons are not eligible to apply to the Keck School of Medicine of USC.

Medical College Admission Test (MCAT)

The MCAT is required of all applicants. Applicants to the entering class are required to take the MCAT within the previous three years of the date of matriculation and no later than August in the year that the application becomes available. Scores from administrations of the examination taken outside of this time period will not be accepted.

Applications

The Keck School of Medicine of USC participates in the American Medical College Application Service (AMCAS). AMCAS reproduces and distributes an application and standardized academic record to participating medical schools designated by the student. Applications are submitted electronically at students/applying/amcas.

Applications are available after June 1 for the class entering in August of the following year. Applications to USC must be returned to AMCAS by November 1, but earlier application is encouraged.

The Admissions Committee reviews all information submitted on the AMCAS application as well as the school's supplemental application. The nonrefundable supplemental application fee is $100.

Personal Interviews

Personal interviews are a required aspect of the application process. Applicants interview with members of the Admissions Committee.

Notice of Acceptance

Notices of acceptance will be sent to successful candidates beginning in October until the class is filled. Since Keck uses a rolling admissions process, it is highly recommended to submit a completed application early in the cycle. If not chosen for an interview, candidates are usually notified by March of the application year.

Candidates must reply to an offer of admission and agree to the Essential Technical Standards for the completion of the MD Degree within 10 business days of receiving the offer of admission. A letter of withdrawal, via email or post mail, is required if students wish to relinquish their place in the class; release is granted automatically when the letter is received.

MD/PhD Program Admission

The Keck School of Medicine has developed an MD/PhD program designed for individuals who aspire to a career in academic medicine or a leadership role within the biomedical industry. Students are expected to acquire the modern skills that are required for physician competence. Additionally, the MD/PhD program provides an opportunity for the development of research expertise and academic excellence while fulfilling the requirements for a PhD degree.

A joint program between the Keck School of Medicine and the California Institute of Technology (Caltech) was established in fall 1997 for the granting of the MD/PhD degree. PhD studies may be carried out at Caltech or through collaboration between two laboratories at both institutions. The MD will be awarded from the Keck School of Medicine and the PhD will be awarded from Caltech.

The MD/PhD executive committee is responsible for selecting students for the MD/PhD program. Members of the committee review the qualifications of each applicant, including MCAT scores, academic performance, letters of recommendation and research experience. The committee interviews candidates and then selects students for admission to the program. All applicants to the joint program interview at Keck School of Medicine and the California Institute of Technology.

General Information

The MD/PhD program enrolls a maximum of eight students annually. Students have the option of doing the PhD at USC or Caltech. Each student accepted to the program must also be accepted to the Keck School of Medicine. All positions are fully funded.

Requirements

Admission requirements for the MD/PhD program are those of one of the graduate programs at Caltech, the Keck School of Medicine and USC. Students select the program of their choice during the first two years of the medical curriculum; descriptions of these programs are available from each department or program and Caltech.

Graduate Record Examinations (GRE)

To assist the MD/PhD Committee in its evaluation of candidates, applicants to the MD/PhD program are encouraged to provide recent GRE scores. The committee does not, however, require GRE scores in order to consider an application.

Applications

Applicants to the Keck School of Medicine are advised to request information about the MD/PhD program at the time of application. In addition to completing the medical school application, applicants should indicate their interest in the MD/PhD program.

Students who are currently pursuing the medical curriculum at the Keck School of Medicine may apply to the MD/PhD program by contacting: MD/PhD Program, Keck School of Medicine, 1975 Zonal Avenue (KAM 108), Los Angeles, CA 90089-9020; (323) 442-2965, FAX: (323) 442-0386.

Personal Interviews

All applicants are screened by members of the MD/PhD Executive Committee; candidates who meet the basic criteria of the program are then invited to be interviewed by members of the committee and faculty at USC and Caltech.

Notice of Acceptance

Students selected for acceptance to the MD/PhD program are notified between November and May of each year. Students begin their programs in the fall semester and register for courses in the medical curriculum at that time.

Further information about the MD/PhD program at the Keck School of Medicine may be obtained by contacting: MD/PhD Program, Keck School of Medicine, 1975 Zonal Avenue, Los Angeles, CA 90089-9020; (323) 442-2965, FAX: (323) 442-0386; email: mdphdpgm@usc.edu.

Graduate Degree Programs Admissions

Admission standards for these curricula are established jointly by the Keck School of Medicine, its participating programs and the Graduate School.

Applicants to graduate degree programs offered at the Keck School of Medicine must meet the general criteria for acceptance to the Graduate School. Each participating program may have additional requirements for application. The programmatic requirements for the Keck School of Medicine’s graduate programs are detailed in the Graduate Degree Programs section.

Further information about graduate degree programs at the Keck School of Medicine may be obtained by contacting: Office
of the Associate Dean for Graduate Studies, Keck School of Medicine, 1975 Zonal Avenue (KAM 409), Los Angeles, CA 90089-9023; (323) 442-1607, FAX: (323) 442-1199.

**Tuition and Fees**

The tuition and fees for the Doctor of Medicine (MD) program listed below are estimated for fall semester, 2022. All fees are subject to change without notice by action of the University of Southern California Board of Trustees. The university reserves the right to assess new fees or charges.

Tuition for each semester of the medical school curriculum is due and payable at the beginning of the semester and is not refundable. Registration is not permitted after the third week of instruction. Late payment of tuition is subject to a mandatory late fee. Average budgets for medical students will vary according to their year in the curriculum. The cost of attendance for each year of the MD curriculum can be obtained through the Office of Financial Aid. Tuition and mandatory fees are the same for all years.

**Required Fees Doctor of Medicine Program**

(Estimated)

- **Tuition (one semester)** $34,580
- **Graduate Tuition (per unit)** 2,137
- **Student Programming Fee (graduate)** 40 (per semester)
- **Norman Topping Scholarship Fee** 8 (per semester)
- **Malpractice Insurance** 25 (per academic year)
- **Disability Insurance** 40 (per academic year)

**Other Fees**

See Tuition and Fees.

**Grading and Evaluation**

**Doctor of Medicine Program**

The Keck School of Medicine employs a system of evaluation and grading designed to encourage student self-reliance, to stimulate the student’s independent quest for knowledge and to promote excellence in academic achievement.

For courses of the medical curriculum, the Keck School of Medicine does not award numerical or letter grades. The evaluation process leading to a pass or fail grade is based on performance of the student in relation to announced course criteria. Throughout medical school, students will be evaluated on their fund of knowledge, problem-solving ability, professional behavior, relevant personality traits and clinical and interpersonal skills. Additional information on grading and evaluation is contained in the handbook provided to every enrolled medical student.

**Master's and PhD Programs**

Grading and evaluation policies for graduate degree programs and for joint MD/PhD degrees are established in conjunction with the Graduate School. In general, courses taken in partial fulfillment of graduate degree requirements receive letter grades that are recorded by the university.

**Bachelor's Degree**

Global Health Studies (BS)

837 Downey Way
Stonier Hall, Suite 101
Los Angeles, CA 90089-1149
(213) 740-1060
Email: bhealthy@usc.edu
hpdp.usc.edu
Director: Heather Wipfli, PhD

The Bachelor of Science in Global Health is a multidisciplinary degree of the Keck School of Medicine's Department of Population and Public Health Sciences. This undergraduate program offers an examination of public health and policy issues in the context of global affairs. Students complete course work from Health Promotion and Disease Prevention Studies and International Relations in addition to requirements from other schools of the university. The program provides students with a strong background in understanding and evaluating global health issues and prepares students to become health professionals with international competencies. This program is an ideal major for students interested in medicine, pharmacy, dentistry, international relations, public health, epidemiology, health psychology and health behavior research.

**Program Requirements**

The Bachelor of Science degree is awarded after students successfully complete 128 units, consisting of 66 units for the major and fulfillment of USC general education requirements including third semester equivalency in a foreign language.

**General Education Requirements**

The university’s general education program provides a coherent, integrated introduction to the breadth of knowledge you will need to consider yourself (and to be considered by other people) a generally well-educated person. This program is effective for all students entering USC in fall 2015 or later, or transfer students beginning college elsewhere at that time and subsequently transferring to USC. It requires eight courses in six Core Literacies, plus two courses in Global Perspectives (which may double-count with courses in the Core Literacies) and two courses in writing. For more information about USC’s general education requirements, see General Education.

**Requirements for the Major (66 units)**

The program is divided into core and elective components. As part of the core research requirements, students must complete a directed research requirement, HP 490, with a specific international research focus.

The core component (42-46 units) is required for all students.

**Core Courses (32 Units)**

- BISC 220Lg General Biology: Cell Biology and Physiology Units: 4 or
- BISC 221Lg Advanced General Biology: Cell Biology and Physiology Units: 4
- CHEM 105aLg General Chemistry Units: 4 or
- CHEM 115aLg Advanced General Chemistry Units: 4
- ECON 203g Principles of Microeconomics Units: 4
- HP 270 Introduction to Global Health Units: 4
- HP 320 Biological and Behavioral Basis of Disease Units: 4
- HP 470 Case Studies in Global Health Units: 4
- IR 308w Economic Globalization Units: 4
- MATH 125g Calculus I Units: 4

**Core Research Courses (10-16 Units)**

- HP 340Lg Health Behavior Statistical Methods Units: 4
- HP 350L Health Behavior Research Methods Units: 4
- HP 490x Directed Research Units: 1, 2, 3, 4, 5, 6, 7, 8 , max 12

**Note:**

Students must choose 24 units of elective course work from the following lists. At least 8 units must be from HP and at least 8 units must be from IR.

**HP Electives (Minimum 8 Units)**

- HP 300 Theoretical Principles of Health Behavior Units: 4
- HP 365gmw Culture, Lifestyle, and Health Units: 4
- HP 370g Introduction to Epidemiology: Methods and Applications Units: 4
- HP 401 Cultural Competence in Medicine Units: 4
- HP 402 Maternal and Child Health Units: 4
- HP 405 Sexually Transmitted Diseases: A Global Public Health Priority Units: 4
Health Promotion and Disease Prevention Studies (BS)

The undergraduate program in Health Promotion and Disease Prevention Studies (HP) provides a well-rounded, professionally focused education leading to the Bachelor of Science degree. The program is concerned with the sociocultural, behavioral, psychological, and biological factors contributing to wellness and disease. It is an ideal major for students interested in medicine, pharmacy, dentistry, public health, epidemiology, health psychology and health behavior research. Areas of study include: global health; cultural diversity in medicine; substance abuse prevention and program planning; nutrition and fitness; health promotion of minority and underserved populations; and general public health issues (e.g., HIV/AIDS, violence, health promotion in the workplace and behavioral medicine).

Program Requirements

The Bachelor of Science degree is awarded after students successfully complete 128 units, consisting of 66 units for the major and fulfillment of USC general education requirements including third semester equivalency in a foreign language.

General Education Requirements

The university's general education program provides a coherent, integrated introduction to the breadth of knowledge you will need to consider yourself (and to be considered by other people) a generally well-educated person. This program is effective for all students entering USC in fall 2015 or later, or transfer students beginning college elsewhere at that time and subsequently transferring to USC. It requires eight courses in six Core Literacies, plus two courses in Global Perspectives (which may double-count with courses in the Core Literacies) and two courses in writing. For more information about USC's general education requirements, see General Education.

Requirements for the Major (66 units)

The program is divided into core and elective components. The following core component (42 units) is required of all students.

Non-HP Courses (20 Units)

- BISC 120Lg General Biology: Organismal Biology and Evolution Units: 4 or
- BISC 121Lg Advanced General Biology: Organismal Biology and Evolution Units: 4 or
- BISC 320Lg Molecular Biology Units: 4 or
- BISC 330L Biochemistry Units: 4
- CHEM 105L General Chemistry Units: 4 or
- CHEM 115L Advanced General Chemistry Units: 4 or
- CHEM 322L Organic Chemistry Units: 4
- GERQ 483 Global Health and Aging Units: 4 or
- PHYS 135L Physics for the Life Sciences Units: 4 or
- PHYS 135b Magnetism Units: 4 or
- PHYS 200 Introduction to Health Promotion and Disease Prevention Units: 4 or
- HP 300 Theoretical Principles of Health Behavior Units: 4 or
- HP 320 Biological and Behavioral Basis of Disease Units: 4 or
- HP 340L Advanced Health Behavior Statistical Methods Units: 4 or
- HP 400 Directed Research Units: 1, 2, 3, 4, 5, 6, 7, 8, max 12

Note:

*MATH 125 allows students who have placed out of MATH 108 to take a higher-level math class; it also satisfies the math requirement for premedical students.

HP Courses (22 Units)

- BISC 120Lg General Biology: Organismal Biology and Evolution Units: 4 or
- BISC 121Lg Advanced General Biology: Organismal Biology and Evolution Units: 4 or

Minor

Addiction Science Minor
Scientific study of the nature, causes, consequences, prevention, intervention and treatment of the broad spectrum of addiction and addiction-related problems.

Additional information:
The minor is 20 units in total (12 units are assigned, and 8 units are required as electives). The USC Institute for Addiction Science supports collaborative research and education that advances science, awareness, prevention, treatment, and policy to rapidly and significantly reduce the societal burden of addictive behaviors. Our mission is motivated by the unfortunate truth that addiction is a wicked problem and leads to an array of recalcitrant epidemics that plague society. Given the interplay of societal, political, psychosocial, and biological influences on addiction, transdisciplinary approaches are needed to reduce the addiction epidemic. Faculty with addiction expertise are members in dozens of academic units across USC. The Institute for Addiction Science integrates and mobilizes USC's intellectual resources while leveraging the diverse and populous backdrop of Los Angeles to yield evidence with local, state, national and global implications. The majority of courses to be utilized for this major have been approved and are in use within their respective schools (these are denoted by their associated course prefix below).

Required Courses
Required Courses (12 units total)
- ADSC 250 Foundations in Addiction Science Units: 4
- HP 410 Issues in Prevention and Cessation of Drug Abuse Units: 4
- RXRS 302 Introduction to Pharmacology and Therapeutics Units: 4
or
RXRS 405 Breaking Brains: The Pharmacology of Addiction Units: 4
or
RXRS 414 Buzzed: Modern Substances of Abuse and Addiction Units: 4

Research Track
Students enrolled in the minor in Addiction Science may elect to complete this minor via the research track. Students interested in the research track will need to complete an online questionnaire housed on a website, which will require them to declare their general research topic and interests at minimum one semester prior to enrolling in Directed Research. This will allow the appropriate faculty member to be assigned as the research supervisor to ensure consistency across the student's research topic.

Additional Required Courses (4 units)
- RXRS 490x Directed Research Units: 1, 2, 3, 4, 5, 6, 7, 8
(4 units over two semesters; 2 units per semester)
or
- HP 490x Directed Research Units: 1, 2, 3, 4, 5, 6, 7, 8
(4 units over two semesters; 2 units per semester)

Electives
(4-8 units) Any of the above courses, OR
- HP 340Lg Health Behavior Statistical Methods Units: 4
or
- PSYC 426 Motivated Behaviors and Addiction Units: 4
or
- SOWK 417 Introduction to Substance Use Disorders and Recovery Units: 4

Cinema-Television for the Health Professions Minor
This minor introduces pre-health students to the theory and techniques of the cinematic arts and to a set of media practices useful for the implementation of health promotion strategies. This minor is designed for students who plan to enter careers or professional programs in medicine after graduation and are interested in working with film and television producers to disseminate accurate health information to the public. It complements major programs such as biological sciences, chemistry, kinesiology, health promotion and disease prevention studies, and environmental studies.

Required Courses (24 Units)
- CTCS 190g Introduction to Cinema Units: 4
- HP 345 Health Issues in Entertainment Media Units: 4

Two of the following:
- HP 370g Introduction to Epidemiology: Methods and Applications Units: 4
- HP 401 Cultural Competence in Medicine Units: 4
- HP 408 Environmental Health in the Community Units: 4
- HP 410 Issues in Prevention and Cessation of Drug Abuse Units: 4
The Keck Minor in Health Care Studies, launched in 2012, is designed for undergraduates who wish to pursue a postgraduate career in health care or health care related fields. Students are exposed to course work and skills that are practical and relevant to the foundation necessary for a future career in health care. The minor brings together course work that explores health care both in the classroom and the clinical settings. Students are given practical hands-on activity and experiences in research laboratories, hospital, simulation lab, cadaver lab and other unique settings not typically offered at an undergraduate level.

The Minor in Health Care Studies will:
1. Provide instruction in domains identified as prerequisite competencies for health professions education.
2. Provide content related to contemporary issues in health care.
3. Provide students with an introduction to clinical care.
4. Demonstrate the importance of scientific research and its applications to clinical practice.

Required Courses (8 Units)
- BISC 220L General Biology: Cell Biology and Physiology Units: 4
- BISC 221L Advanced General Biology: Cell Biology and Physiology Units: 4
- MEDS 225 Introduction to Professionalism and the Practice of Medicine Units: 2

Electives (12 units)
Students must choose a minimum of 12 upper-division units from any of the following lists.

Essential/Contemporary Topics in Health Care
- MEDS 260 Challenges in the Forefront of Biomedical Ethics Units: 2
- MEDS 280 The History of Medicine: a Doctor's Perspective Units: 2
- MEDS 405 Health Care Systems: A Doctor's Perspective Units: 2
- MEDS 455 Integrative Health Care Units: 2

Science and Medicine
- BISC 312x Molecular Biochemistry Units: 4
- CHEM 350g Molecular Principles of Biochemistry Units: 4
- HBIO 301 Human Anatomy Units: 4
- MEDS 305 The Molecular Basis of Disease: A Case-Based Approach Units: 4
- MEDS 315 Human Anatomy, Physiology, and the Technology of Medicine Units: 2
- MEDS 330 Bionics: Solutions to Enable the Disabled Units: 2
- MEDS 335 Human Development: From Stem to Sternum Units: 2
- MEDS 340 The Brain in Health and Disease Units: 4
- MEDS 350 Neurochemistry of Addiction: Drugs, Brain, and Behavior Units: 2

Required Courses (20 Units)
- HP 270 Introduction to Global Health Units: 4
- HP 470 Case Studies in Global Health Units: 4
• MEDS 380 Stem Cells: Fact and Fiction Units: 2
• MEDS 425 Medical Examiner-Coroner: Investigating Death Units: 2

Topics in Clinical Medicine
• MEDS 320 Human Cadaveric Anatomy Units: 4
• MEDS 370 Organ Failure: Non-Communicable Chronic Disease Units: 2
• MEDS 420 Human Development: Birth to Adolescence Units: 2
• MEDS 425 Medical Examiner-Coroner: Investigating Death Units: 2
• MEDS 440 Introduction to Surgical Principles Units: 2
• MEDS 445 Cancer: Biology, Prevention and Therapy from the Bench to the Bedside Units: 4
• MEDS 450 OB/GYN: The Medicine and Surgery of Reproduction Units: 2
• MEDS 460 Emergency Health Care Units: 2
• MEDS 465 Wilderness and Survival Medicine Units: 4
• MEDS 499 Special Topics Units: 1, 2, 3, 4, 5, 6, 7, 8

Biomedical Research
• MEDS 300g Statistical Methods for Biomedical Research Units: 4
• MEDS 360 Bench to Bedside: Application of the Basic Sciences Units: 2
• MEDS 490x Directed Research in Biomedical Science Units: 2, 3, 4, 5, 6, 7, 8

Health Communication Minor
This minor is designed to appeal to students interested in a broad array of interests, including those with a general interest in promoting healthy lifestyle practices through effective communication. These students will be prepared to seek jobs in areas such as the managed care industry, hospitals, wellness programs, broadcast and cable companies, and private and governmental agencies, as well as other organizations looking for experts with demonstrated knowledge in health-related fields.

Required Courses (20 Units)
• COMM 302 Persuasion Units: 4
• COMM 385 Organizational Communication Units: 4
• COMM 443 Communicating Better Health: What Works and Why Units: 4
• HP 200 Introduction to Health Promotion and Disease Prevention Units: 4

One of the following:
• COMM 304 Interpersonal Communication Units: 4
• COMM 308 Communication and Conflict Units: 4
• COMM 315 Health Communication Units: 4
• COMM 324m Intercultural Communication Units: 4
• COMM 375 Business and Professional Communication Units: 4
• COMM 402 Public Communication Campaigns Units: 4
• COMM 480 Nonverbal Communication Units: 4
• COMM 486 Human and Technological Systems in Organizations Units: 4
• HP 365gmw Culture, Lifestyle, and Health Units: 4
• HP 370g Introduction to Epidemiology: Methods and Applications Units: 4
• HP 401 Cultural Competence in Medicine Units: 4
• HP 402 Maternal and Child Health Units: 4
• HP 420m Gender and Minority Health Issues Units: 4
• HP 430 Obesity and Health Units: 4
• HP 442 AIDS in Society Units: 4
• HP 442 Chronic Disease Epidemiology Units: 4

Nutrition and Health Promotion Minor
This minor is designed to appeal to students interested in nutrition, especially in preparation for graduate study in health-related fields (e.g., medicine, public health) or to enter health-related fields of employment. The focus of the minor is on assessing, planning and evaluating dietary intake of individuals or groups under various conditions of health and disease based upon principles of nutrition and behavioral science. Students in this minor will study factors associated with dietary habits and the development of effective individual and group interventions. It complements majors including psychology, gerontology, biological sciences, chemistry, kinesiology and environmental studies.

Required Courses (20 Units)
• HP 230 Nutrition and Health Units: 4
• HP 430 Obesity and Health Units: 4
• HP 431 Behavior and Education Strategies for Nutrition and Fitness Units: 4

Two of the following:
• HP 365gm Culture, Lifestyle, and Health Units: 4
• HP 370g Introduction to Epidemiology: Methods and Applications Units: 4
• HP 401 Cultural Competence in Medicine Units: 4
• HP 402 Maternal and Child Health Units: 4
• HP 420m Gender and Minority Health Issues Units: 4
• HP 432 Clinical Nutrition Units: 4
• HP 460 Adolescent Health Units: 4
• HP 490x Directed Research Units: 1, 2, 3, 4, 5, 6, 7, 8, max 12

Public Health Minor
This minor is designed for students interested in a broad array of health issues. The focus of the minor is on reducing disability and mortality from avoidable injuries and chronic disease, educating the community about healthy lifestyles, assuring access to health care, and measuring changes using various indicators over time. This minor teaches students to meet the challenges of the changing environment of the health care system. It complements a number of majors including psychology, sociology, American studies and ethnicity, biological sciences, economics, environmental studies, kinesiology, gender studies, international relations, philosophy, religion, gerontology and political science.

Required Courses (20-24 Units)
• HP 200 Introduction to Health Promotion and Disease Prevention Units: 4
• PPD 330 Introduction to Health Care Systems Units: 4

Three of the following:
• HP 365gm Culture, Lifestyle, and Health Units: 4
• HP 370g Introduction to Epidemiology: Methods and Applications Units: 4
• HP 401 Cultural Competence in Medicine Units: 4
• HP 402 Maternal and Child Health Units: 4
• HP 408 Environmental Health in the Community Units: 4
• HP 410 Issues in Prevention and Cessation of Drug Abuse Units: 4
• HP 420m Gender and Minority Health Issues Units: 4
• HP 421 Violence as a Public Health Issue Units: 4
• HP 422 AIDS in Society Units: 4
• HP 430 Obesity and Health Units: 4
• HP 441 Health Promotion in the Workplace Units: 4
• HP 442 Chronic Disease Epidemiology Units: 4
• HP 460 Adolescent Health Units: 4

Speech-Language and Hearing Professions Minor
The USC Caruso Department of Otolaryngology – Head and Neck Surgery offers the minor in Collaborations in Speech-Language and Hearing Professions. This minor is designed to introduce undergraduate students from wide variety of majors to the field of communication sciences and disorders (i.e. speech-language pathology and audiology) and guide them in the development of interdisciplinary knowledge which will lead to collaborative practices in health care, social services and education, as it relates to communication sciences and disorders. Relevant majors from which students may be interested in this
minor include education, pre-medical and biological sciences, social work, occupational and physical therapy, linguistics, music or other related fields in a variety of aspects related to the field of communication sciences and disorders and/or speech, language and hearing professions.

Coursework for this minor will focus on Interprofessional Practice necessary to serving individuals with communication disabilities. The coursework will examine broad aspects of typical and atypical speech, language and hearing development, delays and disorders, technological advancements in hearing science and audiology practice and collaborative work settings for allied and related professionals serving individuals with communication disabilities. In addition, public policy and practice will be discussed throughout the coursework, including aspects of access to medical and educational services.

This minor requires 16 units, consisting of 4 required units and 12 elective units, as detailed below.

**Required Course**
- OHNS 200 Communication Development and Disorders Across the Life Span Units: 4

**Electives**
Select 12 units of electives from the following:
- OHNS 301 The Practice of Educational Speech-Language Pathology Units: 4
- OHNS 302 Hearing Science and Technology Units: 4
- OHNS 401 The Practice of Medical Speech-Language Pathology Units: 4
- OHNS 402 The Dynamic Profession of Audiology Units: 4

**Substance Abuse Prevention Minor**
This minor offers students an opportunity to gain an overall understanding of substance abuse as a major modifiable risk factor for illness. It allows students to learn theories of behavior change, to understand the issues in prevention and cessation of drug abuse, and to develop, implement, and evaluate intervention strategies. It complements a number of majors including psychology, sociology, American studies and ethnicity, biological science and gerontology.

**Required Courses (24 Units*)**
- HP 200 Introduction to Health Promotion and Disease Prevention Units: 4
- HP 300 Theoretical Principles of Health Behavior Units: 4 *
- HP 410 Issues in Prevention and Cessation of Drug Abuse Units: 4

Two of the following:
- HP 365gmt Culture, Lifestyle, and Health Units: 4
- HP 370g Introduction to Epidemiology: Methods and Applications Units: 4
- HP 401 Cultural Competence in Medicine Units: 4
- HP 402 Maternal and Child Health Units: 4
- HP 421 Violence as a Public Health Issue Units: 4

**Note:**
*Including prerequisite

**Master's Degree**

**Academic Medicine (MACM)**
Keith Administration Building 211
1975 Zonal Avenue
Los Angeles, CA 90033
(323) 442-2372
FAX: (323) 442-2051
Email: nyquist@usc.edu
Program Director: Julie G. Nyquist, PhD

**Core Faculty**
Professors: Donna Elliott, MD, EdD (Pediatrics); Jerry Gates, PhD (Family Medicine); Win May, MD, PhD (Medical Education); Julie G. Nyquist, PhD (Medical Education); Samuel Yanofsky, MD, MSEd (Anesthesiology)

Associate Professors: Kathleen Besinque, PharmD, MSEd (Pharmacy); Cha-Chi Fung, PhD (Medical Education); Tara Humphrey, DO, MACM (Anesthesiology)
Assistant Professors: Cathy Jalali, PhD (Medical Education); Shara Steiner, DO, MACM (Medical Education)

The Master of Academic Medicine is offered by the Keck School of Medicine. The goal is to develop leaders who will create and enhance academic and training programs for health care professions globally. Academic medicine is defined in broad terms as relating to those who lead training worldwide in medicine or in other health care related fields. Enacting this vision is possible due to the flexible delivery model selected. The program employs a hybrid model, combining on-campus face-to-face sessions, blended with online course work. During the 32-unit program, the majority of sessions will be delivered using interactive online delivery methods. All students will also be on campus for one-week intensive sessions in the spring of each year, which focus on community building and the development and evaluation of skills.

The program addresses the unique population of medical and health professions faculty who are focused on leading the academic enterprise for health professionals at the undergraduate, graduate and continuing education levels. Our graduates will be positioned to guide future generations of health professionals around the world toward better meeting the health needs of our global society. For those with a clear focus on the academic enterprise, a complementary degree in academic medicine offers the specialized skills needed to lead worldwide development of enhanced training for health professionals, increases professional capacity and provides new opportunity for promotion. The audiences for this degree will typically have primary professional degrees in health fields (e.g., MD, DDS, DPT, RN, MSN, PA, DVM, DO, PharmD, DC, DOM). The Master of Academic Medicine will provide the needed complementary training for clinician educators.

**Admission**
Applicants for admission to the Master of Academic Medicine program are generally expected to have an advanced degree in a health profession. Proof of graduation is required, as well as three letters of recommendation. For specific information on admission and application procedures, contact the Office of Medical Education, (323) 442-2372.

Students are admitted for the academic year beginning in the fall, although those admitted prior to March 15 may enroll in summer courses. Although there is no formal application deadline, complete applications received before March 1 will be given priority. Application inquiries should be made to: Master of Academic Medicine Program, University of Southern California, Office of Medical Education, 1975 Zonal Avenue, KAM 211, Los Angeles, CA 90033, telephone (323) 442-2372.

**Satisfactory Academic Progress**
A graduate GPA of at least 3.0 is required at all times. Any student whose graduate GPA falls below 3.0 will be placed on academic probation. Students on academic probation who do not raise their GPA to 3.0 after two semesters of written notification of academic probation will be academically disqualified.

A minimum of 32 units of graduate-level course work is required.

**Degree Requirements**

**Academic Courses (26 Units)**
- ACMD 501 Introduction to Academic Medicine Worldwide Units: 3
- ACMD 502 Becoming a Leader in Academic Medicine Worldwide Units: 3
- ACMD 503 Leading Change in Academic Medical Centers Units: 3
- ACMD 511 Competencies in Academic Medicine and Health I Units: 3
- ACMD 512 Competencies in Academic Medicine and Health II Units: 3
• ACMD 513 Professionalism in Academic Medicine and Health Units: 3
• ACMD 514 Accreditation and Program Evaluation in Academic Medicine Units: 3
• ACMD 591 Designing Research on Innovations in Academic Medicine Units: 2
• ACMD 592 Implementing Research on Innovation in Academic Medicine Units: 2
• ACMD 621 Capstone Portfolio for the Master of Academic Medicine Units: 1

Electives (6 units)
Six units of electives may be selected from the recommended courses below, or these may be replaced with approved courses at the 500 level or within USC that equal 6 units.

• ACMD 593 Foundations of Academic Writing Units: 1
• ACMD 598 Fieldwork: Designing Innovations for the Health Professions Units: 1, 2, 3
• ACMD 604 Supporting the Educational Enterprise in Academic Medicine Units: 3
• ACMD 605 Faculty Development for Health Sciences Faculty Educators Units: 2
• ACMD 615 Maintenance of Competence in the Health Professions Units: 2

Addiction Science (MS)
Addiction exacts a toll on individuals, families and communities worldwide. The Master of Science in Addiction Science (MAS) exposes students to the biological, psychological and social aspects of substance use and addictive behaviors. Students study emerging trends in addiction studies with an emphasis on evidence-based transdisciplinary approaches in to addiction science and practice addressing epidemiology, etiology, prevention, treatment, policy and harm reduction, as well as sociocultural and healthcare contexts that intersect with addiction. The MAS equips students with a solid foundation and prepares them to enter a number of fields, from treatment to recovery and research to policy-work, representing critical areas of support among diverse communities in need.

Required Courses
• ADSC 505a Research Methods in Addiction Science Units: 4
• RXRS 414 Buzzed: Modern Substances of Abuse and Addiction Units: 4

Field Work Concentration
• ADSC 505a Research Methods in Addiction Science Units: 4
• ADSC 506 Considerations in Addiction Science for Practitioners Units: 4
• SOWK 617 Substance Related and Behavioral Addictive Disorders and Recovery Units: 3

Research Concentration
• ADSC 505a Research Methods in Addiction Science Units: 4
• ADSC 505b Research Methods in Addiction Science Units: 4

Master's Thesis
A minimum of 4 units of Master's Thesis (594ab) within Pharmacy, Medicine or Social Work.

Directed Research and Electives
Selected in consultation with an adviser to complete a minimum of 32 units.

• Directed Research (590) in Pharmacy, Medicine and/or Social Work
• HP 410 Issues in Prevention and Cessation of Drug Abuse Units: 4
• PAIN 701 Pharmacotherapeutics for Pain Units: 2
• PAIN 708 Opioids Units: 1
• PHRD 667 Drugs of Abuse Units: 3
• PHRD 680 Cannabis User Safety Units: 2
• PM 500 Foundations of Health Behavior Units: 4
• PM 510L Principles of Biostatistics Units: 4
• PM 511aL Data Analysis Units: 4
• PM 511bL Data Analysis Units: 4
• PM 512 Principles of Epidemiology Units: 4
• PM 526 Communications in Public Health Units: 4
• PM 547 Public Health Policy and Politics Units: 4
• PM 587 Qualitative Research Methods in Public Health Units: 4
• RXRS 405 Breaking Brains: The Pharmacology of Addiction Units: 4
• RXRS 412 Ethics, Drugs and Society Units: 4
• SOWK 612 Assessment and Diagnosis of Mental Disorder Units: 3
• SOWK 618 Systems of Recovery from Mental Illness in Adults Units: 3
• SOWK 637 Assessing Wellness to Improve Recovery in Integrated Care Units: 3
• SOWK 643 Social Work Practice in Integrated Care Settings Units: 3
• SOWK 647 Advanced Practice with Complex Social Work Cases Units: 3

Minimum Units Required: 32

Applied Biostatistics and Epidemiology (MS)
The department encourages applicants with undergraduate degrees in allied health, pharmacology, public health, medicine, biological and clinical sciences or other related fields. Undergraduate preparation should have included applied statistics, college algebra, an introductory course in calculus and basic computer programming. Applicants should also meet the minimum requirements for admission to the Graduate School. Demonstrated proficiency in the English language is essential. With approval of the Graduate School, applicants not meeting these requirements may be conditionally admitted contingent upon maintaining a GPA of 3.0 for the first 12 units of graduate study.

Course Requirements
General requirements include at least 39 units of required courses as follows: 26 units of core courses and at least 9 units of elective courses. In addition, each student must register for 4 units of PM 594a Master's Thesis, PM 594b Master's Thesis and write a master's thesis.

Core Courses (26 Units)
• PM 510L Principles of Biostatistics Units: 4
• PM 511aL Data Analysis Units: 4
• PM 510L Principles of Epidemiology Units: 4
• PM 517a Research Methods in Epidemiology Units: 4
• PM 518a Statistical Methods for Epidemiological Studies I, II Units: 3
• PM 523 Design of Clinical Studies Units: 3
• PM 527 Epidemiology of Infectious Disease Units: 4

Electives (At Least 9 Units)
• PM 511bL Data Analysis Units: 4
• PM 511cL Data Analysis Units: 4
• PM 515 Multivariate Statistics in Health Behavior Research Units: 4
• PM 516a Statistical Problem Solving Units: 1
• PM 516b Statistical Problem Solving Units: 1
• PM 517b Research Methods in Epidemiology Units: 3
• PM 529 Environmental Health: An Epidemiological Approach Units: 4
• PM 530 Biological Basis of Disease Units: 4, 2 years
• PM 533 Genetic and Molecular Epidemiology Units: 3
• PM 551 Statistical Methods in Genome-Wide Association Studies Units: 3
• PM 560 Statistical Programming With R Units: 2
• PM 566 Introduction to Health Data Science Units: 4
• PM 569 Spatial Statistics Units: 3
• PM 574 Programming In Modern Statistical Software Units: 2
• PM 575 Statistical Methods in Environmental Epidemiology Units: 3
• PM 579 Statistical Analysis of High-Dimensional Data Units: 4
• PM 588 The Practice of Epidemiology Units: 4
• PM 590 Directed Research Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12
• PM 591 Machine Learning for the Health Sciences Units: 4
• PM 611 Advanced Topics in Epidemiology Units: 3

Thesis (4 Units)
• PM 594a Master's Thesis Units: 2
• PM 594b Master's Thesis Units: 2

Additional Requirements
Electives will be determined by the student's needs and interests and will be approved by the student's advisor. When appropriate, courses not listed above may be chosen with approval of the student's advisor. Sufficient familiarity in computer languages to operate major software packages for data management and analysis is required.

Thesis Requirement
A master's thesis is required of all students. This thesis consists of a research project approved by the faculty and chosen from problems encountered within the department, in other departments of the Keck School of Medicine or university or elsewhere in the community.

Biochemistry and Molecular Medicine (MS)
The Department of Biochemistry and Molecular Medicine (BMM) offers a program for the Master of Science degree. Primary goals of the program are to train students in preparation for (1) further doctoral study, and (2) research careers in industry and academia. Students are provided the necessary theoretical foundation in biochemistry and molecular biology, traditional and state-of-the-art methods used for research, experimental design, applied data science and bioinformatics. They are trained in conducting laboratory research on a defined project, oral presentations of the results and writing a thesis defending their project. The program is designed to enable high-achieving students from other STEM fields such as chemistry or pharmacy to broaden their education and/or research experience to biological sciences. The program, with its rigorous curriculum, is designed to simultaneously challenge students with prior education in biology.

The prerequisites for applicants to the BMM MS Program are a Bachelor's degree with an undergraduate major in any STEM field. A minimum cumulative GPA of 3.0 is required and a GPA of 3.0 in STEM courses is preferred. In most cases, international applicants must demonstrate satisfactory English proficiency with a minimum TOEFL score of 90 or an IELTS score of 7. Applicants that do not meet all the criteria above may be considered in special circumstances. At least three letters of recommendation are required from faculty members and/or employers who can evaluate the applicant's potential for graduate work and independent research.

The MS degree in BMM is a two-year program that requires 34 units of graduate study. Master's students must take a set of required courses, as well as perform laboratory research and write a research thesis under the guidance of a USC faculty mentor. Students must complete 16 or more course units offered in the BMM Department; the majority of the remaining units are taken as research or dissertation units. The student must successfully defend the thesis as determined by the student's Thesis Committee. Flexibility exists to plan each student's curriculum to suit individual needs, ambitions and background.

Biomedical Sciences (MS)
The Master of Science degree program in Biomedical Sciences is a terminal degree for students admitted into the PIBBS PhD program who cannot complete the PhD program for personal or medical reasons. The department does not accept applicants for this MS degree. Enrollment of graduate students as master's degree candidates is not encouraged and is reserved for special circumstances that must be approved by the PIBBS director, relevant KSOM PhD program director and the associate dean of Graduate Affairs. Under such circumstances, a student admitted to the PIBBS program may submit a formal request to complete a terminal MS degree. If approved to pursue the MS as a terminal degree, the student must submit a research capstone paper within two months of approval or at the end of the current semester enrolled, whichever comes first.

The master's curriculum includes all course work required of PhD students for a minimum of 35 units with an accumulated GPA of at least 3.0, comprehensive examination and submission of the written portion of the qualifying exam. Submission of a research capstone paper and an associated oral presentation will serve as the comprehensive examination for the master's degree.

Biostatistics (MS)
The department encourages applicants with undergraduate degrees in mathematics, statistics or biostatistics, computer science or other related fields. Undergraduate preparation should have included differential and integral calculus, introduction to mathematical statistics, and basic computer programming. Applicants should also meet the minimum requirements for admission to the Graduate School. Demonstrated proficiency in the English language is essential. With approval of the Graduate School, applicants not meeting these requirements may be conditionally admitted contingent upon maintaining a GPA of 3.0 for the first 12 units of graduate study.

Course Requirements
General requirements include at least 39 units of required courses as follows: 28 units of core courses and at least 7 units of elective courses. Each student must also register for 4 units of PM 594a Master's Thesis, PM 594b Master's Thesis and write a master's thesis.

Core Courses (28 Units)
• PM 510L Principles of Biostatistics Units: 4
• PM 511aL Data Analysis Units: 4
• PM 511bL Data Analysis Units: 4
• PM 512 Principles of Epidemiology Units: 4
• PM 513 Experimental Designs Units: 3
• PM 518a Statistical Methods for Epidemiological Studies I, II Units: 3
• PM 522a Introduction to the Theory of Statistics Units: 3
• PM 522b Introduction to the Theory of Statistics Units: 3

Electives (At Least 7 Units)
• PM 511cL Data Analysis Units: 4
• PM 516a Statistical Problem Solving Units: 1
• PM 516b Statistical Problem Solving Units: 1
• PM 518b Statistical Methods for Epidemiological Studies I, II Units: 3
• PM 520L Advanced Statistical Computing Units: 3
• PM 523 Design of Clinical Studies Units: 3
• PM 534 Statistical Genetics Units: 3
• PM 544L Multivariate Analysis Units: 3
• PM 551 Statistical Methods in Genome-Wide Association Studies Units: 3
• PM 552 Statistical Methods in Clinical Trials Units: 3
• PM 560 Statistical Programming With R Units: 2
• PM 566 Introduction to Health Data Science Units: 4
• PM 569 Spatial Statistics Units: 3
• PM 574 Programming In Modern Statistical Software Units: 2
• PM 575 Statistical Methods in Environmental Epidemiology Units: 3
• PM 579 Statistical Analysis of High-Dimensional Data Units: 4
• PM 588 The Practice of Epidemiology Units: 4
• PM 590 Directed Research Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12
• PM 591 Machine Learning for the Health Sciences Units: 4
• PM 603 Structural Equation Modeling Units: 4, 2 years
• PM 604 Health Behavior Research Methods Units: 4
above may be substituted with approval of the adviser. Sufficient School requirements for regular standing may, with approval of through the MS Program Office.

The Department of Preventive Medicine administers the program. Admission Requirements

Intervention strategies. in biostatistical, epidemiological methods, and community based applied to molecular epidemiology, as well as a solid grounding program gives students a solid background in the methodological population-based, clinical studies or outcomes research. The in laboratory methodologies or statistical and analytic skills in

is designed to train students, fellows and faculty for future

Alternative Options Track.

7) Molecular Biology, 8) Cell Biology, 9) Vision Science and 10) Analysis of Clinical Studies, 4) Epidemiology and Disease Etiology, 2) Community-based Intervention Trials, 3) Design, Conduct and

T Awardees. Tracks include: 1) Clinical Translational Research, California Clinical Translational Science Institute's (SC CTSI) are recipients of Young Investigator Awards, including Southern (CHLA), faculty interested in expanding their research careers, or

in CBTI). In addition, the MS CBTI Program is tailored to MDs who have completed their second year of medical school, and pre-doctoral students who are interested in expanding their pre-doctoral training to include methodology associated with conducting translational research. Pre-doctoral students will earn a joint degree (PhD in their research area and an MS in CBTI). In addition, the MS CBTI Program is tailored to MDs who have completed their second year of medical school, and pre-doctoral students who are interested in expanding their pre-doctoral training to include methodology associated with conducting translational research. Pre-doctoral students will earn a joint degree (PhD in their research area and an MS in CBTI). In addition, the MS CBTI Program is tailored to MDs doing fellowships at USC or Children's Hospital Los Angeles (CHLA), faculty interested in expanding their research careers, or are recipients of Young Investigator Awards, including Southern California Clinical Translational Science Institute's (SC CTSI) Center for Education, Training, and Career Development K and T Awardees. Tracks include: 1) Clinical Translational Research, 2) Community-based Intervention Trials, 3) Design, Conduct and Analysis of Clinical Studies, 4) Epidemiology and Disease Etiology, 5) Health Outcomes Research, 6) Environmental Epidemiology, 7) Molecular Biology, 8) Cell Biology, 9) Vision Science and 10) Alternative Options Track.

The MS program in Clinical and Biomedical Investigations is designed to train students, fellows and faculty for future independent research careers in an academic, government or private sector setting. The objective of the MS program is to produce a clinical researcher with either an in-depth knowledge in laboratory methodologies or statistical and analytic skills in population-based, clinical studies or outcomes research. The program gives students a solid background in the methodological aspects of translational research, and in statistical thinking as applied to molecular epidemiology, as well as a solid grounding in biostatistical, epidemiological methods, and community based intervention strategies.

Admission Requirements

Applicants must apply to the Graduate School and meet the minimum requirements for admission to the Graduate School. The Department of Preventive Medicine administers the program through the MS Program Office. The program will consider applicants who satisfy all requirements for admission to the Graduate School. For the MS program in Clinical and Biomedical Investigations, MCAT scores may be substituted for the GREs. Applicants not meeting Graduate School requirements for regular standing may, with approval of the Graduate School, be conditionally admitted. Regular standing is contingent upon maintaining a GPA of 3.0 in the first 12 units of graduate studies. All graduate students must maintain a GPA of 3.0 throughout their graduate studies.

General Requirements

Graduation requires the completion of a minimum of 29 units, of which a minimum of 15 units are didactic course credits taken in the first year (including summer sessions), with the remaining units being directed to: a) PM 590 Directed Research (1–12 units) and PM 594a Master’s Thesis, PM 594b Master’s Thesis (4 units) taken in the second year. The equivalent of one year of full-time effort must be devoted to research leading to a master's thesis. The thesis provides a structure for the development of a plan to address a research problem and a suitable approach to the analysis and presentation of the results.

Because the background and interests of applicants varies widely, one of the co-directors will consult with each student prior to the first year in order to design an individualized schedule of recommended courses, or this may be negotiated with a student’s faculty sponsor. At the end of the first year, the trainee must submit a final program plan to the co-directors. This will summarize the courses taken, the proposed thesis title, and the names and credentials of the MS thesis committee. One of the members of the MS thesis committee will be the trainee's research adviser and will serve as the chair of the committee. At least one member of the thesis committee must be from outside the student's department. For faculty, at least two members of the thesis committee must be from outside the student's department.

For those trainees or SC CTSI’s CETCD K and T awardees who do not wish to pursue an MS degree, the school offers a certificate in clinical, biomedical, and translational investigations (CBTI). The certificate program requires completion of 12 credits, and a minimum of six months of practical research experience working on a research project (PM 590) approved by either an Oversight Committee or the CETCD’s K and T Award Committee Review Process.

Students are expected to attend the three-day workshop on NIH proposal development if offered by Thomas Ogden, MD, PhD, and a workshop on the principles of scientific manuscript preparation.

Clinical Translational Research (13-16 Units)

- PM 510L Principles of Biostatistics Units: 4
- PM 512 Principles of Epidemiology Units: 4
- PM 523 Design of Clinical Studies Units: 3 or PM 612a Clinical Translational Research (CTR) Units: 4
- PM 612b Clinical Translational Research (CTR) Units: 4
- PM 612c Clinical Translational Research (CTR) Units: 4

Electives (Pick one course)

- MPTX 511 Introduction to Medical Product Regulation Units: 3
- MPTX 602 Science, Research and Ethics Units: 2
- PM 511BL Data Analysis Units: 4
- PM 512 Principles of Epidemiology Units: 4
- PM 518a Statistical Methods for Epidemiological Studies I, II Units: 3
- PM 549 Human Molecular Genetics and Genomics Units: 4
- PM 570 Statistical Methods in Human Genetics Units: 4
- RSCI 530 Translational Medicine: An Overview Units: 2

Community-Based Intervention Trials (16 Units)

- PM 512 Principles of Epidemiology Units: 4
- PM 528 Program Design and Evaluation Units: 4
- PM 563 Organizing and Mobilizing Communities for Public Health Units: 4

Electives (Pick one course)

- PM 526 Communications in Public Health Units: 4
- PM 562 Intervention Approaches for Health Promotion and Disease Prevention Units: 4
Design, Conduct and Analysis of Clinical Studies (18 Units)
  - PM 510L Principles of Biostatistics Units: 4
  - PM 511La Data Analysis Units: 4
  - PM 523 Design of Clinical Studies Units: 3
  - PM 538 Introduction to Biomedical Informatics Units: 3
  - PM 570 Statistical Methods in Human Genetics Units: 4

Epidemiology and Disease Etiology (15-16 Units)
  - PM 510L Principles of Biostatistics Units: 4
  - PM 512 Principles of Epidemiology Units: 4
  - PM 517a Research Methods in Epidemiology Units: 4

Electives (Pick one course)
  - PM 518a Statistical Methods for Epidemiological Studies I, II Units: 3
  - PM 527 Epidemiology of Infectious Disease Units: 4
  - PM 529 Environmental Health: An Epidemiological Approach Units: 4 or
  - PM 533 Genetic and Molecular Epidemiology Units: 3

Health Outcomes Research (8 Units)
  - PM 511La Data Analysis Units: 4
  - PMEP 538 Pharmaceutical Economics Units: 4
  - PMEP 539 Economic Assessment of Medical Care Units: 4
  - PMEP 540a Seminar in Pharmaceutical Economics and Policy Units: 2
  - PMEP 540b Seminar in Pharmaceutical Economics and Policy Units: 2

Environmental Epidemiology (17-19 Units)
  - PM 510L Principles of Biostatistics Units: 4
  - PM 512 Principles of Epidemiology Units: 4
  - PM 518a Statistical Methods for Epidemiological Studies I, II Units: 3
  - PM 529 Environmental Health: An Epidemiological Approach Units: 4

Electives (Pick one course)
  - PM 511La Data Analysis Units: 4
  - PM 533 Genetic and Molecular Epidemiology Units: 3
  - PM 570 Statistical Methods in Human Genetics Units: 4
  - PM 599 Special Topics Units: 2, 3, 4

Molecular Biology (16 Units)
  - INTD 531 Cell Biology Units: 4
  - INTD 561 Molecular Biology Units: 4
  - INTD 571 Biochemistry Units: 4

Electives (Pick one course)
  - INTD 504 Molecular Biology of Cancer Units: 4
  - INTD 555 Biochemical and Molecular Bases of Disease Units: 4
  - MICB 551 Prokaryotic Molecular Genetics Units: 4
  - PM 549 Human Molecular Genetics and Genomics Units: 4

Cell Biology (15 Units)
  - INTD 531 Cell Biology Units: 4
  - INTD 571 Biochemistry Units: 4
  - PATH 553 Emerging Methods in Cellular and Clinical Pathology Units: 2

Electives (Pick one course)
  - INTD 504 Molecular Biology of Cancer Units: 4
  - INTD 555 Biochemical and Molecular Bases of Disease Units: 4

Vision Science (15 Units)
  - INTD 501 Recent Advances in Vision Science Units: 1
  - INTD 531 Cell Biology Units: 4
  - INTD 571 Biochemistry Units: 4
  - INTD 573 Medical Physiology II Units: 4
  - PSCI 667 Intracellular Drug Delivery and Targeting Units: 2, 2 years

Alternative Options Track (Minimum 16 Units)
Courses are determined by mentor and student, based on research interests, with approval from the oversight committee.

Seminars/Workshops
Participation is required in a Recent Advances Journal Club to learn how to read papers critically and develop the speaking skills necessary to explain a research paper. Faculty members in the program rotate as course directors in order to emphasize new topics. Students are expected to attend the three-day workshop on NIH Proposal Development if offered by Thomas Ogden, PhD, and a workshop on the principles of scientific manuscript preparation.

Global Medicine (MS)
Keith Administration Building 317
1975 Zonal Avenue
Los Angeles, CA 90089-9024
(323) 442-3141
msgm.usc.edu

The Master of Science in Global Medicine (MSGM) is offered by the Department of Population and Public Health Sciences of the Keck School of Medicine. The program aims to prepare those planning to pursue degrees in the allied health professions to analyze and address critical issues in global medicine. The program provides a solid foundation in basic science while also exposing students to a broad scope of pertinent issues in global medicine. The program offers an advanced standing option for physicians, dentists, current medical/dental students and applicants with a PharmD degree from accredited institutions.

Students admitted to the advanced standing option may use previous equivalent course work for 8 units of credit toward MEDS 503L Core Principles System I and MEDS 504L Core Principles System II course requirements. The advanced standing option allows students to bypass the foundation course work and focus on globally oriented course work.

By providing the knowledge and training necessary to address current and future global medical challenges, the MS in Global Medicine program responds to the Institute of Medicine’s recommendation that the education of health professionals include course work that promotes literacy in global medicine. In addition to gaining a strong medical science foundation, students are immersed in course work that examines methods used to create innovative programming, solutions, and responses to global health challenges, thereby furnishing them with the problem-solving skills and analytical frameworks essential to their future career paths.

Through partnerships with the Marshall School of Business and the Viterbi School of Engineering, the MS in Global Medicine also includes a Management Track for students who intend to pursue international health management. The MS in Global Medicine also offers the Interprofessional Health Track for students seeking an understanding of the interplay of various clinical specialties in providing comprehensive and integrated care to patients and the resultant impacts on healthcare administration. Upon completion of the MS in Global Medicine, students will be equipped to serve as leaders within the allied health field, including, but not limited to: medicine, pharmacy, dentistry and nursing. In addition, graduates will be prepared to collaborate with, or seek employment from, a variety of international aid, nonprofit, and global health organizations such as: the United Nations, the International Red Cross, United Nations Joint Programme on HIV/AIDS, United Nations Children's Fund, World Health Organization, World Bank and the Centers for Disease Control and Prevention.

Admission
Applicants for admission to the program must have a bachelor's degree or its equivalent from an accredited institution and have earned a GPA of 3.0 (A = 4.0) in undergraduate work. Prerequisite undergraduate course work for Clinical Track applicants must include one year of general biology, one year of general chemistry, one year of organic chemistry and one semester of either calculus or statistics. Applicants to the Management and Interprofessional Track must have a minimum of one year of work experience in a management-related field with a bachelor's degree or equivalent, or a master's degree in a relevant field. Applicants are also expected to have completed coursework in economics or management.

Program Director: Navid Pour-Ghasemi, MD, MS

TheMSGM program will provide interdisciplinary training relevant to current and future global medicine.

The MSGM program is designed for students who wish to pursue a career in global medicine. The program offers an advanced standing option for students who have completed the equivalent course work for 8 units of credit toward MEDS 503L Core Principles System I and MEDS 504L Core Principles System II.

By providing the knowledge and training necessary to address current and future global medical challenges, the MS in Global Medicine program prepares students to analyze and address critical issues in global medicine. The program provides a solid foundation in basic science while also focusing on advancing students’ understanding of the interplay of various clinical specialties in providing comprehensive and integrated care to patients.

Students admitted to the advanced standing option may use previous equivalent course work for 8 units of credit toward MEDS 503L Core Principles System I and MEDS 504L Core Principles System II.

The advanced standing option allows students to bypass the foundation course work and focus on globally oriented course work.

By providing the knowledge and training necessary to address current and future global medical challenges, the MS in Global Medicine program prepares students to analyze and address critical issues in global medicine. The program provides a solid foundation in basic science while also focusing on advancing students’ understanding of the interplay of various clinical specialties in providing comprehensive and integrated care to patients.
Tracks must have prerequisite undergraduate course work that includes one year of general biology, one year of general chemistry, and one semester of either calculus or statistics. Organic chemistry courses are recommended but not required for Management and Interprofessional Health Track applicants.

Applicants must supply three letters of recommendation from evaluators qualified to assess their potential for graduate work. If applying for the advanced standing option, U.S. applicants must have successfully completed their first year of an MD (Doctor of Medicine) or DDS (Doctor of Dental Surgery) program or earned a PharmD degree from a U.S.-accredited institute; international applicants must have earned a bachelor’s degree in medicine and surgery or a degree equivalent of DDS (Doctor of Dental Surgery) or a PharmD degree from an accredited institute. Applicants must supply a completed application for graduate studies including transcripts from all institutions previously attended and three letters of recommendation. Applications are considered for enrollment in both fall and spring semesters. For further information contact: Master of Science in Global Medicine Program, (323) 442-3141, email: msgm@med.usc.edu.

Advisement

The program recommends that students meet with an academic adviser of the program each semester prior to registration.

Satisfactory Academic Progress

A graduate GPA of at least 3.0 is required at all times. Any student whose graduate GPA falls below 3.0 will be placed on academic probation. Students on academic probation who do not raise their GPA to 3.0 after two semesters of written notification of academic probation will be academically disqualified. A minimum of 32 units of graduate level course work is required for graduation from the clinical, interprofessional health, and management tracks. A minimum of 24 units of graduate-level course work is required for graduation from the advanced standing option.

Degree Requirements

Global Medicine students in the Clinical, Interprofessional Health, and Management Tracks must complete a minimum of 32 total units to earn the degree. (The Clinical Track offers an Advanced Standing Track option for qualified students that requires a minimum of 24 units).

Students are required to take the core and elective courses specified for the track in which they are matriculating and must complete enough courses to complete 32 or more total units.

Core Courses

GM Clinical Track Core

Clinical Track students must complete the following 12 units of core course work:

- MEDS 500 Basic Concepts in Global Health Units: 4
- MEDS 503L Core Principles System I Units: 4
- MEDS 504L Core Principles System II Units: 4

GM Advanced Standing Track Core

The Clinical Track offers an Advanced Standing Track to those deemed eligible for the track, including: physicians, dentists, pharmacists, and current medical and dental students who have previously taken course work that is equivalent to MEDS 503L and MEDS 504L. Advanced Standing Track students must complete the following 4-unit core course and must select 20 units of MEDS electives.

- MEDS 500 Basic Concepts in Global Health Units: 4

GM Interprofessional Health Track Core

Interprofessional Health Track students must complete the following 14 units of core course work:

- MEDS 500 Basic Concepts in Global Health Units: 4
- MEDS 532 Non-communicable Diseases Units: 2
- MEDS 580 Interprofessional Team Dynamics in Healthcare Units: 4
- MEDS 581 Case Studies in Interprofessional Healthcare Units: 4

GM Management Track Core

Management Track students must complete the following 7 units of core course work:

- DSO 582 Service Management: Economics and Operations Units: 3
- MEDS 500 Basic Concepts in Global Health Units: 4

Elective Courses

GM Clinical Track Electives

Clinical Track students must complete a minimum of 20 units of course work from among the following MEDS electives:

- MEDS 510 Global Health Modules, Malaria Units: 2
- MEDS 511 Global Health Modules, Tuberculosis Units: 2
- MEDS 512 Global Health Modules, Maternal and Child Health I Units: 2
- MEDS 514 Global Health Modules, Tropical Disease Units: 2
- MEDS 515 Global Health Modules, HIV/AIDS Units: 2
- MEDS 516 Cultural Humility in Health and Medicine Units: 2
- MEDS 517 Health and Human Rights Units: 2
- MEDS 518 Children in Emergency Situations: Global Policies and Programs Units: 2
- MEDS 519 Global Oral Health Units: 2
- MEDS 520 Medical Spanish for the Health Professions Units: 2
- MEDS 521 Emerging and Re-emerging Infectious Diseases Units: 2
- MEDS 523 Global Toxicity and Carcinogenesis Units: 2
- MEDS 525 Global Mental Health Units: 2
- MEDS 527 Zoonotic Infectious Diseases Units: 2
- MEDS 528 Global Health Modules, Sexually Transmitted Infections Units: 2
- MEDS 529 Refugee Health Care Units: 2
- MEDS 530a Foundation of Medicine: Anatomy, Physiology, and Pathology Units: 4
- MEDS 530b Foundation of Medicine: Anatomy, Physiology, and Pathology Units: 4
- MEDS 530c Foundation of Medicine: Anatomy, Physiology, and Pathology Units: 4
- MEDS 535 Culture, Lifestyle, and Health Units: 2
- MEDS 550 Clinical Medicine and Health Care Reform in Taiwan Units: 2
- MEDS 551 Clinical Medicine and Socioeconomic Factors in Uganda Units: 2
- MEDS 554 Clinical Medicine and Healthcare Delivery in Panama Units: 2
- MEDS 556 Global Health Field Study, New York Units: 2
- MEDS 557 Clinical Medicine and Healthcare Dynamics in Denmark Units: 2
- MEDS 560 Innovating in Healthcare in Malaysia Units: 2
- MEDS 567 Global Nutrition Units: 2
- MEDS 580 Interprofessional Team Dynamics in Healthcare Units: 4
- MEDS 581 Case Studies in Interprofessional Healthcare Units: 4
- MEDS 590 Directed Research Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12
- MEDS 599 Special Topics Units: 2, 3, 4

GM Interprofessional Health Track Electives

Interprofessional Health Track students must complete a minimum of 18 MEDS electives.

GM Management Track Electives

Management Track students must complete a minimum of 16 units of MEDS electives and 9 units (3 courses) from the following:

- DSO 581 Supply Chain Management Units: 3
- DSO 586 Global Healthcare Operations Management Units: 3
- ISE 507 Six-Sigma Methods and Applications Units: 3
- ISE 508 Health Care Operations Improvement Units: 3
• MOR 542 Strategic Issues for Global Business Units: 3
• MOR 569 Negotiation and Deal-Making Units: 3

Notes:
On a case-by-case basis and with pre-approval, GM students may take classes outside their particular group.

Integrative Anatomical Sciences (MS)
Program Director: Kristi L. Lewton, PhD
The Department of Integrative Anatomical Sciences provides training in the basic medical sciences to health professional students. It also prepares graduate students as future teachers and researchers in the human anatomical sciences and functional morphology. The graduate-level course of study includes in-depth training in core anatomical disciplines: gross anatomy, histology and neuroanatomy, including cadaveric dissection and microscopic study of tissues. In addition, students receive an intensive introduction to fundamentals of bone and dental biology, human anatomical variation and clinical anatomical correlations. Interested students may receive training in laboratory teaching for gross anatomy or research training in functional and evolutionary morphology.

Admission
The Department of Integrative Anatomical Sciences selects highly qualified students for admission into its Master of Science program in Human Anatomical Sciences. The prerequisite for applicants to the MS program is a bachelor's degree with a science major or equivalent. Applicants should have a superior undergraduate record at an accredited college or university, with a minimum undergraduate grade point average of 3.0. Generally required courses include at least one year of college-level biology, one year of college-level physics, and mathematics through calculus. College-level courses in cell biology, developmental biology, organismal biology and physiology are recommended.

The IAS MS Program does not require the results of standardized tests (for example, GRE) for admission. Demonstrated proficiency in the English language is required. Foreign applicants are expected to provide results from the Test of English as a Foreign Language (TOEFL). Results from Internet-based, computer-based, or paper-based tests are acceptable. However, candidates with special circumstances may be considered for conditional admission.

Progressive Degree Applicants: Current undergraduates at USC may apply to the IAS Masters Program as a Progressive Degree. Special Admission Considerations: Special considerations may be given to students who experienced extenuating circumstances and to applicants with limited English proficiency that could be corrected by language courses offered by the University's American Language Institute.
Questions regarding program admission can be directed to: msanatomy@usc.edu

Degree requirements
The Master of Science (MS) degree is awarded for demonstrated competence in the anatomical sciences. This is a 12-month program that begins with intensive training in human gross anatomy in the summer term. Students must complete a minimum of 32 units of graduate-level courses (500 or higher) beyond the baccalaureate degree, and maintain a minimum GPA of 3.0.

Core Courses
Students complete 24 units of core courses in the anatomical sciences.
• IAS 501aL Human Gross Anatomy Units: 3, 4 (3 units required)
• IAS 501bL Human Gross Anatomy Units: 4
• IAS 504L Human Skeletal Anatomy Units: 3
• IAS 511aL Microscopic Anatomy I Units: 3
• IAS 511bL Microscopic Anatomy II Units: 3
• IAS 521 Neuroanatomy Units: 3
• IAS 550 Cell and Neurobiology Seminar Units: 1
• IAS 580 Teaching in the Anatomical Sciences Units: 1
• IAS 581L Teaching in the Anatomical Sciences: Practicum Units: 3

Elective Courses
Students complete 8 units of electives, which may be chosen from the list below or pursued in other USC departments with approval from the IAS MS Program Director.
• BKN 551 Musculoskeletal and Biomechanical Basis of Movement Units: 4
• IAS 502L Advanced Regional Anatomy I Units: 2
• IAS 503L Advanced Regional Anatomy II Units: 2
• IAS 572 Medical Physiology I Units: 4
• IAS 573 Medical Physiology II Units: 4
• IAS 581L Teaching in the Anatomical Sciences: Practicum Units: 3
• IAS 590 Directed Research Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12
• IAS 599 Special Topics Units: 1, 2, 3, 4, 5, 6, 7, 8
• PM 510L Principles of Biostatistics Units: 4

Additional Requirements
IAS 580 must be taken in the Fall, while IAS 581L is repeatable and can be taken in the Fall and/or Spring.

Medical Physiology (MS)
Keith Administration Building 409
1975 Zonal Avenue
Los Angeles, CA 90089-9031
(323) 442-0230
FAX: (323) 442-9021
Program Director: H. Kaslow, PhD, hrkaslow@usc.edu

Physiology is the study of the functions and activities of life and living matter at all levels of organization within an organism. While physiology research is frequently at the molecular level, the tradition of the discipline challenges the researcher to consider all homeostatic and developmental functions of an organism. This tradition can guide research efforts seeking to identify causes of disease and critical physiological functions possessing therapeutic and health-promoting opportunities. The Medical Physiology program focuses on the research experience of the thesis track but in special circumstances will consider applications to the non-thesis track.

Admission
Applicants to the Master of Science in Medical Physiology (MPHY) program will have earned a bachelor's degree and completed course work in mathematics (including calculus), physics, chemistry and biological sciences. To be considered, applicants must complete a USC Graduate Admissions application and submit either GRE or MCAT test scores, a brief personal statement explaining the reasons for applying to the program, official transcripts from all academic institutions previously attended and three letters of recommendation. Foreign applicants are required to submit results from a TOEFL or IELTS examination. Potential applicants are encouraged to submit questions regarding the program and application process to the Medical Physiology Graduate Program Office prior to submitting the formal application (physiology@usc.edu). In the personal statement, applicants must specify whether they are applying to the thesis- or non-thesis track and the rationale for that decision. Normally, admission will be in the thesis track and a recommendation to admit an applicant will require MPHY graduate committee approval of an agreement between an applicant and a faculty member who will serve as mentor of the thesis project. The agreement shall specify the general research area of the thesis.

The Medical Physiology graduate program participates in the USC Progressive Master's Degree Program and seeks applications from qualified students (usc.edu/programs/ugprograms/progressive).

Course Requirements
The master's degree in Medical Physiology requires the completion of at least 32 graduate-level units with a grade point average of 3.0. All students are required to take the following: INTD 531, INTD 561, MPHY 572, MPHY...
The student withdraw or be dismissed from the program.

Remediation sufficient to remedy the deficiency or to recommend metrics or pass a screening examination, the MPHY Graduate Committee, at its discretion, may require a student pass MPHY 572 and MPHY 573. Beginning no later than the second semester of graduate study. If a student fails to achieve these equivalents, and achieve a grade of at least B, "Pass" or "Credit." At any time, after evaluating a student's progress, the MPHY Graduate Committee, at its discretion, may require a student pass a screening examination to be eligible to progress to the third or later semester of graduate study. If a student fails to achieve these metrics or pass a screening examination, the MPHY Graduate Committee will make a recommendation as to whether or not to place the student on probationary enrollment with a defined remediation sufficient to remedy the deficiency or to recommend the student withdraw or be dismissed from the program.

Thesis track:

The thesis work of a student in the thesis track will be conducted under the guidance of a Master's Student Thesis Committee, which shall consist of at least:

1. The student's advisor who shall chair the committee and be a tenure-track member of the MPHY Graduate Committee.
2. The student's thesis mentor if not the same faculty member as the advisor.
3. One additional tenure-track faculty member of the Department of Physiology and Biophysics.
4. One additional tenure-track faculty member.

Final Examination: Passing the examination requires: 1) submission of a thesis document describing the work of the thesis, and 2) an oral defense of the thesis both to the satisfaction of the Thesis Committee. The thesis document shall be distributed to the student's Master's Thesis Committee and a copy provided to the Medical Physiology Graduate Program Office at least two weeks prior to the oral examination. If the document is not provided by that date, then the oral examination shall be rescheduled to accommodate this requirement. Final acceptance of the document and passage of the oral examination requires the unanimous recommendation of all members of the thesis committee. If the student does not pass the examination on the first attempt, at its discretion the MPHY Graduate Committee may grant a second opportunity to pass the examination according to policies in the USC Catalogue.

Non-thesis track:

Final Examination. A comprehensive examination replaces the thesis defense. The MPHY Graduate Committee shall appoint a member of the MPHY Graduate Committee to supervise the final examination process (the "Examination Supervisor"). The examination shall be on a topic approved by the Examination Supervisor and consist of: 1) a document sufficiently discussing the topic, and 2) passing an oral examination on the substance of the topic. The document shall be submitted to the Examination Supervisor at least two weeks prior to the oral examination. If the document is not provided by that date, then the oral examination shall be rescheduled to accommodate this requirement. To qualify as the final examination, all the faculty of the MPHY Graduate Committee shall be invited to attend the presentation with notice given at least two weeks in advance and at least three members of the MPHY Graduate Committee or alternates selected by the program director shall attend.

During and following the presentation, faculty members may pose questions relevant to the presentation to determine if the student has mastered an appropriate breadth and depth of knowledge of physiology. The Examination Supervisor shall then receive reports from faculty attending the presentation, usually within a week, and make a recommendation to the MPHY Graduate Committee as to whether or not the student passed the examination. Unless a member of the Graduate Committee objects, the recommendation shall be considered accepted. If an objection is received a decision shall be made by a secret ballot vote with two thirds of those voting in favor of passage required for passage of the examination. If the student does not pass the examination on the first attempt, at its discretion the MPHY Graduate Committee may grant a second opportunity to pass the examination according to policies in the USC Catalogue.

Molecular Epidemiology (MS)

Students with a bachelor's degree in quantitative biological sciences will be eligible for admission. In addition, the BA students must have completed at least one year of general biology, one semester of biochemistry and one semester of statistics to be admitted into the Graduate School. Under unusual circumstances, conditional acceptance will be offered to students who do not meet these requirements — allowing them to complete the missing undergraduate courses prior to their full admission into the Graduate School. An introductory biochemistry class is also available in the School of Pharmacy, which may satisfy the biochemistry prerequisite.

Course Requirements

The MS program requires 38 graduate-level units with a minimum grade point average of 3.0 including Epidemiology core courses, 15 units; Biological Sciences core courses, 12 units; at least 3 elective units; Research plus Thesis, 8 units. Students must also complete a Master's thesis.

Epidemiology Core Courses (15 Units)

- PM 511aL Data Analysis Units: 4
- PM 511bL Data Analysis Units: 4
- PM 512 Principles of Epidemiology Units: 4
- PM 533 Genetic and Molecular Epidemiology Units: 3

Biological Sciences Core Courses (12 Units)

- BIOC 575 Predictive and Prognostic Biomarkers in Cancer Treatment Units: 2
- INTD 504 Molecular Biology of Cancer Units: 4
- INTD 522 Infection and Host Responses Units: 4
- INTD 531 Cell Biology Units: 4
- INTD 549 Protein Chemistry -- Structure and Function Units: 4
- INTD 550 Introduction to Pathology Units: 4
- INTD 551 Pathobiology of Disease Units: 4
- INTD 561 Molecular Biology Units: 4
- INTD 571 Biochemistry Units: 4
- PM 530 Biological Basis of Disease Units: 4, 2 years
- PM 532 Genetics in Public Health and Preventive Medicine Units: 4
- PM 554 Health Effects of Environmental Contaminants Units: 4
- PM 572 Medical Physiology I Units: 4
- PM 573 Medical Physiology II Units: 4

Electives (At Least 3 Units)

- PM 517a Research Methods in Epidemiology Units: 4
- PM 517b Research Methods in Epidemiology Units: 3
- PM 518a Statistical Methods for Epidemiological Studies I, II Units: 3
- PM 523 Design of Clinical Studies Units: 3
- PM 527 Epidemiology of Infectious Disease Units: 4
- PM 529 Environmental Health: An Epidemiological Approach Units: 4
- PM 534 Statistical Genetics Units: 3
- PM 537 Chronic Disease Epidemiology Units: 4
- PM 549 Human Molecular Genetics and Genomics Units: 4
- PM 551 Statistical Methods in Genome-Wide Association Studies Units: 3
• PM 553 Human Exposure Assessment for Public Health Units: 4
• PM 558 Environmental Epidemiology: Concepts, Methods, and Practice Units: 4
• PM 560 Statistical Programming With R Units: 2
• PM 570 Statistical Methods in Human Genetics Units: 4
• PM 574 Programming In Modern Statistical Software Units: 2
• PM 575 Statistical Methods in Environmental Epidemiology Units: 3
• PM 579 Statistical Analysis of High-Dimensional Data Units: 4
• PM 586 Reproductive and Perinatal Epidemiology Units: 4
• PM 588 The Practice of Epidemiology Units: 4

Research + Thesis (8 Units)

Research towards the MS thesis can be conducted in combinations of wet and dry labs or dry labs only, and should consist of original work worth of submitting for publication in a peer-review journal. Research can be conducted at a wet or dry lab in Preventive Medicine, Biochemistry, or Pathology. However, a Preventive Medicine faculty needs to be included as co-chair if a thesis supervisor is selected from another department.

• PM 590 Directed Research Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12
• PM 594a Master’s Thesis Units: 2
• PM 594b Master’s Thesis Units: 2

Molecular Genetics and Biochemistry (MS)

The Master of Science in Molecular Genetics and Biochemistry is designed to provide outstanding students in life science majors with a rigorous, quantitative experimental experience in molecular genetics, genomics, evolutionary biology, cell and molecular biology, biochemistry (depending upon the research area selected). The program is intended to position and stimulate students for possible advanced study leading to a PhD in one of the areas stated above, and/or provide an important research experience to the background of a prospective medical student. The program will also provide fundamental tools and expertise for entry into master’s level positions in academic, government or private sector research laboratories, including biotech, pharmaceuticals or diagnostics. This is a terminal degree. Students who wish to pursue their doctorate at USC should apply directly to the PhD program.

Applicants must be undergraduate majors in the life sciences, who possess a cumulative and science GPA of 3.0 or higher and have the following courses completed or in progress at the time of admission: one year of introductory biology (BISC 120L/BISC 220L or BISC 121L/BISC 221Lg, or equivalent), one semester of molecular biology (BISC 320L or equivalent), one year of general chemistry (CHEM 105Lg/CHEM 105L or CHEM 115A/Lg/CHEM 115L, or equivalent), and one year of organic chemistry (CHEM 322a/Lg/CHEM 322bL or CHEM 325a/Lg/CHEM 325bL or equivalent). All of the above must carry labs and be available for major credit in the natural sciences at a four-year college or university.

Because this degree is based on research, students must identify a faculty adviser prior to enrollment and submit a research proposal approved by that adviser to the master’s degree committee. It is recommended that students have performed the equivalent of independent study or a research internship (equivalent to BISC 490x) in their laboratory of choice prior to admission. Students are expected to perform 8 units of research in both fall and spring semesters; alternatively, with the adviser’s approval upon enrollment, they may choose to perform the research component in variable increments in summer, fall, and springsemesters to equal 12 units. This may be the preferred schedule if students wish to take additional electives during the academic year.

This program requires 32 units, of which 24 must be at the graduate level.

Core Courses

• BISC 502a Molecular Genetics and Biochemistry Units: 4
• BISC 544 Advanced Reading in Molecular Biology Units: 1, 2 (two semesters)
• BISC 590 Directed Research Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 (2–3 semesters) (12 Units Required)

One from the following:

• BISC 502b Molecular Genetics and Biochemistry Units: 4
• BISC 505 Genomics and Molecular Genetics Units: 4

Elective Requirements

Eight units from the following list:

• BISC 403 Advanced Molecular Biology Units: 4
• BISC 406L Biotechnology Units: 4
• BISC 411 Advanced Cell Biology Units: 4
• BISC 414 Biology of Cancer Units: 4
• BISC 419L Microbiology for a Sustainable Future Units: 4
• BISC 425 Genetics through the Scientific Literature Units: 4
• BISC 426 Principles of Neural Development Units: 4
• BISC 435 Advanced Biochemistry Units: 4
• BISC 450L Principles of Immunology Units: 4
• BISC 480L Developmental Biology Units: 4
• BISC 485 Advanced Seminar in Bacterial Survival and Evolution Units: 4
• BISC 502b Molecular Genetics and Biochemistry Units: 4 (if core requirement fulfilled with BISC 505)
• BISC 505 Genomics and Molecular Genetics Units: 4 (if core requirement fulfilled with BISC 502b)
• BISC 515 Evolution and Human Biology Units: 4
• QBIO 478 Computational Genome Analysis Units: 4
• QBIO 481 Structural Bioinformatics: From Atoms to Cells Units: 4

Additional Requirements

Students will complete a summative research paper that is written in publication format. The student will submit a proposed outline to the faculty mentor and one other molecular biology faculty member by January 15 for initial approval. The final paper is due on April 15. In the rare event that the final paper is not acceptable to the faculty, students may enroll for one more summer semester to perform revisions. If the paper is still not acceptable, the MS component of the degree will not be granted.

Molecular Microbiology and Immunology (MS)

The primary objective of the Master of Science program is to prepare students for a career in the broad field of biomedical sciences with focus on, but not limited to, microbiology, virology, immunology and cancer research. This program provides extensive theoretical preparation in combination with hands-on research, where students are trained in research laboratories located on the Health Sciences Campus (HSC), comprising the Keck Medical School, the School of Pharmacy and the USC Norris Comprehensive Cancer Center, or located at Children’s Hospital Los Angeles (CHLA).

Goals of the program are to prepare students for employment opportunities in: academic research or teaching at universities, institutes or not-for-profit research centers; research and development in industry (biotech, pharma, petroli, dairies, breweries); health care (hospitals and health care providers, medical technology, diagnostic laboratories); law firms (patents, intellectual property rights, technology transfer, toxic torts); environmental organizations (advisory, management, planning); government (public health, waste management, EPA, FDA, NIH, etc.); publishing (journalism, journal editor).

Admission Requirements

Applicants are expected to have a bachelor’s degree in science (usually biology, chemistry or physics) from an accredited college or university. Generally required courses include: at least one year of college-level biology, chemistry through organic chemistry, mathematics through calculus, and one year of college-level physics. Students who do not meet all requirements may still apply, and admission will be decided on a case-by-case basis. In general, a minimum undergraduate GPA of 3.0 is expected. Additionally, a student must take the Graduate Record Examinations (GRE), and a minimum
score of 1000 is expected. International applicants are expected to provide results from the International English Language Testing System (IELTS) or the Test of English as a Foreign Language (TOEFL; results from Internet-based, computer-based or paper-based tests are acceptable).

Course Requirements
A total of 34 units is required. Students may pursue a thesis option, which requires completion of MICB 594a, MICB 594b, MICB 594z (2-2-0) plus 30 units of approved course work, no more than 8 of which can be MICB 590 Directed Research. Students pursuing a non-thesis option must complete 34 units of approved course work. Students must choose one of these options by the end of the first year of study.

Fourteen or more course units must be taken in the Department of Molecular Microbiology and Immunology; 8 units may be pursued outside the department and, upon approval, a maximum of 8 units of directed research in molecular microbiology and immunology may be applied to the degree. No more than 4 units of course work taken outside of USC can be applied toward the MS degree requirements. Students considering such an action should submit a petition to the Department and document a rigorous academic standard for the course (reading materials, tests and other performance criteria, lecture content, etc.). The graduate advisory committee will review the petition and inform the student of its decision.

Molecular Pathology and Experimental Medicine (MS)
Program Director: Cheng-Ming Chuong, MD, PhD
For more information about our program, please contact our program office: pathgrad@usc.edu
keck.usc.edu/pathology-program

The Department of Pathology offers a program for the Master of Science (MS) degree in Molecular Pathology and Experimental Medicine. The primary objectives of this program are to provide the necessary theoretical and practical training in experimental pathology that culminates with the master of science degree. The goal of the program is to train students in preparation for positions in various professions. Such professions include, but are not limited to, senior research staff/senior technician positions in academic or industrial institutions, further MD or PhD study, consultancies requiring multidisciplinary backgrounds or advanced teaching positions in community colleges.

Opportunities and Advantages for Graduates of the Master of Science Program
1. Advanced position as senior research staff or senior technician in biotechnology firms
2. Advanced position as research staff or senior technician in academic institutions
3. Teaching position at the community college level
4. Able to continue academic studies to pursue a PhD Degree
5. Increase chances for entering MD program
6. Use credentials in pathology along with other expertise (e.g., MBA) to gain a unique niche in health industry, journalism, financial institutions, public policy, etc.
7. Can be completed within two years
8. Research is optional; requirements may be fulfilled by course work only. Research-based and scholarly-based thesis options available

Goals and Objectives of the Program
The main goals of the program are to train students for positions as senior research staff or senior technicians in academic or industrial settings, to enable students to continue toward their MD or PhD degrees, to prepare graduates for multi-disciplinary consulting positions or teaching positions in community colleges. This program provides a flexible short-term objective to position students for many job markets and advanced studies.

Admission
The prerequisite for applicants to the graduate program in Pathology is a bachelor’s degree with an undergraduate major in one of the natural sciences. A minimum GPA of 3.0 in the natural sciences (including mathematics) is usually required. In addition, the department requires at least two letters of recommendation from faculty members who can evaluate the applicant’s potential for graduate work. Demonstrated proficiency in English language is required. Special circumstances may provide consideration for conditional admission.

Progressive Degree Applicants: Current undergraduates at USC may apply to the Pathology MS Program as a Progressive Degree.

Satisfactory Academic Progress
Students in the MS Program in Molecular Pathology and Experimental Medicine are expected to maintain a minimum 3.0 GPA. Students who earn a GPA of below 3.0 will be placed on academic probation and must improve according to established terms if they are to remain in the school. Students on academic probation who do not raise their GPA to 3.0 after two semesters of written notification of academic probation will be academically disqualified.

Degree Requirements
At least 34 units of graduate study are required. Fourteen or more course units must be taken in the Department of Pathology. 8 units may be pursued outside the Department and upon approval, and a maximum of 8 units of directed research in Pathology may be applied to the degree. No more than 4 units of course work taken outside of USC may be applied toward the MS degree requirements. In some rare cases, up to 8 transfer credits may be approved (with departmental permission). Students considering such an action should submit a petition to the Department and document a rigorous academic standard for the course, which includes reading materials, lecture content, tests, and other performance criteria. The Pathology Graduate Committee would need to review the petition and inform the student of their decision.

Students have the option of fulfilling their MS degree by either thesis (Experiment-based Thesis) or comprehensive examination (Scholarly-based Thesis). At the end of each academic year, all students’ coursework progress will be reviewed by the Graduate Committee.

For Experiment-Based Thesis Option
• Year Two: Fall Semester Admission
  ▪ Add PATH 594a (2 units) Master’s Thesis (Fall semester)
  ▪ Add PATH 594b (2 units) Master’s Thesis (Spring semester)
• Year Two: Spring Semester Admission
  ▪ Add PATH 594a (2 units) Master’s Thesis (Spring semester)
  ▪ Add PATH 594b (2 units) Master’s Thesis (Fall semester)
• Must continue enrollment in PATH 594z (0 units) Master’s Thesis if student does not complete degree after the second year.

For Scholarly-Based Thesis Option
Students should enroll in GRSC 810 (0 units) Studies for Master’s Examination (fall/spring/summer) in the semester during which the comprehensive examination is to be taken if not otherwise enrolled.

Degree Requirements
Required Courses (26 units):
• BIOC 511 Foundations for Molecular Medicine Units: 4
• INTD 522 Infection and Host Responses Units: 4
• INTD 531 Cell Biology Units: 4
• INTD 550 Introduction to Pathology Units: 4
• INTD 551 Pathobiology of Disease Units: 4
• PATH 553 Emerging Methods in Cellular and Clinical Pathology Units: 2
• PATH 554 Emerging Trends and Methods in Molecular Pathology Units: 2
• PATH 570a Seminar in Pathology Units: 1
• PATH 570b Seminar in Pathology Units: 1
Suggested Elective Courses:
Select courses from the following list (8 units total). Additional 500-level courses may be selected in consultation with an adviser.

- INTD 504 Molecular Biology of Cancer Units: 4
- INTD 561 Molecular Biology Units: 4
- INTD 570 Current Topics in Cellular Homeostasis Units: 2
- INTD 630 Viral Oncology Units: 2
- MPTX 500 Molecular Pharmacology and Toxicology I Units: 4
- PATH 570c Seminar in Pathology Units: 1
- PATH 570d Seminar in Pathology Units: 1

Narrative Medicine (MS)
The Narrative Medicine MS degree offered by the USC Keck School of Medicine integrates narrative theory, practical experience and research methods to focus on the ethical implications of storytelling for individual/community wellness and the healthcare system. Students will be trained in narrative medicine methods of close reading, attentive listening and reflective writing in the service of community outreach and professional development. Training in this field will enhance the work of practicing and future clinicians (physicians, social workers, nurses, physician assistants, psychotherapists, occupational and physical therapists, speech pathologists, etc.), and provide support for mid-career professionals seeking to transition into teaching or service. Individuals pursuing careers in journalism, film, the non-profit sector, humanitarian leadership, social justice and community organizing, as well as those planning to apply to PhD programs in the humanities and social sciences, will develop the tools for creating boundary-crossing initiatives that address real-world problems in community health care. A cornerstone of this unique programming is USC’s partnership with local non-profit outreach groups. Students in the Narrative Medicine MS program will have the opportunity to teach and learn from community partners about the relationship between health and narrative, and will become more adept at offering solutions that recognize the intersection between the biomedical, behavioral and health system sciences, and issues of healthcare equity and social justice.

Satisfactory Progress
A graduate GPA of at least 3.0 is required at all times. Any student whose graduate GPA falls below 3.0 will be placed on academic probation. Students on academic probation who do not raise their GPA to 3.0 after two semesters of written notification of academic probation will be academically disqualified.

Advisement
The program recommends that students meet with an academic adviser of the program each semester prior to registration.

Unit Requirement
A minimum of 32 units of graduate-level course work is required.

Degree Requirements
Required Core Courses (24 units):
MDED 504 may be satisfied by an equivalent graduate-level course taken elsewhere.

- MDED 501 Narrative Medicine I: Witnessing, Listening, Reflecting Units: 4
- MDED 502 Narrative Medicine II: Methods and Pedagogy Units: 6
- MDED 503 Creative Writing and Its Applications in Narrative Medicine Units: 4
- MDED 504 Research Methods in Narrative Medicine Units: 4
- MDED 505 Intersubjectivity: Lived Bodies/Relational Selves Units: 4
- MDED 590 Directed Research Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 (4 units maximum)
- ACMD 514 Accreditation and Program Evaluation in Academic Medicine Units: 3
- ACMD 591 Designing Research on Innovations in Academic Medicine Units: 2
- MDED 510 Narrative Ethics: Illness, Disability, Equity and Community Units: 4
- MDED 511 Immigrants, Illness and Narrative Medicine Units: 4
- SOCI 658 Sociology of Health and Medicine Units: 4

Neuroimaging and Informatics (MS)
Degree Requirements
Graduation requires completion of 26 units, according to the required course schedule outlined below. None of the NIIN courses may be waived or substituted for other courses in the USC Catalogue. This program is intended to be completed within one academic year although a two year part-time option is available. Graduation does not include a requirement for a master's thesis. However, interested students may obtain research experience concurrent with classwork, subject to approval of available faculty research mentors.

Required Courses of Instruction
Fall
- NIIN 500 Neuroimaging and Systems Neuroscience Units: 3
- NIIN 510 Fundamentals of Human Neuroimaging Units: 3
- NIIN 530 Neuroimaging Data Acquisition w/ Magnetic Resonance Imaging Units: 3
- NIIN 540 Neuroimaging Data Processing Methods Units: 3
- NIIN 597 Current Topics in Neuroimaging Informatics Units: 1

Spring
- NIIN 520 Experimental Design for Neuroimaging Units: 3
- NIIN 550 Computational Modeling in Neuroimaging Units: 3
- NIIN 570 Neuroimaging Genetics Units: 3
- NIIN 600 Science Communications Units: 1

Students choose one of the following:
- NIIN 560 Brain Architecture and Neuroanatomic Exploratory Techniques in Animal Models Units: 3
- NIIN 580 Introduction to Data Science in Neuroimaging Units: 3

Pain Medicine (MS)
The Master of Science in Pain Medicine is an online program with a total 27 courses (33 academic units), specifically designed for the practicing professional who wants to improve skills and gain expertise to deliver the best care for patients with complex pain conditions. The curriculum is designed with a series of didactic courses in which students will gain knowledge about the diagnosis, pathobiology and management of pain conditions. The goal of this postdoctoral three-year master program is to give practicing health care providers advanced clinical, didactic, and evidence-based education in the field of Pain Medicine. The first year provides a foundation that years two and three build upon, giving the non-physicians the necessary background for the following two years. Nevertheless, physicians will also found the first year to be important to be a meaningful educational experience.

The students participate in weekly live online sessions with faculty and other program students, ensuring a collaborative and social learning experience. There are 2-3 courses per trimester, with 2-4 streaming video lectures for viewing each week. After each video lecture students complete an associated online quiz (comprising multiple choice, short answer or fill-in questions). Students need to complete 3 units of elective courses.

Required Courses
- PAIN 701 Pharmacotherapy for Pain Units: 2
- PAIN 702 Pain Classification and Diagnosis - Part 1 Units: 2
- PAIN 703 Psychological Aspects of the Pain Experience: Individual and Units: 2
• PAIN 704 Pain and Society: Epidemiology and Cultural issues Units: 1
• PAIN 705 Pain Assessment: History and Physical Examination Units: 1
• PAIN 706 Musculoskeletal Anatomy and Pathology Units: 2
• PAIN 707 Pain Neuroscience Units: 2
• PAIN 708 Opioids Units: 1
• PAIN 709 Pain Classification and Diagnosis - Part 2 Units: 2
• PAIN 710 Advanced Pain Physiology and Neuroscience Units: 1
• PAIN 711 Research Methodology Units: 2
• PAIN 712a Pain Medicine Capstone Units: 0.5
• PAIN 712b Pain Medicine Capstone Units: 0.5
• PAIN 712c Pain Medicine Capstone Units: 0.5
• PAIN 712d Pain Medicine Capstone Units: 0.5
• PAIN 713a Case Studies Units: 0.5
• PAIN 713b Case Studies Units: 0.5
• PAIN 713c Case Studies Units: 0.5
• PAIN 713d Case Studies Units: 0.5
• PAIN 714 Public Policy and Legal issues Units: 1
• PAIN 715 History of Pain: Theory and Treatment Units: 1
• PAIN 717 Psychological Treatments for Chronic Pain Units: 2
• PAIN 716 Neuropathic Pain Units: 1
• PAIN 718 Complementary Approaches Units: 2
• PAIN 720 Physical and Occupational Therapies Units: 1

Electives
• PAIN 719 Building a Practice: Institutional or Private Units: 1
• PAIN 721 Advanced Therapeutics Units: 2
• PAIN 722 Palliative Care in End of Life Units: 1
• PAIN 723 Orofacial Pain and Headache Units: 2

Physician Assistant Practice (MPAP)

Admission Requirements and Procedures

Application to the Physician Assistant Program requires completion of a bachelor's degree (in any discipline) from a regionally accredited four-year institution and completion of academic prerequisite requirements.

Admission to the program is for the fall semester only. Admission is granted by the physician assistant selection committee after careful review of all eligible applications. Selections are made on the basis of a formal interview (for competitive applicants) and consideration of a variety of factors, which include: academic record, amount of clinical experience, multicultural sensitivity, community service experience and understanding knowledge of the profession.

Applicants are required to submit an application through the Central Application Service for Physician Assistants (CASPA) as well as a USC Supplemental Application by November 1 of each year. Admissions decisions are made on a rolling basis. Further details regarding admission procedures including those for international student applicants are provided online at keck.usc.edu/pa.

Transfer Students or Advanced Placement

The Physician Assistant Program does not accept transfer students, nor do we allow advanced placement based on prior education or clinical experience. Each applicant who is admitted is required to complete the full Master of Physician Assistant Practice curriculum in residence at USC. No waivers or substitutions are permitted.

Registration

Students receive information regarding registration in the summer prior to enrollment.

Advisement

Virtual information sessions are available for prospective students who wish to receive more information regarding the program. For information, please call (626) 457-4240.

Degree Prerequisites

A bachelor’s degree from a regionally accredited institution and completion of all prerequisite course work are required for admission to the Physician Assistant Program.

Applicants are expected to have a minimum cumulative undergraduate grade point average of 3.0 (on a scale in which A = 4.0). It is expected that all science prerequisites be completed by the end of the fall semester in the year prior to matriculation, with a minimum grade point average of 3.0. All prerequisite courses must be completed for a letter grade with at least a grade of C (2.0) earned.

Science Prerequisites

One (1) year sequential coursework for biological-based science majors in each of the following:

Biology

Option (1):

General Biology or Human Biology*: One year sequential course work (equivalent to two semesters or three quarters**)

*If your institution does not offer General Biology or Human Biology, then you must provide proof for the biology series of introductory biology for biological based science majors (i.e. Zoology, Cell Biology, Botany).

**Applicants from an institution on the quarter system: If your institution does not offer three (3) quarters of General Biology or Human Biology, you may elect to take two (2) quarters of General Biology and one (1) quarter of the following – Genetics, Molecular Biology, Immunology or Cell Biology.

- OR -

Option (2):

One (1) semester/quarter of General Biology or Human Biology and;

One (1) semester or two (2) quarters of an additional Biology course(s) from the list below:

• Cell Biology
• Endocrinology
• Histology
• Molecular Biology
• Pharmacology
• Embryology
• Genetics
• Immunology
• Neuroscience

Chemistry

Option (1):

General Chemistry with lab: One (1) year sequential course work (equivalent to two semesters or three quarters*)

*Applicants from an institution on the quarter system: If your institution does not offer three (3) quarters of General Chemistry (Inorganic) with lab, you may elect to take two (2) quarters of General Chemistry with lab and one (1) quarter of Biochemistry with lab or one (1) quarter of Organic Chemistry with lab.

- OR -

Option (2):

One (1) semester/quarter of General Chemistry with lab and;

One (1) semester or two (2) quarters of an additional Chemistry course(s) with a lab in the following:

• Organic Chemistry w/lab
• Biochemistry w/lab
• Quantitative Analysis w/lab
• Analytical Chemistry w/lab
• Inorganic Chemistry w/lab

Three (3) semester units or four (4) quarter units of each of the following:

Microbiology

May be in the following:

• Microbiology with lab
• General Microbiology w/lab
• Introductory Microbiology w/lab
• Medical Microbiology w/lab
• Human Anatomy with lab*
• Human Physiology*
*Human anatomy and physiology may be completed by taking a two-semester sequential course of human anatomy and physiology I and II or a quarter system equivalent sequential course.

Non-Sciences:
A minimum of one (1) semester/quarter unit at a regionally accredited institution or submit a medical terminology certificate of completion from a regionally accredited institution or vocational program:

Medical Terminology
Three (3) semester units or four (4) quarter units of each of the following:
• Statistics
• Introduction/General Psychology
One (1) year for each of the following:
• Beginning Spanish language (Must be college-level credit earned either through coursework or by placement examination. There is no language substitutions.)
• English – International applicants only
• AP Credit

For applicants that received AP credit in prerequisites
*Note: Advanced Placement (AP) credit for science prerequisites will not be accepted. If an applicant has received one semester of AP credit (or equivalent) for one or more of the science prerequisites, the applicant may elect to complete the specific science prerequisite in one of two ways: 1) take the specific course work as outlined above (i.e., a complete two-semester or three-quarter course with lab), or 2) complete a minimum of six-semester (nine-quarter) units of upper-division course work for majors in that specific discipline. For example, if you received AP credit for one semester of general biology, you may satisfy our biology prerequisite in one of two ways: 1) complete a one-year sequential course for biology majors in general biology with laboratory, or 2) complete a minimum of six-semester (nine-quarter) units of upper-division course work for biology majors (e.g., cell, biology, genetics, histology, mammalian physiology, etc). Upper-division courses for non-majors will not be accepted for this purpose.

Students who intend to apply to the Physician Assistant Program should contact the admission office for evaluation of previous baccalaureate and/or post-baccalaureate course work.

10-Year Exemption
All science prerequisites should be completed within ten (10) years of application to the program. Exceptions to the ten-year science prerequisite time frame may be granted on an individual basis to those individuals who have completed one of the following: 1) at least eight semester units or graduate credit in a medically related natural science discipline with an overall grade point average of 3.0 or better, completed within seven (7) years of the application deadline, or 2) received an advanced degree in the natural or clinical sciences (e.g., MS, DVM, PharmD, PhD, MD) within ten years of the application deadline. In either case, all course work completed and degrees conferred must be from institutions of higher education accredited by an accrediting agency recognized by the Secretary of the U.S. Department of Education. Requests for this ten-year exemption should be directed to the chair of Admissions.

Distance Learning
Distance learning courses are acceptable provided they are equivalent in all dimensions (including laboratory requirements) to courses taught in "traditional" educational settings (e.g., hybrid courses). All distance learning course credit must be provided by regionally accredited institutions of higher education.

Clinical Experience
Hands-on, paid, patient care clinical experience is preferred. Please refer to our list of common clinical experiences. Other health care experience is equally acceptable as long as the clinical experience is hands-on in nature. It is important that PA applicants are familiar with medical care environments and the role of a physician assistant, and have experience working with patients. Volunteer clinical experience is also considered in the application process and should be entered into the CASPA application, as well; the applicant is encouraged to describe their hands-on experience, whether it is paid or volunteer.

Shadowing Opportunities
Shadows a Physician Assistant (PA) is preferred in the admissions application process. The selections committee defines shadowing as observing a PA in the care of patients, working alongside a PA on a day-to-day basis or attending virtual shadowing opportunities. Examples of virtual shadowing include telehealth, provider platforms and websites that offer case studies provided by a PA. The goal of shadowing is to help an applicant articulate the role of a PA.

Community Service Activities
A demonstration of community service dedication is expected of all applicants. Service that benefits underserved or disadvantaged groups is highly encouraged as the program has a commitment to training its students as primary care providers with these populations. Examples include: Habitat for Humanity, Boys & Girls Club of America, Big Brothers Big Sisters of America, soup kitchens, homeless shelters.

Curriculum Requirements
The completion of the 33-month professional curriculum is required to earn the Master of Physician Assistant Practice degree. Students do not have choices of courses to take nor are they permitted to drop any course or courses during the semester. Progress is permitted only when the prior semester is successfully completed. Students should view the curriculum outlined here as advisory only and subject to modification.

Summative Evaluation
A summative evaluation is conducted on each student during the sixth and final semester of the program to verify that each student is prepared to enter clinical practice.

Health Requirements and Technical Standards
All accepted candidates are required to meet the PA program’s technical standards (physical and psychological competencies of performance) prior to entering the program and throughout training. Upon acceptance, students will be required to submit and maintain evidence of current health status and immunizations. Students are also required to maintain university-approved health insurance coverage while enrolled in the program. Specific details outlining these technical standards are located at usc.edu/pa.

Employment
The Primary Care Physician Assistant Program at USC is a full-time program. Students are strongly discouraged to accept or continue outside employment while enrolled in the program. Students are not permitted to work for the program.

Background Check
All USC Physician Assistant students are required to pass a background check prior to admission to the Master of Physician Assistant Practice (MPAP) Program.

Degree Requirements
All students in the Master of Physician Assistant Practice degree program must meet course and grade point average requirements. All students must complete each semester with a cumulative grade point average of 3.0 or greater. Failure to achieve a 3.0 cumulative grade point average will result in automatic academic probation and a subsequent semester below a 3.0 cumulative grade point average will result in academic dismissal. The degree will not be conferred until the student has successfully completed all degree requirements. Students are subject to the degree requirements in
the catalogue current for the semester of their admission into the
program.
Physician assistant students are enrolled in a standard
curriculum during their 33 months in the program. The following
courses must be successfully completed in order to earn the
Master of Physician Assistant Practice degree. Only physician
assistant students may enroll in these courses. Departmental
clearance is required to enroll.

**Year I, Fall Semester**
Physician Assistant students enroll as a cohort in all five courses.
- PCPA 503 Behavioral Sciences I Units: 4
- PCPA 523 Clinical Skills I Units: 4
- PCPA 530 Basic Medical Sciences I Units: 3
- PCPA 536 PA Critical Thinking Course I Units: 1
- PCPA 543 Topics in Medicine I Units: 6
Total units: 18

**Year I, Spring Semester**
Physician Assistant students enroll as a cohort in all five courses.
- PCPA 506 Behavioral Sciences II Units: 4
- PCPA 526 Clinical Skills II Units: 4
- PCPA 537 PA Critical Thinking Course II Units: 1
- PCPA 540 Basic Medical Sciences II Units: 3
- PCPA 546 Topics in Medicine II Units: 6
Total units: 18

**Year II, Fall Semester**
Physician Assistant students enroll in all five courses.
- PCPA 509 Behavioral Sciences III Units: 4
- PCPA 529 Clinical Skills III Units: 4, 6
- PCPA 538 PA Critical Thinking Course III Units: 1
- PCPA 549 Topics in Medicine III Units: 6
- PCPA 550 Basic Medical Sciences III Units: 3
Total units: 18

**Year II, Spring Semester**
- PCPA 561 Clinical Assignment I Units: 3.5
- PCPA 562 Clinical Assignment II Units: 3.5
- PCPA 564a Clinical Assignment IV Units: 3.5
- PCPA 565a Clinical Assignment V Units: 3.5
Total units: 14

**Year II, Summer Session**
- PCPA 564b Clinical Assignment IV Units: 0
- PCPA 565b Clinical Assignment V Units: 0

**Year III, Fall Semester**
- PCPA 563 Clinical Assignment III Units: 3.5
- PCPA 566 Clinical Assignment VI Units: 3.5
- PCPA 567 Clinical Assignment VII Units: 3.5
- PCPA 568 Clinical Assignment VIII Units: 3.5
Total units: 14

**Year III, Spring Semester**
- PCPA 532 Clinical Skills IV Units: 3
- PCPA 583 Advanced Topics in PA Studies: Education Units: 4
- PCPA 588 Advanced Topics in PA Studies: Research Units: 4
- PCPA 589 Advanced Topics in PA Studies: Medical Care
  Organization Units: 4
Total units: 15

**Note:**
Requests for further information may be addressed to: Primary
Care Physician Assistant Program at USC, 1000 South Fremont
Avenue, Unit 7, Building A11, Room 11-150, Alhambra, CA 91803,
or via email at uscpa@usc.edu. The program's Website is
uscpa.usc.edu.

**Public Health (MPH)**
The Master of Public Health (MPH) degree provides
professional training in the field of public health, which is the
science of protecting and improving the health of people and
their communities. The MPH program addresses public health
foundational knowledge and builds student competencies in public
health practice (e.g., healthy lifestyle promotion; disease and injury
prevention; and detection, prevention, and responses to infectious
diseases, domestically and globally).

The MPH program is offered in a traditional (on-campus)
and online format. The MPH degree requires a minimum of 42
semester units of required and elective graduate courses.

Students fulfill core required courses, including four foundational
courses, a practical experience (practicum)* and a capstone
course**. In addition, on-campus students select from one of five
concentrations: Biostatistics/Epidemiology, Community Health
Promotion, Global Health, Health Services and Policy, and
Generalist.

For complete Admission Requirements, refer to the Department
of Population and Public Health Sciences.

* The practicum, an applied practice experience (internship) in
  federal, state, and/or local public health agencies/organizations,
  including community-based organizations, health care
  organizations, and research settings, is a required component
  of the MPH degree. The practicum provides the opportunity for
  students to apply their public health competencies and prepare
  for work in governmental and non-governmental organizations
  in public health and health-related fields.

** Students enroll in the capstone course during their last semester
  prior to graduation. Through a paper-writing assignment, the
course allows students to integrate their course work and practical
  experiences in public health.

**MPH Core Requirements**
- PM 502 Foundations of Public Health Units: 4
- PM 503 Practice of Public Health Units: 4
- PM 510L Principles of Biostatistics Units: 4
- PM 512 Principles of Epidemiology Units: 4
- PM 596 Practicum in Public Health Units: 1
- PM 597 Capstone in Public Health Units: 1

**Additional Requirements**
In addition, at least another 24 units of course work must be
completed in their selected concentration of study.

**Community Health Promotion Concentration**

**Required Concentration Courses (16 Units)**
- PM 501 Foundations in Health Education and Promotion
  Units: 4
- PM 528 Program Design and Evaluation Units: 4
- PM 563 Organizing and Mobilizing Communities for Public
  Health Units: 4
  AND Choose 1 course (4 units) from the following course
  options:
- PM 562 Communications in Public Health Units: 4 * or
- PM 536 Program Evaluation and Research Units: 4 * or
- PM 562 Intervention Approaches for Health Promotion and
  Disease Prevention Units: 4 *

**Concentration Electives (8 units)**
At least 8 units from the following**:
- CMGT 510 Communication, Values, Attitudes and Behavior
  Units: 4
- CMGT 511 Health Communication Units: 4
- CMGT 583 Social Marketing and Entertainment Education
  Units: 4
- CMGT 587 Audience Analysis Units: 4
- PM 508 Health Service Delivery in the U.S. Units: 4
- PM 514 Sexually Transmitted Infections: a Systems
  Approach Units: 4
- PM 519 Moving Toward Health Equity in the United States
  Units: 4
- PM 525 Culture and Health: Global Perspectives Units: 4
- PM 526 Communications in Public Health Units: 4 *
- PM 529 Environmental Health: An Epidemiological Approach
  Units: 4
- PM 530 Biological Basis of Disease Units: 4, 2 years
Biostatistics/Epidemiology Concentration

Required Concentration Courses (16 Units)

- PM 536 Program Evaluation and Research Units: 4 *
- PM 540 Maternal and Child Nutrition: Practice and Policy Units: 4
- PM 542 Social Network Analysis Units: 4
- PM 561 Health and Sustainable Development in Costa Rica Units: 4
- PM 562 Intervention Approaches for Health Promotion and Disease Prevention Units: 4 *
- PM 564 Public Health Leadership and Management Units: 4
- PM 567 Public Health Disaster Management and Response Units: 4
- PM 568 Ethical Issues in Public Health Units: 4
- PM 580 Foundations of Child Health Units: 4
- PM 583 Foundations of Early Childhood Mental Health Units: 4
- PM 586 Reproductive and Perinatal Epidemiology Units: 4
- PM 587 Qualitative Research Methods in Public Health Units: 4
- PM 589 Global Health Policy in Action: Geneva Course Units: 4

** Concentration elective courses will be directed by the student's needs and interests and must be approved by the student's graduate adviser. Course options vary by semester.

Health Services and Policy Concentration

Required Concentration Courses (16 Units)

- PM 508 Health Service Delivery in the U.S. Units: 4
- PPD 503 Economics for Public Policy Units: 4

AND Choose 8 units from the following course options:

- PM 504 Quality in Health Care Units: 4 *
- PM 507 Public Health Services Research Methods Units: 4 *
- PM 547 Public Health Policy and Politics Units: 4 *
- PPD 560 Methods for Policy Analysis Units: 4 *

Concentration Electives (8 units)

At least 8 units from:

- PM 508 Health Service Delivery in the U.S. Units: 4
- PM 514 Sexually Transmitted Infections: a Systems Approach Units: 4
- PM 515 Multivariate Statistics in Health Behavior Research Units: 4
- PM 517a Research Methods in Epidemiology Units: 4
- PM 517b Research Methods in Epidemiology Units: 3
- PM 518a Statistical Methods for Epidemiological Studies I, II Units: 3
- PM 519 Moving Toward Health Equity in the United States Units: 4
- PM 523 Design of Clinical Studies Units: 3
- PM 527 Epidemiology of Infectious Disease Units: 4 *
- PM 529 Environmental Health: An Epidemiological Approach Units: 4 *
- PM 536 Program Evaluation and Research Units: 4 *
- PM 537 Chronic Disease Epidemiology Units: 4 *
- PM 538 Introduction to Biomedical Informatics Units: 3
- PM 542 Social Network Analysis Units: 4
- PM 547 Public Health Policy and Politics Units: 4 *
- PM 568 Ethical Issues in Public Health Units: 4
- PM 577 Global Health, Law and Human Rights: Concepts and Methods Units: 1, 2, 3, 4
- PM 578 Global Health Governance and Diplomacy Units: 4
- PM 585 Child Health Policy Units: 4
- PM 589 Global Health Policy in Action: Geneva Course Units: 4
- PPD 511 Health Information Systems Units: 2
- PPD 513 Legal Issues in Health Care Delivery Units: 2
- PPD 514 Economic Concepts Applied to Health Units: 4
- PPD 521a Information Technology Management Systems in Health Care Units: 2
- PPD 542 Policy and Program Evaluation Units: 4
- PPD 554 Foundations of Policy Analysis Units: 4
- PPD 555 Policy Formulation and Implementation Units: 4
- PPD 560 Methods for Policy Analysis Units: 4 *

** Concentration elective courses will be directed by the student's needs and interests and must be approved by the student's graduate adviser. Course options vary by semester.

Global Health Concentration

Required Concentration Courses (16 Units)

- PM 565 Introduction to Global Health Units: 4
- PM 576 Global Health Research and Programs Units: 4

AND Choose two courses (8 units) from the following:

- PM 506 Overcoming Real World Challenges in Global Health Units: 4 *
- PM 525 Culture and Health: Global Perspectives Units: 4 *
- PM 577 Global Health, Law and Human Rights: Concepts and Methods Units: 1, 2, 3, 4
Concentration Electives (8 units)
At least 8 units from the following**:

- PM 506 Overcoming Real World Challenges in Global Health Units: 4 *
- PM 519 Moving Toward Health Equity in the United States Units: 4
- PM 525 Culture and Health: Global Perspectives Units: 4 *
- PM 527 Epidemiology of Infectious Disease Units: 4
- PM 529 Environmental Health: An Epidemiological Approach Units: 4
- PM 530 Biological Basis of Disease Units: 4, 2 years
- PM 537 Chronic Disease Epidemiology Units: 4
- PM 540 Maternal and Child Nutrition: Practice and Policy Units: 4
- PM 561 Health and Sustainable Development in Costa Rica Units: 4
- PM 563 Organizing and Mobilizing Communities for Public Health Units: 4
- PM 567 Public Health Disaster Management and Response Units: 4
- PM 568 Ethical Issues in Public Health Units: 4
- PM 577 Global Health, Law and Human Rights: Concepts and Methods Units: 1, 2, 3, 4 *
- PM 578 Global Health Governance and Diplomacy Units: 4
- PM 586 Reproductive and Perinatal Epidemiology Units: 4
- PM 587 Qualitative Research Methods in Public Health Units: 4
- PM 589 Global Health Policy in Action: Geneva Course Units: 4

* Students may receive credit for concentration core or concentration elective only.
** Concentration elective courses will be directed by the student's needs and interests and must be approved by the student's graduate adviser. Course options vary by semester.

Generalist Concentration

Admission to this concentration is limited to students to have already obtained an advanced graduate or professional degree (e.g. JD, PhD, MD, etc.) or those currently enrolled in an accredited U.S. based medical degree program (MD).

Required Courses (24 units)

Students will complete 24 units of course work through courses identified with their faculty advisor in an individualized program of instruction that has been tailored to their background and career plans in public health.

Public Health (MPH) (Online)

The Master of Public Health (MPH) degree provides professional training in the field of public health, which is the science of protecting and improving the health of people and their communities. The MPH program addresses public health foundational knowledge and builds student competencies in public health practice (e.g., healthy lifestyle promotion; disease and injury prevention; and detection, prevention, and responses to infectious diseases, domestically and globally).

The MPH program is offered in a traditional (on-campus) and online format. The MPH degree requires a minimum of 42 semester units of required and elective graduate courses.

Students fulfill core required courses, including five foundational courses, a practical experience (practicum)* and a capstone course**. In addition, online MPH students select from one of six concentrations: Biostatistics/Epidemiology, Community Health Promotion, GeoHealth, Global Health, Health Services and Policy, and Generalist.

For complete admission requirements, refer to the Department of Population and Public Health Sciences.

* The practicum, an applied practice experience (intership) in federal, state, and/or local public health agencies/organizations, including community-based organizations, health care organizations, and research settings, is a required component of the MPH degree. The practicum provides the opportunity for students to apply their public health competencies and prepare for work in governmental and non-governmental organizations in public health and health-related fields.
** Students enroll in the capstone course during their last semester prior to graduation. Through a paper writing assignment, the course allows students to integrate their course work and practical experiences in public health.

MPH Core Requirements

- PM 501 Foundations in Health Education and Promotion Units: 4
- PM 508 Health Service Delivery in the U.S. Units: 4
- PM 510L Principles of Biostatistics Units: 4
- PM 512 Principles of Epidemiology Units: 4
- PM 564 Public Health Leadership and Management Units: 4
- PM 596 Practicum in Public Health Units: 1
- PM 597 Capstone in Public Health Units: 1

Additional Requirements

In addition, at least another 20 units of course work must be completed in their selected concentration of study.

Community Health Promotion Concentration

Required Concentration Courses (16 Units)

- PM 526 Communications in Public Health Units: 4
- PM 528 Program Design and Evaluation Units: 4
- PM 562 Intervention Approaches for Health Promotion and Disease Prevention Units: 4
- PM 563 Organizing and Mobilizing Communities for Public Health Units: 4

Concentration Elective Courses (4 units)

AND choose one course (4 units) from the following:

- PM 529 Environmental Health: An Epidemiological Approach Units: 4 OR
- PM 536 Program Evaluation and Research Units: 4

Biostatistics/Epidemiology Concentration

Required Concentration Courses (16 Units)

- PM 511A Data Analysis Units: 4
- PM 511BL Data Analysis Units: 4
- PM 527 Epidemiology of Infectious Disease Units: 4
- PM 537 Chronic Disease Epidemiology Units: 4

Concentration Elective Courses (4 units)

AND choose one course (4 units) from the following:

- PM 529 Environmental Health: An Epidemiological Approach Units: 4 OR
- PM 536 Program Evaluation and Research Units: 4

Global Health Concentration

Required Concentration Courses (16 Units)

- PM 525 Culture and Health: Global Perspectives Units: 4
- PM 565 Introduction to Global Health Units: 4
- PM 576 Global Health Research and Programs Units: 4
- PM 577 Global Health, Law and Human Rights: Concepts and Methods Units: 1, 2, 3, 4

Concentration Elective Courses (4 units)

AND choose one course (4 units) from the following:

- PM 529 Environmental Health: An Epidemiological Approach Units: 4 OR
- PM 536 Program Evaluation and Research Units: 4

Health Services and Policy Concentration

Required Concentration Courses (16 Units)

- PM 504 Quality in Health Care Units: 4
- PM 547 Public Health Policy and Politics Units: 4
- PPD 503 Economics for Public Policy Units: 4
- PPD 542 Policy and Program Evaluation Units: 4
Concentration Elective Courses (4 units)
AND choose one course (4 units) from the following:
- PM 529 Environmental Health: An Epidemiological Approach
  Units: 4
OR
- PM 577 Global Health, Law and Human Rights: Concepts
  and Methods Units: 1, 2, 3, 4

GeoHealth Concentration
Required Concentration Courses (16 Units)
- SSCI 581 Concepts for Spatial Thinking Units: 4
- SSCI 583 Spatial Analysis and Modeling Units: 4
- SSCI 586 Cartography and Visualization Units: 4
- SSCI 591 Web and Mobile GIS Units: 4

Concentration Elective Courses (4 units)
AND choose one course (4 units) from the following:
- PM 529 Environmental Health: An Epidemiological Approach
  Units: 4
OR
- PM 536 Program Evaluation and Research Units: 4

Generalist Concentration
Admission to this track will be limited to students to have already obtained an advanced graduate or professional degree (e.g., JD, PhD, MD, etc.) or those currently enrolled in an accredited U.S. based medical degree program (MD).

Required Concentration Courses (20 units)
Students will complete 20 units of course work through courses identified with their faculty adviser in an individualized program of instruction that has been tailored to their background and career plans in public health.

Public Health Data Science (MS)
The MS in Public Health Data Science degree program consists of required courses in Biostatistics, Epidemiology, and Computing in addition to at least one elective course chosen to complement one or more of these areas. From the required courses, students will learn the foundations of Data Science, including developing the coding skills to acquire, manage and analyze large, noisy health-related datasets.

Students in the MS in Public Health Data Science will learn to wrangle, scrape, create, and manage large health-related datasets; summarize, visualize, and interpret data; apply statistical methods to draw conclusions from the data; use machine learning to reveal features of large, complex health-related datasets; learn the statistical theory behind common data science methods; and effectively communicate results and findings to a broad audience. This program is designed to be a terminal degree, but for students interested in pursuing further education, it can be used to lay the foundation for a PhD in Biostatistics, Statistics, Data Science or Computer Science.

Core Courses
15 units.
- PM 522 Introduction to the Theory of Statistics Units: 3
- PM 566 Introduction to Health Data Science Units: 4
- PM 591 Machine Learning for the Health Sciences Units: 4
- PM 592 Regression Analysis for Health Data Science Units: 4

Note:
PM 522a will be waived for this program. Students must have taken an equivalent course during their undergraduate studies.

Population and Public Health Requirement
Choose 1 class; 3-4 units
- PM 502 Foundations of Public Health Units: 4
- PM 503 Practice of Public Health Units: 4
- PM 504 Quality in Health Care Units: 4
- PM 508 Health Service Delivery in the U.S. Units: 4
- PM 511cL Data Analysis Units: 4
- PM 512 Principles of Epidemiology Units: 4
- PM 513 Experimental Designs Units: 3
- PM 518a Statistical Methods for Epidemiological Studies I, II Units: 3
- PM 523 Design of Clinical Studies Units: 3
- PM 533 Genetic and Molecular Epidemiology Units: 3
- PM 536 Program Evaluation and Research Units: 4
- PM 538 Introduction to Biomedical Informatics Units: 3
- PM 547 Public Health Policy and Politics Units: 4
- PM 552 Statistical Methods in Clinical Trials Units: 3
- PM 569 Spatial Statistics Units: 3
- PM 579 Statistical Analysis of High-Dimensional Data Units: 4

Computing Requirement
Choose 1 class; 4 units
- CSCI 544 Applied Natural Language Processing Units: 4
- CSCI 561 Foundations of Artificial Intelligence Units: 4
- CSCI 570 Analysis of Algorithms Units: 4
- CSCI 585 Database Systems Units: 4
- CSCI 587 Geospatial Information Management Units: 4
- DSCI 510 Principles of Programming for Data Science Units: 4
- DSCI 550 Data Science at Scale Units: 4
- DSCI 551 Foundations of Data Management Units: 4
- DSCI 553 Foundations and Applications of Data Mining Units: 4
- DSCI 554 Data Visualization Units: 4

Electives
Remaining units; choose any course listed above
- MATH 501 Numerical Analysis and Computation Units: 3
- PM 516a Statistical Problem Solving Units: 1
- PM 516b Statistical Problem Solving Units: 1
- PM 520L Advanced Statistical Computing Units: 3
- PM 534 Statistical Genetics Units: 3
- PM 542 Social Network Analysis Units: 4
- PM 560 Statistical Programming With R Units: 2
- PM 570 Statistical Methods in Human Genetics Units: 4
- PM 574 Programming In Modern Statistical Software Units: 2
- PMEP 547 Programming Methods for Empirical Analysis of Health Data Units: 4

Practicum
3 units.
- PM 606 Health Data Science Practicum Units: 3

Minimum Units Required: 32

Speech-Language Pathology (MS)
The Master of Science in Speech-Language Pathology (MS-SLP) will provide the graduate level academic and clinical training to enter the field of speech-language pathology. Graduates will be trained in the prevention, assessment and intervention for individuals with communication and swallowing disorders across settings and across the lifespan.

The professional entry-level Master of Science (MS) in Speech-Language Pathology is a rigorous full-time program. Students must meet all admission requirements, including prerequisite courses identified by the American Speech-Language-Hearing Association (ASHA) and must have either a bachelor’s degree in Communication Sciences and Disorders (CSD) or Speech-Language Pathology or the equivalent. These undergraduate and/or post-baccalaureate programs must be completed at a program from an accredited university in the United States.

The curriculum comprises six semesters over two years, consecutive enrollment in a cohort model. The program includes both academic courses and clinical practicum courses for a total of 69 units. Clinical experiences are assigned by the program to meet the 400 hours of clinical experiences in different settings across the life span, per ASHA requirements.

Core Requirements
Students enrolled in the MS-SLP are required to take all
designated core courses to fulfill degree requirements, for a total of 69 units.

- OHNS 500 Neuroanatomy and Neurophysiology for Speech, Language and Hearing Units: 3
- OHNS 501 Speech Sound Disorders Units: 3
- OHNS 502 Language and Literacy Disorders Units: 3
- OHNS 504 Speech-Language Pathology Methods and Evidence-Based Practice Units: 3
- OHNS 505 Audiology for Speech-Language Pathologists Units: 2
- OHNS 506 Autism Spectrum Disorder, AAC and Cognitive Communication Disorders in Children Units: 3
- OHNS 507 Voice and Resonance Disorders Units: 3
- OHNS 509 Assessment of Communication Disorders Units: 3
- OHNS 509 Dysphagia Units: 3
- OHNS 510 Clinical Practicum in Speech-Language Pathology Units: 2
- OHNS 511 Aural (Re)Habilitation Units: 3
- OHNS 512 Communication Disorders in Early Childhood Units: 3
- OHNS 513 Adult Neurogenic and Related Cognitive Communication Disorders Units: 3
- OHNS 514 Clinical Rotations in Speech-Language Pathology Units: 3 *
- OHNS 515 School-Based Issues in Speech-Language Programs Units: 3
- OHNS 516 Motor Speech Disorders/Craniofacial Disorders Units: 3
- OHNS 517 Multicultural Issues in Speech-Language Pathology Units: 2
- OHNS 518 Research/Capstone in Communication Sciences and Disorders Units: 1 **
- OHNS 519 Externship in Speech-Language Pathology Units: 3 *
- OHNS 520 Professional Issues in Speech-Language Pathology Units: 1
- OHNS 521 Fluency Disorders Units: 2
- OHNS 522 Telepractice and Technological Applications in Speech-Language Pathology Units: 2
- OHNS 523 Counseling in Speech-Language Pathology Units: 2

Note:
* Students must enroll in OHNS 514 and OHNS 519 twice, for a total of 6 units each.
** Students must enroll in OHNS 518 twice, for a total of 2 units.

**Stem Cell Biology and Regenerative Medicine (MS)**

Stem cell biology is one of the newest and most powerful approaches in biomedical science; it offers the opportunity to experimentally approach previously intractable biological questions, create models of human disease and develop cell-based therapeutics.

This intensive one-year program (with an optional second year) will give students a deep understanding of the scientific and clinical underpinnings of stem cell biology and regenerative medicine. The program includes three didactic lecture courses that address developmental cell biology and human embryology, stem cell biology and regenerative medicine, and translational and therapeutic aspects of stem cell technology. The program also includes two laboratory modules that provide guided hands-on experience with stem cells and stem cell laboratory approaches, and several different faculty-led discussion-based courses that allow detailed investigation within specific aspects of stem cell biology and regenerative medicine.

Students completing this program will be well-positioned to proceed to medical or PhD programs, find laboratory or administrative employment in the growing stem cell pharmaceutical domain, or engage in public policy or regulatory administration of academic, clinical or business efforts in this expanding discipline.

California is globally recognized as the worldwide center of stem cell science, and USC has invested significantly in building the new Department of Stem Cell Biology and Regenerative Medicine at the Keck School of Medicine of USC, within which this MS program is based and administered.

**Degree Requirements**

Graduation requires completion of 27 units, according to the required Year One course schedule outlined below. None of these courses may be substituted or waived.

This program is intended to be completed within one academic year, and does not include a requirement for independent laboratory research or a thesis. Students may request approval to undertake laboratory research and continuing course work during a second year research option; students must already be matriculated into the program before making this request, and not all students will be granted this opportunity (selection will be based on academic performance and student research interests, and on availability of laboratory space). During this optional second year, students must enroll in the required Year two courses listed below; none of these courses may be substituted or waived.

**Year One, Fall Semester**

Required Courses (14 Units):
- DSR 620 Current Topics in Stem Cell Biology and Organogenesis Units: 1
- SCRM 511 Developmental Biology and Human Embryology Units: 4
- SCRM 513 Stem Cells and Regenerative Medicine Units: 4
- SCRM 525 Tools and Techniques in Stem Cell Biology Units: 2
- SCRM 555 Writing About Stem Cell Biology and Regenerative Medicine Units: 1
- SCRM 580 SCRM External Speaker Seminar Series Units: 2

**Year One, Spring Semester**

Required Courses (11 Units + one required elective (2 Units) = 13 Units):
- DSR 610 Current Topics in Regenerative Medicine Units: 1
- SCRM 515 Bringing Stem Cells to the Clinic Units: 4
- SCRM 522L Biological Imaging in Stem Cell Research Units: 2
- SCRM 524L Culture and Differentiation of Human Pluripotent Stem Cells Units: 2
- SCRM 580 SCRM External Speaker Seminar Series Units: 2

**Year One, Spring Semester: General Elective Courses**

Select one course from the following:
- SCRM 517 Historical and Contemporary Stem Cell Research Units: 2
- SCRM 519 Historical and Contemporary Research: Neural Stem Cells Units: 2
- SCRM 521 Historical and Contemporary Research: Tissue Development Engineering Units: 2

**OPTIONAL Year Two Research, Fall Semester**

- DSR 574 Stem Cell and Developmental Biology Seminar Series Units: 1
- DSR 620 Current Topics in Stem Cell Biology and Organogenesis Units: 1
- SCRM 580 SCRM External Speaker Seminar Series Units: 2
- SCRM 590 Independent Research Units: 1, 2, 3, 4

**OPTIONAL Year Two Research, Spring Semester**

- DSR 574 Stem Cell and Developmental Biology Seminar Series Units: 1
- DSR 610 Current Topics in Regenerative Medicine Units: 1
- SCRM 580 SCRM External Speaker Seminar Series Units: 2
- SCRM 590 Independent Research Units: 1, 2, 3, 4
Stem Cell Biology and Regenerative Medicine with Research Year (MS)

Stem cell biology and regenerative medicine is one of the newest and most powerful approaches in biomedical science; it offers the opportunity to experimentally approach previously intractable biological questions, create models of human disease and develop cell-based therapeutics.

Program Description

This two-year program will give students a deep understanding of the scientific and clinical underpinnings of stem cell biology and regenerative medicine. In the first year, the program includes three didactic lecture courses that address developmental biology and human embryology, stem cell biology and regenerative medicine and translational and therapeutic aspects of stem cell technology. The program also includes two laboratory modules that provide guided hands-on experience with stem cells and stem cell laboratory approaches, along with several faculty-led discussion-based courses that allow detailed investigation within specific aspects of stem cell biology and regenerative medicine.

During the second year, under the mentorship of department faculty, students will extend their educational experience with two additional seminar courses (DSR 620 and DSR 610) and apply methodologies used in stem cell biology and regenerative medicine to create an independent capstone project. This capstone project (SCRM 594a, SCRM 594b, SCRM 594z) will involve assembling a thesis committee, meetings with the committee, preparing a thesis to be submitted to the USC library and a public defense.

Applicants to this program must have a bachelor’s degree or its equivalent from an accredited institution with a minimum grade point average of 3.0 (A = 4.0) in undergraduate work. Other materials required include: official transcripts, two letters of recommendation and a Statement of Purpose. The Statement of Purpose should succinctly describe the reasons for applying to the program, the preparation for this field of study, academic interests, future career plans and any other aspects of the applicant’s background that may aid the admissions committee in evaluating aptitude and motivation for graduate study in this field.

Students enrolled in the MS Program in Stem Cell Biology and Regenerative Medicine (without thesis) can petition to transfer at the completion of year 1 if they are in excellent academic standing. These students must obtain approval from both the Thesis Mentor and Program Director.

Students completing this degree will be well-positioned to proceed to PhD or medical programs, find laboratory or administrative employment in the pharmaceutical and biotechnology domains, engage in public policy or administration of academic, clinical or business efforts in the expanding discipline of regenerative medicine.

Learning Objectives

1. Describe foundational concepts in stem cell and developmental biology and translational biology.
2. Explain the principles underlying the equipment, reagents, databases and methods commonly used for research in stem cell biology and regenerative medicine.
3. Develop critical thinking skills by analysis of experimental data in published literature.
4. Outline the steps of the research process, state key research criteria and pitfalls, and design a credible and meaningful research project.
5. Evaluate current issues and approaches in stem cell biology through writing and oral presentation.
6. Implement and manage academic sources and citations to competently and efficiently produce documents.
7. Create original research which will if appropriate, entail trouble shooting, hypothesis testing and data analysis.
8. Defend a master’s thesis succinctly, in written and oral forms, to faculty, mentors and potential collaborators.

Degree Requirements

Graduation requires completion of 35 units according to the course schedule outlined below. This program is intended to be completed within two academic years and culminates with the completion of a capstone project to be presented and defended as part of SCRM 594a, SCRM 594b, SCRM 594z.

Year One, Fall Semester (14 units)

Required Courses:
- DSR 620 Current Topics in Stem Cell Biology and Organogenesis Units: 1
- SCRM 511 Developmental Biology and Human Embryology Units: 4
- SCRM 513 Stem Cells and Regenerative Medicine Units: 4
- SCRM 525 Tools and Techniques in Stem Cell Biology Units: 2
- SCRM 580 SCRM External Speaker Seminar Series Units: 2

Year One, Spring Semester (13 units)

Required Courses and one Elective:
- DSR 610 Current Topics in Regenerative Medicine Units: 1
- SCRM 519 Historical and Contemporary Stem Cell Research Units: 2
- SCRM 521 Historical and Contemporary Research: Neural Stem Cells Units: 2
- SCRM 521 Historical and Contemporary Research: Tissue Development Engineering Units: 2

Year Two, Fall Semester (3-5 units)*

- SCRM 590 Independent Research Units: 1, 2, 3, 4 (1 unit required)
- SCRM 594a Master’s Thesis Units: 2

Year Two, Spring Semester (3-5 units)*

- SCRM 590 Independent Research Units: 1, 2, 3, 4 (1 unit required)
- SCRM 594b Master’s Thesis Units: 2

Year Two Electives

*Select 2 units from the following electives to be taken in either fall or spring of year two.
- SCRM 517 Historical and Contemporary Stem Cell Research Units: 2
- SCRM 519 Historical and Contemporary Stem Cell Research Units: 2
- SCRM 521 Historical and Contemporary Research: Neural Stem Cells Units: 2
- SCRM 521 Historical and Contemporary Research: Tissue Development Engineering Units: 2

Translational Biomedical Informatics (MS)

Keck School of Medicine of USC
Harlyne J. Norris Cancer Research Tower
1450 Biggy St. NRT 2508
Los Angeles, CA 90089-9601

Email: davidwcraig@usc.edu
Program Director: David W. Craig, PhD

Program Summary

The Department of Translational Genomics is offering a Master of Science (MS) degree in Translational Biomedical Informatics. This MS program aims to train medical students, fellows and
other healthcare scientists in biomedical informatics, specifically around translational applications in human health and care moving from bench to bedside. The goal of this program is to provide individuals with a solid biology or medical background a program a degree grant mechanism for transitioning from the bench to the dry-lab in academic biomedical research, clinical research and pharmaceutical research. Graduates will have the practical skills to understand molecular biology, systems biology, structural biology, proteomics, genomic sequencing and genomic tools and datasets.

The program focuses on training in human biomedical informatics centered around applications in healthcare and biomedical research. Students will learn to effectively implement, develop, and design analytical solutions within for different healthcare applications from prototyping to production. Moreover, students will learn by application with a major emphasis on data analysis, data processing, and interpretation of next-generation sequencing (NGS) datasets. Students will be trained and gain an understanding of modern web-development frameworks, and how to extract and interact with a wide variety of databases spanning open access frameworks to restricted and regulated frameworks. A capstone project helps students build an on-line portfolio that showcases both their ability to conduct complex analysis and share their results through interactive web-applications.

The program is intended to be flexible, and attract applicants with training in biology, medicine, and related biomedical disciplines. It will focus on individuals with a background in biology and medicine, and is not intended or appropriate for those with computer engineering and software degrees.

Admission
Applicants should have a minimum cumulative undergraduate GPA 3.0. Applicants should have two semesters/three quarters of General Biology; two semesters/two quarters of General Chemistry, and one semester/one quarter of Statistics.

A minimum score of 300 on the Graduate Record Examinations (GRE) General Test is required. In lieu of GRE, DAT (minimum 15), MCAT (minimum 26 pre-2015 or 505 post-2015) or USMLE may be submitted. Applicants must also supply a statement of purpose and three letters of recommendation from evaluators qualified to assess their potential for graduate work. Please visit program website for additional information on admission and application procedures.

Advisement
The program recommends that students meet with an academic adviser of the program each semester prior to registration.

Satisfactory Academic Progress
A graduate GPA of at least 3.0 is required at all times. Any student whose graduate GPA falls below 3.0 will be placed on academic probation. Students on academic probation who do not raise their GPA to 3.0 after two semesters of written notification of academic probation will be academically disqualified.

A minimum of 28 units of graduate level course work is required for graduation.

Required (20 Units)
- TRGN 510 Basic Foundations in Translational Biomedical Informatics Units: 4
- TRGN 514 Introduction to Human Genomic Analysis Methods Units: 4
- TRGN 515 Advanced Human Genomic Analysis Methods Units: 4
- TRGN 516 Translational Genomics, Applied Databases and Datastructures Units: 4
- TRGN 520 Translational Biomedical Informatics Capstone Portfolio Units: 2, 3, 4

Electives (8 Units)
- BME 528 Medical Diagnostics, Therapeutics and Informatics Applications Units: 4
- DSCI 510 Principles of Programming for Data Science Units: 4
- DSCI 549 Introduction to Computational Thinking and Data Science Units: 4
- DSCI 550 Data Science at Scale Units: 4
- NIIN 500 Neuroimaging and Systems Neuroscience Units: 3
- NIIN 540 Neuroimaging Data Processing Methods Units: 3
- PM 510L Principles of Biostatistics Units: 4
- PM 533 Genetic and Molecular Epidemiology Units: 3
- PM 538 Introduction to Biomedical Informatics Units: 3
- PM 544L Multivariate Analysis Units: 3
- PM 566 Introduction to Health Data Science Units: 4
- PM 570 Statistical Methods in Human Genetics Units: 4
- PM 591 Machine Learning for the Health Sciences Units: 4
- TRGN 524 Applications of Genomic Technology in Biomedical Research I Units: 4
- TRGN 525 Applications of Genomic Technology in Biomedical Research II Units: 4
- TRGN 526 Clinical Bioinformatics in Genomic Testing Units: 2
- TRGN 527 Applied Data Science and Bioinformatics Units: 4
- TRGN 537 Pathway and Target Discovery Units: 4
- TRGN 539 Translational Biotechnology Practicum Units: 2, 3, 4
- TRGN 543 Biotechnology Entrepreneurship and Commercialization I Units: 2
- TRGN 544 Biotechnology Entrepreneurship and Commercialization II Units: 2
- QBIO 478 Computational Genome Analysis Units: 4

Translational Biotechnology (MS)
Keck School of Medicine of USC
Harlyne J. Norris Cancer Research Tower
1450 Biggy St. NRT 2508
Los Angeles, CA 90089-9601

Program Director: Carol S. Lin, PhD, MAE
keck.usc.edu/translational-biotechnology-program/
dtg.usc.edu/education/translational_biotech

Keck School of Medicine Department of Translational Genomics offers a Master of Science (MS) degree in Translational Biotechnology. This program combines a unique curriculum and distinctive practical training that exposes students to biotechnology and its applications in translating genomic and molecular insights into developing novel therapies and precision medicine. Drawing strength from the Keck School of Medicine faculty's education, research, and practice expertise, this program educates students on approaches used in the academic research, biotechnology and medical sciences industries.

Program Summary
Students in this program will gain an understanding of:
- the science of human diseases and their interventions
- the role of biotechnology in developing new therapies and precision medicine
- the scope of issues and decisions faced by collaborating basic and clinical researchers in the bench-to-bedside process
- the regulatory framework that impacts the use of new interventions
- the private and public capital that develop the growing biotechnology and biomedical markets

The program is ideal for those who are passionate about biomedical sciences and would like a career in biotechnology beyond laboratory research.

Students with a moderate biology background have the opportunity to extend their course work in biotechnology and biological sciences and continue in these fields.

Professionals in management, investment, regulatory affairs or law in the biotechnology industry are able to extend their knowledge of the science behind this industry, enabling them to make better decisions regarding this rapidly developing technology.
• Students interested in doctoral programs or professional degree programs, such as medical school and law school, will build a strong foundation in biotechnology prior to applying to their top programs of study.

Admission
Admission requirements include a minimum GPA of 3.0 and an undergraduate major in biological sciences, or at least 6 bioscience courses in the molecular, cellular, genetics and biochemistry topics.

A minimum score of 300 on the Graduate Record Examinations (GRE) General Test is required. In lieu of GRE, DAT (minimum 18), MCAT (minimum 28 pre-2015 or 505 post-2015) or USMLE may be submitted. Applicants must also supply a statement of purpose and three letters of recommendation from evaluators qualified to assess their potential for graduate work. Please visit program website for additional information on admission and application procedures.

Advisement
The program requires that students meet with an academic adviser of the program each semester prior to registration.

Satisfactory Academic Progress
A graduate GPA of at least 3.0 is required at all times. Any student whose graduate GPA falls below 3.0 will be placed on academic probation. Students on academic probation who do not raise their GPA to 3.0 after two semesters of written notification of academic probation will be academically disqualified.

A minimum of 28 units of graduate level course work is required for graduation.

Core Lecture Courses (Required, 12 Units)
Students with strong background in biotechnology may substitute TRGN 536 with another appropriate course, with permission of the program director. A minimum grade point average of 3.0 on all core courses is required.

• TRGN 536 Biotechnology Primer Units: 4
• TRGN 537 Pathway and Target Discovery Units: 4
• TRGN 538 Seminar in Translational Biotechnology Units: 2
• TRGN 543 Biotechnology Entrepreneurship and Commercialization I Units: 2

Experiential Learning (Required, 7 Units)
Experiential learning includes a total of 4 units of TRGN 539 plus two Capstone courses. This program does not require a thesis. Instead, students are required to defend their program capstone through TRGN 540 and TRGN 541, which include practicum conclusion, reflective narratives, and portfolio presentation.

• TRGN 539 Translational Biotechnology Practicum Units: 2, 3, 4
• TRGN 540 Translational Biotechnology Capstone Preparation Units: 1
• TRGN 541 Translational Biotechnology Capstone Defense Units: 2

Electives (At least 9 Units)
At least 4 units must be from TRGN. No more than 4 units of TRGN 590 may be used to fulfill degree requirements.

• BAEP 551 Introduction to New Ventures Units: 3
• BAEP 552 Venture Feasibility Units: 3
• BAEP 561 Entrepreneurship in Innovative Industries: Life Sciences Units: 1.5
• BAEP 563 Corporate Entrepreneurship Units: 3
• INTD 504 Molecular Biology of Cancer Units: 4
• INTD 531 Cell Biology Units: 4
• INTD 572 Medical Physiology I Units: 4
• INTD 573 Medical Physiology II Units: 4
• TRGN 510 Basic Foundations in Translational Biomedical Informatics Units: 4
• TRGN 514 Introduction to Human Genomic Analysis Methods Units: 4
• TRGN 515 Advanced Human Genomic Analysis Methods Units: 4
• TRGN 516 Translational Genomics, Applied Databases and Datastructures Units: 4
• TRGN 524 Applications of Genomic Technology in Biomedical Research I Units: 4
• TRGN 525 Applications of Genomic Technology in Biomedical Research II Units: 4
• TRGN 526 Clinical Bioinformatics in Genomic Testing Units: 2
• TRGN 527 Applied Data Science and Bioinformatics Units: 4
• TRGN 542 Biotechnology-based Therapeutics Units: 2
• TRGN 544 Biotechnology Entrepreneurship and Commercialization II Units: 2
• TRGN 545 Exploring Chemical and Biological Therapeutic Modalities Units: 2
• TRGN 546 Biotechnology Intellectual Property, Regulatory, and Corporate Law Units: 2
• TRGN 550 Communicating Science: Writing Units: 1
• TRGN 551 Communicating Science: Speaking Units: 1
• TRGN 590 Directed Research Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12
• TRGN 599 Special Topics Units: 1, 2, 3, 4, 5, 6, 7, 8

Dual Degree
Doctor of Medicine/Master of Business Administration (MD/MBA)
In response to the ongoing reorganization of health care delivery systems, and the growing awareness of the impact of business decisions on health care, the Keck School of Medicine and the USC Marshall School of Business jointly offer an innovative program for individuals seeking knowledge in both medicine and business administration. The program is designed to prepare its graduates to assume leadership in the design and management of health care systems.

The MD/MBA program spans five years. Interested students apply during their second or third year of medical school, and begin required MBA courses following successful completion of the first two or first three years of medical school. The remaining time is devoted to the clinical clerkships of the Keck School of Medicine and completion of graduate business elective courses. At the conclusion of the program, students will have completed 48 units in the Marshall School of Business, including required and elective courses, and four years of courses in the Keck School of Medicine. Dual degree students may not count courses taken outside the Marshall School of Business toward the 48 units.

First and Second Years: Required medicine courses.
Third or Fourth Year: Required MBA courses and graduate business electives.

Remaining Years: Keck School of Medicine core, selective and elective clerkships and graduate business electives.

Admission Requirements
Students who have a baccalaureate degree from an accredited college or university and have successfully completed at least two years in the Keck School of Medicine will be considered for admission to the Marshall School of Business. Requirements for admission to the regular MBA Program (with the exception of the GMAT) must be fulfilled by the medical student for admission to the Marshall School.

The MD and the MBA degrees are awarded simultaneously upon completion of their requirements by the Keck School of Medicine and the Marshall School of Business.

Doctor of Medicine/Master of Public Health (MD/MPH)
The joint MD/MPH program at the Keck School of Medicine is designed for individuals who envision a medical career that combines public health and medical disciplines. Many individuals entering careers as medical doctors or public health practitioners wish to acquire not only medical practice competencies, but also
an understanding of the history, organization, goals and philosophy of public health. The joint MD/MPH program offers a broad-based orientation to public health while the student completes medical school requirements. The Master of Public Health degree provides increased knowledge of and sensitivity to the political, historical, economic and social environments of health promotion and health services delivery.

The MD/MPH program can be completed in five years. After the successful completion of at least the first two years of medical school, students take one year off from medical school to complete the MPH program in one year. Upon completion of the MPH program, students will return to medical school. The remainder of the program is devoted to clinical clerkships of the School of Medicine.

Students who are enrolled in the Keck School of Medicine must apply to the Master of Public Health program no later than January of their third year. All requirements for admission to the regular MPH program must also be fulfilled by dual degree applicants.

All students in the MD/MPH program must meet course requirements, grade point average requirements and program proficiency requirements of both programs. Students must have a grade point average of 3.0 in the MPH curriculum to meet graduation requirements.

The MD and the MPH degrees are awarded simultaneously upon completion of the Keck School of Medicine and the Master of Public Health program requirements. For more information, contact the MPH Program Office at (323) 442-7257.

**Doctor of Medicine/Master of Science, Global Medicine**

The dual degree in Doctor of Medicine and Master of Science in Global Medicine will provide medical students with formal education in the field of global health. Students will benefit from a curriculum that supplements and strengthens their medical knowledge with additional expertise in cultural competence, the specific diseases that affect various populations worldwide, and the unique issues respective to practicing medicine in a developing country or in vulnerable, underserved populations domestically.

**Requirements**

Current enrollment in the Keck School of Medicine MD program and successful completion of at least the first two years of the MD curriculum are required prior to submitting an application to the MS in Global Medicine program for admission to the dual degree program. Students must gain admission to and fulfill the degree requirements for both programs, which include four years of course work for the Doctor of Medicine and 24 units of the MS in Global Medicine (Clinical track only).

For the dual degree with Global Medicine Clinical Track, 24 GM elective units should be successfully completed. The MD and the MS in Global Medicine degrees are awarded simultaneously upon successful completion of both degree requirements.

**Program Adaptation**

For the dual degree with Global Medicine Clinical Track, there are no Global Medicine core unit requirements. Students enrolled in MD/MSGM dual degree will be eligible to apply 2 GM study-abroad elective units and 2 other GM elective units (except MEDS 503, MDS 504, MEDS 520 and MDS 530a, MEDS 530b, MEDS 530c) toward their MD program elective requirements. GM Management Track electives cannot be applied toward either degree requirements.

**Master of Public Health/Doctor of Pharmacy (MPH/PharmD)**

The School of Pharmacy and the Master of Public Health program, in recognition of the rapidly changing health care environment, and in response to the growing demand for pharmacists who are knowledgeable in both pharmacy and population-based health care issues, have developed a dual degree program. The joint PharmD/MPH degree will enable graduates to be more responsive to today's health care needs and will provide training for pharmacists who seek to be agents of change within the profession and to assume leadership roles in the pharmacy field and in public health at the local, state and national levels.

Students who are enrolled in the School of Pharmacy must apply to the Master of Public Health program no later than January of their first year. All requirements for admission to the regular MPH program must also be fulfilled by dual degree applicants.

The PharmD/MPH program spans five years (four years of pharmacy school courses and one year of public health courses). Students begin the core MPH courses following the successful completion of the first year of pharmacy school. The last three years of the program are devoted to course work and the clinical rotations of the School of Pharmacy and to the completion of the elective courses and practicum (field experience) of the MPH program.

All students in the PharmD/MPH program must meet course requirements, grade point average requirements and program residency requirements of both programs. Students must have a cumulative GPA of 3.0 in the PharmD curriculum and a 3.0 in the MPH curriculum to meet graduation requirements.

The PharmD and the MPH degrees are awarded simultaneously upon completion of the School of Pharmacy and the Master of Public Health requirements.

**Admission Requirements and Procedures**

Students applying for the dual degree program must meet the respective admission requirements for each program. This includes having completed a baccalaureate degree from an accredited college or university with a minimum GPA of 3.0 and having acceptable GRE and TOEFL or IELTS scores as applicable. Students will not be given special consideration for admission to either program because they are applying for the dual degree. Students may apply to the dual PharmD/MPH degree program in two ways. First, they may apply at the time they submit their PharmD application by concurrently submitting applications to both programs. Students who elect this approach must identify themselves on both applications as potential dual degree students. Students who are admitted to both programs will be offered admission to the PharmD and will be offered admission to the dual degree program contingent on passing all courses in their first year of the PharmD with a minimum 3.0 GPA. Students who are accepted by only one program may choose to attend that program, but will not be eligible for the dual degree. Second, students can apply to the dual degree by submitting an application to the MPH program during their first year of enrollment in the PharmD prior to the MPH published application deadline. Students who elect this approach must apply through the School of Pharmacy. Students admitted to the MPH program using this approach will be offered admission to the dual degree contingent on passing all courses in their first year of the PharmD with a minimum 3.0 GPA.

**Master of Public Health/Master of Science, Social Entrepreneurship (MPH/MSSE)**

The Master of Public Health/Master of Science in Social Entrepreneurship (MPH/MSSE) dual degree program is designed for individuals who wish to create sustainable solutions to public health challenges through the creation of innovative enterprises and organizations. This program combines the business aspects of social entrepreneurship with the knowledge and understanding of public health challenges and how to improve the health of individuals, communities, and populations, locally and globally. It will enable graduates to become agents of change by equipping them with the tools to build innovative enterprises that balance financial sustainability with public health impact, preparing them uniquely to become leaders in the field.

**Application and Admission**

Applicants to the MSSE/MPH should apply for admission to both schools simultaneously. Information about the application process and admission requirements for the MPH degree is available on the MPH website at pphs.usc.edu.
Information about the application process and admission requirements for the MSSE degree is available on the MSSE website at marshall.usc.edu/msse/admission.

Degree Requirements
The total unit requirement for the MPH/MSSE dual degree is 62 units: 38 units for the MPH degree and 24 units for the MSSE degree.

Students are required to complete 38 units of MPH specific course work, including 18 units of MPH core course work and 20 units of concentration specific course work. Students may choose from any concentration within the MPH program.

Students are required to complete 24 units, including all “Required Courses,” in the Master of Science in Social Entrepreneurship curriculum. Dual degree program students may not count courses taken outside the USC Marshall School of Business toward the MSSE degree. Visit the Social Entrepreneurship (MS) section of this Catalogue for MSSE degree requirements.

Students must have a cumulative GPA of 3.0 in the MSSE curriculum and a 3.0 in the MPH curriculum, in addition to having a minimum 3.0 cumulative overall GPA in all graduate course work taken at USC in order to meet graduation requirements.

The MSSE and the MPH degrees are awarded simultaneously upon completion of all program requirements.

Master of Public Health/Master of Social Work (MPH/MSW)

The Master of Public Health/Master of Social Work (MPH/MSW) dual degree offers the student interdisciplinary preparation in the fields of public health and social work leading to the Master of Social Work (MSW) and Master of Public Health (MPH) degrees.

The dual degree program is a collaborative effort between the USC Suzanne Dworak-Peck School of Social Work and the Department of Preventive Medicine in the Keck School of Medicine. The objectives of the program are to provide students with the knowledge and skills necessary to promote health, prevent disease, and enhance the delivery of health and social services in the community. Students will build interdisciplinary skills and an interdisciplinary professional identity by developing an understanding of the breadth of each field and their interface, while permitting concentration in particular specialization areas. The program prepares graduates for work in a variety of interdisciplinary settings; and for some, it will provide the basis for doctoral study.

Program Requirements:
Students must complete a minimum of 82 units for completion of this dual degree; 48 units in Social Work and 34 units in Public Health. Most students complete both program requirements over three years for full-time students; however, the program may be completed in less time if the student takes a full course load during the two summer sessions (MPH course work only; MSW is not available during the summer).

Course requirements in the Suzanne Dworak-Peck School of Social Work include the required courses outlined in the Social Work (MSW) section of the catalogue. Students will take their remaining MSW units in department core courses specific to either the AMHW, SCI or CYF departments. Students will be advised into the appropriate courses.

Students will take MPH course work specific to the following public health concentrations, based on their chosen MSW department:
* AMHW and CYF Students will take required curriculum in the Community Health Promotion concentration.
* SCI Students will take required curriculum in the Health Services and Policy concentration.

Students in the dual degree program are not required to take the 8 units of concentration electives.

Students must have a cumulative GPA of 3.0 in the MSW curriculum and a 3.0 in the MPH curriculum to meet graduation requirements.

Master of Science, Global Medicine/Doctor of Pharmacy (PharmD/MS)
The dual degree in Pharmacy and Global Medicine is designed for students who are interested in providing pharmaceutical care to underserved populations around the world. Students enrolled in this dual degree program will benefit from an advanced understanding of the role of, and issues surrounding, modern medicine in developing countries.

Requirements
Students must gain admission to and fulfill the degree requirements for both programs, which include 136 units for the Doctor of Pharmacy and 24 units for the MS in Global Medicine. Six units of MEDS elective units can be used toward the PharmD elective requirement, and PHRD 503 and PHRD 504 substitute for MEDS 503 and MEDS 504.

Program Adaptation
Because MEDS 503 and MEDS 504, core requirements for the MS in Global Medicine program, cover the same material as PHRD 503 and PHRD 504, the PharmD/Global Medicine dual degree program substitutes PHRD 503 and PHRD 504 for MEDS 503 and MEDS 504 as core requirements for the dual degree.

Medicine (MD/PhD)
Departments and programs of the University of Southern California and the California Institute of Technology participate in the joint MD/PhD degree program administered by the USC Graduate School, the Keck School of Medicine and the California Institute of Technology. This program integrates the medical school curriculum with graduate curricula in the basic sciences, to provide a unified course of study leading to both the MD and PhD degrees.

This program is especially designed to prepare highly qualified students for careers in academic medicine and medical research. Formal course work and dissertation research provide the student with in-depth scientific preparation and research experience which enhances the application of basic science information to the diagnosis, treatment and prevention of disease. Conversely, the PhD education becomes more meaningful because of its disease-oriented emphasis.

The curriculum for MD/PhD students differs from that of PhD graduate students in the basic sciences in that the former take medical school courses as well as selected graduate level basic science courses and specific courses designed for MD/PhD students. The integrated training of the MD/PhD program enables students to compress their total academic effort by applying some course work toward the requirements of both degrees. On average, completion of the combined program requires a total of eight years.

The following graduate programs from the Keck School of Medicine participate in the MD/PhD program:
- Cancer Biology and Genomics
- Development, Stem Cells and Regenerative Medicine
- Medical Biology
- Molecular Structure and Signaling
- Biological Sciences/Neurosciences, Molecular and Computational Biology
- Engineering
- Preventive Medicine (Biostatistics, Epidemiology, IPR/Health Behavior, Molecular Epidemiology)

Selected graduate programs from the USC Viterbi School of Engineering and the USC Dornsife College of Letters, Arts and Sciences also participate in the combined degree program.

Time limits for qualifying examinations and other procedures are determined by considering MD/PhD students as medical students for the periods when they are following the medical curriculum and as full-time graduate students during their years of graduate research prior to advancement to the Junior/Senior Continuum.

MD/PhD candidates have the option of pursuing a laboratory experience before beginning the Year I medical curriculum through a laboratory rotation at either USC or the California Institute of
Technology. This laboratory experience is strongly encouraged although not required.

During the first two years of their program, MD/PhD students follow the medical school curriculum and gain added exposure to research faculty through a special survey course. Students are guided by the MD/PhD executive committee, which outlines the integration of the graduate program with the medical school curriculum and serves as the students’ liaison until they have selected a graduate program and graduate research adviser. The graduate programs vary widely in the extent to which they allow credit toward the PhD for courses taken during the first two years of medical school. MD/PhD students are encouraged to select a graduate program by early spring of the second year of medical school. Students are required to apply for admission to the PhD program of their choice by the recommended deadline on the graduate application.

Prior to entering PhD studies, the Keck School of Medicine allows MD/PhD candidates the option of beginning their clinical training by taking a clinical clerkship. This can provide an early introduction to clinical medicine and a context for integration with the basic sciences of the thesis years.

Beginning with the third year of the MD/PhD program, students enter their selected program as full-time graduate students. Although the content of graduate courses required of MD/PhD students is generally identical to that required of PhD students in the same graduate program, MD/PhD students are permitted greater latitude in the scheduling of their graduate courses. Four years are commonly necessary to fulfill requirements for the PhD, including course work, qualifying examinations, independent dissertation research, and writing of the dissertation.

After completion of the graduate program, the student is advanced to the Junior/Senior Continuum and completes the final two years of clinical training required by the medical school curriculum. No portion of clinical training is deleted from the joint program. Prior to beginning the clinical component of the joint degree, students will be expected to participate in a clinical shadowing experience, which could be done throughout the PhD studies or as part of an intensive program prior to entering the clinic. MD/PhD students are also required to complete a four-week ambulatory medicine elective upon return to the year 3 curriculum.

Keck School of Medicine-Caltech MD/PhD Program

A joint program between the Keck School of Medicine and the California Institute of Technology (Caltech) was established for the granting of the MD/PhD degree. Students do their preclinical and clinical work at the Keck School of Medicine and their PhD work with any member of the Caltech faculty, including the biology, chemistry, engineering, applied sciences divisions and interdisciplinary programs divisions.

Admission to this joint program is made through the usual Keck/USC MD/PhD process. All applicants are interviewed at Keck School of Medicine and Caltech. Matriculated students in this program have the option of doing their PhD at USC or Caltech. The MD degree will be awarded from the Keck School of Medicine and the PhD from Caltech.

Further information about the MD/PhD program at the Keck School of Medicine may be obtained by contacting: MD/PhD Program, Keck School of Medicine, 1975 Zonal Avenue (KAM 108), Los Angeles, CA 90089-9023; (323) 442-2965, FAX: (323) 442-0386; email mdphdpgm@usc.edu.

Graduate Certificate

Academic Medicine Certificate
University Certificate Programs

Academic Medicine Certificate

Students who do not wish to pursue a Master of Academic Medicine degree at this point may earn a university certificate in Academic Medicine. The certificate requires 12 units of course work. Each learner may only seek a single certificate. There are two options available, the Teaching/Learning Track and the Leadership Track. The teaching learning track provides graduates with the essential principles of teaching and learning needed to integrate teaching principles, teaching techniques and assessment methods within the health professions to effectively teach health professions’ learners at all levels: undergraduate, graduate and continuing education. The leadership track is designed to prepare those in academic medicine for leadership positions, for example assistant/associate dean, program director (including assistant or associate), designated institutional officer and associate or vice chair for education. After completion of the certificate, if a learner decides to go on to pursue a Master of Academic Medicine (MACM) degree all 12 units of the certificate can be applied to the MACM degree.

All students begin with the core course: ACMD 501 (Introduction to Academic Medicine Worldwide, 3 units). Students then take two required courses (6 units) related to their selected track. Each student completes the 12-unit certificate with 3 units of elective course work from the courses available within the Master of Academic Medicine program. All courses should be selected with the approval of the learner’s adviser.

Academic Medicine Certificate (all learners)

All certificate students are required to take the core course.

• ACMD 501 Introduction to Academic Medicine Worldwide

Units: 3

Teaching/Learning Track

Students in the Teaching/Learning track must select two of the three courses below (6 units).

• ACMD 511 Competencies in Academic Medicine and Health I Units: 3
• ACMD 512 Competencies in Academic Medicine and Health II Units: 3
• ACMD 513 Professionalism in Academic Medicine and Health Units: 3

Leadership Track

Students in the Leadership track must take the two courses listed below to provide core skills in leadership (6 units).

• ACMD 502 Becoming a Leader in Academic Medicine Worldwide Units: 3
• ACMD 503 Leading Change in Academic Medical Centers Units: 3

Elective

All certificate students are required to take 3 units of elective course work from the courses available within the Master of Academic Medicine program. All courses should be selected with the approval of the learner’s adviser.

Clinical, Biomedical and Translational Investigations Certificate

Students who do not wish to pursue an MS degree may earn a university certificate in clinical, biomedical, and translational investigations. The certificate program requires 12 didactic credits and a minimum of six months (PM 590 Directed Research 3 units) of practical experience working on a research project approved by the faculty mentor and co-directors.

Community Health Promotion Certificate

The online graduate certificate in Community Health Promotion provides training in key theories and techniques in community health promotion. This training is aimed at working professionals coming from a variety of backgrounds who wish to advance their knowledge and skills in community health promotion, such as public health administrators, physicians, nurses, clinical research professionals and policy analysts, among others. It is also an excellent starting point for those interested in public health. Participants will be introduced to key theories and techniques for community health promotion, the specifics of intervention development and delivery and how these might vary across settings, behaviors and strategies, and techniques and strategies,
The online certificate in Global Health and Human Rights Leadership provides interdisciplinary leadership training in key aspects of global health, human rights, law, management and leadership for global health professionals. Training is aimed at professionals in or seeking leadership positions in health, including within the private non-profit and public sectors. Participants are introduced to key concepts and trends in global health, the application of human rights to health, management and leadership skills in public health and how to develop compliance programs. Courses are taken online through both the Keck School of Medicine (12 units) and the Gould School of Law (2 units) for a total of 14 units. The program can be completed in as few as three semesters or over the course of three years.

Applicants for the certificate must make a formal application for admission to the certificate program and provide transcripts of all undergraduate and graduate institutions attended (if applicable), a resume and a statement of purpose. The GRE is not required.

This certificate program can serve as a possible “stepping stone” toward the Master of Public Health (MPH) degree program. Up to 12 units may be applied toward both the certificate and the core or electives in the MPH. Note that students must apply and be admitted to the MPH program and must earn a grade of "B" or better in a course to be eligible to transfer that course toward the degree program. Completion of the certificate does not automatically guarantee admission to the MPH program. Also note that students enrolled in the Community Health Promotion concentration of the MPH program are not eligible.

The certificate in Community Health Promotion is also open to students who are currently enrolled in another graduate program at USC and are in good standing with a 3.0 GPA. These students only need to submit the appropriate paperwork, which may be obtained from the student services adviser, and pay associated tuition costs for adding the certificate program.

Required Courses
The following courses are required to earn the certificate (12 units total).

- PM 501 Foundations in Health Education and Promotion Units: 4
- PM 562 Intervention Approaches for Health Promotion and Disease Prevention Units: 4
- PM 563 Organizing and Mobilizing Communities for Public Health Units: 4

**Global Health and Human Rights Leadership Graduate Certificate**

The online certificate in Global Health and Human Rights Leadership provides interdisciplinary leadership training in key aspects of global health, human rights, law, management and leadership for global health professionals. Training is aimed at professionals in or seeking leadership positions in health, including within the private non-profit and public sectors. Participants will be introduced to key concepts and trends in global health, the application of human rights to health, management and leadership skills in public health and how to develop compliance programs. Courses are taken online through both the Keck School of Medicine (12 units) and the Gould School of Law (2 units) for a total of 14 units. The program can be completed in as few as three semesters or over the course of three years.

Applicants for the certificate must make a formal application for admission to the certificate program and provide transcripts of all undergraduate and graduate institutions attended (if applicable), a resume and a statement of purpose. The GRE is not required.

This certificate program can serve as a possible “stepping stone” toward the Master of Public Health (MPH) degree program. Up to 12 units may be applied toward both the certificate and the core or electives in the MPH. Note that students must apply and be admitted to the MPH program and must earn a grade of "B" or better in a course to be eligible to transfer that course toward the degree program. Completion of the certificate does not automatically guarantee admission to the MPH program.

The certificate in Global Health and Human Rights Leadership is also open to students who are currently enrolled in another graduate program at USC and are in good standing with a 3.0 GPA. These students only need to submit the appropriate paperwork, which may be obtained from the student services adviser, and pay associated tuition costs for adding the certificate program.

Required Courses
The following courses are required to earn the certificate (12 units).

- PM 512 Principles of Epidemiology Units: 4
- PM 527 Epidemiology of Infectious Disease Units: 4
- PM 537 Chronic Disease Epidemiology Units: 4

**Global Health Communications Graduate Certificate**

The online graduate certificate in Global Health Communications provides interdisciplinary training in key aspects of global public health and communications for public health professionals. Training is aimed at professionals in or seeking communications or public relations positions in health, including within the private non-profit and public sectors. Participants will be introduced to key trends in global health and the application of communications theories, strategies and methodologies to improve global public health. Courses are taken online through both the Keck School of Medicine (8 units) and the Annenberg School for Communication and Journalism (4 units) for a total of 12 units. The program can be completed in as few as three semesters or over the course of three years.

Applicants for the certificate must make a formal application for admission to the certificate program and provide transcripts of all undergraduate and graduate institutions attended (if applicable), a resume and a statement of purpose. The GRE is not required.
This certificate program can serve as a possible "stepping stone" toward the Master of Public Health (MPH) degree program. Up to 12 units may be applied toward both the certificate and the core or electives in the MPH. Note that students must apply and be admitted to the MPH program and must earn a grade of "B" or better in a course to be eligible to transfer that course toward the degree program. Completion of the certificate does not automatically guarantee admission to the MPH program.

The certificate in Global Health Communications is also open to students who are currently enrolled in another graduate program at USC and are in good standing with a 3.0 GPA. These students only need to submit the appropriate paperwork, which may be obtained from the student services adviser, and pay associated tuition costs for adding the certificate program.

**Required Courses**

Students must complete the following courses for the certificate (12 units total).

- CMGT 510 Communication, Values, Attitudes and Behavior Units: 4
- PM 528 Communications in Public Health Units: 4
- PM 565 Introduction to Global Health Units: 4

**Global Medicine Graduate Certificate**

The certificate program in global medicine is for students who do not wish to pursue a Master of Science degree in global medicine, but hope to pursue or expand careers in global health care. Students will study current topics in global health and health care, and will have a strong grounding in cultural competence, specific diseases and creating and implementing health interventions in developing countries.

Students take 16 units of graduate course work that may not be used or have been used for any other degree or certificate program. These units include one core class and 12 units of electives, as follows:

**Core Course (4 units)**

- MEDS 500 Basic Concepts in Global Health Units: 4

**Elective Courses (12 units)**

Students will take 12 units of electives, chosen in consultation with their adviser, from among all MEDS courses numbered 510 or above.

**Pain Medicine Certificate**

The online Certificate in Pain Medicine is a program with a total seven courses (12 academic units), specifically designed for the practicing professional who wants to improve skills and gain expertise to deliver the best care for patients with complex pain conditions. The curriculum is designed with a series of didactic courses in which students will gain knowledge about the diagnosis, pathobiology and management of pain conditions. The goal of this one-year certificate program is to give practicing health care providers didactic, and evidence-based education in the field of Pain Medicine.

The students participate in weekly live online sessions with faculty and other program students, ensuring a collaborative and social learning experience. There are two-three courses per trimester, with two-four streaming video lectures for viewing each week. After each video lecture students complete an associated online quiz (comprising multiple choice, short answer or fill-in questions).

**Course List**

- PAIN 701 Pharmacotherapeutics for Pain Units: 2
- PAIN 702 Pain Classification and Diagnosis - Part 1 Units: 2
- PAIN 703 Psychological Aspects of the Pain Experience: Individual and Units: 2
- PAIN 704 Pain and Society: Epidemiology and Cultural issues Units: 1
- PAIN 705 Pain Assessment: History and Physical Examination Units: 1
- PAIN 706 Musculoskeletal Anatomy and Pathology Units: 2
- PAIN 707 Pain Neuroscience Units: 2

**Pain Science Certificate**

The certificate program in Pain Science is a program with eight courses (12 academic units), specifically designed for the non-clinical professional who wants to improve skills and gain expertise in the field of chronic pain.

**Pain Sciences Courses**

The Certificate requires completion of all courses:

- PAIN 702 Pain Classification and Diagnosis - Part 1 Units: 2
- PAIN 703 Psychological Aspects of the Pain Experience: Individual and Units: 2
- PAIN 704 Pain and Society: Epidemiology and Cultural issues Units: 1
- PAIN 714 Public Policy and Legal issues Units: 1
- PAIN 715 History of Pain: Theory and Treatment Units: 1
- PAIN 717 Psychological Treatments for Chronic Pain Units: 2
- PAIN 718 Complementary Approaches Units: 2
- PAIN 720 Physical and Occupational Therapies Units: 1

**Planning, Monitoring and Evaluation for Global Health and Development Graduate Certificate**

This online graduate certificate in Planning, Monitoring and Evaluation for Global Health and Development provides training in key aspects and methodologies for program planning, monitoring and evaluation for global health and development. This training is aimed at professionals in or seeking program planning and evaluation positions in global health and/or development, in both private non-profit and public institutions, such as ministries of health, United Nations agencies, and non-government organizations. Courses are taken online through the Keck School of Medicine for a total of 12 units. The program can be completed in as few as three semesters or over the course of three years.

Applicants for the certificate must make a formal application for admission to the certificate program and provide transcripts of all undergraduate and graduate institutions attended (if applicable), a resume and a statement of purpose. The GRE is not required.

This certificate program can serve as a possible "stepping stone" toward the Master of Public Health (MPH) degree program. Up to 12 units may be applied toward both the certificate and the core or electives in the MPH. Note that students must apply and be admitted to the MPH program and must earn a grade of "B" or better in a course to be eligible to transfer that course toward the degree program. Completion of the certificate does not automatically guarantee admission to the MPH program.

The certificate in Planning, Monitoring and Evaluation for Global Health and Development is also open to students who are currently enrolled in another graduate program at USC and are in good standing with a 3.0 GPA. These students only need to submit the appropriate paperwork, which may be obtained from the student services adviser, and pay associated tuition costs for adding the certificate program.

**Required Courses**

Students must complete the following courses for the certificate (12 units total).

- PM 528 Program Design and Evaluation Units: 4
- PM 536 Program Evaluation and Research Units: 4
- PM 576 Global Health Research and Programs Units: 4

**Project Management in Global Health and Development Graduate Certificate**

The online certificate in Project Management in Global Health and Development provides training in key aspects of management for global health and development professionals. It is aimed at professionals in or seeking management positions in health or international development, including within the private non-profit and public sectors. Participants are introduced to key concepts and skills in management from the project to the program to the organizational level. Courses are taken online through both the Keck School of Medicine (8 units) and Bovard College (4 units).
for a total of 12 units. The program can be completed in as few as three semesters or over the course of three years.

Applicants for the certificate must make a formal application for admission to the certificate program and provide transcripts of all undergraduate and graduate institutions attended (if applicable), a resume and a statement of purpose. The GRE is not required.

This certificate program can serve as a possible “stepping stone” toward the Master of Public Health (MPH) degree program. Up to 12 units may be applied toward both the certificate and the core or electives in the MPH. Note that students must apply and be admitted to the MPH program and must earn a grade of “B” or better in a course to be eligible to transfer that course toward the degree program. Completion of the certificate does not automatically guarantee admission to the MPH program.

The certificate in Project Management in Global Health and Development is also open to students who are currently enrolled in another graduate program at USC and are in good standing with a 3.0 GPA. These students only need to submit the appropriate paperwork, which may be obtained from the student services adviser, and pay associated tuition costs for adding the certificate program.

Required Courses
The following courses must be completed for the certificate (12 units total).

- PM 565 Introduction to Global Health Units: 4
- PM 576 Global Health Research and Programs Units: 4

Spatial Sciences for Global Health Graduate Certificate
The online certificate in Spatial Sciences for Global Health provides interdisciplinary training in key aspects of global public health and spatial sciences methodologies that can be used to improve public health. Training is aimed at professionals in or seeking data analyst positions in public health, including within the private and public sectors, such as government agencies, United Nations agencies, consulting firms and research institutions. Participants will be introduced to key trends in global health, core concepts and methods of planning and implementing health-related research and programs in resource-constrained settings, and the application of spatial sciences concepts, methodologies and software programs that can be used to address global public health challenges. Online courses are taken through the Keck School of Medicine (8 units) and the Spatial Sciences Institute at USC Dornsife College (8 units). The program can be completed in as few as three semesters or over the course of three years.

Applicants for the certificate must make a formal application for admission to the certificate program and provide transcripts of all undergraduate and graduate institutions attended (if applicable), a resume and a statement of purpose. The GRE is not required.

This certificate program can serve as a possible “stepping stone” toward the Master of Public Health (MPH) degree program. Up to 12 units may be applied toward both the certificate and the core or electives in the MPH. Note that students must apply and be admitted to the MPH program and must earn a grade of “B” or better in a course to be eligible to transfer that course toward the degree program. Completion of the certificate does not automatically guarantee admission to the MPH program.

The certificate in Spatial Sciences for Global Health is also open to students who are currently enrolled in another graduate program at USC and are in good standing with a 3.0 GPA. These students only need to submit the appropriate paperwork, which may be obtained from the student services adviser, and pay associated tuition costs for adding the certificate program.

Required Courses
The following courses must be completed for the certificate (12 units total).

- PJMT 500 Principles of Project Management Units: 2
- PJMT 535 Specialized Project Management Units: 2
- PM 564 Public Health Leadership and Management Units: 4
- PM 576 Global Health Research and Programs Units: 4

STEM Cell Biology and Regenerative Medicine Certificate
The certificate program is designed for current students in the Master of Science in Stem Cell Biology and Regenerative Medicine program at USC, who have completed the requirements for the MS degree and wish to complete a second year of study including an independent research project. Graduates from other programs and other institutions both inside and outside the U.S., who desire advanced training in this field may also be considered for admission. A smaller number of students may come from nontraditional backgrounds (business, legal, etc.) and seek specific training in this discipline in order to advance specific career paths in which they are already employed. All students are expected to already have completed undergraduate courses in cell and molecular biology.

STEM cell biology is one of the newest and most powerful approaches in biomedical science; it offers the opportunity to experimentally approach previously intractable biological questions, create models of human disease and develop cell-based therapeutics. This one-year program will give students a solid understanding of the scientific and clinical underpinnings of stem cell biology and regenerative medicine.

Students completing this program will be well positioned to proceed to medical or PhD programs, find laboratory or administrative employment in the growing stem cell pharmaceutical domain, or engage in public policy or regulatory administration of academic, clinical or business efforts in this expanding discipline.

California is globally recognized as the worldwide center of stem cell science, and USC has invested significantly in building the new Department of Stem Cell Biology and Regenerative Medicine at the Keck School of Medicine of USC, within which this certificate program is based and administered.

Degree Requirements
Graduation requires completion of 16 units according to the course schedule outlined below. None of these courses may be substituted or waived. This program is intended to be completed within one academic year, and does not include a requirement for a thesis.

- DSR 574 Stem Cell and Developmental Biology Seminar Series Units: 1
- DSR 610 Current Topics in Regenerative Medicine Units: 1
- DSR 620 Current Topics in Stem Cell Biology and Organogenesis Units: 1
- SCRM 580 SCRM External Speaker Seminar Series Units: 2
- SCRM 590 Independent Research Units: 1, 2, 3, 4

Note:
DSR 574 (1 unit) and SCRM 580 (2 units) must be taken twice for a total of 6 units. SCRM 590 (1-4 units) must be taken twice for a total of 8 units.

Translation and Entrepreneurship in Biomedical Sciences Certificate
Harlyne J. Norris Cancer Research Tower
1450 Biggy Street, NRT 2508

Email: dtg@usc.edu
dtg.usc.edu
Program Director: Carol S. Lin, PhD, MAE
keck.usc.edu/translational-genomics/
dtg.usc.edu/education/translation_entrepreneurship

Keck School of Medicine Department of Translational Genomics offers a Graduate Certificate in Translation and Entrepreneurship in Biomedical Sciences (TEBS). This program combines a unique curriculum and distinctive practical training to enable students who...
already have advanced biosciences training to gain familiarity with drug and device development from the initial discovery process, e.g., translation; the regulatory framework; the processes involved in management of private and public capital to develop growing markets, and the economics, business, and law terminologies important in navigation of the commercialization process.

Program Summary
The certificate program in TEBS is for students who wish to expand career options in the biotechnology or biomedical sciences industry, adding to their existing advanced graduate degree training.

Students in the program will gain an understanding of:
- The role of scientific discovery in the development of new therapies
- The process of moving inventions from a university to a commercial entity and finally to the marketplace
- The regulatory environment that impacts novel therapies
- Investment in new discoveries, and the sources of capital needed to commercialize new treatments
- The legal processes that govern biomedical invention and translation to commercialization

The program is ideal for postdoctoral researchers, PhD students and clinician scientist scholars who:
- Aspire toward an academic career with a strong translational component
- Seek to become entrepreneurs
- Seek a career in a start-up company in the life sciences
- Aspire towards a career in small to large pharma or biotech companies.

Or, for professionals in management, investment, regulatory affairs or law in the biotechnology industry with a strong background in the biomedical sciences and who wish to get a deeper understanding of the commercialization process and how it links to scientific discoveries.

Admission
Admissions requirements include a strong graduate preparation in biological sciences. Examples of this include appointment as a postdoctoral fellow with a PhD degree in a relevant topic, appointment as a clinician scientist as a faculty, resident or fellow with relevant basic science preparation, and/or acquisition of relevant course work in the PhD program consistent commensurate with that required for advancement to candidacy.

Applicants must also supply a statement of purpose and two letters of recommendation from evaluators qualified to assess their potential for graduate level course work. Please visit the program Website for additional information on admission and application procedures.

Advisement
The program requires that students meet with an academic adviser of the program each semester prior to registration.

Satisfactory Academic Progress
A graduate GPA of at least 3.0 is required at all times. Any student whose graduate GPA falls below 3.0 will be placed on academic probation. Students on academic probation who do not raise their GPA to 3.0 after two semesters of written notification of academic probation will be academically disqualified.

A minimum of 14 units of course work from the TEBS curriculum is required for the completion of certificate program.

Required (12 units)
- TRGN 537 Pathway and Target Discovery Units: 4
- TRGN 543 Biotechnology Entrepreneurship and Commercialization I Units: 2
- TRGN 546 Biotechnology Intellectual Property, Regulatory, and Corporate Law Units: 2
- TRGN 548 Seminar in Translation and Entrepreneurship in Biomedical Sciences Units: 1 * (2 units required)
- TRGN 549 Translation and Entrepreneurship in Biomedical Science Capstone Project Units: 2

Elective (2 units)
Select 2 units at the graduate level with academic adviser approval. Options may include the courses below.
- BAEP 557 Technology Commercialization Units: 3
- BAEP 561 Entrepreneurship in Innovative Industries: Life Sciences Units: 1.5
- TRGN 544 Biotechnology Entrepreneurship and Commercialization II Units: 2
- TRGN 550 Communicating Science: Writing Units: 1
- TRGN 551 Communicating Science: Speaking Units: 1

Translational Biotechnology Certificate
Harylene J. Norris Cancer Research Tower
1450 Biggy Street, NRT 2508
Los Angeles, CA 90089-9601

Program Director: Carol S. Lin, PhD, MAE
derk.usc.edu/translational-biotechnology-program/dtg.usc.edu/education/translational_biotechnology

Keck School of Medicine Department of Translational Genomics offers a Graduate Certificate in Translational Biotechnology. This program combines a unique curriculum and distinctive practical training that exposes students to biotechnology and its applications in translating genomic and molecular insights into developing novel therapies and precision medicine. Drawing strength from the Keck School of Medicine faculty’s education, research, and practice expertise, this program educates students on approaches used in the academic research, biotechnology and medical sciences industries.

Program Summary
The certificate program in Translational Biotechnology is for students who wish to expand career options in the biotechnology or biomedical sciences industry, but do not wish to pursue a graduate degree.

Students in this program will augment their current background with additional knowledge of:
- the science of human diseases and their interventions
- the role of biotechnology in developing new therapies and precision medicine
- the scope of issues and decisions faced by collaborating basic and clinical researchers in the bench-to-bedside process
- the regulatory framework that impacts the use of new interventions
- the private and public capital that develop the growing biotechnology and biomedical markets.

The program is ideal for:
- Professionals in management, investment, regulatory affairs or law in the biotechnology industry, to extend their knowledge of the science behind this industry, enabling them to make better decisions regarding this rapidly developing technology.
- Current graduate students, to learn translational biotechnology in addition to their own field of concentration.
- Students with a moderate biology background, to extend their course work in biotechnology and therapeutic discovery and development.
- Students interested in doctoral programs or professional degree programs, to build a strong foundation in biotechnology prior to applying to their top programs of study.

Admission
Admission requirements include a minimum GPA of 3.0 and an undergraduate major in biological sciences, or at least six bioscience courses in the molecular, cellular, genetics and biochemistry topics. Applicants must also supply a statement of purpose and three letters of recommendation from evaluators qualified to assess their potential for graduate-level course work. Please visit the program
The program requires that students meet with an academic adviser of the program each semester prior to registration.

Satisfactory Academic Progress
A graduate GPA of at least 3.0 is required at all times. Any student whose graduate GPA falls below 3.0 will be placed on academic probation. Students on academic probation who do not raise their GPA to 3.0 after two semesters of written notification of academic probation will be academically disqualified.

A minimum of 14 units of course work from Translational Biotechnology curriculum is required for completion of certificate program.

Core (Required, 6 units)
Student with strong background may substitute core with other appropriate courses, with permission of the program director.

- TRGN 536 Biotechnology Primer Units: 4
- TRGN 538 Seminar in Translational Biotechnology Units: 2
- TRGN 539 Translational Biotechnology Practicum Units: 2, 3, 4
- TRGN 542 Biotechnology-based Therapeutics Units: 2
- TRGN 544 Biotechnology Entrepreneurship and Commercialization I Units: 2
- TRGN 545 Exploring Chemical and Biological Therapeutic Modalities Units: 2

Electives (8 units)
Choose from below as well as other courses available within the Translational Biotechnology program. All courses should be selected with the approval of the student's academic adviser.

- TRGN 537 Pathway and Target Discovery: 4
- TRGN 543 Biotechnology Entrepreneurship and Commercialization I Units: 2
- TRGN 542 Biotechnology-based Therapeutics Units: 2
- TRGN 544 Biotechnology Entrepreneurship and Commercialization I Units: 2
- TRGN 545 Exploring Chemical and Biological Therapeutic Modalities Units: 2

Doctoral Degree

Biostatistics (PhD)
The department offers a degree program leading to the PhD in Biostatistics. The program is designed to produce biostatisticians who will have in-depth knowledge of statistical theory and methodology and the ability to apply this knowledge creatively to statistical problems in the biological and health sciences. All students will enroll in a set of core courses that cover both biostatistical theory and applications. Students will then choose from one of four tracks that will allow them to develop expertise in a specific area. The available tracks are: (1) biostatistics theory; (2) statistical genetics; (3) environmental statistics; (4) clinical trials.

Course Requirements
A minimum of 60 units of graduate study is required for the PhD degree; a maximum of 19 of these units may be from research and dissertation. In preparation for the qualifying examination, students are required to take all remaining core and track-specific courses.

Screening Procedure
In preparation for the screening examination, all students must take four core courses: PM 511a, PM 511b and PM 522a, PM 522b. A student failing the screening examination will either terminate or will terminate with the MS degree upon completion of an acceptable thesis.

Qualifying Exam Committee
A formal qualifying exam committee will consist of at least five faculty members. The committee chair and at least two additional members must be affiliated with the student's program. At least three members of the committee must be tenured or tenure track.

Qualifying Examination
The written portion of the qualifying examination will comprise testing on track-specific course content and focus on the student's dissertation topic. An oral examination will ascertain the student's competence in orally communicating this knowledge. Students must pass the written portions and the oral portions in order to pass the qualifying examination.

Annual Research Appraisal (ARA)
Beginning in the second year, each student must register for PM 610 (1 unit) and present an annual progress report to the program oversight committee. Once a dissertation topic has been selected, the annual progress report is presented to the student's qualifying exam committee. Once the student has passed the qualifying examination and is appointed to candidacy, the annual progress report is presented to the student's dissertation committee. The student will meet annually with the dissertation committee, until he or she graduates from the program. The oral portion of the screening examination as well as the qualifying examination and the defense examination will count as ARAs.

Dissertation and Oral Defense
Upon passing the qualifying examination the PhD candidate and his or her chair will recommend a three-member dissertation committee. The dissertation should be completed within two years and should be oriented toward a theoretical-methodological application to a problem area in the biological or health sciences. The oral defense is based on a rough draft or final version of the dissertation. The defense is administered by the dissertation committee, with other faculty invited to attend.

Prerequisite
- PM 510L Principles of Biostatistics Units: 4

Required Courses for All Tracks (Screening Exam Courses)
- PM 511aL Data Analysis Units: 4
- PM 511bL Data Analysis Units: 4
- PM 522a Introduction to the Theory of Statistics Units: 3
- PM 522b Introduction to the Theory of Statistics Units: 3

Recommended Courses: All Tracks
- PM 511cL Data Analysis Units: 4
- PM 520L Advanced Statistical Computing Units: 3
- PM 610 Seminar in Biostatistics and Epidemiology Units: 1

Recommended Courses: Biostatistics Theory Track
- PM 513 Experimental Designs Units: 3
- PM 518a Statistical Methods for Epidemiological Studies I, II Units: 3
- PM 518b Statistical Methods for Epidemiological Studies I, II Units: 3

Recommended Courses: Statistics Genetics Track
- PM 534 Statistical Genetics Units: 3
- PM 570 Statistical Methods in Human Genetics Units: 4

Recommended Courses: Environmental Statistics Track
- PM 518a Statistical Methods for Epidemiological Studies I, II Units: 3
- PM 518b Statistical Methods for Epidemiological Studies I, II Units: 3
- PM 558 Environmental Epidemiology: Concepts, Methods, and Practice Units: 4
- PM 575 Statistical Methods in Environmental Epidemiology Units: 3

Recommended Courses: Clinical Trials Track
- PM 513 Experimental Designs Units: 3
- PM 518a Statistical Methods for Epidemiological Studies I, II Units: 3
- PM 523 Design of Clinical Studies Units: 3
- PM 552 Statistical Methods in Clinical Trials Units: 3
Elective Courses

- BISC 502a Molecular Genetics and Biochemistry Units: 4
- BISC 502b Molecular Genetics and Biochemistry Units: 4
- BISC 505 Genetics and Molecular Genetics Units: 4
- CSCI 544 Applied Natural Language Processing Units: 4
- CSCI 561 Foundations of Artificial Intelligence Units: 4
- CSCI 567 Machine Learning Units: 4
- CSCI 570 Analysis of Algorithms Units: 4
- CSCI 573 Probabilistic Reasoning Units: 3
- CSCI 585 Database Systems Units: 4
- CSCI 587 Geospatial Information Management Units: 4
- CSCI 653 High Performance Computing and Simulations Units: 4
- DSCI 550 Data Science at Scale Units: 4
- DSCI 551 Foundations of Data Management Units: 4
- DSCI 553 Foundations and Applications of Data Mining Units: 4
- DSCI 554 Data Visualization Units: 4
- INTD 561 Molecular Biology Units: 4
- INTD 572 Medical Physiology I Units: 4
- INTD 573 Medical Physiology II Units: 4
- INTD 577 Writing in the Biomedical and Biological Sciences Units: 1
- MATH 501 Numerical Analysis and Computation Units: 3
- MATH 505a Applied Probability Units: 3
- MATH 505b Applied Probability Units: 3
- MATH 507a Theory of Probability Units: 3
- MATH 507b Theory of Probability Units: 3
- MATH 509 Stochastic Differential Equations Units: 3
- MATH 520 Complex Analysis Units: 3
- MATH 541a Introduction to Mathematical Statistics Units: 3
- MATH 541b Introduction to Mathematical Statistics Units: 3
- MATH 542 Analysis of Variance and Design Units: 3
- MATH 543 Nonparametric Statistics Units: 3
- MATH 545 Introduction to Time Series Units: 3
- MATH 547 Mathematical Foundations of Statistical Learning Theory Units: 3
- MATH 548 Sequential Analysis Units: 3
- PM 511c Data Analysis Units: 4
- PM 513 Experimental Designs Units: 3
- PM 516a Statistical Problem Solving Units: 1
- PM 516b Statistical Problem Solving Units: 1
- PM 517a Research Methods in Epidemiology Units: 4
- PM 517b Research Methods in Epidemiology Units: 3
- PM 518a Statistical Methods for Epidemiological Studies I, II Units: 3
- PM 518b Statistical Methods for Epidemiological Studies I, II Units: 3
- PM 520L Advanced Statistical Computing Units: 3
- PM 523 Design of Clinical Studies Units: 3
- PM 533 Genetic and Molecular Epidemiology Units: 3
- PM 534 Statistical Genetics Units: 3
- PM 538 Introduction to Biomedical Informatics Units: 3
- PM 542 Social Network Analysis Units: 4
- PM 544L Multivariate Analysis Units: 3
- PM 549 Human Molecular Genetics and Genomics Units: 4
- PM 551 Statistical Methods in Genome-Wide Association Studies Units: 3
- PM 552 Statistical Methods in Clinical Trials Units: 3
- PM 556 Environmental Epidemiology: Concepts, Methods, and Practice Units: 4
- PM 565 Introduction to Global Health Units: 4
- PM 569 Spatial Statistics Units: 3
- PM 570 Statistical Methods in Human Genetics Units: 4
- PM 575 Statistical Methods in Environmental Epidemiology Units: 3
- PM 579 Statistical Analysis of High-Dimensional Data Units: 4
- PM 591 Machine Learning for the Health Sciences Units: 4
- PM 599 Special Topics Units: 2, 3, 4
- PM 603 Structural Equation Modeling Units: 4, 2 years
- PM 605 Systematic Review and Meta-Analysis Units: 4
- PM 610 Seminar in Biostatistics and Epidemiology Units: 1
- PM 790 Research Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12
- PMEP 547 Programming Methods for Empirical Analysis of Health Data Units: 4
- QBIO 478 Computational Genome Analysis Units: 4
- QBIO 577 Computational Molecular Biology Laboratory Units: 2
- QBIO 578a Computational Molecular Biology Units: 3
- QBIO 578b Computational Molecular Biology Units: 3
- SSCI 581 Concepts for Spatial Thinking Units: 4
- SSCI 582 Spatial Databases Units: 4
- SSCI 583 Spatial Analysis and Modeling Units: 4
- SSCI 595 Geospatial Technology Project Management Units: 4
- SSCI 596 GIS Programming and Customization Units: 4
- SSCI 597 Spatial Data Acquisition Units: 4
- SSCI 598 Cartography and Visualization Units: 4

Cancer Biology and Genomics (PhD)

The PhD program in Cancer Biology and Genomics (CBG) focuses on training investigators in strategies to understand the mechanisms of cancer development and progression which includes cell biological and genomic approaches. The ultimate objective is to translate basic findings into diagnostics, treatments and ultimate cures. The program applies a multidisciplinary approach toward these goals, with the full realization that cancers in different organs represent different diseases. However, all cancers relate to uncontrolled cell proliferation with many cancers having a strong genetic predisposition. Consequently, major features of this program include the breadth of medically related interests and training and faculty characterized by wide and varied skills in many cancer-related research areas. To facilitate the application of multidisciplinary approaches to make cancer a disease of the past, close and regular contact between participating faculty of different disciplines and students is a major theme of this PhD program.

Cancer Biology and Genomics students are required to take CBG 580 and CBG 504 and must complete a total of 4 units from the following: INTD 549, INTD 685, MPTX 500, PM 512, PM 517a, PM 517b, PM 533*, PM 534*, PM 570*, PM 579, PM 599, TRGN 510, TRGN 514, TRGN 515 or other courses approved by the academic adviser. In the second year, students are required to register for CBG 580 in the fall and spring semesters. In the third and subsequent years, students should register for INTD 600 every fall and spring semester. In addition, students are required to complete at least 4 units of CBG 794a Doctoral Dissertation, CBG 794b Doctoral Dissertation.

PhD students must supplement course work by registering for CBG 790 Research during the fall, spring, and summer semesters as needed to complete the minimum 60 units required for the PhD program.

As part of the requirements for the PhD degree in Cancer Biology and Genomics, students must adhere to the unit/course requirements, guidance committee and dissertation committee guidelines and must complete the qualifying examination, annual research appraisal, dissertation and oral defense as outlined in the sections following the descriptions of the PhD programs.

Development, Stem Cells, and Regenerative Medicine (PhD)

The goal of the PhD program in Development, Stem Cells, and Regenerative Medicine is to train the next generation of investigators in the history and practice of developmental and stem cell biology. The ultimate aim is to understand how the genomes of animals are translated into complex morphological forms, and to apply this basic knowledge to the emerging field of regenerative medicine. Close and regular contact between participating faculty of different disciplines and students is expected to facilitate the application of multidisciplinary approaches toward regenerative medicine.
Admission

General requirements for admission include graduation from an accredited school of nursing, a baccalaureate degree in nursing or a related field from a regionally-accredited university or college, a minimum of two years of critical care nursing experience (surgical, medical, neurosurgical, trauma, pediatric or neonatal are accepted) as a registered nurse by matriculation, a cumulative undergraduate GPA of 3.0, or higher, on a scale of 4.0. Graduate Record Examinations, completion of university and program supplemental applications, current licensure as a registered nurse, completion of shadow verification form, submission of two statement of purpose questions, a professional resume and three letters of recommendation.

Competitive applicants will be interviewed and must articulate their reasons for pursuing this educational opportunity and demonstrate an acceptable understanding of the role and responsibilities of a certified registered nurse anesthesiologist. Selections are made objectively on the basis of the formal interview and consideration of a variety of factors that include previous academic performance, clinical experience, professionalism, and emotional intelligence.

Admission procedures follow the information in the USC Graduate School section of this catalogue. Admission standards for the USC nurse anesthesia program are established jointly by the Keck School of Medicine, the USC Graduate School, and the Department of Anesthesiology. Interested students should apply online at gradadm.usc.edu. Additional admissions requirements and the program-specific supplemental application can be obtained from the nurse anesthesia program website.

Degree Requirements

The program consists of a minimum of 80 units (including academic and clinical courses, the doctoral capstone project, and successful completion of several high-stake examinations). The program is completed in 36 months of continuous enrollment (nine semesters).

Academic Courses

- ANST 501 Advanced Pharmacology of Anesthesia Practice I Units: 4
- ANST 502 Principles of Nurse Anesthesia Practice Units: 4
- ANST 503 Advanced Pharmacology of Anesthesia Practice II Units: 4
- ANST 504 Advanced Pathophysiology Related to Anesthesia Practice Units: 4
- ANST 506 Advanced Principles of Nurse Anesthesia Practice Units: 4
- ANST 508 Research: Investigative Inquiry Units: 3
- ANST 601 Professional Integration to the Clinical Environment Units: 2
- ANST 602 Analytical Methods for Evidence-Based Practice Units: 3
- ANST 604 Healthcare Policy for Advocacy in Health Care Units: 3
- ANST 608 Advanced Clinical Anatomy for Nurse Anesthesia Practice Units: 2
- ANST 609 Advanced Health Assessment Units: 3
- ANST 610 Advanced Physiology for Nurse Anesthesia Practice Units: 4
- ANST 611 Leadership and Collaborative Practice Units: 3
- ANST 613 Clinician-Technology Interface Units: 3
- ANST 620 Introduction to PALS Units: 2
- ANST 621 Advanced Pharmacology of Anesthesia Practice Units: 2
- ANST 623 Clinical Synthesis I Units: 2
- ANST 633 Clinical Synthesis III Units: 2
- ANST 634 Clinical Synthesis IV Units: 2
- ANST 651 PeriOperative Evaluation and Management I Units: 3
- ANST 652 PeriOperative Evaluation and Management II Units: 3
- ANST 691 The Doctor of Nurse Anesthesia Practice Essentials Units: 2
• ANST 694a Doctoral Capstone Project Units: 2
• ANST 694b Doctoral Capstone Project Units: 2
• ANST 694c Doctoral Capstone Project Units: 2

**Clinical Residency Courses**

• ANST 614 Clinical Residency in Nurse Anesthesia I Units: 2
• ANST 615 Clinical Residency in Nurse Anesthesia II Units: 2
• ANST 616 Advanced Clinical Residency in Nurse Anesthesia I Units: 2
• ANST 617 Advanced Clinical Residency in Nurse Anesthesia II Units: 2
• ANST 618 Advanced Clinical Residency in Nurse Anesthesia III Units: 2
• ANST 619 Advanced Clinical Residency in Nurse Anesthesia IV Units: 3

**Note**

All students will take the Self-Evaluation Examination administered by the National Board of Certification and Recertification for Nurse Anesthetists (NBCRNA) in the sixth and eighth clinical semesters. The program administration determines and certifies the graduate's eligibility to take the National Certification Examination administered by the NBCRNA, contingent upon successful completion of all course work.

**Epidemiology (PhD)**

The department offers a degree leading to the PhD in epidemiology. This program may be an extension of the applied biostatistics and epidemiology MS program and is especially aimed at persons with a strong background in medicine; in particular, students enrolled in the MD program of the Keck School of Medicine who wish to interrupt their MD studies after two years to complete a PhD degree. This program is designed to produce an epidemiologist with in-depth statistical skills. The program requires a solid core of courses in methodological aspects of statistics and in statistical thinking as applied to medicine, as well as a solid grounding in epidemiological methods and in certain medical disciplines.

Summary of course requirements:

Fourteen units of core course work are required in year 1 as preparation for the screening exam (assuming students have completed PM 510L and PM 512 or comparable classes from MS training). Additional units of track-specific course work are required in year 2 or after. A total of 60 units are required for completion, which may be fulfilled by any approved electives, plus dissertation research units. After passing the screening exam, all students must enroll in at least two semesters of PM 610: Graduate Seminar in Biostatistics. The first semester of PM 610 is typically taken before the Qualifying Examination and the second semester of PM 610 before the final dissertation defense.

**Special Requirements:** By the end of the first semester, the student should have selected a faculty mentor who will verify the student's readiness for the screening exam (e.g., have passed the first semester's core courses and be registered for the second semester's courses or have equivalent prior training) and must sign the application for the screening exam. The mentor will also work with the student to identify a suitable dissertation chair and explore possible topics. Identification of the dissertation chair and formation of the student's Qualifying Exam Committee is expected to be done by the end of the second year.

**Executive Committee:** The Epidemiology Executive Education Committee will review mentors, as well as approve changes in the curriculum and qualifying exam. They will also ensure that required courses are taught, will make decisions on which electives are continued, added, or removed, and will work with the course organizers to collect and summarize course evaluations. Members of the Epidemiology Executive Education Committee are represented on the Preventive Medicine Education Committee, chaired by the Vice Chair for Education (currently Dr. Richard Watanabe), which is charged with establishing general department-wide policies.

**Admissions Committee:** The majority of applications first come directly to the department and are reviewed by the Epidemiology Admissions Committee. Candidates recommended for admissions and funding are then presented to the K SOM PhD Programs Committee for approval. Direct admissions to the individual faculty member's research team are handled in the same way, must meet the same standards and be approved by the Epidemiology Admissions Committee. PIBBS students may elect to join the Epidemiology PhD program, provided they have done at least one rotation with an epidemiology faculty member who agrees to support that student and the students acceptance is approved by the Chair of the Epidemiology Admissions Committee.

**Course Guidance or Advising Committee:** The student will decide along with his/her mentor and dissertation committee chair which, if any, additional course work will be undertaken.

**Qualifying Examination Committee:** The student, in consultation with his/her mentor, will nominate five faculty members to serve on the Qualifying Examination Committee. Three of the faculty must be from the Epidemiology Program and one from another department (the "External Member"). The Committee should reflect a diversity of expertise and typically will include one member from a different division of the Department of Preventive Medicine (e.g., one with subject-matter expertise in the proposed application portion of the dissertation). The role of the Qualifying Examination Committee is to guide the student on development of an appropriate dissertation project, both in content and time commitment, and to evaluate the student's knowledge of the topic, epidemiological and biostatistical methodology, and readiness for completing the dissertation research.

**Dissertation Committee:** The Dissertation Committee is typically drawn from the membership of the Qualifying Examination Committee and includes the student's primary mentor as chair, an external member, and at least one other member of the Epidemiology Division. All Qualifying Examination Committee members may be retained if preferred by the student. The role of the Dissertation Committee is to advise the doctoral student on the research topic and methods, and then to review the final completed dissertation for acceptance. Students are expected to meet with the dissertation committee at least once per year to discuss progress; more frequent meetings will typically be needed as the student approaches the final defense of the dissertation. Dissertation committee members are expected to read and comment on a dissertation within 2 weeks from its submission. The student and faculty will coordinate a time line for the student to present the dissertation to the committee. This time line must allow all dissertation committee members enough time to fulfill their responsibilities within the two-week deadline.

**Review of Membership in Faculty Mentorship:**

Membership should be reviewed on a three-year cycle, with one-third of the members reviewed each year. The main criteria for membership are the existence of an active research program related to epidemiologic research; evidence of outstanding past mentoring; and participation in programmatic and/or teaching activities. Members are expected to actively participate in teaching, screening exams, qualifying exams, dissertation committees and recruitment. Review of members will be conducted by the Executive Committee. Mentors whose record reflects poor academic performance, poor mentoring or poor participation will be subject to non-renewal or to a probationary period in which improvements in noted deficiencies must be demonstrated as a condition of continuing membership.

**Prerequisites:**

As a condition of admission, students must hold a Master's degree in a related discipline (e.g., mathematics, statistics, epidemiology, public health) and have completed a Master's thesis. Students entering the program with a relevant Master's degree that does not require a thesis (e.g., Master of Public Health) will be assigned an administrative or research mentor upon entering the program who will evaluate their quantitative and writing skills before the student takes the screening exam. All students are required to pass the program screening examination before being fully admitted as a doctoral student in the program. It is preferred that all students admitted to the program have successfully
completed a minimum of one class in epidemiology and one class in biostatistics before entering the doctoral program. Some students may be admitted to the program without meeting the Master’s program requirements (e.g., if they have strong research background and clear evidence of ability in the health research field or were admitted through PIBBS), but will be expected to complete PM 510L and PM 512 and pass the screening examination prior to being considered fully admitted as a doctoral student in the program.

- PM 510L Principles of Biostatistics: 4 (or the equivalent)
- PM 512 Principles of Epidemiology: 4

*It is recommended that students TA or re-take these courses if credit taken at separate institution prior to starting program at USC.

Screening Exam Core Courses (14 units)

- PM 511aL Data Analysis Units: 4 *
- PM 517a Research Methods in Epidemiology: 4
- PM 517b Research Methods in Epidemiology: 3
- PM 518a Statistical Methods for Epidemiological Studies I, II: 3

*PM 511b is recommended for Screening Exam

EPIDEMIOLOGY TRACKS (11-12 units)

Please choose one track: Cancer Epidemiology, Genetic Epidemiology, Environmental Epidemiology, Clinical Trials, or General Epidemiology and Methods

Cancer Epidemiology

- INTD 504 Molecular Biology of Cancer: 4
- PM 559 Cancer Epidemiology Units: 4
- PM 570 Statistical Methods in Human Genetics Units: 4 or
- PM 579 Statistical Analysis of High-Dimensional Data Units: 4

Genetic Epidemiology

- PM 533 Genetic and Molecular Epidemiology Units: 3
- PM 570 Statistical Methods in Human Genetics Units: 4
- INTD 531 Cell Biology Units: 4 or
- PM 549 Human Molecular Genetics and Genomics Units: 4

Environmental Epidemiology

- PM 558 Environmental Epidemiology: Concepts, Methods, and Practice Units: 4
- PM 553 Human Exposure Assessment for Public Health Units: 4 or
- PM 554 Health Effects of Environmental Contaminants Units: 4 or
- PM 555 Environmental Health, Policy and Practice Units: 4
- PM 569 Spatial Statistics Units: 3 or
- PM 570 Statistical Methods in Human Genetics Units: 4 or
- PM 579 Statistical Analysis of High-Dimensional Data Units: 4

Clinical Trials

- MPTX 517 Structure and Management of Clinical Trials Units: 4
- PM 523 Design of Clinical Studies Units: 3
- PM 511cL Data Analysis Units: 4 or
- PM 515 Multivariate Statistics in Health Behavior Research Units: 4

General Epidemiology and Methods

Includes students who choose to design specific class electives with their adviser, tailored to their unique research interests.

- PM 588 The Practice of Epidemiology Units: 4
- PM 605 Systematic Review and Meta-Analysis Units: 4
- PM 523 Design of Clinical Studies Units: 3 or
- PM 559 Cancer Epidemiology Units: 4 or
- PM 569 Spatial Statistics Units: 3 or
- PM 579 Statistical Analysis of High-Dimensional Data Units: 4 or
- PM 607 Nutrition and Health: Myths, Controversies and Science Units: 4

Electives (34-35 units)

In addition to the required courses, the remaining required units may be selected from any of the following courses:

- GERO 520 Life Span Developmental Psychology Units: 2 or 4
- INTD 504 Molecular Biology of Cancer Units: 4
- INTD 531 Cell Biology Units: 4
- INTD 561 Molecular Biology Units: 4
- INTD 571 Biochemistry Units: 4
- MICB 551 Prokaryotic Molecular Genetics Units: 4
- MPTX 511 Introduction to Medical Product Regulation Units: 3
- MPTX 512 Regulation of Pharmaceutical and Biological Products Units: 3
- MPTX 513 Regulation of Medical Devices and Diagnostics Units: 3
- PHBI 550 Seminar in Advanced Cellular, Molecular and Systemic Physiology Units: 1
- PM 512 Principles of Epidemiology Units: 4
- PM 515 Multivariate Statistics in Health Behavior Research Units: 4
- PM 516a Statistical Problem Solving Units: 1
- PM 516b Statistical Problem Solving Units: 1
- PM 517a Research Methods in Epidemiology Units: 4
- PM 517b Research Methods in Epidemiology Units: 3
- PM 518a Statistical Methods for Epidemiological Studies I, II Units: 3
- PM 518b Statistical Methods for Epidemiological Studies I, II Units: 3
- PM 522a Introduction to the Theory of Statistics Units: 3
- PM 523 Design of Clinical Studies Units: 3
- PM 527 Epidemiology of Infectious Disease Units: 4
- PM 529 Environmental Health: An Epidemiological Approach Units: 4
- PM 530 Biological Basis of Disease Units: 4, 2 years
- PM 533 Genetic and Molecular Epidemiology Units: 3
- PM 534 Statistical Genetics Units: 3
- PM 538 Introduction to Biomedical Informatics Units: 3
- PM 544L Multivariate Analysis Units: 3
- PM 549 Human Molecular Genetics and Genomics Units: 4
- PM 552 Statistical Methods in Clinical Trials Units: 3
- PM 553 Human Exposure Assessment for Public Health Units: 4
- PM 554 Health Effects of Environmental Contaminants Units: 4
- PM 555 Environmental Health, Policy and Practice Units: 4
- PM 558 Environmental Epidemiology: Concepts, Methods, and Practice Units: 4
- PM 559 Cancer Epidemiology Units: 4
- PM 569 Spatial Statistics Units: 3
- PM 570 Statistical Methods in Human Genetics Units: 4
- PM 571 Applied Logistic Regression Units: 3
- PM 575 Statistical Methods in Environmental Epidemiology Units: 3
- PM 579 Statistical Analysis of High-Dimensional Data Units: 4
- PM 588 The Practice of Epidemiology Units: 4
- PM 591 Machine Learning for the Health Sciences Units: 4
- PM 603 Structural Equation Modeling Units: 4, 2 years
- PM 605 Systematic Review and Meta-Analysis Units: 4
- PM 607 Nutrition and Health: Myths, Controversies and Science Units: 4
- PM 610 Seminar in Biostatistics and Epidemiology Units: 1
- PM 611 Advanced Topics in Epidemiology Units: 3
- PM 790 Research Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12
- PM 794a Doctoral Dissertation Units: 2
- PM 794b Doctoral Dissertation Units: 2
- PSCI 665 Drug Transport and Delivery Units: 4
- PSYC 514 Psychopathology Units: 4
• PSYC 524 Research Design in Developmental Psychology
  Units: 4
• RSCI 531 Industrial Approaches to Drug Discovery Units: 4
• RSCI 532 Early Stage Drug Development Units: 3
• RSCI 533 Safety Evaluation during Drug Development
  Units: 3
• SSCI 581 Concepts for Spatial Thinking Units: 4
• SSCI 582 Spatial Databases Units: 4
• SSCI 583 Spatial Analysis and Modeling Units: 4
• SSCI 585 Geospatial Technology Project Management
  Units: 4
• SSCI 586 GIS Programming and Customization Units: 4
• SSCI 587 Spatial Data Acquisition Units: 4
• SSCI 588 Remote Sensing for GIS Units: 4
• SSCI 589 Cartography and Visualization Units: 4
• SSCI 591 Web and Mobile GIS Units: 4

Note:
Electives will be determined by the student's needs and interests. When appropriate, courses not listed above may be chosen from the University course offerings with approval from the student's adviser and Program Director. Sufficient familiarity in computer languages to operate major software packages for data management and analysis is required.

Additional Requirements
Preparation for Screening Examination
The Screening Examination will be taken at the end of the first or second year after students have completed their core classes and covers material learned in these classes and the core knowledge of epidemiologic theory and applications. Prior to the screening examination a mentor who will serve on the qualifying exam committee must be identified. The screening examination will consist of an applied and theory component and will be conducted in class over two to three days. The written component will be drawn from the core courses. A student failing the screening examination may be given a second opportunity to retake either one or both portions. Students failing the examination for the second time will terminate with the MS degree upon satisfactory completion of 37 units and an acceptable master's thesis.

Annual Research Appraisal (ARA)
After advancing to candidacy, progress on dissertation research is evaluated annually with an Annual Research Appraisal (ARA) by the Annual Dissertation Committee. A key element is participation in PM 610: Graduate Seminar in Epidemiology and Biostatistics for at least two semesters after passing the Screening Exam. It is recommended that students take PM 610 to gain presentation experience and feedback before completing the qualifying examination and again before completing the final dissertation defense. Students give seminars and research updates that encompass both a global view of their area of investigation and a focus on the problem they are addressing. The oral portion of the screening examination as well as the qualifying examination and the defense examination will count as ARAs.

Infectious Diseases, Immunology and Pathogenesis (PhD)
The objective of the PhD program in Infectious Diseases, Immunology and Pathogenesis (IDIP) is to educate investigators to develop strategies to translate and implement knowledge from cellular, molecular and genetic advances into studies of normal human organ system function as well as mechanisms of human organ system dysfunction in disease and how to reverse this dysfunction by medical treatment. Animal disease models as well as clinical trials in patients are frequently used to advance this field. The program applies multidisciplinary approaches to understanding the human organism as a whole. Breadth of medically related interests and training are major features of this track and wide and varied skills in many research areas characterize the faculty. To facilitate application of multidisciplinary approaches, close and regular contact between participating faculty and students is a major theme of this PhD program.

The IDIP program caters to MD/PhD students, clinician scientists and PIBBS students interested in but not limited to the following fields: immunology (including cancer immunology), virology (including cancer virology), microbiology, physiology and pathology (for example: diabetes, obesity, autoimmunity, infectious diseases, gastrointestinal and liver diseases, heart and lung diseases, hypertension, central nervous system diseases, etc.)

Infectious Diseases, Immunology and Pathogenesis (IDIP) students are required to complete 8 units from the following courses: INTD 504, INTD 522, INTD 549, INTD 550, INTD 551, INTD 572, INTD 573 or other courses approved by the faculty adviser. In the second and subsequent years, students are required to register in INTD 574 every fall and spring semester. In addition, students are required to complete at least 4 units of MEDB 794a Doctoral Dissertation, MEDB 794b Doctoral Dissertation.

PhD students must supplement course work by registering for MEDB 790 Research during the fall, spring and summer semesters as needed to complete the minimum 60 units required for the PhD program.

As part of the requirements for the PhD degree in Infectious Diseases, Immunology and Pathogenesis (IDIP), students must adhere to the unit/course requirements, guidance committee and dissertation committee guidelines and must complete the qualifying examination, annual research appraisal, and dissertation and oral defense as outlined in the sections following the descriptions of the PhD programs.

Integrative Anatomical Sciences (PhD)
This program is designed to provide students with a broad foundation in the Anatomical Sciences, including Human Gross Anatomy, Microanatomy and Neuroanatomy. Students will build on this foundation to develop detailed expertise in their chosen area of research under the guidance of the faculty in the Department of Integrative Anatomical Sciences. Faculty research interests span a wide range of topics including Evolutionary Morphology, Comparative Biomechanics and Integrative Physiology. The core course work includes in-depth training in fundamental anatomical sciences including cadaveric dissection and microscopic study of tissues. This program is aimed at preparing students for tenure and non-tenure track teaching and research faculty positions in medical schools, allied health programs, universities and colleges, and research museums.

Admissions
The Department of Integrative Anatomical Sciences selects highly qualified students for admission into the Integrative Anatomical Sciences PhD program. The prerequisite for applicants to the PhD program is a bachelor’s degree with a science major or equivalent. Applicants should have a superior undergraduate record at an accredited college or university, with a minimum undergraduate grade point average of 3.0. Applicants are expected to have a strong background in science and mathematics. College-level courses in evolutionary biology, developmental biology, organismal biology and physiology are recommended. All applications are expected to be supported by three strong letters of recommendation.

Demonstrated proficiency in the English language is required. Foreign applicants are expected to provide results from the Test of English as a Foreign Language (TOEFL), or comparable test. Results from Internet-based, computer-based or paper-based tests are acceptable. However, candidates with special circumstances may be considered for conditional admission.

Degree and course requirements:
Course work
Each student must complete a minimum of 60 units of formal courses, seminars and research units while maintaining a minimum GPA of 3.0. The core required courses include 16 units from courses in Human Gross Anatomy (IAS 501aL, IAS 501bL),
Dissertation Defense

More than 60 days prior to the dissertation defense date. Dissertations must be submitted to dissertation committee members no fewer than one member from outside IAS. All members of the committee must meet the requirements of the graduate school. The student should consult with all members of the committee for guidance on material to be covered on the exam.

The qualifying exam consists of a written and oral component and will be conducted following the requirements of the graduate school. The oral exam must be conducted within 60 days of the submission of the written exam, and the written exam must be reviewed and approved prior to moving forward with the oral exam.

Dissertation Committee

Following completion of the Qualifying Exam, the student must select a Dissertation Committee to provide guidance on the graduate's dissertation research. The Dissertation Committee must be comprised of at least three, but no more than five members. The majority of the committee must be from IAS and include at least one member from outside IAS. The student's major advisor will serve as the chair of the committee and must be appointed in IAS.

Doctoral Dissertation

A doctoral dissertation comprising original, publishable research must be submitted to dissertation committee members no fewer than 60 days prior to the dissertation defense date. Dissertations must follow the requirements outlined by the graduate school.

Dissertation Defense

The student will deliver a 50-minute presentation of their PhD dissertation research that is open to the public. Following the presentation, the student must successfully defend their PhD dissertation before their dissertation committee in a closed-door setting.

IAS Core Curriculum and Research

Core courses to be taken by all students in the IAS PhD Program:
- IAS 501aL Human Gross Anatomy Units: 3, 4
- IAS 501bL Human Gross Anatomy Units: 4
- IAS 511aL Microscopic Anatomy I Units: 3
- IAS 511bL Microscopic Anatomy II Units: 3
- IAS 521 Neuroanatomy Units: 3
- IAS 790 Research Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12
- IAS 794a Doctoral Dissertation Units: 2
- IAS 794b Doctoral Dissertation Units: 2
- IAS 794c Doctoral Dissertation Units: 2
- IAS 794d Doctoral Dissertation Units: 2

IAS Electives

Chose 8 units from the following courses. Additional courses may be acceptable with permission from your dissertation committee.
- IAS 502L Advanced Regional Anatomy I Units: 2
- IAS 503L Advanced Regional Anatomy II Units: 2
- IAS 504L Human Skeletal Anatomy Units: 3
- IAS 550 Cell and Neurobiology Seminar Units: 1
- IAS 572 Medical Physiology I Units: 4
- IAS 573 Medical Physiology II Units: 4
- IAS 580 Teaching in the Anatomical Sciences Units: 1
- IAS 581L Teaching in the Anatomical Sciences: Practicum Units: 3

Medical Biophysics (PhD)

The goal of the PhD program in Medical Biophysics (MBPH) is to train the next generation of structural biologists and biophysicists to a) be very familiar with the basic chemical and physical principles important in every living organism, b) be proficient with the theoretical and practical aspects of the important experimental and theoretical biophysical methods, c) to be able to apply these methods to answer fundamental biomedical questions and d) to become responsible investigators eager to translate their findings. The program includes all aspects of biophysics, with an emphasis on structural biology and application of biophysical methods and theories to answer important biomedical questions.

The MBPH program is an inter-campus program that includes faculty from all over USC who not only have active biophysical research programs and serve as mentors, but also contribute to courses offered by the program. In addition, a monthly biophysics seminar series with presentations from USC and outside faculty will expose the students to current biophysical research. As the result, the MBPH program will teach a comprehensive overview about all aspects of biophysics including hands-on training in many biophysical methods. Consequently, students will obtain practical and theoretical knowledge as well as the necessary overview to be able to complete a successful thesis.

Medical Biophysics students are required to complete one of the following courses: BIOC 522, CHEM 521, CHEM 488, CHEM 544, CHEM 565L, CHEM 625, PHBI 650, PHBI 651, PSCI 557, PSCI 664, PSCI 665 or other courses approved by the faculty adviser program directors. In the second and subsequent years, students are required to register in INTD 800 every fall and spring semester. In addition, students are required to complete at least 4 units of MBPH 794a Doctoral Dissertation, MBPH 794b Doctoral Dissertation.

PhD students must supplement coursework by registering for MBPH 790 Research during the fall, spring and summer semesters as needed to complete the minimum 60 units required for the PhD program.

As part of the requirements for the PhD degree in Medical Biophysics, students must adhere to the unit/course requirements, guidance committee and dissertation committee guidelines and must complete the qualifying examination, annual research appraisal and dissertation with oral defense as outlined in the PhD Programs in Biomedical and Biological Sciences section of the catalogue.

Medicine (MD)

Physician-Citizen-Scholar Curriculum

The Keck School of Medicine (KSOM) MD program has implemented a new three-phase Physician-Citizen-Scholar Curriculum. The goals of the new curriculum are to ensure that KSOM MD students: 1) gain the medical knowledge and clinical skills to be outstanding physicians; 2) learn through collaboration with other health professionals, patients and our surrounding communities to be respectful and respected citizens who serve and lead and; 3) are trained in methods of scientific inquiry and equipped as lifelong scholars who are able to contribute to new discoveries and to solving problems of patient care and health systems.

Phase 1: Scientific and Clinical Foundations

- Provides students with a broad and extensive range of knowledge and skills in biomedical sciences and clinical care.
- Composed of blocks of curricular content organized around function.
• Longitudinal instruction in core clinical skills and clinical reasoning is integrated throughout using active and case-based learning.
• Students actively engage in the surrounding community to gain a firsthand understanding of the factors that influence health and health outcomes.
• Service-learning experiences give students the opportunity to work directly with our local communities and to gain exposure to the impacts of social determinants of health while serving the needs of our surrounding population.
• Students participate in Longitudinal Learning Communities with a dedicated faculty coach as part of a curriculum for individualized professional development.

Phase 2: Clerkship Phase: Clinical Immersion
• Provides students with rich and immersive clinical training in core clerkships: Family Medicine, Internal Medicine, Neurology, Obstetrics and Gynecology, Pediatrics, Psychiatry, and Surgery.
• Students will participate in dedicated course work in Health Justice and Systems of Care.
• Students serve and learn as important contributing members of interprofessional teams.
• Two "Just in Time Training" weeks will prepare students for their subsequent core clerkships and will reinforce application of the basic sciences in clinical medicine.
• Cross-cutting themes in quality improvement and patient safety, geriatric medicine, chronic disease prevention and management and mental health will be integrated throughout.
• Longitudinal Learning Communities for coaching and individualized professional development will continue through the clerkship phase.

Phase 3: Post-Clerkship: Individuation and Transformation
• Provides students with an extensive array of clinical opportunities to individualize and tailor their education to determine and achieve their postgraduate career goals.
• All students participate in a residency preparation course.
• Students may select an area of emphasis for in-depth exploration. Areas of emphasis include:
  • Biomedical Research
  • Health Policy and Advocacy
  • Medical Education
  • Medical Humanities
  • Primary Care and Community Engagement
  • Health Technology and Innovation
  • Clinical Medicine: Practice and Administration
• Students complete a scholarly project related to an area of emphasis or special interest.

Introduction to Clinical Medicine
Introduction to Clinical Medicine (ICM) is a longitudinal clinical skills curriculum integrated with instruction in the Scientific and Clinical Foundations phase. ICM exemplifies the patient-centered orientation of the medical school curriculum. Students are introduced to patients and are involved in patient care activities beginning in the first few weeks of medical school. ICM emphasizes the systematic acquisition of clinical skills and students gain competency in interviewing, history taking, physical examination and medical record keeping.

Health Justice and Systems of Care
It is well known that historical and systemic social forces (e.g., poverty, racism, sexism, homophobia, immigration, violence and environmental issues) contribute substantially to a wide range of deleterious effects on health, which disproportionately affect individuals from disenfranchised groups. Physicians are well-positioned to be at the forefront of social change and the Keck School of Medicine has a deep commitment to equity, justice and structural transformation with a goal of ameliorating health disparities and benefiting society. The establishment of a Health Justice Curriculum reflects the commitment of the Keck School of Medicine to social justice and its efforts to impact health equity. The Health Justice curriculum is core content for all KSOM medical students and a certificate in Health Justice is issued at graduation. The goal is to provide KSOM medical students with transformative and immersive educational experiences in Health Justice, which create and sustain future generations of physicians, imbuing them with the knowledge and skills to build practices and organizations that meet the needs of individuals and communities and enabling them to lead policy efforts to address healthcare inequities in society.

Health Justice Curriculum Objectives:
To earn the Health Justice certificate, KSOM students will:
• Build knowledge of theories of justice and explore how interrelated topics such as residential segregation, income, education, gender, food insecurity, and structural racism impact human rights and health disparities.
• Recognize the ways in which socioeconomic systems deny or promote individuals’ realization of human rights based on categories of prejudice or privilege locally and globally.
• Employ skills of communication, community assessment, organizing and mobilization, leadership, and advocacy needed to influence systems and societal structures to cultivate an equitable healthcare system and provide equitable health care.
• Gain insight into the role of community organizing and mobilization in driving policy and practice to respond to the challenges of inequities in health and health care.

Core Content:
The curriculum will progress from an inward look at self, to interactions with others including peers, community members and patients and to understanding societal and legal influences on health and healthcare.
• Implicit bias training
• Theories of justice and human rights
• Health justice ethics
• Cultural humility
• Health care disparities
• Social determinants of health
• Structural competency
• Structural racism
• Access to care
• Healthcare for homeless populations
• Trauma-informed care
• Adverse childhood events
• Community assessment and mobilization
• Advocacy

Health Justice Certificate
The establishment of a Health Justice Curriculum reflects the commitment of the Keck School of Medicine (KSOM) to social justice. The Health Justice curriculum is core content for all KSOM medical students and a certificate in Health Justice is issued at graduation to recognize the depth of that work. All KSOM medical students participate in transformative and immersive educational experiences to equip KSOM graduates with the knowledge and skills to build practices and organizations that meet the needs of communities and lead policy efforts to address healthcare inequities in society. The curricular requirements of the Health Justice certificate are fulfilled through experiences in the community and health systems (e.g., patient navigator, street medicine, advocacy project), selected readings and videos, team-based learning sessions, and focused topic meetings with students in round table fashion or in small groups. Skills are taught through mentoring, in which students are given the opportunity to process their experiences in real time through dialogue with community providers engaged in the service experiences and through complementary reflective sessions with faculty.
Legacy Curriculum (Effective for the Classes of 2023 and 2024)

Scholarly Project
The Scholarly Project is a longitudinal learning and experiential course that takes place during the second year of medical school. The objective is to engage medical students in hypothesis-driven research to develop skills and attitudes of critical thinking around evidence-based medicine and research. Students identify a project mentor and are given a timeline that includes the milestones for the course. Students complete the bulk of their “hands on” research during the summer between Years I and II and throughout Year II. All students will submit an abstract and have a poster presentation at the Annual Spring Medical Student Research Forum to meet course requirements.

Year III–IV (two academic years)
Years III and IV are designed as a continuum of two calendar years. Students rotate throughout the Year III/IV continuum in cohort groups of approximately 28 students on required clinical clerkships and selective/elective experiences. When on required clinical clerkships (family medicine, internal medicine, obstetrics and gynecology, neurology, pediatrics, psychiatry, and surgery), students are immersed in clinical settings and learn while providing direct care to patients as integral members of interprofessional healthcare teams.

Transition to Clinical Practice
Transition to Clinical Practice is a one-week course at the beginning of Year III designed to prepare students for the transition from predominantly classroom-based instruction in Years I/II to learning while on clinical clerkships. The course provides learning experiences in cultural sensitivity, teamwork, patient safety and quality, and personal resilience and well-being. Students are also afforded the opportunity to acquire skills in basic radiology, EKG interpretation, the presentation and documentation of clinical encounters, the use of aseptic technique, managing airways, and in achieving compliance with different types of isolation requirements. The course culminates in students donning a white coat and a group recitation of the Hippocratic Oath to reinforce the commitment to professional principles as they transition to their new roles as student physicians on healthcare teams.

Required Clerkships
There are nine required clerkships in the Year III/IV continuum. All required clerkships provide comparable experiences across clinical sites and core didactic curricula.

Family Medicine (six weeks)
The Family Medicine Clerkship provides students with individualized opportunities for medical students to explore the breadth of family medicine and understand the role of a family physician. Students will care for patients across the full spectrum of ages within the context of an ongoing personal patient-physician relationship focused on integrated care. This clerkship offers students a close, collegial relationship with their preceptors as they address preventive care, acute and chronic illness, and mental health in the outpatient setting. In addition to outpatient clinic, students may participate in home visits, hospital rounds, nursing home rounds, obstetric deliveries, volunteer clinics, or sporting events to ensure experiences that cover the breadth of family medicine practice.

General Surgery (six weeks)
The Surgery Clerkship provides students with experiences in caring for patients with common general surgery diagnoses and traumatic injuries. These patients range from infants to geriatric patients. The students are integral members of an inpatient team consisting of a faculty attending, a fellow, a senior resident, several junior residents, one to two interns and three to four third-year students. All student activities revolve around perioperative care. Students participate in the operating room and are active in doing surgical consults, seeing patients in the clinic, and rounding daily with their inpatient teams.

Internal Medicine (six weeks)
The Internal Medicine Clerkship provides students with a comprehensive experience in hospital medicine. The clerkship exposes students to a diverse patient population with a wide range of medical conditions and students become familiar with the role that hospitalists play in providing inpatient care. While a member of the medical team, students gain experience managing complicated medical conditions, interacting with consulting services, and developing specific disposition plans for individual patient needs.

Obstetrics and Gynecology (six weeks)
The Obstetrics and Gynecology Clerkship provides students the opportunity to interact with women in all stages of life, from adolescence through and beyond menopause. Students experience a variety of obstetrical and gynecological conditions in both outpatient and inpatient settings. Students gain an understanding of the primary care mission within obstetrics and gynecology in the outpatient segment, and the inpatient experience provides an exposure to the dynamic aspects of birth, obstetric and gynecologic surgeries, and emergencies.

Pediatrics (six weeks)
The Pediatrics Clerkship addresses issues unique to newborns, infants, children and adolescents by focusing on the health and well-being of the developing human, emphasizing growth and development, principles of health supervision, and recognition and treatment of common health problems. Additionally, the clerkship emphasizes the importance of the interaction of family, community, and society on the complete health of the patient. The role of the pediatrician in prevention of disease and injury, and the importance of collaboration between the pediatrician, other health professions, and the family is emphasized.

Psychiatry (six weeks)
The Psychiatry Clerkship provides students with experiences engaging in the care of patients in several different treatment settings, including inpatient wards, the psychiatric emergency room, outpatient clinics and hospital-based consultation services. Students are exposed to pathology ranging from uncomplicated depression and anxiety disorders to severely decompensated psychotic disorders. Students learn in detail about the biopsychosocial model and a holistic approach to treatment of mental illness, including the use of both psychotherapy and psychopharmacology, and the importance of individualized social interventions. The integration of psychiatry into the broader field of medicine is emphasized, as is the use of bioethical concepts in the treatment of all patients.

Neurology (four weeks)
The Neurology Clerkship provides students with experiences interacting with patients of different ages who have damage to the nervous system of varying types and degrees. Many neurological disorders are insidious in onset with gradual deterioration over time. Students learn to appreciate that neurologic diseases may impair physical functioning and/or alter the core of what defines individuals as a person, i.e., cognition, memory, and personality. Students learn how to evaluate and treat these patients and their families. Furthermore, because many patients are followed for extended periods of time, students learn how neurologic disease affects, and may restrict, one’s lifestyle choices, family interactions, work, school, living situations and levels of activity.

Internal Medicine Sub-internship (four weeks)
The Internal Medicine Sub-internship enables Year IV students to work directly with attending physicians and residents in the provision of patient care in an inpatient, sub-internship experience. Students are integral members and contributors to the patient care team and assume a more advanced level of responsibility under the supervision of the resident and attending physician.

Intersessions I and II
Intersessions I and II are one-week-long sessions delivered early in Year III (Intersession I) and late in Year III (Intersession II) that enable students to pause, reflect and consolidate the
many and varied clinical/educational experiences in which they participate during Year III. The sessions provide experiences in advanced clinical skills, professional development, evidence-based medicine, patient safety and quality, health policy, ethical decision-making, the business of medicine and the residency application process.

Selective Clerkships

Students are required to complete 16 weeks of selective clerkships chosen from a list of four-week clerkships. Selective clerkships are always exactly four continuous weeks and are under the direction of USC faculty members at USC affiliated hospitals and encompass virtually all specialties and subspecialties. Students are required to take one critical care or acute care (emergency medicine) selective, a medicine or pediatric subspecialty rotation, and two additional selectives from the above designations or other specialties.

Elective Clerkships

The elective period consists of 16 weeks, during which students may complete research and a combination of approved rotations at KSOM, other medical schools, or other medical centers in the United States or abroad.

Track Mentor Program

The KSOM Year III Track Mentor Program capitalizes on the KSOM structure of student cohorts to promote the continued development of professional attributes and a positive learning environment. Each Year III student cohort group meets with their assigned mentor (who is not involved in the evaluation process) six to seven times during the academic year. The mentors facilitate discussions on topics such as professional development; ethical, professional, and cultural challenges; student health and well-being; and collaboration and team development.

Humanities, Ethics, Arts, and Law (HEAL) Curriculum

This four-year curricular thread is integrated into a variety of courses throughout medical school including ICM, required clerkships and Intersessions. The curriculum begins in Year I with collaborative discourse about ethical problems to help students learn to identify, analyze, and resolve clinical ethical problems. The program then focuses on ethical discernment and action in simulated settings and the study of the human dimensions of medicine. Year III includes ethics education by clinical role models as an integral part of the core clerkships. During Intersessions, the program includes a series of sessions that focus on the humanities, arts, contemporary health care and systems issues, and the physician-in-society.

Fifth-year Research Option and Dean's Scholars

USC offers students the opportunity to take a full year of research experience with either a Keck School of Medicine faculty mentor or an approved faculty mentor at another institution. This program is open to any student in good academic standing who has completed his or her first year of medical school. Students interested in the option identify a faculty preceptor and present a description of the proposed research program and funds available in support of the program to the director of the fifth-year research option. A stipend, comparable to that received by a graduate student at the postgraduate level, is available for selected dean's research scholars pursuing this option.

Preventive Medicine (Health Behavior Research) (PhD)

The Department of Preventive Medicine, Division of Health Behavior Research, offers a degree program in preventive medicine (health behavior), leading to attainment of the PhD. The program is designed to train exceptional researchers and scholars in the multidisciplinary field of health behavior research. Students receive a thorough grounding in academic and research experience, encompassing theoretical and methodological training in such allied fields as communication, psychology, preventive medicine, biostatistics, public health and epidemiology. Students receive research experience by participating in projects conducted through the USC Institute for Health Promotion and Disease Prevention Research (IPR). The doctoral program is full-time: students are expected to enroll for fall, spring and summer semesters.

Assistantships

Financial and educational support is provided to qualified doctoral students in health behavior research. Graduate (research and/or teaching) assistantships are half-time (20 hours per week) and provide tuition remission as well as a monthly stipend.

Computer Language Requirement

Sufficient familiarity in computer languages to operate major software packages for data management and analysis is required.

Course Requirements

The doctoral program in health behavior research is structured as a four to five year course of study for students entering with a bachelor's degree. Time requirements are subject to review and approval by the division's Graduate Program Committee and the Graduate School. A total of 60 units of graduate study is required for the PhD in health behavior research. Students are required to complete nine core courses: PM 500, PM 511a, PM 511b, PM 515, PM 530, PM 601, PM 604, PM 615 and PM 756 (total of 37 units). Other requirements include: two elective PM courses, one not offered by health behavior faculty (minimum of 7 units); and a minimum of 4 units each in PM 590, PM 690 series (PM 690a, PM 690b, PM 690c, PM 690d, PM 690z), PM 790 and the PM 794 series (PM 794a, PM 794b, PM 794c, PM 794d, PM 794z).

For students entering with a bachelor's degree, one of the directed research projects will be equivalent in scope to a master's thesis. All research experiences/projects must be completed before registering for the PM 794 Doctoral Dissertation series (PM 794a, PM 794b, PM 794c, PM 794d).

Screening Procedure

The progress of each student is reviewed at the end of every academic year. At the end of the second year of study, students who have not made satisfactory progress are advised that they will be dropped from the program unless their progress improves during their second year.

Qualifying Exam Committee

Each student's qualifying exam committee consists of five members, including: no more than three health behavior faculty members; one other member from the Department of Preventive Medicine; and one member from a doctorate-granting program outside the Department of Preventive Medicine, representing the student's minor field.

Qualifying Examination

Following course work and prior to beginning the dissertation, students must demonstrate written and oral mastery of the general field of health behavior research as well as of their chosen area of specialization. The qualifying process includes a written examination on theory and literature relevant to a selected content area. The examination is administered by the student's qualifying exam committee.

In addition to the qualifying examination, each student is expected to produce the following as evidence of qualification to conduct dissertation research: an academic dossier consisting of a summary of the student's academic record, teaching and research experience, and professional presentations and publications; at least one original empirical research paper of publishable quality, produced in connection with one of the student's courses or research experiences or developed independently; a dissertation proposal; and an oral defense of all the preceding materials.

Associate Program Directors: Teresa Norris, EdD, CRNA; Michele E. Gold, PhD, CRNA

Administrative Faculty: Erica McCall, DNP, MS, CRNA, MPH; Jennifer Hogan, MS, CRNA

Faculty
Chair and Professor: Holly Muir, MD
Professors of Clinical Anesthesiology: Jack Berger; Michele Gold; Gilgor Guev; Steven Haddy; Mary Joseph; Philip Lumb; Steven Richeimer; Duraiyath Thanaguthurai; Vladimir Zelman
Associate Professors of Clinical Anesthesiology: Dimiter Arnaudov; Eugenia Aryan; Sherif Kandil; Jeffrey Lee; Rajesh Patel; Peter Roffey; Ashraf Sedra; Earl Strum; Fayezy Takla
Assistant Professors of Clinical Anesthesiology: Russel Alexander; Rudolfo Amaya; Tawfik Ayoub; Elizabeth Bamgbose; Maxim Benbassa; Janaik Charsandrao; Isaac Chu; Connie Chung; Kari Cole; Jeffrey Darna; Judith Franco; Roughbeh Jahansouz; Wayne Kaufman; Michael Kerns; Rafat Khan; Michael Kim; John Lee; Rodney McKeever; AraaH Motomed; Chuck Nguyen; Teresa Norris; Linda Rever; Candace Tay; Michael Tom; Chelsia Warner
Instructors of Clinical Anesthesiology: Claudia Altomare; Priscilla Arceo; Roberta Ashley; Debbie Avnet; Babatunde Bamiadele; Brindusa Bauer; Paula Benson; Daniel Bourke; Ryan Brown; Chelsea Caine; James Carey; Jennilyn Casalme; Adrian Castro; Verzhne Chaparyan; Gicela Chen Zhou; Adrian de La Cruz; Kavita Davenport; Melissa Dowling; Geoff Edwards; Kevin Faustino; Jerome Fernandez; Charlotte Garcia; Katharine Geitz; Dolores Gibbs; David Godden; Daniel Gregory; Tseganesh Haileselas; Jennifer Hogan; Dina Hunt; Monique Jabbour; Ronald Jarvin; Kelsey Johnson; Kim Jones-Tang; Andrea Kaek; Rory Keenan; Joseph Kim; Philip Klaine; Vadim Kuraev; Daniella Kuykendall; Edgar Lampano; Cheryl Lansang; Kruchelle Lansing; Nikola Lazovich; Jennifer Lee; Rubin Macias; Victoria Mahony; Jason Malig; Tracy May; Jon McIntyre; Paul Montori; Sharun Munfas; Arthur Norciff; Cathy Ngyuen; Michelle Olives; Margaret Oliveto; Robert Olson; Patricia Omo; Nilu Patel; Nancy Perez; Sharon Perez; Erin Peters; Karissa Picolo; Nicole Que; Seth Quiambao; Ali Quilter; Christina Raimondo; Joseph Sammut; Jacob Schonau-Taylor; Avneet Sighn; Ethan Tate; Crystal Trinooson; Regalado Valerio; Suzanna Valerio; Rhona Wang; Kelly Zhou

The USC Program of Nurse Anesthesia prepares qualified registered nurses to obtain a doctoral of nurse anesthesia practice; upon successful completion of the curriculum the student is authorized to sit for the certification examination given by the National Board of Certification and Recertification of Nurse Anesthetists. The USC Program of Nurse Anesthesia offers a concentrated academic and comprehensive clinical curriculum. Students will gain experience in the various required clinical specialty areas, including but not limited to general, cardiothoracic, neurosurgical, gerontionary, gynecologic, head and neck, plastic, orthopaedic, trauma, obstetric, pediatric and ambulatory outpatient procedures, regional anesthesia, pain management, trauma, POCUS, and emergency airway response. Our mission is to promote scholarly education and professional development of future nurse anesthetists with the academic strength and leadership skills to advance our profession.

Students enrolling in the Doctor of Nurse Anesthesia Practice (DNAP) course of study must complete 78-81 units, over the course of a continuous full-time, 36-month curriculum. Advanced science courses in anesthesiology, anatomy and physiology, pathophysiology, and pharmacology complement the two-year nurse anesthesia clinical residency. Graduates become experts in anesthesiology, perioperative care and pain management, as well as proponents of translational science. Students learn to analyze, synthesize and translate scientific evidence into clinical practice and demonstrate their skill proficiency in a scholarly doctoral capstone project. In addition, course work in health care policy, leadership and advocacy, informatics and technology, and population health prepare nurse anesthesia students for becoming industry leaders and change agents. The USC Program of Nurse Anesthesia has received accreditation through 2023 by the Council on Accreditation (COA) of Nurse Anesthesia Educational Programs and continues its commitment to excellence in the education of its nurse anesthetist students.

The program is based in the Department of Anesthesiology, and classroom instruction is provided by nurse anesthesia program faculty, the Department of Integrative and Anatomical Services within the Keck School of Medicine, as well as clinical instructors from the affiliated clinical sites. Clinical training occurs at Los Angeles County + USC Medical Center, Keck Hospital of USC, Harbor-UCLA Medical Center, UCLA-Santa Monica Medical Center, Arrowhead Regional Medical Center and West Los Angeles Veterans’ Administration Medical Center for the primary rotations. Advanced rotations occur at those sites, as well as Cedars-Sinai Medical Center, Children’s Hospital of Los Angeles, UCLA Medical Center, Endeavor Surgical Center, UCI Medical Center, Los Angeles Downtown Medical Center and the Raymond Renaissance Surgery Center.

Matharu (Physical Science)
The USC Department of Biochemistry and Molecular Medicine prides itself on maintaining a broad-based approach to various aspects of biochemical and molecular biological research. Altogether, the department numbers 43 primary and joint-appointment faculty members, with major research programs in the molecular basis of control and regulation of gene expression, cancer biology and epigenomics, molecular mechanisms of signal processing and transduction, developmental and stem cell biology, detailed analyses of macromolecular structure and function, the biochemistry and molecular biology of the brain, and genetic medicine including gene therapy.

Members of the department are also members of the USC Norris Comprehensive Cancer Center, the USC Institute for Genetic Medicine (IGM), the USC Zilkha Neurogenetic Institute (ZNI), the Eli and Edythe Broad CIRM Center for Regenerative Medicine and Stem Cell Research at USC, and the Children's Hospital Los Angeles (CHLA).

The offices and laboratories of the primary faculty members are located on the University Park Campus. Faculty of the department are located predominantly at the Health Sciences Campus.

### Programs

- Pain Medicine Certificate
- Pain Science Certificate

### Graduate Programs

#### Biochemistry and Molecular Medicine Master of Science:
Most applicants to the Master of Science graduate program in Biochemistry and Molecular Medicine have a bachelor's degree with an undergraduate major in one of the natural sciences. Undergraduate course work should have included biochemistry, physics, mathematics and courses in the biological sciences. A minimum GPA of 3.0 in the natural sciences (including mathematics) is normally required. Applicants must pass satisfactorily the general portions of the Graduate Record Examinations. In addition, the department requires at least three letters of recommendation from faculty members who can evaluate the applicant's potential for graduate work and independent research. See keck.usc.edu/biochemistry-and-molecular-medicine-program/ for more details about the program. Students can apply to the MS program in Biochemistry and Molecular Medicine at gradadm.usc.edu/apply.

#### PhD Programs:
Faculty members of the Department of Biochemistry and Molecular Medicine participate in the USC Programs in Biomedical and Biological Sciences (PIBBS). Students interested in pursuing a PhD degree in the fields related to biochemistry, molecular and cellular biology, and genetics should apply to PIBBS. Applications for the PhD Programs in Biomedical and Biological Sciences should be submitted online through the PIBBS website (usc.edu/pibbs).

### Fellowships

Students admitted to PIBBS PhD programs are awarded fellowships that pay for tuition and provide a stipend. No fellowships are available for master's degree students.

### Programs

- Biochemistry and Molecular Medicine (MS)
PhD Programs in Biomedical and Biological Sciences (PIBBS)

PIBBS Required Core Curriculum and Research

First Semester
• INTD 531 Cell Biology Units: 4
• INTD 561 Molecular Biology Units: 4
• INTD 790 Research Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12
• (4 units)

Second Semester
• INTD 549 Protein Chemistry -- Structure and Function Units: 4
• INTD 577 Writing in the Biomedical and Biological Sciences Units: 1
• INTD 790 Research Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12
• (3 units)

Third Semester
• INTD 500 Ethics and Accountability in Biomedical Research Units: 1
• PM 510L Principles of Biostatistics Units: 4

Admission Requirements for PhD Programs

Admission to the Keck School of Medicine PhD program is open to all incoming PIBBS students provided all PIBBS admission requirements have been satisfactorily completed. Students from other sources, such as MD/PhD students and clinician scientists, may also be eligible on a case-by-case basis.

In general, new graduate students apply for admission to USC through the PhD programs in Biomedical and Biological Sciences (PIBBS), and become enrolled in one of four PhD programs at the Keck School of Medicine after the successful completion of the PIBBS year. During the PIBBS year, students must complete the core curriculum of 29 units, maintain a 3.0 grade point average with no grade lower than a C on all courses, complete three laboratory rotations and successfully identify a lab to join in order to continue into a PhD program.

Application information is available by contacting the PIBBS Program at pibbs@usc.edu.

Unit/Course Requirements

A minimum of 60 units of graduate course credits is required for the PhD, including course work, seminars, research and dissertation units. No more than 8 units of 794 may be applied toward the PhD degree. Students must complete the first year PIBBS core curriculum as well as course requirements for their specific PhD program. Thirty units of course work, including the PIBBS core curriculum, must be completed before students are considered for the qualifying examination. Additional course work relevant to the student's research interests may be required by the student's qualifying exam committee or by the student's faculty adviser.

Guidance Committee

After 30 units of course work, which includes the PIBBS core curriculum and course requirements for one of the four PhD programs, the student, in consultation with a faculty adviser, will nominate five faculty members to serve on the guidance committee for the qualifying examination. A minimum of three of the faculty must be from the student's PhD program, and one must be a faculty member from outside the PhD program. The chair of the guidance committee must be a member of the student's PhD program and the faculty adviser is not allowed to be on the committee (but may be a silent presence during the exam). These nominations are submitted to the chair of the program for formal appointment.

Qualifying Examination

Students in the PhD program must pass both the written screening and the oral portions of the qualifying examination.
administered by their guidance committee during the second year of graduate study.

The written screening exam involves writing a research grant proposal. The deadline for completion of the written screening is the second week of January of the second year. Students who receive a failing score will be allowed one resubmission, with a deadline of within 30 days of notification of score receipt. The written portion must be passed before the oral portion can be taken.

The oral examination must be completed within 60 days after successful completion of the written screening exam. The oral examination consists of two parts. The first part consists of a presentation of the proposed thesis research. The second part consists of an open forum in which the guidance committee asks general questions on any topic related to the student's research.

Final evaluation of the examination is determined by a consensus of the guidance committee. If a student does not pass, it is at the discretion of the committee to allow the student to repeat the second week of January of the second year. Students who receive a failing score will be allowed one resubmission, with a maximum of 60 days after the oral examination.

**Advancement to Candidacy**

Recommendation for advancement to candidacy for the PhD degree is made on the basis of the successful completion of the qualifying examination, course requirements and the student's maintenance of at least a 3.0 GPA. A student who has not been recommended for advancement to candidacy at the end of the first semester of the third year will be dismissed from the program.

**Dissertation Committee**

After advancement to candidacy, the student must form a dissertation committee, in consultation with a faculty adviser. A minimum of three committee members must be selected, one of which is the faculty adviser, and at least one of which must be a tenured or tenure-track faculty member of the student's PhD program. Committee members may be non-tenure track. The chair of the dissertation committee must be a member of the student's PhD program and may not be the faculty adviser. The dissertation committee is responsible for counseling the student during preparation of the dissertation and conducting the final oral examination during the dissertation defense. Students are expected to meet with the dissertation committee once per year to discuss progress.

**Annual Research Appraisal (ARA)**

After advancing to candidacy, each graduate student presents an annual progress report to his or her dissertation research committee. Prior to the meeting, the student prepares a short written document describing significant experiments, problems and projected studies. This document is distributed to the committee and is included in the student's file. The ARA meeting is intended to be a working session between the student and his or her committee; experimental results and problems are discussed with this context. In addition the student presents a research plan for the next year of work. A satisfactory ARA is required of every student for each year of residence after the completion of the qualifying exam. A final ARA is required the semester before the student is permitted to defend the dissertation.

**Dissertation and Oral Defense**

The student's research is reported in a dissertation written under the guidance of the dissertation committee. The dissertation must demonstrate the student's capacity for independent research, scholarly achievement and technical mastery of a special field. Students are expected to have at least one first author publication accepted in a peer-reviewed journal before the defense.

When the final draft of the dissertation is ready, the student will take the final oral defense. Students must submit their dissertations to the dissertation committee at least one month before they expect to make final revisions.

Dissertation committee members are expected to read and comment on a dissertation within two weeks from its submission. The student and faculty will coordinate a timeline for the student to present the thesis to the dissertation committee. This timeline must allow all dissertation committee members enough time to fulfill their responsibilities within the four-week deadline.

The dissertation defense is a formal public presentation of the student's research before the program faculty and students. Dissertation defenses must be publicized at least two weeks prior to the oral defense.

All doctoral candidates must be registered in 794 Doctoral Dissertation each semester (excluding summer sessions) from the time of their advancement to candidacy until their dissertation is approved and submitted to the Graduate School.

**Support Services**

The Primary Care Physician Assistant Program at USC is dedicated to the advancement of physician assistant education and emphasizes service to the medically underserved. The program is committed to preparing students from diverse backgrounds to positively transform the healthcare system. Students, graduates, faculty and staff are committed to doing this through collaboration, inclusivity, innovation, integrity, excellence and joy. Students earn a Master of Physician Assistant Practice (MPAP) degree upon completion of the program.

The program is a full-time educational and professional training program. Students are required to participate in all scheduled program activities, as well as comply with all program policies, including requirements of professional behavior. Instructors include PA, NP, MD, DO, PhD, MSW, OT, RN and PharmD. While most classes are held during the day, there are some curricular activities in the evening. Currently, course work is given in a hybrid setting with virtual and in classroom instruction, both in real-time and asynchronously. Clinical assignments/rotations include day and evening shifts, weekends and some on-call schedules. Written examinations and performance evaluations are scheduled regularly throughout the duration of the program. Students must pass each component of the curriculum in order to make satisfactory academic progress in the program. Student learning services may be recommended for students who experience academic difficulty. Students must meet all health requirements and maintain current health records.
General areas of study include basic sciences (anatomy, physiology, pathophysiology, genetics, pharmacology); cross-cultural critical thinking; health behavior; clinical skills including patient interviewing, history-taking, written documentation, all components of physical assessment; laboratory and radiological principles; nutrition; principles of primary care, including prevention and patient education; medical Spanish; interpretation of medical literature; professional development; and specialty seminars in research, education and medical care organizations. Additionally, students participate in clinical training in the areas of family medicine, pediatrics, women's health, surgery, orthopedics, internal medicine, behavioral and mental health, and emergency medicine. The curriculum consists of 33 months of didactic and clinical training. The educational process consists of a total of four semesters of didactic (classroom-based) instruction and 54 full-time equivalent weeks of on-site clinical education.

Clinical education takes place at multiple clinical sites throughout the greater Los Angeles region, including the Los Angeles County+USC Medical Center, Keck Medicine of USC Medical Center, Cedars Sinai Medical Center, a range of private offices, and managed care settings, community-based clinics, VA facilities, and specialty settings. Clinical training sites and clinical preceptors are established and maintained by the PA program. The program assigns students to the appropriate clinical rotations and exercises the right to assign students within a 60-mile radius of the Health Sciences Alhambra Campus.

The Accreditation Review Commission on Education for the Physician Assistant, Inc. (ARC-PA) has granted Accreditation-Continued status to the USC Physician Assistant (PA) Program, sponsored by USC. Accreditation-Continued is an accreditation status granted when a currently accredited program is in compliance with the ARC-PA Standards.

Accreditation remains in effect until the program closes or withdraws from the accreditation process or until accreditation is withdrawn for failure to comply with the Standards. The approximate date for the next validation review of the program by the ARC-PA will be June 2029. The review date is contingent upon continued compliance with the Accreditation Standards and ARC-PA policy.

The program's accreditation history can be viewed on the ARC-PA website at arc-pa.org/wp-content/uploads/2020/03/Accreditation-History-U-of-Southern-Cal-153.pdf.

For more information on the Primary Care Physician Assistant Program at USC, please call us at (626) 457-4240 or email us at uscpa@usc.edu.

Professor and Chair: E. R. Seiffert*
Professors: M. Snow*; R. I. Wood*
Associate Professors: K. J. Carlson; R. Gopalakrishna*; K. L. Lewton*; C. M. McGowan; B. A. Patel; M. Winfield*
Assistant Professors: A. K. Huttonlocker; A. D. Kemp; M. F. Laird
Emeritus Professors: G. Albrecht*; T. H. McNeill*; J. E. Schechter; D. Warren III
*Recipient of university-wide or school teaching award.

The Department of Integrative Anatomical Sciences provides training in the basic medical sciences to health professional students, and prepares graduate students as future teachers and researchers in the human anatomical sciences and functional morphology.

Integrative Anatomical Sciences Graduate Program

The graduate-level course of study includes in-depth training in core anatomical disciplines: gross anatomy, histology and neuroanatomy, including cadaveric dissection and microscopic study of tissues. In addition, students receive an intensive introduction to fundamentals of bone and dental biology, human anatomical variation, and clinical anatomical correlations. Interested students can receive training in laboratory teaching for gross anatomy, or research training in functional and evolutionary morphology.

Admission

The Department of Integrative Anatomical Sciences selects highly qualified students for admission into its Master of Science program in Integrative Anatomical Sciences. The prerequisite for applicants to the MS program is a bachelor's degree with a science major or equivalent. Applicants should have a superior undergraduate record at an accredited college or university, with a minimum undergraduate grade point average of 3.0. Generally required courses include at least one year of college-level biology, one year of college-level physics and mathematics through calculus. College-level courses in cell biology, developmental biology, organismal biology and physiology are recommended. Demonstrated proficiency in the English language is required.

Foreign applicants are expected to provide results from the Test of English as a Foreign Language (TOEFL). Results from Internet-based, computer-based or paper-based tests are acceptable. However, candidates with special circumstances may be considered for admission with continuing registration requirements.

Applicants will need to submit the following for consideration:

1. Three letters of recommendation from faculty members who can evaluate the applicant's potential for graduate work and independent research.
2. Complete undergraduate transcripts.
3. TOEFL scores (if applicable).
4. Statement of Purpose (should describe your reasons for seeking a MS degree in the anatomical sciences and describe your career goals).
5. Answers to the following application questions:
A. Describe your motivation for pursuing a MS degree in Integrative Anatomical Sciences. (150-300 words)
B. Describe your preparation for entering a MS degree program. What courses have you taken that have prepared you for advanced training in anatomical sciences (e.g., human anatomy and physiology, embryology, biology, evolutionary biology, biological anthropology, neuroscience)? Describe any extracurricular experiences (e.g., volunteer work, employment) that have prepared you for a MS degree in anatomical sciences. (200-300 words)
C. Describe your intended career path, explain how a MS degree in anatomical sciences will assist you in reaching your career goals, and describe why the MS IAS Program at USC is an ideal fit. (200-300 words)
D. Optional – Do you have diverse life experiences that have shaped your personal development in ways that could contribute to increasing equity, diversity and inclusion in science? (200-300 words, OPTIONAL)

Programs
Integrative Anatomical Sciences (MS)
Integrative Anatomical Sciences (PhD)
The Minor in Speech-Language and Hearing Professions is designed to introduce undergraduate students from a wide variety of majors to the field of communication sciences and disorders, prepared to serve a diverse, urban community in working within the values and expectations of the university, our courses and an expansive array of clinical experiences, and collaborative practices in the field. Through dynamic academic clinical experiences to apply current evidence-based, ethical and regulatory administration of academic, clinical or business efforts.

Graduate Program

Admissions

An applicant to the graduate program in molecular microbiology and immunology must have a bachelor’s degree from an accredited college or university with a major in science — usually biology, chemistry or physics. The applicant must have demonstrated strength in science or mathematics. Graduate course work should include at least one year of biology, chemistry through organic chemistry, mathematics through calculus, physics and physical chemistry. Deficiencies may be made up early in the predoctoral program.

The department encourages applicants to contact its office prior to making formal application. Each applicant must pass the Graduate Record Examinations (GRE) or the Medical College Admissions Test (MCAT). Furthermore, applicants must arrange for three letters of recommendation to be sent on their behalf. Applicants must also provide a one-page statement of career objectives, including the general area of research interest. This statement is intended to facilitate selection of those students who will most benefit from the department’s graduate program. A personal interview is recommended but not required.

Program

Molecular Microbiology and Immunology (MS)

Introduction

The Master of Science (MS) in Neuroimaging and Informatics (NIIN) program provides students with an understanding of the scientific and clinical underpinnings of neuroimaging science and how to leverage that knowledge to make new and important discoveries in biomedicine. Students who successfully complete the program will be ideally positioned to apply to formalized predoctoral program.

The program comprises 10 courses (eight 3-unit and two 1-unit) to be taken in one academic year. Didactic lectures address the technology of neuroimaging, a detailed examination of brain anatomy and function, and the variety of data-type dependent education, as it relates to serving individuals with communication disabilities. The Master of Science in Speech-Language Pathology (MS-SLP) is an engaging and innovative degree program designed to provide students with the knowledge base and clinical experiences to apply current evidence-based, ethical and collaborative practices in the field. Through dynamic academic courses and an expansive array of clinical experiences, and working within the values and expectations of the university, our graduates will be prepared to serve a diverse, urban community in a variety of interdisciplinary settings. The mission, vision, program goals and other information about the MS-SLP program can be found on the program website at keck.usc.edu/speech-language-pathology-ms-program/.

Minor

Speech-Language and Hearing Professions Minor

Program

Speech-Language Pathology (MS)
as well as integrative computational processing approaches. Laboratory modules (1) provide guided, hands-on experience with neuroimaging data collection approaches for examining anatomy, connectivity and functional activity; and (2) examine and develop optimized data processing strategies. Finally, scholarship is enriched by several distinct faculty-guided, discussion-based courses that allow detailed examination of specific aspects of neuroimaging of elemental neurological processes and carefully selected applications in neurological and psychiatric medicine. Graduation requirements completion of 26 course units.

Admissions Requirements

Applicants must supply a completed application for graduate studies including: transcripts from all institutions previously attended, standardized test scores, a personal statement describing scientific and career interests, and two letters of recommendation. Applications are generally anticipated for fall enrollment. Applicants to the program must apply to the USC Graduate School and must meet the minimum requirements for admission to the Graduate School. Students should have an overall undergraduate GPA of 3.0 or better (or equivalent) and have achieved graduation with a BS or BA degree (or equivalent).

prior to matriculation. Students are expected to have taken the general portion of the GRE exam before application and to have met or exceeded university score requirements. Applicants not meeting Graduate School requirements for regular standing may, with the approval of the Graduate School, be conditionally admitted. International students from non-English speaking home countries are expected to demonstrate English language proficiency or take remedial English language courses, according to Graduate School policy.

Advisement

The program director, assistant director and other faculty are available to advise and promote students in the program.

Satisfactory Academic Progress

A graduate GPA of at least 3.0 in the program is required at all times. Any student whose graduate GPA falls below 3.0 will be given written notification that they have been placed on academic probation. Students who do not raise their GPA to 3.0 in the second semester are academically disqualified.

The Department of Pathology and Laboratory Medicine provides training for both medical and graduate students. Medical students are trained in general, systemic and cellular pathology, providing them with an understanding and visualization of the basic processes underlying symptoms and clinical courses, as well as the ability to evaluate laboratory findings. This department also contributes to the training of residents and fellows at the LAC+USC Healthcare Network, Keck Hospital of USC and the USC Norris Cancer Hospital, Childrens Hospital Los Angeles and Los Angeles County Coroner/Medical Examiners Office, providing these residents and fellows with an intensive residency program in anatomic and clinical pathology and offering subspecialty fellowship training in surgical pathology, cytopathology, hematopathology, neuropathology and forensic pathology.

The Department of Pathology and Laboratory Medicine has a Master of Science program. The two-year MS program provides training in the latest technologies and concepts of biomedical research and provides the graduate with enhanced opportunities for positions in biotechnology companies, teaching colleges and various health department/governmental positions.

With 96 full-time faculty and 52 residents and fellows in training, the USC Department of Pathology and Laboratory Medicine is one of the largest pathology departments in the United States. The department has strong and diverse research programs in basic, clinical and translational pathology. Basic research includes programs in stem cell biology and organogenesis, molecular mechanisms of cancer, mechanisms of neurodegeneration and ocular disease, and pathogenesis of liver injury and disease. Clinical research is particularly strong in surgical pathology, cytopathology, hematopathology, immunohistochemistry, molecular pathology, microbiology, neuropathology, ocular pathology and pediatric pathology. Investigators in the department are leading programs developing novel therapeutics utilizing peptides, immunotherapies and stem cells. Residency training has added months in dermatopathology and molecular pathology at Keck Hospital of USC and in cytogenetics at CHLA. The hematopathology fellowship has increased fellowship items to two to three fellows and added Norris Cancer Hospital and CHLA as affiliated institutions, making this one of the leading hematopathology fellowships in the nation. CHLA has also provided funding for a second neuropathology fellow, and rotations at CHLA have been added in surgical and autopsy neuropathology, molecular genetics and research. The forensic pathology fellowship training program at the Los Angeles County Medical Examiner/Coroner’s Office has administrative affiliation with the LAC+USC Medical Center.

The department provides diagnostic laboratory services for the LAC+USC Medical Center, the USC Norris Comprehensive Cancer Center and Hospital, Keck Hospital of USC, the USC Clinical Laboratories Group, and all USC Clinics. Approximately 30 of the department’s full-time faculty members work in service laboratories throughout the LAC+USC Medical Center, where they are supported by 40 residents and fellows and a technical and clerical staff numbering in excess of 300. The USC Norris Comprehensive Cancer Center and Hospital and Keck Hospital of USC, as well as the USC clinics, are served by 34 full-time pathologists, two fellows, three residents and approximately 200 technical and support staff.

Graduate Programs

General Admissions

Applicants to the graduate program in pathology must have a bachelor’s degree from an accredited college or university with an undergraduate major in one of the natural sciences; a minimum cumulative GPA of 3.0 for undergraduate work is required. Applicants must submit undergraduate transcripts and letters of recommendation from two undergraduate teachers with their application. All applicants must take the general portion of the Graduate Record Examinations (GRE). A combined score of at least 315 for the verbal and quantitative scores is required. International students whose native language is not English must submit scores from the IELTS (International English Language Testing System) or the TOEFL (Test of English as a Foreign Language) examination. Personal interviews by members of the department’s graduate committee may be requested.

Original application materials, except letters of recommendation, should be sent to the Office of Admission, University of Southern California. To expedite consideration of the application, applicants should also send photocopies of the application, transcripts and GRE scores to the Pathology Department’s graduate committee. Letters of recommendation should be addressed directly to the secretary, graduate committee. Applications are considered for admission to both the fall and spring semesters.

Residency and Fellowship Programs

The Department of Pathology and Laboratory Medicine offers six first-year residency positions and 24 residency positions in its fully ACGME-accredited four-year training program in anatomic and clinical pathology at the LAC+USC Medical Center. Training is offered in autopsy and surgical pathology, neuropathology, cytopathology, microbiology, hematopathology, immunohematology, clinical chemistry, toxicology, immunopathology, cytogenetics, cytogenticomics, instrumentation, laboratory management, clinical informatics, electron microscopy, molecular pathology and other specialty areas. The Department of Pathology also offers the Accreditation Council on Graduate Medical Education (ACGME) fully accredited fellowship training in cytopathology (four positions), hematopathology (three positions), neuropathology (two positions), surgical pathology (seven positions) and forensic pathology (six approved positions). Admissions to residency is exclusively through ERAS (Electronic Residency Application Service) and the NRMP (National Resident Matching Program). Applicants to fellowship should contact the fellowship program director and program coordinator directly; the CAP (College of American Pathologists) Universal Fellowship Application Form is accepted by all USC fellowships.

The department is responsible for training medical, graduate
and undergraduate students in the areas of biostatistics,
epidemiology, health behavior research, and population and public
health sciences. Faculty from the statistical genetics and molecular
epidemiology department also perform research in the areas of
biostatistics, epidemiology of acute and chronic diseases, and
environmental health.

The undergraduate and graduate programs offered by the
department are noteworthy for the extensive opportunities
offered to the students for involvement in faculty research. It is
not uncommon for students to begin working closely with faculty
members on research projects as early as their first or second
year of study.

Undergraduate Degrees
Progressive Degree Programs in Population and Public
Health Sciences
The Master of Public Health, the Master of Science in
Biostatistics, the Master of Science in Applied Biostatistics/
Epidemiology, the Master of Science in Global Medicine, and the
Master of Science in Molecular Epidemiology programs admit a
limited number of undergraduate students to a progressive degree
program, which allows them to pursue a master's level degree
while completing the bachelor's degree. Applicants to the program
must have completed 60 units of course work. Applicants need not
submit GRE scores, but are expected to have a minimum GPA of
3.0 at the time of application. The application for admission to
a progressive degree program must be accompanied by an
approved course plan proposal and two letters of recommendation.
The requirements for both the BS and the master's degrees must
be satisfied, including a minimum of 128 undergraduate units.
For further details on progressive degree programs, see the
Requirements for Graduation page.

Graduate Programs
Doctor of Philosophy in Psychology (Clinical)/Master of
Public Health (Health Promotion)
The PhD/MPH dual degree combines knowledge of clinical
psychology research and practice with an understanding of health
from a population perspective. The student enrolls primarily in the
clinical psychology doctoral program and may apply to the MPH
program during the first year. During the second and subsequent
years, course work is taken in both programs. The dissertation is
undertaken through the Department of Psychology.

PharmD/Master of Public Health
The School of Pharmacy and the Master of Public Health
program, in recognition of the rapidly changing health care
environment and in response to the growing demand for
pharmacists who are knowledgeable in both pharmacy and
population-based health care issues, have developed a dual
degree program. The joint PharmD/MPH degree will enable
graduates to be more responsive to today's health care needs
and will provide training for pharmacists who seek to be agents
of change within the profession and to assume leadership roles in
the pharmacy field and in public health at the local, state and
national levels.

The Doctor of Pharmacy/Master of Public Health (PharmD/
MPH) program spans five years (four years of pharmacy school
courses and one year of public health courses). Students begin
the core MPH courses following the successful completion of the
first year of pharmacy school. The last three years of the program
are devoted to the clinical rotations of the School of Pharmacy
and to the completion of the elective courses and practicum (field
experience) of the MPH program.

MD/Master of Public Health
The joint MD/MPH program at the Keck School of Medicine
is designed for individuals who envision a medical career that
combines public health and medical disciplines. For further
information about the joint program, refer to the program page.

Programs
The Department of Population and Public Health Sciences offers
the following degree programs:

Global Health Studies (BS)
Health Promotion and Disease Prevention Studies (BS)
Addiction Science (MS)
Applied Biostatistics and Epidemiology (MS)
Biostatistics (MS)
Global Medicine (MS)
Clinical, Biomedical and Translational Investigations (MS)
Molecular Epidemiology (MS)
Public Health (MPH)
Public Health (MPH) (Online)
Public Health Data Science (MS)
Master of Science, Global Medicine/Doctor of Pharmacy
(PharmD/MS)
Doctor of Medicine/Master of Science, Global Medicine
(MD/MS)
Master of Public Health/Doctor of Pharmacy (MPH/PharmD)
Doctor of Medicine/Master of Public Health (MD/MPH)
Master of Public Health/Master of Urban Planning (MPH/MUP)
Master of Public Health/Master of Social Work (MPH/MSW)
Biostatistics (PhD)
Epidemiology (PhD)
Preventive Medicine (Health Behavior Research) (PhD)
The Department of Population and Public Health Sciences also offers the following undergraduate minor programs:
Addiction Science Minor
Cinema-Television for the Health Professions Minor
Cultural Competence in Medicine Minor
Environmental Health Minor
Global Health Minor
Health Communication Minor
Nutrition and Health Promotion Minor

The Department of Population and Public Health Sciences also offers the following certificate programs:
Clinical, Biomedical and Translational Investigations Certificate
Community Health Promotion Certificate
Epidemiology Certificate
Global Health and Human Rights Leadership Graduate Certificate
Global Health Communications Graduate Certificate
Global Medicine Graduate Certificate
Planning, Monitoring and Evaluation for Global Health and Development Graduate Certificate
Project Management in Global Health and Development Graduate Certificate

scrm.usc.edu
Chair: Andrew P. McMahon, PhD
Program Director: Francesca Mariani, PhD

Master of Science in Stem Cell Biology and Regenerative Medicine

The one-year program offers courses in cutting-edge biomedical science, including developmental biology, human embryology, regenerative medicine, and the translational and therapeutic aspects of stem cell technology. The program also provides practical hands-on laboratory experience with the growth and differentiation of stem cells. Although not required, students are encouraged to engage in laboratory research during the year, with one of the 80+ lab groups that constitute USC Stem Cell. At the completion of the MS program, students may informally continue to conduct research in their labs, or may continue research with a guided and structured optional second research year.

After completing this program, students will be poised to apply to medical or PhD programs, enter the growing stem cell pharmaceutical domain, or engage in other academic, clinical or business efforts. Students will possess a unique understanding of how the body's own developmental and repair mechanisms can restore damaged cells, tissues and organs — providing new opportunities to treat conditions ranging from blindness to cancer, from organ failure to HIV/AIDS.

Admissions Requirements

Applicants must supply a completed application for graduate studies including: transcripts from all institutions previously attended, a personal statement describing scientific and career interests, and two letters of recommendation. Applicants to the program must apply to the USC Graduate School and must meet the minimum requirements for admission to the Graduate School. Students are required to have a 3.0 or better overall GPA (or equivalent) and have achieved graduation with a BS or BA degree (or equivalent) before matriculation. Please note that students who have GRE, MCAT, or DAT scores that are no more than five years old may submit them to supplement their application. Applicants not meeting Graduate School requirements for regular standing may be admitted, with the approval of the Graduate School, with continuing registration requirements. International students from non-English speaking home countries are expected to demonstrate English language proficiency or take remedial English language courses, according to Graduate School policy. Specific recommended preparation for this program include completed course work with a B or better grade (or equivalent) in Cell Biology and in Molecular Biology.

Advisement

The program recommends that students meet with the student services adviser each semester prior to registration.

Satisfactory Academic Progress

A graduate GPA of at least 3.0 is required at all times. Any student whose graduate GPA falls below 3.0 will be given written notification that they have been placed on academic probation. Students who do not raise their GPA to 3.0 after two semesters on academic probation will be academically disqualified.

Stem Cell Biology and Regenerative Medicine (MS)
Stem Cell Biology and Regenerative Medicine with Research Year (MS)
Stem Cell Biology and Regenerative Medicine Certificate
The Department of Translational Genomics represents an academic department within the Keck School of Medicine of USC with a core mission of developing and driving genetic methodologies toward improvements in patient management and outcomes through translational research and training.

Over the past decade, genomics has led to massive changes in biomedical research in which top medical schools lead in research and clinical trials by leveraging investments in genomics infrastructure coupled to strong bioinformatics. In particular, the emergence next-generation sequencing (NGS) technology has changed how systems are being studied at the molecular, cellular and systems level through hundreds of novel assays. Even further, these assays on NGS platforms have been translated to the clinic, changing how clinical researchers approach patient-driven trials. This may never be more evident than through the recent signing of bi-partisan legislation, the 21st Century Cures Act, the Precision Medicine Initiative, the Cancer Moonshot and the BRAIN Initiative. Genomics represents a central and foundational discipline underpinning these programs; it represents the emerging standard for molecular research. To be competitive small and large universities are making massive investments to build NGS infrastructure, expertise and informatics.

The department is committed to excellence in translational genomics education and research, bringing to bear vast experience and expertise in molecular genetics, genome science, biomedical informatics, translational science, and molecular medicine. The ultimate goal is to serve the Keck community by bridging basic and clinical research through discovery and validation of novel diagnostics and therapeutics for earlier diagnosis and smarter treatments.

Programs
- Translational Biomedical Informatics (MS)
- Translational Biotechnology (MS)
- Translational Biotechnology Certificate
- Translation and Entrepreneurship in Biomedical Sciences Certificate
USC Thornton School of Music

Since its founding in 1884, the USC Thornton School of Music has become the center of higher education in music in the western United States and is among the top schools of music in the nation. Situated in the heart of the vital musical life of Los Angeles, USC Thornton brings together a distinguished faculty and gifted students from around the world. It is in this wonderfully diverse cultural milieu that students are offered instruction in virtually all professional and scholarly branches of music, including instrumental and vocal performance, jazz, popular music performance, music production, early music, composition, screen scoring, music industry, musicology, music teaching and learning, arts leadership, pedagogy, choral and sacred music, conducting and opera. In addition to its major programs, USC Thornton also offers a wide array of music minors and general interest courses for students majoring in other disciplines.

The USC Thornton Symphony, Chamber Choir, Concert Choir, Opera, Wind Ensemble, Popular Music Ensembles, Songwriter Showcases, Jazz Orchestra, Contemporary Music Ensemble, Early Music Ensemble and a wide variety of large and small choral and instrumental ensembles offer students a broad performing experience. More than 500 formal and informal concerts and recitals are presented on campus each year and the school regularly presents eminent visiting artists and scholars in master classes, workshops, lectures, seminars and in performance. Los Angeles is the home of numerous musical organizations whose performances contribute immeasurably to the cultural life of the region, and is also the home of the nation’s major recording, radio, film and television industries. All offer abundant opportunities to the serious young music professional.

The degree can be earned in choral music, composition, jazz or other capstone project as part of the degree requirements. Students working toward this professional degree have a wide choice of specializations: choral music, composition, music industry, instrumental performance, jazz studies, popular music performance, music production and vocal arts. Students can take either a single major program or double majors in several combinations such as piano and composition, string, or percussion instrument. The two majors must be offered by different departments but lead to the same degree (for example, strings or percussion offered by the Music Department and composition or jazz offered by the Jazz Department). The degree is granted by the Thornton School of Music.
Instrumental performance, teaching and learning, or sacred music. The degree is granted by the Thornton School of Music.

**Master of Arts:** This degree, offered through the Graduate School in conjunction with the Thornton School of Music, stresses music history or early music performance, with emphasis on scholarly research.

**Master of Science:** Two degrees are offered in Arts Leadership and Music Industry.

**Doctor of Musical Arts:** This is a professional degree that represents the highest level of expertise in a major field of musical practice and competence in several additional areas. Students may specialize in choral music, composition, jazz studies, vocal or instrumental performance, sacred music, or teaching and learning.

**Doctor of Philosophy:** Conferred by the Graduate School, this is an academic degree in the field of historical musicology. A substantial background in music, research and languages is required.

**Entrance to the Degree Programs**

Admission to a degree program is granted through USC's admission process, described in the Admission section of this catalogue. Supplementary materials are also required for students seeking admission to the Thornton School of Music, which are described online at music.usc.edu.

Applicants to a program within the school are screened by appropriate faculty selection committees that hold auditions, interviews and examine supporting materials. Letters of acceptance are issued by the USC Office of Admission.

**Audition**

A performance audition is required of applicants to most degree and certificate programs in the Thornton School of Music. Detailed information regarding audition requirements for specific Thornton programs is available online at music.usc.edu.

**Graduate Academic Admission Examination**

All DMA and PhD applicants as well as Master's applicants in Music Teaching and Learning, Community Music, and Early Music must, as part of the admission process, take the Graduate Academic Admission Examination administered by the Thornton School. Detailed information is posted annually at the USC Thornton School of Music website (music.usc.edu).

**Placement Tests**

Undergraduate transfer students who have had formal study in any of the following areas must take the appropriate placement examination prior to their first registration: aural skills, theory, music history, conducting, analysis, orchestration and performance. The results of these examinations determine placement in appropriate sequential courses.

**Admission to Graduate Standing**

All students entering a graduate-level degree program (MA, MM, DMA, PhD) at USC Thornton, who have not previously completed a degree at USC Thornton, must take a series of entrance exams in core music subjects. These exams are called Music Graduate Entrance Exams (MGEEs). Information regarding which exams are required for specific majors is available at music.usc.edu.

MGEEs are administered during a prescribed time period prior to the first week of classes each fall and spring semester. Entering students must take all required exams at the scheduled exam time prior to the beginning of their first semester in the program. If any given exam is not passed on the first attempt, that exam can be retaken at the scheduled exam time prior to the beginning of the second semester in the program. If the exam is not passed on the second attempt, the corresponding review course must be successfully completed with a grade of B minus or better before the beginning of the third semester in the program. No MGEE can be attempted after the second semester in the program, regardless of whether the exam has previously been attempted. If students complete any MGEE after their second semester in the program, the score earned on said exam will be invalid. Failure to fulfill all MGEE requirements by the beginning of the third semester — either through exams or review courses — may delay permission to fulfill degree requirements such as recitals, comprehensive or qualifying examinations, thesis projects, and dissertations, and may also have a negative impact on financial aid eligibility.

If a student is not able to take an exam at the scheduled exam time, the exam administrator may choose to administer a similar exam at another scheduled time during the first week of the semester. This alternate exam time will be arranged in rare cases and at the sole discretion of the exam administrator.

**Test of English as a Foreign Language (TOEFL) or International English Language Testing System (IELTS)**

The Thornton School of Music adheres to the USC Admission policies regarding TOEFL and IELTS scores. With some exceptions, international applicants from non-English-speaking countries are required to submit these scores by the application deadline. Test scores that are more than two years old at the time of application are not accepted. For any applicant whose first language is not English, regardless of educational background or immigration status, the Thornton School may require as a condition of admission that they take the International Student English (ISE) exam, administered by the USC American Language Institute, as well as complete any English language course work that may be prescribed from the results of that exam.

**Advanced Standing Credit for Music Courses Taken at Accredited Institutions**

Music courses completed with satisfactory grades at a regionally accredited institution of higher education may be acceptable for transfer. A review of transcripts and course syllabi will be required in order to determine transferability of course work. The Thornton School may also require a student to take a placement test (at no cost) to determine the extent of their knowledge in a given area of musical study before a final determination is made regarding transferability of course work.

**Advanced Standing Credit for Music Courses Not Taken at Accredited Institutions**

Music courses completed at an institution that is not regionally accredited will generally not be transferable. In exceptional cases, the Thornton School may consider petitions for transfer credit for these courses. The petition review process will include evaluation of transcripts with letter grades, course syllabi for each course for which transfer credit is being requested, and examples of work completed for a grade in those courses. Additional information may also be required in order for the Thornton School to complete a full transfer credit evaluation.

**Curriculum Requirements**

The curriculum requirements for each major are listed under each degree. The USC course classification and numbering system is explained in the Registration section of this catalogue. In addition, music courses sometimes carry the following abbreviations: CD = Conducting; CG = Classical Guitar; HC = Harpsichord; OR = Organ; P = Piano; SG = Studio Guitar; VA = Viola; VC = Voice Coaching; VO = Voice.

**Change of Curriculum**

To change from one curriculum to another, a student must apply and be approved for the new curriculum by the appropriate department chair and declare the intent to change curriculum through his or her academic adviser in the Thornton School.

**Non-Degree Programs**

Students who have highly specialized interests that may not be met through degree programs may apply for admission to one of the following non-degree programs.

**Artist Diploma Program**

This program is designed for young artists of exceptional ability and musical sensitivity who plan careers as solo performers. The Artist Diploma Program provides young artists the opportunity to devote their full time to concentrated study and practice for the duration of their assigned programs. This program typically requires two to three consecutive years of study for completion.
Graduate Certificate in Arts Leadership

The Graduate Certificate program in arts leadership is a two-semester program for artists, arts administrators and cultural workers of all types to develop the skills necessary to become successful leaders in the arts and arts organizations in a rapidly changing and radically altered contemporary world.

Graduate Certificate Program in Performance

This two-year graduate-level program is designed for students who have completed their undergraduate education in music, or its equivalent, and intend to concentrate their energies on the full-time development of their discipline.

Honor Society

Pi Kappa Lambda

Pi Kappa Lambda is a national honor society established in 1918 for the promotion and recognition of scholarship and performance in music. Students of the Thornton School of Music are eligible for election to Eta chapter at the University of Southern California, established in 1923, according to guidelines established by the board of the Eta chapter.

Undergraduate Degrees

Minors in Music

Minor in Performing Arts Studies

The minor in performing arts provides an interdisciplinary inquiry into the nature and aesthetics of the performing arts. It combines the disciplines of cinematic arts, dance, music and theatre. The minor is a unique course of study that looks at how the performing arts contribute to a culturally literate society. See the USC School of Dramatic Arts section of this catalogue.

Graduate Degrees

Admission-Audition Requirements

Applicants to graduate programs in the Thornton School of Music must fulfill all music admission requirements described at usc.edu/music, in addition to fulfilling all USC graduate admission requirements. See Thornton School of Music Degree Programs and Entrance to the Degree Programs sections of this catalogue for further information.

Bachelor’s Degree

Choral Music (BA)*

Overview

The Bachelor of Arts in Choral Music combines the flexibility of a Bachelor of Arts program with an in-depth education in choral music that includes an introduction to choral music and course work in choral conducting, choral development, choral arranging, diction and choral ensemble.

Entrance Requirements

Admission to Thornton programs is granted through the USC admission process. Applicants are screened by appropriate faculty selection committees. Specific entrance requirements are reviewed on an annual basis and published online at music.usc.edu.

General Education Requirements

The university’s General Education program provides a coherent, integrated introduction to the breadth of knowledge you will need to consider yourself (and to be considered by other people) a generally well-educated person. This program is effective for all students entering USC in fall 2015 or later, or transfer students beginning college elsewhere at that time and subsequently transferring to USC. It requires eight courses in six Core Literacies, plus two courses in Global Perspectives (which may double-count with courses in the Core Literacies) and two courses in writing. In addition, all entering freshmen are expected to complete a General Education Seminar during their first year at USC. These seminars satisfy one of the Core Literacy requirements above.

Note that courses within the major will also satisfy certain Core Literacy requirements. Please work with your major adviser to determine those courses.

Curriculum Requirements

General Education *

Core Literacies

GE-A: The Arts (one course)
GE-B: Humanistic Inquiry (two courses)
GE-C: Social Analysis (two courses)
GE-D: Life Sciences (one course)
GE-E: Physical Sciences (one course)
GE-F: Quantitative Reasoning (one course)

Global Perspectives

GE-G: Citizenship in a Global Era (one course)
GE-H: Traditions and Historical Foundations (one course)

Writing

• WRIT 150 Writing and Critical Reasoning—Thematic Approaches Units: 4
• WRIT 340 Advanced Writing Units: 3, 4

Lessons (6 units)

• MPVA 301 Individual Instruction Units: 1, 2
6 units total of MPVA 301 (Choral)

Music Ensembles (8 units)

• Choral Music Ensemble at the 300-level: eight 1-unit courses

Program Intensive Courses (12 units)

• MPVA 442 Introduction to the International Phonetic Alphabet Units: 2
• MUCD 340 Choral Conducting I Units: 2
• MUCD 441 Choral Conducting II Units: 2
• MUCM 320 Introduction to Choral Music Units: 2
• MUCM 440 Choral Development Units: 2
• MUCO 441 Choral Arranging Units: 1, 2 (2 units total of MUCO 441)

Core Thornton Academic Courses (38 units)

• MPKS 250a Keyboard Instruction I Units: 2
• MPKS 250b Keyboard Instruction I Units: 2
• MUCO 132a Aural Skills I Units: 2
• MUCO 132b Aural Skills I Units: 2
• MUCO 133a Theory I Units: 3
• MUCO 133b Theory I Units: 3
• MUCO 232a Aural Skills II Units: 2
• MUCO 232b Aural Skills II Units: 2
• MUCO 233a Theory II Units: 3
• MUCO 233b Theory II Units: 3
• MUCO 338x Elementary Orchestration Units: 2
• MUHL 250g Music and Ideas Units: 4
• MUHL 350g Western Art Music History I Units: 4
• MUHL 351 Western Art Music History II Units: 4

Foreign Language (12 units)

Three 4-unit courses in the same language

Electives (20 units)

Total required for degree: 128

*With correct planning, only 32 units (6 GE and 2 Writing courses) will be needed outside of your major requirements.

Choral Music (BM)

Overview

All USC Thornton undergraduate programs in classical performance and composition combine a rigorous foundation of the finest conservatory training with curricular flexibility for students to chart their own artistic pathways. All curricular components are designed to support students in creating a distinctive musical voice and preparing for a fulfilling musical career.
Entrance Requirements

Admission to Thornton programs is granted through the USC admission process. Applicants are screened by appropriate faculty selection committees. Specific entrance requirements are reviewed on an annual basis and published online at music.usc.edu.

General Education Requirements

USC's General Education program, revised in fall 2015, provides a coherent, integrated approach to the study of the liberal arts, with the goal of nurturing habits of thought that are essential for professional success, personal development, and meaningful lifelong learning. Eight courses are required in six Core Literacies, in addition to two courses in Global Perspectives, two courses in Writing, and one General Education Seminar taken during the first year at USC. With careful planning, certain courses (including courses required for the music major) can fulfill more than one of these general education requirements. Academic advisers in the Thornton School carefully guide Thornton students in making their course choices. This typically will result in Thornton students taking a total of eight courses (including two writing courses) in order to fulfill all of the USC general education requirements.

Capstone Project

Young Artist Project

During the junior and senior years of the program, students develop and fully realize unique individualized, mentored projects related to their work as classical musicians. This could involve developing a hybrid performance, conducting original research, exploring new creative technologies or applying creative expression to a pressing social issue.

Composition (BM)

Overview

All USC Thornton undergraduate programs in classical performance and composition combine a rigorous foundation of the finest conservatory training with curricular flexibility for students to chart their own artistic pathways. All curricular components are designed to support students in creating a distinctive musical voice and preparing for a fulfilling musical career.

Entrance Requirements

Admission to Thornton programs is granted through the USC admission process. Applicants are screened by appropriate faculty selection committees. Specific entrance requirements are published on an annual basis and published online at music.usc.edu.

General Education Requirements

USC's General Education program, revised in fall 2015, provides a coherent, integrated approach to the study of the liberal arts, with the goal of nurturing habits of thought that are essential for professional success, personal development, and meaningful lifelong learning. Eight courses are required in six Core Literacies, in addition to two courses in Global Perspectives, two courses...
in Writing, and one General Education Seminar taken during the first year at USC. With careful planning, certain courses (including courses required for the music major) can fulfill more than one of these general education requirements. Academic advisers in the Thornton School carefully guide Thornton students in making their course choices. This typically will result in Thornton students taking a total of eight courses (including two writing courses) in order to fulfill all of the USC general education requirements.

Capstone Projects

Young Artist Project

During the junior and senior years of the program, students develop and fully realize unique individualized, mentored projects related to their work as classical musicians. This could involve developing a hybrid performance, conducting original research, exploring new creative technologies, or applying creative expression to a pressing social issue.

Recital

A senior recital must be completed under approved faculty supervision and guidance. The faculty of the department of the student’s major program determines the detailed requirements of the recital, including content, length, format and other specifications. In cases in which a performance venue is required in order to present the recital, reservations must be made according to the current guidelines of the Music Operations office.

**Requirement may be fulfilled with MPKS 301 Piano if proficiency level equivalent to MPKS 250b is demonstrated by examination.

Jazz Studies (BM)

Overview

The Bachelor of Music in Jazz Studies consists of course work in the major, core music studies (theory, aural skills, music history, ensemble) and USC's general education and writing program.

Entrance Requirements

Admission to Thornton programs is granted through the USC admission process. Applicants are screened by appropriate faculty selection committees. Specific entrance requirements are reviewed on an annual basis and published online at music.usc.edu.

General Education Requirements

USC's General Education program, revised in fall 2015, provides a coherent, integrated approach to the study of the liberal arts, with the goal of nurturing habits of thought that are essential for professional success, personal development, and meaningful lifelong learning. Eight courses are required in six Core Literacies,
in addition to two courses in Global Perspectives, two courses in Writing, and one General Education Seminar taken during the first year at USC. With careful planning, certain courses (including courses required for the music major) can fulfill more than one of these general education requirements. Academic advisers in the Thornton School carefully guide Thornton students in making their course choices. This typically will result in Thornton students taking a total of eight courses (including two writing courses) in order to fulfill all of the USC general education requirements.

**Capstone Project**

A senior recital or senior project must be completed under approved faculty supervision and guidance. The faculty of the department of the student's major program determines the detailed requirements of the recital or project, including content, length, format and/or other specifications. Note that senior projects must first be approved by the Jazz faculty. In cases in which a performance venue is required in order to present the recital, reservations must be made according to the current guidelines of the Music Operations office.

**Curriculum Requirements for Non-Guitar**

**General Education**

**Core Literacies**

- GE-A: The Arts (one course)
- GE-B: Humanistic Inquiry (two courses)
- GE-C: Social Analysis (two courses)
- GE-D: Life Sciences (one course)
- GE-E: Physical Sciences (one course)
- GE-F: Quantitative Reasoning (one course)

**Global Perspectives**

- GE-G: Citizenship in a Global Era (one course)
- GE-H: Traditions and Historical Foundations (one course)

**Writing**

- WRIT 150 Writing and Critical Reasoning–Thematic Approaches Units: 4
- WRIT 340 Advanced Writing Units: 3, 4

**Core Thornton Academic Courses (24 units)**

- MUJO 132a Aural Skills I Units: 2
- MUJO 132b Aural Skills I Units: 2
- MUJO 133a Theory I Units: 3
- MUJO 133b Theory I Units: 3
- MUSC 496 Careers in Music Units: 2
- MUHL 250g Music and Ideas Units: 4
- MUJZ 395a History of Jazz Music Units: 4
- MUSC 250gwm The Music of Black Americans Units: 4

**Program Specific Courses (58 units)**

**Individual Instruction (16 units)**

- MUJZ 153 153 Individual Instruction Units: 1, 2
- 4 units total of MUJZ 153 in your primary instrument
- MUJZ 253 Individual Instruction Units: 1, 2
- 4 units total of MUJZ 253 in your primary instrument
- MUJZ 353 Individual Instruction Units: 1, 2
- 4 units total of MUJZ 353 in your primary instrument
- MUJZ 453 Individual Instruction Units: 1, 2
- 4 units total of MUJZ 453 in your primary instrument

**Ensembles (14 units)**

**Select 14 units from the following as directed by the department:**

- MUEN 305 Vocal Jazz Ensemble Units: 1
- MUEN 326 Guitar Ensemble Units: 1
- MUEN 329 Jazz Ensemble Units: 1
- MUEN 332 Jazz Chamber Music Units: 1
- MUJZ 311 Vocal Jazz Techniques Units: 2 **

**Vocal Jazz students will only be required to complete 12-units of ensemble and will be required to take MUJZ 311 Vocal Jazz Techniques as the remaining 2-units. All other jazz instrumentalists must complete 14-units of ensemble to complete the ensemble requirement.**

Program Intensive Courses (28 units)

**Complete 4 units of MUJZ 195 or MUJZ 197ab, as listed for your primary instrument:**

- MUJZ 195L Jazz Elements I Units: 2
- 4 units total of MUJZ 195 required for all jazz instrumentalists (non-vocal jazz)
- MUJZ 197a Vocal Jazz Elements I Units: 2
- MUJZ 197b Vocal Jazz Elements I Units: 2
- 4 units total of MUJZ 197ab required for all vocal jazz (non-jazz instrumentalists)
- MPPM 240 Drumming Proficiency for the Popular Musician Units: 2
- MUJN 270 Introduction to the Music Industry Units: 4
- MUJZ 141a Basic Keyboard Skills for Improviser Units: 2
- MUJZ 305a Advanced Jazz Theory Units: 2
- MUJZ 306b Advanced Jazz Theory Units: 2
- MUJZ 395 Jazz Elements II Units: 2
- 4 units total of MUJZ 395
- MUJZ 400 Arranging for Jazz Ensemble Units: 2

**Select 2 units from the following as directed by the department:**

- MPPG 415 Studio Guitar Pedagogy Units: 2
- MUJZ 443 Jazz Pedagogy Units: 2

**Select 4 units from the following:**

- MTEC 245 Introduction to MIDI Sequencing Units: 1
- MTEC 246 Introduction to Audio Recording and Editing Units: 1
- MTEC 248 Introduction to Music Notation Units: 1
- MTEC 249 Introduction to Web Design for Musicians Units: 1
- MTEC 443 Desktop Music Production Units: 2
- MTEC 444 Non-Linear MIDI Sequencing Units: 2
- MTEC 445 Advanced Desktop Music Production Units: 2
- MTEC 446a Computer Assisted Recording and Editing Units: 2
- MTEC 446b Computer Assisted Recording and Editing Units: 2
- MTEC 474a Electronic Synthesizer Techniques Units: 2, 3, 4

**Electives (18 units)**

**Capstone Project**

Senior Recital or Senior Project: 0 units

**Total required for degree: 132**

* With correct planning, only 32 units (6 GE and 2 Writing courses) will be needed outside of your major requirements.

**Curriculum Requirements for Guitar**

**General Education**

**Core Literacies**

- GE-A: The Arts (one course)
- GE-B: Humanistic Inquiry (two courses)
- GE-C: Social Analysis (two courses)
- GE-D: Life Sciences (one course)
- GE-E: Physical Sciences (one course)
- GE-F: Quantitative Reasoning (one course)

**Global Perspectives**

- GE-G: Citizenship in a Global Era (one course)
- GE-H: Traditions and Historical Foundations (one course)

**Writing**

- WRIT 150 Writing and Critical Reasoning–Thematic Approaches Units: 4

- MUJO 133b Theory I Units: 3
- MUSC 496 Careers in Music Units: 2
- MUHL 250g Music and Ideas Units: 4
With correct planning, only 32 units (6 GE and 2 Writing courses) will be needed outside of your major requirements.

Music (BA)*

Overview

The Bachelor of Arts in Music combines a rigorous foundation in music consisting of theory, aural skills, and music history, with the USC general education program, foreign language study, and the flexibility of a Bachelor of Arts curriculum. Within the core Thornton academic courses, students will have the opportunity to choose course groupings that reflect their interests within classical, popular music, and jazz disciplines. At the end of the program, students will complete a senior thesis as a capstone project.

Entrance Requirements

Admission to the Bachelor of Arts in Music is available to current USC undergraduates who wish to change their major program of study to the BA Music. Students will be required to apply for and be approved for admission. Specific entrance requirements are available at the Thornton School of Music website (music.usc.edu).

General Education Requirements

USC's General Education program, revised in fall 2015, provides a coherent, integrated approach to the study of the liberal arts, with the goal of nurturing habits of thought that are essential for professional success, personal development, and meaningful lifelong learning. Eight courses are required in six Core Literacies, in addition to two courses in Global Perspectives, two courses in Writing, and one General Education Seminar taken during the first year at USC. With careful planning, certain courses (including courses required for the music major) can fulfill more than one of these general education requirements. Academic advisers in the Thornton School carefully guide Thornton students in making their course choices. This typically will result in Thornton students taking a total of eight courses (including two writing courses) in order to fulfill all of the USC general education requirements.

Capstone Project

Senior Thesis

The capstone will consist of one or two substantial papers on a topic that is either a focus of traditional music research (e.g., musicology, ethnomusicology, music teaching and learning, music theory and analysis, the music industry), or an interdisciplinary topic that explores music's relationship to other fields of study. The expected total length is a minimum of 50 double-spaced pages, exclusive of bibliography. This can be one 50-page paper or two papers of roughly 25 pages each. Students will enroll in 4 units of Directed Research 490 in the appropriate department in order to facilitate the Senior Thesis requirement. Students will be required to secure a Senior Thesis adviser who will also serve as the supervising faculty member on the Directed Research contract.

Curriculum Requirements

General Education *

Core Literacies

GE-A: The Arts (one course)
GE-B: Humanistic Inquiry (two courses)
GE-C: Social Analysis (two courses)
GE-D: Life Sciences (one course)
GE-E: Physical Sciences (one course)
GE-F: Quantitative Reasoning (one course)

Global Perspectives

GE-G: Citizenship in a Global Era (one course)
GE-H: Traditions and Historical Foundations (one course)

Writing

• WRIT 150 Writing and Critical Reasoning--Thematic Approaches Units: 4
• WRIT 340 Advanced Writing Units: 3, 4

Core Thornton Academic Courses (38 units)

Thornton Academic Courses (16 units)

• MUCD 348 Instrumental Conducting and Orchestration

Electives (18 units)

Capstone Project

Senior Recital or Senior Project: 0 units

Total required for degree: 132

* With correct planning, only 32 units (6 GE and 2 Writing courses) will be needed outside of your major requirements.
Music Industry (BM)

The Bachelor of Music (BM) is a professional degree granted by the Thornton School of Music. The various majors for the degree are listed below, along with specified requirements for each.

Curriculum Requirements

- Bachelor of Music (BM)
- Music Industry (BM)
- Bachelor of Music in Jazz Studies
- Bachelor of Music in Performance
- Bachelor of Music in Music Industry
- Bachelor of Music in Music History
- Bachelor of Music in Music Education

General Education Requirements

- The university's general education program provides a coherent, integrated introduction to the breadth of knowledge you will need to consider yourself (and to be considered by other people) a generally well-educated person. This program is effective for all students entering USC in fall 2015 or later, or transfer students beginning college elsewhere at that time and subsequently transferring to USC. It requires eight courses in six Core Literacies, plus two courses in Global Perspectives (which may double-count with courses in the Core Literacies) and two courses in writing.

Entrance Requirements

- Applicants must submit the Thornton School of Music Supplementary Application, a statement of objectives, resume and repertoire list. A performance audition according to the requirements of the department of the applicant's primary instrument or voice is also required. In all other respects, students in the Thornton School of Music must satisfy the general education requirements as described on the General Education Program page.

Individual Instruction Limitations

- Music majors may accumulate a maximum of 16 units of individual instruction at the 300 level toward an undergraduate degree program.

Senior Recital/Culminative Project

- All performance majors are required, as indicated in the specific curriculum listings below, to either present a senior recital or complete a culminative project. Both must be completed under approved faculty supervision and guidance. The faculty of the department of the student's major program determine the detailed requirements of these recitals and projects, including content, length, format, and other specifications. In cases in which a performance venue is required in order to present the recital or complete the project, reservations must be made according to the current guidelines of the Music Operations office.

Entrance Requirements

- Applicants must submit the Thornton School of Music Supplementary Application, a statement of objectives, resume and repertoire list. A performance audition according to the requirements of the department of the applicant's primary instrument or voice is also required.

Music Industry (BM)

The Bachelor of Music (BM) is a professional degree granted by the Thornton School of Music. The various majors for the degree are listed below, along with specified requirements for each.

Music History (8 units)

Select two courses from the following:
- MUJZ 195L Jazz Elements I Units: 2
- MUJZ 305a Advanced Jazz Theory Units: 2
- MUJZ 305b Advanced Jazz Theory Units: 2
- MUJZ 400 Arranging for Jazz Ensemble Units: 2

Music Industry (BM)

The Bachelor of Music (BM) is a professional degree granted by the Thornton School of Music. The various majors for the degree are listed below, along with specified requirements for each.

Select one concentration from the following:

- Classical Concentration
  - MUCO 132a Aural Skills I Units: 2
  - MUCO 132b Aural Skills I Units: 2
  - MUCO 133a Theory I Units: 3
  - MUCO 133b Theory I Units: 3
  - MUHL 250g Music and Ideas Units: 4

- Popular Music Concentration
  - MUCO 131a Harmony in Popular Music Units: 2
  - MUCO 131b Harmony in Popular Music Units: 2
  - MUCO 232a Aural Skills II Units: 2
  - MUCO 232b Aural Skills II Units: 2
  - MUSC 255 Songwriting I Units: 2

Jazz Concentration

- MUJZ 195L Jazz Elements I Units: 2
- MUJZ 305a Advanced Jazz Theory Units: 2
- MUJZ 305b Advanced Jazz Theory Units: 2
- MUJZ 400 Arranging for Jazz Ensemble Units: 2

Foreign Language (12 units)

- Three 4-unit courses in the same language

Music Electives at the 300 or 400 Level (10 units)

- 4 units total of Individual Instruction at the 153 level in primary instrument/voice
- 4 units total of Individual Instruction at the 353 level in primary instrument/voice

Ensembles (4 units)

- MUEN Ensemble Electives at the 300-level: four 1-unit courses

Total required for degree: 128

*With correct planning, only 32 units (6 GE and 2 Writing courses) will be needed outside of your major requirements.
General Education Requirements

Music Technology requirements:
- MTEC 175 Fundamentals of Audio Recording Units: 2
- MTEC 176 Critical Listening Units: 2
- MTEC 275 Fundamentals of Audio Engineering Units: 4

6 units from the following:
- MUI 277 The Business and Economics of the Recording Industry Units: 2
- MUI 340 Introduction to Sound Reinforcement Units: 4
- MTEC 389 Digital Equipment and Recording Units: 2
- MTEC 392a Acoustics and Speaker Design Units: 2
- MTEC 392b Acoustics and Speaker Design Units: 2
- MTEC 442 Operation of the Radio Studio Units: 2
- MTEC 446a Computer Assisted Recording and Editing Units: 2
- MTEC 446b Computer Assisted Recording and Editing Units: 2
- MUI 476a Advanced Sound Reinforcement Units: 2
- MUI 476b Advanced Sound Reinforcement Units: 2
- MTEC 477 Remote Recording Techniques Units: 2
- MTEC 478 Advanced Multichannel Remix Units: 2
- MTEC 479 Audio Mastering Units: 2
- MTEC 494 Classical Music Recording Units: 4
- MUI 496 Music Media Solutions Units: 4

Electives: 6 units

Junior Recital: 0 units

Total required for degree: 132

*All individual instruction units must be taken in the same area in which the students auditioned.

Music Industry (BS)

Overview

The Bachelor of Science in the Music Industry is a professional degree that prepares students to enter a variety of careers in the music industry of today. Students must fulfill a series of core requirements for the degree.

Entrance Requirements

Admission to Thornton programs is granted through the USC admission process. Applicants are screened by appropriate faculty selection committees. Specific entrance requirements are reviewed on an annual basis and published online at music.usc.edu.

General Education Requirements

The university’s General Education program provides a coherent, integrated introduction to the breadth of knowledge you will need to consider yourself (and to be considered by other people) a generally well-educated person. This program is effective for all students entering USC in fall 2015 or later, or transfer students beginning college elsewhere at that time and subsequently transferring to USC. It requires eight courses in six Core Literacies, plus two courses in Global Perspectives (which may double-count with courses in the Core Literacies) and two courses in writing. In addition, all entering freshmen are expected to complete a General Education Seminar during their first year at USC. These seminars satisfy one of the Core Literacy requirements above.

Note that courses within the major will also satisfy certain Core Literacy requirements. Please work with your major adviser to determine those courses.

Business-related Requirements

In addition to the above general education requirements, the following courses offered through the USC Marshall School of Business, the USC Leventhal School of Accounting and the USC Dornsife College of Letters, Arts and Sciences are required.

Capstone Project

A capstone project must be completed under approved faculty supervision and guidance. The faculty of the department of the student’s major program determines the detailed requirements of the project, including content, length, format and other specifications. In cases in which a performance venue is required in order to present the project, reservations must be made according to the current guidelines of the Music Operations office.

Curriculum Requirements

Electives (20 units)
Capstone Projects (2 units)
• MUIN 498a Final Capstone Project Units: 1
• MUIN 498b Final Capstone Project Units: 1
Total units: 128
*With correct planning, only 32 units (6 GE and two writing courses) will be needed outside of your major requirements.

Music Production (BM)
Overview
The Bachelor of Music in Music Production consists of course work in the major area, core music classes, USC's general education and writing, as well as electives to take advantage of the offerings of the Thornton School and of the entire university.

Entrance Requirements
Admission to Thornton programs is granted through the USC admission process. Applicants are screened by appropriate faculty selection committees. Specific entrance requirements are reviewed on an annual basis and published online at music.usc.edu.

General Education Requirements
USC's General Education program, revised in fall 2015, provides a coherent, integrated approach to the study of the liberal arts, with the goal of nurturing habits of thought that are essential for professional success, personal development, and meaningful lifelong learning. Eight courses are required in six Core Literacies, in addition to two courses in Global Perspectives, two courses in Writing, and one General Education Seminar taken during the first year at USC. With careful planning, certain courses (including courses required for the music major) can fulfill more than one of these general education requirements. Academic advisers in the Thornton School carefully guide Thornton students in making their course choices. This typically will result in Thornton students taking a total of eight courses (including two writing courses) in order to fulfill all of the USC general education requirements.

Capstone Project
A capstone project must be completed under approved faculty supervision and guidance. The faculty of the department of the student's major program determines the detailed requirements of the project, including content, length, format and other specifications. In cases in which a performance venue is required in order to present the project, reservations must be made according to the current guidelines of the Music Operations office.

Curriculum Requirements

  • MUCO 232a Aural Skills II Units: 2
  • MUSC 255 Songwriting I Units: 2
  • MUSC 355 Songwriting II Units: 2

One course from the following:
  • MTEC 443 Desktop Music Production Units: 2
  • MTEC 444 Non-Linear MIDI Sequencing Units: 2

Take 8-units from MTEC or MUIN 200-499 courses

Electives (14 units)

Capstone Projects (2 units)
  • MTEC 486a Senior Project Units: 1
  • MTEC 486b Senior Project Units: 1

Total Required For Degree: 132

*With correct planning, only 32 units (6 GE and 2 Writing courses) will be needed outside of your major requirements.

**Courses may be chosen from the list or in consultation with the chair of Music Technology.

***Prerequisite required.

****Keyboardists will substitute a class in drums, guitar or voice.

Performance (Classical Guitar) (BM)

Overview
All USC Thornton undergraduate programs in classical performance and composition combine a rigorous foundation of the finest conservatory training with curricular flexibility for students to chart their own artistic pathways. All curricular components are designed to support students in creating a distinctive musical voice and preparing for a fulfilling musical career.

Entrance Requirements
Admission to Thornton programs is granted through the USC admission process. Applicants are screened by appropriate faculty selection committees. Specific entrance requirements are reviewed on an annual basis and published online at music.usc.edu.

General Education Requirements
USC's General Education program, revised in fall 2015, provides a coherent, integrated approach to the study of the liberal arts, with the goal of nurturing habits of thought that are essential for professional success, personal development, and meaningful lifelong learning. Eight courses are required in six Core Literacies, in addition to two courses in Global Perspectives, two courses in Writing, and one General Education Seminar taken during the first year at USC. With careful planning, certain courses (including courses required for the music major) can fulfill more than one of these general education requirements. Academic advisers in the Thornton School carefully guide Thornton students in making their course choices. This typically will result in Thornton students taking a total of eight courses (including two writing courses) in order to fulfill all of the USC general education requirements.

Capstone Projects

Young Artist Project
During the junior and senior years of the program, students develop and fully realize unique individualized, mentored projects related to their work as classical musicians. This could involve developing a hybrid performance, conducting original research, exploring new creative technologies, or applying creative expression to a pressing social issue.

Recitals
A junior and senior recital must be completed under approved faculty supervision and guidance. The faculty of the department of the student's major program determines the detailed requirements of the recitals, including content, length, format, and other specifications. In cases in which a performance venue is required in order to present the recitals, reservations must be made according to the current guidelines of the Music Operations office.
Curriculum Requirements

General Education *

Core Literacies
GE-A: The Arts (one course)
GE-B: Humanistic Inquiry (two courses)
GE-C: Social Analysis (two courses)
GE-D: Life Sciences (one course)
GE-E: Physical Sciences (one course)
GE-F: Quantitative Reasoning (one course)

Global Perspectives
GE-G: Citizenship in a Global Era (one course)
GE-H: Traditions and Historical Foundations (one course)

Writing
- WRIT 150 Writing and Critical Reasoning—Thematic Approaches Units: 4
- WRIT 340 Advanced Writing Units: 3, 4

Core Thornton Academic Courses (36 units)
- MUCD 348 Instrumental Conducting and Orchestration Units: 2
- MUCO 132a Aural Skills I Units: 2
- MUCO 132b Aural Skills I Units: 2
- MUCO 133a Theory I Units: 3
- MUCO 133b Theory I Units: 3
- MUCO 232a Aural Skills II Units: 2
- MUCO 232b Aural Skills II Units: 2
- MUCO 233a Theory II Units: 3
- MUCO 233b Theory II Units: 3
- MUHL 250g Music and Ideas Units: 4
- MUHL 350g Western Art Music History I Units: 4
- MUHL 351 Western Art Music History II Units: 4
- MUSC 496 Careers in Music Units: 2

Program Specific Courses (40 units)

Individual Instruction (20 units)
- MPGU 153 Individual Instruction Units: 1 or 2
  4 units total of MPGU 153 (Classical Guitar)
- MPGU 253 Individual Instruction Units: 1 or 2
  4 units total of MPGU 253 (Classical Guitar)
- MPGU 353 Individual Instruction Units: 1 or 2
  4 units total of MPGU 353 (Classical Guitar)
- MPGU 453 Individual Instruction Units: 1 or 2
  4 units total of MPGU 453 (Classical Guitar)

Select four units in the following styles, Baroque/Lute, Flamenco, Pop, or Jazz, from the list below:
- MPEM 301 Individual Instruction Units: 1, 2
- MPGU 301 Individual Instruction Units: 1, 2
- MPMM 301 Individual Instruction Units: 1, 2
- MUJZ 301 Individual Instruction Units: 1, 2

Ensembles (10 units)
- MUEN 326 Guitar Ensemble Units: 1
  8 units total of MUEN 326
- MUEN Ensemble Electives at the 300-level: two 1-unit courses

Program Intensive (10 units)
- MPGU 417 Classical Guitar Pedagogy Units: 2
- MPGU 426 Classical Guitar History and Literature Units: 2
- MPGU 427 Advanced Topics in Classical Guitar History and Literature Units: 2
- MPGU 459 Functional Skills for Classical Guitarists II Units: 2

Select two units from the following:
- MPKS 250a Keyboard Instruction I Units: 2
- MPMM 240 Drumming Proficiency for the Popular Musician Units: 2
- MPMM 250 Keyboard Proficiency for the Popular Musician Units: 2
- MUJZ 141a Basic Keyboard Skills for the Improviser Units: 2

Electives (20 units)

Contemporary Division Electives (4 units)
Select four units from the Contemporary Division

Courses include those listed below or others, in consultation with your chair and the Contemporary Division:
- MPGU 145 Guitar Proficiency for the Pop Guitarist Units: 2
- MPGU 150 Functional Skills for the Popular Guitarist Units: 2
- MPMM 120 Popular Music Performance I Units: 2
- MPMM 240 Drumming Proficiency for the Popular Musician Units: 2
- MPMM 250 Keyboard Proficiency for the Popular Musician Units: 2
- MPMM 370 The Vocal Edge: Contemporary Vocal Performance Techniques Units: 2
- MTEC 245 Introduction to MIDI Sequencing Units: 1
- MTEC 246 Introduction to Audio Recording and Editing Units: 1
- MTEC 248 Introduction to Music Notation Units: 1
- MTEC 249 Introduction to Web Design for Musicians Units: 1
- MTEC 277x Introduction to Music Technology Units: 4
- MUIN 272x Basics of the Music Industry Units: 4
- MUIN 425 Live Music Production and Promotion Units: 4
- MUJZ 141a Basic Keyboard Skills for the Improviser Units: 2
- MUJZ 150 Beginning Jazz Improvisation Units: 2
- MUJZ 218a Afro-Latin Percussion Instruments Units: 2
- MUJZ 450 Intermediate Jazz Improvisation Units: 2
- MUSC 255 Songwriting I Units: 2

General Electives (16 units)

Capstone Projects (4 units)
- MUSC 480 Young Artist Project I Units: 2
- MUSC 481 Young Artist Project II Units: 2
- Junior Recital: 0 units
- Senior Recital: 0 units

Total Required For Degree: 132

* With correct planning, only 32 units (6 GE and 2 Writing courses) will be needed outside of your major requirements.

Performance (Flute), (Oboe), (Clarinet), (Bassoon), (Saxophone), (French Horn), (Trumpet), (Trombone), (Tuba) or (Percussion) (BM)

Performance (Popular Music) (BM)

Overview

The Bachelor of Music in Popular Music is designed for students interested in pursuing a career in the performance of popular music. This program consists of course work in the major performance area, core music classes, USC's general education and writing, as well as electives to take advantage of the offerings of the Thornton School and of the entire university.

Entrance Requirements

Admission to Thornton programs is granted through the USC admission process. Applicants are screened by appropriate faculty selection committees. Specific entrance requirements are
reviewed on an annual basis and published online at music.usc.edu.

**General Education Requirements**

The university's General Education program provides a coherent, integrated introduction to the breadth of knowledge you will need to consider yourself (and to be considered by other people) a generally well-educated person. This program is effective for all students entering USC in fall 2015 or later, or transfer students beginning college elsewhere at that time and subsequently transferring to USC. It requires eight courses in six Core Literacies, plus two courses in Global Perspectives (which may double-count with courses in the Core Literacies) and two courses in writing. In addition, all entering freshmen are expected to complete a General Education Seminar during their first year at USC. These seminars satisfy one of the Core Literacy requirements above.

Note that courses within the major will also satisfy certain Core Literacy requirements. Please work with your major adviser to determine those courses.

**Capstone Project**

A capstone project must be completed under approved faculty supervision and guidance. The faculty of the department of the student's major program determines the detailed requirements of the project, including content, length, format and other specifications. In cases in which a performance venue is required in order to present the project, reservations must be made according to the current guidelines of the Music Operations office.

**Curriculum Requirements**

**General Education *

- **Core Literacies**

- MPPM 450a Final Project Units: 1
- MPPM 450b Final Project Units: 1

Total required for degree: 132

*With correct planning, only 32 units (6 GE and 2 Writing courses) will be needed outside of your major requirements.

**Drummers will substitute a class in guitar or voice.

***Keyboardists will substitute a class in guitar or voice.

**Performance (Studio Guitar) (BM)**

**Overview**

The Bachelor of Music in Studio Guitar consists of course work in the major, core music studies (theory, aural skills, music history, conducting, large ensemble) and USC's general education and writing program.

**Entrance Requirements**

Admission to Thornton programs is granted through the USC admission process. Applicants are screened by appropriate faculty selection committees. Specific entrance requirements are reviewed on an annual basis and published online at music.usc.edu.

**General Education Requirements**

The university's General Education program provides a coherent, integrated introduction to the breadth of knowledge you will need to consider yourself (and to be considered by other people) a generally well-educated person. This program is effective for all students entering USC in fall 2015 or later, or transfer students beginning college elsewhere at that time and subsequently transferring to USC. It requires eight courses in six Core Literacies, plus two courses in Global Perspectives (which may double-count with courses in the Core Literacies) and two courses in writing. In addition, all entering freshmen are expected to complete a General Education Seminar during their
first year at USC. These seminars satisfy one of the Core Literacy requirements above. Note that courses within the major will also satisfy certain Core Literacy requirements. Please work with your major adviser to determine those courses.

Capstone Projects
A junior and senior recital must be completed under approved faculty supervision and guidance. The faculty of the department of the student's major program determines the detailed requirements of the recitals, including content, length, format and other specifications. In cases in which a performance venue is required in order to present the recitals, reservations must be made according to the current guidelines of the Music Operations office.

Curriculum Requirements for Traditional Emphasis

General Education *
Core Literacies
GE-A: The Arts (one course)
GE-B: Humanistic Inquiry (two courses)
GE-C: Social Analysis (two courses)
GE-D: Life Sciences (one course)
GE-E: Physical Sciences (one course)
GE-F: Quantitative Reasoning (one course)
Global Perspectives
GE-G: Citizenship in a Global Era (one course)
GE-H: Traditions and Historical Foundations (one course)

Writing
- WRIT 150 Writing and Critical Reasoning–Thematic Approaches Units: 4

Performance (Violin), (Viola), (Violoncello), (Double Bass) or (Harp) (BM)

Overview
All USC Thornton undergraduate programs in classical performance and composition combine a rigorous foundation of the finest conservatory training with curricular flexibility for students to chart their own artistic pathways. All curricular components are designed to support students in creating a distinctive musical voice and preparing for a fulfilling musical career.

Entrance Requirements
Admission to Thornton programs is granted through the USC admission process. Applicants are screened by appropriate faculty selection committees. Specific entrance requirements are reviewed on an annual basis and published online at music.usc.edu.

General Education Requirements
USC’s General Education program, revised in fall 2015, provides a coherent, integrated approach to the study of the liberal arts, with the goal of nurturing habits of thought that are essential for professional success, personal development, and meaningful lifelong learning. Eight courses are required in six Core Literacies, in addition to two courses in Global Perspectives, two courses in Writing, and one General Education Seminar taken during the first year at USC. With careful planning, certain courses (including courses required for the music major) can fulfill more than one of these general education requirements. Academic advisers in the Thornton School carefully guide Thornton students in making their course choices. This typically will result in Thornton students taking a total of eight courses (including two writing courses) in order to fulfill all of the USC general education requirements.

Capstone Projects
Young Artist Project
During the junior and senior years of the program, students develop and fully realize unique individualized, mentored projects related to their work as classical musicians. This could involve developing a hybrid performance, conducting original research, exploring new creative technologies, or applying creative expression to a pressing social issue.

Recitals
A junior and senior recital must be completed under approved faculty supervision and guidance. The faculty of the department of the student’s major program determines the detailed requirements of the recitals, including content, length, format and other specifications. In cases in which a performance venue is required in order to present the recitals, reservations must be made according to the current guidelines of the Music Operations office.

Minor

Jazz Studies Minor
This 21-unit minor program in jazz studies incorporates course work in individual instruction, the history of jazz masters, techniques of jazz improvisation and jazz theory for improvisers. The minor is not available to BM jazz studies majors.

Requirements for admission are: GPA per university regulations and an audition.

Required Courses (19 units)
• MUCL 130ax Basics of Music Theory Units: 3
• MUJZ 150 Beginning Jazz Improvisation Units: 2
• MUJZ 301 Individual Instruction Units: 1, 2
  4 units total of MUJZ 301 in your primary instrument
• MUJZ 450 Intermediate Jazz Improvisation Units: 2
• MUSC 250gmw The Music of Black Americans Units: 4

Select 4 units from the following:
• MUEN 305 Vocal Jazz Ensemble Units: 1
• MUEN 326 Guitar Ensemble Units: 1
• MUEN 329 Jazz Ensemble Units: 1
• MUEN 332 Jazz Chamber Music Units: 1

Music Electives (2 units)

Music courses numbered 300–499 (2 units total)

Total units: 21

Music Industry Minor
A minor in the music industry is offered for undergraduate students to provide them with the background necessary to enter varied fields in the music business and to familiarize them with standard practices and procedures. A minimum of 20 units is required for completion of this minor. The minor is not available to music industry majors.

Prerequisite
Acceptance into the program might require a personal interview by the Thornton School of Music.

Students admitted to this minor will be expected to have a minimum GPA of 2.0 and to maintain that average with no grade lower than a “C” for all courses taken in the minor.
Required Courses

- MUIN 272x Basics of the Music Industry
- MUSC 115gp Western Music as Sounding History
- MUSC 210g Electronic Music and Dance Culture
- MUSC 250gmw The Music of Black Americans
- MUSC 320gmw Hip-hop Music and Culture
- MUSC 422 The Beatles: Their Music and Their Times
- MUSC 423 Classic Rock: Popular Music of the Sixties and Seventies
- MUSC 424 Iconic Figures of Popular Music
- MUSC 444 American Roots Music: History and Culture
- MUSC 460 Film Music: History and Function from 1930 to the Present
- MUSC 465 Music, Television and American Culture

Select 4 units from the following:

- MUSC 255 Songwriting I
- MUCO 130ax Basics of Music Theory
- MUCO 130bx Basics of Music Theory
- MUSC 250gmw The Music of Black Americans
- MUSC 320gmw Hip-hop Music and Culture
- MUSC 422 The Beatles: Their Music and Their Times
- MUSC 423 Classic Rock: Popular Music of the Sixties and Seventies
- MUSC 424 Iconic Figures of Popular Music
- MUSC 444 American Roots Music: History and Culture

Select 12 units from the following:

- MTEC 245 Introduction to MIDI Sequencing
- MTEC 246 Introduction to Audio Recording and Editing
- MTEC 277x Introduction to Music Technology
- MTEC 446a Computer Assisted Recording and Editing
- MTEC 446b Computer Assisted Recording and Editing
- MUIN 280 Communications in the Music Industry
- MUIN 370 Music Publishing and Licensing
- MUIN 372 Business and Legal Aspects of the Music Industry
- MUIN 410 Marketing, Branding and Strategic Alliances in Music
- MUIN 420 DIY Music Marketing
- MUIN 425 Live Music Production and Promotion
- MUIN 430 Artist Management and Development
- MUIN 443 The Business of Music for Visual Media
- MUIN 444 Music Supervision
- MUIN 497 Current Topics, Case Studies, and Analysis

Total units: 20

Music Production Minor

A successful career in the 21st century music industry often requires that musicians be the songwriter, performer, producer and/or audio engineer on any given project. The minor in Music Production allows students to develop the creative, collaborative and technical skills required to compose, arrange and produce for contemporary music projects.

Prerequisite

Acceptance into the program might require a personal interview by the Thornton School of Music to assure that the student has sufficient musical background and skill.

Students admitted to this minor will be expected to have a minimum GPA of 2.0 and to maintain that average with no grade lower than a "C" for all courses taken in the minor.

Required Courses

- MTEC 245 Introduction to MIDI Sequencing
- MTEC 246 Introduction to Audio Recording and Editing
- MTEC 277x Introduction to Music Technology
- MTEC 446a Computer Assisted Recording and Editing
- MTEC 446b Computer Assisted Recording and Editing
- SCOR 405 Introduction to Scoring Video Games

Total units: 19

Music Recording Minor

A minor in music recording is offered for undergraduate students to provide them with the background necessary to enter the field of audio engineering and to familiarize them with the standards and techniques used in audio recording, editing, mixing and mastering.

Prerequisite

Acceptance into the program might require a personal interview by the Thornton School of Music to assure that the student has sufficient musical background and skill.

Students admitted to this minor will be expected to have a minimum GPA of 2.0 and to maintain that average with no grade lower than a "C" for all courses taken in the minor.

Required Courses

- MTEC 245 Introduction to MIDI Sequencing
- MTEC 246 Introduction to Audio Recording and Editing
- MTEC 277x Introduction to Music Technology
- MTEC 446a Computer Assisted Recording and Editing
- MTEC 446b Computer Assisted Recording and Editing
- MUIN 340 Introduction to Sound Reinforcement

Total units: 18

Musical Studies Minor

This 18-unit program in musical studies, with an emphasis in performance, incorporates the study of music theory, music history, performance, and ensembles. Students may enter the program in their freshman year. An audition is required for this minor, which is not available to music majors.

Required Courses

- MUCO 130ax Basics of Music Theory
- MUCO 130bx Basics of Music Theory

Note:

*Music Industry majors can substitute MTEC 175 and MTEC 176 for MTEC 277.

**Courses have prerequisites
• MUEN 300–499
• MUSC 115gp Western Music as Sounding History Units: 4
• Individual Instruction at the 301 level

Total Units: 18

Musical Theatre Minor

The minor in musical theatre, interdisciplinary in nature, is a 21-unit program incorporating the study of acting, dance or movement, vocal arts and related musical subjects. Admission to the minor requires an audition for music but not for theatre.

Required Courses (13 units)
• MPVA 402 Musical Theatre Workshop I Units: 3
• MPVA 412 Musical Theatre Workshop II Units: 3
• MUSC 200gmw The Broadway Musical: Reflections of American Diversity Units: 4
• THTR 343 Musical Theatre Audition Units: 3

Select 8 units from the following: *
• DANC 175 Choreography for the Screen Units: 2
• DANC 181–189
• MPVA 301 Individual Instruction Units: 1, 2
• THTR 101 Introduction to Acting Units: 4
• THTR 216 Movement for Actors Units: 2
• THTR 252 Intermediate Acting I: Drama/Comedy Units: 4
• THTR 252b Intermediate Acting I: Drama/Comedy Units: 4
• THTR 316 Advanced Movement for Actors Units: 2
• THTR 352a Intermediate Acting II Units: 4
• THTR 352b Intermediate Acting II Units: 4

Total units: 21

*Note for dance, music and theatre majors: dance majors must select 8 units in music and/or theatre, music majors must select 8 units in dance and/or theatre, and theatre majors must select 8 units in dance and/or music. Exception: Theatre majors may select THTR 216 and/or THTR 316 as part of the 8-unit requirement.

Popular Music Studies Minor

This minor consists of courses that examine different aspects of popular music. The minor focuses on the study of the repertories and their cultural and social context. Students must be in good academic standing to be admitted. No previous musical experience is required.

Course Requirements (16 units total)
Choose 16 units from the following:
• MUSC 102gw World Music Units: 4
• MUSC 200gmw The Broadway Musical: Reflections of American Diversity Units: 4
• MUSC 210g Electronic Music and Dance Culture Units: 4
• MUSC 250gmw The Music of Black Americans Units: 4
• MUSC 320gmw Hip-hop Music and Culture Units: 4
• MUSC 373g Writing About Popular Music Units: 4
• MUSC 422 The Beatles: Their Music and Their Times Units: 4
• MUSC 423 Classic Rock: Popular Music of the Sixties and Seventies Units: 2
• MUSC 424 Iconic Figures of Popular Music Units: 2
• MUSC 444 American Roots Music: History and Culture Units: 4
• MUSC 460 Film Music: History and Function from 1930 to the Present Units: 4
• MUSC 465 Music, Television and American Culture Units: 4

Songwriting Minor

The minor in songwriting incorporates practical instruction in the craft of songwriting and in performance skills, instruction in the technology relevant to songwriting, and critical studies in the relevant repertories.

Requirements for admission: Those who are considering this program should enroll in MUSC 255 Songwriting I. Admission will be based on songwriting ability and potential as determined by the songwriting faculty.

Required Courses (16 units)
• MTEC 245 Introduction to MIDI Sequencing Units: 1
• MTEC 246 Introduction to Audio Recording and Editing Units: 1
• MUCO 130ax Basics of Music Theory Units: 3
• MUCO 130bx Basics of Music Theory Units: 3
• MUSC 255 Songwriting I Units: 2
• MUSC 355 Songwriting II Units: 2
• MUSC 455 Songwriting III: The Performing Songwriter Units: 2

Choose one course from the following:
• MTEC 443 Desktop Music Production Units: 2
• MTEC 446a Computer Assisted Recording and Editing Units: 2

Choose 4 units from the following:
• COMM 306 Innovation, Entertainment, and the Arts Units: 4
• COMM 307 Sound Clash: Popular Music and American Culture Units: 4
• COMM 384 Interpreting Popular Culture Units: 4
• COMM 440 Music as Communication Units: 4
• MUSC 102gw World Music Units: 4
• MUSC 115gp Western Music as Sounding History Units: 4
• MUSC 200gmw The Broadway Musical: Reflections of American Diversity Units: 4
• MUSC 210g Electronic Music and Dance Culture Units: 4
• MUSC 250gmw The Music of Black Americans Units: 4
• MUSC 320gmw Hip-hop Music and Culture Units: 4
• MUSC 371g Musical Genre Bending Units: 4
• MUSC 372g Music, Turmoil and Nationalism Units: 4
• MUSC 373g Writing About Popular Music Units: 4
• MUSC 422 The Beatles: Their Music and Their Times Units: 4
• MUSC 423 Classic Rock: Popular Music of the Sixties and Seventies Units: 2
• MUSC 424 Iconic Figures of Popular Music Units: 2
• MUSC 444 American Roots Music: History and Culture Units: 4
• MUSC 460 Film Music: History and Function from 1930 to the Present Units: 4
• MUSC 465 Music, Television and American Culture Units: 4

Total units: 20

Diploma

Artist Diploma Program

This program is designed for young artists of exceptional ability and musical sensitivity who plan careers as solo performers. The Artist Diploma Program provides young artists with the opportunity to devote their full time to concentrated study and practice for the duration of their assigned programs.

Entrance Requirements

Following the recommendation of the student’s major department, a performance audition, consisting of a full-length recital before the Artist Diploma Committee, is required.

Curriculum Requirements

A minimum of 16 units at the 754 level (from MPEM, MPGU, MPKS, MPST, MPVA or MPWP) and four full-length recitals are required. This program requires four consecutive semesters of study for completion.

Master’s Degree

Arts Leadership (MS)

Overview

USC’s Arts Leadership program (ARTL) is a flexible, multi-disciplinary graduate program for artists, arts administrators and cultural entrepreneurs who want to expand their personal vision and develop the ability to create a life and a career in the
nonprofit arts. The curriculum is appropriate for both early and mid-career individuals engaged in any or multiple arts disciplines, who recognize that the rapidly changing world of the 21st century requires an innovative approach to arts leadership. The program is highly individualized, allowing students to design the course of study that is most appropriate for them and their career aspirations.

**Admission**

Admission to Thornton programs is granted through the USC admission process. Applicants are screened by appropriate faculty selection committees. Specific entrance requirements are reviewed on an annual basis and published online at music.usc.edu.

**Unit and Grade Requirements**

Students must complete at least 26 semester units at USC, including the Practicum. A grade point average of not less than 3.0 (A = 4.0) is required for all graduate courses, and a grade of B or higher is required for all courses in the major department. Students who transfer credits must achieve this average on all combined transferred and residence units.

**Transferred Credits**

All credits transferred must be the equivalent of corresponding current work at USC. Course work completed at another institution that has been approved by the Thornton School for transfer credit must have been completed within seven years from the date of admission to a master’s degree program to be applied toward that degree. Transfer credit petitions must be filed with the appropriate Thornton adviser during the first semester in residence.

**Time Limit**

The time limit for completing the Master of Science degree is five years. Progress is measured from the beginning of the first course at USC applied toward the degree. Extensions will be granted by petition to the Thornton School for only the most compelling reasons.

**Capstone**

A practicum project is required as the capstone for the Master of Science in Arts Leadership. Students will conceptualize, develop and complete an arts project of their choosing to pursue in conjunction with the course work. The practicum project will be centered around a complex leadership challenge that resonates both for the student’s particular artistic circumstances and for the field of arts leadership.

**Curriculum Requirements**

**Program Intensive Courses (11 units)**

- ARTL 500 Arts Leadership and Arts Entrepreneurship Units: 2
- ARTL 501 Executive Leadership in the Arts Units: 2
- ARTL 502 Issues in the Arts and the Contemporary World Units: 2
- ARTL 503 Arts Organizations: Innovation and New Models Units: 2
- ARTL 504 Arts and the Community: Current Practice and New Visions Units: 2
- ARTL 520 Arts Leadership Intensive Units: 1

**Field Experience Courses (4 units)**

Select 4 units from the following:

- ARTL 512 Essentials of Orchestra Management Units: 2
- ARTL 590 Directed Research Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12
- ARTL 598 Internship for Arts Leadership Units: 1, 2, 3, 4

**Elective Concentration Courses (12 units)**

Students will select a topic area of concentration related to their interests. Relevant courses will be chosen from around the University in consultation with and approved by the Arts Leadership Program Director in conjunction with appropriate department chairs and directors.

Suggested topic areas include but are not limited to:

- Curatorial
- Organizational Communication
- Globalization and the Arts
- Diversity, Equity and Inclusion in the Arts
- Art and Technology
- Organizational Management
- Cultural Entrepreneurship
- Art and Social Change

**Capstone Project (4 units)**

- ARTL 510 Arts Leadership Practicum Units: 2
- 4 units total of ARTL 510

**Total Units: 31**

**Choral Music (MM)**

**Overview**

The MM in choral music consists of course work in choral conducting, choral music seminars, choral literature, choral development, music history, and vocal arts. The program culminates with a graduate recital.

**Admission**

Admission to Thornton programs is granted through the USC admission process. Applicants are screened by appropriate faculty selection committees. Specific entrance requirements are reviewed on an annual basis and published online at music.usc.edu.

**Unit and Grade Requirements**

Students must complete at least 26 semester units at USC, including the thesis or recital. A grade point average of not less than 3.0 (A = 4.0) is required for all graduate courses in music, and a grade of B or higher is required for all courses in the major department. Students who transfer credits must achieve this average on all combined transferred and residence units.

**Transferred Credits**

All credits transferred must be the equivalent of corresponding current work at USC. Course work completed at another institution that has been approved by the Thornton School for transfer credit must have been completed within seven years from the date of admission to a master’s degree program to be applied toward that degree. Transfer credit petitions must be filed with the appropriate Thornton adviser during the first semester in residence.

**Time Limit**

The time limit for completing the Master of Music degree is five years. Progress is measured from the beginning of the first course at USC applied toward the degree. Extensions will be granted by petition to the Thornton School for only the most compelling reasons.

**Music Graduate Entrance Exams**

All students entering a graduate-level degree program (MA, MM, DMA, PhD) at USC Thornton, who have not previously completed a degree at USC Thornton, must take a series of entrance exams in core music subjects. These exams are called Music Graduate Entrance Exams (MGEES). Information regarding which exams are required for specific majors is available from the Thornton Student Affairs office. Also see the Thornton School of Music Admission to Graduate Standing section of this catalogue for specific policies relating to these exams.

**Master’s Recital**

One public recital is required of all candidates for the Master of Music degree (Choral Music), as indicated below. Candidates must apply for recital dates, according to the current guidelines of the Music Operations office. Some departments require that a candidate be prepared to play or conduct the recital program for the approval of a faculty committee in advance.
Comprehensive Review

Candidates for the Master of Music must pass a comprehensive review toward the end of their course of study, usually in the final semester. This review, which is administered by the faculty of the major department, consists of an oral or written examination, covering relevant aspects of musical performance, literature, and/or technique. A final oral examination in choral literature, conducting and rehearsal techniques will be administered by the choral music faculty.

Curriculum Requirements

Keyboard Proficiency

A keyboard proficiency test will be given by the choral faculty during the student’s first semester in residence to determine if additional study in keyboard is required.

Lessons (2 units)

• MPVA 501 Individual Instruction Units: 1 or 2
  VO (2 units total)

Music Ensembles (2 units)

• Ensemble Units: 2 units total*

Program Intensive Courses (16 units)

• MUCD 443 Instrumental Conducting II Units: 2
  (6 units total)
• MUCM 440 Choral Development Units: 2
• MUCM 541 Choral Literature I Units: 2
• MUCM 542 Choral Literature II Units: 2
• MUCM 590 Directed Research Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12
  (2 units total)
• MUCM 641 Choral Literature III Units: 2

Core Thornton Academic Courses (10 units)

• MUCD 443 Instrumental Conducting II Units: 2
• MUHL 570 Research Materials and Techniques Units: 2
• MUHL Electives at 500 level Units: 4 units total

Choose one course from the following:

• MPVA 541 Advanced Vocology Units: 2 **
• MPVA 542 Vocal Pedagogy Teaching Practicum Units: 2

Capstone Projects (0 units)

• Graduate recital Units: 0
• Comprehensive review Units: 0

Total units: 30

*Choral music majors must participate in a choral ensemble chosen from MUEN 510 or MUEN 512 each semester if enrolled for 4 or more units.

**Courses with similar content in MPVA 541 taken at another institution may be substituted, subject to Vocal Arts departmental approval. Consult with the Vocal Arts and Sacred Music departments to finalize substitution approval and/or course placement.

Community Music (MM)

Overview

The Master of Music in Community Music is for musicians with a commitment to developing the necessary skills and best understandings of music teaching and learning in community settings. The program will build upon music preparation from the undergraduate level with course work designed to nurture skills in community music teaching, program development, professional practice, scholarship and research. With the wide range of courses available, the program can be tailored for a variety of student goals. This degree provides an academic link to the rich music learning opportunities available through community programs in urban Los Angeles and, in particular, to the Thornton Community Engagement Programs.

Admission

Admission to Thornton programs is granted through the USC admission process. Applicants are screened by appropriate faculty selection committees. Specific entrance requirements are reviewed on an annual basis and published online at music.usc.edu.

Unit and Grade Requirements

Students must complete at least 26 semester units at USC, including a capstone and comprehensive review. A grade point average of not less than 3.0 (A = 4.0) is required for all graduate courses in music, and a grade of B or higher is required for all courses in the major department. Students who transfer credits must achieve this average on all combined transferred and residence units.

Transferred Credits

All credits transferred must be the equivalent of corresponding current work at USC. Course work completed at another institution that has been approved by the Thornton School for transfer credit must have been completed within seven years from the date of admission to a master’s degree program to be applied toward that degree. Transfer credit petitions must be filed with the appropriate Thornton adviser during the first semester in residence.

Time Limit

The time limit for completing the Master of Music degree is five years. Progress is measured from the beginning of the first course at USC applied toward the degree. Extensions will be granted by petition to the Thornton School for only the most compelling reasons.

Music Graduate Entrance Exams

All students entering this graduate-level degree program at USC Thornton, who have not previously completed a degree at USC Thornton, must take a series of entrance exams in core music subjects. These exams are called Music Graduate Entrance Exams (MGEEs). Information regarding which exams are required for specific majors is available from the Thornton Student Affairs office. Also see the USC Thornton School of Music Admission to Graduate Standing section of this catalogue for specific policies relating to these exams.

Capstone and Comprehensive Review

A final project is required for candidates as a capstone for the Master of Music in Community Music. The project will consist of a scholarly document written on a topic approved by the Music Teaching and Learning department. Candidates must also submit a comprehensive portfolio of representative work product consistent with their work in classes and in the field.

Guidance Committee

Before registering for MTAL 592, a student must establish a guidance committee composed of three members of the faculty, approved by the department chair, of which at least two are from the home department. The chair of the guidance committee directly supervises the preparation of the project. The final acceptance of the project and portfolio is based upon the unanimous recommendation of all three members of the committee.

Curriculum Requirements

Program Intensive Courses (minimum of 22 units)*

Core Academic Courses (9 units)

• ARTL 504 Arts and the Community: Current Practice and New Visions Units: 2
• MTAL 500 Research Foundations in Music Teaching and Learning Units: 3
• MTAL 535 Community Engagement Through Music Units: 2
• MTAL 607 Foundations of Community Music Units: 2

Pedagogical Courses (minimum of 6 units)

• MTAL 449 Teaching Marching Band Units: 2
• MTAL 470 Improvisation and Composition for Teaching and Learning Units: 2
• MTAL 475 Teaching and Learning: Children Units: 2
• MTAL 476 Teaching and Learning: Youth Units: 2
• MTAL 481 Contemporary Pedagogy, Larger Instrumental Ensembles Units: 3
• MTAL 517 Teaching and Learning PopularSongwriting Units: 2
• MTAL 576 Using Technology in the Classroom Units: 2
• MTAL 653 World Music Pedagogy Units: 2
• MUZZ 443 Jazz Pedagogy Units: 2

Theoretical Courses (minimum of 7 units)
• ARTL 503 Arts Organizations: Innovation and New Models Units: 2
• MTAL 477 Cultural Diversity in Music Teaching and Learning Units: 2
• MTAL 502 Sociological Foundations of Music Teaching and Learning Units: 3
• MTAL 503 Philosophical and Advocacy Issues in Music Teaching and Learning Units: 3
• MTAL 504 Psychological Foundations of Music Units: 3
• MTAL 516 Popular Music Teaching and Learning Units: 2
• MTAL 538 Music in the Community, Program Development and Evaluation Units: 2
• MTAL 608 Creative Thinking in Music Units: 3
• MTAL 615 Assessment and Reflective Practice Units: 2
• MTAL 721 Qualitative Research in Music Teaching and Learning Units: 3

Applied Music (4 units)
Select four units from the following areas of musical study:
Courses in songwriting, arranging, composition, improvisation, conducting; individual instruction (lessons); or ensemble. Courses must be at the 500-level.

Capstone and Comprehensive Review (4 units)
• MTAL 589 Community Music Practicum Units: 2
• MTAL 592 Final Project Units: 2
• Comprehensive Review Units: 0

Total Units: Minimum of 30**

Prerequisite
• Students must select courses accordingly to complete a minimum of 22 units from the Program Intensive Courses.
• A minimum of 30 units are needed to complete the degree

Composition (MM)

Master of Music

Unit and Grade Requirements
Thirty units of graduate work are required; a minimum of 15 units (excluding thesis or project) must be at the 500 level or higher. All students must satisfy the specified requirements of their major department (see department chair or academic adviser). Students must complete at least 26 semester units at USC, including the thesis or recital. A grade point average of not less than 3.0 (A = 4.0) is required for all graduate courses in music, including the thesis or recital. A grade point average of not less than 3.0 (A = 4.0) is required for all graduate courses in music.

Thesis/Project/Portfolio Requirements and Qualifying Exam Committees
A composition portfolio is required of candidates for the Master of Music degree in composition; a thesis or final project is required of candidates for the Master of Music degree in music education. For music education majors, the thesis will consist of a research document written on a topic approved by the music teaching and learning department; the final project will consist of a creative project that will present the arrangement, production or design of innovative ideas, materials or curricula for specific applications in teaching music. Before registering for 594a Thesis, or a similarly required course for a capstone project or portfolio, a student must establish a qualifying exam committee composed of three members of the faculty, approved by the department chair, of which at least two are from the home department. The chair of the qualifying exam committee directly supervises the preparation of the thesis, the final acceptance of which is based upon the unanimous recommendation of all three members of the committee.

Master's Recital
One or more public recitals are required of all candidates for the Master of Music degree, as indicated below. Candidates must apply for recital dates, according to the current guidelines of the Music Operations office. Some departments require that a candidate be prepared to play or conduct the recital program for the approval of a faculty committee in advance.

Comprehensive Review
Candidates for the Master of Music must pass a comprehensive review toward the end of their course of study, usually in the final semester. This review, which is administered by the faculty of the major department, consists of an oral or written examination, covering relevant aspects of musical performance, literature, and/or technique.

Master of Music in Composition

Curriculum Requirements
• Ensemble Units: 2 units total
• MUHL 570 Research Materials and Techniques Units: 2
• Electives at the 500 level in MUHL or MUCO
• Individual instruction 501 in any performance medium (MPxx 501) or applicable MTEC or MUCD instruction Units: 4 units total
• MUCO 537 Advanced Composition I Units: 1 or 2 (8 units total)
• MUCO 592 Selected Topics in Graduate Composition Units: 2
• MUCO 536 Advanced Orchestration I Units: 1, 2, 3, 4 (2 units total)
• Electives Units: 4 units total
• Graduate recital Units: 0
• Comprehensive review Units: 0
• MM composition portfolio Units: 0

Total units: 30

Conducting (MM)

Master of Music

Unit and Grade Requirements
Thirty units of graduate work are required; a minimum of 15 units (excluding thesis or project) must be at the 500 level or higher. All students must satisfy the specified requirements of their major department (see department chair or academic adviser). Students must complete at least 26 semester units at USC, including the thesis or recital. A grade point average of not less than 3.0 (A = 4.0) is required for all graduate courses in music,
and a grade of B or higher is required for all courses in the major department. Students who transfer credits must achieve this average on all combined transferred and residence units.

Transferred Credits
All credits transferred must be the equivalent of corresponding current work at USC. Course work completed at another institution that has been approved by the Thornton School for transfer credit must have been completed within seven years from the date of admission to a master’s degree program to be applied toward that degree. Transfer credit petitions must be filed with the appropriate Thornton adviser during the first semester in residence.

Time Limit
The time limit for completing the Master of Music degree is five years. Progress is measured from the beginning of the first course at USC applied toward the degree. Extensions will be granted by petition to the Thornton School for only the most compelling reasons.

Thesis/Project/Portfolio Requirements and Qualifying Exam Committees
A composition portfolio is required of candidates for the Master of Music degree in composition; a thesis or final project is required of candidates for the Master of Music degree in music education. For music education majors, the thesis will consist of a research document written on a topic approved by the music teaching and learning department; the final project will consist of a creative project that will present the arrangement, production or design of innovative ideas, materials or curricula for specific applications in teaching music. Before registering for 594a Thesis, or a similarly required course for a capstone project or portfolio, a student must establish a qualifying exam committee composed of three members of the faculty, approved by the department chair, of which at least two are from the home department. The chair of the qualifying exam committee directly supervises the preparation of the thesis, the final acceptance of which is based upon the unanimous recommendation of all three members of the committee.

Master’s Recital
One or more public recitals are required of all candidates for the Master of Music degree, as indicated below. Candidates must apply for recital dates, according to the current guidelines of the Music Operations Office. Some departments require that a candidate be prepared to play or conduct the recital program for the approval of a faculty committee in advance.

Comprehensive Review
Candidates for the Master of Music must pass a comprehensive review toward the end of their course of study, usually in the final semester. This review, which is administered by the faculty of the major department, consists of an oral or written examination, covering relevant aspects of musical performance, literature, and/or technique.

Master of Music in Conducting
Prerequisite
The applicant must hold a bachelor’s degree with a music major and have at least one year of experience conducting an orchestra.

Curriculum Requirements
- MUCD 550 Orchestral Conducting Seminar Units: 2 (8 units total)
- Ensemble (preferably chamber music) Units: 4 units total
- MUHL 570 Research Materials and Techniques Units: 2
- MUHL 575 Music of the Baroque Era Units: 2
- MUHL 591 Seminar in Baroque Repertories and Performance Practice Units: 2
- MUCO 501 Introduction to the Analysis of Tonal Music Units: 2
- MUCO 502 Introduction to the Analysis of Post-Tonal Music Units: 2
- Electives
- Two graduate recitals Units: 0
- Comprehensive review Units: 0

One course from
- MUHL 573 Music of the Middle Ages Units: 2, 2 years
- MUHL 574 Music of the Renaissance Units: 2
- MUHL 576 Music of the Classical Period Units: 2, 2 years
- MUHL 577 Music of the 19th Century Units: 2, 2 years or
- MUHL 578 Music since 1900 Units: 2

Total units: 30

Contemporary Teaching Practice (MM)

Overview
The Master of Music in Contemporary Teaching Practice is designed as an intensive program and places special emphasis on urban settings. The overall goal of this degree is to provide a credential path for graduate music students who wish to teach in public and private schools in California and other states. The program will build on the students’ undergraduate preparation in music (including music theory, aural skills, keyboard skills, music history and performance education including playing, singing, conducting and ensemble work) by adding courses in music teaching and learning and general education. Special course work in music in the lives of children and youth, contemporary teaching methods, music composition/improvisation, research and assessment, and community and entrepreneurial engagement will highlight the degree. Certain courses will include extensive field experiences in the schools. Attention will be paid to children with special needs and English Language Learners (ELL), as mandated by the state of California. Finally, as a special opportunity, newly conferred students in this degree will have the ability to access monthly online mentoring sessions with USC faculty. This opportunity will be available in the first year of teaching, after the degree has been conferred.

Admission
Admission to Thornton programs is granted through the USC admission process. Applicants are screened by appropriate faculty selection committees. Specific entrance requirements are reviewed on an annual basis and published online at music.usc.edu.

Unit and Grade Requirements
Students must complete at least 30 semester units at USC, including the comprehensive review. A grade point average of not less than 3.0 (A = 4.0) is required for all graduate courses in music, and a grade of B or higher is required for all courses in the major department. Students who transfer credits must achieve this average on all combined transferred and residence units.

Transferred Credits
All credits transferred must be the equivalent of corresponding current work at USC. Course work completed at another institution that has been approved by the Thornton School for transfer credit must have been completed within seven years from the date of admission to a master’s degree program to be applied toward that degree. Transfer credit petitions must be filed with the appropriate Thornton adviser during the first semester in residence.

Time Limit
The time limit for completing the Master of Music degree is five years. Progress is measured from the beginning of the first course at USC applied toward the degree. Extensions will be granted by petition to the Thornton School for only the most compelling reasons.

Music Graduate Entrance Exam
All students entering this graduate-level degree program at USC Thornton, who have not previously completed a degree at USC Thornton, must take a series of entrance exams in core music subjects. These exams are called Music Graduate Entrance Exams (MGEEs). Information regarding which exams are required
for specific majors is available from the Thornton Student Affairs office. Also see the Thornton School of Music Admission to Graduate Standing section of this catalogue for specific policies relating to these exams.

Comprehensive Review
Candidates for the Master of Music in Contemporary Teaching Practice must submit a comprehensive portfolio of music teaching experiences consistent with their work in class and in the field. This portfolio is reviewed by faculty in the department.

Curriculum Requirements
Program Intensive Courses (24 units)
- MTAL 470 Improvisation and Composition for Teaching and Learning Units: 2
- MTAL 475 Teaching and Learning: Children Units: 2
- MTAL 476 Teaching and Learning: Youth Units: 2
- MTAL 480 Contemporary Pedagogy, Small Instrumental Ensembles Units: 3
- MTAL 481 Contemporary Pedagogy, Larger Instrumental Ensembles Units: 3
- MTAL 482 Contemporary Pedagogy, Vocal and General Music Units: 2
- MTAL 503 Philosophical and Advocacy Issues in Music Teaching and Learning Units: 3
- MTAL 535 Community Engagement Through Music Units: 2

- MTAL 615 Assessment and Reflective Practice Units: 2

Courses from USC Rossier School of Education
(10 units)
- EDUC 670 Introduction to Curriculum and Pedagogy in Urban Schools Units: 4
- EDUC 671 Contexts for Educational Equity, Access, and Agency Units: 3
- EDUC 672 Integrated Language Development Across the Curriculum Units: 3

Comprehensive Review (0 units)

Proficiencies (0 units)
- Certification in music for children with special needs
- Competency playing test in snare drum, drum set, acoustic and electric guitar, and electronic keyboard
- Competency playing test in flute, clarinet, trumpet, trombone, violin, and cello
- Competency singing test in vocal technique

Total Units: 34

Additional Note:
**Information for Certification:**
California has a two-tier credential structure. A five-year preliminary credential is the first credential issued after an individual meets basic credential requirements. A clear credential is issued when all credential requirements have been completed. Upon successful completion of the MM, CTP degree candidates are recommended for a Preliminary credential. Internships and Induction programs that lead to clear credentials are currently satisfied under the purview of your district of employment. All Preliminary Credential teacher candidates must meet the following requirements in order to be recommended/endorsed for a teaching credential: Basic Skills Competency, successful completion of all MM, CTP course work, evidence of successful completion and passing of the edTPA (Teaching Performance Assessment) and verification of training in cardiopulmonary resuscitation (CPR) that covers infant, child and adult CPR skills.

**Early Music Performance Emphasis (MA)**

**Overview**
This degree is under the jurisdiction of the Graduate School. Students should also refer to The Graduate School section of this catalogue for general regulations.

**Departmental Requirements**
Applicants will be evaluated on the basis of transcripts of previous college courses, a research paper and letters of reference.

Regular (classified) standing is achieved when the Music Graduate Entrance Examinations have been completed satisfactorily. Remedial course work, if recommended, may be substituted for repetition of examinations.

**Language Requirement**
Students are required to demonstrate a reading knowledge by passing an examination in one foreign language chosen by the student from among French, German, Italian or Latin. This requirement must be passed prior to the comprehensive examination.

**Prerequisites**
Applicants should have an undergraduate degree with a major in music or the equivalent, and a substantial background in languages, arts and letters.

**Master of Arts in Music, Early Music Performance Emphasis**

**Curriculum Requirements**
- MUEN 550 Early Music Ensemble Units: 1 (3 units total)
- MUHL 570 Research Materials and Techniques Units: 2
- MUHL 572 Seminar in Historical Musical Notation Units: 2
- MUHL 574 Music of the Renaissance Units: 2
- MUHL 575 Music of the Baroque Era Units: 2
- MUHL 589 Seminar in Renaissance Repertories and Performance Practice Units: 2
- MUHL 591 Seminar in Baroque Repertories and Performance Practice Units: 2
- MUHL 594a Master's Thesis Units: 2
- MUHL 594b Master's Thesis Units: 2
- MUPEM 450 Collegium Workshop Units: 1 (2 units total)
- MUPEM 553 Individual Instruction Units: 1 or 2 (5 units total)
- Elective in music
- Electives in letters, arts and sciences

**Total units:** 32

The thesis will include the planning, research, preparation and leadership of a full-length program in early music. This practical work will be supported by a written essay that deals, as appropriate, with historical data sources, authentic performance practices and a stylistic assessment of the repertoire that is performed. In lieu of a comprehensive examination, candidates for the Early Music Performance Emphasis will be required to pass periodic reviews to demonstrate progress.

**Jazz Studies (MM)**

**Master of Music**

**Unit and Grade Requirements**
Thirty units of graduate work are required; a minimum of 15 units (excluding thesis or project) must be at the 500 level or higher. All students must satisfy the specified requirements of their major department (see department chair or academic adviser). Students must complete at least 26 semester units at USC, including the thesis or recital. A grade point average of not less than 3.0 (A = 4.0) is required for all graduate courses in music, and a grade of B or higher is required for all courses in the major department. Students who transfer credits must achieve this average on all combined transferred and residence units.

**Transferred Credits**
All credits transferred must be the equivalent of corresponding current work at USC. Course work completed at another institution that has been approved by the Thornton School for transfer credit must have been completed within seven years from the date of admission to a master's degree program to be applied toward that degree. Transfer credit petitions must be filed with the appropriate Thornton adviser during the first semester in residence.
Time Limit
The time limit for completing the Master of Music degree is five years. Progress is measured from the beginning of the first course at USC applied toward the degree. Extensions will be granted by petition to the Thornton School for only the most compelling reasons.

Thesis/Project/Portfolio Requirements and Qualifying Exam Committees
A composition portfolio is required of candidates for the Master of Music degree in composition; a thesis or final project is required of candidates for the Master of Music degree in music education. For music education majors, the thesis will consist of a research document written on a topic approved by the music teaching and learning department; the final project will consist of a creative project that will present the arrangement, production or design of innovative ideas, materials or curricula for specific applications in teaching music. Before registering for 594a Thesis, or a similarly required course for a capstone project or portfolio, a student must establish a qualifying exam committee composed of three members of the faculty, approved by the department chair, of which at least two are from the home department. The chair of the qualifying exam committee directly supervises the preparation of the thesis, the final acceptance of which is based upon the unanimous recommendation of all three members of the committee.

Master's Recital
One or more public recitals are required of all candidates for the Master of Music degree, as indicated below. Candidates must apply for recital dates, according to the current guidelines of the Music Operations office. Some departments require that a candidate be prepared to play or conduct the recital program for the approval of a faculty committee in advance.

Comprehensive Review
Candidates for the Master of Music must pass a comprehensive review toward the end of their course of study, usually in the final semester. This review, which is administered by the faculty of the major department, consists of an oral or written examination, covering relevant aspects of musical performance, literature, and/or technique.

Master of Music in Jazz Studies
Prerequisite
The applicant must hold a Bachelor of Music degree with a major in jazz studies or its equivalent.

Curriculum Requirements
- Muen 505 Vocal Jazz Ensemble Units: 1 or
- Muen 529 Jazz Ensemble Units: 1 (4 units total)
- Muen 532 Jazz Chamber Music Units: 1 (4)
- Muhl 570 Research Materials and Techniques Units: 2
- Muhl 578 Music since 1900 Units: 2
- Muhl electives at the 500 level
- MuJz 443 Jazz Pedagogy Units: 2 or
- MuJz 545 Jazz Ensemble Development Units: 2, 2 years
- MuJz 547 Jazz Composition Units: 2
- MuJz 553 Individual Instruction Units: 1 or 2 (8 units total)
- Electives
- Two graduate recitals Units: 0
- Comprehensive review Units: 0

Total units: 30

Music History and Literature Emphasis (MA)
Overview
This degree is under the jurisdiction of the Graduate School. Students should also refer to The Graduate School section of this catalogue for general regulations.

Departmental Requirements
Applicants will be evaluated on the basis of transcripts of previous college courses, a research paper and letters of reference.

Regular (classified) standing is achieved when the Music Graduate Entrance Examinations have been completed satisfactorily. Remedial course work, if recommended, may be substituted for repetition of examinations.

Language Requirement
Students are required to demonstrate a reading knowledge by passing an examination in one foreign language chosen by the student from among French, German, Italian or Latin. This requirement must be passed prior to the comprehensive examination.

Prerequisites
Applicants should have an undergraduate degree with a major in music or the equivalent, and a substantial background in languages, arts and letters.

Master of Arts in Music, Music History and Literature Emphasis
Core Thornton Academic Courses (8 units)
- Muhl 570 Research Materials and Techniques Units: 2
  Select 6 units from the following:
  - Muhl 579 Studies in Music History Units: 4
  - Muhl courses numbered 600-699

- Courses in history, language, literature or the arts other than music: 8 units total
- Muco 501 Introduction to the Analysis of Tonal Music Units: 2
  Select 8 units from the following:
  - Muco 502 Introduction to the Analysis of Post-Tonal Music Units: 2
  - Muhl courses numbered 500-699

Electives (6 units)
- Comprehensive Examination: 0 units

Total Units: 30

Music Industry (MS)
Overview
The Master of Science in Music Industry program aims to produce the next generation of music industry leaders via a comprehensive yet student-tailored education. Class topics include copyright, concerts, artist management, marketing data and analysis, and a one-semester internship. Additionally, students have four emphasis track options including music performance, supervision, the business of touring/live event promotion, and entrepreneurship.

Admission
Admission to Thornton programs is granted through the USC admission process. Applicants are screened by appropriate faculty selection committees. Specific entrance requirements are reviewed on an annual basis and published online at music.usc.edu.

Unit and Grade Requirements
Students must complete at least 32 semester units at USC, including the portfolio. A grade point average of not less than 3.0 (A = 4.0) is required for all USC courses. Students who transfer credits must achieve this average on all combined transferred and resident units.

Transferred Credits
All credits transferred must be the equivalent of corresponding current work at USC. Course work completed at another institution that has been approved by the Thornton School for transfer credit....
must have been completed within seven years from the date of admission to a master's degree program to be applied toward that degree. Transfer credit petitions must be filed with the appropriate Thornton adviser during the first semester in residence.

Time Limit
The time limit for completing the Master of Science degree is five years. Progress is measured from the beginning of the first course at USC applied toward the degree. Extensions will be granted by petition to the Thornton School for only the most compelling reasons.

Portfolio Requirement
A portfolio, as capstone to a two-semester immersion into a student-led music campaign, is required for graduation. The Music Industry faculty will provide students with additional details for this requirement.

Curriculum Requirements

Program Intensive Courses (27 units)
- MUIN 510 The Music Industry: Careers, Rights and Income Streams Units: 4
- MUIN 511 Music Industry History; Entrepreneurs, Moguls and Catalogs Units: 2
- MUIN 512 The Management of Live Performances Units: 2
- MUIN 520 Artist Management: Campaign Planning, Pitching, Partnerships Units: 2
- MUIN 521 Music Industry/Producers Forum Units: 1
- MUIN 522 Music Marketing, Branding and Campaigns Units: 3
- MUIN 523 Survey/Analysis of Music Agreements Units: 4
- MUIN 530 Mentorship Units: 1
- MUIN 540 Artist Management: Campaign Execution and Hindsight Analysis Units: 2

- MUHL electives at the 500 level
- MPKS 481 Interpretation of Baroque Music
- MPKS 553 Individual Instruction Units: 1 or 2 or (8 units total)
- Music electives (at least two from the 500 level)
- Electives
- Graduate recital Units: 0
- Comprehensive review Units: 0

Total units: 30

Performance (Piano) (MM)

Master of Music

Unit and Grade Requirements
Thirty units of graduate work are required; a minimum of 15 units (excluding thesis or project) must be at the 500 level or higher. All students must satisfy the specified requirements of their major department (see department chair or academic adviser). Students must complete at least 26 semester units at USC, including the thesis or recital. A grade point average of not less than 3.0 (A = 4.0) is required for all graduate courses in music, and a grade of B or higher is required for all courses in the major department. Students who transfer credits must achieve this average on all combined transferred and residence units.

Transferred Credits
All credits transferred must be the equivalent of corresponding current work at USC. Course work completed at another institution that has been approved by the Thornton School for transfer credit must have been completed within seven years from the date of admission to a master's degree program to be applied toward that degree. Transfer credit petitions must be filed with the appropriate Thornton adviser during the first semester in residence.

Time Limit
The time limit for completing the Master of Music degree is five years. Progress is measured from the beginning of the first course at USC applied toward the degree. Extensions will be granted by petition to the Thornton School for only the most compelling reasons.

Thesis/Project/Portfolio Requirements and Qualifying Exam Committees
A composition portfolio is required of candidates for the Master of Music degree in composition; a thesis or final project is required of candidates for the Master of Music degree in music education. For music education majors, the thesis will consist of a research document written on a topic approved by the music department, consists of an oral or written examination, covering relevant aspects of musical performance, literature, and/ or technique.

Comprehensive Review
Candidates for the Master of Music must pass a comprehensive review toward the end of their course of study, usually in the final semester. This review, which is administered by the faculty of the major department, consists of an oral or written examination, covering relevant aspects of musical performance, literature, and/ or technique.

Master of Music in Performance (Organ)

Prerequisite
The applicant must hold a Bachelor of Music degree with a major in organ or equivalent.

Curriculum Requirements
- Ensemble
- MUHL 570 Research Materials and Techniques
- MUHL electives at the 500 level
- MPKS 481 Interpretation of Baroque Music
- MPKS 553 Individual Instruction Units: 1 or 2 or (8 units total)
- Music electives (at least two from the 500 level)
- Electives
- Graduate recital Units: 0
- Comprehensive review Units: 0

Total units: 30

Performance (Piano) (MM)

Master of Music

Unit and Grade Requirements

Transfer credit petitions must be filed with the appropriate Thornton adviser during the first semester in residence.

Time Limit
The time limit for completing the Master of Music degree is five years. Progress is measured from the beginning of the first course at USC applied toward the degree. Extensions will be granted by petition to the Thornton School for only the most compelling reasons.

Thesis/Project/Portfolio Requirements and Qualifying Exam Committees
A composition portfolio is required of candidates for the Master of Music degree in composition; a thesis or final project is required of candidates for the Master of Music degree in music education. For music education majors, the thesis will consist of a research document written on a topic approved by the music department, consists of an oral or written examination, covering relevant aspects of musical performance, literature, and/ or technique.
teaching and learning department; the final project will consist of a creative project that will present the arrangement, production or design of innovative ideas, materials or curricula for specific applications in teaching music. Before registering for 594a Thesis, or a similarly required course for a capstone project or portfolio, a student must establish a qualifying exam committee composed of three members of the faculty, approved by the department chair, of which at least two are from the home department. The chair of the qualifying exam committee directly supervises the preparation of the thesis, the final acceptance of which is based upon the unanimous recommendation of all three members of the committee.

Master's Recital
One or more public recitals are required of all candidates for the Master of Music degree, as indicated below. Candidates must apply for recital dates, according to the current guidelines of the Music Operations office. Some departments require that a candidate be prepared to play or conduct the recital program for the approval of a faculty committee in advance.

Comprehensive Review
Candidates for the Master of Music must pass a comprehensive review toward the end of their course of study, usually in the final semester. This review, which is administered by the faculty of the major department, consists of an oral or written examination, covering relevant aspects of musical performance, literature, and/or technique.

Master of Music in Performance (Studio Guitar)
Prerequisite
The applicant must hold a bachelor's degree with a major in music with guitar as the principal instrument.

Curriculum Requirements
- MUEN 526 Guitar Ensemble Units: 1 (2 units total)
- Electives
- MUHL 570 Research Materials and Techniques Units: 2
- MUHL 578 Music since 1900 Units: 2
- MUHL electives at the 500 level
- MPGU 553 Individual Instruction Units: 1 or 2 SG (8 units total)
- MPGU 558 Advanced Studio Guitar Performance Class Units: 1 (4 units total)
- Music electives
- Electives
- Two graduate recitals Units: 0
- Comprehensive review Units: 0

Total units: 30

Performance (Violin), (Viola), (Violoncello), (Double Bass) or (Harp) (MM)
Overview
The MM in violin, viola, violoncello, double bass or harp performance is a two-year, 30-unit program consisting of individual instruction, ensembles, conducting, Baroque music, music history and electives. A graduate recital is required.

Admission
Admission to Thornton programs is granted through the USC admission process. Applicants are screened by appropriate faculty selection committees. Specific entrance requirements are reviewed on an annual basis and published online at music.usc.edu.

Unit and Grade Requirements
Thirty units of graduate work are required; a minimum of 15 units (excluding thesis or project) must be at the 500 level or higher. All students must satisfy the specified requirements of their major department (see department chair or academic adviser).

Students must complete at least 26 semester units at USC, including the thesis or recital. A grade point average of not less than 3.0 (A = 4.0) is required for all graduate courses in music, and a grade of B or higher is required for all courses in the major department. Students who transfer credits must achieve this average on all combined transferred and residence units.

Transferred Credits
All credits transferred must be the equivalent of corresponding current work at USC. Course work completed at another institution that has been approved by the Thornton School for transfer credit must have been completed within seven years from the date of admission to a master's degree program to be applied toward that degree. Transfer credit petitions must be filed with the appropriate Thornton adviser during the first semester in residence.

Time Limit
The time limit for completing the Master of Music degree is five years. Progress is measured from the beginning of the first course at USC applied toward the degree. Extensions will be granted by petition to the Thornton School for only the most compelling reasons.

Music Graduate Entrance Exams
All students entering a graduate-level degree program (MA, MM, DMA, PhD) at USC Thornton, who have not previously completed a degree at USC Thornton, must take a series of entrance exams in core music subjects. These exams are called Music Graduate Entrance Exams (MGEEs). Information regarding which exams are required for specific majors is available from the Thornton Student Affairs office. Also see the Thornton School of Music Admission to Graduate Standing section of this catalogue for specific policies relating to these exams.

Master's Recital
One public recital is required of all candidates for the Master of Music degree (Violin, Viola, Violoncello, Double Bass or Harp), as indicated below. Candidates must apply for recital dates, according to the current guidelines of the Music Operations office. Some departments require that a candidate be prepared to play or conduct the recital program for the approval of a faculty committee in advance.

Comprehensive Review
Candidates for the Master of Music must pass a comprehensive review toward the end of their course of study, usually in the final semester. This review, which is administered by the faculty of the major department, consists of an oral or written examination, covering relevant aspects of musical performance, literature, and/or technique.

Master of Music in Performance (Violin), (Viola), (Violoncello) or (Harp)
Prerequisite
The applicant must hold a Bachelor of Music degree with a major in a string instrument or equivalent.

Curriculum Requirements For Violin, Viola, Violoncello and Harp Majors
Core Thornton Academic Courses (8 units)
- MUHL 570 Research Materials and Techniques Units: 2
- MUHL 578 Music since 1900 Units: 2
- MUHL electives at the 500 level: 4 units total

Individual Instruction (8 units)
- MPST 553 Individual Instruction Units: 1 or 2
- 8 units total of MPST 553 in your primary instrument

Ensembles (8 units)
- MUEN 520 USC Symphony Units: 1
- 4 units total of MUEN 520
- MUEN 527 String Chamber Music Units: 1
- 4 units total of MUEN 527
Program Intensive Courses (4 units)
- MPKS 481 Interpretation of Baroque Music Units: 2
- MUCD 443 Instrumental Conducting II Units: 2

Music Electives (2 units)
- Music electives: 2 units total

Capstone Projects (0 units)
- Graduate Recital: 0 units
- Comprehensive Review: 0 units

Total Units: 30

Master of Music in Performance (Double Bass)

Prerequisite
The applicant must hold a Bachelor of Music degree with a major in a string instrument or equivalent.

Curriculum Requirements For Double Bass Majors
Core Thornton Academic Courses (8 units)
- MUHL 570 Research Materials and Techniques Units: 2
- MUHL 578 Music since 1900 Units: 2
- MUHL electives at the 500 level: 4 units total

Individual Instruction (8 units)
- MPST 553 Individual Instruction Units: 1 or 2
- 8 units total of MPST 553 (Double Bass)

Ensembles (6 units)
- MUEN 520 USC Symphony Units: 1
- 4 units total of MUEN 520
- MUEN 527 String Chamber Music Units: 1

Select one unit from the following:
- MUEN 525 Wind and Percussion Chamber Music Units: 1
- MUEN 527 String Chamber Music Units: 1
- MUEN 530 Contemporary Music Ensemble Units: 1
- MUEN 550 Early Music Ensemble Units: 1

Program Intensive Courses (4 units)
- MPKS 481 Interpretation of Baroque Music Units: 2
- MUCD 443 Instrumental Conducting II Units: 2

Music Electives (4 units)
- Music electives: 4 units total

Capstone Projects (0 units)
- Graduate Recital: 0 units
- Comprehensive Review: 0 units

Total Units: 30

Performance (Vocal Arts) (MM)

Overview
The MM in vocal arts performance is a two-year, 30-unit program consisting of individual instruction, ensembles, cantata and oratorio, pedagogy, vocal literature, music history and electives. A graduate recital is required.

Admission
Admission to Thornton programs is granted through the USC admission process. Applicants are screened by appropriate faculty selection committees. Specific entrance requirements are reviewed on an annual basis and published online at music.usc.edu.

Unit and Grade Requirements
Thirty units of graduate work are required; a minimum of 15 units (excluding thesis or project) must be at the 500 level or higher. All students must satisfy the specified requirements of their major department (see department chair or academic adviser). Students must complete at least 26 semester units at USC, including the thesis or recital. A grade point average of not less than 3.0 (A = 4.0) is required for all graduate courses in music, and a grade of B or higher is required for all courses in the major department. Students who transfer credits must achieve this average on all combined transferred and residence units.

Transferred Credits
All credits transferred must be the equivalent of corresponding current work at USC. Course work completed at another institution that has been approved by the Thornton School for transfer credit must have been completed within seven years from the date of admission to a master's degree program to be applied toward that degree. Transfer credit petitions must be filed with the appropriate Thornton adviser during the first semester in residence.

Time Limit
The time limit for completing the Master of Music degree is five years. Progress is measured from the beginning of the first course at USC applied toward the degree. Extensions will be granted by petition to the Thornton School for only the most compelling reasons.

Music Graduate Entrance Exams
All students entering a graduate-level degree program (MA, MM, DMA, PhD) at USC Thornton, who have not previously completed a degree at USC Thornton, must take a series of entrance exams in core music subjects. These exams are called Music Graduate Entrance Exams (MGEEs). Information regarding which exams are required for specific majors is available from the Thornton Student Affairs office. Also see the Thornton School of Music Admission to Graduate Standing section of this catalogue for specific policies relating to these exams.

Master's Recital
One public recital is required of all candidates for the Master of Music degree (Vocal Arts), as indicated below. Candidates must apply for recital dates, according to the current guidelines of the Music Operations office. Some departments require that a candidate be prepared to play or conduct the recital program for the approval of a faculty committee in advance.

Comprehensive Review
Candidates for the Master of Music must pass a comprehensive review toward the end of their course of study, usually in the final semester. This review, which is administered by the faculty of the major department, consists of an oral or written examination, covering relevant aspects of musical performance, literature, and/or technique.

Master of Music in Performance (Vocal Arts)

Prerequisite
The applicant must hold a Bachelor of Music degree with a major in vocal arts. Students who have not had formal training in foreign language, diction, vocal pedagogy, acting for singers, song literature and in Italian, French or German languages must show competency in these areas through examination or complete appropriate course work with a grade of B or higher.

Curriculum Requirements

Lessons (8 units)
- MPVA 553 Individual Instruction Units: 1 or 2
- 8 units total of MPVA 553 (Voice)

Music Ensembles (2 units)
- 500 level Music Ensemble (two 1-unit courses)

Program Intensive Courses (6 units)
- MPVA 443 Cantata and Oratorio Units: 2, 2 years
- MPVA 540 Special Studies in Vocal Literature Units: 2
- MPVA 541 Advanced Vocology Units: 2

Core Thornton Academic Courses (4 units)
- MUHL 570 Research Materials and Techniques Units: 2
- MUHL Electives at the 500 level (2 units total)

Electives (10 units)
- Electives in music at the 400 or 500 level (6 units total)
- Electives in non-music or music at the 400 or 500 level (4 units total)
Music Graduate Entrance Exams
All students entering this graduate-level degree program at USC Thornton, who have not previously completed a degree at USC Thornton, must take a series of entrance exams in core music subjects. These exams are called Music Graduate Entrance Exams (MGEEs). Information regarding which exams are required for specific majors is available from the Thornton Student Affairs office. Also see the USC Thornton School of Music Admission to Graduate Standing section of this catalogue for specific policies relating to these exams.

Capstone and Comprehensive Review
A final project is required for candidates as a capstone for the Master of Music in Popular Music Teaching and Learning. The project will consist of a scholarly document written on a topic approved by the Music Teaching and Learning department and include elements of supervised applied teaching. Candidates must also submit a comprehensive portfolio of representative work product consistent with their work in classes and in the field.

Guidance Committee
Before registering for MTAL 592, a student must establish a guidance committee composed of three members of the faculty, approved by the department chair, of which at least two are from the home department. The chair of the guidance committee directly supervises the preparation of the project. The final acceptance of the project and portfolio is based upon the unanimous recommendation of all three members of the committee.

Curriculum Requirements
Program Intensive Courses (11 units)
Core Academic Courses (9 units)
- MTAL 500 Research Foundations in Music Teaching and Learning Units: 3
- MTAL 503 Research Foundations in Music Teaching and Learning Units: 3
- MTAL 502 Research Foundations in Music Teaching and Learning Units: 3
- MTAL 501 Research Foundations in Music Teaching and Learning Units: 3
- MTAL 504 Research Foundations in Music Teaching and Learning Units: 3
- MTAL 517 Teaching and Learning Popular Songwriting Units: 2
- MTAL 510 Coaching the Popular Music Ensemble Units: 2
- MTAL 521 Coaching the Popular Music vocalist Units: 2
- Music History Course (2 units)
MUHl electives numbered 500 through 695: 2 units total

Music Elective Courses (minimum of 13 units)**
Select a minimum of 13 units from the following:
- MPVA 438 Foundations of Vocology Units: 2
- MPVA 541 Advanced Vocology Units: 2
- MTAL 477 Cultural Diversity in Music Teaching and Learning Units: 2
- MTAL 502 Sociological Foundations of Music Teaching and Learning Units: 3
- MTAL 503 Philosophical and Advocacy Issues in Music Teaching and Learning Units: 3
- MTAL 504 Psychological Foundations of Music Units: 3
- MTAL 517 Teaching and Learning Popular Songwriting Units: 2
- MTAL 518 Teaching and Learning Music Technology Units: 2
- MTAL 520 Coaching the Popular Music Ensemble Units: 2
- MTAL 521 Coaching the Popular Music Vocalist Units: 2
- MTAL 518 Teaching and Learning Music Technology Units: 2
- MTAL 520 Coaching the Popular Music Ensemble Units: 2
- MTAL 521 Coaching the Popular Music Vocalist Units: 2
- MTAL 518 Teaching and Learning Music Technology Units: 2
- MTAL 520 Coaching the Popular Music Ensemble Units: 2
- MTAL 608 Creative Thinking in Music Units: 3
- MTAL 515 Assessment and Reflective Practice Units: 2
- MTAL 653 World Music Pedagogy Units: 2
- MUJZ 443 Jazz Pedagogy Units: 2
- MUSC 475 Musician's Health and Wellness Units: 2
Applied Music (4 units)**
Select four units from the following areas of musical study:
Courses in popular music performance, songwriting, music production or individual instruction in popular music. Courses must be at the 400-level or higher.

Capstone and Comprehensive Review (2 units)
- MTAL 592 Final Project Units: 2
- Comprehensive Review Units: 0

Total Units: Minimum of 30
*Students with significant professional teaching experience may substitute a different MTAL 500 level or above course in consultation with their faculty adviser.
**Per faculty advisement.
*** If not selected as part of Core Academic Courses.

Sacred Music (MM)

Overview
The MM in sacred music consists of course work in sacred music, choral conducting, choral literature, choral development, music history, and vocal arts. The program culminates with a graduate recital or project.

Admission
Admission to Thornton programs is granted through the USC admission process. Applicants are screened by appropriate faculty selection committees. Specific entrance requirements are reviewed on an annual basis and published online at music.usc.edu.

Unit and Grade Requirements
Students must complete at least 26 semester units at USC, including the thesis or recital. A grade point average of not less than 3.0 (A = 4.0) is required for all graduate courses in music, and a grade of B or higher is required for all courses in the major department. Students who transfer credits must achieve this average on all combined transferred and residence units.

Transferred Credits
All credits transferred must be the equivalent of corresponding current work at USC. Course work completed at another institution that has been approved by the Thornton School for transfer credit must have been completed within seven years from the date of admission to a master’s degree program to be applied toward that degree. Transfer credit petitions must be filed with the appropriate Thornton adviser during the first semester in residence.

Time Limit
The time limit for completing the Master of Music degree is five years. Progress is measured from the beginning of the first course at USC applied toward the degree. Extensions will be granted by petition to the Thornton School for only the most compelling reasons.

Music Graduate Entrance Exams
All students entering a graduate-level degree program (MA, MM, DMA, PhD) at USC Thornton, who have not previously completed a degree at USC Thornton, must take a series of entrance exams in core music subjects. These exams are called Music Graduate Entrance Exams (MGEEs). Information regarding which exams are required for specific majors is available from the Thornton Student Affairs office. Also see the Thornton School of Music Admission to Graduate Standing section of this catalogue for specific policies relating to these exams.

Master's Recital/Project
Students majoring in Sacred Music must complete a recital or a project, as approved by the department. Candidates completing the recital must perform one public recital. Candidates must apply for recital dates, according to the current guidelines of the Music Operations office. Some departments require that a candidate be prepared to play or conduct the recital program for the approval of a faculty committee in advance. Candidates completing the project must work with the department to determine the details for this requirement.

Comprehensive Review
Candidates for the Master of Music must pass a comprehensive review toward the end of their course of study, usually in the final semester. This review, which is administered by the faculty of the major department, consists of an oral or written examination, covering relevant aspects of musical performance, literature, and/or technique. A final oral examination in sacred music and related areas will be administered by the sacred and choral music faculty.

Curriculum Requirements

Keyboard and Voice Proficiency
Proficiency tests in keyboard and voice will be given by the choral and sacred music faculty during the student’s first semester in residence to determine if additional study in either medium is required.

Lessons (2 units)
Take 2 units from the following:
- MPKS 501 Individual Instruction Units: 1 or 2 ** (PI or OR)
- MPV A 501 Individual Instruction Units: 1 or 2 **

Music Ensembles (2 units)
- Ensemble Units: 2 units total*

Program Intensive Courses (20 units)
- MSCR 571 Music of the Great Liturgies Units: 2
- MSCR 572 Sacred Music Administration Units: 2
- MSCR 590 Directed Research Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 (2 units total)
- MUCD 541 Choral Conducting I Units: 2 ** (4 units total)
- MUCM 440 Choral Development Units: 2 **
- MUCM 541 Choral Literature I Units: 2 **
- MUCM 542 Choral Literature II Units: 2 **
- Choose one course from the following:
  - MSCR 473 Hymnology Units: 2
  - MSCR 475 Introduction to Jewish Music Units: 2
- Choose one course from the following:
  - MSCR 474 The Organ in Worship and Congregational Life Units: 2
  - MPVA 541 Advanced Vocology Units: 2 ***
  - MPVA 542 Vocal Pedagogy Teaching Practicum Units: 2

Core Thornton Academic Courses (4 units)
- MUHL 570 Research Materials and Techniques Units: 2
- MUHL electives at the 500 level Units: 2 units total

Electives (2 units)
- Graduate recital or project Units: 0
- Comprehensive review Units: 0

Total units: 30
*Sacred music majors must participate in a choral ensemble chosen from MUEN 508, MUEN 510, MUE N 511 or MUEN 512 each semester if enrolled for 4 or more units.
**In some cases, MUHL 500-level courses and/or private instruction in organ, piano, voice or guitar may be substituted for MUCM 440, MUCM 541, MUCM 542 and MUCD 541. In some cases, instruction in guitar or another instrument may be substituted for MPKS 501 or MPVA 501.
***Courses with similar content in MPVA 541 taken at another institution may be substituted, subject to Vocal Arts departmental approval. Consult with the Vocal Arts and Sacred Music departments to finalize substitution approval and/or course placement.

Screen Scoring (MM)

Overview
This two-semester master's program focuses on the art and craft of composing, orchestrating, programming, conducting, producing, recording, mixing, editing, copying and integrating music for screen-based media, including motion pictures,
television programming, video games, Internet fare and other new visual media. Classes are also offered in technology, entrepreneurialism and the business of making movies.

Admission

Admission to Thornton programs is granted through the USC admission process. Applicants are screened by appropriate faculty selection committees. Specific entrance requirements are reviewed on an annual basis and published online at music.usc.edu.

Unit and Grade Requirements

Students must complete at least 26 semester units at USC, including the portfolio. A grade point average of not less than 3.0 (A = 4.0) is required for all graduate courses in music, and a grade of B or higher is required for all courses in the major department. Students who transfer credits must achieve this average on all combined transferred and residence units.

Portfolio Requirement

A portfolio of multiple original manuscript scores for films and/or games, along with screening copies containing audio tracks, is required for graduation. The scoring faculty will provide students with additional details for this requirement.

Curriculum Requirements

Individual Instruction (4 units)
- SCOR 502 Individual Instruction in Advanced Screen Scoring
  Units: 1, 2
  4 units total of SCOR 502

Program Intensive Courses (32 units)
- CTPR 473 Spotting Music for Cinema Units: 2
- SCOR 503a Advanced Scoring for Motion Pictures and Television Units: 2
- SCOR 503b Advanced Scoring for Motion Pictures and Television Units: 2
- SCOR 504a Orchestral Scoring Units: 2
- SCOR 504b Orchestral Scoring Units: 2
- SCOR 505a Advanced Game Scoring and Integration Units: 2
- SCOR 505b Advanced Game Scoring and Integration Units: 2
- SCOR 506 Applied Techniques in Contemporary Scoring Units: 2
- SCOR 507 Studio Conducting and Contemporary Score Analysis Units: 2
- SCOR 511a History of Film Scoring Units: 2
- SCOR 511b History of Film Scoring Units: 2
- SCOR 512 Entrepreneurialism for the Screen Composer Units: 2
- SCOR 521a Recording, Mixing and Editing for the Screen Composer Units: 2
- SCOR 521b Recording, Mixing and Editing for the Screen Composer Units: 2
- SCOR 523a Advanced Screen Scoring Technology Units: 2
- SCOR 523b Advanced Screen Scoring Technology Units: 2

Portfolio Requirement

Portfolio: 0 units

Total Units: 36

Teaching and Learning (MM)

Overview

The goal of this professional degree is to prepare the student for an advanced level of pre-college teaching and leadership in the music education profession by developing core knowledge and expertise in pedagogical skills and scholarship. It provides a seamless transition into the DMA in Teaching and Learning, with most units being transferable to the DMA requirements.

Admission

Admission to Thornton programs is granted through the USC admission process. Applicants are screened by appropriate faculty selection committees. Specific entrance requirements are reviewed on an annual basis and published online at music.usc.edu.

Unit and Grade Requirements

Students must complete at least 26 semester units at USC, including the portfolio. A grade point average of not less than 3.0 (A = 4.0) is required for all graduate courses in music, and a grade of B or higher is required for all courses in the major department. Students who transfer credits must achieve this average on all combined transferred and residence units.

Transferred Credits

All credits transferred must be the equivalent of corresponding current work at USC. Course work completed at another institution that has been approved by the Thornton School for transfer credit must have been completed within seven years from the date of admission to a master’s degree program to be applied toward that degree. Transfer credit petitions must be filed with the appropriate Thornton adviser during the first semester in residence.

Time Limit

The time limit for completing the Master of Music degree is five years. Progress is measured from the beginning of the first course at USC applied toward the degree. Extensions will be granted by petition to the Thornton School for only the most compelling reasons.

Music Graduate Entrance Exams

All students entering a graduate-level degree program (MA, MM, DMA, PhD) at USC Thornton, who have not previously completed a degree at USC Thornton, must take a series of entrance exams in core music subjects. These exams are called Music Graduate Entrance Exams (MGEEs). Information regarding which exams are required for specific majors is available from the Thornton Student Affairs office. Also see the Thornton School of Music Admission to Graduate Standing section of this catalogue for specific policies relating to these exams.

Capstone and Guidance Committee

A thesis or final project is required for candidates as a capstone for the Master of Music in Teaching and Learning. The thesis will consist of a research document written on a topic approved by the Music Teaching and Learning department; the final project will consist of a creative project that will present the arrangement, production or design of innovative ideas, materials or curricula for specific applications in teaching music. Before registering for 594a Thesis or 590 and 592 (for the project option), a student must establish a guidance committee composed of three members of the faculty, approved by the department chair, of which at least two are from the home department. The chair of the guidance committee directly supervises the preparation of the thesis, the final acceptance of which is based upon the unanimous recommendation of all three members of the committee.

Comprehensive Review

Candidates for the Master of Music must pass a comprehensive review toward the end of their course of study, usually in the final semester. This review, which is administered by the faculty of the major department, consists of an oral or written examination, covering relevant aspects of musical performance, literature, and/or technique.

Curriculum Requirements

Applied Music (4 units)

4-units total are to be earned by choosing from the following:
- Individual Instruction (lessons); courses in conducting, composition or arranging; or ensemble. Individual instruction and ensembles must be at the 500 level. Conducting, composition and arranging courses must be at the 400 or 500 level.
Program Intensive Courses (11 units)
- MTAL 500 Research Foundations in Music Teaching and Learning Units: 3
- MTAL 505 Teaching and Learning Music Units: 2
- Two courses from the following:
  - MTAL 501 Historical Foundations of Music Education Units: 3
  - MTAL 502 Sociological Foundations of Music Teaching and Learning Units: 3
  - MTAL 503 Philosophical and Advocacy Issues in Music Teaching and Learning Units: 3
  - MTAL 504 Psychological Foundations of Music Units: 3

Core Thornton Academic Courses (8 units)
- MUHL electives at the 500 level: two 2-unit courses
  - One course from the following:
    - MUCD 441 Choral Conducting II Units: 2
    - MUCD 443 Instrumental Conducting II Units: 2
  - One course from the following:
    - MUCO 501 Introduction to the Analysis of Tonal Music Units: 2
    - MUCO 502 Introduction to the Analysis of Post-Tonal Music Units: 2

Electives in music at the 400 or 500 level (3 units)

Comprehensive Review (0 units)

Capstone Project (4 units)
- Choose one group from the following:
  - MTAL 594a Master's Thesis Units: 2
  or
  - MTAL 594b Master's Thesis Units: 2
  or
  - MTAL 590 Directed Research Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12
    (2 units total of MTAL 590) and
  - MTAL 592 Final Project Units: 2

Total units: 30

Graduate Certificate

Arts Leadership Graduate Certificate

Certificate in Arts Leadership (ARTL)
The graduate program in arts leadership is a two-semester certificate program for artists, arts administrators and cultural workers of all types to develop the skills necessary to become successful leaders in the arts and arts organizations in a rapidly changing and radically altered contemporary world. The program is based in the Thornton School of Music, but it is designed to be applicable for artists/students engaged in any of the arts disciplines who want to develop their leadership skills in the hybrid and holistic environment of the contemporary arts. The program is highly individualized and deeply student centered in its approach, with simultaneous emphases on research, discovery, theory and current practice. With strong faculty mentorship and guidance from the director of the program and other working professionals in the field, students explore the dimensions of the most current issues and ideas while developing specific real-world applications of these ideas to their own practice as artists and leaders.
The program consists of a minimum of 18 units which can be completed in two semesters. The program begins with a 2-unit gateway course (ARTL 500), which introduces the students to the varied, complex and contentious issues in the arts and arts leadership that currently exist in the contemporary arts world. From this experience, students will develop a life plan that examines their own career and life trajectory for the next several years, providing a guidepost for their own personal development in arts leadership. Students will take four core courses including ARTL 501, which focuses on a deep understanding and application of the challenges of executive leadership in the arts and ARTL 502, which looks at major environmental trends affecting the arts and how that impacts the student's leadership role in the arts. Essential to all of these courses is developing the ability to think, speak and write critically about the arts in the contemporary world, key components of strong arts leadership. There is also a two semester practicum, ARTL 510, in which the student creates, develops and completes an actual arts leadership project of his or her own choosing, supported by faculty mentorship and the cohort of other practicum students.
Admission to the program is by application, reviewed and approved by the director of the program. Admission to the practicum requires a project proposal to be created by the student and approved by the director of the program.

Core Courses
- ARTL 500 Arts Leadership and Arts Entrepreneurship Units: 2
- ARTL 501 Executive Leadership in the Arts Units: 2
- ARTL 502 Issues in the Arts and the Contemporary World Units: 2
- ARTL 503 Arts Organizations: Innovation and New Models Units: 2
- ARTL 504 Arts and the Community: Current Practice and New Visions Units: 2
- ARTL 510 Arts Leadership Practicum Units: 2 (2 semesters) (4 units total)

Total units: 14

Select a Minimum of 4 Units From the Following Courses*
- MUCI 570 The Music Industry Units: 4
- PPDE 645 Financial Management of Nonprofit Organizations
- PAS 561 Curatorial/Organizational Models Units: 2
- PAS 571 Histories of Art in the Public Sphere Units: 3
- PAS 572 Contemporary Art in the Public Sphere Units: 3
- PAS 585 Theorizing the Public Realm Units: 3
- PPD 675 Nonprofit Management and Leadership Units: 4
- PPD 687 Strategic Management in the Nonprofit Sector Units: 4 **
- PPD 689 The Nonprofit Sector and Philanthropy Units: 4
- PPDE 645 Financial Management of Nonprofit Organizations Units: 4

Total units: 4
*Courses may be chosen from this list or in consultation with the Director of Arts Leadership.
**Prerequisite: PPD 675 and PPD 689

Minimum total units: 18

Performance Graduate Certificate

This two-year graduate-level program is designed for students who have completed their undergraduate education in music, or its equivalent, and intend to concentrate their energies on the full-time development of their discipline.

Entrance Requirements
A performance audition is required with repertory to be determined by the student's primary department.

Curriculum Requirements
The requirements for this program consist of 16 units of Graduate Certificate Performance (4 units per semester of MPEM 554, MPGU 554, MPKS 554, MPST 554, MPVA 554, MPWP 554 or MUJZ 554). Graduate Certificate Performance encompasses individual instruction, studio class and two ensembles or the equivalent as appropriate to the discipline.

Doctoral Degree

Choral Music (DMA)

Overview
The DMA in Choral Music consists of the following areas of study: the basic DMA curriculum, course work in the major, an academic field and two elective fields.

Degree Prerequisites
DMA applicants must complete the appropriate master of music degree program or its equivalent.
Admission
Admission to Thornton programs is granted through the USC admission process. Applicants are screened by appropriate faculty selection committees. Specific entrance requirements are reviewed on an annual basis and published online at music.usc.edu.

Grade Point Average Requirements
A minimum grade point average of 3.0 (A = 4.0) is required for all graduate course units in music. A grade of B or higher is required for all courses in the major field. For courses in academic and elective fields, the minimum passing grade is C.

Transfer Credit
The Degree Progress Department in the Office of Academic Records and Registrar determines whether course work taken elsewhere is available for transfer credit. A maximum of 30 units of transfer credit may be applied toward a doctoral degree in music. Whether such credit is applicable toward a specific requirement in a major or minor field is determined by the Thornton School department in which the subject is taught, pending approval by the dean of the Thornton School. Transfer credit petitions must be filed with the Thornton doctoral adviser during the first semester in residence. Transfer work must have been completed within 10 years of admission to the DMA program to be applied toward that degree.

Residence Requirement
A minimum of two years of full-time study beyond the Master of Music degree is required for the Doctor of Musical Arts. At least one year of full-time study beyond the master's degree (6 units or more per semester) must be in residence at USC.

Time Schedule
The time limit for completing the Doctor of Musical Arts degree is eight years. For students who earned an applicable master's degree within five years prior to admission to the doctoral program, the time limit for completing the Doctor of Musical Arts degree is six years. Progress is measured from the beginning of the first course at USC applied toward the degree. Extensions will be granted by petition to the Thornton School for only the most compelling reasons.

Music Graduate Entrance Exams
All students entering a graduate-level degree program (MA, MM, DMA and PhD) at USC Thornton, who have not previously completed a degree at USC Thornton, must take a series of entrance exams in core music subjects. These exams are called Music Graduate Entrance Exams (MGEEs). Information regarding which exams are required for specific majors is available from the Thornton Student Affairs office. Also see the Thornton School of Music Admission to Graduate Standing section of this catalogue for specific policies relating to these exams.

Foreign Language
An academic reading knowledge of a language other than English is required of all Thornton doctoral students. This requirement can be met in any of the following ways:

- Completion of a prior degree, as verified on an official transcript, from an accredited institution of higher education at which the primary language of instruction is a language other than English.
- Completion of at least three semesters of college-level language instruction in a language other than English, as verified on an official transcript, at an accredited institution of higher education.
- Completion of one or more USC language course(s) (in a language other than English) as approved by the Thornton School.
- Passing a passing score on a written examination (in a language other than English) as approved by the Thornton School.

Departments within the Thornton School may require additional language skills. All language requirements must be fulfilled before entering the third semester in the program. Students who have engaged in extensive study of one or more languages other than English that does not meet this requirement as described above may request an exception.

Course Requirements
Each student is required to complete four areas of concentration: the major field, an academic field and two elective fields.

- Required courses for each major curriculum are listed in the description of major programs below. Required courses for any academic or elective field are determined for their respective fields by the faculty advisers on a student's DMA guidance committee.
- A minimum of 65 graduate units beyond the bachelor's degree are required to complete a DMA degree. Fifty-five or more units must be in music, 12 of these beyond the master's level must be in the major. At least 40 of these must be at the 500 level or higher.

All course work earned under these requirements for a doctoral degree is considered to be obsolete after 10 years from the date of completion of such work and may not be used to fulfill degree requirements.

Academic and Elective Fields
For the academic field students must choose one from Musicology, Theory and Analysis, Music Teaching and Learning, Choral Music or Sacred Music. For the elective fields students will choose two fields from among 50 possible areas, including Composition, Performance, Early Music, Jazz Studies, Music Teaching and Learning, Choral Music, Sacred Music, Conducting, Pedagogy, Electroacoustic Media, Music Industry, as well as areas outside of music. The fields comprise courses that are determined by the department in which they are administered. Eight to 10 units are taken in the academic field. Six to 8 units are taken in each elective field. The academic field may not duplicate a major or an elective field. No more than two of the four fields of concentration may be under the guidance of the same department within the Thornton School of Music, and at least one of the elective fields must culminate in a substantial written paper or examination.

Students must apply to their chosen fields. Admission to academic and elective fields is determined by the appropriate department, prior to the Graduate Committee Interview. Individualized programs of study will be created in each field in consultation with a faculty adviser in each area.

Graduate Committee Interview
Before the completion of 16 units beyond the master's degree and before permission to present the second doctoral recital is requested, doctoral students must meet with the Graduate Advisory Committee of the Thornton School of Music to discuss their progress in the program and their goals for the future. In preparation for this interview, students must prepare a dossier according to specific instructions available from the Thornton doctoral adviser. The committee determines the student's continuation in the program, and approves both the student's individualized curriculum (including all fields of concentration) and the members of his or her DMA guidance committee.

DMA Guidance Committee
The DMA guidance committee is composed of at least five members: two faculty members from the major department, one of whom will serve as chair, and a faculty member from each of the three other areas of concentration. At least three members of a committee must be full-time faculty of rank in the Thornton School. The composition of the DMA Guidance Committee is proposed and approved as part of the Graduate Committee Interview.

The guidance committee administers the written and oral parts of the comprehensive examination. The committee continues to serve until the comprehensive examination has been passed, the dissertation topic approved (if applicable) and the student is admitted to candidacy (if applicable). For students in curricula...
that require recitals, the two major field advisers serve as the recital committee and are responsible for determining the recital requirements for the fields of concentration. The recital committee must consist of at least two members who are major field advisers. The recital committee may be comprised of the student's major field advisers, the doctoral dissertation committee, the recital committee of the previous academic year, or any other combination of individuals who have expertise in the field. The recital committee must ensure that the recital requirements are met in a timely manner.

Comprehensive Examination

The comprehensive examination for the DMA is administered by the student's guidance committee. This examination consists of written and oral components and is designed to assess the student's mastery of the required components of the comprehensive examination. The examination must be completed within one month. The comprehensive examination comprises a substantial culminating work for each field of concentration, as well as an oral examination with the student's guidance committee. The culminating work for each field may be a written examination, paper, project, recital, or oral examination, as appropriate for the particular field. The comprehensive examination will not be scheduled during summer sessions except under extraordinary circumstances and only with the written approval of members of the guidance committee. All portions of the examination must be completed within one month.

The comprehensive examination is designed to assess the student's mastery of the required components of the comprehensive examination. The examination must be completed within one month. The comprehensive examination comprises a substantial culminating work for each field of concentration, as well as an oral examination with the student's guidance committee. The culminating work for each field may be a written examination, paper, project, recital, or oral examination, as appropriate for the particular field. The comprehensive examination will not be scheduled during summer sessions except under extraordinary circumstances and only with the written approval of members of the guidance committee. All portions of the examination must be completed within one month.

Admission to Candidacy

For the DMA in Choral Music, admission to candidacy occurs after the student has passed the comprehensive examination, upon formal action of the dean of the Thornton School of Music. The dissertation must be completed after admission to candidacy.

Doctoral Dissertation

A dissertation based on original investigation and/or creative work is required of candidates in Composition, Music Teaching and Learning and Choral Music. The dissertation must reveal scholarly ability, technical mastery, capacity for independent research and originality in creative thought.

Dissertation Committee

After the guidance committee recommends admission to candidacy and approves the dissertation topic, the committee is reduced to three members. This smaller committee shall be the dissertation committee and will guide the student through the completion of the dissertation. Additional members may be added at the discretion of the chair of the committee if the topic requires special expertise.

Registration for Dissertation

The student must register in 794 Dissertation each semester after admission to candidacy until degree requirements (including the dissertation) are completed. Registration for 794 in no less than two regular semesters following admission to candidacy entitles the candidate to supervision by the dissertation committee. If the dissertation is not completed and accepted within two semesters, the candidate must register for 794 each semester thereafter until the document has been accepted. No more than 8 units of credit in 794 may be accumulated regardless of the number of semesters the candidate may be required to register.

A candidate who must withdraw temporarily from registration in 794 for a semester must report this in writing to the Thornton doctoral adviser before the beginning of that semester. As part of that report, the candidate must also petition for a formal leave of absence. During a leave of absence the candidate will not be entitled to assistance from his or her dissertation committee or to the use of university services and facilities. A leave of absence will be granted only under exceptional circumstances.

Format for Theses and Dissertations

All dissertations submitted for requirements for graduate degrees must conform to university regulations in format and method of preparation. See the USC Graduate School's guidelines for Theses and Dissertations.

Abstract of Dissertation

Since the abstract of the dissertation is published in Dissertation Abstracts International, it should be written with care and be representative of the final draft of the dissertation.

Defense of the Dissertation

After meeting all requirements including the comprehensive examination, the candidate must defend the dissertation. This defense takes place in order for the committee to determine whether the dissertation should be approved or rejected. While this oral defense is open to the general university community, only the members of the dissertation committee have the authority to recommend its acceptance or rejection. The recommendation must be unanimous in order for the dissertation to be approved.

At least seven weeks before the scheduled date of the defense of the dissertation, written approval by all members of the candidate's dissertation committee, along with a typed copy of the dissertation abstract, must be filed with the doctoral adviser of the Thornton School of Music.

A candidate may defend the dissertation on the basis of an approved preliminary copy. If the defense is satisfactory and the committee is satisfied with the manuscript as presented, the committee then signs the Approval to Submit Defended and Final Copy of the Doctoral Work form. If additional work is required, the form is left unsigned until the work has been approved.

The final electronic PDF copy of the dissertation, together with signed signature sheet and approval forms, must be presented to the Thesis Editor in the USC Graduate School by the Graduate Assistant.
School's submission date and times. Approval of format and acceptance by the Graduate School must be presented to the doctoral adviser of the Thornton School of Music at least one week before the end of the semester.

Curriculum Requirements for Choral Music Major
A keyboard proficiency test will be given by the choral faculty during the student's first semester in residence to determine if additional study in keyboard is required.

Basic DMA Curriculum (20 units) - Required for All DMA Candidates
- MUCD 441 Choral Conducting II Units: 2 *
- MUCD 443 Instrumental Conducting II Units: 2
- MUCO 501 Introduction to the Analysis of Tonal Music Units: 2
- MUCO 502 Introduction to the Analysis of Post-Tonal Music Units: 2
- MTAL 505 Teaching and Learning Music Units: 2
- MUHL 570 Research Materials and Techniques Units: 2
- MUHL electives numbered 500 through 695: 6 units total
- Ensemble Units: 2 units total

Note: Courses with similar content taken for graduate credit at another accredited institution may be substituted, subject to departmental approval. Master's degree credit for ensemble taken at USC may fulfill this requirement, subject to departmental approval.

Individual Instruction, Ensembles and Performance Classes (10 units)
- Ensemble (500 level; choral music majors must participate in a choral ensemble each semester if enrolled for 4 or more units) Units: 2 units total
- MUCD 541 Choral Conducting III Units: 2
- 4 units total of MUCD 541
- MUCD 641 Choral Conducting IV Units: 2
- MUCD 653 Performance Units: 1 or 2
- 2 units total of MUCD 653

Program Intensive Courses (12 units)
- MSCR 571 Music of the Great Liturgies Units: 2
- MUCM 540 Seminar in Advanced Choral Development Units: 2
- MUCM 541 Choral Literature I Units: 2 **
- MUCM 542 Choral Literature II Units: 2 **
- MUCM 641 Choral Literature III Units: 2
- MUCC 441 Choral Arranging Units: 1, 2
- 2 units total of MUCC 441

Electives to Fulfill the Academic Field and Two Elective Fields (19 units)

Comprehensive Examinations (0 units)
Examinations that include the major area, one academic field and two elective fields.

Conduct two principal choral concerts; at least one of which will include instrumental ensemble (0 units)

Capstone Project (4 units)
- MUCM 794a Doctoral Dissertation Units: 2
- MUCM 794b Doctoral Dissertation Units: 2

Total units: 65
*Choral music majors are not required to take MUCD 441.
**May be taken as part of the master's degree.

Composition (DMA)
Overview
The DMA in Composition consists of the following areas of study: the basic DMA curriculum, course work in the major, an academic field and two elective fields.

Degree Prerequisites
DMA applicants must complete the appropriate master of music degree program or its equivalent.

Admission
Admission to Thornton programs is granted through the USC admission process. Applicants are screened by appropriate faculty selection committees. Specific entrance requirements are reviewed on an annual basis and published online at music.usc.edu.

Grade Point Average Requirements
A minimum grade point average of 3.0 (A = 4.0) is required for all graduate course units in music. A grade of B or higher is required for all courses in the major field. For courses in academic and elective fields, the minimum passing grade is C.

Transfer Credit
The Degree Progress Department in the Office of Academic Records and Registrar determines whether course work taken elsewhere is available for transfer credit. A maximum of 30 units of transfer credit may be applied toward a doctoral degree in music. Whether such credit is applicable toward a specific requirement in a major or minor field is determined by the Thornton School department in which the subject is taught, pending approval by the dean of the Thornton School. Transfer credit petitions must be filed with the Thornton doctoral adviser during the first semester in residence. Transfer work must have been completed within 10 years of admission to the DMA program to be applied toward that degree.

Residence Requirement
A minimum of two years of full-time study beyond the Master of Music degree is required for the Doctor of Musical Arts. At least one year of full-time study beyond the master's degree (6 units or more per semester) must be in residence at USC.

Time Schedule
The time limit for completing the Doctor of Musical Arts degree is eight years. For students who earned an applicable master's degree within five years prior to admission to the doctoral program, the time limit for completing the Doctor of Musical Arts degree is six years. Progress is measured from the beginning of the first course at USC applied toward the degree. Extensions will be granted by petition to the Thornton School for only the most compelling reasons.

Music Graduate Entrance Exams
All students entering a graduate-level degree program (MA, MM, DMA and PhD) at USC Thornton, who have not previously completed a degree at USC Thornton, must take a series of entrance exams in core music subjects. These exams are called Music Graduate Entrance Exams (MGEES). Information regarding which exams are required for specific majors is available from the Thornton Student Affairs office. Also see the USC Thornton School of Music Admission to Graduate Standing section of this catalogue for specific policies relating to these exams.

Foreign Language
An academic reading knowledge of a language other than English is required of all Thornton doctoral students. This requirement can be met in any of the following ways:
- Completion of a prior degree, as verified on an official transcript, from an accredited institution of higher education at which the primary language of instruction is a language other than English.
- Completion of at least three semesters of college-level language instruction in a language other than English, as verified on an official transcript, at an accredited institution of higher education.
- Completion of one or more USC language course(s) (in a language other than English) as approved by the Thornton School.
• Earning a passing score on a written examination (in a language other than English) as approved by the Thornton School.

Departments within the Thornton School may require additional language courses. All language requirements must be fulfilled before entering the third semester in the program. Students who have engaged in extensive study of one or more languages other than English that does not meet this requirement as described above may request an exception.

Course Requirements

Each student is required to complete four areas of concentration: the major field, an academic field and two elective fields.

Required courses for each major curriculum are listed in the description of major programs below. Required courses for any academic or elective field are determined for their respective fields by the faculty advisers on a student's DMA guidance committee.

A minimum of 65 graduate units beyond the bachelor's degree are required to complete a DMA degree. Fifty-five or more units must be in music, 12 of these beyond the master's level must be in the major. At least 40 of these must be at the 500 level or higher. All course work earned under these requirements for a doctoral degree is considered to be obsolete after 10 years from the date of completion of such work and may not be used to fulfill degree requirements.

Academic and Elective Fields

For the academic field students must choose one from Musicology, Theory and Analysis, Music Teaching and Learning, Choral Music or Sacred Music. For the elective fields students will choose two fields from among 50 possible areas, including Composition, Performance, Early Music, Jazz Studies, Music Teaching and Learning, Choral Music, Sacred Music, Conducting, Pedagogy, Electroacoustic Media, Music Industry, as well as areas outside of music. The fields comprise courses that are determined by the department in which they are administered. Eight to 10 units are taken in the academic field. Six to 8 units are taken in each elective field. The academic field may not duplicate a major or an elective field. No more than two of the four fields of concentration may be under the guidance of the same department within the Thornton School of Music, and at least one of the elective fields must culminate in a substantial written paper or examination. Students must apply to their chosen fields. Admission to academic and elective fields is determined by the appropriate department, prior to the Graduate Committee Interview. Individualized programs of study will be created in each field in consultation with a faculty adviser in each area.

Graduate Committee Interview

Before the completion of 16 units beyond the master's degree and before permission to present the second doctoral recital is requested, doctoral students must meet with the Graduate Advisory Committee of the Thornton School of Music to discuss their progress in the program and their goals for the future. In preparation for this interview, students must prepare a dossier according to specific instructions available from the Thornton doctoral adviser. The committee determines the student's continuation in the program, and approves both the student's individualized curriculum (including all fields of concentration) and the members of his or her DMA guidance committee.

DMA Guidance Committee

The DMA guidance committee is composed of at least five members: two faculty members from the major department, one of whom will serve as chair, and a faculty member from each of the three other areas of concentration. At least three members of a committee must be full-time faculty of rank in the Thornton School. The composition of the DMA Guidance Committee is proposed and approved as part of the Graduate Committee Interview. The guidance committee administers the written and oral parts of the comprehensive examination. The committee continues to serve until the comprehensive examination has been passed, the dissertation topic approved (if applicable) and the student is admitted to candidacy (if applicable). For students in curricula that require recitals, the two major field advisers serve as the recital committee and are responsible for determining the acceptability of the comprehensive examinations as a whole.

Comprehensive Examination

The comprehensive examination for the DMA is administered by the student's guidance committee. This examination consists of written and oral parts and is designed to assess the student's mastery of his or her fields of concentration and readiness for professional independence as a performer, composer, teacher, researcher and/or scholar. The student must obtain permission from the guidance committee to take the comprehensive examination and schedule it at least two months in advance to ensure the committee's availability. The examination must be taken after completion of all required course work for all fields of concentration, except (in some cases) a limited number of the required units in the academic field in the major field.

In degree programs that require the presentation of four major recitals, at least two major recitals must be presented prior to the administration of the comprehensive examination. Up to two required recitals may be presented after the comprehensive examination. The dissertation (if required) must be written after the comprehensive examination. Comprehensive examinations will not be scheduled during summer sessions except under extraordinary circumstances and only with the written approval of members of the guidance committee. All portions of the examination must be completed within one month.

The comprehensive examination is comprised of a substantial culminating work for each field of concentration, as well as an oral examination with the student's guidance committee. The culminating work for each field may be a written examination, paper, project or recital, as appropriate for the particular field.

For the academic field and at least one elective field, this culminating requirement must be a substantial written examination or paper. Following the successful completion of all culminating requirements and the approval of each by the corresponding faculty adviser, the student will sit for a two-hour oral examination with the guidance committee. This oral examination covers in greater depth the topics discussed in the written examinations and other requirements for the fields of concentration. The oral examination may also cover new material as determined by the guidance committee.

The two major field advisers and the academic field adviser must be present at the oral examination and render a judgment on the acceptability of the comprehensive examinations as a whole. It is highly preferable that the faculty advisers for the two elective fields participate in the oral examination with the other members of the guidance committee. If, however, there are challenges with scheduling or other issues that are reasonably unresolvable, the participation of the faculty advisers for elective fields is not required for the oral examination if they feel that the candidate has demonstrated knowledge and instruction in the major field that is appropriate for an elective field in their disciplines.

The examinations will be reported as passing if there is no more than one dissenting vote on the committee. A student must pass both the written and oral portions to pass the comprehensive examination. A pass on the examination cannot be made contingent upon any form of additional work.

If a student fails the comprehensive examination, the guidance committee may permit the student to repeat it once at a mutually satisfactory time within a period of not less than six months nor more than one year from the date of the first oral examination. A student may not take the comprehensive examination more than twice.

The comprehensive examination serves as the qualifying examination for programs that require a dissertation.
Admission to Candidacy
For the DMA in Composition, admission to candidacy occurs after the student has passed the comprehensive examination, upon formal action of the dean of the Thornton School. The dissertation must be completed after admission to candidacy.

Doctoral Dissertation
A dissertation based on original investigation and/or creative work is required of candidates in Composition, Music Teaching and Learning and Choral Music. The dissertation must reveal scholarly ability, technical mastery, capacity for independent research and originality in creative thought.

Dissertation Committee
After the guidance committee recommends admission to candidacy and approves the dissertation topic, the committee is reduced to three members. This smaller committee shall be the dissertation committee and will guide the student through the completion of the dissertation. Additional members may be added at the discretion of the chair of the committee if the topic requires special expertise.

Registration for Dissertation
The student must register in 794 Dissertation each semester after admission to candidacy until degree requirements (including the dissertation) are completed. Registration for 794 in no less than two regular semesters following admission to candidacy entitles the candidate to supervision by the dissertation committee. If the dissertation is not completed and accepted within two semesters, the candidate must register for 794 each semester thereafter until the document has been accepted. No more than 8 units of credit in 794 may be accumulated regardless of the number of semesters the candidate may be required to register.

A candidate who must withdraw temporarily from registration in 794 for a semester must report this in writing to the Thornton doctoral adviser before the beginning of that semester. As part of that report, the candidate must also petition for a formal leave of absence. During a leave of absence the candidate will not be entitled to assistance from his or her dissertation committee or to the use of university services and facilities. A leave of absence will be granted only under exceptional circumstances.

Format for Theses and Dissertations
All dissertations submitted for requirements for graduate degrees must conform to university regulations in format and method of preparation. See the USC Graduate School’s guidelines for Theses and Dissertations.

Abstract of Dissertation
Since the abstract of the dissertation is published in Dissertation Abstracts International, it should be written with care and be representative of the final draft of the dissertation.

Defense of the Dissertation
After meeting all requirements including the comprehensive examination, the candidate must defend the dissertation. This defense takes place in order for the committee to determine whether the dissertation should be approved or rejected. While this oral defense is open to the general university community, only the members of the dissertation committee have the authority to recommend its acceptance or rejection. The recommendation must be unanimous in order for the dissertation to be approved.

At least seven weeks before the scheduled date of the defense of the dissertation, written approval by all members of the candidate’s dissertation committee, along with a typed copy of the dissertation abstract, must be filed with the doctoral adviser of the Thornton School of Music.

A candidate may defend the dissertation on the basis of an approved preliminary copy. If the defense is satisfactory and the committee is satisfied with the manuscript as presented, the committee then signs the Approval to Submit Defended and Final Copy of the Doctoral Work form. Jazz Studies (DMA)

Overview
The DMA in Jazz Studies consists of the following areas of study: the basic DMA curriculum, course work in the major, an academic field and two elective fields.

Degree Prerequisites
DMA applicants must complete the appropriate master of music degree program or its equivalent.

Admission
Admission to Thornton programs is granted through the USC admission process. Applicants are screened by appropriate faculty selection committees. Specific entrance requirements are reviewed on an annual basis and published online at music.usc.edu.
Grade Point Average Requirements
A minimum grade point average of 3.0 (A = 4.0) is required for all graduate course units in music. A grade of B or higher is required for all courses in the major field. For courses in academic and elective fields, the minimum passing grade is C.

Transfer Credit
The Degree Progress Department in the Office of Academic Records and Registrar determines whether course work taken elsewhere is available for transfer credit. A maximum of 30 units of transfer credit may be applied toward a doctoral degree in music. Whether such credit is applicable toward a specific requirement in a major or minor field is determined by the Thornton School department in which the subject is taught, pending approval by the dean of the Thornton School. Transfer credit petitions must be filed with the Thornton doctoral adviser during the first semester in residence. Transfer work must have been completed within 10 years of admission to the DMA program to be applied toward that degree.

Residence Requirement
A minimum of two years of full-time study beyond the Master of Music degree is required for the Doctor of Musical Arts. At least one year of full-time study beyond the master’s degree (6 units or more per semester) must be in residence at USC.

Time Schedule
The time limit for completing the Doctor of Musical Arts degree is eight years. For students who earned an applicable master’s degree within five years prior to admission to the doctoral program, the time limit for completing the Doctor of Musical Arts degree is six years. Progress is measured from the beginning of the first course at USC applied toward the degree. Extensions will be granted by petition to the Thornton School for only the most compelling reasons.

Music Graduate Entrance Exams
All students entering a graduate-level degree program (MA, MM, DMA and PhD) at USC Thornton, who have not previously completed a degree at USC Thornton, must take a series of entrance exams in core music subjects. These exams are called Music Graduate Entrance Exams (MGEEs). Information regarding which exams are required for specific majors is available from the Thornton Student Affairs office. Also see the Thornton School of Music Admission to Graduate Standing section of this catalogue for specific policies relating to these exams.

Foreign Language
An academic reading knowledge of a language other than English is required of all Thornton doctoral students. This requirement can be met in any of the following ways:

- Completion of a prior degree, as verified on an official transcript, from an accredited institution of higher education at which the primary language of instruction is a language other than English.
- Completion of at least three semesters of college-level language instruction in a language other than English, as verified on an official transcript, from an accredited institution of higher education.
- Completion of one or more USC language course(s) (in a language other than English) as approved by the Thornton School.
- Earning a passing score on a written examination (in a language other than English) as approved by the Thornton School.

Departments within the Thornton School may require additional language skills. All language requirements must be fulfilled before entering the third semester in the program. Students who have engaged in extensive study of one or more languages other than English that do not meet this requirement as described above may request an exception.

Course Requirements
Each student is required to complete four areas of concentration: the major field, an academic field and two elective fields.

Required courses for each major curriculum are listed in the description of major programs below. Required courses for any academic or elective field are determined for their respective fields by the faculty advisers on a student’s DMA guidance committee.

A minimum of 65 graduate units beyond the bachelor’s degree are required to complete a DMA degree. Fifty-five or more units must be in music. Twelve of these must be at the 500 level or higher. All course work earned under these requirements for a doctoral degree is considered to be obsolete after 10 years from the date of completion of such work and may not be used to fulfill degree requirements.

Academic and Elective Fields
For the academic field students must choose one from Musicology, Theory and Analysis, Music Teaching and Learning, Choral Music or Sacred Music. For the elective fields students will choose two fields from among 50 possible areas, including Composition, Performance, Early Music, Jazz Studies, Music Teaching and Learning, Choral Music, Sacred Music, Conducting, Pedagogy, Electroacoustic Media, Music Industry, as well as areas outside of music. The fields comprise courses that are determined by the department in which they are administered. Eight to 10 units are taken in the academic field. Six to 8 units are taken in each elective field. The academic field may not duplicate a major or an elective field. No more than two of the four fields of concentration may be under the guidance of the same department within the Thornton School of Music, and at least one of the elective fields must culminate in a substantial written paper or examination. Students must apply to their chosen fields. Admission to academic and elective fields is determined by the appropriate department, prior to the Graduate Committee Interview. Individualized programs of study will be created in each field in consultation with a faculty adviser in each area.

Graduate Committee Interview
Before the completion of 16 units beyond the master’s degree and before permission to present the second doctoral recital is requested, doctoral students must meet with the Graduate Advisory Committee of the Thornton School of Music to discuss their progress in the program and their goals for the future. In preparation for this interview, students must prepare a dossier according to specific instructions available from the Thornton doctoral adviser. The committee determines the student’s continuation in the program, and approves both the student’s individualized curriculum (including all fields of concentration) and the members of his or her DMA guidance committee.

DMA Guidance Committee
The DMA guidance committee is composed of at least five members: two faculty members from the major department, one of whom will serve as chair, and a faculty member from each of the three other areas of concentration. At least three members of the committee must be full-time faculty of rank in the Thornton School. The composition of the DMA Guidance Committee is proposed and approved as part of the Graduate Committee Interview.

The guidance committee administers the written and oral parts of the comprehensive examination. The committee continues to serve until the comprehensive examination has been passed, the dissertation topic approved (if applicable) and the student is admitted to candidacy (if applicable). For students in curricula that require recitals, the two major field advisers serve as the recital committee and are responsible for determining the approved format, content, scheduling, and presentation of these performances for credit toward the requirements of the degree.
Comprehensive Examination

The comprehensive examination for the DMA is administered by the student's guidance committee. This examination consists of written and oral components and is designed to assess the student's mastery of his or her fields of concentration and readiness for professional independence as a performer, composer, teacher, researcher and/or scholar. The student must obtain permission from the guidance committee to take the comprehensive examination and schedule it at least two months in advance to ensure the committee's availability. The examination must be taken after completion of all required course work for all fields of concentration, except (in some cases) a limited number of the required units of Individual Instruction in the major field.

In degree programs that require the presentation of four major recitals, at least two major recitals must be presented prior to the administration of the comprehensive examination. Up to two required recitals may be presented after the comprehensive examination. The dissertation (if required) must be written after the comprehensive examination. Comprehensive examinations will not be scheduled during summer sessions except under extraordinary circumstances and only with the written approval of members of the guidance committee. All portions of the examination must be completed within one month.

The comprehensive examination is comprised of a substantial culminating work for each field of concentration, as well as an oral examination with the student's guidance committee. The culminating work for each field may be a written examination, paper, project or recital, as appropriate for the particular field. For the academic field and at least one elective field, this culminating requirement must be a substantial written examination or paper. Following the successful completion of all culminating requirements and the approval of each by the corresponding faculty adviser, the student will sit for a two-hour oral examination with the guidance committee. This oral examination covers in greater depth the topics discussed in the written examinations and other requirements for the fields of concentration. The oral examination may also cover new material as determined by the guidance committee.

The two major field advisers and the academic field adviser must be present at the oral examination and render a judgment on the acceptability of the comprehensive examinations as a whole. It is highly preferable that the faculty advisers for the two elective fields participate in the oral examination with the other members of the guidance committee. If, however, there are challenges with scheduling or other issues that are reasonably unsolvable, the participation of the faculty advisers for elective fields is not required for the oral examination if they feel that the candidate has demonstrated knowledge and mastery of material that is appropriate for an elective field in their disciplines.

The examinations will be reported as passing if there is no more than one dissenting vote on the committee. A student must pass both the written and oral portions to pass the comprehensive examination. A pass on the examination cannot be made contingent upon any form of additional work.

If a student fails the comprehensive examination, the guidance committee may permit the student to repeat it once at a mutually satisfactory time within a period of not less than six months nor more than one year from the date of the first oral examination. A student may not take the comprehensive examination more than twice.

The comprehensive examination serves as the qualifying examination for programs that require a dissertation.

Curriculum Requirements for Jazz Studies Major

Basic DMA Curriculum (20 units) - Required for All DMA Candidates

- MUAL 505 Teaching and Learning Music Units: 2
- MUCD 441 Choral Conducting II Units: 2
- MUCD 443 Instrumental Conducting II Units: 2
- MUCO 501 Introduction to the Analysis of Tonal Music Units: 2
- MUCO 502 Introduction to the Analysis of Post-Tonal Music Units: 2
- MUHL 570 Research Materials and Techniques Units: 2
- MUHL electives numbered 500 through 685: 6 units total
- Ensemble Units: 2 units total

Note: Courses with similar content taken for graduate credit at another accredited institution may be substituted, subject to departmental approval. Master's degree credit for ensemble taken at USC may fulfill this requirement, subject to departmental approval.

Individual Instruction, Ensembles and Performance Classes (12 units)

- MUEN 532 Jazz Chamber Music Units: 1
- 4 units total of MUEN 532
- MUJZ 653 Performance Units: 1 or 2
- 8 units total of MUJZ 653

Program Intensive Courses (12 units)

- MUJZ 443 Jazz Pedagogy Units: 2
- MUJZ 545 Jazz Ensemble Development Units: 2, 2 years
- MUJZ 547 Jazz Composition Units: 2
- 4 units total of MUJZ 547
- MUJZ 688 Special Topics in Jazz Performance Units: 2
- 4 units total of MUJZ 688

Electives to Fulfill the Academic Field and Two Elective Fields (21 units)

Comprehensive Examinations (0 units)

Examinations that include the major area, one academic field and two elective fields.

Recitals (0 units)

- Two recitals of original compositions and arrangements written while in the DMA program Units: 0
- Lecture-recital in conjunction with an appropriate research project Units: 0

Total units: 65

Music, Historical Musicology Emphasis, (PhD)

The Doctor of Philosophy degree with a major in music is granted by the Graduate School. Candidates for the PhD in music should also refer to the Graduate School section of this catalogue for general regulations.

A substantial background in music and liberal arts is required. Graduate course requirements for the PhD are adapted to the needs and research interests of the individual student. A minimum of 60 post-baccalaureate units is required.

Foreign Language Requirements

Students are required to demonstrate a reading knowledge by passing an examination in German and one other foreign language chosen by the student from among French, Italian or Latin. With the permission of the chair of the qualifying exam committee, a foreign language relevant to the dissertation may be chosen in place of French, Italian or Latin. The language requirement for the MA degree may be applied toward the PhD Doctoral language requirements should be passed as early as possible, but, at latest, during the fourth semester of course work.

Screening Procedure

Before the completion of 24 units of graduate work at USC and with the approval of the department chair, students must be interviewed by the curriculum committee of the School of Music. Continuance in course work will be contingent upon approval of the committee. PhD candidates in musicology who did not receive an MA degree from USC must take the MA comprehensive examination in historical musicology prior to the interview. Continuance in course work will be contingent upon passing these examinations.
Historical Musicology Emphasis
Requirements
• MUHL 570 Research Materials and Techniques Units: 2
Courses selected from:
• MUHL 579 Studies in Music History Units: 4
• MUHL 600–699
Total units: 12
Electives in history, language, literature or arts other than music
Total units: 8
Courses drawn from:
• MUHL 500–699
• MUCO 501 Introduction to the Analysis of Tonal Music Units: 2
• MUCO 502 Introduction to the Analysis of Post-Tonal Music Units: 2
Total units: 10
Electives in music, letters, arts and sciences
Total units: 24
Dissertation
• MUHL 794a Doctoral Dissertation Units: 2
• MUHL 794b Doctoral Dissertation Units: 2
Total units: 4
Total units: 60

Performance - Organ, Percussion or Winds (DMA)
Overview
The DMA in Performance - Organ, Percussion or Winds consists of the following areas of study: the basic DMA curriculum, course work in the major, an academic field and two elective fields.
Degree Prerequisites
DMA applicants must complete the appropriate master of music degree program or its equivalent.
Admission
Admission to Thornton programs is granted through the USC admission process. Applicants are screened by appropriate faculty selection committees. Specific entrance requirements are reviewed on an annual basis and published online at music.usc.edu.
Grade Point Average Requirements
A minimum grade point average of 3.0 (A = 4.0) is required for all graduate course units in music. A grade of B or higher is required for all courses in the major field. For courses in academic and elective fields, the minimum passing grade is C.
Transfer Credit
The Degree Progress Department in the Office of Academic Records and Registrar determines whether course work taken elsewhere is available for transfer credit. A maximum of 30 units of transfer credit may be applied toward a doctoral degree in music. Whether such credit is applicable toward a specific requirement in a major or minor field is determined by the Thornton School department in which the subject is taught, pending approval by the dean of the Thornton School. Transfer credit petitions must be filed with the Thornton doctoral adviser during the first semester in residence. Transfer work must have been completed within 10 years of admission to the DMA program to be applied toward that degree.
Residence Requirement
A minimum of two years of full-time study beyond the Master of Music degree is required for the Doctor of Musical Arts. At least one year of full-time study beyond the master's degree (6 units or more per semester) must be in residence at USC.

Time Schedule
The time limit for completing the Doctor of Musical Arts degree is eight years. For students who earned an applicable master's degree within five years prior to admission to the doctoral program, the time limit for completing the Doctor of Musical Arts degree is six years. Progress is measured from the beginning of the first course at USC applied toward the degree. Extensions will be granted by petition to the Thornton School for only the most compelling reasons.

Music Graduate Entrance Exams
All students entering a graduate-level degree program (MA, MM, DMA and PhD) at USC Thornton, who have not previously completed a degree at USC Thornton, must take a series of entrance exams in core music subjects. These exams are called Music Graduate Entrance Exams (MGEEs). Information regarding which exams are required for specific majors is available from the Thornton Student Affairs office. Also see the Thornton School of Music Admission to Graduate Standing section of this catalogue for specific policies relating to these exams.

Foreign Language
An academic reading knowledge of a language other than English is required of all Thornton doctoral students. This requirement can be met in any of the following ways:
• Completion of a prior degree, as verified on an official transcript, from an accredited institution of higher education at which the primary language of instruction is a language other than English.
• Completion of at least three semesters of college-level language instruction in a language other than English, as verified on an official transcript, at an accredited institution of higher education.
• Completion of one or more USC language course(s) (in a language other than English) as approved by the Thornton School.
• Earning a passing score on a written examination (in a language other than English) as approved by the Thornton School.

Departments within the Thornton School may require additional language skills. All language requirements must be fulfilled before entering the third semester in the program. Students who have engaged in extensive study of one or more languages other than English that does not meet this requirement as described above may request an exception.

Course Requirements
Each student is required to complete four areas of concentration: the major field, an academic field and two elective fields.

Required courses for each major curriculum are listed in the description of major programs below. Required courses for any academic or elective field are determined for their respective fields by the faculty advisers on a student's DMA guidance committee.

A minimum of 65 graduate units beyond the bachelor's degree are required to complete a DMA degree. Fifty-five or more units must be in music, 12 of these beyond the master's level must be in the major. At least 40 of these must be at the 500 level or higher. All course work earned under these requirements for a doctoral degree is considered to be obsolete after 10 years from the date of completion of such work and may not be used to fulfill degree requirements.

Academic and Elective Fields
For the academic field students must choose one from Musicology, Theory and Analysis, Music Teaching and Learning, Choral Music or Sacred Music. For the elective fields students will choose two fields from among 50 possible areas, including Composition, Performance, Early Music, Jazz Studies, Music Teaching and Learning, Choral Music, Sacred Music, Conducting, Pedagogy, Electroacoustic Media, Music Industry, as well as areas outside of music. The fields comprise courses that are determined...
by the department in which they are administered. Eight to 10 units are taken in the academic field. Six to 8 units are taken in each elective field. The academic field may not duplicate a major or an elective field. No more than two of the four fields of concentration may be under the guidance of the same department within the Thornton School of Music, and at least one of the elective fields must culminate in a substantial written paper or examination. Students must apply to their chosen fields. Admission to academic and elective fields is determined by the appropriate department, prior to the Graduate Committee Interview. Individualized programs of study will be created in each field in consultation with a faculty adviser in each area.

Graduate Committee Interview
Before the completion of 16 units beyond the master’s degree and before permission to present the second doctoral recital is requested, doctoral students must meet with the Graduate Advisory Committee of the Thornton School of Music to discuss their progress in the program and their goals for the future. In preparation for this interview, students must prepare a dossier according to specific instructions available from the Thornton doctoral adviser. The committee determines the student’s continuation in the program, and approves both the student’s individualized curriculum (including all fields of concentration) and the members of his or her DMA guidance committee.

DMA Guidance Committee
The DMA guidance committee is composed of at least five members: two faculty members from the major department, one of whom will serve as chair, and a faculty member from each of the three other areas of concentration. At least three members of a committee must be full-time faculty of rank in the Thornton School. The composition of the DMA Guidance Committee is proposed and approved as part of the Graduate Committee Interview.

The guidance committee administers the written and oral parts of the comprehensive examination. The committee continues to serve until the comprehensive examination has been passed, the dissertation topic approved (if applicable) and the student is admitted to candidacy (if applicable). For students in curricula that require recitals, the two major field advisers serve as the recital committee and are responsible for determining the approved format, content, scheduling, and presentation of these performances for credit toward the requirements of the degree.

Comprehensive Examination
The comprehensive examination for the DMA is administered by the student’s guidance committee. This examination consists of written and oral components and is designed to assess the student’s mastery of his or her fields of concentration and readiness for professional independence as a performer, composer, teacher, researcher and/or scholar. The student must obtain permission from the guidance committee to take the comprehensive examination and schedule it at least two months in advance to ensure the committee’s availability. The examination must be taken after completion of all required course work for all fields of concentration, except (in some cases) a limited number of the required units of Individual Instruction in the major field. In degree programs that require the presentation of four major recitals, at least two major recitals must be presented prior to the administration of the comprehensive examination. Up to two required recitals may be presented after the comprehensive examination. The dissertation (if required) must be written after the comprehensive examination. Comprehensive examinations will not be scheduled during summer sessions except under extraordinary circumstances and only with the written approval of members of the guidance committee. All portions of the examination must be completed within one month.

The comprehensive examination is comprised of a substantial culminating work for each field of concentration, as well as an oral examination with the student’s guidance committee. The culminating work for each field may be a written examination, paper, project or recital, as appropriate for the particular field. For the academic field and at least one elective field, this culminating requirement must be a substantial written examination or paper. Following the successful completion of all culminating requirements and the approval of each by the corresponding faculty adviser, the student will sit for a two-hour oral examination with the guidance committee. This oral examination covers in greater depth the topics discussed in the written examinations and other requirements for the fields of concentration. The oral examination may also cover new material as determined by the guidance committee.

The two major field advisers and the academic field adviser must be present at the oral examination and render a judgment on the acceptability of the comprehensive examinations as a whole. It is highly preferable that the faculty advisers for the two elective fields participate in the oral examination with the other members of the guidance committee. If, however, there are challenges with scheduling or other issues that are reasonably unresolvable, the participation of the faculty advisers for elective fields is not required for the oral examination if they feel that the candidate has demonstrated knowledge and mastery of material that is appropriate for an elective field in their disciplines.

The examinations will be reported as passing if there is no more than one dissenting vote on the committee. A student must pass both the written and oral portions to pass the comprehensive examination. A pass on the examination cannot be made contingent upon any form of additional work.

If a student fails the comprehensive examination, the guidance committee may permit the student to repeat it once at a mutually satisfactory time within a period of not less than six months nor more than one year from the date of the first oral examination. A student may not take the comprehensive examination more than twice.

The comprehensive examination serves as the qualifying examination for programs that require a dissertation.

Curriculum Requirements for Performance
Major - Organ, Percussion or Winds
It is the objective of the performance curriculum to combine high standards of performance with intellectual accomplishments appropriate to a university degree. Candidates electing this major must present at least four major public appearances: two solo recitals and two other appropriate appearances. The exact format, content and scheduling of the four appearances are the responsibility of the candidate’s faculty advisers for the major field of study.

Basic DMA Curriculum (20 units) - Required for All DMA Candidates
- MTAL 505 Teaching and Learning Music Units: 2
- MUCD 441 Choral Conducting II Units: 2
- MUCD 443 Instrumental Conducting II Units: 2
- MUCO 501 Introduction to the Analysis of Tonal Music Units: 2
- MUCO 502 Introduction to the Analysis of Post-Tonal Music Units: 2
- MUHL 570 Research Materials and Techniques Units: 2
- MUHL electives numbered 500 through 695: 6 units total
- Ensemble Units: 2 units total

Note: Courses with similar content taken for graduate credit at another accredited institution may be substituted, subject to departmental approval. Master's degree credit for ensemble taken at USC may fulfill this requirement, subject to departmental approval.

Individual Instruction (12 units)
- Individual instruction 653 (takd organ, percussion or winds for a maximum of 12 units): 12 units total in your primary instrument

Electives to Fulfill the Academic Field and Two Elective Fields (33 units)
Comprehensive Examinations (0 units)
Examinations which include the major area, one academic field, and two elective fields.
Admission to Graduate Standing
Music
Thornton Student Affairs office. Also see the Thornton School of entrance exams in core music subjects. These exams are called MM, DMA and PhD) at USC Thornton, who have not previously Music Graduate Entrance Exams compelling reasons.

is six years. Progress is measured from the beginning of the is eight years. For students who earned an applicable master's Degree Prerequisites
DMA applicants must complete the appropriate master of music degree program or its equivalent.

Admission
Division is the primary language of instruction at which the primary language of instruction is a language other than English.

Completion of one or more USC language course(s) (in a language other than English) as approved by the Thornton School.

Transferring Work
Transfer work must have been completed within 10 years of admission to the DMA program to be applied toward that degree.

Residence Requirement
A minimum of two years of full-time study beyond the Master of Music degree is considered to be obsolete after 10 years from the date of completion of such work and may not be used to fulfill degree requirements.

Academic and Elective Fields
For the academic field students must choose one from Musicology, Theory and Analysis, Music Teaching and Learning, Choral Music or Sacred Music. For the elective fields students must choose two fields from among 50 possible areas, including Composition, Performance, Early Music, Jazz Studies, Music Teaching and Learning, Choral Music, Sacred Music, Conducting, Pedagogy, Electroacoustic Media, Music Industry, as well as areas outside of music. In preparation for this interview, students must prepare a dossier according to specific instructions available from the Thornton

Recitals (0 units)
• Two solo recitals and two other appropriate performances
Units: 0

Total Units: 65
Majors in percussion and winds must participate in a large ensemble each semester if enrolled in 4 or more units.

Performance - Violin, Viola, Violoncello,
Double Bass or Harp (DMA)
Overview
The DMA in Performance - Violin, Viola, Violoncello, Double Bass or Harp consists of the following areas of study: the basic DMA curriculum, course work in the major, an academic field and two elective fields.

Grade Point Average Requirements
A minimum grade point average of 3.0 (A = 4.0) is required for all graduate course units in music. A grade of B or higher is required for all courses in the major field. For courses in academic and elective fields, the minimum passing grade is C.

Transfer Credit
The Degree Progress Department in the Office of Academic Records and Registrar determines whether course work taken elsewhere is available for transfer credit. A maximum of 30 units of transfer credit may be applied toward a doctoral degree in music. Whether such credit is applicable toward a specific requirement in a major or minor field is determined by the Thornton School department in which the subject is taught, pending approval by the dean of the Thornton School. Transfer credit petitions must be filed with the Thornton doctoral adviser during the first semester in residence. Transfer work must have been completed within 10 years of admission to the DMA program to be applied toward that degree.

Course Requirements
Each student is required to complete four areas of concentration: the major field, an academic field and two elective fields.

Required courses for each major curriculum are listed in the description of major programs below. Required courses for any academic or elective field are determined for their respective fields by the faculty advisers on a student's DMA guidance committee.

A minimum of 65 graduate units beyond the bachelor's degree are required to complete a DMA degree. Fifty-five or more units must be in music, 12 of these beyond the master's level must be in the major. At least 40 of these must be at the 500 level or higher. All course work earned under these requirements for a doctoral degree is considered to be obsolete after 10 years from the date of completion of such work and may not be used to fulfill degree requirements.

Academic and Elective Fields
For the academic field students must choose one from Musicology, Theory and Analysis, Music Teaching and Learning, Choral Music or Sacred Music. For the elective fields students must choose two fields from among 50 possible areas, including Composition, Performance, Early Music, Jazz Studies, Music Teaching and Learning, Choral Music, Sacred Music, Conducting, Pedagogy, Electroacoustic Media, Music Industry, as well as areas outside of music. The fields comprise courses that are determined by the department in which they are administered. Eight to 10 units are taken in the academic field. Six to 8 units are taken in each elective field. The academic field may not duplicate a major or an elective field. No more than two of the four fields of concentration may be under the guidance of the same department within the Thornton School of Music, and at least one of the elective fields must culminate in a substantial written paper or examination. Students must apply to their chosen fields. Admission to academic and elective fields is determined by the appropriate department, prior to the Graduate Committee Interview. Individualized programs of study will be created in each field in consultation with a faculty adviser in each area.

Foreign Language
An academic reading knowledge of a language other than English is required of all Thornton doctoral students. This requirement can be met in any of the following ways:

• Completion of a prior degree, as verified on an official transcript, from an accredited institution of higher education at which the primary language of instruction is a language other than English.

• Completion of at least three semesters of college-level language instruction in a language other than English, as verified on an official transcript, at an accredited institution of higher education.

• Completion of one or more USC language course(s) (in a language other than English) as approved by the Thornton School.

Departments within the Thornton School may require additional language skills. All language requirements must be fulfilled before entering the third semester in the program. Students who have engaged in extensive study of one or more languages other than English that does not meet this requirement as described above may request an exception.

Residence Requirement
A minimum of two years of full-time study beyond the Master of Music degree is required for the Doctor of Musical Arts. At least one year of full-time study beyond the master's degree (6 units or more per semester) must be in residence at USC.

Time Schedule
The time limit for completing the Doctor of Musical Arts degree is eight years. For students who earned an applicable master's degree within five years prior to admission to the doctoral program, the time limit for completing the Doctor of Musical Arts degree is six years. Progress is measured from the beginning of the first course at USC applied toward the degree. Extensions will be granted by petition to the Thornton School for only the most compelling reasons.

Music Graduate Entrance Exams
All students entering a graduate-level degree program (MA, MM, DMA and PhD) at USC Thornton, who have not previously completed a degree at USC Thornton, must take a series of entrance exams in core music subjects. These exams are called Music Graduate Entrance Exams (MGEEs). Information regarding which exams are required for specific majors is available from the Thornton Student Affairs office. Also see the Thornton School of Music Admission to Graduate Standing section of this catalogue for specific policies relating to these exams.
doctoral adviser. The committee determines the student's continuation in the program, and approves both the student's individualized curriculum (including all fields of concentration) and the members of his or her DMA guidance committee.

DMA Guidance Committee
The DMA guidance committee is composed of at least five members: two faculty members from the major department, one of whom will serve as chair, and a faculty member from each of the three other areas of concentration. At least three members of a committee must be full-time faculty of rank in the Thornton School. The composition of the DMA Guidance Committee is proposed and approved as part of the Graduate Committee Interview.

The guidance committee administers the written and oral parts of the comprehensive examination. The committee continues to serve until the comprehensive examination has been passed, the dissertation topic approved (if applicable) and the student is admitted to candidacy (if applicable). For students in curricula that require recitals, the two major field advisers serve as the recital committee and are responsible for determining the approved format, content, scheduling, and presentation of these performances for credit toward the requirements of the degree.

Comprehensive Examination
The comprehensive examination for the DMA is administered by the student's guidance committee. This examination consists of written and oral components and is designed to assess the student's mastery of his or her fields of concentration and readiness for professional independence as a performer, composer, teacher, researcher and/or scholar. The student must obtain permission from the guidance committee to take the comprehensive examination and schedule it at least two months in advance to ensure the committee's availability. The examination must be taken after completion of all required course work for all fields of concentration, except (in some cases) a limited number of the required units of Individual Instruction in the major field. In degree programs that require the presentation of four major recitals, at least two major recitals must be presented prior to the administration of the comprehensive examination. Up to two required recitals may be presented after the comprehensive examination. The dissertation (if required) must be written after the comprehensive examination. Comprehensive examinations will not be scheduled during summer sessions except under extraordinary circumstances and only with the written approval of members of the guidance committee. All portions of the examination must be completed within one month.

The comprehensive examination is comprised of a substantial culminating work for each field of concentration, as well as an oral examination with the student's guidance committee. The culminating work for each field may be a written examination, paper, project or recital, as appropriate for the particular field. For the academic field and at least one elective field, this culminating requirement must be a substantial written examination or paper. Following the successful completion of all culminating requirements and the approval of each by the corresponding faculty adviser, the student will sit for a two-hour oral examination with the guidance committee. This oral examination covers in greater depth the topics discussed in the written examinations and other requirements for the fields of concentration. The oral examination may also cover new material as determined by the guidance committee.

The two major field advisers and the academic field adviser must be present at the oral examination and render a judgment on the acceptability of the comprehensive examinations as a whole. It is highly preferable that the faculty advisers for the two elective fields participate in the oral examination with the other members of the guidance committee. If, however, there are challenges with scheduling or other issues that are reasonably unresolvable, the participation of the faculty advisers for elective fields is not required for the oral examination if they feel that the candidate has demonstrated knowledge and mastery of material that is appropriate for an elective field in their disciplines.

The examinations will be reported as passing if there is no more than one dissenting vote on the committee. A student must pass both the written and oral portions to pass the comprehensive examination. A pass on the examination cannot be made contingent upon any form of additional work.

If a student fails the comprehensive examination, the guidance committee may permit the student to repeat it once at a mutually satisfactory time within a period of not less than six months nor more than one year from the date of the first oral examination. A student may not take the comprehensive examination more than twice.

The comprehensive examination serves as the qualifying examination for programs that require a dissertation.

Curriculum Requirements for Performance Major - Violin, Viola, Violoncello or Harp
It is the objective of the performance curriculum to combine high standards of performance with intellectual accomplishments appropriate to a university degree. Candidates electing this major must present at least four major public appearances: two solo recitals and two other appropriate appearances. The exact format, content and scheduling of the four appearances are the responsibility of the candidate's faculty advisers for the major field of study.

Basic DMA Curriculum (20 units) - Required for All DMA Candidates
- MTAL 505 Teaching and Learning Music Units: 2
- MUCD 441 Choral Conducting II Units: 2
- MUCD 443 Instrumental Conducting II Units: 2
- MUCO 501 Introduction to the Analysis of Tonal Music Units: 2
- MUCO 502 Introduction to the Analysis of Post-Tonal Music Units: 2
- MUHL 570 Research Materials and Techniques Units: 2
- MUHL electives numbered 500 through 695: 6 units total
- Ensemble Units: 2 units total

Note:
Courses with similar content taken for graduate credit at another accredited institution may be substituted, subject to departmental approval. Master's degree credit for ensemble taken at USC may fulfill this requirement, subject to departmental approval.

Individual Instruction (12 units)
- MPST 653 Performance Units: 1 or 2
- 12 units total of MPST 653 in your primary instrument

Ensembles (4 units)
- MUEN 527 String Chamber Music Units: 1
- 4 units total of MUEN 527

Electives to Fulfill the Academic Field and Two Elective Fields (29 units)

Comprehensive Examinations (0 units)
Examinations which include the major area, one academic field, and two elective fields.

Recitals (0 units)
- Two solo recitals and two other appropriate performances
  Units: 0

Total Units: 65

Majors in strings must participate in a large ensemble each semester if enrolled in four or more units.

Curriculum Requirements for Performance Major - Double Bass
It is the objective of the performance curriculum to combine high standards of performance with intellectual accomplishments appropriate to a university degree. Candidates electing this major must present at least four major public appearances: two solo recitals and two other appropriate appearances. The exact format, content and scheduling of the four appearances are the responsibility of the candidate's faculty advisers for the major field of study.
Basic DMA Curriculum (20 units) - Required for All DMA Candidates

- MTAL 505 Teaching and Learning Music Units: 2
- MUCD 441 Choral Conducting II Units: 2
- MUCD 443 Instrumental Conducting II Units: 2
- MUCO 501 Introduction to the Analysis of Tonal Music Units: 2
- MUCO 502 Introduction to the Analysis of Post-Tonal Music Units: 2
- MUHL 570 Research Materials and Techniques Units: 2
- MUHL electives numbered 500 through 695: 6 units total
- Ensemble Units: 2 units total

Note:
Courses with similar content taken for graduate credit at another accredited institution may be substituted, subject to departmental approval. Master's degree credit for ensemble taken at USC may fulfill this requirement, subject to departmental approval.

Individual Instruction (12 units)
- MPST 653 Performance Units: 1 or 2
- 12 units total of MPST 653 (Double Bass)

Electives to Fulfill the Academic Field and Two Elective Fields (33 units)

Comprehensive Examinations (0 units)
Examinations which include the major area, one academic field, and two elective fields.

Recitals (0 units)
- Two solo recitals and two other appropriate performances

Total Units: 65

Majors in strings must participate in a large ensemble each semester if enrolled in four or more units.

Performance - Vocal Arts (DMA)

Overview
The DMA in Performance - Vocal Arts consists of the following areas of study: the basic DMA curriculum, course work in the major, an academic field and two elective fields.

Degree Prerequisites
DMA applicants must complete the appropriate master of music degree program or its equivalent.

Admission
Admission to Thornton programs is granted through the USC admission process. Applicants are screened by appropriate faculty selection committees. Specific entrance requirements are reviewed on an annual basis and published online at music.usc.edu.

Grade Point Average Requirements
A minimum grade point average of 3.0 (A = 4.0) is required for all graduate course units in music. A grade of B or higher is required for all courses in the major field. For courses in academic and elective fields, the minimum passing grade is C.

Transfer Credit
The Degree Progress Department in the Office of Academic Records and Registrar determines whether course work taken elsewhere is available for transfer credit. A maximum of 30 units of transfer credit may be applied toward a doctoral degree in music. Whether such credit is applicable toward a specific requirement in a major or minor field is determined by the Thornton School department in which the subject is taught, pending approval by the dean of the Thornton School. Transfer credit petitions must be filed with the Thornton doctoral adviser during the first semester in residence. Transfer work must have been completed within 10 years of admission to the DMA program to be applied toward that degree.

Residence Requirement
A minimum of two years of full-time study beyond the Master of Music degree is required for the Doctor of Musical Arts. At least one year of full-time study beyond the master's degree (6 units or more per semester) must be in residence at USC.

Time Schedule
The time limit for completing the Doctor of Musical Arts degree is eight years. For students who earned an applicable master's degree within five years prior to admission to the doctoral program, the time limit for completing the Doctor of Musical Arts degree is six years. Progress is measured from the beginning of the first course at USC applied toward the degree. Extensions will be granted by petition to the Thornton School for only the most compelling reasons.

Music Graduate Entrance Exams
All students entering a graduate-level degree program (MA, MM, DMA and PhD) at USC Thornton, who have not previously completed a degree at USC Thornton, must take a series of entrance exams in core music subjects. These exams are called Music Graduate Entrance Exams (MGEEs). Information regarding which exams are required for specific majors is available from the Thornton Student Affairs office. Also see the USC Thornton School of Music Admission to Graduate Standing section of this catalogue for specific policies relating to these exams.

Foreign Language
An academic reading knowledge of a language other than English is required of all Thornton doctoral students. This requirement can be met in any of the following ways:

- Completion of a prior degree, as verified on an official transcript, from an accredited institution of higher education at which the primary language of instruction is a language other than English.
- Completion of at least three semesters of college-level language instruction in a language other than English, as verified on an official transcript, at an accredited institution of higher education.
- Completion of one or more USC language course(s) (in a language other than English) as approved by the Thornton School.
- Earning a passing score on a written examination (in a language other than English) as approved by the Thornton School.

Departments within the Thornton School may require additional language skills. All language requirements must be fulfilled before entering the third semester in the program. Students who have engaged in extensive study of one or more languages other than English that does not meet this requirement as described above may request an exception.

Course Requirements
Each student is required to complete four areas of concentration: the major field, an academic field and two elective fields.

Required courses for each major curriculum are listed in the description of major programs below. Required courses for any academic or elective field are determined for their respective fields by the faculty advisers on a student's DMA guidance committee.

A minimum of 65 graduate units beyond the bachelor's degree are required to complete a DMA degree. Fifty-five or more units must be in music, 12 of these beyond the master's level must be in the major. At least 40 of these must be at the 500 level or higher. All course work earned under these requirements for a doctoral degree is considered to be obsolete after 10 years from the date of completion of such work and may not be used to fulfill degree requirements.

Academic and Elective Fields
For the academic field students must choose one from Musicology, Theory and Analysis, Music Teaching and Learning, Choral Music or Sacred Music. For the elective fields students
will choose two fields from among 50 possible areas, including Composition, Performance, Early Music, Jazz Studies, Music Teaching and Learning, Choral Music, Sacred Music, Conducting, Pedagogy, Electroacoustic Media, Music Industry, as well as areas outside of music. The fields comprise courses that are determined by the department in which they are administered. Eight to 10 units are taken in the academic field. Six to 8 units are taken in each elective field. The academic field may not duplicate a major or an elective field. No more than two of the four fields of concentration may be under the guidance of the same department within the Thornton School of Music, and at least one of the elective fields must culminate in a substantial written paper or examination. Students must apply to their chosen fields. Admission to academic and elective fields is determined by the appropriate department, prior to the Graduate Committee Interview. Individualized programs of study will be created in each field in consultation with a faculty adviser in each area.

Graduate Committee Interview
Before the completion of 16 units beyond the master's degree and before permission to present the second doctoral recital is requested, doctoral students must meet with the Graduate Advisory Committee of the Thornton School of Music to discuss their progress in the program and their goals for the future. In preparation for this interview, students must prepare a dossier according to specific instructions available from the Thornton doctoral adviser. The committee determines the student's continuation in the program, and approves both the student's individualized curriculum (including all fields of concentration) and the members of his or her DMA guidance committee.

DMA Guidance Committee
The DMA guidance committee is composed of at least five members: two faculty members from the major department, one of whom will serve as chair, and a faculty member from each of the three other areas of concentration. At least three members of a committee must be full-time faculty of rank in the Thornton School. The composition of the DMA Guidance Committee is proposed and approved as part of the Graduate Committee Interview.

The guidance committee administers the written and oral parts of the comprehensive examination. The committee continues to serve until the comprehensive examination has been passed, the dissertation topic approved (if applicable) and the student is admitted to candidacy (if applicable). For students in curricula that require recitals, the two major field advisers serve as the recital committee and are responsible for determining the approved format, content, scheduling, and presentation of these performances for credit toward the requirements of the degree.

Comprehensive Examination
The comprehensive examination for the DMA is administered by the student's guidance committee. This examination consists of written and oral components and is designed to assess the student's mastery of his or her fields of concentration and readiness for professional independence as a performer, composer, teacher, researcher and/or scholar. The student must obtain permission from the guidance committee to take the comprehensive examination and schedule it at least two months in advance to ensure the committee's availability. The examination must be taken after completion of all required course work for all fields of concentration, except (in some cases) a limited number of the required units of Individual Instruction in the major field. In degree programs that require the presentation of four major recitals, at least two major recitals must be presented prior to the administration of the comprehensive examination. Up to two required recitals may be presented after the comprehensive examination. The dissertation (if required) must be written after the comprehensive examination. Comprehensive examinations will not be scheduled during summer sessions except under extraordinary circumstances and only with the written approval of members of the guidance committee. All portions of the examination must be completed within one month.

The comprehensive examination is comprised of a substantial culminating work for each field of concentration, as well as an oral examination with the student's guidance committee. The culminating work for each field may be a written examination, paper, project or recital, as appropriate for the particular field. For students in academic field and at least one elective field, this culminating requirement must be a substantial written examination or paper. Following the successful completion of all culminating requirements and the approval of each by the corresponding faculty adviser, the student will sit for a two-hour oral examination with the guidance committee. This oral examination covers in greater depth the topics discussed in the written examinations and other requirements for the fields of concentration. The oral examination may also cover new material as determined by the guidance committee.

The two major field advisers and the academic field adviser must be present at the oral examination and render a judgment on the acceptability of the comprehensive examinations as a whole. It is highly preferable that the faculty advisers for the two elective fields participate in the oral examination with the other members of the guidance committee. If, however, there are challenges with scheduling or other issues that are reasonably unresolvable, the participation of the faculty adviser for elective fields is not required for the oral examination if they feel that the candidate has demonstrated knowledge and mastery of material that is appropriate for an elective field in their disciplines.

The examinations will be reported as passing if there is no more than one dissenting vote on the committee. A student must pass both the written and oral portions to pass the comprehensive examination. A pass on the examination cannot be made contingent upon any form of additional work.

If a student fails the comprehensive examination, the guidance committee may permit the student to repeat it once at a mutually satisfactory time within a period of not less than six months nor more than one year from the date of the first oral examination. A student may not take the comprehensive examination more than twice.

The comprehensive examination serves as the qualifying examination for programs that require a dissertation.

Curriculum Requirements for Performance Major - Vocal Arts
It is the objective of the performance curriculum to combine high standards of performance with intellectual accomplishments appropriate to a university degree. Candidates electing this major must present at least four major public appearances: two solo recitals and two other appropriate appearances. The exact format, content and scheduling of the four appearances are the responsibility of the candidate’s faculty advisers for the major field of study.

Basic DMA Curriculum (20 units) - Required for All DMA Candidates
- MTAL 505 Teaching and Learning Music Units: 2
- MUCD 441 Choral Conducting II Units: 2
- MUCD 443 Instrumental Conducting II Units: 2
- MUCO 501 Introduction to the Analysis of Tonal Music Units: 2
- MUCO 502 Introduction to the Analysis of Post-Tonal Music Units: 2
- MUHL 570 Research Materials and Techniques Units: 2
- MUHL electives numbered 500 through 695: 6 units total
- Ensemble Units: 2 units total

Note: Courses with similar content taken for graduate credit at another accredited institution may be substituted, subject to departmental approval. Master's degree credit for ensemble taken at USC may fulfill this requirement, subject to departmental approval.

Individual Instruction (12 units)
- MPVA 653 Individual Instruction Units: 1 or 2
- 12 units total of MPVA 653 (Voice)
Program Intensive Courses (2 units)
• MPVA 541 Advanced Vocoology

Electives to Fulfill the Academic Field and Two Elective Fields (31 units)

Comprehensive Examinations (0 units)
Examinations which include the major area, one academic field, and two elective fields.

Recitals (0 units)
• Two solo recitals and two other appropriate performances
  Units: 0

Total Units: 65

Performance — Classical Guitar (DMA)

Overview
The DMA in Classical Guitar consists of the following areas of study: the basic DMA curriculum, course work in the major, an academic field and two elective fields.

Degree Prerequisites
DMA applicants must complete the appropriate master of music degree program or its equivalent.

Admission
Admission to Thornton programs is granted through the USC admission process. Applicants are screened by appropriate faculty selection committees. Specific entrance requirements are reviewed on an annual basis and published online at music.usc.edu.

Grade Point Average Requirements
A minimum grade point average of 3.0 (A = 4.0) is required for all graduate course units in music. A grade of B or higher is required for all courses in the major field. For courses in academic and elective fields, the minimum passing grade is C.

Transfer Credit
The Degree Progress Department in the Office of Academic Records and Registrar determines whether course work taken elsewhere is available for transfer credit. A maximum of 30 units of transfer credit may be applied toward a doctoral degree in music. Whether such credit is applicable toward a specific requirement in a major or minor field is determined by the Thornton School department in which the subject is taught, pending approval by the dean of the Thornton School. Transfer credit petitions must be filed with the Thornton doctoral adviser during the first semester in residence. Transfer work must have been completed within 10 years of admission to the DMA program to be applied toward that degree.

Residence Requirement
A minimum of two years of full-time study beyond the Master of Music degree is required for the Doctor of Musical Arts. At least one year of full-time study beyond the master's degree (6 units or more per semester) must be in residence at USC.

Time Schedule
The time limit for completing the Doctor of Musical Arts degree is eight years. For students who earned an applicable master's degree within five years prior to admission to the doctoral program, the time limit for completing the Doctor of Musical Arts degree is six years. Progress is measured from the beginning of the first course at USC applied toward the degree. Extensions will be granted by petition to the Thornton School for only the most compelling reasons.

Music Graduate Entrance Exams
All students entering a graduate-level degree program (MA, MM, DMA and PhD) at USC Thornton, who have not previously completed a degree at USC Thornton, must take a series of entrance exams in core music subjects. These exams are called Music Graduate Entrance Exams (MGEEs). Information regarding which exams are required for specific majors is available from the Thornton Student Affairs office. Also see the Thornton School of Music Admission to Graduate Standing section of this catalogue for specific policies relating to these exams.

Foreign Language
An academic reading knowledge of a language other than English is required of all Thornton doctoral students. This requirement can be met in any of the following ways:
• Completion of a prior degree, as verified on an official transcript, at an accredited institution of higher education at which the primary language of instruction is a language other than English.
• Completion of at least three semesters of college-level language instruction in a language other than English, as verified on an official transcript, at an accredited institution of higher education.
• Completion of one or more USC language course(s) (in a language other than English) as approved by the Thornton School.
• Earning a passing score on a written examination (in a language other than English) as approved by the Thornton School.

Departments within the Thornton School may require additional language skills. All language requirements must be fulfilled before entering the third semester in the program. Students who have engaged in extensive study of one or more languages other than English that does not meet this requirement as described above may request an exception.

Course Requirements
Each student is required to complete four areas of concentration: the major field, an academic field and two elective fields.

Required courses for each major curriculum are listed in the description of major programs below. Required courses for any academic or elective field are determined for their respective fields by the faculty advisers on a student's DMA guidance committee.

A minimum of 65 graduate units beyond the bachelor's degree are required to complete a DMA degree. Fifty-five or more units must be in music, 12 of these beyond the master's level must be in the major. At least 40 of these must be at the 500 level or higher. All course work earned under these requirements for a doctoral degree is considered to be obsolete after 10 years from the date of completion of such work and may not be used to fulfill degree requirements.

Academic and Elective Fields
For the academic field students must choose one from Musicology, Theory and Analysis, Music Teaching and Learning, Choral Music or Sacred Music. For the elective fields students will choose two fields from among 50 possible areas, including Composition, Performance, Early Music, Jazz Studies, Music Teaching and Learning, Choral Music, Sacred Music, Conducting, Pedagogy, Electroacoustic Media, Music Industry, as well as areas outside of music. The fields comprise courses that are determined by the department in which they are administered. Eight to 10 units are taken in the academic field. Six to 8 units are taken in each elective field. The academic field may not duplicate a major or an elective field. No more than two of the four fields of concentration may be under the guidance of the same department within the Thornton School of Music, and at least one of the elective fields must culminate in a substantial written paper or examination. Students must apply to their chosen fields. Admission to academic and elective fields is determined by the appropriate department, prior to the Graduate Committee Interview. Individualized programs of study will be created in each field in consultation with a faculty adviser in each area.

Graduate Committee Interview
Before the completion of 16 units beyond the master's degree and before permission to present the second doctoral recital
is requested, doctoral students must meet with the Graduate Advisory Committee of the Thornton School of Music to discuss their progress in the program and their goals for the future. In preparation for this interview, students must prepare a dossier according to specific instructions available from the Thornton doctoral adviser. The committee determines the student’s continuation in the program, and approves both the student’s individualized curriculum (including all fields of concentration) and the members of his or her DMA guidance committee.

**DMA Guidance Committee**

The DMA guidance committee is composed of at least five members: two faculty members from the major department, one of whom will serve as chair, and a faculty member from each of the three other areas of concentration. At least three members of a committee must be full-time faculty of rank in the Thornton School. The composition of the DMA Guidance Committee is proposed and approved as part of the Graduate Committee Interview.

The guidance committee administers the written and oral parts of the comprehensive examination. The committee continues to serve until the comprehensive examination has been passed, the dissertation topic approved (if applicable) and the student is admitted to candidacy (if applicable). For students in curricula that require recitals, the two major field advisers serve as the recital committee and are responsible for determining the approved format, content, scheduling, and presentation of these performances for credit toward the requirements of the degree.

**Comprehensive Examination**

The comprehensive examination for the DMA is administered by the student's guidance committee. This examination consists of written and oral components and is designed to assess the student's mastery of his or her fields of concentration and readiness for professional independence as a performer, composer, teacher, researcher and/or scholar. The student must obtain permission from the guidance committee to take the comprehensive examination and schedule it at least two months in advance to ensure the committee’s availability. The examination must be taken after completion of all required course work for all fields of concentration, except (in some cases) a limited number of the required units of Individual Instruction in the major field. In degree programs that require the presentation of four major recitals, at least two major recitals must be presented prior to the administration of the comprehensive examination. Up to two required recitals may be presented after the comprehensive examination. The dissertation (if required) must be written after the comprehensive examination. Comprehensive examinations will not be scheduled during summer sessions except under extraordinary circumstances and only with the written approval of members of the guidance committee. All portions of the examination must be completed within one month.

The comprehensive examination is comprised of a substantial culminating work for each field of concentration, as well as an oral examination with the student's guidance committee. The culminating work for each field may be a written examination, paper, project or recital, as appropriate for the particular field. For the academic field and at least one elective field, this culminating requirement must be a substantial written examination or paper. Following the successful completion of all culminating requirements and the approval of each by the corresponding faculty adviser, the student will sit for a two-hour oral examination with the guidance committee. This oral examination covers in greater depth the topics discussed in the written examinations and other requirements for the fields of concentration. The oral examination also may cover new material as determined by the guidance committee.

The two major field advisers and the academic field adviser must be present at the oral examination and render a judgment on the acceptability of the comprehensive examinations as a whole. It is highly preferable that the faculty advisers for the two elective fields participate in the oral examination with the other members of the guidance committee. If, however, there are challenges with scheduling or other issues that are reasonably unresolvable, the participation of the faculty advisers for elective fields is not required for the oral examination if they feel that the candidate has demonstrated knowledge and mastery of material that is appropriate for an elective field in their disciplines.

The examinations will be reported as passing if there is no more than one dissenting vote on the committee. A student must pass both the written and oral portions to pass the comprehensive examination. A pass on the examination cannot be made contingent upon any form of additional work.

If a student fails the comprehensive examination, the guidance committee may permit the student to repeat it once at a mutually satisfactory time within a period of not less than six months nor more than one year from the date of the first oral examination. A student may not take the comprehensive examination more than twice.

The comprehensive examination serves as the qualifying examination for programs that require a dissertation.

**Curriculum Requirements for Performance Major — Classical Guitar**

**Basic DMA Curriculum (20 units) - Required for All DMA Candidates**

- MTAL 505 Teaching and Learning Music Units: 2
- MUCD 441 Choral Conducting II Units: 2
- MUCD 443 Instrumental Conducting II Units: 2
- MUCO 501 Introduction to the Analysis of Tonal Music Units: 2
- MUCO 502 Introduction to the Analysis of Post-Tonal Music Units: 2
- MUHL 570 Research Materials and Techniques Units: 2
- MUHL electives numbered 500 through 695: 6 units total

- Ensemble Units: 2 units total

Note: Courses with similar content taken for graduate credit at another accredited institution may be substituted, subject to departmental approval. Master's degree credit for ensemble taken at USC may fulfill this requirement, subject to departmental approval.

**Individual Instruction (12 units)**

- MPU 653 Performance Units: 1 or 2
- 12 units total of MPU 653 (Classical Guitar)

**Ensembles (2 units)**

- MUEN 626 Guitar Ensemble Units: 1
  2 units total of MUEN 626

**Program Intensive Courses (8 units)**

- MPU 417 Classical Guitar Pedagogy Units: 2
- MPU 426 Classical Guitar History and Literature Units: 2
- MPU 427 Advanced Topics in Classical Guitar History and Literature Units: 2
- MPKS 481 Interpretation of Baroque Music Units: 2

**Electives to Fulfill the Academic Field and Two Elective Fields (23 units)**

**Comprehensive Examinations (0 units)**

Examinations which include the major area, one academic field, and two elective fields.

**Recitals (0 units)**

Four recitals in total: Two solo recitals (one mixed program and one thematic program), one chamber music recital, and one lecture-recital Units: 0

**Total units: 65**

**Performance — Early Music (DMA)**

**Overview**

The DMA in Early Music consists of the following areas of study: the basic DMA curriculum, course work in the major, an academic field and two elective fields.
Degree Prerequisites

DMA applicants must complete the appropriate master of music degree program or its equivalent.

Admission

Admission to Thornton programs is granted through the USC admission process. Applicants are screened by appropriate faculty selection committees. Specific entrance requirements are reviewed on an annual basis and published online at music.usc.edu.

Grade Point Average Requirements

A minimum grade point average of 3.0 (A = 4.0) is required for all graduate course units in music. A grade of B or higher is required for all courses in the major field. For courses in academic and elective fields, the minimum passing grade is C.

Transfer Credit

The Degree Progress Department in the Office of Academic Records and Registrar determines whether course work taken elsewhere is available for transfer credit. A maximum of 30 units of transfer credit may be applied toward a doctoral degree in music. Whether such credit is applicable toward a specific requirement in a major or minor field is determined by the Thornton School department in which the subject is taught, pending approval by the dean of the Thornton School. Transfer credit petitions must be filed with the Thornton doctoral adviser during the first semester in residence. Transfer work must have been completed within 10 years of admission to the DMA program to be applied toward that degree.

Residence Requirement

A minimum of two years of full-time study beyond the Master of Music degree is required for the Doctor of Musical Arts. At least one year of full-time study beyond the master’s degree (6 units or more per semester) must be in residence at USC.

Time Schedule

The time limit for completing the Doctor of Musical Arts degree is eight years. For students who earned an applicable master’s degree within five years prior to admission to the doctoral program, the time limit for completing the Doctor of Musical Arts degree is six years. Progress is measured from the beginning of the first course at USC applied toward the degree. Extensions will be granted by petition to the Thornton School for only the most compelling reasons.

Music Graduate Entrance Exams

All students entering a graduate-level degree program (MA, MM, DMA and PhD) at USC Thornton, who have not previously completed a degree at USC Thornton, must take a series of entrance exams in core music subjects. These exams are called Music Graduate Entrance Exams (MGEEs). Information regarding which exams are required for specific majors is available from the Thornton Student Affairs office. Also see the Thornton School of Music Admission to Graduate Standing section of this catalogue for specific policies relating to these exams.

Foreign Language

An academic reading knowledge of a language other than English is required of all Thornton doctoral students. This requirement can be met in any of the following ways:

- Completion of a prior degree, as verified on an official transcript, from an accredited institution of higher education at which the primary language of instruction is a language other than English.
- Completion of at least three semesters of college-level language instruction in a language other than English, as verified on an official transcript, at an accredited institution of higher education.
- Completion of one or more USC language course(s) (in a language other than English) as approved by the Thornton School.

- Earning a passing score on a written examination (in a language other than English) as approved by the Thornton School.

Departments within the Thornton School may require additional language skills. All language requirements must be fulfilled before entering the third semester in the program. Students who have engaged in extensive study of one or more languages other than English that does not meet this requirement as described above may request an exception.

Course Requirements

Each student is required to complete four areas of concentration: the major field, an academic field and two elective fields.

Required courses for each major curriculum are listed in the description of major programs below. Required courses for any academic or elective field are determined for their respective fields by the faculty advisers on a student’s DMA guidance committee.

A minimum of 65 graduate units beyond the bachelor’s degree are required to complete a DMA degree. Fifty-five or more units must be in music, 12 of these beyond the master's level must be in the major. At least 40 of these must be at the 500 level or higher.

All course work earned under these requirements for a doctoral degree is considered to be obsolete after 10 years from the date of completion of such work and may not be used to fulfill degree requirements.

Academic and Elective Fields

For the academic field students must choose one from Musicology, Theory and Analysis, Music Teaching and Learning, Choral Music or Sacred Music. For the elective fields students will choose two fields from among 50 possible areas, including Composition, Performance, Early Music, Jazz Studies, Music Teaching and Learning, Choral Music, Sacred Music, Conducting, Pedagogy, Electroacoustic Media, Music Industry, as well as areas outside of music. The fields comprise courses that are determined by the department in which they are administered. Eight to 10 units are taken in the academic field. Six to 8 units are taken in each elective field. The academic field may not duplicate a major or an elective field. No more than two of the four fields of concentration may be under the guidance of the same department within the Thornton School of Music, and at least one of the elective fields must culminate in a substantial written paper or examination. Students must apply to their chosen fields. Admission to academic and elective fields is determined by the appropriate department, prior to the Graduate Committee Interview. Individualized programs of study will be created in each field in consultation with a faculty adviser in each area.

Graduate Committee Interview

Before the completion of 16 units beyond the master's degree and before permission to present the second doctoral recital is requested, doctoral students must meet with the Graduate Advisory Committee of the Thornton School of Music to discuss their progress in the program and their goals for the future. In preparation for this interview, students must prepare a dossier according to specific instructions available from the Thornton doctoral adviser. The committee determines the student’s continuation in the program, and approves both the student’s individualized curriculum (including all fields of concentration) and the members of his or her DMA guidance committee.

DMA Guidance Committee

The DMA guidance committee is composed of at least five members: two faculty members from the major department, one of whom will serve as chair, and a faculty member from each of the three other areas of concentration. At least three members of a committee must be full-time faculty of rank in the Thornton School. The composition of the DMA Guidance Committee is proposed and approved as part of the Graduate Committee Interview.

The guidance committee administers the written and oral parts of the comprehensive examination. The committee continues to
serve until the comprehensive examination has been passed, the dissertation topic approved (if applicable) and the student is admitted to candidacy (if applicable). For students in curricula that require recitals, the two major field advisers serve as the recital committee and are responsible for determining the approved format, content, scheduling, and presentation of these performances for credit toward the requirements of the degree.

Comprehensive Examination

The comprehensive examination for the DMA is administered by the student’s guidance committee. This examination consists of written and oral components and is designed to assess the student's mastery of his or her fields of concentration and readiness for professional independence as a performer, composer, teacher, researcher and/or scholar. The student must obtain permission from the guidance committee to take the comprehensive examination and schedule it at least two months in advance to ensure the committee’s availability. The examination must be taken after completion of all required course work for all fields of concentration, except (in some cases) a limited number of the requirements in the major field. In degree programs that require the presentation of four major recitals, at least two major recitals must be presented prior to the administration of the comprehensive examination. Up to two required recitals may be presented after the comprehensive examination. The dissertation (if required) must be written after the comprehensive examination. Comprehensive examinations will not be scheduled during summer sessions except under extraordinary circumstances and only with the written approval of members of the guidance committee. All portions of the examination must be completed within one month.

The comprehensive examination is comprised of a substantial culminating work for each field of concentration, as well as an oral examination with the student's guidance committee. The culminating work for each field may be a written examination, paper, project or recital, as appropriate for the particular field. For the academic field and at least one elective field, this culminating requirement must be a substantial written examination or paper. Following the successful completion of all culminating requirements and the approval of each by the corresponding faculty adviser, the student will sit for a two-hour oral examination with the guidance committee. This oral examination covers in greater depth the topics discussed in the written examinations and other requirements for the fields of concentration. The oral examination may also cover new material as determined by the guidance committee.

The two major field advisers and the academic field adviser must be present at the oral examination and render a judgment on the acceptability of the comprehensive examinations as a whole. It is highly preferable that the faculty advisers for the two elective fields participate in the oral examination with the other members of the guidance committee. If, however, there are challenges with scheduling or other issues that are reasonably unresolvable, the participation of the faculty advisers for elective fields is not required for the oral examination if they feel that the candidate has demonstrated knowledge and mastery of material that is appropriate for an elective field in their disciplines.

The examinations will be reported as passing if there is no more than one dissenting vote on the committee. A student must pass both the written and oral portions to pass the comprehensive examination. A pass on the examination cannot be made contingent upon any form of additional work.

If a student fails the comprehensive examination, the guidance committee may permit the student to repeat it once at a mutually satisfactory time within a period of not less than six months nor more than one year from the date of the first oral examination. A student may not take the comprehensive examination more than twice.

The comprehensive examination serves as the qualifying examination for programs that require a dissertation.

Curriculum Requirements for Performance Major — Early Music

Basic DMA Curriculum (20 units) - Required for All DMA Candidates

- MTAL 505 Teaching and Learning Music Units: 2
- MUCD 441 Choral Conducting II Units: 2
- MUCD 443 Instrumental Conducting II Units: 2
- MUCO 501 Introduction to the Analysis of Tonal Music Units: 2
- MUCO 502 Introduction to the Analysis of Post-Tonal Music Units: 2
- MUHL 570 Research Materials and Techniques Units: 2
- MUHL electives numbered 500 through 695: 6 units total *
- Ensemble Units: 2 units total

Note

Courses with similar content taken for graduate credit at another accredited institution may be substituted, subject to departmental approval. Master's degree credit for ensemble taken at USC may fulfill this requirement, subject to departmental approval.

Individual Instruction, Ensembles and Performance Classes (16 units)

- MPEM 650 Collegium Directing Units: 2
- 4 units total of MPEM 650
- 4 units total of MPEM 653
- 8 units total of MUEN 650
- MUEN 650 Early Music Ensemble Units: 1
- 4 units total of MUEN 650

Program Intensive Courses (6 units)

- MUHL 572 Seminar in Historical Musical Notation Units: 2
- MUHL 589 Seminar in Renaissance Repertories and Performance Practice Units: 2
- MUHL 591 Seminar in Baroque Repertories and Performance Practice Units: 2

Electives to Fulfill the Academic Field and Two Elective Fields (23 units)

Comprehensive Examinations (0 units)

Examinations which include the major area, one academic field, and two elective fields.

Recitals (0 units)

- Four graduate recitals: two as soloist and ensemble director, one lecture-recital, and one recital of the student’s choice

Units: 0

Total units: 65

*Must include MUHL 574 and MUHL 575.

Performance — Keyboard Collaborative Arts (DMA)

Overview

The DMA in Keyboard Collaborative Arts consists of the following areas of study: the basic DMA curriculum, course work in the major, an academic field and two elective fields.

Degree Prerequisites

DMA applicants must complete the appropriate master of music degree program or its equivalent.

Admission

Admission to Thornton programs is granted through the USC admission process. Applicants are screened by appropriate faculty selection committees. Specific entrance requirements are reviewed on an annual basis and published online at music.usc.edu.

Grade Point Average Requirements

A minimum grade point average of 3.0 (A = 4.0) is required for all graduate course units in music. A grade of B or higher is required for all courses in the major field. For courses in academic and elective fields, the minimum passing grade is C.
Transfer Credit
The Degree Progress Department in the Office of Academic Records and Registrar determines whether course work taken elsewhere is available for transfer credit. A maximum of 30 units of transfer credit may be applied toward a doctoral degree in music. Whether such credit is applicable toward a specific requirement in a major or minor field is determined by the Thornton School department in which the subject is taught, pending approval by the dean of the Thornton School. Transfer credit petitions must be filed with the Thornton doctoral adviser during the first semester in residence. Transfer work must have been completed within 10 years of admission to the DMA program to be applied toward that degree.

Residence Requirement
A minimum of two years of full-time study beyond the Master of Music degree is required for the Doctor of Musical Arts. At least one year of full-time study beyond the master’s degree (6 units or more per semester) must be in residence at USC.

Time Schedule
The time limit for completing the Doctor of Musical Arts degree is eight years. For students who earned an applicable master’s degree within five years prior to admission to the doctoral program, the time limit for completing the Doctor of Musical Arts degree is six years. Progress is measured from the beginning of the first course at USC applied toward the degree. Extensions will be granted by petition to the Thornton School for only the most compelling reasons.

Music Graduate Entrance Exams
All students entering a graduate-level degree program (MA, MM, DMA and PhD) at USC Thornton, who have not previously completed a degree at USC Thornton, must take a series of entrance exams in core music subjects. These exams are called Music Graduate Entrance Exams (MGEEs). Information regarding which exams are required for specific majors is available from the Thornton Student Affairs office. Also see the Thornton School of Music Admission to Graduate Standing section of this catalogue for specific policies relating to these exams.

Foreign Language
An academic reading knowledge of a language other than English is required of all Thornton doctoral students. This requirement can be met in any of the following ways:

- Completion of a prior degree, as verified on an official transcript, from an accredited institution of higher education at which the primary language of instruction is a language other than English.
- Completion of at least three semesters of college-level language instruction in a language other than English, as verified on an official transcript, at an accredited institution of higher education.
- Completion of one or more USC language course(s) (in a language other than English) as approved by the Thornton School.
- Earning a passing score on a written examination (in a language other than English) as approved by the Thornton School.

Departments within the Thornton School may require additional language skills. All language requirements must be fulfilled before entering the third semester in the program. Students who have engaged in extensive study of one or more languages other than English that does not meet this requirement as described above may request an exception.

Course Requirements
Each student is required to complete four areas of concentration: the major field, an academic field and two elective fields.

Required courses for each major curriculum are listed in the description of major programs below. Required courses for any academic or elective field are determined for their respective fields by the faculty advisers on a student's DMA guidance committee.

A minimum of 65 graduate units beyond the bachelor's degree are required to complete a DMA degree. Fifty-five or more units must be in music, 12 of these beyond the master's level must be in the major. At least 40 of these must be at the 500 level or higher. All course work earned under these requirements for a doctoral degree is considered to be obsolete after 10 years from the date of completion of such work and may not be used to fulfill degree requirements.

Academic and Elective Fields
For the academic field students must choose one from Musicology, Theory and Analysis, Music Teaching and Learning, Choral Music or Sacred Music. For the elective fields students will choose two fields from among 50 possible areas, including Composition, Performance, Early Music, Jazz Studies, Music Teaching and Learning, Choral Music, Sacred Music, Conducting, Pedagogy, Electroacoustic Media, Music Industry, as well as areas outside of music. The fields comprise courses that are determined by the department in which they are administered. Eight to 10 units are taken in the academic field. Six to 8 units are taken in each elective field. The academic field may not duplicate a major or an elective field. No more than two of the four fields of concentration may be under the guidance of the same department within the Thornton School of Music, and at least one of the elective fields must culminate in a substantial written paper or examination. Students must apply to their chosen fields. Admission to academic and elective fields is determined by the appropriate department, prior to the Graduate Committee Interview. Individualized programs of study will be created in each field in consultation with a faculty adviser in each area.

Graduate Committee Interview
Before the completion of 16 units beyond the master's degree and before permission to present the second doctoral recital is requested, doctoral students must meet with the Graduate Advisory Committee of the Thornton School of Music to discuss their progress in the program and their goals for the future. In preparation for this interview, students must prepare a dossier according to specific instructions available from the Thornton doctoral adviser. The committee determines the student's continuation in the program, and approves both the student's individualized curriculum (including all fields of concentration) and the members of his or her DMA guidance committee.

DMA Guidance Committee
The DMA guidance committee is composed of at least five members: two faculty members from the major department, one of whom will serve as chair, and a faculty member from each of the three other areas of concentration. At least three members of a committee must be full-time faculty of rank in the Thornton School. The composition of the DMA Guidance Committee is proposed and approved as part of the Graduate Committee Interview.

The guidance committee administers the written and oral parts of the comprehensive examination. The committee continues to serve until the comprehensive examination has been passed, the dissertation topic approved (if applicable) and the student is admitted to candidacy (if applicable). For students in curricula that require recitals, the two major field advisers serve as the recital committee and are responsible for determining the approved format, content, scheduling, and presentation of these performances for credit toward the requirements of the degree.

Comprehensive Examination
The comprehensive examination for the DMA is administered by the student's guidance committee. This examination consists of written and oral components and is designed to assess the student's mastery of his or her fields of concentration and readiness for professional independence as a performer, composer, teacher, researcher and/or scholar. The student must obtain permission from the guidance committee to take the comprehensive examination and schedule it at least two months
in advance to ensure the committee's availability. The examination must be taken after completion of all required course work for all fields of concentration, except (in some cases) a limited number of the required units of Individual Instruction in the major field. In degree programs that require the presentation of four major recitals, at least two major recitals must be presented prior to the administration of the comprehensive examination. Up to two required recitals may be presented after the comprehensive examination. The dissertation (if required) must be written after the comprehensive examination. Comprehensive examinations will not be scheduled during summer sessions except under extraordinary circumstances and only with the written approval of members of the guidance committee. All portions of the examination must be completed within one month.

The comprehensive examination is comprised of a substantial culminating work for each field of concentration, as well as an oral examination with the student's guidance committee. The culminating work for each field may be a written examination, paper, project or recital, as appropriate for the particular field. For the academic field and at least one elective field, this culminating requirement must be a substantial written examination or paper. Following the successful completion of all culminating requirements and the approval of each by the corresponding faculty adviser, the student will sit for a two-hour oral examination with the guidance committee. This oral examination covers in greater depth the topics discussed in the written examinations and other requirements for the fields of concentration. The oral examination may also cover new material as determined by the guidance committee.

The two major field advisers and the academic field adviser must be present at the oral examination and render a judgment on the acceptability of the comprehensive examinations as a whole. It is highly preferable that the faculty advisers for the two elective fields participate in the oral examination with the other members of the guidance committee. If, however, there are challenges with scheduling or other issues that are reasonably unresolvable, the participation of the faculty advisers for elective fields is not required for the oral examination if they feel that the candidate has demonstrated knowledge and mastery of material that is appropriate for an elective field in their disciplines.

The examinations will be reported as passing if there is no more than one dissenting vote on the committee. A student must pass both the written and oral portions to pass the comprehensive examination. A pass on the examination cannot be made contingent upon any form of additional work.

If a student fails the comprehensive examination, the guidance committee may permit the student to repeat it once at a mutually satisfactory time within a period of not less than six months nor more than one year from the date of the first oral examination. A student may not take the comprehensive examination more than twice.

The comprehensive examination serves as the qualifying examination for programs that require a dissertation.

Curriculum Requirements for Performance Major — Keyboard Collaborative Arts

Basic DMA Curriculum (20 units) - Required for All DMA Candidates

- MTAL 505 Teaching and Learning Music Units: 2
- MUCD 441 Choral Conducting II Units: 2
- MUCD 443 Instrumental Conducting II Units: 2
- MUVO 501 Introduction to the Analysis of Tonal Music Units: 2
- MUVO 502 Introduction to the Analysis of Post-Tonal Music Units: 2
- MUHL 570 Research Materials and Techniques Units: 2
- MUHL electives numbered 500 through 695: 6 units total
- Ensemble Units: 2 units total

Note:
Couses with similar content taken for graduate credit at another accredited institution may be substituted, subject to departmental approval. Master's degree credit for ensemble taken at USC may fulfill this requirement, subject to departmental approval.

Individual Instruction (12 units)

- MPKS 653 Performance Units: 1 or 2
- 12 units total of MPKS 653

Program Intensive Courses (6 units)

- MPKS 481 Interpretation of Baroque Music Units: 2
- MPKS 560 Song Interpretation Master Class Units: 2
- MPKS 561 Chamber Music Interpretation Master Class Units: 2

Electives to Fulfill the Academic Field and Two Elective Fields (27 units)

Comprehensive Examinations (0 units)

Examinations, which include the major area, one academic field and two elective fields.

Recitals (0 units)

- Four doctoral level recitals; one with voice(s), one with instrument(s), one lecture recital, and other recital as approved Units: 0

Total units: 65

The exact format, content and scheduling of the four graduate recitals are the responsibility of the candidate's major professor.

Performance — Piano (DMA)

Overview

The DMA in Piano consists of the following areas of study: the basic DMA curriculum, course work in the major, an academic field and two elective fields.

Degree Prerequisites

DMA applicants must complete the appropriate master of music degree program or its equivalent.

Admission

Admission to Thornton programs is granted through the USC admission process. Applicants are screened by appropriate faculty selection committees. Specific entrance requirements are reviewed on an annual basis and published online at music.usc.edu.

Grade Point Average Requirements

A minimum grade point average of 3.0 (A = 4.0) is required for all graduate course units in music. A grade of B or higher is required for all courses in the major field. For courses in academic and elective fields, the minimum passing grade is C.

Transfer Credit

The Degree Progress Department in the Office of Academic Records and Registrar determines whether course work taken elsewhere is available for transfer credit. A maximum of 30 units of transfer credit may be applied toward a doctoral degree in music. Whether such credit is applicable toward a specific requirement in a major or minor field is determined by the Thornton School department in which the subject is taught, pending approval by the dean of the Thornton School. Transfer credit petitions must be filed with the Thornton doctoral adviser during the first semester in residence. Transfer work must have been completed within 10 years of admission to the DMA program to be applied toward that degree.

Residence Requirement

A minimum of two years of full-time study beyond the Master of Music degree is required for the Doctor of Musical Arts. At least one year of full-time study beyond the master's degree (6 units or more per semester) must be in residence at USC.

Time Schedule

The time limit for completing the Doctor of Musical Arts degree is eight years. For students who earned an applicable master's degree within five years prior to admission to the doctoral program, the time limit for completing the Doctor of Musical Arts degree...
is six years. Progress is measured from the beginning of the first course at USC applied toward the degree. Extensions will be granted by petition to the Thornton School for only the most compelling reasons.

Music Graduate Entrance Exams
All students entering a graduate-level degree program (MA, MM, DMA and PhD) at USC Thornton, who have not previously completed a degree at USC Thornton, must take a series of entrance exams in core music subjects. These exams are called Music Graduate Entrance Exams (MGEEs). Information regarding which exams are required for specific majors is available from the Thornton Student Affairs office. Also see the Thornton School of Music Admission to Graduate Standing section of this catalogue for specific policies relating to these exams.

Foreign Language
An academic reading knowledge of a language other than English is required of all Thornton doctoral students. This requirement can be met in any of the following ways:

- Completion of a prior degree, as verified on an official transcript, at an accredited institution of higher education.
- Completion of at least three semesters of college-level language instruction in a language other than English, as verified on an official transcript, at an accredited institution of higher education.
- Completion of one or more USC language course(s) (in a language other than English) as approved by the Thornton School.
- Earning a passing score on a written examination (in a language other than English) as approved by the Thornton School.

Departments within the Thornton School may require additional language skills. All language requirements must be fulfilled before entering the third semester in the program. Students who have engaged in extensive study of one or more languages other than English that does not meet this requirement as described above may request an exception.

Course Requirements
Each student is required to complete four areas of concentration: the major field, an academic field and two elective fields.

Required courses for each major curriculum are listed in the description of major programs below. Required courses for any academic or elective field are determined for their respective fields by the faculty advisers on a student’s DMA guidance committee.

A minimum of 65 graduate units beyond the bachelor’s degree are required to complete a DMA degree. Fifty-five or more units must be in music, 12 of these beyond the master’s level must be in the major. At least 40 of these must be at the 500 level or higher. All course work earned under these requirements for a doctoral degree is considered to be obsolete after 10 years from the date of completion of such work and may not be used to fulfill degree requirements.

Academic and Elective Fields
For the academic field students must choose one from Musicology, Theory and Analysis, Music Teaching and Learning, Choral Music or Sacred Music. For the elective fields students will choose two fields from among 50 possible areas, including Composition, Performance, Early Music, Jazz Studies, Music Teaching and Learning, Choral Music, Sacred Music, Conducting, Pedagogy, Electroacoustic Media, Music Industry, as well as areas outside of music. The fields comprise courses that are determined by the department in which they are administered. Eight to 10 units are taken in the academic field. Six to 8 units are taken in each elective field. The academic field may not duplicate a major or an elective field. No more than two of the four fields of concentration may be under the guidance of the same department within the Thornton School of Music, and at least one of the elective fields must culminate in a substantial written paper or examination. Students must apply to their chosen fields. Admission to academic and elective fields is determined by the appropriate department, prior to the Graduate Committee Interview. Individualized programs of study will be created in each field in consultation with a faculty adviser in each area.

Graduate Committee Interview
Before the completion of 16 units beyond the master’s degree and before permission to present the second doctoral recital is requested, doctoral students must meet with the Graduate Advisory Committee of the Thornton School of Music to discuss their progress in the program and their goals for the future. In preparation for this interview, students must prepare a dossier according to specific instructions available from the Thornton doctoral adviser. The committee determines the student’s continuation in the program, and approves both the student’s individualized curriculum (including all fields of concentration) and the members of his or her DMA guidance committee.

DMA Guidance Committee
The DMA guidance committee is composed of at least five members: two faculty members from the major department, one of whom will serve as chair; and a faculty member from each of the three other areas of concentration. At least three members of a committee must be full-time faculty of rank in the Thornton School. The composition of the DMA Guidance Committee is proposed and approved as part of the Graduate Committee Interview.

The guidance committee administers the written and oral parts of the comprehensive examination. The committee continues to serve until the comprehensive examination has been passed, the dissertation topic approved (if applicable) and the student is admitted to candidacy (if applicable). For students in curricula that require recitals, the two major field advisers serve as the recital committee and are responsible for determining the approved format, content, scheduling, and presentation of these performances for credit toward the requirements of the degree.

Comprehensive Examination
The comprehensive examination for the DMA is administered by the student’s guidance committee. This examination consists of written and oral components and is designed to assess the student’s mastery of his or her fields of concentration and readiness for professional independence as a performer, composer, teacher, researcher and/or scholar. The student must obtain permission from the guidance committee to take the comprehensive examination and schedule it at least two months in advance to ensure the committee’s availability. The examination must be taken after completion of all required course work for all fields of concentration, except (in some cases) a limited number of the required units of Individual Instruction in the major field.

In degree programs that require the presentation of four major recitals, at least two major recitals must be presented prior to the administration of the comprehensive examination. Up to two required recitals may be presented after the comprehensive examination. The dissertation (if required) must be written after the comprehensive examination. Comprehensive examinations will not be scheduled during summer sessions except under extraordinary circumstances and only with the written approval of members of the guidance committee. All portions of the examination must be completed within one month.

The comprehensive examination is comprised of a substantial culminating work for each field of concentration, as well as an oral examination with the student’s guidance committee. The culminating work for each field may be a written examination, paper, project or recital, as appropriate for the particular field. For the academic field and at least one elective field, this culminating requirement must be a substantial written examination or paper. Following the successful completion of all culminating requirements and the approval of each by the corresponding faculty adviser, the student will sit for a two-hour oral examination.
with the guidance committee. This oral examination covers in greater depth the topics discussed in the written examinations and other requirements for the fields of concentration. The oral examination may also cover new material as determined by the guidance committee.

The two major field advisers and the academic field adviser must be present at the oral examination and render a judgment on the acceptability of the comprehensive examinations as a whole. It is highly preferable that the faculty advisers for the two elective fields participate in the oral examination with the other members of the guidance committee. If, however, there are challenges with scheduling or other issues that are reasonably unresolvable, the participation of the faculty advisers for elective fields is not required for the oral examination if they feel that the candidate has demonstrated knowledge and mastery of material that is appropriate for an elective field in their disciplines.

The examinations will be reported as passing if there is no more than one dissenting vote on the committee. A student must pass both the written and oral portions to pass the comprehensive examination. A pass on the examination cannot be made contingent upon any form of additional work.

If a student fails the comprehensive examination, the guidance committee may permit the student to repeat it once at a mutually satisfactory time within a period of not less than six months nor more than one year from the date of the first oral examination. A student may not take the comprehensive examination more than twice.

The comprehensive examination serves as the qualifying examination for programs that require a dissertation.

Total units: 65

Performance — Studio Guitar (DMA)

Overview

The DMA in Studio Guitar consists of the following areas of study: the basic DMA curriculum, course work in the major, an academic field and two elective fields.

Degree Prerequisites

DMA applicants must complete the appropriate master of music degree program or its equivalent.

Admission

Admission to Thornton programs is granted through the USC admission process. Applicants are screened by appropriate faculty selection committees. Specific entrance requirements are reviewed on an annual basis and published online at music.usc.edu.

Grade Point Average Requirements

A minimum grade point average of 3.0 (A = 4.0) is required for all graduate course units in music. A grade of B or higher is required for all courses in the major field. For courses in academic and elective fields, the minimum passing grade is C.

Transfer Credit

The Degree Progress Department in the Office of Academic Records and Registrar determines whether course work taken elsewhere is available for transfer credit. A maximum of 30 units of transfer credit may be applied toward a doctoral degree in music. Whether such credit is applicable toward a specific requirement in a major or minor field is determined by the Thornton School department in which the subject is taught, pending approval by the dean of the Thornton School. Transfer credit petitions must be filed with the Thornton doctoral adviser during the first semester in residence. Transfer work must have been completed within 10 years of admission to the DMA program to be applied toward that degree.

Residence Requirement

A minimum of two years of full-time study beyond the Master of Music degree is required for the Doctor of Musical Arts. At least one year of full-time study beyond the master's degree (6 units or more per semester) must be in residence at USC.

Time Schedule

The time limit for completing the Doctor of Musical Arts degree is eight years. For students who earned an applicable master's degree within five years prior to admission to the doctoral program, the time limit for completing the Doctor of Musical Arts degree is six years. Progress is measured from the beginning of the first course at USC applied toward the degree. Extensions will be granted by petition to the Thornton School for only the most compelling reasons.

Music Graduate Entrance Exams

All students entering a graduate-level degree program (MA, MM, DMA and PhD) at USC Thornton, who have not previously completed a degree at USC Thornton, must take a series of entrance exams in core music subjects. These exams are called Music Graduate Entrance Exams (MGEEs). Information regarding which exams are required for specific majors is available from the Thornton Student Affairs office. Also see the Thornton School of Music Admission to Graduate Standing section of this catalogue for specific policies relating to these exams.

Foreign Language

An academic reading knowledge of a language other than English is required of all Thornton doctoral students. This requirement can be met in any of the following ways:

- Completion of a prior degree, as verified on an official transcript, from an accredited institution of higher education at which the primary language of instruction is a language other than English.
• Completion of at least three semesters of college-level language instruction in a language other than English, as verified on an official transcript, at an accredited institution of higher education.
• Completion of one or more USC language course(s) in a language other than English as approved by the Thornton School.
• Earning a passing score on a written examination (in a language other than English) as approved by the Thornton School.

Departments within the Thornton School may require additional language skills. All language requirements must be fulfilled before entering the third semester in the program. Students who have engaged in extensive study of one or more languages other than English that does not meet this requirement as described above may request an exception.

Course Requirements
Each student is required to complete four areas of concentration: the major field, an academic field and two elective fields.
Required courses for each major curriculum are listed in the description of major programs below. Required courses for any academic or elective field are determined for their respective fields by the faculty advisers on a student's DMA guidance committee.
A minimum of 65 graduate units beyond the bachelor's degree are required to complete a DMA degree. Fifty-five or more units must be in music, 12 of these beyond the master's level must be in the major. At least 40 of these must be at the 500 level or higher. All course work earned under these requirements for a doctoral degree is considered to be obsolete after 10 years from the date of completion of such work and may not be used to fulfill degree requirements.

Academic and Elective Fields
For the academic field students must choose one from Musicology, Theory and Analysis, Music Teaching and Learning, Choral Music or Sacred Music. For the elective fields students will choose two fields from among 50 possible areas, including Composition, Performance, Early Music, Jazz Studies, Music Teaching and Learning, Choral Music, Sacred Music, Conducting, Pedagogy, Electroacoustic Media, Music Industry, as well as areas outside of music. The fields comprise courses that are determined by the department in which they are administered. Eight to 10 units are taken in the academic field. Six to 8 units are taken in each elective field. The academic field may not duplicate a major or an elective field. No more than two of the four fields of concentration may be under the guidance of the same department within the Thornton School of Music, and at least one of the elective fields must culminate in a substantial written paper or examination. Students must apply to their chosen fields. Admission to academic and elective fields is determined by the appropriate department, prior to the Graduate Committee Interview. Individualized programs of study will be created in each field in consultation with a faculty adviser in each area.

Graduate Committee Interview
Before the completion of 16 units beyond the master's degree and before permission to present the second doctoral recital is requested, doctoral students must meet with the Graduate Advisory Committee of the Thornton School of Music to discuss their progress in the program and their goals for the future. In preparation for this interview, students must prepare a dossier according to specific instructions available from the Thornton doctoral adviser. The committee determines the student's continuation in the program, and approves both the student's individualized curriculum (including all fields of concentration) and the members of his or her DMA guidance committee.

DMA Guidance Committee
The DMA guidance committee is composed of at least five members: two faculty members from the major department, one of whom will serve as chair, and a faculty member from each of the three other areas of concentration. At least three members of a committee must be full-time faculty of rank in the Thornton School. The composition of the DMA Guidance Committee is proposed and approved as part of the Graduate Committee Interview.
The guidance committee administers the written and oral parts of the comprehensive examination. The committee continues to serve until the comprehensive examination has been passed, the dissertation topic approved (if applicable) and the student is admitted to candidacy (if applicable). For students in curricula that require recitals, the two major field advisers serve as the recital committee and are responsible for determining the approved format, content, scheduling and presentation of these performances for credit toward the requirements of the degree.

Comprehensive Examination
The comprehensive examination for the DMA is administered by the student's guidance committee. This examination consists of written and oral components and is designed to assess the student's mastery of his or her fields of concentration and readiness for professional independence as a performer, composer, teacher, researcher and/or scholar. The student must obtain permission from the guidance committee to take the comprehensive examination and schedule it at least two months in advance to ensure the committee's availability. The examination must be taken after completion of all required course work for all fields of concentration, except (in some cases) a limited number of the required units of Individual Instruction in the major field. A minimum of 40 units that require the presentation of four major recitals, at least two major recitals must be presented prior to the administration of the comprehensive examination. Up to two required recitals may be presented after the comprehensive examination. The dissertation (if required) must be written after the comprehensive examination. Comprehensive examinations will not be scheduled during summer sessions except under extraordinary circumstances and only with the written approval of members of the guidance committee. All portions of the examination must be completed within one month.
The comprehensive examination is comprised of a substantial culminating work for each field of concentration, as well as an oral examination with the student's guidance committee. The culminating work for each field may be a written examination, paper, project or recital, as appropriate for the particular field. For the academic field and at least one elective field, this culminating requirement must be a substantial written examination or paper. Following the successful completion of all culminating requirements and the approval of each by the corresponding faculty adviser, the student will sit for a two-hour oral examination with the guidance committee. This oral examination covers in greater depth the topics discussed in the written examinations and other requirements for the fields of concentration. The oral examination also may cover new material as determined by the guidance committee.
The two major field advisers and the academic field adviser must be present at the oral examination and render a judgment on the acceptability of the comprehensive examination as a whole. It is highly preferable that the faculty advisers for the two elective fields participate in the oral examination with the other members of the guidance committee. If, however, there are challenges with scheduling or other issues that are reasonably unresolvable, the participation of the faculty advisers for elective fields is not required for the oral examination if they feel that the candidate has demonstrated knowledge and mastery of material that is appropriate for an elective field in their disciplines.
The examinations will be reported as passing if there is no more than one dissenting vote on the committee. A student must pass both the written and oral portions to pass the comprehensive examination. A pass on the examination cannot be made contingent upon any form of additional work.
If a student fails the comprehensive examination, the guidance committee may permit the student to repeat it once at a mutually
Curriculum Requirements for Performance
Major — Studio Guitar

Basic DMA Curriculum (20 units) - Required for All DMA Candidates

- MTAL 505 Teaching and Learning Music Units: 2
- MUCD 441 Choral Conducting II Units: 2
- MUCD 443 Instrumental Conducting II Units: 2
- MUCA 501 Introduction to the Analysis of Tonal Music Units: 2
- MUCO 502 Introduction to the Analysis of Post-Tonal Music Units: 2
- MTAL 570 Research Materials and Techniques Units: 2
- MUHL 570 Research Materials and Techniques Units: 2
- MUEN 526 Guitar Ensemble Units: 2

Individual Instruction, Ensembles and Performance Classes (20 units)

- MPGU 558 Advanced Studio Guitar Performance Class Units: 1
- 4 units total of MPGU 558
- MPGU 653 Performance Units: 1 or 2
- 12 units total of MPGU 653
- MUEN 526 Guitar Ensemble Units: 1
- 4 units total of MUEN 526

Electives to Fulfill the Academic Field and Two Elective Fields (25 units)

- Comprehensive Examinations (0 units)
- Recitals (0 units)

Recitals (0 units)

- Four doctoral recitals, one of which must be a lecture recital in conjunction with an appropriate research project Units: 0

Total units: 65

Sacred Music (DMA)

Overview

The DMA in Sacred Music consists of the following areas of study: the basic DMA curriculum, course work in the major, an academic field and two elective fields.

Degree Prerequisites

DMA applicants must complete the appropriate master of music degree program or its equivalent.

Admission

Admission to Thornton programs is granted through the USC admission process. Applicants are screened by appropriate faculty selection committees. Specific entrance requirements are reviewed on an annual basis and published online at music.usc.edu.

Grade Point Average Requirements

A minimum grade point average of 3.0 (A = 4.0) is required for all graduate course units in music. A grade of B or higher is required for all courses in the major field. For courses in academic and elective fields, the minimum passing grade is C.

Transfer Credit

The Degree Progress Department in the Office of Academic Records and Registrar determines whether course work taken elsewhere is available for transfer credit. A maximum of 30 units of transfer credit may be applied toward a doctoral degree in music. Whether such credit is applicable toward a specific requirement in a major or minor field is determined by the Thornton School department in which the subject is taught, pending approval by the dean of the Thornton School. Transfer credit petitions must be filed with the Thornton doctoral advisor during the first semester in residence. Transfer work must have been completed within 10 years of admission to the DMA program to be applied toward that degree.

Residence Requirement

A minimum of two years of full-time study beyond the Master of Music degree is required for the Doctor of Musical Arts. At least one year of full-time study beyond the master's degree (six units or more per semester) must be in residence at USC.

Time Schedule

The time limit for completing the Doctor of Musical Arts degree is eight years. For students who earned an applicable master's degree within five years prior to admission to the doctoral program, the time limit for completing the Doctor of Musical Arts degree is six years. Progress is measured from the beginning of the first course at USC applied toward the degree. Extensions will be granted by petition to the Thornton School for only the most compelling reasons.

Music Graduate Entrance Exams

All students entering a graduate-level degree program (MA, MM, DMA and PhD) at USC Thornton, who have not previously completed a degree at USC Thornton, must take a series of entrance exams in core music subjects. These exams are called Music Graduate Entrance Exams (MGEEs). Information regarding which exams are required for specific majors is available from the Thornton School. Also see the Thornton School of Music Admission to Graduate Standing section of this catalogue for specific policies relating to these exams.

Foreign Language

An academic reading knowledge of a language other than English is required of all Thornton doctoral students. This requirement can be met in any of the following ways:

- Completion of a prior degree, as verified on an official transcript, from an accredited institution of higher education where the primary language of instruction is a language other than English.
- Completion of at least three semesters of college-level language instruction in a language other than English, as verified on an official transcript, at a recognized accredited institution of higher education.
- Completion of one or more USC language course(s) (in a language other than English) as approved by the Thornton School.
- Earning a passing score on a written examination (in a language other than English) as approved by the Thornton School.

Departments within the Thornton School may require additional language skills. All language requirements must be fulfilled before entering the third semester in the program. Students who have engaged in extensive study of one or more languages other than English that does not meet this requirement as described above may request an exception.

Course Requirements

Each student is required to complete four areas of concentration: the major field, an academic field and two elective fields.

Required courses for each major curriculum are listed in the description of major programs below. Required courses for any
academic or elective field are determined for their respective fields by the faculty advisers on a student's DMA guidance committee.

A minimum of 65 graduate units beyond the bachelor's degree are required to complete a DMA degree. Fifty-five or more units must be in music, 12 of these beyond the master's level must be in the major. At least 40 of these must be at the 500 level or higher. All course work earned under these requirements for a doctoral degree is considered to be obsolete after 10 years from the date of completion of such work and may not be used to fulfill degree requirements.

Academic and Elective Fields

For the academic field students must choose one from Musicology, Theory and Analysis, Music Teaching and Learning, Choral Music or Sacred Music. For the elective fields students will choose two fields from among 50 possible areas, including Composition, Performance, Early Music, Jazz Studies, Music Teaching and Learning, Choral Music, Sacred Music, Conducting, Pedagogy, Electroacoustic Media, Music Industry, as well as areas outside of music. The fields comprise courses that are determined by the department in which they are administered. Eight to ten units are taken in the academic field. Six to eight units are taken in each elective field. The academic field may not duplicate a major or an elective field. No more than two of the four fields of concentration may be under the guidance of the same department within the Thornton School of Music, and at least one of the elective fields must culminate in a substantial written paper or examination. Students must apply to their chosen fields. Admission to academic and elective fields is determined by the appropriate department, prior to the Graduate Committee Interview. Individualized programs of study will be created in each field in consultation with a faculty adviser in each area.

Graduate Committee Interview

Before the completion of 16 units beyond the master's degree and before permission to present the second doctoral recital is requested, doctoral students must meet with the Graduate Advisory Committee of the Thornton School of Music to discuss their progress in the program and their goals for the future. In preparation for this interview, students must prepare a dossier according to specific instructions available from the Thornton doctoral adviser. The committee determines the student's continuation in the program, and approves both the student's individualized curriculum (including all fields of concentration) and the members of his or her DMA guidance committee.

DMA Guidance Committee

The DMA guidance committee is composed of at least five members: two faculty members from the major department, one of whom will serve as chair, and a faculty member from each of the three other areas of concentration. At least three members of a committee must be full-time faculty of rank in the Thornton School. The composition of the DMA Guidance Committee is proposed and approved as part of the Graduate Committee Interview.

The guidance committee administers the written and oral parts of the comprehensive examination. The committee continues to serve until the comprehensive examination has been passed, the dissertation topic approved (if applicable) and the student is admitted to candidacy (if applicable). For students in curricula that require recitals, the two major field advisers serve as the recital committee and are responsible for determining the approved format, content, scheduling, and presentation of these performances for credit toward the requirements of the degree.

Comprehensive Examination

The comprehensive examination for the DMA is administered by the student's guidance committee. This examination consists of written and oral components and is designed to assess the student's mastery of his or her fields of concentration and readiness for professional independence as a performer, composer, teacher, researcher and/or scholar. The student must obtain permission from the guidance committee to take the comprehensive examination and schedule it at least two months in advance to ensure the committee's availability. The examination must be taken after completion of all required course work for all fields of concentration, except (in some cases) a limited number of the required units of Individual Instruction in the major field. In degree programs that require the presentation of four major recitals, at least two major recitals must be presented prior to the administration of the comprehensive examination. Up to two required recitals may be presented after the comprehensive examination. The dissertation (if required) must be written after the comprehensive examination. Comprehensive examinations will not be scheduled during summer sessions except under extraordinary circumstances and only with the written approval of members of the guidance committee. All portions of the examination must be completed within one month.

The comprehensive examination is comprised of a substantial culminating work for each field of concentration, as well as an oral examination with the student's guidance committee. The culminating work for each field may be a written examination, paper, recital or recital, as appropriate for the particular field. For the academic field and at least one elective field, this culminating requirement must be a substantial written examination or paper. Following the successful completion of all culminating requirements and the approval of each by the corresponding faculty adviser, the student will sit for a two-hour oral examination with the guidance committee. This oral examination covers in greater depth the topics discussed in the written examinations and other requirements for the fields of concentration. The oral examination may also cover new material as determined by the guidance committee.

The two major field advisers and the academic field adviser must be present at the oral examination and render a judgment on the acceptability of the comprehensive examinations as a whole. It is highly preferable that the faculty advisers for the two elective fields participate in the oral examination with the other members of the guidance committee. If, however, there are challenges with scheduling or other issues that are reasonably unresolvable, the participation of the faculty advisers for elective fields is not required for the oral examination if they feel that the candidate has demonstrated knowledge and mastery of material that is appropriate for an elective field in their disciplines.

The examinations will be reported as passing if there is no more than one dissertation vote on the committee. A student must pass both the written and oral portions to pass the comprehensive examination. A pass on the examination cannot be made contingent upon any form of additional work.

If a student fails the comprehensive examination, the guidance committee may permit the student to repeat it once at a mutually satisfactory time within a period of not less than six months nor more than one year from the date of the first oral examination. A student may not take the comprehensive examination more than twice.

The comprehensive examination serves as the qualifying examination for programs that require a dissertation.

Admission to Candidacy

For students pursuing the dissertation option, admission to candidacy occurs after the student has passed the comprehensive examination, upon formal action of the dean of the Thornton School. The dissertation must be completed after admission to candidacy. For students pursuing the project option, the project must also be completed after the student has passed the comprehensive examination.

Doctoral Project

The doctoral project must be approved by the department and may take the form of a lecture recital, a composition, a musical edition, or other appropriate creative endeavor. The doctoral project must reveal creative and scholarly ability, technical mastery, and must take a form relevant to the field. The evaluation of the doctoral project is made by the department in accordance with Thornton School of Music practice in evaluation of capstone doctoral recitals.
Doctoral Dissertation
A dissertation based on original investigation and/or creative work is required of candidates in Composition, Music Teaching and Learning, and Choral Music. This also applies to Sacred Music candidates who pursue the dissertation option. The dissertation must reveal scholarly ability, technical mastery, capacity for independent research and originality in creative thought.

Dissertation Committee
After the guidance committee recommends admission to candidacy and approves the dissertation topic, the committee is reduced to three members. This smaller committee shall be the dissertation committee and will guide the student through the completion of the dissertation. Additional members may be added at the discretion of the chair of the committee if the topic requires special expertise.

Registration for Dissertation
The student must register in 794 Dissertation each semester after admission to candidacy until degree requirements (including the dissertation) are completed. Registration for 794 in no less than two regular semesters following admission to candidacy entitles the candidate to supervision by the dissertation committee. If the dissertation is not completed and accepted within two semesters, the candidate must register for 794 each semester thereafter until the document has been accepted. No more than 8 units of credit in 794 may be accumulated regardless of the number of semesters the candidate may be required to register. A candidate who must withdraw temporarily from registration in 794 for a semester must report this in writing to the Thornton doctoral adviser before the beginning of that semester. As part of that report, the candidate must also petition for a formal leave of absence. During a leave of absence the candidate will not be entitled to assistance from his or her dissertation committee or to the use of university services and facilities. A leave of absence will be granted only under exceptional circumstances.

Format for Theses and Dissertations
All dissertations submitted for requirements for graduate degrees must conform to university regulations in format and method of preparation. See the USC Graduate School's guidelines for Theses and Dissertations.

Abstract of Dissertation
Since the abstract of the dissertation is published in Dissertation Abstracts International, it should be written with care and be representative of the final draft of the dissertation.

Defense of the Dissertation
After meeting all requirements including the comprehensive examination, the candidate must defend the dissertation. This defense takes place in order for the committee to determine whether the dissertation should be approved or rejected. While this oral defense is open to the general university community, only the members of the dissertation committee have the authority to recommend its acceptance or rejection. The recommendation must be unanimous in order for the dissertation to be approved.

At least seven weeks before the scheduled date of the defense of the dissertation, written approval by all members of the candidate's dissertation committee, along with a typed copy of the dissertation abstract, must be filed with the doctoral adviser of the Thornton School of Music. A candidate may defend the dissertation on the basis of an approved preliminary copy. If the defense is satisfactory and the committee is satisfied with the manuscript as presented, the committee then signs the Approval to Submit Defended and Final Copy of the Doctoral Work form. If additional work is required, the form is left unsigned until the work has been approved.

The final electronic PDF copy of the dissertation, together with signed signature sheet and approval forms, must be presented to the Thesis Editor in the USC Graduate School by the Graduate School's submission date and times. Approval of format and acceptance by the Graduate School must be presented to the doctoral adviser of the Thornton School of Music at least one week before the end of the semester.

Curriculum Requirements for Sacred Music Major
Proficiency tests in both keyboard and voice will be given by the choral and sacred music faculty during the student's first semester in residence to determine if additional study in either area is required.

Basic DMA Curriculum (20 units) - Required for All DMA Candidates
- MTAL 505 Teaching and Learning Music Units: 2
- MUCD 441 Choral Conducting II Units: 2
- MUCD 443 Instrumental Conducting II Units: 2
- MUCO 501 Introduction to the Analysis of Tonal Music Units: 2
- MUCO 502 Introduction to the Analysis of Post-Tonal Music Units: 2
- MUHL 570 Research Materials and Techniques Units: 2
- MUHL electives numbered 500 through 695: 6 units total
- Ensemble Units: 2 units total

Note:
Courses with similar content taken for graduate credit at another accredited institution may be substituted, subject to departmental approval. Master's degree credit for ensemble taken at USC may fulfill this requirement, subject to departmental approval.

Ensembles (2 units)
- Music Ensemble at the 500-level: 2 units total

Program Intensive Courses (6 units)
- MSCR 571 Music of the Great Liturgies Units: 2 **
- MSCR 572 Sacred Music Administration Units: 2 **

One course from the following:
- MSCR 474 The Organ in Worship and Congregational Life Units: 2
- MPVA 541 Advanced Vocology Units: 2 ***
- MPVA 542 Vocal Pedagogy Teaching Practicum Units: 2

Choose 4 units from the following:
- MSCR 473 Hymnology Units: 2
- MSCR 475 Introduction to Jewish Music Units: 2
- MUHL 550 Music and the Holocaust Units: 2

Electives to Fulfill the Academic Field and Two Elective Fields (25 units)****

Comprehensive Examinations (0 units)
Examinations, which include the major area, one academic field and two elective fields.

Capstone Project (8 units)
Choose one option from the following:

Dissertation Option:
- Individual Instruction at the 501 level (2 units total)
- MSCR 790 Research Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 (2 units total)
- MSCR 794a Doctoral Dissertation Units: 2
- MSCR 794b Doctoral Dissertation Units: 2

Final Project Option:
- MSCR 790 Research Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 (2 units total)
- MUCD 653 Performance Units: 1 or 2 (2 units total)
- Individual Instruction at the 501 level (4 units total)
- Lecture/Recital Units: 0

Total required for degree: 65
*Sacred music majors must participate in a choral ensemble chosen from MUEN 508, MUEN 510, MUEN 511 or MUEN 512 each semester if enrolled for 4 or more units.
**If these courses have already been taken toward a Master of Music degree at USC, then 500-level MUHL courses or 500-level
MUCO analysis courses should be substituted, on consultation with the Sacred Music faculty.

***Courses with similar content in MPVA 541 taken at another institution may be substituted, subject to Vocal Arts departmental approval. Consult with the Vocal Arts and Sacred Music departments to finalize substitution approval and/or course placement.

****Requires one elective field in a performance area.

Teaching and Learning (DMA)

Overview
The DMA in Teaching and Learning consists of the following areas of study: the basic DMA curriculum, course work in the major, an academic field and two elective fields.

The DMA curriculum has been designed to extend beyond the public school setting and prepare students for collegiate teaching in both traditional and alternative settings (such as community-based and on-line programs). Further, the degree offers innovative courses on teaching at the college level. Students have the opportunity to intern with university professors in music education methodology classes. The program also includes core scholarly subjects, such as research, sociology, philosophy, psychology and history of music education. The focus goes beyond the traditional band/orchestra/choir model and extends to additional areas especially relevant to the current diverse and technologically proficient student population.

The professional degree stresses teaching with cutting-edge technological tools while developing core knowledge and expertise in pedagogical skills and scholarship. Students will acquire writing and design skills for a wide range of multimedia publications, while being able to pursue a choice of research activities or advanced creative work that will enable them to lead our profession to new heights. USC is one of the few universities that equally values students being able to declare elective fields in areas outside of music education, while also achieving rigorous scholarship, writing and multimedia design skills, and gaining pedagogical experience that prepares them for collegiate teaching in a rapidly changing society.

Degree Prerequisites
DMA applicants must complete the appropriate master of music degree program or its equivalent.

Admission
Admission to Thornton programs is granted through the USC admission process. Applicants are screened by appropriate faculty selection committees. Specific entrance requirements are reviewed on an annual basis and published online at music.usc.edu.

Grade Point Average Requirements
A minimum grade point average of 3.0 (A = 4.0) is required for all graduate course units in music. A grade of B or higher is required for all courses in the major field. For courses in academic and elective fields, the minimum passing grade is C.

Transfer Credit
The Degree Progress Department in the Office of Academic Records and Registrar determines whether course work taken elsewhere is available for transfer credit. A maximum of 30 units of transfer credit may be applied toward a doctoral degree in music. Whether such credit is applicable toward a specific requirement in a major or minor field is determined by the Thornton School department in which the subject is taught, pending approval by the dean of the Thornton School. Transfer credit petitions must be filed with the Thornton doctoral adviser during the first semester in residence. Transfer work must have been completed within 10 years of admission to the DMA program to be applied toward that degree.

Residence Requirement
A minimum of two years of full-time study beyond the Master of Music degree is required for the Doctor of Musical Arts. At least one year of full-time study beyond the master's degree (6 units or more per semester) must be in residence at USC.

Time Schedule
The time limit for completing the Doctor of Musical Arts degree is eight years. For students who earned an applicable master's degree within five years prior to admission to the doctoral program, the time limit for completing the Doctor of Musical Arts degree is six years. Progress is measured from the beginning of the first course at USC applied toward the degree. Extensions will be granted by petition to the Thornton School for only the most compelling reasons.

Music Graduate Entrance Exams
All students entering a graduate-level degree program (MA, MM, DMA and PhD) at USC Thornton, who have not previously completed a degree at USC Thornton, must take a series of entrance exams in core music subjects. These exams are called Music Graduate Entrance Exams (MGEES). Information regarding which exams are required for specific majors is available from the Thornton Student Affairs office. Also see the Thornton School of Music Admission to Graduate Standing section of this catalogue for specific policies relating to these exams.

Foreign Language
An academic reading knowledge of a language other than English is required of all Thornton doctoral students. This requirement can be met in any of the following ways:

- Completion of a prior degree, as verified on an official transcript, from an accredited institution of higher education at which the primary language of instruction is a language other than English.
- Completion of at least three semesters of college-level language instruction in a language other than English, as verified on an official transcript, at an accredited institution of higher education.
- Completion of one or more USC language course(s) (in a language other than English) as approved by the Thornton School.
- Earning a passing score on a written examination (in a language other than English) as approved by the Thornton School.

Departments within the Thornton School may require additional language skills. All language requirements must be fulfilled before entering the third semester in the program. Students who have engaged in extensive study of one or more languages other than English that does not meet this requirement as described above may request an exception.

Course Requirements
Each student is required to complete four areas of concentration: the major field, an academic field and two elective fields.

Required courses for each major curriculum are listed in the description of major programs below. Required courses for any academic or elective field are determined for their respective fields by the faculty advisers on a student's DMA guidance committee. A minimum of 65 graduate units beyond the bachelor's degree are required to complete a DMA degree. Fifty-five or more units must be in music, 12 of these beyond the master's level must be in the major. At least 40 of these must be at the 500 level or higher. All course work earned under these requirements for a doctoral degree is considered to be obsolete after 10 years from the date of completion of such work and may not be used to fulfill degree requirements.

Academic and Elective Fields
For the academic field students must choose one from Musicology, Theory and Analysis, Music Teaching and Learning, Choral Music or Sacred Music. For the elective fields students will choose two fields from among 50 possible areas, including Composition, Performance, Early Music, Jazz Studies, Music Teaching and Learning, Choral Music, Sacred Music, Conducting,
oral examination with the student's guidance committee. The culminating work for each field of concentration, as well as an completed within one month.

be scheduled during summer sessions except under extraordinary required recitals may be presented after the comprehensive recitals, at least two major recitals must be presented prior to fields of concentration, except (in some cases) a limited number must be taken after completion of all required course work for all in advance to ensure the committee's availability. The examination comprehensive examination and schedule it at least two months obtain permission from the guidance committee to take the composer, teacher, researcher and/or scholar. The student must and readiness for professional independence as a performer, the student's mastery of his or her fields of concentration and the members of his or her DMA guidance committee.

DMA Guidance Committee
The DMA guidance committee is composed of at least five members: two faculty members from the major department, one of whom will serve as chair, and a faculty member from each of the three other areas of concentration. At least three members of a committee must be full-time faculty of rank in the Thornton School. The composition of the DMA Guidance Committee is proposed and approved as part of the Graduate Committee Interview.

The guidance committee administers the written and oral parts of the comprehensive examination. The committee continues to serve until the comprehensive examination has been passed, the dissertation topic approved (if applicable) and the student is admitted to candidacy (if applicable). For students in curricula that require recitals, the two major field advisers serve as the recital committee and are responsible for determining the approved format, content, scheduling, and presentation of these performances for credit toward the requirements of the degree.

Comprehensive Examination
The comprehensive examination for the DMA is administered by the student's guidance committee. This examination consists of written and oral components and is designed to assess the student's mastery of his or her fields of concentration and readiness for professional independence as a performer, composer, teacher, researcher and/or scholar. The student must obtain permission from the guidance committee to take the comprehensive examination and schedule it at least two months in advance to ensure the committee's availability. The examination must be taken after completion of all required course work for all fields of concentration, except (in some cases) a limited number of the required units of Individual Instruction in the major field. In degree programs that require the presentation of four major recitals, at least two major recitals must be presented prior to the administration of the comprehensive examination. Up to two required recitals may be presented after the comprehensive examination. The dissertation (if required) must be written after the comprehensive examination. Comprehensive examinations will not be scheduled during summer sessions except under extraordinary circumstances and only with the written approval of members of the guidance committee. All portions of the examination must be completed within one month.

The comprehensive examination comprises a substantial culminating work for each field of concentration, as well as an oral examination with the student's guidance committee. The culminating work for each field may be a written examination, paper, project or recital, as appropriate for the particular field. For the academic field and at least one elective field, this culminating requirement must be a substantial written examination or paper. Following the successful completion of all culminating requirements and the approval of each by the corresponding faculty adviser, the student will sit for a two-hour oral examination with the guidance committee. This oral examination covers in greater depth the topics discussed in the written examinations and other requirements for the fields of concentration. The oral examination may also cover new material as determined by the guidance committee.

The two major field advisers and the academic field adviser must be present at the oral examination and render a judgment on the acceptability of the comprehensive examinations as a whole. It is highly preferable that the faculty advisers for the two elective fields participate in the oral examination with the other members of the guidance committee. If, however, there are challenges with scheduling or other issues that are reasonably unresolvable, the participation of the faculty advisers for elective fields is not required for the oral examination if they feel that the candidate has demonstrated knowledge and mastery of material that is appropriate for an elective field in their disciplines.

The examinations will be reported as passing if there is no more than one dissenting vote on the committee. A student must pass both the written and oral portions to pass the comprehensive examination. A pass on the examination cannot be made contingent upon any form of additional work.

If a student fails the comprehensive examination, the guidance committee may permit the student to repeat it once at a mutually satisfactory time within a period of not less than six months nor more than one year from the date of the first oral examination. A student may not take the comprehensive examination more than twice.

The comprehensive examination serves as the qualifying examination for programs that require a dissertation.

Admission to Candidacy
For the DMA in Teaching and Learning, admission to candidacy occurs after the student has passed the comprehensive examination, upon formal action of the dean of the Thornton School. The dissertation must be completed after admission to candidacy.

Doctoral Dissertation
A dissertation based on original investigation and/or creative work is required of candidates in Composition, Music Teaching and Learning and Choral Music. The dissertation must reveal scholarly ability, technical mastery, capacity for independent research and originality in creative thought.

Dissertation Committee
After the guidance committee recommends admission to candidacy and approves the dissertation topic, the committee is reduced to three members. This smaller committee shall be the dissertation committee and will guide the student through the completion of the dissertation. Additional members may be added at the discretion of the chair of the committee if the topic requires special expertise.

Registration for Dissertation
The student must register in 794 Dissertation each semester after admission to candidacy until degree requirements (including the dissertation) are completed. Registration for 794 in no less than two regular semesters following admission to candidacy entitles the candidate to supervision by the dissertation committee. If the dissertation is not completed and accepted within two semesters, the candidate must register for 794 each semester thereafter until the document has been accepted. No more than 8 units of credit in 794 may be accumulated regardless of the number of semesters the candidate may be required to register. A candidate who must withdraw temporarily from registration
in 794 for a semester must report this in writing to the Thornton doctoral adviser before the beginning of that semester. As part of that report, the candidate must also petition for a formal leave of absence. During a leave of absence the candidate will not be entitled to assistance from his or her dissertation committee or to the use of university services and facilities. A leave of absence will be granted only under exceptional circumstances.

**Format for Theses and Dissertations**

All dissertations submitted for requirements for graduate degrees must conform to university regulations in format and method of preparation. See the USC Graduate School's guidelines for Theses and Dissertations.

**Abstract of Dissertation**

Since the abstract of the dissertation is published in Dissertation Abstracts International, it should be written with care and be representative of the final draft of the dissertation.

**Defense of the Dissertation**

After meeting all requirements including the comprehensive examination, the candidate must defend the dissertation. This defense takes place in order for the committee to determine whether the dissertation should be approved or rejected. While this oral defense is open to the general community, only the members of the dissertation committee have the authority to recommend its acceptance or rejection. The recommendation must be unanimous in order for the dissertation to be approved.

At least seven weeks before the scheduled date of the defense of the dissertation, written approval by all members of the candidate’s dissertation committee, along with a typed copy of the dissertation abstract, must be filed with the doctoral adviser of the Thornton School of Music.

A candidate may defend the dissertation on the basis of an approved preliminary copy. If the defense is satisfactory and the committee is satisfied with the manuscript as presented, the committee then signs the Approval to Submit Defended and Final Copy of the Doctoral Work form. If additional work is required, the form is left unsigned until the work has been approved.

The final electronic PDF copy of the dissertation, together with signed signature sheet and approval forms, must be presented to the Graduate School by the Graduate School's submission date and times. Approval of format and acceptance by the Graduate School must be presented to the doctoral adviser of the Thornton School of Music at least one week before the end of the semester.

**Curriculum Requirements for Teaching and Learning Major**

**Basic DMA Curriculum (20 units) - Required for All DMA Candidates**

- MUCD 441 Choral Conducting II Units: 2
- MUCD 443 Instrumental Conducting II Units: 2
- MUCO 501 Introduction to the Analysis of Tonal Music Units: 2
- MUCO 502 Introduction to the Analysis of Post-Tonal Music Units: 2
- MTAL 505 Teaching and Learning Music Units: 2 *
- MUHL 570 Research Materials and Techniques Units: 2 **
- MUHL electives numbered 500 through 695: 6 units total
- Ensemble Units: 2 units total

Note:

Courses with similar content taken for graduate credit at another accredited institution may be substituted, subject to departmental approval. Master's degree credit for ensemble taken at USC may fulfill this requirement, subject to departmental approval.

**Program Intensive Courses (20 units)**

- MTAL 500 Research Foundations in Music Teaching and Learning Units: 3
- MTAL 502 Sociological Foundations of Music Teaching and Learning Units: 3
- MTAL 503 Philosophical and Advocacy Issues in Music Teaching and Learning Units: 3
- MTAL 607 Foundations of Community Music Units: 2
- MTAL 615 Assessment and Reflective Practice Units: 2
- MTAL 720 Quantitative Research in Music Teaching and Learning Units: 3
- MTAL 721 Qualitative Research in Music Teaching and Learning Units: 3
- MTAL 790 Research Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12
- 1 unit total of MTAL 790

**Electives within MTAL Department (6 units)***

**Electives to Fulfill the Academic Field and Two Elective Fields (20 units minimum)****

**Comprehensive Examinations (0 units)**

Examinations include the major area, one academic field and two elective fields.

**Capstone Project (4 units)**

- MTAL 794a Doctoral Dissertation Units: 2
- MTAL 794b Doctoral Dissertation Units: 2

**Total units: 68**

*Music Teaching and Learning students are required to take MTAL 605 instead of MTAL 505 in the basic DMA curriculum.

**MTAL 500 satisfies the requirement of MUHL 570 in the basic DMA curriculum.

**Electives within MTAL will be chosen in consultation with the department.

****It is possible for Music Teaching and Learning students to elect either the academic field or one of the elective field options from outside of the Thornton School. Possible options might include psychology, sociology, education, social work or statistics. These options must be approved by the Graduate Advisory Committee.
USC School of Pharmacy

Founded in 1905, the USC School of Pharmacy is the oldest and foremost pharmacy school in Southern California. The school is a national leader known for its progressive curriculum and research excellence. Approximately 50 percent of the practicing pharmacists in Southern California are graduates of USC. The school has an average student body of 755 full-time students in the PharmD program and 417 students pursuing MS, PhD, DRSc and undergraduate degrees in pharmacy and toxicology, pharmaceutical sciences, health economics, regulatory science, healthcare decision analysis and biopharmaceutical marketing. There are 77 full-time faculty and more than 300 part-time and volunteer faculty at the school.

The school occupies state-of-the-art facilities on the USC Health Sciences Campus in metropolitan Los Angeles, adjacent to the Los Angeles County+USC Medical Center (one of the largest teaching hospitals in the country), the USC Norris Cancer Hospital and the Keck Hospital of USC. USC School of Pharmacy students receive clinical training at these facilities and many other affiliated hospitals, healthcare clinics, skilled nursing facilities, home healthcare agencies and pharmacies in the Southern California region.

Recognized as one of the most innovative schools of pharmacy, the USC School of Pharmacy serves as a model for other progressive schools. In 1950, USC was the first to establish a Doctor of Pharmacy program. Additional national “firsts” that distinguish the school include: first clinical pharmacy program (1968); first PharmD/MBA dual degree program (1988); first MS and PhD programs in pharmaceutical economics and policy (1994) and first professional doctorate in regulatory science (2008).

Consistently the top private pharmacy school nationwide, the school is a member of the American Association of Colleges of Pharmacy, and the PharmD program is accredited by the Accreditation Council for Pharmacy Education, 135 S. LaSalle Street, Suite 4100, Chicago, IL 60603-4510, phone: (312) 664-3575; fax: (312) 664-4692 or (312) 664-7008.

Administration
Vassiliios Papadopoulos, DPharm, PhD, DSc (hon), Dean
Steven W. Chen, PharmD, Associate Dean for Clinical Affairs
Daryl L. Davies, PhD, Associate Dean of Undergraduate Education
Kari L. Franson, PharmD, PhD, Associate Dean for Academic and Student Affairs
Irving Steinberg, PharmD, Associate Dean for Faculty Affairs
Annie Wong-Beringer, PharmD, Associate Dean for Research Affairs
Curtis T. Okamoto, PhD, Associate Dean for Graduate Education and Postdoctoral Studies
Paul Beringer, PharmD, Chair, Titus Family Department of Clinical Pharmacy
Geoffrey Joyce, PhD, Chair, Department of Pharmaceutical and Health Economics
Eunji Pacifici, PhD, Chair, Department of Regulatory and Quality Sciences
Clay C.C. Wang, PhD, Chair, Department of Pharmacology and Pharmaceutical Sciences

Faculty
John Stauffer Dean's Chair in Pharmaceutical Sciences: Vassiliios Papadopoulos, DPharm, PhD
William A. and Josephine A. Heeres, Endowed Chair in Community Pharmacy: Steven Chen, PharmD
University Professor and Boyd P. and Elsie D. Welin Professor in Pharmaceutical Sciences: Jean Chen Shih, PhD
Distinguished Professor of Pharmacy, Public Policy, and Economics and Leonard D. Schaeffer Director's Chair: Dana Goldman, PhD
John A. Biles Professor in Pharmaceutical Sciences: Julio A. Camarero, PhD
Gavin Herbert Professorship in Pharmaceutical Sciences: Andrew MacKay, PhD
Charles Krown/Pharmacy Alumni Professor in Pharmaceutical Sciences: Enrique Cadenas, MD, PhD
Emeritus Professor and Dean: Timothy M. Chan, PhD
Emeritus Professors: Eric J. Lien, PhD; Bradley R. Williams, PharmD; Wei-Chiang Shen, PhD

Department of Pharmaceutical and Pharmaceutical Sciences
Professors of Pharmacology and Pharmaceutical Sciences:
Enrique Cadenas, MD, PhD; Julio A. Camarero, PhD; Sarah F. Hamm-Alvarez, PhD; Vassiliios Papadopoulos, DPharm, PhD; Jean C. Shih, PhD; Bangyan Stiles, PhD; Clay C.C. Wang, PhD
Associate Professors of Pharmacology and Pharmaceutical Sciences:
Martine Culty, PhD; Roger F. Duncan, PhD; Ian S. Haworth, PhD; J. Andrew MacKay, PhD; Curtis T. Okamoto, PhD; Jennica Zaro, PhD
Assistant Professors of Pharmacology and Pharmaceutical Sciences:
Zhipeng Lu, PhD; Paul Seidler, PhD; Jianming Xie, PhD; Yong (Tiger) Zhang, PhD
Lecturers: Rebecca Romero, PhD; Angel Tabancay, PhD

Titus Department of Clinical Pharmacy
Professors of Clinical Pharmacy: Melvin F. Baron, PharmD, MPA; Paul M. Beringer, PharmD; Steven Chen, PharmD; Daryl Davies, PhD; Julie A. Dopheide, PharmD; Kari L. Franson, PharmD, PhD; Stanley G. Louie, PharmD; Tien M.H. Ng, PharmD; Fred G. Weissman, PharmD, JD; Annie Wong-Beringer, PharmD
Associate Professors of Clinical Pharmacy: Melissa Durham, PharmD; Kevin L. Forrester, PharmD; Lisa W. Goldstone, PharmD; William C. Gong, PharmD; Cynthia L.L. Lieu, PharmD;
Doctor of Pharmacy (PharmD) Program

Admission Requirements for the Doctor of Pharmacy (PharmD) Program

Applicants should possess a bachelor's degree from an accredited college or university. A cumulative grade point average of 3.0 and a prerequisite grade point average of 3.0 or higher is strongly recommended. All students should complete the prerequisite courses that are required by the USC School of Pharmacy before they start the program. An interview is mandatory and required of all students prior to admission. International students are required to complete the TOEFL and may request a virtual interview. Acceptance criteria will be assessed on a case-by-case basis. The admission committee reviews each student holistically, taken all application materials and the interview process into consideration when making an admission decision. Along with being academically prepared, having the soft skills to communicate, problem solve, build relationships and show your ability to think critically are important characteristics to demonstrate.

Tuition and Fees (Estimated)

Tuition for the PharmD at USC School of Pharmacy degree programs is charged at a flat rate (which differs from standard USC tuition). See the Tuition and Fees section for fee information. These fees are subject to change.

Tuition for the PharmD at USC School of Pharmacy degree programs is charged at a flat rate (which differs from standard USC tuition). See the Tuition and Fees section for fee information. These fees are subject to change.

Doctor of Pharmacy students must pay a $1,000 non-refundable acceptance deposit that is applicable toward tuition. For deposit information in other degree programs in the School of Pharmacy, please consult appropriate offices.

Honors Societies

Rho Chi

The Rho Chi chapter of Rho Chi, the academic honor society in pharmacy, was established at USC in 1925. Eligibility for membership is based on high attainment in scholarship, character, personality and leadership. All candidates selected for membership must have completed three semesters of the pharmacy program (or post-qualifying exam for PhD students), and they must be approved by the dean of the School of Pharmacy.

Phi Lambda Sigma

The Phi Lambda Sigma chapter was established at USC in 1988. This national pharmacy leadership society is devoted to identifying, supporting and recognizing the contribution of pharmacy students to their colleges, their classmates, their campuses, their communities and to their chosen profession.

Undergraduate Honors Program

The undergraduate honors in pharmacy and drug development (post code 1681) or biopharmaceutical sciences is awarded through successful completion of the senior capstone project. The project is a demonstration of knowledge in the student's chosen area of interest which results in a product/project, research data, research paper, or portfolio of work, and a presentation. This experience encourages students to use a variety of skills in the areas of writing, speaking, research, and problem solving. Students are required to complete the TOEFL and may request a virtual interview.

Student Housing and Service Facility, Health Sciences Campus

There are no university-managed accommodations on the Health Sciences Campus. Currie Hall is privately owned, has a state-of-the-art fitness center, 24-hour academic success center, pool, wi-fi and fully furnished apartments with enhanced-privacy floor plans. For more information about Currie Hall, call (213) 784-7558 or visit the Currie Hall website.

For bookstore information, call (323) 442-2674. Students may also live in student housing on the University Park Campus, located about eight miles from the Health Sciences Campus.
Student Health Services, Health Sciences Campus
Services of the Student Health Center, covered by the mandatory student health fee, include the ambulatory care health services provided by the Student Health Center nursing staff. The Student Health Center is located in the USC Health Care Consultation Center, 1500 San Pablo Street, Suite 104, adjacent to the USC University Hospital, one block northeast of the School of Pharmacy. The telephone number is (323) 442-5980. In addition to the student health fee, all students must have major medical insurance coverage from the USC Student Health Plan. A student may request a waiver of the USC Student Health Plan if covered by a personal medical plan that meets criteria established by the Health Insurance Office.

Graduate Degrees
The School of Pharmacy, through the Graduate School, offers curricula leading to the MS and PhD degrees in clinical and experimental therapeutics, molecular pharmacology and toxicology, pharmaceutical sciences and health economics, as well as a doctorate in Regulatory Sciences (DRSc). The Pharmaceutical and Translational Sciences (PHTS) PhD Program is a one-year umbrella program after which students select a particular track to complete their PhD in pharmaceutical sciences, molecular pharmacology and toxicology, or clinical and experimental therapeutics. The school also offers interdisciplinary MS degrees in regulatory science, in regulatory management, in the management of drug development, in medical product quality, in healthcare decision analysis and in biopharmaceutical marketing. The MS degree in pharmaceutical economics and policy is offered jointly with the USC Price School of Public Policy and the Department of Economics. In addition, the school offers dual degrees with the schools of law, business, gerontology and medicine as well as other programs. Instructions given in the Admission section of this catalogue are to be followed. An online application is required. See the Graduate Admission application page. Additional information may be obtained by calling (323) 442-1474 or sending an email to pharmgrd@usc.edu.

Admission Requirements for the Master of Science in Clinical and Experimental Therapeutics
Applicants should possess a bachelor’s degree or equivalent from an accredited college or university. Applicants with graduate or professional degrees are encouraged to apply. A minimum grade point average of 3.0 (A = 4.0) and qualifying scores on the GRE or equivalent examination are required. Special attention is given to the grades achieved in science courses relevant to the program (e.g., chemistry, biology, biochemistry, pharmacology and mathematics). Students who have research experience and/or work experience in the pharmaceutical arena are encouraged to apply.
Acceptance criteria for those individuals will be assessed on a case-by-case basis. English proficiency is essential. Students will be selected for admission, whenever possible, after interviews with one or more members of faculty.

Admission Requirements for the Master of Science in Molecular Pharmacology and Toxicology and Master of Science in Pharmaceutical Sciences
Applicants should possess a bachelor’s or master’s degree in pharmacy, chemistry, biology or other related disciplines from an accredited college or university. A minimum grade point average of 3.0 is required. Submission of scores on the GRE in the verbal and quantitative areas is strongly recommended. Special attention is given to the grades achieved in science courses relevant to the program (e.g., chemistry, biology, biochemistry, pharmacology and mathematics). Applicants must have demonstrated proficiency in verbal and written English and in fundamental scientific areas such as organic and physical chemistry, biochemistry, biology, mathematics, statistics and computer science. Three letters from faculty knowledgeable about the student’s ability and capability are required. These letters should provide a thorough assessment of the student’s experience in laboratory research, ability to communicate in verbal and written English, motivation and creativity, and other qualities in the student’s academic performance.
Applications for admission are reviewed by the Pharmacology and Pharmaceutical Sciences Graduate Admissions Committee of the School of Pharmacy and are evaluated primarily on the basis of academic excellence.

Admission Requirements for Programs in Pharmaceutical and Translational Sciences: Doctor of Philosophy in Clinical and Experimental Therapeutics, Doctor of Philosophy in Molecular Pharmacology and Toxicology, and Doctor of Philosophy in Pharmaceutical Sciences
All prospective students will apply through the single umbrella program in Pharmaceutical and Translational Sciences and become enrolled in one of the three participating PhD programs after having successfully completed the first year’s course work and laboratory rotations. Application materials will be reviewed by a joint admission committee, with equal representation of faculty from each track, evaluating applications on the basis of academic excellence and scientific research commitment.
Applicants must have a baccalaureate degree in the natural sciences, or sufficient courses in mathematics and the life sciences. This is required to provide a strong background for studies in biomedical and biological research. Appropriate undergraduate degrees include biology, physiology, engineering, chemistry or computer science. A student currently enrolled in the PharmD program may pursue a PharmD/PhD by following the admission procedure in the Catalogue.
Applicants should have a strong record of academic achievement. A minimum grade point average of 3.0 is required and previous research experience is expected.
In addition to the application for admission, three letters of recommendation from faculty knowledgeable of the student’s ability and capability are required. These letters should provide a thorough assessment of the student’s experience in laboratory research, ability to communicate in verbal and written English, motivation, creativity and other qualities in the student’s academic performance. The student’s research and professional experience should be well described within the application and include a personal statement summarizing career objectives and research interests.

Admission Requirements for the Master of Science in Pharmaceutical Economics and Policy
Applicants for admission must have achieved a minimum 3.0 GPA in an undergraduate or professional school and adequate scores on the GRE. In addition, applicants will be required to have completed upper-division courses in statistical methods, calculus and microeconomics.

Admission Requirements for the Doctor of Philosophy in Health Economics
Candidates with a bachelor’s, master’s or PharmD degree are invited to apply. Applicants must have demonstrated proficiency in verbal and written English and aptitude in economics, mathematics, statistics and computer science. Deficiencies in economics and statistical background can be addressed through preliminary course work after admission to the program.
A minimum grade point average of at least 3.0 (A = 4.0) is required. Special attention is given to the grades achieved in economics, statistics and mathematics courses relevant to the program. A qualifying score on the GRE in verbal and quantitative areas is required. There is no set minimum score required for admission, and GRE scores are considered in conjunction with all other parts of the application.
Admission Requirements for the Master of Science in Healthcare Decision Analysis

Applicants should possess a bachelor’s degree or equivalent from an accredited college or university. Applicants with graduate or professional degrees are encouraged to apply. A minimum grade point average of 3.0 is required. The program encourages the participation of part-time students with work experience. Acceptance criteria for those individuals will be assessed on a case-by-case basis. English proficiency is essential. Additional requirements for international students are outlined by university regulations under Admission of International Students.

Admission Requirements for the Master of Science in Biopharmaceutical Marketing

Applicants should possess a bachelor’s degree or equivalent from an accredited college or university. Applicants with graduate or professional degrees are encouraged to apply. A minimum grade point average of 3.0 and passing scores on the GRE or GMAT examinations are required. The program encourages the participation of part-time students with work experience. Acceptance criteria for those individuals will be assessed on a case-by-case basis. English proficiency is essential. Additional requirements for international students are outlined by university regulations under Admission of International Students.

Admission Requirements for the Doctorate of Science in Regulatory Science

The program is designed for individuals with strong professional experience and demonstrated intellectual and leadership capabilities. Applicants are expected to have a GPA of 3.0 on university-level coursework and ten or more years of professional experience. Admission requirements include university transcripts, a résumé or curriculum vita, at least three letters of reference, and a one-page personal statement that outlines the background, a topic of interest for the dissertation and goals of the applicant. Students are encouraged even at this early stage to identify areas in which they are interested in conducting research. Additional requirements for international students are outlined by university regulations under Admission of International Students. (See Admission and Orientation.) Students are not required to provide GRE scores unless indicated by the program director. Applicants will be selected for admission, whenever possible, after interviews with one or more members of faculty, current student and/or alumnus of the program.

Students with an appropriate graduate or professional degree may use some previous graduate courses as transfer units toward the overall credit requirements of the Doctor of Regulatory Science program with the approval of the program director and under the policies of the university. Students who have graduated from the Master of Science program in Regulatory Science at USC are eligible to apply all of the previously taken course work toward the doctoral degree. Students with graduate degrees from outside of the Regulatory Science program are required to take a minimum of 32 units of course work and 4 units of dissertation research to complete the requirements for graduation. The course work requirements will be determined on an individual basis in consultation with the program director and student’s advisers.

Admission Requirements for the Master of Science in Regulatory Science

Applicants should possess a bachelor’s degree or equivalent from an accredited college or university. Applicants with graduate or professional degrees are encouraged to apply. A minimum grade point average of 3.0 and applicants are not required to provide GRE scores unless indicated by the program director. The program encourages the participation of part-time students with work experience. Acceptance criteria for those individuals will be assessed on a case-by-case basis. English proficiency is essential.

Admission Requirements for the Master of Science in Management of Drug Development

Applicants should possess a bachelor’s degree or equivalent from an accredited college or university. Applicants with graduate or professional degrees are encouraged to apply. A minimum grade point average of 3.0 and applicants are not required to provide GRE scores unless indicated by the program director. The program encourages the participation of part-time students with work experience. Acceptance criteria for those individuals will be assessed on a case-by-case basis. English proficiency is essential.

Admission Requirements for the Master of Science in Medical Product Quality

Applicants should possess a bachelor’s degree or equivalent from an accredited college or university. Applicants with graduate or professional degrees are encouraged to apply. A minimum grade point average of 3.0 and applicants are not required to provide GRE scores unless indicated by the program director. The program encourages the participation of part-time students who are already working in the industry as well as students who have recently completed or are about to complete an undergraduate program. Acceptance criteria will be assessed on a case-by-case basis. English proficiency is essential. Applicants who do not meet all the specific requirements indicated above, but who show unique potential, may be considered for admission with conditions, which may be fulfilled during the first semester of enrollment.

Admission Requirements for the Master of Science in Regulatory Management

Applicants should possess a bachelor’s degree or equivalent from an accredited college or university. Applicants should also possess a conferred doctoral degree or equivalent from an accredited college or university. A minimum grade point average of 3.0 and applicants are not required to provide GRE scores unless indicated by the program director. Acceptance criteria for those individuals will be assessed on a case-by-case basis. English proficiency is essential. The program encourages the participation of part-time students who are already working in the industry as well as students who have recently completed or are about to complete a doctoral program. Acceptance criteria will be assessed on a case-by-case basis. English proficiency is essential. Applicants who do not meet all the specific requirements indicated above, but who show unique potential, may be considered for admission with conditions, which may be fulfilled during the first two semesters of enrollment.

Admission of International Students to Graduate Degree Programs

All requirements described in this section are also applicable to the admission of international students. In addition, special application and admission procedures are required of international students. Refer to the section on Admission of International Students in this catalogue.

Degree Requirements

These degrees are under the jurisdiction of the School of Pharmacy and/or jointly with the Graduate School. Students should also refer to the Requirements for Graduation section and The Graduate School section of this catalogue for general regulations. All courses applied toward the degrees must be courses accepted by the Graduate School.

- Master of Science in Biopharmaceutical Marketing
- Master of Science in Clinical and Experimental Therapeutics
- Master of Science in Healthcare Decision Analysis
- Master of Science in Management of Drug Development
- Master of Science in Medical Product Quality
- Master of Science in Molecular Pharmacology and Toxicology
- Master of Science in Pharmaceutical Economics and Policy
- Master of Science in Pharmaceutical Sciences
• Master of Science in Regulatory Management
• Master of Science in Regulatory Science
• Doctor of Philosophy in Clinical and Experimental Therapeutics
• Doctor of Philosophy in Health Economics
• Doctor of Philosophy in Molecular Pharmacology and Toxicology
• Doctor of Philosophy in Pharmaceutical Sciences
• Doctor of Philosophy in Pharmaceutical Economics and Policy
• Doctor of Regulatory Science
• PharmD
• PharmD/Juris Doctor
• PharmD/Master of Business Administration Dual Degree Program
• PharmD/Master of Science, Gerontology
• PharmD/Master of Science, Global Medicine
• PharmD/Master of Science, Healthcare Decision Analysis
• PharmD/Master of Public Health
• PharmD/Master of Science, Regulatory Science
• PharmD/Doctor of Philosophy

Continuing Education
The School of Pharmacy, Office of Continuing Professional Development, is a recognized provider of continuing pharmacy education accredited by the Accreditation Council for Pharmacy Education (ACPE) and recognized by the California State Board of Pharmacy and throughout the United States. The school serves as a primary educational resource for pharmacists in California and as a supplementary resource for other health professionals and pharmacists, nationally and internationally. Programs are designed to educate pharmacists about current issues in pharmaceutical care, practice management, therapeutics and other topics of professional interest. Continuing education programs are held at the School of Pharmacy and other locations.

For information concerning continuing education programs contact the Office of Continuing Professional Development.

Bachelor’s Degree
Biopharmaceutical Sciences (BA)
The Bachelor of Arts in Biopharmaceutical Sciences (BPS) provides a well-defined pathway for science and non-science majors to gain significant knowledge in pharmacology, pharmaceutical sciences, toxicology and medical product development, regulation, marketing and use.

The Bachelor of Arts in Biopharmaceutical Sciences (BPS) is a cooperative degree program involving the USC Dornsife College of Letters, Arts and Sciences and the USC School of Pharmacy. Students complete 128 units, including at least 70 units of course work in USC Dornsife and at least 36 units of course work in USC School of Pharmacy.

The Bachelor of Arts in Biopharmaceutical Sciences offers a unique interdisciplinary approach designed to provide in-depth training in the discovery, development and commercialization of pharmaceutical products and their role in health care industries. Courses focus on sub disciplines of pharmaceutical sciences including the study of the chemical and physical properties of drugs and their biological effects, and will link these systems to the discovery, development and commercialization of pharmaceuticals for the advancement of human health. Courses will also focus on the business and marketing aspects of the pharmaceutical industry.

The Bachelor of Arts in Biopharmaceutical Sciences will be a springboard to diverse careers in industrial, academic or other research environments within the areas of drug discovery, development and commercialization. It will prepare students for professional or graduate studies in graduate education in pharmaceutical, medical and basic sciences and post-baccalaureate professional education in biomedical engineering, business, finance and law.

The Bachelor of Arts in Biopharmaceutical Sciences requires the completion of a minimum of 128 units that include:

1. General Education, Foreign Language and Writing Requirements
2. Foundational courses designed to prepare students for the major
3. An introductory 4-unit lower-division (200 level) course in Pharmaceutical and Regulatory Science (RXRS)
4. A minimum number of 32 units of upper-division (300 level and above) courses in Biopharmaceutical Sciences (BPSI) and Pharmaceutical and Regulatory Science (RXRS)
5. A minimum of 8 units of upper-division (300 level and above) courses in Biological Sciences (BISC) unique to the major

The Bachelor of Arts in Biopharmaceutical Sciences is conferred by USC Dornsife.

Calculus
Select one course.
• MATH 108g Contemporary Precalculus Units: 4
• MATH 118gx Fundamental Principles of Calculus Units: 4
• MATH 125g Calculus I Units: 4

Statistics
Select one course.
• BME 423 Statistical Methods in Biomedical Engineering Units: 4
• ECON 317 Introduction to Statistics for Economists Units: 4
• HP 340Lg Health Behavior Statistical Methods Units: 4
• MATH 208x Elementary Probability and Statistics Units: 4
• PSYC 274Lg Statistics Units: 4
• QBIO 305g Statistics for Biological Sciences Units: 4
• SOCI 314Lg Analyzing Social Statistics Units: 4

Chemistry
Select two courses from either the general chemistry or the advanced general chemistry series.
• CHEM 105aLg General Chemistry Units: 4
• CHEM 105bl General Chemistry Units: 4
• CHEM 115aLg Advanced General Chemistry Units: 4
• CHEM 115bl Advanced General Chemistry Units: 4

Biology
Select two courses from either the general biology or the advanced general biology series.
• BISC 120Lg General Biology: Organismal Biology and Evolution Units: 4
• BISC 220Lg General Biology: Cell Biology and Physiology Units: 4
• BISC 121Lg Advanced General Biology: Organismal Biology and Evolution Units: 4
• BISC 221Lg Advanced General Biology: Cell Biology and Physiology Units: 4

Biopharmaceutical Sciences (BPSI) and Pharmaceutical and Regulatory Science (RXRS) Unit Requirement
Students must complete a minimum of 36 units of BPSI or RXRS course work, including one 4-unit lower-division RXRS course and a minimum of 32 units of upper-division (300 level and above) BPSI or RXRS course work. A maximum of 4 units can be met by taking Directed Research (BPSI 490x).
Pharmaceutical and Regulatory Science (RXRS) Requirement (Part 1)
One course.
• RXRS 200 Approaches to Pharmacology and Drug Development Units: 4

Biopharmaceutical Sciences (BPSI) Requirement (Part 2)
One course.
• BPSI 402 Biopharmaceutics I Units: 4

Biopharmaceutical Sciences (BPSI) Requirement (Part 3)
Select a minimum of 4 units from:
• BPSI 407 Pharmaceutical and Health Economics Units: 4
• BPSI 414 Pharmacoeconomics Units: 2
• BPSI 415 Science Talk Units: 2

Biopharmaceutical Sciences (BPSI) and Pharmaceutical and Regulatory Science (RXRS) Requirement (Part 4)
Select a minimum of 16 units from:
• BPSI 403 Biopharmaceutics II Units: 4
• BPSI 410 Biopharmaceutical Product Development and Brand Planning Units: 4
• BPSI 411 Biopharmaceutical Marketing Analysis and Strategy Units: 4
• BPSI 412 Targeted and Precision Medicines Units: 4
• BPSI 413 Rigor, Resources and Reproducibility Units: 2
• RXRS 422 Regulation, Guidance and Control of Medical Products Units: 2

Biopharmaceutical Sciences (BPSI) and Pharmaceutical and Regulatory Science (RXRS) Requirement (Part 5)
Select a minimum of two courses totaling a minimum of 8 units. Can be a combination of BPSI and RXRS course work.
• BPSI 405 Organ Systems Physiology, Drug Delivery and Drug Action Units: 4
• BPSI 406 Drug Safety Pharmacology and Toxicology Units: 4
• BPSI 408 Biologics and Vaccines Units: 4
• BPSI 450x Directed Research Units: 1, 2, 3, 4, 5, 6, 7, 8
• RXRS 407 The Discovery, Development and Marketing of Medicines Units: 4
• RXRS 412 Ethics, Drugs and Society Units: 4
• RXRS 413w Globalization of the Biomedical Industry Units: 4

Biological Sciences (BISC) Requirement
Select two courses.
• BISC 300L Introduction to Microbiology Units: 4
• BISC 307L General Physiology Units: 4
• BISC 320Lg Molecular Biology Units: 4
• BISC 330L Biochemistry Units: 4

Undergraduate Honors Program (optional)
The undergraduate honors in Biopharmaceutical Sciences is awarded through successful completion of the senior capstone project. The project is a demonstration of knowledge in the student’s chosen area of interest which results in a product/project, research data, research paper, or portfolio of work, and a presentation. This experience encourages students to use a variety of skills in the areas of writing, speaking, research and documentation, which distinguishes them as scholars and future leaders in pharmacy.
• BPSI 493 Senior Honors Seminar I Units: 2
• BPSI 494 Senior Honors Seminar II Units: 2

Biopharmaceutical Sciences (BS)
The Bachelor of Science in Biopharmaceutical Sciences (BPS) offers a unique interdisciplinary approach designed to provide in-depth training in the discovery, development and commercialization of pharmaceutical products and their role in health care industries. Courses will focus on subdisciplines of pharmaceutical sciences including the study of the chemical and physical properties of drugs and their biological effects, and will link these systems to the discovery, development and commercialization of pharmaceuticals for the advancement of human health. Courses will also focus on the business and marketing aspects of the pharmaceutical industry.

The Bachelor of Science in Biopharmaceutical Sciences will train students for diverse positions in industrial, academic or other research environments within the areas of drug discovery, development and commercialization. It will also prepare students for professional or graduate studies in graduate education in pharmaceutical, health care delivery, medical and basic sciences and post-baccalaureate professional education in medicine, pharmacy, business, regulatory and quality science, finance and law.

The Bachelor of Science in Biopharmaceutical Sciences will be a springboard to diverse careers in industrial, academic or other research environments within the areas of drug discovery, development and commercialization. It also will prepare students for professional or graduate studies in graduate education in pharmaceutical, medical and basic sciences and post-baccalaureate professional education in biomedical engineering, business, finance and law.

The Bachelor of Science in Biopharmaceutical Sciences requires the completion of a minimum of 128 units that include:
1. General Education and Writing Requirements
2. Foundational courses designed to prepare students for the major
3. An introductory 4-unit lower-division (200 level) course in Pharmaceutical and Regulatory Science (RXRS)
4. A minimum number of 32 units of upper-division (300 level and above) courses in Biopharmaceutical Sciences (BPSI) and Pharmaceutical and Regulatory Science (RXRS)
5. A minimum of 8 units of upper-division (300 level and above) courses in Biological Sciences (BISC) unique to the major

Students interested in pursuing advanced degrees in pharmacy, medicine, chemistry or dentistry are encouraged to take organic chemistry and/or physics.

The Bachelor of Science in Biopharmaceutical Sciences is conferred by the USC School of Pharmacy.

Calculus
Select one course.
• MATH 108g Contemporary Precalculus Units: 4
• MATH 119g Fundamental Principles of Calculus Units: 4
• MATH 125g Calculus I Units: 4

Statistics
Select one course.
• BME 423 Statistical Methods in Biomedical Engineering Units: 4
• ECON 317 Introduction to Statistics for Economists Units: 4
• HP 340Lg Health Behavior Statistical Methods Units: 4
• MATH 208x Elementary Probability and Statistics Units: 4
• PSYC 274Lg Statistics Units: 4
• SOCI 314Lg Analyzing Social Statistics Units: 4
• QBIO 305g Statistics for Biological Sciences Units: 4

Chemistry
Select two courses from either the general chemistry or the advanced general chemistry series.
• CHEM 105aLg General Chemistry Units: 4
• CHEM 105bl General Chemistry Units: 4
• CHEM 115aLg Advanced General Chemistry Units: 4
• CHEM 115bl Advanced General Chemistry Units: 4

Biology
Select two courses from either the general biology or the advanced general biology series.
• BISC 120Lg General Biology: Organismal Biology and Evolution Units: 4
Biopharmaceutical Sciences (BPSI) and Pharmaceutical and Regulatory Science (RXRS) Unit Requirement
Students must complete a minimum of 36 units of BPSI or RXRS coursework, including one 4-unit lower-division RXRS course and a minimum of 32 units of upper-division (300 level and above) BPSI or RXRS coursework. A maximum of 4 units can be met by taking Directed Research (BPSI 490).

Pharmaceutical and Regulatory Science (RXRS) Requirement (Part 1)
One course.
• RXRS 200 Approaches to Pharmacology and Drug Development: 4

Biopharmaceutical Sciences (BPSI) Requirement (Part 2)
One course.
• BPSI 402 Biopharmaceutics I: 4

Biopharmaceutical Sciences (BPSI) Requirement (Part 3)
Select one course.
• BPSI 407 Pharmaceutical and Health Economics: 4
• BPSI 410 Biopharmaceutical Product Development and Brand Planning: 4
• BPSI 411 Biopharmaceutical Marketing Analysis and Strategy: 4

Biopharmaceutical Sciences (BPSI) Requirement (Part 4)
Select four courses.
• BPSI 403 Biopharmaceutics II: 4
• BPSI 405 Organ Systems Physiology, Drug Delivery and Drug Action: 4
• BPSI 406 Drug Safety Pharmacology and Toxicology: 4
• BPSI 408 Biologics and Vaccines: 4
• BPSI 412 Targeted and Precision Medicines: 4

Biopharmaceutical Sciences (BPSI) and Pharmaceutical and Regulatory Science (RXRS) Requirement (Part 5)
Select a minimum of two courses totaling a minimum of 8 units.
Can be a combination of BPSI and RXRS coursework.
• BPSI 413 Rigor, Resources and Reproducibility: 2
• BPSI 414 Pharmacoeconomics: 2
• BPSI 415 Science Talk: 2
• BPSI 490x Directed Research: 1, 2, 3, 4, 5, 6, 7, 8
• RXRS 407 The Discovery, Development and Marketing of Medicines: 4
• RXRS 413w Globalization of the Biomedical Industry: 4
• RXRS 422 Regulation, Guidance and Control of Medical Products: 2

Biological Sciences (BISC) Requirement
Select two courses.
• BISC 300L Introduction to Microbiology: 4
• BISC 307L General Physiology: 4
• BISC 320Lg Molecular Biology: 4
• BISC 330L Biochemistry: 4

Undergraduate Honors Program (optional)
The undergraduate honors in Biopharmaceutical Sciences is awarded through successful completion of the senior capstone project. The project is a demonstration of knowledge in the student’s chosen area of interest which results in a product/project, research data, research paper, or portfolio of work, and a presentation. This experience encourages students to use a variety of skills in the areas of writing, speaking, research and documentation, which distinguishes them as scholars and future leaders in pharmacy.
• BPSI 493 Senior Honors Seminar I: 2
• BPSI 494 Senior Honors Seminar II: 2

Pharmacology and Drug Development (BA)
The Bachelor of Arts in Pharmacology and Drug Development (PDD) provides a well-defined pathway for science and non-science majors to gain significant knowledge in pharmacology, pharmaceutical sciences, toxicology and medical product development, regulation, marketing and use.

The Bachelor of Arts in Pharmacology and Drug Development is a cooperative degree program involving the USC Dornsife College of Letters, Arts and Sciences and the USC School of Pharmacy. Students complete 128 units, including at least 70 units of coursework in USC Dornsife and at least 36 units of coursework in USC School of Pharmacy.

The Bachelor of Arts in Pharmacology and Drug Development offers a unique interdisciplinary approach designed to provide in-depth training in the discovery, development and commercialization of pharmaceutical products and their role in health care industries. Courses focus on sub disciplines of pharmaceutical sciences including the study of the chemical and physical properties of drugs and their biological effects, and will link these systems to the discovery, development and commercialization of pharmaceuticals for the advancement of human health. Courses will also focus on the business and marketing aspects of the pharmaceutical industry.

The Bachelor of Arts in Pharmacology and Drug Development will be a springboard to diverse careers in industrial, academic or other research environments within the areas of drug discovery, development, and commercialization. It will prepare students for professional or graduate studies in graduate education in pharmaceutical, medical and basic sciences and post-baccalaureate professional education in biomedical engineering, business, finance and law.

The Bachelor of Arts in Pharmacology and Drug Development requires the completion of a minimum of 128 units that include:
1. General Education, Foreign Language and Writing Requirements
2. Foundational courses designed to prepare students for the major
3. An introductory 4-unit lower-division (200 level) course in Pharmaceutical and Regulatory Science (RXRS)
4. A minimum number of 32 units of upper-division (300 level and above) courses in Pharmaceutical and Regulatory Science (RXRS) and Biopharmaceutical Sciences (BPSI)
5. A minimum of 8 units of upper-division (300 level and above) courses in Biological Sciences (BISC) unique to the major

The Bachelor of Arts in Pharmacology and Drug Development is conferred by USC Dornsife.

Pharmacology and Drug Development (BS)
The Bachelor of Science in Pharmacology and Drug Development (PDD) provides a well-defined pathway for science and non-science majors to gain significant knowledge in pharmacology, pharmaceutical sciences, toxicology and medical product development, marketing and use.
Pharmacology is the science of drugs including their origin, composition, pharmacokinetics, pharmacodynamics, therapeutic uses and toxicology. Drug development is the discipline that deals with the process of turning a new chemical entity (NCE) into a safe and effective medication for the advancement of human health. Completion of the PDD major will significantly prepare USC undergraduates for advanced training in health related fields including pharmacy, medicine, dentistry, occupational therapy and other clinical specialties. The PDD major is also uniquely suited to provide coursework applicable for undergraduates interested in drug discovery/development training that will lead to careers in biotech, pharmaceutical and biomedical industries ranging from private companies to governmental careers.
The Bachelor of Science in Pharmacology and Drug Development requires the completion of a minimum of 128 units that include:
1. General Education and Writing Requirements
2. Foundational courses designed to prepare students for the major
3. An introductory 4-unit lower-division (200 level) course in Pharmaceutical and Regulatory Science (RXRS)
4. A minimum number of 32 units of upper-division (300 level and above) courses in Pharmaceutical and Regulatory Science (RXRS)
5. A minimum of 8 units of upper-division (300 level and above) courses in Biological Sciences (BISC) unique to the major.

The Bachelor of Science in Pharmacology and Drug Development provides a novel path for science and non-science undergraduates at USC to gain significant knowledge in the disciplines of pharmacology and drug development. Pharmacology is the science of drugs including their origin, composition, pharmacokinetics, pharmacodynamics, therapeutic uses and toxicology. Drug development is the discipline that deals with the process of turning a new chemical entity (NCE) into a safe and effective medication for the advancement of human health. Completion of the major will prepare students for advanced clinical training in health-related fields including pharmacy, medicine and dentistry. It will also provide foundational education that can lead to new opportunities for students considering careers in biotech, pharmaceutics and biomedical industries.

The Bachelor of Science in Pharmacology and Drug Development is conferred by the USC School of Pharmacy.

- RXRS 421 Management and Operation of Clinical Trials: 4

### Pharmaceutical and Regulatory Science (RXRS) and Biopharmaceutical Sciences (BPSI) Unit Requirement (Part 5)
The remaining units may be selected from the following RXRS and/or BPSI courses, including, but not limited to:
- BPSI 412 Targeted and Precision Medicines: 4
- BPSI 413 Rigor, Resources and Reproducibility: 2
- BPSI 414 Pharmacoethics: 2
- BPSI 415 Science Talk: 2
- RXRS 405 Breaking Brains: The Pharmacology of Addiction: 4
- RXRS 406 Clinical Pharmacology and Medication Management: 4
- RXRS 412 Ethics, Drugs and Society: 4
- RXRS 417 Food Safety: The Good, The Bad and The Deadly: 4
- RXRS 418 Plant Medicines in Modern Medicine: 4
- RXRS 422 Regulation, Guidance and Control of Medical Products: 2
- RXRS 490 Directed Research: 1, 2, 3, 4, 5, 6, 7, 8
A maximum of 4 units can be met by taking Directed Research (RXRS 490)
Biological Sciences (BISC) Requirement
Select two courses.
- BISC 300L Introduction to Microbiology Units: 4
- BISC 307L General Physiology Units: 4
- BISC 320Lg Molecular Biology Units: 4
- BISC 330L Biochemistry Units: 4

Undergraduate Honors Program (optional)
- RXRS 493x Senior Honors Seminar I Units: 2
- RXRS 494x Senior Honors Seminar II Units: 2

Minor
Biopharmaceutical Business Minor

The minor in Biopharmaceutical Business will provide a foundation in biopharmaceutical business and marketing practices that can be used in a variety of careers. For example, graduates may find jobs in product development, marketing and brand management in the biopharmaceutical industry. Beyond the biopharmaceutical industry, graduates may apply their knowledge to applied business areas of medical and pharmacy practice, healthcare law, healthcare finance and healthcare consulting.

Students who minor in Biopharmaceutical Business must take a minimum of six upper-division courses in BPSI and/or RXRS, totaling at least 22 units. At least 16 units of course work must be from BPSI and must not overlap with the major, another minor or general education requirements of the undergraduate students. A maximum of 4 units can be met by taking Directed Research (BPSI 490x).

Only students with a declared major are eligible to apply. Students must be in sophomore standing and have completed a minimum of 32 USC units as an entering freshman or 16 units as an entering transfer student.

Students will select course work in consultation with an academic adviser.

Biopharmaceutical Sciences (BPSI) and Pharmaceutical and Regulatory Science (RXRS) Unit Requirement

Students must complete a minimum of six upper-division courses in BPSI and/or RXRS, totaling at least 22 units. At least 16 units of course work must be from BPSI. A maximum of 4 units can be met by taking Directed Research (BPSI 490x).

Part 1: Biopharmaceutical Sciences (BPSI) Course Requirements

Three courses (10 units).
- BPSI 410 Biopharmaceutical Product Development and Brand Planning Units: 4
- BPSI 411 Biopharmaceutical Marketing Analysis and Strategy Units: 4
- BPSI 414 Pharmacoethics Units: 2

Part 2: Biopharmaceutical Sciences (BPSI) and Pharmaceutical and Regulatory Science (RXRS) Course Work

Complete a minimum of 12 units; at least 6 units must be selected from BPSI course work.
- BPSI 402 Biopharmaceutics I Units: 4
- BPSI 403 Biopharmaceutics II Units: 4
- BPSI 405 Organ Systems Physiology, Drug Delivery and Drug Action Units: 4
- BPSI 406 Drug Safety Pharmacology and Toxicology Units: 4
- BPSI 407 Pharmaceutical and Health Economics Units: 4
- BPSI 408 Biologics and Vaccines Units: 4
- BPSI 412 Targeted and Precision Medicines Units: 4
- BPSI 413 Rigor, Resources and Reproducibility Units: 2
- BPSI 415 Science Talk Units: 2
- RXRS 490x Directed Research Units: 1, 2, 3, 4, 5, 6, 7, 8
- RXRS 407 The Discovery, Development and Marketing of Medicines Units: 4
- RXRS 412 Ethics, Drugs and Society Units: 4
- RXRS 413w Globalization of the Biomedical Industry Units: 4
- RXRS 416 Medical Products: From Idea to Market Units: 4
- RXRS 421 Management and Operation of Clinical Trials Units: 4
- RXRS 422 Regulation, Guidance and Control of Medical Products Units: 2

Foundation in Regulatory Sciences Minor

The Foundation in Regulatory Sciences minor will deepen students' understanding of current regulations and quality practices with practical application in the development and commercialization of drugs, biologics and medical device products. This minor will broaden perspectives and integrate knowledge to allow students to effectively understand the regulatory process.

Students who minor in Foundation in Regulatory Sciences must take a minimum of five upper division RXRS courses, totaling at least 20 units. All courses must be at the 300 and 400 level, and must be unique to this minor and must not overlap with the major or another minor. A maximum of 4 units can be met by taking Directed Research (RXRS 490x).

Only students with a declared major are eligible to apply. Students must be in sophomore standing and have completed a minimum of 32 USC units as an entering freshman or 16 units as an entering transfer student.

Required Courses (12 units)
- RXRS 402 Human Pharmacology: Challenge of Therapeutics in Society Units: 4
- RXRS 413w Globalization of the Biomedical Industry Units: 4
- RXRS 416 Medical Products: From Idea to Market Units: 4

Electives (minimum of 8 RXRS course units)
Select a minimum of two RXRS courses totaling a minimum of 8 units. A maximum of 4 units can be met by taking Directed Research (RXRS 490x).

- RXRS 404 Mysterious Deaths: From Poisons in Literature and History to Forensic Toxicology Units: 4
- RXRS 403 Neuropharmacology in Health and Disease Units: 4
- RXRS 405 Breaking Brains: The Pharmacology of Addiction Units: 4
- RXRS 406 Clinical Pharmacology and Medication Management Units: 4
- RXRS 407 The Discovery, Development and Marketing of Medicines Units: 4
- RXRS 408 Arming the Immune System for Novel Therapies Units: 4
- RXRS 410 Cancer Biology and Pharmacotherapy Units: 4
- RXRS 411 Innovations in Medical Product Development Units: 4
- RXRS 412 Ethics, Drugs and Society Units: 4
- RXRS 414 Buzzed: Modern Substances of Abuse and Addiction Units: 4
- RXRS 417 Food Safety: The Good, The Bad and The Deadly Units: 4
- RXRS 418 Applied Statistics and Research Methods Units: 4
- RXRS 421 Management and Operation of Clinical Trials Units: 4
- RXRS 490x Directed Research Units: 1, 2, 3, 4, 5, 6, 7, 8

Science and Management of Biomedical Therapeutics Minor

The minor in Science and Management of Biomedical Therapeutics consists of a minimum of 20 units of Pharmaceutical and Regulatory Science (RXRS) course work, 16 of which must be at the 300 or 400 level, and which are unique to this minor and do not overlap with the major, another minor or general education requirements of the undergraduate students.

The minor in Science and Management of Biomedical Therapeutics requires a minimum of five RXRS courses. A maximum of 4 units can be met by taking Directed Research (RXRS 490). Only students with a declared major are eligible to apply. Students must be in sophomore standing and have
completed a minimum of 32 USC units as an entering freshman or 16 units as an entering transfer student. Course work within the minor will focus on domains of pharmacology, pharmaceutical sciences, toxicology, nutritional sciences, medical product development and drug use and abuse. Students will select course work in consultation with an academic adviser.

Required Pharmaceutical and Regulatory Science (RXRS) Course Work
To gain a solid foundation for the minor, at least two core courses (selected from the four below) are required:
- RXRS 402 Human Pharmacology: Challenge of Therapeutics in Society Units: 4
- RXRS 403 Neuropharmacology in Health and Disease Units: 4
- RXRS 407 The Discovery, Development and Marketing of Medicines Units: 4
- RXRS 416 Medical Products: From Idea to Market Units: 4

Pharmaceutical and Regulatory Science (RXRS) and Biopharmaceutical Sciences (BPSI) Course Work
The remaining units may be selected from the following RXRS and BPSI courses. A maximum of 4 units of lower-division course work is permitted. Students may select courses from the required course work category to complete the minimum five-course requirement.
- BPSI 405 Organ Systems Physiology, Drug Delivery and Drug Action Units: 4
- RXRS 200 Approaches to Pharmacology and Drug Development Units: 4
- RXRS 201p The History and Geography of Drugs Units: 4
- RXRS 302 Introduction to Pharmacology and Therapeutics Units: 4
- RXRS 304 Mysterious Deaths: From Poisons in Literature and History to Forensic Toxicology Units: 4
- RXRS 403 Neuropharmacology in Health and Disease Units: 4
- RXRS 407 The Discovery, Development and Marketing of Medicines Units: 4
- RXRS 408 Arming the Immune System for Novel Therapies Units: 4
- RXRS 410 Cancer Biology and Pharmacotherapy Units: 4
- RXRS 411 Innovations in Medical Product Development Units: 4
- RXRS 412 Ethics, Drugs and Society Units: 4
- RXRS 413w Globalization of the Biomedical Industry Units: 4
- RXRS 414 Buzed: Modern Substances of Abuse and Addiction Units: 4
- RXRS 417 Food Safety: The Good, The Bad and The Deadly Units: 4
- RXRS 418 Plant Medicines in Modern Medicine Units: 4
- RXRS 421 Management and Operation of Clinical Trials Units: 4
- RXRS 490x Directed Research Units: 1, 2, 3, 4, 5, 6, 7, 8

Joint Degree
Pharmaceutical Economics and Policy (PhD)
Application deadline: December 1
The Department of Economics and the Department of Pharmaceutical Economics and Policy (USC School of Pharmacy) jointly offer a program of study leading to the PhD degree and to the MA degree in the process of work toward the PhD degree. Required courses include both core requirements and area requirements. Core requirements include courses in economic theory, econometrics, and research methods. Area requirements include courses in health economics, pharmaceutical economics, welfare theory and applied econometrics. For a detailed description of this program, see the School of Pharmacy section of this catalogue.

Master's Degree
Biopharmaceutical Marketing (MS)
Master of Science in Biopharmaceutical Marketing
The Master's Program in Biopharmaceutical Marketing (BPMK) is an intensive, industry focused and uniquely targeted program designed to produce graduates whose undergraduate and graduate backgrounds in marketing, communication, biological and pharmaceutical, related sales and advertising, drug management and other healthcare-involved business are enhanced by knowledge and skills appropriate for a highly regulated environment, specifically in the application and practice of biopharmaceutical marketing. Biopharmaceutical marketing is a uniquely emerging branch of drug product development, management, market placement, access and insurance coverage, outcomes and value determinations that functions at the intersection of audience segmented product marketing, healthcare industry and government regulatory issues and treatment efficiency, including value and reimbursement. This program will provide the opportunity for mid-career professionals as well as highly motivated new graduates to enter a field in which public and private payers, biopharmaceutical industry and government cannot find sufficient qualified individuals and technically skilled managers to meet demand.

The Biopharmaceutical Marketing Master of Science (BPMK) program will require 27 academic units of formal course work, selected in consultation with an adviser. Course requirements normally include a minimum of seven courses and may include a capstone (21 units total) from the BPMK program with emphasis on biopharmaceutical marketing, market research and analysis, business intelligence, and applied health care policy. Recommended course work and electives include some courses available in other departments of the university. These courses will be selected in consultation with program advisers according to the areas of intended specialization of the participant in order to meet the credit requirements of the program. Students should develop a specific plan of study in consultation with the graduate advisers before beginning the program.

Clinical and Experimental Therapeutics (MS)
A Master of Science in Clinical Experimental and Therapeutics (28 units) will be granted on the basis of completion of at least 24 units of formal course work, in addition to 4 units earned by either completing a master's thesis (CXPT 594a and CXPT CXPT 594b, both 2-unit courses based on the results of an original investigation), or by completing a non-thesis option which entails writing a comprehensive review paper on the topic selected with the adviser. Students must choose one of these options by the end of the first year of study.

Currently, there are four required courses totaling 15 units: CXPT 609, CXPT 610, CXPT 664 and PM 510L. The remaining 9 elective units will be selected from courses offered within the School of Pharmacy or in related disciplines outside the department, if approved by the Clinical Experimental Therapeutics Program Director. At least 75 percent of the 28 units must be at the 500 level or above. A maximum of 7 units of upper-division, 400-level courses may be applied toward the degree.

Healthcare Decision Analysis (MS)
Curriculum Requirements
A Master of Science degree in healthcare decision analysis will be granted upon completion of at least 33 units of formal course work. Students with experience in industry or government can substitute an equivalent amount of formal course work with a research project, subject to the approval from program administrators.

Course requirements normally include a minimum of eight courses (24 units) with emphasis on applied health care policy, business intelligence and technical analysis. Recommended
course work and electives include some courses available in other departments of the university and will be selected in consultation with the program advisers according to the areas of intended specialization of the participant in order to meet the credit requirements of the program. Students should develop a specific plan of study in consultation with the graduate advisers before beginning the program.

Grade Point Average
A grade point average of at least 3.0 (A = 4.0) must be achieved on graduate course work at USC.

Management of Drug Development (MS)
A Master of Science degree in the management of drug development will be granted upon completion of at least 32 units of course work. The program is offered on both a full-time and part-time basis, and courses are also available in distance formats. Course requirements normally include a minimum of three courses concerned with translational aspects of medical product development. Recommended courses to satisfy this core requirement include RSCI 531, RSCI 532, PSCI 664 or CXPT 069. The program must also include a minimum of one course in each of: regulatory science, quality assurance, clinical research, business and statistics. Students should develop a specific plan of study in consultation with graduate advisers before beginning the program.

Medical Product Development
Recommended coursework includes:
- CXPT 609 Preclinical Experimental Drug Therapeutic Development Units: 4
- PSCI 664 Drug Discovery and Design Units: 4
- RSCI 531 Industrial Approaches to Drug Discovery Units: 4
- RSCI 532 Early Stage Drug Development Units: 3

Medical Product Quality (MS)
To keep medical products safe and effective, a strong system of quality management is required. Quality is assured through compliance with strict regulations and is assessed by regulatory agencies through audits and inspections. A Master of Science degree in Medical Product Quality is a specialized program designed to prepare individuals to function effectively as quality specialists in pharmaceutical and medical device sectors. The degree will be granted upon completion of at least 32 units of course work. Course requirements normally include a minimum of four courses concerned with the quality aspects of medical product development and manufacturing and a minimum of one course each in regulatory science, risk management, statistics and project management. The program is offered on both a full-time and part-time basis, and courses are also available in distance formats. Students should develop a specific plan of study in consultation with their graduate adviser before beginning the program.

Molecular Pharmacology and Toxicology (MS)
A Master of Science in Molecular Pharmacology and Toxicology (28 units) will be granted on the basis of completion of at least 24 units of formal course work, in addition to four units earned by either completing and successfully presenting a thesis (MPTX 594a and MPTX 594b, both 2-unit courses based on the results of an original investigation), or by completing a non-thesis option. Students must choose one of these options by the end of the first year of study.

Three courses (12 units) are required from Department of Pharmacology and Pharmaceutical Sciences: PSCI 501, PSCI 502 and PSCI 503. Additionally, four units are in a degree-specific required course: MPTX 500.

The remaining units will be taken from courses offered within the Department of Pharmacology and Pharmaceutical Sciences or in various related disciplines outside the department, if approved by the Department of Pharmacology and Pharmaceutical Sciences Graduate Affairs Committee.

All 28 units must be at the 500 level or above.

Pharmaceutical Economics and Policy (MS)
The Department of Pharmaceutical Economics and Policy (School of Pharmacy) offers a program of study leading to the MS degree. Applicants must apply to the Graduate School and meet the admissions requirements of the program. This program requires students to demonstrate skills in the analysis of pharmaceutical and health technology innovations, as well as an understanding of contemporary health policy issues.

A minimum of 36 units of graduate level courses is required.

Grade Point Average
A grade point average of at least 3.0 (A = 4.0) must be achieved on graduate course work at USC.

Recommended Courses
Students must complete all recommended courses for the degree within five years of entry into the program. It is recommended that the student complete the following 36 units of graduate level course work.

- PPD 501a Economics for Policy, Planning and Development Units: 2 and
- PPD 501b Economics for Policy, Planning and Development Units: 2
- HCDA 506 Foundations of Insurance and Global Access Units: 3
- PMEP 509 Research Design Units: 4
- PMEP 525 Pharmacoeconomics I Units: 4
- PMEP 526 Pharmacoeconomics II Units: 2
- PMEP 527 Pharmacoeconomics III Units: 4 or approved elective
- PMEP 535 Behavioral Science and Policy in Healthcare Units: 4
- PMEP 539 Economic Assessment of Medical Care Units: 4
- PMEP 547 Programming Methods for Empirical Analysis of Health Data Units: 4
- PMEP 551 Introduction to Health Econometrics Units: 4
- PMEP 552 Advanced Health Econometrics I Units: 4 or approved elective
- PMEP 590 Directed Research Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12

Note:
* The student must satisfactorily complete the recommended courses in public administration (PPD 501a and PPD 501b) prior to enrolling in PMEP 525 and PMEP 526.

Additional Degree Requirements
The student is also required to complete an empirical research project on a topic relevant to pharmaceutical economics and policy. This paper will be completed under the advisement of a faculty member in the Department of Pharmaceutical and Health Economics and be approved by two additional faculty.

List of Approved Electives
- ECON 401 Mathematical Methods in Economics Units: 4
- ECON 415 Behavioral Economics Units: 4
- ECON 419 Advanced Econometrics Units: 4
- ECON 500 Microeconomic Analysis and Policy Units: 4
- ECON 513 Practice of Econometrics Units: 4
- ECON 601 Microeconomic Theory I Units: 4
- ECON 603 Microeconomic Theory II Units: 4
- ECON 604 Game Theory Units: 4
- ECON 611 Probability and Statistics for Economists Units: 4
- ECON 615 Applied Econometrics Units: 4
- ECON 688 Empirical Industrial Organization Units: 4
- HCDA 506 Foundations of Insurance and Global Access Units: 3
- HCDA 507 Foundations of Product Development and Commercialization Units: 3
- MEDS 500 Basic Concepts in Global Health Units: 4
- PM 510L Principles of Biostatistics Units: 4
• PM 511aL Data Analysis Units: 4
• PM 511bL Data Analysis Units: 4
• PM 511cL Data Analysis Units: 4
• PM 512 Principles of Epidemiology Units: 4
• PM 523 Design of Clinical Studies Units: 3
• PM 537 Program Evaluation and Research Units: 4
• PM 552 Statistical Methods in Clinical Trials Units: 3
• PM 560 Statistical Programming With R Units: 2
• PSYC 426 Motivated Behaviors and Addiction Units: 4

Pharmaceutical Sciences (MS)
A Master of Science in Pharmaceutical Sciences (28 units) will be granted on the basis of completion of at least 24 units of formal course work, in addition to 4 units earned by either completing and successfully presenting a thesis (PSCI 594a and PSCI 594b, both 2-unit courses based on the results of an original investigation), or by completing a non-thesis option. Students must choose one of these options by the end of the first year of study.

Three courses (12 units) are required from Department of Pharmacology and Pharmaceutical Sciences: PSCI 501, PSCI 502 and PSCI 503. Additionally, 4 units are in a degree-specific required course: PSCI 665.

The remaining units will be taken from courses offered within the Department of Pharmacology and Pharmaceutical Sciences or in various related disciplines outside the department, if approved by the Department of Pharmacology and Pharmaceutical Sciences Graduate Affairs Committee.

All 28 units must be at the 500 level or above.

Regulatory Management (MS)
Regulatory management relates to the leadership of teams involved in the regulatory and legal requirements of biomedical product development to the scientific study needed to establish product safety and efficacy. The Master of Science in Regulatory Management program is designed to provide post-doctoral scientists with the knowledge and skills necessary to become leaders in regulatory and clinical research. A Masters of Science in Regulatory Management will be granted upon completion of at least 24 units of formal course work. Degree requirements include courses concerned with the regulatory aspects of medical product development, quality assurance, clinical research and business. Students should develop a specific plan of study in consultation with the graduate advisers before beginning the program.

Course Work
Students may select courses from areas within the regulatory science program, including from regulatory science, quality management, and clinical development, including that of business, human resource management, and project management. Suggested course options include but are not limited to the following:

• MPTX 511 Introduction to Medical Product Regulation Units: 3
• MPTX 512 Regulation of Pharmaceutical and Biological Products Units: 3
• MPTX 513 Regulation of Medical Devices and Diagnostics Units: 3
• MPTX 517 Structure and Management of Clinical Trials Units: 4
• RSCI 590 Directed Research Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12

Regulatory Science (MS)
Regulatory science relates the regulatory and legal requirements of biomedical product development to the scientific study needed to establish product safety and efficacy. A Master of Science degree in regulatory science will be granted upon completion of at least 36 units of formal course work. Course requirements normally include a minimum of three courses concerned with regulatory aspects of medical product development and a minimum of one course each in quality assurance, clinical research, business, statistics and law. Recommended course work includes some courses available in other departments of the university. Students should develop a specific plan of study in consultation with the graduate advisers before beginning the program.

Dual Degree
Doctor of Pharmacy/Doctor of Philosophy (PharmD/PhD)
The Doctor of Pharmacy/Doctor of Philosophy (PharmD/PhD) program is designed to permit qualified PharmD students with a bachelor of science or equivalent degree to pursue research training in the pharmaceutical sciences and toxicology. A student accepted into the joint program must meet all requirements for the PharmD, as well as the requirements for the PhD in the pharmaceutical sciences or toxicology sections listed in this catalogue. A maximum of 20 units from the PharmD program may be credited toward the PhD. Up to 12 units of these PharmD courses may, at the discretion of the student’s PhD adviser, be counted toward the required 24 units of core course work.

Admission Procedure
Students applying for the dual degree program must meet the respective admission requirements for each program. This includes having completed a baccalaureate degree from an accredited college or university with a minimum GPA of 3.0 and a minimum GRE score of 1000. Students will not be given special consideration for admission to either program because they are applying for the dual degree. Students may apply to the dual PharmD/PhD degree program in two ways. First, they may apply at the time they submit their PharmD application by concurrently submitting applications to both programs. Students who elect this approach must identify themselves on both applications as potential dual degree students. Students who are admitted to both programs will be offered admission to the PharmD and will be offered admission to the dual degree program contingent on passing all courses in their first year of the PharmD with a minimum 3.0 GPA. Students who are accepted by only one program may choose to attend that program but will not be eligible for the dual degree. Second, students can apply to the dual degree by submitting an application to one of the PhD programs in the School of Pharmacy during their first two years of enrollment in the PharmD prior to the respective published application deadlines for the PhD programs. Students who elect this approach must apply through the PharmD program. Students admitted to the PhD program using this approach will be offered admission to the dual degree contingent on their having maintained a minimum 3.0 GPA in the PharmD program.

Doctor of Pharmacy/Juris Doctor (PharmD/JD)
Admission Requirements
Admission to the dual Doctor of Pharmacy/Juris Doctor (PharmD/JD) program is competitive, and involves meeting admission requirements and gaining acceptance to both the School of Pharmacy and the USC Gould School of Law. Students will not be given special consideration for admission to either program because they are applying for the dual degree. Students who have a baccalaureate degree may apply to the dual PharmD/JD degree program in two ways. First, they may apply at the time they submit their PharmD application by concurrently submitting applications to both schools. Students who elect this approach must identify themselves on their PharmD applications as potential dual PharmD/JD degree students. Students who are admitted to both schools will be offered admission to the dual degree contingent on passing all courses in their first year of the PharmD with a minimum 3.0 GPA. Students pursuing the dual PharmD/JD degree must notify the law school in a timely fashion that they will be enrolling in the dual PharmD/JD degree program and will not matriculate at the law school until the following year. Students who are accepted by only one school may choose to attend that school but will not be eligible for the dual degree.
Second, students can apply to the dual degree by submitting an application to the Gould School of Law during their first year of enrollment in the PharmD program prior to the law school’s published application deadline. Students who elect this approach must apply through the School of Pharmacy. Students who are admitted to the law school using this approach would be offered admission to the dual degree contingent on passing all courses in their first year of the PharmD with a minimum 3.0 GPA. See the admissions section of the School of Pharmacy and the Gould School of Law for specific requirements.

PharmD Requirements
Dual degree students should graduate with their PharmD degrees at the completion of the first semester of the sixth academic year of the dual degree program. Students will be eligible to sit for the Pharmacy Board Exams after completion of the PharmD degree requirements. However, dual degree students will not actually be awarded their PharmD degrees until they complete requirements for both degrees. The PharmD requires 136 units.

Juris Doctor Requirements
Dual degree students must complete their JD course work during the second to sixth years of the dual degree program. Students cannot receive the JD degree under the requirements of the dual degree program without prior or simultaneous completion of the PharmD degree.

Both professions require passing a state board or bar exam to practice the respective professions. Neither of these professional doctoral degrees requires a thesis or comprehensive final exam. The JD requires 76 units.

Year I (P1) Curriculum

Fall
- PHRD 501 Pharmaceutics I Units: 3
- PHRD 502 Pharmaceutics II Units: 2
- PHRD 503 Biological Systems I Units: 4
- PHRD 511 Pharmacy Practice and Professionalism I Units: 5
- PHRD 515 Metabolism and Cell Biology Units: 2
- PHRD 521 Medicinal Chemistry Units: 2

Spring
- PHRD 504 Biological Systems II Units: 4
- PHRD 512 Pharmacy Practice and Professionalism II Units: 2
- PHRD 514 Calculations and Compounding Units: 2
- PHRD 516 Non-Prescription Therapies Units: 3
- PHRD 520 Introduction to Therapeutics Units: 2
- PHRD 552 Pharmaceutics III Units: 3
- Pharmacy Practice IPPE (2 unit; CR/NC or IP)

Year II (P2) Curriculum

Fall
- PHRD 508 Pharmacy Literature Analysis and Drug Information Units: 3
- PHRD 559 Therapeutics: Pharmacokinetics Units: 3
- PHRD 563 Case Conference 1 Units: 2
- PHRD 572 Therapeutics: General Medicine Units: 5
- PHRD 625 Hospital Pharmacy Practice Units: 1
- Pharmacy Practice IPPE (2 unit; CR/NC or IP)
- Electives: 1-3 units*

Spring
- PHRD 517 Pharmacogenetics Units: 2
- PHRD 564 Case Conference 2 Units: 2
- PHRD 570 Therapeutics: Central Nervous System Units: 5
- PHRD 603 Therapeutics: Endocrine System Units: 5
- PHRD 624 Community Pharmacy Practice Units: 2
- PHRD 634 Scholarly Project 1 Units: 1
- Pharmacy Practice IPPE (2 unit; CR/NC or IP)
- Electives: 1-3 units*

Year III (P3) Curriculum

Fall
- PHRD 611 Therapeutics: Infectious Diseases Units: 5
- PHRD 619 Therapeutics: Cardiovascular System Units: 5
- PHRD 622 Case Conference 3 Units: 2
- PHRD 633 Pharmacy Management and Economics Units: 2
- PHRD 635 Scholarly Project 2 Units: 1
- Pharmacy Practice IPPE (0 unit; CR/NC or IP)
- Electives: 1-3 units*

Spring
- PHRD 567 Pharmacy Law Units: 2
- PHRD 608 Therapeutics: Oncology and Immune Disorders Units: 5
- PHRD 623 Case Conference 4 Units: 1
- PHRD 636 Scholarly Project 3 Units: 1
- PHRD 650 APPE Gateway Units: 2
- Pharmacy Practice IPPE (0 unit; CR/NC or IP)
- Electives: 1-3 units*
- APPE Course (Optional): 6 units

Required Introductory Pharmacy Practice Experiences (IPPE) Courses
Students will be required to register for the following IPPE course sequences as indicated in the schedule above. Students will need to register for the second course of each sequence until they have completed the 80 hours of IPPE associated with each the first courses of each sequence. Students will be given a grade of Credit (CR) in the first course of each sequence once the 80 IPPE hours have been successfully completed.
- PHRD 627a Longitudinal Elective Pharmacy Practice Units: 2
- PHRD 627b Longitudinal Elective Pharmacy Practice Units: 0
- PHRD 629a Longitudinal Community Pharmacy Practice Units: 2
- PHRD 629b Longitudinal Community Pharmacy Practice Units: 0
- PHRD 631a Longitudinal Institutional Pharmacy Practice Units: 1, 2, 3
- PHRD 631b Longitudinal Institutional Pharmacy Practice Units: 0

Note:
*Elective courses: Students MUST complete a minimum of 3 units of elective courses for the PharmD degree. Students will be provided a list of courses approved each year.
**APPE courses are described below. Students may begin their APPEs in late March or early April of their P3 year and may be assigned to any of APPEs listed below.

Advanced Pharmacy Practice Experience (APPE)
Students must enroll in a minimum of six 6-unit six-week APPEs for a total of 36 units. Some students will take their APPEs entirely in their P4 year. Some will take one 6-unit APPE starting in the spring of their P3 year (late March/early April). Students will return to campus the last six weeks of their P4 year.

Required APPE Courses
Students must complete all APPE courses below (24 units) and the Doctor of Pharmacy Capstone courses (0 units).
- PHRD 701 Acute Care Clinical APPE Units: 6
- PHRD 704 Primary Care APPE Units: 6
- PHRD 705 Community Pharmacy APPE Units: 6
- PHRD 718 Hospital Pharmacy Practice APPE Units: 6
- PHRD 796a Doctor of Pharmacy Capstone Units: 0
- PHRD 796b Doctor of Pharmacy Capstone Units: 0, 1, 3

Elective APPE Courses
Students must complete 12 units from the list below.
- PHRD 714 Nuclear Pharmacy APPE Units: 6
- PHRD 725 International Pharmacy Practice Experience Units: 3, 6
The PharmD and the MPH degrees are awarded simultaneously upon completion of the School of Pharmacy and the Master of Public Health. Students must complete concurrently all requirements established by both schools for their respective degrees.

The program involves completion of the first year in the School of Pharmacy, the second in the Marshall School of Business, and then completion of the balance of both degrees during the third through fifth years. A total of 48 units must be completed in the Marshall School of Business.

First Year: Required Pharmacy School courses.
Second Year: Required MBA courses and graduate business electives.
Third to Fifth Years: remaining Pharmacy courses and graduate business electives sufficient to bring the total units completed in the Marshall School of Business to at least 48. Dual degree students may not count courses taken outside the Marshall School of Business toward the 48 units. The PharmD and the MBA are awarded simultaneously upon completion of the School of Pharmacy and the Marshall School of Business requirements.

MBA Admission Requirements
Applicants to this program must have a baccalaureate degree from an accredited college or university and should apply during their first year of pharmacy studies. Only students who have successfully completed one year in the School of Pharmacy will be considered for admission to the Marshall School of Business. See the Marshall School of Business for admission requirements.

Doctor of Pharmacy/Master of Public Health (PharmD/MPH)
The School of Pharmacy and the Master of Public Health program, in recognition of the rapidly changing health care environment, in response to the growing demand for pharmacists who are knowledgeable in both pharmacy and population-based health care issues, have developed a dual degree program. The joint PharmD/MPH degree will enable graduates to be more responsive to today's health care needs and will provide training for pharmacists who seek to be agents of change within the profession and to assume leadership roles in the pharmacy field and in public health at the local, state and national levels.

The PharmD and the MPH degrees are awarded simultaneously upon completion of the School of Pharmacy and the Master of Public Health requirements.

Admission Requirements and Procedures
Students applying for the dual degree program must meet the respective admission requirements for each program. This includes having completed a baccalaureate degree from an accredited college or university with a minimum GPA of 3.0 and having acceptable GRE and TOEFL or IELTS scores as applicable. Students will not be given special consideration for admission to either program because they are applying for the dual degree. Students may apply to the dual PharmD/MPH degree program in two ways. First, they may apply at the time they submit their PharmD application by concurrently submitting applications to both programs. Students who elect this approach must identify themselves on both applications as potential dual degree students. Students who are admitted to both programs will be offered admission to the PharmD and will be offered admission to the dual degree program contingent on passing all courses in their first year of the PharmD with a minimum 3.0 GPA. Students who are accepted by only one program may choose to attend that program, but will not be eligible for the dual degree. Second, students can apply to the dual degree by submitting an application to the MPH program during their first year of enrollment in the PharmD prior to the MPH published application deadline. Students who elect this approach must apply through the School of Pharmacy.

Year I (P1) Curriculum

Fall
- PHRD 501 Pharmaceutics I Units: 3
- PHRD 502 Pharmaceutics II Units: 2
- PHRD 503 Biological Systems I Units: 4
- PHRD 511 Pharmacy Practice and Professionalism 1 Units: 5
- PHRD 515 Metabolism and Cell Biology Units: 2
- PHRD 521 Medicinal Chemistry Units: 2

Spring

- PHRD 623 Case Conference 4 Units: 1
- PHRD 636 Scholarly Project 3 Units: 1
- PHRD 650 APPE Gateway Units: 2
• Pharmacy Practice IPPE (0 unit; CR/NC or IP)
• Electives: 1-3 units*
• APPE Course (Optional): 6 units

Required Introductory Pharmacy Practice Experiences (IPPE) Courses:
Students will be required to register for the following IPPE course sequences as indicated in the schedule above. Students will need to register for the second course of each sequence when they have completed the 80 hours of IPPE associated with the first course of each sequence. Students will be given a grade of Credit (CR) in the first course of each sequence once the 80 IPPE hours have been successfully completed.

- PHRD 627a Longitudinal Elective Pharmacy Practice Units: 2
- PHRD 627b Longitudinal Elective Pharmacy Practice Units: 0
- PHRD 629a Longitudinal Community Pharmacy Practice Units: 2
- PHRD 629b Longitudinal Community Pharmacy Practice Units: 0
- PHRD 631a Longitudinal Institutional Pharmacy Practice Units: 1, 2, 3
- PHRD 631b Longitudinal Institutional Pharmacy Practice Units: 0

Note:
*Elective courses: Students MUST complete a minimum of 3 units of elective courses for the degree. Students will be provided a list of courses approved each year.
**APPE courses are described below. Students may begin their APPEs in late March or early April of their P3 year and may be assigned to any of APPEs listed below.

Advanced Pharmacy Practice Experience (APPE)
Students must enroll in a minimum of six 6-unit six-week APPEs for a total of 36 units. Some students will take their APPEs entirely in their P4 year. Some will take one 6-unit APPE starting in the spring of their P3 year (late March/early April). Students will return to campus the last six weeks of their P4 year.

Required APPE Courses
Students must complete all APPE courses below (24 units) and the Doctor of Pharmacy Capstone courses (0 units).

- PHRD 701 Acute Care Clinical APPE Units: 6
- PHRD 704 Primary Care APPE Units: 6
- PHRD 705 Community Pharmacy APPE Units: 6
- PHRD 718 Hospital Pharmacy Practice APPE Units: 6
- PHRD 796a Doctor of Pharmacy Capstone Units: 0
- PHRD 796b Doctor of Pharmacy Capstone Units: 0, 1, 3

Elective APPE Courses
Students must complete 12 units from the list below.

- PHRD 714 Nuclear Pharmacy APPE Units: 6
- PHRD 725 International Pharmacy Practice Experience Units: 3, 6
- PHRD 731 Advanced Geriatrics APPE Units: 6
- PHRD 738 Pharmaceutical Industry APPE Units: 6
- PHRD 750 Advanced Pharmacy Practice Elective (APPE) Units: 6
- PHRD 751 Non-traditional Advanced Pharmacy Elective (APPE) Units: 6

MPH Curriculum
Students in the PharmD/MPH dual degree must complete 38 units of MPH specific course work (18 units of MPH core + 20 units of concentration course work). Relevant courses taken in the School of Pharmacy will be counted toward the MPH concentration elective requirement.

Doctor of Pharmacy/Master of Science, Gerontology (PharmD/MS)
The emerging impact of the elderly on the health care system has created a need for health care providers who understand the unique needs of the elderly. As drug therapy remains the primary therapeutic option for chronic disease, the demand for prescription drugs will continue to rise. There is a demand for pharmacists who are equipped to meet the pharmaceutical care needs of this population. Geriatric pharmacy is recognized as a specialty, with board certification through the Commission for Certification in Geriatric Pharmacy. The PharmD/MS, Gerontology program will provide extensive education and training in the unique health care needs of older adults. It will allow student pharmacists with a career interest in geriatrics or gerontology to work with health care planning or delivery organizations to develop and implement progressive pharmaceutical care programs for the elderly.

Application and Admission Requirements
Students who intend to pursue the dual PharmD/MS degree must be accepted by both programs. This includes having completed a baccalaureate degree from an accredited college or university with a minimum GPA of 3.0 and a minimum equivalent GRE score of 1000. Students will not be given special consideration for admission to either program because they are applying for the dual degree. Students may apply to the PharmD/MS degree program in two ways. First, they may apply at the time they submit their PharmD application by concurrently submitting applications to both programs. Students who elect this approach must identify themselves on both applications as potential dual degree students. Students who are admitted to both programs will be offered admission to the PharmD and will be offered admission to the dual degree program. Second, students can apply to the dual degree by submitting an application to the MS program during their first year of enrollment in the PharmD or prior to the MS published application deadline. Students who elect this approach must apply through the School of Pharmacy. Students admitted to the MS program using this approach will be offered admission to the dual degree contingent on passing all courses in their first year of the PharmD with a minimum 3.0 GPA. Students accepted to the dual degree program must maintain a minimum 3.0 GPA in their Gerontology and PharmD courses.

Recommended Program
First year: Required Year I PharmD course work
Second year: Required Gerontology course work
Third year: Required Year II PharmD course work
Fourth year: Required Year III PharmD course work
Fifth year: Required Year IV PharmD course work

Graduation Requirements
Students must complete all requirements for the PharmD (see the Professional Degrees page) and MS. Gerontology degrees as listed in the current catalogue with a minimum cumulative 3.0 GPA. The specific MS course requirements for the dual PharmD/MS degree are listed on the School of Gerontology Dual Degree Programs page.

Doctor of Pharmacy/Master of Science, Global Medicine (PharmD/MS)
The dual degree in Pharmacy and Global Medicine is designed for students who are interested in providing pharmaceutical care to underserved populations around the world. Students enrolled in this dual degree program will benefit from an advanced understanding of the role of, and issues surrounding, modern medicine in developing countries.

Requirements
Students must gain admission to and fulfill the degree requirements for both programs, which include 136 units for the Doctor of Pharmacy and 24 units for the MS in Global Medicine.

Program Adaptation
Because MEDS 503 and MEDS 504, core requirements for the MS in Global Medicine program, cover the same material as PHRD 503 and PHRD 504, the PharmD/IMS, Global Medicine dual degree program substitutes PHRD 503 and PHRD 504 for MEDS 503 and MEDS 504 as core requirements for the dual degree.
Year I (P1) Curriculum

Fall
- PHRD 501 Pharmaceutics I Units: 3
- PHRD 502 Pharmaceutics II Units: 2

- PHRD 559 Therapeutics: Pharmacokinetics Units: 3
- PHRD 563 Case Conference 1 Units: 2
- PHRD 572 Therapeutics: General Medicine Units: 5
- PHRD 625 Hospital Pharmacy Practice Units: 1
- Pharmacy Practice IPPE (2 unit; CR/NC or IP)
- Electives: 1-3 units*

Spring
- PHRD 517 Pharmacogenetics Units: 2
- PHRD 564 Case Conference 2 Units: 2
- PHRD 570 Therapeutics: Central Nervous System Units: 5
- PHRD 603 Therapeutics: Endocrine System Units: 5
- PHRD 624 Community Pharmacy Practice Units: 2
- PHRD 634 Scholarly Project 1 Units: 1
- Pharmacy Practice IPPE (2 unit; CR/NC or IP)
- Electives: 1-3 units*

Year III (P3) Curriculum

Fall
- PHRD 611 Therapeutics: Infectious Diseases Units: 5
- PHRD 619 Therapeutics: Cardiovascular System Units: 5
- PHRD 622 Case Conference 3 Units: 2
- PHRD 633 Pharmacy Management and Economics Units: 2
- PHRD 635 Scholarly Project 2 Units: 1
- Pharmacy Practice IPPE (0 unit; CR/NC or IP)
- Electives: 1-3 units*

Spring
- PHRD 567 Pharmacy Law Units: 2
- PHRD 608 Therapeutics: Oncology and Immune Disorders Units: 5
- PHRD 623 Case Conference 4 Units: 1
- PHRD 636 Scholarly Project 3 Units: 1
- PHRD 650 APPE Gateway Units: 2
- Pharmacy Practice IPPE (0 unit; CR/NC or IP)
- Electives: 1-3 units*
- APPE Course (Optional): 6 units

Required Introductory Pharmacy Practice Experiences (IPPE) Courses
Students will be required to register for the following IPPE course sequences as indicated in the schedule above. Students will need to register for the second course of each sequence until they have completed the 80 hours of IPPE associated with the first course of each sequence. Students will be given a grade of Credit (CR) in the first course of each sequence once the 80 IPPE hours have been successfully completed.
- PHRD 627a Longitudinal Elective Pharmacy Practice Units: 2
- PHRD 627b Longitudinal Elective Pharmacy Practice Units: 0
- PHRD 629a Longitudinal Community Pharmacy Practice Units: 2
- PHRD 629b Longitudinal Community Pharmacy Practice Units: 0
- PHRD 631a Longitudinal Institutional Pharmacy Practice Units: 1, 2, 3
- PHRD 631b Longitudinal Institutional Pharmacy Practice Units: 0

Note:
*Elective courses: Students MUST complete a minimum of 3 units of elective courses for the PharmD degree. Students will be provided a list of courses approved each year.
**APPE courses are described below. Students may begin their APPEs in late March or early April of their P3 year and may be assigned to any of APPEs listed below.

Advanced Pharmacy Practice Experience (APPE)
Students must enroll in a minimum of six 6-unit six-week APPEs for a total of 36 units. Some students will take their APPEs entirely in their P4 year. Some will take one 6-unit APPE starting in the spring of their P3 year (late March/early April). Students will return to campus the last six weeks of their P4 year.

Required APPE Courses
Students must complete all APPE courses below (24 units) and the Doctor of Pharmacy Capstone courses (0 units).
- PHRD 701 Acute Care Clinical APPE Units: 6
- PHRD 704 Primary Care APPE Units: 6
- PHRD 705 Community Pharmacy APPE Units: 6
- PHRD 718 Hospital Pharmacy Practice APPE Units: 6
- PHRD 796a Doctor of Pharmacy Capstone Units: 0
- PHRD 796b Doctor of Pharmacy Capstone Units: 0,1,3

Elective APPE Courses
Students must complete 12 units from the list below.
- PHRD 714 Nuclear Pharmacy APPE Units: 6
- PHRD 725 International Pharmacy Practice Experience Units: 3, 6
- PHRD 731 Advanced Geriatrics APPE Units: 6
- PHRD 738 Pharmaceutical Industry APPE Units: 6
- PHRD 750 Advanced Pharmacy Practice Elective (APPE) Units: 6
- PHRD 751 Non-traditional Advanced Pharmacy Elective (APPE) Units: 6

Doctor of Pharmacy/Master of Science, Regulatory Science (PharmD/MS)
Regulatory science is the branch of knowledge that relates the regulatory and legal requirements of biomedical product development to the scientific testing and oversight needed to ensure product safety and efficacy. The program provides an opportunity for advanced preparation in the fields of regulatory affairs, quality assurance and clinical research. Students must complete concurrently all of the requirements established for the respective degrees. The program alternates the courses required for the PharmD program during the fall and spring terms with courses required in summer terms for the MS program. Students will typically take courses in the summers of years two to four. Up to 12 appropriate units of course work from the PharmD program can be applied toward the MS degree. The PharmD and the MS, Regulatory Science degrees will be awarded simultaneously upon completion of requirements for the two programs.

Admission Requirements and Procedures
Students applying for the dual degree program must meet the respective admission requirements for each program and must have a baccalaureate degree. Students will not be given special consideration for admission to either program because they are applying for the dual degree. Students may apply to the dual PharmD/MS, Regulatory Science degree program in two ways. First, they may apply at the time they submit their
PharmD application by concurrently submitting applications to both programs. Students who elect this approach must identify themselves on both applications as potential dual degree students. Students who are admitted to both programs will be offered admission to the PharmD and will be offered admission to the dual degree program contingent on passing all courses in their first year of the PharmD with a minimum 3.0 GPA. Students who are accepted by only one program may choose to attend that program but will not be eligible for the dual degree. Second, students can apply to the dual degree by submitting an application to the MS in Regulatory Science program during their first or second year of enrollment in the PharmD prior to the MS in Regulatory Science published application deadline. Students who elect this approach must apply through the School of Pharmacy. Students admitted to the MS in Regulatory Science using this approach will be offered admission to the dual degree contingent on passing all courses in their PharmD studies with a minimum 3.0 GPA.

Healthcare Decision Analysis (PharmD/MS)

The Healthcare Decision Analysis (HCDA) program gives students the tools and knowledge to succeed in the complex world of healthcare data analytics, international access and reimbursement, product pricing and value assessment, insurance operations and design, along with competitive business intelligence. A dual degree of Doctor of Pharmacy and Master of Science in Healthcare Decision Analysis will be granted upon the completion of the course work required for the PharmD degree, and the HCDA core and elective units. Dual degree students will be credited up to 9 units of appropriate PharmD course work toward the MS, HCDA. Dual degree students will select from a series of HCDA core courses and required electives to meet the MS, HCDA degree requirements. Electives will be considered from the disciplines: applied healthcare policy, business intelligence, regulatory science, and healthcare economics, along with all required clerkships and rotations offered through the USC School of Pharmacy. Students should develop a specific plan of study in consultation with program administrators before beginning the program.

Graduate Certificate

Advanced Pharmacy Practice Graduate Certificate

The USC School of Pharmacy Graduate Certificate for Advanced Pharmacy Practice program provides an accelerated pathway to licensure for foreign-trained pharmacists with advanced degrees. Participants, who must have FPGEC certification to enroll, will benefit from the extensive network for pharmacy practice rotations at USC to complete four core 6-unit rotations and 12 units of elective rotations. Participants will also enroll in the Capstone course that prepares them for the NAPLEX and CPJE exams.

Required Courses (24 Units)
- PHRD 701 Acute Care Clinical APPE Units: 6
- PHRD 704 Primary Care APPE Units: 6
- PHRD 705 Community Pharmacy APPE Units: 6
- PHRD 718 Hospital Pharmacy Practice APPE Units: 6
- PHRD 796a Doctor of Pharmacy Capstone Units: 0
- PHRD 796b Doctor of Pharmacy Capstone Units: 0,1,3

Elective Courses (12 Units)
Must take two courses from the options below:
- PHRD 714 Nuclear Pharmacy APPE Units: 6
- PHRD 725 International Pharmacy Practice Experience Units: 3, 6
- PHRD 731 Advanced Geriatrics APPE Units: 6
- PHRD 738 Pharmaceutical Industry APPE Units: 6
- PHRD 750 Advanced Pharmacy Practice Elective (APPE) Units: 6
- PHRD 751 Non-traditional Advanced Pharmacy Elective (APPE) Units: 6

Minimum Units Required: 36

Biopharmaceutical Marketing Certificate

The BPMK Certificate is ideal for professionals across the healthcare industry, working clinical professionals, and those in fields allied to healthcare delivery and systems. Specifically, the BPMK certificate seeks students who want to pursue a related career in the biopharmaceutical industry or simply those who wish to expand their current understanding of industry business practices as part of expanding their overall learning experiences such as Medicine, Law and Consulting. Students are required to complete 12 total units to be eligible for the BPMK Certificate, selected in consultation with an adviser.

Required Courses (6 units)
The following three courses are recommended as the core set:
- BPMK 500 Biopharmaceutical Marketing Management Units: 3
- BPMK 502 Biopharmaceutical Product Development and Marketing Units: 3 or
- HCDA 507 Foundations of Product Development and Commercialization Units: 3

Elective Requirement (6 units)
Eligible students may select from any of the following alternative courses to complete the 6 unit elective requirement:
- BPMK 502 Biopharmaceutical Product Development and Marketing Units: 3
- BPMK 503 Biopharmaceutical Advertising and Communication Units: 3
- BPMK 504 Market Access and Reimbursement Strategy Units: 3
- BPMK 505 Product Health Economics and Valuation Units: 3
- BPMK 506 Biopharmaceutical Product Pricing and Competition Units: 3
- BPMK 508 Biopharmaceutical Marketing Research and Analytics Units: 3
- BPMK 509 Seminars in Biopharmaceutical Marketing Units: 1
- HCDA 502 Comparative International Healthcare Systems Units: 3
- HCDA 503 Competitive Healthcare Intelligence Units: 3
- HCDA 506 Foundations of Insurance and Global Access Units: 3
- HCDA 510 Business Implications of Healthcare Policy Units: 3
- HCDA 520 Health Economic and Outcomes Methodology Units: 3
- HCDA 525 Healthcare Literature Analysis and Applications Units: 3
- HCDA 540 Executive Leadership and Healthcare Marketing Units: 3
- HCDA 550 Healthcare Innovation: Creativity to Value Units: 3
- HCDA 553 Advanced Pricing Strategies Units: 3
- HCDA 560 Managing Effective Partnerships and Mergers Units: 3

Clinical Research Design and Management Certificate

The graduate certificate in clinical research design and management is designed to strengthen the statistical, research and project management skills of clinical researchers and their associated clinical team members. Students must complete at least 12 units of course work including at least two courses in clinical design and trial management, one course in ethics and one course in a specialized aspect of design, management or statistics, subject to the approval of the program director. The program will include course work delivered in nontraditional formats such as intensive weekend sessions and will use distance learning tools, Webcast lectures and study materials. Courses can be taken on site, by distance or as a blended combination. Students should confirm their specific course work plan in consultation with the graduate advisers before beginning the program. Students who have bachelor's degrees from accredited colleges or universities must submit an application for graduate study through the
regulatory science program of the School of Pharmacy. GRE scores are not required for admission to the certificate program. Students are expected to enroll each semester until the program is completed.

Requirements

Introduction to Clinical Trials
- MPTX 517 Structure and Management of Commercial Trials Units: 4

Clinical Design/Statistics (choose one)
- MPTX 522 Introduction to Clinical Trial Design and Statistics Units: 3
- PM 510L Principles of Biostatistics Units: 4

Biomedical Ethics
- MPTX 602 Science, Research and Ethics Units: 2

Elective (choose at least one)
- MPTX 511 Introduction to Medical Product Regulation Units: 3
- MPTX 522 Introduction to Clinical Trial Design and Statistics Units: 3
- PM 510L Principles of Biostatistics Units: 4
- RSCI 506 Auditing Principles Units: 3
- RSCI 520 Introduction to Risk Management for Health Care Products Units: 2
- RSCI 527 Medical Product Safety Units: 3
- RSCI 603 Managing Complex Projects Units: 3

*Note: Cannot be double counted as an elective and the Clinical Design/Statistics requirement.

Food Safety Certificate
The graduate certificate in food safety is a 12-unit program of course work designed to strengthen the knowledge base and functional "toolkit" of individuals who deal with the production and management of food in industry and government. Students are required to take an entry level course that focuses on regulatory requirements for foods and dietary supplements and two additional courses that focus on food science and food/drug toxciology respectively. Final course work will be selected from a small grouping of electives that deal with quality systems or risk management. The program will include course work delivered in nontraditional formats, such as intensive weekend sessions, and will use distance learning tools, Webcast lectures and study materials. Courses can be taken on site, by distance or as a blended combination. Students should confirm their specific course work plan in consultation with the graduate adviser before beginning the program. Students who have bachelor's degrees from accredited colleges or universities must submit an application for graduate study through the Regents Science program of the School of Pharmacy. GRE scores are not required for admission to the certificate program. Students are expected to enroll each semester until the program is completed.

Requirements
- MPTX 514 Regulation of Food and Dietary Supplements Units: 3
- MPTX 524 Introduction to Food Science and Technology Units: 3
- RSCI 525 Introduction to Drug and Food Toxicology Units: 3

Quality/Risk Management Option:
Select at least one course (3 units):
- MPTX 511 Introduction to Medical Product Regulation Units: 3
- MPTX 515 Quality Systems and Standards Units: 3
- MPTX 526 Chemistry Manufacturing and Controls Units: 3
- RSCI 508 Quality Assurance for Drugs and Biologics Units: 3
- RSCI 509 Quality Assurance, Medical Devices and Combination Products Units: 3
- RSCI 520 Introduction to Risk Management for Health Care Products Units: 2
- RSCI 529 Application of Risk Management Tools and Techniques Units: 2

Healthcare Analytics and Operations Certificate
The certificate in Healthcare Analytics and Operations is an industry-focused program designed to produce graduates whose backgrounds in life sciences, patient care, drug management and other healthcare-related areas are enhanced by knowledge and skills appropriate for a highly complex and regulated healthcare business environment. The program requires 12 academic units of formal course work that is selected in consultation with an adviser. Course requirements normally include a minimum of four courses from the Healthcare Decision Analysis program that emphasize data analytics, modeling, operations, healthcare insurance and delivery. Recommended course work may include courses available in other programs at the School of Pharmacy and other departments of the university. These courses will be selected in consultation with program advisers. Students should develop a specific plan of study in consultation with the graduate advisers before beginning the program.

Recommended Courses
- HCDA 506 Foundations of Insurance and Global Access Units: 3
- HCDA 515 Healthcare Decision Analysis and Modeling Units: 3
- HCDA 572 Introduction to Healthcare Data Analytics Units: 3

Additional Recommended Courses
- HCDA 503 Competitive Healthcare Intelligence Units: 3
- HCDA 507 Foundations of Product Development and Commercialization Units: 3
- HCDA 510 Business Implications of Healthcare Policy Units: 3
- HCDA 520 Health Economic and Outcomes Methodology Units: 3
- HCDA 525 Healthcare Literature Analysis and Applications Units: 3
- HCDA 540 Executive Leadership and Healthcare Marketing Units: 3
- HCDA 553 Advanced Pricing Strategies Units: 3
- HCDA 560 Managing Effective Partnerships and Mergers Units: 3

Healthcare Decision Analysis Certificate
The Healthcare Decision Analysis (HCDA) Certificate program gives students the tools and knowledge to succeed in the complex world of healthcare data analytics, international access and reimbursement, product pricing and value assessment, insurance operations and design, along with competitive business intelligence. Course work is typically delivered in nontraditional formats such as intensive weekend sessions, Webcast lectures, and distance learning tools. Courses must be taken on-site. Students should confirm their specific course work plan in consultation with the graduate adviser before beginning the program. Students who have bachelor's degrees from accredited colleges or universities must submit an application for graduate study through the Healthcare Decision Analysis program. GRE scores are not required for admission to the certificate program. Students are expected to enroll each semester until the program is completed.

Required Courses
- HCDA 506 Foundations of Insurance and Global Access Units: 3
• HCDA 507 Foundations of Product Development and Commercialization Units: 3

Electives (select two):
• HCDA 501 Fundamentals of Healthcare Insurance Design Units: 3
• HCDA 502 Comparative International Healthcare Systems Units: 3
• HCDA 503 Competitive Healthcare Intelligence Units: 3
• HCDA 510 Business Implications of Healthcare Policy Units: 3
• HCDA 515 Healthcare Decision Analysis and Modeling Units: 3
• HCDA 520 Health Economic and Outcomes Methodology Units: 3
• HCDA 525 Healthcare Literature Analysis and Applications Units: 3
• HCDA 530 Total Product Development: Benchtop to Launch Units: 3
• HCDA 540 Executive Leadership and Healthcare Marketing Units: 3
• HCDA 550 Healthcare Innovation: Creativity to Value Units: 3
• HCDA 553 Advanced Pricing Strategies Units: 3
• HCDA 560 Managing Effective Partnerships and Mergers Units: 3
• HCDA 570 Asia Pacific: Access, Delivery and Reimbursement Units: 3

**Medical Product Quality Graduate Certificate**

The graduate certificate in Medical Product Quality is a 12-unit program designed for students with a background in biological, pharmaceutical and biomedical sciences and biomedical engineering. Quality assurance and quality control are the two functions in the biomedical industry that are responsible for the testing and oversight required to ensure the safety of the health care products that are manufactured. An essential tenet of regulatory oversight is the assurance of quality through guidelines, audits and inspections. In this program the regulations and guidelines to ensure the quality of drugs, biologics and medical devices, both in the United States and internationally, will be studied to develop an understanding of the basic principles important for the interpretation and implementation of quality practices and quality systems. Course work is typically delivered in nontraditional formats such as intensive weekend sessions and will use distance learning tools, Webcast lectures and study materials. Courses can be taken on site, by distance or as a blended combination. Students should confirm their specific course work plan in consultation with the graduate advisers before beginning the program. Students who have bachelor's degrees from accredited colleges or universities must submit an application for graduate study through the regulatory science program of the School of Pharmacy. GRE scores are not required for admission to the certificate program. Students are expected to enroll each semester until the program is completed.

Students must complete 12 units of specified course work, that normally will include an introductory course in the basic principles of risk management, a second course in the use of risk management tools, and two additional courses in patient and product safety respectively as listed below. In addition, a course in medical ethics is recommended. Most students will take the courses that are listed in the sample student program below, but if students have already strong previous experience in risk management or safety, other statistical or quality courses taught in graduate programs at USC may be substituted with the permission of the program director. The certificate can be completed on a part-time basis but must be finished within five years. Courses may be selected from the following recommended course list.

**Recommended Course List**

- **MPTX 515 Quality Systems and Standards Units: 3**
- **MPTX 517 Structure and Management of Clinical Trials Units: 4**
- **MPTX 602 Science, Research and Ethics Units: 2**
- **RSCI 520 Introduction to Risk Management for Health Care Products Units: 2**
- **RSCI 527 Medical Product Safety Units: 3**
- **RSCI 529 Application of Risk Management Tools and Techniques Units: 2**
- **RSCI 603 Managing Complex Projects Units: 3**

**Preclinical Drug Development Certificate**

The graduate certificate in preclinical drug development provides advanced foundational training in preclinical aspects of drug development, translational research and regulatory control. Students must complete at least 12 units of course work including at least three courses in preclinical design and development (typically, RSCI 530 Translational Medicine: An Overview; RSCI 531 Industrial Approaches to Drug Discovery; RSCI 532 Early Stage Drug Development) and one course in a related aspect of research design, regulation or ethics, subject to the approval of the program director. The program will include course work delivered in nontraditional formats such as intensive weekend sessions and will use distance capabilities, Webcast lectures and study materials. Courses can be taken on site, by distance or as a blended combination. Students should confirm their specific course work plan in consultation with graduate advisers before
beginning the program. Students who have baccalaureate degrees from accredited colleges or universities must submit an application for graduate study through the regulatory science program of the School of Pharmacy. GRE scores are not required for admission to the certificate program. Students are expected to enroll each semester until the program is completed.

**Regulatory and Clinical Affairs Certificate**

The graduate certificate in regulatory and clinical affairs is designed to provide specialized education for individuals interested in developing a systematic understanding of the U.S. regulatory system for medical products. Students must complete at least 12 units of course work including an introductory course in regulatory affairs:

**Requirements**

**Introductory Course (1 course)**
- MPTX 511 Introduction to Medical Product Regulation Units: 3
- RSCI 531 Industrial Approaches to Drug Discovery Units: 4
- RSCI 532 Early Stage Drug Development Units: 3

**Advanced Regulation (1 course)**
- MPTX 512 Regulation of Pharmaceutical and Biological Products Units: 3
- MPTX 513 Regulation of Medical Devices and Diagnostics Units: 3
- MPTX 514 Regulation of Food and Dietary Supplements Units: 3

**Clinical Trials (1 course)**
- MPTX 517 Structure and Management of Clinical Trials Units: 4
- MPTX 518 Writing Regulatory Drug Submissions Units: 3
- MPTX 522 Introduction to Clinical Trial Design and Statistics Units: 3
- MPTX 526 Chemistry Manufacturing and Controls Units: 3
- RSCI 525 Introduction to Drug and Food Toxicology Units: 3

**Quality Assurance and Risk Management (1 course)**
- MPTX 515 Quality Systems and Standards Units: 3
- RSCI 508 Quality Assurance for Drugs and Biologics Units: 3
- RSCI 509 Quality Assurance, Medical Devices and Combination Products Units: 3
- RSCI 520 Introduction to Risk Management for Health Care Products Units: 2

Minimum Units: 12

**Additional Requirements**

Other courses may be substituted with the approval of the program director. The program will include course work delivered in nontraditional formats such as intensive weekend sessions and will use distance capabilities to capture and Webcast lectures and study materials. Courses can be taken on site, by distance or as a blended combination. Students should confirm their specific course work plan in consultation with the graduate advisers before beginning the program. Students who have a baccalaureate degree from an accredited college or university must submit an application for graduate study through the regulatory science program of the School of Pharmacy. GRE scores are not required for admission to the certificate program. Students are expected to enroll each semester until the program is completed.

**Doctoral Degree**

**Clinical and Experimental Therapeutics (PhD)**

The goal of the PhD program in Clinical and Experimental Therapeutics is to develop a scientist who is engaged in team science through interdisciplinary education; competent in conducting research across clinical and basic science disciplines; and integrates basic investigations and clinical observations in applied research to better understand disease process, advance drug development and evaluate efficacy and toxicity of therapeutic regimens with the goal of improving the safe, effective and economical use of therapeutic modalities by patients.

The program applies an interdisciplinary approach that focuses the graduate studies directly toward translational, rather than basic science, aiming to educate students with the perspective and skill set to identify important connections between fundamental biomedical research and human disease. This program emphasizes cross-training between clinical and basic sciences focusing on the investigation of disease processes, drug development and the efficacy and toxicity of therapeutic regimens. Course requirements and research opportunities for graduate students enrolled in the program provide both experimental (basic) and disease-focused experiences that complement the graduate’s research focus.

**Course Requirements**

A minimum of 60 units is required. At least 26 of the 60 units are to be formal graduate course work at the 500- level or above, exclusive of seminars and directed research. Students must complete 14 units of course work before they are eligible for the screening procedure. Additional course work relevant to the research interests of the student may be required by the student's advisers or the student's qualifying exam committee, with an emphasis on cross-training and taking into account the amount and level of previous scientific preparation and the nature of the research dissertation that will be the major endpoint of the program. Specifically, recommended course work differs between students who have an advanced professional degree (Track I) and those who do not (Track II). A maximum of 12 units may be transferred from graduate studies elsewhere.

In the first year, all students (Tracks I and II) are recommended to take 14 units of course work in translational medicine (RSCI 530, 2 units), research design (CXPT 609, 4 units), biostatistics (PM 510, 4 units), and clinical trial design (MPTX 517, 4 units). In the second year, Track I students will take the remaining 12 units of course work as electives based on the background of the student and the proposed research focus of the student. Track II students who do not have an advanced professional degree are recommended to select from the following courses as part of their electives: systems physiology and disease (INTD 572 and INTD 573, 4 units each) or pathology (INTD 550, INTD 551, 4 units each). Other electives that can be chosen are INTD 531, INTD 561, PM 533, PM 538, PM 570 and PSCI 665.

The remaining 34 of the 60 units required for the PhD degree may be fulfilled with other courses including ethics, interdisciplinary seminar, directed research and dissertation. Note that to become eligible to take the qualifying exam, Track II students must fulfill the prescribed clinical experiences that match the disease-related topic of the student's thesis work as approved by the student's advisers and advisory committee. Students with a bachelor's degree in a health care subject area (e.g., nursing, pharmacy, medicine) will be evaluated on a case basis and may be required to meet the therapeutic course work or clinical experience component described above, as determined by their background and previous experiences.

**Foreign Language Requirement**

There is no formal language requirement. However, an individual qualifying exam committee can require competency in a foreign language or a computer language if it is relevant for the student's area of research.

**Qualifying Exam Committee**

Upon admission, the student will be assigned to a member of the graduate faculty who will serve as his or her temporary adviser until a permanent adviser has been identified. The student's program of study will be under the direction of the qualifying exam committee composed of at least five members, one of whom must be from outside the department. Because of the centrality of research in the PhD program, the student is encouraged to get acquainted with the participating faculty mentors from the day they
enter the program, and have selected a research direction, paired graduate advisers (clinical and basic scientists), and qualifying exam committee no later than the third semester of study. The graduate affairs committee will serve as the qualifying exam committee until one is selected.

Screening Procedure
The performance of each student will be evaluated no later than the end of the second semester of enrollment in the graduate program. This screening procedure is conducted by the student's qualifying exam committee or, if a student has not yet selected a qualifying exam committee, by the graduate affairs committee. The committee reviews the student's progress to date in various areas including course work, research interests, and laboratory performance on his or her research project or laboratory rotations. If a performance deficiency is determined, specific goals will be established that the student must fulfill to continue in the program. Passing this screening procedure is prerequisite to continuation in the PhD program.

Qualifying Examination
Students will be required to pass a comprehensive written and oral examination on the chosen disease-focused area of research emphasis. The examination will encompass basic scientific concepts relevant to the disease under study and the laboratory techniques in that discipline, fundamental principles of clinical research and design, biostatistics, and therapeutics in the chosen disease-focused area of research. The examination is administered by the qualifying exam committee and consists of two parts: a written examination administered to all students at the end of their second year of study and a detailed written proposal and its oral presentation and defense by the student to the qualifying exam committee. The examination process is conducted by the student's advisory committee with oversight by the graduate affairs committee. All course and qualifying examination requirements for the Doctor of Philosophy must be completed within two-and-a-half years after admission. After passing these examinations, the student is admitted to candidacy for the PhD degree.

Dissertation
A dissertation based on original investigation in a relevant scientific area is required for the PhD. The dissertation research must represent a significant contribution to science and should demonstrate the candidate's scholarly advancement and competence to undertake independent research. An oral defense of the dissertation will be held after the candidate submits the final draft of the dissertation to the dissertation committee. (See Theses and Dissertations in the Graduate School section.)

Student Teaching
Teaching experience is considered an integral part of the training of graduate students. As part of the general requirements for the PhD degree, each student is required to participate in the teaching program of the School of Pharmacy.

Health Economics (PhD)
The Department of Pharmaceutical and Health Economics (in the School of Pharmacy) offers a program of study leading to the PhD degree in Health Economics. The program focuses on microeconomics; econometrics; health economics and policy; public finance; pharmaceutical economics and policy. The program offers one track in microeconomics and a second track in pharmaceutical economics and policy.

Microeconomics Track
Students in the microeconomics track will complete the microeconomic theory and econometric sequence and course work in health economics. They will receive focused training and mentoring in health economics through collaboration on research projects.

Satisfactory completion of the economic theory sequence with a grade point average of B or higher. At least one of the econometrics courses must be completed with a grade of B or higher. The courses recommended for fulfilling the requirements for the Microeconomics Track are:
- GSBA 602 Selected Issues in Economic Theory I Units: 3
- PMEP 509 Research Design Units: 4
- ECON 636 Health Economics I Units: 4
- ECON 693 Seminar in Applied Economics and Public Policy Units: 2
- GSBA 612 Selected Issues in Economic Theory II Units: 3 or
- PMEP 525 Pharmacoconomics I Units: 4
- PMEP 526 Pharmacoconomics II Units: 2
- PMEP 535 Behavioral Science and Policy in Healthcare Units: 4
- PMEP 544 Health Economics II Units: 4
- PMEP 547 Programming Methods for Empirical Analysis of Health Data Units: 4
- PMEP 551 Introduction to Health Econometrics Units: 4
- PMEP 552 Advanced Health Econometrics I Units: 4
- PMEP 553 Advanced Health Econometrics II Units: 4
- PMEP 698 Seminar in Pharmaceutical Economics and Policy Units: 1

Additional Requirements
Students in the microeconomics track will complete the microeconomic theory and econometric sequence and course work in health economics. They will receive focused training and mentoring in health economics through collaboration on research projects.

Foreign Language Requirement
There is no formal foreign language requirement. However, competence in the use of one computer programming language is required for the graduate degree. Such competence can be demonstrated either by course work or examination.

Grade Point Average
A grade point average (GPA) of at least 3.0 and typically considerably higher (on a scale of 4.0) must have been achieved on all graduate work at USC for the passing of the screening procedure. The Graduate School requires a minimum GPA of 3.0 on all course work taken as a graduate student at USC.

Unit Requirements
The PhD in Health Economics requires a minimum of 64 units of graduate-level courses numbered 500 or higher (excluding 794) and a minimum of 4 units of 794. A maximum of two full courses (eight units) or their equivalent may be PMEP 790 (research) since directed research will generally be incorporated into most 500- and 600-level courses. Exceptions will be considered on an individual basis. Normally, a full-time graduate student course load is three full courses or their equivalent per semester, with a four-course maximum. Students may transfer and substitute up to 24 units of graduate course work from other universities to fulfill the required 64 units of graduate credit subject to the approval of the department.

Screening Procedure
The student's progress will be reviewed after each semester and before registration for any additional course work to determine if progress has been satisfactory. The screening procedure will include satisfactory performance on written screening exams covering the major topics covered in the recommended coursework for each track.

Qualifying Exam
Upon successful completion of the first two years of course and grade requirements, and following passing of required screening procedures, the student takes a general written and oral examination on the chosen area of research emphasis after presenting a detailed written dissertation proposal. After passing these examinations, the student is admitted to candidacy for the PhD degree.
The student will select a member of the graduate faculty who will serve as his or her adviser and chair of the student's qualifying exam committee. The student should consult the director of Graduate Studies for the Health Economics program on the selection of his or her adviser and chair of the PhD qualifying exam committee after taking the written screening examinations. The chairman of the student's PhD qualifying exam committee advises the student on matters of curriculum and graduate opportunities. The qualifying exam committee is composed of five members. The committee chair and at least two additional members must have appointments in the student's program. Faculty eligible to serve as committee chairs and members include tenured, tenure-track, and research faculty, teaching faculty, practitioner faculty or clinical faculty (RTFC) faculty. The committee chair and at least three members must be research active in a field relevant to the research thesis and one member of the committee must be tenured or tenure track; and the committee membership requires approval by the dean of the school. Visiting faculty may not serve on qualifying exam committees. The vice provost for graduate programs is an ex officio member of all qualifying exam committees.

The composition of all PhD qualifying exam committees must be approved by the director of Graduate Studies for the Health Economics program. The student must form his or her qualifying exam committee soon after passing the departmental screening procedure.

Dissertation Proposal Preparation
The student is required to register for two units of PMEP 790 and write a research paper on a topic suitable for a dissertation. Typically, the chair of the student's guidance committee directs this work. The resulting essay becomes part of the student's written dissertation proposal which constitutes the written portion of the qualifying exam. This proposal is presented and critiqued during the oral portion of the qualifying examination.

Dissertation
After admission to candidacy, the student forms a dissertation committee comprising three faculty members, one of whom can be from an outside department. The chair of this committee is the dissertation supervisor. The student must register for PMEP 794a, PMEP 794b, PMEP 794c, PMEP 794d, or PMEP 794e each semester, excluding summer sessions, until the dissertation and all other degree requirements are completed.

The student is expected to complete a dissertation based on an original investigation. The dissertation must represent a significant contribution to knowledge and must be defended in an oral examination administered by the dissertation committee (see the section on Theses and Dissertations).

Student Teaching
Teaching experience is considered an integral part of the training of graduate students. As part of the general requirements for the PhD, all students are required to undergo training as an educator. This will include participating in seminars on educational techniques and hands-on teaching experiences through participation in didactic and small group teaching in the School of Pharmacy or the USC Price School of Public Policy.

Seminar Requirements
Every student is recommended to take and satisfactorily complete 4 units of research seminars chosen from ECON 693, PMEP 698 or the equivalent. At least one of these seminars must be related to the student's major field, and the same seminar may be taken more than once. Before completing the dissertation, it is recommended that the student present at least one original research paper in a seminar of his or her choice. This paper should typically consist of original results contained in the student's dissertation.

Three electives at the 500 level or higher from the School of Pharmacy's Health Economics Program and from the departments of economics, mathematical statistics, biometry, epidemiology, public administration, computer science or other relevant fields are required.

Pharmaceutical Economics and Policy Track
Students in the pharmaceutical economics and policy track will specialize in areas such as cost-effectiveness, comparative effectiveness, drug therapy outcomes and organization of pharmaceutical markets. They will receive focused training and mentoring in pharmaceutical economics and policy through collaboration on research projects.

Satisfactory completion of the pharmaceutical economics and policy sequence with an average grade of B or higher
• ECON 636 Health Economics I Units: 4
• GSBA 602 Selected Issues in Economic Theory I Units: 3
• PMEP 506 Research Design Units: 4
• PMEP 525 Pharmacoeconomics I Units: 4
• PMEP 526 Pharmacoeconomics II Units: 2
• PMEP 527 Pharmacoeconomics III Units: 4
• PMEP 535 Behavioral Science and Policy in Healthcare Units: 4
• PMEP 539 Economic Assessment of Medical Care Units: 4
• PMEP 547 Programming Methods for Empirical Analysis of Health Data Units: 4
• PMEP 551 Introduction to Health Econometrics Units: 4
• PMEP 552 Advanced Health Econometrics I Units: 4
• PMEP 553 Advanced Health Econometrics II Units: 4
• PMEP 698 Seminar in Pharmaceutical Economics and Policy Units: 1

Additional Requirements
Foreign Language Requirement
There is no formal foreign language requirement. However, competence in the use of one computer programming language is required for the graduate degree. Such competence can be demonstrated either by course work or examination.

Grade Point Average
A grade point average (GPA) of at least 3.0 and typically considerably higher (on a scale of 4.0) must have been achieved on all graduate work at USC for the passing of the screening procedure. The Graduate School requires a minimum GPA of 3.0 on all course work taken as a graduate student at USC.

Unit Requirements
The PhD in Health Economics requires a minimum of 64 units of graduate-level courses numbered 500 or higher (excluding 794) and a minimum of 4 units of 794. A maximum of two full courses (eight units) or their equivalent may be PMEP 790 (research) since directed research will generally be incorporated into most 500- and 600-level courses. Exceptions will be considered on an individual basis. Normally, a full-time graduate student course load is three full courses or their equivalent per semester, with a four-course maximum. Students may transfer and substitute up to 24 units of graduate course work from other universities to fulfill the required 64 units of graduate credit subject to the approval of the department.

Screening Procedure
The student's progress will be reviewed after each semester and before registration for any additional course work to determine if progress has been satisfactory. The screening procedure will include satisfactory performance on written screening exams covering the major topics covered in the recommended coursework for each track.

Qualifying Exam
Upon successful completion of the first two years of course and grade requirements, and following passing of required screening procedures, the student takes a general written and oral examination on the chosen area of research emphasis after presenting a detailed written dissertation proposal. After passing these examinations, the student is admitted to candidacy for the PhD degree.

The student will select a member of the graduate faculty who will serve as his or her adviser and chair of the student's qualifying exam committee. The student should consult the director of
Graduate Studies for the Health Economics program on the selection of his or her adviser and chair of the PhD qualifying exam committee after taking the written screening examinations. The chairman of the student's PhD qualifying exam committee advises the student on matters of curriculum and graduate opportunities. The qualifying exam committee is composed of five members. The committee chair and at least two additional members must have appointments in the student's program. Faculty eligible to serve as committee chairs and members include tenured, tenure-track, and research faculty, teaching faculty, practitioner faculty or clinical faculty (RTPC) faculty. The committee chair and at least three members must be research active in a field relevant to the research thesis and one member of the committee must be tenured or tenure track; and the committee membership requires approval by the dean of the school. Visiting faculty may not serve on qualifying exam committees. The vice provost for graduate programs is an ex officio member of all qualifying exam committees.

The composition of all PhD qualifying exam committees must be approved by the director of Graduate Studies for the Health Economics program. The student must form his or her qualifying exam committee soon after passing the departmental screening procedure.

**Dissertation Proposal Preparation**

The student is required to register for 2 units of PMEP 790 and write a research paper on a topic suitable for a dissertation. Typically, the chair of the student's guidance committee directs this work. The resulting essay becomes part of the student's written dissertation proposal, which constitutes the written portion of the qualifying exam. This proposal is presented and critiqued during the oral portion of the qualifying examination.

**Dissertation**

After admission to candidacy, the student forms a dissertation committee comprising three faculty members, one of whom can be from an outside department. The chair of this committee is the dissertation supervisor. The student must register for PMEP 794a, PMEP 794b, PMEP 794c, PMEP 794d, or PMEP 794z each semester, excluding summer sessions, until the dissertation and all other degree requirements are completed.

The student is expected to complete a dissertation based on an original investigation. The dissertation must represent a significant contribution to knowledge and must be defended in an oral examination administered by the dissertation committee (see the section on Theses and Dissertations).

**Student Teaching**

Teaching experience is considered an integral part of the training of graduate students. As part of the general requirements for the PhD, all students are required to undergo training as an educator. This will include participating in seminars on educational techniques and hands-on teaching experiences through participation in didactic and small group teaching in the School of Pharmacy or the USC Price School of Public Policy.

**Seminar Requirements**

Every student is recommended to take and satisfactorily complete 4 units of research seminars chosen from PMEP 698 or the equivalent. At least one of these seminars must be related to the student's major field and the same seminar may be taken more than once. Before completing the dissertation, it is recommended that the student present at least one original research paper in a seminar of his or her choice. This paper should typically consist of original results contained in the student's dissertation.

A minimum of three electives at the 500 level or higher from the School of Pharmacy's Pharmaceutical Economics and Policy Program and from the departments of economics, mathematical statistics, biometry, epidemiology, public administration, computer science or other relevant fields are required.

**List of Electives**

- ECON 401 Mathematical Methods in Economics Units: 4
- ECON 415 Behavioral Economics Units: 4
- ECON 419 Advanced Econometrics Units: 4
- ECON 500 Microeconomic Analysis and Policy Units: 4
- ECON 513 Practice of Econometrics Units: 4
- ECON 601 Microeconomic Theory I Units: 4
- ECON 603 Microeconomic Theory II Units: 4
- ECON 604 Game Theory Units: 4
- ECON 611 Probability and Statistics for Economists Units: 4
- ECON 615 Applied Econometrics Units: 4
- ECON 688 Empirical Industrial Organization Units: 4
- GSBA 612 Selected Issues in Economic Theory II Units: 3
- HCDA 506 Foundations of Insurance and Global Access Units: 3
- HCDA 507 Foundations of Product Development and Commercialization Units: 3
- MEDS 500 Basic Concepts in Global Health Units: 4
- PM 510L Principles of Biostatistics Units: 4
- PM 511aL Data Analysis Units: 4
- PM 511bL Data Analysis Units: 4
- PM 511cL Data Analysis Units: 4
- PM 512 Principles of Epidemiology Units: 4
- PM 523 Design of Clinical Studies Units: 3
- PM 536 Program Evaluation and Research Units: 4
- PM 552 Statistical Methods in Clinical Trials Units: 3
- PM 560 Statistical Programming With R Units: 2
- PSYC 426 Motivated Behaviors and Addiction Units: 4

**Molecular Pharmacology and Toxicology (PhD)**

This program emphasizes basic as well as applied research in various aspects of drug discovery and molecular and behavioral mechanisms of action. Research opportunities span investigations of fundamental molecular and cellular physiological mechanisms, including receptor activity, intracellular signaling and the regulation of gene expression, to the molecular bases of disease and aging, including avenues of pharmacological intervention.

A minimum of 60 units is required for the Doctor of Philosophy degree. At least 24 units of course work are required at the 500-level or above, exclusive of seminar and directed research. The Doctor of Philosophy candidate must select a minimum of 12 units from courses offered in the Department of Pharmacology and Pharmaceutical Sciences (PPSI), eight of which must be selected from the core 4-unit courses. The remainder of the 24 units may be taken from PPSI courses or from courses offered in other departments that are approved by the PPSI graduate affairs committee. The qualifying exam committee may require more than 24 units of course work. A maximum of 12 units can be transferred from graduate studies elsewhere.

**Foreign Language Requirement**

There is no formal language requirement. However, an individual qualifying exam committee can require competency in a foreign language or a computer language if it is relevant for the student's area of research.

**Qualifying Exam Committee**

Upon admission, the student will be assigned to a member of the graduate faculty who will serve as his or her temporary adviser until a permanent adviser has been identified. The student's program of study will be directed by a qualifying exam committee composed of at least five members, one of whom must be from outside the department. The student should select a graduate adviser and qualifying exam committee no later than the third semester in residence. The graduate affairs committee will serve as the qualifying exam committee until one is selected.

**Screening Procedure**

The performance of each student will be evaluated no later than the end of the second semester of enrollment in the graduate program. This screening procedure is conducted by the student's qualifying exam committee or, if a student has not yet selected a qualifying exam committee, by the graduate affairs committee. The committee reviews the student's progress to date in various areas including course work, research interests and laboratory
performance on his or her research project or laboratory rotations. If a performance deficiency is determined, specific goals will be established that the student must fulfill to continue in the program. Passing this screening procedure is prerequisite to continuation in the PhD program.

Qualifying Examination

Students will be required to pass a comprehensive qualifying examination in major areas of molecular pharmacology, including fundamental principles of molecular and cellular biology. The examination is administered by the qualifying exam committee and consists of two parts: a written examination administered to all students at the end of their second year of study and a written proposal outlining the dissertation goals, and its oral presentation and defense by the student to the qualifying exam committee. The examination process is conducted by the student's advisory committee with oversight by the graduate affairs committee. The qualifying examination must be completed within three years after admission, unless an extension is obtained from the qualifying exam committee.

Annual Research Appraisal (ARA)

Beginning in the third year, each graduate student will meet with the qualifying exam committee and present a progress report on his or her research. Prior to the meeting the student will present a short written document describing significant experiments during the past year, problems and projected studies. This document is distributed to the committee members and is included in the student's file. The oral ARA meeting is intended to be a working session between the student and the qualifying exam committee. Experimental results and problems are discussed in this context, as well as a research plan for the next year of work. A satisfactory ARA is required for each year in the graduate program.

Dissertation

A dissertation based on original investigation in a relevant scientific area is required for the PhD. The dissertation research should demonstrate the student's ability to undertake independent research through planning, conducting and evaluating experiments. The dissertation research must represent a significant contribution to knowledge. A public oral defense of the dissertation will be held after the candidate submits the final draft of the dissertation to the dissertation committee, and it is approved by the graduate adviser and dissertation committee. For additional details, see Theses and Dissertations.

Student Teaching

Teaching experience is considered an integral part of the training of graduate students. As part of the general requirements for the PhD degree, each student is required to participate in the teaching program of the School of Pharmacy.

Pharmaceutical Sciences (PhD)

This program emphasizes basic as well as applied research in drug delivery and targeting, utilizing medicinal chemistry, computational chemistry, pharmaceutics, pharmacodynamics, molecular pharmacology, immunology and cell biology. A minimum of 60 units is required for the Doctor of Philosophy degree. At least 24 units of course work are required at the 500-level or above, exclusive of seminar and directed research. The Doctor of Philosophy candidate must select a minimum of 12 units from courses offered in the Department of Pharmacology and Pharmaceutical Sciences (PPSI), eight of which must be selected from the core 4-unit courses. The remainder of the 24 units may be taken from PPSI courses or from courses offered in other departments that are approved by the PPSI graduate affairs committee. The qualifying exam committee may require more than 24 units of course work. A maximum of 12 units can be transferred from graduate studies elsewhere.

Foreign Language Requirement

There is no formal foreign language requirement. However, an individual qualifying exam committee can require competency in a foreign language or some other research tool such as computer language, if this is relevant for the student's area of research.

Qualifying Exam Committee

Upon admission, the student will be assigned to a member of the graduate faculty who will serve as his or her temporary adviser until a permanent adviser has been identified. The student's program of study will be under the direction of a qualifying exam committee composed of at least five members, one of whom must be from outside the department granting the degree. The student should select a graduate adviser and qualifying exam committee no later than the third semester in residence.

Screening Procedure

The performance of each student will be evaluated no later than the end of the second semester of enrollment in the graduate program. This screening procedure is conducted by the student's qualifying exam committee or, if a student has not selected his or her research adviser at that time, by the Graduate Review Committee of the department. The committee reviews thoroughly the student's progress up to that point in various areas including course work, research interests and laboratory performance on his or her research project or laboratory rotations. If a performance deficiency is detected at that point by the committee, the student will be recommended to either take additional course work or transfer to the Master of Science program. Passing this screening procedure is prerequisite to continuation in the PhD program.

Qualifying Examination

Students will be required to pass a comprehensive qualifying examination in major areas of the pharmaceutical sciences. The examination is administered by the qualifying exam committee and consists of two parts: a written examination and a written proposition outlining a research project, followed by an oral examination based on the proposition and questions dealing with the written examination. All course and qualifying examination requirements for the Doctor of Philosophy must be completed within two and one half years after admission.

Dissertation

A dissertation based on original investigation is required. The research should make a contribution to science and should demonstrate the candidate's scholarly advancement and competence to undertake independent research. An oral defense of the dissertation will be held after the candidate submits the final draft of the dissertation to the dissertation committee (see Theses and Dissertations).

Student Teaching

Teaching experience is considered an integral part of the training of graduate students. Thus, as part of the general requirements for the PhD, each student is required to participate in the teaching program of the School of Pharmacy.

Pharmacy (PharmD)

The USC School of Pharmacy offers a full-time, four-year course of study leading to the Doctor of Pharmacy (PharmD). An undergraduate BA or BS degree is required for admission to the program. A description of the curriculum is listed in the following pages. The degree will be conferred only upon successful completion of all Doctor of Pharmacy degree requirements. The USC School of Pharmacy Doctor of Pharmacy program is accredited by the Accreditation Council for Pharmacy Education, which is the sole agency providing accreditation for professional degree programs in pharmacy.

Application Procedure

The School of Pharmacy requires applicants to complete both the Pharmacy College Application Service (PharmCAS) and a supplemental application for admission. The supplemental application is available at pharmcas.usc.edu. Both the PharmCAS and the supplemental applications deadlines are November 1. Applicants are encouraged to
follow the instructions carefully for both the PharmCAS and supplemental applications. Applications will not be reviewed until both applications have been received by the Office of Admission and Student Affairs. An interview is required for admission. Only applicants with complete application files are evaluated for an interview and only highly qualified applicants will be granted interviews. Not all applicants will be invited for an interview. Applicants are encouraged to apply well before the November 1 deadline to allow time for file review.

All documents mailed directly to the School of Pharmacy and received from PharmCAS by the Office of Admission become the property of the university and cannot be returned or duplicated for other than USC’s purposes.

Admission Guidelines

The Admission Committee considers several factors in making admissions decisions including: previous academic performance; the interview including a writing component; letters of recommendation; and other components of the completed application. The committee also considers a candidate’s motivation to pursue pharmacy, interpersonal skills, oral and written communication skills, and leadership abilities. While the School of Pharmacy gives equal consideration to every qualified applicant, the school cannot accommodate all qualified candidates who apply for admission.

Entrance Requirements

Admission to the School of Pharmacy requires completion of a baccalaureate degree; completion of the specified prerequisite college courses, with a grade of C or better; and a minimum 3.0 (A = 4.0) grade point average, both in the prerequisite courses and cumulative grade point average.

Pre-pharmacy Requirements*

*Courses for science majors are required to meet the Pre-Pharmacy Requirements

To be eligible for admission to the School of Pharmacy, applicants must take required prerequisite college courses, including general biology (one-year course with laboratory, excluding human anatomy and physiology), general chemistry (one-year course with laboratory, including inorganic and qualitative analysis), organic chemistry (one-year course with laboratory), biochemistry (one course upper division), microbiology (one course), calculus (one semester or two quarters), statistics (one course) and human physiology (one course for science majors). The science requirements should be completed at an accredited four-year university.

Prerequisite courses are subject to change, and applicants are encouraged to check with the school prior to submitting an application.

Recommended Courses:

Upper-division molecular biology, physics (thermodynamics and electromagnetism), microeconomics, statistics (non-business), human behavior in either general psychology, introductory sociology, or cultural anthropology

Grades of pass/no pass or credit/no credit will not be accepted (unless a course is only offered on a pass/no pass basis). Online courses are not accepted for science courses with a laboratory requirement.

Mathematics and Sciences

Courses must include calculus, general biology, microbiology, human physiology, general chemistry, biochemistry, and organic chemistry. Only courses for science majors are acceptable. It is highly recommended that math and science courses be completed during the regular academic year and not during a summer term.

Advanced Placement and International Baccalaureate Examinations

Applicants may use AP and IB courses to meet certain USC School of Pharmacy prerequisites with the following provisos.

AP results are acceptable only with scores of 4 or 5. Results for IB courses are acceptable with a score of 5. Credit for AP or IB courses is limited to a maximum of two courses (total). In addition, the AP or IB courses taken may be applied to a maximum of one semester/one quarter of general chemistry or general biology; they may not be used to satisfy the laboratory requirement. Note: AP/IB courses used to meet prerequisites will be for course credit only (i.e., they will not count toward the GPA). The Admission Committee recommends that applicants enroll in all of the required pre-pharmacy courses. Please contact the School of Pharmacy Office of Admission for specific information.

Entrance Examination

An interview is required for admission.

Special Admission Program for Entering Freshmen

The Trojan Admission Prepharmacy (TAP) program provides priority consideration for admission to the USC School of Pharmacy’s four-year Doctor of Pharmacy (PharmD) program for USC undergraduates who are accepted to the program. The TAP program is designed to attract highly qualified, mature high school seniors applying to USC. Students accepted into the TAP program apply to the Doctor of Pharmacy program during their final year of undergraduate education. Students must meet all regular admission criteria to the School of Pharmacy, including a BA/BS degree from USC, specific academic performance standards (GPA) and complete an interview. Students in the TAP program are required to complete all prerequisite courses at USC and meet regularly with a TAP program adviser. A specific listing of USC courses and a recommended program for TAP participants may be obtained from the School of Pharmacy Office of Admission or online at pharmacyschool.usc.edu/programs/pre/tap.

PharmD Curriculum Requirements

The completion of the four-year professional curriculum is required for the Doctor of Pharmacy (PharmD) degree. The PharmD curriculum is a "block" program, meaning all students enroll for specified courses each semester and progress as a "class" through the curriculum. Students do not have a choice in the course sequence and must remain full-time students throughout the program. Students have a limited number of elective course choices and a list of electives offered is available to students prior to registration each semester. Student progress is permitted only when the prior semester has been successfully completed. Students should view the curriculum outlined here as advisory only and subject to modification. A minimum of 136 units is required for graduation.

Students enrolled in the Doctor of Pharmacy program are required to hold an Intern Pharmacist license in good standing (clear of restrictions) issued by the California Board of Pharmacy as an intern pharmacist for the entire length of the program. Licensure is required because completion of the pharmacy program requires placement in health care settings for experiential learning during each academic year. The School of Pharmacy has developed technical standards to inform students of the non-academic requirements of the program. Placement in health care settings requires the applicants pass criminal background screening and/or drug screening tests.

The pharmacist of tomorrow will provide preventive and therapeutic pharmaceutical care, provide drugs to patients, communicate in health care matters, meet the ethical and legal requirements of the practice of pharmacy and maintain professional expertise.

The curriculum committee of the School of Pharmacy has developed guidelines and patient care competencies consistent with interpretations of this new role. An appropriate and dynamic educational program is needed to develop these competencies. Therefore curriculum changes may be necessary in order to meet scientific advances, population profile changes, increasing health expectations, technological advances, or changes in health services.
Core Curriculum
Foundational courses in biomedical, pharmaceutical, social administrative and clinical sciences comprise the first three years of the program. A Pharm.D. Scholarly Project must also be completed by the end of the third year of the program. Students must complete Introductory Pharmacy Practice Experiences (IPPEs) throughout their first three years in the program. Students may begin Advanced Pharmacy Practice Experiences (APPEs) as early as late March or early April of the third year and throughout the fourth year of the program.

Year I (P1) Curriculum

Fall
- PHRD 501 Pharmaceutics I Units: 3
- PHRD 502 Pharmaceutics II Units: 2
- PHRD 503 Biological Systems I Units: 4
- PHRD 511 Pharmacy Practice and Professionalism 1 Units: 5
- PHRD 515 Metabolism and Cell Biology Units: 2
- PHRD 521 Medicinal Chemistry Units: 2

Spring
- PHRD 504 Biological Systems II Units: 4
- PHRD 512 Pharmacy Practice and Professionalism 2 Units: 2
- PHRD 514 Calculations and Compounding Units: 2
- PHRD 516 Non-Prescription Therapies Units: 3
- PHRD 520 Introduction to Therapeutics Units: 2
- PHRD 552 Pharmaceutics III Units: 3
- Pharmacy Practice IPPE (2 unit; CR/NC or IP)

Year II (P2) Curriculum

Fall
- PHRD 508 Pharmacy Literature Analysis and Drug Information Units: 3
- PHRD 559 Therapeutics: Pharmacokinetics Units: 3
- PHRD 563 Case Conference 1 Units: 2
- PHRD 572 Therapeutics: General Medicine Units: 5
- PHRD 625 Hospital Pharmacy Practice Units: 1
- Pharmacy Practice IPPE (2 unit; CR/NC or IP)
- Electives: 1-3 units*

Spring
- PHRD 517 Pharmaceutics Units: 2
- PHRD 564 Case Conference 2 Units: 2
- PHRD 570 Therapeutics: Central Nervous System Units: 5
- PHRD 603 Therapeutics: Endocrine System Units: 5
- PHRD 624 Community Pharmacy Practice Units: 2
- PHRD 634 Scholarly Project 1 Units: 1
- Pharmacy Practice IPPE (2 unit; CR/NC or IP)
- Electives: 1-3 units*

Year III (P3) Curriculum

Fall
- PHRD 611 Therapeutics: Infectious Diseases Units: 5
- PHRD 619 Therapeutics: Cardiovascular System Units: 5
- PHRD 622 Case Conference 3 Units: 2
- PHRD 633 Pharmacy Management and Economics Units: 2
- PHRD 635 Scholarly Project 2 Units: 1
- Pharmacy Practice IPPE (0 unit; CR/NC or IP)
- Electives: 1-3 units*

Spring
- PHRD 567 Pharmacy Law Units: 2
- PHRD 608 Therapeutics: Oncology and Immune Disorders Units: 5
- PHRD 623 Case Conference 4 Units: 1
- PHRD 636 Scholarly Project 3 Units: 1
- PHRD 650 APPE Gateway Units: 2
- Pharmacy Practice IPPE (0 unit; CR/NC or IP)
- Electives: 1-3 units*
- APPE Course (Optional): 6 units

Required Introductory Pharmacy Practice Experiences (IPPE) Courses
Students will be required to register for the following IPPE course sequences as indicated in the schedule above. Students will need to register for the second course of each sequence until they have completed the 80 hours of IPPE associated with the first course of each sequence. Students will be given a grade of Credit (CR) in the first course of each sequence once the 80 IPPE hours have been successfully completed.
- PHRD 627a Longitudinal Elective Pharmacy Practice Units: 2
- PHRD 627b Longitudinal Elective Pharmacy Practice Units: 0
- PHRD 629a Longitudinal Community Pharmacy Practice Units: 2
- PHRD 629b Longitudinal Community Pharmacy Practice Units: 0
- PHRD 631a Longitudinal Institutional Pharmacy Practice Units: 1, 2, 3
- PHRD 631b Longitudinal Institutional Pharmacy Practice Units: 0

Note:
*Elective courses: Students MUST complete a minimum of 3 units of elective courses for the degree. Students will be provided a list of courses approved each year.
**APPE courses are described below. Students may begin their APPEs in late March or early April of their P3 year and may be assigned to any of APPEs listed below.

Advanced Pharmacy Practice Experience (APPE)
Students must enroll in a minimum of six 6-unit six-week APPEs for a total of 36 units. Some students will take their APPEs entirely in their P4 year. Some will take one 6-unit APPE starting in the spring of their P3 year (late March/early April). Students will return to campus the last six weeks of their P4 year.

Required APPE Courses
Students must complete all APPE courses below (24 units) and the Doctor of Pharmacy Capstone courses (0 units).
- PHRD 701 Acute Care Clinical APPE Units: 6
- PHRD 704 Primary Care APPE Units: 6
- PHRD 705 Community Pharmacy APPE Units: 6
- PHRD 718 Hospital Pharmacy Practice APPE Units: 6
- PHRD 796a Doctor of Pharmacy Capstone Units: 0
- PHRD 796b Doctor of Pharmacy Capstone Units: 0, 1, 3

Elective APPE Course
Students must complete 12 units from the list below.
- PHRD 714 Nuclear Pharmacy APPE Units: 6
- PHRD 725 International Pharmacy Practice Experience Units: 3, 6
- PHRD 731 Advanced Geriatrics APPE Units: 6
- PHRD 738 Pharmaceutical Industry APPE Units: 6
- PHRD 750 Advanced Pharmacy Practice Elective (APPE) Units: 6
- PHRD 751 Non-traditional Advanced Pharmacy Elective (APPE) Units: 6

Degree Requirements
All students in the Doctor of Pharmacy degree program must meet course requirements, grade point average requirements, licensure requirements, competency assessment requirements (PCOA) and program residency requirements.

All course requirements must be completed with a grade of "C" or better for letter graded courses and a grade of Credit (defined as B quality work or better) in non-letter graded courses.

Grade point average requirements: Students must have a cumulative grade point average of 2.5 in the Doctor of Pharmacy curriculum to meet graduation requirements.

Licensure requirements: All students must obtain and maintain a license in good standing (clear of restrictions) as an Intern Pharmacist issued by the California State Board of Pharmacy at all times during the program.

Competency assessment requirements: Students are required to take and demonstrate satisfactory performance on the national
PCOA Exam (Pharmacy Curriculum Outcomes Assessment). The PCOA exam is administered by the NABP (National Association of Boards of Pharmacy) and is required by ACPE (Accreditation Council for Pharmacy Education) for a Doctor of Pharmacy degree.

Residency requirements: Students must complete all requirements for the degree within 6 years. The degree will not be conferred until the student has successfully completed all Doctor of Pharmacy degree requirements. Students are subject to the degree requirements in the USC Catalogue current for the semester of their admission into the Doctor of Pharmacy program unless progression is delayed.

Registration
Details of the School of Pharmacy registration procedures will be included in the orientation program prior to the first week of classes.

Cancellation of Registration
During the didactic portion of the Doctor of Pharmacy program (P1, P2 and P3 years), a student may only withdraw from the entire block of courses enrolled in a semester and may not selectively withdraw from a single course or group of courses. During the APPE portion of the curriculum, students may not withdraw from an APPE after the completion of the fourth week of a six-week course and must contact the School of Pharmacy Office of Admission and Student Affairs. Procedures for readmission into the program or makeup of incomplete courses are included in the school's academic policies and procedures handbook.

Regulatory Science (DRSc)
The Doctor of Regulatory Science program cultivates research, leadership and inquiry skills for advanced students in the emerging profession of global regulatory science. It is designed to produce graduates with expertise in strategic management, policy development and research assessment who can play leadership roles in the public sector, academia and the medical products industry. Participants in this program will take a set of interdependent courses that extend from a strong core of basic regulatory science course work and additionally focus on three main areas — global product strategy, product lifecycle strategy, and project and personnel management. After students have completed foundational course work, they will participate as a cohort that typically has a two-year cycle of classes and an additional year of dissertation research. The program has been designed to meet the needs of individuals who are already working full-time outside of the university. The doctoral degree will be administered by the School of Pharmacy.

Admission
The program is designed for individuals with strong professional experience and demonstrated intellectual and leadership capabilities. Applicants are expected to have a GPA of 3.0 on university-level course work and ten or more years of professional experience. Admission requirements include university transcripts, a resume, at least three letters of reference, and a one-page personal statement that outlines the background and goals of the applicant. Students are encouraged even at this early stage to identify areas in which they are interested in conducting research. Additional requirements for international students are outlined by university regulations under Admission of International Students. Students are not required to provide GRE scores unless indicated by the program director.

Students with an appropriate graduate or professional degree may use some previous graduate courses as transfer units toward the overall credit requirements of the Doctor of Regulatory Science program with the approval of the program director and under the normal rules of the university. Students who have graduated from the MS program in Regulatory Science can apply all of the previously taken course work toward the doctoral degree. Students with graduate degrees from outside of the regulatory science program are required to take a minimum of 32 units of course work and 4 units of dissertation research to complete the requirements for graduation. The course work requirements will be determined on an individual basis in consultation with the program director and participant’s advisers.

Curriculum Requirements
The Doctor of Regulatory Science is administered by the School of Pharmacy. It requires participants to complete 64 units that include the following elements:

Requirements
- Foundation courses 15 Units
- Product lifecycle strategy 8 Units
- Global strategy 8 Units
- Project/personnel management 8 Units
- Research methods 4 Units
- Dissertation 4 Units

Additional Requirements
Additional elective course work will be selected in consultation with the program advisers according to the areas of intended specialization of the participant in order to meet the credit requirements of the program. Typically foundational courses and some electives will be taken in the first two years of the program. Advanced courses in product lifecycle strategy, global strategy and project/personnel management will normally be taken by the doctoral cohort of students during the third and fourth years of the program. Dissertation planning and research will typically commence in the third year of the program, and extend until the successful completion of the dissertation.

Foundation Courses
Fifteen or more units of foundation courses may be taken as part of the master's program in regulatory science, or with prior approval, from another graduate program with similar objectives. Required foundational courses normally include: MPTX 511 Introduction to Medical Product Regulation; two from MPTX 512 Regulation of Pharmaceutical and Biological Products, MPTX 513 Regulation of Medical Devices and Diagnostics, MPTX 514 Regulation of Food and Dietary Supplements; MPTX 515 Quality Systems and Standards, MPTX 516 Medical Products and the Law; MPTX 517 Structure and Management of Clinical Trials. Other courses may be substituted after the participant's background preparation has been considered.

Product Lifecycle Strategy
Eight or more units of course work related to product lifecycle management, from discovery to commercialization, will be drawn from a broad list of courses offered in regulatory science or through the Titus Family Department of Clinical Pharmacy and Pharmaceutical Economics and Policy. Included in this list are: PMEP 538 Pharmaceutical Economics; PMEP 539 Economic Assessment of Medical Care; RSCI 601 Biomedical Commerce. Other courses may also be considered in consultation with the supervisors and program director. Students are also encouraged to take courses outside the School of Pharmacy when more specialized courses fit their professional research or development plans.

Global Regulatory Strategy and Policy
Eight or more units of course work related to global regulatory strategy could include some of the following courses: MPTX 519 Global Regulation of Medical Products; PPD 571 International Public Policy and Management Seminar; RSCI 604 Regulatory Strategy in Asia; RSCI 608 Regulatory Strategy in Europe and the Americas.

Project and Personnel Management
Eight or more units of relevant course work should typically include: MPTX 602 Science, Research and Ethics; RSCI 603 Managing Complex Projects; RSCI 605 Managing Organizations and Human Resources. Graduate courses in other university departments or schools can be substituted with the approval of the program director.
Research Methods
Participants will typically take PMEP 509 Research Design or MPTX 522 Introduction to Clinical Trial Design and Statistics.

Student Progress and Assessments
In the third year, students are expected to identify a pair of advisers including one USC faculty member and one adviser from industry or the private sector. Students are typically placed in study groups of three or four whose dissertation interests are most similar and whose collective supervisors will oversee their academic and research progress. This committee will form the dissertation committee.

At the completion of the foundational course work, students will undergo a competency review that will include considerations of academic progress. Students are expected to maintain a GPA of 3.0 and will be required to pass a written examination designed to assure the professional competence of the student prior to advancing further in the program. Students who do not pass this preliminary review, administered prior to entering the dissertation and advanced course work phase of the program, will be notified of dismissal from the program in writing by the associate dean for graduate studies in the School of Pharmacy.

Doctoral Dissertation
Students must enroll in RSCI 794a, RSCI 794b, RSCI 794c, RSCI 794d, RSCI 794z for at least two terms, during which time they will develop a dissertation proposal and conduct the necessary research and analysis in collaboration with the supervisory team. The dissertation committee will approve the thesis plan and monitor its progress. Each student will be required to produce and defend an independent dissertation as a requirement for graduation. A maximum of 6 dissertation units can be applied to satisfy the degree requirement, but students should register for the dissertation units in each term subsequent to the completion of their course work requirements. Institutional Review Board approval is required for all human studies.

PhD Programs in Pharmaceutical and Translational Sciences (PHTS)

Graduate Affairs Office
Pharmaceutical Sciences Building
1985 Zonal Avenue
Los Angeles, CA 90089-9031
(323) 442-1474
FAX: (323) 442-2258
Email: pharmgrd@usc.edu
Website: pharmedprograms.usc.edu

Program Director: Annie Wong-Beringer, PharmD

The USC PhD Programs in Pharmaceutical and Translational Sciences (PHTS) prepare students for careers in academia and advanced scientific research in a broad range of settings. The training encompasses a unique scientific framework from drug discovery, delivery and development to application of genetics and genomics to experimental and clinical/translational research.

The umbrella structure is intended to bring together students during their first year to attend foundation core courses and seminars. The goal of the shared experiences is to introduce them to a broad range of pharmaceutical sciences research methods and build a solid foundation in scientific writing, biostatistics, literature evaluation and ethical conduct in research. Complementing their foundation course work, the students will choose from laboratories across the three PhD program tracks (MPTX, PSCI, CXPT) to do rotations during their first year. This fosters interdisciplinary cross-training among students, collaborations among faculty, and assists students in finding the ideal laboratory and faculty mentor in line with the specialized track of study they want to pursue.

At the end of the spring semester of the first year, students will select a faculty adviser and a specific PhD program track from among the three participating programs listed below. In subsequent years, students will take classes that will differ depending on the PhD program they join. In addition, each student will complete qualifying examinations for the chosen PhD program and will develop and complete an original research project that will serve as the basis for a doctoral dissertation.

PhD Graduate Programs: Three Tracks
Molecular Pharmacology and Toxicology (MPTX)
Pharmaceutical Sciences (PSCI)
Clinical and Experimental Therapeutics (CXPT)

PHTS Admission Requirements
Application Deadline (priority review): December 1

All prospective students will apply through the single umbrella program Pharmaceutical and Translational Sciences (PHTS). Application materials will be reviewed by a joint admission committee, with equal representation of faculty from each track, evaluating applications on the basis of academic excellence and scientific research commitment.

Applicants should have a baccalaureate degree in natural sciences, or sufficient courses in mathematics and the life sciences. This is required to provide a strong background for studies in biomedical and biological research. Appropriate undergraduate degrees include biology, physiology, engineering, chemistry or computer science.

Applicants should have a strong academic record. Other requirements for admission include: a detailed personal statement as well as three letters of recommendation, one of which should be from a research mentor, because previous research experience is expected. Students are admitted for the academic year, once in year in the fall semester. Applicants who are accepted with minor deficiencies are expected to correct these during the first year following enrollment.

Admission Criteria
The Admission Committee will consider applications based on the following factors:
1. Overall Grade Point Average (GPA)
   A minimum GPA of 3.0 is required. Special attention is given to grades achieved in science courses relevant to the program (e.g., chemistry, biology, biochemistry, pharmacology and physiology).
2. Letters of Recommendation
   Three letters from faculty knowledgeable of the student's ability and capability are required. These letters should provide a thorough assessment of the student's experience in research, particularly laboratory or computational-based research; ability to communicate in verbal and written English; motivation; creativity or other unique qualities in the student's academic performance.
3. TOEFL Scores for International Applicants
   A minimum TOEFL (computer based) score of 100 is required. A score of 100 is highly competitive for admission and financial support. An IELTS score of 7 is competitive; and an IBT minimum score of 100, with at least 20 in each section, is required.
4. Research and Professional Experience
   The student's research and professional experience should be well described within the application. Also, a CV and/or a personal statement summarizing career objectives and research interests, published manuscripts and letters of reference should be included. These documents will help the Admissions Committee in their evaluation of the candidate's background preparation for success in the PhD program. For those interested in pursuing PhD training in the Clinical and Experimental Therapeutics (CXPT) track, special emphasis will be given to applicants with an advanced professional degree (e.g. PharmD, MD, DDS).

Application Deadline
Applications may be submitted anytime between September 1 and January 15 — the deadline for consideration for admission for the following fall semester. Applications will be reviewed as they
are received, beginning in the Fall. Consideration for certain USC Scholarships and Fellowships begins in December. Applicants are encouraged to submit their applications by the December 1 priority deadline.

Admission decisions will continue to be made until the class is filled, usually by mid to late spring before April 15. Applications are only considered for admission beginning in the fall term, except under exceptional circumstances.

Financial Support
Admitted students are supported by research and teaching assistantships or fellowships during their graduate training. Tuition, health insurance, dental insurance and health center fees are also covered.

Lab Rotations
During the first year, students rotate through the labs of at least two faculty members of the program (potential research advisers). By the first summer of graduate study, but no later than after 12 months in the program, each student is expected to have selected a faculty mentor/research adviser.

Admission Requirements for PhD Programs in PHTS
All prospective students will apply through the single umbrella program Pharmaceutical and Translational Sciences (PHTS) and become enrolled in the MPTX, PSCI or CXPT PhD programs after having successfully completed the first year's course work and rotations. During the PHTS year, students must complete the foundation core curriculum of 24 units, maintain a 3.0 grade point average with no grade lower than a C on all courses and must complete at least two laboratory rotations in order to continue on to one of the three PhD program tracks below.

Doctor of Philosophy in Molecular Pharmacology and Toxicology (MPTX)
Program Director: Roger Duncan, PhD
This track provides training in molecular mechanisms of disease as well as disease and drug interaction. Course work emphasizes cell biology and molecular pharmacology. Research areas are laboratory based and include molecular and neuro-pharmacology, receptor pharmacology, cancer biology and pharmacology, metabolism and biochemistry, and oxidant toxicity.
MPTX students are recommended to take PSCI 664 (4, Fa) Drug Design and Discovery; MPTX 500 (4, Sp) Cell Signaling; and PSCI 665 (4, Sp) Drug Transport and Delivery.
PhD students must supplement course work by registering for 790 Research /794 Doctoral Dissertation (a-d and z) during the fall, spring and summer semesters as needed to complete the minimum 60 units required for the PhD program.
As part of the requirements for the PhD degree in Molecular Pharmacology and Toxicology, students must adhere to the unit/course requirements, guidance committee and dissertation committee guidelines and must complete the qualifying examination, annual research appraisal, and dissertation and oral defense as outlined in the sections following the descriptions of the PhD programs.

Doctor of Philosophy in Pharmaceutical Sciences (PSCI)
Program Director: Roger Duncan, PhD
This track provides training that emphasizes basic as well as applied research through advanced course work in contemporary pharmaceutical sciences. Independent laboratory research areas include drug design, development, targeting, and delivery, medicinal chemistry, computational chemistry, pharmacaceutics, pharmacokinetics, pharmacodynamics, immunology, and molecular and cell biology.
PSCI students are recommended to take MPTX 500 (4, Sp) Cell Signaling and PSCI 665 (4, Sp) Drug Transport and Delivery.
PhD students must supplement course work by registering for 790 Research /794 Doctoral Dissertation (a-d and z) during the fall, spring and summer semesters as needed to complete the minimum 60 units required for the PhD program.
As part of the requirements for the PhD degree in Pharmaceutical Sciences students must adhere to the unit/course requirements, guidance committee and dissertation committee guidelines and must complete the qualifying examination, annual research appraisal, and dissertation and oral defense as outlined in the sections following the descriptions of the PhD programs.

Doctor of Philosophy in Clinical and Experimental Therapeutics (CXPT)
Program Director: Stan Louie, PharmD
This track provides cross-training between clinical and basic sciences — focusing on the investigation of disease processes, drug development and the efficacy and toxicity of therapeutic regimens. Course requirements and research opportunities for graduate students enrolled in the track provide both experimental (basic) and disease-focused experiences that complement the graduate's respective research focus. The emphasis in this track is clinical translational, rather than basic science research.
CXPT students are recommended to take CXPT 609 (4, Sp) Preclinical Experimental Therapeutic Drug Development; MPTX 517 (4, FaSpSm) Clinical Trial Design; CXPT 664 (3, Sp) Clinical Problem Solving (for students without an advanced professional degree).
PhD students must supplement course work by registering for 790 Research /794 Doctoral Dissertation (a-d and z) during the fall, spring and summer semesters as needed to complete the minimum 60 units required for the PhD program.
As part of the requirements for the PhD degree in Clinical and Experimental Therapeutics, students must adhere to the unit/course requirements, guidance committee and dissertation committee guidelines and must complete the qualifying examination, annual research appraisal, and dissertation and oral defense as outlined in the sections following the descriptions of the PhD programs.

Unit/Course Requirements
A minimum of 60 units of graduate course credits is required for the PhD, including course work, and research and dissertation units. At least 24 units of formal course work are required at the 500 level or above (see Course Offerings below), exclusive of directed research. No more than 8 units of 794 Doctoral Dissertation may be applied toward the PhD degree. Students must complete the first year PHTS foundation curriculum as well as course requirements for their specific PhD program track. Additional course work relevant to the research interests of the student may be required by the student's guidance committee or by the student's faculty adviser. A minimum of 12 of the 24 units is to be taken in courses in the student's chosen track. Of the total 60 units, 36 units may be fulfilled with other courses, directed research and dissertation.

Graduate Seminar
All first-year PhD candidate students are required to attend departmental and other scheduled school-wide seminars. Students in their second year and above are required to present at least one departmental seminar each year.

Individual Development Plan (IDP)
All PhD students regardless of their chosen tracks/PhD programs are required to complete an Individual Development Plan (IDP) annually at the end of each year of matriculation. IDPs are intended to serve as a tool to facilitate communication between trainees and their advisers. The student will meet with his/her adviser and IDP committee to systematically identify training needs and competencies, establish goals and take stock of year-by-year progress during the PhD years; and to plan and prepare for their post-PhD future while they are in graduate school. The IDP committee is composed of the student's primary adviser (or program chair if the student does not yet have an adviser at the end of the first year) along with two other members from the
student’s qualifying or dissertation committee (see below), with the option of substituting one of the committee members with a professional from the student’s career of interest.

Guidance Committee
After 24 units of course work, which includes the PHTS core curriculum and course requirements for one of the three PhD program tracks, the student, in consultation with his/her faculty adviser, will nominate five faculty members to serve on the guidance committee for the qualifying examination. A minimum of three of the faculty must be from the student’s PhD program track. The chair of the guidance committee must be a member of the student's PhD program track and the faculty adviser is expected to be on the committee as the chair. These nominations are submitted to the Graduate Affairs Office. The appointment form is signed by the committee members, the chair of the program and the dean or dean designate for formal appointment.

Qualifying Examination
Students will be required to pass a qualifying exam by the end of the first semester of their third academic year. Before permission is granted to sit for the qualifying examination, all students must complete the 24 required units as stated above, with no grades lower than "C" and with an overall GPA of 3.0 or better.
Final evaluation of the examination is determined by a consensus of the guidance committee. If a student fails, it is at the discretion of the committee to allow the student to repeat the examination within 60 days. The program has the option to dismiss the student from the program with or without the option of a terminal master's degree after the first or second failure.

Dissertation Committee
After advancement to candidacy, the student must form a dissertation committee, in consultation with his or her faculty adviser. A minimum of three committee members must be selected, one of which is the faculty adviser, and at least one of which must be a tenured or tenure-track faculty member of the student's PhD program track. One committee member may be nontenure track. The chair of the dissertation committee is usually the faculty adviser. The dissertation committee is responsible for counseling the student during preparation of the dissertation and conducting the final oral examination during the dissertation defense. Students are expected to meet with the dissertation committee once per year to discuss progress.

Dissertation committee members are expected to read and comment on a dissertation within two weeks from its submission. The student and faculty will coordinate a timeline for the student to present the thesis to the dissertation committee. This timeline must allow all dissertation committee members enough time to fulfill their responsibilities within the four-week deadline.

Dissertation and Oral Defense
A dissertation based on original investigation in a relevant scientific area is required for the PhD. The dissertation research must represent a significant contribution to science and should demonstrate the candidate's scholarly advancement and competence to undertake independent research through planning, conducting and evaluating experiments. Students should have at least one first author publication accepted in a peer-reviewed journal before the defense. A public oral defense of the dissertation will be held after the candidate submits the final draft of the dissertation to the dissertation committee, and it is approved by the graduate adviser and dissertation committee.

All doctoral candidates must be registered in 794 Doctoral Dissertation each semester (excluding summer sessions) from the time of their advancement to candidacy until their dissertation is approved and submitted to the Graduate School.

Student Teaching
Teaching experience is considered an integral part of the training of graduate students. Thus, each PhD student is given the opportunity to participate in the teaching program of the School of Pharmacy.

PHTS Foundation Core Curriculum
- MPTX 502 Pharmacology Units: 4
- MPTX 602 Science, Research and Ethics Units: 2
- PM 510 Principles of Biostatistics Principles of Biostatistics Units: 4
- PSCI 556 Principal Research Approaches and Scientific Writing Units: 4

Additional Core Curriculum for MPTX, PSCI and CXPT Tracks
At least one of the following three courses, from the MPTX, PSCI and CXPT tracks should be selected:
- CXPT 609 Preclinical Experimental Drug Therapeutic Development Units: 4
- MPTX 500 Molecular Pharmacology and Toxicology I Units: 4
- PSCI 665 Drug Transport and Delivery Units: 4

Additional graduate courses offered in the School of Pharmacy
To reach the required 24 units of course work, the student can take more than one of the track courses, and any of the approved courses listed below, as well as other individualized program selected offerings approved by PHTS and the student’s adviser.
- CXPT 664 Clinical Problem Solving Units: 3
- MPTX 517 Structure and Management of Clinical Trials Units: 4
- PHTS 654 Computation in Drug Discovery and Development Units: 2
- PSCI 557 Introduction to Tools and Techniques for Chemical Biology Units: 2
- PSCI 599 Special Topics Units: 2, 3, 4
- PSCI 665 Immunopharmaceutics Units: 2, 2 years
- PSCI 667 Intracellular Drug Delivery and Targeting Units: 2, 2 years

Additional campus-wide general courses
To reach the required 24 units of course work, the student can take more than one of the track courses, and any of the approved courses listed below, as well as other individualized program selected offerings approved by PHTS and the student's adviser.
- INTD 531 Cell Biology Units: 4
- INTD 549 Protein Chemistry -- Structure and Function Units: 4
- INTD 561 Molecular Biology Units: 4
- INTD 572 Medical Physiology I Units: 4

PhD Programs in Pharmaceutical and Translational Sciences (PHTS)
- Clinical and Experimental Therapeutics (PhD)
- Molecular Pharmacology and Toxicology (PhD)
- Pharmaceutical Sciences (PhD)
USC Price School of Public Policy

The USC Price School of Public Policy provides a dynamic learning environment where interdisciplinary education abounds. At USC Price, students choose a program of study from the independent yet related fields of public administration and leadership, public policy, nonprofits and philanthropy, health management and policy, urban planning, real estate development and executive leadership. Students are supported by a committed faculty who contribute to the strong sense of community present in the school.

The school’s mission is to improve the quality of life for people and their communities. Faculty engage in solving some of society’s most pressing issues — and challenge students to do the same. USC Price is renowned for its expertise in areas such as: sustainability and the environment, health care policy, nonprofit management, housing and real estate, transportation, infrastructure, urban development and land use, social policy, governance, civic engagement, community development, immigration and risk analysis, among others.

Defining characteristics of USC Price are the depth of its academic classroom experience and connecting classroom theory to professional practice through practicums, internships and laboratory work locally, nationally and around the globe. Students can also participate in international exchange programs and acquire knowledge and skills necessary to become successful leaders in a global market. Students graduate with the knowledge, skills and experiences to lead in their chosen field of practice.

Today’s complex challenges call for leaders who are able to work across disciplines and across the public, private and nonprofit sectors to find solutions. It is for this multidisciplinary reality that USC Price prepares its students.

USC Price students go on to hold high-ranking appointments in our nation’s capital, analyze and determine public policy, design laboratory work locally, nationally and around the globe. Students can also participate in international exchange programs and acquire knowledge and skills necessary to become successful leaders in a global market. Students graduate with the knowledge, skills and experiences to lead in their chosen field of practice.

USC Price School of Public Policy:

Public Policy:

Margaret and John Ferraro Chair in Effective Local Government:
Ali E. Abbas, PhD
Melnick, PhD
Blue Cross of California Chair in Health Care Finance:
Jeffery A. Jenkins, PhD
Judith & John Bedrosian Chair in Governance & Public Enterprise; Lusk Chair in Real Estate:
Genevieve Giuliano, PhD*
LaVonna Lewis, PhD, Associate Dean of Diversity, Equity and Inclusion:
Christine Klein, Chief of Staff
Carole A. Rush, Chief Operating Officer
Lance Ignon, Senior Associate Dean of Communication
Katie Johnson, Associate Dean for Faculty and Academic Affairs
Carole King, Associate Dean for Advancement

Faculty

Wallis Annenberg Chair in Communication and Journalism: Manuel Castells, PhD (Communication)
Judith & John Bedrosian Chair in Governance & Public Enterprise; Provost Professor: Jeffery A. Jenkins, PhD
Blue Cross of California Chair in Health Care Finance: Glenn A. Melnick, PhD
Margaret and John Ferraro Chair in Effective Local Government:
Genevieve Giuliano, PhD*

James Irvine Chair in Urban and Regional Planning: Elizabeth Currid-Halkett, PhD
Lusk Chair in Real Estate: Richard K. Green, PhD (Business)
Jeffrey J. Miller Chair in Government, Business and the Economy: Elizabeth Graddy, PhD*
Emery Evans Olson Chair in Nonprofit Entrepreneurship and Public Policy: James M. Ferris, PhD

Price Family Chair in Social Innovation: Christine Beckman, PhD
Quintiles Chair in Pharmaceutical and Regulatory Innovation: Darius Lakdawalla, PhD (Pharmacy)
Leonard D. Schaeffer Director’s Chair of the USC Leonard D. Schaeffer Center for Health Policy and Economics; Distinguished Professor: Dana Goldman, PhD*
The Norman Topping National Medical Enterprise Chair in Medicine and Public Policy: Jason Doctor, PhD
Turpanjian Chair in Civil Society & Social Change: Manuel Pastor

PhD (Sociology, and American Studies and Ethnicity)
Borstein Family Endowed Professor of Real Estate: Christian L. Redfearn, PhD
Provost Professor of Public Policy, Psychology, and Behavioral Science: Wandi Bruine de Bruin, PhD
Governor Downey Professor of State and Global Policy: Arnold Schwarzenegger
Frances R. and John J. Duggan Distinguished Professor of Public Administration: Shui Yan Tang, PhD*
Houston I. Flournoy Professor in State Government: Lois Takahashi, PhD
William M. Keck Professor of Energy Resources: Donald Paul, PhD (Engineering and Earth Sciences)
John Milner Professor of Child Welfare: Jacquelyn McCroskey, PhD (Social Work)
Mary Pickford Foundation Professor: Kathleen Wilber, PhD (Gerontology)
UPS Foundation Professor: Jon Pynoos, PhD (Gerontology)
Judge Widney Professor: Leonard D. Schaeffer
Judge Widney Professor of Poetry and Public Culture: Dana Gioia, MA, MBA

Profsors: Ali E. Abbas, PhD (Engineering); Antonio Bento, PhD; Marlon Boarnet, PhD; Ann Ceglie, PhD (Political Science);
Howard Greenwald, PhD; Eric Heikila, PhD; Dan Mazmanian, PhD; James Moore II, PhD (Engineering); Dowell Myers, PhD; Michael B. Nichol, PhD; Ann Owens, PhD (Sociology); Gary Painter, PhD; Jane Pisano, PhD; Alison D. Renteln, PhD* (Political Science);
Lisa Schweitzer, PhD; David Sloane, PhD; Neeraj Sood, PhD; Robert Suro (Journalism); Detolf von Winterfeldt, PhD (Engineering)

Associate Professors: Emma Aguila, PhD; Nicole Esparza, PhD; Christian Grose, PhD (Political Science); Geoffrey Joyce, PhD (Pharmacy); Annette Kim, PhD; Pamela McCann, PhD; Juliet Musso, PhD*; Christian Redfearn, PhD; William Resh, PhD; Peter Robertson, PhD*; John Romley, PhD; Jeffrey Sellers, PhD (Political Science); Abby Wood (Law); Julie M. Zissimopoulos, PhD
Assistant Professors: Geoffrey Boeing; Alice Chen, PhD; Spencer Couts, PhD; Jorge De la Roca, PhD; Moussa Diop, PhD; Kathleen Doherty, PhD; Nicolas Duquette, PhD; Alexandra Graddy-Reed, PhD; Janna King, PhD; Eugene Lin, MD, MS (Medicine)

Visiting Professors: Wandi Bruine de Bruin; Rosalie Pacula, PhD Professors (Teaching): Grace Bahng, PhD; Elizabeth Falletta, MRED; LaVonna B. Lewis, PhD; Deborah J. Natoli, PhD; Dora Vertantien, DPA

Associate Professors (Teaching): Tara Blanc, PhD; Mary Lynne Boom, PhD; Rym Kaki, PhD; William Leach, PhD; John Loper, MRED; T.J. McCarthy, PhD; Mark D. Phillips, PhD; Kelly Rawlings, PhD; Michael Thom, PhD
Assistant Professor (Teaching): Lisa Ozaza, DrPH
Research Professors: Michael Cousineau, PhD (Medicine); Adam Rose, PhD

Research Associate Professor: Dan Wei, PhD
Research Assistant Professors: Jonathan Eyer, PhD; Jakub Hlavka, PhD; Karen Mulligan, PhD; Mindy Romero, PhD; Erin Trish, PhD; Karen Van Nuyis, PhD; Bryan Tysinger, PhD
Professors of Practice: Phil Dalton, MS (Health Management and Policy), MPH; Carol J. Geffner, PhD (Governance, Management and Policy); Paul B. Ginsburg, PhD (Health Policy and Management); Michael E. Harris (Health Services Administration)
Degrees Offered
The Price School of Public Policy offers the following degrees:

- Bachelor of Science in Public Policy
- Bachelor of Science in Real Estate Development
- Bachelor of Science in Urban Studies and Planning
- Master of Health Administration
- Executive Master of Health Administration
- Master of International Public Policy and Management
- Master of Urban Planning
- Master of Planning and Development Studies
- Master of Public Administration
- Master of Public Policy
- Master of Public Policy Data Science
- Master of Nonprofit Leadership and Management
- Master of Real Estate Development
- Doctor of Philosophy in Public Policy and Management
- Doctor of Philosophy in Urban Planning and Development
- Doctor of Policy, Planning, and Development

The Bachelor of Science and the school's master's degrees are also offered jointly as a progressive five-year program and the school participates in the following interdisciplinary minors:

- Construction Planning and Management
- Education Policy
- Health Policy
- International Policy and Management
- Law and Public Policy
- Nonprofits, Philanthropy and Volunteerism
- Real Estate Development
- Urban Sustainable Planning

The Master of Urban Planning is offered as a dual master's degree with programs in architecture, curatorial practices and the public sphere, heritage conservation, landscape architecture, business administration, public administration, public health, public policy, real estate development and social work.

The Master of Public Administration is offered as a dual master's degree with programs in urban planning, gerontology, Jewish nonprofit management, law and social work.

The Master of Real Estate Development is offered as a dual degree with the Master of Business Administration, Juris Doctor and Master of Urban Planning.

The Master of Health Administration is offered as a dual degree with the Master of Science in Gerontology.

The Master of Public Policy is offered as a dual degree with programs in law and urban planning.

National Honor Societies

Pi Alpha Alpha
Pi Alpha Alpha is the national honor society for public affairs and administration. Graduate students in the Price School of Public Policy who have completed at least 18 semester units and have earned a 3.7 grade point average are eligible for membership.

Pi Sigma Alpha
Pi Sigma Alpha is the national honor society for students in public administration, political science and international relations. Students who have completed at least three courses from among these fields and have earned at least a 3.5 grade point average are eligible to apply.

Undergraduate Degrees

The Price School of Public Policy offers a suite of degrees that allow undergraduate students to gain the skills and knowledge necessary to understand complex health, environmental and urban issues, as well as to potentially enter the professional fields of health and nonprofit management, public policy, real estate development, and urban planning. Students may enroll in the Bachelor of Science in Public Policy, Bachelor of Science in Urban Studies and Planning or the Bachelor of Science in Real Estate Development. In addition, students can select from a challenging set of minors or possibly the very competitive progressive degrees associated with the Master of Health Administration, Master of Urban Planning and Master of Public Administration.

Admission

Freshman and transfer students may indicate their desire to declare a Price School major on their university application. Students enrolled at USC wishing to declare either a Price major or to be admitted into the minors must be in good academic standing. Interested current USC students should contact the Admissions and Recruitment Office in RGL 111 for more information.

Advisement

Students must discuss courses of study with the appropriate undergraduate advisers throughout their college enrollment and need to develop their own individual programs with faculty and staff advisers at the time of first enrollment and throughout their college careers.
Progressive Degrees in the Price School of Public Policy

The Price School of Public Policy offers students who have demonstrated exceptional academic success the opportunity to earn both bachelor’s and master’s degrees in a progressive degree program. This program allows students to earn both the Bachelor of Science and a master’s degree in five years. Further details about progressive degrees can be found on the Requirements for Graduation page.

Admission

Admission is available after the completion of 64 units of course work toward the undergraduate degree. Students must apply for admission to the progressive degree program after completing 64 units of applicable course work to their undergraduate programs, but prior to the completion of 96 units of course work (not including AP, IB or courses taken prior to high school graduation). The application for admission to the progressive degree plan must be accompanied by a course proposal plan and two letters of recommendation with one at least from a Price School faculty member.

Awarding of Degrees

The Bachelor of Science and master’s degree may be awarded separately upon completion of all degree requirements, but the master’s degree will not be awarded before the bachelor’s degree. Students who elect not to complete the master’s, must complete 128 units to earn the bachelor’s degree, including 32 units of upper-division Price course work (including any graduate Price classes).

Time Limits

All requirements for the progressive degree must be completed within 12 semesters. If not completed within that time, students will no longer be eligible for the master’s degree but may still earn the bachelor’s.

Transfer of Credits

Graduate courses will not be accepted for transfer credit. Undergraduate classes may be transferred in accordance with university guidelines.

Minor Programs

Minor in Construction Planning and Management

This program covers the most current theories and practice of construction planning and management. The program provides a valuable adjunct credential to professional school students pursuing careers in business administration, public administration, environmental studies, and other areas; and a unique opportunity for professional focus to students in the USC Dornsife College of Letters, Arts and Sciences.

Construction activities are complex. In contemporary society, effective planning and management of these activities requires specialized knowledge of the technical, economic and political environment. This program couples the knowledge of how construction activities are organized with a broader understanding of the urban system in which construction projects are embedded. With the exception of statistics, all of the required courses are within the Department of Civil Engineering and the Price School of Public Policy.

Any USC undergraduate who has completed the equivalent of two full-time semesters in good standing is eligible to pursue the minor program. This minor program is rigorous enough to serve as an introductory credential for students subsequently electing to pursue advanced studies in development, urban planning, construction management or allied fields.

See the Department of Civil Engineering for course requirements.

Minor in International Policy and Management

The minor in international policy and management brings together courses from the School of International Relations, dealing with the new global challenges, specific regions of the world, and international organizations and policies, and the Price School of Public Policy, dealing with core management skills and public policy processes. Students will examine the changes and challenges which are transforming the world, and the policy and management skills used to deal with them. To increase their understanding of the context and application of these concepts, students must complete a semester-long internship either in Washington, D.C. (through participation in the Washington, D.C. semester program) or in Los Angeles with an organization that has an international focus.

Students minoring in international policy and management take three courses in international relations, including the gateway course, IR 305w Managing New Global Problems; three courses in public policy and management; and an approved internship through the School of International Relations (IR 491x Field Study). For additional course information, see International Relations.

Graduate Degrees

Admission

Applicants for admission to the Master of Health Administration; Executive Master of Health Administration; Executive Master of Leadership; Master of Nonprofit Management and Leadership; Master of Urban Planning; Master of Planning and Development Studies; Master of Public Administration; Master of Public Policy; Master of International Public Policy and Management; Master of Real Estate Development; Doctor of Policy, Planning, and Development; Doctor of Philosophy in Public Policy and Management; and Doctor of Philosophy in Urban Planning and Development must have a bachelor’s degree or its equivalent from an accredited educational institution. In recognition of the increasing diversity of capabilities required as the theories and practices of policy, planning, and development evolve, students from a variety of undergraduate and graduate backgrounds are encouraged to apply.

Applicants for admission will be expected to have completed a broad range of undergraduate courses in addition to their academic major or professional concentration. Generally, this will be reflected in completion of courses from the following fields: English; economics (basic theory); political science, history or sociology; physical or natural science; art or philosophy. In addition, mathematics (algebra, calculus, probability theory) and a course in statistics are strongly recommended.

Application for Admission

Admission to graduate programs in the Price School of Public Policy is highly selective and competitive. Preference is given to those with a record of high educational achievement and personal qualities favoring success in the fields of planning or development. Applicants must have achieved superior grades during undergraduate and any graduate education. A grade point average of at least 3.0 (A = 4.0) is normally expected as well as satisfactory scores on the Graduate Record Examinations (GRE). The GRE and GMAT are neither accepted nor required for the DPPD or executive MHA programs. Students applying for admission to the Master of Nonprofit Management and Leadership, Master of Urban Planning, Master of Planning and Development Studies or the Master of Real Estate Development program may submit results from the Graduate Management Administration Test (GMAT). MRED applicants may also submit results from the Law School Admission Test (LSAT). In exceptional cases, an applicant who has not met these scholarship requirements may be admitted with conditions of admission.

For specific information on admission requirements and application procedures, contact the Price School of Public Policy, Office of Recruitment and Admissions, at (213) 740-0550. Certificate in Transportation Systems applicants should apply to the USC Viterbi School of Engineering. For additional information, contact the school at (213) 740-0587.
Transfer Credit

The Degree Progress Department determines whether work done elsewhere is available for consideration for credit toward the USC degree. That office requires official transcripts of all course work done before entering USC. A Graduate Transfer Credit Statement of these official transcripts, done after a student has been admitted to regular status at USC, will indicate which units are available for transfer. These courses do not apply toward the degree unless, and until, the student's major department approves and submits transfer credit to the Degree Progress Department in the Office of Academic Records and Registrar.

Application of any available transfer credits toward a graduate degree will be determined by the director of the particular degree program, based on the semester units available for transfer as shown on the Transfer Credit Statement.

These general guidelines are followed by the admissions evaluator and by faculty members: (1) the work must be completed at an accredited graduate school; (2) the grade must be B or better; (3) the work must be a fair and reasonable equivalent to current USC course work at the graduate level which fits into the logical program for the degree; (4) the units are not more than seven years old at the time of admission to their master's program (or 10 years old for a doctoral program); (5) the units must reflect current knowledge in the field; and (6) the work must be completed prior to admission to the USC program.

USC does not give transfer credit for life experience, credit by examination, noncredit extension courses or thesis course supervision.

Please consult with your degree director before enrolling in courses outside of USC. In many of the Price School’s master’s degree programs, only courses taken outside of USC prior to admission may be applied to your degree.

Waiver of Course Content

The school recognizes that some applicants may have covered the material contained in core courses or courses required for a particular specialization. Under these circumstances, one particular course requirement may be waived, allowing the student to complete a more advanced course in the same area. Students who have a background in a particular area of study may be allowed to substitute other courses. In these situations students do not receive unit credit but are permitted to take course work, which does not repeat earlier academic experiences.

Waiver of content is usually given only in the case of previous academic study of the subject, not in the case of experiential background in the area.

Students who believe they are eligible for content waiver decisions must petition the faculty of the school, providing evidence of the previous work through transcripts, syllabi and other pertinent material. Contact the school’s Student Affairs Office for information.

Master of Science in Health Systems Management Engineering

This program is jointly sponsored by the Epstein Industrial and Systems Engineering Department and the Price School of Public Policy, and administered by the Epstein Industrial and Systems Engineering Department. For more information, see Health Systems Management Engineering (MS).

Graduate Professional Labs

USC’s Price School of Public Policy offers professional consulting-like experience for graduate students in its core master’s degree programs. Participants are presented with a challenging professional assignment and a well-defined client and terms of reference. Students typically work in teams to produce a professional report and related materials that are presented to the client at the close of the assignment. The terms of reference for the lab vary each year depending upon the client, the instructor and the setting, among other considerations.

In principle, these professional labs may be held anywhere, either in Los Angeles, elsewhere in the United States or abroad.
Master of Real Estate Development/Master of Business Administration

See the Master of Business Administration/Master of Real Estate Development (MBA/MRED) for degree requirements.

Regulations Concerning a Second Master's Degree

For rules governing a second master's degree, see the Requirements for Graduation page. In accordance with these policies, transfer credits will be granted only on the basis of a written petition to the MPA program coordinator and on the basis of credits recognized by USC in a Transfer Credit Statement.

Teaching Opportunities

Students may want to prepare for teaching as well as for public service. By careful planning in the upper division of the undergraduate degree and during the graduate years, requirements for a bachelor's degree, a master's degree and the university recommendation for a community college instructorship may be met without unnecessary duplication of effort and waste of time. Those interested in teaching should consult advisers in both the USC Price School of Public Policy and the USC Rossier School of Education before beginning upper-division and graduate work.

Public Administration Professional Sequence with the Viterbi School of Engineering

Regulations governing the Master of Science in Civil Engineering permit some candidates for this degree to take 12 units outside the School of Engineering. Those who wish to do so may take 12 units in public administration. Two courses in this sequence must be selected from among PPD 500, PPD 501a, PPD 501b, PPD 540, PPD 541, PPD 545, PPD 546. One course in this sequence must be selected from among PPD 542, PPD 557, PPD 666. PPD 541 requires PPD 502x and statistics as prerequisites. PPD 546 should be taken last if elected.

Joint Degree Program

Master of Arts in Long Term Care Administration

This program is designed to prepare competent individuals to administer the long term care needs of America's elderly population. It is jointly offered by the Davis School of Gerontology, the USC Marshall School of Business, and the Price School of Public Policy. For information see the USC Leonard Davis School of Gerontology.

Doctoral Degrees

The USC Price School of Public Policy offers the Doctor of Philosophy in Public Policy and Management (PhD), the Doctor of Philosophy in Urban Planning and Development (PhD) and the Doctor of Policy, Planning, and Development (DPPD). The PhD degrees are designed to prepare individuals for university level teaching and research. The DPPD degree is intended to develop a high level of conceptual and research competence for professional leadership in planning and development. The DPPD is administered by the Price School of Public Policy; the PhD programs are administered by the Graduate School and the faculty of the Price School of Public Policy. PhD students must consult The Graduate School section of this catalogue for regulations and requirements pertaining to its degrees. Students should also consult the Academic Policies section of this catalogue.

Completion of the requirements for all these degrees is assumed to take a minimum of three years of approved graduate study and research beyond the bachelor's degree. For the PhD student, a minimum of 24 graduate units completed in residence on the University Park Campus in Los Angeles is required. DPPD students are required to complete a minimum of 24 units at the University Park Campus. Full-time study is represented by enrollment in 6 units during the semester. Usually the school and the student's qualifying exam committee insist on a clear and mutually understood commitment of time and energy by the student to ensure significant involvement in the
doctoral learning experience. For university policies regarding continuous enrollment, leave of absence and readmission, see the Requirements for Graduation page.

Application and Admission

Admission to graduate standing for the PhD or DPPD is recommended by the school's admissions committee acting under guidelines established by the Graduate School as outlined in the Graduate School section and the Graduate Admission section. In addition to those guidelines, DPPD students are expected to have a minimum of five years of substantial relevant experience. Students intending to apply should direct questions about the program and all materials for the admission application to Doctoral Programs, Office of Student Affairs, RGL 111, Price School of Public Policy, University of Southern California, University Park, Los Angeles, CA 90089-0626.

The deadline for applications for admission to the PhD and DPPD programs is December 1. Applications for admission are made once each year for fall semester admission.

The admission decision for PhD students is made using criteria that include verification that the applicant has a bachelor's degree from an accredited college or university, has maintained a high grade point average in the last 60 units of undergraduate work, and has earned a competitive score on the verbal and quantitative portions of the Graduate Record Examinations (GRE). Other elements of the applicant's educational and experiential background are also evaluated, including performance in other advanced degrees. DPPD applicants must also provide evidence of at least five years of practical administrative or other relevant experience. The GRE and GMAT scores are neither accepted nor required for the DPPD program.

Each applicant should submit the following: (1) one copy of official transcripts of all previous college and university work (be sure that these official transcripts show an awarded degree where appropriate); (2) copies of GRE scores; (3) a 1,000-word essay discussing the applicant's background and reasons for wanting to pursue a PhD degree and identifying his or her personal, educational and professional goals; (4) an up-to-date résumé, including academic and professional accomplishments; (5) three letters of recommendation, two from previous instructors, the other from an instructor or from a professional supervisor or colleague. The letters should indicate the applicant's academic and professional accomplishments and potential; (6) a completed USC Graduate Admission Application, along with the nonrefundable application fee; (7) a writing sample of approximately 1,000 words (in addition to the applicant essay); and (8) a completed Price School of Public Policy Supplemental Graduate Application.

International applicants for admission to doctoral programs should submit materials to Doctoral Programs, Recruitment and Admissions Office, RGL 111, Price School of Public Policy, University of Southern California, University Park, Los Angeles, CA 90089-0626. See the Admission of International Students section of this catalogue.

Screening

PhD students are required to have a 3.3 overall GPA in first-year courses to continue in the program. DPPD students are required to pass a screening procedure after 16 units of course work. The procedure is designed to ensure that only those students who have demonstrated intellectual and scholarly potential continue in the program.

There are differences between the screening process for PhD and DPPD students. Students should consult the relevant faculty director of the doctoral program in which they are enrolled.

Qualifying Exam Committee (for the PhD programs)

A qualifying exam committee assists the student in outlining an academic program leading toward the degree. Students will form an initial qualifying exam committee by the end of the first fall semester. The committee might not yet include the Graduate School representative from outside the Price School, but must include at least three tenure track the Price School faculty members, one of whom is identified as the chair. This committee bears responsibility for counseling the doctoral student, for approving a course schedule and preliminary and qualifying examinations, and for recommending the student for admission to candidacy. After approval of the student's program and proposed time schedule, the program is submitted in writing to the relevant director. This should be accomplished by the beginning of the second year, following successful screening.

The complete qualifying exam committee must be in place no later than the third semester. The chair should have recognized expertise in the qualifying area and should be a regular participant in the qualifying examination committee for that area. The majority of the members of the qualifying exam committee (typically at least three out of five) should be experts in the area in which the student is qualifying and should be regular participants in the qualifying examination committee. The remaining members should have a clear interest in this area with the exception of the outside member whose primary responsibility is to serve as the representative of the Graduate School, ensuring the university's commitment to the equitable treatment of all students and that the highest quality education standards are upheld.

Students will formalize their relationship with their committees through the development of a work plan that specifies all courses, degree progress, seminar attendance and what was learned from these sessions as well as a research plan that articulates major research questions being explored. At the end of the first year of study, the qualifying exam committee chair reviews and approves the work plan. At the end of the second year, the full qualifying exam committee reviews the work plan and the second year paper.

Instructional Modalities

The Price School offers programs in various modalities ranging from traditional in-residence to hybrid to fully online course delivery. When designing curriculum, the Price School utilizes innovative learning tools to deliver courses in a variety of formats depending on the individual programmatic goals and learning objectives. This may include formats such a flipped classrooms.
and intensives that utilize a blend of in-person and online lectures and course activities.

**Bachelor’s Degree**

**Public Policy (BS)**

The Bachelor of Science in Public Policy is an interdisciplinary major that prepares students for graduate study and/or professional careers by engaging them in the analysis of society’s political, social and economic issues. The major introduces students to theoretical foundations and practical applications through a set of cross-cutting introductory courses and specialized courses in one of four tracks: health policy and management, public policy and law, philanthropy, nonprofits and social innovation, or public policy and data analytics. Students will be introduced to analytical and research tools relevant for and connected to professional practice, as exemplified by consultative class projects and the mandatory internship.

**Pre-Major Requirements**

Students must complete the pre-major requirements. A minimum grade of C, 2.0 (A = 4.0), must be earned in each of the pre-major courses. All pre-major requirements must be taken for a letter grade.

- MATH 117g Introduction to Mathematics for Business and Economics Units: 4
- PPD 203 Economic Analysis for Public Policy Units: 4

**Core Curriculum (30 Units)**

- PPD 225 Public Policy and Management Units: 4
- PPD 240g Citizenship and Public Ethics Units: 4
- PPD 300 Social Justice Issues in Public Policy and Urban Planning Units: 4
- PPD 301 PPD Practices: Internship Seminar Units: 2
- PPD 303 Statistics for Policy, Planning, and Development Units: 4
- PPD 315 Analytic Foundations for Public Policy Units: 4
- PPD 373 Public Policy and Planning Analysis Units: 4
- PPD 431 Undergraduate Policy, Planning, and Development Studio Units: 4

**Tracks**

Students select one track for degree emphasis; they take 28 units from the track selected. Each track includes five required courses and two elective courses with the exception of the Public Policy and Data Analysis track, which has four required courses and three elective courses. During advisement, students will be given a list of recommended elective courses particularly appropriate for the chosen track. Students may work with their adviser for approval to take track electives outside of the courses listed to meet their academic needs. The required courses for each track are listed below followed by track elective options.

**Health Policy and Management Track**

**Required Track Courses (28 units: 20 required, 8 electives)**
- PPD 325 Fundamentals of Health Policy and Management Units: 4
- PPD 330 Introduction to Health Care Systems Units: 4
- PPD 357 Government and Business Units: 4
- PPD 413 Administration of Health Care Organizations Units: 4
- PPD 415 Health Policy Units: 4

**Track Electives (Select two)**
- GER 416 Health Issues in Adulthood Units: 4
- HP 408 Environmental Health in the Community Units: 4
- LAW 403 Mental Health Law Units: 4
- PPD 314 Public Policy and Law Units: 4
- PPD 318 Financial Accounting in Public and Nonprofit Organizations Units: 4
- PPD 320 Organizational Behavior in Public Administration Units: 4
- PPD 403 Management Analysis I Units: 4
- PPD 404 Empirical Methods for Public Policy Units: 4
- PPD 407 Financial Management of Public and Nonprofit Organizations Units: 4
- PPD 414 Community Health Policy and Planning Units: 4
- PPD 478 Social Innovation Units: 4

**Philanthropy, Nonprofits and Social Innovation Track**

**Required Track Courses (28 units: 20 required, 8 electives)**
- PPD 353 Philanthropy and Social Change Units: 4
- PPD 371 The Nonprofit Sector and the Public Interest Units: 4
- PPD 402 Management of Public and Nonprofit Organizations Units: 4
- PPD 407 Financial Management of Public and Nonprofit Organizations Units: 4
- PPD 478 Social Innovation Units: 4

**Track Electives (Select two)**
- BUCO 485 Business Communication Management for Nonprofits Units: 4
- IR 371 Global Civil Society: Non-State Actors in World Politics Units: 4
- PPD 318 Financial Accounting in Public and Nonprofit Organizations Units: 4
- PPD 320 Organizational Behavior in Public Administration Units: 4
- PPD 372m Public Service in an Urban Setting Units: 4
- PPD 382 International Development Units: 4
- PPD 404 Empirical Methods for Public Policy Units: 4

**Public Policy and Law Track**

**Required Track Courses (28 units: 20 required, 8 electives)**
- PPD 313 Finance of the Public Sector Units: 4
- PPD 314 Public Policy and Law Units: 4
- PPD 342 Crime and Public Policy Units: 4
- LAW 300 Concepts in American Law Units: 4
- POSC 340 Constitutional Law Units: 4
- LAW 200w Law and Society Units: 4
- PPD 357 Government and Business Units: 4

**Track Electives (Select two)**
- ECON 434 Economic Analysis of Law Units: 4
- LAW 310w Global Justice for Mass Atrocities and Genocide Units: 4
- LAW 403 Mental Health Law Units: 4
- LAW 404 Psychology of the Criminal Justice Process Units: 4
- POSC 444 Civil and Political Rights and Liberties Units: 4
- PPD 360 Urban Transportation Planning and Policy Units: 4
- PPD 361 Sustainable Communities, Policy and Planning Units: 4
- PPD 371 The Nonprofit Sector and the Public Interest Units: 4
- PPD 382 International Development Units: 4
- PPD 404 Empirical Methods for Public Policy Units: 4
- PPD 410 Comparative Urban Development Units: 4
- PPD 414 Community Health Policy and Planning Units: 4
- PPD 439 Housing and Community Development Units: 4
- PPD 478 Social Innovation Units: 4
- PPD 485m U.S. Immigration Policy Units: 4
- For the two track requirements that consist of a choice (POSC 340 or LAW 300 and LAW 200w or PPD 357), the courses not used to satisfy these requirements may be taken as electives.

**Public Policy and Data Analytics Track**

**Required Courses**

**Required Track Courses (28 units: 16 required, 12 electives):**
- PPD 313 Finance of the Public Sector Units: 4
- PPD 404 Empirical Methods for Public Policy Units: 4
- PPD 427L Geographic Information Systems and Planning Applications Units: 4
- DSCI 250 Introduction to Data Science Units: 4
- PPD 430 Urban Informatics Units: 4
Electives

Track Electives (Select 12 units):

- DSCI 250 Introduction to Data Science Units: 4
- DSCI 352 Applied Machine Learning and Data Mining Units: 4
- DSCI 429 Security and Privacy Units: 4
- ECON 303 Intermediate Microeconomic Theory Units: 4
- PPD 314 Public Policy and Law Units: 4
- PPD 318 Financial Accounting in Public and Nonprofit Organizations Units: 4
- PPD 342 Crime and Public Policy Units: 4
- PPD 357 Government and Business Units: 4
- PPD 358 Urban and Regional Economics Units: 4
- PPD 361 Sustainable Communities, Policy and Planning Units: 4
- PPD 382 International Development Units: 4
- PPD 407 Financial Management of Public and Nonprofit Organizations Units: 4
- PPD 415 Health Policy Units: 4
- PPD 427L Geographic Information Systems and Planning Applications Units: 4
- PPD 439 Housing and Community Development Units: 4

If not used to satisfy the core track requirement, either PPD 427L or DSCI 250 may be selected as an elective.

Cross-cutting Topics Course

Students will be required to take 4 units of a cross-cutting topics course. It is taken preferably junior year after completion of the core curriculum. Students may select a course from the list below. If a student uses a course to satisfy a requirement or elective that has already been taken in the track requirements, it can not be double-counted as the cross-cutting course. The cross-cutting course must be a different course.

- PPD 313 Finance of the Public Sector Units: 4
- PPD 314 Public Policy and Law Units: 4
- PPD 325 Fundamentals of Health Policy and Management Units: 4
- PPD 342 Crime and Public Policy Units: 4
- PPD 353 Philanthropy and Social Change Units: 4
- PPD 357 Government and Business Units: 4
- PPD 371 The Nonprofit Sector and the Public Interest Units: 4
- PPD 400 Topics in Public Policy and Urban Studies Units: 4
- PPD 404 Empirical Methods for Public Policy Units: 4

Additional Requirements

Capstone

All students will take 4 units of a capstone experience during their senior year. This may be fulfilled by taking PPD 431 Undergraduate Policy, Planning, and Development Studio (4) or PPD 497a Senior Thesis, PPD 497b Senior Thesis (2-2). Students wishing to enroll in PPD 497a, PPD 497b must have a 3.7 GPA in PPD courses and an overall 3.5 GPA.

Internships

Public Policy majors are required to complete 140 hours of internship by enrolling in PPD 301 PPD Practices: Internship Seminar or the Washington, D.C., Semester internship. Internships are matched as closely as possible to the student's interests and skills.

PPD 301 and the internship in a position provide numerous opportunities to develop and formulate future career goals, as well as to gain personal and professional experience while completing the undergraduate degree.

Honors

Price School honors are available at graduation to qualified PPD majors and result in a special designation of departmental honors on a student's transcript. Achievement of PPD honors requires a 3.7 GPA in PPD major courses and a 3.5 overall GPA as well as nomination by the professor in the capstone experience. In addition, students must earn an A in their capstone course (PPD 497a, PPD 497b or PPD 431).

Washington, D.C., Semester

The Washington, D.C., Semester program provides an intensive semester of confrontation with the political center of the nation and its complex components. The program offers opportunities for behind-the-scenes work in national government agencies and related organizations, combined with an academic environment and the chance to explore, share and learn with a group of fellow students.

Real Estate Development (BS)

Price School students are trained to look at the interaction between people and place and the consequences for our communities. The Bachelor of Science in Real Estate Development explores the broader context of real estate allowing students to launch their careers by grasping the full structure of the industry and its role in society. The foundational core courses integrate the many disciplines that are the basis for real estate education, including accounting, economics and business finance. The real estate core classes taken through the Price School focus on real estate principles, financial analysis, market analysis, land use policy, urban design and the history of cities. Students also select electives to complement their interests from either the Price School or closely related disciplines. Throughout, the students' education will be connected to professional practice, as exemplified by the mandatory internship. Finally, the major is structured to provide students with sufficient elective credits to explore minors or other programs at USC so they can broaden their education to better prepare themselves for the next stage of their lives.

Double Major

Students who wish to pursue the Bachelor of Science in Real Estate Development as a second major must satisfy all university requirements for a second major and complete 32 units unique to the Real Estate Development major.

Pre-major requirements (8 units)

- ECON 203g Principles of Microeconomics Units: 4
- MATH 117g Introduction to Mathematics for Business and Economics Units: 4

Foundational Core (22 units)

- ACCT 410x Foundations of Accounting Units: 4
- BUAD 215x Foundations of Business Finance Units: 4 or
- RED 325 Introduction to Finance in Cities Units: 4
- PPD 245g The Urban Context Units: 4 *
- PPD 303 Statistics for Policy, Planning, and Development Units: 4
- RED 200 Introduction to Real Estate Units: 4
- RED 201 Real Estate Career Seminar Units: 2

Note:

*May double count as general education.

Real Estate Core (24 units)

- RED 362 Real Estate Development Fundamentals Units: 4
- RED 375 Real Estate Development Analysis Units: 4
- RED 417 History of Planning and Development Units: 4
- RED 425 Designing Livable Communities Units: 4
- RED 435 Analyzing Real Estate Markets Units: 4
- RED 437 Advanced Finance and Investment for Real Estate Development Units: 4

Additional Requirements

Real Estate Electives (11-12 units)

Students select 11-12 units of course work from the Price School or in related fields. Elective classes must be approved by the Price School academic adviser.
Capstone (4 units)

Students will complete four units of a capstone experience during their senior year. This may be fulfilled by taking PPD 431 Undergraduate Policy, Planning, and Development Studio (4) or PPD 497a Senior Thesis, PPD 497b Senior Thesis (2-2). Students wishing to enroll in PPD 497a, PPD 497b must have a 3.7 GPA in Price School courses and an overall 3.5 GPA.

Internship (1 unit)

Students are required to complete 140 hours of while concurrently enrolled in RED 301 Real Estate Internship Seminar. Internships are matched as closely as possible to the student's interests and skills. RED 301 and the internship provide opportunities to develop and formulate future career goals, as well as to gain personal and professional experience while completing the undergraduate degree.

Honors

Price School honors are available at graduation to qualified students and result in a special designation of departmental honors on a student's transcript. Achievement of Price School honors requires a 3.7 GPA in Price School major courses, a 3.5 overall GPA, as well as nomination by the professor of the capstone experience. In addition, students must earn an A in their capstone course (PPD 431 or PPD 497a, PPD 497b).

Urban Studies and Planning (BS)

The Bachelor of Science in Urban Studies and Planning is an interdisciplinary major that prepares students for graduate study and careers as change agents in the urban world. The major introduces students to theoretical foundations and practical applications through a set of introductory courses and develop expertise through electives. Students will learn analytical techniques for urban sustainability, methods for stakeholder engagement, approaches for poverty alleviation, and the role of the built environment and geographic data in city problem solving. Environmental analysis and sustainability, Geographic Information Systems, statistics, urban design, applied field research, and the mandatory internship are a sample of the courses and tools used to educate our students and to better prepare them for their professional careers or graduate studies.

The program requires a minimum of 128 units.

Pre-major Requirements

Students must complete the pre-major requirements. A minimum grade of C, 2.0 (A=4.0), must be earned in each of the pre-major courses. All pre-major requirements must be taken for a letter grade.

- ECON 203g Principles of Microeconomics Units: 4
- MATH 117g Introduction to Mathematics for Business and Economics Units: 4

Core Curriculum

- PPD 240g Citizenship and Public Ethics Units: 4
- PPD 245g The Urban Context Units: 4
- PPD 300 Social Justice Issues in Public Policy and Urban Planning Units: 4
- PPD 301 PPD Practices: Internship Seminar Units: 2
- PPD 303 Statistics for Policy, Planning, and Development Units: 4

Urban Studies and Planning Core (20 units)

- PPD 227 Urban Planning and Development Units: 4
- PPD 427L Geographic Information Systems and Planning Applications Units: 4
- PPD 430 Urban Informatics Units: 4
- RED 417 History of Planning and Development Units: 4
- RED 425 Designing Livable Communities Units: 4

Urban Studies and Planning Electives

(16 units)

Students in this major select 16 units of electives. Students may petition to take elective outside of the list below.

- PPD 250m Cities in the Developing World Units: 4
- PPD 308 Visual Methods in Policy, Management, Planning and Development Units: 4
- PPD 357 Government and Business Units: 4
- PPD 358 Urban and Regional Economics Units: 4
- PPD 360 Urban Transportation Planning and Policy Units: 4
- PPD 361 Sustainable Communities, Policy and Planning Units: 4
- PPD 364 Technology and the City Units: 4
- PPD 382 International Development Units: 4
- PPD 410 Comparative Urban Development Units: 4
- PPD 414 Community Health Policy and Planning Units: 4
- PPD 416 Food Policy and Planning Units: 2
- PPD 420 Environmental Impact Assessment Units: 4
- PPD 421 Land Use, Environment, and Housing in Developing Countries Units: 4
- PPD 422 Transportation and Technology and the Future of Mobility Units: 4
- PPD 438 Local Economic Development Units: 4
- PPD 439 Housing and Community Development Units: 4
- PPD 478 Social Innovation Units: 4
- RED 362 Real Estate Development Fundamentals Units: 4

Additional Requirements

Cross-cutting Topics Courses

Students will be required to take 4 units of cross-cutting topics courses (PPD 400), preferably in junior year after they have completed the core curriculum.

Capstone

All students will take 4 units of a capstone experience during their senior year. This may be fulfilled by taking PPD 431 Undergraduate Policy, Planning, and Development Studio (4) or PPD 497a Senior Thesis, PPD 497b Senior Thesis (2-2). Students wishing to enroll in PPD 497a, PPD 497b must have a 3.7 GPA in PPD courses and an overall 3.5 GPA.

Internships

Urban Studies and Planning majors are required to complete 140 hours of internship by enrolling in PPD 301 PPD Practices: Internship Seminar or the Washington, D.C., Semester internship. Internships are matched as closely as possible to the student's interests and skills.

PPD 301 and the internship in a position provide numerous opportunities to develop and formulate future career goals, as well as to gain personal and professional experience while completing the undergraduate degree.

Honors

Price School honors are available at graduation to qualified PPD majors and result in a special designation of departmental honors on a student's transcript. Achievement of PPD honors requires a 3.7 GPA in PPD major courses and a 3.5 overall GPA as well as nomination by the professor in the capstone experience. In addition, students must earn an A in their capstone course (PPD 497a, PPD 497b or PPD 431).

Washington, D.C., Semester

The Washington, D.C., Semester program provides an intensive semester of confrontation with the political center of the nation and its complex components. The program offers opportunities for behind-the-scenes work in national government agencies and related organizations, combined with an academic environment and the chance to explore, share and learn with a group of fellow students.

Minors

Construction Planning and Management Minor

This program covers the most current theories and practice of construction planning and management. The program provides a valuable adjunct credential to professional school students.
pursuing careers in business administration, public administration, environmental studies, and other areas; and a unique opportunity for professional focus to students in the USC Dornsife College of Letters, Arts and Sciences.

Construction activities are complex. In contemporary society, effective planning and management of these activities requires specialized knowledge of the technical, economic and political environment. This program couples the knowledge of how construction activities are organized with a broader understanding of the urban system in which construction projects are embedded. With the exception of statistics, all of the required courses are within the Department of Civil Engineering and the Price School of Public Policy. Any USC undergraduate who has completed the equivalent of two full-time semesters in good standing is eligible to pursue the minor program. This minor program is rigorous enough to serve as an introductory credential for students subsequently electing to pursue advanced studies in development, urban planning, construction management or allied fields.

See the Construction Planning and Management Minor in the Department of Civil Engineering for course requirements.

**Education Policy Minor**

Education is one the largest expenditures of state and local governments, and educational costs continue to rise. Yet many are dissatisfied with the performance of the education system—both the low levels of achievement relative to our international peers and the considerable opportunity and achievement gaps that separate racial/ethnic and socioeconomic groups. As governments face increasingly tight budgets, they are turning to new and novel policies and interventions to address our educational challenges.

The 20-unit minor is designed to equip students with both substantive and methodological skills relating to the analysis of education policy. Students gain from the expertise of faculty in the Sol Price School of Public Policy and the USC Rossier School of Education. The program’s content courses introduce students to the most pressing policy issues in education today.

**Required Courses (16 units)**

- EDUC 431 Education Policy in the United States Units: 4
- EDUC 432 Inequality in Education Units: 4
- PPD 225 Public Policy and Management Units: 4
- PPD 315 Analytic Foundations for Public Policy Units: 4

**Electives (4 units)**

- PPD 240g Citizenship and Public Ethics Units: 4
- PPD 300 Social Justice Issues in Public Policy and Urban Planning Units: 4
- PPD 303 Statistics for Policy, Planning, and Development Units: 4

**Health Administration Minor**

This 16-unit minor in health administration provides students with a background in administration and management in the field of health care and the skills necessary to pursue health-related management opportunities in the for-profit, nonprofit and governmental sectors.

**Required Courses (12 Units)**

- PPD 325 Fundamentals of Health Policy and Management Units: 4
- PPD 330 Introduction to Health Care Systems Units: 4
- PPD 413 Administration of Health Care Organizations Units: 4

**Electives (4 units)**

- PPD 320 Organizational Behavior in Public Administration Units: 4
- PPD 407 Financial Management of Public and Nonprofit Organizations Units: 4
- PPD 414 Community Health Policy and Planning Units: 4

**Health Policy Minor**

This 16-unit minor in health policy provides students with a background in the policy issues and challenges globally, nationally and locally related to quality, cost and access to health care. Students in this minor will acquire an understanding of these issues and the skills required to influence health policy.

**Required Courses (12 Units)**

- PPD 325 Fundamentals of Health Policy and Management Units: 4
- PPD 330 Introduction to Health Care Systems Units: 4
- PPD 415 Health Policy Units: 4

**Electives (4 Units)**

- HP 408 Environmental Health in the Community Units: 4
- LAW 403 Mental Health Law Units: 4
- PPD 357 Government and Business Units: 4
- PPD 414 Community Health Policy and Planning Units: 4

**Law and Public Policy Minor**

The minor in law and public policy draws upon four fields of study: public policy and management, law, economics and political science. It provides students with an understanding of the political and economic contexts in which laws are made as well as how legal institutions shape policy formulation. Students learn to analyze the consequences of policy and alternatives; the roles played by government, business and nonprofit organizations in public decision making; and the legal bases for various areas of public policy.

Students minoring in law and public policy take 20 units, including the gateway class, PPD 225 Public Policy and Management, and one elective. The latter enables the student to focus on a specific area of law.

**Required Courses**

- POSC 340 Constitutional Law Units: 4
- PPD 225 Public Policy and Management Units: 4
- PPD 314 Public Policy and Law Units: 4
- PPD 315 Analytic Foundations for Public Policy Units: 4

And one of the following:

- ECON 434 Economic Analysis of Law Units: 4
- FBE 403 Introduction to the Legal Environment of Business Units: 4
- LAW 200w Law and Society Units: 4
- LAW 300 Concepts in American Law Units: 4
- LAW 403 Mental Health Law Units: 4
- POSC 345 International Law Units: 4
- POSC 347 Environmental Law Units: 4
- POSC 432 Politics of Local Criminal Justice Units: 4
- POSC 440 Comparative Law and the Judicial Process Units: 4
- POSC 441m Cultural Diversity and the Law Units: 4
- POSC 444 Civil and Political Rights and Liberties Units: 4
- POSC 452 Critical Issues in Law Units: 4

**Nonprofits, Philanthropy and Volunteerism Minor**

This four-course minor enables students to learn about the nonprofit sector — its organizations, philanthropy and voluntary action. The three-course core provides: (1) an overview of the nonprofit sector and philanthropy and its role in the United States, including its historical and theoretical foundations, its various components and its relation to public policy; (2) a focus on voluntary action and service as one means for social change and problem-solving; and (3) insights into the management of nonprofit organizations. Students select an elective that extends their understanding to the role of nongovernmental organizations in international affairs or to the role of public relations for nonprofits. This minor is intended for students who plan (1) to work in a nonprofit or charitable organization, whether it is a large organization such as United Way, a small social service agency, an environmental advocacy group, a museum or a religious organization, (2) to participate with nonprofits as a volunteer throughout their lives or (3) pursue further graduate work in a service-related profession.
Required Core Courses

- PPD 371 The Nonprofit Sector and the Public Interest Units: 4
- PPD 402 Management of Public and Nonprofit Organizations Units: 4
- PPD 478 Social Innovation Units: 4

Electives (select one)

- BUO 385 Business Communication Management for Nonprofits Units: 4
- IR 371 Global Civil Society: Non-State Actors in World Politics Units: 4
- PPD 318 Financial Accounting in Public and Nonprofit Organizations Units: 4
- PPD 353 Philanthropy and Social Change Units: 4
- PPD 372 Public Service in an Urban Setting Units: 4
- PR 455 Public Relations for Non-Profit Organizations Units: 4

Real Estate Development Minor

This minor provides students with an overview of the field of real estate development - its principles, the urban context and history, finance, as well as the opportunity to select an elective. The minor requires 20 units, including four core courses and 4 units of electives. The minor is intended for any student with an interest in a career in real estate.

Core (16 units):

- RED 200 Introduction to Real Estate Units: 4
- PPD 227 Urban Planning and Development Units: 4 or
- PPD 245 The Urban Context Units: 4
- RED 362 Real Estate Development Fundamentals Units: 4
- PFE 400X Introduction to Real Estate Finance and Development Units: 4 or
- RED 375 Real Estate Development Analysis Units: 4

Electives (4 units):

- PPD 358 Urban and Regional Economics Units: 4
- PPD 360 Urban Transportation Planning and Policy Units: 4
- PPD 361 Sustainable Communities, Policy and Planning Units: 4
- PPD 364 Technology and the City Units: 4
- PPD 422 Transportation and Technology and the Future of Mobility Units: 4
- PPD 439 Housing and Community Development Units: 4
- RED 351 Land Use Regulation Units: 4
- RED 398 Shaping Cities Through Real Estate Units: 2, 3, 4
- RED 417 History of Planning and Development Units: 4
- RED 425 Designing Livable Communities Units: 4
- RED 435 Analyzing Real Estate Markets Units: 4
- RED 469 Mixed Use Development Process Units: 4

Total Units: 20

Urban Sustainable Planning Minor

The 20-unit minor in urban sustainable planning focuses on the application of public policy, urban planning and public management to the analysis and solution of urban problems. It draws upon the interdisciplinary faculty and programs of the Price School of Public Policy and includes foundational courses that introduce students to the nature of urban phenomena and the analysis and solution of urban problems. The minor also introduces students to the professional and academic fields of either urban planning and development or public policy and public management. In addition, based on their specific interests, students have the opportunity to explore in greater depth three areas and approaches of urban problem-solving. This minor is appropriate for students interested in expanding their understanding of the fields of urban planning and public policy and management as potential professional careers as well as increasing their comprehension of the analysis and solution of urban problems.

Required Core Courses (12 units)

- PPD 245 The Urban Context Units: 4
- PPD 427 Geographic Information Systems and Planning Applications Units: 4
- RED 425 Designing Livable Communities Units: 4

Electives (8 units)

- PPD 227 Urban Planning and Development Units: 4
- PPD 358 Urban and Regional Economics Units: 4
- PPD 360 Urban Transportation Planning and Policy Units: 4
- PPD 361 Sustainable Communities, Policy and Planning Units: 4
- PPD 414 Community Health Policy and Planning Units: 4
- PPD 438 Local Economic Development Units: 4
- PPD 439 Housing and Community Development Units: 4
- RED 417 History of Planning and Development Units: 4

Master’s Degree

Dollinger Master of Real Estate Development (MRED)

The Master of Real Estate Development program is a carefully integrated program that brings together the three main elements of real estate development: design, finance and policy. It is a one-year full-time or two-year evening executive program of study designed to provide students with the knowledge and skills they require to compete successfully in the development industry. The curriculum encompasses eight areas of study with which developers must be conversant, including real estate law, economics, finance, market analysis, negotiation, planning, architecture and engineering. Courses are taught by full-time faculty members from the Price School of Public Policy. In addition, practicing developers, lawyers, planners and other professionals make regular contributions to the course of study, helping students link learning to practice.

Curriculum Requirements

The program of graduate study for the professional degree requires successful completion of the core curriculum (36 units), elective courses (8 units) and a comprehensive examination. Students must complete a total of 44 units.

Core Curriculum

The core comprises 13 lecture-seminar courses that combine lectures, projects, case analyses, and exercises which allow students to experience all facets of the developer’s tasks and problems. The integrative project, RED 575, provides problem solving exercises and the evaluation of actual development situations. Courses emphasize various design, regulatory and fiscal problems associated with urban development and the developer’s role in improving development standards in the industry.

Core Courses

- PPD 500 Intersectoral Leadership Units: 2
- PPD 501a Economics for Policy, Planning and Development Units: 2
- RED 509 Market Analysis for Real Estate Units: 4
- RED 542 Finance of Real Estate Development Units: 3
- RED 544 Real Estate Capital Markets Units: 2
- RED 546 Applications of Real Estate Finance to Problems of Development Units: 3
- RED 547 Project Management and Construction Units: 2
- RED 551 The Approval Process Units: 4
- RED 562 Legal Issues in Real Estate Development Units: 4
- RED 573 Design History and Criticism Units: 2
- RED 574 Building Typologies Units: 2
- RED 575L Community Design and Site Planning Units: 2, 3, 4
- RED 598 Real Estate Product Development Units: 2, 3, 4

Additional Requirements

Eight units of elective course work are required for the Master of Real Estate Development. These courses may be taken in the schools of Public Policy, Architecture, Business, Law and the Department of Civil Engineering. Admission to some classes requires advanced prerequisites and is subject to availability and approval of the instructor.
Comprehensive Examination
Successful completion of a comprehensive written and oral examination is required of all students seeking the Master of Real Estate Development degree. The examination explicitly covers the core courses. It is normally administered late in the spring semester by a faculty committee appointed by the dean. Students who fail the examination once may take it again within one year. The examination may not be repeated more than once.

General Requirements
Residence and Course Load
The Master of Real Estate Development may be completed on either a full-time or part-time basis. Both options begin in the summer session in June. The full-time program requires 11 months of study. The evening executive option is completed over a two-year period. Students are also expected to participate fully in all extracurricular activities associated with the Master of Real Estate Development program, including the weekly speaker series. Students who wish to take a leave of absence for a semester or longer must request it from the dean in writing; such leaves may be granted for up to one year.

Students must have an approved laptop computer as required by instructors and must demonstrate calculator and spreadsheet skills.

Time Limit
The time limit within which students in the program must complete the requirements for the Master of Real Estate Development is governed by the following regulations:

All requirements for the Master of Real Estate Development must be completed within five calendar years from the first course at USC applied toward the degree.

University regulations prohibit the acceptance of credits for courses taken toward a Master of Real Estate Development degree more than seven years after the date they were successfully completed.

Grade Point Average Requirement
While enrolled in the program, a student must maintain a grade point average of at least 3.0 for all courses taken toward the degree.

Probation and Disqualification
Any student with a cumulative grade point average of below 3.0 for all courses taken in the program will be placed on academic probation. A student may be disqualified to continue toward a graduate degree if the student has been on academic probation for two consecutive semesters. Whether or not on academic probation or warning, a student may be disqualified at any time from continuing in the program if the dean of the school, after consultation with the faculty, determines that the student is deficient in academic achievement or in another qualification required for the attainment of the Master of Real Estate Development degree.

Course Exemptions and Transfer of Credits
Courses taken toward other degree programs, if determined by the dean to be equivalent to courses in the curriculum, may be accepted for subject credit only. All students are required to complete 44 units while enrolled in the Master of Real Estate Development program. The acceptance of previous course work for subject credit will enable the student to take additional elective courses.

Health Administration (Executive MHA)
The Executive MHA Program offers clinical and management professionals an opportunity to advance their careers in health care and to more effectively improve health services within their communities. Mid- to senior-level professionals who have the ambition and potential to serve as industry leaders in the highly dynamic and competitive health care environment are encouraged to consider the Executive MHA degree. The Executive MHA is geared to those who have demonstrated capabilities, yet who will benefit from expanded skills and competencies that will enable them to lead.

Participants sharpen their business acumen by gaining exposure to and in-depth knowledge of the latest theories and the best in contemporary health management practice. A practical, problem-solving approach ensures that skills can immediately be applied on the job.

Requirements for Admission
Applicants for the Executive Master of Health Administration apply directly to the program. A minimum of five years of experience with progressively greater levels of responsibility in health care or a related field is required for entry into the Executive MHA program. Applicants must have earned a bachelor's degree from an accredited college or university. A minimum grade point average of 3.0 in undergraduate course work is required. Allowances may be made when justified by exceptional work experience and letters of recommendation.

Prerequisites
Accounting
A basic competence in accounting is required for the Executive MHA program. The accounting prerequisite must be satisfied before enrolling in HMGT 565 Managing the Organization’s Financial Health. This prerequisite may be met in one of three ways: (1) completing the non-credit Executive MHA accounting workshop with a passing score; (2) demonstrating prior work experience or (3) completing prior course work at an accredited academic institution in accounting and finance.

Curriculum
The Executive MHA offers a hybrid online/in-residence executive education program that will prepare the graduate to meet career objectives. The program provides students with the flexibility to meet program requirements while maintaining full-time administrative positions, but also emphasizes the importance of an integrated approach to executive education. In addition to the synchronous and asynchronous learning modules included in each course, students will participate in five-day, in-residence sessions at the University Park Campus twice during the program. The first in-residence session will occur before the midpoint of the program, and the second session will be a capstone experience in the last semester of the program. The Executive MHA degree program does not require a supervised field placement (residency) in a health care organization.

The curriculum of the EMHA is organized around five themes: thriving in transformational times through innovative leadership; delivering cost-effective care in an era of value-based purchasing; providing efficient management and administration; developing and implementing strategies to enhance patient safety and quality of care; and demonstrating organizational and clinical effectiveness through health information technology. These integrated themes and the associated content provide graduates with a comprehensive approach that expands their understanding of the key principles and applications necessary to function in a senior administrative leadership role.

Required Courses (36 Units)
- HMGT 512 Information Technology and Patient Engagement Units: 2
- HMGT 520 Leading People and Health Care Organizations Units: 4
- HMGT 540 Health Economics, Financing and Reimbursement Units: 4
- HMGT 565 Managing the Organization’s Financial Health Units: 4
- HMGT 570 Strategic Management Units: 4
- HMGT 575 Managing and Improving Health Units: 4
- HMGT 600 Managing Risk Units: 2
- HMGT 601 Operations Management for Accountability Units: 4
• HMGT 602 Operational Efficiency Processes in Health Care Organizations Units: 2
• HMGT 603 Developing and Monitoring of Quality and Patient Safety Outcomes Units: 2
• PPD 511 Health Information Systems Units: 2
• PPD 518 Quality of Care Concepts Units: 2

Additional Requirements

Participants in the executive program gain practical skills. Emphasis is given to executive decision-making; development of sound planning, analytical and leadership capabilities; and strong interpersonal communication. More specifically, Executive MHA graduates will achieve advanced competency in disciplines which include economics and finance, health care regulation, business development, operations, strategic analysis and management, organizational design, quality and outcomes assessment and information management. Our graduates will model effective leadership and management in a rapidly evolving health care environment.

The core faculty is drawn from the USC Price School of Public Policy and includes senior, experienced faculty, along with nationally renowned academic specialists and health care experts. The opportunity to interact with health care’s leading thinkers, policymakers and practitioners is an essential component of the Executive MHA program.

The Executive MHA office is located in Ralph and Goldy Lewis Hall, Room 307, Price School of Public Policy, (213) 740-2984, email emha@usc.edu.

Health Administration (MHA)

The issues surrounding the delivery and financing of health services have an enormous impact on individuals and the communities in which we live. The health care industry now accounts for more than 15 percent of the U.S. economy. Fast-moving developments in technology, economics, ethics, finance, policy, management and globalization are driving changes in the health sector. Effective health leadership requires an understanding of governance systems and the complex interplay between the public, private and nonprofit sectors as well as the dual imperatives of both the clinical and business facets of health care delivery. As the health care system changes, career opportunities abound. The field has a tremendous need for leaders, managers and analysts — in hospitals, health plans, physician practices, health-related enterprises, community health organizations, social advocacy groups, and regulatory and legislative agencies.

The Price School of Public Policy's multidisciplinary nature, with degree programs in public policy, public administration, urban planning, and international policy, adds breadth that distinguishes USC's MHA degree, providing students with an understanding of the larger social context in which the health sector is embedded and how it intersects and interacts with other social policy issues.

The Price School programs in health management and policy offer two degree options — the Master of Health Administration and the Executive Master of Health Administration. These degrees position the student to acquire the knowledge, skills and applied experience to shape health policy and lead health organizations. Requirements for the Executive MHA differ from those of the traditional MHA and are found on the program page.

The Master of Health Administration builds a solid foundation emphasizing managerial, analytical and public policy skills for those entering the health field, while the Executive Master of Health Administration deepens professional skills and permits those already working in the health field to advance to higher levels of leadership.

The MHA curriculum incorporates five major areas of competence: management/operations/leadership; health policy analysis; health finance; health information technology; and, health care quality. Each student will be exposed to these core areas and will specialize in two of them. The program prepares students for management positions in hospitals; managed care systems; physician groups; ambulatory care systems, government agencies concerned with health care policy, planning, quality assurance and regulation; and private firms involved in health care consulting, finance, performance assessment and evaluation.

Requirements for Admission

General

Applicants must have a bachelor's degree from an accredited college or university. Applicants may take courses on limited standing pending formal admission to the master's degree program.

Applicants with bachelor's degrees must have a minimum grade point average of 3.0 in their undergraduate course work and a score of at least 500 on the verbal and at least 500 on the quantitative sections of the GRE. Deviations from these minimums will be allowed when justified by exceptional work experience, letters of recommendation or improvement in academic performance during the third and fourth years of undergraduate study.

Prerequisites

Statistics

A basic competence in descriptive and inferential statistics is also required for the MHA program. The statistics prerequisite must be satisfied prior to enrollment. This prerequisite may be met in one of two ways: (1) entering students must have passed an undergraduate inferential statistics class, with a grade of "B" or better, at an approved university within three years of matriculation, or (2) completing PPD 504 Essential Statistics for Public Management with a grade of "C" or better (this course credit may not count toward the MHA degree).

Limited Status Students (Preadmission)

Students taking courses who have not been admitted to the school are designated limited status students. These students may be waiting for part of their application package materials to arrive; or they may be investigating whether an MHA may be right for them.

To be considered for limited status reenrollment, interested students need to complete the Price School of Public Policy Limited Student Application for Enrollment form and submit official or unofficial copies of their transcripts from their bachelor's degree granting institution. Students with a 3.0 grade point average (A = 4.0) may enroll in up to 8 units of graduate courses in the Price School of Public Policy.

The Price School of Public Policy Limited Student Application for Enrollment forms may be obtained from the Admissions Office, USC Price School of Public Policy, University of Southern California, RGL 111, Los Angeles, CA 90089-0626, telephone (213) 740-6842. Limited students may only enroll during the in-person registration period (the week before classes begin).

Limited status students may apply only 8 units of appropriate graduate work toward the MHA after admission. Units beyond these first 8 must be petitioned for through the school. Students on limited status are encouraged to complete the application and admission process before completing those first 8 units.

Certificate Program

Information regarding the Certificate Program in Health Management and Policy Programs can be found on the Graduate Certificates page.

Curriculum

Curriculum for the MHA includes 48 units (40 required units and 8 elective units). In addition, a supervised field placement (residency) in a health service organization is required. The MHA degree is designed to be completed in two years of full-time study, but can be extended for those who work while going to school.

Evening classes and classes that meet in an intensive, workshop format of two to four sequential days of training are designed to accommodate working professionals.
Required Core (40 Units)

- PPD 506 Introduction to Microeconomics: Applications in Health Units: 2
- PPD 509 Problems and Issues in the Health Field Units: 4
- PPD 510a Financial Management of Health Services Units: 4
- PPD 520 Health Administration Residency Seminar Units: 2
- PPD 512 Legal Issues in Health Care Delivery Units: 2
- PPD 514 Economic Concepts Applied to Health Units: 4
- PPD 515 Strategic Management of Health Organizations Units: 4
- PPD 516 Financial Accounting for Health Care Organizations Units: 4
- PPD 517 Concepts and Practices in Managing Health Care Organizations Units: 2
- PPD 518 Quality of Care Concepts Units: 2
- PPD 545 Public and Nonprofit Organizational Behavior Units: 4
- PPD 558 Multivariate Statistical Analysis Units: 4
- PPDE 613 Analytics and Operations for Healthcare Management Units: 2

Electives

In addition to the 40 required units, students are required to take 8 units of electives. Elective courses will be taken in two of the five specialization areas: management/operations/leadership; health policy analysis; health finance; health information technology; and health care quality. The two specializations will be selected by the student with the advice and written consent of the MHA program director and faculty adviser.

Residency

The MHA student is required to complete a 1,000 hour residency at a health care organization, generally during the second year of study. This residency may be reduced, but must include at least 500 hours, depending on the health care experience of the student. The residency is designed to provide the student with practical administrative experience that complements program course work.

International Public Policy and Management (IPPAM)

The International Public Policy and Management (IPPAM) Program offers a Master of International Public Policy and Management (IPPAM). The degree is designed for managers, planners and analysts involved in social sector programs who want to strengthen their management skills and further develop their policy analysis capabilities. For professionals working in the social sectors, IPPAM offers an opportunity to deepen their conceptual understanding of the forces driving change in their sectors and to develop an analytical approach for accessing and reshaping social policy. The program is well-suited for mid-career professionals working in the social sectors, such as physicians, nurses and pharmacists in the health professions; educators and administrators in the teaching professions; government regulators, managers and staff; community organizers, aid workers and others working in the NGO sector; and reporters and others in the news professions interested in covering social issues.

This program is specifically designed for international students and U.S. students who wish to work in international settings, including the Pacific Rim, Latin America and countries in other regions with evolving social systems.

Students are required to complete a minimum of 32 units. All students must fulfill core requirements (18 units) in fundamental policy analysis and management disciplines and an additional 14 units in an area of concentration chosen by the student. The core requirements include: PPD 501a Economics for Policy, Planning and Development; PPD 542 Policy and Program Evaluation; PPD 569 Applied International Policy Analysis and Management Project; PPD 570 Applied Statistics for Planning, Policy and Management; and PPD 571 International Public Policy and Management Seminar.

Students select an area of concentration in which they complete a set of recommended elective courses. Each concentration allows students to pursue in depth one or more areas of particular relevance to their career goals. The concentration areas enable students in the interdisciplinary IPPAM program to establish a second “home” in one of the school’s programs, such as health administration or urban planning. Students are required to consult with IPPAM faculty advisers to choose elective courses from a recommended list of courses relevant to the IPPM degree.

Through the integrated curriculum, participants gain practical skills, which are developed within an appropriate conceptual context. Many of the courses and applied projects integrate examples and data from the student’s home countries. Program graduates will have achieved advanced competency in disciplines that include public sector economics, applied methods for public policy analysis, evaluation and management.

Core faculty are drawn from the Price School of Public Policy and include senior, experienced faculty along with leading practitioners and experts in applied fields such as community development, international trade policy, health care policy, and so forth. In addition to the participation of distinguished visiting scholars as guest lecturers in class sessions, the program features an international seminar on public policy and management with guest lecturers by policy makers. The opportunity to interact with leading scholars, policy makers, and practitioners from the United States and abroad is an essential component of the program.

The program begins in mid-June with intensive English language workshops and the course in applied statistics. The language workshop can be waived for students with 250+ computer-based TOEFL scores or 600+ paper-based TOEFL scores, or a score of 6.5 on the IELTS exam with no less than a score of 6 on each band score. In the fall semester, international students transition into the regular program consisting of required courses and electives in their chosen concentration area. Some international students may be required to enroll in additional English language workshops depending on how they score on required English exams. Most students can expect to complete the program in 13 months. The intensive nature of the program is designed for full-time students who take a leave from work while enrolled in the program. This approach minimizes the amount of time that professionals must be away from their full-time careers to pursue an advanced degree.

Applicants should have at least a bachelor’s degree from an accredited university and three to seven years of significant professional experience. The IPPAM Program office is located in the Price School of Public Policy, Von KleinSmid Center, Room 253, phone (213) 740-0547, fax (213) 821-1331, email ippam@usc.edu.

Leadership (Executive ML)

The Executive Master of Leadership Program offers professionals from a variety of fields including public administration, public policy, planning, law enforcement, transportation and other public, nonprofit and business organizations, with at least five years of professional experience, the opportunity to build leadership skills at five levels: individual, team, organizational, community and institutional. The program design offers participants insight into the mechanisms that facilitate effective personal and organizational networks, as well as collaborative problem-solving strategies and practices.

The program follows a cohort model for the four required core courses. The degree curriculum has three distinguishing features: a design to connect ethics with leading through core values; an interdisciplinary and multidisciplinary problem-solving approach; and transformational leadership that connects the public, private and nonprofit sectors.

Requirements for Admission

Applicants for the Executive Master of Leadership apply directly to the program. A minimum of five years of experience with progressively greater levels of responsibility is required for entry into the program.
Candidates for admission must have earned a bachelor’s degree from an accredited college or university with a minimum 3.0 grade point average. Exceptions to the minimum GPA requirement may be made when justified by exceptional work experience and letters of recommendation.

Applicants must submit a standard USC graduate application and fee along with official transcripts from all undergraduate and graduate institutions attended. Letters of recommendation, a current resume, an essay and an interview will also be required.

Degree Requirements

Students are required to complete 28 units of graduate work — 16 units of required core courses and 12 units of electives.

Required Core Courses (16 Units)
- PPD 640 Leadership Foundations: Competencies and Core Values Units: 4
- PPD 641 Leading Individuals, Groups and Teams Units: 4
- PPD 640 Strategic Leadership of Organizations Units: 4
- PPD 643 Leading Transformations Across Sectors: Integrative Seminar Units: 4

Electives
In addition to these 16 required units, students are required to take 12 units of electives.

Elective courses will be selected in consultation with the faculty adviser based on the student’s individual learning/development plan. Students will choose these electives in order to concentrate in a particular area of study. The following are examples of concentrations that are available: public management, nonprofit policy and management, urban planning, transportation, public policy and political management. The Price School of Public Policy offers a wide range of electives to students each semester. In addition to these 16 required units, students are required to take 12 units of electives. Elective courses will be selected in consultation with the faculty adviser based on the student's individual learning/development plan. Students will choose these electives in order to concentrate in a particular area of study. The following are examples of concentrations that are available: public management, nonprofit policy and management, urban planning, transportation, public policy and political management. The Price School of Public Policy offers a wide range of electives to students each semester.

Master of Public Administration with Seoul National University

This graduate program offers students a unique opportunity to develop skills and expertise in the field of public administration from a U.S. and Korean perspective. The program is designed and offered in partnership with Seoul National University (SNU). Students spend a year at USC Price and a year at Seoul National University and earn the MPA degree.

Admissions

Students wishing to pursue the dual MPA degree will have to apply to both SNU GSPA and USC Price separately and fulfill both institutions’ admissions criteria independently. Please see the Price Website for further information.

Sample Program - Price Students

Year One - USC (24 Units)
- PPD 503 Economics for Public Policy Units: 4 or
- PPD 540 Fundamentals of Public Administration Units: 4
- PPD 640 Essential Statistics for Public Management Units: 2
- PPD 505 Professional Workshop in Public Administration Units: 2
- PPD 541 Public Financial Management and Budgeting Units: 4
- PPD 545 Public and Nonprofit Organizational Behavior Units: 4
Electives: one 4-unit management elective and one 4-unit analytics elective

Year Two - SNU (19 Units)
- PPD 503 Economics for Public Policy Units: 4 or
- PPD 540 Fundamentals of Public Administration Units: 4
- PPD 545 Public and Nonprofit Organizational Behavior Units: 4
- PPD 645 Financial Management of Nonprofit Organizations Units: 4
- Electives: including one management elective and one analytic elective

Variations from the above:
Price students could take both the PPD 540 and PPD 503 courses in either their first year or their second year, instead of one of the two in each year.
GSPA students could take Economics and Public Administration in their first year rather than in their second year at Price, and they could take PPD 540 in their second year at Price rather than in their first year.
Price students could take Social Research Methods of Public Administration at GSPA in their second year instead of their analytic elective at USC in their first year, and GSPA students could take Policy and Program Evaluation (PPD 542) at Price in their second year instead of Social Research Methods of Public Administration in their first year.

Nonprofit Leadership and Management (MNLM)

The Master of Nonprofit Leadership and Management (MNLM) program is designed to prepare students to distinguish themselves as leaders in the nonprofit sector whether managing nonprofits, advocating for social change or developing and implementing innovation solutions to social problems.

Degree Requirements

Students are required to complete 40 units of graduate work, with 30 units of core organized under three areas: theory and context, leadership and management, and analytical skills and 10 elective units based on their interests.

Required Core Courses
- PPD 503 Economics for Public Policy Units: 4
- PPD 542 Policy and Program Evaluation Units: 4
- PPD 675 Nonprofit Management and Leadership Units: 4
- PPD 689 The Nonprofit Sector and Philanthropy Units: 4
- PPD 645 Financial Management of Nonprofit Organizations Units: 4
- PPD 680 Board Governance and Leadership Units: 2
- PPD 681 Fund Development for Nonprofit Organizations Units: 4
- PPD 682 Capstone in Nonprofit Leadership and Management Units: 4

*PPD 502 is a prerequisite for PPD 542.
Electives
Students complete 10 units of electives based on their interest and in consultation with their adviser.

Planning and Development Studies (MPDS)
The Master of Planning and Development Studies degree is designed for mid-career professionals in planning, development or related disciplines who desire to update and/or redirect their professional skills and careers. The program is very flexible, allowing students to pursue areas of expertise that they find valuable in their present or future careers. Entering students must have a minimum of five years of planning, development or related professional work experience.

Curriculum Requirements
The Master of Planning and Development Studies program requires completion of 28 units. Basic degree requirements consist of two core courses; 16 units in a concentration area approved by an adviser; and an integrative seminar course during which the student completes a written and oral comprehensive examination.

Required Courses
- PPD 611 Policy Issues in Planning and Development Units: 4
- PPD 612 Research and Analytical Techniques Units: 4
- PPD 638 Integrative Seminar Units: 4 (normally in the last semester in conjunction with the comprehensive examination)

Concentration Area(s)
Students elect a concentration area from one of three already defined or, with prior approval by an adviser, design a concentration from Price School of Public Policy courses and USC graduate courses. A minimum of eight units must be Price School of Public Policy courses. The three defined concentration areas are:

Community Economic Development
Select 16 units from the following courses:
- PPD 618 Housing Facilities and Community Development Units: 4
- PPD 623 Community Development and Site Planning Units: 4
- PPD 624 Local Economic Development: Theory and Finance Units: 4
- PPD 625 Planning and Economic Development Finance Units: 4
- PPD 626 Public/Private and Mixed Enterprises Planning Units: 2, 4
- PPD 631 Geographic Information Systems for Policy, Planning, and Development Units: 2
- RED 509 Market Analysis for Real Estate Units: 4
- RED 542 Finance of Real Estate Development Units: 3
- RED 546 Applications of Real Estate Finance to Problems of Development Units: 3

Environmental Policy and Planning
Select 16 units from the following courses:
- PLUS 600 Environmental Goods in Planning and Development Units: 4
- PLUS 633 Seminar in Comparative Housing Policy and Urban Planning Programs Units: 4
- PPD 531L Planning Studio Units: 4, 8, 12
- PPD 617 Urban Demography and Growth Units: 4
- PPD 619 Smart Growth and Urban Sprawl: Policy Debates and Planning Solutions Units: 4
- PPD 620 General Plans Units: 4
- PPD 621 Environmental Impacts Units: 4
- PPD 622 Seminar in Urban Development Units: 4
- PPD 631 Geographic Information Systems for Policy, Planning, and Development Units: 2
- PPD 634 Institutional and Policy Issues in Transportation Units: 4
- PPD 712 Seminar in Public Policy Units: 4

International Planning and Development
Select 16 units from the following courses:
- PLUS 631 Seminar in Physical Planning and Design in Developing Countries Units: 4
- PLUS 632 National Urban Policy in Developing Countries Units: 4
- PLUS 633 Seminar in Comparative Policy and Urban Planning Programs Units: 4
- PLUS 635 Urban Finance Units: 4
- PLUS 640 International Urban Development Units: 4
- PPD 626 Public/Private and Mixed Enterprises Planning Units: 2, 4
- RED 583 International Development Opportunities Units: 2
- RED 585 Comparative International Development Workshop Units: 2, 3, 4

Integrative Seminar and Comprehensive Examination
Successful completion of a comprehensive examination is required of all students seeking the Master of Planning and Development Studies degree. The integrative seminar course (PPD 638) and comprehensive exam should be taken during the semester of intended graduation. During the seminar class, students identify a practice-oriented problem covering the core courses and concentration area, which ideally is sponsored by a planning and/or development office or firm. The student will: (1) prepare a professional-quality document; (2) present the solution to a faculty committee with invited sponsor guests; and (3) have an oral defense. Students who fail the examination may take it again within one year, but it may only be repeated once.

General Requirements
Residence and Course Load
The Master of Planning and Development Studies may be completed in one academic year of 12 units in the fall and spring semesters and the four-unit integrative seminar/comprehensive examination the following summer semester.
At least 18 units of graduate study must be done in residence at the University Park Campus, the USC State Capital Center or at an approved off-campus study center.

Time Limit
Students in the program must complete all requirements for the Master of Planning and Development Studies within five calendar years from the beginning of the semester in which the student was admitted to the program.

Grade Point Average Requirement
While enrolled in the program, a student must maintain a grade point average of at least 3.0 (A = 4.0) for all courses taken toward the degree.

Probation and Disqualification
Any student with a cumulative grade point average below 3.0 for all courses taken in the program will be placed on academic probation. A student whose semester grade point average is below 3.0, but whose cumulative grade point average is 3.0 or higher, will be placed on warning.
A student may be disqualified to continue toward a graduate degree if the student has been on academic probation for two consecutive semesters. Whether or not on academic probation or warning, a student may be disqualified at any time from continuing in the program if the dean of the school, after consultation with the faculty, determines the student is deficient in any degree requirement.

Course Exemption and Transfer of Credits
Credit for graduate work may be transferred from approved graduate schools as determined by the USC Degree Progress Department in the Office of Academic Records and Register on recommendation of the dean of the school. Not more than four units of graduate work, with grades of B or better, can
be transferred for credit toward the Master of Planning and Development Studies degree. The following courses, or their equivalents, may not normally be transferred for unit credit from other institutions: PPD 611, PPD 612 and PPD 638. Undergraduate work may not be transferred into the degree program for unit credit.

Some applicants for admission to the school will have been engaged in work in planning, development or closely related activities. Although this experience should be beneficial to the students involved, it may not be considered equivalent to academic education.

Public Administration (MPA)

Admission
The Master of Public Administration programs are under the jurisdiction of the Price School of Public Policy. All admissions decisions are made by the school, following guidelines set by the university. See the Admission section of this catalogue.

All questions about the programs and all materials required for admission should be submitted to: MPA Programs, Admissions Office, RGL 111, University Park, University of Southern California, Los Angeles, CA 90089-0626.

Admission to each of these programs is determined by the faculty and admissions committees connected with those areas. Application packages should be sent directly to the program office.

Applications
The admission decision is made using criteria which include verification that the applicant has completed a bachelor’s degree from an accredited college, has maintained a B average in undergraduate course work and has earned an acceptable score on the verbal and quantitative portions of the Graduate Record Examinations (GRE) or the Graduate Management Admissions Test (GMAT). Other elements of the applicant’s educational and experiential background are also evaluated. International students whose native language is not English must submit a Test of English as a Foreign Language (TOEFL) or International English Language Testing System (IELTS) score.

Each candidate should submit the following to the school: (1) official transcripts of all previous college and university work, showing an awarded degree where appropriate; (2) copies of GRE or GMAT scores; (3) an essay answering questions on the admission questionnaire provided by the school; (4) an up-to-date resume which includes academic and professional accomplishments; (5) three or more letters of evaluation from previous instructors and from professional associates who can attest to the applicant’s potential; (6) completed USC Graduate Admission Application, along with the nonrefundable processing fee; and (7) completed Price School of Public Policy Supplemental Graduate Application.

International applicants may be asked to supply additional information. See the Graduate Admission section of this catalogue.

Deadlines
Applications for admission are evaluated monthly. Those students who are also applying for financial aid, or who must meet other deadlines for admission, should submit application materials early enough to allow the admissions decision to be made in advance of those other deadlines.

The admissions process generally takes about four to six weeks after all necessary materials have been submitted.

Pre-Service/In-Service Designation
Most MPA students are classified as pre-service or in-service students at the time of admission. Pre-service students are those who enter the program with less than two years of professional work experience. In addition to course work, pre-service students complete an internship. Students pursuing a dual degree program are not classified as pre-service or in-service. Appeals for reclassification of this designation must be submitted during the first semester of enrollment.

International Students
Students applying for graduate programs should send applications and appropriate documents to the MPA Programs Admissions Office, which processes all such applications.

Admission
A student is accepted for admission only for the semester indicated on the letter of admission. If the student desires to enter at another time, or if the student cannot arrive on campus in time for the semester in which he or she was admitted, the student must contact the MPA Programs Admissions Office in writing. That office will contact the Office of International Admissions.

Students who do not enroll for the semester indicated on the letter of admission cannot be guaranteed admission to a later session. They will need to work with the MPA Programs Admissions Office to determine procedures to follow.

Registration Requirements
International students on student visas must be registered as full-time students as arranged by the Office of International Services. Doctoral students must carry a load of at least 6 units to be considered full-time students. A full-time graduate load is eight units. Such students are not eligible to be considered students without formal registration and may be in violation of immigration laws when not properly registered.

International students who have questions about registration requirements should contact the Office of Recruitment and Student Affairs.

Admission Status
MPA applicants may be permitted to take courses before the admission process is completed or they may be admitted before certain conditions have been met; each student must, however, attain regular status (standing) admission to the school prior to or upon completion of 8 graduate units.

Limited Status Students (Preadmission)
Students taking courses who have not been admitted to the school are designated limited status students. These students may be taking courses to meet prerequisites; they may be waiting for part of their application package materials to arrive; or they may be investigating whether an MPA is the best choice for them.

To be considered for limited status enrollment, interested students need to complete the Price School of Public Policy Limited Student Application for Enrollment form and submit official or unofficial copies of their transcripts from their bachelor’s degree granting institution. Students with a 3.0 grade point average (A = 4.0) may enroll in up to 12 units of graduate courses in the Price School of Public Policy.

Price School of Public Policy Limited Student Application for Enrollment forms may be obtained from the Admissions Office, Price School of Public Policy, University of Southern California, RGL 111, Los Angeles, CA 90089-0626; (213) 740-6842. Limited students may only enroll during the in-person registration period (the week before classes begin).

Limited status students may apply only 12 units of appropriate graduate work toward the MPA after admission. Units beyond these first 12 must be petitioned for through the school. Students on limited status are encouraged to complete the application and admission processes before completing those first 12 units.

PhD Candidates
PhD students who pass the qualifying examinations and complete the MPA course requirements or their equivalent during their course work at USC may, with the recommendation of the coordinator of the MPA program, apply for and receive the MPA degree.

MPA Curriculum
The MPA course requirements are designed to address current and future professional competencies for accomplishment; to establish a sequence of basic required courses; and to maximize
student choice and depth in specialized studies. The curriculum requires 40 units for completion (41 for pre-service students). Pre-service students, that is, those who have less than 25 months’ employment experience in a professional level position, are also required to take an internship that includes a one-unit seminar.

**Core Courses**

The core courses cluster along two themes: political institutions and organizations and analytics for public administration.

**Institutions and Organizations (10 units)**
- PPD 540 Fundamentals of Public Administration Units: 4
- PPD 545 Public and Nonprofit Organizational Behavior Units: 4
- PPDE 505 Professional Workshop in Public Administration Units: 2 or
- PPDE 506 Professional Residency in Public Administration Units: 1 and
- PPDE 507 Capstone Residency in Public Administration Units: 1

**Analytics (10 units)**
- PPD 503 Economics for Public Policy Units: 4
- PPD 504 Essential Statistics for Public Management Units: 2
- PPD 541 Public Financial Management and Budgeting Units: 4 or
- PPDE 645 Financial Management of Nonprofit Organizations Units: 4

**Electives (16 units)**

Students will pursue 16 units of electives, 8 of which are chosen from a list of courses that extend their competencies in institutional/organizational management and analytic reasoning. They may take these from the Price School, or select related courses from other schools at USC. They are encouraged to cluster their electives around particular areas of interest while also maximizing opportunities to obtain graduate certificates.

Students who are pursuing a certificate program may petition to substitute certificate-related course(s) for the analytic and/or management elective with approval by the director of the program.

**Analytic Elective (4 units)**

Students will select one four-unit elective course from the following list:
- PPD 542 Policy and Program Evaluation Units: 4
- PPD 554 Foundations of Policy Analysis Units: 4
- PPD 557 Modeling and Operations Research Units: 4
- PPD 558 Multivariate Statistical Analysis Units: 4

**Management Elective (4 units)**

Students will select one four-unit elective course from the following list:
- PPD 672 Collaborative Governance Units: 4
- PPD 673 Strategic Planning in the Public Sector Units: 4
- PPD 675 Nonprofit Management and Leadership Units: 4
- PPDE 648 Performance Management Units: 4

**Capstone**

Students complete the capstone which integrates the competencies attained in the core and electives courses as students complete a policy or management analysis for an organizational client:
- PPD 546 Capstone in Public Administration Units: 4

**Internship**

Pre-service students (those with fewer than 25 months employment in a professional level position) are required to complete at least 300 hours of an internship and an internship seminar (PPD 543). MPA students may enroll in the internship seminar during their first semester. Students are encouraged but not required to complete their internship hours in conjunction with the internship seminar.

**Thesis Option**

Thesis option, PPD 594a Master's Thesis (2 units), PPD 594b Master's Thesis (4 units), may be taken as part of the elective category. Information regarding the thesis contract is available from the MPA director. All theses and dissertations submitted in fulfillment of requirements for graduate degrees must conform to university regulations with regard to form and method of preparation.

**Additional Requirements**

- PPD 540 must be taken in the first semester or within the first 12 units and PPD 546 must be taken in the final semester or the last 12 units of the student’s program.

**Public Policy (MPP)**

In our dynamic global society, talented professionals who contextualize, analyze and shape policy with an eye for the public good are vitally important. The USC Price Master of Public Policy program prepares students to become these essential leaders. Our program is organized around three broad areas: policy processes and analysis, economics and quantitative analysis. With an emphasis on social justice and innovation, students’ comprehensive studies will be immersive, spanning a variety of disciplines and culminating in a unique year-long practicum.

The MPP degree is offered at the University Park Campus only.

**Requirements for Admission**

Potential for distinguished academic and professional achievement is the principal criterion for admission to the Master of Public Policy program. In assessing an application, the admission committee evaluates:
- past performance and future promise as evidenced by grades, work experience, community service, etc.
- commitment to educational and career goals, as demonstrated particularly in the writing sample

In general, successful applicants will have at least a 3.0 undergraduate grade point average (GPA).

Students are admitted to the fall semester. Students applying are encouraged to submit applications prior to December 15 in order to receive full scholarship consideration. Since the admission review process does not include an interview, submitted materials should present student qualifications clearly and completely.

**Prerequisites**

All entering students must have a bachelor's degree from an accredited institution and are required to demonstrate proficiency in foundational statistical methods. The statistics prerequisite can be satisfied in one of two ways:

**Statistics or Econometrics Course Taken Prior to Enrollment in the MPP**

- Completion of a college-level statistics or econometrics course with a grade of "B" or better within three years of matriculation. At minimum, prior coursework must have included essential topics in descriptive and inferential statistics such as measures of central tendency and dispersion, confidence intervals, and hypothesis testing. If relevant statistical coursework was completed more than three years prior, a waiver may be granted based on the level of statistical training completed and the degree to which currency with this material was maintained through subsequent professional use.

**PPD 504 Essential Statistics for Public Management**

- If a student has not completed a college-level statistics course with a grade of "B" or better within three years of matriculation, they will need to complete a summer course prior to starting the MPP program. USC offers PPD 504 Essential Statistics for Public Management each summer; a grade of "C" or better in PPD 504 is sufficient to satisfy the statistics prerequisite. Students may instead choose to satisfy the requirement by completing a qualifying statistics course at another institution prior to enrolling at USC. If the course is completed outside of USC, it must be taken for a grade and the student must earn a grade of "B" or better. Regardless of which course is used to meet the prerequisite requirement, the units associated with the course will not be used toward the 48 required degree units.
Degree Requirements

The Master of Public Policy degree requires 48 units of graduate work, with 20 units of core courses, the 4-unit Policy Analysis Practicum and 24 additional elective units divided between analytic and specialization areas.

Core Courses (20 units):
- PPD 503 Economics for Public Policy Units: 4
- PPD 554 Foundations of Policy Analysis Units: 4
- PPD 555 Public Policy Formulation and Implementation Units: 4
- PPD 558 Multivariate Statistical Analysis Units: 4
- PPD 560 Methods for Policy Analysis Units: 4
- PPD 561a Policy Analysis Practicum Units: 1
- PPD 561b Policy Analysis Practicum Units: 3

Note: “During a student’s final two semesters of the program, the Policy Analysis Practicum is required as a component of the program’s 48 units of course work. The practicum is an opportunity for students to apply their skills to a current problem for an actual client. Enrollment in the practicum requires successful completion of all core course work.”

Electives (24 units):

Analytic Elective (8 Units):
- COMM 650 Survey Construction and Validation Units: 4
- PPD 542 Policy and Program Evaluation Units: 4
- PPD 587 Risk Analysis Units: 4
- PPD 647 Finance of the Public Sector Units: 4
- PPDE 636 Urban Spatial Ethnography and Critical Cartography Units: 4
- PPDE 660 Environmental Policy Design and Analysis Units: 4
- PPDE 661 Methods for Equity Analysis Units: 4
- PPDE 665 Economic Models and Applications for Impact Analysis Units: 4
- PPDE 668 Applied Econometrics for Program Evaluation Units: 4
- PPDE 671 Economic Analysis of Education Policy Units: 4
- PPDE 672 An Exploration of the Intelligence Community - from Policy to Cyber Espionage Units: 4
- SSCI 581 Concepts for Spatial Thinking Units: 4

Specialization Electives (16 units):

Specialization electives are chosen by the student under the guidance of the program administrator. Students may choose to specialize in a particular policy area or complete multiple policy-related courses.

Public Policy Data Science (MS)

datascience.usc.edu

Pre-semester MPP Labs

The Professional Fundamentals and Statistics/STATA Labs provide an introduction to the program, acclimate students to skills that will be further developed in their first-semester courses and help to create a genuine camaraderie within the first-year student cohort. Entering MPP students are required to participate in the Statistics/STATA Lab as well as the Professional Fundamentals Lab. The labs meet the week prior to the start of the fall semester. The Professional Fundamentals Lab will lead directly into PPD 554 Foundations for Policy Analysis, while the Statistics/STATA Lab will provide initial exposure to the statistical software that will be utilized extensively in PPD 558 Multivariate Statistical Analysis.

Policy Analysis Practicum (4 units):

Pre-semester MPPDS Labs

The Professional Fundamentals Lab provides an introduction to the program, acclimates students to skills that will be further developed in their first-semester courses, and help to create a genuine camaraderie within the first-year student cohort. Entering MPPDS students are required to participate in the Professional Fundamentals Lab. The lab takes place the week prior to the start of the fall semester. The Professional Fundamentals Lab will lead directly into PPD 554 Foundations for Policy Analysis. Entering MPPDS students are also required to participate in the Statistics/STATA Lab in January. The Statistics/STATA Lab provides an opportunity for students to apply their skills to a current problem for an actual client. Enrolment in the practicum requires successful completion of all core course work.

Elective Course

Select one from the following:
- PPD 555 Public Policy Formulation and Implementation Units: 4
- PPD 560 Methods for Policy Analysis Units: 4
- PPDE 668 Applied Econometrics for Program Evaluation Units: 4

Pre-semester MPPD Lab

Big data is revolutionizing the way many agencies operate, particularly with respect to governance transparency and accountability, law enforcement, transportation and housing policy. Big data is changing strategies for crime-fighting, defense, national intelligence, social programs and finance and operations of agencies. The Master of Science in Public Policy Data Science is a multi-disciplinary program offered jointly between the USC Sol Price School of Public Policy and the Data Science Program in the department of Computer Science at the Viterbi School of Engineering, and will provide a curriculum that will make degree recipients appealing to the employers of the 21st century.

Statistics Prerequisite

All entering students must have a bachelor’s degree from an accredited institution and are required to demonstrate proficiency in foundational statistical methods. The statistics prerequisite can be satisfied in one of two ways:

Statistics or Econometrics Course Taken Prior to Enrollment in the MPP

PPD 504 Essential Statistics for Public Management

If a student has not completed a college-level statistics course with a grade of "B" or better within three years of matriculation, they will need to complete a summer course prior to starting the MPP program. USC offers PPD 504 Essential Statistics for Public Management each summer; a grade of "C" or better in PPD 504 is sufficient to satisfy the statistics prerequisite. Students may instead choose to satisfy the requirement by completing a qualifying statistics course at another institution prior to enrolling at USC. If the course is completed outside of USC, it must be taken for a grade and the student must earn a grade of "B" or better. Regardless of which course is used to meet the prerequisite requirement, the units associated with the course will not be used toward the 36 required degree units.

Public Policy Courses

Core Courses (12 units):
- PPD 503 Economics for Public Policy Units: 4
- PPD 554 Foundations of Policy Analysis Units: 4
- PPD 558 Multivariate Statistical Analysis Units: 4

Elective Course

Select one from the following:
- PPD 555 Public Policy Formulation and Implementation Units: 4
- PPD 560 Methods for Policy Analysis Units: 4
- PPDE 668 Applied Econometrics for Program Evaluation Units: 4

Data Science Courses

Core Courses (12 units):
- DSCI 510 Principles of Programming for Data Science Units: 4
• DSCI 549 Introduction to Computational Thinking and Data Science Units: 4
• DSCI 550 Data Science at Scale Units: 4

Note:
Students with a computer science background will have the option of replacing DSCI 510, DSCI 549, and DSCI 550 with DSCI 551, DSCI 552, and DSCI 553.

Elective Course
Select one from the following:
• DSCI 551 Foundations of Data Management Units: 4
• DSCI 552 Machine Learning for Data Science Units: 4
• DSCI 553 Foundations and Applications of Data Mining Units: 4
• DSCI 554 Data Visualization Units: 4
• DSCI 555 Interaction Design and Usability Testing Units: 4
• DSCI 556 User Experience Design and Strategy Units: 4

Capstone
Students will complete a capstone experience and project through enrollment in DSCI 560.
• DSCI 560 Data Science Professional Practicum Units: 4

Urban Planning (Executive MUP Online)
The USC Price Executive Master of Urban Planning (EMUP) degree is built to respond to the needs of the professionals who are rising leaders in urban planning, urban policy and development. The curriculum is designed to train professionals committed to crossing boundaries, and to educating persons who seek synergy between the public objectives and business aspects of planning.

The core of the EMUP revolves around the interlocking themes of urban economics, citizen participation and governance, urban design and site analysis, and data analytics and visualization. The degree does not train narrow experts in any of those four areas. Instead, the degree trains professionals who will be leaders in fields where the interplay of those themes is essential to private sector development, public sector planning and policy, and the goals of non-profit entities.

The target audience is experienced professionals in fields allied with urban planning and public policymaking, where place is a central feature: community development and redevelopment, real estate development, architecture, urban design, law, public policy, economic development, and infrastructure.

The degree is designed to be completed by working professionals in four semesters of part-time study. The degree will be 24 units, taken over four semesters. Each semester is 5 units of online course work. There are also two four-day in-person intensives.

For admission information, please go to the USC Price Website.

Required Courses (24 Units)
Students will take 12 courses for this program.
• PLUS 660 Economics of a Productive Development - A Public/Private Perspective Units: 3
• PLUS 661 Politics and Process of Urban Development Units: 2
• PLUS 662 Planning and Development Case Study Units: 1
• PLUS 663 Designing Livable Environments I Units: 1
• PLUS 664 Urban Political Economy and Urban Development Units: 2
• PLUS 665 Economics for a Productive City Units: 3
• PLUS 667 Effective Engagement with Stakeholders Units: 3
• PLUS 668 Big Data for Planning and Development Units: 2
• PLUS 669 Designing Livable Environments II Units: 1
• PLUS 670 Communicating Data for Planning and Development Units: 1
• PLUS 671 Leading a Collaborative City Units: 3
• PLUS 672 Integrating Concepts for Action Units: 2

Urban Planning (MUP)
The Master of Urban Planning (MUP) degree trains students to be leaders and innovators in all aspects of urban planning.

Students study the traditional elements of urban planning while being immersed in innovative and emerging themes. Students will study normative approaches to social justice, equity, and inclusion in planning practice, data resources, and visualization techniques that are transforming cities, and methods for crafting place-based approaches to societies most pressing issues.

Planners are engaged in evaluating and guiding community and urban development at geographic scales, ranging from the local American neighborhood to the global village utilizing the public, private and nonprofit sectors. Cities worldwide are being transformed by technology, mass movements of populations and demographic transitions, environmental challenge, rapid economic change, and questions of distribution and justice. Planners play a central role as analysts, conveners, forward-thinkers and innovators.

The MUP curriculum provides a core of knowledge around five themes – (1) the interaction of planning theory and history with normative questions of justice, (2) the use of research, data, and evidence to inform the public good, (3) the economics of urban areas, including the economics of environmental externalities and cost benefit analysis, (4) the legal context for planning, and (5) the built environment and urban design. In all cases, students are immersed in study that includes comparative approaches and examples from international examples, training students to be globally adept. A goal of the MUP curriculum is to prepare planners to practice anywhere in the world.

The Planning Accreditation Board of the American Planning Association and the Association of Collegiate Schools of Planning accredit the MUP program.

All persons pursuing the MUP will complete core courses that present basic theories, techniques and methods.

Concentrations are available in six areas: arts and culture; design of the built environment; economic development; planning for climate change and sustainability; housing and real estate development; and mobility and transportation planning. A concentration in any of these areas qualifies graduates for a wide range of private, public and nonprofit sector careers with government agencies, consulting firms, corporations, utilities, international technical assistance programs, nonprofit and special interest organizations and joint public-private ventures.

Core Curriculum (16 units):
• PPD 522 Planning Theory and History for a Just Society Units: 4
• PPD 523 Urban and International Development Units: 4
• PPD 528 Physical Planning: Urban and Community Design Units: 2
• PPD 529 Planning Law and Legal Frameworks of Planning Units: 2
• PPD 534 Data, Evidence, and Communication of the Public Good Units: 4

Concentrations (16 units)
There are six concentrations available in the Master of Urban Planning program. Each concentration has a required gateway and method course for 8 units and students select 8 units of concentration electives.

Arts and Culture Concentration
In post-industrial societies, arts and culture play an increasingly important role economically, socially, and environmentally. In Arts and Culture Planning, students will prepare for positions in cultural affairs offices, nonprofit advocacy and program providers, economic development organizations, and political offices.

Students will consider such concepts as cultural economy, creative placekeeping and placemaking, and cultural heritage as they learn to assess and spatially analyze community dynamics and work with disparate types of art interventions with those skills related to community engagement and improvement.

Gateway Course:
• PPDE 641 Art and the City Units: 4
Methods Course:
- PPDE 636 Urban Spatial Ethnography and Critical Cartography Units: 4

Concentration Electives (8 units):
- ARCH 549 Fundamentals of Heritage Conservation Units: 3
- ARCH 555 Global Perspectives in Heritage Conservation Units: 2
- ARCH 585 Visual Storytelling and Entrepreneurship in Media Units: 2
- ARTL 502 Issues in the Arts and the Contemporary World Units: 2
- ARTL 504 Arts and the Community: Current Practice and New Visions Units: 2
- PPD 623 Community Development and Site Planning Units: 4
- PPDE 631 Public Space: Theory, Policy, and Design Units: 4
- PPDE 633 Communicating City Design: Positions and Representations Units: 2
- PPDE 638 Race, Arts, and Placemaking Units: 4

Design of the Built Environment Concentration
In contemporary settings, planning and construction typically do not begin with a blank slate. Rather, new structures are inserted into an existing built environment, which must be respected for its historical heritage and its contributions to the new. Design of the Built Environment offers students the opportunity to prepare for practice in urban design as well as for community planners addressing issues of health and environmental justice through design. Students will acquire skills to assess, plan, and design spaces using sophisticated methods as well as the ability to spatially analyze stressors within the built environment that inhibit residents’ quality of life.

Gateway Course:
- PPD 644 Shaping the Built Environment Units: 4

Methods Course:
- PPD 627 Design Skills for Urban Planners Units: 4

Concentration Electives (8 units):
- ARCH 549 Fundamentals of Heritage Conservation Units: 3
- ARCH 555 Global Perspectives in Heritage Conservation Units: 2
- PPD 530 Historical Analysis of Urban Form and Planning Practice Units: 2
- PPD 616 Housing and Urban Sprawl: Policy Debates and Planning Solutions Units: 4
- PPD 618 Housing Facilities and Community Development Units: 4
- PPD 619 Smart Growth and Urban Sprawl: Policy Debates and Planning Solutions Units: 4
- PPD 623 Community Development and Site Planning Units: 4
- PPD 631 Public Space: Theory, Policy, and Design Units: 4
- PPD 635 Housing and Land Use in Rapidly Urbanizing Regions Units: 4
- PPD 644 Land Use and Transportation Planning Units: 4

Planning for Climate Change and Sustainability Concentration
Metropolitan areas are the source of most of our environmental quality problems, such as air and water pollution, species and habitat problems, and greenhouse gas emissions. Planning and design of our cities and communities play a critical role in both pollution and exposure to its damages. How and where we site housing, commercial centers, or trash dumps helps to determine how much pollution is generated and who is affected. This concentration addresses issues of environmental justice, sustainable urban design, public health, and climate change. Students will learn methods for analyzing environmental impacts, relationships between exposure and health, urban vulnerabilities to climate change effects, and the role of urban planning and public policies in achieving more sustainable and livable urban environments.

Gateway Course:
- PPDE 640 Climate, Sustainability and Environmental Planning Units: 4

Methods Course:
- PPDE 634 Methodology, Methods and Tools for Urban Sustainability Units: 2, 3, 4 (4 units required)

Concentration Electives (8 units):
- PPD 615 Comparative Urbanization, Development, and Inequality Units: 4
- PPD 618 Housing Facilities and Community Development Units: 4
- PPD 620 General Plans Units: 4
- PPD 621 Environmental Impacts Units: 4
- PPD 627 Design Skills for Urban Planners Units: 4
- PPD 631 Geographic Information Systems for Policy, Planning, and Development Units: 2
- PPD 692 Transportation and the Environment Units: 4
- PPD 694 Coastal Policy and Planning Units: 4
- PPD 635 Housing and Land Use in Rapidly Urbanizing Regions Units: 4
- PPD 637 Urban Mass Transit Units: 4

Housing and Real Estate Development Concentration
A well-housed, economically healthy community is an essential part of residents’ quality of life. Cities and towns worldwide are experiencing housing crises that range from severe affordability problems, insecure and informal land tenure, social inequities, and sub-standard housing quality. In Housing and Real Estate Development, students will prepare for practice as housing analysts, planners, policy-makers, or developers. Students will learn needs estimation, the fundamentals of urban development and land markets, and a set of specific problems related to gentrification and neighborhood change, filtering, and the structure of affordable housing development projects and policies. Careers include policy positions in all levels of government, work with affordable or market-rate housing developers, and advocacy groups.

Gateway Course:
- PPDE 639 Housing Dynamics for Policy and Planning Units: 4

Methods Course:
- PPD 625 Planning and Economic Development Finance Units: 4

Concentration Electives (8 units):
- PPD 616 Participatory Methods in Planning and Policy Units: 4
- PPD 617 Urban Demography and Growth Units: 4
- PPD 622 Seminar in Urban Development Units: 4
- PPD 624 Local Economic Development: Theory and Finance Units: 4
- PPD 626 Public/Private and Mixed Enterprises Planning Units: 2, 4 (4 units required)
- PPD 639 Introduction to Community and Economic Development Units: 4
- PPDE 635 Housing and Land Use in Rapidly Urbanizing Regions Units: 4
- RED 510 Real Estate Practice and Principles Units: 4
- RED 511 Foundations of Real Estate Analysis Units: 4
- RED 512 Real Estate Project Analysis Units: 4

Economic Development Concentration
Economic development focuses on core activities of workforce development, strategies for job generation, and methods for improving the fiscal well-being of local areas. Specific topics include the technology sector, arts and culture sector, advanced manufacturing, and logistics related to trade through the ports. Students in the Economic Development concentration will learn the
fundamentals of urban economies, the causes and consequences of economic decline, strategies of subsidy and tax revenue use, strategies of public/private partnerships, incubators, micro-financing, and other entrepreneur and small business development strategies. To support their analytic work, they will also acquire skills of demographic and economic analysis, and spatial analysis of local economies. Students’ skills will equip them to work in either the public or private sector.

Gateway:
- PPD 639 Introduction to Community and Economic Development Units: 4

Methods Course:
- PPD 625 Planning and Economic Development Finance Units: 4

Concentration Electives (8 units):
- PPD 622 Seminar in Urban Development Units: 4
- PPD 624 Local Economic Development: Theory and Finance Units: 4
- PPD 626 Public/Private and Mixed Enterprises Planning Units: 2, 4 (4 units required)
- PPDE 635 Housing and Land Use in Rapidly Urbanizing Regions Units: 4
- RED 510 Real Estate Practice and Principles Units: 4
- RED 511 Foundations of Real Estate Analysis Units: 4
- RED 512 Real Estate Project Analysis Units: 4

Mobility and Transportation Planning Concentration
Transportation is essential to urban life. The movement of both people and goods is a fundamental determinant of land use and urban form, as well as of quality of life. These movements take place by motorized vehicles (cars, trucks, trains, buses), bicycles, and walking, all of which are studied in this concentration. Transportation is being disrupted by technology in ways that have not occurred in a century, and students in this concentration will learn how to lead innovation in rapidly evolving public, private, and non-profit settings. Transportation and urban mobility students will acquire skills related to transportation analysis, travel behavior, environmental impacts of mobility, spatial analysis, land use and transportation relationships, and design of sustainable transportation strategies and policies.

Gateway:
- PPD 634 Institutional and Policy Issues in Transportation Units: 4

Methods Course:
- PPD 633 Methods and Modeling Tools for Transportation Planning Units: 4

Concentration Electives (8 units):
- PPD 557 Modeling and Operations Research Units: 4
- PPD 589 Port Engineering: Planning and Operational Analysis Units: 4
- PPD 621 Environmental Impacts Units: 4
- PPD 630 Urban Economic Analysis Units: 4
- PPD 631 Geographic Information Systems for Policy, Planning, and Development Units: 2
- PPD 635 Principles of Transportation Systems Analysis Units: 4
- PPD 692 Transportation and the Environment Units: 4
- PPDE 637 Urban Mass Transit Units: 4
- PPDE 644 Land Use and Transportation Planning Units: 4

Planning Studios (4 units)
Planning studios are an integral part of the curriculum of the Price School of Public Policy, providing the essential educational link between academic education and preparation for professional practice. The planning studios require that students learn to work together as a team by applying their respective capabilities and knowledge to a real-world common problem and to produce a professional project. Students must complete 4 units of planning studios.
- PPD 531L Planning Studio Units: 4, 8, 12

Capstone (4 units)
All Master of Urban Planning students must complete PPD 629 Capstone in Urban Planning (4 units).
- PPD 629 Capstone in Urban Planning Units: 4

Free Electives (8 units)
Total Units: 48

Additional Requirements

Internship
Students working toward the Master of Urban Planning degree must complete an internship of at least 10 weeks duration and 400 hours in an organization engaged in planning or a closely related activity. Students must submit a report to the director of career services describing and evaluating the internship experience. Arrangements must also be made for an evaluative report of the internship by the student’s supervisor submitted directly to the academic adviser. The internship is not for unit credit.

Students often fulfill their internship while working part-time in a planning-related job during their course of study in the program or in the summer between the two academic years. If a student has had equivalent career experience prior to admission to the program, the department chair may waive the internship requirement on the recommendation of the student’s academic adviser.

The Price Office of Career Services actively works with school alumni and area planning organizations to assist students in obtaining appropriate internships. Numerous internship opportunities are available in the greater Los Angeles area. The student is responsible for securing the internship and fulfilling the requirement.

Directed Research
With the advice of the faculty, a student may elect to enroll in directed research as an elective. Working directly with a faculty member, the student pursues an interest or problem appropriate to the student’s program of study.

The faculty member supervising the student must approve the final product of directed research. The final product may be a written report, article, graphic formulation, physical model, mathematical-statistical analysis, computer output or film — depending on the most appropriate expression of the research undertaken.

General Requirements

Residence and Course Load
The Master of Urban Planning normally requires two academic years of full-time study. Courses are also scheduled to allow completion on a part-time basis.

At least 36 units of graduate-level study must be done in residence at USC. The residency requirement may not be interrupted without prior permission from the Price School of Public Policy. Students accepted into the program with academic deficiencies will require a correspondingly longer time to complete their course work. Students seeking the degree on a part-time basis must take at least one course each semester.

Students must be enrolled at USC for the fall and spring semesters each year until all degree requirements have been met. Students who find it necessary to be excused from a semester of registration must request a leave of absence from the Academic Programs Office by the last day to drop/add courses of the semester in question; such leaves may be granted for up to one year. For additional information refer to USC policies governing continuous enrollment, readmission, and leaves of absence in the Academic Policies section of this catalogue.

Time Limits
All requirements for the Master of Planning must be completed within five calendar years from the beginning of the semester in which the student was admitted to the program. University
regulations prohibit the acceptance of credits for courses taken toward the Master of Planning degree more than seven years after the date they were successfully completed.

Grade Point Average Requirement
While enrolled in the program a student must maintain a grade point average of at least 3.0 for all courses taken toward the degree.

Probation and Disqualification
Any student with a cumulative grade point average below 3.0 for all courses taken in the program will be placed on academic probation. A student whose semester grade point average is below 3.0, but whose cumulative grade point average is 3.0 or higher, will be placed on academic warning.

A student may be disqualified to continue toward a graduate degree if the student has been on academic probation for two consecutive semesters. Whether or not on academic probation or warning, a student may be disqualified at any time from continuing in the program if the dean of the school, after consultation with the faculty, determines that the student is deficient in academic achievement or in another qualification required for the attainment of the Master of Urban Planning degree.

Course Exemptions and Transfer of Credits
Graduate work by transfer may be accepted from approved graduate schools as determined by the USC Articulation Office upon recommendation of the dean of the school. Not more than 12 units of graduate work, with grades of B or better may be transferred for credit to the Master of Planning degree.

The following courses, or their equivalents, cannot normally be transferred for unit credit from other institutions: PPD 522, PPD 523, PPD 528, PPD 529, PPD 531L, PPD 534, PPD 629, PPD 594a, PPD 594b, PPD 594z, and PPD 594. Undergraduate work will not be credited for advanced or graduate standing. Students may petition to receive subject credit for these courses; but unit requirements must be met through the completion of additional electives.

Some applicants for admission to the school have been engaged in work in planning, development or closely related activities. Although this experience may have been beneficial to the students involved and may satisfy the internship requirement, it may not be considered equivalent to academic education.

Dual Degree
Master of Health Administration/Master of Science in Gerontology (MHA/MS)
Gerontology and health administration students can specialize in health care administration (profit and nonprofit) through the dual degree with the USC Leonard Davis School of Gerontology and the USC Price School of Public Policy’s Health Administration Program. Students in the dual degree program must be admitted by both academic units and complete 78 units of post-graduate academic work.

Gerontology Requirements
- GERO 510 Physiology of Development and Aging Units: 4
- GERO 520 Life Span Developmental Psychology Units: 2 or 4 (4 units required)
- GERO 530 Life Span Developmental Sociology Units: 4
- GERO 540 Social Policy and Aging Units: 4
- GERO 550 Administration and System Management in Programs for Older Adults Units: 4
- GERO 555 Integrating Gerontology: A Multidisciplinary Approach Units: 4
- GERO 591 Field Practicum Units: 1-12 *
  8 units of GERO 591 required
- GERO 593 Research Methods Units: 4

Total units: 36

Health Administration Requirements
- PPD 506 Introduction to Microeconomics: Applications in Health Units: 2
- PPD 509 Problems and Issues in the Health Field Units: 4
- PPD 510a Financial Management of Health Services Units: 4
- PPD 512 Health Administration Residency Seminar Units: 2
- PPD 513 Legal Issues in Health Care Delivery Units: 2
- PPD 514 Economic Concepts Applied to Health Units: 4
- PPD 515 Strategic Management of Health Organizations Units: 4
- PPD 516 Financial Accounting for Health Care Organizations Units: 4
- PPD 517 Concepts and Practices in Managing Health Care Organizations Units: 2
- PPD 518 Quality of Care Concepts Units: 2
- PPD 545 Public and Nonprofit Organizational Behavior Units: 4
- PPD 558 Multivariate Statistical Analysis Units: 4
- PPD 601 Management of Long-Term Care Organizations Units: 4

Total units: 42

Additional Requirements
Statistics: The statistics requirement for dual degree students is the same as those that apply to the Master of Health Administration.

Program Adaptation: The USC Davis School of Gerontology will waive GERO 589 because students enrolled in this program will have a primary professional focus in health administration.

Students enrolled in the dual degree are not required to take PPDE 613 (as opposed to the stand alone MHA degree students) because they develop the necessary proficiencies related to their career goals in long term care administration through other courses such as GERO 550, GERO 591 and GERO 593. In addition, PPD 601 is required for the dual degree (and not the stand alone MHA program) because most of these students will work in long-term care facilities and this course is critical for success in that market.

Students in the MHA stand alone program are required to complete a 1,000 hour residency at a health care organization, generally during the second year of study. Students in the dual degree program may be waived from this requirement with enrollment in GERO 591 which is a supervised experiential learning experience. Student in this situation may then waive PPD 512 and will take 2 units of Price electives for this dual degree.

Any course substitutions are done by petition on an individual basis and should be part of a carefully developed course of study. The USC Price School of Public Policy should be consulted concerning this program of study.

Master of Heritage Conservation/Master of Urban Planning (MHC/MUP)
The Master of Heritage Conservation/Master of Urban Planning dual degree program facilitates highly related cross-disciplinary studies in heritage conservation and in urban planning at the master’s level. The primary objective of the dual degree curriculum is to impart to students a basic familiarity with the origins and development of the philosophies, theories, and practices of planning and heritage conservation. This curriculum has been developed so that students will graduate from this program with a broad practical knowledge of the laws, regulations, and policies that apply to planning and conservation practice in the United States and internationally. This expertise will include knowledge of urban design, public policy, and architectural and planning history and theory. Students will be expected to understand the critical methodological tools necessary for a professional engaged in the investigation, interpretation, and evaluation of the urban built environment.

Qualified students who are admitted to the graduate programs in both the School of Architecture and the USC Price School of Public Policy may complete both degrees in a highly integrated five-semester program.
Requirements for completion of the dual degree program are 60 units, including 30 units in heritage conservation and 30 units in urban planning, as follows:

Architecture
- ARCH 549 Fundamentals of Heritage Conservation
- ARCH 550 Heritage Conservation Policy and Planning
- ARCH 551 Conservation Methods and Materials
- ARCH 552 Introduction to Historic Site Documentation
- ARCH 553 History of American Architecture and Urbanism
- ARCH 554 Heritage Conservation Practicum — Advanced Documentation
- ARCH 555 Global Perspectives in Heritage Conservation
- ARCH 556 Readings in Heritage Conservation Theory
- ARCH 558 Fundamentals of Place-Making
- ARCH 691a Heritage Conservation Thesis Preparation and Thesis Units: 1
- ARCH 691b Heritage Conservation Thesis Preparation and Thesis Units: 4
- ARCH 691c Heritage Conservation Thesis Preparation and Thesis Units: 0
- ARCH Electives

Total units: 30

Urban Planning
- PPD 522 Planning Theory and History for a Just Society
- PPD 523 Urban and International Development
- PPD 529 Planning Law and Legal Frameworks of Planning
- PPD 531L Planning Studio Units: 4, 8, 12 (4 units required)
- PPD 534 Data, Evidence, and Communication of the Public
- PPD 629 Capstone in Urban Planning

Total units: 30

Master of Landscape Architecture/Master of Urban Planning (MLArch/MUP)
Qualified students who are admitted to the Master of Landscape Architecture program in the School of Architecture and to the graduate program in the USC Price School of Public Policy may complete both degrees in a highly integrated five-seven semester program.

Completion of the dual degree requires 26 units of courses in urban planning, 9 units of Advanced Design Research and either 49 units of landscape architecture (for those students admitted with advanced placement); or 71 units of landscape architecture (for those students admitted to the three-year curriculum).

Master of Landscape Architecture (Advanced Placement)/Master of Urban Planning
Qualified students who have completed a pre-professional undergraduate degree in landscape architecture or environmental design, or a professional degree in architecture and are admitted to the graduate program in the School of Architecture with advanced placement and to the USC Price School of Public Policy may complete both degrees in a highly integrated six-semester program.

Completion of the dual degree requires 84 units, including 49 units of courses in landscape architecture, 26 units of courses in urban planning, and 9 units of Advanced Design Research.

Landscape Architecture
- ARCH 439 Landscape Architecture Foundations Workshop
- ARCH 531 Urban Ecology
- ARCH 535 Landscape Construction: Performance Approaches
- ARCH 544 Landscape as Urbanism: Case Studies
- ARCH 545 Contemporary Theories of Landscape Architecture
- ARCH 547 Advanced Topics in Urban Ecology
- ARCH 548 Media for Landscape Architecture
- ARCH 553 History of American Architecture and Urbanism
- ARCH 565 Global History of Designed Landscapes
- ARCH 571 Community-Based Design, Conservation and Planning
- ARCH 698A Advanced Design-Research
- ARCH 698B Advanced Design-Research
- SSCI 572 GIS and Landscape Architecture

Electives:
- 3 units of elective courses taken in the School of Architecture.

Note:
Students in this dual degree will be waived out of ARCH 530 in the MLA core as professional practice is obtained in the PPD courses. Students in this dual degree will also be waived out of ARCH 639 as parametric design is not a required skill for planning-oriented landscape architects.

Studies
- ARCH 542aL Landscape Architecture Design
- ARCH 542bL Landscape Architecture Design
- ARCH 642L Landscape Architecture Design

Total units for MLArch: 58

Urban Planning
- PPD 522 Planning Theory and History for a Just Society
- PPD 523 Urban and International Development
- PPD 529 Planning Law and Legal Frameworks of Planning
- PPD 534 Data, Evidence, and Communication of the Public
- PPD 629 Capstone in Urban Planning

Total units: 30

Concentrations
- Arts and Culture, Design of the Built Environment, Planning for Climate Change and Sustainability, Housing and Real Estate Development, Economic Development, and Mobility and Transportation Planning. Students must select a concentration gateway and methodology course (4 units each, 8 units total). Please see the Master of Urban Planning section of the catalogue for the concentration descriptions and course lists.

Note:
Students in this dual degree will be waived out of PPD 528 in the MUP core as they take ARCH 558 Fundamentals of Place-Making.

Total units: 30
Total units for MUP: 26
Dual degree students, like all other MUP students, must fulfill the internship requirement.

Total units for dual degree: 84

Master of Landscape Architecture (Three-Year Curriculum)/Master of Urban Planning

Qualified students admitted to the Master of Landscape Architecture three-year curriculum in the School of Architecture and to the USC Price School of Public Policy may complete both degrees in a highly integrated seven-semester program.

Completion of the dual degree requires 106 units, including 71 units of coursework in landscape architecture, 26 units of courses in urban planning, and 9 units of Advanced Design Research.

Landscape Architecture

- ARCH 439 Landscape Architecture Foundations Workshop Units: 2
- ARCH 531 Urban Ecology Units: 4
- ARCH 534 Landscape Construction: Topographic Design Approaches Units: 3
- ARCH 535 Landscape Construction: Performance Approaches Units: 3
- ARCH 537 Plant Ecology + Identification Units: 2
- ARCH 538L Planting Design Units: 2
- ARCH 539L Media for Landscape Architecture Units: 3
- ARCH 544 Landscape as Urbanism: Case Studies Units: 3
- ARCH 545 Contemporary Theories of Landscape Architecture Units: 3
- ARCH 547 Advanced Topics in Urban Ecology Units: 3
- ARCH 548 Media for Landscape Architecture: 3D Design Units: 3
- ARCH 565 Global History of Designed Landscapes Units: 3
- ARCH 571 Community-Based Design, Conservation and Planning Units: 2
- ARCH 635 Landscape Construction: Assembly and Documentation Units: 3
- ARCH 698 Advanced Design-Research Units: 3
- ARCH 698L Advanced Design-Research Units: 6
- ARCH 698ZL Advanced Design-Research Units: 0
- SSCI 572 GIS and Landscape Architecture Units: 2

Studies

- ARCH 541aL Landscape Architecture Design Units: 6
- ARCH 541bL Landscape Architecture Design Units: 6
- ARCH 542aL Landscape Architecture Design Units: 6
- ARCH 542bL Landscape Architecture Design Units: 6
- ARCH 642L Landscape Architecture Design Units: 6

Note:

Students in this dual degree will be waived out of ARCH 530 in the MLA core as professional practice is obtained in the PPD courses. Students in this dual degree will also be waived out of ARCH 639 as parametric design is not a required skill for planning-oriented landscape architects.

Total units for MLArch: 80

Urban Planning

- PPD 522 Planning Theory and History for a Just Society Units: 4
- PPD 523 Urban and International Development Units: 4
- PPD 529 Planning Law and Legal Frameworks of Planning Units: 2
- PPD 534 Data, Evidence, and Communication of the Public Good Units: 4
- PPD 629 Capstone in Urban Planning Units: 4

Concentrations

There are six concentrations available in the Master of Urban Planning program: Arts and Culture, Design of the Built Environment, Planning for Climate Change and Sustainability, Housing and Real Estate Development, Economic Development, and Mobility and Transportation Planning. Students must select a concentration gateway and methodology course (4 units each, 8 units total). Dual degree students do not need to take concentration electives as they will complete elective units in Economics. Please see the Master of Urban Planning section of the catalogue for the concentration descriptions and course lists.

Note:

Students in this dual degree will be waived out of PPD 528 in the MUP core as design knowledge is obtained in the ARCH urban landscape courses. Students in this dual degree will also be waived out of the planning studio requirement in the MUP as students take 12 units of ARCH studios in Landscape Architecture.

Total units for MUP: 26
Dual degree students, like all other MUP students, must fulfill the internship requirement.

Total units for dual degree: 106

Master of Public Administration/Master of Arts, Jewish Nonprofit Management (MPA/MA)

The Master of Public Administration/Master of Arts in Jewish Nonprofit Management (MPA/MA) has been developed, in cooperation between the USC Price School of Public Policy and the Zelikow School of Jewish Nonprofit Management at HUC-JIR, to prepare those students who want to pursue a career in Jewish nonprofit management. Students in this dual degree program develop policy and leadership practices that support a strategic understanding of how the application of financial and program resources shape a community’s future. The MA in Jewish Nonprofit Management program is project based. Through paid field internships in Jewish organizations and consulting projects, students apply what is learned in the classroom in a real world experience that develops their professional expertise.

Students must complete 68 units of course work, 34 in Public Administration and a minimum of 34 credits in Jewish Nonprofit Management. There is an opportunity to spend either 12 months in Sacramento, California, or Washington, D.C. At these sites, students attend classes while serving internships in the offices of politicians, lobbyists or other advocates.

Students must meet admission requirements and be admitted by both the Price School of Public Policy and the Zelikow School of Jewish Nonprofit Management.

Curriculum Requirements

The program begins in June of each year and continues for the next 24 months. Students are expected to work out individual course plans with advisers from each school.

In addition to applying to the Price School of Public Policy, those interested in the program should contact Melissa Garai at the Zelikow School at (213) 765-2173 or visit the Website at ZSJNM.org for more information about its requirements.

Public administration course work may be taken in Los Angeles or Sacramento. In Sacramento, a student will complete the Price core and elective courses, will take independent study with an HUC professor, and will serve in an internship while enrolled in HUC fieldwork classes.

Public Administration Requirements

- PPD 503 Economics for Public Policy Units: 4
- PPD 540 Fundamentals of Public Administration Units: 4
- PPD 541 Public Financial Management and Budgeting Units: 4 or
- PPD 645 Financial Management of Nonprofit Organizations Units: 4
- PPD 645 Public and Nonprofit Organizational Behavior Units: 4
- PPD 546 Capstone in Public Administration Units: 4
- PPD 505 Professional Workshop in Public Administration Units: 2

Electives

One management elective (4 units) and 8 additional elective units are required for a total of 12 units.
Management Elective
Choose one:
  • PPD 675 Nonprofit Management and Leadership Units: 4 or
  • PPD 689 The Nonprofit Sector and Philanthropy Units: 4

Additional Electives
Choose 8 units:
  • PPD 684 Leadership Development in the Public and Nonprofit Sectors Units: 2
  • PPD 685 Human Resources Management in Public and Nonprofit Sectors Units: 2
  • PPDE 646 Grant Writing Practicum Units: 2
  • PPDE 649 International Development NGOs: Theory, Policy and Management Issues Units: 4

Note: Substitutions may be requested by petition to the graduate adviser in the Price School of Public Policy

Additional Requirements

Fieldwork Requirement
Throughout the program, students are expected to serve in supervised internships. Fieldwork is administered cooperatively by the faculties of the Zelikow School of Jewish Nonprofit Management and the Price School of Public Policy.

Program Adaptation
Students enrolled in the dual degree are not required to take PPD 504 or an analytic elective in the MPA program (as opposed to the stand alone MPA degree students) because they develop the necessary proficiencies in research methods (including relevant statistical analysis material) in the courses offered in the Zelikow School of Jewish Nonprofit Management (CS 900A Capstone and CS 900B Capstone). Students in the dual degree may elect an alternative 4 units within the Price School.

Master of Public Administration/Master of Science in Gerontology (MPA/MS)
The Master of Public Administration/Master of Science in Gerontology (MPA/MS) dual degree offers students interested in management of agencies and institutions the opportunity to gain in-depth knowledge of the administrative and organizational processes and management skills necessary for the effective delivery of services to older persons.

In the MPA/MS dual degree, students spend their first year taking the required courses in the USC Leonard Davis School of Gerontology. The research course, GERO 593 Research Methods and the capstone course GERO 555 Integrating Gerontology: A Multidisciplinary Approach, are taken in the USC Leonard Davis School of Gerontology. The student begins courses in the Price School of Public Policy during the second semester of the first year.

Two versions of this dual degree are available, one with a general orientation and one with an emphasis on health services administration. Students must apply to both schools and, if accepted to both, participate in a specially designed program combining course work from both schools.

Curriculum requirements for the general focus dual degree are detailed in the USC Leonard Davis School of Gerontology section of this catalogue. Students are encouraged to seek advisement as they plan their actual programs, since curriculum changes may occur.

Gerontology Requirements
  • GERO 510 Physiology of Development and Aging Units: 4
  • GERO 520 Life Span Developmental Psychology Units: 2 or 4 (4 units required)
  • GERO 530 Life Span Developmental Sociology Units: 4
  • GERO 540 Social Policy and Aging Units: 4
  • GERO 550 Administration and System Management in Programs for Older Adults Units: 4
  • GERO 555 Integrating Gerontology: A Multidisciplinary Approach Units: 4
  • GERO 591 Field Practicum Units: 1-12
  • GERO 593 Research Methods Units: 4
  • Gerontology elective Units: 4
  * 8 units of GERO 591 required

Total units: 40

Public Administration Requirements
  • PPD 503 Economics for Public Policy Units: 4
  • PPD 504 Essential Statistics for Public Management Units: 2
  • PPD 540 Fundamentals of Public Administration Units: 4
  • PPD 545 Public and Nonprofit Organizational Behavior Units: 4
  • PPD 546 Capstone in Public Administration Units: 4
  • PPDE 505 Professional Workshop in Public Administration Units: 2
  • PPD 541 Public Financial Management and Budgeting Units: 4 or
  • PPDE 645 Financial Management of Nonprofit Organizations Units: 4

Electives
Students select one analytic elective course (4 units).

NOTE: Electives in Public Administration need to be selected from approved analytic electives (see MPA requirements). Any substitutions must be approved by the graduate adviser in the Price School of Public Policy.

Total units: 28

Additional Requirements

Program Adaptation
For the MS in Gerontology, 8 units of electives are replaced with GERO 550 and additional internship units. GERO 589 Case Studies in Leadership and Change Management is waived because students enrolled in this program have a primary professional focus in public administration. For the Master of Public Administration, 12 units of gerontology courses are used as the substantive specialization.

Master of Public Administration/Master of Social Work (MPA/MSW)
The Master of Public Administration/Master of Social Work (MPA/MSW) dual degree offers students interested in careers as administrators of social agencies the opportunity to prepare for social work while developing the administrative capabilities necessary in the public sector.

The MPA/MSW requires two calendar years of full-time study. The first academic year is devoted to the standard social work first year curriculum. During the second year, the curriculum combines social work and public administration course work. The curriculum for both summers will be in public administration.

Students can enter this program only with the written consent of both schools. Students who apply initially to the USC Suzanne Dworak-Peck School of Social Work must declare their intention to pursue the MPA/MSW dual degree at the time of their application. If admission is approved, such students will be admitted to the dual degree program. Social work students selecting this program are required to select the Community Organization, Planning and Administration concentration in their second year program.

Students must complete 82 units (54 in social work and 28 in public administration).

Social Work (54 Units)
Contact the USC Suzanne Dworak-Peck School of Social Work for Social Work requirements.

Public Administration (28 Units)
  • PPD 503 Economics for Public Policy Units: 4
  • PPD 504 Essential Statistics for Public Management Units: 2
  • PPD 540 Fundamentals of Public Administration Units: 4
  • PPD 546 Capstone in Public Administration Units: 4
  • PPDE 505 Professional Workshop in Public Administration Units: 2
Policy. Students are required to complete the concentration core program: Community Health Promotion and Health Services and Students may choose one of two concentrations in the MPH degree.

MPH Concentration Core Requirements

MPH Core Requirements
- PM 502 Foundations of Public Health Units: 4
- PM 503 Practice of Public Health Units: 4
- PM 510L Principles of Biostatistics Units: 4
- PM 512 Principles of Epidemiology Units: 4
- PM 596 Practicum in Public Health Units: 1
- PM 597 Capstone in Public Health Units: 1

MPH Concentration Core Requirements
Students may choose one of two concentrations in the MPH program: Community Health Promotion and Health Services and Policy. Students are required to complete the concentration core requirements (16 units) specific to their chosen concentration of study. Relevant courses taken in the Price School of Public Policy will be counted toward the MPH concentration elective requirement required by non-dual degree students. Students will complete a total of 34 units specific to the MPH program.

MPH Practicum Requirement
For PM 596, students will complete an internship specific to meet the competencies of the students' chosen concentration. Dual degree students will enroll in this 1-unit course and complete a 130-hour placement. The other 130 hours would be waived because students will spend 200 hours during their planning internship, acquiring additional relevant practical experience. (Note: This is consistent with the established dual degree programs with medicine, pharmacy, social work and clinical psychology).

Units required to complete program: 66

Master of Public Policy/Juris Doctor (MPP/JD)
The Price School of Public Policy and the USC Gould School of Law offer a dual degree that enables qualified students to earn both a Juris Doctor and a Master of Public Policy in approximately four years of study.

The dual degree allows students to acquire a blend of the analytic skills of public policy and an understanding of legal institutions and processes. This combination of knowledge is well suited for law students who want to affect the policy-making process and craft legislation to aid in the achievement of public policy goals. It is equally appropriate for prospective policy analysts who are interested in law and public policy.

Students must apply to, and be accepted by, both schools. They may be accepted to the dual degree at the time of their law school acceptance or during their first year in the law school. Dual degree students spend the first year completing law school curricular requirements. The 36 units of MPP curriculum, as well as remaining law school requirements, are completed during the final three years. To earn the JD, all students (including dual degree students) must complete 37 numerically graded law units at USC after the first year.

Prerequisites
All entering students must have a bachelor's degree from an accredited institution and are required to demonstrate proficiency in foundational statistical methods. The statistics prerequisite can be satisfied in one of two ways:

Statistics or Econometrics Course Taken Prior to Enrollment in the MPP
Completion of a college-level statistics or econometrics course with a grade of "B" or better within three years of matriculation. At minimum, prior course work must have included essential topics in descriptive and inferential statistics such as measures of central tendency and dispersion, confidence intervals, and hypothesis testing. If relevant statistical course work was completed more than three years prior, a waiver may be granted based on the level of statistical training completed and the degree to which currency with this material was maintained through subsequent professional use.

PPD 504 Essential Statistics for Public Management
If a student has not completed a college-level statistics course with a grade of "B" or better within three years of matriculation, they will need to complete a summer course prior to starting the MPP program. USC offers PPD 504 Essential Statistics for Public Management each summer, a grade of "C" or better in PPD 504 is sufficient to satisfy the statistics prerequisite. Students may instead choose to satisfy the requirement by completing a qualifying statistics course at another institution prior to enrolling at USC. If the course is completed outside of USC, it must be taken for a grade and the student must earn a grade of "B" or better. Regardless of which course is used to meet the prerequisite.
requirement, the units associated with the course will not be used toward the 114 required degree units.

Pre-semester MPP Labs
The Professional Fundamentals and Statistics/STATA Labs provide an introduction to the program, acclimate students to skills that will be further developed in their first-semester courses and help to create a genuine camaraderie within the first-year student cohort. Entering MPP students are required to participate in the Statistics/STATA Lab as well as the Professional Fundamentals Lab. The labs meet the week prior to the start of the fall semester. The Professional Fundamentals Lab will lead directly into PPD 554 Foundations of Policy Analysis, while the Statistics/STATA Lab will provide initial exposure to the statistical software that will be utilized extensively in PPD 558 Multivariate Statistical Analysis.

Degree Requirements
The Master of Public Policy/Juris Doctor degree requires 114 units of graduate work, with 78 law school units and 36 public policy units. The public policy units include 20 units of core courses, the 4-unit Policy Analysis Practicum and 12 additional elective units divided between analytic and policy elective areas.

Public Policy Core Courses (20 units)
- PPD 503 Economics for Public Policy Units: 4
- PPD 554 Foundations of Policy Analysis Units: 4
- PPD 555 Public Policy Formulation and Implementation Units: 4
- PPD 558 Multivariate Statistical Analysis Units: 4
- PPD 560 Methods for Policy Analysis Units: 4

Policy Analysis Practicum (4 units)
- PPD 561a Policy Analysis Practicum Units: 1
- PPD 561b Policy Analysis Practicum Units: 3

Note: *During a student's second year of policy course work, the Policy Analysis Practicum is required as a component of the program's 36 units of policy course work. The practicum is an opportunity for students to apply their skills to a current problem for an actual client. Enrollment in the practicum requires successful completion of all core course work.*

Analytic Electives (8 units):
- COMM 650 Survey Construction and Validation Units: 4
- PPD 542 Policy and Program Evaluation Units: 4
- PPD 587 Risk Analysis Units: 4
- PPD 647 Finance of the Public Sector Units: 4
- PPDE 636 Urban Spatial Ethnography and Critical Cartography Units: 4
- PPDE 660 Environmental Policy Design and Analysis Units: 4
- PPDE 661 Methods for Equity Analysis Units: 4
- PPDE 665 Economic Models and Applications for Impact Analysis Units: 4
- PPDE 688 Applied Econometrics for Program Evaluation Units: 4
- PPDE 671 Economic Analysis of Education Policy Units: 4
- PPDE 672 An Exploration of the Intelligence Community - from Policy to Cyber Espionage Units: 4
- SSCI 581 Concepts for Spatial Thinking Units: 4

Policy Specialization Elective (4 units)
The policy-related elective is chosen by the student under the guidance of the program administrator.

Master of Public Policy/Master of Urban Planning (MPP/MUP)
The Master of Public Policy/Master of Urban Planning dual degree program gives students the opportunity to develop a depth of analytic and design skills with which to effectively address the problems of urban communities. The dual degree program normally requires six semesters in residence.

Requirements
Completion of the dual degree requires 72 units.

Prerequisites
All entering students must have a bachelor's degree from an accredited institution and are required to demonstrate proficiency in foundational statistical methods. The statistics prerequisite can be satisfied in one of two ways:

Statistics or Econometrics Course Taken Prior to Enrollment in the MPP
Completion of a college-level statistics or econometrics course with a grade of "B" or better within three years of matriculation. At minimum, prior course work must have included essential topics in descriptive and inferential statistics such as measures of central tendency and dispersion, confidence intervals, and hypothesis testing. If relevant statistical coursework was completed more than three years prior, a waiver may be granted based on the level of statistical training completed and the degree to which currency with this material was maintained through subsequent professional use.

PPD 504 Essential Statistics for Public Management
If a student has not completed a college-level statistics course with a grade of "B" or better within three years of matriculation, they will need to complete a summer course prior to starting the MPP program. USC offers PPD 504 Essential Statistics for Public Management each summer; a grade of "C" or better in PPD 504 is sufficient to satisfy the statistics prerequisite. Students may instead choose to satisfy the requirement by completing a qualifying statistics course at another institution prior to enrolling at USC. If the course is completed outside of USC, it must be taken for a grade and the student must earn a grade of "B" or better. Regardless of which course is used to meet the prerequisite requirement, the units associated with the course will not be used toward the 72 required degree units.

Pre-semester MPP Labs
The Professional Fundamentals and Statistics/STATA Labs provide an introduction to the program, acclimate students to skills that will be further developed in their first-semester courses and help to create a genuine camaraderie within the first-year student cohort. Entering MPP students are required to participate in the Statistics/STATA Lab as well as the Professional Fundamentals Lab. The labs meet the week prior to the start of the fall semester. The Professional Fundamentals Lab will lead directly into PPD 554 Foundations of Policy Analysis, while the Statistics/STATA Lab will provide initial exposure to the statistical software that will be utilized extensively in PPD 558 Multivariate Statistical Analysis.

Dual Degree Requirements
The Master of Public Policy/Master of Urban Planning dual degree requires 72 units of graduate work, with 40 public policy units and 32 urban planning units. The public policy units include 20 units of core courses, the 4-unit Policy Analysis Practicum, and 16 additional elective units divided between analytic and policy elective areas.

Public Policy Core Courses (20 units)
- PPD 503 Economics for Public Policy Units: 4
- PPD 554 Foundations of Policy Analysis Units: 4
- PPD 555 Public Policy Formulation and Implementation Units: 4
- PPD 558 Multivariate Statistical Analysis Units: 4
- PPD 560 Methods for Policy Analysis Units: 4

Policy Analysis Practicum (4 units)
During a student's second year of the program, the Policy Analysis Practicum is required as a component of the program's 40 units of policy course work. The practicum is an opportunity for students to apply their skills to a current problem for an actual client. Enrollment in the practicum requires successful completion of all core coursework.
- PPD 561a Policy Analysis Practicum Units: 1
- PPD 561b Policy Analysis Practicum Units: 3
Analytic Electives (8 units)
- COMM 650 Survey Construction and Validation Units: 4
- PPD 542 Policy and Program Evaluation Units: 4
- PPD 587 Risk Analysis Units: 4
- PPD 647 Finance of the Public Sector Units: 4
- PPDE 636 Urban Spatial Ethnography and Critical Cartography Units: 4
- PPDE 660 Environmental Policy Design and Analysis Units: 4
- PPDE 661 Methods for Equity Analysis Units: 4
- PPDE 668 Applied Econometrics for Program Evaluation Units: 4
- PPDE 671 Economic Analysis of Education Policy Units: 4
- SSCI 581 Concepts for Spatial Thinking Units: 4
- PPDE 672 An Exploration of the Intelligence Community - from Policy to Cyber Espionage Units: 4
- PPDE 665 Economic Models and Applications for Impact Analysis Units: 4

Public Policy Electives (8 units)
Students select 8 units of policy-related electives under the guidance of the program administrator.

Urban Planning Courses
Students in this dual degree will take 32 units of urban planning coursework. Students must select one of the six available concentrations and select a gateway and methodology course associated with the concentration. Please see the Master of Urban Planning section of the catalogue for the concentration options.
- PPD 522 Planning Theory and History for a Just Society Units: 4
- PPD 523 Urban and International Development Units: 4
- PPD 528 Physical Planning: Urban and Community Design Units: 2
- PPD 529 Planning Law and Legal Frameworks of Planning Units: 2
- PPD 531L Planning Studio Units: 4, 8, 12 4 units required
- PPD 534 Data, Evidence, and Communication of the Public Good Units: 4
- PPD 629 Capstone in Urban Planning Units: 4

Concentration Courses (8 units)
Students choose one of the six available concentrations in the MUP program: Arts and Culture, Design of the Built Environment, Planning for Climate Change and Sustainability, Housing and Urban Development, Economic Development, and Mobility and Transportation Planning. Students are required to complete the concentration gateway and methodology requirements (8 units) specific to their selected concentration of study. Please see the Master of Urban Planning section of the catalogue for the concentration options.

Students in the dual MUP/MPP program do not need to take an additional 8 units of concentration electives as in the standalone MUP program due to the required electives in the MPP. Through advisement, students are encouraged to select elective courses that meet their interests and educational goals.

Additional Requirements
Internship
Dual degree students, like all other MUP students, must fulfill the internship requirement.

Master of Real Estate Development/Juris Doctor (MRED/JD)
The Juris Doctor/Master of Real Estate Development dual degree program provides the opportunity for in-depth study of legal issues and real estate development. The increasingly regulatory environment developers work within demands that professionals in the real estate industry have a strong understanding of the legal system. Lawyers who plan to specialize in real estate law will benefit from a thorough understanding of the development process, including financial, planning, marketing and design issues. Application must be made to both the USC Gould School of Law and the USC Price School of Public Policy. This program normally requires three years (including one summer) of full-time study in residence to complete.

Requirements for completion of the dual degree program are 112 units, including 78 units in law and 34 units in planning and development. To earn the JD, all students (including dual degree students) must complete 37 numerically graded law units at USC after the first year. The associate dean may make exceptions to this rule for students enrolled in law school honors programs.

Law School
- LAW 502 Procedure I Units: 2, 3, 4
- LAW 503 Contracts Units: 2, 3, 4
- LAW 504 Criminal Law Units: 3
- LAW 505 Legal Profession Units: 2, 3, 4
- LAW 507 Property Units: 2, 3, 4
- LAW 508 Constitutional Law: Structure Units: 2, 3, 4, 5
- LAW 509 Torts I Units: 2, 3, 4
- LAW 512 Law, Language and Values Units: 2, 3, 4
- LAW 515 Legal Research, Writing and Advocacy I Units: 2, 3
- LAW 516 Legal Research, Writing and Advocacy II Units: 2
- LAW electives including fulfillment of the upper division writing requirement and skills course Units: 45

Real Estate Development
- PPD 600 Intersectoral Leadership Units: 2
- PPD 501a Economics for Policy, Planning and Development Units: 2
- RED 509 Market Analysis for Real Estate Units: 4
- RED 542 Finance of Real Estate Development Units: 3
- RED 544 Real Estate Capital Markets Units: 2
- RED 546 Applications of Real Estate Finance to Problems of Development Units: 3
- RED 547 Project Management and Construction Units: 2
- RED 551 The Approval Process Units: 4
- RED 573 Design History and Criticism Units: 2
- RED 574 Building Typologies Units: 2
- RED 575L Community Design and Site Planning Units: 2, 3, 4
- RED 598 Real Estate Product Development Units: 2, 3, 4
- Elective from the Price School of Public Policy Units: 2

Additional Requirements
Students are required to complete a comprehensive examination administered by faculty members from both the law school and the Price School of Public Policy.

Students are required to complete a comprehensive examination administered by faculty members from both the law school and the Price School of Public Policy.

Students must have an approved laptop computer as required by instructors and must demonstrate calculator and spreadsheet skills.

Master of Real Estate Development/Master of Business Administration (MRED/MBA)
The Master of Real Estate Development/Master of Business Administration dual degree program enables students to expand their skills in planning, land development, marketing, decision sciences, accounting, management, finance and economics. The program is targeted for students who have a clear career goal of becoming real estate developers but who lack formal training in business. The program normally requires two years (including summers) of full-time study in residence to complete.

Requirements
A total of 82 units is required. Required courses include: all required courses in an MBA program: FBE 565 Economics of Urban Land Use: Feasibility Studies (3 units); FBE 588 Advanced Real Estate Law (3 units); graduate business electives sufficient to bring the total units completed in the USC Marshall School of Business to at least 48; and Policy, Planning, and Development courses (34 units). Dual degree students may not count courses taken outside the USC Marshall School of Business toward the...
48 units. Students must have an approved laptop computer as required by instructors and must demonstrate calculator and spreadsheet skills.

Real Estate Development
- PPD 500 Intersectoral Leadership Units: 2
- RED 509 Market Analysis for Real Estate Units: 4
- RED 542 Finance of Real Estate Development Units: 3
- RED 544 Real Estate Capital Markets Units: 2
- RED 546 Applications of Real Estate Finance to Problems of Development Units: 3
- RED 547 Project Management and Construction Units: 2
- RED 551 The Approval Process Units: 4
- RED 573 Design History and Criticism Units: 2
- RED 574 Building Typologies Units: 2
- RED 575L Community Design and Site Planning Units: 2, 3, 4
- RED 598 Real Estate Product Development Units: 2, 3, 4
- Elective from the Price School of Public Policy Units: 4

Additional Requirements
Comprehensive Examination: Students are required to complete a comprehensive examination administered by faculty members from both the Marshall School of Business and the Price School of Public Policy.

Master of Urban Planning/Master of Arts, Curatorial Practices and the Public Sphere (MUP/MA)
The Master of Urban Planning/Master of Arts, Curatorial Practices and the Public Sphere offers an unusually rich opportunity for students interested in developing a new knowledge base to become successful professionals working in the arena of organizing art projects in urban public space, planning and community development. Los Angeles and the facilities at USC provide a unique learning laboratory to educate a more competitive professional with a better understanding of both the administration of public art and issues of urban planning. This dual degree requires 58 units for completion, 26 in Roski and 32 in urban planning in Price.

Required Roski Courses
The following Roski courses are required for the degree (26 units):
- ART 515 Visiting Artist and Scholar Seminar Units: 2 (4 units required)
- CRIT 510 History and Theory of Art and Exhibitions Units: 4
- CRIT 512 Art and Curatorial Visits Units: 2
- CRIT 555 Methods of Curating: Introduction to Curatorial Practicum Units: 4
- CRIT 556 Curatorial Practicum: Individual/Group Projects Units: 4
- CRIT 557 Curatorial Practicum: Group Project Summation Units: 4
- CRIT 594a Master's Thesis Units: 2
- CRIT 594b Master's Thesis Units: 2

Required Urban Planning Courses
The following Planning courses are required for the degree (24 units):
- PPD 522 Planning Theory and History for a Just Society Units: 4
- PPD 523 Urban and International Development Units: 4
- PPD 528 Physical Planning: Urban and Community Design Units: 2
- PPD 529 Planning Law and Legal Frameworks of Planning Units: 2
- PPD 534 Data, Evidence, and Communication of the Public Good Units: 4
- PPD 531L Planning Studio Units: 4, 8, 12 (4 units required)
- PPD 629 Capstone in Urban Planning Units: 4

Concentration Courses (8 units)
There are six concentrations available in the Master of Urban Planning program: Arts and Culture, Design of the Built Environment, Planning for Climate Change and Sustainability, Housing and Real Estate Development, Economic Development, and Mobility and Transportation Planning. Students must select a concentration gateway and methodology course (4 units each, 8 units total). Please see the Master of Urban Planning section of the catalogue for the concentration descriptions and course lists.

Additional requirements for the dual degree
There are 400 hours of internship required for the degree, usually pursued in the summer of the second year (fifth and final semester).

Master of Urban Planning/Master of Public Administration (MUP/MPA)
The Master of Urban Planning/Master of Public Administration dual degree program is designed for the study of the relationships between planning and public administration. Administrative skills, budgeting and fiscal analysis, a knowledge of operations services of local governments, and formulation and conduct of planning operations within the context of municipal management are required. This dual degree program normally requires five semesters in residence.

Requirements
Requirements for completion of the dual degree program are 64 units, including 32 units in public administration (including 8 units of management and analytic electives) and 32 units in urban planning.

Public Administration
- PPD 503 Economics for Public Policy Units: 4
- PPD 504 Essential Statistics for Public Management Units: 2
- PPDE 505 Professional Workshop in Public Administration Units: 2
- PPD 540 Fundamentals of Public Administration Units: 4
- PPD 545 Public and Nonprofit Organizational Behavior Units: 4
- PPD 546 Capstone in Public Administration Units: 4
- PPD 541 Public Financial Management and Budgeting Units: 4 or
- PPDE 645 Financial Management of Nonprofit Organizations Units: 4

Electives
Students select one management elective (4 units) and one analytic elective (4 units) for a total of 8 units. Please see the Master of Public Administration for course options.

Urban Planning
- PPD 522 Planning Theory and History for a Just Society Units: 4
- PPD 523 Urban and International Development Units: 4
- PPD 528 Physical Planning: Urban and Community Design Units: 2
- PPD 529 Planning Law and Legal Frameworks of Planning Units: 2
- PPD 531L Planning Studio Units: 4, 8, 12 (4 units required)
- PPD 534 Data, Evidence, and Communication of the Public Good Units: 4
- PPD 629 Capstone in Urban Planning Units: 4

Concentrations
There are six concentrations available in the Master of Urban Planning program. They are as follows: Arts and Culture, Design of the Built Environment, Planning for Climate Change and Sustainability, Housing and Real Estate Development, Economic Development, and Mobility and Transportation Planning. Students must select a concentration gateway and methodology course (4 units each, 8 units total). Please see the Master of Urban Planning section of the catalogue for the concentration descriptions and course lists.
Master of Urban Planning/Master of Real Estate Development (MUP/MRED)

The Master of Urban Planning/Master of Real Estate Development dual degree program enables students to expand their skills in planning, land development, market analysis, finance and economics. Exposure to both fields becomes an educational as well as a professional asset for careers in either real estate development or urban planning. This dual degree program normally requires five semesters, including one summer, in residence.

Requirements

A total of 74 units is required for the dual degree, all from within the Price School of Public Policy.

Urban Planning Core

- PPD 522 Planning Theory and History for a Just Society Units: 4
- PPD 523 Urban and International Development Units: 4
- PPD 531L Planning Studio Units: 4, 8, 12 (4 units required)
- PPD 554 Data, Evidence, and Communication of the Public Good Units: 4

Concentrations

There are six concentrations available in the Master of Urban Planning program. They are as follows: Arts and Culture, Design of the Built Environment, Planning for Climate Change and Sustainability, Housing and Real Estate Development, Economic Development, and Mobility and Transportation Planning. Students must select a concentration gateway and methodology course (4 units each, 8 units total). Please see the Master of Urban Planning section of the catalogue for the concentration descriptions and course lists.

Real Estate Core

- PPD 500 Intersectoral Leadership Units: 2
- PPD 501A Economics for Policy, Planning and Development Units: 2
- RED 509 Market Analysis for Real Estate Units: 4
- RED 542 Finance of Real Estate Development Units: 3
- RED 544 Real Estate Capital Markets Units: 2
- RED 546 Applications of Real Estate Finance to Problems of Development Units: 3
- RED 547 Project Management and Construction Units: 2
- RED 551 The Approval Process Units: 4
- RED 562 Legal Issues in Real Estate Development Units: 4
- RED 573 Design History and Criticism Units: 2
- RED 574 Building Typologies Units: 2
- RED 575L Community Design and Site Planning Units: 2, 3, 4
- RED 598 Real Estate Product Development Units: 2, 3, 4

Additional Requirements

Electives: 14 additional units of elective courses taken within the Price School of Public Policy.

Students in this dual degree do not take the Urban Planning capstone but are required to complete the MRED comprehensive examination.

The internship requirement is waived for students who enter the program with professional experience in either planning, real estate or a related field.

Program Adaptation: MUP/MRED dual degree students may waive PPD 529 because RED 562 covers similar material. PPD 528 may also be waived for this dual because MRED students take three design courses which cover similar material (RED 573, RED 574 and RED 575L). Students in this dual also do not need to take PPD 629 (the MUP Capstone) as they will be required to take the MRED comprehensive exam.

Master of Urban Planning/Master of Social Work (MUP/MSW)

The dual degree program between the USC Suzanne Dworak-Peck School of Social Work and the USC Price School of Public Policy offers unique opportunities for students who want to devote their professional careers to social policy, social planning or social services delivery. Students with a dual degree will have broader employment options beyond those in traditional planning or social work.

The schedule of courses allows students to experience direct service in the first year so that course work planning is supplemented by a knowledge of consumers, service delivery, etc. Courses for both schools are taken simultaneously, intermingling social work and planning content. Two years of field practicums in social work provide in-depth exposure to social service issues from both planning and direct service perspectives, thus satisfying some of the planning laboratory/workshop requirements and eliminating the need for a separate planning internship requirement.

Requirements

Requirements for completion of the MSW/MUP degree are 83 units including 51 units in social work and 32 units in urban planning. Students must select a community organization, planning and administration concentration in the second year of their social work program.

Social Work

Contact the USC Suzanne Dworak-Peck School of Social Work for Social Work requirements.

Urban Planning

- PPD 522 Planning Theory and History for a Just Society Units: 4
- PPD 523 Urban and International Development Units: 4
- PPD 528 Physical Planning: Urban and Community Design Units: 2
- PPD 529 Planning Law and Legal Frameworks of Planning Units: 2
- PPD 531L Planning Studio Units: 4, 8, 12 (4 units required)
- PPD 534 Data, Evidence, and Communication of the Public Good Units: 4
- PPD 629 Capstone in Urban Planning Units: 4

Concentrations

There are six concentrations available in the Master of Urban Planning program. They are as follows: Arts and Culture, Design of the Built Environment, Planning for Climate Change and Sustainability, Housing and Real Estate Development, Economic Development, and Mobility and Transportation Planning. Students must select a concentration gateway and methodology course (4 units each, 8 units total). Dual degree students do not need to take concentration electives as they will complete elective units in Social Work. Please see the Urban Planning (MUP) entry in the catalogue for the concentration descriptions and course lists.

Additional Requirements

Dual degree students, like all other MUP students, must fulfill the internship requirement.

Urban Education Policy/Public Policy (PhD/MPP)

The Doctor of Philosophy in Urban Education Policy/Master of Public Policy dual degree offers students interested in careers in Educational Policy rigorous training in education, policy research and analysis. Students emerging with this dual degree will apply in-depth knowledge of policy processes, content and analysis to critical questions of contemporary education policy.

The PhD/MPP requires five calendar years of full-time study. The first academic year is devoted to MPP classes, the second to PhD classes, completion of the MPP practicum in the third year, PhD qualifying exam in the fourth year and the PhD dissertation in the fifth year.

Students can enter this program one of two ways: (1) apply simultaneously to both programs and state their intent to be admitted to the dual degree program; or (2) apply to the PhD during the first semester as an MPP student. If admission is approved by each school, students will be admitted to the dual degree program.
Student must complete 84 units (48 from the PhD in Urban Education Policy and 36 from the Master of Public Policy).

Degree Requirements for the PhD
The PhD in Urban Education Policy, adapted for the dual degree, requires a minimum of 48 units of course work, comprising the following elements: Core Block (16 units), Concentration Block (15 units), Research Block (12 units), and Dissertation Proposal and Dissertation Block (5 units).

Degree Requirements for the MPP
The Master of Public Policy, adapted for the dual degree, requires a total of 36 units. The public policy units include 24 units of core courses, the 4-unit Policy Analysis Practicum, and 8 units of analytic electives.

Prerequisites
All entering students must have a bachelor's degree from an accredited institution and are required to demonstrate proficiency in foundational statistical methods. The statistics prerequisite can be satisfied in one of two ways:

Statistics or Econometrics Course Taken Prior to Enrollment in the MPP
Completion of a college-level statistics or econometrics course with a grade of "B" or better within three years of matriculation. At a minimum, prior course work must have included essential topics in descriptive and inferential statistics such as measures of central tendency and dispersion, confidence intervals, and hypothesis testing. If relevant statistical course work was completed more than three years prior, a waiver may be granted based on the level of statistical training completed and the degree to which currency with this material was maintained through subsequent professional use.

PPD 504 Essential Statistics for Public Management
If a student has not completed a college-level statistics course with a grade of "B" or better within three years of matriculation, they will need to complete a summer course prior to starting the MPP program. USC offers PPD 504 Essential Statistics for Public Management each summer; a grade of "C" or better in PPD 504 is sufficient to satisfy the statistics prerequisite. Students may instead choose to satisfy the requirement by completing a qualifying statistics course at another institution prior to enrolling at USC. If the course is completed outside of USC, it must be taken for a grade and the student must earn a grade of "B" or better. Regardless of which course is used to meet the prerequisite requirement, the units associated with the course will not be used toward the 84 required degree units.

Pre-semester MPP Labs
The Professional Fundamentals and Statistics/STATA Labs provide an introduction to the program, acclimate students to skills that will be further developed in their first-semester courses and help to create a genuine camaraderie within the first-year student cohort. Entering MPP students are required to participate in the Statistics/STATA Lab as well as the Professional Fundamentals Lab. The labs meet the week prior to the start of the fall semester.

Public Policy Core Courses (24 units)
- PPD 503 Economics for Public Policy Units: 4
- PPD 554 Foundations of Policy Analysis Units: 4
- PPD 555 Public Policy Formulation and Implementation Units: 4
- PPD 558 Multivariate Statistical Analysis Units: 4
- PPD 560 Methods for Policy Analysis Units: 4
- PPDE 688 Applied Econometrics for Program Evaluation Units: 4

Policy Analysis Practicum (4 units)
- PPD 561a Policy Analysis Practicum Units: 1
- PPD 561b Policy Analysis Practicum Units: 3

Note: *During a student's second year of the program, the Policy Analysis Practicum is required as a component of the program's 36 units of policy course work. The practicum is an opportunity for students to apply their skills to a current problem for an actual client. Enrollment in the practicum requires successful completion of all core coursework.

Analytic Electives (8 units)
- COMM 650 Survey Construction and Validation Units: 4
- PPD 542 Policy and Program Evaluation Units: 4
- PPD 587 Risk Analysis Units: 4
- PPD 647 Finance of the Public Sector Units: 4
- PPDE 636 Urban Spatial Ethnography and Critical Cartography Units: 4
- PPDE 660 Environmental Policy Design and Analysis Units: 4
- PPDE 661 Methods for Equity Analysis Units: 4
- PPDE 665 Economic Models and Applications for Impact Analysis Units: 4
- PPDE 672 An Exploration of the Intelligence Community - from Policy to Cyber Espionage Units: 4
- SSCI 581 Concepts for Spatial Thinking Units: 4

Additional Requirements

Program Adaptation
Students in the dual degree are not required to take the 12-unit specialization elective requirement from the MPP program. Instead, they are required to take PPD 668 and 8 units of analytic course work/electives, and because they will specialize in educational policy, they will obtain the relevant expertise through the Rossier course work.

Students also do not take the 12-unit Cognate Block and 3 units of the 15-unit Research Block from the PhD program because the scope of these block requirements are interdisciplinary in nature or research-oriented, and as such are naturally suited to combine with the MPP.

Students work with their adviser to make the best selection of elective course work to align with their educational and career goals.

Graduate Certificate
City/County Management Certificate
The graduate Certificate in City/County Management is for students interested in acquiring the foundational training needed to pursue a career in public service leadership and provides students with the necessary knowledge, training and skills development that will ensure their professional success as a future city/county manager.

The Certificate in City/County Management consists of 16 units of graduate course work.

Required Courses (16 Units)
- PPD 541 Public Financial Management and Budgeting Units: 4
- PPD 542 Policy and Program Evaluation Units: 4
- PPD 651 Seminar in the Administration of Local Government Units: 4
- PPD 672 Collaborative Governance Units: 4

Additional Requirements

Admission Requirements and Application Procedures
Applicants for the Certificate in City/County Management who are currently enrolled in a graduate program at USC and are in good standing with a 3.0 GPA only need to submit the appropriate paperwork for adding the certificate program, which may be obtained from the program administrator.

Applicants for the Certificate in City/County Management who have not matriculated at USC must make a formal application.
for admission to the certificate program; provide transcripts of all college work, a resume and one letter of recommendation. Please contact the USC Price Office of Admissions at uscprice@usc.edu for more information.

Health Management and Policy Programs Certificate

The Health Management and Policy Programs of the Price School of Public Policy offers certificate programs in specialized areas of health care administration. The certificates are designed to provide practitioners with means for improving or updating their knowledge and experience in a challenging and professionally relevant course of study. Certificates are offered in Administration of Long Term Care Programs and Management of Ambulatory Care Systems. Applicants for the certificate programs must make formal application for admission to the certificate program, provide transcripts of all college work, supplemented by three letters of recommendation, including one from a former instructor, a resume and a personal statement describing their career goals and the relationship of the certificate to those ends.

It is expected that applicants to the certificate programs should have graduated from a recognized college with an approximate grade point average of B in the last 60 units of college work. Nongraduates may be admitted if the director believes that there is evidence to suggest that the applicant is capable of graduate level work.

Successful completion of the certificate will not be a deciding factor in the admission decision for the degrees offered by the Health Management and Policy Programs or the Price School of Public Policy.

Ambulatory Care

The Ambulatory Care program requires 20 units of graduate credit including a 16-unit core and a four-unit specialized seminar in the area of the certificate concentration.

Core courses (16 units) are:

- PPD 509 Problems and Issues in the Health Field Units: 4
- PPD 510a Financial Management of Health Services Units: 4 or
- PPD 516 Financial Accounting for Health Care Organizations Units: 4
- PPD 545 Public and Nonprofit Organizational Behavior Units: 4 or
- PPD 557 Modeling and Operations Research Units: 4
- one elective

One specialized seminar as follows (four units):

- PPD 600 Management of Managed Care Organizations Units: 2
- PPD 601 Management of Long-Term Care Organizations Units: 4
- GER 550 Administration and System Management in Programs for Older Adults Units: 4

Certificate in Administration of Long Term Care Programs

The Certificate in Administration of Long Term Care Programs requires 16 units of course work

The required courses are:

- GER 500 Perspectives on a Changing Society: An Introduction to Aging Units: 4
- PPD 513 Legal Issues in Health Care Delivery Units: 2
- PPD 518 Quality of Care Concepts Units: 2
- PPD 601 Management of Long-Term Care Organizations Units: 4
- PPD 510a Financial Management of Health Services Units: 4 or
- PPDE 645 Financial Management of Nonprofit Organizations Units: 4

Note:

The program can be completed via distance learning.

Additional Requirements

Completing a certificate program does not constitute completion of or admission to the Master of Health Administration (MHA) or Executive Master of Health Administration (EMHA) degree programs nor will it be a deciding factor in the admission decision to those programs. Students in the MHA program, however, may qualify for award of these certificates if they complete the applicable course requirements.

Homeland Security and Public Policy Certificate

This graduate certificate program provides students with a foundation in homeland security and public policy. It is designed to provide expertise to individuals working in the field with an interest in refining their risk and security analysis skills as well as others with interest in the field. The certificate develops risk analysis skills and provides students with the knowledge needed to understand the issues surrounding the increasingly important issues of homeland security and public policy.

Applicants for the Certificate in Homeland Security and Public Policy who are currently enrolled in a graduate program at USC in good standing with a 3.0 GPA only need to submit the appropriate paperwork for adding the certificate program which may be obtained from the student services adviser. Applicants for the Certificate in Homeland Security and Public Policy who have not matriculated at USC must make a formal application for admission to the certificate program, provide transcripts of all college work, a resume and one letter of recommendation.

The certificate in homeland security and public policy consists of 15–16 units of graduate course work depending on the courses selected.

Required Core Course (8 units)

- PPD 883 Homeland Security and Public Policy Units: 4
- PPD 587 Risk Analysis Units: 4

Choose two of the following (7-8 units):

- PPD 503 Economics for Public Policy Units: 4
- PPDE 670 American Contemporary Homegrown Violent Extremism Units: 4
- PPDE 672 An Exploration of the Intelligence Community - from Policy to Cyber Espionage Units: 4
- PPDE 557 Modeling and Operations Research Units: 4 or
- ISE 562 Decision Analysis Units: 3

International Policy and Planning Certificate

The Graduate Certificate in International Policy and Planning strengthens students’ understanding of global policy, planning and public management issues underscoring comparative differences in policy approaches and governance institutions across countries, builds a core foundation of knowledge about the governing institutions and agreements that operate on a global level, and prepares students for working in international organizations.

The professions of graduate students in the Price School (public administration, public policy, urban planning, health policy and management, and real estate development) are globalizing. To analyze and understand the impact of globalization on their chosen field and to be competitive in a global context, emerging leaders in these professions should be conversant in thinking and operating on a global scale. Earning this certificate better prepares students for the professional demands of the globalized era.

The Certificate in International Policy and Planning consists of 14 units of graduate course work.
Required Courses (8 units)
Core Courses (8 units)
- PPD 677 International Development Administration Units: 4
- Plus one of the following (4 units):
  - PPD 531L Planning Studio Units: 4, 8, 12
  - PPD 532L International Planning and Development Laboratory Workshop Units: 4, 5, 6, 7, 8
  - PPD 613a Policy, Planning, and Development International Laboratory Units: 1
  - PPD 613b Policy, Planning, and Development International Laboratory Units: 3

Note:
*If students select PPD 613a and PPD 613b, both must be completed.

Elective Courses (6 units)
Students select at least 6 units of elective courses. The elective courses may be taken from within the Price School of Public Policy course offerings or other USC units. The electives will be selected from three topic areas: international development; urbanization, policy issues and sustainability; and global health. The electives will be selected in consultation with and approved by the faculty adviser for the certificate program. The electives should be chosen such that the combination of core classes and electives produces a well-rounded and rigorous preparation for professional practice in a globalized context.

Additional Requirements
Admission Requirements and Application Procedures
Applicants for the Certificate in International Policy and Planning who are currently enrolled in a graduate program at USC and are in good standing with a 3.0 GPA only need to submit the appropriate paperwork for adding the certificate program, which may be obtained from the program administrator.
Applicants for the Certificate in International Policy and Planning who have not matriculated at USC must make a formal application for admission to the certificate program; provide transcripts of all college work, a resume and one letter of recommendation.
Please contact the USC Price Office of Admissions at uscprice@usc.edu for more information.

Nonprofit Management and Policy Certificate
This graduate certificate program provides students with a foundation in nonprofit management and policy. The certificate develops nonprofit management skills and provides students the knowledge needed to understand the increasing importance of nonprofits in society and their role in forming and influencing public policy.
Applicants for the Certificate in Nonprofit Management and Policy who are currently enrolled in a graduate program at USC and are in good standing with a 3.0 GPA only need to submit the appropriate paperwork for adding the certificate program, which may be obtained from the student services adviser.
Applicants for the Certificate in Nonprofit Management and Policy who have not matriculated at USC must make a formal application for admission to the certificate program, provide transcripts of all college work, a resume and one letter of recommendation.
The certificate in nonprofit management and policy consists of 16 units of graduate course work.

Core Courses (12 Units)
- PPD 675 Nonprofit Management and Leadership Units: 4
- PPD 687 Strategic Management in the Nonprofit Sector Units: 4
- PPD 689 The Nonprofit Sector and Philanthropy Units: 4

Additional Requirements
Elective Course
Students select 4 elective units. The elective course(s) may be taken from within the Price School of Public Policy course offerings or other USC units. The elective selection must be approved by the faculty adviser for the certificate program.
Up to 10 units of the certificate may be applied to both the certificate and the core requirements or electives in the Master of Public Administration program. Up to 12 units may be applied toward both the certificate and the core or electives in the Master of Public Policy program.
The Master of Public Administration director will provide advisement.

Political Management Certificate
This graduate certificate program provides students with a foundation in political management. It is designed to provide expertise for students who wish to work in public policy advocacy, in political relations, with elected officials and with the public, nonprofit or private sectors.
Applicants who are currently enrolled in a graduate program at USC and are in good standing with a 3.0 GPA only need to submit the appropriate paperwork for adding the certificate program which may be obtained from the student services adviser.
Applicants who have not matriculated at USC must make a formal application for admission to the certificate program, as well as provide transcripts of all college work, a resume and one letter of recommendation.
The Certificate in Political Management consists of 14–16 units of graduate course work depending on the courses selected.

Core Course (4 Units)
- PPD 540 Fundamentals of Public Administration Units: 4

Foundation Course (2-4 Units)
Select one:
- PPD 554 Foundations of Policy Analysis Units: 4
- PPD 559 Fundamentals of Public Administration Units: 6

Choose Two of the Following (8 Units)
- PPD 658 Advocacy in Public Administration Units: 4
- PPD 656 Political Management: Theory and Applied Techniques Units: 4
- PPD 657 Political Leadership in Public Organizations Units: 4
- PPD 693 Communicating Public Policy Units: 4

Note:
Up to 10 units of the certificate may be applied toward both the certificate and to the core requirements or electives in the Master of Public Administration. Up to 12 units may be applied toward both the certificate and toward core or electives in the Master of Public Policy or Master of Planning.
The director of the graduate programs in public policy and management will provide advisement.

Public Financial Management Certificate
Complex social and economic climates - at the national, state, and local level - make sound public financial management essential to the fiscal sustainability and growth of communities everywhere. This graduate certificate program provides students with the skills to analyze financial information, assess public sector finance systems, prepare and manage budgets, and ensure the financial accountability of public organizations.

Required Courses
Complete each of the following courses (12 units):
- PPD 503 Economics for Public Policy Units: 4
• PPD 541 Public Financial Management and Budgeting Units: 4
• PPD 647 Finance of the Public Sector Units: 4

Elective Courses
Complete one of the following (4 units):
• PPD 624 Local Economic Development: Theory and Finance Units: 4
• PPD 625 Planning and Economic Development Finance Units: 4
• PPD 652 Financial Administration in Local Government Units: 4

Note
Course substitutions are permitted with advanced approval of the program director. Any of the above courses taken to satisfy normal degree requirements count also toward this certificate requirements up to the university’s maximum double counting rules.

Public Management Certificate
This program provides students with a solid foundation of training and skills in management. Individuals who need training in public administration but who are unable to enroll for the Master of Public Administration (MPA) degree may find this certificate program of particular interest. Key to the program’s success is the close integration of the academic curriculum and the application of skills and theory to managerial work assignments. Students may enroll at any time throughout the year.

The program consists of four courses:
• PPD 540 Fundamentals of Public Administration Units: 4
• PPD 542 Policy and Program Evaluation Units: 4
• PPD 545 Public and Nonprofit Organizational Behavior Units: 4
• and one elective selected from any 500-level offering in the Price curriculum.

Public Policy Certificate
This graduate certificate program provides students with a foundation in public policy analysis. It is designed to provide expertise in public policy to individuals who do not want to pursue the Master of Public Policy degree. Potential students include those who are pursuing another degree and want to complement that work with a specialization in public policy, as well as qualified students holding a bachelor’s degree who have not matriculated at USC. The certificate develops policy analytic skills and their integration with a policy issue area of interest to the student.

Applicants for the Certificate in Public Policy who have not matriculated at USC must make a formal application for admission to the certificate program, provide transcripts of all college work, a resume and one letter of recommendation.

The program consists of 16 units of graduate course work.

Core Courses (12 Units)
• PPD 503 Economics for Public Policy Units: 4
• PPD 554 Foundations of Policy Analysis Units: 4
• PPD 555 Public Policy Formulation and Implementation Units: 4

Choose one course from a policy area (4 Units)
There are many policy issues courses from which to choose (e.g., health, nonprofit, transportation, environment, housing).
The Master of Public Policy director will provide advisement.

Real Estate Development Certificate
This graduate certificate program provides students with a foundation of the key elements of real estate development. It is designed to provide these foundations for non-Master of Real Estate Development students who wish to obtain this knowledge to complement their graduate program of study as well as their careers. For admissions information, visit the Price School Website.

The certificate in real estate development consists of 12 units of graduate course work: RED 510, RED 511, and RED 512.

Social Innovation Certificate
Persistent social problems such as concentrated poverty, environmental degradation, and income inequality demand innovative new solutions to addressing these issues and improving the quality of life for all members of society. This certificate prepares future social innovators to design innovative policy solutions, create social enterprises and develop new financial tools to speed the pace of social innovation.

Students will take 13-15* units of course work depending on the electives chosen. There are two required courses (7 units) and students select two elective courses.

*Total unit value depends on elective courses selected.

Required Courses
• BAEP 591 Social Entrepreneurship Units: 2, 3
• PPDE 580 Social Innovation Units: 4

Electives (Student Select Two)
*Students select two electives. Price courses are 4 units. Marshall courses are 3 units. Therefore, the total unit value completed for the certificate will vary depending on the courses selected.
• BAEP 564 Investing in Impact Ventures Units: 3
• MOR 555 Designing High Performance Organizations Units: 3
• MOR 566 Environmental Sustainability and Competitive Advantage Units: 1.5, 3
• PPD 665 Contemporary Issues in Philanthropy Units: 4
• PPD 688 Business and Public Policy Units: 4
• PPD 689 The Nonprofit Sector and Philanthropy Units: 4
• PPDE 683 Social Finance and Development Units: 4

Social Justice Certificate
The graduate certificate in Social Justice is for students interested in understanding the set of factors that contribute to a broad range of disparities (or inequities) and the challenges that exist when managing, planning and policy making among diverse populations. The course work in this certificate focuses on the theories and analytic tools that are needed to assess issues in social justice.

The certificate in Social Justice consists of 12 units of graduate course work.

Core Courses (8 units)
Students will take two core courses.
• PPDE 664 Seminar in Social Justice and Public Policy Units: 4
• PPD 616 Participatory Methods in Planning and Policy Units: 4
or
• PPDE 661 Methods for Equity Analysis Units: 4

Elective Course
Students select one 4-unit elective course from the following:
• AMST 580 Readings on Race and Ethnicity Units: 4
• AMST 580 Readings in Cultural Studies Units: 4
• COMM 653 Research, Practice and Social Change Units: 4
• PPD 606 Urban Health Policy Units: 4
• PPD 616 Participatory Methods in Planning and Policy Units: 4 *
• PPD 617 Urban Demography and Growth Units: 4
• PPD 618 Housing Facilities and Community Development Units: 4
• PPD 628 Urban Planning and Social Policy Units: 4
• PPD 686 U.S. Immigration Policy Units: 4
• PPD 690 Alternative Dispute Resolution Units: 4
• PPDE 636 Urban Spatial Ethnography and Critical Cartography Units: 4
• PPDE 661 Methods for Equity Analysis Units: 4 *
• PPDE 663 Media for Policy Change Units: 4
• SOCI 642 Sex and Gender in Society Units: 4
Note:
* Students will take PPD 616 or PPDE 661 as their methodology course for the certificate. They may select the alternate course to satisfy the elective requirement but can not double count either course for this program.

Sustainable Policy and Planning Certificate
This graduate certificate program provides students with a foundation in policy and planning issues in sustainability and the environment. The certificate develops analytic and methodological skills and provides students the knowledge to understand the increasing importance of issues surrounding the environment and sustainability in policy and planning.

For admissions information, please visit the Price website. The Department of Urban Planning and Spatial Analysis will provide advisement.

The Certificate in Sustainable Policy and Planning consists of 12-15 units of graduate course work:

Required Courses (8 units)
Students take PPDE 634 and either PPDE 660 or PPDE 665.
- PPDE 634 Methodology, Methods and Tools for Urban Sustainability Units: 2, 3, 4 (4 units required)
- PPDE 660 Environmental Policy Design and Analysis Units: 4 or
- PPDE 665 Economic Models and Applications for Impact Analysis Units: 4

Elective Courses (4-7 units)
Students select 4 to 7 units of electives.
- ARCH 519 Sustainability in the Environment: Infrastructures, Urban Landscapes, and Buildings Units: 3 *
- ENE 502 Environmental and Regulatory Compliance Units: 4 *
- ENE 505 Energy and the Environment Units: 4 *
- GEOL 525 The Science of Climate Change Units: 4
- MOR 566 Environmental Sustainability and Competitive Advantage Units: 1.5, 3 *
- PPD 587 Risk Analysis Units: 4
- PPD 619 Smart Growth and Urban Sprawl: Policy Debates and Planning Solutions Units: 4
- PPD 621 Environmental Impacts Units: 4
- PPD 690 Alternative Dispute Resolution Units: 4
- PPD 692 Transportation and the Environment Units: 4
- PPD 694 Coastal Policy and Planning Units: 4
- PPD 632 Sustainable Cities Units: 4
- PPD 640 Climate, Sustainability and Environmental Planning Units: 4
- PPD 644 Land Use and Transportation Planning Units: 4

Note:
*If students select 3-unit courses, they will take 6-7 units of electives. Others will take 4.

Transportation Planning Certificate
With more people living in cities and urban areas than ever before, transportation systems and planning are critical to managing sustainability and the demands of a rapidly growing population.

The Certificate in Transportation Planning is an interdisciplinary program administered by the USC Sol Price School of Public Policy. Combining transportation planning with transportation policy and project management, this certificate program is especially appropriate for students intending to pursue careers as transportation professionals who will design or implement transportation policies and plans, whether within government agencies, the private sector or with non-profit organizations.

The certificate consists of 12 units of course work.

Required Courses (8 units)
- PPD 633 Methods and Modeling Tools for Transportation Planning Units: 4
- PPD 634 Institutional and Policy Issues in Transportation Planning Units: 4

Elective Courses (4 units)
Students select one elective course from the list below.
- PPD 557 Modeling and Operations Research Units: 4
- PPD 621 Environmental Impacts Units: 4
- PPDE 630 Community Health Planning Units: 4
- PPDE 637 Urban Mass Transit Units: 4
- PPDE 640 Climate, Sustainability and Environmental Planning Units: 4
- PPDE 644 Land Use and Transportation Planning Units: 4

Doctoral Degree
Policy, Planning, and Development (DPPD)
The USC Price Doctor of Policy, Planning, and Development offers established professionals in the public, private and nonprofit sectors a high level academic experience to enhance their leadership capabilities, to develop their capacities in social change and innovation, and to extend their knowledge of policy, administration, planning and development. Through their interaction with Price faculty and advanced practitioners, including members of their cohort, participants in the program will become more adaptive agents of change as they address the most complex and challenging governance problems of our times.

The goals of the DPPD are: to create a unique educational environment that will forge advanced professionals into a cadre for effective social, political and economic change; to develop professionals who can apply new policy, planning and administrative tools to design and implement new and integrative public policies; to establish and impart a new set of problem-solving paradigms for examining and altering decision making; and to equip professionals with sophisticated analytical tools and a sharper global and cultural awareness.

The DPPD offers a rigorous curriculum, an applied approach and an interdisciplinary course of study that provides knowledge, practice-based skills, and research capabilities for today’s leaders. Moreover, the program prepares advanced professionals to provide change leadership in social innovation, particularly in urban communities. Doctoral candidates will specialize in a particular domain, one often cutting across disciplinary boundaries, that enables students to align their research and doctoral thesis with their professional and intellectual interests.

Applicants are expected to hold a master's degree in planning, public policy, public administration, leadership, real estate development or a closely related field. Applicants without master’s degrees in other fields will be expected to complete foundation courses prior to entering the degree core courses in consultation with the appropriate degree director. Those admitted without advanced standing complete a total of 60 units.

Prerequisite
Applicants are required to have a basic competence in descriptive and inferential statistics. This prerequisite may be met in one of two ways: (1) entering students must have passed a college level inferential statistics class, with a grade of "B" or better, at an approved university within three years of matriculation or (2) take PPD 502 Statistical Foundations for Public Management and Policy and complete with a grade of "B" or better. If students select to take PPD 502, the units associated with this class may not be used toward the DPPD degree.

Professional Advisory Committee
By the end of the second year of study, the student will form a three-member Professional Advisory Committee consisting of three persons. The chair of the committee will be a full-time USC Price faculty member (tenured, tenure-track or full-time teaching or research faculty member). However, other committee members may include either faculty or professionals in the field of the student's area of interest. This committee will oversee the student's program to its conclusion. One member of the committee needs to be a tenure-track or tenured professor at USC.
Curriculum Requirements

The DPPD program is administered by the Price School of Public Policy. A minimum of 60 units of course work beyond the baccalaureate is required for a doctoral degree including research courses and 4 units of doctoral dissertation. A minimum of 36 units of course work beyond the first graduate degree, exclusive of dissertation units, is required for doctoral degree students admitted with Advanced Standing. If a student enters with a related master’s degree, he or she may be admitted with advanced standing and complete a minimum of 40 units.

Foundation Courses (20 units)

Up to 20 units of foundation courses are required for students admitted without advanced standing. These courses may be taken from the school’s master’s degree programs or, with prior approval, from other USC graduate programs.

Required Courses

Students are required to complete 16 units of required core courses, 4 units of methodology, 16 units of field coursework, and 4 units of professional dissertation (PLUS 694a PLUS 694b PLUS 694c PLUS 694d PLUS 694z).

Core Courses (16 units)

- PLUS 650 Public Policy and Globalization Units: 4
- PLUS 651 Applied Research Design and Inquiry Units: 4
- PLUS 652 Place, Institutions, and Governance Units: 4
- PLUS 653 Leading Change and Innovation in Urban Communities Units: 4

Methodology Course (4 units)

Students select one 4-unit methods course, to be determined and approved by the student's professional advisory committee.

Field of Study (16 units)

In consultation with their faculty adviser and Professional Advisory Committee, students will craft the field of study and identify associated courses related to their professional area of interest. The field may or may not reflect standard academic boundaries and we expect most fields would cut across traditional disciplinary boundaries. Students should take advantage of USC’s resources in developing the field, especially taking into consideration the relationship of practice to theory. The field of study should be seen as providing the tools for effective practice in the student’s area of interest. Sixteen units of course work are required for the field of study, of which 8 may be taken outside the Price School of Public Policy. Four units of the 16 units of field courses should be directed research with the student's Professional Advisory Committee Chair, to prepare for writing the professional dissertation.

Qualifying Exam

Students will hold a formal defense of their dissertation topic at the end of year three as the qualifying examination. Upon successful completion, students advance to doctoral candidacy and enroll in PLUS 694a, PLUS 694b, PLUS 694c, PLUS 694d and PLUS 694z.

Dissertation (4 units)

The professional dissertation is a research-based study of a policy issue, an administrative process, or other element of professional practice. Students are expected to enroll in PLUS 694a, PLUS 694b, PLUS 694c, PLUS 694d and PLUS 694z in fall and spring semesters for a minimum of four units, typically with their cohort, once they have defended a professional dissertation proposal. PLUS 694a, PLUS 694b, PLUS 694c, PLUS 694d and PLUS 694z will be taken in year four to satisfy this requirement.

Each professional dissertation should be designed to present an innovative or original contribution to the world of practice, and is expected to be a substantial work that satisfies the rigorous standards of academic research and creativity. It is likely that dissertations will cut across various fields and disciplines. The parameters of the professional dissertation are intentionally left open, allowing the project to be produced as solely text, or text in conjunction with film, computer program, design or other multimedia format.

The dissertation is supervised by the student's Professional Advisory Committee. Students must then maintain continuous registration in the PLUS 694a, PLUS 694b, PLUS 694c, PLUS 694d and PLUS 694z series until completion of the professional dissertation. Upon completion of an approved draft of the dissertation, students will present their findings in an open session but the Professional Advisory Committee will be the sole evaluator.

General Requirements

The DPPD is administered by the Price School of Public Policy. At least 24 units must be fulfilled in residence at USC. The total length of study must not exceed six academic years. Policies regarding time limits, leaves of absence, scholarship standing, academic warning and other issues not directly addressed here are consistent with those of the Graduate School.

Public Policy and Management (PhD)

The Price School offers two PhD programs. Both the Doctor of Philosophy (PhD) in Public Policy and Management and the Doctor of Philosophy (PhD) in Urban Planning and Development degree programs are under the jurisdiction of the Graduate School. Students should also refer to Graduate and Professional Education and The Graduate School sections of this catalogue for general regulations. All courses applied toward the degrees must be courses accepted by The Graduate School.

This PhD program in the Price School emphasizes a rigorous program of advanced study and research, stressing qualitative or quantitative analysis and the theoretical foundations of their field of study. This program is designed to provide students with the opportunity to develop their own specialization and expertise in their major field while also offering a breadth of knowledge in an especially rich intellectual environment.

Curriculum Requirements

Theoretical Core (11-12 Units)*

- PPD 711 Theoretical Foundation of Public Management Units: 4
- PPD 712 Seminar in Public Policy Units: 4
- PPD 715 Political Economy and Institutional Analysis Units: 4 *

Note:

*Students may petition to substitute PPD 715 with a different theory course derived from a discipline. Examples include MOR 602, ECON 500, etc.

Methodology (20 units):

- PPD 706 Paradigms of Research and the Design of Inquiry Units: 4
- PPD 558 Multivariate Statistical Analysis Units: 4 or ECON 513 Practice of Econometrics Units: 4
- PPD 716 Econometrics for Policy, Planning and Management I Units: 4 *
- PPD 717 Econometrics for Policy, Planning and Management II Units: 4 *
- PPDE 668 Applied Econometrics for Program Evaluation Units: 4 *

Note:

*Students may petition to substitute PPDE 688, PPD 716, PPD 717 with different methodology courses with the approval of the faculty adviser or qualifying exam chair (if applicable), and the PhD director. Students with master’s degrees and who have taken an equivalent course to PPD 558 may petition to substitute this course requirement with another methodology course.

Field Courses (12 units)

Students select 12 units of field courses that can be used to develop disciplinary expertise related to specialization interest or additional methodological expertise. Fields are developed with qualifying exam committee approval, can include any combination of the Price School and outside courses and are unique to each student.
Directed Research (4 units)
Students will enroll in four units of directed research during their first year (2 units fall and 2 units spring). This will ensure they get involved in a research experience during their first year with faculty mentors.
- PPD 790 Research Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12

Research Seminar (4 units)
Students will take PPD 710a, PPD 710b (2 units each, 4 total units), the Price School research seminar course.
- PPD 710a Research Seminar Units: 2
- PPD 710b Research Seminar Units: 2

Teaching Seminar (2 units)
Students will take one semester of the teaching seminar:
- PPD 700 Teaching Seminar (2 units)
Students entering the doctoral program without a relevant master's degree in public administration or public policy or a related field will be required to complete prerequisites (10-11 units) relevant to their program as determined by their faculty adviser.

Additional Requirements
Admission with Advanced Standing
Students entering the doctoral program with a master’s degree from an accredited institution in public management/administration, public policy, planning, or urban development or related field may be admitted with advanced standing to either PhD program. In the Public Policy and Management program, students must complete a minimum of 53-54 units of doctoral classes beyond that graduate degree, exclusive of PPD 794a Doctoral Dissertation, PPD 794b Doctoral Dissertation, PPD 794c Doctoral Dissertation, PPD 794d Doctoral Dissertation, PPD 794z Doctoral Dissertation units, for a minimum of 57-58 semester units. In the Urban Planning and Development program, students must complete a minimum of 54 units of doctoral classes beyond that graduate degree, exclusive of PPD 794a Doctoral Dissertation, PPD 794b Doctoral Dissertation, PPD 794c Doctoral Dissertation, PPD 794d Doctoral Dissertation, PPD 794z Doctoral Dissertation units, for a minimum of 58 semester units. Additional course work may be required if deemed necessary by the student’s faculty following the screening examination.
A maximum of 6 units of transfer credit may be applied toward a doctoral degree with advanced standing and with the approval of the faculty adviser or PhD director. Only course work not used to complete the master’s degree described above is available for transfer credit. No exceptions are allowed.

Qualifying Exam Committee
Students will form an initial qualifying exam committee by the end of the first fall semester, which officially oversees the development of the student’s academic program through the qualifying examination. Students should refer to the Graduate School section regarding the qualifying exam committee and the outside member. The complete qualifying exam committee must be in place no later than the third semester.

Screening Procedures
Students must have a 3.3 overall GPA in first-year courses to continue in the program.

Work Plans
At the end of each spring semester, the student submits an academic work plan for the coming year to his or her qualifying exam committee chair. The plan should include courses, degree progress, seminar attendance and what was learned from those, and a research plan that articulates the major research questions being explored. At the conclusion of year one, the chair reviews and approves the work plan and at the end of year two, the chair reviews the work plan and the second year paper.

Qualifying Examination
The qualifying exam committee prepares a comprehensive written examination covering the fields of study. Following completion of the written portion, the entire committee conducts an oral examination of the student, focusing on material both complementary and supplementary to the written examination but relevant to the field and overall program selected by the student. Upon passing both portions of the qualifying examination, the student becomes a candidate for the Doctor of Philosophy degree. The qualifying exam will occur in the fall semester of year three.

Proposal Defense
Students are expected to have a proposal defense by the end of their third year after passing the qualifying exam.

Doctoral Dissertation
The dissertation is based on original research. The research is supervised by a dissertation committee of three or more faculty members. Students should refer to the Graduate School section regarding the dissertation committee. A two-semester minimum registration in PPD 794a, PPD 794b, PPD 794c, PPD 794d, PPD 794z is required of all candidates. Students must maintain continuous registration until completion of the dissertation.

Defense of the Dissertation
Oral defense of the dissertation before the dissertation committee is usually made on a preliminary draft.

Format for Theses and Dissertations
All theses and dissertations submitted in fulfillment of requirements for graduate degrees must conform to university regulations with regard to format and method of preparation. Regulations for Format and Presentation of Theses and Dissertations is available from the Graduate School Website.

General Requirements
Refer to the Graduate School section in this catalogue for policies regarding time limits, leave of absence, scholarship standing and probation.

Urban Planning and Development (PhD)
The Price School offers two PhD programs. Both the Doctor of Philosophy (PhD) in Public Policy and Management and the Doctor of Philosophy (PhD) in Urban Planning and Development degree programs are under the jurisdiction of the Graduate School. Students should also refer to Graduate and Professional Education and The Graduate School sections of this catalogue for general regulations. All courses applied toward the degrees must be courses accepted by The Graduate School.
The PhD programs in the Price School both emphasize rigorous programs of advanced study and research, stressing qualitative or quantitative analysis and the theoretical foundations of their field of study. The programs are designed to provide students with the opportunity to develop their own specialization and expertise in either major field — public policy and management or urban planning and development — while also offering them a breadth of knowledge in an especially rich intellectual environment.

Curriculum Requirements
The Doctor of Philosophy in Public Policy and Management and the Doctor of Philosophy in Urban Planning and Development are administered by the doctoral committee of the school. The PhD program in Public Policy and Management requires the completion of 64 units of course work, comprising the following elements outlined below:

PhD, Urban Planning and Development
Core Curriculum

Theoretical Core (8 Units)
- PPD 713 Advanced Planning Theory Units: 4
- PPD 714 Advanced Urban Development Units: 4

Methodology (20 units)
- PPD 558 Multivariate Statistical Analysis Units: 4
- PPD 706 Paradigms of Research and the Design of Inquiry Units: 4
- PPD 708 Qualitative Methods Units: 4
- PPDE 668 Applied Econometrics for Program Evaluation Units: 4
- One additional methods courses selected with qualifying exam committee approval Units: 4
Note:
Students may petition to substitute PPD 708, PPDE 668 with different methodology courses with the approval of the faculty adviser or qualifying exam chair (if applicable), and the PhD director. Students with master's degrees and who have taken an equivalent course to PPD 558 may petition to substitute this course requirement with another methodology course.

Specialized Field Courses (16 units)
Students take a minimum of four courses to develop their specialized area of study. Courses may be taken in the Price School or other USC units. Students, working with their qualifying exam committees, have considerable flexibility in forming specializations.

Directed Research (2, 2; 4 units total)
Students will enroll in four units of directed research during their first year (2 units fall and 2 units spring). This will ensure they get involved in a research experience during their first year with faculty mentors.
- PPD 790 Research Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12

Research Seminar (4 units)
Students will take PPD 710a, PPD 710b (2 units each, 4 total units), the Price School research seminar course.
- PPD 710a Research Seminar Units: 2
- PPD 710b Research Seminar Units: 2

Teaching Seminar (2 units)
Students will take one semester of the teaching seminar:
- PPD 700 Teaching Seminar Units: 2

Students entering the doctoral program without a relevant master's degree in urban planning or a related field will be required to complete prerequisites (10 units) relevant to their program.

Additional Requirements

Admission with Advanced Standing
Students entering the doctoral program with a master's degree from an accredited institution in public management/administration, public policy, planning, or urban development or related field may be admitted with advanced standing to either PhD program. In the Public Policy and Management program, students must complete a minimum of 53-54 units of doctoral classes beyond that graduate degree, exclusive of PPD 794a Doctoral Dissertation, PPD 794b Doctoral Dissertation, PPD 794c Doctoral Dissertation, PPD 794d Doctoral Dissertation, PPD 794z Doctoral Dissertation units, for a minimum of 57-58 semester units. In the Urban Planning and Development program, students must complete a minimum of 54 units of doctoral classes beyond that graduate degree, exclusive of PPD 794a Doctoral Dissertation, PPD 794b Doctoral Dissertation, PPD 794c Doctoral Dissertation, PPD 794d Doctoral Dissertation, PPD 794z Doctoral Dissertation units, for a minimum of 58 semester units. Additional course work may be required if deemed necessary by the student's faculty following the screening examination.

A maximum of 6 units of transfer credit may be applied toward a doctoral degree with advanced standing and with the approval of the faculty adviser or PhD director. Only course work not used to complete the master's degree described above is available for transfer credit. No exceptions are allowed.

Qualifying Exam Committee
Students will form an initial qualifying exam committee by the end of the first fall semester, which officially oversees the development of the student's academic program through the qualifying examination. Students should refer to the Graduate School section regarding the qualifying exam committee and the outside member. The complete qualifying exam committee must be in place no later than the third semester.

Screening Procedures
Students must have a 3.3 overall GPA in first-year courses to continue in the program.

Work Plans
At the end of each spring semester, the student submits an academic work plan for the coming year to his or her qualifying exam committee chair. The plan should include courses, degree progress, seminar attendance and what was learned from those, and a research plan that articulates the major research questions being explored. At the conclusion of year one, the chair reviews and approves the work plan and at the end of year two, the chair reviews the work plan and the second year paper.

Qualifying Examination
The qualifying exam committee prepares a comprehensive written examination covering the fields of study. Following completion of the written portion, the entire committee conducts an oral examination of the student, focusing on material both complementary and supplementary to the written examination but relevant to the field and overall program selected by the student. Upon passing both portions of the qualifying examination, the student becomes a candidate for the Doctor of Philosophy degree. The qualifying exam will occur in the fall semester of year three.

Proposal Defense
Students are expected to have a proposal defense by the end of their third year after passing the qualifying exam.

Doctoral Dissertation
The dissertation is based on original research. The research is supervised by a dissertation committee of three or more regular USC faculty, at least one of whom must be from outside the Price School of Public Policy. A two-semester minimum registration in PPD 794a, PPD 794b, PPD 794c, PPD 794d, PPD 794z is required of all candidates. Students must maintain continuous registration until completion of the dissertation.

Defense of the Dissertation
Oral defense of the dissertation before the dissertation committee is usually made on a preliminary draft.

Format for Theses and Dissertations
All theses and dissertations submitted in fulfillment of requirements for graduate degrees must conform to university regulations with regard to format and method of preparation. Regulations for Format and Presentation of Theses and Dissertations is available from the Graduate School, Student Union 301, or online at the Graduate School Website.

General Requirements
Refer to the Graduate School section in this catalogue for policies regarding time limits, leave of absence, scholarship standing and probation.
Aerospace Studies

Physical Education Building 112
(213) 740-2670

Administration
Mark Burley, Lieutenant Colonel, USAF

Faculty
Professor: Mark Burley (Lieutenant Colonel, USAF)
Assistant Professors: Reynor Manalac, (Captain, USAF);
Jacqueline Salas, (Captain, USAF)

The Department of Aerospace Studies offers a three- to four-year program of instruction leading directly to commissioning as an officer in the United States Air Force or United States Space Force. To obtain a commission, qualified applicants must pass an aptitude test, physical fitness assessment and a medical examination; complete the Aerospace Studies program of instruction and concurrently receive an undergraduate or graduate degree. Credits earned in Aerospace Studies courses may be counted as electives in some degree programs. Those students who qualify for and are selected to enter Air Force pilot training will be given flight instruction upon graduation. Qualified applicants may compete for a variety of Air Force scholarships, some of which pay full tuition, books and associated fees. USC also offers a matching $4,000 annual scholarship for all AFROTC scholarship recipients enrolled at USC full-time. See the Tuition and Fees page for additional scholarship information. Information. Students dual-enrolled as AFROTC cadets are offered competitive opportunities to attend various related symposia and professional development opportunities throughout the year.

Program Requirements
Academic Year Program
This program consists of up to eight semesters of Aerospace Studies academic and Leadership Laboratory courses (AEST 100a, AEST 100b through AEST 400a, AEST 400b) plus a two-week summer field training course. All students, regardless of desire to pursue a military commission, may enroll in the academic courses that focus on such disciplines as Foundations of the United States Air Force, Team and Leadership Fundamentals, and National Security Affairs. The program can be tailored for students who join during their freshman or sophomore years. The open enrollment classes consist of one hour of academics weekly for the AEST 100 and AEST 200 courses and three hours of academics for the AEST 300 and AEST 400 courses. The weekly, two-hour Leadership Laboratory courses are for AFROTC Cadets only.

Summer Training Courses
Field training is offered during the summer at Maxwell Air Force Base in Montgomery, Alabama. Students participate in two weeks of intensive training, normally between their sophomore and junior years.

The major areas of study in the field training course include junior officer leadership training, career orientation, survival training, weapons training, physical training, and base functions as well as the Air and Space Force environments.

Additional summer training courses at locations around the world are available to interested students to build leadership and human relations skills, develop cultural and language proficiency, provide a general orientation in Air and Space Force specialties, and motivate cadets toward an Air or Space Force career. The training opportunities vary each year but may include cultural and language immersion programs, engineering research and apprenticeships, and orientation programs related to other air, space and cyberspace specialties.

Military Science

Physical Education Building 110
(213) 740-1854

Administration
Eric Polk (Lieutenant Colonel, U.S. Army)

Faculty
Professor/Commander: Eric Polk (Lieutenant Colonel, U.S. Army)

The Department of Military Science provides professional training for students leading to a commission, upon graduation, in the Active Army, Army Reserve or the Army National Guard. Through the Army Reserve Officers’ Training Corps Program (AROTC), scholarship benefits include full tuition, fees and book stipends. Scholarships are also available for Guaranteed Reserve Forces Duty. Military science instruction is focused on hands-on leadership development and the practical application of military skills needed to produce America’s future leaders. Additionally, military science courses count as electives in many degree programs. MS 101 and MS 102 are open to students who are not enrolled in the program, but have an interest in leadership, management, military history or military training. Enrollment in the Army ROTC program is open to qualified full-time students.

Scholarship Program
The majority of Army ROTC cadets attend USC on Army scholarships. All Army scholarships are merit-based and are not dependent on individual financial need. Scholarships are available for both Active Duty and Guaranteed Reserve Forces Duty. Scholarships are awarded on a competitive basis to qualified applicants for two-, three- or four-year periods depending on the applicant’s academic level and program of study. Scholarship cadets receive benefits that cover full tuition, fees and a book stipend, and are available to all majors. See the Tuition and Fees page for additional scholarship information.

Enrolled Cadets
Contracted scholarship and non-scholarship cadets can receive a monthly stipend. Contracted scholarship cadets receive an annual book allowance. All enrolled scholarship and non-scholarship cadets receive uniforms and military science textbooks from the department.

Four-Year Program
The four-year military science curriculum is designed to be part of the student’s undergraduate degree program. During the freshman and sophomore years, students receive introductory instruction in the theory of warfare, military history, military leadership and basic military skills. During the junior and senior years, cadets participate in a professional development program with instruction in leadership, management, military justice and advanced military skills.

Three-Year Program
The three-year program is available to qualified sophomore undergraduate students. Students may compress the first two years of the ROTC program by attending two ROTC classes per semester during their sophomore year. Scholarships are available, on a competitive basis, for students with three years remaining toward the completion of their undergraduate degree. Transfer students who meet the same criteria are also eligible for scholarships. Upon acceptance, students then follow the military science program described for the four-year program.

Two-Year Program
The two-year program is available to qualified junior and senior undergraduate students and graduate students who have two years of academic work remaining. Veterans who have achieved junior academic status and meet enrollment criteria are also
eligible for this program. Students may receive credit for the first two years of the ROTC program by attending the Army ROTC Basic Camp at Fort Knox, Kentucky, or by previous participation in Junior ROTC (JROTC). Transfer students who meet the same criteria are also eligible for scholarships. Upon acceptance, students then follow the military science program described for junior and senior cadets in the four-year program.

Field Training
Besides the classroom instruction, cadets will have ample opportunity to demonstrate their military and leadership skills during practical application in a field environment throughout the academic year and during the summer, as required. Cadets will hone their fitness skills during designated morning fitness training sessions, participate in one leader laboratory per week, and attend one tactical training exercise per semester at a local military installation. Additionally, qualified cadets will attend a 35-day paid Army ROTC Advanced Camp at Fort Knox, Kentucky, the summer after their junior year.

Adventure Training
Qualified candidates may also receive training in Airborne school, Air Assault school (rappelling from helicopters), Cadet Troop Leadership Training (training in Army units around the world), Northern Warfare school (Arctic survival), Combat Diver school and Mountain Warfare school.

Naval Science

Physical Education Building (PED) 101
(213) 740-2663

Administration
Gilbert D. Juarez, BA, MOS, MSS (Colonel, U.S. Marine Corps), Commanding Officer

Faculty
Professor: Gilbert D. Juarez, BA, MOS, MSS (Colonel, U.S. Marine Corps)
Associate Professor: Joshua N. Ragadio, BA, MEM, EML (Commander, U.S. Navy)
Assistant Professors: Andrew P. Bates, BS (Lieutenant, U.S. Navy); Kristen R. Gabel, BS (Captain, U.S. Marine Corps); Christina M. Perez, BS (Lieutenant, U.S. Navy); Jack C. Trboilet, BS (Lieutenant, U.S. Navy)

The Department of Naval Science provides professional training for undergraduate students (midshipmen) leading to a commission, upon graduation, as an officer in the United States Navy or the United States Marine Corps. Through the Naval Reserve Officers Training Corps Program (NROTC) program, scholarship students receive a scholarship that can be applied towards full tuition, associated fees, a book stipend, and a subsistence allowance, or apply the scholarship towards room and board. The university also provides additional funds to NROTC scholarship students to assist with housing costs. Non-scholarship students may apply to participate as members of the midshipman battalion with limited financial assistance, earning a commission upon completion of the baccalaureate degree. Because of the rapid development of highly technical ship systems, aviation and other military equipment, the majority of Navy scholarships are awarded to science and technical ship systems, aviation and other military equipment, the majority of Navy scholarships are awarded to science and technical students pursuing any major offered by the university, as long as they complete basic technical requirements. In addition to university requirements, midshipmen must complete 17-23 units of Naval Science courses, a physical fitness test and three active duty summer training sessions ranging from three to six weeks long.

All naval science courses are open to students who are not in the program but have an interest in the Navy and Marine Corps related fields, such as engineering, navigation, amphibious warfare, naval operations, history and leadership.

Program Requirements
Scholarship Program
The majority of naval science students attend the university on Navy or Marine Corps scholarships. Scholarships are awarded primarily on a four-year basis to high school seniors selected in nationwide competition. Two- and three-year scholarship programs are also available through a similar selection process. Scholarship students receive full tuition and associated fees, a $375 book stipend each semester, and a $250-$400 per month (increasing $50 each year in the program) subsistence allowance. The university also provides an additional automatic scholarship of $2,000 per semester for each NROTC scholarship recipient.

College Program
Students may join NROTC as non-scholarship "College Program Basic" students. These students receive uniforms and participate as regular midshipmen in the program but do not receive scholarship, stipend or subsistence funds and do not attend summer training. College Program Basic students must compete for a two- or three-year scholarship or be awarded "College Program Advanced" status in order to continue in the program and receive a commission. College Program Advanced students attend the final summer training session and receive both the book stipend and subsistence funds.

Navy Option
The Navy option prepares midshipmen for service as ensigns in the United States Navy. Navy Option midshipmen must successfully complete First Class summer training in order to earn their commission. This hands-on assignment to a Navy ship or squadron is completed during their final summer training session. Most Navy Option students will be required upon graduation to serve a minimum of five years active military service. The NROTC program normally commissions ensigns into the following communities: Aviation (pilot or naval flight officer), Submarine Warfare, Surface Warfare, Special Operations (Explosive Ordnance Disposal), Special Warfare (SEALS), or Cyber Warfare Engineer.

Marine Corps Option
The Marine Corps option prepares midshipmen for service as second lieutenants in the United States Marine Corps. Marine Option Midshipmen must successfully complete Officer Candidate School (OCS) in order to earn their commission. This intensive six-week course is completed during their final summer training session. Marine Corps Option students also participate, on a limited basis, in local field training exercises during the academic year. Most Marine Corps Option midshipmen will be required upon graduation to serve at least four years on active duty. All Marine Corps second lieutenants attend The Basic School (TBS) after graduation and are assigned a Military Occupational Specialty; however, qualifying Marine Option midshipmen may apply for and be granted a guaranteed assignment to the Aviation or Law Military Occupational Specialty.

Requirements for Commissioning
Students must meet USC degree requirements in their chosen fields and complete the prescribed Naval Science courses, two courses of English, one course in American history/national security policy and one course in world culture/regional studies. In addition, they must also attend weekly Naval Science Laboratory (NS LAB), drill, and physical training. Navy scholarship students must also include in their programs MATH 125 Calculus I and MATH 126 Calculus II and PHYS 151Lg Fundamentals of Physics I: Mechanics and Thermodynamics and PHYS 152L Fundamentals of Physics II: Electricity and Magnetism.

For more detailed program information, go to the USC NROTC website at priceschool.usc.edu/rotc-programs/nrotc/.
The USC Suzanne Dworak-Peck School of Social Work champions social justice for the well-being of individuals, families, and communities through innovative teaching of evidence-informed and practice-based skills, pioneering transformative research and cultivating leadership for social change. The school's programs equip students with a broad background of knowledge about health and social welfare problems, programs, services, and policies designed to prevent and address those problems and existing and emergent trends and issues. Across all programs, students are professionalized and encouraged to develop professional philosophies and approaches that are in harmony with the basic tenets of their chosen professions. At the same time, students share the desire and calling to prevent and mitigate severe social and health problems that challenge the viability of culturally diverse and complex urban settings; to build on the strengths of individuals, families, and communities; and to lead the scholarly search for innovative, efficacious and just solutions.

Emeritus Professors of Clinical Education: Anne Katz, PhD; Martha Lyon-Levine, PhD; Paul Maiden, PhD; Doni Whitsett, PhD

Emeritus Professor of Field Education: Marleen Wong, PhD

Degree and Minor Programs
The USC Suzanne Dworak-Peck School of Social Work offers various degree programs that lead to a Master of Social Work (MSW), Doctorate of Social Work (DSW), Doctor of Philosophy (PhD) in Social Work, and Master of Science in Nursing (MSN) as well as a number of graduate certificates. The school also offers an undergraduate Social Work and Juvenile Justice Minor.

Master of Social Work (MSW)

The Master of Social Work degree requires 42-60 semester units of course work. The program of study leads to the Master of Social Work (MSW) degree with a specialization in an area of advanced practice. Course requirements are organized into a generalist curriculum and a specialized practice curriculum. The generalist curriculum provides students with knowledge, values, skills, and cognitive and affective processes that prepare them for professional practice with individuals, families, groups, organizations and communities. The specialized practice curriculum involves integration of social work knowledge, values, skills, and cognitive and affective processes and demonstrated ability to engage, assess, intervene and evaluate across or within client populations, problems areas, and methods of intervention. Areas of specialization available to students include: Adult Mental Health and Wellness; Children, Youth and Families; Military Social Work and Veteran Services; School Social Work; or Social Change and Innovation.

Adult Mental Health and Wellness (AMHW)

This curriculum prepares students to address the health and well-being of younger and older adults within families, agencies, institutions, communities, and other environments, and to eliminate disparities. Course work focuses on mental health and substance use, integrated primary and behavioral health care, wellness and recovery, promotion of healthy aging, social welfare policy, and program and policy evaluation and analysis.

Children, Youth and Families (CYF)

This curriculum prepares students to address the needs of vulnerable children, youth, and families from the earliest years of childhood through adolescence and the transition to adulthood. Course work focuses on promoting wellness and preventing trauma, as well as which kinds of service programs are showing...
the best results for families with different makeups from a variety of racial, ethnic, and socioeconomic groups. Students are trained to serve families in a variety of service settings, including health, mental health, early education, schools, child welfare and juvenile justice.

Military Social Work and Veteran Services
This curriculum targets military personnel, spouses and other military dependents and military retirees who wish to maintain a post-military career affiliation with the armed forces; military veterans who wish to provide professional services to their military comrades and civilian personnel who are committed to assisting military personnel, their families, and military veterans with adapting, coping, and managing the stresses and strains of military life and post-military life. The curriculum offers courses focusing on the needs of military personnel, veterans and their families.

School Social Work
The school social work curriculum prepares students to practice in TK-12th grade settings across micro, mezzo and macro levels. Students learn about development as well as theoretical concepts related to working with children and adolescents in educational settings. They also learn various roles a social worker encompasses in the school setting to include leadership and system wide intervention. Course work additionally focuses on mental health service delivery and practice to include awareness of trauma informed schools, social and emotional learning, and policies that impact educational systems locally and nationally. Students have opportunities through field education to apply these concepts in school settings.

Social Change and Innovation (SCI)
This curriculum prepares students to lead bold, large-scale solutions to social problems and drive positive change in organizations, businesses, and government agencies. Course work focuses on community organization, organizational planning and development, workplace interventions, and advocacy. The community track prepares students to think critically about problems in communities and organizations, identify barriers to progress and design interventions to facilitate change. The business track prepares students for corporate settings, where they may help employees manage the demands between work and life and companies build positive relationships with their communities.

Field Education
Field education is the signature pedagogy for social work. Field education typically takes place over four semesters through a combination of community-based placement, classroom instruction, and training with simulated clients. The school works closely with thousands of community agencies, organizations, businesses and other field partners to ensure students receive valuable hands-on practice experience and training that complements their classroom learning. Depending on the program selected, students generally complete a minimum of either 1,000 or 1,300 field hours in order to be awarded the Master of Social Work degree. Students usually spend 16-24 hours/week in field placement and 2 hours weekly/biweekly in the classroom seminar. During their time in "field," students are trained to apply three evidence-based interventions: motivational interviewing, problem-solving therapy and cognitive behavioral therapy.

Community-based placement occurs in selected agencies and centers representing a broad range of social services. Placements are approved on the basis of the quality of their professional practice, commitment to social justice and to addressing social work problems, interest in participating in professional education, and ability to make personnel and other resources available. Field instructors, MSWs who are employed by either the agency or the school, are responsible for teaching students in their field placements.

Each placement in field education is made on an individual basis, taking into consideration the following: geographic location, previous experiences, future goals, professional interests, special needs and stipend requirements. Students are responsible for transportation to their field placements and are encouraged to have access to a car.

Doctorate of Social Work (DSW) and Doctor of Philosophy (PhD) in Social Work
The Doctorate of Social Work (DSW) is a fully online program that offers an advanced practice doctorate in social change and innovation for agency and community leaders and entrepreneurs. Standard Track: 9 semesters (36 months); Accelerated Track: 7 semesters (28 months). Prospective DSW students must hold a master's degree. This may include an MSW from a Council on Social Work Education (CSWE)—accredited program, any master's degree from a regionally accredited program or any professional doctorate.

The PhD in Social Work
The PhD program prepares academics and scientists focused on the discovery of new knowledge through research. PhD candidates are interested in a career in academia, teaching or other research-intensive environments. A PhD program is centered around pursuing an original research project that culminates in a dissertation based on the original research and contribution to social work theory. The PhD program is located at the University Park Campus in Los Angeles and is full time. It requires a minimum of 45 units beyond the master’s degree and successful completion of written and oral qualifying exams and the doctoral dissertation. It typically takes four to five years to complete the doctoral program. Candidates must have a master's degree in social work or related field, excellent undergraduate and graduate academic records, participation in independent research and satisfactory scores on the Graduate Record Examinations (GRE). International applicants must also have a satisfactory score on the Test of English as a Foreign Language (TOEFL).

Master of Science in Nursing (MSN)
The online Master of Science in Nursing (MSN) is a 49-credit hour program. The Family Nurse Practitioner program prepares nurses to treat patients across the life span in primary care settings. The program is delivered online and is available to registered nurses across the country. It also features a virtual campus that facilitates an engaging online learning experience. Students attend live classes that are kept small to encourage collaboration and connection with peers and faculty. Students apply what they learn in class during in-person clinical placements. Clinical placement coordinators work with students to find placements in or near their own communities. The program can be completed in 21 to 33 months, depending on whether you attend as a full-time (five semesters) or part-time (eight semesters) student. Candidates must have a Bachelor of Science in Nursing (BSN) or Master of Science in Nursing (MSN) from an accredited college or university. Admissions requirements include a minimum 3.0 grade point average in the student's BSN program, a grade of C or better in a 3-credit course in statistics, a U.S. license as a registered nurse (RN) and residence within the United States upon application, throughout the duration of the program and for one year of clinical experience.

Master of Science in Addiction Science
The Master of Science in Addiction Science (MAS) exposes students to the biological, psychological and social aspects of substance use and addictive behaviors. Students study emerging trends in addiction studies with an emphasis on evidence-based transdisciplinary approaches to addiction science and practice, addressing epidemiology, etiology, prevention, treatment, policy and harm reduction, as well as sociocultural and healthcare contexts that intersect with addiction. The MAS equips students with a solid foundation and prepares them to enter a number of fields, from treatment to recovery and research to policy work, representing critical areas of support among diverse communities in need. For program requirements, see Addiction Science (MS).
Graduate Certificate in Law, Social Justice and Diversity
The graduate certificate in Law, Social Justice and Diversity is offered in conjunction with the Gould School of Law.

Graduate Certificate in Social Work Administration
The graduate certificate in Social Work Administration is offered in conjunction with the Gould School of Law.

Social Work and Juvenile Justice Undergraduate Minor
The Social Work and Juvenile Justice undergraduate minor is designed for students who want to increase their knowledge of the juvenile justice system and service environments for diverse youth populations. This 16-unit minor completed across three semesters is fit for students in the behavioral and social sciences and any student interested in developing a broad knowledge of issues in the field of juvenile justice.

Minor

Social Work and Juvenile Justice Minor
The Social Work and Juvenile Justice minor is designed for students who want to increase their knowledge of the juvenile justice system and service environments for diverse youth populations. This minor is fit for students in the behavioral and social sciences and any student interested in developing a broad knowledge of issues in the field of juvenile justice. The minor is of particular interest to students wishing to pursue graduate studies in social work, law, sociology, psychology, public health or education.

Required Courses
• SOWK 200x Institutional Inequality in American Political and Social Policy Units: 4
• SOWK 324 Juvenile Justice in America Units: 4
• SOWK 350 Adolescent Gang Intervention Units: 4
• SOWK 424 Community Experience in Juvenile Justice Environments Units: 4

Master’s Degree

Nursing, Family Nurse Practitioner (MSN-FNP)
The program of study that leads to the Master of Science in Nursing, Family Nurse Practitioner (MSN-FNP) degree consists of 49 units (31 units of theory; 12 units of clinical practicum; and 6 units of Social Work courses). The program, which prepares students to practice as family nurse practitioners (FNP), is administered primarily online via the Virtual Academic Center within the Suzanne Dworkar-Peck School of Social Work, and features two on-campus intensives (OCI) providing students with opportunities for skills assessments and patient simulations. The clinical practica can be taken in various healthcare settings, including private practice and community-based facilities, and are based on the student's geographical location. The USC MSN-FNP degree is offered in a full-time (five-semester) or part-time (eight-semester) format. The Department of Nursing is committed to achieving distinction and preparing diverse leaders in research, education and advanced nursing practice. The department aims to work collaboratively with its Suzanne Dworkar-Peck School of Social Work and Keck School of Medicine and other health science colleagues to improve patient care by preparing outstanding advanced practice nurses who provide evidence-based health care, and transform the health care system by preparing leaders in health care policy and research.

Required Courses
MSN-FNP Students are required to take the following courses:
• NURS 501 Pathophysiology for Advanced Practice Nursing Units: 4
• NURS 502 Advanced Health Assessment Across the Life Span Units: 3
• NURS 503 Theory: Clinical Management of Adult Patients Units: 3
• NURS 504 Pharmacology for Advanced Practice Nursing Units: 3
• NURS 505 Clinical Practicum: Management of Adult Patients Units: 3
• NURS 507 Theory: Clinical Management of the Childbearing/Childrearing Family Units: 3
• NURS 600 Theory: Clinical Management of Adult Patients with Complex Medical Issues Units: 3
• NURS 601 Clinical Practicum: Management of the Childbearing/Childrearing Family Units: 3
• NURS 602 Research/Analytical Methods Units: 3
• NURS 603 Transforming Research Evidence into Practice Units: 3
• NURS 604 Clinical Practicum: Management of Adult Patients with Complex Medical Issues Units: 3
• NURS 605 Professional Issues in Advanced Practice Nursing Units: 2
• NURS 606 Health Policy Principles in Changing Health Care Contexts Units: 2
• NURS 607 Theory: Family Primary Care Units: 2
• NURS 608 Clinical Practicum: Family Primary Care Units: 3
• SOWK 506 Human Behavior and the Social Environment Units: 3
• Plus one elective in Social Work (3 units)

Bridge Course Requirement
During the admissions process, applicants will be identified for NURS 500 Bridge Course based on grades in prior science courses and/or length of time away from an academic program of more than five years. Students that successfully complete and receive credit for the Bridge Course will start the full- or part-time MSN-FNP program course sequence in the following semester. Students who do not receive credit for the Bridge Course will not be admitted to the program of study but may reapply to the program in one year.

• NURS 500 Bridge Course Units: 2

Social Work (Integrative Social Work) (MSW)
The program of study that leads to the Master of Social Work degree with a specialization in Integrative Social Work (ISW) (also referred to as the "ISW MSW") consists of 42 units.

The basic generalist curriculum (typically completed in semesters one and two) introduces students to the range of social welfare problems and programs, and to the varieties of human behavior with which social work is concerned. At the same time, students learn the methods by which the social worker, the social agency and the organized community work with people and problems. Field instruction, under supervision in a social agency, is scheduled for two or three days per week for most students, enabling students to apply theory to practice. All content areas include content on diversity, social work values and ethics and economic justice and populations at risk. At the completion of foundation requirements, students are expected to have acquired a sense of professional responsibility and the ability to use knowledge on behalf of the individual, the group and the community.

Students complete their specialized coursework and training in integrative social work practice typically in semesters three and four of the ISW MSW curriculum. When completing their specialization, students may choose a sub-specialization by selecting a track that introduces them to practice with a particular client population, setting or system. If chosen, tracks are complete within the existing 42-unit curriculum.

The program is available at these locations:
• University Park Campus (campus-based and some online classes); some classes may be offered at City Center in downtown Los Angeles.
• Virtual Academic Center (VAC) (all online classes via the Internet).

The ISW MSW can be completed in a full-time program (four semesters) or a part-time/extended program (five or more semesters). Additionally, it can be completed in an advanced
standing program (two to three semesters) or an accelerated program (two to three semesters).

Program Requirement (24 units)

All students are to take the following courses for 3 units each:

- SOWK 506 Human Behavior and the Social Environment Units: 3
- SOWK 523 Foundations of Integrative Social Work Practice I Units: 3
- SOWK 525 Foundations of Integrative Social Work Practice II Units: 3
- SOWK 536 Policy and Advocacy in Professional Social Work Units: 3
- SOWK 546 Science of Social Work Units: 3
- SOWK 591 Applied Learning in Field Education I Units: 3
- SOWK 593 Applied Learning in Field Education II Units: 3
- SOWK 630 Diversity, Social Justice, Culturally Humble Social Work Practice Units: 3

In addition to the courses listed below, students are required to take a 3-unit, adviser-approved elective.

- SOWK 643 Social Work Practice in Integrated Care Settings Units: 3
- SOWK 647 Advanced Practice with Complex Social Work Cases Units: 3
- SOWK 691 Applied Learning in Field Education III Units: 3
- SOWK 693 Applied Learning in Field Education IV Units: 3

Optional Tracks

Adult Mental Health and Wellness (AMHW) Track (18 units)

In addition to the courses listed below, students are required to take a 3-unit, adviser-approved elective.

- SOWK 612 Assessment and Diagnosis of Mental Disorder Units: 3
- SOWK 643 Social Work Practice in Integrated Care Settings Units: 3
- SOWK 647 Advanced Practice with Complex Social Work Cases Units: 3
- SOWK 691 Applied Learning in Field Education III Units: 3
- SOWK 693 Applied Learning in Field Education IV Units: 3

Children, Youth and Families (CYF) Track (18 units)

In addition to the courses listed below, students are required to take a 3-unit, adviser-approved elective.

- SOWK 608 Research and Critical Analysis for Social Work with Children and Families Units: 3
- SOWK 612 Assessment and Diagnosis of Mental Disorder Units: 3
- SOWK 630 Diversity, Social Justice, Culturally Humble Social Work Practice Units: 3

Social Change and Innovation (SCI) (18 units)

In addition to the courses listed below, students are required to take a 3-unit, adviser-approved elective.

- SOWK 639 Policy Advocacy and Social Change Units: 3
- SOWK 648 Management and Organizational Development for Social Workers Units: 3
- SOWK 665 Grant Writing and Program Development for Social Workers Units: 3
- SOWK 691 Applied Learning in Field Education III Units: 3
- SOWK 693 Applied Learning in Field Education IV Units: 3

Military Population and Settings (MPS) (18 units)

In addition to the courses listed below, students are required to take a 3-unit, adviser-approved elective.

- SOWK 590 Directed Research Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12
  (3 units required)
- SOWK 633 Life in the US Military: Foundations of Practice in Military Social Work Units: 3
- SOWK 691 Applied Learning in Field Education III Units: 3
- SOWK 693 Applied Learning in Field Education IV Units: 3
- SOWK 608 Research and Critical Analysis for Social Work with Children and Families Units: 3
- SOWK 612 Assessment and Diagnosis of Mental Disorder Units: 3

School and Education Settings (SES) (18 units)

In addition to the courses listed below, students are required to take a 3-unit, adviser-approved elective.

- SOWK 608 Research and Critical Analysis for Social Work with Children and Families Units: 3
- SOWK 627 Policy and Macro Practice in Child, Youth and Family Services Units: 3
- SOWK 691 Applied Learning in Field Education III Units: 3
- SOWK 693 Applied Learning in Field Education IV Units: 3

Minimum Units Required: 42

Social Work (MSW)

The program of study that leads to the Master of Social Work degree consists of 60 units. The program is available at these locations:

- University Park Campus (campus-based and some online classes)
- Virtual Academic Center (VAC) (all online classes via the Internet)

The MSW program can be completed in a full-time (four semesters) program or part-time/extended (five or more semesters) program.

The basic generalist curriculum introduces students to the range of social welfare problems and programs, and to the varieties of human behavior with which social work is concerned. At the same time, students learn the methods by which the social worker, the social agency and the organized community work with people and problems. Field instruction, under supervision in a social agency, is scheduled for two or three days a week for most students, enabling students to apply theory to practice. All content areas include content on diversity, social work values and ethics, and economic justice and populations at risk. At the completion of foundation requirements, students are expected to have acquired a sense of professional responsibility and the ability to use knowledge on behalf of the individual, the group and the community.

This curriculum is organized around three specializations:
1. Children, Youth and Families (CYF)
2. Adult Mental Health and Wellness (AMHW)
3. Social Change and Innovation (SCI)

Students will select one of these specializations upon completion of the generalist curriculum, take required courses and electives focused on their chosen specializations. Students take six required specialization courses, a required diversity course, and three electives focused on the student’s individual interests.

Specific course content includes:

- Children, Youth and Families (CYF)
- Adult Mental Health and Wellness (AMHW)
- Social Change and Innovation (SCI)

This specialization prepares students to address the needs of vulnerable children, youth and families from the earliest years of childhood through adolescence and the transition to adulthood. Course work focuses on promoting wellness and preventing trauma, as well as which kinds of service programs are showing the best results for families with different makeup from a variety of racial, ethnic and socioeconomic groups. Students are trained to serve families in a variety of service settings, including health, mental health, early education, schools, child welfare and juvenile justice.

- Adult Mental Health and Wellness (AMHW)

This specialization is focused on enhancing the health and well-being of younger and older adults within families, agencies, institutions, communities and other environments, and eliminating
MSW students are required to take the following courses:

**Required Courses**
- Experience or work experience in lieu of the field practicum or any practice coursework. Academic credit is not granted for life generalist practice coursework and three semesters of specialized one course in human behavior; one course in research methods; one course in social work practice; one course in policy; and program and policy evaluation and analysis.
- Social Change and Innovation (SCI).
  - This specialization prepares students to lead bold, large-scale solutions to social problems and drive positive change in organizations, businesses and government agencies. Students can customize their learning experience by taking courses on social change, advocacy, organizational planning and development, workplace interventions, military social work, and evaluation research.
  - This system of curriculum offerings provides a strong educational program with a continuing commitment to a generalist base and a focused set of specialized content, in combination with a range of options to meet special interests. This program enables graduates to move into the social work community with a combination of knowledge and skills in a broad arena, as well as in-depth knowledge and skills in both practice methods and a specific client population, setting or system.

  - The curriculum builds on a liberal arts foundation that all entering students are required to have. The applicant should have a range of undergraduate courses in the humanities and the social and physical sciences.

**General Requirements**
- The Master of Social Work degree requires a minimum of 60 semester units of courses, including field education.
- The degree is not awarded solely on the basis of credits earned but also requires evidence of competence in both theory and practice. At their discretion, the faculty may require courses or fieldwork or both beyond the minimum requirements.

**Time Limit**
- For most students, the master’s degree program will be completed in four semesters of full-time study.

**Grade Point Average Requirement**
- A grade point average of 3.0 (A = 4.0) is required for admission to the USC Suzanne Dworak-Peck School of Social Work. In some instances, applicants with less than 3.0 may be considered for conditional admission through a special review. An overall GPA of 3.0 for graduation from the master’s degree program.

**Course Requirements**
- All newly admitted MSW students will follow a program that includes one course in social work practice; one course in policy; one course in human behavior; one course in research methods; one course in diversity; four semesters of field education; six specialization-specific core courses and three electives.
- Course requirements are organized into one semester of generalist practice course work and three semesters of specialized practice course work. Academic credit is not granted for life experience or work experience in lieu of the field practicum or any other courses in the curriculum.

**Required Courses**
- MSW students are required to take the following courses:
  - SOWK 506 Human Behavior and the Social Environment: 3
  - SOWK 536 Policy and Advocacy in Professional Social Work: 3
  - SOWK 544 Social Work Practice With Individuals, Families, and Groups: 3
  - SOWK 546 Science of Social Work: 3
  - SOWK 588 Integrative Learning for Social Work Practice: 2
  - SOWK 589a Applied Learning in Field Education: 3
  - SOWK 589b Applied Learning in Field Education: 3
  - SOWK 630 Diversity, Social Justice, Culturally Humble Social Work Practice: 3
  - SOWK 698a Integrative Learning for Advanced Social Work Practice: 1
  - SOWK 698b Integrative Learning for Advanced Social Work Practice: 1
  - SOWK 699a Advanced Applied Learning in Field Education: 4
  - SOWK 699b Advanced Applied Learning in Field Education: 4

  - Plus six additional specialization core courses and three additional Social Work electives totaling 27 units.

**Additional Requirements**

**Field Education**
- Field education is an integral part of the Master of Social Work curriculum. Two year-long field education courses are required. The school works closely with thousands of community agencies, organizations, businesses and other field partners to ensure students receive valuable hands-on practice experience that complements their classroom learning. Students must complete two field internships, or 1,000 field hours in order to be awarded the Master of Social Work degree. The first placement requires 16 hours a week at a practicum agency that aligns with a student's specialization and includes a two-hour practice lab in the first semester. In these labs, students will be trained to apply three evidence-based interventions: motivational interviewing, problem-solving therapy and cognitive behavioral therapy. In the second semester, students will participate in a two-unit field seminar while completing 16 hours a week at a practicum agency. In the second year of the program, students will increase their field time to 20 hours a week, and in some cases, they may be able to remain at their original field site if the organization can facilitate advanced learning experiences. Additionally, second-year students will participate in a one-unit field seminar where they will learn to apply evidenced-based interventions specific to their specialization.

- Field education takes place in selected agencies and centers, which represent the complete range of social services. Field placements are approved on the basis of the quality of their professional practice, commitment to social justice and addressing social work problems, interest in participating in professional education, and ability to make personnel and resources available. Field instructors, who are employed by either the agency or the school, are responsible for teaching students in their field placements. The senior associate dean for field education is administratively responsible for all field assignments.

- Each placement in field education is made on an individual basis, which takes into consideration the following: geographic location, previous experiences, future goals, professional interests, special needs and stipend requirements. In these placements, students engage in selected and organized social work activities that provide practical experience in applying skills learned in the classroom.

- The number of field placement options for non-driving students is limited. Students are encouraged to have access to an automobile for field placement.

**Research Requirement**
- The research requirement consists of one foundation course. In the generalist course of study, SOWK 546 is designed to impart knowledge of research methodology and statistics. Students are required to enroll in courses that combine research skills with evaluation and program development in their specialization field of study.

**Transfer Students**
- Applicants who have recently completed part or all of the first half of graduate study at a Council on Social Work Education-accredited school of social work may apply as transfer students. In addition to materials described in the section on application procedures, transfer students should forward course syllabi and a bulletin of the school for the year in which the course or courses were taken.

- Transfer credits may be applied for those courses determined to be equivalent to USC’s first-year courses or to meet the expectation of the second-year electives. The grade point average
for any course taken at another school of social work must be at least 3.0 on a 4.0 grading scale. Where foundation courses are similar, but not equivalent, transfer students may be permitted to take a waiver examination for possible exemption from those courses. Transferred credit for fieldwork will be computed on the basis of clock hours completed as well as on the breadth and depth of contents covered.

**Military Social Work and Veteran Services**

The Suzanne Dworak-Peck School of Social Work offers a Military Social Work and Veteran Services program in the MSW curriculum targeting military personnel, spouses and other military dependents and military retirees who wish to maintain a post-military career affiliation with the armed forces; military veterans who wish to provide professional services to their military comrades; and civilian personnel who are committed to assisting military personnel, their families and military veterans with adapting, coping and managing the stresses and strains of military life and post-military life.

**Course Requirements**

Beyond the basic professional social work foundation course requirements of the Master of Social Work degree, the program in Military Social Work and Veteran Services will offer a series of specialized courses focusing on the needs of military personnel, veterans and their families. Students will take two courses in special topics that focus on this area of practice. Individuals pursuing the Military Social Work and Veteran Services program options will also be able to select from a variety of highly relevant elective courses that will serve to enhance their training and future service delivery capabilities.

**Advanced Standing Option**

The Suzanne Dworak-Peck School of Social Work offers an advanced standing option for students who have graduated with a Bachelor of Social Work (BSW) degree from a Council on Social Work Education (CSWE)-accredited BSW program within the past five years. To be eligible for the advanced standing option, students must have successfully completed their BSW with a minimum GPA of 3.00 for the last 60/90 units of undergraduate work. A cumulative 3.5 GPA for all social work courses with a grade of B or better is required for admission.

Students admitted to advanced standing will bypass 23 units of the MSW program and be required to complete 37 units total of the following course work:

- SOWK 630 Diversity, Social Justice, Culturally Humble Social Work Practice Units: 3
- SOWK 698a Integrative Learning for Advanced Social Work Practice Units: 1
- SOWK 698b Integrative Learning for Advanced Social Work Practice: 1
- SOWK 699a Advanced Applied Learning in Field Education Units: 4
- SOWK 699b Advanced Applied Learning in Field Education Units: 4
- Plus six additional specialization core courses and two additional Social Work electives totaling 24 units.

**Note:**

Our Advanced Standing Program is offered both on-campus and online through our Virtual Academic Center and can be completed in three semesters (full-time) or five semesters (part-time).

**Dual Degree**

**Master of Social Work/Doctor of Philosophy (MSW/PhD)**

**Dual Degree Programs**

The Suzanne Dworak-Peck School of Social Work currently offers dual degree programs with a number of other USC professional schools. In addition, the school maintains a dual degree program at Hebrew Union College located adjacent to the USC campus.

The goal of these programs is to encourage graduate students to gain a recognized competence in another discipline which has direct relevance to the roles filled by social workers in society. Dual degree programs are based on the premise that some topics covered in the school are also addressed in the curricula of other departments, so that some credit toward an MSW degree may be given for specific courses in the cooperating department. Similarly, these departments have recognized that some credit toward their corresponding degree may be awarded for work completed in the Suzanne Dworak-Peck School of Social Work. For this reason, students enrolled in dual degree programs can obtain both degrees with a reduced number of total units. Students wishing to enroll in dual degree programs must apply for and be admitted to both schools.

**Master's/PhD Requirements**

The MSW/PhD dual degree program is a course of study leading to both a graduate degree (Master of Social Work) and doctor of philosophy (PhD) in social work. This course of study is offered to exemplary students seeking advanced research based study in social work to become professional leaders who will make significant contributions to the knowledge base of the profession in the social work academic world.

**Application:**

Prospective students must meet both the MSW and PhD standing admission requirements.

**Program Requirements:**

A total of at least 90 units is required for the dual degree with at least 42 units in the MSW program and at least 48 units in the PhD program (exclusive of SOWK 794a, SOWK 794b, SOWK 794c, SOWK 794d, SOWK 794z, Doctoral Dissertation). The program can be completed within four years.

**Required MSW Courses**

Course requirements include the required MSW courses outlined below. Students will take their remaining MSW units in department core courses specific to either the AMHW, SCI or CYF department. Students will be advised into the appropriate courses.

- SOWK 544 Social Work Practice With Individuals, Families, and Groups Units: 3
- SOWK 546 Science of Social Work Units: 3
- SOWK 588 Integrative Learning for Social Work Practice Units: 2
- SOWK 589a Applied Learning in Field Education Units: 3
- SOWK 589b Applied Learning in Field Education Units: 3
- SOWK 698a Integrative Learning for Advanced Social Work Practice Units: 1
- SOWK 699a Advanced Applied Learning in Field Education Units: 4
- SOWK 699b Advanced Applied Learning in Field Education Units: 4
- Plus six additional specialization core courses and two additional Social Work electives totaling 24 units.

**PhD Course Requirements**

Students must complete a minimum of 48 course units beyond the master's degree (exclusive of SOWK 794a SOWK 794b SOWK 794c SOWK 794d SOWK 794z Doctoral Dissertation). Students must complete at least 24 units within the Suzanne Dworak-Peck School of Social Work and at least three courses in other departments or schools within the university. At least 8 of these 12 units must be in courses with a substantive rather than a research-methodology or statistic focus. Students must also take at least one 3-unit elective and one additional research or statistics course either in the Suzanne Dworak-Peck School of Social Work or elsewhere in the university. Each student must develop a concentration either in another discipline outside the Suzanne Dworak-Peck School of Social Work (such as gerontology: sociology; psychology; preventive medicine; business; policy, planning and development; or political science) or in a problem area where different external courses in different departments or schools bear on a specific social problem like homelessness.
An overall grade point average of B (3.0) on all graduate work attempted in the doctoral program is required for graduation.

Core Content
All students are expected to master core content. They must also complete 12 units from the substantive five core courses.

Required PhD Courses

Substantive Courses – Students choose four:
- SOWK 702 Theories of Human Behavior in the Contexts of Social Environments Units: 3
- SOWK 703 Explanatory Theories for Larger Social Systems Units: 3
- SOWK 743 Theories for Practice with Small Systems Units: 3
- SOWK 733 Policy Analysis and Advocacy in a Comparative Social Policy Context Units: 3
- SOWK 744 Theories for Practice with Large Systems Units: 3

Macro focus: students with a macro focus in policy, community organization or administration must complete either SOWK 763, SOWK 733 or SOWK 744.

Core Courses:
- SOWK 760L Introduction to Social Work Statistics Units: 3
- SOWK 761L Multiple Regression for Social Work Research Units: 3
- SOWK 762 Social Work Research Methods I Units: 3
- SOWK 763 Social Work Research Methods II: Issues in Research for Social Work Practice Units: 3
- SOWK 764 Advanced Multivariate Statistics Units: 3

Other Requirements
Elective Units: 3
Research or statistics course* Units: 3
Three external courses outside of Social Work Units: 9
SOWK 790 Research Units: 6
*Must be taken in the Suzanne Dworak-Peck School of Social Work or elsewhere at USC

Individualized Study Plan
MSWiPhD dual degree students will develop an Individualized Study Plan (ISP) at two points in their educational process. They will develop a plan with their mentor before the fall semester begins in year 1 to identify courses they plan to take in their first and second years. It will be approved by the doctoral committee. Students will develop a plan with their mentor in the spring semester of their second year to identify courses and tutorials they will take in their third and fourth years.

Master of Social Work/Juris Doctor, Law (MSW/JD)
The Master of Social Work and Juris Doctor (MSW/JD) dual degree program is a four-year program. Students are required to complete 121 units of course work, including 76 units in the USC Gould School of Law and 45 units in the USC Suzanne Dworak-Peck School of Social Work.

Program Requirements:
To earn the JD, all students (including dual degree students) must complete 37 numerically graded law units at USC after the first year. The associate dean may make exceptions to this rule for students enrolled in law school honors programs. Students must apply to both programs prior to matriculation. The program of study is as follows:

First Year: Complete the first year JD program of study.
Second Year: Begin taking course requirements in the Suzanne Dworak-Peck School of Social Work, which includes the required courses outlined in the Social Work (MSW) section of the catalogue. Students will also begin to take department core courses specific to the MSW in either the AMHW, SCI or CYF department. Students will be advised into the appropriate courses.

Third Year: Complete the second year JD program.
Fourth Year: Complete the remaining required MSW courses, per advisement, and the final semester of the JD program in the spring.

The law school gives credit for the third semester in the Suzanne Dworak-Peck School of Social Work, while the latter recognizes law courses as substitutions for a one-semester practice course, special topics courses, a third semester of social policy and one semester of field instruction (for which a clinical law semester is substituted).

Master of Social Work/Master of Arts, Jewish Nonprofit Management (MSW/MA)

Dual Degree Programs
The Suzanne Dworak-Peck School of Social Work currently offers dual degree programs with a number of other USC professional schools. In addition, the school maintains a dual degree program at Hebrew Union College located adjacent to the USC campus.

The goal of these programs is to encourage graduate students to gain a recognized competence in another discipline which has direct relevance to the roles filled by social workers in society. Dual degree programs are based on the premise that some topics covered in the school are also addressed in the curricula of other departments, so that some credit toward an MSW degree may be given for specific courses in the cooperating department. Similarly, these departments have recognized that some credit toward their corresponding degree may be awarded for work completed in the Suzanne Dworak-Peck School of Social Work. For this reason, students enrolled in dual degree programs can obtain both degrees with a reduced number of total units. Students wishing to enroll in dual degree programs must apply for and be admitted to both schools.

Master’s Requirements
The dual degree program combines in-class learning and fieldwork under the auspices of the Hebrew Union College-Jewish Institute of Religion’s School of Jewish Nonprofit Management (formerly the School of Jewish Communal Service) and the University of Southern California’s Suzanne Dworak-Peck School of Social Work.

Application:
Students must apply to both programs prior to matriculation.

Program Requirements:
Students in this dual degree program simultaneously pursue graduate studies leading to the MSW and an MA in Jewish Nonprofit Management over a 24-month period for full-time students. A total of 80 units must be completed to meet the requirements of both degrees (42 units in social work and 38 units at the HUC-JIR School of Jewish Nonprofit Management).

Course requirements in the Suzanne Dworak-Peck School of Social Work include the required courses outlined below. Students will take their remaining MSW units in department core courses specific to either the AMHW, SCI or CYF department. Students will be advised into the appropriate courses.

See Hebrew Union College for MAJNM degree requirements.

Required MSW Courses
- SOWK 506 Human Behavior and the Social Environment Units: 3
- SOWK 536 Policy and Advocacy in Professional Social Work Units: 3
- SOWK 544 Social Work Practice With Individuals, Families, and Groups Units: 3
- SOWK 546 Science of Social Work Units: 3
- SOWK 589a Applied Learning in Field Education Units: 3
- SOWK 589b Applied Learning in Field Education Units: 3
- SOWK 630 Diversity, Social Justice, Culturally Humble Social Work Practice Units: 3
Master of Social Work/Master of Business Administration (MSW/MBA)

The MSW/MBA dual degree develops knowledge and skills in working with individuals, families and groups, as well as organizational dynamics, marketing, decision sciences, accounting and human relations. Students interested in working in the management of human services and not-for-profit organizations will develop knowledge of human resources, philanthropic and corporate social responsibility, organizational development and information management.

Application:
Prospective students must apply to both the Suzanne Dworak-Peck School of Social Work and the USC Marshall School of Business.

Program Requirements:
- The MSW/MBA requires completion of a total of 96 units: 48 in the Marshall School of Business and 48 in the Suzanne Dworak-Peck School of Social Work.
- Course requirements in the Suzanne Dworak-Peck School of Social Work include the required courses outlined in the Social Work (MSW) section of the catalogue. Students will be advised into the appropriate courses.
- Course requirements in the Marshall School of Business include all required courses in an MBA program and graduate business electives sufficient to bring the total units completed in the Marshall School of Business to at least 48. Dual degree students may not count courses taken outside the Marshall School of Business toward the 48 units. For MBA admission and degree requirements, visit USC Marshall School of Business.
- The MBA and the MSW degrees are awarded simultaneously upon completion of all program requirements.

Master of Social Work/Master of Public Administration (MSW/MPA)

Dual Degree Programs
The Suzanne Dworak-Peck School of Social Work currently offers dual degree programs with a number of other USC professional schools. In addition, the school maintains a dual degree program at Hebrew Union College located adjacent to the USC campus.

The goal of these programs is to encourage graduate students to gain a recognized competence in another discipline which has direct relevance to the roles filled by social workers in society. Dual degree programs are based on the premise that some topics covered in the school are also addressed in the curricula of other departments, so that some credit toward an MSW degree may be given for specific courses in the cooperating department. Similarly, these departments have recognized that some credit toward their corresponding degree may be awarded for work completed in the Suzanne Dworak-Peck School of Social Work. For this reason, students enrolled in dual degree programs can obtain both degrees with a reduced number of total units. Students wishing to enroll in dual degree programs must apply for and be admitted to both schools.

Master's Requirements
The Master of Social Work/Master of Public Administration (MSW/MPA) dual degree offers the student interdisciplinary preparation in the fields of public health and social work leading to the Master of Social Work (MSW) and Master of Public Health (MPH) degrees.

The dual degree program is a collaborative effort between the Suzanne Dworak-Peck School of Social Work and the Department of Preventive Medicine in the Keck School of Medicine. The objectives of the program are to provide students with the knowledge and skills necessary to promote health, prevent disease and enhance the delivery of health and social services in the community. Students will build interdisciplinary skills and an interdisciplinary professional identity by developing an understanding of the breadth of each field and their interface, while permitting concentration in particular specialization areas. The program prepares graduates for work in a variety of interdisciplinary settings; and for some, it will provide the basis for doctoral study.

Students must complete a minimum of 82 units for completion of this dual degree; 48 units in Social Work and 34 units in Public Health. Most students complete both program requirements over three years for full-time students; however, the program may be completed in less time if the student takes a full course load during the two summer sessions (MPH course work only; MSW is not covered in the school). Students will be advised into the appropriate courses.

Course requirements in the Suzanne Dworak-Peck School of Social Work include the required courses outlined in the Social Work (MSW) section of the catalogue. Students will take their remaining MSW units in department core courses specific to either the AMHW, SCI or CYF department. Students will be advised into the appropriate courses.

For MPH degree requirements, see Master of Public Administration/Master of Social Work (MPA/MSW).

Most students complete both program requirements over a 24-month period for full-time students.

Students in the dual degree program are not required to take the 8 units of concentration electives.
Master of Social Work/Master of Science, Gerontology (MSW/MSG)

Dual Degree Programs

The Suzanne Dworak-Peck School of Social Work currently offers dual degree programs with a number of other USC professional schools. In addition, the school maintains a dual degree program at Hebrew Union College located adjacent to the USC campus.

The goal of these programs is to encourage graduate students to gain a recognized competence in another discipline which has direct relevance to the roles filled by social workers in society. Dual degree programs are based on the premise that some topics covered in the school are also addressed in the curricula of other departments, so that some credit toward an MSW degree may be given for specific courses in the cooperating department. Similarly, these departments have recognized that some credit toward their corresponding degree may be awarded for work completed in the Suzanne Dworak-Peck School of Social Work. For this reason, students enrolled in dual degree programs can obtain both degrees with a reduced number of total units. Students wishing to enroll in dual degree programs must apply for and be admitted to both schools.

Master's Requirements

The Master of Social Work and Master of Science, Gerontology (MSW/MSG) dual degree offers the student interested in direct service or community organization the credentials most valued in clinical and therapeutic practice. Students enrolled in this dual degree receive an MSW as well as an MS in Gerontology.

Program Requirements:

This dual degree requires completion of 73 units: 32 units of work in the Davis School of Gerontology and 41 units in the Suzanne Dworak-Peck School of Social Work. The course work is usually completed over a 24-month period for full-time students. Course requirements in the Suzanne Dworak-Peck School of Social Work include the required courses outlined below. Students will take their remaining MSW units in department core courses specific to either the AMHW or SCI departments only. Students will be advised into the appropriate courses.

For MSG degree requirements, see the USC Leonard Davis School of Gerontology.

Required MSW Courses

- SOWK 506 Human Behavior and the Social Environment Units: 3
- SOWK 536 Policy and Advocacy in Professional Social Work Units: 3
- SOWK 544 Social Work Practice With Individuals, Families, and Groups Units: 3
- SOWK 546 Science of Social Work Units: 3
- SOWK 588 Integrative Learning for Social Work Practice Units: 2
- SOWK 589a Applied Learning in Field Education Units: 3
- SOWK 589b Applied Learning in Field Education Units: 3
- SOWK 630 Diversity, Social Justice, Culturally Humble Social Work Practice Units: 3

Master of Social Work/Master of Urban Planning (MSW/MUP)

The dual degree program between the USC Suzanne Dworak-Peck School of Social Work and the USC Price School of Public Policy offers unique opportunities for students who want to devote their professional careers to social policy, social planning or social services delivery. Students with a dual degree will have broader employment options beyond those in traditional planning or social work.

The schedule of courses allows students to experience direct service in the first year so that course work planning is supplemented by a knowledge of consumers, service delivery, etc. Courses for both schools are taken simultaneously, intermingling social work and planning content. Two years of field practicums in social work provide in-depth exposure to social service issues from both planning and direct service perspectives, thus satisfying some of the planning laboratory/workshop requirements and eliminating the need for a separate planning internship requirement.

Requirements

Requirements for completion of the MSW/MUP degree are 83 units including 51 units in social work and 32 units in urban planning. Students must select a community organization, planning and administration concentration in the second year of their social work program. For MUP requirements see the USC Price School of Public Policy entry for the dual degree, and the Urban Planning program entry for concentration descriptions and course lists.

Graduate Certificate

Advanced Clinical Social Work Practice Graduate Certificate

The graduate certificate in Advanced Clinical Social Work Practice prepares students for practice in clinical settings by enhancing their theoretical, empirical and practice knowledge relevant to these settings and by offering a blend of didactic and experiential learning. Through an intersectional lens, students enhance their understanding of critical elements of advanced clinical practice, such as assessment and conceptualization, diagnosis and treatment. Given that social workers treat diverse client populations, this certificate also encompasses a commitment to social justice and addressing barriers to mental health treatment.

The USC Suzanne Dworak-Peck School of Social Work offers university certificates that provide students advanced practice or research training through a social justice and intercultural competence lens that emphasizes community, organizational and environmental justice. Certificates are designed to complement and deepen training provided through our degree programs by focusing on experiential application of concepts in relation to particular and diverse client populations, settings, and systems. Each certificate consists of at least 12 units, which may in part be satisfied by courses completed for a degree program. Certificates are also available to graduate students from other disciplines and to employed professionals.

Required Courses:

A minimum of 6 units are required from course options listed below. The remaining 6 units can be selected in consultation with the program adviser.

- SOWK 615 Brief Therapy and Crisis Intervention Units: 3
- SOWK 666 Domestic and Intimate Partner Abuse Units: 3
- SOWK 692 Loss, Grief and Bereavement Units: 3
- SOWK 694 Group Psychotherapy in Mental Health Settings Units: 3

Advanced Integrative Social Work and Nursing Practice Graduate Certificate

The graduate certificate in Advanced Integrative Social Work and Nursing Practice focuses on micro clinical interventions, mezzo organizational systems of care and macro health care policy to promote wellness and recovery for individuals living with co-occurring health and mental health disorders. Course work applied to this certificate incorporates theories and models regarding primary, secondary and tertiary prevention, etiology and treatment of health and mental health related issues across systems of care. Students draw on theory, biopsychosocial assessment, diagnosis and treatment goals to select and implement evidence-supported interventions that focuses on the intersection of physical and mental health disorders and associated behaviors that may require complex intervention strategies. Social workers and nurses consider pertinent theory, client characteristics, intersecting health and mental health issues, client motivation and readiness for change, and client needs and desires to implement best interventions in accordance with their goals and available resources. Evidence-supported interventions, including medication adherence, retention in care and chronic
The USC Suzanne Dworak-Peck School of Social Work offers university certificates that provide students advanced practice or research training through a social justice and intercultural competence lens that emphasizes community, organizational and environmental justice. Each certificate consists of at least 12 units, which may in part be satisfied by courses completed for a degree program. Certificates are also available to graduate students from other disciplines and to employed professionals.

**Required Courses:**
A minimum of 6 units are required from course options listed below. The remaining 6 units can be selected in consultation with the program adviser.

- SOWK 619 Social Work in Public Child Welfare Settings Units: 3
- SOWK 627 Policy and Macro Practice in Child, Youth and Family Services Units: 3
- SOWK 687 Media in Social Work Units: 3

**Ending Homelessness Graduate Certificate**
Affiliated with the USC Suzanne Dworak-Peck Center for Homelessness, Housing, and Health Equity Research, the graduate certificate in Ending Homelessness offers advanced training to promote the discovery and dissemination of evidence-based solutions to reduce homelessness and health disparities. The certificate acquaints students with the history and current status of homelessness in the United States with a particular focus on Los Angeles that has the largest unsheltered population in the country. Students learn about how homelessness, and responses to homelessness, have been differently conceived, defined, measured, and prioritized. A major goal of the certificate is to be able to differentiate between "upstream" and "downstream" factors that must be addressed to solve homelessness and recognize that we have proven and effective ways to intervene. Issues of how racism and stigma contribute to the challenge of solving homelessness will also be a focus. The certificate offers a unique opportunity to have an immersive experience requiring students to engage people experiencing homelessness through conducting surveys that are part of the Greater Los Angeles Annual Homeless Count, which is required by the federal government in order to fund for homeless services. Students will receive a stipend for their participation in the Annual Homeless Count.

The USC Suzanne Dworak-Peck School of Social Work offers university certificates that provide students advanced practice or research training through a social justice and intercultural competence lens that emphasizes community, organizational and environmental justice. Certificates are designed to complement and deepen training provided through our degree programs by focusing on experiential application of concepts in relation to particular and diverse client populations, settings, and systems. Each certificate consists of at least 12 units, which may in part be satisfied by courses completed for a degree program. Certificates are also available to graduate students from other disciplines and to employed professionals.

**Required Courses:**
A minimum of 6 units are required from course options listed below. The remaining 6 units can be selected in consultation with the program adviser.

- SOWK 590 Directed Research Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12
- SOWK 617 Substance Related and Behavioral Addictive Disorders and Recovery Units: 3
- SOWK 687 Media in Social Work Units: 3
- SOWK 696 LGBTQ2SIA+ Psychological, Social and Political Issues Units: 3
LGBTQ+ Affirmative Care Graduate Certificate

The certificate in LGBTQ+ Affirmative Care provides an integration of clinical mental health and social policy practices for social workers when working with Sexual and Gender Minorities (SGM). Students receive specialized training on skills for providing affirming care to individuals, families, and groups from the LGBTQ+ community. Political, psychological and social issues competencies for working with lesbian, gay, bisexual, transgender, queer, questioning, two-spirit, intersex, asexual, ally and plus clients will be addressed. The impact of intimate partner violence, substance use disorders and specialized clinical affirmative psychotherapy also are addressed. The USC Suzanne Dworak-Peck School of Social Work offers university certificates that provide students advanced practice or research training through a social justice and intercultural competence lens that emphasizes community, organizational and environmental justice. Certificates are designed to complement and deepen training provided through our degree programs by focusing on experiential application of concepts in relation to particular and diverse client populations, settings and systems. Each certificate consists of at least 12 units, which may in part be satisfied by courses completed for a degree program. Certificates are also available to graduate students from other disciplines and to employed professionals.

Required Courses:
A minimum of 6 units are required from course options listed below. The remaining 6 units can be selected in consultation with the program adviser.

- SOWK 617 Substance Related and Behavioral Addictive Disorders and Recovery Units: 3
- SOWK 666 Domestic and Intimate Partner Abuse Units: 3
- SOWK 674 Human Sexuality in Clinical Social Work Practice Units: 3
- SOWK 696 LGBTQ2SIA+ Psychological, Social and Political Issues Units: 3

Social Inquiry for Community, Social and Environmental Justice Graduate Certificate

The certificate in Social Inquiry for Community, Social and Environmental Justice prepares students to incorporate social justice and interculturally competent concepts and practice methods into social inquiry related to community, social and environmental justice. With instructor and peer mentoring, students will complete original research in their areas of interest, in line with the broader theme of sustainability. The USC Suzanne Dworak-Peck School of Social Work offers university certificates that provide students advanced practice or research training through a social justice and intercultural competence lens that emphasizes community, organizational and environmental justice. Certificates are designed to complement and deepen training provided through our degree programs by focusing on experiential application of concepts in relation to particular and diverse client populations, settings, and systems. Each certificate consists of at least 12 units, which may in part be satisfied by courses completed for a degree program. Certificates are also available to graduate students from other disciplines and to employed professionals.

Required Courses:
A minimum of 6 units are required from course options listed below. The remaining 6 units can be selected in consultation with the program adviser.

- SOWK 546 Science of Social Work Units: 3
- SOWK 608 Research and Critical Analysis for Social Work with Children and Families Units: 3
- SOWK 612 Assessment and Diagnosis of Mental Disorder Units: 3
- SOWK 622 Threat Assessment and Management Units: 3
- SOWK 629 Research and Evaluation for Community, Organization and Business Environments Units: 3
- SOWK 630 Diversity, Social Justice, Culturally Humble Social Work Practice Units: 3
- SOWK 635 Research and Evaluation for Social Work with Adults and Older Adults Units: 3
- SOWK 664 Consultation, Coaching, and Social Entrepreneurship Units: 3
- SOWK 665 Grant Writing and Program Development for Social Workers Units: 3
- SOWK 690a Research Units: 1, 2, 3, 4
- SOWK 690b Research Units: 1, 2, 3, 4

Social Work Practice in Addiction Graduate Certificate

The Social Work Practice in Addiction certificate is intended to guide specialized practice with individuals and communities affected by substance use. Course work applied to this certificate incorporates theories and models regarding the prevention, etiology and treatment of substance use disorders and related issues and the level of empirical evidence that exists for each. They draw on theory, assessment, diagnosis and treatment goals to select and implement evidence-supported interventions regarding substance use and associated problems for individuals and families. Content focuses on the intersection of physical and mental health issues with substance use, and understanding the interplay of substance use and associated behaviors that may require complex intervention strategies. Social workers consider pertinent theory; client characteristics; intersecting health, mental health and addiction issues; client motivation and readiness for change; and client needs and desires to implement best interventions in accordance with their goals and available resources. Substance use treatment and current evidence-supported interventions, including medication-assisted treatment and harm reduction strategies. This certificate will enable graduates to work with clients to enhance the quality of individual, family and community well-being in order to facilitate recovery.

The USC Suzanne Dworak-Peck School of Social Work offers university certificates that provide students advanced practice or research training through a social justice and intercultural competence lens that emphasizes community, organizational and environmental justice. Certificates are designed to complement and deepen training provided through our degree programs by focusing on experiential application of concepts in relation to particular and diverse client populations, settings, and systems. Each certificate consists of at least 12 units, which may in part be satisfied by courses completed for a degree program. Certificates are also available to graduate students from other disciplines and to employed professionals.

Required Courses:
A minimum of 6 units are required from course options listed below. The remaining 6 units can be selected in consultation with the program adviser.

- SOWK 612 Assessment and Diagnosis of Mental Disorder Units: 3
- SOWK 617 Substance Related and Behavioral Addictive Disorders and Recovery Units: 3
- SOWK 637 Assessing Wellness to Improve Recovery in Integrated Care Units: 3
- SOWK 643 Social Work Practice in Integrated Care Settings Units: 3
- SOWK 647 Advanced Practice with Complex Social Work Cases Units: 3

Trauma Informed Practices in Educational Settings Graduate Certificate

Given the current K-12 school landscape in the United States, social workers must be prepared to respond to the overwhelming needs of youth and schools. To combat contemporary challenges in educational settings, the Trauma Informed Practices in Educational Settings certificate provides training on child and family development; culturally responsive, trauma-informed practices; and holistic approaches. By the time they complete
the certificate, students will have been trained to deliver several evidenced-based interventions relevant to educational settings. The USC Suzanne Dworak-Peck School of Social Work offers university certificates which provide students advanced practice or research training through a social justice and intercultural competence lens that emphasizes community, organizational and environmental justice. Certificates are designed to complement and deepen training provided through our degree programs by focusing on experiential application of concepts in relation to particular and diverse client populations, settings, and systems. Each certificate consists of at least 12 units, which may in part be satisfied by courses completed for a degree program. Certificates are also available to graduate students from other disciplines and to employed professionals.

Required Courses:
A minimum of 6 units are required from course options listed below. The remaining 6 units can be selected in consultation with the program adviser.

- SOWK 604 Contemporary Grand Challenges in Education Units: 3
- SOWK 606 Trauma-Informed Interventions in Education Units: 3
- SOWK 609 Introduction to Social Work Practice with Children, Youth and Families Units: 3
- SOWK 614 Social Work Practice in School Settings Units: 3
- SOWK 627 Policy and Macro Practice in Child, Youth and Family Services Units: 3

Visual Social Work Graduate Certificate
The certificate in Visual Social Work enhances students' ability to use unique approaches for understanding, communicating about, intervening and positively impacting complex social justice issues. The certificate is designed for students not satisfied with a purely theoretical or conceptual understanding of human problems, but who instead desire the first-person voice in the testimonial and to bring the viewer into the world of the storyteller's experience. This personalization of social issues recasts previous notions of witness and testimony by calling on the viewer to engage and empathize with the personal story of the subject through their own self-representation. Macro issues are made manifest into micro experiences. The certificate trains students how to examine issues visually, drawing from social work and other disciplines, qualitative research and archival material.

The USC Suzanne Dworak-Peck School of Social Work offers university certificates which provide students advanced practice or research training through a social justice and intercultural competence lens that emphasizes community, organizational and environmental justice. Certificates are designed to complement and deepen training provided through our degree programs by focusing on experiential application of concepts in relation to particular and diverse client populations, settings, and systems. Each certificate consists of at least 12 units, which may in part be satisfied by courses completed for a degree program. Certificates are also available to graduate students from other disciplines and to employed professionals.

Required Courses:
A minimum of 6 units are required from course options listed below. The remaining 6 units can be selected in consultation with the program adviser.

- SOWK 590 Directed Research Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12
- SOWK 624 Social Work in Juvenile Justice Settings Units: 3
- SOWK 627 Policy and Macro Practice in Child, Youth and Family Services Units: 3
- SOWK 639 Policy Advocacy and Social Change Units: 3
- SOWK 687 Media in Social Work Units: 3

Doctoral Degree
Social Work (DSW)
The Doctorate of Social Work (DSW) program at the USC Suzanne Dworak-Peck School of Social Work offers an advanced practice doctorate in social change and innovation for agency and community leaders and entrepreneurs. The DSW program prepares experienced professionals to develop practical, applied solutions to large-scale social challenges that directly impact vulnerable, marginalized or otherwise disadvantaged populations. The foundation for the DSW curriculum rests on three pillars: (1) problem definition within the Grand Challenges for Social Work; (2) innovative design; and (3) executive leadership in human service organizations and community contexts. Students are required to complete a minimum of 42 units of coursework beyond their first master’s degree in social work or another allied field from an accredited institution. The core DSW curriculum consists of 14 courses. There are no specializations available. Students may complete this accelerated advanced practice doctorate in seven or more semesters culminating with an independent capstone project, representing a substantive advance in practice or policy related to one of the Grand Challenges for Social Work.

Required Courses
DSW students are required to take the following courses:

- SOWK 704 Strategic Innovations for the Grand Challenges Units: 3
- SOWK 705 Leading Public Discourse Units: 3
- SOWK 706 Leading and Managing Large Complex Systems Units: 3
- SOWK 707 Financial Management for Social Change Units: 3
- SOWK 711 Design Laboratory for Social Innovation I Units: 3
- SOWK 713 The Application of Implementation Science Units: 3
- SOWK 714 Executive Leadership: Leaders as Maestros Units: 3
- SOWK 720 Communication and Influence for Social Good Units: 3
- SOWK 721 Data Driven Decision Making in Social Services Units: 3
- SOWK 723 Design Laboratory for Social Innovation II Units: 3
- SOWK 790 Research Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12
  (6 units are required)
Social Work (PhD)

With the enrollment of a small group of highly qualified experienced social workers, the Suzanne Dworak-Peck School of Social Work established the first social work doctoral program in the Western United States in 1953. Over the years, the school has continued the tradition of providing opportunities for learning in all classes, seminars and tutorials.

The major goal of the doctoral program in social work is to produce social work scholars who will have the capacity to make valuable and significant contributions to the knowledge base of the profession. Students acquire the skills necessary to become professional scholars and develop a significant capacity for professional leadership. Toward this end, the school is committed to pursuing excellence in education with persons of definite promise and to seeking gifted students of varied social, ethnic and economic backgrounds.

Through training in specific areas, graduates of the program develop theoretical, conceptual, critical and analytic skills which can be applied to social, organizational, interpersonal and personal problems. They emerge from the program with substantive knowledge and analytic skills that enable them to contribute to understanding social problems and ways of solving them. With these skills, they are able to take a disciplined approach to the issues confronting the profession of social work and the field of social welfare and are prepared to make a significant contribution to the research and scholarship that informs society’s effort to understand social problems and ways of solving them.

The PhD program in social work is administered by the Doctoral Committee of the Suzanne Dworak-Peck School of Social Work in accordance with the policies set by the Graduate School. The requirements listed below are special to the Suzanne Dworak-Peck School of Social Work and must be read in conjunction with the general requirements of the Graduate School.

Admission Requirements

Applicants for admission to the doctoral program must meet the following requirements:

1. A master's degree from a program accredited by the Council on Social Work Education or from another field related to social work.
2. An overall grade point average of B (3.0) on all graduate work.
3. Professional competence as demonstrated through planning and development; or political science) or in a problem area where different external courses in different departments (such as gerontology; sociology; psychology; preventive medicine; business; policy, planning and development; or political science) or in a problem area where different external courses in different departments or schools bear on a specific social problem like homelessness.
4. Personal qualities compatible with performance in social work and indicating a potential for leadership in the field: skill in relationships, flexibility and openness to new ideas, maturity, identification with the profession of social work, and commitment to furthering the development of the profession.
5. Satisfactory performance on the Graduate Record Examinations — existing test scores may be submitted if the GRE has been completed no more than five years prior to the date of application. Information may be obtained from the USC Center for Testing and Assessment, Student Union 301, Los Angeles, CA 90089-0896, (213) 740-7166, or from the Educational Testing Service at ets.org.
6. Satisfactory performance on the Test of English as a Foreign Language (TOEFL) or International English Language Testing System (IELTS) for all international students prior to the date of application. Existing test scores may be submitted if the TOEFL or IELTS has been completed no more than two years prior to the date of application. Information may be obtained from the USC Center for Testing and Assessment, Student Union 301, Los Angeles, CA 90089-0896, (213) 740-7166, or from the Educational Testing Service at ets.org.
7. Submission of application materials as required.

Instructions for application to the Doctor of Philosophy in Social Work program may be obtained by writing to the director of the program.

Under unusual circumstances, applications from persons who do not meet these requirements, including those who have just been awarded the MSW degree, will be considered. In cases where the MSW (or its equivalent) has recently been granted and the applicant does not have the prerequisite post-master's degree, employment experience, it may be required that such experience be acquired concurrent with enrollment in the doctoral program.

Under very unusual circumstances, applications to the doctoral program in social work will be considered from those who do not hold the MSW or an equivalent degree. Such applicants, in order to be admitted to the program, must have a master's degree (or its equivalent) in a field related to social work and a demonstrated commitment to the field of social work as evidenced by substantial contribution to the knowledge base of the profession. Admission decisions on applicants who do not hold an MSW or equivalent degree will be made by the full Doctoral Program Committee of the Suzanne Dworak-Peck School of Social Work rather than by a subcommittee of that body.

Priority will be given to applications that are completed by January 1.

Application Procedure

All applicants to the doctoral program must submit the following information: (1) graduate admission application using the university's online system; (2) statement of purpose which is submitted as part of the online application; (3) current resume which is uploaded as part of the online application; (4) all undergraduate and graduate transcripts; (5) four letters of reference, at least three of which are from persons who can assess the student's scholarly potential; (6) recent GRE scores; (7) recent TOEFL or IELTS scores; (8) documented evidence of financial support is required of all international applicants; (9) PhD Information Form for the Suzanne Dworak-Peck School of Social Work; (10) career plans and goals; and (11) scholarly writing sample.

Foreign Language/Research/English Language Requirements

There is no foreign language requirement for the PhD degree. Competence in advanced research methodology and statistics is required through satisfactory completion of required courses. All international students are required to submit their TOEFL or IELTS scores from a test date prior to application and to meet university requirements for teaching.

Course Requirements

Students must complete a minimum of 48 course units beyond the master's degree (exclusive of SOWK 794a, SOWK 794b, SOWK 794c, SOWK 794d, SOWK 794z Doctoral Dissertation). Students must complete at least 24 units within the Suzanne Dworak-Peck School of Social Work and at least three courses in other departments or schools within the university. At least 8 of these 12 units must be in courses with a substantive rather than a research-methodology or statistic focus. Students must also take at least one 3-unit elective and one additional research or statistics course either in the Suzanne Dworak-Peck School of Social Work or elsewhere in the university. Each student must develop a concentration either in another discipline outside the Suzanne Dworak-Peck School of Social Work (such as gerontology; sociology; psychology; preventive medicine; business; policy, planning and development; or political science) or in a problem area where different external courses in different departments or schools bear on a specific social problem like homelessness. An overall grade point average of B (3.0) on all graduate work attempted in the doctoral program is required for graduation.
Core Content
All students are expected to master core content. They must also complete 12 units from the substantive five core courses.

Required Courses
24 units from the following:
• SOWK 702 Theories of Human Behavior in the Contexts of Social Environments: 3
• SOWK 703 Explanatory Theories for Larger Social Systems: 3
• SOWK 733 Policy Analysis and Advocacy in a Comparative Social Policy Context: 3
• SOWK 743 Theories for Practice with Small Systems: 3
• SOWK 744 Theories for Practice with Large Systems: 3

Core Courses:
• SOWK 760L Introduction to Social Work Statistics: 3
• SOWK 761L Multiple Regression for Social Work Research: 3
• SOWK 762 Social Work Research Methods I: 3
• SOWK 763 Social Work Research Methods II: Issues in Research for Social Work Practice: 3
• SOWK 764 Advanced Multivariate Statistics: 3

Macro focus:
Students with a macro focus in policy, community organization or administration must complete either SOWK 702 or SOWK 743 as part of their core curriculum.
• SOWK 702 Theories of Human Behavior in the Contexts of Social Environments: 3 or
• SOWK 743 Theories for Practice with Small Systems: 3

Micro focus:
Students with a micro focus in direct practice must complete either SOWK 703, SOWK 733 or SOWK 744.
• SOWK 703 Explanatory Theories for Larger Social Systems: 3 or
• SOWK 733 Policy Analysis and Advocacy in a Comparative Social Policy Context: 3 or
• SOWK 744 Theories for Practice with Large Systems: 3

Other Requirements
• Elective Units: 3
• Research or statistics course Units: 3
• SOWK 790 Research Courses: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 (6 units required)

Note:
*Must be taken in the Suzanne Dworak-Peck School of Social Work or elsewhere at USC

Additional Requirements
Students must complete a minimum of 12 units per semester in their first semester and second semester of their first year in the program to maintain their status as full-time students and eligibility for financial support from the Suzanne Dworak-Peck School of Social Work.

Individualized Course of Study
The second year of the curriculum is largely individualized to meet each student's educational goals. It is organized around a specific field of social work practice or a problem area. In the case of fields of practice or problem area, students gain knowledge of that field's development and policies; one level of comparative practice theory applicable to that field; comparative explanatory theory applicable to the field and the chosen practice level; and advanced research methods which can be used to explore field-specific questions.

Field of Practice is defined as a field of activity in which there is an identifiable service delivery system, a continuum of care for clients, and a defined or established role for social workers. Given the current expertise of the faculty and available faculty resources, students may choose from the following fields of practice specializations:
- Given the current expertise of the faculty and available faculty resources, students may choose from the following fields of practice specializations: (1) families and children, (2) mental health, (3) health, (4) occupational/industrial employment, (5) aging/gerontology, or (6) economic security/income maintenance.

Additional fields of practice can be added to the above choices depending on faculty interest, expertise and availability.

Problem Area is defined as a social or service delivery problem that is relevant to the field of social work such as homelessness or urban health systems.

Practice Theory is defined as advanced knowledge of comparative practice theories at one point on the intervention continuum as they relate to the field of practice chosen. The practice intervention continuum is defined to include practice with individuals, families and groups, as well as community practice, administration, planning and policy practice.

Explanatory Theory is defined as advanced knowledge of comparative social science theories as they relate to the field of practice and level of intervention chosen.

Specialized Research Skills is defined as advanced skills in research methodology and statistics which support the student's dissertation within the field of practice.

Students fulfill the requirement for the mastery of the content of their individualized course of study through a combination of at least three (2-unit) directed tutorials (SOWK 790) with members of the social work faculty, at least three university courses in other departments of the university and an elective.

Students prepare an individualized course study plan with their faculty adviser in the spring of the first year that is approved by the doctoral committee. It details classes and tutorials that each student will take during the second year of the program.

Opportunities for Further Skill Development
The program offers students skills training in both teaching and research.

Teaching Skills
All doctoral students must teach for two semesters before they graduate. Requirements may be fulfilled by coteaching, teaching as an assistant or solo teaching. Before beginning these teaching experiences, students must take a teaching course approved by the doctoral committee. It details classes and tutorials that each student will take during the second year of the program.

Additional Research Skills
Students are also offered the opportunity for enhanced skills building in research through a research internship. The one- or two-semester internship (SOWK 785), starting typically in the spring of the second year, is designed to provide students with hands-on practical experience in an ongoing faculty research project prior to the start of their own dissertation research. Typically, activities include data collection and/or analysis. The practicum is expected to yield a paper of publishable quality co-authored by the student and the faculty member.

Students may enroll in SOWK 599 by petitioning the doctoral committee in writing. The decision to grant or deny admission will be based on each applicant's learning and research interests and permission of the instructor.

The usual program includes two years of full-time course work, plus an additional period for completing the qualifying examinations and dissertation. In rare cases, students who are not able to take the full-time program because of employment may spread course work over three years. They must, however, have the equivalent of full-time study in residence for at least one year.

Students should specify whether they are applying for the full-time or part-time program at the time they apply to the program. Part-time students usually carry two courses per semester during the academic year. They may wish to accelerate their progress by enrolling in appropriate courses when available during the summer session.

The time limit for completing all requirements for the PhD degree is eight years from the first course taken at USC to be
applied toward the degree. Students who have completed an applicable master's degree at USC or elsewhere (almost all students in the social work doctoral program) must complete the PhD in six years.

Transfer of Credit
The transfer of post-master's doctoral course work from another institution will only be considered if a grade of B or better (A = 4.0) has been obtained, and the course has been completed within the last five years. Transfer of credits must be petitioned and approved by both the Suzanne Dworak-Peck School of Social Work and the Graduate School.

Screening Procedures
When students have completed a minimum of 16 units (but not more than 24 units) of doctoral course work, the doctoral committee assesses their performance and makes a decision about their readiness to continue in the program. If the decision is to deny permission to continue, the students are so notified. If permission is granted, a qualifying exam committee is established.

Qualifying Exam Committee
The qualifying exam committee is composed of five faculty members, four of whom, including the chair, are from the Suzanne Dworak-Peck School of Social Work and one from an academic unit of the university other than the Suzanne Dworak-Peck School of Social Work. The function of the qualifying exam committee is to oversee the development of the student's academic program through the qualifying examination.

Qualifying Examination
As a prerequisite to candidacy for the PhD degree, students must pass written and oral qualifying examinations. In order to take the examinations, students must complete all core courses, at least 6 units of SOWK 790 tutorials and at least 32 units of course work in the doctoral program with a minimum grade point average of 3.0.

All students must pass a qualifying examination by completing a paper that the examination committee judges to be of publishable quality and passing an oral examination on subject matter related to the paper. The paper must deal with a substantive theoretical, model-building or methodological issue in the student's chosen area. Critical reviews of the literature or reports of empirical studies conducted by the student specifically for the qualifying examination are acceptable. The topic of the paper will be chosen in conjunction with the student's chair and must be defended before and agreed to by the entire examination committee. The content of the paper is to go beyond products developed for tutorials and must be an independent effort. Further details for completing the paper and oral examination are provided as needed. When students pass the written and oral portions of the qualifying examination, they advance to candidacy.

In accordance with university policy, since the two portions of the qualifying examination are considered part of a single examination, only one retake of either portion of the examination is permitted. When the oral examination has been passed, the student is formally admitted to candidacy.

Doctoral Dissertation
When the student is admitted to candidacy, a dissertation committee is established consisting of three members of the qualifying exam committee, one of whom must be from outside the Suzanne Dworak-Peck School of Social Work. The dissertation committee has the responsibility of providing consultation in research, approving the dissertation, conducting the final oral examination and recommending the candidate for the PhD degree. The doctoral dissertation should make a contribution to knowledge and theory related to the profession of social work. Dissertations must not only show technical mastery of the subject and research methodology but must also demonstrate the candidate's ability to work independently as a scholar.

The first step in the dissertation process is the development of a dissertation proposal. Normally about 25-30 pages, the proposal should contain a clear statement of purpose, a rationale for the research, research questions or hypotheses, a review of pertinent literature, and an explication of the research methods to be used including the design, instrumentation, sampling procedures and plan for analysis. The proposal must include human subject clearances for the anticipated research obtained from the appropriate school and university committees.

The dissertation proposal is submitted to the student's dissertation committee and defended. Upon approval of the proposal, a copy is filed with the director of the doctoral program.

It is expected that students will begin work on their dissertation prospectus as soon as possible after completion of the qualifying examinations, and that an acceptable proposal will be presented within three months of the completion of the examination.

Abstract of Dissertation
Since the abstract of the dissertation is also published in Dissertation Abstracts International, it should be written with care and must be representative of the final draft of the dissertation. A shorter abstract for publication in Social Work Research and Abstracts is also required.

Final Oral Examination
Upon approval of the final draft of the dissertation by all members of the dissertation committee, the candidate must pass a general final oral examination. After the candidate successfully completes the final oral examination, the committee recommends the candidate to the Graduate School for the PhD degree.
Courses of Instruction

The terms indicated are expected but are not guaranteed. For the courses offered during any given term, consult the Schedule of Classes.

Arts, Technology and the Business of Innovation

ACAD 174 Innovators Forum
Units: 2 Max Units: 04 Terms Offered: FaSp Leaders in diverse disciplines, industries, and the arts present and discuss problems facing society and critique real-world projects that challenge the concept of innovation. Duplicates Credit in former ACAD 175 Instruction Mode: Lecture Grading Option: Letter

ACAD 176 Rapid Visualization
Units: 4 Terms Offered: FaSp Techniques, methods, concepts, tools, and materials that are used to quickly visualize and communicate ideas and develop problem-solving skills. Instruction Mode: Lecture Grading Option: Letter

ACAD 177 Digital Toolbox: Design
Units: 2 Terms Offered: FaSp Basics of industry-standard creative, analytical and presentation software. Applications include design, illustration, presentation and publishing. Instruction Mode: Lecture Grading Option: Letter

ACAD 178 Digital Toolbox: Motion Graphics
Units: 2 Terms Offered: FaSp Basics of industry standard software for motion graphics, visual effects, animation design, generative art and interactive visual experiences. Instruction Mode: Lecture Grading Option: Letter

ACAD 179 Digital Toolbox: Excel for Business Management
Units: 2 Terms Offered: Sp Eight-week course designed to provide a spreadsheet format to analyze information and build Microsoft Excel-based models for business management and creative data visualization. Registration Restriction: Open only to Arts, Technology and the Business of Innovation students. Instruction Mode: Lecture Grading Option: Letter

ACAD 180 Digital Toolbox: Sound and Audio
Units: 2 Terms Offered: FaSp Basics of industry-standard hardware and software used for designing, creating, processing and distributing sound and audio. Instruction Mode: Lecture Grading Option: Letter

ACAD 181g Disruptive Innovation
Units: 4 Terms Offered: Fa Critical approaches to social and cultural changes stemming from disruptive innovations in the arts, science, technology, communications, new media, politics and business. Satisfies New General Education in Category C: Social Analysis Registration Restriction: Open only to USC Iovine and Young Academy students. Instruction Mode: Lecture Grading Option: Letter

ACAD 182 Case Studies in Innovation
Units: 4 Terms Offered: FaSp Employing a case-study methodology, students analyze the artistic, technological, and entrepreneurial factors and address the conceptual, ethical, and logistical issues that lead to disruptive innovation. Instruction Mode: Lecture Grading Option: Letter

ACAD 187 Digital Toolbox: 3D Design
Units: 2 Terms Offered: FaSp Basics of industry standard software for modeling and rendering 3D materials, objects and lighting. Includes instruction in pipelines for 3D assets. Instruction Mode: Lecture Grading Option: Letter

ACAD 188 Digital Toolbox: Modeling Products I
Units: 2 Tools and techniques specific to CAD design and design improvements, focused on the ideation and development new products. Instruction Mode: Lecture Grading Option: Letter

ACAD 189 Digital Toolbox: Modeling Products II
Units: 2 An investigation of the tools and techniques specific to intermediate CAD design and design improvements, focused on the ideation and development new products. Corequisite: ACAD 188 Instruction Mode: Lecture Grading Option: Letter

ACAD 200 Advanced Sound and Audio
Units: 4 Terms Offered: FaSp An in-depth study of sound, acoustics, psychoacoustics, and the standard components of the audio signal chain, including microphones, mixers, interfaces, signal processors, amplifiers, loudspeakers, and audio-distribution systems. Recommended Preparation: ACAD 180. Instruction Mode: Lecture Grading Option: Letter

ACAD 202 Modeling Physical Systems
Units: 4 Terms Offered: Fa The physics of mechanics and motion is integrated with differential and integral calculus. The concepts are linked through a computational, problem-solving, methodology. Instruction Mode: Lecture, Lab Grading Option: Letter

ACAD 203 Statics
Units: 3 Terms Offered: FaSp (Enroll in AME 201)

ACAD 204 Strength of Materials
Units: 3 Terms Offered: FaSp (Enroll in AME 204)

ACAD 206 Communication and Culture
Units: 4 Terms Offered: FaSpSm (Enroll in COMM 206)

ACAD 207 Designing Narrative Media
Units: 4 Terms Offered: FaSp Students conceive and produce persuasive media-based narratives presenting new ideas, products and services. Students develop the requisite media production skills to drive impact through storytelling. Instruction Mode: Lecture Grading Option: Letter

ACAD 217 Designing Immersive Media
Units: 4 Students design and develop live immersive experiences in a variety of mediums including AR, VR and small- to large-scale interactive environments. Recommended Preparation: ACAD 207 Duplicates Credit in former ACAD 307 Instruction Mode: Lecture Grading Option: Letter

ACAD 240 Materials: Denim to Nanotubes
Units: 4 Terms Offered: Fa Covers the fundamentals of materials science and introduce students to the principles of designing with specific materials in mind. Instruction Mode: Lecture Grading Option: Letter

ACAD 245 Designing Products I
Units: 4 Terms Offered: FaSp An introductory course in learning how to design physical products, including the processes for determining consumer need, market opportunity and competitive product analysis. Prerequisite: ACAD 176 or DES 102 Instruction Mode: Lecture Grading Option: Letter

ACAD 255 Advancing Journalism with Human-Centered Design
Units: 4 Employing a human-centered design framework, students research and develop novel solutions to experience, collaboration and culture issues that pervade newsrooms worldwide. Instruction Mode: Lecture, Lab Grading Option: Letter Crosslisted as JOUR 255

ACAD 256 Designing for News and Information
Units: 4 Techniques and methods used to improve the user experience with digital and physical platforms for the delivery of news and information. Instruction Mode: Lecture, Lab Grading Option: Letter Crosslisted as JOUR 256

ACAD 260 Introduction to Healthcare Innovation
Units: 4 Terms Offered: FaSp Introductions to various health innovations, including pathways, technology, techniques and outcomes. A framework for innovation in healthcare and overview of tools for health innovators. Instruction Mode: Lecture, Lab Grading Option: Letter Crosslisted as MEDS 250

ACAD 261 Human Health and Technology
Units: 4 Terms Offered: FaSp Introduction to major concepts and theories on the biological, scientific and technological aspects of health care and disease prevention and management. mHealth, surveillance, electronic/personal health records, wearables, virtual/augmented realities, telehealth. Instruction Mode: Lecture, Lab Grading Option: Letter Crosslisted as MEDS 261

ACAD 275 Dev I
Units: 4 Terms Offered: Sp Web page design and creation, web objects, scripting and interactivity. Includes developing skills to design and build interactive websites. Duplicates Credit in former ITP 204 Instruction Mode: Lecture Grading Option: Letter

ACAD 276 Dev II
Units: 4 Terms Offered: Fa Fundamentals of server-side scripting and web technologies. Design and creation of data structures and databases. Visualize analytics and data. Prerequisite: ACAD 275 Instruction Mode: Lecture Grading Option: Letter
ACAD 277 Dev III: Designing Applications for Emerging Platforms
Units: 4 Max Units: 08 Terms Offered: Sp
An accelerated approach to object-oriented programming, including foundations of applications for devices, with a focus on user interface design. Prerequisite: ACAD 276 Instruction Mode: Lecture Grading Option: Letter
ACAD 280 Designing Digital Experiences
Units: 4 Terms Offered: Sp Designing elegant and powerful user interfaces and experiences for the ways people interact with data, devices, systems and digital environments. Prerequisite: ACAD 275 Instruction Mode: Lecture Grading Option: Letter
ACAD 281 Designing Live Experiences
Units: 4 Experience-based solutions for the design of branded environments and the development of prototypes that are entertaining, informational and inspirational. Prerequisite: ACAD 176 Recommended Preparation: Install Sketch up, Rhino, Solidworks, CAD, Vectorworks or similar to create site plans and elevations and/or renderings. Maker space training. Instruction Mode: Lecture, Lab Grading Option: Letter
ACAD 301 Understanding Play
Units: 4 Examines various theories of play and how shapes and defines human experiences. Instruction Mode: Lecture Grading Option: Letter
ACAD 302 The Hacker Imagination: from Ancient Greece to Cupertino
Units: 4 Exploring issues in innovation, design and invention from the perspective of the hacker imagination. Instruction Mode: Lecture Grading Option: Letter
ACAD 306 Innovation, Entertainment, and the Arts
Units: 4 Terms Offered: FaSpSm (Enroll in COMM 306)
ACAD 308 Computer-Aided Design for Bio-Mechanical Systems
Units: 3 (Enroll in ITP 308)
ACAD 309g Dreams & Madness: The Art of Japan's Golden Age of Animation
Units: 4 Terms Offered: FaSp An in-depth look at the art, politics, and cultural impact of several Japanese filmmakers including Isao Takahata, Hayao Miyazaki, Satoshi Kon, Mamoru Hosoda and Makoto Shinkai. Satisfies New General Education in Category A: The Arts Instruction Mode: Lecture Grading Option: Letter
ACAD 310 Launching Disruptive Ventures
Units: 4 Terms Offered: FaSp (Enroll in BAEP 310)
ACAD 311 Design for User Experience
Units: 4 Terms Offered: FaSp (Enroll in ITP 310)
ACAD 312L Materials Behavior and Processing
Units: 4 Terms Offered: FaSp (Enroll in MSC 310)
ACAD 315x Basics of Project and Operations Management for Non-Majors
Units: 2 Terms Offered: FaSp (Enroll in BUAD 315x)
ACAD 317 Designing Media Studio
Units: 4 Students design and develop advanced narrative, immersive and interactive multimedia experiences for existing and experimental platforms. Studio-based structure allows for individual projects and pacing. Recommended Preparation: ACAD 217 Duplicates Credit in former 407 Instruction Mode: Lecture Grading Option: Letter
ACAD 324g The Practice of Design: Ideation to Innovation
Units: 4 History and application of proven collaborative design processes and methodologies as they relate to ideation and innovation. Satisfies New General Education in Category A: The Arts Instruction Mode: Lecture Grading Option: Letter
ACAD 331x Influence and Collaboration
Units: 2 Terms Offered: FaSp (Enroll in MOR 331x)
ACAD 341 Android App Development
Units: 4 Terms Offered: FaSp (Enroll in ITP 341)
ACAD 342 iOS App Development
Units: 4 Terms Offered: FaSp (Enroll in ITP 342)
ACAD 343 Mobile Development for Content and Media
Units: 1 (Enroll in ITP 343)
ACAD 344 Advanced iOS App Development
Units: 4 Terms Offered: FaSp (Enroll in ITP 344)
ACAD 345 Designing Products II
Units: 4 A thorough look into developing a feasible consumer product through implementing all aspects of the R&D process, including consumer insights, competitive analysis, ideation and manufacturability. Prerequisites: ACAD 245 Corequisite: ACAD 188 Instruction Mode: Lecture Grading Option: Letter
ACAD 350 International Experience
Units: 2 Max Units: 06 Terms Offered: Sp International study tour providing in-depth and field-based knowledge in design, technology and/or business. Sites selected from the world's most exciting established and emerging innovation hubs. Instruction Mode: Lecture Grading Option: Letter
ACAD 352 Digital Audio Recording and Processing
Units: 4 Terms Offered: FaSp The principles, techniques, and aesthetics of digital audio recording and processing with an emphasis on mastering for multimedia integration. Recommended Preparation: ACAD 200. Instruction Mode: Lecture Grading Option: Letter
ACAD 354 Synthesis and Sound Design
Units: 4 Terms Offered: FaSp A comprehensive study of the elements of electronic synthesis and sampling, as well as the use of "live" and "found" audio recordings for creative sound design purposes. Recommended Preparation: ACAD 200 Instruction Mode: Lecture Grading Option: Letter
ACAD 356 Audio and Media Integration
Units: 4 Terms Offered: FaSp Methods and techniques for integrating audio into various media and applications including: film and video, Internet streaming, mobile devices, and other digital and computer applications. Recommended Preparation: ACAD 200 Instruction Mode: Lecture Grading Option: Letter
ACAD 360 Design Strategy: Problem Solving for Organizations
Units: 4 Terms Offered: Sp A professional, collaborative and multidisciplinary consulting approach to diagnosing problems and applying design-based solutions on behalf of organizations. Recommended Preparation: ACAD 181 and ACAD 182 Instruction Mode: Lecture Grading Option: Letter
ACAD 362 Analytics for Health Innovators
Units: 4 Terms Offered: FaSp Theory and methods of health data analytics, including foundational knowledge in statistical methods, data mining, big data applications, visual analytics and physician performance. Instruction Mode: Lecture, Lab Grading Option: Letter Crosslisted as MDES 362
ACAD 365 Managing Data in C++
Units: 4 Terms Offered: FaSp (Enroll in ITP 365)
ACAD 366 Designing Media for Social Change
Units: 4 Terms Offered: FaSpSm (Enroll in COMM 366)
ACAD 375 Business and Professional Communication
Units: 4 Terms Offered: FaSpSm (Enroll in COMM 375)
ACAD 376 Industry Practicum I: Designing and Implementing Real-World Solutions
Units: 4 Terms Offered: Fa Practicum through which students serve as design strategists for high-profile industry collaborators, and learn advanced methods and processes to solve problems in field-specific environments. Registration Restriction: Open only to Arts, Technology and the Business of Innovation majors Instruction Mode: Lecture Grading Option: Letter
ACAD 377 Industry Practicum II: Designing and Implementing Real-World Solutions
Units: 4 Terms Offered: Sp Advanced application of skills and concepts learned in ACAD 376. Prerequisite: ACAD 376 Registration Restriction: Open only to Arts, Technology and the Business of Innovation majors Instruction Mode: Lecture Grading Option: Letter
ACAD 382 Mobile Game Development
Units: 4 Terms Offered: Sp (Enroll in ITP 382)
ACAD 387x Cloud Architecture and Applications
Units: 4 (Enroll in ITP 387)
ACAD 401 Story Building for Inventors and Entrepreneurs
Units: 4 Methods and frameworks for active and inclusive storytelling across and within disciplines. Students will learn to strategically align their story with entrepreneurial vision and enterprise. Instruction Mode: Lecture Grading Option: Letter
ACAD 404 Advanced Front-End Web Development
Units: 4 Terms Offered: Fa (Enroll in ITP 404)
ACAD 405 Advanced Back-End Web Development  
Units: 4 Terms Offered: Sp (Enroll in ITP 405)  

ACAD 419 Professional Internship  
Units: 2 Max Units: 08 Terms Offered:  
FaSpSm An experiential/academic opportunity in an arts, technology and business related facility. Written analysis, evaluation, and working internship.  
Instruction Mode: Lecture Grading Option: Letter  

ACAD 425 Web Application Security  
Units: 4 Terms Offered: FaSp (Enroll in ITP 425)  

ACAD 442 Mobile App Project  
Units: 4 (Enroll in ITP 442)  

ACAD 445 Designing Products III  
Units: 4 An understanding of bringing a product to market through the process of determining consumer pain points, competitive analysis, marketability, feasibility, and the supporting business model. Prerequisite: ACAD 345 Instruction Mode: Lecture Grading Option: Letter  

ACAD 449 Data Mining: Descriptive and Predictive  
Units: 4 (Enroll in ITP 449)  

ACAD 450 Industry and Impact Projects  
Units: 2 Max Units: 08 Practicum in which student teams serve as design strategists for industry collaborators; advanced methods and processes to solve problems in collaborative, field-specific environments.  
Instruction Mode: Lecture, Lab Grading Option: Letter  

ACAD 460 Web Application Project  
Units: 4 Terms Offered: Sp (Enroll in ITP 460)  

ACAD 463 Evidence Based Medicine for Health Innovators  
Units: 2 Terms Offered: FaSp Introduction to evidence based medicine (EBM) for non-clinicians, including how EBM impacts health care. Includes basics of research, studies and systematic reviews. Prerequisite: ACAD 260 Instruction Mode: Lecture, economic analysis and the background of US GAAP fair value guidance.  
Instruction Mode: Lecture Grading Option: Letter  

ACAD 464 Mining Health Data Through Machine Learning  
Units: 4 Terms Offered: FaSp Explores both supervised and unsupervised machine learning tools to mine health data to gain insights for predictive analytics for health organizations. Includes deep learning technologies. Prerequisite: ACAD 362 Instruction Mode: Lecture, Lab Grading Option: Letter Crosslisted as MDES 464  

ACAD 467 Strategic Management of Innovation  
Units: 4 Terms Offered: Sp (Enroll in MOR 467)  

ACAD 475b The Garage Experience  
Units: 4 Terms Offered:  
Sp Continuation of ACAD 475a. Students refine and perfect outcomes, leading to a pitch/presentation to faculty and industry experts for funding or validation, and critical networking. Prerequisite: ACAD 475a Registration Restriction: Open only to seniors in Arts, Technology and the Business of Innovation major Instruction Mode: Lecture Grading Option: Letter  

ACAD 476 Technologies for Interactive Marketing  
Units: 4 (Enroll in ITP 476)  

ACAD 490 Directed Research  
Units: 1, 2, 3, 4 Max Units: 16 Terms Offered: FaSpSm Individual research and readings. Not available for graduate credit. Instruction Mode: Lecture Grading Option: Letter  

ACAD 491 Individual Instruction  
Units: 1, 2, 3, 4 Max Units: 16 Terms Offered: FaSpSm Weekly, individual instruction with an Academy professor for deep exploration and study within an Academy core discipline. Instruction Mode: Lecture Grading Option: Letter  

ACAD 499 Special Topics  
Units: 2, 3, 4 Max Units: 8.0 Comprehensive exploration of particular aspects of art, technology and the business of innovation. Instruction Mode: Lecture Grading Option: Letter  

ACAD 590 Directed Research  
Units: 1, 2, 3, 4, 5, 6, 7, 8 Max Units: 12.0 Terms Offered: FaSpSm Research leading to graduate degree. Maximum units which may be applied to degree determined by department. Instruction Mode: Lecture Grading Option: Credit/No Credit  

ACAD 599 Special Topics  
Units: 1, 2, 3, 4, 5, 6, 7, 8 Max Units: 8.0 Comprehensive exploration of particular aspects of art, technology and the business of innovation. Instruction Mode: Lecture Grading Option: Letter  

Accounting  

Major Restrictions  
Enrollment in most 500-level business courses by non-business graduate students requires special permission. For information about the registration application process for non-business students, visit the Schedule of Classes.  

ACCT 370 External Financial Reporting Issues  
Units: 4 Terms Offered: FaSp Understanding of decision-making, problem solving, and research skills as a supplement to financial accounting knowledge for accounting professionals.  
Prerequisite: BUAD 280 or BUAD 305 Instruction Mode: Lecture Grading Option: Letter  

ACCT 371 Introduction to Accounting Systems  
Units: 4 Terms Offered: FaSp Understanding of technology and controls needed to capture data used by professionals in financial and managerial accounting, auditing and taxation. Prerequisite: BUAD 281 or BUAD 305 Instruction Mode: Lecture, Discussion Grading Option: Letter  

ACCT 372 Internal Reporting Issues  
Units: 2 Terms Offered: FaSp Understanding of decision-making problem solving, and research skills as a supplement to managerial accounting knowledge for accounting professionals.  
Prerequisite: BUAD 281 or BUAD 305 Instruction Mode: Lecture Grading Option: Letter  

ACCT 373 Introduction to Auditing and Assurance Services  
Units: 2 Terms Offered: FaSp Exploration of the requisite skills and knowledge needed to offer services in assurance, attestation or auditing engagements. Prerequisite: ACCT 370 and ACCT 371. Instruction Mode: Lecture, Discussion Grading Option: Letter  

ACCT 374 Introduction to Tax Issues  
Units: 2 Terms Offered: FaSp Basic tax principles, introduction to U.S. federal, state and local tax systems, income and expense definitions, property transactions, and fundamentals of individual taxation.  
Prerequisite: BUAD 281 or BUAD 305 Instruction Mode: Lecture Grading Option: Letter  

ACCT 377 Valuation for Financial Statement Purposes  
Units: 2 Terms Offered: FaSp Explores Accounting Standards Codification (ASC) 820 "Fair Value Measurements and Disclosures" and reviews the historical background of US GAAP fair value guidance.  
Prerequisite: ACCT 370. Instruction Mode: Lecture Grading Option: Letter  

ACCT 380 Introduction to Enterprise Risk Management  
Units: 4 Terms Offered: FaSp Understand the concept of risk, risk assessment, and management frameworks. Learn to identify, analyze, manage and mitigate, and communicate this risk to stakeholders.  
Instruction Mode: Lecture Grading Option: Letter Crosslisted as BUAD 380  

ACCT 385 Introduction to Risk Management and Insurance  
Units: 4 Terms Offered: FaSp Understand the underlying economic, market, and business models of an organization (often an insurance carrier) willing to accept risk for diverse situations: property, life, healthcare. Credit Restriction: Not for Major Credit Instruction Mode: Lecture Grading Option: Letter Crosslisted as BUAD 385  

ACCT 387 Risk Management in Entertainment, Sports and the Arts  
Units: 4 Terms Offered: FaSp Knowledge and skills needed to identify, analyze, control, finance and report on the risks particular to entertainment, sports and the arts. Credit Restriction: Not for Major Credit Instruction Mode: Lecture Grading Option: Letter Crosslisted as BUAD 387  

ACCT 388x Innovating Risk Solutions in Disruptive Environments  
Units: 4 Terms Offered: FaSp Develop the skills needed to think critically about identified and assessed risks and develop innovative solutions to control and transfer those risks. Not available for major credit in Accounting. Credit Restriction: Not available for major credit in Accounting  
Instruction Mode: Lecture Grading Option: Letter Crosslisted as BUAD 388
ACCT 390 Special Problems
Units: 1, 2, 3, 4 Terms Offered: FaSpSm Supervised, individual studies. No more than one registration permitted. Enrollment by petition only. Instruction Mode: Lecture Grading Option: Letter

ACCT 410x Foundations of Accounting
Units: 4 Terms Offered: FaSp Sm Non-technical presentation of accounting for users of accounting information. Introduction to financial and managerial accounting. Not open to students with course credits in accounting. Not available for unit or course credit toward a degree in Accounting or Business. Registration Restriction: Not open to accounting and business majors Credit Restriction: Not available for unit or course credit toward a degree in Accounting or Business Instruction Mode: Lecture Grading Option: Letter

ACCT 415x Intermediate Financial Accounting for Non-Accounting Majors
Units: 4 Terms Offered: FaSp Sm In-depth study of balance sheet, income statement, and cash flow statement issued from the study of balance sheet, income statement, and cash flow statement issued from the perspective of a user (not preparer) of corporate financial reports. Not open to accounting majors. Prerequisite: ACCT 410x or BUAD 280 or BUAD 305 Registration Restriction: Not open to accounting majors Credit Restriction: Not available for degree credit to accounting majors Duplicates Credit in former ACCT 411x and ACCT 412x Instruction Mode: Lecture Grading Option: Letter

ACCT 416 Financial Reporting and Analysis
Units: 2 Terms Offered: FaSp Examination of the role of financial statement analysis in the prediction of a firm’s future financial performance. Prerequisite: (BUAD 215 or BUAD 306 or BUAD 308) and (ACCT 370 or ACCT 415) Instruction Mode: Lecture Grading Option: Letter

ACCT 430 Accounting Ethics
Units: 4 Terms Offered: FaSp Theoretical knowledge and practical application of accounting theory and principles. Prerequisites: ACCT 370. Credit/Duplicates Credit in former ACCT 444, BUAD 305, and GSBA 536 Instruction Mode: Lecture Development Option: Credit/No Credit

ACCT 442 The Ethics of Financial and Political Accountability
Units: 4 (Enroll in HIST 442) ACCT 451 Tax Analysis with Data Analytics
Units: 4 Terms Offered: FaSp Capabilities to identify and analyze relevant tax issues; apply research tools to find solutions and provide alternate approaches using data analytics. Prerequisite: BUAD 280 or BUAD 305 or ACCT 410x Registration Restriction: Open only to accounting majors Duplicates Credit in ACCT 374 and ACCT 474 Instruction Mode: Lecture, Lab Grading Option: Letter

ACCT 456 Auditing with Data Analytics
Units: 4 Terms Offered: FaSp Auditing with data analytics from the perspective of management and other users of financial statements including external auditors and assurance professionals. Prerequisite: ACCT 370 Registration Restriction: Open only to accounting majors Duplicates Credit in ACCT 373 and ACCT 473 Instruction Mode: Lecture, Discussion Grading Option: Letter

ACCT 462 Detecting Fraudulent Financial Reporting
Units: 2 Terms Offered: FaSp Understanding/Identifying methods of fraudulent financial reporting, and signals that financial statements were fudged; major frameworks for analyzing ethical dilemmas; reforms in corporate reporting environment. Prerequisite: ACCT 370 or ACCT 415x. Instruction Mode: Lecture Grading Option: Letter

ACCT 463 Internal Audit
Units: 2 Terms Offered: FaSp Examination of internal audit/auditors and their relationship to management, the investors, the regulators, and the external auditors. Prerequisite: ACCT 370 and (ACCT 373 or ACCT 456) Instruction Mode: Lecture Grading Option: Letter

ACCT 470 Advanced External Financial Reporting Issues
Units: 4 Terms Offered: FaSp Develop capabilities to identify and resolve advanced external financial reporting challenges, focusing primarily on operating, financing, and investing activities of business enterprises. Prerequisite: ACCT 370 Instruction Mode: Lecture Grading Option: Letter

ACCT 472 Managerial Accounting
Units: 2 Terms Offered: FaSp Understanding of systems providing cost information useful in management decision-making and problem solving. Prerequisite: ACCT 372. Instruction Mode: Lecture Grading Option: Letter

ACCT 473 Financial Statement Auditing
Units: 2 Terms Offered: FaSp Course builds on the background developed in ACCT 373, specifically the process used by external auditors to conduct financial statement audits. Prerequisite: ACCT 373. Instruction Mode: Lecture, Discussion Grading Option: Letter

ACCT 474 Tax Issues for Business
Units: 2 Terms Offered: FaSp Capabilities to identify and articulate tax issues related to a business entity’s life: formation, investing, financing, and operations, and change of form. Prerequisite: ACCT 374. Duplicates Credit in former ACCT 451. Instruction Mode: Lecture Grading Option: Letter

ACCT 476 Performance Measurement Issues
Units: 2 Terms Offered: FaSp Introduction to understanding how management control systems can enhance achievement of the organization’s objectives and strategies. Prerequisite: ACCT 410x or BUAD 281 or BUAD 305 Instruction Mode: Lecture Grading Option: Letter

ACCT 477 Intermediate Fair Value Issues in Accounting
Units: 2 Terms Offered: FaSp Develops the ability to identify and understand new areas of emerging guidance involving fair value issues and to recognize and demonstrate appropriate application of methodologies. Prerequisite: ACCT 377. Instruction Mode: Lecture Grading Option: Letter

ACCT 479 Accounting Systems Development
Units: 4 Terms Offered: FaSp Examines the fundamentals of accounting systems development. Introduction to the concepts of implementation and support with emphasis on system quality assurance, evaluation and attestation. Duplicates Credit in former ACCT 454 Instruction Mode: Lecture Grading Option: Letter

ACCT 490x Directed Research
Units: 1, 2, 3, 4, 5, 6, 7, 8 Max Units: 12.0 Terms Offered: FaSp Sm Individual research and readings. Credit Restriction: Not available for graduate credit. Instruction Mode: Lecture Grading Option: Letter

ACCT 493 Leventhal Honors Research Seminar
Units: 2 Terms Offered: Sp Provides the methodological tools to identify research problems, develop researchable hypotheses, apply appropriate methodologies, conduct research, derive meaningful conclusions from data, write a research proposal. Registration Restriction: Open only to Accounting and Business Majors Instruction Mode: Lecture Grading Option: Letter

ACCT 494 Marshall Honors Research and Thesis
Units: 2 Max Units: 04 Terms Offered: FaSp Sm Experience in conducting research and writing a thesis under supervision of a faculty adviser. Prerequisite: ACCT 493 or BUAD 493 Registration Restriction: Open only to Leventhal and Marshall Honors students Duplicates Credit in BUAD 494 Instruction Mode: Lecture Grading Option: Lecture/No Credit

ACCT 495 Accounting Internship: Work, Ethics and Communication
Units: 2 Terms Offered: Sp Provides "real world" experience. Recommended Preparation: ACCT 370, BUAD 305 Registration Restriction: Open only to accounting majors Instruction Mode: Lecture Grading Option: Lecture

ACCT 499 Special Topics
Units: 2, 3, 4 Max Units: 08 Terms Offered: FaSp Sm Selected topics reflecting current trends and recent developments in the field of accounting. Topics vary each semester. Instruction Mode: Lecture Grading Option: Letter

ACCT 509 Concepts of Financial and Management Accounting
Units: 4 Terms Offered: FaIntro to the concepts of financial and managerial accounting. The course will provide coverage of key concepts needed by managers of businesses in order to communicate information in decision-making. Registration Restriction: Not open to business or accounting majors Duplicates Credit in GSBA 510, GSBA 518 and GSBA 536 Instruction Mode: Lecture Grading Option: Letter

ACCT 525x Intensive Accounting Principles and Practices
Units: 15 Terms Offered: Sm Technical accounting theory and principles necessary for graduate work. Satisfies the prerequisite requirements for intermediate and
advanced accounting, auditing, and tax. Recommended Preparation: introductory accounting courses. Instruction Mode: Lecture Grading Option: Letter

ACCT 526 Global Accounting Experience
Units: 1.5 Terms Offered: Sp Cross-border transactions in the global economy examining accounting, legal, and tax environments, economic and political systems, and cultural differences. Includes international travel to selected region. Instruction Mode: Lecture Grading Option: Letter

ACCT 527 Financial Statement Analysis - Audit Perspective
Units: 1.5 Terms Offered: Sm Analysis of corporate financial reports to evaluate the firm’s past and present performance as well as to predict likely future performance from an auditor’s perspective. Prerequisite: ACCT 541L Registration Restriction: Online registration open only to Master of Accounting students Duplicates Credit in ACCT 581 Instruction Mode: Lecture Grading Option: Letter

ACCT 528 Fair Value Accounting: GAAP, IFRS and Emerging Issues
Units: 1.5 Terms Offered: FaSp Case study approach to explore fair value issues in accounting; research and analysis of causes of valuation differences. Registration Restriction: Online registration open only to graduate business and accounting majors Instruction Mode: Lecture Grading Option: Letter

ACCT 529 Tax Data Analytics
Units: 3 Terms Offered: Fa Tax analytics from a business perspective; sources of accounting data, introduction to database and ERP tools; application of data and analytics to tax issues. Corequisite: ACCT 551T and ACCT 561T Registration Restriction: Open only to Master of Business Taxation students Instruction Mode: Lecture Grading Option: Letter

ACCT 530L Ethics for Professional Accountants
Units: 3 Terms Offered: FaSp Provides the ethical grounding that accountants need to identify ethical issues and reconcile conflicts among competing stakeholder interests. Registration Restriction: Open only to business and accounting students. Instruction Mode: Lecture, Lab Grading Option: Letter

ACCT 531T Taxation of Cross-Border Transactions Using Data Analytics
Units: 3 Terms Offered: Fa Introduction to income taxation of cross-border transactions, state/local and multinational tax rules; application of data and analytics tools to multijurisdictional tax issues. Registration Restriction: Open only to Master of Business Taxation students Instruction Mode: Lecture Grading Option: Letter

ACCT 532 Financial Accounting for Mergers and Acquisitions
Units: 1.5 Terms Offered: FaSp Practical problems in accounting for business combinations. Consolidated financial statements: fair value, acquisition and equity basis accounting. Prerequisite: GSBA 510 Duplicates Credit in former ACCT 582 Instruction Mode: Lecture Grading Option: Letter

ACCT 533 Mergers and Acquisitions: Tax Planning and Strategy
Units: 1.5 Terms Offered: FaSp Tax planning and strategy in corporate restructuring including mergers, acquisitions, and divestitures. Tax background not required to be successful in this course. Prerequisite: GSBA 510 Duplicates Credit in former ACCT 582 Instruction Mode: Lecture Grading Option: Letter

ACCT 536 Advanced Cost Analysis and Management Accounting
Units: 3 Terms Offered: FaSp Sm Analysis and design of systems that provide cost information useful in making strategic and operating decisions. Advantages and limitations of activity-based costing systems. Registration Restriction: Open only to graduate business and accounting majors Instruction Mode: Lecture Grading Option: Letter

ACCT 537 Performance Measurement, Evaluation, and Incentives
Units: 3 Terms Offered: Sp Financial responsibility center, financial and nonfinancial performance measures, budgets and other targets, evaluation techniques and styles, incentives. Strategy implementation and execution. Corporate governance. Registration Restriction: Online registration limited to graduate accounting and business students Instruction Mode: Lecture Grading Option: Letter

ACCT 540 Technological Innovations in Accounting and Auditing
Units: 3 Terms Offered: Sp New, emerging and potential technologies for accounting and audit, emphasizing data and analytics. Actual and potential effects of new technologies in accounting and auditing settings. Registration Restriction: Online registration open only to Master of Accounting (Data and Analytics) students Instruction Mode: Lecture, Lab Required Grading Option: Letter

ACCT 541L Auditing in the Enhanced Data Age
Units: 3 Terms Offered: Fa Framework of the audit model including use of large data sets with automated audit tools. A lab environment is an integral part of the course. Corequisite: ACCT 548 Registration Restriction: Online registration open only to Master of Accounting (Data and Analytics) students Instruction Mode: Lecture, Lab Required Grading Option: Letter

ACCT 542 Fraud Analytics in the Audit
Units: 1.5 Terms Offered: Sm Understanding/identifying fraud risk from an auditor’s perspective; development of an analytics skillset to detect financial fraud risk. Prerequisite: ACCT 541L Registration Restriction: Online registration open only to Master of Accounting students Instruction Mode: Lecture Grading Option: Letter

ACCT 546 Auditing and Assurance Services
Units: 3 Terms Offered: FaSp Concepts and principles governing independent professional services that provide assurance on the reliability and relevance of information, including financial statement information. Topics include demand and supply issues for these services, basic principles of evidence, risk assessment and testing. Recommended Preparation: ACCT 525x. Instruction Mode: Lecture Grading Option: Letter

ACCT 547 Enterprise Information Systems
Units: 3 Terms Offered: Fa Focuses on accounting enterprise database models and information technology required to support those systems. Includes analysis and design of interfunctional processes through reengineering to exploit technology capabilities. Instruction Mode: Lecture Grading Option: Letter

ACCT 548L IT Audit and Data Applications
Units: 3 Terms Offered: Fa Exploration of the role systems play in organizations, the technology that supports these systems and issues relating to technology risk, system/application security and system review/audit. Corequisite: ACCT 541L. Registration Restriction: Online registration open only to graduate accounting majors Instruction Mode: Lecture, Lab Required Grading Option: Letter

ACCT 549 Advanced Enterprise Systems and Technologies
Units: 3 Terms Offered: Fa Design, control and development of advanced enterprise systems, using reengineering, focusing on accounting and financial systems, using a wide range of emerging existing technologies. Registration Restriction: Online registration open only to graduate accounting majors Instruction Mode: Lecture Grading Option: Letter

ACCT 550T Tax Research and Professional Responsibilities
Units: 3 Terms Offered: Fa Tax law research methods; interpreting statutes, cases and rulings; communicating research results; administration and professional responsibilities of tax practice. Registration Restriction: Online registration limited to graduate business taxation students Instruction Mode: Lecture Grading Option: Letter

ACCT 551T Taxation of Partnerships and S-Corps
Units: 3 Terms Offered: Fa Federal taxation of flow-through entities, including: partnerships, S corporations, limited liability companies (LLCs). Recommended Preparation: ACCT 550T or ACCT 560T or LAW 600. Instruction Mode: Lecture Grading Option: Letter

ACCT 554T Research, Theory and Ethics in Taxation
Units: 3 Terms Offered: Fa Basic theories of tax law, application of research tools, interpretation of statutes, cases and rulings, within the context of the professional responsibilities of tax practice. Registration Restriction: Online registration open only to graduate business taxation students Duplicates Credit in ACCT 550T, ACCT 560T Instruction Mode: Lecture Grading Option: Letter

ACCT 557 Advanced Financial Statement Auditing Topics
Units: 3 Terms Offered: FaSp Advanced coverage of topics in financial statement auditing including market effects of auditing, auditor litigation and client acceptance, errors and fraud, analytical procedures, and going-concern assessment.
Prerequisite: ACCT 525x. Instruction Mode: Lecture Grading Option: Letter

ACCT 558 Advanced Accounting Valuation
Units: 1.5 Terms Offered: Sp Explores complex valuation issues arising in financial reporting and the related professional standards and guidance. Prerequisite: ACCT 528. Instruction Mode: Lecture Grading Option: Letter

ACCT 559 Strategy and Operations Through CFO Lens
Units: 3 Terms Offered: FaSp Examination of strategic objectives and operations within specific industries and companies. Chief Financial Officers present how they view the business as a whole and measure performance effectively. Registration Restriction: Online registration limited to graduate business and accounting students. Instruction Mode: Lecture Grading Option: Letter

ACCT 560T Tax Theory and Ethics
Units: 3 Terms Offered: FaSp Taxation and its relationship to business and investment decisions; the effects of taxation on business organization, capital structure, policies, operation, and expansion. Recommended Preparation: An introductory tax course. Registration Restriction: Online registration limited to graduate business and accounting students. Instruction Mode: Lecture Grading Option: Letter

ACCT 561T Income Tax of Corporations and Their Shareholders
Units: 3 Terms Offered: FaSp Concepts and principles governing the taxation of corporations and their shareholders; the effect of taxes on corporate formation, capital structure, distributions, and liquidations. Recommended Preparation: ACCT 550T or ACCT 560T or LAW 600. Instruction Mode: Lecture Grading Option: Letter

ACCT 562 Methods and Motivations of Financial Reporting Fraud
Units: 1.5 Terms Offered: FaSp Discover and analyze signals of major and frequently committed financial reporting fraud; explore current reforms in financial reporting, auditing, and corporate governance. Recommended Preparation: ACCT 572 or other intermediate accounting course. Registration Restriction: Online registration open only to graduate business and accounting students. Instruction Mode: Lecture Grading Option: Letter

ACCT 563T Federal Estate and Gift Taxes
Units: 3 Terms Offered: FaSpSm Taxation of decedents’ estates and lifetime gifts; valuation of property subject to estate and gift taxes. Prerequisite: ACCT 550T. Registration Restriction: Online registration open only to graduate accounting students. Instruction Mode: Lecture Grading Option: Letter

ACCT 567T International Taxation
Units: 3 Terms Offered: FaSpSm Taxation of cross-border transactions of U.S. citizens and corporations and of U.S. source income of foreign persons and corporations; planning for organization of international operations under the tax laws. Prerequisite: ACCT 561T. Instruction Mode: Lecture Grading Option: Letter

ACCT 569T Advanced Partnership Taxation
Units: 3 Terms Offered: Sp Advanced tax concepts involving partnerships and limited liability companies, designed to produce a level of expertise exceeding Subchapter K of the Internal Revenue Code. Prerequisite: ACCT 551T. Instruction Mode: Lecture Grading Option: Letter

ACCT 570T State and Local Tax Concepts
Units: 3 State income taxes; property tax; other state and local taxes; the effect of state and local taxes on multistate operations. Prerequisite: ACCT 550T. Recommended Preparation: ACCT 551T or minimum one year of work in corporate taxation. Registration Restriction: Online registration open only to graduate students in Business Taxation. Instruction Mode: Lecture Grading Option: Letter

ACCT 571T Taxation of Business Owners and High-Net-Worth Individuals
Units: 3 Terms Offered: SpSm Application of tax law in areas of compensation planning, investment planning, tax shelters, and current developments relating to the individual taxpayer. Prerequisite: ACCT 550T. Registration Restriction: Online registration open only to graduate accounting students. Instruction Mode: Lecture Grading Option: Letter

ACCT 572 Corporate Accounting and Reporting
Units: 3 Terms Offered: FaSp A study of financial reporting and disclosure issues with an emphasis on the use of corporate financial statements and their accompanying footnotes. Prerequisite: GSBA 510. Registration Restriction: Not open to students with credit in equivalent subjects. Instruction Mode: Lecture Grading Option: Letter

ACCT 573T Federal Tax Procedure
Units: 3 Terms Offered: SpSm Tax reporting and collection procedures; administrative and judicial procedures governing tax controversies; the rights and obligations of the taxpayer. Prerequisite: ACCT 550T. Instruction Mode: Lecture Grading Option: Letter

ACCT 574T Accounting and Corporate Governance in Global Business
Units: 3 Terms Offered: Sp How corporate governance and financial reporting systems are influenced by business environments internationally. Global perspective of governance and reporting challenges and mechanisms for their remedy. Recommended Preparation: GSBA 510 or other Financial Accounting course. Registration Restriction: Online registration open only to graduate accounting and business students. Instruction Mode: Lecture Grading Option: Letter

ACCT 575T Taxation of Financial Markets
Units: 3 Terms Offered: Sm Taxation of financial market products with focus on derivative products. Basics of tax forwards, futures, options, swaps, collars and floor. Time value of money considerations. Prerequisite: ACCT 561T. Instruction Mode: Lecture Grading Option: Letter

ACCT 576T Tax Consolidations
Units: 3 Terms Offered: FaSp Concepts and principles of taxation of companies operating as consolidated groups. Prerequisite: ACCT 550T and ACCT 561T. Instruction Mode: Lecture Grading Option: Letter

ACCT 578T Advanced Corporate Taxation
Units: 3 Terms Offered: Sp Analysis of corporate divisions and reorganizations, carryovers, and other advanced topics in corporate taxation. Prerequisite: ACCT 561T. Instruction Mode: Lecture Grading Option: Letter

ACCT 579T Advanced International Taxation
Units: 3 Analysis of tax treaties, foreign currency transactions, international licensing, reorganization of foreign corporations, and other current topics as the law changes. Prerequisite: ACCT 568T. Instruction Mode: Lecture Grading Option: Letter

ACCT 580T Tax Accounting Methods
Units: 3 Terms Offered: FaSpSm Concepts governing timing of recognition of income and deductions for income tax purposes. Covers differences between GAAP and income tax accounting for all taxpayers. Prerequisite: ACCT 550T. Instruction Mode: Lecture Grading Option: Letter

ACCT 581 Financial Statement Analysis
Units: 3 Terms Offered: FaSpSm Analysis of corporate financial reports from a decision-maker's perspective. This course is case- and applications-oriented. Applications include credit analysis, equity valuation, and financial distress. Prerequisite: GSBA 510 Registration Restriction: Online registration limited to graduate accounting and business students. Duplicates Credit in ACCT 527. Instruction Mode: Lecture Grading Option: Letter

ACCT 583 Income Tax Accounting and Auditing
Units: 3 Terms Offered: FaSp Examination of FAS 109 and roles of auditors, tax professionals and corporate financial personnel in preparing, analyzing and reviewing accrual of income taxes. Prerequisite: ACCT 561T or ACCT 585. Registration Restriction: Online registration limited to graduate business and accounting students. Instruction Mode: Lecture Grading Option: Letter

ACCT 584 Family Wealth Preservation
Units: 3 Terms Offered: Sp Analysis of transfer of property during lifetime or at death from a tax saving perspective. Registration Restriction: Online registration limited to graduate business and accounting students. Instruction Mode: Lecture Grading Option: Letter

ACCT 585 Professional Responsibilities in Accounting
Units: 3 Terms Offered: SpSm A case study approach to the integration of accounting and auditing knowledge; research, communication, and interpersonal skills developed through extensive written and
presentation requirements. Recommended Preparation: ACCT 572 Registration Restriction: Online registration limited to graduate accounting students Instruction Mode: Lecture Grading Option: Letter

ACCT 587 Forensic Accounting
Units: 1.5, 3 Terms Offered: FaSp Role of the accountant in litigation matters. Identification and exploration of the analytical and communication tools necessary to be an effective forensic accountant. Prerequisite: ACCT 572. Instruction Mode: Lecture Grading Option: Letter

ACCT 590 Directed Research
Units: 1, 2, 3, 4 Research leading to the master's degree. Maximum units which may be applied to the degree to be determined by the School of Accounting. Maximum units which may be applied to the degree to be determined by the school. Instruction Mode: Lecture Grading Option: Credit/No Credit

ACCT 592 Field Research in Accounting
Units: 0.5, 1, 1.5, 2, 2.5, 3, 3.5, 4 Max Units: 12.0 Terms Offered: FaSpSm Individual or team projects studying the business practices of an industry, company, government agency, country, geographic region, etc. Proposal, data collection, analyses, and written report. Recommended Preparation: Completion of MAcc or MBT course work. Registration Restriction: Open only to master and doctoral students Instruction Mode: Lecture Grading Option: Credit/No Credit

ACCT 593 Independent Research in Accounting
Units: 0.5, 1, 1.5, 2, 2.5, 3, 3.5, 4 Max Units: 12.0 Terms Offered: FaSpSm Independent research beyond normal course offerings. Proposal, research and written report/paper required. Registration Restriction: Open only to master students Instruction Mode: Lecture Grading Option: Credit/No Credit

ACCT 595 Internship in Accounting
Units: 0.5, 1, 1.5, 2, 3, 3.5, 4 Max Units: 09 Supervised on-the-job business experience in the field of Accounting. (Curricular Practical Training). Application required. Recommended Preparation: Completion of required MAcc or MBT course work Registration Restriction: Open only to graduate accounting students Instruction Mode: Lecture Grading Option: Credit/No Credit

ACCT 596 Research Practicum in Accounting
Units: 0.5, 1, 1.5, 2 Max Units: 8.0 Terms Offered: FaSpSm Hands-on practical experience working with a Leventhal faculty member on an ongoing research project. Registration Restriction: Open only to master and doctoral students Instruction Mode: Lecture Grading Option: Credit/No Credit

ACCT 597 Consulting Project in Accounting
Units: 0.5, 1, 1.5, 2, 2.5, 3, 3.5, 4, 4.5, 5 Max Units: 12.0 Terms Offered: FaSp Individual or team project solving real business problems for an existing business entity, domestic and/or international. Proposal, field research, analyses and oral and written presentations. Instruction Mode: Lecture Grading Option: Credit/No Credit

ACCT 599 Special Topics
Units: 1, 1.5, 2, 3 Max Units: 09 Terms Offered: Irregular New developments in contemporary accounting. Specific topics vary each semester. Registration Restriction: Online registration limited to graduate business and accounting students Instruction Mode: Lecture Grading Option: Letter

ACCT 601 Applied Econometrics and Research Design
Units: 1.5 Terms Offered: Sp Develop a strong intuition for the research design methodologies commonly used in archival accounting research. Recommended Preparation: Graduate level Econometrics class Registration Restriction: Open only to Accounting PhD students Instruction Mode: Lecture Grading Option: Letter

ACCT 602 Judgment and Decision-Making Research in Accounting
Units: 1.5 Terms Offered: Irregular Key psychological drivers of judgment and decision-making research in accounting, covering key research questions and frequently used methods. Departmental approval. Instruction Mode: Lecture Grading Option: Letter

ACCT 604 Management Accounting and Control Systems Research
Units: 1.5 Terms Offered: Irregular Theories underlying management accounting research. Types of research methods used including laboratory and field experiments, survey studies and archival methods. Recommended Preparation: Working knowledge of business and a completed accounting course Registration Restriction: Open only to PhD students in business and accounting Instruction Mode: Lecture Grading Option: Letter

ACCT 605 Survey of Financial Reporting Research
Units: 3 Terms Offered: Fa Survey of major topics and methods in research on financial reporting with coverage of both key research questions and frequently used methods. Registration Restriction: Open only to Business Administration doctoral students. Instruction Mode: Lecture Grading Option: Letter

ACCT 606 Tax Research in Accounting
Units: 1.5 Terms Offered: Irregular Introduction to tax research in accounting and how it fits within the larger bodies of research in accounting, finance and economics. Recommended Preparation: Graduate level exposure to economics, econometrics and empirical research in financial accounting Registration Restriction: Open only to PhD students in business and accounting Instruction Mode: Lecture Grading Option: Letter

ACCT 608 Positive Accounting Research
Units: 3 Survey of major topics related to positive accounting research with coverage of both key research questions and frequently used methods. Instruction Mode: Lecture Grading Option: Letter

ACCT 610 Survey of Accounting Research
Units: 3 Terms Offered: FaSp Advanced seminar that surveys both seminal and cutting edge research in financial accounting, managerial accounting, accounting information systems, and tax accounting. Instruction Mode: Lecture Grading Option: Letter

ACCT 611 Selected Topics in Accounting Research
Units: 1.5 Max Units: 6.0 Terms Offered: FaSp Advanced seminar to address issues/topics covered in accounting research. Registration Restriction: Open only to doctoral students. Instruction Mode: Lecture Grading Option: Letter

ACCT 615 Financial Reporting Research
Units: 1.5 Terms Offered: Irregular Introduction to research in financial accounting; develop critical thinking skills for evaluating research; facilitate the generation of ideas for conducting original research. Recommended Preparation: Graduate level Econometrics course Registration Restriction: Open only to Accounting doctoral students Duplicates Credit in ACCT 605 Instruction Mode: Lecture Grading Option: Letter

ACCT 621 Research Forum
Units: 1 Max Units: 4.0 Terms Offered: FaSp Seminar. Review and discuss current research in Accounting. Presentations by faculty, visiting researchers and advanced students. Registration Restriction: Open only to Marshall Ph.D. students. Instruction Mode: Lecture Grading Option: Credit/No Credit

ACCT 624 Capital Markets Research in Accounting
Units: 1.5 Terms Offered: Fa Introduction to foundational capital markets research, the limitations of foundational archival capital markets research. Provide students with basis for identifying new opportunities. Recommended Preparation: Basic knowledge of accounting, finance, economics and statistics Registration Restriction: Open only to PhD students in Business and Accounting Instruction Mode: Lecture Grading Option: Letter

ACCT 626 Advanced Capital Markets Research in Accounting
Units: 1.5 Terms Offered: Fa Examination of accomplishments and limitations of advanced capital markets research. How to critically evaluate advanced capital markets research and identify new opportunities. Prerequisite: ACCT 624 Registration Restriction: Open only to PhD students in Business and Accounting Instruction Mode: Lecture Grading Option: Letter

ACCT 630 Auditing and Archival Research
Units: 1.5 Terms Offered: Sp Survey of major topics and methods in archival auditing research, research design methodologies, use of STATA and statistical modeling. Recommended Preparation: Graduate level econometrics course. Registration Restriction: Open only to PhD students in Accounting. Instruction Mode: Lecture Grading Option: Letter

ACCT 641 Debt Contracting and Banking Research
Units: 1.5 Terms Offered: Irregular Framework for understanding and evaluating empirical research in debt contracting and banking. Registration Restriction: Open only to Accounting doctoral students Instruction Mode: Lecture Grading Option: Letter
ACCT 642 Research on Disclosure and Information Intermediaries  
Units: 1.5 Terms Offered: Irregular  
Framework for understanding and evaluating empirical research in disclosure and information intermediaries. Focus on methodology and research design as well as underlying economic questions.  
Registration Restriction: Open only to Accounting doctoral students  
Instruction Mode: Lecture Grading Option: Letter

ACCT 643 Evaluating Earnings Quality  
Units: 1.5 Max Units: 03 Terms Offered: Fa  
Examination of multiple approaches researchers use to define earnings quality with a focus on investors as the primary users of financial statements. Registration Restriction: Open only to Marshall and Leventhal PhD students  
Instruction Mode: Lecture Grading Option: Letter

ACCT 661a Accounting Research Methodology  
Units: 2 Advanced doctoral seminar concerned with review and critique of accounting research forum papers and with the preparation, presentation, and defense of research proposals and papers.  
Instruction Mode: Lecture Grading Option: Letter

ACCT 661b Accounting Research Methodology  
Units: 2 Advanced doctoral seminar concerned with review and critique of accounting research forum papers and with the preparation, presentation, and defense of research proposals and papers.  
Instruction Mode: Lecture Grading Option: Letter

ACCT 669 Special Topics  
Units: 1, 1.5, 2, 3 Max Units: 08 Terms Offered: FaSpSm Exploration of emerging topics, literature and research techniques in continuing education.  
Registration Restriction: Open only to doctoral students  
Instruction Mode: Lecture Grading Option: Letter

Academic Medicine  
ACMD 501 Introduction to Academic Medicine Worldwide  
Units: 3 Introduces the master’s program; includes historical development of training in the health professions; current issues, challenges and opportunities in academic medicine and health worldwide.  
Instruction Mode: Lecture Grading Option: Letter

ACMD 502 Becoming a Leader in Academic Medicine Worldwide  
Units: 3 Current approaches to leadership within the context of global academic medicine and health professions education; individual applications, group dynamics, teamwork, and interpersonal skill enhancement.  
Instruction Mode: Lecture Grading Option: Letter

ACMD 503 Leading Change in Academic Medical Centers  
Units: 3 Exploration and practice of skills for promoting programs within academic medicine and health professions education; building trust, organizational change, conflict resolution, negotiation, and managing resources.  
Instruction Mode: Lecture Grading Option: Letter

ACMD 511 Competencies in Academic Medicine and Health I  
Units: 3 Acquisition of cognitive knowledge and problem-solving skills in health professions worldwide; instructional methods, assessment techniques, designing curricula for health professions education.  
Instruction Mode: Lecture Grading Option: Letter

ACMD 512 Competencies in Academic Medicine and Health II  
Units: 3 Learning theory, teaching methods, assessment techniques related to acquisition and reinforcement of competencies related to patient care, practice based learning and improvement and systems-based practice.  
Instruction Mode: Lecture Grading Option: Letter

ACMD 513 Professionalism in Academic Medicine and Health  
Units: 3 Acquisition and evaluation of interpersonal and communication skills and professionalism including ethics and cultural competence; within the context of health care disparities and health initiatives.  
Instruction Mode: Lecture Grading Option: Letter

ACMD 514 Accreditation and Program Evaluation in Academic Medicine  
Units: 3 Evaluating health professions training programs within guidelines of relevant accreditation organizations; models of evaluation, designing plans and tools for evaluation of program elements.  
Instruction Mode: Lecture Grading Option: Letter

ACMD 591 Designing Research on Innovations in Academic Medicine  
Units: 2 Introduction to design and scholarly review of innovations in health professions education; needs assessment, problem selection, unique research methods to study an innovation.  
Instruction Mode: Lecture Grading Option: Letter

ACMD 592 Implementing Research on Innovation in Academic Medicine  
Units: 2 Mentored research on an innovation in academic medicine leading to the master’s degree. The project will result in a formal written research report.  
Prerequisite: ACMD 591.  
Instruction Mode: Lecture Grading Option: Letter

ACMD 593 Foundations of Academic Writing  
Units: 1 Academic writing for conference papers, grant proposals and journal articles.  
Recommended Preparation: A completed study of an innovation in academic medicine or other health-related field that is ready to move to publication.  
Instruction Mode: Lecture Grading Option: Letter

ACMD 598 Fieldwork: Designing Innovations for the Health Professions  
Units: 1, 2, 3 Max Units: 3.0 Individual projects designing curricular or other innovations for the home program as an application of Year 1 concepts and as part of the capstone experience.  
Instruction Mode: Lecture Grading Option: Credit/No Credit

ACMD 604 Supporting the Educational Enterprise in Academic Medicine  
Units: 3 Explores support functions in academic medical centers and health professions schools; financial, scientific, educational, faculty and student affairs departments, and offices of medical education.  
Instruction Mode: Lecture Grading Option: Letter

ACMD 605 Faculty Development for Health Sciences  
Units: 2 Role of faculty development programs in health professions schools; tools for delivering effective continuing education and faculty development: models for mentoring clinical faculty.  
Instruction Mode: Lecture Grading Option: Letter

ACMD 615 Maintenance of Competence in the Health Professions  
Units: 2 Maintenance of competence and continuing professional development (CPD) of physicians and other health care professionals; trends, needs, strategies, assessing outcomes, examining effectiveness of CPD programs.  
Instruction Mode: Lecture Grading Option: Letter

ADNT 701 Research Methodologies in Dentistry  
Units: 2 Critical evaluation of the scientific principles in the development, execution, and interpretation of methodologies used in dentistry.  
Instruction Mode: Lecture Grading Option: Letter

ADNT 702 Physical Diagnosis  
Units: 2 Didactic and clinical experience in physical diagnosis relevant to practice of the dental specialties.  
Instruction Mode: Lecture Grading Option: Letter

ADNT 703a Seminar: Combined Treatment Planning  
Units: 2 Each Interdisciplinary consideration of complex cases which involve several of the dental specialties.  
Instruction Mode: Lecture Grading Option: Letter

ADNT 703b Seminar: Combined Treatment Planning  
Units: 2 Each Interdisciplinary consideration of complex cases which involve several of the dental specialties.  
Instruction Mode: Lecture Grading Option: Letter

ADNT 703c Seminar: Combined Treatment Planning  
Units: 2 Each Interdisciplinary consideration of complex cases which involve several of the dental specialties.  
Instruction Mode: Lecture Grading Option: Letter

ADNT 703d Seminar: Combined Treatment Planning  
Units: 2 Each Interdisciplinary consideration of complex cases which involve several of the dental specialties.  
Instruction Mode: Lecture Grading Option: Letter

ADNT 703e Seminar: Combined Treatment Planning  
Units: 2 Each Interdisciplinary consideration of complex cases which involve several of the dental specialties.  
Instruction Mode: Lecture Grading Option: Letter

ADNT 703f Seminar: Combined Treatment Planning  
Units: 2 Each Interdisciplinary consideration of complex cases which involve several of the dental specialties.  
Instruction Mode: Lecture Grading Option: Credit/No Credit
ADNT 703h Seminar: Combined Treatment Planning
Units: 2 each Interdisciplinary consideration of complex cases which involve several of the dental specialties. Instruction Mode: Lecture Grading Option: Credit/No Credit

ADNT 703i Seminar: Combined Treatment Planning
Units: 2 each Interdisciplinary consideration of complex cases which involve several of the dental specialties. Instruction Mode: Lecture Grading Option: Credit/No Credit

ADNT 703j Seminar: Combined Treatment Planning
Units: 2 each Interdisciplinary consideration of complex cases which involve several of the dental specialties. Instruction Mode: Lecture Grading Option: Credit/No Credit

ADNT 704a Oral Biology
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13 each Interdisciplinary consideration of contemporary biology of the cell, bone, teeth, periodontium, occlusion, dental pulp, pain and human growth and development. Instruction Mode: Lecture Grading Option: Letter

ADNT 704b Oral Biology
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13 each Interdisciplinary consideration of contemporary biology of the cell, bone, teeth, periodontium, occlusion, dental pulp, pain and human growth and development. Instruction Mode: Lecture Grading Option: Letter

ADNT 704c Oral Biology
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13 each Interdisciplinary consideration of contemporary biology of the cell, bone, teeth, periodontium, occlusion, dental pulp, pain and human growth and development. Instruction Mode: Lecture Grading Option: Letter

ADNT 706 Seminar: Diseases of Childhood
Units: 2 Intrarital hard and soft tissue pathology, conditions in children, common bacterial and viral diseases and their transmission in the pediatric dental environment. Instruction Mode: Lecture Grading Option: Credit/No Credit

ADNT 707 Behavior of the Child Patient
Units: 2 Child and adolescent psychological growth and development: Human communication, needs, motivation, and learning. Critical analysis of patient management, team treatment, and practice administration. Instruction Mode: Lecture Grading Option: Letter

ADNT 710 Internship: Dental Education
Units: 1, 2, 3, 4, 5 Practical experience teaching predoctoral students. Units and hours variable. Instruction Mode: Lecture Grading Option: Letter

Addiction Science
ADSC 250 Foundations in Addiction Science
Units: 4 Terms Offered: FaSp Transdisciplinary study of addiction science bridging the gap between science, practice and policy. Explores facets of addiction and applies theories to the study of addiction. Registration Restriction: Open only to Addiction Science graduate students. Instruction Mode: Lecture Grading Option: Letter

ADSC 501 Foundations in Addiction Science
Units: 4 Terms Offered: FaSp Transdisciplinary study of addiction science bridging the gap between science, practice and policy. Explores facets of addiction and applies theories to the study of addiction. Registration Restriction: Open only to Addiction Science graduate students. Instruction Mode: Lecture Grading Option: Letter

ADSC 505a Research Methods in Addiction Science
Units: 4 Terms Offered: Fa Introduces research in addiction sciences through directed readings, live lectures and development of an independent research project. Concurrent Enrollment: ADSC 501 Registration Restriction: Open only to Addiction Science graduate students. Instruction Mode: Lecture Grading Option: Letter

ADSC 505b Research Methods in Addiction Science
Units: 4 Terms Offered: Sp Real-world implementation of an observational research study in addiction science that teaches subject recruitment, survey administration, data collection and analysis, and dissemination of study results. Prerequisite: ADSC 505a Registration Restriction: Open only to Addiction Science graduate students. Instruction Mode: Lecture Grading Option: Letter

ADSC 506 Considerations in Addiction Science for Practitioners
Units: 4 Terms Offered: FaSp Introduces students to issues related to evidenced-based approaches to substance abuse interventions in the context of the organizations in which they are commonly delivered. Prerequisite: ADSC 501 Registration Restriction: Open only to Addiction Science graduate students. Instruction Mode: Lecture Grading Option: Letter

AEROSPACE STUDIES
AEST 100a Aerospace Studies I: Air Force Mission and Organization
Units: 1 Terms Offered: FaSp Introduction to U.S. Air Force and the military profession; USAF organization and functions; Strategic Air Command organization, command, control, and weapons systems; communication skills. Instruction Mode: Lecture Grading Option: Letter

AEST 100b Aerospace Studies I: Air Force Mission and Organization
Units: 1 Terms Offered: FaSp Organization and function of NORAD; tactical air, military airlift, systems, logistics, air training and communications commands; Army, Navy, Marines; reserves; separate operating agencies. Instruction Mode: Lecture Grading Option: Letter

AEST 110a Leadership Laboratory I
Units: 1 Terms Offered: FaSp Introduction to the military experience focusing on customs and courtesies, drill and ceremonies, and the environment of an Air Force officer. Instruction Mode: Lecture Grading Option: Credit/No Credit

AEST 110b Leadership Laboratory I
Units: 1 Terms Offered: FaSp Introduction to the military experience focusing on customs and courtesies, drill and ceremonies, and the environment of an Air Force officer. Instruction Mode: Lecture Grading Option: Credit/No Credit

AEST 200a Leadership Laboratory II
Units: 1 Terms Offered: FaSp Development of aerospace power in the U.S. through World War II; emphasis on the Army Air Corps; communication skills. Instruction Mode: Lecture Grading Option: Letter

AEST 200b Leadership Laboratory II
Units: 1 Terms Offered: FaSp Development of aerospace power since World War II; emphasis on international confrontations involving the United States; communication skills. Instruction Mode: Lecture Grading Option: Letter

AEST 210a Leadership Laboratory II
Units: 1 Terms Offered: FaSp Introduction to the military experience focusing on customs and courtesies, drill and ceremonies, and the environment of an Air Force officer. Instruction Mode: Lecture Grading Option: Credit/No Credit

AEST 210b Leadership Laboratory II
Units: 1 Terms Offered: FaSp Introduction to the military experience focusing on customs and courtesies, drill and ceremonies, and the environment of an Air Force officer. Instruction Mode: Lecture Grading Option: Credit/No Credit

AEST 220a Advanced Leadership Laboratory II
Units: 1 Terms Offered: FaSp Additional exposure to the military experience for continuing AFROTC cadets, focusing on customs and courtesies, drill and ceremonies, and the environment of an Air Force officer. Instruction Mode: Lecture Grading Option: Credit/No Credit

AEST 220b Advanced Leadership Laboratory II
Units: 1 Terms Offered: FaSp Additional exposure to the military experience for continuing AFROTC cadets, focusing on customs and courtesies, drill and ceremonies, and the environment of an Air Force officer. Instruction Mode: Lecture Grading Option: Credit/No Credit

AEST 300a Aerospace Studies III: Air Force Management and Leadership
Units: 3 Terms Offered: FaSp Air Force management focusing on the new manager in the Air Force milieu. Emphasis on communication skills peculiar to the Air Force. Instruction Mode: Lecture Grading Option: Credit/No Credit

AEST 300b Aerospace Studies III: Air Force Management and Leadership
Units: 3 Terms Offered: FaSp Air Force management focusing on the new manager in the Air Force milieu. Emphasis on communication skills peculiar to the Air Force. Instruction Mode: Lecture Grading Option: Credit/No Credit

AEST 310a Leadership Laboratory III
Units: 1 Terms Offered: FaSp Practical introduction to Air Force leadership focusing on military communicative skills, group dynamics, and application of theories of leadership and management. Instruction Mode: Lecture Grading Option: Credit/No Credit

AEST 310b Leadership Laboratory III
Units: 1 Terms Offered: FaSp Practical introduction to Air Force leadership focusing on military communicative skills, group dynamics, and application of theories of leadership and management. Instruction Mode: Lecture Grading Option: Credit/No Credit
introduction to Air Force leadership focusing on military communicative skills, group dynamics, and application of theories of leadership and management. Instruction Mode: Lecture Grading Option: Credit/No Credit

AEST 400a Aerospace Studies IV: National Security Forces in Contemporary American Society Units: 3 Terms Offered: Fa Offering focuses on military professionalism and the context in which defense policy is formulated and implemented; national security policy, political/social constraints, and military justice. Instruction Mode: Lecture Grading Option: Letter

AEST 400b Aerospace Studies IV: National Security Forces in Contemporary American Society Units: 3 Terms Offered: Fa Offering focuses on military professionalism and the context in which defense policy is formulated and implemented; national security policy, political/social constraints, and military justice. Instruction Mode: Lecture Grading Option: Letter

AEST 410a Leadership Laboratory IV Units: 1 Terms Offered: Fa Offering focuses on the practical development of the Air Force officer through command and staff positions within the Cadet Corps. Instruction Mode: Lecture Grading Option: Credit/No Credit

AEST 410b Leadership Laboratory IV Units: 1 Terms Offered: Fa Offering focuses on the practical development of the Air Force officer through command and staff positions within the Cadet Corps. Instruction Mode: Lecture Grading Option: Credit/No Credit

AEST 420a Leadership Laboratory V Units: 1 Terms Offered: Fa Offering focuses on the practical development of the Air Force officer through command and staff positions within the Cadet Corps. Instruction Mode: Lecture Grading Option: Credit/No Credit

AEST 420b Leadership Laboratory V Units: 1 Terms Offered: Fa Offering focuses on the practical development of the Air Force officer through command and staff positions within the Cadet Corps. Instruction Mode: Lecture Grading Option: Credit/No Credit

Art History

AHIS 100g Introduction to Visual Culture Units: 4 Terms Offered: Sp Offering focuses on the description and analysis of various forms of visual culture, including both mass media and "high" art representations, both Western and non-Western images. Satisfies New General Education in Category B: Humanistic Inquiry Satisfies Old General Education in Category V: Arts and Letters Instruction Mode: Lecture, Discussion Grading Option: Letter

AHIS 121gp Foundations of Western Art: Renaissance to Contemporary Units: 4 Terms Offered: FaSpSm Offering focuses on the history of Western art from the Renaissance to the present. Satisfies New General Education in Category A: The Arts Satisfies Global Perspective in Category H: Traditions and Historical Foundations Satisfies Old General Education in Category I: Western Cultures and Traditions Instruction Mode: Lecture, Discussion Grading Option: Letter

AHIS 125gp Arts of Asia I: Antiquity to 1300 Units: 4 Terms Offered: Fa Offering focuses on the art and architecture of Asia from its earliest beginnings to the end of the Mongol Yuan dynasty. Satisfies New General Education in Category A: The Arts Satisfies Global Perspective in Category H: Traditions and Historical Foundations Satisfies Old General Education in Category I: Global Cultures and Traditions Instruction Mode: Lecture, Discussion Grading Option: Letter

AHIS 126g Arts of Asia II: 1300 to the Present Units: 4 Terms Offered: Sp Offering focuses on the art and architecture of Asia from the end of the Mongol Yuan dynasty to the present. Satisfies New General Education in Category A: The Arts Satisfies Global Perspective in Category H: Traditions and Historical Foundations Satisfies Old General Education in Category I: Global Cultures and Traditions Instruction Mode: Lecture, Discussion Grading Option: Letter

AHIS 127g Arts of the Ancient Americas Units: 4 Terms Offered: Fa Offering focuses on the art and architecture of ancient Mesoamerica and the South American Andean Mountains. Satisfies New General Education in Category B: Humanistic Inquiry Satisfies Old General Education in Category I: Global Cultures and Traditions Instruction Mode: Lecture, Discussion Grading Option: Letter

AHIS 128gp The Arts and Society in Latin America, Colonial to Contemporary Units: 4 Terms Offered: Sp Offering focuses on the history of Latin America from the colonial period to the present, focusing on connections to culture and society. Satisfies New General Education in Category A: The Arts Satisfies Global Perspective in Category H: Traditions and Historical Foundations Satisfies Old General Education in Category I: Global Cultures and Traditions Instruction Mode: Lecture, Discussion Grading Option: Letter

AHIS 130 A History of Modern Design Units: 4 Terms Offered: FaSp Offering focuses on the history of modern design in the United States and Europe, with reference to design traditions elsewhere around the globe. Instruction Mode: Lecture Grading Option: Letter

AHIS 201g Digging into the Past Units: 4 Terms Offered: Sp Offering focuses on the history of the ancient world from the perspective of archaeology and material culture. Instruction Mode: Lecture, Discussion Grading Option: Letter

AHIS 220g Medieval Visual Culture Units: 4 Terms Offered: Fa Offering focuses on the visual culture of medieval Europe and its legacy. Satisfies New General Education in Category A: The Arts Satisfies Old General Education in Category I: Western Cultures and Traditions Instruction Mode: Lecture Grading Option: Letter

AHIS 230 Art and Culture in Early Modern Europe Units: 4 Terms Offered: Fa Offering focuses on the visual culture of early modern Europe and its legacy. Satisfies New General Education in Category A: The Arts Satisfies Old General Education in Category I: Western Cultures and Traditions Instruction Mode: Lecture Grading Option: Letter

AHIS 240g Introduction to American Art Units: 4 Terms Offered: Fa Offering focuses on the visual culture of early modern Europe and its legacy. Satisfies New General Education in Category A: The Arts Satisfies Old General Education in Category I: Western Cultures and Traditions Instruction Mode: Lecture Grading Option: Letter

AHIS 250gm Art, Modernity and Difference Units: 4 Terms Offered: Fa Offering focuses on the visual culture of early modern Europe and its legacy. Satisfies New General Education in Category A: The Arts Satisfies Old General Education in Category I: Western Cultures and Traditions Instruction Mode: Lecture Grading Option: Letter

AHIS 255g Culture Wars: Art and Social Conflict in the Modern World Units: 4 Terms Offered: Fa Offering focuses on the visual culture of early modern Europe and its legacy. Satisfies New General Education in Category A: The Arts Satisfies Old General Education in Category I: Western Cultures and Traditions Instruction Mode: Lecture Grading Option: Letter

AHIS 270 L.A. Now: Contemporary Art in Los Angeles Units: 4 Terms Offered: Fa Offering focuses on the visual culture of early modern Europe and its legacy. Satisfies New General Education in Category A: The Arts Satisfies Old General Education in Category I: Western Cultures and Traditions Instruction Mode: Lecture Grading Option: Letter
AHIS 282 Korean Art
Units: 4 Introduction to the richness and complexity of artistic expression in Korean art through the study of painting, sculpture, ceramics, and architecture through the 19th century. Instruction Mode: Lecture Grading Option: Letter
AHIS 301 Guardians of the Past? Art Preservation, Ethics, and the Law
Units: 4 Terms Offered: FaSp An introduction to key ethical, historical, and legal debates about art preservation and collecting across the globe. Instruction Mode: Lecture Grading Option: Letter
AHIS 304gm Art, Power and Identity in Renaissance Italy
Units: 4 Terms Offered: FaSp Introduction to key ethical, historical, and legal debates about art preservation and collecting across the globe. Instruction Mode: Lecture Grading Option: Letter
AHIS 318 Arts of the Ancient Andes
Units: 4 Survey of the art and architecture of the ancient cultures of the Andes in South America. Instruction Mode: Lecture Grading Option: Letter
AHIS 319 Mesoamerican Art and Culture
Units: 4 An introductory survey of painting, sculpture, and architecture of Mesoamerica before the Spanish conquest presented in their social, cultural, and political contexts. Instruction Mode: Lecture Grading Option: Letter Crosslisted as ETS-T 319
AHIS 320 Aegean Archaeology
(Enroll in CLAS 323)
AHIS 321 Greek Art and Archaeology
Units: 4 Terms Offered: FaSp Survey of artistic works and monuments of ancient Greece from the Geometric through the Hellenistic period (c. 1000 - 30 BCE.). Instruction Mode: Lecture Grading Option: Letter Crosslisted as CLAS 321
AHIS 322 Roman Art and Archaeology
Units: 4 Terms Offered: Sp Survey of the art and architecture of ancient Rome and its empire, from the beginnings of the city through Constantine (8th century BCE to 4th century CE). Instruction Mode: Lecture Grading Option: Letter Crosslisted as CLAS 322
AHIS 324 Late Antique Art and Archaeology
Units: 4 (Enroll in CLAS 324)
AHIS 325 Roman Archaeological Excavation: Methods and Practice
Units: 4 Terms Offered: Sp Sm Students learn about archaeological methodology and practice by visiting archaeological sites in Rome and excavating a nearby ancient site. Instruction Mode: Lecture Grading Option: Letter
AHIS 326 Archaeology of Religion in the Greco-Roman World
Units: 4 (Enroll in CLAS 328)
AHIS 328 Colonial Latin American Art
Units: 4 Terms Offered: FaSp A survey of the art, architecture, and visual culture of colonial Latin America, focusing on connections to culture and society. Instruction Mode: Lecture Grading Option: Letter
AHIS 330 Medieval Art
Units: 4 An introductory survey of art and architecture of Christianity from 300–1300; biblical themes and classical traditions; cultural and historical analysis of medieval art. Instruction Mode: Lecture Grading Option: Letter
AHIS 336 Bodies of Knowledge: Art and Anatomy in Renaissance Europe
Units: 4 Terms Offered: FaSp Examines anatomical knowledge and art making in Renaissance Europe, focusing on collaborations between medical professionals, printers and artists in illustrated anatomy books. Recommended Preparation: AHIS 120 Instruction Mode: Lecture Grading Option: Letter
AHIS 342 Northern Renaissance Art
Units: 4 Terms Offered: FaSp Survey of the visual culture of northern Europe from about 1400 to 1600, with an emphasis on painting, sculpture and print-making. Instruction Mode: Lecture Grading Option: Letter
AHIS 343 Renaissance Art
Units: 4 Painting, sculpture and architecture in Renaissance Europe, north and south, from 1300–1600. Recommended Preparation: AHIS 120 or AHIS 121. Duplicates Credit in former AHIS 340 and AHIS 342. Instruction Mode: Lecture Grading Option: Letter
AHIS 344 Baroque Art
Units: 4 Painting, sculpture and architecture in 17th century Europe, north and south. Duplicates Credit in former AHIS 353 and AHIS 356. Instruction Mode: Lecture Grading Option: Letter
AHIS 345 Northern Baroque Art
Units: 4 Terms Offered: FaSpSm Explores how iconoclasm shaped artistic production in the sixteenth and seventeenth centuries in the Netherlands. Instruction Mode: Lecture Grading Option: Letter
AHIS 346 Art Across Cultures
Units: 4 Terms Offered: FaSp Visual materials and artifacts and how they participated in the experience of encounter, exchange, interpretation and representation among different and often distant cultures. Instruction Mode: Lecture Grading Option: Letter
AHIS 357 History of French Art
1860–1920
Units: 4 Terms Offered: Sp (Paris Semester only) Exploration of the main movements of late 19th and early 20th century French art using the resources of Parisian museums and monuments. Visits to Paris museums are an integral part of the course work. Recommended Preparation: familiarity with modern European history. Instruction Mode: Lecture Grading Option: Letter
AHIS 361 British Modernism, 1780-1918
Units: 4 A survey of art and architecture in Britain from the age of Hogarth to Art Nouveau. Among the artists studied are Constable, Turner, and the Pre-Raphaelites. Duplicates Credit in the former AHIS 461 Instruction Mode: Lecture Grading Option: Letter
AHIS 363m Contemporary Art and the Culture Wars
Units: 4 Focuses on issues of race, gender, and sexuality in American art of the last three decades. Recommended Preparation: AHIS 121gp Instruction Mode: Lecture Grading Option: Letter
AHIS 364 Myths, Arts, Realities: Visual Culture in California, 1849 to the Present
Units: 4 Diverse interpretations of “the California experience and lifestyle” in paintings, sculpture, photography, cinema, public art and popular culture of the last 150 years. Instruction Mode: Lecture Grading Option: Letter
AHIS 365m African American Art
Units: 4 A survey of the fine arts produced by people of African descent in the United States from the nation’s inception in the late 18th century until the contemporary movement. Instruction Mode: Lecture Grading Option: Letter Crosslisted as AMST-364
AHIS 366g Picturing Democracy: American Art and Visual Culture, 1750-1900
Units: 4 Terms Offered: FaSp Studies the art and visual culture of the United States from nation formation to the World’s Columbian Exposition of 1893. Recommended Preparation: any 100-level Art History course Satisfies New General Education in Category A: The Arts Instruction Mode: Lecture Grading Option: Letter
AHIS 367g Early American Modernism: American Art and Visual Culture, 1876-1939
Units: 4 Terms Offered: FaSp Studies the art and visual culture of the United States between 1876, the date of the Centennial Fair in Philadelphia, to the eve of World War II. Recommended Preparation: any 100-level art history course Satisfies New General Education in Category A: The Arts Instruction Mode: Lecture, Discussion Grading Option: Letter
AHIS 368 Modern Art I: 1700–1850
Units: 4 A cultural and historical examination of European art and architecture from 1700 (Rococo) to 1850 (Realism), focusing on the beginnings of modernism in the age of revolution. Duplicates Credit in former AHIS 360. Instruction Mode: Lecture Grading Option: Letter
AHIS 369 Modern Art II: 1851–1940
Units: 4 An examination of European modern art and design, focusing on industrialization, urbanism, primitivism, colonialism, and their relations to the arts. Instruction Mode: Lecture Grading Option: Letter
AHIS 370g Modern Art III: 1940 to the Present
Units: 4 Terms Offered: Sp Questions of social engagement and political structure address this examination of major international movements in art since 1940. Satisfies New General Education in Category A: The Arts Instruction Mode: Lecture Grading Option: Letter
AHIS 373g History and Theory of Photography
Units: 4 Terms Offered: Irregular Explores key moments in the history of photography from its invention to the present. Issues include modernity and mass culture; photography as a fine art; technologies of vision. Satisfies New General Education
in Category A: The Arts Instruction Mode: Lecture, Discussion Grading Option: Letter
AHIS 376 Introduction to African Art
Units: 4 An introduction to sub-Saharan art (ceramic, textiles, architecture, masquerades, performances and body arts) in the context of issues of function, gender, politics and ethnic diversity. Instruction Mode: Lecture Grading Option: Letter
AHIS 378 Modern Russian Art
Units: 4 (Enroll in SLL 378)
AHIS 381 Visual Cultures of Asia
Units: 4 Terms Offered: FaSp Exploration of one or more major traditions of visual culture in Asia through cross-cultural, interdisciplinary perspectives. Satisfies New General Education in Category B: Humanistic Inquiry Instruction Mode: Lecture, Discussion Grading Option: Letter Crosslisted as EALC 381
AHIS 382 Art and Cultural Heritage in East Asia
Units: 4 Terms Offered: FaSpSm (Enroll in EALC 382)
AHIS 384 Early Chinese Art
Units: 4 A survey of Chinese architecture, ceremonial bronzes, sculpture, ceramics and painting from antiquity through the T'ang Dynasty. Instruction Mode: Lecture Grading Option: Letter Crosslisted as EALC-384
AHIS 385 Later Chinese Art
Units: 4 A survey of Chinese painting from 900 to the present, emphasizing the role of painting within the context of Chinese intellectual history. Instruction Mode: Lecture Grading Option: Letter Crosslisted as EALC-385
AHIS 386 Early Japanese Art
Units: 4 A survey of Japanese Buddhist and secular architecture, sculpture and painting from antiquity to 1333, stressing the relation of art to cultural context. Instruction Mode: Lecture Grading Option: Letter Crosslisted as EALC-386
AHIS 387 Later Japanese Art
Units: 4 A survey of Japanese architecture, garden design, ceramics, and painting from 1333 to the present, stressing the role of art within cultural context. Instruction Mode: Lecture Grading Option: Letter Crosslisted as EALC-387
AHIS 390 Special Problems
Units: 1 Max Units: 4.0 Supervised, individual studies. No more than one registration permitted. Enrollment by petition only. Instruction Mode: Lecture Grading Option: Letter
AHIS 400x Undergraduate Apprenticeship
Units: 2 Max Units: 4.0 Terms Offered: FaSpSm Independent work in art museums, galleries or art history related institutes supervised by on-site professionals and USC faculty. Not available for credit to art history majors. Available to upper-division art history majors only. Instruction Mode: Lecture Grading Option: Credit/No Credit
AHIS 415 Object-Worlds: Histories and Theories of Things
Units: 4 Developing strategies for analyzing what material culture of the past can tell us about the individuals and cultures that interacted with it. Instruction Mode: Lecture Grading Option: Letter Crosslisted as CLAS 415, ARCS 415
AHIS 420 Studies in Ancient Art
Units: 4 Max Units: 16.0 Terms Offered: Irregular In-depth exploration of specified topics within the area of Ancient art and architecture. Instruction Mode: Lecture Grading Option: Letter
AHIS 425 Interdisciplinary Studies in Classical Art and Archaeology: Research and Methodology
Units: 4 Max Units: 8.0 Terms Offered: Irregular Each year a different topic in Greek and Roman art and archaeology will be examined in depth. Emphasis on interdisciplinary methodological approaches and research techniques. Instruction Mode: Lecture Grading Option: Letter Crosslisted as CLAS-425
AHIS 427 Archaeological Theories, Methods, and Practice
Units: 4 Terms Offered: FaSp Examined are various theoretical approaches, methods, and practice of archaeology in a seminar style format, with lectures, oral presentations, and museum visits. Instruction Mode: Lecture Grading Option: Letter
AHIS 428 Studies in Colonial Latin American Art
Units: 4 Terms Offered: FaSpSm In-depth exploration of specified topics within colonial Latin American art. Instruction Mode: Lecture Grading Option: Letter
AHIS 429 Studies in Art, Science, and Technology
Units: 4 Terms Offered: FaSpSm Examination of the connections between art, science, and technology, focusing on a specific time period and/or set of questions. Instruction Mode: Lecture Grading Option: Letter
AHIS 430 Studies in Renaissance Art
Units: 4 In-depth exploration of specified topics within the area of Renaissance art and architecture. Recommended Preparation: AHIS 230 or AHIS 330. Duplicates Credit in former AHIS 44 and AHIS 446. Instruction Mode: Lecture Grading Option: Letter
AHIS 433 Studies in Medieval Art
Units: 4 Max Units: 18.0 In-depth exploration of specified topics within the area of Medieval art and architecture. Instruction Mode: Lecture Grading Option: Letter
AHIS 436 The Philosophy of Art
Units: 4 Terms Offered: FaSp Discusses writings on aesthetics, the history of aesthetics and art criticism, the philosophy of art, and modern philosophical notions such as genius and originality. Instruction Mode: Lecture Grading Option: Letter
AHIS 449 History of Prints and Drawings
Units: 4 Terms Offered: Irregular Aspects of the history of the graphic arts; stylistic and technical considerations may both be included or specific areas stressed at the choice of the instructor. Instruction Mode: Lecture Grading Option: Letter
AHIS 453 Studies in Baroque Art
Units: 4 Max Units: 18.0 In-depth exploration of specified topics within the area of 17th century art and architecture. Recommended Preparation: AHIS 230 or AHIS 344. Instruction Mode: Lecture Grading Option: Letter
AHIS 460 Studies in 18th and 19th Century Art
Units: 4 Max Units: 8.0 In-depth exploration of specified topics within the area of 18th and 19th century art and architecture. Instruction Mode: Lecture Grading Option: Letter
AHIS 463 Studies in American Art
Units: 4 Max Units: 8.0 In-depth exploration of a specified topic in the history of American art. Instruction Mode: Lecture Grading Option: Letter Crosslisted as AMST-465
AHIS 466 Studies in the Decorative Arts and Design
Units: 4 Exploration of a specified topic in the history of the decorative arts and design in Europe and America. Instruction Mode: Lecture Grading Option: Letter
AHIS 467 19th Century French Art
Units: 4 Terms Offered: FaSp Exploration of the main movements in 19th century French art, using the city of Paris and its museums. Field trips in conjunction with classwork. Instruction Mode: Lecture Grading Option: Letter
AHIS 468 Studies in Modern Art
Units: 4 Max Units: 8.0 Terms Offered: Irregular In-depth exploration of a specified topic in the late 19th and/or early 20th centuries. Instruction Mode: Lecture Grading Option: Letter
AHIS 469 Critical Approaches to Photography
Units: 4 Terms Offered: Irregular Selected problems in the history, theory and criticism of photography; recent scholarship considered in relationship to specific photographers and photographic images. Instruction Mode: Lecture Grading Option: Letter
AHIS 470 Studies in Contemporary Art
Units: 4 Max Units: 08 In-depth exploration of specified topics within the area of contemporary art and architecture. Instruction Mode: Lecture Grading Option: Letter
AHIS 475m Blackness in American Visual Culture
Units: 4 A historical overview of how people of African - descent have been represented visually in American culture. Instruction Mode: Lecture Grading Option: Letter Crosslisted as AMST-475
AHIS 476 The Art of Walt Disney
Units: 4 Terms Offered: FaSp The trajectory of Walt Disney's career, artistic influences and his artistic reception within a broad range of institutional contexts, including museums. Instruction Mode: Lecture, Discussion Grading Option: Letter
AHIS 477 Studies in Visual and Material Culture
Units: 4 Max Units: 16.0 In-depth exploration of selected topics in visual and material culture. Instruction Mode: Lecture Grading Option: Letter
AHIS 479 History in the Museum: The Past in Objects
Units: 4 (Enroll in HIST 479)
AHIS 481 Studies in Japanese Art
Units: 4 Max Units: 16.0 In-depth exploration of specified topics within the area of Japanese art and architecture. Instruction Mode: Lecture Grading Option: Letter Crosslisted as EALC-481
AHIS 482 Japanese Photography
Units: 4 Terms Offered: FaSp Surveys the evolution of Japanese photography from 1850 to 21st century and examines how photography has helped define Japan's national and cultural identity. Recommended Preparation: AHIS 125sp Instruction Mode: Lecture Grading Option: Letter Crosslisted as EALC 482

AHIS 484 Studies in Chinese Art
Units: 4 Max Units: 16.0 In-depth exploration of specified topics within the area of Chinese art and architecture. Instruction Mode: Lecture Grading Option: Letter Crosslisted as EALC-484

AHIS 485 Material Culture of the Silk Road
Units: 4 Terms Offered: FaSpSm (Enroll in EALC 485)

AHIS 486 Introduction to Museums: Past, Present, and Future
Units: 4 Terms Offered: Sp Comprehensive exploration of the role of art museums in society. Inquiry into the present and future potential of museums as a complex force in society. Registration Restriction: Not open to graduate students. Instruction Mode: Lecture Grading Option: Letter

AHIS 488 Topics in Art Conservation
Units: 4 Terms Offered: FaSp Introduction to heritage conservation, an interdisciplinary field devoted to preserving material objects and structures that are deemed to hold cultural significance. Instruction Mode: Lecture Grading Option: Letter

AHIS 489 History of the Book
Units: 4 Terms Offered: FaSp Introduction to the history of the book; books as material objects and practices of reading, collecting and storing. Instruction Mode: Lecture, Discussion Grading Option: Letter

AHIS 490x Directed Research
Units: 1, 2, 3, 4, 5, 6, 7, 8 Max Units: 12.0 Terms Offered: FaSp Individual research and readings. Instruction Mode: Lecture Grading Option: Letter

AHIS 492 Museum Educator Training
Units: 2 Terms Offered: FaSp Experiential research conducted at the Getty Center museum; supervised development of docent skills. Instruction Mode: Lecture Grading Option: Letter

AHIS 494 Undergraduate Proseminar in Art History
Units: 4 Terms Offered: FaSp Historiography and methodology: introduction to techniques of research and writing. Required of all art history majors, preferably in the junior year. Instruction Mode: Lecture Grading Option: Letter

AHIS 495a Undergraduate Honors Thesis
Units: 2 Terms Offered: FaSp Research and writing of original thesis under guidance of faculty member. Departmental approval. Instruction Mode: Lecture Grading Option: Letter

AHIS 495b Undergraduate Honors Thesis
Units: 2 Terms Offered: FaSp Research and writing of original thesis under guidance of faculty member. Departmental approval. Instruction Mode: Lecture Grading Option: Letter

AHIS 496 Paintings in the Prado Museum
Units: 4 Terms Offered: Irregular (Madrid Center only) From Romanticism through Goya in relation to European and Mediterranean antecedents using paintings in the Prado Museum. Field trips in conjunction with coursework. Instruction Mode: Lecture Grading Option: Letter

AHIS 497 Senior Seminar in Early Modern Studies
Units: 4 Terms Offered: Sp Enroll in ENGL 497

AHIS 498 The Gods and Goddesses of the Renaissance
Units: 4 Terms Offered: FaSp Renaissance visual and material culture and the visual representation of Ancient mythology, recovery and reception of ancient art, and collecting practices. Instruction Mode: Lecture Grading Option: Letter

AHIS 499 Special Topics
Units: 2, 3, 4 Max Units: 8.0 Comprehensive exploration of particular aspects of the history of art. Instruction Mode: Lecture Grading Option: Letter

AHIS 500 Methods and Theory of Art History
Units: 4 Terms Offered: Fa Methodologies, theories and critical traditions that have shaped the discipline. Emphasis will vary depending on faculty. Required of all first-year MA and PhD candidates. Instruction Mode: Lecture Grading Option: Letter

AHIS 501 Problems in the History and Theory of Collecting and Display
Units: 4 Explores the history of patronage, collecting and display in the private and public spheres (e.g., salons, galleries, museums, and international expositions). Instruction Mode: Lecture Grading Option: Letter

AHIS 502 Markets, Value and the Institutions of Art
Units: 4 Intensive examination of economic, societal, and aesthetic frameworks in which art was sold, bought, exhibited and reviewed. Explores how perceptions of art and value were shaped. Instruction Mode: Lecture Grading Option: Letter

AHIS 503 Categories and Collections
Units: 4 How collections are organized by category — e.g., period, culture, materials, or mode of production. Examines collecting protocols, historiography and modes of collecting and viewing associated with that category. Instruction Mode: Lecture Grading Option: Letter

AHIS 504 Museum Research Assistantship
Units: 1 Terms Offered: FaSp Working within an institution with a collection and reflecting, in class meetings, upon how collections are formed, shaped and used. Instruction Mode: Lecture Grading Option: Letter

AHIS 505 Seminar in Feminist Theory and Visual Culture
Units: 4 Recent feminist scholarship in art history, cultural studies, film theory. Feminist theory in relation to art from the late 19th and 20th centuries. Occasional film screenings. Instruction Mode: Lecture Grading Option: Letter

AHIS 509 Seminar in Arts of the Ancient Americas
Units: 4 Max Units: 16.0 In-depth exploration of a specified topic in the arts of the ancient Americas, which includes North, Central, and South America. Instruction Mode: Lecture Grading Option: Letter

AHIS 510 Seminar in Ancient Art
Units: 4 Max Units: 16.0 Instruction Mode: Lecture Grading Option: Letter

AHIS 511 Seminar in Medieval Art
Units: 4 Max Units: 16.0 Instruction Mode: Lecture Grading Option: Letter

AHIS 512 Seminar in Renaissance Art
Units: 4 Max Units: 16.0 Recommended Preparation: relevant languages. Instruction Mode: Lecture Grading Option: Letter

AHIS 513 Seminar in Baroque Art
Units: 4 Max Units: 0.0 Instruction Mode: Lecture Grading Option: Letter

AHIS 514 Seminar in 18th and 19th Century European Art
Units: 4 Max Units: 16.0 Instruction Mode: Lecture Grading Option: Letter

AHIS 515 Seminar in Contemporary Art
Units: 4 Max Units: 16.0 Instruction Mode: Lecture Grading Option: Letter

AHIS 516 Seminar in the History of Photography and Visual Culture
Units: 4 Terms Offered: FaSpSm Explores the history of photography with emphasis on the way the medium has been used as a form of communication and knowledge transmission. Registration Restriction: Open only to seniors and graduate students. Instruction Mode: Lecture Grading Option: Letter

AHIS 517 Seminar in Korean Art
Units: 4 Max Units: 8.0 In-depth exploration of a specified topic in the history of Korean art. Instruction Mode: Lecture Grading Option: Letter

AHIS 518 Seminar in Chinese Art
Units: 4 Max Units: 0.0 Instruction Mode: Lecture Grading Option: Letter

AHIS 519 Seminar in Japanese Art
Units: 4 Max Units: 16.0 Instruction Mode: Lecture Grading Option: Letter

AHIS 520 Seminar in Modern Art
Units: 4 Max Units: 16.0 In-depth exploration of a specified topic within the area of European art of the late 19th and early 20th centuries. Instruction Mode: Lecture Grading Option: Letter

AHIS 521 Seminar in Modern German Art
Units: 4 Max Units: 8.0 In-depth exploration of a specific topic in modern German art of the 19th and early 20th centuries. Instruction Mode: Lecture Grading Option: Letter

AHIS 522 Writing (and) the History of Art
Units: 4 Examination of how various forms of writing and different contexts of presentation shape the visual experience of art and the understanding of its history, encouraging students to think critically about how to develop a voice of their own. Instruction Mode: Lecture Grading Option: Letter

AHIS 524 Readings in Greek and Roman Authors on Ancient Art and Monuments
Units: 4 Max Units: 8.0 Focuses on readings of ancient Greek and Roman authors writing on Greek and Roman art, monuments and topography. Topics vary from year to year. Departmental approval. Instruction Mode: Lecture Grading Option: Letter
AHIS 525 Seminar in American Art
Units: 4
In-depth exploration of a specified topic in the history of American art. Instruction Mode: Lecture Grading Option: Letter Crosslisted as AMST-525
AHIS 528 Seminar in Colonial Latin American Art
Units: 4 Terms Offered: FaSpSm
In-depth exploration of specific topics in the arts of colonial Latin America. Instruction Mode: Lecture Grading Option: Letter
AHIS 529 Seminar in Art, Science, and Technology
Units: 4 Terms Offered: FaSpSm
In-depth exploration of the connections between art, science, and technology, focusing on a specific time period and/or set of questions. Instruction Mode: Lecture Grading Option: Letter
AHIS 530 The Philosophy of Art
Units: 4
What makes a work of art good? Will address questions with a focus on Western art from antiquity to the present. Registration Restriction: Open only to graduate students. Instruction Mode: Lecture Grading Option: Letter
AHIS 540 Transatlantic Art
Units: 4
Trains Art History graduate students to write for a variety of professional purposes, such as grant and job applications, conference abstracts, and reviews. Registration Restriction: Open only to master and doctoral Art History students. Instruction Mode: Lecture Grading Option: Credit/No Credit
AHIS 590 Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11
Research leading to the doctorate. Maximum units which may be applied to the degree to be determined by the department. Instruction Mode: Lecture Grading Option: Credit/No Credit
AHIS 594a Doctoral Dissertation
Units: 2
Research leading to the doctorate. Maximum units which may be applied to the degree to be determined by the department. Instruction Mode: Lecture Grading Option: Credit/No Credit
AHIS 594c Doctoral Dissertation
Units: 2
Research leading to the doctorate. Maximum units which may be applied to the degree to be determined by the department. Instruction Mode: Lecture Grading Option: Credit/No Credit
AHIS 594d Doctoral Dissertation
Units: 2
Research leading to the doctorate. Maximum units which may be applied to the degree to be determined by the department. Instruction Mode: Lecture Grading Option: Credit/No Credit
AHIS 599 Special Topics
Units: 2, 3, 4
Irregular Comprehensive exploration of particular aspects of the history of art. Instruction Mode: Lecture Grading Option: Letter
AHIS 790 Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12
Research leading to the doctorate. Maximum units which may be applied to the degree to be determined by the department. Instruction Mode: Lecture Grading Option: Credit/No Credit
AHIS 794a Doctoral Dissertation
Units: 2
Research leading to the doctorate. Maximum units which may be applied to the degree to be determined by the department. Instruction Mode: Lecture Grading Option: Credit/No Credit
AHIS 794c Doctoral Dissertation
Units: 2
Research leading to the doctorate. Maximum units which may be applied to the degree to be determined by the department. Instruction Mode: Lecture Grading Option: Credit/No Credit
AHIS 794d Doctoral Dissertation
Units: 2
Research leading to the doctorate. Maximum units which may be applied to the degree to be determined by the department. Instruction Mode: Lecture Grading Option: Credit/No Credit
AHIS 872 USC CATALOGUE 2022-2023
AHIS 993x Practicum in Teaching the Liberal Arts
Units: 2
Teaching the Liberal Arts. Instruction Mode: Lecture Grading Option: Credit/No Credit
AHIS 994a Master’s Thesis
Units: 2
Credit upon acceptance of thesis. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit
AHIS 994b Master’s Thesis
Units: 2
Credit upon acceptance of thesis. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit
AHIS 994c Master’s Thesis
Units: 2
Credit upon acceptance of thesis. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit
American Language Institute
ALI 090x Beginning English as a Second Language for International Students
Units: 12
Required for international students who have no proficiency in English by the International Student English Examination (ISE) or previous ALI course. Instruction Mode: Lecture Grading Option: Credit/No Credit
ALI 093x Elective Courses in English as a Second Language for International Students
Units: 2, 3, 4, 5, 6, 7, 8
Elective courses in English as a Second Language for International Students. Instruction Mode: Lecture Grading Option: Credit/No Credit
ALI 224 Academic and Professional Speaking Skills I
Units: 2
Max Units: 0
Credit in former ALI 225. Instruction Mode: Lecture Grading Option: Credit/No Credit
ALI 225 Academic and Professional Speaking Skills II
Units: 2
Max Units: 0
Credit in former ALI 225. Instruction Mode: Lecture Grading Option: Credit/No Credit
ALI 234 Academic and Professional Writing Skills I
Units: 2
Max Units: 0
Credit in former ALI 234. Instruction Mode: Lecture Grading Option: Credit/No Credit
whose oral skills are assessed to be at the intermediate level by the International Student English Examination (ISE) or previous ALI course. Duplicates Credit in former ALI 220 Instruction Mode: Lecture Grading Option: Credit/No Credit

ALI 235 Academic and Professional Writing Skills II
Units: 2 Max Units: 06 Terms Offered: FaSpSm Required for international students whose writing skills are assessed to be at the intermediate level by the International Student English Examination (ISE) or previous ALI course. Duplicates Credit in former ALI 220 Instruction Mode: Lecture Grading Option: Credit/No Credit

ALI 242 High Intermediate Pronunciation
Units: 2 Terms Offered: FaSpSm Required for international students whose pronunciation skills are assessed at the high intermediate level by the International Student English Examination (ISE) or previous ALI course. Instruction Mode: Lecture Grading Option: Credit/No Credit

ALI 244 Academic and Professional Speaking Skills III
Units: 2 Max Units: 06 Terms Offered: FaSpSm Required for international students whose oral skills are assessed to be at the high intermediate level by the International Student English Examination (ISE) or previous ALI course. Duplicates Credit in former ALI 230 and former ALI 240 Instruction Mode: Lecture Grading Option: Credit/No Credit

ALI 245 Academic and Professional Writing III
Units: 2 Max Units: 06 Terms Offered: FaSpSm Required for international students whose writing skills are assessed to be at the high intermediate level by the International Student English Examination (ISE) or previous ALI course. Instruction Mode: Lecture Grading Option: Credit/No Credit

ALI 246 Intermediate Oral Communication for ITAs
Units: 3 Terms Offered: FaSpSm Required for international teaching assistants (ITAs) whose oral skills are assessed to be at the intermediate level by the ITA exam or previous ALI course. Instruction Mode: Lecture Grading Option: Credit/No Credit

ALI 252 Advanced Pronunciation
Units: 3 Terms Offered: FaSpSm Required for international students whose pronunciation skills are assessed at the advanced level by the International Student English Examination (ISE) or previous ALI course. Instruction Mode: Lecture Grading Option: Credit/No Credit

ALI 254 Academic and Professional Speaking Skills IV
Units: 2 Max Units: 06 Terms Offered: FaSpSm Required for international students whose oral skills are assessed to be at the advanced level by the International Student English Examination (ISE) or previous ALI course. Duplicates Credit in former ALI 259 Instruction Mode: Lecture Grading Option: Credit/No Credit

ALI 255 Academic and Professional Writing Skills IV
Units: 2 Max Units: 06 Terms Offered: FaSpSm Required for international students whose writing skills are assessed to be at the advanced level by the International Student English Examination (ISE) or previous ALI course. Duplicates Credit in former ALI 259 Instruction Mode: Lecture Grading Option: Credit/No Credit

ALI 256 High Intermediate Oral Communication for ITAs
Units: 3 Terms Offered: FaSpSm Required for international teaching assistants (ITAs) whose oral skills are assessed to be at the high intermediate level by the ITA exam or previous ALI course. Instruction Mode: Lecture Grading Option: Credit/No Credit

ALI 270 Advanced Oral Communication for ITAs
Units: 3 Terms Offered: FaSpSm Classroom interaction skills for international teaching assistants, with a focus on the language needed to lead discussions and make presentations. Instruction Mode: Lecture Grading Option: Credit/No Credit

ALI 271 Language Tutorial for International Teaching Assistants
Units: 2 Terms Offered: FaSpSm Individualized tutorial on the language and oral skills used by international teaching assistants in the performance of his or her duties. Based on observation and feedback. Instruction Mode: Lecture Grading Option: Credit/No Credit

ALI 274 Advanced Academic and Professional Spoken English
Units: 2 Terms Offered: FaSpSm Required for International Teaching Assistants (ITAs) who, after taking the ITA Oral Interview Exam, are determined to need the particular skills taught in this course. Instruction Mode: Lecture Grading Option: Credit/No Credit

ALI 275 Writing for Publication and Dissertations
Units: 2 Terms Offered: FaSpSm Elective course for international graduate students focusing on conventions of advanced academic writing and problems in syntax, vocabulary, and register for writing and/or publishing dissertations. Instruction Mode: Lecture Grading Option: Credit/No Credit

ALI 276 Workshop for International Teaching Assistants
Units: 2 Max Units: 16 Terms Offered: Sm Language assistance and individualized instruction to help International Teaching Assistants develop the skills and language proficiency necessary to perform their classroom duties. Graded CR/NC. Registration Restriction: Open only to International Teaching Assistants. Instruction Mode: Lecture Grading Option: Credit/No Credit

ALI 280 English Skills and Strategies for the Job Search
Units: 2 Max Units: 4.0 Elective course for undergraduate and graduate international students. Introduces students to job search skills and strategies while focusing on improving their English. Instruction Mode: Lecture Grading Option: Credit/No Credit

Aerospace and Mechanical Engineering

AME 101L Introduction to Mechanical Engineering and Graphics
Units: 3 Terms Offered: Fa Gateway to the bachelor of science degree in mechanical engineering. Introduction to mechanical engineering disciplines and practice; graphical communication and layout of machine parts; introduction to computer-aided drafting and drawing. Grading Option: Letter

AME 105 Introduction to Aerospace Engineering
Units: 4 Terms Offered: Fa Gateway to the Aerospace Engineering major. Introduction to flight vehicle performance and propulsion. Elements of the physics of gases. Laboratory: computers and graphics; model rocket and glider test flights. Grading Option: Letter

AME 150L Introduction to Computational Methods
Units: 4 Terms Offered: Sp Computer programming; organization of problems for computational solution; introduction to software for computation and graphics; applications to engineering problems. Corequisite: MATH 125. Grading Option: Letter

AME 201 Statics
Units: 3 Terms Offered: FaSpSm Analysis of forces acting on particles and rigid bodies in static equilibrium; equivalent systems of forces; friction; centroids and moments of inertia; introduction to energy methods. Prerequisite: PHYS 151Lg or PHYS 161Lg or PHYS 171L Recommended Preparation: AME 101L Grading Option: Letter Crosslisted as ACAD 203

AME 204 Strength of Materials
Units: 3 Terms Offered: FaSpSm Stress, strain and deflection of mechanical elements due to tension, shear, bending, or torsion; combined loads; energy methods, statically indeterminate structures; strength-based design. Prerequisite: AME 201 or CE 205 Option: Letter Crosslisted as ACAD 204

AME 232L Manufacturing Processes
Units: 3 Terms Offered: Fa (Enroll in ISE 232L)

AME 261 Basic Flight Mechanics
Units: 4 Terms Offered: Sp Performance of flight vehicles; maximum speed, rate-of-climb, range, and endurance; basic stability and control, weight, and balance; computer exercises. Recommended Preparation: ITP 168 Grading Option: Letter

AME 291 Undergraduate Design Projects I
Units: 1 Max Units: 4.0 Terms Offered: FaSpSm Analysis, design, fabrication, and evaluation of devices intended for use in local and national design competitions. Intended for lower division students or those with little prior project experience. Grading Option: Credit/No Credit

AME 301 Dynamics
Units: 3 Terms Offered: FaSpSm 2-D and 3-D kinematics and dynamics of particles and rigid bodies; systems of particles and rigid bodies; coupled rigid bodies; introduction to vibrations. Prerequisite: AME 201 or CE 205 Recommended Preparation: PHYS 151Lg Grading Option: Letter

AME 302 Dynamic Systems
Units: 3 Terms Offered: FaSpSm Modeling of lumped parameter elements and systems; free and forced response of first and second order systems; design oriented approach to dynamic systems. Prerequisite: MATH 245 Recommended Preparation: AME 309 or CE 309; AME 301 or CE 215 Grading Option: Letter
AME 303 Dynamics of Machinery
Units: 3 Terms Offered: FaSpSm
Kinematics and dynamics of machines; balancing of rotating and reciprocating machinery; gyroscopic effects; critical speeds; energy variation in machinery; introduction to mechanism design.
Prerequisite: AME 301 or CE 235 Grading Option: Letter

AME 305 Mechanical Design
Units: 3 Terms Offered: Fa Design and analysis of mechanical elements including shafts, bearings, springs, screws, belts and gears; strength, fatigue and deflection considerations in machine design.
Prerequisite: AME 204 or CE 225. Grading Option: Letter

AME 308 Computer-Aided Analyses for Aero-Mechanical Design
Units: 3 Terms Offered: FaSpSm
Introduction to the finite element method; practical application of computer analysis tools for structural analysis and design.
Prerequisite: AME 204 Corequisite: AME 301 Grading Option: Letter

AME 309 Dynamics of Fluids
Units: 4 Terms Offered: FaSpSm Fluid statics; conservation of mass, momentum, and energy in integral and differential form; applications. Laminnar and turbulent pipe flow; compressible flow; potential flow over bodies.
Prerequisite: AME 201 Recommended Preparation: AME 310 Corequisite: MATH 245 Grading Option: Letter

AME 310 Engineering Thermodynamics I
Units: 3 Terms Offered: FaSpSm Fundamental laws of thermodynamics applied to actual and perfect gases and vapors; energy concepts, processes, and applications.
Prerequisite: MATH 226 or MATH 227 or MATH 229 Recommended Preparation: PHYS 151Lg, high-level programming language Grading Option: Letter

AME 331 Heat Transfer
Units: 3 Terms Offered: Sp General principles underlying heat transfer by conduction, convection, and radiation; steady and transient conditions; heat exchangers.
Prerequisite: AME 310; Corequisite: AME 309 or CE 309. Grading Option: Letter

AME 341aL Mechatronics Laboratory I and II
Units: 3 Terms Offered: FaSpSm A coordinated laboratory and lecture sequence on aeromechanical instrumentation and device control stressing the symbiotic integration of mechanical, optical and electronic components.
Prerequisite: PHYS 152L or PHYS 162L or MATH 126 or MATH 127 or MATH 129) Grading Option: Letter

AME 341bL Mechatronics Laboratory I and II
Units: 3 Terms Offered: FaSpSm A coordinated laboratory and lecture sequence on aeromechanical instrumentation and device control stressing the symbiotic integration of mechanical, optical and electronic components.
Prerequisite: PHYS 152L, MATH 126. Grading Option: Letter

AME 390 Special Problems
Units: 1, 2, 3, 4 Supervised, individual studies. No more than one registration permitted. Enrollment by petition only.
Grading Option: Letter

AME 403 Stress Analysis
Units: 3 Terms Offered: Sp Theories of failure, shear center, unsymmetrical bending, curved beams, torsion of non-circular sections; cylinders, rotating discs, thermal stresses, inelastic strains, energy methods.
Prerequisite: AME 204. Grading Option: Letter

AME 404 Computational Solutions to Engineering Problems
Units: 3 Terms Offered: Fa Mathematical aspects of the solutions to typical advanced mechanical engineering problems. Modeling, simulation, computational aspects, computer solutions, and computational tools.
Recommended Preparation: FORTRAN, MATLAB and Maple. Grading Option: Letter

AME 405 Functional Approach to Computational Methods
Units: 3 Terms Offered: Sp Introduction to computational methods in engineering: learning to develop and implement numerical algorithms for solving a range of mathematics, physics, and engineering problems. Suitable for undergraduate students in aerospace, bio, civil and mechanical engineering.
Recommended Preparation: 1 year of college-level calculus and physics Instruction Mode: Lecture Grading Option: Letter

AME 408 Computer-Aided Design of Mechanical Systems
Units: 3 Terms Offered: FaSpSm Design of mechanical systems using advanced graphics techniques; computer-aided drafting, design optimization, elements of computer graphics, solids modeling; introduction to computer-aided manufacturing.
Prerequisite: AME 204 or CE 225; Recommended Preparation: AME 308. Grading Option: Letter

AME 409 Senior Design Project
Units: 4 Terms Offered: Sp Modeling, analysis, integration, layout and performance analysis of a mechanical system to meet specified design requirements. Prerequisite: senior standing.
Grading Option: Letter

AME 410 Engineering Design Theory and Methodology
Units: 3 Terms Offered: Fa Product planning and task clarification, voice of customers, quality function deployment, conceptual and embodiment design, axiomatic theory of design, product quality and manufacturability, design decision-making.
Recommended Preparation: AME 305. Grading Option: Letter

AME 412 Molecular Theory of Gases
Units: 3 Terms Offered: Irregular Molecular structure; intermolecular potentials; molecular processes in gases; molecular interpretation of concepts of classical thermodynamics, radiative transport phenomena in gases.
Prerequisite: AME 310. Grading Option: Letter

AME 414 Engineering Thermodynamics II
Units: 3 Terms Offered: Sp Application of thermodynamic principles to fluid flow, power cycles, and refrigeration, with modern applications to thermodynamic cycles and introduction to equilibrium electrochemistry.
Prerequisite: AME 310 Recommended Preparation: Basic knowledge of Physics and a programming language Duplicates Credit in former AME 312 Instruction Mode: Lecture Grading Option: Letter

AME 415 Turbine Design and Analysis
Units: 3 Terms Offered: Fa Physics of turbine operation; design and analysis for the development of turbine hardware for propulsion and power generation.
Recommended Preparation: familiarity with Matlab. Grading Option: Letter

AME 416 Mechanics and Transport in Medicine and Biology
Units: 4 Terms Offered: Fa Introduction to mechanics of living organs; analysis of fluid and solid forces acting on biological systems; introductory hemodynamics and bio-transit phenomena.
Recommended Preparation: Fundamental physics and the understanding of static forces at the level of AME 201 and differential equations at the level of MATH 245 Instruction Mode: Lecture Grading Option: Letter

AME 420 Engineering Vibrations I
Units: 3 Terms Offered: Fa Theory of free and forced vibrations with and without damping; systems of single and multiple degrees of freedom; iteration; methods; vibration isolation; instrumentation.
Prerequisite: MATH 245 Grading Option: Letter

AME 423L Loudspeaker and Sound System Design
Units: 4 Terms Offered: FaSpSm Design and construct loudspeakers. Covers fundamentals of acoustic design, analog electronics, electro-mechanical dynamics, and the real-world performance of project speakers vs. theoretical predictions.
Prerequisite: AME 341L and AME 341bL Grading Option: Letter

AME 428 Mechanics of Materials
Units: 3 (Enroll in CE 428)

AME 430 Thermal Systems Design
Units: 3 Terms Offered: Fa Design methodology for thermal systems; boilers, condensers, air conditioning, power generation, air pollution control, combustion and alternative fuels.
Prerequisite: AME 331; Recommended Preparation: AME 312. Grading Option: Letter

AME 436 Energy and Propulsion
Units: 3 Terms Offered: Fa Performance and analysis of reciprocating, jet, rocket engines, and hybrid systems. Characteristics of inlets, compressors, combustors, turbines, nozzles and engine systems. Energy and environmental problems.
Prerequisite: AME 310; AME 309 or CE 309. Grading Option: Letter

AME 441aL Senior Projects Laboratory
Units: 3 Terms Offered: FaSpSm Individual engineering projects designed and constructed to model and test a physical principle or system.
Prerequisite: AME 341bL. Grading Option: Letter

AME 441bL Senior Projects Laboratory
Units: 3 Terms Offered: FaSpSm Individual engineering projects designed and constructed to model and test a physical principle or system.
Prerequisite: AME 341bL. Grading Option: Letter

AME 443 Control Systems Laboratory
Units: 3 Terms Offered: Sp Vibration measurement and analysis; simulation, design, and experimental verification of mechanical control systems; identification of system parameters, implementation
of controllers, verification of closed-loop performance via experimentation and simulation. Prerequisite: AME 420 or AME 451 or EE 482. Duplicates Credit in former AME 442L. Grading Option: Letter Crosslisted as EE 481

AME 451 Linear Control Systems I
Units: 3 Transform methods, block diagrams; transfer functions; stability; root-locus and frequency domain analysis and design; state space and multiloop systems. Prerequisite: AME 302 and MATH 245. Duplicates Credit in EE 482. Grading Option: Letter

AME 453 Engineering Dynamics
Units: 3 Terms Offered: Sp Principles of dynamics applied to mechanical and aerospace problems. Introduction to gyroscopic motion and rigid body dynamics. Prerequisite: MATH 245. Grading Option: Letter

AME 455 Introduction to MEMS
Units: 3 Terms Offered: Sp Introduction to micro-electro-opto-mechanical systems; scaling effects on material properties, fluid flows, dynamical behavior; fabrication methods; design considerations for MEMS sensors and actuators. Recommended Preparation: AME 301, AME 309 and AME 310. Grading Option: Letter Crosslisted as EE-415

AME 457 Engineering Fluid Dynamics
Units: 3 Terms Offered: Fa Laminar and turbulent boundary layer flow with and without heat transfer; boundary layer separation, stability, transition and control; introduction to compressible fluid flow. Prerequisite: AME 310; AME 309 or CE 309. Grading Option: Letter

AME 459 Flight Mechanics
Units: 3 Terms Offered: Fa Applications of basic aerodynamics to aircraft and missile performance, power and thrust, stability and control, compressibility effects. Recommended Preparation: AME 309 Instruction Mode: Lecture Grading Option: Letter

AME 460 Aerodynamic Theory
Units: 3 Basic relations describing the inviscid flow field about bodies and wings moving at subsonic and supersonic speeds. Prerequisite: AME 309. Grading Option: Letter

AME 461 Formation Data Sensing with Well Logs
Units: 4 Terms Offered: Fa Applications of basic aerodynamics to aircraft and missile performance, power and thrust, stability and control, compressibility effects. Recommended Preparation: AME 309 Instruction Mode: Lecture Grading Option: Letter

AME 462 Economic, Risk and Formation Productivity Analysis
Units: 4 (Enroll in PTE 462)

AME 463L Introduction to Transport Processes in Porous Media
Units: 4 Terms Offered: Fa (Enroll in PTE 463L)

AME 464L Modeling and Simulation of Subsurface Flow Systems
Units: 4 Terms Offered: Sp (Enroll in PTE 464L)

AME 465L Drilling Technology and Subsurface Methods
Units: 3 (Enroll in PTE 465L)

AME 481 Aircraft Design
Units: 4 Terms Offered: Sp Aircraft design and analysis, design requirements and specifications; integration of structure, propulsion, control system, and aerodynamic configuration; performance analysis and prediction. Grading Option: Letter

AME 485 Aerospace Structures I
Units: 3 Terms Offered: Fa Design, qualification, and workmanship verification of aerospace structures. Analysis for assessing buckling and crippling, welds, and analysis of connections and thin-walled structures. Prerequisite: AME 204 Recommended Preparation: AME 231 Lor MASC 310 Duplicates Credit in former AME 352 Instruction Mode: Lecture Grading Option: Letter

AME 486 Mechanics of Composite Materials for Modern Structures
Units: 3 Terms Offered: Sp Current and potential applications of composite materials including manufacturing methods; determining mechanical properties; failure analysis; and design, inspection, and repair considerations. Prerequisite: AME 204 Instruction Mode: Lecture Grading Option: Letter

AME 490x Directed Research
Units: 1, 2, 3, 4, 5, 6, 7, 8 Max Units: 12.0 Individual research and readings. Not available for graduate credit. Grading Option: Letter

AME 491 Undergraduate Design Projects II
Units: 1 Max Units: 4.0 Terms Offered: FaSp Analysis, design, fabrication, and evaluation of devices intended for entry in local and national design competitions. Intended for students with prior project experience. Upper division standing. Grading Option: Credit/No Credit

AME 499 Special Topics
Units: 2, 3, 4 Max Units: 8.0 Terms Offered: FaSpx Course content to be selected each semester from recent developments in mechanical engineering and related fields. Grading Option: Letter

AME 501 Innovative Conceptual Design for New Product Development
Units: 3 Terms Offered: FaSp (Enroll in ISE 501)

AME 502 Modern Topics in Aerospace Design
Units: 3 Terms Offered: Fa Current topics in Aerospace Engineering are addressed by a number of industry panelists. Students, under panelists' supervision and guidance, complete independent research reports and briefings. Recommended Preparation: AME 261, AME 441, AME 481 or equivalents. Grading Option: Letter

AME 504L Mechatronic Systems Engineering
Units: 3 Terms Offered: Fa (Enroll in ISE 511L)

AME 505 Engineering Information Modeling
Units: 3 Terms Offered: Sp Symbolic and object-oriented modeling, product and process modeling for design and manufacturing, information models for computer integrated and collaborative engineering, information modeling for lifecycle engineering. Grading Option: Letter

AME 506 Continuum Mechanics
Units: 4 Terms Offered: FaA unified mathematical description for modeling the mechanics and thermodynamics of continua, including topology, elasticity, inelastic material modeling and fluid behavior. Instruction Mode: Lecture Grading Option: Letter

AME 507 Mechanics of Solids I
Units: 4 (Enroll in CE 507)

AME 508 Machine Learning and Computational Physics
Units: 4 Terms Offered: Fa Machine learning applications in computational physics and engineering; relationships between computational physics and ML algorithms; hybrid physics-informed ML prediction with tools for uncertainty quantification. Prerequisite: AME 525 Recommended Preparation: Basic familiarity with Python/Matlab Instruction Mode: Lecture Grading Option: Letter

AME 509 Applied Elasticity
Units: 4 Terms Offered: Fa Cartesian tensors; kinematics of deformation, balance laws, and constitutive equations; variational principles; finite elasticity; plates and cylindrical shells; viscoelasticity; analytical and numerical solutions for elasticity. Grading Option: Letter

AME 510 Advanced Computational Design and Manufacturing
Units: 3 Terms Offered: Sp (Enroll in ISE 510)

AME 511 Compressible Gas Dynamics
Units: 4 Terms Offered: FaSpx Course content to be selected each semester from recent developments in mechanical engineering and related fields. Grading Option: Letter

AME 513a Fundamentals and Applications of Combustion
Units: 4 Terms Offered: Fa Chemical equilibrium, flame temperature, chemical kinetics, transport phenomena, conservation equations of multi-component reacting flows, laminar flames, droplet combustion, flame speed, combustion pollutants, atmospheric pollution processes. Duplicates Credit in former AME 513 Instruction Mode: Lecture Grading Option: Letter

AME 513b Fundamentals and Applications of Combustion
Units: 4 Terms Offered: Fa Advanced topics in combustion including analytical methods, stretch effects, stability, ignition and extinction of flames, plasma-assisted combustion, turbulence effects, detonations, and micropower generation. Prerequisite: AME 513a Duplicates Credit in former AME 514 Instruction Mode: Lecture Grading Option: Letter

AME 515 Advanced Heat and Mass Diffusion
Units: 4 Terms Offered: Fa Analytical techniques for heat and mass diffusion problems in various geometries; application to heat/mass transfer in solids, liquids, and
porous media and bioporous materials. Recommended Preparation: AME 526
Grading Option: Letter

AME 516 Thermal and Biological Transport Phenomena
Units: 4 Terms Offered: Sp Analytical techniques for solving convective heat
and mass transfer problems; applications include heat/mass transfer in biological
systems as well as traditional industrial settings. Prerequisite: AME 525
Recommended Preparation: Undergraduate courses on differential equations, fluid
dynamics, thermodynamics and heat transfer. AME 526 Grading Option: Letter

AME 517 Radiation Heat Transfer
Units: 3 Terms Offered: Fa Radiation properties; black body radiation; shape
factors of radiation network analog and solar radiation. Prerequisite: AME 331;
Corequisite: AME 525 or AME 526. Grading Option: Letter

AME 520 Modeling of Bio-Systems
Units: 3 Terms Offered: Sp Interacting population dynamics, Cheyney-Stokes
respiration, reaction kinetics, biological switches and neural models, BZ reaction,
phase locking, reaction diffusion, chemotaxis, biological waves, and animal
coop patterns. Recommended Preparation: MATH 245. Grading Option: Letter

AME 521 Engineering Vibrations II
Units: 4 Terms Offered: Fa Multi-degree of freedom systems; continuous systems;
modal analysis. Beams, rods, membranes, plates, shells. Approximate methods;
Galilean linear assumption mode, finite elements. Prerequisite: AME 420
Grading Option: Letter

AME 522 Nonlinear Dynamical Systems, Vibrations, and Chaos
Units: 4 Terms Offered: Fa Flows on a line and circle; phase plane methods;
 bifurcation theory; limit cycle/relaxation oscillations; chaotic systems, one-
dimensional maps, the Lorenz equations, fractals and strange attractors. Grading
Option: Letter

AME 523 Random Vibrations
Units: 3 Terms Offered: Irregular Random processes, ergodic theory. Ito calculus.
Linear systems under stationary and nonstationary excitations. Fokker-Planck
equations. Failure analysis and first passage problems. Prerequisite: AME 420,
basic probability (or MATH 407), AME 451 recommended. Grading Option: Letter

AME 524 Advanced Engineering Dynamics
Units: 4 Terms Offered: Fa Principle of virtual work, constraints, Lagrange's
equations, Gibbs-Appell equations, Gauss's principle, theory of rotations, dynamics
of rigid bodies, Hamiltonian mechanics, control and mechanics. Grading Option: Letter

AME 525 Engineering Analysis
Units: 4 Terms Offered: FaSpSm Engineering mathematical methods: linear
algebra, eigen problems, introduction to linear partial differential equations,
transforms and complex variable theory. Grading Option: Letter

AME 526 Introduction to Mathematical Methods in Engineering II
Units: 4 Terms Offered: FaSpSm An intermediate and comprehensive methods
of engineering mathematics course covering basic methods for solving linear
partial differential equations including the method of characteristics and Green's
function. Grading Option: Letter

AME 527 Elements of Vehicle and Energy Systems Design
Units: 3 Terms Offered: Irregular Design synthesis of aero/hydro/mechanical
systems; techniques of design; conceptual thinking; preliminary design, configurational
development, analytic engineering approximation, oral briefings and group
problem solving. Registration Restriction: Graduate standing. Grading Option: Letter

AME 528 Finite Element Analysis
Units: 4 Terms Offered: Fa (Enroll in CE 529)

AME 529 Aircraft Structures Analysis
Units: 4 Terms Offered: Sp Stress Analysis. Linear Elasticity. Thin Plates. Finite Element
aerofoil and aeronautical applications Grading Option: Letter

AME 530a Dynamics of Incompressible Fluids
Units: 4 Terms Offered: Fa A unified discussion of low-speed fluid mechanics
involving exact solutions; approximation techniques for low and high Reynolds
numbers; inviscid flows; surface waves; dynamic stability; turbulence.
Recommended Preparation: Vector/tensor notation, linear algebra, multivariable
calculus, complex variables and differential equations at the level of AME 525/AME
526 (which are strongly recommended if lacking this background) Grading Option: Letter

AME 530b Dynamics of Incompressible Fluids
Units: 4 Terms Offered: FaSpSm A unified discussion of advanced topics in
incompressible fluid mechanics focusing on vorticity dynamics, stability theory, transition
to turbulence, linear and nonlinear wave propagation. Prerequisite: AME 530a and
AME 526. Recommended Preparation: Familiarity with ordinary and partial
differential equations, and introductory fluid mechanics concepts at the level of AME
530a Grading Option: Letter

AME 532a Flight Vehicle Stability and Control
Units: 3 Terms Offered: FaSpSm Response of flight to linear, nonlinear, and randomly
defined disturbances. Generation and measurement of error signals in
navigational systems. Stability and control techniques. Recommended Preparation: AME
459. Grading Option: Letter

AME 532b Flight Vehicle Stability and Control
Units: 3 Terms Offered: FaSpSm Response of flight to linear, nonlinear, and randomly
defined disturbances. Generation and measurement of error signals in
navigational systems. Stability and control techniques. Recommended Preparation: AME
459. Grading Option: Letter

AME 533 Multi-Phase Flows
Units: 3 Terms Offered: Sp Physics of the interaction between phases, empirical and
analytical methods of solution to relevant technological problems. Prerequisite: AME
457. Grading Option: Letter

AME 534 Nuclear Thermal-Hydraulics
Units: 3 Terms Offered: FaThermal-fluid phenomena for nuclear power stations.
Heat generation by nuclear reactions, conduction in fuel rods, and transport of
generated heat by convection, boiling, and condensation. Prerequisite: AME 457 or
AME 530a; and AME 526 and AME 581; Recommended Preparation: undergraduate
degree in engineering. Registration Restriction: Open only to master's and
doctoral students. Instruction Mode: Lecture Grading Option: Letter

AME 535a Introduction to Computational Fluid Mechanics
Units: 3 Terms Offered: FaSpSm Convergence, consistency, stability: finite difference,
finite element, and spectral methods; direct and iterative procedures for steady
problems; linear diffusion and advection problems; non-linear advection problems.
Recommended Preparation: AME 526. Grading Option: Letter

AME 535b Introduction to Computational Fluid Mechanics
Units: 3 Terms Offered: FaSpSm Generalized curvilinear coordinates; grid generation;
technical numerical techniques for transonic and supersonic inviscid flows; boundary layer
flows; reduced Navier-Stokes equations; compressible and incompressible viscous
flows. Recommended Preparation: AME 511 or AME 530a, AME 535a. Grading
Option: Letter

AME 536 Biofluid Mechanics: Transport and Circulatory Systems
Units: 4 Terms Offered: Fa An analytical and theoretical introduction to fluid
dynamics and transport phenomena of the physiological systems such as
cardiovascular, respiratory and renal system. Recommended Preparation: Elementary knowledge of fluid mechanics and solid mechanics; coursework in
mathematical techniques for undergraduate engineering majors Instruction Mode:
Lecture Grading Option: Letter Crosslisted as BME 540

AME 537 Microfluidics
Units: 3 Terms Offered: FaSpSm Introduction to fluid dynamics in the microscale. Scaling
parameters, dynamic, thermodynamic, electroosmotic and electrochemical
forces. Flow in microdevices, external flow measurement and control, microvalves
and micropumps. Limited to students with graduate standing. Recommended Preparation: AME 309, MATH 445. Grading Option: Letter

AME 539 Multi-body Dynamics
Units: 4 Terms Offered: SpSm Kinematics and kinetics of rigid body motion, quaternions
equations; elastic vibrations of continua; geometric and material nonlinearities;
Galakan methods; complex dynamical systems; computational methods. Grading Option: Letter

AME 541 Linear Control Systems II
Units: 4 Terms Offered: Fa State space representation, linearization, solution of
state equations; controllability and observability; state feedback, state observers; optimal control; output feedback. Prerequisite: AME 451 Recommended
Preparation: Knowledge of a programming language (MATLAB, SIMULINK) Duplicates Credit in EE 585 Grading Option: Letter

AME 542 Theory of Plates and Shells
Units: 2 Terms Offered: Sp (Enroll in CE 542)

AME 543 Structural Instability and Failure
Units: 4 Terms Offered: Sp (Enroll in CE 543)

AME 544 Computer Control of Mechanical Systems
Units: 3 Terms Offered: Sp Computer control as applied to machine tools, mechanical manipulators, and other mechanical machinery; discrete time controller design; microprocessor implementation of motion and force control servos. Prerequisite: AME 451. Grading Option: Letter

AME 545 Modeling and Control of Distributed Dynamic Systems
Units: 3 Terms Offered: Sp Modeling and analysis of complex flexible mechanical systems; distributed transfer function synthesis; frequency-domain control methods; smart structure design; applications in vibration and noise control. Prerequisite: AME 521 and AME 541. Grading Option: Letter

AME 546 Design for Manufacturing Assembly
Units: 4 Terms Offered: Sp Overview of methods and tools for creating products that are easier to manufacture and assemble thereby reducing manufacturing costs. Instruction Mode: Lecture Grading Option: Letter

AME 547 Foundations for Manufacturing Automation
Units: 4 Terms Offered: Fa An overview of the building blocks that underlie automation; mechanics-based models for designing automated systems; decision-making tools and methods for supporting manufacturing automation. Recommended Preparation: AME 451 or background in Linear Controls Grading Option: Letter

AME 548 Analytical Methods in Robotics
Units: 3 Terms Offered: Irregular Homogeneous transformations; formal description of robot manipulators; kinematic equations and their solution; differential relationships; dynamics; control; static forces; compliance. Prerequisite: EE 545; EE 482 or AME 451; knowledge of linear algebra. Grading Option: Letter Crosslisted as EE-SAE 549

AME 549 Systems Architecture
Units: 3 Terms Offered: FaSm (Enroll in SAE 549)

AME 550 Seminar in Aerospace and Mechanical Engineering
Units: 1 Max Units: 03 Terms Offered: FaSp Recent developments and research in aerospace and mechanical engineering and related fields. Oral and written reports. Registration Restriction: Open only to AME graduate students. Duplicates Credit in former AME 550a and former AME 550b Grading Option: Lecture Grading Option: Credit/No Credit

AME 551 Mechanical Behavior of Engineering Materials
Units: 4 Terms Offered: FaSp (Enroll in MAS 551)

AME 552 Nonlinear Control Systems
Units: 4 Terms Offered: Sp Phase plane, describing function, applications to mechanical and aerospace systems. Lyapunov stability theory. Popov theorem. Circle criterion. Lyapunov redesign. Sliding mode control. Backstepping. Passivity. Prerequisite: AME 541 or EE 585 Recommended Preparation: Background in dynamics and classical control system Grading Option: Letter

AME 553 Digital Control Systems
Units: 4 Terms Offered: Sp (Enroll in EE 543)

AME 554 Additive Manufacturing Technologies
Units: 4 Terms Offered: Fa Overview and working principles of commonly used additive manufacturing processes; process models; process and material selection; cost estimation methods; current applications and future directions. Instruction Mode: Lecture Grading Option: Letter

AME 556 Robot Dynamics and Control
Units: 4 Terms Offered: FaSp Introduction to dynamics and control of robotic systems including Model Predictive Control (MPC), Quadratic Program (QP)-based nonlinear control and trajectory optimization. Recommended Preparation: Dynamics and controls on the level of AME 302, AME 451 Instruction Mode: Lecture Grading Option: Letter Crosslisted as CSCI 547

AME 559 Creep
Units: 3 Terms Offered: Fa (Enroll in MAS 559)

AME 560 Fatigue and Fracture
Units: 3 Terms Offered: Sp (Enroll in MASC 560)

AME 561 Dislocation Theory and Applications
Units: 4 Terms Offered: Sp (Enroll in MASC 561)

AME 562 Computational Energy Materials
Units: 4 Terms Offered: FaSp Introduction to computational mechanics and thermodynamics of energy materials including phase transformations, material kinetics and continuum mechanics of crystalline solids. Recommended Preparation: AME 525, basic familiarity with Mathematica Instruction Mode: Lecture Grading Option: Letter

AME 567 Collaborative Engineering Principles and Practice
Units: 3 Terms Offered: Sp (Enroll in ISE 567)

AME 572L Experimental Engineering Projects
Units: 3 Terms Offered: Sp Neutron-induced fission chain reactions, reactor criticality. Neutron transport and diffusion in nuclear reactors. Mathematical/computational foundation for diffusion theory and transport calculations for fissile reactor design analysis. Prerequisite: AME 526 and AME 581; Recommended Preparation: undergraduate degree in engineering and PHYS 153L Grading Option: Letter

AME 573 Aerosol Physics and Chemistry
Units: 3 Terms Offered: Sp Examination of the fundamentals of aerosol formation and evolution, aerosol effects on health and climate, and the principles of aerosol measurement. Registration Restriction: Open only to masters and doctoral students. Instruction Mode: Lecture Grading Option: Letter

AME 575 Advanced Engineering Analysis
Units: 3 Terms Offered: Fa Solution of engineering problems by methods of calculus variations, integral equations, asymptotic expansions. Prerequisite: CE 525 or AME 525 and AME 526. Grading Option: Letter

AME 576 Advanced Engineering Analytical Methods
Units: 3 Terms Offered: Sp Solution of engineering problems by methods of linear and nonlinear partial differential equations of first and second order; perturbations. Prerequisite: AME 525 or AME 526 or CE 525 or CE 526. Grading Option: Letter

AME 577 Survey of Energy and Power for a Sustainable Future
Units: 4 Terms Offered: FaSp Power production includes conventional fossil fuels, synthetic fuels, hydroelectric, solar, wind, geothermal, biomass and nuclear. The environmental consequences of various energy sources are discussed. Recommended Preparation: Graduate standing in Engineering Physics, or Chemistry Duplicates Credit in CHE 510 Instruction Mode: Lecture Grading Option: Letter Crosslisted as EE 626

AME 578 Modern Alternative Energy Conversion Devices
Units: 3 Terms Offered: FaSp Alternative energy/power conversion including fuel cells, photovoltaic, batteries, and biologically inspired energy processes; biomass conversion and utilization; Environmental implications of alternative energy processes. Grading Option: Letter

AME 579 Numerical Modeling of Single and Multiphase Reactive Flows
Units: 4 Terms Offered: Fa Principles of numerical modeling of reacting flows. Physical and statistical description of combustion subprocesses: flames, edge flames, ignition, sprays. Multi physics principles of modeling. Prerequisite: AME 535a and AME 513b Grading Option: Letter

AME 581 Introduction to Nuclear Engineering
Units: 3 Terms Offered: Fa Review of basic nuclear physics, binding energy, reactor kinetics, thermal transport in reactor systems, radioactivity, shielding, reactor safety and health effects of radiation, risk assessment. Open only to graduate students. Recommended Preparation: Undergraduate degree in engineering; AME 310, MATH 245, PHYS 153L Grading Option: Letter

AME 582 Nuclear Reactor Physics
Units: 3 Terms Offered: Sp Neutron-induced fission chain reactions, reactor criticality. Neutron transport and diffusion in nuclear reactors. Mathematical/computational foundation for diffusion theory and transport calculations for fissile reactor design analysis. Prerequisite: AME 526 and AME 581; Recommended Preparation: undergraduate degree in engineering and PHYS 153L Registration Restriction: Open only to master's and doctoral students. Instruction Mode: Lecture Grading Option: Letter

AME 583 Effects of Radiation on Health
Units: 3 Terms Offered: Sp Nuclear physics relevant to human health. Biological effects of radiation, quantification and
measurement of different types of radiation affecting living tissue, radiation protection, nuclear accidents. Prerequisite: AME 526 and AME 581; Recommended Preparation: undergraduate degree in engineering and PHYS 153L. Registration Restriction: Open only to master's and doctoral students. Instruction Mode: Lecture Grading Option: Letter

AME 584 Fracture Mechanics and Mechanisms
Units: 3 Terms Offered: Fa (Enroll in MASC 584)

AME 585 Aerospace Structures II
Units: 3 Terms Offered: FaSp. Analysis of repairs in aircraft/launch vehicles. Flexible dynamics for spacecraft, random vibration, deployable spacecraft components, certification of thermal protection systems. Practical finite element analysis. Prerequisite: AME 485 Instruction Mode: Lecture Grading Option: Letter

AME 588 Materials Selection
Units: 4 Terms Offered: Fa (Enroll in MASC 583)

AME 590 Directed Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Research leading to the master's degree. Master's units which may be applied to the degree to be determined by the department. Grading Option: Credit/No Credit

AME 594a Master's Thesis
Units: 2 Credit on acceptance of thesis. Grading Option: In-progress to Credit/No Credit

AME 594b Master's Thesis
Units: 2 Credit on acceptance of thesis. Grading Option: In-progress to Credit/No Credit

AME 594c Master's Thesis
Units: 0 Credit on acceptance of thesis. Grading Option: In-progress to Credit/No Credit

AME 599 Special Topics
Units: 2, 3, 4 Max Units: 9.0 Terms Offered: FaSp. Course content will be selected each semester to reflect current trends and developments in the field of mechanical engineering. Grading Option: Letter

AME 620 Aero and Hydrodynamic Wave Theory
Units: 3 Linear and nonlinear wave motion in fluids: group velocity, dispersion, wave action, wave patterns, evolution equations, solitons and solitary waves, resonance phenomena. Recommended Preparation: AME 526 and CE 309. Grading Option: Letter

AME 621 Stability of Fluids
Units: 3 Linear and nonlinear stability analysis applied to free shear layers, boundary layers and jets; Rayleigh-Benard convective instabilities and centrifugal instability of rotating flows. Recommended Preparation: AME 530b. Grading Option: Letter

AME 623 Dynamics of Stratified and Rotating Flows
Units: 3 Fluid motions in which density gradients and/or rotation are important, including internal wave motions with rotation, flow past obstacles, viscous effects, singular perturbations. Recommended Preparation: AME 530b. Grading Option: Letter

AME 624 The Fluid Dynamics of Natural Phenomena
Units: 3 Application of the basic concepts of rotating, stratified fluid motion to problems in meteorology, oceanography, geophysics and astrophysics. Grading Option: Letter

AME 626 Singular Perturbation Methods

AME 630 Transition to Chaos in Dynamical Systems
Units: 4 Terms Offered: Irregular A unified discussion of advanced topics in nonlinear dynamics focusing on bifurcations in iterated maps, differential dynamics, and evolutionary game-theory and epidemiological compartment modeling. Prerequisite: AME 526 Recommended Preparation: Familiarity with ordinary and partial differential equations at the level of AME 525/AME 526 Instruction Mode: Lecture Grading Option: Letter

AME 640 Advanced Theory of Elasticity
Units: 3 (Enroll in CE 640)

AME 645 Uncertainty Modeling and Stochastic Organization
Units: 3 (Enroll in CE 645)

AME 647 Multiscale Methods in Mechanics
Units: 3 (Enroll in CE 647)

AME 651 Statistical Theories of Turbulence

AME 652 Turbulent Shear Flows

AME 690 Directed Research
Units: 1, 2, 3, 4 Max Units: 8.0 Laboratory study of specific problems by candidates for the degree Engineer in Mechanical Engineering. Grading Option: Credit/No Credit

AME 694a Thesis
Units: 2 Required for the degree Engineer in Aerospace Engineering. Credit on acceptance of thesis. Grading Option: In-progress to Credit/No Credit

AME 694b Thesis
Units: 2 Required for the degree Engineer in Aerospace Engineering. Credit on acceptance of thesis. Grading Option: In-progress to Credit/No Credit

AME 694c Thesis
Units: 0 Required for the degree Engineer in Aerospace Engineering. Credit on acceptance of thesis. Grading Option: In-progress to Credit/No Credit

AME 790 Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Research leading to the doctorate.
AMST 140gw Borderlands in a Global Context
Units: 4 Interdisciplinary survey of theory and borderland site cases, national sentiment, linguistic and cultural conflicts, exploration of local, regional, and national identities in cultural contact zones. Satisfies New General Education in Category C: Social Analysis Satisfies Global Perspective in Category G: Citizenship in a Diverse World Satisfies Old General Education in Category VI: Social Issues Instruction Mode: Lecture, Discussion Grading Option: Letter

AMST 150gw The American War in Viet Nam
Units: 4 Examination of the ways that different nations and cultures have remembered the Vietnam War or the American War as it is called in Vietnam. Satisfies New General Education in Category B: Humanistic Inquiry Satisfies Global Perspective in Category G: Citizenship in a Diverse World Satisfies Old General Education in Category V: Arts and Letters Duplicates Credit in former AMST 377. Instruct Mode: Lecture, Discussion Grading Option: Letter

AMST 200gm Introduction to American Studies and Ethnicity
Units: 4 Terms Offered: FaSp An introduction to American studies and ethnic studies. Provides an overview of major theories, concepts, and issues. Satisfies New General Education in Category C: Social Analysis Instruction Mode: Lecture Grading Option: Letter

AMST 201g LGBTQ America
Units: 4 Examines how U.S. sexual identity and experience are represented in the 20th and 21st century and introduces the interdisciplinary field of LGBTQ Studies. Satisfies New General Education in Category B: Humanistic Inquiry Instruction Mode: Lecture, Discussion Grading Option: Letter

AMST 202m Interethnic Diversity in the West
Units: 4 Introduction to community, culture, and ethnicity within the Western United States with emphasis on African American, Asian American, and Chicano/Latino cultures and social patterns. Instruction Mode: Lecture Grading Option: Letter

AMST 204g Introduction to Native Studies
Units: 4 Terms Offered: FaSp Overview of Native American studies, including Indigenous intellectualism and resistance through language revitalization, film-making, and the recognition of one another. Satisfies New General Education in Category C: Social Analysis Instruction Mode: Lecture Grading Option: Letter

AMST 205g Introduction to American Popular Culture
Units: 4 Terms Offered: FaSp Examines the relation between U.S. national culture, race, and popular culture. Satisfies New General Education in Category B: Humanistic Inquiry Instruction Mode: Lecture, Discussion Grading Option: Letter

AMST 206gm The Politics and Culture of the 1960s
Units: 4 Terms Offered: Sp Examines political and cultural change in the United States during the decade of the 1960s. Satisfies New General Education in Category C: Social Analysis Satisfies Global Perspective in Category G: Citizenship in a Diverse World Satisfies Old General Education in Category II: Global Cultures and Traditions Instruction Mode: Lecture, Discussion Grading Option: Letter

AMST 211g Sex in America
Units: 4 Terms Offered: FaSp Explores how the proliferation of sexual cultures, identities, politics shape everyday lives in the United States and beyond. Satisfies New General Education in Category C: Social Analysis Duplicates Credit in former AMST 111 Instruction Mode: Lecture, Discussion Grading Option: Letter

AMST 215gw Race and Mixed Race
Units: 4 Terms Offered: Irregular Concepts of race and mixed race historically shaped through law, science, and popular culture, including their social construction and evolution over time. Satisfies New General Education in Category C: Social Analysis Satisfies Global Perspective in Category G: Citizenship in a Diverse World Instruction Mode: Lecture, Discussion Grading Option: Letter

AMST 220gm The Making of Asian America
Units: 4 Terms Offered: FaSp Historical, social, and cultural analysis of (East, South, and Southeast) Asians in the United States. Themes examined: immigration, race and gender relations, ethnic culture, community and identity. Satisfies New General Education in Category C: Social Analysis Satisfies Global Perspective in Category G: Citizenship in a Diverse World Instruction Mode: Lecture Grading Option: Letter

AMST 230g Introduction to African American Studies
Units: 4 Examines the socio-historical and political imperatives of multi-disciplinary scholarship foundational to the study of African Americans. Satisfies New General Education in Category C: Social Analysis Instruction Mode: Lecture, Discussion Grading Option: Letter

AMST 240gm Representing 9/11 and Hurricane Katrina
Units: 4 Terms Offered: FaSp (Enroll in ANTH 240gm)

AMST 242gm Social Responses to Disaster
Units: 4 Exploration of social complexities associated with U.S. political and cultural change in the United States with emphasis on Latin America, the Caribbean, Europe and Africa. Satisfies New General Education in Category C: Social Analysis Satisfies Global Perspective in Category G: Citizenship in a Diverse World Satisfies Old General Education in Category II: Global Cultures and Traditions Instruction Mode: Lecture, Discussion Grading Option: Letter

AMST 250gm The African Diaspora
Units: 4 Terms Offered: FaSp History, political-economy and aesthetics of the African Diaspora with emphasis on Latin America, the Caribbean, Europe and Africa. Satisfies New General Education in Category C: Social Analysis Satisfies Global Perspective in Category G: Citizenship in a Diverse World Satisfies Old General Education in Category II: Global Cultures and Traditions Instruction Mode: Lecture, Discussion Grading Option: Letter Crosslisted as ENGL-250

AMST 252gm Black Social Movements in the U.S.
Units: 4 This course examines black social movements for freedom, justice, equality, and self-determination. Beginning with Reconstruction, movements include labor, civil rights, radical feminism, socialism, reparations, Black Nationalism, prisoners' rights, and Hip Hop. Satisfies Global Perspective in Category G: Citizenship in a Diverse World Instruction Mode: Lecture Grading Option: Letter

AMST 274gm Exploring Ethnicity through Film

AMST 285gm African American Popular Culture
Units: 4 Terms Offered: Sp Examines history of popular cultural forms such as literature, music, dance, theatre, and visual arts produced by and about African Americans. Concurrent Enrollment: MDA 140. Satisfies New General Education in Category C: Social Analysis Instruction
Mode: Lecture, Discussion Grading Option: Letter Crosslisted as ENGL-285

AMST 301 gp America, the Frontier, and the New West
Units: 4 Terms Offered: FaSp Introduction to the interdisciplinary study of American political, cultural, and social life with a particular emphasis on the Western United States as a region. Recommended Preparation: HIST 100, ENGL 263. Satisfies New General Education in Category A: Humanistic Inquiry Satisfies Global Perspective in Category G: Citizenship in a Diverse World Instruction Mode: Lecture Grading Option: Letter

AMST 302 Lapwah, the Frontier, and the New West
Units: 4 Terms Offered: FaSp Introduction to the interdisciplinary study of American political, cultural, and social life with a particular emphasis on the Western United States as a region. Recommended Preparation: HIST 100, ENGL 263. Satisfies New General Education in Category A: Humanistic Inquiry Satisfies Global Perspective in Category G: Citizenship in a Diverse World Instruction Mode: Lecture Grading Option: Letter

AMST 305 Art and Performance in the Americas
Units: 4 Terms Offered: Regular Critically examine the histories, formations, and possibilities of art and performance from the 1970s forward. Instruction Mode: Lecture Grading Option: Letter

AMST 312 Documenting Latinx Los Angeles Food Cultures
Units: 4 (Enroll in ANTH 312)

AMST 318 Global Cyphers: Hip Hop Circles Around the World
Units: 4 Terms Offered: Regular (Enroll in FREN 318)

AMST 320 Social Construction of Race and Citizenship
Units: 4 Terms Offered: FaSp Comparative perspective on the social construction of race and citizenship. Social, economic and political experiences of selected groups in the U.S. are examined. Instruction Mode: Lecture Grading Option: Letter Crosslisted as POSC-322

AMST 325gw The Middle East in Hollywood
Units: 4 Terms Offered: FaSp An examination of how Hollywood representations of the Middle East have changed over the last 100 years, focusing on how representations influence perceptions and policies. Satisfies New General Education in Category A: The Arts Satisfies Global Perspective in Category G: Citizenship in a Diverse World Instruction Mode: Lecture, Discussion Grading Option: Letter

AMST 326 Latinx Media Studies
Units: 4 Terms Offered: FaSp Enroll in COMM 326

AMST 328 Asian American Politics
Units: 4 Terms Offered: FaSp Enroll in POSC 328

AMST 330m Black Music and the Political Imagination
Units: 4 Explores the changing political meanings of "Black music" throughout the 20th century, from freedom to a threat to civil order, from racial integration to Black liberation. Duplicates Credit in the former GEOG 350m. Instruction Mode: Lecture Grading Option: Letter

AMST 331gw The Black Atlantic: Narratives of Migration and Travel
Units: 4 Terms Offered: FaSp A survey of narratives accounting for the global dimensions of Black migratory experiences between Africa, Europe and the Americas, from early modern trajectories to contemporary times. Satisfies New General Education in Category B: Humanistic Inquiry Satisfies Global Perspective in Category G: Citizenship in a Diverse World Instruction Mode: Lecture Grading Option: Letter Crosslisted as COLT 331

AMST 332m Post-Civil Rights Black America
Units: 4 Analyzes the political, economic, and cultural experiences of the post-1965 period through an interrogation of contemporary conditions, movements, and responses to power in Black America. Instruction Mode: Lecture Grading Option: Letter

AMST 333 Religion in the Borderlands
Units: 4 (Enroll in REL 333)

AMST 336 Re-Viewing Religion in Asian America
Units: 4 (Enroll in REL 336)

AMST 337m Islam in Black America: From Slavery to Hip Hop
Units: 4 Exploration of the rise of Islam in Black America, and the relationship of Black American Muslims to more recent Muslim immigrants using historical and sociopolitical frameworks. Instruction Mode: Lecture Grading Option: Letter Crosslisted as REL-337

AMST 340m Latinx/o LA
Units: 4 Examination of spatial and social patterns of the Latino population in Los Angeles. Emphasis on economic, demographic and cultural processes. Duplicates Credit in the former GEOG 340. Instruction Mode: Lecture Grading Option: Letter

AMST 342m Law and Identities
Units: 4 Examines the complex and contested interaction between the law and racial, gender, religious, ethnic, and sexual identities using historical and contemporary cases. Instruction Mode: Lecture Grading Option: Letter Crosslisted as REL-337

AMST 343 Food, Health and Culture in Los Angeles
Units: 4 Terms Offered: FaSp Examination of Los Angeles’ diverse food cultures as well as the food justice issues that affect many low-income residents of neighborhoods surrounding USC campus. Duplicates Credit in SPAN 385 Instruction Mode: Lecture Grading Option: Letter

AMST 344m Islamic Law and American Society
Units: 4 Examination of the nature and substance of Islamic law (Shar’i) and how it relates to American democracy, society and secularism. Instruction Mode: Lecture Grading Option: Letter Crosslisted as REL-344

AMST 345 Law and American Indian Studies
Units: 4 Terms Offered: FaSp Examines indigenous sovereignties and the historical and contemporary legal histories and cases which inform them. Instruction Mode: Lecture Grading Option: Letter

AMST 348m Race and Environmentalism
Units: 4 Relationships between environmentalism, environmental problems and social/ethnic minorities. Rise of environmental justice movement. Assessment of social science methods used to investigate these relationships. Instruction Mode: Lecture Grading Option: Letter

AMST 350 Junior Seminar in American Studies and Ethnicity: Theories and Methods
Units: 4 Terms Offered: FaSp Advanced study in interdisciplinary theories and methods for analyzing race and ethnicity in the United States, including a comparative study of topics such as inequality, gender, and class. Instruction Mode: Lecture Grading Option: Letter

AMST 353m Race and Racism in the Americas
Units: 4 Terms Offered: FaSp Examination of selected topics in the historical development of racism with the goal of understanding the complex ways in which race has functioned in the modern world. Instruction Mode: Lecture Grading Option: Letter Crosslisted as HIST-353

AMST 357m Latino Social Movements
Units: 4 Terms Offered: FaSp Focuses on the political experience of Latinos in the U.S. Comparative analysis of their political experiences and perspectives, their histories of identity formation, and their political organizations. Instruction Mode: Lecture Grading Option: Letter Crosslisted as SOCI-357

AMST 364m African American Art
Units: 4 Terms Offered: FaSp Enroll in AHIS 365m

AMST 365 Leadership in the Community — Internship
Units: 4 Terms Offered: FaSp Eight to 10 hours per week in a community-based internship plus two hour lecture. Theoretical and practical issues associated with community leadership. Instruction Mode: Lecture Grading Option: Letter

AMST 373m History of the Mexican American
Units: 4 Terms Offered: FaSp Racial and cultural background of Mexico; immigration and conquest; the Mexican in California and the southwest; the rise of contemporary Mexican-American consciousness. Duplicates Credit in former HIST 472. Instruction Mode: Lecture Grading Option: Letter Crosslisted as HIST-373

AMST 376m Contemporary Issues in Asian American Communities
Units: 4 Terms Offered: FaSp Enroll in SOCI 376m

AMST 378m Introduction to Asian American History
Units: 4 Terms Offered: FaSp Comparative examination of the social, economic, and political experiences of Asian immigrants and their descendants in the U.S. 1840s—present. Duplicates Credit in former HIST 378. Instruction Mode: Lecture Grading Option: Letter Crosslisted as HST-378

AMST 379 Arabs in America
Units: 4 Terms Offered: FaSp Arab immigration and acculturation in the U.S. from late 19th century to present; emphasis on community formation, race, religion and gender. Instruction Mode: Lecture Grading Option: Letter Crosslisted as HIST-379

AMST 380 American Popular Culture
Units: 4 Terms Offered: FaSp Enroll in HIST 380

AMST 382 America and the World: Japan Case Study
Units: 4 Terms Offered: Sm Transnational, global perspective on American culture
to examine the relationship between Los Angeles and various cities in Japan. Trip to Japan. Instruction Mode: Lecture Grading Option: Letter

**AMST 385 African American Culture and Society**
Units: 4 Terms Offered: Sp Examines social and cultural issues affecting the past and present lives of African Americans in the United States. Instruction Mode: Lecture Grading Option: Letter

**AMST 389m Carceral Geographies**
Units: 4 Terms Offered: FaSp Focusing on California, interdisciplinary research teams will study why there are so many new U.S. prisons. What is their relationship to shopping malls, gated communities, new U.S. prisons. What is their relationship to shopping malls, gated communities, globalization? Prerequisite: AMST 200. Instruction Mode: Lecture Grading Option: Letter

**AMST 390 Special Problems**
Units: 1, 2, 3, 4 Supervised, individual studies. No more than one registration; by petition only. Instruction Mode: Lecture Grading Option: Letter

**AMST 392 Undergraduate Research Methods**
Units: 2 Terms Offered: FaSpSm Examines processes of scholarly research; quantitative and qualitative research methods; faculty mentorship; experiential learning; research proposal writing; careers in research. Sophomore or junior standing in the major. Departmental approval. Instruction Mode: Lecture Grading Option: Letter Crosslisted as EDUC-392

**AMST 395m African American Humor and Culture**
Units: 4 Terms Offered: FaSp Examination of one of several traditions of African American humor for insights into shifting notions of race, culture, language and identity in and beyond Black America. Instruction Mode: Lecture Grading Option: Letter Crosslisted as ANTH-395

**AMST 406 Social Media Storytelling for Latinx Audiences**
Units: 2 (Enroll in JOUR 406)

**AMST 414 Latin@o Screen Cultures**
Units: 4 Terms Offered: FaSpSm (Enroll in CTCS 414)

**AMST 424m Political Participation and American Diversity**
Units: 4 Terms Offered: Fa (Enroll in POSC 424m)

**AMST 428 Latino Politics**
Units: 4 Terms Offered: Fa (Enroll in POSC 428)

**AMST 432m Racial and Ethnic Relations in a Global Society**
Units: 4 Terms Offered: FaSp (Enroll in SOCI 432m)

**AMST 440 Graphic America: Reading American Culture Through Graphic Novels**
Units: 4 Examine American identity and culture through exploration of graphic novels that vary widely in theme, including ancestry, race, gender, sexuality throughout American history. Instruction Mode: Lecture Grading Option: Letter

**AMST 442 American Literature, 1920 to the Present**
Units: 4 Terms Offered: FaSp (Enroll in ENGL 442)

**AMST 444m Native American Literature**
Units: 4 Terms Offered: FaSp (Enroll in ENGL 444m)

**AMST 445 African American Anthropology**
Units: 4 (Enroll in ANTH 445)

**AMST 446 Cultural Circuits in the Americas**
Units: 4 Terms Offered: FaSp How does culture move within and across the Americas? What are the relationships between new global media conglomerates, “national cultural industries,” and local cultural practices? Instruction Mode: Lecture Grading Option: Letter

**AMST 447 Caribbean Literature**
Units: 4 An introduction to Caribbean studies, using literature and film, with a focus on specific islands examined in their transnational and global contexts. Instruction Mode: Lecture Grading Option: Letter

**AMST 448m Chicano and Latino Literature**
Units: 4 Terms Offered: FaSp Development of poetry, essay, short story and novel of the Chicano and Latino peoples of the United States, with particular emphasis on the differentiating characteristics between the multiple cultures that constitute the Latino populations. Duplicates Credit in former ENGL 448m. Instruction Mode: Lecture Grading Option: Letter Crosslisted as ENGL-448

**AMST 449m Asian American Literature**
Units: 4 Terms Offered: FaSp Survey of Asian American literature from the earliest time to the present; development of prose, poetry and novel. Instruction Mode: Lecture Grading Option: Letter Crosslisted as ENGL 449

**AMST 452m Race, Gender and Sexuality**
Units: 4 Examine issues of sexual discourse in the United States in the context of slavery, empire, sex work, labor markets, schools and prisons. Instruction Mode: Lecture Grading Option: Letter

**AMST 456m People of Color and the News Media**
Units: 4 (Enroll in JOUR 466m)

**AMST 458m Race and Ethnicity in Entertainment and the Arts**
Units: 4 Terms Offered: FaSpSm (Enroll in COMM 458m)

**AMST 464m Latino News Media in the United States**
Units: 4 (Enroll in JOUR 465m)

**AMST 465 Studies in American Art**
Units: 4 Max Units: max 8 Terms Offered: FaSp (Enroll in AHIS 465)

**AMST 466m The Psychology of African Americans**
Units: 4 Terms Offered: FaSp Provides an introduction to the study of health, mental health, and social behavior among African Americans. Instruction Mode: Lecture Grading Option: Letter

**AMST 469 Black Religion in America**
Units: 4 (Enroll in REL 469)

**AMST 475m Blackness in American Visual Culture**
Units: 4 Terms Offered: FaSp (Enroll in AHIS 475m)

**AMST 483 Religion and Popular Culture in the United States**
Units: 4 Terms Offered: Sp (Enroll in REL 483)

**AMST 490x Directed Research**
Units: 1, 2, 3, 4, 5, 6, 7, 8 Max Units: 12.0 Individual research and readings. Credit Restriction: Not available for graduate credit. Instruction Mode: Lecture Grading Option: Letter

**AMST 492 Research Methods in American Studies and Ethnicity**
Units: 4 Develop the research proposal and methods for completing a senior honors thesis; for students in one of the four American Studies and Ethnicity majors and Honors Program. Instruction Mode: Lecture Grading Option: Letter

**AMST 493 Senior Honors Thesis in American Studies and Ethnicity**
Units: 4 Writing the honors thesis; for students in one of the four American Studies and Ethnicity majors and Honors Program. Instruction Mode: Lecture Grading Option: Letter

**AMST 498 Senior Seminar in American Studies and Ethnicity**
Units: 4 Terms Offered: FaSp Capstone course for majors, highlighting interdisciplinary study of race and ethnicity in a comparative context. Prerequisite: AMST 200. Instruction Mode: Lecture Grading Option: Letter

**AMST 499 Special Topics**
Units: 2, 3, 4 Max Units: 8.0 Special topics in the earth sciences. Field trip required when appropriate to the topic. Departmental approval required. Instruction Mode: Lecture Grading Option: Letter

**AMST 500 Introduction to American Studies and Ethnicity**
Units: 4 Terms Offered: Fa An exploration of themes, theoretical influences, and methodological approaches current in American Studies and Ethnic Studies. Instruction Mode: Lecture Grading Option: Letter

**AMST 509 Key Topics in Linguistic Anthropology**
Units: 4 Terms Offered: FaSp (Enroll in ANTH 509)

**AMST 510 Readings in Chicano/Latino Studies**
Units: 4 Terms Offered: FaSp Perspectives from the major debates that have driven the development of the field of Chicano/ Latino/a studies across the disciplines. Instruction Mode: Lecture Grading Option: Letter

**AMST 519 Indigenous, Decolonial and Transhemispheric American Studies**
Units: 4 Terms Offered: FaSp Evaluate pressing social science and humanities concerns hemispherically in relation to first peoples, decolonization, land, cultural memory, and politics with comparative ethnic studies. Instruction Mode: Lecture Grading Option: Letter

**AMST 520 Readings in Asian American Studies**
Units: 4 Terms Offered: FaSp Graduate seminar covering critical themes in the
interdisciplinary field of Asian American Studies, including perspectives from anthropology, literature, sociology, history, political studies, religious studies, cultural studies, women/gender studies and psychology. Instruction Mode: Lecture Grading Option: Letter

AMST 522 Transpacific History
Units: 4 (Enroll in HIST 560)

AMST 525 Seminar in American Art
Units: 4 Terms Offered: FaSp Enroll in AHIS 525

AMST 530 Readings in African American Studies
Units: 4 Max Units: 8.0 Terms Offered: FaSp Seminar exploring crucial theoretical, methodological and historical issues in the development of African American Studies. Instruction Mode: Lecture Grading Option: Letter

AMST 543 Critical Studies in Whiteness
Units: 4 Max Units: 8.0 Terms Offered: FaSp Examines meaning of “whiteness” from historical and other disciplinary perspectives; focus is on how whiteness operates within specific racial regimes to perpetuate inequality. Instruction Mode: Lecture Grading Option: Letter

AMST 552 Archives and Subcultures
Units: 4 Terms Offered: FaSm Introduction to the practice of archival research with an emphasis on the literary and historical methods of documenting subcultural groups, particularly racial and sexual minorities. Instruction Mode: Lecture Grading Option: Letter

AMST 553 Race, Gender and Sexuality
Units: 4 Interdisciplinary investigation of concepts, theories, and debates in the study of race and its intersection with gender, lesbian, trans, heterosexual and other sexualities/genders. Instruction Mode: Lecture Grading Option: Letter Crosslisted as SWMS-553

AMST 554 Readings in Chicano/Latino History
Units: 4 Terms Offered: FaSp Readings, analyses, and discussion of various approaches, topics, and genres in the field of Chicano/Latino history. Instruction Mode: Lecture Grading Option: Letter Crosslisted as HIST-554

AMST 560 Readings on Race and Ethnicity
Units: 4 Terms Offered: FaSp Exploration of research on race and ethnicity in the United States as it pertains to political, social, economic, cultural and historical issues. Instruction Mode: Lecture Grading Option: Letter

AMST 562 The Practice of Ethnography
Units: 4 (Enroll in ANTH 562)

AMST 567 Body, Power and Politics
Units: 4 Terms Offered: FaSp Surveys interdisciplinary research and theory on the human body, state power, scientific knowledge, professions and representation. Instruction Mode: Lecture Grading Option: Letter Crosslisted as SWMS 567

AMST 570 Readings on Los Angeles and Urban Culture
Units: 4 Terms Offered: FaSp Exploration of some of the leading scholarship from a variety of disciplines writing about Los Angeles and the Southern California area. Particular emphasis is placed on the intersections of historical, contemporary and cultural issues that inform recent scholarship on Los Angeles. Instruction Mode: Lecture Grading Option: Letter

AMST 572 Quantitative Methods for a Diverse Society
Units: 4 Terms Offered: FaSp Diversity and empirical social research; conceptualization, design and measurement; conducting, analyzing and evaluating surveys and experiments; focus on obstacles in the empirical study of diversity. Instruction Mode: Lecture Grading Option: Letter

AMST 580 Readings in Cultural Studies
Units: 4 Terms Offered: FaSp Seminar in theoretical approaches to cultural studies, with an emphasis on the analysis of race, gender, sexuality, and class in the U.S. Instruction Mode: Lecture Grading Option: Letter

AMST 585 Topics in Cultural Theory
Units: 4 Max Units: 8.0 Terms Offered: FaSp Introduction to key texts on poststructuralism and its theorizing of the body, power, and historical trauma. Instruction Mode: Lecture Grading Option: Letter

AMST 586 Utopia and Dystopia

AMST 590 Directed Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Terms Offered: FaSp Research leading to the master's degree. Maximum units which may be applied to the degree to be determined by the program. Instruction Mode: Lecture Grading Option: Credit/No Credit

AMST 593 Practicum in Teaching the Liberal Arts: American Studies
Units: 2 Terms Offered: FaSp Practical principles for the long term development of effective teaching within college disciplines, intended for teaching assistants in American Studies and Ethnicity. Duplicates Credit in MDA 593. Instruction Mode: Lecture Grading Option: Credit/No Credit

AMST 599 Special Topics
Units: 2, 3, 4 Max Units: 8.0 Seminar in selected topics in American studies and ethnicity. Instruction Mode: Lecture Grading Option: Letter

AMST 610 Interdisciplinary Research Seminar in Chicano/Latino Studies
Units: 4 Max Units: 8.0 Terms Offered: FaSp Exploratory issues involved in conducting research in the interdisciplinary field of Chicano/Latino Studies and guides students through the design and completion of a journal-quality research paper. Recommended Preparation: graduate reading course in Chicano/ Latino Studies. Instruction Mode: Lecture Grading Option: Letter

AMST 622 Research Seminar on Transpacific Studies
Units: 4 Terms Offered: FaSp Interdisciplinary research seminar foregrounding a multilateral approach towards understanding the political, cultural, economic, and military relations and conflicts between Asia, the Americas, and the Pacific. Instruction Mode: Lecture Grading Option: Letter Crosslisted as HIST-660

AMST 630 Interdisciplinary Research Seminar: African American Studies
Units: 4 Terms Offered: FaSp Methodological and theoretical approaches to conducting research in African American Studies; design and completion of a publishable research paper. Instruction Mode: Lecture Grading Option: Letter

AMST 635 Critical Spatial Methods
Units: 4 Terms Offered: FaSp An overview of key methodological and theoretical approaches to the study of race and space. Instruction Mode: Lecture Grading Option: Letter

AMST 640 Race, Technology, Power
Units: 4 Terms Offered: FaSp Introduces students to an emerging field of scholarship that examines how race, science and technology are mutually constituted. Instruction Mode: Lecture Grading Option: Letter

AMST 645 The Middle East in American Studies
Units: 4 Terms Offered: FaSp Traces the development of scholarship about Arab, Southwest Asian/North African (SWANA), and Muslim racialization in the context of American Studies and Ethnic Studies. Instruction Mode: Lecture Grading Option: Letter

AMST 657 Critical Theories of Race and Culture
Units: 4 Terms Offered: FaSp (Enroll in COMM-657)

AMST 660 Interdisciplinary Research Seminar in Race and Ethnicity
Units: 4 Explores issues of conducting interdisciplinary research in race and ethnicity and guides students through the design and completion of a journal-quality research paper. Recommended Preparation: graduate reading course in race and ethnicity. Instruction Mode: Lecture Grading Option: Letter

AMST 662 Research Seminar in Comparative Ethnic Studies
Units: 4 Examination of the historical evolution and current status of comparative and relational ethnic studies. Original research project required. Instruction Mode: Lecture Grading Option: Letter

AMST 670 Interdisciplinary Research Seminar on Los Angeles
Units: 4 Introduces students to issues of - urban-based research concerning Los Angeles and guides students through the design and completion of a journal-quality research paper. Recommended Preparation: graduate reading course on Los Angeles. Instruction Mode: Lecture Grading Option: Letter

AMST 680 Interdisciplinary Research Seminar in Cultural Studies
Units: 4 Explores theoretical approaches to cultural studies as an interdisciplinary field and guides students through the design and completion of a journal-quality research paper. Recommended Preparation: graduate reading course in cultural studies.
ANAT 501 Functional Neuroanatomy
Units: 4 Terms Offered: FaSpSm Recommended Preparation: Faculty advice. Prerequisite: ANST 503 and ANST 504. Instruction Mode: Lecture Grading Option: Credit/No Credit

ANST 508 Research: Investigative Inquiry
Units: 3 Terms Offered: Fa. Prerequisite: ANST 503 and ANST 504. Instruction Mode: Lecture Grading Option: Letter

ANST 591 Special Projects
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Terms Offered: FaSpSm Supervised learning in an academic and/or clinical area of focus reflecting current trends and developments in the field of nurse anesthesia. Registration Restriction: Open only to Doctor of Nurse Anesthesia Practice students. Instruction Mode: Lecture Grading Option: Credit/No Credit

ANST 600 Gateway Tools
Units: 2 Emphasizes strategies that build critical skills for the transition from clinician to doctoral level scholarship and clinical practice. Discussions used to develop self awareness, self regulation, internal motivation, empathy, social skills and role transition. Acceptance into the USC Program of Nurse Anesthesia. Registration Restriction: Open only to Doctor of Nurse Anesthesia Practice students. Instruction Mode: Lecture, Discussion Grading Option: Credit/No Credit

ANST 601 Professional Integration to the Clinical Environment
Units: 2 Correlation of techniques of anesthesia administration with application of scientific and pharmacologic theory in the clinical environment with observation and supervised clinical instruction. Registration Restriction: Open only to Doctor of Nurse Anesthesia Practice students. Instruction Mode: Lecture Grading Option: Letter

ANST 602 Analytical Methods for Evidence-Based Practice
Units: 3 Evaluation of the appropriateness of statistical methods applied to answer research questions and impact of statistical choice on applying evidence-based medicine to nurse anesthesia practice. Instruction Mode: Lecture, Discussion Grading Option: Letter

ANST 603 Anatomy and Advanced Health Assessment
Units: 4 Terms Offered: FaSpSm Lectures and laboratory simulation in anatomy emphasizing structure and function of major organs to include brain, cardiovascular, lungs, liver, kidneys and musculoskeletal systems. Acceptance into the USC Program of Nurse Anesthesia. Registration Restriction: Open to Doctor of
Nurse Anesthesia Practice students only Instruction Mode: Lecture Grading Option: Letter

ANST 604 Healthcare Policy for Advocacy in Health Care
Units: 3 Examining the health care system focusing on policy development, health care costs, quality and patient safety, access to care, disparities, and future trends. Instruction Mode: Lecture, Discussion Grading Option: Letter

ANST 607 Advanced Health Assessment
Units: 2 Terms Offered: Sm Advanced health assessment of all human systems utilizing advanced assessment techniques, concepts and approaches. Registration Restriction: Open only to Nurse Anesthesia students only. Instruction Mode: Lecture Grading Option: Credit/No Credit

ANST 608 Advanced Clinical Anatomy for Nurse Anesthesia Practice
Units: 2 Investigation of the cardiovascular, respiratory, renal, hepatic, spine, head and neck, musculoskeletal and nervous system anatomy with emphasis on these systems relating to anesthesia management. Concurrent Enrollment: ANST 610 Registration Restriction: Open only to Doctor of Nurse Anesthesia Practice students Instruction Mode: Lecture Grading Option: Letter

ANST 609 Advanced Health Assessment
Units: 3 Focusses on the patient's health history, on inspection, palpation, percussion and auscultation of major organ systems and differential diagnosis. Registration Restriction: Open only to Doctor of Nurse Anesthesia Practice students Instruction Mode: Lecture Grading Option: Letter

ANST 610 Advanced Physiology for Nurse Anesthesia Practice
Units: 4 Terms Offered: FaSpSm An investigation of the human cardiovascular, respiratory, renal, hepatic, neurological, and hematologic systems and cellular physiology with special emphasis on how these systems relate to anesthesia management. Registration Restriction: Open only to Doctor of Nurse Anesthesia Program majors Instruction Mode: Lecture Grading Option: Letter

ANST 611 Leadership and Collaborative Practice
Units: 3 Terms Offered: FaSpSm Emphasis on the professional components of nurse anesthesia practice including scope of practice, organizational leadership, accountability, ethics and collaborative practice. Registration Restriction: Open only to Doctor of Nurse Anesthesia Practice majors Instruction Mode: Lecture Grading Option: Letter

ANST 613 Clinician-Technology Interface
Units: 3 Exploring informatics, the integration of computer science, cognitive science, and informational science to manage and communicate data, information, knowledge and wisdom in healthcare delivery. Instruction Mode: Lecture Grading Option: Letter

ANST 614 Clinical Residency in Nurse Anesthesia I
Units: 2 Terms Offered: FaSpSm Correlation of techniques of anesthesia administration with application of scientific and pharmacologic theory in the clinical setting with observation and supervised clinical residency. Prerequisite: ANST 501 and ANST 502 Registration Restriction: Open to Doctor of Nurse Anesthesia Practice students only Instruction Mode: Lecture, Lab Grading Option: Letter

ANST 615 Clinical Residency in Nurse Anesthesia II
Units: 2 Terms Offered: FaSpSm Correlation of techniques of anesthesia administration with application of scientific and pharmacologic theory in the clinical setting with observation and supervised clinical residency. Prerequisite: ANST 614 Registration Restriction: Open to Doctor of Nurse Anesthesia Practice students only Instruction Mode: Lecture, Lab Grading Option: Letter

ANST 616 Advanced Clinical Residency in Nurse Anesthesia I
Units: 2 Terms Offered: FaSpSm Correlation of techniques of anesthesia administration with application of scientific and pharmacologic theory expanded to geriatric, obstetrical, and pediatric anesthesia; anesthetic management includes medically compromised patients. Prerequisite: ANST 614 and ANST 615 Registration Restriction: Open to Doctor of Nurse Anesthesia Practice students only Instruction Mode: Lecture, Lab Grading Option: Letter

ANST 617 Advanced Clinical Residency in Nurse Anesthesia II
Units: 2 Terms Offered: FaSpSm Correlation of techniques of anesthesia administration with application of scientific and pharmacologic theory expanded to neuroanesthesia, cardiac anesthesia, trauma anesthesia, critical care and pain management. Prerequisite: ANST 614 and ANST 615 and ANST 616 and ANST 617 Registration Restriction: Open to Doctor of Nurse Anesthesia Practice students only Instruction Mode: Lecture, Lab Grading Option: Letter

ANST 618 Advanced Clinical Residency in Nurse Anesthesia III
Units: 2 Terms Offered: FaSpSm Correlation of techniques of anesthesia administration with application of scientific and pharmacologic theory expanded to neuroanesthesia, cardiac anesthesia, trauma anesthesia, critical care and pain management. Prerequisite: ANST 614 and ANST 615 and ANST 616 and ANST 617 Registration Restriction: Open to Doctor of Nurse Anesthesia Practice students only Instruction Mode: Lecture, Lab Grading Option: Letter

ANST 619 Advanced Clinical Residency in Nurse Anesthesia IV
Units: 3 Terms Offered: FaSpSm Correlation of techniques of anesthesia administration with application of scientific and pharmacologic theory expanded to neuroanesthesia, cardiac anesthesia, trauma anesthesia, critical care and pain management. Prerequisite: ANST 614 and ANST 615 and ANST 616 and ANST 617 Registration Restriction: Open to Doctor of Nurse Anesthesia Practice students only Instruction Mode: Lecture, Lab Grading Option: Letter

ANST 621 Clinical Synthesis I
Units: 2 Terms Offered: FaSpSm Lecture and simulation curriculum promoting synthesis and mastery of topics integral to the art and science of nurse anesthesia planning, management and delivery. Prerequisite: ANST 631 Registration Restriction: Open only to Doctor of Nurse Anesthesia students Duplicates Credit in former ANST 620a Instruction Mode: Lecture Grading Option: Letter

ANST 622 Clinical Synthesis II
Units: 2 Terms Offered: FaSpSm Part two of a four-semester curriculum promoting synthesis and mastery of topics integral to the art and science of nurse anesthesia planning, management and delivery. Prerequisite: ANST 632 Registration Restriction: Open only to Doctor of Nurse Anesthesia students Duplicates Credit in ANST 621b Instruction Mode: Lecture Grading Option: Letter

ANST 631 Clinical Synthesis I
Units: 3 Terms Offered: FaSpSm Lecture and advanced simulation curriculum promoting synthesis and mastery of topics integral to the art and science of nurse anesthesia planning, management and delivery. Prerequisite: ANST 633 Registration Restriction: Open only to Doctor of Nurse Anesthesia students Instruction Mode: Lecture Grading Option: Letter

ANST 632 Clinical Synthesis II
Units: 2 Terms Offered: FaSpSm Part four of a four-semester curriculum promoting synthesis and mastery of topics integral to the art and science of nurse anesthesia planning, management and delivery. Prerequisite: ANST 632 Registration Restriction: Open only to Doctor of Nurse Anesthesia students Duplicates Credit in former ANST 621 Instruction Mode: Lecture Grading Option: Letter

ANST 633 Clinical Synthesis III
Units: 2 Terms Offered: FaSpSm Emphasizes the differential diagnosis, illness management, and perioperative optimization in patients presenting with hyperacutae, acute, and chronic health alterations using illness scripts. Prerequisite: ANST 608 and ANST 610 Recommended Preparation: Two years of direct patient care in a critical care setting Concurrent Enrollment: ANST 609 Registration Restriction: Open only to Doctor of Nurse Anesthesia Practice Residents Duplicates Credit in former ANST 605 Instruction Mode: Lecture Grading Option: Letter

ANST 634 Clinical Synthesis IV
Units: 3 Terms Offered: FaSpSm Continuation of ANST 651 with an emphasis on differential diagnosis, illness management, and perioperative optimization in patients with multiple health alterations. Prerequisite: ANST 651 Recommended Preparation: Two years of direct patient care in a critical care setting Concurrent Enrollment: ANST 501 and ANST 502 Registration Restriction: Open only to Doctor of Nurse Anesthesia Practice Residents Duplicates Credit in former ANST 605 Instruction Mode: Lecture Grading Option: Letter

ANST 650 Directed Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Terms Offered: FaSpSm Research, in part, leading to a doctoral degree in nurse
anthropology. Maximum units which may be applied to the degree to be determined by the department. Prerequisite: ANST 508 Registration Restriction: Open only to Doctor of Nurse Anesthesia Practice students Instruction Mode: Lecture Grading Option: Credit/No Credit

ANTH 691 The Doctor of Nurse Anesthesia Practice Essentials Units: 2 Examination of elements involved in capstone project preparation. Emphasis placed on identification of a project through literature review, gap analysis and assessment of project feasibility. Registration Restriction: Open only to Doctor of Nurse Anesthesia Practice students Instruction Mode: Lecture Grading Option: Letter

ANTH 694a Doctoral Capstone Project Units: 2 Terms Offered: FaSpSm Mentored research on an individualized topic of interest leading to the professional doctorate. The project will culminate in a formal written research paper or presentation. Prerequisite: ANST 691 Registration Restriction: Open only to Doctor of Nurse Anesthesia Practice students Instruction Mode: Lecture Grading Option: Credit/No Credit

ANTH 694b Doctoral Capstone Project Units: 2 Terms Offered: FaSpSm Mentored research on an individualized topic of interest leading to the professional doctorate. The project will culminate in a formal written research paper or presentation. Prerequisite: ANST 694a Registration Restriction: Open only to Doctor of Nurse Anesthesia Practice students Instruction Mode: Lecture Grading Option: Credit/No Credit

ANTH 694c Doctoral Capstone Project Units: 1 Terms Offered: FaSpSm Mentored research on an individualized topic of interest leading to the professional doctorate. The project will culminate in a formal written research paper or presentation. Prerequisite: ANST 694c Registration Restriction: Open only to Doctor of Nurse Anesthesia Practice students Instruction Mode: Lecture Grading Option: Credit/No Credit

ANTH 201g Introduction to Sociocultural Anthropology Units: 4 Introduction to sociocultural anthropology, emphasizing the study of human values and social structures across diverse examples. Readings in ethnography and social analysis. Gateway course for the Anthropology Major. Satisfies New General Education in Category C: Social Analysis Satisfies Old General Education in Category II: Global Cultures and Traditions Instruction Mode: Lecture, Discussion Grading Option: Letter

ANTH 202g Archaeology: Our Human Past Units: 4 Terms Offered: FaSpSm Archaeology as the means of investigating our shared human past, from the origins of humanity to the foundation of significant civilization. Satisfies New General Education in Category C: Social Analysis Instruction Mode: Lecture Grading Option: Letter Crosslisted as CLAS 202, ARCG 202

ANTH 203 Global Media Units: 4 An anthropological approach to examine social and cultural practices of media production, circulation and consumption, engaging with a variety of multimedia. Instruction Mode: Lecture Grading Option: Letter

ANTH 205g Introduction to Global Studies and Cross-cultural Research Units: 4 The effects of globalization on social life in diverse communities, approaching related issues from an ethnographic perspective. Gateway course for the Global Studies Major. Satisfies New General Education in Category C: Social Analysis Instruction Mode: Lecture, Discussion Grading Option: Letter

ANTH 207 Introduction to Heritage Studies Units: 4 Terms Offered: FaSpSm Explores the interdisciplinary field of heritage studies and investigates how cultural heritage is defined, valued and protected. Instruction Mode: Lecture Grading Option: Letter

ANTH 235g The Changing Pacific: History, Culture, Politics Units: 4 Terms Offered: Fa current social and political developments in the South Pacific analyzed from the perspective of the historical relationship between indigenous cultures and the West. Concurrent Enrollment: MDA 140. Satisfies New General Education in Category C: Social Analysis Satisfies Old General Education in Category II: Global Cultures and Traditions Instruction Mode: Lecture Grading Option: Letter

ANTH 240m Representing 9/11 and Hurricane Katrina Units: 4 Terms Offered: FaSp Critical examination of visual, textual, and performative representations of culture and identity anchored by discussion of the terrorist attacks of 9/11 and Hurricane Katrina. Recommended Preparation: ANTH 263g Satisfies Old General Education in Category VI: Social Issues Instruction Mode: Lecture Grading Option: Letter Crosslisted as AMST 240

ANTH 250g Race and Sexual Politics in Southeast Asia Units: 4 Southeast Asia is studied as a meeting place of different races and cultural traditions, with emphasis on the precolonial heritage of sexual equality and postcolonial reinterpretations of men's and women's worlds. Satisfies New General Education in Category C: Social Analysis Satisfies Old General Education in Category II: Global Cultures and Traditions Instruction Mode: Lecture, Discussion Grading Option: Letter

ANTH 255 Culture, Performance and Personal Narrative Units: 4 Terms Offered: FaSpSm Explore personal narratives: Stories people tell about their own lives and experiences as objects of artistic expression and sites for formation of individual and social identity. Instruction Mode: Lecture Grading Option: Letter

ANTH 263g Exploring Culture through Film Units: 4 Concepts of social anthropology, using filmic representations of societies throughout the world. Gateway course for the Anthropology Major. Satisfies New General Education in Category C: Social Analysis Satisfies Old General Education in Category II: Global Cultures and Traditions Instruction Mode: Lecture, Discussion Grading Option: Letter

ANTH 273g Shamans, Spirits and Ancestors: Non-Western Religious Traditions Units: 4 Terms Offered: FaAn intensive study of local systems of belief and knowledge in selected societies in the Pacific, Asia, Africa, the Caribbean and Latin America with emphasis on ideas of the spirit world. Satisfies Old General Education in Category II: Global Cultures and Traditions Instruction Mode: Lecture Grading Option: Letter

ANTH 275 Anthropology of the Arts Units: 4 Addresses what it means to study the arts anthropologically. Highlights anthropological methods for examining the making, doing, meaning-making and context-making processes integral to arts. Recommended Preparation: Introduction
to Socio-Cultural Anthropology Instruction Mode: Lecture Grading Option: Letter

ANTH 311 Old World Archaeology
Units: 4
Terms Offered: Irregular Neolithic revolution and origins of civilization in major culture centers such as Mesopotamia, Egypt, India, or China. Instruction Mode: Lecture Grading Option: Letter

ANTH 312 Documenting Latinx Los Angeles Food Cultures
Units: 4
Explore Latinx food in Los Angeles through an anthropological lens. Students experience, document and analyze local food knowledge and traditions through active field study. Instruction Mode: Lecture Grading Option: Letter

ANTH 314G The Nature of Maya Civilization
Units: 4
A seminar forum on Maya culture from the earliest form to present; problems of origins, classic florescence, systems collapse, conquests, persistence, and transformation today. Satisfies New General Education in Category C: Social Analysis Satisfies Old General Education in Category II: Global Cultures and Traditions Instruction Mode: Lecture, Discussion Grading Option: Letter

ANTH 315gw Native North Americans
Units: 4
Terms Offered: Fa Indigenous peoples of North America: major cultural themes, contemporary issues, language revitalization, nation sovereign, environmental issues, decolonization, satisfies New General Education in Category C: Social Analysis Satisfies Old General Education in Category II: Global Cultures and Traditions Instruction Mode: Lecture, Discussion Grading Option: Letter

ANTH 316gmp Native Americans in American Public Life
Units: 4
Terms Offered: Sp Role of Native Americans in American public life from colonial times to the present; Native American societies and governments and their relations to the U.S. Satisfies New General Education in Category C: Social Analysis Satisfies Global Perspective in Category G: Citizenship in a Diverse World Satisfies Old General Education in Category II: Global Cultures and Traditions Instruction Mode: Lecture, Discussion Grading Option: Letter

ANTH 318 Ethics and Global Heritage
Units: 4
Terms Offered: (Enroll in REL 304)
ANTH 319 Political Anthropology of Europe
Units: 4
Terms Offered: FaSp Examines political systems in Europe through an anthropological lens: nationalism, gender, citizenship and race. Instruction Mode: Lecture Grading Option: Letter

ANTH 320 Male and Female in Pacific Society
Units: 4
Terms Offered: Sp Cultural variations in gender systems and historical changes due to colonialism and development in Polynesia, Melanesia, Indonesia, and other Pacific Rim cultures. Instruction Mode: Lecture Grading Option: Letter

ANTH 321 Space, Place, Perception and Power
Units: 4
The social construction of spaces, places, and landscapes and their reciprocal relationships to human embodied experiences, processes of identity formation and society. Instruction Mode: Lecture Grading Option: Letter Crosslisted as ARCG 334

ANTH 322 Anthropology of Bali
Units: 4
Terms Offered: Sp An introduction to the methodology of social anthropology, focusing on the culture of the Indonesian island of Bali. Instruction Mode: Lecture Grading Option: Letter

ANTH 323 Southeast Asian Cultures Today: Globalization and Multiple Modernities
Units: 4
The cultural and social diversity of Southeast Asia today, focusing on globalization, modernity, and change. Instruction Mode: Lecture Grading Option: Letter

ANTH 324gw Contemporary China: Cultural Politics and Social Realities
Units: 4
Everyday life, politics, social transformations, and cultural practices in the People's Republic of China, from cultural studies and social science perspectives. Satisfies New General Education in Category C: Social Analysis Satisfies Global Perspective in Category G: Citizenship in a Diverse World Instruction Mode: Lecture Grading Option: Letter Crosslisted as EALC 324

ANTH 325 Global Studies Research Methods
Units: 4
Terms Offered: Fa Methods for field research in international settings include ethnography, archival work, surveying and documentation, preparation for overseas research and senior thesis. Recommended Preparation: ANTH 205. Instruction Mode: Lecture Grading Option: Letter

ANTH 326 European Cultures and Societies
Units: 4
Terms Offered: FaSpM Europe as a geographic area in terms of its linguistic, ethnic and cultural diversity, explored especially through the study of folk traditions. Instruction Mode: Lecture Grading Option: Letter

ANTH 329 Archaeology and Global Cultural Heritage
Units: 4
Exploration of the role archaeology plays in the creation of modern national, ethnic, racial and other types of identities worldwide. Instruction Mode: Lecture Grading Option: Letter

ANTH 330 Culture, Gender and Politics in South Asia
Units: 4
Terms Offered: FaExamination of violence, identity, law, religion, nationalism, development, caste, kinship, gender, and the South Asian diaspora. Instruction Mode: Lecture Grading Option: Letter Crosslisted as SWMS-330

ANTH 332 Anthropology and Narrative Medicine
Units: 4
Terms Offered: Fa Exploration of illness, disability, and healing narratives, how narratives are culturally shaped, and their significance for western biomedical practices. Satisfies New General Education in Category C: Social Analysis Instruction Mode: Lecture, Discussion Grading Option: Letter

ANTH 333gm Forms of Folklore
Units: 4
Terms Offered: Fa Introduction to folklore as a discipline, including folklore
COURSES OF INSTRUCTION

research methods and theory. Core course for the minor in Folklore and Popular Culture. Satisfies New General Education in Category C: Social Analysis Instruction Mode: Lecture, Discussion Grading Option: Letter

ANTH 336 Health, Gender and Ethnicity Units: 4 Terms Offered: Sp (Enroll in SWMS 336)

ANTH 337 Anthropology of Warfare Units: 4 Examination of the origins of warfare, its evolution and the changes it brought to human civilization. Recommended Preparation: ANTH 202, ANTH 304. Instruction Mode: Lecture Grading Option: Letter

ANTH 338g Food in Culture and Society Units: 4 Terms Offered: FaSpAn introduction to the field of food studies, as a historical and cross-disciplinary study of the place of food in culture and society. Satisfies New General Education in Category C: Social Analysis Instruction Mode: Lecture Grading Option: Letter

ANTH 340 Anthropology In and Of the Museum Units: 4 Terms Offered: FaSpAn introduction to the field of museum studies. Satisfies New General Education in Category C: Social Analysis Instruction Mode: Lecture Grading Option: Letter

ANTH 344g Social Memory Units: 4 Uses anthropology to explore the gaps between official histories and lived traditions. Ritual, practice and phenomenon in the production and transmission of historic knowledges. Recommended Preparation: Prior coursework in Anthropology Satisfies New General Education in Category C: Social Analysis Instruction Mode: Lecture Grading Option: Letter

ANTH 345 Politics, Social Organization and Law Units: 4 Legal systems are embedded in political, social and historical contexts: comparative study of legal systems throughout history and around the world. Instruction Mode: Lecture Grading Option: Letter

ANTH 357g Cultures of Genocide, Cultures of Care Units: 4 The comparative analysis of genocide in different cultures and historical moments as well as different cultural responses to it, including human rights and humanitarianism. Satisfies New General Education in Category C: Social Analysis Instruction Mode: Lecture Grading Option: Letter

ANTH 360 Symbolic Anthropology Units: 4 Terms Offered: Fa: The role of symbols in the evolution of culture; symbolic aspects of myth, ritual, and social life. Prerequisite: sophomore standing.

Instruction Mode: Lecture Grading Option: Letter

ANTH 365 Life History in Anthropological Perspective Units: 4 Terms Offered: Irregular Examination of one's life within its sociocultural context; study of family history, autobiography, diary, journal, and film; research and writing of a life history. Instruction Mode: Lecture Grading Option: Letter

ANTH 370 Sex, Love, and Marriage: An Introduction to Kinship Units: 4 Terms Offered: Sp Comparative examination of family and kinship in tribal, peasant, and complex societies, emphasizing non-Western cultures, societal and normative consequences of forms and functions in family. Instruction Mode: Lecture Grading Option: Letter

ANTH 371g Cross-Cultural Research on Urban Gangs Units: 4 Terms Offered: FaSpSm Youth gang dynamics and their effects on institutions. Comparative analysis of Asian, African, and Mexican American gangs. Satisfies New General Education in Category C: Social Analysis Instruction Mode: Lecture, Discussion Grading Option: Letter

ANTH 372 Interpretation of Myth and Narrative Units: 4 Terms Offered: Fa Oral narratives from non-Western cultures; communications about deeply-held beliefs, psychological tensions, social problems, and the structure of the mind. Instruction Mode: Lecture Grading Option: Letter

ANTH 373 Magic, Witchcraft and Healing Units: 4 Analysis of the practices of witches and witch doctors, priests, diviners and traditional healers in Western and non-Western societies, relating their practices to religion and medicine. Instruction Mode: Lecture Grading Option: Letter

ANTH 375 Anthropology for Consulting and Design Units: 4 Terms Offered: FaSpSm Practical training in qualitative research methods for design consultation and real-world problem solving in development, government, and corporate contexts. Socially-engaged ethnography; anthropology as cultural critique. Recommended Preparation: Previous course work in Anthropology Instruction Mode: Lecture Grading Option: Letter

ANTH 376 Scientific Analysis in Archaeology Units: 4 Examination of the range of scientific techniques and technologies used for the analysis and interpretation of material culture recovered during archaeological excavations. Recommended Preparation: ANTH 202g Instruction Mode: Lecture Grading Option: Letter Crosslisted as ARCG 376

ANTH 377g Archaeological Interpretation of Complex Societies Units: 4 Archaeologists translate raw data sets into broader understanding through interpretation. Students engage specific examples and develop their own perspectives on past societies. (Block semester) Recommended Preparation:

ANTH 202g Satisfies New General Education in Category C: Social Analysis Instruction Mode: Lecture Grading Option: Letter Crosslisted as ARCG 377

ANTH 380 Sex and Gender in Anthropological Perspective Units: 4 Cultural construction of gender in a number of non-Western societies is compared to ideas of sex and sexual differences in American society. Instruction Mode: Lecture Grading Option: Letter Crosslisted as SWMS-380

ANTH 385m Men and Masculinity Units: 4 (Enroll in SWMS 385m)

ANTH 390 Special Problems Units: 1, 2, 3, 4 Terms Offered: Irregular Supervised, individual studies. No more than one registration permitted. Enrollment by petition only. Instruction Mode: Lecture Grading Option: Letter

ANTH 393 Directed Internship Units: 2, 3, 4, 5, 6, 7, 8 Max Units: 08 Terms Offered: FaSpAn introduction to the field of museum studies. Satisfies New General Education in Category C: Social Analysis Instruction Mode: Lecture Grading Option: Letter

ANTH 395m African American Humor and Culture Units: 4 (Enroll in AMST 395m)

ANTH 400 Maya Resilience: Constructing Past and Present Identities Units: 4 Examination of how the Maya, past and present, have forged their cultural identity. Issues are explored through visits to sites and communities. Recommended Preparation: ANTH 202g, ANTH 310, ANTH 314g or another anthropologically based archaeology course Instruction Mode: Lecture Grading Option: Letter Crosslisted as ARCG 400

ANTH 401 Environment and Politics in the Middle East Units: 4 Terms Offered: FaSpSm (Enroll in MDES 401)

ANTH 405 Evolutionary Medicine Units: 4 Terms Offered: FaSpSm (Enroll in HBIO 405)

ANTH 406 Theory and Method in Human Evolutionary Biology Units: 4 Terms Offered: FaSpSm (Enroll in HBIO 406)

ANTH 409 Indigenous Languages in the Contemporary World Units: 4 Terms Offered: FaSpSm (Enroll in HBIO 409)

ANTH 410 Ethnographic Research Methods Units: 4 Terms Offered: Fa Survey of methods for acquiring and analyzing qualitative research data, emphasizing ethnographic methods for field research in Anthropology. Recommended Preparation: Prior ANTH coursework Duplicates Credit
in former ANTH 410a Instruction Mode: Lecture Grading Option: Letter

ANTH 411 Thesis Seminar in Ethnographic Analysis
Units: 4 Terms Offered: Sp Social analysis of qualitative and ethnographic research data, advanced ethnographic writing and representation. Capstone course for Anthropology Major. Recommended Preparation: Upper-division Anthropology coursework Duplicates Credit in former ANTH 410b Instruction Mode: Lecture Grading Option: Letter

ANTH 414 Refugees: Migration, Race and the Law
Units: 4 Terms Offered: FaPr The international refugee regime is examined through its discursive and embodied dimensions, using a political and legal anthropological lens. Instruction Mode: Lecture Grading Option: Letter

ANTH 415 Global Issues Seminar
Units: 4 Terms Offered: Fa Advanced seminar on a key theme or topic in Global Studies selected by the instructor, with specific focus subject to change with each offering. Recommended Preparation: Upper-division ANTH coursework Instruction Mode: Lecture Grading Option: Letter

ANTH 425 Peoples and Cultures of Latin America
Units: 4 Terms Offered: Irregular Cultures of the indigenous peoples of South America; results of Spanish conquest and colonization; present folk societies and their cultures. Instruction Mode: Lecture Grading Option: Letter

ANTH 435 Ethnic Identity and Minority Politics in China
Units: 4 Modern history and contemporary conditions of ethnic groups in the People's Republic of China, with a focus on the politics of race, belonging and border regions. Instruction Mode: Lecture Grading Option: Letter Crosslisted as EALC 435

ANTH 440 History of Anthropological Theory
Units: 4 Terms Offered: Sp Ideas about man, culture, and society which have formed the field of anthropology as a research discipline; present trends and problems. Instruction Mode: Lecture Grading Option: Letter

ANTH 441w Cities of the Middle East
Units: 4 (Enroll in MDES 441w)

ANTH 445 African American Anthropology
Units: 4 An examination of anthropological research on race and African American culture, from the 18th century to the present. Recommended Preparation: AMST 385, ANTH 263 Instruction Mode: Lecture Grading Option: Letter Crosslisted as AMST 445

ANTH 449 Feminist Science and Technology Studies
Units: 4 Terms Offered: FaSp Familiarize students with foundational debates in feminist science and technology studies and examine new horizons that emerge when feminist STS theories and methodologies are mobilized. Instruction Mode: Lecture Grading Option: Letter

ANTH 450 Field Research in Maya Archaeology
Units: 4 Terms Offered: Sm Hands on research experience at a Maya ruin, including archaeological survey and excavation in the jungle. Prerequisite: ANTH 202g or ANTH 310 or ANTH 314g Corequisite: ANTH 400 Instruction Mode: Lecture Grading Option: Letter Crosslisted as ARCG 482

ANTH 460 Economic Anthropology
Units: 4 Terms Offered: Irregular Comparative study of human systems of valuation and exchange. Topics include labor and work; manufacturing, trade and infrastructure; monetization and commodification. Instruction Mode: Lecture Grading Option: Letter

ANTH 465 Archaeology and Society
Units: 4 Terms Offered: FaSpSm Enroll in CLAS 465

ANTH 470 Multimodal Methods in Visual Anthropology
Units: 4 Projects in practicing anthropology across multiple media, making ethnographic research and anthropological knowledge collaborative, public and scalable in new ways. Instruction Mode: Lecture Grading Option: Letter

ANTH 472 Visual Techniques in Anthropology: Stills
Units: 4 Terms Offered: FaSpSm techniques for data collection and analysis in anthropological research. Visual anthropology research using 35 mm. photography skills, fieldwork procedures, data analysis, and presentation formats. Instruction Mode: Lecture Grading Option: Letter

ANTH 474 Posthuman Anthropology
Units: 4 Terms Offered: Sp Examines how posthumanism is reshaping our understanding of humankind, including the ways in which "vernacular posthumanisms" are increasingly enacted in our everyday lives. Recommended Preparation: Introductory courses in Anthropology and/ or Philosophy Registration Restriction: Not open to freshmen Instruction Mode: Lecture Grading Option: Letter

ANTH 475 Anthropological Film Analysis
Units: 4 Close viewing and analysis of narrative and other modes of representation in classic and contemporary ethnographic film. Instruction Mode: Lecture Grading Option: Letter

ANTH 476 Ethnographic Film Theory from an Historical Perspective
Units: 4 Technologies and uses of, theoretical frameworks for, and the presentation styles of ethnographic materials are examined from an historical perspective. Instruction Mode: Lecture Grading Option: Letter

ANTH 478 Local Culture in A Globalizing World
Units: 4 Terms Offered: FaSpSm Globalization across, and in, locales; diverse experiences in the conjoining of global and local flows of culture in the contemporary world. Instruction Mode: Lecture Grading Option: Letter

ANTH 480 Heritage and Power
Units: 4 Capstone seminar critically explores the idea of heritage and how discourses of race, ethnicity and culture elide with what is referred to as "heritage." Registration Restriction: Open only to seniors Instruction Mode: Lecture Grading Option: Letter

ANTH 481L GIS for Investigating the Past
Units: 4 Training of archaeology students in the use of GIS through the understanding of basic principles and theoretical restrictions of geospatial sciences. Recommended Preparation: ANTH 202g, SSCI 382L Instruction Mode: Lecture, Lab Required Grading Option: Letter Crosslisted as ARCG 481

ANTH 485 Global Studies Capstone Seminar
Units: 4 Terms Offered: Sp Provides senior Global Studies majors with the practical and theoretical skills needed to complete the required Senior Capstone project in Global Studies. Registration Restriction: Senior Capstone for Global Studies majors. Enrollment requires departmental approval Instruction Mode: Lecture Grading Option: Letter

ANTH 490x Directed Research
Units: 1, 2, 3, 4, 5, 6, 7, 8 Max Units: 12.0 Terms Offered: FaSpSm Individual research and readings. Instruction Mode: Lecture Grading Option: Letter

ANTH 491 Directed Research for Honors
Units: 4 Terms Offered: Irregular Individually guided research and readings culminating in the production of an honors thesis. Prerequisite: 3.0 GPA; ANTH 201 plus 8 units of upper-division anthropology courses. Instruction Mode: Lecture Grading Option: Letter

ANTH 499 Special Topics
Units: 2, 3, 4 Max Units: 8.0 Terms Offered: Irregular Current literature: social change, comparative institutions, urbanization, ideology. Instruction Mode: Lecture Grading Option: Letter

ANTH 501 History and Foundations of Anthropology
Units: 4 Terms Offered: Fa A brief critical introduction to the history of anthropological thought over the course of the discipline's long twentieth century, from 1880s to the present. Registration Restriction: Open only to graduate students Instruction Mode: Lecture Grading Option: Letter

ANTH 502 Contemporary Theory in Anthropology
Units: 4 Terms Offered: Sp Explores the emergence and transformation of modern anthropology as an empirically based, but theoretically informed, practice of knowledge production about human sociality and culture. Registration Restriction: Open only to graduate students Instruction Mode: Lecture Grading Option: Letter

ANTH 503 Problematizing Locality: Comparative Ethnographies
Units: 4 A critical and comparative analysis of ideas of locality, space and place in the ethnographies of different cultural areas. Registration Restriction: Open only to graduate students Instruction Mode: Lecture Grading Option: Letter

ANTH 506 Primate Behavior and Sociobiology
Units: 4 Advanced course on the behavior, ecology and socio - biology of living
primates. Takes a Darwinian approach to behaviors such as parenting, mating, diet and feeding, competition, and demography. Instruction Mode: Lecture Grading Option: Letter
ANTH 509 Key Topics in Linguistic Anthropology
Units: 4 Terms Offered: FaSp Introduction to key topics in linguistic anthropology with special focus on interrelations between language, identity, culture, gender, and power in the U.S. and beyond. Instruction Mode: Lecture Grading Option: Letter Crosslisted as AMST-509
ANTH 510 Urban Anthropology
Units: 4 Terms Offered: FaSp Seminar: ethnographic analysis of specialized urban niches, microsettings, ethnicity, community studies. Instruction Mode: Lecture Grading Option: Letter
ANTH 550 Global Black Thought
Units: 4 Terms Offered: Sp Major approaches to ethno-graphic fieldwork are explored in classic cases. Instruction Mode: Lecture Grading Option: Letter Crosslisted as AMST-550
ANTH 575 Seminar in Ethnographic Film
Units: 4 Terms Offered: FaSp Seminar: a survey of ethnographic film using both the dimensions of natural history descriptions and process, contrasted with naturalism and structuralism as tools of controlled comparison and analysis. Instruction Mode: Lecture Grading Option: Letter
ANTH 576 Seminar in Linguistic Anthropology
Units: 4 Max Units: 8.0 A hands-on laboratory-based survey of post-production techniques in video and audio production, including exercises to prepare students to shoot their own documentaries. Instruction Mode: Lecture, Lab Required Grading Option: Letter
ANTH 594 Internship for Curricular Practical Training
Units: 1, 2, 3 Max Units: 03 Terms Offered: FaSp Sm Part-time or full-time practical work experience in the student's field of study. The internship must be located at an off-campus facility. Students are individually supervised by faculty. May not be taken until the student has completed at least one semester of enrollment in the graduate program. Registration Restriction: Open only to graduate students in Anthropology and Visual Anthropology. Instruction Mode: Lecture Grading Option: Credit/No Credit
ANTH 595 Ethnographic Postproduction
Units: 4 Provides supervision in developing a visual media thesis project and understanding the requirements - scholarly and technical - for producing a publication-ready work of scholarly media. Recommended Preparation: ANTH 576L. Instruction Mode: Lecture Grading Option: Credit/No Credit
ANTH 596 Internship for Curricular Practical Training
Units: 1, 2, 3 Max Units: 03 Terms Offered: FaSp Sm Part-time or full-time practical work experience in the student’s field of study. The internship must be located at an off-campus facility. Students are individually supervised by faculty. May not be taken until the student has completed at least one semester of enrollment in the graduate program. Registration Restriction: Open only to graduate students in Anthropology and Visual Anthropology. Instruction Mode: Lecture Grading Option: Credit/No Credit
ANTH 597 Special Topics
Units: 2, 3, 4 Max Units: 8.0 Terms Offered: Fa Sp Instruction Mode: Lecture Grading Option: Letter
ANTH 601 Feminist Issues in Anthropology
Units: 4 Terms Offered: FaSpSm Feminist concerns in the Western and Non-Western societies are examined in relation to globalization; the practice of ethnography and issues of power. Instruction Mode: Lecture Grading Option: Letter
ANTH 602 The Anthropology of Popular Culture
Units: 4 Terms Offered: FaSpSm The relationship between anthropology and popular culture is explored through a critical examination of the category "popular culture." Registration Restriction: Open only to graduate students. Instruction Mode: Lecture Grading Option: Letter
ANTH 603 Research leading to the degree to be determined by the department. Graded CR/NC. Instruction Mode: Lecture Grading Option: Credit/No Credit
ANTH 605 Race, Performance, Politics, Cultural Production
Units: 4 Terms Offered: FaSpSm Focuses on the performance and social construction of race and its intersection with gender, sexuality, class, place, nation and empire. Instruction Mode: Lecture Grading Option: Letter
ANTH 606 Seminar on Nationalism and Ethnicity
Units: 4 Cross-cultural analysis of nationalism and ethnicity from an ethnographic perspective. Registration Restriction: Graduate standing. Instruction Mode: Lecture Grading Option: Letter
ANTH 610 Museum Anthropology: History and Theory
Units: 4 The museum as object of anthropological study; history and theory of museums as western institutions of knowledge. Recommended Preparation: Introduction to Socio-Cultural Anthropology. Instruction Mode: Lecture Grading Option: Letter
ANTH 790 Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Terms Offered: FaSpSm Research leading to the doctorate. Minimum 8 units, maximum number of units which may be applied to the degree to be determined by the department. Instruction Mode: Lecture Grading Option: Credit/No Credit
ANTH 794a Doctoral Dissertation
Units: 2 Terms Offered: FaSpSm Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit
ANTH 794b Doctoral Dissertation
Units: 2 Terms Offered: FaSpSm Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit
ANTH 794c Doctoral Dissertation
Units: 2 Terms Offered: FaSpSm Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit
ANTH 794d Doctoral Dissertation
Units: 2 Terms Offered: FaSpSm Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit
ANTH 794e Doctoral Dissertation
Units: 2 Terms Offered: FaSpSm Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit
ANTH 794f Doctoral Dissertation
Units: 2 Terms Offered: FaSpSm Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit
ANTH 794g Doctoral Dissertation
Units: 2 Terms Offered: FaSpSm Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit
ARAB 122 Arabic I
Units: 4 Terms Offered: FaSpSm Introduction to Modern Standard Arabic: Development of speaking, listening, reading, and writing skills in contemporary cultural contexts. Duplicate Credit in
**ARCH 100x A-LAB Architecture Development Program**

Units: 4 Immersive, project-based architecture thinking, drawing, building, and making course, which includes aspects of professional development and college readiness. (Not available for major or minor credit.) Registration Restriction: Restricted to high school students participating in the School of Architecture A-LAB Development Program Credit Restriction: Not for Major Credit Instruction Mode: Lecture, Lab Grading Option: Letter

**ARCH 102a Architectural Design I**

Units: 4 Terms Offered: FaSpSm Introduction to principles and processes; sequence of exercises emphasizing development of basic skills, ideas, and techniques used in the design of simplified architectural projects. Instruction Mode: Lecture, Lab Required Grading Option: Letter

**ARCH 102BL Architectural Design I**

Units: 4 Terms Offered: FaSpSm Introduction to principles and processes; sequence of exercises emphasizing development of basic skills, ideas, and techniques used in the design of simplified architectural projects. Instruction Mode: Lecture, Lab Required Grading Option: Letter

**ARCH 104 History and Theory of Architecture, Technology, Innovation**

Units: 3 Terms Offered: Fa Introduction to and critical examination of history, theory and cultural significance of architecture, technology and innovation through lectures and readings. Instruction Mode: Lecture Grading Option: Letter

**ARCH 105L Fundamentals of Design Communication**

Units: 2 Terms Offered: Fa Visual communication techniques applicable to the design of the built environment; drawing, photography, modeling. Instruction Mode: Lecture, Lab Required Grading Option: Letter

**ARCH 202g Archaeology: Our Human Past**

Units: 4 Terms Offered: FaSp (Enroll in ANTH 202)

**ARCH 298AL Introduction to Scientific Diving**

Units: 2 Terms Offered: Sp (Enroll in ENST 298a)

**ARCH 298B Introduction to Scientific Diving**

Units: 2 Terms Offered: Sp (Enroll in ENST 298b)
ARCH 106x Workshop in Architecture
Units: 2 Terms Offered: FaSp Introduction to the ways architecture is created and understood, for minors and non-majors. Hands-on discussion and laboratory session with some drawing and model building. Credit Restriction: Not available for credit to architecture majors. Instruction Mode: Lecture Grading Option: Letter

ARCH 108 Idea to Reality
Units: 3 Terms Offered: Sp Examines the entrepreneurial process of taking a product from idea to marketplace, including innovation, concepts of feasibility, design, prototyping, getting investors and marketing. Recommended Preparation: ARCH 104 Instruction Mode: Lecture Grading Option: Letter

ARCH 109 Design Foundation Workshop
Units: 4 Terms Offered: Sp Introduction to concepts and principles that are the distinguishing attributes of the architectural discourse and to the range of skills essential to the design process. Prerequisite: ARCH 105 Registration Restriction: Open only to Architecture and Inventive Technologies students Instruction Mode: Lecture, Lab Grading Option: Letter

ARCH 114 Architecture: Culture and Community
Units: 2 Terms Offered: Fa Introduction to the ways architecture represents aspirations of culture, satisfies practical and spiritual needs, shapes the social and urban environment, and helps preserve the planet. Instruction Mode: Lecture Grading Option: Letter

ARCH 202aL Architectural Design II
Units: 6 Terms Offered: FaSpSm Continuing development of principles and processes; sequence of projects selected to broaden awareness of design issues at various scales in the urban context. Prerequisite: ARCH 102bL Instruction Mode: Lecture, Lab Required Grading Option: Letter

ARCH 202bL Architectural Design II
Units: 6 Terms Offered: FaSpSm Continuing development of principles and processes; sequence of projects selected to broaden awareness of design issues at various scales in the urban context. Prerequisite: ARCH 102bL Instruction Mode: Lecture, Lab Required Grading Option: Letter

ARCH 203 Visualizing and Experiencing the Built Environment
Units: 4 Methods for direct observation and recording of the directly experienced built environment through drawing, diagramming, photographing, and writing. Course includes exercises and field experience. Instruction Mode: Lecture Grading Option: Letter

ARCH 205aL Building Science I
Units: 4 Terms Offered: FaSp The process and communication of building design: physical building shell, systems for structural enclosure, and space ordering. Prerequisite: CE 106 Instruction Mode: Lecture, Lab Required Grading Option: Letter

ARCH 205bL Building Science I
Units: 4 Terms Offered: FaSp The process and communication of building design: physical building shell, systems for structure, enclosure, and space ordering. Prerequisite: CE 106. Instruction Mode: Lecture, Lab Required Grading Option: Letter

ARCH 207 Computer Applications in Architecture
Units: 2 Terms Offered: Fa Introduction for the non-programmer to the uses of the computer in architecture, including the application of existing programs and their implications for design. Overview and use of software types. Instruction Mode: Lecture Grading Option: Letter

ARCH 211 Materials and Methods of Building Construction
Units: 3 Terms Offered: Sp Basic considerations and design implications of the problem of determination of the materials and construction details and processes for buildings. Instruction Mode: Lecture Grading Option: Letter

ARCH 213a Building Structures and Seismic Design
Units: 3 Terms Offered: FaSp Investigation and design of elements and systems for building structures; applied mechanics, strength of materials, structural investigation as a design tool. Recommended Preparation: PHYS 125 and MATH 108g. Satisfies New General Education in Category F: Quantitative Reasoning Instruction Mode: Lecture Grading Option: Letter

ARCH 213b Building Structures and Seismic Design
Units: 3 Terms Offered: FaSp Investigation and design of structure systems: their resistance to seismic and wind forces and integration with architectural design for synergy of form and structure. Recommended Preparation: PHYS 125 and MATH 108g. Satisfies New General Education in Category F: Quantitative Reasoning Instruction Mode: Lecture, Lab Grading Option: Letter

ARCH 214ag World History of Architecture
Units: 3 Terms Offered: Sp A world-wide perspective of architectural history as a product of social, cultural, religious, and political dimensions, 4500 BCE to 1500 CE. Satisfies New General Education in Category A: The Arts Instruction Mode: Lecture Grading Option: Letter

ARCH 214bg World History of Architecture
Units: 3 Terms Offered: Fa A world-wide perspective of architectural history as a product of social, cultural, religious, and political dimensions, 1500 CE to present. Satisfies New General Education in Category A: The Arts Instruction Mode: Lecture Grading Option: Letter

ARCH 215 Design for the Thermal and Atmospheric Environment
Units: 3 Terms Offered: FaIdeas, problems, and computations related to the design of buildings in response to the thermal and atmospheric environment; passive solar systems, mechanical control systems. Instruction Mode: Lecture Grading Option: Letter

ARCH 218 Resilient Design
Units: 3 Terms Offered: Fa Seminar focused on sustainable and resilient design strategies. Topics such as urban ecology, climate change, sea-level rise, wildfires and Net Zero design will be examined. Recommended Preparation: ARCH 108 Instruction Mode: Lecture Grading Option: Letter

ARCH 219 Design at the Scale of the Human Body Workshop
Units: 4 Terms Offered: Fa A design-based exploration of the scale of the human body and how it informs, interferes or interacts with furniture, goods, fixtures and furnishings. Prerequisite: ARCH 109 Registration Restriction: Open only to Architecture and Inventive Technologies students Instruction Mode: Lecture, Lab Grading Option: Letter

ARCH 220 The Architect's Sketchbook
Units: 2 Terms Offered: FaSp The architect's sketchbook as a portable laboratory for perceiving and documenting space introduces the study of the built environment. On-site sessions develop drawing, observation, and visualization skills. Instruction Mode: Lecture, Lab Grading Option: Letter

ARCH 228 Social Environments
Units: 3 Terms Offered: Sp Exploration of the intersection between the urban form and the social life of cities, looking at systemic problems of urban societies and potential design solutions. Recommended Preparation: ARCH 218 Instruction Mode: Lecture Grading Option: Letter

ARCH 229 Shelter Design Workshop
Units: 4 Terms Offered: Sp Introduction to design at an occupable scale -- from tents and pavilions to single units of housing, including issues of materiality, accessibility, constructability, functionality, etc. Prerequisite: ARCH 219 Instruction Mode: Lecture, Lab Grading Option: Letter

ARCH 302aL Architectural Design III
Units: 6 Terms Offered: FaSp Special integrative year including design issues relating to housing. Prerequisite: ARCH 202bL Instruction Mode: Lecture, Lab Required Grading Option: Letter

ARCH 302bL Architectural Design III
Units: 6 Terms Offered: FaSp Special integrative year including design issues relating to housing. Prerequisite: ARCH 202bL Instruction Mode: Lecture, Lab Required Grading Option: Letter

ARCH 303 Principles of Spatial Design I
Units: 4 Introduction to design principles and processes; sequence of exercises emphasizing development of basic skills, ideas, and techniques used in the creation of simplified urban space design projects. Prerequisite: ARCH 203. Instruction Mode: Lecture Grading Option: Letter

ARCH 304x Intensive Survey: Prehistory to the Present
Units: 4 Terms Offered: Fa An intensive historical overview of architecture from prehistory to the present, emphasizing interrelationships of various global cultures and how social considerations were translated into form. Credit Restriction: Not available for credit to architecture majors. Instruction Mode: Lecture Grading Option: Letter

ARCH 305aL Building Science II
Units: 4 Terms Offered: FaSp The design of a building as a complex of interacting systems; relations of subsystems; influences of production and marketing on design. Prerequisite: ARCH 205aL,
ARCH 205bL. Instruction Mode: Lecture, Lab Required Grading Option: Letter

ARCH 305bL Building Science II
Units: 4 Terms Offered: FaSp The design of a building as a complex of interacting systems; relations of subsystems; influences of production and marketing on design. Prerequisite: ARCH 205aL, ARCH 205bL. Instruction Mode: Lecture, Lab Required Grading Option: Letter

ARCH 306m Shelter
Units: 4 Terms Offered: Sp Investigation of issues, processes, and roles of individuals, groups and communities in relation to present and future shelter needs and aspirations. Instruction Mode: Lecture Grading Option: Letter

ARCH 307 Digital Tools for Architecture
Units: 3 Exploration of digital tools with an emphasis on building information modeling (BIM), parametric modeling, and interoperability including specific topics in Architecture/Engineering/Construction (AEC) and sustainable design. Recommended Preparation: basic computer skills. Instruction Mode: Lecture Grading Option: Letter

ARCH 313 Design of Building Structures
Units: 3 Terms Offered: Fa Problems and processes of design of building structures; structural investigation for design; codes and standards; design of elements and systems of wood, steel, masonry, and concrete for gravity and lateral loads. Prerequisite: ARCH 213a. Instruction Mode: Lecture Grading Option: Letter

ARCH 314 History of Architecture: Contemporary Issues
Units: 3 Terms Offered: Fa Examination of the buildings, issues and images, the polemes and personalities that are animating current architectural discourse and practice. Prerequisite: ARCH 214bg. Instruction Mode: Lecture Grading Option: Letter

ARCH 315 Design for the Luminous and Sonic Environment
Units: 3 Terms Offered: Sp Ideas, problems, and computations related to the design of buildings in response to the luminous and sonic environment. Instruction Mode: Lecture Grading Option: Letter

ARCH 316 Place and Culture
Units: 3 Terms Offered: FaSpSm (Study abroad programs only) Study of the relationships between places and culture through course lectures, discussion and weekly field trips. Instruction Mode: Lecture Grading Option: Letter

ARCH 318 Experimental Futures
Units: 3 Terms Offered: Fa Examination of experimental architecture, both historically, in the present day and the future. New waves of experimentation have the potential to bring about positive change in architecture. Recommended Preparation: ARCH 225 Instruction Mode: Lecture Grading Option: Letter

ARCH 319 Architectural Product Design Workshop
Units: 4 Terms Offered: Fa Exploration into development of students' own architectural product and working prototype, using digital fabrication techniques for creating a physical prototype or coding for development of an app. Prerequisite: ARCH 229 Instruction Mode: Lecture, Lab Grading Option: Letter

ARCH 326 The Modern Movement in Architecture
Units: 4 Terms Offered: Sp Major theories of modern architecture are presented by studying the work of masters such as: Gropius, Mies van der Rohe, Corbusier, and Kahn. Instruction Mode: Lecture Grading Option: Letter

ARCH 328 Entrepreneurial Practices for Architecture
Units: 3 Terms Offered: Sp Development of business acumen around new architectural products, materials, systems, etc. Marketing, pitching, business plan development and networking are important aspects of business that all early entrepreneurs need to learn and understand. Recommended Preparation: ARCH 318 Instruction Mode: Lecture Grading Option: Letter

ARCH 329 Professional Practicum Workshop
Units: 4 Terms Offered: Sp Students are required to have an architecture-related internship. Students reflect on the nature of their internships and the practice in general through readings and assignments. Prerequisite: ARCH 319 Instruction Mode: Lecture, Lab Grading Option: Letter

ARCH 341 History of Italian Architecture 1400–1990
Units: 4 Terms Offered: Sp Introduction to the important buildings, architects and architectural movements in Italy from the Renaissance to the present. Instruction Mode: Lecture Grading Option: Letter

ARCH 370 Architectural Studies — Expanding the Field
Units: 2 Survey of opportunities, specializations, and professions related to architecture provides a resource for professional growth for architecture majors, and introduction to the field for non-majors. Instruction Mode: Lecture Grading Option: Letter

ARCH 390 Special Problems
Units: 1, 2, 3, 4 Terms Offered: FaSp Supervised, individual study. No more than one registration permitted. Enrollment by petition only. Instruction Mode: Lecture Grading Option: Letter

ARCH 402A Architectural Design IV
Units: 6 Terms Offered: FaSpSm Selected areas of specialization; three projects chosen with advisement from a variety of studio offerings that concentrate on different areas of vital concern. Prerequisite: ARCH 302bL. Instruction Mode: Lecture, Lab Required Grading Option: Letter

ARCH 402B Architectural Design IV
Units: 6 Terms Offered: FaSpSm Selected areas of specialization; three projects chosen with advisement from a variety of studio offerings that concentrate on different areas of vital concern. Prerequisite: ARCH 302bL. Instruction Mode: Lecture, Lab Required Grading Option: Letter

ARCH 403 Principles of Spatial Design II
Units: 4 Emphasis on the potential of computer-integrated design software; to develop techniques for critical analysis of architectural precedents; to expand the ability to visualize options; to expand perception; and to learn the basics of computer-integrated design. Instruction Mode: Lecture Grading Option: Letter

ARCH 404 Topics in Modern Architecture
Units: 3 Terms Offered: Sp Investigation of modern architecture in Southern California within its cultural and historic contexts. Instruction Mode: Lecture Grading Option: Letter

ARCH 405aL Building Science III
Units: 4 Terms Offered: FaSp Design of building systems as an experimental process. Prerequisite: ARCH 305aL, ARCH 305bL. Instruction Mode: Lecture, Lab Required Grading Option: Letter

ARCH 405bL Building Science III
Units: 4 Terms Offered: FaSp Design of building systems as an experimental process. Prerequisite: ARCH 305aL, ARCH 305bL. Instruction Mode: Lecture, Lab Required Grading Option: Letter

ARCH 406 Global Studies: Topics in Architecture, Urbanism, History and Art
Units: 2 Max Units: 6.0 Offered for particular geographic areas of study. Required prerequisite for all full semester undergraduate global programs. Also intended for general interest in focused study on particular geographic areas. Prerequisite: ARCH 214ag. ARCH 214bg or ARCH 304. Instruction Mode: Lecture Grading Option: Letter

ARCH 407 Advanced Computer Applications
Units: 4 Terms Offered: Sp Investigation of computer graphic applications, emphasizing the role of computers in helping designers create and communicate using color (rendering), form (modeling), and time (animation) and the implications of future technological advancements. Prerequisite: ARCH 207. Instruction Mode: Lecture Grading Option: Letter

ARCH 409L Design Foundation
Units: 2 Terms Offered: Fa Introduction to basic architectural design principles for problem solving scenarios; foundational architectural design course for systematic thinking. Instruction Mode: Lecture, Lab Required Grading Option: Letter

ARCH 410 Computer Transformations
Units: 2 Terms Offered: FaSpSm To explore the potential of computer-integrated design software; to develop techniques for critical analysis of architectural precedents; to expand the ability to visualize options; to expand perception; and to learn the basics of computer-integrated design. Instruction Mode: Lecture Grading Option: Letter

ARCH 411 Architectural Technology
Units: 3 Terms Offered: Sp Architectural design considered as a technological problem; influence of technology on design; buildings as integrated sets of subsystems. Prerequisite: ARCH 313. Instruction Mode: Lecture Grading Option: Letter

ARCH 412L GeoDesign Practicum
Units: 4 Terms Offered: FaSp (Enroll in SSCI 412L.)

ARCH 414 Perspectives in History and Theory in Architecture
Units: 2 Max Units: 06 Perspectives in Architecture and Urbanism is an advanced course that allows students to delve deeply into one aspect of world history, theory and/or contemporary issues to develop more
focused and critical understanding of that discourse. Prerequisite: ARCH 214a or ARCH 214b or ARCH 304 Instruction Mode: Lecture Grading Option: Letter

ARCH 417 Computer Programming in Architecture
Units: 3 Terms Offered: Fa Principles underlying computer programming, emphasizing algorithms, procedures, and program structures applicable to architecture. Instruction Mode: Lecture Grading Option: Letter

ARCH 418 Designing with Natural Forces
Units: 3 Terms Offered: Fa Investigation of natural force effects and their relationships to architecture; laboratory work includes drawing, photography, model building and tests on models. Instruction Mode: Lecture Grading Option: Letter

ARCH 419 Architectural Sustainability Tools and Methods
Units: 3 Terms Offered: Sp Lectures, comparative studies and exercises on international architectural sustainability rating and certification systems. Instruction Mode: Lecture Grading Option: Letter

ARCH 420 Visual Communication and Graphic Expression
Units: 3 Terms Offered: Fa An exploratory study of fundamental and innovative visual communication principles and graphic expression techniques to facilitate the design enquiry process for architects. Registration Restriction: Not open to Freshman and Sophomore students Instruction Mode: Lecture, Lab Grading Option: Letter

ARCH 421 Digital Architectural Photography
Units: 2 Terms Offered: FaSpPerceiving and documenting the built environment through the perspective and frame of the digital camera. Mastering the basic principles of the digital image through an understanding of frame, light, exposure, color correction, and printing output. Instruction Mode: Lecture Grading Option: Letter

ARCH 422L Architectural Photography — Film and Digital
Units: 3 Terms Offered: FaSpSee how light alters the visual impact of architectural forms; master high-resolution images both with film and digital; become a professional image developer/processor utilizing photographic software. Instruction Mode: Lecture, Lab Required Grading Option: Letter

ARCH 423 Light, Color and the Character of Material
Units: 2 Terms Offered: Sp Color theory, constructed drawings, constructed shadows, descriptive geometry, constructed perspective drawing, and layered wash techniques lead to experimentation with methods representing materiality and construction in design projects. Registration Restriction: Not open to Freshman and Sophomore students Instruction Mode: Lecture Grading Option: Letter

ARCH 424L Field Studies in Architecture
Units: 2 Terms Offered: FaSpSm (Study abroad programs only.) Field studies using direct observation, site recordings/documentation, analysis and evaluation supplemented by discussions and readings in architecture. Prerequisite: Department approval. Recommended Preparation: core curriculum. Instruction Mode: Lecture, Lab Required Grading Option: Letter

ARCH 425L Field Studies in Urbanism
Units: 2 Terms Offered: FaSpSm (Study abroad programs only.) Field studies using direct observation, site recordings/documentation, analysis and evaluation supplemented by discussions and readings in urbanism. Prerequisite: Departmental approval. Recommended Preparation: core curriculum. Instruction Mode: Lecture, Lab Required Grading Option: Letter

ARCH 426L Field Studies in Tectonics
Units: 2 Terms Offered: FaSp (Study abroad programs only.) Field studies using direct observation, site recordings/documentation, analysis and evaluation supplemented by discussions and readings in tectonics. Prerequisite: Departmental approval. Recommended Preparation: core curriculum. Instruction Mode: Lecture, Lab Required Grading Option: Letter

ARCH 430 Design Teaching Methods
Units: 2 The teaching of architectural design is introduced through reading, seminar discussions, and the observation of teaching in action. In addition to a one hour per week seminar, each student will participate in a design practicum. Prerequisite: ARCH 302L Instruction Mode: Lecture Grading Option: Letter

ARCH 431 Nonconventional Materials for the Built Environment
Units: 3 Terms Offered: Sp An exploration of materials science topics relevant to the application of nonconventional materials in architecture, design, and engineering, addressing a broad range of materials, from the experimental to the vernacular. Recommended Preparation: ARCH 211 Instruction Mode: Lecture Grading Option: Letter

ARCH 432 People, Places and Culture: Architecture of the Public Realm
Units: 4 Terms Offered: Sp Critical observation of the architecture of public buildings and places and the importance of design in promoting a better contemporary public life. Instruction Mode: Lecture Grading Option: Letter

ARCH 439 Landscape Architecture Foundations Workshop
Units: 2 Terms Offered: Fa An introductory field studies and media workshop for new landscape architecture students. Topics include: regional ecology, field drawing, measured drawings, computer software (Adobe Creative Suite, Autocad, Rhinoceros, GIS). Registration Restriction: Open only to master students in Landscape Architecture Instruction Mode: Lecture, Lab Grading Option: Letter

ARCH 440m Literature and the Urban Experience
Units: 4 Terms Offered: Sp Post-industrial revolution urban environments and dynamic relationships in cities such as Manchester, Paris, St. Petersburg, New York, and Los Angeles, as presented in novels, architecture, and urban forms. Instruction Mode: Lecture Grading Option: Letter

ARCH 442m Women's Spaces in History: "Hussies," "Harems" and "Housewives"
Units: 4 Terms Offered: Fa Methods for studying patterns of spatial differentiation of women throughout history from home to city embodied in gender-specific language and gendered spaces. Instruction Mode: Lecture Grading Option: Letter Crosslisted as SWMS-442

ARCH 444 Great Houses of Los Angeles
Units: 4 Terms Offered: FaSp An introduction to the architectural philosophies of seven influential California architects through readings and site visits to significant case studies. Duplicates Credit in former ARCH 322. Instruction Mode: Lecture Grading Option: Letter

ARCH 447 Ecological Factors in Design
Units: 3 Lectures, laboratory exercises and field trips introduce basic knowledge of incorporating ecological factors in urban design and interaction of landscape science with the human environment. Duplicates Credit in former ARCH 361 Instruction Mode: Lecture, Lab Grading Option: Letter

ARCH 454 Contemporary Asian Architecture
Units: 4 Terms Offered: Fa Exploration of various "Asian" architectures, comparisons of areas, identifying current trends and impact of Asia on Southern California and Los Angeles. Instruction Mode: Lecture Grading Option: Letter

ARCH 464 The Politics of Architectures and Infrastructures
Units: 3 Terms Offered: Fa Global histories and anthropologies of architectures and infrastructures are studied through questions of equity, enfranchisement and political agency. Discussions are supplemented by visual material. Registration Restriction: Not open to Freshman and Sophomore students Instruction Mode: Lecture Grading Option: Letter

ARCH 465 The Landscape Imaginary
Units: 3 Terms Offered: Sp Global histories and anthropologies of architectures and infrastructures are studied through questions of equity, enfranchisement and political agency. Discussions are supplemented by visual material. Registration Restriction: Not open to Freshman and Sophomore students Instruction Mode: Lecture Grading Option: Letter

ARCH 469 Mixed Use Development Process
Units: 4 Terms Offered: Sp Enroll in RED 469

ARCH 470a Architectural Studies Capstone
Units: 1 Introduction to methods of inquiry, research framework, and scholarly writing necessary to develop a comprehensive foundation for the Architectural Studies Capstone (ARCH 470b). Registration Restriction: Open only to seniors in Architectural Studies Duplicates Credit in former ARCH 470 Instruction Mode: Lecture Grading Option: Letter

ARCH 470b Architectural Studies Capstone
Units: 3 Collaborative research project and research paper in an area of concentration. Prerequisite: ARCH 470a Registration Restriction: Open only to seniors in Architectural Studies Duplicates Credit in former ARCH 470 Instruction Mode: Lecture Grading Option: Letter

ARCH 472 Building Skins: Materials and Methods for Facades and Enclosures
Units: 2 Terms Offered: It broad-based survey course focused on facade system technology and explores the
potent leverage of the building skin in the realization of intelligent and sustainable buildings and urban habitat. Instruction Mode: Lecture Grading Option: Letter

ARCH 480 Conversations on the Expanded Role of the Architect
Units: 1 Max Units: 10 Modeled after Renaissance Salons, this "flipped classroom" course relies on lectures by luminaries and discussions as a means to interrogate the role of the architect. Instruction Mode: Lecture Grading Option: Letter

ARCH 481 Furniture Design
Units: 3 Terms Offered: FaSp. An investigation into 20th century furniture design and its relationships to architecture, art and design. Instruction Mode: Lecture, Lab Grading Option: Letter

ARCH 490x Directed Research
Units: 1, 2, 3, 4, 5, 6, 7, 8 Max Units: 12.0 Terms Offered: FaSpSm Individual research and readings. Credit Restriction: Not available for graduate credit. Instruction Mode: Lecture Grading Option: Letter

ARCH 499 Special Topics
Units: 2, 3, 4 Max Units: 8.0 Terms Offered: FaSpSm Selected topics in various specialty areas of architecture. Instruction Mode: Lecture Grading Option: Letter

ARCH 500aL Comprehensive Architectural Design
Units: 6 Terms Offered: FaSpSm Individual research and readings. Credit Restriction: Not available for graduate credit. Instruction Mode: Lecture Grading Option: Letter

ARCH 500zL Comprehensive Architectural Design
Units: 0 Terms Offered: Sp. Selected areas of specialization; projects chosen from a variety of studio offerings, all with an emphasis on the comprehensive design of buildings. Prerequisite: ARCH 402a and ARCH 402b Corequisite: ARCH 501. Instruction Mode: Lecture, Lab Required Grading Option: Letter

ARCH 501 Critical Topics in Architecture
Units: 2 Terms Offered: Fa Seminar supporting the research, development, and writing of Degree Project Paper provides a comprehensive base of information for the final Bachelor of Architecture studio. Prerequisite: ARCH 402bL. Instruction Mode: Lecture Grading Option: In-progress to Letter Grade

ARCH 502aL Architectural Design V
Units: 6 Terms Offered: Sp The final architectural project under the guidance of a faculty adviser to demonstrate architectural knowledge, skills, and professional interests and goals. Prerequisite: ARCH 500aL and ARCH 501 Registration Restriction: Open only to Architecture seniors Instruction Mode: Lecture, Lab Required Grading Option: In-progress and Letter

ARCH 502zL Architectural Design V
Units: 0 Terms Offered: Sp The final comprehensive architectural project under the guidance of a faculty adviser to demonstrate architectural knowledge, skills, and professional interests and goals. Instruction Mode: Lecture, Lab Required Grading Option: In-progress & Letter Grade

ARCH 505aL Graduate Architecture Design I
Units: 6 Terms Offered: FaSp A general introduction to architectural principles, intended to develop design and critical thinking skills and proficiency to communicate those ideas effectively. Instruction Mode: Lecture, Lab Required Grading Option: Letter

ARCH 505bL Graduate Architecture Design I
Units: 6 Terms Offered: FaSp A general introduction to architectural principles, intended to develop design and critical thinking skills and proficiency to communicate those ideas effectively. Instruction Mode: Lecture, Lab Required Grading Option: Letter

ARCH 507 Theories of Computer Technology
Units: 3 Terms Offered: FaSp Fundamental theories and meanings of computation as a technique in architectural design. Instruction Mode: Lecture Grading Option: Letter

ARCH 510 Independent Degree Project
Preparation
Units: 1 Terms Offered: Fa Research and analysis, including written and graphic components, that tests a question/ proposition in detail in preparation for Independent Degree Project Document. Corequisite: ARCH 501. Instruction Mode: Lecture Grading Option: Letter

ARCH 511L Building Systems: Materials and Construction
Units: 4 Terms Offered: Fa Studies of construction system development within the architectural design context; processes and issues of selection, evaluation, optimization, integration, design control, and innovation. Prerequisite: Departmental approval. Instruction Mode: Lecture, Lab Required Grading Option: Letter

ARCH 512 Material + Process: Material Systems
Units: 2 Confronts the conventional concepts behind modern building science and material applications, reapplying the processes of fabrication and methods of construction to investigate materiality. Prerequisite: ARCH 211 or ARCH 511L. Instruction Mode: Lecture Grading Option: Letter

ARCH 513L Seminar: Advanced Structures
Units: 4 Terms Offered: Fa Issues and problems in the development of structural systems for buildings: design criteria, system choice, design development, optimization, subsystem integration. Instruction Mode: Lecture, Lab Required Grading Option: Letter

ARCH 514a Global History of Architecture
Units: 3 Terms Offered: FaSp A historical survey of global architecture, analyzed as a product of social, cultural, religious and political forces. 1500 CE to present. Instruction Mode: Lecture Grading Option: Letter

ARCH 515L Seminar: Advanced Environmental Systems
Units: 4 Terms Offered: Fa A compressed course in design criteria and calculation methods for mechanical and passive solar systems (loads, plant system, duct, and storage sizing) and lighting and acoustics (CIE and IES methods, dBA and NC systems). Instruction Mode: Lecture, Lab Required Grading Option: Letter

ARCH 517 Current Topics in Building Science
Units: 1 Max Units: 6.0 Critical studies in building science ranging from sustainability, lighting, acoustics, materials and methods, structures, energy issues, digital media, and fabrication. Students focus on minimum of two topics. Instruction Mode: Lecture Grading Option: Letter

ARCH 518 Advanced Surface Tectonics: Methods in Material and Enclosure
Units: 2 Terms Offered: Fa Studies in contemporary building systems through analysis, research, and computational methods leading to the design of a prototypical building surface. Recommended Preparation: A prior knowledge of fundamental building systems and 3D modeling. Instruction Mode: Lecture Grading Option: Letter

ARCH 519 Sustainability in the Environment: Infrastructures, Urban Landscapes, and Buildings
Units: 3 Terms Offered: Fa Methodologies and exercises on contextual design and environmentally sound technologies (ESTs) applications for the sustainability of urban infrastructures, operative landscapes, and building integration in the urban system. Instruction Mode: Lecture Grading Option: Letter

ARCH 520 Housing and Community Design for an Aging Population
Units: 2 Exploration of the role design plays in enhancing independence and well-being for older people by examining cross-cultural models of housing and community design. Instruction Mode: Lecture Grading Option: Letter

ARCH 521 Health and the Designed Environment: Landscape, Place, and Architecture
Units: 4 Case study-oriented course presenting critical relationships between human health and well-being and architectural and landscape architectural design at three scales: buildings, public space, and the urban landscape. Instruction Mode: Lecture Grading Option: Letter

ARCH 522 Healthcare Design
Units: 2 The evolution of healthcare design and construction is traced from small scale to major medical centers with emphasis on technology, landscape design and public health. Registration Restriction: Not open to freshmen and sophomores Instruction Mode: Lecture Grading Option: Letter

ARCH 523L Structural Design and Analysis
Units: 3 Terms Offered: FaSp Introduction to behavior and analysis of building structures. Structural loading, materials, and element types will be explored to
understand the basic building blocks of buildings. Recommended Preparation: One-semester college-level course in physics or calculus. Instruction Mode: Lecture, Lab Required Grading Option: Letter

ARCH 523bL. Structural Design and Analysis
Units: 3 Terms Offered: FaSp Investigation and design of building structural systems for gravity, wind and seismic loading. Comprehensive design exploration of framing type, materials, detailing, layout, form and integration. Recommended Preparation: One-semester college-level course in physics or calculus. Instruction Mode: Lecture, Lab Required Grading Option: Letter

ARCH 524 Professional Practicum
Units: 1 Max Units: 2.0 Terms Offered: FaSpSm Comparative studies of professional practice between U.S. firms and firms in other countries. Registration Restriction: Open to international upper-division undergraduate and graduate architecture students only Instruction Mode: Lecture Grading Option: Credit/No Credit

ARCH 525 Professional Practice: Pre-Design, Project and Office Administration
Units: 3 Design methodology, typology programming, site analysis, budget formulation and pro-forma procedures. Office management, emphasizing professional service and professional ethics as well as project management focusing on the architect's responsibilities during construction. Instruction Mode: Lecture Grading Option: Letter

ARCH 526 Professional Practice: Legal and Economic Context, Project Documentation
Units: 3 Terms Offered: Sp Design methodology, typology programming, site analysis, budget formulation and pro-forma procedures. Office management, emphasizing professional service and professional ethics as well as project management focusing on the architect's responsibilities during construction. Instruction Mode: Lecture Grading Option: Letter

ARCH 527 Case Studies: The Development of Urban Housing
Units: 2 Terms Offered: Fa An exploration of the various elements and stages of the housing development process. Recommended Preparation: a preliminary understanding of real estate or housing. Instruction Mode: Lecture Grading Option: Letter

ARCH 528 Urban Housing: Types and Typologies
Units: 2 Terms Offered: Fa Applications and precedents for the architect interested in designing multi-family housing. Review of the sources of modern housing types, the impact of building codes and technology on the form and construction of housing, and study of building densities; comparative analysis of multi-family residential patterns. Major emphasis on critical knowledge of historic housing typologies as they are applied to site conditions and groupings, building form, section, organization, and the design of individual dwellings. Recommended Preparation: two years

ARCH 529 Urban Housing: Programs, Precedents, and Recent Case Studies
Units: 2 Terms Offered: Sp Historical overview of the major domestic and international housing developments and innovations since the early 20th century. Case study format examining a wide range of issues that determine the form of urban housing in various cultures. Major emphasis on the detail analysis of social, technical, and design factors affecting recent housing developments. Recommended Preparation: two years of undergraduate architectural studies. Instruction Mode: Lecture Grading Option: Letter

ARCH 530 Landscape Architecture Practice
Units: 3 Terms Offered: FaSp Introduction to the principles and ethics, scope and activities, and types of organization for landscape architecture practice. Duplicates Credit in former ARCH 630. Instruction Mode: Lecture Grading Option: Letter

ARCH 531 Urban Ecology
Units: 4 Terms Offered: FaSp Lectures, laboratory exercises and field trips introducing basic knowledge of the continually transforming landscape as a base for human settlement. Instruction Mode: Lecture Grading Option: Letter

ARCH 532 Elements of the Urban Landscape
Units: 2 Terms Offered: Fa Study of the basic spatial and infrastructure elements of the city, and how urban places are formed. Typological analysis of buildings, open space, and urban patterns. Instruction Mode: Lecture Grading Option: Letter

ARCH 533 Urban Landscape Case Studies
Units: 2 Terms Offered: Sp Lectures, discussion, and individual research on the physical, formal, and spatial characteristics of historic urban centers. Instruction Mode: Lecture Grading Option: Letter

ARCH 534 Landscape Construction: Topographic Design
Units: 3 Terms Offered: Sp Techniques, strategies, materials, and standards to topographic design and construction in landscape architecture. In-class labs practice basic grading, drainage design, and stormwater management. Instruction Mode: Lecture Grading Option: Letter

ARCH 535 Landscape Construction: Performance Approaches
Units: 3 Terms Offered: Fa Develop tools and knowledge to expand the performative boundaries of landscape architecture beyond common typologies. Topics range from ecological infrastructure to design with weather patterns. A systematic approach to case studies, landscape technologies, and field trips seeds the knowledge base and representational methods necessary to design and build these complex landscape performances. Instruction Mode: Lecture Grading Option: Letter

ARCH 536 The Landscape Planning Process
Units: 3 Terms Offered: FaSp Methods of assessing urban places regarding natural, social, cultural and political factors; identification of landscape architecture planning and project implementation issues and strategies. Instruction Mode: Lecture Grading Option: Letter

ARCH 537 Plant Ecology + Identification
Units: 2 Terms Offered: Fa Principles and concepts of plant ecology and regional plant identification; introduction to California native plant species and communities with field trips and case studies. Instruction Mode: Lecture Grading Option: Letter

ARCH 538L Planting Design
Units: 2 Principles of planting design for landscape architecture focusing on form/ space and sustainable performance. Planting design strategies for improved planetary health and resilience. Prerequisite: ARCH 537 Instruction Mode: Lecture, Lab Required Grading Option: Letter

ARCH 539L Media for Landscape Architecture
Units: 3 Terms Offered: Fa Development of methods and skills for the study of landscape architecture design and for project presentation, including natural resource and urban mapping. Registration Restriction: Open only to Planning and Landscape Architecture majors Instruction Mode: Lecture, Lab Required Grading Option: Letter

ARCH 540 Topics in Media for Landscape Architecture
Units: 3 Max Units: 6.0 Terms Offered: FaSp Exploration of emerging techniques for landscape architecture study, presentation and documentation; topics vary from year to year; may be repeated for credit when subject matter is different. Instruction Mode: Lecture, Lab Required Grading Option: Letter

ARCH 541aL Landscape Architecture Design
Units: 2 Max Units: 6.0 Terms Offered: FaSp Projects on urban sites with emphasis on cultural and ecological purpose and on urban place and form; use of traditional and digital media. Instruction Mode: Lecture, Lab Required Grading Option: Letter

ARCH 541bL Landscape Architecture Design
Units: 6 Terms Offered: FaSp Projects in urban settings with emphasis on landscape continuities as well as development of integrative schematic proposals and detailed open space design. Instruction Mode: Lecture, Lab Required Grading Option: Letter

ARCH 542aL Landscape Architecture Design
Units: 6 Terms Offered: FaSp Projects on urban sites with emphasis on cultural and ecological purpose and on urban place and form; use of traditional and digital media. Instruction Mode: Lecture, Lab Required Grading Option: Letter

ARCH 542bL Landscape Architecture Design
Units: 6 Terms Offered: FaSp Projects for the public realm with emphasis on urbanity and connectivity, place and meaning. Prerequisite: ARCH 541bL. Instruction Mode: Lecture, Lab Required Grading Option: Letter

ARCH 543 Research Methods
Units: 1 Terms Offered: Fa Introduction to methods of inquiry and documentation
including critical review of published materials, techniques for systematic observation, generating findings from comparative studies of relevant precedents and problems, and legible presentation of outcomes. Instruction Mode: Lecture Grading Option: Letter

ARCH 544 Landscape as Urbanism: Case Studies
Units: 3 Terms Offered: Fa Cities predominantly in the Global South are studied in relationship to landscape systems. Focus on historic and future urbanization at the interface of natural systems and climate dynamics. Instruction Mode: Lecture Grading Option: Letter

ARCH 545 Contemporary Theories of Landscape Architecture
Units: 3 Terms Offered: Sp Includes identification of treatments, recording and research, material properties and behavior, building forensics, and project implementation. Recommended Preparation: ARCH 549. Instruction Mode: Lecture Grading Option: Letter

ARCH 552 Introduction to Historic Site Documentation
Units: 2 Terms Offered: Sp Survey of basic guidelines and standards for documentation in historic preservation, including cultural resource surveys, historic structures reports and Historic American Building Survey and Historic American Engineering Record recordation. Instruction Mode: Lecture Grading Option: Letter

ARCH 553 History of American Architecture and Urbanism
Units: 3 Terms Offered: Sp History of American architecture and urbanism from prehistory to World War II examined in relation to European influences and indigenous developments. Instruction Mode: Lecture Grading Option: Letter

ARCH 554 History of American Conservation Theory
Units: 2 Terms Offered: Fa Examines urbanism through case studies in theory and design to understand the impacts of globalization, technology, and sustainability on the contemporary city. Instruction Mode: Lecture Grading Option: Letter

ARCH 556 Fundamentals of Place-Making
Units: 2 Terms Offered: Sp Concepts and strategies for urban design and place-making for heritage conservation as revealed by place-making exercises, site visits, and case studies. Instruction Mode: Lecture Grading Option: Letter

ARCH 557 Sustainable Conservation of the Historic Built Environment
Units: 2 Terms Offered: Sp Analysis of the intersection between "green building" and historic resources with an emphasis on stewardship and sustainability. Instruction Mode: Lecture Grading Option: Letter

ARCH 558 Fundamentals of Place-Making
Units: 2 Terms Offered: Sp Conservation practice within an economic, political, and cultural context looking at the regulatory environment, public advocacy and policy, real estate development, heritage tourism, environmental sustainability, cultural diversity, and interpretation. Recommended Preparation: ARCH 549. Instruction Mode: Lecture Grading Option: Letter

ARCH 559 Cultural Resource Management
Units: 3 Terms Offered: Sp Concepts and techniques for building conservation including identification of treatments, Recommended Preparation: ARCH 549

Instructor Mode: Lecture Grading Option: Letter

ARCH 560 A History of Architectural Theory: 1400-1914
Units: 2 A seminar on architectural history from Alberti to Scotti, reviewing primary texts and subsequent criticisms. Duplicates Credit in former ARCH 441 Instruction Mode: Lecture Grading Option: Letter

ARCH 561 Urbanism Themes and Case Studies
Units: 2 Terms Offered: Fa Examines urbanism through case studies in theory and design to understand the impacts of globalization, technology, and sustainability on the contemporary city. Instruction Mode: Lecture Grading Option: Letter

ARCH 562 Architecture Themes and Case Studies
Units: 2 Terms Offered: Fa Architectural themes and case studies focusing on the design and development of architecture, from the industrial city to today. Instruction Mode: Lecture Grading Option: Letter

ARCH 563 Contemporary Architectural Theory
Units: 2 Terms Offered: Sp Investigates, compares, and critiques modern and contemporary theories of the designed and built environment by focusing on key figures, movements, and texts. Instruction Mode: Lecture Grading Option: Letter

ARCH 564 Descriptive and Computational Architectural Geometry
Units: 2 Terms Offered: Sp Introduction to the history, methods, and cases of descriptive and computational geometry impacting representational, modeling, and historically significant paradigms of architectural design. Introduces a range of geometric first principles, technologies and techniques through contemporary design tools. Instruction Mode: Lecture Grading Option: Letter

ARCH 565 Global History of Designed Landscapes
Units: 3 Terms Offered: Sp Understanding of the global history of landscape design in relation to social, political, religious, environmental and aesthetic principles; current design theory, projects and their historical references are critically reviewed and analyzed. Duplicates Credit in ARCH 465 Instruction Mode: Lecture Grading Option: Letter

ARCH 566 Cross Cultural Topics in Landscape Architecture History
Units: 3 Max Units: 6.0 Terms Offered: FaSp Comparative analysis and appreciation of landscape architecture as a manifestation of nature, society, and design. Topics and world regions vary from year to year; may be repeated for credit when subject matter is different. Instruction Mode: Lecture Grading Option: Letter

ARCH 567L Landscape Architecture Vertical Workshop and Debate Series
Units: 0.5 Max Units: 3 Terms Offered: SpA dynamic and topical supplement that provides critical content in the form of a post-mid review workshop and series of debates led by distinguished guests. Corequisite: ARCH 541aL and ARCH 541bL and ARCH 542aL and ARCH 542bL and ARCH 642L and ARCH 698bL Registration Restriction: Open only to master students in
LANDSCAPE ARCHITECTURE

Instruction Mode: Lecture, Lab
Required Grading Option: Letter

ARCH 569 The Invented Landscape of Southern California
Units: 3
An analysis of the successive stages of land planning, garden design and plant introductions that have influenced the Southern California landscape. Instruction Mode: Lecture
Grading Option: Letter

ARCH 570 Cultural Landscape Practicum
Units: 3
An introduction to the theories, tools and techniques for documenting and researching cultural landscapes. Instruction Mode: Lecture Grading Option: Letter

ARCH 571 Community-Based Design, Conservation and Planning
Units: 2
Introduces methods of designing with communities rather than for them. It focuses on public history, cultural asset mapping and participatory design. Instruction Mode: Lecture Grading Option: Letter

ARCH 572 Advanced Building Skins: Designing High-Performance Facade Systems
Units: 3
Terms Offered: FaSp
Fundamental technical skills that are applicable to the design and delivery of high-performance facade systems. The predominant focus will be the design of contemporary glazed curtainwalls and rainscreen systems in their many forms. Instruction Mode: Lecture Grading Option: Letter

ARCH 573 Seismic Design
Units: 2
Terms Offered: Fa
Theory, design methodology and practice of how seismicity affects architecture and structural system selection required for robust earthquake performance and seismic sustainability. Recommended Preparation: Basic knowledge of physics and/or exposure to architectural design. Two semesters of building structures required for MArch students. Instruction Mode: Lecture Grading Option: Letter

ARCH 574 Parametric Design
Units: 3
An in-depth and critical look into the reasons and uses for parametric design of building structures required for MArch to architectural design. Two semesters of building structures required for MArch students. Instruction Mode: Lecture, Lab Grading Option: Letter

ARCH 575a Systems
Units: 3
Terms Offered: Sp
Application of the scientific principles governing the thermal environment and human physiology to contemporary issues of environmentally responsive building energy concepts and systems. Recommended Preparation: ARCH 505aL, ARCH 505bL. Instruction Mode: Lecture Grading Option: Letter

ARCH 575b Systems
Units: 3
Terms Offered: Sp
The fundamental scientific principles governing light and sound in the built environment will be examined in the context of human physiological, psychological, and biological needs. Prerequisite: ARCH 575a
Recommended Preparation: ARCH 505aL, ARCH 505bL Instruction Mode: Lecture Grading Option: Letter

ARCH 576 Sustainable Design for Healthy Indoor Environments
Units: 3
Course outlines the building design and its performance diagnostic processes required to assure indoor environmental quality and the building occupants' environmental health, productivity, and physiological comfort. Instruction Mode: Lecture Grading Option: Letter

ARCH 577 Lighting Design
Units: 4
Terms Offered: FaSp
The physics, technical knowledge, professional knowledge, design, and documentation processes used in architectural lighting design, including first principles, manual calculations and computer simulations. Recommended Preparation: Some knowledge of physics and exposure to the design process and design presentation skills. Instruction Mode: Lecture, Lab Required Grading Option: Letter

ARCH 578 Technology-Enabled Architecture, Engineering and Construction (AEC) Projects
Units: 4
Terms Offered: Sp (Enroll in CE 578)

ARCH 579 Sustainable Building and Environment using LEED Metrics
Units: 3
Fundamental knowledge of sustainable building concepts, current environmental design building rating systems, building performance and diagnostics metrics, as well as reference standards related to sustainable design. Instruction Mode: Lecture Grading Option: Letter

ARCH 580L Field Studies
Units: 4
Max Units: 8.0
Terms Offered: FaSp
Field studies using direct observation, site recordings/documentation, analysis and evaluation supplemented by discussions and readings. Instruction Mode: Lecture, Lab Required Grading Option: Letter

ARCH 581 Techniques in Digital Fabrication
Units: 3
A practical introduction to digital fabrication. Covered topics include 3D surface milling, thermoforming, materials, casting and shop technology as applied to repeatable surfaces in architecture. Instruction Mode: Lecture, Lab Grading Option: Letter

ARCH 585 Visual Storytelling and Entrepreneurship in Media
Units: 2
Investigating visual stories as an active tool to critically explore and express design ideas; positions social media and crowdfunding as a foundation for creative action. Registration Restriction: Not open to Freshmen and Sophomores. Instruction Mode: Lecture Grading Option: Letter

ARCH 586 City Cine: Visuality, Media and Urban Experience
Units: 4
Explores the relationship between urban experience and visual media (from the photographic, to the filmic, to the digital) from circa 1880 to the present. Duplicates Credit in the former ARCH 434 Instruction Mode: Lecture Grading Option: Letter

ARCH 588 Physical Computing: Linking Architectural Computing with the Physical World
Units: 3
Provides hands-on prototyping experience with environmental sensing, actuation, and embedded computing technologies. Recommended Preparation: While no experience working with electronics is required, basic knowledge and willingness to learn programming and physical prototyping is assumed. Registration Restriction: Not open to freshmen and sophomores. Instruction Mode: Lecture, Lab Grading Option: Letter

ARCH 590 Directed Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12
Terms Offered: FaSpSm
Research leading to the development of a thesis prospectus. Topics may be in the areas of building structures, seismic design, environmental control, passive and active energy, or other relevant topics. Instruction Mode: Lecture Grading Option: Credit/No Credit

ARCH 596 Building Science Thesis Preparation
Units: 1
Terms Offered: Fa
Exploration of topics leading to the development of a thesis prospectus. Topics may be in the areas of building structures, seismic design, environmental control, passive and active energy, or other relevant topics. Instruction Mode: Lecture Grading Option: Credit/No Credit

ARCH 599 Special Topics
Units: 2, 3, 4
Max Units: 8.0
Terms Offered: FaSpSm
Selected topics in various specialty areas of architecture. Instruction Mode: Lecture, Lab Grading Option: Letter

ARCH 605L Graduate Architecture Design II
Units: 0
Terms Offered: Sm
Advanced topical investigations emphasizing diverse areas of specialization. Projects will be faculty-led research investigations that concentrate on diverse areas of vital concern. Prerequisite: ARCH 605b

ARCH 605a Graduate Architecture Design II
Units: 6
Terms Offered: Fa
Basic principles of structural (seismic/wind and gravity), HVAC, building envelope, access/egress, building service systems; and sustainable strategies are critical to the proper execution of performative goals. The integration of building systems will be delineated to demonstrate the tectonic viability a design solution. Prerequisite: ARCH 505b
Registration Restriction: Open only to Architecture majors. Instruction Mode: Lecture, Lab Required Grading Option: Letter

ARCH 605bL Graduate Architecture Design II
Units: 6
Terms Offered: Sp
Comprehensive project emphasizing the interaction between general principles and local sites, building technologies and total building design. Prerequisite: ARCH 505b
Registration Restriction: Open only to Architecture majors. Instruction Mode: Lecture, Lab Required Grading Option: Letter

ARCH 606 Advanced Architectural Theory
Units: 2
Terms Offered: Fa
Interrogates the architectural and cultural landscape of our contemporary cities through a combination of lectures and seminars on theories of place, identity, aesthetics, and technology. Instruction Mode: Lecture Grading Option: Letter

ARCH 607 Advanced Computation
Units: 2
Max Units: 6.0
Terms Offered: FaSpSm
Introduction to a range of new technologies and techniques examining their technical and theoretical implications including advanced computational design techniques and geospatial design tools.
ARCH 608 Urban Theory: Los Angeles Case Study  
Units: 3  
Terms Offered: Fa  
Critically investigates the urban condition of Los Angeles through lectures, readings, and field visits. Aims to heighten awareness of the entwinement of environment, culture, architecture, and the contemporary city. Instruction Mode: Lecture, Lab  
Grading Option: Letter

ARCH 609 Advanced Fabrication  
Units: 2 Max Units: 6.0  
Terms Offered: FaSp  
Introduction to a range of new technologies and techniques examining technical and theoretical implications including a range of digital fabrication technologies, robotics and film-making techniques. Instruction Mode: Lecture, Lab  
Grading Option: Letter

ARCH 610L Advanced Graduate Architecture Design  
Units: 6  
Terms Offered: FaSpSm  
Elective advanced design and research studio investigations. As faculty-led topical themes, the design-based projects engaging critical topics engaging diverse areas of specialization. Prerequisite: ARCH 605b. Instruction Mode: Lecture, Lab  
Required Grading Option: Letter

ARCH 611 Advanced Building Systems Integration  
Units: 4  
Terms Offered: Sp  
Design criteria development, material and construction process methods, occupancy based load profiles, performance/material life-cycle-mandates, durability for advanced building systems including integrity in sustainable urban systems. Instruction Mode: Lecture  
Grading Option: Letter

ARCH 613L Seminar: Structures Research  
Units: 4  
Terms Offered: Sp  
An overview of research topics in building structures; detailed investigation of selected major issues. Instruction Mode: Lecture, Lab  
Required Grading Option: Letter

ARCH 614 a, ARCH 614b. Instruction Mode: Lecture, Lab  
Restriction: Open only to Master of Architecture degree.

ARCH 615L Seminar: Environmental Systems Research  
Units: 4  
Terms Offered: FaSpSm  
Overview of multiple fabrication, manufacturing, and construction techniques used in the production of architecture, furniture and industrial design. Registration Restriction: Not open to freshman, sophomore and junior students  
Instruction Mode: Lecture  
Grading Option: Letter

ARCH 616 Contemporary Issues in Architecture: A Critical Diachetic  
Units: 3  
Terms Offered: Fa  
Issues that are important to the contemporary built environment are explored using a dialectical format to encourage debate, augmented by invited speakers and topical readings. Prerequisite: ARCH 214a, ARCH 214b and ARCH 514a, ARCH 514b. Instruction Mode: Lecture  
Grading Option: Letter

ARCH 618L Seminar: Environmental Systems Research  
Units: 4  
Terms Offered: FaSpSm  
Overview of multiple fabrication, manufacturing, and construction techniques used in the production of architecture, furniture and industrial design. Registration Restriction: Not open to freshman, sophomore and junior students  
Instruction Mode: Lecture  
Grading Option: Letter

ARCH 619 Digital Fabrication - Materials and Methods of Production  
Units: 3  
Terms Offered: FaSpSm  
Overview of multiple fabrication, manufacturing, and construction techniques used in the production of architecture, furniture and industrial design. Registration Restriction: Not open to freshman, sophomore and junior students  
Instruction Mode: Lecture  
Grading Option: Letter

ARCH 620 Urban Theory: Los Angeles Case Study  
Units: 3  
Terms Offered: Fa  
Critically investigates the urban condition of Los Angeles through lectures, readings, and field visits. Aims to heighten awareness of the entwinement of environment, culture, architecture, and the contemporary city. Instruction Mode: Lecture, Lab  
Grading Option: Letter

ARCH 621 Advanced Building Systems Integration  
Units: 4  
Terms Offered: Sp  
Design criteria development, material and construction process methods, occupancy based load profiles, performance/material life-cycle-mandates, durability for advanced building systems including integrity in sustainable urban systems. Instruction Mode: Lecture  
Grading Option: Letter

ARCH 623 a, ARCH 623b. Instruction Mode: Lecture, Lab  
Restriction: Open only to Master of Architecture degree.

ARCH 624L Landscape Architecture Design  
Units: 6  
Terms Offered: FaSpSm  
Fully integrated landscape place design; reclamation sites at significant urban or natural locations. Prerequisite: ARCH 542aL, ARCH 542bL. Instruction Mode: Lecture, Lab  
Required Grading Option: Letter

ARCH 627 Future Building Skins: Advanced Applications in Architecture  
Units: 3  
Terms Offered: FaSpSm  
Focuses on the development of novel facade solutions that respond to shortcomings of contemporary facades applications in both new and existing buildings. Instruction Mode: Lecture  
Grading Option: Letter

ARCH 629 Directed Research  
Units: 2, 3, 4, 5, 6, 7, 8  
Terms Offered:FaSpSm  
Prerequisite: ARCH 553. Registration Restriction: Open only to Master of Architecture degree. Instruction Mode: Lecture  
Required Grading Option: Credit/No Credit

ARCH 629bL Building Science Thesis  
Units: 6  
Terms Offered: FaSpSm  
Thesis for the Master of Architecture degree. Prerequisite: ARCH 596. Credit Restriction: Credit on acceptance of research project. Instruction Mode: Lecture  
Lab Required Grading Option: In-progress to Credit/No Credit

ARCH 630L Media for Landscape Architecture: Dynamic Systems  
Units: 3  
Terms Offered: FaSpSm  
Computational capacities of parametric software, including flow dynamics, procedural media, and geospatial analysis, to analyze and generate both existing and emergent systems at the landscape scale. Prerequisite: ARCH 548 Instruction Mode: Lecture, Lab  
Grading Option: Letter

ARCH 632L Seminar: Environmental Science  
Units: 2 Technical documentation, graphic representation, and verbal presentation for writing and presenting journal articles and conference presentations in building science. Recommended Preparation: completion of MBS Core Seminars  
Instruction Mode: Lecture  
Grading Option: Letter

ARCH 634L Seminar: Environmental Systems Research  
Units: 4  
Terms Offered: FaSpSm  
Overview of multiple fabrication, manufacturing, and construction techniques used in the production of architecture, furniture and industrial design. Registration Restriction: Not open to freshman, sophomore and junior students  
Instruction Mode: Lecture  
Grading Option: Letter

ARCH 635 Landscape Construction: Assembly and Documentation  
Units: 3  
Terms Offered: Sp  
Learn and practice the process by which a landscape design is assembled through materials systems and design documentation. Instruction Mode: Lecture  
Grading Option: Letter

ARCH 636 Media for Landscape Architecture: Dynamic Systems  
Units: 3  
Terms Offered: FaSpSm  
Computational capacities of parametric software, including flow dynamics, procedural media, and geospatial analysis, to analyze and generate both existing and emergent systems at the landscape scale. Prerequisite: ARCH 548 Instruction Mode: Lecture, Lab  
Required Grading Option: Letter

ARCH 639 Media for Landscape Architecture: Dynamic Systems  
Units: 3  
Terms Offered: FaSpSm  
Computational capacities of parametric software, including flow dynamics, procedural media, and geospatial analysis, to analyze and generate both existing and emergent systems at the landscape scale. Prerequisite: ARCH 548 Instruction Mode: Lecture, Lab  
Required Grading Option: Letter

ARCH 642L Landscape Architecture Design  
Units: 6  
Terms Offered: FaSpSm  
Fully integrated landscape place design; reclamation sites at significant urban or natural locations. Prerequisite: ARCH 542aL, ARCH 542bL. Instruction Mode: Lecture, Lab  
Required Grading Option: Letter

ARCH 675 Future Building Skins: Advanced Applications in Architecture  
Units: 3  
Terms Offered: FaSpSm  
Focuses on the development of novel facade solutions that respond to shortcomings of contemporary facades applications in both new and existing buildings. Instruction Mode: Lecture  
Grading Option: Letter

ARCH 692aL Building Science Thesis  
Units: 6  
Terms Offered: FaSpSm  
Thesis for the Master of Architecture degree. Prerequisite: ARCH 596. Credit Restriction: Credit on completion of thesis. Instruction Mode: Lecture, Lab  
Required Grading Option: In-progress to Credit/No Credit

ARCH 692bL Building Science Thesis  
Units: 6  
Terms Offered: FaSpSm  
Thesis for the Master of Architecture degree. Prerequisite: ARCH 596. Credit Restriction: Credit on completion of thesis. Instruction Mode: Lecture, Lab  
Required Grading Option: In-progress to Credit/No Credit

ARCH 692zL Building Science Thesis  
Units: 6  
Terms Offered: FaSpSm  
Thesis for the Master of Architecture degree. Prerequisite: ARCH 596. Credit Restriction: Credit on completion of thesis. Instruction Mode: Lecture, Lab  
Required Grading Option: In-progress to Credit/No Credit

ARCH 693aL M.Arch. Thesis, Option I  
Units: 2  
Terms Offered: FaSpSm  
Research option for M.Arch. degree. Credit Restriction: Credit on acceptance of research project. Instruction Mode: Lecture  
Required Grading Option: In-progress to Credit/No Credit

ARCH 693bL M.Arch. Thesis, Option I  
Units: 8  
Terms Offered: FaSpSm  
Research option for M.Arch. degree. Credit Restriction: Credit on acceptance of research project. Instruction Mode: Lecture  
Required Grading Option: In-progress to Credit/No Credit

ARCH 694 Research Publication Methods for Building Science  
Units: 2  
Technical documentation, graphic representation, and verbal presentation for writing and presenting journal articles and conference presentations in building science. Recommended Preparation: completion of MBS Core Seminars  
Instruction Mode: Lecture  
Grading Option: Letter

ARCH 695aL M.Arch. Thesis, Option II  
Units: 2  
Terms Offered: FaSpSm  
Design thesis for the Master of Architecture degree. Registration Restriction: Open only to Master's level Architecture. Credit Restriction: Credit on acceptance of thesis. Instruction Mode: Lecture  
Required Grading Option: In-progress to Credit/No Credit

ARCH 695bL M.Arch. Thesis, Option II  
Units: 2  
Terms Offered: FaSpSm  
Design thesis for the Master of Architecture degree. Registration Restriction: Open only to Master's level Architecture. Credit Restriction: Credit on acceptance of thesis. Instruction Mode: Lecture  
Required Grading Option: In-progress to Credit/No Credit
ARCH 695bL M.Arch. Thesis, Option II
Units: 8 Terms Offered: FaSpSm Design thesis for the Master of Architecture degree. Credit Restriction: Credit on acceptance of thesis. Instruction Mode: Lecture, Lab Required Grading Option: In-progress to Credit/No Credit

ARCH 695zL M.Arch. Thesis, Option II
Units: 0 Terms Offered: FaSpSm Design thesis for the Master of Architecture degree. Credit Restriction: Credit on acceptance of thesis. Instruction Mode: Lecture, Lab Required Grading Option: In-progress to Credit/No Credit

ARCH 696a Building Science Thesis
Units: 1 Research and thesis for the Master of Building Science degree. Credit Restriction: Credit on acceptance of thesis. Instruction Mode: Lecture, Lab Required Grading Option: In-progress to Credit/No Credit

ARCH 696b Building Science Thesis
Units: 6 Research and thesis for the Master of Building Science degree. Credit Restriction: Credit on acceptance of thesis. Instruction Mode: Lecture, Lab Required Grading Option: In-progress to Credit/No Credit

ARCH 696c Building Science Thesis
Units: 8 Research and thesis for the Master of Building Science degree. Credit Restriction: Credit on acceptance of thesis. Instruction Mode: Lecture, Lab Required Grading Option: In-progress to Credit/No Credit

ARCH 697aL MLArch Thesis, Option II
Units: 2 Terms Offered: FaSpSm Field studies and thesis for the MLArch degree. Credit Restriction: Credit on acceptance of thesis. Instruction Mode: Lecture, Lab Required Grading Option: In-progress to Credit/No Credit

ARCH 697bL MLArch Thesis, Option II
Units: 8 Terms Offered: FaSpSm Field studies and thesis for the MLArch degree. Credit Restriction: Credit on acceptance of thesis. Instruction Mode: Lecture, Lab Required Grading Option: In-progress to Credit/No Credit

ARCH 697zL MLArch Thesis, Option II
Units: 0 Terms Offered: FaSpSm Field studies and thesis for the MLArch degree. Credit Restriction: Credit on acceptance of thesis. Instruction Mode: Lecture, Lab Required Grading Option: In-progress to Credit/No Credit

ARCH 698aL Advanced Design-Research
Units: 3 Terms Offered: FaSpSm Directed research option for the MArch degree. Registration Restriction: Open only to master students in Landscape Architecture and in Planning/Landscape Architecture. Instruction Mode: Lecture Grading Option: Letter

ARCH 698bL Advanced Design-Research
Units: 6 Terms Offered: FaSpSm Directed research option for the MArch degree. Prerequisite: ARCH 698aL Registration Restriction: Open only to master students in Landscape Architecture and in Planning/Landscape Architecture. Instruction Mode: Lecture Grading Option: Letter

ARCH 698zL Advanced Design-Research
Units: 0 Terms Offered: FaSpSm Directed research option for the MArch degree. Instruction Mode: Lecture, Lab Required Grading Option: In Progress and Letter

ARCH 702L Advanced Graduate Architecture
Units: 2 Advanced topical investigations emphasizing diverse areas of specialization. Projects will be faculty-led research investigations that concentrate on diverse areas of vital concern. Instruction Mode: Lecture, Lab Required Grading Option: Letter

ARCH 705L Advanced Graduate Architecture Design – Topics
Units: 6 Max Units: 12.0 Terms Offered: FaSm Advanced topical investigations emphasizing diverse areas of specialization. Projects will be faculty-led research investigations that concentrate on diverse areas of vital concern. Prerequisite: ARCH 605bL or ARCH 702L. Registration Restriction: Open to Architecture majors. Instruction Mode: Lecture, Lab Required Grading Option: Credit

ARCH 706L Advanced Graduate Architecture Design – Themes
Units: 6 Advanced thematic topical investigations emphasizing diverse areas of specialization. Projects will be faculty-led research investigations that concentrate on diverse areas of vital concern. Prerequisite: ARCH 605bL or ARCH 702L. Registration Restriction: Open to Architecture majors. Instruction Mode: Lecture, Lab Required Grading Option: Letter

ARCH 719 Proposal for Doctoral Dissertation
Units: 1 Terms Offered: Fa Credit Restriction: Credit on acceptance of dissertation proposal. Instruction Mode: Lecture Grading Option: Credit/No Credit

ARCH 730L Architecture Directed Design Research Option I
Units: 2 Terms Offered: FaSp Directed Design Research option for graduate level architecture degree. Prerequisite: ARCH 605bL or ARCH 702L. Registration Restriction: Open only to Architecture majors. Credit Restriction: Credit on acceptance of research project. Instruction Mode: Lecture, Lab Required Grading Option: In-progress to Credit/No Credit

ARCH 730z Architecture Directed Design Research Option I
Units: 6 Terms Offered: FaSp Directed Design Research option for graduate level architecture degree. Prerequisite: ARCH 605bL or ARCH 702L. Registration Restriction: Open only to Architecture majors. Credit Restriction: Credit on acceptance of research project. Instruction Mode: Lecture, Lab Required Grading Option: In-progress to Credit/No Credit

ARCH 793z Architecture Directed Design Research Option II
Units: 0 Directed Design Research option for graduate level architecture degree. Credit on acceptance of research project. Prerequisite: ARCH 793b. Instruction Mode: Lecture Grading Option: Credit/No Credit

ARCH 794a Doctoral Dissertation
Units: 2 Terms Offered: FaSpSm Credit Restriction: Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

ARCH 794b Doctoral Dissertation
Units: 2 Terms Offered: FaSpSm Credit Restriction: Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

ARCH 794c Doctoral Dissertation
Units: 2 Terms Offered: FaSpSm Credit Restriction: Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress & Credit/No Credit

ARCH 794d Doctoral Dissertation
Units: 2 Terms Offered: FaSpSm Credit Restriction: Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress & Credit/No Credit

ARCH 795L Architecture Thesis Option II
Units: 6 Terms Offered: FaSp Thesis option for graduate level architecture degree. Prerequisite: ARCH 605bL or ARCH 702L. Registration Restriction: Open only to Architecture majors. Credit Restriction: Credit on acceptance of thesis. Instruction Mode: Lecture, Lab Required Grading Option: Credit/No Credit

ARCH 795aL Architecture Thesis Option II
Units: 6 Terms Offered: FaSp Thesis option for graduate level architecture degree. Prerequisite: ARCH 605bL or ARCH 702L. Registration Restriction: Open only to Architecture majors. Credit Restriction: Credit on acceptance of thesis. Instruction Mode: Lecture, Lab Required Grading Option: Credit/No Credit

ART 105 Art and Design Studio I
Units: 4 Terms Offered: FaSp Introduction to the fundamental elements in art making, design creation and thinking, including key principles of process and critical analysis. Instruction Mode: Lecture Grading Option: Letter Crosslisted as DES 105

ART 106 Art and Design Studio II
Units: 4 Terms Offered: FaSp Introduction to the fundamental elements in art making, design creation and thinking, including the key principles of process and critical analysis. Instruction Mode: Lecture Grading Option: Letter Crosslisted as DES 106

ART 110 Drawing for Art and Design
Units: 4 Terms Offered: FaSpSm An introduction to drawing, both skill and perception oriented, as the basic tool for all the visual arts and design. Duplicates Credit in former FADW 101 Instruction Mode: Lecture Grading Option: Credit/No Credit
ART 100 Painting I
Units: 4 Terms Offered: FaSpSm Practical introduction to oil and acrylic pigments, painting tools, mediums, processes and contemporary concepts. Primary experience in: color, composition and perception through representational and abstract painting. Duplicates Credit in former FAPT 105 Instruction Mode: Lecture, Lab Grading Option: Letter

ART 130 Ceramics I
Units: 4 Terms Offered: FaSp Practical and theoretical exploration of the nature of surface, form, volume and mass as fundamental elements of clay sculpture and the ceramic object. Duplicates Credit in former FACE 112 Instruction Mode: Lecture Grading Option: Letter

ART 140 Sculpture I
Units: 4 Terms Offered: FaSp Practical and theoretical introduction to sculpture as dimensional manipulation. Primary exploration of form, mass, gravity, surface, structure and associative recognition in three-dimensional art. Duplicates Credit in former FASC 106 Instruction Mode: Lecture, Lab Grading Option: Letter

ART 141x Creating and Understanding Visuals
Units: 4 Terms Offered: FaSpSm Lecture-studio course on the theory and history behind contemporary art, design, and visual communication; students also create work, informed by ideas from the lecture. Satisfies New General Education in Category A: The Arts Credit Restriction: Not for Major Credit Instruction Mode: Lecture Grading Option: Letter

ART 150 Introduction to Photography: Process and Concept
Units: 4 Terms Offered: FaSp Digital photography as a medium of contemporary art. Includes concept development, DSLR cameras, lighting, digital workflow, software, large format printing and installation. Duplicates Credit in former FAPT 209 Instruction Mode: Lecture Grading Option: Letter

ART 207a Two-Dimensional Art Workshop
Units: 2 Max Units: 08 Terms Offered: FaSpSm Studio practice to develop drawing fundamentals for game designers, animators and narrative artists. Duplicates Credit in former FA 207a Instruction Mode: Lecture Grading Option: Letter

ART 207b Two-Dimensional Art Workshop
Units: 2 Max Units: 08 Terms Offered: FaSpSmStudio practice to develop standards of judgment and appreciation of the visual arts. Duplicates Credit in former FA 208a Instruction Mode: Lecture, Lab Grading Option: Letter

ART 208a Three-Dimensional Art Workshop
Units: 2 Terms Offered: FaSpSm Studio practice to develop standards of judgment and appreciation of the visual arts. Duplicates Credit in former FA 208a Instruction Mode: Lecture, Lab Grading Option: Letter

ART 208b Three-Dimensional Art Workshop
Units: 2 Terms Offered: FaSpSm Continuation of ART 208a. Prerequisite: ART 208a Duplicates Credit in former FA 208b Instruction Mode: Lecture, Lab Grading Option: Letter

ART 230 Wheel Throwing
Units: 4 Terms Offered: FaSp An introductory course using wheel throwing techniques for ceramics to explore a variety of forms through three-dimensional exercises. Duplicates Credit in former FACE 212 Instruction Mode: Lecture, Lab Grading Option: Letter

ART 243 Construction Techniques
Units: 2 Terms Offered: FaSp Exploration of art fabrication and the techniques and philosophies of working with a variety of materials. Recommended Preparation: ART 140 Duplicates Credit in former FASC 246 Instruction Mode: Lecture, Lab Grading Option: Letter

ART 255 Black and White Film and Darkroom Photography
Units: 4 Terms Offered: FaSp Introduces film cameras, development, and darkroom techniques, photographic history, theory and practice within an art context. Duplicates Credit in former ART 150 Instruction Mode: Lecture Grading Option: Letter

ART 260 Introduction to Video: Projection and Virtual Worlds in Art
Units: 4 Terms Offered: FaSp An introductory course exploring contemporary processes and practices of video experimentation in art including the camera, editing, digital manipulation and spatial and virtual platforms. Duplicates Credit in former FAIN 220 Instruction Mode: Lecture Grading Option: Letter

ART 280 Studio Critique I
Units: 2 Terms Offered: FaSp Interdisciplinary forum where students develop research skills, learn how to best articulate their artistic production, discuss materials related to their research interests, and critique the work of their peers. Registration Restriction: Open only to sophomores in Art and Fine Arts majors Instruction Mode: Lecture Grading Option: Letter

ART 300 Professional Practices
Units: 2 Terms Offered: FaSpSm Instruction on producing written and visual documentation of art/design work, proposals, statements, and portfolios; applications for art/design employment opportunities, grants, research projects, and graduate school. Registration Restriction: Open only to sophomores in Art and Fine Arts majors Instruction Mode: Lecture Grading Option: Letter

ART 311 Anatomical Drawing from Life
Units: 2 Terms Offered: FaSpSm An advanced, concentrated study of the human figure; expands on skills depicting and visualizing the human form. Prerequisite: ART 110 or FADW 101 Duplicates Credit in former FADW 321 Instruction Mode: Lecture Grading Option: Letter

ART 312 Comics Project
Units: 4 Max Units: 08 Terms Offered: FaSp All aspects of comics will be covered, from writing and composition to inking and marketing through the production of an individual multi-page comic creation. Recommended Preparation: Any drawing, graphic design or creative writing course Instruction Mode: Lecture Grading Option: Letter

ART 314 Illustration for Art and Design
Units: 2 Terms Offered: FaSpSm Illustration techniques and professional practices across the range of fine art, comics, editorial illustration, narrative arts, visual development and others. Digital and hybrid approaches. Recommended Preparation: ART 110, ART 120, or any graphic design course Instruction Mode: Lecture Grading Option: Letter

ART 320 Painting II
Units: 4 Terms Offered: FaSpSm Directed examination of historic and contemporary painting concepts and aesthetics, investigation into personal ideas towards the development of a creative visual language and practice in painting. Prerequisite: ART 120 or FAPT 105 Credit in former FAPT 305 Instruction Mode: Lecture Grading Option: Letter

ART 330 Ceramics II
Units: 4 Terms Offered: FaSpSm Directed examination of aesthetic concepts and investigation into personal ideas as they relate to the development of a creative visual language in ceramics. Prerequisite: ART 130 or FACE 112 Duplicates Credit in former FACE 312 Instruction Mode: Lecture Grading Option: Letter

ART 331 Clay and Glazes
Units: 2 Terms Offered: FaSp A foundation in the formulation of clay bodies and glaze materials through lectures and studio exercises to suit specific needs with the artist in mind. Recommended Preparation: ART 130 or ART 230 Duplicates Credit in former FACE 313 Instruction Mode: Lecture, Lab Grading Option: Letter

ART 340 Sculpture II
Units: 4 Terms Offered: FaSp Directed examination of three-dimensional aesthetic concepts; development of an individual creative vision. Prerequisite: ART 140 Duplicates Credit in former FASC 306 Instruction Mode: Lecture Grading Option: Letter

ART 350 Intermediate Photography: Studio, Field, Independent Projects
Units: 4 Terms Offered: FaSp Examined examination of the conceptual, technical, aesthetic and historical tools necessary for a well-informed deliberate art practice. Emphasis on generating self-directed ideas. Prerequisite: ART 150 Duplicates Credit in former FAPT 309b Instruction Mode: Lecture Grading Option: Letter

ART 360 Video Installation and Moving Image Environments
Units: 4 Terms Offered: FaSp Advanced studio course. Investigates video installation as an evolving contemporary art form that extends the conversation of video art beyond the frame and into live, hybrid media, site-specific and multiple
channel environments. Prerequisite: ART 260 or FAIN 220 Credit in former FAIN 320 Instruction Mode: Lecture Grading Option: Letter

ART 361 Post-Internet Art and Aesthetics
Units: 4 Terms Offered: FaSp A technically and conceptually intensive studio exploring contemporary processes and practices of Internet art and online expression. Prerequisite: ART 260 Recommended Preparation: ART 150 Duplicates Credit in former FAIN 315 Instruction Mode: Lecture Grading Option: Letter

ART 362 Ideas in Intermedia
Units: 4 Terms Offered: FaSp An examination of the impact of digital media on contemporary culture, with attention to a particular, changing topic each semester. Duplicates Credit in former FAIN 330 Instruction Mode: Lecture Grading Option: Letter

ART 370 Printmaking
Units: 4 Terms Offered: FaSp Introductory course in various printmaking techniques; necessary skills and inherent expressive qualities of different printmaking methods are explored. Duplicates Credit in former FAPR 311 Instruction Mode: Lecture, Lab Grading Option: Letter

ART 380 Studio Critique II
Units: 2 Terms Offered: FaSp A continuation of ART 280 for third-year students, providing an interdisciplinary forum for artistic practice and a deepening critique of one's work and the work of peers. Prerequisite: ART 280 Registration Restriction: Open only to juniors in Art and Fine Arts majors Instruction Mode: Lecture Grading Option: Letter

ART 390 Special Problems
Units: 1, 2, 3, 4 Terms Offered: FaSpSm Supervised, individual studies. No more than one registration permitted. Enrollment by petition only. Duplicates Credit in former FA 390 Instruction Mode: Lecture Grading Option: Letter

ART 410 Topics in Advanced Drawing
Units: 4 Max Units: 12 Terms Offered: FaSpSm Examination of personal approaches and professional careers in drawing and 2D art making, emphasis on making a body of work with creative freedom in committed studio space. Prerequisite: ART 310 or FADW 301 Duplicates Credit in former FA 401 and FADW 401 Instruction Mode: Lecture Grading Option: Letter

ART 415 Studies in Drawing and Painting
Units: 4 Max Units: 12 Terms Offered: FaSp A studio examination of rotating topics in drawing and painting, either media-based or content-driven, with individual and collaborative projects; topics change each semester. Recommended Preparation: ART 310; ART 320 or permission of instructor. Duplicates Credit in former FADW 331 and former ART 315 Instruction Mode: Lecture Grading Option: Letter

ART 418 Independent Studies in Studio Arts
Units: 1, 2, 3, 4 Terms Offered: FaSpSm Independent research of specific topics under the direction of a faculty member. Administrative and faculty approval required. Recommended Preparation: appropriate 300-level course work

Duplicates Credit in former FA 418 Instruction Mode: Lecture Grading Option: Letter

ART 419 Professional Internship in the Arts
Units: 2 Max Units: 04 Terms Offered: FaSpSm An experiential/academic opportunity in a museum, gallery, community cultural center or related facility. Lectures, seminars, written analysis and working internship. Registration Restriction: Open only to upper-division fine arts majors. Duplicates Credit in former FA 419 Instruction Mode: Lecture Grading Option: Credit/No Credit Credit cannot be used as DES 419

ART 420 Topics in Advanced Painting
Units: 4 Max Units: 12 Terms Offered: FaSpSm Examination of personal approaches and professional careers in painting and 2D art making, emphasis on making a body of work with creative freedom in committed studio space. Prerequisite: ART 320 or FAPT 305 Duplicates Credit in former FAPT 405 Instruction Mode: Lecture Grading Option: Letter

ART 430 Topics in Advanced Ceramics
Units: 4 Max Units: 12 Terms Offered: FaSpSm Continued directed examination of aesthetic concepts and investigation into personal ideas as they relate to the development of a creative visual language in ceramics. Prerequisite: ART 330 or FACE 312 Duplicates Credit in former FACE 412 Instruction Mode: Lecture, Lab Grading Option: Letter

ART 434 Sound Art
Units: 2 Terms Offered: Sp A survey of developments in non-traditional musical instrument making in clay including design, fabrication and composition, culminating in a musical performance. Recommended Preparation: ART 130 or FACE 112 Duplicates Credit in former ART 414 Instruction Mode: Lecture Grading Option: Letter

ART 440 Topics in Advanced Sculpture
Units: 4 Max Units: 12 Terms Offered: FaSpSm Individual direction of the study of aesthetic issues in sculpture; investigation of an individual creative vision. Prerequisite: ART 340 or FASC 306 Duplicates Credit in former FASC 406 Instruction Mode: Lecture, Lab Grading Option: Letter

ART 441 Installation Art
Units: 4 Terms Offered: FaSp Students challenge the traditional art object as they explore the use of space and time in their artwork. Prerequisite: ART 140 Recommended Preparation: any upper division art or design course Instruction Mode: Lecture Grading Option: Letter

ART 442 Art and Technology
Units: 4 Terms Offered: Sp An interdisciplinary course between art and engineering that addresses creative thinking in the manipulation of media and the communication of ideas. Duplicates Credit in former FASC 436 Instruction Mode: Lecture Grading Option: Letter

ART 443 Woodworking
Units: 2 Terms Offered: FaSp Exploration of the essential skills in woodworking through lecture, demonstration and hands-on training. Includes instruction in joinery and relevant machinery and hand tools.

Instruction Mode: Lecture Grading Option: Letter

ART 444 Modeling and Mold Making
Units: 2 Terms Offered: FaSp Introduction to plaster mold making using clay and wax for both ceramics and sculpture. Exploration of various casting materials. Duplicates Credit in former FASC 136 and former ART 142 Instruction Mode: Lecture Grading Option: Letter

ART 445 Metal
Units: 2 Terms Offered: FaSp Introduction to metal in fine art. Emphasis on technical proficiencies and effective solutions working in a variety of metals. Recommended Preparation: ART 140 Duplicates Credit in former FASC 236 and former ART 242 Instruction Mode: Lecture Grading Option: Letter

ART 450 Topics in Advanced Photography
Units: 4 Max Units: 12 Terms Offered: FaSp In-depth exploration of photographic and artistic concepts as they apply to the articulation of personal work. Prerequisite: ART 350 or FAPH 309b Credit in former FAPH 409 Instruction Mode: Lecture, Lab Grading Option: Letter

ART 460 Post-Material Studio
Units: 4 Max Units: 08 Terms Offered: FaSp Advanced studio and discussion course that affords the student a conceptual and practical platform from which to discuss and realize a major work or series. Recommended Preparation: any upper division studio course or permission of instructor Duplicates Credit in former FAIN 440 Instruction Mode: Lecture Grading Option: Letter

ART 461 Techniques in After Effects
Units: 2 Terms Offered: FaSp An intensive investigation of the mechanics and methodology of contemporary software for video art. Recommended to be taken concurrently with ART 260. Instruction Mode: Lecture Grading Option: Letter

ART 462 Performance Art Workshop
Units: 4 Terms Offered: FaSp Introduce contextual understanding of performance art history and basic principles of using the body in time and space in relation to an audience in order to convey meaning. Recommended Preparation: ART 260 or ART 362 Instruction Mode: Lecture Grading Option: Letter

ART 463 Performance Art and the Frame
Units: 2 Terms Offered: FaSp Exploration of iconic performance documentation and creation of a snapshot and/or moving image narrative, manipulating temporal space to lock it into a frame. Recommended Preparation: Background in visual arts of any form (e.g., performance art, time-based media, video art, installation and any form of 2D or 3D art), cinema, media, music, communications, narrative studies Instruction Mode: Lecture Grading Option: Letter

ART 470 Topics in Advanced Printmaking
Units: 4 Max Units: 12 Terms Offered: FaSp Directed examination of specific printmaking media in relation to personal aesthetic goals and expressive concepts. Prerequisite: ART 370 or FAPR 311 Duplicates Credit in former FAPR 411
ART 480 International Art Study Tour
Units: 2 Max Units: 62 Terms Offered: FaSp An immersive experience in the artistic culture of a specific city or region that includes a short (less than two weeks) international trip. Instruction Mode: Lecture Grading Option: Letter

ART 484 Contemporary Issues in Art
Units: 4 Max Units: 12 Terms Offered: FaSp An advanced studio and discussion course aims to expand a student’s relationship to, and understanding of, contemporary artistic dissemination, discourse, and display via a series of rotating topics. Recommended Preparation: junior status or permission of instructor Instruction Mode: Lecture Grading Option: Letter

ART 485 Studio Capstone
Units: 4 Terms Offered: Sp A faculty-mentored course supporting advanced conceptual exploration and the development of an ambitious, self-defined series or body of work; may culminate in a group exhibition or individual project. Registration Restriction: Open only to seniors in Fine Arts majors Instruction Mode: Lecture Grading Option: Letter

ART 490x Directed Research
Units: 1, 2, 3, 4, 5, 6, 7, 8 Max Units: 12 Terms Offered: FaSpSm Individual research and readings. Credit Restriction: Not available for graduate credit Duplicates Credit in former FA 490 Instruction Mode: Lecture Grading Option: Letter

ART 494a Senior Thesis
Units: 2 Max Units: 04 Terms Offered: FaSp Individual research under the guidance of faculty member for senior-level BFA students, leading to a substantial paper or other project. Registration Restriction: Open only to seniors in Fine Arts Instruction Mode: Lecture Grading Option: Letter

ART 494b Senior Thesis
Units: 2 Terms Offered: FaSp Individual research under the guidance of faculty for senior-level BFA students, leading to a substantial paper or project. Prerequisite: ART 494a Registration Restriction: Open only to seniors in Fine Arts Instruction Mode: Lecture Grading Option: Letter

ART 499 Special Topics
Units: 2, 3, 4 Max Units: 08 Terms Offered: FaSpSm Comprehensive exploration of particular aspects of the history of art. Duplicates Credit in former FA 499 Instruction Mode: Lecture Grading Option: Letter

ART 515 Visiting Artist and Scholar Seminar
Units: 2 Max Units: 4.0 Terms Offered: FaSp Lecture and discussion course in the professional practice of art featuring formal presentations by visiting artists and scholars. Duplicates Credit in FA 515 Instruction Mode: Lecture Grading Option: Letter

ART 520 Individual Studies
Units: 2 Max Units: 8.0 Terms Offered: FaSp Investigation of creative problems through various media. Course may be repeated. Duplicates Credit in former FA 520 Instruction Mode: Lecture Grading Option: Letter

ART 525 Making and Curating Art: Pedagogy and Praxis
Units: 4 Terms Offered: Sp Enroll in CRIT 525

ART 530 Art and Globalization
Units: 4 Terms Offered: SpSm Tracks the historical emergence and proliferation of globalization and its relationship to political, economic and cultural phenomena. Instruction Mode: Lecture Grading Option: Letter Crosslisted as CRIT 530

ART 535 Group Critique
Units: 2 Max Units: 8 Terms Offered: FaSp Presentation and critique which builds students’ skills in presenting and contextualizing their artwork for peer review; analytic discussion regarding directions in contemporary art. Instruction Mode: Lecture Grading Option: Letter

ART 590 Directed Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Research leading to graduate degree. Maximum units which may be applied to degree determined by department. Duplicates Credit in former FA 590 Instruction Mode: Lecture Grading Option: Credit/No Credit

ART 594a Master’s Thesis
Units: 2 Credit on acceptance of Thesis. Registration Restriction: Open only to masters students. Duplicates Credit in former FA 594abz Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

ART 594b Master’s Thesis
Units: 2 Credit on acceptance of Thesis. Registration Restriction: Open only to masters students. Duplicates Credit in former FA 594abz Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

ART 594c Master’s Thesis
Units: 0 Credit on acceptance of Thesis. Registration Restriction: Open only to masters students. Duplicates Credit in former FA 594abz Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

ART 594d Master’s Thesis
Units: 0 Comprehensive exploration of particular aspects of the history of art. Duplicates Credit in former FA 599 Instruction Mode: Lecture Grading Option: Letter

ARTL 310 Music and Dance In Paris
Salon Culture
Units: 2 Terms Offered: Sp During this twenty-four day Maymester course in Paris, students will explore moments in Parisian salon culture as sites of artistic inspiration and collaboration. Registration Restriction: Priority will be given to seniors and juniors Credit in former FA 594abz Instruction Mode: Lecture Grading Option: Letter
ARTL 504 Arts and the Community: Current Practice and New Visions
Units: 2 Terms Offered: FaSp Exploration of a range of ideas, ideologies and strategies that have historically been used to connect arts organizations to their communities. Instruction Mode: Lecture Grading Option: Letter

ARTL 510 Arts Leadership Practicum
Units: 2 Max Units: 4.0 Terms Offered: FaSp Year-long practicum which puts ideas and concepts into practice. Each student will conceptualize, develop, and complete an arts project of his/her own choosing. Instruction Mode: Lecture Grading Option: Letter

ARTL 512 Essentials of Orchestra Management
Units: 2 Ten day seminar that provides in depth, participative instruction in orchestra management and the practicalities of being a successful leader of an arts organization. Instruction Mode: Lecture Grading Option: Letter

ARTL 520 Arts Leadership Intensive
Units: 1 Five-day, intensive course that serves as a deep-dive introduction to the field for all Arts Leadership students. Instruction Mode: Lecture Grading Option: Letter

ARTL 590 Directed Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Research leading to the master's degree. Maximum units which may be applied to the degree to be determined by the department. Instruction Mode: Lecture Grading Option: Credit/No Credit

ARTL 598 Internship for Arts Leadership
Units: 1, 2, 3, 4 Max Units: 04 Practical work experience in the student's field of study, at an off-campus location. Students are individually supervised by faculty. Instruction Mode: Lecture Grading Option: Credit/No Credit

ARTL 599 Special Topics
Units: 1, 2, 3, 4, 5, 6, 7, 8 Max Units: 08 Selected topics of current interest. Instruction Mode: Lecture Grading Option: Letter

ARTL 790 Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Research leading to the doctorate. Maximum units which may be applied to the degree to be determined by the department. Instruction Mode: Lecture Grading Option: Credit/No Credit

Communication and Journalism
ASCJ 200x Annenberg Skills
Units: 1 Intensive skills boot camps teach the verbal, written, and digital skills needed for "real world" jobs. Not available for degree credit. Instruction Mode: Lecture Grading Option: Credit/No Credit

ASCJ 100 The Changing World of Communication and Journalism
Units: 2 Survey of major themes in media and communication; exploring what it means to be a professional in the fields of communication, journalism, and public relations. Instruction Mode: Lecture Grading Option: Letter

ASCJ 200 Navigating Media and News in the Digital Age
Units: 4 Terms Offered: FaSp Students will be engaged as discriminating media/news consumers and contributors. Emphasis on critical skills needed to understand, employ, enjoy and help shape our media landscape. Instruction Mode: Lecture, Lab Grading Option: Letter

ASCJ 210 Contours of Change in Media and Communication
Units: 4 Provides an introduction to cultivating a curious, critical, and proactive approach to the challenges of social change. Students will be encouraged to develop an expansive and critical definition and understanding of change as it relates to the role of media and communication in producing and responding to political and cultural transformations that shape our status as citizens and our ideas of citizenship. Instruction Mode: Lecture, Discussion Grading Option: Letter

ASCJ 220x Annenberg Experimental Units: 0, 1, 2, 3, 4 Max Units: 8.0 Collaborative, cutting-edge, experimental, interdisciplinary, results-based classes taught in new ways and places. Instruction Mode: Lecture Grading Option: Credit/No Credit

ASCJ 420x Annenberg Collaboratory
Units: 1, 2, 3, 4 Max Units: 8.0 Collaborative, cutting-edge, experimental, interdisciplinary, results-based classes taught in new ways and places. Recommended Preparation: ASCJ 220. Instruction Mode: Lecture Grading Option: Letter

Astronautics and Space Technology
ASTE 101L Introduction to Astronautics
Units: 4 Terms Offered: Fa Sp Gateway to the Astronautical Engineering major. Introduction to space, space exploration and the space business. Elements of orbits, spacecraft systems, rocket propulsion, and communications. Laboratory: introduction to graphics, computation and simulation. Instruction Mode: Lecture, Lab Required Grading Option: Letter

ASTE 280 Foundations of Astronautical Engineering
Units: 3 Terms Offered: Sp Coordinate systems and transformations. Spherical trigonometry. Orientation angles. Spacecraft orbits and orbital maneuvers. Introduction to rocket propulsion, spacecraft altitude dynamics and control and space environment. Prerequisite: MATH 226g and PHYS 151Lg Recommended Preparation: Skill in MATLAB programming. Instruction Mode: Lecture Grading Option: Letter

ASTE 291 Team Projects I
Units: 1 Max Units: 4.0 Terms Offered: FaSp Participation in ASTE undergraduate student team projects. Intended for lower-division students or those with little prior project experience. Instruction Mode: Lecture Grading Option: Letter

ASTE 305 Astronautical Gas Dynamics
Units: 4 Terms Offered: Sp Introduction to compressible and rarefied gas flows with applications to rocket propulsion and the dynamics of supersonic and hypersonic vehicles and spacecraft; ionized gases and plasmas. Prerequisite: PHYS 153L or PHYS 163L and AME 310 Corequisite: MATH 245 Instruction Mode: Lecture Grading Option: Letter

ASTE 331a Spacecraft Systems Engineering
Units: 3 Terms Offered: Fa Sp Introduction to spacecraft systems: propulsion, attitude dynamics and control, structures, communications, power, thermal control, Space environment. Systems engineering as applied to spacecraft. Prerequisite: ASTE 280 Recommended Preparation: Skill in MATLAB programming and spreadsheets Corequisite: PHYS 153L Duplicates Credit in former ASTE 330 Instruction Mode: Lecture Grading Option: Letter

ASTE 331b Spacecraft Systems Engineering
Units: 3 Terms Offered: Sp Introduction to spacecraft systems: propulsion, attitude dynamics and control, structures, communications, power, thermal control, Space environment. Systems engineering as applied to spacecraft. Prerequisite: ASTE 331a Recommended Preparation: Skill in MATLAB programming and spreadsheets Duplicates Credit in former ASTE 330 Instruction Mode: Lecture Grading Option: Letter

ASTE 390 Special Problems
Units: 1, 2, 3, 4 Supervised, individual studies. No more than one registration permitted. Enrollment by petition only.

ASTE 404 Computational Programming and Numerical Methods
Units: 3 Terms Offered: Fa Sp Development of simulation code with high-performance languages such as C++ and Fortran; numerical techniques for continuum and rarefied gas flows, GPU utilization; data visualization, machine learning. Recommended Preparation: Basic programming experience with Matlab, C/C++, Python, or other programming languages, and/or similar exposure on the level of ITP 115 or ITP 165 Instruction Mode: Lecture Grading Option: Letter

ASTE 421x Space Mission Design
Units: 3 Terms Offered: Sp Space systems engineering process: requirements definition; trade studies; systems integration; technical reviews; cost and schedule development; case studies; ethics. Capstone design experience. Prerequisite: ASTE 331b Registration Restriction: Undergraduate credit only to seniors Credit Restriction: Not for graduate credit Instruction Mode: Lecture Grading Option: Letter

ASTE 445 Molecular Gas Dynamics
Units: 3 Terms Offered: FaSp Physical description of kinetic nature of gas flows; distribution function; introduction to the Boltzmann equation; free-molecule flow; surface and molecular reflection properties; Monte Carlo flow calculations. Recommended Preparation: AME 309 or ASTE 305 Instruction Mode: Lecture Grading Option: Letter

ASTE 470 Spacecraft Propulsion
Units: 3 Introduction to rocket engineering. Space missions and thrust requirements. Compressible gas dynamics. Propellant chemistry and thermodynamics. Liquid- and solid-fueled rockets. Nuclear and electric propulsion. Prerequisite: senior or graduate standing. Instruction Mode: Lecture Grading Option: Letter

ASTE 475 Rocket Propulsion
Units: 2 Terms Offered: Fa Sp Liquid-fueled and solid-fueled rocket engines; adiabatic
of thermodynamic functions.

ASTE 480 Spacecraft Dynamics
- Units: 3
- Two-body motion, rigid-body motion, attitude dynamics and maneuvers, spacecraft stabilization: gravity gradient, reaction wheels, magnetic torques, thruster attitude control.
- Prerequisite: senior standing.
- Instruction Mode: Lecture Grading Option: Letter

ASTE 490x Directed Research
- Units: 1, 2, 3, 4, 5, 6, 7, 8
- Max Units: 12.0
- Terms Offered: FaSpSm
- Individual research and readings. Credit Restriction: Not available for graduate credit.
- Instruction Mode: Lecture Grading Option: Letter

ASTE 491 Team Projects II
- Units: 1 Max Units: 4.0
- Terms Offered: FaSp
- FaSp Participation in ASTE undergraduate student team projects. Intended for students with prior project experience.
- Instruction Mode: Lecture Grading Option: Letter

ASTE 499 Special Topics
- Units: 2, 3, 4
- Max Units: 8.0
- Course content to be selected each semester from current developments in astronautics, space technology, and related fields.
- Instruction Mode: Lecture Grading Option: Letter

ASTE 501a Physical Gas Dynamics
- Units: 3
- Terms Offered: FaSp
- FaSp Molecular structure; radiative processes; microscopic description of gas phenomena; translational, rotational, vibrational, and electronic freedom degrees; particle energy distributions; microscopic representation of thermodynamic functions.
- Prerequisite: graduate standing or departmental approval.
- Instruction Mode: Lecture Grading Option: Letter

ASTE 501b Physical Gas Dynamics
- Units: 3
- Terms Offered: FaSp
- FaSp Kinetic concepts in gas physics; thermal non-equilibrium; intermolecular potentials; transport of radiation and particles in high-temperature gas; dissociation and ionization equilibrium; energy relaxation.
- Prerequisite: ASTE 501a.
- Instruction Mode: Lecture Grading Option: Letter

ASTE 505a Plasma Dynamics
- Units: 3
- Terms Offered: FaSp
- Recommended Preparation: Graduate standing in engineering or physics.
- Duplicates Credit in EE 572ab.
- Instruction Mode: Lecture Grading Option: Letter

ASTE 505b Plasma Dynamics
- Units: 3
- Terms Offered: FaSp
- Recommended Preparation: Graduate standing in engineering or physics.
- Duplicates Credit in EE 572ab.
- Instruction Mode: Lecture Grading Option: Letter

ASTE 520 Spacecraft System Design
- Units: 3
- System components; vehicle structure, propulsion systems, flight dynamics, thermal control, power systems, telecommunications. Interfaces and tradeoffs between these components.
- Testing, system reliability, and integration.
- Instruction Mode: Lecture Grading Option: Letter

ASTE 523 Design of Low Cost Space Missions
- Units: 3
- Terms Offered: Sp
- Reviews all aspects of space mission design for practical approaches to reducing cost. Examines "LightSat" mission experience and potential applicability to large-scale missions.
- Graduate standing in engineering or science.
- Recommended Preparation: ASTE 520 or some experience in spacecraft engineering.
- Instruction Mode: Lecture Grading Option: Letter

ASTE 524 Human Spaceflight
- Units: 3
- Engineering, technologies, and systems for human spaceflight. Life support, space environments, crew accommodations, launches and operations, safety. Astrodynamics, launch and space vehicles, space stations, planetary bases.
- Instruction Mode: Lecture Grading Option: Letter

ASTE 527 Space Studio Architecting
- Units: 3
- Terms Offered: Sp
- Programmatic/conceptual design synthesis/choice creation methods for complex space missions. Aerospace system engineering/architecture tools to create innovative projects. Evaluated by faculty/industry/NASA experts.
- Recommended Preparation: ASTE 520 or experience in space industry.
- Registration Restriction: Open only to graduate students.
- Instruction Mode: Lecture Grading Option: Letter

ASTE 528 Reliability of Space Systems
- Units: 3
- Terms Offered: FaSp
- Reliable space system design and operations for human and robotic space, applications, and commercial space. Reliability of space systems, subsystems, hardware, software, and human reliability.
- Recommended Preparation: ASTE 520 or equivalent course on fundamentals of space systems.
- Registration Restriction: Open only to graduate students in science or engineering.
- Instruction Mode: Lecture Grading Option: Letter

ASTE 529 Safety of Space Systems and Space Missions
- Units: 3
- Engineering methodology and analysis techniques for safety certification and mission assurance of robotic and human space systems and space missions by government and commercial industry.
- Recommended Preparation: ASTE 520 or some experience in spacecraft engineering.
- Registration Restriction: Open only to Engineering graduate students.
- Instruction Mode: Lecture Grading Option: Letter

ASTE 535 Space Environments and Spacecraft Interactions
- Units: 3
- Terms Offered: Irregular
- Space environments and interactions with space systems. Vacuum, neutral and ionized species, plasma, radiation, micrometeoroids. Phenomena important for spacecraft operations.
- Instruction Mode: Lecture Grading Option: Letter

ASTE 545 Computational Techniques in Rarefied Gas Dynamics
- Units: 3
- Terms Offered: Irregular
- Recommended Preparation: ASTE 501a and skill in FORTRAN programming.
- Instruction Mode: Lecture Grading Option: Letter

ASTE 546 Computational Plasma Dynamics
- Units: 3
- Terms Offered: Sp
- Plasma simulation techniques; particle-in-cell (PIC); PIC with Monte Carlo; computational electromagnetics; computational magnetohydrodynamics. Parallelization. Applications in engineering and space plasma physics.
- Prerequisite: ASTE 505a.
- Instruction Mode: Lecture Grading Option: Letter

ASTE 552 Spacecraft Thermal Control
- Units: 3
- Terms Offered: Sp
- Spacecraft and orbit thermal environments; design, analysis, testing of spacecraft thermal control system and components; active and passive thermal control, spacecraft and launch vehicle interfaces.
- Registration Restriction: Open only to graduate students.
- Instruction Mode: Lecture Grading Option: Letter

ASTE 553 Systems for Remote Sensing from Space
- Units: 3
- Terms Offered: Sp
- The operation, accuracy, resolution, figures of merit, and application of instruments which either produce images of ground scenes or probe the atmosphere as viewed primarily from space.
- Instruction Mode: Lecture Grading Option: Letter

ASTE 554 Spacecraft Sensors
- Units: 3
- Terms Offered: FaSp
- Spacecraft sensors from concept and design to building, testing, interfacing, integrating, and operations. Optical and infrared sensors, radiometers, radars, phased arrays, signal processing, noise reduction.
- Recommended Preparation: ASTE 520.
- Registration Restriction: Open only to graduate students.
- Instruction Mode: Lecture Grading Option: Letter

ASTE 555 Space Cryogenic Systems and Applications
- Units: 3
- Terms Offered: FaSp
- Theory and practice in cryogenic engineering as applied to space systems, emphasizing sensor cooling techniques; cryostats; cryoradiators; mechanical cryocoolers; introductions to superfluidity and superconductivity.
- Recommended Preparation: ASTE 520 or equivalent course on fundamentals of space systems.
- Registration Restriction: Graduate standing in science or engineering.
- Instruction Mode: Lecture Grading Option: Letter

ASTE 556 Spacecraft Structural Dynamics
- Units: 3
- Terms Offered: FaSp
- Applied analytical methods (vibrations of single and multidegree of freedom systems, finite element modeling, spacecraft applications); requirements definition process; analytical cycles; and design verification.
- Registration Restriction: Open only to graduate students.
- Instruction Mode: Lecture Grading Option: Letter
ASTE 557 Spacecraft Structural Strength and Materials
Units: 3 Spacecraft structural strength analysis and design concepts overview; spacecraft material selection; analysis of composite materials; finite element method; spacecraft configuration; structural testing; bolted joint design. Registration Restriction: Open only to graduate students in aerospace engineering. Prerequisite: ASTR 470 Instruction Mode: Lecture Grading Option: Letter

ASTE 561 Human Factors of Spacecraft Operations
Units: 3 Terms Offered: Fa Engineering fundamentals and experimental methods of human factors design and evaluation for spacecraft which incorporate human-in-the-loop control. Instruction Mode: Lecture Grading Option: Letter

ASTE 562 Spacecraft Life Support Systems
Units: 3 Terms Offered: Sp Space systems used for space launch vehicles, performance, ballistics, structures and analysis to support human life in the zero gravity environment. Ground and in-orbit operations. Propellant life predictions and spacecraft end-of-life de-orbiting strategies. Prerequisite: ASTR 470 Instruction Mode: Lecture Grading Option: Letter

ASTE 566 Ground Communications for Satellite Operations
Units: 3 Terms Offered: Sp Theory, practice, architecture, operations of ground satellite communications with satellites. Practical implementation of satellite communications system and reception and analysis of satellite transmitted signals. Prerequisite: ASTR 470 Registration Restriction: Open only to USC Viterbi School of Engineering students. Instruction Mode: Lecture, Lab Grading Option: Letter

ASTE 570 Liquid Rocket Propulsion
Units: 3 Terms Offered: Sp Liquid-propelled rocket propulsion systems. Capillary devices for gas-free liquid acquisition in zero gravity. Ground and in-orbit operations. Propellant life predictions and spacecraft end-of-life de-orbiting strategies. Prerequisite: ASTR 470 or ASTR 575 Instruction Mode: Lecture Grading Option: Letter

ASTE 571 Solid Rocket Propulsion
Units: 3 Terms Offered: Sp Fundamental concepts, implementation and applications of solid rocket propulsion. Propellants, performance, ballistics, structures and systems used for space launch vehicles, sounding rockets and rocket motors. Prerequisite: ASTR 470 or ASTR 575 Instruction Mode: Lecture Grading Option: Letter

ASTE 572 Advanced Spacecraft Propulsion
Units: 3 Terms Offered: Sp Nuclear, electric, sails, and solar-term propulsion systems. Overviews of nozzle, heat transfer, electromagnetics, rarefied gases, and plasma physics. Analysis of electrothermal, electrostatic and electromagnetic thrusters. Graduate standing in engineering or science. Prerequisite: ASTR 470 Instruction Mode: Lecture Grading Option: Letter

ASTE 574 Space Launch Vehicle Design
Units: 3 Terms Offered: Fa Fundamental, technologies, and design of space launch vehicles. Propulsion, trajectory analysis and optimization, static and dynamic structural loads, stability, control, and safety. Recommended Preparation: ASTR 470 or equivalent course work in spacecraft propulsion Instruction Mode: Lecture Grading Option: Letter

ASTE 575 Rocket and Spacecraft Propulsion
Units: 3 Terms Offered: Sp Space missions, rocket dynamics, and propulsion requirements. Thermodynamics and combustion; compressible gas dynamics in nozzles. Liquid- and solid-propellant rockets; launch systems. Advanced propulsion. Registration Restriction: Open only to graduate students Duplicates Credit in ASTR 470. Instruction Mode: Lecture Grading Option: Letter

ASTE 577 Entry and Landing Systems for Planetary Surface Exploration
Units: 3 Terms Offered: Sp Multi-disciplinary engineering theory, simulation techniques, and unique technologies for landing robotic and human space vehicles on the surface of planets and moons. Recommended Preparation: ASTR 520 or similar course in fundamentals of space systems. Registration Restriction: Open only to engineering students. Instruction Mode: Lecture Grading Option: Letter

ASTE 580 Orbital Mechanics I
Units: 3 Physical principles; two-body and central force motion; trajectory correction maneuvers; position and velocity in conic orbits; Lambert’s problem; celestial mechanics; orbital perturbations. Instruction Mode: Lecture Grading Option: Letter

ASTE 581 Orbital Mechanics II
Units: 3 Terms Offered: Fa Theory of perturbations of orbits; numerical methods in orbital mechanics; satellite dynamics; averaging methods; orbital perturbations. Instruction Mode: Lecture Grading Option: Letter

ASTE 583 Space Navigation: Principles and Practice
Units: 3 Terms Offered: Sp Statistical orbit determination: (weighted) least squares, batch and sequential (Kalman) processing, illustrative examples; online ephemeris determination: (weighted) least squares, batch and sequential (Kalman) processing, illustrative examples; global navigation satellite systems (GNSS). Mission analysis. Prerequisite: ASTR 580. Instruction Mode: Lecture Grading Option: Letter

ASTE 584 Spacecraft Power Systems
Units: 3 Terms Offered: Sp Introduction to solar arrays, batteries, nuclear power sources, mechanical energy storage. Application theory of operation, practical considerations. Subsystem topologies and performance. Design optimization techniques. Registration Restriction: Open only to graduate students. Instruction Mode: Lecture Grading Option: Letter

ASTE 585 Spacecraft Attitude Control
Units: 3 Terms Offered: SpSm Review of attitude dynamics, gravity gradient stabilization, attitude stabilization with a spin, attitude maneuvers, control using momentum exchange devices, momentum-biased stabilization, reaction thruster control. Prerequisites: ASTR 451 or EE 482; Recommended Preparation: a course in dynamics. Instruction Mode: Lecture Grading Option: Letter

ASTE 586 Spacecraft Attitude Dynamics
Units: 3 Dynamics of systems of particles and rigid bodies; spacecraft attitude systems; attitude maneuvers (spin, precession, nutation, etc.); attitude stabilization and attitude determination; simulation methods. Instruction Mode: Lecture Grading Option: Letter

ASTE 589 Solar System Navigation
Units: 3 Terms Offered: Fa Free-return trajectories for exploration of the moon, optimization and control of interplanetary trajectories, and mission design using the Interplanetary Superhighway. Prerequisite: ASTR 580 Recommended Preparation: Proficiency in use of MATLAB for exercises on standard desktop and laptop computers. Instruction Mode: Lecture Grading Option: Letter

ASTE 590 Directed Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Terms Offered: FaSpSm Research leading to the master’s degree. Maximum units which may be applied to the degree to be determined by the division. Instruction Mode: Lecture Grading Option: Credit/No Credit

ASTE 594a Master’s Thesis
Units: 2 Terms Offered: FaSpSm Credit on acceptance of thesis. Instruction Mode: Lecture Grading Option: In-progress & Credit/No Credit

ASTE 594b Master’s Thesis
Units: 0 Terms Offered: FaSpSm Credit on acceptance of thesis. Instruction Mode: Lecture Grading Option: In-progress & Credit/No Credit

ASTE 599 Special Topics
Units: 2, 3, 4 Max Units: 9.0 Course content to be selected each semester from current developments in astrodynamics, spacecraft technology, and related fields. Instruction Mode: Lecture Grading Option: Letter

ASTE 683 Advanced Spacecraft Navigation

ASTE 690 Directed Research
Units: 1, 2, 3, 4 Max Units: 8.0 Terms Offered: FaSpSm Laboratory studies of specific problems by candidates for the degree Engineer in Astronautical Engineering. Instruction Mode: Lecture Grading Option: Credit/No Credit

ASTE 694a Thesis
Units: 2 Terms Offered: FaSpSm Required for the degree Engineer in Astronautical Engineering. Credit on acceptance of thesis. Instruction Mode: Lecture Grading Option: In-progress & Credit/No Credit

ASTE 694b Thesis
Units: 2 Terms Offered: FaSpSm Required for the degree Engineer in Astronautical Engineering. Credit on acceptance of thesis. Instruction Mode: Lecture Grading Option: In-progress & Credit/No Credit
ASTE 694z Thesis
Units: 0 Terms Offered: FaSpSm Required for the degree Engineer in Astronautical Engineering. Credit on acceptance of thesis. Instruction Mode: Lecture Grading Option: In-progress & Credit/No Credit

ASTE 790 Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Terms Offered: FaSpSm Research leading to the doctorate. Maximum units which may be applied to the degree to be determined by the division. Instruction Mode: Lecture Grading Option: Credit/No Credit

ASTE 794a Doctoral Dissertation
Units: 2 Terms Offered: FaSpSm Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

ASTE 794b Doctoral Dissertation
Units: 2 Terms Offered: FaSpSm Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress & Credit/No Credit

ASTE 794c Doctoral Dissertation
Units: 2 Terms Offered: FaSpSm Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress & Credit/No Credit

ASTE 794d Doctoral Dissertation
Units: 2 Terms Offered: FaSpSm Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress & Credit/No Credit

ASTE 794z Doctoral Dissertation
Units: 0 Terms Offered: FaSpSm Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress & Credit/No Credit

Astronomy

ASTR 100Lgx The Universe
Units: 4 Terms Offered: FaSp Survey of the universe: planets, satellites, comets, stars, nebulae, galaxies. Practical component includes planetary observations and dark-sky field trip. Satisfies New General Education in Category E: Physical Sciences Satisfies Old General Education in Category E: Physical Sciences Satisfies New General Education in Category G: Physical Sciences

ASTR 390 Special Problems
Units: 1, 2, 3, 4 Supervised, individual studies. No more than one registration permitted. Enrollment by petition only. Instruction Mode: Lecture Grading Option: Letter

ASTR 400 The Solar System
Units: 4, 2 years Terms Offered: Fa Earth’s motions; planets and their satellites; comets; meteorites; interplanetary matter; elementary celestial mechanics. Prerequisite: MATH 226. Instruction Mode: Lecture Grading Option: Letter

ASTR 422 Galaxies and Large-Scale Structures in the Universe
Units: 4, 2 years Terms Offered: Sp Galaxies and clusters of galaxies: their content, structure, dynamics, distribution, and motions; the cosmic microwave background: theory and observation; elements of observational cosmology. Prerequisite: PHYS 153L or PHYS 163L Instruction Mode: Lecture Grading Option: Letter

ASTR 424 Cosmology
Units: 4 Terms Offered: Sp Concepts of space-time, general relativity applied to an homogeneous and expanding universe. Universe’s content and thermal history. Introduction to current observational tests of cosmology. Prerequisite: PHYS 153L or PHYS 163L Instruction Mode: Lecture Grading Option: Letter

ASTR 450 Stellar Astrophysics
Units: 4, 2 years Terms Offered: Fa Observation and theory of stellar atmospheres and stellar interiors. Theory of stellar evolution. Physical and astronomical significance of the end states of stellar evolution. Prerequisite: PHYS 153L or PHYS 163L Instruction Mode: Lecture Grading Option: Letter

ASTR 490x Directed Research
Units: 1, 2, 3, 4, 5, 6, 7, 8 Max Units: 12.0 Individual research and readings. Not available for graduate credit. Prerequisite: one upper-division course in astronomy and departmental approval. Instruction Mode: Lecture, Lab Grading Option: Letter

ASTR 499 Special Topics
Units: 1, 2, 3, 4, 5, 6, 7, 8 Max Units: 08 Special Topics in Astronomy. Instruction Mode: Lecture Grading Option: Letter

ASTR 540 Advanced Cosmology
Units: 4 Terms Offered: Fa Perturbations in the Hartle-Hartmann universe; fundamental concepts in cosmology. Prerequisite: PHYS 504, PHYS 508a, PHYS 508b, PHYS 510, PHYS 518 Instruction Mode: Lecture Grading Option: Letter

ASTR 540 Selected Topics in Astrophysics
Units: 4 Terms Offered: Sp Topics in astrophysics: observational techniques, data reduction, analysis, and interpretation of observational results. Prerequisite: ASTR 540 Instruction Mode: Lecture Grading Option: Letter

Business Entrepreneurship

BAEP 231 Launching Disruptive Ventures
Units: 4 Terms Offered: FaSpSm Fundamentals of entrepreneurship tracing new venture evolution, including recognition of disruptive opportunities, entrepreneurial financial analysis, and understanding the innovator's and investor's mindsets. Prerequisite: ACAD 181 or BUAD 201x. Registration Restriction: Not open to business and accounting majors. Duplicates Credit in BAEP 242, BAEP 450, BAEP 451, BUAD 301. Instruction Mode: Lecture Grading Option: Letter

BAEP 423 Management of Small Businesses
Units: 4 Terms Offered: FaSpSm Required for the degree Engineer in Astronautical Engineering. Credit on acceptance of thesis. Instruction Mode: Lecture Grading Option: In-progress & Credit/No Credit

BAEP 452 Feasibility Analysis
Units: 4 Terms Offered: FaSpSm Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress & Credit/No Credit

BAEP 453 Venture Management
Units: 4 Terms Offered: FaSpSm Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress & Credit/No Credit

BAEP 455 Founder's Dilemmas
Units: 4 Terms Offered: FaSpSm Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress & Credit/No Credit

BAEP 465 Digital Playbook for Entrepreneurs: Creating a Tech Startup
Units: 2 Terms Offered: FaSpSm Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress & Credit/No Credit

BAEP 466 Seminar in Entrepreneurship
Units: 2 Max Units: 4.0 Terms Offered: FaSpSm Perspectives into the art and science of entrepreneurship under the guidance of a master instructor. Specific topics vary. Instruction Mode: Lecture Grading Option: Letter

Restriction: Open only to sophomores, juniors, and seniors

entrepreneurial ventures. Instruction Mode: Lecture Grading Option: Letter

**BAEP 469 Growth Hacking: Scaling Startups**
Units: 2 Terms Offered: FaSp Accelerate the growth of an entrepreneurial business with applied analytics tools and methods. Instruction Mode: Lecture Grading Option: Letter

**BAEP 470 The Entrepreneurial Mindset — Taking the Leap**
Units: 2 Terms Offered: Sp A deeper insight into the entrepreneurial mind, how it approaches opportunities and challenges and gives leadership to an organization. Instruction Mode: Lecture Grading Option: Letter

**BAEP 471 Social Innovation Design Lab**
Units: 4 Terms Offered: Sp Introduction to design thinking as applied to innovation and entrepreneurship. Hands-on projects to create solutions to specific societal problems faced by underprivileged communities. Registration Restriction: Open only to sophomores, juniors and seniors. Instruction Mode: Lecture Grading Option: Letter

**BAEP 472 The Science of Peak Performance**
Units: 2 Terms Offered: Sp Ingrains expertise and application of the science of peak performance, broadens preparation for personal challenges, and builds business-centered critical thinking and applied analytical skills. Registration Restriction: Open only to sophomores, juniors and seniors Instruction Mode: Lecture Grading Option: Letter

**BAEP 473 Sales Mindset for Entrepreneurs**
Units: 2 Terms Offered: FaSp The sales planning decisions that entrepreneurs make, including how to accelerate startup revenue, what metrics drive success and how to build great sales teams. Instruction Mode: Lecture Grading Option: Letter

**BAEP 474 The Entrepreneur’s Guide to Intellectual Property**
Units: 2 Terms Offered: FaSp The fundamentals of intellectual property -- its value, its basic workings, and its role in entrepreneurship, business in general, science, the arts, and the professions. Instruction Mode: Lecture Grading Option: Letter

**BAEP 475 Entertainment Entrepreneurship**
Units: 2 Terms Offered: FaSp Explore the current entrepreneurial trends and opportunities in the entertainment industry and uncover the key success factors for entrepreneurs in this industry. Instruction Mode: Lecture Grading Option: Letter

**BAEP 477 Entrepreneurial Imagination: Past, Present and Future**
Units: 4 Terms Offered: FaSp A case-based study of entrepreneurs and entrepreneurial endeavors over time to understand how the past can inform the successful launch of new ventures. Instruction Mode: Lecture Grading Option: Letter

**BAEP 480 Entrepreneurial Family Business**
Units: 4 Terms Offered: FaSp Explores the dynamics of family and privately held businesses. Exploring generational and extended family issues, opportunities and obstacles faced in today’s environment. Registration Restriction: Not open to freshmen. Instruction Mode: Lecture Grading Option: Letter

**BAEP 491 Introduction to Social Entrepreneurship**
Units: 4 Terms Offered: FaSp Analysis of social enterprise models from micro-finance to job development. Analysis of basic issues relating the difference between socially responsible companies, for-profit, and non-profit-run enterprises. Instruction Mode: Lecture Grading Option: Letter

**BAEP 495 Practicum in Business Issues (Internship)**
Units: 1 Terms Offered: FaSp Sm Combined classroom discussion and field application of business theories and practices; part-time internship employment. Project to be jointly defined by student, employer and professor. Instruction Mode: Lecture Grading Option: Credit/No Credit

**BAEP 496 The Digital Startup Launchpad**
Units: 2 Terms Offered: FaSp Real-life challenge of imaging, prototyping, testing and iterating, building, testing, marketing, distributing and selling a digital product or service. Prerequisite: BAEP 452 and ITP 466 and ITP 476 Corequisite: ITP 496 Instruction Mode: Lecture Grading Option: Letter

**BAEP 497 Field Project in Entrepreneurship**
Units: 2 Max Units: 4.0 Terms Offered: FaSpSm Individual or team projects solving real problems for an enterprise. Situation analyses; research proposal composition; field research techniques; statistical analysis; oral and written presentations. Registration Restriction: Open only to juniors and seniors. Instruction Mode: Lecture Grading Option: Credit/No Credit

**BAEP 499 Special Topics**
Units: 2, 3, 4 Max Units: 8.0 Terms Offered: FaSp Current developments in the field of entrepreneurship: topics to be selected each semester. Instruction Mode: Lecture Grading Option: Letter

**BAEP 549 The Entrepreneurial Journey**
Units: 2 Terms Offered: FaSpSm An introduction to entrepreneurship with a focus on opportunity recognition and the entrepreneurial mindset. Development of knowledge and skills in launching new ventures. Registration Restriction: Online registration open only to BUSV and ENTR majors Duplicates Credit in BAEP 550, BAEP 551, GSBA 550a and GSBA 550b Instruction Mode: Lecture Grading Option: Letter

**BAEP 550 Entrepreneurship and Venture Management**
Units: 1.5 Terms Offered: FaSp Develop conceptual and practical knowledge in entrepreneurship and new venture management. Registration Restriction: Online registration limited to graduate business and accounting students Duplicates Credit in BAEP 549, BAEP 551, GSBA 550a and GSBA 550b Instruction Mode: Lecture Grading Option: Letter

**BAEP 551 Introduction to New Ventures**
Units: 3 Terms Offered: FaSp Study and development of analytical and conceptual skills in the management of new enterprises and new ventures within large organizations. Registration Restriction: Online registration limited to graduate business and accounting students Duplicates Credit in BAEP 549, BAEP 550, GSBA 550a and GSBA 550b Instruction Mode: Lecture Grading Option: Letter

**BAEP 552 Venture Feasibility**
Units: 3 Terms Offered: FaSpSm Assess the viability of and develop potential new business opportunities through the application of analytic frameworks and field research. Corequisite: BAEP 549 or BAEP 550 or BAEP 551 or GSBA 550b Registration Restriction: Online registration open only to graduate business and accounting majors Duplicates Credit in BAEP 556, BAEP 566 Instruction Mode: Lecture Grading Option: Letter

**BAEP 553 Cases in New Venture Management**
Units: 1.5, 3 Terms Offered: FaSpSm Cases and readings expose students to the challenges of developing long-range strategies for entrepreneurial ventures. Case work emphasizes developing new industries, growth through strategic alliances, and issues involved in the long-term strategic positioning of emerging companies. Registration Restriction: Online registration open to only graduate accounting and business students. Instruction Mode: Lecture Grading Option: Letter

**BAEP 554 Venture Initiation**
Units: 3 Terms Offered: Sp Learn to launch and scale a new business through entrepreneurial action and execution. Prerequisite: BAEP 552 or BAEP 556 or BAEP 566. Instruction Mode: Lecture Grading Option: Letter

**BAEP 555 Founder’s Dilemmas: Anticipate and Avoid Startup Pitfalls**
Units: 3 Terms Offered: Sp Delves into founders’ early decisions about when and whether to found, co-founders, hires, and investors that tend to get them into trouble down the road. Registration Restriction: Online registration open to only graduate accounting and business students. Instruction Mode: Lecture Grading Option: Letter

**BAEP 556 Technology Feasibility**
Units: 3 Terms Offered: FaSp Assess the viability of and develop potential technology business opportunities through the application of analytic frameworks and field research. Registration Restriction: Online registration open only to graduate business and accounting students Duplicates Credit in BAEP 552 and BAEP 566 Instruction Mode: Lecture Grading Option: Letter

**BAEP 557 Technology Commercialization**
Units: 3 Terms Offered: Sp Identification, evaluation and commercialization of new technologies. Emphasis will be placed on the legal, financial and marketing aspects of technology transfer and development. Registration Restriction: Online registration open to only graduate business and accounting students. Instruction Mode: Lecture Grading Option: Letter

**BAEP 558 The Entrepreneurial Advisor: Problem Solving for Early-Stage Companies**
Units: 1.5, 3 Terms Offered: FaSp Experiential course designed to develop
skills in framing and solving complex problems in young companies. Apply skills to real ventures participating in course projects. Registration Restriction: Online registration open to only graduate accounting and business students. Instruction Mode: Lecture Grading Option: Letter

BAEP 559 Investing in New Ventures Units: 3 Terms Offered: FaSp Focus on the entrepreneurial skill set applied to new venture opportunities. Taught from the business plan reader’s point of view; focus on selecting opportunities, structuring the relationship, adding value and realizing the value of that investment. Registration Restriction: Online registration open only to graduate business and accounting students. Instruction Mode: Lecture Grading Option: Letter

BAEP 560 Acquiring Your Own Business or Opportunity Units: 3 Terms Offered: Sp Issues faced by the entrepreneur who wishes to acquire an enterprise, appropriateness of an enterprise, understanding funding sources and valuation methods, developing a plan for due diligence, negotiating and consummating the transaction. The acquisition process, approaches to valuation, and the roles of the various parties in negotiating and consummating an acquisition of an existing business. Registration Restriction: Online registration open to only graduate accounting and business students. Instruction Mode: Lecture Grading Option: Letter

BAEP 561 Entrepreneurship in Innovative Industries: Life Sciences Units: 1.5 Terms Offered: Sp The challenges of new venture creation in the biotechnology, medical device, and healthcare areas; experience, evaluate, and analyze profits of current impact in the life sciences. Registration Restriction: Online registration open to only graduate accounting and business students. Instruction Mode: Lecture Grading Option: Letter

BAEP 562 Entrepreneurship in eCommerce Units: 1.5 Terms Offered: FaSp Introduction to building, funding, and running an entrepreneurial eCommerce venture. Registration Restriction: Online registration open to only graduate business students. Instruction Mode: Lecture Grading Option: Letter

BAEP 563 Corporate Entrepreneurship Units: 3 Terms Offered: Fa How established organizations build successful new businesses through corporate venturing and intrapreneurship. Learn to apply an entrepreneurial mindset and entrepreneurial frameworks within an established organization. Registration Restriction: Online registration open to only graduate accounting and business students. Instruction Mode: Lecture Grading Option: Letter

BAEP 564 Investing in Impact Ventures Units: 3 Terms Offered: Sp Exploring the field of social impact investing, learn how social entrepreneurs attract for-profit investments and how conscious investors are utilizing investments to achieve social impact. Registration Restriction: Online registration open only to graduate business and accounting majors. Instruction Mode: Lecture Grading Option: Letter

BAEP 565 Venture Lab Units: 3 Terms Offered: FaSpSm Interact with startups and venture capitalists to develop skills and processes to source deals, perform diligence, evaluate investments, draft investment memoranda and manage portfolio companies. Registration Restriction: Online registration open only to graduate accounting and business majors. Instruction Mode: Lecture Grading Option: Letter

BAEP 566 Cases in Feasibility Analysis for Social Ventures Units: 3 Terms Offered: Fa Deploy analytic frameworks and conduct fieldwork to evaluate the real-world potential of new business concepts with a specific focus on new social ventures. Recommended Preparation: BAEP 589 or BAEP 591 Registration Restriction: Online registration open only to graduate business and accounting majors. Duplicates Credit in BAEP 556. Instruction Mode: Lecture Grading Option: Letter

BAEP 567 Social Entrepreneurship: Design, Develop, and Deliver Units: 3 Terms Offered: Sp Develop the analytical, conceptual, and practical skills required to design, develop, and deliver a new social business concept and opportunity. Prerequisite: BAEP 566 Registration Restriction: Open only to master students in Social Entrepreneurship. Instruction Mode: Lecture Grading Option: Letter

BAEP 571 Social Innovation Design Units: 3 Terms Offered: Fa Use innovative problem-solving approaches to design radically affordable solutions to challenges faced by under-resourced communities. Engage in early-stage market and rapid prototyping. Registration Restriction: Open only to master students in Social Entrepreneurship. Instruction Mode: Lecture Grading Option: Letter

BAEP 575 Entrepreneurship in the Media and Entertainment Industry Units: 1.5 Terms Offered: FaSp Introduction to the ever-evolving field of media and entertainment with a focus on entrepreneurial opportunities within the industry. Registration Restriction: Online registration open to only graduate accounting and business students. Instruction Mode: Lecture Grading Option: Letter

BAEP 585 Seminar: The Entrepreneurial Mindset Units: 1.5 Terms Offered: FaSp Explore the art and science of entrepreneurship under the guidance of a master entrepreneur. Registration Restriction: Online registration open to only graduate accounting and business majors. Instruction Mode: Lecture Grading Option: Letter

BAEP 589 Social Entrepreneurship Units: 2 Terms Offered: Sm Lead and manage with entrepreneurial methodology for charities, non-government organizations, social oriented enterprises and not for profit organizations. Registration Restriction: Open only to MS in Social Entrepreneurship students. Duplicates Credit in BAEP 591
and written presentations. Registration Restriction: Open only to Master and Doctoral Students. Instruction Mode: Lecture Grading Option: Credit/No Credit

**BAEP 598 Special Topics**
Units: 1, 1.5, 2, 3 Max Units: 09 Terms Offered: Irregular Current developments in the field of entrepreneurship: topics to be selected each semester. Graded CR/NC. Registration Restriction: Online registration open to only graduate accounting and business students Instruction Mode: Lecture Grading Option: Credit/No Credit

**BAEP 599 Special Topics**
Units: 1.5, 2, 2.5, 3 Max Units: 09 Terms Offered: Irregular Current developments in the field of entrepreneurship: topics to be selected each semester. Registration Restriction: Online registration open to only graduate accounting and business students. Instruction Mode: Lecture Grading Option: Letter

**Biochemistry**

**BIOC 501 Recent Advances in Biochemistry**
Units: 2, 3, 4 Max Units: 16 Terms Offered: FaSp Sm Lectures on areas of intermediary metabolism and the chemistry of natural products. Prerequisite: BISC 435 and CHEM 431 Instruction Mode: Lecture Grading Option: Letter

**BIOC 502 Biochemistry Seminar**
Units: 1 Max Units: 12.0 Terms Offered: FaSp Formal presentations and discussion by students of material from research literature. Instruction Mode: Lecture Grading Option: Letter

**BIOC 511 Foundations for Molecular Medicine**
Units: 4 Terms Offered: Fa Structure, function and metabolism of nucleic acids, proteins, carbohydrates and lipids and related regulatory mechanisms including transcription factor and upstream signaling pathways initiated at the cell membrane. Instruction Mode: Lecture Grading Option: Letter

**BIOC 515 Logic and Design of Disease Mechanism Studies**
Units: 4 Experimental logic used to determine the mechanisms of disease development, identity and validate therapeutic targets, and design therapeutic approaches. Recommended Preparation: BIOC 511, BIOC 581 Instruction Mode: Lecture Grading Option: Letter

**BIOC 522 Applications of Physical Methods in Biochemistry**
Units: 2 Terms Offered: FaSp Applications of physical analytical methods commonly utilized in research in biochemistry and molecular biology. Concurrent Enrollment: CHEM 521. (Langen) Instruction Mode: Lecture Grading Option: Letter

**BIOC 555 Biochemical and Molecular Bases of Disease**
Units: 4 (Enroll in INTD 555)

**BIOC 557 Biochemistry of Anti-Cancer Agents**
Units: 2 Explore how the development of various classes of anti-cancer drugs came about, the rationales behind their design, what was discovered about their biochemical mechanisms of action and whether their clinical activities came up to the original expectations. Other aspects such as the origin of the concepts of combination chemotherapy and biochemical modulation will also be addressed. Instruction Mode: Lecture Grading Option: Letter

**BIOC 561 Molecular Biology**
Units: 4 Terms Offered: Fa (Enroll in INTD 561)

**BIOC 571 Biochemistry**
Units: 4 Terms Offered: Sp (Enroll in INTD 571)

**BIOC 573 Optimal Research Presentations**
Units: 1 Max Units: 12 Terms Offered: FaSp Lectures by peers; formal critique; prepare and present own research to faculty and peer audiences. Instruction Mode: Lecture Grading Option: Letter

**BIOC 575 Predictive and Prognostic Biomarkers in Cancer Treatment**
Units: 2 Exploration of how appropriate biomarkers can predict response to cancer therapy, tumor recurrence after surgery, rapid detection of tumor response and overall prognosis. Recommended Preparation: INTD 571 and a basic understanding of molecular biology. Instruction Mode: Lecture Grading Option: Letter

**BIOC 581 Toolbox for Biochemistry and Molecular Biology**
Units: 2, 4 Max Units: 04 Terms Offered: FaSp Explores the principles and applications of traditional and state-of-the-art methods in molecular biology, biochemistry and cell biology with intensive problem-solving exercises in class. Recommended Preparation: Fundamental knowledge of DNA, RNA and protein. Instruction Mode: Lecture Grading Option: Letter

**BIOC 582 Exploring the Path from Data to Publication**
Units: 2 Terms Offered: Fa Reviews best practices for research questions(s), experimental design, data analysis, manuscript review process and publication. Teaches hands-on analysis and oral/written presentation of various data types. Recommended Preparation: BIOC 581 Instruction Mode: Lecture Grading Option: Letter

**BIOC 590 Directed Research**
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Terms Offered: FaSpSm Research leading to the master of science degree. Maximum units which may be applied to the degree will be determined by the department. Graded CR/NC. Instruction Mode: Lecture Grading Option: Credit/No Credit

**BIOC 594a Master's Thesis**
Units: 2 Terms Offered: FaSpSm Credit on acceptance of thesis. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

**BIOC 594b Master's Thesis**
Units: 2 Terms Offered: FaSpSm Credit on acceptance of thesis. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

**BIOC 596 Internship for Curricular Practical Training**
Units: 1, 2, 3 Max Units: 03 Terms Offered: FaSpSm Part-time or full-time, practical work experience in the student's field of study. The internship must be located at an off-campus facility. Students are individually supervised by faculty. May not be taken until the student has completed at least one semester of enrollment in the graduate program with a cumulative 3.0 GPA. Registration Restriction: Open only to graduate students Instruction Mode: Lecture Grading Option: Credit/No Credit

**BIOC 599 Special Topics**
Units: 2, 3, 4 Max Units: 8.0 Instruction Mode: Lecture Grading Option: Letter

**BIOC 790 Research**
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Terms Offered: FaSpSm Research leading to the doctorate. Maximum units which may be applied to the degree be determined by the department. Instruction Mode: Lecture Grading Option: Credit/No Credit

**BIOC 794a Doctoral Dissertation**
Units: 2 Terms Offered: FaSpSm Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

**BIOC 794b Doctoral Dissertation**
Units: 2 Terms Offered: FaSpSm Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

**BIOC 794c Doctoral Dissertation**
Units: 0 Terms Offered: FaSpSm Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

**BIOC 794z Doctoral Dissertation**
Units: 2 Terms Offered: FaSpSm Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

**Biological Sciences**

**BISC 101Lgx Cellular and Molecular Biology**
Units: 4 Terms Offered: FaSp Cellular and molecular biology with examples related to human biology and diseases. Fundamental life processes examined at the genetic, cellular and molecular levels. Satisfies New General Education in Category D: Life Sciences Satisfies Old General Education in Category III: Scientific Inquiry Credit Restriction: Not for major credit Instruction Mode: Lecture, Lab Required Grading Option: Letter

**BISC 102Lgx Humans and Their Environment**
Units: 4 Terms Offered: FaSp An examination of the physical and biological laws that influence agriculture, pollution, population dynamics (including humans), climate, biodiversity and ecosystem structure and function. Satisfies New General Education in Category D: Life Sciences Satisfies Old General Education in Category IV: Science and Its Significance Instruction Mode: Lecture, Lab Required Grading Option: Letter
BISC 103Lg General Biology for the Environment and Life  
Units: 4  
Study of common skills in biology, including basics of evolution, systematics, ecology, genetics, biochemistry and molecular biology, physiology, and anatomy. Satisfies New General Education in Category D: Life Sciences Instruction Mode: Lecture, Lab Required Grading Option: Letter

BISC 104Lg How the Body Works  
Units: 4  
Topics Offered: Fa Structure and function of the human body, including the role of organ systems, tissues, and cells in normal function. Malfunctions relating to disease abuse and lifestyle. Satisfies New General Education in Category D: Life Sciences Satisfies Old General Education in Category III: Scientific Inquiry Instruction Mode: Lecture, Lab Required Grading Option: Letter

BISC 108L Special Laboratory I  
Units: 1  
Laboratory component for BISC 120 for entering freshmen or transfer students with advanced placement or equivalent lecture credit from another institution. Instruction Mode: Lecture, Lab Required Grading Option: Letter

BISC 109L Special Laboratory II  
Units: 1  
Laboratory component for BISC 220 for entering freshmen or transfer students with advanced placement or equivalent lecture credit from another institution. Instruction Mode: Lecture, Lab Required Grading Option: Letter

BISC 110g Good Genes, Bad Genes  
Units: 4  
Topics Offered: Sp Introduction to the scientific method; basic instruction in molecular biology with emphasis on how biological research advancement has impacted medicine, commerce and society in general. Recommended Preparation: High school biology Satisfies New General Education in Category D: Life Sciences Instruction Mode: Lecture, Discussion Grading Option: Letter

BISC 112Lg Data, Denial or Doom?: Talking about Climate Change  
Units: 4  
Topics Offered: Sp Interdisciplinary approach to understanding the effects of climate change on extreme weather, biodiversity and human societies; challenges with telling climate histories and predicting climate futures, Satisfies New General Education in Category D: Life Sciences Credit Restriction: Not for Major Credit Instruction Mode: Lecture, Lab Required Grading Option: Letter Crosslisted as ENGL 112

BISC 115Lg The Biology of Food  
Units: 4  
Topics Offered: FaSp Explanation of molecular biology, biochemistry, microbiology, nutrition and the history of biology through the study of food, focusing on food's relationship to the biological world. Satisfies New General Education in Category D: Life Sciences Credit Restriction: Not for Major Credit Instruction Mode: Lecture, Lab Required Grading Option: Letter

BISC 120Lg General Biology: Organismal Biology and Evolution  
Units: 4  
Topics Offered: Fa In-depth survey of key topics related to advances in our knowledge of the diversity of life and evolution; origin of life; eukaryotes/prokaryotes; ecology, Satisfies New General Education in Category D: Life Sciences Satisfies Old General Education in Category III: Scientific Inquiry Duplicates Credit in BISC 112L, BISC 113L, and BISC 121L Instruction Mode: Lecture, Lab Required Grading Option: Letter

BISC 121Lg Advanced General Biology: Organismal Biology and Evolution  
Units: 4  
Topics Offered: Fa Equivalent to BISC 120, but taught at a higher level for exceptionally well-prepared students. Admission to the course by departmental approval only. Corequisite: CHEM 115aLg. Satisfies New General Education in Category D: Life Sciences Satisfies Old General Education in Category III: Scientific Inquiry Duplicates Credit in BISC 112L, BISC 113L, and BISC 120L Instruction Mode: Lecture, Lab Required Grading Option: Letter

BISC 140g Our Blue Planet in a Changing Climate  
Units: 4  
Topics Offered: Sp Introduction to biological oceanography and marine ecosystems. Impact of climate changes on marine ecosystems. Analysis of oceangoing studies being discussed by mainstream media. Satisfies New General Education in Category D: Life Sciences Instruction Mode: Lecture, Discussion Grading Option: Letter

BISC 150Lgx The Nature of Human Health and Disease  
Units: 4  
Topics Offered: FaSp The human organism; the nature of inherited and acquired diseases; the biological and societal basis for the AIDS epidemic; therapy, drug design and the future. Satisfies New General Education in Category D: Life Sciences Satisfies Old General Education in Category IV: Science and Its Significance Instruction Mode: Lecture, Lab Required Grading Option: Letter

BISC 180Lg Evolution  
Units: 4  
Topics Offered: Sp Changes in the physical and biological universe over time; origins of life, dinosaurs, human evolution. Implications of evolutionary mechanisms and mass extinctions for human survival. Satisfies New General Education in Category D: Life Sciences Satisfies Old General Education in Category IV: Science and Its Significance Credit Restriction: Not available for credit in any major. Instruction Mode: Lecture, Lab Required Grading Option: Letter

BISC 193 Introduction to Research I  
Units: 1  
Topics Offered: Fa A series of lectures and discussions at which faculty of the department introduce their research activities to students entering biology and related majors. Recommended Preparation: At least one introductory biology course or equivalent AP credit in biology Instruction Mode: Lecture Grading Option: Credit/No Credit

BISC 194 Introduction to Research II  
Units: 1  
Topics Offered: Sp A series of lectures and discussions at which faculty of the department introduce their research activities to students entering biology and related majors. Recommended Preparation: At least one introductory biology course or equivalent AP credit in biology Instruction Mode: Lecture Grading Option: Credit/No Credit

BISC 199 Neuroscience Colloquium  
Units: 1  
Topics Offered: Sp Introduction to research activities conducted by Neuroscience faculty at USC. Instruction Mode: Lecture Grading Option: Credit/No Credit Crosslisted as NEUR 199

BISC 220Lg General Biology: Cell Biology and Physiology  
Units: 4  
Topics Offered: Sp In-depth survey of key topics related to advances in our knowledge of cellular biology and physiology; cell composition/metabolism; gene action; organism structure and function. Recommended Preparation: high school chemistry; BISC 120Lg or BISC 121Lg. Satisfies New General Education in Category D: Life Sciences Satisfies Old General Education in Category IV: Science and Its Significance Credit Restriction: Not available for major credit Instruction Mode: Lecture, Lab Required Grading Option: Letter

BISC 230Lgx The Biology of the Brain  
Units: 4  
Topics Offered: FaSpSm Exploration of the unique properties of brain cells that allow complex perceptions and behaviors; examination of structure and activity of brain cells that underlie function. Satisfies New General Education in Category D: Life Sciences Satisfies Old General Education in Category IV: Science and Its Significance Credit Restriction: Not available for major credit Instruction Mode: Lecture, Lab Required Grading Option: Letter

BISC 235 The Biology of Sex  
Units: 2  
Topics Offered: Sp Exploration of sexual reproduction in nature through the lens of evolution and physiology; biological cost/benefits of sex, sex determination, sexual selection, sexual dimorphism. Instruction Mode: Lecture Grading Option: Letter

BISC 290 Introduction to Biological Research  
Units: 2, 4 Max Units: 0  
Prerequisite: FaSpSm Experience in basic techniques through supervised research in the research laboratory of a departmental faculty member. Corequisite: (BISC 120Lg or BISC 121Lg) and (BISC 220Lg or BISC 221Lg) and (CHEM 105bL or CHEM 108L or CHEM 115bL) Instruction Mode: Lecture Grading Option: Letter

BISC 300L Introduction to Microbiology  
Units: 4  
Topics Offered: Sp Comparative approach to bacteria, Archaea and viruses; their structure, life cycles, geochemical activity, ecology and nutrition. Fundamentals of metabolism and microbial genetics. Corequisite: (BISC 103 or BISC 120 or BISC 121 or BISC 220 or BISC 221) and (BISC 312 or BISC 320) Instruction Mode: Lecture, Lab Required Grading Option: Letter
BISC 305g Statistics for Biological Sciences
Units: 4 Terms Offered: Fa Statistical methods in biological science and medicine, including populations and samples, random sampling, confidence intervals, paired samples and regression. Satisfies New General Education in Category F: Quantitative Reasoning. Instruction Mode: Lecture, Discussion Grading Option: Letter

BISC 307L General Physiology
Units: 4 Terms Offered: Sp Physiological functions of the circulatory, digestive, endocrine, integumentary, musculoskeletal, nervous, respiratory, and urogenital systems of animals. Prerequisite: BISC 220Lg or BISC 221Lg. Instruction Mode: Lecture, Lab Required Grading Option: Letter

BISC 310 Statistical Thinking for Quantitative Biology
Units: 4 Terms Offered: Sp (Enroll in QBIO 310)

BISC 312x Molecular Biochemistry
Units: 4 Terms Offered: FaSp Structure and function of biological macromolecules; major metabolic pathways including glycolysis and photosynthesis. DNA replication, repair, and recombination; gene expression, regulation and epigenetics. Prerequisite: BISC 220 or BISC 221 Credit Restriction: Not for Major Credit Instruction Mode: Lecture Grading Option: Letter

BISC 313L Evolution and Population Genetics
Units: 4 Terms Offered: Sp History of evolutionary thought; molecular basis for evolution; dynamics of genes in populations; speciation and macro evolution; patterns of evolution. Prerequisite: BISC 220Lg or BISC 221Lg or BISC 121Lg; BISC 220Lg or BISC 221Lg or BISC 121Lg; BISC 305Lg; BISC 325, and familiarity with algebra, basic chemistry, and basic physics. Instruction Mode: Lecture, Lab Required Grading Option: Letter

BISC 314L Cell Culture
Units: 4 Terms Offered: Fa Modern biological research laboratory cell culture techniques with an emphasis on mammalian systems; topics include in-vitro cell growth requirements, cryopreservation and transfected DNA expression. Prerequisite: BISC 120 or BISC 121 or BISC 220 or BISC 221 Instruction Mode: Lecture, Lab Required Grading Option: Letter

BISC 315L Introduction to Ecology
Units: 4 Terms Offered: Fa Organism-environment interactions; dynamics of populations, communities, and ecosystems; evolutionary forces. Prerequisite: BISC 100Lg or BISC 120Lg or BISC 121Lg Instruction Mode: Lecture, Lab Required Grading Option: Letter

BISC 320Lg Molecular Biology
Units: 4 Terms Offered: Fa Structure and synthesis of nucleic acids and proteins; molecular biology of prokaryotes and eukaryotes; principles of genetics and cell biology. Prerequisite: CHEM 105L or CHEM 108L or CHEM 115L Satisfies New General Education in Category D: Life Sciences Instruction Mode: Lecture, Lab Required Grading Option: Letter

BISC 321 Multidisciplinary Seminar: Science, Technology and Society
Units: 2 Terms Offered: Fa Builds upon a basic science background to provide students with an awareness of cutting edge scientific research, its technological applications and its societal ramifications. Prerequisite: BISC 120Lg or BISC 121Lg or BISC 220Lg or BISC 221Lg and (CHEM 105aLg or CHEM 107Lg or CHEM 115aLg) and (PHYS 135aLg or PHYS 151Lg) Duplicates Credit in former MDA 321 Instruction Mode: Lecture Grading Option: Letter

BISC 325 Genetics
Units: 4 Terms Offered: Fa Transmission genetics and genotypetype/phenotype; mapping methods; complex traits; genetics of human disease and population genetics. Prerequisite: BISC 120Lg or BISC 121Lg and (BISC 220Lg or BISC 221Lg) Instruction Mode: Lecture Grading Option: Letter

BISC 326L Urban Conservation Biology
Units: 4 Terms Offered: Fa Introduction to urban conservation biology, focusing on Los Angeles; emphasis on biological aspects of urban conservation, biodiversity and extinction, population restoration, conservation planning and actions. Prerequisite: BISC 120 or BISC 121 Instruction Mode: Lecture, Lab Required Grading Option: Letter

BISC 330L Biochemistry
Units: 4 Terms Offered: FaSp Basic biochemical principles; classes of molecules - structure and function; cellular energetics. Prerequisite: CHEM 322aL or CHEM 325aL Duplicates Credit in former BISC 316 Instruction Mode: Lecture, Lab Required Grading Option: Letter Crosslisted as CHEM 330

BISC 335 Science, Health and the Environment
Units: 4 Terms Offered: Sp (Enroll in ENST 335)

BISC 352 Conservation Biology
Units: 4 Terms Offered: Sp Principles of conservation science in marine and terrestrial ecosystems with emphasis on protecting biological diversity and balancing the needs of nature with those of humans. Prerequisite: BISC 103, BISC 120 or BISC 121, or AP Biology credit. Instruction Mode: Lecture, Lab Grading Option: Letter Crosslisted as ENST-352

BISC 363L Mammalogy
Units: 4 Terms Offered: FaSp Introduction to the morphology, classification, distribution and physiology of mammals; study of major mammalian groups worldwide and identification and field study of local species. Instruction Mode: Lecture, Lab Required Grading Option: Letter

BISC 365 Phylogenetics and Evolution
Units: 2 Terms Offered: FaSp Underlying biological philosophies of systematics and phylogenetic algorithms used to infer phylogenetic relationships between organisms. Interpretation and production of cladograms and phylogenetic trees. Prerequisite: BISC 120Lg or HBIO 200Lg Instruction Mode: Lecture Grading Option: Letter

BISC 369L Ecology and the Natural History of California
Units: 4 Terms Offered: Sp Marine, freshwater, and terrestrial communities of California. Life histories, morphology, special evolutionary adaptations. Relationships between organisms and their biophysical-chemical environment. Offered on Catalina. Emphasis on field biology. Prerequisite: BISC 120Lg or BISC 121Lg. Instruction Mode: Lecture, Lab Required Grading Option: Letter

BISC 371L Molecular Approaches to the Diversity of Life
Units: 4 Patterns of evolutionary change investigating the molecular basis of heredity utilizing DNA data. History, principles and application of molecular systematics, and genetic variation. Taught on Catalina Island. Prerequisite: BISC 120Lg or BISC 121Lg; BISC 220Lg or BISC 221Lg; Recommended Preparation: BISC 320Lg. Instruction Mode: Lecture, Lab Required Grading Option: Letter

BISC 372 Cell Biology
Units: 4 Terms Offered: Sp Introduction to the experiments, theories and knowledge of modern cell biology; analysis of cutting-edge research papers; focused on organelles, signaling, cytoskeleton, the cell cycle. Prerequisite: BISC 220 or BISC 221 and MATH 125 Instruction Mode: Lecture, Discussion Grading Option: Letter

BISC 379L Our Future Changing Ocean
Units: 4 Terms Offered: Sm Human-induced oceanic global change, including fisheries collapse, acidification and pollution; management and conservation strategies to prevent and mitigate damage to the ocean environment. Recommended Preparation: An introductory course in biology, earth sciences, or environmental studies, and math Instruction Mode: Lecture, Lab Required Grading Option: Letter

BISC 390 Special Problems
Units: 1, 2, 3, 4 Supervised, individual studies. No more than one registration permitted. Enrollment by petition only. Instruction Mode: Lecture Grading Option: Letter

BISC 401 Introduction to Computational Analysis of Biological Data
Units: 4 Terms Offered: FaSp (Enroll in QBIO 401)

BISC 403 Advanced Molecular Biology
Units: 4 Terms Offered: Fa Molecular mechanisms and control of DNA replication, DNA repair, recombination, gene expression, cell growth, and development in prokaryotic and eukaryotic organisms, from bacteria to humans. Prerequisite: BISC 320 Recommended Preparation: BISC 313 or BISC 325. Instruction Mode: Lecture Grading Option: Letter

BISC 405L General Embryology
Units: 4 Terms Offered: FaVertebrate and human development; cellular differentiation; germ cell development and growth; hormonal regulation of reproductive cycles; cleavage through neurulation and subsequent development of primary organs. Prerequisite: BISC 120Lg or BISC 121Lg; BISC 220Lg or BISC 221Lg; Recommended Preparation: two from BISC 313, BISC 320Lg, BISC 325 and BISC 330L. Instruction Mode: Lecture, Lab Required Grading Option: Letter
BISC 406L Biotechnology
Units: 4 Terms Offered: Fa Techniques in molecular biology and biochemistry applied to prokaryotic and eukaryotic model systems; applications of recombinant DNA and genomic technology. Prerequisite: BISC 320Lg; Recommended Preparation: BISC 313 or BISC 325. Instruction Mode: Lecture, Lab Required Grading Option: Letter

BISC 407 Cellular and Molecular Neuroscience
Units: 4 Terms Offered: FaSp An examination of individual nerve cell development, target location, establishment of functional synapses; how dysfunction in these processes contributes to neurological and neuropsychiatric diseases. Prerequisite: BISC 421 Instruction Mode: Lecture, Discussion Grading Option: Letter Crosslisted as NEUR 407

BISC 408 Systems Neuroscience: From Synapses to Perception
Units: 4 Terms Offered: Sp Sensory systems to illustrate basic concepts regarding the functional organization of the brain, from the microscopic arrangement of neural circuits to global processes such as perception. Prerequisite: BISC 421. Instruction Mode: Lecture, Discussion Grading Option: Letter Crosslisted as NEUR-408

BISC 410 Applications of Molecular Biology to Medicine
Units: 4 Terms Offered: Sp Advances and trends in the understanding, diagnosis and treatment of human diseases. Prerequisite: BISC 312x or BISC 330L or CHEM 350g. Registration Restriction: Open only to seniors or other exceptionally well-prepared students with instructor permission. Instruction Mode: Lecture Grading Option: Letter

BISC 411 Advanced Cell Biology
Units: 4 Terms Offered: FaSpSm The synthesis, transport and assembly of the complex structures that mediate eukaryotic cellular function. Electrical and biochemical mechanisms underlying intercellular communication. Prerequisite: BISC 220Lg or BISC 221Lg. BISC 320Lg. Instruction Mode: Lecture Grading Option: Letter

BISC 412 Oceans, Climate, and the Environment
Units: 4 Terms Offered: FaSp (Enroll in GEOL 412)

BISC 414 Biology of Cancer
Units: 4 Terms Offered: Sp Focus on the advances in molecular biology of cancer, from fundamental molecular signaling pathways to DNA repair to stem cell biology, through primary research literature reviews. Prerequisite: BISC 320Lg Recommended Preparation: BISC 325 Instruction Mode: Lecture Grading Option: Letter

BISC 419L Microbiology for a Sustainable Future
Units: 4 Terms Offered: Fa Qualitative and quantitative appraisal of microbial activities related to sustainable human communities and climate; microbial biogeochemistry; effects of microorganisms on their surroundings; advanced research training. Recommended Preparation: BISC 300L Instruction Mode: Lecture, Lab Required Grading Option: Letter

BISC 421 Neurobiology
Units: 4 Terms Offered: Fa Structure, function, and development of nervous systems; neural integration and mechanisms of behavior; organization and operation of brains. Prerequisite: BISC 220Lg or BISC 221Lg Instruction Mode: Lecture, Discussion Grading Option: Letter Crosslisted as NEUR 421

BISC 422L Neurobiology Laboratory
Units: 2 Terms Offered: Sp Experimentation on excitable cells, synapses, and neural circuits; intracellular and extracellular techniques for recording, stimulation, and identification of nerve and muscle cells. Corequisite: BISC 421. Instruction Mode: Lecture, Lab Required Grading Option: Letter

BISC 423 Epilepsy to Ecstasy: Biological Basis of Neurological Disorders
Units: 4 Terms Offered: Sp Examination of various neurological disorders originating from developmental signaling and/or anatomical abnormalities. Prerequisite: BISC 421 Instruction Mode: Lecture Grading Option: Letter Crosslisted as NEUR 423

BISC 424 Brain Architecture
Units: 4 Terms Offered: Sp How the parts of the brain are interconnected to form a complex biological computer, from historical, evolutionary and developmental perspectives. Instruction Mode: Lecture Grading Option: Letter Crosslisted as NEUR 424

BISC 425 Genetics through the Scientific Literature
Units: 4 Terms Offered: Sp Literature-based seminar in current and classical topics in genetics. Recommended Preparation: BISC 325 Instruction Mode: Lecture Grading Option: Letter

BISC 426 Principles of Neural Development
Units: 4 Terms Offered: Sp Basic phenomena and principles of neural development, their relation to functional development of neural circuits, behavior, and disease. General concepts and experimental approaches are emphasized. Prerequisite: BISC 421. Instruction Mode: Lecture Grading Option: Letter Crosslisted as NEUR-426

BISC 427 The Global Environment
Units: 4 Terms Offered: FaSpSm Earth's development as a habitable planet, from origin to human impacts on global biogeochemical cycles in the ocean, land, atmosphere. Discussion of environmental alternatives. Prerequisite: (BISC 103Lx or BISC 120Lg or BISC 121Lg) and (CHEM 103Lx or CHEM 105bL or CHEM 108L or CHEM 115bL). Registration Restriction: Open only to Biological Sciences, Environmental Studies, and Geological Sciences majors. Instruction Mode: Lecture Grading Option: Letter Crosslisted as ENST 427, GEOL 427

BISC 428 The Biology of Health from a Global Perspective
Units: 4 Max Units: 08 Terms Offered: Fa Prevention and surveillance of infectious and chronic diseases from a global public health and systems perspective. Instruction Mode: Lecture Grading Option: Letter

BISC 429 Cancer Immunology
Units: 4 Terms Offered: Sp In-depth study of the role of the immune system in oncogenesis. Discussion of cellular transformation, immune surveillance, immune-based therapies, and new approaches in cancer treatment. Prerequisite: BISC 220Lg or BISC 221Lg Recommended Preparation: Familiarity with Molecular Biology, Genetics, Principles of Immunology Instruction Mode: Lecture Grading Option: Letter

BISC 431L Aquatic Microbiology
Units: 4 Terms Offered: FaSpSm Introduction to the habitat, phylogenetic, physiological and metabolic diversity of microbial life in aquatic environments. Prerequisite: BISC 220Lg or BISC 221Lg Duplicates Credit in BISC 419L Instruction Mode: Lecture, Lab Required Grading Option: Letter

BISC 434 Introduction to Genome Science
Units: 4 Terms Offered: Sp The sequence, function and evolution of genomes; study of the molecular basis of phenotypes and the relationship between genomics and synthetic biology. Recommended Preparation: BISC 325 Instruction Mode: Lecture Grading Option: Letter

BISC 435 Advanced Biochemistry
Units: 4 Terms Offered: Sp Macro molecular structure and function; enzymology; metabolic regulation. Prerequisite: BISC 330L Instruction Mode: Lecture Grading Option: Letter

BISC 437L Comparative Physiology of Animals
Units: 4 Terms Offered: Sp Control of the internal environment of animals in relation to their external environment. Thermal regulation, osmoregulation, excretion, and ion balance. Offered on Catalina. Prerequisite: BISC 120 or BISC 121; BISC 220 or BISC 221; Recommended Preparation: two from BISC 315, BISC 320Lg, BISC 325 and BISC 330L. Instruction Mode: Lecture, Lab Required Grading Option: Letter

BISC 438 Nutritional Biochemistry
Units: 4 Terms Offered: FaSp Metabolism of carbohydrates, proteins, fats. Biochemical basis of nutrition's impact on metabolic functions, including vitamins, minerals and biologically active non-nutrients; medical aspects of nutrition. Prerequisite: BISC 330L Instruction Mode: Lecture Grading Option: Letter

BISC 440 Biodemography of Aging
Units: 4 (Enroll in GER0 440)

BISC 444 Practical Analysis of Biological Data in R
Units: 2 Terms Offered: FaSp Instruction in the open-source statistical program environment R to analyze biological data; manipulation of large datasets and customization of statistical tests using simulations. Instruction Mode: Lecture Grading Option: Letter

BISC 445L Fundamentals of Vertebrate Biology
Units: 4 Terms Offered: Sp Evolution and comparative anatomy of vertebrates. Prerequisite: BISC 120 or BISC 121 Recommended Preparation: two from
BISC 313, BISC 320, BISC 325 and BISC 330. Instruction Mode: Lecture, Lab Required Grading Option: Letter

BISC 447L Island Biogeography and Field Ecology
Units: 4 Terms Offered: Sp Biogeography, ecology, climate, flora, and fauna of terrestrial and marine environments of Catalina and the Channel Islands including laboratory and field techniques of ecology. Taught on Catalina Island. Prerequisite: BISC 120Lg or BISC 121Lg. Instruction Mode: Lecture, Lab Required Grading Option: Letter

BISC 450L Principles of Immunology
Units: 4 Terms Offered: Fa Immune processes, humoral and cellular; immunoglobulins; antibody formation; antigen-antibody interactions; immune dyscrasias; transplantation and tumor immunology; basic hematolgy and immuno-hematology. Prerequisite: BISC 220Lg or BISC 221Lg. Instruction Mode: Lecture, Lab Required Grading Option: Letter

BISC 455L Molecular Approaches to Microbial Diversity — Catalina Semester
Units: 4 Terms Offered: Fa Overview and practical application of genetic and immunological techniques for examining diversity and community structure of natural microbial assemblages in aquatic ecosystems. Prerequisite: BISC 320Lg; Corequisite: BISC 431L. Instruction Mode: Lecture, Lab Required Grading Option: Letter

BISC 456L Conservation Genetics
Units: 4 Terms Offered: Sp Biological principles underlying conservation including ecology, evolution, genetics and biogeography. Covers both marine and terrestrial environment, with special emphasis on island biology. Catalina semester only. Prerequisite: BISC 120Lg or BISC 121Lg; BISC 220Lg or BISC 221Lg; Recommended Preparation: BISC 320Lg; BISC 313 or BISC 325. Duplicates Credit in BISC 320Lg or BISC 325. Instruction Mode: Lecture, Lab Required Grading Option: Letter Crosslisted as ENST-456

BISC 457L Methods in Marine Biology and Biological Oceanography
Units: 4 Terms Offered: Sp Introduction to standard methods used in oceanography and marine biology through a combination of lectures, laboratory exercises and field experiences. Prerequisite: BISC 120Lg or BISC 121Lg. Instruction Mode: Lecture, Lab Required Grading Option: Letter

BISC 460 Seminar in Marine and Environmental Biology
Units: 2 Max Units: 4.0 Terms Offered: FaSp Topical seminar in marine and environmental biology. Instruction Mode: Lecture Grading Option: Letter

BISC 461 Seminar in Molecular and Computational Biology
Units: 2 Terms Offered: FaSpSm Topical seminar in molecular and computational biology. Instruction Mode: Lecture Grading Option: Letter Crosslisted as GERO-461

BISC 462 Seminar in Neurobiology
Units: 2 Max Units: 04 Terms Offered: FaSp Topical seminar in neurobiology. Registration Restriction: Open only to juniors, seniors, master and doctoral students Instruction Mode: Lecture Grading Option: Letter Crosslisted as NEUR-462

BISC 469L Marine Biology
Units: 4 Terms Offered: FaSp Oceanography and marine biology, sampling techniques, evolutionary adaptations, morphology, systematics. Prerequisite: BISC 103Lg or BISC 120Lg or BISC 121Lg Recommended Preparation: BISC 473L. Instruction Mode: Lecture, Lab Required Grading Option: Letter

BISC 473L Biological Oceanography
Units: 4 Terms Offered: Fa Biological, physical, chemical dynamics and analysis of the ocean; primary production of phytoplankton, secondary production by zooplankton, bacterial remineralization; physiology, ecology of fishes, marine mammals. Prerequisite: BISC 103 or BISC 120 or BISC 121Lg Registration Restriction: Junior, Senior, or with permission from the instructor Instruction Mode: Lecture, Lab Grading Option: Letter

BISC 474L Ecosystem Function and Earth Systems
Units: 4 Terms Offered: Fa General principles of ecosystem function, energy flow and materials cycling in marine systems at various scales and the importance of microbial processes in these systems. Taught on Catalina Island. Prerequisite: BISC 120Lg or BISC 121Lg. Instruction Mode: Lecture, Lab Required Grading Option: Letter Crosslisted as GEOL-474

BISC 479L Computational Genome Analysis Laboratory
Units: 4 Terms Offered: Sp (Enroll in QBIO 479L)

BISC 480L Developmental Biology
Units: 4 Terms Offered: FaSp Basic mechanisms of animal development are considered at different levels of analysis. Emphasis is on molecular, genetic and cellular processes underlying vertebrate and invertebrate development. General concepts and evolutionary mechanisms are emphasized. Prerequisite: BISC 220Lg or BISC 221Lg Instruction Mode: Lecture, Lab Required Grading Option: Letter

BISC 482 Systems Biology: Modeling the Dynamics of Life
Units: 4 Terms Offered: Sp (Enroll in QBIO 482)

BISC 483 Geobiology and Astrobiology
Units: 4 Terms Offered: Sp Relationships between microbiota and the earth environment including the hydrosphere, lithosphere and atmosphere, with consideration of the potential for life on other planets. Prerequisite: (BISC 120Lg or BISC 121Lg) and (CHEM 105BL or CHEM 108L) Instruction Mode: Lecture Grading Option: Letter Crosslisted as GEOL 483

BISC 485 Advanced Seminar in Bacterial Survival and Evolution
Units: 4 Terms Offered: FaSpTopical seminar in current topics in microbial evolution and adaptation. Prerequisite: (BISC 120Lg or BISC 121Lg) and (BISC 220Lg or BISC 221Lg) and (BISC 312x or BISC 320Lg or CHEM 350g) and (CHEM 322Lg or CHEM 325aL) Instruction Mode: Lecture Grading Option: Letter

BISC 486 Regenerative Medicine: Principles, Paradigms and Practice
Units: 4 Terms Offered: FaSp Theory and principles of modern approaches to microcopy and spectroscopy. Hands-on experience with advanced imaging systems, focusing on problem-based learning to solve biological problems. Recommended Preparation: BISC 220Lg, BISC 330L, PHYS 135aL, PHYS 135bL, MATH 125g Instruction Mode: Lecture Grading Option: Letter

BISC 488 Microscopy and Spectroscopy of Biological Systems
Units: 2 Terms Offered: FaSp Theory and principles of modern approaches to microcopy and spectroscopy. Hands-on experience with advanced imaging systems, focusing on problem-based learning to solve biological problems. Recommended Preparation: BISC 220Lg, BISC 330L, PHYS 135aL, PHYS 135bL, MATH 125g Instruction Mode: Lecture Grading Option: Letter

BISC 490x Directed Research
Units: 1, 2, 3, 4, 5, 6, 7, 8 Max Units: 12.0 Terms Offered: FaSpSm Individual research and readings. Instruction Mode: Lecture Grading Option: Letter

BISC 491L Practical Aquaculture
Units: 4 Terms Offered: Sp Directed research focused on sustainable marine aquaculture; in particular, research and development projects leveraged by a partnership between academic, non-profit and commercial organizations. Prerequisite: BISC 103 or BISC 120 or BISC 121 Registration Restriction: Open only to juniors, seniors, progress master's and master's students Instruction Mode: Lecture, Lab Required Grading Option: Letter

BISC 493x Honors Seminar
Units: 1 Max Units: 4.0 Terms Offered: Sp FaSpPrerequisite: BISC 120Lg or BISC 121Lg; BISC 220Lg or BISC 221Lg. Instruction Mode: Lecture Grading Option: Letter

BISC 494x Honors Thesis
Units: 2 Terms Offered: FaSpSm Prerequisite: BISC 493. Instruction Mode: Lecture Grading Option: Letter

BISC 499 Special Topics
Units: 2, 3, 4 Max Units: 8.0 Terms Offered: FaSp Lecture and discussion in specialized areas of the biological sciences. Students cannot register more than twice for this course. Recommended Preparation: BISC 220Lg or BISC 221Lg, BISC 320Lg, BISC 325 and BISC 330L. Instruction Mode: Lecture Grading Option: Letter

BISC 502a Molecular Genetics and Biochemistry

BISC 502b Molecular Genetics and Biochemistry
and regulation of gene expression. Recent applications of genetic engineering and genome analysis. Instruction Mode: Lecture/Discussion Grading Option: Letter

**BISC 504L Laboratory Techniques in Cellular and Molecular Biology**
Units: 1, 2, 3, 4 Max Units: 8.0 Terms Offered: FaSp Rotation of graduate students through Molecular Biology research laboratories to learn the major technological skills required in the field. Instruction Mode: Lecture, Lab Required Grading Option: Credit/No Credit

**BISC 505 Genomics and Molecular Genetics**
Units: 4 Terms Offered: Sp Molecular genetics (mutation, repair, recombination, and gene regulation) from quantitative and mechanistic approaches. Simple and complex genome analysis using recombinant DNA, physical, and computational techniques. *Recommended Preparation:* BISC 502b. Instruction Mode: Lecture Grading Option: Letter

**BISC 511 Integrative Biology**
Units: 4 Terms Offered: Fa Current topics in integrative biology including form, function and energy use throughout the lifespan in the context of genetics, natural selection and ecology. Duplicates Credit in the former BISC 510a. Instruction Mode: Lecture Grading Option: Letter

**BISC 512 Evolutionary Biology**
Units: 4 Terms Offered: Sp Survey of current topics in evolutionary biology; genetics, natural selection, ecology; emphasis on higher order complex questions of life (form, function, and energy use. Duplicates Credit in the former BISC 510b. Instruction Mode: Lecture Grading Option: Letter

**BISC 515 Evolution and Human Biology**
Units: 4 Terms Offered: Fa Topics in evolution and human biology with emphasis on life span, form, function and energy use in the context of genetics, natural selection and ecology. Instruction Mode: Lecture Grading Option: Letter

**BISC 519 Recent Advances in Neurobiology and Endocrinology of Aging**
Units: 2, 4 (Enroll in GERO 519)

**BISC 520 Recent Advances in Neurobiology**
Units: 2 or 4 Max Units: 12.0 Terms Offered: Fa Lectures on selected topics in neurobiology. Registration restricted to three semesters. *Prerequisite:* graduate status in departmental program or departmental approval. Instruction Mode: Lecture Grading Option: Letter

**BISC 521 Hearing and Communication Neuroscience**
Units: 4 Terms Offered: Sp A basic grounding in broad aspects of the neuroscience of hearing and vocal communication. *Prerequisite:* BISC 421 and NSCI 521. Instruction Mode: Lecture Grading Option: Letter Crosslisted as NSCI 521

**BISC 522 Nonlinear Dynamical Systems, Vibrations, and Chaos**
Units: 3 Terms Offered: Sp (Enroll in AME 520)

**BISC 529 Seminar in Marine Biology**
Units: 1 Max Units: 4.0 Terms Offered:
health policy and social justice frameworks; maternal-fetal health care, epigenetic/genomics privacy, environmental influences and genetic risk. Instruction Mode: Lecture Grading Option: Letter

BISC 555 Epidemiology of Developmental Origins of Disease
Units: 1 Terms Offered: Sp Epidemiology terminology and use; analysis and interpretation of raw data; communication of results to the general public; applications to developmental origins of health and disease. Instruction Mode: Lecture Grading Option: Letter

BISC 556 Developmental Nutrition and Lifelong Health
Units: 1 Terms Offered: Sp The role of nutrition at various stages of the human life cycle and the effect of nutritional concerns on disease etiology/pathogenesis in adulthood. Instruction Mode: Lecture Grading Option: Letter

BISC 557 Emerging Technologies for the Study of Health and Disease
Units: 2 Terms Offered: Sp Provides students with a conceptual and practical understanding of advanced techniques in molecular and imaging science and research. Instruction Mode: Lecture Grading Option: Letter

BISC 558a Capstone Research Project
Units: 2 Terms Offered: Fa Develop skills in analyzing and discussing complex, intersectional problems in the developmental origins of human health and disease with ethical and policy implications. Instruction Mode: Lecture Grading Option: Letter

BISC 558b Capstone Research Project
Units: 2 Terms Offered: Sp Develop skills in analyzing and discussing complex, intersectional problems in the developmental origins of human health and disease with ethical and policy implications. Prerequisite: BISC 558a Instruction Mode: Lecture Grading Option: Letter

BISC 558c Capstone Research Project
Units: 8 Terms Offered: Sm Modern, innovative techniques in molecular and imaging science to solve challenging interdisciplinary problems in the developmental origins of health and disease; laboratory-based instruction. Prerequisite: BISC 558b Instruction Mode: Lecture Grading Option: Letter

BISC 559 DOOH Seminar Series
Units: 2, 3 Max Units: 0 Terms Offered: FaSpSm Credit/No Credit Seminar discussing the complex interplay in human development and aging, (epi)genetics and environment, racial and socioeconomic disparities, local and global health, climate change and pollution. Instruction Mode: Lecture Grading Option: Letter

BISC 572 Medical Physiology I
Units: 4 Terms Offered: Fa (Enroll in INTD 572)

BISC 574 Systems Physiology and Disease II
Units: 4 Terms Offered: Sp (Enroll in INTD 573)

BISC 576 Practical Statistics and Bioinformatics
Units: 2 Terms Offered: Fa Practical experience in statistics and bioinformatics methods, software packages applicable to molecular biology, genomics analysis, and structural bioinformatics and their underlying principles. Instruction Mode: Lecture Grading Option: Letter

BISC 581L Current Problems in Marine Sciences
Units: 4 Max Units: 16.0 Terms Offered: Irregular In-depth studies on selected problems of current interest in the marine sciences. Instruction Mode: Lecture, Lab Required Grading Option: Letter

BISC 582 Advanced Biological Oceanography
Units: 4 Terms Offered: Fa Aspects of physics and chemistry of the oceans. Qualitative and quantitative considerations of the ecology of pelagic and benthic communities. Instruction Mode: Lecture Grading Option: Letter Crosslisted as OS-582

BISC 583 Evolution and Adaptation of Marine Organisms
Units: 4 Terms Offered: Sp Fundamentals of evolutionary patterns and processes in the marine environment, with emphasis on rates of adaptation to a changing ocean. Instruction Mode: Lecture Grading Option: Letter

BISC 584 Faculty Lecture Series
Units: 2 Terms Offered: Sp Multi-instructor course designed to introduce students to the breadth and depth of faculty interests within the Marine Environmental Biology section of Biological Sciences and the Natural History Museum. Instruction Mode: Lecture Grading Option: Letter

BISC 585 Scientific Writing and Reviewing
Units: 2 Terms Offered: Sp Hands-on experience writing and reviewing scientific literature. The review process and participation in writing and reviewing their own proposals. Instruction Mode: Lecture Grading Option: Letter

BISC 586 Biological Oceanographic Instrumentation
Units: 2 Terms Offered: Sp Survey of analytical principles, theory and application behind commonly used methodologies in biological oceanography. Instruction Mode: Lecture Grading Option: Letter

BISC 587 Communicating Ocean Science
Units: 4 Terms Offered: Sp Multi-instructor, interdisciplinary course focused on student awareness and improvement of cognitive processes used in research development, and communication of ocean literacy in the public sector. Recommended Preparation: Graduate level understanding of oceanographic principles. Instruction Mode: Lecture Grading Option: Letter

BISC 588 Introduction to Bioinformatics
Units: 2 Terms Offered: FaSp Hands-on introduction to basic bioinformatics skills, software and analysis pipelines for biologists with minimal to no prior command line experience. Registration Restriction: Registration open only to MBB0 and OCS graduate students Instruction Mode: Lecture Grading Option: Letter

BISC 590 Directed Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Terms Offered: FaSpSm Research leading to the master’s degree. Maximum units which may be applied to the degree to be determined by the department. Instruction Mode: Lecture Grading Option: Credit/No Credit

BISC 593 Practicum in Teaching the Biological Sciences
Units: 2 Terms Offered: Fa Practical principles for the long-term development of effective teaching within college disciplines. Required for teaching assistants in Dornsife College. Instruction Mode: Lecture Grading Option: Credit/No Credit

BISC 596 Internship for Curricular Practical Training
Units: 1, 2, 3 Max Units: 0 Terms Offered: FaSpSm Part-time or full-time, practical work experience in the student’s field of study. The internship must be located at an off-campus facility. Students are individually supervised by faculty. May not be taken until the student has completed at least one semester of enrollment in the graduate program with a cumulative 3.0 GPA. Registration Restriction: Open only to graduate students Instruction Mode: Lecture Grading Option: Credit/No Credit

BISC 599 Special Topics
Units: 2, 3, 4 Max Units: 8.0 Terms Offered: Irregular Instruction Mode: Lecture Grading Option: Letter

BISC 790 Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Terms Offered: FaSpSm Research leading to the doctorate. Maximum units which may be applied to the degree to be determined by the department. Instruction Mode: Lecture Grading Option: Credit/No Credit

BISC 794a Doctoral Dissertation
Units: 2 Terms Offered: FaSpSm Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

BISC 794b Doctoral Dissertation
Units: 2 Terms Offered: FaSpSm Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

BISC 794c Doctoral Dissertation
Units: 2 Terms Offered: FaSpSm Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

BISC 794d Doctoral Dissertation
Units: 2 Terms Offered: FaSpSm Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

BISC 794z Doctoral Dissertation
Units: 0 Terms Offered: FaSpSm Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

Biokinesiology
BKN 504 Neuromuscular Systems
Units: 4 Terms Offered: Fa (Enroll in BME 504)

BKN 510 Sports Science Statistics - Introduction to Statistical Analysis
Units: 4 Terms Offered: FaSpSm Apply statistical methods for hypotheses testing sports science using commonly used methods and statistical software. Instruction Mode: Lecture Grading Option: Letter
BKN 550 Neurobehavioral Basis of Movement
Units: 4 Terms Offered: Sp Introduction to the neurobehavioral and neurobiological basis of movement. Review of information processing, neural basis of perception/ action, motor systems, and higher cognitive function and behavior. Recommended Preparation: BISC 524, BISC 525; Recommended Preparation: BKN 550. Instruction Mode: Lecture Grading Option: Letter

BKN 551 Musculoskeletal and Biomechanical Basis of Movement
Units: 4 Terms Offered: Fa Introduction to the mechanical properties of the musculoskeletal system. Review of connective tissue and muscle mechanics, arthrology, anatomical design and statics. Laboratory dissections illustrate biomechanics. Instruction Mode: Lecture Grading Option: Letter

BKN 552 Physiological Basis of Voluntary Movement
Units: 4 Terms Offered: Sp Consideration of the neuromuscular and musculoskeletal physiology of voluntary movement. Instruction Mode: Lecture Grading Option: Letter

BKN 553 Experimental Methods for the Analysis of Human Movement
Units: 4 Terms Offered: Fa Introduces students to the techniques and hardware used to record movement, measure movement-related variables, and analyze those variables to address hypotheses. Instruction Mode: Lecture Grading Option: Letter

BKN 557L Functional Neuroanatomy with Lab Dissection
Units: 3 Terms Offered: FaSpSm Comprehensive survey of regional neuroanatomy covered in lecture and laboratory format with dissection. In-depth consideration is given to neuroanatomical basis of sensory and motor function. Topics include neuroanatomical basis of cellular function, somatosensation, special senses, movement and distributed motor control, and homeostasis regulation. Instruction Mode: Lecture, Lab Required Grading Option: Letter

BKN 559 Readings in Biokinesiology
Units: 1, 2, 3, 4 Max Units: 8.0 Terms Offered: FaSpSm Independent review and synthesis of papers appearing in the current literature. Instruction Mode: Lecture Grading Option: Letter

BKN 560 Movement Analysis for Sport
Units: 4 Terms Offered: FaSpSmPerform systematic quantitative biomechanical analyses of common movements in sport and exercise using a variety of motion analysis techniques. Instruction Mode: Lecture Grading Option: Letter

BKN 563 Biomechanics
Units: 2, 2 years Terms Offered: Sp Advanced study of the kinematics of human motion. Emphasis on the inverse dynamics solution to qualify forces and moments of force. Instruction Mode: Lecture Grading Option: Letter

BKN 565 Neurobiology of Locomotion
Units: 2 Topics include developmental biology of embryonic motility, central pattern generators, descending neural regulation, sensory modulation, and perception/ action influences on the motor control of locomotion. Prerequisite: BISC 524, BISC 525; Recommended Preparation: BKN 550. Instruction Mode: Lecture Grading Option: Letter

BKN 567 Advanced Topics in Biomechanics
Units: 2 Terms Offered: Sp Advanced examination of motion-analysis techniques, applications and data interpretation. Magnetic tracking techniques, upper-extremity kinematics, energy/work/impulse concepts, intersegmental dynamics, and EMG muscle modeling are examined. Prerequisite: BKN 563. Instruction Mode: Lecture Grading Option: Letter

BKN 573a Advanced Dissection Anatomy
Units: 2 Terms Offered: FaSpSmAdvanced analysis of systems or structures with dissection. Emphasis on correlations with function. Instruction Mode: Lecture Grading Option: Letter

BKN 573b Advanced Dissection Anatomy
Units: 2 Terms Offered: FaSpSmAdvanced analysis of systems or structures with dissection. Emphasis on correlations with function. Instruction Mode: Lecture Grading Option: Letter

BKN 575 Principles of Musculoskeletal Imaging
Units: 2 Terms Offered: Sm Basic principles of musculoskeletal imaging as it relates to biomechanics research. Topics include MRI physics, variable imaging parameters and selection of pulse sequences. Instruction Mode: Lecture Grading Option: Letter

BKN 578 Classic Readings in Biokinesiology
Units: 2 A seminar course in which students read and discuss classic scientific papers that have shaped the development of the movement sciences over the past 150 years. Instruction Mode: Lecture Grading Option: Letter

BKN 585 Systematic Research Writing
Units: 3 Terms Offered: Sm Development of analytical journal reading skills and proficiency in scientific writing. Lecture and tutorial format. Instruction Mode: Lecture Grading Option: Letter

BKN 587a Physiological Correlates of Therapeutic Exercise
Units: 4 Terms Offered: FaSpSm Responses of the physically handicapped to exercise. Emphasis on muscle, energy metabolism, body temperature, environment, endocrine considerations. Strengthening, training, endurance, and evaluation of performance. Instruction Mode: Lecture Grading Option: Letter

BKN 587b Physiological Correlates of Therapeutic Exercise
Units: 4 Terms Offered: FaSpSm Responses of the physically handicapped to exercise, with emphasis on cardiovascular and respiratory adaptations and pathology. Instruction Mode: Lecture Grading Option: Letter

BKN 588 Physiology and Biomechanics of Resistance Exercise
Units: 2 Terms Offered: Sp Science of resistance-exercise prescription, adaptation, and outcome assessment. Topics include periodization, neuromuscular and connective tissue adaptation, special populations, and biomechanical considerations. Instruction Mode: Lecture Grading Option: Letter

BKN 590 Research Seminar
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Terms Offered: FaSpSm Research leading to the master's degree. Maximum units which may be applied to the degree to be determined by the department. Instruction Mode: Lecture Grading Option: Credit/No Credit

BKN 593 Behavioral Basis of Motor Control and Learning
Units: 3 Terms Offered: Fa Seminar in movement science dealing with the behavioral basis of motor control and learning from an information processing perspective. Recommended Preparation: statistics; psychology. Instruction Mode: Lecture Grading Option: Letter

BKN 594a Master's Thesis
Units: 2 Credit on acceptance of thesis. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

BKN 594b Master's Thesis
Units: 2 Credit on acceptance of thesis. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

BKN 594z Master's Thesis
Units: 0 Credit on acceptance of thesis. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

BKN 596 Internship for Curricular Practical Training
Units: 1, 2, 3 Max Units: 03 Terms Offered: FaSpSm Part-time or full-time, practical work experience in the student's field of study. The internship must be located at an off-campus facility. Students are individually supervised by faculty. May not be taken until the student has completed at least one semester of enrollment in the graduate program with a cumulative 3.0 GPA. Registration Restriction: Open only to graduate students Instruction Mode: Lecture Grading Option: Credit/No Credit

BKN 599 Special Topics
Units: 2, 3, 4 Max Units: 8.0 Terms Offered: FaSpSm Studies of scientific theory in physical therapy. Instruction Mode: Lecture Grading Option: Letter

BKN 600 Sports Science Internship
Units: 2, 3, 4 Terms Offered: FaSpSm A combination of observation, participation (testing/assessments, training) and analysis and interpretation of data. Supervision and guidance from the internship mentor will vary depending on the setting and credit hours. Allows students a progressively increasing amount of responsibility with respect to athlete/subject and/or data involvement. Prerequisite: BKN 551 and BKN 552 and BKN 550 and BKN 553. Instruction Mode: Lecture Grading Option: Credit/No Credit

BKN 610L Technology in Sport: Field Assessment of Athlete Performance
Units: 2 Terms Offered: FaSpSm Introduction of topics related to assessments of athlete performance on the field or in the sports setting. Focus on understanding and applying available technology to athlete field assessments. Overview of the techniques and hardware used to assess athlete performance outside
of a laboratory setting. *Prerequisite:* BKN 551 and BKN 552 and BKN 553 Instruction Mode: Lecture, Lab Required Grading Option: Letter

**BKN 611L Technology in Sport: Physiological Assessments**
- Units: 2 Terms Offered: FaSpSm
- Introduction to the physiological assessment of athlete performance.
- Focus on understanding, performing and interpreting physiological assessments such as metabolic testing (VO₂max), hydration, oxygen saturation, body composition, lactate threshold, heart rate, core body temperature. *Prerequisite:* BKN 551 and BKN 552 and BKN 553 Instruction Mode: Lecture, Lab Required Grading Option: Letter

**BKN 615 Principles of Skeletal Adaptation**
- Units: 4, 2 years Terms Offered: Sm
- Introduction to the integrative physiology of skeletal adaptation to mechanical loading.
- Emphasis on mechanical and chemical regulation of bone mass. Instruction Mode: Lecture Grading Option: Letter

**BKN 617 Modeling the Motor System: An Introduction**
- Units: 2, 2 years Terms Offered: Sp
- Introduction of basic principles and models of the primate motor system. Emphasis on internal control. Instruction Mode: Lecture Grading Option: Letter

**BKN 618L Modeling the Motor System: Laboratory**
- Units: 1, 2 years Terms Offered: Sp
- Introduction of computer programming and implementation of computational models in a laboratory setting. Instruction Mode: Lecture, Lab Required Grading Option: Letter

**BKN 621 Electromyography in Research and Practice**
- Units: 3, 2 years Terms Offered: Fa
- Physiology and electrophysiology of muscular contraction, how it is collected, quantified and processed. Uses of electromyographic information for research and clinical assessments. *Recommended Preparation:* human anatomy, skeletal muscle physiology. Instruction Mode: Lecture Grading Option: Letter

**BKN 623 Neuroplasticity and Neural Repair**
- Units: 3, 2 years Terms Offered: Fa
- Integration of basic research on neuroplasticity and clinical research on central nervous system reorganization after brain injury. Implication for neurorecovery and rehabilitation. Instruction Mode: Lecture Grading Option: Letter

**BKN 630 Resistance Training Techniques for High Performance Athletes**
- Units: 2 Terms Offered: FaSpSm
- Introduction to training methods and techniques as they pertain to high performance athletes with a focus on advanced resistance training programs and periodization schemes. *Prerequisite:* BKN 551 and BKN 552 and BKN 550 and BKN 553 Instruction Mode: Lecture Grading Option: Letter

**BKN 672 Advanced Independent Study in Biokinesiology**
- Units: 1, 2, 3, 4 Max Units: 8.0 Terms Offered: FaSpSm
- Examination of selected mechanisms underlying normal movement and pathological movement. Instruction Mode: Lecture Grading Option: Letter

**BKN 680 Introduction to Data Science for Biomedical and Movement Research**
- Units: 3 Terms Offered: FaSpSm
- For students in biomedical, biological and movement sciences who want to learn modern advanced statistical learning methods and to improve R programming. Instruction Mode: Lecture, Lab Grading Option: Letter

**BKN 790 Research**
- Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12
- Terms Offered: FaSpSm
- Research leading to the doctorate. Maximum units which may be applied to the degree to be determined by the department. Instruction Mode: Lecture Grading Option: Credit/No Credit

**BKN 794a Doctoral Dissertation**
- Units: 2 Terms Offered: FaSpSm
- Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

**BKN 794b Doctoral Dissertation**
- Units: 2 Terms Offered: FaSpSm
- Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

**BKN 794c Doctoral Dissertation**
- Units: 2 Terms Offered: FaSpSm
- Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

**Biopharmaceutical Marketing**

**BPMK 500 Biopharmaceutical Marketing Management**
- Units: 3
- Gain fundamental analytic skills and insights of medical trends directly from global payers, industry and government policy leaders. Covered: healthcare reform, access and future therapies. *Recommended Preparation:* Graduate degree in pharmacy, medicine, or related MS or PhD program. Instruction Mode: Lecture Grading Option: Letter

**BPMK 501 Healthcare Payers, Insurance and Coverage Policy**
- Units: 3 Terms Offered: Sm
- Overview of healthcare, payer behavior and the role of providers. *Recommended Preparation:* Graduate degree in pharmacy, medicine, or related MS or PhD program. Instruction Mode: Lecture Grading Option: Letter

**BPMK 504 Market Access and Reimbursement Strategy**
- Units: 3
- Profile insurance categories, controls and public demands. Aligning formulary and value measures and research. Play to Win! Quantitative assessment of market segmentation and evidence generation. Instruction Mode: Lecture Grading Option: Letter

**BPMK 505 Product Health Economics and Valuation**
- Units: 3
- Applied microeconomic tools, health technology assessment, cost effectiveness and commercial utility research. Practical understanding data sets and applications of real-world outcomes research and innovative modeling. Instruction Mode: Lecture Grading Option: Letter

**BPMK 506 Biopharmaceutical Product Pricing and Competition**
- Units: 3
- Design risk maps, methods and processes for competitive intelligence. War Games! Pricing tools and revenue models. Instruction Mode: Lecture Grading Option: Letter

**BPMK 508 Biopharmaceutical Marketing Research and Analytics**
- Units: 3
- Research and analytical methods for synthesizing data-driven insights informing marketing decisions of biopharmaceutical products. Apply systematic frameworks of marketing research to assess a drug’s commercial opportunities. Registration Restriction: Not open to GSBA Business Administration students. Instruction Mode: Lecture Grading Option: Letter

**BPMK 509 Seminars in Biopharmaceutical Marketing**
- Units: 1
- Max Units: 03
- Weekly seminar and literature series to review and discuss policy of biopharmaceutical and healthcare access issues. Student-led discussions, expert guest speakers, group projects, critical thinking. Registration Restriction: Not open to GSBA Business Administration students. Instruction Mode: Lecture Grading Option: Letter

**BPMK 510 Capstone I: Biopharmaceutical Management Project**
- Units: 3
- Directed basic research and topics to develop student core skills surrounding research design, execution, planning, presentation and defense, consistent with BP industry standards. Instruction Mode: Lecture Grading Option: Letter

**BPMK 511 Capstone II: Biopharmaceutical Management Project**
- Units: 3
- Directed advanced research and topics to develop student individual skills surrounding research design, execution, planning, presentation and defense, consistent with...
BP industry standards. Instruction Mode: Lecture Grading Option: Letter

**BPMK 599** Special Topics
Units: 1, 2, 3, 4, 5, 6, 7, 8 Max Units: 08 Special Topics in Biopharmaceutical Marketing. Instruction Mode: Lecture Grading Option: Letter

**Biomaterials and Digital Dentistry**

**BMDD 588a** Digital Technology Applied to Dentistry
Units: 3 Terms Offered: FaSpSm Weekly seminar devoted to critically review, analyze, and discuss digital technologies applied to dentistry. Registration Restriction: Open only to the Herman Ostrow School of Dentistry Instruction Mode: Lecture Grading Option: Letter

**BMDD 588b** Digital Technology Applied to Dentistry
Units: 3 Terms Offered: FaSpSm Weekly seminar devoted to critically review, analyze, and discuss digital technologies applied to dentistry. Prerequisite: **BMDD 588a** Registration Restriction: Open only to the Herman Ostrow School of Dentistry Instruction Mode: Lecture Grading Option: Letter

**BMDD 590** Directed Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Terms Offered: FaSpSm Research leading to the master's degree. Maximum units which may be applied to the degree to be determined by the department. Registration Restriction: Open only to the Herman Ostrow School of Dentistry Instruction Mode: Lecture Grading Option: In Progress to Credit/No Credit

**BMDD 594a** Master's Thesis
Units: 2 Credit on acceptance of thesis. Registration Restriction: Open only to the Herman Ostrow School of Dentistry Instruction Mode: Lecture Grading Option: In Progress to Credit/No Credit

**BMDD 594b** Master’s Thesis
Units: 2 Credit on acceptance of thesis. Prerequisite: **BMDD 594a** Registration Restriction: Open only to the Herman Ostrow School of Dentistry Instruction Mode: Lecture Grading Option: In Progress to Credit/No Credit

**BMDD 594z** Master’s Thesis
Units: 0 Credit on acceptance of thesis. Prerequisite: **BMDD 594b** Registration Restriction: Open only to the Herman Ostrow School of Dentistry Instruction Mode: Lecture Grading Option: In Progress to Credit/No Credit

**Biomedical Engineering**

**BME 101** Introduction to Biomedical Engineering
Units: 4 Terms Offered: Fa Historical development and survey of major areas comprising biomedical engineering: theoretical neurobiology and systems physiology, biomedical instrumentation, artificial organ and prosthetic devices, biomedical computer applications. Instruction Mode: Lecture, Lab Grading Option: Letter

**BME 201** Biomedical Engineering Practice
Units: 2 Terms Offered: Fa Examination of the technical and practical challenges involved in the development of medical devices, including neural implants, in industry and the clinical setting. Recommended Preparation: BME 101. Instruction Mode: Lecture Grading Option: Letter

**BME 202** Control and Communication in the Nervous System
Units: 4 Terms Offered: Fa Introduction to the structure and function of the nervous system for biomedical engineers. Modeling of neurophysiological processes at single neuron and systems levels. Prerequisite: MATH 126g or MATH 129 Duplicates Credit in former BME 402 Instruction Mode: Lecture Grading Option: Letter

**BME 204** Biomedical Prototyping and Fabrication
Units: 2 Terms Offered: FaSpSm Development of physical prototypes of biomedical devices and systems; acquisition and practice of skills for documentation and fabrication; prototype testing and validation against requirements. Instruction Mode: Lecture, Lab Grading Option: Letter

**BME 210** Biomedical Computer Simulation Methods

**BME 302L** Medical Electronics
Units: 4 Terms Offered: Sp Electronic design and measurements for medical applications. Use of integrated circuits, biopotential measurements, static and dynamic calibration of physiological transducers. Prerequisite: EE 202L. Instruction Mode: Lecture, Lab Required Grading Option: Letter

**BME 308 Computer-Aided Design for Bio-Mechanical Systems**
Units: 3 (Enroll in ITP 308)

**BME 350** Biomedical Engineering Industrial Project
Units: 3 Terms Offered: Sp Training in specific skills relevant to biomedical industry. Placement in summer internship following successful completion of the course. Junior standing. Prerequisite: BME 210. Instruction Mode: Lecture Grading Option: Letter

**BME 390 Special Problems**
Units: 1, 2, 3, 4 Supervised, individual studies. No more than one registration permitted. Enrollment by petition only. Instruction Mode: Lecture Grading Option: Letter

**BME 402 Control and Communication in the Nervous System**
Units: 4 Terms Offered: Sp An introduction to the structural and functional elements common to nervous systems, with emphasis on cellular dynamics, interneuronal communication, sensory and effector systems. Prerequisite: (BME 210 and MATH 245) and (BISC 110g or BISC 220Lg) Instruction Mode: Lecture, Discussion Grading Option: Letter

**BME 403L** Physiological Systems
Units: 4 Terms Offered: FaA thorough bioengineering treatment of the physiological properties of various mammalian organ systems: e.g. cardiovascular, respiratory, renal, and musculoskeletal. Prerequisite: BISC 220Lg and MATH 245 Corequisite: EE 220L Instruction Mode: Lecture, Lab Required Grading Option: Letter

**BME 404 Orthopaedic Biomechanics**
Units: 4 Terms Offered: Fa Mechanical properties of biological tissues, application of statics and dynamics to assess loads within the musculoskeletal structures, and fundamentals of orthopaedic implant performance. Prerequisite: PHYS 151g and MATH 245 Recommended Preparation: Basic knowledge of anatomical structures, fundamentals of mechanics of materials including stress-strain relations, and mechanical properties of materials Corequisite: AME 201 Instruction Mode: Lecture, Discussion Grading Option: Letter

**BME 405L** Senior Projects: Measurements and Instrumentation
Units: 4 Terms Offered: FaSpSm Application of instrumentation and measurement techniques to biomedical engineering projects involving measurement replacement or augmentation of biomedical systems. Prerequisite: BME 210, EE 202L. Instruction Mode: Lecture, Lab Required Grading Option: Letter

**BME 406 Introduction to Bioengineering in Medicine**
Units: 4 Terms Offered: FaBioengineering concepts and technologies applied to cancer diagnosis, drug discovery, immunotherapeutic development, stem cell techniques and therapies, mechanistic research. Instruction Mode: Lecture Grading Option: Letter

**BME 408 Rehabilitation Engineering and Assistive Technologies**
Units: 2 Terms Offered: Fa Introduction to technologies used for rehabilitation and improved function, including limb and spinal orthoses and prostheses, gait analysis and sensory aids and augmentation. Recommended Preparation: Basic background in statics and dynamics at the level taught in AME 201 and AME 301 Instruction Mode: Lecture Grading Option: Letter

**BME 410L** Introduction to Biomaterials and Tissue Engineering
Units: 4 Terms Offered: FaSpSm In-depth survey of the cells, materials, and techniques used to engineer human tissues for applications in regenerative medicine and drug screening. Prerequisite: CHEM 322A and BISC 220Lg Instruction Mode: Lecture, Lab Required Grading Option: Letter Crosslisted as CHE 410

**BME 412 Craniofacial and Dental Technology**
Units: 4 (Enroll in DENT 412)

**BME 413 Bioengineering Signals and Systems**
Units: 4 Terms Offered: FaIntroduction to concepts relating to linear signals and systems theory, time and frequency domain analysis, and application of these concepts to problems in Biomedical Engineering. Prerequisite: PHYS 152 Instruction Mode: Lecture, Discussion Grading Option: Letter

**BME 414 Rehabilitation Engineering**
Units: 3 Terms Offered: FaAn introduction to rehabilitation technology: limb and spinal orthoses; limb prostheses; functional
Recommended Preparation: AME 201.

BME 415L Fundamentals of Biomedical Microdevices
Units: 4 Terms Offered: Fa Introduction to biomedical microdevices with emphasis on microtechnologies and biomedical microelectromechanical systems (bioMEMS). Principles for measurement of small-scale biological phenomena and clinical applications. Recommended Preparation: Basic biology and electronics Corequisite: EE 202L Instructor Option: Lecture, Lab Required Grading Option: Letter

BME 452 Introduction to Biomimetic Neural Engineering
Units: 2 Terms Offered: Fa Engineering principles, biology, technological challenges and state-of-the-art developments in the design of implantable biomimetic microelectronic devices that interface with the nervous system. Recommended Preparation: Basic knowledge of biology Corequisite: EE 202L Instructor Option: Lecture, Lab Required Grading Option: Letter

BME 423 Statistical Methods in Biomedical Engineering
Units: 4 Terms Offered: Fa Applications of parametric and nonparametric tests, analysis of variance, linear regression, time-series analysis, and autoregressive analysis of variance, linear regression, of parametric and nonparametric tests, analysis of biomedical data. Instructor Option: Lecture, Discussion Grading Option: Letter

BME 425L Fundamentals of Biomedical Imaging
Units: 2 Terms Offered: Fa Fundamentals of biomedical imaging. Instructor Option: Lecture, Discussion Grading Option: Letter

BME 453 Engineering Biomedical Innovations
Units: 3 Terms Offered: Sp Engineering principles in design, modeling, and analysis of biomedical innovations will be presented to develop creative solutions for real-world medical problems or treatment implementation. Registration Restriction: Open only to juniors and seniors Instructor Option: Lecture, Lab Required Grading Option: Letter

BME 489 Biochemical Engineering
Units: 4 Terms Offered: Enroll in CHE 489 Instructor Option: Letter

BME 490 Directed Research
Units: 1, 2, 3, 4, 5, 6, 7, 8 Max Units: 12.0 Individual research and readings. Not available for graduate credit. Instructor Option: Lecture, Lab Required Grading Option: Letter

BME 499 Special Topics
Units: 2, 3, 4 Max Units: 8.0 Current trends and developments in the field of biomedical engineering. Instructor Option: Lecture, Lab Required Grading Option: Letter

BME 510 Cell Therapeutics
Units: 4 Terms Offered: Sp Application of control theory to physiological systems; static analysis of closed-loop systems; time-domain analysis of linear control identification methods; nonlinear control. Recommended Preparation: Exposure to Ordinary Differential Equations, Laplace Transforms and Matlab/Simulink programming Instructor Option: Lecture, Discussion Grading Option: Letter

BME 513 Signal and Systems Analysis
Units: 4 Terms Offered: Sp Application of control theory to physiological systems; static analysis of closed-loop systems; time-domain analysis of linear control identification methods; nonlinear control. Recommended Preparation: Exposure to Ordinary Differential Equations, Laplace Transforms and Matlab/Simulink programming Instructor Option: Lecture, Discussion Grading Option: Letter

BME 530 Principles and Applications of Systems Biology
Units: 4 Terms Offered: Fo Computational methods for simulation and analysis of metabolic networks, cellular signaling pathways and gene regulatory networks. Biochemical kinetics, differential equations, stability analysis, sensitivity analysis. Prerequisite: MATH 245 and (BME 210 or CHE 205) Recommended Preparation: BISC 220L Instructor Option: Lecture, Discussion Grading Option: Letter

BME 549 Microwaves in Biomedical Engineering
Units: 4 Terms Offered: Fa Microwaves and their applications in biology and medicine. Instructor Option: Lecture, Lab Required Grading Option: Letter

BME 554 Nanobiotechnology
Units: 4 Terms Offered: Introduction to the field of nanobiotechnology and its applications in medicine, biology, and engineering. Instructor Option: Lecture, Discussion Grading Option: Letter

BME 566 Biomedical Image Analysis
Units: 2 Terms Offered: Fa Image processing methods and applications in biomedical image analysis. Instructor Option: Lecture, Lab Required Grading Option: Letter

BME 571 Camera Science
Units: 4 Terms Offered: Fa Fundamentals of digital imaging systems and their applications in medicine and biology. Instructor Option: Lecture, Lab Required Grading Option: Letter

BME 579 Nanometric Imaging
Units: 4 Terms Offered: Fa Advanced imaging techniques at the nanoscale and their applications in biology and medicine. Instructor Option: Lecture, Lab Required Grading Option: Letter

BME 581 Biomedical Optics
Units: 4 Terms Offered: Fa Fundamentals of optical imaging and photonic devices in medicine, biology, and engineering. Instructor Option: Lecture, Lab Required Grading Option: Letter

BME 583 Biomedical Electrical Engineering
Units: 4 Terms Offered: Fa Fundamentals of electrical engineering and its applications in medicine and biology. Instructor Option: Lecture, Lab Required Grading Option: Letter

BME 585 Biomedical Instrumentation
Units: 4 Terms Offered: Fa Fundamentals of biomedical instrumentation and signal processing. Instructor Option: Lecture, Lab Required Grading Option: Letter

BME 590 Advanced Topics in Biomedical Engineering
Units: 4 Terms Offered: Fo Advanced topics in the area of biomedical engineering. Instructor Option: Lecture, Lab Required Grading Option: Letter

BME 591 Medical Image Processing
Units: 4 Terms Offered: Fo Medical imaging systems and their applications in medicine and biology. Instructor Option: Lecture, Lab Required Grading Option: Letter

BME 592 Biomedical Signal Processing
Units: 4 Terms Offered: Fo Biomedical signal processing techniques and their applications in medicine and biology. Instructor Option: Lecture, Lab Required Grading Option: Letter

BME 593 Biomedical Control Systems
Units: 4 Terms Offered: Fo Control systems in medicine and biology. Instructor Option: Lecture, Lab Required Grading Option: Letter

BME 594 Biomedical Dynamics
Units: 4 Terms Offered: Fo Biomedical dynamics and control systems. Instructor Option: Lecture, Lab Required Grading Option: Letter

BME 595 Biomedical Imaging
Units: 4 Terms Offered: Fo Biomedical imaging systems and their applications in medicine and biology. Instructor Option: Lecture, Lab Required Grading Option: Letter

BME 596 Biomedical Networks
Units: 4 Terms Offered: Fo Biomedical networks and their applications in medicine and biology. Instructor Option: Lecture, Lab Required Grading Option: Letter

BME 597 Biomedical Robotics
Units: 4 Terms Offered: Fo Biomedical robotics and their applications in medicine and biology. Instructor Option: Lecture, Lab Required Grading Option: Letter

BME 598 BiomedicalRobot Applications
Units: 4 Terms Offered: Fo Applications of biomedical robotics in medicine and biology. Instructor Option: Lecture, Lab Required Grading Option: Letter

BME 599 Special Topics
Units: 2, 3, 4, 5, 6, 7, 8 Max Units: 8.0 Current trends and developments in the field of biomedical engineering. Instructor Option: Lecture, Lab Required Grading Option: Letter

BME 601 Biomedical Engineering
Units: 4 Terms Offered: Fa Basic principles and techniques of biomedical engineering. Instructor Option: Lecture, Lab Required Grading Option: Letter

BME 602 Advanced Topics in Biomedical Engineering
Units: 4 Terms Offered: Fo Advanced topics in the area of biomedical engineering. Instructor Option: Lecture, Lab Required Grading Option: Letter

BME 603 Biomedical Signal Processing
Units: 4 Terms Offered: Fo Advanced signal processing techniques and their applications in medicine and biology. Instructor Option: Lecture, Lab Required Grading Option: Letter

BME 604 Biomedical Control Systems
Units: 4 Terms Offered: Fo Advanced control systems in medicine and biology. Instructor Option: Lecture, Lab Required Grading Option: Letter

BME 605 Biomedical Imaging
Units: 4 Terms Offered: Fo Advanced imaging systems and their applications in medicine and biology. Instructor Option: Lecture, Lab Required Grading Option: Letter

BME 606 Biomedical Networks
Units: 4 Terms Offered: Fo Advanced biomedical networks and their applications in medicine and biology. Instructor Option: Lecture, Lab Required Grading Option: Letter

BME 607 Biomedical Robotics
Units: 4 Terms Offered: Fo Advanced biomedical robotics and their applications in medicine and biology. Instructor Option: Lecture, Lab Required Grading Option: Letter

BME 608 BiomedicalRobot Applications
Units: 4 Terms Offered: Fo Applications of biomedical robotics in medicine and biology. Instructor Option: Lecture, Lab Required Grading Option: Letter

BME 609 Special Topics
Units: 2, 3, 4, 5, 6, 7, 8 Max Units: 8.0 Current trends and developments in the field of biomedical engineering. Instructor Option: Lecture, Lab Required Grading Option: Letter
BME 514 Physiological Signals and Data Analytics
Units: 4 Terms Offered: Sp Application of linear time- and frequency-domain techniques, adaptive filtering, nonlinear dynamics and machine learning approaches to the analysis of physiological signals. Prerequisite: BME 513
Recommended Preparation: Working knowledge of MATLAB and/or PYTHON
Instruction Mode: Lecture Grading Option: Letter

BME 515 Data Analytics in Biomedical Engineering
Units: 4 Terms Offered: Sp Presentation and application of advanced computational/ mathematical methodologies for analysis of biomedical time-series data, emphasizing predictive analytics to advance biomedical science and improve clinical support systems. Prerequisite: BME 513
Recommended Preparation: Working knowledge of MATLAB and/or PYTHON
Instruction Mode: Lecture Grading Option: Letter

BME 520 Modeling of Bio-Systems
Units: 3 Terms Offered: Sp (Enroll in AME 520)

BME 523 Measurement and Processing of Biological Signals
Units: 3 Terms Offered: Sp Acquisition, analysis, and display of biological data using digital computers; laboratory applications of digital signal processing and real-time analysis. Prerequisite: BME 513
Instruction Mode: Lecture Grading Option: Letter

BME 525 Advanced Biomedical Imaging
Units: 4 Terms Offered: Sp Advanced scientific and engineering principles of biomedical imaging including magnetic resonance, X-ray computed tomography, ultrasound and single photon and positron emission tomography. Recommended Preparation: BME 513 or EE 483 or previous/concurrent exposure to linear systems and signals, Fourier Transform, and data processing in the frequency domain Registration Restriction: Open only to master and doctoral students. Instruction Mode: Lecture Grading Option: Letter Crosslisted as EE 523

BME 527 Integration of Medical Imaging Systems
Units: 4 Introduce basic concepts of Medical Imaging Informatics with an introduction to clinical information systems (eg, PACS, RIS, EMR) related to the imaging workflow in a clinical healthcare enterprise Instruction Mode: Lecture Grading Option: Letter Crosslisted as DSCI 562

BME 528 Medical Diagnostics, Therapeutics and Informatics Applications
Units: 4 Terms Offered: Sp Picture archive communication system (PACS) design and implementation; clinical PACS-based imaging informatics; telemedicine/teleradiology; image content indexing, image data mining; grid computing in large-scale imaging informatics; image-assisted diagnosis, surgery and therapy. Recommended Preparation: BME 527 or previous/concurrent exposure to clinical systems in radiology (eg, EMR/RIS/PACS) and imaging informatics Instruction Mode: Lecture Grading Option: Letter Crosslisted as DSCI 563

BME 530 Introduction to Systems Biology

BME 533 Seminar in Bioengineering
Units: 1 Max Units: 3.0 Terms Offered: FallSp Instruction Mode: Lecture Grading Option: Credit/No Credit

BME 535L Ultrasonic Imaging
Units: 4 Terms Offered: Sp Introduce ultrasonic imaging and its biomedical applications, including ultrasonic transducers, ultrasound systems, Doppler flow measurements, Doppler imaging and photoacoustic imaging as well as labs. Instruction Mode: Lecture Lab Required Grading Option: Letter

BME 536 Ultrasonic Transducers
Units: 3 Terms Offered: Fa Background and foundation covering the design, fabrication and testing of ultrasonic transducers and arrays. Design approaches, modeling tools will be discussed. Design project assigned. Instruction Mode: Lecture Grading Option: Letter

BME 540 Biofluid Mechanics: Transport and Circulatory Systems
Units: 4 Terms Offered: Fa (Enroll in AME 536)

BME 551 Introduction to Bio-MEMS and Nanotechnology
Units: 4 Terms Offered: Sp Principles and biomedical applications of microelectromechanical systems (MEMS) and nanotechnology, including microfluidics, nanowire sensors, nanomotors, quantum dots, biofuel cells and molecular imaging. Recommended Preparation: General Biomedical engineering (eg, BME 101) Instruction Mode: Lecture Grading Option: Letter

BME 552 Neural Implant Engineering
Units: 3 Terms Offered: Sp Advanced studies of the basic neuroscience, engineering design requirements and technological issues associated with implantable neural prostheses, with particular emphasis on retinal and cortical function. Instruction Mode: Lecture Grading Option: Letter

BME 559 Nanomedicine and Drug Delivery
Units: 4 Terms Offered: Fa Drug delivery and use of nanoeengineered materials including cutting-edge nanoparticle-based therapy, imaging and tissue engineering. Nanotoxicology and the regulatory landscape is introduced. Recommended Preparation: Organic Chemistry (CHEM 322A equivalent) and Cell Biology and Physiology (BISC 220Lg equivalent) Instruction Mode: Lecture Grading Option: Letter

BME 566a Topics in Health, Technology and Engineering
Units: 2 Terms Offered: Fa Interdisciplinary approach to impart the skills, knowledge and familiarity with stages of collaborative projects related to medical device and methods innovation in health care settings. Registration Restriction: Open only to Health, Technology and Engineering majors. Instruction Mode: Lecture Grading Option: Letter

BME 566b Topics in Health, Technology and Engineering
Units: 2 Terms Offered: Fa Interdisciplinary approach to impart the skills, knowledge and familiarity with stages of collaborative projects related to medical device and methods innovation in health care settings. Concurrent Enrollment: BME 567a. Registration Restriction: Open only to Health, Technology and Engineering majors. Instruction Mode: Lecture Grading Option: Letter

BME 566c Topics in Health, Technology and Engineering
Units: 2 Terms Offered: Sp Interdisciplinary approach to impart the skills, knowledge and familiarity with stages of collaborative projects related to medical device and methods innovation in health care settings. Concurrent Enrollment: BME 567b. Registration Restriction: Open only to Health, Technology and Engineering majors. Instruction Mode: Lecture Grading Option: Letter

BME 567a Case Studies in Health, Technology and Engineering
Units: 1 Terms Offered: Fa Learning from cases illustrating paths from health care problems to solutions. Faculty, students and invited guests will provide examples of both successful and unsuccessful innovation attempts. Concurrent Enrollment: a: Concurrent enrollment: BME 566c. b: Concurrent enrollment: BME 566d. Registration Restriction: Open only to Health, Technology and Engineering students. Instruction Mode: Lecture Grading Option: Letter

BME 567b Case Studies in Health, Technology and Engineering
Units: 1 Terms Offered: Sp Learning from cases illustrating paths from health care problems to solutions. Faculty, students and invited guests will provide examples of both successful and unsuccessful innovation attempts. Concurrent Enrollment: a: Concurrent enrollment: BME 566c. b: Concurrent enrollment: BME 566d. Registration Restriction: Open only to Health, Technology and Engineering students. Instruction Mode: Lecture Grading Option: Letter

BME 575L Computational Neuroengineering
Units: 3 Terms Offered: Sp Introduction to computational modeling in neuroengineering, anchored in examples of brain function. Topics include transduction, synapses, spiking, networks, normalization,
learning, Bayesian models, and Kalman filtering. **Prerequisite:** BME 502. Instruction Mode: Lecture, Lab Required Grading Option: Letter Crosslisted as NEUR-534

**BME 582 CMOS: Nano Neuromorphic Circuits**
Units: 4 (Enroll in EE 582)

**BME 590 Directed Research**
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Research leading to the master's degree. Maximum units which may be applied to the degree to be determined by the department. Instruction Mode: Lecture Grading Option: Credit/No Credit

**BME 594a Master's Thesis**
Units: 2 Credit on acceptance of thesis. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

**BME 594b Master's Thesis**
Units: 2 Credit on acceptance of thesis. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

**BME 594z Master's Thesis**
Units: 0 Credit on acceptance of thesis. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

**BME 599 Special Topics**
Units: 2, 3, 4 Max Units: 9.0 Current trends and developments in the field of biomedical engineering. Instruction Mode: Lecture Grading Option: Letter

**BME 608 Wearable Technology**
Units: 4 (Enroll in EE 608)

**BME 620L Applied Electrophysiology**
Units: 4 Terms Offered: Fa, W Theoretical basis and applied design principles for medical devices and instrumentation that interact with electrically excitable tissues of the body. **Prerequisite:** BME 502. Instruction Mode: Lecture, Lab Required Grading Option: Letter

**BME 650 Biomedical Measurement and Instrumentation**
Units: 4 Terms Offered: Sp Design of biomedical instrumentation and diagnostic devices (aspects such as mechanics, electronic architecture and chemical and biological components) used to measure physiological parameters. **Prerequisite:** BME 513. Basic knowledge of electronics (EE 202L or equivalent courses), physics (PHYS 152L or equivalent courses), and chemistry (CHEM 105Ag or equivalent courses) Instruction Mode: Lecture Grading Option: Letter

**BME 670 Early Visual Processing**
Units: 4 Terms Offered: Fa Interdisciplinary topics in biological and artificial low-level visual processing. Retina, lateral geniculate nucleus; computer vision; neurophysiology, retinal prostheses; molecular biology, phototransduction; edge detection; movement. **Prerequisite:** NSCI 524 or BME 502 or CSCI 574. Registration Restriction: Open to graduate students only. Instruction Mode: Lecture Grading Option: Letter

**BME 680 Modeling and Simulation of Physiological Systems**
Units: 3 Terms Offered: Irregular Mathematical theories and computation techniques for modeling physiological systems, with emphasis on cardiovascular, metabolic, and neuronal functions. Instruction Mode: Lecture Grading Option: Letter

**BME 790 Research**
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Research applicable to the doctorate. Instruction Mode: Lecture Grading Option: Credit/No Credit

**BME 794a Doctoral Dissertation**
Units: 2 Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

**BME 794b Doctoral Dissertation**
Units: 2 Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

**BME 794c Doctoral Dissertation**
Units: 2 Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

**BME 794d Doctoral Dissertation**
Units: 0 Credit on acceptance of dissertation. **Prerequisite:** BME 594a. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

**Biomedical Implants and Tissue Engineering**

**BITE 582 Introduction to Biomedical Implants**
Units: 3 Terms Offered: FaSpsm In-depth exploration of the biologic basis of osseointegration and host conditions that affect the outcome of wound healing. Instruction Mode: Lecture, Discussion Grading Option: Letter

**BITE 583 Clinical Applications of Tissue Engineering**
Units: 4 Terms Offered: FaSpsm Provides clinicians and clinical scientists with the fundamental understanding of the field of tissue engineering, as applied to the reconstruction of the tissues in the maxillofacial region. Instruction Mode: Lecture, Discussion Grading Option: Letter

**BITE 584 Evidence Based Practice**
Units: 3 Terms Offered: FaSpsm Focuses on scientific search engines and search strategies to evaluate and incorporate literature to establish an evidence based dental implant practice. Instruction Mode: Lecture, Discussion Grading Option: Letter

**BITE 585 Biomaterial and Protocols**
Units: 3 Terms Offered: FaSpsm Focuses on material science, host response and clinical outcome of biomaterial application in the craniofacial region. Instruction Mode: Lecture, Discussion Grading Option: Letter

**BITE 586 Current Trends in Biomedical Implants and Tissue Engineering**
Units: 3 Terms Offered: FaSpsm Explores the developments in regenerative medicine with immediate or future translational applications in biomedical implants and tissue engineering for the maxillofacial region. Instruction Mode: Lecture, Discussion Grading Option: Letter

**BITE 590 Directed Research**
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Term Offered: FaSpsm Project-based research under the guidance of a scientific adviser. Maximum units which may be applied to the degree to be determined by the department. Instruction Mode: Lecture Grading Option: Credit/No Credit

**BITE 594a Master's Thesis**
Units: 2 Terms Offered: FaSpsm Credit on acceptance of thesis. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

**BITE 594b Master's Thesis**
Units: 2 Terms Offered: FaSpsm Credit on acceptance of thesis. **Prerequisite:** BITE 594a. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

**BITE 594z Master's Thesis**
Units: 0 Credit on acceptance of thesis. **Prerequisite:** BITE 594b. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

**Biopharmaceutical Sciences**

**BPSI 402 Biopharmaceutics I**
Units: 4 Comprehensive overview of pharmaceutical sciences. Interdisciplinary areas of study that deal with the design, action, delivery, disposition and patient acceptance of drugs. Instruction Mode: Lecture Grading Option: Letter

**BPSI 403 Biopharmaceutics II**
Units: 4 Comprehensive overview of early drug discovery and medicinal product development; in vitro and in vivo assays simulations/modeling, biopharmaceutical classification system, drug delivery science and technology. Instruction Mode: Lecture Grading Option: Letter

**BPSI 405 Organ Systems Physiology, Drug Delivery and Drug Action**
Units: 4 Principles of cellular and organ physiology systems. Interplay between the physiology of organ systems, drug delivery and drug action. Duplicates Credit in former RXRS 420. Instruction Mode: Lecture Grading Option: Letter

**BPSI 406 Drug Safety Pharmacology and Toxicology**
Units: 4 Toxicology and safety pharmacology principles that guide the clinical development of safe and efficacious drugs and biologics. Instruction Mode: Lecture Grading Option: Letter

**BPSI 407 Pharmaceutical and Health Economics**
Units: 4 Application of economics principles to pharmaceutical and health care issues; prescription drug pricing, access and innovation; topics related to pharmaceutical policy. Duplicates Credit in former RXRS 415. Instruction Mode: Lecture Grading Option: Letter

**BPSI 408 Biologics and Vaccines**
Units: 4 How biologics and vaccines are
researched, designed and used to treat and prevent diseases; regulatory and ethical issues surrounding these therapeutics. Instruction Mode: Lecture Grading Option: Letter

BPSI 410 Biopharmaceutical Product Development and Brand Planning
Units: 4 Introduces critical financial decisions and development milestones in biopharmaceutical drug product development and commercialization. Learn to align business strategies with decisions supporting a product lifecycle. Instruction Mode: Lecture Grading Option: Letter

BPSI 411 Biopharmaceutical Marketing Analysis and Strategy
Units: 4 Introduces marketing analysis and strategy for biopharmaceutical drugs. Learn to conduct analysis to develop integrated marketing strategies and to execute on marketing and promotion plans. Instruction Mode: Lecture Grading Option: Letter

BPSI 412 Targeted and Precision Medicines
Units: 4 Precision medicine utilizing data from basic science, clinical, personal, environmental and population settings; understanding biological processes and disease mechanisms; develop precise diagnostics, therapeutics and prevention. Instruction Mode: Lecture Grading Option: Letter

BPSI 413 Rigor, Resources and Reproducibility
Units: 2 Medical product business planning in public-private partnerships to enhance scientific rigor, expand resource sharing and manage corporate responsibility in developing new products. Instruction Mode: Lecture Grading Option: Letter

BPSI 414 Pharmacoethics
Units: 2 Ethics as a challenge in the pharmaceuticals industry. Organizational ethics and bioethics related to research, development and marketing across the public and healthcare professional groups. Instruction Mode: Lecture Grading Option: Letter

BPSI 415 Science Talk
Units: 2 Students will learn to present scientific data to others using techniques of storytelling, informative, commemorative, persuasive speeches, interviews and scientific presentations; strategies to reduce speaker apprehension. Instruction Mode: Lecture Grading Option: Letter

BPSI 490 Directed Research
Units: 1, 2, 3, 4, 5, 6, 7, 8 Max Units: 12 Individual research, reading, writing and project development. Credit Restriction: Not available for graduate degree credit. Instruction Mode: Lecture Grading Option: Letter

BPSI 493 Senior Honors Seminar I
Units: 2 Exciting and challenging opportunity to marshal and deploy research, analysis, interpretation and writing skills learned in their major. Registration Restriction: Open to juniors and seniors in the BioPharmaceutical Sciences major Instruction Mode: Lecture Grading Option: Letter

BPSI 494 Senior Honors Seminar II
Units: 2 An independent study course for students undertaking the research and writing of an Honors thesis. Prerequisite: BPSI 493 Registration Restriction: Open only to juniors and seniors in the BioPharmaceutical Sciences major Instruction Mode: Lecture Grading Option: Letter

Business Administration
BUAD 100x Foundations of Finance and Accounting
Units: 2 Accounting information in decision-making from the perspective of users and preparers. Basics of financial asset valuation. Consideration of time-value of money and risk. Credit Restriction: Not available for major or minor credit. Instruction Mode: Lecture Grading Option: Credit/No Credit

BUAD 101 Freshman Leadership Seminar
Units: 2 Terms Offered: FaSpSm Colloquium of leading researchers, authors, and administrators in the Marshall School of Business and other schools at USC. Industry leaders will also be invited to talk about leadership challenges. Graded CR/NC. Registration Restriction: Open by invitation only to freshman business and accounting majors. Instruction Mode: Lecture Grading Option: Credit/No Credit

BUAD 102 Global Leadership Seminar
Units: 2 Terms Offered: FaSpSm Colloquium of researchers and industry leaders discussing international business and the challenges faced by leaders in a global environment, with a specific focus on China. Graded CR/NC. International travel may require additional fees. Prerequisite: BUAD 101 Registration Restriction: Open by invitation only to freshmen business and accounting majors Instruction Mode: Lecture Grading Option: Credit/No Credit

BUAD 104 Learning About International Commerce
Units: 2 Terms Offered: FaSpSm Provides insight into the opportunities and challenges faced by business professionals operating in a global environment by focusing on international cultural norms. Graded CR/NC. Registration Restriction: Open only to Business and Accounting majors Instruction Mode: Lecture Grading Option: Credit/No Credit

BUAD 105 The Marshall Difference: Human-Centric Problem Solving
Units: 2 Terms Offered: FaSp Develop problem-solving and thinking skills across disciplines at Marshall by analyzing business problems through the lens of each Marshall emphasis. Instruction Mode: Lecture Grading Option: Credit/No Credit

BUAD 111 World Bachelor in Business Program Freshman Academy
Units: 2 Terms Offered: Fa Introduction to selected academic subject matter, development of intercultural communication skills, and access to business professionals. Registration Restriction: Enrollment limited to students in the World Bachelor in Business degree program Instruction Mode: Lecture Grading Option: Credit/No Credit

BUAD 112 AI for Business Freshman Academy
Units: 2 Terms Offered: Fa Introduction to Artificial Intelligence for Business, both in curriculum and resources, and access to industry professionals. (Graded CR/NC) Registration Restriction: Open only to declared AI for Business (BS) first years Instruction Mode: Lecture Grading Option: Credit/No Credit

BUAD 114 Global Social Impact
Units: 2 Terms Offered: Sp Assesses and advise NGOs or social enterprises. Develop real solutions to real problems. Team projects, international travel and presentations. Recommended Preparation: BUAD 111 Registration Restriction: Enrollment limited to students in the World Bachelor in Business degree program Instruction Mode: Lecture Grading Option: Letter

BUAD 200x Economic Foundations for Business
Units: 2 Terms Offered: FaSp Examines fundamental concepts of both microeconomics and macroeconomics as they pertain to business and financial decisions. Credit Restriction: Not available for degree credit to business majors. Instruction Mode: Lecture Grading Option: Letter

BUAD 204x Introduction to Business for Non-Majors
Units: 4 Terms Offered: FaSpSm Introduction to the principles and practices of businesses, sequence of exercises developing the basic skills, and influence of the economy on business and individual decisions. Registration Restriction: Not open to accounting and business majors Credit Restriction: Not available for credit for business or accounting majors Instruction Mode: Lecture Grading Option: Letter

BUAD 206 Transfer International Experience
Units: 2 Max Units: 04 Terms Offered: Sp Experiential study of international commerce. Analysis of the impacts of global and international business on an industry. International travel required. Graded: C/NC. Registration Restriction: Open only to transfer business and accounting majors Instruction Mode: Lecture Grading Option: Credit/No Credit

BUAD 206a Transfer International Experience
Units: 1 Max Units: 02 Terms Offered: Fa Experiential study of international business. Analysis of the impacts of global and international business on an industry. International travel required. Graded: C/NC. Registration Restriction: Open only to transfer business and accounting majors Instruction Mode: Lecture Grading Option: Credit/No Credit

BUAD 206b Transfer International Experience
Units: 1 Max Units: 02 Terms Offered: Sp Experiential study of international business. Analysis of the impacts of global and international business on an industry. International travel required. Graded: C/NC. Prerequisite: BUAD 206a Registration Restriction: Open only to transfer business and accounting majors Instruction Mode: Lecture Grading Option: Credit/No Credit

BUAD 215x Foundations of Business Finance
Units: 4 Terms Offered: FaSpSm Principles and practices of modern financial management; use of financial statements; valuation of investment; asset pricing under
uncertainty; elements of financial decisions. 
Registration Restriction: Not open to 
teaching and business majors Credit 
Restriction: Not available for degree credit for 
accounting or business administration 
majors. Duplicates Credit in BUAD 306 
and BUAD 308 Instruction Mode: Lecture 
Grading Option: Letter.

BUAD 252 Choosing and Planning a 
Future Career in Business 
Units: 2 Terms Offered: FaSpSm Explore and 
plan for future career choices and 
options in business. Learn theoretical 
principles, best practices and strategies, 
and contemporary workplace issues/trends. 
Instruction Mode: Lecture Grading Option: 
Credit/No Credit.

BUAD 280 Introduction to Financial 
Accounting 
Units: 3 Terms Offered: FaSpSm Emphasis on 
understanding financial statements and 
the impact of business transactions on 
information presented to management and 
interested stakeholders. Duplicates Credit in 
BUAD 305 Instruction Mode: Lecture 
Grading Option: Letter.

BUAD 281 Introduction to Managerial 
Accounting 
Units: 3 Terms Offered: FaSpSm An 
emphasis on how accounting information, 
combined with a variety of techniques and 
best practices, supports enhanced 
management decision making. Prerequisite: 
BUAD 280 Duplicates Credit in BUAD 305 
Instruction Mode: Lecture Grading Option: 
Letter.

BUAD 301 Technology Entrepreneurship 
Units: 3 Terms Offered: FaSpSm Starting and 
managing a technological business: 
developing a viable concept, market and 
financial planning, product development, 
organizing the venture, protecting 
intellectual property rights. Duplicates 
Credit in BAEP 310, BAEP 423, BAEP 450, 
BAEP 451. Instruction Mode: Lecture 
Grading Option: Letter Crosslisted as 
ENGR-301.

BUAD 302 Communication Strategy in 
Business 
Units: 4 Terms Offered: FaSpSm Theory, 
practices, and techniques of business 
communication strategy essential to 
external and organizational communication; 
group and interpersonal communication; 
development of skill in oral and written 
communication. Duplicates Credit in the 
former BUAD 302T Instruction Mode: 
Lecture Grading Option: Letter.

BUAD 304 Organizational Behavior and 
Leadership 
Units: 4 Terms Offered: FaSpSm The role 
of leadership in business organizations; 
concepts and skills for managing oneself 
and others. Registration Restriction: Open 
only to freshmen, sophomores and juniors. 
Instruction Mode: Lecture Grading Option: 
Letter.

BUAD 305 Abridged Core Concepts of 
Accounting Information 
Units: 4 Terms Offered: FaSp Uses of 
accounting information in decision-making; 
accounting issues concerning income 
and cash flows, economic resources and 
capital. Registration Restriction: Open only 
to transfer business and accounting majors. 
Duplicates Credit in BUAD 280 and BUAD

BUAD 281 Instruction Mode: Lecture 
Grading Option: Letter.

BUAD 306 Business Finance 
Units: 4 Terms Offered: FaSpSm Financial 
problems of business enterprise; function 
of financial manager; sources of funds; 
investment, institutions, and practices of 
finance; problems of financial management 
using case studies. Recommended 
Preparation: Foundation courses in 
microeconomics, financial accounting, 
and business statistics. Duplicates Credit in 
BUAD 215X and BUAD 308 Instruction 
Mode: Lecture Grading Option: Letter.

BUAD 307 Marketing Fundamentals 
Units: 4 Terms Offered: FaSpSm Develop 
a managerial viewpoint in planning, 
executing, and evaluating marketing 
decisions of the firm, including decisions 
related to products, pricing, distribution 
channels and promotion. Instruction Mode: 
Lecture, Discussion Grading Option: Letter.

BUAD 308 Advanced Business Finance 
Units: 4 Terms Offered: FaSpSm Rigorous 
coverage of principles and practices of 
financial management; valuation of cash 
flows; capital budgeting; risk and return; 
cost of capital; corporate financial policy. 
Recommended Preparation: Foundation courses in 
macroeconomics, financial accounting, 
and business statistics. Duplicates Credit in BUAD 215 and BUAD 
306 Instruction Mode: Lecture Grading Option: Letter.

BUAD 310g Applied Business Statistics 
Units: 4 Terms Offered: FaSpSm Statistical 
methods for business analysis; data 
exploration and description; sampling 
distributions; estimation; hypothesis testing, 
simple and multiple regression; model 
building. Extensive computer applications. 
(Duplicates credit in BUAD 312g and the 
former ITP 251.) Satisfies New General 
Education in Category F: Quantitative Reasoning. 
Registration Restriction: Open only to 
undergraduate students. Duplicates Credit in 
BUAD 311g and the former ITP 251 Instruction 
Mode: Lecture, Discussion Grading Option: Letter.

BUAD 311 Operations Management 
Units: 4 Terms Offered: FaSpSm Fundamentals of 
operations management. Skills needed to 
analyze, manage, and 

BUAD 351 Economic Analysis for 
Business Decisions 
Units: 4 Terms Offered: FaSpSm Theory of 
the firm in the enterprise system; 
profits, demand, and cost analysis; market 
competition and resource allocation; 
problems of size efficiency and growth. 
Prerequisite: MATH 118g or MATH 125g or 
MATH 126g or MATH 226g. Recommended 
Preparation: Introduction to economics course 
Registration Restriction: Open only to 
undergraduate students. Duplicates Credit in 
ECON 351g Instruction Mode: Lecture 
Grading Option: Letter.

BUAD 352 Macroeconomic Analysis for 
Business Decisions 
Units: 4 Terms Offered: FaSpSm Behavior of 
economic indicators over business 
fluctuations, economic growth, 
monetary and fiscal policy, exchange rate 
movements. Prerequisite: ECON 203g and 
ECON 205g. Corequisite: BUAD 351 or 
ECON 351x. Registration Restriction: Open only 
to undergraduate students. Duplicates Credit in 
ECON 352x and former BUAD 350 
Instruction Mode: Lecture Grading Option: Letter.

BUAD 380 Introduction to Enterprise 
Risk Management 
Units: 4 Terms Offered: FaSp (Enroll in 
ACCT 380).

BUAD 385x Introduction to Risk 
Management and Insurance 
Units: 4 Terms Offered: Fa (Enroll in ACCT 
385x).

BUAD 387x Risk Management in 
Entertainment, Sports and the Arts 
Units: 4 Terms Offered: FaSp (Enroll in 
ACCT 387).

BUAD 388x Innovating Risk Solutions in 
Disruptive Environments 
Units: 4 Terms Offered: FaSp (Enroll in 
ACCT 388).

BUAD 390 Special Problems 
Units: 1, 2, 3, 4 Supervised, individual 
studies. No more than one registration 
permitted. Enrollment by petition only. 
Instruction Mode: Lecture Grading Option: 
Letter.

BUAD 425 Introduction to Business 
Analytics 
Units: 2 Terms Offered: FaSpSm 
Leveraging large corporate datasets; slice 
and dice data; dashboards; data mining 
and statistical tools; neural network; 
multiple and logistic regression; decision 
tree; gain inference and decision making; 
clustering. Prerequisite: (BUAD 281 or 
BUAD 305) and BUAD 302 and BUAD 
304 and (BUAD 306 or BUAD 308) and
BUAD 307 and (BUAD 310 or BUAD 312) and BUAD 311 Instruction Mode: Lecture Grading Option: Letter

BUAD 490x Directed Research Units: 1 - 2, 3, 4, 5, 6, 7, 8 Max Units: 12.0 Terms Offered: FaSpSm Individual research and readings under the supervision of a faculty advisor. Application and proposal required. Credit Restriction: Not available for graduate credit. Instruction Mode: Lecture Grading Option: Letter

BUAD 493 Marshall Honors Research Seminar Units: 2 Terms Offered: Sp Provides the methodological tools to identify research questions and develop compelling hypotheses, apply appropriate methodologies, conduct research, derive meaningful conclusions from data, write a research proposal. Registration Restriction: Open only to Business and Accounting majors Instruction Mode: Lecture Grading Option: Letter

BUAD 494 Marshall Honors Research and Thesis Units: 2 Max Units: 04 Terms Offered: FaSpSm Experience in conducting research and writing a thesis under the supervision of a faculty adviser. Prerequisite: ACCT 493 or BUAD 493 Registration Restriction: Open only to students in the Marshall Honors program Duplicates Credit in ACCT 494 Instruction Mode: Lecture Grading Option: Credit/No Credit

BUAD 495 Practicum in Business Issues (Internship) Units: 1 Max Units: 12.0 Combined class lecture, discussion, and supervised practicum experience in the business world. Instruction Mode: Lecture Grading Option: Credit/No Credit

BUAD 497 Strategic Management Units: 4 Terms Offered: FaSpSm Examination of managerial decision-making, planning, and policy, with an emphasis on changing environments: readings, cases, exercises, simulations. Prerequisite: (ACCT 410x or BUAD 281 or BUAD 305) and BUAD 302 and BUAD 304 and BUAD 307 and (BUAD 310g or BUAD 312g) and (BUAD 351 or ECON 351x) and (BUAD 352 or ECON 352x) Instruction Mode: Lecture Grading Option: Credit/No Credit

BUAD 498 Special Topics Units: 1, 2, 3, 4 Max Units: 08 Terms Offered: Irregular Selected topics reflecting current trends and recent developments in business. (Graded CR/NC) Instruction Mode: Lecture Grading Option: Credit/No Credit

BUAD 499 Special Topics Units: 2, 3, 4 Max Units: 08 Terms Offered: FaSpSm Current developments in the field of business communication. Topics vary from semester to semester. Instruction Mode: Lecture Grading Option: Letter

BUCO 303 Advanced Managerial Communication Units: 3 Terms Offered: FaSpSm Optimize individual, interpersonal communication dynamics and advance skill development through executive coaching model and applied business communication theory. Recommended Preparation: prior course work or experience in management or business communication Registration Restriction: Online registration open only to graduate business and accounting students Instruction Mode: Lecture Grading Option: Letter

BUCO 504T Writing for Accounting and Tax Professionals Units: 3 Terms Offered: FaSpSm Effective written communication for accounting and tax professionals. Registration Restriction: Open only to graduate accounting and taxation students Instruction Mode: Lecture Grading Option: Letter

BUCO 533 Managing Communication in Organizations Units: 1.5, 3 Terms Offered: FaSpSm Analyze, design, develop, and present theory-based communication solutions and strategies to sophisticated interpersonal, group, organizational, and environmental communication issues and problems. Recommended Preparation: GSBA 502 or GSBA 523 or GSBA 542. Registration Restriction: Open only to graduate business and accounting students. Instruction Mode: Lecture Grading Option: Letter

BUCO 534 Unconscious Bias, Diversity and Inclusion Units: 1 Terms Offered: FaSpSm The knowledge, tools, and strategies needed to manage and leverage diversity, inclusion, and equity to achieve organizational effectiveness and success. Registration Restriction: Open only to students in the MS in Food Industry Leadership program Instruction Mode: Lecture Grading Option: Letter

BUCO 552 Defining and Communicating Your Professional Value Units: 1.5 Terms Offered: FaSpSm Understand how to define and communicate your individual professional identity and value to employers across diverse professional fields using specialized applied tools. Registration Restriction: Online registration open only to graduate business and accounting majors Instruction Mode: Lecture Grading Option: Letter

BUCO 590 Directed Research Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Terms Offered: FaSpSm Research leading to the master's degree. Maximum units which may be applied to the degree to be determined by the department. Instruction Mode: Lecture Grading Option: Credit/No Credit
BUCO 592 Field Research in Management Communication
Units: 0.5, 1, 1.5, 2, 2.5, 3, 3.5, 4 Max Units: 12.0 Terms Offered: FaSpSm
Individual or team projects studying the communication practices of an industry, company, government agency, country, geographic region, etc. Proposal, data collection, analyses, and written report. Recommended Preparation: completion of required MBA course work. Registration Restriction: Open only to master and doctoral students. Instruction Mode: Lecture Grading Option: Credit/No Credit

BUCO 593 Independent Research in Management Communication
Units: 0.5, 1, 1.5, 2, 2.5, 3, 3.5, 4 Max Units: 12.0 Terms Offered: FaSpSm
Independent research beyond normal course offerings. Proposal, research and written report/paper required. Registration Restriction: Open only to master's students. Instruction Mode: Lecture Grading Option: Credit/No Credit

BUCO 595 Internship in Management Communication
Units: 0.5, 1, 1.5, 2 Max Units: 9.0 Terms Offered: FaSpSm
Hands-on practical experience working with a Management Communication faculty member on an ongoing research project. Registration Restriction: Open only to master and doctoral students. Instruction Mode: Lecture Grading Option: Credit/No Credit

BUCO 596 Research Practicum in Management Communication
Units: 0.5, 1, 1.5, 2 Max Units: 8.0 Terms Offered: FaSpSm
Field research, analyses and oral and written presentations. Registration Restriction: Open only to Master and Doctoral Students. Instruction Mode: Lecture Grading Option: Credit/No Credit

BUCO 597 Consulting Project in Management Communication
Units: 0.5, 1, 1.5, 2, 2.5, 3, 3.5, 4, 4.5, 5 Max Units: 12.0 Terms Offered: FaSpSm
Individual or team project solving real business problems for an existing business entity, domestic and/or international. Proposal, field research, analyses and oral and written presentations. Registration Restriction: Open only to Business and Accounting master students. Instruction Mode: Lecture Grading Option: Credit/No Credit

BUCO 598 Topics in Management Communication
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9 Max Units: 9.0 Current developments in the field of business communication. Topics vary from semester to semester. Registration Restriction: Open only to graduate business and accounting students. Instruction Mode: Lecture Grading Option: Letter

BUCO 634 Presenting Your Research
Units: 1 Terms Offered: FaSpSm
Oral presentation skills for academic and professional conferences and teaching. Registration Restriction: Open only to doctoral students. Instruction Mode: Lecture Grading Option: Letter

BUCO 635 Preparing for the Academic Job Market
Units: 1 Terms Offered: FaSpSm
Creating job application packets; writing research and teaching philosophy statements; interviewing; preparing the job talk. Registration Restriction: Open only to doctoral students. Instruction Mode: Lecture Grading Option: Letter

BUCO 636 Communication for Doctoral Students: Tutorial
Units: 1 Max Units: 4.0 Individualized tutorial focusing on academic writing and presentation skills for dissertations, conference papers, and journal articles. Prerequisite: BUO 633 or BUO 634 or BUO 635. Instruction Mode: Lecture Grading Option: Credit/No Credit

BUCO 637 Communication for Doctoral Students: Succeeding as a Teacher
Units: 1 Terms Offered: Sm Theories of teaching and learning; strategies for developing course materials; practical advice for managing common challenges; lecturing, leading discussion, creating in-class activities. Instruction Mode: Lecture Grading Option: Credit/No Credit

Cancer Biology and Genomics
CBG 504 Molecular Biology of Cancer
Units: 4, 2 years Terms Offered: Fa (Enroll in INTD 504)
CBG 574 Cancer Biology and Genomics Research Seminar Series
Units: 1 Terms Offered: FaSpSm
Cancer biology research seminar for doctoral students enrolled in the CBG program. Registration Restriction: Open only to doctoral students in Cancer Biology and Genomics Instruction Mode: Lecture Grading Option: Letter

CBG 580 Topics in Cancer (Epi) Genomics
Units: 1.0 Max Units: 12.0 Terms Offered: FaSpSm
Selected topics in Cancer Biology and Genomics including review of contemporary literature and research. Instruction Mode: Lecture Grading Option: Letter

CBG 599 Special Topics
Units: 1, 2, 3, 4, 5, 6, 7, 8 Max Units: 08 Special topics selected to reflect current trends and new developments in Cancer Biology and Genomics. Instruction Mode: Lecture Grading Option: Letter

CBG 790 Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Terms Offered: FaSpSm Research leading to the doctorate. Maximum units which may be applied to the degree to be determined by the department. Instruction Mode: Lecture Grading Option: Credit/No Credit

CBG 794a Doctoral Dissertation
Units: 2 Terms Offered: FaSpSm
on acceptance of dissertation. Registration Restriction: Open only to doctoral students. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

CBG 794b Doctoral Dissertation
Units: 2 Terms Offered: FaSpSm
on acceptance of dissertation. Registration Restriction: Open only to doctoral students. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

Craniofacial Biology
CBY 561 Molecular Biology
Units: 4 Terms Offered: Fa (Enroll in INTD 561)
CBY 571 Biochemistry
Units: 4 Terms Offered: Sp (Enroll in INTD 571)
CBY 573 Molecular Embryology
Units: 4 Principles of developmental biology; emphasis on molecular genetics and cell and molecular mechanisms of tissue interaction and morphodifferentiation.

CBY 574 Statistical Methods in Bioexperimentation
Units: 3 Experimental design and analysis as applied to all levels of biologic organization; hypothesis construction; probability; univariate and multivariate analysis; basic epidemiology.

CBY 575 Biologic Basis of Oral-facial Disease
Units: 3 Terms Offered: FaSpSm
Cell and molecular biology of oral tissues in disease; emphasis on molecular oral pathology. Duplicates Credit in former CBY 575a.

CBY 576 Biochemical Aspects of Periodontal Disease
Units: 3 Terms Offered: FaSpSm
Cell and molecular biology of oral tissues in disease; emphasis on molecular oral pathology. Duplicates Credit in former CBY 575b.

CBY 578 Pathological Conditions of the Craniofacial Complex
Units: 3 Terms Offered: FaSpSm
Acquired and inherited, systemic and local disease resulting in clinical craniofacial morbidity: cellular and molecular expression as related to etiology, diagnosis, treatment, and prognosis.

CBY 579L Craniofacial Molecular Genetics
Units: 4 Principles and methodologies of mammalian molecular genetics; laboratory exercises applied to pre- and postnatal craniofacial growth and development.

CBY 580a Seminars in Craniofacial Biology
Units: 2 Seminars presented by recognized researchers in the various disciplines relating to craniofacial biology; selected readings in preparation for discussion. Grading Option: Graded CR/NC.
CBY 580b Seminars in Craniofacial Biology
Units: 2 Seminars presented by recognized researchers in the various disciplines relating to craniofacial biology; selected readings in preparation for discussion. Grading Option: Graded CR/NC.

CBY 582L Laboratory Methods
Units: 5 Contemporary methods of laboratory analysis, including theoretical and practical exposure to procedures and equipment in the research laboratory.

CBY 583 Craniofacial Clinical Genetics
Units: 4 Principles of human genetics; clinically oriented normal and abnormal human embryology; diagnosis and natural history of human craniofacial birth defects; genetic counseling and bioethics.

CBY 585 Systematic Research Writing
Units: 3 Terms Offered: FaSpSm Enhancements of critical research thinking by fulfilling anticipated conceptual components of the journal article; perfection of writing skills by correcting inter- and intra-sentence flaws.

CBY 586x Scientific Writing Practicum
Units: 2 Seminar and tutorial format. Not for graduate credit. Prerequisite: CBY 585 or DENT 402.

CBY 587 Cell and Molecular Biology of Craniofacial Tissues
Units: 3 Contemporary cell and molecular biology as applied to the development, structure, and function of craniofacial tissues.

CBY 589 Craniofacial Biology
Units: 4 Terms Offered: FaSpSm Provides comprehensive knowledge and essential research concepts of Craniofacial Biology, building the foundation for independent laboratory research training. Registration Restriction: Open only to Graduate Visitors and Master students Instruction Mode: Lecture Grading Option: Letter

CBY 590 Directed Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Research leading to the master's degree. Maximum units which may be applied to the degree to be determined by the department. Grading Option: Graded CR/NC.

CBY 594a Master's Thesis
Units: 2 Credit on acceptance of thesis. Grading Option: Graded IP/CR/NC.

CBY 594b Master's Thesis
Units: 2 Credit on acceptance of thesis. Grading Option: Graded IP/CR/NC.

CBY 594c Master's Thesis
Units: 2 Credit on acceptance of thesis. Grading Option: Graded IP/CR/NC.

CBY 594d Doctoral Dissertation
Units: 2 Credit on acceptance of dissertation. Grading Option: Graded IP/CR/NC.

CBY 794a Doctoral Dissertation
Units: 2 Credit on acceptance of dissertation. Grading Option: Graded IP/CR/NC.

CBY 794b Doctoral Dissertation
Units: 2 Credit on acceptance of dissertation. Grading Option: Graded IP/CR/NC.

CBY 794c Doctoral Dissertation
Units: 2 Credit on acceptance of dissertation. Grading Option: Graded IP/CR/NC.

CBY 794d Doctoral Dissertation
Units: 0 Credit on acceptance of dissertation. Grading Option: Graded IP/CR/NC.

Cognitive Science
CGSC 490x Directed Research
Units: 1, 2, 3, 4, 5, 6, 7, 8 Max Units: 12 Terms Offered: FaSpSm Individual research and readings. Registration Restriction: Open only to Juniors and Seniors in the Cognitive Science major Credit Restriction: Not available for graduate credit Instruction Mode: Lecture Grading Option: Letter

CGSC 498 Honors Thesis
Units: 4 Terms Offered: FaSp Writing of the honors thesis. Registration Restriction: Open only to seniors in Cognitive Science Honors Instruction Mode: Lecture Grading Option: Letter

Civil Engineering
CE 106 Introduction to Civil Engineering
Units: 2 Terms Offered: Fa Introduction to the civil engineering discipline, subdisciplines, technology and problem solving; technical report writing; contemporary civil engineering topics; engineering ethics. Instruction Mode: Lecture Grading Option: Letter

CE 107L Introduction to Civil Engineering Graphics
Units: 2 Terms Offered: FaSp Graphic communication and drawing; Free-hand sketching; Use of CAD software; Drawing in 2-D, including lettering, dimensioning, and detailing; Drawing and modeling in 3-D. Instruction Mode: Lecture, Lab Required Grading Option: Letter

CE 108 Introduction to Computer Methods in Civil Engineering
Units: 2 Terms Offered: Sp Computer programming, organization of problems for computational solution, flow charts, programming; numerical methods; analysis and solution of civil engineering problems. Instruction Mode: Lecture, Lab Grading Option: Letter

CE 110 Introduction to Environmental Engineering
Units: 2 Terms Offered: Fa Basic concepts of environmental engineering including topics of water, land, energy, air, climate, resource management, human society and professional development. Instruction Mode: Lecture Grading Option: Letter

CE 119 Probability Concepts and Civil Engineering
Units: 2 Terms Offered: Sp Fa Elements of statistical data exploration, interpretation and analysis. Corequisite: MATH 245 Instruction Mode: Lecture, Discussion Grading Option: Letter

CE 215 Statics and Dynamics
Units: 4 Terms Offered: Fa Statics, kinematics and kinetics of systems of particles and rigid bodies; equivalent force systems; distributed forces and applications; moments of inertia, momentum, energy; vibrations; Euler's equations. Prerequisite: PHYS 151Lg Duplicates Credit in former CE 205 and former CE 235 Instruction Mode: Lecture, Discussion Grading Option: Letter

CE 225 Mechanics of Deformable Bodies
Units: 4 Terms Offered: FaSp Analysis of stress and strain; axial, flexural, and torsional behavior of slender bars; elastic deflections; combined stresses; introduction to elastic stability and energy methods. Prerequisite: CE 215 Instruction Mode: Lecture, Discussion Grading Option: Letter

CE 309 Fluid Mechanics
Units: 4 Terms Offered: FaSp Fluid statics; relative velocity field; total acceleration; divergence theorem; conservation of mass, energy, and momentum applied to engineering problems in laminar and turbulent flow. Prerequisite: MATH 226g or MATH 229 Corequisite: CE 225 Instruction Mode: Lecture Grading Option: Letter

CE 334L Mechanical Behavior of Materials
Units: 4 Terms Offered: Fa Basic material science, atomic bonding, crystalline structures, structural and mechanical behavior and characterization of metals, concrete, wood, composites and asphalt. Prerequisite: (CE 225 or AME 204) and (CHEM 105aLg or CHEM 115aLg) and PHYS 152L Instruction Mode: Lecture, Lab Required Grading Option: Letter Crosslisted as MASC 334

CE 358L Elementary Theory of Structures
Units: 4 Terms Offered: Fa Deformations and deflections of elastic systems; statically indeterminate beams, arches, and frames; secondary stresses; computer analysis of simple structural systems. Prerequisite: CE 225 Instruction Mode: Lecture, Discussion, Lab Required Grading Option: Letter
CE 363L Water Chemistry and Analysis
Units: 4 Terms Offered: Sp
Course Description: This course provides an introduction to the chemistry of water and its importance in environmental science. Topics include water quality standards, aquatic ecosystems, and water treatment processes.
Prerequisites: CHEM 105BL and CHEM 105BS

CE 410L Introduction to Environmental Engineering Microbiology
Units: 4 Terms Offered: Fa
Course Description: This course covers the fundamentals of environmental microbiology, including the role of microorganisms in environmental processes. Topics include microbial communities, biodegradation, and wastewater treatment.
Prerequisites: BIOL 101L and BIOL 101S

CE 412 Construction Contracts and Law
Units: 2 Terms Offered: Fa
Course Description: This course covers the legal aspects of construction contracts, including negotiation, drafting, interpretation, and enforcement.
Prerequisites: CE 300 and CE 301

CE 428 Mechanics of Materials
Units: 3 Terms Offered: Fa
Course Description: This course covers the fundamentals of mechanics of materials, including stress, strain, and deformation of elastic and plastic materials.
Prerequisites: CE 300 and CE 301

CE 433 Environmental Chemistry
Units: 3 Terms Offered: Sp
Course Description: This course provides an introduction to environmental chemistry, focusing on the chemical processes involved in environmental systems.
Prerequisites: CHEM 115BL and CHEM 115BS

CE 443 Environmental Microbiology
Units: 2 Terms Offered: Sp
Course Description: This course covers the role of microorganisms in environmental systems, including waste treatment and bioremediation.
Prerequisites: BIOL 101L and BIOL 101S

CE 451 Water Resources and Coastal Engineering
Units: 4 Terms Offered: Fa
Course Description: This course covers the design and analysis of water resources and coastal engineering systems, including water supply, water quality, and coastal processes.
Prerequisites: CE 300 and CE 301

CE 456 Structural Design I
Units: 4 Terms Offered: Fa
Course Description: This course covers the fundamentals of structural design, including materials, loads, and loads analysis.
Prerequisites: CE 300 and CE 301

CE 458 Computational Structural Analysis
Units: 4 Terms Offered: Sp
Course Description: This course covers the computational methods used in structural analysis, including finite element analysis and computer-aided design.
Prerequisites: CE 300 and CE 301

CE 460 Construction Engineering
Units: 4 Terms Offered: Fa
Course Description: This course covers the principles of construction engineering, including site selection, project planning, and construction management.
Prerequisites: CE 300 and CE 301

CE 461 Construction Estimating
Units: 4 Terms Offered: Fa
Course Description: This course covers the principles of construction estimating, including cost analysis, bidding, and contract administration.
Prerequisites: CE 300 and CE 301

CE 462 Construction Methods and Equipment
Units: 2 Terms Offered: Fa
Course Description: This course covers the principles of construction methods and equipment, including building codes, materials, and equipment.
Prerequisites: CE 300 and CE 301

CE 465 Water Supply and Sewerage System Design
Units: 4 Terms Offered: Fa
Course Description: This course covers the design of water supply and sewage systems, including water distribution, wastewater collection, and treatment.
Prerequisites: CE 300 and CE 301

CE 467 Geotechnical Engineering
Units: 4 Terms Offered: Fa
Course Description: This course covers the principles of geotechnical engineering, including soil mechanics, rock mechanics, and foundation design.
Prerequisites: CE 300 and CE 301

CE 479 Sustainable Design and Construction
Units: 2 Terms Offered: Fa
Course Description: This course covers the principles of sustainable design and construction, including green building practices and sustainable materials.
Prerequisites: CE 300 and CE 301
in Energy and Environmental Design (LEED); green building strategies; carbon footprinting; calculating the embodied energy of building materials; cyclical processes in design and construction. Instruction Mode: Lecture Grading Option: Letter

CE 470 Building Information Modeling: Project Visualization and Simulation for Management
Units: 4 Terms Offered: Sp Building Information Modeling, current BIM technologies; coordination of design and construction; information management throughout building lifecycle; project visualization and simulation for integrated practice. Registration Restriction: Open only to juniors, seniors and graduate students Instruction Mode: Lecture Grading Option: Letter

CE 471 Principles of Transportation Engineering
Units: 4 Terms Offered: Fa Planning, design, construction, maintenance, and operation of facilities for air, water, rail and highway transit systems. Prerequisite: MATH 226g or MATH 227 or MATH 229 Instruction Mode: Lecture Grading Option: Letter

CE 473 Engineering Law, Finance and Ethics
Units: 3 Terms Offered: Fa An examination of the legal, financial and ethical issues regularly considered by all practicing engineers. Registration Restriction: Upper division standing. Instruction Mode: Lecture Grading Option: Letter

CE 476 Design of Hydraulic Systems
Units: 4 Terms Offered: Fa Design of pressurized and free surface hydraulic systems, piping networks, surge suppression, pumps, turbines, submarine outfalls, water wave interactions with marine structures, breakwater design. Prerequisite: CE 309 Duplicates Credit in former CE 466 Instruction Mode: Lecture Grading Option: Letter

CE 480 Civil and Environmental Engineering Capstone Design
Units: 4 Terms Offered: Sp Civil and Environmental Engineering capstone design project incorporating all disciplines of Civil Engineering and Environmental Engineering. Prerequisite: CE 408 and (CE 456 or CE 457 or CE 476 or CE 485) Instruction Mode: Lecture Grading Option: Letter

CE 482 Subsurface Foundation Design
Units: 4 Terms Offered: Fa Site exploration and characterization; analysis and design of structural foundations, including spread footings, mats, piles and drilled shafts; retaining wall and braced excavation design. Prerequisite: CE 467 Instruction Mode: Lecture Grading Option: Letter

CE 484 Water Treatment Design
Units: 4 Terms Offered: Fa Predesign studies, precipitation softening, coagulation and flocculation, sedimentation, filtration, sludge handling, chlorination, chloramination, ozonation, flow measurement, pumps, instrumentation, and control, tertiary treatment. Prerequisite: CE 451. Instruction Mode: Lecture Grading Option: Letter

CE 485 Water and Wastewater Treatment Design
Units: 4 Terms Offered: Sp Engineering design of unit operations and processes for water and wastewater treatment: coagulation, sedimentation, filtration, disinfection; primary, secondary, tertiary, advanced treatment; sludge treatment and processing. Prerequisite: CE 453 and CE 363 Instruction Mode: Lecture Grading Option: Letter

CE 486a Innovation in Engineering and Design for Global Crises
Units: 3 Terms Offered: Fa Engineering innovation to design products, services and technologies with a human-centered approach to help solve the needs of people affected by global crises. Instruction Mode: Lecture Grading Option: Letter

CE 486b Innovation in Engineering and Design for Global Crises
Units: 3 Terms Offered: Sp Engineering innovation to design products, services and technologies with a human-centered approach to help solve the needs of people affected by global crises. Prerequisite: CE 486a Instruction Mode: Lecture Grading Option: Letter

CE 490x Directed Research
Units: 1, 2, 3, 4, 5, 6, 7, 8 Max Units: 12.0 Individual research and readings. Credit Restriction: Not available for graduate credit. Instruction Mode: Lecture Grading Option: Letter

CE 495 Seminars in Civil Engineering
Units: 1 Terms Offered: FaSp Information necessary for successful transition to engineering practice with emphasis on substantive engineering topics, employee rights and responsibilities, communication skills, ethic and lifelong learning. Registration Restriction: Open only to upper division engineering majors. Instruction Mode: Lecture Grading Option: Credit/No Credit

CE 499 Special Topics
Units: 2, 3, 4 Max Units: 8.0 Course content to be selected each semester from recent developments in civil engineering and related fields. Instruction Mode: Lecture Grading Option: Letter

CE 501 Construction Practices
Units: 4 Terms Offered: FaSp Systems, processes, and constraints governing the initiation, direction, engineering, and delivery of major construction projects. Professional construction management, responsibilities, and practice. Instruction Mode: Lecture Grading Option: Letter

CE 502 Construction Accounting, Finance and Strategy
Units: 4 Terms Offered: FaSp Fundamental accounting principles, financial analysis and financial control, strategic management and a review of alternative project delivery methods. Instruction Mode: Lecture Grading Option: Letter Crosslisted as ENE-502

CE 503 Microbiology for Environmental Engineer
Units: 3 Basic microbiology of water, air, and soil. Application of microbiology to the practice of environmental pollution control. Instruction Mode: Lecture Grading Option: Letter Crosslisted as ENE-503

CE 504 Solid Waste Management
Units: 3 Characterization, production, storage, collection, and transport of solid wastes; alternative disposal methods; design principles and environmental impact; management of radiological solid wastes. Instruction Mode: Lecture Grading Option: Letter Crosslisted as ENE-504

CE 505 Data Management for Civil and Environmental Engineering
Units: 2 Terms Offered: Fa The basics of databases and database management systems as applied to engineering problems. Introduction to data mining concepts, techniques and knowledge discovery in database principles. Instruction Mode: Lecture Grading Option: Letter

CE 506 Heavy Construction Estimating
Units: 3 Terms Offered: Fa Methods engineering, work analysis and pricing for route construction. Grading, draining, paving, haul economy, plant-materials production, pipeline and bridge building. Instruction Mode: Lecture Grading Option: Letter

CE 507 Mechanics of Solids I
Units: 4 Terms Offered: Fa Fundamental theory of linear elasticity applicable to multiple branches of solid mechanics. Recommended Preparation: Expected to have knowledge of mechanics of deformable bodies or solid mechanics on the level of CE 225 or AME 204 Instruction Mode: Lecture Grading Option: Letter Crosslisted as AME 507

CE 508 Mechanics of Solids II
Units: 3 Thermal stresses; introduction to elastic stability; yield criteria; constitutive equations for elastoplastic materials; elastoplasticity; viscoplasticity and creep. Prerequisite: CE 507 or CE 428. Instruction Mode: Lecture Grading Option: Letter

CE 509 Mechanics of Solids III
Units: 3 Advanced topics in mechanics of solids; complex variable methods for plane problems; three-dimensional problems; introduction to fracture mechanics. Prerequisite: CE 507. Instruction Mode: Lecture Grading Option: Letter

CE 510 Groundwater Management
Units: 3 Groundwater hydrology, aquifer testing technology, groundwater quality and contamination, geophysical method, well design and development, basin water balance, computer modeling, legal aspects, groundwater management system. Instruction Mode: Lecture Grading Option: Letter

CE 511 Flood Control Hydrology
Units: 3 Flood frequency, storm characteristics, net rain; surface drainage, peak discharge, flood runoff. Instruction Mode: Lecture Grading Option: Letter

CE 514a Advanced Sanitary Engineering Design
Units: 3 Design of water and wastewater treatment works. Prerequisite: CE 453. Instruction Mode: Lecture Grading Option: Letter Crosslisted as ENE-514a

CE 514b Advanced Sanitary Engineering Design
Units: 3 Design of water and wastewater treatment works. Prerequisite: CE 453. Instruction Mode: Lecture Grading Option: Letter Crosslisted as ENE-514b
CE 516 Geohydrology
Units: 3 Principles of groundwater motion; aquifer characteristics, prospecting, practical engineering problems, well design, maintenance and rehabilitation; hydrodynamic dispersion, field testing essentials and procedures, groundwater quality, artificial recharge. Instruction Mode: Lecture Grading Option: Letter

CE 517 Industrial and Hazardous Waste Treatment and Disposal
Units: 3, 2 years Terms Offered: Sm Physical, chemical, and biological treatment processes for industrial and hazardous wastes; pretreatment systems, biodegradation of toxic chemicals; groundwater and soil decontamination; biofilters for air decontamination. Prerequisite: CE 463L Instruction Mode: Lecture Grading Option: Letter Crosslisted as ENE-517

CE 518 Carbon Capture and Sequestration
Units: 3 The needs for carbon capture and sequestration (CCS) and systematic introduction to CCS technologies. Main topics include: introduction to global change, world energy consumption, greenhouse gases control, carbon capture and separation, and carbon sequestration. Instruction Mode: Lecture Grading Option: Letter

CE 519 Transportation Engineering

CE 520 Ocean and Coastal Engineering
Units: 4 Terms Offered: Sp Introduction to coastal engineering. Basic wave kinematics and dynamics, long wave theory, tsunamis, effects of climate change and coastal reliability. Recommended Preparation: Knowledge of fluid mechanics on the level of PHYS 272L or ENE 410, and partial differential equations on the level of CE 526 Duplicates Credit in former CE 520a and former CE 520b Instruction Mode: Lecture Grading Option: Letter

CE 522 Groundwater Hydrologic Modeling
Units: 3 Simulation of groundwater hydrologic processes through mathematical, analog, and physical models. Instruction Mode: Lecture Grading Option: Letter

CE 523 Physiochemical Processes in Environmental Engineering
Units: 4 Terms Offered: Fa Concepts and applications of physicochemical processes in engineered systems, including coagulation, sedimentation, filtration, adsorption and membrane processes. Prerequisite: CE 453 Recommended Preparation: CE 363L and CE 485 Instruction Mode: Lecture Grading Option: Letter Crosslisted as ENE 523

CE 525 Engineering Mathematical Analysis
Units: 3 Terms Offered: Sp Engineering problems discussed on a physical basis with solutions via mathematical tools: Vector analysis; functions of complex variables, infinite series, residues and conformal mappings. Duplicates Credit in the former CE 525a. Instruction Mode: Lecture Grading Option: Letter

CE 526 Engineering Mathematical Methods
Units: 4 Terms Offered: Fa Engineering problems discussed on a physical basis with solutions via mathematical tools: Fourier series; Fourier and Laplace transforms; partial differential equations, wave and Laplace equations. Recommended Preparation: Knowledge of differential equations on the level of MATH 245 Instruction Mode: Lecture Grading Option: Letter

CE 527 Climate Change and Atmospheric Aerosols
Units: 4 Terms Offered: Fa (Enroll in ENE 527)

CE 528 Seismic Analysis and Design of Reinforced Concrete Bridges
Units: 3 Terms Offered: Sp Fundamental concepts, methods and current codes used in the analysis and design of reinforced concrete bridge structures. Experimental and earthquake observations of bridge performance. Recommended Preparation: CE 457; Recommended Preparation: CE 538. Instruction Mode: Lecture Grading Option: Letter

CE 529 Finite Element Analysis
Units: 4 Terms Offered: Fa Basic concepts; variational methods; isoparametric formulation; plane stress; plane strain; axisymmetric structures; plates and shells; structural dynamics; stability and buckling; computer applications; nonlinear analysis. Recommended Preparation: Knowledge in strength of materials equivalent to CE 225 or AME 204; Extensive knowledge of MATLAB at the level of CE 108 Duplicates Credit in former CE 529a and former CE 529b Instruction Mode: Lecture, Lab Grading Option: Letter Crosslisted as AME 528

CE 530 Nonlinear Mechanics
Units: 3 Nonlinear problems in structural dynamics; elastic-plastic response; approximate methods of nonlinear analysis; stability theory; stability of periodic nonlinear oscillations; Liapounov's method; nonlinear buckling problems. Instruction Mode: Lecture Grading Option: Letter

CE 533 Geotechnical Earthquake Engineering
Units: 4 Terms Offered: Fa Fundamental and design-oriented understanding of the "state-of-the-practice" of geotechnical earthquake engineering, related to analysis and design of foundations, slopes and retaining walls. Recommended Preparation: Knowledge of soil phase parameters and phase relations; effective stress concepts; and soil strength parameters and laboratory strength testing procedures on the level of CE 467L Instruction Mode: Lecture Grading Option: Letter

CE 534 Design of Earth Structures
Units: 3 Designed to provide a thorough understanding of the analytical and design principles underlying the construction of a broad range of earth structures. Instruction Mode: Lecture Grading Option: Letter

CE 535 Earthquake Engineering: Strong Motion Studies
Units: 2 Terms Offered: Fa Earthquake source mechanisms; wave propagation, scattering, diffraction and amplification; scaling of strong ground motion for seismic hazard analysis for earthquake resistant design. Instruction Mode: Lecture Grading Option: Letter

CE 537 Advanced Reinforced Concrete
Units: 4 Terms Offered: Fa Advanced beam flexural analysis; shear behavior of beams; beam-columns and interaction diagrams; torsion; structural wall design; analysis of D-regions; nonlinear behavior of RC systems. Recommended Preparation: CE 457; CE 225 or AME 204; CHEM 105aLg or CHEM 115aLg; PHYS 152L Instruction Mode: Lecture Grading Option: Letter

CE 538 Prestressed Concrete
Units: 2 Terms Offered: Fa Introduction to the concept, principles and applications of prestressed concrete; covers the analysis and design of prestressed concrete structures. Recommended Preparation: Expected to have knowledge of reinforced concrete design on the level of CE 457 Instruction Mode: Lecture Grading Option: Letter

CE 539 Advanced Steel Structures
Units: 4 Terms Offered: Fa Structural steel and its properties, the design of typical steel buildings and design and performance of steel buildings for earthquake loads. Recommended Preparation: Steel structure design knowledge on the level of CE 457 Instruction Mode: Lecture Grading Option: Letter

CE 540 Modeling and Analysis of Tall and Special Structures
Units: 2 Terms Offered: Sp Integration of structural modeling with analysis and design of tall and special structures to resist earthquake motion through inelastic response. Prerequisite: CE 529 and CE 541 Recommended Preparation: Experience with ETABS and SAP Instruction Mode: Lecture Grading Option: Letter

CE 541 Dynamics of Structures
Units: 4 Terms Offered: Fa Forced vibrations of discrete and distributed systems; energy methods; analytical dynamics; computational methods; approximate methods; random vibration concepts; nonstationary response; structural control; nonlinear system response. Registration Restriction: Open only to graduate students Duplicates Credit in former CE 541a and former CE 541b Instruction Mode: Lecture Grading Option: Letter

CE 542 Theory of Plates and Shells
Units: 2 Terms Offered: Sp Theory of plate bending; rectangular and circular plates; energy methods; numerical methods; vibration of plates, stability of plates, introduction to shell theory, membrane and bending stresses, cylindrical shells. Recommended Preparation: CE 358L or equivalent Instruction Mode: Lecture Grading Option: Letter Crosslisted as AME 542

CE 543 Structural Instability and Failure
Units: 4 Terms Offered: Sp Stability analysis of columns, frames, plates, circular rings and shells; Energy-based method; Dynamic analysis of structural stability; Elastic fracture mechanics; Small-strain plasticity. Recommended Preparation: Undergraduate strength of materials class on the level of
CE 545a Advanced Finite Element Method in Structural and Continuum Mechanics
Units: 3 Finite elements in nonlinear mechanics, elasticity, plasticity, viscoelasticity; advanced finite element applications in fracture mechanics, heat transfer, fluid mechanics; computational implementation of finite element method. Prerequisite: CE 529a. Instruction Mode: Lecture Grading Option: Letter

CE 546 Structural Mechanics of Composite Materials
Units: 2 Terms Offered: Sp Structural mechanics and applications of composites are discussed: anisotropic materials; laminated composites; buckling and dynamics; strength and failure; inter-laminar stresses; de-lamination; design considerations. Recommended Preparation: CE 358L or equivalent Instruction Mode: Lecture Grading Option: Letter

CE 547 Earthquake Engineering: Response of Structures
Units: 4 Terms Offered: Fa Develop skills for using current knowledge about structural response in the design of earthquake resistant structures. Instruction Mode: Lecture Grading Option: Letter

CE 548 Timber and Masonry Design
Units: 2 Terms Offered: Fa Introduction to the design of timber and masonry structures including seismic design of wood and masonry structural systems. Instruction Mode: Lecture Grading Option: Letter

CE 549 Building Design Project
Units: 3 Terms Offered: Sp Integrated design project following design office procedures. A building will be designed in detail using the team approach. Capstone for MEng in Structural Design. Prerequisite: CE 459 or CE 541a, CE 458 or CE 529a, CE 537. Corequisite: CE 539. Instruction Mode: Lecture Grading Option: Letter

CE 550 Computer-Aided Engineering Project
Units: 3 Basic concepts of computer-aided engineering, modeling; simulation; visualization; optimization; artificial intelligence; manufacturing; information management. Organization and management of computer-aided engineering projects. Instruction Mode: Lecture Grading Option: Letter

CE 551 Computer-Aided Engineering Project
Units: 3 Computer-aided engineering in a project environment. Responding to RFPs; conceptual design; preliminary analysis; overall and detailed design analysis and design; trade-off studies; project management; project presentation. Instruction Mode: Lecture Grading Option: Letter

CE 552 Managing and Financing Public Engineering Works
Units: 3 Terms Offered: FaSpSm Tools for improving the efficiency and effectiveness of public engineering works, taking into account the political and policy context. Recommended Preparation: microeconomic theory. Registration Restriction: Graduate standing. Instruction Mode: Lecture Grading Option: Letter Crosslisted as PD-552

CE 553 Biological Processes in Environmental Engineering
Units: 4 Terms Offered: Sp Design of aerobic and anaerobic biological treatment processes for organic and inorganic pollutant removal and resource recovery from waste streams. Prerequisite: CE 453 Instruction Mode: Lecture Grading Option: Letter Grading Option: PD-555

CE 554 Risk and Reliability Analysis for Civil Infrastructure Systems
Units: 3 Terms Offered: Sp Elements of feasibility, reliability, and risk analysis of civil infrastructure systems, simulation, optimization, life-cycle cost, evaluation and decision making. Instruction Mode: Lecture Grading Option: Letter

CE 555 Underwater Structures
Units: 3 Loads on underwater structures; stress analysis of typical structural elements; buckling problems; dynamic response. Prerequisite: CE 507. Instruction Mode: Lecture Grading Option: Letter

CE 557 Advanced Building Estimating
Units: 3 Terms Offered: Sp Processes in compiling a bid for construction of nonresidential building. Instruction Mode: Lecture Grading Option: Letter

CE 558 International Construction and Engineering
Units: 3 Terms Offered: Sp Business development and project management in international markets. Topics include marketing, planning, contracts and negotiations, procurement, logistics, personnel and financing. Construction operations in adverse environments. Instruction Mode: Lecture Grading Option: Letter

CE 559 Strategic Planning in Construction Engineering

CE 560 Simulation of Civil Infrastructure Systems Performance
Units: 3 Time/space and frequency/wave number domain analysis, spectral representation of wind, earthquake and other natural loads, FEM techniques for system response simulation. Instruction Mode: Lecture Grading Option: Letter

CE 561 Uncertainty Quantification and Data Analytics in Civil and Mechanical Engineering
Units: 4 Terms Offered: Fa Data analysis and interpretation in the context of civil and mechanical engineering applications with a focus on statistical aspects of data and models. Recommended Preparation: Elementary statistics and probability concepts including introduction to statistical dependence expectation and probability distribution functions on the level of CE 408 Instruction Mode: Lecture Grading Option: Letter

CE 562 Aquatic Chemistry
Units: 4 Terms Offered: Sp (Enroll in ENE 562)

CE 563 Chemistry and Biology of Natural Waters
Units: 3 Chemical and biological limnology; cycles of carbon, nitrogen, phosphorous, sulfur, and other biologically-mediated chemical transformations; effect of pollution on biology and chemistry of natural waters. Prerequisite: CE 443 and CE 453. Instruction Mode: Lecture Grading Option: Letter Crosslisted as ENE-563

CE 564 Construction Planning and Preconstruction
Units: 4 Terms Offered: Fa The steps and processes for the planning and preconstruction phases of a project using tools and technologies for budgeting, scheduling and planning. Recommended Preparation: Knowledge of construction practices at the level of CE 501 Registration Restriction: Open only to graduate students Instruction Mode: Lecture Grading Option: Letter

CE 565 Wave Propagation in Solids
Units: 3 Elastic waves in infinite and semi-infinite regions; plates and bars; steady-state and transient scattering; dynamic stress concentration; viscoelastic and plastic bodies. Instruction Mode: Lecture Grading Option: Letter

CE 566 Fundamental Concepts of Computing and Programming in Civil and Environmental Engineering
Units: 2 Terms Offered: Sp Concepts of computing and programming related to engineering; Form and operation of modern computational devices; Data structures and algorithms that support CEE software applications. Registration Restriction: Open only to civil and environmental engineering graduate students Instruction Mode: Lecture Grading Option: Letter

CE 568 Project Controls
Units: 4 Terms Offered: FaSpSm Project controls principles including costs and schedules, cost engineering concepts, schedule development, status evaluation, progress monitoring and responses to variances and changes. Duplicates Credit in former CE 556 and former CE 559 Instruction Mode: Lecture Grading Option: Letter

CE 570 Building Information Modeling for Collaborative Construction
Units: 3 Terms Offered: Sp Multidisciplinary and geographically distributed virtual project teams used to simulate engineering and construction problems for projects selected in collaboration with industry partners. Prerequisite: CE 470; Recommended
Preparation: CE 556 CE 566. Registration Restriction: Open only to Master's and Doctoral students. Instruction Mode: Lecture Grading Option: Letter

CE 572 Construction Labor Management Units: 2 Unionism in construction. Craft tradition, objectives, regulation, motivation, labor force economics, productivity, and technical change. Hiring systems, supervision of project labor operations, jurisdictional administration.

CE 573 Advanced Technologies in AEC Practices Units: 4 Terms Offered: Fa Data-centric engineering paradigms, modeling and simulation technologies; applications for Architecture, Engineering and Construction (AEC) projects or challenges. Instruction Mode: Lecture Grading Option: Letter

CE 574 Construction Means and Methods Units: 4 Terms Offered: Fa Job site logistics, field management, means and methods as they pertain to the builder, with an emphasis on constructability, productivity and schedule impacts for building construction. Instruction Mode: Lecture Grading Option: Letter

CE 575 Sustainability, Well-Being and Innovation in the Built Environment Units: 4 Terms Offered: Sp Exploration of topics in sustainability, well-being, and innovation in the built environment. Specifically, sustainable and healthy built environments; metrics and initiatives; end-user interactions; and innovation. Instruction Mode: Lecture Grading Option: Letter

CE 576 Invention and Technology Development Units: 3 This project-oriented course elaborates on the process of engaging creative thought, tools and techniques for invention, and issues involved in bringing inventions to the production phase. Duplicates Credit in former ISE 555 Instruction Mode: Lecture Grading Option: Credit/No Credit Crosslisted as ENGR 576, SAE 576

CE 578 Technology-Enabled Architecture, Engineering and Construction (AEC) Projects Units: 4 Terms Offered: Sp Integration of architecture, engineering and construction practices through the development of a construction project. Instruction Mode: Lecture Grading Option: Letter Crosslisted as ARCH 578

CE 579 Introduction to Transportation Planning Law Units: 2 Terms Offered: FaSm Federal and state statutory and regulatory requirements affecting California transportation systems, including transportation planning and funding law; and government contracting, environmental and civil rights requirements. Recommended Preparation: General background in either planning or engineering; should have an interest in transportation, but no prior coursework in transportation is needed Instruction Mode: Lecture Grading Option: Letter Crosslisted as PPDE 598

CE 580 Law and Finance for Engineering Innovation Units: 3 (Enroll in ISE 565)

CE 581 Negotiation For Engineering Management Units: 3 Terms Offered: Sp (Enroll in ISE 581)

CE 582 Transportation System Security and Emergency Management Units: 4 Terms Offered: FaSp Multimodal transportation resilience with emphasis on transit systems. Principles of emergency management, preparedness, vulnerability assessment, countermeasures. Related topics in policy and economics. Instruction Mode: Lecture Grading Option: Letter Crosslisted as PPD 582

CE 583 Design of Transportation Facilities Units: 4 Terms Offered: Sp Planning, design, staging, construction, test and maintenance of the public works and facilities for land, water, and air transportation. Recommended Preparation: CE 471 and CE 457; probability and statistics on the level of CE 408. This course is primarily for graduate engineering students. It is not appropriate for applied social science students. Instruction Mode: Lecture Grading Option: Letter

CE 584 Intelligent Transportation Systems Units: 4 Terms Offered: FaSp Fundamentals of intelligent transportation systems, including automated vehicle technology and applications, communication systems, advanced transportation management systems, policy issues, transportation network services and smart cities. Recommended Preparation: Prior coursework in transportation engineering at the level of CE 471 or PPDE/CE 637. Instruction Mode: Lecture Grading Option: Letter

CE 585 Traffic Engineering and Control Units: 3 Terms Offered: Sp Conceptual engineering geometric design, installation, and calibration of vehicular storage and traffic controls; safe flow optimization of vehicles on various thoroughfares. Recommended Preparation: CE 471. Instruction Mode: Lecture Grading Option: Letter

CE 586 Modeling Transportation Network Supply and Demand Units: 4 Terms Offered: Sp Theories and applications of transportation network demand and supply models and simulation techniques. Hands-on opportunities to work with simulation software to solve problems. Recommended Preparation: Undergraduate engineering background or the equivalent, including basic concepts of 1 programing language, statistics and optimization (such as linear programming). Instruction Mode: Lecture, Discussion Grading Option: Letter

CE 587 Transportation Energy Analysis Units: 3 Energy consumption and socioeconomic impacts of past, present, and future transportation systems; analysis of alternatives between energy-intensive and low-cost transportation modes.

Instruction Mode: Lecture Grading Option: Letter

CE 588 Railroad Engineering Units: 3 Railroad infrastructure including passenger and freight operations, track alignment (horizontal and vertical) design, basic components and terminology used in rail design and an understanding of this mode of transportation. Recommended Preparation: CE 471. Instruction Mode: Lecture Grading Option: Letter

CE 589 Port Engineering: Planning and Operational Analysis Units: 4 Terms Offered: SpSm Marine port/terminal and landside logistics systems and support facilities. Planning, design, operational efficiency and advanced technologies. Recommended Preparation: General background in either planning or engineering; should have an interest in transportation and logistics with some prior related coursework Instruction Mode: Lecture Grading Option: Letter Crosslisted as ISE 589, PPD 589

CE 590 Directed Research Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Research leading to the master’s degree. Maximum units which may be applied to the degree to be determined by the department. Instruction Mode: Lecture Grading Option: Credit/No Credit

CE 591 Civil and Environmental Engineering Research Colloquium Units: 1 Max Units: 02 Terms Offered: FaSp A forum for the exploration and critical assessment of current research activities in civil and environmental engineering, presentations from academia and industry. Instruction Mode: Lecture Grading Option: Credit/No Credit Crosslisted as ENE 591

CE 594a Master's Thesis Units: 2 Credit on acceptance of thesis. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

CE 594b Master's Thesis Units: 2 Credit on acceptance of thesis. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

CE 594z Master's Thesis Units: 0 Credit on acceptance of thesis. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

CE 599 Special Topics Units: 1, 2, 3, 4, 5, 6, 7, 8 Max Units: 09 Course content will be selected each semester to reflect current trends and developments in the field of civil engineering. Instruction Mode: Lecture Grading Option: Letter

CE 603 System Identification Units: 4 Terms Offered: FaSp Methods for building linear and nonlinear dynamical models from input and output time series data; theoretical models, algorithms, and toolbox implementation. Prerequisite: EE 482 or AME 451. Recommended Preparation: Basic probability (e.g., CE 408, EE 364, or MATH 407). Exposure to basic optimization (e.g., ISE 330 or ISE 536) Registration Restriction: Open only to graduate students Instruction Mode: Lecture Grading Option: Letter Crosslisted as EE 603
CE 611 Stochastic Modeling and Simulation
Units: 3
Stochastic methods for modeling and simulating physical, chemical and biological processes. Topics include: Stochastic partial differential equations, Monte Carlo simulations, moment equation methods, stochastic expansions. Registration Restriction: Open only to graduate students. Instruction Mode: Lecture Grading Option: Letter Crosslisted as PTE-611, CHE-611

CE 629 Advanced Finite Element Analysis
Units: 2
Terms Offered: Sp
Nonlinear mechanics; geometric nonlinearity; total Lagrangian and updated Lagrangian formulations; hyperelasticity, plasticity, viscoelasticity; computational fluid mechanics; static and eigenvalue solvers; geometric modeling, meshing and optimization. Prerequisite: CE 529a or CE 529 Duplicates Credit in former CE 529b

CE 633 Urban Transportation Planning and Management
Units: 4, 2
Terms Offered: Fa (Enroll in PPD 633)

CE 634 Institutional and Policy Issues in Transportation
Units: 4
Terms Offered: Sp (Enroll in PPD 634)

CE 637 Urban Mass Transit
Units: 4
Terms Offered: Fa (Enroll in PPDE 637)

CE 638 Stochastic Optimization
Units: 3
Terms Offered: FaSp

CE 640 Advanced Theory of Elasticity
Units: 3
Curvilinear tensors; equations of nonlinear elasticity; elementary solutions; small deformations superimposed on large deformations; bifurcation of equilibrium states; nonlinear shell theory. Prerequisite: CE 507

CE 645 Uncertainty Modeling and Stochastic Optimization
Units: 3
Introduction to the mathematical foundations, numerical algorithms, and computational tools necessary for solving problems of optimization under uncertainty. Registration Restriction: Open only to graduate students. Instruction Mode: Lecture Grading Option: Letter Crosslisted as AME-640

CE 649 Multiscale Methods in Mechanics
Units: 3
Behavior of man-made and natural materials at different scales; experimental methods to characterize behavior; governing equations, inter-scale coupling, information exchange; probabilistic representations; error analysis. Prerequisite: AME 525 or AME 526 or CE 525 or CE 526. Registration Restriction: Open only to master's, doctoral, and professional students. Instruction Mode: Lecture Grading Option: Letter Crosslisted as AME-647

CE 670 Advanced Research Methods for Built Environment Informatics
Units: 3
Terms Offered: FaSp
Research methods in informatics for intelligent built environments; data acquisition, analysis and interpretation for adaptive and responsive built environments and their interactions with end users. Instruction Mode: Lecture Grading Option: Letter

CE 690 Directed Research
Units: 1, 2, 3, 4
Max Units: 8
Laboratory study of specific problems by candidates for the degree Engineer in Civil Engineering. Instruction Mode: Lecture Grading Option: Credit/No Credit

CE 692 Transportation and the Environment
Units: 4
Terms Offered: Sp (Enroll in PPD 692)

CE 694a Thesis
Units: 2
Terms Offered: FaSp
for the degree Engineer in Civil Engineering. Credit on acceptance of thesis. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

CE 694b Thesis
Units: 2
Terms Offered: FaSp
for the degree Engineer in Civil Engineering. Credit on acceptance of thesis. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

CE 709 Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12
Research leading to the doctorate. Maximum units which may be applied to the degree to be determined by the department. Instruction Mode: Lecture Grading Option: Credit/No Credit

CE 794a Doctoral Dissertation
Units: 2
Terms Offered: FaSp
Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

CE 794b Doctoral Dissertation
Units: 2
Terms Offered: FaSp
Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

CE 794c Doctoral Dissertation
Units: 2
Terms Offered: FaSp
Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

CE 794d Doctoral Dissertation
Units: 2
Terms Offered: FaSp
Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

COH 593a Capstone Project
Units: 2
Terms Offered: FaSpSm
Guided learning of the research process by the design and implementation of an approved project. Instruction Mode: Lecture Grading Option: Letter

COH 593b Capstone Project
Units: 2
Terms Offered: FaSpSm
Independent study to prepare an oral defense of the Capstone project. Prerequisite: COH 593a Instruction Mode: Lecture Grading Option: Letter

COH 670 Health Assessment
Units: 2
Terms Offered: FaSpSm
The importance of health assessment; identification of strategies to understand the needs and priorities of a healthy community. Instruction Mode: Lecture Grading Option: Letter

COH 701 Community Health Sciences
Units: 2
Terms Offered: FaSpSm
Examination of common theoretical and conceptual models, health education methodologies and emerging technology to provide health services in community settings. Instruction Mode: Lecture Grading Option: Letter

COH 702 Social and Behavioral Sciences
Units: 2
Terms Offered: FaSpSm
Social and behavioral factors of diverse groups that can affect the health status and choices of communities. Instruction Mode: Lecture Grading Option: Letter

COH 703 Community Health Program Planning and Implementation
Units: 2
Terms Offered: FaSpSm
Introduction to the concepts and processes used in evidence-based community oral health program development. Instruction Mode: Lecture Grading Option: Letter

COH 704 Environmental Health Sciences
Units: 3
Terms Offered: FaSpSm
Environmental factors affecting community health and evidence-based approaches to control or reduce the risks of these health problems. Instruction Mode: Lecture Grading Option: Letter

COH 705 Research and Biostatistics in Healthcare
Units: 2
Terms Offered: FaSpSm
Introduction to research processes; emphasizes methods and designs frequently used to study health and healthcare delivery. Instruction Mode: Lecture Grading Option: Letter

COH 706 Foundations and Strategies in Health Education
Units: 2
Terms Offered: FaSpSm
Examines the impact of education in community oral health, identifying strategies to engage and empower the members of the community to achieve health and wellness. Instruction Mode: Lecture Grading Option: Letter

COH 707 Epidemiology
Units: 2
Terms Offered: FaSpSm
The fundamental understanding of epidemiology that concerns various domains and disciplines; application of epidemiologic principles in community oral health projects. Instruction Mode: Lecture Grading Option: Letter

COH 708 Community Health Science Administration, Assessment and Evaluation
Units: 2
Terms Offered: FaSpSm
Development of foundational knowledge and skills to be administrative and executive leaders in the healthcare industry. Instruction Mode: Lecture Grading Option: Letter
COH 711 Practicum 1
Units: 1 Terms Offered: FaSpSm Provides the opportunity to apply acquired competencies to real world settings to improve health promotion and disease prevention. Instruction Mode: Lecture Grading Option: Letter

COH 712 Practicum 2
Units: 1 Terms Offered: FaSpSm Incorporates a service learning approach involving a partnership between the student, community organization and designated faculty or research team members. Instruction Mode: Lecture Grading Option: Letter

COH 713 Health Education and Promotion
Units: 2 Terms Offered: FaSpSm Development of an action plan for health education and promotion, including the planning, designing and evaluation of instruction and materials. Instruction Mode: Lecture Grading Option: Letter

COH 714 Community Health Funding and Support
Units: 2 Terms Offered: FaSpSm Approaches to the generation and allocation of financial support for community oral health policies, programs and systems. Instruction Mode: Lecture Grading Option: Letter

COH 715 Community Health Practice Standards
Units: 2 Terms Offered: FaSpSm Standards of practice, regulations, policies and ethical principles that affect healthcare providers, payers and other stakeholders in community healthcare settings. Instruction Mode: Lecture Grading Option: Letter

COH 716 Healthcare Communication Technology
Units: 2 Terms Offered: FaSpSm Emerging technology for patient and professional health-related education and applications for patient access to care. Instruction Mode: Lecture Grading Option: Letter

COH 717 Practicum 3
Units: 1 Terms Offered: FaSpSm Participation in a multidisciplinary team; collection of community health data to build a plan for sustainability and maintenance. Instruction Mode: Lecture Grading Option: Letter

Chemical Engineering
CHE 120 Introduction to Chemical Engineering
Units: 4 Terms Offered: FaSp Problemsolving techniques in chemical engineering, including an introduction to engineering problem analysis, mass balances, and energy balances. Corequisite: MATH 125g and (CHEM 105aL or CHEM 115aL) Registration Restriction: Open only to the Viterbi School of Engineering Instruction Mode: Lecture Grading Option: Letter

CHE 205 Numerical Methods in Chemical Engineering
Units: 3 Terms Offered: Sp Computational tools for solving numerical problems in Chemical Engineering. Prerequisite: MATH 125. Instruction Mode: Lecture, Discussion Grading Option: Letter

CHE 301G Introduction to Engineering Biology
Units: 4 Terms Offered: Fa Engineering methods to understand and design molecules, cells, and living organisms. Techniques to analyze biological systems at the molecular and microscopic level. Computational analysis. Prerequisite: CHEM 105a or CHEM 115a or MASC 110A. Recommended Preparation: Basic understanding of chemistry, atoms, and molecules. Completion of an Advanced Placement chemistry class in high school is acceptable preparation for CHE 301G. Satisfies New General Education in Category D: Life Sciences Registration Restriction: Open only to Viterbi School of Engineering students. Instruction Mode: Lecture Grading Option: Letter

CHE 305 Numerical and Statistical Analysis for Chemical Engineers
Units: 4 Terms Offered: Fa Introduction to numerical algorithms, computational tools, principles of probability and statistics, and their application to chemical engineering problems. Prerequisite: MATH 125g and MATH 126g Corequisite: MATH 226g Duplicates Credit in former CHE 405 and former CHE 405 Instruction Mode: Lecture Grading Option: Letter

CHE 330 Chemical Engineering Thermodynamics
Units: 4 Terms Offered: Fa Basic laws, energy and entropy balances, Multi-component phase behavior. Physical and chemical equilibria. Energy conversion and equilibrium separation processes, estimation and use of property data. Corequisite: MATH 226g Instruction Mode: Lecture, Discussion Grading Option: Letter

CHE 350 Introduction to Separation Processes
Units: 4 Terms Offered: Sp Introduction to the design of chemical separation processes based on the principles of phase equilibrium, material balance and energy balance. Prerequisite: CHEM 105BL or CHEM 115BL Recommended Preparation: CHEM 330 Instruction Mode: Lecture Grading Option: Letter

CHE 390 Special Problems
Units: 1, 2, 3, 4 Supervised, individual studies. No more than one registration permitted. Enrollment by petition only. Instruction Mode: Lecture Grading Option: Letter

CHE 391L Introduction to Nanotechnology Research
Units: 2 Planning and execution of an experiment, and presentation of findings through oral presentations and a written report. Application of the scientific method learned through immersion in a lab environment. Instruction Mode: Lecture, Lab Required Grading Option: Credit/No Credit

CHE 405 Applications of Probability and Statistics for Chemical Engineers
Units: 3 Terms Offered: Fa Principles of probability and statistics, random variables and random functions. Application to chemical engineering problems, including process design, process safety, heterogeneous materials and processes. Prerequisite: MATH 245. Instruction Mode: Lecture Grading Option: Letter

CHE 410L Introduction to Biomaterials and Tissue Engineering
Units: 4 Terms Offered: FaSp (Enroll in BME 410L)

CHE 430 Principles and Applications of Systems Biology
Units: 4 Terms Offered: Fa (Enroll in BME 430)

CHE 442 Chemical Reactor Design
Units: 4 Terms Offered: Fa Problem-solving techniques in Chemical Reactor Design, including the description of chemical kinetics and rates, and analysis of mass balances, and energy balances. Prerequisite: MATH 245 and CHE 443 Instruction Mode: Lecture, Discussion Grading Option: Letter

CHE 443 Chemical Engineering Fluid Mechanics
Units: 4 Terms Offered: Sp Fundamental principles of fluid mechanics and momentum transfer applied to chemical engineering and chemical processing operations. Corequisite: CHE 350 or MATH 245 Instruction Mode: Lecture, Discussion Grading Option: Letter

CHE 444aL Chemical Engineering Laboratory
Units: 2 Terms Offered: Sp Conduct experiments and analyze data to generate results used to solve chemical engineering problems. Communicate results, data, and solutions in written reports and oral presentations. Prerequisite: CHE 120 Corequisite: CHE 330 and CHE 350 Instruction Mode: Lecture, Lab Required Grading Option: Letter

CHE 444bL Chemical Engineering Laboratory
Units: 2 Terms Offered: Sp Conduct experiments and analyze data to generate results used to solve chemical engineering problems. Communicate results, data, and solutions in written reports and oral presentations. Prerequisite: CHE 330 Corequisite: CHE 443 Instruction Mode: Lecture, Lab Required Grading Option: Letter

CHE 444cL Chemical Engineering Laboratory
Units: 2 Terms Offered: Sp Conduct experiments and analyze data to generate results used to solve chemical engineering problems. Communicate results, data, and solutions in written reports and oral presentations. Prerequisite: CHE 330 and CHE 444bL Corequisite: CHE 447 Instruction Mode: Lecture, Lab Required, Quiz Grading Option: Letter

CHE 445 Heat Transfer in Chemical Engineering Processes
Units: 2 Phenomenological rate laws, differential and macroscopic equations, and elementary kinetic theory of heat transfer processes with emphases on conduction and convection. Prerequisite: CHE 443, MATH 245. Duplicates Credit in AME 331. Instruction Mode: Lecture Grading Option: Letter

CHE 446 Mass Transfer in Chemical Engineering Processes
Units: 2 Terms Offered: Sp Molecular and continuum approaches to diffusion and convection in fluids and multicomponent mixtures; simultaneous mass, heat and momentum transfer; steady-state and time-dependent diffusion; Maxwell-Stefan equations. Prerequisite: MATH 245, CHE 443, CHE 445. Instruction Mode: Lecture Grading Option: Letter
CHE 447 Heat and Mass Transfer in Chemical Engineering Processes
Units: 4 Terms Offered: Sp Differential and macroscopic equations of heat transfer, molecular and continuum approaches to diffusion and convection in fluids; simultaneous heat, mass and momentum transfer. Prerequisite: MATH 245 and CHE 443 Duplicates Credit in former CHE 445 and former CHE 446 Instruction Mode: Lecture Grading Option: Letter

CHE 450 Sustainable Energy
Units: 4 Terms Offered: Fa Overview of sustainable energy, with emphasis on quantitative approaches to evaluate sustainability and examination of renewable sources of energy from the perspective of sustainability. Prerequisite: CHE 330 Corequisite: CHE 443 Instruction Mode: Lecture, Lab Required Grading Option: Letter

CHE 460L Chemical Process Dynamics and Control
Units: 4 Terms Offered: Sp Dynamic analysis and automation of chemical processes using closed loop control schematics. Control schemes are analyzed, simulated and implemented in the laboratory. Prerequisite: CHE 120 Corequisite: MATH 245 Instruction Mode: Lecture, Lab Required Grading Option: Letter

CHE 461 Formation Data Sensing with Well Logs
Units: 4 Terms Offered: Fa (Enroll in PTE 461)

CHE 462 Economic, Risk and Formation Productivity Analysis
Units: 4 (Enroll in PTE 462)

CHE 463L Introduction to Transport Processes in Porous Media
Units: 4 Terms Offered: Fa (Enroll in PTE 463L)

CHE 464L Modeling and Simulation of Subsurface Flow Systems
Units: 4 Terms Offered: Sp (Enroll in PTE 464L)

CHE 465L Drilling Technology and Subsurface Methods
Units: 3 (Enroll in PTE 465L)

CHE 472 Polymer Science and Engineering
Units: 4 Terms Offered: Fa Introduction to major concepts in chemistry and physics of synthetic polymers, and understanding of how they are used in the modern engineering applications Prerequisite: CHEM 322aL Instruction Mode: Lecture Grading Option: Letter Crosslisted as ASC 472

CHE 474L Polymer Science and Engineering Laboratory
Units: 3 Terms Offered: Sp Experimental methods for the preparation, characterization, and properties of synthetic polymers. Recommended Preparation: CHE 472. Instruction Mode: Lecture, Lab Required Grading Option: Letter

CHE 475 Physical Properties of Polymers
Units: 4 Terms Offered: Sp Introduction to polymer physical properties and characterization, relationship to synthesis techniques and processing techniques, natural and synthetic materials, property optimization and modern applications. Recommended Preparation: CHEM 325aL Instruction Mode: Lecture Grading Option: Letter Crosslisted as ASC 475

CHE 476 Chemical Engineering Materials
Units: 4 Terms Offered: Fa Introduction to major concepts in materials science and engineering directly applicable to materials-related processing, research and development in chemical engineering. Prerequisite: CHEM 322a Instruction Mode: Lecture Grading Option: Letter Crosslisted as EE 476 and MASC 476

CHE 477 Computer Assisted Polymer Engineering and Manufacturing I
Units: 3 Terms Offered: Sp Estimation of physical, mechanical, chemical and processing properties of thermal plastics. Major molding processes. Mold flow simulation and residual stresses analysis. Case studies. Prerequisite: junior class standing. Instruction Mode: Lecture Grading Option: Letter

CHE 480 Chemical Process and Plant Design
Units: 4 Terms Offered: Sp Design and evaluate a chemical process/plant based on safety, economics, sustainability and engineering viability through the application of unit operations, thermodynamics, kinetics and separations. Prerequisite: CHE 485 Registration Restriction: Open only to seniors Instruction Mode: Lecture Grading Option: Letter

CHE 485 Computer-Aided Chemical Process Design
Units: 4 Terms Offered: Fa Simulate, design and optimize chemical engineering unit operations and process using modern process simulation software. Prerequisite: CHE 442 and CHE 443 Instruction Mode: Lecture Grading Option: Letter

CHE 486 Design of Environmentally Benign Process Plants
Units: 3 Terms Offered: Sp Chemical Process Plants interact with the environment as an integrated system. This course discusses design procedures to minimize unwanted effluents to air, water and solid wastes. Corequisite: CHE 480 or CHE 485. Instruction Mode: Lecture Grading Option: Letter

CHE 487 Nanotechnology and Nanoscale Engineering through Chemical Processes
Units: 4 Terms Offered: Fa Properties and processing of nanomaterials including polymeric, metallic, and ceramic nanoparticles, composites, colloids, and surfactant self-assembly for templated nanomaterial production. Prerequisite: CHEM 105aLg or CHEM 115aLg or MASC 110L Instruction Mode: Lecture Grading Option: Letter

CHE 488 Molecular and Cellular Bioengineering
Units: 3 Terms Offered: Fa Design, synthesis, and analysis of biological molecules; routes to understand and engineer living systems at the molecular and cellular level; systems and synthetic biology. Prerequisite: BISC 320. Instruction Mode: Lecture Grading Option: Letter

CHE 489 Biochemical Engineering
Units: 4 Terms Offered: Sp Theoretical, quantitative, and experimental methods for understanding and engineering cellular systems for biotechnological applications. Prerequisite: CHE 330 and BISC 320Lg Instruction Mode: Lecture Grading Option: Letter Crosslisted as BME 489

CHE 490 Directed Research
Units: 1, 2, 3, 4, 5, 6, 7, 8 Max Units: 12.0 Individual research and readings. Credit Restriction: Not available for graduate credit. Instruction Mode: Lecture Grading Option: Letter

CHE 491 Nanotechnology Research for Undergraduates
Units: 2 Max Units: 4.0 Independent research in nanotechnology. Research project selected by the student in close consultation with a research adviser. Prerequisite: CHE 391L. Registration Restriction: Open only to juniors and seniors. Instruction Mode: Lecture Grading Option: Letter

CHE 499 Special Topics
Units: 2, 3, 4 Max Units: 8.0 Course content to be selected each semester from recent developments in chemical engineering and related fields. Instruction Mode: Lecture Grading Option: Letter

CHE 501 Modeling and Analysis of Chemical Engineering Systems
Units: 4 Terms Offered: Fa Advanced treatment of mathematical modeling and analysis of Chemical Engineering core topics including fluid flow, heat and mass transfer, reaction engineering, and deformation of materials. Recommended Preparation: Knowledge of real analysis on the level of MATH 425a and MATH 425b Corequisite: CHE 442 and CHE 447 Registration Restriction: Open only to graduate students Instruction Mode: Lecture Grading Option: Letter

CHE 502 Numerical Methods for Diffusive and Convective Transport
Units: 3 Terms Offered: Sp Numerical solution of ordinary and partial differential equations describing fluid flow, diffusion with chemical reaction, and conduction in heterogeneous media. Registration Restriction: Graduate standing. Instruction Mode: Lecture Grading Option: Letter

CHE 510 Energy and Process Efficiency
Units: 3 Terms Offered: Sp Management and engineering strategies utilized to improve energy efficiency. Registration Restriction: Open only to master and doctoral students. Duplicates Credit in AME 577. Instruction Mode: Lecture Grading Option: Letter

CHE 520 Mathematical Methods for Deep Learning
Units: 4 Terms Offered: Sp (Enroll in MASC 520)

CHE 523 Principles of Electrochemical Engineering
Units: 3 (Enroll in MASC 523)

CHE 530 Thermodynamics for Chemical Engineers
Units: 4 Terms Offered: Sp Elements of classical and statistical thermodynamics. Molecular theory and property estimation, emphasis on multi-component multi-phase fluid systems. Advanced applications, including highly non-ideal solutions, polymers, electrolytes. Recommended Preparation: Undergraduate-level thermodynamics on the level of CHE 330 and a proficiency with MATLAB or a
CHE 532 Vapor-Liquid Equilibrium
- Units: 3 Thermodynamics of phase relations; prediction and correlation of phase behavior. Prerequisite: CHE 330. Instruction Mode: Lecture Grading Option: Letter

CHE 538 Transport Processes I
- Units: 4 Terms Offered: Fa Fundamentals of transport processes - momentum, heat and mass transfer - in systems of interest to chemical engineering. Recommended Preparation: Knowledge of mathematical modeling for chemical processes on the level of CHE 501; knowledge of fluid mechanics on the level of CHE 443; knowledge of heat and mass transport on the level of CHE 445. Duplicates Credit in former CHE 540, former CHE 541 and former CHE 544. Instruction Mode: Lecture Grading Option: Letter

CHE 539 Transport Processes II
- Units: 4 Terms Offered: Sp An advanced exploration of the principles of heat and mass transfer with applications to problems in chemical engineering. Prerequisite: CHE 538. Duplicates Credit in former CHE 540, former CHE 541 and former CHE 544. Instruction Mode: Lecture Grading Option: Letter

CHE 540 Viscous Flow
- Units: 3 Fluid mechanical problem of interest to chemical engineers involving laminar flows of incompressible fluids, viscous-dominated creeping flows, and motion of bubbles and drops. Prerequisite: CHE 300 or AME 309 or CHE 443. Instruction Mode: Lecture Grading Option: Letter

CHE 541 Mass Transfer
- Units: 3 Fundamentals of mass transfer within a single phase and between phases; applications to separation processes. Recommended Preparation: CHE 445. Instruction Mode: Lecture Grading Option: Letter

CHE 542 Chemical Engineering Kinetics
- Units: 4 Terms Offered: Sp Advanced concepts in Reaction Engineering and Reactor Design. Prerequisite: CHE 442. Recommended Preparation: BS degree in Chemical Engineering or equivalent. Instruction Mode: Lecture Grading Option: Letter

CHE 544 Heat Transmission
- Units: 3 Principles of conduction, radiation, and convection of heat; application to chemical and related industries. Recommended Preparation: CHE 330, CHE 445. Instruction Mode: Lecture Grading Option: Letter

CHE 550 Seminars in Chemical Engineering
- Units: 0, 1 Max Units: 02 Terms Offered: FaSpSm Seminars to cover recent research leading to the master's degree. Prerequisite: CHEM 472. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

CHE 554 Principles of Tissue Engineering
- Units: 3 Terms Offered: Fa Fundamentals and engineering principles of tissue engineering including stem cell biology, biomaterial scaffolds, protein-
CHEM 105aLg General Chemistry
Units: 6 Terms Offered: FaSpSm Chemistry for environmental studies, neuroscience and other life sciences: organic and inorganic structures, nomenclature, stoichiometry, solutions, gases, non-covalent interactions, equilibria, acid-base and redox reactions. Satisfies New General Education in Category E: Physical Sciences Satisfies Old General Education in Category III: Scientific Inquiry Credit Restriction: Not for major credit in chemistry Instruction Mode: Lecture, Lab Required Grading Option: Letter

CHEM 105bL Advanced General Chemistry
Units: 4 Terms Offered: Rq Equivalent to CHEM 105aLg - CHEM 105bL but taught at a higher level for exceptionally well-prepared students. Satisfies New General Education in Category E: Physical Sciences Satisfies Old General Education in Category III: Scientific Inquiry Duplicates Credit in CHEM 105aLg or CHEM 105bL Instruction Mode: Lecture, Discussion, Lab Required, Quiz Grading Option: Letter

CHEM 115aLg General Chemistry
Units: 4 Terms Offered: FaSpSm Fundamental principles and laws of chemistry; laboratory work emphasizes quantitative procedures. Prerequisite: Prerequisite to all more advanced courses in chemistry. CHEM 105a or passing of placement test. Satisfies New General Education in Category E: Physical Sciences Satisfies Old General Education in Category III: Scientific Inquiry Duplicates Credit in CHEM 105aLg or CHEM 115bL Instruction Mode: Lecture, Lab Required, Quiz Grading Option: Letter

CHEM 115bL General Chemistry
Units: 4 Terms Offered: FaSpSm Fundamental principles and laws of chemistry; laboratory work emphasizes quantitative procedures. Prerequisite: CHEM 105aLg or CHEM 107Lg or CHEM 115aLg Duplicates Credit in CHEM 115bL Instruction Mode: Lecture, Lab Required, Quiz Grading Option: Letter

CHEM 205Lgx AIDS Drug Discovery and Development
Units: 4 Terms Offered: FaSpSm Instruction Mode: Lecture, Lab Required Grading Option: Letter

CHEM 203Lgx AIDS Drug Discovery and Development
Units: 4 Terms Offered: FaSpSm Instruction Mode: Lecture, Lab Required Grading Option: Letter

CHEM 204Lg Pandemics Shaping Our World: Past, Present and Future
Units: 4 Terms Offered: FaSpSm Instruction Mode: Lecture, Lab Required Grading Option: Letter

CHEM 205Lgx Chemical Forensics: The Science, and Its Impact
Units: 4 Terms Offered: FaSpSm Instruction Mode: Lecture, Lab Required Grading Option: Letter

CHEM 221x Organic Chemistry Problem Solving Workshop
Units: 2 Terms Offered: FaSpSm Instruction Mode: Lecture, Lab Required Grading Option: Letter

CHEM 250x Organic Chemistry Tutorial A
Units: 2 Major principles of organic chemistry and its relevance. Topics covered parallel to those of CHEM 322aL. Prerequisite: CHEM 105bL. Corequisite: CHEM 322aL. Credit Restriction: Not available for degree credit. Instruction Mode: Lecture Grading Option: Credit/No Credit

CHEM 251x Organic Chemistry Tutorial B
Units: 2 Terms Offered: FaSpSm Supervised undergraduate research experience. Corequisite: CHEM 105a or CHEM 115a. Instruction Mode: Lecture Grading Option: Letter

CHEM 292 Supervised Research
Units: 2 Max Units: 4.0 Terms Offered: FaSpSm Instruction Mode: Lecture, Lab Required Grading Option: Letter

CHEM 294 Undergraduate Research Seminar
Units: 1 Max Units: 4.0 Terms Offered: FaSpSm Seminars in current research in the chemical and molecular sciences.
Corequisite: CHEM 105a or CHEM 115a.
Instruction Mode: Lecture Grading Option: Letter

**CHEM 300L Analytical Chemistry**
Units: 4 Terms Offered: FaSp Theory and practice in chemical analysis, emphasizing instrumental techniques; error analysis, fractional distillation, extraction; chromatography; visible, ultraviolet, and infrared spectroscopy; introductions to electrochemistry and nuclear magnetic resonance spectroscopy. 
Prerequisite: CHEM 105bl or CHEM 108L or CHEM 115bl. Corequisite: CHEM 322al or CHEM 325al. Instruction Mode: Lecture, Discussion, Lab Required Grading Option: Letter

**CHEM 322al Organic Chemistry**
Units: 4 Terms Offered: FaSpSm Theory of bonding, molecular structure, and aromatic series; laboratory preparation of typical compounds of both series. 
Prerequisite: CHEM 322al or CHEM 325al. Instruction Mode: Lecture, Discussion, Lab Required, Quiz Grading Option: Letter

**CHEM 325al Organic Chemistry**
Units: 4 Terms Offered: Fa Required of majors in chemistry. 
Prerequisite: CHEM 105al or CHEM 108L or CHEM 115bl. Registration Restriction: Open only to Chemistry and Biochemistry majors 
Instruction Mode: Lecture, Discussion, Lab Required, Quiz Grading Option: Letter

**CHEM 325bl Organic Chemistry**
Units: 4 Terms Offered: Sp Required of majors in chemistry. 
Prerequisite: CHEM 325al or CHEM 322al. Registration Restriction: Open only to Chemistry and Biochemistry majors 
Instruction Mode: Lecture, Lab Required Grading Option: Letter

**CHEM 330l Biochemistry**
Units: 4 Terms Offered: FaSpSm Enroll in BISC 330L

**CHEM 332L Physical Chemical Measurements**
Units: 4 Experimental study of topics discussed in CHEM 430 and CHEM 431: adsorption, magnetic susceptibility; electron spin resonance, kinetics, equilibria, molecular spectra and structure, viscosity, dielectric properties. Corequisite: CHEM 430 or CHEM 431. Instruction Mode: Lecture, Discussion, Lab Required Grading Option: Letter

**CHEM 350g Molecular Principles of Biochemistry**
Units: 4 Terms Offered: FaSpSm Biomolecular structures, protein and nucleic acid chemistry and functions, carbohydrates, lipids, membranes, enzyme catalysis and kinetics, coenzymes, biochemical signaling, major metabolic pathways, control of gene expression, replication, transcription, and translation. 
Prerequisite: CHEM 105bl or CHEM 108L or CHEM 115bl. **Recommended Preparation:** BISC 220Lg or BISC 221Lg Corequisite: CHEM 322al or CHEM 325al.

**CHEM 390 Special Problems**
Units: 1, 2, 3, 4 Supervised, individual studies. No more than one registration permitted. Enrollment by petition only. 
Instruction Mode: Lecture Grading Option: Letter

**CHEM 423L Advanced Laboratory Techniques in Organic and Inorganic Chemistry**
Units: 4 Terms Offered: Sp Advanced synthetic, analytical, and physical measurement techniques in organic and inorganic chemistry. Emphasis on laboratory work with discussion of theoretical background. 
Prerequisite: CHEM 300L, CHEM 322bl or CHEM 325bl. Instruction Mode: Lecture, Lab Required, Discussion Grading Option: Letter

**CHEM 426 Advanced Organic Chemistry**
Units: 4 Terms Offered: Fa Advanced treatment of organic chemistry from a mechanistic point of view according to the following topics: polar and isopolar reactions, intermediates. 
Prerequisite: CHEM 322bl or CHEM 325bl. Instruction Mode: Lecture Grading Option: Letter

**CHEM 430 Physical Chemistry: Thermodynamics and Kinetics**
Units: 4 Terms Offered: Fa Kinetic theory; equations of state; thermodynamics; phase equilibrium; chemical equilibrium; statistical thermodynamics; kinetics; electrochemistry; surface and colloid chemistry; polymers. 
Prerequisite: (CHEM 300L or CHEM 322al or CHEM 325al or MATH 225 or MATH 226g) and PHYS 151Lg Duplicates Credit in former CHEM 430a Instruction Mode: Lecture, Discussion Grading Option: Letter

**CHEM 431 Physical Chemistry: Quantum Mechanics**
Units: 4 Terms Offered: Sp Classical and quantum mechanics: atomic structure; molecular structure; chemical bonds; solid state; symmetry; electric and magnetic properties of molecules; atomic spectroscopy; electronic structure; vibrational spectroscopy; electronic spectroscopy. 
Prerequisite: PHYS 152Lg Duplicates Credit in former CHEM 430b Instruction Mode: Lecture, Discussion Grading Option: Letter

**CHEM 432 Physical Chemistry for the Life Sciences**
Units: 4 Terms Offered: Fa Principles of physical chemistry relevant for the life sciences: thermodynamics, chemical equilibria, molecular dynamics, kinetics, molecular structures and interactions, spectroscopy, statistical thermodynamics and macromolecular structures. 
Prerequisite: CHEM 300L or CHEM 322al or CHEM 325al or MATH 126; PHYS 135a L or PHYS 151Lg. Duplicates Credit in CHEM 430a. Instruction Mode: Lecture, Discussion Grading Option: Letter

**CHEM 453 Advanced Inorganic Chemistry**
Units: 4 Terms Offered: Sp Atomic structure, theory of bonding, molecular structure, metallic state, coordination compounds, transition and nontransition metals, magnetic and optical properties, crystal field theory, mechanism of reactions. 
Prerequisite: (CHEM 105bl or CHEM 108L or CHEM 115bl) and (CHEM 322al or CHEM 325al).

**CHEM 455 Chemical Nanotechnology**
Units: 4 Studies in the fundamental principles governing nanoscale materials. Structure and chemical bonding, preparative methods, and electrical, optical and magnetic properties of nanoscale materials and applications. 
Prerequisite: CHEM 322al or CHEM 325al. Instruction Mode: Lecture, Discussion Grading Option: Letter

**CHEM 463L Chemical Nanotechnology Laboratory**
Units: 2 Experimental techniques in the synthesis and characterization of nanoscale materials. Emphasis on examining size-dependent properties of various nano-scale materials using spectroscopic techniques. 
Prerequisite: CHEM 322al or CHEM 325al. Instruction Mode: Lecture, Lab Grading Option: Letter

**CHEM 465L Chemical Instrumentation**
Units: 4 Principles of operation of instruments used in physical sciences. Basic electronics, interconnection of building blocks, data acquisition and data reduction, noise, instrument systems. 
Prerequisite: CHEM 332L or CHEM 430b or CHEM 431 Instruction Mode: Lecture, Lab Required Grading Option: Letter

**CHEM 467L Advanced Chemical Biology Laboratory**
Units: 2 Principles, methods and protocols of chemical biology through experimentation focusing on the interactions of small molecules with biomacromolecules such as proteins and DNA. 
Prerequisite: CHEM 322b or CHEM 325b Corequisite: CHEM 300 Instruction Mode: Lecture, Lab Grading Option: Letter

**CHEM 488 Introduction to Theory and Practice of X-ray Crystallography**
Units: 4 Terms Offered: Fa Introduction to single crystal X-ray diffraction theory and its extension to two-dimensional diffraction. Application of modern instrumentation and software techniques to problems of current chemical interest. 
Prerequisite: CHEM 300; CHEM 322a or CHEM 325a; and CHEM 322b or CHEM 325b. Instruction Mode: Lecture Grading Option: Letter

**CHEM 490x Directed Research**
Units: 1, 2, 3, 4, 5, 6, 7, 8 Max Units: 12.0 
Terms Offered: FaSpSm Individual research and readings. Instruction Mode: Lecture Grading Option: Letter

**CHEM 494x Advanced Research Experience**
Units: 2, 4 Max Units: 4.0 Terms Offered: FaSpSm Directed undergraduate research supervised by faculty with advanced capstone research experience. 
Prerequisite: CHEM 490. Instruction Mode: Lecture Grading Option: Letter

**CHEM 495 Beyond the Classroom - Research in Modern Chemistry**
Units: 2 Current topics in modern research, understanding structures of modern graduate training program and navigating the process of graduate program application. Registration Restriction: Open only to juniors and seniors. 
Instruction Mode: Lecture Grading Option: Letter

**CHEM 499 Special Topics**
Units: 2, 3, 4 Max Units: 8.0 Lectures
CHEM 510x Alternative Energy Technologies and Options
Units: 4 Introduce the essential scientific background to understand complex issues involving energy use and its environmental consequences. Critically analyze energy issues that will shape policy decisions. Instruction Mode: Lecture Grading Option: Letter

CHEM 515 Structure and Bonding in Inorganic and Organometallic Chemistry
Units: 4 An integrated core course of structure and bonding in inorganic, coordination and organometallic chemistry within an oxidation state framework. Symmetry, electronic properties. Instruction Mode: Lecture, Discussion Grading Option: Letter

CHEM 519 Biochemistry and Molecular Biology: An Introduction for Chemists
Units: 4 Amino acids and peptides; protein structure and function; enzyme kinetics; structure, analysis and synthesis of nucleic acids; chemical biology of DNA and RNA; biotechnology. Instruction Mode: Lecture Grading Option: Letter

CHEM 520a Advanced Chemical Biology
Units: 2 Chemical approaches to investigate protein function and posttranslational modifications. Recommended Preparation: CHEM 322ab, and BISC 330 (or equivalent). Instruction Mode: Lecture Grading Option: Letter

CHEM 520b Advanced Chemical Biology
Units: 2 Chemical approaches to investigate protein function and posttranslational modifications. Recommended Preparation: CHEM 322ab, and BISC 330 (or equivalent). Instruction Mode: Lecture Grading Option: Letter

CHEM 521 Basic Principles of Physical Methods in Biochemistry
Units: 2 Principles underlying physical analytical methods commonly utilized in research in biomaterials and molecular biology. Instruction Mode: Lecture Grading Option: Letter

CHEM 523 Introduction to Functional Inorganic Materials
Units: 2 An introduction to functional inorganic materials emphasizing crystalline materials and how their properties can be understood based on their structure, elemental composition, and electronic structure. Recommended Preparation: A basic understanding of inorganic materials chemistry and electronic structure of extended solids. Instruction Mode: Lecture, Discussion Grading Option: Letter

CHEM 524 Inorganic Materials Chemistry
Units: 2 Studies in the fundamental principles governing inorganic materials. Structure and chemical bonding, preparative methods, and electrical, optical and magnetic properties of inorganic materials and applications. Prerequisite: CHEM 515. Instruction Mode: Lecture Grading Option: Letter

CHEM 526 Structure and Mechanism in Organic Chemistry
Units: 4 Review of modern structural theory of organic chemistry; and relation to the mechanisms of organic chemical reactions. Instruction Mode: Lecture Grading Option: Letter

CHEM 527 Synthetic Organic Chemistry
Units: 4 A survey of representative groups of widely used synthetic organic reactions; emphasis on scope, limitations, and stereochemical consequences. Instruction Mode: Lecture Grading Option: Letter

CHEM 532 Molecular Photochemistry and Photophysics
Units: 2 Terms Offered: FaSp Molecular electronic structure; description of the excited state; radiative/nonradiative decay and electron/energy transfer. Recommended Preparation: CHEM 515 and CHEM 526 Instruction Mode: Lecture Grading Option: Letter

CHEM 535 Introduction to Molecular Spectroscopy
Units: 4 Theory and experimental methods of molecular spectroscopy and applications to chemistry. Rotational, vibrational, electronic and nuclear magnetic resonance spectroscopies. Prerequisite: CHEM 544. Instruction Mode: Lecture Grading Option: Letter

CHEM 536 Molecular Dynamics
Units: 2 or 4 Potential energy surfaces, reaction dynamics, scattering theories, classical trajectories, statistical mechanics: ordinary and partial differential equations, mechanics, electricity and magnetism. Applications to physical chemistry/chemical physics. Instruction Mode: Lecture Grading Option: Letter

CHEM 538 Mathematical Techniques of Physical Chemistry
Units: 4 Fundamentals and techniques of mathematics and physics. Linear algebra, differential equations, mechanics, electricity and magnetism. Applications to physical chemistry/chemical physics. Instruction Mode: Lecture Grading Option: Letter

CHEM 539 Surface Chemistry
Units: 4 Physical and chemical properties of solid surfaces; thermodynamics and kinetics of gas chemisorption; chemical bonding at surfaces; applications to catalysis and electronic materials. Instruction Mode: Lecture Grading Option: Letter

CHEM 540 Introduction to Statistical Mechanics
Units: 4 Study of macroscopic systems from molecular viewpoint using statistical mechanics: ensembles, fluctuations, gases, gas-solid interfaces, crystals, polymers, critical phenomena, non-equilibrium systems. Instruction Mode: Lecture, Discussion Grading Option: Letter

CHEM 544 Introduction to Quantum Chemistry
Units: 4 Basic principles of quantum mechanics and their application to chemistry. Eigenvalues of atoms and molecules. Instruction Mode: Lecture Grading Option: Letter

CHEM 545 Theory and Practice of Molecular Electronic Structure
Units: 4 Provide working knowledge and hands-on experience in current quantum chemical methods for chemists who would like to employ these techniques in their own research. Prerequisite: CHEM 538, CHEM 544. Instruction Mode: Lecture Grading Option: Letter

CHEM 546 Mathematics in Physical Chemistry
Units: 2 Introduction to mathematical methods in physical chemistry and quantum mechanics: ordinary and partial differential equations, orthogonal polynomials, Fourier series, Fourier transforms, eigenvalue and matrix equations. Duplicates Credit in CHEM 538 Instruction Mode: Lecture, Discussion Grading Option: Letter

CHEM 547 Numerical Calculations in Physical Chemistry
Units: 2 Introduction to numerical calculations in physical chemistry and quantum mechanics: translational and vibrational wavepackets, tunneling motions, particle in a potential, rotation-vibration-spectra of diatomic molecules. Duplicates Credit in CHEM 538 Instruction Mode: Lecture, Discussion Grading Option: Letter

CHEM 548 Computer Simulations of Chemical and Biological Systems
Units: 4 Key aspects of the rapidly growing field of computer simulation of molecular systems in general and biological molecules in particular. Recommended Preparation: undergraduate course in physical chemistry or equivalent. Instruction Mode: Lecture Grading Option: Letter

CHEM 550 Special Topics in Chemical Physics
Units: 2, 3, 4 Max Units: 0 Max Units: 0 Study of selected areas of chemical physics. Critical evaluation of recent advances in the field. Instruction Mode: Lecture Grading Option: Letter

CHEM 551 Theory of Open Quantum Systems
Units: 4 (Enroll in PHYS 550)

CHEM 555 Computational Quantum Chemistry: Methods and Applications
Units: 2, 3, 4 Max Units: 0 Introduction to modern computational quantum chemistry. Prediction of molecular structure, molecular spectra and molecular reaction mechanisms using ab initio and semi-empirical methods. Prerequisite: CHEM 430b or CHEM 431 Recommended Preparation: CHEM 544 Instruction Mode: Lecture, Discussion Grading Option: Letter

CHEM 561 Polymer Synthesis
Units: 4 Concepts of polymer structure and stereochemistry. Organic chemistry of polymerization reactions with emphasis on condensation, radical, cationic, anionic, and coordination - metathesis polymerization. Instruction Mode: Lecture Grading Option: Letter

CHEM 565L Advanced Practical Nuclear Magnetic Resonance Spectroscopy
Units: 2 Application of multidimensional and time resolved NMR spectroscopy to problems in structure determination and stereochemistry. Prerequisite: CHEM 322b or CHEM 325b Recommended Preparation: CHEM 625. Instruction Mode: Lecture, Lab Required Grading Option: Letter
CHEM 570 Seminar in Chemical Biology
Units: 2 Max Units: 4.0 Introduce students to emerging research areas in chemical biology through a thorough discussion of seminal research articles and presentations of current research topics. Recommended Preparation: some research experience and familiarity with literature search. Instruction Mode: Lecture Grading Option: Letter

CHEM 575 Modern Trends in Physical Chemistry
Units: 2 Max Units: 4.0 Introduce students to emerging research areas in physical and theoretical chemistry through a thorough discussion of seminal research articles and presentations of current research topics. Recommended Preparation: some research experience and familiarity with literature search. Instruction Mode: Lecture Grading Option: Letter

CHEM 577a Medicinal Chemistry and Drug Design
Units: 2 Introduction to fundamentals of medicinal chemistry with special attention to the drug discovery process. Recommended Preparation: PSCI 664 and CHEM 519. PSCI 664. Instruction Mode: Lecture Grading Option: Letter

CHEM 577b Medicinal Chemistry and Drug Design
Units: 2 Concepts, methods and examples of current approaches to drug design including computer-based molecular modeling techniques. Recommended Preparation: PSCI 664 and CHEM 519. PSCI 664. Instruction Mode: Lecture Grading Option: Letter

CHEM 580 Current Topics in Inorganic Chemistry and Nanoscience
Units: 2 Max Units: 4.0 Introduction to emerging research areas in inorganic chemistry and nanoscience through a discussion of seminal research articles and presentations of current research topics. Instruction Mode: Lecture, Discussion Grading Option: Letter

CHEM 585 Advanced Practical X-ray Structure Determination of Small Molecules
Units: 2 Advanced techniques and methods in small molecule X-ray crystal structure determination. Emphasis on practical and laboratory work. Duplicates Credit in former CHEM 588a. Instruction Mode: Lecture Grading Option: Letter

CHEM 589 Macromolecular Crystallography
Units: 2 Advanced techniques and methods in X-ray crystal structure determination of biological macromolecules with emphasis on practical work. Duplicates Credit in former CHEM 588b. Instruction Mode: Lecture Grading Option: Letter

CHEM 590 Directed Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Terms Offered: FaSpSm Research leading to the master's degree. Maximum units which may be applied to the degree to be determined by the department. Instruction Mode: Lecture Grading Option: Letter

CHEM 594a Master's Thesis
Units: 2 Terms Offered: FaSpSm Credit on acceptance of thesis. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

CHEM 594b Master's Thesis
Units: 2 Terms Offered: FaSpSm Credit on acceptance of thesis. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

CHEM 594z Master's Thesis
Units: 2 Terms Offered: FaSpSm Credit on acceptance of thesis. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

CHEM 594a Doctoral Dissertation
Units: 2 Terms Offered: FaSpSm Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

CHEM 594b Doctoral Dissertation
Units: 2 Terms Offered: FaSpSm Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

CHEM 594c Doctoral Dissertation
Units: 2 Terms Offered: FaSpSm Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

CHEM 597 Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Terms Offered: FaSpSm Research leading to the doctorate. Maximum units which may be applied to the degree to be determined by the department. Instruction Mode: Lecture Grading Option: Credit/No Credit

CHEM 599 Special Topics
Units: 2 Terms Offered: FaSpSm Credit on acceptance of thesis. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

CHEM 599 Special Topics
Units: 2, 3, 4 Special topics in chemistry. Instruction Mode: Lecture, Discussion Grading Option: Letter

CHEM 625 Chemical Applications of Magnetic Resonance Spectroscopy
Units: 4 Elementary theory of magnetic resonance spectroscopy, methods of spectral analysis, treatment of Fourier Transform methods and time dependent phenomena; recent applications in organic chemistry. Instruction Mode: Lecture Grading Option: Letter

CHEM 626 Natural Products Chemistry
Units: 2 Survey of the chemistry and biogenesis of the major classes of secondary metabolites along biogenetic lines: terpenes, acetogenins, and alkaloids. Instruction Mode: Lecture Grading Option: Letter

CHEM 630 Fundamentals of Electrochemical Energy Systems
Units: 2 Fundamentals of electrochemical energy systems including various batteries, fuel cells and electrolyzers with a focus on materials, operating principles and applications. Instruction Mode: Lecture Grading Option: Letter

CHEM 632 Introduction to Surface Chemistry and Electroanalysis
Units: 2 Introduction to principles governing physical and chemical behavior of surfaces: structures, thermodynamics, adsorption, desorption, diffusion, electron transfer and electrocatalytic reactions, and experimental surface analytical techniques. Instruction Mode: Lecture Grading Option: Letter

CHEM 661 Selected Topics in Polymer Synthesis
Units: 2, 3, 4 Max Units: 8.0 Advanced level study in selected areas of polymer synthesis. Critical evaluation of recent advances. Topic examples: ionic polymerization; stereo chemistry of polymers; silicon polymers; ladder polymers. Instruction Mode: Lecture Grading Option: Letter

CHEM 700 Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Terms Offered: FaSpSm Research leading to the doctorate. Maximum units which may be applied to the degree to be determined by the department. Instruction Mode: Lecture Grading Option: Credit/No Credit

CHEM 794a Doctoral Dissertation
Units: 2 Terms Offered: FaSpSm Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

CHEM 794b Doctoral Dissertation
Units: 2 Terms Offered: FaSpSm Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

CHEM 794c Doctoral Dissertation
Units: 2 Terms Offered: FaSpSm Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

CHEM 790 Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Terms Offered: FaSpSm Research leading to the doctorate. Maximum units which may be applied to the degree to be determined by the department. Instruction Mode: Lecture Grading Option: Credit/No Credit

CHEM 794d Doctoral Dissertation
Units: 2 Terms Offered: FaSpSm Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

CHEM 794z Doctoral Dissertation
Units: 0 Terms Offered: FaSpSm Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

Criminal Justice

CJ 500 Criminology
Units: 2 Terms Offered: FaSpSm Key theories and frameworks used to explain crime and inform responses to crime. Registration Restriction: Open only to USC Bovard College Students Instruction Mode: Lecture Grading Option: Letter

CJ 505 Analysis of Criminal Justice Systems
Units: 2 Terms Offered: FaSpSm The criminal justice system's response to crime through a theoretical and interdisciplinary lens. Registration Restriction: Open only to USC Bovard College Students Instruction Mode: Lecture Grading Option: Letter

CJ 510 Criminal Justice Leadership
Units: 2 Terms Offered: FaSpSm Theory and practice of traditional and contemporary approaches to leadership in the context of criminal justice. Registration Restriction: Open only to USC Bovard College Students Instruction Mode: Lecture Grading Option: Letter

CJ 515 Applied Research Methods for Criminal Justice
Units: 2 Terms Offered: FaSpSm Fundamental research methods and design commonly used to answer questions related to criminal justice. Registration Restriction: Open only to USC Bovard College Students Instruction Mode: Lecture Grading Option: Letter
Instruction Mode: Lecture, Discussion
Grading Option: Letter

CLAS 321 Greek Art and Archaeology
Units: 4 Terms Offered: Fa (Enroll in AHIS 321)

CLAS 322 Roman Art and Archaeology
Units: 4 Terms Offered: Sp (Enroll in AHIS 322)

CLAS 323 Aegean Archaeology
Units: 4 Terms Offered: FaSp Survey of the Bronze Age Aegean societies of Minoan Crete and Mycenaean Greece; emphasis on archaeological theory and method in a prehistoric context. Instruction Mode: Lecture Grading Option: Letter Crosslisted as AHIS-320, REL-323

CLAS 324 Late Antique Art and Archaeology
Units: 4 Investigation of the transformation between classical antiquity and the middle ages through examination of cities, buildings, images and artifacts of the 3rd–8th century Mediterranean. Instruction Mode: Lecture Grading Option: Letter Crosslisted as AHIS-324

CLAS 325 Ancient Epic
Units: 4 Representative epics of the Greek and Roman world; development of the character of the hero; later influences. Instruction Mode: Lecture Grading Option: Letter

CLAS 328 Archaeology of Religion in the Greco-Roman World
Units: 4 Examination of ancient objects, images and archaeological sites as evidence for religious practice and ideas about the sacred in the Greco-Roman world. Recommended Preparation: AHIS 120gp, AHIS 201g Instruction Mode: Lecture Grading Option: Letter Crosslisted as AHIS-326, REL-328

CLAS 330 Ancients VS. Moderns
Units: 4 Terms Offered: FaSp The history of the conflicts and compromises between advocates of antiquity and of modernity that continues to shape our own approaches to the past. Instruction Mode: Lecture Grading Option: Letter

CLAS 332 Cult and City in Ancient Greece
Units: 4 Explores the relationship between civic and religious institutions in ancient Greece: city planning, warfare, mystery cults, drama, sacrifice, and women's rituals. Instruction Mode: Lecture Grading Option: Letter

CLAS 336 Rome and its Discontents: Literature and Social Change
Units: 4 Terms Offered: FaSp A study of major literary texts in translation from early imperial Rome and their responses to profound political and social change. Instruction Mode: Lecture Grading Option: Letter

CLAS 337g Ancient Drama
Units: 4 Tragedies and comedies of the ancient world; later influences. Satisfies New General Education in Category B: Humanistic Inquiry Satisfies Global Perspective in Category H: Traditions and Historical Foundations Instruction Mode: Lecture Grading Option: Letter

CLAS 338 Warfare, State, and Society in the Ancient World
Units: 4 War, warriors, and their relationship to politics and culture in the ancient world. Mobilization, socioeconomic status of soldiers, discipline, organization, and hierarchy. Memory of war. Instruction Mode: Lecture Grading Option: Letter Crosslisted as HIST 311

CLAS 339 Ancient Science
Units: 4 Cross-cultural investigation of aims, origins, and transmission of various scientific traditions in antiquity. Relationships between science and philosophy, scientific thought and practice. Instruction Mode: Lecture Grading Option: Letter

CLAS 340 Ethics and Politics in Ancient Rome
Units: 4 Introduction to ethical and political thought of classical Roman writers. Relationship between theory and practice. Implications for contemporary society. Recommended Preparation: Basic familiarity with Roman history. Instruction Mode: Lecture Grading Option: Letter

CLAS 348g Athens in the Age of Democracy and Empire
Units: 4 Terms Offered: FaSp Democratic Institutions and practices, empire building, and cultural innovations of fifth and fourth century B.C. Athens using historical, rhetorical, dramatic, philosophical, and artistic sources. Satisfies New General Education in Category B: Humanistic Inquiry Instruction Mode: Lecture Grading Option: Letter

CLAS 349g Ancient Empires
Units: 4 Terms Offered: FaSpSm History and cultures of the ancient empires of southwest Asia, from Cyrus the Great to the establishment of Islam. Satisfies New General Education in Category C: Social Analysis Satisfies Global Perspective in Category H: Traditions and Historical Foundations Satisfies Old General Education in Category II: Global Cultures and Traditions Crosslisted Credit in former CLAS 149 Instruction Mode: Lecture Grading Option: Letter Crosslisted as MDES 349

CLAS 370 Leaders and Communities: Classical Models
Units: 4 Terms Offered: FaSp Examination of political and moral leadership in classical republican, democratic, and imperial communities; consideration of how these models are useful to contemporary democracies. Instruction Mode: Lecture Grading Option: Letter Crosslisted as COLT-370

CLAS 371 From Alexander to Cleopatra: The Mediterranean in an Age of Expansion
Units: 4 Terms Offered: FaSp The history and culture of the Greek kingdoms in Egypt and Asia. Instruction Mode: Lecture Grading Option: Letter Crosslisted as HIST 387

CLAS 375 Alexander the Great
Units: 4 Ancient sources on Alexander's life, personality and conquests. Modern evaluations of his achievements as a prototype for autocracy and empire-building from antiquity to today. Instruction Mode: Lecture Grading Option: Letter

CLAS 378 Ptolemaic Egypt
Units: 4 Terms Offered: FaSp Social, cultural, and political history of Egypt from Alexander to Cleopatra; state formation; immigration and cultural interaction between ethnic groups. Instruction Mode: Lecture Grading Option: Letter Crosslisted as MDES 378, HIST 328

CLAS 380 Approaches to Myth
Units: 4 Advanced study of uses and interpretations of myth. Approaches include myth and ritual; psychology; gender; myth in literature, film and art. Recommended Preparation: CLAS 280 Instruction Mode: Lecture Grading Option: Letter

CLAS 390 Special Problems
Units: 1, 2, 3, 4 Supervised, individual studies. No more than one registration permitted. Enrollment by petition only. Instruction Mode: Lecture Grading Option: Letter

CLAS 410 Capstone Research Seminar
Units: 4 Terms Offered: FaSp Required capstone for classics majors; overview of research methods and resources in classical studies culminating in final capstone project. Registration Restriction: Open only to Classics majors in year three and above Duplicates Credit in former CLAS 410a Instruction Mode: Lecture Grading Option: Letter

CLAS 415 Object-Worlds: Histories and Theories of Things
Units: 4 (Enroll in AHIS 415)

CLAS 420 Science and Empire from Baghdad to Byzantium
Units: 4 Terms Offered: FaSp Seminar on medieval science and scientists in the Byzantine and Islamic empires, including astronomy, astrology, medicine, and alchemy. Instruction Mode: Lecture Grading Option: Letter

CLAS 425 Interdisciplinary Studies in Classical Art and Archaeology: Research and Methodology
Units: 4 Max Units: max 8 Terms Offered: FaSp Sm The interaction of archaeology and contemporary society through archaeological interpretation and method, and methodological studies of archaeologists' role as researchers and interpreters of ancient cultures and their remains. Capstone course for the Archaeology major. Recommended Preparation: background in archaeology, classics, or related field Instruction Mode: Lecture Grading Option: Letter Crosslisted as ANTH 465, REL 465, ARCG 465

CLAS 470 Democracies Ancient and Modern
Units: 4 Democratic and republican governments in Athens and Rome; their influence on republicanism in early modern Italy and 18th-century America; their relevance for contemporary democracies. Instruction Mode: Lecture Grading Option: Letter

CLAS 485 Comparative Grammar of Greek and Latin
Units: 4 A systematic comparative and historical linguistic study of the phonological, morphological and syntactic components of the grammars of the ancient Greek and Latin languages. Instruction Mode: Lecture Grading Option: Letter

CLAS 490x Directed Research
Units: 1, 2, 3, 4, 5, 6, 7, 8 Max Units: 12.0 Individual research and readings. Not
available for graduate credit. Instruction Mode: Lecture Grading Option: Letter

CLAS 495x Honors Research
Units: 4 Individual research for honors in the major leading to a substantial paper or other project. Instruction Mode: Lecture Grading Option: Letter

CLAS 499 Special Topics
Units: 2, 3, 4 Max Units: 8.0 Instruction Mode: Lecture Grading Option: Letter

CLAS 500 Proseminar
Units: 2 Terms Offered: Sp Introduction to classical scholarship; research methods; bibliography. Recommended Preparation: This course requires a knowledge of Greek or Latin. Instruction Mode: Lecture Grading Option: Letter

CLAS 501a Cross Registration with UCLA
Units: 2/12 Special studies in selected areas of classical civilization and literature. Recommended Preparation: This course requires a knowledge of Greek or Latin. Instruction Mode: Lecture Grading Option: Letter

CLAS 501b Cross Registration with UCLA
Units: 2/12 Special studies in selected areas of classical civilization and literature. Recommended Preparation: This course requires a knowledge of Greek or Latin. Instruction Mode: Lecture Grading Option: Letter

CLAS 501c Cross Registration with UCLA
Units: 2/12 Special studies in selected areas of classical civilization and literature. Recommended Preparation: This course requires a knowledge of Greek or Latin. Instruction Mode: Lecture Grading Option: Letter

CLAS 501d Cross Registration with UCLA
Units: 2/12 Special studies in selected areas of classical civilization and literature. Recommended Preparation: This course requires a knowledge of Greek or Latin. Instruction Mode: Lecture Grading Option: Letter

CLAS 510 Seminar in Classical Philology
Units: 4 Max Units: 12 Terms Offered: FaSp Close study of the Greek and Latin languages and linguistic theory. Recommended Preparation: Knowledge of Greek or Latin Instruction Mode: Lecture Grading Option: Letter

CLAS 511 Sanskrit I
Units: 4 Introduces the student to the fundamentals of Sanskrit grammar, the ancient Indo-European language most closely related to Greek. Recommended Preparation: This course requires a knowledge of Greek or Latin. Instruction Mode: Lecture Grading Option: Letter

CLAS 512 Sanskrit II
Units: 4 Completes the acquisition of the fundamentals of Sanskrit grammar and enables the student to read a variety of Vedic and classical Sanskrit texts. Recommended Preparation: This course requires a knowledge of Greek or Latin. Instruction Mode: Lecture Grading Option: Letter

CLAS 515 Topics in Classical Scholarship
Units: 4 Max Units: 12 Terms Offered: FaSp Intensive study of individual authors, genres, periods, or areas of classical scholarship. Recommended Preparation: Knowledge of Greek or Latin. Recommended Preparation: Knowledge of Greek or Latin Instruction Mode: Lecture Grading Option: Letter

CLAS 520 Approaches to Antiquity
Units: 4 Max Units: 12 Terms Offered: FaSp Study in the history and theory of classical scholarship. Recommended Preparation: Knowledge of Greek or Latin. Recommended Preparation: Knowledge of Greek or Latin Instruction Mode: Lecture Grading Option: Letter

CLAS 525 Studies in Ancient and Pre-Modern Cultures
Units: 4 Max Units: 12 Terms Offered: FaSp Investigation of cultural interaction among Greeks, Romans and other ancient peoples. Includes a comparative study of pre-modern cultures. Recommended Preparation: Knowledge of Greek or Latin. Recommended Preparation: Knowledge of Greek or Latin Instruction Mode: Lecture Grading Option: Letter

CLAS 540 Seminar in Early Greek Literature
Units: 4, 3 years Terms Offered: Fa Homer through Aeschylus. Instruction Mode: Lecture Grading Option: Letter

CLAS 545 Seminar in Theoretical Approaches to Greek Culture and Literature
Units: 4 Max Units: 12 Terms Offered: FaSp Introduces students to the study of Greek culture and to the range of theories useful for modeling that culture and its literature. Instruction Mode: Lecture Grading Option: Letter

CLAS 550 Seminar in Classical and Hellenistic Literature
Units: 4, 3 years Terms Offered: Sp Tragic poetry, comic poetry, Hellenistic poetry. Instruction Mode: Lecture Grading Option: Letter

CLAS 555 Seminar in Greek History, Culture and Society
Units: 4 Max Units: 12 Terms Offered: FaSp Develops a historical framework for Greek culture from the Mycenaean period through the Hellenistic world. Emphasis on prose texts: historians, philosophers, orators. Instruction Mode: Lecture Grading Option: Letter

CLAS 560 Seminar in Republican Latin Literature
Units: 4, 3 years Terms Offered: Fa Early Latin literature through Virgil. Instruction Mode: Lecture Grading Option: Letter

CLAS 565 Seminar in Theoretical Approaches to Roman Culture and Literature
Units: 4 Max Units: 12 Terms Offered: FaSp Introduces students to the study of Roman culture and to a range of theories useful for modeling that culture and its literature. Instruction Mode: Lecture Grading Option: Letter

CLAS 570 Seminar in Imperial Latin Literature
Units: 4, 3 years Terms Offered: Sp Latin literature from the Augustan period to that of the Antonines. Instruction Mode: Lecture Grading Option: Letter

CLAS 575 Seminar in Roman History, Culture and Society
Units: 4 Max Units: 12 Terms Offered: FaSp Introduces students to research in Roman history and historiography. Instruction Mode: Lecture Grading Option: Letter

CLAS 590 Directed Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Terms Offered: FaSp Research leading to the master's degree. Maximum units which may be applied to the degree to be determined by the department. Instruction Mode: Lecture Grading Option: Credit/No Credit

CLAS 593x Practicum in Teaching Liberal Arts: Classics
Units: 2 Terms Offered: Fa Basic principles of philosophical pedagogy, with emphasis on practical applications and the importance of career-long skill development. Required for first-semester teaching assistants in Classics. Registration Restriction: Open only to doctoral students in Classics. Instruction Mode: Lecture Grading Option: Credit/No Credit

CLAS 594a Master's Thesis
Units: 2 Terms Offered: FaSp Credit on acceptance of thesis. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

CLAS 594b Master's Thesis
Units: 2 Terms Offered: FaSp Credit on acceptance of thesis. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

CLAS 594c Master's Thesis
Units: 0 Terms Offered: FaSp Credit on acceptance of thesis. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

CLAS 599 Special Topics
Units: 2, 3, 4 Max Units: 8.0 Terms Offered: FaSpSm Special topics in classical language, literature and culture. Instruction Mode: Lecture Grading Option: Letter

CLAS 790 Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Research leading to the doctorate. Maximum units which may be applied to the degree to be determined by the department. Instruction Mode: Lecture Grading Option: Credit/No Credit

CLAS 794a Doctoral Dissertation
Units: 2 Terms Offered: FaSp Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

CLAS 794b Doctoral Dissertation
Units: 2 Terms Offered: FaSp Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

CLAS 794c Doctoral Dissertation
Units: 2 Terms Offered: FaSp Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

CLAS 794d Doctoral Dissertation
Units: 2 Terms Offered: FaSp Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

CLAS 794e Doctoral Dissertation
Units: 0 Terms Offered: FaSp Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit
Community Dentistry
CMDT 501 Introduction to Community Dentistry Programs
Units: 1 Lectures and practical field experiences introducing the role of the dentist in a variety of organized public health programs. Instruction Mode: Lecture Grading Option: Letter
CMDT 502a Contemporary Dental Practice
Units: 2 Economic, legal, and professional aspects of dental practice; alternative careers in dentistry. Instruction Mode: Lecture Grading Option: Letter
CMDT 502b Contemporary Dental Practice
Units: 2 Economic, legal, and professional aspects of dental practice; alternative careers in dentistry. Instruction Mode: Lecture Grading Option: Letter
CMDT 507a Ethical Issues in the Practice of Dentistry
Units: 0 Examination of the major ethical issues in the current practice of dentistry; study of effective and proper methods of addressing the issues. Instruction Mode: Lecture Grading Option: In-progress to Letter Grade
CMDT 507b Ethical Issues in the Practice of Dentistry
Units: 0 Examination of the major ethical issues in the current practice of dentistry; study of effective and proper methods of addressing the issues. Instruction Mode: Lecture Grading Option: In-progress to Letter Grade
CMDT 507c Ethical Issues in the Practice of Dentistry
Units: 1 Examination of the major ethical issues in the current practice of dentistry; study of effective and proper methods of addressing the issues. Instruction Mode: Lecture Grading Option: In-progress to Letter Grade
CMDT 601 Mobile Clinic
Units: 1 Clinic experience in provision of dental care for children of low income agricultural workers through use of mobile dental clinic on location. Instruction Mode: Lecture Grading Option: Letter
CMDT 603 Multisphic Experiences in Extramural Dentistry
Units: 1 Community responsibilities of dentists in a dynamic society. Practical experiences include consultations and visitations to private offices, group practices, hospitals, and neighborhood health clinics. Instruction Mode: Lecture Grading Option: Letter
CMDT 606 Business Principles in Dentistry
Units: 2 Overview of basic business administration principles, including economics, accounting, marketing, finance, entrepreneurship, and strategic planning as relevant to the practice of dentistry. Instruction Mode: Lecture Grading Option: Letter
Communication Management
CMGT 500 Managing Communication
Units: 4 Production and distribution of information within large organizations; information networks, organization structure, control and decision-making functions. Resources necessary for effective organizational communication systems. Instruction Mode: Lecture Grading Option: Letter
CMGT 501 Communication Management Pro-Seminar
Units: 4 Terms Offered: Sp Central issues of theory and practice in the management of communication; broad introduction to all areas of the program. Registration Restriction: Open only to Communication Management majors Instruction Mode: Lecture Grading Option: Letter
CMGT 502 Strategic Corporate Communication
Units: 4 Roles, responsibilities and requirements of communication functions within corporations; design and implementation of communication plans; strategic message production for internal and external audiences. Instruction Mode: Lecture Grading Option: Letter
CMGT 503 Strategic Communication Consulting
Units: 4 Communication consulting skills including facilitation, training, presentation coaching, benefits writing, speech writing, and communicating organizational change; consulting basics, proposals, cost estimating, and final reports. Instruction Mode: Lecture Grading Option: Letter
CMGT 504 Writing for Strategic Communication
Units: 4 Writing skills necessary for an organizational communicator; review of strategic writing fundamentals; development of portfolio of diverse media applications based on strategic corporate communication requirements. Instruction Mode: Lecture Grading Option: Letter
CMGT 505 Communication in Work Settings
Units: 4 Terms Offered: Fa How work settings determine communication: basic structures of communication, influence of technology, social contexts and physical space. Applications to management. Registration Restriction: Open only to Communication Management majors Instruction Mode: Lecture Grading Option: Letter
CMGT 506 Images and Image Management
Units: 4 Examines images and image manipulation in communication, management and social control. Synthesizes work ranging from cognition and interpersonal behavior to mass media and popular culture. Instruction Mode: Lecture Grading Option: Letter
CMGT 507 Information Management
Units: 4 Terms Offered: FaSp Conceptual frameworks to understand variability, uncertainty and bias associated with information and data. Principles and strategies for critical analyses, sense-making, knowledge discovery, data-based presentation. Instruction Mode: Lecture Grading Option: Letter
CMGT 508 Communicating Strategy and Change
Units: 4 Examination of role of communication in developing and implementing business strategy; critical assessment and practice with models, tools, and techniques for communicating change. Instruction Mode: Lecture Grading Option: Letter
CMGT 509 Influential Communication in the Marketplace
Units: 4 Promotional messages as both creative expressions and agents for behavioral change; application of social science theories of persuasion and compliance in interpersonal and mass-media venues. Instruction Mode: Lecture Grading Option: Letter
CMGT 510 Communication, Values, Attitudes and Behavior
Units: 4 Theory and research on value and attitude formation and change, consequences for communication and behavior. Instruction Mode: Lecture Grading Option: Letter
CMGT 511 Health Communication
Units: 4 Connections between health providers' communication and patients' well-being; consultation language, nonverbal behavior, physical settings, design of media messages, information technologies in patient education and care. Instruction Mode: Lecture Grading Option: Letter
CMGT 512 Unintended Consequences of Communication
Units: 4 A multidisciplinary examination of the unintended consequences of interpersonal, mass media, political, commercial and social communication by analyzing tactical and strategic errors in communication campaigns. Instruction Mode: Lecture Grading Option: Letter
CMGT 514 Analytical Tools for Communication Decisions
Units: 4 Terms Offered: Fa Decision making for communication professionals utilizing statistics, methods, and analysis. Identifying solutions and how to communicate these solutions to others. Prerequisite: CMGT 540 Registration Restriction: Open only to Communication Management majors. Instruction Mode: Lecture Grading Option: Letter
CMGT 515 Innovation and the Information Economy
Units: 4 Analysis of the innovation dynamics fueled by the information and communication technology revolution; economic, technological, institutional and personal underpinnings of innovation and entrepreneurship. Instruction Mode: Lecture Grading Option: Letter
CMGT 516 Communication Strategies For Innovators and Entrepreneurs
Units: 4 Terms Offered: FaSp Communication research, analysis and strategies for new ventures to establish spread and acceptance in saturated mediascapes. Help founders find persuasive voice and identity. Instruction Mode: Lecture Grading Option: Letter
CMGT 517 Communication in the Luxury Fashion Industry
Units: 4 Terms Offered: FaSp Examines luxury fashion marketing communication, focusing on connecting with the audience. Topics include history of the industry, media channels, digital platforms and communicating values. Instruction Mode: Lecture Grading Option: Letter
CMGT 520 Social Roles of Communication Media
Units: 4 How mass media shape public images of groups, channel political power, promote consumption of goods. Social and political theories as tools in evaluating media impact. Instruction Mode: Lecture Grading Option: Letter

CMGT 528 Website Strategies for Organizational Work Teams
Units: 4 Terms Offered: Sp Assess organizations' online needs, to examine the use of the Internet in terms of electronic commerce and global pressures, and design Web page strategies. Instruction Mode: Lecture Grading Option: Letter

CMGT 529 Social Media Entertainment and Creator Culture
Units: 4 Terms Offered: Sp Maps the global rise and evolution of Social Media Entertainment and China's Wang Hong industries distinguished by creators, aka influencers, YouTubers, live streamers, KOLs and Wang Hong. Instruction Mode: Lecture Grading Option: Letter

CMGT 530 Social Dynamics of Communication Technologies
Units: 4 Impact of television, satellites, computers, and other new technologies; competing theories about the role of technology in society; historical effects of introducing new technologies. Instruction Mode: Lecture Grading Option: Letter

CMGT 531 Communication and the International Economy
Units: 4 Examines the impact of global economic changes on communications industry and the political and economic forces shaping these industries and the roles of their managers. Instruction Mode: Lecture Grading Option: Letter

CMGT 532 Development of American Electronic Media Industry
Units: 4 Origins of American radio and television broadcasting industry and analysis of its development into the contemporary media industry; covers history, technology, regulation, and business management. Instruction Mode: Lecture Grading Option: Letter

CMGT 533 Emerging Communication Technologies
Units: 4 Basics of multimedia; new forms of audio and video interactive technologies; computer communication networks; social, political, cultural, interpersonal, organizational issues related to emerging communication technologies. Duplicates Credit in former COMM 533. Instruction Mode: Lecture Grading Option: Letter

CMGT 535 Online Communities for Organizations
Units: 4 How Web-based technologies affect organizational communication, including issues related to collaboration, innovation and knowledge management, forecasting and networking. Duplicates Credit in former COMM 535. Instruction Mode: Lecture Grading Option: Letter

CMGT 536 Team Communication and Leadership
Units: 4 Theories of effective team communication and leadership; case studies of effective and ineffective teams and leaders; teamwork and communication development; and distributed work teams.

CMGT 537 The Industry, Science and Culture of Video Games
Units: 4 History, social dynamics, and cultural impact of video games; developments in technology and design; issues confronting the video game industry and organizations. Instruction Mode: Lecture Grading Option: Letter

CMGT 540 Uses of Communication Research
Units: 4 Applications of both data and interpretation in communications management. Topics include: audience ratings, surveys, experimental tests of programs and campaigns, formative evaluation, secondary data sources. Registration Restriction: Open only to Communication Management and Communications Management Online students Instruction Mode: Lecture Grading Option: Letter

CMGT 541 Integrated Communication Strategies
Units: 4 Communication strategies for product marketing and advertising communication's role in developing domestic and international marketplaces; practical applications of persuasion theory. Instruction Mode: Lecture Grading Option: Letter

CMGT 542 Business Strategies of Communication Firms
Units: 4 Terms Offered: FaSpSm An overview of business strategies in communication agencies. Emphasis on active cases. Students prepare strategic and executional aspects for communication needs in client firms. Instruction Mode: Lecture Grading Option: Letter

CMGT 543 Managing Communication in the Entertainment Industry
Units: 4 Examination, application and critique of traditional and contemporary organizational communication theory as it applies to the entertainment industry's unique internal and external environments. Instruction Mode: Lecture Grading Option: Letter Crosslisted as PR 583

CMGT 544 Creating Organizational Identity: Meaning Through Messages
Units: 4 Use of rhetorical theories and communication models to create organizational identification with internal and external audiences; the role of values and ethics in creating identities. Instruction Mode: Lecture Grading Option: Letter

CMGT 545 Communication and Global Competition
Units: 4 How communication technologies are used to secure competitive advantage; how firms use communication systems to sustain effective positioning in an industry; convergence of communication industries. Instruction Mode: Lecture Grading Option: Letter

CMGT 546 Sports Media and Society
Units: 4 History and evolution of sports media industry; traditional, new and alternative sports media; globalization of sports; sports promotions and personalities. Instruction Mode: Lecture Grading Option: Letter

CMGT 547 Distribution of Recordings: Media, Retail and Online Channels
Units: 4 Cultural and critical analyses of radio and recording industry development and business strategy; influence of legal and regulatory institutions, impact of new forms of distribution. Instruction Mode: Lecture Grading Option: Letter

CMGT 548 Issues in Children's Media
Units: 4 Historical review of children's programming; programming genres; ethical and business issues of marketing to children; children's uses of various media. Instruction Mode: Lecture Grading Option: Letter

CMGT 549 Case Studies in Digital Entertainment
Units: 4 Explores foundation of U.S. media policy in the digital age; students prepare White Papers on an urgent issue of contemporary digital media and entertainment policy. Instruction Mode: Lecture Grading Option: Letter

CMGT 550 Hollywood 3.0 — Entertainment Industry in the Convergence Age
Units: 4 In-depth analysis of the challenges confronting the entertainment industry in the wake of media convergence including a survey of media convergence history and theories. Instruction Mode: Lecture Grading Option: Letter

CMGT 551 Communicating Entertainment Media Identities
Units: 4 Understanding dynamics in entertainment markets enabled by emerging digital technologies; broad and niche strategies to target appropriate audiences, building audience engagement with entertainment content identities. Instruction Mode: Lecture Grading Option: Letter

CMGT 552 Visual Storytelling: Production, Management and Culture
Units: 4 Focuses on management, production and distribution of scripted film, television and web stories to understand visual storytelling as a communicative strategy for advertising and education. Instruction Mode: Lecture Grading Option: Letter

CMGT 553 Marketing Communication Theory and Application
Units: 4 Terms Offered: Sp Applies communication theory and research to understand emerging marketing communication topics and issues. Registration Restriction: Open only to Master of Communication Management students Instruction Mode: Lecture Grading Option: Letter

CMGT 554 Copywriting and Creativity
Units: 4 Foundational and advanced practices for copywriting and related design in communication; integrated analysis of concepts and pragmatics surrounding creativity for communication effectiveness. Instruction Mode: Lecture Grading Option: Letter

CMGT 555 Online Marketing Communication Development and Analysis
Units: 4 Analysis and development of online communication and marketing campaigns; exploration of current Internet best practices in social media, SEM, privacy, location-based marketing, and online measurement.
CMGT 556 Communication Law and New Technologies
Units: 4 Development of law in newer technologies. Cases include cable television, low power television, direct broadcast satellites, teletext, video cassettes, telephone, data networks, computer regulation. Instruction Mode: Lecture Grading Option: Letter

CMGT 567 Internet Policy, Practice and Regulation
Units: 4 Examines how legal decisions impact commercial and personal uses of the Internet; regulatory responses to court decisions. Instruction Mode: Lecture Grading Option: Letter

CMGT 568 Influencer Strategies
Units: 4 Terms Offered: Fa Students master skills and strategies to distinguish the truly influential from the merely popular, manage international influencer campaigns and develop successful influencers. Instruction Mode: Lecture Grading Option: Letter

CMGT 571 Communications Technologies
Units: 4 Basic technological concepts necessary to understand the workings of modern communications products and services, to include frequency, bandwidth, electricity, modulation, and digital conversion. Instruction Mode: Lecture Grading Option: Letter

CMGT 573 Evaluating Communication Needs
Units: 4 Participation as consultants in field projects. Use of organizational, interpretive, and statistical methods to design organizational communication systems is emphasized. Instruction Mode: Lecture Grading Option: Letter

CMGT 574 Tele-Media: Strategic and Critical Analysis
Units: 4 Strategic and critical analyses of technologies from historical, business, financial, consumer, and policy perspectives. Instruction Mode: Lecture Grading Option: Letter

CMGT 575 Communicating in Crisis
Units: 4 Terms Offered: FaSp How to use effective organizational communication to facilitate crisis prevention, provide leadership during a crisis and manage organizational change. Instruction Mode: Lecture Grading Option: Letter

CMGT 576 Communication Strategies for Conflict Management
Units: 4 Communication strategies for effective negotiation, mediation and facilitation of disputes; structures for public interventions; emergence of online dispute resolution systems. Instruction Mode: Lecture Grading Option: Letter

CMGT 577 Communicating Corporate Social Responsibility
Units: 4 Evolution, models, metrics and stakeholders. Key communication issues in designing and implementing initiatives, CSR reporting, strategic partnerships and online communities. Analysis of communication paradoxes. Instruction Mode: Lecture Grading Option: Letter

CMGT 578 Non-profit Advocacy
Units: 4 Examines non-profit advocacy (vs. for-profit communication) marked by different rhythmic and creative drivers; non-profit audience analysis; creation of conversations for viral communication impact. Instruction Mode: Lecture Grading Option: Letter

CMGT 580 Chinese Media and Society
Units: 4 Terms Offered: FaSp Legacy and emerging media industries in China. Focus on key actors, particularly relationships between platforms, creators, content, audience, intermediaries and sponsors. Instruction Mode: Lecture Grading Option: Letter

CMGT 581 Media in Social Services: Design and Evaluation of Campaigns
Units: 4 Theory and research issues in the use of media for changing behavior in health, public safety, welfare, and other areas of social services. Duplicates Credit in former COMM 581. Instruction Mode: Lecture Grading Option: Letter

CMGT 582 International Communication: National Development
Units: 4 Comparison of traditional communication programs and newer information and communication technologies for analyzing needs of international communities, design, implementation, monitoring, and evaluation of development-related projects. Instruction Mode: Lecture Grading Option: Letter

CMGT 584 Communication and the Multicultural Marketplace
Units: 4 Popular culture and marketing communication; race, gender, sexual orientation and consumer culture; consumption patterns and identity, loyalty and self-actualization; cultural marketing campaigns and sociopolitical conflict. Instruction Mode: Lecture Grading Option: Letter

CMGT 585 Communication Leadership in the Entertainment Industry
Units: 4 Examination of communicative elements of leadership in entertainment products and processes; the role of communication experts in supporting, coaching and facilitating entertainment leadership. Instruction Mode: Lecture Grading Option: Letter

CMGT 586 Communication Leadership: Content, Theory, and Industry Practices
Units: 4 Fundamental principles of audience research; critique of existing methodologies; implications for global audiences and mass media markets. Instruction Mode: Lecture Grading Option: Letter

CMGT 587 Audience Analysis
Units: 4 Fundamental principles of audience research; critique of existing methodologies; implications for global audiences and mass media markets. Instruction Mode: Lecture Grading Option: Letter

CMGT 588 Global Storytelling: The Power of Narrative
Units: 4 Theory, structure and effects of
culture on narrative. Story in non-profit and health organizations; new fields that recognize the importance of storytelling. Storytelling in diverse media. Instruction Mode: Lecture Grading Option: Letter

CMGT 589 Storytelling, Culture and Experiential Communication
Units: 4 Terms Offered: FaSp How to communicate through storytelling in contemporary and diverse culture. Strategic story development for brands, for self-branding, and for social impact. Story creation utilizes narrative theories and workshop-style participatory activities. Instruction Mode: Lecture Grading Option: Letter

CMGT 590 Directed Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Research leading to the master's degree. Maximum units which may be applied to the degree to be determined by the school. Duplicates Credit in former COMM 590. Instruction Mode: Lecture Grading Option: Credit/No Credit

CMGT 591 Communication Internship
Units: 1, 2 Max Units: 03 Terms Offered: FaSpSm Field experience in applying communication principles to settings in organizations, campaigns, or other contexts; analysis and assessment of issues and problems. Registration Restriction: Open only to graduate students in the following majors: Communication PhD, Communication Management, Global Communication, Digital Social Media, Public Diplomacy, Public Diplomacy (Practitioner and Mid-Career Professional) Instruction Mode: Lecture Grading Option: Credit/No Credit

CMGT 592 Theory and Practice of Professional Presentations
Units: 2 Application of communication and persuasion theories in the creation of oral presentations; critical assessment of the role of new technologies for professional presentations. Credit Restriction: Not available for students in the MA and PhD programs in communication. Instruction Mode: Lecture Grading Option: Credit/No Credit

CMGT 597a Communication Research Practicum
Units: 2 Terms Offered: FaSpSm Students design and produce an original project appropriate for their emphasis area within the Master of Communication degree. Prerequisite: CMGT 501 and CMGT 540. Registration Restriction: Open to Master of Communication Management students only. Duplicates Credit in former CMGT 597. Instruction Mode: Lecture Grading Option: Letter

CMGT 597b Communication Research Practicum
Units: 2 Terms Offered: FaSpSm Students design and produce an original project appropriate for their emphasis area within the Master of Communication degree. Prerequisite: CMGT 501 and CMGT 540. Registration Restriction: Open to Master of Communication Management students only. Duplicates Credit in former CMGT 597. Instruction Mode: Lecture Grading Option: Letter

CMGT 599 Special Topics
Units: 2, 3, 4 Max Units: 8.0 Instruction Mode: Lecture Grading Option: Letter

Motion Picture Producing
Note: Instructor availability for a particular course or section cannot be guaranteed.
CMPP 541a Producing Workshop
Units: 4 Terms Offered: FaSp Producing workshops in creative and physical filmmaking. Duplicates Credit in CTPR 504 and former CMPP 541L. Instruction Mode: Lecture Grading Option: Letter

CMPP 541b Producing Workshop
Units: 4 Terms Offered: Sp Further hands-on creative and physical filmmaking, making more advanced short films. Duplicates Credit in CTPR 504 and former CMPP 541L. Instruction Mode: Lecture Grading Option: Letter

CMPP 548 Introduction to Producing for Television
Units: 2 Terms Offered: Fa An introduction to the creative and business aspects of producing for television. Registration Restriction: Open only to PFTM students. Instruction Mode: Lecture Grading Option: Letter

CMPP 550 Script Analysis for the Producer
Units: 2 Terms Offered: FaSp Detailed evaluation of completed scripts and of the producer's role in bringing them to fruition. Instruction Mode: Lecture Grading Option: Letter

CMPP 560 Script Development
Units: 2 Terms Offered: FaSp From idea and story to finished shooting script. Instruction Mode: Lecture Grading Option: Letter

CMPP 561 Motion Picture and Television Marketing
Units: 2 Terms Offered: Fa Analysis and preparation of film and television show marketing campaigns from creative concept to targeting across various media. Instruction Mode: Lecture Grading Option: Letter

CMPP 563 Producing Symposium
Units: 1 Terms Offered: Fa Lectures on creative aspects of producing. Instruction Mode: Lecture Grading Option: Credit/No Credit

CMPP 564 Digital Media and Entertainment
Units: 2 Terms Offered: Sp Exploring the effect of digital media on the entertainment landscape. Instruction Mode: Lecture Grading Option: Letter

CMPP 565 Producing Symposium
Units: 4 Terms Offered: FaSp Concept and preparation of a complete schedule and budget. Instruction Mode: Lecture Grading Option: Letter

CMPP 566 Finance
Units: 2 Terms Offered: FaSp Seminar on financial aspects of film industry and methods of financing films. Instruction Mode: Lecture Grading Option: Letter

CMPP 568 Producing for Television
Units: 2 Terms Offered: Fa Discussions of the creative and financial aspects of television producing. Instruction Mode: Lecture Grading Option: Letter

CMPP 569 Seminar on Non-Mainstream Producing
Units: 2 Terms Offered: FaSp Discussions on non-major studio producing options, including non-traditional financing and non-theatrical producing. Instruction Mode: Lecture Grading Option: Letter

CMPP 570 Advanced Television
Units: 2 Terms Offered: Fa Advanced studies of the business of television, including the economic structure of the television industry. Instruction Mode: Lecture Grading Option: Letter

CMPP 571 Producing the Screenplay
Units: 2 Terms Offered: FaSp Workshop for the creation and development of a screenplay or teleplay. Instruction Mode: Lecture Grading Option: Letter

CMPP 589a Graduate Film Business Seminar
Units: 3 Terms Offered: Fa Economics of the entertainment industry, including entertainment law, and rights acquisition. Includes weekly film screening. Instruction Mode: Lecture Grading Option: Letter

CMPP 589b Graduate Film Business Seminar
Units: 4 Terms Offered: Sp Economics of the entertainment industry, including entertainment law, and rights acquisition. Includes weekly film screening. Instruction Mode: Lecture Grading Option: Letter

CMPP 591 Producing Practicum
Units: 2 Terms Offered: Irregular Producing workshop encompassing all aspects of producing, including script development, budgeting, casting and actual production. Instruction Mode: Lecture Grading Option: Letter

CMPP 592 Individual Project Seminar
Units: 4 Terms Offered: Sp Directed research project and seminars in related topics. Duplicates Credit in former CTPR 592. Instruction Mode: Lecture Grading Option: Letter

CMPP 599 Special Topics
Units: 2 Terms Offered: Irregular Investigation of new and emerging aspects of producing motion pictures and television; special and experimental subjects. Instruction Mode: Lecture Grading Option: Letter

Cinematic Arts
Note: Instructor availability for a particular course or section cannot be guaranteed.

CNTV 101 Reality Starts Here
Units: 2 Terms Offered: Fa Introduction to emerging forms of immersive entertainment, to Cinematic Arts faculty, and to guest speakers who will comment on the changing nature of the industry. Instruction Mode: Lecture Grading Option: Credit/No Credit

CNTV 325 Digital Cinematography
Units: 3 Terms Offered: Sm The craft of cinematography for digital media; includes lectures, on-set video production exercises, and scene studies. Instruction Mode: Lecture Grading Option: Letter

CNTV 332 The Art of Motion Picture Editing
Units: 2 Analyzing and deconstructing all the elements of the art of creative editing; manipulating visual images through editing. Instruction Mode: Lecture Grading Option: Letter

CNTV 367 The Music Video: Business and Practice
Units: 4 Terms Offered: Sm Creating concepts, writing treatments, pitching, and
the realities and details of music video production including budgeting, pre- and post-production. Duplicates Credit in CTPR 497 Music Video Production. Instruction Mode: Lecture Grading Option: Letter

CNTV 370 3-D Animation for Film and Video
Units: 4 Terms Offered: Sm The basics of 3-D computer animation techniques and their use in creating animated characters. Instruction Mode: Lecture Grading Option: Letter

CNTV 372 Developing the Screenplay
Units: 2 Terms Offered: Sm The process of script development, examining a project from the initial idea and tracking its progress through to the completed screenplay ready for production. Instruction Mode: Lecture Grading Option: Letter

CNTV 375 Breaking Into the Entertainment Industry
Units: 2 Terms Offered: FaSm An overview of the entertainment industry and the tools needed to secure jobs and survive and succeed in the market. Instruction Mode: Lecture Grading Option: Letter

CNTV 390 Special Problems
Units: 1, 2, 3, 4 Terms Offered: Irregular Supervised, individual studies. No more than one registration permitted. Enrollment by petition only. Instruction Mode: Lecture Grading Option: Letter

CNTV 392 Filmmaking Intensive
Units: 4 Terms Offered: Sm The basic technical and aesthetic concepts underlying motion picture production and an exploration of visual language. Instruction Mode: Lecture Grading Option: Letter

CNTV 393 16mm Filmmaking: Structuring Scenes That Work
Units: 4 Terms Offered: Sm The creative and technical aspects of 16mm filmmaking, particularly as they apply to the short film or the individual scene. Instruction Mode: Lecture Grading Option: Letter

CNTV 405 Studio Producing and Directing
Units: 4 Terms Offered: Sm Understanding the craft and art of directing in the studio system, and developing a working methodology for creative producing. Instruction Mode: Lecture Grading Option: Letter

CNTV 410 Non-Fiction Filmmaking
Units: 4 Terms Offered: Sm Conceiving, researching, writing, producing, directing, and editing an original non-fiction work and exploring practical training in techniques of non-fiction film. Instruction Mode: Lecture Grading Option: Letter

CNTV 411 Creating the Short Film
Units: 4 Terms Offered: Sm An overview of the concerns, functions and responsibilities associated with creating a short narrative film. Casting, producing and directing an individual project. Instruction Mode: Lecture Grading Option: Letter

CNTV 413 Digital Editing
Units: 4 Terms Offered: Sm Introduction to non-linear editing techniques, hardware, digitizing, logging, and special effects, using the AVID Media Composer editing system. Instruction Mode: Lecture Grading Option: Letter

CNTV 415 Commercial Production: The Art of the Sixty-Second Story
Units: 4 Terms Offered: Sm The three main components of commercials: agency creation, spot production, and post-production. Writing, pitching, casting, directing, and editing commercials. Instruction Mode: Lecture Grading Option: Letter

Units: 4 Terms Offered: FaSpSm An overview of the contemporary studio system, independent films, and television, including script analysis, pitching, optioning properties, the marketplace, representation, career management, and networking. Instruction Mode: Lecture Grading Option: Letter

CNTV 420 Independent Feature Filmmaking
Units: 2 Terms Offered: FaSpSm Independent feature film development, financing, production, and distribution. Discussions with independent filmmakers. Instruction Mode: Lecture Grading Option: Letter

CNTV 427 The Art and Commerce of Independent Film
Units: 4 Terms Offered: FaSpSm An introduction to the legal aspects of securing and protecting content in all forms of media, and the business side of project development and implementation. Registration Restriction: Open only to Business Administration (Cinematic Arts) majors Instruction Mode: Lecture Grading Option: Letter

CNTV 428 Fundamentals of Entertainment Law and Dealmaking
Units: 4 Terms Offered: FaSpSm An introduction to the legal aspects of securing and protecting content in all forms of media, and the business side of project development and implementation. Registration Restriction: Open only to Business Administration with Cinematic Arts students Instruction Mode: Lecture Grading Option: Letter

CNTV 440 The Business of the Entertainment Industry: Motion Pictures, Television, Animation, Video Games, and Interactive Entertainment
Units: 2 Terms Offered: Fa An in-depth analysis of the history, evolution, and current state of the motion picture, television, animation, video game, and interactive entertainment industries. Instruction Mode: Lecture Grading Option: Letter

CNTV 441 Business and Cinematic Arts Entertainment Practicum
Units: 2 Terms Offered: Sp Application of business and cinematic arts concepts to entertainment industry networking and career-building experiences. Peer collaboration/competition, and identifying organizations and job opportunities. Registration Restriction: Open only to Business Administration (Cinematic Arts) majors Instruction Mode: Lecture Grading Option: Letter

CNTV 457 The Entrepreneur Entrepreneur: Getting Your First Project Made
Units: 2 Terms Offered: Fa The practical aspects of entrepreneurial producing in the entertainment industry. Identifying and understanding the pitfalls and benefits of creating one’s own projects. Instruction Mode: Lecture Grading Option: Letter

CNTV 458 Producing and Marketing Feature Length Films
Units: 2 Terms Offered: Fa The principles and business practices of producing and marketing feature length films in the motion picture industry. Registration Restriction: Open only to Business Administration (Cinematic Arts) majors Instruction Mode: Lecture Grading Option: Letter

CNTV 481 Entertainment Industry Launchpad
Units: 4 Terms Offered: Sm Provides senior Business of Cinematic Arts majors with the practical and theoretical skills needed to launch their entry into the Entertainment Industry. Registration Restriction: Open only to seniors in Business Administration with Cinematic Arts Instruction Mode: Lecture Grading Option: Letter

CNTV 495 Internship in Cinematic Arts
Units: 1, 2, 3, 4, 5, 6, 7, 8 Max Units: 12.0 Terms Offered: FaSpSm Individual research and readings. Credit Restriction: Not available for graduate credit. Instruction Mode: Lecture Grading Option: Letter

CNTV 498 Directed Research
Units: 1, 2, 3, 4, 5, 6, 7, 8 Max Units: FaSpSm On-the-job film, television, and interactive industry experience in the areas of interest of the individual student. Requires departmental approval. Duplicates Credit in former CTIN 495 and former CTPR 495 Instruction Mode: Lecture Grading Option: Letter

CNTV 499 Internship in Cinematic Arts
Units: 1, 2, 4 Max Units: 4 Terms Offered: FaSpSm On-the-job film, television, and interactive industry experience in the areas of interest of the individual student. Requires departmental approval. Duplicates Credit in former CTIN 495 and former CTPR 495 Instruction Mode: Lecture Grading Option: Credit/No Credit
CNTV 499 Special Topics
Units: 2, 3, 4 Max Units: 8.0 Selected topics in cinematic arts. Instruction Mode: Lecture Grading Option: Letter

CNTV 501 Cinematic Arts Seminar
Units: 1 Max Units: 4.0 Terms Offered: Fa An introduction to an industry and art form in the midst of transformation, with guest speakers and cinematic arts faculty who will address various research and technologies. Instruction Mode: Lecture Grading Option: Credit/No Credit

CNTV 521 The World of the Producer
Units: 4 Terms Offered: FaSp A comprehensive overview of the role of the producer in creating television programming, feature films, and new media content. Instruction Mode: Lecture Grading Option: Letter

CNTV 522 The Television Industry: Networks, Cable and the Internet
Units: 4 Terms Offered: FaSp The current state of the television industry and future business paradigms. Instruction Mode: Lecture Grading Option: Letter

CNTV 523 Feature Film Financing and the Studio System
Units: 4 Terms Offered: FaAn overview of the motion picture studio system and how to finance feature films. Principles, business practices, and future trends. Instruction Mode: Lecture Grading Option: Letter

CNTV 524 Digital Technologies and the Entertainment Industry
Units: 4 Terms Offered: FaSp The impact of digital technologies on the film, television, and music industries from content creation to distribution. Instruction Mode: Lecture Grading Option: Letter

CNTV 525 Entertainment Marketing in Today’s Digital Environment
Units: 4 Terms Offered: Fa Entertainment industry marketing disciplines, covering motion pictures, television, music, theme parks, motion entertainment, and video games. Current principles and business practices. Instruction Mode: Lecture Grading Option: Letter

CNTV 530 Cinematic Ethics
Units: 1 Terms Offered: FaSp An introductory course in the ethical questions professionals encounter in the field of cinematic arts. Case studies and guest lectures. Registration Restriction: Open only to students in the School of Cinematic Arts. Instruction Mode: Lecture, Discussion Grading Option: Letter

CNTV 561 Publicity for Cinema and Television
Units: 4 Terms Offered: FaSp Analysis and preparation of advertising and publicity campaigns for entertainment films and television. Duplicates Credit in former CTPR 561. Instruction Mode: Lecture Grading Option: Letter

CNTV 562 Seminar in Motion Picture Business
Units: 4 Terms Offered: FaSp Problems of studio operation, production, distribution, exhibition or legal procedures relating to the motion picture. Duplicates Credit in former CTPR 562. Instruction Mode: Lecture Grading Option: Letter
